BEFORE THE HEARING OFFICER FOR THE

STATE BOARD OF EDUCATION

In the matter of the petition requesting The excision of territory from Post Falls School District No. 273, And annexing said territory into Coeur d' Alene School District No. 271, District.	**FINDINGS OF FACT, CONCLUSIONS OF LAW AND RECOMMENDATION**

INTRODUCTION

A Hearing was conducted on September 13, 2017 by Hearing Officer, Edwin L. Litteneker, appointed by the State Board of Education for purposes of gathering public comment on a proposed change in the boundaries of the Post Falls School District No. 273 and the Coeur d' Alene School District No. 271. The Hearing commenced at 6:15 p.m. in the Library at the Atlas Elementary School in Coeur d' Alene, Idaho.

Idaho Code Section 33-308 provides for a process whereby the State Board of Education will consider the approval of a Petition to change the boundaries of adjoining school districts and may direct that an election be held, provided that the proposed excision and annexation is in the best interest of the children residing in the area described in the Petition. Additionally, the excision of the territory that is proposed should not leave the Post Falls School District with a bonded indebtedness in excess of the limit prescribed by law.

The Idaho State Board of Education has adopted rules at IDAPA 08.02.01.050 which include criteria for the review of the Petition for Excision and Annexation and a hearing process to gather public comment for purposes of the Hearing Officer making these recommendations to the State Board of Education.

Ten people attended the hearing on September 13, 2017. The Petitioner, Allen Dykes testified as well as the remaining persons in attendance. The Interim Superintendent of Coeur d' Alene School District No. 271, Dr. Olson and Dr. Keane, the Superintendent of the Post Falls School District No. 273 also provided testimony. The Sign in Sheet is made part of the Record which is transmitted separately in the Transmittal of the Record.

Dr. Keane submitted exhibits including a June 9, 2017 statement to the Post Falls Board of Trustees, Exhibit 1 and a petition proposing the revision of I.C. § 33-308 submitted to the Idaho School Board Association, Exhibit 2. Written comments were also received from Garry Nystrom which are identified as Exhibit. 3. The exhibits are also included in the Record.

The proceedings were recorded and a recording of the hearing is separately transmitted digitally to the State Board of Education and also referenced in the Transmittal of the Record.

FINDINGS OF FACT

1. A Petition to excise property from the Post Falls School District No. 273 was presented by Allen Dykes, Chief Operating Officer, Architerra Homes, LLC requesting that a real estate development known as The Trails be annexed into the Coeur d' Alene School District and excised from the Post Falls School District.
2. The Petition proposes to remove an area which is intended to be a residential development which is divided between the City of Cocur d' Alene and the City of Post Falls. The area proposed to be included in the Coeur d' Alene School District would include the entirety of The Trails and subsequent subdivisions which are planned to be developed over the next twelve years. The Developer of The Trails anticipates that there would be an estimated forty

homes constructed per year for twelve years with an estimated sixteen school aged children added per year for a total of approximately 192 school aged children.

3. Initially, though, there may only be one school aged Student who would presently attend school in the Post Falls School District.
4. The area proposed for annexation into the Coeur d' Alene School District is within 1000 feet of Atlas Elementary, Coeur d' Alene School District.
5. The Post Falls School District Board of Trustees met and considered the Petition to Excise the area. The School Board took no position on the proposed excision, See Exhibit 1.
6. The Coeur d' Alene School District considered the Petition on June 5, 2017 and by a vote of two to three defeated a Motion to recommend approval of the request. Effectively the decision of the Board of Trustees then was to not recommend that the annexation occur.
7. The Post Falls School District acknowledges the substantial growth in the area and anticipates building a neighborhood elementary school to service the anticipated student growth.
8. The property owners except for one property owner testified overwhelming testified in favor of the Petition,.
9. The Coeur d' Alene School District endorsed a collaborative process to reasonably and consistently adjust the boundary between the Coeur d' Alene School District and the Post Falls School District. The Post Falls School District joined in the analysis that it made substantially more sense to engage in a cooperative discussion about where the common boundaries should be.
10. The excision would not leave the Post Falls School District with a bonded indebtedness in excess of the amount provided by law.

11. The Record reflects that the Petition is in the form required pursuant to I.C. § 33-308 and is signed by a sufficient number of electors. The legal descriptions were in a form required by I.C. § 33-308.

CONCLUSIONS

1. IDAPA 08.02.01.050. requires a review of the proposed alteration of a District's boundaries that takes into account specific facts which are discussed above.
2. Based on this Record, the annexation as proposed does not leave the Post Falls School District with a bonded indebtedness in excess of the amount provided by law.
3. However, there is a considerable concern that a continued piecemeal change in the respective boundaries of the Post Falls and Coeur d' Alene School Districts is not in anyone's best interests.
4. The Post Falls School District patrons were interested in the annexation into the Coeur d' Alene School District based upon the proximity of the neighborhood to Atlas Elementary within the Coeur d' Alene School District. However, at this time there are not a significant number of Students attending in Post Falls School and residing in The Trails.
5. The Post Falls School District is prepared to construct a school within its boundaries adjacent to the Coeur d' Alene School District which can reasonably and timely serve this neighborhood as it develops.
6. The Coeur d' Alene School District apparently has sufficient capacity and community support to serve this neighborhood adjacent to the Atlas Elementary School. However, the District's opposition to the proposed annexation weighs against the idea that the annexation is either in the interests of the students or is a suitable school setting for the potential students to be enrolled.

7. It makes substantially more sense to permit the affected school districts to create a collaborative process whereby the respective school districts can resolve their common school district boundaries, prior to submitting the Petition to the parties within the area to be annexed.

RECOMMENDATION

The Record does not support a conclusion that the excision of the described land from the Post Falls School District #273 to be annexed into the Coeur d' Alene School District #271 would be appropriate.

Therefore, it is recommended to the State Board of Education that the petition for excision and annexation be denied.

DATED this 4 day of October, 2017.

Edwin L. Litteneker
Hearing Officer

Dear Neighbor:

We are contacting you on behalf of the Coeur d'Alene School District and the Post Falls School District regarding the boundary line between our two school systems. You are receiving this letter because you own property in an area under consideration for a boundary adjustment.

As development in Kootenai County is bringing Post Falls and Coeur d'Alene neighborhoods closer together, it's a good time for us to take a close look at our common boundary and consider an adjustment that would establish a clearer, more logical dividing line.

Our initial discussions have focused on designating Huetter Road as the primary boundary between the school districts, from Harvest Avenue south to Maplewood Avenue. (See attached map.) This would mean some property in the Post Falls district would move into the Coeur d'Alene district north of Mullan Avenue, and some property in the Coeur d'Alene district would move into the Post Falls district south of Mullan Avenue.

We all recognize that as our communities continue to grow, the remaining parcels of vacant land between Post Falls and Coeur d'Alene are poised for development. We already have one residential development that is split awkwardly between our two districts, with the boundary line running straight through some homes. We can remedy that and avoid similar situations in the future if we are able to establish a permanent, common-sense boundary line in an agreement that is beneficial to both school districts.

While our two school districts are exploring the possibility of this boundary change, it is important that we hear from potentially affected property owners, as a change may impact where your children attend school or the amount of property taxes you pay for public education. In addition, it is our intent to include a grandfather clause in any agreement to permit currently enrolled students directly affected by a boundary adjustment to attend school in the district of their choice until they complete their schooling.

The Boards of Trustees for the Coeur d'Alene and Post Falls school districts will hold a joint workshop on Monday, March 19, to further discuss this issue and gather input from potentially affected property owners. The workshop is scheduled to begin at 6:00 p.m. at the Midtown Meeting Center, 1505 N. 5th St., Coeur d'Alene.

If you are unable to attend this workshop but would like to submit written comments, you may send your comments to Lynn Towne, Clerk of the Board, Coeur d'Alene School District, 1400 N. Northwood Center Ct., Coeur d'Alene, ID 83814. You also may email comments to ltowne@cdaschools.org.

Sincerely,

Casey Morrisroe, Chairman Coeur d'Alene Board of Trustees	Dave Paul, Chairman Post Falls Board of Trustees	Stan Olson, Superintendent Coeur d'Alene School District	Jerry Keane, Superintendent Post Falls School District

EXHIBIT 6

BEFORE THE STATE DEPARTMENT OF EDUCATION

In RE: Boundary Change Between Independent School District of Boise City No. 1 And Meridian Joint School District No. 2	))))))))	**SUPERINTENDENT OF PUBLIC INSTRUCTION'S ORDER UNDER SECTION 33-307, IDAHO CODE, FOR ALTERATION OF SCHOOL DISTRICT BOUNDARIES**

1. Independent School District of Boise City No. 1 initially petitioned pursuant to Section 33-308, Idaho Code, for the excision from that district and the annexation to Meridian Joint School District No. 2 of certain lands in the Avimor subdivision development so that patrons moving to the Avimor development would be served by a single district.

2. The Petition was assigned to a hearing officer, who conduct a hearing and who, on May 29, 2009, entered Findings of Fact, Conclusions of Law and Recommended Order.

3. On August 20, 2009, the Idaho State Board of Education approved the excision and annexation.

4. Subsequent to the State Board of Education's approval of the excision and annexation, Independent School District of Boise City No. 1 informed the Elections Division of the Ada County Clerk's Office of the State Board's action in order to initiate the conducting of an election.

5. On September 11, 2009, prior to the conducting of any election, Independent School District of Boise filed with the Idaho State Department of Education a Petition for Reconsideration of its original Petition on the grounds that the proposed boundary change should proceed under Section 33-307, Idaho Code, which does not required an election, rather than Section 33-308, Idaho Code, which does require an election, since there were no persons residing in the affected area and,

thus, no persons who could qualify to vote were the district to hold an election.

6. Simultaneous with the filing of its Petition for Reconsideration, Independent School District of Boise City No. 1 informed the Ada County Clerk in writing of its Petition for Reconsideration and requested that the Clerk stop all activities and preparations for a boundary election.

7. On October 15, 2009, the Petition for Reconsideration and supporting evidence came before the State Board of Education, which found that the Petition for Reconsideration to be in the best interest of the school children who would reside in the affected areas of each district and which approved the excision of the property at issue from Independent School District of Boise City No. 1 and its annexation to Meridian School District No. 2 under Section 33-307, Idaho Code.

THEREFORE, IT IS HEREBY ORDERED THAT:

1. That the following property (Avimor Parcel 1) be excised from Independent School District of Boise City No. 1 and annexed to Meridian Joint School District No. 2:

A parcel of land situated the north half of Section 19, Township 5 North, Range 2 East, Boise Meridian, Ada County, Idaho; being those portions of Lots 2 and 13, Block 1, Avimor Subdivision No. 1, Book 100 of Plats at Pages 13049 through 13069, records of Ada County, lying in said Section 19; and being more particularly described as follows:

Commencing at a brass cap marking the north quarter-section corner of Section 19, Township 5 North, Range 2 East, Boise Meridian, the POINT OF BEGINNING:

Thence S87°17'17"E, 522, 86 feet along the north line of Section 19 to the boundary of Avimor Subdivision No. 1;

Thence S02°42'43"W, 330.00 feet along the boundary of Avimor Subdivision No. 1;

Thence N87°17'17"W, 919.72 feet along the boundary of Avimor Subdivision No. 1 to the easterly right-of-way line of N. Horseshoe Bend Road (SH-55);

Thence 238.92 feet on a non-tangent curve to the left, concave westerly, having a radius of 1225.92 feet, a central angle of 11°09'58", a chord bearing of N02°39'30"E, and a chord length of 238.54 feet, along the easterly right-of-way line of N. Horseshoe Bend Road (SH-55) and the boundary of Avimor Subdivision No. 1;

Thence S87°04'31"W, 15.00 feet along the easterly right-of-way line of N. Horseshoe Bend Road (SH-55) and the boundary of Avimor Subdivision No. 1;

Thence 93.78 feet on a non-tangent curve to the left, concave westerly, *(a 65-foot offset of a spiral curve to the left having a radius of 1145.92 feet, a deflection angle of 6°15', an arc length of 250.00 feet, a chord bearing of N7°05'29"W, and a chord length of 249.87 feet, as shown on State of Idaho Department of Highways construction plans for Federal Aid Project No. F-3271 (9))* having a chord bearing of N04°53'28"W, and a chord length of 93.76 feet, along the easterly right-of-way of N. Horseshoe Bend Road (SH-55) and the boundary of Avimor Subdivision No. 1 to the north line of Section 19;

Thence S87°17'17"E, 424.41 feet along the north line of Section 19 to the POINT OF BEGINNING.

The above-described parcel contains 6.99 acres, more or less.

2. That the following property (Avimor Parcel 2) be excised from Independent School District of Boise City No. 1 and annexed to Meridian Joint School District No. 2:

The southeast quarter of the southwest quarter of Section 17, Township 5 North, Range 2 East, Boise Meridian;

AND the northwest quarter of the southwest quarter of Section 17, Township 5 North, Range 2 East, Boise Meridian;

AND the southwest quarter of the southwest quarter of Section 17, Township 5 North, Range 2 East, Boise Meridian, INCLUDING those portions within Avimor Subdivision No. 1, Book 100 of Plats at Pages 13049 through 13069, records of Ada County;

AND the northwest quarter of the northwest quarter of Section 17, Township 5 North, Range 2 East, Boise Meridian;

AND the southwest quarter of the northwest quarter of Section 17, Township 5 North, Range 2 East, Boise Meridian;

AND the northwest quarter of the southwest quarter of Section 8, Township 5 North, Range 2 East, Boise Meridian, lying south of the Ada-Boise County Line;

AND the southwest quarter of the southwest quarter of Section 8, Township 5 North, Range 2 East, Boise Meridian;

AND the southwest quarter of the northwest quarter of Section 8, Township 5 North, Range 2 East, Boise Meridian, lying south of the Ada-Boise County Line.

3. The Board of Trustees of Independent School District of Boise City No. 1 and the Board of Trustees of Meridian Joint School District No. 2 shall notify the Idaho State Tax Commission and the Ada County Assessor and the Ada County Recorder, in accordance with the provisions of Section 63-215, Idaho Code, of the alteration pursuant to this Order of the districts' boundaries.

4. This Order is effective as of October 15, 2009.

DATED this 2 day of November, 2009.

Tom Luna, Superintendent of Public Instruction
State Department of Education

8 May 2018

Project 17019
Area 1
To be annexed to District #273 and
To be excised from District #271

A parcel of land located in sections 4, 5 and 8, township 50 north, range 4 west of the Boise Meridian, Kootenai County, Idaho, being more particularly described as:

Beginning at the northeast corner of said section 5;
Thence southerly along the east line of said section 2460 feet, more or less, to the beginning of a 1909.86 foot radius tangent curve to the left for the centerline of Huetter Rd. as depicted on ITD plan I-IG-90-1(48)5 pg 56 of 62;
Thence southeasterly along said curve and said centerline 243.89 feet;
Thence south 7° 21′ 18″ east (ITD bearings) along said centerline 485.25 feet to the beginning of a 572.96 foot radius tangent curve to the left for the centerline of Huetter Rd. as depicted on the 'Right-Of-Way Plan Seltice Way And Huetter Rd. Intersection Realignment' by Ruen-Yeager for Post Falls Highway District dated Jan. 1991 pg 3 of 10;
Thence along said centerline the following courses:
Southeasterly along said curve 151.12 feet to the beginning of a 600.00 foot radius tangent curve to the right;
Thence southerly along said curve 442.74 feet;
Thence south 19° 48′ 38″ west (Ruen-Yeager bearings) 270.36 feet to the beginning of a 600.00 foot radius tangent curve to the left;
Thence southwesterly along said curve 206.57 feet to a point on a line parallel with and 6.30 feet easterly of the west line of said section 4;
Thence south 0° 05′ 06″ west along said parallel line 1186 feet, more or less, to the northerly right-of-way line of Maplewood Avenue as determined on the plat of Edgewater at Mill River recorded in book 'J' of plats at page 60, records of Kootenai County, Idaho;
Thence leaving said centerline westerly along said northerly right-of-way line 505 feet, more or less, to a point on the extended west line of said plat;
Thence southerly along said west line and said line extended to the

center thread of the Spokane River;
Thence westerly along said center thread to the intersection with the north-south center line of said section 8;
Thence northerly along said north-south centerline to the northwest corner of the northeast quarter of said section 8;
Thence northerly along the north-south centerline of said section 5 for 5280 feet, more or less, to the northwest corner of the northeast quarter of said section 5;
Thence easterly along the north line of said section 2640 feet, more or less, to the said point of beginning.

NOTICE OF BOARD OF TRUSTEES MEETING

Joint Meeting with Post Falls School District 273

NOTICE IS HEREBY GIVEN that members of the Board of Trustees of School District 271 will hold a Special Meeting, Monday, March 19, 2018 beginning at 6:00 PM at the Midtown Center Meeting Room, 1505 N. 5th Street, Coeur d'Alene.

The Board will meet as noted on the attached agenda.

L. Towne
Lynn M. Towne, Clerk
Board of Trustees
School District 271

Dated this 15th day of March, 2018

Posted 3-15-18 L Towne

NOTE: If any auxiliary aids or services are needed for individuals with disabilities, please contact Lynn Towne, the Clerk of the Board, at (208) 664-8241 ext. 1007 or for T.T.Y 1-800-377-3529, no later than three (3) working days before the meeting. Personnel matters are routinely undertaken in Executive Session. Discussions about specific personnel matters are not an appropriate part of an open meeting agenda.

INVEST | INSPIRE | INNOVATE
We invest in each student to prepare, challenge and advance well-educated, resilient and future-ready citizens.

Board of Trustees
Coeur d'Alene School District 271 and Post Falls School District 273
Midtown Center Meeting Room

March 19, 2018

Special Meeting 6:00 PM

AGENDA

1. Call Meeting to Order/Pledge of Allegiance
2. Welcome – Casey Morrisroe/Dave Paul
3. Joint Meeting/Workshop

A. Purpose of Meeting	Stan Olson
B. How did we get here?	Stan Olson
C. (Draft) Boundary Proposal Presentation	Jerry Keane
D. Public Comment	*Citizens may speak for three minutes on this topic.*
E. Board Questions and Comments	Casey Morrisroe and Dave Paul
F. Other Matters of Concern	All

4. Adjournment

March 2, 2018

Lynn,

Good afternoon! My name is Joshua Wold. My wife and I are currently building a home in The Trails with Architerra; moving in this month (we may not be able to make the meeting because it's the same day as one of our walkthroughs)

We saw the letter regarding the boundary between Post Falls and Coeur d'Alene for school districts.

It is our desire that our new home would be in the Coeur d'Alene School District. We were under the impression that this was already the case and were surprised when we saw the letter.

Resetting the boundary line to Huetter is a change that we would wholeheartedly support.

The new address we'll be moving into will be 4214 Downing Lane, Coeur d'Alene ID 83815.

Thank you so much!

Joshua and Monica Wold
Cell: (260) 615-8254

Board of Trustees
Post Falls School District
District 273

As owner of parcel #H00000216900, parcel description SE-SW EX RW 21 51N 04W, we fully support the proposed boundary adjustment under consideration between the two districts

The proposal of the new boundary line seems to be a logical and common sense adjustment resulting from the evolution of the communities

Your consideration to grandfather affected enrolled students to attend the school district of their choice during the transition
seems sensible as well

Thank you for your work as Trustees as you guide the challenging education process of our communities

Respectfully,

Robert Farr Teresa Farr

March 16, 2018

I reside at 6965 Rendezvous Dr. CDA 83815. I believe that the proposed boundary change making Heutter Rd. the new boundary between CDA and Pist Falls school districts is a good idea. Thank you for considering my opinion. Joan McCarty

---

March 18, 2018

I am going to be so sad for my kids and the emotional toll it will take when we move into our house in the trails and they have to be moved to another city for school. Living in 83815 should go to school in 83815. I drive to the school 3 times a day for drop off and pick ups and volunteer also in my kids classes. Please change for them to be in Cda school district

-Ashley Morin

March 19, 2018
My granddaughters live in CDA and attend Atlas Elementary. Currently only a 5 minute drive for their mother who is also home with a toddler. She has to transport them in the morning then back to pick up the kindergartner at 12;30 and back again at 3;30 for the second grader. This trip would be so much harder on her not to mention the girls who would loose several of their friends and an hours sleep if they had to travel to post falls. They are currently buying a home in the Trails housing development that could potentially put them in a post falls school district. Please consider this at your meeting.
Thank you for your consideration, Denise Morin

March 19, 2018

Dear Board of Trustees,

Aly and I are building a home in the Trails neighborhood off of Hanley Avenue and North Carrington Lane. Our new address is going to be 6809 Hourglass. We would like to be zoned into the Coeur d'Alene school district. We are moving to Coeur d'Alene to be part of the Coeur d'Alene community and that definitely involves our boys going to school in Coeur d'Alene. We think that Huetter Road is a very sensible boundary. Huetter Road is a natural boundary for most of the kids in the surrounding neighborhoods because of its undeveloped, rural nature with no sidewalks or good crossing. We want our kids to go to school with their neighborhood friends and most likely those friends are going to be the kids from The Landings and Hawks Nest.

Thank you,

Eric & Aly Clyne

March 19, 2018

Greetings Lynn,

As I am unable to attend tonights meeting regarding the letter dated March 1, 2018 regarding adjusting the boundary line for the school districts, please accept my following comments.

I feel at the stage of growth of both Post Falls and Coeur d'Alene, the adjustment of the school district boundaries are justified and necessary at this point. Heutter Rd is well accepted as the boundary between the two cities and as a resident of The Trails neighborhood in CDA, would like to feel that children in my neighborhood establish long term relationships with the other children in the neighborhood and not be shuttled to and fro between CDA and Post Falls.

I'm also not in favor of paying Post Falls school taxes as a resident of Coeur d'Alene.

Therefore, I am very much in favor of the boundary adjustments outlined in the letter and map dated March 1, 2018.

Best regards,

Barbara Yeager

March 19, 2018

To Coeur d'Alene and Post Falls School Districts and Board of Trustees,

Thank you for your March 1, 2018 letter regarding your proposed Coeur d'Alene / Post Falls school district boundary line adjustment. We have reviewed and support your recommended boundary line change to better align each district and better accommodate future growth. We agree this change provides for a clearer and more logical dividing line.

Thank you for your efforts in planning for future growth.

Ryan Nipp – Parkwood Business Properties

March 19, 2018

To whom it may concern:

My name is Dan Shaw, and my wife Kami Shaw and I have three boys, ages 9, 7, and 2, and we are expecting one more (against all odds, a girl!). We are currently building a house in The Trails neighborhood in NW Coeur d'Alene. Our house is in the city of Coeur d'Alene, but we are currently zoned for Post Falls school district. My wife grew up in Coeur d'Alene, we met here, lived in Seattle for 10 years, and now we've moved back. We strongly support the proposed boundary change that would move us to Coeur d'Alene School District.

First off, we have nothing against Post Falls. However, living in Coeur d'Alene, it makes logical sense for us to go to Coeur d'Alene schools, and that's what we expected to do. Similarly, if we had bought a home in Post Falls we would have expected to go to Post Falls schools. It makes sense and contributes to the feeling of community. We are more familiar with Coeur d'Alene schools in general, and they are much closer to our new home. The Post Falls elementary school we would be attending is 5 miles away, the middle school is 7 miles away, and the high school is 5 miles away. Conversely, the closest Coeur d'Alene elementary school is 1.5 miles way, the middle school is 2 miles away, and the high school is 2 miles away. We are talking about the difference of a short walk or drive/bus ride, compared to a 15-minute drive or likely a much longer bus ride. We would have to drive through a section of town that goes to a Coeur d'Alene school to reach their Post Falls school 15 minutes away. Other activities we do would still be based in Coeur d'Alene, such as Parks and Rec sports. We want them to live near, go to school with, and play sports with the same group of kids and families. If the change does not happen it would be much harder for our boys to make lasting friends.

Additionally, Coeur d'Alene is planning to build an additional school in the NW quadrant of the city, which should increase the capacity in that region. If this change does not happen now, I feel confident that it would happen eventually. We would much prefer our children start in their Coeur d'Alene schools now rather than 5 years from now. The only reason I can see to not make this change is for financial reasons. As a school board your primary concern is for the welfare of the children in your area. Please don't make this about the money, make it about doing what is best for the children. What is best for the children is to make this change, to allow them to go to the schools that are closer, with the children that live near them.

Thank you for your consideration,

Daniel Shaw, DDS

Kami Shaw

Eli, Logan, and Jackson Shaw

March 19, 2018

I would like to voice my full support for common sense boundaries in Coeur d'Alene School District. I have lived in the Coeur d'Alene area over 18 years. I have thrived on what the area has to offer. We have started a business and raised our family here with the support of this community. When I say support I mean "Coeur d'Alene Support"- from teachers taking extra time out of their day to help raise money for a school trip to France to business men offering brainstorming time with my husband. For us to send Coeur d'Alene resident's children to Post Falls is ridiculous. These people live and work in Coeur d'Alene it is an added burden to families to be driving back and forth. I am asking this community to take in there own like they have always done. A perfect example of my life in Coeur d'Alene happened a couple weeks a ago. I just had finished signing papers at escrow with my son on his first home. After this I went to grab a coffee and I ran into his high school wresting coach. We spent a few minutes catching up on my son achievement of buying a home and talked about his family. This is Coeur d'Alene's heart and soul. This is how I raised great kids. My kids had the full support of this community and flourished- we can make room for a few more.

Thank you,
Nichol Johnson

March 19, 2018

To whom it may concern

We are prospective homeowners in The Trails subdivision and are unable to attend tonight's workshop

We feel that Huetter is the boundary line and that all homes and subdivisions going east which includes The Trails should be zoned for the CDA school district. There shouldn't be any division especially in one subdivision. This is a community and the children that will attend these schools are part of that community. They need stability and oneness as they grow up with the children in their community

Do not divide them. They need to be united as a whole community.

If you have any questions, please feel free to email at this address

Thank you for your time and consideration. We hope you will truly consider the children and make The Trails development part of the CDA School District

Sincerely,
James and Connie Wills

March 20, 2018

Good Morning Lynne,

I know I am late, and have probably missed any deadline for input regarding the potential boundary change between the CDA school District and the Post Falls School District, but I thought I would try.

My family and I own/live at 6685 E Maplewood Ave., Post Falls, which is located on the NE corner of the intersections of Maplewood Ave and Seeley St, which is located a short distance east of the western boundary (current) of the CDA school district.

Prior to purchasing our home around 3 years ago, we lived rented within the Post Falls School District, and our oldest son (age 10, going into 6th grade) has attended schools in the Post Falls School District his entire school career thus far. Since we purchased our home, we have had to petition the Post Falls School District each year to allow our son to continue to enroll and attend school there with familiar teachers and friends, which has not been an undue burden to this point, as the elementary schools have the GAP afterschool program.

The crux of the biscuit is this: because we attend schools in Post Falls, but live within the CDA school district, we are unable to ride the bus. Without a decent after school program at the middle schools in Post Falls, we are faced with the challenge of trying to get our child after school to get him home. I work for Latah County in Moscow (90 minute commute) and my wife is a Hospice social worker, and neither of us can rellably be available to get him home after school. So, this year, after 7 years in the District, we may be forced to attend CDA schools, just because of transportation issues.. Changing the boundaries, as proposed, puts us inside the Post Falls School District, and fixes the problem..

Thank you

-James Agidius

GIS Coordinator

Latah County, ID

ATTN: IDAHO STATE BOARD OF EDUCATION

Thank you for your time and attention to revisiting the school district boundary line between Coeur d'Alene and Post Falls. As you are aware, the existing dividing line takes an irregular jog to the East of Huetter (just south of Poleline) thus deviating from the City boundaries between Post Falls and Coeur d'Alene respectively. See attached map. The newly proposed boundary update not only straightens out the dividing line, but also brings with it the following advantages:

The current boundary line is confusing to home buyers in the newly developed Coeur d'Alene communities. In some cases, families on the same street, often right across the street from each other, are in different school districts. This new boundary allows for neighborly communities, where neighbor kids build shared friendships, can carpool, etc.

The new boundary also cleans up the bus routes. With the current boundary, Post Falls buses are required to drive North into Coeur d'Alene, up to Prairie Avenue, then south through all the neighborhoods that are aligned with the Coeur d'Alene school district. Relative to the adjacent communities, a portion of The Trails community would be the only pocket community attending Post Falls schools. Both cities and particularly families of small children will benefit by having a single bus route through the developments. This new plan will eliminate the "out-of-the –way" trips or Post falls buses, and will eliminate accidental bus trip rides to the wrong city/school.

As far as the school impact goes, we conservatively anticipate that roughly 8 homes with school aged children will be added to Coeur d'Alene each year. The Trails community sells about 40 homes per year, of which maybe 20% have school aged children (K-12). We feel that this number is very manageable and will not have any negatively impacts to either Post Falls or Coeur d'Alene.

Overall, the newly proposed line brings neighborhood cohesiveness and easier bus transportation routes. This plan is commonly referred to as "the common sense" revision. I feel strongly that the new line is mutually beneficial for all parties and has been very well received in the community. I welcome a phone call if you have any further outstanding questions. Again, we greatly appreciate your time on this matter.

PUBLIC TESTIMONY AT JOINT POST FALLS SCHOOL DISTRICT/COEUR D'ALENE SCHOOL DISTRICT BOUNDARY WORKSHOP, MARCH 19, 2018

Katie Chaffin, Coeur d'Alene: We have two children that are already in the Coeur d'Alene School District. We are just bettering our family, moving into The Trails. With the expectation of common-sense boundaries, we thought that would be Coeur d'Alene School District. So I appreciate this coming back to the table, as it was declined in December by the state board. I'm not sure if, is it in the law, the best interest of the children – if that was taken in effect. With all these children being in the same neighborhood, but you across the street have to go to Post Falls, you have to go to Coeur d'Alene. That isn't common sense. I appreciate the positivity in allowing us to talk about it again. Thank you.

Gary Nystrom, Post Falls: (Lives near The Landings) I've had some long conversations with Dave Paul and Jerry Keane. For the most part I'm for this. But what I have not been supportive (of) is the tax cuts that we take, the revenue losses from property value that we take. And somebody just mentioned $40 million, but we're not talking about The Landings. If you build the total out, and I just take a conservative number that the builder has, you're at $200 million by the time they get those 475 houses in there pretty soon. So that's something I look at, because then we lose that value; it pushes taxes back onto us. And I know some people in here keep discussing common-sense boundary. I went to The Trails and talked to them, pretend like I was a buyer, and asked them what the school district ought to be. They've been very open: You're in the Post Falls School District, but we're trying to move you over. It's the buyer's responsibility to know where they're into. That's their job to know what school district they're into. And that's one of the reasons I fought this move last year for this. But Jerry will tell you I'm kind of on board with this. But I'm the one that says that kids need to be in their school district if they want to stay here. I've supported much of this that's gone on. I just worry about us sucking up losses in property values, and that's where I stand on it. And I also want to see a vote of the people on this. Okay?

Tori Myers, Coeur d'Alene: I currently live in The Trails. I have a 4-year-old, so he's not in school yet. The boundary lines goes right through my property. So half of my property is in Coeur d'Alene and the other half of my property is in Post Falls. And so for me, I just feel like, OK, so my neighbor right next door to me gets to go, because their boundary line is like this much more in Coeur d'Alene than mine is, their child next door gets to go to Coeur d'Alene, but then my child goes to Post Falls. So I just don't think that makes very much sense at all. Not to mention, like we are thinking, OK so we sign up our son in Little League, like if you look at the Little League boundary map for Little League, we are in the Coeur d'Alene Little League. So not only are we going to be in the Coeur d'Alene Little League, but now our child goes to Post Falls because two feet of the boundary line is different. It doesn't make sense to me. Then there's the park aspect of it. You know we're going to have this community park, and we're walking our dogs and all of our friends and everything are on Carrington right there. Well, I just think it would make sense for my son to be able to go outside and play with all of his friends that he can grow up with and go to school with all of those friends. That just makes sense to me.

Keith Wells, Coeur d'Alene: I actually do the sales for The Trails subdivision. So my role here tonight is not necessarily as an impacted parent but just to get feedback, much the same as yourself. So I do want to say thank you to both boards for looking at this issue. Because just from a purely sales standpoint, there are seven houses, eight if we count the one south of Johns Hawk there, that are in 271. So from a simplicity standpoint, just to be able to tell somebody, you're in this one, you're in that one, that's really, from my perspective, what we'd be looking for. Again, would like to see it, from a common-sense perspective, as has been brought up a couple of times, that's really what I'd like to see. Thank you for addressing it and taking it into consideration.

Robert Farr, Coeur d'Alene: I don't reside in this area that's impacted. But I do own some property north of Prairie Avenue. And thanks to some of the members that are here, that property north of Prairie yet east of Huetter was annexed into the City of Hayden a couple of years ago. So presently, to me, it doesn't make sense that that corner of the City of Hayden would do to the Post falls School District as opposed to the Coeur d'Alene School District. So I think you've made a great effort on trying to reach a common ground in resolving this problem, and I applaud your efforts.

Allen Dykes, Coeur d'Alene: My name is Alan Dykes. I am chief operating officer for Architerra Homes and I don't know from a format standpoint if people want to ask me questions by all means. We're here, Architerra, is here because we, as a builder, are trying not to fall into that rut of being somebody that just builds homes, We're trying to create communities.
One of the things that in the Trails is the challenge that we as we've already heard is that we're split— it's a small sector but we're split right now within our current phase. And as we look at this community as we build it out, we're going to be in the city of Coeur d'Alene and we're going to be getting bused over to the Post Falls School District and that to me doesn't make sense. I've got no issues with the Post Falls School District. I love the Post Falls School District, we have given land to Post Falls in our reserve community, will be giving land to Post Falls in our Foxtail community, we are very much a fan. The difference is those are in the city of Post Falls and to me that makes sense. It really does. As we look at this subdivision, you know we throw that number out 470 homes is what we currently project. Things can change, meaning we don't know what the market might bear in five years, ten years. What I do know based on current sales velocity we're looking at 30 sales or so a year. So 30 sales, we've got 400 to go, if you do the math as you know 13 years to build it out. Right now with my current community, we don't have that many kids, that you know, we're very much a mix of we have the families that are moving into our communities and we also attract those buyers that are downsizing that are empty nesters. So if I look in our community right now we've been on pace right around 20 percent of our homes. So if you do the math and you figure 20% of the homes over you know each year then you're looking at 30 sales and you figure 2 / 2 per house you're looking right around 12 kids being introduced in K through 12 each year, and again I'm doing very rough numbers here, there's others are going to have greater analytics than us. To me Huetter is the common sense boundary and I cannot stress enough this is not about a developer trying to

make more money, it's not. We will live with whatever decision is rendered. We never have approached any home buyer and I would challenge anyone to say differently from Architerra standpoint where we have said "you're in the Coeur d'Alene district" or "we guarantee you will be in the Coeur d'Alene district." We will not go that route. Not only from a lawsuit standpoint that is dishonest and that is not how we approach our business. So we have been very forthright in "you're in the city of Coeur d'Alene, you attend Post Falls School District." We are currently in the process, but at the end of the day the process is the process and will respect the decisions. My last note and again, I just want to emphasize this enough; we're trying to create communities. We want cohesiveness within the community. We want the kids within the community feeling that sense of pride. I know the boundary line always just going to have to reside somewhere and I know that there's always going to be one kid on one side, one kid on the other, but we have the trails community and we're trying to do something special there. To me it does make sense to have the boundary on Huetter and I think that it is common sense.

Stephanie Meeks, Coeur d'Alene: So I live in the Trails neighborhood as well and I would agree with everything Alan has said. We've known that it was a Post Falls School District but what doesn't make sense was that these boundaries were done eighty years ago. I mean, the whole, I've only lived here 11 years. My husband has lived here his whole life. Everything has just changed drastically, even in the ten years I've lived here so like we've all been saying the common boundary that's what makes sense.
We work in Coeur d'Alene, we pay taxes in Coeur d'Alene, we have three schools within five miles from us, an elementary, middle, high school. There is a really small amount of families, I would say in our neighborhood, most people are downsizing. My immediate neighbors don't have children. I have two, one is special needs and we'll need a parapro with her until she's the senior in high school. Post Falls has not reached out to us and we've been told that at the age of three we're supposed to have our transition meeting out of infant/toddler. Post Falls has never reached out to us and Coeur d'Alene has been all over it. We are setting, I mean everybody that we've met and is working with our daughter is through the city Coeur d'Alene and in Coeur d'Alene we're on the coordinating team — whatever that means to anybody. We would like our children to go to the Coeur d'Alene School District because like we said we do work in Coeur d'Alene, my husband is actually a teacher for the Coeur d'Alene School District, and we drive-by. I mean for us, my daughter is blind she's never going be able to drive herself to school. Yes, the bus is an option but if we need to pick her up and take her to appointments going to Post Falls and coming back, it is just an inconvenience for us. Granted, we are one family. But we would be for this new proposal, so thank you.

Kami Shaw, Coeur d'Alene: My name is Kami Shaw. My husband and I and our three boys will be moving into our new home in the Trails next month. Our two oldest boys are currently in 1st and 3rd grade at Fernan and we are strongly in support of the boundary change. Aside from benefiting from the excellent standards of the Coeur d'Alene School District, emotionally it's better for our children to be going to the Coeur d'Alene School District. My husband's not here tonight because tonight is the last game for our first graders Parks and Rec basketball team. So if a change was not made, how they divide teams in Parks and Recs is you're with your teammates from your grade school in your grade. If the change wasn't made, our children would be put on random teams, every single sports season, every single year. Whoever needed an extra player, our kids would just be tossed on their team instead of being with kids from their own class, their own school, their own neighborhood. So that would impact our children because, you know, they want to play with their friends because we would be in the city of Coeur d'Alene. So they would also be going to a different school than the kids who possibly live across the street. They would be facing a very long bus ride away from home — it would be six miles to just under six miles to school as opposed to just under a mile and a half which my kids would like love to bike to school, which wouldn't be an option if we stayed in the Post Falls School District. They wouldn't be in the class with any of the kids that they know that they have in their neighborhoods. It would just be a very foreign place for them to go from living in Coeur d'Alene and going to a school in Post Falls. I was lucky enough to graduate from the Coeur d'Alene School District. Almost my entire kindergarten class at Sorensen Elementary graduated together at Lake City High School. And I want that kind of experience for my kids. I don't want to be in no-man's land in limbo because this — this is not going to solve itself. Like there's going to be more houses, there's going to be more growth, and the issue is going to come up again. This isn't going to go away so I want to be able to assure my kids "okay you can make friends with these kids in your elementary school because you will continue to go to school with them" not like "well maybe in a couple years we might, you know, have to make another change" and I don't want that for them. I want them to be able to stay with their same people and make friendships that they can count on and not be nervous that this is going to become an issue again in a few years. So I feel like in the end, this comes down to as a school district we need to do what's best for the kids who live in that area. Regardless of tax revenue or you know things like that — we need to do what's best. There's three, you know: an elementary school and middle school and in high school within two miles of our house and for us to send our kids six miles possibly 15 miles to the high school just doesn't make sense. It doesn't make sense for what would be best for our kids. So I think that that's what we really need to be thinking about, is what's best for these kids who live in in that area. Thank you.

Stephan Speer, Coeur d'Alene: I'd like to thank both boards for being here and for holding this meeting and hearing the public, it's most appreciated. We live in the Trails, 6691 North Rendezvous Drive and we've purchased our home from Architerra. Very happy with it. Our road does split between Coeur d'Alene and Post Falls. Both seem like lovely school districts and we're quite happy with them. I think the boundary is a good common sense boundary. We're returning to Coeur d'Alene after a hiatus of 40 years and I can tell you before, you probably didn't have enough time to spit before you were through Coeur d'Alene, 40 years ago. So what is it going to be in the next 40 years? I think we really need to look forward to that as well and that boundary just makes good sense. Before we moved out here, we had this on our radar, and NPR was talking about the fastest-growing areas in the United States and the Coeur d'Alene / Post Falls area – in fact we almost considered moving to Post Falls — is the fastest moving area. So as we look at these fields here, probably some of the folks that have been here for years and years aren't going to be happy with it, but that's going to fill in with housing. I mean that's just that's just a given. I think it's a common sense boundary what you have proposed. I like the idea of the continuity with the Coeur d'Alene. We go to the city council meetings on a fairly regular basis and I do like that continuity. My wife is an educator by training and for us first and foremost what's best for the kids. We will support what you decide upon, and again I would like to applaud those that have spoken. I definitely understand the implications of the tax burden from our standpoint, we had no idea what the tax would be, we complained a lot about taxes in our family but school taxes are not one of them. I think that's a good investment. I think it will even out over time. Thank you very much. I appreciate the opportunity to speak.

Trina Rainey, Coeur d'Alene: My name is Trina Rainy. I have two children and I choice my kids in Post Falls. I am currently located in the Coeur d'Alene School District and when we moved into our house, you know I assumed that they were going go to the nearest school to us, which I don't know their names right off the bat but they're about 3 miles maybe from us. So when I went to register them, they told me that in fact my kids should go all the way into Coeur d'Alene. I have a daughter in junior high and a daughter in grade school. So I was calling around to get them into school, my daughter technically should go to school off the 15th Street exit in Coeur d'Alene, the junior high over there. And so I found out that her bus ride in the morning to school was a hour and a half every morning. They would bus her up to the school that's closest to us. She would get off a bus there get on to another bus and transfer to the Coeur d'Alene School District each day and morning. I just moved here from Spokane. My family's in Spokane. I work in Spokane. My mom is in Post Falls. So if I have to have any sort of help getting my kids, you know, that's really out of the way for them to go get them, so we opted to choice into Post Falls which has been great. But our problem is we have no bus stop for the Post Falls School District so we have to take them to the closest bus stop which is fine, not a big deal problem. But one instance, I couldn't answer the phone while I was at work and my boyfriend, who gets my kids for me from the bus stop every day when I'm working, was at home chatting with a friend. Well, time got away from him and he didn't realize that it was time to pick her up from the bus stop. Well they took her to the school, or back to the bus barn, and by the time we figured out how to get her or whatever they said they were in like five minutes from calling and taking her to the police department as abandoned child because nobody was there to get her. But if the bus stop would have been across the road, which is Seltice, she could have walked right up the hill, right there's our home. So it would just be nice to be able to have a bus stop on this side of the road, versus that side of the road. You know so I mean, granted yes, it was our fault for not being there but you know just that simple dropping off at the end of the road and our home is there, so for us it is by far better to have them the split Post Falls and Coeur d'Alene. My address is 249 North Seeley so I am about a block off a Seeley and Main. Thank you.

Board of Trustees
Coeur d'Alene School District 271 and Post Falls School District 273
Midtown Center Meeting Room

March 19, 2018

Special Meeting 6:00 PM

Minutes

At 6:00 p.m. Chair Casey Morrisroe called the meeting to order. Trustees Tom Hearn, Lisa May, Tambra Pickford and Dave Eubanks were present. Also present were Board members representing the Post Falls School District: Chair Dave Paul, Michelle Lippert, Carol Goodson and Bridget Eismann.

Joint Meeting/Workshop:
Purpose of Meeting/How did we get here: Coeur d'Alene Superintendent Stan Olson said that he and Post Falls Superintendent Jerry Keane started discussing realignment of the boundary locations over the past several months following several years of requests for annexations between Coeur d'Alene, Post Falls and Lakeland. Original boundaries were drawn decades ago prior to any development.

(Draft) Boundary Proposal Presentation: Jerry Keane shared information about the current and proposed tax rates for both districts which will likely be very similar. The first priority is families and any change will not disrupt them. Any affected families will have a choice to remain in their current district. Mill River property will remain in the Coeur d'Alene District. They looked at potential future value vs. current value as the proposal was drafted.

Public Comment:
Stephen Chaffin, Coeur d'Alene supports the change.
Gary Nystrom, Post Falls doesn't support due to revenue losses specifically The Trails development. Post Falls will lose tax dollars, he would like to see this taken to a vote.
Tori Myers, Coeur d'Alene supports the change.
Keith Wells, Coeur d'Alene supports the change from a simplicity standpoint.
Robert Farr, Coeur d'Alene supports the change.
Allen Dykes, Coeur d'Alene is the CEO of Architerra Homes. The Trails is projected to be 470 homes and using Huetter Road is the common sense boundary.
Stephanie Meeks, Coeur d'Alene supports the change as she works and pays taxes in Coeur d'Alene.
Kami Shaw, Coeur d'Alene supports the change.
Stephen Speer, Coeur d'Alene supports the change.
Trina Rainey shared problems she has had with bus stop locations in relation to her address.
Written comments were received and shared – all were in favor of the revision.

Board Questions and Comments:
Casey Morrisroe and Dave Paul addressed questions about equitable values for both districts in terms of land gained and lost including potential growth and development. Will a vote be required? Jerry Keane said it depends on which statute is used to move forward in the request process. Dave Paul said this is not about the quality of education however, it is important to go through the proper steps and gather feedback from affected parties.

Next steps: Both Boards will choose whether to move forward or not. The real solution lies between the districts and not through annexations.

Meeting adjourned at 7:15 p.m.

Casey Morrisroe, Chair
Board of Trustees

Lynn Towne, Clerk
Board of Trustees

Post Falls School District No. 273 Special Meeting Joint Meeting with Coeur d'Alene School District **March 19, 2018**	6:00pm Midtown Center Coeur d'Alene, Idaho

Call meeting to order:	Coeur d'Alene Chair Casey Morrisroe called the meeting to order at 6:01pm. The following Board members were present at roll call: Tom Hearn, Dave Eubanks, Tambra Pickford, Lisa May, Post Falls School District Chair Dave Paul, Bridget Eismann, Carol Goodman and Michelle Lippert. Post Falls School District Trustee Bonnie Beaulieu was absent. Also present were Superintendent Jerry Keane, Superintendent Stan Olson, Clerk Erin Butler and Clerk Lynn Towne.
Pledge of Allegiance:	Chair Casey Morrisroe led the Pledge of Allegiance.
Welcome:	Chair Casey Morrisroe introduced both school boards and welcomed all those in attendance. The floor was then turned over to Stan Olson.
Purpose of Meeting:	Stan Olson discussed the possible re-alignment of district boundaries between Coeur d'Alene and Post Falls.
How did we get here?:	Stan Olson discussed the history of the boundaries between Coeur d'Alene, Post Falls and Lakeland School Districts.
(Draft) Boundary Proposal:	Jerry Keane presented a draft boundary proposal to both Board of Trustees.
Public Comment:	Katie Chaffin - 6814 Hourglass Road in Coeur d'Alene Patron is in favor of the boundary change. Gary Nystrom – 7094 W. Big Sky Drive in Post Falls Patron is concerned that Post Falls will lose property value when The Trails and surrounding area is built out. Tori Myers – 7062 W. Rendezvous Dr in Coeur d'Alene Patron's property is split directly in the middle between PF and CDA. She is in favor of the boundary change. Keith Wells – 380 S. Mossy Rock Lane in Coeur d'Alene Mr. Wells does sales for The Trails and is in favor of clean boundaries. Robert and Teresa Faer – 842 S. Millview in Coeur d'Alene Patrons own property north of Prairie Avenue that was annexed into Hayden year ago. They do not think it makes sense for the property to go to Post Falls. Allen Dykes – 1859 W. Lakewood in Coeur d'Alene Mr. Dykes is the COO for Architerra Homes and is trying to create a unified community with the development. He believes Huetter is the most logical boundary between Coeur d'Alene and Post Falls. Stephanie Meeks – 6710 N. Rendezvous Drive in Coeur d'Alene Patron lives in The Trails and would like her children to attend school in Coeur d'Alene. Kami Shaw – 1307 Kaleigh Ct in Coeur d'Alene Patron will be moving to The Trails soon and would like to stay attending Coeur d'Alene

schools.

Stephan and Andrea Speer – 6691 N. Rendezvous Drive in Coeur d'Alene
Patrons believe that the proposed Huetter boundary makes good sense and is appreciative that the Boards are looking to do what is best for kids.

Trina Rainey – 249 N. Sealey Road in Coeur d'Alene
Patron is in favor of the boundary change.

Board Questions: Tom Hearn asked how the voting process works regarding this matter. Stan Olson and Jerry Keane explained the two different Idaho Code processes, 33-307 and 33-308.

Other: Chair Dave Paul thanked all the patrons for their comments and feedback.

Chair Casey Morrisroe commented that going forward both Boards need to make a decision regarding this proposal and then the discussion can move into whether 33-307 or 33-308 is more practical.

Adjournment: The meeting was adjourned at 7:15pm.

Approved

Attest:
____

ALTERATION TO LEGAL BOUNDARY FOR
COEUR D'ALENE SCHOOL DISTRICT #271
AND
POST FALLS SCHOOL DISTRICT #273

WHEREAS, the Post Falls School District #273 ("Post Falls") and the Coeur d'Alene School District #271 ("Coeur d'Alene") have a shared school district boundary (*see* Exhibit 1 for existing and proposed boundaries);

WHEREAS, in 2017 a developer (Architerra Homes, LLC) petitioned to excise certain property from Post Falls and annex said property into Coeur d'Alene (the "Architerra Petition") (*see generally* Exhibit 2);

WHEREAS, the Architerra Petition is one of six requests for annexation/excision seen by Coeur d'Alene and one of two requests seen by Post Falls over the last five years;

WHEREAS, pursuant to Idaho Code § 33-308 the Architerra Petition was considered by each local board of trustees and forwarded to the Idaho State Board of Education (the "State Board") with a recommendation that said petition not be approved because each board was concerned with the piecemeal requests being received by the districts and the lack of long-term planning with respect to their shared boundary (*see* Exhibit 2 at *Conclusions* ¶ 3);

WHEREAS, pursuant to IDAPA 08.02.01.050 the State Board hired hearing officer Edwin L. Litteneker (the "Hearing Officer") to review the Architerra Petition and make recommendations to the State Board (*see* Exhibit 2);

WHEREAS, the Hearing Officer found that "there is considerable concern that a continued piecemeal change in the respective boundaries of the Post Falls and Coeur d'Alene Districts is not in anyone's best interests" (*see* Exhibit 2 at *Conclusions* ¶ 3);

WHEREAS, the Hearing Officer also recognized that the property proposed for annexation/excision was essentially vacant land planned for future development with only one school-aged student currently living in the area (*see* Exhibit 2);

WHEREAS, the lack of school children residing in the proposed annexation/excision area made annexation/excision procedures under Idaho Code § 33-308 inappropriate;

WHEREAS, the State Board, after consideration of the Hearing Officer's recommendation not to engage in piecemeal boundary changes, voted not to approve the annexation/excision proposal;

WHEREAS, Post Falls and Coeur d'Alene have taken the recommendation of the Hearing Officer and engaged in discussions to set a shared boundary that will facilitate the long-term growth of both districts for the foreseeable future;

WHEREAS, the districts desire to create a shared boundary that is clear, consistent and easily understood for both patrons and district personnel alike (*see* Exhibit 1);

WHEREAS, the districts believe the lack of long-term planning has harmful impacts on the patrons and children of both districts;

WHEREAS, Post Falls and Coeur d'Alene desire to set their shared boundary along Huetter Road (a major north/south arterial located between the two districts) as demonstrated on the map attached as Exhibit 1;

WHEREAS, the districts recognize that the vast majority of this proposed area is undeveloped farmland and not appropriate for consideration under Idaho Code § 33-308;

WHEREAS, the districts sent the attached letter via certified mail to every property owner lying within the proposed boundary-change area alerting patrons to the proposed boundary change and inviting them to the workshop described below (*see* Exhibit 3);

WHEREAS, a duly noticed joint workshop with the Post Falls and Coeur d'Alene Boards of Trustees was held on March 19, 2018, where members of the public were invited to learn about the proposal and provide their input;

WHEREAS, a copy of the power point from the joint workshop is attached as Exhibit 4;

WHEREAS, said workshop was filmed and is available for view at https://www.youtube.com/watch?v=WS-nUK1OcmA&t=3062s;

WHEREAS, patrons attending the workshop overwhelmingly expressed approval of the proposed boundary change and the districts' shared long-term planning efforts;

WHEREAS, only twenty school-aged children live within the area proposed for this long-term boundary change (six of whom are enrolled at Post Falls and fourteen of whom are enrolled at Coeur d'Alene district), and all of whom will be guaranteed grandfathered attendance rights at the district in which they are currently enrolled;

WHEREAS, the districts have examined their bonded indebtedness and determined that the proposed boundary change would not leave either district in excess of the limit prescribed by law (*see* Exhibit 5);

WHEREAS, because the area in question is predominately undeveloped farmland that is not contemplated for boundary changes under Idaho Code § 33-308 and in light of the Hearing Officer's recommendation to engage in long-term planning decisions, the districts are jointly requesting that the State Board approve the proposed boundary change under Idaho Code § 33-307;

WHEREAS, the State Board has previously used its authority under Idaho Code § 33-307 to approve boundary changes that may not be contemplated by Idaho Code § 33-308 (*see* Exhibit 6, *Superintendent of Public Instruction's Order Under Section 33-307, Idaho Code, for Alteration of School District Boundaries*);

WHEREAS, on April 9, 2018, the Post Falls Board of Trustees unanimously voted in favor of pursuing the proposed boundary change under Idaho Code § 33-307; and

WHEREAS, on May 7, 2018, the Coeur d'Alene Board of Trustees unanimously voted in favor of pursuing the proposed boundary change under Idaho Code § 33-307.

NOW, THEREFORE, in light of the foregoing recitals and pursuant to the authority granted under Idaho Code § 33-307, the districts ask the State Board to order that:

1. The boundary of the Post Falls School District #273 be altered as follows;

   See Exhibit 7

2. The boundary of the Coeur d'Alene School District #271 be altered as follows;

   See Exhibit 8

3. The Superintendent of Public Instruction be directed to make the appropriate order to alter said boundaries; and

4. The Board of Trustees of the Post Falls School District #273 and the Board of Trustees of the Coeur d'Alene School District #271 shall notify the Idaho State Tax Commission and the Kootenai County Assessor and the Kootenai County Recorder, in accordance with the provisions of Idaho Code § 63-215.

DATED this 18th day of May, 2018

Board Chair, Post Falls School District #273	Board Chair, Coeur d'Alene School District #271
Superintendent, Post Falls School District #273 School	Superintendent, Coeur d'Alene District #271

ALTERATION TO LEGAL BOUNDARY FOR COEUR D'ALENE SCHOOL DISTRICT #271 AND POST FALLS SCHOOL DISTRICT #273

SCHOOL DISTRICTS JOINTLY EXPLORE BOUNDARY ADJUSTMENT

March 16, 2018 at 5:00 am |

The Coeur d'Alene School District and Post Falls School District are exploring changes to establish a clearer, more logical boundary between the two school systems as development brings the communities closer together.

The proposed adjustment would establish Huetter Road as the primary boundary between the districts, from Harvest Avenue near the Coeur d'Alene Airport south to Maplewood Avenue near the Spokane River.

If approved, some property in the Post Falls district would move into the Coeur d'Alene district north of Mullan Avenue, and some property in the Coeur d'Alene district would move into the Post Falls district south of Mullan Avenue.

"We all recognize that as our communities continue to grow, the remaining parcels of vacant land between Post Falls and Coeur d'Alene are poised for development," the districts said in a joint statement. "We already have one residential development that is split awkwardly between our two districts, with the boundary line running straight through some homes. We can remedy that and avoid similar situations in the future if we are able to establish a permanent, common-sense boundary line in an agreement that is beneficial to both school districts."

The school districts have invited potentially affected property owners to a joint meeting of the Boards of Trustees for both districts on Monday at 6 p.m. at the Midtown Meeting Center in Coeur d'Alene. Any resident of either school district is welcome to attend, and public comment will be accepted.

The proposed change may impact where some children attend school or the amount of property taxes some property owners pay for public education. It is the intent of both districts to include a grandfather clause in any agreement to permit currently enrolled students directly affected by a boundary adjustment to attend school in the district of their choice until they complete their schooling.

The Midtown Center is at 1505 N. 5th St., Coeur d'Alene.

Written comments may be submitted to Lynn Towne, Clerk of the Board, Coeur d'Alene School District, 1400 N. Northwood Center Ct., Coeur d'Alene, ID 83814; ltowne@cdaschools.org.

SCHOOL BOARDS CONSIDER REDRAWING BOUNDARY

March 20, 2018 at 5:00 am | By JUDD WILSON Staff writer

COEUR d'ALENE — Post Falls and Coeur d'Alene School District board members heard public input on a possible boundary realignment at a joint school board meeting here Monday. The special meeting gave community members the chance to speak to the idea, which the two district superintendents have discussed as a possible solution to a recurring problem. Over the past five years, the State Board of Education has heard seven different appeals by residents in the Lakeland, Coeur d'Alene, and Post Falls School Districts regarding which school districts their kids would attend, said Coeur d'Alene School District Interim Superintendent Stan Olson.

"It wasn't about school or system quality. It was about an expectation that seemed to make sense based on where one would assume boundaries were supposed to be. It didn't work," Olson said.

The current boundary lines between the Post Falls and Coeur d'Alene School Districts are gerrymandered around properties that were primarily vacant fields when the boundary was drawn, but now cut through large housing developments such as The Trails, The Landings, and Mill River. Rather than go before a hearing officer and the State Board of Education, Olson said it made more sense to get the districts together and determine a smarter way to set boundaries. Olson said the superintendents listened for months to what residents thought were the natural boundaries between the two school districts, and "time and time again, it was Huetter Road."

The proposed change would make Huetter Road the primary boundary from W. Harvest Avenue south to E. Maplewood Avenue, then jog to the west until W. Mill River Court.

"The current boundary is an anachronism," said Coeur d'Alene School District board member Dave Eubanks. "It was drawn when Pearl Harbor was bombed."

Post Falls Superintendent Jerry Keane explained the tax rates for the two districts would be nearly identical in the coming year, so the most important remaining considerations would be the impact to students and the impact to each district's tax revenues. Keane said any change should grandfather current students in to allow them to remain in their current schools if they so desired.

"Under any circumstances, we want stability for kids," he said.

Coeur d'Alene School District board chairman Casey Morrisroe said Piper Jaffray had estimated the boundary change would immediately deduct $40 million in property value from the Coeur d'Alene School District. However, speakers for both districts noted the future value of the yet-undeveloped properties was difficult to estimate, and that seemingly inevitable growth in the region necessitated clear, simple boundary lines.

Residents and developers from The Trails, a community that did not exist when the current boundary lines were drawn, spoke up about the proposed change. A small portion of the community falls on the Post Falls side of the boundary, while the majority of the development falls in the Coeur d'Alene side.

Tori Meyers lives in The Trails and has a property split in two by the school district boundary line. Her neighbor's property is slightly more on the Coeur d'Alene side of the line, and so kids from that household go to Coeur d'Alene schools while Meyers' kids will go to Post Falls schools.

"I just don't think that makes very much sense at all," she said. Little League boundary lines put her in the Coeur d'Alene league and she socializes with families enrolled in Coeur d'Alene schools. "It would make sense for my son to be able to play outside with his friends and go to school with them," she said.

Kami Shaw expressed the same concern. She and her family will move from Coeur d'Alene into The Trails soon and she wanted them to continue seeing their friends at school and on their rec league teams.

"I want to assure my kids that they can make friends. I want them to be able to make friendships that they can count on."

Stephanie Meeks said her special needs child has been helped well by Coeur d'Alene schools, and that attending those schools is far more convenient for her than going to Post Falls schools. Architerra Homes COO Allen Dykes said his company valued the sense of community The Trails offered, and he supported the boundary change to Huetter Road. Gary Nystrom said he supported the change for the sake of students but was concerned about the loss of tax revenue, and accompanying tax hikes for property owners.

At the conclusion of the meeting, Keane explained the next step would be for each school board to decide whether it wanted to move forward with the boundary change, and if so, whether they preferred to put it to a public vote per Idaho code 33-308, or proceed without a vote in accordance with Idaho code 33-307. Only registered voters living in the immediate areas of impact would vote per 33-308, explained Morrisroe.

http://www.cdapress.com/local_news/20180320/school_boards_consider_redrawing_boundary

At conclusion of April 3, 2018, article in the Coeur d'Alene Press covering April 2 School Board meeting:

In other business, the **board voted unanimously** to direct (Superintendent Stan) Olson and chairman Casey Morrisroe to meet again with their colleagues from the Post Falls School District to discuss how to move forward with redrawing boundaries between the two districts. The boards held a joint session last month and each body must still approve the boundary change, which centers on Huetter Road. Each board must also decide whether they will put the boundary change to a public vote per Idaho code 33-308, or make the change without a vote in accordance with Idaho code 33-307.

KEEPING UP WITH RAPID GROWTH

May 08, 2018 at 5:00 am | By JUDD WILSON Staff writer

JUDD WILSON/Press Board members Casey Morrisroe and Tom Hearn discuss future school sites at the Coeur d'Alene School District's board of trustees meeting Monday night.

COEUR d'ALENE — The Coeur d'Alene School District may purchase two new properties for future schools, and is moving forward with plans to build a new elementary school at the Hayden Lake School site, said board members during their Monday night meeting.

Superintendent Stan Olson said the district has reached an agreement to partner with the city of Hayden to create both a school and a community center on the current site of the Northwest Expedition Academy. The city has done substantial work there, which will lower the district's costs from more than $800,000 to less than $100,000, said Olson.

The superintendent lauded the work of board chairman Casey Morrisroe, Hayden Mayor Steve Griffitts, and the Hayden city council.

Olson told the board the district has the money to also pay for land at two other sites, on Prairie Avenue and at Huetter Road. Those purchases are being discussed with their current owners.

"The numbers have made me nervous," said board member Tom Hearn while inquiring about the district's ability to pay for the land.

The numbers on the offers and counter-offers are where they need to be for the district to move forward, said Olson. The district met with department heads from the city of Coeur d'Alene to determine what it would cost to develop the Prairie Avenue site into a future school, said Olson. While discussions about traffic mitigation and signals at the site still remain, Olson said projections for sewer connectivity and water were promising. "Those numbers are coming along nicely," he said.

The Huetter Road property became a possibility in part thanks to the realignment of district boundaries with the Post Falls School District, said Olson. The property owner is also motivated by a desire to be a part of the solution to the district's shortage of land, he added.

At its Monday meeting the school board unanimously approved the proposal to seek a boundary realignment. The neighboring districts plan to meet with officials at the state department of education later this summer, Olson explained.

Funds for these purchases would come from $1 million that was earmarked for future school site purchases in the 2017 bond election, said Morrisroe. Another $1.366 million total would come from the sale of 10 acres of land at Thomas Lane, which netted the district $663,000, and $688,000 in surplus funds from the district's School PLUS after-school program, he said.

"I'm doubting Thomas. I'll believe it when I see it," joked Hearn.

Olson said the district is still going through the due diligence process on the properties. A property workshop is scheduled for May 17 at 4 p.m. to further discuss the property options. While only the Hayden Lake School site would be built up in the short term, the Prairie Avenue and Huetter Road properties could be developed in the mid- to long-term, said Olson.

Hearn asked Olson how likely it was that the district would seal the deals.

"If I were a betting man, I'd bet your house yes, we'd be able to buy those properties," put them in a land bank, and move forward on planning for use of those sites, said Olson.

Board member Dave Eubanks remarked at the prospect of having property to put into a land bank for future school projects. "When I think about where we were a year ago and where we are today, it is astounding and wonderful. That is attributed to the leadership sitting up here."

LEWIS-CLARK STATE COLLEGE

SUBJECT

Facilities' Naming – Center for Arts and History

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section: I.K. Naming/Memorializing Building and Facilities

ALIGNMENT WITH STRATEGIC PLAN

Governance issue, does not align directly with Board's strategic plan.

BACKGROUND/DISCUSSION

The Lewis-Clark State College Center for Arts and History was built in 1883 predating the College by ten years. Under the leadership of President Lee Vickers and his wife Deanna, the Center grew to be a beacon in the community in support of the arts and the preservation of the culture of Lewiston. In 1979, it was Deanna Vickers who championed the creation of the Lewis-Clark State College Artists Series, bringing musical, dance and theater companies to the city. In 1985, Deanna co-founded the Dogwood Festival, still a centerpiece in Lewiston culture. In 1991, the old Vollmer Lewiston National Bank Building was acquired to be Lewis-Clark State College Center for Arts and History under President Lee Vickers' leadership.

This year, Lewis-Clark State College received funding from the Permanent Building Fund for the restoration of the masonry of the building and replacement of windows, making this an opportune time to give the Center an identity that links its historic past with a vision for the future. Lewis-Clark State College would like to honor the contributions of Dr. Vickers and his wife, Deanna to the institution and particularly to this Center for Arts and History by re-naming the current center the Lee and Deanna Vickers Center for Arts and History.

IMPACT

LCSC believes that the naming of the Center in honor of a dedicated president who was responsible for its renaissance would serve as a great testament to his many significant contributions, including raising the profile of this center. No substantive costs related to the renaming will be required other than signage.

STAFF COMMENTS AND RECOMMENDATIONS

Board Policy I.K.1.b, outlines the requirements by which a building, facility, or administrative unit may be named for someone other than a former employee of the system of higher education. These include consideration of the nature of the individuals gift and its significance to the institution; the eminence of the individual whose name is proposed; and the individuals relationship to the institution. Based on the information provided by Lewis-Clark State College the request complies with Board policy. Staff recommends approval

BOARD ACTION

I move to approve the request by Lewis-Clark State College to name the Center for Arts and History the Lee and Deanna Vickers Center for Arts and History.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

STATE DEPARTMENT OF EDUCATION

SUBJECT

Request for Waiver of 103% Student Transportation Funding Cap

REFERENCE

June 2015	Board approved the request for ten (10) school districts to receive a funding cap waiver
June 2016	Board approved the request for eight (8) school districts to receive a funding cap waiver
June 2017	Board approved the request for six (6) school districts to receive a funding cap waiver

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-1006, Idaho Code

ALIGNMENT WITH STRATEGIC PLAN

Goal 1: A Well Educated Citizenry, Objective A: Access

BACKGROUND/DISCUSSION

During its 2001 session, the Idaho Legislature amended Section 33-1006, Idaho Code. The amendment created a student transportation funding cap, affecting school districts that exceed by 103% the statewide average cost per mile and cost per rider. The 2007 and 2009 Legislatures further amended this language to provide clear, objective criteria that defines when a district may qualify to be reimbursed for expenses above the cap, and by how much. These new criteria designate certain bus runs as “hardship” runs, and allow the district to receive a higher cap based on the percentage of the district’s bus runs that are so categorized.

As of April 16, 2018, 26 school districts and/or charter schools were negatively affected by the pupil transportation funding cap:

003	KUNA JOINT DISTRICT	($7,819)
011	MEADOWS VALLEY DISTRICT	($11,311)
041	ST MARIES JOINT DISTRICT	($16,261)
044	PLUMMER-WORLEY JOINT DISTRICT	($25,040)
055	BLACKFOOT DISTRICT	($113,445)
061	BLAINE COUNTY DISTRICT	($91,524)
071	GARDEN VALLEY DISTRICT	($55,107)
111	BUTTE COUNTY JOINT DISTRICT	($2,832)

171	OROFINO JOINT DISTRICT	($28,736)
221	EMMETT INDEPENDENT DIST	($14,586)
234	BLISS JOINT DISTRICT	($3,540)
244	MOUNTAIN VIEW SCHOOL DISTRICT	($32,511)
271	COEUR D'ALENE DISTRICT	($38,367)
274	KOOTENAI DISTRICT	($2,424)
281	MOSCOW DISTRICT	($68,005)
282	GENESEE JOINT DISTRICT	($19,101)
292	SOUTH LEMHI DISTRICT	($412)
304	KAMIAH JOINT DISTRICT	($11,369)
305	HIGHLAND JOINT DISTRICT	($5,321)
391	KELLOGG JOINT DISTRICT	($17,395)
392	MULLAN DISTRICT	($3,679)
393	WALLACE DISTRICT	($11,447)
401	TETON COUNTY DISTRICT	($30,489)
421	MCCALL-DONNELLY JT. SCHOOL DISTRICT	($34,744)
468	IDAHO SCIENCE & TECHNOLOGY CHARTER	($5,304)
475	SAGE INTERNATIONAL SCHOOL OF BOISE	($1,431)

The State Department of Education received requests from various school districts for a waiver of the 103% funding cap as provided in Section 33-1006, Idaho Code. Student Transportation staff reviewed these requests to ensure they meet the eligibility criteria. Of the 26 districts and charter schools negatively affected by the pupil transportation funding cap, only 12 districts have routes meeting the statutory requirements of a hardship bus run, which would allow the Board to grant a waiver. All 12 of these districts, listed below, have applied for a waiver from the student transportation funding cap.

St. Maries School District submitted school bus routes that met the required criteria. This represents 40% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 143%.

Plummer-Worley School District submitted school bus routes that met the required criteria. This represents 16.67% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 119.67%.

Garden Valley School District submitted school bus routes that met the required criteria. This represents 30% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 133%.

Butte County School District submitted school bus routes that met the required criteria. This represents 30% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 133%.

Orofino School District submitted school bus routes that met the required criteria. This represents 27.27% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 130.27%.

Bliss School District submitted school bus routes that met the required criteria. This represents 16.67% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 119.67%.

Mountain View School District submitted school bus routes that met the required criteria. This represents 47.50% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 150.50%.

Kootenai School District submitted school bus routes that met the required criteria. This represents 100% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 203%.

Moscow School District submitted school bus routes that met the required criteria. This represents 15.62% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 118.62%.

Kamiah School District submitted school bus routes that met the required criteria. This represents 40% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 143%.

Highland School District submitted school bus routes that met the required criteria. This represents 20% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 123%.

Kellogg School District submitted school bus routes that met the required criteria. This represents 5.41% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 108.41%.

IMPACT

The approval of the cap waivers listed above allows districts to be reimbursed for routes that meet the hardship criteria. Board inaction or denial of the funding cap waivers would result in a loss of funding for the school districts in question.

ATTACHMENTS

Attachment 1 – Funding Cap Waiver Spreadsheet Page 7

STAFF COMMENTS AND RECOMMENDATIONS

At the June 2017 Board meeting the Board approved a waiver of the funding cap for Garden Valley School District, Kellogg Joint School District, Moscow School District, Orofino School District, Plummer-Worley Joint School District, and Wallace School District. Pursuant to Section 33-1006, Idaho Code:

“A school district may appeal the application of the one hundred three percent (103%) limit on reimbursable costs to the state board of education, which may establish for that district a new percentile limit for reimbursable costs compared to the statewide average, which is higher than one hundred three percent (103%). In doing so, the state board of education may set a new limit that is greater than one hundred three percent (103%), but is less than the percentile limit requested by the school district. However, the percentage increase in the one hundred three percent (103%) cap shall not exceed the percentage of the district’s bus runs that qualify as a hardship bus run, pursuant to this subsection. Any costs above the new level established by the state board of education shall not be reimbursed. Such a change shall only be granted by the state board of education for hardship bus runs. To qualify as a hardship bus run, such bus run shall meet at least two (2) of the following criteria:

(a) The number of student riders per mile is less than fifty percent (50%) of the statewide average number of student riders per mile;
(b) Less than a majority of the miles on the bus run are by paved surface, concrete or asphalt road;
(c) Over ten percent (10%) of the miles driven on the bus run are a five percent (5%) slope or greater.”

The Department of Education transportation staff review each of the applications prior to submittal for Board consideration. Only those school districts that have met the requirements may be considered for approval.

BOARD ACTION

I move to approve the request by St. Maries School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 143%, for a total of $16,261 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Plummer-Worley School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 119.67%, for a total of $25,040 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Garden Valley School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 133%, for a total of $55,107 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Butte County School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 133%, for a total of $2,832 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Orofino School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 130.27%, for a total of $28,736 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Bliss School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 119.67%, for a total of $3,540 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Mountain View School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 150.50%, for a total of $32,511 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Kootenai School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 203%, for a total of $2,424 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Moscow School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 118.62%, for a total of $68,005 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Kamiah School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 143%, for a total of $11,369 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Highland School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 123%, for a total of $5,321 in additional funds from the public school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Kellogg School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2017 of 108.41%, for a total of $17,395 in additional funds from the public school appropriation.

Safety Busing Requests

REFERENCE

June 2015	Board approved the request for 95 school districts and 13 charter schools to transport students less than one and one-half miles for the 2014-2015 school year.
June 2016	Board approved the request for 98 school districts and 13 charter schools to transport students less than one and one-half miles for the 2015-2016 school year.
June 2017	Board approved the request for 99 school districts and 13 charter schools to transport students less than one and one-half miles for the 2016-2017 school year.

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-1006, Idaho Code
Section 33-1501, Idaho Code

ALIGNMENT WITH STRATEGIC PLAN

Goal 1: A Well Educated Citizenry, Objective A: Access

BACKGROUND/DISCUSSION

Sections 33-1006 and 33-1502, Idaho Code, provide for the transportation of students less than 1.5 miles from the school if warranted by safety needs. Otherwise, the cost of transporting students less than 1.5 miles is not reimbursable. Local education agencies (LEAs) are required to submit a safety busing report to the State Department of Education by March 31 through the Idaho Bus Utilization System portal to report safety-bused children to receive reimbursement for their transportation. All requests recommended for approval are compliant with Section 33-1006, Idaho Code. Safety busing impacts 26,011 students in the 2017-2018 school year.

IMPACT

The approval of LEAs with safety-bused students allows LEAs to be reimbursed for routes that meet the safety busing requirements. Board inaction or denial of the safety busing rider count report would result in a loss of funding for the LEAs in the report.

Safety busing contributes to the safety and well-being of thousands of students each school year.

ATTACHMENTS

Attachment 1 – Safety busing rider count report

STAFF COMMENTS AND RECOMMENDATIONS

Section 33-1006, Idaho Code allows for the reimbursement of cost to transport students 1.5 miles or more from the school and pupils less than 1.5 miles as provided in Section 33-1501, Idaho Code, when approved by the State Board of Education. State Department of Education staff annually review school district requests and forward those meeting the requirements for safety busing to the Board for consideration. Staff recommends approval.

BOARD ACTION

I move to approve the requests by ninety-nine (99) school districts and twelve (12) charter schools as submitted in Attachment 1 for approval to transport students less than one and one-half miles for the 2017-2018 school year.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

DEPARTMENT OF EDUCATION

SUBJECT

Appointment to the Professional Standards Commission

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-1252, Idaho Code

ALIGNMENT WITH STRATEGIC PLAN

Goal 4: Effective and Efficient Educational System; Objective A: Quality Teaching Workforce

BACKGROUND/DISCUSSION

Idaho Statute Section 33-1252, Idaho Code, sets forth criteria for membership on the Professional Standards Commission (PSC). The Commission consists of eighteen (18) members including one (1) from the State Department of Education (Department) and one (1) from the Division of Career Technical Education. The remaining members shall be representative of the teaching profession of the state of Idaho, and not less than seven (7) members shall be certificated classroom teachers in the public school system and shall include at least one (1) teacher of exceptional children and at least one (1) teacher in pupil personnel services. The Idaho Association of School Superintendents, the Idaho Association of Secondary School Principals, the Idaho Association of Elementary School Principals, the Idaho School Boards Association, the Idaho Association of Special Education Administrators, the education departments of private colleges, and the colleges of letters and sciences of the institutions of higher education may submit nominees for one (1) position each. The community colleges and the education departments of the public institutions of higher education may submit nominees for two (2) positions.

Chief Deputy Superintendent Pete Koehler currently fills the Department position on the PSC. As Mr. Koehler is retiring from the Department on June 29, 2018, the Department recommends the appointment of his replacement, Peter McPherson, to fill the PSC position. Pursuant to Section 33-1252(2), Idaho Code, the Department is not required to provide three nominations to fill the Department position on the PSC.

Before coming to the Department, Mr. McPherson was superintendent and federal programs director of the Challis School District, a position he had held since January 2014. Before his service in Challis, McPherson led Gem State Academy, a private boarding school in Canyon County, for nearly six years. He served as a secondary teacher for 10 years in private schools in Colorado, California and Oregon. Mr. McPherson holds an education specialist degree in educational leadership and administration from Northwest Nazarene University and master’s and bachelor’s degrees from Walla Walla University. McPherson is currently pursuing a doctorate from Northwest Nazarene University.

Mr. McPherson has also been active in several professional associations and community and education boards including: Idaho School Superintendents’ Association (2014 - current), Idaho Association of School Administrators (2014 - current), Idaho School Boards Association (2014 - current), Custer County Economic Development Association (2015 - current), State Department of Education Superintendent’s Cabinet (2015 - current), Idaho Leads Rural Schools Network (2016) Custer County Inter-Disciplinary Committee (2014 -

current), Camp Ida-Haven Board of Directors (2008 - 2015), and Walla Walla University Board of Directors (2008 - 2014).

STAFF COMMENTS AND RECOMMENDATIONS

Section 33-1252, Idaho Code, established the Professional Standards Commission, consisting of eighteen (18) members, one of whom shall be a member of the staff of the State Department of Education. Three nominees for each position on the commission are required to be submitted to the Board for consideration with the exception of the nominee from the Department of Education and the Division of Career Technical Education.

PROFESSIONAL STANDARDS COMMISSION

SUBJECT
Emergency Provisional Certificates

REFERENCE

April 2017	Board approved three (3) provisional certificates for the 2016-17 school year.
June 2017	Board denied one (1) provisional certificate for the 2016-17 school year.
October 2017	Board approved four (4) provisional certificates for the 2017-18 school year.
December 2017	Board approved seventeen (17) provisional certificates for the 2017-18 school year.
February 2018	Board approved seven (7) provisional certificates for the 2017-18 school year.
April 2018	Board approved three (3) provisional certificates for the 2017-18 school year.

APPLICABLE STATUTE, RULE, OR POLICY
Sections 33-1201 and 33-1203, Idaho Code

ALIGNMENT WITH STRATEGIC PLAN
Goal 1: A Well Educated Citizenry, Objective A: Access

BACKGROUND/DISCUSSION
Six (6) emergency provisional applications were received by the State Department of Education from the school districts listed below. Emergency provisional applications allow a district/charter to request one-year emergency certification for a candidate who does not hold a current Idaho certificate/ credential, but who has the strong content background and some educational pedagogy, to fill an area of need that requires certification/endorsement. While the candidate is under emergency provisional certification, no financial penalties will be assessed to the hiring district.

Idaho Falls School District #91
Applicant Name: Notareus, Tabitha
Content & Grade Range: All Subjects K-8
Educational Level: 119 credits, enrolled in BYU-Idaho – student teaching 2019
Declared Emergency: March 15, 2018, Idaho Falls School District's Board of Trustees declared an emergency area of need exists for the remainder of the 2017-2018 school year.
Summary of Recruitment Efforts: This candidate was hired as the long term sub October 30, 2017. The teacher of record resigned in February 2019. The district

felt that it was in the best interest of the student to keep Ms. Notareus in the position to finish the year.
PSC Review: The Professional Standards Commission Authorizations Committee met April 6, 2018. The committee recommends Idaho Falls School District's request for Tabitha Notareus without reservation.

Lake Pend Oreille School District #84
Applicant Name: Chesbro, Charles
Content & Grade Range: Physical Education 6-12
Educational Level: 138 credits
Declared Emergency: February 13, 2018, Lake Pend Oreille School District's Board of Trustees declared an emergency area of need exists for the remainder of the 2017-2018 school year.
Summary of Recruitment Efforts: This candidate was hired to replace a candidate that had lied on their application and was terminated. The district had 18 applicants, 10 were interviewed and offered the position, of which only three (3) accepted and two (2) rescinded the offer.
PSC Review: The Professional Standards Commission Authorizations Committee met April 6, 2018. The committee recommends Lake Pend Oreille School District's request for Charles Chesbro without reservation.

Meadows Valley School District #11
Applicant Name: Annunziato, Randall
Content & Grade Range: Spanish 6-12 and PE 6-12
Educational Level: MA – Science 2015, BS 2008
Declared Emergency: December 12, 2017, Meadows Valley School District's Board of Trustees declared an emergency area of need exists for the remainder of the 2017-2018 school year.
Summary of Recruitment Efforts: The district did a realignment of staff due to vacancy. The candidate was unable to find a plan for both areas in time for an Alternative Authorization - Content Specialist. The candidate will find a program and start this summer. The district will apply for an Alternate Authorization for 2018-19 school year.
PSC Review: The Professional Standards Commission Authorizations Committee met April 6, 2018. The committee recommends Meadows Valley School District's request for Randall Annunziato without reservation.

Pocatello/Chubbuck School District #25
Applicant Name: Stucki, Chelsey
Content & Grade Range: Physical Education 6-12
Educational Level: MA Phys Ed 2009, BA Phys Ed 2006
Declared Emergency: January 16, 2018 Pocatello/Chubbuck School District's Board of Trustees declared an emergency area of need exists for the remainder of the 2017-2018 school year.
Summary of Recruitment Efforts: The district had five (5) applicants, none were certified. Ms. Stucki was the most qualified candidate.

PSC Review: The Professional Standards Commission Authorizations Committee met April 6, 2018. The committee recommends Pocatello/Chubbuck School District's request for Chelsey Stucki without reservation.

<u>Twin Falls School District #411</u>
Applicant Name: Hinojos, Megan
Content & Grade Range: Mathematics 6-12
Educational Level: BA, History 12/2017
Declared Emergency: February 27, 2018, Twin Falls School District's Board of Trustees declared an emergency area of need exists for the remainder of the 2017-2018 school year.
Summary of Recruitment Efforts: Ms. Hinojos was an emergency replacement for a teacher that was terminated. She will finish this year, but she has been offered a teaching position in Jerome for the 18-19 school year. Ms. Hinojos has already graduated from a teacher prep program for History. The district had six (6) applicants and Ms. Hinojos was the most qualified.
PSC Review: The Professional Standards Commission Authorizations Committee met April 6, 2018. The committee recommends Twin Falls School District's request for Megan Hinojos without reservation.

<u>West Bonner County School District #83</u>
Applicant Name: Adamson, MaKinzie
Content & Grade Range: All Subjects K-8
Educational Level: 53 credits, enrolled in LCSC – student teaching 2018-19
Declared Emergency: December 20, 2017, West Bonner County School District's Board of Trustees declared an emergency area of need exists for the remainder of the 2017-2018 school year.
Summary of Recruitment Efforts: The position came open unexpectedly and was posted for several weeks. The district didn't have any certified applicants. Ms. Adamson was determined to be the best candidate and is enrolled in a teacher preparation program.
PSC Review: The Professional Standards Commission Authorizations Committee met April 24, 2018 via email. Previously, the district was under the impression Ms. Adamson held a bachelor's degree and was waiting for the plan from the university. The committee recommends West Bonner County School District's request for MaKinzie Adamson without reservation.

IMPACT

If the emergency provisional certificate is not approved, the school district will have no certificated staff to serve in the position and funding could be impacted.

STAFF COMMENTS AND RECOMMENDATIONS

Pursuant to Section 33-1201, Idaho Code "every person who is employed to serve in any elementary or secondary school in the capacity of teacher, supervisor, administrator, education specialist, school nurse or school librarian shall be required to have and to hold a certificate issued under the authority of the State

Board of Education…." Section 33-1203, Idaho Code, prohibits the Board from authorizing standard certificates to individuals who have less than four (4) years of accredited college training except in occupational fields or emergency situations. When an emergency is declared, the Board is authorized to grant one-year provisional certificates based on not less than two (2) years of college training. The two year minimum requirement could be interpreted to mean the individual has attended a postsecondary institution without regard to the number of credits taken each year, however, the intent of the two year requirement is that the individual attended full time for two or more years. The Board defines a full time student as a student taking 12 or credits (or equivalent) per semester pursuant to Board policy III.P.7. Full-Time Students.

Section 33-512, Idaho Code, defines substitute teachers as "as any individual who temporarily replaces a certificated classroom educator…" Neither Idaho Code, nor administrative rule, limits the amount of time a substitute teacher may be employed to cover a classroom. In some cases, school districts may use an individual as a long-term substitute prior to requesting provisional certification for the individual.

The Department receives applications from the school districts for requests for provisional certifications, Department staff then work with the school districts to ensure the applications are complete. The Professional Standards Commission then reviews requests for the one-year provisional certificates, and those that are complete and meet the minimum requirements are then brought forward by the Department to the Board for consideration with a recommendation from the Professional Standards Commission.

BOARD ACTION

I move to approve the request by the Professional Standards Commission for the one-year emergency provisional certificates for Tabitha Notareus, Charles Chesbro, Randall Annunziato, Chelsey Stucki, Megan Hinojos and MaKinzie Adamson to teach the content area and grade ranges at the specified school districts as provided herein.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

OR

I move to approve the request by the Professional Standards Commission for the one-year emergency provisional certificate for Tabitha Notareus to teach All Subjects grades kindergarten through eight (8) in the Idaho Falls School District #91 for the 2017-18 school year.

TAB	DESCRIPTION	ACTION
1	**CHIEF EXECUTIVE OFFICER COMPENSATION**	Motion to approve
2	**AMENDMENTS TO SUPPLEMENTAL RETIREMENT PLAN 403B**	Motion to approve

THIS PAGE INTENTIONALLY LEFT BLANK

SUBJECT

Chief Executive Officer Salaries

REFERENCE

June 2017	The Idaho State Board of Education (Board) approved Chief Executive Officer salaries.

APPLICABLE STATUTES, RULE OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section I.E.2.e.
Idaho Code §33-102A

ALIGNMENT WITH STRATEGIC PLAN

Chief Executive Officer salary adjustments are a non-strategic Board governance agenda item.

BACKGROUND/DISCUSSION

The Board's Executive Director has completed annual performance evaluations for the administrator of the Division of Career Technical Education, the administrator of the Division of Vocational Rehabilitation, and the general manager of Idaho Public Television. Salary recommendations for these positions are based on the evaluations and the individual agencies' Division of Financial Management-approved compensation plans for FY2019.

Agency heads' salaries are entered into the state payroll system based on the equivalent hourly amount. The Board's consideration of salary changes at this time will allow for any approved changes to be entered into the state payroll system prior to the start of the payroll fiscal year.

IMPACT

Approval of the proposed salaries will allow staff to enter the salaries for FY2019 into the state payroll system.

STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends approval of the hourly rates and equivalent salaries listed below.

BOARD ACTION

I move to approve an hourly rate of $______ (annual salary of $_________) for Matt Freeman as Executive Director of the State Board of Education, effective June 17, 2018.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to approve an hourly rate of $54.17 (annual salary of $112,674) for Jane Donnellan as Administrator of the Division of Vocational Rehabilitation, effective June 17, 2018.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to approve an hourly rate of $54.43 (annual salary of $113,214) for Ron Pisaneschi as General Manager of Idaho Public Television, effective June 17, 2018.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to approve an hourly rate of $57.65 (annual salary of $119,912) for Dwight Johnson as Administrator of the Division of Career Technical Education, effective June 17, 2018.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

SUBJECT

Supplemental Retirement 403(b) Plan

REFERENCE

June 2011	Idaho State Board of Education (Board) approved Supplemental Retirement 403(b) Plan document
August 2013	Board approved technical amendments to plan document
February 2014	Board approved amendments to the Supplemental Retirement Benefit Plan

ALIGNMENT WITH STRATEGIC PLAN

Non-strategic Board governance agenda item.

APPLICABLE STATUTES, RULE OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section II.K.2.
Sections 33-107C and 59-513 Idaho Code

BACKGROUND / DISCUSSION

Eligible participants in the Board's Supplemental 403(b) Retirement Plan ("Plan") are determined by the Board and listed by name in Appendix A to the Plan. In the event the Board desires to expand the Plan participants, it must do so by approving a revision to append Appendix A.

Eligible employees must make a one-time irrevocable election to participate in the Plan. The "includable compensation" upon which contributions to the Plan are based is an employee's contract base salary up to an IRS maximum. The Plan designates TIAA-CREF and VALIC as the Plan's exclusive vendors.

Employer and mandatory employee contributions to the Plan are specified in Appendix A. With the appointment of Dr. Martin Schimpf as interim president at Boise State University (BSU) commencing July 1, 2018 and terminating June 30, 2019, the addition of Dr. Schimpf in the Supplemental 403(b) Retirement Plan would only be for the period of one year with the same commencement and termination dates as his appointment of interim president.

IMPACT

Approval of this action is in accordance with the Board approved terms of Dr. Schimpf's appointment.

ATTACHMENTS

Attachment 1 – Supplemental Retirement 403(b) Plan document

STAFF COMMENTS AND RECOMMENDATIONS

The inclusion of Dr. Schimpf in the Supplemental 403(b) Retirement Plan is only for the one-year term he serves as interim president. The institution and Dr. Schimpf have agreed to the terms set forth in Appendix A.

Staff recommends approval.

BOARD ACTION

I move to approve amendments to the Closed Supplemental Retirement 403(b) Plan Appendix A document set forth in Attachment 1.

Moved by____________ Seconded by____________ Carried Yes____ No____

Idaho State Board of Education
Supplemental Retirement 403(b) Plan

A Defined Contribution Retirement Plan

Effective June 23, 2011
Restated August 15, 2013
Restated Effective March 16, 2014
Appendix A Amended August 14, 2014

Section 1
Definition of Terms Used

The following words and terms, when used in the Plan, have the meaning set forth below.

1.1 **"Account":** The account or accumulation maintained for the benefit of any Participant or Beneficiary under an Annuity Contract or a Custodial Account.

1.2 **"Account Balance":** The bookkeeping account maintained for each Participant which reflects the aggregate amount credited to the Participant's Account under all Accounts, including the Participant's Mandatory Contributions, Employer Contributions, the earnings or loss of each Annuity Contract or a Custodial Account (net of expenses) allocable to the Participant, any transfers for the Participant's benefit, and any distribution made to the Participant or the Participant's Beneficiary. If a Participant has more than one Beneficiary at the time of the Participant's death, then a separate Account Balance shall be maintained for each Beneficiary. The Account Balance includes any account established under Section 6 for rollover contributions and plan-to-plan transfers made for a Participant, the account established for a Beneficiary after a Participant's death, and any account or accounts established for an alternate payee (as defined in section 414(p)(8) of the Code).

1.3 **"Administrator":** The Idaho State Board of Education, located at 650 W. State Street, Boise, Idaho 83720, is the administrator of this Plan and has designated the following as responsible for enrolling Participants, sending Plan contributions for each Participant to the Fund Sponsor(s) selected by a Participant, and for performing other duties required for the operation of the Plan:

Chief Fiscal Officer
Office of the Idaho State Board of Education

Vice President for Finance and Administration
Boise State University

Vice President for Finance and Administration
Idaho State University

Vice President for Finance and Administration
University of Idaho

Vice President for Finance and Administration
Lewis-Clark State College

Vice President for Finance and Administration
Eastern Idaho Technical College

1.4 **"Annuity Contract":** A nontransferable contract as defined in section 403(b)(1) of the Code, established for each Participant by the Employer, or by each Participant individually, that is issued by an insurance company qualified to issue annuities in Idaho and that includes payment in the form of an annuity.

1.5 **"Beneficiary":** The designated person who is entitled to receive benefits under the Plan after the death of a Participant, subject to such additional rules as may be set forth in the Individual Agreements.

1.6 **"Custodial Account":** The group or individual custodial account or accounts, as defined in section 403(b)(7) of the Code, established for each Participant by the Employer, or by each Participant individually, to hold assets of the Plan.

1.7 **"Code":** The Internal Revenue Code of 1986, as now in effect or as hereafter amended. All citations to sections of the Code are to such sections as they may from time to time be amended or renumbered.

1.8 **"Disabled":** The definition of disability provided in the applicable Individual Agreement.

1.9 **"Eligible Employee":** Each individual listed in Appendix A, who is a common law employee of the Employer performing services for a public school as an employee of the Employer. This definition is not applicable unless the employee's compensation for performing services for a public school is paid by the Employer. Further, a person occupying an elective or appointive public office is not an employee performing services for a public school unless such office is one to which an individual is elected or appointed only if the individual has received training, or is experienced, in the field of education. A public office includes any elective or appointive office of a State or local government.

1.10 **"Employer":** Employer means the Board and employment units under its jurisdiction, namely:

Office of the Idaho State Board of Education
Boise State University
Idaho State University
University of Idaho
Lewis-Clark State College
Eastern Idaho Technical College

1.11 **"Employer Contributions":** The Employer contributions made to the Plan by the Participant's Employer that do not reduce the Participant's cash compensation.

1.12 **"Funding Vehicles":** The Annuity Contracts or Custodial Accounts issued for funding amounts held under the Plan and specifically approved by Employer for use under the Plan.

1.13 **"Includible Compensation":** An Employee's contract base salary (exclusive of taxable fringe benefits), but subject to a maximum of $200,000 (or such higher maximum as may apply under section 401(a)(17) of the Code) and increased (up to the dollar maximum) by any compensation reduction election under section 125, 132(f), 401(k), 403(b), or 457(b) of the Code. The amount of Includible Compensation is determined without regard to any community property laws.

1.14 **"Individual Agreement":** The agreements between a Vendor and the Employer or a Participant that constitutes or governs a Custodial Account or an Annuity Contract.

1.15 "**Mandatory Contributions":** The Employer contributions required to be made to the Plan by the Participant in lieu of receiving cash compensation.

1.16 **"Participant":** An individual for whom contributions are currently being made, or for whom contributions have previously been made, under the Plan and who has not received a distribution of his or her entire benefit under the Plan.

1.17 **"Plan":** Idaho State Board of Education Supplemental Retirement 403(b) Plan.

1.18 **"Plan year":** The calendar year, which is also the limitation year for purposes of Code section 415.

1.19 **"Related Employer":** The Employer and any other entity which is under common control with the Employer under section 414(b) or (c) of the Code. For this purpose, the Employer shall determine which entities are Related Employers based on a reasonable, good faith standard and taking into account the special rules applicable under Notice 89-23, 1989-1 C.B. 654.

1.20 **"Severance from Employment":** For purpose of the Plan, Severance from Employment means Severance from Employment with the Employer and any Related Entity. However, a Severance from Employment also occurs on any date on which an Employee ceases to be an employee of a public school, even though the Employee may continue to be employed by a Related Employer that is another unit of the State or local government that is not a public school or in a capacity that is not employment with a public school (e.g., ceasing to be an employee performing services for a public school but continuing to work for the same State or local government employer).

1.21 **"Vendor":** The provider of an Annuity Contract or Custodial Account.

1.22 **"Valuation Date":** Each business day.

Section 2
Participation and Contributions

2.1 **Notification.** The Employer will notify an Eligible Employee when he or she becomes an Eligible Employee listed in Appendix A. An Eligible Employee who complies with the requirements of this Plan to become a Participant is entitled to the benefits and is bound by all the terms , provisions, and conditions of this Plan, including any amendments that, from time to time, may be adopted, and including the terms, provisions and conditions of any Funding Vehicles to which Plan contributions for the Participant have been applied.

2.2 **Enrollment in Plan – One Time Irrevocable Election.** To participate in this Plan, an Eligible Employee must complete the necessary enrollment form(s) and return them to the Employer. An employee who has been notified that he or she is an Eligible Employee listed in Appendix A but who fails to return the enrollment forms within 30 days of receipt of the enrollment forms will be deemed to have waived all of his or her rights under the Plan. This procedure is designed to give an Eligible Employee a one time irrevocable option to participate in the Plan. The participation election shall also include designation of the Funding Vehicles and Accounts therein to which Plan contributions are to be made and a designation of Beneficiary. An Employee shall become a Participant as soon as administratively practicable following the date applicable under the employee's election.

2.3 **Information Provided by the Employee**. Each Employee enrolling in the Plan should provide to the Administrator at the time of initial enrollment, and later if there are any changes, any information necessary or advisable for the Administrator to administer the Plan, including any information required under the Individual Agreements.

2.4 **Change in Beneficiary or Investment.** Subject to the provisions of the applicable Individual Agreements, an Employee may at any time change his or her investment direction and his or her designated Beneficiary. A change in the investment direction shall take effect as of the date provided by the Administrator on a uniform basis for all Employees. A change in the Beneficiary designation shall take effect when the election is accepted by the Vendor.

2.5 **Contribution Amounts**. Employer Contributions and Mandatory Contributions shall equal the percentage of the Participant's Includible Compensation indicated for the Participant on Appendix A.

2.6 **Contributions Made Promptly.** Mandatory Contributions under the Plan shall be transferred to the applicable Funding Vehicle as part of the Employer's biweekly payroll processing and within 15 business days following the end of the pay date in which the amount would otherwise have been paid to the Participant. Employer Contributions shall be credited to the applicable Funding Vehicle as part of the Employer's biweekly payroll processing and within 15 business days following the end of the pay date.

2.7 **Leave of Absence.** If an Employee is absent from work by leave of absence, Mandatory Contributions and Employer Contributions under the Plan shall continue to the extent that Includible Compensation continues.

2.8 **Revenue Sharing Account.** The Plan shall record in an unallocated Plan account any amounts paid to the Plan by Vendors, and shall invest such unallocated account as directed by the Board or its delegate. As of the last day of each Plan Year, all assets remaining in the unallocated Plan account shall be allocated among the Accounts of Participants who have Accounts on the last day of the Plan Year. The allocation shall be made in proportion to the value of each Participant's Account invested in Funding Vehicles that generate revenue sharing, determined according to the Vendors' records as of the last day of the Plan Year.

Section 3
Limitations on Contributions

3.1 **Annual Limitation.** This Plan incorporates by reference the final Treasury Regulations under Code section 415 and applies the definition of compensation under Treasury Regulation section 1.415(c)-2(d)(3) for purposes of the Code section 415 limits. If a Participant's annual addition under this Plan and all other plans that must be aggregated with this Plan in accordance with the final Treasury Regulations under Code section 415 exceed the limit under such Regulations for a limitation year, the excess shall be attributed to this Plan, except that in the case of a Participant who also participates in the Boise State University Section 403(b) Base Plan (the "Base Plan") the excess annual additions that would otherwise be made to the Participant's Base Plan account shall be attributed to the Base Plan.

3.2 **Protection of Persons Who Serve in a Uniformed Service.** In the case of a Participant whose employment is interrupted by qualified military service under section 414(u) of the Code or who is on a leave of absence for qualified military service under section 414(u) of the Code this Plan will comply with all applicable requirements of Code section 414(u) and the Heroes Earnings Assistance and Relief Act of 2008 (the "HEART Act").

Section 4
Benefit Distributions

4.1 **Benefit Distributions At Severance from Employment or Other Distribution Event.** Except as permitted under Section 4.5 (relating to withdrawals of amounts rolled over into the Plan), or Section 7.3 (relating to termination of the Plan), distributions from a Participant's Account may not be made earlier than the earliest of the date on which the Participation has a Severance from Employment, dies, becomes Disabled, or attains age 59 ½. Distributions shall otherwise be made in accordance with the terms of the Individual Agreements.

4.2 **Small Account Balances.** The terms of the Individual Agreement may permit distributions to be made in the form of a lump-sum payment, without the consent of the Participant or Beneficiary, but no such payment may be made without the consent of the Participant or Beneficiary unless the Account Balance does not exceed $5,000 (determined without regard to any separate account that holds rollover contributions under Section 6.1) and any such distribution shall comply with the requirements of section 401(a)(31)(B) of the Code (relating to automatic distribution as a direct rollover to an individual retirement plan for distributions in excess of $1,000).

4.3 **Minimum Distributions.** Each Individual Agreement shall comply with the minimum distribution requirements of section 401(a)(9) of the Code and the regulations thereunder. For purposes of applying the distribution rules of section 401(a)(9) of the Code, each Individual Agreement is treated as an individual retirement account (IRA) and distributions shall be made in accordance with the provisions of § 1.408-8 of the Income Tax Regulations, except as provided in § 1.403(b)-6(e) of the Income Tax Regulations.

4.4 **In-Service Distributions From Rollover Account.** If a Participant has a separate account attributable to rollover contributions to the plan, to the extent permitted by the applicable Individual Agreement, the Participant may at any time elect to receive a distribution of all or any portion of the amount held in the rollover account.

4.5 **Rollover Distributions.**

(a) A Participant or the Beneficiary of a deceased Participant (or a Participant's spouse or former spouse who is an alternate payee under a domestic relations order, as defined in section 414(p) of the Code) who is entitled to an eligible rollover distribution may elect to have any portion of an eligible rollover distribution (as defined in section 402(c)(4) of the Code) from the Plan paid directly to an eligible retirement plan (as defined in section 402(c)(8)(B) of the Code) specified by the Participant in a direct rollover. In the case of a distribution to a Beneficiary who at the time of the Participant's death was neither the spouse of the Participant nor the spouse or former spouse of the participant who is an alternate payee under a domestic relations order, a direct rollover is payable only to an individual retirement account or individual retirement annuity (IRA) that has been established on behalf of the Beneficiary as an inherited IRA (within the meaning of section 408(d)(3)(C) of the Code).

(b) Each Vendor shall be separately responsible for providing, within a reasonable time period before making an initial eligible rollover distribution, an explanation to the Participant of his or her right to elect a direct rollover and the income tax withholding consequences of not electing a direct rollover.

Section 5
Rollovers to the Plan and Transfers

5.1 **Eligible Rollover Contributions to the Plan.**

(a) **Eligible Rollover Contributions.** To the extent provided in the Individual Agreements, an Employee who is a Participant who is entitled to receive an eligible rollover distribution from another eligible retirement plan may request to have all or a portion of the eligible rollover distribution paid to the Plan. Such rollover contributions shall be made in the form of cash only. The Vendor may require such documentation from the distributing plan as it deems necessary to effectuate the rollover in accordance with section 402 of the Code and to confirm that such plan is an eligible retirement plan within the meaning of section 402(c)(8)(B) of the Code. However, in no event does the Plan accept a rollover contribution from a Roth IRA described in section 408A of the Code.

(b) **Eligible Rollover Distribution.** For purposes of Section 6.1(a), an eligible rollover distribution means any distribution of all or any portion of a Participant's benefit under another eligible retirement plan, except that an eligible rollover distribution does not include (1) any installment payment for a period of 10 years or more, (2) any distribution made as a result of an unforeseeable emergency or other distribution which is made upon hardship of the employee, or (3) for any other distribution, the portion, if any, of the distribution that is a required minimum distribution under section 401(a)(9) of the Code. In addition, an eligible retirement plan means an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, a qualified trust described in section 401(a) of the Code, an annuity plan described in section 403(a) or 403(b) of the Code, or an eligible governmental plan described in section 457(b) of the Code, that accepts the eligible rollover distribution.

(c) **Separate Accounts.** The Vendor shall establish and maintain for the Participant a separate account for any eligible rollover distribution paid to the Plan.

5.2 **Contract and Custodial Account Exchanges.**

(a) A Participant or Beneficiary is permitted to change the investment of his or her Account Balance among the Vendors under the Plan, subject to the terms of the Individual Agreements. However, an investment change that includes an investment with a Vendor that is not eligible to receive contributions under Section 3 (referred to below as an exchange) is not permitted unless the conditions in paragraphs (b) through (d) of this Section 5.2 are satisfied.

(b) The Participant or Beneficiary must have an Account Balance immediately after the exchange that is at least equal to the Account Balance of that Participant or Beneficiary immediately before the exchange (taking into account the Account Balance of that Participant or Beneficiary under both section 403(b) contracts or custodial accounts immediately before the exchange).

(c) The Individual Agreement with the receiving Vendor has distribution restrictions with respect to the Participant that are not less stringent than those imposed on the investment being exchanged.

(d) The Employer enters into an agreement with the receiving Vendor for the other contract or custodial account under which the Employer and the Vendor will from time to time in the future provide each other with the following information:

(1) Information necessary for the resulting contract or custodial account, or any other contract or custodial accounts to which contributions have been made by the Employer, to satisfy section 403(b) of the Code, including the following:

(i) the Employer providing information as to whether the Participant's employment with the Employer is continuing, and notifying the Vendor when the Participant has had a Severance from Employment (for purposes of the distribution restrictions in Section 4.1);

(ii) the Vendor providing information to the Employer or other Vendors concerning the Participant's or Beneficiary's section 403(b) contracts or custodial accounts or qualified employer plan benefits; and

(2)Information necessary in order for the resulting contract or custodial account and any other contract or custodial account to which contributions have been made for the Participant by the Employer to satisfy other tax requirements.

(e) If any Vendor ceases to be eligible to receive contributions under the Plan, the Employer will enter into an information sharing agreement as described in Section 5,2(d) to the extent the Employer's contract with the Vendor does not provide for the exchange of information described in Section 5.2(d)(1) and (2).

Section 6
Investment of Contributions

6.1 **Manner of Investment.** All amounts contributed to the Plan, all property and rights purchased with such amounts under the Funding Vehicles, and all income attributable to such amounts, property, or rights shall be held and invested in one or more Annuity Contracts or Custodial Accounts. Each Custodial Account shall provide for it to be impossible, prior to the satisfaction of all liabilities with respect to Participants and their Beneficiaries, for any part of the assets and income of the Custodial Account to be used for, or diverted to, purposes other than for the exclusive benefit of Participants and their Beneficiaries.

6.2 **Investment of Contributions.** Each Participant or Beneficiary shall direct the investment of his or her Account among the investment options available under the Annuity Contract or Custodial Account in accordance with the terms of the Individual Agreements. Transfers among Annuity Contracts and Custodial Accounts may be made to the extent provided in the Individual Agreements and permitted under applicable Income Tax Regulations.

6.3 **Current and Former Vendors.** The Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF) and the Variable Annuity Life Insurance Company (VALIC) shall be the exclusive Vendors under the Plan. Each Vendor and the Administrator shall exchange such information as may be necessary to satisfy section 403(b) of the Code or other requirements of applicable law. In the case of a Vendor which is not eligible to receive contributions under the Plan (including a Vendor which has ceased to be a Vendor eligible to receive contributions under the Plan and a Vendor holding assets under the Plan in accordance with Section 5.2), the Employer shall keep the Vendor informed of the name and contact information of the Administrator in order to coordinate information necessary to satisfy section 403(b) of the Code or other requirements of applicable law.

Section 7
Amendment and Plan Termination

7.1 **Termination of Contributions.** The Employer has adopted the Plan with the intention and expectation that contributions will be continued indefinitely. However, the Employer has no obligation or liability whatsoever to maintain the Plan for any length of time and may discontinue contributions under the Plan at any time without any liability hereunder for any such discontinuance.

7.2 **Amendment and Termination.** The Employer reserves the authority to amend or terminate this Plan at any time.

7.3 **Distribution upon Termination of the Plan.** The Employer may provide that, in connection with a termination of the Plan and subject to any restrictions contained in the Individual Agreements, all Accounts will be distributed, provided that the Employer and any Related Employer on the date of termination do not make contributions to an alternative section 403(b) contract that is not part of the Plan during the period beginning on the date of plan termination and ending 12 months after the distribution of all assets from the Plan, except as permitted by the Income Tax Regulations.

Section 8
Miscellaneous

8.1 **Non-Assignability.** Except as provided in Section 8.2 and 8.3, the interests of each Participant or Beneficiary under the Plan are not subject to the claims of the Participant's or Beneficiary's creditors; and neither the Participant nor any Beneficiary shall have any right to sell, assign, transfer, or otherwise convey the right to receive any payments hereunder or any interest under the Plan, which payments and interest are expressly declared to be non-assignable and non-transferable.

8.2 **Domestic Relation Orders.** Notwithstanding Section 8.1, if a judgment, decree or order (including approval of a property settlement agreement) that relates to the provision of child support, alimony payments, or the marital property rights of a spouse or former spouse, child, or other dependent of a Participant is made pursuant to the domestic relations law of any State ("domestic relations order"), then the amount of the Participant's Account Balance shall be paid in the manner and to the person or persons so directed in the domestic relations order. Such payment shall be made without regard to whether the Participant is eligible for a distribution of benefits under the Plan. The Administrator shall establish reasonable procedures for determining the status of any such decree or order and for effectuating distribution pursuant to the domestic relations order.

8.3 **IRS Levy.** Notwithstanding Section 8.1, the Administrator may pay from a Participant's or Beneficiary's Account Balance the amount that the Administrator finds is lawfully demanded under a levy issued by the Internal Revenue Service with respect to that Participant or Beneficiary or is sought to be collected by the United States Government under a judgment resulting from an unpaid tax assessment against the Participant or Beneficiary.

8.4 **Tax Withholding.** Any benefit payment made under the Plan is subject to applicable income tax withholding requirements (including section 3401 of the Code and the Employment Tax Regulations thereunder). A payee shall provide such information as the Administrator may need to satisfy income tax withholding obligations, and any other information that may be required by guidance issued under the Code.

8.5 **Payments to Minors and Incompetents.** If a Participant or Beneficiary entitled to receive any benefits hereunder is a minor or is adjudged to be legally incapable of giving valid receipt and discharge for such benefits, or is deemed so by the Administrator, benefits will be paid to such person as the Administrator may designate for the benefit of such Participant or Beneficiary. Such payments shall be considered a payment to such Participant or Beneficiary and shall, to the extent made, be deemed a complete discharge of any liability for such payments under the Plan.

8.6 **Mistaken Contributions.** If any contribution (or any portion of a contribution) is made to the Plan by a good faith mistake of fact, then within one year after the payment of the contribution, and upon receipt in good order of a proper request approved by the Administrator, the amount of the mistaken contribution (adjusted for any income or loss in value, if any, allocable thereto) shall be returned directly to the Participant or, to the extent required or permitted by the Administrator, to the Employer.

8.7 **Procedure When Distributee Cannot Be Located.** The Administrator shall make all reasonable attempts to determine the identity and address of a Participant or a Participant's Beneficiary entitled to benefits under the Plan. For this purpose, a reasonable attempt means (a) the mailing by certified mail of a notice to the last known address shown on Idaho State Board of Education's or the Administrator's records, (b) notification sent to the Social Security Administration or the Pension Benefit Guaranty Corporation (under their program to identify payees under retirement plans), and (c) the payee has not responded within 6 months. If the Administrator is unable to locate such a person entitled to benefits hereunder, or if there has been no claim made for such benefits, the funding vehicle shall continue to hold the benefits due such person.

8.8 **Incorporation of Individual Agreements.** The Plan, together with the Individual Agreements, is intended to satisfy the requirements of section 403(b) of the Code and the Income Tax Regulations thereunder. Terms and conditions of the

Individual Agreements are hereby incorporated by reference into the Plan, excluding those terms that are inconsistent with the Plan or section 403(b) of the Code.

8.9 **Governing Law.** The Plan will be construed, administered and enforced according to the Code and the laws of the State in which the Employer has its principal place of business.

8.10 **Headings.** Headings of the Plan have been inserted for convenience of reference only and are to be ignored in any construction of the provisions hereof.

8.11 **Gender.** Pronouns used in the Plan in the masculine or feminine gender include both genders unless the context clearly indicates otherwise.

APPENDIX A

ELIGIBLE EMPLOYEES

The contribution percentages listed in this Appendix A are set by a formula established by the Employer. Each Eligible Employee has not exercised any control, direct or indirect, over the contribution percentages listed in this Appendix A.

1. For Calendar Years 2011 and 2012 the Contributions Amounts (as referenced in Section 2.5) shall be as follows:

Employee	Employer Contribution	Mandatory Employee Contribution
Robert Kustra	3.46%	2.60%
Arthur Vailas	2.98%	2.24%
Chris Petersen	10.52%	6.97%
Leon Rice	3.59%	2.70%

2. For Calendar Year 2011 the Contributions Amounts (as referenced in Section 2.5) shall be as follows:

Employee	Employer Contribution	Mandatory Employee Contribution
M. Duane Nellis	6.90%	5.19%

3. For Calendar Year 2012 the Contributions Amounts (as referenced in Section 2.5) shall be as follows:

Employee	Employer Contribution	Mandatory Employee Contribution
M. Duane Nellis	3.41%	2.56%

4. For Calendar Years 2013 and 2014 the Contributions Amounts (as referenced in Section 2.5) shall be as follows:

Employee	Employer Contribution	Mandatory Employee Contribution
Robert Kustra	3.56%	2.70%
Arthur Vailas	3.08%	2.34%
Chuck Staben	3.51%	2.66%
Mark Coyle	3.56%	2.70%
Bryan Harsin	3.69%	2.80%

Leon Rice	3.69%	2.80%
Kenneth Petersen	3.56%	2.70%

5. For ~~c~~Calendar ~~y~~Years 2015 and each calendar year thereafter, the Contributions Amounts (as referenced in Section 2.5) for each Eligible Employee listed below shall be as follows:

Employee	Employer Contribution	Mandatory Employee Contribution
Robert Kustra	3.50%	2.50%
Arthur Vailas	3.50%	2.50%
Chuck Staben	3.50%	2.50%
~~Mark Coyle~~	~~3.50%~~	~~2.50%~~
Bryan Harsin	3.50%	2.50%
Leon Rice	3.50%	2.50%
Kenneth Petersen	3.50%	2.50%

6. For Calendar Years 2018 and 2019 only, the Contributions Amounts (as referenced in Section 2.5) for each Eligible Employee listed below shall be as follows:

Employee	Employer Contribution	Mandatory Employee Contribution
Martin Schimpf	3.50%	2.50%

IN WITNESS WHEREOF, the Employer has caused this instrument to be executed by its duly authorized representative effective on this 16th day of March 2014.

SUBJECT

Approval of FY 2019 Appropriated Funds Operating Budgets

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures Section II.F.b.v.; V.B.3.b.ii., 4.b., 5.c, 6.b.

ALIGNMENT WITH STRATEGIC PLAN

Annual budget approval is a non-strategic Board governance item.

BACKGROUND/DISCUSSION

Pursuant to Board policy V.B., each institution and agency prepares an operating budget for appropriated funds, non-appropriated auxiliary enterprises, non-appropriated local services, and non-appropriated other.

For the appropriated funds operating budget, Board policy V.B.3.b.ii provides as follows: "each institution or agency prepares an operating budget for the next fiscal year based upon guidelines adopted by the Board. Each budget is then submitted to the Board in a summary format prescribed by the Executive Director, for review and formal approval before the beginning of the fiscal year." The appropriated operating budgets have been developed based on appropriations enacted during the 2018 session.

For the college and universities' non-appropriated operating budgets, Board policy V.B. requires reports of revenues and expenditures to be submitted to the State Board of Education at the request of the Board. Currently, these operating budgets are available on each institution's website and are available upon request.

Operating budgets are presented in two formats: budgets for agencies, health education programs, and special programs contain a <u>summary</u> (displayed by program, by source of revenue, and by expenditure classification) and a <u>budget overview</u> that briefly describes the program and changes from the previous fiscal year. All sources of revenues are included (i.e. General Funds, federal funds, miscellaneous revenue, and any other fund source).

For the college and universities, postsecondary career technical education and agricultural research and extension, supplemental information is provided including personnel costs summarized by type of position. The college and universities' reports contain information about appropriated funds, which only include state General Funds, endowment funds, and appropriated student fees.

IMPACT

Approval of the budgets establishes agency and institutional fiscal spending plans for FY 2019, and allows the agencies and institutions to continue operations from FY 2018 into FY 2019.

STAFF COMMENTS AND RECOMMENDATIONS

Budgets were developed according to legislative intent and/or Board guidelines. There was funding for a 3% ongoing Change in Employee Compensation (CEC) in FY 2019. Representatives from the institutions will be available to answer specific questions.

Attachment 20 presents a system-wide summation of personnel costs by institution, by classification and also includes the number of new positions added at each institution. Board policy requires prior Board approval for the following positions:

- Salaries for new appointments to dean, associate/assistant dean, vice president and equivalent positions above the College and University Professional Association for Human Resources (CUPA-HR) median rate for such positions. (II.F.2.b.)

- Any position at a level of vice-president (or equivalent) and above, regardless of funding source. (II.B.3.a.)
- The initial appointment of an employee to any type of position at a salary that is equal to or higher than 75% of the chief executive officer's annual salary. (II.B.3.b.)
- The employment agreement of any head coach or athletic director (at the institutions only) longer than three years, or for a total annual compensation amount of $200,000 or higher, and all amendments thereto. (II.B.3.c.)
- Non-classified employee contracts (other than for athletic directors or coaches) over one year. (II.F.1.b.v.)

All other hiring authority has been expressly delegated to the presidents. Therefore, Board review of the operating budgets is the best opportunity for the Board to see the number of new positions added year-over-year.

For informational purposes only, the list of FY 2019 maintenance (Alteration and Repair) projects recommended by the Permanent Building Fund Advisory Council is included in Attachment 29.

Staff recommends approval.

BOARD ACTION

I move to approve the FY 2019 operating budgets for the Office of the State Board of Education, Idaho Public Television, Division of Vocational Rehabilitation, College and Universities, Career Technical Education, Agricultural Research and Extension Service, Health Education Programs and Special Programs, as presented in Attachments 1-28.

Budget Overview

The Office of the State Board of Education received a 3% ongoing CEC as well as benefit decreases and replacement capital. OSBE recieved funding for 3 FTP and $414k to transfer Career Information Systems from Department of Labor, $80k for Graduate Medical Education Council, $250k for Systems Integration Consultant, $125k for Accreditation for Psychology Internships, $3.5m for the Opportunity Scholarship offset slightly by a reduction in planned use of interest revenue, $800k for IRON and $350k for a Degree Audit and Data System. The Charter Commission received a $47k reduction for Statewide Cost Allocation. The reduction in Research Services is due to the phaseout of the federal grant for the Statewide Longitudinal Data System.

Notes:

FY 2018 budget per SB1138; FY 2019 budget per HB654

(1) Appropriations for a 3% CEC that increased personnel costs throughout the budget.

(2) Seeking additional donations to support IdahoPTV special productions and projects.

(3) Added educational position and expanded outreach.

(4) Reduced level of general fund capital replacement appropriation.

BOISE STATE UNIVERSITY
FY2018 BUDGET OVERVIEW
Appropriated Funds

Boise State's FY2019 proposed base operating budget of $218,000,000 will be funded through $99.8 million in state general fund and $118 million in student tuition and fees. Included in this proposed budget is an enrollment growth reserve of $2,359,800. This enrollment growth reserve will only be allocated if projected FY 2019 tuition and fee revenues exceed budgeted tuition and fee revenue. Boise State has taken a relatively conservative approach to budgeting tuition and fee revenue. However, over the past two years, both enrollment growth and new online programs approved during the fiscal year have led to tuition and fee revenue collections that have exceeded budget tuition and fee revenue. If this occurs again in FY 2019, the enrollment growth reserve will allow Boise State to utilize these funds to serve the additional students.

FY 2019 State General Fund	99,811,800
FY 2019 Tuition and Fees	118,188,200
Proposed FY 2019 Base Operating Budget	**$218,000,000**

	State General Fund	Tuition and Fees
FY 2018	$96,212,300	$105,734,200
Changes in State General Funds		
Personnel Benefits	(1,070,900)	
Risk Management / Controller's Fees	56,600	
Change in Employee Comp. (CEC)	2,037,100	
Enrollment Workload Adjustments	2,362,600	
Occupancy Costs	214,100	
Increases in Tuition and Fees (Based on SBOE approval in April)		
Tuition and Fees (excl. Online)		5,611,200
Online Fee Programs		3,748,000
Enrollment Growth Reserve (Provides budgetary authority to spend tuition revenue if actual revenue exceeds budgeted revenue)		3,094,800
FY 2019	**$99,811,800**	**$118,188,200**
% of Total	*45.8%*	*54.2%*

Highlights of the FY 2019 appropriated operating budget include:

- Salary Adjustments - State funding will partially cover a 3% CEC with student tuition and fees covering the remaining. The total cost to the appropriated budget is $2.0 million.

- Enrollment Workload Adjustment – State general funding will provide $2,362,600 to Boise State University to fund enrollment growth.

- Occupancy Costs - $214,100 was provided to support occupancy costs for the Alumni and Friends Center, Campus Planning and Facilities Building, and the Fine Arts Building. The Alumni and Friends Center has been acquired from the Boise State University Foundation and the Fine Arts Building is scheduled to open in the summer of 2019.

IDAHO STATE UNIVERSITY
FY2019 BUDGET OVERVIEW
Appropriated Funds

In this budget cycle, Idaho State University utilized the Institutional Effectiveness and Assessment Council (IEAC) to facilitate key budget discussions, deliberations, and recommendations. The IEAC Steering Committee serves in an advisory role, reporting to the President. The IEAC is chaired by the Executive Vice President and Provost and is comprised of representatives across campus representing administration, faculty, staff, and students.

The Board-approved 3.5% undergraduate resident tuition and fee increase reflected in this budget is ISU's fourth lowest increase in thirty years.

The FY2019 General Education operating budget totaling $145,669,400 represents an increase of 0.07% over FY2018. An overview of the FY2019 state appropriated budget is provided as follows:

FY2019 Base Operating Budget	**$144,925,500**
Adjustments to Base from State Funds	
Personnel Benefits	-1,148,300
Risk Management / Controller's Fees	89,200
Change in Employee Compensation	1,896,700
Enrollment Workload Adjustment	570,700
State Endowment Adjustments	95,900
Clinical Psychopharmacology	658,600
Occupancy Costs	1,356,100
NET INCREASE IN BASE STATE FUNDING	**$3,518,900**
Change in Student Tuition and Fees	**-$3,558,100**
One-time Funding	**$783,100**
FY2019 Operating Budget	**$145,669,400**

State General appropriations increased by $2,772,100 in both permanent and one-time funding, representing a 3.6% increase. State Endowment appropriations increased by $129,800, or 3.6%, from their FY2018 funding levels. Budgeted revenue generated by student tuition is estimated to decrease by -$3,558,100, or -5.6%, primarily due to a continuing decline in international student enrollment. Through state appropriations, institutional reallocations and adjustments, student tuition and fee revenue, and reserves, funding will be provided for facility occupancy costs, Athletics, the creation of a new clinical psychopharmacology program, safety and security investments, graduate and teaching assistant waivers, and the 3% Change in Employee Compensation.

The FY2019 budget has a deficit of approximately -$2,095,400 representing 3.5% of estimated student tuition and fee revenue. In order to remain competitive and be sensitive to parent and student concerns regarding the cost of tuition, the institution's proposed and approved 3.5% undergraduate resident tuition and fee increase will not be sufficient to cover funding for institutional priorities when combined with enrollment challenges. As a result, Idaho State will fund this budget deficit from reserves. Monitoring of the deficit will occur through mechanisms such as use of the quarterly financial measurement system and area reviews.

At the encouragement of the Legislature, ISU will continue to invest in its employees. The compensation plan for FY2019 includes a performance increase with a 3% merit pool to provide faster salary advancement for higher performers in accordance with guidance from DFM and DHR. Classified minimum salaries will continue to be maintained at 75% of Policy in the State's FY2019 pay structure. The classified minimum hourly rate for benefitted positions will be raised to $10.30, which is 3% above the federal poverty rate for a family of three. Further, limited equity adjustments will be considered to address compensation issues based on race, gender, and ethnicity.

Idaho State has continued its restraint on student tuition and fee increases while making investments, reallocating resources to support growth, and creating incentives to increase enrollment. The institution will continue to maintain and enhance student support, actively develop and grow sponsored research, address key infrastructure and deferred maintenance needs, focus on compensation equity, and maintain affordability for students. Reserves will be used to aid in the continuing rebalancing of our financial posture, which is essential for improving student opportunities and increasing access to a high-quality education.

Note: Family Medicine Residency (FMR) includes an additional 3.0 FTE for the Pharmacy Residency and the FMR Resident Funding Enhancement appropriations in FY2019. Due to an error in how the appropriations were structured, the 3.0 FTE were not included and authorized in the FMR appropriation. As a result, DFM has proposed that the Governor add the 3.0 FTE now pursuant to the authority granted to the Governor in addition to transferring appropriation for Family Medicine Residency that was placed in the Trustee and Benefit Payments object code in error to the Personnel Costs object code through an FY2019 supplemental appropriation.

University of Idaho
FY2019 Budget Overview
Appropriated Funds

The FY2019 General Education operating budget totals $180,200,000 with $177,873,800 in permanent base funding and $2,326,200 in one-time funding. Key funding from the state includes:

- Salary Increases (CEC): $2,148,800
  - This amount covers only a portion of the CEC cost (salaries and benefits) for regular employees paid on General Education, leaving $1.8M to be covered from other sources, primarily student tuition.

- Benefit Funding: $1,226,200 One-Time (net zero impact to total state funding)
  - This funding offsets a base reduction in the same amount and was provided in recognition of the University of Idaho not being on the state's benefit plan and therefore not able to realize the benefit savings related to that plan.

Overall the base state general fund appropriation for the University of Idaho is increasing from $90,690,500 in FY2018 to $91,500,700 in FY2019, an increase of $810,200 or 0.9%.

The Board approved an overall undergraduate resident student tuition and fee increase of 5.0% or $376 per academic year. The student leadership once again provided key support for the operating budget by limiting the student activity fee increase for the coming year to 3.9% or $41.92 per academic year. These increases focused both on maintenance of current operations, including Change in Employee Compensation (CEC) and benefit rate changes, and investment in programs and services for the following areas:

- Campus Recreation
- Counseling and Testing Center
- Intercollegiate Athletics
- LGBTQA
- Native American Center
- Office of Multicultural Affairs
- Outdoor Programs
- Spirit Squad
- Student Alumni Relations Board
- Student Athlete Support Services
- Student Government
- Tutoring and College Success
- Undergraduate Research Office
- Women's Center
- Veteran & Military Family Services (new fee)

This relatively small increase to the activity fees allowed the majority of the student tuition and fee increase to go to tuition, which is the primary source of flexible dollars to meet the institution's key operating budget needs. There was no increase to the technology or facility fees for FY19.

The Board approved a professional fee increase for the College of Law as well as program fee increases for the MOSS Environmental Education Graduate programs. These increases will enable these programs to sustain quality and further invest in student success.

The University continues to focus on ensuring that all university resources are used in an effective manner to meet the strategic priorities of the university. Within the General Education budget a primary focus continued to be the implementation of our market based compensation system which is a critical need for the university as we try to compete for the best faculty and staff on the behalf of our students. This effort included internally reallocating approximately $2.3M to Teaching Assistants which are an important component of meeting our enrollment and research goals stated in the strategic plan and, much like faculty and staff, had fallen out of step with the market in terms of compensation.

We believe the budget you see here will provide a sound base from which to grow an effective and efficient institution that can continue to meet its key roles in education, research and outreach.

LEWIS-CLARK STATE COLLEGE
FY2019 BUDGET OVERVIEW
Appropriated Funds

2019 State Budget Overview

FY 2018 Base Operating Budget (excl. one-time)	**$35,115,000**
Adjustments to Base from State Funds	
Personnel Benefits (Health Insurance Costs + Variables)	($256,800)
Risk Management / Controller's Fees	$17,800
CEC 3% + Move to Minimum	$362,300
Enrollment Workload Adjustment	($75,700)
LCSC Access & Completion	$180,400
Normal School Endowment Fund Adjustment	$73,800
NET INCREASE IN BASE STATE FUNDING	**$301,800**
Increases from Student Tuition and Fees	**$213,200**
FY 2019 Base Budget (excl. one-time)	**$35,630,000**
One-time Funds	**$6,000**
FY 2019 Operating Budget	**$35,636,000**
FY 2019 Operating Budget Increase Over Previous Year	**$179,600**

FY 2019 Base Budget (excl. one-time)	**$35,630,000**
General Fund (48.2%)	**$17,180,300**
Normal School Endowment (6.2%)	**$2,205,000**
Tuition (45.7%)	**$16,244,700**

The FY2019 General Education operating budget totaling $35,636,000 represents an increase of 0.5% over FY2018. State General appropriations increased by $228,000 in permanent funding, representing a 1.3% increase. State Endowment appropriations increased $73,800 from the FY2018 funding level. Budgeted revenue generated by student tuition is estimated to increase by $213,200 or 1.3%.

The revenue generated from this increase will be used to fund the CEC stipulated by the legislature, faculty promotions, and strategic institutional initiatives.

The following are highlights of the FY 2019 appropriation operating budget:

- LCSC's General Education personnel structure will increase slightly in FY2019, to a total of 364.00 FTP. Our legislative appropriation included funding for two new positions (Social Work faculty ($77,000) and a Career Counselor $74,000).
- Salary Competitiveness for Counselors ($35,400)
- Normal School Endowment ($73,800) which is offset in the operating budget by an enrollment workload adjustment (-$75,700)

The following is not reflected in the General Education budget but is included in the operational functions of the College.

- Student leadership supported a $30 per semester increase to the technology fee. This was the first increase to this fee in several years and will be used to fund inflation on enterprise software and for campus operations. The increase to the technology fees allowed the majority of the student tuition and fee increase to go to tuition, which is the primary source of flexible dollars to meet the institution's key operating budget needs. There was no increase to the facility fee for FY19.
- Career-Technical Education (C.T.E.) allocation for FY2019 ($4,804,200) provides funding for salary and benefit increases, one new faculty position in Graphic Communications, as well as one-time funds totaling $64,000 which will be used to address critical equipment needs in the CTE program.

The total revenue sources outlined above (General Fund, Student Fees, Normal School Endowment, and C.T.E. allocated funding) finance LCSC's FY2019 Total General Education and Career-Technical Education operating budget of $40,504,200. The ensuing schedules speak to the General Education program only, and does not include Career-Technical Education.

IDAHO CAREER TECHNICAL EDUCATION
FY 2019 POSTSECONDARY BUDGET OVERVIEW
Appropriated Funds

Funds are appropriated to Idaho Career Technical Education for career & technical education programs and services. The State Board of Education approved the allocation of the appropriation for postsecondary career & technical education at its April 18-19, 2018 meeting. Idaho Career & Technical Education requests approval of the FY2019 Operating Budget for the Postsecondary Career & Technical Education System.

The allocation and reallocation of funds for the FY2019 Postsecondary Career & Technical Education System is based on the Strategic Plan for Career Technical Education in Idaho, as well as Board and Legislative Intent.

The FY2019 postsecondary budget reflects an overall increase in the budget of $399,621 or 0.87%. The increase includes $1.6 million in funds for capacity expansion of 13 specific programs at the 6 Postsecondary technical colleges as well as $989,200 to fund a 3% CEC.

This budget was also decreased by $1.1 million in funds that transferred to College of Eastern Idaho's community college budget with their transition from Eastern Idaho Technical College to College of Eastern Idaho.

University of Idaho
FY2019 Budget Overview
Agricultural Research and Extension Service

In FY2019 the Agricultural Research and Extension Service (ARES) Appropriation received a $127,900 one-time enhancement to budget base for an irrigation pipe replacement at the Tetonia Research and Extension Center to address the needs of the ARES aging infrastructure and facilities improvements.

The FY2019 budget included an additional $694,000 for Changes in Employee Compensation.

A request for $3 million in one-time capital outlay was requested for a new and improved Germplasm Seed Potato Facility to be located in Moscow to replace an existing and outdated facility unable to keep up with demand. The $3 million request was to match an existing funding commitment by Idaho industry to build this facility. This line item request was moved to the Permanent Building Fund where funding was approved.

With the support of the ARES Appropriation, the University of Idaho's College of Agricultural and Life Sciences will continue to serve the needs of the citizens and stakeholders of Idaho.

AGENCIES AND INSTITUTIONS OF THE STATE BOARD

SUBJECT

FY 2020 Line Item Budget Requests

REFERENCE

April 2018	Board approved guidance to the 4-year institutions regarding submission of line item requests

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.B.1.
Title 67, Chapter 35, Idaho Code

BACKGROUND/ DISCUSSION

As discussed at its April 2018 meeting, the State Board of Education (Board) directed the college and universities to limit Fiscal Year 2020 budget line item requests to those which will measurably support implementation of the Board's strategic plan. Institutions may request up to two (2) line items in priority order, the total value of which shall not exceed five percent (5%) of an institution's FY2019 total General Fund appropriation. Any requests for occupancy costs will not count towards the two line item limit or the 5% cap.

Subsequently, the Board will approve the final budget request at the August 2018 meeting. Following Board approval in August, the budget requests will be submitted to the Legislative Services Office (LSO) and Division of Financial Management (DFM) by September 4, 2018.

The line items represent the unique needs of the institutions and agencies and statewide needs. Following review, the Board may prioritize the line items for the institutions. The line items are summarized separately, one summary for the college and universities and one for the community colleges and agencies. The detail information for each line item request is included on the page referenced on the summary report.

IMPACT

Once the Board has provided guidance on priority, category, dollar limit, etc., Board staff will work with the Business Affairs and Human Resources (BAHR) Committee, DFM and the agencies/institutions to prepare line items to be approved at the August Board meeting.

ATTACHMENTS

Attachment 1 - Line Items Summary
Attachment 2 - Occupancy Costs
Attachment 3 - 54: Individual Line Items

STAFF COMMENTS AND RECOMMENDATIONS

Staff asked the institutions to provide as much detail as possible for their line item requests to be submitted for the June Board meeting.

In the past few years, best practices were further enhanced in terms of information needed in order for DFM and LSO analysts to conduct their own analysis in support of policymakers:

- Write-ups need a strong problem statement supported with data and strong solution statement supported with outcome data.
- Where applicable, include projected Return on Investments (ROIs) for new programs or program expansion (i.e. where funding for a program has been provided in the past).
- Requests should be scalable and prioritized.
- Address the influence of program prioritization on the request. Did the institution consider reallocating funding for this line-item?
- Describe how the request advances the Board's 60% Educational Attainment Goal or the Board's Complete College Idaho Plan (if applicable).

Per the Board's guidance, 5% of the College & Universities' FY 2019 total General Fund appropriation equates to the following:

BSU:	$4,990,600
ISU:	$3,991,100
UI:	$4,636,300
LCSC:	$ 859,300

BOARD ACTION

I move to direct the Business Affairs and Human Resources Committee to review the FY 2020 budget line items as listed on Attachment 1 - Line Items Summary, and to bring recommendations back to the Board for its consideration at the regular August 2018 Board meeting.

Outcomes-Based Funding (OBF) is a higher education initiative being led by the State Board of Education, in coordination with the Governor’s Office and the Legislature. OBF is one of the key elements of a Board Five-Year Operational Plan for Higher Education, which is being developed in response to the Governor’s Higher Education Task Force.

Outcomes-Based Funding is a multi-year Board effort to fund higher education institutions in a way that incentivizes completion of student certificates and degrees to prepare them for successful careers and lives. The approach is being used to some degree in many other states, and the Board is proposing to initiate an OBF model in Idaho which will support the State’s 60% goal.

Key characteristics of the Board-proposal include:

- A line item request for $12M in ongoing funds for FY2020.

- o An additional amount drawn from reallocated dollars from the current higher education base.
- o Annual allocation of OBF funds by the State Board to institutions based on the number of students who complete certificates, associate degrees, and bachelor's degrees.
- o A simple allocation model in which dollars are proportional to the time normally required to complete a particular certificate or degree.
- o Applies to academic and career-technical programs.
- o Applies to community colleges and four-year institutions.
- o Permanently replaces the Enrollment Workload Adjustment (EWA) formula.
- o A phased approach: following adoption in FY2020, additional ongoing dollars will be requested for FY2021 to include graduate degrees and certificates/badges of less than one-year duration, plus weighting for key programs/populations (e.g. STEM, health professions, low income students, Hispanic/Native American students, etc.)
- o Final FY 2020 budget request will allocate $12M between line items in three separate budgets: College and Universities, Community Colleges, and Career Technical Education

T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$250,000				$250,000

Description:

Funds to support delivery of Open Education Resources (OER), which would result in no-cost and low-cost textbooks (and other learning resources) for all postsecondary courses included in the state common course list.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The funding is being requested to support faculty development of open educational resources that provides undergraduate students with textbooks at no (or minimal) cost. On average, this would be correspondent to the 38 general education (GEM) courses to be adopted in the common course framework beginning in Fall 2019.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Existing faculty and staff at public institutions of higher learning.
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      Faculty within the appropriate discipline areas will be compensated for the time and effort necessary to learn new software and to develop online textbooks and other learning resources. Each institution has staff (in variable numbers) that support faculty development, particularly as it relates to OER.
   c. List any additional operating funds and capital items needed.

      None.
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request is for one-time funds of $200,000 and ongoing of $50,000.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Though faculty will be compensated for their efforts, over 100,000 undergraduate students in Idaho and their families would be served through this effort. Furthermore, school districts responsible for delivering dual credit would also benefit from not needing to purchase textbooks. As it stands, the average cost of a new textbook is $80, and the average cost for a used textbook is $50. If not funded, degree-seeking students will continue to incur, on average, over $650-$1,000 in textbook costs for general education courses. If all students in the state enroll in approximately 13 classes (36 semester hours) of common-indexed courses in the General Education (GEM) curriculum in order to earn an associates or baccalaureate degree, total student savings could equate up to approximately $65-$100 million across the system at any point in time. If OER can be leveraged for this effort, this item would offer a significant impact towards achieving the affordability goals outlined by the Governor's Task Force on Higher Education, as well as the Board's goals to deliver a postsecondary system that is more accessible to Idaho students.

Average cost of new and used textbooks: *National Association of College Stores website*: https://www.nacs.org/research/HigherEdRetailMarketFactsFigures.aspx

Description:

The School of Public Service was founded in 2015 to inspire and equip students to be innovative, principled, and effective public service leaders, promote meaningful community engagement and civil discourse, and serve as an objective and unbiased resource for citizens and decision-makers in Idaho. The School was designed to ensure that Idaho students, businesses, and taxpayers get the most value out of their investments in higher education by refocusing faculty attention on applied scholarship and teaching that transcends narrow disciplinary boundaries.

Future leaders in public service, whether they are employed within the private, non-profit, or public sectors, require interdisciplinary knowledge and a combination of well-developed hard and soft skills. Graduates from the School of Public Service at Boise State are “systems leaders” well versed in leadership, management, quantitative reasoning, systems thinking, analytics, communications, and ethics in addition to their particular substantive major. To that end, the School of Public Service has eliminated institutional silos by replacing outdated departmental structures with an integrated School, developed new interdisciplinary academic programs in Global Studies, Urban Studies and Community Development, and Environmental Studies that draw from faculty across the University, explicitly integrated skills development into the curriculum through a new School-wide “core curriculum”, and promoted high impact educational practices, including experiential learning programs, that enhance student success on campus and preparation for careers.

Additionally, the School of Public Service facilitates applied research and serves Idaho communities searching for innovative solutions to the seemingly intractable challenges they face. The School revised its tenure and promotion guidelines to emphasize applied research and public engagement. And the School has embraced and reinvigorated the University’s historical commitment to public service research by involving faculty and students, from the undergraduate level through the new Ph.D. program, to work in concert with state and local agencies, non-profit organizations and the private sector around issues of workforce, transportation, and economic development through the newly launched Idaho Policy Institute. The Policy Institute is itself a public-private partnership.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

First, funding will be used to enhance student learning at the undergraduate and graduate levels. The integration of new faculty lines will facilitate the implementation of new interdisciplinary academic programs and improve retention and graduation rates for students pursuing careers in public service at the undergraduate level while opening new functional tracks for students pursuing the Ph.D. In addition, funding will support student participation in experiential programs that directly enhance skill development and will increase opportunities for undergraduate and graduate students to engage in applied research projects.

Second, line item funding will directly enable positive community outcomes throughout the State of Idaho. Funding for Boise State’s Idaho Policy Institute directly supports nonpartisan and rigorous applied research and evaluation studies for use by state and local decision makers, professional training and technical assistance to state and local entities, and seminars, colloquia, and public events convened to promote constructive dialogue and thoughtful deliberation on public issues in Idaho. The Institute conducts public policy and demographic research, publishes economic forecasts and economic impact studies, undertakes rigorous and unbiased public opinion survey research, and offers dispute resolution resources and leadership development and technical assistance to localities throughout Idaho. Each new faculty position created through this appropriation will simultaneously serve interdisciplinary academic programs, and build the School’s capacity for applied research.

Additionally, funding will help grow on-line undergraduate and graduate certificate programs in Geographic Information Systems (GIS) that prepare students for emerging careers while supporting research collaborations with state and local entities involving mapping and spatial analysis projects. Finally, funding will grow the capacity of the Center for Idaho History and Politics. The Center has been redesigned to implement internship and experiential programs across the school, and support high quality University-community engagements including the Politics for Lunch series.

It is important to note that program prioritization has informed this budget request in several ways. Specifically:

- The School of Public Service was created during the program prioritization process. Our aim was to create a sharp focus on public service, and thereby better align resources with the institution's public service mission.
- One of the programs that would have ended up in the SPS was in the fifth quintile during program prioritization, and was discontinued the year after program prioritization.
- One of the programs that recently moved to the SPS, the BA in Environmental Studies, scored in the fourth quintile. It was clear at the time that the reason for the low score was that the program was under-resourced and mis-aligned. Our line item request will enable us to invest in what can be a strong program.
- Overall, the remaining programs that would end up in the SPS scored quite well during program prioritization: the undergraduate programs in criminal justice and political science were in the top quintile, and the graduate programs in criminal justice and public policy and administration were in the second and third quintiles, respectively.
- Because the SPS has dissolved its academic departments, the faculty members in the school are much more able to teach in a range of programs instead of only those programs in their home department, thereby creating instructional efficiencies and exposing students to a broader and more relevant array of faculty members.

The university has funded the creation of the School of Public service by the reallocation of existing funds as well as dedicated and local funds. Specifically, there are several investments the university has made recently to support the request.

- One half-time lecturer position funded initially under Boise State's spousal accommodation policy, and will be funded subsequently using reallocated funds.
- One new tenure-track faculty line was created using reallocated funds.
- The resources necessary for one faculty line from the reallocation of funding from the discontinued Master of Community and Regional Planning program.
- One faculty line from the reallocation of a faculty line from the Department of History to the School of Public Service.

2. What resources are necessary to implement this request?

    - Eight faculty positions including positions in Applied Economics, Demography, Global Trade, Public Finance, Health Policy, Energy Policy, and

Fiscal Policy that serve new interdisciplinary programs and support applied research initiatives;

- Four administrative leadership positions serving the Idaho Policy Institute, the Center for Idaho History and Politics, the Public Service Leadership Initiative, and the School of Public Service Survey Research Initiative;
- Twelve graduate research assistantships in professional masters and Ph.D. programs that support applied research projects across the School (operating request is for graduate research assistant tuition waivers)
- Two research faculty positions at the Idaho Policy Institute in economic development and economic forecasting;
- Two positions – one clinical faculty and one administrative – to support the new Geographic Information Systems program and related applied research projects;
- One clinical faculty position supporting student internships and experiential learning programs across the School of Public Service, and
- Ten faculty research fellowships for faculty across Idaho institutions of higher education to participate in applied research projects administered through the Idaho Policy Institute.
- Travel and operating expenses are requested for the above-referenced position.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   All requested funds are ongoing.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This request serves students at Boise State University by increasing the teaching capacity of new undergraduate interdisciplinary programs, professional masters programs, and the Ph.D. in Public Policy and Administration. Moreover, it serves students by growing skills and experiential programs that effectively prepare students for the workforce. The three existing undergraduate programs of SPS produced an average, over the last 3 years, of 209 baccalaureate graduates per year. As a result of this investment, the number of undergraduate baccalaureate graduates is projected to increase at least 30% and the number of total degrees and certificates is projected to increase over 50%.

   In addition, this request serves communities throughout Idaho and all Idahoans that benefit from rigorous, non-partisan applied research. The Idaho Policy Institute was created through the reallocation of existing resources. In its first year, the IPI took on a couple of dozen projects and brought in over $300,000 in grants and contracts. This investment would dramatically increase the capacity of the IPI to serve the state of Idaho and local communities. We would expect to at least double the number of projects, and similarly would expect that we would increase the contracts and grants by that amount. However, it is important to note that many projects are pro bono and/or deeply subsidized in order to serve the needs of Idaho communities that may have limited resources.

Without additional funding, the Idaho Policy Institute will be constrained in its ability to serve entities throughout the state and while students will continue to have opportunities to study in traditional academic disciplines, they will likely be less well prepared for emerging careers in the private, public, and non-profit sectors.

Description:

Over the past decade, Boise State University has made significant strides in retention and graduation rates. But it is imperative we continue our focus to ensure our graduates are prepared and ready for the careers that await them in the evolving workplaces of Idaho. We strive to help students identify their passion and purpose, to look ahead to career connections and potential pathways, and to build a college experience that will launch them into their first job and far beyond. We are committed to the tenets of Complete College America and are joining an Association of Public and Land-grant Universities Transformative Cluster Initiative that aims to increase graduate rates even beyond the nationally recognized improvements Boise State has posted so far, thanks in large part to the sustained funding of the Complete College Idaho initiative.

This proposal is central to our next phase and will expand and develop a more coordinated and intentional model of career counseling and advising services to support students, alumni, and community partners. The goal is to strengthen the first- and second-year student experience, because research shows early and ongoing career exploration and planning is essential to students making the most out of their college experience being best prepared to contribute to society in a meaningful way. Many students require guidance and support to connect their skills, values, and interests to a career path and intentionally engage in their college experience to most effectively meet their career goals. Embedding these coordinated services to students in their college is a best practice that will help us engage early and often both in and out of the classroom.

The efforts will be coordinated and distributed throughout the university to ensure that students have ready access and exposure to career services and counseling, and that these efforts remain a central tenet to the university's "Beyond the Major" approach to ensure that students get the experiences, opportunities, skills and support they need to make the most of their time here and best prepare them for success long after their diploma.

The proposal would spur changes and innovations within the four-year integrated University Foundations general education curriculum; campus career services; first-year orientation; central, college-level and departmental advising; peer mentor programs, and existing online and in-person courses designed to boost student academic success.

This request will reinforce and coordinate campus-wide efforts designed to connect students to career prospects and goals early in their college experience, empower them to seize opportunities inside and outside the classroom while they are here, and learn how to articulate their skills, knowledge and experience that best positions them for the jobs and careers they will seek when they graduate.

The long-term goal is to build on innovations and best practices to establish a cutting-edge and effective student success system that connects each incoming student with a career advisor, academic advisor and peer mentor — as well as create the potential to connect sophisticated career advising and targeted stacked skills and competency credentials to non-traditional and online students, mid-career Idahoans seeking to switch career paths or move up, and more.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

   <u>Expanding Career Services across campus using an embedded and coordinated model</u>

   This proposal seeks to strengthen the first and second year experience and embed career services in the academic colleges. The proposed model amplifies and unites existing career enhancement and employability efforts across campus by intentionally connecting classroom learning, academic advising and support, and career counseling/job search advising through a Student Success Team model in each college. This team will collaborate to integrate academic and career components of a student's education (both in and out of the classroom) to better prepare them for the transition from college to career. The Student Support Team will work with department/college administration to set strategic direction, outcomes, and accountabilities. Funding will add career specialists to each college to provide direct student contact in the form of one-on-one career counseling/advising, job search advising, workshops/classroom presentations, and career courses. College Career Specialists will also work directly with faculty and administration in each college to embed career education in the classroom.

Funding will also support central career services positions to:

- Counsel and support undecided or at-risk students and special populations
- Develop career content (including specialized career courses) for College Career Specialists.
- Enhance and grow the internship program including offering stronger and more intentional student, faculty, and employer support.
- Increase employer relations efforts including local, regional, and national employer connections and partnerships.
- Offer additional targeted events providing opportunities to connect students and employers.
- Increase student awareness through university-wide and college-specific marketing and social media content

Funding this request will provide the necessary resources for Boise State University to provide a more intentional and connected curricular and co-curricular educational experience that prepares students for work and *life beyond the blue*. This, in turn, will provide employers and community partners with a more career ready workforce.

Boise State currently has budgeted $530,864 of appropriated funds in the Career Center.

2. What resources are necessary to implement this request?

Academic Colleges – Career Specialists – (8)
Alumni Relations – Career Specialist - (1)
University Foundations – First Year Experience Coordinator (1)
Career Services - Instructional Designer/eLearning (1)
Career Services - Career Development Training Specialist (1)
Career Services – Career Course Manager (1)
Career Services – Employer Relations Events Coordinator (1)
Career Services – Career Technology Coordinator (1)
Career Services – Internship Program Student/Faculty Relations (1)
Career Services – Marketing Specialist (1)
Institutional Research – Career Data Specialist (1)

Travel and operating expenses are needed for the above-referenced positions.

First Year Immersion/Extended Orientation: $300,000 for a two-day immersion program that, in conjunction with summer orientation, provides students with an in-depth overview of available services, resources and programs that combine with the academic experience to augment their preparedness for post-college employment. These funds would go towards

Second Year Cohort Based Targeted Career Exploration: $100,000 for a coordinated second-year career exploration effort dedicated to increasing the likelihood of progression, persistence, graduation and employability for students identified as "at risk" to stop out of college.

Scholarships to support professional experiences for students who demonstrate financial need: $158,200

Peer mentoring programs to support first and second year students: $362,582 including student employment and $50,000 Peer mentoring curriculum, training and course delivery.

Career Services Technology: The $50,000 technology budget will be used to pay for annual subscriptions for career education focused web-based technology intended to expand our reach and engage students when and where they want. This technology includes, but is not limited to, career research tools, a mentoring platform, career assessment and guidance systems, and online interview/resume coaching platforms. This budget will also be used to purchase eLearning software used to create interactive, multimedia online modules embedded within courses and virtual workshops accessible 24 hours a day by distance and on-campus students via the Virtual Career Center.

3. **Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

This request is focused on ongoing funding to support new positions in these areas, one-time start-up costs, and one-time consulting fees to bring in best practices and expertise as we launch this new distributed and coordinated model of career education. The second component of this proposal implements a first and second year immersion experience designed to encourage students to evaluate purpose, connect to majors and academic programs and identify career pathways. There is no direct revenue associated with this request.

Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request directly serves students and graduates of Boise State University. Employers, community partners and the State of Idaho's economy are also positively impacted. The infrastructure described in this proposal will improve student participation in early and intentional career planning and access and participation in high-impact educational practices ultimately positively impacting retention and graduation rates, first destination results, and alumni satisfaction and affinity for Boise State University.

Idaho State University and the Kasiska Division of Health Science respectfully submit this appropriation request for FY20. ISU would like to thank the State Board of Education, the Governor and his office, and the Idaho Legislature for their ongoing support of our health science programs.

This appropriation request specifically enhances programs prioritized during our budgeting and 3-year planning processes based on workforce needs in the state.

Occupational therapy, speech language pathology, and nursing are high paying, in-demand jobs with high vacancy rates in the state of Idaho. In addition, this plan represents a specific focus on recruiting rural and minority students to the health professions to directly address the State Board of Education's 60% goal.

Description

Goals of this Initiative:

- Increase degree production in high demand, health science careers to meet workforce needs of the state
- Enhance recruitment efforts and assist with meeting the State Board of Education's 60% goal and improve functionality and visibility of research and clinical services
- Align research mission with the current health care climate
- Improve clinic training opportunities

Occupational Therapy – Three faculty positions, three staff positions, group position funding, as well as ongoing operating and one-time capital startup costs are being requested to support the expansion of the Occupational Therapy Program to the ISU Meridian Health Science Center. Occupational therapists are one of the top in-demand jobs in the state, currently with 30% vacancy rates according to the Department of Labor.

Idaho State University recently completed a construction project in Meridian where offices, classrooms, laboratories, and clinic space has been built/renovated to be shared by the Department of Physical and Occupational Therapy. Efficiencies were gained by the physical therapy space being designed and created to be a shared space with occupational therapy. This newly created space will improve **Access and Opportunity** for students in Meridian and will meet the accreditation agencies' requirement for equivalent didactic spaces to allow synchronous learning between cohorts in Pocatello and Meridian. Growth of the occupational therapy program is not possible without additional faculty and resources due to accreditation requirements related to expansion. This program has been prioritized within our planning processes and budgeting.

Speech Language Pathology Programs Access and Cost Reduction for Idaho Students – Six and one-half faculty positions, two staff positions, as well as ongoing operating and one-time capital startup costs are being requested to support the reduction of professional fees for Idaho residents and for expanding ISU's speech language pathology programs to the Magic Valley. Speech language therapists are one of the top in-demand jobs in the state, currently with 30% vacancy rates according to the Department of Labor.

The significant costs of the online speech language pathology MS courses inhibits access for Idaho residents who desire to earn this degree but want to do so by taking online courses. Speech language pathology MS online course costs have significantly grown compared with the cost of taking the same face-to-face courses. For example, In addition to tuition, for FY19 all students will pay a $68.00 per credit professional fee for face-to-face courses. For the same online courses, all students will pay a $490.00 per credit professional fee. Because of a lack of appropriated monies, the on-line program has resulted in a situation that has students bearing the cost burden of the program. With the additional funding, ISU will be able to reduce the Idaho resident online speech language pathology MS degree professional fee from $490.00 per credit to $103.00 per credit. This will create better access and affordability to this program.

In addition to the speech language pathology MS degree, ISU also offers an on-line pre-professional program (post-baccalaureate) for students who graduated with a bachelor's degree or higher in anther field or for those students whose bachelor's degree in communication sciences and disorders is 10 years or older. All students who enroll in this program pay a $262.00 per credit professional fee in addition to tuition. With the additional funding, ISU will also be able to reduce the Idaho resident online pre-professional degree professional fee from $262.00 to $103.00 per credit.

By reducing the online fees for Idaho students, ISU will capture prospective Idaho college students who currently feel as though the speech language pathology degrees are simply too pricey to obtain.

Expanding the speech language pathology programs to the Magic Valley with the reduced Idaho resident professional fee explained above will improve **Access and Opportunity** for students in Twin Falls.

***Access to Nursing Programs in SE Idaho* –** Four and on-half faculty positions, five staff positions, as well as ongoing operating and one-time capital startup costs are being requested to expand ISU's nursing programs in Eastern and Southern Idaho in two ways.

1). The College of Nursing at ISU is participating with industry partners from across Eastern Idaho to increase the number of baccalaureate registered nurses by offering an accelerated nursing program. A pending Department of Labor grant may assist with the initial development of this program, however the sustainability of this project is dependent upon ongoing appropriation. The accelerated nursing program is designed for individuals who have a baccalaureate degree in a field other than nursing. Students complete their baccalaureate degree in nursing over a 12-month period. This new undergraduate accelerated nursing program in Eastern Idaho will run concurrently with the existing, and very popular, accelerated nursing program in Meridian. Students will take classes online in the distance learning classroom environments on the Pocatello and Idaho Falls campuses.

2). The College of Nursing will initiate conversations with College of Southern Idaho (CSI) and St. Luke's Health System to develop a BS Completion hub on the CSI campus in Twin Falls. This program will coordinate BS completion education with CSI, and three other community colleges: the associate degree nursing program at ISU College of Technology, College of Western Idaho (CWI) and College of Eastern Idaho (CEI).

Mental Health Need and Retention – One staff position as well as ongoing operating and one-time capital startup costs are being requested to support the mental health needs of ISU students. Mental health concerns continue to afflict college students in ways that impair their health, learning, and success at universities across the US, including ISU. More students than ever struggle with severe concerns such as suicidal thoughts and behaviors. It is well established that students who receive support for their mental health concerns at university counseling centers live healthier lives and are retained at their institutions at higher rates than the general student body. In order to reduce wait-time for services and improve prevention efforts across campus, additional providers are needed. We request the addition of a staff psychologist/counselor to increase our university counseling center's capacity to help these students live healthier lives and succeed academically.

Health Sciences Student Recruitment and Retention – Two administrator positions, three staff positions, as well as ongoing operating and one-time capital startup costs are being requested to support student recruitment and retention at ISU in four major areas.

1). Improve ISU's ability to attract rural and under-represented minority (Hispanic and American Indian) Idaho high school students into professional health training programs offered at ISU and help to grow the State Board of Education's 60% goal. The health sciences at ISU have a renewed interest in the best recruitment and retention practices and programs for their students. Many of these rural and minority students experience a variety of personal, environmental, and institutional barriers that result in a perception that they have limited or no access to college and university education. A coordinator tasked with widely publicizing health education opportunities to high school students, retaining current students in the health sciences, and developing strategies to increase our overall student population is necessary for recruitment, retention and further growth. These efforts will have a positive impact on the health care system by producing even more diverse and competent practicing health care professionals within the state with the goal of many of these students returning to rural and underserved areas.

2). Enhance interprofessional education at ISU and the entire state. Interprofessional education is a required element to advance health professional education and is an effective mechanism to improve the overall quality of health care. Additionally, many health professions accreditation standards mandate interprofessional education. Interprofessional education is an important pedagogical approach for preparing health professions students to provide patient care in a collaborative team environment. The appealing premise of interprofessional education is that once health care professionals begin to work together in a collaborative manner, patient care will improve.

Interprofessional education teams enhance the quality of patient care, lower costs, decrease patients' length of stay, and reduce medical errors. Although there is an abundance of evidence supporting the interprofessional education of health professions students, there have been barriers to implementing it completely. This Director will be charged with coordinating interprofessional education at ISU, developing competencies in interprofessional education, identifying issues in implementing interprofessional education in the various programs offered at ISU, and identifying ways to offer interprofessional *continuing* education for health professionals throughout the state.

ISU has the unique distinction and ability to be able to offer interprofessional continuing education credits for nursing, pharmacy, and medicine (including physician assistants). This puts ISU in a position to greatly enhance the interprofessional continuing education offerings for health care providers throughout the state of Idaho. By advancing these opportunities within the state it not only will improve **Access and Opportunity** for students in Idaho, but also to practicing health care providers within the state.

3). Expand and improve ISU's clinics. Currently ISU operates 14 in-house clinics including medicine, dentistry, dental hygiene, audiology, speech pathology, counseling, reference laboratory, occupational therapy, physical therapy, vestibular (balance), and wellness. Along with providing quality health care at these sites to everyone regardless of their ability to pay, the investments into these clinics produce graduates that are caring and competent professionals who are well equipped to become leaders in their professions and communities. Identifying community clinical training sites for students has become more and more difficult. Because of the escalating shortage of clinical training sites to accommodate the growing number of students, it is necessary for ISU to focus on developing additional clinical sites and/or alternative solutions to address the training site shortages. These clinics have strong primary care capabilities that decrease health care costs overall. In order to expand its health care offerings a dedicated Clinical Services AVP to focus on opportunities for growth in the number of locations, increased depth and breadth of educational experiences offered to students, and discover opportunities to offer increased or new services that are underserved in Idaho is required. This individual will champion the growth or our health care offerings throughout the state.

4). Increase the overall marketing, promotion, and communication of the health care programs offered by ISU by looking for opportunities for increased collaboration or partnerships with health care providers in the state, building media presence and public relations throughout the state, overseeing the usage and strengthening of marketing efforts within the health sciences. This person will be responsible on the execution of marketing, advertising, and promotional campaigns for the health sciences and reviewing and evaluating marketing and promotional efforts.

Rural Health Research & Statewide Health Work Force – Two faculty positions, one staff position, as well as ongoing operating and one-time capital startup costs are being requested to improve health research infrastructure and rural health outcomes and quality. Most of the efforts to improve rural health care to-date have focused on increasing quality of care by increasing access to primary, routine and emergency care. While this has proven to be very beneficial there are promising new approaches to delivering high-quality care in rural areas. Rural Americans experience significant health disparities. They have a higher incidence of disease and disability, increased mortality rates, lower life expectancies, and higher rates of substance abuse, pain and suffering. As health care moves toward safer practices in delivering quality of care, ISU must adopt a system of evaluating health care quality outcomes data that either reflect the need for improvements, or showcase best practices. The Kasiska Division of Health Science, and specifically the College of Pharmacy and Department of Community and Public Health, have made investments into faculty members who have expertise in evaluating rural health outcomes and quality. A biostatistician and two faculty members will promote a vision of building a culture of safety to prevent patient harm through a research agenda, communication, education, and development of students who are accustomed to working in patient-centered care teams.

Performance Measures

Occupational Therapy - The US Bureau of Labor forecasts a substantial increase in occupational therapy positions by 2020. ISU’s occupational therapy program consistently has over 60 applicants per year; 30-40 of these applicants meet the criteria to be admitted and 16 are accepted each year. By expanding this program to Meridian, we will be able to increase the number of seats available by an additional 16. With the robust applicant pool, we expect this program to be fully enrolled the very first year it is offered in Meridian. Graduates are in very high demand as occupational therapy is #2 on Idaho’s list of job vacancies.

Speech Language Pathology Programs Access and Cost Reduction for Idaho Students – The US Bureau of Labor Statistics estimates that speech language pathology jobs growing by 19% from 2012 to 2022. In addition to the growing need for speech language pathologists, surveys indicate that 50% of the faculty members at schools of speech language pathology will be eligible for retirement by 2021. Unless the number of new speech language pathologists increases substantially, the shortage will widen further. ISU’s speech language pathology MS online degree consistently has over 300 applicants with only 20 accepted each year. ISU’s speech language pathology MS on-campus degree consistently has 140 applicants with only 38 accepted each year. ISU’s speech language pathology pre-professional admits all that apply, but due to the substantial cost, many Idaho residents consider it financially unattainable. By reducing the overall cost to Idaho residents and by offering a new cohort in the Magic Valley we expect the speech language pathology pre-professional program to attract 20 new Idaho resident students and we will be able to enroll an additional 8 graduate students in the speech language pathology MS programs in the very first year and 16 graduate students by the second year. Graduates are in very high demand as speech language pathology is #1 on Idaho’s list of job vacancies.

Access to Nursing Programs in SE Idaho – The institute of Medicine published sentinel research on the outcomes of a national study addressing the *Future of Nursing, Advancing Health (2010)*. The Institute's recommendation was to increase the number of baccalaureate prepared nurses to 80% of the nursing workforce by 2020. St. Luke's Health System has established a policy that all of the new nurses they hire will have a baccalaureate degree by 2023. This policy assures the best possible nursing care is provided in their facilities and meets one of their requirements for Magnet Status. 2017 Idaho Department of Labor Workforce data and Idaho census projection data show that there is an expected population based demand for increased numbers of registered nurses in Ada and Canyon Counties and in Idaho Falls. In addition, as new facilities open in Eastern Idaho, it is projected that 100+ additional registered nurses will be needed before the fall of 2019. To mitigate this workforce shortage problem, each university will need to increase the number of new graduates and employers of nurses will need to focus on retention strategies for their incumbent staff.

While enrollment numbers for the accelerated nursing program in Meridian over the past five years have remained at an average of 33 admits annually, the number of applicants has grown from around 40 in 2015 to 75+ for FY2018 academic year. In the last five years, the accelerated nursing program has had more than 255 applicants. These numbers, along with the growing nursing shortage, indicate the accelerated nursing program is highly desired and the graduates of this program are highly needed in the workforce. By expanding the accelerated nursing program to Eastern Idaho and the BS Completion with the College of Southern Idaho (CSI) and St. Luke's Health System, ISU expects to add 20 new nursing students each year to the programs (for a total of 60 students over a three-year period). This will increase the number of graduates by 20 new baccalaureate prepared RNs each year.

Mental Health Need and Retention – Simply providing counseling serves does not necessarily solve the mental health crisis. Mental health on college campuses is a complicated issue, but it will assist with reducing wait times and contributes to wellness, flourishing, resilience and prevention that is necessary to create an ideal campus mental health system. Because academics and mental health are deeply intertwined increasing the number of providers that students have access to will inevitably lead to increased graduation rates and ultimately students leading more healthy and productive lives.

Health Sciences Student Recruitment and Retention – Increase interprofessional education and continuing educational offerings available for all health care providers throughout the state of Idaho. Increase clinic productivity and grow clinical placement offerings for students. The marketing efforts will grow student and faculty applicant pools, enhance outreach to high schools and under-represented and minority student populations, help to improve the Go On Rate, improve visibility of ISU's health science educational offerings, and increase research accomplishments and services to our communities.

Rural Health Research & Statewide Health Work Force – Double the extramural funding in rural health, health outcomes and quality research within 5 years because of the enhancement of the expertise of ISU's health sciences programs and increased external partnerships with collaborative research.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

    Occupational Therapy– Three faculty positions, three support staff positions, and adjunct faculty are being requested. Faculty-to-student ratios are used in all laboratory courses to ensure the competence and safety of future graduates. Due to the specialization of faculty, multiple areas of clinical expertise are necessary onsite. In addition to the clinical areas of expertise, two of the requested faculty positions will serve administrative roles including the Occupational Therapy Assistant Program Director and the Assistant Academic Fieldwork Coordinator. These administrative roles are required to provide management of the expanded program, provide increased support for finding and supervising part-time and full-time student clinical affiliations and practicums, and for managing occupational therapy service provision within one or more inter-professional clinics. The staff positions are required to provide clerical support and IT support for the expanded program. The adjunct faculty salaries are required to provide instruction in highly specialized areas of clinical expertise that are not represented by the full time faculty.

    Speech Language Pathology Programs Access and Cost Reduction for Idaho Students – Six and ½ faculty positions and two staff positions. One-to-one faculty-to-student ratios are used in all clinical experiences to ensure the competence and safety of future graduates. 50% of one faculty position will be funded with existing institutional funds. Three faculty positions exist but are currently funded from professional fees paid by students. With this request, state appropriated funding will fund these positions. Multiple areas of clinical expertise are necessary onsite. The staff positions are required to provide clerical support and IT support for the expanded programs.

    Access to Nursing Programs in SE Idaho – Four and ½ faculty positions and five staff positions. One faculty for every 10 students is needed due to accreditation requirements and to ensure the competence and safety of future graduates. The staff positions are required to provide clerical, IT support, as well as student advising for the expanded programs.

    Mental Health Need and Retention – One Psychologist/Counselor position.

    Health Sciences Student Recruitment and Retention – Two administrator positions and three staff positions are being requested to support student recruitment and retention at ISU. An Assistant Vice President of Clinical Services, a Director of Rural Outreach Training & Interprofessional Education, a

Marketing and & Promotion Coordinator, a Student Recruitment Coordinator, and an administrative assistant to support the Assistant Vice President of Clinical Services.

Rural Health Research & Statewide Health Work-Force – One Assistant Professor of Health Geography, one Assistant Professor of Implementation Science/Quality Improvement, and one Epidemiologist/Biostatistician.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Attached Spreadsheet of Positions

      Occupational Therapy - Total Personnel Costs: $591,400

      SLP Access & Cost Reduction for ID - Total Personnel Costs: $869,400

      Access to Nursing Programs in SE Idaho - Total Personnel Costs: $682,000

      Mental Health Need and Retention - Total Personnel Costs: $92,600

      Health Sciences Student Recruit. & Ret. - Total Personnel Costs: $538,900

      Rural Health Res. & Statewide Work Force - Total Personnel Costs: $368,500

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      Occupational Therapy - This line item request is for new faculty positions and support personnel. The current occupational therapy faculty members in Pocatello will continue to assist in teaching the extended cohort using distance learning technology, online content, and onsite classes, clinics and laboratory sessions.

      Speech Language Pathology Programs Access and Cost Reduction for Idaho Students – This line item request is for new faculty positions and support personnel. The current speech language pathology faculty members in Pocatello and Meridian will continue to assist in teaching the extended cohort using distance learning technology, online content, and onsite classes, clinics and laboratory sessions.

      Access to Nursing Programs in SE Idaho - This line item request is for new faculty positions and support personnel. The nursing faculty members in Pocatello and Meridian will continue to assist in teaching the extended cohort using distance learning technology, online content, and onsite classes, clinics and laboratory sessions.

      Mental Health Need and Retention – This line item request is for a new Psychologist/Counselor. The current ISU counselors will continue to assist in the mental health needs of ISU students. This position will work extensively with ISU's counseling and testing services in Student Affairs.

Health Sciences Student Recruitment and Retention – This line item request is for new professional staff positions and support personnel. Current clinical faculty members located throughout the state will work extensively with the Clinical Services AVP to enhance the clinical experiences for students and the patients/clients. The Director of Rural Outreach Training & Interprofessional Education will work with the Interprofessional Affairs Council to identify common curricular themes and how to implement interprofessional education in each of the varied health care programs at ISU and to develop an extensive outreach training and professional continuing education system in Idaho. The director of Marketing and Promotion and the Student Recruitment Coordinator will work with existing programs and the marketing and communications office at ISU. Student recruitment and retention will be enhanced to help address the State Board of Education's 60% goal.

Rural Health Research & Statewide Health Work Force – This line item request is for new faculty positions and an epidemiologist/biostatistician. Current tenured and clinical faculty members located throughout the state will work with the Department of Labor, Office of Rural Health, professional organizations, and community health partners to identify health workforce needs and coordinate training opportunities.

c. List any additional operating funds and capital items needed.

Occupational Therapy – An ongoing request for additional operating funds and one-time capital outlay will be required during the first year to support supplying the new offices with essential items, purchasing computers and office equipment for the new faculty and staff, providing lab equipment/instrumentation tools to support instruction in the expanded program, as well as funding for travel, communications and materials and supplies and equipment that fall below the $5K SCO capitalization threshold will also be needed.

Speech Language Pathology Programs Access and Cost Reduction for Idaho Students – A one-time request for capital outlay will be required for supplying the new offices with essential items, purchasing computers and office equipment. Ongoing funding for travel, communications, materials and supplies and equipment that will fall below the $5K SCO capitalization threshold will also be needed.

Access to Nursing Programs in SE Idaho A one-time request for capital outlay will be required for supplying the new offices with essential items, purchasing computers and office equipment. Ongoing funding for travel, communications, materials and supplies and equipment that will fall below the $5K SCO capitalization threshold will also be need.

Mental Health Need and Retention – A one-time request for capital outlay will be required for supplying the new office with essential items, purchasing a computer and office equipment. Ongoing funding for communications, materials and supplies and equipment that will fall below the $5K SCO capitalization threshold will also be needed.

Health Sciences Student Recruitment and Retention – A one-time request for capital outlay will be required for supplying the new offices with essential items, purchasing computers and office equipment. Ongoing funding for travel, communications, materials and supplies for the office and marketing efforts, and equipment that will fall below the $5K SCO capitalization threshold will also be needed.

Rural Health Research & Statewide Health Work Force – A one-time request for capital outlay will be required for supplying the new offices with essential items, purchasing computers and office equipment. Ongoing funding for travel, communications, materials and supplies and equipment that will fall below the $5K SCO capitalization threshold will also be needed.

Ongoing Requests for Operating Expense:

Travel	*$80,000*
Communications	*$49,500*
Materials/Supplies/Equipment	*$226,700*
Total Request for Ongoing Operating Expense:	***$356,200***

One-Time Request for Capital Outlay:

Office Furniture	*$60,000*
PC and Workstations	*$60,000*
Clinic Equipment	*$150,000*
Total Request for One-Time Capital Outlay:	***$270,000***

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Occupational Therapy*-* The salaries for the four positions will be ongoing as well as the group position funding. Operating expenses for travel, supplies, communications, etc. will also be ongoing. The one-time request for capital outlay will be needed to provide the necessary resources for the expansion.

Speech Language Pathology Programs Access and Cost Reduction for Idaho Students – The salaries for the eight and a half positions will be ongoing. Operating expenses for travel, supplies, communications, etc. will also be ongoing. The one-time request for capital outlay will be used for computers and workstation equipment.

Access to Nursing Programs in SE Idaho – The salaries for the nine and a half positions will be ongoing. Operating expenses for travel, supplies, communications, etc. will also be ongoing. The one-time request for capital outlay will be used for computers and workstation equipment.

Mental Health Need and Retention – The salary for the one position will be ongoing. Operating expenses for supplies, communications, etc. will also be ongoing. The one-time request for capital outlay will be used for computers and workstation equipment.

Health Sciences Student Recruitment and Retention – The salaries for the five positions will be ongoing. Operating expenses for travel, supplies, communications, etc. will also be ongoing. The one-time request for capital outlay will be used for computers and workstation equipment.

Rural Health Research & Statewide Health Work Force – The salaries for the three positions will be ongoing. Operating expenses for travel, supplies, communications, etc. will also be ongoing. The one-time request for capital outlay will be used for computers and workstation equipment.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Occupational Therapy – Idaho students who seek an education to become a licensed occupational therapist benefit from this request since twice the number of seats in the occupational therapy program will become available within the state. The cost of an in-state 3-year graduate program is substantially less than out-of-state or private academic institutions. Increasing the number of seats in an Idaho occupational therapy program will provide more opportunities for Idaho residents to receive education they desire while reducing the student debt incurred through pursuing that education. Expansion of this program provides convenience to students who live in the western part of Idaho, and it allows them to capitalize on the clinical placement in the Treasure Valley without having to travel. This expansion will also serve the needs of patients in the state of Idaho as occupational therapists are in high demand to provide patient care.

Idaho employers seeking to hire physical therapists will benefit because the number of graduating therapists within Idaho will double within 3-4 years. There is a tremendous need for occupational therapists in the state.

Idaho residents in need of occupational therapy services will benefit because there will likely be an increased number of licensed, practicing therapists in the state within 3-4 years of expanding the program.

Speech Language Pathology Programs Access and Cost Reduction for Idaho Students – Idaho students who seek an education to become a licensed speech language pathologist benefit from this request since we will be opening another 16 graduate seats in the speech language pathology MS program. The cost for Idaho students to receive either the pre-professional or MS degrees will be substantially reduced. Increasing the number of seats in the speech language pathology programs will provide more opportunities for Idaho residents to receive the education they desire while reducing the student debt incurred through pursuing that education. Expansion of this program provides convenience to students who live in Twin Falls, and it allows them to capitalize on the clinical placement in the Magic Valley without having to travel. This expansion will also serve the needs of patients in the state of Idaho as speech language pathologists are in high demand to provide patient care.

Idaho employers seeking to hire speech language pathologists will benefit because a greater number of licensed providers will be available to hire. There is currently a shortage of speech language pathologists in the state. This will allow more students to enroll in these programs and help to fill this enormous need within the state.

Idaho residents will benefit because they will have access to a greater number of licensed speech language pathologists. There is a greater need for speech language pathologists in schools and Idaho residents will benefit from public schools having a greater number of providers in the state. As over 300,000 Baby Boomers age in in the state of Idaho, they will benefit because there will be an increase in providers as their need for care in skilled nursing facilities, hospitals, home care, and rehabilitation clinics increase.

Access to Nursing Programs in SE Idaho – Idaho students who seek an education to become a Registered Nursed benefit from this request since within three years 30 new seats will become available in the accelerated nursing program and 30 new seats will become available in the BS Completion Nursing program. Increasing the number of seats in Idaho will provide more opportunities for Idaho residents to receive education they desire. Expansion of this program provides convenience to students who live in the eastern and southern parts of Idaho, and it allows them to capitalize on the clinical placements in Twin Falls and in Idaho Falls without having to travel. This expansion will also serve the needs of patients in the state of Idaho, as there is a shortage of Registered Nurses.

Idaho employers seeking to hire Registered Nurses will benefit because a greater number of licensed providers will be available to hire. These nursing programs will have been expanded directly to eastern Idaho where the greatest current and projected need for these providers exists. Employers and recent nursing student graduates will likely have had some previous experience working with each other during clinical experiences that students received while at ISU. Employers will have a better understanding of the recent graduates' values and attitudes and how they will fit within their organization. This will likely lead to less attrition.

An increase in Registered Nurses will benefit Idaho residents because nurses protect, promote, and optimize the health of those for whom they are responsible. They play a significant role in health promotion and disease prevention, alleviate pain and suffering, and advocate for individuals, families, and communities. Idaho residents will benefit by having additional providers who play a significant role in the overall health of people.

Mental Health Need and Retention – Studies show that 27% of all college students experience some type of mental health problem. Today's college students are facing a serious mental health crisis. One reason for the uptick in demand for counseling is the fact that mental health treatment has drastically improved. Students who previously would not even have been able to attend college can now go because of advanced medication and other forms of treatment. The good thing is that this means that more students have access to a college education, but it also means that ISU's counseling center is having a harder time keeping up with its students' needs. Idaho students will benefit from having an additional provider to help them live healthier lives and succeed academically. It will reduce the amount of wait times for counselors to see students who are seeking assistance.

Health Sciences Student Recruitment and Retention – Idaho students will benefit from additional educational experiences offered by additional clinical sites. This has the potential to increase the number of available seats within the highly sought after health science programs. Offering services to underserved populations enhances the students' experience and knowledge and will make them better health care providers. Research has shown that students who have more interprofessional educational experience and training become better health care providers. Finally, this initiative will allow us to directly address the State Board of Education's 60% goal by attracting rural and minority students to health science careers.

Increasing the number of rural and minority students and developing additional clinical sites in Idaho will allow ISU to allow additional students to enroll and graduate. Clinical placements have proven to be a challenge for ISU because of the limited clinical sites available for student experience and instruction. Idaho employers seeking to hire qualified clinicians will benefit from additional students graduating. These students will be well equipped to provide quality health care. Recruiting and retaining clinicians in underserved areas is difficult and remains challenging for Idaho. Meeting the current need is difficult enough, but the demand for services is expected to grow significantly in the coming years. Having more qualified/experienced clinicians graduating will assist in meeting this demand. Idaho employers will also benefit from extensive and comprehensive interprofessional education and rural training experiences where they can receive higher levels of training and education over the course of their academic careers.

Idaho residents will benefit because they will have access to clinics and faculty expertise. With the ever-increasing underserved, underinsured/uninsured, and elderly populations, the demand for health care services will only increase. Expansion of ISU clinics in number of locations and/or the number and types of services offered will enhance Idaho resident access to health care services. The availability of accessible and efficient health care in rural Idaho is substantial and a growing concern. Research shows that those who obtain regular primary care receive more preventive services, are more likely to comply with their prescribed treatments, and have lower rates of illness and premature death. Increasing rural health care training and interprofessional education opportunities will translate into more qualified/experienced health care providers within the state. This will translate into a safe and cost-effective health care environment and will position Idaho to potentially meet its growing rural health care needs. Finally, ISU health sciences faculty are experts in their fields and can provide cutting edge care to these vulnerable populations who otherwise may not have access.

Rural Health Research & Statewide Health Work-Force – Expanding the rural, health outcomes and quality research agenda in the Kasiska Division of Health Sciences will provide the state with much needed data and research support, ultimately improving the care provided to Idahoans and identifying workforce trends to guide enrollment planning and student recruitment. The ultimate goal is to provide guidance to the academic programs based on real world needs.

Enhancing the rural, health outcomes, and quality research agenda of the University will enhance community partnerships, improve the quality of health care provided in the state, and ultimately advance patient care. Data collection and analysis is essential to understanding the challenges in rural communities throughout Idaho. Employers will benefit from these efforts because it will allow ISU to focus on addressing the workforce needs of Idaho’s health care providers. Many rural communities in Idaho are faced with unique health and health care challenges such as access to affordable and quality care, health inequities, high rates of chronic disease, lack of mental health services and shortages of health care providers. These obstacles reinforce the need for more research and innovation to improve health outcomes in these communities.

1. Materials & Supplies – purchase of ALEKS Tests ($25 x 1348)	$33,700				$33,700
TOTAL OPERATING EXPENDITURES:	$33,700				$33,700
CAPITAL OUTLAY **by summary object:**					
1. PC and workstation	$8,800				$8,800
TOTAL CAPITAL OUTLAY:	$8,800				$8,800
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$80,000				$80,000

Description:

The ALEKS (Assessment and Learning in Knowledge Spaces) is a web-based AI assessment and learning system. ALEKS is based on Knowledge Space Theory, and ALEKS assesses each student as an individual, and does so continuously as the student performs the test by using AI to map the student's knowledge, based on responses to test questions. This assists ISU with placing students in the appropriate math course for their knowledge level. ALEKS placement helps students to be successful in their math coursework. This, in turn, removes one of the biggest obstacles to student success and progression toward their academic goals, aiding retention, helping them graduate sooner and saving them money.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   A total of $80,000 is requested to support the provision of ALEKS testing (a math placement test necessary for placement into math courses at ISU). This amount will pay for the cost of the test itself ($25) as well as for the cost of proctoring the exam ($15 per hour).

   The agency staffing level for this activity is currently staffed by one (1) full-time testing coordinator, as well as multiple student employees who act as proctors for the ALEKS test exams, as well as other tests provided and proctored by the Testing Center.

   The testing center at ISU is self-funded. Revenue is earned when students take tests provided by one of our testing partners, and pay the associated fees with the test. Students pay proctoring fees in some (rare) instances.

   Testing revenue heavily subsidizes the mental health counseling functions at ISU, but revenue has been declining for the last two years since the COMPASS math and English placement tool was eliminated.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Student employees are hired to act as proctors for the ALEKS exams. Students are limited to work no more than 25 hours per week. Most students are not able to work this many hours. Students are not eligible for benefits unless they work in excess of 25 hours per week for more than 12 weeks in a rolling 12 month period.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      Currently, a full-time, twelve (12) month, testing coordinator position is utilized to administrate ALEKS testing in conjunction with the many other tests that are coordinated by the Testing Center. This is a full time position, and we have been charging a portion of the employee's time each month to the ALEKS project.

   c. List any additional operating funds and capital items needed.

      Because ALEKS is a computer based test, replacing computers every four years is a prudent measure. Further, computer and data security cannot be guaranteed when computers are more than four years old, according to the IT department at ISU.

The testing center has approximately 30 computers that must be replaced on a rotating schedule. We aim to replace 8 computers per year at approximately $1,100 apiece.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   All of the requests are on-going expenses. Students will take the test each year in advance of registration in order to be appropriately placed. The group part time request will cover student proctors needed to monitor the testing. The materials and supplies will cover the costs of the ALEKS testing, and the capital expenditures will replace ¼ of the computers each year, so that every four years, all computers have been replaced, and none are older than four years.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Potential and current ISU students are served by this request. The ALEKS test is used to place students into an appropriate math course, based on their test results. The ALEKS placement test increases the odds of retention, saves students money, and helps them graduate faster by placing them into the most appropriate math class as they start their college career. The ALEKS system allows students to take the exam up to 5 times. Between each administration of the exam, students complete study modules that help them refresh previously learned skills. When they retake the exam, they are more likely to match to a class more in line with their abilities and needs at that time. This reduces the likelihood that students will fail their exams and need to retake classes.

   If this is not funded, students will be required to pay for the test, as well as the proctoring fees. During FY 18, this would have cost students an average of $124. The ALEKS test is $25, and students can take the test up to 5 times with this fee. Proctoring fees are $15 per hour, and the test takes, on average, 2 hours. Students would pay a minimum of $55 for the test, and up to $175 if they take the test the full five times, as proctor fees are required each time the student tests. Such fees are handled in a variety of ways across the 5 public institutions of higher education using ALEKS. Providing funding to allow students and prospective students to take the exam free of charge will further reduce barriers to access college and make it more likely students will be retained and succeed.

LUMP SUM:					
GRAND TOTAL	$1,046,200				$1,046,200

Description:

This proposal enables the University of Idaho and Division of Student Affairs to uphold both the State Board of Education objectives and the University of Idaho strategic plan by providing essential support to University of Idaho students, resulting in improved student retention and success. This will be achieved by:

- adding personnel in the areas of crisis management and care (four Student Support Case Managers)
- providing critical care and support for students diagnosed on the autism spectrum and various other significant disabilities, which are served by the Raven Scholars Program and the Center for Disability Access & Resources office

- providing much needed support for students through educational outreach efforts (through the hiring of graduate students to engage students as well as increasing educational output resources)
- investing in critical staffing infrastructure improvements in our Counseling & Testing Center

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

We are requesting personnel and operating expenses for the following:

Student Support Case Managers. Student Affairs is requesting funds for four (4) case managers who would provide intervention and short-term counseling/referral support for students in the following areas:

1. Counseling & Testing—Student Mental Health
2. Dean of Students—Crisis Intervention and Faculty Student Support
3. Dean of Students—Veteran and Special Population Support
4. Dean of Students—Boise area and Student Affairs Generalist support

The case managers would assist with the following areas for student support: suicide prevention programming, medical withdrawals, coordinate mental health assessments programs, managing the CARE team (Note: The CARE team is the University's Behavior Intervention Team for individuals reported for concerning behavior from the campus community), assist students who are veterans with navigation of the Veteran Affairs federal support programs and agencies, alcohol and other drug agency support and assistance, coordination of response in conjunction with local and regional hospitals and mental health facilities, and assistance for faculty in addressing behaviors of concerns in and out of the classroom setting, and provide support to students in the Boise/Southern Idaho area as needed. The case managers would coordinate with community mental health providers and provide follow-up care for discharged students, impacting student retention and success.

The University of Idaho faces a number of significant challenges in providing appropriate mental health services to students with severe and persistent mental health issues. The main campus of the University of Idaho is located in Moscow, Idaho. Given the size of the community (approx. 25,000 individuals), the availability of community resources is limited. The nearest facility for in-patient treatment is 40 miles away (Lewiston). At times, students have had to wait for several days in the local hospital until a longer-term option is available. As a result, early intervention and crisis mitigation will result in better long-term care for students in crisis as well as those individuals with whom they interact on campus.

These students of concern have frequently been in long-term treatment prior to their arrival on campus and often require continued treatment in order to manage their mental health issues. The CTC has provided longer-term treatment to students whenever possible, but this has become increasingly difficult to do for all students who request it given the significant increase in demand for mental health services on campus in the past several years. Case Managers will assist students in identifying mental health resources that are available in the community and coordinate services with these community providers. In addition, the Case Managers will play a critical role in engaging students early when reports of concern arrive in order to best connect them with campus and community support resources. The case managers will have a number of responsibilities, including crisis intervention and triage to high acuity clients who are requesting urgent mental health services at the CTC and assistance with continuity of care for students evaluated and/or admitted to emergency facilities and/or regional psychiatric hospitals. In addition, the Case Managers will ensure continuity of care and assistance with off-campus treatment referral processes and provide guidance to students on issues such as health insurance, co-payments, reduced fee service providers and transportation. Finally, the Case Managers will develop collaborative relationships between community providers and campus support resources (such as the CTC, Dean of Students Office, etc.) which will allow clinicians to make more effective referrals for students who require specialized treatments.

The University has seen significant increases in students facing crisis. Students requesting medical withdrawals (primarily mental health related) rose 12% from 14-15AY to 15-16AY. At the same time, reports of concern (CARE reports) saw comparable increases. The CTC has experienced year-to-year increases in the number of students using mental health services: 11% for 14-15AY and 10% for 15-16AY. The CTC has experienced substantial increases in requests for emergency mental health services: 21% for 14-15AY and 7% increase for 15-16AY as well as a 43% increase in December 2016 as compared to a year ago.

In addition, the University has approximately 250 students who are using the G.I. Bill to attend the institution. Out of those individuals, approximately 95 are vets with disability ratings ranging from 20 to 100% disability. For a student to learn how to navigate the VA system is overly complex and difficult at best, and thus a Case Manager will provide much needed assistance to those individuals moving forward and increase retention rates for those individuals. This particular case manager will also work with special populations on campus (such as students in Greek Life and Athletics), establishing relationships of and assisting them navigating the campus challenges and personal crisis they may encounter.

During the 2016 calendar year, the University of Idaho lost four (4) students to suicide, three (3) within a 2-month span. After those student deaths, a Student Suicide Taskforce was convened to help identify next steps the University could take to address this alarming occurrence, one of the outcomes being increasing personnel to help directly engage students in crisis. Since 1999, the University has lost at least 13 students to suicide, and many more have left the institution due to the inability to connect with adequate supports. Providing timely and coordinated responses to students in crisis prior to escalation is critical for retention and long-term success. This geographic region has minimal community supports and case managers have specialized training in intervention that allows them to assume a central role for coordinating emergency mental health services and improve the UI's ability to meet the demands related to these high-risk populations.

These four (4) positions will impact student retention. Measures of success will be known by the number of student interventions and retention rates of assisted students by semester. Lack of funding will impact student retention and increase support wait times for other students.

These positions directly support this goal by increasing the connection with campus and community/state/federal partners to better identify students of concern prior to escalation of behavior and to coordinate campus resources following critical incidents. The positions fill the lack of sufficient support staff needed to respond to incidents of crisis in a timely way, impacting student retention efforts and provide support to current staff support efforts. Student Affairs looks to improve remediation programs that focus on early intervention and consistent support across campus. These positions play key roles in early intervention efforts, helping to identify and address concerning behavior prior to significant escalation. Students who engage in crisis level behavior have profound impacts on those around them, including friends, fellow students, faculty and staff. Many students are negatively impacted by suicide threats, attempts, completed suicides, overdoses and transports, disruptive and/or disturbing behavior. The tertiary impact of these types of critical incidents can be difficult to measure, but effective responses will determine whether some students are able to resolve the emotional trauma and remain in school. These positions are critical for supporting State Board of Education and University objectives and will positively impact the campus community and increase retention of impacted students.

The request for case managers follows national trends of establishing positions that engage students in early-on reports of concern to connect with resources for better retention and graduation. Boise State University established a similar position several years ago, hiring a social worker to manage CARE reports, engage directly with students of concern, and refer to campus and community supports. This position is now an Associate Dean of Students at Boise State. An additional position was added to engage another high-risk population (i.e. students from foster homes) to help with retention efforts. Both individuals have social work backgrounds and have positive impacts on the student experience and retention efforts.

Raven Scholars Program. Student Affairs is requesting permanent funding for a Program Coordinator for the Raven Scholars Program, located within the Center for Disability Access and Resources (CDAR). The position is currently funded from gift fund resources; continued funding of the position is contingent on sufficient donor resources.

The Raven Scholars Program is a proven, award-winning pilot project that has served University of Idaho (UI) students with Autism Spectrum Disorder (ASD) since 2011. The Program develops an individualized, supported transition for ASD students by providing wraparound services to sustain their college success and improve their retention. Raven Scholars are supplied with preparation that individuals with ASD typically need in order to adapt to college; they also learn tools to overcome social deficits that may impair them in their interpersonal relationships and in their ability to self-advocate. The Program won the May Dunn Ward Innovative Program Award in 2012 for creativity in addressing student learning. Connected with campus services and ASD-specific learning modes that help them thrive academically and socially, Raven Scholar participants are better equipped to handle the stressors of the UI experience. The Program makes UI unique by providing a platform from which ASD students become capable adults in society with an education that will enhance their ability to lead highly functional lives. Participants are also more likely to return UI's investment in them to the State of Idaho through improved employment rates and enhanced economic participation.

The need for postsecondary ASD educational services is certain to increase due to a continued rise in the rate of ASD diagnosis, especially of high functioning individuals, who are more likely to seek a college education. In fact, the Fall 2017 semester saw the Raven Scholars Program enrollment increase 46% over last year, with 22 students enrolled. The Program has been operating under a gift budget, which will end by fall 2018. The Raven Scholars Program will not survive beyond the 2018 fiscal year without permanent funding support, and permanent standing will provide stability for UI's ASD population. Without the program, a dramatic drop in the rate of retention will occur.

The Raven Scholars Program is a support program to Center for Disability Access and Resources (CDAR). The Program greatly relieves the impact on other CDAR staff by providing for ASD-specific needs. Without the Program, CDAR would not have the staff and resources to provide sustained contact, service coordination, and wraparound services for ASD students. The Raven Scholars Program also supports two of UI's Strategic Plan Goals, namely, to transform and to cultivate a diverse community.

The Program improves the lives of ASD students by augmenting their academic success and their acceptance into the diversity of the UI community. Raven Scholars participants have an excellent retention rate at over 82% since the Program's founding in 2011 and 88% since 2013. Additionally, the Raven Scholars Program is key to educating on ASD to UI faculty, staff, students, and to the Moscow community.

Center for Disability Access and Resources (CDAR): Student Affairs is requesting permanent funding for two critical support positions—Assistive Technology Specialist (ATS) and C-Print Program Coordinator in the Center for Disability Access and Resources (CDAR). These positions are currently funded from temporary financial resources within Student Affairs; continued funding is contingent on sufficient resources from salary and operating reserves within the division. Permanent funding ensures the positions will be maintained so students with disabilities are provided equal access to materials, adaptive equipment and provided support so they have access to classes, programs and services.

The University of Idaho is committed to meeting the unfunded federal mandates as set forth by federal law and providing equal and integrated access for individuals with disabilities to all the academic, social, cultural and recreational programs it offers. This commitment is consistent with legal requirements, including Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990, and embodies the university's historic determination to ensure the inclusion of all members of its communities. CDAR promotes self-determination and self-advocacy of students with disabilities throughout the university community. CDAR partners with various academic and administrative units on campus to ensure the students with disabilities are provided the opportunity to achieve their utmost potential. CDAR provides services to the University community in order to offer leadership and provide management in University-wide programs for students with disabilities, facilitate independence in academic, emotional, social, and physical arenas of life, and assist in the orientation of students with disabilities. CDAR provides services that educate faculty and staff about disability awareness and strategies for interacting with students who have disabilities, disseminate information pertaining to laws affecting students with disabilities, and provide services and accommodations that will allow students the opportunity to be successful in an academic setting. CDAR provides services in order to collaborate with other support agencies on campus and in the community to support all aspects of students' college experiences.

The Assistive Technology Specialist (ATS) coordinates and supervises the Alternate Media/Text and Assistive Technology Programs to ensure that students with disabilities receive equal access to materials related to their college experience as well as have the appropriate adaptive equipment to provide equal access to university classes, programs, and services. The Individuals with Disabilities Education Act Sec. 300.105 Assistive Technology, each public agency must ensure that assistive technology device or assistive technology services, or both, as those terms are defined in Sec. 300.5 and 300.6.

The C-Print Coordinator provides reasonable and appropriate accommodations for students with auditory disabilities by coordinating and implementing innovative and up-to-date speech-to-text services. Managing and direct supervision of captioning staff monitors captioning software and computer hardware and updates policies as needed to ensure students receiving captioning services are accommodated fully and properly in accordance with the Americans with Disabilities Act and Section 504 Laws. Higher education institutions in the US are legally required to provide closed captioning for recorded lectures, online courses, class materials, and other video content used for teaching and learning.

This proposal is requesting support for two positions to align with compliance with specific university, state, federal or other regulatory directives. Lack of funding impact the institutions ability to remain in compliance with the legal requirements mandated by the federal government

Counseling & Testing Center: The Counseling and Testing Center (CTC) is proposing a new psychologist position to provide administrative coordination of mental health services to University of Idaho students. The Assistant Director for Counseling & Testing Services and Director of Clinical Services, would have primary administrative responsibility for a wide range of activities that support mental health services provided by clinicians and are aligned with the university's and CTC's mission and strategic goals. The Assistant Director would supervise five clinicians who have programmatic responsibility for the following clinical services: emergency mental health services, treatment of psychological trauma, alcohol and other drug treatment, group counseling services, and diagnostic testing services for cognitive and psychiatric disorders. The Assistant Director would work with the Director Counseling & Testing Center and clinical staff to develop a broad range of clinical services to respond to the mental health needs of our student population.

The Assistant Director would also have primary responsibility for a broad range of administrative tasks that are critical for management of mental health services. These would include the development of clinical services policies that reflect best practices in the mental health field, establishment of a quality assurance and utilization review procedures and evaluation of clinical outcomes to determine efficacy of treatment. The Assistant Director would have primary responsibility for coordinating all mental health services at the CTC, including crisis intervention. In addition, the Assistant Director will take the lead role in administrating the CTC's participation in the Center for Collegiate Mental Health (CCMH) and the National College Health Association (NCHA) projects which evaluate mental health trends in the college student population. Finally, the Assistant Director would join the CTC's administrative team that includes the Director, Training Director and Assistant Director for Outreach and Consultative Services.

Vandal Health Education: The Assistant Director of Vandal Health Education will provide oversight for Alcohol & Other Drug (AOD) initiatives that would better serve the needs of UI students and meet the growing demands of the Vandal Health Education department. The Assistant Director position would replace the AOD Program Coordinator position and would be responsible for coordinating substance abuse prevention efforts in addition to supervising the AOD Graduate Support Assistant, maintaining a robust peer education program, and serving as a campus resource for all substance use related initiatives and questions. The Assistant Director would lead all campus health initiatives related to substance use, create networks and collaborate with campus and community partners, and develop collegiate recovery program to support students in recovery. The Assistant Director will also use evidence-based strategies to reduce harm related to other drug use, including but not limited to marijuana, stimulants and other prescription drugs, and opiates; an area of our campus health initiatives that has not been as advanced as it could or should be. The Assistant Director will coordinate alcohol and other drug education for all students who violate the Student Code of Conduct related to alcohol or other drug use.

This proposal is requesting funding support for one Assistant Director of Vandal Health Education to lead health initiatives for students at the University of Idaho. These initiatives serve the mission of the university by impacting student retention efforts, supporting students through education who may engage in high-risk behavior in high-risk environments, and help to create a healthy living and learning environment.

Counseling & Testing Center: The Counseling & Testing Center is proposing to reallocate the funding for a full-time clinical psychologist from the dedicated student activity fee to state appropriated funding sources. The position is a full-time 12-month appointment. The psychologist conducts psychological service activities, crisis intervention, assessment, case management and is expected to conduct research and scholarship activities. When the position was created, institutional funding was not available to cover the salaries and fringe benefits therefore a request to seek student fee resources was made and approved by the students. This request will transfer the commitment from the student's tuition and fees to state appropriated resources in an effort to provide a reduction in fees each student pays to attend the university.

The request for funding these positions supports the CTC's mission and strategic goals to advance the academic mission of the university by facilitating students' educational, personal, social, and cultural development in order to promote success and persistence within the university.

Vandal Health Education: Vandal Health Education (VHE) is proposing two Graduate Support Assistant (GSA) positions: one position will support Alcohol and Other Drug initiatives and the second will support Sexual Health initiatives. VHE gives over 100 educational seminars and workshops upon request to a variety of student groups, living communities, and classrooms each semester. The workshops address health education topics meant to engage students in conversations so that they can make informed decisions about their own health and well-being. One GSA would work closely with the Assistant Director for Vandal Health Education to adequately train peer educators to deliver workshops around alcohol and other drugs with fidelity, seek out and build relationships with campus partners and living groups that have not previously accessed VHE workshops. The GSA would monitor program effectiveness and enhance workshop components, update program concepts and modules as more research develops around marijuana and other drugs on a college campus. A GSA focused on outreach workshops around substance use would enable the Assistant Director to focus more broadly on evidence-based strategies, creating and supporting a healthy campus culture, and developing a robust peer education program.

A VHE GSA for sexual health initiatives would be responsible co-creating, organizing, implementing, and evaluating Vandal Health Education's sexual health outreach initiatives, including, but not limited to workshops available upon request and our panel discussions that we implement for targeted populations. The GSA would maintain relationships with other campus departments who also conduct outreach related to healthy sexuality in order to ensure programs are delivered according to best practice, and to connect targeted groups with the university's health services. Additionally, the rates of sexually transmitted infections are rising nationally and the rates of protection are decreasing creating the need for VHE to be more proactive and comprehensive in sexual health outreach. The GSA would support the Director of Health Promotion in conducting focus groups to ultimately create and distribute a healthy sexuality campaign, and monitor and enhance our condom distribution program.

This proposal is requesting funding support for two Graduate Support Assistants to help lead health initiatives for students at the University of Idaho. These two positions are in alignment with increasing educational and professional development opportunities for graduate students while at the same time impacting the campus living and learning environment of students. These initiatives serve the mission of the university by supporting students, creating a healthy learning environment and impacting student retention. Lack of funding will affect expansion of Alcohol & Other Drug and Sexual Health programs key to students fulfilling their educational goals.

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

1. Position: Student Support Case Manager, Student Mental Health, Counseling & Testing Center, 1 FTE, $55,000, Exempt, Benefits Eligible, Date of Hire: Start FY19

2. Position: Student Support Case Manager, Crisis Intervention and Faculty Student Support, Dean of Students, 1 FTE, $55,000, Exempt, Benefits Eligible, Date of Hire: Start FY19

3. Position: Program Coordinator, Raven Scholars Program, 1 FTE, $48,000, Exempt, Benefit Eligible, Date of Hire: Start FY19

4. Position: Student Support Case Manager, Veteran and Special Population Support, Dean of Students, 1 FTE, $55,000, Exempt, Benefits Eligible, Date of Hire: Start FY19

5. Position: Assistive Technology Specialist, Center for Disabilities, Access and Resources, 1 FTE, $40,000, Classified, Benefits Eligible Date of Hire: Start of FY 19

6. Position: C-Print Program Coordinator, Center for Disabilities, Access and Resources, 1 FTE, $38,750, Classified, Benefits Eligible, Date of Hire: Start FY 19.

7. Position: Assistant Director for Counseling & Testing Services & Director of Clinical Services, 1 FTE, $80,000, Exempt, Benefits Eligible, Date of Hire: Start FY 19

8. Position: Student Support Case Manager, Student Affairs Generalist (Boise Area), Dean of Students, 1 FTE, $55,000, Exempt, Benefits Eligible, Date of Hire: Start FY 19

9. Position: Assistant Director Alcohol & Other Drug, Vandal Health Education, 1 FTE, $49,000, Exempt, Benefits Eligible, Date of Hire: Start of FY 19

10. Position: Clinical Psychologist, Counseling & Testing Center, 1 FTE, $71,552 Exempt, Benefits Eligible, Date of Hire: Start FY 19

11. Graduate Support Assistants, Vandal Health Education, $23,000, Graduate Students, Date of Hire: Start FY 19

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

c. List any additional operating funds and capital items needed.

1. Student Support Case Manager, Student Mental Health, Counseling & Testing Center
   - Staff Travel: $5,000
   - Operating Expense: $7,500
   - Capital Outlay: $5,000
2. Student Support Case Manager, Crisis Intervention & Faculty Student Support, Dean of Students
   - Staff Travel: $5,000
   - Operating Expense: $7,500
   - Capital Outlay: $5,000
3. Program Coordinator, Raven Scholars Program
   - Staff Travel: $4,000
   - Operating Expense: $15,000
   - Capital Outlay: $5,000
4. Student Support Case Manager, Veteran & Special Populations, Dean of Students
   - Staff Travel: $5,000
   - Operating Expense: $7,500
   - Capital Outlay: $5,000
5. Assistive Technology Specialist, Center for Disabilities, Access and Resources
   - Operating Expenses: $15,000
6. C-Print Program Coordinator, Center for Disabilities, Access and Resources
   - Operating Expenses: $15,000
7. Assistant Director for Counseling & Testing Services & Director Clinical Services, Counseling & Testing Center
   - Staff Travel: $5,000
   - Operating Expense: $10,000

- Capital Outlay: $5,000

8. Student Support Case Manager, Student Affairs Generalist Boise Center, Dean of Students
   - Staff Travel: $5,000
   - Operating Expense: $7,500
   - Capital Outlay: $5,000
9. Assistant Director, Alcohol & Other Drug, Vandal Health Education
   - Staff Travel: $7,500
   - Operating Expense: $40,000
   - Capital Outlay: $5,000
10. Clinical Psychologist, Counseling & Testing Center
    - Staff Travel: $5,000
    - Operating Expense: $3,000
11. Graduate Support Assistants
    - Operating Expense: $18,000

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

All elements of this request, with the exception of capital outlay, are ongoing. There are no major revenue assumptions with the following exceptions:

1. Program Coordinator, Raven Scholars Program (1.0 FTE). This budget request is ongoing with the exception of capital outlay. Supplemental funding from carryover of the original trust will total approximately $20,000 for FY 2019. The program also receives donations and funds raised by University Advancement; $43,869 was received during 2017. Future donated funds can supplement programmatic activities such as Autism Awareness Month, social and life skills classes, peer-mentoring internships and other student engaging activities. While there are many grants for ASD research, there is a dearth of funds for behavioral, supported-transition programs like the Raven Scholars Program, especially at the postsecondary level. UI backing is critical to the survival of the Program.

2. Clinical Psychologist, Counseling & Testing Center. (1.0 FTE) This budget request is ongoing. There are no major revenue assumptions. This position is currently funded from student fee resources. The request will transfer the commitment from student tuition and fees to state appropriated sources.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

1. This funding request for the Student Support Case Manager positions (4 FTE) is designed to serve all students. The University has seen significant increases in students facing crisis. Case Managers would provide crisis intervention and short-term counseling/referral support for students. Providing timely and coordinated responses to students in crisis prior to escalation is critical for the saving of lives, retention and long term success of students. Lack of funding will impact student retention and remediation efforts and increase the risk of health and safety to our campus community.

2. This funding request for support for the Raven's Scholars Program is designed to serve University of Idaho students with Autism Spectrum Disorder (ASD) If this request is not funded, the Raven Scholars Program will not survive beyond the 2018 fiscal year. This will result in a dramatic decrease in the number of students being served, impacting the retention and go-on rates for the University and the State of Idaho for a high-risk population requiring specific care and support for success.

3. This funding request for the Assistive Technology Specialist and C-Print Program Coordinator, Center for Disabilities, Access and Resources are designed to serve students with disabilities, ensure they have equal access and support for classes, programs, and services. In addition, these positions are required for institutional compliance with federal mandates.

4. This funding request for the Assistant Director of Counseling & Testing Center position is designed to administrate the services and programs offered by the Counseling & Testing Center. The CTC is a critical student service offering access to a wide range of counseling services at no charge for psychological, behavioral, or learning difficulties for all students. In addition, CTC provides outreach programs focusing on students developmental needs to help them benefit from the academic environment.

5. This funding request for the Assistant Director Alcohol & Other Drug is designed to serve all students. This would provide students with greater support for substance abuse prevention, educational programs, and other campus health initiatives.

6. This funding request for the Clinical Psychologist position is designed to eliminate the support from the dedicated student activity fees charged to students each semester and lower the cost of enrollment for all full-time students.

7. This funding request for the Graduate Support Assistants is designed to serve all students. These positions will support the Alcohol and Other Drug and Sexual Health Initiatives for Vandal Health Education.

AGENCY: College & Universities	Agency No.: 510	FY 2020 Request

T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$1,950,600				$1,950,600

Description:

This proposal will significantly increase the University of Idaho's capacity to support research and scholarship, student success, and outreach to the larger Idaho community. This increased capacity will enable the Library to expand resources and activities to match peer and aspirational peer institutions and to provide essential support for the University of Idaho as it expands its research portfolio.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

We are requesting personnel and operating expenses to enable the Library to provide a suite of services to University students and scholars that advance its research, teaching, and land-grant missions. We received partial funding in FY18, which funded two positions and provided one-time funding for non-standard periodical inflation and new journal titles.

Library collections are comprised of two main categories: books (monographs) and e-books and scholarly journals. Books are one-time purchases, while journals require an ongoing subscription cost. We are committed to building and maintaining collections that support faculty and student research and scholarly production in the University's areas of focus. If we do not continuously acquire new materials as they become available, we develop gaps in our collections that hinder faculty and student ability to produce cutting edge research. It is for this reason we are seeking base funding. The inflation rate for hardbound books is approximately 3% per year and the cost of e-books is projected to rise approximately 7%.

Scholarly journals (periodicals) reflect the nearly 90% of the University of Idaho Library's acquisitions. These publications are used by faculty and students as the primary vehicle to communicate research and build new knowledge. Publishing the results of research in prestigious journals is critical to faculty success. Access to scholarly journals is essential to the research process and lack of access to these journals can result in denial of grant funding. Publishers are aware of the competitive market for scholarly periodicals and the essential nature of their product; they control the pricing and have raised subscription renewal costs at rates that exceed the consumer price index for inflation. This is referred to as the "non-standard library materials increase" and funding to accommodate this was once part of the state's budget for all Idaho academic libraries.

For the past ten years, the University of Idaho has approved one-time funding to cover the non-standard library materials increase, the cost of which has risen approximately 6.5% each year for the past ten years. In FY07, we spent approximately $2.15 million for scholarly periodicals. In FY17, we spent $3.5 for these titles. We are requesting that non-standard library inflation be incorporated into the base to re-set the budget. While non-standard library inflation will continue to be a challenge for all Idaho's academic libraries, we will continue to work on re-establishing this as a line item in the state's budget.

We are also requesting $50,000 be added to the base for equipment and infrastructure support. These funds will be used to replace computer systems and server components as required to provide on-going access, security, and support for our growing digital collections, which currently comprise about 15-20 TB of data. Library technologies requiring ongoing support also include those that support student learning and career preparation in the Making, Innovation, and Learning Laboratory and the technology supporting faculty research and skill development in the Center for Digital Inquiry and Learning. In addition to computers and servers, the Library supports 3-D printers, 3-D scanners, virtual reality technologies, and other new learning tools as well as older technologies such as microfilm readers and scanners. Access to these tools and fluency with their capabilities is essential to ensure students and faculty are able to produce the highest levels of knowledge and scholarship in today's world.

Our original request included funding for 50% of a shared marketing and communications position. After further evaluating our needs, we believe resources would be better used to fully fund the salary for an institutional repository programmer.

External peer reviewers note that, while the University of Idaho Library has the distinction of being the largest research library in the state, "within the larger world of research libraries, the University of Idaho Library has failed to measure up." This request for capital outlay, operating expenses, and personnel are designed to address this critique and develop a nationally recognized research library.

Specifically, the Library intends to achieve several goals:

- Increase support for First Year Experience instruction program (.75 FTE instructor)
- Support data management, deposit, reuse, and curation (1 FTE)
- Enable development of a robust institutional repository (1 FTE)
- Provide technical support for faculty in processing activities (1 FTE)
- Address new role of collecting and preserving institutional history (1 FTE)
- Support innovative learning with primary source materials (1 FTE)

These represent essential elements of the function of contemporary leading research libraries. Additionally, this support enables the University of Idaho to further grow its outreach to statewide libraries and museums. We currently share our expertise through webinars and workshops; much more statewide outreach could be done with additional support.

2. **What resources are necessary to implement this request?**

   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

      1. Position: Institutional repository programmer, $74,200, FT, classified, benefit eligible, date of hire: July 2019
      2. Position: University archivist, Assistant Professor, $51,500, FT/FY, tenure-track, benefit eligible, date of hire: start AY20
      3. Position: Resident Librarian, Instructor, $36,100, FT/AY, non-tenure track, benefit-eligible, date of hire: start AY20
      4. Position: Archivist for Instruction and Engagement, Assistant Professor, $51,500, FT/FY, tenure-track, benefit eligible, date of hire: start AY20
      5. Position: Metadata Librarian, Assistant Professor, $51,500, FT/FY, tenure-track, benefit eligible, date of hire: start AY20
      6. Position: Data services support, Library technician, $29,900, FT, classified benefit eligible, date of hire, July 2019
      7. Student employment: $50,000

   b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

   c. **List any additional operating funds and capital items needed.**

      - Operating funds
        - Travel: $7,500
        - Phones, supplies, etc.: $3,000
        - Software licenses: $4,000
        - Memberships and travel (total $100,305 base)
          - Greater Western Library Alliance, $16,000
          - Orbis Cascade Alliance, $35,000
          - HathiTrust, $15,000
          - Coalition for Networked Information, $10,000
          - Research Data Alliance, $5,000
          - Council on Library and Information Resources, $5,000
          - Digital Library Federation, $8,000
          - Scholarly Publishing and Academic Resources Coalition (SPARC), $6,305
      - Capital outlay (total $1,328,300 base plus $16,800 one-time)
        - Office furniture and computers: $16,800
        - Non-standard periodical inflation added to base: $397,000
        - New periodical titles added to base: $453,600

- o Monographs added to base: $427,700
- o Equipment (e.g., Microfilm reader/printers, scanners): $50,000

3. **Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

   With the exception of the start-up capital outlay for offices and computers, all of these budget requests are on-going investments.

   Investments in Special Collections staff and memberships in appropriate library organizations heighten our ability to seek and secure external funding. The Library has been increasingly active in obtaining grants. For example, the Library recently secured a National Endowment for the Humanities grant in partnership with the Latah County Historical Society that will result in the preservation, digitization, and dissemination of unique privately-owned regional history resources.

   Additionally, robust data curation and open access institutional repository infrastructure will increase competitiveness for grants across the University. These are areas that many granting agencies, including the National Science Foundation, Department of Defense, and the National Endowment for the Humanities have deemed crucially important. The positions in this proposal are essential to creating and maintaining this infrastructure.

4. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

   This request is designed to serve all members of the university community (all disciplines, all types of research). It addresses student support from the beginning of a student’s career through graduation, creating graduates who are competent and competitive in today’s information-rich world. While our students may live in a media saturated environment, studies demonstrate that they are often unable critically evaluate information. Library information literacy instruction is essential in helping our students navigate the world of information that surrounds them as well as helping them construct research projects that are supported by authoritative studies. The University of Idaho Library has librarians assigned to each college to help students learn about how their area of study conducts research and the scholarship unique to the discipline. Students appreciate having these “personal” librarians who help them make connections to services and resources throughout their research process. Librarians troubleshoot a broad range of student concerns including financial aid issues, textbook costs, and the need for tutoring services as well as more traditional library topics such as citation, copyright, and finding sources. Through formal and informal library instruction, students learn to engage with the language and scholars of their chosen fields; classroom instructors report improvements in student papers after library instruction sessions. Students value the library as much as their instructors. The popularity of the University of Idaho's recently remodeled collaborative study areas is a testament to student enthusiasm for our dedicated learning spaces that support the University's educational goals and the state of Idaho's overall economic and educational goals.

This request sustains and encourages University of Idaho researchers by adding depth to emerging disciplines and provides support for the University's land-grant mission to serve the state. The Library provides special consulting services and shares resources with all Idaho libraries. This investment will provide opportunities for additional student internships and community partnerships, such the existing opportunities with the Latah County Historical Society and Potlatch, Nampa, and Kendrick-Juliaetta's Heritage Society.

The various activities represented in this request support the University of Idaho Library's professional obligation to participate in national dialogues about the future directions of libraries which also raise the state's national profile and prestige.

In addition to serving our community and our state in the ways listed above, this request contributes to the State Board of Education's goal to enroll 60% of graduating high school students. According to a NACUBO study that ranked libraries above fitness and recreation centers, the campus library is one of the top four facilities that students assess when choosing a college. Attractive modern facilities impress students and their families on the tours and information sessions our First Year Experience program provides during university recruitment events. Strengthening the FYE program will allow us to more fully engage with recruitment efforts and inform prospective students and their families about the academic support available at the Library. The Library's liaison program offers a partnership in upper level instruction and research at the disciplinary level that provides a strong scaffold of support for the learning environment for our students.

If unfunded, the University of Idaho will find it difficult to support its research and creative works goals. A successful research institution is one that offers students opportunities to explore global challenges with some of the world's finest scholars. Undergraduates gain valuable access to laboratories and projects as well as the opportunity to learn directly from members of research and scholarship teams. The interdisciplinary nature of such institutions makes for inclusive learning, where engineers are informed by social scientists and chemists learn from artists. If not funded, Idaho would remain as one of the very few states without an adequately funded and staffed research library and this outcome affects the state in multiple ways: the University of Idaho Library would remain well short of attaining the stature that would support both the current and aspirational needs of the University. Lack of funding would also limit the Library's ability to perform essential outreach to Idaho despite demonstrated need and demand. Funding this proposal would represent a significant investment in the future of our state and its people.

TOTAL CAPITAL OUTLAY:	$12,000				$12,000
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$547,700				$547,700

Description: Inspired by the new Complete College America (CCA) strategy, *A Better Deal for Returning Adults* , and building on Lewis-Clark's long tradition of serving non-traditional students, the focus of this FY20 Line Item request is to launch a highly focused Adult Learner Program (ALP). In 2017, the average age of Career & Technical students was 27 years, and of "Academic" students, 24. We believe there is a meaningful number of individuals, age 25 an older with some college credit, within our service regions who will benefit from the ALP, many of whom will also benefit from the 'adult learners' portion of the state's Opportunity Scholarship program.

Mirroring CCA's strategy, the outcomes of this program are 1) increase degree attainment in adult learners, 2) offer accelerated academic terms (8-weeks), 3) create structured schedules in targeted instructional programs, 4) enhance use of Prior Learning Assessment (PLA), and 5) provide support to help adult students navigate the many systems in place at LCSC. To be successful, this must be a program that surrounds the adult student with outstanding instruction and high-quality, easily accessible support services.

In preparation for the Adult Learner Program, a campus wide committee was charged to explore potential sources of adult learners in LC's service regions, degree and certificate programs of greatest interest to prospective adult learners, barriers to participation, existing services and those that need adaptation, how outreach centers could support the ALP, financial models to support adult learners, and a review of national data and successful programs.

The committee returned three broad recommendations, each with multiple components. To create an ALP requires reconfiguration of the days/ times / delivery modes by which four programs are offered (2 academic, 2 CTE), the manner and frequency in which the student receives academic and professional advising, a redesign of the academic calendar, and restructuring of financial aid processes. Specific essential activities include creating 8-week instructional terms and aligning financial aid packages (manual processes) to the new term length, strengthening processes for transcript evaluation and evaluation of eligibility for Prior Learning Assessment credit, and enhanced hours of availability for student counseling, financial aid, registrar, admissions, testing center, IT help desk, etc.

Alignment with institution/ Board strategic plans: Development of an Adult Learner Program fits with SBOE's FY19 Goals 2 (Educational Attainment) and 3 (Workforce Readiness). The program aligns with LCSC's 2018-2023 Strategic Plan *Goal 2 Increase student enrollment, retention and completion: Objective 2.B. Increase the number of non-traditional, adult learners enro lled in degree program s.* LCSC's Core Theme I. *Opportunity: Expand access to higher education and lifelong lea rning* provides a fitting backdrop for this initiative.

Performance Measures: Relevant FY19 SBOE measures include Percentage of Idahoans (ages 24-35) who have a college degree or certificate requiring one academic year or more of study—benchmark: 60%. LCSC measures: Number of adult learners age 25 or older and increase in online headcount, as well as number of degrees or certificates.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

    New resources are personnel focused to provide year-round instruction, to coordinate the financial aid, transfer agreement, and PLA processes, and to enhance program-specific professional academic advisement.

    Lewis-Clark State College seeks funds for year-round instruction in two key academic programs, allowing accelerated program completion. A Transfer Agreement Coordinator is being sought to manage the process of developing and updating program-specific and institutional articulation agreements to ensure a more seamless transfer process to LCSC and to support compliance with federal consumer information laws related to transfer and articulation agreements. A Financial Aid Specialist will manage timely financial aid awarding processes for students completing a degree in an alternative and/or accelerated terms, which involves time intensive manual processing. Advisors are requested to assist adult learners in building schedules and navigating graduation requirements. It is anticipated that advisement of ALP students will be complex, and require a high degree of specialization and frequent coordination with instructional divisions. Finally, the college is requesting funding for a coordinator who will oversee all aspects of class scheduling, coordination of services, and student outreach.

Through the program prioritization process, existing resources will be reallocated to support online course development, recruitment and marketing campaigns focused on prospective students, and some aspects of student support. This includes developing alternative work schedules for key personnel and/or integrating processes or services to best serve adult learners. Current CTE funds are available for reallocation to support two adult-learner-focused career & technical programs.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Title	Pay Grade	FT or PT	Benefit Elig	Date of Hire	Term Service
Coordinator	$50,000	1.0 FTE	Yes	July 1, 2019	12-month
Transfer Agreement Coordinator	$40,000	1.0 FTE	Yes	July 1, 2019	12-month
Advisor	$40,000 x 2 = $80,000	2.0 FTE	Yes	July 1, 2019	12-month
Financial Aid Specialist	$45,000	1.0 FTE	Yes	July 1, 2019	12-month
Year-round instructor	$67,000 x 2 = $134,000	2.0 FTE	Yes	Fall 2019	12-month

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   Through the program prioritization process, existing resources will be reallocated to support online course development. As previously referenced, the Financial Aid, Advising, and Counseling offices will be directed to expand their business hours into the evening or perhaps on Saturdays, to accommodate the adult learners.

- Operating expense for new positions: see attachment for detail (total $18,000 + $8,000 for travel).
- One-time capital outlay for office set up: see attachment for detail (total $12,000).

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   To create a comprehensive and sustainable program, with the exception of Capital Outlay, the request is for ongoing State General Funds. The attached spreadsheet lists requested positions in order of priority.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The ALP will serve adults in LC's service regions, age 25 and older who have completed some college and wish to attain a degree or certificate. Receipt of funding will allow for a wrap-around program with year-round instruction, accessible support services, within 8-weeks academic terms in 4 instructional programs (2 academic; 2 CTE). LCSC is committed to meeting the needs of non-traditional students and adult learners. If the project is not funded, we will continue to move forward, implementing the program in small increments and with a narrower focus, as internal resource reallocation allows.

   Note: While the focus of this request is on a new Adult Learner Program, each of the requested positions will also benefit current and future LCSC students. For example, it is anticipated that a number of students would select courses scheduled in 8-week terms, necessitating manual processing of the financial aid award.

Description: Lewis-Clark State College has historically seen part of its niche as service to non-traditional and first-generation College students. In order to better serve those students and provide a campus that is accessible and safe for all, the objective of this FY20 line item is to first create better access for students with disabilities. According to a May 19, 2016 briefing Paper from the National Council on Disability, “Students with disabilities are attending postsecondary education at rates similar to nondisabled students but the completion rates are significantly lower. (only 34 percent finish a four-year degree in eight years), indicating the possibility of inadequate or inappropriate supports and services.” In order to support students with disability needs, and seeking to meet what is a growing need at the college, LCSC is requesting support for a full-time Disabilities Services Coordinator, with substantial funding to help provide advising, support and equipment.

LCSC is also challenged to meet expanding compliance requirements without sacrificing educational quality. Assessment of compliance measures on campus indicate that in order to effectively manage the requirements of the Governor's Task Force on Higher Education, current staffing and technology must be supplemented to an extent that requires more than merely relocating internal funding.

Through assessment and accreditation processes, LCSC became aware of the many areas across campus where environmental safety standards are required. However, many different people address environmental safety in their own division or department, but no one office holds oversight for such standards. Lewis-Clark State College is the only four-year institution in Idaho without a distinct Environmental Health and Safety Department. Establishment of this position would be the beginning of the creation of clear policies and procedures to support compliance on issues such as waste disposal, hazardous material disposal, and operational safety.

Alignment with institution/ Board strategic plans: This request fulfills the State Board of Education's Goal 1, Objective C (Higher Level of Educational Attainment – Increase successful progression through Idaho's educational system) and its superordinate goal of the State Board of Education to provide a secure and safe environment to support LCSC's learning objectives and assures compliance with standards set forth by the Governor's Task Force on Cyber-Security. It further supports LCSC's Strategic Plan Goal 2, to increase student enrollment, retention and completion by assuring equal access for all students and LCSC's Strategic Plan Goal 3, to foster inclusion throughout campus culture and processes.

Performance Measures: Relevant FY19 SBOE measures include Percentage of Idahoans (ages 24-35) who have a college degree or certificate requiring one academic year or more of study—benchmark: 60%.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   Lewis-Clark State College requests on-going funding for a full-time (1.0 FTE) Disability Services Coordinator and additional resources to support compliance with the Americans with Disability Act related to classroom and service accommodations. The college has relied upon counseling staff to perform this function since the early 1990s. But, as demand for student counseling as grown as well as demand for disability accommodations, this model is no longer sustainable. The complexities of developing accommodations for students in all facets of their educational experience plus the growing number of requests filed by students (an increase of 18% from the 2015-16 academic year to the 2017-18 academic year) justify this request. Further, the expenses associated with accommodating student disabilities has also increased. Federal requirements for accommodating hearing-impaired students, for example, have changed such that only interpreters with specific certifications are considered "appropriate." Costs for such interpreters can be as much as $42 per hour – especially in North Central Idaho, which has a limited pool of interpreters in general. Specialized computer equipment required by students with visual impairments or other high tech equipment, which the college is required by federal law to provide, also represent a growing financial burden for the institution. The demand for assistive technology, interpreter services, and similar support has more than doubled in two years.

A 1.0 FTE Cybersecurity Analyst is requested to support the work of the Governor's Task Force on Cybersecurity, and to address critical security controls. As cyberattacks increase in number, the position will focus on the creation of secure systems and employee awareness on matters involving cybersecurity. The request rose from priorities established through LCSC's annual assessment process, which is an outgrowth of the program prioritization initiative established by the State Board of Education. In order to meet the expectations of the Governor's Cybersecurity Task Force, it became apparent that the current personnel structure within IT to address these needs through multiple positions is not efficient in meeting and addressing cybersecurity needs. It is anticipated that this position would result in the development of better campus initiative to educate students, faculty and staff of cybersecurity issues and create awareness of the appropriate ways to respond to various threats. Further, this position will be tasked with building a more secure infrastructure.

The College also seeks funding for a 1.0 FTE Environmental Health & Safety Specialist. This will position will allow us to operate in accordance with best practices regarding potentially hazardous materials, and will be responsible for the creation of institution-wide policies and protocols. The Environmental Health & Safety Specialist will go beyond ensuring compliance by helping to establish laboratory procedures that will serve as a model for students in their chosen professions.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Title	Salary	FT/PT	Benefit Elig	Date of Hire	Term
Disability Services Coordinator	$60,000	1.0 FTE	Yes	July 1, 2019	12-month
Cybersecurity Analyst	$58,710	1.0 FTE	Yes	July 1, 2018	12-month
Environmental Health & Safety Specialist	$60,770	1.0 FTE	Yes	July 1, 2018	12-month

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Existing operations will be positively impacted by creating centralized recordkeeping, processes and policies to protect the institution and the various constituencies it supports. Existing employees will be freed from the responsibility of researching and determining best practices, allowing faculty, in particular, to focus on implementing compliance, rather than researching compliance. Further, establishment of best practices across the institution will elevate awareness of concerns and issues that can be more easily and quickly addressed.

c. List any additional operating funds and capital items needed.

For the Disabilities Services Coordinator, the College requests $34,000 in ongoing funding to support the hiring of sign language interpreters and other accommodations for students, and further requests $3,000 for a computer workstation.

Operating funds for the other two positions include basic office support/supplies, and the addition of a Cisco Umbrella license ($7,800), which extends domain name/phishing protection and provides content filtering. Capital Outlay includes a computer workstation for each of those two requested positions, totaling $an additional $6,000.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   With the exception of Capital Outlay, the request is for ongoing State General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   All the requested items support either existing or future students, particularly to attract students who may need to have disability requirements met. Although the institution has engaged in the continual reallocation of funds to support these students, the cot to do so continues to outpace our ability to reallocate funding. The College acknowledges that compliance support may seem a little less attractive for funding purposes, but in order to address the growing areas of required compliance that provide a secure environment for students. The College requests the support to better advance its efforts in these areas.

   If these positions are not funded, the exposure of the institution to liability due to decentralized processes could create both financial and reputational risk.

Description:

As part of its initiative to increase accountability and oversight and to improve student learning outcomes, the Division shifted resources in FY 2017 to hire a research analyst and expanded its focus on data analysis. With the implementation of Skillstack ©, CTEMS, connection to State Department of Education's (SDE) ISEE system as well as the rollout of the program quality initiative and the Workforce Incentive Grant, the Division is seeking additional resources to ensure the success of these efforts. The Division is also focused on stronger connectivity with the State Board of Education's Longitudinal Data System. This position will enable streamlining of our data collection procedures, ensure the accuracy and comparability of data, and enable us to better analyze data for our program improvement efforts.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request is for one full-time Research Analyst to join our performance management office. There is currently a Performance Management Director and a Research Analyst, senior in this area. Implementation of new systems including Skillstack ©, CTEMS, program quality initiative and the Workforce Incentive Grant. The Division is also focused on stronger connectivity with the State Board of Education's Longitudinal Data System and connection to SDE's ISEE system is increasing the demand for Division resources in this area.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   The Division is requesting a full-time benefit eligible Research Analyst, Senior (Nonclassified- Paygrade L)

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   No resources will be redirected. This will expand current capacity in this area.

   c. List any additional operating funds and capital items needed.

   This request includes funding for ongoing operating expenses such as travel, professional development, and office related expenses. This request also includes one- time funding to repurpose existing space into an office.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   Personnel and Operating requested is ongoing. Capital is one-time.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Secondary and postsecondary students and administrators will benefit from this additional resource, which will allow us to improve student outcomes and CTE programs throughout Idaho. Educators and Division Program Quality Managers will have reliable data and reports to make data- driven decisions on programs and opportunities to improve programs.

LUMP SUM:					
GRAND TOTAL	$126,700				$126,700

Description:
As the Division continues its efforts to expand quality CTE offerings and strengthen the pipeline of CTE students and concentrators, more emphasis is being placed on how we directly engage with students. This engagement includes the development of close working relationships with counselors, college and career advisors, and transition coordinators, as well as facilitating usage of SkillStack as a means to demonstrate CTE competencies. This position will also aide in recruitment and retention in Career & Technical Student Organizations.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request is for one full-time Director of CTE Student Engagement. Student engagement is currently accomplished indirectly through a number of employees. This shift would centralize that function and strengthen not only support and outreach, but accountability and oversight of how our programs are communicated to the field and prioritized within the education system.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   The Division is requesting a full-time benefit eligible Director of CTE Student Engagement (Nonclassified- Paygrade P)

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   This position will move functions currently under the responsibility of the Postsecondary Director and the Planning and Policy Director allowing them to focus on their respective responsibilities while allowing the Division to put more effort into communicating directly with students, counselors, and transition coordinators to help ensure continuity of student services and improve student learning outcomes.

   c. List any additional operating funds and capital items needed.

   This request includes funding for ongoing operating expenses such as travel, professional development, office related expenses. This request also includes one-time funding to repurpose existing space into an office.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   Personnel and Operating requested is ongoing. Capital is one-time.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Secondary and postsecondary CTE students will benefit the most from funding this request. The addition of this dedicated position within our office will help ensure students have access to the resources they need, and that information is communicated to teachers and administrators in ways that advocate for CTE and for better student learning outcomes. Counselors, transition coordinators, and college and career advisors will also benefit from having consistent, relevant information about CTE and how it can improve Idaho's go-on rate.

Given the ongoing support and growth of CTE in Idaho, not funding this request will continue to put a strain on existing resources. Consequently, it will limit the Division's ability to maximize support for our students and counselors, jeopardizing the foundation we have worked so diligently to build.

Description:

The purpose of program alignment is to increase the go-on rate of high school CTE students. Alignment efforts focus on the successful transition of students from secondary to aligned postsecondary CTE programs and to promote the successful completion of that postsecondary CTE program with a degree, technical certificate, or industry credential. Through a partnership of ICTE, secondary, and postsecondary stakeholders, program alignment supports Idaho students accomplishing the following:

1. Take equivalent technical courses anywhere within the public education system, including statewide assessments for Technical Competency Credit through Idaho SkillStack®
2. Transcribe earned Technical Competency Credits (upon enrollment at an Idaho Technical College) while minimizing institutional barriers and access to CTE programs.

3. Attain their highest educational aspirations in the most efficient and effective manner as a result of clear and consistent standards driven by industry.

In 2015, the Idaho Legislature amended Idaho Code 33-2205 to formally codify the statewide alignment framework and allow the Division to provide incentives to Idaho public colleges as they align their foundational courses to *"ensure that postsecondary credits earned by a student in a career techni cal education program will transfer at the full credit value to any public Idaho college or university in a like program of study and to ensure that such postsecondary credits will be treated by any s uch public college or university as satisfying specific course requirements in the student's program of study."* Since the initial legislation was enacted, Idaho has aligned 26 CTE programs and continues to make strides in aligning the remaining pathways.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   Since FY 2015 this request has been funded on a one-time basis. As the total number of pathways has been finalized, we are able to more accurately project costs on a long-term basis. This request continues this funding on an ongoing basis.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   None

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   None

   c. List any additional operating funds and capital items needed.

   Included in this line item are the costs of the assessments and the development of new program standards. This item also includes the costs associated with reviewing standards and assessments annually, and updating them to align with industry needs. This request includes ongoing funding for postsecondary teachers to train secondary teachers on the assessments, which will better prepare students to pass the assessments and be prepared for their postsecondary programs.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request is for ongoing funding.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Program alignment collectively benefits students, secondary teachers, postsecondary faculty, and industry through increased participation, training and collaboration.

Description:

In the 2018 legislative session, amendments to Idaho Code 33-2202 expanded the definition of career and technical education to allow the Division of Career Technical Education to develop and fund specific courses or programs offered in grades 7 and 8, as approved by the State Board of Education.

For FY 2019, the legislature appropriated funding for two positions including a middle school program quality manager and an administrative assistant. The Division will use those new positions and existing resources to conduct outreach and training to middle school administration, teachers, and counselors regarding the value of CTE, conduct focus groups with middle school administration, as well as research current career exploration offerings in Idaho and other states. The Division will also create the teacher endorsement, draft teacher training, and identify pilot schools.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   For FY2019, the Division received funding for two FTEs related to the development of CTE in the middle school. This request is for one-time funds of $356,000 to cover the costs of identifying standards, creating assessments, developing curriculum, and working with the identified pilot schools to ensure the new middle school CTE program has listed their school or district's FY21 course catalogs. The funds will also cover the costs to develop and implement training for newly endorsed teachers.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
   None

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   None

   c. List any additional operating funds and capital items needed.
   None

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.
   The entire amount is for one-time funding.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This request allows the Division to develop and implement introductory CTE in grades 7 and 8. For FY2019, the Division received funding for two FTEs. For FY 2019, The Division is using these two new FTEs to fund the preliminary research and development of the middle school framework, including training and outreach.

   This FY2020 request would fund middle school students and programs will benefit by having access to exploratory CTE, which will provide them with more career exploration opportunities and increase the number of secondary CTE students. If this request is not funded, the Division will not be able to complete the development of the new middle school program, nor will the Division be able to provide these opportunities to middle school students statewide.

T/B PAYMENTS:	$410,000				$410,000
LUMP SUM:					
GRAND TOTAL	$410,000				$410,000

Description:

In response to the ongoing CTE teacher shortage, the Division implemented a new certification program for individuals entering the CTE teaching profession. The INSPIRE to Educate program is intended to offer an alternative route for new CTE teachers who have been recruited from industry. These new teachers have the subject matter expertise, but may lack the fundamentals of teaching, either at the secondary or postsecondary level. The INSPIRE program provides teachers and districts a no- or low-cost option for teachers to receive the necessary training while still meeting the CTE needs of the district or institution to improve high quality CTE programs.

Historically these teachers were required to attend formal programs at the Universities at significant cost to them both financially and in terms of time and travel. The Division implemented the program in fall 2017 and since that time, 75 teachers have completed their first year of the 2 year program. The Division requires additional funding to maintain this program which is both more successful and therefore more costly than anticipated.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The Division is requesting $410,000, which is paid to University of Idaho for implementing the program throughout the State. No additional Division FTE is required to continue the project defined in this request. The Certification Director and related Administrative Assistant will continue to manage the project at the Division level.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   No additional FTE at the Division.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   None. The current structure at the Division is adequate.

   c. List any additional operating funds and capital items needed.

   No additional operating of capital funding is required.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request is for ongoing funding to continue the program grant to University of Idaho. An initial grant to implement this project in the 2017-2018 pilot year was awarded to The University of Idaho (U of I). The U of I hired six (6) Instructional Mentors, as well as Observational Mentors for seventy-two (72) participants. With a new cohort beginning in the 2018-2019, six (6) additional Instructional Mentors, and additional Observational Mentors will need to be hired.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This program benefits new CTE teachers transitioning from industry to education. As these teachers will have more support and training to assist them in their classrooms, this request will also benefit administrators and students with higher teacher recruitment and retention rates. If the Division is unable to continue funding this program, the long term success of this program would be at risk.

LUMP SUM:					
GRAND TOTAL	$515,000				$515,000

Description:

For over 20 years, the Division has helped fund the CTE teacher preparation programs at University of Idaho and Idaho State University. This funding is intended to support traditional 4-year degree educator training for CTE teachers. These programs are the primary education pipelines for teachers in the areas of agriculture, business, technology education and family consumer sciences. Due to limited interest in CTE teaching careers, the current numbers of student teachers aren't adequate to sustain these programs at the Universities. Without the additional funding provided by the Division, the programs would likely be closed, further jeopardizing the ability of Idaho secondary and postsecondary programs to find CTE teachers. Currently the Division funds these programs out of state leadership dollars allocated to the Division. The combination of increased expenses at the Universities, demand for other services from the Division and efforts to improve the teacher pipeline has put the Division's ability to fund these programs in jeopardy.

Funding this request will formalize support of the CTE teacher preparation programs in Idaho. Funding to these two institutions will be more transparent and responsive, because it will be tied to specific teacher-educator positions, will be increasingly based on accountability through established metrics, and will help to elevate the support for these programs.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request includes the funds directly allocated to University of Idaho and Idaho State University.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   None

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   None

   c. List any additional operating funds and capital items needed.

   None

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   The entire amount of funding is ongoing.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Funding this request will directly benefit our secondary and postsecondary institutions by providing a consistent CTE teacher pipeline. Failing to fund this line item request places the availability of these CTE teacher-preparation programs at risk. The ability to find trained CTE teachers is already a major concern.

TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:	$400,000				$400,000
LUMP SUM:					
GRAND TOTAL	$400,000				$400,000

Description:

In the 2018 legislative session, Idaho Code 33-1364 was passed, which created a Workforce Readiness Incentive Grant beginning in FY 2020. During FY2019, the Division will develop specific criteria to award incentive funds based on the number of secondary career technical concentrators who have demonstrated workforce readiness at the completion of their career technical education program. If funded, the Division will distribute the first round of grants to secondary CTE teachers at the end of the 2019-2020 school year.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is for an initial ongoing appropriation of $400,000 to award incentive funds to CTE teachers of pathway programs based on the number of secondary career technical concentrators who have demonstrated workforce readiness at the completion of their career technical education program. The funds would be passed on directly to the CTE teachers of intermediate and capstone courses in which the secondary concentrators were enrolled.

The grant will be implemented with existing Division staff. The Division has requested an additional data analyst for FY2020. If this position is funded, this FTE will also support the data analysis required to successfully oversee the grant and ensure award criteria is met.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   None

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   None

   c. List any additional operating funds and capital items needed.

   None. All funds are trustee benefit funds that will be passed through to CTE teachers by their school districts.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   The requested amount is ongoing and may fluctuate according to the number of students who meet the grant criteria each year. Each qualified student will generate up to $200 per pathway. These funds will then be divided among eligible teachers, based on the number of qualified students each year, as well as the total number of eligible CTE teachers.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Funding for this grant would benefit secondary CTE teachers who have invested the time and energy to ensure CTE concentrators have the tools they need to succeed in the workforce, as well as have attained and demonstrated the relevant skills within their pathway program.

This incentive-based approach would more clearly demonstrate the return on investment provided by career technical education and hold career technical education programs more accountable for producing results. This approach will also ensure a greater number of career technical education students are ready for the workforce and able to meet the demands of business and industry. In the long term, this would also include an increase in the number of students who are eligible to test for and earn Technical Competency Credits.

T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$2,069,700				$2,069,700

Description:

The Division of Career Technical Education funds programs at the 6 technical colleges throughout the state. Increased demand by Idaho employers for a skilled workforce have created ongoing needs to produce CTE program graduates with technical skills needed for growth and expansion. If Idaho cannot accommodate these increased educational demands, it forces students to seek education out of State and can force employers to look out of state to hire the qualified employees. These jobs are often high wage and high demand, which benefit not only the students seeking the education but help to stimulate the economy by providing higher paying jobs and a better educated workforce. Over the last three years, the legislature has appropriated $7.2 million in additional resources to expand capacity of targeted programs to meet the growing workforce needs of industry.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   13 FTE and $2,069,700 is being requested to start or expand high wage, in-demand CTE programs at the 6 Postsecondary technical colleges in the State.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   See attached schedule.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   Although these funds are for new positions in new or expanded programs, the technical colleges also undergo program prioritization each year based on the State Board of Education requirements that redirect and reallocate existing resources between programs.

   c. List any additional operating funds and capital items needed.

   Operating and capital needs for this effort are included in the attached schedule.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request is for on-going general funds for PC and OE. The CO request is one-time funding.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This request helps Idaho students and Idaho employers by providing training to fill high-wage in-demand jobs.

Description:

In 2014 Agricultural and Natural Resources education programs established an incentive-based program for funding Agriculture and Natural Resources CTE programs. (Idaho Code 33-1629). In 2017 the Idaho Legislature funded an incentive-based for Career Technical Education (CTE) secondary programs in the other five program areas of Business Management and Marketing, Engineering and Technology, Family and Consumer Sciences, Health Professions, and Skilled and Technical Sciences. This request expands the performance-based funding for these five CTE program areas.

In FY 2018, in the first year of implementation, there were 94 applications from secondary programs that totaled $875,000. This amount is expected to increase significantly in FY 2019 as schools become familiar with the program and eligibility requirements.

The legislature codified this program in 2018 (IC 33-1634). The program provides incentive-based funding to both high performing programs and those programs in need of additional support and technical assistance. This performance-based approach clearly demonstrates the return on investment provided by career technical education and holds CTE programs more accountable for producing results.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   In FY 2018 the legislature appropriated $300,000 with an additional $300,000 being appropriated in FY 2019 for a total of $600,000 for this program. This request expands on that appropriation, bringing the total to $1,000,000.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      None

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      None

   c. List any additional operating funds and capital items needed.

      None. All requested funding is for Trustee Benefit payments passed through to Secondary school districts.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   Requested funds are ongoing

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This funding benefits CTE secondary programs who are incentivized for quality programs as well as CTE programs that require assistance to become a successful program.

Description:

In the 2015 legislative session, amendments to Idaho Code 33-2205 (3) and (4) outline the intent that the Division of Career Technical Education will coordinate with the Idaho Digital Learning to provide approved online career technical education courses.

These initiatives were started in Fiscal Year 2015 using Division funds available for this purpose. More than 2,200 students in over 100 school districts have been served by CTE Digital. The continuation of this project into FY 2020 will require one-time funds of $70,000 for CTE Digital to create 4 additional online courses through the Idaho Digital Learning.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The request is for one-time funds of $70,000 for CTE Digital to create 4 online courses through the Idaho Digital Learning.

   The Division turned back $70,000 for FY2018, as the course development was slower than anticipated. While the Division is committed to expanding online offerings statewide, it is equally committed to ensuring any new courses are high quality and appropriate for online delivery. As such, courses initially scheduled for FY2018 will be developed using the FY2019 budget and the Division anticipates initiating another 4 courses in FY 2020.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      None

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      None

   c. List any additional operating funds and capital items needed.

      Operating funding requested is for payments to Idaho Digital Learning, no additional funding is required.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   The entire amount is for one-time funding

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This request allows ICTE to continue efforts to help develop on-line CTE classes. Over 2,200 students in over 100 school districts have been served by CTE Digital. Not funding these efforts will hinder the progress to develop on-line classes.

A: Decision Unit No: **12.11**	Title: **Nuclear Energy and Advanced Reactor Manufacturing**			Priority Ranking 11 of 11	
DESCRIPTION	**General**	**Dedicated**	**Federal**	**Other**	**Total**
FULL TIME POSITIONS (FTP)					
PERSONNEL COSTS: 1. Salaries 2. Benefits 3. Group Position Funding	$91,000				$91,000
TOTAL PERSONNEL COSTS:					
OPERATING EXPENDITURES **by summary object:** 1. Course Development					
TOTAL OPERATING EXPENDITURES:					
CAPITAL OUTLAY **by summary object:** 1. Nuclear simulator Stations and software.	$240,000				$240,000
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$331,000				$331,000

Description:

On June 6, 2018, Executive Order 2018-07 was signed by Governor Otter establishing a policy for nuclear energy production and manufacturing in Idaho. This order tasks the State Board of Education through the Division of Career Technical education to develop programs and training opportunities in nuclear energy and advanced reactor manufacturing.

With a vision for the future, Idaho State University (ISU) College of Technology established the Energy Systems Technology and Education Center (ESTEC) in 2006 on the ISU campus in Pocatello. Over the last ten years, ESTEC has served an average of 108 students per year and has graduated a total of 512 students, approximately 50 graduates per year. ESTEC currently offers degrees in Energy Systems Nuclear

Operations Technology, Energy Systems Electrical Engineering Technology, Energy Systems Instrumentation Engineering Technology, Energy Systems Mechanical Engineering Technology, and Cyber-Physical Security, which directly apply to meeting the demand for a highly skilled workforce in the nuclear energy and advanced reactor manufacturing sector. Graduates are well prepared for employment in industry and are hired by companies such as the Idaho National Laboratory.

In response to the Governor's executive order, we request an additional investment of $240,000 for nuclear simulation hardware and software to enhance skills needed in industry. This nuclear reactor simulator will allow students to pull up control panels for a number of different reactors and give students real-life experiences in a non-threatening environment. A total of four (4) simulator stations will be needed to provide state-of-art training for ESTEC students. ESTEC will also need an investment of $91,000 (including fringe) for a lab instructor to facilitate student learning on the simulator and in the nuclear operations/cyber-physical security labs.

Governor's Executive Order Line Item Request				
Type	Item	Quantity	Cost per Unit	Total
PC	ESTEC Lab Instructor	1	$91,000	$91,000
CO	Nuclear Reactor Simulator Stations	4	$40,000	$160,000
CO	Nuclear Reactor Simulations Software	1	$80,000	$80,000
Grand Total				$331,000

Questions:

- What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Personnel costs and capital outlay necessary to expand the ESTEC nuclear energy programs are requested.

- What resources are necessary to implement this request?
  - List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

    One full-time, benefits eligible lab instructor

  - Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

    There are personnel already associated with this program. This would allow ISU to expand the program to meet growth in the nuclear energy industry.

- List any additional operating funds and capital items needed.

    As identified above

- Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

    Personnel funds requested are ongoing. Capital Outlay funding is one-time.

- Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

    This line item is in response to the Governor's executive order meeting the growing demand for a highly skilled workforce for the nuclear energy sector.

FULL TIME POSITIONS (FTP)	0.00				0.0
PERSONNEL COSTS:					
1. Salaries					
2. Benefits	$129,900				$129,900
3. Group Position Funding					
TOTAL PERSONNEL COSTS:	$129,900				$129,900
OPERATING EXPENDITURES **by summary object:**					
1.					
TOTAL OPERATING EXPENDITURES:					
CAPITAL OUTLAY **by summary object:**					
1. Laboratory Equipment					
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$129,900				$129,900

Description:

The College of Eastern Idaho's first legislative appropriation based upon personnel and benefit costs was in FY 19. FY 19 health insurance charges through the Office of Group Insurance were reduced to $11,650 which was a significant decrease from FY 18.

The current projection for health insurance for FY 20 is $13,890 which is an increase of $2,240. By FY 20, CEI expects to have approximately 116 employees in the General Fund. This will equate to a cost increase of $259,840 of which we estimate that the State General Fund MCO appropriation will pick up approximately 50% or $129,900.

While every college and university faces this issue, they have more credits to spread tuition increases over to cover the costs. In the case of community colleges, the other three Idaho community colleges have both more property taxes and more credits.

With an anticipated 28,500 – 40,000 of academic and CTE credits (not dual credits) to spread the increases over, the per credit increase will range from nearly $4.64 per credit to $3.25 per credit just for health insurance alone.

CEI understands its responsibility to fund health insurance but had the FY 19 premiums been higher and included in our initial year funding, the increases would not have been so high and possibly could have been addressed with increases in tuition and property tax revenue increases.

Questions:

1 What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is to add $129,900 to base to cover health insurance increase for approximately 116 benefited staff funded by the General Fund.

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

This is an ongoing request for an addition to base for health insurance increases.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Existing human resources will not be impacted by this request.

c. List any additional operating funds and capital items needed.

There are no additional operating funds or capital items associated with this request.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request for the addition to ongoing base is requested based upon the significant negative impact of the increase in health insurance on a startup community college without large numbers of credits to spread tuition increases over to raise funds to cover these costs.

4 Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The students of CEI will be the primary beneficiaries through the maintenance of reasonable increases in tuition. The current tuition of $93.41 per credit can only be raised $4.67 as per the 10% per annum limit in Idaho Code. This is within 3 cents of the anticipated cost of health insurance increases based upon 28,000 credits. If this request is not funded, the full amount of tuition increases will go towards health insurance with no funds remaining for inflation, equipment replacement, preventative maintenance, expansion or CEC raises.

Description:

Approximately four years ago, the College of Southern Idaho (CSI) was provided with two faculty FTE's for providing community college academic courses in the Idaho Falls area. These positions and the efforts of CSI helped to demonstrate the need for a community college in Idaho Falls.

As of May 15, 2018, credits offered by the College of Eastern Idaho (CEI) for FY 19 are on track to double the credits offered by CEI in FY 18. While the budget model developed for FY 19 appears to be holding, the addition of two faculty would allow us to offer more dual credit classes on campus and offer classes at non-traditional times that may not meet our 15-student minimum. It would also expand the pool of full time faculty available for both teaching additional courses and advising.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   CEI requests that two faculty positions originally allocated to the CSI for the Idaho Falls region be reallocated to CEI. CSI worked to establish a student base consisting of approximately 500 enrollments that they have turned over to CEI. These positions will assist CEI in serving that base.

   Adjunct faculty are being added as enrollment grows but a base of full time faculty is needed. These two positions will be in addition to the 32 full time faculty positions provided in the FY 19 appropriation.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      The positions requested are for two full time, benefited faculty positions that will be hired July 1, 2020 on 9-month teaching contracts.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      These two positions will be added to the existing faculty and will provide the capacity to serve more students in general education instruction.

   c. List any additional operating funds and capital items needed.

      There are no operating funds or capital items associated with this request.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request is for ongoing funds originally designated for instruction in the Idaho Falls region. Revenue assumptions involve utilizing these funds to offset the overall shortfall of tuition to cover the full cost of instruction in the CEI Instructional department.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The students and community of Idaho Falls are being served by this request. Funding this request now will provide immediate support for the anticipated demand for educational services in a vibrant and growing region that is underserved in higher education.

LUMP SUM:					
GRAND TOTAL	$55,000				$55,000

Description:

Senate Bill 1429 of the 2016 legislative session provided community college start up funds of $5,000,000 for a new community college in Idaho. These funds remained in trust with the state from July 1, 2016 through June 30, 2017. In May of 2017, Bonneville County voted to establish a new community college and the $5,000,000 was distributed in July of 2017 to the College of Eastern Idaho.

During the period the $5,000,000 of community college support funds were held in trust by the State, approximately $51,000 of interest was earned. Another $4,000 is estimated to accrue through June 2019. This request is to distribute those one-time interest earnings to the College of Eastern Idaho.

The funds will be used to purchase hospital beds for our health science program and physics, chemistry, and biology laboratory equipment. Expansion of these areas is critical as CEI expands offerings in these areas as a community college.

Questions:

1 What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The $55,000 is being requested as part of the start up funding for a community college. These funds will be spent in accordance with the legislative intent of the original $5,000,000.

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   The one-time funds will be spent for educational equipment.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   Existing human resources will not be impacted by this request.

c. List any additional operating funds and capital items needed.

   There are no additional operating funds or capital items associated with this request.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request is based upon the expansion of health science and physical science lab and equipment needs as offerings in these areas are expanded as community college offerings.

4 Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Students taking courses requiring lab work will be impacted along with the faculty that teach these courses. Additional equipment is required to meet the anticipated need in these areas.

GRAND TOTAL	$720,500				$720,500

Description:

College of Southern Idaho (CSI) faces substantial challenges with finding, accessing, and acting on data insights that are necessary to make informed decisions. For example, these challenges hinder CSI's ability to identify and help at-risk students early enough, ensure scarce resources are focused on what matters most, and decision-owners have adequate visibility into their operations to proactively make improvements. There are also significant capability deficiencies that negatively affect CSI’s core operations due to non-existent or inadequate software tools, antiquated infrastructure, and obsolete systems that require excessive maintenance and manual intervention.

To tackle these challenges, CSI aims to build a foundation to design efficient processes and workflows, connect students and employees to the right data quickly and securely, and achieve greater stability with its infrastructure. In this way, CSI will strengthen its position to fulfill its missional goals for community success, student success, and institutional stability.

CSI is seeking financial support for ongoing software costs related to the solutions necessary to overcome the challenge areas. CSI also seeks additional funding to increase staffing resources by five (5) full-time employees to fill the roles of Cybersecurity Analyst, Project Manager, Business Analyst, Application Support Specialist, and Data Architect to help overcome these challenges.

1. Research demonstrates that student engagement is one of the keys to student retention and success. It is critical to place students on pathways that lead them to their educational goals as efficiently as possible. Engagement outside of the classroom is equally important when it comes to retaining students. If funded, CSI would deliver enterprise analytic capabilities and services to better-assess student behaviors to develop deeper understandings of the student educational experience while guiding students' pathways to success. Additionally, the new capabilities would provide the opportunity to track and document student co-curricular experiences. CSI would use this information to increase both retention and graduation rates by strengthening student engagement.
2. CSI's current payment processing capabilities are outdated and archaic, resulting in unnecessary delays with payment activities. CSI would deliver PCI-compliant capabilities allowing flexible payment plans, multiple payment options, and easy access to account balances. The capabilities would be delivered through a solution design that integrates seamlessly with CSI's primary business software systems, enable eCommerce and mobile payment options, receipting, and billing.
3. Many students are unable to access the free tutoring services offered on campus, but who also cannot afford to pay for fee-based online tutoring services offered by CSI. There are also challenges with CSI's training system to help educate students on avoiding risky behaviors that may negatively impact their health, safety, and college experience. Additionally, CSI struggles with inadequate tools to help ensure employees are compliant with required or regulated training for federal, state, and institutional mandates and cybersecurity training. If funded, CSI would expand and enhance its digital training capabilities for both students and employees, improve compliance tracking and reporting, and offer online tutoring services free of charge, 24x7, to all students (including dual credit).
4. Recruiting, onboarding, retaining, evaluating, and offboarding employees requires a comprehensive system that is integrated with core business services, communications, and leverages highly-automated workflows. CSI lacks the necessary software tools to provide an effective solution to support its human resource operations. If funded, CSI would be able to implement an end-to-end common software system and associated processes designed to support all institutional workforce scenarios (full-time, part-time, temporary, contract, student Work-Study, internships, and volunteer).
5. CSI seeks to improve the stability of its production environment for physical and digital infrastructure, business software systems, and facility operations. During fiscal year 2017-18, CSI experienced approximately 180 hours of unplanned downtime with its production environment affecting campus-wide IT service availability. An estimated

35% of the number of unplanned outages were due to delayed notifications to support teams not knowing an incident had occurred. If funded, CSI would pursue modern capabilities for monitoring and notification services leveraging Artificial Intelligence, Internet-of-Things (IoT) devices, and real-time error reporting with the aim of responding faster to major incidents and improving recovery times to minimize disruption to academic and business services across the institution.

6. Surveillance is considered a critical component of CSI's enterprise security strategy, but its current environment is constrained by antiquated equipment that is prone to instability. CSI seeks to improve the reliability of its security surveillance with upgrades to camera equipment, network infrastructure, and support of modern video codecs. If funded, CSI will be able to provide greater assurance of safety for employees, students, and community members. CSI will also be able to provide better assistance to law enforcement when responding to incidents or criminal activities on campus.

This request entails investments in hardware, software, business processes, and highly-skilled personnel. The combination of these resources will help fill critical capability gaps at the College of Southern Idaho. With complete and successful deployment of the requested resources, Idaho will see long-term value on this investment.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   CSI is seeking funding to add five additional staff to design and develop the systems and services necessary for improving student engagement, student success, streamlining financial processes, and increasing academic support across the institution. The full deployment of these capabilities will result in an enhanced understanding of the CSI student experience leading to an increase in both retention and graduation rates. The proposed capabilities, personnel, and enabling technologies will positively impact the engagement of students and therefore contribute to the State Board of Education 60% goal and Complete College Idaho initiatives.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Five (5) IT Staff, Full Time, Full Benefits, Hire Date of July 1, 2019, 12-month contract.

      1. **Cybersecurity Specialist:** $65,000
      Summary: Protects systems by defining access privileges, controlling structures, identifying abnormalities, reporting violations and implementing security improvements. In order to comply with Executive Order No. 2017-02 CSI would need to add a security specialist to its IT team.

2. **Project Manager:** $57,000
Summary: Oversees and orchestrates the execution of business initiatives with defined start and end dates. Requests resources, manages task assignments, oversees project budgets, manages project contracts, accountable for final delivery of all business requirements according to measurable outcomes.

3. **Data Architect:** $79,000
Summary: Designs, creates, deploys, and manages the technology systems that serve an organization's digital information ecosystem (a.k.a., data architecture). Defines how/where data is stored, consumed, integrated, and managed by business systems that process data.

4. **Business Analyst:** $51,000
Summary: Analyzes, documents, and designs business systems and processes. Standardizes workflows and defines system policies. Performs needs analysis and interprets business rules and/or requirements that help identify technical systems and solutions to drive operational maturity.

5. **Application Support Analyst**: $45,000
Summary: Responsible for installing, upgrading, and maintaining enterprise business software systems. Works with application databases and data sets, with general knowledge of operating systems and client-server networks and domains.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

While existing IT will be involved with some aspects of these new initiatives, the five positions outlined in the request will be the primary drivers of the initiatives. New IT staff will report to the appropriate leadership members within the Office of Information Technology on the main CSI campus in Twin Falls.

c. List any additional operating funds and capital items needed.

The software platforms would require both implementation funding and ongoing annual fees, as follows:

- Data Analytics: $50,000 annually
- Payment Processing: $50,000 annually
- Compliance & Training: $75,000 annually
- Onboarding/Offboarding: $40,000 annually
- Infrastructure Monitoring: $25,000 annually
- Digital Security Maintenance: $50,000 annually

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request involves ongoing annual subscription and maintenance for software platforms. CSI plans to cover the cost for the one-time implementation of these software platforms. There is also an ongoing request for salary and benefits.

Parallel external funding request opportunities are being pursued, but such external grants (if awarded) would not contribute to ongoing requirements over the long term. Rather, they would offset the implementation costs to be absorbed by the College, should they be available.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All students taking classes at CSI would benefit from the systems and services developed from this request. High-risk students would benefit from advanced metrics used to put them in contact with appropriate support systems. All students, employees, and community members would benefit from flexibility in payment options and see a decrease in current payment processing times. Students would benefit from prevention education along with increased access to online tutoring. The institution would also see a decrease in risk due to more thorough employee education and compliance with college policy, legislative requirements, and safe computing. The College would benefit from improved business processes, access to data insights, and integrated services for workforce resource management. All stakeholders would benefit from more reliable infrastructure services and security improvements with campus safety enhancements.

Without funding, CSI will continue to struggle with data-informed decision-making. Efforts to find, collect, and present strategic data insights will remain unnecessarily burdensome, requiring extensive manual labor, and raising questions about data integrity and accuracy. Online tutoring services will be less accessible to students who cannot afford to pay the additional fees. CSI will also be hindered in its ability to meet regulatory requirements for compliance training, risk management programs, and services that are necessary to provide a safe learning environment for students and employees. CSI’s workforce management services will also be dependent upon manual and disjointed processes making it difficult to support human resource activities across the institution. Also, the inability to proactively monitor core infrastructure systems will constrain CSI’s response times to downtime situations and extend the duration of unplanned outages. CSI employees, students, and community members will also be subject to heightened safety risk due to limited secure coverage areas and antiquated surveillance infrastructure.

Description:

The College of Southern Idaho (CSI) is well-positioned to apply for and receive the U.S. Department of Education's (USDE) Hispanic Serving Institution (HSI) designation in the near future. This designation will allow CSI to participate in the federal program designed to assist colleges and universities which focus on assisting and retaining students successfully in higher education. CSI would become the first higher education institution in the State of Idaho to achieve the HSI designation. To be designated as an HSI, CSI needs to have enrollment of undergraduate full time equivalent (FTE) students that is at least 25 percent Hispanic students, at the end of the award year for two consecutive academic years, immediately preceding the date of application. Of the 25 percent, at least 50 percent of the degree seeking students enrolled must be receiving need-based assistance as defined by the USDE. At the end of Fiscal Year 2018, CSI's FTE figure with respect to Hispanic student enrollment was 22.87% [to be updated with annual census July 2018].

The Hispanic/Latino college student profile influences—and is directly impacted by—the ever-changing higher education world. As such, understanding what works for Hispanic students to improve access, retention, and completion is critical to our Magic Valley community service area and the State of Idaho. Just as important, the CSI Hispanic FTE figure illustrates the need for the institution to become even more proactive, engaging, and innovative alongside the Hispanic student growth.

The request not only provides the College strategic vision and planning to obtain the designation, but to also expand and sustain services and programming critical to our high impact, high touch expectations with Hispanic residents. This emerging Hispanic initiative request aims to provide services primarily to our high-density Hispanic populations in our service area, institutionalizing our Multicultural Student Affairs Coordinator from Title III grant funding into a permanent position, and developing the Career and Technical Education (CTE) Bilingual Healthcare CNA program.

For the Hispanic initiative request to operate effectively, this request seeks ongoing funds for two (2) full-time staff professionals, (1) full-time faculty position, and operating funds to support duties/task line of work.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

CSI requests three (3) FTEs for a) Bilingual (Spanish and English language) Jerome and Gooding Outreach Centers Student Advocate Coordinator, b) Multicultural Student Affairs Coordinator, and c) Bilingual (English and Spanish language) Healthcare CNA instructor,

Total Personnel Costs: $185,200

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Two (2) professional staff and one (1) instructor position, Full Time, Full Benefits, Hire Date of July 1, 2019. Two professional staff would be on 12-month contracts, two instructor positions would be on 9-month contracts.

      1. Bilingual (Spanish and English language) Jerome and Gooding Student Services Coordinator: Salary: $35,000 + benefits
         Summary: Employee serves the North Side Centers—Jerome and Gooding Outreach Center service areas to effectively recruit, advise, serve as a completion coach, and provide a wide range of office coverage and services at both respective campuses. Additionally, works collaboratively with community-based organizations and systems which support student success initiatives.

2. Multicultural Student Affairs Coordinator: $40,000 + benefits
   Summary: Applies, designs, executes, manages various Hispanic-focused programming and supportive services in the areas of a Parent College Academy, General Education 101-Latino/Hispanic diversity course instruction, College Assistance Migrant Program (CAMP) program application, Idaho Hispanic Chamber of Commerce official designee, development of a campus-wide bilingual/bicultural responsiveness training program for all CSI employees, and summer program academy implementation for incoming Hispanic students.

3. Bilingual Healthcare CNA Instructor: $42,250 + benefits
   Summary: Instructor provides CNA instruction, in both English and Spanish, designed to facilitate a viable career entry pathway in the health profession for local Hispanic residents whose primary language is not English. The instructor collects, reports, and presents outcomes data to internal and external constituents.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   - Bilingual Student Advocate will be housed in the Jerome and Gooding off-campus centers. This position will report to the North Side Centers Director.
   - Multicultural Student Affairs Coordinator will be housed in the Office of Student Affairs. This position will report to the Dean of Students.
   - Bilingual healthcare instructor will be trained and supported through the College's instructional designer and College & Career Readiness English Acquisition Division. This position will report to the Health Sciences & Human Services Department Chair.

c. List any additional operating funds and capital items needed.

   Operating Supplies: $32,000

   - Office Supplies: marketing, promotion, and general supplies: $15,000 (on-going)
   - Instructional Supplies: $15,000 (on-going)
   - Software: $2,000 (on-going)

   Professional Development: $10,000

   - Staff and faculty professional development: $10,000 (on-going)

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

- CSI requests on-going funds to support full-time staff and instructor personnel (salary and benefits) and operational expenditures (operating supplies and professional development).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The emerging Hispanic Serving initiative will serve a central piece in our attempt towards a more holistic student understanding and expanding institutional practices which will accelerate Hispanic student achievement across all student services and instructional platforms. The request will also continue to move the needle in a positive direction when it comes to the “next level” of relationship building and strategic plan alignment with state agencies such as the Idaho Commission on Hispanic Affairs, Community Council of Idaho, and Idaho Hispanic Chamber of Commerce. Last, but certainly not least, our Hispanic instruction initiatives will fill in the workforce need gaps of our local health care providers and cultivate go-on strategies with our four-year school partners as we attempt to support our students through the associate-to-bachelor’s degree and career diversity pipeline. If this request is not funded, we face a real dilemma of severely underserving our student diversity interests and employer workforce needs. Equally important, we potentially can undermine cultural responsiveness training and professional development for employees to meet the needs of our Hispanic population.

GRAND TOTAL	$183,700				$183,700

Description:

The College of Southern Idaho (CSI) Weekend College is an innovative and engaging program designed to provide access for students who typically can't attend college during the day. The primary focus of the program is to enable non-traditional students, particularly Hispanics, to complete a transfer degree or certificate within two years. A secondary focus is to enable students to complete pre-program requirements for Health Sciences and Human Services (HSHS) programs or to enable students to complete the General Education Certificate. To accommodate the unique needs of adult learners, courses are offered in a pre-formatted block schedule on Friday evenings, Saturdays, and online. Students attend courses as a cohort and benefit from learning communities in which they develop social and professional relationships with fellow students and faculty. Students receive personalized advising through credential completion and assistance with transition to an HSHS program, a university bachelor program, or employment. Weekend College incorporates mechanisms to support retention and completion through student success strategies and learning assistance services.

This request allows CSI to develop a Weekend College program for working adults and high school students who typically cannot attend a traditional academic model. The program enables students to complete a transfer degree or certificate within two-years of enrollment. For those who seek a bachelor's degree, this program allows students to transfer seamlessly to a university program (BSU, ISU, or UI) on the CSI campus.

For the program to operate effectively, this request seeks on-going funds for two (2) full-time professionals, tutors to provide academic support, and operating funds to support extended weekend hours.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   CSI requests two (2) FTEs for a) coordination of the Weekend College program, b) tutors to support instruction, and c) part-time office specialist, information technology support technician, and building and maintenance personnel to support infrastructure. **Total Personnel Costs: $159,700**

   a) In order to support and effectively operate the Weekend College program, CSI requests one (1) program coordinator to manage the program and one (1) bi-lingual academic coach to advise students through credential completion and to assist students with transfer to a HSHS program, university program, or employment. **Salaries and Benefits for 2 FTE: $114,200**

   b) In order to maintain ongoing excellence in teaching protocol and support services, CSI requests funding to hire qualified tutors ($10,000). **Group Funding: $10,000**

   c) In order to provide services during extended weekend hours, CSI requests funding for a part-time office specialist ($15,000), a part-time Information Technology Service Technician ($10,500), and part-time maintenance personnel ($10,000). **Group Funding: $35,500**

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Two (2) Weekend College Staff, Full Time, Full Benefits, Hire Date of July 1, 2019, 12-month contract.

      1. Program Coordinator: $37,000
         Summary: Designs, creates, deploys, and manages all operations and personnel for the Weekend College program. Works with internal and external organizations to develop articulation agreements and transfer processes. Collects, reports, and presents outcomes data to internal and external constituents.

      2. Bi-lingual Completion Coach: $34,000
         Summary: Advises students through credential completion and assists students with transition/transfer to a HSHS program, university program, or

employment. Works with at-risk students to develop effective learning strategies and activities that foster retention. Works collaboratively with campus- and community-based programs and organizations regarding services available to students. Assists in the maintenance of program projects and outcomes assessment.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

- Weekend College staff will be housed in the Student Success Center on the main campus and will report to the Dean of Student Success (in place).

- Weekend College Learning Assistance personnel (tutors) will report to the Learning Assistance Coordinator (in place) on the main campus.

- Weekend part-time Information Technology Service Technician will report to the IT Department (in place).

- Weekend part-time Office Specialist will report to the Dean of Student Success (in place).

- Weekend Maintenance Personnel will report to the Maintenance Supervisor (in place).

c. List any additional operating funds and capital items needed.

Operating Supplies: $19,000

- Office Supplies: marketing, promotion, and general supplies: $10,000 (on-going)
- Instructional Supplies: $8,000 (on-going)
- Software: $1,000 (on-going)

Professional Development: $5,000

- Staff and faculty professional development: $5,000 (on-going)

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

- CSI requests on-going funds to support full-time personnel (salary and benefits), group position funding (part-time personnel and tutors), and operational expenditures (operating supplies and professional development).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The College of Southern Idaho Weekend College program is aimed at improving student access and completion. The program enables students, particularly working Hispanic adults, to complete an associate degree in General Business, Teacher Education, or Agriculture Science or a certificate program in Career and Technical Education within two years through classes taken exclusively on Friday evenings, Saturday, and online. Moreover, the program enables students to complete pre-program course requirements for programs in Health Sciences and Human Services (HSHS) or to complete the General Education Certificate. And, the program offers another option for high school students to take college courses on the CSI campus without interrupting their high school schedule.

We expect to see an increase in enrollment, non-traditional Hispanic enrollment, student retention, degree/certificate completion, and graduation. Moreover, we expect to see an increase in the number of students transferring to university programs in General Business, Teacher Education, and Agriculture Science. These programs are offered by Boise State University, Idaho State University, and University of Idaho, respectively, on the CSI main campus. We expect to see an increase in the number of students prepared for high-need jobs in Career and Technical Education fields.

If this request is not funded, we will continue to run pilot programs, serving small groups of students. This will refine the development of programs and course offerings, but it will not have the desired major impact on increasing student enrollment, retention, and completion rates for students who are unable to attend a traditional college schedule.

TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$2,675,700			$0	$2,675,700

This request is for $2,675,700 from the General Fund to ensure average weighted credit equity with College of Southern Idaho (CSI) and North Idaho College (NIC). Of this request, $2,521,700 is for personnel costs and $154,000 is for operating expenditures. CWI reports that the average credit hour value of $47.02 is $33.46 lower than the average credit hour value at CSI and NIC. As a result, CWI reports that it is underfunded by $ $6.6 million compared to these other institutions, and requests this appropriation to help offset this amount.

Before the establishment of CWI through the voter referendum in May 2007, there was concern that because of the larger population base of a community college in Canyon and Ada Counties, that there was risk in causing unintended consequences when comparing CWI to CSI and NIC. All discussions around establishing a new community college always included the intent of everyone involved ensuring that the two established Idaho community colleges would not see a reduction in state funding.

In the beginning, there was not a clear avenue to request equitable funding through the EWA process. With the help of OSBE, we initially calculated the funding shortage using a headcount process. For this request we calculated CWI Balance Funding need using data from each institution's PSR-1 Annual Credit Hour Report. This request is based on 3-year Weighted Credit Hours and the Credit Hour Value for each college. Average Credit Hour Value for CSI and NIC is $80.49 per Credit. CWI's Average Credit Hour Value is $47.02 which is $33.46 per Credit Hour below the other two Community Colleges. The CWI Balance Funding Need is calculated as follows:

CWI 3 Year Average Weighted Credits 198,608 X $33.46 – EWA 67% (9,339,100) = $6,646,400.

This calculation process shows that CWI is underfunded approximately $6.6 million compared to CSI and NIC.

CWI has determined to request $2,675,700 for fiscal year 2020. In FY19, CWI requested $2 million and received $1.2 million, with the ultimate intent of requesting the unfunded amount within the next two years. In FY18 CWI requested $2.9 million and received $350,000.

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This is CWI's fourth request for Balance Funding. Although we have received some funding to assist with this issue in the last two years, a funding gap still exists.

FY17 Requested	$1,800,000	Received	$ 400,000
FY18 Requested	$2,931,800	Received	$ 350,000
FY19 Requested	$2,000,000	Received	$1,200,000

   FY 20 request of $2.6 million will be on-going funding with an ultimate goal of receiving a cumulative total of $6 million. CWI is requesting this funding as identified in the above description.

   A portion of this request will be used to bring CWI's FTE and position funding in alignment with CSI and NIC. The ongoing personnel cost will be $2,421,500.

   An additional portion of the request will be used to cover the unfunded ongoing anticipated 1% CEC and variable fringe increases. The ongoing personnel cost is estimated to be $82,400 for CEC and $17,800 for variable benefit increases.

   The remaining balance of this funding will be used to cover annual increases in Building Lease Costs $154,000.

2. What resources are necessary to implement this request?
    a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
    b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
    c. List any additional operating funds and capital items needed.

    The funds from this request would be used for Personnel Costs and Operating Expenses at the college, primarily equity personnel funding with CSO and NIC, unfunded CEC and Benefit Changes, and increased Lease Costs.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

    All funds requested are ongoing. Comparative to the other community colleges, CWI has come to rely more on student tuition and fees for support of operations. This situation is not conducive to CWI's mission of being:

    > "…a public, open-access, and comprehensive community college committed to providing *affordable* access to quality teaching and learning opportunities to the residents of its service area…"

    The approval of these funds will bring more balance to our revenue stream and assist CWI in continuing to meet our mission. No changes will be made to fee structure; no grant awards are currently being sought for this initiative.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

    Existing and new students will be served with this request. If the college does not receive this funding it could impact the following:

    - The ability to respond to the growth needs of business, industry and the population in Ada and Canyon counties.
    - The ability to keep tuition and fees at an affordable rate.
    - The ability to keep a solid foundation of permanent experienced faculty and staff.
    - The ability to anchor full time faculty in all programs offered by the College.

See attached worksheet for calculation of $6.6m underfunding.

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request is for five (5) full time positions to assist CWI in moving toward the Idaho State Board of Education's goal that 60% of Idahoans ages 25-34 will have a degree or certificate by 2020. The positions will also help CWI comply with accreditation standards and provide students with high impact opportunities that have been shown to improve completion rates.

a. One (1) Research Analyst to help support on-going accreditation, planning and assessment initiatives and activities. To assist the College's Institutional Effectiveness in managing the integrity of the official longitudinal data and reporting.

b. One (1) Financial Aid Officer to support increased and continually increasing student traffic. To provide ongoing student service support and to meet Cohort Default Rate needs.

c. One (1) Assessment Coordinator to provide leadership and direction in the prioritization, design, and implementation of instructional evaluation and assessment initiatives.

d. One (1) Curriculum Coordinator to administer production and revisions of college curriculum. The Coordinator consults, trains, and serves as a resource to faculty, staff, and representatives from other educational institutions, business, industry, and community agencies.

e. One (1) Experiential Learning Coordinator to provide leadership in the development and implementation of experiential learning programs at the college. This person will serves as a point of contact for business and community members looking for opportunities to engage with students and the college as well as managing processes and providing resources for faculty and staff at CWI.

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Positions are in priority order.

1.0 FTE, Research Analyst: $50,500; FT; Benefits $24,900; July 1, 2020; 12 month permanent position. Total $75,400. To support this position, we are requesting on-going Operating Expense Funding of $600 and one-time Capital Outlay of $2,000 for computer equipment.

1.0 FTE, Financial Aid Officer: $38,800; FT; Benefits $22,400; July 1, 2020; 12 month permanent position. Total $61,200. To support this position, we are requesting on-going Operating Expense Funding of $1,150 and one-time Capital Outlay of $2,000 for computer equipment.

1.0 FTE, Assessment Coordinator: $56,300; FT; Benefits $26,200; July 1, 2020; 12 month permanent position. Total $82,500. To support this position, we are requesting on-going Operating Expense Funding of $500 and one-time Capital Outlay of $2,000 for computer equipment.

1.0 FTE, Curriculum Coordinator: $56,300; FT; Benefits $26,200; July 1, 2020; 12 month permanent position. Total $82,500. To support this position, we are requesting on-going Operating Expense Funding of $500 and one-time Capital Outlay of $2,000 for computer equipment.

1.0 FTE, Experiential Learning Coordinator: $56,300; FT; Benefits $26,200; July 1, 2020; 12 month permanent position. Total $82,500. To support this position, we are requesting on-going Operating Expense Funding of $500 and one-time Capital Outlay of $2,000 for computer equipment.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Research Analyst: Institutional Effectiveness is experiencing increasing demand due to continuing growth, a need for data and analytics and centralization of reporting duties for both internal and external parties. There is a greater need to provide information to meet the needs of the College and its constituents. No resources will be redirected.

Financial Aid Officer: Financial Aid continues to experience increasing student traffic, requiring ever increasing level of support. Meeting this demand and providing student support will assist in meeting Cohort Default Rate needs. No resources will be redirected.

Assessment Coordinator: Assessment of instructional programming is currently administered at the department level. This position will provide needed consistency for implementation and reporting of assessment practices across departments. No resources will be redirected.

Curriculum Coordinator: Curriculum development currently occurs within the department level. This person will create systematic and centralized process for maintaining documentation of curriculum as well as maintaining articulation and transfer agreements between the college and other educational institutions. No resources will be redirected.

Experiential Learning Coordinator: The College currently does not have any staff dedicated directly to providing internship and experiential learning opportunities for the college. No resources will be redirected.

c. List any additional operating funds and capital items needed.

For the one (1) research analyst position, we are requesting $650 for professional development costs and $2,000 in computer costs for a total of $2,650.

For the one (1) financial aid officer position, we are requesting $1,150 in professional development costs and $2,000 in computer costs for a total of $3,150.

For the three (3) coordinator positions, we are requesting $500 for professional development costs and $2,000 in computer costs for a total of $7,500.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request reflects the college's efforts related to improving retention and completion rates, which will have a positive impact on revenue.

All positions in this request, including operating expenses, are ongoing. No changes will be made to fee structure; no grant awards are currently being sought for these positions.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All of these positions are designed to provide process improvement, support, and consistency for essential institutional and instructional functions at the institution. CWI has grown very quickly, and at this stage of our development we see the need for more consistency and support between departments and divisions in key areas such as institutional effectiveness, financial aid/student services, curriculum, assessment, and experiential learning.

Research Analyst: This position will provide an increasing utility for our staff and faculty by providing analysis to fulfill continuous improvement plans and data analytic needs. This position also addresses the need to fulfill the institutional internal and external reporting requirements. This position will benefit students and the community by providing a means to gather and evaluate data so that the College can determine where resources are best expended to meet the needs of all stakeholders.

Financial Aid Officer: This position will meet the immediate and growing need to provide students with higher levels of customer service, which in turn will assist in managing Cohort Default Rates. This will help students in reaching degree or certificate completion for gainful employment and/or to transfer to a four-year institution.

Assessment Coordinator: This position addresses accreditation recommendation and provides faculty and staff with resources necessary to fulfill continuous improvement plans. This position also addresses the need to fulfill the institutional internal and external reporting obligations. Ultimately this position benefits students and the community by providing a system of evaluation and continuous improvement.

Curriculum Coordinator: This position also addresses accreditation recommendations to provide a more system-wide method of curricular development. This person works closely with faculty, curriculum designers, and the community to provide processes for curricular changes that respond to the needs of our students and community.

Experiential Learning Coordinator: This position addresses the need to provide students opportunities for internships, service learning, and other community partnerships. Internships and Service Learning are two high-impact practices shown to improve student engagement and completion rates, especially among underrepresented populations. This person would work collaboratively with faculty, staff, and community partners to increase experiential learning opportunities and to provide consistent processes and support for experiential learning programs.

Description:

North Idaho College (NIC) is building on their strong foundation of support for small business development and entrepreneurship to position the college as an innovative regional leader and connector in the burgeoning entrepreneurial ecosystem in North Idaho. The college has hired a Director of Regional Entrepreneurship Strategy and converted the Hedlund Technical Education Building into a Center focused on Entrepreneurship, Collaboration, innovation and Small Business Development. The center includes a makerspace and prototyping lab for students and the larger community to connect, create, and move ideas from concept to actionable business ventures.

This request will expand NIC's focus on entrepreneurship education and outreach to a broader audience, increase capacity and create a regional resource for economic development in North Idaho. This initiative provides relevant education and hands-on learning opportunities that connect seamlessly with existing credit and workforce training program offerings. The Coeur d'Alene Economic Development Corporation recently recognized the effort by NIC for filling an important gap and supporting entrepreneurship, growing businesses and being a regional economic driver.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request is for four FTEs to expand the impact and educational offerings related to entrepreneurship, prototyping and business development. The request will cover personnel and operating expenses for a director, two lab instructors and administrative support. This is requested as ongoing general fund (base) support.

2. What resources are necessary to implement this request?

   a. Director of Regional Entrepreneurship Strategy Full-Time Benefited
      Lab Instructors (2) Full-Time Benefited
      Program Support Admin Full-Time Benefited

   b. Currently the Director of Regional Entrepreneurship Strategy is being funded with grant funding through FY19. The support of this line item will enable the college to sustain the development and enhancement of the program for the North Idaho region.

   c. Capital requests include initial IT needs. Operating expenses of $35,000 will support travel, training, outreach and operating needs.

3. This request is for on-going funding for four positions and associated operating expenses. One-time capital expenses are for initial IT needs.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This request will provide a community resource and supplement educational programs across the college, including workforce development, CTE and transfer offerings.

Description:

North Idaho College (NIC) has been engaged in developing Guided Pathways for over two-years, working across the college to develop curricular maps and group courses of study into six distinct focus fields: STEM; Manufacturing and Trades; Arts, Communication & Humanities; Healthcare; Social and Human Services; and Business Administration & Management. Building upon the work of Bailey, Jaggars and Jenkins and their research on *Redesigning America's Community Colleges*, NIC is implementing a model to support students at each aspect of the student experience, encourage completion and decrease cost and time to degree.

Complementing and expanding upon the work funded by the legislature to support college and career counseling within the high schools, the Pathways Program is developed around best practices to increase Go On rates, decrease summer melt, and provide enhanced college and career services to underserved and underrepresented populations from the rural counties of Region 1. By providing the personnel and resources to deliver traditional college onboarding services to students at their high schools and in their communities, the Pathways program engages students in early exploration of career choices, college programs and classes through advanced opportunities, financial assistance applications, learning assessment, and registration at their high schools. Pathfinders will be located within high schools in the five counties of the NIC Region 1 service area, work in partnership with school counselors and serve as educational guides for students to determine and follow their guided pathway to college, through the completion of a degree or certificate and on to a transfer institution or a career.

In addition to the three Pathfinders, a Guided Pathways Coordinator will oversee the implementation of the pathfinder program, facilitate dialogue and integration with regional high schools, and support alignment of curricular offerings through the Guided Pathways model to enhance college access, completion, and transfer. The addition of these resources and the integration of the services along the educational path will reduce the overall cost of degree completion, time to degree completion and reduce opportunity costs for students pursuing higher education.

Key outcomes for this program will be increased go-on rates from students in Region 1 through early identification of student strengths, appropriate career choices and integrated support of the processes that lead to college matriculation. As the student chooses an appropriate pathway and benefits from the intentional programming and supports that are part of the Guided Pathways model, higher rates of certificate and degree attainment are anticipated with corresponding increases in rates of successful transfer and career placement.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request is for three FTEs to serve as Pathfinders in Region 1 and one FTE for a Guided Pathway Coordinator. Working closely with students in the high schools, the Pathfinders would promote dual credit offerings as well as help students see how what they are doing in the high school connects to their future goals for college and career. This is requested as general fund (base) support.

2. What resources are necessary to implement this request?

   a. Guided Pathways Coordinator Full-Time Benefited July 1, 2019 Hire Date
      Pathfinders (3) Full-Time Benefited July 1, 2019 Hire Date

   b. There will be no existing human resources that will be redirected to this new effort.

   c. Capital requests include initial IT needs. Operating expenses of $65,000.

3. This request is for ongoing funding of the four positions and associated operating expenses along with a one-time capital expenses are for initial IT needs.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This request would initially serve 10th through 12th grade students in Benewah, Bonner, Boundary, Kootenai, and Shoshone Counties. The long-term return on this funding will be greater access to higher education and improved enrollment, completion, and transfer rates.

Description:

This proposal enables University of Idaho Extension to build on its successes in other educational areas and expand participation by students and 4-H leaders across Idaho in quality STEM programs within 4-H programming. The requested positions would engage more youth from Idaho rural and urban communities, train more leaders to be effective STEM educators, and expand networks integrating local and state efforts to build systems to serve all Idaho youth in non-formal STEM education.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Funding to establish four (4) new 4-H STEM Area Extension Educators and one (1) 4-H administrative coordinator, with operating funds, is being requested to increase engagement with more youth and 4-H leaders in Idaho communities in the development of STEM knowledge and skills, postsecondary educational opportunities, and career awareness. Currently, UI Extension 4-H Youth Development offers K-12 non-formal educational programming in all counties in Idaho serving over 75,000 youth annually. UI Extension 4-H has led in developing STEM opportunities for Idaho youth, reaching 13,000 youth annually. Demand for these programs has grown rapidly. These STEM opportunities include programs in Agricultural, Natural and Biological Sciences, Technology and Engineering, such as Water Quality, Animal Health, Robotics and Drones, Coding, Electronics, 3-D Printing, Physical Computing, and other exciting STEM activities. Additional capacity to run quality educational 4-H STEM programs is needed to meet growing demand from rural and urban communities across Idaho. The educational programing funded by this request will complement the work of the Idaho STEM Action center as we coordinate efforts to expand STEM educational opportunities for Idaho youth.

This request includes four Area Extension Educator positions to be located across the State, an administrative support staff, educational resources for use in programs, and operational funds for the Educators to facilitate this expanded program.

2. What resources are necessary to implement this request?

   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

      Four (4) FTE Area 4-H STEM Educators at $63,600 per position with benefits of $27,100 for a total of $90,700 each. Anticipated date of hire would be July 1, 2019. The terms of service would be Full Time, benefits eligible and tenure-track faculty status.

      One (1) Administrative Coordinator at an annual salary of $32,100 with benefits of $20,600 for a total of $52,700. Anticipated date of hire would be July 1, 2019. The terms of service would be Full Time, benefits eligible and on-going administrative support status.

      Total for personnel salary and fringe is **$415,300.**

   b. **List any additional operating funds needed.**

      Four (4) educational resources funds of $20,000 per individual for a total of $80,000

      Four (1) Annual travel budgets to reach rural communities at $10,000 per person for a total of $40,000

      Total for operating funds is **$120,000.**

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request is for ongoing funding for expanded program development and delivery. UI Extension is an established network throughout Idaho with a long history of supporting Idaho communities by providing youth and adult educational programs. The requested positions would build onto the existing infrastructure, local institutional knowledge, and university-driven expectation for high-quality programs to enable a focus on educational STEM programs.

   A STEM-focused staff in Extension 4-H will enable greater outreach to communities including involvement and coordination with formal and informal educational interests, will greatly increase the access to STEM programs for Idaho communities, and will improve the quality of STEM activities. In addition, having a formalized STEM educational staff will enable a greater ability to implement more robust investigations to examine programmatic quality, to test ideas, and to obtain reliable information on what is working and what is not working in informal STEM education on community, regional, and statewide level. Moreover, establishing a broader and coordinated foundation devoted to STEM education will open the door to external funding just as Extension has accomplished in its Healthy Living and Agricultural Education programs.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   UI Extension 4-H leads programs open to all youth in both rural and urban communities throughout Idaho. This request is designed to build the capacity to scale up our programs to meet the demand to involve and serve more youth across Idaho.

   The expected, immediate impacts if this request were funded would be a doubling to quadrupling of the number of youth in STEM programs such as coding, robotics, and water resources. We have confidence in this expectation because of feedback from participants and county staff.

   The expected longer term impacts are increased Go-On Rates and increased interests in pursuing STEM fields. We are confident in stating this impact because our robotics programs alone have improved youth interest in pursuing post-secondary training in STEM fields. Many youth have reported in post-season surveys that they very likely to pursue engineering as a result of their involvement in robotics. Some even report that they decided to pursue college because of their involvement.

   This appeal for funding is serving the citizenry of the State of Idaho. It is essential that we support formal education with non-formal activities, classes, and contests that engage youth and their parents in STEM education. Non-formal STEM Education helps build a healthy, well-educated workforce that will engage in STEM careers and will continue to build our collective society. If this request is not funded, the state and the youth in the state are impacted by the lack of opportunity for engagement in the learning process.

Description:
This proposal enables the University of Idaho's Extension and Colleges of Agricultural and Life Sciences and Natural Resources to expand programs to the Rinker Rock Creek Ranch. The Ranch is a living laboratory with a unique interface between a working landscape with a complex ecosystem of domesticated and wild animals and public recreational activities. It is part of an active public-private partnership between UI, the

community, governmental agencies and private entities to address the critical societal and ecological questions on the impact of grazing on rangeland ecosystems. This ARES request is to support its cattle operations and management, and research and Extension programs at the Ranch to help ensure that Idaho's land use and livestock management and policies are based on the highest quality research conducted here in Idaho.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   To this point, no permanent staff are present at this location as it has not been in possession of the University of Idaho. Faculty and staff from other Research and Extension Centers in Idaho have spent time at the Rinker Rock Creek Ranch to demonstrate the potential value for research. Additional staffing is requested as the Ranch comes under ownership of the University of Idaho during 2018. Funding for salary and benefits for a ranch manager and a research support specialist are being requested to provide the necessary support for cattle management with the accompanying research and Extension activities at the Ranch. This request also includes funding for two undergraduate summer student internships will gain experiential education supporting the ranch manager and the on-site Extension STEM activities. Funding to support two graduate research assistants as part of the UI Rangeland Center annually is also included to support field research to benefit Idaho's rangelands and agricultural communities. Research topics may change from year to year as new and critical issues in cattle management and interactions with rangeland ecosystems and land use/wildlife policies emerge. Operating funds for livestock management and research programs, and one-time capital expenditures needed to monitor environmental conditions to support program activities are also requested.

2. What resources are necessary to implement this request?

   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

      Additional ARES base funding for salary will include staff to manage the Ranch and provide research and Extension programming support and salaries for undergraduate and graduate students who will gain valuable experiential learning experiences on the Ranch.

      One (1) FTE Ranch Manager at $53,000 with benefits of $24,900 for a professional line of $77,900. One (1) Research Support Specialist at $48,000 with benefits of $23,900 for a professional line of $71,900. Anticipated date of hire would be July 1, 2019. The terms of service would be Full Time and benefits eligible.

      Two (2) undergraduate student Interns ($13,000 each) with benefits of $100 for a total of $26,100 to assist the ranch manager and research support specialist with animal management. Anticipated date of hire would be July 1, 2019. The terms of service would be temporary and based upon the time cattle are present at Rock Creek Ranch (April to October).

Two (2) graduate students per year will receive Research Assistantships as field researchers conducting research on projects with faculty from the Rangeland Center at $60,000 per year with benefits of $300. Anticipated start date of August 15, 2019.

Total for salary and fringe is **$236,200.**

b. List any additional operating funds needed.

Additional ARES base funds are requested for management of the ranch throughout the year and when cattle are present, as well as support for research and Extension programs. This includes trucking of cattle between the Nancy M. Cummings Research Extension and Education Center (NMCREEC) in Carmen to and from the Rinker Rock Creek Ranch ($20,000), repairs and maintenance of fences, water systems and riparian areas ($15,000), minerals and veterinary care for cattle at Rinker Rock Creek Ranch ($5,000). Travel for faculty, students, and staff from NMCREEC and other current UI locations to Rock Creek to conduct research and Extension programming ($10,000), and research operating funds for multiple coincident research projects of $40,000 each year are also requested.

Total for operating is **$90,000.**

c. **List any Capital Expense funds needed**.

Funds are requested for one-time funding of $31,900 capital outlay for transmitters, field computers and software licensing requirements. One-time funds for monitoring equipment to be established around the ranch to monitor rainfall, temperature, etc. are also requested ($25,000) which includes solar panels for electrical supply.

Total for capital expenditures is **$56,900.**

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request is for continuous funding as the impetus for program development and greater utilization at Rinker Rock Creek Ranch as ownership is assumed by the University of Idaho in 2018. The opportunity to conduct critical research into the impact of livestock grazing will be greatly enhanced by the presence of Rinker Rock Creek Ranch as access to a landscape similar to that used by livestock will be available. The opportunities to obtain external grant awards on the impacts of grazing on rangeland ecology will be substantial. In addition, through the NMCREEC a direct comparison of economics and strategies for success will be examined for cattle grazing sagebrush ecosystems versus intensively managed pastures. This research will assist in informing ranchers and the public about the value of rangeland. Extension programming will occur on Rinker Rock Creek Ranch, and will engage the local community through 4-H STEM programs and informal educational programs.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request is designed to serve the citizenry of the State of Idaho as it addresses key societal issues related to use of public lands. Understanding the best management practices for grazing cattle in the natural landscapes of Idaho will support proper use of natural resources. Additional knowledge will be obtained relative to shared uses of range including grazing and recreational activities. This request will directly impact ranchers and rangeland landowners of the state. Faculty and students are also primary beneficiaries. Secondarily, all Idaho citizens will be affected by economic factors influenced by sage-grouse habitat, land use and livestock management decisions. The University of Idaho, the College of Agricultural and Life Sciences and the College of Natural Resources will have enhanced research capacity to support the citizens of Idaho with the funding for activities within the UI Rangeland Center conducted at Rinker Rock Creek Ranch. This will also expand Extension programs in 4-H STEM activities as well as programs for the community.

If the funding is not provided, activities at Rinker Rock Creek Ranch will be limited leading to a lack of objective, science-based answers to publicly important questions about the use of natural resources as working landscapes.

Description:

Idaho ECHO Project.

Project ECHO (Extension for Community Health Outcomes) expands access to specialty and high-quality primary care. ECHO Idaho uses distance technology to build the capacity of healthcare providers to treat complicated patients they would otherwise refer out. ECHO Idaho offers providers the knowledge and support they need through continuing medical education and participant-provided case studies to treat common, complex conditions in rural and underserved areas within Idaho. In this way, patients receive the right care, in the right place, at the right time.

The ECHO model was developed by the University of New Mexico Medical Center and focused on Hepatitis C. ECHO has now been successfully replicated throughout the

United States to address more than 40 complex diseases, including diabetes, opioid addiction, and behavioral/mental health.

ECHO Idaho launched its first virtual teleECHO clinic March 2018 focusing on Opioid Addiction and Treatment. An interdisciplinary specialist team (hub) uses video conferencing technology to connect twice a month with students and providers throughout the state (spokes) for a brief lecture on an opioid-related topic followed by a case presentation and discussion. ECHO Idaho is the only ECHO project focused on filling the need to support local networks, create linkages, and build community of *Idaho* providers who care for *Idaho* patients, and who understand *Idaho's* unique challenges and opportunities.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

   The request is for personnel costs and operating expenses. Funds will be utilized to provide staff salary and benefits, as well as cover yearly operating expenses for the ECHO program.

   The request is for two-full time ECHO staff personnel and salary compensation for ECHO panel experts for clinic sessions. ECHO Idaho staff will maintain critical infrastructure and to deliver teleECHO clinics in:

   - Opioid Addiction and Treatment
   - Behavioral/Mental Health

   ECHO Idaho staff will collect and analyze data from various sampling points on ECHO Idaho's impact to the state. Resources will also be utilized to support travel, supplies and operating expenditures to support teleECHO sessions and ECHO Idaho project functions. In March of 2018 the University of Idaho launched ECHO Idaho with resources from a grant through the State Healthcare Innovation Plan (SHIP), WWAMI Medical Education Program, and the University of Idaho. The first ECHO clinic is on Opioid Addiction and Treatment. Funds from SHIP will end January 2019. The University of Idaho will continue to support ECHO program through WWAMI Medical Education by providing administrative oversight and assistance from our financial specialist and other program staff. Current base funding from the SHIP grant is $366,143 and will expire January 2019. We are asking for permanent base funding support for ECHO Idaho.

2. **What resources are necessary to implement this request?**

   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

Program Manager (1.0 FTE), full time, 12 month appointment, benefit eligible. Hired
This position is responsible for the management and leadership of ECHO Idaho. The program manager is responsible for managing the day-to-day operations of the ECHO program, including coordination of teleECHO clinic initiatives and deliverables. Key responsibilities include planning and oversight of the team's activities, coordinating ECHO curriculum development, and promoting the ECHO learning model in the state. The program manager builds effective relationships with Project ECHO staff, University of Idaho WWAMI staff, spokes, and community partners to advance the program in the state.

Clinic Coordinator (1.0 FTE), full time, 12 month appointment, benefit eligible. Hired
This position is responsible for coordinating educational sessions for ECHO Idaho and assisting with the use of distance learning technology. The clinic coordinator supports the production and distribution of distance education course materials, schedules, and facilitates delivery of academic courses to learners at remote sites. Key responsibilities include conducting surveys and preparing reports as needed, developing and distributing promotional and informational materials, and providing direct academic/administrative guidance and assistance to distance education students. The clinic coordinator maintains the integrity of data collection and databases and maintains collaborative relations with rural community partners and internal ECHO/University of Idaho staff.

Group Position Funding
This funding will be used to compensate ECHO panel experts for clinic sessions.

b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

Financial specialists will support project operations to process travel and supply purchases. Human Resources will support hiring of personnel. Marketing and Communications staff will support publication and promotion of project results. Director level oversight to ensure adherence to University policies and procedures. Existing operations will be minimally impacted as these functions are currently in place to support all similar activities within the WWAMI Medical Education program.

c. **List any additional operating funds and capital items needed.**

No capital funding is required. Operating funds of $60,000 are requested to cover travel, supplies and teleECHO expenses.

3. **Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

This request is for ongoing annual funding in support of ECHO Idaho teleECHO clinics on Opioid Addiction and Treatment, and Behavioral Health/Mental Health. It is anticipated that additional grants will be sought to support the growth of ECHO clinic sessions on other complex diseases in Idaho. Data collection and sample analysis collected through the ECHO Idaho program will continue to build a long-term data set to demonstrate the health care impacts from participants of the teleECHO clinics.

4. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?** Enrollment and participation in ECHO Idaho is free and practitioners earn continuing medical education credits. The target audience is a wide range of healthcare providers, including nurses, community health workers, medical assistants, pharmacists, counselors, nurse practitioners, physician assistants, physicians, students and others who provide healthcare education or services. In ECHO Idaho's initial pilot program, the participants come from all seven health districts, 11 counties, 16 cities, and 33 clinics/organizations. Initial feedback has been positive, and interest is rapidly growing. Idaho providers, healthcare workers, health profession students and patients will be served by this critical program. The expected impacts are long-term changes in health provider self-efficacy and knowledge in specialty areas for complex clinical problems in Idaho. These benefits will impact Idaho patients by providing the right treatment in the right time in a cost-effective model. The ECHO model is cost-effective in terms of expenses relative to outcome improvements. Cost savings attributed to ECHO projects in other states include reduced hospitalizations and ER visits, preventing the costs of untreated diseases, savings related to increased provider recruitment and retention, and patients saving the expense of traveling long distances to see a specialist.

   If this project is not funded there will be increased difficulty to obtain any of the benefits mentioned previously.

TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:	$119,600				$119,600
LUMP SUM:					
GRAND TOTAL	$119,600				$119,600

Description:

In FY17 two (2) additional positions for medical students in the University of Utah School of Medicine (UUSOM) program were appropriated increasing the incoming class of UUSOM students in the fall of 2016 to a total of ten (10). The FY17 Legislative Budget Book states the two new seats would require a funding commitment in FY18, FY19 and FY20 as students move successfully through medical school toward graduation increasing the total from 32 to 40 Idaho students. This request is for the two (2) additional positions for the fourth year students.

This request supports the recommendations of the State Board of Education’s Medical Education Subcommittee from January, 2009. Specifically, recommendation #3: “Expand the total number of medical seats for Idaho sponsored students to between 60 to 90 per year (an aggregate total of 240 to 360) as soon as practicable through partnerships with WWAMI, WICHE, University of Utah, osteopathic schools and other medical schools."

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This is a request for two additional UUSOM seats in the amount of $89,200 in Trustee & Benefits. This increase is in line with the commitment made in FY 17 to increase funding and medical students in years 2, 3, and 4 of medical school, with proportional costs in each of those years, as students move successfully through medical school toward graduation.

   This request would add two students in the fourth year class of FY20 or 10 students per year, for a total of 40 Idaho UUSOM students enrolled in medical school by FY20 (Fall 2019).

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      No FTE are associated with this budget.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      None.

   c. List any additional operating funds and capital items needed.
      None.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request would require ongoing General Funds.

   Each year the contract price for all UUSOM seats increases by an amount which is equal to the increase in the Higher Education Cost Adjustment (HECA) index published for the most recently available preceding academic year.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   If this request is not funded, the additional two positions appropriated in FY17 would not be sustained and the number of incoming students would need to be reduced to the previous eight (8) seats.

T/B PAYMENTS:	$22,300				$22,300
LUMP SUM:					
GRAND TOTAL	$22,300				$22,300

Description:

The Legislature has provided funding for 38 Idaho residents in the University of Utah School of Medicine (UUSOM) program for FY 2019. A separate line item requests funding for an additional and final increase of two residents for the 4th year residency. This request is for one-half year funding for an Idaho student who is returning from a medical leave of absence. One student is on track and scheduled to graduate one (1) semester early (in December 2018) and start her pediatric residency in January 2019. This would mean she would not need the entire year of Idaho funding. Another student currently in his second year will need an entire year of funding due to his return from a medical leave of absence. Another Idaho student filled his slot, therefore additional funding is needed. UUSOM will bank the one semester savings from the first student from FY 2019 and use those funds in FY 2020 for the second student. Therefore, we only need to ask for one semester's funds for FY 2020.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This is a request for one semester funding for a student returning from a medical leave of absence. Since it was not known whether the student would return to the UUSOM program, the student's slot was filled by another Idaho student.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      No FTE are associated with this budget.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      None.

   c. List any additional operating funds and capital items needed.
      None.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This request would require one-time General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   If this request is not funded, the Idaho student will not be able to return from his medical leave of absence.

aAGENCY: Health Education Programs	Agency No.: 515	FY 2020 Request

TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:	$3,085,000				$2,905,000
LUMP SUM:					
GRAND TOTAL	$3,085,000				$2,905,000

Description:

The Legislature appropriated the following for fiscal year 2019.

Family Medicine Residencies, $565,000:

FMRI Boise, $240,000 to increase funding to $35,000 per resident
ISU FMR, $105,000 to increase funding to $40,000 per resident
ISU Pharmacy, $130,000 to increase funding to $35 per resident

Boise Internal Medicine, $77,500 to increase funding to $35,000 per resident
Psychiatry Education, $240,000 to increase funding to $60,000 per resident
Eastern Idaho Medical Residencies, $455,000 established at $35,000 per resident
Bingham Internal Medicine, $525,000 established at $35,000 per resident

Assumptions for FY 2020 line item requests:

1. Update for FY 2020 using the following criteria.
    a. ISU's new baseline being at $40,000 per resident
    b. UW Psychiatry being at $60,000
    c. All other programs being at $35,000 per resident
    d. Bingham's (Blackfoot) Internal Medicine Program – fully funded at $60K
    e. Idaho Falls Internal Medicine Program being funded for year one only at $35, 000
2. Showing all programs now being increased to $45,000 for all existing residents.
3. Bringing all new resident/fellow requests for the year FY2020 on at the $60,000.

See following page for total increases by program for all Health Education Programs.

Family Medicine Residencies	$480,000
ISU FMR	415,000
FMR Kootenai	180,000
Boise Internal Medicine	590,000
Eastern Idaho Medical Center	1,060,000
Bingham Internal Medicine	180,000
University of Utah School of Medicine	180,000
Total Graduate Medical Education	$3,085,000

GRAND TOTAL	$140,900				$140,900

Description:

Advancing the use of forest products in commercial building at the University of Idaho by investing in human resources.

The University of Idaho seeks to engage the integrated industries involved in commercial building to develop the emerging economy of sustainable commercial building. Wood is the ideal raw material as a renewable building material allowing for carbon sequestration while consuming less energy during production as compared to concrete and steel. Engineered wood products enable flexible, rapid modular construction while still allowing for sophisticated design. The northwest and southeast US are the two most productive timber regions. Idaho, with a forest products industry currently producing 10% of state domestic product, is uniquely positioned with timber and manufacturing to meet the demands of the market. Integrating engineering to address code specifications, architects in design utilization and construction firms with product knowledge will drive industry growth. Increased, sustainable use of Idaho's timber will result in direct and indirect jobs (transportation, manufacturing, etc.), support rural communities dependent on these industries, and support the Idaho Department of Lands return on investment to Idaho's schools.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

   The College of Natural Resources is requesting $140,900 in the Forest Utilization Research (FUR) budget to provide salary and fringe support, plus travel, operations, and capital equipment, for a new faculty hire to enhance scholarly activity and outreach with Idaho's forest industry and commercial building sectors. These resources will enhance the capability of FUR programs to work with stakeholders and leverage additional funds from other non-state sources, both of which help strengthen traditional Idaho industries and rural communities that rely on the jobs from timber harvesting, forest product manufacturing, architecture, engineering and construction. There is currently no capacity for this position. This position may hold dual appointments or adjunct status in the colleges of Engineering and/or Art & Architecture.

2. **What resources are necessary to implement this request?**

   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

      The College of Natural Resources is requesting funds sufficient to provide full-time salary and benefits support for a new faculty position in wood utilization in commercial buildings at the rank of associate professor or professor.

   b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

      There will not be redirection.

   c. **List any additional operating funds and capital items needed.**

      The request includes $5,000 for travel, $10,000 for operating expenses, and $5,000 for capital equipment including dedicated software used to perform duties of position.

3. **Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

Salary, fringe, travel and operating will be ongoing, with capital outlay as one-time funding. We anticipate that funding can be leveraged for external grant awards but have no assumptions for revenue amounts.

4. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

   The new faculty position will directly serve Idaho's forests, forest industries, construction and commercial building industries, and state agencies including the Idaho Department of Lands. Rural communities will benefit from potential increases in forest and forest product activity. The position will also strengthen leverage for non-FUR dollars, benefitting faculty and students. This position can provide ancillary benefits to either or both the College of Engineering and Art & Architecture through increased capacity in relative disciplines.

Description:

Mica Creek Watershed Project.

In 1990 a study examining the impacts of modern forestry practices on stream characteristics and fish was initiated in the Mica Creek watershed. A formal Before-After-Control-Treatment study was completed in 2005 and peer-reviewed papers have been published on water quality, sediment, temperature, dissolved chemistry, and aquatic insects. Watershed-side stream instrumentation and data collection has continued uninterrupted since this time, and the latter half of the 27-year data set reflects operational working forest conditions. The study provides a data-driven, science based platform to evaluate forest practice rules that govern water quality, protection, as well as fish and wildlife conservation issues relative to state, federal, and private forest landowner management. The project results were used directly in discussions of regulatory changes at both the state and federal level. Results have informed and influenced revisions of the Idaho Forest Practice Rules on tree retention in streamside areas; were influential in the regulatory debate over treating roads and culverts as point sources of pollution; and are routinely used in National Environmental Policy Act (NEPA) evaluations for US Forest Service timber sales. Maintaining the ability to continue building on the data set from this long-term study is critical to informing natural resource protection policies in Idaho. This is especially critical given emergent concerns about decreasing summer flows and impacts on fish populations resulting from forest regrowth that will potentially impact forest products and related industries.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

   This is a request to increase base funding for annual maintenance for the Mica Creek Watershed Project. Specifically, funding will support 2 part-time field technicians to maintain critical infrastructure and to collect and analyze data from various sampling points, travel and supplies to support data collection and two sample analyses of sediment macroinvertebrates. There is currently no base funding for this project, however there is agency staffing within base budget to support the project at an administrative level. Administrative support will include financial specialists, human resources, marketing and communications as well as director level guidance.

2. **What resources are necessary to implement this request?**

   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

      (2) Research Technicians, part time, on 6-12 month appointments (depending on weather and field season access), PERSI eligible. Anticipated hire date will be upon approved funding at the beginning of the fiscal year (typically on or around July 1).

   b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

      Financial specialists will support project operations to process travel and supply purchases. Human Resources will support hiring of personnel. Marketing and Communications staff will support publication and promotion of project results. Director level oversight to ensure adherence to university policies and procedures. Existing operations will be minimally impacted as these functions are currently in place to support all similar activities within the Forest Utilization Research program.

c. **List any additional operating funds and capital items needed.**

No additional capital funding is required. Operating funds of $32,000 are requested to cover travel, supplies and sample analysis.

3. **Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

This request is for ongoing annual funding in support of basic data collection and sample analysis to continue to build a long-term data set in support of Idaho forest industry, federal and state forest agencies and dependent rural communities on activities relative to actively managed forest lands.

4. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

The project promotes long-term economic health for communities dependent upon forested lands. The long-term economic health of such communities is dependent upon the long-term ecological health of lands. Ecological health is a substrate on which forest management and economic gain can be sustained in the long term. The project seeks to develop an integrated, mechanistic understanding of how upslope disturbances are transmitted to downstream ecosystems, to assess and improve contemporary forest management practices. This project builds on disciplinary research to develop integrated approaches to the assessment and management of working forest lands.

This project has had a major impact on the science and management of forested ecosystems in the state of Idaho and the region, and has effectively advanced the University's teaching, research and outreach missions in a key strategic area by enhancing the stewardship of the natural environment. This project has added considerable value to the Mica Creek Project initiated originally by private industry, by adding both an intensive research component focused on mechanisms producing observed changes, and an extensive component to assess forest management across a broader range of impact levels, while expanding the disciplinary breadth of observed response variables. Although the project is ongoing, the state, region and nation is benefiting, and will continue to benefit from this proactive project through an improved, interdisciplinary assessment of contemporary harvest practices. This project is therefore benefiting the forest products and associated industries, the tourism sector, and the economic development of municipalities. If the request is not funded, inactivity of this project study will result in negative impacts to Idaho's forest industry, the rural communities dependent on this industry and other associated industries utilizing Idaho's forests, state and government land managing agencies and the scientific literacy and understanding of active forest management.

Description:

Public demand for geologic and geospatial services from the Idaho Geological Survey (IGS) has grown each year for the last five years and during FY 2017 the IGS website had 453,562 visitors and users downloaded 204,770 digital products. The IGS publishes geologic research annually in the form of maps, technical reports, databases and information pertaining to mineral, oil and gas, geothermal energy and geologic hazards throughout the state and these products are uploaded to the IGS website for public dissemination.

Priority 1: Consistency in staffing is crucial to meet the demands of the IGS's Strategic Plan as well as fulfilling the Mission and Goals of the agency. In past years, we have had difficulty retaining quality exempt and classified staff, which results in a loss of the knowledge base that they possess. The funding being requested is to make up the difference between the pay rates currently being paid to IGS staff and the new "Market Based Compensation" levels recently set by the University of Idaho thus allowing IGS to reduce turnover and maintain a higher quality of service to the public. Crucial staff, both exempt and classified, that will be affected by these funds are our Senior Petroleum, Geologist, Geologic Hazards Geologist, Hydrogeologist, Senior Geologist, GIS Analyst, Geologic Map/ GIS Manager, Assistant to the Director, and IGS Finance and Operations Manager.

Priority 2A: To bring the Assistant to the Director position from the current .875 FTE to a full 1.00 FTE. This change in FTE and appropriation is necessary so the current Assistant to the Director can accomplish all tasks associated with the position for the Moscow and Boise offices of IGS as well as assist in other administrative duties that have been added to the position.

Priority 2B: To bring the Senior Geologist position from the current .69 FTE to a full 1.0 FTE. This change in FTE will increase the Survey's grant award capabilities for leveraging US Geological Survey funding to IGS and providing more federal research dollars to conduct geologic mapping throughout the state. The proposed increase in FTE will also allow the Senior Geologist to devote more time for educational and outreach activities while still maintaining a robust schedule for geologic mapping.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**
   a. **Salary adjustments for Seven (7) IGS Exempt and Classified Staff**
      i. Appropriation of $80,400 in salary and benefits is being requested to bring 7 staff (exempt and classified) up to 85% of their University of Idaho Market Base Salary. In order to slow employee turnover, the University of Idaho has adopted a Market Based Compensation policy to help address employee retention issues. IGS has its own appropriation line from the Idaho legislature and does not have access to General Education funds from the University. This request for funding will bring all IGS exempt and classified staff up to 85% of the market-based rates set by the University of Idaho; the balance of the increase (86% to 100%) will be accomplished over time by annual Cost of Living increases allocated by the legislature and attrition in the Survey due to retirement.

   b. **Assistant to the Director additional FTE of .125 and The Senior Geologist additional FTE of .31. A total of $57,300 is requested for salary and benefits.**
      i. Request is to raise the FTE of the Assistant to the Director from .875 FTE to a full 1.0 FTE and an accompanying request to raise the FTE of the Senior Geologist from .69 FTE to a full 1.0 FTE.
      ii. Asking for additional appropriation for both positions of $58,500 in salary and benefits which will allow IGS to fund both positions at full time of the 85% market rate set by the University of Idaho.

Additional funding and FTE for the two positions, as stated above, adds increased services to the public and improves employee retention for IGS. The .125 FTE increase for the Assistant to the Director will allow full-time work without the extra funding being drawn from IGS operating funds (OE, CO and Travel).

The extra .31 FTE for the IGS Senior Geologist provides a much stronger state match for competitive US Geologic Survey grant awards and permits the Survey to secure larger federal grant awards and map larger areas throughout the state. Providing a small increase in FTE for the Senior Geologist also permits more IGS resources to be targeted for earth science education in public and private schools and Outreach opportunities throughout the state.

2. **What resources are necessary to implement this request?**
   a. No additional resources are required. The appropriation for both requests will be combined with existing appropriations.

3. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**
   a. This request is not for new employees, request is for additional funding and FTE to supplement existing IGS positions.

4. **Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**
   a. This request is for ongoing funding for existing personnel. The appropriation request will be used for salary and benefits only to keep pace with the employee Market Based Compensation program set at the University of Idaho and to increase employee retention at IGS.

5. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**
   a. Beneficiaries of this request will be the general public, energy and minerals industries, engineering firms, the Idaho legislature, state and federal agencies, the Governor's office and all entities who request services from the Idaho Geological Survey.
   b. If these funding requests are not granted, the Idaho Geological Survey will fall further behind existing staff salaries at the University of Idaho. When the U of I began their "Market Based Compensation" plan for employees, the primary goals were to (1) Compensate U of I employees at levels of their peers and (2) Stem the nearly 20% staff turnover per year. As this plan is implemented, the University has reallocated certain resources to meet their goals. IGS, while housed at the U of I, does not have the flexibility to share in University funds causing IGS salaries to lag behind the rest of the University. The most recent example of this "lag" is our FY19 salary levels. As the University tries to bring employees up to market base, the IGS could only fund 25% of what the University recommended.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

   a. U of I Market Based Compensation employee notification.

Description:

The Idaho Small Business Development Center (SBDC) has been providing no-cost consulting and coaching to Idaho's small businesses and entrepreneurs since 1986 through a network of six (6) offices hosted by Idaho's colleges and universities. TechHelp, Idaho's manufacturing extension partnership, operates statewide from three (3) university-based offices to provide training and technical assistance to Idaho's manufacturers. This joint position represents an unprecedented partnership which maximizes statewide reach to Idaho's small businesses and manufacturers, the backbone of Idaho's economy.

This request is for a Cyber Security Specialist (1 FTE), shared between Idaho TechHelp and the Idaho SBDC, to provide assistance to small businesses and manufacturers on cyber security prevention, detection, response and recovery. The position will be located at Boise State University and will leverage the Idaho SBDC and TechHelp networks and cyber security expertise at Boise State University. The Specialist will develop and execute a plan with metrics, to deliver assistance statewide, including rural areas, through tools, workshops, consulting, and outreach. This additional state funding will support a full-time professional and the associated operating costs to delivery statewide services.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This funding request is for 50% (each) of a shared position between the Idaho SBDC (0.5 FTE) and TechHelp (0.5 FTE). Big companies have IT departments to help protect them from cyber attacks. So hackers have turned to small businesses as easy targets and as a potential channel to gain access to large companies. Since 80% of cyber attacks can be prevented by basic risk management, this position would help owners learn about and implement risk management strategies.

   Currently, both organizations have limited staff and none dedicated to cyber security where the need is increasing. The new shared SBDC-TechHelp position will focus 100% of their time on cyber security.

   Ongoing salary, fringe and operating expenses are being requested.

2. What resources are necessary to implement this request?
   - One (1) new position shared between the Idaho SBDC and Idaho TechHelp
   - A new laptop computer, docking station and screens
   - Office space (provided by Boise State University)
   - Supervision/leadership

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   Ongoing funds are being requested for one (1) new full-time position for a total of $118,014.

   One-time funding is being requested for computer/office setup for the position. Targeted customers include the combined SBDC-TechHelp customer base.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Small businesses and manufacturers all over Idaho will be served through the Idaho SBDC and TechHelp networks.

Expected impacts include cost savings and cost avoidance from decreased cyber crime risk. These expected results can be difficult to measure because program objectives are to decrease risk of cyber crimes. Participating businesses will be better positioned to prevent cyber crime. Should a hacker get through, they can be detected and an effective defensive response initiated, and companies will have a plan in place on how to recover.

If this request is not funded, more businesses will face cyber crime without the knowledge necessary to reduce their risk and mitigate the associated costs.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Description:

Assistant/Deputy Chief Academic Officer position to support postsecondary policy advancement, implementation and coordination of Board initiatives, and strategic planning and resource development necessary to effectively carry out Board priorities.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This position would support the Chief Academic Officer (CAO) in providing leadership for Academic Affairs staff (a total of four FTP) and achieving team goals. Currently the primary roles of these staff members are to perform ongoing functions dedicated to executing Board business processes. As the CAO shares primary responsibility for developing Board policy, integrating academic and student success initiatives across *eight public institutions, and management of various committees charged with improving postsecondary service delivery an additional leadership role is needed on the Academic Affairs team to effectively meet the demands of these items. The current model for the distribution of these efforts is not sustainable and creates bottlenecks in facilitating direct oversight, communication, and coordination across institutions, agencies, and other educational stakeholders involved with implementing Board policies and strategies.*

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Associate Chief Academic Officer; pay grade O; full-time; benefit eligible; July 1, 2019 date of hire; non-classified

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      This new position will provide management responsibilities to meet the increased operational demands of a growing portfolio for Academic Affairs, which encompasses a diverse range of strategies and practices adopted by the Board to improve student success across Idaho's eight public postsecondary institutions.

   c. List any additional operating funds and capital items needed.

      $1,100 (one-time) for computer and monitor

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   $114,000 (PC) ongoing

   $1,100 (CO) one-time

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The State Board of Education, staff, agencies, institutions, schools, stakeholders and the public will be served directly and indirectly by this position.

   If not funded, progress will be delayed toward the achievement of Board goals, which includes the recommendations approved by the Governor's Task Force on Higher Education. Management tasks associated with these items are currently vested in the Chief Academic Officer, with limited flexibility to delegate to other Academic Affairs staff based on their roles and responsibilities.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Description:

Academic Program Manager to coordinate development, implementation, and sustainment of Complete College America (CCA) strategies adopted by the Board to improve postsecondary completion rates.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This position would support the Chief Academic Officer (CAO) in the program coordination of statewide CCA strategies adopted by the Board to be implemented across all eight postsecondary institutions. There are currently three Academic Program Managers in Academic Affairs, however, they are dedicated to areas such as: admissions, financial aid, and dual credit; program proposal and inventory *processes and Board committee support; and, proprietary/non-profit postsecondary compliance. As the work associated with CCA strategies lies within Academic Affairs, an Academic Program Manager assigned to this role would share daily responsibilities for coordinating and tracking institutional progress toward these objectives. This includes (but is not limited to) system-wide development of: consistent math pathway sequences; implementation of corequisite course remediation models; timely completion strategies; first-year student transition practices; and, adult learner accommodations. The current model for the distribution of these efforts is not sustainable as these items are charged to the CAO. The lack of personnel to support these goals lead to bottlenecks in facilitating direct oversight, communication, and coordination across institutions, agencies, and other educational stakeholders involved with implementing CCA strategies.*

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Academic Program Manager; pay grade N; full-time; benefit eligible; July 1, 2019 date of hire; non-classified

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      This new position will provide management responsibilities to meet the increased operational demands of a growing portfolio for Academic Affairs, which encompasses a diverse range of strategies and practices adopted by the Board to improve student success across Idaho's eight public postsecondary institutions.

   c. List any additional operating funds and capital items needed.

      $1,100 (one-time) for computer and monitor

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   $99,600 (PC) ongoing

   $1,100 (CO) one-time

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The State Board of Education, staff, agencies, institutions, schools, stakeholders and the public will be served directly and indirectly by this position.

   If not funded, progress will be delayed toward the achievement of Board goals, which includes the recommendations approved by the Governor's Task Force on Higher Education. Management tasks associated with these items are currently vested in the

Chief Academic Officer, with limited flexibility to delegate to other Academic Affairs staff based on their existing roles and responsibilities.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Description:

Administrative Assistant 2 position to support communications and research staff.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This position would provide administrative support to communications and research staff (a total of seven FTP). Currently these staff have no dedicated administrative support. One AA2 is supporting these staff plus four other staff (11 to one ratio). In addition, effective July 1, 2018 the current AA2 will support the three Career Information System staff transferred from Dept. of Labor. This 14 to one ratio for administrative support is not sustainable, and creates chokepoints in the Office workflow.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Administrative Assistant 2; pay grade I; full-time; benefit eligible; July 1, 2019 date of hire; classified

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      This new position will provide administrative support needed to meet increased operational demands, in part due to three new positions transferred to the Office in 2018.

   c. List any additional operating funds and capital items needed.

      $1,100 (one-time) for computer and monitor

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   $51,900 (PC) ongoing

   $1,100 (CO) one-time

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The State Board of Education, staff, agencies, institutions, schools, stakeholders and the public will be served directly and indirectly by this position.

   If not funded, performance of basic administrative functions will be delayed. Performance of time-sensitive administrative tasks will necessitate pulling professional staff away from their core responsibilities in order to complete the projects.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

1. PC and monitor (OT)	$1,200				$1,200
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$75,800				$75,800

Description:

The Office of the State Board of Education (OSBE) requests one (1) FTP and associated funding for an IT Information Systems Technician position. In general, this position will provide IT services to employees of the Office of the State Board of Education (OSBE) and Charter Commission staff. Specifically, the position would provide support for video conferencing, configure workstations, provide desktop support, and work with inventory, monitoring, and control of computers and software. They may also be leveraged to manage file shares and configure/manage other servers and to provide backup to the CTE IT resource.

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   OSBE is requesting a full-time IT Information Systems Technician position (1 FTP) and one-time funds for a computer/monitor for the position. Currently, OSBE has no dedicated IT support. Basic support has been managed in-house by the Career Technical Education (CTE) IT lead and partially by an OSBE staff member - who does this on the side on an as-needed basis. The workload is increasing with additional OSBE staff including the transfer of Career Information System (CIS) staff and the cyber security requirements. This position will assure that OSBE and the Charter Commission will be able to keep its computer systems properly configured, inventoried, and user's problems resolved in a timely manner. We will also be able to monitor the local area network and review logs to ensure our environment is secure.

There are no funds in the base for this activity.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      IT Information Systems Technician, Pay Grade L, full-time, non-classified, benefit eligible, hire date: July 1, 2019

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      Existing human resources are currently being redirected on an ad hoc basis to address this unmet need. If this position were approved and funded, existing operations would be impacted because it would allow the Board staff member to spend 100% of their time on their assigned duties and provide a reduction in demand on the CTE resource, and also provide depth and coverage for IT needs.

   c. List any additional operating funds and capital items needed.

      $1,200 one-time CO for computer/monitor

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions: new customer base, fee structure changes, ongoing anticipated grants, etc.

   See above.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Staff of the OSBE and the Charter Commission would be served by this request, and if needed, could also provide coverage to CTE when their primary IT resource is unavailable or overloaded. If position is not funded, we would continue to have more IT work than can be effectively managed by existing staff, several IT related projects would be delayed. This all leads to longer wait times to resolve issues, no resource to manage video conferencing, and a minimum level of support.

5. If this is a high priority item, list reason non-appropriated Line Items from FY 2018 budget request are not prioritized first.

   This item was not requested in the FY 2018 budget request.

TOTAL OPERATING EXPENDITURES:	$263,000				$263,000
CAPITAL OUTLAY **by summary object:**					
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$263,000				$263,000

Description:

Funding is being requested to cover the cost associated with conducting training to assure inter-rater reliability on the Master Educator Premium Standards and scoring rubric to provide stipends to those educators who have volunteered to be Master Educator Portfolio Reviewers. Volunteers would be brought together each year for a training on the standards and the scoring process and rubric. This annual training would become a refresher for returning reviewers and a new training for new reviewers. The training will be essential in helping to establish reliability and consistency in how reviewers apply the scoring rubric. Three reviewers will be assigned to each portfolio, the reviewers will not know whose portfolio they are reviewing nor the identity of the other reviewers assigned to any given portfolio. Reviewers will also be provided with a stipend for their time in conducting the reviews. It is expected each reviewer will be able to complete the review of three to five portfolios during each review cycle. The actual number of reviewers needed will be dependent on the actual number of portfolios submitted in any given year.

Based on the analysis of what other states with master teacher designations, with similar standards and processes for review, have experienced, only about 2% of their overall teaching force has applied for their master teacher designation. In Idaho, we have minimum requirements that will reduce the size of the pool eligible to apply for the premium that these states do not have. The standards will then be applied to the portfolio's submitted by those that meet the minimum requirements. Only those portfolio's that are scored high enough, based on the rubric approved by the Board in 2017, will be awarded the premium. Other states with master teacher designations have used higher levels of certification to award teachers who meet the standards through a master teacher certificate rather than the monetary premium that Idaho has attached to the designation. Due to the monetary incentive, it is possible that a greater number of eligible applicants will apply for the premium than other states have experienced. Based on our current educator workforce, assuming no eligible teachers leave the workforce between FY18 and FY20 when the premium is available, 9,957 individuals will be eligible to apply for the premium. Should 25% of those eligible apply for the premium there could be approximately 2,500 portfolios that would need to be reviewed. Assigning three reviewers to each portfolio leaves us with 7,500 portfolio reviews to assign. If each reviewer is assigned 15 portfolios in a given year, we will need approximately 500 reviewers. This would allow reviews to be granted a stipend of $500 each year. The portfolio review process is a rigorous and time-consuming processes, the stipend is a reasonable recompense for the reviewers time.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   Section 33-1004I, Idaho Code, establishes a Master Educator Premium that will go into effect in FY20. The process recommended by a committee of Idaho educators and adopted by the Board includes the creation and submittal of portfolios and then a review of the portfolio to determine if the individual has met a high bar to receive the Master Educator Premium. While the premium itself will be distributed out of the public schools budget to school districts for payment to the individual teachers who earned the premiums, the review of the portfolios will be managed through the Board office. The Board currently has one FTE who will help to facilitate the training and manage the reviewers. Current duties will be adjusted to make room for these additional duties.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. No new positions

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. One existing FTE will absorb these duties. The existing position works with various constituent groups regarding effective educators in our state, these duties will fit well with existing work. Some special projects may not be started to allow for time to facilitate this process. The majority of the work will be conducted by the reviewers, not the position.

c. List any additional operating funds and capital items needed.

No additional operating funds or capital items outside of the funding listed above for training, travel for reviewers to attend the training, and then the stipends for the reviewers.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   All funds requested are on-going funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The expected impact is to implement the Master Educator Premium created by the Legislature through Section 33-1004I, Idaho Code. The intended impact of the Master Educator Premium is to recognized our more experienced and most effective educators and to encourage them to stay in the teaching profession. Creating a continuum of growth and recognition for Idaho's master educators.

CAPITAL OUTLAY **by summary object:**					
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$20,000				20,000

Description:

The Career Information System (CIS) was moved to the Board Office in FY19. At that time only the minimum required levels of funding were provided for the existing system. Like most computer/software systems CIS will require system upgrades and enhancements to stay current and remain a user friendly tool for our education partners. Additionally, the CIS contract will expire and need to be renegotiated at the start of FY20. Idaho's current contract is a legacy contract that has not taken into consideration inflationary cost nor the cost of development for Idaho specific enhancements that we may want to request for the system. The proposed budget request would cover $20,000 of ongoing funding for the development of enhancements to the system each year that will keep it update and take advantage of emerging technology and functionality.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The Career Information System can be a cost effective tool for school districts, our postsecondary institutions, and labor offices to use in the development of career and academic plans as well as providing access to valuable tools such as interest inventories, Idaho postsecondary educational opportunities, wage information, occupation requirements all through a single tool. In order to keep this tool up to date and relevant and to enhance, its usability as school district needs evolve. It will be necessary to identify system enhancements and updates on a regular basis that may not be covered by our base contract costs. Additionally, with the expiration of Idaho's legacy contract with CIS we will be moving to a contract model that includes inflationary increases into the contract. This is not an uncommon model for these types of services under multi-year contracts and are likely to be an issue regardless if Idaho stays with the current CIS vendor or contracts with a new vendor. The current base funding for CIS does not provide for software enhancements nor contract inflationary costs.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. No new positions

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. In FY19 we received three of the existing six FTE originally budget with the Department of Labor. This request will result in no additional human resource needs nor will we need to redirect staff.

   c. List any additional operating funds and capital items needed.

      No additional operating funds or capital items outside of the funding will be needed.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   All funds requested are on-going funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   School districts and charter schools are the primary users of CIS. While we have a few postsecondary users at this time we expect postsecondary use will increase over the next two years, in part due to enhancements to the system. Current Idaho regional Labor Officers use CIS. All three groups will be served by enhancements and upgrades made to the system over time.

GRAND TOTAL	94,100				94,100

Description:

Idaho Public Television proposes enhancing our educational outreach efforts with the addition of one new position and related expenses to supplement the one current position devoted to these activities, plus the PBS grant-funded educational specialist position. By making presentations to teachers, parents and caregivers about how best to utilize the more than 100,000 educational resources available from Idaho Public Television free to Idahoans, we hope to increase the use of these resources and the effectiveness of the learning process, thus improving standardized test scores in literacy and STEM subjects. Many educators and parents are not aware of these resources or how best to employ them for maximum effectiveness. This new position will coordinate efforts to travel the state informing the community about these resources and demonstrating best practices for their utilization both at home and in the classroom. This additional position will allow us to increase our effectiveness in northern and eastern Idaho where the current costs to serve these communities from Boise is prohibitive. While we provide high quality educational material for all ages, we plan to concentrate most of our efforts with preschool and elementary grades where the demonstrated impact is greatest. This position will also develop educational material to accompany Idaho Public Television's productions to make them more valuable to classroom teachers and students.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   One additional full-time education position is being requested to provide support for IdahoPTV and PBS educational tools such as Learning Media and other online resources to schools, libraries, families, daycares, after school networks and other educational institutions. The Project Coordinator position would serve as supervisor and coordinate the activities of both our existing Education Specialist and a PBS grant-funded Education Specialist position. This position would be able to produce educational components for local programs as well as bring educational offerings from CPB and PBS to Idaho communities. These offerings could include educational video segments, lesson plans based on state standards, teacher guides and websites and other digital learning materials. The educational positions would work closely with the Idaho State Department of Education, Office of the State Board of Education, Idaho Commission for Libraries, the STEM Action Committee, and other local educational organizations. The position would help augment the classroom curriculum by providing quality material to educators and learners.

   The specialists would travel around the state to schools, libraries, and other educational sites to demonstrate Learning Media, Literacy in a Trunk, STEM in a Trunk and a whole host of educational components produced by PBS and CPB, the most trusted educational brands in America.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      See attached worksheet.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      In addition to existing Education Specialists, this line item would also receive limited support from existing communication, promotion and production positions. Design and printing of brochures and pamphlets, web and digital assets, as well as short video segments might be occasionally needed.

   c. List any additional operating funds and capital items needed.

      Operational funding includes costs of printing of materials, postage and shipping, and travel to schools, libraries, child care facilities, and others sites to make presentations at locations statewide. We anticipate acquiring two $5,000 grants from private sources (dedicated funds) to supplement operational costs.

      Capital items includes a portable computer and large, external monitor that will be used both in office and on location for demonstrations of online resources available to students, educators, and other community participants.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   Besides the ongoing funding for the new position, this request contains ongoing operational expenses for employee travel in each region of the state as well as educational meetings and conferences held by PBS and CPB. IdahoPTV has office *space in Moscow and Pocatello to accommodate personnel. One-time costs include the capital items described in 2(c) above.*

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Educators, students, librarians and patrons from around the state will be served by these educational positions. PBS and CPB extend grants on a semi-regular basis that go along with the educational opportunities that exist with many programs produced for air and online. Educational outreach grants for history and science-based programming have been made available. More educational opportunities will be available in years to come. Currently, we are not able to take advantage of many of these grants because we do not have the personnel to accomplish the tasks. If not funded, we would not be able to enhance education as described herein.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Description:

Idaho Public Television seeks a new technical position (pay grade K) to assist with the growing demand of Idahoans to view our programming on-line via a plethora of new devices and technologies.

For more than 50 years, Idaho Public Television's primary means of distributing its educational content has been via broadcast television. While that continues to be the dominant means of viewing, increasingly Idahoans also want us to make our programming available to them on all the new IP-based streaming platforms – be it live streams of our broadcast channels or video on demand. The number of new platforms and services in growing rapidly and each requires its own set of technical demands and metadata requirements.

The workload demands and specific technical skills and expertise needed has grown beyond what can be met by our existing staff. We see this area as only continuing to grow in the coming years.

This is especially important in order for us to continue to provide our award-winning educational content and services to Idahoan families with young children – who increasingly use our content on-line, via mobile devices and OTT (streaming services onto TV sets.)

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   a. *This activity has grown to the point that existing staff can no longer meet demand from our viewers to have all our content delivered on all the new streaming platforms. Here to date, this work has been done by a combination of staff from IT, Engineering, Operations, the Director of Content Services, and the General Manager himself. We need one person who has both the technical skills and strategic knowledge of the "new media" environment to manage this activity.*

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      See attached worksheet.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      While the existing staff will continue to be involved in this activity, by hiring a new staff position with the specific skills necessary to manage this activity, the agency will be able to meet increased need, operate more efficiently, and be more successful in this endeavor.

   c. List any additional operating funds and capital items needed.

      Additional operating expenditures for travel and expenses of $2,000. High-end computer and peripheral equipment for new employee of $5,000.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   This is a new ongoing request from the General Fund. We do not anticipate any other funding source to meet this need.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This funding will allow us to reach Idahoans who increasingly consume our educational content (both locally produced and nationally acquired) on the myriad of digital streaming platforms, such as Apple TV, Roku, Smart TVs, Amazon, IdahoPTV On-Demand, IdahoPTV/PBS Kids Channel Live Stream, mobile apps, and live streaming of our broadcast channels via such services as YouTube TV, DirecTV GO and other emerging technologies. These viewers want to view our content, when and where they want. They tend to be younger and often have young children that Idaho Public Television is uniquely able to serve with high quality programming and on-line educational games that have a proven track record of improving educational outcomes. This is a growing area of our work that is critical to our continued success!

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Description:

To support Idaho Council for the Deaf and Hard of Hearing in partnership with Idaho Registry of Interpreters for the Deaf (IDRID) in providing training opportunities for licensed interpreters to meet the continuing education hours (CEH) requirement of 10 hours annually as set forth in the Idaho Speech and Hearing Services Practice Act, Chapter 29, Title 54.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   Interpreters in rural areas often find access to training opportunities and continuing education challenging. The availability of trainings is also far in between and limited to once or twice a year in larger urban areas of the state. Continuing education is a requirement for the renewal of one's professional license. If interpreters do not meet the CEH criteria, their license will expire, will not be up for renewal and their names will be removed from the database of licensed interpreters. Periodic affordable continuing education opportunities will keep the list of licensed interpreters current with those who are actively interested in providing language services and ensuring their skills are updated. The increased availability of trainings will foster the reduction of interpreter shortages in some geographical areas. Expanding the trainings to different sites throughout the state would help to increase the interpreter pool by ensuring that the interpreters are complying with CEH requirement and would particularly benefit interpreters in remote areas. Currently, the costs of continuing education are being assumed by the professional. However, for court-certified and registered interpreters, continuing education is provided by the Administrative Office of the courts at a low cost or no cost to the interpreters- both spoken and sign language interpreters.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. **NA**
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. **NA**
   c. List any additional operating funds and capital items needed. **NA**

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

   The budget request of $8,000 is based on the annual expenditure of Idaho Registry of Interpreters for the Deaf (IDRID), a state non-profit professional interpreter organization. Annually, on average, for professional development, IDRID spends $19,000 (for 5 workshops and one 3-day conference).

   The additional $8,000 would allow the organization to implement mini-workshops and other types of training in remote geographical locations by contracting presenters and implementing technologies that would increase accessibility to those trainings. Additionally, the budget request would allow the exploration of cost efficient and emerging technology for streaming workshops to rural participants.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Individuals who are deaf or hard of hearing will ultimately benefit from this request by having qualified interpreters available when needed. The training budget would initially benefit individuals maintain their required continuing education hours, especially those in rural Idaho.

Objective:

- To provide continuing education hours and opportunities for those licensed interpreters to earn CEHs to satisfy the required hours as set forth in the Idaho code
- To develop a long-term training plan to provide increased opportunities for assisting interpreters in developing their knowledge and skills in the field of interpreting
- To reduce the gaps in the availability and accessibility of training opportunities in rural areas
- To provide training opportunities by implementing mini-workshops that are easily accessible in rural areas throughout the state
- To Identify and implement several delivery methods for the trainings (i.e. face-to-face, video-streaming, etc.)

To achieve specific learning outcomes from interpreter training, the contractor shall include the following but not limited to objectives:

- Increase knowledge and skill in the appropriate use of modality and language to meet the needs of the deaf and hard of hearing community
- Increase knowledge and ability to interpret on specialized topics such as medical, legal, etc.
- Increase ability to clearly convey all aspects of meaning and content
- Ethical conduct. Increase ability to remain impartial and to respect confidentiality

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

SUBJECT

Board Policy V.R. – Establishment of Fees – First Reading

REFERENCE

December 2014	Board approved second reading of amendments to Policy V.R. authorizing summer bridge program and online program fee.
December 2015	Board approved second reading of amendment to Policy V.R. authorizing in-service teacher educator fees, online program fees and established independent study fee.
February 2016	Board approved first reading of amendment to Policy V.R. which removed professional licensure as a mandatory criterion for an academic professional program to be eligible for consideration for a professional fee.
April 2016	Board approved second reading of amendment to Policy V.R., removing professional licensure as a mandatory criterion for establishing a professional fee.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.R.

ALIGNMENT WITH STRATEGIC PLAN

Goal 2; Objective C: Access.

BACKGROUND/DISCUSSION

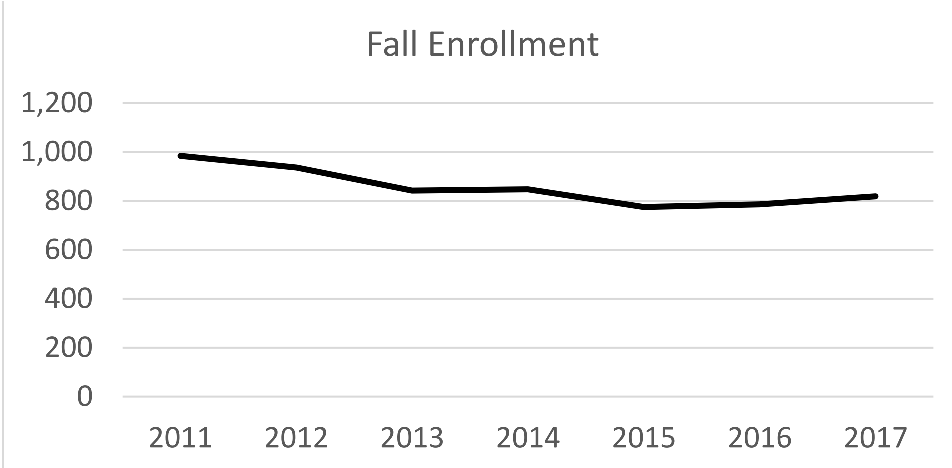
The Idaho Indian Education Committee (Committee) has identified cost as a barrier to Idaho American Indian students access to postsecondary education. With the goal of increasing access to postsecondary education for tribal members who meet specific eligibility requirements, the committee has requested the Board establish a fee in lieu of tuition, similar to other fees established by the Board.

Committee members have emphasized that the median incomes of American Indian families in Idaho are below the averages for Idaho's population at large. According to the US Census Bureau, the median income for American Indian households is $10,000 less than the median income for total Idaho households.

American Indian Households Median Income	Total Idaho Households Median Income
$35,000 to $39,999	**$45,000 to $49,999**

Source: US Census Bureau

Since 2011, American Indian students attending an Idaho public institution has decreased 17 percent.



Source: Integrated Postsecondary Education Data System

The Committee proposes the fee as a means to reverse the trend of American Indian students being "priced out" of postsecondary education. The proposal for undergraduate and graduate students to pay $60 per credit is an effort to make postsecondary education more affordable for this population. In order to receive the benefit, the Committee recommends students:

- Be an enrolled member of one of Idaho's five federally recognized American Indian tribes that maintains a reservation in Idaho: Coeur d'Alene Tribe, Kootenai Tribe, Nez Perce Tribe, Shoshone-Bannock Tribes, and Shoshone-Paiute Tribes.
- Provide verification of tribal enrollment, such as a Tribal Enrollment Card, from the appropriate tribe.
- Apply for the Free Application for Federal Student Aid (FAFSA) by March 1 for each academic year the proposed fee is requested.
- Maintain satisfactory academic progress according to institutional requirements.
- Be degree-seeking.

The Committee has requested that the Board consider amending Board policy to establish the fee in time for implementation for the Fall 2018 semester (FY2019), and that the Board should encourage the community colleges to adopt similar strategies for their students in an effort to promote postsecondary attendance and completion.

IMPACT

Attachment 2 includes a financial analysis of the potential tuition revenue losses that might take place, based on the Committee's estimate of the number of American Indian students at the institutions who would be eligible for the fee under the Committee-proposed criteria. The Committee estimate is based on 177 eligible students at the four-year institutions, for an estimated tuition revenue loss of approximately $600,000.

ATTACHMENTS

Attachment 1 – Section V.R. – First Reading
Attachment 2 – Committee proposal and rationale

STAFF COMMENTS AND RECOMMENDATIONS

American Indian students attend postsecondary institutions and complete postsecondary education at lower rates than the state average. Through lowering the fee for American Indian students, it is anticipated that enrollments will increase. The magnitude of the increase is difficult to estimate as this would be a unique policy action and so comparative data are not available.

Based on the information that the Committee provided to Board staff, the proposal would result in approximately $600,000 of forgone tuition revenue, if enrollments were held constant. This does not take into consideration revenue generated by increased enrollments, as the fee is less than the cost of providing instruction. If the proposal is successful in attracting more American Indian students into postsecondary education, that number could be higher.

The Committee notes the amount of out-of-state tuition waivers and other fees that are issued by the institutions as precedent for the proposal. The amount of foregone revenue through this proposal is estimated to be approximately 5% of the $12.8 million in waivers and reduced fees by the institutions according to the 2017-2018 Tuition Waiver report. The proposal represents additional loss of revenue, for which the institutions have not yet budgeted.

The proposal was discussed at the Business Affairs and Human Resources (BAHR) Committee meeting on June 8, 2018. Institutions voiced their support of the proposal, but also noted the potential fiscal impact on institution budgets. BAHR discussed the possibility of seeking a system-wide appropriation to offset the estimated foregone revenue. Requesting line item funding for this group of students would offset the budgetary impact.

Members of the Committee will present their proposal and be available to answer Board members' questions on the proposed policy amendment.

Staff recommends the Board seek an appropriation to offset the loss of revenue that would result from approval of this proposal should the proposed policy amendment be approved.

BOARD ACTION

I move to approve the first reading of proposed amendment to Board policy Section V.R., Establishment of Fees, as presented in Attachment 1.

Moved by____________ Seconded by____________ Carried Yes____ No____

OR

I move to approve the first reading of proposed amendment to Board policy Section V.R.3,.a. establishing a new fee effective for the 2019-2020 academic year, contingent on state appropriations to offset the cost; to authorize Idaho State University to pilot the new fee during the 2018-2019 school year; and to direct staff to develop an FY 2020 line item request for funds to offset the fee.

Moved by____________ Seconded by____________ Carried Yes____ No____

1. Board Policy on Student Tuition and Fees

   Consistent with the Statewide Plan for Higher Education in Idaho, the institutions shall maintain tuition and fees that provide for quality education and maintain access to educational programs for Idaho citizens. In setting fees, the Board will consider recommended fees as compared to fees at peer institutions, percent fee increases compared to inflationary factors, fees as a percent of per capita income and/or household income, and the share students pay of their education costs. Other criteria may be considered as is deemed appropriate at the time of a fee change. An institution cannot request more than a ten percent (10%) increase in the total full-time student fee unless otherwise authorized by the Board.

2. Tuition and Fee Setting Process – Board Approved Tuition and Fees

   a. Initial Notice

      A proposal to alter student tuition and fees covered by Subsection V.R.3. shall be formalized by initial notice of the chief executive officer of the institution at least six (6) weeks prior to the Board meeting at which a final decision is to be made.

      Notice will consist of transmittal, in writing, to the student body president and to the recognized student newspaper during the months of publication of the proposal contained in the initial notice. The proposal will describe the amount of change, statement of purpose, and the amount of revenues to be collected.

      The initial notice must include an invitation to the students to present oral or written testimony at the public hearing held by the institution to discuss the fee proposal. A record of the public hearing as well as a copy of the initial notice shall be made available to the Board.

   b. Board Approval

      Board approval for fees will be considered when appropriate or necessary. This approval will be timed to provide the institutions with sufficient time to prepare the subsequent fiscal year operating budget.

   c. Effective Date

      Any change in the rate of tuition and fees becomes effective on the date approved by the Board unless otherwise specified.

3. Definitions and Types of Tuition and Fees

The following definitions are applicable to tuition and fees charged to students at all of the state colleges and universities under the governance of the Board (the community colleges are included only as specified).

a. General and Career Technical Education Tuition and Fees

Tuition and fees approved by the State Board of Education. Revenues from these fees are deposited in the unrestricted fund.

i. Tuition – University of Idaho, Boise State University, Idaho State University, Lewis-Clark State College

Tuition is the amount charged for any and all educational costs at University of Idaho, Boise State University, Idaho State University, and Lewis-Clark State College. Tuition includes, but is not limited to, costs associated with academic services; instruction; the construction, maintenance, and operation of buildings and facilities; student services; or institutional support.

ii. Career Technical Education Fee

Career Technical Education fee is defined as the fee charged for educational costs for students enrolled in Career Technical Education pre-employment, preparatory programs.

iii. Part-time Credit Hour Fee

Part-time credit hour fee is defined as the fee per credit hour charged for educational costs for part-time students enrolled in any degree program.

iv. Graduate Fee

Graduate fee is defined as the additional fee charged for educational costs for full-time and part-time students enrolled in any post- baccalaureate degree-granting program.

v. Western Undergraduate Exchange (WUE) Fee

Western Undergraduate Exchange fee is defined as the additional fee for full-time students participating in this program and shall be equal to fifty percent (50%) of the total of tuition, facility fee, technology fee and activity fee.

vi. Employee/Spouse/Dependent Fee

The fee for eligible participants shall be set by each institution, subject to Board approval. Eligibility shall be determined by each institution. Employees, spouses and dependents at institutions and agencies under the jurisdiction of the Board may be eligible for this fee. Employees of the Office of the State Board of Education and the Division of Career Technical Education shall be treated as institution employees for purposes of eligibility. Special course fees may also be charged.

vii. Senior Citizen Fee

The fee for eligible participants shall be set by each institution, subject to Board approval. Eligibility shall be determined by each institution.

viii. In-Service Teacher Education Fee

This fee shall be applicable only to teacher education courses offered as teacher professional development. This fee is not intended for courses which count toward an institution's degree programs. Courses must be approved by the appropriate academic unit(s) at the institution. For purposes of this special fee only, "teacher" means any certificated staff (i.e. pupil services, instructional and administrative).

a) The fee shall not exceed one-third of the part-time undergraduate credit hour fee or one-third of the graduate credit hour fee for Idaho teachers employed at an Idaho elementary or secondary school; and

b) The credit-granting institution may set a course fee up to the regular undergraduate or graduate credit hour fee for non-Idaho teachers, for teachers who are not employed at an Idaho elementary or secondary school, or in cases where the credit-granting institution bears all or part of the costs of delivering the course.

ix. Transcription Fee

A fee may be charged for processing and transcripting credits. The fee shall be $10.00 per credit for academic year 2014-15 only, and set annually by the Board thereafter. This fee may be charged to students enrolled in a qualified Workforce Training course where the student elects to receive credit. The cost of delivering Workforce Training courses, which typically are for noncredit, is an additional fee since Workforce Training courses are self-supporting. The fees for delivering the courses are retained by the technical colleges. This fee may also be charged for transcripting demonstrable technical competencies.

x. Online Program Fee

a) An online program fee may be charged for any fully online undergraduate, graduate, and certificate program. An online program fee shall be in lieu of resident or non-resident tuition (as defined in Idaho Code §33-3717B) and all other Board-approved fees. An online program is one in which all courses are offered and delivered via distance learning modalities (e.g. campus-supported learning management system, videoconferencing, etc.); provided however, that limited on-campus meetings may be allowed if necessary for accreditation purposes or to ensure the program is pedagogically sound.

b) Nothing in this policy shall preclude pricing online programs at a market competitive rate which may be less or more than the current resident or non-resident per credit hour rates.

xi. American Indian Student Fee

Enrolled members of the following five Idaho tribes, which maintain reservations in Idaho, are eligible for a fee of $60 per credit hour, in lieu of tuition: Coeur d'Alene Tribe, Kootenai Tribe, Nez Perce Tribe, Shoshone-Bannock Tribes, and Shoshone-Paiute Tribes. The $60 per credit hour fee will be applicable to degree-seeking students for any academic or technical undergraduate or graduate program. Special course fees and institutional local fees may also be charged. Eligible students must provide proof of enrollment in an eligible tribe, and must apply for the Free Application for Federal Student Aid (FAFSA) by March 1 for each academic year in which the fee is requested. Institutions may set the criteria for satisfactory academic progress to maintain eligibility for the fee.

b. Institutional Local Fees – Approved by the Board

Institutional local fees are student fees that are approved by the State Board of Education and deposited into local institutional accounts. Local fees shall be expended for the purposes for which they were collected.

The facilities, activity and technology fees shall be displayed with the institution's tuition and fees when the Board approves tuition and fees.

i. Facilities Fee

Facilities fee is defined as the fee charged for capital improvement and building projects and for debt service required by these projects. Revenues collected from this fee may not be expended on the operating costs of the general education facilities.

ii. Activity Fee

Activity fee is defined as the fee charged for such activities as intercollegiate athletics, student health center, student union operations, the associated student body, financial aid, intramural and recreation, and other activities which directly benefit and involve students. The activity fee shall not be charged for educational costs or major capital improvement or building projects. Each institution shall develop a detailed definition and allocation proposal for each activity for internal management purposes.

iii. Technology Fee

Technology fee is defined as the fee charged for campus technology enhancements and operations directly related to services for student use and benefit (e.g., internet and web access, general computer facilities, electronic or online testing, and online media).

iv. Professional Fees

To designate a professional fee for a Board approved academic program, *all* of the following criteria must be met:

a) Credential or Licensure Requirement:

1) A professional fee may be charged for an academic professional program if graduates of the program obtain a specialized higher education degree that qualifies them to practice a professional service involving expert and specialized knowledge for which credentialing or licensing may be required. For purposes of this fee, "academic" means a systematic, usually sequential, grouping of courses that provide the student with the knowledge and competencies required for a baccalaureate, master's, specialist or doctoral degree as defined in policy III.E.1.;

2) The program leads to a degree which provides at least the minimum capabilities required for entry to the practice of a profession.

b) Accreditation Requirement: The program:

1) is accredited,

2) is actively seeking accreditation if a new program, or

3) will be actively seeking accreditation after the first full year of existence if a new program by a regional or specialized accrediting agency.

c) Extraordinary Program Costs: Institutions will propose professional fees for Board approval based on the costs to deliver the program. An institution must provide clear and convincing documentation that the cost of the professional program significantly exceeds the cost to deliver non-professional programs at the institution. A reduction in appropriated funding in support of an existing program is not a sufficient basis alone upon which to make a claim of extraordinary program costs.

d) The program may include support from appropriated funds.

e) The program is consistent with traditional academic offerings of the institution serving a population that accesses the same activities, services, and features as regular full-time, tuition-paying students.

f) Upon the approval and establishment of a professional fee, course fees associated with the same program shall be prohibited.

g) Once a professional fee is initially approved by the Board, any subsequent increase in a professional fee shall require prior approval by the Board at the same meeting institutions submit proposals for tuition and fees.

v. Self-Support Academic Program Fees

a) Self-support programs are academic degrees or certificates for which students are charged program fees, in lieu of tuition. For purposes of this fee, “academic” means a systematic, usually sequential, grouping of courses that provide the student with the knowledge and competencies required for an academic certificate, baccalaureate, master’s, specialist or doctoral degree. To bring a Self-support program fee to the Board for approval, the following criteria must be met:

1) An institution shall follow the program approval guidelines set forth in policy III.G.

2) The Self-support program shall be a defined set of specific courses that once successfully completed result in the awarding of an academic certificate or degree.

3) The Self-support program shall be distinct from the traditional offerings of the institution by serving a population that does not access the same activities, services and features as full-time, tuition paying students, such as programs designed specifically for working professionals, programs offered off-campus, or programs delivered completely online.

4) No appropriated funds may be used in support of Self-support programs. Self-support program fee revenue shall cover all direct costs of the

program. In addition, Self-support program fee revenue shall cover all indirect costs of the program within two years of program start-up.

5) Self-support program fees shall be segregated, tracked and accounted for separately from all other programs of the institution.

b) If a Self-support program fee is requested for a new program, an institution may fund program start-up costs with appropriated or local funds, but all such funding shall be repaid to the institution from program revenue within a period not to exceed three years from program start-up.

c) Once a Self-support program fee is initially approved by the Board, any subsequent increase in a Self-support program fee shall require prior approval by the Board.

d) Institutions shall review Self-support academic programs every three (3) years to ensure that program revenue is paying for all program costs, direct and indirect, and that no appropriated funds are supporting the program.

e) Students enrolled in self-support programs may take courses outside of the program so long as they pay the required tuition and fees for those courses.

vi. Contracts and Grants

Special fee arrangements are authorized by the Board for instructional programs provided by an institution pursuant to a grant or contract approved by the Board.

vii. Student Health Insurance Premiums or Room and Board Rates

Fees for student health insurance premiums paid either as part of the uniform student fee or separately by individual students, or charges for room and board at the dormitories or family housing units of the institutions. Changes in insurance premiums or room and board rates or family housing charges shall be approved by the Board no later than three (3) months prior to the semester the change is to become effective. The Board may delegate the approval of these premiums and rates to the chief executive officer.

viii. New Student Orientation Fee

This fee is defined as a mandatory fee charged to all first-time, full-time students who are registered and enrolled at an institution. The fee may only be used for costs of on-campus orientation programs such as materials, housing, food and student leader stipends, not otherwise covered in Board-approved tuition and fees.

ix. Dual Credit Fee

High school students who enroll in one or more dual credit courses delivered by high schools (including Idaho Digital Learning Academy), either face-to-face or online, are eligible to pay a reduced cost per credit which is approved at the Board's annual tuition and fee setting meeting. The term "dual credit" as used in this section is defined in Board Policy III.Y.

x. Summer Bridge Program Fee

This fee is defined as a fee charged to students recently graduated from high school, who are admitted into a summer bridge program at an institution the summer immediately following graduation from high school, and who will be enrolling in pre-determined college-level courses at the same institution the fall semester of the same year for the express purpose of acquiring knowledge and skills necessary to be successful in college. The bridge program fee shall be $65 per credit for academic year 2014-15 only, and set annually by the Board thereafter.

xi. Independent Study in Idaho

A fee may be charged for courses offered through the Independent Study in Idaho (ISI) cooperative program. Complete degree programs shall not be offered through the ISI. Credits earned upon course completion shall transfer to any Idaho public college or university. The ISI program shall receive no appropriated or institutional funding, and shall operate alone on revenue generated through ISI student registration fees.

c. Institutional Local Fees and Charges Approved by Chief Executive Officer

The following local fees and charges are charged to support specific activities and are only charged to students that engage in these particular activities. Local fees and charges are deposited into local institutional accounts or the unrestricted fund and shall only be expended for the purposes for which they were collected. All local fees or changes to such local fees are established and become effective in the amount and at the time specified by the chief executive officer or provost of the institution. The chief executive officer is responsible for reporting these local fees to the Board upon request.

i. Continuing Education

Continuing education fee is defined as the additional fee to continuing education students which is charged on a per credit hour basis to support the costs of continuing education.

ii. Course Overload Fee

This fee may be charged to full-time students with excessive course loads as determined by each institution. Revenue from this fee is deposited in the unrestricted fund.

iii. Special Course Fees

A special course fee is an additive fee on top of the standard per credit hour fee which may be charged to students enrolled in a specific course for materials and/or activities required for that course. Special course fees, or changes to such fees, are established and become effective in the amount and at the time specified by the chief executive officer or provost, and must be prominently posted so as to be readily accessible and transparent to students, along with other required course cost information. These fees shall be reported to the Board upon request.

a) Special course fees shall be directly related to academic programming. Likewise, special course fees for career technical courses shall be directly related to the skill or trade being taught.

b) Special course fees may only be charged to cover the direct costs of the additional and necessary expenses that are unique to the course. This includes the costs for lab materials and supplies, specialized software, cost for distance and/or online delivery, and personnel costs for a lab manager. A special course fee shall not subsidize other courses, programs or institution operations.

c) A special course fee shall not be used to pay a cost for which the institution would ordinarily budget including faculty, administrative support and supplies.

d) Special course fees shall be separately accounted for and shall not be commingled with other funds; provided however, multiple course fees supporting a common special cost (e.g. language lab, science lab equipment, computer equipment/software, etc.) may be combined. The institution is responsible for managing these fees to ensure appropriate use (i.e. directly attributable to the associated courses) and that reserve balances are justified to ensure that fees charged are not excessive.

e) The institution shall maintain a system of procedures and controls providing reasonable assurance that special course fees are properly approved and used in accordance with this policy, including an annual rolling review of one-third of the fees over a 3-year cycle.

iv. Processing Fees, Permits and Fines

a) Processing fees may be charged for the provision of academic products or services to students (e.g. undergraduate application fee, graduate application fee, program application fee, graduation/diploma fee, and transcripts). Fees for permits (e.g. parking permit) may also be charged.

b) Fines may be charged for the infraction of an institution policy (e.g., late fee, late drop, library fine, parking fine, lost card, returned check, or stop payment).

All processing fees, permit fees and fines are established and become effective in the amount and at the time specified by the chief executive officer, and shall be reported to the Board upon request.

Proposed Fee for American Indian Students

Proposal:

The Idaho Indian Education Committee (IIEC) proposes to the State Board of Education to establish in Board Policy V.R. an American Indian Fee. Whereby, members of Idaho's five federally recognized American Indian Tribes will pay a $60 per credit fee, in lieu of current tuition, that will be applicable to all technical, academic undergraduate, and graduate programs, effective for all academic terms beginning Fall 2018. The proposed fee shall not supplant any previously established scholarships and/or tuition and fee waivers currently in place at any institution with any Idaho tribe. All special course fees and institutional local fees as approved by the Board such as technology, activity fee, facilities, online, and professional fees will be applied per usual institutional policies.

To be eligible, the student must:

- be an enrolled member of one of Idaho's five federally recognized American Indian tribes that maintains a reservation in Idaho: Coeur d'Alene Tribe, Kootenai Tribe, Nez Perce Tribe, Shoshone-Bannock Tribes, and Shoshone-Paiute Tribes.
- provide verification of tribal enrollment, such as a Tribal Enrollment Card, from the appropriate tribe.
- apply for the Free Application for Federal Student Aid (FAFSA) by March 1 for each academic year the proposed fee is requested.
- maintain satisfactory academic progress according to institutional requirements.
- be degree-seeking.

This tuition fee initiative was discussed at the April 18, 2018 Joint Financial Vice Presidents and Provosts meeting.

Background:

1. Understanding Unique Tribal Sovereign Status vs. Minority Status

Enrolled tribal members of federally recognized tribes have a unique political status that is distinctive from minority populations. Minority groups are generally defined by those who are not considered a member of a dominant or majority group, and can be subject to disparities based on a variety of factors (gender, religion, race, ethnicity, class, etc.). Due to the political status of American Indian tribes, minority status is not an appropriate identification for tribes. The five federally recognized Idaho tribes are tribal governments who exercise sovereignty, who have the power and authority to govern over their own affairs, determine their own destiny, establish and enforce their own laws, and regulate activity on their own lands. It is the power to self-govern.

As a sovereign entity, each Idaho tribe has promulgated tribal laws and regulations to determine tribal membership. Tribal members have three layers of citizenship, first as a tribal citizen; second, as a citizen of the United States; and third, as a citizen of the state of Idaho. Often tribal members are not recognized as Idaho citizens due to varying degrees of understanding of tribal enrollment and reservation based residency. Idaho's educational leadership has a mission of providing an education for all Idaho citizens. The governing board for public education is tasked with providing educational reform to remove barriers of access and affordability. This proposal promotes and supports equal access and affordability to postsecondary education opportunities for Idaho's tribal citizens in a manner that is based on federal and state responsibilities. Education is considered the equalizer to economic sufficiency and society mobility; therefore, it is of utmost importance for the Tribes to have trained professionals who are vested in their civic responsibilities, and will contribute to the tribal, local, regional, and state communities.

2. Federal and State Responsibilities

Originally, the federal government held the responsibility to provide education to American Indian students, as affirmed by treaties, statutes, and federal policies. Early educational efforts forced Indian students to off reservation resident boarding schools and later to local day schools. The twentieth-century broadened educational responsibility for Indian education to also include the State of Idaho.

In 1946, Idaho reorganized the state's school districts, and included Indian reservations within the new district boundaries. In 1949, the State and the U.S. government entered into an agreement to provide education for Indian students without input from the tribes **(Exhibit A)**. Federal funding, via Impact Aid and Johnson O'Malley, provided funding to meet the unique educational needs of Indian students and tried to incorporate tribal participation into Indian education. In the 1950s, more tribal students began enrolling in state colleges, and the need for higher education was facilitated by the 1975 Indian Self-Determination and Education Assistance Acts. According to the American Council on Education, while the American Indian population grew 39% from 2000 to 2010, enrollment in postsecondary education remained static. American Indians do not access higher education at the same rates as their non-Native peers.

3. State Models of Institution Waiver Programs

This is not an exhaustive list of all states that provide tuition assistance.

In-State Tuition Waivers (targeted to federally recognized tribes)

- Montana University System offers tuition waiver for MT AI residents from federally recognized tribes within the state
- Maine (UofMaine) provides tuition waiver and scholarship that covers room and board for members of historical tribes of Maine area OR resident of Maine from any federally recognized or Canadian tribe
- Massachusetts tuition waiver for historical Massachusetts area tribes who are Massachusetts residents
- Michigan tuition waiver for residents of Michigan enrolled in a Michigan tribe
- Minnesota (UofMN Morris) waivers for enrolled member in a federally recognized tribe
- North Dakota provides tuition waivers for tribally enrolled AI students from any state

Out-of-state Tuition Waivers (targeted to all federally recognized tribes)

- California in-state tuition for AI students who graduate from a BIA high school
- Iowa in state tuition for AI students with specifications to original origins of people of North America
- Oklahoma in-state tuition for tribal enrollees
- Utah & Washington in-state tuition for AI students who's tribes are from the state or neighboring states

4. American Indian Student Enrollment and Impact

Each of Idaho's public institutions are required to report race/ethnicity data to the Integrated Postsecondary Education Data System (IPEDS) according to their designated categories. The data from Spring 2018 below are total numbers and include all persons who self-identify[1] as American Indian/Alaskan Native as a first race, as well as in the category of two or more races. Some institutions are also tracking tribal affiliation. These numbers make up self-identified American Indian, resident and non-resident students.

[1] Self-identification does not necessarily correspond with official membership in a federally recognized tribe. A member of an Indian tribe is one who is officially recognized as such through the appropriate tribal criteria for enrollment.

Institution	Total
Boise State University	413
Idaho State University	339
University of Idaho	343
Lewis-Clark State College	200
College of Eastern Idaho	13
College of Southern Idaho	61
College of Western Idaho	74
North Idaho College	205

These data from fall 2017 were provided by the five Tribal Education Departments and represent the number of tribally enrolled students for whom they are providing support and the institutions they are attending in Idaho. The only exception is the Kootenai Tribe, whose numbers only represent a projected number of 2018 high school graduating seniors. This number does not indicate future enrollment in any of Idaho's public post-secondary institutions. The numbers below are likely a more accurate report of tribally enrolled students that attend Idaho's eight higher education institutions represent than those provided by the institutions.

	BSU	ISU	UI	CEI	CSI	CWI	LCSC	NIC	Total
Coeur d' Alene		1	6				5	27	39
Kootenai									6 (based on projected 2018 H.S. graduates
Nez Perce	2		14		1		27		44
Shoshone-Bannock	5	68	7		3				83
Shoshone-Paiute			2		2	1			5
TOTAL	**7**	**69**	**29**		**6**	**1**	**32**	**27**	**177**

<u>Financial Impact</u>

Current Tuition & Fees

	BSU	ISU	LCSC	UI
FY19 Tuition (unrestricted)	$5,258.80	$5,645.00	$5,502.00	$5,778.44
Technology Fee	$244.60	$166.80	$130.00	$165.40
Facilities Fee	$1,359.60	$510.00	$155.00	$791.62
Student Activity Fee	$831.00	$1,098.20	$831.00	$1,128.54
Total	$7,694.00	$7,420.00	$6,618.00	$7,864.00

Proposed Tuition & Fees (As of Fall 2018)

	BSU	ISU	LCSC	UI
Proposed Fee $60 per credit (@full-time)	$1440.00	$1440.00	$1440.00	$1440.00
Combined Fees Above	$2,441.20	$1,775.00	$1,116.00	$2,085.56
Total	$3,881.20	$3,215.00	$2,556.00	$3,525.56

Impact of Changes

	BSU	ISU	LCSC	UI

Current Tuition Revenue	$36,811.60	$389,505.00	$176,064.00	$188,407.00
Proposed Tuition Revenue	$10,080.00	$99,360.00	$46,080.00	$36,720.00
Tuition Revenue Loss	**$26,731.60**	**$290,145.00**	**$129,984.00**	**$151,687.00**
Total Other Waivers Awarded by Institutions in FY2017	$4,697,869.00	$3,433,274.00	$450,341.00	$4,298,572.00

5. **The Five Federally Recognized Tribes of Idaho**

Since the formation of the Idaho Indian Education Committee (IIEC), the Coeur d'Alene, Nez Perce, Kootenai, Shoshone-Bannock and Shoshone-Paiute have represented the five Tribes of Idaho. These Tribes have reservations within Idaho as established by Treaty or Executive Order. The work of the IIEC has been focused on Idaho American Indian students. As this fee proposal is specific to our Idaho institutions of higher Education, and the active involvement and participation with the Tribes on the committee, we are only recognizing and selecting these Tribes as eligible for the proposed fee amount. Further, Tribes are cognizant of the financial impact of extending this beyond Idaho's five tribes, and we are seeking to minimize the financial impact to the institutions.

6. **Rationale for the proposed fee**

According to the US Census Bureau American Community Survey, the per capita income of an American Indian and Alaskan Native was $18,961 in 2016 (most recent data available). According to the State Board of Education April Board Meeting Work Session Materials, the per capita income in Idaho in 2016 was approximately $39,000. The same SBOE document shows that the cost of attending an Idaho public, 4-year college or university was $19,000 in 2016. This shows that American Indians in Idaho are at a distinct financial disadvantage to the affordability, and consequent access and opportunity, to higher education.

Based on the above information the IIEC has determined the most affordable amount per credit hour is $60 for degree seeking students. For a full-time student taking 12 credits, this would equate to $720 (plus fees) per semester. The proposed fee amount is based on the Board's employee fee model. The employee fee is set by each institution and approved by the Board, currently all institutions' set fee is $5 per credit.

7. **Alignment of Strategic Plans**

There are many factors associated with the issue of parity in equal access to a quality and meaningful education. One of those factors is the combination of one state scholarship, the Opportunity Scholarship that occurred in 2013. The IIEC considers this consolidation of scholarships has contributed to the impediment of American Indian students accessing affordable postsecondary education. However, currently the Board office does not track verifiable, tribally enrolled American Indian students from Idaho's Tribes receiving the Opportunity Scholarship, which the IIEC believes will provide a more accurate picture.

In 2011-2012 there were 35 Minority at Risk and 77 Grown Your Own scholarships awarded at Idaho institutions **(Exhibit B)**. In FY12, the Minority at Risk state funding was $105,000 and increased to $210,000 in FY13. For the Grown Your Own scholarship, the state funding in FY12 the funding was $364,000 and increased to $420,000 in FY13. These two scholarships were targeted primarily for American Indian and Hispanic students. The loss of these scholarships has contributed to the impediment of American Indian students accessing affordable postsecondary education in Idaho.

The fee proposal aligns with the State Board of Education Strategic Plan Goal 2, Educational attainment, Objectives A, B, and C. Increasing access to postsecondary education will elevate the possibilities for American Indian students to pursue a higher level of educational attainment. The amount of certificates and degrees throughout Idaho's educational system and timely degree completion will also advance these goals, which will help close the achievement and opportunity gaps across the K-20 public education continuum. State provisions for greater educational access and workforce readiness (Goal 3, Objective A), supports student preparedness for college and career.

The fee proposal is also congruent with the Governor's Higher Education Taskforce recommendations to improve access and affordability for diverse student populations throughout the state. The proposal aligns with the Board's 60 % goal and the recommendations from the Workforce Development Task Force to improve certificate and degree completion for those in the 25-34 age range and to increase go-on rates for high school graduates.

The fee proposal is further supported by the State Department of Education's mission to ensure all Idaho students persevere in life. This includes stimulating societal mobility for our American Indian student population through education.

Additionally, the proposed $60 per credit fee aligns with the Idaho Indian Education Strategic Plan Goal 1, Objectives A and B, that endorses educational opportunities on an equitable basis and advocates for resources to promote and increase educational attainment among American Indian students. The fee proposal correspondingly supports Goal 2, of the strategic plan, which provides that Idaho K-20 educational institutions will provide all educators with Indigenous scholarship to recognize the distinct, unique knowledge and heritage of Idaho's American Indians. Additional administrative structural challenges in schools located near or on reservations also influence deficiencies of educational opportunities. Inexperienced or unqualified teaching staff hinder high quality instruction, the costs of technology restricts web-based course opportunities, and the lack of culturally responsive pedagogy results in instructional incoherence and low academic performance. Due to these significant and ineffective elements that inhibit adequate academic preparation, American Indian students cannot receive just and equal opportunities to affordability through the Opportunity Scholarship or Advanced Opportunities. Equal access to post-secondary education is not authentic or tenable for American Indian students if policies, programs, and services do not address these issues that will allow for more equitable access.

BOISE STATE UNIVERSITY

SUBJECT

Approval for Planning and Design of Baseball Field

REFERENCE

April 2018	Idaho State Board of Education (Board) approved Boise State University Campus Master Plan Update

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.K.1.

ALIGNMENT WITH STRATEGIC PLAN

Goal 2: Educational Attainment, Objective C: Access

BACKGROUND/DISCUSSION

Boise State University (BSU) seeks Board approval for the planning and design of a new baseball field to be located in the southeast portion of campus.

BSU recently added men's baseball to its athletics programs; the team will begin competitive play in February 2020. A site for a new on-campus baseball field and associated facilities has been proposed in the southeast portion of campus, north of Beacon Avenue between Denver and Euclid Avenue. The BSU Master Plan was updated in April of 2018 to include the proposed location for the baseball field along with associated adjustments to parking, roadways and circulation in the southeast portion of the campus.

The initial plans include construction of an NCAA regulation baseball field with an artificial turf outfield, team dugouts, spectator bleacher seating with press box, restrooms, perimeter fencing/wall and netting, and some on-site parking. Future plans for the facility may include the construction of expanded grandstand-style seating with attached visiting and home team locker rooms and coaches' offices, an indoor hitting facility, covered bullpens, concessions stands and additional parking facilities.

Current concept level estimates for the initial phase range from $8 million to $10 million depending on final scoping and design development details. BSU intends to convey two parcels of land in the Lusk District of Boise to a developer plus approximately $3.5 million in cash in exchange for development of the field and associated spaces. As currently envisioned, construction of the complex will require the closure and removal of a portion of Grant Avenue and two alleyways. In addition, the facility will extend north into Belmont Avenue and will require either closure/removal or relocation of the street.

The cost of initial design services for this project is estimated not to exceed $500,000; the source of funds is institutional reserves.

IMPACT

An off-campus option was initially considered; however, this arrangement would have committed BSU to a costly, long-term lease agreement that would leave BSU without any ownership interest in the field. If an on-campus baseball field is not constructed, the team will need to lease field space for games and practices and/or enter into long-term use agreements with local high schools or other organizations. These arrangements would likely result in scheduling challenges and conflicts because these groups practice and conduct games during the same season as BSU.

BSU will return to the Board for project approval once the design phase is complete.

ATTACHMENTS

Attachment 1 – Project Budget
Attachment 2 – Capital Project Tracking Sheet

STAFF COMMENTS AND RECOMMENDATIONS

BSU's request for the design phase of the proposed baseball field project conforms to the requirements for major capital projects established in Board Policy V.K. Following successful completion of the design phase, BSU will need to return to the Board for approval of the financing plan for the project (the total cost of which is estimated at eight to ten million dollars) and to obtain approval to proceed into construction. Board approval may also be needed if/when real property is acquired or disposed of as part of the baseball complex project.

Staff recommends approval.

BOARD ACTION

I move to approve the request by Boise State University to proceed with planning and design of a new baseball field for a total cost not to exceed $500,000.

BOISE STATE UNIVERSITY

SUBJECT

Revisions and Additions to 2018-19 Online Program Fees

REFERENCE

April 2018	Idaho State Board of Education (Board) approved Boise State University 2018-19 Student Tuition and Fee Rates

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.R.3.

ALIGNMENT WITH STRATEGIC PLAN

Goal 2: Educational Attainment, Objective A: Higher Level of Educational Attainment and Goal 3: Workforce Readiness, Objective A: Workforce Alignment

BACKGROUND/DISCUSSION

Boise State University (BSU) proposes decreases to four online program fees approved at the April 18-19 Board meeting. In addition, BSU proposes new online program fees utilizing a subscription based pricing model as part of a pilot project entitled Passport to Education. If approved, these fee changes will take effect for the fall 2018 semester.

Proposed Decrease in Online Program Fees:

Online Program	FY19 fee approved on 4/18/18	Requested FY19 fee
B.A., Multi-disciplinary Studies	$380.00	$350.00
Bachelor of Applied Science	$380.00	$350.00
B.B.A. Management	$380.00	$350.00
Bachelor of Public Health	$380.00	$350.00

The proposed changes will set pricing for these programs at the same rate as BSU's regular part-time credit hour rate for FY19.

Passport to Education Pilot Program:

BSU's Passport to Education is a pilot program designed with two objectives in mind:

1. Experiment with a lower-priced, subscription-based online fee model to assess its effectiveness in bringing new Idaho students to BSU that otherwise would not attend postsecondary education as well as to assess the financial sustainability of such a pricing model.

2. Explore an alternative online program cost model and assess its effectiveness in lowering costs and improving student success.

The Passport to Education will be launched through an exclusive partnership with Cap Ed Credit Union and be made available to all 75,000 of its members. With Passport to Education, participants will be able to earn a college degree online from BSU for 5-50% less than other national providers. Certificate programs will also be available through the program.

Working with a dedicated "concierge" academic coach, students will pick one of two enrollment options: the 'Passport 9' or 'Passport 6' pathway.

> The Passport 9 Track is for individuals wanting to earn a degree as fast as possible; learners can take up to 9 credit hours per semester which translates into earning an online undergraduate degree in 4.5 years (shorter if transferring prior credits).
>
> The Passport 6 Track is for individuals wanting a greater work/learn/life balance; learners can take up to 6 credit hours per semester which can translate into earning an online undergraduate degree in 6.7 years (shorter if transferring prior credits)

Passport students will be charged a monthly subscription fee rather than receiving a tuition bill at the start of each semester. The subscription will remain fixed for as long as the student maintains payments and stays enrolled in the program. Students may switch between Passport options. Stops and restarts to the payments will result in the student being charged the subscription rates and/or fees in effect at the time of the restart. Rates are valid for seven years. After seven years, if the student wished to continue in the program, their new subscription rate will be set to the most current subscription rate in effect. Passport students may withdraw from payments at the completion of the term they are currently enrolled in with 30 days' written notice required.

In order for a Cap Ed Member to participate, they must meet all entrance and eligibility requirements for BSU and the academic courses or programs they wish to pursue. Admission to BSU and/or the academic program is not guaranteed. Passport students will be held to all academic, performance, and behavioral standards, student code of conduct, etc., required of BSU and participating academic departments. Regional and special program accreditation requirements apply. Passport students will be held to the same add/drop/withdraw policies as regular BSU students.

Pricing Comparisons for Bachelor's Degree			
	Online or In-Person	**Monthly Fee**	**Total Cost**
Passport 9 Track (up to 9 credits per semester)	**Online**	**$550.00**	**$ 29,700** *(~$247.50 per credit hour)*
Passport 6 Track (up to 6 credits per semester)	**Online**	**$425.00**	**$ 34,000** *(~$283.33 per credit hour)*
BSU (Idaho Resident)	Online or Part-time		$ 42,000 *(~$350.00 per credit hour)*
BSU (Idaho Resident)	Full-Time		$ 30,776 *(~$256.47 per credit hour)*
Penn State World Campus	Online		$ 65,040 *(~$542.090 per credit hour)*
ASU Online (Arizona State)	Online		$ 58,800 *(~$483.33 per credit hour)*
Southern New Hampshire Un.	Online		$ 38,400 *(~$320.00 per credit hour)*
University of Phoenix	Online		$ 38,000 *(~$316.67 per credit hour)*
Western Governor's University	Online		$ 34,000 *(~$283.33 per credit hour)*

The pricing estimates and comparisons listed above are based on the most current tuition and fees published for each institution. Comparison excludes any financial aid, scholarships, and future tuition and fee increases. Total cost assumes students complete the program on schedule based on the pricing model illustrated. Per credit hours cost assumes a 120 student credit hours required for a degree program.

All programs initially offered through the Passport to Education program are existing online programs. Some of these existing programs are available to student's paying BSU's regular tuition and fees whereas other of these existing programs are available to student's paying online program fees. State Board of Education approval will be sought before any new degree or certificate programs are added to the Passport to Education program.

The following degrees and certificates will initially be made available to Passport to Education students:

Existing Online Programs to be Offered
B.A., Multi-disciplinary Studies
Bachelor of Applied Science
Business Bridge to Career Certificate
Applied Leadership Certificate
Design Ethnography Certificate
Business Bridge to Career Minor

The pricing and cost model is based on several assumptions.

1. The pricing model assumes the partnership with CapEd Credit Union will mitigate the need for BSU to expend funds to recruit Passport to Education students and assumes these new students would not otherwise have attended BSU.
2. The cost model assumes that the average student credit hours enrolled will be less than the maximum number of student credit hours allowable each semester for each tier that students enroll in.
3. The cost model assumes that sufficient students enroll and that programs will achieve savings as they scale to large numbers.
4. The pricing model assumes that the simplicity and convenience of fixed monthly pricing will attract students that otherwise would not have attended BSU.

IMPACT

The Passport to Education program provides a low-cost option for working Idaho students to earn a degree while supporting progress towards Idaho's 60% goal. This pilot program will allow BSU to model new ways to drive down the cost of online education and test assumptions that have been built into the pricing model.

The Passport to Education program projects the following enrollments:

	2018-19
Passport 6	50
Passport 9	25

STAFF COMMENTS AND RECOMMENDATIONS

BSU had not finalized its proposal to reduce the online program fees for the four programs listed above (Baccalaureate degrees in Multi-Disciplinary Studies, Applied Science, Management, and Public Health) in time for these lowered fees to be included for consideration at the April tuition and fee setting session. Staff believes the logic for reducing the costs of these programs to the part-time credit hour rate for FY2019 is sound and that this may improve access to these programs.

The proposed "Passport to Education" pilot program, in partnership with industry, is an innovative model which has the potential to increase access to new cohorts of working students. The Board may wish to invite BSU to provide periodic reports on the success of this initiative to determine if the approach merits expansion to other BSU programs and other institutions.

Staff recommends approval of the proposed online fee reductions as well as the request to pursue the pricing model associated with the proposed "Passport to Education" pilot project.

BOARD ACTION

I move to approve the proposed online program fee reductions and the proposed pricing model for the "Passport to Education" pilot program as described in the attached FY 2019 Boise State University revised fee schedule.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

BOISE STATE UNIVERSITY

SUBJECT

Amendment to Multi-Media and Marketing Rights Agreement for Boise State University (BSU) Athletics

REFERENCE

October 2009	Idaho State Board of Education (Board) approved multimedia and sports marketing agreement with Learfield Sports Marketing (Learfield)
December 2009	Board approved changes to the Learfield multimedia and sports marketing agreement
August 2014	Board approved changes to the Learfield multimedia and sports marketing agreement

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies and Procedures, Section V.I.6.b

ALIGNMENT WITH STRATEGIC PLAN

Goal 2: Educational Attainment, Objective C: Access

BACKGROUND/DISCUSSION

In 2009, Boise State University (BSU) entered into a multimedia and sports marketing agreement with Learfield. The original contract was reached via a public bid process followed by final negotiations with the winning bidder, Bronco Sports Properties, LLC, a subsidiary of Learfield Communications. The original Agreement was for seven years commencing July 1, 2010, with three additional one year options, each exercisable at BSU's option. In 2014, BSU elected to exercise its option to extend the agreement through June 30, 2025.

BSU and Learfield have negotiated a new three-year extension that would extend the contract until 2028. In addition to the extended term, Learfield has agreed to provide BSU additional monetary consideration as outlined in the table below. In exchange for the increases in guarantee and capital stipend amounts, BSU will consider, in good faith, multi-media rights proposals for off campus beer and wine promotions and partnerships in the casino/gaming categories. Additionally, University will also allow more widespread use of the athletic trademark.

IMPACT

The new terms of the agreement will be July 1, 2010 through June 30, 2028 and would provide BSU an additional $17,450,000 over the current contract through additional revenue each year and the three additional years of the contract.

The value of the Learfield agreement to BSU is set forth below. The chart outlines the current and proposed capital stipend, the current and proposed guarantee payment, the proposed extension's additional revenue to create a new position, and a breakdown of the amount the proposed extension would give BSU in additional revenue each year (note that the totals do not include revenue sharing and other smaller amounts).

Year	Current Capital Stipend	Proposed Capital Stipend	Current Guarantee Payment	Proposed Guarantee Payment	Proposed Extension New Position	Additional Annual Revenue
2017-2018	$300,000		$3,300,000	*^$3,300,000*		
2018-2019	$100,000	$600,000	$3,400,000	$3,800,000	$55,000	$955,000
2019-2020	$100,000	$600,000	$3,500,000	$4,000,000	$55,000	$1,055,000
2020-2021	$100,000	$100,000	$3,700,000	$4,200,000	$55,000	$555,000
2021-2022	$100,000	$100,000	$3,900,000	$4,400,000	$55,000	$555,000
2022-2023	$100,000	$100,000	$4,100,000	$4,600,000	$55,000	$555,000
2023-2024	$100,000	$100,000	$4,300,000	$4,800,000	$55,000	$555,000
2024-2025	$100,000	$100,000	$4,500,000	$5,000,000	$55,000	$555,000
2025-2026			*$4,700,000**	$5,200,000	$55,000	$555,000
2026-2027			*$4,900,000**	$5,400,000	$55,000	$555,000
2027-2028			*$5,100,000**	$5,600,000	$55,000	$555,000
Total						$6,450,000

The proposed extension's dollar value is $17.45M

Based on the proposed increases and past increases in the guaranteed payment category, Boise State will see an additional $6.45M budgetarily in revenue over 10 years. This roughly results in an increase in revenue of $645,000 each year over the ten year lifespan of the contract.

*Amount estimated based on current contract trends to calculate revenue increase. These figures are for illustrative purposes only.
^Current guaranteed payment

ATTACHMENTS

Attachment 1 – Proposed Amendment
Attachment 2 – Current Multi Media Rights Agreement
Attachment 3 – Original Multi Media Rights Agreement
Attachment 4 – Bronco Sports Properties Approval Process
Attachment 5 – Examples for Beer/Wine Category

STAFF COMMENTS AND RECOMMENDATIONS

The proposed amendment (after netting out expense of the additional position) will generate additional revenue to support athletic operations over the ten years of the contract.

In discussions with Board staff on the contract terms, BSU administrators stressed that they would use discretion as they consider "multi-media rights proposals for off campus beer and wine promotions and partnerships in the casino/gaming categories," noting that the public image of the University and the higher education system must remain unblemished. The BAHR committee requested the institution to clearly define the process by which proposals would be evaluated and approved.

This item was heard by the BAHR committee where BSU administrators indicated that the advertisement for beer and wine promotions would only be off campus. Beer and wine promotions on campus would still be excluded from the agreement. The casino and gaming portion of the amendment would only apply to on-campus promotions. The example was given that an American Indian gaming casino could advertise next to the scoreboard. The limitation of casino and gaming advertising to on-campus activities was not clear in the amendment, although that limitation is how BSU administrators intend the agreement to operate.

Representatives of BSU's administration will be ready to address any Board member questions on the amended contract.

BOARD ACTION

I move to approve the request by Boise State University to enter into a three year contract extension with Learfield Sports Marketing as outlined herein.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

SECOND AMENDMENT
TO
MULTI-MEDIA RIGHTS AGREEMENT

THIS SECOND AMENDMENT ("Second Amendment"), effective as of this ___ day of June, 2018, is hereby executed by and between BOISE STATE UNIVERSITY ("University"), and BRONCO SPORTS PROPERTIES, LLC, a Missouri limited liability company ("Learfield") qualified to do business in Idaho and a wholly-owned subsidiary of Learfield Communications, LLC. This Second Amendment amends that certain Multi-Media Rights Agreement (the "Multi-Media Rights Agreement") between University and Learfield that had an effective date of July 1, 2010, as amended by that certain Amendment to Multi-Media Rights Agreement, having an effective date of July 1, 2014 (the "Amendment"). The Amendment, together with the Multi-Media Rights Agreement, make up the "Agreement."

BACKGROUND

A. University and Learfield have been operating under the Agreement.
B. University and Learfield have agreed to extend the Term of the Agreement for an additional three years, through June 30, 2028.
C. In consideration for the University agreeing to extend the Term, Learfield has agreed to provide University additional consideration as more particularly set forth below.
D. Capitalized terms not otherwise defined in this Second Amendment shall have the meaning ascribed thereto in the Agreement.

NOW, THEREFORE, in accordance with these recitals and in consideration of mutual promises and covenants recited thereafter, the parties agree as follows:

1. Term of Agreement. The term of the Agreement is hereby extended through June 30, 2028. Section 1.1 of the Multi-Media Rights Agreement, and Section 1 of the Amendment are hereby deleted in their entirety and replaced with the following, superseding clause:

> "This Agreement is effective as of the date signed by both Parties and shall continue until June 30, 2028 (the "Term") unless earlier terminated as provided herein. Each contract year of the Agreement shall commence on July 1 and end on June 30 and such period shall sometimes hereafter be referred to as "Athletic Year."

2. Guaranteed Royalty Fee**.** In consideration for the rights granted to Learfield under the Agreement and the foregoing extension of the Term, the Guaranteed Royalty Fee for the period from Athletic year 2018-19 through the end of the Term is hereby amended as follows:

Athletic Year	Guaranteed Royalty Fee
2018 – 2019	$3,800,000
2019 – 2020	$4,000,000
2020 – 2021	$4,200,000
2021 – 2022	$4,400,000
2022 – 2023	$4,600,000
2023 – 2024	$4,800,000
2024 – 2025	$5,000,000
2025 – 2026	$5,200,000
2026 – 2027	$5,400,000
2027 – 2028	$5,600,000

The foregoing shall supersede and replace the language set forth in Section 4.1 of the Multi-Media Rights Agreement and Section 7 of the Amendment for the period from and after Athletic Year 2018-19.

3. Revenue Sharing. For the period from Athletic Year 2018-19 through the end of the Term, the Revenue Share Hurdles shall be amended as follows:

Athletic Year	Revenue Share Hurdle
2018 – 2019	$7,850,000
2019 – 2020	$8,325,000
2020 – 2021	$8,800,000
2021 – 2022	$9,275,000
2022 – 2023	$9,750,000
2023 – 2024	$10,225,000
2024 – 2025	$10,700,000
2025 – 2026	$11,175,000
2026 – 2027	$11,650,000
2027 – 2028	$12,125,000

The foregoing schedule shall supersede and replace the Revenue Share Hurdle schedule amounts for such Athletic Years set forth in Section 5.1 of the Multi Media Rights Agreement and Section 8 of the Amendment.

4. Capital Subsidy Payments. Section 4 of the Amendment is hereby deleted in its entirety and replaced with the following superseding clauses and schedule:

Learfield will make capital subsidy payments during the period 2018-19 through 2024-25 in the total aggregate amount of $1,700,000 (the "Capital Subsidy"). The Capital Subsidy will be paid in the accordance with the following schedule:

Athletic Year	Capital Subsidy
2018 – 2019	$600,000
2019 – 2020	$600,000
2020 – 2021	$100,000
2021 – 2022	$100,000
2022 – 2023	$100,000
2023 – 2024	$100,000
2024 – 2025	$100,000

University shall use the Capital Subsidy for capital improvements to University Athletic venues that provide new or enhanced sponsorship opportunities, such as LED screens, video boards, center-hung or other mutually agreed assets. A portion of the 2018-19 Capital Subsidy will be used for an endzone video board at the football stadium to be installed no later than the first home game of the 2019-20 football season. University will consult with Learfield on any such improvements early in the process so that Learfield can provide design suggestions to maximize the inventory that will result from the Improvements, and all inventory created or enhanced through such improvements shall be included as part of the Multi-Media Rights and any revenue generated therefrom shall be included in the calculation of AGR in accordance with the Agreement.

5. Additional Inventory/Rights. In addition to all of the multi-media rights granted to Learfield under the Agreement, University will:

(i) consider, in good faith, those Learfield multi-media rights proposals which are categorized as Excluded Sponsorships under Section 3.10 of the Multi Media Rights Agreement in the beer or malt beverage (including domestic/craft beer) and wine categories, and assist with developing comprehensive packages, off-campus retail (point of sale) promotions, digital advertising and promotions, promotional merchandise distributed exclusively off-campus, right to use University's primary athletic trademarks, to enhance current partnerships; provided, however, Learfield acknowledges that University has the right to approve or disapprove any proposed beer, malt beverage or wine sponsorship or activation in its sole discretion. Learfield understands these categories will be developed gradually over time, and does not expect full access and exposure in Contract Year 2018-19, but expects presence in both categories by the beginning of the 2019-20 football season. Learfield further agrees that at least ten percent (10%) of any beer, malt beverage and/or wine sponsorship deal will be directed to the University to fund responsibility messaging or similar programming;

(ii) consider, in good faith, Learfield proposals to enhance, through strategic marketing concepts and promotions, already significant partnerships in the casino/gaming categories excluded by Section 3.10 of the Multi Media Rights Agreement; provided, however, Learfield acknowledges that University has the right to approve or disapprove the same in its sole discretion. Learfield understands these categories will be developed gradually over time, and does not expect full access and exposure in Contract Year 2018-19, but expects presence in both categories by the beginning of the 2019-20 football season;

(iii) assist Learfield in securing more widespread use of University primary athletics trademarks for commercial and strategic partnership use. For example, University will consider, in good faith, expanding the benefits offered in the banking category. Learfield acknowledges that University has the right to approve or disapprove the same in its sole discretion;

(iv) work with Learfield to identify new areas of entitlement in the football stadium and basketball arena, to increase exposure and hospitality opportunities for corporate partners;

(v) provide Learfield right of first negotiation (i.e., University will have good faith discussions with Learfield prior to discussing with any third party) for sponsorship/advertising inventory on the replacement of the existing digital roadside marquee signage by the stadium; and

(vi) permit Learfield to deploy and ensure University use of a digital media backdrop for football and basketball to replace existing non-digital media backdrop.

University recognizes that the financial terms set forth in this Second Amendment assume that University will provide the consideration set forth above. In the event University does not provide such consideration set forth in subparagraphs (i), (ii), or (iii) above, it will be deemed an Adjustment Event under Section 4.2 of the Multi Media Rights Agreement, and the process set forth in that section shall be followed; provided, however, until the Parties reach agreement on a fair and equitable adjustment, Learfield will continue to pay the undisputed Guaranteed Royalty Fee (i.e., the Guaranteed Royalty Fee less the adjustment proposed by Learfield) to University. In addition to the foregoing, in the event the University's approval process for providing this additional inventory is delayed and as a result impacts Learfield's ability to commercialize such inventory in Contract Year 2019-20, the parties will discuss in good faith deferring a portion of amounts otherwise due in Contract Year 2019-20 into later Contract Years.

6. Additional Resources. In order to effectively activate the rights set forth in Section 5 above, Learfield will provide University with an additional annual subsidy of $55,000 to fund a full-time dedicated staff member to assist with sponsorship activation. This employee will be staffed within the University Athletic Department. University will consult with Learfield and keep Learfield updated during the recruitment and hiring process. The position will be filled by July 1, 2018.

7. Extended Businesses. Subject to all applicable State of Idaho and University purchasing rules, regulations, policies, and procedures (collectively "Purchasing Requirements"), and subject to the terms of any current contract between the University and any third party, including

but not limited to its service providers and any athletic conference that the University may now be or may later become a member of, University, if able, will:

(i) prior to the expiration of the term of the University's current agreement with its ticketing sales provider, negotiate with Paciolan in good faith for a period of at least 60 days with respect to University engaging Paciolan to provide such ticketing services to University for the period after the expiration of the term of such agreement. Learfield will pay University a $50,000 bonus if University signs an exclusive agreement with Paciolan following the good faith negotiation period; such bonus shall be paid without invoice to the University within thirty days after the effective date of the agreement;

(ii) at the expiration of the term of the University's current agreement with its trademark licensing agent, meet with Learfield Licensing Partners ("LLP") to discuss the University engaging LLP for such services. In the event University engages LLP, Learfield will pay University a bonus of $50,000; such bonus shall be paid to the University without invoice at the conclusion of the first full Athletic Year after the effective date of the agreement. Learfield understands that University may continue to renew its agreement with its current trademark licensing agent; and

(iii) at the expiration of the term of the University's current agreement with its provider of hosting services for its athletic web site, give due consideration to engaging Learfield's affiliate SIDEARM Sports, LLC to provide hosting services for the University's official athletic web site. Learfield understands that University may continue to renew its agreement with its current provider.

Learfield understands that University may continue to renew its agreements with its current service providers and that University may not be able to entertain the negotiations contemplated in this paragraph in light of applicable Purchasing Requirements or contract provisions.

8. Relationship of Second Amendment to the Agreement. Except as set forth in this Second Amendment, the Agreement shall remain unchanged and in full force and effect in accordance with its terms. If, however, there is any discrepancy between the Agreement and this Second Amendment, the terms and conditions of this Second Amendment shall control.

9. Amended and Restated Agreement. This Second Amendment, when fully executed and delivered, shall be a binding and legally enforceable contract, upon which we may each rely.

10. Counterparts. This Second Amendment may be executed in two or more counterparts and by facsimile or electronic signature, each of which shall be deemed an original and all of which shall constitute one document.

11. Entire Agreement. The Agreement as amended by this Second Amendment constitutes the entire agreement between the University and Learfield with respect to the subject matter hereof, and supersedes any prior oral or written understandings or agreements of the parties with respect to its subject matter.

[Signature Page Follows]

IN WITNESS WHEREOF, the parties hereto have caused this Second Amendment to be executed by the duly authorized officer or agents on the date first set forth above.

AMENDMENT
TO
MULTI-MEDIA RIGHTS AGREEMENT

THIS AMENDMENT ("Amendment") is made and entered as of the ___ day of ___________ 2014 with an effective date of July 1, 2013 ("Effective Date") by and between Boise State University ("University") and Bronco Sports Properties, LLC ("Learfield"), a Missouri limited liability company qualified to do business in Idaho and a wholly owned subsidiary of Learfield Communications, Inc. This Amendment amends that certain Multi-Media Rights Agreement between University and Learfield that had an effective date of July 1, 2010 ("Agreement").

BACKGROUND

A. University and Learfield have been operating under the Agreement.

B. University has elected to exercise its option to extend the term of the Agreement for the three (3) years through June 30, 2020 and to further extend the term through the period ending June 30, 2025.

C. In consideration of University extending the term of the Agreement through June 30, 2025, Learfield has agreed to provide University additional consideration as more particularly described in this Amendment.

D. Capitalized terms used in this Amendment shall have the same meaning as those terms have in the Agreement unless otherwise stated.

NOW, THEREFORE, in consideration of the foregoing Background and other valuable consideration, University and Learfield amend the Agreement by this Amendment as follows:

1. Term of Agreement. The term of the Agreement will be from July 1, 2013 through June 30, 2025 ("Term").

2. Third Tier Television Rights. The provisions of Section 2.6 (Third Tier Television Rights) are deleted from the Agreement. If at any time during the Term, the television broadcast rights for University athletic events revert to the University from the Mountain West Conference (or any other athletic conference with which University is affiliated during the term of the Agreement), Learfield shall be granted the exclusive rights to such broadcasts for the remainder of the Term with additional payments to University in an amount to be negotiated in good faith at such time. In the event, the parties cannot reach agreement, the exclusive rights to such broadcasts shall no vest in Learfield but shall remain the property of the University.

3. Digital Media Rights. Throughout the Term, Learfield shall have the exclusive sponsorship rights associated with "Digital Media Rights" which means all University official athletic platforms including

browser-based websites, mobile web and mobile applications, social media channels such as Facebook, Twitter and Instagram, e-mail and other digital marketing, in-venue digital screens and platforms and all digital distribution of content to the extent such rights do not interfere with any rights reserved by the Mountain West Conference (or any other athletic conference with which University is affiliated during the term of the Agreement) or its chosen platform provider.

4. Capital Subsidy Payments. In addition to the Capital Stipend payments through June 30, 2017, Learfield will make capital subsidy payments in the amount of $100,000 on July 1 in each Athletic Year beginning with the 2015 – 2016 Athletic Year and continuing through the 2024 – 2025 Athletic Year for University to use for capital improvements to assets within University Athletic venues that may provide sponsorship opportunities. This Capital Subsidy Payment can be used for such items as the purchase and installation of a center-hung videoboard in the Taco Bell Arena or other mutually agreeable venue enhancements. Sponsorship opportunities created by a new center-hung videoboard or any other mutually agreeable asset procured with the Capital Subsidy Payment will be mutually agreed upon between Learfield and University and when agreed upon will be sponsorship rights belonging exclusively to Learfield with no increase in the Guaranteed Royalty Fee. Any revenue collected by Learfield from these rights shall however be included in the calculation of AGR.

5. Additional Rights. In addition to all of the multi-media rights granted to Learfield under the Agreement and this Amendment, throughout the Term, University grants Learfield the following additional rights on an exclusive basis, subject to NCAA rules, regulations or restrictions:

   i. The right to sell an additional sponsor logo on the Arena floor;
   ii. A media suite in Albertsons Stadium for shared use by Learfield at no charge. University will, consistent with past practices, provide Learfield with use of the media suite number 621 at no charge for home football games;
   iii. One (1) football coaches club membership at no charge to Learfield; and
   iv. One (1) Basketball Hardwood Club Membership at no charge to Learfield.

6. Tickets. Locations of tickets to be provided to Learfield by University for home basketball games shall be materially improved over the locations of those tickets in the 2012 – 2013 Athletic Year.

7. Guaranteed Royalty Fee. Subject to the provisions of Paragraph 10 below, the Guaranteed Royalty Fee for the Term shall be as follows:

Athletic Year	Guaranteed Royalty Fee
2013 – 2014	$2,410,000
2014 – 2015	$2,735,000
2015 – 2016	$2,860,000
2016 – 2017	$2,935,000
2017 – 2018	$3,300,000
2018 – 2019	$3,400,000
2019 – 2020	$3,500,000
2020 – 2021	$3,700,000
2021 – 2022	$3,900,000
2022 – 2023	$4,100,000
2023 – 2024	$4,300,000
2024 – 2025	$4,500,000

8. Revenue Sharing. The Revenue Share Hurdle during the Term shall be as follows:

Athletic Year	Revenue Share Hurdle
2013 – 2014	$4,795,000
2014 – 2015	$5,645,000
2015 – 2016	$5,895,000
2016 – 2017	$6,045,000
2017 – 2018	$6,775,000
2018 – 2019	$6,975,000
2019 – 2020	$7,175,000
2020 – 2021	$7,575,000
2021 – 2022	$7,975,000
2022 – 2023	$8,375,000
2023 – 2024	$8,775,000
2024 – 2025	$9,175,000

9. Trade. Trade associated with Nike shall be increased to $7,500.00 per year.

10. Bonus Payment. No later than July 31, 2018, Learfield will pay University a one-time bonus of $1,100,000 ("Bonus Amount") as and for University's extension of the Term of the Agreement as set forth in this Amendment with $750,000 of the Bonus Amount ("Cash Payment") paid in cash with the remainder of the Bonus Amount ($350,000) considered paid by Learfield waiving its claim to a $350,000 credit against the Guaranteed Royalty Fee in the 2013 – 2014 Athletic Year which by this Amendment, Learfield hereby agrees to do.

11. Additional Incentives. Section 7.3.4 of the Agreement (Television Promotion) is deleted from the Agreement.

12. Notices. All references to the Director of Intercollegiate Athletics in Section 8.11 of the Agreement shall mean Mark Coyle or his successor.

13. <u>Relationship of Amendment to Agreement</u>. Except as set forth in this Amendment, the Agreement is hereby ratified and confirmed upon its original terms and conditions. If, however, there is any discrepancy, conflict or variance between the terms and conditions of this Amendment and the terms and conditions of the Agreement, this Amendment shall in all events control.

14. <u>Preapproval of Signage and Partnerships</u>. Before installation or use, Learfield must seek University's written approval of any and all temporary or permanent signage, electronic or otherwise, and may not utilize in any way signage that is not approved by University in its sole discretion. Learfield must seek and receive University's written approval of any and all partnerships prior to entering into any agreement or contract, express or implied, and shall not enter into any partnerships without the express written consent of the University in its sole discretion. The written approval from University required under this paragraph 14 may be in electronic or paper form.

15. <u>National Exposure Bonus Payments.</u> In addition to all other monies due University and obligations of Learfield under the Agreement and this Amendment, the following monies shall be paid by Learfield to University :

i. For football (the greater of the following applicable payments):

a. Each and every time University football team is invited to appear in the College Football Access Bowls, Learfield will pay University a one-time payment of $100,000 on the following June 1;

b. Each and every time University football team appears in the College Football Playoffs , Learfield will pay University a one-time payment of $200,000 on the following June 1;

c. Each and every time University football team wins the College Football Championship Game, Learfield will pay University a one-time payment of $300,000 on the following June 1.

ii. For Men's basketball:

a. Each and every time University appears in the field of 4 teams in the NCAA Basketball Championship Tournament (the "Final Four"), Learfield will pay University a one-time payment of $100,000.

IN WITNESS WHEREOF, the University and Learfield have entered into this Amendment as of the Effective Date.

MULTI-MEDIA RIGHTS AGREEMENT

THIS MULTI-MEDIA RIGHTS AGREEMENT ("Agreement" or "Contract") is made and entered as of the 9th day of November, 2009, by and between BOISE STATE UNIVERSITY ("University"), and BRONCO SPORTS PROPERTIES, LLC ("Learfield"), a Missouri limited liability company qualified to do business in Idaho and wholly owned by LEARFIELD COMMUNCATIONS, INC.

BACKGROUND TO AGREEMENT

A. This Agreement is intended to set forth the rights, duties, responsibilities of University and Learfield with respect to the "Multi-Media Rights" associated with University's inter-collegiate athletic programs. These Multi-Media Rights are being granted to Learfield pursuant to University's Request for Proposal Number TS09-054 and University's February 18, 2009 letter as its Notice of Intent to Award TS09-054 (collectively the "RFP").

B. For purposes of this Agreement, the Term "Multi-Media Rights" shall mean the exclusive sponsorship and marketing rights, as hereinafter set forth, with exceptions as set forth within, to inventory, including, but not limited to, print, media, sponsorships, existing or new temporary or permanent signage, and other promotional and sponsorship rights for football, men's and women's basketball games, softball, wrestling, gymnastics, tennis and other inter-collegiate sports; and, if University is granted such rights from host venue, promotional rights for all games played at neutral venues where University is designated as the home team; radio and satellite play-by-play broadcast rights for football, men's and women's basketball games, softball games and any other collegiate sports as may be agreed between the parties and radio and satellite broadcast rights for coach's shows; and selected television broadcast rights for football and men's and women's basketball; official athletic website sponsorship; at event corporate hospitality; at event impact; and any other sponsor-related or promotional rights to University's inter-collegiate athletic programs that are particularly described in this Agreement or that may be subsequently agreed to between the Parties as well as all the inventory which is available to University's intercollegiate athletic programs for the 2008 - 2009 University fiscal year. For the avoidance of doubt, the rights granted herein relate to varsity intercollegiate teams and do not include club or intramural teams. For the further avoidance of doubt, the rights granted herein are not exclusive with respect to electronic newsletters, it being agreed and understood that University as well may produce or distribute an electronic newsletter, but University agrees that if it produces or distributes an electronic newsletter primarily relating to Athletics, other than the existing magazine entitled "The Blue" which is produced in print and made available electronically in pdf format, it cannot contain any commercial underwriting or commercial sponsorship or advertising of any kind. University agrees that Touch Fall Marketing, the publishers of The Blue magazine shall be solely responsible for soliciting advertising for the magazine and University shall not solicit advertising on Touch Fall Marketing's behalf.

NOW, THEREFORE, in consideration of the promises and the mutual covenants contained herein and the foregoing Background, University and Learfield (individually the "Party" and jointly the "Parties") agree as follows:

AGREEMENT

1.1 Term of Agreement. This Agreement is effective on the date signed by both Parties and shall continue until June 30, 2017 ("Initial Term") unless otherwise terminated as provided herein. Each contract year of the Agreement shall commence on July 1 and end on June 30 and such period shall sometimes hereafter be referred to as "Athletic Year." University shall:

(i) have three (3) options to extend the Initial Term of this Agreement for an additional one (1) year period each option through June 30, 2018, June 30, 2019 and June 30, 2020 respectively ("Extended Period(s)"). If University wishes to extend this Agreement for the Extended Period(s) it shall notify Learfield no later than June 30, 2015 of University's intent to exercise its option to extend the term of this Agreement for the first Extended Period and no later than June 30, 2016 and 2017 respectively for the next two Extended Periods; or

(ii) in its sole discretion shall choose to extend the Initial Term of this Agreement for an additional three (3) year period ("Extended Period") at one time in lieu of three (3) separate one (1)-year options. If University wishes to extend this Agreement for the three year Extended Period it shall notify Learfield not later than June 30, 2015 of University's intent to exercise its option to extend the term of this Agreement for the three year Extended Period.

If the term of this Agreement is extended to include the Extended Period(s), then the terms and conditions of this Agreement during the Extended Period(s) shall remain the same as those during the Initial Term except as otherwise stated in this Agreement. Notwithstanding the fact that each contract year begins on July 1, the University acknowledges and agrees that Learfield's rights and obligations under this Agreement begin on July 1, 2010 ("Effective Date"), but that Learfield will begin its efforts prior to the Effective Date and will expend substantial amounts of time, effort and resources to fulfill its obligations under this Agreement. The "term" of this Agreement including the Initial Period and the Extended Period(s) is sometimes hereafter collectively referred to as the "Term".

1.2 **Mutual Cooperation.** Throughout the Term of the Agreement, it is the Parties' intention to cooperate to maximize the opportunities to promote the University's Athletic program and that will foster growth in both the amounts and the potential sources of revenue under this Agreement. To that end, the Parties, including University's Director of Athletics (and/or his/her designee) will meet, as they mutually agree is necessary, to discuss the rights and inventory granted to Learfield and any unexpected problems arising therefrom to arrive at mutually satisfactory solutions. The General Manager of BRONCO SPORTS PROPERTIES, LLC will be encouraged to attend regularly scheduled University Athletic Department Administrative Staff meetings and will meet no less than once a month with University's Director of Athletics or his/her designee at times mutually agreeable to the Parties. In addition, University will use reasonable efforts to clearly and concisely define for University's staff the specific roles and responsibilities which Learfield will undertake with University's Athletic Department, including, but not limited to, any agreements Learfield enters into with University's coaches which Learfield and University mutually determine will help to promote the University's Athletic program and maximize revenue generating opportunities. Learfield will not enter into any agreement with a University coach without prior consultation with and approval from the University's Director of Athletics and University shall be responsible for coaches' compensation in its sole discretion. Learfield will keep University informed on a regular basis and/or upon request by University of its sponsorship and marketing plans as well as its current activities. In consideration of fostering a mutually beneficial environment for both parties, Learfield agrees that it shall keep University informed of its negotiations with potential partners and shall consult with University regarding new potential partners that it wishes to approach and/or rights that it intends to offer.

1.3 Additional Multi-Media Rights. Although this Agreement includes specific rights granted to Learfield, it is agreed that from time to time opportunities for additional Multi-Media Rights may arise or be created that might not have been contemplated or specifically mentioned in this Agreement, including, but not limited to, Learfield finding additional ways to leverage the existing inventory or with new inventory ("Additional Rights"). If the nature of the Additional Rights requires the addition of a significant item of inventory that did not already exist in a University athletic venue in any format, being an alteration that affects the appearance of the venue and/or requires material expenditure ("Material Inventory Alteration"), then Learfield will notify University of such new inventory item in order to obtain University's approval of such new inventory item. The parties will negotiate in good faith to arrive at a financial model for any Material Inventory Alteration that is funded other than from the Capital Stipend and which includes the allocation of costs between the Parties and the resulting inclusion of revenue from the Material Inventory Alteration in the "AGR" as hereafter defined. For the avoidance of doubt, if, for example, a new ribbon board is installed in Bronco Stadium at a cost to either party of $250,000.00, the cost incurring party shall first recover its cost of the ribbon board from revenue generated from the ribbon board before any revenue from the ribbon board is included in the calculation of AGR.

2.1 Grant of Exclusive Radio Broadcast Rights. Throughout the Term, University grants to Learfield, subject to any restrictions and modifications set forth by this Agreement, the exclusive rights to make or cause to be made live radio (including satellite radio, high definition radio, Spanish radio broadcasts and audio podcasts) broadcasts of all exhibition, pre-season, regular-season and post-season games for football, men's and women's basketball games and softball games and any other inter-collegiate sports as may be agreed with University. All of such broadcast rights shall be exclusive to Learfield and shall also include any game or games selected for broadcasting by any local, regional or national radio network, subject, however to any currently existing rules governing University as a result of its affiliation with the Western Athletic Conference ("WAC"), the Pacific Ten Conference for wrestling ("PAC 10") or any other conference to which University is affiliated during the Term or the National Collegiate Athletic Association ("NCAA") which could limit such exclusivity granted to Learfield hereunder. Rights to post-season conference and national tournaments are exclusive of all other individual and independent networks except those officially designated as origination stations or networks by radio stations considered by University as part of the radio following the opposing team involved in the game being broadcast. University acknowledges that broadcast rights to post-season conference and national tournaments is important to Learfield's revenue, and if such rights are not available to Learfield, then University shall negotiate in good faith with Learfield for a fair and equitable reduction in Learfield's Guaranteed Royalty Fee during the time the rights are unavailable. Notwithstanding the exclusive rights granted to Learfield under this Section 2.1, and subject to University's approval, a University student station may broadcast games, but only on a low power radio station which will not carry any commercial underwriting or commercial sponsorship or advertising of any kind for such varsity intercollegiate game that will materially compete with the rights granted to Learfield hereunder and only if University has first consulted with Learfield in respect of the same.

Learfield shall use its best efforts to provide the widest exposure in the most professional manner relative to all broadcasts and at the very least shall be no less exposure and of no less quality than historically provided by or on behalf of University during the 2008 – 2009 Athletic Year. Without limitation to the foregoing, Learfield agrees that it shall use commercially reasonable efforts to increase the radio coverage of women's basketball. If at anytime during the Term, Learfield decides to pay for the production, operational and distribution costs of the Bronco radio network (collectively the "Production Costs") which in turn is expected to increase the revenue opportunities from the radio broadcasts, Learfield shall be entitled to deduct the Production Costs it incurs in calculating the AGR, as hereafter defined, provided that it has first consulted with University with respect to its decision to undertake the Production Costs and University has agreed to the Production Cost budget. Provided that the costs and budget are in line with those of any other universities represented by Learfield or its affiliated companies of equal or greater stature than University with no extenuating circumstances that do not apply to University ("Comparable Learfield Schools"), University shall not withhold approval.

2.2 Radio On-Air Talent. Learfield will employ, at its own expense, or subcontract with other approved providers, any and all personnel Learfield deems necessary to conduct broadcasts covered by the Agreement. Final selection of all air talent for all games, including, but not limited to pre-game, post-game, coaches' shows and other events to be broadcast must have the approval of University which approval will not be unreasonably withheld. The

University shall also have the right to request removal of a particular on-air talent if it, in its reasonable discretion, deems such removal necessary. The parties agree to discuss in good faith the removal of such on-air talent and allocation of costs or expenses related thereto. Notwithstanding the foregoing, University agrees to be responsible for all normal, reasonable and ordinary replacement costs unless adequate cause exists for such removal. Learfield shall be solely responsible for all employment related costs or liabilities.

2.3 **Radio Programming**. At the sole cost and expense of Learfield, Learfield shall produce, originate, broadcast and distribute the following radio programming in a quality at least commensurate to the quality of broadcasts historically provided during the 2008 - 2009 Athletic Year with state-of-the-art equipment and quality:

A. Football and Men's and Women's Basketball Games. Learfield will provide live broadcasts in the State of Idaho with emphasis in Boise, Nampa, Caldwell, Twin Falls, Idaho Falls, Pocatello, McCall and Lewiston of each (i) regular-season and post-season game for University varsity football, which may include the spring football game or any others if applicable, whether the same are played in Boise or elsewhere; and (ii) each regular-season and post-season men's basketball game whether the same are played in Boise or elsewhere and (iii) any exhibition men's basketball games if applicable. Each broadcast shall include pre-game and post-game shows with live or taped, as available, coaches' interviews, in addition to comprehensive description of game action. Learfield will use its best efforts to provide live broadcasts of each regular season and post-season women's basketball games to be no less than University's historical level provided during the 2008 - 2009 Athletic Year of live broadcasts of such games. Learfield shall pay for all costs associated with the operation and production and shall be responsible for obtaining any and all neeessary clearances of each broadcast hereunder.

B. Coaches' Radio Shows. Learfield will produce, sell and commercially distribute a weekly coaches' radio show for football and men's basketball and make all shows available to the Bronco Sports Network subject to technical restraints. For the purposes of this Agreement the "Bronco Sports Network" shall be no less that the radio coverage provided to University during the 2008 - 2009 Athletic Year. Learfield will produce and clear a combined total of approximately thirty (30) football and men's basketball weekly coaches' shows each year that will be not less than sixty (60) minutes in length per show. University will make available and provide the services of the head coaches of each such coaches' show. Further, Learfield is hereby granted the exclusive rights, at its option, to produce coaches' radio shows for other sports. University shall require coaches to be in attendance at each show agreed to under such contracts, provided the time commitments undertaken by each such coach is consistent with the coach's primary coaching responsibilities and each coach's contract with the University. In the event that a coach is not available, University and Learfield, shall agree to a suitable alternative being either coach's participation by telephone or by substitution of an assistant coach. Notwithstanding the forgoing, University shall use best efforts to provide the head coaches live participation in such shows. Any compensation of the coaches in respect of such shows shall be in the sole discretion of the University but in no event shall Learfield be responsible for a coach's compensation. Notwithstanding the provisions of the preceding sentence to the contrary, if University wishes that Learfield pay part or all of a coach's compensation, it shall notify Learfield in writing of the amount of a coach's compensation that it wishes Learfield to pay ("Coach's Compensation Amount") and Learfield shall pay the Coach's Compensation Amount in two equal payments at the times that Learfield pays the

University its Guaranteed Royalty Fee (December 31 and June 30). Learfield shall then deduct from the Guaranteed Royalty Fee the Coach's Compensation Amount which will be a credit against the Guaranteed Royalty Fee then owed by Learfield to the University. Learfield may sell a specific placement of any or all of the coaches' shows at a location to be determined and University will make the coach available at such location. Such coaches' shows shall be held at the Stueckle Sky Center on campus, unless the parties mutually agree otherwise, Learfield must provide a compelling reason, which may be a financial reason, for the coaches' show to be held at a different location, such as a local restaurant or other campus or off-campus location but shall also ensure that University does not lose revenue by such change of venue, for example through increased transportation costs and/or loss of food and beverage revenue. In such instance, Learfield will make every effort to ensure that such location shall be convenient to Boise State University and its coaches. University reserves the right to refuse a location if the location is inconsistent with the University's goals, mission or image or if the location is too inconvenient.

C. Other radio programming. Learfield shall also provide other radio programming, live or taped as applicable, to be no less than provided to University historically during the 2008 - 2009 Athletic Year and as required in the contract between Peak Broadcasting and University dated July 12, 2008 ("Existing Radio Contract") a copy of which has been provided to Learfield as part of the RFP.

D. Technical Requirements. Learfield shall satisfy University as to all technical requirements, including, but not limited to, digital quality, which are necessary to adequately broadcast University athletic events and coaches' shows in a manner no less than provided historically during the 2008 - 2009 Athletic Year and as is reasonable to be expected as equipment and technology develops during the Term.

E. University Promotional Time. Learfield shall provide University with, or shall procure for University, promotional air time in kind and other marketing and promotional commitments during broadcasts of the game of a level no less than provided to University for its own use (rather than its sponsors' use) historically during the 2008 - 2009 Athletic Year to the greater of the amount it had received historically during the 2008 - 2009 Athletic Year or two (2) thirty (30) second spots for University institutional (rather than Athletics) promotional matters only. Learfield shall also provide University with, or shall procure for University, promotional air time in kind and other marketing and promotional commitments on the flagship station(s) outside of game broadcasts of a level no less than provided to University for its own use (rather than its sponsors' use) historically during the 2008 - 2009 Athletic Year.

F. Learfield shall record all radio broadcasts and shall provide University with a copy of all broadcasts and programs created hereunder. All rights in and to the broadcasts and programs shall cease at the expiration of this Agreement and shall revert to University.

G. University shall be considered the copyright owner of, and be entitled to receive all copyright royalty fees in any form allowed by law attributable to, the use or broadcast of the sporting events, preview shows, coach's shows and other programming produced by or on behalf of Learfield hereunder and University shall be entitled to all royalties, fees or other income (excluding, however, any sponsorship or advertising income which shall be included in the AGR as hereinafter defined) which may be attributable to the use of said broadcast material and recordings and Learfield will provide any assistance needed by University to implement any use of said material other than by radio transmission.

H. Notice of the University copyright shall be included as part of every event broadcast made pursuant to this Agreement. The notice shall consist of the symbol "©" or the word "copyright" followed by the year that the event is first broadcast and the name "Boise State University" in every broadcast or medium of delivery.

2.4 Additional Radio Broadcast Rights. Notwithstanding anything contained in Section 2.1 through 2.3 to the contrary, it is agreed that from time to time forms or methods of additional distribution rights of the aforementioned radio programming may arise or be created that might not have been contemplated, might not have existed as of the date of this Agreement or specifically mentioned in this Agreement, and these rights shall be subsequently included in the rights granted to Learfield based upon the approval of the University, which approval will not be unreasonably withheld, and the Net Revenue from such rights shall be added to the AGR. Without limiting the foregoing, Learfield shall use commercially reasonable efforts to secure satellite and high definition radio transmission at no charge to the University and Learfield shall offer regular audio podcasts at a frequency and level to be agreed with University. All rights in and to the broadcasts and programs shall cease at the expiration of this Agreement and shall revert to University.

2.5 Football, Men's Basketball and Women's Basketball Coaches' Television Shows.

A. Learfield shall have the exclusive rights to broadcast and sell sponsorships in weekly coaches' television shows for football, men's basketball and women's basketball.

B. Learfield will produce and clear a total of no less than twelve (12) football and no less than twelve (12) men's basketball weekly coaches' shows each year that will be not less than thirty (30) minutes in length per show. Compensation of coaches, if any, will be paid by University but Learfield shall be responsible for all other costs relating to production and distribution of the shows. Any compensation of the coaches in respect of such shows shall be in the sole discretion of the University. In no event shall Learfield be responsible for any compensation of coaches. Notwithstanding the provisions of the preceding sentence to the contrary, if University wishes that Learfield pay part or all of a coach's compensation, it shall notify Learfield in writing of the amount of a coach's compensation that it wishes Learfield to pay and Learfield shall pay the Coach's Compensation Amount in two equal payments at the times that Learfield pays the University its Guaranteed Royalty Fee (December 31 and June 30). Learfield shall then deduct from the Guaranteed Royalty Fee the Coach's Compensation Amount which will be a credit against the Guaranteed Royalty Fee then owed by Learfield to the University. Parties may agree to proceed with coaches' television shows for any other sports outside of those mentioned above and the net revenue (gross revenue less expenses such as production and distribution for the shows, provided such costs and/or budget have been agreed with University and if the costs and budget are in line with other Comparable Learfield Schools, University shall not withhold approval.) in relation to such additional sports shows shall be included in the AGR as hereinafter defined. Learfield may sell a specific placement of the coaches' show. Such coaches' shows shall be held at the Stueckle Sky Center on campus, unless the parties mutually agree otherwise. Learfield must provides a compelling reason, which may be a financial reason, for the coaches' show to be held at a different location, such as a or at a broadcast studio of Learfield's choice which is convenient to University's campus but shall also ensure that University does not lose revenue by such change of venue, for example through increased transportation costs and/or loss of food and beverage revenue. University shall require coaches to be in attendance at each show agreed to under such contracts, provided the time commitments undertaken by each such coach is consistent with the coach's primary coaching responsibilities and each coach's contractual obligations to the University. Coaches will be encouraged but shall not be required to attend coaches' shows in person if the show is broadcast from outside the Boise, Idaho area. In this regard, it is agreed that a period of time which is sufficient for the production of a thirty-minute weekly coaches' television show will not unduly interfere with a coach's primary responsibilities to University. Notwithstanding the foregoing, Learfield will make every effort to ensure that the location of the coaches' shows shall be convenient to Boise State University and its coaches. University reserves the right to refuse a location if the location is inconsistent with the University's goals, mission or image or if the location is too inconvenient.

2.6 Third Tier Television Broadcast Rights.

A. University agrees to license Learfield the exclusive rights to broadcast television play-by-play programming which is not otherwise prohibited by University's affiliation with the WAC, the PAC 10 for wrestling, or any other conference to which University is affiliated during the Term or the NCAA ("Third Tier Television Rights"). Such Third Tier Television Rights include football, men's and women's basketball and any other University inter-collegiate sport, preview shows, a video season ticket podcast, replay shows and video magazine shows. Learfield will be responsible for all costs relating to the production and broadcast of such Third Tier Television Rights and Learfield shall retain all revenue generated from the Third Tier Television Rights and such revenue will be included in the calculation of AGR. Subject to the provisions of Section 4.2 below, these Third Tier Television Broadcasts shall be aired live or with a reasonable tape-delay as agreed with University. The live televising of home football and basketball games shall be at the discretion of the University based on ticket sales and sell-out policies and the University shall have the right, in its sole discretion to request a tape-delay broadcast of any home game accordingly.

B. Notwithstanding anything herein, Learfield agrees that BRONCOVision shall be the exclusive video streaming venue for all University home and away events, unless and until agreed otherwise with University. Learfield or the applicable television broadcaster shall be provided a link to BRONCOVision from its applicable website.

C. University Promotional Time. Learfield shall provide University with, or shall procure for University, promotional air time in kind and other marketing and promotional commitments during broadcasts of the game of a level no less than provided to University for its own use (rather than its sponsors' use) historically during the 2008 - 2009 Athletic Year to the greater of the amount it had received historically during the 2008 - 2009 Athletic Year, and as required in the contract between Belo Corporation (KTVB Media Group) and University dated June 30th, 2005 ("Existing TV Contract") a copy of which was provided to Learfield as part of the RFP, or two (2) thirty (30) second spots for University institutional (rather than Athletics) promotional matters only. Learfield shall also provide University with, or shall procure for University, promotional air time in kind and other marketing and promotional commitments on the flagship station(s) outside of game broadcasts of a level no less than provided to University for its own use (rather than its sponsors' use) historically during the 2008 - 2009 Athletic Year.

D. Learfield shall record all television broadcasts and shall provide University with a copy of all broadcasts and programs created hereunder. All rights in and to the television broadcasts and programs shall cease at the expiration of this Agreement and shall revert to University.

E. University shall be considered the copyright owner of, and be entitled to receive all copyright royalty fees in any form allowed by law attributable to, the use or broadcast of the sporting events, preview shows, coach's shows and other programming produced by or on behalf of Learfield hereunder and University shall be entitled to all royalties, fees or other income (excluding, however, any sponsorship or advertising income, which shall be shall be included in the AGR as hereinafter defined) which may be attributable to the use of said broadcast material and recordings and Learfield will provide any assistance needed by University to implement any use of said material other than by television transmission.

F. University shall own the copyright of and in all broadcasts (live or delayed) and recordings of events or shows covered by this Agreement. Notice of the University copyright shall be included as part of every event broadcast made pursuant to this Agreement. The notice shall consist of the symbol "©" or the word "copyright" followed by the year that the event is first broadcast and the name "Boise State University" in every broadcast or medium of delivery.

2.7 Miscellaneous Terms Applicable to Coaches. Subject to the coaches' pre-existing contractual sponsorship obligations, University will require its coaches to cooperate with Learfield should Learfield need to obtain an endorsement that is beneficial in promoting the University's Athletic program and maximizing the income from the rights granted under this Agreement; nevertheless, Learfield acknowledges that coaches shall not be required to endorse a particular product. University will use its best efforts to prevent its coaches from participating, directly or indirectly, in the endorsement of any product or service that competes with the products or services offered by Learfield's sponsors. Except as set forth herein, and subject to each coach's contractual obligations to University, University will require its coaches to cooperate with Learfield to accommodate reasonable requests of Learfield for its sponsors (such as special appearances, autographs, and letter-writing). Any coaches' endorsements by Learfield must conform to University, WAC, PAC 10 (wrestling only), or any other conference to which University is affiliated during the Term and NCAA rules and guidelines.

2.8 Video/DVD Rights. If Learfield and University mutually agree that a season ending or other highlight audio-visual program (being video, DVD and/or other audio-visual medium as agreed with University) (together defined as "Video Program") is warranted for a particular University team, Learfield shall, at its expense, produce or cause to be produced and sell or cause to be sold, such Video Program at Learfield's cost and Learfield shall retain all of the revenue derived therefrom provided that the Net Revenue (gross revenue in excess of the cost of producing and selling the Video Program provided such costs and/or budget have been agreed with University and if the costs and budget are in line with any other Comparable Learfield Schools, University shall not withhold approval.) shall be considered part of the

AGR. University shall approve the content and artwork of any and all Video Programs.

2.9 Athletic Internet Site and Internet Video Streaming and e-Commerce.

A. While University will control and produce the University's official athletic website, University hereby licenses Learfield the exclusive rights to all sponsorship revenue generating opportunities which now or in the future may exist on the University's Official Athletics Website ("OAS") (http://broncosports.com), including, but not limited to, all rights to sell sponsorships in the form of company logos and messages on University's OAS, audio streaming of sponsorship messages and direct internet access to other websites as well as all other sponsorship opportunities which now or in the future may exist in the future on the OAS. All resulting gross revenue derived by Learfield from these rights shall be added into the calculation of the AGR. All other rights relating to the OAS, including but not limited to audio and visual streaming, subscription member services, fundraising, auctions, merchandising, ticket and event revenue and editorial content shall be retained by University. University shall be responsible for providing editorial content on the OAS. Notwithstanding anything contained in this Section 2.9 to the contrary, Learfield acknowledges that the University presently has an existing relationship with Jump TV (host of the OAS) and until and unless such relationship is terminated, Learfield shall not have the right to manage, produce or further develop the OAS unless separately agreed with University. However, University will provide Learfield with the opportunity to have input on decisions regarding the OAS but shall not be obligated to implement Learfield's suggestions. Upon termination of University's agreement with Jump TV, University, with input from Learfield, shall have the right to select Jump TV's successor but University shall not be obligated to grant such rights to Learfield. In the event that Learfield is granted the right to manage the OAS and/or the audio or video streaming, Learfield shall negotiate the contract with an appropriate website hosting company and pay the then applicable hosting fee for the OAS ("Hosting Fee"). The Hosting Fee shall not be deducted from the Guaranteed Royalty Fee set forth in Section 4.1 and the resulting revenue shall be treated separately from the AGR hereunder.

B. Learfield shall have the exclusive right to publish and distribute an Official Sports Report ("OSR"), daily e-mails of up-to-date and unique news to University fans and constituents. To assist Learfield in its marketing and distribution efforts of the OSR, subject to the applicable data privacy laws and at Learfield's cost, University agrees to distribute such OSR and other Learfield news to its database or e-mail addresses of season ticket holders, and individual game ticket purchasers, athletic department donors and boosters. University will use reasonable efforts to have such OSR distributed to the database or email addresses of the University's alumni association. Learfield acknowledges that University does not control the University alumni association's database or email addresses and that Learfield will be responsible for any costs associated with such distribution.

2.10 Game Program and Schedule Card Production and Sponsorship Rights.

2.10.1 Football; Men's and Women's Basketball. Learfield shall have the exclusive right to print, publish, distribute and sell sponsorship space in football, men's and women's basketball programs (or similar game day publications) for all home games and matches played by University and those designated as home games or matches although played or conducted on a neutral site, during its regular seasons and schedule cards for the other sports (collectively the aforementioned programs and roster cards are referred to herein as "Game Publications"). 2.10.2 Matters Relating to All Programs. All costs of printing and distributing all athletic game programs will be the responsibility of Learfield. The quality and quantity of the game programs will be not less than what has historically been produced by or on behalf of University on a per-game basis for University based on sales demand and no less than the quantity and quality specified in Attachment B of the RFP. University shall be responsible for providing all written content and editing thereof that is required for each Game Publication and will work with Learfield to determine the design of Game Publications and in some instances will be responsible for design elements of the Game Publications. University retains final control of all content and design of its Game Publications but will not have control over sponsorships in Game Publications which control will belong exclusively to Learfield, provided that University has agreed to the percentage of space in the respective Game Publication made available to the sponsors in aggregate. University shall be responsible for supplying Learfield or its printer with Game Publication content not less than 30 business days prior to a Game Publication's publication for "static" pages and not less than five (5) business days for "change" pages. Learfield will provide University with a mutually agreeable reasonable number of complimentary Game Publications, to be no less than five hundred (500) copies in respect of football Game Publications and one hundred (100) in respect of the other Game Publications. University shall have the right to purchase at cost additional copies of Game Publications for its own use from Learfield. Learfield shall charge University no more than its actual printing cost in respect of such additional copies. In addition to the sponsorship revenue from Game Publications, Learfield will retain any game day vending revenue from Game Publication sales which shall be included in the calculation of the AGR. Learfield and University will review and mutually agree upon the sales price, quantity and format of the respective Game Publications for the upcoming season no less than once a year.

2.11 Sponsorship Signage.

A. Except as otherwise set forth in this Agreement, University grants Learfield the exclusive rights to sell sponsorships on all the existing as well as all the future permanent signage (electronic or otherwise) and temporary signage in all University athletic venues, including, but not limited to,

- Bronco Stadium
- Taco Bell Arena

B. If, during the Term, University decides to install new electronic or enhance existing electronic signage or install new videoboards or enhance existing videoboards at any of its athletic venues (collectively the "New Signage"), Learfield will have input into the New Signage in order that Learfield can manage the sponsorships which will result from the New Signage and Learfield will retain all revenue from the New Signage sponsorship sales where such New Signage was paid for out of the Capital Stipend and such revenue shall be included in the calculation of the AGR. If the University decides to install New Signage over and above that which is funded by the Capital Stipend, before so doing it shall agree with Learfield how it shall be funded and how the revenue shall be treated hereunder.

C. The above foregoing notwithstanding, University reserves the rights to utilize signage (electronic or otherwise) for such reasonable amounts of time as agreed upon by Learfield for pre-game, half-time, quarter breaks, game time-outs or post-game for University's need to promote University sports, the University or University events or accomplishments, or athletically-related activities as deemed reasonably necessary by University but in no event for any commercial underwriting or commercial sponsorship or advertising of any kind, other than for the University Bookstore and for hotel and automobile lease/transport trade partners as agreed with Learfield, and subject to the provisions of Section 6.1 of this Agreement, in any event to be no more than historically provided to University Bookstore and such hotel and automobile lease/transport trade partners during the 2008 - 2009 Athletic Year.

2.11.1 Athletic Venue Sponsorship Rights. The specific athletic venue sponsorship rights will include, but not be limited to, the following signage:

Bronco Stadium ("Stadium"):

- Main scoreboard permanent panels
- Main scoreboard tri-vision panels
- Fascia signage
- Field level signage and banners
- Façade, Tunnel and Concourse Signage
- On-field logo, with University's approval and provided that this does not adversely affect the turf
- Message Center Displays
- Promotions that involve sponsors at all events, provided that the University has agreed to such promotions
- Press conference backdrops
- Coaches' headsets
- Football goal post pads
- Exterior marquee and signage
- Video board features, promotions, replay swipes, PSAs and billboards
- Digital signage (when available in the future)

- Sound system cover
- Concession signs
- Cold air balloon signage
- Temporary signage
- Television monitors (Bronco Vision)
- Field Goal Nets (if such nets can be installed without detriment to spectators view and without damage to the track and field facilities)
- Virtual signage during telecast (subject to any rights retained by the WAC/ESPN)
- Sideline Cooling Systems
- Sideline Equipment Crates
- Sideline employees (e.g., chain crew, managers, etc.) clothing and equipment, as permitted (i) by the University's agreement with Nike or the applicable apparel contract at that time and (ii) the applicable Conference rules.
- Cup Holders, if available
- Other opportunities as approved by University

Taco Bell Arena Signage:

- Rights to the center hung scoreboard signage
- Rights to the University's main scoreboard and panels and auxiliary boards
- Rights to the University's LED displays, if available in the future
- Scoreboard, fascia and vormitory displays
- Scorers' table, press row and baseline table advertising panels (rotational, digital, or static)
- University and opposing team bench chair backs and kick plates

- Message center displays
- Video advertising displays
- Basketball goal posts padding
- Basketball backboard supports (goal profile)
- Team entry canopies/signage
- Playing surface logo opportunities, as approved by the University
- Shot clock advertising panels
- Suite Signage
- Virtual signage during telecast
- Courtside, rotational and permanent signage
- End wall permanent and rotational signage
- Upper corner sponsor panels
- Mezzanine permanent and rotational signage
- Exterior marquee and signage
- Temporary signage and displays
- Static signage opportunities that either currently exist or which Learfield may elect to sell in and around concession areas, facility entries/exits, restrooms, concourses, portal entries/exits into seating areas
- Concession, concourse and lobby displays
- Plastic souvenir cups and concession (food) containers subject to University's existing arrangements with its pouring rights partner and/or concession provider
- Courtside employees, not to include scorer's table personnel (e.g., ball boys, managers, etc.) clothing and equipment as permitted (i) by the University's

agreement with Nike or the applicable apparel contract at that time and (ii) the applicable Conference rules.

- Scoreboard signage in the practice area
- Blimp signage
- Profile Signage (on top of basket supports)
- Other opportunities as approved by University

All Taco Bell Arena signage sponsorship must be subject to the existing agreement between the University and Taco Bell primarily that sponsorship shall not be sold to a competitor of Taco Bell. Furthermore, such sponsorship shall be in respect of athletic events only and sponsors shall acknowledge that their respective signage may be covered or obscured at a non-Athletic event and/or at an athletic event that is not controlled by University such as a NCAA tournament. Learfield acknowledges that University has a separate arrangement with Taco Bell Arena and therefore agrees to consult with University with regard to all Taco Bell Arena signage and inventory and rights granted therein. Notwithstanding the foregoing sentence, the Taco Bell Arena Signage referred to above, shall be available to Learfield in accordance with the terms of this Agreement.

Other Sports Venues:

- Main scoreboard ad panels
- Any sideline and end-line advertising panels
- Message center displays
- Video advertising displays
- Public address announcements

- University and opposing team dugout and bench signage
- Temporary or permanent playing surface logo opportunities
- Static signage opportunities that either currently exist or which Learfield may elect to sell in and around concession areas, facility entries/exits, restrooms, concourses, portal entries/exits into seating areas
- Temporary signage and displays for special events
- Plastic souvenir cups and concession (food) containers subject to University's existing arrangements with its pouring rights partner and/or concession provider
- Other opportunities as reasonably approved by University
- Press Backdrop

Any signage other than the aforementioned signage shall be subject to consultation with University and further subject to the provisions of Section 1.3 above in respect of Additional Rights and/or Material Inventory Alteration.

For the avoidance of doubt, marketing, merchandising, sponsorship, signage, media and commercial rights for events on or within University's facilities that are hosted by other third party organizations or organizations within University that are not related to the Athletic Department, are excluded from this Agreement. Learfield may not enter into contracts with sponsors that prevent University, its Alumni or the University Foundation, from contracting with competitive sponsors for non-University Athletics events, regardless of where the events are held. Furthermore, where University shares facilities with a third party, for example the softball field, the rights granted herein shall only apply Athletic Department events.

2.11.2 Existing Message Board, Videoboard Rights, and Public Address Announcements. University grants Learfield the exclusive rights to secure sponsors for announcements, messages and videoboard displays on existing public address, electronic ribbon boards, scoreboards or videoboards including, but not limited to, out of town scores, trivia, statistics, features, segments, replays, commercial logo branded messages and contests. University will provide Learfield and its sponsors the necessary reasonable production and execution support needed for such announcements and messages at no cost to Learfield. The amount of necessary production and execution support provided will be reasonable and commensurate to that amount provided by University for University sponsors in the past. Any production and execution support over and above these reasonable amounts will be billed to Learfield by University at prevailing rates.

2.11.3 Maintenance of Sponsorship Signage, Message Boards and Videoboards. Learfield shall be responsible for all costs and expenses relative to any copy or art changes for replacement of existing signage. University will be responsible for the maintenance of both the existing and any new permanent signage and equipment, including the videoboards, rotating signage and static signage. University will also be responsible for payment of the game-day video board production charges. University will use all reasonable efforts to ensure that all such signage will be repaired in a timely manner in order to make such signage fully functional and operational.

2.11.5 New Inventory Items. It is understood and acknowledged that from time to time University may wish to install new items or upgrade existing items which are capable of adding to the inventory available under this Agreement or enhancing the existing inventory ("New Inventory Items"). All of the New Inventory shall be marketed and sold exclusively by

Learfield and the Net Revenue received by Learfield from any New Inventory Items shall be included in the calculation of the AGR each year, provided that such costs have been mutually agreed with University. Notwithstanding the foregoing, if any New Inventory Items are paid for by the University from funds other than the Capital Stipend, University and Learfield shall first agree how such New Inventory Items are to be funded and whether any of the increased revenue is to be paid directly to University to compensate for the expenditure over and above the Capital Stipend.

2.11.6 Temporary Signage. University, at no additional cost or expense, agrees to help facilitate Learfield obtaining the exclusive rights to sell or create temporary signage opportunities at University games or events which occur at a neutral venue. Any such temporary signage shall be paid for, erected, maintained and operated at the sole cost and expense of Learfield. All of the revenue received by Learfield from any temporary signage shall be included in the calculation of the AGR each year.

2.12 Promotional Items and Events. Throughout the Term, University grants Learfield the exclusive rights to the following promotional items and events:

2.12.1 Printed Promotional Item Rights. Learfield will have the exclusive right to sell sponsorships on all University printed promotional items relating to Athletics including, but not limited to, team rosters, ticket backs, parking passes, roster cards, ticket applications and mailer inserts, ticket envelopes, posters, sports calendars, fan guides, trading cards and schedule cards ("Printed Materials"). University and Learfield will mutually agree on an annual basis upon the sponsors, content and amounts of Printed Materials. However, the quantity (numbers produced) and quality will be no less than was being produced by or for University historically unless and until such Printed Materials can be replicated in all or in part electronically e.g. electronic ticketing and such advertising space is no longer available. University will be responsible for the design of Printed Materials. Learfield shall provide the sponsors logos and materials together with the necessary rights for University to reproduce such logos and materials in a format and timeframe as reasonably requested by University as needed to produce the Printed Materials in a timely manner. The cost of printing the Printed Materials will be at a level consistent with the historical cost and will be the responsibility of Learfield and shall not be deducted from the AGR.

2.12.2 Game Sponsorship and Promotional Sponsorship Rights. Learfield will have, at a minimum, the right to secure sponsors for pre-game, game "time-outs", half-time, and quarter breaks sponsored promotional activities and special game day on-field and on-court promotions or contests as well as official game sponsorships. University reserves the right to use, at no cost and expense to Learfield, a reasonable amount of time to be agreed upon by Learfield during any pre-game, game "time-outs", half-time, and quarter breaks for University's need to promote University's fundraising efforts, development projects, sports, upcoming University events or accomplishments, subject to Section 6.1 of this Agreement, the University Bookstore and such hotel and automobile lease/transport trade partners or athletically related activities. Promotional activities may include, but are not limited to, premium item giveaways, fan contests on the field, floor, or in the stands, sponsored entertainment acts, product samplings, inflatables, games, temporary signage, couponing and free product distribution and product displays; provided, however, this is not intended to exclude approved University student organizations' fundraising activities and other similar on-field/on-court recognition which do not have any commercial endorsement which in all events is strictly prohibited. By the first day of December of each year, Learfield will coordinate and discuss with University an annual game/event promotions sales plan for the following athletic year. University will provide Learfield with all reasonable assistance in the sponsorship, promotions and implementation/facilitation as needed during these game-related activities. At University's reasonable request, Learfield will respect the University's environmental sustainability efforts and other applicable mission goals and/or policies when entering into promotional activities.

2.12.3 Game Day Hospitality Rights.

A. Learfield shall have the exclusive rights to all corporate hospitality tents and group ticket sales related to corporate hospitality tents ("Hospitality Rights"). The Net Revenue, if any, derived from Hospitality Rights shall be included in the calculation of the AGR. Learfield shall be responsible for payment of costs associated with Hospitality Rights, subject to sub-section B below.

B. Hospitality Tent. University shall provide to Learfield, at no cost to Learfield, space for hospitality tents or any alternative facility for its clients at all University home football games as well as all football games played at a neutral site if University is designated as the home team and as the home team retains such rights. In all instances, University shall approve the location of the Hospitality Tent or alternative facility. The current hospitality area is the Keith & Catherine Stein Plaza by the Caven-Williams Sports Complex.

C. Learfield acknowledges and agrees that the activities of the University Alumni Association are excluded from this Agreement. The Alumni Association may host corporate hospitality and/or tailgate events which may be sponsored provided that these are held off-campus. The Alumni Association is currently located on University Drive but not on University owned land.

2.12.4 Fan Festival Rights. In addition to those rights described in Section 2.12.2, Learfield shall have the exclusive right to sell sponsorships, sponsorship packages (including tickets, meal and beverage vouchers) and corporate involvement for any existing interactive fan festival or related activities, that it creates with the approval of the University, such approval not to be withheld unreasonably, as well as those that University creates in the future with Learfield's approval, not to be withheld unreasonably. The Net Revenue from such events shall be included in the calculation of the AGR. The following are examples of at-event impact sponsorship inventory which will be available throughout the Term exclusively to Learfield but such examples are not intended to be the only available inventory:

- Product displays
- Sampling, couponing and free product distribution to fans attending University events
- Title and/or rivalry sponsorships of University Athletic events
- Presenting sponsorships of University Athletic events
- Pre-game post-game, half-time and timeout in-arena/stadium, on-court/field promotions, contests, mascot appearances, corporate recognition/presentations, and/or giveaways
- Plastic souvenir cups and concession (food) containers, subject to University's existing arrangements with its pouring rights partner and/or concession provider.
- Mascot/Cheerleader appearances
- Inflatables/games
- Kid's Club sponsorships (subject to the existing arrangements between University Athletics Department and University Bookstore)
- Varsity team tournaments and special events

- Ancillary entertainment opportunities such as half-time shows, etc.
- Midnight Madness-type events

For the avoidance of doubt, nothing herein shall prevent University from offering such events, without sponsorship, and on consultation with Learfield if such event involves a third party company for example a licensed merchandise retailer, and any revenue shall not be included in the calculation of the AGR.

2.12.5 Licensing Opportunities & Retail Promotions. Commensurate with historical broadcast and sponsorship agreements, and subject to existing licensing agreements, University grants Learfield the right to use University's name, trademarks, service marks, logos or symbols as identified at Schedule 2.12.5 on a royalty free basis to Learfield and its sponsors with regard to any promotions, sponsorships, commercial endorsements, or any other marketing activities covered in this Agreement; provided, however, that (i) University has approval, not to be unreasonably withheld or delayed, of all artwork produced by Learfield and/or sponsors, media partners and other third parties with whom Learfield contracts in accordance with this agreement, that bear the University's name, team name and/or other trademarks including University's logos, the blue field and other indicia that identify the University such as the college colors of blue and orange and the mascot and (ii) Learfield agrees that the sale or distribution of University logo bearing merchandise by Learfield or a sponsor is prohibited unless such merchandise is acquired through a supplier licensed by the University or the University Bookstore, and all such merchandise or designs shall have first been approved by the Director of Trademark Licensing, such consent not to withheld unreasonably. For the avoidance of doubt, no party is permitted to sell product or services on

University campus except through the University Bookstore without University approval. If a sponsor wishes to distribute a product or service on University campus, whether as a giveaway or for a fee, Learfield shall first consult with University and University shall have right of approval over such distribution, not to be unreasonably withheld. Learfield shall have the right to offer to sponsors the ability to enter into retail promotions, which make use of a University logo, such as using the University logo in point of sale materials ("Specific Sponsorships"). Learfield shall have the right to sell Specific Sponsorships throughout the Term of this Agreement and shall consult with University in respect of the same. The style and presentation of the Specific Sponsorship shall be submitted in writing or via email to the Director of Trademark Licensing for approval. If Learfield does not receive an approval or non-approval within seven (7) business days of its submission, the style and presentation of the Specific Sponsorship will be deemed approved by the University.

Learfield and those Learfield sponsors of University will have the right to use tickets in their retail promotions and all their projects which are related to Learfield's rights under this Agreement. Subject to the Exclusions and Excluded Sponsorships referred to in sections 3.9 and 3.10 respectively, the Parties agree not to allow the use of athletic event tickets for promotional purposes that specifically compete with Learfield's sponsorship sales efforts ("Restriction") by all other parties without the approval of University and Learfield, not to be unreasonably withheld. To the extent possible, University agrees to place an appropriate notice on all athletic event tickets in order to give effect to the Restriction.

2.13 Rivalry Series. The Parties will cooperate in the development of additional promotional marketing opportunities, including, but not limited to, the right to market and/or create one or more corporate-sponsored rivalry series for all athletic events. Specific details of any new rivalry series events will require the approval of the University in its sole discretion.. Any rivalry series which is created by Learfield as well as all neutral site games whose rights belong to University and not the other team shall be Learfield's rights on an exclusive basis, including sponsorships, game sponsorships, print rights and all other promotional items. Notwithstanding the foregoing, and subject only to reciprocal rights granted to the rival school, University shall retain all rights in and to, including merchandise rights, the Rivalry Series which shall continue beyond the Term. As part of any future agreement for a neutral site game whose rights belong to University, University will not permit the solicitation of any University/Learfield client in a major sponsorship category (including, but not necessarily limited to, telephone, insurance, banking, and automobile), and will not permit the solicitation of any competitor of Learfield client in a major sponsorship category, for a title sponsorship and secondary or "presenting" sponsorship.

2.14 Relocation of a University Home Game. If during the Term, one of the University's home football games is moved to a neutral location or to the visiting team's location ("Displaced Game"), a fair and equitable reduction in the Guaranteed Royalty Fee and a corresponding adjustment to the Revenue Share Hurdle amounts shall be negotiated in good faith by the parties in recognition of the sponsorship revenue affected which results from a Displaced Game; provided, however, if the Displaced Game is replaced in the same season with another home game involving another team in the University's conference or a team which is comparable in stature, national prominence of its program or national ranking to the team which is involved in the Displaced Game or a team which is a traditional rival of University, then there shall not be any reduction in the Guaranteed Royalty Fee or any increase in the Revenue Share Hurdle Amount.

3.1 Tickets and Parking Passes. Throughout the Term, University shall provide Learfield, at no cost to it, the number of tickets and parking passes specified in Schedule 3.1, which shall be no less than the same historical number of season and individual tickets in the same or better historical locations to football, men's and women's basketball games and other University intercollegiate games which were provided or allocated to sponsors, as well as TV and radio broadcast providers and rights holders, for the 2008 - 2009 Athletic Year. Said tickets and parking passes shall be of the same or better quality as to locations previously provided by University. In addition, Learfield shall have the right to purchase additional tickets from University, if available, the quality of which will be based upon availability and the tickets afforded the highest level of donor status by University ("Additional Tickets"). The price for the Additional Tickets shall be the lowest available price charged by University for the same quality of ticket together with the associated Bronco Athletic Association fees and any other dues required for third party purchase of the applicable tickets. Learfield shall have the right to purchase additional parking passes from University, if available, at the lowest available price charged by University. .

During each year of the Agreement, University will provide Learfield the right to purchase up to 200 bowl game tickets; 24 men's and women's WAC Conference Basketball all session tournament tickets; 30 men's and women's basketball NCAA first- and second-round tickets; 30 NCAA men's and women's regional tickets; and 50 Men's and Women's Final Four tickets, provided that University is participating in the applicable game. The quality of the tickets allocated to Learfield will be proportional to the quality of the total tickets made available to University. If, for example, one-third of University's tickets are in the lower level of the WAC Tournament, one-third of Learfield's allocation of tickets will be in the lower level, as well. University will provide parking passes at cost to Learfield on an "as available" basis. In addition, University will provide at no cost to Learfield, four (4) VIP parking passes to all University athletic events (football passes are for reserved spots) and two VIP reserved spots through the University's Club seat program for football. Notwithstanding the foregoing, University shall be able to give away tickets in return for operational services provided to University and other trade provided that such activity does not impinge upon the sponsor rights granted to Learfield hereunder.

3.2 **No Existing Agreements**. University represents and warrants that it has not executed any advertising or sponsorship agreements, which extend past the 2009 - 2010 Athletic Year. If there are any advertising or sponsorship agreements which extend beyond the 2009 – 2010 Athletic Year, including the St. Luke's-Idaho Elks Agreement, such agreements and the revenue therefrom shall belong to Learfield, excluding the Boise Office Equipment Agreement which University will not renew or extend and will receive the revenue therefrom through June 30, 2011. Except for the Boise Office Equipment agreement through the 2010 – 2011 Athletic Year only, any revenue that University receives from an advertising or sponsorship agreement which extends past the 2009-2010 Athletic Year shall be paid to Learfield by University, failing which, the amount of such revenue shall be deducted from the Guaranteed Royalty Fee.

3.3 Credentials; Parking and Travel:

University will also provide all-access credentials and parking on all game days for Learfield's staff members and, from time to time, members of its senior staff.

A. To the extent that there are seats and sufficient capacity, and subject to

University's head coach's approval, University will pay for the travel expenses for Learfield's radio crew (consisting of 3 persons) on the team's charter to such away football games in which University's teams appear but Learfield will be responsible for the broadcasting crew's hotel, per diem, and if applicable, commercial airline or vehicular travel, expenses. Learfield shall use best efforts to ensure that such radio crew comply with University's policies and guidelines with respect to their attendance on such charter and University reserves the right to prohibit such radio crew from such charter flights if the radio crew does not follow the University's policies and guidelines. If available, University will further provide Learfield with space on any chartered aircraft carrying University's football team for up to four (4) persons and a Learfield staff member for Learfield's client development, provided that all such persons shall comply with University's policies and guidelines with respect to their attendance on such charter. University shall charge Learfield for such seats at cost.

B. Notwithstanding anything hereunder, all seats on any charter flights shall be subject to University's approval and subject to University's operational needs and also the respective coach's approval.

C. Learfield shall be responsible for all costs in association with the broadcasting crew including hotel, per diem, commercial airline or vehicular travel, expenses for all other games.

3.4 Office Space. University acknowledges and agrees that Learfield's performance under this Agreement and the resulting benefits to University will be better enhanced if Learfield is provided office space on the campus of University, preferably near or within University's Athletic Department. University will provide appropriate office space and the use of existing office furniture in a University athletic facility to Learfield during the Term of the Agreement ("Leased Premises") at no additional cost to Learfield. Any changes or enhancements relative to the Leased Premises and furniture therein shall be at the sole cost and expense of Learfield, and shall be at the prior written consent of University. The Leased Premises shall be of a size and quality to accommodate four (4) full-time Learfield employees and one intern. Learfield may hire additional personnel in consultation with University. University will establish telephone and internet access to Learfield in the Leased Premises at no cost to Learfield; however, Learfield will be responsible for reimbursing all related charges other than the set up fees including but not limited to the monthly charges and long distance toll charges. In addition, Learfield will be responsible for paying for out-of-pocket expenses such as office supplies. University will pay for all utilities relating to the Leased Premises. If Learfield needs to expand its staff to carry out its responsibilities under this Agreement, subject to availability, University shall use its best effort to provide Learfield additional office space, rent-free, to accommodate such need in reasonable proximity to Learfield's Leased Premises, or in different space large enough to accommodate all of Learfield's needs. Learfield shall comply with all labor laws and regulations as specified further in section 8.20 below.

3.5 Efficient operation. Except as otherwise provided in this Agreement, Learfield will furnish all labor, management, supplies, and equipment necessary to fulfill its obligations herein; provided, however University will provide non-financial assistance for sponsorship fulfillment and execution at no expense to Learfield (such as the implementation of an on-field or on-court contest during pre-game, halftime or a time-out, provided that such assistance required is reasonable and within University's staffing capacity). Learfield shall provide the necessary number of staff personnel as are reasonably required for Learfield to perform its obligations under this Agreement. It is anticipated that Learfield will require four (4) staff personnel including a General Manager with at least 7 years of applicable experience. University shall have the right to approve the General Manager, which approval will not be unreasonably withheld so long as the General Manager has sufficient prior experience to carry out his duties and responsibilities and shall be consulted in respect of all staff to be hired by Learfield to work for Bronco Sports Properties.

3.6 Permits. Learfield will be financially responsible for obtaining all required permits, licenses, and bonds to comply with pertinent University rules and policies and municipal, county, state and federal laws, and will assume liability for all applicable taxes including but not restricted to sales, income and property taxes.

3.7 Successful Performance. Recognizing that successful performance of this Agreement is dependent on mutual cooperation between the Parties, Learfield will meet periodically with University to review Learfield's operations pursuant this Agreement and make necessary adjustments. Learfield will at all times recognize that University is a State university and Athletics is only part of the institution and therefore, Learfield will take this fact into account as part of its mutual cooperation with University.

3.8 Blogs. University acknowledges and agrees that it is the exclusive right of Learfield to provide ongoing, regular and real time coverage of University athletic events which not only includes the game itself but also includes pre-game, half-time, quarter breaks and post-game broadcasts ("Game Coverage"). University further acknowledges that the right to provide any type of commercial sponsorship or promotion in such "game coverage" on a blog or other similar means which features, describes, includes or discusses any University team in action as it occurs or "Game Coverage" (including any pre-games, half-time, quarter breaks or post-game) is an exclusive right belonging solely to Learfield ("Blog Sponsorship".) This Blog shall be made available on University's OAS and nothing herein shall prevent University from writing its own blog(s) provided that no University written blog relating primarily to Athletics may contain any type of commercial underwriting or commercial sponsorship or advertising of any kind. If either University or Learfield become aware of any third party blog which includes blog or blog-type Game Coverage or Blog Sponsorship or a blog which violates the Conference Policy (collectively a "Violating Blog"), University will act reasonably to attempt to arrive at a satisfactory solution to eliminate the Violating Blog. Notwithstanding the foregoing, failure by University to eliminate a Violating Blog shall not be considered a material breach of this Agreement.

3.9 Exclusions. Learfield acknowledges that none of the revenue associated with the agreements as referenced in Schedule 3.9 to this Agreement ("Excluded Agreements") shall belong to Learfield; provided, however, Learfield shall have the right to pursue and sell to those Excluded Agreement parties additional sponsorship opportunities not specifically covered by the terms of the Excluded Agreements.

3.10 Excluded Sponsorships. Notwithstanding anything contained in this Agreement to the contrary, Learfield agrees that it shall not sell the following categories of sponsorship or sell any advertising right to any company that engages in the following businesses throughout the Term of this Agreement, unless otherwise agreed to by University, which approval may be withheld in University's sole discretion for no reason:

- Gambling (except the State authorized lottery). Establishments which provide gambling but also have other recognized sources of income such as a spa and resort are permissible sponsors so long as the sponsorship makes no reference to the gambling aspects of the establishment.

- All Liquor (except that television broadcasts may include paid for advertising, but not sponsorship, from malt beverage or wine companies)
- Prophylactics
- Feminine hygiene products
- Tobacco products
- Sexually explicit materials.
- Adult entertainment
- Religious and/or political materials
- Ammunition and firearms
- Competitors of University which for purposes of this Agreement shall be limited only to other higher education institutions or competitors of the University Bookstore/Bronco Shop being including but not limited to bookstores and fan stores such as the Blue & Orange Store.
- Material that could be considered defamatory, obscene, profane, vulgar or otherwise socially unacceptable or offensive to the general public or may cause harm to student-athlete health, safety and welfare
- Advertising that may bring discredit to the purposes, values, principles or mission of the NCAA or University or may negatively impact the interests of intercollegiate athletics or higher education.

Learfield agrees that in exercise of its rights granted hereunder, it shall ensure that any advertising, sponsorship or other representation of the University shall be mindful of and consistent with the good image, message and reputation of the University. Furthermore Learfield shall use reasonable efforts to ensure that all sponsors, advertisers, media partners and other parties with whom Learfield enters into arrangements with in accordance with the terms of this agreement, shall be mindful of and consistent with the good image, message and reputation of the University and that promotion or recognition of such third party will not materially distort or impair the presentation and image of the University, its Athletics program and the respective teams.

4.1 **Guaranteed Royalty Fee.** As payment for the rights licensed under this Agreement, Learfield will pay University a Guaranteed Royalty Fee in such amounts as set forth below. The Guaranteed Royalty Fee described below is based upon all of the following assumptions being completely accurate (collectively the "Assumptions"): (a) that at a minimum, the inventory available to Learfield for sponsorship sales shall be not less than the inventory which was available for sponsorship sales for the 2008 - 2009 Athletic Year and will include all the signage inventory available in the Taco Bell Arena including the signage sold to Cactus Pete, Jiffy Lube, Chevron and the Boise Airport ("Base Sponsorship Inventory"); (b) all of the exclusive rights described under this Agreement are available to Learfield throughout the Term; (c) all of the historical sales information provided by University to Learfield is accurate and the amounts set forth in the agreements between the University and its sponsors and advertisers are collected in full by University; and (d) except for the Exeluded Agreements (but not the Boise Office Equipment Agreement), there are no advertising or sponsorship agreements which extend past the 2009 – 2010 Athletic Year. If any or all of the Assumptions do not occur, are not aceurate or do not remain in effect for the entire Term of the Agreement, then University shall negotiate in good faith with Learfield for a fair and equitable reduction in Learfield's Guaranteed Royalty Fee, save that in the event that the Assumptions in sub-paragraph (a) or (c) above are not accurate the Guaranteed Royalty Fee will be adjusted downward on a dollar-for-dollar basis accordingly. If the Base Sponsorship Inventory or elements are materially reduced or eliminated, University will either replace inventory or alleviate those issues specifically identified by Learfield in writing associated with such inventory to Learfield's reasonable satisfaction failing which the Guaranteed Royalty Fee will be adjusted downward on a dollar for dollar basis. All Guaranteed Royalty Fees owed by Learfield shall be paid one-half on December 31 and one-half on June 30 of each Athletic Year with a final distribution of any income derived through the agreed AGR formula or other adjustments made on or before August 31st of the following Athletic Year.

Athletic Year	Guaranteed Royalty Fee
2010 – 2011	$2,135,000*
2011 – 2012	$2,260,000
2012 – 2013	$2,335,000
2013 – 2014	$2,410,000
2014 – 2015	$2,485,000
2015 – 2016	$2,560,000
2016 – 2017	$2,635,000

If the University exercises its option for each Extended Period, the Guaranteed Royalty Fee for each Extended Period shall be as follows:

2017 – 2018	$2,710,000

* This amount reflects a $50,000 reduction to accommodate the University's retention of that amount from the last year of the University's contract with Boise Office Equipment.

2018 – 2019	$2,785,000
2019 – 2020	$2,860,000

4.2 Reduction to Guaranteed Royalty Fee. Notwithstanding anything contained in this Agreement to the contrary, a fair and equitable reduction in the Guaranteed Royalty Fee Payment will be agreed upon by Learfield and University if any one or all of the following events occur and thereby reduce Learfield's revenue during the Term of this Agreement, which reduction will be negotiated in good faith by the Parties unless another manner of reduction is otherwise provided in this Agreement:

A. University's football, men's or women's basketball team incurs sanctions which prevent the team from appearing in conference championship games or post season conference tournaments, NCAA, or NIT tournaments (basketball) or playoff/bowl games (football):

B. The men's football, men's basketball or women's basketball program is eliminated or substantially curtailed; or

C. Should any acts of terrorism, acts of state or the United States, strikes, labor shortages, epidemics or any natural disaster, including, but not limited to, flood, fire, earthquake, tornado, hurricane or extremely severe weather condition, drought, loss of power, whether or not resulting from a natural disaster, prevent a University game being played at its originally scheduled athletic venue. However, the Parties recognize that it is preferred that University reschedule a game at a different date or time in an effort to keep the game as a home game instead of moving the location of the game to the visiting team's home venue or moving the game to a neutral venue; or

D. If Learfield is not permitted to sell any and all categories of sponsorships not specifically prohibited herein, or to sell to any and all sponsors other than those specifically excluded herein, or to continue to sell all inventory managed or sold by Learfield at any time during the Term of this Agreement, or should the NCAA, the WAC or the University disapprove of any commercial inventory, category, or sponsor that had been previously allowed by the NCAA, the WAC or University for any reason other than compliance with policies, regulations and laws which existed as of the date of the RFP, and such disallowance results in a material deviation in the type, kind or quantity of inventory provided to Learfield and University fails, upon receipt of written notice from Learfield of such a deviation, to cure such deviation within sixty (60) days of such notice, in such case, and both parties have used best efforts to mitigate the material deviation, the University agrees in advance that, pursuant to Section 4.1, then University shall negotiate in good faith with Learfield for a fair and equitable reduction in Learfield's Guaranteed Royalty Fee based upon the amount of commercial sponsorship or sponsorship dollars that were lost due to the exclusion of said sponsor or inventory; or

E. All of the events described in this Section 4.2 and elsewhere in this Agreement which give rise to a reduction in the Guaranteed Royalty Fee are hereafter singularly referred to as an "Adjustment Event" and collectively as "Adjustment Events". Examples of Adjustment Events are:

- the NCAA eliminates malt beverage advertising and Learfield is able to show that it has been financially adversely affected by such decrease;
- the Base Sponsorship Inventory is reduced or adjusted;
- Learfield is prohibited from selling specific sponsorships which were sold by University at the same or higher historical levels; and
- a decrease in the number of games available through Third Tier Television

Rights from that which was historically available and Learfield is able to show that it has been financially adversely affected by such decrease.

Provided however that University exercising its approval rights shall not be considered an "Adjustment Event", unless it was an approval right that was not to be unreasonably withheld and University was unreasonable in its withholding of such approval.

4.3 Conference Change. Notwithstanding anything contained in this Agreement to the contrary, a fair and equitable increase in the Guaranteed Royalty Fee Payment may be negotiated in good faith and agreed upon by Learfield and University if University's men's football, men's basketball or women's basketball is moved to a conference other than WAC and/or the WAC becomes a BCS Conference during the Term of this Agreement.

5.1 Revenue Sharing. In addition to the annual Guaranteed Royalty Fee, Learfield will pay University, on or before August 31st of the following Athletic Year, 50% of collected Adjusted Gross Revenue ("AGR") that exceeds the Revenue Share Hurdle set forth below ("Revenue Share Amount"). Any amounts collected after August 31st of each Athletic Year will be added to the calculation of AGR for the applicable year and paid when collected. AGR is defined as collected gross revenue (defined as total cash revenue, billed and collected, , less agency commissions and third party rights fees such as NCAA or NIT related sponsorship fees) as well as all other direct out-of-pocket promotional costs such as tickets and client fulfillment expenses provided that all such costs have first been approved by University.

Athletic Year	Revenue Share Hurdle
2010 – 2011	$3,885,000
2011 – 2012	$4,035,000 — $29 - 1/12

2012 – 2013	$4,335,000
2013 – 2014	$4,445,000
2014 – 2015	$4,485,000
2015 – 2016	$4,635,000
2016 – 2017	$4,785,000

If this Agreement is extended for the Extended Period(s), the Revenue Share Hurdle Amount shall be as following during each Extended Period:

2017 – 2018	$4,935,000
2018 – 2019	$5,085,000
2019 – 2020	$5,235,000

Notwithstanding anything contained in this Section 5.1 or elsewhere in this Agreement to the contrary, if an Adjustment Event or Adjustment Events occur, the Revenue Share Hurdle amounts set forth above will likewise be adjusted to reflect the loss of revenue derived by Learfield under this Agreement. The amount of such adjustment shall be negotiated in good faith by the Parties.

6.1 Trade. In addition to the promotion benefits referenced in section 7.3 below, Learfield will use its best efforts to renew for University during each year of the Term up to the same amount of non-media in-kind-trade benefits in exchange for sponsorship rights which exists in the 2008 - 2009 Athletic Year which is valued at $150,000 ("Threshold Amount"). For the avoidance of doubt, University shall be responsible for any trade, including hotel and automobile lease/transport trade whereby University exchanges tickets for goods or services in kind, but shall not give such partners any rights in inventory granted to Learfield under this Agreement other than that which has been provided to them historically and which shall be in consultation with Learfield. Learfield will also use its best efforts to secure during each year of the Term at least $150,000 of additional in-kind-trade benefits in exchange for advertising or sponsorship rights granted hereunder above the Threshold Amount ("Additional Trade Amount"). The Threshold Amount and the Additional Trade Amount shall be referred to herein as the "Total Trade Amount". University shall have approval of all such trade agreements, which approval will not be unreasonably withheld. All trade must be for University's athletic marketing purposes only and will not be affected by any trade obtained by the University. Any in-kind-trade renewed or secured by Learfield will not reduce the amount of cash donations or contributions. Learfield reserves the right to substitute alternative inventory to current trade customers if those customers are otherwise displacing cash paying customers with University's approval, which approval will not be unreasonably withheld. In the event that Learfield does not obtain in-kind trade benefits for University of value up to the Total Trade Amount, University shall have the right to enter into in-kind trade agreements with third parties without further recourse to Learfield.

7.1 Extension Bonus.

(i) If University exercises all three (3) of its one year options to extend the Term of this Agreement to include the Extended Period, as set out in Section 1.1(i) above, Learfield will pay University an extension bonus in the aggregate amount of $500,000 once University exercises the third one year option, to be paid no earlier than July 1, 2017;

(ii) If University exercises one option for an extension of three years to extend the Term of this Agreement to include the Extended Period, as set out in Section 1.1(ii) above, Learfield will pay university an extension bonus in the aggregate amount of $500,000 on July 1, 2015.

7.2 Capital Stipend. Beginning August 31, 2011, Learfield will provide University with a capital stipend of One Million Dollars ($1,000,000) ("Capital Stipend"). Such Capital Stipend shall be payable ratably over the remaining Athletic Years of the Initial Term or as otherwise agreed with University, such approval not to be unreasonably withheld and consistent with both University and Learfield's goals to provide significant capital improvements to University Athletics' venues. University agrees that all of the Capital Stipend shall be expended by University toward its procurement of new University athletic venue sponsorship assets which will provide Learfield with additional sources of revenue opportunities and venue enhancements. By way of example, the Capital Stipend could be used by the University to help fund new video boards in the Stadium and/or in the Taco Bell Arena, or new scoreboards or LED or reader boards for football and basketball. All sponsorship opportunities with respect to all of these assets shall belong exclusively to Learfield and all revenue generated therefrom shall belong exclusively to Learfield and shall be included in the calculation of AGR. University agrees that Learfield shall have input into the final decisions regarding which new assets will be installed in which athletic venue with the Capital Stipend as well as input into the "value engineering" of the sponsorship elements associated with these assets. University agrees that it will use its best efforts to use the Capital Stipend to purchase (or assist in the purchase) of assets or inventory at the athletic venue which is sold out on a regular basis or where the inventory at an athletic venue is already maximized (only the

Stadium or the Taco Bell Arena).

7.3 Additional Incentives.

7.3.1 Outdoor Sponsorships. Learfield will provide University throughout the Term through Lamar Outdoor the same amount of billboard sponsorships historically provided to University during the 2008 - 2009 Athletic Year.

7.3.2 Radio Promotion. Learfield will provide University throughout the Term not less than the amount of radio promotion offered by the University's flagship station historically provided to University during the 2008 - 2009 Athletic Year.

7.3.4 Television Promotion. Learfield will provide University throughout the Term not less than the same amount of television promotion provided by television station KTVB historically provided to University during the 2008 - 2009 Athletic Year.

7.3.5 Print and Newspaper Promotion. Learfield will provide to University throughout the Term not less than the same amount of newspaper promotion provided by the Idaho Statesman and if possible, the amount of sponsorship currently provided by Yellow Pages and Impact.

7.4 DVD Guarantee: In consideration for the rights granted under section 2.8 above, Learfield shall pay to University a "DVD Guarantee". This DVD Guarantee shall be calculated by taking the average of the annual revenue received by the Athletics Department of the University in respect of its football DVDs for the football seasons 2005/06 through 2009/2010 excluding, however from the calculation, the highest annual payment and the lowest annual payment received during that time period ("Initial DVD Guarantee Amount"). Annual shall mean calendar year. In addition to the Initial DVD Guarantee Amount, if Learfield produces and sells a football DVD, Learfield shall pay University an additional payment, if any, computed as follows: From the gross revenue collected by Learfield from DVD video sales there shall be subtracted therefrom the following: (i) approved production and distribution costs which shall be deemed approved if they are consistent with production and distribution costs incurred by Learfield or its Affiliates at other universities; and (ii) the Initial DVD Guarantee. University shall then receive 75% of the resulting amount, if any, and Learfield shall retain 25% of the resulting amount, if any. In no event however shall any of the revenue from DVD video sales be included in the calculation of AGR.

8.1 General Terms and Conditions. The terms and conditions contained in this Agreement will govern and will take precedence over any different or additional terms and conditions which Learfield or University may have included in any documents attached to or accompanying this Agreement, in the RFP and the response thereto or any letters between the Parties thereafter. Any handwritten changes on the face of this document will be ignored and have no legal effect unless initialed by both Parties.

8.2 Choice of Law, Forum Selection, Entire Agreement and Amendment. This Agreement will be construed under Idaho law (without regard for choice of law considerations). This Agreement and the Schedules attached hereto constitutes the entire agreement and understanding of the Parties and replaces any prior or contemporaneous agreement, whether written or oral, including, but not limited to the RFP. No amendments to this Agreement will be effective unless in writing and signed by the Parties. The State courts located in Ada County, Boise, Idaho, shall have exclusive jurisdiction over any disputes relative to this Agreement.

8.3 Assignment. Learfield may not assign any rights or obligations of this Agreement without the prior approval of University, which approval will not be unreasonably withheld. In the event of any assignment, Learfield shall remain responsible for its performance and that of any assignee. This Agreement will be binding upon Learfield, or its successors and assigns, if any. Any assignment attempted to be made in violation of this Agreement will be void. Notwithstanding anything contained in this Section 8.3 to the contrary, Learfield will have the right to assign this Agreement and its rights and obligations hereunder to an entity it either controls (owns more than 50%) or manages.

8.4 Termination. Either party may terminate this Agreement in whole or in part for cause upon ninety (90) days written notice if the other party fails to comply with any material term or condition of this Agreement, becomes insolvent or files for bankruptcy protection, or fails to comply in a material way with the requirements of this Agreement. Notwithstanding anything contained in this Section 8.4, the terminating party must state with particularity the specific matters of the other party's non-compliance, whereupon the other party shall have ninety (90) days to cure such matters, or such longer period if said other party is diligently pursuing a cure. In the event of any material noncompliance on the part of Learfield, Learfield shall continue to pay its Guaranteed Royalty Fee under this Agreement unless Learfield's noncompliance is a result in whole or in part by the actions or inactions of University; provided, however if University elects to administer the rights herein itself, any amounts collected by University from such rights in respect of contracts entered into by Learfield shall offset Learfield's obligation to pay the Guaranteed Royalty Fee by such amounts.

8.5 Independent Contractor. Learfield will perform its duties hereunder as an independent contractor and not as an employee of University. Neither Learfield nor any agent or employee of Learfield will be or will be deemed to be an agent or employee of University. Learfield will pay when due all required employment taxes and income tax withholding, including all federal and state income tax and any monies paid pursuant to this Agreement. Learfield and its employees are not entitled to tax withholding, worker's compensation, unemployment compensation, or any employee benefits, statutory or otherwise from University. Learfield will be solely responsible for the acts of Learfield, its employees and agents. Learfield shall provide worker's compensation for all its employees and indemnify and hold University harmless therefrom.

8.6 Non-Waiver. No waiver by any party of any default or nonperformance will be deemed a waiver of subsequent default or nonperformance.

8.7 Audit and Retention of Books and Records. University will have the right upon reasonable notice to Learfield, (not more than once per year, and once during the three years following the termination of this Agreement) to inspect and copy such books, records, and documents (in whatever medium they exist) related to the collection of monies, payment of expenses and calculating of the AGR hereunder. Learfield will make such items available for inspection during normal business hours at such location as Learfield's financial books and records are maintained. All such items will be retained by Learfield during the term of this Agreement and for a period of five (5) years after the delivery of the goods and/or services. Any items relating to a claim arising out of the performance of this Agreement will be retained by Learfield, its agents and subcontractors, if any, until the later of the date when the claim has been resolved or five (5) years after the date of final payment under this Agreement. As part of its right of inspection and copying and not in addition thereto, University will have the right to conduct a formal audit or hire an independent auditor to audit such records. Learfield agrees to cooperate with the audit and provide access to all books and records required to verify AGR. In the event that such audit reveals unpaid monies due the University, Learfield shall make immediate payment of balances owed with plus interest, calculated at the rate of six percent (6%) per annum, calculated from the date such amount originally became due under this Agreement. In the event any such discrepancy is in excess of Fifty Thousand Dollars ($50,000.00), Learfield shall also reimburse University for the reasonable costs associated with such inspection, including but not limited to, reasonable attorney's fees and legal costs incurred in connection therewith.

8.8 University Information; Learfield Information. Learfield agrees that any information it receives during the course of its performance, which concerns the personal, financial, or other affairs of University, its regents, trustees, directors, officers, or employees will be kept confidential and in conformance with all state and federal laws relating to privacy. University agrees that any information it receives from Learfield under this Agreement which concerns the personal, financial or other affairs of Learfield, its members, stockholders, officers, directors, employees and sponsors including, but not limited to, sales summaries, revenue sharing reports, settle-up documents and any other documents relating to the reporting of financial and sales information by Learfield to University will be kept confidential and in conformance with all state and federal laws relating to privacy.

8.9 Insurance. At all times during its performance under this Agreement, Learfield will obtain and keep in force, at its own cost, comprehensive general and professional liability and general liability insurance, including coverage for death, bodily or personal injury, property damage, including product liability, libel and slander, media and broadcasting liability and automobile coverages, with limits of not less than $1,000,000 each claim and $1,000,000 each occurrence along with business interruption insurance eoverage. All certificates evidencing such insurance, will be provided to University upon its request, will name University and its trustees, directors, officers and employees as additional insureds, and will provide for notification to University within at least thirty (30) days prior to expiration or cancellation of such insurance. Learfield represents that it has and will maintain during the Term worker's compensation insurance to the extent required by Idaho law.

8.10 Indemnification. Learfield agrees to defend, indemnify and hold harmless the State of Idaho, the University, their trustees, directors, officers, employees and agents from all liability, injuries, claims or damages (including claims of bodily injury or property damage) and loss, including costs, expenses, and attorneys' fees, which arise from the negligent acts and omissions of Learfield, its employees, officers and agents under this Agreement. Subject to the limits of liability specified in Idaho Code 6-901 through 6-929 known as the Idaho Tort Claim Act, the University agrees to defend, indemnify and hold harmless Learfield, its members, employees, officers, directors and agents from all liabilities, injuries, claims or damages (including claims of bodily injury or property damage) and loss, including costs and expenses, and attorneys' fees, which arise from the negligent acts or omissions of University, its trustees, directors, officers faculty, students, employees and agents. In the event of litigation by any party to enforce the terms and conditions of this Agreement, the prevailing party will be awarded costs and reasonable attorneys' fees.

8.11 Notices/Administration. Except as otherwise provided in this Agreement, all notices, requests and other communications that a party is required or elects to deliver will be in writing and delivered personally, or by facsimile or electronic mail (provided such delivery is confirmed), or by a recognized overnight courier service or by United States mail, first-class, certified or registered, postage prepaid, return receipt requested, to the other party at its address set forth below or to such other addresses as such party may designate by notice given pursuant to this section:

8.12 Severability. If any provision of this Agreement is invalid or unenforceable with respect to any party, the remainder of the Agreement, or the application of such provision to persons other than those as to which it is held invalid or unenforceable, will not be affected and each provision of the remainder of the Agreement will be valid and be enforceable to the fullest extent permitted by law.

8.13 Survivability. The terms, provisions, representations, and warranties contained in this Agreement that by their sense and context are intended to survive the performance thereof by any of the parties hereunder will so survive the completion of performance and termination of this Agreement, including the making of any and all payments hereunder.

8.14 Force Majeure. No Party will be considered to be in default of its delay or failure to perform its obligations herein when such delay or failure arises out of causes beyond the reasonable control of the Party. Such causes may include, but are not restricted to, acts of God or the public enemy, including, but not limited to, acts of terrorism, acts of state or the United States in either its sovereign or contractual capacity, fires, floods, epidemics, strikes and unusually severe weather; but in every case, delay or failure to perform must be beyond the reasonable control of and without the fault or negligence of the Party.

8.15 Counterparts. This Agreement may be executed in two counterparts, each of which shall be deemed an original, and both of which will constitute one Agreement.

8.16 Non-Solicitation by University. University agrees that during the Term of this Agreement, and for a period of twenty-four (24) months, after its termination, irrespective of the reason for its termination, shall not directly or indirectly, hire or solicit an officer, general manager, assistant general manager, or account executive of Learfield or encourage any such person to terminate its relationship with Learfield without first obtaining consent from Learfield. University acknowledges that its breach of this section shall entitle Learfield to injunctive relief.

8.17 Headings. The headings of the sections of this Agreement are used for convenience only and do not form a substantive part of the Agreement.

8.18 Injunctions. In addition to any other remedies permitted by law, should any Party violate the terms set forth herein, the violating party shall be entitled to injunctive relief against the other to restrain any further violation of these provisions. Should any Party be successful in this endeavor, the other party shall pay all costs and expenses associated therewith, including reasonable attorney's fees.

8.19 University's Representations and Warranties Regarding Learfield's Rights Under this Agreement. University represents and warrants to Learfield that (a) University has the absolute right to grant and license the rights described in this Agreement to Learfield and provide Learfield and/or its sponsors all of the benefits described in this Agreement as well as those benefits at the historical levels provided by University to sponsors, (collectively the "Licensed Rights and Benefits"); (b) there are no oral or written agreements, contracts, options or other documents of any kind which University has entered into which would in any way impair or inhibit Learfield from exercising the Licensed Rights and Benefits on an exclusive basis; (c) University is authorized to timely carry out and/or fulfill any obligation of University to Learfield under this Agreement; and (d) Throughout the Term, except as otherwise specifically provided in this Agreement, University shall not directly or indirectly grant any third party any of the Licensed Rights and Benefits granted to Learfield under this Agreement. Notwithstanding anything contained in this Agreement to the contrary, if University materially breaches the provisions of this Section 8.19, an adjustment to the Guaranteed Royalty Fee and the Guaranteed Naming Rights Fee that Learfield will pay University under this Agreement shall be negotiated in good faith in order to recognize and account for the revenue that cannot be obtained by Learfield as a result of such material breach. Notwithstanding the foregoing, and notwithstanding anything in this Agreement, in the event that a University department other than the Athletics department enters into a sponsorship or advertising agreement, in association with an Athletic event and held on campus (a "Non-Athletics Activity") that could compromise the rights granted herein by University to Learfield, such action shall not be deemed a material breach hereunder provided that the Athletics department uses best efforts to prevent such non-Athletics Activity reoccurring or ensuring that such Non-Athletics Activity does not compromise Learfield's rights in the future.

8.20 Code of Fair Practices. Learfield shall not discriminate against any employee or applicant for employment because of race, color, religion, sexual orientation, gender identification, marital status, national origin, sex, age, or physical or mental disability, or status as a US veteran. Learfield shall take affirmative action to ensure that applicants are employed and that the employees are treated during employment without regard to their race, creed, color, religion, national origin, sex, age, or physical or mental disability or status as a Vietnam-era/disabled veteran, except where it relates to a bona fide occupational qualification. Such action shall include but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or terminations; rates of pay or other forms of compensation; and selection for training, including apprenticeship. If applicable to this Agreement, Learfield shall comply with the provisions of Federal Executive Order 11246 as amended by Executive Order 11375. In the event of Learfield's non-compliance with the above non-discrimination clause of this contract or with any of the aforesaid regulations, this contract may be canceled, terminated or suspended in whole or in part and Learfield may be declared ineligible for further contracts with the University. In addition, the University may take such further action, and such other sanctions may be imposed and remedies invoked, as provided by the laws of Idaho.

8.21 Laws and FCC Regulations Learfield agrees to, and shall ensure that its partners, abide by all laws of the Federal government, the State of Idaho and any other state, municipal or governmental entity associated with its activities under this Agreement. It further agrees it will be responsible for securing and paying for all permits necessary to fulfill its obligations under this Agreement. Learfield agrees to operate, and ensure that its media partners operate, both radio and television network activities in strict compliance with all applicable Federal Communication Commission regulations and all rules and regulations of the WAC Conference or any other applicable conference, as well as, the National Collegiate Athletic Association.

9.0 Miscellaneous.

9.1 "Best Efforts" whether or not such term is capitalized shall mean a diligent, reasonable and good faith effort by a Party to accomplish an objective, but does not require its accomplishment. Such degree of effort will take into account unanticipated events and the exigencies of continuing business, but does not require that events or exigencies be overcome at all costs. It only requires that commercially reasonable efforts be exercised within a reasonable time to overcome any hurdles and accomplish the objective, allowing the Party to give reasonable consideration to its own interests.

9.2 **"Net Revenue"** whether or not such term is capitalized shall mean Gross Revenue less those costs incurred by Learfield and agreed by University, provided that if the costs and budget are in line with those of any other Comparable Learfield Schools, as defined in Section 2.1 above, University shall not withhold approval.

9.3 Whenever consent or approval is required, unless otherwise provided herein, the consent or approval shall not be unreasonably withheld.. Learfield agrees that in exercise of its rights granted hereunder, it shall ensure that any advertising, sponsorship or other representation of the University shall be mindful of and consistent with the good image, message and reputation of the University. Furthermore Learfield shall ensure that all sponsors, advertisers, media partners and other parties with whom Learfield enters into arrangements with in accordance with the terms of this agreement, shall be mindful of and consistent with the good image, message and reputation of the University and that promotion or recognition of such third party will not distort or impair the presentation and image of the University, its Athletics program and the respective teams.

9.4 At the request of University, Learfield shall provide a copy of all fully executed advertising and sponsorship contracts to University's Director of Athletics or his/her designee responsible for marketing.

9.5 No contract entered into by Learfield with a sponsor shall exceed the term of this Agreement, unless approved by University. Potential sponsorship contracts extending past the term of this Agreement are to be brought to University. All sponsorship contracts that extend beyond the Agreement Term stated in this Agreement shall include language that automatically assigns and transfers the contract to University, should the Agreement terminate, be terminated consistent with this Agreement, or not be retained by Learfield due to a competitive bid process.

9.6 Learfield agrees it will not contractually restrict the ability of University to enter into business transactions with a sponsor or a competing business of a sponsor. Agreements cannot preclude other non-athletic events that utilize competing sponsors from being scheduled in University venues and/or facilities including Taco Bell Arena and Bronco Stadium. Learfield may not enter into beverage pour rights contracts for University's facilities, beverage sponsorship contracts for University or beverage advertising contracts that reference University's athletic teams, facilities or events. Learfield may not enter into any contracts or agreements which could conflict with University's apparel contract with Nike (or the applicable provider).

It is understood that apparel and affinity card contracts will be maintained by the University and are not a part of this Agreement. Nothing contained in this Agreement shall prevent University from contracting for sponsorships, acknowledgments and fund raising activities, when such agreements are not associated with the University's Athletic Department, facilities, and teams.

10.1 **Intellectual Property** Both parties agree that University owns the intellectual property rights associated with the University, its athletic teams, its facilities and the associated events and broadcasts. The ownership of intellectual property, which results from activities associated with this Agreement, will remain with University. Each party shall retain ownership of any of its patents copyrights, trademarks, or intellectual property developed prior to the Effective Date of this Agreement. University shall also retain ownership of any patents copyrights, trademarks, or intellectual property developed by University or jointly developed after the Effective Date of this Agreement.

10.2 Use of University Marks: Learfield agrees that the broadcast and advertisement intellectual property rights defined herein shall belong to University. University will maintain all right, title and ownership in its name, trademarks, service marks, logos, symbols, college colors and other licensed indicia ("University Marks and Indicia"). No rights may be obtained for trademark ownership of the University marks. Upon dissolution or expiration of this Agreement, all use of these items by Learfield shall cease. Learfield agrees that it shall comply with any and all style guidelines and use policies of the University in respect of University Marks and Indicia as may be amended from time to time.

10.3 **Commercial Advertising.** University reserves the right to charge royalty fees for uses of University Marks or Indicia in respect of any items sold at retail (which shall not be permitted without University's prior approval).

[Rest of page left blank intentionally]

IN WITNESS WHEREOF, the Parties have entered into this Agreement as of the Effective Date specified above.

Boise Office Equipment (expires June 30, 2011) (University will not renew or extend this agreement)
Agri-Beef – Stueckle Sky Center agreement

Boise State University – Bronco Sports Properties Approval Process

We have a number of approvals built into the contract between Boise State and Learfield/Bronco Sports Properties ("BSP"). In addition, over the eight years of working together, we have established an approval process beyond what is contractually required. The BSP General Manager attends key weekly Athletics staff meetings and, because BSP staff are fully integrated into the Athletics department, "consultation" and discussion occurs daily and weekly in the normal course of business.

Current contractual requirements:
Bronco Sports Properties ("BSP") is contractually obligated to meet with Athletics on a regular basis, and at least once a month, with the AD or his designee, and is to consult with Athletics on all proposed sponsors and sponsorship promotions, and to discuss "any unexpected problems arising therefrom to arrive at mutually satisfactory solutions" (section 1.2). In the contract, consultation rights are stated to both "foster growth in both amounts and the potential sources of revenue" for the Athletics department but, additionally to "**foster a mutually beneficial environment for both parties**." This includes the following contractual considerations:

- Learfield shall take into account that the University is a state University and that Athletics is only part of the institution. Furthermore Learfield shall take into account, the University's missions and goals (section 2.12.2 and section 3.7).
- Learfield shall not sell any "**Advertising that may bring discredit to the purposes, values, principles or mission of the NCAA or University or may negatively impact the interests of intercollegiate athletics or higher education."** (section 3.10)
- In exercising its rights, Learfield agrees to be **mindful of and consistent with the good image, message and reputation of the University** and to ensure that all sponsors and partners shall be mindful of this and that "**promotion or recognition of such third party will not materially distort or impair the presentation and image of the University, its Athletics program and the respective teams**." (section 3.10)

The university approvers as set out in the contract are:

- Athletics Director and/or designee – for approval of sponsors, sponsorship and marketing concepts and annual game and event promotions sales plan; and
- University Trademark Licensing Director – for approval of <u>all</u> artwork produced by Learfield and/or sponsors, media partners and other third parties bearing the university name, logos and other indicia including school colors, mascot and blue turf, for both marketing and other materials as well as co-branded merchandise for sponsor use; for promotional giveaway and/or for sale. Any such merchandise has to be produced through a university licensed vendor.

Practical application – consultation beyond contractual requirements

- In addition, over the years of established business, BSP and Boise State have built up a consultation and approval process beyond that which is contractually required.
- As mentioned above, BSP staff are integrated into the Athletics department. The BSP General Manager attends weekly meetings with Athletics external staff, Marketing, Media Relations, BAA and Ticket Office. Thus BSP is very much in the loop on what Athletics is doing at all times, and vice versa.
- The BSP GM is keenly aware of likely sensitivities in relation to potential sponsors and activities, even those outside the listed "Excluded Sponsorships", and will bring these specifically to AD's attention.
- Similarly, the BSP GM is aware, and takes consideration of key sponsorships and partnerships that have been entered into by the University and/or Alumni Association. If there is any potential conflict, or opportunity to work together, BSP General Manager will consult with AD or other University staff as appropriate.

- BSP staff will often notify with and/or consult with the Director of Trademark Licensing regarding advertising and marketing that they discover from non-sponsors that could be potential infringement of university trademarks and other intellectual property.
- BSP has respected those decisions by the university where a proposed partnership or sponsorship concept has been denied by the university without negatively impacting the AGR.

Boise State internal approval process

- Curt Apsey, AD, will consult with and/or escalate requests to General Counsel, Executive Committee, VPs and/or President's Office on an as needed basis.
- University's Director of Trademark Licensing, will consult with and/or escalate queries and requests to the Chief Operating Officer; General Counsel; AVP University Communications and Marketing; Director of University Sponsorships; Advancement/Alumni Association; and/or Student Affairs on an as needed basis.

  Both the university and BSP feel that the more people that are brought in at the beginning, and their considerations heard, the better likelihood of success for a campaign and protection of the University name, brand and image.

BRONCO SPORTS PROPERTIES

EXAMPLES OF ACTIVIATION FOR BEER AND WINE CATEGORY USING ANHEUSER BUSCH AS EXAMPLE

DESIRED ADDITIONAL ASSETS FOR PARTNERSHIP IN BEER AND WINE CATEGORY

- IP Rights (Logo Usage)
  - Not On-Campus or In-Stadium
  - Promotional Items (On-Premise, 21+ Retail, Restaurant or Bar)
    - Ex: Old Chicago, Cheerleaders etc
  - Retail Promotions
    - Sweepstakes (Ex. Albertsons)
- Exclusivity
- Engagement / Activation
  - Social Media, Digital

All potential instances where use of marks are to be utilized will be submitted for pre-approval

CO-BRANDED SCHEDULE POSTERS

"ON-PREMISE" 21+ LOCATIONS

University marks are being used without university approval in association with beer and wine throughout the state. A partner, e.g. A-B, would help police it by having the sole rights to use Boise State marks.

An IP Rights agreement with a partner such as A-B allows Learfield and Boise State to police the market more effectively with one distributor having the sole rights and allows us to utilize the agreement in place to defend trademark infringement.

BOISE STATE UNIVERSITY and IDAHO STATE UNIVERSITY

SUBJECT

Revised Purchasing Policies for Boise State University (BSU) and Idaho State University (ISU)

REFERENCE

February 2009	BSU Annual Report to the Idaho State Board of Education (Board), discussion of need for delegated purchasing authority
February 2010	BSU Annual Report to the Board, discussion of need for delegated purchasing authority
June 2010	Board approved BSU Model Purchasing Policy
August 2011	Board approved Colleges and Universities Revision of Model Purchasing Policy
June 2016	Board approved Colleges and Universities Revision of Model Purchasing Policy
November 2016	Board approved Colleges and Universities Revision of Model Purchasing Policy

APPLICABLE STATUTE, RULE, OR POLICY

Section 67-9225, Idaho Code
2CFR Part 200

ALIGNMENT WITH STRATEGIC PLAN

Goal 4: Objective C: Productivity and Efficiency

BACKGROUND/DISCUSSION

The Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) are new federal regulations effective July 1, 2018. These revised regulations govern procurement of goods and services using funds from federally sponsored project awards.

The universities' purchasing policies define dollar thresholds for small and large purchases and the specific procurement bid process for each. Currently small dollar purchases, defined as those between $10,001 - $100,000, require an informal bid process while large purchases, or those exceeding $100,000, require use of a lengthy, formal, sealed bid process.

The Uniform Guidance provides new thresholds for small and large purchases. Under Uniform Guidance, small purchases are $10,000 - $249,999 and are bid using an informal bid process. Uniform Guidance terminology for large purchases is the Simplified Acquisition Threshold. The Simplified Acquisition Threshold (large purchases) is $250,000 and anything over the threshold requires bidding using a formal sealed bid process. Uniform Guidance regulations also eliminate the ability to use several key bidding exemptions that have been invaluable for the timely purchase of research equipment required for sponsored project awards.

The proposed changes to the unviersities' purchasing policy revise the small purchase and large dollar thresholds to sync with Uniform Guidance thresholds. It is important to emphasize that the increase in the small dollar purchase threshold would not eliminate bidding of the purchase; the only change would be the informal versus formal bidding process. The informal process, while still requiring bids, allows for increased efficiency and cost savings due to shorter timelines, while still offering the same level of opportunity for competition. It may even increase competition, as it is a less costly process for vendors to participate in, as well.

A review of BSU's data for FY17 and FY18 provides additional context. Of the 287 purchases totaling $19 million requiring buyer support during the period, 53 totaling $3.2 million would have been impacted by the changes.

Current Procurement Method	**Contract Amount**	**FY17&18 $ (# of Transactions)**	**Percentage of Total Expenditures Requiring Buyer Support ($19M)**	**Future Procurement Method**
Research Exemption (1)	Under $100K	$123,782 (39)	.7%	Informal Bid
Research Exemption (1)	$100k-$249K	$727,875 (4)	3.8%	Informal Bid
Formal Bid (2)	$100k-$249K	$846,254 (6)	4.4%	Informal Bid
Research Exemption (1)	>$250K	$1,548,125 (4)	8.1%	Formal Bid
Formal Bid (3)	>$250K	$4,352,774 (3)	22.9%	Formal Bid (no change)

(1) Under the new rules, 43 purchases totaling $851,657 would have been subject to informal bidding, and four purchases totaling $1,548,125 would have been subject to formal bidding, as the Uniform Guidance no longer provides a bidding exception for purchases used in research.

(2) Six purchases totaling $846,254 would have been subject to informal bidding procedures.

(3) Three purchase totaling $4,352,774 would have remained subject to formal sealed bid procedures.

IMPACT

The proposed changes are required to address new federal procurement regulations for sponsored projects. Synchronizing the dollar thresholds in the universities' purchasing policies with federal dollar thresholds results in consistent purchasing processes across all funding sources. In addition, the increased small purchase dollar range allows utilization of the informal bid process, which is more efficient for vendors and the universities and compensates for the loss of key bidding exemptions frequently utilized for research purchases.

ATTACHMENTS

Attachment 1 – Proposed Revised Policy, redline – BSU
Attachment 2 – Proposed Revised Policy, redline - ISU
Attachment 3 – Summary of OMB Circular A-110 compared to Uniform Guidance 200
Attachment 4 – Excerpt of Uniform Guidance 200 – Purchasing Standards

STAFF COMMENTS AND RECOMMENDATIONS

The proposed revision to the Board-approved purchasing policies should improve the timeliness and efficiency of BSU's and ISU's acquisition process and aligns them with revised federal rules.

Staff recommends approval.

BOARD ACTION

I move to approve Boise State University's and Idaho State University's proposed purchasing policies revision as submitted in Attachment 1 and 2; to find it substantially consistent with Title 67, Chapter 92 Idaho Code; and to authorize the universities to implement the revised purchasing policies effective July 1, 2018.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

Boise State University
BSU Policy #: 6130
Effective Date: March 1998 Revised: September, 2016

BOISE STATE PURCHASING POLICY

Purpose:
To establish policies and procedures governing purchases made with University funds.

Additional Authority:
University Policy 5030 Office of Sponsored Projects
Idaho State Board of Education Governing Policies and Procedures Section I.E.2.a
Idaho Code Section 59-1026
Idaho Code Section 67-9225

Scope:
Applies to all purchases made with University funds.

Responsible Party:
University Purchasing Director
426-1283

POLICY

I. Policy Statement

A. Procurement (purchasing) will be overseen by the Vice President of Finance and Administration and Chief Financial Officer. Daily operations have been delegated to the University Purchasing Director (UPD) and will be conducted in strict adherence with applicable federal and state laws and regulations and applicable State Board of Education (SBOE) and University policies.

B. Purchasing activities shall be administered in a manner that provides maximum practicable open competition appropriate to the type of good or service to be provided. Purchases shall support the goals of cost efficiency and good/service quality, and these objectives shall be given consideration in the purchasing process.

C. Purchasing activities include transactions involving trade-ins, and leased property. Procurements do not include non-exchange transactions such as sponsorships and transactions not involving the expenditure of University funds.

D. The University owns all property purchased with University funds and all property received by the University as gifts. In addition, except where provided by the terms of a s~~grant or contract~~ponsored project by operation of law, the University owns all personal property purchased with funds from a s~~grant or contract~~ponsored project. No department, departmental unit, or University employee, may hold proprietary interest in any piece of University property, or property purchased with s~~grant or contract~~ponsored project funds which is held by the University. Regardless of which departmental unit ordered the item, the fund cited, or the budget expensed, the principle of University ownership prevails.

E. This policy has been approved by the State Board of Education. Any changes to the policy shall be submitted in writing to the Executive Director for approval. The Executive Director may, in his or her discretion, refer proposed changes to the Board for approval.

II. Budget authority:

A. It shall be the responsibility of the requestor to determine and ensure funds are available and properly budgeted.

B. Terms may exceed one year provided that they are advantageous to the University and that such contracts contain no penalty to or restriction upon the University in the event cancellation is necessitated by a lack of financing for any such contract or contracts.

III. Requirements:

A. Small purchases are those purchases or procurements expected to cost less than ~~one hundred~~two hundred fifty thousand dollars ($~~100~~250,000)~~ or less~~. Costs are determined based on the following:

1. One-time purchases of property.

2. Total cost of a contract for services, including renewal or extension periods.

B. To enhance small business bidding opportunities, the University shall seek a minimum of three quotes from vendors having a significant Idaho economic presence as defined in Section 67-2349, Idaho Code. The request for quotation may be written, oral, electronic, telephonic or facsimile.

C. Large purchases, ~~exceeding~~ costing ~~one~~ two hundred fifty thousand dollars ($250~~100~~,000) or more are procured through a formal sealed process. The issuance of Invitations to Bid (ITB) or Requests for Proposal (RFP) is the method for solicitation of offers from qualified vendors in a sealed process in order to establish pricing, specification or performance standards, and the terms and conditions for the purchase of goods and services. The University shall ensure adequate ITB's or RFP's are prepared which clearly define the goods and services needed in order for bidders to properly respond to the request. At the place, date, and time set forth in the solicitation, all bids or proposals received in accordance with the submittal requirements in the solicitation shall be publically opened and read aloud by the buyer to those persons present.

D. Notice of solicitations of bids or proposals for large purchases may be electronic in nature. The University may apply the use of a variety of techniques, including but not limited to, reverse auction, electronic posting or electronic advertisement of solicitations as appropriate to the buying situation. Large purchase notices, regardless of methodology, are referenced in the vendor section of the University purchasing department's website.

E. Preference for Idaho suppliers for purchases:

1. Reciprocal preference will be given to Idaho vendors in accordance with Section 67-2349, Idaho Code.

2. Printing services will be awarded to local vendors in accordance with Section 60-101 -103, Idaho Code.

F. Where multiple bids and quality of property offered are the same, preference shall be given to property of local and domestic production and manufacture or from bidders having a significant Idaho economic presence.

G. The University recognizes that an offered low price is not always indicative of the greatest value. Contracts will be awarded by the University pursuant to determination by the UPD of the best value to the University based on the criteria outlined in the solicitation. Award of contracts in excess of amounts as proscribed in State Board of Education (SBOE) policy V.I.3.a require the written approval of the Executive Director of the State Board of Education or the ~~State Board of Education~~SBOE in a public meeting.

H. No vendor or related party, or subsidiary, or affiliate of a vendor may submit a bid to obtain a contract to provide property to the University, if the vendor or related party, or affiliate or subsidiary was paid for services utilized in preparing the bid specifications or if the services influenced the procurement process.

I. No property to be acquired shall be accepted which does not meet the minimum bid specifications.

J. If funding for the purchase of goods or services includes sponsored project funding, federal requirements must be considered. Idaho preference, waivers and exemptions from bidding could be restricted based on terms and conditions of specific award documents and or funding agency requirements.

IV. Waiver of competitive bidding (Sole Source):

The determination to waive the competitive bid process may be made only by the UPD. Any request by a department to restrict a purchase to one potential supplier must be accompanied by an explanation as to why no other item is suitable or that no other vendors exist to meet the need. A requirement for a particular proprietary item does not justify a sole source purchase if there is more than one potential source for that item. The University purchasing department shall conduct negotiations, as appropriate, to determine price, availability, and terms.

V. Exemptions from bidding:

A. Purchases under $10,000

B. Bulk Contract purchasing

1. State Open Contracts

a) Certain commodities are procured through open contracts by the State of Idaho Division of Purchasing in order to obtain the lowest possible pricing for all agencies.

b) No officer or employee shall fail to utilize an open contract without justifiable cause for such action. Justifiable cause shall be determined by the Vice President of Finance and Administration. Approved deviations from open contract use will be administered by the UPD.

2. Purchases from General Services Administration Federal Supply Contractors are allowed when the acquisition is advantageous to the University with approval from the UPD.

3. Where no state open contract exists, state institutions of higher education (as defined in 67-9203(16)) operating under the SBOE approved model purchasing policy, may collaborate with each other

or the University of Idaho on solicitations where the combined volume of multiple institutions will provide the best value.

C. Government and Agency acquisitions:

1. Rehabilitation agency acquisitions.

2. Correctional industries acquisitions.

3. Federal government acquisitions including federal surplus.

4. Interagency contracts, including contracts with other institutions of higher education.

5. The University may contract with any one or more other public agencies or institution of higher education to perform any governmental service, activity, or undertaking which each public agency entering into the contract is authorized by law to perform, including, but not limited to joint contracting for services, supplies and capital equipment, provided that such contract shall be authorized by the governing body of each party to the contract.

D. Situational acquisitions:

1. Legal advertising, publication or placement of advertisements directly with media sources.

2. Contracts for legal services or bond related services.

3. Professional, consultant and information related technology services costing less than $250,000. ~~or less.~~

4. University employee education, training and related travel expenses costing less than $250,000 ~~or less~~.

5. Purchases with special educational discounts offered by vendors exclusively to schools, colleges, universities, and other educational institutions where the property is for the express purpose of educating students.
~~4.~~

~~5.~~6. Concession services where there is no expenditure of University funds.

7. Goods and s~~S~~ervices for which competitive solicitation procedures are impractical.

~~6.~~8. Medical director and medical professional services.

~~7.~~9. Property held for resale, such as bookstore inventory.

10. Purchase of copyrighted materials available primarily from the publisher.

~~8.~~11. Goods that are in used condition.

E. Emergency Purchases –

1. The UPD, or designee, may authorize emergency purchases of goods and services when determined necessary and in the best interest of the University. Examples of circumstances that could necessitate an emergency purchase include:

   a) Unforeseen or beyond the control of the University or constituting a force majeure.

   b) Present a real, immediate or extreme threat to the proper performance of essential University functions.

   c) May reasonably be expected to result in excessive loss or damage to property or other resources, and/or bodily injury or loss of life.

2. Any affected department may make an emergency purchase in the open market at the best attainable price when a documented emergency condition exists and the need cannot be met through the University's normal procurement method, provided that:

   a) Funds are available for the purchase.

   b) Verbal authorization is obtained from the Vice President Finance and Administration ~~for Finance and Administration~~and Chief Financial Officer.

   c) Competition to the fullest extent practicable under existing circumstances is obtained and documented.

   d) The ~~unit~~ cost of the purchase does not exceed amount requiring SBOE Executive Director approval as prescribed in SBOE policy V.I.3.a.

3. A fully signed explanation of the circumstances surrounding the emergency and the necessity for the purchase is filed by the requester with the UPD within two working days after such purchase or cessation of emergency conditions, whichever is later.

F. Direct Negotiations

1. In lieu of competitive bidding, and when not covered by a State open contract, negotiations may be conducted whenever any of the following conditions are applicable and authorized by the UPD:

a) The public good as determined by the UPD will not permit the competitive bid process due to time constraints.

~~a)~~b) No responsive or responsible bids are received at acceptable levels of price, service or terms.

~~b)~~c) Approved sole source scenarios.

~~c)~~d) The purchase is for experimental, developmental or research work, or for the manufacture of furnishing of property for experimentation, development, research or test.

~~d)~~e) Where there is a particular savings through the use of educational discounts.

~~e)~~f) Acquisition of federal surplus or excess property.

VI. Qualification of Vendors:

A. No vendor shall be allowed to submit a bid unless such vendor is qualified. All vendors are qualified unless disqualified.

B. Vendors may be disqualified for any of the following reasons:

1. Failure to perform according to the terms of any agreement.

2. Attempts by whatever means to cause acquisition specifications to be drawn so as to favor a specific vendor.

3. Actions to obstruct or unreasonably delay acquisitions by the University. Obstruction is hereby defined as a lack of success in more than fifty percent (50%) of the appeals made in each of three (3) different acquisitions during any twenty-four (24) month period.

4. Perjury in a vendor disqualification hearing.

5. Debarment, suspension or ineligibility from federal contracting of the vendor, its principals or affiliates.

6. Any reason in Idaho law that would disqualify a particular vendor for a particular bid

C. A vendor shall be notified by registered mail within ten (10) days of disqualification and may, within thirty (30) days of the receipt of such notice, challenge the disqualification.

D. Disqualification or conditions may be imposed for a period of not more than five (5) years.

VII. Appeals:

A. Elements of a formal sealed bid that are appealable include:

1. Bid specifications

2. Determination by the university that the bid is non- responsive and does not comply with the bid invitation and specifications

3. Award to a successful vendor

B. The detailed appeal process for ~~For~~ formal procurements utilizing the sealed bid process~~, the detailed process for appeals will be referenced within the posted bid information and specification package~~is located on the Purchasing Department website with a link to the website listed in the bid package.

C. In addition, S~~s~~ole S~~s~~ource determinations are appealable. The detailed process for appeal ~~will be referenced in the legal notice~~is located on the Purchasing Department website with a link to the website listed in the legal notice.

D. Any appeal will be reviewed and a written decision setting forth reasons for denial will be provided or if upheld an amendment (for a specification or intent to award appeal) to the original bid or sole source determination will be posted.

E. Submitting a bid to the University constitutes standard acceptance of this policy including the appeals process.

F. Small purchases or purchases that are exempted from bidding requirements are not appealable.

VIII. Ethics Requirements

A. All faculty, staff and students at the University are required to adhere to the intent and spirit of these policies and directives. They are designed as a means to acquire the necessary goods and services as effectively and economically as possible, while also maintaining compliance with the laws of the State of Idaho. Employees are subject to penalties as described in Idaho Code, including, but not limited to, those in Section 67-9231.

B. Employees are prohibited from obtaining goods or services by avoiding the competitive process through such actions as splitting purchases, creating false emergency situations, and purchasing outside open contracts without authorization.

C. Any effort to circumvent or abuse State and University purchasing regulations and policies or procedures will not be condoned and is subject to disciplinary action up to and including dismissal.

D. Purchasing Ethics and Vendor Relationships

1. All employees are involved in business transacted by the University in one form or another. Especially so are those professional purchasers and other personnel who purchase items and services, including those using the University P-card. Each employee has a personal responsibility to conduct University business in an ethical manner and assure the integrity of the purchasing and procurement processes.

2. Conflict of interest:

a) A conflict of interest occurs when a person's private interests compete with his or her professional obligations to the University to a degree that an independent observer might reasonably question whether the person's professional actions or decisions are materially affected by personal considerations, including but not limited to personal gain, financial or otherwise.

b) Employees are therefore prohibited from entering into service contracts with or selling goods to the University.

3. Influencing/conspiring to influence:

The University prohibits the influencing or conspiring to influence purchasing decisions and contract awards. Attempts at influence may include kickbacks and bribes, peddling or payment of a fee, back door selling, hard-sell tactics, fraternization, or offering gifts to avoid following published procedures or gain advantages.

4. Post issuance contract oversight is required to guarantee the University receives all goods and services as per the terms of the agreement. Boise State Policy #6030 describes roles and responsibilities for contract management.

E. It is the responsibility of the University Purchasing Director to ensure that procurement staff are properly trained to execute their duties efficiently and in accordance with laws and regulations.

Idaho State University
ISU Policy #: 2560
Effective Date: November 1, 2016

IDAHO STATE UNIVERSITY PURCHASING POLICY

Purpose:
To establish policies and procedures governing purchases made with University administered funds.

Additional Authority:
Idaho State Board of Education Governing Policies and Procedures Section I.E.2.a
Idaho Code Section 59-1026
Idaho Code Section 67-9225

Scope:
Applies to all purchases made with University administered funds.

Responsible Party:
University Purchasing Director
282-3111

POLICY

I. Policy Statement

A. Procurement (purchasing) will be overseen by the Chief Financial Officer. Daily operations have been delegated to the University Purchasing Director (UPD) and will be conducted in strict adherence with applicable federal and state laws and regulations and applicable State Board of Education and University policies.

B. Purchasing activities shall be administered in a manner that provides maximum practicable open competition appropriate to the type of good or service to be provided. Purchases shall support the goals of cost efficiency and good/service quality, and these objectives shall be given consideration in the purchasing process.

C. Purchasing activities include transactions involving trade-ins, and leased property. Procurements do not include non-exchange transactions such as sponsorships and transactions not involving the expenditure of University funds.

D. The University owns all property purchased with University funds and all property received by the University as gifts. In addition, except where provided by the terms of a ~~grant or contract~~sponsored project by operation of law, the University owns all personal property purchased with funds from a ~~grant or contract~~sponsored project. No department, departmental unit, or University employee, may hold proprietary interest in any piece of University property, or property purchased with ~~grant or contract~~sponsored project funds which is held by the University. Regardless of which departmental unit ordered the item, the fund cited, or the budget expensed, the principle of University ownership prevails.

E. This policy has been approved by the State Board of Education. Any changes to the policy shall be submitted in writing to the Executive Director for approval. The Executive Director may, in his or her discretion, refer proposed changes to the Board for approval.

II. Budget authority:

A. It shall be the responsibility of the requestor to determine and ensure funds are available and properly budgeted.

B. Terms may exceed one year provided that they are advantageous to the University and that such contracts contain no penalty to or restriction upon the University in the event cancellation is necessitated by a lack of financing for any such contract or contracts.

III. Requirements:

A. Small purchases are those purchases or procurements expected to cost ~~one hundred~~less than two hundred and fifty thousand dollars ($~~100~~250,000) ~~or less~~. Costs are determined based on the following:

1. One-time purchases of property.

2. Total cost of a contract for services, including renewal or extension periods.

B. To enhance small business bidding opportunities, the University shall seek a minimum of three quotes from vendors having a significant Idaho economic presence as defined in Section 67-2349 Idaho Code. The request for quotation may be written, oral, electronic, telephonic or facsimile.

C. Large purchases, ~~exceeding~~ costing two hundred and fifty ~~one hundred~~ thousand dollars ($~~100~~250,000) or more are procured through a formal sealed process. The issuance of Invitations to Bid (ITB) or Requests for Proposal (RFP) is the method for solicitation of offers from qualified vendors in a sealed process in order to establish pricing, specification or performance standards, and the terms and conditions for the purchase of goods and services. The University shall ensure adequate ITB's or RFP's are prepared which clearly define the goods and services needed in order for bidders to properly respond to the request. At the place, date, and time set forth in the solicitation, all bids or proposals received in accordance with the submittal requirements in the solicitation shall be publically opened and read aloud by the buyer to those persons present.

D. Notice of solicitations of bids or proposals for large purchases may be electronic in nature. The University may apply the use of a variety of techniques, including but not limited to, reverse auction, electronic posting or electronic advertisement of solicitations as appropriate to the buying situation. Large purchase notices, regardless of methodology, are referenced in the vendor section of the University purchasing department's website.

E. Preference for Idaho suppliers for purchases:

1. Reciprocal preference will be given to Idaho vendors in accordance with Section 67-2349 Idaho Code.

2. Printing services will be awarded to local vendors in accordance with Section 60-101-103 Idaho Code.

F. Where multiple bids and quality of property offered are the same, preference shall be given to property of local and domestic production and manufacture or from bidders having a significant Idaho economic presence.

G. The University recognizes that an offered low price is not always indicative of the greatest value. Contracts will be awarded by the University pursuant to determination by the UPD of the best value to the University based on the criteria outlined in the solicitation. Award of contracts in excess of amounts as proscribed in State Board of Education (SBOE) policy V.I.3.a require the written approval of the Executive Director of the State Board of Education or the State Board of Education in a public meeting.

H. No vendor or related party, or subsidiary, or affiliate of a vendor may submit a bid to obtain a contract to provide property to the University, if the vendor or related party, or affiliate or subsidiary was paid for services utilized in preparing the bid specifications or if the services influenced the procurement process.

I. No property to be acquired shall be accepted which does not meet the minimum bid specifications.

J. If funding for the purchase of goods or services includes sponsored project funding, federal requirements must be followed. Idaho preference, waivers and exemptions from bidding could be restricted based on terms and conditions of specific award documents and or funding agency requirements. For sponsored project funding, adherence to Uniform Guidance §200.319 "Competition" must be followed.

IV. Waiver of competitive bidding (Sole Source):

The determination to waive the competitive bid process may be made only by the UPD. Any request by a department to restrict a purchase to one potential supplier must be accompanied by an explanation as to why no other item is suitable or that no other vendors exist to meet the need. A requirement for a particular proprietary item does not justify a sole source purchase if there is more than one potential source for that item. The University purchasing department shall conduct negotiations, as appropriate, to determine price, availability, and terms.

V. Exemptions from bidding:

A. Purchases under $10,000

B. Bulk Contract purchasing

1. State Open Contracts

a) Certain commodities are procured through open contracts by the State of Idaho Division of Purchasing in order to obtain the lowest possible pricing for all agencies.

b) No officer or employee shall fail to utilize an open contract without justifiable cause for such action. Justifiable cause shall be determined by the Chief Financial Officer. Approved deviations from open contract use will be administered by the UPD.

2. Purchases from General Services Administration Federal Supply Contractors are allowed when the acquisition is advantageous to the University with approval from the UPD.

3. Where no state open contract exists, state institutions of higher education (as defined in 67-9203(16) Idaho Code) operating under the SBOE approved model purchasing policy, may collaborate with each other or the University of Idaho on solicitations where the combined volume of multiple institutions will provide the best value.

C. Government and Agency acquisitions:

1. Rehabilitation agency acquisitions.

2. Correctional industries acquisitions.

3. Federal government acquisitions including federal surplus.

4. Interagency contracts, including contracts with other institutions of higher education.

5. The University may contract with any one or more other public agencies or institution of higher education to perform any governmental service, activity, or undertaking which each public agency entering into the contract is authorized by law to perform, including, but not limited to joint contracting for services, supplies and capital equipment, provided that such contract shall be authorized by the governing body of each party to the contract.

D. Situational acquisitions:

1. Legal advertising, publication or placement of advertisements directly with media sources.

2. Contracts for legal services or bond related services.

3. Professional, consultant and information related technology services costing less than $~~100~~250,000~~ or less~~.

4. University employee education, training and related travel expenses costing less than $~~100~~250,000~~ or less~~.

5. Purchases with special educational discounts offered by vendors exclusively to schools, colleges, universities, and other educational institutions where the property is for the express purpose of educating students.

6. Concession services where there is no expenditure of University funds.

7. Goods or ~~S~~services for which competitive solicitation procedures are impractical.

8. Medical director and medical professional services.

9. Property held for resale, such as bookstore inventory.

10. Purchase of copyrighted materials available primarily from the publisher.

11. Goods that are in used condition.

E. Emergency Purchases

1. The UPD, or designee, may authorize emergency purchases of goods and services when determined necessary and in the best interest of the University. Examples of circumstances that could necessitate an emergency purchase include:

   a) Unforeseen or beyond the control of the University or constituting a force majeure.

   b) Present a real, immediate or extreme threat to the proper performance of essential University functions.

   c) May reasonably be expected to result in excessive loss or damage to property or other resources, and/or bodily injury or loss of life.

2. Any affected department may make an emergency purchase in the open market at the best attainable price when a documented emergency condition exists and the need cannot be met through the University's normal procurement method, provided that:

   a) Funds are available for the purchase.

   b) Verbal authorization is obtained from the Office of the Chief Financial Officer.

   c) Competition to the fullest extent practicable under existing circumstances is obtained and documented.

   d) The ~~unit~~ cost of the purchase does not exceed amount requiring SBOE Executive Director approval as prescribed in SBOE policy V.I.3.a.

3. A fully signed explanation of the circumstances surrounding the emergency and the necessity for the purchase is filed by the requester with the UPD within two working days after such purchase or cessation of emergency conditions, whichever is later.

F. Direct Negotiations

1. In lieu of competitive bidding, and when not covered by a State open contract, negotiations may be conducted whenever any of the following conditions are applicable and authorized by the UPD:

    a) The public good as determined by the UPD will not permit the competitive bid process due to time constraints.

    b) No responsive or responsible bids are received at acceptable levels of price, service or terms.

    c) Approved sole source scenarios.

    d) The purchase is for experimental, developmental or research work, or for the manufacture of furnishing of property for experimentation, development, research or test.

    e) Where there is a particular savings through the use of educational discounts.

    f) Acquisition of federal surplus or excess property.

VI. Qualification of Vendors:

A. No vendor shall be allowed to submit a bid unless such vendor is qualified. All vendors are qualified unless disqualified.

B. Vendors may be disqualified for any of the following reasons:

1. Failure to perform according to the terms of any agreement.

2. Attempts by whatever means to cause acquisition specifications to be drawn so as to favor a specific vendor.

3. Actions to obstruct or unreasonably delay acquisitions by the University. Obstruction is hereby defined as a lack of success in more than fifty percent (50%) of the appeals made in each of three (3) different acquisitions during any twenty-four (24) month period.

4. Perjury in a vendor disqualification hearing.

5. Debarment, suspension or ineligibility from federal contracting of the vendor, its principals or affiliates.

6. Any reason in Idaho law that would disqualify a particular vendor for a particular bid.

C. A vendor shall be notified by registered mail within ten (10) days of disqualification and may, within thirty (30) days of the receipt of such notice, challenge the disqualification.

D. Disqualification or conditions may be imposed for a period of not more than five (5) years.

VII. Appeals:

A. Elements of a formal sealed bid that are appealable include:

1. Bid specifications

2. Determination by the university that the bid is nonresponsive and does not comply with the bid invitation and specifications

3. Award to a successful vendor

B. For formal procurements utilizing the sealed bid process, the detailed process for appeals will be referenced within the posted bid information and specification package.

C. In addition, ~~s~~Sole ~~s~~Source determinations are appealable. The detailed process for appeal will be referenced in the legal notice.

D. Any appeal will be reviewed and a written decision setting forth reasons for denial will be provided or if upheld an amendment (for a specification or intent to award appeal) to the original bid or sole source determination will be posted.

E. Submitting a bid to the University constitutes standard acceptance of this policy including the appeals process.

F. Small purchases or purchases that are exempted from bidding requirements are not appealable.

VIII. Ethics Requirements:

A. All faculty, staff and students at the University are required to adhere to the intent and spirit of these policies and directives. They are designed as a means to acquire the necessary goods and services as effectively and economically as possible, while also maintaining compliance with the laws of the State of Idaho. Employees are subject to penalties as described in Idaho Code, including, but not limited to, those in Section 67-9231.

B. Employees are prohibited from obtaining goods or services by avoiding the competitive process through such actions as splitting purchases, creating false emergency situations, and purchasing outside open contracts without authorization.

C. Any effort to circumvent or abuse State and University purchasing regulations and policies or procedures will not be condoned and is subject to disciplinary action up to and including dismissal.

D. Purchasing Ethics and Vendor Relationships

1. All employees are involved in business transacted by the University in one form or another. Especially so are those professional purchasers and other personnel who purchase items and services, including those using the University P-card. Each employee has a personal responsibility to conduct University business in an ethical manner and assure the integrity of the purchasing and procurement processes.

2. Conflict of interest:

a) A conflict of interest occurs when a person's private interests compete with his or her professional obligations to the University to a degree that an independent observer might reasonably question whether the person's professional actions or decisions are materially affected by personal considerations, including but not limited to personal gain, financial or otherwise.

b) Employees are therefore prohibited from entering into service contracts with or selling goods to the University.

3. Influencing/conspiring to influence:

The University prohibits the influencing or conspiring to influence purchasing decisions and contract awards. Attempts at influence may include kickbacks and bribes, peddling or payment of a fee, back door selling, hard-sell tactics, fraternization, or offering gifts to avoid following published procedures or gain advantages.

4. Post issuance contract oversight is required to guarantee the University receives all goods and services as per the terms of the agreement. Idaho State University Policy “Contract Administration” describes roles and responsibilities for contract management.

E. It is the responsibility of the University Purchasing Director to ensure that procurement staff are properly trained to execute their duties efficiently and in accordance with laws and regulations.

Summary of OMB Circular A-110 compared to Uniform Guidance 200

May 15, 2018

OMB Circular A-110 *End Date: June 30, 2018*	**Uniform Guidance 200** *Effective date: July 1, 2018*
Meeting the requirements of the State of Idaho fulfills Federal requirements.	Specific new requirements are required for Uniform Guidance 200.
Idaho bid requirements: Bid threshold 10,000 Informal solicitation 10,000 to 99,999 Formal solicitation 100,000 and above	Federal bid requirements: Bid threshold 10,000 Informal solicitation 10,000 to 249,999 Formal solicitation 250,000 and above
Contract Management	Contract Management
Exemption for scientific equipment for research. One page justification then Purchase Order can be created.	No scientific equipment exemption. Competition requirements can be fulfilled with a Request for Quote, Invitation to Bid, Request for Proposals, or a Sole Source. Sole Source requires advertisement for 3 days then wait 5 days for possible appeal. If not Sole Source, write a letter to the Grantor requesting permission to proceed as if it is a Sole Source.
	ISU must take all necessary affirmative steps to assure that small and minority businesses, women's business enterprises, and labor surplus area firms are used when possible.
	Procurement of recovered materials ISU must comply with section 6002 of the Solid Waste Disposal Act including procuring only items designated in guidelines of the Environmental Protection Agency at 40 CFR part 247.
	Cost/Price analysis must be completed for all Formal Solicitations and Noncompetitive Proposals.
	Bond requirements for construction or facility improvement contracts.
	Contracts must contain the applicable provisions described in Appendix II of Uniform Guidance part 200.

ELECTRONIC CODE OF FEDERAL REGULATIONS

e-CFR data is current as of May 14, 2018

Title 2: Grants and Agreements
PART 200—UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS
Subpart D—Post Federal Award Requirements

Procurement Standards

§200.317 Procurements by states.

When procuring property and services under a Federal award, a state must follow the same policies and procedures it uses for procurements from its non-Federal funds. The state will comply with §200.322 Procurement of recovered *materials* and ensure that every purchase order or other contract includes any clauses required by section §200.326 Contract provisions. All other non-Federal entities, including subrecipients of a state, will follow §§200.318 General procurement standards through 200.326 Contract provisions.

§200.318 General procurement standards.

(a) The non-Federal entity must use its own documented procurement procedures which reflect applicable State, local, and tribal laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in this part.

(b) Non-Federal entities must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

(c)(1) The non-Federal entity must maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts. No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The officers, employees, and agents of the non-Federal entity may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, non-Federal entities may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the non-Federal entity.

(2) If the non-Federal entity has a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe, the non-Federal entity must also maintain written standards of conduct covering organizational conflicts of interest. Organizational conflicts of interest means that because of relationships with a parent company, affiliate, or subsidiary organization, the non-Federal entity is unable or appears to be unable to be impartial in conducting a procurement action involving a related organization.

(d) The non-Federal entity's procedures must avoid acquisition of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

(e) To foster greater economy and efficiency, and in accordance with efforts to promote cost-effective use of shared services across the Federal Government, the non-Federal entity is encouraged to enter into state and local intergovernmental agreements or inter-entity agreements where appropriate for procurement or use of common or shared goods and services.

(f) The non-Federal entity is encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

(g) The non-Federal entity is encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

(h) The non-Federal entity must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources. See also §200.213 Suspension and debarment.

(i) The non-Federal entity must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

(j)(1) The non-Federal entity may use a time and materials type contract only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to a non-Federal entity is the sum of:

(i) The actual cost of materials; and

(ii) Direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

(2) Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the non-Federal entity awarding such a contract must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

(k) The non-Federal entity alone must be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the non-Federal entity of any contractual responsibilities under its contracts. The Federal awarding agency will not substitute its judgment for that of the non-Federal entity unless the matter is primarily a Federal concern. Violations of law will be referred to the local, state, or Federal authority having proper jurisdiction.

[78 FR 78608, Dec. 26, 2013, as amended at 79 FR 75885, Dec. 19, 2014; 80 FR 43309, July 22, 2015]

§200.319 Competition.

(a) All procurement transactions must be conducted in a manner providing full and open competition consistent with the standards of this section. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

(1) Placing unreasonable requirements on firms in order for them to qualify to do business;

(2) Requiring unnecessary experience and excessive bonding;

(3) Noncompetitive pricing practices between firms or between affiliated companies;

(4) Noncompetitive contracts to consultants that are on retainer contracts;

(5) Organizational conflicts of interest;

(6) Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement; and

(7) Any arbitrary action in the procurement process.

(b) The non-Federal entity must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts state licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

(c) The non-Federal entity must have written procedures for procurement transactions. These procedures must ensure that all solicitations:

(1) Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and

(2) Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

(d) The non-Federal entity must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the non-Federal entity must not preclude potential bidders from qualifying during the solicitation period.

[78 FR 78608, Dec. 26, 2013, as amended at 79 FR 75885, Dec. 19, 2014]

§200.320 Methods of procurement to be followed.

The non-Federal entity must use one of the following methods of procurement.

(a) Procurement by micro-purchases. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold (§200.67 Micro-purchase). To the extent practicable, the non-Federal entity must distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive quotations if the non-Federal entity considers the price to be reasonable.

(b) Procurement by small purchase procedures. Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the Simplified Acquisition Threshold. If small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources.

(c) Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in paragraph (c)(1) of this section apply.

(1) In order for sealed bidding to be feasible, the following conditions should be present:

(i) A complete, adequate, and realistic specification or purchase description is available;

(ii) Two or more responsible bidders are willing and able to compete effectively for the business; and

(iii) The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

(2) If sealed bids are used, the following requirements apply:

(i) Bids must be solicited from an adequate number of known suppliers, providing them sufficient response time prior to the date set for opening the bids, for local, and tribal governments, the invitation for bids must be publicly advertised;

(ii) The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond;

(iii) All bids will be opened at the time and place prescribed in the invitation for bids, and for local and tribal governments, the bids must be opened publicly;

(iv) A firm fixed price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

(v) Any or all bids may be rejected if there is a sound documented reason.

(d) Procurement by competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

(1) Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical;

(2) Proposals must be solicited from an adequate number of qualified sources;

(3) The non-Federal entity must have a written method for conducting technical evaluations of the proposals received and for selecting recipients;

(4) Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and

(5) The non-Federal entity may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

(e) [Reserved]

(f) Procurement by noncompetitive proposals. Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

(1) The item is available only from a single source;

(2) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;

(3) The Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the non-Federal entity; or

(4) After solicitation of a number of sources, competition is determined inadequate.

[78 FR 78608, Dec. 26, 2013, as amended at 79 FR 75885, Dec. 19, 2014; 80 FR 54409, Sept. 10, 2015]

§200.321 Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms.

(a) The non-Federal entity must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

(b) Affirmative steps must include:

(1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

(2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and

(6) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.

§200.322 Procurement of recovered materials.

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

[78 FR 78608, Dec. 26, 2013, as amended at 79 FR 75885, Dec. 19, 2014]

§200.323 Contract cost and price.

(a) The non-Federal entity must perform a cost or price analysis in connection with every procurement action in excess of the Simplified Acquisition Threshold including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, the non-Federal entity must make independent estimates before receiving bids or proposals.

(b) The non-Federal entity must negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration must be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

(c) Costs or prices based on estimated costs for contracts under the Federal award are allowable only to the extent that costs incurred or cost estimates included in negotiated prices would be allowable for the non-Federal entity under Subpart E—Cost Principles of this part. The non-Federal entity may reference its own cost principles that comply with the Federal cost principles.

(d) The cost plus a percentage of cost and percentage of construction cost methods of contracting must not be used.

§200.324 Federal awarding agency or pass-through entity review.

(a) The non-Federal entity must make available, upon request of the Federal awarding agency or pass-through entity, technical specifications on proposed procurements where the Federal awarding agency or pass-through entity believes such review is needed to ensure that the item or service specified is the one being proposed for acquisition. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the non-Federal entity desires to have the review accomplished after a solicitation has been developed, the Federal awarding agency or pass-through entity may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

(b) The non-Federal entity must make available upon request, for the Federal awarding agency or pass-through entity pre-procurement review, procurement documents, such as requests for proposals or invitations for bids, or independent cost estimates, when:

(1) The non-Federal entity's procurement procedures or operation fails to comply with the procurement standards in this part;

(2) The procurement is expected to exceed the Simplified Acquisition Threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation;

(3) The procurement, which is expected to exceed the Simplified Acquisition Threshold, specifies a “brand name” product;

(4) The proposed contract is more than the Simplified Acquisition Threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

(5) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the Simplified Acquisition Threshold.

(c) The non-Federal entity is exempt from the pre-procurement review in paragraph (b) of this section if the Federal awarding agency or pass-through entity determines that its procurement systems comply with the standards of this part.

(1) The non-Federal entity may request that its procurement system be reviewed by the Federal awarding agency or pass-through entity to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews must occur where there is continuous high-dollar funding, and third party contracts are awarded on a regular basis;

(2) The non-Federal entity may self-certify its procurement system. Such self-certification must not limit the Federal awarding agency's right to survey the system. Under a self-certification procedure, the Federal awarding agency may rely on written assurances from the non-Federal entity that it is complying with these standards. The non-Federal entity must cite specific policies, procedures, regulations, or standards as being in compliance with these requirements and have its system available for review.

§200.325 Bonding requirements.

For construction or facility improvement contracts or subcontracts exceeding the Simplified Acquisition Threshold, the Federal awarding agency or pass-through entity may accept the bonding policy and requirements of the non-Federal entity provided that the Federal awarding agency or pass-through entity has made a determination that the Federal interest is adequately protected. If such a determination has not been made, the minimum requirements must be as follows:

(a) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” must consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual documents as may be required within the time specified.

(b) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

(c) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

§200.326 Contract provisions.

The non-Federal entity's contracts must contain the applicable provisions described in Appendix II to Part 200—Contract Provisions for non-Federal Entity Contracts Under Federal Awards.

IDAHO STATE UNIVERSITY

SUBJECT

Request to begin fundraising, planning, and design of new seating project for Holt Arena

REFERENCE

August 2017	Idaho State Board of Education (Board) approved Idaho State University (ISU) FY2019 Six-Year Capital Project Plan

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.K.2.

ALIGNMENT WITH STRATEGIC PLAN

Goal 1: A Well-Educated Citizenry. The corresponding Objective is: Objective D: Quality Education.
Goal 4: Effective and Efficient Educational System. The corresponding Objective is: Objective D: Advocacy and Communication.

BACKGROUND/DISCUSSION

ISU seeks approval to begin a fundraising effort and to initiate planning and design for the acquisition of new seating in Holt Arena for football, basketball and other events held in the arena. Holt Arena is certainly the most iconic facility in eastern Idaho and by far the most used by both ISU and the community. Holt Arena opened in 1970 as an 11,700-seat stadium. Because of its age, the current fiberglass seats break at a rate of roughly 150 annually. As the original manufacturer has gone out of business, ISU has had to purchase new seats from another source and the replacement seats are different from the original seats. They are then painted to try match original seating in color. Holt Arena is the venue for scores of University and community events. The 90 plus events seating more than 500,000 visitors each year include ISU basketball and football, the Simplot Games, high school athletics and band competitions, agriculture shows, monster truck shows, state and regional wresting, high school and university graduations, and more. ISU is amending its FY19 Six-Year Capital Project Plan to include this facility upgrade.

IMPACT

As ISU continues to focus aggressively on enrollment growth, fundraising, branding, image building, and athletics success, upgrading the patron and spectator experience in Holt Arena is an important part of that plan. Enhanced and new seating will also impact student and student-athlete recruiting, the ability to attract additional and more diverse events. This will help generate much needed revenue, and will certainly assist in making events more comfortable and enjoyable to those attending. This upgrade will also help enrich donor and business relationships with interest groups, both within and outside of the State of Idaho.

ATTACHMENTS

Attachment 1 – Amended FY19 Six-Year Capital Project Plan

STAFF COMMENTS AND RECOMMENDATIONS

At this Board meeting, ISU is seeking approval to proceed with three construction projects, each of which is accompanied by a proposed update to the University's six-year capital plan. The proposed Board action for these projects will include a request to approve an update only to that portion of the six-year plan which addresses the specific project under consideration.

The estimated total cost of the Holt Arena seating project is $2,500,000. Following completion of the planning and design phase of the Holt Arena project, ISU will need to return to the Board to obtain approval for the financial plan for the project and for permission to proceed with construction.

Staff recommends approval.

BOARD ACTION

I move to approve the request by Idaho State University to revise its six-year capital plan to include the proposed project for new seating for the Holt Arena to enable the University to begin fundraising for the project, and to approve the University's request to begin the planning and design phase of the project.

IDAHO STATE UNIVERSITY

SUBJECT

Approval to begin construction phase of Idaho State University (ISU) Anatomy and Physiology Lab building addition at ISU Meridian Health Science Center

REFERENCE

February 2016	Idaho State Board of Education (Board) approved Collaborative Affiliation Agreement with Idaho College of Osteopathic Medicine (ICOM)
August 2016	Board approved execution of a Ground Lease to enable ICOM to build its medical education building on the ISU Meridian campus.
February 2017	Board approved the Anatomy and Physiology Laboratory (A/P Lab) addition on the ISU Meridian campus
August 2017	Board approved License Agreement between ISU and ICOM for A/P Lab space
October 2017	Board approved an amendment to the License Agreement for Space between ISU and ICOM for use of the ISU A/P Lab

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.K.3 b & c.

ALIGNMENT WITH STRATEGIC PLAN

The request aligns with the following State Board of Education Strategic Plans:
Goal 1: A Well-Educated Citizenry. The corresponding Objective is: Objective D: Quality Education.

BACKGROUND/DISCUSSION

ISU seeks approval from the Board to begin construction of the Anatomy and Physiology Lab Building Addition at ISU Meridian Health Science Center. On the first floor, the project provides 12 cadaver stations and accompanying support systems. On the second floor, the project provides for moving and expanding nursing program areas, conferences, and offices. This will enable ISU to expand its clinical offerings in one location where spaces vacated by nursing on the first floor are adjacent to the existing clinic spaces. Funding for this project comes from:

ICOM $2.5M, a generous gift from the ALSAM foundation of $3.85M, and agency funding of $1.4M for a total of $7.75M.

IMPACT

This expansion will enhance current capabilities and will support the use of the upgraded facility to provide high quality intra-professional education and research possibilities.

ATTACHMENTS

Attachment 1 – Revised ISU FY19 Six-Year Capital Project Plan
Attachment 2 – Meridian A & P Lab Building Plan
Attachment 3 – PBFAC Minutes 5/1/2018

STAFF COMMENTS AND RECOMMENDATIONS

The A/P Lab project was re-scoped when additional resources became available to expand the project. The Division of Public Works (DPW) has coordinated the revised project concept and design work, and the project is now ready to move into the construction phase.

Staff recommends approval.

BOARD ACTION

I move to approve the request by Idaho State University to revise its six-year capital project plan and to begin construction of the Anatomy and Physiology Lab building addition at the Meridian Health Science Center, at a cost not to exceed $7.75M.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

DPW Project No. 17237 Agency $7,042,000
Cadaver Lab Expansion
ISU Meridian Health Science Center
Idaho State University (ISU)
Meridian, Idaho

Previous Minutes: 04-04-17, 08-01-17

Mr. Miller introduced Mr. Jim Otradosky, CSHQA Architects, Boise. Mr. Otradosky shared plans and presented the project.

This project is for a two-story expansion located at the ISU Meridian Health Science Center (MHSC), Meridian, Idaho, for the ISU Division of Health Sciences (DHS). The specific location is at the east entrance of the campus at an existing courtyard. The Council should be familiar with the first-floor portion of the project, a cadaver lab, which was presented at the August 1, 2017 meeting; the Council gave Preliminary Approval and authorized DPW to proceed with Final Design. However, ISU has increased the scope-of-work and budget for a second-floor.

For the most part, the previously reviewed cadaver lab remains unchanged, except for modifications to allow for the new second-floor shell & core. The new lab will be the second state-of-the art lab/cadaver room at the ISU Meridian Health Science Center, and will utilize computer-based, virtual technology applications combined with traditional cadaver technologies. This new lab facility will nearly replicate the first cadaver lab constructed over three years ago. The new lab is approximately 3,800 gross square feet and will provide 13 gurney stations, including ancillary support spaces. An adjacent support room will provide four gurney stations.

The second-floor shell space, approximately 7,000 square feet, is designed to maximize flexibility for ISU's anticipated uses, which include the nursing program, clinical research, conference room(s), and staff/faculty offices. Concept studies, programming space analysis, and cost estimates are being prepared by the Project Team for ISU's consideration and formalized decisions by their stakeholders.

A substantial completion date of June 1, 2019 for the lab is required by ISU; therefore, the Team is working under an accelerated design and construction schedule to complete the cadaver lab, and the second-floor shell and core. The CSHQA design team and consultants were given approximately ten weeks to complete the bid package to allow for an 11-month construction schedule, as prepared by Andersen Construction. A separate substantial completion date of October 31, 2019 is required by ISU for the second-floor tenant improvements; therefore, the Team is also working concurrently with ISU on a fast-track schedule for the second-floor final space planning approvals.
CSHQA Architects, Boise, is the project architect for the project. Andersen Construction, of Boise, is the CM/GC on the project and their preliminary construction cost estimate is $4,100,000, including CM fees.

MOTION: **SENATOR VICK MOVED COUNCIL APPROVE PRELIMINARY DESIGN, FINAL PLANS AND SPECIFICATIONS, SUBJECT TO STAFF REVIEW, AND AUTHORIZE PROCEEDING WITH BIDDING AND AWARD OF CONTRACT FOR DPW PROJECT NO. 17237. Council passed the motion.**

UNIVERSITY OF IDAHO

SUBJECT

Transfer of funds to University of Idaho Foundation for investment

REFERENCE

January 2018	Idaho State Board of Education (Board) approved Naming Rights Agreement between University of Idaho (UI) and Idaho Central Credit Union (ICCU)

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.E.2.b.v

ALIGNMENT WITH STRATEGIC PLAN

GOAL 2: INNOVATION AND ECONOMIC DEVELOPMENT The educational system will provide an environment that facilitates the creation of practical and theoretical knowledge leading to new ideas.

Objective B: Innovation and Creativity – Increase creation and development of new ideas and solutions that benefit society.

Objective C: Economic Growth – New objective currently under development.

BACKGROUND/DISCUSSION

In January 2018 the Board approved the Naming Rights Agreement between UI and ICCU under which UI's planned court sports arena will be named the Idaho Central Credit Union Arena. That agreement has been executed and the agreed payment from ICCU has been delivered to UI. UI continues its fundraising for the remainder of the funding needed for completion of the Arena. In order to maximize the utility of the funds paid by ICCU prior to use of the funds for construction, UI proposes to deposit the funds with the UI Foundation (Foundation) for investment under the Foundation's investment policies.

ICCU has agreed to this proposal, and UI has promised that the net earnings from the invested funds will be applied to the Arena project along with the principal.

UI seeks approval from the Board for transfer of the funds to the Foundation as described in the proposed MOU between UI and the Foundation in Attachment 1.

IMPACT

The fiscal impact of the request, if granted, will be to increase the total funds available for application to the Arena project by the net earnings from investing the ICCU payment.

ATTACHMENTS

Attachment 1 – MOU between UI and the UI Foundation

STAFF COMMENTS AND RECOMMENDATIONS

Board Policy V.E. requires Board approval when an institution transfers funds to an affiliated foundation, other than in certain limited cases. In this case, UI will be transferring the corpus of the $10,000,000 it received from ICCU for the Arena project to the UI Foundation in order earn interest on the donated funds as the University waits for the start of the project. UI will return to the Board for approval of the financing plan and to begin the construction phase of the Arena project when fund-raising is completed.

Staff recommends approval.

BOARD ACTION

I move to approve the request by the University of Idaho to approve the transfer of funds to the University of Idaho Foundation as outlined in the materials presented to the Board, and to authorize the Vice President for Finance and Administration to sign the MOU at Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

IDAHO CENTRAL CREDIT UNION CONTRIBUTION

MEMORANDUM of UNDERSTANDING
Between the
UNIIVERSITY of IDAHO AND UNIVERSITY of IDAHO FOUNDATION

Thanks to the generosity of the Idaho Central Credit Union ("ICCU"), the University of Idaho ("University") has received $10,000,000 in support of the Idaho Arena ("Arena"), a premier university initiative and capital project. The University and University of Idaho Foundation, an Idaho nonprofit corporation ("Foundation") herby agree to the terms outlined in this document in fulfillment of the ICCU's intent and purpose.

PURPOSE OF CONTRIBUTION

ICCU provided this contribution directly to the University in support of the Arena project, in conjunction with an agreement for naming rights and other benefits between the University and ICCU. As a venue for concerts, speakers and other special events, the Arena enhances the residential student life and strengthens the bond between campus and community in northern Idaho. In addition, by demonstrating how Northwest wood can be a lower-cost, greener option, the Arena will be a signature commercial building solution and a catalyst for forest product development. Finally a new Arena will enable the University's strong court sports teams to compete at the highest level.

FUNDS MANAGEMENT & ADMINISTRATION

In order to prudently manage this generous contribution until the funds are needed for construction of the Arena, the University agrees to transfer the $10,000,000 to the Foundation contingent upon approval from the Idaho State Board of Education. The Foundation shall manage the funds in accordance with applicable law, the provisions of this Agreement, and the Foundation's policies. The Foundation and University shall establish procedures for the expenditure of funds by the University in support of the Arena.

1. The funds shall be held and administered by the Foundation in a fund designated for the Arena.
2. The principal shall be invested in accordance with policy established by the Foundation's governing board.
3. The principal and investment earnings shall be distributed to the University in accordance with the Operating Agreement between the Foundation and the University.
4. A reasonable investment management fee may be assessed.

DISTRIBUTION

The principal and investment earnings shall be distributed to the University as needed for expenses associated with the Arena project. Funds shall be directed and distributed to the University by the

Executive Director of the Foundation at the request of the Vice-President for Finance and Administration of the University.

CHANGED CIRCUMSTANCES

In the event construction of the Arena is not approved by the Regents of the University and construction of the Arena is abandoned by the University, the funds held by the Foundation under this Agreement shall be returned to the University for return to ICCU per the terms of the agreement for naming rights.

ACCEPTED BY:

UNIVERSITY OF IDAHO

SUBJECT

Acquisition of real property in Bonner County near Sandpoint Idaho

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.I.2.a.

ALIGNMENT WITH STRATEGIC PLAN

Goal 1, Objective A and B; Goal 2, Objectives B and D: This acquisition facilitates delivery of new educational modules providing hands on experiences not possible with current facilities and sites, and improves educational access for adult learners in northern Idaho. This acquisition is an investment in innovative and relevant programs of current programmatic interest to the University of Idaho (UI). This investment in new academic and research facilities facilitates the creation and development of new ideas and solutions to address Idaho's needs for economic development and the education of its citizens.

BACKGROUND/DISCUSSION

The UI wishes to establish the Sandpoint Organic Agriculture Center (SOAC) to deliver additional outreach and educational programs in organic and sustainable agricultural production and business. The development of the new center near Sandpoint, Idaho is made possible by acquisition of a 48 acre property and an adjoining 18 acre property previously gifted by the seller to the Regents for such use. The subject property includes a two-story lodge building with an elevator and commercial kitchen, a two-story bunkhouse and a number of other specialized improvements related to the existing certified organic fruit tree orchard on the property to be acquired. The land and improvements were recently appraised at $3,382,000, but the seller is offering the property to the Regents for $2,200,000 with a donation of the remaining equity as well as donation of certain operating equipment associated with the orchard operation, all through the University of Idaho Foundation. UI's College of Agricultural and Life Sciences (CALS) has proposed a plan for education, outreach and extension activities that will take advantage of the property's horticultural attributes that are complementary to this programming. This facility is being offered by the seller at a cost that is much less than appraised market value.

IMPACT

Funding for the acquisition will be covered by the CALS budget. Ongoing operation costs will also be covered from CALS budgets.

ATTACHMENTS

Attachment 1 – Purchase and Gift Agreement
Attachment 2 – Map of subject property

STAFF COMMENTS AND RECOMMENDATIONS

Per Board Policy V.I.2.a, prior Board approval is required for property acquisitions with values in excess of $1,000,000. The Purchase and Gift Agreement at Attachment 1 contains a Warranty Deed and legal description (Exhibit A).

Staff recommends approval.

BOARD ACTION

I move to approve the request by the University of Idaho to authorize the acquisition of the real property located in Bonner County as described in the materials presented to the Board, and to authorize the University's Vice President for Finance and Administration to execute all necessary transaction documents related thereto.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

REAL PROPERTY PURCHASE AND GIFT AGREEMENT

THIS REAL PROPERTY PURCHASE AND GIFT AGREEMENT ("**Agreement**") is made and entered into effective as of the 17th day of May, 2018, by and between Dakota Consulting, LLC, an Idaho Limited Liability Corporation, ("**Grantor**") and the Board of Regents of the University of Idaho, a body politic and corporate organized and existing under the constitution and laws of the State of Idaho ("**Grantee**"), and the University of Idaho Foundation, Inc, an Idaho non-profit corporation ("**Foundation**").

RECITALS

Grantor is the owner of Subject Property and desires to convey the same to the Grantee in consideration of Grantee's payment of the agreed Purchase Price as well as the Grantor's gift of the remaining value of the Subject Property to Grantee through the Foundation. Grantor will update the appraised value of such gift within 60 days of closing as provided herein.

AGREEMENT

1. **Gift and Grant**. Subject to Grantee's acceptance of the gift of the Subject Property and Grantor's receipt of the Purchase Price, Grantor shall grant, transfer, sell, donate and convey all of Grantor's right, title and interest in and to that certain real property together with all easements, water rights (including access to any points of water diversion on Grantee's remaining property) and other rights appurtenant to said real property comprised of approximately 47.82 acres located in Bonner County, Idaho and more particularly described as shown on the draft deed attached here as **Exhibit A**, and including all buildings, structures, fixtures and improvements (including, without limitation, planted crops and existing trees) upon the real property ("**Subject Property**"). Grantor shall transfer the property via a warranty deed, without any restrictions that obligate Grantee to continue or maintain programs or specific uses.

2. **License for Entry.** Grantor grants to Grantee a license to enter upon Subject Property for all purposes reasonably related to a full and adequate determination of its suitability, including, without limitation, the right to conduct surveys, soils tests, engineering studies, and environmental tests and audits to land and improvements.

3. **Purchase Price.** The "**Purchase Price**" for the Subject Property is $2,200,000 to be paid in cash at closing.

4. **Conditions to Closing**. Notwithstanding anything to the contrary in this Agreement, Grantee shall not be obligated to purchase the Subject Property unless at or prior to closing each of the following conditions has been met or Grantee has waived said condition in writing. Grantor shall cooperate with Grantee to execute any documents which may be necessary or convenient to the performance of these conditions:

(a) Title to the Subject Property shall be good and marketable and shall be free and clear of all liens, leases, encumbrances, easements, assessments, restrictions, tenancies (whether recorded or unrecorded) and other exceptions to title, except the lien of real property taxes not yet due and payable and those exceptions approved in writing by Grantee ("**Permitted Exceptions**"). Between the date of this Agreement and the earlier of closing or the termination of this Agreement, Grantor shall not enter into any lease or occupancy agreement affecting the Subject Property or any portion thereof unless first approved in writing by Grantee. Grantor further agrees to remove on or before closing all monetary liens and encumbrances affecting the Subject Property except the lien of real property taxes not yet due and payable.

(b) Grantee is able to obtain from a title insurance company authorized to do business in the State of Idaho a policy of title insurance, including any endorsements reasonably required by Grantee in the full amount of Purchase Price, insuring that marketable fee simple title to the Subject Property is vested in Grantee, subject only to the Permitted Exceptions (if any).

(c) Grantee has obtained, at Grantee's sole expense, environmental tests and audits which shall show the Subject Property (i) to be free and clear of all Hazardous Materials (as defined herein), and (ii) to be suitable, in Grantee's sole opinion, for Grantee's intended uses. If any environmental review obtained by Grantee contemplates or suggest any further environmental review or testing, and Grantee wishes to complete said review, Grantee may reasonably extend the time for closing so that such further review shall be completed prior to Subject Property being transferred to Grantee and Grantee's satisfaction with such further review shall be deemed a condition prior to closing.

(d) Grantee has obtained approval from its governing board to acquire Subject Property as provided by the terms of this Agreement.

(e) All of Grantor's representations and warranties under this Agreement shall continue to be true and correct as of the date of closing.

In the event Grantee, at any time, reasonably deems any of the conditions set forth in this Section 4 unsatisfied, Grantee may terminate this Agreement upon fifteen (15) days' prior written notice to Grantor and this Agreement shall terminate. Notwithstanding any of the foregoing, neither party shall have the right to terminate this Agreement if such party is in default under this Agreement. In the event of any such termination of this Agreement, both parties shall be released from any further obligations hereunder except for liabilities, actual or contingent, which arose prior to the date of termination.

5. Closing Agent. Alliance Title and Escrow of Sandpoint, Idaho shall serve as the Closing Agent. Grantor shall deliver to the Closing Agent on or before August 1, 2018, a duly executed and acknowledged Special Warranty Deed ("**Deed**"), attached as **Exhibit A**, conveying all of Grantor's right, title and interest in Subject Property to Grantee, together with instructions to deliver and record Deed after Grantee deposits Purchase Price with the Closing Agent. On or before July 10, 2018, Grantee shall notify Grantor and Closing Agent, in writing that Grantee is satisfied with the conditions of transaction closing as set forth in Section 4 of this Agreement. Upon the date of such notice of Grantee satisfaction, Grantee shall also deposit the total Purchase

Price with the Closing Agent with instructions to disburse the Purchase Price to Grantor at closing and upon recordation of the Deed by Closing Agent.

6. **Costs.** Grantee shall pay the cost of recording the Deed. All real estate taxes and assessments due shall be paid by Grantor. All title insurance premiums shall be paid by Grantee.

7. **Commissions.** Each party hereto represents and warrants to the other that there are no brokerage commissions payable as a result of this transaction. The representations and warranties set forth in this Section shall survive closing.

8. **Grantor's Representations and Warranties.**

(a) Grantor warrants and represents that Grantor has authority to enter into this Agreement and that Grantor holds marketable fee simple title to the Subject Property and no right to acquire the Subject Property has been granted to any other party, and that the Subject Property is free and clear of all liens, claims, security interests, pledges, charges, and encumbrances of any nature.

(b) Grantor has no knowledge of any "Hazardous Materials" (as hereinafter defined), having ever been used, produced, released, stored, transported, disposed of, generated, deposited or otherwise existing in, over, under or upon the Subject Property by any person or entity whatsoever in violation of any Environmental Laws (as hereinafter defined). The term "**Hazardous Materials**" shall collectively refer to underground storage tanks, petroleum and petroleum products, asbestos, PCBs, urea-formaldehyde and any hazardous or toxic substances, pollutants, contaminants, wastes or materials as defined under any "Environmental Laws." The term "**Environmental Laws**" shall collectively refer to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, The Toxic Substances Control Act, the Clean Water Act 33 U.S.C. § 1251-1387, the Resource Conservation and Recovery Act as amended, or any other similar federal, state or local law, rule or regulation respecting Hazardous Materials together with all rules and regulations promulgated thereunder and all amendments thereto.

(c) Grantor, and to Grantor's knowledge, all other persons or entities who have occupied or are occupying the Subject Property, or any portion thereof, have, at all times, fully complied with all Environmental Laws and all other laws, rules and regulations (collectively, "**Laws**") as well as all permits, licenses, certificates and approvals relating to the development and use of the Subject Property (collectively, "**Permits**"). To Grantor's knowledge, (A) no notice of violation of any Environmental Law or any other Law (and no complaint, order, directive, claim, citation or notice relating to any Environmental Law or other Law) has been issued with respect to the Subject Property, and (B) no notice of noncompliance with any Permit relating to the development or use of the Subject Property has been issued.

(d) There are no pending actions against Grantor (or to Grantor's knowledge, against any other person or entity) which relate to the condition or use of the Subject Property and Grantor has no knowledge of any facts or circumstances which could give rise to such action. Without limiting the foregoing, there are no pending or threatened condemnation proceedings which could affect all or any portion of the Subject Property, or the performance by Grantor of any of its obligations set forth in this Agreement.

(e) To Grantor's knowledge, there are no attachments, executions, assignments for the benefit of creditors, or voluntary or involuntary proceedings contemplated by, or pending or threatened against, Grantor which could prevent or delay the consummation of this transaction.

The warranties and representations set forth in this Section 8 shall constitute continuing warranties and representations, shall be deemed to be true and correct as of the date of closing of Grantee's acquisition of the Subject Property from Grantor, and shall survive the closing of Grantee's acquisition of the Subject Property from Grantor.

9. Grantor's Environmental Disclosure. Grantor is not aware of any environmental liabilities or hazards with regard to the Subject Property. Grantor, within five (5) days from the date of this Agreement, shall provide Grantee with all reports, test records and other information in the possession of Grantor (if any) relating to the presence of any hazardous materials on the Subject Property.

10. Condemnation. Should any entity having the power of condemnation bring an action or otherwise indicate an intent prior to the time of closing to acquire all or any portion of, or any interest in, the Subject Property, Grantee, at Grantee's sole option, may elect either (i) to terminate Grantee's obligation to purchase Subject Property by giving written notice to Grantor at any time prior to the time of closing, or (ii) to complete the purchase of the Subject Property with Grantor immediately appointing Grantee its attorney-in-fact to negotiate with said condemning entity as to its interest in the Subject Property and assigning to Grantee all amounts to be awarded for the Subject Property. Grantor agrees to provide Grantee, within ten (10) days after Grantor's receipt of same but in no event later than the time of closing, written notice of any actual or threatened condemnation proceeding.

11. Successors. This Agreement shall be binding on the heirs, successors, assigns and personal representatives of the parties hereto.

12. Attorneys' Fees. In the event either party initiates or defends any legal action or proceeding in any way connected with this Agreement, the losing party in any such action or proceeding shall pay the prevailing party in any such action or proceeding its reasonable costs and attorneys' fees (including its reasonable costs and attorneys' fees on any appeal).

13. Default. Neither party shall be deemed to be in default of this Agreement except upon the expiration of thirty (30) days from receipt of written notice from the other party specifying the particulars in which such party has failed to perform its obligations (or breached any of its representations or warranties) under this Agreement unless such party, prior to expiration of said thirty (30) day period, has rectified the particulars specified in said notice of default. In the event of a default, the non-defaulting party may: a) terminate this Agreement upon written notice to the defaulting party, and recover from the defaulting party all damages incurred by the non-defaulting party, b) seek specific performance of this Agreement, and, in addition, recover all damages incurred by the non-defaulting party. The parties declare it to be their intent that this Agreement may be specifically enforced, c) perform or pay any obligation or encumbrance necessary to cure the default and offset the cost thereof from monies otherwise due the defaulting party or recover said monies from the defaulting party; and d) pursue all other remedies available at law, it being the intent of the parties that remedies be cumulative and liberally enforced so as to adequately and completely compensate the non-defaulting party.

14. Notices. All notices given pursuant to this Agreement shall be in writing and shall be given by personal service, by United States mail or by United States express mail or other established express delivery service (such as Federal Express), postage or delivery charge prepaid, return receipt requested, addressed to the appropriate party at the address set forth below:

To Grantee:

Vice President for Finance and Administration
University of Idaho
875 Perimeter Dr MS3168
Moscow ID 83844-3168

To Grantor:

Dennis Pence
Dakota Consulting
11053 North Boyer Rd
Sandpoint ID 83864

The person and address to which notices are to be given may be changed at any time by any party upon written notice to the other party. All notices given pursuant to this Agreement shall be deemed given upon receipt. Receipt shall mean the earlier of any of the following: (i) the date of delivery of the notice or other document to the address specified pursuant to subparagraph (a) above as shown on the return receipt, (ii) the date of actual receipt of the notice or other document by the person or entity specified above, or (iii) in the case of refusal to accept delivery or inability to deliver the notice or other document, the earlier of (A) the date of the attempted delivery or refusal to accept delivery, (B) the date of the postmark on the return receipt, or (C) the date of receipt of notice of refusal or notice of nondelivery by the sending party.

15. Captions and Headings. The captions and headings in this Agreement are for reference only and shall not be deemed to define or limit the scope or intent of any of the terms, covenants, conditions or agreements contained herein.

16. Entire Agreement. This Agreement between the parties contain the entire agreement between the parties hereto and supersede all prior agreements, oral or written, with respect to the subject matter hereof. The provisions of this Agreement shall be construed as a whole and not strictly for or against any party.

17. Venue and Governing Law. Any legal proceeding instituted between the parties shall be in the courts of the County of Bonner, State of Idaho, and each of the parties agrees to submit to the jurisdiction of such courts. It is further agreed that this Agreement shall be governed by the laws of the State of Idaho.

18. Survival. All of the representations and warranties set forth in this Agreement shall constitute continuing representations and warranties, shall be deemed to be true and correct as of the date of Closing, and shall (along with all indemnification, defense and hold harmless obligations related thereto) survive Closing.

19. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original and all of which shall constitute a single instrument, and shall be effective upon execution of one or more of such counterparts by each of the parties hereto.

EXECUTED as of the date first above written.

ALIGNMENT WITH STRATEGIC PLAN

This item aligns with the following goals and objectives of the State Board of Education Strategic Plan:

- **Goal 1, Objectives A, and D:**
  One of the outcomes of this new facility will be to increase the access of both the citizenry and students to research and research opportunities which are to be conducted and supported by the facility.

- **Goal 2, Objectives A, B, C, and D:**
  The central purpose and intent of this new facility is to create a resource that can be utilized to expand and curate knowledge regarding the production of seed potatoes and to support the viability and economic growth of the potato industry within the State of Idaho. The work conducted within this facility will directly impact production of high quality Idaho potatoes through the generation of disease-free plantlets and minitubers from new and existing varieties. It will drive the supply of safe and clean seed potatoes for commercial growers. Further, this work will be preventative in the reduction of diseases in the industry.

BACKGROUND/DISCUSSION

This agenda item requests Board authorization to allow UI to proceed with the Planning and Design phase of a Capital Project to design and construct a Seed Germplasm Potato Facility. The proposed facility will support the efforts of the College of Agricultural and Life Sciences (CALS) to support the on-going needs of faculty in CALS and of the potato industry in Idaho. The proposed facility is to be located on the main campus of the UI in Moscow, Idaho.

The full, anticipated project cost is $5,500,000 as noted in the six-year plan submitted in August, 2017. Recently, partial funding for this effort was obtained through the FY2019 Permanent Building Fund (PBF) process in the amount of

$3,000,000. The remaining funding will consist of $1,500,000 in gifts and donations and $1,000,000 from CALS funds.

In compliance with Board Policies & Procedure, Section V.K.3.a, this Authorization Request is limited to the Planning and Design Phase of the overall effort. The Planning and Design Phase cost is estimated at $650,000.

Planning Background and Project Description

The UI proposes to construct a Seed Potato Germplasm Facility as part of the on-going effort to collaborate with and support the potato industry within the State of Idaho. The university currently maintains an existing Seed Potato Germplasm laboratory within the Iddings Agricultural Sciences Laboratory Building on the main campus of the university in Moscow, Idaho. However, this facility is small in size and scale, limiting production and germplasm storage. There is high demand from researchers and the potato industry to increase production and expand storage capacity.

Currently, nearly 70% of the existing seed potato program sales are to seed potato producers in Idaho. There is great need for production of early generation seed for higher quality seed production within Idaho. In addition, often second and third year production from seed occurs, leading to greater risk of diseased potatoes. It is anticipated that a scale up is necessary over the next few years to meet the likely doubling in demand. Current projections call for 100,000 more plantlets needed annually as the basis for minituber production for UI research and variety development.

Additionally, the new facility will have capacity to accommodate the national germplasm storage currently located in Colorado. This will provide greater access by Idaho seed potato producers and researchers to the widest array of potato germplasm, which will aid in the improvement of seed and commercial potato production in Idaho.

The intent is to construct a new facility, physically located at some distance from the Iddings Laboratory. The separation will reduce the risk of transmission of disease from other laboratories within the Iddings building which study potato pathogens. A separate location will minimize the traffic from students, faculty and staff without direct need to access the laboratory. While the existing facility has a very good track record in producing a high quality clean product, relocating this effort to a new, separate facility is prudent.

The UI contracted with Castellaw Kom Architects of Lewiston, Idaho to produce an initial feasibility study, program, and cost estimate. That feasibility effort was completed in May, 2017 and has received a welcome reception amongst industry groups and other stakeholders. This project authorization request is based upon that feasibility study and the input the study has generated since.

As described in the feasibility study, the facility is conceived of as an 11,300 gsf structure which will house research laboratory, growth and tissue culture facilities, germplasm storage, classrooms, and administrative offices. The facility is to be a separate, stand-alone facility to accommodate the research needs, germplasm production and storage capacity necessary to support the Idaho potato industry into the foreseeable future. The final site location is to be determined during the planning and design phase, but the initial concept is to locate the proposed Seed Potato Germplasm Facility in the west farm neighborhood of the main campus of the university.

Authorization Request
This request is for the Capital Project Design Phase Authorization necessary to plan and design the proposed Seed Potato Germplasm Facility.

The total project effort, including the PBF supported portion, is currently estimated at $5,500,000, to include design and construction costs and appropriate and precautionary contingency allowances.

The project is consistent with the strategic goals and objectives of UI and is fully consistent with UI's strategic plan, specifically:

- **Goal One, Innovate**:
  This project supports the growth of scholarly research activity in the Agricultural Sciences. It provides support for creative research into solutions to the issues and concerns of one of the largest and most iconic industries within the State of Idaho.

- **Goal 2, Engage**:
  This project enhances and supports collaboration with the potato industry within the State of Idaho. The project is vetted and supported by leaders and stakeholders within the Idaho potato industry. It is the stated belief of the industry that this project will result in conditions in which there will be a focus which will increase use of home-grown, high quality material, thus giving the Idaho potato industry a significant advantage in the marketplace.

In addition the project is fully consistent with the principles, goals, and objectives of UI's Long Range Campus Development Plan (LRCDP).

IMPACT

The immediate fiscal impact of this effort is to fund Planning and Design Phase costs of the project, with projected expenditures of approximately $650,000. The overall project effort is anticipated to be $5,500,000.

Overall Project **Funding**		**Estimate Budget**	
State	$ 3,000,000	A/E & Consultant Fees	$ 498,300
Federal (Grant):		Construction	3,775,400
Other (UI)		Construction Cont.	377,500
University (CALS)	1,000,000	Owner Cost & FFE	348,800
Gifted Funds	1,500,000	Project Cont.	500,000
Total	$ 5,500,000	Total	$ 5,500,000

ATTACHMENTS

Attachment 1 – Capital Project Tracking Sheet

STAFF COMMENTS AND RECOMMENDATIONS

The full scope of the project is $5,500,000. Of this, $3,000,000 comes from an allocation from the Permanent Building Fund. The remaining cost of the project is being financed with an additional $2.5 million in agency funds and funds gifted to the agency for this specific purpose. Per Board Policy V.K.1., Board approval is required when a project's cost is greater than $1,000,000. Following the planning and design phase of this project, UI must return to the Board to obtain approval to proceed with construction.

Staff recommends approval.

BOARD ACTION

I move to approve the request by the University of Idaho to implement the planning and design phase of the capital project for the proposed Seed Potato Germplasm Facility, for a total cost of $5,500,000, with costs for the Planning and Design phase not to exceed $650,000. Authorization includes the authority to execute all necessary and requisite consulting and vendor contracts to fully implement the planning and design phase of the project.

SUBJECT

College of Eastern Idaho Real and Personal Property Transfer

REFERENCE

January 27, 2017	Idaho State Board of Education (Board) approved resolution recommending the formation of a community college district in Bonneville County.
June 15, 2017	Board approved trustee zones for the College of Eastern Idaho.
July 5, 2017	Board approved appointment of College of Eastern Idaho board of trustees.
August 10, 2017	Board approved legislation removing Eastern Idaho Technical College from Idaho Statute.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.I

ALIGNMENT WITH STRATEGIC PLAN

Goal 1 (“A Well Educated Citizenry”) Objective A (“Access: Set policy and advocate for increasing access to Idaho’s educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.”).

BACKGROUND/DISCUSSION

The College of Eastern Idaho (CEI) and Eastern Idaho Technical College (EITC) have operating conjointly from the EITC campus during the 2017-2018 academic year. With the enactment of Senate Bill 1210 (2018), Eastern Idaho Technical College (EITC) will cease to exist as of July 1, 2018. College of Estern Idaho will assume responsibility for offering career technical education programs previously offered by EITC, as well as academic programs for which it has Board approval. The final step in this transition is for the Board to transfer the EITC campus and all personal property to CEI.

Board Policy V.I.5.b.iii requires Board approval of transfers of real property. Transfer of the EITC real property to CEI will occur through a quitclaim deed. The grantor under the quitclaim deed is the State of Idaho, acting by and through the State Board of Education, in its capacity as the Board for Career Technical Education.

The EITC campus includes Building 6, the health sciences building constructed with bonds issued by the Idaho State Building Authority (Building Authority) in 2005. As part of that transaction, EITC leased approximately 2.7 acres to the Building Authority under a Site Lease dated August 25, 2005, with the consent and approval of the State Board for Professional-Technical (now Career Technical) Education. After construction of the facilities, the Building Authority leased the completed facilities (“Facilities”) to the State of Idaho acting though the Idaho Department of Administration and EITC, with the consent of the State Board for

Professional-Technical Education. Repayment of the bonds is currently projected to be complete at the end of fiscal year 2024. Due to the bond obligations, the Facilities, including the real property, which is the subject of the site lease, are excluded from the quitclaim deed. It is expected that CEI will continue to use the Facilities, in the same manner as used by EITC, pursuant to a sublease between the Department of Administration and CEI. The Department of Administration has confirmed that it will continue to request the annual appropriation of funds required to repay the bonds under the terms of the Facilities Lease, as has been the case since 2005. After repayment of the bonds is complete, additional Board action will be required to transfer title to the Facilities to CEI.

Board Policy V.I.6.c states that “transfer of property from one Board institution, school or agency to another institution, school or agency under Board governance may be made without participation by the State Board of Examiners or the Department of Administration, but such transfers of property with a value greater than two hundred fifty thousand dollars ($250,000) require prior Board approval.” All personal property owned by EITC, including computers, furniture, etc. will be transferred from EITC to CEI via the attached Educational Facility Property Agreement.

IMPACT

EITC will no longer exist as of July 1, 2018. Transfer of land and personal property is necessary for CEI in its operation as a community college.

ATTACHMENTS

Attachment 1 – Educational Facilities Property Agreement
Attachment 2 – Quit Claim Deed

STAFF COMMENTS

Transfer to CEI of real and personal property used by EITC to offer career technical education is required in order for CEI to continue providing career technical education as well as academic programs in its role as a community college.

Staff recommends approval.

BOARD ACTION

I move to approve the quitclaim deed transferring title of the Eastern Idaho Technical College campus to the College of Eastern Idaho, except for that portion of the campus encumbered with the Building Authority Site Lease and Facilities Lease.

Moved by__________ Seconded by__________ Carried Yes_____ No_____

AND

I move to approve the execution of the Educational Facility Property Agreement documenting the parties understanding regarding the transfer of real and personal property to the College of Eastern Idaho.

Moved by__________ Seconded by___________ Carried Yes_____ No_____

EDUCATION FACILITIES PROPERTY TRANSFER AGREEMENT

THIS EDUCATIONAL FACILITIES PROPERTY TRANSFER AGREEMENT ("Agreement") is made this 30th day of June, 2018 ("Effective Date"), by and between the COLLEGE OF EASTERN IDAHO, an Idaho community college district formed pursuant to Title 33, Chapter 21, Idaho Code ("CEI"), and the STATE OF IDAHO, through the State Board of Education, in its capacity as the Board for Career Technical Education and as the Board for Eastern Idaho Technical College ("SBOE").

RECITALS

A. Eastern Idaho Technical College ("EITC") was established as a postsecondary technical college in 1970 under Idaho Code, Section 33-2208 and has a core mission of providing career technical education.

B. The general supervision, government and control of EITC is vested in the State Board for Career Technical Education pursuant to Idaho Code, Section 33-2209.

C. The State Board of Education is the State Board for Career Technical Education under Idaho Code, Section 33-2202.

D. The SBOE is charged with supervising all public education in Idaho under Idaho Constitution, Article IX, Section 2 and Idaho Code, Section 33-107.

E. On May 16, 2017, the voters of Bonneville County elected to form a community college district, pursuant to Idaho Code, Section 33-2104.

F. Part of the campaign to establish a community college in Bonneville County was based on the assumption that costs to form a community college district would be kept low by converting EITC into the proposed community college and using the existing EITC facilities for the operations of the new community college.

G. CEI and EITC have been jointly offering courses and academic programs from the EITC campus during the 2017 – 2018 school year pursuant to a Memorandum of Understanding dated August 16, 2017, with EITC primarily providing career technical programs and CEI primarily providing academic programs.

H. Statutory changes which will go into effect July 1, 2018 will result in the legislative dissolution of EITC.

I. Once EITC ceases to exist, CEI will offer career technical programs as well as academic programs, as is typical for Idaho's public community colleges.

J. CEI will continue its operations from the EITC campus as a community college, funded in part with State of Idaho legislative appropriations.

K. SBOE is responsible for approval of and submission of community college budget requests to the executive and legislative branches of government and for academic program approval at community colleges.

L. Contemporaneously herewith, the State will transfer to CEI certain real property comprising the EITC campus as more particularly described on the quitclaim deed attached as **Exhibit A** ("EITC Campus").

M. Contemporaneously herewith, the State will transfer to CEI the personal property currently owned by EITC and located on the EITC campus

N. EITC is a party to that certain Site Lease of a portion of the EITC campus dated August 25, 2005 between the Idaho State Building Authority, as lessee, and the State of Idaho acting through EITC, as lessor ("Site Lease") on which the Authority financed and constructed nursing and health education building (the "Facilities") and that certain Facilities Lease dated August 25, 2005 between the Authority, as lessee, and the State of Idaho acting through the Idaho Department of Administration ("IDOA") and EITC, as lessee, ("Facilities Lease") leasing the completed Facilities to the State for use by EITC. A copy of the Site Lease is attached as **Exhibit B.** A copy of the Facilities Lease is attached as **Exhibit C.** Title to the Facilities will not transfer to CEI until after bond repayment is complete.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and agreed, and in consideration of the recitals above, which are incorporated herein, and the premises and the mutual representations, covenants, undertakings and agreements hereinafter contained, the State and CEI represent, covenant, undertake and agree as follows:

1. DESCRIPTION OF PROPERTY TO BE TRANSFERRED.

Subject to the terms and conditions of this Agreement, the Board agrees to divest, transfer and convey, and CEI agrees to acquire, assume and have transferred and conveyed, the real property described on the quitclaim deed attached as **Exhibit A** and all personal property currently owned by EITC and used by EITC, collectively "Property."

2. CONSIDERATION FOR TRANSFER.

As consideration for the transfer of the Property,

a) CEI will assume EITC's role of providing career technical education programs as well as providing public postsecondary education, community and workforce training, and adult basic education in perpetuity;

b) CEI will enter a Sublease with the Department of Administration, pursuant to terms set forth therein, authorizing CEI to continue leasing the Facilities during the term of the Site Lease;

c) CEI will grant easements to the State and the Idaho State Building Authority, if requested, for access and utility services to the Site Lease parcel so the State can comply with the Site Lease;

d) CEI will assume all obligations, encumbering the EITC personal property, if any, and shall be solely responsible for all costs associated with the personal property after the Effective Date.

e) CEI will pay all costs associated with the transfer of the Property.

3. ADDITIONAL TERMS.

a) Title Matters. Title to the EITC campus is transferred via a quitclaim deed. CEI expressly acknowledges that it has elected not to procure title insurance insuring that fee title is vested in the State of Idaho, SBOE and/or EITC.

b) **AS IS CONDITION, DISCLAIMER OF WARRANTIES.**

CEI HAS OCCUPIED, WITH EITC, THE EITC CAMPUS FOR APPROXIMATELY ONE (1) YEAR MORE OR LESS, DURING WHICH PERIOD CEI HAS HAD THE OPPORTUNITY TO BECOME FULLY FAMILIAR WITH THE CONDITION AND ALL OTHER ASPECTS OF THE PROPERTY, REAL AND PERSONAL. ACCORDINGLY, CEI ACKNOWLEDGES THAT AS OF THE DATE OF EXECUTION OF THIS AGREEMENT, CEI SHALL HAVE CONDUCTED ITS OWN DUE DILIGENCE INSPECTION OF THE PROPERTY AND THAT CEI SHALL ACCEPT THE PROPERTY IN "AS IS -WHERE IS" CONDITION AND IN THE CONDITION THAT THE PROPERTY IS IN AS OF THE DATE OF THE RECORDING OF THE QUITCLAIM DEED. SBOE HAS NOT MADE AND DOES NOT MAKE ANY OTHER VERBAL OR IMPLIED PROMISES, AGREEMENTS, STIPULATIONS, REPRESENTATIONS OR WARRANTIES OF ANY CHARACTER WHATSOEVER, EXCEPT THOSE EXPRESSLY SET FORTH IN THIS AGREEMENT, AND CEI IN ENTERING INTO THIS AGREEMENT IS RELYING WHOLLY UPON ITS OWN DUE DILIGENCE INSPECTION AND JUDGMENT. CEI SHALL TAKE THE REAL PROPERTY SUBJECT TO THIRD PARTY CLAIMS ARISING OUT OF OR RESULTING FROM DISCREPANCIES, ENCROACHMENTS AND OVERLAPS BETWEEN OR RESULTING FROM EXISTING PERIMETER FENCE LOCATIONS AND THE SURVEYED BOUNDARY LINES OF THE PROPERTY, IF ANY, AND/OR TO ANY STATE OF FACTS AN ACCURATE SURVEY OR INSPECTION OF THE PROPERTY WOULD SHOW. CEI AGREES THAT IT WILL HAVE ASCERTAINED, AS OF THE DATE OF RECORDING OF THE QUITCLAIM DEED, FROM SOURCES OTHER THAN SBOE, THE APPLICABLE ZONING, BUILDING, HOUSING, AND OTHER REGULATORY ORDINANCES AND LAWS AND CEI ACCEPTS THE PROPERTY WITH FULL AWARENESS OF THESE ORDINANCES AND LAWS AS THEY MAY AFFECT THE PRESENT USE OR ANY INTENDED FUTURE USE OF THE PROPERTY AND SHOE HAS MADE NO REPRESENTATIONS WITH RESPECT THERETO.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the Effective Date.

COLLEGE OF EASTERN IDAHO

Rick Aman
President

STATE OF IDAHO, acting through the IDAHO STATE BOARD OF EDUCATION IN ITS CAPACITY AS THE BOARD FOR CAREER TECHNICAL EDUCATION AND AS THE BOARD FOR EASTERN IDAHO TECHNICAL

By: ________________________________
Linda Clark
President

EXHIBIT A: QUITCLAIM DEED

EXHIBIT B: SITE LEASE

SITE LEASE

(Eastern Idaho Technical College Health Education Building)

THIS SITE LEASE is entered into as of the 25th day of August, 2005, by and between the State of Idaho acting by and through EASTERN IDAHO TECHNICAL COLLEGE, with consent and approval of THE STATE BOARD FOR PROFESSIONAL-TECHNICAL EDUCATION (hereinafter the "State"), and the IDAHO STATE BUILDING AUTHORITY (hereinafter the "Authority"). This agreement is hereinafter referred to as the "Site Lease."

RECITALS

A. The State Board for Professional-Technical Education is vested with the general supervision, governance and control of Eastern Idaho Technical College pursuant to Idaho Code §§ 33-2209 and 33-2211. Eastern Idaho Technical College is a body politic and corporate. References to "EITC" herein shall mean Eastern Idaho Technical College and the State Board for Professional-Technical Education acting pursuant to its authority to supervise, govern and control Eastern Idaho Technical College; and,

B. The State is the owner of certain real property described in Exhibit A hereto and desires to lease such property to the Authority for the purpose of financing and developing a health and education building to be constructed thereon described on Exhibit B attached hereto (the "Facilities") to be leased to the State of Idaho, acting through the Department of Administration ("IDOA") and EITC under an annually renewable lease (the "Facilities Lease"), entered into coincidentally herewith; and,

C. In accordance with the provisions of Idaho Code, Section 67-6410(a), the Idaho Legislature, pursuant to Senate Concurrent Resolution No. 134, Second Regular Session of the Fifty-seventh Legislature, has authorized the State to enter into agreements as may be reasonable and necessary with the Authority for the purpose of providing financing to develop and construct facilities for use by the State; and,

D. The Authority intends to finance and develop the Facilities on the Premises (as hereinafter defined) and to lease the Facilities and Premises to IDOA and EITC in accordance with the Facilities Lease, entered into coincidentally herewith; and,

E. The State and the Authority acknowledge that there shall be no merger of the State's leasehold interest under the Facilities Lease and the State's ownership interest in the Premises, which merger would cause the cancellation or termination of this Site Lease; and

F. The State represents that neither the execution and delivery of this Site Lease, the consummation of the transactions contemplated by this Site Lease, nor the fulfillment of or compliance with the terms and conditions of this Site Lease conflict with or results in a breach of any terms, conditions or provisions of any restriction, agreement, or instrument to which the State is now a party or to which the State is bound.

NOW, THEREFORE, THE PARTIES AGREE AS FOLLOWS:

1. **Recitals**: The parties acknowledge the foregoing Recitals are true and are incorporated into this Site Lease as if set forth in full.

2. **Premises**: The State hereby leases to the Authority, subject to the conditions expressed herein, certain real property located in Bonneville County, Idaho, specifically described in Exhibit A attached hereto and incorporated herein together with all easements and rights appurtenant thereto and all other improvements thereon (the "Premises").

As used herein the term "Premises" refers solely to the real property and existing improvements and not to any improvements to be constructed thereon from time to time during the term of this lease.

3. **Term**: The Term of this Site Lease shall be a period commencing on the date hereof and expiring June 30, 2040, unless earlier terminated pursuant to paragraph 9 hereof.

4. **Rent**: The Premises are leased to the Authority without consideration as authorized pursuant to Idaho Code, Section 67-6421.

5. **Development**: The Authority shall have the right to raze existing improvements, and develop, acquire and construct Facilities on the portion of the Premises described on Exhibit A in accordance with the Facilities Lease. In the event the Facilities Lease expires or is terminated for any reason except by the State as provided in paragraph 9 below, the Authority may use the Premises for any lawful purpose.

6. **Permanent Easements**: At the Authority's request or as may be reasonably required, the State shall grant to public entities, public service corporations, or to the Authority such rights-of-way, utility, or other permanent easements on, over or through the Premises and adjacent property owned by the State for telephone, electricity, water, sanitary or storm sewers or both, site drainage and for other utilities and municipal or special district services necessary or appropriate to serve improvements constructed thereon by the Authority.

7. **Utility Services to Premises in Event of Expiration or Termination of the Facilities Lease**: Facilities to be constructed on the Premises by the Authority are or may be designed and constructed to use water, sewer and other utility services furnished by or through

facilities owned or operated by the State, in which event the Facilities will not be connected directly to public utility services or lines. In the event the State fails to renew the Facilities Lease or the State's rights to use of the Facilities under the Facilities Lease otherwise terminate, except termination by the State pursuant to paragraph 9 hereof, the State shall continue to provide all such utility services and all other public utility services to the Facilities and pay all costs and charges thereof. The Authority may, but shall not be required to, connect the Facilities directly to public utility services and provide such connections thereto. If such service crosses land owned by the State or third parties, the State will furnish permanent easements across such land for domestic water and sanitary sewer lines. The State shall permit, without charge therefor, continued use by the Authority of all utility services provided through the State from adjacent property until the Facilities are fully connected and serviced directly by public utilities.

8. **Right to Assign**: Subject to the rights of the State under the Facilities Lease and subject to the State's consent, which shall not be unreasonably withheld, the Authority shall have the right to assign this Site Lease. The State hereby consents to any assignment by the Authority to secure any Mortgage described in paragraph 10 hereof. In the event of such an assignment, except assignments to secure such Mortgages, the Authority shall be released from any and all liabilities arising or accruing under this Site Lease after the date of such assignment.

9. **Optional Termination**: At such time as all sums owing for any bonds or notes issued by the Authority to finance Facilities and all other obligations of the Authority relating to the Facilities or the Premises have been paid in full or provisions for such full payment have been made to the satisfaction of the Authority, the State shall have the right, at its option, to terminate this Site Lease by written notice to the Authority and all alterations, improvements, replacements and appurtenances on or to the Premises, including the Facilities, shall be deemed to be part of the Premises and shall revert to the State and shall become the sole and absolute property of the State.

10. **Mortgages**: The Authority shall have the right at any time and from time to time to pledge, lien or otherwise encumber its leasehold interest herein granted and its interest in any or all improvements thereon and appurtenances thereto by one or more mortgages, deeds of trust, assignment, or other encumbrances (herein referred to as "Mortgages"), as security for a loan or loans or other obligation of the Authority relating to the Facilities or the Premises, provided that:

(a) The Mortgages and all rights acquired thereunder shall be subject to each and all of the covenants, conditions, and restrictions set forth in this Site Lease and shall be subject to all rights and interests of the State as provided in this Site Lease and shall not encumber the State's fee title to the Premises.

(b) The Authority shall give the State prior notice of any such Mortgages, and shall accompany the notice with a true copy of such Mortgages and any indebtedness secured thereby.

11. **Indemnification**: The Authority shall indemnify and hold the State, its agents, representatives, employees and assigns, harmless from and/or against any and all claims, damages, costs, liabilities, and expenses (including reasonable attorneys' fees and defense costs) arising out of or relating to the Authority's possession, operations or performance under this Site Lease.

This indemnification does not apply to claims, damages, costs, liabilities, and expenses (including reasonable attorneys' fees and defense costs) which are or are alleged to be caused, in whole or in part by any act or omission for which the Authority is indemnified under the Facilities Lease, or by negligent or otherwise wrongful acts, errors, omissions or fault on the part of the State, or its employees, agents, representatives, or assigns, or is a result of the State's breach of this Site Lease.

12. **Hazardous/Materials**: In the event any hazardous materials are found to exist in or under the Premises prior to the date of this Site Lease in violation of any environmental laws or if any appropriate government agency or authority requires testing to determine whether any hazardous materials are in violation of any environmental laws, the State, at the State's cost and expense, shall cause such testing to be performed and shall cause any such hazardous materials to be removed, remediated or abated in compliance with all environmental laws. The State hereby agrees to indemnify, defend, and hold the Authority harmless from and against any and all claims, damages, liabilities, costs, expenses (including reasonable attorneys' fees), causes of action and judgments arising out of or related to hazardous materials existing in, or under the premises prior to the date of this Site Lease. As used herein, the term "environmental laws" shall mean the Comprehensive Environmental Response Compensation and Liability Act of 1980, as amended (CERCLA) the Resource Conservation Recovery Act, as amended (RCRA), the Federal Water Pollution Control Act, the Clean Air Act and any similar local, state or federal law, rule, ordinance or regulation. As used herein, the term "hazardous materials" shall mean any hazardous substance, pollutants, contaminants, or other hazardous waste or toxic substances defined in any environmental laws including, without limitation, petroleum and petroleum products, asbestos and asbestos containing materials, PCBs and urea-formaldehyde.

The Authority shall not, nor shall it allow others to, accumulate, use, or store on the Premises materials classified as hazardous, biomedical or toxic waste except in compliance with all state, federal, or local laws, rules or regulations. The Authority shall comply with any lawful order by an entity reposed with the Authority to regulate the use, accumulation, storage or disposal of hazardous waste. The Authority shall not be responsible for any of such materials placed on the Premises by or through the State prior to or during any term of the Facilities Lease.

13. **Zoning/Building Restrictions**: This Site Lease is subject to all applicable zoning ordinances and restrictions and all limitations of record, and is subject to any and all easements for public utilities of record. The State warrants that such ordinances, restrictions, limitations and easements do not prevent the use of the Premises as provided for in the Facilities Lease.

14. **Waste and Nuisance Prohibited**: The Authority shall comply, during the term of this Site Lease, with all applicable laws affecting the Premises, the violation of which might result in any penalty assessed upon the State or forfeiture of the State's title to the Premises. The Authority shall not commit, or suffer to be committed, any waste on the Premises or improvements, or any nuisance.

15. **Remedies and Forbearance/Waivers**: No delay or omission on the part of the State or the Authority to exercise any right or power granted herein shall impair any such right or power nor shall be construed as a waiver thereof, and every such right or power may nevertheless be exercised.

16. **Officials, Agents, and Employees Not Personally Liable**: It is agreed that in no event shall any official, officer, employee or agent of the Authority, nor any official, officer, employee or agent of the State be in any way personally liable or responsible for any covenant or agreement herein contained, whether expressed or implied, nor for any statement, representation or warranty made herein or in any way connected with this Site Lease.

17. **Quiet Enjoyment**: The State covenants that the Authority shall have the peaceful and quiet enjoyment of the Premises for the term of the Site Lease.

18. **Right of Entry**: The Authority shall permit the State and the agents and employees of the State to enter into and upon the Premises at all reasonable times for the purpose of inspecting the same, or for the purpose of posting notices of non-responsibility for alterations, additions, or repairs, without any rebate of rent and without any liability to the Authority for any loss of occupancy or quiet enjoyment of the Premises thereby occasioned; provided, however, that the State shall first give twenty four (24) hours written notice of its desire to inspect the Premises and such inspection shall be accompanied by a designated representative of the Authority. Such notice and inspection procedures shall not apply during any term of the Facilities Lease.

19. **Default**: In the event the State shall at any time deem the Authority to be in breach of this Site Lease, the State shall promptly notify the Authority, in writing, stating specifically the nature of any such alleged breach. The Authority shall not be deemed to be in default hereunder unless the Authority fails to commence to cure any such default within ninety (90) calendar days after its receipt of such written notice and to diligently proceed to cure such default within a reasonable time. In the event of default the State shall have all rights and remedies provided by law.

20. **Attorney Fees and Costs**: In the event that either party to this Site Lease shall enforce any of the provisions hereof in any action at law or in equity the prevailing party to such litigation shall be entitled to recover from the other party or parties all costs and expenses, including reasonable attorney fees, incurred therein.

21. **Integration**: This Site Lease embodies the entire agreement and understanding of the parties relating to the subject matter herein and supersedes all prior understandings relating thereto. This Site Lease shall not be modified except in writing signed by all parties to be bound.

22. **Execution of Documents**: The parties agree that they shall sign or cause to be signed all documents necessary to the effectuation of this Site Lease or any of the provisions herein.

23. **Warranty of Title**: The State warrants to the Authority that it has the power and authority to enter into this Site Lease and that the execution, delivery of this Site Lease and the performance of the contractual obligations set forth herein are not in violation of any federal, state, or local statute, ordinance, rule or regulation and that no consents not already obtained are required. The State further warrants that the State has good and marketable title to Premises, free and clear of all claims, liens and encumbrances except as described in Exhibit A hereof.

24. **Notices**: All notices under this Site Lease shall be in writing and shall be deemed to have been duly given on the date of service if served personally on the party to whom notice is to be given, or on the date of mailing if mailed to the party to whom notice is to be given by registered or certified United States mail, postage prepaid, and properly addressed as follows:

If to the State:
Eastern Idaho Technical College
Attn: Office of the President
1600 S. 25th E.
Idaho Falls, ID 83404

with copy to:
Department of Administration
Attn: Director
Statehouse Mail
Boise, Idaho 83720

If to the Authority:
Idaho State Building Authority
Attn: Executive Director
Post Office Box 2802
Boise, Idaho 83701

The addresses provided above may be changed and additional addresses or notices may be specified from time to time by notice given in writing in accordance with this Section.

25. **Binding Effect**: This Site Lease shall be binding upon and shall inure to the benefit of the heirs, personal representatives, successors and assigns of the parties.

26. **Severability**: If any term or provision of this Site Lease or the application of it to any person or entity or circumstances shall to any extent be invalid or unenforceable, the remainder of

this Site Lease or the application of such term or provision to persons, entities or circumstances, other than those as to which it is invalid or unenforceable, shall not be affected thereby, and each term and provision of this Site Lease shall be valid and shall be enforced to the extent permitted by law.

27. **Headings**: Section headings contained herein are for convenience and reference and are not intended to define or limit the scope of any provisions of this Site Lease.

28. **Counterparts**: This Site Lease may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

29. **Time of the Essence**: Time is of the essence of this Site Lease, and of each and every covenant, term, condition, and provisions thereof.

30. **Recording Copy**: Either party may, at its option and expense, record this Site Lease.

[The remainder of this page has been intentionally left blank.]

IN WITNESS WHEREOF, the parties have caused this Site Lease to be executed effective as of the day and year first above written.

SITE LEASE – Page 9
I:\4400.000\Eastern Idaho Technical College (4400.035)\Site Lease 05.doc

EXHIBIT A
SITE LEASE

PREMISES DESCRIPTION

Parcel A (Building Site) – The exclusive right in and to the following described property:

Beginning at a point that is S00°16'52"W 618.33 feet along the section line and N89°43'08"W 665.93 feet from the East quarter corner of Section 21, Township 2 North, Range 38 East of the Boise Meridian Bonneville County, Idaho and running thence S00°11'28"W 388.48 feet; thence N89°45'07"W 303.39 feet; thence N00°18'44"E 388.61 feet; thence S89°43'41"E 302.57 feet to a point of beginning, containing 2.709 acres.

AND

Parcel B (Access Parcel) – The non-exclusive right to use the following described property for ingress and egress to Parcel A:

Beginning at a point that is S00°16'52"W 596.96 along the section line and N89°43'08"W 114.00 feet from the East quarter corner of Section 21, Township 2 North, Range 38 East of the Boise Meridian, Bonneville County, Idaho point of beginning also being on the West right of way line of Hitt road and running thence N89°43'03"W 51.85 feet to a point of a curve with a radius of 60.53 feet and a chord that bears S66°30'22"W 48.81 feet; thence to the left along said curve 50.24 feet thru a central angle of 47°33'09" to a point of a reverse curve with a radius of 5.00 feet and a chord that bears S66°30'04"W 4.03 feet; then to the right along said curve 4.15 feet thru a central angel of 47°32'32"; thence N89°43'41"W 451.72 feet; thence S00°11'28"W 28.26 feet; thence S89°43'41"E 457.93 feet to a point of a curve with a radius of 19.99 feet and a chord that bears N63°26'18"E 18.04 feet; thence to the left along said curve 18.72 feet thru a central angle of 53°40'02" to a point of a reverse curve with a radius of 32.27 feet and a chord that bears N63°26'23"E 29.14 feet; thence to the right along said curve 30.23 feet thru a central angle of 53°40'39"; thence S89°43'03"E 51.85 feet to said right of way line; thence N00°16'52"E 28.26 feet to the point of beginning.

Parcels A is subject to an option to purchase an easement to construct and operate a natural gas pipeline recorded October 1, 1957 and Parcel B is subject to two easements and right of way granted to City of Idaho Falls for construction and maintenance of a main or interceptor sewer recorded April 2, 1971 and May 14, 1971 respectively.

Parcels A and B are shown on the attached Concept Site Plan.

EXHIBIT B
SITE LEASE

EASTERN IDAHO TECHNICAL COLLEGE / HEALTH AND EDUCATION BUILDING

This project will provide a new facility for Nursing/Health Education programs on the campus of EITC. The building will provide a full range of instructional spaces including classrooms, laboratories, preparation rooms, offices, computer laboratories, and distance education facilities.

Approximate Total Square Footage: 40,000

EXHIBIT C: FACILITIES LEASE

FACILITIES LEASE
(Eastern Idaho Technical College Health Education Building)

THIS FACILITIES LEASE, made as of the 25th day of August, 2005, between the IDAHO STATE BUILDING AUTHORITY (the "Authority"), as lessor, and the STATE OF IDAHO (the "State"), acting through the IDAHO DEPARTMENT OF ADMINISTRATION ("IDOA") and EASTERN IDAHO TECHNICAL COLLEGE ("EITC"), with the consent and approval of the STATE BOARD FOR PROFESSIONAL-TECHNICAL EDUCATION, as lessee.

RECITALS

A. The Authority was created by the Idaho State Building Authority Act, Title 67, Chapter 64, Idaho Code, to finance, construct, and operate facilities for the purposes set forth in the Act; and

B. The Authority is empowered by the Act, among other powers, to acquire property; to enter into agreements with the State of Idaho or any agency, board, department or commission thereof for the financing of facilities; to provide for the acquisition, development, construction, reconstruction, improvement, alteration, maintenance, operation, or repair of facilities or parts thereof; and to lease such facilities as provided by the Act; and

C. In accordance with the provisions of Idaho Code, Section 67-6410(a), the Idaho Legislature, pursuant to Senate Concurrent Resolution No. 134, Second Regular Session of the Fifty-seventh Legislature, has authorized the IDOA and EITC to enter into agreements with the Authority as may be reasonable and necessary for the purpose of providing financing and development of educational facilities (defined herein as the "Facilities"), for use by EITC; and

D. Concurrently herewith, the Authority has leased the real property described in Exhibit A pursuant to the Site Lease, as defined hereinafter, as the site for the Facilities, and hereby agrees to lease the Facilities back to the State pursuant to this Facilities Lease; and

E. The Authority intends to finance the cost of acquisition of the Facilities and related costs by the issuance of bonds, notes or other evidences of indebtedness as authorized by the Act; and

F. The State and the Authority acknowledge that there shall be no merger of the State's leasehold interest in the Facilities and its ownership interest in the real property described in Exhibit A; and

G. The State will be responsible for the design and construction of the Facilities pursuant to the terms of the Development Agreement, as hereinafter defined, and will lease the Facilities from the Authority upon the terms and conditions set forth in this Facilities Lease.

NOW, THEREFORE, in consideration of the mutual promises, conditions, and covenants set forth herein, the parties agree:

ARTICLE 1
FINDINGS AND DECLARATION

Section 1.1 Findings: The Authority has found and declared, in accordance with Section 67-6410(c), Idaho Code, that the Facilities will be of public use and will provide a public benefit to the people of the State of Idaho.

Section 1.2 Declaration: The parties agree and acknowledge that the Recitals contained in this Facilities Lease are true and are incorporated into this Facilities Lease as if set forth in full. This Facilities Lease shall constitute the agreement of the Authority to provide the Facilities as required by Section 67-6410(b), Idaho Code.

ARTICLE 2
DEFINITIONS

The terms used herein shall have the following meanings:

Section 2.1 "**Act**" shall mean Chapter 64, Title 67, Idaho Code, as it now exists and as it may hereafter be amended and supplemented.

Section 2.2 "**Administrative Costs**" shall mean the Authority's expenses (including reasonable reserves for such expenses) for real property assessments, allocable administration and general expenses of the Authority, expenses for maintenance and repairs, insurance premiums, arbitrage rebate calculation expenses, utility charges, legal, financial, architectural and engineering expenses, fees and expenses of fiduciaries under the Bond Resolution, bond insurance, guaranty and/or letter of credit fees, interest and finance charges, and any other expenses or contingencies to be paid or provided for by the Authority, all to the extent properly attributable to the Facilities and payable by the Authority. Administrative Costs shall not include any Cost of Acquisition and Construction or any provision for depreciation, amortization or similar charges or any expenses for maintenance and repairs, utility services or insurance paid for or provided by the State pursuant to this Facilities Lease.

Section 2.3 "**Annual Rent**" shall mean, with respect to the initial term of this Facilities Lease and each renewal term thereof, the Basic Rent and Additional Rent determined in accordance with Article 6 hereof due and payable by the State to the Authority with respect to the Facilities for such lease term.

Section 2.4 "**Authority**" shall mean the Idaho State Building Authority, an independent public body corporate and politic of the State of Idaho, created by and existing under the Act.

Section 2.5 "**Bonds**" shall mean the portion of any bond or bonds, note or notes, or other evidences of indebtedness issued by the Authority for the purpose of financing the Cost of Acquisition and Construction and bonds or notes issued to refinance all or any part thereof and any bonds or notes issued to finance any additions, modifications or replacements of the Facilities from time to time hereafter.

Section 2.6 "**Bond Resolution**" shall mean the resolution or resolutions of the Authority, as amended and supplemented, authorizing the issuance of Bonds.

Section 2.7 "**Code**" means the Internal Revenue Code of 1986, as amended, regulations thereunder and rulings and judicial decisions interpreting or construing the Code.

Section 2.8 "**Cost of Acquisition and Construction**" shall mean any proper and reasonable cost, whether or not specifically mentioned herein, of the lease, development and design and construction of the Facilities and furniture, fixtures, machinery, apparatus and equipment therefore; of engineering and architectural services, designs, plans, specifications and surveys; of planning, analysis, project management, administration, inspection and similar services in connection with the Facilities; of acquisition or lease of any land or interest therein for use in connection therewith; of preparation of the sites thereof and of any land to be used in connection therewith; of any indemnity and surety bonds and insurance premiums; of allocable administrative and general expenses of the Authority; of allocable portions of legal fees, audits, fees and expenses of any trustees, depositories and paying agents, financial advisors, underwriters and others for the Bonds; of issuance of the Bonds and interest thereon and other financing charges, and of fees and expenses of other advisors and consultants necessary or appropriate in connection therewith; of the payment of any Bonds of the Authority (including any interest and redemption premiums) issued to temporarily finance the payment of any item or items of cost of the Facilities; of expenses necessary or incidental to determining the feasibility or practicability of the Facilities; and of all other reasonable expenses not specified herein as may be necessary or incidental to the development, design, construction and acquisition of the Facilities, the financing thereof, and the placing of the same in use and operation.

Section 2.9 "**Development Agreement**" shall mean an agreement entered into between the Authority and the State whereby the State agrees to complete the design and construction of the Facilities satisfactory to the Authority and to convey ownership of the Facilities to the Authority as the design and construction progresses.

Section 2.10 "**Facilities**" shall mean the Authority's interest in the real property described in Exhibit A attached hereto created by the Site Lease together with all easements and rights appurtenant thereto together with all improvements located thereon and improvements to be constructed thereon described in Exhibit B, together with all equipment, furniture, fixtures, improvements, and appurtenances designed, constructed or installed thereon by or for the Authority.

Section 2.11 **"Facilities Lease"** shall mean this Facilities Lease, including any amendments or supplements thereto.

Section 2.12 **"Fiscal Year"** shall mean the twelve-month period of each year beginning July 1 and ending on the following June 30.

Section 2.13 **"Site Lease"** shall mean the Site Lease entered into between the Authority and the State of Idaho acting by and through EITC coincidentally herewith, containing the terms and conditions of the lease of real property and easements, described in Exhibit A, to the Authority.

ARTICLE 3
LEASE OF PROJECT; TERM OF LEASE

Section 3.1 **Lease of Facilities:** The Authority hereby leases the Facilities to the State for use in furtherance of the public benefit, and the State hereby leases the Facilities from the Authority on the terms and conditions set forth herein.

As affects this Facilities Lease, EITC shall have the primary responsibility to act on behalf of the State in all respects pertaining to the obligations of the State under this Facilities Lease. The State hereby authorizes EITC to act as its representative and agent in all respects pertaining to this Facilities Lease, and the State shall be fully bound by all acts, authorizations, representations and decisions of EITC, except as otherwise expressly provided in this Facilities Lease.

Section 3.2 **Term of Lease:** This Facilities Lease shall be in full force and effect from the effective date hereof. The initial term of this Facilities Lease shall extend from the effective date hereof through June 30, 2007. The State shall have the option to renew this Facilities Lease in accordance with the provisions hereof for successive terms concurrent with and equal to succeeding Fiscal Years thereafter and each such renewal of this Facilities Lease shall be deemed to be exercised, automatically and without further action by the State, unless the State shall notify the Authority in writing of its intent not to renew this Facilities Lease not later than ten (10) months prior to the expiration of any lease term; provided, however, no term of this Facilities Lease shall extend beyond the term of the Site Lease.

ARTICLE 4
ACQUISITION, DEVELOPMENT AND FINANCING

Section 4.1 Acquisition and Development of Facilities: The Authority agrees to acquire real property and parking for use as the site of the Facilities by the Site Lease entered into coincidentally herewith. Pursuant to the terms of the Site Lease, the Authority will own fee title to the improvements constructed thereon as provided in the Development Agreement entered into coincidentally herewith. This Facilities Lease and the rights, title and interest of the State in this Facilities Lease and the Facilities shall be subject to the interests of the Authority in the real property and parking acquired therefor.

Section 4.2 Financing of Facilities by the Authority: The Authority agrees to finance the Cost of Acquisition and Construction of the Facilities by issuance of Bonds as authorized by the Act. The Authority may from time to time refinance or refund such Bonds as the Authority may deem appropriate; provided the Authority shall not refinance or refund such Bonds without the written consent of the State if to do so would increase the Basic Rent due hereunder. The Authority shall give written notice to the State of its intent to refinance or refund such Bonds.

Section 4.3 Bond Anticipation Notes: The Authority may issue bond anticipation notes payable from proceeds of Bonds.

ARTICLE 5
USE OF FACILITIES

Section 5.1 Use of Facilities: The State agrees that the Facilities shall be used by EITC and such other institutions, departments and agencies of the State as deemed necessary or appropriate by the State. With the written consent of the Authority, which shall not be unreasonably withheld, the State may enter into agreements with other entities ("Non-State Entities") for the operation and/or maintenance of the Facilities or for the use or occupancy of portions of the Facilities by Non-State Entities upon the following conditions:

(a) the nature and extent of the proposed agreements with Non-State Entities will not adversely affect the tax-exempt status of the Bonds; and

(b) such proposed users or uses shall be compatible with and complimentary to the interests in and uses of the Facilities by the State; and

(c) the nature and extent of the proposed uses of the Facilities conforms to policies relating to permitted uses of the Facilities adopted by the Board of Commissioners of the Authority.

ARTICLE 6
RENT

Section 6.1 **Payment of Annual Rent:** In consideration of the lease of the Facilities, the State shall pay to the Authority, in advance and without any set off or deduction whatsoever, the following Annual Rent:

(1) For the period of the initial term of this Facilities Lease in the Fiscal Year ending June 30, 2007, the State shall pay no Annual Rent.

(2) For the renewal term of this Facilities Lease commencing July 1, 2007 and for each annual renewal term thereafter, the State shall, within 30 calendar days following the commencement of such renewal terms, pay in advance:

(a) As and for Basic Rent, an amount for such term which shall equal the principal installments, including sinking fund deposits, and interest payable in the corresponding Fiscal Year in accordance with the Bond Resolution with respect to the Bonds; and

(b) As and for Additional Rent as follows:

(i) the amount estimated by the Authority to be sufficient to provide the Authority with adequate monies to pay all Administrative Costs attributable to the Facilities for the applicable term of this Facilities Lease, plus

(ii) any amount payable as rebate or other sums payable with respect to the bonds and the amount, if any, of deposits to any debt service reserve account, any operating fund, and any other reserve or expense accounts required to meet all terms and conditions of the Bond Resolution. The Authority will provide to the State an estimate of Administrative Costs which shall accompany its statement for Additional Rent.

(3) Annual Rent payable for any renewal term shall not be deferred or abated because of delays in completion of the construction of the Facilities or delays in completion of any repair or replacement of damage to the Facilities.

(4) Any installment of Annual Rent which is not paid by the State on or before the due date thereof shall, from and after said due date, bear interest until paid at the highest rate per annum borne by any of the Bonds then outstanding; time being of the absolute essence of this obligation.

(5) The Authority and the State hereby agree that the Basic Rent in any lease term shall be reduced by any amounts on deposit with the Authority legally available for and allocated by the Authority to the payment of principal and interest on the Bonds, including without limitation capitalized interest deposited from the proceeds of the Bonds and funds on deposit in the debt service

account established under the Bond Resolution. Basic Rent shall be increased or decreased as appropriate to reflect the issuance by the Authority of Bonds bearing interest at variable rate and issuance of any additional Bonds issued to refinance the Facilities, in whole or in part, or any additional Bonds issued for the purposes set forth in Section 9.1 hereof or issued to finance additions, modification or replacement of the Facilities or any part thereof.

(6) Annual Rents shall be payable in lawful money of the United States of America, which shall be legal tender for public and private debts under the laws of the United States at the time of payment, provided that, upon prior written approval of the Authority, the State may transfer funds through electronic funds transfer. Payment shall be made at the office of the Authority or such other place or places as may be designated in writing by the Authority.

(7) The State and the Authority have agreed and determined that such Annual Rent represents the fair market rental value of the Facilities. In making such determination, consideration has been given to the Cost of Acquisition and Construction, and the costs of financing of the Facilities and the Administrative Costs thereof, and the uses and purposes of the Facilities which will accrue to the State and the Authority and the general public by reason of the use and occupancy thereof by the State and ownership by the Authority.

(8) The parties agree that the Annual Rent hereunder constitutes ordinary operating expense of the State within the provisions of Article VIII Section 1 of the Idaho Constitution.

Section 6.2 **Application of Rent:** The Authority covenants to use and apply Annual Rent to payment of debt service of the Bonds, Administrative Costs, deposits to required reserve accounts and other appropriate purposes pertaining to the Facilities and/or the Bonds.

ARTICLE 7
OPERATION AND MAINTENANCE OF THE FACILITIES

Section 7.1 **Operation, Repairs, and Maintenance:** The State shall, throughout the term of this Facilities Lease and each renewal term thereof, at the State's cost and expense, keep and maintain or cause to be kept and maintained, the Facilities and all equipment, fixtures, additions and improvements thereof, in good order and condition, and shall, at the State's cost and expense, make or cause to be made all necessary repairs, renewals, and replacements with respect to the Facilities. To the extent repairs or replacements are insured under policies maintained by the Authority and insurance proceeds are paid to the Authority, the State shall be entitled to such insurance proceeds to the extent of the actual costs incurred by the State and except to the extent the insurance proceeds are required to be otherwise applied in accordance with the terms of the Bonds. Subject to Section 10.1, in the event the Facilities or any part thereof are damaged or destroyed by uninsured or partially uninsured casualty of any kind, the State shall either replace or rebuild the Facilities in equal value, or pay such sums to the Authority as may be required to fully pay and discharge the Bonds.

Section 7.2 **Utilities:** The State shall pay or cause to be paid all costs, expenses and charges for water, electricity, lights, heat, power, sewage, telephone, and other utility services, rendered or supplied upon or in connection with the Facilities during the term of this Facilities Lease and each renewal term.

Section 7.3 **Insurance:**

(1) The State shall maintain or cause to be maintained with responsible insurers or under an established program of self-insurance (as considered to be adequate by an Insurance Consultant as may be engaged by the Authority) the following kinds and amounts of insurance acceptable to the Authority with respect to all existing buildings, improvements, equipment and other property comprising any part of the Facilities and/or the use of the Facilities at all times throughout the initial term and each renewal term of this Facilities Lease:

(a) Commercial general liability insurance (CGL) and, if necessary, commercial umbrella insurance and property damage liability, and errors and omissions liability as shall afford protection to the Authority in an amount of not less than $1,000,000 for each occurrence. The commercial general liability insurance shall cover liability arising from premises, operations, independent contractors, product-completed operations, personal injury and advertising injury, and liability assumed under an insured contract. Such insurance shall protect the Authority to the same extent as the State is protected from claims, demands, causes of actions, penalties, including costs and attorney fees, arising out of the use or occupancy of the Facilities. Upon written request of the Authority, the State will increase the amount of the CGL insurance to an amount determined by the Authority if, in the opinion of the Authority and based on local standards, the amount of the CGL insurance is not adequate.

(b) Commercial property insurance and, as applicable, course of construction insurance, in the amount of the full replacement value of the Facilities or any portion thereof, including fixtures, equipment, lessee improvements and betterments. Commercial property insurance shall, at a minimum, cover the perils insured under the ISO special causes of loss form CP 1030 and, if reasonably available, earthquake and flood insurance, debris removal, operation of building laws, extra expense, consequential loss, loss of rents and/or business interruption. Such loss of rents or business interruption insurance shall be in an amount equal to Annual Rent payable to the Authority by the State with respect to the Facilities during such time or times as the use of the Facilities may be totally or partially interrupted or the construction thereof delayed as a result of damage or destruction resulting from perils insured against pursuant to this subsection (1)(b).

(c) Worker's Compensation Insurance in the amount and in the form which the State is required by law to maintain.

(d) Any other insurance agreed to in writing by the State and the Authority.

(e) Any other insurance required by the terms and conditions of the Bonds.

(2) All insurance procured and any self-insurance plan maintained by the State shall comply with the following requirements:

(a) Each policy or policies of insurance shall be written by insurance companies authorized to do business in the state of Idaho and furnished through an insurance carrier or carriers satisfactory to the Authority or through a self-insurance plan satisfactory to the Authority and an Insurance Consultant pursuant to the Bond Resolution.

(b) True, correct and complete copies of all insurance policies or self-insurance plan and all endorsements, changes, amendments and supplemental provisions thereto shall be continually maintained by the State and shall be available for inspection and copying by the Authority at all times during the State's regular office hours.

(c) All such insurance shall provide that coverage shall not be canceled or amended except upon sixty (60) calendar days prior written notice to the Authority. The Authority shall be furnished current certificates upon the commencement of the initial term and each renewal term of this Facilities Lease showing that all such insurance fully complies with the terms of this Facilities Lease, and current certificates shall be furnished at any other time or times as may be reasonably requested.

(d) All policies of insurance obtained by and any self-insurance plan maintained by the State shall include provisions that coverage shall not be affected, reduced or waived by any inaccurate or misleading statement or information furnished by the State in obtaining such insurance nor shall insurance under such policies furnished to the Authority be reduced by any actual or alleged breach of warranties made by the State in obtaining such insurance. All liability insurance furnished by the State shall include insurance covering the obligations of the State under Article 8 of this Facilities Lease.

(3) The Authority and the State hereby release each other from any and all liability or responsibility to the other as to any person claiming through or under either by way of subrogation or otherwise for any loss or damage to property caused by any casualty insured by the above-described coverages, even if the loss is caused by the fault or negligence of the other party or by any party for whom the other party is responsible.

(4) All insurance provided to the Authority by the State pursuant to this Facilities Lease shall name the Authority as additional named insured and contain a loss payable clause providing for payment of proceeds to the Authority and the trustee of the Bonds to the extent of their interest therein, and the Annual Rent otherwise payable by the State with respect to the Facilities shall be reduced by the amount of business interruption or loss of rents insurance payments, if any, made to the Authority and/or the trustee of the Bonds.

(5) In the event the Authority is able to procure any or all of the insurance coverages herein required at a cost less than the cost incurred by the State thereof, the Authority agrees to do so and the cost thereof shall be included as Administrative Costs of the Authority. In such event the obligation of the State to provide any such insurance shall continue until the insurance coverage procured by the Authority is actually in effect. Upon the expiration or termination of any insurance procured by the Authority hereunder, the State shall immediately, without any interruption in insurance coverage, procure and maintain such coverage.

ARTICLE 8
INDEMNITY

Section 8.1 State's Indemnification: The State hereby agrees to defend, protect, hold harmless and indemnify the Authority and its agents, employees, representatives, successors, and assigns, against all demands, claims, liabilities, causes of action or judgments, and all loss, expense and damage of any and every sort and kind, including, but not limited to, costs of investigations and attorneys' fees and other costs of defense, for:

(1) injury to person or property occurring in, upon or about the Facilities or any adjacent or related real property or improvements owned, occupied or controlled by the State or any of its agencies, departments, bureaus or subgovernmental entities;

(2) injury to person or property arising out of the use or occupancy of the Facilities or relating in any manner to operations conducted thereon;

(3) any other premises liability relating to the Facilities;

(4) any loss to person or property to the extent of its self-insurance, if any; and

(5) all liability whatsoever arising out of any public or governmental activities of the State of any kind or nature whatsoever relating to the Facilities or this Facilities Lease.

Nothing in this Article 8 shall be construed as the agreement of the State to indemnify the Authority from liability for damages arising out of personal injury or damage to property caused solely and exclusively by the negligence or malfeasance of the Authority.

The obligations under this Section are deemed to be ordinary operating expenses of the State within the provisions of Article VIII Section 1 of the Idaho Constitution.

Section 8.2 Authority's Indemnification: The Authority hereby agrees to defend, indemnify and save the State harmless from and against any and all liability, loss, damage, cost and expense, including court costs and attorney fees of whatever nature or type, whether or not litigation is commenced, that the State may incur, by reason of any act or omission of the Authority, its employees or agents or any breach or default of the Authority in the performance of its obligations under this Facilities Lease. The foregoing indemnity shall not apply to any injury, damage or other claim resulting solely from the act or omission of the State.

ARTICLE 9
ALTERATIONS, ADDITIONS, AND IMPROVEMENTS

Section 9.1 Alterations, Additions, and Improvements: The State shall have the right, at any time and from time to time during the term of this Facilities Lease, at the State's costs and expense, to make such, alterations, additions, expansions and improvements, to the Facilities, as the State shall deem necessary or desirable in connection with its use of the Facilities. Notwithstanding the foregoing, the State shall not make any alterations, additions, expansions or improvements which are structural or will lessen the market value of the Facilities without the prior written consent of the Authority which shall not be unreasonably withheld.

Once commenced, all alterations, additions, expansions and improvements shall be diligently pursued to completion. All such alterations, additions and improvements shall be of such character as to not reduce or otherwise adversely affect the value of the Facilities or the rental value thereof and all the costs thereof shall be promptly paid or discharged so that the Facilities shall at all times be free of liens or claims for labor and materials supplied thereto. All, alterations, additions, fixtures and permanent improvements to the Facilities shall be and become a part of the Facilities and shall become the property of the Authority.

Section 9.2 Furniture, Fixtures, and Equipment: The State shall maintain an inventory of all furniture, fixtures, and equipment and other tangible personal property financed or provided by the Authority as part of the Facilities and shall have the right to replace, at its expense, such tangible personal property as the State shall deem necessary or desirable in connection with its use of the Facilities. The State shall, upon request but in no event more than once per year, provide to the Authority an inventory of furniture, fixtures, and equipment in use at the Facilities provided by the Authority with the Facilities.

ARTICLE 10
DAMAGE, DESTRUCTION, AND CONDEMNATION

Section 10.1 Damage, Destruction, and Condemnation: In the event of damage, destruction, or condemnation of the Facilities, or any part thereof, the net proceeds of any insurance or condemnation awards with respect to the Facilities and, to the extent necessary, the proceeds of any additional Bonds which may be issued by the Authority for such purpose pursuant to the terms and conditions of the Bonds, shall be used and applied by the Authority in accordance with the terms of the Bonds to repair, restore, rebuild, or replace the Facilities; provided, however, that, in the event of total or substantial destruction or condemnation of the Facilities or in the event that the aforesaid insurance proceeds, condemnation awards, and proceeds of Bonds are not sufficient to repair, restore, rebuild, or replace the Facilities, the Authority may elect not to repair, restore, rebuild, or replace the Facilities, in which case the net proceeds of all insurance and condemnation awards, together with all other available funds, shall be applied in accordance with the terms of the Bonds. Any such repair, restoration, rebuilding, or replacement of the Facilities may be in accordance with such different design, plans, and specifications approved by the State as will or may provide facilities of the same or different nature or use, so long as any such change therein or thereof shall not reduce or otherwise adversely affect the value of the Facilities or the rental value thereof. In consideration of the Authority proceeding with the repair, restoration, rebuilding, or replacement of the Facilities as above provided, the State shall continue to pay the Annual Rent due under this Facilities Lease, except to the extent the Authority actually receives proceeds of business interruption or loss of rents insurance described in Section 7.3 hereof.

ARTICLE 11
PARTICULAR COVENANTS

Section 11.1 Compliance with Laws and Regulations: The State shall, at its own cost and expense, promptly comply with, or cause to be complied with, all applicable laws and ordinances, rules, regulations and other governmental requirements, whether or not the same require structural repairs or alterations, which may be applicable to the State, the Facilities or the use or manner of use of the Facilities. The State shall also observe and comply with the requirements of all policies and arrangements of insurance at any time in force with respect to the Facilities.

Section 11.2 Covenant Against Waste: The State covenants not to do or suffer or permit to exist any hazardous materials, contamination, waste, damage, disfigurement or injury to, or public or private nuisance, in or upon the Facilities in violation of any State of Idaho or federal laws or regulations and agrees to pay all costs, changes, penalties or any other expense reasonably incurred or to be incurred to remove, restore or reclaim the Facilities or premises thereof.

Section 11.3 Right of Inspection: The State covenants and agrees to permit the Authority and the authorized agents and representatives of the Authority to enter the Facilities at reasonable times during usual business hours for the purpose of inspecting the same, subject to reasonable security requirements and procedures of the State.

Section 11.4 Condition of Facilities: The Authority makes no representation regarding the condition of the Facilities or real property underlying or adjacent thereto and the Authority shall not be liable for any latent or patent defects therein.

Section 11.5 Assignment and Subletting: The State shall not assign or mortgage this Facilities Lease or any right hereunder or interest herein and shall not sublease the Facilities or any portion thereof, without prior written consent of the Authority (which consent may be granted or withheld by the executive director of the Authority); provided, that in no event shall the State assign this Facilities Lease or any right hereunder or interest herein or sublease the Facilities or any portion thereof unless the State shall continue to remain liable for the performance of all the terms, covenants, and conditions contained in this Facilities Lease and unless the proposed assignee or sublessee shall agree, in writing, to be bound by all of the terms, covenants, and agreements contained in this Facilities Lease and all other agreements related thereto. The Authority agrees that it will not unreasonably withhold its consent to any such assignment or subleasing.

Section 11.6 Covenant of Quiet Enjoyment: The Authority covenants that it has full right and lawful authority to enter into this Facilities Lease and that, so long as the State shall pay the Annual Rent and shall duly observe all of its covenants and agreements in this Facilities Lease, the State shall have, hold, and enjoy, during the initial term of this Facilities Lease and each renewal term thereof, peaceful, quiet, and undisputed possession of the Facilities. No defect, encumbrance, cloud, lease, restriction or other matter affecting title to the land on which the Facilities shall be developed existing at the time the land is acquired or leased to the Authority or to which this Facilities Lease is subrogated to shall constitute a breach of this Facilities Lease by the Authority.

Section 11.7 Tax Covenant: The State covenants for the benefit of the holders of the Bonds and the Authority that during the term of this Facilities Lease, that no action shall be taken or omitted with respect to the Bonds, the proceeds thereof, any other funds of the State or any Facilities financed or refinanced with the proceeds of the Bonds if such action or omission (i) would cause the interest on the Bonds to lose its exclusion from gross income for federal income tax purposes under Section 103 of the Code, (ii) would cause the Bonds to become "specified private activity bonds" with the meaning of Section 57(a)(5)(C) of the Code, (iii) would cause interest of the Bonds to lose its exclusion from Idaho taxable income under present Idaho law, or (iv) would otherwise violate the conditions and representations set forth in the Tax Certificate delivered at the closing of the Bonds. The foregoing covenant shall remain in full force and effect notwithstanding the payment in full or defeasance of the Bonds until the date on which all obligations of the Authority in fulfilling the above covenant under the Code have been met.

ARTICLE 12
DEFAULT

Section 12.1 Events of Default: The following shall be events of default under this Facilities Lease:

(1) Failure by the State to pay the Annual Rent as the same shall become due, or

(2) Failure by the State or anyone contracting with the State to observe and perform any other covenant, condition, or agreement to be observed or performed under this Facilities Lease for a period of 90 calendar days after written notice, specifying such failure and requesting that it be remedied, given to the State by the Authority or trustee of the Bonds, unless the Authority or trustee shall agree in writing to an extension of such time prior to its expiration.

Section 12.2 Remedies: Whenever any event of default referred to in Section 12.1 hereof shall occur, the Authority may take any one or more of the following remedial steps:

(1) Declare all Annual Rent payable for the applicable lease term then in effect to be immediately due and payable, together with applicable interest thereon.

(2) Re-enter and take possession of the Facilities, exclude the State from possession thereof, and terminate this Facilities Lease.

(3) Take such action at law or in equity as may appear necessary or desirable to collect all sums due and thereafter to become due, or to enforce performance and observation of any obligation, agreement, or covenant of the State under this Facilities Lease.

Section 12.3 Remedies Not Exclusive: No remedy herein conferred upon or reserved to the Authority is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Facilities Lease, or now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In the exercise of any remedy reserved to the Authority in this Article 12, it shall not be necessary to give any notice, other than such notice as may be herein expressly required.

ARTICLE 13
SURRENDER OF FACILITIES

Section 13.1 Surrender of Facilities: In the event that the State elects not to renew or extend the term of this Facilities Lease or this Facilities Lease is otherwise terminated, the State shall immediately quit and surrender the Facilities to the Authority in the same condition in which it existed at the date the construction of all Facilities was completed by the Authority, subject to any alterations, additions, expansions or improvements made in accordance with Section 9.1 hereof, ordinary wear and tear excepted.

ARTICLE 14
LIMITATION ON OBLIGATIONS

Section 14.1 Obligations of Authority and State: Notwithstanding any other provisions of this Facilities Lease, no obligation assumed by or imposed upon the Authority by this Facilities Lease shall require the performance of any act by the Authority except to the extent, if any, that the cost and expense of such performance may be paid from the proceeds of the Bonds issued by the Authority or from other funds legally available to the Authority to meet the cost and expense of such performance, and no obligation assumed by or imposed upon the State by this Facilities Lease shall require the performance of any act by the State, including, but not limited to, the payment of Annual

Rent, except to the extent that funds may be available for such performance or payment from State general appropriations or other funds legally available therefor. This Facilities Lease shall not be construed as obligating the Legislature of the State of Idaho to make future appropriations for the payment of Annual Rent or the performance of any other obligations under this Facilities Lease beyond the initial rental term or for any renewal term hereof. In the event that appropriated funds are not legally available for payment of Annual Rent or other obligations hereunder for any term, then this Facilities Lease shall be terminated. The liability of the State for payment of Annual Rent as it becomes due shall be in consideration of the right of the State, whether or not exercised, to occupy and/or use the Facilities for the then-current lease term.

ARTICLE 15
MISCELLANEOUS

Section 15.1 Pledge of Rent, Proceeds, and Lease: It is expressly understood and agreed by the parties hereto that the Authority has the right to pledge and assign the Annual Rent, all proceeds receivable by the Authority from any sale of the Facilities, and its rights and interest under this Facilities Lease to secure: (i) the payment of the principal of and the interest on and redemption premium, if any, on the Bonds; and (ii) other obligations of the Authority under the terms and conditions of the Bonds.

Section 15.2 Notices: All notices or other communications hereunder shall be sufficiently given and shall be deemed given on the second business day following the day on which the same are mailed by certified mail, postage prepaid, addressed as follows:

(1) If to the State:

Idaho Department of Administration
Attn: Director
Statehouse Mail
Boise, Idaho 83720

AND

Eastern Idaho Technical College
Attn: Office of the President
1600 S. 25th E.
Idaho Falls, Idaho 83404

(2) If to the Authority:

Idaho State Building Authority
Attn: Executive Director
Post Office Box 2802
Boise, Idaho 83701

The State or the Authority may, by notice given hereunder, designate any further or different addresses to which subsequent notices or other communications shall be sent. Notice may be also given by personal delivery of a written notice.

Section 15.3 Severability: If any term or provision of this Facilities Lease or the application of it to any person, entity or circumstance shall to any extent be invalid or unenforceable, the remainder of this Facilities Lease or the application of such term or provision to persons, entities or circumstances, other than those as to which it is invalid or unenforceable, shall not be affected thereby, and each term and provision of this Facilities Lease shall be valid and shall be enforced to the extent permitted by law.

Section 15.4 Attorney Fees: In the event any party to this Agreement is required to initiate or defend litigation with respect to the terms hereof or to enforce any of its rights hereunder, the prevailing party in such litigation shall be entitled to reasonable attorney's fees incurred in such litigation, including all discovery costs and costs of expert witnesses, together with all reasonable litigation expenses.

Section 15.5 Headings: The article and section headings contained herein are for convenience and reference and are not intended to define or limit the scope of any provision of this Facilities Lease.

Section 15.6 Counterparts: This Facilities Lease may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

Section 15.7 Amendments: The Authority and the State shall not, without the written consent of the trustee of the Bonds or other legally-authorized representative of the interests of the owners of the Bonds, consent or agree to or permit any rescission of or amendment to or otherwise take any action under or in connection with this Facilities Lease which will reduce the payments required to be made by the State hereunder during the initial term or any renewal term hereof, or which will in any manner materially impair or adversely affect the rights of the Authority hereunder, and any action by the Authority or the State in violation of this covenant shall be null and void as to the Authority and the State. Furthermore, any voluntary amendment, modification or termination of this Facilities Lease shall require the written consent of all parties to this Facilities Lease.

Section 15.8 Effective Date: This Facilities Lease shall be effective as of the date stated above upon its execution.

[The remainder of this page has been intentionally left blank.]

IN WITNESS WHEREOF, the parties hereunto have caused this Facilities Lease to be executed as of the day and year first hereinabove set forth.

EXHIBIT A
FACILITIES LEASE

PREMISES DESCRIPTION

Parcel A (Building Site) – The exclusive right in and to the following described property:

Beginning at a point that is S00°16'52"W 618.33 feet along the section line and N89°43'08"W 665.93 feet from the East quarter corner of Section 21, Township 2 North, Range 38 East of the Boise Meridian Bonneville County, Idaho and running thence S00°11'28"W 388.48 feet; thence N89°45'07"W 303.39 feet; thence N00°18'44"E 388.61 feet; thence S89°43'41"E 302.57 feet to a point of beginning, containing 2.709 acres.

AND

Parcel B (Access Parcel) – The non-exclusive right to use the following described property for ingress and egress to Parcel A:

Beginning at a point that is S00°16'52"W 596.96 along the section line and N89°43'08"W 114.00 feet from the East quarter corner of Section 21, Township 2 North, Range 38 East of the Boise Meridian, Bonneville County, Idaho point of beginning also being on the West right of way line of Hitt road and running thence N89°43'03"W 51.85 feet to a point of a curve with a radius of 60.53 feet and a chord that bears S66°30'22"W 48.81 feet; thence to the left along said curve 50.24 feet thru a central angle of 47°33'09" to a point of a reverse curve with a radius of 5.00 feet and a chord that bears S66°30'04"W 4.03 feet; then to the right along said curve 4.15 feet thru a central angel of 47°32'32"; thence N89°43'41"W 451.72 feet; thence S00°11'28"W 28.26 feet; thence S89°43'41"E 457.93 feet to a point of a curve with a radius of 19.99 feet and a chord that bears N63°26'18"E 18.04 feet; thence to the left along said curve 18.72 feet thru a central angle of 53°40'02" to a point of a reverse curve with a radius of 32.27 feet and a chord that bears N63°26'23"E 29.14 feet; thence to the right along said curve 30.23 feet thru a central angle of 53°40'39"; thence S89°43'03"E 51.85 feet to said right of way line; thence N00°16'52"E 28.26 feet to the point of beginning.

Parcels A is subject to an option to purchase an easement to construct and operate a natural gas pipeline recorded October 1, 1957 and Parcel B is subject to two easements and right of way granted to City of Idaho Falls for construction and maintenance of a main or interceptor sewer recorded April 2, 1971 and May 14, 1971 respectively.

Parcels A and B are shown on the attached Concept Site Plan.

EXHIBIT B
FACILITIES LEASE

EASTERN IDAHO TECHNICAL COLLEGE / HEALTH AND EDUCATION BUILDING

This project will provide a new facility for Nursing/Health Education programs on the campus of EITC. The building will provide a full range of instructional spaces including classrooms, laboratories, preparation rooms, offices, computer laboratories, and distance education facilities.

Approximate Total Square Footage: 40,000

QUITCLAIM DEED

FOR VALUABLE CONSIDERATION RECEIVED, the STATE OF IDAHO, acting by and through the STATE BOARD OF EDUCATION, acting in its capacity as the BOARD FOR CAREER TECHNICAL EDUCATION, the Grantor, does hereby REMISE, RELEASE and forever QUITCLAIM, unto the COLLEGE OF EASTERN IDAHO, the Grantee, whose current address is 1600 S. 25th East, Idaho Falls, ID 83404, all of Grantor's right, title and interest in and to the following described property, to-wit:

SEE EXHIBIT "A" attached hereto and incorporated by this reference

SUBJECT TO all existing easements, rights-of-way, reservations, restrictions and encumbrances of record, to any existing tenancies, to all zoning laws and ordinances, and to any state of facts an accurate survey or inspection of the premises would show and to the restriction on Grantee's use of the Property as set forth herein.

SUBJECT FURTHER TO the Site Lease recorded November 4, 2005 as Instrument Number 1204956, records of Bonneville County, Idaho.

SUBJECT FURTHER TO the right of the State of Idaho to reserve easements for access and utility services, as it determines necessary as required by the Site Lease recorded November 4, 2005 as Instrument Number 1204956, records of Bonneville County, Idaho.

This conveyance shall include any and all estate, right, title, interest, appurtenances, tenements, hereditaments, reversions, remainders, easements, rents, issues, profits, rights-of-way and water rights in anywise appertaining to the property herein as described as well in law as in equity.

In construing this Deed and where the context so requires, the singular includes the plural and the masculine, the feminine and neuter.

IN WITNESS WHEREOF, the Grantor has hereunto subscribed its name to this instrument this _____ day of _____________, 2018.

GRANTOR:

COLLEGE OF SOUTHERN IDAHO

SUBJECT

Bachelor of Arts in Education

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section III.G
Section 33-107(8) and Section 33-2107A, Idaho Code

ALIGNMENT WITH STRATEGIC PLAN

The proposed Bachelor of Arts in Education aligns with the State Board of Education's Idaho K-20 Public Education Strategic Plan for FY2019 through 2024. There is strong evidence from the field that many of our students are place-bound and have limited financial resources. According to the College of Southern Idaho's Office of Institutional Research, 61.4 percent of our students qualify for a Pell grant.

"Place still matters; in fact, the majority -57.4 percent- of incoming freshman attending public four-year colleges enroll within 50 miles from their permanent home." Education Deserts: The Continued Significance of "Place" in the Twenty-First Century

Goal 2 (Educational Attainment), Objective C (Access). The proposed Bachelor of Arts in Education is accessible to all Idaho students but particularly benefits the students in Region IV who may be place-bound and need **access** to affordable tuition. The proposed degree allows for **re-integration of adult learners, including veterans**, into the education system because of the **shortened time to completion** (3 years), **affordable tuition**, and the ability to remain close to home and family.

Goal 2 (Educational Attainment), Objective A (Workforce Alignment). Teacher education is a workforce initiative, and Region IV has experienced multi-year and severe teacher shortages (2017 Teacher Pipeline Report). In this regard, teacher preparation at the baccalaureate degree level responds specifically to the community college mission to train the workforce in a critical area.

BACKGROUND/DISCUSSION

The College of Southern Idaho (CSI) is responding to a workforce need in its area of service, Region IV. The 2017 Teacher Pipeline Report demonstrates the circumstances existing in Region IV regarding a teacher shortage. All traditional education programs in the state, combined, produce an average of 846 completers per year who qualify for Idaho teacher certification. Based upon the growth in our region combined with the average attrition rate, Region IV has a need for 370 teachers annually or 44% of the total number of teachers produced across Idaho. Over the last five years, CSI has graduated 283 Associate of Arts in Education with only 49 completing a Bachelor's degree (2017 Teacher Pipeline Report). The impact to the school districts in Region IV is crippling. According to the 2017 Teacher Pipeline Report 42.56% of Region IV schools fell into the categories of "Could not fill all vacancies and had to or anticipate having to hire non-certified staff," the highest percentage in the state. There are prompts from stakeholders, school districts, legislators, superintendents, and students within our region, all asking CSI to deliver a baccalaureate degree in education. On March 21, 2018, the Region IV Idaho School Superintendents Association voted unanimously to support CSI efforts to develop a Bachelor of Arts in Education. The letters of request for service and support can be viewed on pages 26-32 of the program proposal (Attachment 1).

In some cases, the geography and demographics of the region can lead to difficulty for the four-year Idaho colleges and universities to respond with a physical presence in the Magic Valley. The proposed Bachelor of Arts in Education is accessible to all Idaho students but particularly benefits the students in Region IV who may be place-bound and need access to affordable tuition. The proposed degree allows for re-integration of adult learners, including veterans, into the education system because of the shortened time to completion (3 years), affordable tuition, and the ability to remain close to home and family.

Overlaying this unique proposal are two matters. One is Board policy regarding service regions, and the second is the fact that this is a break with Idaho's practice of community college's offering only two-year degrees and certificates; CSI's proposal would be the first community college baccalaureate degree offered in Idaho.

In the first case, while authorized in Section 33-2107A, Idaho Code, it predates subsequent Board Policy III.Z (specifically III.Z.2.b.ii.1 regarding Academic Service Regions). Per III.Z, ISU is currently the Designated Institution to offer undergraduate degrees in Region IV. However, Region IV's teacher shortage crisis may indicate that ISU programs have not adequately fulfilled that mission. In the second case, the community college baccalaureate degree is not new nationally with over 20 states offering such degrees, but it would be new to Idaho.

CSI's proposal is a departure from existing teacher education programs at the public four-year schools in Idaho and is designed to operate at no additional cost to the state. Students would pay up to 20% less than current programs at the four-year institutions. The proposal is focused on teacher education as a workforce need in Region IV, CSI's service region. It is an attempt to redefine teacher preparation with a low-cost, quality, apprenticeship model that can be completed in three years. It is designed specifically in collaboration with Region IV school districts, all of which are classified as rural, and which are the most dramatically understaffed with qualified teachers in Idaho.

IMPACT

The impact to the school districts in Region IV would be significant in addressing the teacher shortage. The proposed model is one of shortened time to completion (3 years of fall, spring, summer) at an affordable cost (projected at up to 20% less than Idaho public institution costs) including the possibility of articulated paid apprenticeship options with school districts designed to defray educational costs This will also enhance credit-bearing practical training for students. The proposal addresses place-bound learners and encourages regional students to stay and learn. In this way, the proposal also seeks to encourage program completers to work in rural schools where the need is great.

ATTACHMENTS

STAFF COMMENTS AND RECOMMENDATIONS

The proposed Bachelor of Arts in Education is listed in CSI's draft Three-Year Plan, which is scheduled for approval at the Board's August meeting with a proposed implementation date of Fall 2019. As provided in Board Policy III.Z, no institution maintains statewide program responsibility for education programs. Each institution has a service region program responsibility consistent with Board Policy III.Z to assess and ensure the delivery of all educational programs and services necessary to meet the educational and workforce needs within its assigned service region. Currently, community colleges are not included in the Academic Service Regions for the responsibility of offering undergraduate (baccalaureate) degrees. Proposed amendments in Board Policy III.Z will be considered by the Board at the June meeting to include community colleges as sharing responsibility in the Academic Service Regions alongside four-year institutions in order to meet undergraduate program needs.

CSI has identified a need in Region IV for teacher educator programs, specifically a BA in Education focusing on elementary education. Currently, Idaho State University offers a BA and BS in Elementary Education through a combination of online and traditional classroom delivery in Region IV, which is currently ISU's service region responsibility for undergraduate program delivery.

Institution	Program	CIP Code	Degree	Location	Regional/ Statewide Responsibility	Method of Delivery
CSI	Education, Elementary	13.1202	AA	CSI Campus	Regional	Traditional with some portion avail online and/or online exclusively
ISU	Elementary Education	13.1202	BA, BS	CSI Campus	Regional	Hybrid
ISU	Education, General (Elementary Ed.)	13.1202	M Ed Emp.	CSI Campus	Regional	Hybrid

The proposal completed the program review process and was shared with the Council on Academic Affairs and Programs (CAAP) on May 24, 2018; with the Committee on Instruction, Research, and Student Affairs (IRSA) on June 7, 2018.

Staff recommends the Board consider the workforce needs demonstrated in the proposal, and address how this may best be met either exclusively through the College of Southern Idaho or in a strengthened delivery model shared in partnership with Idaho State University. The Board should offer careful consideration of the proposal as it will help define the mission scope envisioned for community colleges. Staff will evaluate and update Board Policy III.Z as needed so as to ensure it conforms with the role and responsibility the Board intends for state community colleges to serve.

BOARD ACTION

I move to approve the request by College of Southern Idaho to create a new program that will award a Bachelor of Arts in Education in substantial conformance to the program proposal submitted as Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

Idaho State Board of Education

Proposal for **Undergraduate/Graduate Degree** Program

Date of Proposal Submission:	April 9, 2018
Institution Submitting Proposal:	College of Southern Idaho
Name of College, School, or Division:	College of Southern Idaho
Name of Department(s) or Area(s):	Education

Program Identification for Proposed New or Modified Program:

Program Title:	Bachelors of Arts – Education					
Degree:		Degree Designation	X	Undergraduate		Graduate
Indicate if Online Program:		Yes	X	No		
CIP code (consult IR /Registrar):						
Proposed Starting Date:	Fall 2019					
Geographical Delivery:	Location(s)	CSI Service Area	Region(s)	4		
Indicate (X) if the program is/has:	X	Self-Support		Professional Fee		
Indicate (X) if the program is:		Regional Responsibility		Statewide Responsibility		

Indicate whether this request is either of the following:

- [X] New Degree Program
- [ ] Undergraduate/Graduate Certificates (30 credits or more)
- [ ] Expansion of Existing Program
- [ ] Consolidation of Existing Program
- [ ] New Off-Campus Instructional Program
- [ ] Other (i.e., Contract Program/Collaborative

College Dean (Institution)	Date 4/10/18	Vice President for Research (Institution; as applicable)	Date
Graduate Dean or other official (Institution; as applicable)	Date	Academic Affairs Program Manager, OSBE	Date
FVP/Chief Fiscal Officer (Institution)	Date 4-10-18	Chief Academic Officer, OSBE	Date
Provost/VP for Instruction (Institution)	Date 4.9.18	SBOE/Executive Director Approval	Date
President	Date 4/10/18		

Page 1

Before completing this form, refer to Board Policy Section III.G., Postsecondary Program Approval and Discontinuance. This proposal form must be completed for the creation of each new program. All questions must be answered.

Rationale for Creation or Modification of the Program

1. **Describe the request and give an overview of the changes that will result.** Will this program be related or tied to other programs on campus? Identify any existing program that this program will replace.

This will be a new program, building upon CSI's current Associate's Degree in Education that has been in place for over three decades. There will also be program coherence and overlap as CSI launches the SBOE-approved "Mastery-Based Pathway to Teaching" which will prepare Content Specialists and provide Alternative Authorization to Certification. CSI is well positioned to offer this type of program because it currently provides education courses to prepare teachers, enjoys robust partnerships with school districts in Region IV, and is situated in the middle of the region of the state most impacted by teacher shortages according to the Idaho State Board of Education's 2017 Teacher Pipeline Report.

2. **Need for the Program**. Describe the student, regional, and statewide needs that will be addressed by this proposal and address the ways in which the proposed program will meet those needs.

The program will meet student need by being more accessible and cost effect than the degree programs in education that are currently available. Because accessibility to a teacher preparation program will increase the number of candidates able to complete a BA in education, CSI will be able to begin addressing the critical teaching shortage in Region IV.

   a. **Workforce need:** Provide verification of state workforce needs that will be met by this program. Include State and National Department of Labor research on employment potential. Using the chart below, indicate the total projected annual job openings (including growth and replacement demands in your regional area, the state, and nation. Job openings should represent positions which require graduation from a program such as the one proposed. Data should be derived from a source that can be validated and must be no more than two years old.

   List the job titles for which this degree is relevant:

Elementary Ed/Early Childhood
Elementary Ed with a middle school certification.
Secondary Education degrees in Math and ELA (Language Arts)

	State DOL data	Federal DOL data	Other data source: (describe)
Local (Service Area)	Projected demand for new teachers based upon growth in Region IV: 1% annually or 23 teachers every year.		ISBE Teacher Pipeline Report Attrition Rate of Teachers in Region IV: Average of 15% annually or 347 teachers every year.
State			
Nation			

As reported in the Idaho State Board of Education's Teacher Pipeline Report, in 2015-16 8% of the teachers employed in Region IV were on some form of alternative route to certification. Alternative certifications generally denote an emergency hire. However, the percentage of teachers on some form of interim certificate has increased in every region over the last two years, and in Region IV the number of alternative authorizations doubled from FY15 to FY16.

All traditional programs combined produce an average of 846 completers per year who qualify for Idaho teacher certification. Based upon the growth in our region combined with the average attrition rate, Region IV has a need for 370 teachers annually or 44% of the total number of teachers produced across Idaho. CSI believes strongly that it will be fully prepared to assist in the production of well-trained, well-supported teachers in meeting this need. Current Idaho Colleges of Education cannot meet this demand.

b. **Student need.** What is the most likely source of students who will be expected to enroll (full-time, part-time, outreach, etc.). Document student demand by providing information you have about student interest in the proposed program from inside and outside the institution. If a survey was used, please attach a copy of the survey instrument with a summary of results as Appendix A.

The population from which CSI hears the greatest demand, and will most likely serve, are students who participate in our AA Education program. From FY11 through FY16, CSI conferred 283 Associates degrees in education. In almost all cases, these students expressed a desire to continue in education. Though many of our students are non-traditional students, often place-bound for this and other reasons, 159 of CSI's completers transferred to an Idaho institution to continue toward a BA. Of these 159, only 49 went on to complete a degree in education and earn teacher certification in Idaho. Therefore, of the total population of CSI completers eligible to earn a teaching certificate with only two additional years of coursework, only 14% met that goal. We believe that with the strong pledges of partnerships we've received from our community and our school leaders, we can triple that figure within the first five years of operating a bachelors program.

(Appendix 1. Letters of Support).

c. **Economic Need**: Describe how the proposed program will act to stimulate the state economy by advancing the field, providing research results, etc.

d. **Societal Need**: Describe additional societal benefits and cultural benefits of the program.

Over the last five years 283 CSI Education graduates have transferred to state Universities, of those, 49 actually earned a teaching certificate. Based on data from Idaho State Board of Education's 2017 Teacher Pipeline Report, Region IV actually needs 347 new teachers a year. The lack of qualified teachers has a direct correlation to high numbers of teacher on Alternative Authorizations. (See appendix 2 – Pipeline Summary)

> "Education is the most powerful weapon which you can use to change the world."
> *Nelson Mandela*

e. **If Associate's degree, transferability**:

3. **Similar Programs.** Identify similar programs offered within Idaho and in the region by other in-state or bordering state colleges/universities.

Similar Programs offered by Idaho public institutions (list the proposed program as well)		
Institution Name	**Degree name and Level**	**Program Name and brief description if warranted**
Boise State University	**Bachelors/Certification**	
Idaho State University	**Bachelors/Certification**	
Lewis Clark State College	**Bachelors/Certification**	
University of Idaho	**Bachelors/Certification**	
Brigham Young University - Idaho	**Bachelors/Certification**	
Northwest Nazarene University	**Bachelors/Certification**	
College of Idaho	**Bachelors/Certification**	
Nevada Great Basin College	**Bachelor's in Education**	

4. **Justification for Duplication with another institution listed above.** (if applicable). If the proposed program is similar to another program offered by an Idaho public institution, provide a rationale as to why any resulting duplication is a net benefit to the state and its citizens. Describe why it is not feasible for existing programs at other institutions to fulfill the need for the proposed program.

Two compelling factors show this program will be of service to the citizens of Region IV: First, the Superintendents and other education leaders in the region have implored the College of Southern Idaho to establish a local teacher preparation program. Such a program would not only serve our many rural districts seeking to "grow their own" teachers but would also provide a valuable local resource and education partner in addressing the region's education needs. At the March 2018 Region IV Superintendent's meeting, a unanimous vote was taken to support CSI's efforts to offer a four year education degree. (See Appendix 3. Letter of Support dated March 22, 2018 prepared by the President of Region IV ISSA).

We also have strong evidence that many of our current students and those who complete our AA in education are place-bound and have limited financial resources. (Appendix 4) Of the 283 candidates who completed CSI's education associates degree over the last five years (developed to be a springboard for ISU's bachelor's certification program) only 49 graduated with an education degree. Feedback received from the field indicates that inflexible course rotations, location, and credit costs are the most common reasons CSI students transferring to ISU do not graduate. CSI believes the partnership with our local districts will yield much higher graduation rates and begin to positively impact the critical need for educators in Region IV. (Appendix 1 & 5 Student Survey and Past CSI Graduate Survey)

5. **Describe how this request supports the institution's vision and/or strategic plan.**

The College of Southern Idaho's mission includes the following goals and objectives that align with the request for a Teacher Certification program on our campus:

GOAL 1: COMMUNITY SUCCESS As a community college, we are committed to responding to the diverse needs of the communities we serve and to taking a leadership role in improving the quality of life of the members of those communities.

Objective A: Strengthen the social fabric in the communities we serve.

Objective B: Cultivate economic partnerships across the communities we serve.

Objective C: Meet the workforce needs of the communities we serve.

GOAL 2: STUDENT SUCCESS As an institution of higher education, we exist to meet the diverse educational needs of the communities we serve. Above all institutional priorities is the desire for every student to experience success in the pursuit of a quality education.

Objective A: Foster participation in postsecondary education.
Objective B: Reinforce a commitment to instructional excellence.
Objective C: Support student progress toward achievement of educational goals.
Objective D: Provide evidence of achievement of student learning outcomes.
Objective E: Offer opportunities for student engagement that go beyond the classroom.

The college is committed to both student and community success. The establishment of a Teacher Certification Program allows the college to strengthen social ties in the community and cultivate economic partnerships while providing the workforce needs of Region IV school district employers and our community.

CSI will also commit to the same level of excellence in educational practices extant in all our programs. CSI will use data to constantly improve and monitor the program much as it does for all workforce programs, measuring retention, completion, and post-graduation employment statistics.

6. **Assurance of Quality.** Describe how the institution will ensure the quality of the program. Describe the institutional process of program review. Where appropriate, describe applicable specialized accreditation and explain why you do or do not plan to seek accreditation.

The Standards Committee of the Professional Standards Commission (PSC) will conduct initial review of the Teacher Certification Program. Upon conditional approval, a full review of the program will be conducted just prior to the graduation of the first cohort of degree-completers. A PSC team will then review the program every third year to ensure quality and maintenance of state and national performance standards. In addition, CSI will be required to report all mandatory data to the State Board of Education through the Educator Preparation Performance Measures reporting requirements every year.

7. **In accordance with Board Policy III.G., an external peer review is required for any new doctoral program.** Attach the peer review report as Appendix B.

   NIA

8. **Teacher Education/Certification Programs** All Educator Preparation programs that lead to certification require review and recommendation from the Professional Standards Commission (PSC) and approval from the Board.

   Will this program lead to certification?
   Yes___X__ No_____

   If yes, on what date was the Program Approval for Certification Request submitted to the Professional Standards Commission?

January 2019

9. **Five-Year Plan: Is the proposed program on your institution's approved 5-year plan? Indicate below.**

Yes X No

Proposed programs submitted to OSBE that are not on the five-year plan must respond to the following questions and meet at least one criterion listed below.

a. **Describe why the proposed program is not on the institution's five-year plan.** When did consideration of and planning for the new program begin?

Preliminary discussions with local school district employers, ISU, and OSBE began over a year ago, followed by exploratory conversations with local legislators. The need was confirmed with the 2017 Teacher Pipeline Report. The College of Southern Idaho Board of Trustees was informed of the possibility of this proposal in early 2017, and the College of Southern Idaho Curriculum Committee approved the proposal in its February 2018 meeting. In the March 2018 Board of Trustees meeting, the CSI Board unanimously approved this proposal. This proposal was added to the five-year plan submitted to OSBE in March 2018.

33-2107A. Establishment and operation of third and fourth year college curriculum in community college districts.

The board of trustees of a community college district of an urban area, upon filing with the state board of education a notice of intent to exercise the powers herein granted, shall thereafter be authorized and empowered to organize and operate an upper division consisting of the third and fourth years of college curriculum with powers to grant baccalaureate degrees in liberal arts and sciences, business and education. Upper division courses and programs are subject to approval pursuant to section 33-107(8), Idaho Code. The operation of the community college and the upper division shall be kept separate; however, the joint use of facilities is authorized provided a proper cost allocation is made.

33-107. GENERAL POWERS AND DUTIES OF THE STATE BOARD. The state board shall have power to:

(8) Approve new courses and programs of study to be offered at community colleges organized pursuant to chapter 21, title 33, Idaho Code, when the courses or programs of study are academic in nature and the credits derived therefrom are intended to be transferable to other state institutions of higher education for credit toward a baccalaureate degree, and when the courses or programs of study have been authorized by the board of trustees of the community college.

b. **Describe the immediacy of need for the program**. What would be lost were the institution to delay the proposal for implementation of the new program until it fits within the five-year planning cycle? What would be gained by an early consideration?

K-12 students in Region IV continue to have less access to highly effective teachers as evidenced by the number of teachers serving on alternative certificates throughout the region. Overwhelming research indicates that strong teachers impact student learning. The high rates of attrition in Region IV have resulted in a number of classrooms being led by untrained individuals, putting Region IV students at a greater risk than others around the state. According to the State Board of Education's 2017 Teacher Pipeline Report, the percentage of uncertified teachers in charge of classrooms doubled in one year:

Table 1. Alternative Authorizations by Type and Region (Idaho State Department of Education)

2014-2015	ABCTE	Content Specialist	Prov Auth	Teacher to New	TFA	Share of teachers
Region 1		1	6	24		**2%**
Region 2	1	5	3	16		**3%**
Region 3	28	23	41	84		**3%**
Region 4	9	10	35	37		**4%**
Region 5	4	9	15	21		**4%**
Region 6	12	7	36	32		**4%**
Charter schools	11	5	23	30		**7%**
Total	**65**	**60**	**159**	**244**

2017 Teacher Pipeline Report

Criteria. As appropriate, discuss the following:

i. How important is the program in meeting your institution's regional or statewide program responsibilities? Describe whether the proposed program is in response to a specific industry need or workforce opportunity.

A Teacher Certification Program is a direct response to the specific workforce and industry need in Region IV. The region has the largest number of alternate authorizations in the state and the greatest number of classrooms with no teacher in place when the semester begins. The shortage in Region IV has moved past very specific endorsement areas into the most common areas, which include elementary educators. With this region expecting growth in the near future, we are in a challenging position with a lack of teachers to provide our students the opportunities they deserve.

ii. Explain if the proposed program is reliant on external funding (grants, donations) with a deadline for acceptance of funding.

This program is based on a proposed budget (attached) that will be paid for by the tuition and fees of the students.

iii. Is there a contractual obligation or partnership opportunity to justify the program?

The Region IV superintendents are willing to provide potential teachers the opportunity to complete this type of program and are supportive of the proposed programs and the recommended proximity of the support. (See Appendix 3. Support letters)

iv. Is the program request or program change in response to recent changes to teacher certification/endorsement requirements?

No, this program proposal is in direct response to the workforce needs of the community we serve and therefore, consistent with the CSI Mission.

Curriculum, Intended Learning Outcomes, and Assessment Plan

10. Curriculum for the proposed program and its delivery.

a. **Summary of requirements.** Provide a summary of program requirements using the following table.

Credit hours in required courses offered by the department (s) offering the program.	84
Credit hours in required courses offered by other departments:	36
Credit hours in institutional general education curriculum	36
Credit hours in free electives	0
Total credit hours required for degree program:	120

b. **Additional requirements.** Describe additional requirements such as comprehensive examination, senior thesis or other capstone experience, practicum, or internship, some of which may carry credit hours included in the list above.

This program requires evidence of practice that is aligned to the Idaho Core Teaching Standards and the state's evaluation/performance standards, the Framework for Teaching. A fuller description of the types of assessments are outlined below.
(See Appendix 5. Idaho Core Teaching Standards)

11. Program Intended Learning Outcomes and Connection to Curriculum.

a. **Intended Learning Outcomes.** List the Intended Learning Outcomes for the proposed program, using learner-centered statements that indicate what will students know, be able to do, and value or appreciate as a result of completing the program.

Candidates will show proof of performance in all the Idaho Core Teaching standards, the primary requirement of Idaho Teacher Certification. (See Appendix 5. Idaho Core Teaching Standards)

12. Assessment plans

a. **Assessment Process.** Describe the assessment process that will be used to evaluate how well students are achieving the intended learning outcomes of the program.

This program will be subject to CAEP accreditation, State of Idaho program reviews, and the Program Performance Standards established by the Idaho State Board of Education. The program will also adhere to the CSI outcomes assessment standards.

b. **Closing the loop.** How will you ensure that the assessment findings will be used to improve the program?

The assessment findings each year will be used by the department to enhance curriculum, construct new teaching methods or practices, and to develop plans for students (currently employed) to complete the program while working full time as an educator in the field

c. **Measures used.** What direct and indirect measures will be used to assess student learning?

All candidates must pass the content, pedagogy, and performance assessments as required by IDAPA 08.02.02.

Assessments will require candidates to upload products of their practice for external review and scoring.

Scorers will review each of the five performance assessments anonymously to determine a "pass" or "no pass" score. Unsuccessful attempts will be returned to candidates with appropriate feedback. Sample performance evidence for each module/assessment is also noted in Attachment A. Passing each of the five assessments associated with the five teaching clusters will serve as proof of pedagogy and meet the requirements of the Idaho Core Teaching Standards.

At that point, if a candidate has also passed the appropriate Praxis II test (verifying appropriate content knowledge regardless of degree area) to prove content competency, he/she will be evaluated by a trained supervisor to complete the Common Summative Assessment (Danielson Framework) required of all teacher candidates. This assessment serves as proof of performance and qualifies the candidate to move from interim certification to full standard certification.

d. Timing and frequency. When will assessment activities occur and at what frequency?

As listed above, per IDAPA 08.02.02.

Enrollments and Graduates

13. Existing similar programs at Idaho Public Institutions. Using the chart below, provide enrollments and numbers of graduates for similar existing programs at your institution and other Idaho public institutions.

Existing Similar Programs: Historical enrollments and graduate numbers								
Institution and Program Name	**Fall Headcount Enrollment in Program**				**Number of Graduates From Program (Summer, Fall, Spring)**			
	FY__ 12-13	FY__ 13-14	FY__ 14-15	FY__ 15-16	FY 12-13	FY_ 13-14	FY__ 14-15	FY__ 15-16
BSU	384	297	314	380	182	185	196	172
ISU	266	250	261	394	130	95	76	92
UI	150	172	166	192	*	*	108	99
LCSC	116	142	116	122	48		48	49

*Completer numbers reported to Title II were determined to be inaccurate, and updated numbers were not available.

14. Projections for proposed program: Using the chart below, provide projected enrollments and number of graduates for the proposed program:

Proposed Program: Projected Enrollments and Graduates First Five Years											
Program Name: BA Education											
Projected Fall Term Headcount Enrollment in Program						**Projected Annual Number of Graduates From Program**					
FY__ 19-20	FY 20-21	FY__ 21-22	FY__ 22-23	FY__ 23-24	FY__ 24-25	FY__ 19-20	FY__ 20-21	FY__ 21-22	FY__ 22-23	FY__ 23-24	FY__ 24-25
AA Cohort	20	18					18				
Cohort 1	35	33	31					31			
Cohort 2		35	33	31					31		
Cohort 3			35	33	31					31	
Cohort 4				35	33						31
Cohort 5											

15. Describe the methodology for determining enrollment and graduation projections. Refer to information provided in Question #2 "Need" above. What is the capacity for the program? Describe your recruitment efforts? How did you determine the projected numbers above?

CSI has existing graduates who have indicated they will enroll in the program in its first year. In an effort to be conservative, we have assumed that twenty will enroll the first year and that normal attrition will allow for 18 to graduate.

CSI also assumes that we will start a cohort of 35 students every Fall and that normal attrition will allow for 31 graduates at the end of year three.

16. Minimum Enrollments and Graduates. Have you determined minimums that the program will need to meet in order to be continued? What are those minimums, what is the logical basis for those minimums, what is the time frame, and what is the action that would result?

The education program could continue with as few as twenty-five students each Fall. The basis for this number is related to the cash flow produced from their tuition and program fees. The direct cost associated with the program; mentoring, instructional supplies, etc. can be adjusted downward with the number of students. Fewer students in classrooms also reduced indirect costs such as building maintenance and operations, percent of cost from student services, IT, and administrative costs.

Resources Required for Implementation – fiscal impact and budget

17. Physical Resources.

a. **Existing resources**. Describe equipment, space, laboratory instruments, computer(s), or other physical equipment presently available to support the successful implementation of the program.

The College has physical space and appropriate resources to accommodate the new program.

b. **Impact of new program**. What will be the impact on existing programs of increased use of physical resources by the proposed program? How will the increased use be accommodated?

The College has physical space to accommodate the new program.

c. **Needed resources.** List equipment, space, laboratory instruments, etc., that must be obtained to support the proposed program. Enter the costs of those physical resources into the budget sheet.

Two new computers will need to be purchased.

18. Library resources

a. **Existing resources and impact of new program**. Evaluate library resources, including personnel and space. Are they adequate for the operation of the present program? Will there be an impact on existing programs of increased library usage caused by the proposed program? For off-campus programs, clearly indicate how the library resources are to be provided.

The Director of the CSI Library reviewed the inventory of existing Education databases, books, and e-books and compared the list with those of the state universities and found them comparable. The Director did suggest that the college invest $5,000 to add additional e-books to the current selection, accordingly $5,000 annually was added to the budget for years one and two with $10,000 added thereafter.

b. **Needed resources**. What new library resources will be required to ensure successful implementation of the program? Enter the costs of those library resources into the budget sheet.

$5,000 was added to the budget to purchase additional Education e-books.

19. Personnel resources

a. **Needed resources.** Give an overview of the personnel resources that will be needed to implement the program. How many additional sections of existing courses will be needed? Referring to the list of new courses to be created, what instructional capacity will be needed to offer the necessary number of sections?

The twenty existing AA graduates will enroll in courses that occur in the junior level curriculum that will be taught by existing Ph.D. faculty. A new instructor will also be hired in the first year to teach the sections our existing instructor will leave and to add capacity for the 35 students in the Fall cohort. During the second year when two cohorts are enrolled, the college will hire a second instructor and reallocate the time of an additional Ph. D. prepared instructor.

b. Existing resources. Describe the existing instructional, support, and administrative resources that can be brought to bear to support the successful implementation of the program.

The existing faculty are as follows:

Meyerhoeffer, Dr. Tracey J
B.S. (University of Idaho); M.S. (Boise State University); Ph.D. (University of Idaho); Professor of Education, 1998.

Neff, Ellen L
A.A. (College of Southern Idaho); B.A. (Washington State University); M.Ed. (Boise State University): Assistant Professor of Early Childhood Education, 2008.

Fox, Dr. Evin L
B.A., M.A. (California State University, Sacramento); M.Ed. (Idaho State University); Ed.S., Ph.D. (University of Idaho); Professor of Early Childhood Education, 2005.

Egbert, Dr. LueLinda D

The administrative team with responsibility for the program are as follows:

Schwarz, Dr. Todd
A.A.S. (College of Southern Idaho); B.S.Ed., Ph.D. (University of Idaho); M.S.Ed. (Boise State University); Executive Vice President and Chief Academic Officer, 1988.

Bond, Dr. Cindy R
A.A. (College of Southern Idaho); B.A. (Boise State University); M.Ed., Ph.D. (University of Idaho); C.P.A.; Instructional Dean, 1980.

c. **Impact on existing programs**. What will be the impact on existing programs of increased use of existing personnel resources by the proposed program? How will quality and productivity of existing programs be maintained?

The existing AA program will be adapted to prepare students to enter directly into CSI's BA program. The college expects to see increased enrollment as students will be able to complete their degree here and in a three-year time frame.

d. **Needed resources.** List the new personnel that must be hired to support the proposed program. Enter the costs of those personnel resources into the budget sheet.

See above and proposed budget.

20. Revenue Sources

a) **Reallocation of funds:** If funding is to come from the reallocation of existing state appropriated funds, please indicate the sources of the reallocation. What impact will the reallocation of funds in support of the program have on other programs?

No state funds will be reallocated. Student tuition from the program and program fee will be the sole source of revenue for the new program.

b) **New appropriation**. If an above Maintenance of Current Operations (MCO) appropriation is required to fund the program, indicate when the institution plans to include the program in the legislative budget request.

c) **Non-ongoing sources**:

i. If the funding is to come from one-time sources such as a donation, indicate the sources of other funding. What are the institution's plans for sustaining the program when that funding ends?

ii. Describe the federal grant, other grant(s), special fee arrangements, or contract(s) that will be valid to fund the program. What does the institution propose to do with the program upon termination of those funds?

d) **Student Fees**:

i. If the proposed program is intended to levy any institutional local fees, explain how doing so meets the requirements of Board Policy V.R., 3.b.

The proposed student fee meets all of the requirements of Policy V.R., 3.b.

ii. Provide estimated cost to students and total revenue for self-support programs and for professional fees and other fees anticipated to be requested under Board Policy V.R., if applicable.

Regular tuition costs for students in the program will average $6,000 per year, student fees will add another $1,000 for an average total of $7,000 per academic year. Community college fees are set by the local board.

21. Using the budget template provided by the Office of the State Board of Education, provide the following information:

- Indicate all resources needed including the planned FTE enrollment, projected revenues, and estimated expenditures for the first **four** fiscal years of the program.
- Include reallocation of existing personnel and resources and anticipated or requested new resources.
- Second and third year estimates should be in constant dollars.
- Amounts should reconcile subsequent pages where budget explanations are provided.
- If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(ies) or party(ies).
- Provide an explanation of the fiscal impact of any proposed discontinuance to include impacts to faculty (i.e., salary savings, re-assignments).

Program Resource Requirements.

- Indicate all resources needed including the planned FTE enrollment, projected revenues, and estimated expenditures for the first **four** fiscal years of the program
- Include reallocation of existing personnel and resources and anticipated or requested new resources.
- Second and third year estimates should be in constant dollars.
- Amounts should reconcile subsequent pages where budget explanations are provided.
- If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(ies) or party(ies).
- Provide an explanation of the fiscal impact of any proposed discontinuance to include impacts to faculty (i.e., salary savings, re-assignments).

House of Representatives
State of Idaho

April 9, 2018

To Whom It May Concern,

I write this letter in support of the College of Southern Idaho (CSI) and their request to offer a Bachelor of Arts Degree in Education at their Twin Falls Campus. The College of Southern Idaho has been an integral part of our communities in the Magic Valley since its creation. They have always stepped up to meet the community and business needs throughout the valley. They have always been a partner to all of us in the Valley.

The College of Southern Idaho partners with many school districts in the area, working together on many advanced opportunities for our students and this becomes one more choice for students. There are a multitude of reasons why many students don't advance to a 4-year degree, but many students simply cannot relocate.

The College of Southern Idaho is our outlet for certificates and advanced degrees, both financially and location specific. The addition of a Teacher Preparation program would offer an excellent opportunity for workforce members in our area. With recent data showing the Magic Valley having the largest proportion of teacher shortages throughout the state, a new Teacher Preparation program would offer a home-grown solution to a national problem as well as a regional one with students receiving degrees and staying in the area.

The College of Southern Idaho offers the area a great partner to each of our communities. This becomes an obvious choice for the Magic Valley and a solution to our statewide educational needs.

I would encourage you to consider this new program through the College of Southern Idaho. It would be an asset to the entire region. Thank you for your consideration of this and please contact me if you have any other questions.

Sincerely,

Rep. Sally Toone
Idaho State Representative-Dist. 26

Idaho State Senate

SENATOR BERT BRACKETT

March 30, 2018

To Whom It May Concern:

There are many reports showing there is a statewide teacher shortage, but they also show the problem is worse in the Magic Valley than in the rest of Idaho, especially acute in the smaller, rural schools. There is also more alternate certification in this region, and many of those are in elementary education. It's been reported that 45% of new hires in the past three years in the Magic Valley are on alternate authorization. The Magic Valley accounted for almost one-fourth of all the alternative authorizations in the entire State of Idaho.

There are several contributing factors, but one seems to be the lack of a university in the area. Idaho State University has been assigned education responsibilities for the Magic Valley area, but they do not offer upper-level education on the CSI campus. Classes are either online or the student must travel, or move, to the ISU campus.

This past year, CSI had 200 education candidates in their program, however, only 40 graduated from the program. If CSI had their own education program, the number of candidates would increase, and they would be able to graduate a much higher percentage of their candidates. Most of the students for an education degree are location bound to this area, either due to financial concerns (having to live at home) or their spouse works in this region and cannot relocate.

We need a four-year degree program in education in the Magic Valley, and CSI is an obvious choice. School districts are willing to partner in teacher preparation programs, enhanced mentoring, and support for teachers to increase retention of all teachers. School districts are anxious to have candidates complete their intern requirement (student teaching) here in the Magic Valley.

I am very supportive of establishing a Bachelor of Arts Degree in Elementary Education at CSI and will offer my assistance wherever needed.

Sincerely,

Bert Brackett

COMMITTEES

EDUCATION
BUSINESS
LOCAL GOVERNMENT

HOUSE OF REPRESENTATIVES
STATE OF IDAHO

April 9, 2018

Idaho State Board of Education

Recently I learned that the Trustees of the College of Southern Idaho have undertaken a plan to expand their degree offerings to include Bachelor Degrees in Elementary Education. While I did not expect this at this, I have been an advocate of this possibility for many years.

The current demand for quality educators and the lack of a four-year degree program in the Magic Valley can be partially addressed by offering a four-year degree at CSI. Offering a program through CSI will allow Magic Valley degree seeking students a low-cost opportunity to enter the teaching profession and provide creative opportunities to work with the various school districts, many rural, in the CSI immediate service area.

There has been evidence presented that graduates tend to settle near their Alma Mater and the schools where they completed their student teaching. CSI has proven to be an innovative community college with many collaborative efforts including dual-credit and career technical opportunities.

Life events often impacts young students and families, which often redirects time and resources. Allowing students to continue their education goals, without the need to relocate, can be a tremendous community asset. With the passage of S1279, Opportunity Scholarships and the related appropriation, CSI local BA degree program would work well to help students return to complete partial degrees.

The timing of this proposal, demand for teachers and the enhancements in opportunity scholarships make for an appropriate request. CSI has a proven record. With your approval CSI can demonstrate how the combination of tools can address an important challenge in education, especially in rural South-Central Idaho.

Respectfully,

Lance W. Clow
Representative

Jerome Jt. School District No. 261
District Office

Dale Layne, Superintendent of Schools

February 14, 2018

To Whom It May Concern:

I am writing this letter in full support of the College of Southern Idaho's proposal to offer a four-year degree program in education.

As you are aware, we are experiencing a teacher shortage across the state of Idaho. Superintendents across our valley have been working with the state universities to identify the numbers of students going into education programs as well as those graduating with the ability to receive a teaching certificate. In a recent study completed by Boise State University, it was discovered that our region has the most classrooms filled with alternative route teachers in the state. While many of these individuals are great employees, they often start without the background and knowledge of pedagogy required to be a successful teacher. The study indicates the Magic Valley is experiencing an even greater need for certified teachers that any other region in the state. This great need exists, yet our valley does not have a local higher education institution that allows the individual to receive a teaching certificate.

In another study done by the College of Southern Idaho, it was discovered that an adequate number of students are entering the education program at the community college, but very few are completing the required degree. I believe this is in part due to the geographical constraints of obtaining the degree. Many of the students are non-traditional students who may already have a family. It makes it very difficult for these individuals to travel to the east or west to complete a degree. Many are "place bound" due to family situations. My hope is that if a four-year degree was offered locally, we would have more education graduates creating a larger pool of teacher candidates for the schools in the Magic Valley.

CSI has continually been a great partner and supporter of our district. The Jerome School District will gladly assist in any way we can to support the proposed program. One way we can assist is to help with placement of students in our classrooms to gain experience, whether it be a field experience in the earlier portion of the program or working with student teachers as they move toward completion.

I encourage you endorse the program proposed by Dr. Fox and the College of Southern Idaho.

Respectfully,

Dale Layne
Superintendent of Schools

Support for CSI to offer a four-year educational degree

Dear Dr. Fox,

I am writing this letter in full support of the College of Southern Idaho offering a four-year degree program in education. Our district will do whatever we can to partner with CSI to make this program a reality.

As you are aware, Idaho is in the middle of a severe teaching shortage and the Magic Valley has been hit the hardest. In the past three years, 45% of Kimberly's new teaching hires have been alternative authorized teachers. Although we have had success, this has been a burden on our school district as we provide extensive training for these individuals. In addition, for those that are on the alternative path it is very difficult to work with an institution due to geographical limitations as the closest university is over 100 miles away.

The College of Southern Idaho is always on the forefront of career development by providing training for our local commerce and industry. There are many individuals in the Magic Valley willing to enter the educational field yet do not have the opportunity because of being place bound. This venture would provide a positive impact for our local economy as it would place many into a viable, necessary and productive field.

On behalf of the Kimberly School District, I would like to thank you for your consideration of developing a four-year degree program.

Sincerely,
Luke Schroeder
Luke Schroeder
Superintendent Kimberly School District

Minidoka County School District #331

"Empowering Students for Success"

February 22, 2018

To Whom It May Concern:

I am writing this letter in support of the College of Southern Idaho's proposal to offer a four-year degree program in education.

With the teacher shortage across the state of Idaho, Superintendents have been working with universities in determining how many students are going into education, as well as those graduating and receiving a teaching certificate. In a recent study shared by Boise State University (BSU), it stated our area has the most classrooms being taught with alternative route teachers. While many of these employees are working diligently to receive their certificate, they lack the background, training and knowledge required to be a successful teacher. BSU in their study also indicates our area does not have a local college or university that offers an individual to receive a teaching certificate.

College of Southern Idaho (CSI) also conducted a study and found that many of their students are entering an education program, but few are completing their program. Many students have families or find it difficult to travel the distance required to complete the entire four-year program at another university. If a four-year program were to be offered at CSI, perhaps there would be a larger group of teacher candidates.

The Minidoka School District will assist in any way possible to support the proposed four-year educational program.

I encourage you to endorse the program proposed by Dr. Fox and the College of Southern Idaho.

Sincerely,

Dr. Kenneth Cox
Superintendent of Schools

310 10th St. Rupert, Idaho 83350 ~ Telephone (208) 436-4727 ~ Fax (208) 436-6593 ~ www.minidokaschools.org

www.tfsd.org
Brady D. Dickinson, PH.D. SUPERINTENDENT OF SCHOOLS

February 28, 2018

To Whom It May Concern:

I am writing this letter to fully endorse the College of Southern Idaho's proposal to offer a four-year degree program in education. I see this as a critical path to addressing the teacher shortage in our region.

The teacher shortage is a critical issue facing the state of Idaho. Because of this, Superintendents in our region have been working with the state universities to examine the issue and gather data on the availability of students with the ability to receive a teaching certificate. This study revealed that our region has the most alternative route teachers in the state. This raises concerns, as while many of these individuals develop into outstanding teachers, they often come into our schools without the necessary background and knowledge of pedagogy. One of the challenges in addressing this need is the fact the Magic Valley does not have a local higher education institution that allows the individual to receive a teaching certificate.

A recent study conducted by the College of Southern Idaho revealed that although an adequate number of students are entering their education program, very few are completing the required degree. This could be in part due to geographical constraints. It is my hope that if a teaching degree was offered locally, we would have more education graduates creating a larger pool of teacher candidates for all of the schools in the Magic Valley.

The Twin Falls School District and the College of Southern Idaho (CSI) have been long time partners. As a matter of fact, CSI originally started on the campus of Twin Falls High School. As a result, the Twin Falls School District stands ready to assist in any way we can to support the proposed program.

Please support the program proposed by Dr. Fox and the College of Southern Idaho. Don't hesitate to contact me if you need assistance or have any concerns or questions.

Sincerely,

Brady D. Dickinson

Dr. Brady D. Dickinson
Superintendent of Schools

Appendix 4: Student Demographic Survey

Research Question
Are CSI students more place-bound than other students are across the state?

Methodology
Using various economic demographic data from the 2016 American Community Survey, Twin Falls County was compared to relevant counties in Idaho. As CSI's Education graduates most commonly transfer to Idaho State University (ISU) and Boise State University (BSU), comparisons were made to Bannock and Ada Counties.

Metrics and their assumed underlying relationship with a demand to avoid relocation:

- Percent of households with children under 18 year old
  - Assumption: More households with children may suggest less incentive to change locations
- Percent below poverty line
  - Assumption: Less income may suggest higher demand for a lower cost education
- Income's Impact on Likelihood of transferring (CSI Internal Data, combined with National Student Clearinghouse)
  - Assumption: The more a higher income plays a role on if a CSI graduate transfers to a four-year school, the more impact a lower cost four-year degree is likely to have.

Findings

Percent of Households with children under 18 years			
County	*Total Households*	*With Children under 18 years*	*Percent*
Twin Falls	30,119	11,887	39.5%
Bannock	30,106	9,288	30.9%
Ada	167,026	48,126	28.8%

Table 1

As shown in Table 1, Twin Falls County has significantly more households, proportionally, with children. This may suggest more desire to avoid relocating.

Percent of Households Below the Poverty Line			
County	*Total Households*	*Below Poverty Line*	*Percent*
Twin Falls	30,119	4,157	13.8%
Bannock	30,106	4,951	16.4%
Ada	167,026	19,649	11.8%

Table 2

Relative to Ada county, there is increased level of poverty in Twin Falls. That said, Bannock County appears to have a higher level of poverty.

ALL CSI Graduates (Last Ten Years), Income and Transferring to a Four-Year School		
Category	*Average Income*	*Median Income*
Transferred	41,292	32,934
Did Not Transfer	36,114	29,251

Table 3

Based the information in Table 3, students who transfer have higher incomes. This may suggest that having a lower cost alternative may allow additional students to earn a four-year degree.

Appendix 5. Idaho Core Teacher Standards

STANDARD	Enhancement Standards Performance	Coursework /Danielson Framework (CSA)
Standard 1 **Learner Development-The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.**	**Performance-** **1. (a) The teacher regularly assesses individual and group performance in order to design and modify instruction to meet learners' needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development** **2. (b) The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.** **3. (c) The teacher creates developmentally appropriate instruction that takes into account individual learners' strengths, interests, and needs and that enables each learner to advance and accelerate his/her learning.** **Knowledge** **1. (d) The teacher understands how learning occurs--how learners construct knowledge, acquire skills, and develop disciplined thinking processes- and knows how to use instructional strategies that promote student learning.** **2. (e) The teacher understands that each learner's cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners' strengths and needs.** **3. (f) The teacher identifies readiness for learning, and understands how development in any one area may affect performance in others.**	**Learner Development and Learning Differences- 3 credit course-** **(Content Methods and Standard Alignment) aligns with INTASC Standards 1 and 2. Using the INTASC Progressions model for assessing competency, CSI faculty will assess proof that candidates understand how learners grow and develop (in cognitive, linguistic, social, emotional, and physical areas) to design and implement developmentally appropriate and challenging learning experiences.** **The teaching candidate:** **1. Draws on her/his understanding of child and adolescent development, the teacher observes learners, noting changes and patterns in learners across areas of development, and seeks resources, including from families and colleagues, to adjust teaching. (1a; 7i; 9d) (INTASC Standards 9 and 10 Embedded)** **2. Seeks out information about learner interests in order to engage learners in developmentally appropriate learning experiences. (1b) (INTASC Standard 9 Embedded)** **3. Engages learners in a variety of learning experiences to capitalize on strengths and build areas of development that are weaker. (1i; 1j) (INTASC Standard 10 Embedded)** **Example Assessment (INTASC Standard 1)-** **The teacher candidate plans, teaches, and assesses a developmentally appropriate lesson to a large group of students. The plan should be flexible enough to accommodate learners across varied levels of development, the candidate should provide support for multiple levels of engagement during the lesson, and the learners should be motivated and engaged by material that is suitable for their developmental level. Submission Artifacts-video and lesson plan** **(Performance measures drawn directly from INTASC Progressions, pps. 16- 19)**

	4. (g) The teacher understands the role of language and culture in learning and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging. Disposition- 1. (h) The teacher respects learners' differing strengths and needs and is committed to using this information to further each learner's development. 2. (i) The teacher is committed to using learners' strengths as a basis for growth, and their misconceptions as opportunities for learning. 3. (j) The teacher takes responsibility for promoting learners' growth and development. 4. (k) The teacher values the input and contributions of families, colleagues, and other professionals in understanding and supporting each learner's development.	
Standard 2 **Learning Differences** - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.	Performance- 1. (a) The teacher designs, adapts, and delivers instruction to address each student's diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways. 2. (b) The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, and response modes) for individual students with particular learning differences or needs. 3. (c) The teacher designs instruction to build on learners' prior knowledge and experiences, allowing learners to accelerate as they demonstrate their understandings.	<u>Learner Development and Learning Differences- 3 credit course-</u> (Content Methods and Standard Alignment) aligns with INTASC Standards 1 and 2. Using the INTASC Progressions model for assessing competency, CSI faculty will assess proof that candidates understand how learners grow and develop (in cognitive, linguistic, social, emotional, and physical areas) to design and implement developmentally appropriate and challenging learning experiences. The teaching candidate: 1. Draws upon her/his understanding of second language acquisition, exceptional needs, and learners' background knowledge, the teacher observes individual and groups of learners to identify specific needs and responds with individualized support, flexible grouping, and varied learning experiences. (1g; 2b; 2c; 2d; 2e; 2f; 2g; 2l; 2j; 2l; 2m; 2o) (INTASC Standard 9 Embedded)

	4. (d) The teacher brings multiple perspectives to the discussion of content, including attention to learners' personal, family, and community experiences and cultural norms. 5. (e) The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency. 6. (f) The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs. Knowledge- 1. (g) The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction that uses each learner's strengths to promote growth. 2. (h) The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs. 3. (i) The teacher knows about second language acquisition processes and knows how to incorporate instructional strategies and resources to support language acquisition. 4. (j) The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as language, culture, family, and community values. 5. (k) The teacher knows how to access information about the values of diverse cultures and communities	2. Assists diverse learners in processing information and develop skills, incorporating multiple approaches to learning that engage a range of learner preferences. (2a; 2d; 2g; 2h; 2m; 8p) (INTASC Standards 9 and 10 Embedded) 3. Uses information on learners' language proficiency levels, the teacher incorporates tools of language development into planning and instruction, including strategies for making content and academic language accessible to linguistically diverse learners. (1g; 2b; 2e; 2g; 2i; 2j; 2l; 2m 2o; 8p) 4. Includes multiple perspectives in the presentation and discussion of content that include each learner's personal, family, community, and cultural experiences and norms. (2c; 2d; 2j; 2k; 2m) (INTASC Standard 9 Embedded) 5. Applies interventions, modifications,and accommodations based on IEPs, 504s and other legal requirements, seeking advice and support from specialized support staff and families. (2f) (INTASC Standards 9 and 10 Embedded) 6. Uses information on learners' language proficiency levels, the teacher incorporates tools of language development into planning and instruction, including strategies for making content and academic language accessible to linguistically diverse learners. (INTASC Standard 9 Embedded) 7. Follows a process, designated by a school or district, for identifying and addressing learner needs (e.g., Response to Intervention) and documents learner progress. (2f; 2g) (INTASC Standard 9 Embedded) Example Assessment (INTASC Standard 2)- The teacher candidate develops differentiated instruction over a series of lessons for an individual student or small group of students who vary culturally/linguistically or have special needs. The evaluation is based on the candidate's plan, his/her enactment of the plan, his/her assessment of the plan, and the student response. The lesson should provide ample evidence of

	and how to incorporate learners' experiences, cultures, and community resources into instruction. Disposition- 1. (l) The teacher believes that all learners can achieve at high levels and persists in helping each learner reach his/her full potential. 2. (m) The teacher respects learners as individuals with differing personal and family backgrounds and various skills, abilities, perspectives, talents, and interests. 3. (n) The teacher makes learners feel valued and helps them learn to value each other. 4. (o) The teacher values diverse languages and dialects and seeks to integrate them into his/her instructional practice to engage students in learning.	differentiation for individual students through adaptations to the materials, instruction, and assessment of students. Submission Artifacts- Lesson Plans and Individual Student Growth Work Samples (Performance measures drawn directly from INTASC Progressions, pps. 16-19)
Standard 3 **Learning Environments** **- The teacher works with others to create environments that support individual and collaborative learning and that encourage positive social interaction, active engagement in learning, and self-motivation.**	Performance- 1. (a) The teacher collaborates with learners, families, and colleagues to build a safe, positive learning climate of openness, mutual respect, support, and inquiry. 2. (b) The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with ideas and people locally and globally. 3. (c) The teacher collaborates with learners and colleagues to develop shared values and expectations for respectful interactions, rigorous academic discussions, and individual and group responsibility for quality work.	Learning Environments- 3 credit course- (Creating an Environment that Fosters College and Career Ready Skills)- Aligns with INTASC Standard 3 The teaching candidate: 1. Articulates explicit expectations for a safe, positive learning environment, including norms for behavior that include respect for others, as well as responsibility for preparation and completion of work. S/he develops purposeful routines that support these norms. (3a) (INTASC Standards 9 and 10 Embedded) Example Assessment (INTASC Standard 3)- The teacher candidate creates a learning community plan where the physical space of the classroom is organized and detailed, and classroom management policies and procedures are

	4. (d) The teacher manages the learning environment to actively and equitably engage learners by organizing, allocating, and coordinating the resources of time, space, and learners' attention. 5. (e) The teacher uses a variety of methods to engage learners in evaluating the learning environment and collaborates with learners to make appropriate adjustments. 6. (f) The teacher communicates verbally and nonverbally in ways that demonstrate respect for and responsiveness to the cultural backgrounds and differing perspectives learners bring to the learning environment. 7. (g) The teacher promotes responsible learner use of interactive technologies to extend the possibilities for learning locally and globally. 8. (h) The teacher intentionally builds learner capacity to collaborate in face-to-face and virtual environments through applying effective interpersonal communication skills. Knowledge- 1. (i) The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning. 2. (j) The teacher knows how to help learners work productively and cooperatively with each other to achieve learning goals. 3. (k) The teacher knows how to collaborate with learners to establish and monitor elements of a safe and productive learning environment including norms, expectations, routines, and organizational structures.	detailed. The evaluation is based on the effectiveness of the physical space and that the classroom policies and procedures allow all students to be valued and treated equitably. The artifacts should also provide evidence that students and teacher demonstrate genuine caring and respect for one another. Submission Artifacts- Classroom Organization (including physical space), Classroom Management Plan and Expectations, and Classroom Climate Video (Performance measures drawn directly from INTASC Progressions, pps. 21- 23) <u>Classroom Management- 3 credit course-</u> (Creating a Learning Environment for All Learners)-Aligns with INTASC Standard 3 1. Sets expectations for the learning environment appropriate to school/district policies and communicates expectations clearly to families. (3n) (INTASC Standards 9 and 10 Embedded) 2. Is a responsive and supportive listener, seeing the cultural backgrounds and differing perspectives learners bring as assets and resources in the learning environment. (3f; 3r) (INTASC Standard 10 Embedded) 3. Manages the learning environment, organizing, allocating and coordinating resources (e.g., time, space, materials) to promote learner engagement and minimize loss of instructional time. (3d; 8n) (INTASC Standard 10 Embedded) 4. Varies learning activities to involve whole group, small group and individual work, to develop a range of learner skills. (3p) (INTASC Standard 10 Embedded) 5. Communicates verbally and nonverbally in ways that demonstrate respect for each learner. (3f; 3r) (INTASC Standard 10 Embedded)

	4. (l) The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments. 5. (m) The teacher knows how to use technologies and how to guide learners to apply them in appropriate, safe, and effective ways. Disposition- 1. (n) The teacher is committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments. 2. (o) The teacher values the role of learners in promoting each other's learning and recognizes the importance of peer relationships in establishing a climate of learning. 3. (p) The teacher is committed to supporting learners as they participate in decision making, engage in exploration and invention, work collaboratively and independently, and engage in purposeful learning. 4. (q) The teacher seeks to foster respectful communication among all members of the learning community. 5. (r) The teacher is a thoughtful and responsive listener and observer.	6. Provides opportunities for learners to use interactive technologies responsibly. (3g; 3m) (INTASC Standard 9 Embedded) Example Assessment (INTASC Standard 3)- The teacher candidate leads a repeated activity during a portion of the class. The evaluation should be based on the teacher candidate's ability to provide clear directions, manage transitions and student movement, use proactive classroom management strategies, and efficiently engage students in classroom activities. The teacher candidate should demonstrate strong relationships with students, decisive leadership in managing the classroom, the ability to implement organizational routines and procedures, and the skill to respond flexibly to the unexpected. Submission Artifact- Video and Reflection Document (Performance measures drawn directly from INTASC Progressions, pps. 21- 23)
Standard 4 **Content Knowledge** The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and	Performance- 1.(a) The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of content standards. 2. (b) The teacher engages students in learning experiences in the discipline(s) that encourage	Student Intellectual Engagement- 3 credit course- (Differentiation and Application of Content)-Aligns with INTASC Standards 4 and 5 The teaching candidate: 1. Uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of

meaningful for learners to assure mastery of the content.	**learners to understand, question, and analyze ideas from diverse perspectives so that they master the content.** **3. (c) The teacher engages learners in applying methods of inquiry and standards of evidence used in the discipline.** **4. (d) The teacher stimulates learner reflection on prior content knowledge, links new concepts to familiar concepts, and makes connections to learners' experiences.** **5. (e) The teacher recognizes learner misconceptions in a discipline that interfere with learning, and creates experiences to build accurate conceptual understanding.** **6. (f) The teacher evaluates and modifies instructional resources and curriculum materials for their comprehensiveness, accuracy for representing particular concepts in the discipline, and appropriateness for his/her learners.** **7. (g) The teacher uses supplementary resources and technologies effectively to ensure accessibility and relevance for all learners.** **8. (h) The teacher creates opportunities for students to learn, practice, and master academic language in their content.** **9. (i) The teacher accesses school and/or district-based resources to evaluate the learner's content knowledge in their primary language.** **Knowledge-** **1. (j) The teacher understands major concepts, assumptions, debates, processes of inquiry, and ways**	**content standards. (4a; 4j; 4n; 4r; 8e) (INTASC Standard 10 Embedded)** **2. Engages learners in applying methods of inquiry used in the discipline. (4c) (INTASC Standard 10 Embedded)** **3. Links new concepts to familiar concepts and helps learners see them in connection to their prior experiences. (4d; 4r) (INTASC Standard 10 Embedded)** **4. Draws upon his/her initial knowledge of common misconceptions in the content area, uses available resources to address them, and consults with colleagues on how to anticipate learner's need for explanations and experiences that create accurate understanding in the content area. (4e; 4k; 4r 9d) (INTASC Standard 10 Embedded)** **5. Accurately and effectively communicates concepts, processes and knowledge in the discipline, and uses vocabulary and academic language that is clear, correct and appropriate for learners. (4h; 4j; 4l; 5i)** **6. Consults with other educators to make academic language accessible to learners with different linguistic backgrounds. (4g) (INTASC Standards 9 and 10 Embedded)** **7. The teacher models and provides opportunities for learners to understand academic language and to use vocabulary to engage in and express content learning. (4c; 4h; 4o)** **Example Assessment (INTASC Standards 4 and 5)-** **The teacher candidate participates in a lesson study activity with the mentor teacher for a unit of instruction. The teacher candidate will make content explicit through explanation, modeling, representations, and examples as well as providing supplemental explanations to students, creating examples to illustrate the content, guiding student inquiry, and modeling the use of technology and discipline specific thinking skills.** **Submission Artifacts- Lesson Study Reflection Presentation and Video**

<table>
<tr>
<td></td>
<td>of knowing that are central to the discipline(s) s/he teaches.

2. (k) The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.

3. (l) The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.

4. (m) The teacher knows how to integrate culturally relevant content to build on learners' background knowledge.

5. (n) The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) s/he teaches.

Disposition-
1. (o) The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. S/he keeps abreast of new ideas and understandings in the field.

2. (p) The teacher appreciates multiple perspectives within the discipline and facilitates learners' critical analysis of these perspectives.

3. (q) The teacher recognizes the potential of bias in his/her representation of the discipline and seeks to appropriately address problems of bias.

4. (r) The teacher is committed to work toward each learner's mastery of disciplinary content and skills.</td>
<td>(Performance measures drawn directly from INTASC Progressions, pps. 24- 26)</td>
</tr>
</table>

Standard 5 **Application of Content** **- The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**	**Performance-** **1. (a) The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills (e.g., a water quality study that draws upon biology and chemistry to look at factual information and social studies to examine policy implications).** **2. (b) The teacher engages learners in applying content knowledge to real world problems through the lens of interdisciplinary themes (e.g., financial literacy, environmental literacy).** **3. (c) The teacher facilitates learners' use of current tools and resources to maximize content learning in varied contexts.** **4. (d) The teacher engages learners in questioning and challenging assumptions and approaches in order to foster innovation and problem solving in local and global contexts.** **5. (e) The teacher develops learners' communication skills in disciplinary and interdisciplinary contexts by creating meaningful opportunities to employ a variety of forms of communication that address varied audiences and purposes.** **6. (f) The teacher engages learners in generating and evaluating new ideas and novel approaches, seeking inventive solutions to problems, and developing original work.** **7. (g) The teacher facilitates learners' ability to develop diverse social and cultural perspectives that expand their understanding of local and global issues and create novel approaches to solving problems.**	**<u>Student Intellectual Engagement- 3 credit course-</u>** **(Differentiation and Application of Content)-Aligns with INTASC Standards 4 and 5** **The teaching candidate:** **1. Helps learners see relationships across disciplines by making connections between curriculum materials in a content area and related perspectives from another content area or areas. (5i; 5j) (INTASC Standard 10 Embedded)** **2. Provides opportunities for learners to demonstrate their understanding in unique ways, such as model making, visual illustration and metaphor. (INTASC Standards 9 and 10 Embedded)** **3. Engages learners in learning and applying the critical thinking skills used in the content area(s). S/he introduces them to the kinds of problems or issues addressed by the content area(s) as well as the local/global contexts for those issues. (5d; 5k; 5m)) (INTASC Standard 10 Embedded)** **4. Engages learners in applying content knowledge and skills in authentic contexts. (5b) (INTASC Standard 10 Embedded)** **5. Guides learners in gathering, organizing and evaluating information and ideas from digital and other resources and from different perspectives. (5c; 5g; 5k; 5l) (INTASC Standard 9 Embedded)** **6. Structures interactions among learners and with local and global peers to support and deepen learning. (5p) (INTASC Standard 10 Embedded)** **7. Engages learners in developing literacy and communication skills that support learning in the content area(s). S/he helps them recognize the disciplinary expectations for reading different types of text and for writing in specific contexts for targeted purposes and/or audiences and provides practice in both. (INTASC Standard 10 Embedded) (5e; 5h; 5n; 8h)**

	8. (h) The teacher develops and implements supports for learner literacy development across content areas. **Knowledge-** **1. (i) The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches to inquiry, and the strengths and limitations of each approach in addressing problems, issues, and concerns.** **2. (j) The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global awareness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.** **3. (k) The teacher understands the demands of accessing and managing information as well as how to evaluate issues of ethics and quality related to information and its use.** **4. (l) The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals.** **5. (m) The teacher understands critical thinking processes and knows how to help learners develop high level questioning skills to promote their independent learning.** **6. (n) The teacher understands communication modes and skills as vehicles for learning (e.g., information gathering and processing) across disciplines as well as vehicles for expressing learning.** **7. (o) The teacher understands creative thinking processes and how to engage learners in producing original work.**	**Example Assessment (INTASC Standards 4 and 5)-** **The teacher candidate participates in a lesson study activity with the mentor teacher for a unit of instruction. The teacher candidate will make content explicit through explanation, modeling, representations, and examples as well as providing supplemental explanations to students, creating examples to illustrate the content, guiding student inquiry, and modeling the use of technology and discipline specific thinking skills.** **Submission Artifacts- Lesson Study Reflection Presentation and Video** **(Performance measures drawn directly from INTASC Progressions, pps. 27- 29)**

	8. (p) The teacher knows where and how to access resources to build global awareness and understanding, and how to integrate them into the curriculum. **Disposition-** **1. (q) The teacher is constantly exploring how to use disciplinary knowledge as a lens to address local and global issues.** **2. (r)The teacher values knowledge outside his/her own content area and how such knowledge enhances student learning.** **3. (s) The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas.**	
Standard 6 **Assessment** **- The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide decision making for teachers and learners**	**Performance-** **1. (a) The teacher balances the use of formative and summative assessment as appropriate to support, verify, and document learning.** **2. (b) The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.** **3. (c) The teacher works independently and collaboratively to examine test and other performance data to understand each learner's progress and to guide planning.** **4. (d) The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work.**	**<u>Successful Learning for All Students- 3 credit course-</u> (Designing Instruction and Assessment Literacy)-Aligns with INTASC Standards 6, 7, and 8** **The teaching candidate:** **1. Uses data from multiple types of assessments to draw conclusions about learner progress toward learning objectives that lead to standards and uses this analysis to guide instruction to meet learner needs. S/he keeps digital and/or other records to support his/her analysis and reporting of learner progress. (6c; 6g; 6j; 6l; 6o; 6t) (INTASC Standards 9 and 10 Embedded)** **2. Engages in ethical practice of formal and informal assessment implementing various kinds of assessments in the ways they were intended to be used and accurately interpreting the results.(6j; 6k; 6v) (INTASC Standard 9 Embedded)** **3. Participates in collegial conversations to improve individual and collective instructional practice based on formative and**

	5. (e) The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process. **6. (f) The teacher models and structures processes that guide learners in examining their own thinking and learning as well as the performance of others.** **7. (g) The teacher effectively uses multiple and appropriate types of assessment data to identify each student's learning needs and to develop differentiated learning experiences.** **8. (h) The teacher prepares all learners for the demands of particular assessment formats and makes appropriate accommodations in assessments or testing conditions, especially for learners with disabilities and language learning needs.** **9. (i) The teacher continually seeks appropriate ways to employ technology to support assessment practice both to engage learners more fully and to assess and address learner needs.** **Knowledge-** **1. (j) The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.** **2. (k) The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias.** **3. (l) The teacher knows how to analyze assessment data to understand patterns and gaps in learning, to guide planning and instruction, and to provide meaningful feedback to all learners.**	**summative assessment data.(6c) (INTASC Standards 9 and 10 Embedded)** **4. Engages each learner in examining samples of quality work on the type of assignment being given. S/he provides learners with criteria for the assignment to guide performance. Using these criteria, s/he points outs strengths in performance and offers concrete suggestions for how to improve their work. S/he structures reflection prompts to assist each learner in examining his/her work and making improvements. (6d; 6f; 6n; 6o; 6q; 6r; 6s) (INTASC Standards 9 and 10 Embedded)** **5. Matches learning goals with classroom assessment methods and gives learners multiple practice assessments to promote growth. (6b; 6j; 6k)** **6. Uses, designs or adapts a variety of classroom formative assessments, matching the method with the type of learning objective. (6a; 6b; 6j; 6k; 6r; 6t) (INTASC Standard 10 Embedded)** **8. Implements required accommodations in assessments and testing conditions for learners with disabilities and language learning needs. (6i; 6k; 6p; 6u) (INTASC Standard 9 Embedded)** **9. Differentiates assessments, which may include providing more challenging learning goals for learners who are advanced academically.(6k) (INTASC Standard 9 Embedded)** **10. Makes digital and/or other records of learner performance so that s/he can monitor each learner's progress.(6i) (INTASC Standard 9 Embedded)** **Example Assessment (INTASC Standard 6)-** **The teacher candidate will conduct a series of formative assessments associated with a sequence of lessons designed to elicit the higher level thinking skills of the students. Components must include the selection of short and long-term learning goals**

	4. (m) The teacher knows when and how to engage learners in analyzing their own assessment results and in helping to set goals for their own learning. 5. (n) The teacher understands the positive impact of effective descriptive feedback for learners and knows a variety of strategies for communicating this feedback. 6. (o) The teacher knows when and how to evaluate and report learner progress against standards. 7. (p) The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs. Disposition- 1. (q) The teacher is committed to engaging learners actively in assessment processes and to developing each learner's capacity to review and communicate about their own progress and learning. 2. (r) The teacher takes responsibility for aligning instruction and assessment with learning goals. 3. (s) The teacher is committed to providing timely and effective descriptive feedback to learners on their progress. 4. (t) The teacher is committed to using multiple types of assessment processes to support, verify, and document learning. 5. (u) The teacher is committed to making accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.	referenced to an external benchmark, eliciting and interpreting individual student's thinking, recognizing common patterns of student thinking, providing oral and written feedback to students, and identifying and implementing an instructional response or strategy in response to common student thinking. Evaluation should be based on the teacher candidate's ability to accurately describe their students' development of higher level thinking skills over a specified period of time. Submission Artifacts- Student and Teacher Work Samples (Performance measures drawn directly from INTASC Progressions, pps. 30- 33)

	6. (v) The teacher is committed to the ethical use of various assessments and assessment data to identify learner strengths and needs to promote learner growth.	
Standard 7 **Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.**	**Performance-** **1. (a) The teacher individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners.** **2. (b) The teacher plans how to achieve each student's learning goals, choosing appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of learners.** **3. (c) The teacher develops appropriate sequencing of learning experiences and provides multiple ways to demonstrate knowledge and skill.** **4. (d) The teacher plans for instruction based on formative and summative assessment data, prior learner knowledge, and learner interest.** **5. (e) The teacher plans collaboratively with professionals who have specialized expertise (e.g., special educators, related service providers, language learning specialists, librarians, media specialists) to design and jointly deliver as appropriate effective learning experiences to meet unique learning needs.** **6. (f) The teacher evaluates plans in relation to short- and long-range goals and systematically adjusts plans to meet each student's learning needs and enhance learning.** **Knowledge-**	**<u>Successful Learning for All Students- 3 credit course-</u> (Designing Instruction and Assessment Literacy)-Aligns with INTASC Standards 6, 7, and 8** **The teaching candidate:** **1. Plans and sequences common learning experiences and performance tasks linked to the learning objectives, and makes content relevant to learners. (7a; 7c; 7k) (INTASC Standard 10 Embedded)** **2. Uses learner performance data and his/her knowledge of learners to identify learners who need significant intervention to support or advance learning. S/he seeks assistance from colleagues and specialists to identify resources and refine plans to meet learner needs. (7d; 7e; 7n; 7p) (INTASC Standards 9 and 10 Embedded)** **3. Uses the provided curriculum materials and content standards to identify measurable learning objectives based on target knowledge and skills. (7a; 7g) (INTASC Standard 10 Embedded)** **4. Identifies learners who need additional support and/or acceleration and designs learning experiences to support their progress. (7j; 7l; 7p) (INTASC Standard 9 Embedded)** **5. Integrates technology resources into instructional plans. (7k; 7m; 8o; 8r)** **6. Plans instruction using formative and summative data from digital and/or other records of prior performance together with what s/he knows about learners, including developmental levels, prior learning, and interests. (7d; 7f; 7n) (INTASC Standards 9 and 10 Embedded)**

	1. (g) The teacher understands content and content standards and how these are organized in the curriculum. **2. (h) The teacher understands how integrating cross-disciplinary skills in instruction engages learners purposefully in applying content knowledge.** **3. (i) The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.** **4. (j)The teacher understands the strengths and needs of individual learners and how to plan instruction that is responsive to these strengths and needs.** **5. (k) The teacher knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.** **6. (l) The teacher knows when and how to adjust plans based on assessment information and learner responses.** **7. (m) The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).** **Disposition-** **1. (n) The teacher respects learners' diverse strengths and needs and is committed to using this information to plan effective instruction.** **2. (o) The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.**	**7. Uses data from formative assessments to identify adjustments in planning. . (7d; 7l; 7q) (INTASC Standard 10 Embedded)** **8. Identifies learners with similar strengths and/or needs and groups them for additional supports. (7d; 7l; 7q) (INTASC Standard 10 Embedded)** **9. Uses data on learner performance over time to inform planning, making adjustments for recurring learning needs. (7f; 7p) (INTASC Standards 9 and 10 Embedded)** **10. Uses information from informal interactions with families to adjust his/her plans and to incorporate home-based resources to provide further support. (7o; 7q) (INTASC Standards 9 and 10 Embedded)** **11. Identifies learners with similar strengths and/or needs and groups them for additional supports. (7d; 7l; 7q)** **Example Assessment (INTASC Standard 7)-** **The teacher candidate will plan a complete unit of instruction for high student engagement. Such units may include discussions, project-based learning, inquiry-based learning, and/or cooperative learning, among other instructional strategies. This task addresses several teaching practices including designing a sequence of lessons towards a specific learning goal; appraising, choosing, and modifying tasks and texts for a specific learning goal; and setting long- and short-term learning goals for students. Evaluation should be based on the teacher candidate's ability to work collaboratively, plan multiple lessons, create classroom activities, and design new strategies.** **Submission Artifacts- Unit Plan** **(Performance measures drawn directly from INTASC Progressions, pps. 34- 37)**

	3. (p) The teacher takes professional responsibility to use short- and long-term planning as a means of assuring student learning. 4. (q) The teacher believes that plans must always be open to adjustment and revision based on learner needs and changing circumstances.	
Standard 8 Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.	**Performance-** 1. (a) The teacher uses appropriate strategies and resources to adapt instruction to the needs of individuals and groups of learners. 2. (b) The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs. 3. (c) The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and access family and community resources to develop their areas of interest. 4. (d) The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners. 5. (e) The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances. 6. (f) The teacher engages all learners in developing higher order questioning skills and metacognitive processes.	Successful Learning for All Students- 3 credit course- (Designing Instruction and Assessment Literacy)-Aligns with INTASC Standards 6, 7, and 8 The teaching candidate: 1. Directs students' learning experiences through instructional strategies linked to learning objectives and content standards. (7k) (INTASC Standard 10 Embedded) 2. Analyzes individual learner needs (e.g., language, thinking, processing) as well as patterns across groups of learners and uses instructional strategies to respond to those needs. (7j; 8b; 8l; 8p) (INTASC Standards 9 and 10 Embedded) 3. Makes the learning objective(s) explicit and understandable to learners, providing a variety of graphic organizers, models, and representations for their learning. (8a; 8e; 8m) 4. The teacher integrates primary language resources into instruction. (8k; 8m; 8p) (INTASC Standards 9 and 10 Embedded) 5. Seeks assistance in identifying general patterns of need in order to support language learners. (8k; 8m) (INTASC Standards 9 and 10 Embedded) 6. Helps learners use a variety of sources and tools, including technology, to access information related to an instructional objective. S/he helps students learn to evaluate the trustworthiness of sources and to organize the information in a way that would be clear to an authentic audience. (8g; 8j; 8n; 8o; 8r) (INTASC Standards 9 and 10 Embedded)

<table>
<tr>
<td></td>
<td>7. (g) The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.

8. (h) The teacher uses a variety of instructional strategies to support and expand learners' communication through speaking, listening, reading, writing, and other modes.

9. (i) The teacher asks questions to stimulate discussion that serves different purposes (e.g., probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question).

Knowledge-
1. (j) The teacher understands the cognitive processes associated with various kinds of learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.

2. (k) The teacher knows how to apply a range of developmentally, culturally, and linguistically appropriate instructional strategies to achieve learning goals.

3. (l) The teacher knows when and how to use appropriate strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks.

4. (m) The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, visual) convey ideas, foster self-expression, and build relationships.

5. (n) The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning.</td>
<td>7. Develops learners' abilities to participate in respectful, constructive discussions of content in small and whole group settings. S/he establishes norms that include thoughtful listening, building on one another's ideas, and questioning for clarification. (8i; 8q) (INTASC Standards 9 and 10 Embedded)

8. Models the use of non-linguistic representations, concept mapping, and writing to show how learners can express their understanding of content area concepts and assigns work that allows the learners to practice doing so. (8e; 8m; 8q) (INTASC Standard 10 Embedded)

9. Prepares (as appropriate to the learning objective) learners to use specific content-related processes and academic language. S/he also incorporates strategies to build group work skills. (4j) (INTASC Standard 10 Embedded)

10. Poses questions that elicit learner thinking about information and concepts in the content areas as well as learner application of critical thinking skills such as inference making, comparing, and contrasting. (8f; 8g; 8q) (INTASC Standard 10 Embedded)

11. Integrates primary language resources into instruction. (8k; 8m; 8p) (INTASC Standard 9 Embedded)

Example Assessment (INTASC Standard 8)-
The teacher candidate plans and leads a large group discussion. Evaluation should be based on the teacher candidate's ability to engage students, ask questions, and guide the discussion towards a desired curricular outcome.
Submission Artifacts- Lesson Plan and Video

(Performance measures drawn directly from INTASC Progressions, pps. 37- 40)</td>

</table>

	6. (o) The teacher understands how content and skill development can be supported by media and technology and knows how to evaluate these resources for quality, accuracy, and effectiveness. Disposition- 1. (p) The teacher is committed to deepening awareness and understanding the strengths and needs of diverse learners when planning and adjusting instruction. 2. (q) The teacher values the variety of ways people communicate and encourages learners to develop and use multiple forms of communication. 3. (r) The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning. 4. (s) The teacher values flexibility and reciprocity in the teaching process as necessary for adapting instruction to learner responses, ideas, and needs.	
Standard 9 **Professional Learning and Ethical Practice** - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.	Performance- 1. (a) The teacher engages in ongoing learning opportunities to develop knowledge and skills in order to provide all learners with engaging curriculum and learning experiences based on local and state standards. 2. (b) The teacher engages in meaningful and appropriate professional learning experiences aligned with his/her own needs and the needs of the learners, school, and system. 3. (c) Independently and in collaboration with colleagues, the teacher uses a variety of data (e.g., systematic observation, information about learners,	**Standard 9 is embedded in courses identified above.** The teacher candidate: 1. Engages in structured individual and group professional learning opportunities to reflect on, identify, and address improvement needs and to enable him/her to provide all learners with engaging curriculum and learning experiences. (5r; 9a; 9b; 9k; 9n; 10f; 10t) (Enrollment and Participation in Alternate Authorization Program/Completion of Modules 1-5) 2. Completes professional learning processes and activities required by the state in order to meet recertification or re-licensure requirements. (9b; 9k; 9nl; 10t) (Enrollment and Participation in Alternate Authorization Program/Completion of Modules 1-5)

	research) to evaluate the outcomes of teaching and learning and to adapt planning and practice. 4. (d) The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving. 5. (e) The teacher reflects on his/her personal biases and accesses resources to deepen his/her own understanding of cultural, ethnic, gender, and learning differences to build stronger relationships and create more relevant learning experiences. 6. (f) The teacher advocates, models, and teaches safe, legal, and ethical use of information and technology including appropriate documentation of sources and respect for others in the use of social media. Knowledge- 1. (g) The teacher understands and knows how to use a variety of self-assessment and problem-solving strategies to analyze and reflect on his/her practice and to plan for adaptations/adjustments. 2. (h) The teacher knows how to use learner data to analyze practice and differentiate instruction accordingly. 3. (i) The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others. 4. (j) The teacher understands laws related to learners' rights and teacher responsibilities (e.g., for educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).	3. Actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving. (9d) (Embedded in Module 5) 4. Observes and reflects upon learners' responses to instruction to identify areas and set goals for improved practice. (7p; 9c; 9g; 9l) (Embedded in Module 5) 5. Seeks and reflects upon feedback from colleagues to evaluate the effects of her/his actions on learners, colleagues and community members. (9a; 9g; 9m; 9n) (Embedded in Modules 4 and 5) 6. Gathers, synthesizes and analyzes a variety of data from sources inside and outside of the school to adapt instructional practices and other professional behaviors to better meet learners' needs. (9a; 9c; 9g; 9h; 9k; 9l; 9n) (Embedded in Module 5) 7. Acts in accordance with ethical codes of conduct and professional standards. (9o) (Embedded in Module 5) 8. Complies with laws and policies related to learners' rights and teachers' responsibilities. (9j; 9o) (Embedded in Module 3) 9. Accesses information and uses technology in safe, legal and ethical ways. (9f; 9j; 9o; 9o) (Embedded in Module 5) 10. Follows established rules and policies to ensure learners access information and technology in safe, legal and ethical ways. (f) (Embedded in Modules 3, 4, and 5) 11. Recognizes how his/her identity affects perceptions and biases and reflects on the fairness and equity of his/her decisions.(4q; 9e; 9m) (Embedded in Modules 2 and 5) 12. Accesses resources to deepen his/her understanding of the cultural, ethnic, gender and learning differences among learners and their communities. (9e) (Embedded in Modules 1, 4, and 5)

	5. (k)The teacher knows how to build and implement a plan for professional growth directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school- and system-wide priorities. Disposition- 1. (l) The teacher takes responsibility for student learning and uses ongoing analysis and reflection to improve planning and practice. 2. (m) The teacher is committed to deepening understanding of his/her own frames of reference (e.g., culture, gender, language, abilities, ways of knowing), the potential biases in these frames, and their impact on expectations for and relationships with learners and their families. 3. (n) The teacher sees him/herself as a learner, continuously seeking opportunities to draw upon current education policy and research as sources of analysis and reflection to improve practice. 4. (o)The teacher understands the expectations of the profession including codes of ethics, professional standards of practice, and relevant law and policy.	13. Reflects on the needs of individual learners and how well they are being addressed, seeking to build support for all learners. (9l) (Embedded in Modules 1, 4, and 5) Example Assessment (INTASC Standard 9)- The teacher candidate video records a 12-15 minute segment of teaching, analyzes it, and writes a reflective paper. Evaluation should include the teacher candidate's ability to collect a teaching video, accurately and objectively describe student behavior, make inferences about teaching, and adjust teaching strategies based on an analysis of data. Submission Artifacts- Video and Reflective Paper (Performance measures drawn directly from INTASC Progressions, pps. 41- 44)
Standard 10 **Leadership and Collaboration** -The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals,	Performance- 1. (a) The teacher takes an active role on the instructional team, giving and receiving feedback on practice, examining learner work, analyzing data from multiple sources, and sharing responsibility for decision making and accountability for each student's learning.	Standard 10 is embedded in courses identified above. The teacher candidate: 1.Participates on the instructional team(s) and uses advice and support from colleagues to meet the needs of all learners. (10a; 10n; 10r) (Embedded in Modules 4 and 5) 2. Participates in school-wide efforts to implement a shared vision and contributes to a supportive culture. (10a; 10c; 10n; 10o; 10p; 10r) (Embedded in Module 2)

and community members to ensure learner growth, and to advance the profession.	**2. (b) The teacher works with other school professionals to plan and jointly facilitate learning on how to meet diverse needs of learners.** **3. (c) The teacher engages collaboratively in the school-wide effort to build a shared vision and supportive culture, identify common goals, and monitor and evaluate progress toward those goals.** **4. (d) The teacher works collaboratively with learners and their families to establish mutual expectations and ongoing communication to support learner development and achievement.** **5. (e) Working with school colleagues, the teacher builds ongoing connections with community resources to enhance student learning and well being.** **6. (f) The teacher engages in professional learning, contributes to the knowledge and skill of others, and works collaboratively to advance professional practice.** **7. (g) The teacher uses technological tools and a variety of communication strategies to build local and global learning communities that engage learners, families, and colleagues.** **8. (h) The teacher uses and generates meaningful research on education issues and policies.** **9. (i) The teacher seeks appropriate opportunities to model effective practice for colleagues, to lead professional learning activities, and to serve in other leadership roles.** **10. (j) The teacher advocates to meet the needs of learners, to strengthen the learning environment, and to enact system change.**	**3. Elicits information about learners and their experiences from families and communities and uses this ongoing communication to support learner development and growth. (10d; 10m; 10q) (Embedded in Module 5)** **4. Uses technology and other forms of communication to develop collaborative relationships with learners, families, colleagues and the local community. (8h; 10d; 10g) (Embedded in Modules 1, 2, 3, 4, and 5)** **5. Leads in his/her own classroom, assuming responsibility for and directing student learning toward high expectations. (9l) (Embedded in Modules 1, 2, 3, 4, and 5)** **6. Makes practice transparent by sharing plans and inviting observation and feedback. (10r) (Embedded in Modules 1, 4, and 5)** **7. Works to improve practice through action research. (10h) (Embedded in Modules 1, 3, 4, and 5)** **Example Assessment (INTASC Standard 10)-** **The teacher candidate will plan and conduct a meeting with a parent or guardian. Evaluation should be based on the teacher candidate's ability to clearly communicate student performance, use evidence to support said description, recommend an approach for improving student performance, and suggest parental strategies for supporting the approach.** **Submission Artifacts- Video Student Work Samples and Evaluation** **(Performance measures drawn directly from INTASC Progressions, pps. 45- 47)**

	11. (k) The teacher takes on leadership roles at the school, district, state, and/or national level and advocates for learners, the school, the community, and the profession. Knowledge- **1. (l) The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.** **2. (m) The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence interferes with learning.** **3. (n) The teacher knows how to work with other adults and has developed skills in collaborative interaction appropriate for both face-to-face and virtual contexts.** **4. (o) The teacher knows how to contribute to a common culture that supports high expectations for student learning.** Disposition- **1. (p) The teacher actively shares responsibility for shaping and supporting the mission of his/her school as one of advocacy for learners and accountability for their success.** **2. (q) The teacher respects families' beliefs, norms, and expectations and seeks to work collaboratively with learners and families in setting and meeting challenging goals.** **3. (r) The teacher takes initiative to grow and develop with colleagues through interactions that enhance practice and support student learning.**	

	4. (s) The teacher takes responsibility for contributing to and advancing the profession. **5. (t) The teacher embraces the challenge of continuous improvement and change.**

Fact Sheet
CSI Proposed Bachelors in Education

Workforce Need

CSI's reputation for rapid and responsive service to Region IV workforce needs is at the forefront of this proposal. The proposal is a direct response to the requests of CSI district taxpayers and has unanimous support of the locally elected CSI Board of Trustees.

- Region IV has approximately ***370 annual openings for teachers***. All teacher education programs across the state produce an average of 846 completers. To fill the gap Region IV would ***need to hire 44%*** of the completers.
- The proposed program ***does not replace*** ISU or other university programming, but ***augments*** it by providing additional choices for regional students in a ***compressed timeframe*** and alternative instructional strategy ***emphasizing work-based learning***. This directly supports the recommendations of the SBOE Teacher Pipeline Committee (see below).

	State DOL data	**Federal DOL data**	**Other data source: (describe)**
Local (Service Area)	Projected demand for new teachers based upon growth in Region IV: 1% annually or 23 teachers every year.		ISBE Teacher Pipeline Report Attrition Rate of Teachers in Region IV: Average of 15% annually or 347 teachers every year.

- The number of teachers in Region IV ***working on alternative routes to authorization doubled*** in two years from 91 or 4% to ***166 or 8%.***

- "It also appears that the gap between fully certified vs. interim staff is widening between urban districts and all types of rural districts: fringe, distant, and remote." 2017 Pipeline Report

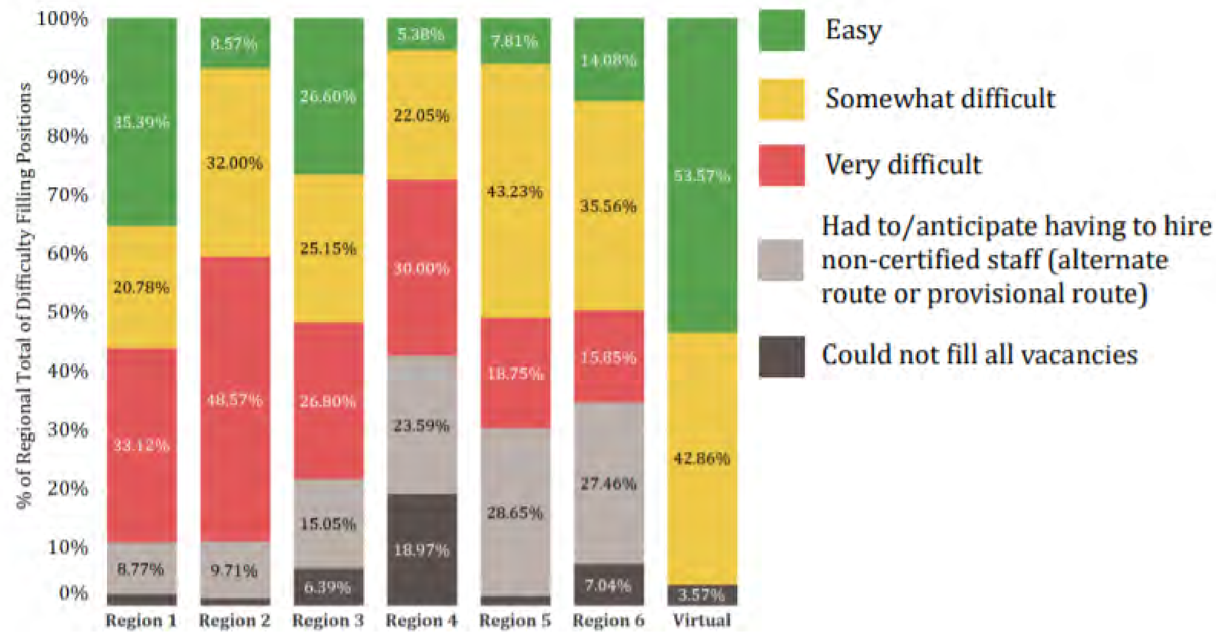
- ***Rural Remote districts consistently struggle with staffing issues.***

Number of School Districts in Region IV in Rural Areas

Town – Remote	**Rural – Fringe**	**Rural – Distant**	**Rural - Remote**
Blaine County	Buhl Joint	Castleford	Bliss
Cassia County	Gooding	Hagerman	Camas County
Filer	Wendell	Hansen	Dietrich
Jerome			Murtaugh
Kimberly			Richfield
Minidoka			Shoshone
Twin Falls			

- When ask “How easy or difficult was it to fill vacancies for the 2016-2017 and/or from the 2017-2018 school years?” The 2017 Teachers Pipeline report survey indicated ***42.56% of Region IV schools fell into the categories of “Could not fill all vacancies and had to or anticipate having to hire non-certified staff”*** the highest percentage in the state.

Distribution of Responses by Region for “How easy or difficult was it to fill vacancies for the 2016-2017 and/or 2017-18 school years in each of the following fields?”



- The conclusion of the Pipeline report indicates that ***retention is the primary reason*** Idaho is facing a teacher shortage. 76% of the 1550 teachers who exit the profession each year do so before retirement age. *In 2015-2016, 15% of the teachers who left the profession had no prior experience and 11% had 1-3.9 years of experience*. The committee identified ***three areas that could be acted upon.***

    1. Compensation that is competitive with other occupations
    2. Preparation that ***focuses on pedagogical training and affordability***
    3. ***Mentoring and induction programs that utilize trained mentors*** and adequate release time for collaboration.

Solutions

Affordable Tuition

Academic Year	**BSU**	**ISU**	**UOI**	**NNU**	**COI**	**CSI**
Full Time (16CR)	$7,694	$7,166	$7,488	$29,300	$29,400	$5200*
Per Credit	$310	$364	$374	$1,265	$1,225	$140

*Includes $1000 per year - student fees for Education majors upper division

Apprenticeship Model

Mentoring and induction programs that utilize trained mentors

- Cohort group
- 28 Credits of Field Experience in K-12 schools, begins in the first semester.
- All field experience is mentored by master teachers.
- Degree is completed in three years; continuous enrollment including two summer semesters.
- Total cost of the CSI degree $19,600 compared to ISU degree $28,664 (as of this writing)

Support from Region IV Superintendents

CSI constituents, taxpayers, and stakeholders

March 21, 2018, Region IV Idaho School Superintendents Association, ***voted unanimously to support CSI efforts to develop a Bachelor's Degree in Education.***

"I'm writing this letter on behalf of the Region IV Idaho School Superintendents Association. At our meeting on March 21, 2018, Region IV superintendents unanimously voted to support of The College of Southern Idaho in their efforts to create a four-year degree program in the area of education.

The study indicates the Magic Valley is experiencing an even greater need for certified teachers that any other region in the state. This great need exists, yet our valley does not have a local higher education institution that allows an individual to receive a teaching certificate.

Region IV superintendents encourage you endorse the program proposed by Dr. Fox and the College of Southern Idaho." **Dale Layne, Superintendent of Schools, Jerome School District; President, Region IV ISSA**

"I am writing this letter in full support of the College of Southern Idaho offering a four-year degree program in education. Our district will do whatever we can to partner with CSI to make this program a reality.

There are many individuals in the Magic Valley willing to enter the educational field yet do not have the opportunity because of being place bound. This venture would provide a positive impact for our local economy as it would place many into a viable, necessary and productive field.

On behalf of the Kimberly School District, I would like to thank you for your consideration of developing a four-year degree program." **Luke Schroeder, Superintendent of Kimberly School District**

"I am writing this letter to fully endorse the College of Southern Idaho's proposal to offer a four-year degree program in education. I see this as a critical path to addressing the teacher shortage in our region.

One of the challenges in addressing this need is the fact the Magic Valley does not have a local higher education institution that allows the individual to receive a teaching certificate.
…. the Twin Falls School District stands ready to assist in any way we can to support the proposed program." **Brady Dickinson, Superintendent of Twin Falls School District**
"The Minidoka School FDistrict will assist in amy way paossible to support the proposed four-year education program.

I encourage you to endorse the program proposed by Dr. Fox and the College of Southern Idaho."
Dr. Kennetch Cox, Superintendent of Minidoka School District

Support from Area Legislators

"The addition of a Teacher Preparation program would offer an excellent opportunity for workforce members in our area. With recent data showing the Magic Valley having the largest proportion of teacher shortages throughout the state, a new Teacher Preparation program would offer a home grown solution to a national problem as well as a regional one with students receiving degrees and staying in the area." **Sally Toone, Idaho State Representative District 26**

"We need a four-year degree program in education in the Magic Valley, and CSI is the obvious choice. School Districts are willing to partner in teacher preparation programs, enhanced mentoring and support for teachers to increase retention of all teachers. …… I am very supportive of establishing a Bachelor of Arts Degree in Elementary Education at CSI and will offer my assistance wherever needed." **Senator Bert Brackett, Idaho State Senate District 23**

"The current demand for quality educators and the lack of a four-year degree program in the Magic Valley can be partially addressed by offering a four-year degree at CSI. Offering a program through CSI will allow Magic Valley degree seeking students a low-cost opportunity to enter the teaching profession and provide creative opportunities to work with the various school districts, many rural, in the CSI immediate service area." **Lance Clow, Idaho State Representative District 26**

Congruence with State Board of Education Strategic Plan

The program proposed directly addresses the Idaho SBOE strategic goals and objectives, and does so at a lower price point for students, thereby increasing access:

GOAL 2: EDUCATIONAL ATTAINMENT – Idaho's public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.
Objective A: Higher Level of Educational Attainment – Increase completion of certificates and degrees through Idaho's educational system.

Objective B: Timely Degree Completion – Close the achievement gap, boost graduation rates and increase on-time degree completion through.
Objective C: Access - Increase access to Idaho's robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.

GOAL 3: WORKFORCE READINESS - The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.
Objective A: Workforce Alignment – Prepare students to efficiently and effectively enter and succeed in the workforce.

Cost to the State of Idaho

According to Idaho Code, community college baccalaureate programs must be locally funded and implicate NO state funding, which would include any future outcomes-based funding (OBF) or enrollment workload adjustment (EWA).

COLLEGE OF SOUTHERN IDAHO

SUBJECT

Bachelor of Applied Science-Advanced Food Technology

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, III.G., Section 33-107(8), Idaho Code and Section 33-2107A, Idaho Code

ALIGNMENT WITH STRATEGIC PLAN

The proposed Bachelor of Applied Science (BAS) in Advanced Food Technology aligns with the State Board of Education's Idaho K-20 Public Education Strategic Plan for FY2019 through 2024. Specifically, Goal 2: Educational Attainment, Objectives A and C.

"Milk is Idaho's top commodity based on market receipts, making the dairy sector the leading sector in food processing. Approximately 75% of the state's dairy cows are in South Central Idaho leading to the cluster of dairy manufacturers in the region. The concentration of food processing in south Idaho is 6.5% greater than the national average. The average food processing wage in south central Idaho is $53,971-35% higher than the average wage of all Idaho jobs at $40,061."
Food Processing Industry in Idaho, Idaho Department of Labor

Goal 2 (Educational Attainment), Objective A (Higher Lever of Educational Attainment). There is no other Bachelor of Applied Science in Advanced Food Technology offered in the state. CSI's affordable tuition plus the geographic location of the program offer the opportunity for an increase in the number of students who move through the education system.

Goal 2 (Educational Attainment), Objective C (Access). The College of Southern Idaho's (CSI) proposed Bachelors of Applied Science in Advanced Food Technology is accessible to all Idaho students but particularly benefits the students of Region IV where the need is the greatest. The program would also increase the options for the re-integration of adult learners, including veterans, into the education system. According to the U.S. Census Quarterly Workforce Indicator's report, 52% of Idahoans who work in the manufacturing sector are between the ages of 35-54. The proposed program was purposely designed to allow working students to continue their education and upgrade skills to become eligible for higher paying supervisory work.

Goal 3 (Workforce Readiness), Objective A (Workforce Alignment). The program will prepare students to meet a specific regional and statewide workforce demand in the dairy industry, as described above and in the next section.

BACKGROUND/DISCUSSION

The College of Southern Idaho is responding to a workforce need in its area of service, Region IV. The number of companies moving or expanding in South Central Idaho has continued to increase; Chobani, Glanbia, and McCain Foods have not only moved or expanded their production facilities they have also relocated their research facilities to the valley.

"Many of Idaho's largest food manufacturers similarly spent millions building or expanding plants to be close to the supply chain, said Ethan Mansfield, economist for the Idaho Department of Labor. Glanbia, Chobani, and other recent Idaho additions are here because the state's dairy center."

These expansions have increased the need for research technicians and supervisory personnel, CSI is responding to the requests from the industry to educate the workforce they currently need and plan to increase into the future. "Growing their own" has been the mantra for these companies as the only way they can fill their positions. Almost all of them have college tuition reimbursement plans to support and encourage their employees to continue their education. They need people with the skills this program will provide to fill current and future positions.

Many of CSI's expected student body are currently employed in the industry and would like to advance in their career. The most frequent opportunities occur in supervision or management positions and require the candidate to have a Bachelor's degree. A great number of potential students are place bound due to their current positions or family obligations. This program will allow students who are working full-time and have family commitments to take classes on a part-time basis and achieve their career goals. CSI has reported several currently enrolled students have expressed an interest in this program. They are currently looking at online programs that do not have a food science emphasis and feel that a BAS in CSI's Advanced Food Technology program will help them advance in their current positions.

IMPACT

The impact to the food manufacturing companies in Region IV would be significant; CSI is responding to the requests from the industry to educate the workforce they currently need and plan to increase into the future.

ATTACHMENTS

Attachment 1 – Proposal – BAS in Advanced Food Technology
Attachment 2 – Letters of Support

STAFF COMMENTS AND RECOMMENDATIONS

The proposed BAS in Advanced Food Technology is listed in CSI's draft Three-Year Plan, which is scheduled for approval at the Board's August meeting with a proposed implementation date of Fall 2019. As provided in Board Policy III.Z, no institution has the statewide program responsibility for applied baccalaureate programs. Each institution has a service region program responsibility consistent with Board Policy III.Z to assess and ensure the delivery of all educational programs and services necessary to meet the educational workforce needs within its assigned service region. Currently, community colleges are not included in the Academic Service Regions for the responsibility of offering undergraduate (baccalaureate) degrees. Proposed amendments in Board Policy III.Z will be considered by the Board at the June meeting to provide for community colleges in the Academic Service Regions to serve alongside the four-year institutions in sharing responsibility for meeting undergraduate program needs.

CSI has identified a need in Region IV for an applied baccalaureate degree in Advanced Food Technology. Currently CSI offers an Associate of Applied Science and Intermediate Technical Certificate in Food Processing Technology. No institution is offering a BAS in Advanced Food Technology. It can also be noted that Idaho State University has expressed interest in exploring possibilities to collaborate with CSI on this program.

The proposal completed the program review process and was shared with the Council on Academic Affairs and Programs on May 24, 2018 and with the Committee on Instruction, Research, and Student Affairs on June 7, 2018. The proposal has also been reviewed by the State Division of Career-Technical Education and recommends approval.

Staff recommends approval, as this aligns with the mission of the institution to deliver technical training that is responsive to workforce needs. The degree is not an academic baccalaureate degree; and therefore would not conflict with program delivery responsibilities outlined for four-year institutions in Board Policy III.Z.

BOARD ACTION

I move to approve the request by the College of Southern Idaho to create a new program that will award a Bachelor of Applied Science in Advanced Food Technology in substantial conformance to the program proposal submitted as Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

Idaho State Board of Education

Proposal for **Undergraduate/Graduate Degree** Program

Date of Proposal Submission:	April 9, 2018
Institution Submitting Proposal:	College of Southern Idaho
Name of College, School, or Division:	Agriculture
Name of Department(s) or Area(s):	Agriculture

Program Identification for Proposed New or Modified Program:

Program Title:	Advanced Food Technology					
Degree:	BAS	Degree Designation	x	Undergraduate		Graduate
Indicate if Online Program:	x	Yes – a portion of the program is available online.		No		
CIP code (consult IR /Registrar):	01.1002 - FOOD TECHNOLOGY AND PROCESSING					
Proposed Starting Date:	Fall 2019					
Geographical Delivery:	Location(s)	Twin Falls	Region(s)			
Indicate (X) if the program is/has:	x	Self-Support		Professional Fee		
Indicate (X) if the program is:	x	Regional Responsibility		Statewide Responsibility		

Indicate whether this request is either of the following:

- [x] New Degree Program
- [ ] Undergraduate/Graduate Certificates (30 credits or more)
- [ ] Expansion of Existing Program
- [ ] Consolidation of Existing Program
- [ ] New Off-Campus Instructional Program
- [ ] Other (i.e., Contract Program/Collaborative

Cindy L Bond	4/10/18		
College Dean (Institution)	Date	Vice President for Research (Institution; as applicable)	Date
Graduate Dean or other official (Institution; as applicable)	Date	Academic Affairs Program Manager, OSBE	Date
Jeffrey M Harmon	3-27-18		
EVP/Chief Fiscal Officer (Institution)	Date	Chief Academic Officer, OSBE	Date
Todd Schwarz	3.27.18		
Provost/VP for Instruction (Institution)	Date	SBOE/Executive Director Approval	Date
[signature]	4/10/18		
President	Date		

Page 1

Before completing this form, refer to Board Policy Section III.G., Postsecondary Program Approval and Discontinuance. This proposal form must be completed for the creation of each new program. All questions must be answered.

Rationale for Creation or Modification of the Program

1. **Describe the request and give an overview of the changes that will result.** Will this program be related or tied to other programs on campus? Identify any existing program that this program will replace.

   The College of Southern Idaho currently offers Food Processing Technology and Automation Engineering Technology programs. The college offers a Basic Technical Certificate, Intermediate Technical Certificate, and Associates of Applied Science in each. The new Bachelors of Applied Science (BAS) In Advanced Food Technology will leverage the current programs to fill a gap in the local workforce. Existing programs will help create the BAS pathway for students who want upward mobility in the industry.

2. **Need for the Program**. Describe the student, regional, and statewide needs that will be addressed by this proposal and address the ways in which the proposed program will meet those needs.

   "Milk is Idaho's top commodity based on market receipts, making the dairy sector the leader in food processing. Seventy-five percent of the state's dairy cows are in south-central Idaho leading to the cluster of dairy manufactures in the region. The concentration of food processing in southern Idaho is 6.5% greater than the national average. The average food processing wage in south central Idaho is $53,971 – 35 percent higher than the average wage of all Idaho jobs at $40,061."--*Food Processing Industry in Idaho, Idaho Department of Labor*

   Between the last half of 2016 and the second quarter of 2017, south-central Idaho increased manufacturing jobs by 4.8% for a total of 10,100 employees in the food sector. The rest of the state grew manufacturing jobs 2.8%. *–Idaho Department of Labor*

   a. **Workforce need:** Provide verification of state workforce needs that will be met by this program. Include State and National Department of Labor research on employment potential. Using the chart below, indicate the total projected annual job openings (including growth and replacement demands in your regional area, the state, and nation. Job openings should represent positions which require graduation from a program such as the one proposed. Data should be derived from a source that can be validated and must be no more than two years old.

List the job titles for which this degree is relevant:

1. Production Supervisor
2. Quality Manager
3. Maintenance or Controls Supervisor and Managers
4. Sanitation Manager
5. Supply Chain Logistics
6. Transportation and Warehousing

	State DOL data	Federal DOL data	Other data source: (describe)
Local (Service Area)	Food Manufacturing – 2007 – 2017 -58% increase in Jerome County, 48% increase in Twin Falls County, 41% increase in Minidoka County, 18% increase in Gooding and Cassia Counties		
State	First Line Supervisors - 46% increase change from 2007 – 2017, Operations Managers – 45% increase change from 2007 - 2017		
Nation		210,800 job openings (2016-2026) for General and Operations Managers, 59,500 job openings for first line supervisors	

Provide (as appropriate) additional narrative as to the workforce needs that will be met by the proposed program.

Unemployment in the Magic Valley is currently at 2.4%. A cursory look through the employment advertisements show many of our food manufacturing companies have multiple open positions, many are for front line supervisors and require a Bachelor's degree. The company representatives that make up our advisory board frequently discuss the hardships of hiring employees who have the necessary education and managerial skills.

The following companies have announced expansions and or plan to hire additional employees: Clif Bar, Chobani, Novolex, McCain Foods, and Fabri-Kal. At a recent Technical Advisory Board meeting for our Food Processing and Automation Engineering programs; a survey was circulated asking local industry if there was a need for BAS in Food Manufacturing and what the student learning outcomes of the program should look like. Companies including: Chobani, Idaho Milk Products, Southern Idaho Foods, McCain Foods, Commercial Creamery, Agropur, Amalgamated Sugar, and Clif Bar all responded with a positive response. (See Appendix 1. Survey Results)

b. **Student need.** What is the most likely source of students who will be expected to enroll (full-time, part-time, outreach, etc.). Document student demand by providing information you have about student interest in the proposed program from inside and outside the institution. If a survey was used, please attach a copy of the survey instrument with a summary of results.

Many of CSI's expected student body are currently employed in the industry and would like to advance in their career. The most frequent opportunities occur in supervision or management positions and require the candidate to have a Bachelors Degree. A great number of our potential students are place bound due to their current positions or family obligations. This program will allow students who are working full-time and have family commitments to take classes on a part-time basis and achieve their career goals. Several of our currently enrolled students have expressed an interest in this program. They are currently looking at online programs that do not have a food science emphasis and know a BAS in CSI's Advanced Food Technology program will help them advance in their current positions.

c. **Economic Need**: Describe how the proposed program will act to stimulate the state economy by advancing the field, providing research results, etc.

The number of company's moving or expanding in south-central Idaho has continued to increase; Chobani, Glanbia, and McCain Foods have not only moved or expanded their production facilities they have also moved their research facilities to the valley.

"Many of Idaho's largest food manufacturers similarly spent millions building or expanding plants to be close to the supply chain" said Ethan Mansfield, economist for the Idaho Department of Labor." Glanbia, Chobani, and other recent Idaho additions are here because the state's dairy center."

These expansions have increased the need for research technicians and supervisory personnel, the College is responding to the requests from the industry to educate the workforce they currently need and plan to increase into the future. "Growing their own" has been the mantra for these companies as the only way they can fill their positions. Almost all of them have college tuition reimbursement plans to support and encourage their employees to continue their education. They need people with the skills this program will provide to fill current and future positions.

d. **Societal Need**: Describe additional societal benefits and cultural benefits of the program.

Current students, working in food production, want to advance their career goals and currently do not have that opportunity. CSI's program will provide the opportunity to stay in the area and achieve their educational goals.

e. **If Associate's degree, transferability**: NA

3. **Similar Programs.** Identify similar programs offered within Idaho and in the region by other in-state or bordering state colleges/universities.

CSI's program is unique to the area. Although other colleges/universities in the state, and in surrounding states have Food Science, Business, or Supply Chain Management programs none have a program that combines these topics and allows students to apply the skills as part of their education. Other programs are designed for the more traditional student, this program is designed for part-time students who are currently working. In addition, this program is focused on the applied skills that students will use on the first day on the job.

Similar Programs offered <u>by Idaho public institutions</u> (list the proposed program as well)		
Institution Name	**Degree name and Level**	**Program Name and brief description if warranted**
College of Southern Idaho	Bachelors of Applied Science – Advanced Food Technology	Advanced Food Technology – the program is designed to provide an understanding of all aspects of food processing with emphasis on quality management and logistics.

Similar Programs offered <u>by other Idaho institutions and by institutions in nearby states</u>		
Institution Name	**Degree name and Level**	**Program Name and brief description if warranted**
NA		

4. **Justification for Duplication with another institution listed above.** (if applicable). If the proposed program is similar to another program offered by an Idaho public institution, provide a rationale as to why any resulting duplication is a net benefit to the state and its citizens. Describe why it is not feasible for existing programs at other institutions to fulfill the need for the proposed program.

   There are no other programs in the state.

5. **Describe how this request supports the institution's vision and/or strategic plan.**

The College of Southern Idaho's mission includes the following goals and objectives that align with the request for a Teacher Certification program on our campus:

GOAL 1: COMMUNITY SUCCESS As a community college, we are committed to responding to the diverse needs of the communities we serve and to taking a leadership role in improving the quality of life of the members of those communities.

Objective A: Strengthen the social fabric in the communities we serve.

Objective B: Cultivate economic partnerships across the communities we serve.

Objective C: Meet the workforce needs of the communities we serve.

GOAL 2: STUDENT SUCCESS As an institution of higher education, we exist to meet the diverse educational needs of the communities we serve. Above all institutional priorities is the desire for every student to experience success in the pursuit of a quality education.

Objective A: Foster participation in postsecondary education.
Objective B: Reinforce a commitment to instructional excellence.
Objective C: Support student progress toward achievement of educational goals.
Objective D: Provide evidence of achievement of student learning outcomes.

Objective E: Offer opportunities for student engagement that go beyond the classroom.

CSI will also commit to the same level of excellence in educational practices extant in all of our programs. CSI will use data to constantly improve and monitor the program much as it does for all workforce programs, measuring retention, completion, and post-graduation employment statistics.

6. **Assurance of Quality.** Describe how the institution will ensure the quality of the program. Describe the institutional process of program review. Where appropriate, describe applicable specialized accreditation and explain why you do or do not plan to seek accreditation.

   The existing Food Processing program has a robust industry advisory group that has, and will continue to help shape the curriculum of the BAS. In addition, all CSI programs complete an annual program review; the process includes an analysis of program learning outcomes, enrollment trends, employment data, and a review of system level outcomes. The College is also accredited by the Northwest Commission on Colleges and Universities.

7. **In accordance with Board Policy III.G., an external peer review is required for any new doctoral program.** Attach the peer review report as **Appendix B**.

8. **Teacher Education/Certification Programs** All Educator Preparation programs require review from the Professional Standards Commission (PSC) and approval from the Board. In addition to the proposal form, the Program Approval Matrix (**Appendix C**) is required for any new and modifications to teacher education/certification programs, including endorsements. The matrix must be submitted with the proposal to OSBE and SDE using the online academic program system as one document.

9. **Five-Year Plan: Is the proposed program on your institution's approved 5-year plan? Indicate below.**

   Yes _X_ No ____

   Proposed programs submitted to OSBE that are not on the five-year plan must respond to the following questions and meet <u>at least one criterion listed below</u>.

   a. **Describe why the proposed program is not on the institution's five year plan.** When did consideration of and planning for the new program begin?

   b. **Describe the immediacy of need for the program.** What would be lost were the institution to delay the proposal for implementation of the new program until it fits within the five-year planning cycle? What would be gained by an early consideration?

   The food manufacturing industry is currently growing at a rapid pace in the Magic Valley. With the low unemployment and addition of new jobs the industry needs more trained personal to fill positions as soon as possible. The advisory has agreed that students with the skills gained in this program will find employment quickly. In fact, many of the potential students are currently working in the facility but would be promoted if they were able to gain these skills.

   Criteria. As appropriate, discuss the following:

i. How important is the program in meeting your institution's regional or statewide program responsibilities? Describe whether the proposed program is in response to a specific industry need or workforce opportunity.

The College of Southern Idaho is committed to respond to workforce needs in our local industry and the need for students to find gainful employment. The BAS will fill a gap in our local food processing industry, helping them to grow and evolve as well as providing opportunities for students. Management positions in the food manufacturing industry pay a competitive wage allowing local families to thrive.

ii. Explain if the proposed program is reliant on external funding (grants, donations) with a deadline for acceptance of funding.

iii. Is there a contractual obligation or partnership opportunity to justify the program? NA

iv. Is the program request or program change in response to accreditation requirements or recommendations? NA

v. Is the program request or program change in response to recent changes to teacher certification/endorsement requirements? NA

Curriculum, Intended Learning Outcomes, and Assessment Plan

10. Curriculum for the proposed program and its delivery.

a. **Summary of requirements.** Provide a summary of program requirements using the following table.

Credit hours in required courses offered by the department (s) offering the program.	62
Credit hours in required courses offered by other departments:	10
Credit hours in institutional general education curriculum	36
Credit hours in free electives	12
Total credit hours required for degree program:	120

b. **Additional requirements.** Describe additional requirements such as comprehensive examination, senior thesis or other capstone experience, practicum, or internship, some of which may carry credit hours included in the list above.

The program includes eight credits of internship, four in the junior and senior year. Many of our students will be working in the industry and the internship credits and student learning outcomes will be individually developed for each student. The intent is to allow students to work directly with their employers to develop a meaningful internship experience. For students not currently working in the field, our instructors will work with the student and local industry to develop a meaningful internship.

11. Program Intended Learning Outcomes and Connection to Curriculum.

a. Intended Learning Outcomes. List the Intended Learning Outcomes for the proposed program, using learner-centered statements that indicate what will students know, be able to do, and value or appreciate as a result of completing the program.

Students will be able to:

Develop effective communication skills:

- Present technical data in a clear and concise manner.
- Demonstrate respect for others and effectively manage co-workers and direct reports in a manufacturing environment.
- Demonstrate the highest standards of integrity and ethics while providing leadership and guidance.

Develop critical thinking skills:

- Apply the skills learned in science, math, and program classes to analyze and troubleshoot manufacturing challenges.
- Summarize and critically discuss current affairs in food manufacturing and food science.
- Manage and apply business related skills to understand the legal and ethical issues in a business environment.

Develop Food Manufacturing Knowledge:

- Evaluate the importance of sanitation, food safety, food quality, and equipment maintenance in production of a consumer safe product.
- Demonstrate how different unit operations and instrumentation interact to produce a consistent product.
- Demonstrate the importance of corrective actions and continuous improvement.

12. Assessment plans

a. **Assessment Process.** Describe the assessment process that will be used to evaluate how well students are achieving the intended learning outcomes of the program.

Program learning outcomes are assessed using multiple methods; including capstone projects, internships, and skill demonstrations.

b. **Closing the loop.** How will you ensure that the assessment findings will be used to improve the program?

Course level outcomes are assessed at the end of each semester; results are used to improve instructional methods. Program outcomes are currently assessed at the completion of the AAS. Additional assessment methods will be used to assess the junior and senior level program outcomes. Student performance and input from industry will be used to continually improve the program.

c. **Measures used.** What direct and indirect measures will be used to assess student learning?

Students have the opportunity for indirect assessment at the end of each semester with access to an online course evaluation system. Direct assessment occurs through the evaluation of projects, comprehensive exams, portfolio work, and internship feedback. In addition, Technical Advisory Committee meet twice yearly and give program managers feedback with regards to our graduates.

d. Timing and frequency. When will assessment activities occur and at what frequency?

Assessment activities occur at the end of every semester.

Enrollments and Graduates

13. Existing similar programs at Idaho Public Institutions. Using the chart below, provide enrollments and numbers of graduates for similar existing programs at your institution and other Idaho public institutions.

Existing Similar Programs: Historical enrollments and graduate numbers								
Institution and Program Name	**Fall Headcount Enrollment in Program**				**Number of Graduates From Program (Summer, Fall, Spring)**			
	FY__	FY__	FY__	FY__ (most recent)	FY__	FY__	FY__	FY__ (most recent)
BSU								
ISU								
UI								
LCSC								

14. Projections for proposed program: Using the chart below, provide projected enrollments and

Proposed Program: Projected Enrollments and Graduates First Five Years											
Program Name:											
Projected Fall Term Headcount Enrollment in Program						**Projected Annual Number of Graduates From Program**					
FY19 (first year)	FY20	FY21	FY22	FY23	FY24	FY19 (first year)	FY20	FY21	FY22	FY23	FY24
10	13	16	20	20	20				5	8	10

number of graduates for the proposed program:

15. Describe the methodology for determining enrollment and graduation projections. Refer to information provided in Question #2 "Need" above. What is the capacity for the program? Describe your recruitment efforts? How did you determine the projected numbers above?

The BAS is a new program for CSI and is expected to grow over time, accordingly our estimates are low. Currently we plan to enroll 20 students, as the program grows and evolves additional classes and sections can be opened as needed.

16. Minimum Enrollments and Graduates. Have you determined minimums that the program will need to meet in order to be continued? What are those minimums, what is the logical basis for those minimums, what is the time frame, and what is the action that would result?

No minimums have been determined to date.

Resources Required for Implementation – fiscal impact and budget

17. Physical Resources.

a. **Existing resources**. Describe equipment, space, laboratory instruments, computer(s), or other physical equipment presently available to support the successful implementation of the program.

The existing Food Processing and Automation Engineering program have sufficient equipment that will be used in the new program. In addition, our local industry has indicated a willingness to donate necessary equipment.

b. **Impact of new program**. What will be the impact on existing programs of increased use of physical resources by the proposed program? How will the increased use be accommodated?

The Food Processing and Automation Engineering programs currently has a lab and several classrooms available in the Applied Technology Innovation Center on the CSI campus. Furthermore, the non-specific food manufacturing classes are also taught on campus and so have the necessary physical resources.

c. **Needed resources.** List equipment, space, laboratory instruments, etc., that must be obtained to support the proposed program. Enter the costs of those physical resources into the budget sheet.

No additional resources are needed.

18. Library resources

a. **Existing resources and impact of new program**. Evaluate library resources, including personnel and space. Are they adequate for the operation of the present program? Will there be an impact on existing programs of increased library usage caused by the proposed program? For off-campus programs, clearly indicate how the library resources are to be provided.

No additional library resources will be needed.

b. **Needed resources**. What new library resources will be required to ensure successful implementation of the program? Enter the costs of those library resources into the budget sheet.

No new library resources will be needed.

19. Personnel resources

a. **Needed resources.** Give an overview of the personnel resources that will be needed to implement the program. How many additional sections of existing courses will be needed? Referring to the list of new courses to be created, what instructional capacity will be needed to offer the necessary number of sections?

The College has the necessary personnel to accommodate the additional students, without adding new sections. New upper division courses will also be taught by existing instructors.

b. **Existing resources**. Describe the existing instructional, support, and administrative resources that can be brought to bear to support the successful implementation of the

The current Food Processing Program manager will assume responsibility for the new program. The BAS program will continue to fall under the guidance of the Agriculture department the same Dean, Department Chair and administrative resources.

c. **Impact on existing programs**. What will be the impact on existing programs of increased use of existing personnel resources by the proposed program? How will quality and productivity of existing programs be maintained?

The program builds on some existing courses that are not at capacity so will be taught by current faculty. The new upper division courses will also be taught by existing instructors who will be reassigned from areas where enrollment is trending down.

d. **Needed resources.** List the new personnel that must be hired to support the proposed program. Enter the costs of those personnel resources into the budget sheet.

NA

20. Revenue Sources

a) **Reallocation of funds:** If funding is to come from the reallocation of existing state appropriated funds, please indicate the sources of the reallocation. What impact will the reallocation of funds in support of the program have on other programs?

b) **New appropriation**. If an above Maintenance of Current Operations (MCO) appropriation is required to fund the program, indicate when the institution plans to include the program in the legislative budget request.

No state funds are allowed to support this program.

c) **Non-ongoing sources**:

i. If the funding is to come from one-time sources such as a donation, indicate the sources of other funding. What are the institution's plans for sustaining the program when that funding ends?

ii. Describe the federal grant, other grant(s), special fee arrangements, or contract(s) that will be valid to fund the program. What does the institution propose to do with the program upon termination of those funds?

d) **Student Fees**:

i. If the proposed program is intended to levy any institutional local fees, explain how doing so meets the requirements of Board Policy V.R., 3.b.

ii. Provide estimated cost to students and total revenue for self-support programs and for professional fees and other fees anticipated to be requested under Board Policy V.R., if applicable.

Tuition Cost will be approximately $4200 per year, as determined by the CSI Board of Trustees.

21. Using the budget template provided by the Office of the State Board of Education, provide the following information:

- Indicate all resources needed including the planned FTE enrollment, projected revenues, and estimated expenditures for the first **four** fiscal years of the program.
- Include reallocation of existing personnel and resources and anticipated or requested new resources.
- Second and third year estimates should be in constant dollars.
- Amounts should reconcile subsequent pages where budget explanations are provided.
- If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(ies) or party(ies).
- Provide an explanation of the fiscal impact of any proposed discontinuance to include impacts to faculty (i.e., salary savings, re-assignments).

Program Resource Requirements.

Indicate all resources needed including the planned FTE enrollment, projected revenues, and estimated expenditures for the first **four** fiscal

- years of the program
- Include reallocation of existing personnel and resources and anticipated or requested new resources.
- Second and third year estimates should be in constant dollars.
  Amounts should reconcile subsequent pages where budget explanations are
- provided.
- If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(is) or party(is).

TOTAL EXPENDITURES:	$0	$84,297	$0	$129,597	$0	$161,830	$0	$189,610
Net Income (Deficit)		$3,903		$4,803		$1,550		$17,030

Budget Notes (specify row and add explanation where needed; e.g., "I.A.,B. FTE is calculated using..."):

30	Tuition is based on $140 per credit,
51	Year one salary is based on 1/3 time of existing faculty, moving to 90% in the third year and 100% in year four.
53	Adjunct Faculty are hired in year two and increase as the number of students grow.
59, 61	.001 % of Administrative, Student Services and IT have been allocated to the program
63	Benefits are based on 21% plus health insurance.
75,79,83	General and operating expenses are deemed ordinary and necessary for instruction.
116	Maintenance and operation cost per square foot of building utilized for instruction is applied at $8.38 per S.F.

Appendix 1. Employer Survey

COLLEGE OF SOUTHERN IDAHO

Technical Advisory Advanced Food Processing Survey Results

Survey Questions –

1. **Would you find a Technical Bachelors useful in your facilities?** *11 - Yes* *1 - No*
   If so, what kinds of positions would these students hold? (general descriptions are fine).

   Summary of Answers:
   Automation/Maintenance/Programmers/PLC, etc.
   Quality Assurance/Lab/Quality Control
   Consultants
   Documentation
   Production/Operations
   Sanitation
   Safety
   Environmental and Health Personal
   Responses included a mix of operators, supervisors and manager level positions within these departments.

2. **How many credits would you expect to be in upper division types of classes?**
   Responses varied from as low as 20 to as high as 120.

3. **Assuming they have completed the AAS in Food Processing or Automation Engineering – what additional coursework would be beneficial? What level of math would you want to see them take?**

   Basic Math – (percentages, fractions, dilutions, logarithmic scales, metric conversions etc) – 3
   Algebra – 4
   Geometry - 2
   Calculus – 5
   Calculus 2 – 1
   Statistics - 1
   (some listed multiple math levels)

4. **What types of sciences would you like them to have taken?**

   Biology - 3
   Microbiology - 4
   Chemistry - 10
   Animal Science - 1
   Physics - 6

Mechanical Engineering - 1
Food Science/Chemistry – 1
Nutrition – 1
Environmental Science - 1
(some listed multiple science classes)

5. **Which of the following broad categories of course work do you feel are beneficial, required or neither?**

Additional Food Processing or Automation classes (Sanitation, Food Safety, Electronics, PLCs)	*12 - Required*	*0 - Beneficial*	*0 - Neither*
Plant Utilities (HVAC, Boilers, etc.)	6 - *Required*	*6 - Beneficial*	*0 - Neither*
General Business	4 - *Required*	*8 - Beneficial*	*0 - Neither*
Operations / Project Management	7 - *Required*	*5 - Beneficial*	*0 - Neither*
Economics (Micro or Macro)	1 - *Required*	*9 - Beneficial*	*2 - Neither*
Technical / Business Writing	*6 - Required*	*5 - Beneficial*	*1 - Neither*
Social Science (Political Science, Sociology, Psychology, History, etc.)	*2 - Required*	*5 - Beneficial*	*5 - Neither*
Ethics	6 - *Required*	*4 - Beneficial*	*2 - Neither*
Leadership or Leadership Experience	9 - *Required*	*3 - Beneficial*	*0 - Neither*
Humanities (Mythology, Intro to Literature, Foreign Languages, Theatre, etc.)	*1 - Required*	*3 - Beneficial*	*8 - Neither*
Marketing	1 - *Required*	*7 - Beneficial*	*3 - Neither*
HR Law / Environmental Law	0 - *Required*	*11 - Beneficial*	*1 - Neither*

Any other classes you can think of?

Communication -	*1 - Required*	*2 - Beneficial*	*0 - Neither*
Microsoft Excel/Word	*1 - Required*	*0 - Beneficial*	*0 - Neither*
Basic Computer Science	*1 - Required*	*0 - Beneficial*	*0 - Neither*

Appendix 2. Support Letters

McCain Foods USA, Inc.
218 West Highway 30 Burley, ID 83318
(208) 678-9431 Fax (208) 678-6722

April 2, 2018

To whom it may concern;

I am writing on behalf of McCain Foods to express our support of the College of Southern Idaho establishing an accredited Technical Bachelors Program in Food Processing. McCain Foods has been an inaugural sponsor of the Food Processing program at CSI. We see a strong need to provide specialized training for students and potential employees in the discipline of food manufacturing.

Currently there is a gap between the technical certificate and the bachelor's degree. Students who wish to pursue and advanced degree are forced to leave the area or make the hard choice of staying home and not having opportunities due to the lack of a bachelor's degree.

Part or our qualifications for management roles is a bachelor's degree. Therefore, we are forced to recruit candidates from outside the region. It may also lead us to overlook some potentially qualified individuals who were unable to leave the area for various reasons to pursue an advance education.

We see the opportunity for students to achieve applied skills and have the option of pursuing more advanced education as a win for industry, the students, and the region. Therefore, we respectfully request serious consideration for granting the College of Southern Idaho's request for a bachelor's program.

Respectfully,

Jeff D. McCray

House of Representatives
State of Idaho

March 29, 2018

To Whom It May Concern,

I write this letter in support of the College of Southern Idaho (CSI) and their request to offer two four-year degree programs on their Twin Falls Campus. The College of Southern Idaho has been an integral part of our communities in the Magic Valley since its creation. They have always stepped up to meet the community and business needs throughout the valley. They have always been a partner to all of us in the Valley.

The addition of an Advanced Food Management and Teacher Preparation program will be an excellent opportunity for workforce members in our area. With recent data about the future shortage of a skilled workforce for the economic growth of Southern Idaho, the programs will offer many new companies the perfect area for their business, whether through expansions or brand new. The College of Southern Idaho offers the area a great partner to each of our communities.

The Advance Food Management program will allow our extensive agricultural basis to explore and create many new opportunities for advancement as seen with recent partnerships with Chobani and Glanbia. The nationwide teacher shortage has not escaped Idaho or the Magic Valley. A new Teacher Preparation program would offer a small solution to this national problem with home grown students receiving degrees and staying home. The opportunity to partnership with other 4-year programs also becomes a possibility.

I would encourage you to consider these new programs through the College of Southern Idaho. They would be an asset to the entire region. Thank you for your consideration of this and please contact me if you have any other questions.

Sincerely,

Rep. Sally Toone
Idaho State Representative-Dist. 26

IRSA

Commercial Creamery COMPANY SINCE 1908

3/26/2018

From: John F. Shaw, Jr., Plant Manager – Commercial Creamery Company
RE: Food Processing Bachelors Program for College of Southern Idaho

To Whom It May Concern:

I am writing to you in support of the application for a Food Processing Bachelors Program at The College of Southern Idaho (CSI). As a recent transplant to Southern Idaho I know that we have a great opportunity to increase the skill level of our employees, especially as it relates to Food Processing (FP). The skills gap in the area is real and, with low employment, the FP companies in Southern Idaho are challenged to find qualified people to hold key positions.

Our company, like many in the industry, are expanding, which will make it increasingly more challenging to attract qualified personal.

As a member of the Food Processing and Automation Engineering Advisory Board at CSI I have seen first-hand the potential opportunity that CSI has to fill a local, regional and industry need. CSI is uniquely positioned to play an important role.

As you are aware, the program would be focused on applied skills not necessarily theoretical skills, and students will be receiving industry recognized certifications that they can use as soon as they graduate. The program will be focused on local students, many of whom already work in the FP industry. Keeping students in the local area will help to ensure they pursue careers in the local area where there are plenty of jobs the FP industry.

We have a very strong advisory board made up of FP industry leaders that will help formulate the curriculum and supplement the equipment and laboratory facilities, so students will gain applicable skills. We will also be able to provide industry specific opportunities for students.

For these reasons and more I strongly advise you to approve the Food Processing Bachelors program at the CSI campus. I understand that offering a Bachelors program at a Community College may be new for the state of Idaho. However, coming from another state I believe that it is not unusual for other areas of the country and I believe that this is a key role of a regional Community College. Thank you, for your consideration.

Regards,

John Shaw

SUBJECT

Board Policy III.C. "Graduate Medical Education Committee" First Reading

REFERENCE

January 2009	Idaho State Board of Education (Board) approved recommendations from the report of the Board's Medical Education Committee (MEC) and forwarded report to the Governor and Legislature
April 2009	Board approved implementation of ten recommendations from the MEC report
August 2012	Board received update and discussed status of implementation of the MEC's recommendations
December 2016	Board accepted the findings and recommendations of its MEC and forwarded the report to the Governor
August 2017	Board approved FY2019 line item request for Health Education Programs which included $5.239 million in additional funding to launch a 10-year, comprehensive Graduate Medical Education (GME) plan
December 2017	Board approved GME 10-year plan and forwarded plan to the Governor
April 2018	Board directed staff to revise the December 2017 GME 10-year plan, in coordination with members of the Idaho medical community and other stakeholders, to adapt the plan to the FY2019 appropriation for Health Education Programs.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section III.C.

ALIGNMENT WITH STRATEGIC PLAN

Goal 3 (Workforce Alignment), Objective B (Medical Education)

BACKGROUND/DISCUSSION

The proposed policy establishes the committee and its purpose. The committee will play a vital role in the further refinement of the 10-year General Medical Education (GME) plan, the development of recommendations to the Board on the implementation of the plan. The Committee will be an essential catalyst in the Board's efforts to address the statewide need for producing—and retaining—physicians and their associated health care provider teams to serve all areas of Idaho.

The development and implementation of the Board's Graduate Medical Education (GME) initiatives for FY2018 and the subsequent creation and coordination for the Board's strategic 10-year Graduate Medical Education plan, which received $2,068,000 in funding in the FY2019 budget enacted in March 2018, was made possible by the support of a team of the Idaho's residency program directors, the Idaho Medical Association, and other subject matter experts and stakeholders. This team, which operated as an "ad hoc" advisory committee to the Board, continues to support the Board's initiative, and will be essential to the process of updating and implementing the FY2019—and future years'—components of the plan. The proposed Board policy will codify this committee as the "GME Committee" (Committee) and recognize the enduring role of the group.

IMPACT

The Committee will provide updates and develop plans as directed by the Board, and will keep the Board apprised of needs and activities involving Graduate Medication Education in the state.

ATTACHMENTS

Attachment 1 – Propose Board Governing Policy and Procedures, Section III.C.

STAFF COMMENTS AND RECOMMENDATIONS

The proposed Board policy for the GME Committee, by intention, allows flexibility in the membership and the range of activities which may be undertaken by the team at the Board's request. This reflects the dynamic—and growing—scope of activities and participating entities in the GME effort. The policy also notes that the Committee may be called upon to support non-GME healthcare initiatives that may complement residency matters, for example, in providing advice to the Board on options for addressing other issues and recommendations identified in the Board's 2016 MEC report to the Governor. The diverse membership of the Committee, comprised of highly experienced and highly credible leaders form Idaho's medical community, will provide synergy among GME plan elements and will facilitate coordination with health care organizations in all regions of the state.

The draft Committee operating guidelines at Attachment 2 have been distributed and vetted by the prospective members of the Committee—and the draft has been strongly supported by the GME team.

Among the key initial actions of the Committee will be to support the Board staff in developing the Health Education Programs budget request for FY2020, and in presenting an updated 10-year GME plan (for FY2020-2029) not later than October 2018, as directed by the Board at its April 2018 meeting.

Staff recommends approval.

BOARD ACTION

I move to approve the first reading of proposed Board Policy III.C. as provided at Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

THIS PAGE INTENTIONALLY LEFT BLANK

1. Purpose

   The purpose of the Graduate Medical Education Committee (Committee) is to provide recommendations to the Board on ways to enhance graduate medication in the state of Idaho and the development, implementation, and monitoring of the Board's graduate medical education short and long-term plans. The Committee shall report to the Board through the Instruction, Research and Student Affairs Committee.

2. Committee Membership

   a. The Committee shall be made up of no more than thirty (30) members at any one time and shall, at a minimum, consist of:
      i. The program director (or designee) from each of the residency training programs in Idaho which receive state funding;
      ii. One representative from each of the three primary medical schools which collaborate with the state in providing undergraduate medical training;
      iii. One or more representatives from the Idaho Medical Association;
      iv. One or more representatives from the Idaho Hospital Association;
      v. One representatives from each of the Idaho graduate medical education teaching hospitals; and
      vi. One representative from the Office of the State Board of Education.

      Original appointments shall be for terms that are initially staggered to provide a rolling renewal of appointments. Thereafter, appointments shall be for five years, commencing on July 1st. All members of the Committee shall have equal voting privileges. Appointments to vacant positions during the previous incumbent's term shall be for the remainder of the open term.

   b. The Committee shall elect officers, to include a chairperson and vice-chairperson. Officers are elected to a two (2) year term. No officer may serve more than two (2) consecutive terms.

3. Nominating Process

   The Committee shall nominate candidates for membership for Board consideration. The list of candidates including letters of interest and biographical information must be forwarded to the Board for consideration not less than 60 days prior to expiration of the term of a committee member, or within 30 days after any vacancy.

a. Incumbent Reappointment

If the incumbent candidate is interested in reappointment and is eligible to continue serving based on the Committee's current membership structure, the incumbent will provide in writing his or her interest for reappointment, which will be forwarded to the Board for consideration.

b. Open Appointment

i. Committee members shall solicit nominations from all constituency groups.
ii. Each nominee must provide a written statement expressing his or her interest in becoming a member of the Committee. Each nominee must also provide a description of his or her qualifications.
iii. The Committee will review all nominations for the vacant position and will forward the qualified candidates with recommendations to the Board for consideration.

The Board may, after a review of nominee's pursuant to the process described herein, consider other candidates for Council membership identified by the Board or its staff.

SUBJECT
Board Policy III.E. Certificates and Degrees – First Reading

REFERENCE

October 2002	Board approved the first reading of amendments to Board Policy III.E.
December 2002	Board approved the second reading of amendments to Board Policy III.E.
December 2013	Board approved first reading of amendments to Board Policy III.E.
February 2014	Board approved the second reading of amendments to Board Policy III.E.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.E.

ALIGNMENT WITH STRATEGIC PLAN
Goal 2 (Educational Attainment), Objective A (Higher Level of Educational Attainment)
Goal 3 (Workforce Readiness), Objective A (Workforce Alignment)

BACKGROUND/DISCUSSION
Board Policy III.E provides definitions of certificates and degrees for academic and career technical education programs offered by Idaho's eight public institutions. The Board has not reviewed definitions for academic programs since 2002. The proposed amendments will update the definition of a baccalaureate degree to clarify that coursework may include academic and technical courses.

IMPACT
Proposed amendments will recognize those institutions with a technical mission can deliver a baccalaureate degree that has a hybrid academic-technical curriculum, which is different from most baccalaureate degree programs that maintain only an academic component.

ATTACHMENTS
Attachment 1 – Proposed Amendments to Board Policy III.E.-First Reading

STAFF COMMENTS AND RECOMMENDATIONS
The Council on Academic Affairs and Programs reviewed the proposed policy amendments at their May 24, 2018.

Staff recommends approval.

BOARD ACTION

I move to approve the first reading of proposed amendments to Board policy III.E. Certificates and Degrees as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

1. Definitions

   Programs of instruction require specified numbers of credits earned through educational work on the part of students. Completion of the program of instruction results in the awarding of a certificate to or conferring of a degree upon the student by the faculty and the Chief Executive Officer. The following definitions have been approved by the Board:

   a. CERTIFICATES:

      i. Academic Certificate
      A credential awarded for completion of a coherent program of study consisting of seven (7) semester credits or more, representing a coherent body of knowledge that does not lead to a degree.

      ii. Academic Certificate of Completion
      A credential awarded for completion of a coherent program of study consisting of six (6) semester credits or less, representing a coherent body of knowledge that does not lead to an academic certificate or a degree.

      iii. Technical Certificate of Completion
      A professional-technical credential awarded by the institution consisting of seven (7) semester credits or less that represents mastery of a defined set of competencies

      iv. Basic Technical Certificate
      A credential awarded for completion of requirements in an approved professional-technical program of at least eight (8) semester credit hours and represents mastery of a defined set of competencies.

      v. Intermediate Technical Certificate
      A credential awarded for the completion of requirements in an approved professional-technical program of at least 30 semester credit hours and represents mastery of a defined set of competencies.

      vi. Advanced Technical Certificate
      A credential awarded for completion of requirements in an approved professional-technical program of at least 52 semester credit and represents mastery of a defined set of competencies.

   b. ASSOCIATE OF APPLIED SCIENCE DEGREE: A credential awarded for completion of requirements in an approved professional-technical program of at least 60 semester credits (includes a minimum of 15 general education credits) and represents mastery of a defined set of competencies. An Advanced option may be awarded for additional credits of at least 15 credit hours that are beyond the A.A.S. degree.

c. ASSOCIATE DEGREE: A credential awarded for completion of requirements entailing at least two (2) but normally less than four (4) years of full-time academic work.

d. BACCALAUREATE DEGREE: A credential awarded for completion of requirements entailing the equivalent of at least four (4) years of full-time academic and career technical course-work. Included are the Bachelor of Applied Science (BAS) and Bachelor of Applied Technology (BAT) degrees.

e. MASTER'S DEGREE: A credential awarded for completion of requirements entailing at least one (1) but normally not more than two (2) years of full-time academic work beyond the baccalaureate degree, including any required research.

f. SPECIALIST DEGREE: A credential awarded for completion of requirements entailing at least two (2) but normally not more than three (3) years of full-time academic work beyond the baccalaureate degree.

g. DOCTORAL DEGREE: A credential awarded for completion of requirements entailing at least three (3) years of full-time academic work beyond the baccalaureate degree, including any required research.

2. Academic and Professional-Technical Credit Hour Requirements

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

a. One (1) hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or

b. At least an equivalent amount of work as required in paragraph (a) of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

3. Requirements for Certificate or Degree

Each institution will establish the number of earned credits required for each certificate or degree. The requirements may differ from the general requirements specified in the definitions, but all credit requirements must receive approval in accordance with the program approval policies provided in III.G. Institutional catalogs will specify the required number of earned credits for each certificate or degree.

4. Authorization Required

   Programs offered at the institution, as well as the certificates and degrees to which they lead, are subject to review and approval in accordance with the program approval policies provided in III.G. A certificate or degree conferred upon the student is conferred under the authority of the Board.

5. Authorized Certificates and Degrees

   A current listing of authorized certificates and degrees awarded by each institution is maintained at the institution by the Chief Executive Officer and for all institutions at the Office of the State Board of Education.

6. Honorary Degrees

   Each institution, except Eastern Idaho Technical College, may award honorary degrees, not to exceed the highest level of Board-authorized degrees currently awarded by the institution, to persons in recognition of distinguished achievements at the local, state, or national level in areas such as education, public service, research, sciences, humanities, business, or other professions. The award of an honorary degree must receive the prior approval of the Chief Executive Officer upon recommendation by the faculty.

   Each institution will develop its own procedures for seeking nominations for and selecting honorary degree recipients. Those procedures may include a statement of eligibility requirements for honorary degrees. However, no person who is currently employed by the institution, is a member of the Board or the Board's staff, or is an incumbent elected official is eligible for an honorary degree during the term of employment, appointment, or office.

April 2012	Board approved the first reading of amendments to Board Policy III.Y.
June 2012	Board approved the second reading of amendments to Board Policy III.Y.
February 2014	Board approved the first reading of amendments to Board Policy III.Y.
April 2014	Due to the large number of changes between first and second reading, Board approved the amendments as a second first reading.
June 2014	The Board did not approve the second reading of amendments to Board Policy III.Y and directed Board Staff to prepare another first reading of policy.
October 2014	Board approved the first reading of amendments to Board Policy III.Y.
February 2015	Board approved the second reading of amendments to Board Policy III.Y

APPLICABLE STATUTES, RULE OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section III.Y.

ALIGNMENT WITH STRATEGIC PLAN

Goal 1 (Educational System Alignment), Objective B (Alignment and Coordination)
Goal 2 (Educational Attainment), Objectives A (Higher Level of Educational Attainment) and B (Timely Degree Completion)

BACKGROUND/DISCUSSION

The Advanced Placement® Program, as defined in Board Policy III.Y. Advanced Opportunities, is administered by The College Board and allows a high school student to "earn college credit by scoring well on the national AP exams". Current policy provides institutions the "discretion to accept the scores from the AP exams to award college credit or advanced standing".

Proposed amendments include requiring institutions to award academic credit consistently for scores of 3, 4, and 5 on the College Board Advanced Placement (AP) exams. These credits will be accepted to satisfy general education requirements, major requirements, and/or elective credit requirements for degree completion with the option for institutions to award more credit for scores of 4 or 5. Language was also included to require the Board office to review every three years the validity of the credits awarded for the purposes of assessing student performance and preparedness.

IMPACT

Approval of the proposed amendment would align the acceptance of AP scores across institutions and create efficiencies. This would also ensure credit transfer for Advanced Placement across institutions.

ATTACHMENTS

STAFF COMMENTS AND RECOMMENDATIONS

Board staff and the Council on Academic Affairs and Programs conducted an analysis of AP exam scores for equivalencies across specific courses. Based on that analysis and beginning with the 2019-20 academic year, each institution will award academic credit for scores of 3, 4, and 5 on the College Board Advanced Placement (AP) exams. Moving forward, institutions will be asked to make every effort to align Advanced Placement credits to courses that support graduation and to only award elective credit as an exception.

Staff recommends approval.

BOARD ACTION

I move to approve the first reading of proposed amendments to Board Policy III.Y. Advanced Opportunities as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: III. POSTSECONDARY AFFAIRS
SUBSECTION: Y. Advanced Opportunities **February 2015**

Boise State University, Idaho State University, the University of Idaho, Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, the College of Southern Idaho, and the College of Western Idaho are covered by these policies. Postsecondary programs intended for transfer come under the purview of the Board.

1. Purpose

The State Board of Education is committed to improving the educational opportunities available to Idaho citizens by creating a seamless system of public education. The purpose of this policy is to provide program standards for advanced opportunities for secondary students. To this end, the intent of Advanced Opportunities is:

a. For postsecondary institutions to provide educational programs and training to their respective service regions;
b. Support and enhance regional and statewide economic development;
c. Facilitate collaboration between all school levels, including public elementary and secondary schools;
d. Prepare secondary graduates for postsecondary programs;
e. Enhance postsecondary goals;
f. Reduce duplication and provide for an easy transition between secondary and postsecondary education; and
g. Reduce the overall cost of educational services and training to the student.

2. Definitions

The State Board of Education recognizes four advanced opportunities programs. They are: Advanced Placement®, dual credit, technical competency credit (formerly known as Tech Prep), and the International Baccalaureate program.

a. Advanced Placement® (AP)

The Advanced Placement® Program, administered by the College Board, is a series of courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students may earn college credit by scoring well on the national AP exams. Individual postsecondary institutions have the discretion to accept the scores from the AP exams to award college credit or advanced standing.

b. Dual Credit

i. Dual credit are courses allowing high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Dual credit is awarded to a student on his or her postsecondary and high school transcript for the successful completion of a single course. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student's permanent college record. Students may enroll in dual credit courses taught at the high school or on the college campus.

ii. Two types of post-secondary credit may be earned: *Academic* and *Technical*. Academic credits apply to postsecondary academic programs and some postsecondary technical programs. Technical credits generally only apply to postsecondary technical programs and are not applicable toward academic postsecondary programs. Students must work closely with their advisor(s) to ensure the credit earned in their dual credit course will apply to their intended postsecondary degree program.

c. Technical Competency Credit (TCC)

i. Technical Competency Credit (TCC) allows secondary students to document proficiency in the skills and abilities they develop in approved high school career technical programs to be evaluated for postsecondary transcription at a later date. In addition to the standards outlined in section 4.d below, additional policies of the transcribing post-secondary institution may also apply.

ii. Technical Competency Credits are awarded for skills and competencies identified as eligible TCC through a TCC Agreement with at least one Idaho postsecondary institution. Eligible skills and competencies are included in approved high school career technical programs and approved by the postsecondary institution in advance. Students participating in a high school program approved for TCC are not considered postsecondary students until they matriculate to a postsecondary institution.

d. International Baccalaureate (IB)

Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college-credit. Successful completion of the full course of study leads to an IB diploma.

3. Idaho Programs Standards for Advanced Opportunities Programs

All advanced opportunities programs in the state of Idaho shall be developed and managed in accordance with these standards which were designed to help school districts, colleges and universities plan, implement, and evaluate high quality advanced opportunities programs offered to high school students before they graduate. Students must work closely with their advisor(s) to ensure the credit earned in their Advanced Opportunities course will apply to their intended postsecondary degree program.

a. Dual Credit Standards for Students Enrolled in Courses Taught at the High School

Curriculum

Curriculum 1 (C1)	Courses administered through a dual credit program are catalogued courses and approved through the regular course approval process of the postsecondary institution. These courses have the same departmental designation, number, title, and credits; additionally these courses adhere to the same course description and course content as the postsecondary course.
Curriculum 2 (C2)	Postsecondary courses administered through a dual credit program are recorded on students' official academic record of the postsecondary institution.
Curriculum 3 (C3)	Postsecondary courses administered through a dual credit program reflect the pedagogical, theoretical and philosophical orientation of the sponsoring faculty and/or academic department at the postsecondary institution.

Faculty

Faculty 1 (F1)	Instructors teaching college or university courses through a dual credit program must meet the academic requirements for faculty and instructors teaching at a postsecondary institution or provisions are made to ensure instructors are capable of providing quality college-level instruction through ongoing support and professional development.
Faculty 2 (F2)	The postsecondary institution provides high school instructors with training and orientation in course curriculum, student assessment criteria, course philosophy, and administrative requirements before certifying the instructors to teach the college/university's courses.
Faculty 3 (F3)	Instructors teaching dual credit courses are part of a continuing collegial interaction through professional development, such as seminars, site visits, and ongoing communication with the postsecondary institutions' faculty and dual credit program administration. This interaction addresses issues such as course

	content, course delivery, assessment, evaluation, and professional development in the field of study.
Faculty 4 (F4)	High school faculty is evaluated by using the same classroom performance standards and processes used to evaluate college faculty.

Students

Students 1 (S1)	High school students enrolled in dual credit courses are officially registered or admitted as degree-seeking, non-degree or non-matriculated students of the sponsoring postsecondary institution.
Students 2 (S2)	High school students are provided with a student guide that outlines their responsibilities as well as guidelines for the transfer of credit.
Students 3 (S3)	Students and their parents receive information about Dual Credit programs. Information is posted on the high school's website regarding enrollment, costs, contact information at the high school and the postsecondary institution, grading, expectations of student conduct, and other pertinent information to help the parents and students understand the nature of a Dual Credit course.
Students 4 (S4)	Admission requirements have been established for dual credit courses and criteria have been established to define "student ability to benefit" from a Dual Credit program such as having junior standing or other criteria that are established by the school district, the institution, and State Board of Education Governing Policies and Procedures.
Students 5 (S5)	Prior to enrolling in a dual credit course, provisions are set up for awarding high school credit, college credit or dual credit. During enrollment, the student declares what type of credit they are seeking (high school only, college only or both high school and college credit). To earn college credit, the student must be enrolled at the post-secondary institution.

Assessment

Assessment 1 (A1)	Students enrolled in dual credit courses are held to the same course content standards and standards of achievement as those expected of students in postsecondary credit only courses.
Assessment 2 (A2)	Every course offered through a dual credit program is annually reviewed by postsecondary faculty from that discipline and dual credit teachers/staff to assure that grading standards meet those in on-campus sections.
Assessment 3 (A3)	Students enrolled in dual credit courses are assessed and awarded credit using the same methods (e.g. papers, portfolios, quizzes, labs, etc.) as their on-campus counterparts.

Program Administration and Evaluation

Admin & Evaluation 1 (AE1)	The Dual Credit program practices are assessed and evaluated based on criteria established by the school, institution and the State Board of Education to include at least the following: course evaluations by students, follow-up of the graduates who are college or university freshmen, and a review of instructional practices at the high school to ensure program quality.
Admin & Evaluation 2 (AE2)	Every course offered through a Dual Credit program is annually reviewed by faculty from that discipline and Dual Credit staff to assure that grading standards meet those in postsecondary sections.
Admin & Evaluation 3 (AE3)	Students enrolled in dual credit courses are assessed using the same methods (e.g. papers, portfolios, quizzes, labs, etc.) as their on-campus counterparts.
Admin & Evaluation 4 (AE4)	A data collection system has been established based on criteria established by the high school, institution and State Board of Education to track students enrolled in dual credit courses to provide data regarding the impact of Dual Credit programs in relation to college entrance, retention, matriculation from high school and college, impact on college entrance tests, etc. A study is conducted every 5 years on dual credit graduates who are freshmen and sophomores in a college or university.
Admin & Evaluation 5 (AE 5)	Costs for high school students have been established and this information is provided to students before they enroll in a dual credit course. Students pay a reduced cost per credit that is approved annually at the Board's fee setting meeting and defined in Board Policy V.R. Fees. .
Admin & Evaluation 6 (AE 6)	Agreements have been established between the high school and the postsecondary institution to ensure instructional quality. Teacher qualifications are reviewed, professional development is provided as needed, course content and assessment expectations are reviewed, faculty assessment is discussed, student's costs are established, compensation for the teacher is identified, etc.
Admin & Evaluation 7 (AE 7)	Postsecondary institutions have carefully evaluated how to provide services to all students regardless of where a student is located.

b. Dual Credit Standards for Students Enrolled in Courses at the College/University Campus

A.	The student is admitted by the postsecondary institution as a non-degree seeking student.
B.	The student is charged the part-time credit hour fee or tuition and additional fees as established by the institution.
C.	Instructional costs are borne by the postsecondary institution.

D.	Four (4) semester college credits are typically equivalent to at least one (1) full year of high school credit in that subject.
E.	As part of the enrollment process, institutions must ensure the student and the student's parent/guardian receive counseling that outlines the risks and possible consequences of enrolling in postsecondary courses, including but not limited to the impacts on future financial aid, and the consequences of failing or not completing a course in which the student enrolls. It is the responsibility of the postsecondary institution to provide advising for all students taking courses on the postsecondary campus.
F.	Students under the age of 16 who are enrolled in a secondary school may seek admission to enroll in courses provided on the postsecondary campus by submitting a petition to the high school principal's office and to the admissions office of the postsecondary institution.

c. Advanced Placement Standards

Advanced Placement (AP) courses are taught by high school teachers following the curricular goals administered by The College Board. These courses are academically rigorous and conclude with the optional comprehensive AP exam in May. Students taking AP courses accept the challenge of a rigorous academic curriculum, with the expectation of completing the complex assignments associated with the course and challenging the comprehensive AP exam. The AP Examination is a national assessment based on the AP curriculum, given in each subject area on a specified day at a specified time, as outlined by the College Board. Students and parents are responsible for researching the AP policy of the postsecondary institution the student may wish to attend. Each institution shall publish their credit award policy, including course credit awarded, on their institutional webpage and report the policy annually to the Board office.

College/university credit is based on the successful completion of the AP exam, and dependent upon institutional AP credit acceptance policy. Each institution shall award academic credit for scores of 3, 4, and 5 on the AP exam. Institutions may choose to award more credit for scores of 4 or 5. Institutions shall strive to align Advanced Placement credit awards to courses that fulfill general education or program credit. Elective credit shall only be awarded when a general education or program credit is not available. The Board office shall review, no less than every three years, the validity of the credits awarded to assess student performance based on this policy.

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: III. POSTSECONDARY AFFAIRS
SUBSECTION: Y. Advanced Opportunities February 2015

Institutions may seek an exception to the score requirement in the policy if the institution has evidence that students are not performing adequately in the subsequent course or are in some way disadvantaged academically based on their placement within the Advanced Placement policy. Each institution's chief academic officer or designee shall present the evidence to the Board office. The Board office will convene a committee comprised of faculty, staff, and others to review the findings and render determination as to whether the minimum Advanced Placement score threshold should be increased. Increases may be applied to individual exams.

Curriculum

Curriculum 1 (C1)	Postsecondary institutions evaluate AP scores and award credit reflecting the pedagogical, theoretical, and philosophical orientation of the sponsoring faculty and/or academic department at the institution.
Curriculum 2 (C2)	High school credit is given for enrollment and successful completion of an AP class.

Faculty

Faculty 1 (F1)	AP teachers shall follow the curricular materials and goals outlined by The College Board.
Faculty 2 (F2)	The AP teacher may attend an AP Institute before teaching the course.

Students/Parents

Students 1 (S1)	A fee schedule has been established for the AP exam. Students and their parents pay the fee unless other arrangements have been made by the high school.
Students 2 (S2)	Information must be available from the high school counselor, AP coordinator or other faculty members regarding admission, course content, costs, high school credit offered and student responsibility.

Assessment

Assessment 1 (A1)	Students are assessed for high school credit according to the requirements determined by the high school.

Program Administration and Evaluation

Admin & Evaluation 1 (AE1)	To evaluate the success of the programs and to improve services, the school district must annually review the data provided by The College Board.
Admin & Evaluation 2 (AE2)	The school district must carefully evaluate how to provide services to all students, regardless of family income, ethnicity, disability, or location of educational setting.

d. Technical Competency Credit (TCC) Standards

Career technical education programs in Idaho are delivered through comprehensive high schools, career technical schools, and the technical college system. Technical Competency Credit allows secondary career technical students the opportunity to earn secondary and postsecondary technical credits. Technical Competency Credit is offered through approved secondary career technical programs with an articulation agreement between the high school and a postsecondary institution. Technical Competency Credit is an advanced learning opportunity that provides a head start on a technical certificate or an applied science degree.

Curriculum

Curriculum 1 (C1)	The high school career technical program must have competencies comparable with a postsecondary institution technical program and be identified as eligible for TCC consideration through a TCC Agreement (e.g., articulation agreement) with at least one Idaho postsecondary institution.
Curriculum 2 (C2)	Secondary and postsecondary educators must agree on the technical competencies, the student learning outcomes, and the level of proficiency to be demonstrated by the student.

Faculty

Faculty 1 (F1)	Secondary educators must hold appropriate career technical certification in the program area for which credit is to be awarded.

Students

Students 1 (S1)	Technical Competency Credit (TCC) students are high school students; they are neither enrolled in the postsecondary institution nor counted as dual credit students. Students may request transcription of TCCs onto a postsecondary transcript after demonstrating the required level of proficiency; they must follow the transcribing institution’s TCC transcription policy and pay the transcription fee discussed in standard AE1. After completing a TCC course or sequence according to the articulation agreement, the credits must be transcribed within the time period required by the transcribing institution and in no instance longer than two years.
Students 2 (S2)	High school students are provided with a student guide that outlines their responsibilities, guidelines for credit transfer and information regarding how the technical credit will apply to postsecondary certificates and degree requirements. The student guide must include an explanation of the difference between technical and academic credit, how a career technical course is a part of a career technical

	program sequence, and how the courses may impact their academic standing when they fully matriculate after high school.
Students 3 (S3)	At the completion of the Technical Competency Credit program, the instructor shall identify students who have met program competencies.

Assessment

Assessment 1 (A1)	The students are assessed for postsecondary technical credit according to the requirements of the Technical Competency Credit agreement.

Program Administration and Evaluation

Admin & Evaluation 1 (AE1)	When the student requests the transcription of a TCC credit, they are assessed a transcription fee consistent with Board Policy Section V.R for qualifying TCC earned in high school.
Admin & Evaluation 2 (AE2)	TCC agreements between a secondary career technical program and a postsecondary institution must be reviewed annually by the institution.

SUBJECT

Board Policy III.Z, Planning and Delivery of Postsecondary Programs and Courses – First Reading

REFERENCE

October 20, 2016	The Board approved the first reading of the proposed amendments to Board Policy III.Z that updates institutions statewide program responsibilities.
December 15, 2016	The Board approved the second reading of proposed amendments to Board Policy III.Z. that updates institutions statewide program responsibilities.
December 21, 2017	The Board approved the first reading of proposed amendments to Board Policy III.Z that changes the planning timeframe from five years to three years.
February 15, 2018	The Board approved the second reading of proposed amendments to Board Policy III.Z.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies and Procedures, Section III.Z, Planning and Delivery of Postsecondary Programs and Courses.
Section 33-113, Idaho Code, Limits of Instruction.

ALIGNMENT WITH STRATEGIC PLAN

Goal 1 (Educational System Alignment), Objective B (Alignment and Coordination)
Goal 2 (Educational Attainment), Objective C (Access)

BACKGROUND/DISCUSSION

The purpose of Board Policy III.Z, "is to ensure Idaho's public postsecondary institutions meet the educational and workforce needs of the state through academic planning, alignment of programs and courses, and collaboration and coordination." The purpose is to also meet the statutory requirement to "as far as practicable prevent wasteful duplication of effort" by the institutions.

Section 33-2107A, Idaho Code, authorizes community colleges established pursuant to Chapter 21, Title 33 to "grant baccalaureate degrees in liberal arts and sciences, business, and education" if they meet the population and market value requirements established in Section 33-2017C.

The proposed amendments adds North Idaho College to Region I academic service region; adds College of Southern Idaho to Region IV; and adds College of Eastern Idaho to Region VI. Additional edits include adding the College of Western Idaho with Boise State University as Designated Institutions to serve applied baccalaureate degree needs in Region III.

IMPACT

Proposed amendments align with provisions of Section 22-2107A and provides for community colleges to plan and offer baccalaureate degrees.

ATTACHMENTS

Attachment 1 – Proposed Amendments to Board Policy III.Z

STAFF COMMENTS AND RECOMMENDATIONS

At the April 19, 2018 meeting, a number of community colleges notified the Board of their intent to deliver academic baccalaureate programs through the three-year planning process required in Board Policy III.Z. Board staff was asked to work on policy amendments that would allow community colleges an opportunity to help address the baccalaureate degree needs within their region. This included the ability for community colleges to collaborate with the four-year institutions for the delivery of baccalaureate programs. Baccalaureate programs proposed by community colleges in future will be required to follow the process outlined in Board Policy III.Z and include those on their three-year plans. Those proposed programs will also follow the same program proposal submission and 30-day review process with the Council on Academic Affairs and Programs and the Board's Instruction, Research, and Student Affairs committee prior to Board approval.

Additionally, given the potential for community colleges to begin offering baccalaureate degrees, staff will be bringing forward amendments to Board Policy III.G Postsecondary Program Approval and Discontinuance, which will require those proposed programs to obtain Board approval regardless of financial impact. This will provide the Board the ability to provide direct input for those programs and view firsthand the trends and circumstances associated with the delivery of baccalaureate degree programs by Idaho's community colleges.

The Council on Academic Affairs and Programs reviewed the proposed policy amendments at their May 24, 2018 meeting and recommended approval. Proposed amendments were also shared with the Committee on Instruction, Research, and Student Affairs on June 7, 2018.

Staff recommends approval.

BOARD ACTION

I move to approve the first reading of proposed amendments to Board Policy III.Z, Planning and Delivery of Postsecondary Programs and Courses as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

The purpose of this policy is to ensure Idaho's public postsecondary institutions meet the educational and workforce needs of the state through academic planning, alignment of programs and courses (hereinafter referred to collectively as "programs"), and collaboration and coordination. This subsection shall apply to the University of Idaho, Boise State University, Idaho State University, Lewis-Clark State College, Eastern Idaho Technical College, College of Southern Idaho, College of Western Idaho, and North Idaho College (hereinafter "institutions"). The State Board of Education (the Board) aims to optimize the delivery of academic programs while allowing institutions to grow and develop consistent with their vision and mission with an appropriate alignment of strengths and sharing of resources.

This policy requires the preparation and submission of academic plans to advise and inform the Board in its planning and coordination of educational programs in a manner that enhances access to quality programs, while concurrently increasing efficiency, avoiding unnecessary duplication and maximizing the cost-effective use of educational resources. As part of this process, the Board hereby identifies and reinforces the responsibilities of the institutions governed by the Board to deliver Statewide Programs. The provisions set forth herein serve as fundamental principles underlying the planning and delivery of programs pursuant to each institution's assigned Statewide and Service Region Program Responsibilities. These provisions also require collaborative and cooperative agreements, or memorandums of understanding, between and among the institutions.

This policy is applicable to campus-based face-to-face programs, including those that use technology to facilitate and/or supplement a physical classroom experience. It also applies to hybrid and blended programs where a substantial portion of the content is delivered on-line and typically has reduced seat time.

1. Definitions

   a. Designated Institution shall mean an institution whose main campus is located in a service region as identified in subsection 2.b.ii.1) and 2) below.

      i. For purposes of this policy, with respect to academic programs, Designated Institutions and Partnering Institutions ~~shall include only the University of Idaho, Idaho State University, Boise State University, and Lewis- Clark State College and~~ shall have Service Region Program Responsibility for those regions identified in subsection 2.b.ii.1).

      ii. For purposes of this policy, with respect to career technical programs, Designated Institutions and Partnering Institutions shall include only the

College of Southern Idaho, College of Western Idaho, North Idaho College, Eastern Idaho Technical College, Lewis-Clark State College, and Idaho State University and shall have Service Region Program Responsibility for those regions identified in subsection 2.b.ii.2).

1. A memorandum of understanding (MOU) is an agreement between two or more institutions offering programs within the same service region that details how such programs will be delivered in a collaborative manner. An MOU is intended to provide specific, practical details that build upon what has been provided in each Institution's Plan.

2. Partnering Institution shall mean either (i) an institution whose main campus is located outside of a Designated Institution's identified service region but which, pursuant to a Memorandum of Understanding, offers Regional Programs in the Designated Institution's primary service region, or (ii) an institution not assigned a Statewide Program Responsibility which, pursuant to a Memorandum of Understanding with the institution assigned the Statewide Program Responsibility, offers and delivers a statewide educational program.

3. Service Region Program shall mean an educational program identified by the Board to be delivered by a Designated Institution within its respective service region that meets regional educational and workforce needs.

4. Service Region Program Responsibility shall mean an institution's responsibility to offer and deliver a Service Region Program to meet regional educational and workforce needs in its primary service region as defined in subsection 2.b.ii.1) and 2) below. Service Region Program Responsibilities are assigned to the Designated Institution in each service region, but may be offered and delivered by Partnering Institutions in accordance with the procedures outlined in this policy.

5. Statewide Program shall mean an educational program identified by the Board to be delivered by a particular institution which meets statewide educational and workforce needs. Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, College of Southern Idaho, and College of Western Idaho do not have Statewide Program Responsibilities.

6. Statewide Program Responsibility shall mean an institution's responsibility to offer and deliver a Statewide Program in all regions of the state. Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.

2. Planning and Delivery Process and Requirements

   a. Planning

      i. Three-Year Plan

      The Board staff shall, using the Institution Plans submitted, create and maintain a rolling three (3) year academic plan (Three-Year Plan) which includes all current and proposed institution programs. The Three-Year Plan shall be approved by the Board annually at its August Board meeting.

ii. Institution Plan

Each institution shall, in accordance with a template to be developed by the Board's Chief Academic Officer, create and submit to Board staff a rolling three (3) year academic plan, to be updated annually, that describes all current and proposed programs and services to be offered in alignment with each institution's Statewide and Service Region Program Responsibilities (the Institution Plan). Institution Plans shall be developed pursuant to a process of collaboration and communication with the other institutions in the state.

1) Statewide Programs

Institutions assigned a Statewide Program Responsibility shall plan for and determine the best means to deliver such program. Each institution assigned a Statewide Program Responsibility shall include in its Institution Plan all currently offered and proposed programs necessary to respond to the workforce and educational needs of the state relating to such Statewide Program Responsibilities. Each Institution Plan shall include the following information for proposed Statewide programs:

a) A description of the Statewide Programs to be delivered throughout the state and the anticipated resources to be employed.

b) A description of the Statewide Programs to be offered by a Designated or Partnering Institution.

c) A summary of the Memoranda of Understanding (MOU's), if any, to be entered into with Partnering Institutions pursuant to Subsection 2.b.iii. below.

2) Service Region Programs

It is the responsibility of the Designated Institution to plan for and determine the best means to deliver Service Region Programs that respond to the educational and workforce needs of its service region. If, in the course of developing or updating its Institution Plan, the Designated Institution identifies a need for the delivery of a program within its service region, and the Designated Institution is unable to provide the program, then the Designated Institution shall coordinate with a Partnering Institution (including institutions with Statewide Program Responsibilities if applicable) located outside of the service region to deliver the program in the service region.

The Institution Plan developed by a Designated Institution shall include the following:

a) A description of the proposed academic programs to be delivered in the service region, or outside of the service region, by the Designated Institution and the anticipated resources to be employed.

b) A description of proposed programs to be offered in the service region by Partnering Institutions, including any anticipated transition of programs to the Designated Institution.

c) A description of proposed Statewide Programs to be offered in the service region by an institution with Statewide Program Responsibilities, or by the Designated Institution in coordination with the institution holding the Statewide Program Responsibility.

d) A summary of proposed MOU's, if any, to be entered into between the Designated Institution and any Partnering Institutions in accordance with Subsection 2.b.iii. below.

3) Institution Plan Updates

Institution Plans shall be updated and submitted to Board staff annually as follows:

a) Preliminary Institution Plans shall be developed according to a template provided by the Board's Chief Academic Officer and submitted to the Council for Academic Affairs and Programs (CAAP) for review, discussion and coordination annually in April.

b) Following review by CAAP, Institution Plans shall be submitted to Board staff. Upon submission of the Institution Plans to Board staff, the Board's Chief Academic Officer shall review the Institution Plans for the purpose of optimizing collaboration and coordination among institutions, ensuring efficient use of resources, and avoiding unnecessary duplication of programs.

c) In the event the Board's Chief Academic Officer recommends material changes, he/she shall work with the institutions and then submit those recommendations to CAAP for discussion prior to submission to the Board for inclusion in the Three-Year Plan.

d) The Board's Chief Academic Officer shall then provide their recommendations to the Board for enhancements, if any, to the Institution Plans at a subsequent Board meeting. The Board shall approve the Institution Plans annually through the Three-Year Plan submitted by Board staff. Board approval of Institution Plans acts as a roadmap for institutional planning and does not constitute Board approval of a program. Institutions are still required to follow the standard program approval process as identified in Board Policy Section III.G to gain program approval.

b. Delivery of Programs

i. Statewide Program Delivery
The Board has established statewide program responsibilities for the following institutions. This statewide program list shall be updated by the Board every two years.

Boise State University must assess the need for and, when determined necessary by the assessment, ensure the statewide delivery of all educational programs in the following degree program areas:

Program Name	Degrees
Public Policy and Administration	M.S., Ph.D.
Community and Regional Planning	M.C.R.P., Ph.D.
Social Work (Region V-VI —shared with ISU)	M.S.W.
Social Work	Ph.D.

Idaho State University must assess the need for and, when determined necessary by the assessment, ensure the statewide delivery of all educational programs in the following degree program areas:

Program Name	Degrees
Audiology	Au.D., Ph.D.
Physical Therapy	D.P.T., Ph.D.
Occupational Therapy	M.O.T.
Pharmaceutical Science	M.S., Ph.D.
Pharmacy Practice	Pharm.D.
Nursing (Region III shared w/ BSU)	M.S., D.N.P.
Nursing	Ph.D.
Physician Assistant	M.P.A.S.
Speech Pathology	M.S.
Deaf Education	M.S.
Sign Language Interpreting	B.S.
Health Education	M.H.E.
Public Health	M.P.H.
Health Physics	B.S., M.S., Ph.D.
Dental Hygiene	B.S., M.S.
Medical Lab Science	B.S., M.S.
Clinical Psychology	Ph.D.

University of Idaho must assess the need for and, when determined necessary by the assessment, ensure the statewide delivery of all educational programs in the following degree program areas:

Program Name	Degrees
Law	J.D.
Architecture	B.S. Arch., M. Arch.
Integrated Architecture & Design	M.S.
Landscape Architecture	B.S.L.A., M.L.A.
Interior Design	B.I.D., M.S.
Animal & Veterinary Science	B.S.A.V.S.
Animal Science	M.S.
Veterinary Science	D.V.M.
Plant Science	M.S., Ph.D.
Agricultural Economics	B.S.Ag.Econ.
Applied Economics (Agricultural)	M.S.
Food Science	B.S.F.S., M.S., Ph.D.
Forestry	B.S.Forestry
Renewable Materials	B.S.Renew.Mat.
Wildlife Resources	B.S.Wildl.Res.
Fishery Resources	B.S.Fish.Res.
Natural Resource Conservation	B.S.Nat.Resc.Consv.
Rangeland Ecology & Management	B.S.Rangeland.Ecol.Mgmt.
Fire Ecology & Management	B.S.Fire.Ecol.Mgt.
Natural Resource concentrations in: • Forestry • Renewable Materials • Wildlife Resources • Fishery Resources • Natural Resource Conservation • Rangeland Ecology & Management • Fire Ecology & Management	M.S., M.N.R., Ph.D.

ii. Service Region Program Delivery

The Board has established service regions for the institutions based on the six geographic areas identified in Section 33-2101, Idaho Code. A Designated Institution shall have the Service Region Program Responsibility to assess and ensure the delivery of all educational programs and services necessary to meet the educational and workforce needs within its assigned service region.

1) Academic Service Regions

Region I shall include the area within Area No.1 under Section 33-2101, Idaho Code. Lewis-Clark State College, ~~and~~ the University of Idaho, and North Idaho College are the Designated Institutions serving undergraduate needs. The University of Idaho is the Designated Institution serving the graduate education needs. Lewis-Clark State College, University of Idaho, and North Idaho College are the Designated Institutions serving applied baccalaureate degree needs.

Region II shall include the area within Area No.2 under Section 33-2101, Idaho Code. Lewis-Clark State College and the University of Idaho are~~is~~ the Designated Institutions serving undergraduate needs. The University of Idaho is the Designated Institution serving the graduate education needs.

Region III shall include the area within Area No.3 under Section 33-2101, Idaho Code. Boise State University and College of Western Idaho are~~is~~ the Designated Institutions serving undergraduate needs. Boise State University is the Designated Institution serving~~ and~~ graduate education needs. Boise State University and College of Western Idaho are the Designated Institutions serving applied baccalaureate degree needs.

Region IV shall include the area within Area No.4 under Section 33-2101, Idaho Code. Idaho State University and College of Southern Idaho ~~is~~ are the Designated Institutions serving undergraduate ~~and graduate~~ needs~~;~~. Idaho State University is the Designated Institution serving the graduate education needs, with the exception that Boise State University will meet undergraduate and graduate business program needs. Idaho State University and College of Southern Idaho are the Designated Institutions serving applied baccalaureate degree needs.

Region V shall include the area within Area No.5 under Section 33-2101, Idaho Code. Idaho State University is the Designated Institution serving undergraduate and graduate education needs.

Region VI shall include the area within Area No.6 under Section 33-2101, Idaho Code. Idaho State University and College of Eastern Idaho are the Designated Institutions serving undergraduate education needs. Idaho State University is the Designated Institution serving the graduate education needs. Idaho State University and College of Eastern Idaho are the Designated Institutions serving applied baccalaureate degree needs.

2) Career Technical Service Regions

Postsecondary career technical education is delivered by six (6) institutions, each having responsibility for serving one of the six geographic areas identified in Section 33-2101.

Region I shall include the area within Area No.1 under Section 33-2101, Idaho Code. North Idaho College is the Designated Institution.

Region II shall include the area within Area No.2 under Section 33-2101, Idaho Code. Lewis-Clark State College is the Designated Institution.

Region III shall include the area within Area No.3 under Section 33-2101, Idaho Code. College of Western Idaho is the Designated Institution

Region IV shall include the area within Area No.4 under Section 33-2101, Idaho Code. College of Southern Idaho is the Designated Institution.

Region V shall include the area within Area No.5 under Section 33-2101, Idaho Code. Idaho State University is the Designated Institution.

Region VI shall include the area within Area No.6 under Section 33-2101, Idaho Code. College of Eastern Idaho is the Designated Institution.

3) Program Offerings by Partnering Institutions

If a Partnering Institution (other than an institution with Statewide Program Responsibilities) identifies a Service Region Program not identified, or anticipated to be identified, in a Designated Institution's Plan, and the Partnering Institution wishes to offer such program in the Designated Institution's service region, then the Partnering Institution may communicate with the Designated Institution for the purpose of allowing the Partnering Institution to deliver such program in the service region and to include the program in the Designated Institution's Plan. In order to include the program in the Designated Institution's Plan, the Partnering Institution must demonstrate the need within the service region for delivery of the program, as determined by the Board (or by the Administrator of the Division of Career Technical Education in the case of career technical level programs). In order to demonstrate the need for the delivery of a program in a service region, the Partnering Institution shall complete and submit to the Chief Academic Officer of the Designated Institution, to CAAP and to Board staff, in accordance with a schedule to be developed by the Board's Chief Academic Officer, the following:

a) A study of business and workforce trends in the service region indicating anticipated, ongoing demand for the educational program to be provided.

b) A survey of potential students evidencing demand by prospective students and attendance sufficient to justify the short-term and long-term costs of delivery of such program.

c) A complete description of the program requested to be delivered, including a plan for the delivery of the program, a timeline for delivery of the program, the anticipated costs of delivery, the resources and support required for delivery (including facilities needs and costs), and program syllabuses.

4) Designated Institution's First Right to Offer a Program

In the event the Partnering Institution has submitted the information set forth above to the Board's Chief Academic Officer) for inclusion in the Designated Institution's Plan, and a need is demonstrated by the Partnering Institution for such program in the service region, as determined by the Board (or by the Administrator for the Division of Career Technical Education in the case of career technical level programs), or prior to the submission of an updated Institution Plan by the Designated Institution, it is determined by the Board that an emergency need has arisen for such program in the service region the Designated Institution shall have a first right to offer such program.

The Designated Institution must within six (6) months (three (3) months in the case of associate level or career technical level programs) of receiving the request from a Partnering Institution to offer said program determine whether it will deliver such program on substantially the same terms (with respect to content and timing) described by the Partnering Institution. In the event the Designated Institution determines not to offer the program, the Partnering Institution may offer the program according to the terms stated, pursuant to an MOU to be entered into with the Designated Institution. If the Partnering Institution materially changes the terms and manner in which the program is to be delivered, the Partnering Institution shall provide written notice to the Chief Academic Officer of the Designated Institution and to the Board's Chief Academic Officer of such changes and the Designated Institution shall be afforded the opportunity again to review the terms of delivery and determine within three (3) months of the date of notice whether it will deliver such program on substantially the same terms.

iii. Memoranda of Understanding

When a service region is served by more than one institution for the delivery of an academic or technical credential defined in Board Policy Section III.E., an MOU shall be developed between such institutions as provided herein and submitted to the Board's Chief Academic Officer for review and approval by the Board prior to entering into such agreements. Each MOU shall be entered into based on the following guidelines, unless otherwise approved by the Board.

If an institution with Statewide Program Responsibility has submitted the information set forth in Subsection 2.a.ii. above to a Designated Institution and Board staff in a timely manner (as determined by the Board's Chief Academic Officer) for inclusion in the Designated Institution's Plan, then the Designated Institution shall identify the program in its Institution Plan and enter into an MOU with the institution with Statewide Program Responsibility in accordance with this policy. If, prior to the submission of an updated Institution Plan by the Designated Institution, it is determined by the Board that an emergency need has arisen for such program in the service region, then upon Board approval the institution with Statewide Program Responsibility and the Designated

Institution shall enter into an MOU for the delivery of such program in accordance with the provisions of this policy.

iv. Facilities

For programs offered by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) within a municipal or metropolitan area that encompasses the campus of a Designated Institution, the Partnering Institution's programs offerings shall be conducted in facilities located on the campus of the Designated Institution to the extent the Designated Institution is able to provide adequate and appropriate property or facilities (taking into account financial resources and programmatic considerations), or in facilities immediately adjacent to the campus of the Designated Institution. Renting or building additional facilities shall be allowed only upon Board approval, based on the following:

1) The educational and workforce needs of the local community demand a separate facility at a location other than the campus of the Designated Institution or adjacent thereto as demonstrated in a manner similar to that set forth in Subsection 2.b.ii.1) above, and

2) The use or development of such facilities are not inconsistent with the Designated Institution's Plan.

Facilities rented or built by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) on, or immediately adjacent to, the "main" campus of a Designated Institution may be identified (by name) as a facility of the Partnering Institution, or, if the facility is rented or built jointly by such institutions, as the joint facility of the Partnering Institution and the Designated Institution. Otherwise, facilities utilized and programs offered by one or more Partnering Institutions within a service region shall be designated as "University Place at (name of municipality)."

For programs offered by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) within a municipality or metropolitan area encompassing a campus of a Designated Institution, to the extent programmatically possible, auxiliary services (including, but not limited to, bookstore, conference and other auxiliary enterprise services) and student services (including, but not limited to, library, information technology, and other auxiliary student services) shall be provided by the Designated Institution. To the extent programmatically appropriate, registration services shall also be provided by the Designated Institution. It is the goal of the Board that a uniform system of registration ultimately be developed for all institutions governed by the Board. The Designated Institution shall offer these services to students who are enrolled in programs offered by the Partnering Institution in the same manner, or at an increased level of service, where appropriate, as such services are offered to the Designated Institution's students. An MOU between the Designated Institution and the Partnering Institution shall outline how costs for these services will be allocated.

v. Duplication of Courses

If courses necessary to complete a Statewide Program are offered by the Designated Institution, they shall be used and articulated into the Statewide Program.

vi. Program Transitions

Institutions with Statewide Program or Service Region Program Responsibilities may plan and develop the capacity to offer a program within a service region where such program is currently being offered by another institution (the Withdrawing Institution) as follows:

1) The institution shall identify its intent to develop the program in the next update of its Institution Plan. The institution shall demonstrate its ability to offer the program through the requirements set forth in Subsection 2.b.ii.3) above.

2) Except as otherwise agreed between the institutions pursuant to an MOU, the Withdrawing Institution shall be provided a minimum three (3) year transition period to withdraw its program. If the Withdrawing Institution wishes to withdraw its program prior to the end of the three (3) year transition period, it may do so but in no event earlier than two (2) years from the date of notice (unless otherwise agreed). The Withdrawing Institution shall enter into a transition MOU with the institution that will be taking over delivery of the program that includes an admissions plan between the institutions providing for continuity in student enrollment during the transition period.

vii. Discontinuance of Programs

Unless otherwise agreed between the applicable institutions pursuant to an MOU, if, for any reason, (i) a Designated Institution offering programs in its service region that supports a Statewide Program of another institution, (ii) a Partnering Institution offering programs in the service region of a Designated Institution, or (iii) an institution holding a Statewide Program Responsibility offering Statewide Programs in the service region of a Designated Institution, wishes to discontinue offering such program(s), it shall use its best efforts to provide the institution with Statewide or Service Region Program Responsibility, as appropriate, at least one (1) year's written notice of withdrawal, and shall also submit the same written notice to the Board and to oversight and advisory councils. In such case, the institution with Statewide or Service Region Program Responsibilities shall carefully evaluate the workforce need associated with such program and determine whether it is appropriate to provide such program. In no event will the institution responsible for the delivery of a Statewide or Service Region Program be required to offer such program (except as otherwise provided herein above).

3. Existing Programs

   Programs being offered by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) in a service region prior to July 1, 2003, may continue to be offered pursuant to an MOU between the Designated Institution and the Partnering Institution, subject to the transition and notice periods and requirements set forth above.

4. Oversight and Advisory Councils

   The Board acknowledges and supports the role of oversight and advisory councils to assist in coordinating, on an ongoing basis, the operational aspects of delivering programs among multiple institutions in a service region, including necessary resources and support and facility services, and the role of such councils in interacting and coordinating with local and regional advisory committees to address and communicate educational needs indicated by such committees. Such interactions and coordination, however, are subject to the terms of the MOU's entered into between the institutions and the policies set forth herein.

5. Resolutions

   All disputes relating to items addressed in this policy shall be forwarded to the Board's Chief Academic Officer for review. The Board's Chief Academic Officer shall prescribe the method for resolution. The Board's Chief Academic Officer may forward disputes to CAAP and if necessary make recommendation regarding resolution to the Board. The Board will serve as the final arbiter of all disputes.

6. Exceptions

   a. This policy is not applicable to programs for which 90% or more of all activity is required or completed online, or dual credit courses for secondary education.

   b. This policy also does not apply to courses and programs specifically contracted to be offered to a private, corporate entity. However, in the event that an institution plans to contract with a private corporate entity (other than private entities in the business of providing educational programs and course) outside of their Service Region, the contracting institution shall notify the Designated Institutions in the Service Region and institutions with Statewide Program Responsibilities, as appropriate. If the corporate entity is located in a municipality that encompasses the campus of a Designated Institution, the Board encourages the contracting institution to include and draw upon the resources of the Designated Institution insomuch as is possible.

PLANNING, POLICY AND GOVERNMENTAL AFFAIRS
JUNE 21, 2018

EASTERN IDAHO TECHNICAL COLLEGE/COLLEGE OF EASTERN IDAHO

SUBJECT

Eastern Idaho Technical College (EITC) / College of Eastern Idaho (CEI) Biennial Progress Report

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section I.M.3.

ALIGNMENT WITH STRATEGIC PLAN

GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT: Objective B: Alignment and Coordination
GOAL 2: EDUCATIONAL ATTAINMENT: Objective A: Higher Level of Education Attainment, Objective B: Timely Degree completion, Objective C: Access

BACKGROUND/DISCUSSION

This agenda item fulfills the Board's requirement for EITC/CEI to provide a progress report on the institution's strategic plan, details of implementation, status of goals and objectives and information on other points of interest in accordance with a schedule and format established by the Board's Executive Director.

President Aman will provide a 15-minute overview of EITC/CEI's progress in carrying out the College's strategic plan.

IMPACT

The strategic plan drives the College's integrated planning; programming, budgeting, and assessment cycle and is the basis for the institution's annual budget requests and performance measure reports to the State Board of Education, the Division of Financial Management and the Legislative Services Office.

Attachment 1 – EITC/CEI Progress Report

BOARD ACTION

This item is for informational purposes only. Any action will be at the Board's discretion.

ATTACHMENT 1

Eastern Idaho Technical College/College of Eastern Idaho Progress Report

June 2018
Presented by: Dr. Rick Aman, President

Strategic Plan Implementation (The institutions as well as progress toward moving the Board's strategic plan forward)

- **Details of Implementation**
  - EITC/CEI has implemented the Strategic Plan on campus and works regularly to align it with the SBOE Strategic Plan. Additionally, regular meetings are held to assess trends toward meeting accreditation goals implemented by NWCCU. The existing Accreditation Steering Committee meets regularly to verify goals are on track to meet both SBOE and NWCCU benchmarks. The committee, and the campus, continually assess provided benchmarks to ensure campus needs are being met and evaluate and prioritize initiatives and programs in consideration of existing criteria. EITC/CEI has implemented a more introspective model of analysis in consideration of both SBOE and NWCCU goals, as the institution evolves so too will those goals. An open communication model allows students, faculty, and staff to provide input to campus leadership and subsequently shape campus goals to meet actual, data driven needs.
- **Status of Goals and Objectives**
  - GOAL 1: A Well-Educated Citizenry
    - EITC/CEI must remain a cost-effective education option for the region. The benchmark of State Funded students, greater than 15, is in site as currently 15 students are funded by the State. FY 2017 Foundation funded students reported at 227, less than the benchmark of greater than 350, but current initiatives on the part of the Foundation as well as increases in endowments will provide greater opportunities for students to receive funds. Current trends indicate both numbers increasing.
    - Increasing the Go-On rate in eastern Idaho is central to the mission of EITC/CEI. As such, a focus on high school graduates must play a part in meeting said goals. 27% of local high school graduates currently enroll in programs at EITC/CEI during the first year after graduation. This number easily meets the greater than 25% benchmark. Growing relationships with local high school will only increase these numbers.
    - Production of degrees and certificates is key to growth and support of the institution. EITC/CEI conducts regular analysis of employment numbers to meet the demand of local industry. To

meet the benchmarks, the College continues to expand existing programs as well as implement new programs.
    - Enhanced recruitment has been implemented including increased emphasis on high school students. Growing the department and community involvement will further expand the existing visibility of the institution.
- GOAL 2: Innovation and Economic Development
    - Workforce readiness is a clear indicator of the success of a technical program. Advisory Boards are established for each of the existing technical based programs and a College-wide advisory Board exists to remain attached to local business and industry. Placement, Training Related Placement, and Continuing Education numbers can all be improved with the use of said Boards and growing partnerships within the region.
- GOAL 3: Data-Informed Decision Making
    - EITC/CEI maintains close relationships with local industries. As such, Workforce Training, Community Education, and Just-In-Time trainings play a significant role in local industry. Course offerings, already meeting current benchmarks, continue to grow as a direct reflection of needs. WTCE regularly develops new training opportunities and partnerships with businesses in the area.
    - The Accreditation Steering Committee has developed an Accreditation Data Roadmap for the purpose of aligning strategic planning, statewide performance measures, and accreditation reported data. This Roadmap is used to effectively track measures and goals of the institution and ensure that all benchmarks are within reach.
- GOAL 4: Effective and Efficient Educational System
    - Retention, Graduation Rates, Transfer Rates, and Overall Cost all play a part in creating and maintaining an effective and efficient education system in the region. Ensuring that needed courses, on both the High School and Post-Secondary levels, are available assists with each of these numbers and EITC/CEI continues to focus on building relationships to mitigate friction for students and develop simple and accessible pathways to further education.
    - Even with increasing costs, EITC/CEI still boasts the lowest tuition rate in the State at $129 per credit hour. Combined with federal, local, and foundation funding, students are able to complete a degree with limited cost impacts on their future. Growing endowments within the foundation and fiscally sound and responsible spending habits on the part of the institution will help maintain, and ultimately lower, existing numbers.
    - EITC/CEI has developed a curriculum committee dedicated to developing high quality courses. Regular evaluation of existing programs, both CTE and general education, as well as annual peer

and department reviews help shape programs to better serve the community.
    - EITC/CEI is committed to the State GEM Standards related to general education courses and continues to develop courses easily aligned with other insititutions.
  - GOAL 5: Student Centered
    - EITC/CEI conducts regular surveying of students to accurately assess that needs are met. A combination of reporting from Noel Levitz evaluations as well as internal, course specific, surveys given to students ensure that faculty and staff are meeting the implemented goals from the State and meeting student needs.
    - EITC/CEI provides access for students to tutoring services, library facilities, and on campus counseling. Consistent assessment and reporting for each help maintain a student focused outreach system that encourages retention, graduation, and transfer.
  - GOAL 6: Cyber Awareness
    - EITC/CEI does not currently have accurate numbers for this goal but plans to meet goals with the following initiatives: regular training, campus awareness, current and relevant policies signed by each employee, and developing “super users” that can help spread information to campus.
    - The campus has developed a sophisticated notification system anytime cyber concerns appear on campus. Faculty and Staff are well educated on appropriate cyber-security expectations and work well with the IT department to ensure safety and security of the campus network.
  - Additional Initiatives
    - EITC/CEI does not currently have an outlined goal of campus safety but has taken the initiative to focus heavily on student, faculty, and staff safety. Of particular note, campus assessments through the Idaho Division of School Safety and Security as well as developing partnerships with local law enforcement have helped to communicate to the campus and surrounding communities that physical safety and security are of the utmost concern to College leadership.
- **Special Appropriations**
  - Strategic goals and objectives assume on-going and sometimes significant additional levels of State legislative appropriations. Recent funding increases for Career Technical Education has allowed EITC/CEI to respond to industry needs in a timely and efficient manner. Many CTE programs have limited seats and thus limit program growth. Increases in State funding allow for additional instructor hires and will reduce existing waiting lists. CEI was funded as a community college which allows us to offer the Associates of Arts and the Associates of Science Degrees for the first time fall semester this will continue to grow enrollment rates and add

to transfer rates. EITC/CEI is actively engaged in the "go on" rate in Idaho and working with the local high schools to recruit students.

Enrollment Numbers (As reported in the performance measure report)
Annual Enrollment – 1,008 ; Annual Unduplicated FTE – 467
Workforce Training/Community Education – 10,549

Retention Rates (As reported in the performance measure report)
Full Time Students – 50% (54/108) ; Part Time Students – 30% (46/154)

Graduation Rates - *IPEDS report for 2014 first-time, full-time cohort*
53% overall rate
31% normal time, 55% - 150% of normal time, and 57% - 200% of normal time

Research and Economic Development
The College President and other Leadership are involved in each of the following local and regional economic development agencies:

- **The Development Company –** Serves both local businesses and governments to develop and expand the economy of the region.
- **Regional Economic Development Eastern Idaho** – The premiere regional economic and development research organization in Eastern Idaho focusing on expansion of business, job growth and retention, and attraction of new business to the area.
- **Givent Executive Network –** Executive level networking organization focused on growing and retaining current business and industry in eastern Idaho.
- **Idaho Economic Development Association -** brings together economic development professionals, development organizations, and partners from across the state of Idaho. IEDA is a state-wide organization supporting community and economic developers who are dedicated to strengthening Idaho's economic prosperity.
- **Eastern Idaho Economic Development Partners** – an organization of economic professionals located in twelve counties focused on helping businesses start up, expand, and relocate to eastern Idaho.
- **Idaho Innovation Center** - provides large business resources to small, fledgling companies where entrepreneurs can confidently and aggressively start and grow their small businesses through collaboration, education, mentoring, and advising.
- **Idaho Technology Council** – The ITC includes partners ranging from growing companies, mid-size companies, and large corporations, all committed to the success of Idaho's technology ecosystem. Through the leadership of this private sector, the ITC brings together industry, education, research, investment, and government throughout the state.

- **Western Interstate Commission for Higher Education** – WICHE exists to facilitate resource sharing among the higher education systems of the West and encourages reciprocal relationships between states and institutions.
- **Leaders in Nuclear Energy Commission** – The Idaho LINE Commission was created by Governor Otter to make recommendations to the Governor on policies and actions of the State of Idaho to support and enhance the long-term viability and mission of the Idaho National Laboratory and other nuclear industries in Idaho.

Highlight Any College Standouts

- Successful and continuing conversion from EITC to CEI
- Significant growth in partnerships with local business, industry, and education
- Implementation of educational pathways and partnerships
- 2018 Commencement – 1st Associate of Arts graduate, Kayla Flowers

Collaborations with Other Institutions or Industry

- Local Higher Education Partners – ISU, UI, BYUI
  - Developing pathways, 2+2, articulations
  - Co-Admit agreements
- Local High Schools (Superintendents, Principals)
  - Growing Dual Credit programs
- Local Hospitals (EIRMC, Mountain View, Bingham Memorial)
  - Training and Clinical Opportunities
- Department of Labor
- Vocational Rehab
- Veterans Affairs and TRIO
  - Opening campus Veteran's Center
- Idaho STEM Programs
- Idaho Regional Optics Network

Capital Campaign

- Academic Enhancements $605,000 *(DPW Funds)*
- Scholarship Endowment $3,972,970.00

Community Partnerships

- Continuing and growing relationships with both City of Idaho Falls and City of Ammon
- Idaho Falls Police Department
- Idaho Falls Power
- Idaho Fire Training

- Local Technology Partners; Idaho Steel, Cives, Premiere Technologies, Fluor Idaho
- CAES Institute
- Idaho National Laboratory/Bechtel Energy Alliance
- Local non-profit and civic organizations; Rotary, Chamber of Commerce, Idaho Falls Food Basket
- Establishing satellite locations to serve rural communities
    - Lemhi, Butte, and Teton Counties

New Buildings
Even as enrollment grows, EITC/CEI has no immediate plans to construct new buildings on campus. Working with the Idaho Division of Public Works, EITC/CEI has completed regular upkeep and modification of existing campus buildings. As a community and State funded institution, it is crucial that appropriate use of public funds remains in the forefront. With recent gifts to the College, EITC/CEI will expand and remodel existing campus locations to better serve the community and campus.

- 2017 Bill and Shirley Maeck Legacy Gift - $1,730,000 ; to be used to renovate existing laboratory space, build a nursing simulation laboratory, build a regional testing center, provide technological needs to existing programs
- 2018 Bob Robotti Gift - $200,000 ; to be used to fund technological needs related to Maeck advancements
- 2018 CHC Foundation Grant - $34,000 ; to be used to renovate existing classroom space and enhance technological offerings

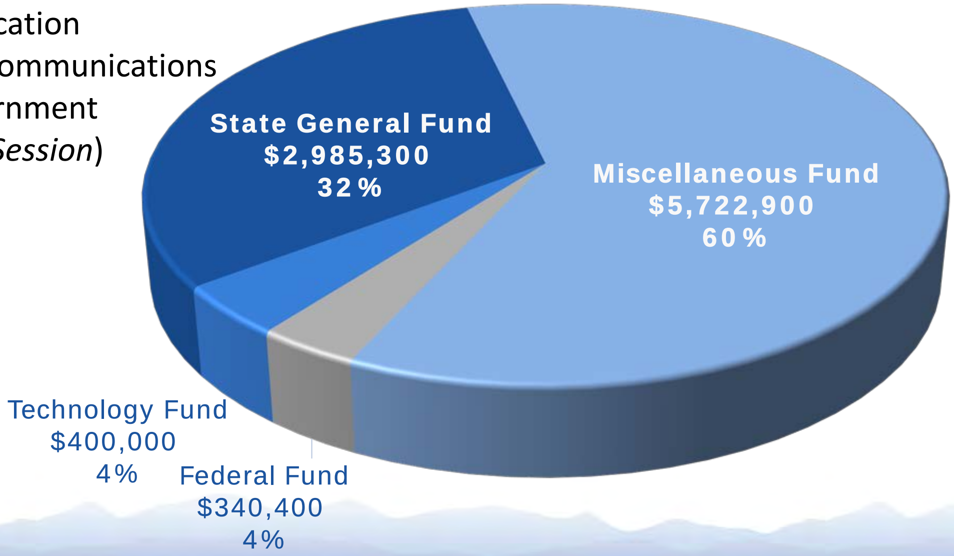
Spectrum Auction/Repacking

Congress Authorized the FCC to Take Back TV Spectrum & Auction to Broadband Providers

- Auction in April, 2017, Channels 38-51 Sold
- Repacking All Broadcasters Into Channels 2-36 From 2017 to 2020
- For IdahoPTV - 1 Transmitter & 15 Translators So Far
- T-Mobile Grant Saving $500,000+
- State-Funded New Engineering Position for FY 2019

Appropriated Funding FY 2019
$9,448,600

Statewide Delivery System
- Deliver content to nearly every Idaho household
- Support education
- Emergency communications
- Deliver government (*Idaho In Session*)



Educational Content
- National and Regional Programming
- Local Program Creation
- Online Resources
- Educational Outreach

Peer Group Comparison

STATE	FY18 STATE FUNDS	$/PERSON
Alabama	$8,497,250	$1.75
Arkansas	$8,450,000	$2.85
Georgia	$15,244,335	$1.51
Iowa	$7,589,846	$2.44
Kentucky	$13,923,200	$3.21
Louisiana	$5,340,220	$1.18
Maryland	$8,047,921	$1.39

STATE	FY18 STATE FUNDS	$/PERSON
Mississippi	$6,099,967	$2.04

Operational Funding Outlook

- Federal Funding to CPB Threatened
- Already Outperform Peers in Private Fundraising – Limited Growth Projected
- Only 14 of 68.5 FTP Funded With State Funds

Other Opportunities/Challenges

- Continue to Grow Educational Outreach
- Continue to Grow Local Production Efforts
- Ensure Content Is Available on All Platforms
- Finish Transitioning Transmitter/Translators to New Channels Per FCC Repack

FY2020 Line Item Request #1

- New Educational Outreach Position
  - Address desire for IdahoPTV to provide more services & professional development workshops to more schools & communities
  - Help reach more regions of the state

FY2020 Line Item Request #2

- New Digital Technician Position
  - Address increasing need to provide content on new online streaming services
  - Number of technologies and digital platforms growing exponentially
  - Idahoans expect us to provide content when and where they want it

FY2020 Continue Equipment Funding

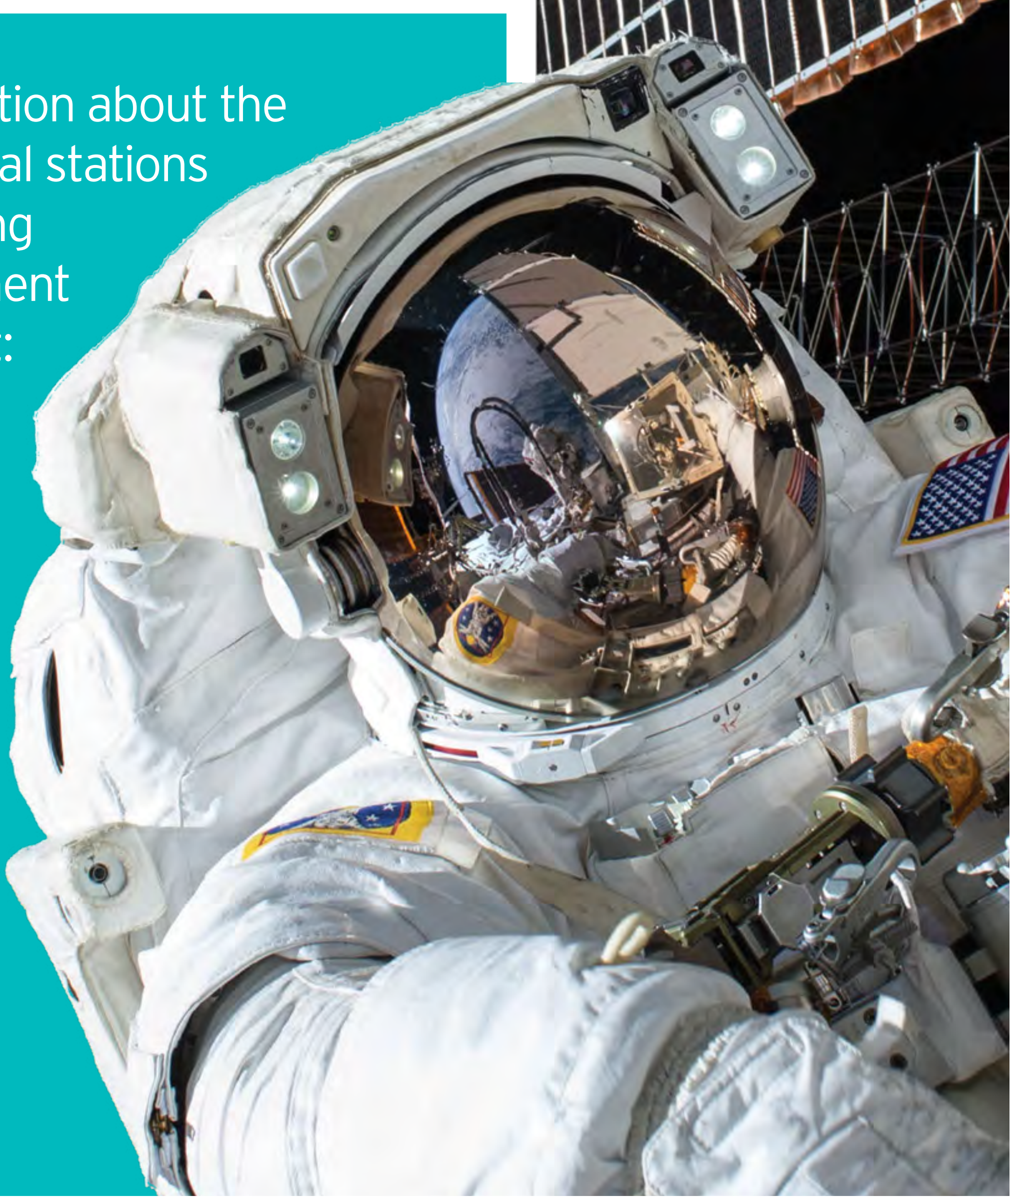
Critical Equipment & Infrastructure Concerns

- $23 Million in State Fixed Assets
- 81.2% ($18M) Is Depreciated
- Federal Capital Grant Programs Eliminated
- Continuing To Address Deferred Replacement

Q & A

15 YEARS AS AMERICA'S MOST TRUSTED INSTITUTION

2018 PBS



For more information about the ways PBS and local stations deliver outstanding return on investment to the nation, visit:

pbs.org/value

Americans have named PBS and stations the nation's most trusted institution for 15 years running.

During this period of rapid evolution in media, politics, culture, and technology, the value that the public sees in PBS and local member stations has remained unique and unrivaled.

Trust is the most important measure of our success in fulfilling our essential public service mission. We treat our audience as citizens, not consumers. No other media entity provides the same array of community benefits, including free children's educational content and services, in-depth news and public affairs programming, series that spark lifelong learning, and vital emergency communications. These are just some of the reasons why PBS and local stations continue to engender trust and loyalty despite an explosion of channels, platforms, and devices that have presented Americans with more choices at their fingertips than ever before.

In this faster and more fluid environment, PBS and stations are embracing digital technology to find new ways to serve Americans to fit their busy lives, meet their needs, and reflect their diverse interests. This includes the 24/7 PBS KIDS channel and live stream, now available to more than 95% of U.S. TV households. PBS Digital Studios presents more than 50 original web series on YouTube and Facebook, each geared toward a like-minded community of learners, whether bound by a love of art, culture, or science.

Rooted in local communities, PBS is proud to work alongside nearly 350 member stations in service to the American people. Member stations are independently owned and operated, and in many rural areas, public television is the only media available. A strong private-public partnership ensures that our service is available to every American. Federal funding provides critical seed money that enhances our educational programming and sustains service in rural and underserved areas. Reflecting our broad public trust, donations from viewers make up the single largest source of funding to PBS and stations.

Marketing & Research Resources, Inc. (M&RR) fielded 11 questions via an online survey during the window of January 4-9, 2018. The survey was conducted among a sample of 1,025 adults ages 18+, 495 men and 530 women. The results are weighted to be nationally representative of the US adult population. Results presented throughout are for all respondents, unless otherwise noted.

ABOUT PBS

PBS, with nearly 350 member stations, offers all Americans the opportunity to explore new ideas and new worlds through television and digital content. Each month, PBS reaches nearly 100 million people through television and nearly 28 million people online, inviting them to experience the worlds of science, history, nature and public affairs; to hear diverse viewpoints; and to take front row seats to world-class drama and performances. PBS' broad array of programs has been consistently honored by the industry's most coveted award competitions. Teachers of children from pre-K through 12th grade turn to PBS for digital content and services that help bring classroom lessons to life. Decades of research confirms that PBS' premier children's media service, PBS KIDS, helps children build critical literacy, math and social-emotional skills, enabling them to find success in school and life. Delivered through member stations, PBS KIDS offers high-quality educational content on TV — including a new 24/7 channel, online at pbskids.org, via an array of mobile apps and in communities across America. More information about PBS is available at www.pbs.org, one of the leading dot-org websites on the internet, or by following PBS on Twitter, Facebook or through our apps for mobile and connected devices. Specific program information and updates for press are available at pbs.org/pressroom or by following PBS Pressroom on Twitter.

PBS

SUBJECT

Legislative Ideas - 2019 Legislative Session

REFERENCE

June 2014	The Board approved ten (10) of twelve (12) legislative ideas to be submitted through the Executive Agency Legislation process.
June 2015	The Board approved sixteen (16) legislative ideas to be submitted through the Executive Agency Legislation process.
June 2016	The Board approved twenty-eight (28) legislative ideas to be submitted through the Executive Agency Legislation process.
June 2017	The Board approved eighteen (18) legislative ideas to be submitted through the Executive Agency Legislation process.

ALIGNMENT WITH STRATEGIC PLAN

GOAL 2: EDUCATIONAL ATTAINMENT: Objective A: Higher Level of Education Attainment, Objective B: Timely Degree completion, Objective C: Access

BACKGROUND/ DISCUSSION

The State Board of Education's legislative process starts with the approval of legislative ideas. Legislative ideas that are approved by the Board are submitted electronically to the Division of Financial Management (DFM) through the Executive Agency Legislative process. A legislative idea consists of a statement of purpose and a fiscal impact. If approved by the Board, the actual legislative language will be brought back to the Board at a later date for final approval prior to submittal to the legislature for consideration during the 2019 Legislative Session. Legislative ideas submitted to DFM are forwarded for consideration by the Governor and then to the Legislative Services Office for processing and submittal to the Legislature.

In accordance with the Board's Master Planning Calendar, the institutions and agencies are required to submit legislative ideas for Board approval at the June Board meeting. The Board office received four (4) legislative ideas from the institutions:

<u>Board Staff</u>
Seed Certification

<u>University of Idaho</u>
Agricultural College Endowment – Constitutional Amendment
Agricultural College Endowment

<u>Lewis-Clark State College</u>
Program Expansion – Legislative Authority

<u>North Idaho College</u>
Community College Tuition Cap Amendment

IMPACT

Staff will move Board-approved legislative ideas through the legislative process and will bring the legislative language back to the Board at the August Board meeting for consideration. Legislative ideas not approved will not be submitted to DFM and will not move forward to the next step in the process.

ATTACHMENTS

Attachment 1 – Legislative Ideas

STAFF COMMENTS AND RECOMMENDATIONS

In 2017 the Board approved and forwarded legislation that, if enacted, would no longer required the Board go through the formal rule promulgation process for seed certification. During the 2018 Legislative Session the Potato Commission requested the legislation be held and that a broader group composed of the University of Idaho's College of Agriculture and the various agricultural comedies commissions be formed to look at more holistic changes to the section of code. The Governor's Office concurred with the request and the legislation was held pending further work. This legislative idea concerning Seed Certification is being forwarded again to the Board for consideration as a placeholder. If the broader group were to form consensus and bring forward a consensus piece of legislation, the consensus legislation would be brought to the Board for consideration in lieu of this item.

The Agricultural Endowment – CAFÉ Dairy legislative ideas submitted by the University of Idaho are substantially similar to the legislative idea approved by the Board in 2017. While this legislation was approved and submitted to the legislature for consideration in 2017, it was held in the House Agriculture Committee due to questions that were raised by legislators as to whether it was constitutional. The Attorney General's Office has confirmed that a constitutional amendment is required. The second legislative idea submitted by the University of Idaho is for a constitutional amendment that would address these concerns. From a process perspective, the constitutional amendment will need to pass the legislature and the electorate prior to consideration of the CAFÉ Dairy legislative idea. For this reason staff are not recommending approval of the CAFÉ Dairy legislative idea at this time.

Legislative ideas are required to be submitted to DFM by July 13, 2018 and final legislation is required to be submitted by August 17, 2018. During the process of working through legislative ideas, additional ideas of merit sometimes surface before the DFM submittal deadline. The Board has traditionally authorized the Executive Director to submit these ideas. Actual legislative language for all submitted legislative ideas will be brought back to the Board at the August 2018 Board meeting prior to the DFM August deadline for final Board approval. The legislative ideas were discussed during the June Presidents' Council meeting.

Legislative Ideas submitted by institutions or agencies are provided in the form submitted to the Board office. Final edits may be made in substantial conformance to the form provided prior to submittal through the Executive Agency Legislative System. Legislative Ideas that do not indicate who they were submitted by are developed by Board staff based in alignment with Board initiatives or feedback received from legislators and other education stakeholder groups.

Due to the coming transition in the Governor's Office, all state agencies, commissions, and boards have been requested to only submit "mission critical" legislation for the 2019 Legislative Session.

BOARD ACTION

I move to approve the Legislative Ideas 1 through 3 in Attachment 1 and to authorize the Executive Director to submit these and additional proposals as necessary through the Governor's legislative process.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

ATTACHMENT 1

LEGISLATIVE IDEAS

1. **Seed Certification** (Place Holder)

Statement of Purpose
The purpose of this legislation is to amend Section 22-1505, Idaho Code, removing the requirement that the Idaho Agricultural Experiment Station in the College of Agriculture of the University of Idaho use the Administrative Rule process for setting standards for seed certification. The current process that allows for public/industry input in setting seed certification standards through the Idaho Crop Improvement Association, the current Agent of the Idaho Agricultural Experiment Station, would remain in place, however, the added formal rule promulgation process would be removed. Layering the formal rule promulgation process on top of the process that has been developed through the Idaho Crop Improvement Association has added a layer of bureaucracy and time lines that limits the ability to amend standards in a manner responsive to industry needs. The current framework for gathering stakeholder/industry input used by the Idaho Crop Improvement Association allows those that are impacted to be involved in the process through the Idaho Crop Improvement Association. Additionally, a thirty day public comment period for the standards would be required prior to their establishment.

Fiscal Impact
There would be a de minimis positive fiscal impact. The current processes facilitated by the College of Agriculture and its agent the Idaho Crop Improvement Association would continue. The administrative rule process would be eliminated resulting in one less rule being published each year. The publication costs for this rule have run between $500 and $1,000 each year.

2. **Agricultural College Endowment – Constitutional Amendment**

Statement of Purpose:
The Agricultural College Endowment, established under the Morrill Act, exists for the benefit of the University of Idaho and its agricultural/mechanical programs. The Morrill Act is unique among the state land endowments in that it specifically allows for the endowment to purchase lands for sites or experimental farms, whenever authorized by the state legislature. This legislation will call for an amendment to Article IX Section 8 of the Idaho Constitution to authorize the Land Board furnish lands in the Agricultural College Endowment (Morrill Act Endowment) to the University of Idaho for use as an Experimental Farm, which would include use in conjunction with the Center for Agriculture, Food and the Environment (CAFÉ).

Fiscal Impact:
There is no impact to the General Fund. Income from the Agricultural College Endowment, flows through to the University and, by law, is never part of the General Fund. The University anticipates that endowment lands, currently utilized by the University under an easement at no annual rent to the University, will be sold by the endowment and those proceeds used to acquire new endowment lands adjacent to the

CAFÉ operational property to be furnished to the University for use as crop lands to grow feed for the CAFÉ diary. Thus there will be no fiscal impact to either the endowment income or to the University since the current lands do not generate income for the endowment.

3. **Community College Tuition Cap** (Submitted by North Idaho College)

Statement of Purpose

The proposed legislation would amend Section 33-2110, Idaho Code, removing the maximum tuition cap allowed to be charged by community colleges. Currently, code limits community colleges to a maximum tuition of $2,500 per annum, which equates to an effective per credit cost of $104.17. Removing the tuition cap will allow the locally elected Boards of Trustees for each Community College to continue to set tuition and use student tuition as one part of the equation to fund quality higher education at each college. Current resident in-district tuition is close to the statutory cap at the community colleges. For example, at North Idaho College, resident in-district-tuition is $101.50 per credit allowing only $2.67 or an additional 2.6% until reaching the current maximum cap allowed per code.

Fiscal Impact

The proposed amendments would remove the tuition cap that can be collected by Community Colleges. Without the amendment, community colleges will need to rely more on state funding and local taxing district support to fund operations. For North Idaho College, the change would create additional tuition of $152,052.27 assuming a 3% tuition increase and a current tuition rate of $104.17 per credit.

4. **Lewis-Clark State College Program Expansion** (Submitted by Lewis-Clark State College)

Statement of Purpose

Section 33-3101, Idaho Code, currently limits the offering at Lewis-Clark State College to instruction in four (4) year college courses in science, arts and literature, and such courses or program as are usually included in liberal arts colleges leading to the granting of a baccalaureate degree and career technical education courses or programs of less than four (4) years. The proposed amendments would remove the restrictions and allow the college to offer such programs as the State Board of Education may approve.

Fiscal Impact

The fiscal impact is indeterminate at this time, the State Board of Education program approval process requires institutions to provide evidence of the program need and program costs when considering the approval of any new programs. Any program that demonstrates a high regional or state need may result in the shifting of existing funds from lower priority programs to cover the new program costs, a request for new funds through the state appropriation process, the creation of a self-support program fee or the increase of general tuition and fees to cover the cost. Any new costs would be offset from the increased enrollment for the participants of these no programs that may have not otherwise enrolled at Lewis-Clark State College.

The fiscal impact will be different for each program. However, broadly speaking, the administrative and support structures are in place. Primary expenses for most programs would be in personnel (faculty mostly), and reallocation of existing resources will be required in any new program we offer.

5. Agricultural College Endowment – CAFÉ Dairy (Submitted by University of Idaho)

Statement of Purpose:
The Agricultural College Endowment, established under the Morrill Act, exists for the benefit of the University of Idaho and its agricultural/mechanical programs. The Morrill Act is unique among the state land endowments in that it specifically allows for the endowment to purchase lands for sites or experimental farms, whenever authorized by the state legislature. This legislation will create specific legislative authorization for the Land Board to use funds from the Agricultural College Endowment to acquire lands and furnish those lands to the University of Idaho for use in conjunction with the Center for Agriculture, Food and the Environment (CAFÉ).

Fiscal Impact:
There is no impact to the General Fund. Income from the Agricultural College Endowment, flows through to the University and, by law, is never part of the General Fund. The University anticipates that endowment lands, currently utilized by the University under an easement at no annual rent to the University, will be sold by the endowment and those proceeds used to acquire new endowment lands adjacent to the CAFÉ operational property to be furnished to the University for use as crop lands to grow feed for the CAFÉ dairy. Thus there will be no fiscal impact to either the endowment income or to the University since the current lands do not generate income for the endowment.

SUBJECT

Institution, Agency, and Special/Health Programs Strategic Plans

REFERENCE

April 2017	The Board reviewed the institution, agency, and special/health programs strategic plans and requested the plans be submitted using a consistent template.
June 2017	The Board approved the annual updates to the institution, agency, and special/health program strategic plans.
December 2017	The Board approved new system-wide performance measures for the institutions focused on outcomes from the CCA Game Changers.
February 2018	The Board approved the State K-20 Education Strategic Plan.
April 2018	The Board reviewed the institution, agency and special/health programs strategic plans.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section I.M.1.
Section 67-1901 through 67-1903, Idaho Code.

ALIGNMENT WITH STRATEGIC PLAN

Goals 1 through 3: Institution and agency strategic plans are required to be in alignment with the Board's K-20 Strategic Plan.

BACKGROUND/ DISCUSSION

Pursuant to sections 67-1901 through 1903, Idaho Code, and Board Policy I.M. the institutions, agencies and special/health programs under the oversight of the Board are required to submit an updated strategic plan each year. The plans must encompass at a minimum the current year and four years going forward. The Board planning calendar schedules these plans to come forward annually at the April and June Board meetings. This timeline allows the Board to review the plans, ask questions or request changes in April, and then have them brought back to the regular June Board meeting, with changes if needed, for final approval while still meeting the state requirement that the plans be submitted to the Division of Financial Management (DFM) by July 1 of each year. Once approved by the Board the Office of the State Board of Education submits all of the plans to DFM.

Board policy I.M. sets out the minimum components that must be included in the strategic plans and defines each of those components. The Board's requirements are in alignment with DFM's guidelines and the requirements set out in sections 67-1901 through 67-1903, Idaho Code. Each strategic plan must include:

1. A comprehensive mission and vision statement covering the major programs, functions and activities of the institution or agency. Institution mission

statements must articulate a purpose appropriate for a degree granting institution of higher education, with its primary purpose to serve the educations interest of its students and its principal programs leading to recognized degrees. In alignment with regional accreditation, the institution must articulate its purpose in a mission statement, and identify core themes that comprise essential elements of that mission.

2. General goals and objectives for the major programs, functions and activities of the organization, including a description of how they are to be achieved.

   i. Institutions (including Career Technical Education) shall address, at a minimum, instructional issues (including accreditation and student issues), infrastructure issues (including personnel, finance, and facilities), advancement (including foundation activities), and the external environment served by the institution.

   ii. Agencies shall address, at a minimum, constituent issues and service delivery, infrastructure issues (including personnel, finance, and facilities), and advancement (if applicable).

   iii. Each objective must include at a minimum one performance measure with a benchmark.

3. Performance measures must be quantifiable indicators of progress.

4. Benchmarks for each performance measure must be, at a minimum, for the next fiscal year, and include an explanation of how the benchmark level was established.

5. Identification of key factors external to the organization that could significantly affect the achievement of the general goals and objectives.

6. A brief description of the evaluations or processes to be used in establishing or revising general goals and objectives in the future.

7. Institutions and agencies may include strategies at their discretion.

In addition to the required compenents and the definition of each component, Board policy I.M. requires each plan to be submitted in a consistent format. The Planning, Policy and Governmental Affairs committee established a template for strategic plan submittal that has been in place since April 2017.

At the December 2017 Regular Board meeting the Board discussed and approved new “System-wide Performance Measures.” The new system-wide performance measures are targeted toward measuring outcomes that are impacted by the implementation of the Complete College America Game Changers. The institutions' directors of institutional research were provided the opportunity to give feedback on how each performance measure could be consistently counted across institutions. The plans provided by the institutions with this agenda item are the first plans that use the new system-wide performance measures. While each institution is required to use the system-wide performance measures, each institution sets their own benchmarks. The institutional research directors met and discussed the system-wide performance measures and how they could be collected and reported consistently between institutions prior to Board consideration.

The new system-wide performance measures are:

Timely Degree Completion

I. Percent of undergraduate, degree-seeking students completing 30 or more credits per academic year at the institution reporting
II. Percent of first-time, full-time, freshmen graduating within 150% of time
III. Total number of certificates/degrees produced, broken out by:
    a) Certificates of at least one academic year
    b) Associate degrees
    c) Baccalaureate degrees
IV. Number of unduplicated graduates, broken out by:
    a) Certificates of at least one academic year
    b) Associate degrees
    c) Baccalaureate degrees

Reform Remediation

V. Percent of undergraduate, degree-seeking students taking a remediation course completing a subsequent credit bearing course (in the area identified as needing remediation) within a year with a "C" or higher

Math Pathways

VI. Percent of new degree-seeking freshmen completing a gateway math course within two years

Structured Schedules

VII. Number of programs offering structured schedules.

Guided Pathways

VIII. Percent of first-time, full-time freshmen graduating within 100% of time

In addition to including the system-wide performance measures, the Board has consistently requested the benchmarks contained within the strategic plans be aspirational benchmarks, not merely a continuation of the "status quo."

All of the strategic plans are required to be in alignment with the Board's system-wide strategic plans; these include the Board's overarching K-20 education strategic plan (approved at the February Board meeting), the Science, Technology, Engineering and Math (STEM) Education Strategic Plan, the Higher Education Research Strategic Plan, and the Idaho Indian Education Strategic Plan.

Additionally, Executive Order 2017-02 requires updates on the adoption of the National Institute of Standards and Technology (NIST) Cybersecurity Framework and implementation of the Center for Internet Security Critical Security Controls (CIS Controls) to be included in each institution's and agencies strategic plan. The institutions and agencies have the option of imbedding this into their strategic plans or providing it as an addendum to the strategic plan.

IMPACT

Review will provide the Board with the opportunity to give the institutions and agencies direction on any final changes prior to consideration for approval at the June Board meeting.

Attachment 23 - Idaho - Washington, Wyoming, Alaska, Montana, Idaho (WWAMI) Medical Education Program

STAFF COMMENTS AND RECOMMENDATIONS

As part of the Board's constitutional and statutory responsibility for oversight and governance of public education in Idaho, the Board approves all of the public education related strategic plans; this includes the approval of each of the required strategic plans for the special programs and health programs that are funded through the various education budgets. In total, the Board considers and approves 24 updated strategic plans annually, inclusive of the K-20 Education Strategic Plan approved in February. Approved plans must meet the strategic planning requirements in Idaho Code, Board Policy, and any Executive Orders that impact strategic planning. Review and approval of the strategic plans gives the Board the opportunity at the broader policy level to affect the long-term direction of public education in the state as well as measure the progress the institutions and agencies are making in meeting their goals and objectives as well as the Board's goals and objectives.

At the April 2017 Regular Board meeting the institutions were reminded that the benchmarks (performance targets) needed to be stretch benchmarks that would challenge the institutions and lead to overall improvements. One institution, Boise State University, resubmitted their strategic plan following the June Board meeting. Boise State University's edits were minor in nature correcting two errors that were identified.

BOARD ACTION

I move to approve the FY2019 – FY2024 strategic plans as submitted in Attachments 1 through 23.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

University of Idaho
Strategic Plan and Process

2019 - 2023

Base 10-year plan established for 2016 – 2025; approved by the SBOE June 2016
Reviewed and submitted May 2017 for 2018 - 2023

ATTACHMENT 1

MISSION STATEMENT

The University of Idaho will shape the future through innovative thinking, community engagement and transformative education.

The University of Idaho is the state's land-grant research university. From this distinctive origin and identity, we will enhance the scientific, economic, social, legal and cultural assets of our state and develop solutions for complex problems facing our society. We will continue to deliver focused excellence in teaching, research, outreach and engagement in a collaborative environment at our residential main campus in Moscow, regional centers, extension offices and research facilities across Idaho. Consistent with the land-grant ideal, we will ensure that our outreach activities serve the state and strengthen our teaching, scholarly and creative capacities statewide.

Our educational offerings will transform the lives of our students through engaged learning and self-reflection. Our teaching and learning will include undergraduate, graduate, professional and continuing education offered through face-to-face instruction, technology-enabled delivery and hands-on experience. Our educational programs will strive for excellence and will be enriched by the knowledge, collaboration, diversity and creativity of our faculty, students and staff.

VISION STATEMENT

The University of Idaho will expand the institution's intellectual and economic impact and make higher education relevant and accessible to qualified students of all backgrounds.

GOAL 1: Innovate
Scholarly and creative work with impact

Scholarly and creative products of the highest quality and scope, resulting in significant positive impact for the region and the world.[1]

Objective A: *Build a culture of collaboration that increases scholarly and creative productivity through interdisciplinary, regional, national and global partnerships.*

Performance Measures:

I. Research Expenditures ($ million)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
97	95	96	102	**105**[2]

Objective B: *Create, validate and apply knowledge through the co-production of scholarly and creative works by students, staff, faculty and diverse external partners.*

Performance Measures:

I. Terminal degrees in given field (PhD, MFA, etc.)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
290	275	279	236	**300**

II. Number of Postdocs, and Non-faculty Research Staff with Doctorates

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
65	66	70	102	**72**[2]

III. Number of undergraduate and graduate students paid from sponsored projects (System wide metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
489 (UG) & 488 (GR) 977 Total	575(UG) & 574 (GR) 1,149 Total	697 (UG) & 463 (GR) 1,160 Total	598 (UG) & 597(GR) 1,195 Total	**610 (UG) & 609 (GR) 1,237 Total**[2]

IV. Percentage of students involved in undergraduate research (System wide metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
74%	67%	66%	65%	**69%**[2]

Objective C: *Grow reputation by increasing the range, number, type and size of external awards, exhibitions, publications, presentations, performances, contracts, commissions and grants.*

Performance Measures:

I. Invention Disclosures

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
18	14	18	21	**25**[2]

GOAL 2: Engage
Outreach that inspires innovation and culture

Suggest and influence change that addresses societal needs and global issues, and advances economic development and culture.

Objective A: *Inventory and continuously assess engagement programs and select new opportunities and methods that provide solutions for societal or global issues, support economic drivers and/or promote the advancement of culture.*

Performance Measures:

I. Go-On Impact[3]

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NA	NA	35%	35%	**45%**[4]

Objective B: *Develop community, regional, national and/or international collaborations which promote innovation and use University of Idaho research and creative expertise to address emerging issues.*

Performance Measures:

I. ***Percentage Faculty Collaboration with Communities (HERI)***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
54	57	57	57	**64**[4]

II. ***Economic Impact ($ Billion)***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NA	1.1	1.1	1.1	**1.2**[4]

Objective C: *Engage individuals (alumni, friends, stakeholders and collaborators), businesses, industry, agencies and communities in meaningful and beneficial ways that support the University of Idaho's mission.*

Performance Measures:

I. ***Number of Direct UI Extension Contacts***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
359,622	338,261	360,258	Not yet available	**359,000**[4]

II. ***NSSE Mean Service Learning, Field Placement or Study Abroad***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NA	52%	52%	52%	**58%**[4]

III. ***Alumni Participation Rate***[5]

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
8.5%	9%	10.9%	10%	**10%**[4]

IV. ***Dual credit (System wide metric) a) Total Credit Hours b) Unduplicated Headcount***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
5,021 / 1,136	6,002 / 1,178	6,754/1,479	10,170 / 2,251	**6,700 / 1,250**[4]

GOAL 3: Transform
Educational experiences that improve lives

Increase our educational impact.

Objective A: *Provide greater access to educational opportunities to meet the evolving needs of society.*

Performance Measures:

I. ***Enrollment***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
11,834	11,534	11,371	11,780	**12,500**[2]

Objective B: *Foster educational excellence via curricular innovation and evolution.*

Performance Measures:

I. Retention – New Students (System wide metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
77.4%	80.1%	77.4%	77%	**83%**[6]

II. Retention – Transfer Students (System wide metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
82.8%	79.2%	83.4%	83%	**78%**[4]

III. Graduates (All Degrees: IPEDS)[7], b)Undergraduate Degree (PMR), 6) Graduate / Prof Degree (PMR), d) % of enrolled UG that graduate (System wide metric), e) % of enrolled Grad students that graduate (System wide metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
3,047	2,861	2,700	2,668	**2,950**[2]

**The definition of this metric was unclear, but all programs have an approved plan of study.*

XIII. Number of UG unduplicated degree/certificate graduates. New Statewide Performance Measure

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Bachelors: 1,981	Bachelors: 2,005	Bachelors: 1,865	Bachelors: 1,758	**2,000[4]**

Objective C: *Create an inclusive learning environment that encourages students to take an active role in their student experience.*

Performance Measures:

I. ***Equity Metric: First term GPA & Credits (% equivalent)***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
88% / 75%	75% / 75%	62.5% / 87.5%	62.5% / 87.5%	**85% / 85%**[4]

GOAL 4: Cultivate
A valued and diverse community

Foster an inclusive, diverse community of students, faculty and staff and improve cohesion and morale.

Objective A: *Build an inclusive, diverse community that welcomes multicultural and international perspectives.*

Performance Measures:

I. ***Multicultural Student Enrollment (heads)***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
2,415	2,605	2,678	2,678	**3,130**[8]

II. ***International Student Enrollment (heads)***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
712	766	664	800	**950**[4]

III. ***Percentage Multicultural a) Faculty and b) Staff***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
17% / 11%	19% / 12%	19% / 13%	19% / 13%	**21% / 14%**[4]

Objective B: *Enhance the University of Idaho's ability to compete for and retain outstanding scholars and skilled staff.*

Performance Measures:

I. ***Chronicle Survey Score: Job Satisfaction***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NA	Survey average in the 2nd group of 5	Survey average in the 2nd group of 5	Survey average in the 2nd group of 5	**Survey average in the 3rd group of 5**[9]

II. ***Full-time Staff Turnover Rate***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
18.52%	17.6%	16.91%	15.70%	**16%**[10]

Objective C: *Improve efficiency, transparency and communication.*

Performance Measures:

I. Cost per credit hour (System wide metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
$323	$335	$340	$355	**$366**[11]

II> Efficiency (graduates per $100K) (System wide metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
1.36	1.20	1.15	1.16	**1.32**[4]

Key External Factors

Factors beyond our control that affect achievement of goals

- *The general economy, tax funding and allocations to higher education.*
- *The overall number of students graduating from high school in Idaho and the region.*
- *Federal guidelines for eligibility for financial aid.*
- *Increased administrative burden increasing the cost of delivery of education, outreach and research activities.*

Evaluation Process

A brief description of the evaluations or processes to be used in establishing or revising general goals and objectives in the future.

The metrics will be reviewed annually to evaluate their continued appropriateness in assessing the various goals and processes. As the feedback from the annual review process is reviewed the effectiveness of the processes will be refined. These feedback cycles are in place for Strategic Plan Metrics, Program Prioritization Metrics, External Program Review Process as well as a continued examination of various elements of community need as well.

---

[1] Quality and scope will be measured via comparison to Carnegie R1 institutions with the intent of the University of Idaho attaining R1 status by 2025. See methodology as described on the Carnegie Foundation website (http://carnegieclassifications.iu.edu/).
[2] This was established as a means to achieve our end goal for enrollment and R1 status by 2025.
[3] Measured via survey of newly enrolled students, For students who answered "Yes or No", "Somewhat No" or "Definitely no" to "In your high school junior year, were you already planning to attend college (UI or other)?" the percent that responded "Yes or No", "Somewhat Yes" or "Definitely Yes" to "Have the University of Idaho's information and recruitment efforts over the last year impacted your decision to go to college?"
[4] Internally set standard to assure program quality.
[5] Given data availability and importance for national rankings, percent of alumni giving is used for this measure.
[6] Based on a review of our SBOE peer institutions

[7] The IPEDS method for counting degrees and those used to aggregate the numbers reported on the Performance Measurement Report (PMR) for the State Board of Education (SBOE) use different methods of aggregation. As such the sum of the degrees by level will not match the total.

[8] Based on a review of the Idaho demographic and a desire to have the diversity match or exceed that of the general state population.

[9] Based on our desire is to reach the "Good" range (65%-74%), as established by the survey publisher.

[10] Based on HR's examination of turnover rates of institutions nationally.

[11] Established by SBOE.

Appendix 2

Metric and Data Definitions

Guiding principle for metric selection and use.

The core guiding principle used in selecting, defining and tracking the metrics used in the strategic plan is to focus on measures key to university success while remaining as consistent with the metrics used when reporting to state, federal, institutional accreditation other key external entities. The desire is to report data efficiently and consistently across the various groups by careful consideration of the alignment of metrics for all these groups where possible. The order of priority for selecting the metrics used in the strategic plan is a) to use data based in the state reporting systems where possible, and b) then move to data based in federal and/or key national reporting bodies. Only then is the construction of unique institution metrics undertaken.

Metrics for Goal 1 (Innovate):

1.) **Terminal Degrees** in given field is the number of Ph.D., P.S.M., M.F.A., M.L.A., M.Arch, M.N.R., J.D., D.A.T., and Ed.D degrees awarded annually pulled for the IR Degrees Awarded Mult table used for reporting to state and federal constituents. This data is updated regularly and will be reported annually.
2.) **Postdocs, and Non-faculty Research Staff with Doctorates** as reported annually in the Graduate Students and Postdoctorates in Science and Engineering Survey (http://www.nsf.gov/statistics/srvygradpostdoc/#qs).
3.) **Research Expenditures** as reported annually in the Higher Education Research and Development Survey (http://www.nsf.gov/statistics/srvyherd/).
4.) **Invention Disclosures** as reported annually in the Association of University Technology Mangers Licensing Activity Survey (http://www.autm.net/resources-surveys/research-reports-databases/licensing-surveys/).
5.) **Number of undergraduate and graduate students paid from sponsored projects:** This metric is a newly established SBOE metric. It is calculated by the Office of Research and reported annually.
6.) **Percent of students engaged in undergraduate research:** This is a metric from the PMR for the SBOE. These PMR data are pulled from the Graduating Senior Survey annually.

Metrics for Goal 2 (Engage):

1.) **Impact (UI Enrollment that increases the Go-On rate)**: The metric will rely on one or two items added to the HERI CIRP First Year Student Survey. We will seek to estimate the number of new students that were not anticipating attending college a year earlier. As the items are refined, baseline and reporting of the results will be updated.

2.) **Extension Contacts**: Outreach to offices in relevant Colleges (CALS, CNR, Engineering, etc.) will provide data from the yearly report to the Federal Government on contacts. This represents direct teaching contacts made throughout the year by recording attendance at all extension classes, workshops, producer schools, seminars and short courses.
3.) **Collaboration with Communities**: HERI Faculty Survey completed by undergraduate faculty where respondents indicated that over the past two years they had, "Collaborated with the local community in research/teaching." This survey is administered every three to five years.
4.) **NSSE Mean Service Learning, Field Placement or Study Abroad:** This is the average percentage of those who engaged in service learning (item 12 2015 NSSE), field experience (item 11a NSSE) and study abroad (item 11d) from the NSSE.
5.) **Alumni Participation Rate**: This is provided annually by University Advancement and represents the percentage of alumni that are giving to UI. It is calculated based on the data reported for the Voluntary Support of Education (VSE) report. (http://cae.org/fundraising-in-education/). It is updated annually.
6.) **Economic Impact:** This is taken from the EMSI UI report as the summary of economic impact. This report is updated periodically and the data will be updated as it becomes available.
7.) **Dual Credit:** These data are pulled from the PMR which is developed for the SBOE annually.

Metrics for Goal 3 (Transform):

1.) **Enrollment:** This metric consists of headcounts from the data set used in reporting headcounts to the SBOE, IPEDS and the Common Data Set as of census date. The data is updated annually.
2.) **Equity Metric:** This metric is derived from the census date data used for reporting retention and graduation rate which is updated annually. The analysis is limited to first-time full-time students. The mean term 1 GPA and semester hours completed for FTFT students is calculated for the all students combined and separately for each IPEDS race/ethnicity category. The mean for the 8 groups are compared to the overall mean. The eight groups identified here are American Indian or Alaska Native, Asian, Black or African American, Hispanic/Latino, International, Native Hawaiian or Other Pacific Islander, Two or More Races and White. If the mean for a group is below the overall mean by 1/3 or more of a standard deviation it is considered below expectations/equity. The percentage of these 8 groups meeting the equity cut off is reported. So for example if 6 of the 8 groups meet equity it is reported as 75%. As there are groups with low numbers the best method for selecting the cut off was based on the principle of effect size (i.e., https://researchrundowns.wordpress.com/quantitative-methods/effect-size/).
3.) **Retention:** This is reported as first-time full-time student retention at year 1 using the data reported to the SBOE, IPEDs and the Common Data set. This is updated annually. The final goal was selected based on the mean of the 2015-16 year for the aspiration peer group for first-year retention as reported in the Common Data Set. This group includes Virginia Tech, Michigan State University and Iowa State University.
4.) **Graduates (all degrees):** This is reported from the annual data used to report for IPEDS and the Common Data set for the most recent year and includes certificates.

5.) **Degrees by level:** Items (a) to (c) under Graduates are pulled from the PMR established by the SBOE. These numbers differ from IPEDs as they are aggregated differently and so the numbers do not sum to the IPEDs total.
6.) **NSSE High Impact Practices:** This metric is for overall participation of seniors in two or more High Impact Practices (HIP). The national norms for 2015 from NSSE is saved in the NSSE folders on the IRA shared drive. The norms for 2015 HIP seniors places UI's percentage at 67%, well above R1/DRU (64%) and RH (60%) as benchmarks. The highest group (Bach. Colleges- Arts & Sciences) was 85%. The goal is to reach at least this level by 2025.
7.) **Remediation:** This metric comes from the PMR of the SBOE. It is updated annually.

Metrics for Goal 4 (Cultivate):

1.) **Chronicle Survey Score (Survey Average):** This metric is being baselined in spring 2016 and will utilize the "Survey Average" score. The desire is to reach the "Good" range (65%-74%), which is the 4th group of 5, or higher. The survey can be found here http://chroniclegreatcolleges.com/reports-services/.
2.) **Multicultural Student Enrollment**: The headcounts used for this metric will be derived from the data set used to report to the SBOE at fall census date. This is based on the categories used by IPEDS and the Common Data Set. The census date data is updated annually.
3.) **International Student Enrollment**: The headcounts used for this metric will be derived from the data set used to report to the SBOE at fall census date. This is based on the categories used by IPEDS and the Common Data Set. The census date data is updated annually.
4.) **Full-time Staff Turnover Rate** is obtained from UI Human Resources on an annual basis.
5.) **Percentage of Multicultural Faculty and Staff** is the percentage of full-time faculty and staff that are not Caucasian/Unknown from the IPEDS report. Full-time faculty is as reported in IPEDS HR Part A1 for full-time tenured and tenure track. Full-time staff is as reported in IPEDS B1 using occupational category totals for full-time non-instructional staff.
6.) **Cost per credit hour**: This metric is from the PMR for the SBOE and is update annually.
7.) **Efficiency:** This metric is from the PMR for the SBOE and is update annually.

Cybersecurity Overview and Critical Security Controls Assessment Report

Date: June 19, 2017

Status: FINAL

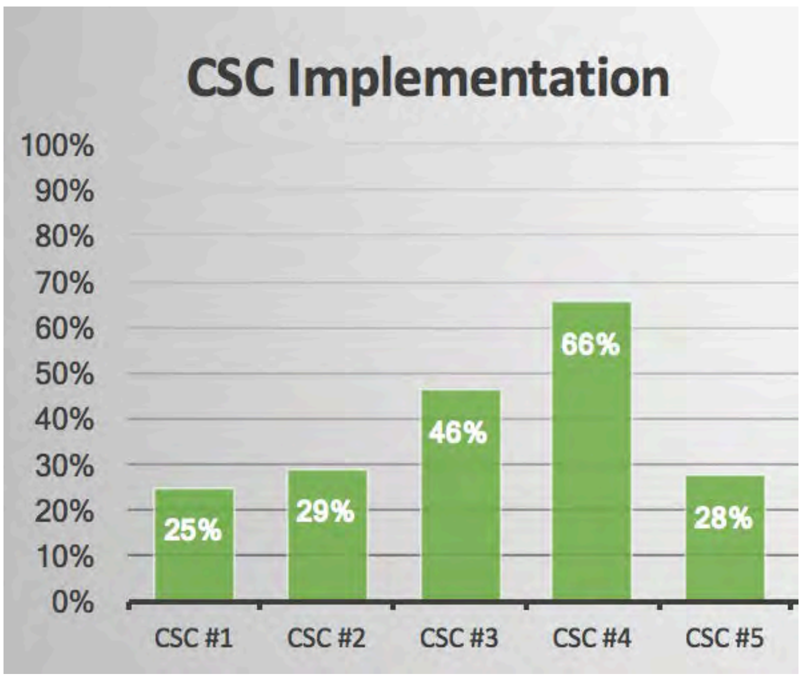
Author: Mitch Parks mitch@uidaho.edu

Contents

Executive Summary

In response to increasing cybersecurity threats and the Idaho Governor's Executive Order 2017-02 issued January 16, 2017, UI ITS personnel initiated an assessment of current cybersecurity measures as well as UI's status in respect to the Center for Internet Security (CIS) Critical Security Controls (CSC) 1-5. The CSC assessment was scored using the AuditScripts initial assessment tool recommended by the State Office of the CIO and acting Chief Information Security Officer, Lance Wyatt. Direction from the State Office of the CIO was to complete only the assessment by June of 2017, with any new implementation activities to occur in Fiscal Year 2018.

Between March 2 and May 15, 2017, the ITS team reviewed each of the Critical Security Controls from version 6.1 of CIS. That assessment shows a 0.39 (out of 1.0) overall implementation for the first 5 controls.



Overall completion for each control combines scoring for policy, implementation, automation and reporting. A 100% score could be achieved by approving the written policy, implementing and automating a control for all systems, and reporting it to the executive level. For some specific controls, 100% implementation will not be desirable or achievable on a university network. Prioritization, scope, and target percentage of specific controls will be assessed and prioritized.

The results of this assessment will be used within the FY18 IT Security Plan and will be prioritized with other technology risks to meet the goals of our target profile under the NIST Cybersecurity Framework.

High Level Cybersecurity Assessment

Summarized below are several measures taken by the University to protect its technology and information from internal and external breaches.

Policies/Procedures

The University has established policies and procedures over the following areas:

- Administrative Systems and Applications
- Information Technology Services (ITS) Security Access
- User Provided Software on ITS Systems
- Computer User Account Procedures
- University Data Classification and Standards
- Acceptable Use of Technology Resources
- Networked Computing Device Standards
- Proactive UI Network Security Measures
- UI Password/Pass-phrase Policy
- Managing Systems for Employee Turnover
- Computer File Backup and Recovery
- Scheduling and Notification of Central Computer System Outages
- Computer Security Violations
- Banner Training and Authorization
- Payment Card Processing

External Review

In 2013, the University engaged an external higher education consulting team to provide an objective view of the state of information technology policy and security at the University. Many recommendations were implemented, including the establishment of an Information Security Office, the hiring of an Information Security Officer, and the development of a number of policies, standards, and best practices.

Technology Security Advisory Council

In 2014, the University formed a nine-member council to advocate for improved security, identify potential IT security issues, and advise the Information Security Officer on strategies, priorities, and communication. This council meets monthly.

Employee Training and Awareness

In 2017, the University required all employees to complete an on-line training module on cyber security risk. The University has achieved a 96% completion rate. In addition, the University Information Security Officer has conducting phishing awareness campaigns to educate employees on how to protect their data and devices from phishing attacks.

Encryption

The University has implemented the first phase of a device encryption program based on the University data classification policy. This project has encrypted 338 devices as of June 19, 2017, representing 95% of identified devices with potentially high risk data.

Governor's Executive Order No. 2017-02

Two of the ten directives listed in the EO are:

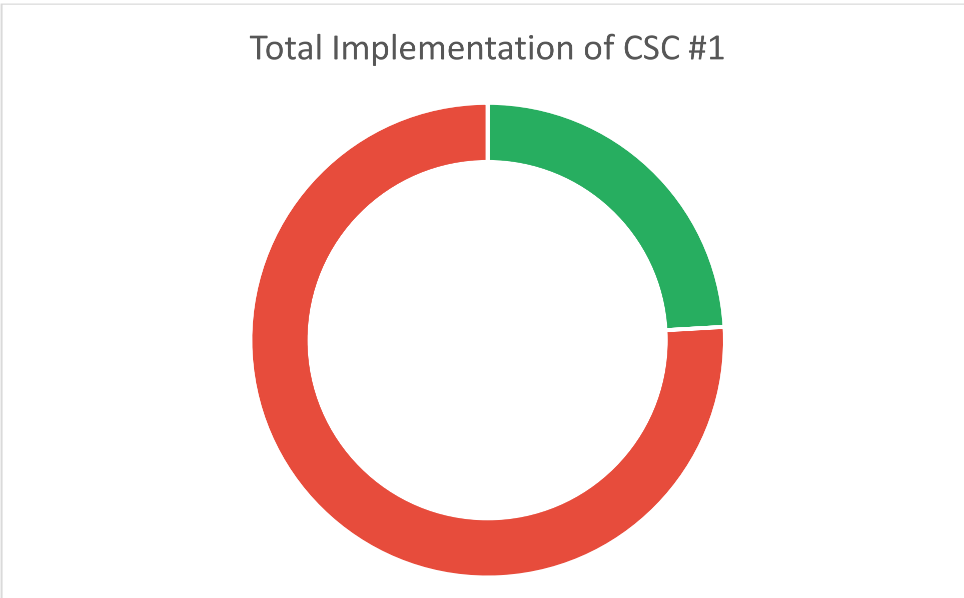
- Adoption and implementation of the National Institute of Standards and Technology (NIST) cybersecurity framework; and
- Implementation of the first five Center for Internet Security (CIS) critical security controls.

The University has adopted the NIST framework and has conducted a self-assessment of the CIS controls (no.'s 1-5) and is discussed later in this document. The results of the self-assessment have been communicated to the University President. The University Information Security Officer is also near completion of a cyber security strategic plan which will outline recommended action items for the University going forward.

Critical Security Controls

Using the AuditScripts tool, the following pages show the overall risk for each control. This assumes that any control not fully implemented has been implicitly, if not explicitly, accepted as a risk. Detailed answers on each control are not provided, but are on file in the ITS Information Security Office.

CSC #1: Inventory of Authorized and Unauthorized Devices

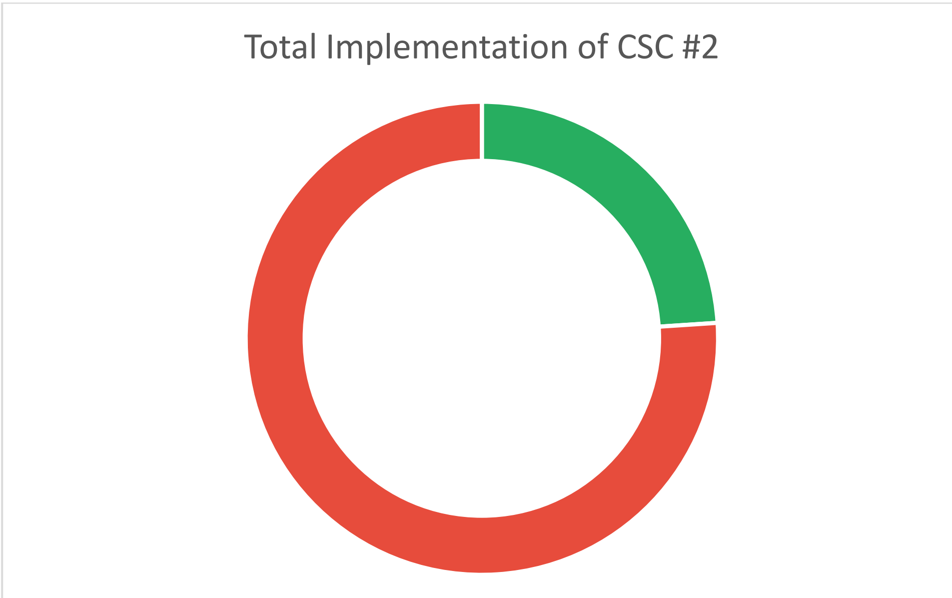


Risk Addressed:	**24%**
Risk Accepted:	**76%**

ID	Critical Security Control Detail
1.1	Deploy an automated asset inventory discovery tool and use it to build a preliminary inventory of systems connected to an organization's public and private network(s). Both active tools that scan through IPv4 or IPv6 network address ranges and passive tools that identify hosts based on analyzing their traffic should be employed.

1.2	If the organization is dynamically assigning addresses using DHCP, then deploy dynamic host configuration protocol (DHCP) server logging, and use this information to improve the asset inventory and help detect unknown systems.
1.3	Ensure that all equipment acquisitions automatically update the inventory system as new, approved devices are connected to the network.
1.4	Maintain an asset inventory of all systems connected to the network and the network devices themselves, recording at least the network addresses, machine name(s), purpose of each system, an asset owner responsible for each device, and the department associated with each device. The inventory should include every system that has an Internet protocol (IP) address on the network, including but not limited to desktops, laptops, servers, network equipment (routers, switches, firewalls, etc.), printers, storage area networks, Voice Over-IP telephones, multi-homed addresses, virtual addresses, etc. The asset inventory created must also include data on whether the device is a portable and/or personal device. Devices such as mobile phones, tablets, laptops, and other portable electronic devices that store or process data must be identified, regardless of whether they are attached to the organization's network.
1.5	Deploy network level authentication via 802.1x to limit and control which devices can be connected to the network. The 802.1x must be tied into the inventory data to determine authorized versus unauthorized systems.
1.6	Use client certificates to validate and authenticate systems prior to connecting to the private network.

CSC #2: Inventory of Authorized and Unauthorized Software



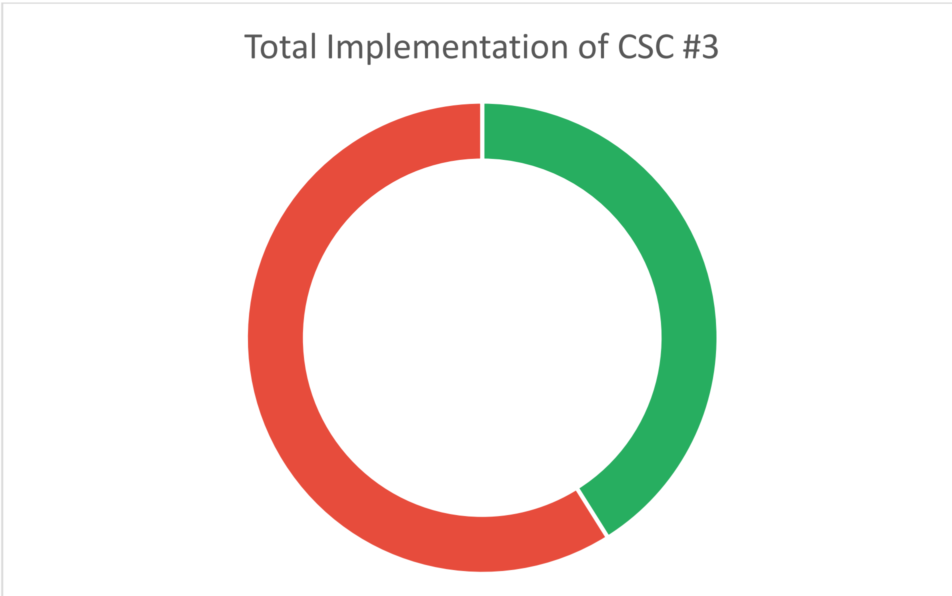
Risk Addressed: 24%

Risk Accepted: 76%

ID	Critical Security Control Detail
2.1	Devise a list of authorized software and version that is required in the enterprise for each type of system, including servers, workstations, and laptops of various kinds and uses. This list should be monitored by file integrity checking tools to validate that the authorized software has not been modified.
2.2	Deploy application whitelisting technology that allows systems to run software only if it is included on the whitelist and Protects execution of all other software on the system. The whitelist may be very extensive (as is available from commercial whitelist vendors), so that users are not inconvenienced when using common software. Or, for some special-purpose systems (which require only a small number of programs to achieve their needed business functionality), the whitelist may be quite narrow.

2.3	Deploy software inventory tools throughout the organization covering each of the operating system types in use, including servers, workstations, and laptops. The software inventory system should track the version of the underlying operating system as well as the applications installed on it. The software inventory systems must be tied into the hardware asset inventory so all devices and associated software are tracked from a single location.
2.4	Virtual machines and/or air-gapped systems should be used to isolate and run applications that are required for business operations but based on higher risk should not be installed within a networked environment.

CSC #3: Secure Configurations for Hardware and Software



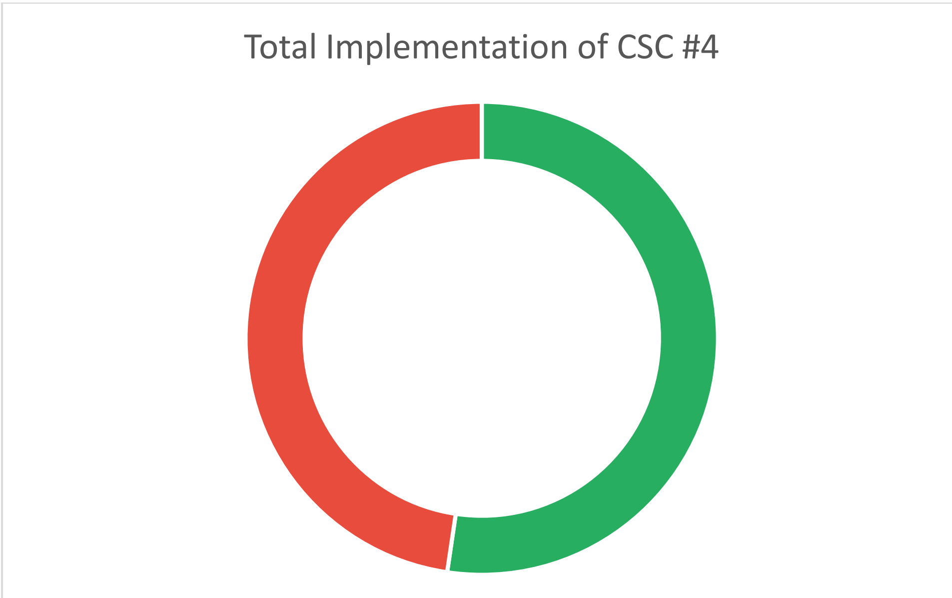
Risk Addressed:	41%
Risk Accepted:	59%

ID	Critical Security Control Detail
3.1	Establish standard secure configurations of your operating systems and software applications. Standardized images should represent hardened versions of the underlying operating system and the applications installed on the system. These images should be validated and refreshed on a regular basis to update their security configuration in light of recent vulnerabilities and attack vectors.
3.2	Follow strict configuration management, building a secure image that is used to build all new systems that are deployed in the enterprise. Any existing system that becomes compromised should be re-imaged with the secure build. Regular updates or exceptions to this image should be integrated into the organization's change management processes. Images should be

	created for workstations, servers, and other system types used by the organization.
3.3	Store the master images on securely configured servers, validated with integrity checking tools capable of continuous inspection, and change management to ensure that only authorized changes to the images are possible. Alternatively, these master images can be stored in offline machines, air-gapped from the production network, with images copied via secure media to move them between the image storage servers and the production network.
3.4	Perform all remote administration of servers, workstation, network devices, and similar equipment over secure channels. Protocols such as telnet, VNC, RDP, or others that do not actively support strong encryption should only be used if they are performed over a secondary encryption channel, such as SSL, TLS or IPSEC.
3.5	Use file integrity checking tools to ensure that critical system files (including sensitive system and application executables, libraries, and configurations) have not been altered. The reporting system should: have the ability to account for routine and expected changes; highlight and alert on unusual or unexpected alterations; show the history of configuration changes over time and identify who made the change (including the original logged-in account in the event of a user ID switch, such as with the su or sudo command). These integrity checks should identify suspicious system alterations such as: owner and permissions changes to files or directories; the use of alternate data streams which could be used to hide malicious activities; and the introduction of extra files into key system areas (which could indicate malicious payloads left by attackers or additional files inappropriately added during batch distribution processes).
3.6	Implement and test an automated configuration monitoring system that verifies all remotely testable secure configuration elements, and alerts when unauthorized changes occur. This includes detecting new listening ports, new administrative users, changes to group and local policy objects (where applicable), and new services running on a system. Whenever possible use tools compliant with the Security Content Automation Protocol (SCAP) in order to streamline reporting and integration.

3.7	Deploy system configuration management tools, such as Active Directory Group Policy Objects for Microsoft Windows systems or Puppet for UNIX systems that will automatically enforce and redeploy configuration settings to systems at regularly scheduled intervals. They should be capable of triggering redeployment of configuration settings on a scheduled, manual, or event-driven basis.

CSC #4: Continuous Vulnerability Assessment and Remediation



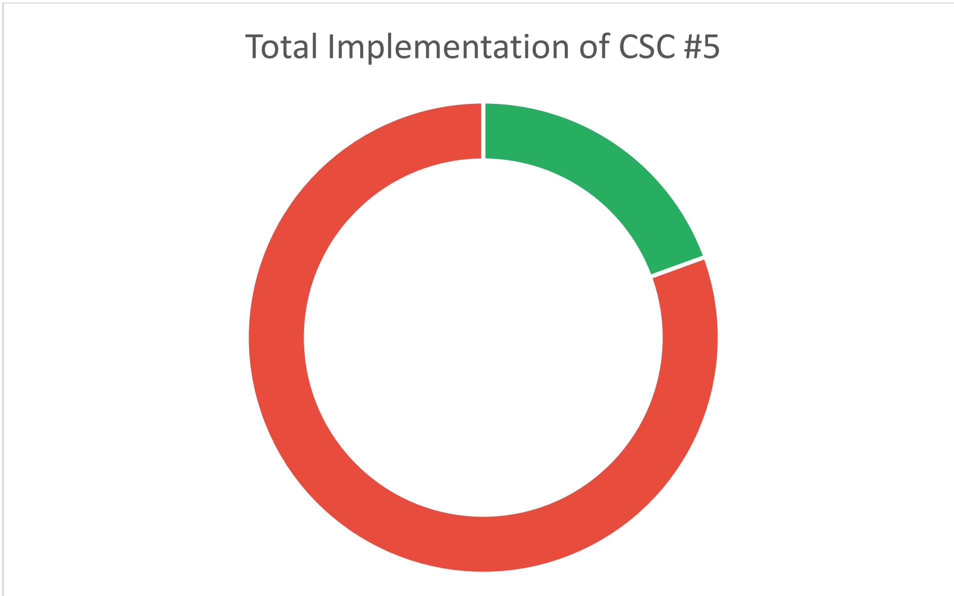
Risk Addressed: **52%**

Risk Accepted: **48%**

ID	Critical Security Control Detail
4.1	Run automated vulnerability scanning tools against all systems on the network on a weekly or more frequent basis and deliver prioritized lists of the most critical vulnerabilities to each responsible system administrator along with risk scores that compare the effectiveness of system administrators and departments in reducing risk. Use a SCAP-validated vulnerability scanner that looks for both code-based vulnerabilities (such as those described by Common Vulnerabilities and Exposures entries) and configuration-based vulnerabilities (as enumerated by the Common Configuration Enumeration Project).

4.2	Correlate event logs with information from vulnerability scans to fulfill two goals. First, personnel should verify that the activity of the regular vulnerability scanning tools is itself logged. Second, personnel should be able to correlate attack detection events with prior vulnerability scanning results to determine whether the given exploit was used against a target known to be vulnerable.
4.3	Perform vulnerability scanning in authenticated mode either with agents running locally on each end system to analyze the security configuration or with remote scanners that are given administrative rights on the system being tested. Use a dedicated account for authenticated vulnerability scans, which should not be used for any other administrative activities and should be tied to specific machines at specific IP addresses. Ensure that only authorized employees have access to the vulnerability management user interface and that roles are applied to each user.
4.4	Subscribe to vulnerability intelligence services in order to stay aware of emerging exposures, and use the information gained from this subscription to update the organization's vulnerability scanning activities on at least a monthly basis. Alternatively, ensure that the vulnerability scanning tools you use are regularly updated with all relevant important security vulnerabilities.
4.5	Deploy automated patch management tools and software update tools for operating system and software/applications on all systems for which such tools are available and safe. Patches should be applied to all systems, even systems that are properly air gapped.
4.6	Monitor logs associated with any scanning activity and associated administrator accounts to ensure that this activity is limited to the timeframes of legitimate scans.
4.7	Compare the results from back-to-back vulnerability scans to verify that vulnerabilities were addressed either by patching, implementing a compensating control, or documenting and accepting a reasonable business risk. Such acceptance of business risks for existing vulnerabilities should be periodically reviewed to determine if newer compensating controls or subsequent patches can address vulnerabilities that were previously accepted, or if conditions have changed, increasing the risk.
4.8	Establish a process to risk-rate vulnerabilities based on the exploitability and potential impact of the vulnerability, and segmented by appropriate groups of assets (example, DMZ servers, internal network servers, desktops, laptops). Apply patches for the riskiest vulnerabilities first. A phased rollout can be used to minimize the impact to the organization. Establish expected patching timelines based on the risk rating level.

CSC #5: Controlled Use of Administrative Privileges



Risk Addressed:	19%
Risk Accepted:	81%

ID	Critical Security Control Detail
5.1	Minimize administrative privileges and only use administrative accounts when they are required. Implement focused auditing on the use of administrative privileged functions and monitor for anomalous behavior.
5.2	Use automated tools to inventory all administrative accounts and validate that each person with administrative privileges on desktops, laptops, and servers is authorized by a senior executive.
5.3	Before deploying any new devices in a networked environment, change all default passwords for applications, operating systems, routers, firewalls, wireless access points, and other systems to have values consistent with administration-level accounts.
5.4	Configure systems to issue a log entry and alert when an account is added to or removed from a domain administrators' group, or when a new local administrator account is added on a system.

5.5	Configure systems to issue a log entry and alert on any unsuccessful login to an administrative account.
5.6	Use multifactor authentication for all administrative access, including domain administrative access. Multi-factor authentication can include a variety of techniques, to include the use of smart cards, certificates, One Time Password (OTP) tokens, biometrics, or other similar authentication methods.
5.7	Where multi-factor authentication is not supported, user accounts shall be required to use long passwords on the system (longer than 14 characters).
5.8	Administrators should be required to access a system using a fully logged and non-administrative account. Then, once logged on to the machine without administrative privileges, the administrator should transition to administrative privileges using tools such as Sudo on Linux/UNIX, RunAs on Windows, and other similar facilities for other types of systems.
5.9	Administrators shall use a dedicated machine for all administrative tasks or tasks requiring elevated access. This machine shall be isolated from the organization's primary network and not be allowed Internet access. This machine shall not be used for reading e-mail, composing documents, or surfing the Internet.

BOISE STATE UNIVERSITY

UPDATED FOR FY2019 THROUGH FY2023

MISSION STATEMENT
CORE THEMES
VISION
STRATEGIC PLAN
MAPPING OF STRATEGIC PLAN TO THE SBOE STRATEGIC PLAN
MAPPING OF STRATEGIC PLAN TO THE COMPLETE COLLEGE IDAHO PLAN
KEY EXTERNAL FACTORS

Focus on Effectiveness

Boise State University
Strategic Plan

Mission

Boise State University is a public, metropolitan research university providing leadership in academics, research, and civic engagement. The university offers an array of undergraduate degrees and experiences that foster student success, lifelong learning, community engagement, innovation, and creativity. Research, creative activity, and graduate programs, including select doctoral degrees, advance new knowledge and benefit the community, the state and the nation. The university is an integral part of its metropolitan environment and is engaged in its economic vitality, policy issues, professional and continuing education programming, and cultural enrichment.

Vision

Boise State University aspires to be a research university known for the finest undergraduate education in the region, and outstanding research and graduate programs. With its exceptional faculty, staff and student body, and its location in the heart of a thriving metropolitan area, the university will be viewed as an engine that drives the Idaho economy, providing significant return on public investment.

Core Themes

Each core theme describes a key aspect of our mission. A complete description can be accessed at https://academics.boisestate.edu/planning/core-themes-2/.

Undergraduate Education. *Our university provides access to high quality undergraduate education that cultivates the personal and professional growth of our students and meets the educational needs of our community, state, and nation. We engage our students and focus on their success.*

Graduate Education. *Our university provides access to graduate education that addresses the needs of our region, is meaningful in a global context, is respected for its high quality, and is delivered within a supportive graduate culture.*

Research and Creative Activity. *Through our endeavors in basic and applied research and in creative activity, our researchers, artists, and students create knowledge and understanding of our world and of ourselves, and transfer that knowledge to provide societal, economic, and cultural benefits. Students are integral to our faculty research and creative activity.*

Community Commitment. *The university is a vital part of the community, and our commitment to the community extends beyond our educational programs, research, and creative activity. We collaborate in the development of partnerships that address community and university issues. The community and university share knowledge and expertise with each other. We look to the community to inform our goals, actions, and measures of success. We work with the community to create a rich mix of culture, learning* *experiences, and entertainment that educates and enriches the lives of our citizens. Our campus culture and climate promote civility, inclusivity and collegiality.*

STRATEGIC PLAN GOALS AND OBJECTIVES

NOTE THAT IN THIS DOCUMENT, THE "STRATEGIES" OF BOISE STATE UNIVERSITY'S ORIGINAL PLAN HAVE BEEN CONSOLIDATED INTO "OBJECTIVES" TO MATCH THE TEMPLATE OF THE IDAHO STATE BOARD OF EDUCATION

Goal 1: Create a signature, high quality educational experience for all students.

Objective A: Develop the Foundational Studies Program into a memorable centerpiece of the undergraduate experience.

Performance Measures:

NSSE[1] Indicators: For Freshmen Only (% of peer group rating)	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	Target ("Benchmark") FY 2023
Academic Challenge		*NSSE survey every three years*	*NSSE survey every three years*	Available fall 2018		
>Higher-order learning	97%⇔[2]				100%	105%[3]
>Reflective & integrative learning	100%⇔				102%	105%
Learning with Peers						
>Collaborative learning	97%⇔				100%	105%
>Discussions with diverse others	95%⇩				100%	105%

Objective B: Provide a relevant, impactful educational experience that includes opportunities within and across disciplines for experiential learning.

Performance Measures:

Students participating in internships	FY 2015	FY 2016	FY 2017	FY 2018 (preliminary)	Target ("Benchmark") FY 2019	Target ("Benchmark") FY 2023
>Number of students with internship credit	948	996	921	*923*	1,100	1,500

NSSE % of senior participating in internships (and similar experiences), and in research	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	Target ("Benchmark") FY 2023
>% of students participating in internships and other applied experiences	51.2%	*NSSE survey every three years*	*NSSE survey every three years*	Available fall 2018	52%	55%
>% of students participating in research w/faculty members	20.4%				22%	27%

Vertically Integrated Projects[4] (VIPs)	FY 2015	FY 2016	FY 2017	FY 2018 (preliminary)	Target ("Benchmark") FY 2019	Target ("Benchmark") FY 2023
>Number of students enrolled in VIP credit	60	61	75	*50*	81	180

[1] "NSSE" refers to the National Survey of Student Engagement (http://nsse.indiana.edu/), which is used by Boise State University every three years to gather information from freshmen and seniors on a variety of aspects of their educational experiences. Because NSSE is taken by a substantial number of institutions, Boise State is able to benchmark itself against peer institutions.

[2] ⇔ Indicates that Boise State's score is statistically the same as peers; ⇩&⇧ indicate statistically lower and higher than peers.

[3] A percentage of 105% indicates that Boise State would score 5% better than peers.

[4] Boise State University recently implemented a Vertically Integrated Projects (VIPs) initiative. VIPs unite undergraduate education with faculty research in a team-based context. Students earn credit for participation. Boise State is a member of the VIP national consortium that includes more than 20 universities and is hosted by Georgia Tech. Not that not all student participants sign up for credit.

>Number of VIP teams	6	8	8	*Available July 2018*	9	18

Objective C: Cultivate intellectual community among students and faculty and facilitate respect for the diversity of human cultures, institutions, and experiences.

Performance Measures:

NSSE Indicators: For Seniors Only (% of peer group rating)	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** (“Benchmark”)	
					FY 2019	**FY 2023**
Learning with Peers		*NSSE survey every three years*	*NSSE survey every three years*	Available fall 2018		
>Collaborative learning	103%⇧				105%	105%
>Discussions with diverse others	94%⇩				98%	100%
Experiences with faculty						
>Student-faculty interaction	90%⇩				95%	100%
>Effective teaching practices	96%⇩				100%	100%

<u>Objective D</u>: Invest in faculty development, innovative pedagogies, and an engaging environment for learning.

Performance Measures:

NSSE Indicators: For Seniors Only (% of peer group rating)	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** (“Benchmark”)	
					FY 2019	**FY 2023**
Academic Challenge		*NSSE survey every three years*	*NSSE survey every three years*	Available fall 2018		
>Higher-order learning	99%⇔				100%	105%
>Reflective & integrative learning	102%⇔				105%	105%
>Learning strategies	97%⇩				100%	105%
>Quantitative reasoning	102%⇔				105%	105%
Learning with Peers						
>Collaborative learning	103%⇧				105%	105%
Experiences with faculty						
>Effective teaching practices	90%⇩				95%	100%

Goal 2: Facilitate the timely attainment of educational goals of our diverse student population.

Objective A: Design and implement innovative policies and procedures that remove barriers to graduation and facilitate student success.

Performance Measures:

Unduplicated number of graduates (distinct by award level)[5]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
>Undergraduate Certificate	Dupl.[7]	Dupl.	Dupl.	Available Sept. 2018		
>Associate	166	141	114		150	150
>Baccalaureate	2,971	2,998	3,141		3,450	3,950
>(SBOE target for baccalaureate graduates[6])	(2,700)	(2,843)	(2,986)		(3,273)	N/A
>Graduate Certificate	226	173	212		250	300
>Master's	703	670	776		825	900
>Educational Specialist	--	10	15		20	30
>Doctoral	14	18	36		38	48
Total Distinct Graduates	3,938	3,916	4,173			

First year retention rate[8]	Fall 2014 cohort	Fall 2015 cohort	Fall 2016 cohort	Fall 2017 Cohort	Target ("Benchmark") F2018 cohort	F2020 cohort	F2022 cohort
>Percent of first-time, full-time freshmen retained	75.6%	78.2%	79.8%	Available Oct. 2018	81%	83%	84%
>Percent of Idaho-resident Pell-eligible first-time full-time freshmen retained	66.3%	72.7%	72.6%		77%	79.5%	82.5%
>Percent full-time transfers retained or graduated	73.5%	75.4%	73.8%		78%	80%	82.5%

4-year graduation rate[9]	Fall 2011 Cohort	Fall 2012 Cohort	Fall 2013 Cohort	Fall 2014 Cohort	Target ("Benchmark") Fall 2015 cohort	Fall 2019 cohort
> % of first-time, full-time freshmen who graduated	19.0%	21.1%	25.5%	Available Sept. 2018	30%	35%
>% of Idaho-resident, Pell-eligible, first-time, full-time freshmen who graduated	9.2%	10.9%	12.2%		18%	25%
>% of full-time transfers who graduated	46.5%	47.0%	47.5%		50%	50%

[5] SBOE required metric: timely degree completion. Distinct graduates by award level, totaled for summer, fall, and spring terms. Note that these totals cannot be summed to get the overall distinct graduate count due to some students earning more than one award (e.g., graduate certificate and a master's) in the same year.

[6] Number in parentheses is the SBOE target for the # of baccalaureate graduates as per PPGA agenda materials, August 12, 2012, Tab 10 page 3. SBOE specified targets only through 2020.

[7] Undergraduate certificates are now awarded unless student is graduating with a bachelor's degree; therefore all graduates are duplicates of bachelor's degree recipients.

[8] Retention measured as the percent of a cohort returning to enroll the subsequent year. Transfer retention reflect the percent of the full-time baccalaureate-seeking transfer cohort that returned to enroll the following year or graduated.

[9] SBOE required metric: guided pathways. % of first-time, full-time freshman graduating within 100% of time.

6-year graduation rate[10]	Fall 2009 cohort	Fall 2010 cohort	Fall 2011 cohort	Fall 2012 cohort	Target ("Benchmark") Fall 2013 cohort	Target ("Benchmark") Fall 2017 cohort
> % of first-time, full-time freshmen who graduated	37.9%	38.7%	43.4%	Available Sept. 2018	46%	51%
>% of Idaho-resident, Pell-eligible, first-time, full-time freshmen who graduated	26.3%	29.3%	30.4%		37%	46%
>% of full-time transfers who graduated	50.6%	51.0%	58.3%		57%	61%

Gateway math success of new degree-seeking freshmen[11]	Fall 2013 Cohort	Fall 2014 Cohort	Fall 2015 Cohort	Fall 2016 Cohort	Target ("Benchmark") Fall 2017 Cohort	Target ("Benchmark") Fall 2021 Cohort
>% completed within two years	82.07%	84.40%	87.79%	Available Sept. 2018	89%	90%

Progress indicated by credits per year[12]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	Target ("Benchmark") FY 2023
>% of undergraduate degree seeking students with 30 or more credits per year	28.3%	28.4%	28.3%	Available July 2018	30%	32%

Success in credit-bearing course after remedial course[13]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	Target ("Benchmark") FY 2023
>English	64.3%	66.4%	Available July 2018	Available July 2019	70%	73%
>Mathematics	58.4%	60.1%			65%	68%

Student Achievement Measure (After six years: % graduated or still enrolled at Boise State or elsewhere)[14]	Fall 2009 cohort	Fall 2010 Cohort	Fall 2011 cohort	Fall 2012 cohort	Target ("Benchmark") Fall 2013 cohort	Target ("Benchmark") Fall 2016 Cohort
>First-time, full-time Freshman cohort	66%	64%	71%	Available Nov. 2018	73%	76%
>Full-time Transfer student cohort	72%	74%	80%		77.5%	80%

Structured Programs[15]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	Target ("Benchmark") FY 2023
Programs with a structured schedule	100%	100%	100%	100%	100%	100%

[10] SBOE required metric: timely degree completion. % of first-time, full-time freshman graduating within 150% of time.

[11] SBOE required metric: math pathways. Based on cohorts of incoming first-time bachelor degree seeking cohorts (full- plus part-time) who complete a gateway course (Math 123, 143, 157, or 243) or higher within two years (e.g., students who entered in fall 2015 and completed a gateway math or higher by the end of summer 2017).

[12] SBOE required metric: timely degree completion. Based on PSR1 annual undergraduate degree seeking students. Includes students enrolled in both fall and spring semesters or summer, fall, and spring; excludes students who took only summer course(s) or summer and either fall or spring semester.

[13] SBOE required metric: reform remediation. Percent of undergraduate, degree-seeking students who took a remedial course and completed a subsequent credit-bearing course (C- or above) within one year of completing the remedial course (e.g., students who took remedial course in fall 2016 and completed a subsequent course by the end of fall 2017). Math remediation defined as Math 025 and English remediation defined as English 101P.

[14] The "Student Achievement Measure" (SAM) is a nationally-recognized metric that provides more comprehensive view of progress and attainment than can be provided by measures such as the 6-year graduation rate or the 1-year retention rate. The rate equals the total percent of students who fall into one of the following groups: graduate from or are still enrolled at Boise State, or graduated or still enrolled somewhere else.

[15] SBOE required metric: structured programs. Percentage of academic degree programs with structured schedules.

Degrees and Certificates Awarded[16]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 20223
>Undergraduate Certificate	64	136	227	Available Sept. 2018	300	400
>Associate	168	145	114		150	150
>Baccalaureate	3,154	3,174	3,168		3,650	4,150
>Graduate Certificate	237	178	220		250	300
>Master's	703	670	776		825	900
>Doctoral	14	18	36		38	48

Objective B: Ensure that faculty and staff understand their responsibilities in facilitating student success.

Performance Measures:

NSSE Indicators: For Seniors Only (% of peer group rating)	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
Experiences with faculty		*NSSE survey every three years*	*NSSE survey every three years*	Available fall 2018		
>Student-faculty interaction	90%⇩				95%	100%
Campus Environment						
>Quality of interactions	101%⇔				105%	105%
>Supportive environment	91%⇩				95%	100%
NSSE student rating of administrative offices (% of peer group rating; for seniors only; higher score indicates better interaction)	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** ("Benchmark") **FY 2019**	**FY 2023**
>Quality of interaction with academic advisors	100.5%⇔	*NSSE survey every three years*	*NSSE survey every three years*	Available fall 2018	105%	105%
>Quality of interaction with student services staff (career services, student activities, housing, etc.)	97.7%⇔				100%	100%
>Quality of interaction with other administrative staff and offices (registrar, financial aid, etc.)	104.7%⇧				105%	105%

Objective C: Bring classes to students using advanced technologies and multiple delivery formats.

Performance Measures:

Dual enrollment[17]	FY 2015	FY 2016	FY 2017	FY 2018 *(preliminary)*	Target ("Benchmark") FY 2019	FY 2023
>Number of credits produced	15,675	15,534	21,519	*23,573*	24,775	30,600
>Number of students served	3,578	3,597	4,857	*5,382*	5,650	7,000

eCampus (Distance Education)	FY 2015	FY 2016	FY 2017	FY 2018 *(preliminary)*	Target ("Benchmark") FY 2019	FY 2023

[16] SBOE required metric: degree completion. Reflects the number of awards made (first major, second major, plus certificates as reported to IPEDS). This is greater than the number of graduating students because some graduating students received multiple awards.

[17] Dual enrollment credits and students are measures of activity that occur over the entire year at multiple locations using various delivery methods. When providing measures of this activity, counts over the full year (instead of by term) provide the most complete picture of the number of unduplicated students that are enrolled and the numbers of credits earned. Reflects data from the annual Dual Credit report to the Board.

>Student Credit Hours >Distinct Students Enrolled	73,668 11,369	81,178 12,106	91,342 13,055	*108,315* *14,430*	119,150 15,450	170,000 19,000

Goal 3: Gain distinction as a doctoral research university.

Objective A: Build infrastructure for research and creative activity; support and reward interdisciplinary collaboration; and recruit, retain, and support highly qualified faculty, staff, and students from diverse backgrounds.

Performance Measures:

Total Research & Development Expenditures	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
Expenditures as reported to the National Science Foundation	$31.3M	$32.0M	$34.9 M	*Available Feb. 2019*	$38M	$44M

Publications of Boise State authors and citations of those publications over 5-year period	CY 2010-14	CY 2011-15	CY 2012-16	CY 2013-17	Target ("Benchmark") For CY 2015-19	For CY 2019-23
>Number of peer-reviewed publications by Boise State faculty, staff, students[18]	1,449	1,533	1,709	1,957	2,100	2,300
>Citations of peer-reviewed publications authored Boise State faculty, staff students[19]	9,499	11,190	12,684	8,147	14,000	20,000

Percent of research grant awards and awarded grant $$ that are Interdisciplinary vs. single discipline[20]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
>Percent of research grant awards that have PIs and Co-PIs in two or more different academic departments (i.e., are interdisciplinary)	9.4%	8.2%	9.0%	Not available	10%	15%
>$$ per grant award for interdisciplinary grants	$289,381	$537,951	$481,554		$550,000	$650,000
>$$ per grant award for single-discipline grants	$160,327	$142,530	$186,144		$200,000	$225,000

Objective B: Identify and invest in select areas of excellence with the greatest potential for economic, societal, and cultural benefit, including the creation of select doctoral programs with a priority in professional and STEM disciplines.

Performance Measures:

Carnegie Foundation Ranking[21]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
>Basic Classification	M1 (Master's Large)	R3 (Research: Moderate)	R3 (Research: Moderate)	R3 (Research: Moderate)	R2 (Research: High)	R2 (Research: High)

[18] # of publications over five-year span with Boise State listed as an address for one or more authors; from Web of Science.

[19] Total citations, during the listed five-year span, of peer-reviewed publications published in that same five-year span; limited to those publications with Boise State listed as an address for at least one author; from Web of Science.

[20] Excludes no-cost extensions. Represents per-grant, not per-person $$.

[21] Definitions of the three classifications show are as follows: R2: Doctoral Universities – Higher research activity; R3: Doctoral Universities – Moderate research activity; M1: Master's Colleges and Universities – Larger programs

Number of doctoral graduates	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
Graduates with PhD, DNP, EdD	14	18	36	Available Sept. 2018	38	48

New Doctoral programs	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
New doctoral programs created	No new doctoral programs	No new doctoral programs	Fall 16 start: PhD Computing	Fall 17 start: PhD Ecology, Evolution & Behavior	PhDs in: STEM Ed; Biomed Engr; Couns. Ed	New Doctor of Public Health in collaboration with Idaho State Univ; New PhD Mechanical Engr in collaboration with Univ of Idaho

Goal 4: Align university programs and activities with community needs.

Objective A: Include community impact in the creation and assessment of university programs and activities.

Performance Measures:

Number of graduates in high demand disciplines[22] (bachelor's, master's, doctoral)	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
Number of graduates	1,415	1,451	1,575	Available Sept. 2018	1,650	1,900

Rate of employment in Idaho one year after graduation[23]	Graduation Year Cohort F2012 Cohort	F2013 Cohort	F2014 Cohort	F2015 Cohort	Target ("Benchmark") F2017 Cohort	F2021 Cohort
>Idaho residents	80%	81%	80%	Not available	82%	83%
>Non-residents	43%	45%	41%		45%	46%

Objective B: Increase student recruitment, retention, and graduation in STEM disciplines.

Performance Measures:

STEM Graduates[24]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
Number of STEM degree graduates (bachelor's, STEM education, master's, doctoral)	540	564	671	Available Sept. 2018	725	875

[22] Defined as distinct number of graduates in those disciplines, identified by CIP code, appropriate for the top 25% of jobs listed by the Idaho Department of labor that require at least a bachelor's degree, based on project number of openings 2014-2024.
[23] Percent of all graduates at all award levels who were identified in "covered employment" by the Idaho Department of Labor one year out after graduation. Covered employment refers to employment for an organization that is covered under Idaho's unemployment insurance law. These data do not include several categories of employment, including individuals who are self-employed, federal employees, those serving in the armed forces, foreign aid organizations, missions, etc. Therefore, the actual employment rates are higher than stated. The full report can be accessed at: https://labor.idaho.gov/publications/ID_Postsec_Grad_Retent_Analysis.pdf.
[24] STEM refers to Science, Technology, Engineering, and Math. We define STEM disciplines as being included in either or both the NSF-defined list of STEM disciplines and the NCES-defined list of STEM disciplines. We also include STEM secondary education graduates.

STEM degree graduates as % of all degree graduates, bachelor's and above	14.6%	15.3%	16.9%	Available Sept. 2018	15%	15%

Objective C: Collaborate with external partners to increase Idaho student's readiness for and enrollment in higher education.

Performance Measures:

Number of graduates with high impact on Idaho's college completion rate	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** ("Benchmark")	
					FY 2019	**FY 2023**
Baccalaureate graduates from underrepresented groups[25] >from rural counties >from ethnic minorities	161 273	142 303	120 339	Available Sept. 2018	165 430	195 630
Baccalaureate graduates who are Idaho residents	2,408	2,350	2,268	Available Sept. 2018	2,700	3,100
Baccalaureate graduates of non-traditional age (30 and up)	822	869	867	Available Sept. 2018	950	1,100
Baccalaureate graduates who began as transfers from Idaho community college[26]	310	384	390	Available Sept. 2018	650	1,000

Objective D: Leverage knowledge and expertise within the community to develop mutually beneficial partnerships. Evaluate our institutional impact and effectiveness on a regular basis and publicize results.

Performance Measures:

Students participating in courses with service-learning component	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018** *preliminary*	**Target** ("Benchmark")	
					FY 2019	**FY 2023**
Unduplicated enrollment in courses	2,391	2,689	2,490	*2,896*	3,300	3,500

Carnegie Foundation Community Engagement Classification recognizing community partnerships and curricular engagement	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** ("Benchmark")	
					FY 2019	**FY 2023**
"Community engagement describes collaboration between institutions of higher education and their larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity. "[27]	Boise State was one of 76 recipients of the 2006 inaugural awarding of this designation. The classification was renewed in 2015.				Renewal of Community Engagement Classification in 2025	

[25] Distinct number of graduates who began college as members of one or more in the following groups traditionally underrepresented as college graduates: (i) from a rural county in Boise State's 10 county service area (Ada and Canyon counties are excluded) and (ii) identified as American Indian/Alaska Native or Hispanic/Latino

[26] Includes baccalaureate recipients in transfer cohorts whose institution prior to their initial Boise State enrollment was one of the four Idaho community colleges. Method captures most recent transfer institution for all students, even those whose transcripts are processed sometime after their Boise State enrollment has started.

[27] Additional information on the Carnegie Foundation Community Engagement Classification may be found at http://nerche.org/index.php?option=com_content&view=article&id=341&Itemid=618#CECdesc .

Goal 5: Transform our operations to serve the contemporary mission of the university.

Objective A: Increase organizational effectiveness by reinventing our business practices, simplifying or eliminating policies, investing in faculty and staff, breaking down silos, and using reliable data to inform decision-making.

Performance Measures:

NSSE student rating of administrative offices (% of peer group rating; for seniors only; higher score indicates better interaction)	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** ("Benchmark") **FY 2019**	**FY 2023**
>Quality of interaction with academic advisors	100.5%⇔	*NSSE survey every three years*	*NSSE survey every three years*	Available fall 2018	105%	105%
>Quality of interaction with student services staff (career services, student activities, housing, etc.)	97.7%⇔				100%	100%
>Quality of interaction with other administrative staff and offices (registrar, financial aid, etc.)	104.7%⇧				105%	105%

Cost of Education[28] (resident undergraduate with 15 credit load per semester; tuition and fees)	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** ("Benchmark") **FY 2019**	**FY 2023**
>Boise State	$6,640	$6,874	$7,080	$7,326	Remain less than the WICHE state average	
>WICHE average	$7,558	$7,826	$7,980	$8,407		
>Boise State as % of WICHE	87.9%	87.8%	88.7%	87.1%		

Expense per EWA-weighted Student Credit Hour (SCH)	**FY 2015**	**FY 2016**	**FY 2017**	**FY 2018**	**Target** ("Benchmark") **FY 2019**	**FY 2023**
$ per Resident Undergraduate SCH[29]				*Available Dec. 2018*	No increase in Consumer Price Index (CPI) adjusted $$	No increase in CPI adjusted $$
>In 2011 $$ (i.e., CPI-adjusted)	$296.72	$295.53	$296.53			
>Unadjusted	$312.66	$315.24	$322.60			
$ per Resident Undergraduate & Graduate SCH				*Available Dec. 2018*	No increase in CPI adjusted $$	No increase in CPI adjusted $$
>In 2011 $$	$267.84	$265.92	$265.89			
>Unadjusted	$282.23	$283.66	$289.34			
$ per Total Undergraduate SCH[30]				*Available Dec. 2018*	No increase in CPI adjusted $$	No increase in CPI adjusted $$
>In 2011 $$	$258.28	$252.43	$251.86			
>Unadjusted	$272.15	$269.26	$274.08			
$ per Total Undergraduate & Graduate SCH				*Available Dec. 2018*	No increase in CPI adjusted $$	No increase in CPI adjusted $$
>In 2011 $$	$239.72	$234.77	$234.01			
>Unadjusted	$252.60	$250.43	$254.65			

[28] WICHE average from Table 1a of annual Tuition and Fees report. We use the average without California. A typical report can be found at http://www.wiche.edu/pub/tf.

[29] Expense information is from the Cost of College study, produced yearly by Boise State's controller office. Includes the all categories of expense: Instruction/Student Services (Instruction, Academic Support, Student Services, Library), Institutional/Facilities (Cultural, Religious Life and Recreation, Museums, Gardens, etc., Net Cost of Intercollegiate Athletics, Net Cost of Other Auxiliary Operations, Plant Operations, Depreciation: Facilities, Depreciation: Equipment, Facility Fees Charged Directly to Students, Interest, Institutional Support), and Financial Aid. "Undergrad only" uses Undergrad costs and the sum of EWA weighted SCH for remedial, lower division, upper division. "Undergrad and graduate" uses undergraduate and graduate expenses, and includes EWA weighed credit hours from the undergraduate and graduate levels. "EWA-resident weighted SCH" refers to those credits not excluded by EWA calculation rules, which exclude non-residents paying full tuition.

[30] Expense information as in previous footnote. "EWA-resident Total SCH" refers to all credits, residents, and nonresident, weighted using standard EWA calculation rules.

Graduates per FTE	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
Baccalaureate graduates per undergraduate FTE[31]	20.8	21.1	21.7	*Available Sept. 2018*	22.2	22.8
Baccalaureate graduates per junior/senior FTE[32]	37.0	38.0	41.1		42.5	44.0
Graduate degree graduates per graduate FTE[33]	43.1	38.7	43.1		44.0	45.0

Distinct Graduates per $100k Expense[34]	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
Distinct baccalaureate graduates per $100k undergraduate expense				*Available Dec. 2018*	No increase in CPI adjusted $$	No increase in CPI adjusted $$
>In 2011 $$ (i.e., CPI-adjusted)	1.50	1.49	1.52			
>Unadjusted	1.42	1.40	1.40			
Baccalaureate, masters, and doctoral graduates per $100k total expense				*Available Dec. 2018*	No increase in CPI adjusted $$	No increase in CPI adjusted $$
>In 2011 $$	1.58	1.56	1.62			
>Unadjusted	1.50	1.46	1.49			

Objective B: Diversify sources of funding and allocate resources strategically to promote innovation, effectiveness, and responsible risk-taking.

Performance Measures:

Sponsored Projects funding: # of Awards by Purpose	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
>Research	206	227	230	*Available January 2019*	260	285
>Instruction/Training	20	23	29		35	40
>Other Sponsored Activities	78	93	102		110	130
>Total	304	343	361		405	455

Sponsored Projects funding: Dollars awarded by purpose	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
>Research	$22.8M	$23.3M	$30.0M	*Available January 2019*	$32M	$38M
>Instruction/Training	$5.6M	$5.9M	$5.7M		$8M	$9M
>Other Sponsored Activities	$11.7M	$12.2M	$14.3M		$16M	$18M
>Total	$40.2M	$41.4M	$50.1M		$56M	$65M

Advancement funding	FY 2015	FY 2016	FY 2017	FY 2018	Target ("Benchmark") FY 2019	FY 2023
>Total gift income (outright gifts and previous pledge payments)	$22.6M	$12.0M	$37.6M	*Available January 2019*	$25M	$27M
>Total Endowment Value	$97.4M	$99.9M	$100.8M		$103M	$108M

[31] Includes the unduplicated number of annual baccalaureate degree graduates divided by the IPEDS annual undergraduate FTE. It should be noted that IPEDS includes the credits taken by degree seeking and non-degree seeking student in calculating FTE.
[32] Includes the unduplicated number of annual baccalaureate degree graduates divided by the fall semester FTE of juniors and seniors. FTE are determined using total fall credits of juniors and seniors divided by 15. This measure depicts the relative efficiency with which upper-division students graduate by controlling for full and part-time enrollment.
[33] Includes unduplicated number of annual graduate certificates and master's and doctoral degree graduates divided by the IPEDS annual graduate FTE. It should be noted that IPEDS includes credits taken by degree seeking and non-degree seeking student in calculating FTE.
[34] Expense information is from the Cost of College study. Distinct graduates reflect unduplicated numbers of graduates for summer, fall, and spring terms.

Key External Factors

A wide variety of factors affect Boise State University's ability to implement our strategic plan. Here we present three factors that we regard as impediments to progress and that can be influenced by the state government and its agencies.

Lack of funding of Enrollment Workload Adjustment. Lack of consistent funding for the Enrollment Workload Adjustment, especially during the recession, has resulted in a significant base funding reduction to Boise State University. As a result, Boise State University students receive less appropriated funding compared to other Idaho universities.

Administrative Oversight. Boise State University is subject to substantial administrative oversight through the State of Idaho Department of Administration and other Executive agencies. Significant operational areas subject to this oversight include capital projects, personnel and benefit management, and risk and insurance. The additional oversight results in increased costs due to additional bureaucracy and in decreased accountability because of less transparency in process. The current system places much of the authority with the Department of Administration and the other agencies, but funding responsibility and ultimate accountability for performance with the State Board of Education and the University. As a result, two levels of monitoring and policy exist, which is costly, duplicative, and compromises true accountability. In 2010, the state legislature passed legislation that exempted the University, under certain conditions, from oversight by the State's Division of Purchasing. As a result, the university has streamlined policy and procedure and has gained substantial efficiencies in work process and in customer satisfaction, while at the same time maintaining the integrity of the purchasing process. Additional relief from administrative oversight in other areas should produce similar increases in efficiency and customer satisfaction and improve constituent issues.

Compliance. Increases in state and federal compliance requirements are a growing challenge in terms of cost and in terms of institutional effectiveness and efficiency.

ATTACHMENT 2

	Boise State University Strategic Goals				
	Goal 1: Create a signature, high- quality education experience for all students	*Goal 2: Facilitate the timely attainment of educational goals of our diverse student population.*	*Goal 3: Gain distinction as a doctoral research university*	*Goal 4: Align university programs and activities with community needs.*	*Goal 5: Transform our operations to serve the contemporary mission of the university.*
Institution/Agency Goals and Objectives					
GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT - Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.					
Objective A: Data Access and Transparency - Support data-informed decision-making and transparency through analysis and accessibility of our public K-20 educational system.					✓
Objective B: Alignment and Coordination – Ensure the articulation and transfer of students throughout the education pipeline (secondary school, technical training, postsecondary, etc.).		✓			
GOAL 2: EDUCATIONAL ATTAINMENT – Idaho's public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.					
Objective A: Higher Level of Educational Attainment – Increase completion of certificates and degrees through Idaho's educational system.	✓	✓		✓	
Objective B: Timely Degree Completion – Close the achievement gap, boost graduation rates and increase on-time degree completion through implementation of the Game Changers (structured schedules, math pathways, co-requisite support).		✓		✓	

Objective C: Access ***- Increase access to Idaho's robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.***		✓		✓	
GOAL 3: WORKFORCE READINESS- The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.					
Objective A: Workforce Alignment ***– Prepare students to efficiently and effectively enter and succeed in the workforce.***	✓			✓	
Objective B: Medical Education ***– Deliver relevant education that meets the health care needs of Idaho and the region.***			✓		

Mapping of Boise State University's Strategic Plan onto the Complete College Idaho Plan

Doug Ooley, CISSP
Chief Information Security Officer/Director
IT Governance, Risk, Compliance and Cybersecurity
Office of Information Technology - Boise State University

March 13, 2018 - NIST Cybersecurity Framework and Critical Security Controls 1-5 Adoption

When Executive Order 2017-02 was published as a State of Idaho directive the Office of Information Technology proceeded with incorporating the NIST Cybersecurity Framework into current IT Risk Management frameworks and began implementing Critical Security Controls 1- 5 across the University's critical network infrastructure systems.

Progress to Date:

- Baseline assessment for CSC 1-5 was submitted to State prior to deadline.
- CSC 1-5 gaps have been identified and gap remediation options presented to CIO.
- Relevant portions of the NIST Cybersecurity Framework have been incorporated into existing IT Risk Management frameworks.
- Higher Education Security Council created to collaborate on common CSC gaps and resolutions for State institutions.

Planned Activities thru FY2019:

- Baseline assessment for Critical Security Controls 1-5 will be updated and used for monitoring program improvements and measuring maturity.
- Updated assessment will be sent to the State as a matter of record by December 31, 2018 as part of the maturity plan.
- Continued collaboration with Higher Education and State agencies to create a statewide purchasing plan to reduce costs. Significant funding will be necessary to effectively close technology gaps.
- Continue to create/update policy, procedures, standards and reporting for Critical Security Controls 1-5 where practical.

Note: Adopting and implementing the Critical Security Controls 1-5 will be an ongoing process with the realization that it is not practical to achieve 100% compliance. To balance risk and investment Boise State will seek to achieve a reasonable low risk compliance level.

ATTACHMENT 3

Idaho State University Strategic Plan: 2019-2023

Focusing on Idaho's Future:

discover OPPORTUNITY

Idaho State University
Strategic Plan
2019-2023

Mission

Idaho State University is a public research-based institution that advances scholarly and creative endeavors through academic instruction, and the creation of new knowledge, research, and artistic works. Idaho State University provides leadership in the health professions, biomedical, and pharmaceutical sciences, as well as serving the region and the nation through its environmental science and energy programs. The University provides access to its regional and rural communities through delivery of preeminent technical, undergraduate, graduate, professional, and interdisciplinary education. The University fosters a culture of diversity, and engages and impacts its communities through partnerships and services.

Vision

ISU will be the university of choice for tomorrow's leaders, creatively connecting ideas, communities, and opportunities.

Goal 1: Grow Enrollment

Objective: Increase new full-time, degree-seeking students by 20% (+450 new students) over the next five years.*

Performance Measures:

1. ***Increase full-time, certificate and degree-seeking undergraduate student enrollment and full and part-time graduate student enrollment for FYs 18-22 by 20% (450).***

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
2,648	2,496	2,252	Not Avail	2,702

Benchmark: Increase by 20% by FY18-22 the number of new full-time certificate and undergraduate and the number of full and part-time graduate degree-seeking students from FY 17 (2,252) enrollment numbers. * full-time certificate and undergraduate and full and part-time graduate degree-seeking students

1.1 Increase full-time, degree-seeking undergraduate enrollment for FYs 18-22 by 18% (291).

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
2,012	1,710	1,614	Not Avail	1,905

Benchmark: Increase new full-time undergraduate degree-seeking students by 18% from FY 17 (1,614) enrollment numbers.

1.2 Increase Graduate degree-seeking student enrollment for FYs 18-22 by 20%(128).

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
636	596	638	Not Avail	698

Benchmark: Increase new degree- seeking graduate student enrollment by 4% per year from FY 17 (638) enrollment numbers.

Goal 2: Strengthen Retention

Objective: Improve undergraduate student retention rates by 5% by 2022.

Performance Measures:

2.1 ***Fall-to-fall, full-time, first-time bachelor degree seeking student retention rate FYs 18-22.***

AY 2015 (2015-2016)	**AY 2016** (2016-2017)	**AY 2017** (2017-2018)	**AY 2018** (2018-2019)	**Benchmark 2022**
72%	69%		Not Avail.	74%

Benchmark Definition: A 5% increase in fall-to-fall full-time, first-time bachelor degree-seeking student retention rate beginning from AY 16 (69%) retention numbers (SBOE benchmark -- 80%).

SBOE Aligned Measures (Identified in blue):

1. Timely Degree Completion

1.1 Percent of undergraduate, degree-seeking students completing 30 or more credits per academic year at the institution reporting

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark**
28%	30%	31%	Not Avail.	

1.2 Percent of first-time, full-time, freshmen graduating within 150% of time

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark**
30%	28%	29%	Not Avail.	

1.3a Total number of certificates of at least one academic year

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
199	207	200	Not Avail.	

1.3b Total number of associate degrees

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
374	378	419	Not Avail.	

1.3c Total number of baccalaureate degrees

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
1,155	1,277	1,249	Not Avail.	

1.4a Total number unduplicated graduates (certificates of at least one academic year)

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
180	182	179	Not Avail.	

1.4b Total number unduplicated graduates (associate degrees)

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
362	358	402	Not Avail.	

1.4c Total number unduplicated graduates (baccalaureate degrees)

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
1,111	1,196	1,167	Not Avail.	

2. Reform Remediation -- Percent of undergraduate, degree-seeking students taking a remediation course completing a subsequent credit bearing course (in the area identified as needing remediation) within a year with a "C" or higher

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
51%	28%*	Not Avail.	Not Avail.	

*In 2016, English became a co-requisite vs. a remediation course

3. Math Pathways -- Percent of new degree-seeking freshmen completing a gateway math course within two years

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
32%	31%	25%	Not Avail.	

4. Structured Schedules -- Number of programs offering structured schedules

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
		355/374	Not Avail.	

5. Guided Pathways -- Percent of first-time, full-time freshmen graduating within 100% of time

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark
13%	11%	13%	Not Avail.	

Goal 3: Promote ISU's Identity

Objective: Over the next five years, promote ISU's unique identity by ##% as Idaho's only institution delivering technical certificates through undergraduate, graduate and professional degrees.

Performance Measures:

3.1 Using a community survey, measure the increase by ##% in awareness of ISU's educational offerings and the opportunities it provides AYs 18-22.

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark 2022
Not Avail.	Not Avail.	Not Avail.	Not Avail.	##*

Benchmark: Increase the understanding of ISU's mission and community contributions by #% using 2018-survey data. *this is a new indicator and is not currently measured until the end of FY18.*The date change is a result of the proposed selection of a new president.

3.2 Promote the public's knowledge of ISU through owned and earned media FY 18-22.

FY 2015 (2014-2015)	FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	Benchmark 2022
8,731,0 92b	10,236, 793b	4,968b	Not Avail.	14,843b

Benchmark: The annual number of ISU owned and earned media metrics based on FY 16 data (10,236 billion (b)) (followers, engagements, circulation views and news media coverage) will increase by 9% in five years. The data and goal are changed based on updated and more accurate data being analyzed. Changes to media circulation and TV coverage have dramatically been reduced by earned media coverage.

Goal 4: Strengthen Communication, Transparency, and Inclusion

Objective: Over the next three years, ISU will continue building relationships within the university, which is fundamental to the accomplishment of all other objectives.

Performance Measures:

4.1 ISU achieves 60% of each of its strategic objectives at the end of the AY 2020 assessment period.

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2021**
Not Avail.	Not Avail.	Not Avail.	Not Avail.	60%

Benchmark Definition: The completion of ISU's strategic goals using the objectives' AY 2021 data as a benchmark. *this is a new indicator and is not currently measured until the end of FY19~~8~~. *The date change is a result of the proposed selection of a new president.

4.2 Internal, formal communication events between the ISU's leadership and the University Community AYs 18-20.

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
Not Avail.	Not Avail.	Not Avail.	Not Avail.	TBD*

Benchmark: The number of internal communication events hosted by ISU leadership during an AY using AY 17 data as a baseline. *this is a new indicator and is not currently measured until the end of AY 18~~7~~. *The date change is a result of the proposed selection of a new president.

4.3 Measure the perceived effectiveness of the communication events (4.2) on improving communication and inclusion within the University AYs 19~~8~~-21~~0~~

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
Not Avail.	Not Avail.	Not Avail.	Not Avail.	TBD*

Benchmark: Using data collected from meetings in 2018, measure the perceived effectiveness of the communication events (4.2) on improving communication and inclusion within the University AYs 18-20. *this is a new indicator and is not currently measured until the end of FY19. *The date change is a result of the proposed selection of a new president.

Goal 5: Enhance Community Partnerships

Objective: By 2022, ISU will establish 100 new partnerships within its service regions and statewide program responsibilities to support the resolution of community-oriented, real-world concerns.

Performance Measures:

5.1 The number of activities that result in newly established, mutually beneficial ISU faculty, staff, and student/ community relationships that resolve issues within ISU's service regions and statewide program responsibilities AYs 18-22.

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
Not Avail.	Not Avail.	Not Avail.	Not Avail.	TBD*

Benchmark: The number of new activities that ISU employees and students participate in that produce an increase of new relationships over a five-year period FYs 18-22.*this is a new indicator and is not currently measured until the end of FY 18.

5.2 The number of new communities ISU provides services to within its service regions and statewide program responsibilities AYs 18-22.

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
Not Avail.	Not Avail.	0	Not Avail.	19

Benchmark: Based on input from ISU's Deans and the Vice President of the Kasiska Division of Health Sciences; provide 19 new communities with services within its service regions and statewide program responsibilities from AYs 18-22.

5.3 The number of new ISU/community partnerships resulting in internships and clinical opportunities for ISU students.

FY 2015 (2014-2015)	**FY 2016** (2015-2016)	**FY 2017** (2016-2017)	**FY 2018** (2017-2018)	**Benchmark 2022**
Not Avail.	Not Avail.	369	Not Avail.	1,131

Benchmark: Increase the number of new community partnerships that result in internships and clinical positions by a total of 1,131 over a five-year period (FYs 18-22) using FY17's numbers.

Key External Factors

Funding

Many of Idaho State University strategic goals and objectives assume on going and sometimes substantive, additional levels of State legislative appropriations. Availability of state revenues, upon which appropriation levels depend, can be uncertain from year to year. Similarly, while gubernatorial and legislative support for ISU efforts are significant, priorities set by those bodies vary from year to year, affecting planning for institutional initiatives and priorities. When we experience several successive years of deep reductions in state-appropriated funding, as has occurred in the recent past, it makes it increasingly difficult to plan for and implement strategic growth.

Legislation/Rules

Beyond funding considerations, many institutional and State Board of Education (SBOE) policies are embedded in state statute and are not under institutional control. Changes to statute desired by the institution are accomplished according to state guidelines. Proposed legislation, including both one-time and ongoing requests for appropriated funding, must be supported by the Governor, gain approval in the germane legislative committees, and pass both houses of the Legislature.

The required reallocation of staff resources and time and effort to comply directives related to creation of the Student Longitudinal Data System; the revision of general education and remedial education; the common core standards; Smarter Balance Assessment; Complete College America/Idaho; the 60% Goal; zero-based budgeting; performance-based funding, and the additional financial and institutional research reporting requirements.

Institutional and Specialized Accreditation Standards

The Northwest Commission on Colleges and Universities (NWCCU), our regional accreditation body, continues to refine the revised 2010 standards and associated 7-year review cycle. Similarly, the specialized accrediting bodies for our professional programs periodically make changes to their accreditation standards and requirements, which we must address.

ISU has the largest number of degree programs with specialized accreditation among the state institutions, which significantly increases the workload in these programs due to the requirements for data collection and preparation of periodic reports. The programs in the health professions are reliant on the availability of clerkship sites in the public and private hospitals, clinics, and medical offices within the state and region. The potential for growth in these programs is dependent on maintaining the student to faculty ratios mandated by the specialized accrediting bodies, as well as the availability of a sufficient number of appropriate clerkship sites for our students.

Federal Government

The federal government provides a great deal of educational and extramural research funding for ISU and the SBOE. Funding is often tied to specific federal programs and objectives, therefore can greatly influence both education policy, and extramurally funded research agendas at the state and the institutional levels. The recent decrease in funding for Pell Grants has had a negative impact on need-based financial aid for our students. The impact of the sequestration-mandated federal budget reductions initiated in early 2013 will likely have a negative impact on higher education.

Local/Regional/National/Global Economic Outlook
Conventional wisdom has long tied cyclic economic trends to corresponding trends in higher education enrollments. While some recent factors have caused this long relationship to be shaken in terms of funding students have available for higher education, in general, the perceived and actual economic outlooks experienced by students continues to affect both recruitment into our colleges and universities as well as degree progress and completion rates. A greater proportion of our students must work and therefore are less able to complete their education in a timely manner.

Achieving State Board of Education Goals
Achieving State Board of Education goals is a priority for ISU, but the University's leadership believes one of the Board's goals is beyond ISU's reach within this five-year planning cycle. While the long-term objective for ISU is to achieve an 80% fall-to-fall retention rate of first-time, full-time bachelor degree-seeking students, this rate is a significant stretch in this five-year period. While, the expansion of competitive graduate programs at the Meridian Health Sciences Center, ISU-Twin Falls Center, and Idaho Falls Polytechnic Center can help to produce positive impacts, ISU's current retention rate is 68%, a more realistic five-year goal is 74%. The University will continue to focus on attaining the SBOE's goal throughout this and the next planning cycle. The reasons why a 74% retention rate is more realistic for the five-year plan are the following:

- As the local economy improves, fewer students will re-enroll in higher education choosing instead to take positions in the workforce that require less education.
- Assessments of first-generation, low-income ISU students indicate that for those who choose to leave the University, the number-one reason is due to inadequate funding. Students report that paying bills often becomes a priority over attending class or studying. This systemic lack of resources in our region is not easily rectified but is something that we continually work toward developing solutions. Many freshmen at ISU, particularly those from rural, economically unstable communities, lack the required math, laboratory science, and writing skills to meet the rigors of college coursework, placing them at an immediate disadvantage. This academic disadvantage leads to lower retention. ISU is focusing on these areas of concern and is working to create opportunities to address them like, expanding the College of Technology programs, scholarship programs, and a new, more effective placement testing method.
    - New student retention efforts at ISU being implemented, for example, academic coaches, will take time to make an impact on the overall retention rate.
    - Beginning in Fall 2016, ISU began using the Assessment and Learning in Knowledge Spaces (ALEKS) placement exam as its newest and primary assessment tool for placing students into mathematics classes. It is believed that this new placement exam will do a better job of placing students in the correct

math courses, thus improving student retention but the effects will take time to evaluate.

- ISU has high enrollment rates of first-generation, low-income students. These students have inadequate resources and limited support for navigating the complicated processes within a university. These students are therefore transient in nature, moving in and out of college, and are less likely to be retained from one year to the next.
  - The Bengal Bridge initiative is expanding each summer, so this program will also take time to impact the overall retention rate.

Evaluation Process

Idaho State University has established a mature process for evaluating and revising goals and objectives. ISU's academic and non-academic units track and evaluate the strategic plan's performance measures, and Institutional Research compiles the results. Institutional Research has created a web-based application that annually reports each objective's improvement based on its benchmark and allows leadership, staff and faculty to view the level of progress achieved. The Strategic Planning Working Group (SPWG), a team of faculty, staff, students, and community constituents, will meet annually in January to evaluate three factors affecting the progress of each objective.

1. If the objective is falling short or exceeding expectations, the SPWG will re-examine the established benchmark to ensure it is realistic and achievable
2. Evaluate the objective's resourcing levels and its prioritization
3. Determine if the indicator(s) is adequately measuring the objective's desired outcome based on the SPWG's original intent for that objective.

Upon completion of its analysis, the SPWG will forward its recommendations for consideration to the Institutional Effectiveness and Assessment Council's (IEAC) Steering Committee. The IEAC will review the SPWG's report and can either request additional information from the SPWG or make its recommendations for changes to the plan to the President. Upon presidential approval, the Institution will submit the updated plan to the State Board of Education for approval. The implementation of the changes will occur upon final approval. Strategic Evaluation Process.

Evaluation Process

LEWIS-CLARK STATE COLLEGE

STRATEGIC PLAN
FY 2019-2023

ATTACHMENT 4

LEWIS-CLARK STATE
COLLEGE

Connecting Learning to Life

STRATEGIC PLAN
FY 2018-2022

LEWIS-CLARK STATE COLLEGE
1893

April 19, 2018

MISSION STATEMENT

Lewis-Clark State College prepares students to become successful leaders, engaged citizens, and lifelong learners.

Core Theme One: Opportunity
Expand access to higher education and lifelong learning.

Core Theme Two: Success
Ensure attainment of educational goals through excellent instruction in a supportive environment.

Core Theme Three: Partnerships
Engage with educational institutions, the business sector, and the community for the benefit of students and the region.

VISION STATEMENT

Lewis-Clark State College (LCSC) will fulfill the Idaho State Board of Education's vision of a seamless public education system by integrating traditional baccalaureate programs, professional-technical training programs, and community college and community support programs within a single institution, serving diverse needs within a single student body, and providing outstanding teaching and support by a single faculty and administrative team.

The college's one-mission, one-team approach will prepare citizens from all walks of life to make the most of their individual potential and will contribute to the common good by fostering respect and close teamwork among all Idahoans. Sustaining a tradition that dates back to its founding as a teacher training college in 1893, LCSC will continue to place paramount emphasis on effective instruction—focusing on the quality of the teaching and learning environment for traditional and non-traditional academic classes, professional-technical education, and community instructional programs.

As professed in the college's motto, "Connecting Learning to Life," instruction will foster powerful links between classroom knowledge and theory and personal experience and application. Accordingly, LCSC will:

- Actively partner with the K-12 school system, community service agencies, and private enterprises and support regional economic and cultural development
- Strive to sustain its tradition as the most accessible four-year higher-education institution in Idaho by rigorously managing program costs, student fees, housing, textbook and lab costs, and financial assistance to ensure affordability
- Vigorously manage the academic accessibility of its programs through accurate placement, use of student- centered course curricula, and constant oversight of faculty teaching effectiveness
- Nurture the development of strong personal values and emphasize teamwork to equip its students to become productive and effective citizens who will work together to make a positive difference in the region, the state, the nation, and the world.

GOAL 1
Sustain and enhance excellence in teaching and learning.

Objective A: Strengthen courses, programs, and curricula consonant with the mission and core themes of the institution.

Performance Measures:

I. **Assessment submission.**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
98%	**100%**	**100%**	**100%**	**100% (ongoing)**

Benchmark: All units of the college will submit their annual assessment documents that reflect genuine analysis and accurate reporting. [Rationale: institutional expectation of 100% participation]

II. **First-time licensing/certification exam pass rates**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NCLEX RN **95%** (National Average=84%)	NCLEX RN **89%** (National Average=83%)	NCLEX RN **94%** (National Average=86%)	NCLEX RN **93%** (National Average=89%)	**Meet or Exceed National Average (ongoing)**
NCLEX PN **75%** (National Average=85%)	NCLEX PN **100%** (National Average=82%)	NCLEX PN **95%** (National Average=83%)	NCLEX PN **100%** (National Average=84%)	**Meet or Exceed National Average (ongoing)**
ARRT **100%** (National Average=89%)	ARRT **100%** (National Average=88%)	ARRT **90%** (National Average=87%)	ARRT **88%** (National Average=87%)	**Meet or Exceed National Average (ongoing)**

Benchmark: Meet or exceed national average [Rationale: aligned with peer institutions; accommodates fluctuations in and change to the national tests]

III. **Percentage of responding LCSC graduates with positive placement**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
95%	**92%**	**95%**	**95%**	**100% (FY19)**

Benchmark: 100% of responding LCSC graduates will have positive placement [Rationale: high emphasis placed on securing employment or continuing on to graduate school upon completion of degree or credentials; allows for those who may delay employment for family or other reasons]

IV. **Number of Idaho teachers who are certified each year by specialty and meet the Federal Highly Qualified Teacher definition**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
83%	**68%**	**60%**	**62%**	**90% (FY19)**

Benchmark: The percentage of first-time students passing the PRAXIS II will exceed 90% [Rationale: aspiration goal that projects high standards held for Teacher Preparation candidates] *Note: Given the changes made to the PRAXIS II exam, we are considering adjusting this benchmark to a more realistic one for our institution. PRAXIS II scores have gone down statewide. A thorough review of general education coursework at LCSC was undertaken in early 2017 to ensure stronger alignment of the curriculum with PRAXIS testing; enhanced emphasis on advising students to complete the PRAXIS after all general education coursework has been completed, and in some cases several in-program courses, has also been implemented.*

V. **Median number of credits earned at completion of certificate or degree program***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Associate 94	**Associate 109**	**Associate 114**	**Associate 111**	**69 (FY20)**
Bachelor 148	**Bachelor 146**	**Bachelor 146**	**Bachelor 145**	**138 (FY20)**

Benchmark: Associate – 69 (SBOE Benchmark) Bachelor – 138 (SBOE Benchmark) [Rationale: supports timely degree completion]

VI. **Percentage of degree seeking students taking a remedial course who complete a subsequent credit-bearing with a C or higher within one year of remedial enrollment.*** *(New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
25%	**24%**	**23%**	**24%**	**2% increase per year (ongoing)**

Benchmark: The percentage of students identified as needing remediation who pass credit-bearing course within one year of completing remedial education. (SBOE system-wide performance measure) [Rationale: a gain of 2 percent each year supports restructuring of remedial education and the implementation of co-requisite course delivery methods currently underway]

VII. **Percentage of first time degree-seeking students completing a gateway math course within two years of enrollment.*** *(New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
21%	**19%**	**17%**	**15%**	**2% increase per year (ongoing)**

Benchmark: The percentage of degree-seeking new freshmen who complete a college level math course within two years. [Rationale: a gain of 2 percent each year supports restructuring of remedial education and the implementation of co-requisite course delivery methods currently underway]

VIII. **Percentage of students completing 30 or more credits per academic year.** *(New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
19%	**13%**	**12%**	**18%**	**20%**

Benchmark: 20% [Rationale: Given the continued favorable job market and the statewide number of part-time students a two percent increase for FY19 is reasonable]

Objective B: Ensure the General Education Core achieves it's expected learning outcomes.

Performance Measures:

I. ETS Proficiency Profile critical thinking construct¹

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
88th			**85th**	**90th (FY18)**

Benchmark: LCSC will score at the 90th percentile or better of comparison participating institutions (Carnegie Classification-Baccalaureate Diverse) on the ETS Proficiency Profile critical thinking construct. [Rationale: demonstrates high standard and is consistent with similar institutions]

Objective C: Optimize technology-based course delivery, resources, and support services for student, faculty, and staff.

Performance Measures:

I. Annual end-of-term duplicated headcount for students enrolled in web, hybrid, and lecture/web-enhanced courses.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
8,726	**8,780**	**9,586**	**9,652**	**10,000 (FY20)**

Benchmark: 10,000 [Rationale: high demand for online courses in our rural area]

Objective D: Maximize direct faculty and student interactions inside and outside the classroom.

Performance Measures:

I. Student-to-faculty ratio

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
16:1	**16:1**	**14:1**	**13:1**	**16 to 1 (ongoing)**

Benchmark: LCSC will maintain a 16 to 1 student-to-faculty ratio [Rationale: low student to faculty ratio allows for strong learning environments and promotes student success]

II. Number of programs offering structured schedules.* *(New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
17	**17**	**17**	**17**	**20**

Benchmark: 20 [Rationale: SBOE system-wide measure aimed at supporting on-time completion of degrees]

III. Number of students participating in undergraduate research.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
284	**352**	**338**	**493**	**400 (FY20)**

Benchmark: 400 [Rationale: undergraduate research experience in select areas enhances student learning and prepares them for future employment or graduate opportunities]

Objective E: Recruit and retain a highly qualified and diverse faculty and staff.

Performance Measures:

I. Classified Staff (State of Idaho Classified Staff Pay Schedule)[2]

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
81.2%	**84.4%**	**86%**	**86%**	**100% of Policy (ongoing)**

Benchmark: Classified Staff pay will be 100% of State of Idaho Policy [Rationale: Represents the market average per Idaho Code. Chosen to attract and retain qualified and dedicated employees.]

II. Instructional Personnel (Integrated Postsecondary Education Data System (IPEDS), Human Resources Report)[3]

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
89%	**87%**	**87%**	**88%**	**100% of Average of Peer Institutions all Academic Rank (ongoing)**

Benchmark: Compensation for instructional personnel will be 100% of the average of peer institutions by academic rank as reported by IPEDS [Rationale: Higher salaries in comparison to our peer institutions means decreased faculty turnover.]

Objective F: Provide a safe, healthy, and positive environment for teaching and learning.

Performance Measures:

I. ADA Compliance

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
	0	**0**	**0**	**Zero ADA-related discrepancies (ongoing)**

Benchmark: Zero ADA-related discrepancies noted in annual Division of Building Safety (DBS) campus inspection (and prompt action to respond to any such discrepancies if benchmark not achieved) [Rationale: provides annual update, which provides the institution with the most current standards for measurement.]

II. Wellness Programs

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
12	**12**	**14**	**12**	**Provide info and updates to employees 10 times each (ongoing)**

Benchmark: Provide information and updates to all College employees on wellness activities at least 10 times each Fiscal Year [Rationale: provides employees with information supporting this objective regularly throughout the academic year.]

GOAL 2

Optimize student enrollment and promote student success.

Objective A: Marketing efforts will focus on clearly identified populations of prospective students.

ATTACHMENT 4

Performance Measures:

I. **High school students participating in concurrent enrollment programs (headcount and total credit hours)**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
1,959/7,963	**1,750/8,071**	**837/4,779**	**994/5,991**	**1,500/8,000 (FY22)**

Benchmark: Annual Enrollment – 1,500 Annual Total Credit Hours – 8,000 [Rationale: based on our regional high school population and teacher credentials]

II. **Scholarship dollars awarded per student FTE**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
2,142	**2,260**	**3,061**	**2,969**	**3,000 (FY19)**

Benchmark: $3,000 [Rationale: review of our retention/attrition data point to financial need as the biggest reason students do not persist]

Objective B: Retain and graduate a diverse student body.

Performance Measures:

I. **Total degree production (undergraduate)*** *(New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Certificate 31	**Certificate 25**	**Certificate 22**	**Certificate 18**	**20**
Associate 211	**Associate 202**	**Associate 351**	**Associate 414**	**430**
Bachelor 497	**Bachelor 544**	**Bachelor 541**	**Bachelor 528**	**540**

Benchmark: 990 [Rationale: stretch goal based on SBOE's 60% goal]

II. **Total unduplicated undergraduate graduates by degree level***(*New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Certificate 17	**Certificate 17**	**Certificate 18**	**Certificate 14**	**15**
Associate 161	**Associate 152**	**Associate 248**	**Associate 300**	**330**
Bachelor 497	**Bachelor 544**	**Bachelor 541**	**Bachelor 528**	**535**

Benchmark: 880 [Rationale: stretch goal based on SBOE's 60% goal]

III. **Unduplicated headcount of graduates and percentage of graduates to total unduplicated headcount (split by undergraduate/graduate).***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**

675/12%	713/15%	795/16%	817/17%	700/12% (New benchmark to be identified for FY18)

Benchmark: 700; 12% [Rationale: based on SBOE 60% goal]

IV. Unduplicated headcount of graduates over rolling 3-year average degree-seeking FTE (split by undergraduate/graduate).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
675/2,756 **25%**	**713/2,973** **24%**	**795/2,901** **27%**	**817/2,862** **28%**	**30% (FY19)**

Benchmark: 30% [Rationale: based on SBOE 60% goal]

V. Total full-time new and transfer degree seeking students that are retained or graduate the following year (exclude death, military service, and mission) (split by new and transfer students).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
New Freshmen **203/338** **60%**	**New Freshmen** **304/474** **64%**	**New Freshmen** **283/491** **56%**	**New Freshmen** **248/419** **59%**	**70% (FY20)**
New Transfer **166/234** **71%**	**New Transfer** **141/202** **70%**	**New Transfer** **161/238** **68%**	**New Transfer** **275/410** **67%**	**70% (FY20)**

Benchmark: 70% (SBOE measure) [Rationale: reflects a more global selection of students and is also a stretch goal given the significant number of first-generation students serve by LCSC]

VI. First-year/full-time cohort retention rate

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
61%	**61%**	**58%**	**57%**	**60%**

Benchmark: 60% [Rationale: reflects the cohort measure by IPEDS]

VII. The number of degrees and certificates awarded per 100 FTE undergraduate students enrolled.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
25	**26**	**33**	**34**	**35 (FY19)**

Benchmark: 35 [Rationale: derived based on analysis of student demographics (first –generation students and job-out rates) and potential incoming high school graduate population]

VIII. First-year/full-time cohort 150% graduation rate.* *(New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
27%	**27%**	**30%**	**27%**	**35% (FY22)**

Benchmark: 35% [Rationale: reflects cohort measured by IPEDS]

IX. **First-year/full-time cohort 100% graduation rate.*** *(New Statewide Performance Measure)*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
17%	**20%**	**27%**	**31%**	**35% (FY20)**

Benchmark: 35% [Rationale: based on SBOE 60% goal]

Objective C: Maximize student satisfaction and engagement

Performance Measures:

I. **National Survey of Student Engagement (NSSE)[4]**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
89%			**90%**	**90% LCSC Students Satisfied (FY20)**

Benchmark: 90% of LCSC students will be satisfied [Rationale: selected by comparing response rates to annual surveys and the desire to promote confidence and satisfaction among students who select LCSC]

GOAL 3
Strengthen and expand collaborative relationships and partnerships.

Objective A: Increase volunteer, internship, and career placement opportunities.

Performance Measures:

I. **Number of students participating in internships**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
655	**743**	**779**	**721**	**800 (FY19)**

Benchmark: 800 [Rationale: Internships prepare students for future employment; student demand is increasing]

Objective B: Collaborate with relevant businesses, industries, agencies, practitioners, and organizations for the beneficial exchange of knowledge and resources.

Performance Measures:

I. **Number of adults (duplicated) enrolled in workforce training programs**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
3,533	**3,471**	**2,887**	**3,345**	**4,000 (FY20)**

Benchmark: 4,000 [Rationale: goal is to meet the retraining needs of a growing set of local industries]

Objective C: Increase cooperation and engagement of alumni for the advancement of the college.

Performance Measures:

I. **Number of Alumni Association members**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
13,904	**16,009**	**17,115**	**18,025**	**20,000 (FY20)**

Benchmark: 20,000 [Rationale: aspirational goal]

Objective D: Advance the college with community members, business leaders, political leaders, and current and future donors.

Performance Measures:

I. **Number of students participating in internships**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
655	**743**	**779**	**721**	**800 (FY19)**

Benchmark: 800 [Rationale: Internships prepare students for future employment; student demand is increasing]

GOAL 4

Leverage resources to maximize institutional strength and efficiency

Objective A: Allocate and reallocate funds to support priorities and program areas that are significant in meeting the role and mission of the institution.

Performance Measures:

I. **Cost per credit hour – Financials divided by total weighted academic credit hours from the EWA report and unweighted professional-technical hours from the PSR1 (new calculation)***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
294	**296**	**310**	**376**	**400***

Benchmark: $400 *(*Preliminary, reflects the SBOE strategic plan benchmark)* {Rationale: as indicated reflects the SBOE benchmark.]

Objective B: Assess and modify organizational structure and institutional processes to ensure the most effective use of resources.

Performance Measures:

I. **Efficiency – Graduates (of at least 1-year or more) and degree completions per $100,000 of financials***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
1.4	**1.5**	**1.6**	**1.7**	**2**

Benchmark: 2 [Rationale: SBOE system-wide goal]

Objective C: Continuously improve campus buildings, grounds, and infrastructure to maximize environmental sustainability and learning opportunities.

Performance Measures:

I. **Annual campus master plan updated**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Yes	**Yes**	**Yes**	**Yes**	**Yes (Ongoing)**

Benchmark: Yes. [Rationale: Annual Campus Master Planning assures assessment and prioritization of key facility's needs.]

II. **Address campus needs using institutional resources and funding from the Permanent Building Fund through the creation of DPW projects.**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**

$2.368M	**$821,000**	**$6,068,000**	**$340,000**	**$500,000 (ongoing)**

Benchmark: $500,000 [Rationale: This demonstrates continued identification of key institutional needs related to the creation and maintenance of LCSC facilities.] *Note: Living-Learning Center was approved for the design phase in FY 2017, but the project is being reprioritized to accommodate the Career-Technical Education Building. The Living-Learning Center would have added $1.346M to the FY 17 total.*]

Objective D: Create a timetable for the sustainable acquisition and replacement of instruments, machinery, equipment, and technologies and ensure required infrastructure is in place

Performance Measures:

I. **Continuous acquisition and replacement of equipment, instruments, machinery, and technology funded by institution**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
$8,731,618	**$9,008,889**	**$7,798,956**	**$8,638,491**	**Increase by $500,000 per year (ongoing)**

Benchmark: $500,000 increase per year. [Rationale: Reflects increases in assets through replacement.] *Note: in FY 16, $1.7M of graphic software was eliminated.*

Objective E: Identify and secure public and private funding to support strategic plan priorities.

Performance Measures:

I. **Institutional funding from competitive grants**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
$3.0M	**$2.5M**	**$2.5M**	**$2.9M**	**$2M (New benchmark to be identified for FY18)**

Benchmark: $2.0M [Rationale: demonstrates the capacity to general external and private funding.]

II. **LCSC Consolidated Financial Index (CFI)**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
6.6	**5.57**	**5.37**	**5.61**	**3.0 (ongoing)**

Benchmark: 3.0 [Rationale: CFI is a standard unit of evaluating an institution's financial health and is recommended for use by the National Association of College and University Business Officers]

ATTACHMENT 4

*** Indicates SBOE System-wide performance measures**

Notes:

1. ETS Proficiency Profile is administered every 3 years. LCSC Mean Critical Thinking score for 2014 was 114.55 which places us in the 88 percentile and means that 88% of institutions who used this exam had a mean score lower than LC per the ETS Proficiency Profile Comparative Data. Results from spring 2017 not yet available.

2. These values represent the percentage of individuals in this class who are making 90% of policy.

3. The percentages for faculty represent LCSC's weighted average 9-month equivalent salary divided by the weighted average 9-month equivalent salary of LCSC's peer institutions.

4. Reflects the overall percentage of students satisfied with LCSC. This survey is administered every 3 years. Spring 2017 results not yet available

5. Reflects data elements available after June 30 or after audited financials are available.

Key External Factors

Academic Year 2017-2018 Data: Student headcount for the fall semester was 3,746 and the full-time equivalent enrollment was 2,777. The college employed 180 faculty, 84 adjunct faculty, 165 professional staff, and 126 classified staff.

Growth: The Idaho State Board of Education has directed the higher education institutions under its supervision to double the proportion and number of Idahoans (25 to 34 year old cohort) with a college certificate or degree by 2020. The following factors will affect LCSC's output:

LCSC is essentially an open-access institution—reducing admission standards likely would not generate significant numbers of new students. As LCSC reaches out to encourage college participation by underserved segments in Idaho's population, the average level of college-preparedness of the student body is likely to decrease, and the level of support needed for students is likely to increase.

The current demographic trends in Idaho foretell growth in the number of secondary students, with significant growth in the Hispanic population. Thus, output of the K-12 pipeline may lead to an increase in enrollment at LCSC, perhaps to begin during the five-year planning window and the recent award of a new CAMP grant will undoubtedly increase the number of Hispanic students at LCSC. Taking into account that Idaho's current participation rate, less than 50%, is one of the lowest in the nation LCSC may otherwise be able to increase the number of high school graduates who elect to enroll.

Currently, unemployment in Idaho is low. Strategically, this means it is unlikely that systemic structural unemployment rates will be a major driver of additional students applying to LCSC before the end of the five-year planning horizon. In fact, improving employment rates in Idaho have reduced the applicant pool in PTE programs as workers enter or re-enter the work force as the effects of the recession have eased.

There is a large population of working adults with some college credits but no degree. LCSC will renew efforts to meet the needs of these students with new online programs.

Infrastructure: In general, currently-available facilities, or a modest expansion thereof, are sufficient to support an increase in on-campus students proportionate to LCSC's share of the State Board of Education's 60% goal. Classroom and laboratory utilization rates have sufficient slack time throughout the day and week to absorb an estimated 50% or more increase in student enrollment. Within the course of the five-year planning window, the college, if necessary, could increase faculty and staff office space and student housing. If the combined impact of LCSC action strategies to increase enrollment, improve retention, and increase program completion rates were to double the historical rate to 6% per year, the main campus student population increase could be accommodated by the current physical infrastructure.

However, this is not the case for many of LCSC's Technical and Industrial programs. Many of the programs have waiting lists and all of the programs are in demand from local industrial companies. Current T&I buildings on the Normal Hill campus cannot accommodate anticipated increases. The College will provide a new modern building that will house most of its Technical & Industrial CTE programs with room for expansion and the flexibility to adjust training programs directed at the regional employers' needs. The new building plans are well underway and it will provide the needed lab, classroom and office space required to meet anticipated demand. In addition, the building configuration will provide room for expansion and growth as a Regional Career Technical Education Center. This a joint effort with the Lewiston School District as they build a new high school and Career Technical Education Center that will be adjacent to property owned by the College and the City on Warner Avenue in the Lewiston Orchards. Both buildings are planned to be opened by 2020-2021.

Also, unlike the situation on the Normal Hill campus, infrastructure is a major limiting factor for LCSC's Coeur d'Alene operations. The joint facility to serve LCSC, North Idaho College (NIC), and University of Idaho students and staff on the NIC campus has been funded. The new facility could be opened toward the end of the current five-year planning window. Infrastructure at the other LCSC outreach centers is estimated to be sufficient to support operations over the next five years.

Deferred maintenance needs over the course of the five-year planning window are estimated at roughly over $25 million for alteration and repair of existing facilities. Recent momentum in addressing HVAC and roof repairs needs to be sustained, but will depend primarily on availability of Permanent Building Fund dollars.

Over the past decade several major capital projects to expand facilities on the main campus have been completed (e.g., Activity Center, Sacajawea Hall, new parking lots, upgrades of Meriwether Lewis Hall and Thomas Jefferson Hall). For the main campus, LCSC's strategy for five-year planning window is to focus on upgrades of existing facilities; however, because the available student housing units are currently at maximum capacity the feasibility of building and new student resident hall is being proposed.

Classroom capacity is sufficient to sustain current and projected enrollment levels for brick-and-mortar classes. Increased enrollment will necessitate scheduling adjustments that spread classes throughout day, evening, and weekend hours. Utility costs of extended class hours would increase marginally, but overall efficiency of facility operations would increase with the reduction of slack hours.

Recent efforts have increased the number of classroom seats and modernized classrooms and labs. Nevertheless, continued efforts are needed to modernize the classroom and lab infrastructure (teaching technology, lighting, furniture, acoustical treatments, and flooring).

On-campus and neighborhood parking is adequate to sustain employee and student operations. The college has acquired property on the perimeter of the Normal Hill campus to accommodate additional parking (or facility construction) when needed. Parking options for LCSC's downtown facilities are more limited and cooperation with the city and local merchants will be needed if main street operations continue to expand.

Recent office space modernization efforts need to continue over the five-year planning window. In the event of growth of faculty and staff beyond current levels, additional office space could be provided through conversion of rental housing units and/or conversion of older residential hall space into modern offices. Renovation of Spaulding Hall will be completed by this summer.

A major vulnerability continues to be the lack of redundant capabilities for heating and cooling of major buildings—almost every major structure is dependent upon a single source of HVAC. The main campus needs a loop to interconnect multiple facilities and provide a backup in the event of single-point failure. Use of energy-saving incentive dollars and cooperative projects with external entities could help fund these improvements.

Personnel: While the current physical infrastructure of LCSC (with the exception of the T&I facilities and the Coeur d'Alene Center) is sufficient to support the increased output envisioned by the Idaho State Board of Education, this is not the case with respect to faculty and staff. Although class sizes could be increased in some upper division courses, many lower division courses and some professional courses are already up against faculty-student ratio limits imposed by specialized accreditation agencies and could not significantly expand without concomitant expansion of faculty and supporting staff. Faculty and staff workload levels at LCSC are high compared to other higher education institutions. An expanded LCSC student population will require ratios at least as low as current levels. Based on peak hiring periods over the past decade, funding an expansion spread over the next five years is technically feasible, but would require careful planning and coordination.

While increased utilization of distance learning technology could alleviate stress on the physical infrastructure, it is not the critical factor limiting expansion. While in some cases learning technology may enhance the effectiveness of course delivery and student success, it does not reduce the need for student-faculty interaction or significantly increase the desirable maximum ratio of students to faculty members. The current student to faculty ratios for academic and professional courses (14:1, and 9:1, respectively) may not be at a maximum level; the course delivery mode, however, is probably not the primary factor in establishing the ideal balance as we seek to maintain high levels of faculty-student engagement and interaction.

Economy and the Political Climate: Many factors and trends will have a major impact on LCSC strategies to achieve its goals and objectives over the five-year planning window.

Funding for higher education has been used as a rainy day reserve to support other state operations, most notably K-12, during economic downturns. There has been limited enthusiasm among Idaho policy makers to restore pre-crisis levels of funding to higher education, but some progress has been made, especially with capital projects like the new CTE facility.

Over the past 3 years, the state has provided funding to cover some maintenance of current operation costs (replacement of capital items and employee salaries) and has funded LCSC line-item budget requests to support increased enrollment, including LCSC's Complete College Idaho request that directly supports State Board of Education goals.

Employee salary levels at LCSC are significantly lower than those at peer institutions. Increases in employee compensation has been funded during the past 2 years - half of the cost of those increases were transferred by state policymakers to student tuition.

There has been strong political support to expand concurrent enrollment programs to enable completion of college-level coursework while students are still in high school; however, there has been no support for funding directed to higher education for this purpose. The dual impacts of community college expansion and in-high school programs erode for LCSC the probability of future revenues for lower-division courses.

The relative financial burden borne by students for college costs has dramatically shifted, with student tuition and fees now nearly equal to the general fund appropriation. Notwithstanding the facts that reduced state support has necessitated tuition increases to sustain higher education operations and that Idaho tuition rates remain well below regional and national averages, state policymakers are reluctant to support additional tuition increases.

Students in Idaho and across the nation have become more dependent upon federal financial aid to pay for college, and increased student debt load and default rates have caused consternation among policymakers. Federal funding available for higher education has been reduced in some cases and new policy restrictions aimed at curbing operations of for-profit higher education enterprises have inflicted collateral damage on public college operations.

Population growth within LCSC's local operating area, Region II, has been flat. The highest growth rates in the state have been focused in southern Idaho and the northern panhandle. LCSC is increasingly reliant on a statewide market.

Implications for Lewis-Clark State College: The College cannot depend upon major infusions of state-appropriated dollars to fund growth and new initiatives during the next five years. The primary sources of funding for strategic initiatives will be reallocation of current funds and utilization of student tuition and fee dollars. The primary engine for funding growth is increased tuition from students as a result of increased enrollment (higher accessions, increased retention) with tuition rate increases likely to be restricted by policymakers.

LCSC needs to continue to build its grassroots support within the region and throughout the state to increase awareness of its unique strengths and its support of the values of Idaho's citizens. Strong support of students, parents, alumni, community members, and businesses is essential to undergird the tangible support provided to LCSC by Idaho policymakers.

Evaluation Process

LCSC's Strategic Plan was originally developed for the 2013-2018 timeframe. In light of the college's updated mission and core themes, as well as the fact that the college's current strategic plan is near the end of its utility, a complete review of the goals and objectives has been underway. A representative committee is currently developing new strategies and objectives to guide the work of the college. The proposed performance measures associated with the new strategies and objectives (in development) are included in Appendix 2.

Addendum: Cyber Security

National Institute of Standards and Technology (NIST) Cybersecurity Framework

Governor Otter's Executive Order 2017-02 calls for:

> *All state agencies to immediately adopt and to implement by June 30, 2017, the National Institute of Standards and Technology (NIST) Cybersecurity Framework in order to better foster risk and cybersecurity management communications and decision making with both internal and external organizational stakeholders.*

On March 16, 2017 Michelle Peugh of Idaho's Division of Human Resources (DHR) sent an email attachment – authored by DHR Director Susan Buxton – to Ms. Vikki Swift-Raymond, Lewis-Clark State College's Director of Human Resource Services (HRS). Director Buxton's memo asked LCSC to confirm that the college has adopted the NIST Cybersecurity Framework, per the governor's executive order. On April 15th Lewis-Clark State College President J. Anthony Fernández returned confirmation to Director Buxton that the college has adopted the NIST Framework.

Implementation of the Center for Internet Security (CIS) Controls

Governor Otter's Executive Order 2017-02 calls for "*agencies to implement the first five (5) Center for Internet Security Critical Security Controls (CIS Controls) for evaluation of existing state systems by June 30, 2018*." Lewis-Clark State College has accomplished the following:

- On October 4, 2016 Lewis-Clark State College contracted with CompuNet to perform a "gap analysis" of LCSC's security posture relative to all twenty CIS Controls. CompuNet's report was delivered to LCSC on October 19th.
- On January 16, 2017 Governor Otter issued his cybersecurity executive order.
- On February 2nd Lieutenant Governor Brad Little held a statewide meeting to organize all agencies in a coordinated response to the governor's executive order. Lewis-Clark State College attended the meeting remotely. The Lieutenant Governor turned the meeting over to Lance Wyatt, Acting Chief Information Security Officer within Idaho's Office of the CIO. Mr. Wyatt described the statewide process, where:
    - Each agency would complete a self-assessment of one CIS Control per month, extending through the next five months.
    - Each agency would document its self-discovery in a data repository provided by the state.
    - Each agency would attend a statewide meeting held approximately every two weeks, for coordination, facilitation, and problem solving.
    - At the end of the self-assessment process, agencies would collaborate on cyber-security product selection that will aid in managing the first five CIS controls
    - Starting in summer 2017, each agency will begin remediation of perceived gaps in the first five controls, finishing the process prior to the governor's deadline of June 30, 2018.

- Lewis-Clark State College has attended each of the state's cyber-security meetings during 2017 and 2018.
- LCSC has completed the self-assessment process led by Lance Wyatt, Chief Information Security Officer. All relevant data have been entered on the state's Sharepoint repository designed for collecting these data.
- Based on the Department of Administration's gap analysis, Lewis-Clark State College has implemented *Tenable Security Center Continuous View*, a product that addresses CIS controls 1-5.
- Lewis-Clark State College's administration has committed the college to purchase suitable hardware and implement appropriate processes that combine to minimize cyber-related risks revealed by the college's self-assessment. Currently under review is f5's Big-IP.

Implementation of the Employee Cybersecurity Training

Governor Otter's Executive Order 2017-02 calls for "*All executive branch agencies to require that all state employees complete the state's annual cybersecurity training commensurate with their highest level of information access and core work responsibilities*."

- In 2018, Idaho's Department of Human Resources distributed training software for use by all employees in Idaho.
- Lewis-Clark State College's Department of Human Resource Services has used DHR's software licensing to create a mandatory training requirement for all college employees, to be completed by March 30, 2018.

Implementation of the Specialized Cybersecurity Training

Governor Otter's Executive Order 2017-02 calls for "*The State Division of Human Resources, in conjunction with all executive branch agencies, to compile and review cybersecurity curriculum for mandatory education and training of state employees, and to determine appropriate levels of training for various classifications of state employees."*

In December 2017, LCSC's Associate Director charged with cybersecurity completed SANS SEC566 "Implementing and Auditing the Critical Security Controls."

Appendix 1

	State Board of Education Goals			
	Goal 1: A WELL EDUCATED CITIZENRY	*Goal 2: INNOVATION AND ECONOMIC DEVELOPMENT*	*Goal 3: DATA-INFORMED DECISION MAKING*	*Goal 4: EFFECTIVE AND EFFICIENT EDUCATIONAL SYSTEM*
Institution/Agency Goals and Objectives				
GOAL 1: SUSTAIN AND ENHANCE EXCELLENCE IN TEACHING AND LEARNING				
Objective A: Strengthen courses, programs, and curricula consonant with the mission and core themes of the institution.	✓	✓	✓	✓
Objective B: Optimize technology-based course delivery, resources, and support services for students, faculty, and staff.	✓	✓		✓
Objective C: Optimize technology-based course delivery, resources, and support services for student, faculty, and staff	✓	✓		✓
Objective D: Maximize direct faculty and student interactions inside and outside the classroom.	✓			✓
Objective E: Recruit and retain a highly qualified and diverse faculty and staff.	✓	✓		✓
Objective F: Provide a safe, healthy, and positive environment for teaching and learning.	✓	✓		✓
GOAL 2: OPTIMIZE STUDENT ENROLLMENT AND PROMOTE STUDENT SUCCESS				
Objective A: Marketing efforts will focus on clearly identified populations of prospective students	✓	✓	✓	✓

Objective B: Retain and graduate a diverse student body.	✓	✓	✓	✓
Objective C: Maximize student satisfaction and engagement.	✓	✓	✓	✓
GOAL 3: STRENGTHEN AND EXPAND COLLABORATIVE RELATIONSHIPS AND PARTNERSHIPS				
Objective A: Increase volunteer, internship, and career placement opportunities	✓		✓	✓
Objective B: Collaborate with relevant businesses, industries, agencies, practitioners, and organizations for the beneficial exchange of knowledge and resources.	✓	✓		✓
Objective C: Increase cooperation and engagement of alumni for the advancement of the college.		✓	✓	✓
Objective D: Advance the college with community members, business leaders, political leaders, and current and future donors.		✓		✓
GOAL 4: LEVERAGE RESOURCES TO MAXIMIZE INSTITUTIONAL STRENGTH AND EFFICIENCY				
Objective A: Allocate and reallocate funds to support priorities and program areas that are significant in meeting the role and mission of the institution.	✓	✓	✓	✓
Objective B: Assess and modify organizational structure and institutional processes to ensure the most effective use of resources.		✓	✓	✓

Objective C: Continuously improve campus buildings, grounds, and infrastructure to maximize environmental sustainability and learning opportunities.	✓	✓	✓	✓
Objective D: Create a timetable for the sustainable acquisition and replacement of instruments, machinery, equipment, and technologies and ensure required infrastructure is in place.	✓	✓	✓	✓
Objective E: Identify and secure public and private funding to support strategic plan priorities.		✓	✓	✓

ATTACHMENT 4

Appendix 2: Proposed Institutional Measures for Strategic Plan 2019-2023

2019-2023 Strategic Plan Draft

Context: In light of the college's updated mission and core themes, a complete review of the goals and objectives has been underway. A representative committee is developing new strategies, objectives, and corresponding performance measures to guide the work of the college. These proposed performance measures are outlined below, and if adopted, will be used alongside of the state-wide performance measures in the 2019-2023 Strategic Plan.

Goal 1: Strengthen and expand instructional and co-curricular programming

Objective 1.A: Expand course, program and delivery options

Performance Measure (PM) 1.A.1 Number of fully online, hybrid delivery, and evening/weekend programs

Objective 1.B: Ensure high quality program outcomes

PM 1.B.1 Licensing/ Certification pass rates
PM 1.B.2 Research Symposium participation

Objective 1.C: Expand co-curricular programming

PM 1.C.1 Student participation in internships and apprenticeships
PM 1.C.2 Student participation in activities that build a co-curricular transcript

Goal 2: **Increase student enrollment, retention and completion**

Objective 2.A: Increase the college's student FTE.

PM 2.A.1 Direct from high school enrollment

Objective 2.B: Increase the number of non-traditional, adult learners enrolled in degree programs.

PM 2.B.1 Adult learners (age 24 years or older)
PM 2.B.2 Online Headcount (one or more online classes)
PM 2.B.3 Direct transfer students
PM 2.B.4 Degree-seeking nonresident students

Goal 2: **Increase student enrollment, retention and completion (cont.)**

Objective 2.C: Increase credential output

PM 2.C.1 Certificates and Degrees
PM 2.C.2 Workforce Training Enrollment
PM 2.C.3 Workforce Training Completion
PM 2.C.4 Overall Retention Rate

Goal 3: Foster inclusion throughout campus culture and processes

Objective 3.A: Expand inclusive practices programming for faculty, staff and students.

PM3.A.1 Number of faculty and staff participating in inclusive practices programming each year.

Objective 3.B: Develop community and other partnerships to enhance student learning and enrich the region.

PM 3.B.1 Number of Work Scholar/internship sites (exclude required internships for programs)
PM 3.B.2 Number of participants in community enrichment activities

Goal 4: Increase and leverage institutional resources to achieve enrollment, employee retention and campus planning objectives.

Objective 4.A: Diversify revenue streams to allow for investment in campus programs and infrastructure.

PM 4.A.1 Develop new ongoing revenue streams

Objective 4.B: Bring the average employee’s compensation to 80% of policy

PM 4.B.1 Bring 8% of employees to 80% of policy each year.

Objective 4.C: Increase grant funding

PM 4.C.1 Federal, state, local and private grant funding

College of Eastern Idaho

Strategic Plan 2019-2023

March 16. 2018

FY 2018-2022

Strategic Plan

MISSION STATEMENT
To provide open-access to affordable, quality education that meets the needs of students, regional employers and community.

VISION STATEMENT
Our vision is to be a superior community college. We value a dynamic environment as a foundation for building our College into a nationally recognized community college role model. We are committed to educating all students through progressive and proven educational philosophies. We will continue to provide high quality education and state-of-the-art facilities and equipment for our students. We seek to achieve a comprehensive curriculum that prepares our students for entering the workforce, articulation to advance their degree and full participation in society. We acknowledge the nature of change, the need for growth, and the potential of all challenges.

State Metrics:

Timely Degree Completion

I. Percent of undergraduate, degree-seeking students completing 30 or more credits per academic year at the institution reporting

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Percentage	7	6	8	N/A	>10

II. Percent of first-time, full-time, freshmen graduating within 150% of time

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Grad Rate %150 IPEDS	57	56	63	59	>65

III. Total number of certificates/degrees produced, broken out by:
   a) Certificates of at least one academic year
   b) Associate degrees

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Certificates	135	120	120	109	>120
Associate Degrees	103	97	118	121	>130

IV. Number of unduplicated graduates, broken out by:
   a) Certificates of at least one academic year

b) Associate degrees

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Completers of Certificates	135	120	120	109	>120
Completers of Degrees	104	97	117	121	>130

Reform Remediation

V. Percent of undergraduate, degree-seeking students taking a remediation course completing a subsequent credit bearing course (in the area identified as needing remediation) within a year with a "C" or higher

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Students	111	117	148	134	>145

Math Pathways

VI. Percent of new degree-seeking freshmen completing a gateway math course within two years

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Students	84	86	101	112	>120

Structured Schedules

VII. Number of programs offering structured schedules.

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Percentage	100%	100%	100%	100%	100%

Guided Pathways

VIII. Percent of first-time, full-time freshmen graduating within 100% of time

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
FTFT Completers 100%	37%	40%	30%	37%	>40%

N/A - Has been used to indicate areas were reports or data have not finalized collection for the year in question or that is otherwise unavailable at the time this report was produced.

GOAL 1: A Well Educated Citizenry

The College of Eastern Idaho will provide excellent educational opportunities to enter the workforce or to continue their education with articulation agreements with universities.

Objective A: Access

Performance Measures:

I. Annual number of students who have state funded or foundation funded scholarship:

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
State Funded	6	2	4	15	>15
Foundation Funded	390	266	296	227	>350

II. Percentage of high school students who enroll in CEI programs during the first year after graduation:

FY	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Percentage of Annual Enrollment who entered CEI within 1 year of High School	13%	16%	18%	27%	>25%

III. Total degree and certificate production and headcount:

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Degrees/Certificates	232	240	217	239	228	>260
Completers	231	239	216	237	226	>245

Objective B: Adult Learner Re-Integration
Performance Measures:

I. Number of students enrolled in GED who are Idaho residents
II. Number of students who complete their GED
III. Number of students who go on to post-secondary education

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Enrolled	381	323	273	242	N/A	>300
Completed	50	43	21	18	N/A	>30
Went On	168	55	77	141	N/A	>200

**numbers are progressive and subject to change as time passes and more students enroll in other schools.*
**Currently CEI does not have data for this goal. CEI is collecting data and will report on it beginning in fall of 2018*
N/A - Has been used to indicate areas were reports or data have not finalized collection for the year in question or that is otherwise unavailable at the time this report was produced.

GOAL 2: Innovation and Economic Development

Objective A: Workforce Readiness
Performance Measures:

I. Number of graduates who found employment in their area of training
II. Number of graduates who are continuing their education
III. Number of graduates who found employment in related fields

Grad by FY	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
I. Employed In training area	212	177	195	N/A	>225
II. Continuing education	24	24	35	N/A	>50
III. Employed in related field	170	136	141	N/A	>175

IV. Percentage of students who pass the TSA for certification:

Percentage By FY	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
TSA Pass Percentage	91%	96%	89%	92.6%	96%

**numbers are progressive and subject to change as time passes and more students enroll in other schools.*
**Currently CEI does not have data for this goal. CEI is collecting data and will report on it beginning in fall of 2018*
N/A - Has been used to indicate areas were reports or data have not finalized collection for the year in question or that is otherwise unavailable at the time this report was produced.

GOAL 3: Data-Informed Decision Making

Objective A: Number of industry recommendations incorporated into career technical curriculum.
Performance measures:

I. Number of workforce training courses created to meet industry needs:

	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
WFT Courses	514	519	478	650	>625
Misc. Community Events	762	1000	894	2319	>2400

GOAL 4: Effective and Efficient Educational System

Objective A: High school senior who choose CEI as their first choice to higher education.
Performance Measures:

I. Total fall enrollment students that are retained or graduate in the following fall:

FA	FA 2013	FA 2014	FA 2015	FY 2017	Benchmark
Grad or still enrolled	463	430	440	463	>480

II. Number of high school students who took a remediation for Math or English:

FY	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Number of Students entering within one year of HS and ever taking a remedial course	63	57	55	65	<40

III. Cost per credit hour –Financials as per IPEDS divided by total annual undergraduate credit hours:

FY	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Cost per Credit Hour	$ 599	$ 671	$ 663	$ 710	$ 790	$ <700

IV. Number of students who successfully articulate another institution to further their education:

*FY	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Number Continuing On	201	148	84	55	>200

**numbers are progressive and subject to change as time passes and more students enroll in other schools.*
**Currently CEI does not have data for this goal. CEI is collecting data and will report on it beginning in fall of 2018*
N/A - Has been used to indicate areas were reports or data have not finalized collection for the year in question or that is otherwise unavailable at the time this report was produced.

GOAL 5: Student Centered

Objective A: CEI faculty provides effective and student centered instruction.
Performance Measures:

I. Utilization of annual Student Satisfaction Survey results for Student Centeredness. Gap per Noel Levitz Annual Survey:

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
CEI	0.39	0.6	0.33	0.59	N/A	<0.25
PEERS	0.61	0.63	0.6	0.67	N/A	N/A

II. Fall to Fall Retention - IPEDS Fall Enrollment Report:

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
FTFT Fall-to-Fall Retention	62%	64%	68%	69%	54%	>74%

III. Utilization of results of Student Satisfaction Survey results for Financial Aid Services. Gap per Noel Levitz Annual Survey:

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
CEI	0.78	0.74	0.65	0.68	N/A	>0.78
PEERS	1.06	1.04	1.01	0.75	N/A	N/A

IV. Utilization of results of Student Satisfaction Survey results for Financial Aid and the Admission Process (New Student Survey):

	FY 2016	FY 2017	Benchmark
Financial Aid	94%	N/A	98%
Admissions	83%	N/A	98%

Objective B: Tutoring Center provides services to support education success.
Performance Measures:

I. Tutoring contact hours to support student needs:

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Hours	6	5	4	5.76	8.5	>6

Objective C: CEI library services meets the expectation of students.
Performance Measures:

I. Library services meet the expectations of students. Gap per Noel Levitz Annual Survey:

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
CEI	0.6	0.83	0.38	0.19	N/A	>.15
PEERS	0.49	0.44	0.49	0.22	N/A	N/A

Objective D: Increase the reach of the Center for New Directions (CND) to individuals seeking to make positive life changes.

Performance Measures:

I. Number of applicants/students receiving CND services:

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	Benchmark
Clients Served	518	411	258	273	266	>300

GOAL 6: Cyber Awareness*

**Currently CEI does not have data for this goal. CEI is collecting data and will report on it beginning in fall of 2018*
N/A - Has been used to indicate areas were reports or data have not finalized collection for the year in question or that is otherwise unavailable at the time this report was produced.

Objective A: Regular Training

I. CEI will establish a policy to provide regular training to all faculty and staff on best practices for cybersecurity protection using the DHR's recommendation and requirements.
II. Annual number of trained faculty and staff.
III. Benchmark to be 100% in 1 year.

Objective B: Specific Training for Super Users

I. CEI will identify and track employees with elevated privileges and ensure that training meets their elevated status as a user and provide advanced training.
II. Annual number of advanced users will be identified and trained.
III. Benchmark to be 100% in 1 year.

Objective C: Monthly Awareness Emails

I. CEI will send out monthly Emails to inform employees on new cyber threats and hacking strategies. This will also include "best practices" for computer users.
II. Benchmark to be monthly record of sent email.

Objective D: Policy Statement to be Signed by all Employees

I. CEI will compose a policy for computer use on and off campus that relate to CEI activities and concerns. Employees will receive a copy of the policy each year when they sign their contracts.
II. Benchmark to be 100% for all employees.

Key External Factors

Funding:

Many of our strategic goals and objectives assume on-going and sometimes significant additional levels of State legislative appropriations. Recent funding for Career Technical Education has allowed CEI to respond to industry needs in a timely and efficient manner. The enrollment and graduation rates in many of the Career Technical Programs have limited seats available to students with waiting lists. The recent State funding has allowed us to hire new instructors and reduce many of the waiting lists. CEI was funded as a community college which allows us to offer the Associates of Arts and the Associates of Science Degrees for the first time in fall 2018. We are projecting growing enrollment over the next few years due to this funding. We are actively engaged in the "go on" rate in Idaho and working with the local high schools to recruit students.

CEI initiatives for FY 2019-2024

Initiative 1

CEI is working with local universities to build pathways for students with AA and AS Degrees to complete a Bachelor Degree without loss of credit or time. Currently we have seven pathways to the University of Idaho and ten pathways to Idaho State University. We are also creating 2 plus 2 agreements that have been approved by the Deans of each institution. Currently we have five 2 plus 2 agreements with both the University of Idaho and Idaho State University. This initiative will be active for several years as we build connections to help students go on to complete a Bachelor Degree, reduce surplus courses and save financial dollars.

Initiative 2

CEI will continue to reach out to all of the high schools in Region VI to offer Dual Credit. A website has been built and documents are available to introduce students, parents and educators to what CEI will offer as Dual Credit and concurrent credit.

Initiative 3

CEI Workforce Training will be expanding partnerships to provide "just in time" training to industry in Region VI. This is always an on-going activity, but there are new plans and opportunities available as we grow as a new community college.

COLLEGE OF SOUTHERN IDAHO

2018-2022 STRATEGIC PLAN

MISSION STATEMENT

To provide quality educational, social, cultural, economic, and workforce development opportunities that meet the diverse needs of the communities we serve.

VISION STATEMENT

To improve the quality of life of those impacted by our services.

DEFINITIONS OF MISSION TERMS

"Provide quality…opportunities that meet…the diverse needs": This phrase is operationally defined within the document. Demonstration of mission fulfillment is based upon our ability to meet the performance indicators and benchmarks established in this document. These have been created to establish standards of quality that can be regularly assessed to ensure that we are providing quality opportunities that meet the diverse needs of the communities we serve.

"Educational": Relating to activities typically encompassed by teaching and learning.

"Social": Relating to the welfare of human beings as members of society.

"Cultural": Relating to the customs, traditions, and values of a society.

"Economic": Relating to economic development and economic welfare.

"Workforce Development": Relating to the training of a qualified workforce.

"Communities we serve": The communities we serve include the diverse populations of students, employees, and community members impacted by the college. These communities can be organized in many different ways. They include those living in our eight county service area as well as those who interact with the college from afar. They can also be organized by any number of demographic characteristics which transcend geographical boundaries.

DEFINITIONS OF PLAN TERMS

Goal/Core Themes: Individually, core themes manifest the essential elements of our mission and collectively they encompass the mission. They represent the broad themes that guide planning processes designed to lead to mission fulfillment.

Objectives: Planning goals contained within each core theme that collectively lead to fulfillment of the core theme.

Performance Measures: Quantitative or qualitative indicator used to measure progress in meeting strategies, objectives, core themes, and ultimately, mission fulfillment.

Critical Success Activity: A specific action item that must be completed in order to reach fulfillment of a strategy, objective, or core theme.

Benchmarks: Targets established by the college in an effort to assess achievement, track progress over time, and set goals for improvement.

GOAL/CORE THEME 1: COMMUNITY SUCCESS

As a community college, we are committed to responding to the diverse needs of the communities we serve and to taking a leadership role in improving the quality of life of the members of those communities.

Objective A: Strengthen the communities we serve

Performance Measure:

I. **The College of Southern Idaho's mission fosters interaction between the College and the people of the diverse communities it serves both geographically and demographically. The College measures performance of this important mission component by emphasizing human connectivity and cultural awareness through support of such activities as the Herrett Forum Lecture Series, Arts on Tour, and the Magic Valley Refugee Day, among many others. Additionally, CSI offers public events such as intercollegiate athletics, community education, and various camps and artistic performances in order to encourage learning and community interaction as well as for sheer entertainment. Finally, the College strengthens the community through its support of Head Start, the Office on Aging, and the Refugee Center, among other ancillary agencies. The College further strengthens the community with a commitment to sustainability and civility.**

Benchmark: Because of the breadth and diversity of this objective, it is continually assessed at the program level as an observable objective rather than a quantifiably measurable objective. [1]

Objective B: Cultivate economic partnerships across the communities we serve

Performance Measure:

I. **The College of Southern Idaho's mission promotes active participation in the economic development of the communities we serve. CSI measures performance in fulfilling this mission component through continued membership and active participation in such organizations as the Southern Idaho Economic Development Council (SIEDO), Jerome 20/20, Business Plus, Region IV Development (RIVDA), and Sun Valley Economic Development (SVED), among others. CSI also maintains active participation as a member of various chambers of commerce throughout the region along with other economic development agencies. While the College is never the sole reason that new companies move to the area, or that existing companies thrive, we strive to be a major contributor to both of these outcomes.**

Benchmark: Because of the breadth and diversity of this objective, it is continually assessed at the specific program level as an observable objective rather than a quantifiably measurable objective. [1]

Objective C: Meet the workforce needs of the communities we serve

Performance Measures:

I. **Total Unduplicated Headcount of Workforce Training Completers and Total Course Completions (Sources: State Workforce Training Report and Internal Reporting)**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NA Headcount 3,137 Completions	1,618 Headcount 4,319 Completions	1,852 Headcount 9,478 Completions	1,972 Headcount 5,761 Completions	Meet the workforce training needs of our area as determined by industry

Benchmark: Meet the workforce training needs of our area as determined by industry [2] **(by 2019)**

II. **Unduplicated headcount of graduates over rolling 3-year average of CTE Full Time Equivalency (FTE) (Source: IPEDS Completions and Internal Reporting)**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NA	51% (422/834)	54% (413/759)	51% (370/723)	55%

Benchmark: 55% [3] **(by 2019)**

III. **Placement of Career Technical Education Completers (Source: Idaho CTE Follow-Up Report)**

FY13 (2014-2015)	**FY14** (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**Benchmark**
86.1%	93.4%	97.2%	92.6%	92.3%

Benchmark: Maintain placement at or above the average for the previous four years (92.3%) [4] **(by 2019)**

GOAL/CORE THEME 2: STUDENT SUCCESS

As an institution of higher education, we exist to meet the diverse educational needs of the communities we serve. Above all institutional priorities is the desire for every student to experience success in the pursuit of a quality education.

Objective A: Foster participation in post-secondary education

Performance Measures:

I. Annual Institutional Unduplicated Headcount (Source: PSR 1 Annual Enrollment Report)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
11,747	10,686	10,912	12,091	2% increase

Benchmark: 2% increase [5] (by 2019)

II. Annual Institutional Full Time Equivalency (FTE) Enrollment (Source: PSR 1 Annual Enrollment Report)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
4,468.17	4,153.70	3,956.55	3942.67	Reverse trend of post-recession declining enrollment

Benchmark: Reverse trend of post-recession declining enrollment [6] (by 2019)

III. Dual Credit Enrollment by Credit and Headcount (Source: State Board of Education Dual Credit Report)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
12,171 credits 2,486 headcount	16,331 credits 3,178 headcount	18,155 credits 3,942 headcount	25,680 credits 5,353 headcount	TBD

Benchmark: TBD [7] (by 2019)

IV. Tuition and Fees (Source: College of Southern Idaho)

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
$115 (-12.3%)	$120 (-10.2%)	$130 (-4.8%)	$130 (-4.5%)	Maintain tuition at +/- 5% of average of other Idaho community colleges

Benchmark: Maintain tuition at +/- 5% of average of other Idaho community colleges [8] (by FY2019)

V. Hispanic/Latino Enrollment (Source: College of Southern Idaho)

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
NA	21.37%	21.31%	22.87%	25%

Benchmark: 25% [9] (by FY2020)

Objective B: Reinforce a commitment to instructional excellence

Performance Measures:

I. Student Satisfaction Rate with Overall Educational Experience (Source: Community College Survey of Student Engagement)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
90%	87%	90%	90%	90%

Benchmark: 90% [10] (by FY2019)

Critical Success Activity:

- Fully develop a 3-5 year comprehensive faculty and instructional improvement and professional development plan:
  - Develop qualification protocol for online instruction and pilot implementation
  - Develop and expand the Effective Teaching Academy
- Continue implementation of adjunct and dual credit professional development program

Objective C: Support student progress toward achievement of educational goals

Performance Measures:

I. Percentage of first-time, full-time, degree seeking students retained or graduated the following year (excluding death or permanent disability, military, foreign aid service, and mission) (Source: IPEDS)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
56% (574/1,020) Fall 2012 Cohort	56% (441/783) Fall 2013 Cohort	57% (382/672) Fall 2014 Cohort	60% (366/606) Fall 2015 Cohort	61%

Benchmark: 61% [11] (by FY2019)

II. Percentage of students retained from fall to spring (Source: Voluntary Framework of Accountability)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
70.1% (1,524/2,175) Fall 2011 Cohort	66.7% (1,093/1,638) Fall 2012 Cohort	71.6% (1,184/1,653) Fall 2013 Cohort	71.6% (1,123/1,569) Fall 2014 Cohort	73%

Benchmark: 73% [12] (by FY2019)

III. Number of degrees/certificates produced annually (Source: IPEDS Completions) *New Statewide Performance Measure*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
198 Certificates 880 Degrees	179 Certificates 845 Degrees	192 Certificates 919 Degrees	151 Certificates 817 Degrees	NA

Benchmark: NA [13]

IV. Unduplicated headcount of graduates over rolling 3-year average of degree seeking FTE (Source: IPEDS Completions and PSR 1 Annual Degree Seeking FTE)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
22.9% (963/4,211)	25.1% (970/3,860)	30.0% (1,035/3,454)	29.9% (951/3,184)	31%

Benchmark: 31% [14] (by FY2019)

V. Percentage of degree seeking students taking a remedial course who complete a subsequent credit bearing course with a C or higher within one year of remedial enrollment (Source: College of Southern Idaho) *New Statewide Performance Measure*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
35%	38%	53%	54%	TBD

Benchmark: TBD [15] (by FY2019)

VI. Percentage of first time degree seeking students completing a gateway math course within two years of enrollment (Source: College of Southern Idaho) *New Statewide Performance Measure*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
28%	29%	32%	34%	TBD

Benchmark: TBD [16] (by FY2019)

VII. Percentage of students completing 30 or more credits per academic year (Source: College of Southern Idaho) *New Statewide Performance Measure*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
7.0%	7.3%	7.4%	7.1%	10%

Benchmark: 10% [17] (by FY2021)

VIII. Percentage of students who successfully reached semester credit hours of 24 credits for part-time and 42 credits for full-time by the end of the second academic year (Source: Voluntary Framework of Accountability)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
46.3% 646/1394 (Fall 2011 Cohort)	33.5% 324/968 (Fall 2012 Cohort)	58.3% 813/1395 (Fall 2013 Cohort)	59.5% 609/1023 (Fall 2014 Cohort)	61%

Benchmark: 61% [18] (by FY2019)

IX. Percentage of first-time, full-time degree/certificate seeking students who graduate within 150% of time (Source: IPEDS) *New Statewide Performance Measure*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**

XIV. Would you recommend this college to a friend or family member? (Source: Community College Survey of Student Engagement)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
97%	97%	98%	97%	97%

Benchmark: 97% [24] (by FY2019)

Objective D: Provide evidence of achievement of student learning outcomes

Performance Measures:

I. **Critical Success Activity: Finalize assessment of General Education program student learning outcomes; gather and interpret data**
Critical Success Activity: Initial implementation of General Education Program Student Learning Outcomes Plan with 100% participation
Benchmark: 100% compliance [25] (FY2019)

II. **Critical Success Activity: Finalize program level student learning outcome assessment for all programs; gather and interpret data**
Critical Success Activity: Initial implementation of Program Level Student Learning Outcomes Plan with 100% participation
Benchmark: 100% compliance [26] (FY2019)

Objective E: Offer opportunities for student engagement that go beyond the classroom

Performance Measures:

I. **Participation in college-sponsored activities (organizations, campus publications, student government, intercollegiate or intramural sports, etc.) (Source: Community College Survey of Student Engagement)**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
25%	23%	29%	27%	30%

Benchmark: 30% [27] (by FY2019)

GOAL/CORE THEME 3: INSTITUTIONAL STABILITY

Sustainable community and student success can only come from a solid institutional foundation. The stability of our institution is dependent upon ensuring that we have adequate capacity and resources to ensure the effectiveness of our operations.

Objective A: Provide employees with a work environment that values employee success and satisfaction

Performance Measures:

I. **Chronicle of Higher Education Great Colleges to Work For Survey**

Benchmark: TBD [28] (To be established in 2019)

Objective B: Ensure that the college maintains the financial resources necessary to meet its mission

Performance Measures:

I. **Undergraduate Cost Per Credit: IPEDS instruction, academic support, student services, institutional support, and other expenses and deductions, divided by annual weighted credit hours (Sources: Cost: IPEDS Finance Survey, Part C; Credits: Weighted PSR 1.5 [including non-resident] plus CTE credits weighted at 1.0)**

FY13 (2012-2013)	**FY14** (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**Benchmark**
NA	$ 277.30 ($50,266,494/ 181,270)	$262.36 ($44,004,146/ 167,724)	$306.37 ($48,285,971/ 157,609)	Less than $300

Benchmark: Less than $300 [29] (by FY2019)

II. **Unduplicated headcount of all undergraduate degrees and certificates divided by $100,000 of spending in IPEDS categories of instruction, academic support, student services, institutional support, and other expenses and deductions. (Source: IPEDS Completions of any degree or certificate; IPEDS Finance Survey, Part C)**

FY13 (2012-2013)	**FY14** (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**Benchmark**
NA	1.916 (963/$502.66)	2.204 (970/$440.04)	2.143 (1,035/$482.86)	2.3

Benchmark: 2.3 [30] (by FY2019)

III. Institutional reserves equal to three months of general fund budget. (Source: College of Southern Idaho)

FY13 (2013-2014)	**FY14** (2014-2015)	**FY15** (2015-2016)	**FY16** (2016-2017)	**Benchmark**
23.6%	**17.2%**	**22.5%**	**27.3%**	**25%**

Benchmark: 25% 31 (by FY2019)

Objective C: Maintain a strong relationship with the CSI Foundation

Performance Measures:

I. Total Dollar Amount Awarded to Students by the CSI Foundation

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
$1.76 million	**$1.78 million**	**$1.76 million**	**$1.69 million**	**$1.74 million**

Benchmark: $1.74 million (a 3% increase over the previous year) 32 (by FY2019)

Objective D: Enhance infrastructure resources to ensure the college is safe, sustainable, and inviting to all of the members of our communities

Performance Measures: This measure is under development

I. Potential measures tied to: Maintenance, Clery Report, IT service/availability, Cybersecurity

Benchmark: TBD 33 (To be established in 2019)

KEY EXTERNAL FACTORS:

There are numerous external factors that could impact the execution of the College of Southern Idaho's Strategic Plan. These include, but are not limited to:

- Changes in the unemployment rate which has been show to significantly impact enrollment;
- Changes in local, state, and/or federal funding levels;
- Changes to regional accreditation requirements;
- Circumstances of and strategies employed by our partners (e.g. K-12, higher education institutions, local industry);
- Legal and regulatory changes.

EVALUATION PROCESS:
The College of Southern Idaho Strategic Plan is evaluated annually by its locally elected Board of Trustees. Benchmarks are established and evaluated throughout the year by the College's Strategic Planning Steering Committee and by College administration. The College reports on achievement of benchmarks annually to the College of Southern Idaho Board of Trustees and to the Idaho State Board of Education.

---

[1] The college has chosen to classify this as an observable benchmark rather than a measurable bench mark. Our performance in strengthening our community and supporting economic development is tied to the College's support and involvement in numerous events, activities, projects, and agencies throughout our service region. These are constantly evaluated through interaction with our constituents at the individual program level. These self-assessments and evaluations provide information used for on-going improvement through our annual strategic planning review and revision cycle. Rather than setting a quantitative benchmark for this performance measure, the College chooses to assess fulfillment of this objective through these program level observations.

[2] The college has chosen to classify this as an observable benchmark rather than a measurable benchmark. Workforce enrollment fluctuates significantly based upon economic conditions outside of the College's control. Annually, CSI expects to meet all workforce training request made by industry partners. Further, the College is continually seeking new avenues for workforce training that will benefit the communities we serve. Rather than setting a quantitative benchmark for this performance measure, the College chooses to assess fulfillment of this objective through these program level observations.

[3] CSI Career Technical Education (CTE) students are enrolled in short-term and 1-Year Certificate Programs along with 2-Year Associate of Applied Science Programs. Given that it takes two years to graduate with an Associate of Applied Science Degree and one year to graduate with most Technical Certificates, we would expect 55% of our CTE students to complete each academic year.

[4] This benchmark has been established based upon an average of the past four years of placement. While the current benchmark is below the most recent annual placement level, external forces (e.g. unemployment rate) can significantly impact achievement of this benchmark.

[5] Matching the FY 2016 2% increase would put enrollment on a positive trend after several years of declines.

[6] As has been the case with college enrollment across the nation, CSI FTE has been declining. Rather than setting a benchmark for growth, the College's current goal is to reverse this trend of declining FTE. Once that goal has been achieved, a growth benchmark will be established.

[7] The college is working to establish a benchmark for dual credit enrollment that accounts for instructional capacity, regional capacity, and quality assurance. This metric is current under development.

[8]This benchmark has been established to ensure that tuition aligns with peer institutions in the state and remains affordable for students.

[9]This benchmark reflects the estimated Hispanic/Latino population in the College's eight county service area. The enrollment calculation is based upon the US Department of Education's IPEDS enrollment calculation for Hispanic Serving Institution Designation. (The sum of the number of students enrolled full-time at an institution, plus the full-time equivalent of the number of students enrolled part time [determined on the basis of the quotient of the sum of the credit hours of all part-time students divided by 12] at the institution.)

[10]Ninety percent is a reasonable target considering that comparison schools have averaged 85% during this same time period. Students are asked, "How would you evaluate your entire educational experience at this college?" (Percentage reflects those marking "Good" or "Excellent")

Source Note: The *Community College Survey of Student Engagement* (CCSSE) is an annual survey administered to community college students across the nation by the Center for Community College Student Engagement. CSI participates in the survey annually during the spring semester. In this metric, "comparison schools" consist of all other schools participating in the CCSSE during that term. Approximately 300 schools participated in the CCSSE during the current assessment period.

[11] The 61% benchmark for first-time, full-time students has been set as a stretch benchmark in light of several college initiatives focused on retaining students, and in recognition of Goal 2, Objective A of the Idaho State Board of Education Strategic Plan.

[12] The 73% benchmark for first-time in college students has been set as a stretch benchmark in light of several college initiatives focused on retaining students, and in recognition of Goal 2, Objective A of the Idaho State Board of Education Strategic Plan. To add additional context to this measure, the College of Western Idaho earned a 67.3% on this metric while North Idaho College earned a 76.1% during the assessment period.

[13] Because degree completion is directly tied to enrollment, the college has not chosen to set a benchmark for this metric. Metric 2.C.IV (see footnote #14) examines completion in relation to enrollment and is benchmarked.

[14] The 31% benchmark has been established as a stretch benchmark in light of several initiatives the college has undertaken to increase graduation rates and in alignment with Goal 1, Objective C of the Idaho State Board of Education Strategic Plan.

[15]The College is working to move students initially placed into remediation into successful college level coursework as quickly as possible. Because this is a new State of Idaho metric and due to significant changes in remediation at the college over the past few years, insufficient data exist to set a benchmark at this time.

[16]In recognition of data showing that math can be a significant barrier to student success, the college is working to get students through their college gateway math class as soon as possible in their college experience. Because this is a new State of Idaho metric and due to significant changes in remediation at the college over the past few years, insufficient data exist to set a benchmark at this time.

[17]In recognition of data showing that students who complete 30 or more credits per year have more long term success in college than students who do not, the college is working to encourage students to enroll in 30 or more credits per year. The college is implementing policies that it hopes will move this population to 10% by FY2021.

[18] The 61% benchmark has been established as a stretch benchmark in light of several initiatives the college has undertaken to increase graduation rates and in alignment with Goal 2, Objective B of the Idaho State Board of Education Strategic Plan.

[19] The 22% benchmark has been established in light of the recent positive trend in this area, several initiatives the college has undertaken to increase graduation rates, and in alignment with Goal 2, Objective B of the Idaho State Board of Education Strategic Plan.

[20]While the IPEDS 100% of time to completion metric is unrealistic for community colleges given the enrollment patters of our students, the College has set a benchmark to improve this percentage to 11%. The college also measures and benchmarks completion based metric 2.C.XI (see footnote 21) which is tied to the VFA Six Year Completion rate.

[21] The current target is a stretch benchmark. It should be noted that this measure is based on a six-year cohort. Therefore, progress on college initiatives targeted at completion may take longer to appear in this metric.

[22]100% of college programs offer structure schedules. This is a State of Idaho metric and the college benchmark will be 100% compliance.

[23]The College is working to reduce the number of credits earned at graduation by students who began their college career at CSI and are 23 or younger to 70 or fewer. Student over 23 are often returning to school after earning credits at an earlier point in time. Those past credits often inflate the final total of credits at graduation.

[24] CSI has consistently received scores averaging 97% on this metric. The college seeks to maintain this high level of satisfaction from year to year. Cohort colleges scored 94% on this metric in the most current assessment year. Students are asked, "Would you recommend this college to a friend or family member?" (Percentage reflects those marking "Yes.")

[25] The college is in the pilot phase of a new program of General Education Student Learning Outcomes Assessment. As this pilot moves into full production, benchmarks will be established in future years. At present, the crucial success activity for FY19 is to have 100% of the general education program compliant with participation.

[26] The college is in the pilot phase of a new program of General Education Student Learning Outcome Assessment. As this pilot moves into full production, benchmarks will be established in future years. At present, the crucial success activity for FY19 is to have 100% of programs compliant with participation.

[27]Students are asked about time spent, "participating in college-sponsored activities (organizations, campus publications, student government, intermural sports, etc." This benchmark reflects the College's work to increase participation in these areas. Cohort colleges scored 20% on this metric in the most current assessment year.

[28]CSI will participate in the Chronicle of Higher Education's *Great Colleges to Work For* survey in the spring of 2018. Data from this survey will be used to assess and set future benchmarks for this objective.

[29] This benchmark was aligned with Goal 4, Objective C in the 2018-2023 Idaho State Board of Education Strategic Plan and is currently well below the State Board target of $320 per undergraduate weighted student credit hour. Note: This metric has undergone several revisions over the past few years. Additionally, CSI has altered its reporting methodology for IPEDS financials. These factors have eliminated the ability to provide comparative data for 2012-2013 and have led to revised figures for other years compared to previous reports. (Methodology: Use weighted credit hours from PSR 1.5 for an academic year (ex. 2015-2016 [available August of end year]) and financials from the same fiscal year [available April of following year]).

[30] This benchmark was aligned with Goal 4, Objective C in the 2018-2023 Idaho State Board of Education Strategic Plan and is currently well above the State Board target of 1.7 graduates per $100,000. Note: This metric has undergone several revisions over the past few years. Additionally, CSI has altered its reporting methodology for IPEDS financials. These factors have eliminated the ability to provide comparative data for 2012-2013 and have led to revised figures for other years compared to previous reports.

[31] The college ensures that it maintains a 3 month (25% annual) reserve to ensure a stable fiscal environment. This meets generally accepted business practices. While the college has been above 25% for the past four years, exact figures are still being calculated as this is a new measure.

[32] This benchmark recognizes a growth target for total scholarship dollars awarded for each year. The current goal is a 3% annual increase and is established by the College of Southern Idaho Foundation.

[33] This measure is under development as is set to be established by FY19.

Alignment with Idaho State Board of Education 2019-2024 Strategic Plan	State Board of Education Goals		
	Goal 1: EDUCATIONAL SYSTEM ALIGNMENT	*Goal 2: EDUCATIONAL ATTAINMENT*	*Goal 3: WORKFORCE READINESS*
College of Southern Idaho Goals and Objectives			
GOAL 1: Community Success			
Objective A: Strengthen the communities we serve			✓
Objective B: Cultivate economic partnerships across the communities we serve			✓
Objective C: Meet the workforce needs of the communities we serve			✓
GOAL 2: Student Success			
Objective A: Foster participation in post-secondary education	✓	✓	✓
Objective B: Reinforce a commitment to instructional excellence	✓	✓	✓

Objective A: Provide employees with a work environment that values employee success and satisfaction			
Objective B: Ensure that the college maintains the financial resources necessary to meet its mission			
Objective C: Maintain a strong relationship with the CSI Foundation		✓	✓
Objective D: Enhance infrastructure resources to ensure the college is safe, sustainable, and inviting to all of the members of our communities			

March 15, 2018
NIST Cybersecurity Framework and Critical Security Controls 1-5 Adoption

Since December 2015, the College of Southern Idaho (CSI) has incrementally aligned itself to industry best practices by adopting ITIL principles including IT Service Management as its primary operational framework. This approach has resulted in greater stability with production systems and services across the institution. This approach has also enabled CSI to proactively address capability gaps with cybersecurity planning, prevention, and intervention efforts.

In support of Idaho Governor's Executive Order 2017-02, CSI has taken aggressive steps to ensure compliance with the first five cybersecurity controls published by the Center for Internet Security (CIS) referenced in the order. Although the Executive Order only references Controls 1-5, CSI intends on continuing efforts to implement capabilities spanning all 20 CIS Controls.

Progress has been greatly hindered by noticeable technical staffing shortages, gaps in digital security competency, and insufficient funding. The previous legislative cycle included line item funding requests to assist CSI's efforts to fill these gaps. Because the legislative request was not funded, CSI will not achieve full compliance with the first 5 CIS Controls by July 1, 2018.

CSI remains unwavering in its commitment to achieve a realistic level of compliance with the first 5 CIS Controls and developing capabilities across the remaining 15 CIS Controls as opportunity arises. CSI participates in regular planning and strategy meetings with all of Idaho's public higher education institutions with specific focus on cybersecurity readiness. The collective of those involved in these activities provide opportunities to share knowledge and best practices about cybersecurity and ways we can support each other to improve protections for all public higher education institutions across the state of Idaho.

Progress to Date:

- Launched Incident Management program December 2015.
- Launched Change Management program March 2016.
- Launched Contract Management program July 2016.
- Launched ERP Governance Council with oversight of operational maturity and data integrity January 2017.
- Launched formal Patch Management program for all managed devices May 2017.
- Completed EDUCAUSE Security Maturity Framework Self-Assessment June 2017.
- Completed current profile assessment for CIS Critical Controls 1-5 November 2017.
- Completed current profile assessment for CIS Controls 6-20 January 2018.
- Provided formal in-person presentation to President's Cabinet about compliance status March 2018.

Planned Activities thru FY2019:

Some CIS controls outlined below are implemented, partially or fully, but are noted to validate the implementation of the controls. Items that are not implemented yet require additional review as to their feasibility based upon available funding, implications to the enterprise architecture, disruption to business operations and processes, and capability relevance.

- CIS 1.1: Implement automated asset discovery tool for all managed client-server devices.
- CIS 1.2: Implement trusted device validation services on wired and wireless networks.
- CIS 1.3: Implement DHCP server logging.
- CIS 1.4: Implement asset management system.
- CIS 1.5: Explore feasibility for network-level authentication for 802.1x networks.
- CIS 1.6: Explore feasibility for client certificates to managed devices.
- CIS 2.1: Explore feasibility for device-specific application inventory.
- CIS 2.2: Explore feasibility for application whitelisting.
- CIS 2.3: Implement enterprise software inventory for all operating systems.
- CIS 2.4: Implement virtualization for high-risk applications.
- CIS 3.1: Implement infrastructure for configuration management.
- CIS 3.2: Implement infrastructure for “gold” image management.
- CIS 3.3: Implement library for image management.
- CIS 3.4: Implement remote administration using secure channels.
- CIS 3.5: Explore feasibility for file integrity checks/scans.
- CIS 3.6: Implement automated system configuration settings.
- CIS 4.1: Explore feasibility for vulnerability scanning.
- CIS 4.2: Explore feasibility for event log comparison to vulnerability scanning results.
- CIS 4.3: Explore feasibility for vulnerability scans in authenticated mode.
- CIS 4.4: Explore feasibility for vulnerability intelligence services.
- CIS 4.5: Implement automated patch management.
- CIS 4.6: Explore feasibility for log monitoring services for administrator activities.
- CIS 4.7: Explore feasibility for historical analytics of vulnerability scans.
- CIS 5.1: Explore feasibility for administrator access controls.
- CIS 5.2: Implement inventory of administrator accounts and personnel access.
- CIS 5.3: Implement password management protocols.
- CIS 5.4: Implement administrator account alerting system.
- CIS 5.5: Explore feasibility for alerting system that monitors failed logon attempts.
- CIS 5.6: Explore feasibility for multi-factor authentication of administrator accounts.
- CIS 5.7: Explore feasibility for 14-character password policies.
- CIS 5.8: Explore feasibility for dual-account access for system administrators.
- CIS 5.9: Explore feasibility for dedicated system for administrator tasks.

Updated March, 2018

College of Western Idaho
Strategic Plan 2019 – 2023

STATUTORY AUTHORITY

This plan has been developed in accordance with Northwest Commission on Colleges and Universities (NWCCU) and Idaho State Board of Education standards. The statutory authority and the enumerated general powers and duties of the Board of Trustees of a junior (community) college district are established in Sections 33-2101, 33-2103 to 33-2115, Idaho Code.

MISSION STATEMENT

The College of Western Idaho expands learning and life opportunities, encourages individual advancement, contributes to Idaho's economic growth, strengthens community prosperity, and develops leaders.

VISION STATEMENT

By 2040, the College of Western Idaho will be a best-in-class, comprehensive community college that will influence individual advancement and the intellectual and economic prosperity of Western Idaho. By providing a broad range of highly accessible learning opportunities, this Vision will be realized through the College's Presence, Practice, and Impact.

GOAL 1: Advance Student Success

CWI values its students and is committed to supporting their success in reaching their educational and career goals.

Objective A: Improving Student Retention, Persistence, and Completion

Performance Measures:

I. Increase percent of credit students who persist from term to term

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
69%	**68%**	**67%**	**68%**	**>=71%**

Benchmark: *Term to term persistence rates will meet or exceed 71% by 2022. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

II. Number of degrees/certificates produced annually (IPEDS Completions)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Degrees				
895	**895**	**996**	**979**	**>=1,000**
Certificates of at least 1 year				
110	**191**	**229**	**240**	**>=300**

Benchmark (state-wide performance measure): *Number of degrees produced annually (IPEDS completions) will meet or exceed 1,000 degrees by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

Benchmark (state-wide performance measure): *Number of certificates of at least one year produced annually (IPEDS completions) will be meet or exceed 300 certificates by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

III. Number of unduplicated graduates (IPEDS Completions)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Degrees				
822	**824**	**910**	**893**	**>=975**
Certificates of at least 1 year				
95	**161**	**226**	**240**	**>=275**

Benchmark (state-wide performance measure): *Number of unduplicated graduates with degrees (IPEDS completions) will be greater than or equal to 975 by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

Benchmark (state-wide performance measure): *Number of unduplicated graduates with certificates of at least one year (IPEDS completions) will be greater than or equal to 275 by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

IV. Percentage of students completing 30 or more credits per academic year

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
15%	**18%**	**18%**	**20%**	**>=22%**

Benchmark (state-wide performance measure): *Percentage of students completing 30 or more credits per academic year will meet or exceed 22% by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

V. Percentage of first-time, full-time degree/certificate seeking students who graduate within 150% of time (IPEDS Graduation Rates)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Fall Cohort 2010 **10%**	**Fall Cohort 2011** **9%**	**Fall Cohort 2012** **11%**	**Fall Cohort 2013** **13%**	**>=16%**

Benchmark (state-wide performance measure): *Percentage of first-time, full-time degree/certificate seeking students who graduate within 150% of time (IPEDS Graduation Rates) will meet or exceed 16% by 2023. The benchmark was established based on past years' performance and* *with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

VI. Percentage of first-time, full-time degree/certificate seeking students who graduate within 100% of time (IPEDS Graduation Rates)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
Fall Cohort 2010 **4%**	**Fall Cohort 2011** **3%**	**Fall Cohort 2012** **6%**	**Fall Cohort 2013** **3%**	**>=5%**

Benchmark (state-wide performance measure): *Percentage of first-time, full-time degree/certificate seeking students who graduate within 100% of time (IPEDS Graduation Rates) will meet or exceed 5% by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

Objective B: Developing Effective Educational Pathways

Performance Measures:

I. Increase percent of CWI Dual Credit students who transition to CWI programs within one year of high school graduation.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
12%	**13%**	**13%**	**Not yet available**	**1% annual increase**

Benchmark: *Increase the number of Dual Credit students who transition to CWI programs within one year of graduation by 1% annually. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

II. Percentage of degree seeking students taking a remedial course who complete a subsequent credit bearing course with a C or higher within one year of remedial enrollment

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
English: 65% **Math: 63%**	**English: 97%** **Math: 54%**	**English: 96%** **Math: 40%**	**English: 98%** **Math: 54%**	**English: 100%** **Math: >=65%**

Benchmark (state-wide performance measure): *Percentage of degree seeking students taking a remedial course who complete a subsequent credit bearing course with a C or higher within one year of remedial enrollment will be 100% for English and will meet or exceed 65% for Math by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

III. Percentage of first time degree seeking students completing a gateway math course within two years of enrollment

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
27%	**28%**	**28%**	**22%**	**>=25%**

Benchmark (state-wide performance measure): *Percentage of first time degree seeking students completing a gateway math course within two years of enrollment will meet or exceed 25% by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

IV. Percentage of programs offering structured schedules.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
100%	**100%**	**100%**	**100%**	**100%**

Benchmark (state-wide performance measure): *Percentage of programs offering structured schedules will be 100% by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

Objective C: Developing Effective Educational and Career Pathways and Transfer Opportunities

I. Increase percentage of students completing transfer programs who enroll at a four-year institution within one year of completion

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
53%	**53%**	**52%**	**Not yet available**	**>=60%**

Benchmark: *Increase transfer of General Education Academic Certificate (GEAC), AA and AS completers to four-year institutions to meet or exceed 60% by 2022 (based on highest level of completion). The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

GOAL 2: Promote and Invest in the Development of Quality Instruction
CWI will provide the highest quality instructional programs, which help learners achieve their goals and that also help the community and region to prosper.

Objective A: Advancing Innovative Programming and Strategies.

Performance Measures:

I. Increase success rates for students who enter CWI underprepared

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
		English		
NA	**NA**	**Fall: 70%** **Spring: 68%** **Summer: 77%**	**Fall: 65%**	**>=80%**

Benchmark (English): *By 2022, 80% or more of students who enter the English pipeline through English-plus co-requisite model successfully pass ENGL 101. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

GOAL 3: Ensure Operational Stability and Compliance

Objective A: Attracting and Retaining Appropriate Staffing Resources

I. Increase number of programs that have full-time faculty at the sustainable/qualify target level by 2022

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
85%	**85%**	**85%**	**85%**	**100%**

Benchmark: *CWI will achieve 100% of disciplines at the sustainable target level by 2022. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

Objective B: Adopt and Implement the National Institute of Standards and Technology (NIST) Cybersecurity Framework.

Performance Measures:

I. Foster better risk and cybersecurity management communications and decision making with both internal and external stakeholders.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
NA	**NA**	**NA**	**In progress**	**Full Implementation**

Benchmark (state-wide performance measure): *Adopt NIST standards by June 30, 2018 and complete IT Annual Work Plan implementation by FY18. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

Key External Factors

There are a number of key external factors that can have significant impact on our ability to fulfill our mission and institutional priorities in the years to come. Some of these include:

- *Continued revenue. Over a quarter of CWI's revenue comes from State of Idaho provided funds (general fund, CTE, etc.). Achieving parity with the state's other community colleges is a stated objective within our strategic plan. Ongoing state funding is vital to the continued success of CWI.*
- *Enrollment. CWI is actively engaged in recruiting and retention efforts in all areas of student enrollment. With nearly 50% of revenue generated by active enrollments, it is critical that CWI reach out in meaningful ways to its service area to support ongoing learning opportunities for the community and maintain fiscal stability for the college.*
- *Economy. Recent years have shown that the state and national economy have significant impacts on enrollment in higher education.*

Evaluation Process

The College of Western Idaho recently developed its Comprehensive Strategic Plan for 2018-2022 and created associated performance metrics and benchmarks. Evaluations are initiated at regular intervals, the scope and timing of which are determined by the lifecycle of the necessary processes and the impact to our students and institution. Where processes are maintained in a database, regular and recurring reports are leveraged to evaluate against stated standards. Where a more qualitative evaluation is employed, surveys or manual audits are performed to gauge delivery and performance.

When improvements are determined to be necessary, scope and impact to the student or business processes are then evaluated, desired outcomes are determined and a stated goal is formulated and then measured against existing goals or strategies to determine if it can be incorporated into existing structure *or would be stand alone in nature. Once a new goal is incorporated, an evaluative process will be created, benchmarking will be established and recurring evaluations made.*

4/12/2018

North Idaho College

FY 2019-2024
Strategic Plan

MISSION STATEMENT
North Idaho College meets the diverse educational needs of students, employers, and the northern Idaho communities it serves through a commitment to student success, educational excellence, community engagement, and lifelong learning.

VISION STATEMENT
As a comprehensive community college, North Idaho College strives to provide accessible, affordable, quality learning opportunities. North Idaho College endeavors to be an innovative, flexible leader recognized as a center of educational, cultural, economic, and civic activities by the communities it serves.

GOAL 1: STUDENT SUCCESS
A vibrant, lifelong learning environment that engages students as partners in achieving educational goals to enhance their quality of life.

Goal 1, Objective A: Provide innovative, progressive, and student-centered programs and services.

Performance Measures

I. Percentage of first-time and new transfer-in students who were awarded a degree or certificate, transferred, or are still enrolled, within six years as defined by VFA. *Source: Voluntary Framework of Accountability (VFA).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
68.1% (Fall 07 Credential-Seeking Cohort thru summer 13)	65.7% (Fall 08 Credential-Seeking Cohort thru summer 14)	64.5% (Fall 09 Credential-Seeking Cohort thru summer 15)	65.8% (Fall 10 Credential-Seeking Cohort thru summer 16)	70%

Benchmark: 70% [1] (by 2023)

II. Percentage of NIC Dual Credit students that matriculate at NIC within three years after enrolling as a new NIC Dual Credit Student. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
Data not available	34.7% (131/377) Fall 12 Cohort	34.7% (132/380) Fall 13 Cohort	29.1% (125/429) Fall 14 Cohort	35%

Benchmark: 35% [2] (by 2023)

III. Percentage of NIC Dual Credit students that matriculate at other institutions within three years after enrolling as a new NIC Dual Credit Student. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
Data not available	43.8% (165/377) Fall 12 Cohort	45.0% (171/380) Fall 13 Cohort	49.2% (211/429) Fall 14 Cohort	55%

Benchmark: 55% [3] (by 2023)

IV. Total number of certificates/degrees produced, broken out by a) certificates of at least one academic year and b) associate degrees. *New Statewide Performance Measure. Source: Integrated Postsecondary Education Data System (IPEDS).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
a) 269 Awards b) 689 Awards	a) 251 Awards b) 676 Awards	a) 306 Awards b) 746 Awards	a) 473 Awards b) 690 Awards	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [4]

V. Number of unduplicated graduates, broken out by a) certificates of at least one academic year and b) associate degrees. *New Statewide Performance Measure. Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
a) 251 Graduates b) 679 Graduates	a) 232 Graduates b) 664 Graduates	a) 288 Graduates b) 731 Graduates	a) 450 Graduates b) 674 Graduates	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [5]

Goal 1, Objective B: Engage and empower students to take personal responsibility and to actively participate in their educational experience.

Performance Measures

I. Percentage of CTE Concentrators who achieved positive placement or transition in the second quarter after leaving postsecondary education. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
97% (239/246)	92% (114/154)	93% (198/212)	Data not yet available	90%

Benchmark: 90% [6] (by 2021)

II. Percentage of non-remedial courses (duplicated student headcount) completed in the fall term with a C or better. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
74.8% (14,973/20,025) Fall 13	74.2% (13,893/18,731) Fall 14	76.6% (13,429/17,537) Fall 15	78.5% (12,978/16,536) Fall 16	82%

Benchmark: 82% [7] (by 2023)

Goal 1, Objective C: Promote programs and services to enhance access and successful student transitions.

Performance Measures

I. Persistence Rate - Full-time, first-time and new transfer in students who persist to spring or receive an award that first fall as a percentage of that population. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
83.5% (792/948) Fall 13 to Spr 14	84.4% (708/839) Fall 14 to Spr 15	80.9% (648/801) Fall 15 to Spr 16	83.5% (631/756) Fall 16 to Spr 17	84%

Benchmark: 84% [8] (by 2021)

II. Retention Rate – Full time, first-time, degree seeking student retention rates as defined by IPEDS. *Source: Integrated Postsecondary Education Data System (IPEDS).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
55% (418/754) Fall 13 cohort NIC Rank 33%	58% (377/655) Fall 14 cohort NIC Rank 55%	52% (323/625) Fall 15 cohort NIC Rank 17%	59.6% (352/591) Fall 16 cohort Rank not available	Rank of 60% against IPEDS comparator institutions

Benchmark: Rank of 60% against IPEDS comparator institutions [9] (by 2021)

III. Retention Rate – Part-time, first-time, degree seeking student retention rates as defined by IPEDS. *Source: Integrated Postsecondary Education Data System (IPEDS).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
35% (102/295) Fall 13 cohort NIC Rank 29%	39% (112/289) Fall 14 cohort NIC Rank 58%	33% (98/296) Fall 15 cohort NIC Rank 33%	43.2% (117/271) Fall 16 cohort Rank not yet available	Rank of 60% against IPEDS comparator institutions

Benchmark: Rank of 60% against IPEDS comparator institutions [10] (by 2021)

IV. Percent of undergraduate, degree-seeking students completing 30 or more credits per academic year at the institution reporting. *New Statewide Performance Measure. Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
9.0% (575/6374)	7.7% (455/5871)	8.3% (454/5483)	7.8% (429/5042)	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [11]

V. Percent of first-time, full-time, freshmen graduating within 150% of time. *New Statewide Performance Measure. Source: Integrated Postsecondary Education Data System (IPEDS).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
19% (171/877) Fall 11 Cohort NIC Rank 38%	22% (187/832) Fall 12 Cohort NIC Rank 38%	25% (185/752) Fall 13 Cohort NIC Rank 50%	23% (151/653) Fall 14 Cohort Rank not yet available	Rank of 60% against IPEDS comparator institutions

Benchmark: Rank of 60% against IPEDS comparator institutions [12] (by 2023)

VI. Percent of first-time, full-time freshmen graduating within 100% of time. *New Statewide Performance Measure. Source: Integrated Postsecondary Education Data System (IPEDS).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
12% (104/877) Fall 11 Cohort NIC Rank 41%	16% (130/832) Fall 12 Cohort NIC Rank 47%	16% (119/752) Fall 13 Cohort NIC Rank 50%	15% (97/653) Fall 14 Cohort Rank not yet available	Rank of 60% against IPEDS comparator institutions

Benchmark: Rank of 60% against IPEDS comparator institutions [13] (by 2023)

GOAL 2: EDUCATIONAL EXCELLENCE

High academic standards, passionate and skillful instruction, professional development, and innovative programming while continuously improving all services and outcomes

<u>Goal 2, Objective A: Evaluate, create and adapt programs that respond to the educational and training needs of the region.</u>

Performance Measures

I. Market Penetration - Unduplicated headcount of credit students as a percentage of NIC's total service area population. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
3.6% (7,772/217,551)	3.3% (7,368/221,398)	3.2% (7,103/225,007)	3.0% (6,928/230,072)	3.6%

Benchmark: 3.6% [14] (by 2023)

II. Market Penetration - Unduplicated headcount of non-credit students as a percentage of NIC's total service area population. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
2.2% (4,807/217,551)	2.1% (4,625/221,398)	2.2% (4,989/225,007)	2.1% (4,878/230,072)	3.0%

Benchmark: 3.0% [15] (by 2023)

III. Percent of undergraduate, degree-seeking students taking a remediation course completing a subsequent credit bearing course (in the area identified as needing remediation) within a year with a "C" or higher. *New Statewide Performance Measure. Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
26.8% (297/1110)	23.1% (200/864)	37.8% (289/764)	44.1% (295/669)	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [16]

IV. Percent of new degree-seeking freshmen completing a gateway math course within two years. *New Statewide Performance Measure. Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
22.2% (233/1049) Fall 13	26.2% (247/944) Fall 14	26.0% (239/921) Fall 15	Data not yet available	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [17]

Goal 2, Objective B: Engage students in critical and creative thinking through disciplinary and interdisciplinary teaching and learning.

Performance Measures

I. Percentage of instructional programs that describe changes/improvements to programs as a result of the Program Review process. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
			New	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [18]

II. Student perceptions of Student-Faculty Interactions. *Source: Community College Survey of Student Engagement (CCSSE).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
51.9 Spring 14 Top Schools 58.6	51.6 Spring 15 Top Schools 58.9	Survey now administered on a two-year rotation; no data available	51.0 Spring 17 Top Schools 58.5	53.0

Benchmark: 53.0 (by 2021) [19]

III. Student Perceptions of Support for Learners. *Source: Community College Survey of Student Engagement (CCSSE).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
44.9 Spring 14 Top Schools 59.6	44.6 Spring 15 Top Schools 59.8	Survey now administered on a two-year rotation; no data available	44.2 Spring 17 Top Schools 58.4	46.0

Benchmark: 46.0 [20] (by 2021)

Goal 2, Objective C: Strengthen institutional effectiveness, teaching excellence and student learning through challenging and relevant course content, and continuous assessment and improvement.

Performance Measures

I. Percentage of Student Learning Outcomes Assessment (SLOA) goals met over 3-year plan. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
72%	Not assessed, resources allocated to another initiative	81%	81%	80%

Benchmark: At least 80% of SLOA goals are consistently progressing or met [21] (by 2023)

II. Full-time to Part-time faculty ratio. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
0.8:1.0 164 FT & 204 PT	0.8:1.0 163 FT & 194 PT	0.8:1.0 161 FT & 207 PT	0.8:1.0 156 FT & 208 PT	0.8:1.0

Benchmark: no less than 0.8:1.0 [22] (by 2023)

III. Number of programs offering structured schedules. *New Statewide Performance Measure. Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
100%	100%	100%	100%	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [23]

Goal 2, Objective D: Recognize and expand faculty and staff scholarship through professional development.

Performance Measures

I. Professional Development resources are disbursed through a competitive and peer-reviewed process annually. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
Data not available	$141,091	$113,822	$132,436	Maintain or increase funding levels

Benchmark: Maintain or increase funding levels [24] (by 2022)

GOAL 3: COMMUNITY ENGAGEMENT
Collaborative partnerships with businesses, organizations, community members, and educational institutions to identify and address changing educational needs

Goal 3, Objective A: Advance and nurture relationships throughout our service region to enhance the lives of the citizens and students we serve.

Performance Measures

I. Percentage of student evaluations of community education courses with a satisfaction rating of above average. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
93% (186/200)	94% (237/250)	98% (253/256)	98% (313/320)	85% benchmark has been met, new benchmark is currently under development

Benchmark: 85% benchmark has been met, new benchmark is currently under development [25]

Goal 3, Objective B: Demonstrate commitment to the economic/business development of the region.

Performance Measures:

I. Licensure Pass Rates. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
81%	98%	99%	99%	85%

Benchmark: Maintain at 85% or above [26] (by 2023)

Goal 3, Objective C: Promote North Idaho College in the communities we serve.

Performance Measures

I. Annual number and percentage increase of Dual Credit annual credit hours in the high schools. *Source: State Board of Education Dual Credit Report.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
2,399 (+18.29%)	2,969 (+23.76%)	3,639 (+22.57%)	3,828 (+5.19%)	Increase by 5% annually

Benchmark: Increase by 5% annually [27] (by 2023)

II. Dual Credit annual credit hours as percentage of total credits. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
9,884 credits (8% of total)	9,922 credits (9% of total)	12,213 credits (11% of total)	13,481 credits (13% of total)	14%

Benchmark: 14% [28] (by 2023)

III. Dual Credit unduplicated Annual Headcount and percentage of total. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
921 (12% of total)	993 (13% of total)	1,165 (16% of total)	1,377 (20% of total)	18%

Benchmark: 18% [29] (by 2023)

Goal 3, Objective D: Enhance community access to college.

Performance Measures

I. Distance Learning proportion of credit hours. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
14,183 credits (25.1% of total) Fall 14	12,738 credits (24.3% of total) Fall 15	11,971 credits (23.9% of total) Fall 16	11,791 credits (24.1% of total) Fall 17	25% of total student credit hours

Benchmark: 25% of total student credit hours is achieved [30] (by 2023)

GOAL 4: DIVERSITY

A learning environment that celebrates the uniqueness of all individuals and encourages cultural competency

Goal 4, Objective A: Foster a culture of inclusion.

Performance Measures

I. Percentage of students enrolled from diverse populations. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
80.9% White 9.5% Other 9.6% Unknown	80.1% White 14.2% Other 5.7% Unknown	78.2% White 10.6% Other 11.2% Unknown	77.9% White 11.2% Other 10.9% Unknown	Maintain a diverse, or more diverse population than the population within NIC's service region

Benchmark: Maintain a diverse, or more diverse population than the population within NIC's service region [31] (by 2023)

II. Students surveyed perceive NIC provides an inclusive, respectful and safe environment. *Source: Community College Survey of Student Engagement (CCSSE).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
			Question developed in 2018; 2019 next survey round	New measure; benchmark currently under development

Benchmark: New measure; benchmark currently under development [32] (by 2023)

Goal 4, Objective B: Promote a safe and respectful environment.

Performance Measures

I. Percentage of students surveyed that perceive NIC encourages contact among students from different economic, social, and racial or ethnic backgrounds. Source: *Community College Survey of Student Engagement (CCSSE).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
37.7% Spring 14 National Average 52.9%	39.6% Spring 15 National Average 53.5%	Survey now being administered on a two-year rotation; no data available for Spring 16	38.6% Spring 17 National Average 55.1%	Increase by 2% annually until the national average is met or exceeded

Benchmark: Increase by 2% annually until the national average is met or exceeded [33] (by 2023)

Goal 4, Objective C: Develop culturally competent faculty, staff and students.

Performance Measures

I. Number of degree seeking students who meet the proficiency outcomes for identified GEM 5 and GEM 6 diversity competencies. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
			New	Proficiency outcomes will be defined by spring 2020

Benchmark: Proficiency outcomes will be defined by spring 2020 [34]

GOAL 5: STEWARDSHIP

Economic and environmental sustainability through leadership, awareness, and responsiveness to changing community resources

Goal 5, Objective A: Exhibit trustworthy stewardship of resources.

Performance Measures

I. Tuition revenue as a percentage of total revenue. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
Data not available	30.0%	29.1%	26.6%	Total tuition revenue not to exceed 37.5% of revenue

Benchmark: Total tuition revenue not to exceed 37.5% of revenue [35] (by 2023)

II. Tuition and Fees and IPEDS rank for full-time, first-time, in-district students (full academic year) based on IPEDS definitions. *Source: Integrated Postsecondary Education Data System (IPEDS).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
$2,974 NIC Rank 72.7%	$3,022 NIC Rank 72.7%	$3,214 NIC Rank 72.7%	$3,288 NIC Rank 72.7%	Rank of 60% against IPEDS comparator institutions

Benchmark: Rank of 60% against IPEDS comparator institutions [36] (by 2021)

III. Graduates per $100k – Graduates per $100,000 of education and related spending by institutions as defined by IPEDS. *Source: Integrated Postsecondary Education Data System (IPEDS).*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
2.04 (930 Grads) NIC Rank 41%	2.06 (898 Grads) NIC Rank 32%	2.07 (969 Grads) NIC Rank 46%	IPEDS financials not yet available Rank not yet available	Rank of 60% against IPEDS comparator institutions

Benchmark: Rank of 60% against IPEDS comparator institutions [37] (by 2023)

IV. Auxiliary Services generates sufficient revenue to cover direct costs of operations. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark

Data not available	$196,663 Net revenue	$174,795 Net revenue	$195,039 Net revenue	Annual direct costs maintained

Benchmark: Annual direct costs maintained [38] (by 2023)

Goal 5, Objective B: Demonstrate commitment to an inclusive and integrated planning environment.

This objective is currently under review.

Goal 5, Objective C: Explore, adopt, and promote initiatives that help sustain the environment.

Performance Measures

I. Energy consumption per gross square foot as determined by gas/electric costs. *Source: NIC Trends.*

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	Benchmark
		Prior method is not comparable, no data available.	$0.98 per gross square foot $702,624/719,173 square feet	Benchmark will be defined after 3 years of data is gathered

Benchmark: Benchmark will be defined after three years of data is gathered [39] (by 2021)

KEY EXTERNAL FACTORS

• Changes in the economic environment
• Changes in local, state, or federal funding levels
• Changes in local, state, or national educational priorities
• Changes in education market (competitive environment)

EVALUATION PROCESS

- Details of implementation
  - The Director of Institutional Effectiveness leads a variety of sub-groups at the college in an annual review and revision of the strategic plan. The strategic plan is organized to align with North Idaho College's core values. Together the core values and the strategic plan guide NIC to mission fulfillment.
- Status of goals and objectives
  - North Idaho College's goals for the strategic plan are also the college's core values. The objectives to meet the goals are reviewed with the data collected to determine if benchmarks have been met. The review process often leads to the following questions:
    - Is the data we are collecting providing information related to goal attainment?
    - Is additional data needed to better understand goal attainment?
    - Do the objectives need revision to reach goal attainment?
  - There were no substantial changes made to the goals and objectives in the past academic year.

Footnotes

[1] Benchmark is based on comparator institutions from the Voluntary Framework of Accountability (VFA). Numbers for those comparator institutions range between 64% and 67%. This measure is based on a six-year cohort, so initiatives targeted at completion may take longer to appear. This data reflects the credential-seeking cohort, which is determined by course taking behavior - students who earned a minimum of 12 semester credit hours by the end of their second year. [CCM 187]

[2] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. National Student Clearinghouse results were used to calculate these numbers. [CCM 201]

[3] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. National Student Clearinghouse results were used to calculate these numbers. Other Institutions excludes NIC. [CCM 202]

[4] New measure; benchmark currently under development. Total awards by award level. Does not include certificates of less than one year. [CCM 193]

[5] New measure; benchmark currently under development. Unduplicated graduates by award level. Does not include certificates of less than one year. [CCM 194]

[6] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Job related placement = military, related to training, not related to training, or pursuing additional education. Percentages are calculated on respondents only. [CCM 177]

[7] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. This measure represents the number of students (duplicated headcount) who completed non-remedial courses with a C or better (or P or S). Denominator is the duplicated count of students enrolled in non-remedial courses at the end of term. Does not include labs, incompletes, or audits. [CCM 108]

[8] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. [CCM 155]

[9] Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. This cohort represents a small percentage of NIC's total credit student population. [CCM 025]

[10] Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. This cohort represents a small percentage of NIC's total credit student population. [CCM 026]

[11] New measure; benchmark currently under development. Excludes non-degree seeking, Dual Credit, and 100% audits. Includes registered credits and credits awarded through placement tests; Summer/Fall/Spring. [CCM 195]

[12] Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. [CCM 196]

[13] Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. [CCM 199]

[14] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Service Area population numbers are based on United States Census Bureau estimates. [CCM 037]

[15] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Service Area population numbers are based on United States Census Bureau estimates. [CCM 038]

[16] New measure; benchmark currently under development. [CCM 197]

[17] New measure; benchmark currently under development. Fall cohort, first-time degree-seeking, full and part time (IPEDS). Gateway courses include MATH 123, 130, 143, 157, and 253. [CCM 198]

[18] New measure; benchmark currently under development. Results from AY17 will be reviewed fall 2018. [CCM 189]

[19] Benchmark is set based on top schools combined with desired level of achievement. CCSSE has grouped six conceptually related survey items for Student-Faculty Interaction. Answers are rated on a scale of 1=Never, 2=Sometimes, 3=Often, 4=Very Often. The Community College Survey of Student Engagement (CCSSE) is a survey administered to community college students across the nation. [CCM 162]

[20] Benchmark is set based on top schools combined with desired level of achievement. CCSSE has grouped seven conceptually related survey items for Support for Learners. Answers are rated on a scale of 1=Very little, 2=Some , 3=Quite a bit , 4=Very much OR 0=Never , 1=1 time , 2=2 – 4 times , 3=5 or more times. The Community College Survey of Student Engagement (CCSSE) is a survey administered to community college students across the nation. [CCM 165]

[21] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Each action for the goals is rated on a scale of 1 to 3: 3 = Action Met, 2 = Consistently Progressing, or 1 = Not Attempted. N/A = future timeline for the goal. The mean score of all actions is calculated and the percentage is used to evaluate this measure. The goals are evaluated annually. [CCM 114]

[22] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Slight change was made in methodology starting in 2016. Counts now include all active employees. Prior years reflected active employees who were paid within the fiscal year. [CCM 029]

[23] New measure; benchmark currently under development. NIC has indicated 100% compliance based on discussions with other Idaho institutions. [CCM 200]

[24] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Actual dollars spent on professional development. [CCM 115]

[25] Benchmark has been met, new benchmark is currently under development. [CCM 054]

[26] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Benchmark is set at 85% because of the variability over the years. Percentages shown reflect the average pass rate of all programs. Programs may vary year to year. FY17 includes Medical Assistant, Pharmacy Technology, Physical Therapist Assistant, Practical Nursing, Registered Nursing, Law Enforcement, and Radiography Technology. [CCM 091]

[27] Benchmark is set based on an analysis of historical trends and efforts related to future growth. NIC continued to see explosive growth in dual credit in the high schools through FY16 and has leveled off for FY17. Benchmark to increase by 5% annually will remain in place. [CCM 020]

[28] Benchmark is set based on an analysis of historical trends and efforts related to future growth. [CCM 019]

[29] Benchmark is set based on an analysis of historical trends and efforts related to future growth. [CCM 017]

[30] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Data reflects the number of Distance Learning student credit hours out of number of both non-distance and distance student credit hours, end-of-term. Distance Learning is defined by Instructional Methods, including Internet, Blackboard Live, Hybrid, and IVC-receiving sites. [CCM 015]

[31] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. NIC Service Region comparison = 90.2% White, 7.8% Other, and 2.0% Unknown. Source = U.S. Census Bureau Quick Facts, July 2016. [CCM 105]

[32] New measure; benchmark currently under development. Data will represent one custom survey question. The Community College Survey of Student Engagement (CCSSE) is a survey administered to community college students across the nation. [CCM 123]

[33] Benchmark is based on national comparators combined with the desired level of achievement. Represents the percentage of students who answered “quite a bit” or “very much” to one individual survey question. The Community College Survey of Student Engagement (CCSSE) is a survey administered to community college students across the nation. [CCM 106]

[34] Benchmark will be established through analysis of 2018 and 2019 data. GEM = General Education Requirements. GEM 5 = Humanistic & Artistic Ways of Knowing; GEM 6 = Social & Behavioral Ways of Knowing. [CCM 174]

[35] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. [CCM 172]

[36] Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. NIC consistently ranks above 60% against those comparator institutions. [CCM 130]

[37] Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. Cost includes Instruction, Academic Support, Student Services, Institutional Support, and Other Expenses/Deductions (as reported to IPEDS). Graduates count is unduplicated. Includes all degrees/certificates as reported to IPEDS, including those certificates of less than one year. [CCM 159]

[38] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Auxiliary Services continues to generate funds to cover expenses producing positive net income through the activities of its operational units. Stewardship is displayed by leveraging resources to contribute to the economic viability of NIC. Conference & Events (Schuler Performing Arts Center) has historically received General fund support due to its service related to instruction programs. The Student Wellness & Recreation Center is funded by student fees and building revenues. Auxiliary Services Operating Units include: Bookstore, Dining Services, Residence Hall, Student Union Operations, Cardinal Card Office, Financial Services, Parking Services, Conference & Events, and the Student Wellness & Recreation Center. [CCM 170]

[39] Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. [CCM 192]

Appendix 1

Institution/Agency Goals and Objectives	Goal 1: EDUCATIONAL SYSTEM ALIGNMENT	Goal 2: EDUCATIONAL ATTAINMENT	Goal 3: WORKFORCE READINESS
GOAL 1: STUDENT SUCCESS: A vibrant, lifelong learning environment that engages students as partners in achieving educational goals to enhance their quality of life			
Objective A: Provide innovative, progressive, and student-centered programs and services.	✓	✓	
Objective B: Engage and empower students to take personal responsibility and to actively participate in their educational experience.		✓	✓
Objective C: Promote programs and services to enhance access and successful student transitions.		✓	
GOAL 2: EDUCATIONAL EXCELLENCE: High academic standards, passionate and skillful instruction, professional development, and innovative programming while continuously improving all services and outcomes			
Objective A: Evaluate, create and adapt programs that respond to the educational and training needs of the region.		✓	✓
Objective B: Engage students in critical and creative thinking through disciplinary and interdisciplinary teaching and learning.	✓		✓
Objective C: Strengthen institutional effectiveness, teaching excellence and student learning through challenging and relevant course content, and continuous assessment and improvement.	✓	✓	
Objective D: Recognize and expand faculty and staff scholarship through professional development.	✓		
GOAL 3: COMMUNITY ENGAGEMENT -Collaborative partnerships with businesses, organizations, community members, and educational institutions to identify and address changing educational needs			

Objective A: Advance and nurture relationships throughout our service region to enhance the lives of the citizens and students we serve.			✓
Objective B: Demonstrate commitment to the economic/business development of the region.			✓
Objective C: Promote North Idaho College in the communities we serve.		✓	
Objective D: Enhance community access to college.		✓	
GOAL 4: DIVERSITY - A learning environment that celebrates the uniqueness of all individuals and encourages cultural competency			
Objective A: Foster a culture of inclusion.	✓		
Objective B: Promote a safe and respectful environment.	✓		
Objective C: Develop culturally competent faculty, staff and students.			
GOAL 5: STEWARDSHIP - Economic and environmental sustainability through leadership, awareness, and responsiveness to changing community resources			
Objective A: Exhibit trustworthy stewardship of resources.		✓	
Objective B: Demonstrate commitment to an inclusive and integrated planning environment.	✓		
Objective C: Explore, adopt, and promote initiatives that help sustain the environment.			

Appendix 2

NIST Cybersecurity Framework Adoption Progress

North Idaho College has adopted the National Institute of Standards and Technology (NIST) Framework and is currently aligning security practices to the framework and subcategories.

CSC Controls Progress

Control	Progress	Expected Substantial Completion	Exceptions	Notes
CSC 1: Inventory of Authorized and Unauthorized Devices	Partially Complete	August 2018	802.1x certificates for all devices	Currently implemented on all lab machines. Licensing required to deploy to all endpoints. Internal budget request for FY19.
CSC 2: Inventory of Authorized and Unauthorized Software	Partially Complete	August 2018	Software Whitelisting	Currently implemented on all lab machines. Licensing required to deploy to all endpoints. Internal budget request for FY19.
CSC 3: Secure Configurations for Hardware and Software	Mostly Complete	August 2018	File integrity checking tools	Currently done as best practices. Continue to align to NIST framework and document practices for standardization.
CSC 4: Continuous Vulnerability Assessment and Remediation Control Description	Currently Implementing	June 2018	Scope of scanning limited to server core.	Tool acquired and implementing now.
CSC 5: Controlled Use of Administrative Privileges	Currently Implementing	June 2018	Scope of control limited to server core and network admin privileges.	Tool acquired and implementing now to control administrative privilege and access.

IDAHO Career & Technical Education

Strategic Plan

FY2019-FY2024

STRATEGIC PLAN

MISSION STATEMENT
The mission of the Career Technical Education system is to prepare Idaho's youth and adults for high-skill, in-demand careers.

VISION STATEMENT
The vision of Idaho Career & Technical Education is to be:
1. A premiere educational opportunity for students and adults to gain relevant workforce and leadership skills in an applied setting;
2. A gateway to meaningful careers and additional educational opportunities; and
3. A strong talent pipeline that meets Idaho business workforce needs.

GOAL 1
EDUCATIONAL SYSTEM ALIGNMENT – Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

Objective A: *Technical assistance and support for CTE programs – Provide timely, accurate, and comprehensive support to CTE programs that meets the needs of administrators and instructors at both the secondary and postsecondary levels.*

Performance Measures:

I. ***The overall satisfaction levels of administrators and instructors with the support and assistance provided by CTE.***
Baseline data/Actuals: Initial Survey 2016

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		3.27		**Improvement**

Benchmark: Annual improvement in satisfaction levels, as listed in Appendix 1.[1]

Objective B: *Data-informed improvement – Develop quality and performance management practices that will contribute to system improvement, including current research, data analysis, and strategic and operational planning.*

Performance Measures:

I. ***Full implementation of Career & Technical Education Management System (C-TEMS).***
Baseline data/Actuals: 2009 - C-TEMS development began

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		~~**System Launch**~~	**System Launch**	**Analyze System Data**

Benchmark: By FY2019, begin analyzing system data.[2]

~~***II. Incorporation of CTE postsecondary teacher certifications into the secondary database system to increase automation, accuracy, and standardization.***~~

~~***Baseline data/Actuals:*** FY2017 -- All postsecondary certifications awarded after 2012 have been loaded into SDE database.~~

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		All postsecondary certifications awarded after 2012 have been loaded into SDE database.		**Transfer 100% of archived postsecondary certifications**

Benchmark: Transfer 100% of archived information by FY2018.[3]

III. Using a desk audit function, the percent of secondary programs reviewed for quality and performance on an annual basis.

Baseline data/Actuals: FY2017 Actual -- Test data collected for each data element

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		Launch	**100%**	**100%**

Benchmark: All pathway programs are subject to an annual desk audit.[4]

Objective C: *Funding Quality Programs – Secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry.*

Performance Measures:

I. A secondary program assessment model that clearly identifies the elements of a quality program.

Baseline data/Actuals: FY2017: Develop a plan for program assessment.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		Plan development, including data elements	**Identified preliminary measures and secured ongoing funding**	**Identify comprehensive measures**

Benchmark: Identify long-term strategies to comprehensively assess high quality secondary CTE programs by FY2020. [5]

Performance Measures:

I. ~~Number of qualified teachers in every program; percent of all employed teachers in secondary/postsecondary CTE programs who meet the appropriate endorsement standards~~

Baseline data/Actuals: FY2017 Actual -- 17 teachers held alternative authorizations

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)		**Benchmark**
				100

Benchmark: 100% of teachers meet the appropriate endorsement standards by FY2018.[6]

Objective D: *Create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements.*

Performance Measures:

I. ***Secondary student pass rate for Technical Skill Assessment (TSA).***
Baseline data/Actuals: Baseline FY15 – 71.7

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
71.7	**72.4**	**78.7**		67.0

Benchmark: 67.0 pass rate by 2018[7]

II. ***Postsecondary student pass rate for Technical Skill Assessment (TSA).***
Baseline data/Actuals: Baseline FY15 – 92.6

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
92.6	**93.1**	**90.2**		**92.8**

Benchmark: 92.8 pass rate by 2018[8]

III. ***Positive placement rate of secondary concentrators.***
Baseline data/Actuals: Baseline FY15 – 94.1

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
93.7	**93.2**	**95.8**		**94.3**

Benchmark: 94.3 placement rate by FY 2018[9]

IV. ***Implementation of competency-based SkillStack® microcertifications for all relevant programs of study.***
Baseline data/Actuals: Baseline FY16 – 0

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
	0	**9**	**20**	**23**

Benchmark: By FY2019, implement SkillStack for 23 programs[10]

V. ***Number of program standards and outcomes that align with industry standards.***
Baseline data/Actuals: FY2017 Actual - 37

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		37		**48**

Benchmark: 48 programs by FY2020[11]

GOAL 2

EDUCATIONAL ATTAINMENT – Idaho's public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.

Objective A: *Support State Board Policy III.Y by aligning similar first semester CTE programs among the technical colleges and ensuring that secondary program standards align to those postsecondary programs.*

Performance Measures:

I. ***Number of postsecondary programs that have achieved statewide alignment of courses in their first semester.***
Baseline data/Actuals: Baseline FY16 – 0

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
	0	**9**	**20**	**23**

Benchmark: 23 programs by FY2019[12]

II. ***The percent of secondary CTE concentrators who transition to postsecondary CTE programs.***
Baseline data/Actuals: Baseline FY18 – To Be Determined

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
				Baseline

Benchmark: Identify baseline data by FY2018[13]

Objective B: *Talent Pipelines/Career Pathways – CTE students will successfully transition from high school and postsecondary education to the workplace through a statewide career pathways model.*

Performance Measures:

I. ***Placement rate of postsecondary program completers in jobs related to their training.***
Baseline data/Actuals: Baseline FY15 – 68

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
68.4	**64.6**	**60.1**		**65**

Benchmark: 65 placement rate by 2020[14]

II. ***Positive placement rate of postsecondary program completers.***
Baseline data/Actuals: Baseline FY15 – 84.7

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
95.2	**93.7**	**96.4**		**95.6**

Benchmark: 95.6 placement rate by FY 2018[15]

III. ***The percent of secondary CTE concentrators who transition to postsecondary education.***
Baseline data/Actuals: Baseline FY15 – 64

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
64.4	**63.3**	**65.9**		**70**

Benchmark: 70 percent by 2020 [16]

IV. ***~~The percentage of postsecondary students (excluding Boise State University and University of Idaho) who are enrolled in CTE programs at the six technical colleges.~~***

Baseline data/Actuals: Baseline FY12 – 14.1

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
12.0	**11.5**	**10.1**		**Growth**

Benchmark: Increase in the percentage by 2020[17]

GOAL 3

WORKFORCE READINESS- The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

<u>Objective A:</u> *Workforce Training – Non-credit training will provide additional support in delivering skilled talent to Idaho's employers.*

VI. ***Percent of students who enter an occupation related to their workforce training (non-credit bearing training).***

Baseline data/Actuals: FY2018 – Identify Baseline

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
				Baseline

Benchmark: Identify baseline data by FY2018[18]

<u>Objective B:</u> *Adult Education (AE) – AE will assist adults in becoming literate and obtaining the knowledge and skills necessary for employment and economic self-sufficiency.*

<u>Performance Measures:</u>

I. ***The percent of AE students making measurable improvements in basic skills necessary for employment, college, and training (i.e. - literacy, numeracy, English language, and workplace readiness).***

Baseline data/Actuals: FY2016 – 33

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
	33	**38**		**47**

Benchmark: By FY2020, 47% of AE students make measurable progress.[19]

II. ***The percent of low-skilled adults provided with a viable alternative "entry point" for the workforce and Career Pathway system, who have a positive student placement after program exit.***

Baseline data/Actuals: FY 2019 – Identify baseline data

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
				Identify baseline data

Benchmark: Identify baseline data by FY2019.[20]

<u>Objective C:</u> *<u>Centers for New Directions (CND)</u> – CNDs will help foster positive student outcomes, provide community outreach events and workshops, as well as collaborate with other agencies.*

I. Percent of positive outcomes/retention that lead to completing a CTE program of study, entering employment or continuing their training.

Baseline data/Actuals: FY 2016 – 89

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
	89	**80**		**90**

Benchmark: 90% positive outcome rate annually.[21]

II. Number of institutional and community event/workshop hours provided annually that connect students to resources with other agencies, in addition to institutional resources.

Baseline data/Actuals: Average 5,000 hours annually

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		6,861		**5,000**

Benchmark: Maintain an average of 5,000 contact hours annually.[22]

Key External Factors

- Lack of knowledge, perceptions, and stigma regarding career opportunities available through career & technical education. As the labor market and overall economic conditions improve, fewer students are expected to enroll in postsecondary CTE programs.
- Policies, practices, legislation, and governance external to ICTE.
- Ability to attract and retain qualified instructors, particularly those who are entering teaching from industry.
- Local autonomy and regional distinctions including technical college institutional priorities/varied missions.
- Timely access to relevant, comprehensive, and accurate data from external reporting sources affects the ability of ICTE to conduct statewide data analyses.

Evaluation Process

Objectives will be reviewed at least annually (more frequently if data is available). The ICTE Executive Team will review the data in terms of its alignment with objectives, as well as assess progress toward reaching benchmarks. As necessary, the team will identify barriers to success, strategies for improvement, and any additional resources necessary to make measurable progress. As appropriate, ICTE will make requests through its budget and legislative requests to support the agency's goals and objectives.

---

[1] Based on survey results; intended to improve communication and feedback with secondary and postsecondary stakeholders. Please see Appendix 1 for actual data.

[2] Based on ICTE goal to improve data accuracy and reduce reporting burden on districts.

[3] Based on ICTE goal to improve data accuracy and reduce reporting burden on districts and postsecondary institutions.

[4] Based on ICTE goal to improve program assessment process and 2018 legislative request for incentive funding.

[5] Based on ICTE goal to improve data accuracy and reduce reporting burden on districts.

ATTACHMENT 9

[6] Based on ICTE goal to improve program assessment process and 2018 legislative request for incentive funding.
[7] Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline.
[8] Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline.
[9] Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline.
[10] ICTE goal to coincide SkillStack® rollout with the completion of program alignment and standard setting.
[11] Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.
[12] Based on current rate of program alignment.
[13] Based on program alignment efforts: measuring the go-on rate of students in a CTE capstone course for the identified nine aligned programs who continue CTE at the postsecondary level.
[14] Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.
[15] Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline.
[16] Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.
[17] Investigate causes for decline and identify strategies for growth.
[18] Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.
[19] Federally negotiated benchmark.
[20] Federally negotiated benchmark. Baseline data will then be used to determine performance targets.
[21] Based on goal of continuing current outcome rates.
[22] Based on current average number of contact hours statewide.

Appendix 1 (2016 – 2017 Survey Results)

Overall, how satisfied are you with ICTE? *New Survey Question FY17*

Satisfaction Levels (scale of 1-5)	PS	N	Sec	N
Overall, how satisfied are you with ICTE?	3.20	138	3.29	409

Do ICTE's priorities align with CTE priorities in your school or district?

SECONDARY	2016	N	2017	N
Do priorities align with CTE priorities in your school or district? (scale of 1-5, not at all - completely)	3.70	37	3.13	70
I don't know what ICTE's priorities are	16%	7	16%	14
My school or district has not outlined CTE priorities	5%	2	6%	5

POSTSECONDARY	2016	N	2017	N
Do priorities align with CTE priorities in your school or district? (scale of 1-5, not at all - completely)	3.47	49	3.34	32
I don't know what ICTE's priorities are	9%	5	17.5%	7
My school or district has not outlined CTE priorities	0%	0	0%	0

Level of Satisfaction:

SECONDARY **Satisfaction Levels** (scale of 1-5)	2016	N	2017	N
The availability of information to support your program	3.12	338	3.21	377
The availability of necessary tools to support your program	2.95	334	3.18	377
The overall content of the ICTE website related to your program or school	2.97	335	3.06	377

POSTSECONDARY **Satisfaction Levels** (scale of 1-5)	2016	N	2017	N
The availability of information to support your program	3.68	128	3.31	124
The availability of necessary tools to support your program	3.57	128	3.20	124
The overall content of the ICTE website related to your program or school	3.64	127	3.35	124

Have you read "Need to Know"?

SECONDARY	2016	N	2017	N
Yes	53%	177	39%	146
No	24%	80	27%	100
Don't Know	23%	78	34%	129

POSTSECONDARY	2016	N	2017	N
Yes	54%	68	41%	51
No	26%	33	28%	34
Don't Know	20%	26	31%	38

Interactions with ICTE Staff

If you interacted with ICTE staff in the last year, were your questions resolved in an acceptable manner?	Sec 2016	N	Sec 2017	N
Yes	73%	194	59%	221
No	25%	68	18%	68
Didn't interact with ICTE*	2%	6	23%	85

If you interacted with ICTE staff in the last year, were your questions resolved in an acceptable manner?	PS 2016	N	PS 2017	N
Yes	82%	62	49.2%	59
No	16%	12	21.7%	26
Didn't interact with ICTE*	2%	2	29.2%	35

Satisfaction Levels (scale of 1-5, not at all - completely)	Sec 2016	N	Sec 2017	N
Interactions with staff	3.77	265	3.76	288
How knowledgeable are CTE staff related to your program needs?	3.75	230	3.68	288

Satisfaction Levels (scale of 1-5, not at all - completely)	PS 2016	N	PS 2017	N
Interactions with staff	3.95	76	3.39	82
How knowledgeable are CTE staff related to your program needs?	3.59	66	3.14	71

Fiscal Summary

EXECUTIVE DEPARTMENT STATE OF IDAHO
BOISE

EXECUTIVE ORDER NO. 2017-02

Career Technical Education – Cyber Security Implementation Plan

Idaho Division of Career Technical Education (CTE) has been working on proactive steps to mitigate cybersecurity risk. To increase the Department's capacity and ability to protect its systems and the data with which it is entrusted, the Agency has begun to work on the following:

1. CTE has adopted the National Institute of Standards and Technology (NIST) Which will outline the Center for Internet Security Controls (CIS) Working with SDE's Security Coordinator to work on policy and implementation of security initiatives
2. Will have implemented cybersecurity awareness training (KnowBe4) for all CTE employees and initiated in-depth training for key personnel.
3. Begun the process to implement the first five Center for Internet Security Critical Security Controls (CIS Controls).
4. CTE has purchased, installed and configured Ivanti (Landesk) Secure User Management Suite) which will cover the first five (5) CIS controls listed below.

CSC1: ***Inventory of Authorized and Unauthorized Devices***

Actively manage (inventory, track and correct) all hardware devices on the network so that only authorized devices are given access, and unauthorized and unmanaged devices are found and prevented from gaining access.

CSC2: ***Inventory of Authorized and Unauthorized Software***

Actively manage (inventory, track and correct) all software on the network so that only authorized software is installed and can execute, and that unauthorized and unmanaged software is found and prevented from installation and execution.

CSC3: ***Secure Configuration of Hardware and Software on Mobile Devices, laptops, Servers and Workstations.***

Establish, implement and actively manage (track, report and correct) the security configuration of Laptops, servers and workstations using a rigorous configuration management and change control process in order to prevent attackers exploiting vulnerable services and settings.

CSC4: ***Continuous Vulnerability Assessment and Remediation***

Continuously acquire, access, and take action on new information in order to identify vulnerabilities, remediate and minimize the windows of opportunity for attackers.

CSC5: ***Controlled Use of Administrative Privileges***

A process with tools used to track/control/prevent/correct the use, assignment and configuration of administrative privileges on Computers, Networks and Applications.

The tools CTE will be using to implement the first 5 NIST controls.

Ivanti – Secure User Management Suite (LANDesk)
KnowBe4 (end user training)

ATTACHMENT 10

Strategic Plan

Idaho Division of Vocational Rehabilitation

2019 - 2023

Content and Format

The Plan is divided into four sections. The first three sections describe the programs administered under the Idaho Division of Vocational Rehabilitation (IDVR). Each of the programs described, Vocational Rehabilitation, Extended Employment Services, and the Council for the Deaf and Hard of Hearing, outline specific goals, objectives, performance measures, benchmarks and/or baselines for achieving their stated goals. The final section addresses external factors impacting IDVR.

Due to requirements outlined in the Workforce Innovation and Opportunity Act (WIOA) and from Rehabilitation Services Administration (RSA), IDVR now programmatically operates under a Program Year instead of a Federal Fiscal Year as outlined in previous strategic plans. This Program Year aligns with Idaho's State Fiscal Year. All three programs under the Division will adhere to state fiscal year reporting for this Plan. This Plan covers fiscal years 2019 through 2023.

This is an entirely new Strategic Plan for the Division because of the significant changes resulting from the Workforce Innovation and Opportunity Act (WIOA) and the Division's most recent Comprehensive Statewide Needs Assessment (CSNA), both of which impact the goals and objectives for the Vocational Rehabilitation program. The changes resulting from WIOA also lead the Division to modify both the mission and vision statements to better reflect the focus on the dual customer; individuals with disabilities and employers. The Workforce Innovation and Opportunity Act dramatically shifted the performance measures for the VR program to be more in alignment with the other core WIOA programs. Rehabilitation Services Administration is providing VR programs time to collect the new data necessary to establish baseline data which will be used to establish levels of performance before negotiating expected target levels of performance in future years for these new performance measures. Baseline data collection will continue for at least the next two state fiscal years (SY2019 and SY2020).

Vocational Rehabilitation

Vision

An Idaho where all individuals with disabilities have the opportunity to participate in the workforce and employers value their contributions.

Mission

To prepare individuals with disabilities for employment and career opportunities while meeting the needs of employers.

Vocational Rehabilitation

Goal 1 – Provide quality, relevant, individualized vocational rehabilitation services to individuals with disabilities to maximize their career potential.

Objective 1: Expand, monitor, and improve pre-employment transition services (Pre-ETS) to students with disabilities and similar services to youth.

Performance Measure 1.1: Number of students receiving Pre-employment Transition Services (Pre-ETS)

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	N/A	301	≥ 301

Benchmark: Greater than or equal to 301 for SY19 [1]

Performance Measure 1.2: Number of youth applications for program participants under the age of 25.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	N/A	812	≥ 812

Benchmark: Greater than or equal to 812 for SY19 [2]

Objective 2: Provide a comprehensive array of services to individuals with disabilities, including individuals with Most Significant Disabilities (MSD).

Performance Measure 2.1: For all successful Supported Employment closures: the percentage of customers employed in the 2nd quarter after exit.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	N/A	N/A	≥ 60%

Benchmark: Greater than or equal to 60% for SY19 [3]

Performance Measure 2.2
For all successful Supported Employment closures: the percentage of customers employed in the 4th quarter after exit.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	N/A	N/A	≥ 50%

Benchmark: Greater than or equal to 50% for SY19 [4]

Performance Measure 2.3: Number of Regions where Customized Employment is available.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	N/A	3	8 Regions (100%)

Benchmark: All 8 Regions [5] (by SY 2020)

Objective 3: Hire and retain qualified staff to deliver quality vocational rehabilitation services.

Performance Measure 1: Percentage of counselors who meet Comprehensive System of Personnel Development (CSPD) compliance.

SY2014	SY2015	SY2016	SFY2017	Benchmark
89.8%	85.7%	79%	77.8%	≥ 85%

Benchmark: Greater than 85% for SY19 [6]

Goal 2 – Improve VR program efficiency through continuous quality improvement activities.

Objective 1: Meet or exceed targets for the first five Primary Performance Indicators established by the US Department of Education, Rehabilitation Services Administration (RSA).

Performance Measure 2.1: Meet or exceed negotiated targets on the following five measures.

Performance Measure	SY2014	SY2015	SY2016	SY2017	Benchmark
1. *Employment Rate – 2nd Qtr after Exit*					≥ 65%
2. *Employment Rate – 4th Qtr after Exit*					≥ 55%
3. *Median Earnings – 2nd Qtr after Exit*					≥ $4680 per quarter
4. *Credential Attainment*					≥ 22%
5. *Measurable Skill Gains*					≥ 20%

Benchmark: Greater than or equal to 65% [7], greater than or equal to 55% [8], greater than or equal $4680 per quarter [9], greater than or equal 22% [10], greater than or equal 20% [11] (all benchmarks by 2021):

Objective 2.2: Evaluate the satisfaction of customer's vocational rehabilitation experience and service delivery.

Performance Measure 2.2: Customer satisfaction rate.

SY2014	SY2015	SY2016	SY2017	Benchmark
93.6	87.8%	89.1%	88.5%	≥ 90% satisfaction rate

Benchmark: Greater than or equal to 90% for SY19 [12]

Objective 2.4: Collaborate with Community Rehabilitation Program partners to improve the quality of services.

Performance Measure 2.4: Of those cases using CRP employment services (non-assessment), the percentage which contributed to successful case closure.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	N/A	N/A	$\geq$ 30%

Benchmark: Greater than or equal to previous year in SY19 [13]

Goal 3 – Meet the needs of Idaho businesses

Objective 3.1: IDVR to be recognized by the business community as the disability experts in the workforce system by providing employers with skilled workers who maintain employment with that employer.

Performance Measure 3.1.1: Retention Rate with the Same Employer the 4th quarter after exit.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	N/A	N/A	$\geq$ 50%

Benchmark: Greater than or equal to 50% for SY19 [14]

Extended Employment Services

Mission

Idahoans with significant disabilities are some of the state's most vulnerable citizens. The Extended Employment Services (EES) Program provides individuals with the most significant disabilities employment opportunities either in a community supported or workshop setting.

Vision

Provide meaningful employment opportunities to enable citizens of Idaho with the most severe disabilities to seek, train-for, and realize real work success.

Goal #1 – Provide employment opportunities for individuals who require long-term support services through the Extended Employment Services program.

1. ***Objective***: *To provide relevant and necessary* long-term supports to assist individuals with the most significant disabilities to maintain employment.

Performance Measure 1.1: Number of individuals served.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	647	838	≥ previous year performance

Benchmark: Greater than or equal to previous year in SY19 [15]

Performance Measure 1.1: Number of individuals on the EES waitlist.

SY2014	SY2015	SY2016	SY2017	Benchmark
N/A	N/A	292	208	≤ on waitlist than previous year

Benchmark: Less than or equal to previous year in SY19 [16]

Council for the Deaf and Hard of Hearing (CDHH)

Role of CDHH

CDHH is an independent agency. This is a flow-through council for budgetary and administrative support purposes only with no direct programmatic implication for IDVR. The following is the Council for the Deaf and Hard of Hearing's Strategic Plan.

Mission

Dedicated to making Idaho a place where persons, of all ages, who are deaf or hard of hearing have an equal opportunity to participate fully as active, productive and independent citizens.

Vision

To ensure that individuals who are deaf, hard of hearing, or hearing impaired have a centralized location to obtain resources and information about services available.

Goal #1 – Work to increase access to employment, educational and social-interaction opportunities for persons who are deaf or hard of hearing.

1. ***Objective***: Continue to provide information and resources.

Performance Measure 1.1: Track when information and resources are given to consumers.

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	2 brochures 53 FB posts	2 addt'l brochures 49 FB posts	4 addt'l brochures 56 FB posts	Continue to create brochures, social interaction, & website development

Benchmark: 4 or more new brochures created in FY19 [17]

Goal #2 – Increase the awareness of the needs of persons who are deaf and hard of hearing through educational and informational programs.

1. ***Objective***: Continue to increase the awareness.

Performance Measure 2.1: Deliver presentations and trainings to various groups through education and social media.

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	27	23	65	Presentations delivered

Benchmark: 65 or more presentation delivered in SY19 [18]

Goal #3 – Encourage consultation and cooperation among departments, agencies, and institutions serving the deaf and hard of hearing.

1. ***Objective***: Continue encouraging consultation and cooperation.

Performance Measure 3.1: Track when departments, agencies, and institutions are cooperating (such as Department of Corrections and Health and Welfare).

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	11	12	12	Present to various local, state & federal agencies

Benchmark: Present at 12 or more local, state and federal agencies in SY19 [19]

Goal #4 – Provide a network through which all state and federal programs dealing with the deaf and hard of hearing individuals can be channeled.

1. ***Objective***: The Council's office will provide the network.

Performance Measure 4.1: Track when information is provided.

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	200 calls	120 calls	1,056 calls	Maintain network through website, social media, brochures, telephone inquiries, & personal communication

Benchmark: Track all calls in SY19 [20]

Goal #5 – Determine the extent and availability of services to the deaf and hard of hearing, determine the need for further services and make recommendations to government officials to insure that the needs of deaf and hard of hearing citizens are best served.

1. ***Objective***: The Council will determine the availability of services available.

Performance Measure 5.1: The Council will administer assessments and facilitate meetings to determine the needs.

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	Met	Met	Met	Continued work with mental health personnel

Benchmark: Met in SY19 [21]

Goal #6 – To coordinate, advocate for, and recommend the development of public policies and programs that provide full and equal opportunity and accessibility for the deaf and hard of hearing persons in Idaho.

1. Objective: The Council will make available copies of policies concerning deaf and hard of hearing issues.

Performance Measure 6.1: Materials that are distributed about public policies.

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	Met	Met	Met	Facilitate meetings with various agencies and group

Benchmark: Met in SY19 [22]

Goal #7 – To monitor consumer protection issues that involve the deaf and hard of hearing in the State of Idaho.

1. ***Objective***: The Council will be the "go to" agency for resolving complaints from deaf and hard of hearing consumers concerning the Americans with Disabilities Act.

Performance Measure 7.1: Track how many complaints are received regarding the ADA.

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	10 ADA Issues	10 ADA Issues	50 ADA Issues	Create information resulting from ADA complaint

Benchmark: Track all complaints in SY19 [23]

Goal #8 – Submit periodic reports to the Governor, the legislature, and departments of state government on how current federal and state programs, rules, regulations, and legislation affect services to persons with hearing loss.

1. Objective: The Council will submit reports.

Performance Measure 8.1: Reports will be accurate and detailed.

FY2014	FY2015	FY2016	FY2017	Benchmark
N/A	Completed	Completed	Completed	Submit accurate reports.

Benchmark: Completed for SY19 [24]

External Factors Impacting IDVR

The field of Vocational Rehabilitation is dynamic due to the nature and demographics of the customers served and the variety of disabilities addressed. Challenges facing the Division include:

Adequate Supply of Qualified Personnel

IDVR is dedicated to providing the most qualified personnel to address the needs of the customers served. Challenges in recruitment have been prevalent over the past several years. Recruiting efforts have been stifled by low wages as compared to other Idaho state agencies as well as neighboring states. IDVR has identified the need to develop relationships with universities specifically offering a Master's Degree in Rehabilitation Counseling. Furthermore, IDVR has identified universities offering coursework for other degree programs that will meet eligbility for the Certified Rehabilitation Counselor (CRC).

State and Federal Economic and Political Climate

While Idaho has seen improvement in its economic growth over the past several years there are a variety of influences which can affect progress. Individuals with disabilities have historically experienced much higher unemployment rates, even in strong economic times. Furthermore, Idaho has one of the highest percentages per capita of workers in the country making minimum wage. IDVR recognizes this and strives to develop relationships within both the private and public sectors in an effort to increase employment opportunities and livable wages for its customers.

IDVR is also affected by decisions made at the federal level. The Workforce Innovation and Opportunity Act (WIOA), which replaces the Workforce Investment Act, bring substantial changes to the VR program. WIOA's changes aim to improve the nation's workforce development system through an alignment of various workforce programs, and improve engagement with employers to address skilled workforce needs.

WIOA will require IDVR to implement substantial programmatic changes. These changes will impact policy development, staff training, fiscal requirements, and compliance reporting requirements. The most impactful changes are the fiscal and programmatic requirements to increase and expand services to students and youth with disabilities. WIOA mandates state VR agencies reserve 15% of their budgets for the provision of Pre-employment transition services (Pre-ETS) which are essentially services the Division was not previously providing. This change will result in an agency which is shifting not only the population it serves, but is serving that population in different and innovative ways. The Division's performance measures have also shifted significantly under WIOA. As a result, the current benchmarks for the federal performance measures identified in this strategic plan present a high degree of error that will diminish as IDVR completes its transition to business as usual under WIOA, and new baselines are realized. The Division has diligently been working to address the new requirements and continues to move forward with the implementation of Pre-employment transition services and a strategic evaluation of the impact of these requirements. As previously mentioned, Vocational Rehabilitation programs are transitioning to "baseline" measures to capture the required data before negotiating expected levels of performance with RSA, which is expected to take place for SY 2021.

IDVR Cyber Security Plan

Idaho Division of Vocational Rehabilitation (IDVR) has adopted of the National Institute of Standards and Technology (NIST) Cybersecurity Framework and will be implementing the first five Center for Internet Security (CIS) Controls, Critical Security Controls by June 30, 2019.

The following solutions are currently in place or will be put in play to accomplish the first five Cyber Security Controls.

- IDVR collaborates with the Idaho Office of Administration on:
  - Exterior firewall management
  - Internet and Malware filtering
- Ivanti/Landesk is used internally to handle all:
  - Patch management
  - Device discovery
  - OS deployments / imaging management
  - License monitoring and Inventory controls
- MacAfee EPO is used internally to manage all Antivirus monitoring
- DUO for two factor authentication for all elevated server functions and VPN Authentications.
- Mandatory Cyber Security Awareness training is handled by the Division of Human Resources (DHR) Knowbe4 training packages. All users must take this training annually and when initially employed with agency.
- A mobile device management (MDM) solution (not currently identified) will be used to monitor and control cellular phone and security management of mobile devices.

Footnotes:

[1] Benchmarks are set based on an internal measure of performance and informed by the Division's SRC. Services for students are a major focus under WIOA.
[2] Benchmarks are set based on an internal measure of performance and informed by the Division's SRC. Services for youth are a major focus.
[3] Benchmarks are set based on an internal measure of performance and informed by the Division's State Rehabilitation Council (SRC) and are similar to the federal common performance measures.
[4] Benchmarks are set based on an internal measure of performance and informed by the Division's State Rehabilitation Council (SRC) and are similar to the federal common performance measures.
[5] Benchmarks are set based on an internal measure of performance and informed by the SRC, implementing the CE pilot services across the state is the goal.
[6] Benchmarks are set based on an internal program measure and represents a commitment to the development of quality vocational rehabilitation counselors, meeting this standard ensures that individuals with disabilities in Idaho receive services through certified professionals and promotes more efficient, comprehensive, and quality services. The baseline is an arbitrary percentage established by IDVR and is a stretch goal the agency aspires to achieve.
[7] Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*
[8] Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*
[9] Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*
[10] Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*
[11] Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*
[12] Benchmarks are set based on an internal measure of performance and was established by the Division's SRC to gauge customer satisfaction with program services and identify areas for improvement. The benchmark of 90% is arbitrary; however it is typically utilized as a threshold for quality performance.
[13] Benchmarks are set based on an internal measure of performance and informed by the Division's SRC. The emphasis is on quality services provided by Community Rehabilitation Programs.
[14] Benchmarks are established based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future year beginning with SY 2021. *(RSA-TAC-18-01, January 19, 2018)* This performance measure is useful in determining whether VR is serving employers effectively by improving the skills of customers and decreasing employee turnover.
[15] Benchmarks are set based on an internal program measure and were new as of the 2017-2021 Strategic Plan. This measure represents a better indicator of performance for the EES program.
[16] Benchmarks are set based on an internal program measure and were new as of the 2017-2021 Strategic Plan. This measure represents a better indicator of performance for the EES program.
[17] Benchmarks are set based on an internal program measure to expand information to Idaho's deaf and hard of hearing population, to include brochures and information via electronic and social media. The Council is the only clearinghouse of information in Idaho about deaf and hard of hearing issues. This benchmark was established to adhere to Idaho statute 67, chapter 73.
[18] Benchmarks are set based on internal program measure to provide information about the needs of persons who are deaf or hard of hearing. The benchmark was created because the Council is the only state agency to provide this type of information. This benchmark was established to adhere to Idaho statute 67, chapter 73.
[19] Benchmarks are set based on internal program measure to provide information about deaf and hard of hearing issues. This benchmark was established to adhere to Idaho statute 67, chapter 73

[20] The Council has historically been the organization where individuals and groups come for information concerning deaf and hard of hearing issues. The benchmark was created to continue tracking the information. This benchmark was established to adhere to Idaho statute 67, chapter 73.

[21] Benchmarks are set based on internal program measure to determine the need for public services for deaf and hard of hearing community and was established because there was a Task Force that met to determine the need of mental health services that need to be provided to deaf and hard of hearing individuals. This benchmark was established to adhere to Idaho statute 67, chapter 73.

[22] Benchmarks are set to provide information where interpreters can get information about current issues and has established a printed list of Sign Language Interpreters and also on the Council's website. This benchmark was established per the request of the Idaho Registry of Interpreters of the Deaf to support the legislation. This benchmark was established to adhere to Idaho statute 67, chapter 73.

[23] Benchmarks are set based to provide information, in collaboration with the Northwest ADA Center, about the Americans with Disability Act (ADA). The benchmark was established to continue that partnership and to adhere to Idaho statute 67, chapter 73.

[24] Benchmarks are set based on internal program measure to provide information about deaf and hard of hearing issues, this benchmark was established to adhere to Idaho statute 67, chapter 73.

FY 2019-2023
STRATEGIC PLAN

MISSION STATEMENT
We harness the power of public media to encourage lifelong learning, connect our communities, and enrich the lives of all Idahoans. We tell Idaho's stories.

VISION STATEMENT
Inspire, enrich and educate the people we serve, enabling them to make a better world.

SBoE Goal 1: EDUCATIONAL SYSTEM ALIGNMENT
Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

IdahoPTV Objectives:

Objective A: Maintain a digital statewide infrastructure in cooperation with public and private entities.

Performance Measures:
I. Number of DTV translators.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
47	46	46	47		47

Benchmark: 47 (by FY 2023)[1]

II. Number of cable companies carrying our multiple digital channels.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
*	*	30	50		28

Benchmark: 28 (by FY 2023)[2]

III. Number of Direct Broadcast Satellite (DBS) providers carrying our prime digital channel.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
8	8	8	8		8

Benchmark: 8 (by FY 2023)[3]

IV. Percentage of Idaho's population within our signal coverage area.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
98.4%	98.4%	98.4%	99.47%		98.4%

Benchmark: 98.4% (by FY 2023)[4]

Objective B: Nurture and foster collaborative partnerships with other Idaho state entities and educational institutions to provide services to the citizens of Idaho.

Performance Measure:
Number of partnerships with other Idaho state entities and educational institutions.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
*	22	26	47		32

Benchmark: 35 (by FY 2023)[5]

Objective C: Operate an efficient statewide delivery/distribution system.

Performance Measure:
Total FTE in content delivery and distribution.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
18.58	18.5	20	17		<25

Benchmark: Less than 24 (by FY 2023)[6]

Objective D: Provide access to IdahoPTV video content that accommodates the needs of the hearing and sight impaired.

Performance Measure:
Percentage of broadcast hours of closed captioned programming (non-live, i.e. videotaped) to aid visual learners and the hearing impaired.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
97.6%	98.4%	97.6%	97.6%		100%

Benchmark: 100% (by FY 2023)[7]

Objective E: Provide access to IdahoPTV new media content to citizens, anywhere, that supports participation and education.

Performance Measures:
I. Number of visitors to our websites.

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 Benchmark
1,520,814	1,670,923	1,901,477	1,981,837		1,700,000

Benchmark: 1,850,000 (by FY 2023)[8]

II. Number of visitors to IdahoPTV/PBS video player.

FY14	FY15	FY16	FY17	FY18	FY19

(2013-2014)	(2014-2015)	(2015-2016)	(2016-2017)	(2017-2018)	**Benchmark**
48,836	**344,651**	**634,031**	**143,637***		**100,000**

Benchmark: 100,000 (by FY 2023)[9]
*In prior years, the PBS software counted the same viewers multiple times in error. This has been corrected moving forward.

III. Number of alternative delivery platforms and applications on which our content is delivered.

*	*	*	*	*	Yes

Benchmark: Yes (by FY 2023)[17]
*New performance measure for FY19

SBoE GOAL 2: EDUCATIONAL ATTAINMENT
Idaho's public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.

SBoE GOAL 3: WORKFORCE READINESS
The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

KEY EXTERNAL FACTORS

Funding – While State General Fund support for Idaho Public Television has been increasing as state revenues have grown, there continues to be pressure to reduce the size of government. In addition, significant concerns about Federal funding to the Corporation for Public Broadcasting and the U.S. Department of Education have emerged as Congress and the White

House attempt to rein in deficit spending. With nearly 20% of IdahoPTV funding coming from Federal sources via CPB, it remains a major worry. In addition, competition for private contributions continues to grow. IdahoPTV already out performs its peers of other State-licensed PBS stations in the percentage of the population which supports it. It is unrealistic to expect major growth in this area.

FCC Spectrum Auction – With the FCC's recent auctioning of TV Broadcast spectrum to wireless carriers and the subsequent repacking of stations into the remaining frequencies, Idaho Public Television faces major hurdles. KCDT transmitter in Coeur d'Alene will need to change channels, requiring a new transmitter & antenna, though the FCC has given IdahoPTV a new channel and funding to make the move. Unfortunately many of the 47 translators that serve smaller communities may also have to move channels, and the FCC will neither guarantee new frequencies nor provide funding for those mandated changes. Some areas of the state could lose over-the-air service.

Regulatory Changes – With more than 55% of Idaho Public Television funding coming from private contributions, the recent changes to federal tax policy has the distinct potential to negatively impact charitable giving. In addition, Idaho Public Television operates under numerous other rules and regulations from entities such as the Federal Aviation Administration, Federal Communications Commission, Department of the Interior, Department of Agriculture, Department of Education, Department of Homeland Security, and others. Changes to those policies and regulations could impact operations.

Broadband/New Media Devices – As viewers increasingly obtain their video content via new devices (computers, iPads, smartphones, broadband delivered set-top-boxes, etc.) in addition to traditional broadcast, cable and satellite, Idaho Public Television must invest in the technology to meet our viewers' needs. The ability of public television stations to raise private contributions and other revenue via these new platforms continues to be a significant challenge.

ATSC 3.0 – Recently, the FCC adopted standards for a new, improved television technology. Like the move from analog to digital, this new standard will make all previous television equipment obsolete for both the broadcaster and the consumer. Currently, adoption of this new standard is voluntary, but we expect that eventually it will become mandatory. Planning for this new standard is already underway; and as equipment is replaced, every effort is being made to ensure it is upgradable to the new standard.

EVALUATION PROCESS

Idaho Public Television uses the following methods to evaluate our services:

We are a member of the Organization of State Broadcasting Executives, an association of chief executive officers of state public broadcasting networks, whose members account for almost half of the transmitters in the public television system. OSBE gathers information, keeps years of data on file, and tracks trends. OSBE members are represented on the policy teams for our national organizations, including PBS, APTS, and NETA.

We have a statewide advisory Friends board, currently 29 directors, with broad community and geographic representation. This board meets formally on a quarterly bases. It serves as a community sounding board to provide input.

Through Nielsen data, Google Analytics, and other research information, we have access to relevant metrics to make informed and successful marketing and programming decisions. Viewership helps determine which content is most relevant to the community we serve and how to best serve the people of Idaho. We also receive feedback from the community regarding our work. Our production team ascertains issues in the community and uses this information to plan local program productions. Each quarter, we prepare and post on the FCC website lists of programs we air that provide the station's most significant treatment of community issues.

Recently, Idaho Public Television was successful in obtaining a number of private and federal grants to provide educational services to teachers, students and parents. As part of those grants we will be conducting research on the impact these education initiatives are having on the populations served.

Additionally, IdahoPTV employed leaders from PBS Station Services with expertise in strategic planning to conduct a two-day retreat for station staff and board directors to help learn processes to evaluate our programs, products and services to ensure they support our connection to the community and our audiences. A number of specific goals were identified to help position the organization for a successful future.

---

1. Benchmark is based on industry standard and the need to reach as many Idahoans as possible via all the content and video technologies.
2. Benchmark is based on industry standard and the need to reach as many Idahoans as possible via all the content and video technologies.

Idaho State Department of Education

STRATEGIC PLAN FY2019-2023

Superintendent Sherri Ybarra

MISSION STATEMENT

The Idaho State Department of Education is dedicated to providing the highest quality of support and collaboration to Idaho's public schools, teachers, students and parents.

VISION STATEMENT

Supporting Schools and Students to Achieve.

GOAL 1

ALL IDAHO STUDENTS PERSEVERE IN LIFE AND ARE READY FOR COLLEGE AND CAREERS

Objective A: **Fully implement the Idaho Content Standards (TF 2*)**

Idaho's methodology for fully implementing the Idaho Content Standards is largely based in the expansion of successful teacher coaching programming, which will grow to include Math teachers in addition to the existing ELA component. This coaching model is designed to invest in human capital that remains in local districts and that meets local needs. Coaches focus on instructional shifts and work over time, face-to-face with teachers to help provide coherence and flexibility around the Idaho Content Standards, as well as immediate impact in classrooms. Long term, coaches will also include training administrators and regional cadres.

Performance Measures:

I. Percentage of students meeting proficient or advanced placement on the Idaho Standards Achievement Test.

	FY16 (2015-2016)	**FY17** (2016-2017)	**FY18 (2017-2018)**	**FY19 (2018-2019)**	**FY20 (2019-2020)**	**FY21 (2020-2021)**	**Benchmark**
ELA 5th	53.8%	54%					69.2%
MATH 5th	40%	42%					60.0%
ELA - High School**	61.8%	59%					74.5%
MATH - High School**	30.9%	32%					53.9%

Benchmark: 5th Grade ELA – 69.2% of students.[2](by 2022)
5th Grade Math – 60.0% of students.[2](by 2022)
High School** ELA – 74.5% of students.[2](by 2022)
High School** Math – 53.9% of students.[2](by 2022)

** Grades 10 through 12

II. Percentage of all students meeting proficient or advanced placement on the Idaho Standards Achievement Test:

	2016	**2017**	**2018**	**2019**	**2020**	**2021**	**Benchmark**
Mathematics	41.6%	41.8%					61.1%
ELA/Literacy	53.0%	52.0%					68.7%

Benchmark: Mathematics - 61.1% of all students.[2] (by 2022)
ELA/Literacy – 68.7% of all students.[2] (by 2022)

Objective B: Implement multiple pathways to graduation

In order to implement multiple pathways to graduation, SDE will assert, provide and offer increased flexibility (alternative methods) for students to demonstrate competency in satisfying state and local graduation requirements. The Advanced Opportunities and GEAR UP programs will contribute to this strategy, as will targeted efforts for special education and gifted and talented students.

Performance Measures:

I. Percentage of high school juniors and seniors participating in Advanced Opportunities (Fast Forward Program only).

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
N/A	29%	32%	47%	60%

Benchmark: 60% of students per year.[1] (by 2022)

GOAL 2

ALL EDUCATION STAKEHOLDERS IN IDAHO ARE MUTUALLY RESPONSIBLE FOR ACCOUNTABILITY AND STUDENT PROGRESS

Objective A: Increase district autonomy and ability to innovate

To implement this strategy, we recommend the Governor's Office, State Board of Education, and State Department of Education evaluate existing education laws and administrative rules and work with the Legislature to remove those which impede local autonomy, flexibility to adapt to local circumstances, and the ability of the schools to be agile, adaptive, innovative, and drive continuous improvement.

Performance Measures:

I. Percentage of Idaho high school graduates meeting college placement/entrance exam college readiness benchmarks.

Exam	FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	Benchmark
SAT	25.7%	25.2%	33.0%	32.0%	60%
ACT	34.0%	37.0%	36.8%	33.0%	60%

Benchmark: **SAT** – 60% of students.Error! Bookmark not defined. (by 2024)
ACT – 60% of students. Error! Bookmark not defined. (by 2024)

Objective B: ***Establish a Mastery Education Network (TF 1*)***

Mastery education is being embraced by districts and schools across the country as a method of empowering learners, allowing more student voice and enabling students to learn at their own pace. At its core is the shift to learning as measured by a student's ability to demonstrate mastery, not seat time devoted to a subject or grade level. SDE will facilitate the creation of a voluntary network of schools that will begin to implement shifts toward mastery. During the first several years of this network, the state will convene these schools to learn from one another, support the schools where appropriate, learn from school innovations and best practices, and collect models for implementation to prepare for supporting additional schools in this shift. SDE will also investigate which state policies and rules impede a true mastery model, and work with state lawmakers to remove policy barriers to full implementation.

Performance Measures:

I. High school cohort graduation rate.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
84.1%	77.3%	78.9%	79.7%	95%

Benchmark: 95%[2](by 2023)

Key External Factors

Movement toward meeting specified goals is contingent on efforts of state policy makers as well as the work taking place within the individual school districts and charter schools.

Evaluation Process

*denotes Governor's K-12 Task Force Recommendations by number

[1] Benchmarks are set based on State Board of Education Benchmarks

[2] Benchmarks are set based on *Idaho's Consolidated State Plan*, February 15, 2018

Appendix 1

Cybersecurity Plans As required by Executive Order 2017-02, the strategic plan should also include an update on the agency's adoption of the National Institute of Standards and Technology (NIST) Cybersecurity Framework and implementation of Center for Internet Security (CIS) Controls. This may be incorporated into the framework of the agency's strategic plan if the efforts fit within an agency goal, or may be included as an addendum. At a minimum, strategic plans should identify how the agency will comply with the first five CIS Controls by June 30, 2018. They should also report any progress already made toward these goals.

The State Department of Education has been working on proactive steps to mitigate cybersecurity risk. To increase the Department's capacity and ability to protect its systems and the data with which it is entrusted the Department has:

1. Hired a Security Coordinator to work on policy and implementation of security initiatives
2. Implemented cybersecurity awareness training for all SDE employees and initiated in-depth training for key personnel
3. Adopted the NIST Cybersecurity Framework as a guideline for securing critical systems
4. Worked to implement the first five Center for Internet Security Critical Security Controls (CIS Controls)
    a. Analyzed initial compliance with each of the 20 CIS Controls
    b. Drafted IT policy and adapted internal procedure to meet the first five CIS Controls
    c. Installed and adjusted hardware and software configurations to align with the first five CIS Controls

ATTACHMENT 13

TechHelp Strategic Plan
2019 – 2023

MISSION STATEMENT

TechHelp will be a respected, customer-focused, industry recognized organization with strong employee loyalty, confidence of its business partners and with the resources and systems in place to achieve the following sustained annual results in 2021:

- *80 manufacturers reporting $100,000,000 economic impact*
- *180 jobs created*
- *> $20,000 and < $50,000 Net Income*

VISION STATEMENT

TechHelp is Idaho's Manufacturing Extension Partnership (MEP) center. Working in partnership with the state universities, we provide assistance to manufacturers, food and dairy processors, service industry and inventors to grow their revenues, to increase their productivity and performance, and to strengthen their global competitiveness.
"Our identity is shaped by our results."

GOAL 1

Economic Impact on Manufacturing in Idaho – Deliver a quantifiable positive return on both private business investments and public investments in TechHelp by adding value to the manufacturing client and the community.

Objective A: *Offer technical consulting services and workshops that meet Idaho manufacturers' product and process innovation needs.*

Performance Measure:

I. ***Client reported economic impacts (sales, cost savings, investments and jobs) resulting from projects***

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
$34,142,000/154 New Jobs	**$182,258,168/340 New Jobs**	**$33,022,678/100 New Jobs**	**$33,726,818/70 New Jobs**	**$100,000,000/180 New Jobs**

Benchmark: *Reported cumulative annual impacts improve by five percent over the prior year achieving $100,000,000 and 180 new jobs annual reported impact by 2021[i].*

Objective B: *Offer a range of services to address the needs of Small, Rural, Start-up and Other manufacturers Idaho.*

Performance Measure:

*I. **Number of impacted clients categorized as Small, Rural, Start-up and Other as reported in the MEP MEIS system***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017) **Q1-Q3**	**FY18** (Q2 2017- Q1 2018)	**Benchmark**
N/A	**N/A**	**N/A**	**17 Small**	**35 Small**	**15 Small**
N/A	**N/A**	**N/A**	**39 Rural**	**42 Rural**	**20 Rural**
N/A	**N/A**	**N/A**	**4 Start-Up**	**17 Start-up**	**10 Start-up**
N/A	**N/A**	**N/A**	**25 Other**	**23 Other**	**35 Other**

Benchmark: Number of clients served by category exceeds MEP goal as follows by 2021[ii]:
15 Small,
20 Rural,
20 Start-up,
35 Other

Objective C: *Ensure manufacturing clients are satisfied with services.*

Performance Measure:

*I. **Customer satisfaction reported on MEP survey***

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18 (2017-2018)**	**Benchmark**
10 out of 10	**9 out of 10**	**9 out of 10**	**9.6 out of 10**	**8 out of 10**

Benchmark: Customer satisfaction score is consistently > 8 out of 10[iii]

Goal 2

Operational Efficiency – Make efficient and effective use of TechHelp staff, systems, partners and third parties, and Advisory Board members.

Objective A: *Increase the number of client projects and events.*

Performance Measure:

*I. **State dollars expended per project/event***

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18 (2017-2018)**	**Benchmark**
$1,769	**$1,139**	**$774**	**$920**	**> Prior year's total**

Benchmark: Dollars per project/event expended is less than prior year's total[iv]

Objective B: *Offer services to numerous Idaho manufacturers.*

Performance Measure:

I. Number of impacted clients per $ Million federal investment as reported on MEP sCOREcard[v]

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18 (2017-2018)**	**Benchmark**
45 Clients Surveyed	**56 Clients Surveyed**	**69 Clients Surveyed**	**81 Clients Surveyed**	**80 Clients Surveyed**

Benchmark: Number of clients served exceeds federal minimum with a goal of 80 clients surveyed (i.e.,110 clients per $ Million) by 2021[vi]

Goal 3

Financial Health – Increase the amount of program revenue and the level of external funding to assure the fiscal health of TechHelp.

Objectives A: *Increase total client fees received for services.*

Performance Measure:

I. ***Gross and Net revenue from client projects***

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18 (2017-2018**	**Benchmark**
$668,217	**$615,117**	**$593,940**	**$576,890**	**$1,200,000 gross annually**
$354,763	**$454,672**	**$409,175**	**$391,904**	**$700,000 net annually**

Benchmark: Annual gross and net revenue exceeds the prior year by five percent achieving $1,200,000 gross and $700,000 net annually be 2021[vii]

Objectives B: *Increase external funding to support operations and client services.*

Performance Measure:

I. ***Total dollars of non-client funding (e.g. grants) for operations and client services.***

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18 (2017-2018**	**Benchmark**
$825,000	**$910,236**	**$885,236**	**$885,236**	**$1,300,000**

Benchmark: *Total dollars of non-client funding for operations and client services exceed the prior year's total achieving $1,300,000 by 2021[viii].*

Key External Factors

I. State Funding:
Nationally, state funding is the only variable that correlates highly with the performance of the Manufacturing Extension Partnership centers. State funding is subject to availability of state revenues as well as gubernatorial and legislative support and can be uncertain.

II. Federal Funding:
The federal government is TechHelp's single largest investor. While federal funding has been stable, it is subject to availability of federal revenues as well as executive and congressional support and can be uncertain.

III. Economic Conditions:
Fees for services comprise a significant portion of TechHelp's total revenue. We are encouraged by current economic activity and believe it will support the ability of Idaho manufacturers to contract TechHelp's services.

Evaluation Process

The TechHelp Advisory Board convenes its membership, which is made up of representatives from leaders of manufacturing companies, professional services companies, and Idaho's three universities, to review and recommend changes to the center's planning, client services and strategic plan. Recommendations are presented to the Advisory Board and the Executive Director for consideration. Additionally, as part of the NIST MEP cooperative agreement, the Advisory Board reviews and considers inputs that affect its strategic plan. Plan changes may be brought to the Advisory Board or TechHelp leadership and staff during the year. Review and re-approval occurs annually and considers progress towards performance measure goals, which are formally reviewed quarterly.

Performance towards meeting the set benchmarks is reviewed and discussed quarterly at both TechHelp staff meetings and at Advisory Board Meetings. The Advisory Board may choose at that time to direct staff to change or adjust performance measures or benchmarks contained strategic pan.

IDAHO SMALL BUSINESS DEVELOPMENT
STRATEGIC PLAN
2019 – 2023

EMPOWERING BUSINESS SUCCESS

MISSION STATEMENT

To enhance the success of small businesses in Idaho by providing high-quality consulting and training, leveraging the resources of colleges and universities.

VISION STATEMENT

Idaho SBDC clients are recognized as consistently outperforming their peers.

GOAL 1 - Maximum Client Impact

Focus time on clients with the highest potential for creating economic impact.

Objective A: Develop long-term relationships with potential and existing growth and impact clients.

Performance Measures:

I. ***Percent of hours with clients with recorded impact***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
49%	**54%**	**52%**	**34%**	**70%**

Benchmark: 70%[1] *(by 2022)*

II. ***Capital raised by clients in millions***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
$24.3	**$31.6**	**$33.9**	**$49.0**	**$40.6**

Benchmark: $40.6 million[2] (by FY 2022)

III. ***Client sales growth in millions***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
$33.7	**$47.1**	**$52.0**	**$46.0**	**$56.6**

Benchmark: $56.6 million[3] (by FY 2022)

IV. ***Jobs created by clients***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
429	**708**	**871**	**747**	**900**

Benchmark: 900[4] (by FY 2022)

Objective B: Expand expertise available to clients through cross-network consulting, adding programs, using tools, and increasing partnerships.

Performance Measures:

I. Per cent of cross-network consulting hours (new metric)

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
			0.4%	**10%**

Benchmark: 10%[5] (by FY 2022)

GOAL 2 – Strong Brand Recognition

Increase brand recognition with stakeholders and the target market.

Objective A: Create statewide marketing plan and yearly marketing matrix to provide consistent voice and message.

Performance Measures:

I. Yearly marketing plan created and distributed

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
			In progress	**completion**

Benchmark: [6] (by FY 2022)

II. # of training hours

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
11,390	**11,231**	**11,793**	**11,795**	**14,944**

Benchmark: 14,944[7] (by FY 2022)

Objective B: Create and implement a brand awareness survey.

Performance Measures:

I. Baseline awareness being established

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
			In progress	**TBD**

Benchmark: established in FY18[8] (by FY 2022)

GOAL 3 – Increase Resources

Increase funding and consulting hours to create economic impact through increased client performance.

Objective A: Bring additional resources to clients through partnerships, students, and volunteers.

Performance Measures:

I. % client referrals from partners

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
			11%	**TBD**

Benchmark: TBD[9] (by FY 2022)

Objective B: Seek additional funding for Phase 0 program and to locate PTAC consultants in north and east Idaho.

Performance Measures:

II. Amount of funding

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	Benchmark
			$74,000	$100,000

Benchmark: $100,000[10] (by FY 2020)

GOAL 4 – Organizational Excellence

Ensure the right people, processes and tools are available to deliver effective and efficient services.

Objective A: Implement professional development certification on Global Classroom.

Performance Measures:

I. % of employees meeting certification and recertification requirements

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	Benchmark
			80% complete	100%

Benchmark: 100%[11] (by FY 2018)

II. Return on Investment

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	Benchmark
4:1	2:1	5:1	8:1	7:1

Benchmark: 6:1 average over rolling 5 years[12] (by FY 2020)

III. Overall customer satisfaction rating (source of data being changed)

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	Benchmark
				4.6

Benchmark: 4.6[13] (yearly)

Objective B: Deliver monthly internal trainings to increase expertise and share best practices.

Performance Measures:

I. Rating of consultant skill adequacy (new metric)

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	Benchmark
			4.9	4.6

Benchmark: 4.6[14] (yearly)

Key External Factors

The Idaho SBDC is part of a national network providing on-cost consulting and affordable training to help small business grow and thrive in all U.S. states and territories. The network has an accreditation process conducted every five years to assure continuous improvement and high quality programs. The accreditation standards, based on the Malcolm Baldrige Quality Standards, cover six key areas:

- Leadership
- Strategic Planning
- Stakeholder and Customer Focus

- Measurement, Analysis and Knowledge Management
- Workforce Focus
- Operations Focus

The Idaho SBDC also achieved accreditation of its technology commercialization program – one of 15 SBDC's out of 63 networks – in 2014 and continues to offer technology commercialization assistance to entrepreneurs, existing companies, and colleges/universities. Maintaining this accreditation is a continuing focus.

Evaluation Process
Funding is received from the U.S. Small Business Administration (SBA), the State of Idaho through the State Board of Education, and Idaho's institutes of higher education who host six outreach offices to cover all 44 Idaho counties. Needs and requirements from a three key stakeholders are considered on a yearly basis and incorporated into the Idaho SBDC's strategic plan. Strategic planning is an on-going process with a yearly planning session conducted in an all-staff meeting in the Spring each year and progress tracked through a Fall all-staff meeting and two other conference calls. Performance metrics are required by SBA and also the accreditation process. A statewide Advisory Council composed of small businesses and stakeholder representatives meets four times per year and contributes to the strategic plan.

Progress on many of the performance measures versus goals are located on a dashboard in the Idaho SBDC's client management system so that all staff understand the expectations and progress. Goals are reviewed at least twice a year during a monthly video conference with regional directors and program managers. Measures that are not part of the dashboard are calculated and reported to the State Board of Education.

---

[1] Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact – 20% increase in hours with impact clients in 5 years.
[2] Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact and a 20% increase in the average of the last 3 years.
[3] Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact and a 20% increase in the average of the last 3 years.
[4] Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact and a 20% increase in the average of the last 3 years.
[5] Mechanism to measure is being developed.
[6] Completing of marketing plan and yearly marketing calendar
[7] Benchmark is set based on an analysis of historical trends and available resources and the use of training programs to increase awareness.
[8] A process is being developed to set a baseline. A goal will be set in FY19.
[9] Benchmark is being set by adjusting the list of partners and making the field mandatory. Baseline will be set in FY19 and benchmark projected.
[10] Benchmark was set by calculating the demand for Phase 0 funding and for support of a half-time person in north Idaho and a half-time person in east Idaho.
[11] All employees should be certified within 6 month of start date and obtain 1 hour of certification for each hour worked/week (40 hours of yearly professional development for a full-time person).
[12] Based on 30% increase of the average of the past 3 years and is measured as a 3 year rolling average.
[13] Based historical data and is a combination of the average of the overall satisfaction from the initial survey, 120-day survey, and annual survey - on a scale of 1-5 with 5 being the highest rating.
[14] Based historical data and is a combination of the average of the skills assessment from the initial survey, 120-day survey, and annual survey - on a scale of 1-5 with 5 being the highest rating.

Family Medicine Residency of Idaho, Inc.

FAMILY MEDICINE RESIDENCY
OF IDAHO

FY 2019 – 2023
Strategic Plan

MISSION STATEMENT
Train outstanding broad spectrum family medicine physicians to work in underserved and rural areas while serving the vulnerable populations of Idaho with high quality, affordable care provided in a collaborative work environment

VISION STATEMENT
A vibrant, nationally recognized teaching health center providing exceptional, comprehensive, person-centered care.

GOAL 1: Family Medicine Workforce
To produce Idaho's future family medicine workforce by attracting, recruiting, and employing outstanding medical students to become family medicine residents and to retain as many of these residents in Idaho as possible post-graduation from residency.

1.1. Core Program – Boise
  1.1.1. Maintain resident class size of 11-11-11
    1.1.1.1. Raymond (11-5-5)
    1.1.1.2. Fort (0-2-2)
    1.1.1.3. Emerald (0-2-2)
    1.1.1.4. Meridian (0-2-2)
1.2. Rural Training Tracks
    1.2.1.1. Caldwell (3-3-3)
    1.2.1.2. Magic Valley (2-2-2)
1.3. Fellowships
    1.3.1.1. Sports Medicine (1)
    1.3.1.2. HIV Primary Care (1)
    1.3.1.3. Geriatrics (1)
    1.3.1.4. OB (1)
1.4 Core Program – Nampa
    1.4.1 Will look to open new Family Medicine Residency Program in Nampa on July 1, 2019 with resident class size of 6 per class (6-6-6)

Objective A: To recruit outstanding medical school students to FMRI for family medicine residency education, this includes recruitment to the rural training tracks and fellowships. The FMRI maintains an outstanding national reputation for training family physicians, participates in national recruitment of medical students, participates in training of medical students in Idaho and participates actively in the recruitment, interview and selection process to match outstanding candidates for its programs.

Performance Measures:

I. ***FMRI will track how many students match annually for residency training in family medicine at FMRI.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
16/16 = 100%	**16/16= 100%**	**16/16= 100%**	**16/16= 100%**	**16/16= 100%**	**100%**

Benchmark: One hundred percent of all resident positions and over 50 percent of all fellow positions matched per year. This measure reflects the national standard of excellence in residency accreditation and capacity within the fellowships.

Objective B: To graduate fully competent family physicians ready to practice independently the full scope of family medicine. This is achieved through curriculum and experiential training which reflects the practice of family medicine in Idaho, including training in rural Idaho communities.

Performance Measures:

II. **FMRI will track the ABFM board certification rates of the number of graduates per year from FMRI.**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**	**100%**	**N/A**	**>95%**

Benchmark: FMRI will attain a 95 percent ABFM board certification pass rate of all family physicians and fellows per year from the program. This is a measure commensurate with the accreditation standard for family medicine residency programs.

Objective C: To keep as many family physicians as possible in Idaho after residency and fellowship graduation. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of Idaho, programming and education reflective graduates in making practice location decisions.

Performance Measures:

III. **FMRI will encourage all graduates (residents and fellows) to practice in Idaho and track how many remain in Idaho.**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
47%	**43%**	**47%**	**56%**	**50%**	**>50%**

Benchmark: 50 percent retention rate of graduates to practice in Idaho. This measure reflects an outstanding benchmark well above the state median for retention of physicians retained from GME.

Objective D: To produce as many family physicians as possible to practice in rural or underserved Idaho. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of both rural and underserved Idaho, education reflective of the needs and opportunities in rural and underserved practices in Idaho, and dedicated role models in guiding graduates in making practice locations decisions to care for rural and underserved populations of patients. The curriculum intentionally involves direct care of rural and underserved populations throughout the course of residency training.

Performance Measures:

IV. Of those graduates staying in Idaho, FMRI will track how many stay in rural or underserved Idaho.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
43%	**50%**	**75%**	**100%**	**51%**	**40%**

Benchmark: 40 percent of graduates staying in Idaho will be practicing in rural or underserved Idaho. This measure demonstrates an exceptional commitment of the program and its graduates to serving rural and underserved populations in particular.

Objective E: To begin a new family medicine residency program in Nampa, Idaho with 6 family medicine residents per class.

Performance Measures:

V. To have the first class of 6 family medicine residents start on July 1, 2019.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
N/A	**N/A**	**N/A**	**N/A**	**N/A**	**100%**

Benchmark: To fill the first class of 6 family medicine residents on July 1, 2019.

GOAL 2: Patient Care | Delivery | Service

Serve the citizens of Ada County and surrounding areas in a high-quality Patient Centered Medical Home.

2.1 All FMRI clinics where resident education is centered will attain and maintain National Committee on Quality Assurance (NCQA), Level III Patient Centered Medical Home (PCMH) recognition.
2.2 All FMRI clinics will utilize Meaningful Use criteria in using the Electronic Medical Records (EMR).
2.3 FMRI will maintain a 340b Pharmacy, with expanded access for our patients via expanded hours and utilize Walgreen's and other local pharmacy collaborations.

Objective A: To maintain recognition NCQA Level III PCMH. Maintenance of NCQA recognition is on a 3 year cycle.

Performance Measures:

I. ***All FMRI clinics where resident continuity clinics reside will maintain Level III PCMH's and we will apply for NCQA recognition for our other two clinics.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**	**100%**	**100%**	**100%**

Benchmark: Maintain 100% NCQA designation as a Level III PCMH at all FMRI clinics where resident continuity clinics reside. NCQA recognition is the national standard for PCMH recognition.

Objective B: All FMRI clinics using Meaningful Use Electronic Medical Records. We are tracking the meaningful use objectives and measures and are assuring that all the providers at FMRI are meeting these.

Performance Measures:

II. ***All FMRI clinics using Meaningful Use EMR criteria.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**	**100%**	**100%**	**100%**

Benchmark: Implement Meaningful Use EMR at all clinics. Meaningful Use EMR is necessary for coordinated and integrated care as part of NCQA recognition and good patient care. Medicaid Provider Meaningful Use Incentive program is necessary for compliance.

Objective C: Maintenance and expansion of FMRI 340b pharmacy services. We have expanded our pharmacy hours to help patient access as well as the Walgreens and other pharmacy collaboration.

GOAL 3: Education

To provide an outstanding family medicine training program to prepare future family medicine physicians.

3.1All FMRI programs maintain Accreditation Council for Graduate Medical Education (ACGME) accreditation where appropriate.
3.2 All FMRI programs maintain integrated patient care curriculum and didactics.
3.3 All FMRI programs maintain enhanced focus on research and scholarly activities.
3.4 FMRI programs have a quality and patient safety curriculum for clinical learning environments.
3.5 FMRI demonstrates mastery of the New Accreditation System (NAS) of the ACMGE.

Objective A: FMRI will maintain full accreditation with Accreditation Council of Graduate Medical Education (ACGME) and its Residency Review Committee for Family Medicine (RRC-FM). This is a marker of certification and excellence for accredited programs.

Performance Measures:

I. ***FMRI will track its accreditation status and potential citations.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**	**100%**	**100%**	**100%**

Benchmark: Maintain 100 percent full and unrestricted ACGME program accreditation for all programs as appropriate. This measure meets the ideal goal for the FMRI programs.

Objective B: FMRI will maintain all ACGME accreditation requirements in the New Accreditation System (NAS) including a Clinical Competency Committee (CCC), Annual Program Evaluations (APE), Annual Institutional Review (AIR), and Clinical Learning Environment Review (CLER). This set of goals is met through oversight of each FMRI program by the FMRI Graduate Medical Education Committee on an ongoing basis.

Performance Measures:

II. ***FMRI will track its NAS CCC, APE, AIR and CLER goals.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
N/A	**100%**	**100%**	**100%**	**100%**	**100%**

Benchmark: Maintain 100 percent monitoring for all programs as appropriate. This measure meets the ideal goal for the FMRI programs.

GOAL 4: Faculty

FMRI has a diverse team of faculty that provides rich training environments, who are tremendously dedicated and committed to family medicine education, and enjoy working with family medicine residents and caring for our patients.

4.1 Continue to provide faculty development fellowship opportunities at the University of Washington.

Objective A: Continue expansion of dedicated and committed family medicine faculty. Targeted recruiting of full spectrum family medicine faculty through local, alumni resource, regional and national recruiting efforts.

Performance Measures:

I. ***One faculty member per year at the UW Faculty Development Fellowship.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
One	**One**	**One**	**One**	**N/A**	**One**

Benchmark: One per year. This measure meets the ideal goal for the FMRI programs.

GOAL 5: Rural Outreach
The three pillars of FMRI's rural outreach are to provide education to students, residents and rural providers, to provide service and advocacy for rural communities and foster relationships that will help create and maintain the workforce for rural Idaho.

5.1 Increase to 35 rural site training locations.

Objective A: To maintain 35 rural site training locations in Idaho. This goal is met though growing partnerships with communities resulting in development of additional rotations in rural Idaho.

Performance Measures:

II. Maintain 35 rural site training locations

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
N/A	**31**	**34**	**34** With active PLA's; In process of developing Driggs for 35	**39**	**35**

Benchmark: Maintain 35 sites. This measurement is based upon standing agreements with resident rotation sites.

Key External Factors

1. Funding: The Family Medicine Residency of Idaho (FMRI) and its operations are contingent upon adequate funding. For fiscal 2018, approximately 59% of revenues were generated through patient services (including pharmacy), 18% were derived from grants and other sources, and 23% came from contributions (excluding in-kind contributions for facility usage and donated supplies). Contributions include Medicare GME dollars and other amounts passed through from the area hospitals, as well as funding from the State Board of Education. Grant revenue is comprised primarily of federal or state-administered grants, notably a Consolidated Health Center grant, Teaching Health Center grant, and grants specific to HIV, TB and refugee programs administered by the FMRI.

2. Teaching Health Center (THC) Grant Funding: The FMRI received grant funding through the THC-GME program of the Affordable Care Act (ACA) in fiscal 2012 to fund six residents annually in family medicine training. This expansion increased the overall FMRI class size by two residents per class (total of six in the program representing the three classes). At this time, it is believed this funding will continue through fiscal 2017 due to the passage of the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA). Award amounts will be dependent on the unused funds from the previous program years but are expected to be similar to fiscal 2016 awards. This funding is expected to stop on September 2019.

3. Hospital Support: FMRI requires contributions from both Saint Alphonsus and St. Luke's Health Systems in regards to Medicare DME/IME pass through money. This is money given through the hospitals to the Residency by the federal government in the form of Medicare dollars to help with our training. In addition, the hospitals both have additional contributions that are essential to FMRI's operations. The Hospitals have become progressively strapped financially and have not increased payment for the last 5 years.

4. Medicaid/Medicare: FMRI requires continued cost-based reimbursement through our Federally Qualified Health Center (FQHC) designation model for Medicaid and Medicare patients. This increased reimbursement funding is critical to the financial bottom line of the Residency. Medicaid and Medicare should continue its enhanced reimbursement for Community Health Centers and Federally Qualified Health Centers into the future. The new Presidents administration may have a disastrous impact on Medicaid.

5. Federally Qualified Health Center (FQHC) and Teaching Health Center Designations: FMRI must maintain its FQHC and Teaching Health Center designations and advocate for continued medical cost reimbursement. In late October 2013, FMRI became a Section 330 New Access Point grantee with the addition of the Kuna clinic and Meridian Schools clinic and the expansion of the Meridian clinic. Currently, all eight of FMRI's outpatient clinics received the FQHC designation. FQHC grant funding represented approximately 5% of fiscal 2017 funding.

6. Legislation/Rules: The Idaho State Legislature's support of FMRI's request for state funding is critical to the ongoing success of FMRI as it provides essential financial resources for the FMRI's continued residency training program. The total funding FMRI received from the state in FY 2017 was $1,530,000. This was increased for FY 2019 to $3,270,000 to provide for the new Family Medicine Residency in Nampa as well as the FMRI's four fellowship programs and a new Rural Training Track in the future.

7. Governor's Support: Governor C.L. "Butch" Otter continued his strong support for FMRI and graduate medical education training by recommending an increase in funding for graduate medical education training in general and FMRI funding in particular as noted above. The upcoming election of a new Governor will be important for ongoing support of our key programs and initiatives.

Evaluation Process

A clear, specific and measurable methodology of setting goals around workforce education, patient care, faculty and rural outreach will be used. This will help both the FMRI and SBOE stay on a clear path for success with the FMRI program.

Appendix 1

Institution/Agency Goals and Objectives	Family Medicine Residency Goals: *Goal 1: Family Medicine Workforce*	*Goal 2: Patient Care / Delivery / Service*	*Goal 3: Education*	*Goal 4: Faculty*	*Goal 5: Rural Outreach*
GOAL 1: Family Medicine Workforce To produce Idaho's future family medicine workforce by attracting, recruiting, and employing outstanding medical students to become family medicine residents and to retain as many of these residents in Idaho as possible post – graduation from residency.					
Objective A: To recruit outstanding medical school students to FMRI for family medicine residency education, this includes recruitment to the rural training tracks and fellowships. The FMRI maintains an outstanding national reputation for training family physicians, participates in national recruitment of medical students, participates in training of medical students in Idaho and participates actively in the recruitment, interview and selection process to match outstanding candidates for its programs.	✔	✔	✔		
Objective B: To graduate fully competent family physicians ready to practice independently the full scope of family medicine. This is achieved through curriculum and experiential training which reflects the practice of family medicine in Idaho, including training in rural Idaho communities.	✔		✔		✔
Objective C: To keep as many family physicians as possible in Idaho after residency and fellowship graduation. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of Idaho, programming and education reflective graduates in making practice location decisions.	✔	✔			✔
Objective D: To produce as many family physicians as possible in Idaho after residency and fellowship graduation. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of Idaho, programming and education reflective graduates in making practice location decisions.	✔				✔
***GOAL 2:* Patient Care | Delivery | Service** Serve the citizens of Ada County and surrounding areas in a high-quality Patient Centered Medical Home.					

Objective A: To maintain recognition NCQA Level III PCMH. Maintenance of NCQA recognition is on a 3 year cycle.		✓	✓		
Objective B: All FMRI clinics using Meaningful Use Electronic Medical Records. We are tracking the meaningful use objectives and measures and are assuring that all the providers at FMRI are meeting these.		✓	✓		
GOAL 3: **Education** To provide an outstanding family medicine training program to prepare future family medicine physicians.					
Objective A: FMRI will maintain full accreditation with Accreditation Council of Graduate Medical Education (ACGME) and its Residency Review Committee for Family Medicine (RRC-FM). This is a marker of certification and excellence for accredited programs.			✓		
Objective B: FMRI will maintain all ACGME accreditation requirements in the New Accreditation System (NAS) including a Clinical Competency Committee (CCC), Annual Program Evaluations (APE), Annual Institutional Review (AIR), and Clinical Learning Environment Review (CLER). This set of goals is met through oversight of each FMRI program by the FMRI Graduate Medical Education Committee on an ongoing basis.			✓		
GOAL 4: **Faculty** FMRI has a diverse team of faculty that provides rich training environments, who are tremendously dedicated and committed to family medicine education, and enjoy working with family medicine residents and caring for our patients.					
Objective A: Continue expansion of dedicated and committed family medicine faculty. Targeted recruiting of full spectrum family medicine faculty through local, alumni resource, regional and national recruiting efforts.			✓	✓	
GOAL 5: **Rural Outreach** The three pillars of FMRI's rural outreach are to provide education to students, residents and rural providers, to provide service and advocacy for rural communities and foster relationships that will help create and maintain the workforce for rural Idaho.					
Objective A: To maintain 35 rural site training locations in Idaho. This goal is met though growing partnerships with communities resulting in development of additional rotations in rural Idaho.	✓		✓		✓

ATTACHMENT 16

ISU Department of Family Medicine
Strategic Plan 2019-2023

MISSION STATEMENT
Idaho State University Family Medicine Residency is committed to interdisciplinary, evidence-based care and service to our patients and community, university-based education of residents & students, and recruitment of physicians for the State of Idaho.

VISION STATEMENT
Idaho State University Family Medicine Residency (ISU FMR) envisions a clinically rich residency program; graduating courteous, competent, rural physicians.

GOAL 1
Access – Recruitment of physicians for Idaho

Objective A: Ensure national reputation and online national exposure to maintain a high number of high caliber applicants to ISU Family Medicine Residency.
Performance Measures:
High application rate and interview rate.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
-- **69 interviews**	**709 applications** **78 interviews**	**825 applications** **90 interviews**	**824 application** **76 interviews**	**>200 applications** **>70 interviews**

Benchmark: Applicant rate should be above 200 and interview rate should be 10 times the number of resident positions, or above 70 applicants per year.

Objective B: Match successfully each year through the Electronic Residency Application System.
Performance Measures:
Successful match each March.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
7	**7**	**7**	**7**	**7**

Benchmark: Initial 100% fill rate for 7 slots, 0% SOAP

Objective C: Structure the program so that 50% of graduates practice in Idaho.
Performance Measures:
Percent of graduates practicing in Idaho.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
86%	**43%**	**86%**	**33%**	**≥50%**

Benchmark: at least a 50% rate of graduates practice in Idaho

Objective D: Train and encourage residents to settle and serve in rural and underserved locations.
Performance Measures:
Percent of graduates practicing in rural and underserved areas.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
43% rural **100%underserve**	**48% rural** **86% underserved**	**57% rural** **57% underserved**	**33% rural** **67% underserved**	**≥75%**

Benchmark: 75% of graduates practice in rural or underserved areas

GOAL 2

Quality – Sustain and continuously improve medical care for Idaho citizens through education, quality improvement, and clinical research.

Objective A: Prepare and ensure the residents are educated to become board certified in family medicine.

Performance Measures:

Number of residents who take the American Board of Family Medicine exam within one year of training.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
7	**7**	**7**	**7**	**7**

Benchmark: 95% of residents take the ABFM exam within one year.

Objective B: Achieve a high board examination pass rate.

Performance Measures:

Board examinations passed.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**	**100%**	**90%**

Benchmark: 90% of graduates passed the ABFM exam in the last five years.

Objective C: Achieve high resident quality improvement rate.

Performance Measures:

Number of quality improvement projects.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
7	**7**	**7**	**7**	**≥90%**

Benchmark: 90% of residents will complete a quality improvement project in PGY2 or PGY3.

Objective D: Achieve a high scholarly activity rate.

Performance Measures:

Scholarly department output.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
31	**26**	**9**	**23**	

Benchmark: Number of scholarly activities publications & presentations.

GOAL 3

Efficiency – Improve long-term financial viability of the department/residency program.

Objective A: Maintain the best operational and financial structure to maximize funding streams and clinical revenues.

Performance Measures:

Maintain the new access point for Health West Pocatello Family Medicine.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
Complete	**Complete**	**Complete**	**Complete**	**Complete**

Benchmark: Complete and maintain affiliation agreement.

Objective B: Transition residency program through change in ownership and administration of Portneuf Medical Center

Performance Measures:

Level of support from PMC for ISU Family Medicine

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
Complete	**Complete**	**Complete**	**Complete**	**Complete**

Benchmark: Complete affiliation agreement with negotiated and maintained financial and programmatic support

Objective C: Maintained GME reimbursement

Performance Measures:

GME dollars reimbursed through cost reports

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
$2.5M **19.1 FTE**	**$2.6M** **18.5**	**$2.7M** **18.5**	**$2.6M** **17.0**	**$2.6 M** **18.5 / 21 FTE**

Benchmark: Maximize GME reimbursement per FTE

Objective D: Additional funding streams

Performance Measures:

Identify and maintain additional funding streams

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
3	**4**	**3**	**2**	**≥2 per year**

Benchmark: Awarded two new grants per year.

Key External Factors

1. **Access – Recruitment of physicians for Idaho.**
   a. Number of applicants depends upon the pool of medical students choosing family medicine.
   b. Number of applicants who match in the program is dependent on multiple factors including geographic ties and choice.
   c. Number of residents settling in rural locations and in Idaho is dependent on freedom from other commitments such as loan repayment, military service, and service obligations to other states.

2. **Quality – Sustain and continuously improve medical care for Idaho citizens through education, quality improvement, and clinical research.**
   a. Board examination pass rates are set nationally.
   b. For quality projects, we are dependent on the efficiency of data base retrieval systems.
   c. For medical research projects, we are dependent on external funding opportunities that vary nationally over time.

3. **Efficiency- Improve the Long-term financial viability of the department/residency program.**
   a. Health West Board decisions.
   b. Parent Legacy corporate decisions regarding PMC.
   c. National decisions regarding payment for graduate medical education.

Evaluation Process

ISU Family Medicine utilizes yearly department Strategic planning and holds monthly Program Evaluation Committee Meetings to help establish and revise the goals and objectives of the residency.

ATTACHMENT 17

Idaho Dental Education Program

STRATEGIC PLAN

2019 – 2023

MISSION STATEMENT

The Mission of the Idaho Dental Education Program is to provide Idaho residents with access to quality educational opportunities in the field of dentistry. We provide Idaho with outstanding dental professionals through a combination of adequate access for residents and the high quality of education provided. The graduates of the Idaho Dental Education Program will possess the ability to practice today's dentistry. Furthermore, they will have the background to evaluate changes in future treatment methods as they relate to providing outstanding patient care.

VISION STATEMENT

The Idaho Dental Education Program envisions an elite educational program; graduating competent and ethical dentists who benefit the residents of Idaho as professionals.

Goal 1: Provide access to a quality dental education for qualified Idaho residents

Objective A: Access - Provide dental education opportunities for Idaho residents

Performance Measures:

I. Contract for 4-year dental education for at least 8 Idaho residents

2014	2015	2016	2017	Benchmark
Yes	Yes	Yes	Yes	Yes

Benchmark: Contract in place with Creighton University School of Dentistry or another accredited dental school.

II. Number of students in the program per year

2014	2015	2016	2017	Benchmark
8	8	8	8	10

Benchmark: Increase the number of students in the program per year to 10.

Objective B: Quality education – Deliver quality teaching to foster the development of students within the program.

Performance Measures:

I. First time pass rate of National Dental Boards Part I

2014	2015	2016	2017	Benchmark
100%	100%	100%	100%	>85%

Benchmark: Pass rate will meet or exceed 85%

II. First time pass rate of National Dental Boards Part II

2014	2015	2016	2017	Benchmark

100%	100%	100%	100%	>85%

Benchmark: Pass rate will meet or exceed 85%

III. First time pass rate of Clinical Board Exam

2014	2015	2016	2017	Benchmark
100%	100%	100%	100%	>85%

Benchmark: Pass rate will meet or exceed 85% on clinical board exam necessary for licensure in Idaho.

Goal 2: Maintain some control over the rising cost of dental education

Objective A: Idaho Value - Provide the State of Idaho with a competitive value in educating Idaho dentists.

Performance Measures:

I. State cost per student

2014	2015	2016	2017	Benchmark
34%	33%	33%	33%	<50%

Benchmark: Idaho cost per student will be <50% of the national average cost per DDSE (DDS Equivalent). The cost per DDSE is a commonly utilized measure to evaluate the relative cost of a dental education program.

Objective B: Participant Value - Provide program participants with a competitive value in obtaining a dental degree

I. Student Loan Debt

2014	2015	2016	2017	Benchmark
	73.5%	66.7%	68.2%	<80%

Benchmark: Student loan debt for IDEP participants will be <80% of the national average.

Goal 3: Serve as a mechanism for responding to the present and/or the anticipated distribution of dental personnel in Idaho.

Objective A: Availability - Help meet the needs for dentists in all geographic regions of the state.

Performance Measures:

I. Geographic acceptance of students into the program

2014	2015	2016	2017	Benchmark
Yes	Yes	Yes	Yes	Yes

Benchmark: Students from each of 4 regions of Idaho (North, Central, Southwest, and Southeast) granted acceptance each year.

II. Return rate

2014	2015	2016	2017	Benchmark
50%	60%	67%	20%	>50%

Benchmark: Greater than 50% of program graduates return to Idaho.

Goal 4: Provide access for dental professionals to facilities, equipment, and resources to update and maintain professional skills.

Objective A: Quality Care - Provide current resources to aid the residents of Idaho by maintaining/increasing the professional skills of Idaho Dentists.

Performance Measures:

I. Continuing Dental Education (CDE)

2014	2015	2016	2017	Benchmark
Yes	Yes	Yes	Yes	Yes

Benchmark: Provide continuing dental education opportunities for regional dental professionals when the need arises.

II. Remediation of Idaho dentists

2014	2015	2016	2017	Benchmark
Yes	Yes	Yes	Yes	Yes

Benchmark: Successfully aid in the remediation of any Idaho dentist, in cooperation with the State Board of Dentistry and the Idaho Advanced General Dentistry Program, such that the individual dentist may successfully return to practice.

Key External Factors

Funding:

Most Idaho Dental Education Program goals and objectives assume ongoing, and in some cases additional, levels of State legislative appropriations. Availability of these funds can be uncertain. Currently with State budget considerations that specifically impact our program, the goal to increase the number of available positions within the program from 8 to 10 has not been feasible. This will remain a long-term goal for the program.

Program Participant Choice:

Some IDEP goals are dependent upon choices made by individual students, such as choosing where to practice. Even though this is beyond our control, we have had an excellent track record of program graduates returning to Idaho to practice.

Idaho Dentist to Population Ratio

The more populated areas of Idaho are more saturated with dentists, making it difficult for new graduates to enter the workforce in these areas. With this in mind, we have still seen a good percentage of program graduates return to Idaho to practice.

Educational Debt of Graduates

The average educational debt of IDEP graduates continues to be an area of concern. This amount of debt may limit the ability of graduates to return to Idaho initially.

Student Performance

Some of the goals of the program are dependent upon pre-program students to excel in their preparation for the program. However, we have not encountered difficulty in finding highly qualified applicants from all areas of the State.

Evaluation Process

The Idaho Dental Education Program utilizes annual department strategic planning meetings to establish and revise program objectives and goals.

ATTACHMENT 18

Idaho Museum of Natural History

FY2019-2024
Strategic Plan

MISSION STATEMENT
The Idaho Museum of Natural History actively nurtures an understanding of and delight in Idaho's natural and cultural heritage. As the official state museum of natural history, it acquires, preserves, studies, interprets and displays natural and cultural objects for Idaho residents, visitors and the world's community of students and scholars. The Museum also supports and encourages Idaho's other natural history museums through mentoring and training in sound museological practices.

VISION STATEMENT
Building Idaho's future, informed by our past.

GOAL 1: INCREASE VISITATION AND PUBLIC ENGAGEMENT

Objective A: Participation – Increase museum participation over the next five years.

Performance Measures:

I. **Number of people visiting exhibits at museum**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
9,147	**6,448**	**7,958**	**6666**	**>16,000**

Benchmark: 60% increase (>16,000) by FY2022

II. **Number of people attending museum events and programs**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
No data	**No data**	**No data**	**3103**	**>3,600**

Benchmark: 20% increase (>3,600) by FY2022

III. **Digital media reach(social media and websites)**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
No data	**179,058**	**674,482**	**699,127**	**>1 million**

Benchmark: 60% increase (>1 million) by FY2022

IV. **Number e-newsletter subscribers**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
No data	**No data**	**390**	**526**	**>1,000**

Benchmark: 100% increase (>1,000) by FY2022

V. **Attendance at museums renting IMNH exhibits**

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
No data	**500,000**	**137,000**	**105,000**	**>100,000**

Benchmark: Maintain or exceed an annual audience of 100,000 by an external venue

Red text indicates SBOE aligned measures.

VI. Number of memberships

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
24	**19**	**16**	**24**	**>100**

Benchmark: Change by 555% (>100) in FY2018, reevaluate at end of FY2018

Objective B: Community Sponsorships and Giving – Increase investment by community through corporate sponsorship and public donations.

Performance Measures:

I. Corporate sponsorships

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
$15,000	**$0**	**$3,750**	**$15,400**	**>$30,800**

Benchmark: Change by 100% (>$30,800) in FY2018, reevaluate at end of FY2018

II. Public giving

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
n/a	**n/a**	**$5,200**	**$13,422**	**>$26,000**

Benchmark: Change by 100% (>$26,000) in FY2018, reevaluate at end of FY2018

GOAL 2: RESEARCH CAPACITY AND TRAINING

The Museum increases basic and applied knowledge through study of its collections, and increases research capacity by making these collections available to others.

Objective A: Student Opportunity – Increase the number of opportunities for students to gain career skills in marketing, graphic design, business operations, teaching, and research.

Performance Measures:

I. Number of student internships

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
n/a	**41**	**58**	**66**	**>40**

Benchmark: Maintain or exceed 40

II. Number of students conducting research

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
n/a	**n/a**	**n/a**	**9**	**30**

Benchmark: 300% increase (>30) by FY2022

Objective B: Synergy and Collaboration – Increase productivity of research through partnerships with ISU and other Idaho agencies.

Performance Measures:

I. Number and percent of ISU faculty with collaborations at museum

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
11 (2%)	**10 (2%)**	**10 (2%)**	**12 (2%)**	**>18 (3%)**

Red text indicates SBOE aligned measures.

Benchmark: 50% increase (>18) by FY2022

II. Number of new digital collections in partnership with Idaho institutions

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
8,755	**4,978**	**5,457**	**2,547**	**>2,500**

Benchmark: Maintain or exceed 2,500

GOAL 3: SUPPORT K-12 EDUCATION

The Museum will provide leadership and expertise to communities at local, state and national levels through partnership, collaboration.

Objective A: Accessibility – Increase the quantity of student interaction through the museum's unique informal education program.

Performance Measures:

I. Amount of sponsored travel funding for K-12 student visitation to museum

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
		$500	**$2,000**	**>$6,100**

Benchmark: 300% increase (>$6,100) by FY2022

II. Number of students attending museum for School Group programming

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
		1,998	**1,925**	**>3,300**

Benchmark: 400% increase (>3,300) by FY2019

III. Number of K-12 age public ("Child" from 4-17 years old) visiting exhibits at museum

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
		2,913	**2,764**	**>4,000**

Benchmark: 60% increase (>4,000) by FY2022

GOAL 4: CREATE NEW MUSEUM BUILDING

The Museum maintains facilities and policies to preserve, expand, and make accessible collections for future generations.

Objectives for this goal are currently under development.

Key External Factors

Funding

Many of IMNH strategic goals and objectives assume on going and sometimes substantive, additional levels of State legislative appropriations. Availability of state revenues, upon which appropriation levels depend, can be uncertain from year to year. Similarly, while gubernatorial and legislative support for IMNH efforts are significant, priorities set by those bodies vary from year to year, affecting planning for institutional initiatives and priorities. When we experience several successive years of deep reductions in state-appropriated funding, as has occurred in the recent past, it makes it increasingly difficult to plan for and implement strategic growth.

Evaluation Process

In May of each year, museum staff will evaluate benchmarks and current numbers for fiscal year. Success and issues will be evaluated and benchmarks will be updated if needed. An advisory board composed of community members will be created by FY2018 and strategic planning will become one of their tasks in future years starting with a full revision for the FY2020 strategic plan.

Appendix 1: K-20 Plan Alignment Matrix

Appendix 2

Idaho State University
Cyber Security Compliance

This appendix provides an update to Idaho State University's cyber security compliance with Idaho Executive Order 2017-02. Each area of concentration addresses ISU's level of completion as outlined in accordance with the executive order's standards. Please see the 2017 Cybersecurity Inventory Report recently submitted to the SBOE's Audit Committee for additional details regarding the reporting of each the categories.

Adopt and to implement by June 30, 2017, the National Institute of Standards and Technology (NIST) Cybersecurity Framework

ATTACHMENT 19

University of Idaho

AGRICULTURAL RESEARCH & EXTENSION SERVICE

STRATEGIC PLAN 2019-2023

COLLEGE OF AGRICULTURAL AND LIFE SCIENCES
Agricultural Research and Extension Service
Strategic Plan
2018-2022

MISSION STATEMENT

The College of Agricultural and Life Sciences fulfills the intent and purpose of the land-grant mission and serves the food-industry, people and communities of Idaho and our nation:

- through identification of critical needs and development of creative solutions,
- through the discovery, application, and dissemination of science-based knowledge,
- by preparing individuals through education and life-long learning to become leaders and contributing members of society,
- by fostering healthy populations as individuals and as a society,
- by supporting a vibrant economy, benefiting the individual, families and society as a whole.

VALUES STATEMENT

The College of Agricultural and Life Sciences values:

- excellence in creative discovery, instruction and outreach,
- open communication and innovation,
- individual and institutional accountability,
- integrity and ethical conduct,
- accomplishment through teamwork and partnership,
- responsiveness and flexibility,
- individual and institutional health and happiness.

VISION STATEMENT

We will be the recognized state-wide leader and innovator in meeting current and future challenges to support healthy individuals, families and communities, and enhance sustainable food systems. We will be respected regionally and nationally through focused areas of excellence in teaching, research and outreach with Extension serving as a critical knowledge bridge between the University of Idaho, College of Agricultural and Life Sciences, and the people of Idaho.

GOAL 1

Innovate: Scholarly and creative products of the highest quality and scope, resulting in significant positive impact for the region and the world.

Objective A: Build a culture of collaboration that increases scholarly and creative productivity through interdisciplinary, regional, national and global partnerships.

Performance Measures:

I. Number of grant proposals submitted per year, number of grant awards received per year, and amount of grant funding received per year.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
328 **281** **$16.1M**	**323** **245** **$17.2M**	**298** **217** **$14.5M**	**351** **214** **$18.5M**	**350** **300** **$20M**

Benchmark: An annual increase of 7.5% in funding received through both an increase in submissions (350) and awards (300) to reach $27 million in research expenditures by 2022[1].

Objective B: Create, validate and apply knowledge through the co-production of scholarly and creative works by students, staff, faculty and diverse external partners.

Performance Measures:

I. Number of graduate students.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
42	**50**	**44**	**53**	**60**

Benchmark: Increase the number of graduate students to 60 by 2022[2].

II. Number of technical publications generated/revised.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
135	**187**	**167**	**196**	**192**

Benchmark: Increase the number of technical publications to 192 by 2022[3].

GOAL 2

Engage: Suggest and influence change that addresses societal needs and global issues, and advances economic development and culture.

Objective A: Inventory and continuously assess engagement programs and select new opportunities and methods that provide solutions for societal or global issues, support economic drivers and/or promote the advancement of culture.

Performance Measures:

I. Number of individuals/families benefiting from Outreach Programs.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
375,350	**359,662**	**338,261**	**360,258**	**375,000**

Benchmark: Increase the number of individuals/families benefiting from Outreach Programs to 375,000 by 2022[4].

---

[1] To attain the University of Idaho's goal of $135 million in research expenditures by 2022, AERS will need to increase grant funding by 7.5% annually to maintain the college's current proportion of university research expenditures at 20%. The number of grants submitted and received is an increase of 10% and 20%, respectively, over the average of the past 4 years.

[2] To attain the University of Idaho's goal of 380 by 2022, AERS will need to increase the number of graduate students to 60 to maintain the college's current proportion of university graduate students at 16%.

[3] To attain the goal of 192 technical publications, AERS will need to increase output of 15% over the average output for the past 4 years.

[4] To attain the University of Idaho goal of 375,000 by 2022, AERS will need to increase the direct teaching contacts by an average of 10% over the contacts for the past year.

II. Number of Youth Participating in 4-H

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
56,546	**55,742**	**54,786**	**65,455**	**60,000**

Benchmark: 60,000 participants in 4-H[5]

Key External Factors

- Changes in county, state, federal and industry supported research and extension funding could impact ARES activities.
- Change in the public's trust in research based education.
- Comparison of salary and benefits with peer institutions continues to hamper our ability to hire and retain highly qualified individuals within the Agricultural Research and Extension Service.
- Maintenance and replacement of ageing infrastructure continues to impact research and extension productivity. Finding resources to meet these needs is imperative.

Evaluation Process

The Dean's Advisory Board with stakeholders and representatives from agencies in Idaho meets twice annually to review goals and performance of Agricultural Research and Extension. In addition, units (academic departments and extension districts) within the College of Agricultural and Life Sciences also have advisory boards that provide feedback toward those individual unit strategic plans and the performance toward those goals. All of the plans fit under the University of Idaho's Strategic Plan.

[5] To attain the goal of 60,000 youth participating in 4-H by 2022, AERS will need to increase by 20% over the average participation for the past 4 years.

ATTACHMENT 20

University of Idaho Forest Utilization Research and Outreach (FUR)

STRATEGIC PLAN FY2019-FY2023

Forest Utilization Research and Outreach (FUR)

MISSION STATEMENT

The Forest Utilization Research and Outreach (FUR) program is located in the College of Natural Resources at The University of Idaho. Its purpose is to increase the productivity of Idaho's forests and rangelands by developing, analyzing, and demonstrating methods to improve land management and related problems such as post-wildfire rehabilitation using state-of-the-art forest and rangeland regeneration and restoration techniques. Other focal areas include sustainable forest harvesting and livestock grazing practices, including air and water quality protection, as well as improved nursery management practices, increased wood use, and enhanced wood utilization technologies for bioenergy and bioproducts. The program also assesses forest products markets and opportunities for expansion, the economic impacts of forest and rangeland management activities, and the importance of resource-based industries to communities and the state's economic development. In addition the Policy Analysis Group follows a legislative mandate to provide unbiased factual and timely information on natural resources issues facing Idaho's decision makers. Through collaboration and consultation FUR programs promote the application of science and technology to support sustainable lifestyles and civic infrastructures of Idaho's communities in an increasingly interdependent and competitive global setting.

VISION STATEMENT

The scholarly, creative, and educational activities related to and supported by Forest Utilization Research and Outreach (FUR) programs will lead to improved capabilities in Idaho's workforce to address critical natural resource issues by producing and applying new knowledge and developing leaders for land management organizations concerned with sustainable forest and rangeland management, including fire science and management, and a full spectrum of forest and rangeland ecosystem services and products. This work will be shaped by a passion to integrate scientific knowledge with natural resource management practices. All FUR programs will promote collaborative learning partnerships across organizational boundaries such as governments and private sector enterprises, as well as landowner and non-governmental organizations with interests in sustainable forest and rangeland management. In addition, FUR programs will catalyze entrepreneurial innovation that will enhance stewardship of Idaho's forest and rangelands, natural resources, and environmental quality.

AUTHORITY and SCOPE

The Forest Utilization Research (FUR) program is authorized by Idaho Statute to enhance the value and understanding of vital natural resources and associated industry sectors via the Policy Analysis Group, Rangeland Center, Experimental Forest and Forest and Seedling Nursery through research, education and outreach to legislators, industry and the Idaho citizenry.

GOAL 1: Scholarship and Creativity

Achieve excellence in scholarship and creative activity through an institutional culture that values and promotes strong academic areas and interdisciplinary collaboration.

Objective A: *Promote an environment that increases faculty, student, and constituency engagement in disciplinary and interdisciplinary scholarship.*

Performance Measures:

I. ***Number of CNR faculty, staff, students and constituency groups involved in FUR-related scholarship or capacity building activities.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
51 participants	**61 participants**	**46 participants**	**46 participants**	**48 participants**	**20% growth**

Benchmark: *Number of CNR faculty, staff, students and constituency groups involved in FUR-related scholarship or capacity building activities.*[1] (BY FY2023)

II. ***Number and diversity of courses that use full or partially FUR funded projects, facilities or equipment to educate, undergraduate, graduate and professional students.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
	New Measure	**26 courses**	**23 courses**	**24 courses**	**15% growth**

Benchmark: *Number of courses using FUR funded projects, facilities or equipment during instruction.*[2] (BY FY2023)

Objective B: *Emphasize scholarly and creative outputs that reflect our research-extension and land-grant missions, the university and college's strategic themes, and stakeholder needs, especially when they directly support our academic programming in natural resources.*

Performance Measures:

I. ***An accounting of products (e.g., research reports, economic analyses, BMPs) and services (e.g., protocols for new species shared with stakeholders, policy education programs and materials provided, accessible data bases or market models).***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
46 products	**39 products**	**43 products**	**31 products**	**32 products**	**15% growth**

Benchmark: *Numbers and types of products and services delivered and stakeholders serviced.*[3] (BY FY2023)

II. ***An accounting of projects recognized and given credibility by external reviewers through licensing, patenting, publishing in refereed journals, etc.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
15 referred articles	**14 referred articles**	**15 referred articles**	**13 referred articles**	**14 referred articles**	**25% growth**

Benchmark: *Number of peer reviewed reports and referred articles produced using FUR funding, facilities or equipment.*[4] (BY FY2023)

GOAL 2: Outreach and Engagement

Engage with the public, private and non-profit sectors through mutually beneficial partnerships that enhance teaching, learning, discovery, and creativity.

Objective A: *Build upon, strengthen, and connect the College of Natural Resources with other parts of the University to engage in mutually beneficial partnerships with stakeholders to address areas targeted in FUR.*

Performance Measures:

I. ***Document cases: Communities served and resulting documentable impact; Governmental agencies served and resulting documentable impact; Non-governmental agencies served and resulting documentable impact; Private businesses served and resulting documentable impact; and Private landowners served and resulting documentable impact. Meeting target numbers for audiences identified below and identifying mechanisms to measure economic and social impacts.***

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
			New measure	**1,100 participants**	**50% growth**

Benchmark: Number of external participants served.[5] (BY FY2023)

GOAL 3: Financial Efficiency and Return on Investment (ROI)

Efficient financial management of FUR state appropriated dollars supporting Goals 1 and 2 and leveraging resources to secure external funding (e.g., external grants, private funding, and cooperatives)

Objective A: *Leveraging state funds to secure additional financial resources to increase impact on products, services and deliverables.*

Performance Measures:

I. ***New funding sources from external granting agencies, private and public partnerships and other funding groups.***

Baseline data/Actuals:

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
		New Measure	**13 new projects**	**14 new projects**	**25% growth**

Benchmark: *Number of new research projects leveraged using external funding.[6]* (BY FY2023)

Key External Factors

The key external factors likely to affect the ability of FUR programs to fulfill the mission and goals are as follows: (1) the availability of funding from external sources to leverage state-provided FUR funding; (2) changes in human resources due to retirements or employees relocating due to better employment opportunities; (3) continued uncertainty relative to global, national and regional economic conditions; and (4) changing demand for the state and region's ecosystem services and products.

Evaluation Process

Quarterly status meetings between FUR units, including PAG, Rangeland Center, Experimental Forest and Research Nursery to ensure coordinated work, identification of new opportunities, and projects. Assessment of external proposals and new funding sources for leveraging for match opportunities to increase impacts of research, outreach, and technology transfer. Annual review of strategic plan to determine applicable progress toward benchmark and growth.

---

[1] Increased staff resources in 2016 will allow us to involve more faculty, staff, students and constituency groups in FUR-related scholarship activities.

[2] Based on College and program goals to enhance coordination of course offerings and research.

[3] Based on critical need to communicate with external stakeholders, and increase the pace of products produced.
[4] Increased staff resources in 2016 focused on research will increase scientific outreach and communication.
[5] New measure based on UI and college strategic goal to increase involvement and communication with external stakeholders. Benchmark established from internal analysis of recent year participants served.
[6] Based on analysis of projects started and completed in recent years, staff capacity, and critical need to increase the pace of projects completed annually

Appendix 1

	State Board of Education Goals			
	Goal 1: A WELL EDUCATED CITIZENRY	*Goal 2: INNOVATION AND ECONOMIC DEVELOPMENT*	*Goal 3: DATA-INFORMED DECISION MAKING*	*Goal 4: EFFECTIVE AND EFFICIENT EDUCATIONAL SYSTEM*
Institution/Agency Goals and Objectives				
GOAL 1: SCHOLARSHIP and CREATIVITY *Achieve excellence in scholarship and creative activity through an institutional culture that values and promotes strong academic areas and interdisciplinary collaboration.*

ATTACHMENT 21

IDAHO
GEOLOGICAL SURVEY

University of Idaho

STRATEGIC PLAN
FY2019 - FY2023

MISSION STATEMENT
The Idaho Geological Survey (IGS) is the lead state agency for the collection, interpretation, and dissemination of geologic and mineral data for Idaho. The agency has served the state since 1919 and prior to 1984 was named the Idaho Bureau of Mines and Geology.

Members of the Idaho Geological Survey staff acquire geologic information through field and laboratory investigations and through cooperative programs with other governmental, academic, and private sector alliances. The Idaho Geological Survey provides timely and meaningful information to the public, industry, academia, and legislative decision makers by conducting geologic mapping, geohazard assessments that focus on earthquakes and landslides, mineral and energy resource assessments, groundwater and hydrology research, and educational and outreach opportunities. The Survey's Digital Mapping Laboratory is central to compiling, producing, and delivering new digital geologic maps and publications for the agency. The Idaho Geological Survey is also engaged in the collection and compilation of data and information pertaining to abandoned and inactive mines in the state, earth science education, and a newly added focus of petroleum geology assessments. As Idaho grows, demand is increasing for geologic and geospatial information related to population growth, energy-mineral and water-resource development, landslide hazards, and earthquake monitoring.

VISION STATEMENT
The Idaho Geological Survey vision is to provide the state with the best geologic information possible through strong and competitive applied research, effective program accomplishments, and transparent access. We are committed to the advancement of the science and emphasize the practical application of geology to benefit society. We seek to accomplish our responsibilities through service and outreach, research, and education.

AUTHORITY
Idaho Code (47-201 – 47-204) provides for the creation, purpose, duties, reporting, offices, and Advisory Board of the Idaho Geological Survey. The Code specifies the authority to conduct investigations, establish cooperative projects, and seek research funding. The Idaho Geological Survey publishes an Annual Report as required by its enabling act.

GOAL 1: Service and Outreach
Achieve excellence in collecting and disseminating geologic information and mineral data to the mining, energy, agriculture, utility, construction, insurance and banking industries, educational institutions, civic and professional organizations, elected officials, governmental agencies, and the public. Continue to strive for increased efficiency and access to survey information primarily through publications, website products, in-house collections, and customer inquiries. Emphasize website delivery of digital products and compliance with new revision of state documents requirements (Idaho Code 33-2505).

Objective A: Develop and publish survey documents
Initiate and develop research initiatives and publish geological maps, technical reports, and data sets.

Performance Measures:

I. **Number of Published Reports on Geology/Hydrology/Geohazards/Mineral & Energy Resources (1,013 Publications, Maps, and Reports cumulative).**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-201820172018)	**Benchmark**
27	**39**	**25**		**20**

Benchmark: The number and scope of published reports will be equal to or greater than the number of publications from the preceding year.[1]

Objective B: Build and deliver website products
Create and deliver Idaho Geological Survey products and publications to the general public, state and federal agencies, and cooperators in an efficient and timely manner. Products include GIS data sets, reports, map publications, and web map applications.

Performance Measures:

I. **Number of website products used or downloaded (For FY17 there were 453,562 visitors to the Idaho Geological Survey website; website downloads listed below).**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
157,540	**185,635**	**204,770**		**215,000**

Benchmark: The number of website products used or downloaded will be equal to or greater than the preceding year.[1]

Objective C: Sustain Idaho State Documents Depository Program and Georef Catalog (International)
Deliver all Idaho Geological Survey products and publications to the Idaho Commission for Libraries for cataloging and distribution to special document collections in state university libraries and deliver digital copies of all products and publications to GeoRef for entry in their international catalog of geologic literature.

Performance Measures:

I. **Percentage total of Survey documents available through these programs (~ 99%).**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
~99%	**~99%**	**~99%**		**~99%**

Benchmark: 100%[2]

Objective D: Sustain voluntary compliance
Sustain voluntary compliance with uploads of new geologic mapping products published at the Idaho Geologic Survey to the National Geologic Map Database Website managed by the U.S. Geological Survey.

Performance Measures:

I. **Percentage of Geologic Maps that are uploaded to this national website depicting detailed geologic mapping in Idaho (596 maps cumulative have been uploaded).**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**		**100%**

Benchmark: 100% of all geologic maps that are published at the Idaho Geological Survey each year will be uploaded to this website.[2]

GOAL 2: Research

Promote, foster, and sustain a climate for research excellence. Develop existing competitive strengths in geological expertise. Maintain national level recognition and research competitiveness in digital geological mapping and applied research activities. Sustain and build a strong research program through interdisciplinary collaboration with academic institutions, state and federal land management agencies, and industry partners.

Objective A: Sustain and enhance geological mapping

Sustain and enhance geological mapping and study areas of particular interest that have economic potential and geohazard concerns.

Performance Measures:

I. **Increase the geologic map coverage of Idaho by mapping priority areas of socioeconomic importance. Identify and study areas with geologic resources of economic importance and identify and study areas that are predisposed to geologic hazards.**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
36.9%	**37.4%**	**40%**		**40.5%**

Benchmark: Increase the cumulative percentage of Idaho's area covered by modern geologic mapping. Re-evaluate geologic resources in Idaho that may have economic potential and identify and rank geologic hazards throughout the state.[3]

Objective B: Sustain and build external research funding

Sustain existing state and federal funding sources to maintain research objectives for the Idaho Geological Survey. Develop new sources of funding from private entities such as oil and gas, mining, and geothermal energy companies that are exploring and developing geologic resources in Idaho.

Performance Measures:

I. **Increase externally funded grant and contract dollars with a particular focus of securing new sources of funding from the private sector.**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
$382,101	**$498,034**	**$439,898**		**$467,923**

Benchmark: The number of externally funded grant and contract dollars compared to five-year average.[3]

GOAL 3: Education

Support knowledge and understanding of Idaho's geologic setting and resources through earth science education. Achieve excellence in scholarly and creative activities through collaboration and building partnerships that enhance teaching, discovery, and lifelong learning.

Objective A: Provide earth science education
Develop and deliver earth science education programs, materials, and presentations to public and private schools.

Performance Measures:

I. **Number of educational programs provided to public and private schools and the public at large.**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
9	**19**	**14**		**15**

Benchmark: The number of educational and public presentations will be equal to or greater than the previous year.[4]

Key External Factors

Funding:
Achievement of strategic goals and objectives is dependent on appropriate state funding.

External research support is partially subject to federal funding, and there is increasing state competition for federal programs. Because most federal programs require a state match, the capability to secure these grants is dependent on state funds and the number of full time equivalent employees.

Emerging natural gas and condensate infrastructure and production in southwestern Idaho will necessitate new research tools and personnel at the Survey to maintain research capabilities and to provide pertinent information to the public and the Idaho legislature. Economic and research partnerships with the oil and gas industry have been secured and a new IGS Senior Petroleum Geologist has been relocated to Boise during the past year.

New partnerships are also being sought through universities, state and federal agencies, and natural resource extractive industries.

Demand for services and products:
Changes in demand for geologic information due to energy and mineral economics play an important role in the achievement of strategic goals and objectives. Over the past six years, Idaho Geological Survey has experienced an 102% increase in the number of downloaded products from the Survey's website. The number of visitors to the Idaho Geological Survey website has increased by 125% over the same six-year time frame. State population growth and requirements for geologic and geospatial information by public decision makers and land managers are also key external factors that are projected to increase over time.

Aspirational Goals for the Idaho Geological Survey:

- Provide critical mass for primary customer services in southern and central Idaho through ongoing consolidation of personnel and technical resources at the Idaho Water Center in Boise. Appointment of new geological staff and support personnel to the Boise office of Idaho Geological Survey will permit a more responsive agency in southern and central Idaho and better coordination with other state agencies and the Idaho legislature.

- Provide high quality petroleum assessments and geologic services to evaluate regions of existing oil and gas production and investigate other perspective areas in Idaho that have potential for developing hydrocarbon resources.

- A multi-agency legislative request for one-time funding to build a permanent facility in the Boise metro region to house exploration drill cores and well cuttings. The purpose of the facility is to capture hundreds of millions of dollars of valuable and perishable subsurface information through the storage of geologic samples associated with oil and gas, mineral, geothermal, and groundwater exploration activities. Ongoing funding for building maintenance, utilities, and one warehouse technician to catalogue and maintain the samples for public and industry research and viewing is necessary. A legislative request for a small percentage (~0.25%) of the proceeds from oil and gas severance taxes could be a potential source of ongoing funding to address the building maintenance and salary and benefits for one warehouse technician.

- Progressive development of personnel and agency resources to build a full-time geologic hazards program stationed at the Boise office of the Idaho Geological Survey that will coordinate with the Idaho Department of Emergency Management and focus on geologic hazard assessments and protection of human lives, homes, and the state's infrastructure such as pipelines, roads, railroads, and dams.

- Increase the number and scope of digital web applications for the Survey's digital maps, datasets, and geologic information to accommodate smart phone and tablet technologies for the public. Currently 27% of all downloads from the agency website is to personal electronic devices.

Evaluation Process

An annual review of existing benchmarks and goals is necessary to ensure that Idaho Geological Survey is successfully executing its strategic plan and providing relevant and timely geologic and geospatial information for public dissemination. Research opportunities will be continually explored and collaborations with new funding partners, especially in the private sector, will be embraced. New technologies and data capture techniques will be continually evaluated on an annual basis to ensure Idaho Geological Survey is providing its data and publication resources in a user-friendly format that is easily accessible to the public. Ongoing review of regulatory and legal compliance obligations to state, federal, and private funding partners is a necessary requirement to maintain the research capabilities of the Idaho Geological Survey.

---

[1] These benchmarks are set based on existing resources and projected increases for this area. No additional resources were projected at the time of setting this benchmark, therefore a minimal increase would indicate growth in this area and increase efficiencies.
[2] This benchmark is based on current levels of performance and maintaining the current high level.
[3] This benchmark is dependent in part on the ability to receive external grants to broaden areas not already covered. Due to the increasingly competitive nature of external grant funding it is determined that a simple increase of areas covered was a more meaningful measure than a set number of projects.
[4] This benchmark is based on existing resources (including staff time) to provide presentations and developing educational partnerships to provide new venues for additional presentation above and beyond the current partnerships with public schools and postsecondary institutions.

ATTACHMENT 22

University of Idaho

Idaho (Washington-Idaho-Montana-Utah, WIMU) Veterinary Medical Education Program STRATEGIC PLAN 2019 - 2023

Idaho (Washington-Idaho-Montana-Utah, WIMU)
Veterinary Medical Education Program
Strategic Plan 2018-2022

MISSION STATEMENT
Transfer science-based medical information and technology concerning animal well-being, zoonotic diseases, food safety, and related environmental issues – through education, research, public service, and outreach – to veterinary students, veterinarians, animal owners, and the public, thereby effecting positive change in the livelihood of the people of Idaho and the region.

VISION STATEMENT
To improve the health and productivity of Idaho's food-producing livestock.

GOAL 1
Transform: Increase our educational impact

Objective A: Provide greater access to educational opportunities to meet the evolving needs of society.

Performance Measures:
I. Offer elective rotations in food animal medicine for experiential learning opportunities.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
71	**54**	**75**	**40**	**40**

Benchmark: Attain enrollment of 40 senior veterinary students into these optional rotations[1].

Objective B: Foster educational excellence via curricular innovation and evolution.

Performance Measures:
I. Student placement in the Northwest Bovine Veterinary Experience Program (NW-BVEP).

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
12	**12**	**12**	**11**	**12**

Benchmark: Offer spots for 12 students annually[2].

Objective C: Create an inclusive learning environment that encourages students to take an active role in their student experience.

Performance Measures:
I. Number/percentage of Idaho resident graduates licensed to practice veterinary medicine in Idaho.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
6/60%	**4/44%**	**9/64%**	**5/45%**	**7/65%**

Benchmark: Over each 4-year period, at least 7 Idaho resident graduates (65%) become licensed to practice veterinary medicine in Idaho annually[3].

[1] Based on internal standards as a measure of program quality
[2] Based on internal standards as a measure of program quality
[3] Based on national standards for return rates of similar programs

GOAL 2
Innovate: Scholarly and creative products of the highest quality and scope, resulting in significant positive impact for the region and the world.

Objective A: Build a culture of collaboration that increases scholarly and creative productivity through interdisciplinary, regional, national and global partnerships.

Performance Measures:

I. Number of grant awards received per year and amount of grant funding received per year by WIMU faculty.

FY14 (2013-2014)	**FY15** (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**Benchmark**
8/$235,163	**7/$170,800**	**5/$146,800**	**2/$112,000**	**7/$300,000**

Benchmark: Receive 7 grant awards for $300,000 in funding annually by 2022[4].

Key External Factors
Veterinary education through general food animal, small ruminant, beef and dairy blocks offered by University of Idaho faculty are undergoing a transition to improve student access to animals. The change in teaching is in direct consultation with the Washington State University College of Veterinary Medicine. Hiring of faculty to support this transition is underway.

Evaluation Process
Veterinary Medical Education went through the national accreditation process fall 2017; the contribution of the University of Idaho to veterinary education was a part of that review. The review will be provided by the Washington State University College of Veterinary Medicine (WSU CVM) to all partners (Idaho, Montana and Utah) when received. In addition, the Department of Animal and Veterinary Science at the University of Idaho and the Food Animal faculty at WSU CVM meet annually to examine curricular changes, performance of food animal block rotations, and overall performance by the WIMU veterinary medical education program related to the measures in this evaluation. The groups also work jointly to find new faculty for the program when openings occur.

[4] Based on internal standards as a measure of faculty quality

WWAMI

Idaho WWAMI (Washington, Wyoming, Alaska, Montana, Idaho) Medical Education Program

Strategic Plan 2019-2023

WWAMI is Idaho's medical school, and is under the leadership and institutional mission of the University of Idaho, in partnership with the University of Washington School of Medicine (UWSOM). In August 2015, we began anew 2015 UWSOM medical school curriculum at all six regional WWAMI sites. Students started with a multi-week clinical immersion experience—intensively learning the clinical skills and professional habits to serve them throughout their careers. For their first 18 months, students spend a full day each week learning and practicing clinical skills in a community primary care clinic and in workshops. This is in addition to their hospital-based "Colleges" training with a faculty mentor and small group of peers. This new curriculum allows our students to be on the University of Idaho campus for up to 4 terms, instead of the previous 2 terms. It also provides our medical students with the option to spend the majority of all four years of medical education in the State of Idaho.

Over the past few years we have grown the number of medical students in the Idaho WWAMI Targeted Rural and Underserved Track program (TRUST). The mission of TRUST is to provide a continuous connection between underserved communities, medical education, and health professionals in our region. This creates a full-circle pipeline that guides qualified students through a special curriculum connecting them with underserved communities in Idaho. In addition, this creates linkages to the UWSOM's network of affiliated residency programs. The goal of this effort is to increase the medical workforce in underserved regions. The WWAMI now enrolls 40 first year and 40 second year students for a total overlap of 80 students for fall semester.

In 2018, students will continue their academic training over the summer between their first and second in a structured experiential learning environment. This summer experience will enhance the student's knowledge in research, epidemiology and community-based projects. Following the 18 month curriculum (foundations phase) many students will stay on the Moscow campus for an additional 2 months utilizing the resources at the University of Idaho as they prepare for their board examinations. This year a few students are utilizing University of Idaho facilities and resources at the Water Center WWAMI office in Boise. This board preparation time is critical for the students' success and is something that we will be developing more programing and resources to support.

As the medical education contract program for the State of Idaho with the University of Washington, the UI-WWAMI supports the Strategic Action Plan of its host university, the University of Idaho, while recognizing its obligation to the mission, goals, and objectives of its nationally accredited partner program, the UWSOM.

MISSION STATEMENT

The University of Washington School of Medicine is dedicated to improving the general health and well-being of the public. In pursuit of its goals, the School is committed to excellence in biomedical education, research, and health care. The School is also dedicated to ethical conduct in all of its activities. As the preeminent academic medical center in our region and as a national leader in biomedical research, we place special emphasis on educating and training physicians, scientists, and allied health professionals dedicated to two distinct goals:

- Meeting the health care needs of our region, especially by recognizing the importance of primary care and providing service to underserved populations.
- Advancing knowledge and assuming leadership in the biomedical sciences and in academic medicine.

The School works with public and private agencies to improve health care and advance knowledge in medicine and related fields of inquiry. It acknowledges a special responsibility to the people in the states of Washington, Wyoming, Alaska, Montana, and Idaho, who have joined with it in a unique regional partnership. The School is committed to building and sustaining a diverse academic community of faculty, staff, fellows, residents, and students and to assuring that access to education and training is open to learners from all segments of society, acknowledging a particular responsibility to the diverse populations within our region.

The School values diversity and inclusion and is committed to building and sustaining an academic community in which teachers, researchers, and learners achieve the knowledge, skills, and attitudes that value and embrace inclusiveness, equity, and awareness as a way to unleash creativity and innovation.

VISION STATEMENT
Our students will be highly competent, knowledgeable, caring, culturally sensitive, ethical, dedicated to service, and engaged in lifelong learning.

GOAL 1
A WELL EDUCATED CITIZENRY – Continuously improve access to medical education for individuals of all backgrounds, ages, abilities, and economic means.

Objective A:
Access - Provide outreach activities that help recruit a strong medical student applicant pool for Idaho WWAMI.

Performance Measures:
The number of Idaho WWAMI applicants per year and the ratio of Idaho applicants per funded medical student.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18 (2017 - 2018**	**Benchmark**
157 (6.3:1)	**141 (4.7:1)**	**164 (4.7:1)**	**163 (4.075:1)**	**5:1**

Benchmark: National ratio of state applicants to medical school per state-supported students.[1]
The benchmark is the national ratio of state applicants to medical school to the number of state supported positions. Since the number of WWAMI students has increased and the number of applicants has remained relatively the same we expect the ratio to increase, thus the benchmark was moved closer to the national ratio. In FY17 the ratio of applicants in Idaho to the number of available positions was 4.075:1; the national ratio of in-state applicants to available positions is 16:1.
https://www.aamc.org/download/321442/data/factstablea1.pdf

Objective B:
Transition to Workforce - Maintain a high rate of return for Idaho WWAMI graduate physicians who choose to practice medicine in Idaho, equal to or better than the national state return rate.

Performance Measure:
Cumulative Idaho WWAMI return rate for graduates who practice medicine in Idaho.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**

51%	**51%**	**50%**	**50%**	**55%**

Benchmark: target rate – national average or better.[2] The benchmark is 39%, the national average of students that return to their native state to practice medicine. In Idaho, the return rate was 50% (301/599).

GOAL 2

CRITICAL THINKING AND INNOVATION - WWAMI will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of biomedical researchers, medical students, and future physicians who contribute to the health and wellbeing of Idaho's people and communities.

Objective A:

Critical Thinking, Innovation and Creativity – Generate research and development of new ideas into solutions that benefit health and society.

Performance Measure:

WWAMI faculty funding from competitive federally funded grants**.**

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
$2.3M	**$4.4M**	**$1M**	**$1M**	**$1.4M**

Benchmark: $1.4M [3] The benchmark for this objective is $1.4M annually, through 2023. In FY18, WWAMI-affiliated faculty at UI successfully brought in $1M of research funding into Idaho from agencies such as the National Institute of Health (NIH) and the Department of Health and Human Services (DHHS). In addition, WWAMI has had a long standing relationship with the Idaho INBRE Program, where each year our medical students apply for summer research fellowships. INBRE received a $16.3 million renewal grant from NIH in 2013.

Objective B:

Innovation and Creativity – Educate medical students who will contribute creative and innovative ideas to enhance health and society.

Performance Measures:

Percentage of Idaho WWAMI students participating in medical research (laboratory and/or community health).

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**	**100%**	**100%**

Benchmark: Internally set benchmark as measure of program quality - 100% [4] The benchmark is 100% of Idaho WWAMI students participating in medical research. All students at the UWSOM must participate in a research activity. Currently only 36% of medical schools have a research requirement (Liaison. Medical. Requirement: May 2017, Medical Student Research Requirement.)

Objective C:

Quality Instruction – Provide excellent medical education in biomedical sciences and clinical skills.

Performance Measure:

Pass rate on the U.S. Medical Licensing Examination (USMLE), Steps 1 & 2, taken during medical training.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
100%	**100%**	**100%**	**95%**	**95%**

Benchmark: U.S. medical student pass rates, Steps 1 & 2 is 94% for U.S. M.D. medical school graduates. [5] *The benchmark for the U.S. Medical Licensing Examination (USMLE), Steps 1 & 2, is the U. S. medical student pass rates.*

GOAL 3

EFFECTIVE AND EFFICIENT DELIVERY SYSTEMS – Deliver medical education, training, research, and service in a manner which makes efficient use of resources and contributes to the successful completion of our medical education program goals for Idaho.

Objective A:

Increase medical student early interest in rural and primary care practice in Idaho.

Performance Measure:

The number of WWAMI rural summer training placements in Idaho each year.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
26	**23**	**22**	**29**	**20**

Benchmark: 20 rural training placements following first year of medical education [6] *The benchmark is 20 rural training placements following the first year of medical education. During the past summer, 29 students completed a Rural Underserved Opportunities Program (RUOP) experience in Idaho.*

Objective B:

Increase medical student participation in Idaho clinical rotations (clerkships) as a part of their medical education.

Performance Measure:

The number of WWAMI medical students completing at least one clerkship in Idaho each year.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
34	**36**	**24**	**28**	**20**

Benchmark: 20 clerkship students each year [7] *. The benchmark is 20 clerkship students per year that complete at least one clerkship in Idaho. The Idaho Track is a voluntary program of the University of Washington School of Medicine in which students complete the majority of required clinical clerkships within Idaho. Third-year Idaho Track medical students complete approximately twenty-four weeks of required clerkships in Idaho, and fourth-year Idaho Track medical students complete three of four required clerkships in Idaho. Twelve third-year students and sixteen fourth-year students participated in the Idaho Track during the 2017-2018 academic year. In addition to Idaho Track students, other UWSOM students rotated among the various clinical clerkships in Idaho. During academic year 2017-2018, a total of 143 UWSOM students completed one or more clinical rotations in Idaho. Those 143 medical students completed a total of 276 individual clinical rotations in Idaho. It is expected that as the number of WWAMI medical students have increased and the number of medical students from other programs (ICOM, U of U, PNWU) are growing, the benchmark was decreased below the FY17 measure to reflect the realities of limited clerkships in Idaho. Effort to increase the number of clerkships in Idaho by WWAMI are underway.*

Objective C:
Support and maintain interest in primary care and identified physician workforce specialty needs for medical career choices among Idaho WWAMI students.

Performance Measure:
Percent of Idaho WWAMI graduates choosing primary care, psychiatry, general surgery, and OB/GYN specialties for residency training each year.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
64%	**47%**	**59%**	**67%**	**50%**

Benchmark: 50% or more of Idaho WWAMI graduating class choosing needed work force specialties for residency training each year [8] *The benchmark is 50% of the Idaho WWAMI graduating class choosing a specialty for residency training that is needed in Idaho (family medicine, general internal medicine, psychiatry, general surgery, and OB/GYN specialties). The benchmark is lower than the previous performance measures as a result of more medical students in the WWAMI cohort and limited graduate medical education options in Idaho and the nation. Currently there is national crisis related to a shortage of medical residencies.*

Objective D:
Maintain a high level Return on Investment (ROI) for all WWAMI graduates who return to practice medicine in Idaho.

Performance Measure:
Ratio of all WWAMI graduates who return to practice medicine in Idaho, regardless of WWAMI origin, divided by the total number of Idaho medical student graduates funded by the State.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
72%	**75%**	**75%**	**75%**	**70%**

Benchmark: target ratio – 70% [9] *The benchmark for the Return on Investment (ROI) for all WWAMI graduates who return to practice medicine in Idaho is 60%. The current ROI is 75% (447/599).*
The benchmark is lower than the previous performance measures as a result of more medical students in the WWAMI cohort and other medical learners in the state competing for limited clerkship and residency positions.

Objective E:
Efficiently deliver medical education under the WWAMI contract, making use of Idaho academic and training resources.

Performance Measure:
Percent of Idaho WWAMI medical education contract dollars spent in Idaho each year.

FY15 (2014-2015)	**FY16** (2015-2016)	**FY17** (2016-2017)	**FY18** (2017-2018)	**Benchmark**
72%	**70%**	**70%**	**70%**	**70%**

Benchmark: 70% [10] *The benchmark for this objective is 70%, the percentage of Idaho WWAMI medical education dollars spent in Idaho each year. In FY18, 70% of the State appropriations were spent in Idaho.*

Key External Factors *(beyond the control of the Idaho WWAMI Medical Program)*:

Funding: the number of state-supported Idaho medical student seats each year is tied to State legislative appropriations. Availability of revenues and competing funding priorities may vary each year.

Medical Education Partnerships: as a distributed medical education model, the University of Idaho and the UWSOM WWAMI Medical Program rely on medical education partnership with local and regional physicians, clinics, hospitals, and other educational institutions in the delivery of medical training in Idaho. The availability of these groups to participate in a distributed model of medical education varies according to their own budget resources and competing demands on their time and staff each year.

Population Changes in Idaho: with a growing population and an aging physician workforce, the need for doctors and medical education for Idaho's students only increases. Changes in population statistics in Idaho may affect applicant numbers to medical school, clinical care demands in local communities and hospitals, and availability of training physicians from year to year.

Medical School Curriculum: The University of Washington School of Medicine engaged in a major review and revision of the medical school curriculum which has impacted delivery of education and training in the WWAMI programs in Idaho. Given that students are on the University of Idaho campus for up to four terms instead of two, adjustments must be made to accommodate the increased number of medical students on campus. Expanded facilities, enhanced technology, additional faculty and support staff are necessary for the additional students and delivering this new state of the art curriculum. The University of Idaho is already anticipating these needs and working toward expanding facilities to accommodate the increased number of students. Tuition funds from third term medical students will help support the program's needs. The University of Idaho has identified and hired the necessary faculty to support the programmatic changes implemented in fall 2015. This curriculum renewal offers Idaho the opportunity to keep Idaho students in-state throughout a majority of the four years of their medical education, which is a significant advantage in retaining students as they transition to clinical practice.

For-profit Medical Schools in Idaho: There is an increasing need for more high quality clerkships for our students. The current challenge in developing clinical training opportunities is that multiple health profession training programs, such as medical students, physician assistant students, nurse practitioner students, family medicine residents, internal medicine residents and psychiatry residents are all seeking clinical training sites in Idaho. The proposed introduction of a for-profit osteopathic school in Idaho adding up to 300 additional clerkship students needing clinical training, would create significant challenges for clinicians in Idaho to meet those needs. The saturation of clinical training sites in Idaho has the potential to impact clinical opportunities for Idaho's only public supported medical education program housed in Idaho (WWAMI). Without strategic and thoughtful growth for medical education, the states only allopathic medical education opportunities for Idaho residents may be negatively impacted.

Evaluation Process

Annually WWAMI conducts an evaluation on the metrics used for the performance measures. The WWAMI Director and WWAMI Program Manager collect data from national, regional and local sources and then distribute that data for review to the University of Washington and University of Idaho administration. Strategic plans of the University of Washington School of Medicine and the University of Idaho serve as the framework for the WWAMI strategic plan and annual review process. Results of our performance measures are reviewed and influence the strategic plan as part of a continuous quality improvement.

Cyber Security Plan

The WWAMI Medical Education Program has adopted the National Institute of Standards and Technology (NIST) Cybersecurity Framework and implementation of the Center for Internet Security (CIS) Controls through the University of Idaho, which follows the Executive Order from the State Board of Idaho, https://gov.idaho.gov/mediacenter/execorders/eo17/EO%202017-02.pdf

---

[1]Based on nationally set standards. The benchmark is the national ratio of state applicants to medical school to the number of state supported seats.

[2] Based on national set standards. 39% is the national average of students that return to their native state to practice medicine (reference: 2015 State Physician Workforce Book, https://www.aamc.org/data/workforce/reports/442830/statedataandreports.html

[3] Based on available resources for pursuing external grants and increased competitive nature of federal awards.

DIVISION OF CAREER TECHNICAL EDUCATION (Division)

SUBJECT

Limited Occupational Specialist Certificate Extension Request - InSpIRE (Industry Specialists Infusing Real-world Experience) Cohort

REFERENCE

August 2017	The Idaho Division of Career Technical Education provided discussion about its first InSpIRE Cohort group during its annual progress report presentation, including information that some participants will need a one-year certificate extension in order to achieve the minimum of a Standard Occupational Specialist (SOS) Certificate upon renewal.

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-1204, Idaho Code

Idaho Administrative Code, IDAPA 08.02.02 – Section 114.06, Occupational Specialist Certificate

ALIGNMENT WITH STRATEGIC PLAN

GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT - Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

BACKGROUND/DISCUSSION

Individuals coming from the private sector into the career technical education (CTE) teaching profession are granted a Limited Occupational Specialists (LOS) certification for up to three (3) years while they meet the necessary requirements to obtain a Standard Occupational Specialist teaching certification. In August 2017, the Division launched a new two-year, cohort model to help CTE instructors coming from the private sector to meet the requirements of obtaining a Standard Occupational License without any out-of-pocket expense with customized regional instruction, including a teacher-mentor component. Of the seventy-four (74) Limited Occupational Specialist (LOS) certificated instructors participating in the Division's first InSpIRE to Educate cohort, ten (10) individuals have certificates that will expire August 31, 2018. However, participants of this first cohort are not due to complete all requirements for advancing to a minimum of a Standard Occupational Specialist Certificate until the end of April 2019.

In establishing the first InSpIRE Cohort, the Division reached out to those individuals awarded a LOS three-year certificate in 2015, 2016, and 2017. The Divsion sought to assist as many successfully-employed career technical education LOS instructors as possible to enter into this new program. It was understood by Division staff and InSpIRE participants, who held a LOS certificate valid from 2015 through August 31, 2018, that the Division would help secure a one-year extension to the LOS certificate to grandfather these individuals into the first cohort as appropriate. The Division administrator has communicated this need for certificate extensions in two presentations to the State Board of Education, and Division staff have worked with State Department of Education certification staff to determine options for extension.

Through collaborative work with staff from the Office of the State Board of Education, State Department of Education, and the Division, it was determined that the best option to address this issue would be to request Board action to extend the three-year Limited Occupational Specialist Certificate by one year for these ten (10) individuals, citing extenuating circumstances. All ten (10) cohort participants are in good standing with InSpIRE cohort expectations and making excellent strides in achieving the standards for initial certification of teaching personnel.

IMPACT

Action by the Board to authorize a one-year extension of these ten (10) specific LOS certificates would allow all seventy-four currently-employed secondary and postsecondary teachers who are participating in the first InSpIRE cohort to successfully complete this training and advance their certification to a five-year renewable certificate beginning September 1, 2019. Should the extension not be approved, these ten (10) instructors will no longer be employable by their districts or technical colleges.

ATTACHMENTS

Attachment 1 – Limited Occupational Certificate Extension Request Summary 2018-19

STAFF COMMENTS AND RECOMMENDATIONS

Pursuant to IDAPA 08.02.01.001. Waivers. The State Board of Education may grant a waiver of any rule not required by state or federal law to any school district upon written request. The Division is submitting this request on behalf of the school districts the secondary teachers are employed with. IDAPA 08.02.02 only applies to secondary teachers. Any provisions regarding certification of postsecondary teachers are based on Board or Division policy and may be waived at the Board's discretion.

Staff recommends approval.

BOARD ACTION

I move to approve the request by the Division of Career Technical Education to waive the three year limit of the interim certificate in IDAPA 08.02.02.015.06.b. for one year for those individuals listed in Attachment 1.

SUBJECT
Private Institution Participation in Apply Idaho

REFERENCE
September 22, 2017 Apply Idaho launched

February 15, 2018 Update to the Board on Apply Idaho

ALIGNMENT WITH STRATEGIC PLAN
Goal 2: Educational Attainment, Objective C: Access – Increase access to Idaho's robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.

BACKGROUND/DISCUSSION
Apply Idaho launched on September 22, 2017. This streamlined application was designed with input from the eight public Idaho institutions. The purpose of the application was to reduce the amount of data an Idaho high school student needed to provide on each college application. Apply Idaho used a single, online application that was supplemented with data already collected and housed within the Educational Analytics System of Idaho. Students only needed to enter the information one time and could then select any or all public institutions within Idaho where that application could be sent.

Northwest Nazarene University and the College of Idaho expressed interest to Board staff regarding participation in Apply Idaho. The participation of private, non-profit institutions would necessitate the submission of student data from the private, non-profit institutions into the Educational Analytics System of Idaho in order to evaluate the success of the program and progress towards Goal 2 in the Board's strategic plan. These institutions maintain their interest in participating in the program.

IMPACT
Approval of this item will provide Idaho high school students the ability to select participating private, non-profit institutions within the Apply Idaho application. Data would be requested from the participating institutions that could inform the Board of postsecondary behaviors of students attending these private, non-profit institutions.

ATTACHMENTS
Attachment 1 – Letter of interest from Northwest Nazarene University

STAFF COMMENTS AND RECOMMENDATIONS

Participation of the private non-profit institutions in Apply Idaho could provide benefits for Idaho high school students who are interested in applying to one of these institutions. The Board approved Apply Idaho as a way to reduce the burden on students in providing the same information multiple times in hopes that it would incentivize students to apply to an Idaho public institution. First year results show an 88 percent increase in the number of applications submitted. Board staff expect an increase in applications again if the private non-profit institutions participate in Apply Idaho; however, the magnitude of that increase is difficult to anticipate. It is unclear if the missions of these private non-profit institutions result in a different recruitment pool than the Idaho public institutions. This action could result in students who might have planned to attend an Idaho public institution, instead attending an Idaho private non-profit institution. The number of students who would have selected a public institution but instead selected a private non-profit institution has not been calculated.

The private non-profit institutions that have expressed interest in participating in Apply Idaho understand that in order for the Board office to evaluate and improve the Apply Idaho application, it would be necessary to provide information back to the Board office on enrollment and student progress. While this will allow Board staff to evaluate Apply Idaho, it also will allow Board staff to provide the Board a more complete picture on postsecondary enrollment, persistence, completion, and additional information related to the Summer Melt for a student population that we do not currently have access too.

In considering the expansion to private not-for-profit institutions, the Board should consider the impact for both the students and the public institutions over which the Board has fiduciary responsibility. The Board also must weigh the benefit of additional information the private non-profit institutions could provide in understanding the postsecondary picture in Idaho.

BOARD ACTION

I move to approve the participation of Northwest Nazarene University and College of Idaho, in Apply Idaho, contingent upon the terms and conditions in a Memorandum of Understanding that will be drafted by Board staff and authorize the Executive Director to execute the Memorandum of Understanding on behalf of the Board.

RECEIVED
APR 13 2018
OFFICE OF THE
STATE BOARD OF EDUCATION

NORTHWEST NAZARENE
UNIVERSITY

April 11, 2018

Dr. Linda L. Clark, President
Mr. Matt Freeman, Executive Director
Idaho State Board of Education
P.O. Box 83720
Boise, ID 83720,0037

RE: Idaho Application Week

Dear Dr. Clark and Mr. Freeman,

I am writing to confirm Northwest Nazarene University's interest in "Apply Idaho" and to reinforce why including NNU in this initiative is good for Idaho students.

Nearly half of our traditional undergraduate student population is from the State of Idaho, and we are happy to partner with the State's efforts to improve the "Go,On" and college completion rates here. We believe that NNU offers a very personal and unique experience that encourages college, bound students to not only enroll but also persist to graduation. In fact, our graduation rates are among the best in the state of Idaho.

It is my understanding that the State Board of Education would like periodic sharing of data by NNU if we participate in "Apply Idaho." It makes sense to me that NNU's participation in data sharing would provide a more complete picture of how Idaho students are engaging in postsecondary education. Therefore, if you determine that NNU may participate in the "Apply Idaho" initiative, we are happy to participate in conversations about data sharing.

The Idaho State Board of Education and Northwest Nazarene University share many common goals. If you or your colleagues have any questions about our participation in "Apply Idaho" or our commitment to serving students and families in our State, please do not hesitate to reach out to me.

Thank you for your consideration and we look forward to hearing back about potential next steps.

Sincerely,

Joel K. Pearsall

SUBJECT

Board Policy I.E. Executive Officers, V.I. Real and Personal Property and Services, and V.U. Entertainment and Related Expenses – Second Reading

REFERENCE

December 2013	Board approved first reading of Board Policy V.U. providing clarification of allowable entertainment expenses.
February 2014	Board approved second reading of Board Policy V.U.
April 2014	Board approved first reading of Board Policy V.I., amending authorization thresholds for alignment between policies.
June 2014	Board approved second reading of Board Policy V.I.
August 2016	Board approved first reading of Board Policy I.E. Executive Officers – vehicle allowance
October 2016	Board approved second reading of Board Policy I.E.
April 2018	Board approved the first reading of proposed amendments to Board policies: I.E., V.I. and V.U.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Sections I.E. Executive Officers, V.I. Real and Personal Property and Services and V.U. Entertainment Related Expenses

ALIGNMENT WITH STRATEGIC PLAN

Governance issue.

BACKGROUND/DISCUSSION

Board Policy I.E., Executive Officers, outlines provisions and responsibilities for the Board's chief executive officers at the agencies and institutions under the Board's direct governance; including, provision for institutional presidents housing, automobile, and entertainment expense reimbursements. Board Policy, I.E.3, requires the president to live in the institutions "official residence" when the institution has such residence, in the event that the institution does not own an official residence, a housing allowance must be provided that is similar in value to living in an official residence. Additionally, this section requires the president to receive reimbursement for official entertainment expenses and be provided with a vehicle allowance. All of these allowances are provisions that are then also included in the presidents employment agreement. Currently two institutions have an official residence, Lewis-Clark State College and Idaho State University, and the official residence at the University of Idaho is under construction. Due to the varying availability of these residences across the campuses that the Board governs and the presidential searches conducted this year these provisions in Board policy have been re-evaluated. At this time it is recommended that Board Policy I.E.3. be eliminated and provisions regarding housing, automobile allowances and reimbursement of official entertainment expenses be established solely through presidents' employment agreements.

In addition to the provision outlined in Board Policy I.E. above, Board Policy V.I. Real and Personal Property and Services, subsection 4 includes an exception to the vehicle use policy specific to chief executive officers and Board Policy V.U. Entertainment Related Expenses, subsection 1.d. includes provisions regarding country club or dining club membership for senior staff. With the proposed amendments to Board Policy I.E. these additional provisions will be eliminated or updated as applicable to reflect the change.

IMPACT

Approval of the proposed amendments would eliminate requirements for presidential house, automobile allowance, and entertainment expenses from Board policy.

ATTACHMENTS

Attachment 1 – Board Policy I.E. Executive Officers – First Reading
Attachment 2 – Board Policy V.I. Real and Personal Property and Services – First Reading
Attachment 3 – Board Policy V.U. Entertainment Related Expenses First Reading

STAFF COMMENTS AND RECOMMENDATIONS

The proposed amendments to Board Policy I.E. allow the Board greater flexibility in negotiating employment agreements with perspective institution presidents, allowing the Board to be more competitive in recruiting and retaining individuals into these positions. The proposed amendments would bring Board Policies V.I. and V.U. into alignment with the amendments made in Board Policy I.E.

Staff recommends approval.

ATTACHMENT 1

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: I. GENERAL GOVERNING POLICIES AND PROCEDURES
SUBSECTION: E. Executive Officers **June 2018**

1. Executive Director

   The Executive Director is appointed by and serves in this position at the pleasure of the Board. The Executive Director serves as the chief executive officer of the State Board of Education. Pursuant to Idaho Code 33-102A the Executive Director shall be under the direction of the Board and shall have such duties and powers as are prescribed by the Board. The Executive Director is charged with ensuring the effective articulation and coordination of institution, and agency concerns and is advisor to the Board and the Presidents/Agency Heads on all appropriate matters.

2. Presidents/Agency Heads

   a. Responsibilities

      The President/Agency Head is the chief program and administrative officer of the institution or agency. The President/Agency Head has full power and responsibility within the framework of the Board's Governing Policies and Procedures for the organization, management, direction, and supervision of the institution or agency and is held accountable by the Board for the successful functioning of the institution or agency in all of its units, divisions, and services.

      For the higher education institutions, the Board expects the Presidents to obtain the necessary input from the faculty, classified and exempt employees, and students, but it holds the Presidents ultimately responsible for the well-being of the institutions, and final decisions at the institutional level rest with the Presidents. The Presidents shall keep the Board apprised, within 24 hours, through the Executive Director, of all developments concerning the institution, its employees, and its students, which are likely to be of interest to the public.

   b. The Chief Executive Officer is held accountable to the Board for performing the following duties within his or her designated areas of responsibility:

      i. Relations with the Board

         1) Conduct of the institution or agency in accordance with the Governing Policies and Procedures of the Board and applicable state and federal laws.

         2) Effective communication among the Board, the Board office, and the institution or agency.

         3) Preparation of such budgets as may be necessary for proper reporting and planning.

4) Transmittal to the Board of recommendations initiated within the institution or agency.

5) Participation and cooperation with the office of the Board in the development, coordination, and implementation of policies, programs, and all other matters of ~~statewide~~ system-wide concern.

6) Notification to Board President or Executive Director of any ~~out-of-state~~ absence exceeding one week during which time the chief executive officer will be unavailable or out-of-country.

ii. Leadership of the Institution or Agency

1) Recruitment and retention of employees

2) Development of programs, in accordance with an evolving plan for the institution or agency.

3) In cooperation with appropriate parties, the promotion of the effective and efficient functioning of the institution or agency.

4) Development of methods that will encourage responsible and effective contributions by various parties associated with the institution or agency in the achievement of the goals of the institution or agency.

iii. Relations with the Public

1) Development of rapport between the institution or agency and the public that each serves.

2) Official representation of the institution or agency and its Board-approved role and mission to the public.

c. Appointment Terms and Conditions

Each chief executive officer is employed and serves at the pleasure of the Board as an at-will employee. Appointments to the position of President of the higher education institutions and Executive Director of the Board are made by the Board. The Executive Director shall have authority to identify candidates and make recommendations for the appointment of Agency Heads, which must be approved and appointed by the Board. The Board and each chief executive officer may enter into an employment agreement for a term not to exceed five (5) years that documents the period of appointment, compensation, and any additional terms. The Board's Policies regarding Non-classified Employees, Section II, Subsection F, do not apply to the Board's chief executive officers.

d. Evaluations

The Agency Heads are evaluated by the Executive Director annually, who makes recommendations to the Board with respect to compensation and employment actions. The Presidents and Executive Director are evaluated by the Board annually. The performance evaluation is based upon the terms of any employment agreement, the duties outlined in the policy and mutually agreed upon goals. Final decisions with respect to compensation and employment actions with regard to chief executive officers are made by the Board.

e. Compensation and Benefits

i. Each chief executive officer's annual compensation shall be set and approved by the Board. A chief executive officer shall not receive supplemental salary compensation related to his or her service as chief executive officer from an affiliated institutional foundation, or from any other source except that institutional Presidents may receive perquisites or benefits as permitted by topic 3, subtopic d, below. A chief executive officer must disclose to the Board, through its Executive Director or in executive session as appropriate (with updates as necessary), any activities and financial interests, including compensation from an outside source unrelated to his or her service as chief executive officer, that affects or could potentially affect the chief executive officer's judgment or commitment to the Board or the institution.

ii. In addition to the compensation referred to above, each chief executive officer shall receive the usual and ordinary medical, retirement, leave, educational, and other benefits available to all institutional, and agency employees.

iii. Each chief executive officer shall receive reasonable and adequate liability insurance coverage under the state's risk management program.

iv. Relocation and moving expenses incurred by each chief executive officer will be paid in accordance with the policies and rates established by the State Board of Examiners.

v. Each chief executive officer earns annual leave at a rate of two (2) days per month or major fraction thereof of credited state service.

f. Termination
In the event a chief executive officer's appointment is terminated by Board action (for or without cause), than such individual shall only be entitled to continued compensation or benefits, if any, for which he or she may be eligible under the terms of his or her employment agreement.

~~3. Institutional Presidents: Housing, Automobile, and Expense Reimbursement~~

~~a. The institutional Presidents are responsible for hosting official functions to promote their respective institutions. At institutions with official residences, the Presidents of such institutions are required to live in the official residences provided.~~

~~To preserve the image of the institutions and to provide adequate maintenance of state-owned property, the institutions shall provide support services for these residences. This support shall include maintenance and repairs, utilities, and grounds keeping.~~

~~In the event that the institution does not own an official residence, a housing allowance will be provided that is similar in value to living in an official residence. In addition, this allowance shall cover reasonable maintenance and repair expenses related to the use of this home as the President's official residence.~~

~~b. Each institutional President shall be provided an automobile allowance. If the President intends to use the automobile for business and personal use, the President shall obtain insurance for the automobile which meets with the requirements of Idaho's Risk Management Program, including applicable coverages and amounts.~~

~~c. The institutional Presidents shall receive reimbursement for official entertainment expenses. Public relations and other out-of-pocket expenses may be reimbursed if they are directly related to the function of the institution as determined by the President. (See fiscal policy for entertainment and related expenses.)~~

~~d. Foundation Provided Funds for Compensation, Perquisites or Benefits~~

~~Perquisites or benefits for the institutional Presidents, may be provided by the institution's affiliated foundation meeting all requirements of Section V, Subsection E of the Board's Governing Policies and Procedures if approved by the Board on a case-by-case basis.~~

~~4~~3. Institutional Presidents: Official Duties Related Spousal Expenses

The Board acknowledges that the spouse of an institutional president provides valuable service activities on behalf of the institution, the Board, and to the Idaho higher education system. The Board further recognizes that the spouse may be expected to attend certain functions related to the ongoing mission and purposes of the institution. Accordingly, a spouse shall be eligible for reimbursement of authorized official travel and business related expenses, in accordance with the State of Idaho's travel and expense policies, as long as such expenses have a bona fide business purpose. To be a bona fide business purpose the presence and activities of the spouse at the function must be significant and essential (not just beneficial) to the institution. A president's spouse attending official functions as part of protocol or tradition and where the spouse makes an important contribution to the function can be considered serving a business purpose. For example, ceremonial functions, fundraising events, alumni gatherings, community, and recruiting events are examples of activities at which the presence of a spouse may contribute to the mission of the

University. If a spouse has no significant role, or performs only incidental duties of a purely social or clerical nature, then such does not constitute a bona fide business purpose. Spousal expenses may not be charged to state funds; various non-state funds controlled by the institution may be used to fund spousal expenses.

~~5~~4. President Emeritus/Emerita Designation

The Board may choose to grant President Emeritus/Emerita status to a retiring President. President Emeritus/Emerita status should be reserved to honor, in retirement, a president who has made distinguished professional contributions to the institution and who has also served a significant portion of his/her career at the institution. The intent of conferring President Emeritus/Emerita status is to bestow an honorary title in recognition of successful tenure in the Presidential role.

a. Appointment Procedure

An institution may forward a recommendation to the Board that this honorary title be conferred upon a President that is retiring or has retired from the institution. Each institution shall provide for input into the recommendation from the campus community.

b. Rights, Privileges and Responsibilities

Rights and privileges of such a distinction shall be, insofar as resources will allow, similar to those of active institutional staff, including such privileges as:

i. staff privileges for activities, events and campus facilities;

ii. receipt of institutional newspaper and other major institutional publications and receipt of employee/spouse fee privilege (see Section V. R.).

ATTACHMENT 2

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: V. FINANCIAL AFFAIRS
SUBSECTION: I. Real and Personal Property and Services **June 2018**

1. Authority

   a. The Board may acquire, hold, and dispose of real and personal property pursuant to Article IX, Section 2 and Article IX, Section 10, Idaho Constitution, pursuant to various sections of Idaho Code.

   b. Leases of office space or classroom space by any institution, school or agency except the University of Idaho are acquired by and through the Department of Administration pursuant to Section 67-5708, Idaho Code.

   c. All property that is not real property must be purchased consistent with Sections 67-5715 through 67-5737, Idaho Code, except that the University of Idaho may acquire such property directly and not through the Department of Administration. Each institution, school and agency must designate an officer with overall responsibility for all purchasing procedures.

   d. Sale, surplus disposal, trade-in, or exchange of property must be consistent with Section 67-5722, Idaho Code, except that the University of Idaho may dispose of such property directly and not through the Department of Administration.

   e. If the Executive Director finds or is informed that an emergency exists, he or she may consider and approve a purchase or disposal of equipment or services otherwise requiring prior Board approval. The institution, school or agency must report the transaction in the Business Affairs and Human Resources agenda at the next regular Board meeting together with a justification for the emergency action.

2. Acquisition of Real Property

   a. Acquisition of a real property interest, other than a leasehold interest, with a purchase price between five hundred thousand dollars ($500,000) and one million dollars ($1,000,000) requires prior approval by the Executive Director. A purchase exceeding one million dollars ($1,000,000) requires prior Board approval.

   b. Any interest in real property acquired for the University of Idaho must be taken in the name of the Board of Regents of the University of Idaho.

   c. Any interest in real property acquired for any other institution, school or agency under the governance of the Board must be taken in the name of the State of Idaho by and through the State Board of Education.

d. This does not preclude a foundation or other legal entity separate and apart from an institution, school or agency under Board governance from taking title to real property in the name of the foundation or other organization for the present or future benefit of the institution, school or agency. (See Section V.E.)

e. Acquisition of a leasehold interest in real property by or on behalf of an institution, school or agency requires prior Executive Director approval if the cost exceeds five hundred thousand dollars ($500,000) over the term, or by the Board if the term of the lease exceeds five (5) years or if the cost exceeds one million dollars ($1,000,000) over the term.

f. Appraisal.
An independent appraiser must be hired to give an opinion of fair market value before an institution, school or agency acquires fee simple title to real property.

g. Method of sale - exchange of property.
The Board will provide for the manner of selling real property under its control, giving due consideration to Section 33-601(4), applied to the Board through Section 33- 2211(5), and to Chapter 3, Title 58, Idaho Code. The Board may exchange real property under the terms, conditions, and procedures deemed appropriate by the Board.

h. Execution.
All easements, deeds, and leases excluding easements, deeds, and leases delegated authority granted to the institutions and agencies must be executed and acknowledged by the president of the Board or another officer designated by the Board and attested to and sealed by the secretary of the Board as being consistent with Board action.

3. Acquisition of Personal Property and Services

a. Purchases of equipment, data processing software and equipment, and all contracts for consulting or professional services either in total or through time purchase or other financing agreements, between five hundred thousand dollars ($500,000) and one million dollars ($1,000,000) require prior approval by the executive director. The executive director must be expressly advised when the recommended bid is other than the lowest qualified bid. Purchases exceeding one million dollars ($1,000,000) require prior Board approval. If the project budget for a purchase or the renewal cost for a service agreement increases above the approved amount, then the institution or agency may be required to seek further authorization, as follows:

Project or Service Agreement Originally Authorized By	Original Project Cost or Total Obligation for Service Agreement	Cumulative Value of Change(s)	Aggregate Revised Project Cost or Total Obligation for Renewal to Service Agreement	Change Authorized By
Local Agency	< $500,000	Any	< $500,000	Local Agency
Local Agency	< $500,000	Any	$500,000-$1,000,000	Executive Director
Local Agency	<$500,000	Any	> $1,000,000	SBOE
Executive Director	$500,000-$1,000,000	<= $500,000	<= $1,000,000	Local Agency
Executive Director	$500,000-$1,000,000	Any	>$1,000,000	SBOE
SBOE	> $1,000,000	< $500,000	Any	Local Agency
SBOE	> $1,000,000	$500,000-$1,000,000	Any	Executive Director
SBOE	> $1,000,000	>$1,000,000	Any	SBOE

b. Acquisition or development of new administrative software or systems that materially affect the administrative operations of the institution by adding new services must be reviewed with the executive director before beginning development. When feasible, such development will be undertaken as a joint endeavor by the four institutions and with overall coordination by the Office of the State Board of Education.

4. Hold of Personal Property

a. Inventory
An inventory of all items of chattel property valued at two thousand dollars ($2,000) or limits established by Department of Administration owned or leased by any agency or institution must be maintained in cooperation with the Department of Administration as required by Section 67-5746, Idaho Code.

b. Insurance
Each agency and institution must ensure that all insurable real and personal property under its control is insured against physical loss or damage and that its employees are included under any outstanding policy of public liability insurance maintained by the state of Idaho. All insurance must be acquired through the State Department of Administration or any successor entity.

c. Vehicle Use
Vehicles owned or leased by an institution or agency must be used solely for institutional or agency purposes. ~~Employees may not, with certain exceptions, keep institutional vehicles at their personal residences. Exceptions to this policy include the chief executive officers and other employees who have received specific written approval from the chief executive officer of the institution or agency.~~

5. Disposal of Real Property

   a. Temporary Permits
      Permits to make a temporary and limited use of real property under the control of an institution or agency may be issued by the institution or agency without prior Board approval.

   b. Board approval of other transfers

      i. Leases to use real property under the control of an institution, school or agency require prior Board approval - if the term of the lease exceeds five (5) years or if the lease revenue exceeds two hundred fifty thousand dollars ($250,000).

      ii. Easements to make a permanent use of real property under the control of an institution, school or agency require prior Board approval - unless easements are to public entities for utilities.

      iii. The transfer by an institution, school or agency of any other interest in real property requires prior Board approval.

6. Disposal of Personal Property

   Sale, surplus disposal, trade-in, or exchange of property with a value greater than five hundred thousand dollars ($500,000) and less than one million dollars ($1,000,000) requires prior approval by the Executive Director. Sale, surplus disposal, trade-in, or exchange of property with a value greater than one million dollars ($1,000,000) requires prior Board approval. All disposals approved by the Executive Director shall be reported quarterly to the Board.

   a. First Refusal
      When the property has a value greater than five thousand dollars ($5,000), the institution, school or agency must first make a good faith effort to give other institutions, school and agencies under Board governance the opportunity of first refusal to the property before it turns the property over to the Department of Administration or otherwise disposes of the property.

   b. Sale of Services
      The sale of any services or rights (broadcast or other) of any institution, school or agency requires prior approval of the Board when it is reasonably expected that the proceeds of such action may exceed two hundred fifty thousand dollars ($250,000). Any sale of such services or rights must be conducted via an open bidding process or other means that maximizes the returns in revenues, assets, or benefits to the institution, school or agency.

c. Inter-agency Transfer
Transfer of property from one Board institution, school or agency to another institution, school or agency under Board governance may be made without participation by the State Board of Examiners or the Department of Administration, but such transfers of property with a value greater than two hundred fifty thousand dollars ($250,000) require prior Board approval.

ATTACHMENT 3

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: V. FINANCIAL AFFAIRS
Subsection: U. Entertainment Related Expenses **February 2014**

1. The chief executive officer and his or her designated employees are authorized to use appropriated, foundation and local funds for entertainment and related expenses for official functions which support the institutional mission and serve a business purpose.

   a. Entertainment involves guests external to the institution and is related to one or more of the following purposes:
      i. recognition or promotion of academic achievement, scholarship, service to the institution, or athletic achievement
      ii. promotion or communication of intellectual ideas and/or exchange of administrative and operational information on the institution's programs or activities
      iii. support of institution-sponsored student events and activities
      iv. development events (donor receptions, fundraising activities, etc.)
      v. advocacy events with elected officials and policymakers, subject to the limitations of Title 18, Chapter 13, Idaho Code
      vi. assistance to the State Board of Education, accrediting agencies, officials from other institutions, etc.

   b. Meals may be provided for institution administrative/business meetings if integral to the meeting and the meeting time encompasses a normal meal time. Meetings at which a meal is provided must include at least one institution employee, be agenda driven, and be directly related to specific institution business.

   c. Public relations expenses, and business and civic club memberships (e.g. chamber of commerce or Rotary Club)~~, and charitable contributions,~~ are allowable if they are reasonable, necessary, and related to the function of the institution. Membership at a country club or dining club shall not be allowed unless specifically provided for in an employment agreement approved by the Board.

   ~~d. Membership at a country club or dining club shall be limited to institution senior management, shall be specifically provided for in an employment agreement and requires prior Board approval.~~

2. All expenses authorized in this Subsection shall be properly documented to support the business purpose of the expenditure. In addition, actual expenses shall be reported to the Board upon request.

BOISE STATE UNIVERSITY

SUBJECT

Board Policy I.J. Use of Institutional Facilities and Services – First Reading

REFERENCE

June 2016	The Board denied requests from the universities to establish secure areas for pregame events for ticket holders with structured alcohol service for the 2016 football season. In addition, the Board denied the request by the University of Idaho to allow game patrons for home football games to bring alcohol for personal consumption to designated tailgating areas.
June 2017	The Board deferred consideration of proposed amendments to Board Policy I.J. until a single proposal could be brought forward from the universities.
August 2017	The Board approved the first reading of proposed amendments to Board Policy I.J. with the stipulation that the requirement for a "written or electronic" invitation be added and the term "youth" be changed to "minors," add no students are allowed in alcohol service areas and maintain the separation of alcohol service areas from areas where no alcohol is served.
October 2017	The Board approved amendments to Board Policy I.J. to allow institutions' CEOs to permit alcohol service in conjunction with NCAA athletic events hosted by the institution in venue suites and at designated pre-game events at listed locations for specified sports with Board approval.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section I.J.2.c

BACKGROUND/DISCUSSION

In October of 2017, the Board amended Board Policy I.J., Use of Institutional Facilities and Services, was amended to specify alcohol could be served under certain conditions at certain pre-game events and in-suite in conjunction with NCAA athletic events if permitted by an Institution's CEO and approved by the Board at the Regular June Board meeting. The policy currently limits alcohol service to the following specific venues and sports:

- Caven Williams Sports Complex (Pre-game football)
- Allen Noble Hall of Fame Gallery (Pre-game football)
- Alumni and Friends Center (Pre-game football)
- Stueckle Sky Center (In-suite football)

- Double R Ranch Club Room – Taco Bell Arena (In-suite/Club room basketball)

The policy also provides that institutions may bring to the Board requests to seek approval to add new or additional facilities to the approved locations list. It adds that such requests will require amendment to the policy.

When weather permits, Boise State wishes to have an outdoor alternative, at DeChevrieux Field, to the pre-game events planned for Caven Williams Sports Complex in conjunction with NCAA football, which requires a policy amendment. Pre-game football events would either be held at DeChevrieux Field or Caven Williams Sports Complex, but only one of the locations would be used, depending upon the weather.

Boise State also wishes to host pre-game events in conjunction with NCAA basketball games at the Alumni and Friends Center, which requires a policy amendment.

Accordingly, Boise State University requests that the Idaho State Board of Education Governing Policies & Procedures, Section I.J.2.c. be amended to add to the list of Boise State University locations and game: DeChevrieux Field for pre-game football events and the Alumni and Friends Center for pre-game basketball events.

IMPACT

Approval will allow Boise State University to provide a fair weather alternative to the pre-game events planned for Caven Williams Sports Complex in conjunction with NCAA football and to serve alcohol in restricted areas during home basketball games and to improve the offerings for patrons on game day, and provide structured, controlled service of alcohol during pregame activities.

Attachment 1 – Board Policy I.J. Use of Institutional Facilities – First Reading

STAFF COMMENTS AND RECOMMENDATIONS

Amendments approved by the Board at the October 2017 Regular Board meeting allow the institutions, with Board approval, to serve alcohol in conjunction with NCAA athletic events for certain listed pre-game events and in-suite areas limited to the location and sports specified in the policy. The policy further allows that institutions may bring to the Board requests to seek approval to add new or additional facilities to the approved location and such requests will require amendment to the policy. This language was included in the policy to clarify for the institutions that they could request additional location; however, any such additions will require amendment to Board policy.

Amendments to Board policy require two readings at two separate meetings where proper notice has been given, prior to those amendments taking effect. The intent of the clarification was to eliminate any confusion to the timeline required should an institution want to add additional locations or sports to the policy. While requests to amend the policy could be brought forward at any time, the policy does require the institutions bring forward their alcohol service proposal each year at the regularly scheduled June Board meeting for the ensuing year.

Boise State University has brought forward under a separate agenda item their proposal for alcohol serve for the 2018-2019 Basketball and Football Seasons. This request includes alcohol service at DeChevrieux Field for pre-game football events and the Alumni and Friends Center for pre-game basketball events. Should the Board approve the first reading of the proposed policy amendments at the June 2018 Regular Board meeting, the second reading will be scheduled for the August Regular Board meeting. The proposed amendments would not take effect until the approval of the second reading. Due to this timeline, consideration of the new locations for the 2018-2019 basketball or football seasons would require a waiver of the current Board policy.

BOARD ACTION

I move to approve the first reading of Board policy I.J. Use of Institutional Facilities and Services, adding two additional location to the list of approved locations for alcohol service at Boise State University in conjunction with student athletic events as specified in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: I. GENERAL GOVERNING POLICIES AND PROCEDURES
SUBSECTION: J. Use of Institutional Facilities and Services with Regard to the Private Sector ~~October 2017~~August 2018

1. Use of Institutional Facilities and Services

   a. Consistent with education's primary responsibilities of teaching, research, and public service, the institutions, under the governance of the State Board of Education and Board of Regents of the University of Idaho (Board), have and will continue to provide facilities and services for educational purposes. Such services and facilities, when provided, should be related to the mission of the institution and not directly competitive with services and facilities reasonably available from the private sector. The institutions' provision of services and facilities should be educationally related. In addition, the Board recognizes that the institutions have a role in assisting community and economic development in a manner that supports the activities of the private sector. To this end, cooperation with local, state, and federal agencies is encouraged.

   b. Priority and guidelines for use of institutional services and facilities is as follows:
      i. Institutionally sponsored programs and projects.

      ii. Community programs or projects of an educational nature where the services or facilities provided by the institutions are directly related to the teaching, research, or service mission of the institution.

      iii. Local, state, or federally sponsored programs and projects.

      iv. The institutions will maintain a list of special events, services and facilities provided in those special events, the sponsor's name, the date of the use, and the approximate number of persons attending. This list will be available for public inspection. Individual institutional policies should be adopted in accordance with this general philosophy and policy statement of the Board. To this end, a coordinated effort between the public and private sector is encouraged.

2. Possession, Consumption, and Sale of Alcohol Beverages at Institutional Facilities

   a. Board Administrative Rules IDAPA 08.01.08 provides requirements relative to alcoholic beverages on campus grounds. Said rules generally prohibit the possession or consumption of alcoholic beverages in areas open to and most commonly used by the general public on campus grounds. The rules authorize the Board to waive the prohibition pursuant to Board policies and procedures. The chief executive officer of each institution may waive the prohibition against possession or consumption of alcoholic beverages only as permitted by and in compliance with this policy. The grant of any such waiver shall be determined by the chief executive officer ("CEO") only in compliance with this Policy and in accordance with the provisions set forth herein, and not as a matter of right to any other person or party, in doing so, the chief executive officer must ensure that the decisions to allow possession and consumption of alcoholic beverages are consistent with the proper image and the mission of the institution.

b. Each institution shall maintain a policy providing for an institutional Alcohol Beverage Permit process. For purposes of this policy, the term "alcoholic beverage" shall include any beverage containing alcoholic liquor as defined in Idaho Code Section 23-105. Waiver of the prohibition against possession or consumption of alcoholic beverages shall be evidenced by issuance of a written Alcohol Beverage Permit issued by the CEO of the institution which may be issued only in response to a completed written or electronic application therefore. Staff of the State Board of Education shall prepare and make available to the institutions the form for an Alcohol Beverage Permit and the form for an Application for Alcohol Beverage Permit which is consistent with this Policy. Upon issuance of an Alcohol Beverage Permit, a copy of the permit shall be delivered to the Office of the State Board of Education, and Board staff shall disclose the issuance of the permit to the Board. An Alcohol Beverage Permit may only be issued to allow the sale or consumption of alcoholic beverages on public use areas of the campus grounds provided that all of the following minimum conditions shall be met. An institution may develop and apply additional, more restrictive, requirements for the issuance of an Alcohol Beverage Permit. The CEO has the authority by the Board to issue Alcohol Beverage Permits that meet or exceed the following requirements.

   i. An Alcohol Beverage Permit may be granted only for a specifically designated event (hereinafter "Permitted Event"). Each Permitted Event shall be defined by the activity planned, the area or location in which the activity will take place and the period of time during which the activity will take place. The activity planned for the Permitted Event must be consistent with the proper image and mission of the institution. The area or location in which the activity will take place must be defined with particularity, and must encompass a restricted space or area suitable for properly controlling the possession and consumption of alcoholic beverages. The time period for the activity must be a single contiguous time period for a separate defined occurrence (such as a dinner, a conference, a reception, a concert, a sporting competition and the like). An extended series of events or a continuous activity with no pre-determined conclusion shall not be a Permitted Event. The area or location of the Permitted Event, the restricted space or area therein for possession and consumption of alcoholic beverages and the applicable time periods for the Permitted Event must each be set forth in the Alcohol Beverage Permit and in the application therefore.

ii. The serving of alcoholic beverages must be part of a planned food and beverage program for the Permitted Event, rather than a program serving alcoholic beverages only. Food must be available at the Permitted Event. Consumption of alcoholic beverages and food cannot be the sole purpose of a Permitted Event.

iii. Non-alcoholic beverages must be as readily available as alcoholic beverages at the Permitted Event.

iv. A Permitted Event must be one requiring paid admission through purchase of a ticket or through payment of a registration fee, or one where admission is by written or electronic personal invitation. Events generally open to participation by the public without admission charges or without written or electronic personal invitation shall not be eligible for an alcoholic beverage permit. Only persons who have purchased a ticket or paid a registration fee for attendance at a Permitted Event, or who have received a written or electronic invitation to a Permitted Event, and who are of lawful age to consume alcoholic beverages, will be authorized to possess and consume alcoholic beverages at the Permitted Event.

v. Permitted Events which are generally open to the public through purchase of a ticket (such as sporting events, concerts or other entertainment events) must set out a confined and defined area where alcoholic beverages may be possessed and consumed. For such events, the defined area where alcoholic beverages may be possessed and consumed shall be clearly marked as such, and shall be separated in a fashion that entry into the area and exit from the area can be controlled to ensure that only those authorized to enter the area do so and that no alcoholic beverages leave the area. Only those individuals lawfully attending the Permitted Event who are of lawful age to consume alcoholic beverages may be allowed into the area where alcohol is served, provided that such individuals may be accompanied by minors for whom they are responsible, but only if such minors are, at all times, under the supervision and control of such individuals. For such events there shall be sufficient space outside of the area where alcoholic beverages may be possessed and consumed to accommodate the participating public who do not wish to be present where alcoholic beverages are being consumed.

vi. Except as provided for in c. and d. below, no student athletic events, (including without limitation NCAA, NIT, NAIA and intramural student athletic events) occurring in college or university owned, leased or operated facilities, or anywhere on campus grounds, shall be Permitted Events, nor shall a Permitted Event be allowed in conjunction with any such student athletic event.

vii. An Alcohol Beverage Permit for a Permitted Event to which attendance is limited to individuals who have received a personal written or electronic invitation, or to those who have registered to participate in a particular conference (for example, a reception, a dinner, an exclusive conference) may allow alcoholic beverages to be possessed and consumed throughout the area of the event, provided that the area of the event is fully enclosed, and provided further that the area of the event must be such that entry into the area and exit from the area can be controlled to ensure that only those authorized to enter the area do so and that no alcoholic beverages leave the area. Additionally, the area of the Permitted Event must not be open to access by the general public, or to access by persons other than those properly participating in the Permitted Event.

viii. Application for an Alcohol Beverage Permit must be made by the organizers of the event. Such organizers must comply with all applicable laws of the State of Idaho and the local jurisdiction with respect to all aspects of the event, including the possession sale and consumption of alcoholic beverages.

ix. The Alcohol Beverage Permit, any required local catering permit, and applicable state or local alcoholic beverages permits shall be posted in a conspicuous place at the defined area where alcoholic beverages are authorized to be possessed and consumed.

x. The sale, service and consumption of alcoholic beverages at a Permitted Event shall be confined to the specific event, area or activity identified on the Beverage Permit application. Any alcoholic beverages allowed at a Permitted Event shall be supplied through authorized contractors of the organizers (such as caterers hired by the organizers). In no event shall the institution supply or sell alcoholic beverages directly. In no event shall the general public or any participants in a Permitted Event be allowed to bring alcoholic beverages into a Permitted Event, or leave the defined area where possession and consumption is allowed while in possession of an alcoholic beverage.

xi. The person/group issued the Beverage Permit and the contractors supplying the alcoholic beverages shall assume full responsibility to ensure that no one under the legal drinking age is supplied with any alcoholic beverage or allowed to consume any alcoholic beverage at the Permitted Event. Further, the person/group must provide proof of insurance coverage, including host liquor liability and liquor legal liability, in amounts and coverage limits sufficient to meet the needs of the institution, but in no case less than $1,000,000 minimum coverage per occurrence. Such insurance must list the permitted person/group, the contractor, the institution, the State Board of Education and the State of Idaho as additional insured's, and the proof of insurance must be in the form a formal endorsement to the policy evidencing the coverage and the required additional insured's.

xii. The Alcohol Beverage Permit shall set forth the time at which sale, service, possession and consumption of alcoholic beverages will be permitted, which times shall be strictly enforced. Service and sale of alcoholic beverages shall stop at a time in advance of the time of closure of the event sufficient to allow an orderly and temperate consumption of the balance of the alcoholic beverages then in possession of the participants of the event prior to closure of the event.

xiii. These guidelines shall apply to both institutional and non-institutional groups using institutional facilities.

c. The sale or consumption of alcoholic beverages on campus grounds in conjunction with NCAA athletic events is prohibited except for certain listed pre-game events and service in venue suite areas as described below. Alcohol service at pre-game events and in-suite areas is limited to the locations listed below only. No other locations are allowed. Each year an institution that wishes to seek Board approval must present a written proposal to the Board, at the Board's regularly scheduled June Board meeting for the ensuing year. The proposal must include detailed descriptions and drawings of the areas where events which will include alcohol service will occur. The proposal must meet the following criteria and, upon review by the Board, may also include further criteria and restrictions in the Board's discretion. An institution's proposal shall be subject to the following minimum conditions:

i. Approved Locations:
   1) Boise State University:
      - DeChevrieux Field (Pre-game football)
      - Caven-Williams Sports Complex (Pre-game football)
      - Allen Noble Hall of Fame Gallery (Pre-game football)
      - Alumni and Friends Center (Pre-game football)
      - Stueckle Sky Center (In-suite football)
      - Alumni and Friends Center (Pre-game basketball)
      - Double R Ranch Club Room – Taco Bell Arena (In-suite/Club room basketball)
   2) Idaho State University:
      - Exterior of Holt Arena - east end area adjacent to the Sports Medicine Center (Pre-game football)
   3) University of Idaho:
      - Lighthouse Center/Bud and June Ford Club Room (In-suite/Club Room football and basketball)
      - President's/Corporate Tents – activities field north end (Pre-game football)

Institutions may bring to the Board requests to seek approval to add new or additional facilities to the approved locations list. Such requests will require amendment to the policy.

ii. Pre-game events

1) The event must be conducted during pre-game only, no more than three-hours in duration, ending at kick-off.
2) Only patrons who hold tickets to the football game shall be allowed into the event.
3) The event must be conducted in a secured area surrounded by a fence or other methods to control access to and from the area. There must be no more than two entry points manned by security personnel where ID's are checked and special colored wrist bands issued (or similar identification system).
4) A color-coded wrist band (or similar identification) system must identify attendees and invited guests, as well as those of drinking age. No one under the legal drinking age shall be admitted into the alcohol service and consumption area of an event The area shall be clearly marked and shall be separated in a fashion that entry into the area and exit from the area can be controlled to ensure that only those authorized to enter the area do so and that no alcoholic beverages leave the area.

iii. In-Suites/Club Rooms
1) Attendance is limited to ticketed patrons and guests,
2) Adult patrons may be accompanied by minors for whom they are responsible, but only if such minors are, at all times, under the supervision and control of such adult patrons.
2) The sale of alcohol must begin no sooner than three hours prior to the start of the athletic contest and must end seventy-five (75) percent of the way into the contest to allow for an orderly and temperate consumption of the balance of the alcoholic beverages then in possession of the participants of the game prior to the end of the game.

iv. All events, pre-game and in-suite, must meet the following requirements:
1) All ticket holders to the event must be sent a communication outlining the location and Board alcohol policy. The communication must state the minimum drinking age in Idaho is 21 and that at no time is underage drinking and/or serving of alcohol to visibly intoxicated persons allowed.
2) Alcohol-making or -distributing companies are not allowed to sponsor the event. In no event shall the institution supply or sell alcoholic beverages directly. In no event shall invitees or participants in such event be allowed to bring alcoholic beverages into the area, or leave the defined area where possession and consumption is allowed while in possession of an alcoholic beverage.
3) The food provider must provide TIPS trained personnel who monitor the sale and consumption of all alcoholic beverages to those of drinking age. Any required local catering permit, and applicable state or local alcoholic beverage permits, shall be posted in a conspicuous place at the defined area where alcoholic beverages are authorized to be possessed and consumed.
4) Food must be available at the event. Non-alcoholic beverages must be as

readily available as alcoholic beverages.

5) Security personnel located throughout the area must monitor all alcohol wristband policies and patron behavior.
6) Event sponsors/food providers must be required to insure and indemnify the State of Idaho, the State Board of Education and the institution for a minimum of $2,000,000, and must obtain all proper permits and licenses as required by local and state ordinances. All applicable laws of the State of Idaho and the local jurisdiction with respect to all aspects of the event, including the possession, sale and consumption of alcoholic beverages, must be complied with. Event sponsors/food providers supplying the alcoholic beverages shall assume full responsibility to ensure that no one under the legal drinking age is supplied with any alcoholic beverage or allowed to consume any alcoholic beverage at the event. Further, event sponsors/food providers must provide proof of insurance coverage, including host liquor liability and liquor legal liability, in amounts and coverage and coverage limits sufficient to meet the needs of the institution, but in no case less than $1,000,000 minimum coverage per occurrence. Such insurance must list the event sponsor/food provider, the institution, the State Board of Education and the State of Idaho as additional insureds, and the proof of insurance must be in the form of a formal endorsement to the policy evidencing the coverage and the required additional insureds.
7) A report must be submitted to the Board annually with details on alcohol service in conjunction with athletic events including any alcohol related incidents reported at a time an in a format set by the Executive Director.

d. In addition to the Institution sponsored game-day events described in c. above, the CEO of each institution may designate (subject to annual board approval) specific parking lots or limited areas of university grounds with controlled access as tailgate areas for home NCAA football games or NCAA bowl games hosted by the institution. Only game patrons authorized by the institution will be allowed to park and tailgate in the designated tailgate areas with their private guests. Locations, times and dates will be submitted to the Board for approval.

   Within tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages and public intoxication. Alcohol consumption in tailgating areas shall be limited to the times approved by the Board and at no time shall extend beyond 10:00am through 10:00pm of the day of each NCAA football game hosted by the institution. Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor. Alcohol may not be taken from the designated tailgate area into any other area.

   The institutions shall not sell alcohol or serve alcohol in the tailgate area nor license or allow any vendor to sell or dispense alcohol in the tailgate area. Only private individuals authorized to be in the tailgate area may bring alcohol into the tailgate area for personal use by themselves and their guests. Each institution may place additional restrictions on activities in the tailgate area as seen fit to maintain order in the area.

Institution sponsored private game-day events at which alcohol may be served by the institution remain subject to the requirements set forth in c. above. Institutions will report to the Board regarding the tailgate area at the same time as they report to the Board regarding the private game-day events under Board Policy.

e. The sale or consumption of alcoholic beverages on campus grounds in conjunction with NCAA post season athletic competition shall be permitted under the same conditions ii. through iv., as described in subsection c. above, except that the minimum amount of insurance/indemnification shall be $5,000,000.

f. Within residential facilities owned, leased or operated by an institution, the CEO may allow the possession or consumption of alcoholic beverages by persons of legal drinking age within the living quarters of persons of legal drinking age. Consumption of alcohol shall not be permitted in the general use areas of any such residence facility. Possession of alcohol within the general use areas of a residential facility may only be done in a facility where consumption has been authorized by the CEO, and such possession shall be only as is incidental to, and reasonably necessary for, transporting the alcohol by the person of legal drinking age to living quarters where consumption is allowed. The term "living quarters" as used herein shall mean, and be limited to, the specific room or rooms of a residential facility which are assigned to students of the institution (either individually or in conjunction with another room mate or roommates) as their individual living space.

3. Alcohol-making or -distributing companies shall not be allowed to advertise goods or services on campus grounds or in any institutional facilities.

SUBJECT

Alcohol Service – Pre-game, In-suite, Tailgating 2018-2019 Basketball and Football Season

REFERENCE

June 2013	Board approved a request to establish secure areas for pregame activities that serve alcohol for the 2013 football season as well as alcohol service in the Sky Center during home games, Famous Idaho Potato Bowl, and the 2014 Spring Game and the Caven Williams Sports Complex for home football games and the Famous Idaho Potato Bowl.
June 2014	Board approved a request to establish secure areas for pregame activities that serve alcohol for the 2014 football season as well as alcohol service in the Sky Center during home games, Famous Idaho Potato Bowl, and the 2015 Spring Game and the Caven Williams Sports Complex for home football games and the Famous Idaho Potato Bowl.
June 2015	Board approved a request to establish secure areas for pregame activities that serve alcohol for the 2015 football season as well as alcohol service in the Sky Center during home games, Famous Idaho Potato Bowl, and the 2016 Spring Game and the Caven Williams Sports Complex for home football games and the Famous Idaho Potato Bowl.
June 2016	Board approved a request to establish secure areas for pregame activities that serve alcohol for the 2016 football season as well as alcohol service in the Sky Center during home games, Famous Idaho Potato Bowl, and the 2017 Spring Game for home football games and the Famous Idaho Potato Bowl.
June 2017	Board approved a request to establish secure areas for pregame activities that serve alcohol for the 2017 football season as well as alcohol service in the Sky Center during home games, Famous Idaho Potato Bowl, and the 2018 Spring Game for home football games and the Famous Idaho Potato Bowl.
October 2017	Board approved second reading of amendments to Board policy I.J. to allow institutions' CEOs to permit alcohol service in conjunction with NCAA football games and NCAA bowl games hosted by the institution in venue suites and at designated pre-game events ("Permitted Events") at specific locations and to designate tailgate areas where authorized game patrons and their private guests may consume alcohol, if submitted to the Board for annual approval, and subject to certain conditions.
December 2017	Board approved waiver of Board Policy I.J. requirement that all requests come to the Board at the regular June Board meeting for

the 2017-2018 basketball competitions and the request to have a permitted event in the Double R Ranch Club Room of Taco Bell Arena.

Idaho Administrative Code, IDAPA 38.04.07 – 305, Food and Beverage

ALIGNMENT WITH STRATEGIC PLAN

Governance issue. Not aligned with strategic plan.

BACKGROUND/DISCUSSION

Prior to approval of construction of the Stueckle Sky Center, the Board granted approval for the University to represent that alcohol service would be available in the suites. Based on that approval, the leases with patrons for the suites, club seats and loge seats were all created with the understanding that alcohol service would be available during games in this area.

For the past twelve seasons, the Board has approved alcohol service in the Stueckle Sky Center prior to and throughout home football games.

The University is committed to overall improvement of the game day experience, including enhancing concessions, fan connections with coaches and student-athletes, ticket purchase options, and enhanced promotions, among other things. The addition of pre-game events is part of an overall strategy to enhance the game day experience. By improving pregame options on campus, Boise State University (BSU) can offer a safe and monitored environment where fans can connect with fellow Bronco fans. Increasing ticket sales and donations continues to be a difficult task with appealing television coverage at home and challenging start times. Improving the fan experience at games will allow BSU to create avenues for additional revenue to support championship-level programs and give community members additional incentive to purchase tickets.

In October of 2017, the Board made updates to Policy I.J. which specified certain pre-game events and in-suite service where alcohol service could be permitted in conjunction with NCAA athletic events if permitted by an Institution's CEO and approved by the Board at the regular June Board meeting preceding the season. The policy currently limits alcohol service to specific venues and sports, including:

- Caven Williams Sports Complex (Pre-game football)
- Allen Noble Hall of Fame Gallery (Pre-game football)
- Alumni and Friends Center (Pre-game football)
- Stueckle Sky Center (In-suite football)
- Double R Ranch Club Room – Taco Bell Arena (In-suite/Club room basketball)

The policy allows institutions to seek Board approval to add new or additional facilities to the approved locations list through the Board's policy amendment process. Boise State University has simultaneously submitted such a request in a separate agenda item.

The policy was also updated to acknowledge that alcohol is consumed at private tailgate spaces that institutions rent for home games. The policy now requires institutions to designate specific parking lots and/or areas of university grounds that the institutions use for tailgating and submit them for annual Board approval.

Accordingly, Boise State University requests Board approval to provide alcohol service in conjunction with NCAA football for the 2018-2019 season (each home game and a potential conference championship game), the Famous Idaho Potato Bowl, and the 2019 spring football game) as follows:

- DeChevrieux Field (Pre-game event) – new location subject to policy amendment
- Caven Williams Sports Complex (Pre-game event)
- Allen Noble Hall of Fame Gallery (Pre-game event)
- Alumni and Friends Center (Pre-game event) – new location subject to policy amendment
- Stueckle Sky Center (In-suite service)
- Tailgate areas

Further, Boise State University requests Board approval to provide alcohol service in conjunction with NCAA basketball for the 2018-2019 season as follows:

- Double R Ranch Club Room – Taco Bell Arena (In-suite/Club room basketball)
- Alumni and Friends Center (Pre-game basketball)

Football

DeChevrieux Field – pre-game

If approved as a new location, and weather permitting, BSU will operate the pre-game event outdoor at DeChevrieux Field as long as possible into the season. If it becomes necessary to move the event indoors, BSU will move the event into the Caven Williams Sport Complex (see below) and will operate the event under the conditions outlined there. Boise State University will not operate both venues simultaneously as permitted events.

The field will have three main areas: the Corporate Village where corporate patrons can purchase private tent spaces, an alcohol-free fan zone, and a secured fan zone area that will require a game ticket to enter. The western portion of the field will be the Corporate Village where corporate fans can purchase private tented areas (see tailgate areas, below). In the main area of the field, the University will create an alcohol-free fan zone with activities for adults and kids alike. And finally, in the eastern part of the field, the University will create a secured zone where alcohol will be available for purchase and a game ticket will be required for entry. All areas will be separated by barricades and security personnel. In the secure area, ticketed game patrons would be able to purchase food and beverages (non-alcoholic and alcoholic). Boise State University's official food service provider (Aramark) will also have the opportunity to set-up concession areas or contract with local food trucks as additional food choice options for patrons. Food and non-alcoholic drink options will be available both inside the secured alcohol serving area and outside the secured area in the Corporate Village and alcohol-free zones.

A reception style event on DeChevrieux Field will become part of the Bronco Game Day experience and add value to those attending Bronco football games by creating a fan zone that offers unique food and drink options for those who don't purchase reserved parking for tailgating or a space in the Corporate Village. The secured area will have two bar/vendor areas. Security personnel will check for valid game tickets at both the alcohol free zone area entrance as well as the main entrance into the fan zone. No alcohol will be allowed to go into or out of the secured area.

Boise State University will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service. In addition, the University will conduct these pre-game activities under the conditions outlined in the Security Plan, attached.

Caven Williams Sports Complex

In the event that DeCheverieux Field is approved as a new location, Caven Williams will only be used if the pre-game event on DeChevrieux Field must be relocated inside due to weather or other reasons. Boise State University will not operate both spaces at the same time.

A reception style event in Caven Williams will become part of the Bronco Game Day experience and add value to those attending Bronco football games by creating a fan zone offering unique foods and drinks in a lighted, temperature-controlled environment. The complex will have three areas: an alcohol-free area, an area where patrons can purchase alcoholic beverages, and a main fan zone featuring entertainment and where non-alcoholic drinks and food options will be available for purchase. Boise State University will secure the entire facility and will require a valid game ticket to enter the building. Student tickets will not be accepted. The alcohol-free fan zone will have activities for adults and kids alike with lawn games, band and cheer performances, autograph sessions, etc. Food and non-alcoholic drink options will be available for purchase throughout the secured venue. Boise State University's official food service provider (Aramark) will also have the opportunity to set-up concession areas or contract with local food trucks as additional food choice options for patrons. Within the secured area, the University will create a separate area where patrons may purchase alcohol by partitioning off the area with barricades to ensure only those over the age of 21 can enter. Two Aramark employees (TIPS trained) will check ID's and issue color-coded wrist bands within the over 21 area. Patrons may take alcohol out into the main fan zone once purchased if wearing a wristband. No alcohol will be allowed to go into or out of the secured venue.

Boise State will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the University will conduct these pre-game activities under the conditions outlined in the Security Plan, attached.

Allen Noble Hall of Fame

Providing alcohol service in the Allen Noble Hall of Fame will enhance a current gathering place for Albertsons Stadium patrons prior to home football games. In the secure area, Hall of Fame Club members and invited guests will be provided with food and non-alcoholic beverages. Guests may purchase or be provided alcoholic beverages from the University's official food service provider. Individuals become members of the Allen Noble Hall of Fame by purchasing a season membership with the Bronco Athletic Association.

A reception-style event in the Allen Noble Hall of Fame will become part of the Bronco Game Day experience and add value to those attending Bronco football games by offering unique food and drink options in a lighted, temperature-controlled environment.

Boise State will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service. In addition, BSU will conduct these pre-game activities under the conditions outlined in the Security Plan, attached.

Alumni and Friends Center

Until this year, the Boise State University Alumni Association and/or the Boise State University Foundation have owned the land and/or building where the Alumni and Friends Center stands and have served alcohol in conjunction with NCAA football games.

Boise State University now owns the Alumni and Friends Center. Alumni Relations, a department of the University, intends to continue the pregame events as previously hosted when the property was owned by the Alumni Association and/or the Foundation.

Providing alcohol service at the Alumni and Friends Center will maintain the donor intent and funding for the building. The intent of the center was to cultivate long term relationships with current donors, alumni and friends.

In the secure area, Alumni and Friends with game tickets will be provided with food and non-alcoholic beverages. Guests may purchase or be provided alcoholic beverages from the University's official food service provider.

As with similar events, Boise State University will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service.

Stueckle Sky Center

The University seeks permission to allow alcohol sales to patrons leasing seats in the Stueckle Sky Center on the west side of the stadium. In this secure area, Boise State will allow patrons to purchase food and beverages, both non-alcoholic and alcoholic.

Boise State University will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service. In addition, the University will conduct these pre-game activities under the conditions outlined in the Security Plan, attached.

Tailgate Areas

The University seeks approval to designate the parking spaces surrounding and in the general area of Albertsons Stadium and the Alumni and Friends Center as tailgate areas as well as the western portion of DeCheverieux Field. The spaces in the parking lots and DeCheverieux will be leased to game patrons and only those patrons will be allowed to park and tailgate in the designated tailgate areas with their private guests.

Within tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state laws and regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages and public intoxication.

By law, alcohol consumption in tailgating areas shall be limited to four hours before kickoff until one hour after the game ends but at no time shall extend beyond 10:00am through 10:00pm of the day of each game hosted. Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor. Alcohol may not be taken from the designated tailgate area into any other area. The University will not sell alcohol or serve alcohol in the tailgate area nor license or allow any vendor to sell or dispense alcohol in the tailgate area. Only private individuals authorized to be in the tailgate area may bring alcohol into the tailgate area for personal use by themselves and their guests.

Basketball

Double R Ranch Club Room

Boise State University requests Board approval to provide alcohol service in the Double R Ranch Club Room of Taco Bell Arena as a “Permitted Event” as outlined in Board policy I.J, prior to each home men’s and women’s basketball game for the 2018-2019 season.

The University is seeking permission to provide alcohol service in the Double R Ranch Club Room to create a gathering place for Taco Bell Arena Hardwood and Fastbreak Club members prior to men’s and women’s home basketball games. The Double R Ranch Club Room will serve as a reception-style, pre-game gathering place for patrons who are members of the Hardwood and Fastbreak Club and invited guests. In the secure area, members and invited guests will be provided light hors d’oeuvres and non-alcoholic beverages. Guests may purchase or be provided alcoholic beverages from BSU’s official food service provider. This space will become part of the Bronco Game Day experience. It will add value to those attending Bronco basketball games by offering unique food and drink options in a lighted, temperature-controlled environment. Alcohol service will be discontinued at tip-off, but invited guests may return to the Club Room up until the end of half-time to enjoy additional food and non-alcoholic beverages.

As with similar events, Boise State University will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service.

Alumni and Friends Center

Boise State University requests Board approval to provide alcohol service in the Alumni and Friends Center as a “Permitted Event” as outlined in Board policy I.J, prior to each home men’s and women’s basketball game for the 2018-2019 season.

Providing alcohol service at the Alumni and Friends Center will maintain the donor intent and funding for the building. The intent of the center was to cultivate long term relationships with current donors, alumni and friends.

In the secure area, Alumni and Friends with game tickets will be provided with food and non-alcoholic beverages. Guests may purchase or be provided alcoholic beverages from the University’s official food service provider.

As with similar events, Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service.

IMPACT

Approval will allow Boise State University to continue the practice of serving alcohol in restricted areas during home football and basketball games and to improve the offerings for patrons on game day, and provide structured, controlled service of alcohol during pregame activities.

STAFF COMMENTS AND RECOMMENDATIONS

Idaho Administrative Code, IDAPA 38.04.07.305.02 prohibits the consumption or distribution of alcohol in common spaces of State facilities and IDAPA 08.01.08.100 prohibits the sale, possession or consumption of alcoholic beverages in college or university owned, leased, or operated facilities and on campus grounds, except as provided in the State Board of Education Governing Policies and Procedures. Board Policy Section I.J. sets the provision by which alcohol may legally be sold or consumed in institution facilities.

Board Policy Section I.J. allows for the chief executive office to approve limited permits under specific conditions, including the requirement that the events be ticketed or by invitation only, food be provided at the event, the event cannot be in conjunction with any student athletic event and "…the chief executive officer must ensure that the decisions to allow possession and consumption of alcoholic beverages are consistent with the proper image and the mission of the institution." Amendments made to Board Policy I.J. at the October 2017 Regular Board meeting expanded options for institutions, with Board approval, to serve alcohol in conjunction with NCAA student athletic events under specific conditions and specified locations, including the option to establish "tailgating areas" under the following conditions:

- Specific parking lots or limited areas of university grounds must have controlled access as tailgate areas
- Only game patrons authorized by the institution will be allowed to park and tailgate in the designated tailgate areas with their private guests.
- Within tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages and public intoxication.

- Alcohol consumption in tailgating areas shall be limited to the times approved by the Board and at no time shall extend beyond 10:00am through 10:00pm of the day of each NCAA football game hosted by the institution.
- Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor.
- Alcohol may not be taken from the designated tailgate area into any other area.
- The institutions shall not sell alcohol or serve alcohol in the tailgate area nor license or allow any vendor to sell or dispense alcohol in the tailgate area.
- Only private individuals authorized to be in the tailgate area may bring alcohol into the tailgate area for personal use by themselves and their guests.
- Institution sponsored private game-day events at which alcohol may be served by the institution remain subject to the requirements set forth in I.J.2.c.

At the June 2017 Regular Board meeting the Board approved alcohol service at Boise State University in the following locations and for the following sports:
Stueckle Sky Center – home football season, Famous Idaho Potato Bowl, 2018 spring game and if applicable the conference championship game.

At the December 2017 Regular Board meeting the Board approved and expansion of alcohol service to include the Double R Ranch Club Room – Taco Bell Arena for In-suite/Club room basketball.

The Current request would expand the alcohol service to the following locations, in addition to the two locations approved in 2017:

- Caven-Williams Sports Complex (Pre-game football)
- Allen Noble Hall of Fame Gallery (Pre-game football)
- Alumni and Friends Center (Pre-game football)
- DeCheverieux Field (Pre-game football)
- Alumni and Friends Center (Pre-game basketball)
- Tailgating area (parking spaces surrounding and in the general area of Albertsons Stadium and the Alumni and Friends as well as the western portion of DeCheverieux Field.)

Pursuant to Board Policy I.J. a report must be submitted to the Board annually after the conclusion of the football season prior to consideration being given to the approval of any future request for similar events. This agenda item serves as the institution's report. Given the variability in the institutions reports the Board may want to set specific areas the Board would like the institutions to cover each year.

The proposed Board action is contingent on Board approval of two additional locations. If the Board does not approval the additional location the request would need to be altered to exclude DeCheverieux Field and the Alumni and Friends Center.

BOARD ACTION

I move to approve the request by Boise State University to waive the location restrictions in Board Policy I.J.2., allowing alcohol service to be served in the DeCheverieux Field area for pre-game football events and the Alumni and Friends Center for Pre-game basketball events for the 2018-2019 season.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the request by Boise State University for alcohol service in full compliance with all applicable provisions of Board Policy I.J., including sections I.J.2.c., d, and e as applicable to the location. Alcohol services is approved for the 2018-2019 football and basketball season in the following locations: for pre-game football: Caven-Williams Sports Complex, Allen Noble Hall of Fame, the Alumni & Friends Center and DeCheverieux Field; to approve in-suite service in the Stueckle Sky Center; and to approve pre-game service in the following locations for basketball: the Double R Ranch Club Room in the Taco Bell Arena and the Alumni & Friends Center.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

ATTACHMENT 1

Boise State University
2018 Football Season
Security Plan
DeChevrieux Field

The following report addresses security for alcohol service at Boise State Football games at the DeChevrieux Field. Security plans for the facility are as follows and will be complied with for each home game for the 2018 season. The plan outlines measures taken to ensure that no underage drinking occurs.

DeChevrieux Field

We will create a secure area where alcohol consumption can be monitored and contained. The area will be a restaurant-type atmosphere for Boise State football game patrons. As with the previous years in other venues, Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the university will conduct the pre-game activities under the following conditions:

<u>DeChevrieux Field Game Day Staffing</u>

- One patron services staff at the main entrance to the corporate village area.
- One patron services staff will at the west gate of the corporate village area to assist with emergency egress purposes.
- One crowd manager will staff the main entrance into the fan zone. They will check to ensure all guests have a football game ticket.
- One patron services staff will be stationed at the north gate of the fan zone to monitor guests as they flow in and out of the food vender area.
- Four patron services staff will be positioned along the barricades that divide the fan zone from the corporate village area. They will ensure alcohol does not move between the two areas and will help monitor all activities between the two areas.
- One patron services staff will roam the fan zone area to monitor patron behavior and checking for color-coded wristbands.
- Aramark (TIPs trained) staff will be assigned at the beverage stations to check ID's and issue color-coded wristbands.
- Patron services staff will be placed at the entrances to the alcohol free kids zone to ensure no adult beverages enter this area. The staff at the east entrance will also monitor for game tickets before allowing fans to enter into the fan zone area.
- Two Boise State Athletics employees roaming throughout facility identifying any problems that may occur. Will notify security personnel when necessary.

<u>DeChevrieux Field Policies</u>

1. All patrons must show a valid game ticket to enter. Student tickets will not be accepted.
2. The event will begin three hours prior to kick off and end at the start of the game.

3. The events will be secured to control access to and from the area.
4. There will be two entry points manned by security personnel who will check for valid game tickets of all patrons entering the facility.
5. Aramark (TIPs trained) staff will be assigned at the beverage stations to check ID's and issue color coded wristbands to attendees over the age of 21.
6. There will be one entrance to each queuing line for beer and wine sales for each station. Only those patrons who receive a color-coded wristband will be allowed to purchase alcohol.
7. Security personnel will monitor all alcohol wristband policies/patron behavior.
8. No alcohol making or distributing companies will be allowed to sponsor the event.

9 The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.

9. The SBOE alcohol policy will be included in Boise State's 2018 Fan Guide and will be posted at the entrance of these events on game days. This notice will state that the minimum drinking age in Idaho is 21 and that at no time should they allow any underage drinking and/or serving of alcohol to visibly intoxicated patrons.

Boise State University
2018 Football Season
Security Plan
Caven Williams Sports Complex

The following report addresses security for alcohol service at Boise State Football games in the Caven Williams Sports Complex. Security plans for the facility are as follows and will be conducted at each home game for the 2018 season. The plan outlines measures taken to ensure that no underage drinking occurs.

There were no serious incidents regarding the pre-game service of alcohol during the 2017 season.

Caven Williams Sports Complex

We will create a secure, indoor, area where alcohol consumption can be monitored and contained. The area will be a restaurant-type atmosphere for Boise State football game patrons. As with the previous years, Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the university will conduct the pre-game activities under the following conditions:

Caven Williams Game Day Staffing

- Two Crowd Managers at front entrance checking individual passes to all that enter. Only patrons with a valid game ticket will be allowed to enter the facility Two Aramark employees (TIPS trained) will check ID's and issue color-coded wrist bands within the over 21 secure area.
- Crowd Manager checking for color-coded wristband stationed at entrance to the queuing area for purchase of alcohol.
- Crowd Manager roaming entire area checking for color-coded wristband and patron behavior.
- Two Crowd Managers patrolling the alcohol-free area of the fanzone to make sure alcohol does not pass onto field area.
- Four Boise State Athletics employees roaming throughout facility identifying any problems that may occur. Will notify security personnel when necessary.
- One Boise State University Operations employee designated as venue manager roaming throughout facility identifying any problems that may occur. Will notify security personnel when necessary. Also responsible for checking entrances to secure building ensuring that no one is present without proper credentials.

Policies for Facility

- All who enter the Caven Williams Sports Complex must have a valid game ticket. Potential patrons holding a student ticket will not be permitted to enter the facility.
- Event begins three hours prior to kick off and ends at the start of the game.

- The Caven Williams Sports Complex will be secured to control access to and from the area.
- There will be one entry point into the Caven Williams Sports Complex manned by security personnel who will check for a valid game ticket of all patrons entering the facility.
- One ID station will be provided, located inside the facility, where ID's will be checked and special colored wristbands will be issued to identify attendees over the age of 21.
- Security personnel located throughout the area will be monitoring all alcohol wristband policies and patron behavior.
- Security personnel will not allow patrons to exit or enter the secured area with any alcoholic beverages.
- The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.
- No alcohol making or distributing companies may be allowed to sponsor the event.
- The SBOE alcohol policy as it relates to the Caven Williams Complex will be included in Boise State's 2018 fan guide.
- Boise State will abide by all terms and conditions of the Board's existing alcohol policy.

2018 Football Season
Security Plan
Allen Noble Hall of Fame

We will create a secure, area in the Hall of Fame similar to Caven Williams where alcohol consumption can be monitored and contained. The area will be a reception atmosphere for Boise State football game patrons. Guests may purchase or be provided alcoholic beverages from the University's official food service provider. As with the past years for similar events in the Stueckle Sky Center and other venues, Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the University will conduct the pre-game activities under the following additional conditions:

Allen Noble Hall of Fame Game Day Staffing

- Two Crowd Managers at front entrance checking individual passes to all that enter. Only Hall of Fame Club members or invited guests will be allowed to enter the facility. Two Aramark employees (TIPS trained) will check ID's at the bar.
- Crowd Manager roaming entire area checking for patron behavior.
- Two Boise State Athletics employees roaming throughout facility identifying any problems that may occur. Will notify security personnel when necessary. Also responsible for checking entrances to secure building ensuring that no one is present without proper credentials.

Policies for Facility

- All who enter the Allen Noble Hall of Fame must be a member or guest of the Allen Noble Hall of Fame.
- The event begins three hours prior to kick off and ends at kickoff. Alcohol will only be provided or sold until the game begins.
- The Allen Noble Hall of Fame will be secured to control access to and from the area.
- The entry points into the Allen Noble Hall of Fame will be manned by security personnel who will check for a valid membership of all patrons entering the facility.
- One ID station will be provided, located inside the facility at the bar, where ID's will be checked to identify attendees over the age of 21.
- Security personnel located throughout the area will be monitoring all alcohol policies and patron behavior.
- Security personnel will not allow patrons to exit or enter the secured area with any alcoholic beverages. Only the exterior and interior entrances will be used during the event. Other exits will not be used except as an emergency egress.
- The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale

and consumption of all alcohol to those of legal drinking age only.

- No alcohol making or distributing companies may be allowed to sponsor the event.
- The SBOE alcohol policy as it relates to the Allen Noble Hall of Fame will be communicated to all Allen Noble Hall of Fame members and will be posted in the Allen Noble Hall of Fame on game days. Boise State will abide by all terms and conditions of the Board's existing alcohol policy.
- Attached is the map of the facility in the Allen Noble Hall of Fame and how it will be configured for the game day events.

Security Plan
Alumni and Friends Center

The following report addresses security for alcohol service at Boise State Football games at the Alumni and Friends Center. Security plans for the facility are as follows and will be conducted at each home game for the 2018 season. The plan outlines measures taken to ensure that no underage drinking occurs.

Alumni and Friends Center

There have been no serious incidents regarding the pre-game service of alcohol during any of the previous seasons. We will create a secure area where alcohol consumption can be monitored and contained. The area will be a restaurant-type atmosphere for Boise State football game patrons. As with the previous years, Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the university will conduct the pre-game activities under the following conditions:

Alumni and Friends Center Game Day Staffing

- Two Crowd Managers at front entrance checking individual passes to all that enter.
- Crowd Manager checking for color-coded wristband stationed at entrance to the queuing area for purchase of alcohol.
- Crowd Manager roaming entire area checking for color-coded wristband and patron behavior.
- Four Boise State Alumni Relations employees roaming throughout facility identifying any problems that may occur. Will notify security personnel when necessary.

Policies for Facility

- All who enter the Alumni and Friends Center pre-game area must have a valid game ticket. Potential patrons holding a student ticket will not be permitted to enter the facility.
- Event begins three hours prior to kick off and ends at the start of the game.
- The Alumni and Friends Center pre-game area will be secured to control access to and from the area.
- There will be two entry points into the Alumni and Friends Center pre-game area, manned by security personnel who will check for a valid game ticket of all patrons entering the area.
- One ID station will be provided, located inside the area, where ID's will be checked and special colored wristbands will be issued to identify attendees over the age of

21.

- Security personnel located throughout the area will be monitoring all alcohol wristband policies and patron behavior.
- Security personnel will not allow patrons to exit or enter the secured area with any alcoholic beverages.
- The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.
- No alcohol making or distributing companies may be allowed to sponsor the event.
- The SBOE alcohol policy as it relates to the Alumni and Friends Center will be included in Boise State's 2018 fan guide.

Alcohol Report and Security Plan
Stueckle Sky Center

The following report addresses security for alcohol service at Boise State Football games in the Stueckle Sky Center. Security plans for the Sky Center are as follows and will be conducted at each home game for the 2018 season. The plan outlines measures taken to ensure that no underage drinking occurs.

There have been no serious incidents regarding the service of alcohol during the 2005 through 2017 season.

As with previous years, Boise State University will provide all the control measures and follow all requirements of the Board policy regarding alcohol service. Also, the university will conduct the activities with the following staff and security in the building on game day.

Staffing Plan

The following staffing will be implemented. The staff will be instructed that controlling the prevention of underage drinking of alcohol and/or overindulgence of alcohol is high priority.

- Crowd manager Supervisor – Oversee all patron services staff for the SSC
- Assistant Crowd Management Supervisor – Assist Crowd Management Supervisor in supervision of patron services staff in the SSC

North Elevator Lobby

- Crowd Manager throughout the game. Stationed at entry point. Will check tickets, ensures alcoholic beverages do not enter or leave the facility and assist with patron services duties.
- Crowd Manager during load in and out then will move to the Loge level during the game. Checks tickets, ensures alcoholic beverages do not enter or leave the facility and patron services duties.

South Elevator Lobby

- Crowd Manager throughout the game. Stationed at entry point. Will check tickets, ensures alcoholic beverages do not enter or leave the facility and assist with patron services duties.
- Crowd Manager during load in and out then will move to the Club level during the game. Checks tickets, ensures alcoholic beverages do not enter or leave the facility and patron services duties.

Level 3 – Loge Level

- Crowd Manager at the N. stairs stadium to loge level – Ensures guests in the stadium do not enter the Sky Center and SSC patrons do not enter the stadium. Patron services duties
- N. Elevator lobby Crowd Manager – Monitors Patrons who enter the Loge Level bar, assists in monitoring alcohol sales at the bar.
- Club Room Bar Crowd Manager – Monitors alcohol sales at the bar. Patron services duties.
- South stairs stadium to loge level Crowd Manager. Ensures guests in the stadium do not enter the Sky Center and SSC patrons do not enter the stadium. Patron services duties.
- Crowd Manager to rove throughout the loge level—Patron services duties, monitors alcohol sales in bar and seating area.

Level 4 – Club Level

- Club Room Crowd Manager - Monitors the alcohol sales at the bar. Patron Services Duties
- South Stairwell Crowd Manager - Monitors movement of SSC patrons between the Suite and club level.
- Hallway Crowd Manager - Rove throughout the hall way. Patron services duties, monitors alcohol sales at kiosk.
- Club Lounge Crowd Manager - Monitors alcohol sales in bar area and patron services duties
- North Stairwell Crowd Manager -- Monitors movement of SSC patrons between the Suite and club level.
- Club Area Crowd Manager - Monitors back row of club seating area to ensure the isle remains clear. Patron services duties.
- West Stairs Crowd Manager between 4th and 5th floor-- Monitors movement of SSC patrons between the Suite and club level.
- Crowd Manager to rove between lounge and hallway—Patron services duties and assists in monitoring alcohol sales at bar and kiosk.

Level 5—Suite Level

- Club Room Bar Crowd Manager - Monitors the alcohol sales at the bar and Patron Services Duties
- South Hallway Crowd Manager - Patron services duties and rove hall to monitor patrons in the suites.
- North End of Hallway Crowd Manager - Patron services duties and rove hall to monitor patrons in the suites.

Level 6—Press Level

- Club Room Bar Crowd Manager - Monitors the alcohol sales at the bar and Patron Services Duties
- South End Hallway Crowd Manager - Patron services duties and rove hall to monitor patron in the suites.

- North End Hallway Crowd Manager - Patron services duties. Rove hall to monitor patron in the suites.

Policies

- SSC is enclosed and totally separate from the general seating areas and alcohol service will only be available to patrons with tickets in the Sky Center.
- There is no access from the general seating area into SSC. Only patrons who hold tickets to seats in the SSC will be allowed into the Sky Center during games.
- The sale of alcohol will begin no sooner than three hours prior to kick off and will end at the start of the 4th quarter.
- Security personnel will not allow patrons to exit or enter the area with any food or beverages.
- The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.
- Boise State will abide by all terms and conditions of the Board's existing alcohol policy.
- The official food sponsor will be required to insure and indemnify the State of Idaho, the State Board of Education, and Boise State University for a minimum of $2,000,000, and to make sure the proper permits and licenses are obtained.
- No alcohol making or distributing companies may be allowed to sponsor the activities.
- Each suite in the SSC shall have a sign displayed prominently with the following statement:

Laminated info sheet included in all suites placed on refrigerator.

Boise State University has received permission from the State Board of Education to serve alcohol in the Stueckle Sky Center. To continue to provide this service, we will need your help and cooperation.

- Please drink responsibly.
- The University will enforce a **zero tolerance policy** on **alcohol abuse** and **underage drinking** that could result in removal from the Sky Center and revocation of game tickets.
- Underage drinking is against the law and is not allowed anywhere in the Stueckle Sky Center.
- Please keep all items away from open windows. Items dropped or thrown from the suites could seriously injure fans seated below.
- Ticket must be displayed on a lanyard at all times. If you do not have a lanyard, let an usher know so one can be provided.
- Service of alcoholic beverages will cease at the completion of the third quarter.
- Alcoholic beverages are not allowed in the elevators.
- Patrons are not allowed to enter or exit the Stueckle Sky Center with any food or beverage.

Boise State University
2017/2018 Men's and Women's Basketball Season - Double R Ranch Club Room
Security Plan
Taco Bell Arena

The University is seeking permission to provide alcohol service in the Double R Ranch Club Room for the purpose of creating a gathering place for Hardwood and Fastbreak Club members at Taco Bell Arena prior to home men's and women's basketball games. In the secure area, Hardwood and Fastbreak Club members and invited guests will be provided light hors d'oeuvres and non-alcoholic beverages. Guests may purchase or be provided alcoholic beverages from the University's official food service provider.

The Double R Ranch Club Room will serve as a reception-style, pre-game gathering place for Hardwood and Fastbreak Club members and invited guests. This space will become part of the Bronco Gameday experience. It will add value to those attending Bronco basketball games by offering unique food and drink options in a lighted, temperature-controlled environment.

There were no serious incidents regarding the service of alcohol during the 2018 season.

As with the past years for similar events in other venues, Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the University will conduct the pre-game activities under the following additional conditions:

1. All patrons must be Hardwood or Fastbreak Club members or an invited guest. Hardwood and Fastbreak Club members will receive unique membership credentials prior to the season beginning to signify their membership and identify invited guests upon entry. Members must be wearing their membership credential for entry.
2. Event begins 90 minutes prior to tip off and alcohol sales will end at the start of the game. The University may choose to have the Club Room open again during half time for guests to enjoy food and non-alcoholic beverages only.
3. The Double R Ranch Club Room will be secured to control access to and from the area. Security personnel will check for valid membership credential of all patrons entering the room at each entrance. Members and invited guests may enter from the exterior entrance of the club room or by the entrance located inside the arena.
4. One Aramark employee (TIPS trained) will check ID's at the bar to ensure attendees receiving alcohol service are over the age of 21.
5. Security personnel located throughout the area will be monitoring all alcohol policies, the presence of membership credentials, and patron behavior.
6. No alcohol making or distributing companies will be allowed to sponsor the event.

7. The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.
8. The SBOE alcohol policy will be posted at the entrance of Double R Ranch Club Room on game days. This notice will state that the minimum drinking age in Idaho is 21 and that at no time should they allow any underage drinking and/or serving of alcohol to visibly intoxicated patrons.
9. All Hardwood and Fastbreak Club members will receive the SBOE alcohol policy via email or other communication method as deemed appropriate.

Double R Ranch Club Room

The Double R Ranch Club Room is used by the Taco Bell Arena for VIP events prior to concerts and other commercial events. As such, the Arena operations has experience using the room for secure alcohol service as a pre-event venue. The University will create a secure area in the Double R Ranch Club Room similar to the Stueckle Sky Center where alcohol consumption can be monitored and contained. The area will be a restaurant-type atmosphere for Boise State basketball game patrons as with the previous years in other venues, Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the university will conduct the pre-game activities under the following conditions:

<u>Double R Ranch Club Room Game Day Staffing</u>

- One Crowd Manager at the exterior entrance checking for Hardwood and Fastbreak Club membership credentials for all that enter. Only Hardwood or Fastbreak Club members or invited guests with a membership credential will be allowed to enter the facility.
- One Crowd Manager at the interior entrance checking for Hardwood and Fastbreak Club membership credentials for all that enter. Only Hardwood or Fastbreak Club members or invited guests with a membership credential will be allowed to enter the facility.

- One Aramark employee (TIPS trained) will check ID's at the bar to ensure attendees receiving alcohol service are over the age of 21.

- Another Crowd Manager will be assigned to roam the entire area checking for membership credentials and patron behavior.
- At least two Boise State University Athletics employees will roam throughout facility identifying any problems that may occur and will notify security personnel when necessary. In addition, this employee will assist with the responsibility of checking entrances to secure building ensuring that no one is present without proper credentials.

Policies for Facility

- All who enter the Double R Ranch Club Room must be a Hardwood/Fastbreak Club member or guest.
- The event begins 90 minutes prior to tip off and ends at the end of half time. Alcohol will only be provided or sold until the game begins.
- The Double R Ranch Club Room will be secured to control access to and from the area.
- Both entry points into the Double R Ranch Club Room will be manned by security personnel who will check for membership of all patrons entering the facility.
- One ID station will be provided, located inside the facility at the bar, where ID's will be checked to identify attendees over the age of 21.
- Security personnel located throughout the area will be monitoring all alcohol policies, the presence of Hardwood/Fastbreak Club membership credential, and patron behavior.
- Security personnel will not allow patrons to exit or enter the secured area with any alcoholic beverages. Only the exterior and interior entrances will be used during the event. Other exits will not be used except as an emergency egress.
- The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.
- No alcohol making or distributing companies may be allowed to sponsor the event.
- The SBOE alcohol policy as it relates to the Double R Ranch Club Room will be communicated to all Hardwood and Fastbreak Club members and will be posted in the Club Room on game days. Boise State will abide by all terms and conditions of the Board's existing alcohol policy.
- Attached is the map of the facility in the Double R Ranch Club Room and how it will be configured for the game day events.

Double R Ranch Club Room

Boise State University
2018 Basketball Season – Taco Bell Arena
Security Plan
Alumni and Friends Center

Alumni and Friends Center

We will create a secure area where alcohol consumption can be monitored and contained. The area will be a restaurant-type atmosphere for Boise State basketball game patrons. Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, the university will conduct the pre-game activities under the following conditions:

Alumni and Friends Center Game Day Staffing

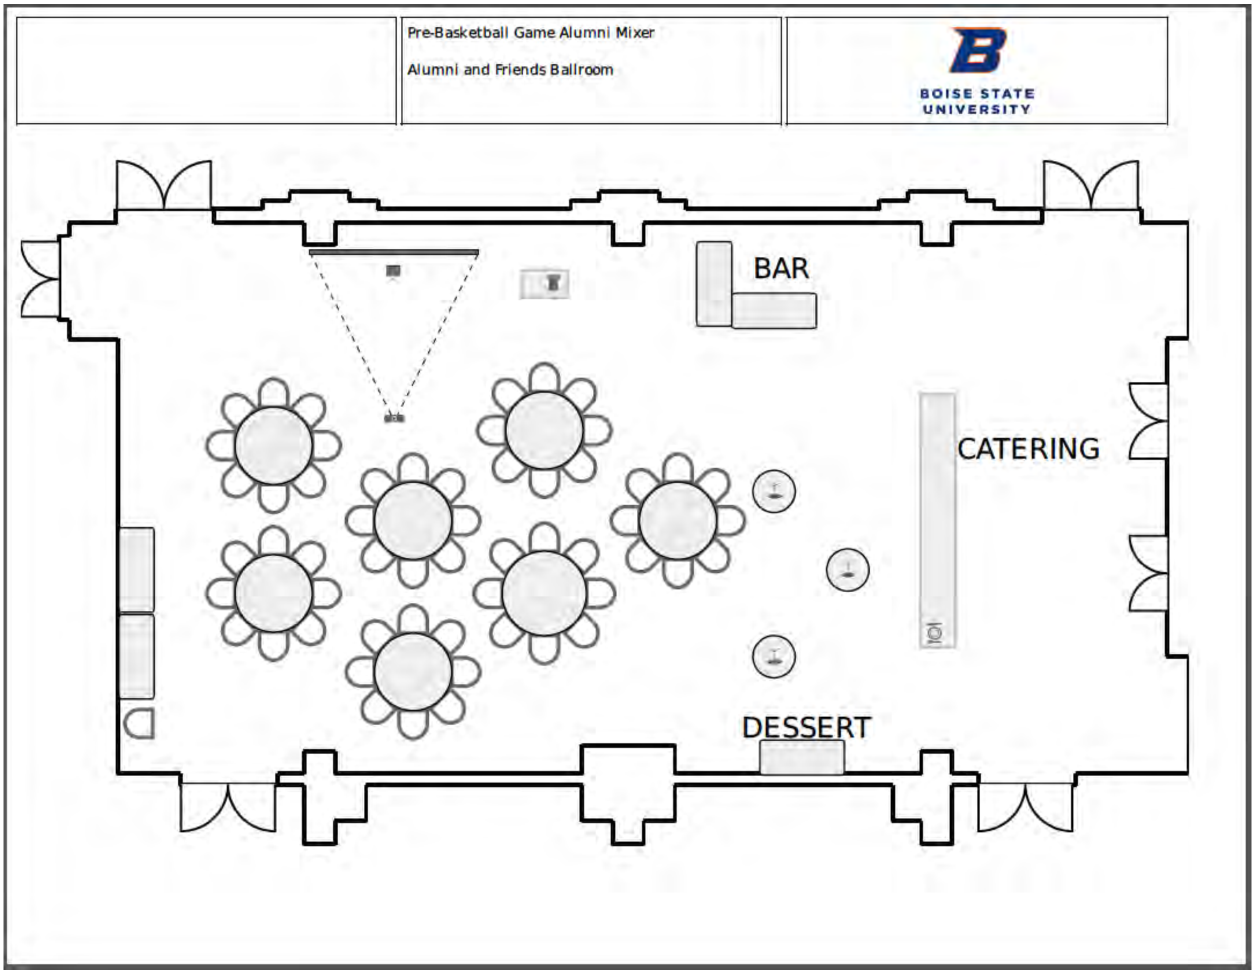
- Two Crowd Managers at front entrance checking individual passes to all that enter.
- Crowd Manager checking for color-coded wristband stationed at entrance to the queuing area for purchase of alcohol.
- Crowd Manager roaming entire area checking for color-coded wristband and patron behavior.
- Four Boise State Alumni Relations employees roaming throughout facility identifying any problems that may occur. Will notify security personnel when necessary.

Policies for Facility

- All who enter the Alumni and Friends Center pre-game area must have a valid game ticket. Potential patrons holding a student ticket will not be permitted to enter the facility.
- Event begins two hours prior to tip off and ends at the start of the game.
- The Alumni and Friends Center will be secured to control access to and from the building.
- There will be one entry point into the Alumni and Friends Center, manned by security personnel who will check for a valid game ticket of all patrons entering the area.
- One ID station will be provided, located inside the building, where ID's will be checked and special colored wristbands will be issued to identify attendees over the age of 21.
- Security personnel located throughout the area will be monitoring all alcohol wristband policies and patron behavior.
- Security personnel will not allow patrons to exit or enter the secured area with any alcoholic beverages.
- The Boise State University campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale

and consumption of all alcohol to those of legal drinking age only.

- No alcohol making or distributing companies may be allowed to sponsor the event.
- The SBOE alcohol policy as it relates to the Alumni and Friends Center will be included in Boise State's 2018 fan guide.
- Boise State will abide by all terms and conditions of the Board's existing alcohol policy.



IDAHO STATE UNIVERSITY

SUBJECT

Request for 2018 Football Pre-game Alcohol Service Approval

REFERENCE

June 2014	Board approved a request to establish secure areas for pre-game activities that serve alcohol for the 2014 football season.
June 2015	Board approved a request to establish secure areas for pre-game activities that serve alcohol for the 2015 football season
June 2016	Board approved a request to establish secure areas for pre-game activities that serve alcohol for the 2016 football season
June 2017	Board approved a request to establish secure areas for pre-game activities that serve alcohol for the 2017 football season

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, I.J – Use of Institutional Facilities and Services With Regard to the Private Sector
Idaho Administrative Code, IDAPA 08.01.08 – 100, Possession, Consumption, and Sale of Alcoholic Beverages at Public Higher Education Institutions.
Idaho Administrative Code, IDAPA 38.04.07 – 305, Food and Beverage

ALIGNMENT WITH STRATEGIC PLAN

Governance issue. Not aligned with strategic plan.

BACKGROUND / DISCUSSION

Board policy allows service of alcohol on campus in conjunction with athletic events with Board approval under specific conditions. Idaho State University has been granted approval provided an acceptable and manageable plan has been provided (Boise State and University of Idaho for the 2004 - 2017 football seasons).

During the 2007 through 2017 football seasons, Idaho State University followed models established by the University of Idaho and Boise State University for staging similar events.

In accordance with approval granted by the State Board for the 2017 football season, ISU reports that the program in place appeared to work well and that there were no reports of violations of the policy or Board approved conditions or incidents of underage drinking. Idaho State University is continuing to work with campus public safety, the Pocatello City Police and other officials to provide a controlled area for service of alcohol prior to home football games.

Idaho State University requests Board approval to establish a secure area on the east side of Holt Arena, prior to each home Bengal football game, for the purpose of allowing corporate partners, Bengal Foundation and invited guests the opportunity to gather with clients, friends, and guests for the 2018 home football games. In this secure area, Idaho State University Athletics will allow patrons to purchase food and beverages (non-alcoholic and alcoholic). The alcoholic beverages will be sold and served by a licensed provider and the University's official food service provider. Idaho State University will provide control measures and follow all requirements of Board Policy I.J. regarding alcohol service. The University will conduct the pre-game activities under the following conditions:

1. A secured area surrounded by a fence to control access to and from the area.
2. Three-hour duration, ending at kick-off.
3. Alcohol making or distributing companies will not be allowed to sponsor the activities or tents.
4. A color-coded wrist band or pass admission system will identify attendees and invited guests. No one under legal drinking age will be admitted.
5. All corporate partners involved in the pre-game location will be sent a letter outlining pre-game location and the SBOE alcohol policy. The letter will state the minimum drinking age in Idaho is 21 and that at no time should they allow underage drinking and/or serving of alcohol to visibly intoxicated persons.
6. One entry/exit point, which will be manned by security personnel.
7. Security personnel located throughout the controlled area will be monitoring the alcohol wristband policy and patron behavior.
8. Security personnel will not allow patrons to exit the area with alcoholic beverages.
9. Tent sponsors will be required to insure and indemnify the State of Idaho, the State Board of Education and Idaho State University for a minimum of $2,000,000 and to make sure that the proper permits and licenses are obtained.
10. The area is for sponsors to entertain clients/guests for the Fall 2018 home football games, including sales and service of alcohol.
11. A review of the 2018 events will be brought back after the conclusion of the season before consideration will be given to any future requests for similar activities on home football game days.

IMPACT

Approval will allow ISU to continue with limited alcohol serve at football games during the 2018 season.

b. Sports Med Center – Proposed Control Area
Attachment 2 - Detail of Booth and Service Areas–West Side of Holt Arena

STAFF COMMENTS AND RECOMMENDATIONS

Idaho Administrative Code, IDAPA 38.04.07.305.02 prohibits the consumption or distribution of alcohol in common spaces of State facilities and IDAPA 08.01.08.100 prohibits the sale, possession or consumption of alcoholic beverages in college or university owned, leased, or operated facilities and on campus grounds, except as provided in the State Board of Education Governing Policies and Procedures. Board Policy Section I.J. sets the provision by which alcohol may legally be sold or consumed in institution facilities.

Board Policy Section I.J. allows for the chief executive office to approve limited permits under specific conditions, including the requirement that the events be ticketed or by invitation only, food be provided at the event, the event cannot be in conjunction with any student athletic event and "…the chief executive officer must ensure that the decisions to allow possession and consumption of alcoholic beverages are consistent with the proper image and the mission of the institution." Alcoholic beverages may only be allowed in conjunction with NCAA pregame football activities with prior Board approval under very specific conditions, including: the area must be for sponsors to entertain clients/guests, attendance is limited to adult patrons, access to the area is limited through controlled access points, attendance is limited to those with a written invitation, food must be available at the event, the event must be conducted during the pre-game only and not last more than three hours, ending at kick-off.

Pursuant to Board policy I.J. a report must be submitted to the Board annually after the conclusion of the football season prior to consideration being given to the approval of any future request for similar events on home football game days. This agenda item serves as the institutions report.

Idaho State University is notifying the Board that there were no issues during the 2017 football season and is requesting approval of alcohol service in the same areas approve by the Board in 2017 with no expansion.

BOARD ACTION

I move to approve the request by Idaho State University to establish secure areas as specified in Attachment 1 and 2 for the purpose of allowing alcohol service during pre-game activities under all of the conditions outlined in Board policy I.J. subsection 2.c. for the 2018 football season.

UNIVERSITY OF IDAHO

SUBJECT

Service of alcohol at Pre-Game Events for the 2018 football season, including post-season, and the 2019 Spring Game.

REFERENCE

2004-2014	Each year the Board approved the request by UI to establish secure areas for pre-game activities that serve alcohol for the football season. There were no serious issues or concerns related to the service of alcohol at pre-game events during this time.
June 18, 2015	Board approved the request by UI to establish secure areas for pre-game activities that serve alcohol for 2015 football season.
September 3, 2015	Board approved the additional request by UI to serve alcohol during football games in the Vandal Fan Zone on a pilot basis with a report to the Board the following October.
October 21, 2015	Board voted to extend the approval of expanded alcohol service in the Vandal Fan Zone during home football games for the 2015-16 season.
June 16, 2016	Board voted to end the expanded alcohol service in the Vandal Fan Zone and approved the request by UI to establish secure areas for pre-game activities that serve alcohol for 2016 football season, 2017 Spring Game, post-season bowl game and if applicable conference championship game.
June 15, 2017	Board voted to approve the request by the University of Idaho to establish a secure area in full compliance with the provisions set forth in Board policy I.J.2. for the purpose of allowing alcohol service during the 2017 football season and the spring 2018 football scrimmage.
October 19, 2017	Board approved revisions to Board Policy I.J. subsection 2.c which included revised requirements applicable to pre-game activities.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, I.J – Use of Institutional Facilities and Services With Regard to the Private Sector
Idaho Administrative Code, IDAPA 08.01.08 – 100., Possession, Consumption, and Sale of Alcoholic Beverages at Public Higher Education Institutions.
Idaho Administrative Code, IDAPA 38.04.07 – 305, Food and Beverage

ALIGNMENT WITH STRATEGIC PLAN

GOAL 1: A WELL EDUCATED CITIZENRY
Objective A: Access
Objective D: Quality Education
The UI creates a restaurant-type atmosphere within the events and areas where alcohol service is allowed. Feedback on the events has been very positive, and fans appreciated the opportunity to participate in pre-game events. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities. Building strategic friends and enhancing donor relations improves the University's ability to collaborate with the private sector and our ability to raise private funds for scholarships, campus facilities, sponsored research and endowed professorships, all of which go to enhance access to the University and the quality of the education we offer.

BACKGROUND/DISCUSSION

The UI seeks approval from the Board to continue its prior practice whereby in a secure area, patrons may purchase food and beverages (non alcoholic and alcoholic) from Sodexo, the university's official food service provider, as part of home football pre-game activities. The university will follow all requirements of Board policy regarding alcohol service, and will conduct the pre-game events under the conditions set out in Board policy I.J.2. As per Board/Regents Policy I.J.2.c.iii.(1) a color-coded wrist band system will serve to identify all authorized attendees and guests, with a separate wrist band clearly identifying those of drinking age. Underage children will not be allowed into the alcohol service area.

The UI creates a restaurant-type atmosphere within the secure areas. Feedback on the events has been very positive, and fans appreciated the opportunity to participate in pre-game events. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities. In managing its pre-game functions, the UI seeks to provide a family oriented, safe, fun, and exciting atmosphere that promotes attendance and enhances the game experience.

The Student Activities Field and North Kibbie Field, will be the location for the secure area where food and beverage service (including alcoholic beverages) will take place. Within the secure area there will be space for the President's Circle Pre-Game Function, Vandal Fan Zone, and for Corporate/Guest Institution Tents, including the university's athletic marketing agent (Learfield). These functions provide an opportunity for the University, our Guest Institution for the game, and for corporate sponsors to reward employees and say "thank you" to valued customers and supporters by hosting private functions. This area is located on the east side of the ASUI-Kibbie Dome. The south end of this field will be available for the University to host visiting team institutions pursuant to all applicable Board and Institution policies.

Service of alcohol at the President's Pre-game Function and the Corporate/Guest Institution Events will be through tents creating a controlled area for monitoring attendance and consumption, with service limited to a specific area within the tents. Minors will not be allowed in the alcohol service area and no alcohol will be allowed to leave the service area. This layout allows the institution to control all events permitted for pre-game service of alcohol.

Service of alcohol in the Vandal Fan zone will be as was done in the 2016 football season, with a temporary structure to control the area and monitor consumption, with service limited to a specific area within the structure. Minors will not be allowed in the alcohol service area and no alcohol will be allowed to leave the service area.

Again there have been no serious incidences regarding the pre-game service of alcohol through the 2017 football season and the 2018 spring practice football game where service has been approved. The UI creates a restaurant-type atmosphere within the secure areas. Feedback on the events has been very positive, and fans appreciated the opportunity to participate in pre-game events. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities.

IMPACT

Approval will allow the University of Idaho to serve alcohol in the approved areas within the limits of Board Policy I.J.

ATTACHMENTS

Attachment 1 – Maps and Drawings of Service Areas

STAFF COMMENTS AND RECOMMENDATIONS

Idaho Administrative Code, IDAPA 38.04.07.305.02 prohibits the consumption or distribution of alcohol in common spaces of State facilities and IDAPA 08.01.08.100 prohibits the sale, possession or consumption of alcoholic beverages in college or university owned, leased, or operated facilities and on campus grounds, except as provided in the State Board of Education Governing Policies and Procedures. Board Policy Section I.J. sets the provision by which alcohol may legally be sold or consumed in institution facilities.

Board Policy Section I.J. allows for the chief executive office to approve limited permits under specific conditions, including the requirement that the events be ticketed or by invitation only, food be provided at the event, the event cannot be in conjunction with any student athletic event and "…the chief executive officer must ensure that the decisions to allow possession and consumption of alcoholic beverages are consistent with the proper image and the mission of the institution." Alcoholic beverages may only be allowed in conjunction with NCAA pregame football activities with prior Board approval under very specific conditions, including: the area must be for sponsors to entertain clients/guests, attendance is limited to adult patrons, access to the area is limited through controlled access points, attendance is limited to those with a written invitation, food must be available at the event, the event must be conducted ruing the pre-game only and not last more than three hours, ending at kick-off.

In 2017 the Board approved the University of Idaho's request to serve alcohol on the Student Activities Field located on the east side of the ASUI-Kibbie Dome. The current request will expand the service to include the North Kibbie Field. In addition to the President and corporate areas approved in 2017 this request also encompasses the Vandal Fan Zone that was approved for one year in in 2016.

Pursuant to Board policy I.J. a report must be submitted to the Board annually after the conclusion of the football season prior to consideration being given to the approval of any future request for similar events on home football game days. This agenda item serves as the institution's report.

BOARD ACTION

I move to approve the request by the University of Idaho to establish a secure area on the Student Activities Field and North Kibbie Field under the conditions set forth in this request and in full compliance with all of the provisions set forth in Board policy I.J.2., for the purpose of allowing alcohol service during the 2018 football season, including post-season home games, and the spring 2019 football scrimmage, with a post-season report brought back to the Board.

Request for approval of sale of alcohol - Litehouse Center/Bud and June Ford Club Room (Center).

REFERENCE

April 21, 2011	Board approval of revisions to SBOE/Regents Policy I.J. relating to service of alcohol at institution events and within institution stadium suite areas.
June 23, 2011	Board approved the request by UI to authorize alcohol service during the 2011 football season in the Litehouse Center/Bud and June Ford Club Room under the conditions outlined in Board Policy I.J. subsection 2.c.
June 21, 2012 through June 15, 2017	Board approved the request by UI to authorize alcohol service during the football season and during the ensuing spring football scrimmage each year, in the Litehouse Center/Bud and June Ford Club Room under the conditions outlined in Board Policy I.J. subsection 2.c.
October 19, 2017	Board approved revisions to Board Policy I.J. subsection 2.c to encompass sale of alcohol in the Litehouse Center suites and Bud and June Ford Clubroom for home basketball games.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, I.J – Use of Institutional Facilities and Services With Regard to the Private Sector
Idaho Administrative Code, IDAPA 08.01.08 – 100., Possession, Consumption, and Sale of Alcoholic Beverages at Public Higher Education Institutions.
Idaho Administrative Code, IDAPA 38.04.07 – 305, Food and Beverage

ALIGNMENT WITH STRATEGIC PLAN

GOAL 1: A WELL EDUCATED CITIZENRY
Objective A: Access
Objective D: Quality Education
The UI creates a restaurant-type atmosphere within the events and areas where alcohol service is allowed. Feedback on the events has been very positive, and fans appreciated the opportunity to participate in pre-game events and in the suite/clubroom facilities while at the game. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities. Building strategic friends and enhancing donor relations improves the University's ability to collaborate with the private sector and our ability to raise private funds for

scholarships, campus facilities, sponsored research and endowed professorships, all of which go to enhance access to the University and the quality of the education we offer.

BACKGROUND/DISCUSSION

The current Board policy provides that Idaho institutions may seek approval for the sale or consumption of alcoholic beverages in conjunction with NCAA athletic events.

The UI seeks continued permission to allow ticketed and authorized patrons in the Center to purchase food and beverages (non-alcoholic and alcoholic) from Sodexo, the university's official food service provider, before and during home football games in the 2017 football season as well as for the 2018 Spring Football Scrimmage Game, for the Litehouse Center/Bud and June Ford Club Room (Center) in the ASUI-Kibbie Activity Center (ASUI-Kibbie Dome). The university will follow all requirements of Board policy I.J.2.c regarding alcohol service in conjunction with home football games.

In addition, the UI seeks initial permission to allow ticketed and authorized patrons of the Center to purchase food and beverages (non-alcoholic and alcoholic) from Sodexo, the university's official food service provider, before and during home basketball games in the 2018-19 basketball season, including post-season games, for the Litehouse Center/Bud and June Ford Club Room (Center) in the ASUI-Kibbie Activity Center (ASUI-Kibbie Dome). The university will follow all requirements of Board policy I.J.2.c regarding alcohol service in conjunction with home basketball games:

- The Center is an enclosed secured area within the ASUI-Kibbie Activity Center which is separate from general ticketed seating areas and which will only be available to patrons with tickets to the Center.
- There is no access from the general seating area into the Center and only patrons who hold tickets to seats within the Center will be allowed into the Center during games.
- All entry points to Center Suites and the Center Clubroom area (identified in the attached drawings) will be staffed with trained security personnel.
- In addition, Security Personnel will be located within the Center to monitor activities within the suites and clubroom
- The university's food service provider (Sodexo) will provide the alcohol license and will provide TIPS trained personnel to conduct the sale of all alcoholic beverages in conjunction with Sodexo's provision of food and non-alcoholic beverages.
- The university and Center Patrons will abide by all terms and conditions of the Board policy and any other conditions place by the Board. Violation of Board policy of additional conditions by Center Patrons will result in action by the university up through removal from the Center and forfeiture of Center game tickets.

Again there have been no serious incidences regarding the pre-game service of alcohol through the 2017 football seasons and 2018 football spring scrimmage game where service has been approved. The UI continues to strive for a restaurant-type atmosphere within the secure areas. Feedback on the events has been very positive. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities. Service of alcohol within the Center is an extension of the university's pre-game and game-day activities surrounding home football games as well as home basketball games.

IMPACT

Approval will allow the University of Idaho to expand alcohol service to home basketball games.

ATTACHMENTS

Attachment 1 – Maps and Drawings of the Center

STAFF COMMENTS AND RECOMMENDATIONS

Idaho Administrative Code, IDAPA 38.04.07.305.02 prohibits the consumption or distribution of alcohol in common spaces of State facilities and IDAPA 08.01.08.100 prohibits the sale, possession or consumption of alcoholic beverages in college or university owned, leased, or operated facilities and on campus grounds, except as provided in the State Board of Education Governing Policies and Procedures. Board Policy Section I.J. sets the provision by which alcohol may legally be sold or consumed in institution facilities.

Board Policy Section I.J. allows for the chief executive office to approve limited permits under specific conditions, including the requirement that the events be ticketed or by invitation only, food be provided at the event, the event cannot be in conjunction with any student athletic event and "…the chief executive officer must ensure that the decisions to allow possession and consumption of alcoholic beverages are consistent with the proper image and the mission of the institution." Alcoholic beverages may only be allowed in conjunction with NCAA pregame football activities with prior Board approval under very specific conditions, including: the area must be for sponsors to entertain clients/guests, attendance is limited to adult patrons, access to the area is limited through controlled access points, attendance is limited to those with a written invitation, food must be available at the event, the event must be conducted during the pre-game only and not last more than three hours, ending at kick-off. For events held in institution stadium suite areas, only patrons who hold tickets to seats in the area are allowed entrance, the sale of alcohol may not begin prior to three (3) hour before kick-off and must end at the start of the 4^{th} quarter, adult patrons may be accompanied by youth if the youth is under adult supervision at all times.

In 2017 the Board approved the request by the University of Idaho to allow alcohol service in the Litehouse Center/Bud and June Ford Club Room located in the ASUI-Kibbie Activity Center during home football games and the spring 2018 scrimmage, this request will expand the service to home basketball games during the 2018-2019 basket ball season in compliance with the changes made to Board Policy I.J. at the October 2017 Board meeting.

Pursuant to Board policy I.J. a report must be submitted to the Board annually after the conclusion of the football season prior to consideration being given to the approval of any future request for similar events on home football game days. This agenda item serves as the institutions report.

BOARD ACTION

I move to approve the request by the University of Idaho to allow alcohol service during the 2018 football season, the spring 2019 football scrimmage, and the 2018-19 basketball season, in the Litehouse Center/Bud and June Ford Club Room located in the ASUI-Kibbie Activity Center under the conditions outlined in Board Policy I.J. subsection 2.c.

Tailgating for the 2018 football season, including post-season, and the 2019 Spring Game.

REFERENCE

2004-2017	Each year the Board approved the request by UI to establish secure areas for pre-game activities that serve alcohol for the football season.
October 19, 2017	Board approved revisions to Board Policy I.J. subsection 2.c to revise requirements applicable to pre-game activities which encompass consumption of alcohol by game patrons tailgating in designate areas.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, I.J – Use of Institutional Facilities and Services With Regard to the Private Sector
Idaho Administrative Code, IDAPA 08.01.08 – 100., Possession, Consumption, and Sale of Alcoholic Beverages at Public Higher Education Institutions.
Idaho Administrative Code, IDAPA 38.04.07 – 305, Food and Beverage

ALIGNMENT WITH STRATEGIC PLAN

GOAL 1: A WELL EDUCATED CITIZENRY
Objective A: Access
Objective D: Quality Education
The UI seeks to create a fan and family friendly atmosphere within the areas where alcohol consumption will be allowed. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities. Building strategic friends and enhancing donor relations improves the University's ability to collaborate with the private sector and our ability to raise private funds for scholarships, campus facilities, sponsored research and endowed professorships, all of which go to enhance access to the University and the quality of the education we offer.

BACKGROUND/DISCUSSION

The current Board policy provides that Idaho institutions may seek approval for the sale or consumption of alcoholic beverages in conjunction with NCAA sporting events. The University of Idaho has consistently made and had requests approved by the Board for alcohol services in combination with home football games and has a history of having no serious issues or concerns related to service of alcohol in conjunction with NCAA sporting events.

The UI seeks initial approval from the Board to allow consumption of alcohol by home football game patrons tailgating in designate areas on the University campus in Moscow. The university will follow all requirements of Board policy regarding alcohol consumption at tailgating as set out in Board policy I.J.2. In managing its game day functions, the UI seeks to provide a family oriented, safe, fun, and exciting atmosphere that promotes attendance and enhances the game experience. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities.

The parking lots designated as Lots 34, 57, 57E and 110, as shown in attachment 1 hereto, will be those to be designated, in whole or in part, by the President for tailgating activities where private alcohol may be consumed. Access to these lots on game day is limited to the Stadium Drive entrance and all patrons allowed to park in the designated lots must pass through this entrance and present proof of authorization to park

The game-day timeframe during which tailgating with alcohol consumption that may be authorized by the President will fall between 10:00 AM and 10:00PM.

For this initial season of tailgating under the new policy, the University seeks approval to allow tailgating within some or all of the parking area designated in Attachment 1. This will allow the President to adjust the number of areas if and where deemed necessary as the university monitors game day conduct in these areas.

Likewise, the University seeks approval to allow tailgating for some or all of the time on each game day, between the hours of 10:00 AM and 10:00PM. This too will allow the President to adjust if deemed necessary as we monitor game day conduct during tailgating.

IMPACT

The University does not anticipate any added expense with respect to this new tailgating policy. The same security team that in the past has monitored the parking lots to address issues of fan behavior will continue to do the same under application of the new policy.

STAFF COMMENTS AND RECOMMENDATIONS

Board Policy I.J. Use of Institution Facilities and Services authorizes the chief executive officer of each institution to designate (subject to annual board approval) specific parking lots or limited areas of university grounds with controlled access as tailgate areas for home NCAA football games or NCAA bowl games hosted by the institution. Only game patrons authorized by the institution are allowed to park and tailgate in the designated tailgate areas with their private guests. Locations, times and dates must be submitted to the Board for approval.

Additionally, within tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages and public intoxication. Alcohol consumption in tailgating areas shall be limited to the times approved by the Board and at no time shall extend beyond 10:00am through 10:00pm of the day of each NCAA football game hosted by the institution. Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor. Alcohol may not be taken from the designated tailgate area into any other area.

The proposal submitted by the University of Idaho identifies a maximum number of locations and maximum range of time the tailgating will occur. These maximums are within the limits of the Board policy; however, they make it unclear what the actual scope of the tailgating will be only that it will not go over the maximum time allowed or be in more than the four areas indicated in Attachment 1.

BOARD ACTION

I move to approve the request by the University of Idaho for authority to establish tailgating areas where consumption of alcohol by game patrons may occur in parking lots 34, 57, 57E and 110 as shown in Attachment 1 and under the conditions set forth in this request and in full compliance with all provisions set forth in Board policy I.J.2 during the 2018 football season, including post-season home games, and the spring 2019 football scrimmage, with a post-season report brought back to the Board.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
