7. Institution, Agency, and Special/Health Programs Strategic Plans – Action Item

8. High School Graduation Requirements Flexibility – College Entrance Exam Minimum Score – Action Item
9. Legislative Ideas – 2020 Legislature – Action Item
10. College of Southern Idaho – Alternate Route to Certification/Non-Traditional Program – Action Item
11. Boise State University Arena Naming – Action Item

If auxiliary aids or services are needed for individuals with disabilities, or if you wish to speak during the Open Forum, please contact the Board office at 334-2270 no later than two days before the meeting. While the Board attempts to address items in the listed order, some items may be addressed by the Board prior to, or after the order listed.

**BOARDWORK  
JUNE 19, 2019**

---

1. Agenda Approval

Changes or additions to the agenda

**BOARD ACTION**

**I move to approve the agenda as posted.**

2. Minutes Approval

**I move to approve the minutes from the April 11, 2019 Special Board Meeting, April 17-18, 2019 Regular Board Meeting, and April 23, 2019 Special Board Meeting as submitted.**

3. Rolling Calendar

**BOARD ACTION**

**I move to set May 13-14, 2020 as the date and Boise as the location for the 2020 Board Retreat and June 18-19, 2020 as the date and College of Eastern Idaho as the location for the June 2020 regularly scheduled Board meeting.**

## DRAFT MINUTES

STATE BOARD OF EDUCATION  
April 11, 2019  
University of Idaho  
Albertson Building, Board Room  
875 Campus Drive  
Moscow, Idaho

A special meeting of the State Board of Education was held April 11, 2019 in the Albertson Building, Board Room on the campus of the University of Idaho, in Moscow, Idaho. Board President Dr. Linda Clark presided and called the meeting to order at 10:00am PST. A roll call of members was taken.

**Present:**

Dr. Linda Clark, President  
Debbie Critchfield, Vice President  
Emma Atchley

Andrew Scoggin  
Don Soltman  
Richard Westerberg

**Absent:**

Dr. David Hill, Secretary  
Sherri Ybarra, State Superintendent

**BOARDWORK  
JUNE 19, 2019**

**DRAFT MINUTES – April 11, 2019**

---

**BUSINESS AFFAIRS AND HUMAN RESOURCES (BAHR)**

**Section 1 – Human Resources**

1. University of Idaho – President Appointment

**BOARD ACTION**

**M/S (Atchley/Soltman): I move to appoint C. Scott Green as President of the University of Idaho effective July 1, 2019, at the annual salary of \$420,000, and to approve the employment agreement provided.** The motion carried 6-0. Dr. Hill and Superintendent Ybarra were absent from voting.

Board President Clark thanked the members of the University of Idaho President Search Screening Committee and then added C. Scott Green brings a unique set of skills closely matching the needs of the University of Idaho that will serve the institution well.

There were no additional questions or comments from the Board.

**OTHER BUSINESS**

There being no further business, a motion to adjourn was entertained.

**M/S (Westerberg/Atchley): To adjourn the meeting at 10:02 am PST.** The motion carried 6-0. Dr. Hill and Superintendent Ybarra were absent from voting.

Trustees of Boise State University  
Trustees of Idaho State University  
Trustees of Lewis-Clark State College  
Board of Regents of the University of Idaho  
State Board for Career Technical Education

## **DRAFT**

**STATE BOARD OF EDUCATION  
April 17-18, 2019  
University of Idaho  
Bruce M. Pitman Center  
International Ballroom  
Moscow, Idaho**

A regularly scheduled meeting of the State Board of Education was hosted by the University of Idaho April 17-18, 2019. Board President, Dr. Linda Clark, called the meeting to order at 11:00am (PST).

**Present:**

Linda Clark, President  
Debbie Critchfield, Vice President  
David Hill, Secretary  
Emma Atchley

Andrew Scoggin\*  
Don Soltman  
Richard Westerberg  
Sherri Ybarra, State Superintendent

DRAFT MINUTES – April 17-18, 2019

**Wednesday, April 17, 2019**

**BOARDWORK**

A. Agenda Review/Approval

**BOARD ACTION**

**M/S (Critchfield/Hill): I move to approve the agenda as posted.** The motion carried 7-0. Mr. Scoggin was absent from voting.

B. Minutes Review / Approval

**BOARD ACTION**

**M/S (Critchfield/Hill): I move to approve the minutes from the February 13-14, 2019 Regular Board meeting, March 13-14, 2019 Special Board meeting, March 20, 2019 Special Board meeting and the April 4, 2019 Special Board meeting as submitted.** The motion carried 7-0. Mr. Scoggin was absent from voting.

C. Rolling Calendar

**BOARD ACTION**

**M/S (Critchfield/Hill): I move to set April 15-16, 2020 as the date and the University of Idaho as the location for the April 2020 regularly scheduled Board meeting.** The motion carried 7-0. Mr. Scoggin was absent from voting.

Board member Scoggin joined the meeting at 11:05am PST.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS (PPGA)**

1. University of Idaho Annual Progress Report  
This item was provided in the agenda materials as an information item.

Planning, Policy and Governmental Affairs (PPGA) Committee chair, Mr. Don Soltman, introduced the item and then invited University of Idaho (UI) President, Dr. Chuck Staben, to present his annual update to the Board.

President Staben reported it has been an honor to serve as the 18<sup>th</sup> President of the University of Idaho and that during his tenure as President, the UI has redoubled their efforts to bring more students to college, to enhance student experiences while attending the UI and to prepare students for a lifetime of success. During the same time period, the UI has expanded their research enterprise and enhanced partnerships with communities and industry to promote health, leadership and economic prosperity throughout Idaho.

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

Finally, Dr. Staben reported all of these successes spring from the university wide commitment on the part of faculty, staff and students.

The University of Idaho's annual published progress report has been included in the agenda materials for the April 17-18, 2019 Board meeting.

At the end of the annual update, Board President Dr. Linda Clark, acknowledged the April Board meeting would be the final meeting Dr. Staben would attend as the President of the University of Idaho. She then thanked Dr. Staben for his service to the university and Board and wished him luck on his future endeavors.

There were no questions or comments from the Board.

2. Idaho Digital Learning Academy – Annual Report

This item was provided in the agenda materials as an information item.

Planning, Policy and Governmental Affairs (PPGA) Committee chair, Mr. Don Soltman, introduced the item and then invited Superintendent for Idaho Digital Learning Academy (IDLA), Dr. Cheryl Charlton to present the annual report to the Board. Joining Dr. Charlton were Director of Operations for IDLA, Mr. Jacob Smith and Director of Curriculum and Instruction for IDLA, Mr. Jeff Simmons.

Dr. Charlton reported IDLA's mission is to offer online course options, both hybrid and asynchronous, in partnership with school districts to identify and meet the needs of every student in the state. One of IDLA's main emphasis over the past few years has been the development of custom sections and classrooms to address the teacher shortage when a qualified, certified teacher is not available. Finally, Dr. Charlton reported IDLA has continued to focus on the development of national and Idaho partnerships emphasizing quality, research, resources and cost efficiencies.

Mr. Smith reported since the establishment of IDLA in 2002 the need for online course offerings across the state has grown exponentially from 850 enrollments during the 2002-2003 school year to over 31,000 enrollments in the 2017-2018 school year. IDLA serves all of the school districts in Idaho, including charter schools and virtual charter schools. In the state's rural districts 40% of enrolled students take an IDLA course that is not offered locally and 35% of students in urban districts take an IDLA course that is not offered and/or take additional advanced coursework. Since 2015, middle school enrollments have increased 173% and IDLA has experienced significant growth in electives, specifically the Pathways to Success and 8<sup>th</sup> Grade Career Exploration courses. Finally, Mr. Smith reported IDLA offers the same number of classes to school districts in both urban and rural districts, equalizing the playing field for all schools, regardless of their size.

Mr. Simmons reported IDLA currently provides 380 Idaho certified teachers and 50 Idaho certified principals to school districts struggling to find teachers and administrators to meet

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

their needs. IDLA's course offerings include (24) Advanced Placement (AP) classes, (79) different semester dual-credit courses, eight (8) Career Technical Educations courses and College and Career Readiness focused classes for elementary school, middle school, high school and dual-credit students including an 8<sup>th</sup> Grade Career Exploration course. Mr. Simmons reported 741 students from 19 different schools completed their 8<sup>th</sup> Grade Plan through IDLA and 7,422 IDLA enrollments took part in the Idaho State Department of Education Advanced Opportunities program. Finally, Mr. Simmons reported IDLA currently offers (36) dual-credit courses that align with the state's General Education Matriculation (GEM) courses.

The Board's Executive Director, Mr. Matt Freeman, asked if middle school students accessing IDLA are taking overload courses. Mr. Simmons responded a majority of middle school students are accessing Advanced Opportunity courses often during the summer months. Mr. Freeman asked if IDLA has seen an increase in this course taking behavior at the middle school level to which Mr. Simmons responded in the affirmative. Mr. Freeman then asked if Mr. Simmons could expand on the Career Technical Education courses offered by IDLA. Mr. Simmons responded IDLA is working with Idaho Career Technical Education to build out three additional CTE courses and that school districts continue to request these types of opportunities for their students.

Board member Critchfield requested information on the IDLA courses most accessed by junior high school students to which Mr. Simmons responded college and career focused classes such as the 8<sup>th</sup> Grade Career Exploration course and College and Career Readiness course.

Finally, Mr. Freeman asked for information on the instructional materials used by IDLA. Mr. Simmons responded IDLA leverages Open Education Resources (OER) for a majority of their dual credit course offerings.

At the end of the annual update, Mr. Freeman shared with Board members IDLA has been instrumental in the Board's Apply Idaho initiative and thanks IDLA for their collaboration and support.

There were no additional questions or comments from the Board.

3. 2019 Legislative Update

**BOARD ACTION**

**M/S (Soltman/Westerberg): I move to direct the Division of Career Technical Education to start the review process on each secondary program pathway and identify which can be appropriately delivered on-line or through a hybrid format. The Division is directed to bring back a progress report to the Board no later than the August Regular Board meeting with a target date of the December Regular Board meeting for the review to be completed. The motion carried 8-0.**

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

Planning, Policy and Governmental Affairs (PPGA) Committee chair, Mr. Don Soltman, introduced the item and invited the Board's Chief Planning and Policy Officer, Ms. Tracie Bent, to provide a final update of the status of education related legislation introduced during the 2019 legislative session.

Ms. Bent reported Senate Bill 1058 (SB1058) Charter School Administrator Certificate passed both the House and Senate chambers and was signed by the Governor on March 21, 2019. Ms. Bent reminded Board members SB1058 was opposed by the Board during the February Regular meeting and will be closely monitored by Board staff over the next year.

Legislation supported by the Board included House Bill 153 (HB153) Career Ladder that passed both the House and Senate chambers and was signed by the Governor on March 21, 2019. Ms. Bent reported HB153 increases the career ladder amounts for the residency rung starting salary to \$38,500 for FY2020 and \$40,000 for FY2021. Additionally, Ms. Bent reported during the 2019 legislative session multiple draft bills were circulated related to the Public School Funding Formula review and reporting. At the end of the session, House Bill 293 (HB293) Education Funding Formula Review did pass both the House and Senate chambers and establishes the majority of the definitions proposed in the earlier public school funding formula bills, with the addition of moving the definition of At-Risk Student from Idaho Administrative Code to Idaho Code and tasks the Board with collecting and reporting the necessary data for the next legislative session so that actual numbers can be used for determining the fiscal impact of future changes to how public schools are funded rather than using estimates. HB293 also tasks the Board with promulgating rules necessary for determining how fractional enrollment will be calculated. During the interim, Board staff will conduct regional meetings around the state to gather feedback from stakeholder groups.

Finally, Ms. Bent reported the legislature did not pass legislation at the end of the session to extend all codified rules. As a result, all codified rules will expire as of June 30, 2019 including all rules related to content standards, certification and teacher preparation standards, graduation requirements, the opportunity scholarship, postsecondary residency and others. Unless a special session were called, the Board will have to approve all of the rules and Board staff will have to then justify each rule before the germane committees during the next legislative session, opening up an opportunity for both the House and Senate to reject the requirements within rule at the subsection level.

Board member Soltman asked Ms. Bent to provide an overview to the Board on Senate Bill 1106 (SB1106) Career Technical Education – Secondary Virtual Programs/Courses. Ms. Bent reported SB1106 passed both the House and Senate chambers and adds language to Idaho Code requiring Idaho Career Technical Education (ICTE) to identify career technical education programs that could be delivered through a completely online program or a hybrid of in-person and on-line education. Additional language was added to reiterate that virtual programs must be evaluated based on the same standards as non-virtual program. A number of industry stakeholder organizations spoke in favor of the

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

legislation and the need to move quickly in identifying which programs could be delivered through these different modalities.

Administrator for ICTE, Mr. Dwight Johnson, reported ICTE is actively involved in a thorough review of their programs. The challenge for ICTE is thinking through, from a quality standpoint, which programs would be appropriate for a fully online delivery mechanism. An additional challenge is the difference in cost structure between online delivery and in-person delivery.

At the end of the legislative update the Board's Executive Director, Mr. Matt Freeman, shared with Board members the development of the Public School Funding Formula (PSFF) was an exhaustive effort and one that Ms. Bent was intimately involved in. Mr. Freeman reported Ms. Bent is recognized as a PSFF subject matter expert and then thanked her for her work with legislators during the 2019 session.

There were no additional questions or comments from the Board.

The complete list of education related legislation introduced during the 2019 legislative session is provided as an attachment in the agenda materials.

## **STATE DEPARTMENT OF EDUCATION (SDE)**

### **1. Developments in K-12 Education**

This item was provided in the agenda materials as an information item.

State Superintendent of Public Instruction, Sherri Ybarra introduced the item and provided the Board with an update on the legislation she introduced during the 2019 Legislative session and the revised schedule for the 2019 Post Legislative Roadshow Tour.

Following the legislative recap, Superintendent Ybarra provided Board members with an update on proposed amendments to the Every Student Succeeds Act (ESSA) Plan. On April 15, 2019, Board President Clark, Superintendent Ybarra and staff from the State Department of Education participated in a call with officials from the U.S. Department of Education (USDE) to review amendments to Idaho's ESSA Plan. Superintendent Ybarra reported the USDE initiated the call to request clarification on three points within Idaho's ESSA Plan; 1). Exit criteria for English language learners with significant cognitive disabilities. The USDE misunderstood the guidance in Idaho's Plan as a secondary exit criteria and suggested the addition of language to clarify the intent of this criteria. 2). Schools identified for targeted support. USDE stated Idaho's ESSA Plan did not specify which three years of data were used to identify schools for targeted support and suggested updating the Plan to include the current year and prior two years. 3). Identification of high schools with low graduation rates and three year average of less than 67%. The USDE stated the law requires the same graduation rate for all high

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

schools and requested an amendment be submitted specifying the use of one graduation rate for all schools.

Superintendent then requested guidance from Board members on whether the Board wanted to review and approve each amendment to Idaho's ESSA Plan prior to the amendment(s) being submitted to the USDE.

Board member Critchfield expressed her disappointment with the requirement the graduation rate be the same for all schools and asked Superintendent Ybarra if there were any flexibility on this requirement. Superintendent Ybarra responded there was none. Mrs. Critchfield commented this was a major "sticking point" for school districts across the state and something the Board has wanted to include in Idaho's ESSA Plan from the beginning. Superintendent Ybarra responded SDE staff has had numerous discussions with school districts, however, the USDE requires the plan stay within the confines of the law.

Board member Clark commented the basic point that gets lost in conversation is that alternative schools in Idaho are unique compared to the rest of the country tiered toward intervention and designed towards students who have or are in the process of failing out of traditional programs and that this was worth discussing again with the USDE.

Director of Assessment and Accountability for the State Department of Education, Mrs. Karlynn Laraway, reported the Board can amend the Plan using the 5-year graduation rate for all high schools with a graduation rate of less than 65% as long as the rate is applied consistently to all schools in the same manner. Superintendent Ybarra asked how using the 5-year graduation rate would impact Idaho's traditional and alternative schools. Mrs. Laraway responded the 5-year graduation rate would be an advantage to alternative schools, however, the SDE does not yet have a three year average to develop a model of how many schools would be impacted. Dr. Clark asked how the 5-year graduation rate would impact traditional schools to which Mrs. Laraway responded a more thorough analysis of the data would be required. Mrs. Critchfield asked if schools not meeting the graduation benchmark at the 4-year graduation rate would be eligible to receive federal support. Mrs. Laraway responded there are limited funds available to support school improvement activities for schools identified as underperforming and schools with a graduation rate of 57% would not receive any additional federal funding, but would receive support from the SDE's STAT Team.

Mrs. Critchfield asked what the deadline would to submit the ESSA Plan to the USDE if the Board were to use the 5-year graduation rate for all schools. Mrs. Laraway responded amendments to the ESSA Plan are submitted at the Board's discretion. Mrs. Critchfield then voiced her support of using the 5-year graduation rate for all schools to which the Board unanimously agreed. Superintendent Ybarra confirmed the 5-year graduation rate for all schools would be used for federal reporting requirements and the SDE would continue reporting the 4-year and 5-year graduation rates on the state report card.

**BOARDWORK  
JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

There were no additional questions or comments from the Board.

**BOARDWORK  
JUNE 19, 2019**

DRAFT MINUTES – April 17-18, 2019

2. Professional Standards Commission – Emergency Provisional Certificates Recommendations

**BOARD ACTION**

**M/S (Ybarra/Atchley): I move to approve the Department’s recommendations for the processing of Emergency Provisional Certificates as identified in Attachment 1. The motion carried 8-0.**

State Superintendent of Public Instruction, Mrs. Sherri Ybarra, introduced the item and reported the recommendations for the processing of Emergency Provisional Certificates have been brought to the Board for approval based upon Board member discussion during the February Regular Board meeting.

There were no questions or comments from the Board.

At this time the Board recessed until 1:15pm MST.

**WORK SESSION**

**BUSINESS AFFAIRS AND HUMAN RESOURCES (BAHR)**

**A. Student Tuition and Fee Rates (Academic Year 2019-2020)**

**M/S (Scoggin/Hill): I move to increase the FY2020 annual undergraduate full-time resident tuition, the annual full-time nonresident undergraduate tuition and all other fees for the University of Idaho, Boise State University, Idaho State University and Lewis-Clark State College as submitted in the attached Tuition and Fee Worksheet. The motion carried 5-3 with Mrs. Critchfield, Mr. Soltman and Mr. Westerberg voting Nay.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board’s Chief Fiscal Officer, Dr. Carson Howell, provide an overview to the Board.

Dr. Howell reported there was no “fund shift” action taken during the 2019 Legislative session to fully cover the cost of the Governor’s proposal for the Change in Employee Compensation (CEC) plan and this funding gap puts pressure on student tuition and (as applicable) endowment funds if college and university employees are to receive the same compensation directed by lawmakers for other state employees. Other unfunded or “must pay” items to be covered by tuition include items that are not part of the annual budget request such as institution specific health plans for graduate teaching assistants, police contract cost increases, one-time commitments, enrollment changes (systemic reduction in enrollment), CEC on non-general education (non-appropriated) personnel and scholarships.

**BOARDWORK  
JUNE 19, 2019**

**DRAFT MINUTES – April 17-18, 2019**

Following Dr. Howell's update, Mrs. Atchley requested representatives from the four year college and universities present their tuition and fee requests to the Board.

UNIVERSITY OF IDAHO

Representing the University of Idaho (UI) were President Chuck Staben, Vice President for Finance and Administration Mr. Brian Foisy, Budget Director Ms. Trina Mahoney and Associated Students University of Idaho (ASUI) President Nicole Skinner.

The University of Idaho requested an increase to the FY2020 annual undergraduate full-time resident tuition to an amount of \$6,181.80, for a total tuition and fee amount of \$8,304.00, resulting in an increase in tuition and fees of 5.6%; and to increase the annual full-time tuition for nonresident undergraduate students by 9.1%.

Mr. Foisy reported the increase would be used to cover CEC for all employees, faculty promotions and related benefit costs including health insurance. State General Funds for UI health benefits were cut in FY19 by \$1,226,200 based on the reduction to the state health rate. Because the UI is not on the state health insurance, this same amount was given to the UI as a one-time line item so the FY19 impact was \$0.00. The UI requested the same funding in FY20 as a line item, however, the request was not funded by the state.

President Staben reported UI identified \$4,154,400 as the loss to nonresident tuition related to UI's expansion of the Western Undergraduate Exchange (WUE) program to all Western Interstate Commission for Higher Education (WICHE) states. This expansion resulted in the UI graduating nonresident students from WICHE states who were not paying full nonresident tuition being replaced by incoming students paying the lower WUE rate. This impact represents year two of the four year transition. The additional \$2,615,100 in enrollment changes is due to a combination of reductions in enrollment and changes in enrollment mix, and only \$1,348,800 is requested from tuition increases.

Ms. Skinner reported no concerns from the ASUI with the proposed fee increases.

Mrs. Atchley asked what percentage of the student fee increase is related to the Idaho Central Credit Union Arena. Mr. Foisy responded less than ten (10) percent.

BOISE STATE UNIVERSITY

Representing Boise State University (BSU) were Interim President Dr. Martin Schimpf, Vice President and Chief Financial Officer Finance Mark Heil, and Associated Students Boise State University (ASBSU) President Kaleb Smith.

Boise State University requested an increase to the FY2020 annual undergraduate full-time resident tuition to an amount of \$5,532.36, for a total tuition and fee amount of \$8,068.00, resulting in an increase in tuition and fees of 4.9%; and to increase the annual full-time tuition for nonresident undergraduate students by 5.2%.

**BOARDWORK**  
**JUNE 19, 2019**

**DRAFT MINUTES – April 17-18, 2019**

Interim President Schimpf reported as BSU developed the FY20 tuition and fee increase the administration was mindful of the impact any increase would have on students and worked to keep the increase under 5.0%. The tuition increase would be used to cover costs for the “fund shift”, the cost of inflation, occupational costs associated with opening facilities not fully funded by the Legislature and to increase funding for BSU’s True Blue Scholarship.

Mr. Heil reported, in addition to the items referenced by President Schimpf, the tuition increase would be used to cover the costs commitments made in prior years and initiatives funded using one-time funds. BSU would use the increase to invest in additional capacity in career counseling, one additional position in the curriculum management system, safety and security needs and physical space needs.

Mr. Smith reported the level of state funding does not adequately address the needs of students and is the lowest, on a per-student basis, than the other four year public institutions.

Board member Scoggin reminded Mr. Smith it is the legislature, not the Board, which sets the annual appropriation for the colleges and universities and asked how Mr. Smith would propose to address the lack of state appropriation. Mr. Smith responded there is a need for change and the Board, in partnership with the institutions and students, should work together to enact the needed change.

**IDAHO STATE UNIVERSITY**

Representing Idaho State University (ISU) were President Kevin Satterlee, Vice President of Finance Dr. Glen Nelson, Vice President for Health Sciences Dr. Rex Force and Associated Students Idaho State University (ASISU) President Logan Schmidt and President Elect Camdon Clay.

Idaho State University requested an increase to the FY2020 annual undergraduate full-time resident tuition to an amount of \$5,928.04, for a total tuition and fee amount of \$7,872.00, resulting in an increase in tuition and fees of 6.1%; and to increase the annual full-time tuition for nonresident undergraduate students by 5.0%.

Prior to presenting ISU’s tuition and fee increase to the Board, President Satterlee requested an opportunity to address the request to increase the dual-credit enrollment fee from \$65 to \$75 per credit for courses delivered at a secondary school. Mr. Satterlee reported that if the request were approved by the Board, ISU would invest any revenue generated by the \$10 per credit hour increase back into dual-enrollment and advanced opportunities on the ISU campus. These investments would include the temporary position of Vice Provost for Outreach and Advanced Opportunities whose duties would include organizing, coordinating, enhancing and growing the strategic use of advanced opportunities on the ISU campus. Additionally, ISU plans to elevate an existing part time position to a full time position as the Director of Dual Enrollment Outreach and Retention and to allow a current faculty member workload release time to liaison with department

**BOARDWORK  
JUNE 19, 2019**

**DRAFT MINUTES – April 17-18, 2019**

chairs across campus and high school faculty to ensure the rigor and coordination of the dual-enrollment courses. Finally, President Satterlee reported ISU has been operating for the last several years under a waiver for the on-campus dual-enrollment charging a part-time fee and this waiver will need to continue in order for ISU to maintain the success of their on-campus dual-enrollment and advanced opportunities program.

Board member Westerberg asked what percentage of the increase would be reinvested back into ISU's dual-enrollment program to which Mr. Satterlee responded 100%. Mr. Westerberg then asked if any of ISU's tuition and fee increase would be used to support the investments in ISU's dual-enrollment program that President Satterlee had reported on earlier. Mr. Satterlee responded no part of the tuition and fee increase would be used for this purpose.

President Satterlee continued his presentation by providing to the Board an overview of ISU's tuition and fee request. Mr. Satterlee reported three (3) percent to four (4) percent of the tuition increase would be used to cover the cost of the "fund shift", GTA waivers, faculty promotions, and CEC for non-general accounts. The remaining one (1) percent to two (2) percent of the increase would be used to address structural holes in the campus budget, develop a student support service and retention system, and to expand high demand programs.

Mr. Schmidt and Mr. Clay reported the ISU student body voted on and approved the requested fee increases.

Mr. Westerberg asked why the "fund shift" for ISU is the highest of the four institutions. Dr. Howell responded each institution has a different mix of student fees and general funds being used to fund positions and a fixed increase for CEC does not equate equally across all the institutions and the Board may want to consider in the future considering different tuition and fee increases for each institution.

Mr. Westerberg asked if ISU had conducted a program prioritization to direct funds from less priority areas to greater priority areas. Mr. Satterlee responded this has been conducted by ISU, however, the savings have not materialized to the extent needed to expand all of ISU's high demand programs.

**LEWIS-CLARK STATE COLLEGE**

Representing Lewis-Clark State College (LCSC) were President Cynthia Pemberton, Vice President for Finance and Administration Mr. Todd Kilburn and Associated Students Lewis-Clark State College (ASLCSC) President Sam Weeks.

Lewis-Clark State College requested an increase to the FY2020 annual undergraduate full-time resident tuition to an amount of \$5,826.00 for a total tuition and fee amount of \$6,982.00, resulting in an increase in tuition and fees of 5.5%; and to increase the annual full-time tuition for nonresident undergraduate students by 3.0%.

**BOARDWORK  
JUNE 19, 2019**

DRAFT MINUTES – April 17-18, 2019

President Pemberton reported LCSC remains committed to an affordable, high quality education and as part of that commitment, LCSC engaged financial models that helped to reveal and understand the structural gaps and holes in LCSC's annual budget.

Mr. Kilburn reported used the increase would be used to fund CEC, declining enrollment for part-time and non-resident students, faculty promotions and scholarships.

Mr. Weeks reported the LCSC student body voted on and approved the requested fee increases.

The Board recessed for ten minutes, returning at 2:37pm.

Board member Scoggin commented while this Board would like to reduce the cost of tuition, it requires a body other than this one to appropriate more money and this places the institutions in a difficult situation trying to cover normal increases while still providing a quality education. Board member Westerberg responded cost is a barrier for many students and the Board must not forget their obligation to students to provide an affordable, quality education. Board member Atchley reported she did not disagree cost is a barrier for students, however, the Board must ensure the education students have access to is high quality and meaningful and the Board cannot ignore inflationary costs and the need for quality faculty to provide the quality education students need and deserve.

There were no additional questions or comments from the Board.

**Dual Credit Fee**

**M/S (Atchley/Hill):** I move to set the statewide dual credit fee at \$75 per credit for courses delivered at secondary schools, including courses taught online using instructional staff hired by the high school or the Idaho Digital Learning Academy, for fiscal year 2020. The motion carried 5-3 with Mr. Scoggin, Mr. Soltman and Mr. Westerberg voting Nay.

**AND**

**M/S (Westerberg/Hill):** I move to waive for one year the requirement in Board Policy III.Y to charge the part-time student fee for dual credit courses taught on campus and to ask the institutions to report back to the Board in one year. The motion carried 8-0.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley introduced the item and reported the request to increase the fee for dual credit courses delivered at the high school came from the presidents of the Idaho 4-year institutions in response to the action taken by the boards of trustees for the College of Eastern Idaho and College of Southern Idaho to increase the fee for dual credit courses from \$65 per

**BOARDWORK  
JUNE 19, 2019**

**DRAFT MINUTES – April 17-18, 2019**

credit to \$75 per credit. Pursuant to Board Policy II.Y.3.b., students taking dual credit courses taught on the campus of a 4-year institution would be charged the part-time student rate. If an institution desires to charge a lower amount for a dual credit student attending courses on campus, then it would require a waiver of Board policy or a change to Board Policy III.Y.

Board member Scoggin voiced his concern with approving an increase to the dual credit fee without first having a consistent comparison of delivery cost, by institution, for the delivery of dual credit courses. The Board's Chief Fiscal Officer, Dr. Carson Howell, responded this was the intent of the dual credit cost study prepared by Board staff, in partnership with the institutions and inconsistencies with the delivery of dual credit is not with the methodology of how the cost study was prepared, but with the uniformity of the operations of the dual credit program. The purpose of the dual credit working group is to identify operational issues and develop uniformity in the implementation of dual credit.

There were no additional questions or comments from the Board.

**Transcript Fee**

**M/S (Atchley/Westerberg): I move to set the statewide transcript fee at \$10 per credit for fiscal year 2020 for students enrolled in a qualified Workforce Training course where the student elects to receive credit. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley introduced the item.

There were no questions or comments from the Board.

**Summer Bridge Program Fee**

**M/S (Atchley/Westerberg): I move to set the statewide summer bridge program fee at \$65 per credit for fiscal year 2020 for students admitted into a summer bridge program at an institution the summer immediately following graduation from high school and enrolling in pre-determined college-level courses at the same institution the fall semester of the same year. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley introduced the item.

There were no questions or comments from the Board.

The Board recessed for 10 minutes, returning at 3:50pm MST.

**B. Institution and Agency Strategic Plans**

This item was provided in the agenda materials as an information item.

Planning, Policy and Governmental Affairs (PPGA) Committee chair, Mr. Don Soltman introduced the item and invited the Board's Chief Planning and Policy Officer, Ms. Tracie Bent to provide an overview of the agenda item to the Board.

Ms. Bent reported the intent of the institution and agency strategic plans is to drive prioritization of programs and budget requests for the institutions, agencies and special/health programs under the oversight of the Board. The Board planning calendar schedules the strategic plans to come forward annually at the April and June Board meetings. This timeline allows the Board to review the plans, ask questions or request changes in April, and then have the plans brought back to the regular June Board meeting, with changes if needed, for final approval by the Board. Once approved, the Office of the State Board of Education submits all of the plans to the Division of Financial Management (DFM) by July 1 of each year. The strategic plans, in conjunction with the three-year program plans the Board reviews and approves at the regular August Board meeting allow the Board to view the system at a policy level to assure the system is on course or make adjustments as needed. Finally, Ms. Bent reported the purpose of the strategic planning work session is to engage the institutions in a discussion around their strategic goals and objectives, how these goals and objectives work together as part of a system and whether or not they are helping to make progress in accomplishing Idaho's education vision and mission.

Mr. Soltman reported the institutions, at the request of the PPGA Committee, will provide an update to the Board on their progress in meeting their institution benchmarks for the Board adopted System-wide Performance Measures and how the institution's progress in these four areas has impacted the implementation of the Complete College America (CCA) Game Changers adopted by the Board. The Board adopted system-wide performance measures are: 1). Timely Degree Completion, 2). Remediation Reform, 3). Math Pathways and 4). Guided Pathways. Mr. Soltman requested representatives from the four 4-year college and universities to provide an update to the Board on their institution's progress as it relates to the Board's Strategic Plan.

Representing the University of Idaho (UI) were President Chuck Staben and Vice Provost for Academic Initiatives Dr. Cher Hendricks. Representing Boise State University (BSU) were Interim Provost and Vice President for Academic Affairs Dr. Tony Roark and incoming Vice Provost for Academic Planning Dr. Zeynep Hansen. Representing Idaho State University (ISU) were President Kevin Satterlee and Vice Provost of Academic Strategy and Institutional Effectiveness Dr. Selena Grace. Representing Lewis-Clark State College (LCSC) were President Cynthia Pemberton and Provost and Vice President for Academic Affairs Dr. Lori Stinson.

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

Dr. Hendricks reported the UI has implemented a Think 30 Campaign to encourage timely degree completion and redesigned Degree Maps to ensure math and English completion in the first year. In addition to the CCA Game Changers the UI is also evaluating the curricular complexity of existing degree maps to determine how complex it is for students to move through and considering adding corequisite courses to four gateway math classes.

Dr. Roark reported BSU has been making progress towards meeting the institution's benchmarks for the system-wide performance measures, however, there is still work to be done. BSU's success rate for new degree seeking freshmen taking a gateway math course is 89%, however, the success rate for students taking a gateway math course after completion of a remedial math course has decreased 40%. In response to this decline, BSU's Math Learning Center has been proactively directing students out of remedial math courses and into corequisite math courses. The number of full time students taking 30 credit hours in an academic year for FY18 was 27.5%. BSU is looking at ways to improve this number.

Mr. Satterlee reported many of the initiatives ISU has implemented, such as the Tuition Lock program and Math Pathways, have made a positive difference. Dr. Grace reported ISU has seen significant improvement since replacing the English remedial pathway with corequisite English. Additionally, ISU is considering the development of new Math pathways and how to address the variety of STEM degrees offered. Finally, Dr. Grace reported Executive Vice President and Provost, Dr. Laura Woodworth-Ney has been leading the CCA efforts on campus and has worked with faculty and staff to implement the CCA Game Changers campus wide.

Dr. Pemberton reported LCSC has made strong progress across all metrics of the institution's strategic plan. Goal 2 of LCSC's strategic plan includes the institution's CCA related initiatives and LCSC has seen significant results in this area. Dr. Stinson reported great success with English remediation. LCSC has identified and implemented five Math pathways all of which have a corequisite with the exception of one to be implemented in 2020. LCSC continues implementation of their 30 to Thrive and 15 to Finish initiatives to encourage timely completion and will be implementing a revised advising and academic coaching model in the fall focusing on teams with faculty and peer mentors.

Mr. Soltman requested representatives from the four 2-year colleges provide an update to the Board on their institution's progress as it relates to the Board's Strategic Plan.

Representing the College of Eastern Idaho (CEI) was President Rick Aman. Representing the College of Southern Idaho (CSI) was Vice President of Finance and Administration Mr. Jeff Harmon. Representing North Idaho College (NIC) was Vice

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

President for Finance and Business Affairs Mr. Chris Martin. Representing the College of Western Idaho (CWI) was Interim Provost Dr. John King.

President Aman reported the CEI strategic plan is aligned with the first three goals of the Board's strategic plan. CEI has developed transfer agreements with Idaho's four 4-year college and universities and BYU-Idaho to provide CEI students with five degree pathways. CEI has aligned their curriculum with CCA initiatives and has placed a large emphasis on dual credit, specifically those courses which are taught on campus. Finally, Dr. Aman reported CEI is working to develop pathways for veterans and apprenticeship programs to award credits in competency based learning towards and Associate of Applied Science (AAS) degree.

Mr. Harmon reported CSI has implemented mandatory student orientation for all degree seeking students that stresses the importance of completion and the number of credits taken in an academic year. CSI has implemented mandatory student advising and, where appropriate, reduced the maximum number of credit hours required to earn an Associate of Applied Science (AAS) degree to 60. Finally Mr. Harmon reported CEI has expanded the use of corequisite remediation, remapped the college's General Education program for the purpose of making the general education sequence more relevant to students and expanded the Student Access and Bridge to Success programs.

Mr. Martin reported NIC initiatives supporting the CCA Game Changers include the new Cardinal Learning Commons center designed to integrate NIC's math faculty into what was previously the remediation department and the Three for Free initiative designed to encourage on-time degree completion.

Dr. King reported all of CWI's metrics continue to increase, however, there are serious, long term issues with CWI's student population that need to be addressed. Currently, the number of dual credit students attending CWI exceed the number of degree seeking student. Of the number of degree seeking students attending CWI, only 17% are completing a one year degree or certificate in one year, 4% are achieving 30 credit hours in one year, and the average credit load is 11. Of the 10,000 dual credit students attending CWI, 95% are taught on a high school campus and only 13% are considering CWI to finish their degree. Initiatives CWI has focused on to support their students are Preparation for Education or Employment and Adaptive-Blended-Online Competency Based (ABC) Learning.

Mr. Soltman asked if all of the 2-year institutions are experiencing the same issue reported by CWI that dual credits are not enrolling at their institution after graduating from high school. Dr. Aman responded it is too soon to tell if this is a trend for CEI. Mr. Harmon and Mr. Martin responded both CSI and NIC have seen a similar trend with regards to dual credit students. Finally, Dr. King reported the traditional community college population is decreasing and the colleges must provide options for adult learners.

**BOARDWORK  
JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

There were no additional questions or comments from the Board.

**EXECUTIVE SESSION (Closed to the Public)**

**M/S (Critchfield/Soltman):** I move to meet in executive session pursuant to Section 74-206(1)(b), Idaho Code, to consider the evaluation, dismissal or disciplining of, or to hear complaints or charges brought against, a public officer, employee, staff member, individual agent or public school student. A roll call vote was taken and the motion carried 8-0.

Board members entered in to Executive Session at 4:43pm (PST).

**M/S (Critchfield/Hill):** I move to go out of Executive Session. The motion carried 8-0.

Board members exited Execution Session at 5:49pm (PST) when they recessed for the evening.

**Thursday, April 18, 2019 8:00 a.m. (PST), Idaho State University, Bruce M. Pitman Center – International Ballroom, Moscow, Idaho.**

Board President Dr. Linda Clark called the meeting to order at 8:00am (PST) for regularly scheduled business. There was one participant for Open Forum.

**OPEN FORUM**

Mr. David Glasebrook addressed the Board on the right to free speech and protest on college campuses.

Prior to the consent agenda, Dr. Clark reported the Lapwai School District was named a first-place winner of the National School Boards Association Magna Awards. The 2019 Magna Awards program focused on equity in education and recognizes districts that have removed barriers to achievement for vulnerable or underserved students. The Lapwai School District is the only school district in Idaho to win the National School Boards Association's Magna Award and was the only Native school to be selected in 2019 for the award.

**BOARDWORK

**INSTRUCTION, RESEARCH AND STUDENT AFFAIRS (IRSA)**

1. Division of Career Technical Education - Micro-Certification Platform  
This item was provided in the agenda materials as an information item.

Instruction, Research and Student Affairs (IRSA) Committee chair, Mrs. Debbie Critchfield, introduced the item and reminded Board members of the request during the February 2019 Regular Board for additional information on the Idaho SkillStack program. Mrs. Critchfield invited Administrator of Idaho Career Technical Education, Mr. Dwight Johnson, to provide an overview of the Idaho SkillStack program to the Board.

Mr. Johnson reported SkillStack is Idaho's system for tracking skill based learning, developed by Idaho Career Technical Education (ICTE). SkillStack badges are micro-certifications and can align to postsecondary credit, industry certifications and/or common job openings. Individuals must demonstrate competency in order to earn a badge. Each badge has a list of skills that are "checked" as the individual demonstrates they can perform the skill.

Mr. Johnson shared with the Board the seven step process ICTE uses to set the standards for the SkillStack program.

Board member Hill asked if the definitions for micro-certification and a badge are the same to which Mr. Johnson responded the two are interchangeable and ICTE believes the definition the Board has developed is sufficient to begin the conversation and provides the platform and framework for ICTE to move forward.

There were no additional questions or comments from the Board.

**BOARDWORK  
JUNE 19, 2019**

DRAFT MINUTES – April 17-18, 2019

---

2. Board Policy III.V. – Articulation and Transfer – First Reading

**BOARD ACTION**

**M/S (Critchfield/Hill): I move to approve the first reading of proposed amendments to Board Policy III.V, Articulation and Transfer as submitted in Attachment 1.** The motion carried 7-0. Mr. Scoggin was absent from voting.

Instruction, Research and Student Affairs (IRSA) Committee Chair, Mrs. Debbie Critchfield, introduced the item and requested the Board's Chief Academic Officer, Dr. Randall Brumfield, provide an overview of the proposed amendments to the Board.

Dr. Brumfield reported the proposed amendments to Board Policy III.V. would provide for the seamless transfer of credits earned through Prior Learning Assessment (PLA) across Idaho's public postsecondary institutions, prohibit institutions from requiring students who have successfully completed an Associate of Arts (AA) or Associate of Science (AS) degree at any institution accredited by a body recognized by the Board to complete any additional general education requirements, and to require institutions to transfer PLA credits for general education purposes for students who complete an AA or AS degree from an institution accredited by a body recognized by the Board.

There were no questions or comments from the Board.

3. Board Policy III.E. – Certificates and Degrees – Second Reading

**BOARD ACTION**

**M/S (Critchfield/Hill): I move to approve the second reading of proposed amendments to Board policy III.E. Certificates and Degrees, as submitted in Attachment 1.** The motion carried 7-0. Mr. Scoggin was absent from voting.

Instruction, Research and Student Affairs (IRSA) Committee Chair, Mrs. Debbie Critchfield, introduced the item and shared with Board members there were no changes between the first and second readings.

There were no questions or comments from the Board.

**BOARDWORK**  
**JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

4. Board Policy III.G – Postsecondary Program Approval and Discontinuance – Second Reading

**BOARD ACTION**

**M/S (Critchfield/Hill): I move to approve the second reading of proposed amendments to Board policy III.G. Postsecondary Program Approval and Discontinuance, as submitted in Attachment 1.** The motion carried 7-0. Mr. Scoggin was absent from voting.

Instruction, Research and Student Affairs (IRSA) Committee Chair, Mrs. Debbie Critchfield, introduced the item and shared with Board members there were no changes between the first and second readings.

There were no questions or comments from the Board.

5. Textbook Affordability – Progress Report  
This item was provided in the agenda materials as an information item.

Instruction, Research and Student Affairs (IRSA) Committee Chair, Mrs. Debbie Critchfield, introduced the item and requested the Board's Chief Academic Officer, Dr. Randall Brumfield, provide an update to the Board.

Dr. Brumfield reported (24) of the Board's (43) common-indexed courses are expected to be delivered through Open Education Resource (OER) within the 2019-2020 academic year by one or more of the Board's four-year institutions. Once OER textbook adoption for all courses is completed in the coming year, Board staff will work with institutions to house as many of these texts as possible in an online repository accessible by faculty and students statewide. Finally, Dr. Brumfield reported for FY2020 the Legislature appropriated \$50,000 from the General Fund to pilot the development of OER. Board staff will use these funds to work with institutions to develop OER adoption for high-impact, common-indexed courses that are deliverable for dual credit purposes.

Board member Westerberg asked if the IRSA Committee will be following up with institutions on their successes and failures related to OER. Mrs. Critchfield confirmed this to be correct adding OER has been an accelerated focus for the IRSA Committee and the Board and staff are committed to assisting the institutions in their efforts. Mr. Westerberg added the Board is invested in the success of OER and sees this as a high priority.

Board member Clark asked if training will be available for high school teachers teaching dual-credit courses to utilize OER resources. Dr. Brumfield responded Board staff will be convening a dual-credit work group in early May and textbook delivery for dual-credit courses will be one item the group will consider. The Board's Executive Director, Mr. Matt Freeman, added the FY2020 appropriation included intent language that specified a particular emphasis on textbooks that could be used for dual-credit courses.

There were no additional questions or comments from the Board.

## **BUSINESS AFFAIRS AND HUMAN RESOURCES (BAHR)**

### **Section 1 – Human Resources**

1. Boise State University – Amendment to Multi-Year Employment Agreement – Cross Country Head Coach

#### **BOARD ACTION**

**M/S (Atchley/Westerberg): I move to approve the request by Boise State University to enter into a multi-year employment agreement, as proposed, with Corey Ihmels as head coach for Track and Field and Cross Country, commencing April 21, 2019 and terminating on July 31, 2024, at a base salary of \$112,195 and supplemental compensation provisions, as presented in Attachment 1. The motion carried 7-0. Mr. Scoggin was absent from voting.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and shared with Board members Boise State University (BSU) is seeking to renew and extend the contract for its head coach for Track and Field and Cross Country. The contract includes minor adjustments to the Athletic Achievement Incentive Pay, an increase in the amount of liquidated damages, and is for a term of five years, requiring Board approval.

There were no questions or comments from the Board.

### **Section II – Finance**

1. Board Policy V.E. – Gifts and Affiliated Foundations – First Reading

#### **BOARD ACTION**

**M/S (Atchley/Westerberg): I move to approve the first reading of the revisions to Board Policy V.E. as presented in Attachment 1. The motion carried 7-0. Mr. Scoggin was absent from voting.**

#### **AND**

**M/S (Atchley/Westerberg): I move to approve the amendments to the affiliate foundation agreement template as presented in Attachment 2. The motion carried 7-0. Mr. Scoggin was absent from voting.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and reported the proposed amendments would clarify the intent of the

**BOARDWORK**  
**JUNE 19, 2019**

**DRAFT MINUTES – April 17-18, 2019**

Board with regards to the transferring of funds between institutions and affiliated foundations, clarify the distribution of foundation assets to either the Board or the affiliated institution, and encourage each foundation to be open to public inquiries pursuant to the Idaho Public Records Law while still protecting personal and private information related to private individuals. Finally, Mrs. Atchley reported the BAHR Committee reviewed the proposed amendment on April 5, 2019.

There were no questions or comments from the Board.

2. Board Policy V.X. – Intercollegiate Athletics – First Reading

**BOARD ACTION**

**M/S (Atchley/Critchfield): I move to approve the first reading of the proposed amendments to Board policy Section V.X, Intercollegiate Athletics, as presented in Attachment 1.** The motion carried 7-0. Mr. Scoggin was absent from voting.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board's Chief Fiscal Officer, Dr. Carson Howell, provide an overview of the proposed amendments to the Board.

Dr. Howell reported the proposed amendments to Board Policy V.X., Intercollegiate Athletics, would address a number of long-standing concerns with the current policy, improve clarity, correct technical accuracy and readability, and increase institution's flexibility to manage athletic financial operations while improving the Board's ability to track and oversee athletic operations. Adjustments to the spending limits were requested by the institutions as to what is needed for a competitive, yet not extravagant, athletics program. These limits are provided in the table below.

	Current	Proposed	Difference
Boise State University	\$5,014,900	\$5,014,900	\$0
Lewis-Clark State College	\$1,284,800	\$3,200,000	\$1,915,200
University of Idaho	\$5,457,400	\$7,000,000	\$1,542,600
Idaho State University	\$4,742,600	\$4,754,600	\$12,000

Mrs. Atchley requested representatives from the college and universities provide an overview of the proposed limits to the Board.

Boise State University (BSU) Vice President and Chief Financial Officer, Mr. Mark Heil, reported BSU is able to manage a competitive, yet not extravagant, athletics program under the current spending limit.

Lewis-Clark State College (LCSC) President, Dr. Cynthia Pemberton, reported the proposed limit for LCSC derives from the Board's directive to carefully access LCSC's status at it pertained to gender equity and Title IX. LCSC has completed this task and the issues identified in the Title IX review are included in the proposed limit. Additionally,

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

Dr. Pemberton reported approximately 40% of the college's athletic operating budgets are dependent on fundraising which creates a problem for the college to consistently and reliably fund athletic programs and impacts the ability for LCSC to award scholarships. Finally, Dr. Pemberton reported the proposed limit would bring LCSC athletic program into a functional status of operation.

University of Idaho (UI) President, Dr. Chuck Staben, reported the UI has exceeded the athletic spending limit cap for a number of years and is experiencing a number of challenges in terms of expenditures for athletics. The UI has retained an external consultant to conduct an in-depth assessment of the athletic program and based on the preliminary results, believes the proposed limit is a realistic limit in order for the UI to maintain a competitive program in the Big Sky Conference. Vice President for Finance and Administration for the University of Idaho, Mr. Brian Foisy, reported the preliminary findings of the external consultant have found the proposed spending limit to be in the range for what the UI would need manage a competitive, yet not extravagant, athletics program, however, based upon the final report, the UI may need to adjust the proposed limit prior to the Board taking action on the second reading of the proposed amendments. Mrs. Atchley asked what portion of the proposed increase would go towards correcting gender equity issues to which Mr. Foisy responded \$700,000 - \$800,000.

Idaho State University (ISU) President, Mr. Kevin Satterlee, reported the proposed limit was not accurate and the university will be submitting an updated proposal of approximately \$5,754,600. Mr. Satterlee then commented increasing the limit is simply that and ISU does not currently have an additional \$1,000,000 to invest in athletics, adding this would be a long term process achieved over a number of years. ISU Athletic Director, Ms. Pauline Thiros, reported ISU's current spending limit is not adequate to cover the basic needs of the athletic department and that decisions to cut the operating funds for the department have negatively impacted athletics and gender equity. The proposed increase to the spending limit would allow for ISU to address approximately one-third of the funding needed for the university to operate at a competitive, yet not extravagant, level.

Board member Westerberg shared with the Board the intent of the proposed amendments is to provide the institutions with enough resources to run a reasonable athletic program. While the changes to Board policy do not provide the institutions with any additional funds, it does provide the institutions the authority to redirect institution funds to athletics.

Board President Critchfield asked if the Board will need to approve the spending limits on an annual basis to which Mr. Westerberg responded the spending limit will increase based upon the annual appropriation from the Legislature. The Board's Executive Director, Mr. Matt Freeman, reported the proposed limits establish a new benchmark that will grow from the FY2020 amount with each subsequent appropriation.

There were no additional questions or comments from the Board.

**BOARDWORK**  
**JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

3. Board Policy V.B. – Budget Policies – Second Reading

**BOARD ACTION**

**M/S (Atchley/Westerberg): I move to approve the second reading of Board Governing Policy and Procedures V.B, Budget Policies, as presented in Attachment 1.** The motion carried 7-0. Mr. Scoggin was absent from voting.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and reported there were no changes between the first and second readings.

There were no questions or comments from the Board.

4. Intercollegiate Athletics Reports of Revenue and Expenses

This item was provided in the agenda materials as an information item.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board's Chief Fiscal Officer, Dr. Carson Howell, provide an overview of the reports to the Board.

Dr. Howell reported the college and universities governed by the Board are required to submit regular financial reports as specified in Board Policy V.X. For FY2019, Boise State University (BSU) and Lewis-Clark State College (LCSC) reported an excess and Idaho State University (ISU) and University of Idaho (UI) reported a deficiency.

There were no questions or comments from the Board.

5. Intercollegiate Athletics Department Employee Compensation Report

This item was provided in the agenda materials as an information item.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board's Chief Fiscal Officer, Dr. Carson Howell, provide an overview of the report to the Board.

Dr. Howell reported the Intercollegiate Athletics Department Employee Compensation Reports detail the contracted salary received by athletics administrators and coaches and provides the actual compensation figures for FY2018 and estimated compensation figures for FY2019.

There were no questions or comments from the Board.

**BOARDWORK  
JUNE 19, 2019**

DRAFT MINUTES – April 17-18, 2019

6. Athletics Gender Equity Reports

**BOARD ACTION**

**M/S (Atchley/Westerberg): I move to approve the request by Idaho State University to provide a one-time exception to the State Board of Education Policy V.X. to allow the University to allocate \$125,000 of the General Fund in FY2020 to the athletic department to be used to comply with Title IX, as presented in Attachment 9. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item.

There were no questions or comments from the Board.

**AND**

**M/S (Atchley/Westerberg): I move to approve the request by Lewis-Clark State College to provide a one-time exception to the State Board of Education Policy V.X. to allow the College to allocate \$115,000 of the General Fund in FY2020 to the athletic department to be used towards compliance with Title IX, as presented in Attachment 10. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item.

Board member Hill requested additional information from Lewis-Clark State College (LCSC) on how the college plans to address the issues identified in their recent Title IX gender equity review.

LCSC President, Dr. Cynthia Pemberton, responded the college has developed a two part plan maximizing the current women's sport roster capacity over a 3-year implementation timeline. Part one of this plan would emphasize growth in women's sports participation while holding men's sports participation. Additionally, LCSC would appropriate fund allocations to fully fund a full-time head coach with benefits for each sport and assistant coaches for all women's sports. The head coach for golf and assistant coaches for women's basketball and volleyball are the priorities for FY2020.

There were no additional questions or comments from the Board.

At this time the Board took a 20 minute break, returning at 9:45am.

**BOARDWORK**  
**JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

7. FY2020 Appropriation Information – Institutions and Agencies of the State Board of Education

**BOARD ACTION**

**M/S (Atchley/Scoggin): I move to approve the allocation of the FY2020 appropriation for Boise State University, Idaho State University, University of Idaho, Lewis-Clark State College, and system-wide needs, as presented on Tab7a, Attachment 1.** The motion carried 8-0.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board's Chief Fiscal Officer, Dr. Carson Howell, provide an overview of the appropriations to the Board.

Dr. Howell reported the Legislature appropriates to the State Board of Education and the Board of Regents monies for the general education programs at Boise State University (BSU), Idaho State University (ISU), University of Idaho (UI), Lewis-Clark State College (LCSC), and system-wide needs. The appropriations for FY2020 were enacted by the Legislature with the passing of House Bill 297. The operating budget for the Office of the State Board of Education (OSBE) saw a decrease of 11.9% from the prior year due to a reduction in funds for teacher evaluation and training and the non-passage of Senate Bill 1029, also known as the School Turnaround Act. Both programs were included in the OSBE operating budget. Funds for teacher evaluation and training were reduced to \$500,000, compared to \$1,000,000 in the previous year. Funding for Senate Bill 1029, School Turnaround Act, totaling \$750,000 was removed from the OSBE operating budget when the bill did not pass the House.

Finally, Dr. Howell reported the FY2020 general fund appropriation includes funding for two new line items (1) Open Education Resource and (2) Dual Enrollment System.

Dr. Clark asked if the Dual Enrollment System would help to reduce the staffing requirements for the school districts to manage dual enrollment. The Board's Executive Director, Mr. Matt Freeman, responded the line item was developed in response to feedback from school districts that school counselors and college and career advisors were overwhelmed with managing and coordinating dual credit courses for their students.

There were no additional questions or comments from the Board.

**AND**

**BOARD ACTION**

**M/S (Atchley/Westerberg): I move to approve the allocation of the FY2020 appropriation for the College of Southern Idaho, College of Eastern Idaho, College of Western Idaho and North Idaho College, as presented on Tab 7b, Attachment 1.** The motion carried 8-0.

**BOARDWORK**  
**JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board's Chief Fiscal Officer, Dr. Carson Howell, provide an overview of the appropriations to the Board.

Dr. Howell reported the allocation included a new line item transferring \$10,000 from each community college to Systemwide Needs for costs of initiatives and programs administered centrally by the Office of the State Board of Education, such as Direct Admissions and Apply Idaho. The Board's Executive Director, Mr. Matt Freeman, added the funds would also help to cover basic operations the Board office handles that benefit the entire system, including the community colleges, such as the Optional Retirement Plan (ORP).

There were no questions or comments from the Board.

**AND**

**BOARD ACTION**

**M/S (Atchley/Critchfield): I move to approve the request from the Division of Career Technical Education for the allocation of the FY2020 appropriation as detailed in Attachment 1. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item.

There were no questions or comments from the Board.

8. FY2020 Opportunity Scholarship Educational Costs

**BOARD ACTION**

**M/S (Atchley/Westerberg): I move to approve the FY2020 educational cost for the Idaho Opportunity Scholarship award to be set not to exceed the amounts set forth in Attachment 1 and the Opportunity Scholarship maximum award amount for FY2020 to be set at \$3,500 and to approve the FY2020 student contribution to be set at \$3,000 and to accept student-initiated scholarships and non-institutional and non-federal aid as part of the student contribution. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board's Chief Planning and Policy Officer, Ms. Tracie Bent, provide an overview to the Board.

Ms. Bent reported Idaho Administrative Code, IDAPA 08.01.13.03, Rules Governing the Opportunity Scholarship Program, requires the Board to annually set: (1) the educational costs for attending an eligible Idaho postsecondary institution; and (2) the amount of the assigned student responsibility as part of the shared model of responsibility. Setting the

**BOARDWORK  
JUNE 19, 2019**

**DRAFT MINUTES – April 17-18, 2019**

educational cost and student contribution amounts would fulfill the Board's responsibilities under administrative rule and, combined with setting the maximum award amount, Board approval would enable Board staff to begin processing applications and finalizing award determinations for FY2020.

There were no questions or comments from the Board.

9. FY2021 Budget Guidelines

**BOARD ACTION**

**M/S (Atchley/Westerberg): I move to direct the college and universities to limit Fiscal Year 2021 budget line items requests to those that will measurably support implementation of student success strategies approved by the Board. Institutions may request up to two (2) line items in priority order, the total value of which shall not exceed five percent (5%) of an institution's FY2020 total General Fund appropriation. Requests for occupancy costs for eligible space and faculty promotions will not count towards the two line item limit or the 5% cap. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and requested the Board's Chief Fiscal Officer, Dr. Carson Howell, provide an overview to the Board.

Dr. Howell reported the proposed guidelines for FY2021 line item requests are based on the template used for the past several years, however, different from prior years, budget line item requests should support the implementation of student success strategies that the Board has adopted. These Board adopted strategies include 15 to Finish, Math Pathways, Corequisite Support, Momentum Year, Academic Maps with Proactive Advising and A Better Deal for Returning Adults. Additionally, institutions may request a line item for faculty promotions. Board staff will then work with the institutions to create a consistent method of calculating the annual cost of faculty promotions.

There were no questions or comments from the Board.

10. Boise State University – Professional Fee – Computer Science Programs

**BOARD ACTION**

**M/S (--/--): I move to approve the request by Boise State University to establish Computer Science professional program fees of \$35 per upper division credit hour, effective fall 2019. This item was returned to the Business Affairs and Human Resources Committee for further review and analysis. No action was taken by the Board.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and reported members of the BAHR Committee did not feel the

**BOARDWORK  
JUNE 19, 2019**

DRAFT MINUTES – April 17-18, 2019

request from Boise State University met the threshold of Board policy V.R.3.b.iv. Professional Fees.

Mrs. Atchley requested unanimous consent to return the item to the BAHR Committee. There were no objections from the Board.

11. Boise State University – Professional Fee – Construction Management Programs

**BOARD ACTION**

**M/S (--/--): I move to approve the request by Boise State University to establish Construction Management professional program fees of \$35 per upper division credit hour, effective fall 2019.** This item was returned to the Business Affairs and Human Resources Committee for further review and analysis. No action was taken by the Board.

12. Idaho State University – Construction Authorization – Davis Field Project

**BOARD ACTION**

**M/S (Atchley/Westerberg): I move to approve the request from Idaho State University for bidding and construction for the Davis Field renovation as described herein and to authorize the Vice President for Finance and Business Affairs to execute all necessary and requisite consulting contracts to bid, award, and complete the construction phase of the project for an amount not to exceed \$5,000,000.** The motion carried 8-0.

**AND**

**M/S (Atchley/Westerberg): I move to approve the request from Idaho State University for authority to use future bond proceeds to reimburse itself for costs and expenses of the project as described in the second paragraph of the Impact Section above; provided however any issuance of bonds will require additional Board approval, consistent with Board Governing Policies and Procedures.** The motion carried 8-0.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and invited the Vice President of Finance for Idaho State University, Dr. Glen Nelson, to present the request to the Board. Joining Dr. Nelson was Ms. Pauline Thiros, Athletic Director for Idaho State University.

Dr. Nelson reported the request from Idaho State University (ISU) seeks Board approval to proceed with bidding and construction phases of the Davis Field Renovation project and that in addition to revitalizing the look and feel of the campus, the project will also address existing safety hazards, gender equity, enhance the student experience and increase community involvement.

**BOARDWORK**  
**JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

Board member Scoggin requested clarification on the drawings provided with the agenda materials indicating the existing concrete bleachers were to remain in place, as it was his understanding the bleachers were to be removed. Ms. Thiros responded the bleachers along the west side of the track were to be restored, while the bleachers along the east side would be demolished and replaced with a retaining wall.

There were no additional questions or comments from the Board.

13. Idaho State University – Construction Authorization – EAMES Project

**BOARD ACTION**

**M/S (Atchley/Critchfield): I move to approve Idaho State University's request to bid Phase I, with Phase II as an add alternate contingent upon collection of donated funds, for a total construction amount not to exceed \$18,952,000 as provided in Attachment 2. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and invited the Vice President of Finance for Idaho State University (ISU), Dr. Glen Nelson, to present the request to the Board.

Dr. Nelson reported the Board approved ISU's request to reallocate \$10,000,000 of funding from the Gale Life Science project to the EAMES Project and to allow the university to begin construction of Phase I of the EAMES Building remodel in December 2018. ISU's original plan was to construction Phase I and then return to the Board at a later date for approval to construction Phase II. Dr. Nelson stated the recent donation of \$2,000,000 from the JA and Katherine Albertson Foundation would allow ISU to consider bidding both phases of the project together which could provide some economic advantages to having both phases under construction at the same time with the existing contractor and design team.

There were no questions or comments from the Board.

**BOARDWORK  
JUNE 19, 2019**

DRAFT MINUTES – April 17-18, 2019

14. Idaho State University – Construction Authorization – Meridian Parking Lot Project

**BOARD ACTION**

**M/S (Atchley/Hill): I move to approve the request from Idaho State University to proceed with the planning and construction of the Meridian parking lot at an amount not to exceed \$2,000,000 as detailed herein and in Attachment 2. The motion carried 8-0.**

**AND**

**M/S (Atchley/Hill): I move to approve the request from Idaho State University for authority to use future bond proceeds to reimburse itself for costs and expenses of the project as described in the second paragraph of the Impact Section above; provided however any issuance of bonds will require additional Board approval, consistent with Board Policies and Procedures. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and invited the Vice President of Finance for Idaho State University (ISU), Dr. Glen Nelson, to present the request to the Board.

Dr. Nelson reported ISU received Board approval to proceed with the planning and design for the proposed parking lot on January 18, 2019 and is now seeking Board approval for the bidding and construction of the project.

There were no questions or comments from the Board.

15. Idaho State University – Property Purchase – Meridian Health Sciences Center

**BOARD ACTION**

**M/S (Atchley/Critchfield): I move to approve the request by Idaho State University to acquire the real property as described in Attachment 2 for a purchase price not to exceed \$3,500,000 and to delegate authority to Kevin Satterlee, President of Idaho State University, to execute the Real Estate Contract of Sale Agreement as presented in Attachment 2. The motion carried 8-0.**

**AND**

**M/S (Atchley/Hill): I move to approve the request from Idaho State University for authority to use future bond proceeds to reimburse itself for costs and expenses of the acquisition of the property as described in the second paragraph of the Impact Section above; provided however any issuance of bonds will require additional Board approval, consistent with Board Policies and Procedures. The motion carried 8-0.**

**BOARDWORK**  
**JUNE 19, 2019**

---

**DRAFT MINUTES – April 17-18, 2019**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and invited the Vice President of Finance for Idaho State University (ISU), Dr. Glen Nelson, to present the request to the Board.

Dr. Nelson reported the Meridian campus is currently at maximum occupancy and ISU's acquisition of this property would allow for long-term mission-driven expansion of the Idaho State University Health Science Programs to meet the workforce needs throughout the State.

Board member Westerberg asked if this property acquisition would drop ISU's reserves below 5% to which Dr. Nelson responded it would not.

There were no additional questions or comments from the Board.

16. University of Idaho – Update to Six Year Capital Plan – Energy Plant

**BOARD ACTION**

**M/S (Atchley/Scoggin): I move to approve the revision to the FY2020-25 University of Idaho's six-year capital plan as submitted in Attachment 1.** The motion carried 8-0.

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and invited the Vice President of Finance and Administration for University of Idaho (UI), Mr. Brian Foisy, to present the request to the Board.

Mr. Foisy reported the UI is seeking Board approval to update the university's Six-Year Capital Plan to reflect the addition of the proposed University of Idaho Energy Plant Micro-Turbine Installation and Power Generation project. The project would install three back pressure micro-turbines in the district energy plant, modernize, restore and repair the existing plant electrical system, and support the installation of a natural gas generator serving as tertiary backup power.

Mrs. Atchley commented the request from the UI is one of many the Board has received over the past year, from the institutions under the governance of the Board, to update their Six Year Capital Plan (Plan). She then reminded Board members and representatives from the institutions the purpose of the Plan is for institutions to thoroughly study their needs as they form the Plan to avoid unexpected revisions and amendments.

There were no additional questions or comments from the Board.

**BOARDWORK**  
**JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

17. University of Idaho – Planning and Design Authorization – Energy Plant Project

**BOARD ACTION**

**M/S (Atchley/Scoggin): I move to approve the request by the University of Idaho for authorization to enter the planning and design phase of the Micro-Turbine Installation and Power Generation Project, a design-build project for an amount not to exceed \$250,000 as described in Attachment 1. Authorization includes the authority for the Vice President for Finance and Administration to execute all necessary and requisite consulting and vendor contracts to implement the planning and design phase of the project. The motion carried 8-0.**

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and invited the Vice President of Finance and Administration for the University of Idaho (UI), Mr. Brian Foisy, to present the request to the Board.

Mr. Foisy reported the UI is seeking Board approval to enter the planning and design phase for the University of Idaho Energy Plant Micro-Turbine Installation and Power Generation project. The project would install three back pressure micro-turbines in the district energy plant, modernize, restore and repair the existing plant electrical system, and support the installation of a natural gas generator serving as tertiary backup power. The total estimated cost for the project is \$2,500,000 and would be funded through energy savings, federal grants and local utility, Avista, incentives estimated to be \$1,091,300. Additionally, the UI applied for a \$250,000 Wood Innovation Grant through the U.S. Department of Agriculture. If the grant money is not received, the additional cost would be recovered through an extension of the utility savings fund recovery.

Finally, Mr. Foisy reported the project is anticipated to save approximately \$300,000 per year and after approximately four years, the savings would be a net positive for the institution. The UI plans to use funds from the current Facilities Management budget to cash flow the project until the savings are realized.

There were no questions or comments from the Board.

18. Lewis-Clark State College – Funding and Construction Authorization – Career Technical Education Building Project

**BOARD ACTION**

**M/S (Atchley/Soltman): I move to approve the request by Lewis-Clark State College to increase the budget for the Career Technical Education Center, for an amount not to exceed \$24,500,000 as provided herein. Approval is contingent upon receipt of additional funding to support the increase. Approval includes the authority for the Vice President for Finance and Administration to execute all necessary and requisite consulting and vendor contracts to implement the project. The motion carried 8-0.**

**BOARDWORK  
JUNE 19, 2019**

---

DRAFT MINUTES – April 17-18, 2019

Business Affairs and Human Resources (BAHR) Committee Chair, Mrs. Emma Atchley, introduced the item and invited the President of Lewis-Clark State College, Dr. Cynthia Pemberton, to present the request to the Board. Joining Dr. Pemberton was the Vice President of Finance and Administration for Lewis-Clark State College, Mr. Todd Kilburn.

Mr. Kilburn reported Lewis-Clark State College (LCSC) is seeking Board approval to increase the construction budget for LCSC's new Career Technical Education Center from \$21,000,000 to \$24,500,000. During the Design Development phase, the cost estimate for the project was over budget. Value engineering was completed with cost reductions, none of which changed the programs, look of the building or site plan circulation, however, after this exercise, LCSC determined that any further cost reductions would hinder the academic programs. On March 12, 2019, the Division of Public Works hosted the bid openings for the construction costs for the project, which came in \$3,500,000 higher than anticipated.

There were no questions or comments from the Board.

## **ELECTION OF OFFICERS**

### **BOARD ACTION**

**M/S (Westerberg/Soltman): I move to appoint Debbie Critchfield as President, Dr. David Hill as Vice President, and Andrew Scoggin as Secretary.** The motion carried 8-0.

Board member Westerberg requested a point of personal privilege to express his gratitude to Dr. Linda Clark for her service to the Board as President for the past two years.

The Board convened in Executive Session to consider an exempt matter, which is permissible under the Open Meeting Law, Idaho Code, Title 74, Section 206(1)(c). The Board concluded its discussion and took no action on the matter discussed. If action is necessary in this matter it will occur at a future meeting properly noticed under the Open Meeting Law.

## **OTHER BUSINESS**

There being no further business, a motion to adjourn was entertained.

### **BOARD ACTION**

**M/S (Atchley/Critchfield): To adjourn the meeting at 10:29 am (PST).** The motion carried 8-0.

## DRAFT MINUTES

STATE BOARD OF EDUCATION  
April 23, 2019  
Boise State University  
Stueckle Sky Center  
Albertsons Stadium, Sixth Floor

**SUBJECT**

State Board of Education Standing Committee Structure and Annual Rolling Calendar

**REFERENCE**

June 15-16, 2000 Board revisited committee structure and Bylaws

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Bylaws

**BACKGROUND/ DISCUSSION**

The Idaho State Constitution, Article IX, Section 2, provides that the general supervision of the state educational institutions and public school system of the State of Idaho, "shall be vested in a state board of education, the membership, powers and duties of which shall be prescribed by law." Through obligations set in the State Constitution and Idaho statutes, the State Board of Education (Board) is charged with the general supervision, governance and control of all educational institutions and agencies supported in whole or in part by the state. This includes public schools, colleges and universities, Department of Education, Division of Career Technical Education, Idaho Public Television, and the Division of Vocational Rehabilitation. The Board and the executive agencies of the Board are charged with enforcing and implementing the education laws of the state.

Due to these broad responsibilities, the Board serves multiple roles. The Board sits as a policy-making body for all public education in Idaho and provides general oversight and governance for public K-20 education, and the Board has a direct governance role as the Board of Regents for the University of Idaho and the board of trustees for the other public four-year college and universities. The K-20 Education strategic plan must encompass and serve all of these aspects of Idaho's public education system.

The Board's strategic plan is a forward-looking roadmap intended to guide future actions, define the vision and mission of Idaho's K-20 educational system, guide growth and development, and to establish priorities for resource distribution. Strategic planning provides a mechanism for continual review to ensure excellence in public education throughout the state. The strategic plan establishes that the Board's goals and objectives are consistent with the Board's governing ideals, and communicates those goals and objectives to the agencies and institutions under the Board, the public, and other stakeholder groups. The Board reviews and updates its strategic plan annually in December (review) and February (approval). All state agencies are required to review and update their strategic plan annually by state law. This provides the Board with the opportunity to adjust and realign its goals each year.

At the October regular Board meeting, the Board reviews performance of the K-20 education system. Generally, this review focuses on measures from the K-20 Education Strategic Plan as well as the performance of the agencies and

**WORK SESSION**  
**JUNE 19, 2019**

---

institutions. Unlike the strategic plan work, the performance measure review is a look back at progress made during the previous four years toward reaching the Boards strategic goals and objectives.

The Board may act only as a whole and is subject to the provisions of the Idaho Open Meeting law established in Chapter 2, Title 74. The Idaho Open Meeting Law was designed to ensure transparency. The Board governs itself and the agencies and institutions under it through the establishment of Governing Policies and Procedures. The Board's Bylaws are one such policy. The Bylaws set out the operating procedures of the Board, including the standing committee structure the Board uses to organize and conduct its business.

**IMPACT**

The discussion will help inform future action on how the Board organizes itself and directs business.

**ATTACHMENTS**

- Attachment 1 – Board Policy – By-laws
- Attachment 2 – 2020–2025 K-20 Education Strategic Plan
- Attachment 3 – Board Master Planning Calendar

**STAFF COMMENTS AND RECOMMENDATIONS**

The Board currently organizes itself into standing and other committees as necessary and set forth in the Board's Bylaws. Any standing committee may make recommendation to the Board, but may not take any action, except when authority to act has been delegated by the Board. The purpose and responsibilities of each standing committee are established in the Board's Bylaws. The agenda for each regular meeting of the Board is required to be organized using the areas of responsibility provided for in each permanent standing committee of the Board as established in the Bylaws, with the exception of the Audit and Athletic Committees. Further, the Board By-laws require the Board member who is the chair of the applicable permanent standing advisory committee to present the agenda items in the area of the committee's responsibility. This presentation may include calling on institutional/agency representatives and/or other individuals. In the event of an absence or conflict with respect to the committee chairperson, the Board President may designate a substitute Board member or Board officer to present the agenda items.

The Board's Bylaws also establish and set the scope of the working units assigned to each standing committee, the current standing committees and working units are:

- Planning, Policy and Governmental Affairs Committee
  - Presidents Council
  - Agency Head Council
- Instruction, Research and Student Affairs Committee
  - Council on Academic Affairs and Programs

**WORK SESSION**  
**JUNE 19, 2019**

---

- Business Affairs and Human Resources Committee
  - Financial Vice Presidents council
- Audit Committee
- Athletics Committee

Prior to June 2000 the Board Bylaws established five standing committees of the Board. These committees had developed over time, with three primary standing committees, closely mirroring the governance structure of institutions in their charge and composition. As other needs and focuses have arisen related to the Board's governance over all of public education, new committees were added. In April 2002 the committee structure was made up of the Planning, Policy and Governmental Affairs (PPGA) Committee; Instruction, Research and Student Affairs (IRSA) Committee; Business Affairs and Human Resources (BAHR) Committee; and the Targeted Educational Groups Advisory Council. During this time the agenda was organized using the areas of responsibility for PPGA, IRSA, and BAHR. In 2004 the committee structure was revised again, setting four standing committees, removing the Targeted Education Groups Advisory Council and establishing the Audit Committee.

While the Board has added and removed standing committees from time to time to address strategic areas of focus, the three main standing committees (PPGA, IRSA, BAHR) have been maintained and provided consistent structure and stability for addressing the issues that come before the Board.

Pursuant to Section 33-104, Idaho Code, the Board is required to hold "no less than four regular meetings annually." The current regular Board meeting calendar sets six regular meetings each year. The Board meetings are scheduled around the state in such a way that each meeting is hosted by one of the public postsecondary institutions. The four-year institutions host the Board annually and the community colleges host the Board every other year. This structure allows the Board to visit each of the campuses it governs directly as the Board of Regents or Board of Trustees and to visit each of the community college campuses in the Board's role as the State Board of Education and its governance and oversight responsibility over all publicly funded education. This structure also allows the public and staff at the institutions to participate in the Board meetings and provides for an opportunity for individuals in each of the respective regions of the state to attend the meetings and speak to the Board through the Open Forum.

**BOARD ACTION**

This item is for informational purposes only.

**Idaho State Board of Education  
GOVERNING POLICIES AND PROCEDURES  
SECTION: I. BYLAWS (Operational Procedures)**

August 2016

---

**A. Office of the State Board of Education**

The Board maintains an Office of the State Board for the purpose of carrying out the administrative, financial, and coordinating functions required for the effective operation of the institutions and agencies under the governance of the Board. The staff of the Office of the State Board is under the direction of an executive director responsible directly to the Board.

**B. Meetings**

1. The Board will maintain a 12-month rolling meeting schedule. To accomplish this, the Board will, at each of its regularly scheduled meetings, update its 12-month rolling schedule of Board meetings, provided, however, that the Board by majority vote, or the Board president after consultation with Board members, may reschedule or cancel any meeting.
2. The Board may hold special meetings by vote of a majority of the Board taken during any regular meeting or by call of the Board president.
3. All meetings of the Board are held at such place or places as may be determined by the Board.
4. Actions that impact ongoing future behavior of agencies and institutions shall be incorporated into Board policy. Actions limited to a specific request from an institution or agency, if not acted on within one year of approval, must be brought back to the Board for reconsideration prior to action by the institution or agency. This requirement does not apply to program approval time limits.

**C. Rules of Order**

1. Meetings of the Board are conducted in accordance with controlling statutes and applicable bylaws, regulations, procedures, or policies. In the absence of such statutes, bylaws, regulations, procedures, or policies, meetings are conducted in accordance with the current edition of *Robert's Rules of Order Newly Revised*.
2. A quorum of the Board consists of five (5) Board members.
3. With the exception of procedural motions, all motions, resolutions, or other propositions requiring Board action will, whenever practicable, be reduced to writing before submission to a vote.

4. A roll-call vote of the Board is taken on all propositions involving any matters of bonded indebtedness; convening an executive session of the Board; or on any other action at the request of any Board member or upon the advice of legal counsel. The first voter is rotated on each subsequent roll-call vote.

#### **D. Officers and Representatives**

1. The officers of the Board include:
  - a. A president, a vice president, and a secretary, who are members of the Board.
  - b. An executive secretary, who is the state superintendent of public instruction.
2. The president, vice president, and secretary are elected at the organizational meeting for one (1) year terms and hold office until their successors are elected. Vacancies in these offices are filled by election for the remainder of the unexpired term.
3. Board representatives to serve on other boards, commissions, committees, and similar bodies are appointed by the Board president.
4. The executive director is appointed by and serves at the pleasure of the Board unless the contract of employment specifies otherwise. The executive director serves as the chief executive officer of the Office of the State Board of Education.

#### **E. Duties of Board Officers**

1. Board President
  - a. Presides at all Board meetings, with full power to discuss and vote on all matters before the Board.
  - b. Submits such information and recommendations considered proper concerning the business and interests of the Board.
  - c. Signs, in accordance with applicable statutes and Board action, all contracts, minutes, agreements, and other documents approved by the Board, except in those instances wherein the Board, by its procedures, has authorized the Board president to designate or has otherwise designated persons to sign in the name of or on behalf of the Board.
  - d. Gives prior approval for any official out-of-state travel of seven (7) days or more by Board members, institution heads, and the executive director.
  - e. Subject to action of the Board, gives notice and establishes the dates and locations of all regular Board meetings.
  - f. Calls special Board meetings at any time and place designated in such call in accordance with the Open Meeting Law.
  - g. Establishes screening and selection committees for all appointments of agency and institutional heads.
  - h. Appoints Board members to all standing and interim committees of the Board.
  - i. Establishes the Board agenda in consultation with the executive director.

- j. Serves as chief spokesperson for the Board and, with the executive director, carries out its policies between meetings.
2. Vice President
    - a. Presides at meetings in the event of absence of the Board president.
    - b. Performs the Board president's duties in the event of the Board president's inability to do so.
    - c. Becomes the acting Board president in the event of the resignation or permanent inability of the Board president until such time as a new president is elected.
  3. Secretary
    - a. Presides at meetings in the event of absence of the Board president and vice president.
    - b. Signs, in accordance with applicable statutes and Board action, all minutes, contracts, agreements, and other documents approved by the Board except in those instances wherein the Board, by its procedures, has authorized or has otherwise designated persons to sign in the name of or on behalf of the Board secretary.
  4. Executive Secretary

The state superintendent of public instruction, when acting as the executive secretary, is responsible for:

    - a. Carrying out policies, procedures, and duties prescribed by the Constitution of the State of Idaho and the *Idaho Code* or established by the Board for all elementary and secondary school matters.
    - b. Presenting to the Board recommendations concerning elementary and secondary school matters and the matters of the State Department of Education.
  5. Executive Director

The executive director serves as the chief executive officer of the Board, as chief administrative officer of Office of the State Board of Education, and as chief executive officer of such federal or state programs as are directly vested in the State Board of Education. The position description for the executive director, as approved by the Board, defines the scope of duties for which the executive director is responsible and is accountable to the Board.

#### **F. Committees of the Board**

The Board may organize itself into standing and other committees as necessary. Committee members are appointed by the Board president after informal consultation with other Board members. Any such standing or other committee may make

recommendations to the Board, but may not take any action, except when authority to act has been delegated by the Board. The Board president may serve as an ex-officio member of any standing or other committee. The procedural guidelines for Board committees appear in the Board Governing Policies and Procedures.

For purposes of the bylaws, the University of Idaho, Boise State University, Idaho State University, Lewis-Clark State College, College of Western Idaho, College of Southern Idaho, College of Western Idaho, and North Idaho College are included in references to the “institutions;” and Idaho Educational Public Broadcasting System, the Division of Vocational Rehabilitation, the Division of Career Technical Education, and the State Department of Education, are included in references to the “agencies.”\* An institution or agency may, at its option and with concurrence of the Board president, comment on any committee report or recommendation.

1. Planning, Policy and Governmental Affairs Committee

a. Purpose

The Planning, Policy and Governmental Affairs Committee is a standing advisory committee of the Board. It is responsible for developing and presenting recommendations to the Board on matters of policy, planning, and governmental affairs. The committee, in conjunction with the chief executive officers and chief administrators of the Board governed agencies and institutions, will develop and recommend to the Board future planning initiatives and goals. This committee shall also advise the Board on collaborative and cooperative measures for all education entities and branches of state government necessary to provide for the general supervision, governance and control of the state educational institutions, agencies and public schools, with the goal of producing a seamless educational system.

b. Composition

The Planning, Policy and Governmental Affairs Committee is composed of two (2) or more members of the Board, appointed by the president of the Board, who designates one (1) member to serve as the chairperson and spokesperson of the committee, and is staffed by the Board’s Chief Planning and Policy Officer. The Planning, Policy and Governmental Affairs Committee may form working unit or units, as necessary, to advise the committee. The chairperson presents all committee and working unit recommendations to the Board.

c. Responsibilities and Procedures

---

\* Definition provided for purposes of the Bylaws only. Recognizing the Board governance relationship varies with each of these entities, the intent in including representatives of each of the agencies and institutions as much as possible in the committee structure is to ensure proper and adequate representation, but is not intended to obligate or interfere with any other local boards or governing entities.

The Planning, Policy and Governmental Affairs Committee is responsible for making recommendations to the Board in the following general areas:

- i. Long range planning and coordination;
- ii. Initial discussions and direction on strategic policy initiatives and goals;
- iii. Legislative proposals and administrative rules for Board agencies and institutions;
- iv. Coordination and communication with the Governor, the Legislature, and all other governmental entities with regard to items of legislation, Board policy and planning initiatives;
- v. Review and revision of Board policies, administrative rules and education-related statutes for consistency and compatibility with the Board's strategic direction;
- vi. Reports and recommendations from the Presidents' Council and the Agency Heads' Council;
- vii. Other matters as assigned by the Board.

At the direction of the Board President, any matter before the Board may be removed to the Planning, Policy and Governmental Affairs Committee for initial action or consideration.

The Planning, Policy and Governmental Affairs Committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board's Governing Policies and Procedures. The Board's Chief Policy and Government Affairs Officer, under the direction of the chairperson, prepares the agenda for the Planning, Policy and Governmental Affairs Committee work that is under consideration at each meeting of the Board.

## 2. Instruction, Research and Student Affairs Committee

### a. Purpose

The Instruction, Research and Student Affairs Committee is a standing advisory committee of the Board. It is responsible for developing and presenting recommendations to the Board on matters of policy and procedure concerning instruction, research and student affairs.

### b. Composition

The Instruction, Research and Student Affairs Committee is composed of two (2) or more members of the Board, appointed by the president of the Board, who designates one (1) member to serve as chairperson and spokesperson of the committee, and is staffed by the Board's Chief Academic Officer. The

Instruction, Research and Student Affairs Committee may appoint a working unit or units, as necessary, to advise the committee. One such working unit shall be the Council on Academic Affairs and Programs (CAAP), which shall be composed of the Board's Chief Academic Officer and the chief academic officers of the institutions and agencies. The chairperson presents all committee and working group recommendations to the Board.

c. Responsibilities and Procedures

The Instruction, Research and Student Affairs Committee is responsible for making recommendations to the Board in the following general areas:

- i. Agency and institutional instruction, research and student affairs agenda items;
- ii. Instruction, academic or career technical program approval;
- iii. Instruction, academic or career technical program review, consolidation, modification, and discontinuance, and course offerings;
- iv. Outreach, technology and distant learning impacting programs and their delivery;
- v. Long-range instruction, academic and career technical planning;
- vi. Registration of out-of-state institutions offering programs or courses in Idaho;
- vii. Continuing education, professional development, workforce training, programs for at-risk populations, career guidance;
- viii. Student organizations' activities and issues; and
- ix. Other matters as assigned by the Board.

The Instruction, Research and Student Affairs Committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board's Governing Policies and Procedures. The Board's chief academic officer, under the direction of the chairperson, prepares the agenda for the Instruction, Research and Student Affairs Committee work that is under consideration at each meeting of the Board.

3. Business Affairs and Human Resources Committee

a. Purpose

The Business Affairs and Human Resources Committee is a standing advisory committee of the Board. It is responsible for developing and presenting recommendations to the Board on matters of policy and procedures concerning business affairs and human resources affairs.

b. Composition

The Business Affairs and Human Resources Committee is composed of two (2) or more members of the Board appointed by the president of the Board, who designates one (1) member to serve as chairperson and spokesperson of the committee, and is staffed by the Board's Chief Fiscal Officer. The Business Affairs and Human Resources Committee may appoint a working unit or units, as necessary, to advise the committee. One such working unit shall be the Financial Vice Presidents council, which shall be composed of the Board's Chief Fiscal Officer and the chief financial officers of the institutions and agencies. The chairperson presents all committee recommendations to the Board.

c. Responsibilities and Procedures

The Business Affairs and Human Resources Committee is responsible, through its various working unit or units, for making recommendations to the Board in the following general areas:

- i. Agency and institutional financial agenda items;
- ii. Coordination and development of guidelines and information for agency and institutional budget requests and operating budgets;
- iii. Long-range fiscal planning;
- iv. Fiscal analysis of the following:
  - 1) New and expanded financial programs;
  - 2) Establishment, discontinuance or change in designation of administrative units;
  - 3) Consolidation, relocation, or discontinuance of programs;
  - 4) New facilities and any major modifications to facilities which would result in changes in programs or program capacity;
  - 5) Student fees and tuition; and
  - 6) Other matters as assigned by the Board.

The Business Affairs and Human Resources Committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board's Governing Policies and Procedures. The Board's chief fiscal officer, under the direction of the chairperson, prepares the agenda for the Business Affairs and Human Resources Committee work that is under consideration at each meeting of the Board.

4. Audit Committee

a. Purpose

The Audit Committee is a standing committee of the Board. The Audit Committee provides oversight to the organizations under its governance (defined in Idaho State Board of Education, Policies and Procedures, Section I. A.1.) for: financial statement integrity, financial practices, internal control systems, financial management, and standards of conduct.

b. Composition

The Audit Committee members shall be appointed by the Board and shall consist of five or more members. Three members of the Committee shall be current Board members and at least two members shall be independent non-Board members who are familiar with the audit process and permanent residents of the state of Idaho. No employee of an institution or agency under the governance of the Board shall serve on the Audit Committee. Each Audit Committee member shall be independent, free from any relationship that would interfere with the exercise of her or his independent judgment. Audit Committee members shall not be compensated for their service on the committee, and shall not have a financial interest in, or any other conflict of interest with, any entity doing business with the Board, or any institution or agency under the governance of the Board. However, Audit Committee members who are Board members may be compensated for Board service. The Audit Committee may appoint a working unit or units, which could include the chief financial officers of the institutions and financial officers of the Board office.

All members shall have an understanding of the Committee and financial affairs and the ability to exercise independent judgment, and at least one member of the Committee shall have current accounting or related financial management expertise in the following areas:

- i. An understanding of generally accepted accounting principles, experience in preparing, auditing, analyzing, or evaluating complex financial statements, and;
- ii. The ability to assess the general application of such principles in the accounting for estimates, accruals, and reserves, and;
- iii. Experience in preparing or auditing financial statements and;
- iv. An understanding of internal controls.

Members may be reappointed. The Audit Committee chair shall be appointed by the Board President and shall be a Board member.

c. Responsibilities and Procedures

It is not the Committee's duty to plan or conduct audits or to determine that the institution's financial statements are complete, accurate and in accordance with generally accepted accounting principles. Management of the applicable institutions and agencies shall be responsible for the preparation, presentation, and integrity of the financial statements and for the appropriateness of the accounting principles and reporting policies used. The following shall be the principle duties and responsibilities of the Committee:

- i. Recommend the appointment and compensation to the Board of the independent auditors for Board action. Evaluate and oversee the work of the independent auditors. The Committee must approve any services prior to being provided by the independent auditor. The independent auditing firm shall report directly to the Committee as well as the Board and the auditor's "engagement letter" shall be addressed to the Committee and the President of each institution. The Committee shall have the authority to engage the Board's legal counsel and other consultants necessary to carry out its duties.
- ii. Discuss with the independent auditors the audit scope, focusing on areas of concern or interest;
- iii. Review the financial statements, adequacy of internal controls and findings with the independent auditor. The independent auditor's "management letter" shall include management responses and be addressed to the Audit Committee and President of the institution.
- iv. Ensure the independent auditor presents the financial statements to the Board and provides detail and summary reports as appropriate.
- v. Oversee standards of conduct (ethical behavior) and conflict of interest policies of the Board and the institutions and agencies under its governance including establishment of confidential complaint mechanisms.
- vi. Monitor the integrity of each organization's financial accounting process and systems of internal controls regarding finance, accounting and stewardship of assets;
- vii. Monitor the independence and performance of each organization's independent auditors and internal auditing departments;
- viii. Provide general guidance for developing risk assessment models for all institutions.
- ix. Provide an avenue of communication among the independent auditors, management, the internal audit staff and the Board.
- x. Maintain audit review responsibilities of institutional affiliates to include but not limited to foundations and booster organizations.

The Audit Committee will meet as needed. The Committee may establish necessary procedures to carry out its responsibilities. Such procedures must

be consistent with the Board's Governing Policies and Procedures. The Board's Chief Fiscal Officer, under the direction of the chair, prepares the agenda for work that is under consideration at each meeting of the Board.

5. Athletics Committee

a. Purpose

The Athletics Committee is a standing advisory committee of the Board that reports through the Business Affairs and Human Resources Committee. It is responsible for developing and presenting recommendations to the Board on matters of policy and procedures concerning intercollegiate athletics.

b. Composition

The Athletics Committee is composed of two (2) or more members of the Board appointed by the president of the Board, who designates one (1) member to serve as chairperson and spokesperson of the committee, and is staffed by the Board's Chief Fiscal Officer. The Athletics Committee may appoint a working unit or units, as necessary, to advise the committee. One such working unit shall be composed of the institutions' Athletics Directors.

c. Responsibilities and Procedures

The Athletics Committee is responsible for making recommendations to the Board in areas including but not limited to:

- i. athletics director and coach contracts;
- ii. Athletics Department operating budgets;
- iii. Athletics Department reports on revenue, expenditures and student-athlete participation;
- iv. Athletics Department employee compensation reports;
- v. institutional National Collegiate Athletics Association (NCAA) Academic Progress Rate (APR) reports;
- vi. institutional Title IX gender equity reports;
- vii. athletics division or conference changes; and
- viii. institutional athletics sponsorship and media rights agreements;

The Athletics Committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board's Governing Policies and Procedures. The Board's chief fiscal officer, under the direction of the chairperson, prepares the Athletics Committee work for the Business Affairs and Human Resources Committee agenda that is under consideration at each meeting of the Board.

### **G. Committee Presentations**

1. The agenda for each regular meeting of the Board shall be organized using the areas of responsibility provided for in regard to each permanent standing committee of the Board, as described in Subsection H above, with the exception of the Audit and Athletic Committee.
2. The Board member who is the chair of the permanent standing advisory committee and spokesperson shall present the agenda items in the area of the committee's responsibility. This presentation may include calling on institutional/agency representatives and/or other individuals. In the event of an absence or conflict with respect to the committee chairperson, the Board President may designate a substitute Board member or Board officer to present the agenda items.

### **H. Presidents' Council**

1. Purpose

The Presidents' Council convenes prior to each Board meeting to discuss and make recommendations, as necessary, on Board agenda items scheduled for Board consideration. The Presidents' Council may also choose or be directed by the Board to meet with the Agency Heads' Council for exchanges of information or to discuss projects of benefit to the entire system. The Presidents' Council reports to the Board through the Planning, Policy and Governmental Affairs Committee of the Board.

2. Composition

The Presidents' Council is composed of the presidents of the University of Idaho, Idaho State University, Boise State University, Lewis-Clark State College; and the presidents of North Idaho College, College of Eastern Idaho, College of Western Idaho and the College of Southern Idaho, each of whom has one (1) vote. One (1) of the voting members shall serve as chair of the Council, with a new chair selected each academic year such that the chair will rotate among the respective members, such that no two community college presidents' will hold a term in consecutive years. The administrator of the Division of Career Technical Education and the Board's Executive Director shall be ex-officio members of the Council.

3. Duties of the Chair

The Chair:

- a. Presides at all Presidents' Council meetings with full power to discuss and vote on all matters before the Council;
- b. Establishes the Presidents' Council agenda in consultation with the Executive Director; and
- c. Maintains open communications with the Board on agenda matters through the Planning, Policy and Governmental Affairs Committee.

4. The Executive Director will communicate openly and in a timely manner with the Presidents' Council.

I. **Agency Heads' Council**

1. Purpose

The Agency Heads' Council convenes as necessary to discuss and make recommendations on agenda items scheduled for Board consideration as well as other issues pertinent to the agencies. The Agency Heads' Council may also choose or be directed by the Board to meet with the Presidents' Council for exchanges of information or to discuss projects of benefit to the entire system. The Agency Heads' Council reports to the Board through the Planning, Policy and Governmental Affairs Committee of the Board.

2. Composition

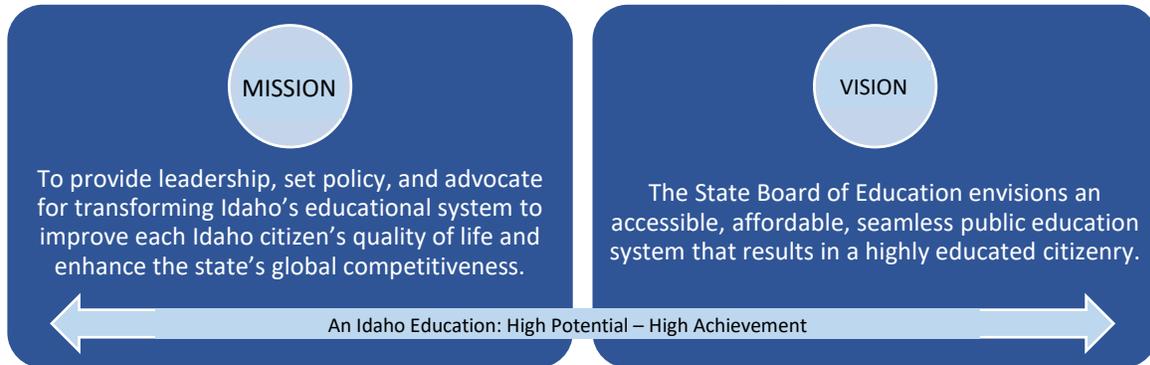

The Agency Heads' Council is composed of the chief administrators of Idaho Educational Public Broadcasting System, the Division of Vocational Rehabilitation, and the Division of Career Technical Education; and representatives from the State Department of Education. The Board's Executive Director shall serve as chair of the Council.

3. Duties of the Chair

- a. Presides at all Agency Heads' Council meetings;
- b. Establishes the Council's agenda in consultation with the Council's members; and
- c. Maintains open communications with the Board on agenda matters through the Planning, Policy and Governmental Affairs Committee.

Idaho K-20 Public Education - Strategic Plan

**GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT –**

Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

- **Objective A: Data Access and Transparency** - Support data-informed decision-making and transparency through analysis and accessibility of our public K-20 educational system.
- **Objective B: Alignment and Coordination** – Ensure the articulation and transfer of students throughout the education pipeline (secondary school, technical training, postsecondary, etc.).

**GOAL 2: EDUCATIONAL READINESS –**

Provide a rigorous, uniform, and thorough education that empowers students to be lifelong learners and prepares all students to fully participate in their community and postsecondary and work force opportunities.

- **Objective A: Rigorous Education** – Deliver rigorous programs that challenge and prepare students to transition through each level of the educational system.
- **Objective B: School Readiness** – Explore opportunities to enhance school readiness

**GOAL 3: EDUCATIONAL ATTAINMENT –**

Idaho’s public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.

- **Objective A: Higher Level of Educational Attainment** – Increase completion of certificates and degrees through Idaho’s educational system.
- **Objective B: Timely Degree Completion** – Close the achievement gap, boost graduation rates and increase on-time degree completion through implementation of the Game Changers (structured schedules, math pathways, co-requisite support).
- **Objective C: Access** - Increase access to Idaho’s robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.

**GOAL 4: WORKFORCE READINESS –**

The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

- **Objective A: Workforce Alignment** – Prepare students to efficiently and effectively enter and succeed in the workforce.
- **Objective B: Medical Education** – Deliver relevant education that meets the health care needs of Idaho and the region.

FY2020-2025

Idaho K-20 Public Education - Strategic Plan

### MISSION STATEMENT

To provide leadership, set policy, and advocate for transforming Idaho's educational system to improve each Idaho citizen's quality of life and enhance the state's global competitiveness.

### VISION STATEMENT

The State Board of Education envisions an accessible, affordable, seamless public education system that results in a highly educated citizenry.

**GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT** – Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

**Objective A: Data Access and Transparency** - Support data-informed decision-making and transparency through analysis and accessibility of our public K-20 educational system.

**Objective B: Alignment and Coordination** – Ensure the articulation and transfer of students throughout the education pipeline (secondary school, technical training, postsecondary, etc.).

**GOAL 2: EDUCATIONAL READINESS** – Provide a rigorous, uniform, and thorough education that empowers students to be lifelong learners and prepares all students to fully participate in their community and postsecondary and workforce opportunities.

**Objective A: Rigorous Education** – Deliver rigorous programs that challenge and prepare students to transition through each level of the educational system.

**Objective B: School Readiness** – Explore opportunities to enhance school readiness.

**GOAL 3: EDUCATIONAL ATTAINMENT** – Idaho's public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.

**Objective A: Higher Level of Educational Attainment** – Increase completion of certificates and degrees through Idaho's educational system.

**Objective B: Timely Degree Completion** – Close the achievement gap, boost graduation rates and increase on-time degree completion through implementation of the Game Changers (structured schedules, math pathways, co-requisite support).

**Objective C: Access** - Increase access to Idaho's robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.

**GOAL 4: WORKFORCE READINESS**- The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

**Objective A: Workforce Alignment** – Prepare students to efficiently and effectively enter and succeed in the workforce.

**Objective B: Medical Education** – Deliver relevant education that meets the health care needs of Idaho and the region.

**WORK SESSION

Developments in K-12 Education

**BACKGROUND/DISCUSSION**

Sherri Ybarra, Superintendent of Public Instruction, will share developments in K-12 education with the Board.

**BOARD ACTION**

This item is for informational purposes only.

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

**SUBJECT**

Hardship Status, Albion Elementary School

**REFERENCE**

June 2015	The Board received an update regarding Albion Elementary School and its continued need for hardship status.
June 2017	The Board received an update regarding Albion Elementary School and its continued need for hardship status.
June 2018	The Board received an update regarding Albion Elementary School and its continued need for hardship status.

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-1003(2)(b), Idaho Code

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 3: Educational Attainment; Objective C: Access

**BACKGROUND/DISCUSSION**

At the October 1999 meeting, the State Board of Education (Board) approved the request by Cassia County School District #151 for Albion Elementary School to be designated a hardship elementary school for one year and required an annual report. However, the 2000 Legislature amended Section 33-1003(2)(b), Idaho Code, by adding, "An elementary school operating as a previously approved hardship elementary school shall continue to be considered as a separate attendance unit, unless the hardship status of the elementary school is rescinded by the state board of education." Therefore, no action is required unless the Board chooses to rescind the hardship status. Conditions supporting the October 1999 decision to approve the Albion Elementary School as a hardship elementary school have not changed.

**IMPACT**

Cassia County School District #151 would have received approximately \$151,000 less in FY 2019 if Albion Elementary School was not considered a separate school.

**ATTACHMENTS**

Attachment 1 – Letter from Superintendent James Shank to Superintendent Ybarra dated May 8, 2019

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-1003, Idaho Code, the State Board of Education is authorized to grant an elementary school(s) status as a separate attendance unit, for the purposes of calculating average daily attendance, when "special conditions exist warranting the retention of the school as a separate attendance unit and the

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

retention results in a substantial increase in cost per pupil in average daily attendance above the average cost per pupil in average daily attendance of the remainder of the district's elementary grade school pupils.”

Average daily attendance (ADA) calculations are used to determine the number of support units a school district has, which then in turn affects the amount of funds the school district receives from the state for salary and benefit apportionment and discretionary funds. The average daily attendance calculation is variable based on the number of students a school district has in a specific grade range. As an example, a school district with an elementary school with 170 ADA has an attendance divisor of 20, resulting in 8.5 support units and a hardship school with 18 ADA, has an attendance divisor of 12 resulting in 1.5 support units. The school district would then receive 10 support units for its elementary school students. Using this same example for a school district that does not have a hardship school, the district would have 188 ADA, with a divisor of 20 resulting in 9.4 support units for the school district's elementary students. At \$94,100 (FY17 estimated statewide average) per support unit, the school district in the first example would receive \$941,000 while the school district in the second example would receive \$884,540. These numbers are used for the purposes of providing an example and are not the numbers for any specific school district.

Ms. Sherri Ybarra  
State Superintendent of Public Instruction  
PO BOX 83720  
Boise, ID 83720-0027

Dear Superintendent Ybarra,

In the October 1999 meeting of the State Board of Education it was noted that Albion Elementary School was granted a *hardship* status by the Board. As noted in the minutes of the State Board of Education this status was granted one year at a time. It was also identified that the State Superintendent be the person responsible to present this request annually to the Board through the SBOE agenda.

Please accept this letter from Cassia Joint School District #151 as a request for hardship status for Albion Elementary (School Number 111) for the 2019-2020 school year. The approval conditions granted by the State Board of Education at the time of the initial granting have not changed.

Thank you, and the State Board of Education, for your support of the children of Cassia County and Idaho. Please contact me if you need further information...

Please contact me if you need further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "James Shank".

James Shank,  
Superintendent

PC: Tim Hill

**PROFESSIONAL STANDARDS COMMISSION**

**SUBJECT**

Proposed Rule, Docket No. 08-0202-1902, Rules Governing Uniformity

**REFERENCE**

August 2017	Board approved proposed amendments to the Idaho Standards for Initial Certification of Professional School Personnel and proposed rule Docket No. 08-0202-1701
June 2018	Board approved proposed amendments to the Idaho Standards for Initial Certification of Professional School Personnel and proposed rule Docket No. 08-0202-1801

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies and Procedures, Section IV.B.9.b., Standards for the Initial Certification of Professional School Personnel Sections 33-114, 33-130, 33-512, 33-1254, 33-1258, Idaho Code IDAPA 08.02.02, Rules Governing Uniformity

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 4: Workforce Readiness; Objective A: Workforce Alignment

**BACKGROUND/DISCUSSION**

The Professional Standards Commission (PSC) follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel. Committees of content experts reviewed and recommended revisions to the following certificates and endorsements: Exceptional Child Generalist, Blind and Visually Impaired, Deaf/Hard of Hearing, Blended Early Childhood Education/Early Childhood Special Education, School Counselor, School Psychologist, and School Social Worker. All revisions to standards and endorsements, made to better align with national standards and best practices, were presented to the PSC for consideration at the January 25, 2019 meeting. The PSC recommended approval of all of the committees' proposed endorsement revisions. In addition, the PSC recommended approval of revisions to IDAPA 08.02.02 sections for Alternative Authorization to Endorsement and Alternate Routes to Certification to ensure clarity and reflect best practices.

A Notice of Intent to Promulgate Rules was published in the March 6, 2019, edition of the Administrative Bulletin. Although the Department received no requests to participate in negotiated rulemaking, the Department solicited education stakeholders, practitioners, and higher education officials to attend a public meeting on March 27, 2019, to discuss the draft rule and possible additional

**DEPARTMENT OF EDUCATION**  
**JUNE 19, 2019**

---

amendments. As a result of the negotiated rulemaking meeting, changes were proposed to endorsement language regarding clinical experience under the Blended Early Childhood Education/Early Childhood Special Education endorsement. Minor spelling errors were corrected and duplicative language was removed.

Additional comments from negotiation led the PSC Executive Committee to clarify language under Principle II – Educator/Student Relationship to the Code of Ethics for Idaho Professional Educators. At their April 5, 2019 meeting, the PSC moved to accept the attached revisions to the Idaho Standards for Initial Certification of Professional School Personnel (Attachment 2) and IDAPA 08.02.02 (Attachment 1).

**IMPACT**

The revisions to IDAPA 08.02.02, Rules Governing Uniformity, and the Idaho Standards for Initial Certification of Professional School Personnel will enable Idaho universities and colleges to better prepare teachers according to these updated initial certification standards and endorsements.

**ATTACHMENTS**

Attachment 1 – Proposed changes to IDAPA 08.02.02, Rules Governing Uniformity  
Attachment 2 – Proposed revisions to Idaho Standards for Initial Certification of Professional School Personnel

**STAFF COMMENTS AND RECOMMENDATIONS**

In addition to the updates to the areas of endorsement noted above, the proposed amendments include the removal of the Mathematical Thinking for Instruction and the mathematics in-service program as requirements for certificate renewal. New language is added outlining the process for individuals participating in a non-traditional route to certification to receive an interim certificate. At the time of agenda production, the Board has approved two non-traditional routes to certification; Teach for America (TFA) and American Board for Certification of Teacher Excellence (ABCTE). At the June 2019 Board meeting the Board will consider approval of two additional non-traditional routes to certification. These include a non-traditional route through Lewis-Clark State College and a transition of the Board-approved alternate route to certification at the College of Southern Idaho to a non-traditional route.

The alternate routes to certification set forth in IDAPA 08.02.02.042 were intended to provide school districts unable to find and hire certificated personnel with a path for hiring individuals who met minimum education requirements with “interim certificates” while the individuals completed requirements to obtain a standard certificate.

Over the past decade, the Board has approved amendments to the alternate routes, eliminating the requirement that alternate routes be used only in

**DEPARTMENT OF EDUCATION**  
**JUNE 19, 2019**

---

emergency situations. These amendments maintained provisions for some routes, including the “Teacher to New Certification” authorization for situations when a position cannot be filled with someone who has the correct certification (e.g. someone with an instructional staff certificate needing a professional services certificate). Other amendments, such as the “Alternative Authorization – Content Specialist,” were made to the route, removing barriers and allowing for school districts and charter schools to hire individuals that had not gone through a traditional pathway of an educator preparation program but had strong content knowledge and were interested in entering the education profession. These typically were individuals that had started or completed a career in a non-education field that aligns to an educational content area and are now interested in becoming a classroom teacher. The current requirements in IDAPA 08.02.02 put the responsibility for identifying and developing the pathway for these individuals on the school/district administrator and do not require that the school first determine that they cannot find someone with a standard certificate for the position that they are trying to fill. The proposed amendments would remove that flexibility and reinstate language that would only allow the alternate routes (Alternative Authorization) to be used when the school district or charter school cannot fill the position with someone who has the “correct” certification in the area of need identified. Additional language shifts responsibility for determining completion of the locally developed plan for meeting the state standards and assessing whether or not the candidate meets the state standards from the school administrator and the consortium that developed the plan to the approved educator preparation program.

In addition to the policy change noted above the language is written in a way that confuses the “interim certificate” with the “alternate authorization.” Currently the alternate routes are pathways to standard certification and the individual receives an interim certificate while they are on the route. The proposed amendments frequently confuse the language regarding the alternative authorization with the interim certificate. Technically, an alternative authorization is not a certificate, the “interim certificate” is the “certificate” and IDAPA 08.02.02. identifies specific criteria for individuals on an interim certificate, such as the requirement that they abide by all laws and rules governing standard certificated staff with respect to conduct, discipline, and professional standards. It is important that any language regarding alternative authorizations is clear that the alternative authorization is not the certificate. The “interim certificate” is the certificate.

Administrative rules are made up of three types of rules. Temporary rules, proposed rules and pending rules. Rules are required to be promulgated through the negotiated rulemaking process. The negotiated rulemaking process consists of an initial notice of intent to promulgate rules, and opportunity for interested parties participate in a negotiated process to develop the language for the proposed rule. Following this period the proposed rule is drafted and then submitted to the Board for consideration. Once approved by the Board, the proposed rule is then published in the administrative bulletin and a 21-day public

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

comment period commences. Unlike the negotiated rulemaking meetings, the public comment period only requires the public be given an opportunity to comment on what has already been drafted. Formal public hearings may also be conducted as part of the 21-day comment period. Following the close of the public comment period, changes may be made to the proposed rule in response to the comments received. The rule is then brought back to the Board, with changes if applicable, as a pending rule. If the pending rule is approved by the Board, it is published again in the Administrative Bulletin as a pending (final) rule and forwarded to the Legislature for consideration.

CHAPTER 02

08.02.02 – RULES GOVERNING UNIFORMITY

BREAK IN CONTINUITY OF SECTIONS

**004. INCORPORATION BY REFERENCE.**

The State Board of Education adopts and incorporates by reference into its rules: (5-8-09)

**01. Idaho Standards for the Initial Certification of Professional School Personnel as approved on June 20, 2018, 2019, 2019.** Copies of this document can be found on the Office of the State Board of Education website at <https://boardofed.idaho.gov>. (4-11-19 \_\_\_\_\_)

**02. Standards for Idaho School Buses and Operations as approved on November 15, 2017.** The Standards for Idaho School Buses and Operations are available at the Idaho State Department of Education, 650 W. State St., Boise Idaho, 83702 and can also be accessed electronically at <https://boardofed.idaho.gov>. (3-28-18)

**03. Operating Procedures for Idaho Public Driver Education Programs as approved on June 16, 2016.** The Operating Procedures for Idaho Public Driver Education Programs are available at the Idaho State Department of Education, 650 W. State St., Boise, Idaho, 83702 and can also be accessed electronically at <https://boardofed.idaho.gov>. (3-29-17)

**005. OFFICE – OFFICE HOURS – MAILING AND STREET ADDRESS.**

The principal place of business of the State Board of Education (SBOE) and State Department of Education (SDE) is in Boise, Idaho. Both offices are located at 650 W. State, Boise Idaho 83702. The SDE is on the 2nd Floor, the SBOE is found in Room 307. Both offices are open from 8 a.m. to 5 p.m., except Saturday, Sunday, and legal holidays. The mailing address for the SBOE is PO Box 83720, Boise, ID 83720-0037. The mailing address for the SDE is PO Box 83720, Boise, ID 83720-0027. The SBOE phone number is (208) 334-2270 and the SDE phone number is (208) 332-6800. (3-25-16)

**006. PUBLIC RECORDS ACT COMPLIANCE.**

This rule has been promulgated in accordance with the Administrative Procedures Act, Title 67, Chapter 52, Idaho Code, and is a public record. (7-1-02)

**007. DEFINITIONS.**

~~**01. Active Teacher.** K-12 teacher with a valid Idaho certificate who is currently teaching in an Idaho K-12 classroom or school, either in person or online. (3-29-17)~~

~~**02. Alternative Routes.** Routes to teacher certification designed for candidates who want to enter the teaching profession from non-education professions or the paraprofessional profession, or for teachers lacking certification in a specific area defined as an emergency district need. (3-29-17)~~

~~**0301. Clinical Experience.** Guided, hands-on, practical applications and demonstrations of professional knowledge of theory to practice, skills, and dispositions through collaborative and facilitated learning in field-based assignments, tasks, activities, and assessments across a variety of settings. Clinical experience includes field experience and clinical practice as defined in this section. (4-11-19)~~

~~**0402. Clinical Practice.** Student teaching or internship opportunities that provide candidates with an intensive and extensive culminating field-based set of responsibilities, assignments, tasks, activities, and assessments that demonstrate candidates' progressive development of the professional knowledge, skills, and dispositions to be~~

effective educators. Clinical practice includes student teaching and internship. (4-11-19)

**0503. Credential.** The general term used to denote the document on which all of a person's educational certificates and endorsements are listed. The holder is entitled to provide educational services in any and/or all areas listed on the credential. (3-16-04)

**0604. Endorsement.** Term used to refer to the content area or specific area of expertise in which a holder is granted permission to provide services. (3-16-04)

**0705. Field Experience.** Early and ongoing practice opportunities to apply content and pedagogical knowledge in Pre-K-12 settings to progressively develop and demonstrate knowledge, skills, and dispositions. (4-11-19)

**0806. Idaho Student Achievement Standards.** Standards of achievement for Idaho's K-12 students. See IDAPA 08.02.03, "Rules Governing Thoroughness." (3-16-04)

**0907. Individualized Professional Learning Plan.** An individualized professional development plan based on the Idaho framework for teaching evaluation as outlined in Section 120 of these rules to include interventions based on the individual's strengths and areas of needed growth. (3-28-18)

**1008. Institutional Recommendation.** Signed form or written verification from an accredited institution with a state board approved educator preparation program stating that an individual has completed the program, received a basic or higher rating in all components of the approved Idaho framework for teaching evaluation, has an individualized professional learning plan, has demonstrated the ability to produce measurable student achievement or student success, has the ability to create student learning objectives, and is now being recommended for state certification. Institutional recommendations must include statements of identified competency areas and grade ranges. Institutional Recommendation for administrators must additionally include a competency statement indicating proficiency in conducting accurate evaluations of instructional practice based upon the state's framework for evaluation as outlined in Section 120 of these rules. (3-28-18)

**1109. Internship.** Full-time or part-time supervised clinical practice experience in Pre-K-12 settings where candidates progressively develop and demonstrate their knowledge, skills, and dispositions. (4-11-19)

**1210. Local Education Agency (LEA).** An Idaho public school district or charter school pursuant to Section 33-5203(8), Idaho Code. (3-29-17)

~~13. — Orientation. School district/school process used to acquaint teachers new to district/school on its policies, procedures and processes. (3-16-04)~~

**1411. Paraprofessional.** A noncertificated individual who is employed by a ~~school district or charter school~~ local education agency to support educational programming. Paraprofessionals must work under the direct supervision of a properly certificated staff member for the areas they are providing support. Paraprofessionals cannot serve as the teacher of record and may not provide direct instruction to a student unless the paraprofessional is working under the direct supervision of a teacher. (3-29-17)

a. To qualify as a paraprofessional the individual must have a high school diploma or general equivalency diploma (GED) and: (3-29-17)

i. Demonstrate through a state board approved academic assessment knowledge of and the ability to assist in instructing or preparing students to be instructed as applicable to the academic areas they are providing support in; or (4-11-19)

ii. Have completed at least two (2) years of study at an accredited postsecondary educational institution; or (3-29-17)

iii. Obtained an associate degree or higher level degree; demonstrate through a state board approved

academic assessment knowledge of and the ability to assist in instructing or preparing students to be instructed as applicable to the academic areas they are providing support in. (4-11-19)

b. Individuals who do not meet these requirements will be considered school or classroom aides. (3-29-17)

c. Duties of a paraprofessional include, but are not limited to, one-on-one tutoring; assisting in classroom management; assisting in computer instruction; conducting parent involvement activities; providing instructional support in a library or media center; acting as a translator in instructional matters; and providing instructional support services. Non-instructional duties such as providing technical support for computers, personal care services, and clerical duties are generally performed by classroom or school aides, however, this does not preclude paraprofessionals from also assisting in these non-instructional areas. (3-29-17)

**1512. Pedagogy.** Teaching knowledge and skills. (3-16-04)

**1613. Practicum.** Full-time or part-time supervised, industry-based experience in an area of intended career technical education teaching field to extend understanding of industry standards, career development opportunities, and application of technical skills. (4-11-19)

**1714. Student Learning Objective (SLO).** A measurable, long-term academic growth target that a teacher sets at the beginning of the year for all student or for subgroups of students. SLOs demonstrate a teacher's impact on student learning within a given interval of instruction based upon baseline data gathered at the beginning of the course. (3-25-16)

**1815. Student Teaching.** Extensive, substantive, and supervised clinical practice in Pre-K-12 schools for candidates preparing to teach. (4-11-19)

**1916. Teacher Leader.** A teacher who facilitates the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs. (3-25-16)

**008. -- 011. (RESERVED)**

**012. ACCREDITED INSTITUTION.**

For purposes of educator certification, an accredited school, college, university, or other educator training institution is considered by the Idaho State Board of Education to be one that is accredited by a regional accrediting association recognized by the State Board of Education or an alternative or non-traditional model approved by the State Board of Education. (Sections 33-107; 33-114; 33-1203, Idaho Code) (4-11-19)

**013. CERTIFICATION OF TEACHERS TRAINED IN FOREIGN INSTITUTIONS.**

Considering credentials for teacher certification submitted by persons trained in the institutions of foreign countries will be initiated by a translation and evaluation of the applicant's credentials. (4-1-97)

**01. Determination of Eligibility.** Determination of eligibility for certification will be made by the State Department of Education as the agent of the State Board of Education. Appeals may be made to the Professional Standards Commission, (PSC). (Section 33-1209, Idaho Code) (3-16-04)

**02. Other Procedures.** All other procedures in effect at the time must be followed at the time of application. (4-1-97)

**014. CERTIFICATES ISSUED TO APPLICANTS FROM REGIONALLY ACCREDITED INSTITUTIONS.**

**01. The Department of Education.** The Department of Education is authorized to issue Idaho Certificates to applicants from regionally accredited institutions meeting requirements for certification or equivalent (i.e., those based on a baccalaureate degree) in other states when they substantially meet the requirements for the Idaho Certificate. (Sections 33-1203; 33-2203 Idaho Code) (3-29-17)

**02. The Division of Career Technical Education.** The Division of Career Technical Education is authorized to determine whether applicants meet the requirements for instructing or administering career technical programs at the secondary and postsecondary levels. (Section 33-2203, Idaho Code) (3-29-17)

**015. IDAHO EDUCATOR CREDENTIAL.**

The State Board of Education authorizes the State Department of Education to issue certificates and endorsements to those individuals meeting the specific requirements for each area provided herein. (3-25-16)

**01. Standard Instructional Certificate.** A Standard Instructional Certificate makes an individual eligible to teach all grades, subject to the grade ranges and subject areas of the valid endorsement(s) attached to the certificate. A standard instructional certificate may be issued to any person who has a baccalaureate degree from an accredited college or university and who meets the following requirements: (3-29-17)

**a.** Professional education requirements: (3-29-17)

i. Earned a minimum of twenty (20) semester credit hours, or thirty (30) quarter credit hours, in the philosophical, psychological, methodological foundations, instructional technology, and in the professional subject matter, which shall include at least three (3) semester credit hours, or four (4) quarter credit hours, in reading and its application to the content area; (3-29-17)

ii. The required minimum credit hours must include at least six (6) semester credit hours, or nine (9) quarter credit hours, of student teaching in the grade range and subject areas as applicable to the endorsement; and (3-29-17)

**b.** Completed an approved educator preparation program and have an institutional recommendation from an accredited college or university specifying the grade ranges and subjects for which they are eligible to receive an endorsement in; (4-11-19)

**c.** Individuals seeking endorsement ~~in a secondary grade (pursuant to Section 33-1001, Idaho Code) range~~ must complete preparation in at least two (2) fields of teaching. One (1) of the teaching fields must consist of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours and a second field of teaching consisting of at least twenty (20) semester credit hours, or thirty (30) quarter credit hours. Preparation of not less than forty-five (45) semester credit hours, or sixty-seven (67) quarter credit hours, in a single subject area may be used in lieu of the two (2) teaching field requirements; (3-29-17)

**d.** Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate must meet or exceed the state qualifying score on the state board approved content area and pedagogy assessments. (3-29-17)

**e.** The Standard Instructional Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the certificate. (3-29-17)

**02. Pupil Service Staff Certificate.** Persons who serve as school counselors, school psychologists, speech-language pathologists, school social workers, school nurses and school audiologists are required to hold the Pupil Service Staff Certificate, with the respective endorsement(s) for which they qualify. Persons who serve as an occupational therapist or physical therapist may be required, as determined by the local educational agency, to hold the Pupil Service Staff Certificate with respective endorsements for which they qualify. (3-28-18)

**a.** School Counselor (K-12) Endorsement. To be eligible for a Pupil Service Staff Certificate - School Counselor (K-12) endorsement, a candidate must have satisfied the following requirements. The Pupil Service Staff Certificate with a School Counselor (K-12) endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. (3-28-18)

i. Hold a master's degree and provide verification of completion of an approved program of graduate

study in school counseling, including 60 semester credits, from a college or university approved by the Idaho State Board of Education or the state educational agency of the state in which the program was completed. The program must include successful completion of seven hundred (700) clock hours of supervised field experience, seventy-five percent (75%) of which must be in a K-12 school setting. This K-12 experience must be in each of the following levels: elementary, middle/junior high, and high school. Previous school counseling experience may be considered to help offset the field experience clock hour requirement; and (3-25-16 \_\_\_\_\_)

ii. An institutional recommendation is required for a School Counselor (K-12) endorsement. (3-28-18)

**b.** School Counselor – Basic (K-12) Endorsement. (3-28-18)

i. Individuals serving as a school counselor pursuant to Section 33-1212, Idaho Code, shall be granted a Pupil Service Staff Certificate with a School Counselor – Basic (K-12) endorsement. The endorsement is valid for five (5) years or until such time as the holder no longer meets the eligibility requirements pursuant to Section 33-1212, Idaho Code. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. (4-11-19)

ii. Individuals who received their endorsement pursuant to Section 33-1212, Idaho Code, prior to July 1, 2018, will be transitioned into the School Counselor – Basic (K-12) endorsement. Renewal date will remain the same as the initial credential. (3-28-18)

**c.** School Psychologist Endorsement. This endorsement is valid for five (5) years. In order to renew the endorsement, six (6) professional development credits are required every five (5) years. The renewal credit requirement may be waived if the applicant holds a current valid National Certification for School Psychologists (NCSP) offered through the National Association of School Psychologists (NASP). To be eligible for initial endorsement, a candidate must complete a minimum of sixty (60) graduate semester credit hours which must be accomplished through one (1) of the following options: (3-25-16)

i. Completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hours, master's degree in education or psychology and completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hour, School Psychology Specialist Degree program, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district local education agency under the supervision of the training institution and direct supervision of a certificated school psychologist; (3-25-16)

ii. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, master's degree program in School Psychology, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district local education agency under the supervision of the training institution and direct supervision of a certificated school psychologist; (3-25-16)

iii. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, School Psychology Specialist degree program which did not require a master's degree as a prerequisite, with laboratory experience in a classroom, which may include professional teaching experience, student teaching or special education practicum, and completion of a minimum twelve hundred (1,200) clock-hour internship within a school district local education agency under the supervision of the training institution and direct supervision of a certificated school psychologist; and (3-25-16)

iv. Earn a current and valid National Certification for School Psychologists (NCSP) issued by the National Association of School Psychologists (NASP). (3-25-16)

**d.** Interim Endorsement – School Psychologist. This endorsement will be granted for those who do not meet the educational requirements but hold a master's degree in school psychology and are pursuing an educational specialist degree. This non-renewable endorsement will be issued for three (3) years while the applicant is meeting the educational requirements. ( )

**de.** School Nurse Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required

every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through completion of either requirements in Subsections 015.02.c.i. or 015.02.c.ii. (4-11-19)

i. The candidate must possess a valid professional nursing (RN) license issued by the Idaho State Board of Nursing, and a baccalaureate degree in nursing, education, or a health-related field from an accredited institution. (4-11-19)

ii. The candidate must possess a valid professional nursing (RN) license issued by the Idaho State Board of Nursing; have two (2) years of full-time (or part-time equivalent) school nursing, community health nursing, or any other area of pediatric, adolescent, or family nursing experience; and have completed six (6) semester credit hours from a university or college in any of the following areas: (4-11-19)

- (1) Health program management. (3-25-16)
- (2) Nursing leadership. (4-11-19)
- (3) Pediatric nursing or child development. (4-11-19)
- (4) Population of community health. (4-11-19)
- (5) Health care policy, ethics, or cultural competency. (4-11-19)
- (6) Research and/or statistics. (4-11-19)

**ef.** Interim Endorsement - School Nurse. This endorsement will be granted for those who do not meet the educational and/or experience requirements but who hold a valid professional nursing (RN) license in Idaho. An Interim School Nurse Endorsement will be issued for three (3) years while the applicant is meeting the educational or experience requirements, or both, and it is not renewable. (4-11-19)

**fg.** Speech-Language Pathologist Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. The initial endorsement will be issued to candidates who possess a master's degree from an accredited college or university in a speech/language pathology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-25-16)

**h.** Interim Endorsement - Speech-Language Pathologist. This endorsement will be granted for those who do not meet the educational requirements but hold a baccalaureate degree in speech-language pathology and are pursuing a master's degree. This endorsement will be issued for three (3) years while the applicant is meeting the educational requirements, and is not renewable. ( )

**gi.** Audiology Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. The initial endorsement will be issued to candidates who possess a master's degree from an accredited college or university in an audiology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-25-16)

**hj.** School Social Worker Endorsement. This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years in order to renew the endorsement. Initial endorsement shall be accomplished by meeting the following requirements ~~of Subsections 015.02.g.i. through 02.g.iii., or by meeting the requirement in Subsection 015.02.g.iv.:~~ (3-29-17)

i. A master's degree in social work (MSW) from a postsecondary institution accredited by an organization recognized by the State Board of Education. The program must be currently approved by the state educational agency of the state in which the program was completed; and (3-29-17)

ii. An institution recommendation from an Idaho State Board of Education approved program; and (3-29-17)

iii. The successful completion of a school social work practicum in a ~~kindergarten-preschool~~ through grade twelve 12 (PreK-12) setting. Post-~~LMSW~~ extensive experience working with children and families may be substituted for the completion of a school social work practicum in a ~~PreK-12 setting;~~ and (3-29-17)

iv. A current and valid ~~master's degree or higher~~ social work license pursuant to chapter 32, title 54, Idaho Code, and the rules of the State Board of Social Work Examiners. (3-29-17)

~~i. Interim Endorsement Speech Language Pathologist. This certificate will be granted for those who do not meet the educational requirements but who hold a baccalaureate degree in speech language pathology and are pursuing a master's degree in order to obtain the Pupil Service Staff Certificate endorsed in speech language pathology. An interim certificate will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-28-18)~~

~~j.~~ **k.** Occupational Therapist Endorsement. A candidate with a current and valid Occupational Therapy license issued by the Occupational Therapy Licensure Board of Idaho shall be granted an Occupational Therapist endorsement. The Pupil Service Staff Certificate with an Occupational Therapist endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. Candidate must maintain current and valid Occupational Therapy Licensure for the endorsement to remain valid. (4-11-19)

~~k.~~ **l.** Physical Therapist Endorsement. A candidate with a current and valid Physical Therapy license issued by the Idaho Physical Therapy Licensure Board shall be granted a Physical Therapist endorsement. The Pupil Service Staff Certificate with a Physical Therapist endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. Candidate must maintain current and valid Physical Therapy Licensure for the endorsement to remain valid. (3-28-18)

**03. Administrator Certificate.** Every person who serves as ~~a~~-superintendent, ~~a~~-director of special education, ~~a~~-secondary school principal, or principal of an elementary school with eight (8) or more teachers (including the principal), or is assigned to conduct the summative evaluation of certified staff is required to hold an Administrator Certificate. The certificate may be endorsed for service as ~~a~~-school principal, ~~a~~-superintendent, or ~~a~~-director of special education. Assistant superintendents are required to hold the Superintendent endorsement. Assistant principals or vice-principals are required to hold the School Principal endorsement. Directors of special education are required to hold the Director of Special Education endorsement. Possession of an Administrator Certificate does not entitle the holder to serve as a teacher at a grade level for which the educator is not qualified or certificated. All administrator certificates require candidates to meet the Idaho Standards for School Principals. The Administrator Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the certificate. (~~3-28-18~~)

**a.** School Principal (Pre-K-12) Endorsement. To be eligible for an Administrator Certificate endorsed for School Principal (Pre-K-12), a candidate must have satisfied the following requirements: (3-28-18)

i. Hold a master's degree from an accredited college or university. (3-25-16)

ii. Have four (4) years of full-time certificated experience working with students, Pre-K-12, while under contract in an accredited school setting. (3-25-16)

iii. Have completed an administrative internship in a state-approved program, or have one (1) year of experience as an administrator in grades Pre-K-12. (3-25-16)

iv. Provide verification of completion of a state-approved program of at least thirty (30) semester credit hours, forty-five (45) quarter credit hours, of graduate study in school administration for the preparation of school principals at an accredited college or university. This program shall include the competencies of the Idaho Standards for School Principals. (3-28-18)

v. An institutional recommendation is required for a School Principal (Pre-K-12) Endorsement. (3-28-18)

b. Superintendent (Pre-K-12) Endorsement. To be eligible for an Administrator Certificate with a Superintendent (Pre-K-12) endorsement, a candidate must have satisfied the following requirements: (3-28-18)

i. Hold an education specialist or doctorate degree or complete a comparable post-master's sixth year program at an accredited college or university. (3-25-16)

ii. Have four (4) years of full-time certificated/licensed experience working with Pre-K-12 students while under contract in an accredited school setting. (3-25-16)

iii. Have completed an administrative internship in a state-approved program for the superintendent endorsement or have one (1) year of out-of-state experience as an assistant superintendent or superintendent in grades Pre-K-12. (3-25-16)

iv. Provide verification of completion of an approved program of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, of post-master's degree graduate study for the preparation of school superintendents at an accredited college or university. This program in school administration and interdisciplinary supporting areas shall include the competencies in Superintendent Leadership, in addition to the competencies in the Idaho Standards for School Principals. (3-28-18)

v. An institutional recommendation is required for a School Superintendent Endorsement (Pre-K-12). (3-28-18)

c. Director of Special Education (Pre-K-12) Endorsement. To be eligible for an Administrator Certificate endorsed for Director of Special Education (Pre-K-12), a candidate must have satisfied all of the following requirements: (3-28-18)

i. Hold a master's degree from an accredited college or university; (3-25-16)

ii. Have four (4) years of full-time certificated/licensed experience working with students Pre-K-12, while under contract in a school setting; (3-25-16)

iii. Obtain college or university verification of demonstrated the competencies of the Director of Special Education in Idaho Standards for Initial Certification of Professional School Personnel; (3-28-18)

iv. Obtain college or university verification of demonstrated competencies in the following areas, in addition to the competencies in the Idaho Standards for School Principals: Concepts of Least Restrictive Environment; Post-School Outcomes and Services for Students with Disabilities Ages Three (3) to Twenty-one (21); Collaboration Skills for General Education Intervention; Instructional and Behavioral Strategies; Individual Education Programs (IEPs); Assistive and Adaptive Technology; Community-Based Instruction and Experiences; Data Analysis for Instructional Needs and Professional Training; Strategies to Increase Program Accessibility; Federal and State Laws and Regulations and School District Policies; Resource Advocacy; and Technology Skills for Referral Processes, and Record Keeping; (3-28-18)

v. Have completed an administrative internship in the area of administration of special education; and (4-11-19)

vi. An institutional recommendation is required for Director of Special Education (Pre-K-12) endorsement. (3-28-18)

**04. Certification Standards For Career Technical Educators.** Teachers of career technical courses or programs in secondary schools must hold an occupational specialist certificate and an endorsement in an appropriate occupational discipline. All occupational certificates must be approved by the Division of Career Technical Education regardless of the route an individual is pursuing to receive the certificate. (3-28-18)

**05. Degree Based Career Technical Certification.** (3-25-16)

**a.** Individuals graduating from an approved occupational teacher preparation degree program qualify to teach in the following five (5) disciplines: agricultural science and technology; business technology education; computer science technology; engineering; family and consumer sciences; marketing technology education; and technology education. Occupational teacher preparation course work must meet the Idaho Standards for the Initial Certification of Professional School Personnel. The occupational teacher education program must provide appropriate content to constitute a major in the identified field. Student teaching shall be in an approved program and include experiences in the major field. Applicants shall have accumulated one thousand (1,000) clock hours of related work experience or practicum in their respective field of specialization, as approved by the Division of Career Technical Education. The certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules. (3-28-18)

**b.** The Career Technical Administrator certificate is required for an individual serving as an administrator, director, or manager of career technical education programs at the state Division of Career Technical Education or in Idaho public schools. Individuals must meet one (1) of the two (2) following prerequisites to qualify for the Career Technical Administrator Certificate. The certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules to renew. (3-28-18)

**i.** Qualify for or hold an Advanced Occupational Specialist certificate or hold an occupational endorsement on a standard instructional certificate; provide evidence of a minimum of four (4) years teaching, three (3) of which must be in a career technical discipline; hold a master's degree; and complete at least fifteen (15) semester credits of administrative course work. (3-28-18)

(1) Applicants must have completed credits in: education finance, administration and supervision of personnel, legal aspects of education; and conducting evaluations using the statewide framework for teacher evaluations. (3-28-18)

(2) Additional course work may be selected from any of the following areas: administration and supervision of occupational programs; instructional supervision; administration internship; curriculum development; curriculum evaluation; research in curriculum; school community relations; communication; teaching the adult learner; coordination of work-based learning programs; and/or measurement and evaluation. (3-28-18)

**ii.** Hold a superintendent or principal (~~pre~~Pre-K-12) endorsement on a standard administrator certificate and provide evidence of a minimum of four (4) years teaching, three (3) of which must be in a career technical discipline or successfully complete the Division of Career Technical Education twenty-seven (27) month Idaho career technical education leadership institute. (3-28-18)

**c.** Work-Based Learning Coordinator Endorsement. Educators assigned to coordinate approved work-based experiences must hold the Work-Based Learning Coordinator endorsement. To be eligible, applicants must hold an occupational endorsement on the Standard Instructional Certificate or qualify for an Occupational Specialist Certificate, plus complete course work in coordination of work-based learning programs. (3-29-17)

**d.** Career Counselor Endorsement. The endorsement for a Career Counselor may be issued to applicants who hold a current Pupil Service Staff Certificate with a School Counselor (K-12) endorsement, and who have satisfied the following career technical requirement: Career Pathways and Career Technical Guidance; Principles/Foundations of Career Technical Education; and Theories of Occupational Choice. (3-28-18)

**06. Industry-Based Occupational Specialist Certificate.** The industry-based Occupational Specialist Certificates are industry-based career technical certifications issued in lieu of a degree-based career technical certificate. Certificate holders must meet the following eligibility requirements: (3-28-18)

**a.** Be at least twenty-two (22) years of age; document recent, gainful employment in the area for which certification is requested; possess either a high school diploma or General Educational Development (GED) certificate; meet provisions of Idaho Code; and, verify technical skills through work experience, industry certification or testing

as listed below. When applicable, requirements of occupationally related state agencies must also be met. Since educational levels and work experiences vary, applicants may be determined highly qualified under any one (1) of the following three (3) options: (3-28-18)

i. Have six (6) years or twelve thousand (12,000) hours of recent, gainful employment in the occupation for which certification is requested. Up to forty-eight (48) months credit or up to eight thousand (8,000) hours can be counted toward the six (6) years or twelve thousand (12,000) hours on a month-to-month basis for journeyman training or completed postsecondary training in a career technical education program; or (3-28-18)

ii. Have a baccalaureate degree in the specific occupation or related area, plus two (2) years or four thousand (4,000) hours of recent, gainful employment in the occupation for which certification is required, at least half of which must have been during the immediate previous five (5) years; or (3-28-18)

iii. Have completed a formal apprenticeship program in the occupation or related area for which certification is requested plus two (2) years or four thousand (4,000) hours of recent, gainful, related work experience, at least half of which must have been completed in the immediate previous five (5) years. (3-28-18)

**b. Limited Occupational Specialist Certificate.** This certificate is issued to individuals who are new to teaching in Idaho public schools or new to teaching in career technical education in Idaho public schools. The certificate is an interim certificate and is valid for three (3) years and is non-renewable. Applicants must meet all of the minimum requirements established in Subsection 015.06.a. of these rules. Individuals on a limited occupational specialist certificate must complete one (1) of the two (2) following pathways during the validity period of the certificate: (3-28-18)

i. **Pathway I - Coursework:** Within the three-year period of the Limited Occupational Specialist Certificate, the instructor must satisfactorily complete the pre-service training prescribed by the Division of Career Technical Education and demonstrate competencies in principles/foundations of occupational education and methods of teaching occupational education. Additionally, the instructor must satisfactorily demonstrate competencies in two (2) of the following areas: career pathways and guidance; analysis, integration, and curriculum development; and measurement and evaluation. (3-28-18)

ii. **Pathway II – Cohort Training:** Within the first twelve (12) months, the holder must enroll in the Division of Career Technical Education sponsored two-year cohort training and complete the two (2) training within the three-year validity period of the interim certificate. (3-28-18)

**c. Standard Occupational Specialist Certificate.** (3-28-18)

i. This certificate is issued to individuals who have held a limited occupational specialist certificate and completed one (1) of the pathways for completions. (3-28-18)

ii. The Standard Occupational Specialist Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules to renew. Credit equivalency will be based on verification of forty-five (45) hours of participation at approved technical conferences, institutes, or workshops where participation is prorated at the rate of fifteen (15) hours per credit; or one hundred twenty (120) hours of approved related work experience where hours worked may be prorated at the rate of forty (4) hours per credit; or any equivalent combination thereof, and having on file a new professional development plan for the next certification period. (3-28-18)

**d. Advanced Occupational Specialist Certificate.** This certificate is issued to individuals who: (3-29-17)

i. Are eligible for the Standard Occupational Specialist Certificate; (3-28-18)

ii. Provide evidence of completion of a teacher training degree program or eighteen (18) semester credits of Division of Career Technical Education approved education or content-related course work in addition to the twelve (12) semester credits required for the Standard Occupational Specialist Certificate (a total of thirty (30)

semester credits); and (3-28-18)

iii. Have on file a new professional development plan for the next certification period. (3-28-18)

iv. The Advanced Occupational Specialist Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules to renew. (3-28-18)

**07. Postsecondary Specialist.** A Postsecondary Specialist certificate will be granted to a current academic faculty member whose primary employment is with any accredited Idaho postsecondary institution. To be eligible to teach in the public schools under this postsecondary specialist certificate, the candidate must supply a recommendation from the employing institution (faculty's college dean). The primary use of this state-issued certificate ~~will be~~ is for distance education, virtual classroom programs, and ~~for~~ public and postsecondary partnerships. (3-29-17 \_\_\_\_\_)

a. Renewal. This certificate is good for five (5) years and is renewable. To renew the certificate, the renewal application must be accompanied with a new written recommendation from the postsecondary institution (faculty's college dean level or higher). (3-25-16)

b. Fees. The fee is the same as ~~currently in effect for~~ an initial or renewal certificate as established in Section 066 of these rules. (3-25-16 \_\_\_\_\_)

c. The candidate must meet the following qualifications: (3-25-16)

i. Hold a master's degree or higher in the content area being taught; (3-25-16)

ii. Be currently employed by the postsecondary institution in the content area to be taught; and (3-25-16)

iii. Complete and pass a criminal history background check as required ~~according to~~ by Section 33-130, Idaho Code. (3-25-16 \_\_\_\_\_)

**08. American Indian Language.** Each Indian tribe shall provide to the State Department of Education the names of those highly and uniquely qualified individuals who have been designated to teach the tribe's native language in accordance with Section 33-1280, Idaho Code. Individuals identified by the tribe(s) may apply for an Idaho American Indian Certificate as American Indian languages teachers. (3-25-16)

a. The Office of Indian Education at the State Department of Education will process an application that has met the requirements of the Tribe(s) for an American Indian languages teacher. (3-25-16)

b. Once an application with Tribal approval has been received, it will be reviewed and, if approved, it will be forwarded to the Office of Certification for a criminal history background check as required in Section 33-130, Idaho Code. The application must include a ten--finger fingerprint card or scan and a fee for undergoing a background investigation check pursuant to Section 33-130, Idaho Code. (3-28-18)

c. The Office of Certification will review the application and verify the applicant is eligible for an Idaho American Indian Certificate. The State Department of Education shall authorize an eligible applicant as an American Indian languages teacher. An Idaho American Indian Certificate is valid for not more than five (5) years. Individuals may apply for a renewal certificate. (3-25-16)

**09. Junior Reserved Officer Training Corps (Junior ROTC) Instructors.** (3-25-16)

a. Each ~~school district~~ local education agency with a Junior ROTC program shall provide the State Department of Education with a list of ~~the names of those~~ individuals who have completed an official armed forces training program to qualify as Junior ROTC instructors in high schools. (3-25-16 \_\_\_\_\_)

b. Each ~~school district~~ local education agency with a Junior ROTC program shall provide the State

Department of Education with a notarized copy of their certificate(s) of completion. (3-25-16)

c. Authorization Letter. Upon receiving the items identified in Subsections 015.09.a. and 09.b., the State Department of Education shall issue a letter authorizing these individuals as Junior ROTC instructors. (3-29-17)

**10. Additional Renewal Requirements.** In addition to specific certificate or endorsement renewal requirements, applicants must meet the following renewal requirements as applicable: (3-25-16)

~~a. Mathematics In Service Program. In order to recertify, the state board approved mathematics instruction course titled "Mathematical Thinking for Instruction," or another State Department of Education approved alternative course, shall be required. The "Mathematical Thinking for Instruction" course consists of three (3) credits. Teachers must take one (1) of the three (3) courses developed that is most closely aligned with their current assignment prior to July 1, 2019. Any teacher successfully completing said course shall be deemed to have met the requirement of Subsection 060.02.c. of this rule as long as said course is part of an official transcript or completed before September 1, 2013, and verified by the State Department of Education. Successful completion of a state board approved mathematics instruction course shall be a one time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following must successfully complete the "Mathematical Thinking for Instruction" course or another State Department of Education approved alternative course in order to recertify: (4-11-19)~~

~~i. Each teacher holding a Blended Early Childhood Education/Early Childhood Special Education (Birth-Grade 3) endorsement who is employed by a school district or charter school as a K-3 multi-subject or special education teacher; (3-28-18)~~

~~ii. Each teacher holding an All Subjects (K-8) endorsement who is employed by a school district or charter school as a K-6 multi-subject teacher; (3-28-18)~~

~~iii. Each teacher holding an All Subjects (K-8) endorsement, Mathematics Basic (5-9 or 6-12) endorsement, Mathematics (5-9 or 6-12) endorsement teaching in a mathematics content classroom (grade six (6) through grade twelve (12)) including Title I who is employed by a school district or charter school; and (3-28-18)~~

~~iv. Each teacher holding an Exceptional Child Generalist endorsement who is employed by a school district or charter school as a special education teacher. (3-28-18)~~

~~b. Waiver of Mathematics In Service Program. When applying for certificate renewal, an automatic waiver of the mathematics in service program requirement shall be granted for any certificated individual living outside of the state of Idaho who is not currently employed as an educator in the state of Idaho. This waiver applies only as long as the individual remains outside the state of Idaho or as long as the individual is not employed as an educator in the state of Idaho. Upon returning to Idaho or employment in an Idaho public school, the educator will need to complete this requirement prior to the next renewal period. (3-25-16)~~

**ea.** Administrator certificate renewal. In order to recertify, holders of an administrator certificate must complete a course consisting of a minimum of three (3) semester credits in the Idaho framework for teachers' evaluation pursuant to Section 33-1204, Idaho Code. Credits must be earned through an approved educator preparation program and include a laboratory component. The laboratory component must include in-person or video observation and scoring of teacher performance using the statewide framework for teacher's evaluation. The approved course must include the following competencies: (3-28-18)

i. Understanding professional practice in Idaho evaluation requirements, including gathering accurate evidence and artifacts, understanding and using the state framework for evaluation rubric with fidelity, proof of calibration and interrater reliability, ability to provide effective feedback for teacher growth, and understanding and advising teachers on individualized learning plan and portfolio development. (3-28-18)

ii. Understanding student achievement and growth in the Idaho evaluation framework, including understanding how measurable student achievement and growth measures impact summative evaluation ratings and

proficiency in assessment literacy.

(3-28-18)

**016. IDAHO INTERIM CERTIFICATE.**

The State Department of Education or the Division of Career Technical Education, as applicable to the certificate, is authorized to issue a three-year interim certificate to those applicants who hold a valid certificate/license from another state or other entity that participates in the National Association of State Directors of Teacher Education and Certification (NASDTEC) Interstate Agreement pursuant to Section 33-4104, Idaho Code, or engaged in an alternate non-traditional route to teacher certification as prescribed herein. (3-29-17 \_\_\_\_\_)

**01. Interim Certificate Not Renewable.** Interim certification is only available on a one-time basis ~~per individual~~ except under extenuating circumstances approved by the State Department of Education. It will be the responsibility of the individual to meet the requirements of the applicable alternate authorization route and to obtain a full Idaho Educator Credential during the term of the interim certificate. (3-29-17 \_\_\_\_\_)

**02. Non-Traditional Route to Teacher Certification.** An individual may acquire interim certification through a state board approved non-traditional route to teacher certification program. ( \_\_\_\_\_ )

a. Individuals who possess a baccalaureate degree or higher from an accredited institution of higher education may utilize this non-traditional route to an interim instructional certificate. To complete this non-traditional route, the individual must: ( \_\_\_\_\_ )

i. Complete a state board approved program. ( \_\_\_\_\_ )

ii. Pass the state board approved pedagogy and content area assessment, and ( \_\_\_\_\_ )

iii. Complete the Idaho Department of Education background investigation check. ( \_\_\_\_\_ )

b. Interim Certificate. Upon completion of this certification process, the individual will be awarded an interim certificate from the State Department of Education. During the term of the interim certificate, the individual must teach and complete a two (2) year state board approved teacher mentoring program and receive two (2) years of successful evaluations per Section 33-1001 (14), Idaho Code. ( \_\_\_\_\_ )

c. Interim Certificate Not Renewable. This interim certification is available on a one (1) time basis. The individual is responsible for obtaining a valid renewable standard instructional certificate during the three (3) year interim certification term. ( \_\_\_\_\_ )

d. Types of Certificates and Endorsements. The non-traditional route may be used for first-time certification, subsequent certificates, and additional endorsements. ( \_\_\_\_\_ )

**02. Idaho Comprehensive Literacy Course.** For all Idaho teachers working on interim certificates, (alternate authorizations, nontraditional routes, reinstatements or coming from out of the state), completion of a state board approved Idaho Comprehensive Literacy course or assessment, or approved secondary equivalent shall be a one-time requirement for full certification. (4-11-19)

a. Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable interim certificate to allow time to meet the Idaho Comprehensive Literacy Course requirement. (3-25-16)

**03. Mathematical Thinking for Instruction.** For all Idaho teachers or administrators working on interim certificates (alternate authorizations, nontraditional routes, reinstatements or coming from out of the state), with an All Subjects (K-8) endorsement, any mathematics endorsement, Exceptional Child Generalist endorsement, Blended Early Childhood/Early Childhood Special Education endorsement, or Administrator certificate must complete a state board approved Mathematical Thinking for Instruction, or another State Department of Education approved alternative course, as a one-time requirement for full certification. (4-11-19)

**04. Technology.** Out-of-state applicants may be reviewed by the hiring ~~district~~ local education agency

for technology deficiencies and may be required to take technology courses to improve their technology skills. (3-28-18)

**05. Reinstatement of Expired Certificate.** An individual holding an expired Idaho certificate may be issued a nonrenewable three-year interim certificate. During the validity period of the interim certificate, the applicant must meet the following requirements to obtain ~~a~~—full certification during the term of the interim certificate: (3-28-18)

- a.** Two (2) years of successful evaluations as per Section 33-1001(14), Idaho Code. (3-28-18)
- b.** Measured annual progress on specific goals identified on Individualized Professional Learning Plan. (3-28-18)
- c.** Six (6) credit renewal requirement. (3-28-18)
- d.** Any applicable requirement for Idaho Comprehensive Literacy Course or Mathematical Thinking for Instruction as indicated in Subsections 016.02 and 016.03. (3-28-18)

**06. Foreign Institutions.** An educator having graduated from a foreign institution may be issued a non-renewable, three-year interim certificate. The applicant must also complete the requirements listed in Section 013 of these rules. (3-28-18)

**07. Codes of Ethics.** All laws and rules governing standard certificated staff with respect to conduct, discipline, and professional standards shall apply to all certified staff serving in an Idaho public school, including those employed under an interim certificate. (3-28-18)

#### **017. CONTENT, PEDAGOGY AND PERFORMANCE ASSESSMENT FOR CERTIFICATION.**

**01. Assessments.** State Board of Education approved content, pedagogy, and performance area assessments shall be used ~~in the state of Idaho~~ to ensure qualified teachers are employed in Idaho's classrooms. The Professional Standards Commission shall recommend assessments and qualifying scores to the State Board of Education for approval. (4-2-08 \_\_\_\_\_)

**02. Out-of-State Waivers.** An out-of-state applicant for Idaho certification holding a current certificate may request a waiver from the above requirement. The applicant shall provide evidence of passing a state board approved content, pedagogy and performance area assessment(s) or hold current National Board for Professional Standards Teaching Certificate. (4-11-19)

**03. Idaho Comprehensive Literacy Assessment.** All applicants for initial Idaho certification (~~Kindergarten through grade twelve (K-12)~~) from an ~~Idaho state board~~ approved educator preparation program must demonstrate competency in comprehensive literacy. Areas to be included ~~as parts of~~ the assessment are: phonological awareness, phonics, fluency, vocabulary, comprehension, writing, and assessments and intervention strategies. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its educator preparation program. The assessment must measure teaching skills and knowledge congruent with current research on best literacy practices for elementary students or secondary students (adolescent literacy) dependent upon level of certification and English Language Learners. In addition, the assessment must measure understanding and the ability to apply strategies and beliefs about language, literacy instruction, and assessments based on current research and best practices congruent with International Reading Association/National Council of Teachers of English standards, National English Language Learner's Association professional teaching standards, National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4-11-19 \_\_\_\_\_)

**018. -- 020.**

**(RESERVED)**

#### **021. ENDORSEMENTS.**

Holders of a ~~Standard~~ an Instructional Certificate, ~~Standard Occupational Specialist Certificate, and Advanced or~~ Occupational Specialist Certificate may be granted endorsements in ~~subject~~ areas as provided herein. Instructional

staff are eligible to teach in the grades and content areas of their endorsements. Idaho preparation programs shall prepare candidates for endorsements in accordance with the Idaho Standards for Initial Certification of Professional School Personnel. An official statement from the college of education of competency in a teaching area or field is acceptable in lieu of required credits if such statements are created in consultation with the department or division of the accredited college or university in which the competency is established and are approved by the director of teacher education of the recommending college or university. Statements must include the number of credits the competency evaluation is equivalent to. To add an endorsement to an existing ~~credential~~ certificate, an individual shall complete the credit hour requirements as provided herein and shall also meet or exceed the state qualifying score on appropriate, state approved content, pedagogy and performance assessments. When converting semester credit hours to quarter credit hours, two (2) semester credit hours is equal to three (3) quarter credit hours. (3-28-18 \_\_\_\_\_)

**01. Clinical Experience Requirement.** All endorsements require supervised clinical experience in the relevant content area, or a State Department of Education or Division of Career Technical Education approved alternative clinical experience as applicable to the area of endorsement. (4-11-19)

**02. Alternative Authorization – Teacher to New Endorsement.** ~~Candidates shall meet all requirements of the chosen option for the endorsement as provided herein.~~ This alternative authorization allows a local education agency to request additional endorsement for a candidate when a professional position cannot be filled with someone who has the correct endorsement. This authorization is valid for one (1) year and may be renewed for two (2) additional years with evidence of satisfactory progress. The candidate shall provide evidence of pursuing one of the following options: (3-28-18 \_\_\_\_\_)

a. Option I -- An official statement ~~from the college of education~~ of competency in a teaching area or field from the college of education of an accredited college or university is acceptable in lieu of courses ~~for a teaching field if such the statements are is~~ created in consultation with the department or division ~~of the accredited college or university~~ in which the competency is established and ~~are is~~ approved by the director of teacher education of the recommending college or university. (3-28-18 \_\_\_\_\_)

b. Option II -- National Board. By earning National Board Certification in content specific areas, teachers may gain endorsement in a corresponding subject area. (3-29-17)

c. Option III -- Master's degree or higher. By earning a graduate degree in a content specific area, candidates may add an endorsement in that same content area to a valid instructional certificate. (3-28-18)

d. Option IV -- ~~Testing and/or~~ Content area Assessment assessment and mentoring. ~~Two (2) pathways are available to some teachers, depending upon endorsement(s) already held.~~ (3-29-17)

~~i. Pathway 1 – An Endorsements endorsement may be added through by successfully completing a state- board approved testing and a mentoring component content area assessment. The appropriate test must be successfully completed within the first year of authorization in an area closely compatible with an endorsement for which the candidate already qualifies and is experienced. Additionally, requires the successful completion of and a one (1) year state- board approved mentoring component; or program.~~ (3-28-18 \_\_\_\_\_)

~~ii. Pathway 2 – Endorsements may be added through state approved testing in an area less closely compatible with an endorsement for which the candidate already qualifies and is experienced. The appropriate test must be successfully completed within the first year of the authorization. Additionally, requires the successful completion of a one (1) year state approved mentoring component and passing a final pedagogy assessment.~~ (3-25-16)

**022. INSTRUCTIONAL CERTIFICATE ENDORSEMENTS A - D.** \_\_\_\_\_ (\_\_\_\_\_)

**01. Agriculture Science and Technology (6-12).** \_\_\_\_\_ (3-16-04)

~~a. Forty five (45) semester credit hours including course work in each of the following areas: agriculture education; agriculture mechanics; agriculture business management; soil science; animal science; career technical student organization leadership; plant science; and occupational teacher preparation pursuant to Subsection~~

~~015.05.a.; or (3-28-18)~~

~~b. Occupational teacher preparation pursuant to Subsections 015.04 through 015.06. (3-29-17)~~

**0201. All Subjects (K-8).** Allows one to teach in any educational setting (K-8). Twenty (20) semester credit hours, or thirty (30) quarter credit hours in the philosophical, psychological, methodological foundations, instructional technology, and professional subject matter must be in elementary education including at least six (6) semester credit hours, or nine (9) quarter credit hours, in developmental reading. This endorsement must be accompanied by at a minimum one (1) additional subject area endorsement allowing teaching of that subject through grade 9 or kindergarten through grade 12. (3-29-17)

**0302. American Government /Political Science (5-9 or 6-12).** Twenty (20) semester credit hours to include: a minimum of six (6) semester credit hours in American government, six (6) semester credit hours in U.S. history survey, and a minimum of three (3) semester credit hours in comparative government. Remaining course work must be selected from political science. Course work may include three (3) semester credit hours in world history survey. (3-28-18)

**0403. Bilingual Education (K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Bilingual Education Teachers to include all of the following: upper division coursework in one (1) modern language other than English, including writing and literature, and advanced proficiency according to the American Council on the Teaching of Foreign Languages guidelines; cultural diversity; ESL/bilingual methods; linguistics, second language acquisition theory and practice; foundations of ESL/bilingual education, legal foundations of ESL/bilingual education, identification and assessment of English learners, biliteracy; at least one (1) semester credit hour in bilingual clinical field experience. (4-11-19)

**0504. Biological Science (5-9 or 6-12).** Twenty (20) semester credit hours including coursework in each of the following areas: molecular and organismal biology, heredity, ecology and biological adaptation. (3-29-17)

**0605. Blended Early Childhood Education/Early Childhood Special Education (Birth - Grade 3).** The Blended Early Childhood Education/Early Childhood Special Education (Birth - Grade 3) endorsement allows one to teach in any educational setting birth through grade three (3). To be eligible, a candidate must have satisfied the following requirements: ~~(3-28-18)~~

~~a. A minimum of thirty (30) semester credit hours, or forty five (45) quarter credit hours, in the philosophical, psychological, and methodological foundations, in instructional technology, and in the professional subject matter of early childhood and early childhood-special education. The professional subject matter shall include course work specific to the child from birth through grade three (3) in the areas of child development and learning; curriculum development and implementation; family and community relationships; assessment and evaluation; professionalism; and, application of technologies. clinical experience including a combination of general and special education in the following settings: birth – age 3, ages 3 – 5, and grades K – 3 general education. (3-29-17)~~

~~b. The required credit hours here in, shall include not less than six (6) semester credit hours, or nine (9) quarter credit hours, of early childhood student teaching (K-3) and field experiences birth to age three (3) programs, and age three (3) to age five (5) programs, and three (3) semester credit hours, or four (4) quarter credit hours, of developmental reading. (3-29-17)~~

~~c. Proficiency in areas noted above is measured by one (1) of the following options: (3-29-17)~~

~~i. Option I – Demonstration of competency within the Idaho Standards for Blended Early Childhood Education/Early Childhood Special Education Teachers. Additionally, each candidate shall meet or exceed the state qualifying score on approved early childhood assessments. (3-29-17)~~

~~ii. Option II – Completion of a CAEP accredited program in blended early childhood education/early childhood special education birth through grade three (3). Additionally, each candidate shall meet or exceed the state qualifying score on approved early childhood assessments. (3-29-17)~~

~~0706.~~ **Blended Elementary Education/Elementary Special Education (Grade 4 - Grade 6).** The Blended Elementary Education/Elementary Special Education (Grade 4 - Grade 6) endorsement allows one to teach in any grade four (4) through grade six (6) education setting, except in a middle school setting. This endorsement may only be issued in conjunction with the Blended Early Childhood Education/Early Childhood Special Education (Birth - Grade 3) endorsement. To be eligible for a Blended Elementary Education/Elementary Special Education (Grade 4 - Grade 6) endorsement, a candidate must have satisfied the following requirements: ~~(3-28-18)~~

~~a.~~ Completion of a program of a minimum of twenty (20) semester credit hours in elementary education and special education coursework to include: methodology ~~(literacy, mathematics, science, physical education, art);~~ and content knowledge (mathematics, literacy, science, health, physical education, art); ~~technology; assessment; and, field clinical~~ experiences in grades four (4) through six (6). ~~(3-28-18)~~

~~08.~~ **Business Technology Education (6-12).** ~~(3-16-04)~~

~~a.~~ Twenty (20) semester credit hours to include course work in each of the following areas: accounting; computer and technical applications in business; economics; methods of teaching business education; career guidance; career technical student organization leadership; business communication/writing; and office procedures. Additional competencies may be satisfied through the following: entrepreneurship; finance; marketing; business law; or business management; and occupational teacher preparation pursuant to Subsection 015.05.a.; or ~~(3-28-18)~~

~~b.~~ Occupational teacher preparation pursuant to Subsections 015.04 through 015.06. ~~(3-29-17)~~

~~0907.~~ **Chemistry (5-9 or 6-12).** Twenty (20) semester credit hours in the area of chemistry, to include coursework in each of the following areas: inorganic and organic chemistry. ~~(3-29-17)~~

~~1008.~~ **Communication (5-9 or 6-12).** Follow one (1) of the following options: ~~(3-29-17)~~

~~a.~~ Option I -- Twenty (20) semester credit hours to include methods of teaching speech/communications plus course work in at least four (4) of the following areas: interpersonal communication/human relations; argumentation/personal persuasion; group communications; nonverbal communication; public speaking; journalism/mass communications; and drama/theater arts. ~~(3-29-17)~~

~~b.~~ Option II -- Possess an English endorsement plus at least twelve (12) semester credit hours distributed among the following: interpersonal communication/human relations, public speaking, journalism/mass communications, and methods of teaching speech/communication. ~~(3-29-17)~~

~~1109.~~ **Computer Science (5-9 or 6-12).** ~~(3-29-17)~~

~~a.~~ Twenty (20) semester credit hours of course work in computer science, including course work in the following areas: data representation and abstraction; design, development, and testing algorithms; software development process; digital devices systems network; and the role of computer science and its impact on the modern world; or ~~(3-29-17)~~

~~b.~~ Occupational teacher preparation pursuant to Subsections 015.04 through 015.06. ~~(3-29-17)~~

~~1210.~~ **Deaf/Hard of Hearing (PreK-12).** Completion of a minimum of thirty-three (33) semester credit hours in the area of deaf/hard of hearing with an emphasis on instruction for students who use sign language or completion of a minimum thirty-three (33) semester credit hours in the area of deaf/hard of hearing with an emphasis on instruction for students who use listening and spoken language. ~~An institutional recommendation specific to this endorsement is required. To be eligible for a Deaf/Hard of Hearing endorsement, a candidate must have satisfied the following requirements:~~ Coursework to include: American Sign Language, listening and spoken language development, hearing assessment, hearing assistive technology, students with disabilities, pedagogy for teaching students who are deaf or hard of hearing, assessments, and clinical practice. ~~(3-29-17)~~

~~a.~~ Completion of a baccalaureate degree from an accredited college or university; ~~(3-29-17)~~

~~\_\_\_\_\_ b. \_\_\_\_\_ Completion of a program from an Idaho college or university in elementary, secondary, or special education currently approved by the Idaho State Board of Education; or \_\_\_\_\_ (3-29-17)~~

~~\_\_\_\_\_ c. \_\_\_\_\_ Completion of a program from an out of state college or university in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed; and \_\_\_\_\_ (3-29-17)~~

~~\_\_\_\_\_ d. \_\_\_\_\_ Completion of a program of a minimum of thirty three (33) semester credit hours in the area of Deaf/Hard of Hearing and must receive an institutional recommendation specific to this endorsement from an accredited college or university. \_\_\_\_\_ (3-29-17)~~

**023. INSTRUCTIONAL CERTIFICATE ENDORSEMENTS E - L. \_\_\_\_\_ (\_\_\_\_\_)**

**01. Early Childhood Special Education (Pre-K-3).** The Early Childhood Special Education (Pre-K-3) endorsement is non-categorical and allows one to teach in any Pre-K-3 special education setting. This endorsement may only be added to the Exceptional Child Generalist (K-8 or K-12) endorsement. To be eligible a candidate must have satisfied the following requirements: (3-28-18)

**a.** Completion of a program of a minimum of twenty (20) semester credit hours in the area of early childhood education to include course work in each of the following areas: child development and behavior with emphasis in cognitive-language, physical, social and emotional areas, birth through age eight (8); curriculum and program development for young children ages three to eight (3-8); transitional services; methodology: planning, implementing and evaluating environments and materials for young children ages three to eight (3-8); guiding young children's behavior: observing, assessing and individualizing ages three to eight (3-8); identifying and working with atypical young children ages three to eight (3-8) parent-teacher relations; and student teaching/clinical practice at the Pre-K--3 grades. (3-29-17 \_\_\_\_\_)

**02. Earth and Space Science (5-9 or 6-12).** Twenty (20) semester credit hours including course work in each of the following areas: earth science, astronomy, and geology. (3-29-17)

**03. Economics (5-9 or 6-12).** Twenty (20) semester credit hours to include a minimum of three (3) semester credit hours of micro-economics, a minimum of three (3) semester credit hours of macro-economics, and a minimum of six (6) semester credit hours of personal finance/consumer economics/economics methods. Remaining course work may be selected from business, economics, or finance course. (3-28-18)

**04. Engineering (5-9 or 6-12).** \_\_\_\_\_ (3-29-17)

~~\_\_\_\_\_ a. \_\_\_\_\_ Twenty (20) semester credit hours of engineering course work; ~~or~~ \_\_\_\_\_ (3-29-17 \_\_\_\_\_)~~

~~\_\_\_\_\_ b. \_\_\_\_\_ Occupational teacher preparation pursuant to Subsections 015.04 through 015.06. \_\_\_\_\_ (3-29-17)~~

**05. English (5-9 or 6-12).** Twenty (20) semester credit hours, including coursework in all of the following areas: grammar, American literature, British literature, multicultural/world literature, young adult literature, and literary theory. Additionally, a course in advanced composition, excluding the introductory sequence designed to meet general education requirements, and a course in secondary English language arts methods are required. (4-11-19)

**06. English as a Second Language (ESL) (K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for ESL Teachers to include all of the following: a modern language other than English; cultural diversity; ESL methods; linguistics; second language acquisition theory and practice; foundations of ESL/bilingual education, legal foundations of ESL/bilingual education, identification and assessment of English learners; and at least one (1) semester credit in ESL clinical field experience. (4-11-19)

**07. Exceptional Child Generalist (K-8, 6-12, or K-12).** The Exceptional Child Generalist endorsement is non-categorical and allows one to teach in any special education setting, applicable to the grade range of the endorsement. Regardless of prior special education experience, all initial applicants must provide an institutional recommendation that an approved special education program has been completed, with field work/clinical experience to include student teaching in an elementary or secondary special education setting. To be eligible, a candidate must have satisfied the following requirements: complete thirty (30) semester credit hours in special education, or closely related areas, as part of an approved special education program. (3-29-17)

~~a. Completion of thirty (30) semester credit hours in special education, or closely related areas, as part of an approved special education program; and (3-29-17)~~

~~b. Each candidate must have a qualifying score on an approved core content assessment and a second assessment related to the specific endorsement requested. (3-29-17)~~

~~08. Family and Consumer Sciences (6-12). (3-28-18)~~

~~a. Thirty (30) semester credit hours to include coursework in each of the following areas: child/human development; human/family relations; directed laboratory experience in childcare; apparel and textiles, cultural dress, fashion design and merchandising; nutrition; food preparation, food production, or culinary arts; housing, interior design, or home management; consumer economics or family resource management; introduction to family consumer sciences; career technical student organization leadership; career guidance; and family consumer science methods; and occupational teacher preparation pursuant to Subsection 015.05.a.; or (3-28-18)~~

~~b. Occupational teacher preparation pursuant to Section 015.04 through 015.06. (3-29-17)~~

**0908. Geography (5-9 or 6-12).** Twenty (20) semester credit hours including course work in cultural geography and physical geography, and a maximum of six (6) semester credit hours in world history survey. The remaining semester credit hours must be selected from geography. (3-29-17)

**1009. Geology (5-9 or 6-12).** Twenty (20) semester credit hours in the area of geology. (3-29-17)

**1110. Gifted and Talented (K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Teachers of Gifted and Talented Students, to include coursework in the following areas of gifted and talented education: foundations, creative and critical thinking, social and emotional needs, curriculum, instruction, assessment and identification, differentiated instruction, program design, and clinical practice. (4-11-19)

**1211. Health (5-9, 6-12, or K-12).** Twenty (20) semester credit hours to include course work in each of the following areas: organization/administration/planning of a school health program; health, wellness, and behavior change; secondary methods of teaching health, to include field experience in a traditional classroom; mental/emotional health; nutrition; human sexuality; substance use and abuse. Remaining semester credits must be in health-related course work. To obtain a Health K-12 endorsement, applicants must complete an elementary health methods course. (3-29-17)

**1312. History (5-9 or 6-12).** Twenty (20) semester credit hours to include a minimum of six (6) semester credit hours of U.S. history survey and a minimum of six (6) semester credit hours of world history survey. Remaining course work must be in history. Course work may include three (3) semester credit hours in American government. (3-29-17)

**1413. Humanities (5-9 or 6-12).** An endorsement in English, history, music, visual art, drama, or foreign language and twenty (20) semester credit hours in one of the following areas or ten (10) semester credit hours in each of two (2) of the following areas: literature, music, foreign language, humanities survey, history, visual art, philosophy, drama, comparative world religion, architecture, and dance. (3-29-17)

**1514. Journalism (5-9 or 6-12).** Follow one (1) of the following options: (3-29-17)

- a. Option I -- Twenty (20) semester credit hours to include a minimum of fourteen (14) semester credit hours in journalism and six (6) semester credit hours in English and/or mass communication. (3-29-17)
- b. Option II -- Possess an English endorsement with a minimum of six (6) semester credit hours in journalism. (3-16-04)

**1615. Literacy (K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Literacy Teachers to include the following areas: foundations of literacy (including reading, writing, listening, speaking, viewing, and language); development and diversity of literacy learners; literacy in the content area; literature for youth; language development; corrective/diagnostic/remedial reading; writing methods; and reading methods. To obtain a Literacy endorsement, applicants must complete the Idaho Comprehensive Literacy Course or the Idaho Comprehensive Literacy Assessment. (4-11-19)

**024. INSTRUCTIONAL CERTIFICATE ENDORSEMENTS M - Z.**

**01. Marketing Technology Education (6-12).** (3-16-04)

~~a. Twenty (20) semester credit hours to include course work in each of the following areas: marketing; management; economics; coordination of cooperative programs; merchandising/retailing; methods of teaching marketing education; and career technical student organization leadership, with remaining credit hours in entrepreneurship; hospitality and tourism; finance; career guidance; or accounting and occupational teacher preparation pursuant to Subsection 015.05.a.; or~~ (3-28-18)

~~b. Occupational teacher preparation pursuant to Subsections 015.04 through 015.06.~~ (3-29-17)

**0201. Mathematics (5-9 or 6-12).** Twenty (20) semester credit hours including course work in each of the following areas: Euclidean and transformational geometry, linear algebra, discrete mathematics, statistical modeling and probabilistic reasoning, and the first two (2) courses in a standard calculus sequence. A minimum of two (2) of these twenty (20) credits must be focused on secondary mathematics pedagogy. Statistics course work may be taken from a department other than the mathematics department. (3-29-17)

**0302. Mathematics - Basic-Middle Level (5-9 or 6-12).** Twenty (20) semester credit hours in Mathematics content course work in algebraic thinking, functional reasoning, Euclidean and transformation geometry and statistical modeling and probabilistic reasoning. A minimum of two (2) of these twenty (20) credits must be focused on secondary mathematics pedagogy. Six (6) semester credit hours of computer programming may be substituted for six (6) semester credits in mathematics content. (3-29-17)

**0403. Music (5-9 or 6-12 or K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Music Teachers to include course work in the following: theory and harmony; aural skills, music history; conducting; applied music; and piano proficiency (class piano or applied piano), and secondary music methods/materials. To obtain a Music K-12 endorsement, applicants must complete an elementary music methods course. (3-29-17)

**0504. Natural Science (5-9 or 6-12).** Follow one (1) of the following options: (3-29-17)

a. Option I -- Must hold an existing endorsement in one of the following areas: biological science, chemistry, Earth science, geology, or physics; and complete a total of twenty-four (24) semester credit hours as follows: (4-7-11)

i. Existing Biological Science Endorsement. Eight (8) semester credit hours in each of the following areas: physics, chemistry, and Earth science or geology. (3-29-17)

ii. Existing Physics Endorsement. Eight (8) semester credit hours in each of the following areas: biology, chemistry, and Earth science or geology. (3-29-17)

iii. Existing Chemistry Endorsement. Eight (8) semester credit hours in each of the following areas: biology, physics, and Earth science or geology. (3-29-17)

iv. Existing Earth science or Geology Endorsement. Eight (8) semester credit hours in each of the following areas: biology, physics, and chemistry. (3-29-17)

b. Option II -- Must hold an existing endorsement in Agriculture Science and Technology; and complete twenty-four (24) semester credit hours with at least six (6) semester credit hours in each of the following areas: biology, chemistry, Earth science or geology, and physics. (3-29-17)

**0605. Online-Teacher (K-12).** To be eligible for an Online-Teacher (K-12) endorsement, a candidate must have satisfied the following requirements: (3-28-18)

a. Meets the state's professional teaching and/or licensure standards and is qualified to teach in his/her field of study. (3-25-16)

b. Provides evidence of online course time as a student and demonstrates online learning experience. (4-11-19)

c. Has completed an eight (8) week online clinical practice in a K-12 program, or has one (1) year of verifiable and successful experience as a teacher delivering curriculum online in grades K-12 within the past three (3) years. (4-11-19)

d. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study in online teaching and learning at an accredited college or university or a state-approved equivalent. (3-25-16)

e. Demonstrates proficiency in the Idaho Standards for Online Teachers. (4-11-19)

**0706. Physical Education (PE) (5-9 or 6-12 or K-12).** Twenty (20) semester credit hours to include course work in each of the following areas: personal and teaching competence in sport, movement, physical activity, and outdoor skills; secondary PE methods; administration and curriculum to include field experiences in physical education; student evaluation in PE; safety and prevention of injuries; fitness and wellness; PE for special populations; exercise physiology; kinesiology/biomechanics; motor behavior; and current CPR and first aid certification. To obtain a PE K-12 endorsement, applicants must complete an elementary PE methods course. (3-29-17)

**0807. Physical Science (5-9 or 6-12).** Twenty (20) semester credit hours in the area of physical science to include a minimum of eight (8) semester credit hours in each of the following: chemistry and physics. (3-29-17)

**0908. Physics (5-9 or 6-12).** Twenty (20) semester credit hours in the area of physics. (3-28-18)

**1009. Psychology (5-9 or 6-12).** Twenty (20) semester credit hours in the area of psychology. (3-29-17)

**1110. Science – Middle Level (5-9).** Twenty-four (24) semester credit hours in science content coursework including at least eight (8) credits in each of the following: biology, earth science, and physical science to include lab components. Science foundation standards must be met. (4-11-19)

**1211. Social Studies (6-12).** Must have an endorsement in history, American government/political science, economics, or geography plus a minimum of twelve (12) semester credit hours in each of the remaining core endorsements areas: history, geography, economics, and American government/political science. (4-11-19)

**1312. Social Studies – Middle Level (5-9).** Twenty (20) Semester credit hours in social studies content coursework including at least five (5) credits in each of the following: history, geography, and American government/political science or economics. Social studies foundations must be met. (4-11-19)

**1413. Sociology (5-9 or 6-12).** Twenty (20) semester credit hours in the area of sociology. (3-29-17)

**1514. Sociology/Anthropology (5-9 or 6-12).** Twenty (20) semester credit hours including a minimum of six (6) semester credit hours in each of the following: anthropology and sociology. (3-29-17)

**1615. Teacher Leader.** Teacher leaders provide technical assistance to teachers and other staff in the ~~school district~~ local education agency with regard to the selection and implementation of appropriate teaching materials, instructional strategies, and procedures to improve the educational outcomes for students. Candidates who hold this endorsement facilitate the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs. (4-11-19)

**a. Teacher Leader – Instructional Specialist – Eligibility of Endorsement.** To be eligible for a Teacher Leader – Instructional Specialist endorsement on the Standard Instructional Certificate, a candidate must have satisfied the following requirements: (4-11-19)

i. Education requirement: Hold a Standard Instructional Certificate. Content within coursework to include clinical supervision, instructional leadership, and advanced pedagogical knowledge, and have demonstrated competencies in the following areas: providing feedback on instructional episodes; engaging in reflective dialogue centered on classroom instruction, management, and/or experience; focused goal-setting and facilitation of individual and collective professional growth; understanding the observation cycle; and knowledge and expertise in data management platforms. (4-11-19)

ii. Experience: Completion of a minimum of three (3) years' full-time certificated teaching experience while under contract in an accredited school setting. (4-11-19)

iii. Provides verification of completion of a state-approved program of at least twenty (20) post baccalaureate semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include ninety (90) supervised contact hours to include a combination of face-to-face and field-based professional development activities and evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards. (4-11-19)

**b. Teacher Leader – Literacy – Eligibility for Endorsement.** To be eligible for a Teacher Leader – Literacy endorsement on the Standard Instructional Certificate, a candidate must have satisfied the following requirements: (4-11-19)

i. Education Requirements: Hold a Standard Instructional Certificate and have demonstrated content competencies in the Idaho Literacy Standards. Coursework and content domains required include foundational literacy concepts; fluency, vocabulary development, and comprehension; literacy assessment concepts; and writing process, which are all centered on the following emphases: specialized knowledge of content and instructional methods; data driven decision making to inform instruction; research-based differentiation strategies; and culturally responsive pedagogy for diverse learners. (4-11-19)

ii. Experience: Completion of a minimum of three (3) years' full-time certificated experience while under contract in an accredited school setting. (4-11-19)

iii. Provides verification of completion of a state-approved program of at least twenty (20) post baccalaureate semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include ninety (90) supervised contact hours to include a combination of face-to-face and field-based professional development activities and evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards. The candidate must meet or exceed the state qualifying score on appropriate state approved literacy content assessment. (4-11-19)

**c. Teacher Leader – Mathematics – Eligibility for Endorsement.** To be eligible for a Teacher Leader – Mathematics endorsement on the Standard Instructional Certificate, a candidate must have satisfied the following requirements: (4-11-19)

i. Education Requirements: Hold a Standard Instructional Certificate and have demonstrated content competencies. Coursework and content domains required include number and operation, geometry, algebraic reasoning, measurement and data analysis, and statistics and probability, which are centered on the following emphases: structural components of mathematics; modeling, justification, proof, and generalization; and specialized mathematical knowledge for teaching. (4-11-19)

ii. Experience: Completion of a minimum of three (3) years' full-time certificated teaching experience while under contract in an accredited school setting. (4-11-19)

iii. Provides verification of completion of a state-approved program of at least twenty (20) post baccalaureate semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include ninety (90) supervised contact hours to include a combination of face-to-face and field-based professional development activities and evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards. The candidate must meet or exceed the state qualifying score on appropriate state approved math content assessment. (4-11-19)

d. Teacher Leader – Special Education – Eligibility for Endorsement. To be eligible for a Teacher Leader – Special Education endorsement on the Standard Instructional Certificate, a candidate must have satisfied the following requirements: (4-11-19)

i. Education Requirements: Hold a Standard Instructional Certificate endorsed Generalist K-12, K-8, or 5-9 and have demonstrated content competencies in the following areas: assessment of learning behaviors; individualization of instructional programs based on educational diagnosis; behavioral and/or classroom management techniques; program implementation and supervision; use of current methods, materials, and resources available and management and operation of special education management platforms; identification and utilization of community or agency resources and support services; counseling, guidance, and management of professional staff; and special education law, including case law. Pupil Service Staff Certificate holders who hold a professional license through the appropriate Idaho ~~Bureau of Occupational Licenses~~state licensing board may use continuing education units applied toward the renewal of their professional license toward the renewal of the Pupil Service Staff Certificate. Fifteen (15) contact hours are equivalent to one (1) semester credit. (4-11-19 \_\_\_\_\_)

**BREAK IN CONTINUITY OF SECTIONS**

**076. CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).**

Believing in the worth and dignity of each human being, the professional educator recognizes the supreme importance of pursuing truth, striving toward excellence, nurturing democratic citizenship and safeguarding the freedom to learn and to teach while guaranteeing equal educational opportunity for all. The professional educator accepts the responsibility to practice the profession according to the highest ethical principles. The Code of Ethics for Idaho Professional Educators symbolizes the commitment of all Idaho educators and provides principles by which to judge conduct. (3-20-04)

**01. Aspirations and Commitments.** (3-20-04)

**a.** The professional educator aspires to stimulate the spirit of inquiry in students and to provide opportunities in the school setting that will help them acquire viable knowledge, skills, and understanding that will meet their needs now and in the future. (3-20-04)

**b.** The professional educator provides an environment that is safe to the cognitive, physical and psychological well-being of students and provides opportunities for each student to move toward the realization of his goals and potential as an effective citizen. (3-20-14)

**c.** The professional educator, recognizing that students need role models, will act, speak and teach in such a manner as to exemplify nondiscriminatory behavior and encourage respect for other cultures and beliefs. (3-20-14)

**d.** The professional educator is committed to the public good and will help preserve and promote the principles of democracy. He will provide input to the local school board to assist in the board's mission of developing and implementing sound educational policy, while promoting a climate in which the exercise of professional judgment is encouraged. (4-11-06)

**e.** The professional educator believes the quality of services rendered by the education profession directly influences the nation and its citizens. He strives, therefore, to establish and maintain the highest set of professional principles of behavior, to improve educational practice, and to achieve conditions that attract highly qualified persons to the profession. (4-11-06)

**f.** The professional educator regards the employment agreement as a pledge to be executed in a manner consistent with the highest ideals of professional service. He believes that sound professional personal relationships with colleagues, governing boards, and community members are built upon integrity, dignity, and mutual respect. The professional educator encourages the practice of the profession only by qualified persons. (4-11-06)

**02. Principle I - Professional Conduct.** A professional educator abides by all federal, state, and local education laws and statutes. Unethical conduct shall include the conviction of any felony or misdemeanor offense set forth in Section 33-1208, Idaho Code. (3-20-14)

**03. Principle II - Educator/Student Relationship.** A professional educator maintains a professional relationship with all students, both inside and outside the physical and virtual classroom. Unethical conduct includes, but is not limited to: (3-20-14)

**a.** Committing any act of child abuse, including physical or emotional abuse; (3-20-04)

**b.** Committing any act of cruelty to children or any act of child endangerment; (3-20-04)

**c.** Committing or soliciting any sexual act from any minor or any student regardless of age; (3-20-04)

- d.** Committing any act of harassment as defined by ~~district~~local education agency policy; (4-11-06)
- e.** Soliciting, encouraging, or consummating a romantic ~~or inappropriate~~-relationship (whether written, verbal, virtual, or physical) with a student, regardless of age; (3-20-14 \_\_\_\_\_)
- f.** Soliciting or encouraging any form of personal relationship with a student that a reasonable educator would view as undermining the professional boundaries necessary to sustain an effective educator-student relationship; ( \_\_\_\_\_ )
- g.** Using inappropriate language including, but not limited to, swearing and improper sexual comments (e.g., sexual innuendoes or sexual idiomatic phrases); (3-20-04)
- h.** Taking or possessing images (digital, photographic, or video) of students of a harassing, confidential, or sexual nature; (4-11-15)
- i.** Inappropriate contact with any minor or any student regardless of age using electronic or social media; (4-11-06 \_\_\_\_\_)
- j.** Furnishing alcohol or illegal or unauthorized drugs to any student or allowing or encouraging a student to consume alcohol or unauthorized drugs except in a medical emergency; (3-20-14)
- k.** Conduct that is detrimental to the health or welfare of students; and (3-20-14)
- l.** Deliberately falsifying information presented to students. (3-20-14)
- 04. Principle III - Alcohol and Drugs Use or Possession.** A professional educator refrains from the abuse of alcohol or drugs during the course of professional practice. Unethical conduct includes, but is not limited to: (3-20-14)
- a.** Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming illegal or unauthorized drugs; (3-20-04)
- b.** Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming alcohol; (3-20-04)
- c.** Inappropriate or illegal use of prescription medications on school premises or at any school-sponsored events, home or away; (4-11-06)
- d.** Inappropriate or illegal use of drugs or alcohol that impairs the individual's ability to function; and (4-11-06)
- e.** Possession of an illegal drug as defined in Chapter 27, Idaho Code, Uniform Controlled Substances. (3-20-04)
- 05. Principle IV - Professional Integrity.** A professional educator exemplifies honesty and integrity in the course of professional practice. Unethical conduct includes, but is not limited to: (3-20-14)
- a.** Fraudulently altering or preparing materials for licensure or employment; (3-20-04)
- b.** Falsifying or deliberately misrepresenting professional qualifications, degrees, academic awards, and related employment history when applying for employment or licensure; (3-20-04)
- c.** Failure to notify the state at the time of application for licensure of past revocations or suspensions of a certificate or license from another state; (3-20-04)

- d. Failure to notify the state at the time of application for licensure of past criminal convictions of any crime violating the statutes or rules governing teacher certification; (3-20-14)
- e. Falsifying, deliberately misrepresenting, or deliberately omitting information regarding the evaluation of students or personnel, including improper administration of any standardized tests (changing test answers; copying or teaching identified test items; unauthorized reading of the test to students, etc.); (4-11-06)
- f. Falsifying, deliberately misrepresenting, or deliberately omitting reasons for absences or leaves; (3-20-04)
- g. Falsifying, deliberately misrepresenting, or deliberately omitting information submitted in the course of an official inquiry or investigation; (3-20-14)
- h. Falsifying, deliberately misrepresenting, or deliberately omitting material information on an official evaluation of colleagues; and (3-20-14)
- i. Failure to notify the state of any criminal conviction of a crime violating the statutes and/or rules governing teacher certification. (3-20-14)

**06. Principle V - Funds and Property.** A professional educator entrusted with public funds and property honors that trust with a high level of honesty, accuracy, and responsibility. Unethical conduct includes, but is not limited to: (3-20-14)

- a. Misuse, or unauthorized use, of public or school-related funds or property; (3-20-04)
- b. Failure to account for school funds collected from students, parents, ~~or~~ patrons, or other donors from all sources, including online donation platforms; (3-20-14 \_\_\_\_\_)
- c. Submission of fraudulent requests for reimbursement of expenses or for pay; (3-20-04)
- d. Co-mingling of public or school-related funds in personal bank account(s); (3-20-04)
- e. Use of school property for private financial gain; (3-20-14)
- f. Use of school computers to deliberately view or print pornography; and, (3-20-04)
- g. Deliberate use of poor budgeting or accounting practices. (3-20-04)

**07. Principle VI - Compensation.** A professional educator maintains integrity with students, colleagues, parents, patrons, or business personnel when accepting gifts, gratuities, favors, and additional compensation. Unethical conduct includes, but is not limited to: (3-20-14)

- a. Unauthorized solicitation of students or parents of students to purchase equipment, supplies, or services from the educator who will directly benefit; (3-20-14)
- b. Acceptance of gifts from vendors or potential vendors for personal use or gain where there may be the appearance of a conflict of interest; (3-20-04)
- c. Tutoring students assigned to the educator for remuneration unless approved by the local board of education; and, (3-20-04)
- d. Soliciting, accepting, or receiving a financial benefit greater than fifty dollars (\$50) as defined in Section 18-1359(b), Idaho Code. (3-20-14)
- e. Keeping for oneself donations, whether money or items, that were solicited or accepted for the

benefit of a student, class, classroom, or school. (3-28-18)

**08. Principle VII - Confidentiality.** A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to: (3-20-14)

**a.** Sharing of confidential information concerning student academic and disciplinary records, personal confidences, health and medical information, family status or income, and assessment or testing results with inappropriate individuals or entities; and (3-20-04)

**b.** Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities. (3-20-04)

**09. Principle VIII - Breach of Contract or Abandonment of Employment.** A professional educator fulfills all terms and obligations detailed in the contract with the local board of education or education agency for the duration of the contract. Unethical conduct includes, but is not limited to: (3-20-14)

**a.** Abandoning any contract for professional services without the prior written release from the contract by the employing ~~school district or agency~~ local education agency; (3-20-04)

**b.** Willfully refusing to perform the services required by a contract; and, (3-20-04)

**c.** Abandonment of classroom or failure to provide appropriate supervision of students at school or school-sponsored activities to ensure the safety and well-being of students. (3-20-04)

**10. Principle IX - Duty to Report.** A professional educator reports breaches of the Code of Ethics for Idaho Professional Educators and submits reports as required by Idaho Code. Unethical conduct includes, but is not limited to: (3-20-14)

**a.** Failure to comply with Section 33-1208A, Idaho Code, (reporting requirements and immunity); (3-20-04)

**b.** Failure to comply with Section 16-1605, Idaho Code, (reporting of child abuse, abandonment or neglect); (4-11-06)

**c.** Failure to comply with Section 33-512B, Idaho Code, (suicidal tendencies and duty to warn); and (4-11-06)

**d.** Having knowledge of a violation of the Code of Ethics for Idaho Professional Educators and failing to report the violation to an appropriate education official. (3-20-04)

**11. Principle X - Professionalism.** A professional educator ensures just and equitable treatment for all members of the profession in the exercise of academic freedom, professional rights and responsibilities while following generally recognized professional principles. Unethical conduct includes, but is not limited to: (3-20-14)

**a.** Any conduct that seriously impairs the Certificate holder's ability to teach or perform his professional duties; (3-20-04)

**b.** Committing any act of harassment toward a colleague; (4-11-06)

**c.** Failure to cooperate with the Professional Standards Commission in inquiries, investigations, or hearings; (3-20-04)

**d.** Using institutional privileges for the promotion of political candidates or for political activities, except for local, state or national education association elections; (4-11-06)

e. Willfully interfering with the free participation of colleagues in professional associations; and (4-11-06)

f. Taking, ~~or~~ possessing, or sharing images (digital, photographic, or video) of colleagues of a harassing, confidential, or sexual nature. (4-11-15 \_\_\_\_\_)

**077. DEFINITIONS FOR USE WITH THE CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).**

**01. Administrative Complaint.** A document ~~issued by the State Department of Education~~ outlining the specific, purported violations of Section 33-1208, Idaho Code, or the Code of Ethics for Idaho Professional Educators. (3-20-04 \_\_\_\_\_)

**02. Allegation.** A purported violation of the Code of Ethics for Idaho Professional Educators or Idaho Code. (3-20-04)

~~03. Certificate. A document issued by the Department of Education under the authority of the State Board of Education allowing a person to serve in any elementary or secondary school in the capacity of teacher, supervisor, administrator, education specialist, school nurse or school librarian (Section 33-1201, Idaho Code). (3-20-04)~~

~~0403. Certificate Denial. The refusal of the state to grant a certificate for an initial or reinstatement application. (3-20-04 \_\_\_\_\_)~~

~~0504. Certificate Suspension. A time-certain invalidation of any Idaho certificate as determined by a stipulated agreement or a due process hearing panel as set forth in Section 33-1209, Idaho Code. (3-20-04 \_\_\_\_\_)~~

~~06. Complaint. A signed document defining the allegation that states the specific ground or grounds for revocation, suspension, denial, place reasonable conditions on a certificate or issuance of a letter of reprimand (Section 33-1209(1), Idaho Code). The State Department of Education may initiate a complaint. (4-11-06)~~

~~0705. Conditional **Conditioned** Certificate. Allows an educator to retain licensure under certain s. Stated Certificate conditions as determined by the Professional Standards Commission (Section 33-1209(4002), Idaho Code). (3-20-04 \_\_\_\_\_)~~

~~08. Contract. Any signed agreement between the school district and a certificated educator pursuant to Section 33-513(1), Idaho Code. (3-20-04)~~

~~09. Conviction. Refers to all instances regarding a finding of guilt by a judge or jury; a plea of guilt by Nolo Contendere or Alford plea; or all proceedings in which a sentence has been suspended, deferred or withheld. (3-20-04)~~

~~1006. Educator. A person who held, holds, or applies for an Idaho Certificate (Section 33-1001(16) and Section 33-1201, Idaho Code). (3-20-04 \_\_\_\_\_)~~

~~1107. Education Official. An individual identified by local school board policy, including, but not limited to, a superintendent, principal, assistant principal, or school resource officer (SRO). (3-20-04)~~

~~1208. Executive Committee. A decision-making body comprised of members of the Professional Standards Commission, including the chair and/or vice-chair of the Commission. A prime duty of the Committee is to review ~~purported~~ alleged violations of the Code of Ethics for Idaho Professional Educators to determine probable cause and ~~direction for~~ recommend possible disciplinary action ~~to be taken against a Certificate holder.~~ (3-20-14 )~~

~~1309. Hearing. A formal review proceeding that ensures the respondent due process. The request for a hearing is initiated by the respondent and is conducted by a panel of peers. (3-20-04)~~

**1410. Hearing Panel.** A minimum of three (3) educators appointed by the chair of the Professional Standards Commission and charged with the responsibility to make a final determination regarding the charges specifically defined in the Administrative Complaint. (3-20-04)

**1511. Investigation.** The process of gathering factual information concerning a valid, written complaint in preparation for review by the Professional Standards Commission Executive Committee, or following review by the Executive Committee at the request of the deputy attorney general assigned to the Department of Education Professional Standards Commission. (3-20-14 \_\_\_\_\_)

~~16. Minor. Any individual who is under eighteen (18) years of age. (3-20-04)~~

~~1712. Not Sufficient Grounds~~**No Probable Cause.** A determination by the Executive Committee that there is not sufficient evidence to take action against an educator's certificate. (3-20-14 \_\_\_\_\_)

**1813. Principles.** Guiding behaviors that reflect what is expected of professional educators in the state of Idaho while performing duties as educators in both the private and public sectors. (3-20-04)

14. Probable Cause. A determination by the Executive Committee that sufficient evidence exists to issue an administrative complaint. ( \_\_\_\_\_ )

~~1915. Reprimand. A written letter admonishing the Certificate holder for his-their conduct. The reprimand cautions that further unethical conduct may lead to consideration of a more severe action against the holder's Certificate. (3-20-04 \_\_\_\_\_)~~

**2016. Respondent.** The legal term for the professional educator who is under investigation for a purported violation of the Code of Ethics for Idaho Professional Educators. (3-20-04)

**2117. Revocation.** The invalidation of any Certificate held by the educator. (3-20-04)

**2218. Stipulated Agreement.** A written agreement between the respondent and the Professional Standards Commission to resolve matters arising from an allegation of unethical conduct following a complaint or an investigation. The stipulated agreement is binding to both parties and is enforceable under its own terms, ~~or by subsequent action by the Professional Standards Commission.~~ (3-20-04 \_\_\_\_\_)

~~23. Student. Any individual enrolled in any Idaho public or private school from preschool through grade 12. (3-20-04)~~

~~24. Sufficient Grounds. A determination by the Executive Committee that sufficient evidence exists to issue an Administrative Complaint. (3-20-04)~~

## SUMMARY

### Overview of the Past Standards

The early standards for initial certification in Idaho were based on the 1989 National Association of State Directors of Teacher Education and Certification (NASDTEC) standards. These standards were "input- based", meaning a candidate was recommended for initial certification based on credits and content of courses successfully completed (transcript review).

In 2000, Idaho adopted new standards based on the Interstate New Teacher Assessment and Support Consortium (INTASC) model. These standards reflected a move to "performance-based" outcomes, meaning a candidate is recommended for initial certification based on the demonstration of what they know and are able to do, similar to mastery-based education.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Each proposed standard is broken down into two areas:

- Knowledge (what the candidate needs to know)
- Performance (what the candidate is able to do)

The performance, therefore, is the demonstration of the knowledge and dispositions of a standard. As the demonstration of a standard, the performances will also guide a teacher-education program review team when evaluating for program accreditation.

### REVISED IDAHO CORE TEACHER STANDARDS

The "Idaho Core Teacher Standards" apply to ALL teacher certification areas. These are the 10 basic standards all teachers must know and be able to do, regardless of their specific content areas. These standards are described in more detail with knowledge and performances in the first section of this manual. The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning; Content; Instructional Practice; and Professional Responsibility. The summary of each standard is:

---

The Learner and Learning

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

---

Content

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

---

Instructional Practice

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

---

Professional Responsibility

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## Foundation and Enhancement Standards

The Core Teacher Standards apply to **ALL** teacher certification areas. The Foundations and/or Enhancements for each content certification area are behind the Core Standards in this manual, alphabetically.

Foundation and Enhancement Standards refer to additional knowledge and performances a teacher must know in order to teach a certain content area. The Foundation and Enhancement Standards, therefore, further "enhance" the Core Standard.

### *Example of content area Enhancements:*

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### Examples of an Enhancement to Standard 1:

For Elementary:      The teacher understands how young children's and early adolescents' literacy and language development influence learning and instructional decisions across content areas.

For Math:              The teacher knows how to recognize students' mathematical development, knowledge, understandings, ways of thinking, mathematical dispositions, interests, and experiences.

In this way, the Idaho Core Teacher Standards, Foundation Standards and Enhancement Standards are "layered" to describe what a teacher in the content area must know and be able to do in order to be recommended to the state for initial certification.

Important enhancements for several content areas do not fall under the ten Core Teacher Standards. For example, a science teacher must provide a safe learning environment in relation to labs, materials, equipment, and procedures. This does not fall under an area that every teacher needs to know. Therefore, it is Standard 11 under Science.

In no case are there more than 12 overall standards for any subject area.

## Pupil Personnel and Administrator Certification Standards

There are several certification standards for pupil personnel professionals and school administrators that are also addressed through the Idaho teacher certification processes.

- Administrator Endorsements
  - School Principals
  - Superintendents
  - Special Education Directors
- Pupil Personnel Services Endorsements
  - Audiology
  - School Counselors
  - School Nurses
  - School Psychologists
  - School Social Workers
  - Speech Language Pathology

Because of the unique role of these professionals, their standards are independent of the Core Standards, but are still written in the same performance-based format: Knowledge and Performances.

## The Process of Idaho Standards Maintenance

The Professional Standards Commission (PSC) continuously reviews/ revises 20% of the standards annually. The standards review process ensures current best practices are embedded.

The process for all standards reviews are as follows:

- A standards review team of content area experts from educators, including those from ~~K~~P-12 schools and higher education, is formed for each standard area.
- The team of content area experts reviews the standards and makes revisions, if necessary.
- The recommended revisions from the team of content area experts are presented to the PSC.
- ~~Once~~ If the PSC approves the revisions, they are presented to the State Board of Education for ~~approval~~ adoption.
- ~~After~~ If the State Board of Education ~~approves the revisions~~ adopts the revised standards, they are presented to the Legislature for approval.
- ~~and~~ if approved by the Legislature, ~~become an~~ the revised standards are incorporated ~~by reference document in state~~ into State Board Rule (IDAPA 08.02.02.004.01).

Please visit the Idaho State Department of Education Standards for Educator Preparation webpage for information on which preparation programs have been changed: <http://www.sde.idaho.gov/cert-psc/psc/standards.html>

## IDAHO CORE TEACHING STANDARDS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning, Content, Instructional Practice, and Professional Responsibility. This language has been adopted verbatim from the April 2011 InTASC Model Core Teaching Standards.

---

### The Learner and Learning

Teaching begins with the learner. To ensure that each student learns new knowledge and skills, teachers must understand that learning and developmental patterns vary among individuals, that learners bring unique individual differences to the learning process, and that learners need supportive and safe learning environments to thrive. Effective teachers have high expectations for each and every learner and implement developmentally appropriate, challenging learning experiences within a variety of learning environments that help all learners meet high standards and reach their full potential. Teachers do this by combining a base of professional knowledge, including an understanding of how cognitive, linguistic, social, emotional, and physical development occurs, with the recognition that learners are individuals who bring differing personal and family backgrounds, skills, abilities, perspectives, talents and interests. Teachers collaborate with learners, colleagues, school leaders, families, members of the learners’ communities, and community organizations to better understand their students and maximize their learning. Teachers promote learners’ acceptance of responsibility for their own learning and collaborate with them to ensure the effective design and implementation of both self-directed and collaborative learning.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the***

*cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Knowledge**

- 1(a) The teacher understands how learning occurs--how learners construct knowledge, acquire skills, and develop disciplined thinking processes--and knows how to use instructional strategies that promote student learning.
- 1(b) The teacher understands that each learner's cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners' strengths and needs.
- 1(c) The teacher knows how to identify readiness for learning and understands that development in any one area (cognitive, linguistic, social, emotional, and physical) may affect performance in others.
- 1(d) The teacher understands the role of language, culture, and socio-historical context in learning and knows how to differentiate instruction to make language comprehensible and instruction relevant, accessible, and challenging.

**Performance**

- 1(e) The teacher regularly assesses individual and group performance in order to design and differentiate instruction to meet learners' needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development.
- 1(f) The teacher creates developmentally appropriate instruction that takes into account individual learners' strengths, interests, needs, and background that enables each learner to advance and accelerate his/her learning.
- 1(g) The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.

**Disposition**

- 1(h) The teacher respects learners' differing strengths and needs and is committed to using this information to further each learner's development
- 1(i) The teacher is committed to using learners' strengths as a basis for growth, and their misconceptions as opportunities for learning.
- 1(j) The teacher takes responsibility for promoting learners' growth and development.
- 1(k) The teacher values collaborative relationships with families, colleagues, and other professionals in understanding and supporting each learner's development.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

- 2(a) The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction that uses each learner's strengths to promote growth.
- 2(b) The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs.
- 2(c) The teacher knows about linguistic diversity and second language acquisition processes and knows instructional strategies and resources to support language acquisition.
- 2(d) The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as contemporary and historical impacts on language, culture, family, and community values.
- 2(e) The teacher knows how to access reliable information about the values of diverse cultures and communities and how to incorporate learners' experiences, cultures, and community resources into instruction.

**Performance**

- 2(f) The teacher designs, adapts, and delivers instruction to address each student's diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways.
- 2(g) The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, response modes) for individual students with particular learning differences or needs.
- 2(h) The teacher designs instruction to build on learners' prior knowledge and experiences, allowing learners to accelerate as they demonstrate their understandings.
- 2(i) The teacher brings multiple perspectives to the discussion of content, including attention to learners' personal, family, and community experiences and cultural norms.
- 2(j) The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.
- 2(k) The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.

**Disposition**

- 2(l) The teacher believes that all learners can achieve at high levels and persists in helping each learner reach his/her full potential.
- 2(m) The teacher respects learners as individuals with differing personal and family backgrounds and various skills, abilities, perspectives, talents, and interests.
- 2(n) The teacher makes learners feel valued and helps them learn to value each other.
- 2(o) The teacher values diverse languages and dialects and seeks to integrate them into his/her instructional practice to engage students in learning.
- 2(p) The teacher values the cultural resources (language, history, indigenous knowledge) of American Indian students and their communities.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning (e.g., principles of universal design for learning and culturally responsive pedagogy).
- 3(b) The teacher knows how to create respectful learning communities where learners work collaboratively to achieve learning goals.
- 3(c) The teacher knows how to collaborate with learners to establish and monitor elements of safe and productive learning environments including norms, expectations, routines, organizational structures, and multiple levels of behavioral interventions.
- 3(d) The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments, including virtual spaces.
- 3(e) The teacher knows how to use technologies and how to guide learners to apply them in appropriate, safe, and effective ways.

**Performance**

- 3(f) The teacher collaborates with learners, families, and colleagues to build a safe, positive learning climate of openness, mutual respect, support, and inquiry.
- 3(g) The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with diverse local and global ideas.
- 3(h) The teacher collaborates with learners and colleagues to develop shared values and expectations for respectful interactions, rigorous academic discussions, and individual and group responsibility for quality work.

- 3(i) The teacher manages the learning environment to actively and equitably engage learners by organizing, allocating, and coordinating the resources of time, space, and learners' attention.
- 3(j) The teacher uses a variety of methods to engage learners in evaluating the learning environment, collaborating with them to make appropriate adjustments, and employing multiple levels of behavioral interventions.
- 3(k) The teacher communicates verbally and nonverbally in ways that demonstrate respect for and responsiveness to the cultural backgrounds and differing perspectives learners bring to the learning environment.
- 3(l) The teacher promotes responsible learner use of interactive technologies to extend the possibilities for learning locally and globally.
- 3(m) The teacher intentionally builds learner capacity to collaborate in face-to-face and virtual environments through applying effective interpersonal communication skills.

**Disposition**

- 3(n) The teacher is committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments.
- 3(o) The teacher values the role of learners in promoting each other's learning and recognizes the importance of peer relationships in establishing a climate of learning.
- 3(p) The teacher is committed to supporting learners as they participate in decision making, engage in exploration and invention, work collaboratively and independently, and engage in purposeful learning.
- 3(q) The teacher seeks to foster respectful communication and develop rapport among all members of the learning community.
- 3(r) The teacher is a thoughtful and responsive listener and observer.

---

Content

Teachers must have a deep and flexible understanding of their content areas and be able to draw upon content knowledge as they work with learners to access information, apply knowledge in real world settings, and address meaningful issues to assure learner mastery of the content. Today's teachers make content knowledge accessible to learners by using multiple means of communication, including digital media and information technology. They integrate cross-disciplinary skills (e.g., critical thinking, problem solving, creativity, communication) to help learners use content to propose solutions, forge new understandings, solve problems, and imagine possibilities. Finally, teachers make content knowledge relevant to learners by connecting it to local, state, national, and global issues.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher understands major concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the discipline(s) he/she teaches.
- 4(b) The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.
- 4(c) The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.
- 4(d) The teacher knows how to integrate culturally relevant content to build on learners' background knowledge.
- 4(e) The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) he/she teaches.

**Performance**

- 4(f) The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of content standards.
- 4(g) The teacher engages students in learning experiences in the discipline(s) that encourage learners to understand, question, and analyze ideas from diverse perspectives so that they master the content.
- 4(h) The teacher engages learners in applying methods of inquiry and standards of evidence used in the discipline.
- 4(i) The teacher stimulates learner reflection on prior content knowledge, links new concepts to familiar concepts, and makes connections to learners' experiences.
- 4(j) The teacher recognizes learner misconceptions in a discipline that interfere with learning, and creates experiences to build accurate conceptual understanding.
- 4(k) The teacher evaluates and modifies instructional resources and curriculum materials for their comprehensiveness, accuracy for representing particular concepts in the discipline, and appropriateness for his/her learners.
- 4(l) The teacher uses supplementary resources and technologies effectively to ensure accessibility and relevance for all learners.
- 4(m) The teacher creates opportunities for students to learn, practice, and master academic language in their content.
- 4(n) The teacher accesses school and/or district-based resources to evaluate the learner's content knowledge in their primary language.

**Disposition**

- 4(o) The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. He/she keeps abreast of new ideas and understandings in the field.
- 4(p) The teacher appreciates multiple perspectives within the discipline and facilitates learners' critical analysis of these perspectives.
- 4(q) The teacher recognizes the potential of bias in his/her representation of the discipline and seeks to appropriately address problems of bias.
- 4(r) The teacher is committed to work toward each learner's mastery of disciplinary content and skills.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches, and the strengths and limitations of each approach in addressing problems, issues, and concerns.
- 5(b) The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global mindedness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.
- 5(c) The teacher understands the demands of accessing and managing information as well as how to evaluate issues of ethics and quality related to information and its use.
- 5(d) The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals.
- 5(e) The teacher understands critical thinking processes and knows how to help learners develop high level questioning skills to promote their independent learning.
- 5(f) The teacher understands multiple forms of communication as vehicles for learning across disciplines and for expressing learning.
- 5(g) The teacher understands creative thinking processes and how to engage learners in producing original work.
- 5(h) The teacher knows where and how to access resources to build global mindedness and multiple perspectives and how to integrate them into the curriculum.

**Performance**

- 5(i) The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills (e.g., a water quality study that draws upon biology and chemistry to look at factual information and social studies to examine policy implications).
- 5(j) The teacher engages learners in applying content knowledge to real world problems through the lens of interdisciplinary themes (e.g., financial literacy, environmental literacy).
- 5(k) The teacher facilitates learners' use of current tools and resources to maximize content learning in varied contexts.
- 5(l) The teacher develops learners' communication skills in disciplinary and interdisciplinary contexts by creating meaningful opportunities to employ a variety of forms of communication that address varied cultures, audiences and purposes.
- 5(m) The teacher engages learners in challenging assumptions, generating and evaluating new ideas and novel approaches, seeking inventive solutions to problems, and developing original work.
- 5(n) The teacher facilitates learners' ability to develop diverse social and cultural perspectives that expand their understanding of local and global issues and create novel approaches to solving problems.
- 5(o) The teacher develops and implements supports for learner literacy development across content areas.

**Disposition**

- 5(p) The teacher is constantly exploring how to use disciplinary knowledge as a lens to address local and global issues.
- 5(q) The teacher values knowledge outside his/her own content area and how such knowledge enhances student learning.
- 5(r) The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas.

---

**Instructional Practice**

Effective instructional practice requires that teachers understand and integrate assessment, planning, and instructional strategies in coordinated and engaging ways. Beginning with their end or goal, teachers first identify student learning objectives and content standards and align assessments to those objectives. Teachers understand how to design, implement and interpret results from a range of formative and summative assessments. This knowledge is integrated into instructional practice so that teachers have access to information that can be used to provide immediate feedback to reinforce student learning and to modify instruction. Planning focuses on using a variety of appropriate and targeted instructional strategies to address diverse ways of

learning, to incorporate new technologies to maximize and individualize learning, and to allow learners to take charge of their own learning and do it in creative ways.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.
- 6(b) The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias.
- 6(c) The teacher knows how to analyze assessment data to understand patterns and gaps in learning, to guide planning and instruction, and to provide meaningful feedback to all learners.
- 6(d) The teacher knows when and how to engage learners in analyzing their own assessment results and in helping to set goals for their own learning.
- 6(e) The teacher understands the positive impact of effective descriptive feedback for learners and knows a variety of strategies for communicating this feedback.
- 6(f) The teacher knows when and how to evaluate and report learner progress against standards.
- 6(g) The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.
- 6(h) The teacher understands the ethical responsibilities in selection, administration, and evaluation of student assessment and handling of student assessment data.

**Performance**

- 6(i) The teacher balances the use of an effective range of formative and summative assessment strategies to support, verify, and document learning.
- 6(j) The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.
- 6(k) The teacher works independently and collaboratively to examine test and other performance data to understand each learner's progress and to guide planning.
- 6(l) The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work.
- 6(m) The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process.

- 6(n) The teacher models and structures processes that guide learners in examining their own thinking and learning as well as the performance of others.
- 6(o) The teacher effectively uses multiple and appropriate types of assessment data to identify each student's learning needs and to develop differentiated learning experiences.
- 6(p) The teacher prepares all learners for the demands of particular assessment formats and makes appropriate accommodations in assessments or testing conditions, especially for learners with disabilities and language learning needs.
- 6(q) The teacher continually seeks appropriate ways to employ technology to support assessment practice both to engage learners more fully and to assess and address learner needs.

**Disposition**

- 6(r) The teacher is committed to engaging learners actively in assessment processes and to developing each learner's capacity to review and communicate about their own progress and learning.
- 6(s) The teacher takes responsibility for aligning instruction and assessment with learning goals.
- 6(t) The teacher is committed to providing timely and effective descriptive feedback to learners on their progress.
- 6(u) The teacher is committed to using multiple types of assessment processes to support, verify, and document learning.
- 6(v) The teacher is committed to making accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.
- 6(w) The teacher is committed to the ethical use of various assessments and assessment data to identify learner strengths and needs to promote learner growth.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher understands content and content standards and how these are organized in the curriculum.
- 7(b) The teacher understands how integrating cross-disciplinary skills in instruction engages learners purposefully in applying content knowledge.
- 7(c) The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.

- 7(d) The teacher understands the strengths and needs of individual learners and how to plan instruction that is responsive to these strengths and needs.
- 7(e) The teacher knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.
- 7(f) The teacher knows when and how to adjust plans based on assessment information and learner responses.
- 7(g) The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, professional organizations, community organizations, community members).

**Performance**

- 7(h) The teacher individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners.
- 7(i) The teacher plans how to achieve each student's learning goals, choosing appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of learners.
- 7(j) The teacher develops appropriate sequencing of learning experiences and provides multiple ways to demonstrate knowledge and skill.
- 7(k) The teacher plans for instruction based on formative and summative assessment data, prior learner knowledge, and learner interest.
- 7(l) The teacher plans collaboratively with professionals who have specialized expertise (e.g., special educators, related service providers, language learning specialists, librarians, media specialists) to design and jointly deliver as appropriate learning experiences to meet unique learning needs.
- 7(m) The teacher evaluates plans in relation to short- and long-range goals and systematically adjusts plans to meet each student's learning needs and enhance learning.

**Disposition**

- 7(n) The teacher respects learners' diverse strengths and needs and is committed to using this information to plan effective instruction.
- 7(o) The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.
- 7(p) The teacher is committed to using short- and long-term planning as a means of assuring student learning.
- 7(q) The teacher is committed to reflecting on the effectiveness of lessons and seeks to revise plans to meet changing learner needs and circumstances.

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

- 8(a) The teacher understands the cognitive processes associated with various types of learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.
- 8(b) The teacher knows how to apply an effective range of developmentally, culturally, and linguistically responsive instructional strategies to achieve learning goals.
- 8(c) The teacher knows when and how to use effective strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks.
- 8(d) The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, visual) convey ideas, foster self-expression, and build connections.
- 8(e) The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning.
- 8(f) The teacher understands how content and skill development can be supported by media and technology and knows how to evaluate these resources for quality, accuracy, and effectiveness.

**Performance**

- 8(g) The teacher uses appropriate strategies and resources to adjust instruction to meet the needs of individuals and groups of learners.
- 8(h) The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs.
- 8(i) The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and/or access family and community resources to develop their areas of interest.
- 8(j) The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners.
- 8(k) The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances.
- 8(l) The teacher engages all learners in developing higher order questioning skills and metacognitive processes.
- 8(m) The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.

- 8(n) The teacher uses a variety of instructional strategies to support and expand learners' communication through speaking, listening, reading, writing, and other methods of communication.
- 8(o) The teacher asks questions to stimulate discussions that serve different purposes.

**Disposition**

- 8(p) The teacher is committed to deepening awareness and understanding of the strengths and needs of diverse learners when designing flexible instruction.
- 8(q) The teacher values the variety of ways people communicate and encourages learners to develop and use multiple forms of communication.
- 8(r) The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning.
- 8(s) The teacher values flexibility and reciprocity in the teaching process as necessary for adjusting instruction to learner responses, ideas, and needs.

---

Professional Responsibility

Creating and supporting safe, productive learning environments that result in learners achieving at the highest levels is a teacher's primary responsibility. To do this well, teachers must engage in meaningful and intensive professional learning and self-renewal by regularly examining practice through ongoing study, self-reflection, and collaboration. A cycle of continuous self-improvement is enhanced by leadership, collegial support, and collaboration. Active engagement in professional learning and collaboration results in the discovery and implementation of better practice for the purpose of improved teaching and learning. Teachers also contribute to improving instructional practices that meet learners' needs and accomplish their school's mission and goals. Teachers benefit from and participate in collaboration with learners, families, colleagues, other school professionals, and community members. Teachers demonstrate leadership by modeling ethical behavior, contributing to positive changes in practice, and advancing their profession.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The teacher understands and knows how to use a variety of self-assessment and problem-solving strategies to analyze and reflect on his/her practice and to plan for adaptations/adjustments.
- 9(b) The teacher knows how to use learner data to analyze practice and differentiate instruction accordingly.

- 9(c) The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others.
- 9(d) The teacher understands laws and responsibilities related to the learner (e.g., educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).
- 9(e) The teacher understands professional responsibilities (e.g., responsibilities to the profession, for professional competence, to students, to the school community, and regarding the ethical use of technology).
- 9(f) The teacher understands the Code of Ethics for Idaho Professional Educators and its place in supporting the integrity of the profession.
- 9(g) The teacher knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities.\*

**Performance**

- 9(h) The teacher engages in ongoing learning opportunities to develop knowledge and skills in order to provide all learners with engaging curriculum and learning experiences based on local and state standards.
- 9(i) The teacher engages in meaningful and appropriate professional learning experiences aligned with his/her own needs and the needs of the learners, school, and system.
- 9(j) Independently and in collaboration with colleagues, the teacher uses a variety of data (e.g., systematic observation, information about learners, research) to evaluate the outcomes of teaching and learning and to adapt planning and practice.
- 9(k) The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving.
- 9(l) The teacher identifies and reflects on his/her own beliefs and biases and utilizes resources to broaden and deepen his/her own understanding of cultural, ethnic, gender, and learning differences to develop reciprocal relationships and create more relevant learning experiences.
- 9(m) The teacher advocates, models, and teaches safe, legal, and ethical use of information and technology including appropriate documentation of sources and respect for others in the use of social media.
- 9(n) The teacher builds and implements an Individualized Professional Learning Plan (IPLP) directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school- and system-wide priorities.

- 9(o) The teacher engages in respectful inquiry of diverse historical contexts and ways of knowing, and leverages that knowledge to cultivate culturally responsive relationships with learners, families, other professionals, and the community.

**Disposition**

- 9(p) The teacher takes responsibility for student learning and uses ongoing analysis and reflection to improve planning and practice.
- 9(q) The teacher is committed to culturally responsive teaching.
- 9(r) The teacher sees him/herself as a learner, continuously seeking opportunities to draw upon current education policy and research as sources of analysis and reflection to improve practice.
- 9(s) The teacher understands the expectations of the profession including codes of ethics, professional standards of practice, and relevant law and policy.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.
- 10(b) The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence interferes with learning.
- 10(c) The teacher knows how to work with other adults and has developed skills in collaborative interaction appropriate for both face-to-face and virtual contexts.
- 10(d) The teacher knows how to contribute to a common culture that supports high expectations for student learning.
- 10(e) The teacher understands the value of leadership roles at the school, district, state, and/or national level and advocacy for learners, the school, the community, and the profession.

**Performance**

- 10(f) The teacher takes an active role on the instructional team, giving and receiving feedback on practice, examining learner work, analyzing data from multiple sources, and sharing responsibility for decision making and accountability for each student's learning.
- 10(g) The teacher works with other school professionals to plan learning experiences that meet the diverse needs of learners.

- 10(h) The teacher engages collaboratively in the school wide efforts to build a shared vision and supportive culture.
- 10(i) The teacher works collaboratively with learners and their families to establish mutual expectations and ongoing communication to support learner development and achievement.
- 10(j) Working with school colleagues, the teacher builds ongoing connections with community resources to enhance student learning and wellbeing.
- 10(k) The teacher engages in professional learning, contributes to the knowledge and skill of others, and works collaboratively to advance professional practice.
- 10(l) The teacher uses technology and other forms of communication to develop collaborative relationships with learners, families, colleagues, and the local community.
- 10(m) The teacher uses and generates meaningful inquiry into education issues and policies.
- 10(n) The teacher advocates to meet the needs of learners, to strengthen the learning environment, and to enact change.

**Disposition**

- 10(o) The teacher actively shares responsibility for shaping and supporting the mission of his/her school as one of advocacy for learners and accountability for their success.
- 10(p) The teacher is committed to working collaboratively with learners and families in setting and meeting challenging goals, while respecting families' beliefs, norms, and expectations.
- 10(q) The teacher takes initiative to grow and develop with colleagues through interactions that enhance practice and support student learning.
- 10(r) The teacher takes responsibility for contributing to and advancing the profession.
- 10(s) The teacher embraces the challenge of continuous improvement and change.

GLOSSARY OF TERMS

**Culturally Responsive Pedagogy** – Pedagogy that recognizes the importance of including student’s cultural references in all aspects of learning. (Ladson-Billings)

**Global Mindedness** – Exploring new ideas and perspectives, as well as having the humility to learn and willingness to work with people around the globe

**Learning Environments** – The diverse physical and virtual locations, contexts, and cultures in which students learn.

**Principles of Universal Design** – A set of principles for curriculum development that give all individuals equal opportunities to learn. (udlcenter.org)

**Socio-Historical Context** – The social and historic factors which shape learning and learning trajectories over time.

\*The federal and state governments of Idaho recognize the Idaho’s tribes’ inherent sovereignty. This tribal sovereignty distinguishes Indigenous peoples as peoples, rather than populations or national minorities.

## STATE SPECIFIC REQUIREMENTS

### IDAHO COMPREHENSIVE LITERACY STANDARDS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The standards have been grouped into four general categories and represent the inter-relationship between written and oral language, which are key skills for student learning and success. These standards outline the four competencies of effective reading, writing, and communication instruction necessary to meet the Idaho Comprehensive Literacy requirements and Idaho ELA/Literacy Standards.

- As needed, adapt instructional materials and approaches to meet the language-proficiency needs of English learners and students who struggle to learn to read and write.

***Standard 1: Foundational Literacy Concepts. The teacher demonstrates knowledge of the following foundational concepts, including but not limited to: emergent literacy, concepts of print, phonological awareness, alphabetic principle, phonics, word recognition, fluency, linguistic development, English language acquisition, and home-to-school literacy partnerships. In addition, the candidate demonstrates the ability to apply concepts using research-based best practices in lesson planning and literacy instruction. (Applies to the following endorsements: All Subjects K-8, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6, Deaf/Hard of Hearing K-12, Early Childhood Special Education Pre-K-3, Exceptional Child Generalist K-8, 6-12, and K-12, and Visual Impairment K-12)***

#### **Knowledge**

- 1(a) The teacher understands the importance of developing oral language, phonological awareness, phonemic awareness, and print concepts.

- 1(b) The teacher understands the components of decoding written language, including grade-level phonics and word analysis skills, and their impact on comprehension.
- 1(c) The teacher understands the development of fluency (prosody, rate, and accuracy) and its impact on beginning reading comprehension.

**Performance**

- 1(d) The teacher plans instruction that includes foundational literacy skills found in the Idaho Content Standards.
- 1(e) The teacher plans instruction to support literacy progression, from emergent to proficient readers, which includes decoding and comprehension skills.
- 1(f) The teacher selects and modifies reading instructional strategies and routines to strengthen fluency.

***Standard II: Fluency, Vocabulary Development and Comprehension. The teacher demonstrates knowledge of fluency, vocabulary development, and reading comprehension strategies. The teacher demonstrates the ability to apply these components by using research-based best practices in all aspects of literacy and/or content area instruction. This includes the ability to: analyze the complexity of text structures; utilize a variety of narrative and informational texts from both print and digital sources; and make instruction accessible to all, including English Language Learners. (Applies to all endorsements that can be added to a Standard Instructional Certificate)***

**Knowledge**

- 2(a) The teacher knows the characteristics of the various genres and formats of children's and adolescent literature.
- 2(b) The teacher recognizes the importance of using a variety of texts and formats to enhance students' understanding of topics, issues, and content.
- 2(c) The teacher understands text complexity and structures and the importance of matching texts to readers.
- 2(d) The teacher understands how to use instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.
- 2(e) The teacher understands how to use instructional strategies to promote vocabulary development for all students, including English language learners.
- 2(f) The teacher understands how a student's reading proficiency, both oral and silent, affects comprehension.

**Performance**

- 2(g) The teacher identifies a variety of high-quality literature and texts within relevant content areas.
- 2(h) The teacher can develop lesson plans that incorporate a variety of texts and resources to enhance students' understanding of topics, issues, and content.

- 2(i) The teacher can analyze texts to determine complexity in order to support a range of readers.
- 2(j) The teacher selects and utilizes instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.
- 2(k) The teacher selects and utilizes instructional strategies to promote vocabulary development for all students, including English language learners.
- 2(l) The teacher uses oral and silent reading practices selectively to positively impact comprehension.

***Standard III: Literacy Assessment Concepts. The teacher understands, interprets, and applies informal and formal literacy assessment concepts, strategies, and measures. The teacher uses assessment data to inform and design differentiated literacy instruction. In addition, the teacher demonstrates the ability to use appropriate terminology in communicating pertinent assessment data to a variety of stakeholders. (Applies to the following endorsements: All Subjects K-8, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6, Deaf/Hard of Hearing K-12, Early Childhood Special Education Pre-K-3, and Exceptional Child Generalist K-8, 6-12, and K-12, and Visual Impairment K-12)***

**Knowledge**

- 3(a) The teacher understands terms related to literacy assessment, analysis, and statistical measures.
- 3(b) The teacher understands types of formal, informal, formative, summative, and diagnostic literacy assessments, their uses, appropriate administration, and interpretation of results across a range of grade levels.
- 3(c) The teacher understands how to choose appropriate literacy assessments to determine the needs of the learner.
- 3(d) The teacher understands how to use literacy assessment results to inform and guide intervention processes.
- 3(e) The teacher knows how to measure and determine students' independent, instructional, and frustration reading levels.
- 3(f) The teacher understands Idaho state-specific literacy assessments and related proficiency levels.

**Performance**

- 3(g) The teacher appropriately selects, administers, and interprets results of a variety of formal, informal, formative, summative, and diagnostic literacy assessments.
- 3(h) The teacher utilizes literacy assessment results to inform and guide intervention processes.
- 3(i) The teacher can measure and determine students' independent, instructional, and frustration reading levels.

- 3(j) The teacher utilizes Idaho state-specific literacy assessments and related proficiency levels to inform planning and instruction.

***Standard IV: Writing Process. The teacher incorporates writing in his/her instructional content area(s). The teacher understands, models, and instructs the writing process, including but not limited to: pre-writing, drafting, revising, editing, and publishing. The teacher structures frequent, authentic writing opportunities that encompass a range of tasks, purposes, and audiences. The teacher incorporates ethical research practices using multiple resources. The teacher fosters written, visual, and oral communication in a variety of formats. (Applies to all endorsements that can be added to a Standard Instructional Certificate)***

**Knowledge**

- 4(a) The teacher understands writing as a complex communicative process that includes cognitive, social, physical, and developmental components.
- 4(b) The teacher understands the purpose and function of each stage of the writing process, including the importance of extensive pre-writing.
- 4(c) The teacher has an understanding of the role and range that audience, purpose, formats, features, and genres play in the development of written expression within and across all content areas.
- 4(d) The teacher understands how to conduct writing workshops and individual writing conferences to support student growth related to specific content areas.
- 4(e) The teacher understands how to assess content-area writing, including but not limited to writing types, the role of quality rubrics, processes, conventions, and components of effective writing.
- 4(f) The teacher understands the reciprocal relationship between reading, writing, speaking, and listening to support a range of writers, including English language learners.
- 4(g) The teacher understands how to help writers develop competency in a variety of writing types: narrative, argument, and informational/explanatory.
- 4(h) The teacher understands the impact of motivation and choice on writing production.

**Performance**

- 4(i) The teacher engages writers in reading, speaking, and listening processes to address cognitive, social, physical, developmental, communicative processes.
- 4(j) The teacher utilizes the writing process and strategies to support and scaffold effective written expression within and across content areas and a range of writers.
- 4(k) The teacher structures frequent, authentic writing opportunities that encompass a range of tasks, formats, purposes, audiences, and digital technologies.
- 4(l) The teacher conducts writing workshops and writing conferences for the purpose of supporting student growth (including peer feedback/response).

- 4(m) The teacher assesses components of effective writing in the content-areas, including utilizing quality rubrics.
- 4(n) The teacher scaffolds instruction for a range of student writers.
- 4(o) The teacher helps writers develop competency in a variety of writing types: narrative, argument, and informational/explanatory.
- 4(p) The teacher utilizes choice to motivate writing production.

## PRE-SERVICE TECHNOLOGY STANDARDS

The 2016 Pre-Service Standards Review was conducted by a team of content area experts from across the state of Idaho. The Idaho Pre-Service Technology Standards were revised in January 2016 to align with the Idaho Core Teacher Standards (2013). All teacher candidates are expected to meet the Idaho Core Teacher Standards, including the Idaho Pre-Service Technology Standards. Each candidate shall also meet the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The standards review team endeavored to arrive at standards that were comprehensive, research-based, support reciprocity, and promote unique local, regional, and statewide implementations within sound and responsible attention to its fundamental outcomes. Special attention was paid to the recognition that technology-enriched teaching and learning is a continually and rapidly changing process. It was, therefore, important to determine standards that promote the best preparation of teachers to integrate technologies into instruction that continue to be relevant over time and will best suit any school district in Idaho, regardless of its size, location, or resources. In consideration of these variables as well as careful attention to its correlation to the Idaho Core Teaching Standards, the standards review team recommended that the ISTE (International Society for Technology in Education) Standards for Teachers (2008) be adopted to serve as the Pre-Service Technology Standards.

The Pre-Service Technology Standards indicate teacher candidates have met the standards and competencies. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the competencies identified in the ISTE Standards for Teachers. These competencies reflect the principles of universal design related to technology, while emphasizing flexibility and accessibility.

Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate knowledge, skills, and dispositions in which pre-service teachers design, develop, and evaluate technology-based learning experiences and assessments. In addition, teacher candidates must become fully aware of Idaho’s technology standards for K-12 students.

The alignment matrix found on the next page of this standards document and shows the connections between the Idaho Core Teacher Standards and the Pre-Service Technology Standards.

### ISTE STANDARDS FOR TEACHERS

Effective teachers model and apply the ISTE Standards for Students (Standards•S) as they design, implement, and assess learning experiences to engage students and improve learning; enrich professional practice; and provide positive models for students, colleagues, and the community. All teachers should meet the following standards and performance indicators.

- 1. *Facilitate and inspire student learning and creativity - Teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, creativity, and innovation in both face-to-face and virtual environments.***
  - a. Promote, support, and model creative and innovative thinking and inventiveness
  - b. Engage students in exploring real-world issues and solving authentic problems using digital tools and resources
  - c. Promote student reflection using collaborative tools to reveal and clarify students' conceptual understanding and thinking, planning, and creative processes
  - d. Model collaborative knowledge construction by engaging in learning with students, colleagues, and others in face-to-face and virtual environments
- 2. *Design and develop digital age learning experiences and assessments-Teachers design, develop, and evaluate authentic learning experiences and assessments incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the Standards•S.***
  - a. Design or adapt relevant learning experiences that incorporate digital tools and resources to promote student learning and creativity
  - b. Develop technology-enriched learning environments that enable all students to pursue their individual curiosities and become active participants in setting their own educational goals, managing their own learning, and assessing their own progress
  - c. Customize and personalize learning activities to address students' diverse learning styles, working strategies, and abilities using digital tools and resources
  - d. Provide students with multiple and varied formative and summative assessments aligned with content and technology standards, and use resulting data to inform learning and teaching
- 3. *Model digital age work and learning - Teachers exhibit knowledge, skills, and work processes representative of an innovative professional in a global and digital society.***
  - a. Demonstrate fluency in technology systems and the transfer of current knowledge to new technologies and situations
  - b. Collaborate with students, peers, parents, and community members using digital tools and resources to support student success and innovation
  - c. Communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital age media and formats

- d. Model and facilitate effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources to support research and learning
- 4. *Promote and model digital citizenship and responsibility - Teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices.***
- a. Advocate, model, and teach safe, legal, and ethical use of digital information and technology, including respect for copyright, intellectual property, and the appropriate documentation of sources
  - b. Address the diverse needs of all learners by using learner-centered strategies providing equitable access to appropriate digital tools and resources
  - c. Promote and model digital etiquette and responsible social interactions related to the use of technology and information
  - d. Develop and model cultural understanding and global awareness by engaging with colleagues and students of other cultures using digital age communication and collaboration tools
- 5. *Engage in professional growth and leadership - Teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community by promoting and demonstrating the effective use of digital tools and resources.***
- a. Participate in local and global learning communities to explore creative applications of technology to improve student learning
  - b. Exhibit leadership by demonstrating a vision of technology infusion, participating in shared decision making and community building, and developing the leadership and technology skills of others
  - c. Evaluate and reflect on current research and professional practice on a regular basis to make effective use of existing and emerging digital tools and resources in support of student learning
  - d. Contribute to the effectiveness, vitality, and self-renewal of the teaching profession and of their school and community

IDAHO STANDARDS FOR MODEL PRESERVICE STUDENT TEACHING EXPERIENCE

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The Idaho Standards for Model Preservice Student Teaching Experience are the standards for a robust student teaching experience for teacher candidates. Every teacher preparation program is responsible for ensuring a student teaching experience that meets the standards.

***Standard 1: Mentor Teacher. The mentor teacher is the certified P-12 personnel responsible for day-to-day support of the student teacher in the student teaching experience.***

- 1(a) The mentor teacher is state certified to teach the content for which the candidate is seeking endorsement.
- 1(b) The mentor teacher has a minimum of three years of experience teaching in the content area(s) for which the student teacher is seeking endorsement.
- 1(c) The mentor teacher demonstrates effective professional practice and evidence of dispositions of a professional educator, as recommended by the principal.
- 1(d) The mentor teacher is committed to mentor, co-plan, co-assess, and co-teach with the student teacher.
- 1(e) The mentor teacher is co-selected, prepared, evaluated, supported, and retained.
- 1(f) The experienced mentor teacher receives positive candidate and EPP supervisor evaluations.

***Standard 2: Educator Preparation Program (EPP) Supervisor. The EPP supervisor is any individual in the institution responsible for observation/evaluation of the teacher candidate.***

- 2(a) The EPP supervisor has P-12 education certified field experience.
- 2(b) The EPP supervisor proves proficiency in assessing teacher performance with ongoing rater reliability.
- 2(c) The experienced EPP supervisor receives positive candidate and school professional evaluations.
- 2(d) The EPP supervisor demonstrates evidence of dispositions of a professional educator.

***Standard 3: Partnership.***

- 3(a) The P-12 school and EPP partnership supports the cooperating teacher in his/her duties of mentorship.
- 3(b) The collaboration between P-12 school and EPP supports the conceptual framework of the institution.

***Standard 4: Student Teacher. The student teacher is the candidate in the culminating clinical field experience.***

- 4(a) Passed background check
- 4(b) Competency in prior field experience
- 4(c) Passed all required Praxis tests
- 4(d) Completion of all relevant coursework
- 4(e) Possesses dispositions of a professional educator

***Standard 5: Student Teaching Experience***

- 5(a) At least three documented, scored observations including pre- and post-conferences by the EPP supervisor, using the approved state teacher evaluation framework
- 5(b) At least three formative assessments by the mentor teacher
- 5(c) One common summative assessment based on state teacher evaluation framework
- 5(d) Performance assessment including influence on P-12 student growth
- 5(e) Recommended minimum 14 weeks student teaching
- 5(f) Development of an Individualized Professional Learning Plan (IPLP)
- 5(g) Demonstration of competence in meeting the *Idaho Standards for Initial Certification of Professional School Personnel*
- 5(h) Relevant preparatory experience for an Idaho teacher's certificate

## INSTITUTIONAL RECOMMENDATIONS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

Idaho educator preparation programs complete an Institutional Recommendation to the State Department of Education verifying that the candidate has met all the requirements as defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

***Standard 1: State Board Approved Program - Educator preparation program had a State Board approved program for initial certification for each area of endorsement indicated on candidate’s institutional recommendation.***

***Standard 2: Content Knowledge Assessment – Recommended candidate received passing scores on State Board approved content area assessment for each recommended area of endorsement.***

***Standards 3: Pedagogy – Recommended candidate demonstrated competency in pedagogy for each recommended area of endorsement.***

***Standard 4: Performance Assessment – Recommended candidate received a basic or higher rating in all components of the approved Idaho framework for teaching evaluation.***

***Standard 5: Clinical Experience – Recommended candidate completed clinical experience for each recommended area of endorsement and grade range.***

***Standard 6: Student Achievement – Recommended candidate demonstrated the ability to produce measurable student achievement or student success and create student learning objectives.***

***Standard 7: Individualized Professional Learning Plan – Recommended candidate had an individualized professional learning plan (IPLP).***

***Standard 8: Adding Endorsements Only – Educator preparation program issued institutional recommendation once the content, pedagogy, and performance had been demonstrated by the candidate for each area of endorsement. For candidates that are adding endorsements, the program is not required to be a State Board approved program for initial certification.***

***Standard 9: Administrator Certificates Only – Recommended candidate for an administrator certificate demonstrated proficiency in conducting accurate evaluations of instructional practice based upon the state’s framework for evaluation.***

## IDAHO FOUNDATION STANDARDS FOR BILINGUAL EDUCATION AND ENGLISH AS A SECOND LANGUAGE (ESL) TEACHERS

In addition to the standards listed here, bilingual education and English as a second language (ESL) teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Bilingual Education Teachers or (2) Idaho Standards for English as a Second Language (ESL) Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual and ESL Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands the processes of language acquisition and the stages of development of linguistically diverse students
- 1(b) The teacher understands the concepts of bilingualism and biliteracy in regards to language development and how a student's first language may influence second language development.

### **Performance**

- 1(c) The teacher plans, integrates, and delivers language and content instruction appropriate to the students' stages of language development.
- 1(d) The teacher facilitates students' use of their first language as a resource to promote academic learning and further development of the second language.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

- 2(a) The teacher understands differences in culture for planning, integrating, and delivering inclusive learning experiences.
- 2(b) The teacher understands there are unique considerations and strategies for appropriately identifying culturally and linguistically diverse students with exceptionalities (learning disabilities/giftedness).
- 2(c) The teacher understands the importance of providing appropriate accommodations that allow students to access academic content based on their current level of language proficiency.
- 2(d) The teacher understands there are unique considerations for specific language learner groups (e.g. immigrants, refugees, migrant, students with interrupted formal education).

**Performance**

- 2(e) The teacher identifies ways to promote respect and advocate for diverse linguistic communities.
- 2(f) The teacher demonstrates the ability to collaborate with other area specialists to appropriately identify culturally and linguistically diverse students with exceptionalities.
- 2(g) The teacher demonstrates the ability to provide appropriate accommodations that allow students to access academic content based on their current level of language proficiency.
- 2(h) The teacher identifies and describes characteristics of major language and cultural groups in Idaho.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands that language is socially constructed and the importance of individual and collaborative learning.
- 3(b) The teacher understands the importance of creating a safe, culturally responsive learning environment that promotes engagement and motivation.

**Performance**

- 3(c) The teacher demonstrates the ability to create a culturally responsive classroom environment.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher understands the evolution, research, and current federal and state legal mandates of education for linguistically diverse learners.
- 4(b) The teacher understands various language instruction educational program models.
- 4(c) The teacher understands that language is a system (including linguistic and socio-linguistic) and is able to distinguish between forms, functions, and contextual usage of social and academic language.

**Performance**

- 4(d) The teacher establishes goals, designs curricula and instruction, and facilitates student learning in a manner that builds on students' linguistic and cultural diversity.
- 4(e) The teacher evaluates various language instruction program models and makes possible recommendations for improvement.
- 4(f) The teacher analyzes language demands for instruction.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.

**Performance**

- 5(b) The teacher develops active and interactive activities that promote proficiency in the four domains of language.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher understands variations in assessment of student progress that may be related to cultural and linguistic differences.
- 6(b) The teacher understands how to measure English language proficiency and is familiar with the state English language proficiency assessment.
- 6(c) The teacher understands the difference between levels of language proficiency and how it can affect a students' academic achievement through various assessments.
- 6(d) The teacher knows how to interpret data and explain the results of standardized assessments to students who are English learners, the students' families, and to colleagues.

- 6(e) The teacher understands appropriate accommodations for language learners being tested in the content areas.
- 6(f) The teacher understands how to use data to make informed decisions about program effectiveness.

**Performance**

- 6(g) The teacher demonstrates the ability to use a combination of observation and other assessments to make decisions about appropriate program services for language learners.
- 6(h) The teacher demonstrates the ability to use a combination of assessments that measure language proficiency and content knowledge respectively to determine how level of language proficiency may affect the demonstration of academic performance.
- 6(i) The teacher demonstrates the ability to identify and utilize appropriate accommodations for language learners being tested in the content areas.
- 6(j) The teacher demonstrates the ability to use English language proficiency data (formative, summative, etc.), in conjunction with other student achievement data, to evaluate language instruction program effectiveness.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher understands how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

**Performance**

- 7(b) The teacher creates and delivers lessons that incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher understands how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.
- 8(b) The teacher understands research and evidence based strategies that promote students' critical thinking and problem solving at all stages of language development.

**Performance**

- 8(c) The teacher selects, adapts, creates and uses various culturally and linguistically appropriate resources related to content areas and second language development.
- 8(d) The teacher has a repertoire of research and evidence based strategies that promote students' critical thinking and problem solving at all stages of language development.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The teacher understands the importance of staying current on research related to language learning.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher understands the benefits of family and community involvement in students' linguistic, academic, and social development.
- 10(b) The teacher understands the necessity of collegiality, collaboration, and leadership to promote opportunities for language learners.

**Performance**

- 10(c) The teacher identifies ways in which to create family and community partnerships that promote students' linguistic, academic, and social development.
- 10(d) The teacher identifies ways in which to collaborate with colleagues to promote opportunities for language learners.
- 10(E) The teacher identifies ways in which to assist other educators and students in promoting cultural respect and validation of students' and families' diverse backgrounds and experiences.

GLOSSARY OF TERMS

**Bilingual Education Program** – An educational approach that uses two languages to promote academic success, bilingualism, biliteracy, and multiculturalism

**Biliteracy** – The ability to read and write in two languages

**English as a Second Language (ESL)** – The teaching/studying of English by nonnative English speakers-ESL is an educational approach in which English language learners are instructed in the use of English as an additional language. ESL refers to an additive language to either bilingual or multilingual speakers of other languages.

**First Language** – A person’s native language and/or language spoken most fluently - also known as: L1, primary language, home language, native language, heritage language

**Second Language** – Any language that one speaks other than one’s first language - also known as L2, target language, additive language

## IDAHO STANDARDS FOR BILINGUAL EDUCATION TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, bilingual education teachers must meet Idaho Foundation Standards for Bilingual Education and English as a Second Language (ESL) Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The bilingual education teacher understands the stages of development for learners of two languages and the impacts on their language and development.

### **Performance**

- 1(b) The bilingual education teacher uses evidence-based strategies and approaches that promote bilingualism and biliteracy for language development.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The bilingual education teacher has communicative competence and academic language proficiency in the first language and in the second language.
- 4(b) The bilingual education teacher understands the linguistic features of both the first language and the second language.
- 4(c) The bilingual education teacher has knowledge of the cultures of the first language and the second language.
- 4(d) The bilingual education teacher understands the methodology of teaching biliteracy.

**Performance**

- 4(e) The bilingual education teacher demonstrates proficiency in key linguistic structures and the ability to expose students to the linguistic features of the first and second language, such as various registers, dialects, and idioms.
- 4(f) The bilingual education teacher demonstrates the ability to address the cultures of the first and the second language in an instructional cycle.
- 4(g) The bilingual education teacher demonstrates the ability to plan literacy instruction for students in a bilingual program.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The bilingual education teacher understands how to measure students' level of proficiency in the first language and in the second language.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR ENGLISH AS A SECOND LANGUAGE (ESL) TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, English as a Second Language (ESL) teachers must meet Idaho Foundation Standards for Bilingual Education and English as a Second Language (ESL) Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the English as a Second Language Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The ESL teacher understands linguistic features of the English language.

### **Performance**

- 4(b) The ESL teacher is able to integrate linguistic features of the English language in lesson planning, delivery, and instruction.

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR BLENDED EARLY CHILDHOOD EDUCATION/EARLY CHILDHOOD SPECIAL EDUCATION TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Blended Early Childhood/Early Childhood Special Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of development and learning of young children are integrally linked and different from those of older children and adults. Thus, programs serving young children should be structured to support those unique developmental and learning characteristics. The early childhood educator will extend, adapt, and apply knowledge gained in the professional education core for the benefit of children from birth through grade three.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### Knowledge

- 1(a) The early childhood educator knows that family systems are inextricably tied to child development.
- 1(b) The early childhood educator understands the typical and atypical development from conception to age eight (8) ~~of infants’ and children’s attachments and relationships with primary caregivers.~~
- 1(c) The early childhood educator understands how learning occurs and that children’s development influences learning and instructional decisions.
- ~~1(d) The early childhood educator understands pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.~~

~~1(e)~~1(d) The early childhood educator understands the developmental consequences of toxic (strong, frequent, and/or prolonged) stress, trauma, protective factors and resilience, and the consequences on the child's mental health.

~~1(f)~~1(e) The early childhood educator understands the importance of supportive relationships on the child's learning, emotional, and social development.

~~1(g)~~1(f) The early childhood educator understands the role of adult-child relationships in learning and development.

### Performance

~~1(h)~~1(g) 1.—The early childhood educator identifies pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children's development and learning.

~~1(i)~~1(h) 2. ~~The early childhood educator collaborates with parents, families, specialists and community agencies to identify and implement strategies to minimize the developmental consequences of toxic (strong, frequent, and/or prolonged) stress and trauma, while increasing protective factors and resilience.~~

~~1(j)~~1(i) 3.—The early childhood educator establishes and maintains positive interactions and relationships with the child.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### Knowledge

2(a) The early childhood educator understands the continuum of medical care for premature development, low birth weight, children who are medically fragile, and children with special health care needs, and knows the concerns and priorities associated with these medical conditions as well as their implications on child development and family resources.

~~2(b) —The early childhood educator understands variations of beliefs, traditions, and values across cultures and the effect of these on the relationships among the child, family, and their environments.~~

~~2(c)~~2(b) The early childhood educator knows the characteristics of typical and atypical development and their educational implications and effects on participation in educational and community environments.

~~2(d)~~2(c) The early childhood educator knows how to access information regarding specific children's needs and disability-related issues (e.g., medical, support, service delivery).

~~2(e)~~2(d) The early childhood educator knows about and understands the purpose of assistive technology in facilitating individual children's learning differences, and to provide access to an inclusive learning environment.

### Performance

~~2(f)~~2(e) The early childhood educator locates, uses, and shares information about the methods for the care of children who are medically fragile and children with special health care needs, including the effects of technology and various medications on the educational, cognitive, physical, social, and emotional behavior of children with disabilities.

~~2(g)~~2(f) The early childhood educator adapts learning, language, and communication strategies for the developmental age and stage of the child, and as appropriate identifies and uses assistive technology.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

### Knowledge

~~3(a)~~ ~~The early childhood educator understands the importance and use of routines as a teaching strategy.~~

~~3(b)~~3(a) The early childhood educator knows that physically and psychologically safe and healthy learning environments promote security, trust, attachment, and mastery motivation in children.

~~3(c)~~3(b) The early childhood educator understands applicable laws, rules, and regulations regarding behavior management planning and plan implementation for children with disabilities.

~~3(d)~~3(c) The early childhood educator understands principles of guidance (co-regulation, self-monitoring, and emotional regulation), applied behavioral analysis and ethical considerations inherent in behavior management.

~~3(e)~~3(d) The early childhood educator understands crisis prevention and intervention practices relative to the setting, age, and developmental stage of the child.

~~3(f)~~3(e) The early childhood educator knows a variety of strategies and environmental designs that facilitate a positive social and behavioral climate.

~~3(g)~~ ~~The early childhood educator understands that the child's primary teacher is the parent.~~

~~3(h)~~ ~~The early childhood educator understands appropriate use of evidence-based practices that support development at all stages.~~

### Performance

~~3(i)~~ ~~The early childhood educator promotes opportunities for all children in natural and inclusive settings.~~

~~3(j)~~3(f) The early childhood educator embeds learning objectives within everyday routines and activities in natural and inclusive settings.

- ~~3(k)~~3(g) The early childhood educator creates an accessible learning environment, including the use of assistive technology.
- ~~3(l)~~ The early childhood educator provides training and supervision for the classroom paraprofessional, aide, volunteer, and peer tutor.
- ~~3(m)~~3(h) The early childhood educator creates a positive, predictable, and safe an environment that encourages social emotional development, self-advocacy and increased independence.
- ~~3(n)~~ The early childhood educator plans and implements intervention consistent with the needs of children.
- ~~3(o)~~ The early childhood educator conducts functional behavior assessments and develops positive behavior supports, and creates behavior intervention plans.
- ~~3(p)~~3(i) In collaboration with the parent, the early childhood educator applies evidence-based strategies that support development at all stages in home, community, and classroom environments. The early childhood educator designs environments to support inquiry and exploration.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

#### **Knowledge**

- ~~4(a)~~ The early childhood educator knows how children integrate domains of development (language, cognition, social and emotional, physical, and self help) as well as traditional content areas of learning (e.g., literacy, mathematics, science, health, safety, nutrition, social studies, art, music, drama, movement).
- ~~4(b)~~4(a) The early childhood educator understands theories, history, and models that provide the basis for early childhood education and early childhood special education practices ~~as identified in the National Association for the Education of Young Children (NAEYC) Standards for Early Childhood Professional Preparation Programs and the Council for Exceptional Children/Division of Early Childhood (CEC/DEC) Preparation Standards.~~
- ~~4(c)~~4(b) The early childhood educator ~~understands the process of self-regulation that assists children to identify and cope with emotions~~ aligns curriculum with Idaho's Early Learning eGuidelines and individual children's needs, along with the Idaho Content Standards and other early learning standards. The early learning childhood educator also understands and is current in academic domains, including English language arts, science, mathematics, social studies, the arts, health, safety, nutrition, physical education and other disciplines applicable to their certification.
- ~~4(d)~~4(c) The early childhood educator understands speech and language acquisition processes in order to support emergent literacy, including pre-linguistic communication and language development.

~~4(e)~~4(d) ~~The early childhood educator understands the elements of play and how play assists children in learning.~~The early childhood educator understands concepts of language arts/literacy and child development in order to teach reading, writing, speaking/listening, language, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.

~~4(f)~~4(e) The early childhood educator understands nutrition and feeding relationships so children develop essential and healthy eating habits.

~~4(g)~~4(f) The early childhood educator understands that children are constructing a sense of self, expressing wants and needs, and understanding social interactions that enable them to be involved in friendships, cooperation, ~~and~~ effective conflict resolutions, and develop self-regulation skills.

~~4(h)~~4(g) The early childhood educator understands the acquisition of self-help skills that facilitate the child's growing independence (e.g., toileting, dressing, grooming, hygiene, eating, sleeping).

~~4(i)~~ ~~The early childhood educator understands the comprehensive nature of children's wellbeing in order to create opportunities for developing and practicing skills that contribute to healthful living and enhanced quality of life.~~

~~4(j)~~ ~~The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.~~

### Performance

~~4(k)~~4(h) The early childhood educator demonstrates the application of theories and educational models in early childhood education and special education practices.

~~4(l)~~ ~~The early childhood educator applies developmentally appropriate practices to facilitate growth towards developmental milestones and emerging foundational skills.~~

~~4(m)~~4(i) ~~The early childhood educator differentiates practices for the acquisition of skills in English language arts, science, mathematics, social studies, the arts, health, safety, nutrition, and physical education for children from birth through age 2, ages 3-5, and grades K-3.~~The early childhood educator applies developmentally appropriate practices and uses a variety of strategies and supports to individualize meaningful and challenging learning experiences for children with diverse needs across domains of development and content areas of learning.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

### Knowledge

~~5(a)~~ ~~The early childhood educator understands critical developmental processes and knows how to facilitate the growth and development of children birth through age 8.~~

- ~~5(b) The early childhood educator recognizes the role that social and emotional development plays in overall development and learning.~~
- ~~5(c) The early childhood educator knows the multiple factors that contribute to the development of cultural competence in young children birth through age 8.~~
- ~~5(d) The early childhood educator understands how to promote the development of executive functioning in children birth through age 8 (e.g., impulse control, problem solving, exploration).~~
- ~~5(e) The early childhood educator knows the importance of facilitating emergent literacy and numeracy.~~
- 5(a) The early childhood educator understands the essential functions of play and the role of play in the holistic growth and development of children birth through age 8.
- ~~5(f)~~5(b) The early childhood educator knows how children integrate domains of development (language, cognition, social and emotional, physical, and self-help) as well as traditional content areas of learning (e.g., literacy, mathematics, science, health, safety, nutrition, social studies, art, music, drama, movement) and how to weave those themes into meaningful learning experiences.

### Performance

- ~~5(g) The early childhood educator effectively creates and maintains an environment that facilitates overall growth and development of all children (e.g., routines, materials and equipment, schedules, building relationships, assistive technology).~~
- ~~5(h) The early childhood educator builds positive relationships with children and families and encourages cultural sensitivity among children to foster social and emotional development of all children.~~
- ~~5(i)~~5(c) The early childhood educator utilizes a play-based curriculum to facilitate the holistic development of all children and fosters the emergence of literacy, numeracy, and cognition.
- ~~5(j) The early childhood educator effectively utilizes explicit instruction to facilitate the development of executive functioning (e.g., impulse control, problem solving, exploration).~~

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

### Knowledge

- ~~6(a) The early childhood educator understands the legal provisions, regulations, guidelines, and ethical concerns regarding assessment of children.~~
- ~~6(b)~~6(a) The early childhood educator knows that developmentally appropriate assessment procedures reflect children's behavior over time and rely on regular and

periodic observations and record keeping of children's everyday activities and performance.

~~6(c)~~6(b) The early childhood educator knows the instruments and procedures used to assess children for screening, pre-referral interventions, referral, and eligibility determination for special education services or early intervention services for birth to three years.

~~6(d)~~6(c) The early childhood educator knows the ethical issues and identification procedures for children with disabilities, including children from culturally and linguistically diverse backgrounds.

### Performance

~~6(e)~~6(d) The early childhood educator assesses all developmental domains (e.g., social and emotional, fine and gross motor, cognition, communication, self-help).

~~6(f)~~6(e) The early childhood educator ensures the participation and procedural safeguard rights of the parent/child when determining eligibility, planning, and implementing services.

~~6(g)~~6(f) The early childhood educator collaborates with families and professionals involved in the assessment process of children.

~~6(h)~~6(g) The early childhood educator conducts an ecological assessment and uses the information to modify various settings as needed and to integrate the children into those setting.

6(h) The early childhood educator uses a diverse array of assessment strategies to assess children depending on the purpose of assessment (e.g., observation, checklists, norm-referenced, teacher-created assessment, functional assessments).

6(i) The early childhood educator regularly monitors the progress of birth to age 8 children and makes instructional adjustments based on assessment data.

6(i) The early childhood educator demonstrates culturally or linguistically diverse assessment practices and procedures used to determine eligibility of a student.

6(k) The early childhood educator conducts functional behavior assessments to understand behavior in the context within which it occurs.

~~6(j)~~6(l) The early childhood educator evaluates children's skill development in relation to developmental norms and state-adopted standards.

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

### Knowledge

7(a) The early childhood educator ~~understands theory and research that reflect~~ designs instruction that reflects currently recommended professional practice ~~for engaging~~

~~with families and children~~ and provides opportunities for children (from birth through age 2, ages 3-5, and grades K-3) and families to learn through inquiry and exploration.

~~7(b) The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.~~

### Performance

~~7(e)~~ 7(b) The early childhood educator designs meaningful child-initiated inquiry and integrated learning opportunities that are scaffolded for the developmental needs of all children.

7(c) The early childhood educator assists families in identifying their resources, priorities, and concerns in relation to their children's development and provides information about a range of family-~~oriented~~ centered services based on identified resources, priorities, and concerns through the use of the Individualized Family Service Plans (IFSP) and Individualized Education Programs (IEP).

7(d) The early childhood educator uses functional behavior assessment to develop a comprehensive, function-based behavior support plan that includes strategies for prevention and replacement of challenging behavior.

7(e) The early childhood educator facilitates transitions for children and their families (e.g., hospital, home, Infant/Toddler programs, Head Start, Early Head Start, childcare programs, preschool, primary programs).

~~7(f) The early childhood educator analyzes activities and tasks and uses procedures for monitoring children's skill levels and progress.~~

~~7(g) The early childhood educator evaluates children's skill development in relation to developmental norms and state-adopted standards.~~

***Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The early childhood educator knows the characteristics of physical environments that must vary to support the learning of children from birth through age 2, ages 3-5, and grades K-3 (e.g., schedule, routines, transitions).
- 8(b) The early childhood educator understands the breadth and application of low and high assistive technology to support instructional assessment, planning, and delivery of instruction.

**Performance**

- 8(c) The early childhood educator uses developmentally appropriate methods to help children develop intellectual curiosity, solve problems, and make decisions (e.g., child choice, play, small group projects, open-ended questioning, group discussion, problem solving, cooperative learning, inquiry and reflection experiences).
- 8(d) The early childhood educator uses evidence-based instructional strategies (e.g., child choice, play, differentiation, direct instruction, scaffolding) that support both child-initiated and adult-directed activities.

***Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The early childhood educator understands the [National Association for the Education of Young Children \(NAEYC\)](#) Standards for Early Childhood Professional Preparation and the [Council for Exceptional Children / Division for Early Childhood \(CEC/DEC\)](#) Initial Preparation Standards.
- 9(b) The early childhood educator understands the code of ethics of the NAEYC, CEC/DEC, and the Idaho Code of Ethics for Professional Educators.

~~9(c) The early childhood educator understands the responsibilities as outlined in the Pre-Service Technology Standards (e.g., digital citizenship and ethical practice).~~

**Performance**

~~9(d)~~ 9(c) The early childhood educator practices behavior congruent with the NAEYC Standards for Early Childhood Professional Preparation, CEC/DEC Initial Preparation Standards, and the Idaho Code of Ethics for Professional Educators.

~~9(e) The early childhood educator practices behavior as outlined in the Pre-Service Technology Standards (e.g., digital citizenship and ethical practice).~~

9(d) The early childhood educator creates a manageable system to maintain all program and legal records for children.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families,***

*colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Knowledge

- ~~10(a)~~ ~~The early childhood educator knows about state and national professional organizations (e.g., NAEYC and CEC/DEC).~~
- ~~10(b)~~ 10(a) The early childhood educator knows family systems ~~theory~~ and its application to the dynamics, roles, and relationships within families and communities.
- ~~10(c)~~ 10(b) The early childhood educator knows community, state, and national resources available for children and their families.
- ~~10(d)~~ 10(c) The early childhood educator understands the role and function of the service coordinator and related service professionals in assisting families of children.
- ~~10(e)~~ 10(d) The early childhood educator knows basic principles of administration, organization, and operation of early childhood programs (e.g., supervision of staff and volunteers, and program evaluation).
- ~~10(f)~~ 10(e) The early childhood educator knows the rights and responsibilities of parents, students, teachers, professionals, and programs as they relate to children with disabilities.
- ~~10(g)~~ 10(f) The early childhood educator understands how to effectively communicate and collaborate with children, parents, colleagues, and the community in a professional and culturally sensitive manner.

## Performance

- ~~10(h)~~ 10(g) The early childhood educator demonstrates skills in communicating, consulting and partnering with families and diverse service delivery providers (e.g., home services, childcare programs, school, community) to support the child's development and learning.
- ~~10(i)~~ 10(h) The early childhood educator identifies and accesses community, state, and national resources for children and families.
- ~~10(j)~~ 10(i) The early childhood educator advocates for children and their families.
- ~~10(k)~~ ~~The early childhood educator creates a manageable system to maintain all program and legal records for children.~~
- ~~10(l)~~ 10(j) The early childhood educator encourages and assists families to become active participants in the educational team, including setting instructional goals for and charting progress of children.
- 10(k) The early childhood educator demonstrates respect, honesty, caring, and responsibility in order to promote and nurture an environment that fosters these qualities.
- ~~10(m)~~ 10(l) The early childhood educator provides training and supervision for the classroom paraprofessional, aide, volunteer, and peer tutor.

## IDAHO FOUNDATION STANDARDS FOR CAREER-TECHNICAL TEACHERS

In addition to the standards listed here, career-technical teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Agricultural Science and Technology Teachers, (2) Idaho Standards for Business Technology Teachers, (3) Idaho Standards for Family and Consumer Sciences Teachers, (4) Idaho Standards for Marketing Technology Teachers, or (5) Idaho Standards for Technology Education Teachers. Occupationally-certified teachers must meet these foundation standards for career-technical teachers. Additionally, all teacher candidates are expected to meet the requirements defined in IDAPA (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the professional-technical teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

### **Performance**

- 3(a) The teacher is able to apply concepts of classroom motivation and management to laboratory and field settings.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher understands basic technological principles, processes, terminology, skills, and safety practices of the occupational area.
- 4(b) The teacher understands industry trends and labor market needs.
- 4(c) The teacher understands organizational and leadership structures in the workplace.
- 4(d) The teacher understands the philosophical principles and the practices of career-technical education.
- 4(e) The teacher understands the importance of intra-curricular student leadership development in career-technical program areas.

**Performance**

- 4(f) The teacher demonstrates specific occupational skills necessary for employment.
- 4(g) The teacher uses current terminology, industry logistics, and procedures for the occupational area.
- 4(h) The teacher incorporates and promotes leadership skills in state-approved Career-Technical Student Organizations (CTSO).
- 4(i) The teacher assesses the occupational needs of the community.
- 4(j) The teacher facilitates experiences designed to develop skills for successful employment.
- 4(k) The teacher informs students about opportunities to develop employment skills (e.g., work-study programs, internships, volunteer work, employment opportunities).

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher knows how to analyze data about a student's progress, including assessments, to evaluate workplace readiness.
- 6(b) The teacher understands the importance of conducting a follow-up survey of graduates.
- 6(c) The teacher understands how to modify the instruction based on student progress, changing industry standards, state-approved program assessments, and/or other relevant assessment data.
- 6(d) The teacher understands how to assess student learning in applicable laboratory settings.

**Performance**

- 6(e) The teacher analyzes data about a student's progress, including assessments, to evaluate workplace readiness.
- 6(f) The teacher provides verbal and written assessment feedback on students' classroom and/or laboratory assignments.
- 6(g) The teacher modifies instruction based on student progress, changing industry standards, state-approved program assessments, and/or other relevant assessment data.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher understands state-approved career-technical secondary-to-postsecondary standards and competencies, and how these are organized in the curriculum.
- 7(b) The teacher understands how to embed state-approved career-technical student organization (CTSO) activities in the curriculum.
- 7(c) The teacher knows how to identify community and industry expectations and access resources.

**Performance**

- 7(d) The teacher designs instruction to meet state-approved career-technical secondary-to-postsecondary curricula and industry standards.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher understands how to provide students with realistic occupational and/or work experiences.
- 8(b) The teacher knows how to utilize education and industry professionals, and research to enhance student understanding of processes, knowledge, and safety.
- 8(c) The teacher understands integration of student leadership development, community involvement, and personal growth into instructional strategies.
- 8(d) The teacher understands how academic skills and advanced technology can be integrated into an occupational learning environment.

**Performance**

- 8(e) The teacher models ethical workplace practices.
- 8(f) The teacher discusses state guidelines to aid students in understanding the trends and issues of an occupation.
- 8(g) The teacher integrates academic skills into each occupational area.
- 8(h) The teacher uses simulated and/or authentic occupational applications of course content.
- 8(i) The teacher uses experts from business, industry, and government as appropriate for the content area.
- 8(j) The teacher discusses innovation and entrepreneurship in the workforce and incorporates them where possible.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The teacher understands how sustained professionalism reflects on him or her as an educator and as a representative of his or her industry.
- 9(b) The teacher understands the importance of maintaining current technical skills and seeking continual improvement.
- 9(c) The teacher understands current state and federal guidelines and regulations related to career-technical education requirements.

**Performance**

- 9(d) The teacher evaluates and reflects on his or her own level of professionalism as an educator and as a representative of his or her industry.
- 9(e) The teacher participates in continual relevant professional development activities through involvement with local, state, and national career and technical organizations.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher understands the role technical advisory committees play in continuous program improvement.

- 10(b) The teacher understands the importance of using industry experts to develop and validate occupational skills.
- 10(c) The teacher understands the importance of professional organizations within the content and occupational areas.
- 10(d) The teacher understands career-technical education advanced opportunities.
- 10(e) The teacher understands the local, state, and national opportunities of state-approved career-technical student organizations (CTSO).

**Performance**

- 10(f) The teacher participates with technical advisory committees for program development and improvement.
- 10(g) The teacher cooperates with educators in other content areas to develop instructional strategies and to integrate learning.
- 10(h) The teacher interacts with business, industry, labor, government, and the community to build effective partnerships.

***Standard 11: Safety - The teacher creates and manages classroom/laboratories that are clean, orderly, safe, and accessible to all students.***

**Knowledge**

- 11(a) The teacher understands how to safely handle and dispose of waste materials.
- 11(b) The teacher understands how to care for, inventory, and maintain materials and equipment.
- 11(c) The teacher understands safety contracts and operation procedures.
- 11(d) The teacher understands legal safety issues related to the program area.
- 11(e) The teacher understands safety requirements necessary to conduct laboratory and field activities.
- 11(f) The teacher understands time and organizational skills in laboratory management.
- 11(g) The teacher is aware of safety regulations at school and work sites.

**Performance**

- 11(h) The teacher ensures that facilities, materials, and equipment are safe to use.
- 11(i) The teacher instructs and models safety procedures and documents safety instruction, and updates each according to industry standards.
- 11(j) The teacher demonstrates effective management skills in the classroom and laboratory environments.
- 11(k) The teacher models and reinforces effective work and safety habits.

*Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.*

**Knowledge**

- 12(a) The teacher understands workplace employability skills and related issues.
- 12(b) The teacher understands the issues of balancing work and personal responsibilities.
- 12(c) The teacher understands how to promote career awareness.

**Performance**

- 12(d) The teacher designs instruction that addresses employability skills and related workplace issues.
- 12(e) The teacher discusses how to balance demands between work and personal responsibilities.
- 12(f) The teacher provides opportunities for career awareness and exploration.

## IDAHO STANDARDS FOR AGRICULTURAL SCIENCE AND TECHNOLOGY TEACHERS

In addition to the standards listed here, agricultural science and technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the agricultural science and technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands biological, physical, and applied sciences relative to practical solutions for the agricultural industry.
- 4(b) The teacher knows about production agriculture.
- 4(c) The teacher knows plant and animal science, agricultural business management, and agricultural mechanics, as well as computer and other technology related to these areas.

- 4(d) The teacher understands and has experience in one or more of the following specialized occupational areas:
- Agricultural production and marketing
  - Agricultural equipment and supplies
  - Agriculture product processing
  - Ornamental horticulture and turf grass management (e.g., floriculture, greenhouse management)
  - Agricultural business planning and analysis
  - Natural resource management
  - Environmental science
  - Forestry
  - Small animal production and care
- 4(e) The teacher understands how to advise, oversee and operate a local FFA chapter and how it relates to the Idaho State and National FFA organizations.
- 4(f) The teacher understands how to organize and implement Supervised Agricultural Experience (SAE) programs including but not limited to working with parents, students, adults, and employers.
- 4(g) The teacher is familiar with the administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, SAE).

**Performance**

- 4(h) The teacher applies natural and physical science principles to practical solutions.
- 4(i) The teacher discusses production agriculture.
- 4(j) The teacher discusses and demonstrates content and best practices of plant and animal science; agricultural business management; and agricultural mechanics; and integrates computer and other technology related to these areas.
- 4(k) The teacher advises, oversees and operates a local FFA chapter in relationship to the Idaho State and National FFA organizations.
- 4(l) The teacher organizes and implements SAE programs including but not limited to working with parents, students, adults and employers.
- 4(m) The teacher observes administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, SAE).

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Performance**

- 6(a) The teacher can develop and utilize performance-based assessments to evaluate student projects.

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

- 7(a) The teacher understands the integrated programmatic approach of incorporating classroom and laboratory, FFA, and SAE.

**Performance**

- 7(b) The teacher actively incorporates components of FFA and SAE into instruction.

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

- 8(a) The teacher understands that experiential learning theory is the foundation for classroom/laboratory instruction, SAE, and FFA leadership development.

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

- 10(a) The teacher understands the role of industry experts in agricultural education settings for the purpose of formal training.
- 10(b) The teacher understands the role of adult volunteers in secondary agricultural education and FFA programs.

**Standard 11: Safety -** *The teacher creates and manages classroom/laboratories that are clean, orderly, safe, and accessible to all students.*

*Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.*

## IDAHO STANDARDS FOR BUSINESS TECHNOLOGY TEACHERS

In addition to the standards listed here, business technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the business technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

### **Knowledge**

- 3(a) The teacher understands how classroom environment ties to industry to create a real-world working environment in the classroom/laboratory setting.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher possesses a foundational level of knowledge about a broad range of business and business technology subjects, which support current state-approved standards.

- 4(b) The teacher understands how to advise, oversee and facilitate a Business Professionals of America (BPA) chapter and how it relates to the Idaho and National BPA organizations.

**Performance**

- 4(c) The teacher integrates BPA through intra-curricular approaches in the business program of study.
- 4(d) The teacher integrates academic concepts into business and business technology content areas.

**Standard 5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Standard 11: Safety -** *The teacher creates and manages classroom/laboratories that are clean, orderly, safe, and accessible to all students.*

**Standard 12: Career Readiness -** *The teacher prepares students to meet the demands and responsibilities of the workplace.*

## IDAHO STANDARDS FOR FAMILY AND CONSUMER SCIENCES TEACHERS

In addition to the standards listed here, family and consumer sciences teachers must meet the Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the family and consumer sciences teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### Knowledge

- 4(a) The teacher understands the significance of family and its impact on the well-being of children, adults, and society and the multiple life roles and responsibilities in family, career, and community settings.
- 4(b) The teacher knows of community agencies and organizations that provide assistance to individuals and families.
- 4(c) The teacher understands how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.

- 4(d) The teacher understands the roles and responsibilities of parenting and factors that affect human growth and development across the life span.
- 4(e) The teacher understands the social, emotional, intellectual, physical, and moral development across the lifespan.
- 4(f) The teacher understands the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, cultural and economic needs of individuals, families, and industry; along with practices to encourage wellness for life.
- 4(g) The teacher understands the design, selection, and care of textiles and apparel products.
- 4(h) The teacher understands housing, design, furnishings, technology, and equipment needs for individuals, families, and industry.
- 4(i) The teacher understands consumer economic issues and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.
- 4(j) The teacher understands resource conservation and environmental issues in relation to family and community health.
- 4(k) The teacher understands the nature of the profession and knows of careers related to family and consumer sciences.
- 4(l) The teacher understands how social media can influence communication and outcomes between individuals, family members, and community connections.
- 4(m) The teacher understands how to incorporate Family, Career and Community Leaders of America (FCCLA) as intra-curricular learning experiences.
- 4(n) The teacher maintains an awareness of the nature of the profession and knows of careers related to family and consumer sciences.

**Performance**

- 4(o) The teacher integrates Family, Career and Community Leaders of America, FCCLA into family and consumer sciences instruction.
- 4(p) The teacher validates the significance of family and its impact on the well-being of children, adults, individuals and society and the multiple life roles and responsibilities in family, work career, and community settings.
- 4(q) The teacher promotes the roles and responsibilities of parenting and factors that affect human growth and development across the life span.
- 4(r) The teacher incorporates the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, and cultural and economic needs of individuals, and families, and industry; along with practices to encourage wellness for life.

- 4(s) The teacher demonstrates the design, selection, and care of textiles and apparel products.
- 4(t) The teacher demonstrates housing, design, furnishings, technology, and equipment needs for individuals, and families, and industry.
- 4(u) The teacher integrates consumer economic issues about and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.
- 4(v) The teacher integrates resource conservation and environmental issues in relation to family and community health.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher understands formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

**Performance**

- 6(b) The teacher uses and interprets formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher understands how to apply family and consumer sciences national standards and other resources when planning instruction.
- 7(b) The teacher understands how program alignment across grade levels (6-12) and family and consumer sciences content area maximizes learning.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

*Standard 11: Safety - The teacher creates and manages classroom/ laboratories that are clean, orderly, safe, and accessible to all students.*

*Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.*

## IDAHO STANDARDS FOR MARKETING TECHNOLOGY TEACHERS

In addition to the standards listed here, marketing technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the marketing technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. ***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher has a basic understanding of communication technology; manufacturing; power, energy, and transportation; construction; electronics; computer systems; and other relevant emerging technologies.
- 4(b) The teacher understands the operation and features of computer-aided design and automated manufacturing systems.
- 4(c) The teacher understands the principles and concepts of engineering design, technology and the associated mathematics and science concepts.
- 4(d) The teacher knows the classical and contemporary elements, principles, and processes of structural systems.

- 4(e) The teacher understands industry logistics, technical terminologies and procedures for the technology occupational area.
- 4(f) The teacher understands the importance of team dynamics and the project management process when working in the technology occupational areas.

**Performance**

- 4(g) The teacher demonstrates the skills that support the fields of communication technology; manufacturing; power, energy, and transportation; construction; electronics; computer technology and other relevant emerging technologies.
- 4(h) The teacher demonstrates how to install, maintain, and troubleshoot computers and peripheral equipment, and other related technology applications.
- 4(i) The teacher demonstrates architectural and mechanical drafting skills.
- 4(j) The teacher demonstrates the various phases of an engineering design process.
- 4(k) The teacher creates opportunities for students to work collaboratively in teams and practice the project management processes related to the technology occupational areas.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

***Standard 11: Safety - The teacher creates and manages classroom/ laboratories that are clean, orderly, safe, and accessible to all students.***

*Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.*

## IDAHO FOUNDATION STANDARDS FOR COMMUNICATION ARTS TEACHERS

In addition to the standards listed here, communication arts teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Journalism Teachers or (2) Idaho Standards for Speech and Debate Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Communication Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. ***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### Knowledge

- 4(a) The teacher understands how values and ethics affect communication.
- 4(b) The teacher understands the importance of audience analysis and adaptation in differing communication contexts.
- 4(c) The teacher knows the components and processes of communication.
- 4(d) The teacher understands the interactive roles of perceptions and meaning.

- 4(e) The teacher understands how symbolism and language affect communication.
- 4(f) The teacher understands the role of organization in presenting concepts, ideas, and arguments.
- 4(g) The teacher knows methods and steps of problem solving in communication arts.
- 4(h) The teacher understands the impact of outside social structures and institutions--including historical, political, social, economic, and cultural perspectives--on communication processes and messages.

**Performance**

- 4(i) The teacher emphasizes to students the importance of values and ethics relevant to the communication process in a variety of formats (e.g., speeches, interpersonal interactions, journalistic writing, social media, debate).
- 4(j) The teacher provides instruction and practice in conducting and applying research.
- 4(k) The teacher creates lessons that stress the importance of audience analysis and adaptation.
- 4(l) The teacher presents communication as a process consisting of integral components.
- 4(m) The teacher explains various methods of organization and their effects on the communication process.
- 4(n) The teacher delivers instruction that facilitates student analysis and evaluation of message contexts, including historical, political, social, economic, and cultural perspectives.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The teacher understands contemporary legal standards relating to communication and media.

**Performance**

- 9(b) The teacher develops learning progressions for students that embed contemporary legal standards relating to communication and media.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## IDAHO STANDARDS FOR JOURNALISM TEACHERS

In addition to the standards listed here, journalism teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the journalism teacher standard are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### Knowledge

- 4(a) The teacher comprehends the fundamentals of journalistic style (e.g., news, feature, editorial writing).
- 4(b) The teacher understands the elements of design and layout.
- 4(c) The teacher understands the purposes and elements of photojournalism (e.g., composition, processing).
- 4(d) The teacher understands the purposes, types, and rules of headline and caption writing.
- 4(e) The teacher possesses knowledge of interviewing skills.

- 4(f) The teacher knows how to organize and equip a production area.
- 4(g) The teacher knows how to organize and supervise a student staff (e.g., editors, writers, photographers, business personnel).
- 4(h) The teacher knows how to adapt journalistic techniques to various media (e.g., radio, television, Internet).
- 4(i) The teacher understands advertising and finance.
- 4(j) The teacher knows the fundamentals of editing.
- 4(k) The teacher understands processes of effective critiquing.
- 4(l) The teacher understands journalistic and scholastic press law and ethics.
- 4(m) The teacher understands the role of journalism in democracy.

**Performance**

- 4(n) The teacher instructs students in the fundamentals of journalistic style across a variety of journalistic platforms.
- 4(o) The teacher student application of design and layout techniques.
- 4(p) The teacher integrates the purposes and elements of photojournalism into the production process.
- 4(q) The teacher instructs students in the purposes, types, and rules of headline and caption writing.
- 4(r) The teacher provides opportunities for students to practice and use interviewing skills.
- 4(s) The teacher teaches editing skills and provides opportunities for student practice.
- 4(t) The teacher provides opportunities for students to critique and evaluate student and professional work.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR SPEECH AND DEBATE TEACHERS

In addition to the standards listed here, speech and debate teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the speech and debate teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### Knowledge

- 4(a) The teacher understands the models of interpersonal communication.
- 4(b) The teacher knows the processes and types of active listening.
- 4(c) The teacher knows the nature of conflict and conflict resolution strategies in the speech process.
- 4(d) The teacher knows the dynamics of group communication (e.g., roles, functions, systems, developmental stages, problem solving).
- 4(e) The teacher understands rhetorical theories and practices.

- 4(f) The teacher understands types of public speaking (e.g., informative, persuasive, ceremonial).
- 4(g) The teacher understands the steps of speech preparation, rehearsal, presentation, and constructive feedback.
- 4(h) The teacher understands the necessity of adapting public speaking styles and skills to various media.
- 4(i) The teacher understands the principles of competitive debate theory (e.g., categories and styles of debate).
- 4(j) The teacher knows the theories and practices of argumentation.
- 4(k) The teacher knows the precepts of logical reasoning (e.g., syllogistic, categorical, disjunctive, fallacies).
- 4(l) The teacher knows the various types of competitive speaking events (e.g., impromptu, extemporaneous, oratory, debate).
- 4(m) The teacher knows how to identify and minimize communication anxiety.

**Performance**

- 4(n) The teacher instructs in the process of effective interpersonal communication (e.g., effective listening, components of verbal and nonverbal communication, conflict resolution).
- 4(o) The teacher explains the components and dynamics of group communication and provides opportunities for student implementation.
- 4(p) The teacher provides opportunities for students to prepare, practice, and present various types of speeches.
- 4(q) The teacher provides instruction integrating digital media and visual displays to enhance presentations.
- 4(r) The teacher instructs in the theory, principles, and practices of debate (e.g., argumentation, logical reasoning, competitive speaking).
- 4(s) The teacher provides opportunities for students to participate in debate and speaking events.
- 4(t) The teacher explains various methods of organization and their effects on the communication process.
- 4(u) The teacher provides strategies for assessing and minimizing communication anxiety (e.g., personal anxiety assessment, repetition, visualization).

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR COMPUTER SCIENCE TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Computer Science Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. These standards were influenced and developed through use of the standards set forward by the International Society for Technology Education (ISTE) and the Computer Science Teachers' Association (CSTA).

The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands digital citizenship.

### **Performance**

- 1(b) The teacher promotes and models digital citizenship.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

- 2(a) The teacher understands the role of language and culture in learning computer science and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands how to design environments that promote effective teaching and learning in computer science classrooms and promote digital citizenship.

**Performance**

- 3(b) The teacher promotes and models the safe and effective use of computer hardware, software, peripherals, and networks.
- 3(c) The teacher develops student understanding of privacy, security, safety, and effective communication in digital environments.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher understands data representation and abstraction.
- 4(b) The teacher understands how to effectively design, develop, and test algorithms.
- 4(c) The teacher understands the software development process.
- 4(d) The teacher understands digital devices, systems, and networks.
- 4(e) The teacher understands the basic mathematical principles that are the basis of computer science, including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.
- 4(f) The teacher understands the role computer science plays and its impact in the modern world.
- 4(g) The teacher understands the broad array of opportunities computer science knowledge can provide across every field and discipline.
- 4(h) The teacher understands the many and varied career and education paths that exist in Computer Science.

**Performance**

- 4(i) The teacher demonstrates knowledge of and proficiency in data representation and abstraction. The teacher:
- Effectively uses primitive data types.
  - Demonstrates an understanding of static and dynamic data structures.
  - Effectively uses, manipulates, and explains various external data stores: various types (text, images, sound, etc.), various locations (local, server, cloud), etc.
  - Effectively uses modeling and simulation to solve real-world problems
- 4(j) The teacher effectively designs, develops, and tests algorithms. The teacher:

- Uses a modern, high-level programming language, constructs correctly functioning programs involving simple and structured data types; compound Boolean expressions; and sequential, conditional, and iterative control structures.
  - Designs and tests algorithms and programming solutions to problems in different contexts (textual, numeric, graphic, etc.) using advanced data structures.
  - Analyzes algorithms by considering complexity, efficiency, aesthetics, and correctness.
  - Effectively uses two or more development environments.
  - Demonstrates knowledge of varied software development models and project management strategies.
  - Demonstrates application of phases of the software development process on a project of moderate complexity from inception to implementation.
- 4(k) The teacher demonstrates knowledge of digital devices, systems, and networks. The teacher:
- Demonstrates an understanding of data representation at the machine level.
  - Demonstrates an understanding of machine level components and related issues of complexity.
  - Demonstrates an understanding of operating systems and networking in a structured computing system.
  - Demonstrates an understanding of the operation of computer networks and mobile computing devices.
- 4(l) The teacher demonstrates an understanding of the role computer science plays and its impact in the modern world. The teacher:
- Demonstrates an understanding of the social, ethical, and legal issues and impacts of computing, and the attendant responsibilities of computer scientists and users.
  - Analyzes the contributions of computer science to current and future innovations in sciences, humanities, the arts, and commerce.
- 4(m) The teacher demonstrates an understanding of the basic mathematical principles that are the basis of computer science including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands the academic language and conventions of computer science and how to make them accessible to students.

**Performance**

- 5(b) The teacher designs activities that require students to effectively describe computing artifacts and communicate results using multiple forms of media.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher understands the planning and teaching of computer science lessons/units using effective and engaging practices and methodologies.

**Performance**

- 7(b) The teacher selects a variety of real-world computing problems and project-based methodologies that support active learning.
- 7(c) The teacher provides opportunities for creative and innovative thinking and problem-solving in computer science.
- 7(d) The teacher develops student understanding of the use of computer science to solve interdisciplinary problems.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher understands the value of designing and implementing multiple instructional strategies in the teaching of computer science.

**Performance**

- 8(b) The teacher demonstrates the use of a variety of collaborative groupings in lesson plans/units, software projects, and assessments.
- 8(c) The teacher identifies problematic concepts in computer science and constructs appropriate strategies to address them.

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Performance**

- 9(a) The teacher demonstrates knowledge of evolving social and research issues relating to computer science and computer science education.

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR ELEMENTARY EDUCATION TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Elementary Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands how young children’s and early adolescents’ literacy and language development influence learning and instructional decisions across content areas.
- 1(b) The teacher understands the cognitive processes of attention, memory, sensory processing, and reasoning and their role in learning.
- 1(c) The teacher recognizes the role of inquiry and exploration in learning and development.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

- 2(a) The teacher understands that there are multiple levels of intervention and recognizes the advantages of beginning with the least intrusive for the student.
- 2(b) The teacher understands culturally responsive pedagogy and the necessity of utilizing it to create the most inclusive learning environment.

**Performance**

- 2(c) The teacher appropriately and effectively collaborates with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.
- 2(d) The teacher systematically progresses through the multiple levels of intervention, beginning with the least intrusive for the student.
- 2(e) The teacher actively engages the school environment, families, and community partners to enact culturally responsive pedagogy.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands the importance of teaching and re-teaching developmentally appropriate classroom expectations and procedures.

**Performance**

- 3(b) The teacher consistently and effectively models, teaches, and re-teaches developmentally appropriate classroom expectations and procedures.
- 3(c) The teacher utilizes positive behavioral supports and multiple levels of intervention to support and develop appropriate student behavior.
- 3(d) The teacher demonstrates understanding of developmentally and age-appropriate digital citizenship and responsibility.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher understands concepts of language arts/literacy and child development in order to teach reading, writing, speaking/listening, language, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.
- 4(b) The teacher understands how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and assessment data to improve student reading and writing abilities.
- 4(c) The teacher understands the fundamental concepts and the need to integrate STEM (Sciences, Technology, Engineering, and Mathematics).
- 4(d) The teacher understands and articulates the knowledge and practices of contemporary science and interrelates and interprets important concepts, ideas, and applications.

- 4(e) The teacher understands concepts of mathematics and child development in order to teach number sense and operations, measurement and data analysis, fractions, algebraic reasoning, and proportional reasoning, to help students successfully apply their developing skills through engaging them in the use of the mathematical practices from the Idaho mathematics standards, within many contexts.
- 4(f) The teacher understands the structure of mathematics and the connections and relationships within learning progressions.
- 4(g) The teacher knows the major concepts and modes of inquiry for social studies: the integrated study of history, geography, government/civics, economics, social/cultural and other related areas to develop students' abilities to make informed decisions as global citizens of a culturally diverse, democratic society and interdependent world.
- 4(h) The teacher understands the relevance and application of the arts, such as dance, music, theater, and visual arts as avenues for communication, inquiry, and insight.
- 4(i) The teacher understands the comprehensive nature of students' physical, intellectual, social, and emotional well-being in order to create opportunities for developing and practicing skills that contribute to overall wellness.
- 4(j) The teacher understands human movement and physical activity as central elements in learning and cognitive development.

**Performance**

- 4(k) The teacher models appropriate and accurate use of written and spoken language.
- 4(l) The teacher utilizes the structure of mathematics and the connections and relationships within the learning progressions in his/her instructional practice to increase student conceptual understanding in conjunction with diagnostic tools and assessment data to improve students' mathematical ability.
- 4(m) The teacher utilizes knowledge of how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and assessment data to improve student reading and writing abilities.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands the importance of providing a purpose and context to use the communication skills taught across the curriculum.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Performance**

- 7(a) The teacher designs instruction that provides opportunities for students to learn through inquiry and exploration.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Performance**

- 8(a) The teacher engages all learners in developing higher order thinking skills.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher understands the significance of engaging in collaborative data-driven decision making.

## IDAHO STANDARDS FOR ENGINEERING TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Engineering Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands how to design developmentally appropriate engineering activities and assignments.

### **Performance**

- 1(b) The teacher designs and implements developmentally appropriate engineering activities and assignments.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands the principles and concepts of engineering design.

- 4(b) The teacher understands the role of mathematics in engineering design and analysis.
- 4(c) The teacher understands the role of natural and physical sciences in engineering design and analysis.
- 4(d) The teacher understands the ethical issues and practices of the engineering profession.
- 4(e) The teacher understands the importance of team dynamics and project management in engineering projects.
- 4(f) The teacher understands how to embed Technology Student Association (TSA) activities through intra-curricular approaches in the engineering program of study.
- 4(g) The teacher understands the differences in engineering career pathways and opportunities.

**Performance**

- 4(h) The teacher applies the principles and concepts of engineering design in the solution of an
- 4(i) engineering design problem.
- 4(j) The teacher can demonstrate the effects engineering has on the society, the environment and
- 4(k) the global community.
- 4(l) The teacher is able to work in a learning community/project team.
- 4(m) The teacher facilitates students working in teams to solve engineering design problems.
- 4(n) The teacher facilitates student understanding of engineering career pathways and opportunities.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher knows the symbols, terminology, and notations specific to engineering.
- 5(b) The teacher recognizes the importance of oral and written communication in the engineering discipline.

**Performance**

- 5(c) The teacher supports and expands student skills in speaking, writing, reading, listening, and in using other mediums, consistent with engineering practices.
- 5(d) The teacher uses the symbols, terminology, and notations specific to engineering.

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Knowledge**

- 6(a) The teacher knows how to select, construct, and use assessment strategies and instruments appropriate to students to measure engineering learning outcomes.

**Performance**

- 6(b) The teacher uses multiple assessment strategies to measure students' ability to apply an engineering design process to address an engineering design problem.
- 6(c) The teacher appropriately uses assessment strategies to measure students' ability to use notation, terminology, and symbols in oral and written communication.

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

- 8(a) The teacher understands how to incorporate design into instructional practice strategies.

**Performance**

- 8(b) The teacher uses a variety of instructional tools and resources for teaching engineering design.
- 8(c) The teacher develops learning activities that integrate content from science, technology, engineering, arts, and mathematic disciplines.

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

- 9(a) The teacher is knowledgeable about the different career opportunities for engineering.
- 9(b) The teacher is familiar with professional engineering organizations and resources available through them.

**Performance**

- 9(c) The teacher stays abreast of professional engineering literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.
- 9(d) The teacher engages in professional discourse about subject matter knowledge and pedagogy.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher is aware of community issues and needs for design opportunities.

**Performance**

- 10(b) The teacher is able to adapt lessons to address community needs using the engineering design process.

GLOSSARY OF TERMS

**Engineering** – The profession in which knowledge of the mathematical and natural sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize economically the materials and forces of nature for the benefit of mankind – Preparation would be a bachelor’s degree

**Engineering Design Process** – A systematic problem-solving strategy, with criteria and constraints, used to develop many possible solutions to solve or satisfy human needs or wants and to narrow down the possible solutions to one final choice.

**Engineering Technology** – The part of the technological field that requires the application of scientific and engineering knowledge and methods combined with technical skills in support of engineering activities; it lies in the occupational spectrum between the craftsman and the engineer at the end of the spectrum closest to the engineer – Preparation would be an associate’s degree or bachelor’s degree in engineering technology

**Technology** – Technology comprises the entire system of people and organizations, knowledge, processes, and devices that go into creating and operating technological artifacts, as well as the artifacts themselves.

## IDAHO STANDARDS FOR ENGLISH LANGUAGE ARTS TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the English Language Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, and clinical experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands developmental levels in reading, writing, listening, viewing, and speaking.
- 1(b) The teacher understands how adolescents read, write, and make meaning of a wide range of texts, genres, and formats (e.g., literature, poetry, informational text, digital media, social media, multimodal).

### **Performance**

- 1(c) The teacher creates developmentally appropriate learning experiences that take into account stages and diverse ways of learning in reading, writing, listening, viewing, and speaking.

***Standard 2: Learning Difference - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Performance**

- 2(a) The teacher designs and/or implements instruction that incorporates students’ linguistic and cultural backgrounds to enable skillful control over their rhetorical choices and language practices for a variety of audiences and purposes.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands how to use students' individual differences, data for literacy learning, identities, and funds of knowledge to create inclusive learning environments that help students participate actively in their own learning in English language arts (e.g., workshops, project based learning, guided writing, Socratic seminars, literature circles).

**Performance**

- 3(b) The teacher collaborates with colleagues to create literacy-rich interdisciplinary learning environments to help students participate actively in their own learning in English language arts.

***Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher is knowledgeable about texts (print and non-print, digital, classic, contemporary, and young adult) that represent a range of world literatures, historical traditions, genres, and the experiences of different genders, ethnicities, and social classes.
- 4(b) The teacher understands principles of language acquisition, dialect, and grammar systems (e.g., descriptive and prescriptive)
- 4(c) The teacher understands the evolution and impact of language on society.
- 4(d) The teacher understands the various writing processes in composing a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose.
- 4(e) The teacher understands the use of contemporary technologies and/or digital media to compose multimodal discourse.
- 4(f) The teacher understands how to use strategies for acquiring and applying vocabulary knowledge.

**Performance**

- 4(g) The teacher uses literary theories to interpret and critique a range of texts.
- 4(h) The teacher demonstrates command of the conventions of standard English (e.g., grammar, usage, and mechanics).

- 4(i) The teacher models various writing processes in composing a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose.
- 4(j) The teacher models the use of contemporary technologies and/or digital media to compose multimodal discourse.
- 4(k) The teacher designs instruction using strategies for acquiring academic and content-specific vocabulary.
- 4(l) The teacher models how to gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source (e.g., bias, rhetoric, documentation practices), and quote or paraphrase the data and conclusions, while avoiding plagiarism and following standard format for citation.

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands research-based strategies that lead to students becoming independent, critical, and strategic readers, writers, speakers, and listeners.

**Performance**

- 5(b) The teacher designs and/or implements instruction related to the strategic use of language conventions (grammar, usage, and mechanics) in the context of students' writing for different audiences, purposes, and modalities.
- 5(c) The teacher designs and/or implements English language arts and literacy instruction that promotes social justice and critical engagement with complex issues related to maintaining a diverse, inclusive, equitable society.
- 5(d) The teacher designs and/or implements instruction related to a breadth and depth of texts, purposes, and complexities that connects concepts so students can become independent, critical, and strategic readers, writers, speakers, and listeners.
- 5(e) The teacher designs and/or implements instruction related to speaking and listening that leads to students becoming critical and active participants in conversations and collaborations.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Performance**

- 6(a) The teacher uses data to differentiate instruction based on multiple kinds of assessments of learning in English language arts (e.g., students' self-assessments, formal assessments, informal assessments).

- 6(b) The teacher designs or knowledgeably selects appropriate reading assessments in response to student interests, reading proficiencies, and/or reading strategies.
- 6(c) The teacher designs or knowledgeably selects a range of assessments for students that promote development as writers, are appropriate to the writing task, and are consistent with current research and theory.
- 6(d) The teacher responds to students' writing throughout the writing processes in ways that engage ideas and encourage their growth as writers over time.
- 6(e) The teacher communicates with students about their performance in ways that actively involve students in their own learning.

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Performance**

- 7(a) The teacher plans instruction which, when appropriate, reflects curriculum integration and incorporates interdisciplinary teaching methods and materials which includes reading, writing, speaking, listening, and language.
- 7(b) The teacher plans standards-based, coherent and relevant learning experiences in reading that reflect knowledge of current theory and research about the teaching and learning of reading, and that utilize individual and collaborative approaches and a variety of reading strategies.
- 7(c) The teacher uses knowledge of theory, research, and practice to plan standards-based, coherent, and relevant composing experiences that utilize individual and collaborative approaches and contemporary technologies and reflect an understanding of writing processes and strategies in different genres for a variety of purposes and audiences.
- 7(d) The teacher uses a range of different texts—across genres, periods, forms, authors, cultures, and various forms of media—and instructional strategies that are motivating and accessible to all students.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Performance**

- 9(a) The teacher models literate and ethical practices in English language arts teaching, engages in a variety of experiences related to English language arts, and reflects on their own professional practices.

*Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning; to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth; and to advance the profession.*

## IDAHO STANDARDS FOR SPECIAL EDUCATION TEACHERS

### IDAHO STANDARDS FOR EXCEPTIONAL CHILD GENERALISTS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, exceptional child teachers must meet Idaho Core Teacher Standards and the Idaho Generalist Standards and may meet one of the following, if applicable: (1) Idaho Standards for Teachers of the Blind and Visually Impaired or (2) Idaho Standards for Teachers of the Deaf ~~and~~ /Hard of Hearing.

The following knowledge and performance statements for the Generalist Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*Standard 1: Learner Development. ~~and Individual Learning Differences~~—The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences. ~~exceptionalities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.~~*

#### Knowledge

- 1(a) The teacher understands how language, culture, health, and family background influence the learning of individuals with exceptionalities.
- 1(b) The teacher has an understanding of development and individual differences to respond to the needs of individuals with exceptionalities.
- 1(c) The teacher understands how exceptionalities can interact with development and learning.

#### Performance

- 1(d) The teacher ~~modifies~~ adapts developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with exceptionalities.
- 1(e) The teacher is active and resourceful in seeking to understand how primary language, culture, and family interact with the exceptionality to influence the individual's academic and social abilities, attitudes, values, interests, and career and post-secondary options.

**Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards. Environments—The teacher creates safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well-being, positive social interactions, and self-determination.**

### Knowledge

- 2(a) The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.
- ~~2(b) The teacher knows how to collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.~~
- ~~2(c) The teacher understands motivational and instructional interventions to teach individuals with exceptionalities how to adapt to different environments.~~
- 2(b) The teacher knows how to intervene safely and appropriately with individuals with exceptionalities in crisis (e.g., positive behavioral supports, functional behavioral assessment and behavior plans).
- 2(c) The teacher understands the educational implications of characteristics of various exceptionalities.
- 2(d) The teacher understands the effect of learners' academic and social abilities, attitudes, interests, and values on instruction and career development.

### Performance

- ~~2(e)2(a) The teacher develops safe, inclusive, culturally responsive learning environments for all students, and collaborates with education colleagues to include individuals with exceptionalities in general education environments and engage them in meaningful learning activities and social interactions.~~
- 2(f)2(e) The teacher ~~modifies~~ adapts learning environments for individual needs and regards an individual's language, family, culture, and other significant contextual factors and how they interact with an individual's exceptionality. The teacher modifies learning environments, and provides for the maintenance and generalization of acquired skills across environments and subjects.

~~2(g)2(a) The teacher structures learning environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy of individuals with exceptionalities, and directly teach them to adapt to the expectations and demands of differing environments.~~

2(h)2(f) The teacher safely intervenes with individuals with exceptionalities in crisis. Special education teachers are also perceived as a resource in behavior management that include the skills and knowledge to intervene safely and effectively before or when individuals with exceptionalities experience crisis, i.e. lose rational control over their behavior.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interactions, active engagement in learning, and self-motivation. Curricular Content Knowledge—The teacher uses knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.***

### Knowledge

3(a) The teacher knows how to collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.

~~3(a)3(b) The teacher understands motivational and instructional interventions to teach individuals with exceptionalities how to adapt to different environments. the central concepts, structures of the discipline, and tools of inquiry of the content areas they teach, and can organize this knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions for individuals with exceptionalities~~

~~3(b)3(a) The teacher understands and uses general and specialized content knowledge for teaching across curricular content areas to individualize learning for individuals with exceptionalities.~~

~~3(c)3(a) The teacher knows how to modify general and specialized curricula to make them accessible to individuals with exceptionalities.~~

### Performance

3(a) The teacher develops safe, inclusive, culturally responsive learning environments for all students, and collaborates with education colleagues to include individuals with exceptionalities in general education environments and engage them in meaningful learning activities and social interactions.

3(b) The teacher structures learning environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy of individuals with exceptionalities, and directly teach them to adapt to the expectations and demands of differing environments.

~~3(a) The teacher demonstrates in their planning and teaching, a solid base of understanding of the central concepts in the content areas they teach.~~

~~3(b)3(a) The teacher collaborates with general educators in teaching or co-teaching the content of the general curriculum to individuals with exceptionalities and designs appropriate learning accommodations, and/or modifications.~~

~~3(c)3(a) The teacher uses a variety of specialized curricula (e.g., academic, strategic, social, emotional, and independence curricula) to individualize meaningful and challenging learning for individuals with exceptionalities.~~

**Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.**  
**~~Assessment The teacher uses multiple methods of assessment and data sources in making educational decisions~~**

### Knowledge

~~4(a) The teacher understands and uses general and specialized content knowledge for teaching across curricular content areas to individualize learning for individuals with exceptionalities.~~

~~4(b) The teacher knows how to accommodate and/or modify general and specialized curricula to make them accessible to individuals with exceptionalities.~~

~~4(a) The teacher knows how to select and use technically sound formal and informal assessments that minimize bias.~~

~~4(b)4(a) The teacher has knowledge of measurement principles and practices, and understands how to interpret assessment results and guide educational decisions for individuals with exceptionalities.~~

~~4(c)4(a) In collaboration with colleagues and families, the teacher knows how to use multiple types of assessment information in making decisions about individuals with exceptionalities.~~

~~4(d)4(a) The teacher understands how to engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them.~~

~~4(e)4(a) The teacher understands assessment information to identify supports, adaptations, and modifications required for individuals with exceptionalities to access the general curriculum and to participate in school, system, and statewide assessment programs.~~

~~4(f)4(a) The teacher is aware of available technologies routinely used to support assessments (e.g., progress monitoring, curriculum-based assessments, etc.).~~

~~4(g)4(a) The teacher understands the legal policies of assessment related to special education referral, eligibility, individualized instruction, and placement for individuals~~

~~with exceptionalities, including individuals from culturally and linguistically diverse backgrounds.~~

### Performance

~~4(c) The teacher collaborates with general educators in teaching or co-teaching the content of the general curriculum to individuals with exceptionalities and designs appropriate learning, accommodations, and/or modifications.~~

~~4(d) The teacher uses a variety of specialized curricula (e.g., academic, strategic, social, emotional, and independence life skills curricula) to individualize meaningful and challenging learning for individuals with exceptionalities.~~

~~4(h)4(a) The teacher regularly monitors the learning progress of individuals with exceptionalities in both general and specialized content and makes instructional adjustments based on these data.~~

~~4(i)4(a) The teacher gathers background information regarding academic, medical, and social history.~~

~~4(j)4(a) The teacher conducts formal and/or informal assessments of behavior, learning, achievement, and environments to individualize the learning experiences that support the growth and development of individuals with exceptionalities.~~

~~4(k)4(a) The teacher integrates the results of assessments to develop a variety of individualized plans, including family service plans, transition plans, behavior change plans, etc.~~

~~4(l)4(a) The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.~~

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues***  
~~*Instructional Planning and Strategies—The teacher selects, adapts, and uses a repertoire of evidence-based instructional strategies and interventions to advance learning of individuals with exceptionalities.*~~

### Knowledge

~~5(a) The teacher understands how to engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them.~~

~~5(a) The teacher knows how to consider an individual's abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.~~

~~5(b)5(a) The teacher understands technologies used to support instructional assessment, planning, and delivery for individuals with exceptionalities.~~

~~5(c)5(a) The teacher is familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.~~

~~5(d)5(a) The teacher understands strategies to enhance language development, communication skills, and social skills of individuals with exceptionalities.~~

- ~~5(a) The teacher knows how to develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.~~
- ~~5(b)5(a) The teacher knows how to teach to mastery and promotes generalization of learning for individuals with exceptionalities.~~
- ~~5(c)5(a) The teacher knows how to teach cross-disciplinary knowledge and skills such as critical thinking and problem solving to individuals with exceptionalities.~~
- ~~5(d)5(a) The teacher knows how to enhance 21st Century student outcomes such as critical thinking, creative problem solving, and collaboration skills for individuals with exceptionalities, and increases their self-determination.~~
- 5(e) The teacher understands available technologies routinely used to support and manage all phases of planning, implementing, and evaluating instruction.

### Performance

- 5(a) The teacher identifies and prioritizes areas of the general education curriculum and accommodations and/or modifications for individuals with exceptionalities.
- 5(b) The teacher integrates social-emotional, behavioral, and life skills with academic curricula.
- ~~5(f)5(a) The teacher plans and uses a repertoire of evidence-based instructional strategies in promoting positive learning results in general and special curricula and in modifying learning environments for individuals with exceptionalities appropriately.~~
- ~~5(g)5(a) The teacher emphasizes explicit instruction with modeling, and guided practice to assure acquisition and fluency, as well as, the development, maintenance, and generalization of knowledge and skills across environments.~~
- ~~5(h)5(a) The teacher matches their communication methods to an individual's language proficiency and cultural and linguistic differences.~~
- ~~5(i)5(a) The teacher utilizes universal design for learning, augmentative and alternative communication systems, and assistive technologies to support and enhance the language and communication of individuals with exceptionalities.~~
- ~~5(j)5(a) The teacher develops a variety of individualized transition plans, such as transitions from preschool to elementary school and from secondary settings to a variety of postsecondary work and learning contexts.~~
- ~~5(k)5(a) The teacher personalizes instructional planning within a collaborative context including the individuals with exceptionalities, families, professional colleagues, and personnel from other agencies as appropriate.~~

**Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.** *Professional Learning and Ethical Practices – The teacher uses*

~~*foundational knowledge of the field and the their professional Ethical Principles and Practice Standards to inform special education practice, to engage in lifelong learning, and to advance the profession.*~~

### Knowledge

6(a) The teacher has knowledge of measurement principles and practices, and understands how to interpret assessment results and guide educational decisions for individuals with exceptionalities.

6(b) In collaboration with colleagues and families, the teacher knows how to use multiple types of assessment information in making decisions about individuals with exceptionalities.

6(c) The teacher understands assessment information to identify supports, adaptations, and/or modifications required for individuals with exceptionalities to access the general curriculum and to participate in school, system, and statewide assessment programs.

6(d) The teacher is aware of available technologies routinely used to support assessments (e.g., progress monitoring, curriculum-based assessments, etc.).

6(e) The teacher understands the legal policies of assessment related to special education referral, eligibility, individualized instruction, and placement for individuals with exceptionalities, including individuals from culturally and linguistically diverse backgrounds.

~~6(a) The teacher understands how foundational knowledge and current issues influence professional practice.~~

~~6(b)6(a) The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with the delivery of special education services.~~

~~6(c) The teacher understands the significance of lifelong learning and participates in professional activities and learning communities.~~

~~6(d)6(a) The teacher understands how to advance the profession by engaging in activities such as advocacy and mentoring.~~

~~6(e)6(a) The teacher knows how to create a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.~~

### Performance

6(f) The teacher regularly monitors the learning progress of individuals with exceptionalities in both general and specialized content and makes instructional adjustments based on these data.

6(g) The teacher gathers background information regarding academic, medical, and social history.

- 6(h) The teacher conducts formal and/or informal assessments of behavior, learning, achievement, and environments to individualize the learning experiences that support the growth and development of individuals with exceptionalities.
- 6(i) The teacher integrates the results of assessments to **determine eligibility and to develop a variety of individualized plans, including family service plans, transition plans, and behavior intervention change plans, etc.**
- 6(j) The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.
- ~~6(f) The teacher uses professional Ethical Principles and Professional Practice Standards to guide their practice.~~
- ~~6(g) The teacher provides guidance and direction to paraeducators, tutors, and volunteers.~~
- ~~6(h) The teacher plans and engages in activities that foster their professional growth and keep them current with evidence-based practices.~~
- ~~6(i)6(a) The teacher is sensitive to the aspects of diversity with individuals with exceptionalities and their families, and the provision of effective special education services for English learners with exceptionalities and their families.~~

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context***  
~~*Collaboration — The teacher will collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.*~~

### Knowledge

- 7(a) The teacher knows how to consider an individual's abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.
- 7(b) The teacher understands technologies used to support instructional assessment, planning, **and delivery, and the evaluation of instruction** for individuals with exceptionalities.
- 7(c) The teacher is familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.
- 7(d) The teacher knows how to develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.

~~7(e) \_\_\_\_\_ The teacher knows how to enhance 21st Century student outcomes such as critical thinking, creative problem solving, and collaboration skills for individuals with exceptionalities, and increases their self-determination.~~

~~7(a) \_\_\_\_\_ The teacher understands the theory and elements of effective collaboration.~~

~~7(b) \_\_\_\_\_ The teacher understands how to serve as a collaborative resource to colleagues.~~

~~7(c) \_\_\_\_\_ The teacher understands how to use collaboration to promote the well being of individuals with exceptionalities across a wide range of settings and collaborators.~~

~~7(d)7(a) \_\_\_\_\_ The teacher understands how to collaborate with their general education colleagues to create learning environments that meaningfully include individuals with exceptionalities, and that foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement.~~

~~7(e)7(a) \_\_\_\_\_ The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.~~

~~7(f)7(a) \_\_\_\_\_ The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.~~

## Performance

~~7(f) \_\_\_\_\_ The teacher develops a variety of individualized transition plans, such as transitions from preschool to elementary school and from secondary settings to a variety of postsecondary work and learning contexts.~~

~~7(g) \_\_\_\_\_ The teacher personalizes instructional planning within a collaborative context including the individuals with exceptionalities, families, professional colleagues, and personnel from other agencies as appropriate.~~

~~7(g)7(a) \_\_\_\_\_ The teacher collaborates with the educational team to uphold current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.~~

~~7(h)7(a) \_\_\_\_\_ The teacher collaborates with related service providers, other educators including special education paraeducators, personnel from community agencies, and others to address the needs of individuals with exceptionalities.~~

~~The teacher involves individuals with exceptionalities and their families collaboratively in all aspects of the education of individuals with exceptionalities.~~

**Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.**

## Knowledge

~~8(a) \_\_\_\_\_ The teacher understands strategies to enhance language development, communication skills, and social skills of individuals with exceptionalities.~~

8(b) The teacher knows how to teach to mastery and promotes generalization of learning for individuals with exceptionalities.

8(c) The teacher knows how to teach cross-disciplinary knowledge and skills such as critical thinking and problem solving to individuals with exceptionalities.

**Performance**

8(d) The teacher plans and uses a repertoire of evidence-based instructional strategies in promoting positive learning results in general and special curricula and in modifying learning environments for individuals with exceptionalities appropriately.

8(e) The teacher ~~emphasizes~~ **develops** explicit instruction with modeling, and guided practice to assure acquisition and fluency, as well as, the development, maintenance, and generalization of knowledge and skills across environments.

8(f) The teacher ~~matches their~~ **aligns** communication methods to an individual's language proficiency and cultural and linguistic differences.

8(g) The teacher utilizes universal design for learning, augmentative and alternative communication systems, and assistive technologies to support and enhance the language and communication of individuals with exceptionalities.

8(h) The teacher provides guidance and direction to paraeducators, tutors, and volunteers.

**Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.**

**Knowledge**

9(a) The teacher understands how foundational knowledge and current issues influence professional practice.

9(b) The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with the delivery of special education services.

9(c) The teacher understands how to advance the profession by engaging in activities such as advocacy and mentoring.

9(d) The teacher knows how to create a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.

9(e) The teacher understands Ethical Principles and Professional Practice Standards for Special Educators to guide their practice.

**Performance**

9(f) The teacher is sensitive to the aspects of diversity with individuals with exceptionalities and their families, and the provision of effective special education services for English learners with exceptionalities and their families.

9(g) The teacher models high expectations and ethical practice, and creates supportive environments that safeguard the legal rights and improve outcomes for individuals with exceptionalities and their families.

**Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.**

**Knowledge**

10(a) The teacher understands how to collaborate with their general education colleagues to create learning environments that meaningfully include individuals with exceptionalities, and that foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement.

10(b) The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.

10(c) The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.

**Performance**

10(d) The teacher collaborates with the educational team to uphold current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.

10(e) The teacher collaborates with related-service providers, other educators including special education paraeducators, personnel from community agencies, and others to address the needs of individuals with exceptionalities.

10(f) The teacher involves individuals with exceptionalities and their families collaboratively in all aspects of the education of individuals with exceptionalities.

10(g) The teacher maintains confidential communication about individuals with exceptionalities.

## IDAHO STANDARDS FOR TEACHERS OF THE BLIND AND VISUALLY IMPAIRED

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, teachers of the blind and visually impaired must meet Idaho Core Teacher Standards.

The following knowledge and performance statements for the Standards for Teachers of the Blind and Visually Impaired are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The teacher of students with visual impairments is well versed in the foundations for education of the blind and visually impaired, the physiology and functions of the visual system, and the effect of vision impairment has on the instructional program. Further, the teacher collaboratively designs instructional strategies based on the results of specialized assessments.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### Knowledge

- 1(a) The teacher understands the need for students to ~~establish body awareness, communication, self-esteem, and social skills, as described in the American Foundation for the Blind~~ demonstrate skills within the Expanded Core Curriculum (Expanded Core Curriculum) (compensatory or functional academic skills, academic skills, including communication modes; orientation and mobility; social interaction skills; independent living skills; recreation and leisure skills; career education; use of assistive technology; sensory efficiency skills; and self-determination).
- 1(b) The teacher knows the effects of a visual impairment on the student’s family or guardians, and the reciprocal impact on the student’s self-esteem.
- 1(c) The teacher understands the ~~variations in functional capabilities and the~~ diverse implications ~~that of~~ various eye diseases ~~have on growth and development~~ including the effect of medication and treatments.

~~1(c)~~1(d) The teacher understands typical and atypical development as it applies to students with visual impairments, including those with additional disabilities.

**Performance**

~~1(d)~~1(e) The teacher provides students with a means to independently access materials readily available to the sighted world.

~~1(e)~~1(f) The teacher prepares students who have visual impairments, including those with additional disabilities, to respond to societal attitudes and actions with appropriate behavior and self-advocacy.

~~1(f)~~1(g) The teacher designs instructional experiences depending on individual student and familial stages of acceptance of the visual impairment.

~~1(g)~~1(h) The teacher communicates information from the optometrist/ophthalmologist report to school personnel to confirm the educational implications of the eye condition and to ensure the student's visual strengths are used.

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

2(a) The teacher knows the impact of visual disorders on learning, experience, and concept development in PreK-12 grades.

2(b) The teacher ~~knows methods for the development of special auditory, tactual,~~ is aware of a variety of assistive technology options needed for auditory, tactual, and modified visual communication skills ~~for students with visual impairments, including those with additional disabilities~~ (e.g., ~~For example: assistive technology specific for the auditory and tactual learner, such as~~ screen readers, ~~refreshable braille display; pre-braille skills; braille reading and writing;~~ magnification options; ~~tactile graphics~~).

2(c) The teacher understands the terminology related to diseases and disorders of the human visual system and their impact on language, communication, cognitive, spatial concept, and psychosocial development.

2(d) The teacher knows how to critique and evaluate the strengths and limitations of various types of assistive technologies.

2(e) The teacher knows a variety of input and output enhancements to computer technologies that address the specific access needs of students with visual impairments, including those with additional disabilities, in a variety of environments.

2(f) The teacher knows techniques for modifying instructional methods and materials for students with visual impairments, including those with additional disabilities, and for assisting classroom teachers in implementing these modifications.

**Performance**

2(g) The teacher teaches, writes, and reads ~~literary braille~~ Unified English Braille (UEB) and Nemeth (math and science), as well as music and computer braille codes.

- 2(h) The teacher secures specialized materials and equipment and provides training, as needed.
- 2(i) The teacher integrates knowledge of the visual impairment when identifying and infusing low vision devices and strategies into the curriculum, learning environments, and instructional techniques.
- 2(j) The teacher integrates ophthalmology, optometry, low vision, and functional vision evaluation/learning media assessments information to comprehensively design strategies as part of an IEP or 504.

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

#### **Knowledge**

- 3(a) The teacher knows and understands factors in the learning environment (e.g., physical layout, organization, teacher behavior and expectations) that affect the learning behavior of students with visual impairments.
- 3(b) The teacher knows and understands strategies for creating a positive, productive learning environment that fosters student achievement and self-determination.
- 3(c) The teacher knows and understands instructional planning and management issues (e.g., time management, caseload management, collaborative planning) related to various models and systems of service delivery (~~e.g.,~~ such as itinerant, residential, ~~transdisciplinary teaming~~ and other programs P-12).

#### **Performance**

- 3(d) The teacher develops management strategies for meeting students' needs effectively and efficiently in the context of various service delivery models and systems.
- 3(e) The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.
- 3(f) The teacher applies organizational strategies that maximize students' ability to benefit from learning activities (e.g., strategies that help them orient themselves, move comfortably in the environment, interact positively with peers).

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

#### **Knowledge**

- 4(a) The teacher knows the historical foundations for the education of children with visual impairments, including a continuum of service options.

- 4(b) The teacher knows about consumer and professional organizations, journals, networks, and services relevant to the field of visual impairment, including deafblindness.

- 4(c) The teacher knows and understands federal laws and regulations related to the educational rights of all students with disabilities (e.g., The Americans with Disabilities Act, The Individuals with Disabilities Education Act, Section 504) and those that specifically address students who are blind or visually impaired (e.g., federal entitlements for the provision of specialized equipment and materials, such as the American Printing House for the Blind Quota Funds).
- 4(d) The teacher possesses an in-depth knowledge of the variances in the medical, federal, and state definitions of visual impairment, identification criteria, labeling issues, incidence and prevalence figures, and how each component interacts with eligibility determinations for service.
- 4(e) The teacher knows specialized policies and resources regarding referral and placement procedures for students with visual impairments.
- 4(f) The teacher knows the effects of medications on the visual system.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher knows and understands factors that promote or hinder effective communication and collaboration with students, parents/guardians, paraprofessionals, teachers, administrators, and other school and community personnel.
- 5(b) The teacher knows and understands the collaborative roles of students, parents/guardians, classroom teachers, and other school and community personnel in planning and implementing students' IEPs, 504s and IFSPs.
- 5(c) The teacher knows and understands the roles of related service personnel (e.g., certified orientation & mobility specialists, physical therapists, school nurses, counselors, rehabilitation staff), and paraprofessionals (e.g., transcribers) in the education of students with visual impairments, including those with additional disabilities.

**Performance**

- 5(d) The teacher applies skills for communicating and collaborating effectively with teachers, paraprofessionals, and other school and community personnel to enhance learning opportunities for students with visual impairments, and ensures that students receive the services they need.
- 5(e) The teacher uses effective strategies for helping classroom teachers understand the effects of visual impairments on learning, for ensuring that teachers receive necessary support (e.g., training and the use of equipment, braille materials for lessons, interlined transcriptions of students' written work in braille), and for ensuring that students have full access to needed adaptations and resources.

- 5(f) The teacher works collaboratively with professionals, family members and other personnel to help provide child-centered intervention for infants, toddlers, preschoolers and school-age students with visual impairments, including those with additional disabilities.
- 5(g) The teacher serves as a resource for parents/guardians and others in the school and community in regard to students with visual impairments and how to promote their learning and address their needs.

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher knows the procedures used for screening, pre-referral, referral, and classifications of students with visual impairments, including vision screening methods, functional vision evaluation, and learning media assessment.
- 6(b) The teacher possesses an in-depth knowledge of procedures for adapting and administering assessments for the intervention, referral, and identification of students with a visual impairment, including those with additional disabilities.

**Performance**

- 6(c) The teacher conducts alternative as well as functional evaluations of visual, literacy, basic orientation and mobility, and educational performance from P-12.
- 6(d) The teacher uses information obtained through functional, alternative, and standardized assessments to plan, deliver, and modify instructional and environmental factors, including IEP or 504 development.

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher knows and understands factors in the learning environment (e.g., physical layout, organization, teacher behaviors and expectations) that affect the learning and behavior of all ages of students with visual impairments.
- 7(b) The teacher knows and understands resources available for individuals with visual impairments, including deaf-blindness and those with additional disabilities (e.g., APH materials, textbooks, agencies).
- 7(c) The teacher knows and understands techniques for creating and adapting instructional materials (e.g., brailled, enlarged, outlined, highlighted) for students with visual impairments.

### Performance

- 7(d) The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.
- 7(e) The teacher uses visual, tactile, auditory and other adaptations to design multisensory learning environments that promote students' full participation and independent learning in a variety of group and individual contexts.
- 7(f) The teacher works collaboratively with the educational team to implement adaptations designed to compensate for visual impairments, including those with additional disabilities.

***Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

### Knowledge

- 8(a) The teacher possesses in-depth knowledge of methods, materials, and assistive technology for providing for the development of cognitive, auditory, tactual, and communication skills for the blind and visually impaired, including those with additional disabilities.
- 8(b) The teacher knows how to assist the student in related Expanded Core Curriculum skills, ~~including developing visual, auditory, and tactile efficiency as well as basic orientation and mobility skills~~ in order to provide access to the content areas.
- 8(c) The teacher knows how to assist the student in developing alternative organizational and study skills.
- 8(d) The teacher knows methods for providing adapted physical and recreation skills for students who have visual impairments, including those with additional disabilities.
- ~~8(e) The teacher knows functional life skills instruction relevant to independent, community, and personal living and to employment for individuals with blindness, visual impairments, and co-occurring impairments, including methods for accessing printed public information, public transportation, community resources, and acquiring practical skills (e.g., keeping personal records, time management, banking, emergency procedures, etc.).~~
- ~~8(f)~~ 8(e) The teacher knows strategies and resources for developing transition plans ~~and career awareness~~ that support the student's ability to function as independently as possible in the community.

### Performance

- ~~8(g)~~ 8(f) The teacher designs, sequences, implements, and evaluates modifications for daily living skills, to increase independence.
- ~~8(h)~~ 8(g) The teacher implements integrated learning experiences that are multi-sensory and encourage active participation, self-advocacy, and independence.

~~8(i)~~8(h) The teacher integrates knowledge of the visual impairment, including additional and co-occurring disabilities, with child development when designing and implementing cognitive, communication, and social skills instruction.

**Standard #9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

#### Knowledge

- 9(a) The teacher knows and understands ethical responsibilities of teachers of students with visual impairments (e.g., advocating for students and their families, seeking improvements in the quality of students' educational services, pursuing ongoing professional development).
- 9(b) The teacher knows and understands the functions of agencies, consumer organizations and initiatives that promote nation-wide standards of excellence for the provision of services to students with visual impairments, including those with additional disabilities.
- 9(c) The teacher knows and understands the functions of professional organizations, publications and activities relevant to ongoing practice and professional development in the field of visual impairment.

#### Performance

- 9(d) The teacher applies knowledge of research-based practices and current trends and issues in the field of visual impairment to provide students with educational programming, materials, and services they need to achieve to their full potential.
- 9(e) The teacher applies knowledge of legal requirements and documentation related to issues such as referral, evaluation, eligibility criteria, due process, confidentiality and least restrictive environment.
- 9(f) The teacher applies knowledge of state requirements and professional guidelines regarding the provision of services to students with visual impairments (e.g., caseloads, funding, array of service options).

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

#### Knowledge

- 10(a) The teacher knows strategies for assisting family, guardians, professionals, and other members of the community in planning appropriate transitions for students who have visual impairments, including those with additional disabilities.

- 10(b) The teacher knows the roles of paraprofessionals (e.g., sighted readers, transcribers, aides) who work directly with students who have visual impairments, including those with additional disabilities, ~~(e.g., sighted readers, transcribers, aides) or who provide special materials to them.~~
- 10(c) The teacher knows that the attitudes, expectations, and behaviors of professionals and peers will affect the behaviors of students with visual impairments, including those with additional disabilities.
- 10(d) The teacher knows and understands The Family Education Rights and Privacy Act (FERPA).

#### Performance

- 10(e) The teacher collaborates with parents, guardians, and other members of the community integral to the student's learning and development.
- 10(f) The teacher ~~clarifies the roles of~~ guides and supports the paraprofessionals who work directly with students who have visual impairments, including those with additional disabilities, ~~(e.g., readers, transcribers, aides) or who provide special materials to those students.~~
- 10(g) The teacher complies with FERPA.

***Standard 11: The teacher knows how to read and produce contracted and uncontracted ~~Literary Braille~~ Unified English Braille (UEB) and Nemeth Codes.***

#### Knowledge

- 11(a) The teacher ~~knows and understands~~ skills and rules for reading and producing ~~Literary Braille (uncontracted and contracted)~~ UEB and Nemeth Codes, including formatting.
- ~~11(b) The teacher knows and understands the rules of the Literary Braille and Nemeth Codes, including formatting.~~

#### Performance

- ~~11(c)~~ 11(b) The teacher applies skills for reading and producing ~~Literary Braille~~ UEB (uncontracted and contracted) and Nemeth Codes with a braille writer ~~and~~ slate and stylus, and electronic production.
- ~~11(d)~~ 11(c) The teacher applies the rules of the ~~Literary Braille~~ UEB and Nemeth Codes when producing and adapting student work.
- ~~11(e)~~ 11(d) The teacher uses resources to obtain ~~age appropriate~~ braille materials such as American Printing House ~~(e.g., APH materials, parent resources, and~~ braille production centers).

## IDAHO STANDARDS FOR TEACHERS OF STUDENTS WHO ARE DEAF/HARD OF HEARING

In addition to the standards listed here, teachers of the deaf and hard of hearing must meet Idaho Core Teacher Standards. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Standards for Teachers of the deaf and hard of hearing are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands how etiology, age of onset, age of identification, age at provision of services, and hearing status influence a student's language development and learning.
- 1(b) The teacher understands that being deaf/hard of hearing alone does not necessarily preclude normal academic development, cognitive development, or communication ability.
- 1(c) The teacher understands how learning and language development occur and the impact of instructional choices on deaf/hard of hearing students so they achieve age appropriate levels of literacy, academics, and social emotional development.

### **Performance**

- 1(d) The teacher identifies levels of language and literacy development and designs lessons and opportunities that are appropriate.
- 1(e) The teacher identifies levels of language and general academics and designs lessons and opportunities that are appropriate.
- 1(f) The teacher identifies levels of social/emotional development and designs lessons and opportunities that are appropriate.

**Standard #2: Learning Differences.** *The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

**Knowledge**

- 2(a) The teacher understands how hearing status and limitations of access to language may influence student development in the following areas: sensory, cognitive, communication, physical, behavioral, cultural, social, and emotional.
- 2(b) The teacher knows the characteristics and impacts of hearing status, and the subsequent need for alternative modes of communication and/or instructional strategies.
- 2(c) The teacher understands the need for written and/or spoken English language learning for students whose native language is American Sign Language (ASL).
- 2(d) The teacher understands the need for differentiated instruction for language learning for emergent language users.
- ~~2(e)~~ 2(f) The teacher ~~understands that an Individualized Education Plan (IEP), including all current State and Federal guidelines for deaf/hard of hearing students should consider the following~~ knows that all of the following are critical influencing factors which need to be considered when setting up programs and services for deaf/hard of hearing students: communication needs; the student and family's preferred mode of communication; linguistic needs; hearing status and potential for ~~using~~ improving auditory access; assistive technology; academic level; and social, emotional, and cultural needs, including opportunities for peer interactions and communication.
- ~~2(e)~~ 2(f) The teacher knows a variety of evidence-based strategies and resources for parent education related to early intervention (birth to age 5).

**Performance**

- 2(g) The teacher uses information concerning hearing status (i.e., sensory, cognitive, communication, linguistic needs); potential for using auditory access; academic level; social, emotional, and cultural needs in planning and ~~implanting~~ implementing differentiated instruction and peer interactions and communication.
- ~~2(f)~~ 2(h) The teacher provides appropriate instruction to students on the effective use of assistive technology and/or interpreting services to support effective access to instructional concepts.

**Standard #3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Knowledge**

- 3(a) The teacher understands the unique social and emotional needs of students who are deaf/ hard of hearing and knows strategies to facilitate the development of healthy self-esteem and identity.
- 3(b) The teacher understands that Deaf cultural factors, communication, and family influences impact ~~classroom management of~~ students' ability to interact with peers and staff across educational environments, including non-academic educational spaces (e.g. playground, lunchroom, hallways, busses).
- 3(c) The teacher understands how the appropriate roles of ~~and the relationship among~~ the teacher, interpreter, and student foster positive social interaction, active engagement in learning, and self-motivation.
- 3(d) The teacher understands how to prepare students for the appropriate use of interpreters and support personnel.
- 3(e) The teacher understands how to manage assistive technology and communication modalities and the impact on the learning environment.
- ~~3(e)~~3(f) The teacher understands the influence of family communication and culture on all developmental demands.

#### Performance

- ~~3(d)~~3(g) The teacher designs a classroom environment to maximize opportunities for students' visual and/or auditory access to support positive social interaction and active engagement in collaborative learning.
- ~~3(e)~~3(h) The teacher creates a learning environment that encourages self-advocacy and the development of a positive self-identity.
- ~~3(f)~~3(i) The teacher ~~prepares students for the appropriate use of interpreters and support personnel~~ provides access to incidental language experiences.

**Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.**

#### Knowledge

- ~~4(a)~~ ~~The teacher understands the theories, history, cultural perspectives, philosophies, and models that provide the basis for education of the deaf/hard of hearing.~~
- ~~4(b)~~ ~~The teacher knows the various educational placement options and how they influence a deaf/hard of hearing student's cultural identity and linguistic, academic, social, and emotional development.~~
- ~~4(c)~~ ~~The teacher understands the complex facets regarding issues related to deaf/hard of hearing individuals and working with their families (e.g., cultural and medical perspectives).~~

4(a) The teacher understands the central concepts, structures of the discipline, and tools of inquiry of the content areas they teach, and can organize this knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions for individuals with exceptionalities.

**Performance**

~~4(d)~~4(b) The teacher uses the tools, models, and strategies applicable to the instructional content area(s) that are appropriate to the needs of students who are deaf/hard of hearing.

~~4(e) The teacher educates others regarding the potential benefits, and constraints of the following: cochlear implants, hearing aids, other amplification usage, sign language systems, ASL, use of technologies, and communication modalities.~~

4(c) The teacher plans and implements transitions across service continuums.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

~~5(a) The teacher understands the role of the interpreter and the use and maintenance of assistive technology.~~

~~5(b) The teacher knows resources, materials, and techniques relevant to communication choices (e.g., total communication, cued speech, ASL, listening and spoken language (LSL), hearing aids, cochlear implants, augmentative and assistive equipment, FM systems, and closed captioning).~~

**Performance**

~~5(c) The teacher uses resources, materials, and techniques that promote effective instruction for students who are deaf/hard of hearing (e.g., total communication, cued speech, ASL, LSL, hearing aids, cochlear implants, augmentative and assistive technology, FM systems, and closed captioning).~~

~~5(d) The teacher meets and maintains the proficiency requirements of the linguistic and educational environment of the student/program. For teachers to be employed in programs where sign language is used for communication and instruction, the teacher will meet one of the following to demonstrate sign language proficiency: 1) score Intermediate Plus level or above as measured by the Sign Language Proficiency Interview (SLPI), 2) receive 3.5 or above on the Educational Interpreter Performance Assessment (EIPA), or 3) obtain the National Registry of Interpreters for the Deaf Certification (RID).~~

~~5(e) The teacher maintains a learning environment that facilitates the services of the interpreter, support personnel, and implementation of other accommodations.~~

~~5(f) The teacher provides instruction to students on the effective use of appropriate assistive technology.~~

**Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.**

**Knowledge**

6(a) The teacher ~~knows specialized terminology used in the~~ understands appropriate functional and standardized assessments ~~of for~~ students who are deaf/hard of hearing.

6(b) The teacher knows the appropriate assessment accommodations for students.

6(c) The teacher understands the components of an adequate evaluation for eligibility, placement, and program planning decisions for students who are deaf/hard of hearing.

~~6(c)~~6(d) The teacher understands the limitations of assessment tools specific to individual student characteristics.

**Performance**

~~6(d)~~6(e) The teacher uses appropriate formal and informal assessment tools that use the natural, native, or preferred language of the student who is deaf/hard of hearing.

~~6(e)~~6(f) The teacher designs and uses appropriate formative assessment tools.

~~6(f)~~6(g) The teacher gathers and analyzes communication samples to determine nonverbal and linguistic skills of students who are deaf/hard of hearing as part of academic assessment.

~~6(g)~~6(h) The teacher uses data from assessments to inform instructional decision making relative to develop present levels of academic achievement and functional performance (PLOP) and IEP goals.

**Standard #7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

~~7(a)~~ The teacher knows Federal and State special education laws (IDEA).

~~7(b)~~7(a) The teacher knows how to ~~develop a meaningful and compliant IEP~~ align unit plans to create meaningful instructional experiences to meet rigorous learning goals.

**Performance**

~~7(c)~~7(b) The teacher, as an individual and a member of a team, selects and creates learning experiences that are: aligned to State curriculum standards, relevant to students, address and align to students' IEP goals, based on principles of effective instruction and performance modes.

7(c) The teacher ~~implements the IEP~~ develops a unit plan to create meaningful instructional experiences to meet rigorous learning goals in compliance with the learner's education plan.

7(d) The teacher uses resources, materials, and techniques that promote effective instruction for students who are deaf/hard of hearing (e.g. total communication, cued speech, ASL, LSL, hearing aids, cochlear implants, augmentative and assistive technology, FM systems, and closed captioning).

**Standard #8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

8(a) The teacher knows how to enhance instruction through the use of technology, visual materials and experiential activities to increase outcomes for students who are deaf/hard of hearing.

8(b) The teacher knows how to ~~develop~~ choose and apply instructional strategies that ~~incorporates~~ engages students in critical thinking, problem solving, and performance skills.

**Performance**

8(c) The teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional objectives ~~purposes~~ and the unique needs of students who are deaf/hard of hearing.

8(d) The teacher maintains a learning environment that facilitates the ~~services~~ effective use of the educational interpreter, note taker, and other support personnel, ~~as well as other accommodations.~~

8(e) The teacher ~~enables~~ implements accommodation(s) and uses assistive technology to support students who are deaf/hard of hearing to ~~use support personnel and assistive technology~~ maximize their understanding of content.

8(f) The teacher implements strategies for stimulating and using residual hearing.

8(g) The teacher facilitates independent communication in all contexts.

8(h) The teacher provides inclusion experiences.

~~8(e)~~8(i) The teacher applies first- and second-language teaching strategies to the instruction of the individual.

***Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

### Knowledge

9(a) The teacher knows The Code of Ethics for Idaho Professional Educators.

9(b) The teacher knows about laws affecting the deaf/hard of hearing community~~citizens and students.~~

9(c) The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching for deaf/hard of hearing students.

9(d) The teacher is aware of their ir personal bias(es) related to the field of education of deaf/hard of hearing children that affect teaching and knows the importance of presenting issues with objectivity, fairness, and respect.

9(e) The teacher knows where to find and how to access professional resources on teaching deaf/hard of hearing students and subject matters, and cultural perspectives.

9(f) The teacher knows about professional organizations within education in general and education of deaf/hard of hearing students and understands the need for professional activity and collaboration beyond the school.

9(g) The teacher understands the dynamics of change and recognizes that the field of education is not static.

9(h) The teacher knows how to use technology to enhance productivity and professionalism.

9(i) The teacher knows federal and state special education laws (IDEA) as well as ADA laws.

~~9(h)~~9(j) The teacher understands the ethical relationship among the teacher, interpreter, and student.

### Performance

~~9(i)~~9(k) The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.

~~9(j)~~9(l) The teacher adheres to local, state, and federal laws, including laws affecting deaf/hard of hearing citizens and students.

~~9(k)~~9(m) The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and current research in the field of education of deaf/hard of hearing students).

~~9(l)~~9(n) The teacher uses self-reflection as a means of improving instruction.

~~9(m)~~9(o) The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.

~~9(n)~~9(p) The teacher stays abreast of professional literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.

~~9(o)~~9(q) The teacher engages in professional discourse about subject matter knowledge and pedagogy, as well as knowledge and pedagogy related to the education of deaf/hard of hearing students.

9(r) The teacher uses technology to enhance productivity and professionalism.

9(s) The teacher adapts to effectively interact with students using varying communication modalities appropriate to student need.

9(t) The teacher understands the theories, history, and importance of integrating culturally relevant perspectives, philosophies, and models that provide the basis for education of the deaf/hard of hearing.

~~9(p)~~9(u) The teacher demonstrates an increase of proficiency and commitment to maintaining instructional language competence.

***Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

#### Knowledge

10(a) The teacher understands the roles and responsibilities of teachers and support personnel in educational practice for deaf/hard of hearing students ~~(e.g., educational interpreters, class teachers, transliterators, tutors, note takers, and audiologist).~~

10(b) The teacher knows of available ~~resources~~ services, organizations, and networks that support individuals who are deaf or hard of hearing.

10(c) The teacher understands the effects of communication on the development of family relationships and knows strategies to facilitate communication within a family that includes a student who is deaf/hard of hearing students.

10(d) The teacher knows the continuum of services provided by individuals and agencies in the ongoing support of students who are deaf/hard of hearing.

~~10(d)~~10(e) The teacher knows of the memorandum of understanding between the State Department of Education and the Idaho Educational Services for the Deaf and Blind, including the supports provided by the Outreach Program.

**Performance**

~~10(e)~~10(f) The teacher facilitates the coordination of support personnel (e.g., interpreters and transliteraters) and agencies to meet the communication needs of students who are deaf/hard of hearing.

~~10(f)~~10(g) The teacher ~~accesses and shares information about available resources with family and community~~ provides families with support to make informed choices regarding communication modes, philosophies, and educational options.

## IDAHO STANDARDS FOR TEACHERS OF GIFTED AND TALENTED STUDENTS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Idaho Standards for Teachers of Gifted and Talented Students are widely recognized, but not all-encompassing or absolute indicators that candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

The Idaho Standards for Teachers of Gifted and Talented Students incorporate the National Association for Gifted Children (NAGC) and the Council for Exceptional Children (CEC) Teacher Preparation Standards in Gifted and Talented Education (2013).

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, his/her content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands the social and emotional issues of individuals with gifts and talents (e.g., perfectionism, underachievement, risk taking, high sensitivity, asynchronous development).
- 1(b) The teacher understands the cognitive, linguistic, social, emotional, and physical theories related to individuals with gifts and talents.
- 1(c) The teacher understands the moral and ethical challenges faced by individuals with gifts and talents.
- 1(d) The teacher understands the need for appropriate social and emotional counseling of individuals with gifts and talents.
- 1(e) The teacher understands the common misconceptions, myths and stereotypes about individuals with gifts and talents.
- 1(f) The teacher understands the characteristics and needs of twice-exceptional students.

**Performance**

- 1(g) The teacher demonstrates knowledge of variations in learning and development between and among individuals with gifts and talents by creating meaningful and challenging learning experiences.
- 1(h) The teacher identifies, evaluates, develops, and implements strategies and resources to address the social and emotional needs of individuals with gifts and talents.
- 1(i) The teacher engages students in learning opportunities that develop moral and ethical dispositions.
- 1(j) The teacher advocates for individuals with gifts and talents and twice-exceptionalities by debunking common misconceptions, myths, and stereotypes associated with giftedness.

***Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

- 2(a) The teacher understands how language, culture, economic status, family background, age, gender, learning disabilities, and other disabilities can influence the learning of individuals with gifts and talents.

**Performance**

- 2(b) The teacher identifies and provides appropriate differentiated curriculum that targets individual students' needs with respect to an individual's high performing capabilities in intellectual, creative, specific academic, or leadership areas, or ability in the performing or visual arts.
- 2(c) The teacher uses understanding of development and individual differences to respond to the needs of individuals with gifts and talents.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands the environmental needs specific to individuals with gifts and talents, especially concerning the development of emotional well-being, positive social interactions, independence, and self-advocacy.

**Performance**

- 3(b) The teacher collaborates with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments that engage individuals with gifts and talents in meaningful learning activities and social interactions.

- 3(c) The teacher uses communication as well as motivational and instructional strategies to facilitate understanding of subject matter and to teach individuals with gifts and talents how to adapt to different environments and develop leadership skills.

***Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Performance**

- 4(a) The teacher organizes knowledge, integrates cross-disciplinary skills, and develops meaningful learning progressions within and across grade levels.

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands curriculum models used to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.
- 5(b) The teacher understands the responsibility of School Districts outlined in Idaho Code 33-2003, as well as the definition of Gifted/Talented Children defined in Idaho Code 33-2001-04 with respect to high performing capabilities in intellectual, creative, specific academic, leadership, and performing or visual arts areas.

**Performance**

- 5(c) The teacher implements specialized curriculum to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.
- 5(d) The teacher implements the components of Idaho Codes 33-2001-04 and 33-2003 with respect to individuals with high performing capabilities in intellectual, creative, specific academic, leadership and performing or visual arts areas.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher understands assessments used in identifying students for gifted education programs and services in intellectual and talent areas according to Idaho Code §33-2001 (4).

**Performance**

- 6(b) The teacher engages individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.
- 6(c) The teacher collaborates with colleagues and families in using multiple types of assessment information to make identification and learning progress decisions and to minimize bias in assessment and decision-making.
- 6(d) The teacher uses knowledge of measurement principles and practices to differentiate assessments and interpret results to guide educational decisions for individuals with gifts and talents.
- 6(e) The teacher selects and administer assessments used to identify students for gifted education programs and services.
- 6(f) The teacher uses assessment results to develop long- and short-range goals and objectives that take into consideration an individual's abilities and needs, the learning environment, and other factors related to diversity.
- 6(g) The teacher is able to recognize underrepresented populations in gifted education programs and choose assessments and interpret results in ways that minimize bias.

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher understands the rationale, history, philosophies, theories, definitions, and models of gifted and talented education.
- 7(b) The teacher understands a variety of instructional strategies as supported by research for gifted and talented individuals used to enhance critical and creative thinking, problem-solving, and performance.
- 7(c) The teacher understands curriculum design that includes adaptations to content, process, product, and/or learning environments to differentiate instruction to meet the needs of individuals with gifts and talents.
- 7(d) The teacher understands how to develop curriculum in the five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

**Performance**

- 7(e) The teacher uses curriculum design that includes adaptations to content, process, product, and/or learning environments to address the needs of individuals with gifts and talents.
- 7(f) The teacher selects and utilizes a variety of curriculum and instructional strategies, as supported by research, to advance the learning of individuals with gifts and talents.

- 7(g) The teacher collaborates with families and professional colleagues in selecting, adapting, and using research-based strategies to promote challenging learning opportunities.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher understands a variety of differentiated instructional strategies to advance individuals with gifts and talents.

**Performance**

- 8(b) The teacher uses and adapt a repertoire of research-based curriculum and instructional strategies to advance the learning and affective development of individuals with gifts and talents.
- 8(c) The teacher engages students in the development, practice, and transfer of meaningful experiences. .
- 8(d) The teacher delivers curriculum in five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

***Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to evaluate continually his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

~~9(a)~~9(h) The teacher understands how foundational knowledge, perspectives, and current issues influence professional practice and the education and treatment of individuals with gifts and talents, both in school and society.

~~9(b)~~9(i) The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with identification of individuals with gifts and talents and the delivery of gifted services.

**Performance**

~~9(c)~~9(j) The teacher uses foundational knowledge of the field and their professional ethical principles and program standards to inform gifted education practice, to engage in lifelong learning, and to advance the profession.

***Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher understands the array of program options and services available for individuals with gifts and talents.
- 10(b) The teacher understands effective implementation of gifted and talented programs.
- 10(c) The teacher understands the State of Idaho components of a district plan for individuals with gifts and talents, as described in IDAPA 08.02.03.171.03.

**Performance**

- 10(d) The teacher collaborates with families, other educators and related service providers, individuals with gifts and talents, and personnel from community agencies in culturally responsive ways to address the needs of individuals with gifts and talents across a range of learning experiences.
- 10(e) The teacher serves as a collaborative resource to colleagues regarding gifted and talented education.
- 10(f) The teacher educates parents, other family members, and colleagues about the social and emotional needs and development of gifted and talented students.
- 10(g) The teacher uses collaboration to promote the well-being of individuals with gifts and talents across a wide range of settings and experiences.
- 10(h) The teacher educates colleagues, parents/guardians, and others about the common misconceptions, myths, stereotypes, and controversial issues related to gifted and talented education.
- 10(i) and the teacher collaborates to implement program options and provide services for individuals with gifts and talents.

GLOSSARY OF TERMS

**Individuals with Exceptionalities** – Individuals with exceptionalities include individuals with sensory, physical, emotional, social, cognitive differences, developmentally delays, exceptional gifts and talents; and individuals who are or have been abused or neglected; whose needs differ so as to require personalized special education services in addition to or in tandem with educational services available through general education programs and other human service delivery systems.

Twice-Exceptional – Students who are twice-exceptional are identified as gifted and talented and are also identified with one or more disability or condition.

## IDAHO STANDARDS FOR HEALTH TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Health Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

### **Knowledge**

- 3(a) The teacher understands developmentally appropriate practices that engage students in health-enhancing behaviors.
- 3(b) The teacher knows strategies to help students develop the essential skills necessary to adopt, practice, and maintain health-enhancing behaviors (National Health Education Standards, 2nd Edition-American Cancer Society)..

### **Performance**

- 3(c) The teacher encourages students to incorporate positive health-enhancing behaviors inside and outside the school setting.
- 3(d) The teacher helps students learn and use personal and social behaviors that promote positive relationships (e.g., avoiding abusive relationships, using refusal skills, setting life goals, and making healthy decisions).

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher understands Elementary and Secondary methods for teaching health literacy to include the following content areas of health:; Alcohol, Tobacco, & Other Drugs; Nutrition & Physical Activity; Injury Prevention & Safety; Mental, Emotional & Social Health; Prevention & Control of Disease; Consumer & Community Health; Growth, Development & Family Life; and Environmental Health.
- 4(b) The teacher understands the following health risk behaviors: Tobacco, Alcohol, and Other Drug use; Sexually Transmitted Diseases (STDs), including sexual behaviors resulting in human immunodeficiency virus (HIV), and unplanned pregnancies; Poor Dietary Behaviors; Lack of or Excessive Physical Activity; and Behaviors resulting in Intentional Injury.
- 4(c) The teacher understands the relationship between health education content areas and youth risk behaviors.
- 4(d) The teacher understands how to implement Idaho Content Standards for Literacy in Technical Subjects (Health) for grades 6-12.
- 4(e) The teacher understands Elementary and Secondary methods for teaching Health Skills to include: Analyzing Influences; Accessing Information; Interpersonal Communication; Decision Making; Goal Setting; Practicing Health Behaviors; and Advocacy.

**Performance**

- 4(f) The teacher instructs students about increasing health-enhancing behaviors, resulting in the reduction of health-risk behaviors.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher recognizes that student jargon and slang associated with high-risk behaviors is ever changing.

**Performance**

- 5(b) The teacher identifies and defines student jargon/slang associated with high-risk behaviors and translates this jargon/slang into terminology appropriate to the educational setting.
- 5(c) The teacher facilitates responsible decision making, goal setting, and alternatives to high-risk behaviors that enhance health.

- 5(d) The teacher creates a respectful and safe learning environment that is sensitive to controversial health issues.

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

### **Knowledge**

- 7(a) The teacher understands how positive evidence based community health values and practices play a role in the planning process.
- 7(b) The teacher understands how to access valid, appropriate health information and health-promoting products and services, as it relates to the planning process.
- 7(c) The teacher understands the influence of culture, media, technology, and other factors on health, as it relates to the planning process.
- 7(d) The teacher knows when and how to access valid health resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).

### **Performance**

- 7(e) The teacher modifies instruction to reflect current health-related research and local health policies.
- 7(f) The teacher accesses valid, appropriate health information and health-promoting products and services.
- 7(g) The teacher analyzes the influence of culture, media, technology, and other factors on health and imbeds them in the planning process.

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

### **Knowledge**

- 9(a) The teacher knows the laws and codes specific to health education and health services to minors.

**Performance**

- 9(b) The teacher uses appropriate interventions following the identification, disclosure, or suspicion of student involvement in a high-risk behavior.

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

- 10(a) The teacher understands methods of advocating for personal, family, and community health (e.g., letters to editor, community service projects, health fairs, health races/walks).

**Performance**

- 10(b) The teacher advocates for a positive school culture toward health and health education.

## IDAHO STANDARDS FOR LITERACY TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Literacy Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards across all content areas.

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### Knowledge

- 1(a) The teacher understands developmental progressions of K-12 literacy skills, including emerging literacy.
- 1(b) The teacher understands how learners apply literacy skills to make meaning of a wide range of texts, genres, and formats (e.g., informational text, digital media, social media, multimodal, literature).

### Performance

- 1(c) The teacher creates learning experiences that take into account developmental stages and diverse methods for acquiring literacy.

***Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### Knowledge

- 2(a) The teacher understands there are multiple levels of literacy intervention and recognizes the advantages of beginning with the least intrusive for the student.
- 2(b) The teacher understands the theories and research needed to develop inclusive literacy learning environments that are responsive to students’ local, national and international histories, individual and group identities, exceptional needs, and languages and dialects that affect student learning.

- 2(c) The teacher understands foundational theories of literacy and language acquisition as they relate to diverse learners, equity, and culturally responsive instruction.
- 2(d) The teacher understands the ways in which diversity influences the literacy development of all students.

**Performance**

- 2(e) The teacher provides students with linguistic, academic, and cultural literacy experiences that link their communities with the school.
- 2(f) The teacher adapts instructional materials and approaches to meet the language-proficiency needs of English learners, students with exceptional needs, and students who struggle to acquire literacy skills and strategies.
- 2(g) The teacher systematically develops and implements multiple levels of literacy intervention, beginning with the least intrusive for the student.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands the role of routines in creating and maintaining positive learning environments using traditional print, digital, and online resources.
- 3(b) The teacher understands how to create inclusive learning environments that contextualize curriculum and instruction and help students participate actively in their own learning.

**Performance**

- 3(c) The teacher arranges instructional areas to provide easy access to books and other instructional materials for a variety of individual, small-group, and whole-class activities.
- 3(d) The teacher creates supportive environments where English learners are encouraged and given many opportunities to use English.
- 3(e) The teacher collaborates with colleagues to create an inclusive, literacy-rich environment to help students participate actively in their own literacy learning.
- 3(f) The teacher creates an inclusive literacy-learning environment that contextualizes curriculum instruction across content areas and helps students participate actively in their own learning.
- 3(g) The teacher facilitates effective student collaboration that provides authentic opportunities for the use of social, academic, and domain specific language.

***Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences***

*that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

- 4(a) The teacher understands theoretical, historical, and evidence-based components of reading (i.e., emerging literacy skills, concepts of print, phonological awareness, phonics, word recognition, fluency, vocabulary development, word analysis, and comprehension for a variety of forms and genres) and their development throughout the grades.
- 4(b) The teacher understands theoretical, historical, and evidence-based components of writing (i.e., writing process in a variety of forms, genres, and purposes; developmental spelling; sentence construction; conventions; characteristics of effective composing; keyboarding, word processing, and handwriting) and writing as a developmental process throughout the grades.
- 4(c) The teacher understands theoretical, historical, and evidence-based components of communication (i.e., development of oral language, verbal and non-verbal communication skills, structure of language, conventions of academic English, vocabulary acquisition and use, speaking, listening, and viewing) and their development throughout the grades.
- 4(d) The teacher understands the key concepts of literacy components and their interconnections as delineated in the Idaho Content Standards to include, but may not be limited to; Reading (Reading for Literature, Reading for Informational Text, and Reading Foundational Skills) based on grade level appropriateness and the developmental needs of student(s) being addressed, Writing, Speaking and Listening, and Language.

**Performance**

- 4(e) The teacher interprets major theories of literacy processes and development to understand the needs of all learners in diverse contexts.
- 4(f) The teacher creates a classroom environment that fosters intrinsic motivation to read and write (e.g., access to print, choice, challenge, interests).
- 4(g) The teacher analyzes and takes a critical stance toward a wide variety of quality traditional print, digital, and online resources.
- 4(h) The teacher analyzes variables of text complexity when selecting classroom materials.

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands specific literacy skills required for success in different content areas.

- 5(b) The teacher understands research based strategies that lead to students becoming independent, critical, and strategic readers, writers, speakers and listeners across content areas.
- 5(c) The teacher understands how to design literacy instruction to promote active participation and collaboration.

**Performance**

- 5(d) The teacher uses digital resources appropriately to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.
- 5(e) The teacher designs and implements literacy instruction related to a breadth and depth of texts, purposes, and complexities that connects concepts so students become independent, critical, and strategic readers, writers, speakers, and listeners.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher understands the research related to assessments and its uses and misuses.
- 6(b) The teacher understands purposes for assessing the literacy performance of all learners, including tools for screening, diagnosis, progress monitoring, and measuring outcomes.
- 6(c) The teacher recognizes the basic technical adequacy of assessments (e.g., reliability, content, construct validity).
- 6(d) The teacher understands a variety of assessment frameworks, including the State of Idaho literacy assessments, proficiency standards, and student benchmarks.

**Performance**

- 6(e) The teacher collaborates with colleagues to administer, interpret, and use data for decision making about student assessment, instruction, intervention, and evaluation for individual students.
- 6(f) The teacher analyzes and uses assessment data to examine the effectiveness of specific intervention practices and students' responses to instruction.
- 6(g) The teacher demonstrates the ability to communicate results of assessments to students, teachers, parents, and other stakeholders.
- 6(h) The teacher designs a range of authentic literacy assessments that demonstrate an understanding of how learners develop and that address interpretive, critical, and evaluative abilities.

- 6(i) The teacher actively engages students in analyzing their own data, assessing their progress, and setting personal literacy goals.

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Performance**

- 7(a) The teacher plans literacy instruction which reflects curriculum integration and incorporates interdisciplinary teaching methods and materials.
- 7(b) The teacher uses knowledge of theory, research, and practice in literacy to plan standards-based, coherent and relevant learning experiences using a range of different texts (e.g., across genres, periods, forms, authors, cultures, various forms of media) and instructional strategies that are motivating and accessible to all students, including English learners, students with exceptional needs, students from diverse language and learning backgrounds, and struggling literacy learners.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Performance**

- 8(a)
- 8(b) The teacher plans and implements research-based instructional strategies to meet unique language-proficiency needs of English learners.

***Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Performance**

- 9(a) The teacher promotes the value of literacy by modeling a positive attitude toward literacy with students, colleagues, administrators, and parents and guardians.
- 9(b) The teacher consults with and advocates on behalf of teachers, students, families, and communities for effective literacy practices and policies.

***Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher understands local, state, and national policies that affect literacy instruction.

**Performance**

- 10(b) The teacher engages in and reflects on a variety of experiences related to literacy that demonstrate understanding of and readiness for leadership, collaboration, ongoing professional development, and community engagement.
- 10(c) The teacher collaborates with others to build strong home-to-school and school-to-home literacy connections.

## IDAHO STANDARDS FOR MATHEMATICS TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Mathematics Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### Knowledge

- 1(a) The teacher knows how to recognize students’ mathematical development, knowledge, understandings, ways of thinking, mathematical dispositions, interests, and experiences.
- 1(b) The teacher knows of learning progressions and learning trajectories that move students toward more sophisticated mathematical reasoning.

### Performance

- 1(c) The teacher encourages students to make connections and develop a cohesive framework for mathematical ideas.
- 1(d) The teacher applies knowledge of learning progressions and trajectories when creating assignments, assessments, and lessons.
- 1(e) The teacher plans and facilitates learning activities that value students’ ideas and guide the development of students’ ways of thinking, and mathematical dispositions in line with research-based learning progressions.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

- 2(a) The teacher knows how to design lessons at appropriate levels of mathematical development, knowledge, understanding, and experience.
- 2(b) The teacher knows how to use assessment data and appropriate interventions for students.

**Performance**

- 2(c) The teacher adjusts and modifies instruction while adhering to the content standards, in order to ensure mathematical understanding for all students.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher knows a variety of problem-solving approaches for investigating and understanding mathematics.
- 4(b) The teacher understands concepts (as recommended by state and national mathematics education organizations) and applications of number and quantity, algebra, geometry (Euclidean and transformational), statistics (descriptive and inferential) and data analysis, and probability, functions, and trigonometry, and has the specialized and pedagogical content knowledge for teaching necessary for those concepts and applications to be implemented in the 6-12 curriculum.
- 4(c) The teacher knows how to make use of hands-on, visual, and symbolic mathematical models in all domains of mathematics.
- 4(d) The teacher knows how to use mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, conceptions, and makes connections between them.
- 4(e) The teacher knows the standards for mathematical practice, how to engage students in the use of those practices, and how they have shaped the discipline.

**Performance**

- 4(f) The teacher connects the abstract and the concrete and asks useful questions to clarify or improve reasoning.
- 4(g) The teacher uses hands-on, visual, and symbolic mathematical models in all domains of mathematics.

- 4(h) The teacher uses mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, and conceptions, and makes connections between them.
- 4(i) The teacher implements the standards for mathematical practice and engages students in the use of those practices.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher knows how to apply mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

**Performance**

- 5(b) The teacher applies mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher knows how to assess students' mathematical reasoning.

**Performance**

- 6(b) The teacher assesses students' mathematical reasoning.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher knows content and practice standards for mathematics and understands how to design instruction to help students meet those standards.
- 7(b) The teacher knows how to plan learning activities that help students move from their current understanding through research-based learning progressions.

**Performance**

- 7(c) The teacher plans and assesses instructional sequences that engage students in learning the formal structure and content of mathematics with and through mathematical practices.

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

- 8(a) The teacher knows how to formulate or access questions and tasks that elicit students' use of mathematical reasoning and problem-solving strategies.
- 8(b) The teacher knows a variety of instructional strategies for investigating and understanding mathematics including inquiry, discourse, and problem-solving approaches.
- 8(c) The teacher knows how to facilitate expression of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.
- 8(d) The teacher understands the appropriate use of technology in teaching and learning of mathematics (e.g., graphing calculators, dynamic geometry software, statistical software).
- 8(e) The teacher knows how to use student conceptions and misconceptions to guide and facilitate learning.

**Performance**

- 8(f) The teacher poses questions and tasks that elicit students' use of mathematical reasoning and problem-solving strategies.
- 8(g) The teacher uses a variety of instructional strategies for investigating and understanding mathematics, including inquiry and problem-solving approaches.
- 8(h) The teacher facilitates exploration of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.
- 8(i) The teacher uses technology appropriately in the teaching and learning of (e.g., graphing calculators, dynamic geometry software, statistical software).
- 8(j) The teacher uses student conceptions and misconceptions to guide and facilitate learning.

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR ONLINE TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the K-12 Online Teacher Standards are widely recognized, but not all-encompassing or absolute indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

Online instruction represents a continuum of teaching and learning practices. Some characteristics of blended and online instruction are unique. Online schools, programs, and courses serving K-12 students are structured to support the needs of students and teachers in online environments. The Online Teacher Standards extend the Idaho Core Teacher Standards.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### Performance

- 2(a) The online teacher constructs learning experiences that take into account students’ physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions in the online environment.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### Knowledge

- 2(a) The online teacher is familiar with legal mandates including, but not limited to the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility, as they pertain to the online environment.
- 2(b) The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.

### Performance

- 2(c) The online teacher applies adaptive/assistive technologies to help people who have disabilities gain access to information that might otherwise be inaccessible.

- 2(d) The online teacher demonstrates unique ways to customize or personalize activities.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The online teacher knows how to leverage management strategies to foster student motivation and engagement.
- 3(b) The online teacher understands motivational theories and their application within online environments.
- 3(c) The online teacher knows the importance of synchronous and asynchronous communication.
- 3(d) The online teacher understands the unique aspects of communicating with students and stakeholders in online environments.
- 3(e) The online teacher demonstrates understanding of developmentally and age-appropriate digital citizenship and responsibility.

**Performance**

- 3(f) The online teacher applies best practices to foster student motivation and engagement in online learning environments.
- 3(g) The online teacher provides timely and effective feedback.
- 3(h) The online teacher demonstrates application in addressing technical issues online students may have.
- 3(i) The online teacher is an effective and responsive communicator who demonstrates and models the ability to select and use appropriate forms of communication.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

**Performance**

- 4(a) The online teacher demonstrates knowledge of digital citizenship, access, equity, and safety concerns in online environments.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The online teacher understands current best practices in online teaching and learning pertinent to subjects taught.

- 5(b) The online teacher understands appropriate uses of technologies to promote student learning and engagement within the content.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The online teacher understands the importance of maintaining accurate records of student performance for instruction and accountability.

**Performance**

- 6(b) The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques appropriate to the online environment.
- 6(c) The online teacher practices appropriate strategies to ensure security and confidentiality of online student assessments and assessment data.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Performance**

- 7(a) The online teacher designs course materials that clearly communicate to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
- 7(b) The online teacher designs and develops subject-specific course materials appropriate to the online environment.
- 7(c) The online teacher uses multiple forms of technologies to design course materials or media.
- 7(d) The online teacher designs course materials to facilitate interaction and discussion.
- 7(e) The online teacher practices legal and ethical media rights and responsibilities.
- 7(f) The online teacher demonstrates use of design principles in the creation of course materials.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The online teacher understands how to adapt instructional strategies for an online environment.

- 8(b) The online teacher understands appropriate functions of Learning Management Systems (LMS) and Content Management Systems (CMS) for student learning.
- 8(c) The online teacher understands the variety of instructional delivery including synchronous and asynchronous modes (e.g., full-time online, blended, face-to-face).

**Performance**

- 8(d) The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs.
- 8(e) The online teacher adapts tools, resources, and student-centered instructional strategies to engage students and enhance learning.
- 8(f) The online teacher demonstrates application of technologies for teaching, learning, and communication.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The online teacher understands concepts, biases, debates, and processes of inquiry that are central to the field of online teaching and learning.
- 9(b) The online teacher understands the importance of maintaining accurate records of communication and interaction with students and stakeholders for accountability and management.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a)** The online teacher understands the importance of educating stakeholders and advocating within the community to advance online learning.

## IDAHO STANDARDS FOR PHYSICAL EDUCATION TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Physical Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Performance**

- 1(a) The teacher assesses the skillful movement, physical activity, and exercise and fitness levels of students; designs developmentally appropriate instruction; and extends learning through collaboration with communities, colleagues, families and other professionals.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Performance**

- 2(a) The teacher provides opportunities that incorporate individual differences (e.g., various physical abilities and limitations, culture, and gender) in skillful movement, physical activity, exercise and fitness to help students gain physical competence and confidence.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher knows how to help students cultivate responsible personal and social behaviors that promote positive relationships and a productive environment in physical education and physical activity settings.
- 3(b) The teacher knows how to engage students in learning about the use of technology operations, concepts, and applications pertinent to healthy active lifestyles (e.g., heart rate monitors, pedometers, global positioning systems, computer software, social media).
- 3(c) The teacher understands principles of effective management in indoor and outdoor physical education and physical activity settings.

**Performance**

- 3(d) The teacher implements strategies and activities to promote positive peer relationships (e.g., caring, mutual respect, support, safety, sportsmanship, and cooperation).
- 3(e) The teacher uses strategies to motivate students to participate in physical activity inside and outside the school setting.
- 3(f) The teacher utilizes principles of effective management in indoor and outdoor physical education and physical activity settings.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands the relationship between skillful movement, physical activity, exercise, fitness, health outcomes, well-being and quality of life.
- 5(b) The teacher understands that daily physical activity provides opportunities for enjoyment, challenge, self-expression, and social interaction.
- 5(c) The teacher understands the scientific foundation of physical activity (e.g., motor behavior and development, human anatomy and physiology, exercise physiology, biomechanics, psychosocial aspects of physical activity).
- 5(d) The teacher knows the appropriate rules, etiquette, instructional cues, tactics (skills and strategies) and techniques for a variety of physical education activities (e.g., aquatics, sports, games, lifetime activities, dance, rhythmical activities, and outdoor/adventure activities).
- 5(e) The teacher understands cultural, historical, and philosophical dimensions of physical education and physical activity.

**Performance\***

- 5(f) The teacher instructs students about the relationship between skillful movement, physical activity, fitness, health outcomes, well-being and quality of life.
- 5(g) The teacher instructs students in the rules, tactics, (skills, and strategies) and techniques of a variety of physical activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).
- 5(h) The teacher instructs students in the scientific foundation of physical activity (e.g., motor behavior and development, human anatomy and physiology, exercise philosophy, biomechanics, psychosocial aspects of physical activity).
- 5(i) The teacher fosters student reflection regarding cultural, historical and philosophical dimension of physical education and physical activity.
- 5(j) The teacher demonstrates improvement and maintains a health enhancing level of physical fitness and physical activity throughout the program.
- 5(k) The teacher facilitates technical demonstration and effective performance (tactics and techniques), in a variety of physical education activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).

- \* Without discrimination against those with disabilities, physical education teacher candidates with special needs are allowed and encouraged to utilize a variety of accommodations and/or modifications to demonstrate competent performance concepts (modified/adapted equipment, augmented communication devices, multi-media devices) and fitness (weight training programs, exercise logs).

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher understands appropriate assessment protocols sensitive to student needs.

**Performance**

- 6(b) The teacher demonstrates appropriate assessment protocols sensitive to student needs.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher knows a variety of management routines (e.g., time transitions, environment, students/staff, equipment) and instructional strategies to maximize physical education activity time and student success.
- 7(b) The teacher knows how to expand the curriculum utilizing a variety of offerings, through the use of family engagement, school activities, and community resources (e.g., family fitness night, parks, golf courses, climbing walls, multi-use facility agreements, and service organizations).

**Performance**

- 7(c) The teacher applies a variety of management routines (e.g., time, transitions, environment, students/staff, equipment) and curricular/ instructional strategies to maximize physical education activity and student success.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher knows multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

**Performance**

- 8(b) The teacher utilizes multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The teacher knows how one's own personal skillful movement, physical activity, exercise, and fitness competence and understands its impact on teaching and student motivation.

**Performance**

- 9(b) The teacher reflects on one's own personal skillful movement, physical activity, exercise, and fitness competence and its impact on teaching and student motivation.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher knows how to promote and advocate for healthy active schools involving physical education, physical activity before, during, and after the school day, and staff, family and community involvement.
- 10(b) The teacher knows how to promote and advocate for physical education and physical activity to students, staff, administrators, parents, school boards and community partners.

**Performance**

- 10(c) The teacher demonstrates a variety of strategies to promote and advocate for healthy active schools.

***Standard 11: Safety - The teacher provides a safe physical education learning environment.***

**Knowledge**

- 11(a) The teacher understands the inherent risks involved in physical activity.
- 11(b) The teacher recognizes safety considerations when planning and providing instruction.
- 11(c) The teacher recognizes factors that influence safety in physical activity settings (e.g., skill, fitness, developmental level of students, equipment, attire, facilities, travel, and weather).
- 11(d) The teacher recognizes the level of supervision required for the health and safety of students in all locations (e.g., teaching areas, locker rooms, off-campus).
- 11(e) The teacher understands school policies regarding the emergency action plan, student injury medical treatment, and transportation.
- 11(f) The teacher understands the appropriate steps when responding to safety situations.
- 11(g) The teacher knows cardiopulmonary resuscitation (CPR) and first aid.

**Performance**

- 11(h) The teacher documents safety issues when planning and implementing instruction to ensure a safe learning environment.
- 11(i) The teacher informs students of the risks associated with physical activity.
- 11(j) The teacher instructs students in appropriate safety procedures for physical activity and corrects inappropriate actions.

- 11(k) The teacher identifies and corrects potential hazards in physical education and physical activity facilities and equipment.
- 11(l) The teacher maintains CPR and first aid certification.

GLOSSARY OF TERMS

**Exercise** – A subcategory of physical activity that is planned, structured, repetitive, and purposive in the sense that the improvement or maintenance of one of more components of physical fitness is the objective. “Exercise” and “exercise training” frequently are used interchangeably and generally refer to physical activity performed during leisure time with the primary purpose of improving or maintaining physical fitness, physical performance, or health.\*

**Health** – A human condition with physical, social and psychological dimensions, each characterized on a continuum with positive and negative poles. Positive health is associated with a capacity to enjoy life and to withstand challenges; it is not merely the absence of disease. Negative health is associated with illness, and in the extreme, with premature death.\*

**Health-Enhancing Physical Activity** – Activity that, when added to baseline activity, produces health benefits. Brisk walking, jumping rope, dancing, playing tennis or soccer, lifting weights, climbing on playground equipment at recess, and doing yoga are all examples of health-enhancing physical activity. \*

**Health-Related Fitness** – A type of physical fitness that includes cardiorespiratory fitness, muscular strength and endurance, body composition, flexibility, and balance.\*

**Moderate-Intensity Physical Activity** – On an absolute scale, physical activity that is done at 3.0 to 5.9 times the intensity of rest. On a scale relative to an individual’s personal capacity, moderate-intensity physical activity is usually a 5 or 6 on a scale of 0 to 10.\*

**Performance-Related Fitness** – Those attributes that significantly contribute to athletic performance, including aerobic endurance or power, muscle strength and power, speed of movement, and reaction time.\*

**Physical Activity** – Any bodily movement produced by the contraction of skeletal muscle that increases energy expenditure above a basal level. In these Guidelines, physical activity generally refers to the subset of physical activity that enhances health.\*

**Physical Fitness** – The ability to carry out daily tasks with vigor and alertness, without undue fatigue, and with ample energy to enjoy leisure-time pursuits and respond to emergencies. Physical fitness includes a number of components consisting of cardiorespiratory endurance (aerobic power), skeletal muscle endurance, skeletal muscle strength, skeletal muscle power, flexibility, balance, speed of movement, reaction time, and body composition.\*

**Skillful Movement** – An efficient, coordinated, fluent and aesthetic goal-directed voluntary performance that consists of specific body and/or limb behaviors that have physiological and biomechanical components.

**Vigorous-Intensity Physical Activity** – On an absolute scale, physical activity that is done at 6.0 or more times the intensity of rest. On a scale relative to an individual’s personal capacity, vigorous-intensity physical activity is usually a 7 or 8 on a scale of 0 to 10.\*

\* Definitions quoted from the U.S. Department of Health and Human Services 2008 Physical Activity Guidelines for Americans

## IDAHO FOUNDATION STANDARDS FOR SCIENCE TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Science Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, science teachers must meet Idaho Core Teacher Standards and at least one of the following: (1) Idaho Standards for Biology Teachers, (2) Idaho Standards for Chemistry Teachers, (3) Idaho Standards for Earth and Space Science Teachers, (4) Idaho Standards for Natural Science Teachers, (5) Idaho Standards for Physical Science Teachers, or (6) Idaho Standards for Physics Teachers.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher knows how students use Science and Engineering Practices and Crosscutting Concepts to develop understanding of the Disciplinary Core Ideas.
- 1(b) The teacher knows common misconceptions and/or partial understandings of scientific disciplinary core ideas and how they develop and affect student learning.

### **Performance**

- 1(c) The teacher addresses common misconceptions and/or partial understandings of scientific disciplinary core ideas as they develop and affect student learning.
- 1(d) The teacher utilizes Science and Engineering Practices and Crosscutting Concepts to develop student understanding of the Disciplinary Core Ideas.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher understands the Idaho State Science Standards within their appropriate certification, including all components.
- 4(b) The teacher is familiar with how history has shaped our current understanding of the nature of science and scientific processes.
- 4(c) The teacher understands the core ideas of their respective discipline (i.e., Disciplinary Core Ideas).
- 4(d) The teacher understands the interconnectedness among the science disciplines (i.e., Crosscutting Concepts).
- 4(e) The teacher understands the processes of science (i.e., Science and Engineering Practices).

**Performance**

- 4(f) The teacher designs and implements lessons (e.g., activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.
- 4(g) The teacher uses diverse examples from history to teach how our current understanding of the nature of science and scientific processes has changed.
- 4(h) The teacher uses the core ideas of their respective discipline (i.e., Disciplinary Core Ideas) to design and implement lessons.
- 4(i) The teacher designs and implements lessons (e.g., activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.
- 4(j) The teacher models and guides students in the use of the processes of science. (i.e., Science and Engineering Practices).

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher knows how to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

**Performance**

- 5(b) The teacher designs opportunities to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher understands how to implement Science and Engineering Practices in instructional planning.
- 8(b) The teacher understands how to use research based best practices to engage a diverse group of students in learning science (e.g., project-based learning, 5E Instruction, place-based).
- 8(c) The teacher understands how to apply mathematics and technology to analyze, interpret, and display scientific data.
- 8(d) The teacher understands technical writing as a way to communicate science concepts and processes.

**Performance**

- 8(e) The teacher implements Science and Engineering Practices in instructional planning.
- 8(f) The teacher uses research based practices to engage a diverse group of students in learning science (e.g., project-based learning, 5E Instruction, place-based).
- 8(g) The teacher designs lessons which allow students to utilize mathematics and technology to analyze, interpret, and display scientific data.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The teacher understands the importance of keeping current on research related to how students learn science.

- 9(b) The teacher understands the importance of keeping current on scientific research findings.

**Performance**

- 9(c) The teacher incorporates current research related to student learning of science into instructional design.
- 9(d) The teacher incorporates current scientific research findings into instructional design.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

***Standard 11: Safety - The science teacher demonstrates and maintains chemical safety, safety procedures, and the ethical treatment of living organisms needed in the science classroom appropriate to their area of licensure.***

**Knowledge**

- 11(a) The teacher knows how to design activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.
- 11(b) The teacher understands how to design activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.
- 11(c) The teacher understands how to ensure safe science activities appropriate for the abilities of all students.
- 11(d) The teacher understands how to design activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.
- 11(e) The teacher knows how to evaluate a facility for compliance with safety regulations.
- 11(f) The teacher knows how to procure and use Material Safety Data Sheets (MSDS).

**Performance**

- 11(g) The teacher designs activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.
- 11(h) The teacher designs activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.
- 11(i) The teacher ensures safe science activities appropriate for the abilities of all students.

- 11(j) The teacher designs activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.
- 11(k) The teacher demonstrates the ability to evaluate a facility for compliance to safety regulations.
- 11(l) The teacher demonstrates the ability to procure and use Material Safety Data Sheet (MSDS).

***Standard 12: Laboratory and Field Activities - The science teacher demonstrates competence in conducting laboratory, and field activities.***

**Knowledge**

- 12(a) The teacher knows a variety of laboratory and field techniques appropriate to their content area.
- 12(b) The teacher knows a variety of strategies to develop students' laboratory and field skills.

**Performance**

- 12(c) The teacher engages students in a variety of laboratory and field techniques appropriate to their content area.
- 12(d) The teacher uses a variety of instructional strategies in laboratory and field experiences to engage students in developing their understanding of the natural world.

## IDAHO STANDARDS FOR BIOLOGY TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, biology teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Biology Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands the major underlying theories and principles of molecular and organismal biology, including: structure and function, growth and development, and organization for matter and energy flow.
- 4(b) The teacher understands the major underlying theories and principles of ecosystems including: interdependent relationships; cycles of energy and matter transfer; the relationship among dynamics, function, and resilience; and social interactions and group behavior.

- 4(c) The teacher understands the major underlying theories and principles of heredity, including structure and function of DNA, and inheritance and variation of traits.
- 4(d) The teacher understands the major underlying theories and principles of biological adaptation; including evidence of common ancestry and diversity, natural selection, adaptation, and biodiversity and humans.

**Performance**

- 4(e) The teacher develops lessons based on the major underlying theories and principles of molecular and organismal biology including; structure and function, growth and development, and organization for matter and energy flow.
- 4(f) The teacher develops lessons based on the major underlying theories and principles of ecosystems including: interdependent relationships; cycles of energy and matter transfer; the relationship among dynamics, function, and resilience; and social interactions and group behavior.
- 4(g) The teacher develops lessons based on the major underlying theories and principles of heredity; including structure and function of DNA, and inheritance and variation of traits.
- 4(h) The teacher develops lessons based on the major underlying theories and principles of biological adaptation; including evidence of common ancestry and diversity, natural selection, adaptation, and biodiversity and humans.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR CHEMISTRY TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, chemistry teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Chemistry Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher has a broad knowledge of mathematical principles and is familiar with the connections that exist between mathematics and chemistry.
- 4(b) The teacher understands fundamental structures of atoms and molecules.
- 4(c) The teacher understands basic principles of ionic, covalent, and metallic bonding.
- 4(d) The teacher understands periodicity of physical and chemical properties of elements.
- 4(e) The teacher understands laws of conservation of matter and energy.

- 4(f) The teacher understands fundamentals of chemical kinetics, equilibrium and thermodynamics.
- 4(g) The teacher understands kinetic molecular theory and gas laws.
- 4(h) The teacher understands mole concept, stoichiometry, and laws of composition.
- 4(i) The teacher understands solutions and colligative properties.
- 4(j) The teacher understands acids/base chemistry.
- 4(k) The teacher understands fundamental oxidation-reduction chemistry.
- 4(l) The teacher understands fundamental organic chemistry and biochemistry.
- 4(m) The teacher understands applications of chemistry in personal and community health and environmental quality.
- 4(n) The teacher understands fundamentals of nuclear chemistry.
- 4(o) The teacher understands the importance of accuracy and precision in measurements.
- 4(p) The teacher understands the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.
- 4(q) The teacher understands the different types of chemical reactions.
- 4(r) The teacher understands symbolic and particulate models and how they can be used to interpret and explain macroscopic observations.

**Performance**

- 4(s) The teacher models the application of mathematical principles and the connections that exist between mathematics and chemistry.
- 4(t) The teacher demonstrates their knowledge of fundamental structures of atoms and molecules.
- 4(u) The teacher applies the basic principles of ionic, covalent, and metallic bonding.
- 4(v) The teacher utilizes the periodic table to predict the physical and chemical properties of elements (e.g. ionization energy, atomic radius, types of bonding).
- 4(w) The teacher illustrates the laws of conservation of matter and energy qualitatively and quantitatively (e.g. balancing chemical equations, enthalpy calculations).
- 4(x) The teacher applies the scientific principles and evidence of chemical kinetics, equilibrium and thermodynamics to the behavior of matter.
- 4(y) The teacher is able to use Kinetic Molecular Theory and concepts of intermolecular forces to make predictions about the macroscopic properties of gases, including both ideal and nonideal.
- 4(z) The teacher can apply the mole concept, stoichiometry, and laws of composition (e.g. converting moles to mass).

- 4(aa) The teacher applies the concepts of solution chemistry (e.g. calculate and prepare solutions at precise concentrations, colligative properties).
- 4(bb) The teacher applies the concepts of acids/base chemistry to predict properties and reactions.
- 4(cc) The teacher is able to identify oxidation-reduction reactions and justify the identification in terms of electron transfer.
- 4(dd) The teacher demonstrates an understanding of the fundamental ideas of organic chemistry and how they relate to biochemistry.
- 4(ee) The teacher relates the fundamental principles of chemistry to personal and community health and environmental quality.
- 4(ff) The teacher can develop models to illustrate the changes in the composition of the nucleus of the atom and the energy released during the processes of fission, fusion, and radioactive decay.
- 4(gg) The teacher applies accuracy and precision to their measurements and calculations.
- 4(hh) The teacher applies the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.
- 4(ii) The teacher categorizes and identifies a variety of chemical reaction types.
- 4(jj) The teacher can utilize symbolic and particulate models to interpret and explain macroscopic observations.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR EARTH AND SPACE SCIENCE TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, earth and space science teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the earth and space science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands the major underlying theories and principles of Earth's place in the universe including; the universe and its stars, Earth and the solar system, the history of planet Earth, radiometric dating, and electromagnetic radiation.
- 4(b) The teacher understands major underlying theories and principles of Earth's systems including; plate tectonics, Earth materials and systems, the roles of water in Earth's surface processes, weather and climate, and biogeology.

- 4(c) The teacher understands the major underlying theories and principles of Earth and human activity including; natural resources, natural hazards, human impacts on Earth systems, and global climate change.

**Performance**

- 4(d) The teacher develops lessons based on the major underlying theories and principles of Earth's place in the universe including; the universe and its stars, Earth and the solar system, the history of planet Earth, radiometric dating, and electromagnetic radiation.
- 4(e) The teacher develops lessons based on the major underlying theories and principles of Earth's systems including; plate tectonics, Earth materials and systems, the roles of water in Earth's surface processes, weather and climate, and biogeology.
- 4(f) The teacher develops lessons based on the major underlying theories and principles of Earth and human activity including; natural resources, natural hazards, human impacts on Earth systems, and global climate change.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

IDAHO STANDARDS FOR NATURAL SCIENCE TEACHERS

Teachers with natural science endorsements must meet all of the following standards:

1. *Idaho Core Teacher Standards*
2. *Idaho Foundation Standards for Science Teachers AND*
3. *Idaho Standards for Biology Teachers OR*
4. *Idaho Standards for Earth and Space Science Teachers OR*
5. *Idaho Standards for Chemistry Teachers OR*
6. *Idaho Standards for Physics Teachers*

IDAHO STANDARDS FOR PHYSICAL SCIENCE TEACHERS

Teachers with physical science endorsements must meet all of the following standards:

1. *Idaho Core Teacher Standards*
2. *Idaho Foundation Standards for Science Teachers* AND
3. *Idaho Standards for Chemistry Teachers* OR
4. *Idaho Standards for Physics Teachers*

## IDAHO STANDARDS FOR PHYSICS TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here physics teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the physics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands electromagnetic and gravitational interactions as well as concepts of matter and energy to formulate a coherent understanding of the natural world.
- 4(b) The teacher understands the major concepts and principles of the basic areas of physics, including classical and quantum mechanics, thermodynamics, waves, optics, electricity, magnetism, and nuclear physics.

- 4(c) The teacher knows how to apply appropriate mathematical and problem solving principles including algebra, geometry, trigonometry, calculus, and statistics in the description of the physical world and is familiar with the connections between mathematics and physics.

**Performance**

- 4(d) The teacher develops and applies conceptual models to describe the natural world.
- 4(e) The teacher tests and evaluates physical models through direct comparison with the phenomena via laboratory and field activities and demonstrations.
- 4(f) The teacher utilizes the appropriate mathematical principles in examining and describing models for explaining physical phenomena.

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO FOUNDATION STANDARDS FOR SOCIAL STUDIES TEACHERS

Social Studies teachers must meet Idaho Core Teacher Standards and Idaho Foundations Standards for Social Studies Teachers and one of the following: (1) Idaho Standards for Economics Teachers, (2) Idaho Standards for Geography Teachers, (3) Idaho Standards for Government and Civics Teachers, (4) Idaho Standards for History Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Social Studies Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands the influences that contribute to intellectual, social, and personal development.
- 1(b) The teacher understands the impact of learner environment on student learning.

### **Performance**

- 1(c) The teacher provides opportunities for learners to engage in civic life, politics, and government.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher has a broad knowledge base of the social studies and related disciplines (e.g., history, economics, geography, political science, behavioral sciences, humanities).
- 4(b) The teacher understands how and why various governments and societies have changed over time.
- 4(c) The teacher understands how and why independent and interdependent systems of trade and production develop.
- 4(d) The teacher understands the impact that cultures, religions, technologies, social movements, economic systems, and other factors have on civilizations, including their own.
- 4(e) The teacher understands the responsibilities and rights of citizens in the United States of America's political system, and how citizens exercise those rights and participate in the system.
- 4(f) The teacher understands how geography affects relationships between people, and environments over time.
- 4(g) The teacher understands how to identify primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts.

**Performance**

- 4(h) The teacher compares and contrasts various governments and cultures in terms of their diversity, commonalties, and interrelationships.
- 4(i) The teacher incorporates methods of inquiry and scholarly research into the curriculum.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher incorporates current events and historical knowledge, to guide learners as they predict how people from diverse global and cultural perspectives may experience and interpret the world around them.
- 5(b) The teacher understands how to effectively analyze the use of primary and secondary sources in interpreting social studies concepts.

**Performance**

- 5(c) The teacher demonstrates and applies chronological historical thinking.
- 5(d) The teacher integrates knowledge from the social studies in order to prepare learners to live in a world with limited resources, cultural pluralism, and increasing interdependence.
- 5(e) The teacher uses and interprets primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables) when presenting social studies concepts.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

#### **Knowledge**

- 8(a) The teacher understands strategies for clear and coherent reading, speaking, listening, and writing within the context of social studies, consistent with approved 6-12 standards.

#### **Performance**

- 8(b) The teacher fosters clear and coherent learner reading, speaking, listening, and writing skills within the context of social studies, consistent with approved 6-12 standards.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## IDAHO STANDARDS FOR ECONOMICS TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Economics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Economics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands basic economic concepts and models (e.g., scarcity, opportunity cost, productive resources, voluntary exchange, supply and demand credit/debt, market incentives, interest rate, imports/exports).
- 4(b) The teacher understands economic indicators (e.g., unemployment, inflation, GDP) in assessing the health of the economy.
- 4(c) The teacher understands the functions and characteristics of money.

- 4(d) The teacher understands economic systems and the factors that influence each system (e.g., culture, values, belief systems, environmental and geographic impacts, and technology).
- 4(e) The teacher knows different types of economic institutions and how they differ from one another (e.g., market structures, stock markets, banking institutions, labor unions).
- 4(f) The teacher understands how economic institutions shaped history and influence current economic practices.
- 4(g) The teacher understands the principles of sound personal finance and personal investment.
- 4(h) The teacher understands fiscal and monetary policy.

**Performance**

- 4(i) The teacher demonstrates comprehension, analysis, and relevance of economic principles and concepts.
- 4(j) The teacher engages learners in the application of economic concepts in their roles as consumers, producers, and workers.
- 4(k) The teacher employs and promotes learner use of graphs, models, and equations to illustrate economic concepts.
- 4(l) The teacher illustrates how economic indicators influence historic and current policy.
- 4(m) The teacher provides examples of the principles of business organizations and entrepreneurship.
- 4(n) The teacher fosters understanding of the important role of economic systems on economic growth.
- 4(o) The teacher develops learner understanding of economic issues through application of cost/benefit analyses.
- 4(p) The teacher conveys the importance and implications of the global marketplace.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR GEOGRAPHY TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Geography teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Geography teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands the five themes of geography (movement, region, human environment interaction, location, and place) and how they are interrelated.
- 4(b) The teacher understands the characteristics and functions of globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases.

**Performance**

- 4(c) The teacher uses past and present events to interpret political, physical, and cultural patterns.
- 4(d) The teacher connects the earth's dynamic physical systems to its impact on humans.
- 4(e) The teacher connects population dynamics and distribution to physical, cultural, historical, economic, and political circumstances.
- 4(f) The teacher connects the earth's physical systems and varied patterns of human activity to world environmental issues.
- 4(g) The teacher incorporates geographic resources (e.g., globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases).

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## IDAHO STANDARDS FOR AMERICAN GOVERNMENT/POLITICAL SCIENCE TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here government and civics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the American Government/Political Science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands the relationships between civic life, politics, and government.
- 4(b) The teacher understands the political spectrum and factors that affect individual political views and behavior.
- 4(c) The teacher understands the purpose and foundations of government and constitutional principles of the United States of America's political system.

- 4(d) The teacher understands the organization of local, state, federal, and tribal governments, how power has evolved, and how responsibilities are organized, distributed, shared, and limited as defined by the Constitution of the United States of America.
- 4(e) The teacher understands the importance of international relations (e.g., evolution of foreign policy, national interests, global perspectives, international involvements, human rights, economic impacts, environmental issues).
- 4(f) The teacher understands the role of elections, political parties, interest groups, media (including social), and public policy (foreign and domestic) in shaping the United States of America's political system.
- 4(g) The teacher understands the civic responsibilities and rights of all individuals in the United States of America (e.g., individual and community responsibilities, participation in the political process, rights and responsibilities of non-citizens, the electoral process).
- 4(h) The teacher understands different forms of government found throughout the world.

**Performance**

- 4(i) The teacher assists learners in developing an understanding of citizenship and promotes learner engagement in civic life, politics, and government.
- 4(j) The teacher demonstrates comprehension and analysis of the foundations and principles of the United States of America political system and the organization and formation of the United States of America government.
- 4(k) The teacher demonstrates comprehension and analysis of United States of America foreign policy and international relations.
- 4(l) The teacher integrates global perspectives and current events into the study of civics and government.
- 4(m) The teacher engages learners in civil discourse and promotes its use in a democratic society.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## IDAHO STANDARDS FOR HISTORY TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here history teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the History teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands themes and concepts in history (e.g., exploration, expansion, migration, immigration).
- 4(b) The teacher understands the political, social, cultural, and economic responses to industrialization and technological innovation.
- 4(c) The teacher understands how international and domestic relations impacted the development of the United States of America.

- 4(d) The teacher understands how significant compromises, conflicts, and events defined and continue to define the United States of America.
- 4(e) The teacher understands the political, social, cultural, and economic development of the United States of America.
- 4(f) The teacher understands the political, social, cultural, and economic development of the peoples of the world.
- 4(g) The teacher understands the impact of gender, race, ethnicity, religion, and national origin on history.
- 4(h) The teacher understands the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts, historical perspectives, and biases.

**Performance**

- 4(i) The teacher makes chronological and thematic connections between political, social, cultural, and economic concepts.
- 4(j) The teacher incorporates the issues of gender, race, ethnicity, religion, and national origin into the examination of history.
- 4(k) The teacher facilitates student inquiry regarding international relationships.
- 4(l) The teacher relates the role of compromises and conflicts to continuity and change across time.
- 4(m) The teacher demonstrates an ability to research, analyze, evaluate, and interpret historical evidence.
- 4(n) The teacher incorporates the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts, historical perspectives, and biases.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

IDAHO STANDARDS FOR SOCIAL STUDIES TEACHERS

Teachers with a social studies endorsement must meet the following Idaho Standards:

1. *Idaho Core Teacher Standards* AND
2. *Foundation Social Studies Standards* AND
3. *History Standards* OR
4. *Government and Civics Standards* OR
5. *Economics Standards* OR
6. *Geography Standards*

## IDAHO STANDARDS FOR TEACHER LEADERS

The following knowledge and performance statements for the Standards for teacher leaders are widely recognized, but not all-encompassing or absolute, indicators that teacher leader candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Understanding Adults as Learners to Support Professional Learning - The teacher leader understands how adults acquire and apply knowledge and uses this information to promote a culture of shared responsibility for school outcomes.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 1(a) Learning theory for adults.
- 1(b) Stages of career development and learning for colleagues and application of the concepts of adult learning to the design and implementation of professional development frameworks.

**Performance: The teacher leader:**

- 1(c) Models and facilitates high quality professional learning for individuals as well as groups.
- 1(d) Supports colleagues' differentiated professional growth.

***Standard 2: Accessing and Using Research to Improve Professional Practice - The teacher leader understands how educational research is used to create new knowledge, support specific policies and practices, improve instructional practice and make inquiry a critical component in teacher learning and school culture; and uses this knowledge to model and facilitate colleagues' use of appropriate research-based strategies and data-driven action plans.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 2(a) Action research methodology.
- 2(b) Analysis of research data and development of a data-driven action plan that reflects relevance and rigor.
- 2(c) Implementation strategies for research-based change and for communication of findings for programmatic changes.
- 2(d) Identification of high quality research.

**Performance: The teacher leader:**

- 2(e) Models and facilitates relevant and targeted action research and engages colleagues in identifying research questions and designing and conducting action research to improve outcomes.
- 2(f) Models and facilitates analysis and application of research findings for informed decision making to improve outcomes with a focus on increased productivity and effectiveness.
- 2(g) Assists with application and supports communication of action research findings to improve outcomes.
- 2(h) Accesses high quality research from various resources.

***Standard 3: Supporting Professional Learning - The teacher leader understands the constantly evolving nature of teaching and learning.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 3(a) The standards of high quality professional development and their relevance to improved learning.
- 3(b) Effective use of professional development needs assessment, designs, protocols, and evaluation tools; selection and evaluation of resources appropriate to the identified need(s) along the professional career continuum.
- 3(c) Appropriate technologies to support collaborative and differentiated professional learning for continuous improvement.
- 3(d) The role of shifting cultural demographics in educational practice.

**Performance: The teacher leader:**

- 3(e) Accurately identifies the professional development needs and opportunities for colleagues in the service of improving education.
- 3(f) Works with staff and staff developers to design and implement ongoing professional learning based on assessed teacher and student needs and involves colleagues in development and implementation of a coherent, systemic, and integrated approach to professional development aligned with school improvement goals.
- 3(g) Uses appropriate technologies to support collaborative and differentiated professional learning.
- 3(h) Continually assesses the effectiveness of professional development activities and adjusts appropriately.

***Standard 4: Facilitating Improvements in Instruction and Student Learning - The teacher leader demonstrates a deep understanding of the teaching and learning process and uses this knowledge to advance the professional skills of colleagues by being a continuous learner, modeling reflective practice, and working collaboratively with colleagues to ensure instructional practices are aligned to a shared vision, mission and goal.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 4(a) Research-based curriculum, instruction, and assessment and their alignment with desired outcomes.
- 4(b) The Idaho Framework for Teaching, effective observation and strategies for providing instructional feedback.
- 4(c) Role and use of critical reflection in improving professional practice.
- 4(d) Effective use of individual interactions, structures, and processes for creating a collaborative culture including networking, facilitation, team building, goal setting, and conflict resolution.
- 4(e) Effective listening, oral communication, presentation skills, and expression in written communication.

**Performance: The teacher leader:**

- 4(f) Recognizes, analyzes, and works toward improving the quality of colleagues' professional and instructional practices.
- 4(g) Based upon the Idaho Framework for Teaching, demonstrates proficiency in recognizing effective teaching and uses effective observation techniques to identify opportunities to improve curriculum, instruction, and assessment.
- 4(h) Provides observational feedback that demonstrates the intent to improve curriculum, instruction, and assessment.
- 4(i) Develops, leads and promotes a culture of self-reflection and reflective dialogue.
- 4(j) Fosters mutually respectful and productive relationships among colleagues and guides purposeful collaborative interactions, inclusive of team members' ideas and perspectives.
- 4(k) Models effective communication skills and processes.
- 4(l) Facilitates development of a responsive culture with shared vision, values, and responsibility and promotes team-based responsibility for assessing and advancing the effectiveness of practice

***Standard 5: Using Assessments and Data for School and District Improvement - The teacher leader is knowledgeable about current research on assessment methods, designing and/or selecting effective formative and summative assessment practices and use of assessment data to make informed decisions that improve student growth; and uses this knowledge to promote appropriate strategies that support continuous and sustainable organizational improvement.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 5(a) Design and selection of targeted and effective assessment instruments and practices for a range of purposes.
- 5(b) Use of formative and summative data to inform the continuous improvement process.
- 5(c) Analysis and interpretation of data from multiple sources.

**Performance: The teacher leader:**

- 5(d) Informs and facilitates colleagues' selection or design of targeted assessment instruments to generate data that will inform instructional improvement.
- 5(e) Models use of formative and summative data to inform the continuous improvement process.
- 5(f) Informs and facilitates colleagues' interpretation of data and application of findings from multiple sources (e.g., standardized assessments, demographics).

***Standard 6: Improving Outreach and Collaboration with Families and Community - The teacher leader understands that families, cultures and communities have a significant impact on educational processes and student achievement and uses this knowledge to support frequent and effective outreach with families, community members, business and community leaders, and other stakeholders in the education system.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 6(a) Contextual and cultural considerations of the student, family, school, and community and their influence on educational processes.
- 6(b) Effective strategies for involvement of families and other stakeholders as part of a responsive culture.

**Performance: The teacher leader:**

- 6(c) Recognizes, responds, and adapts to contextual and cultural considerations to create effective interactions among students, families, communities, and schools.
- 6(d) Promotes effective interaction and involvement of teachers, families, and stakeholders in the educational process.
- 6(e) Fosters colleagues' abilities to form effective relationships with families and other stakeholders.

***Standard 7: Advocating for Students, Community, and the Profession - The teacher leader understands how educational policy is made at the local, state, and national level as well as the roles of school leaders, boards of education, legislators, and other stakeholders in formulating those policies; and uses this knowledge to advocate for student needs and for practices that support effective teaching and student growth and to serve as an individual of influence and respect within the school, community, and profession.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 7(a) The fluidity of local, state, and national policy decisions and their influence on instruction.
- 7(b) The process and the roles of stakeholders who influence policy, and how to advocate on behalf of students and the community.
- 7(c) **Performance: The teacher leader:** Analyzes the feasibility of potential solutions and relevant policy context.

- 7(d) Advocates effectively and responsibly to relevant audiences for realization of opportunities.

***Standards 8: Understanding Systems Thinking – The teacher leader understands systems change processes, organizational change, and the teacher leader’s role as a change agent.***

**Knowledge: The teacher leader demonstrates knowledge of:**

- 8(a) Working effectively within an educational system, including an understanding of layers and power structures within the system.
- 8(b) How to develop dynamic relationships in a variety of situations, including dealing effectively with resistance to change.
- 8(c) Theories and processes for organizational change and the teacher leader’s role in facilitating change.

**Performance: The teacher leader:**

- 8(d) Identifies the decision makers and the resource allocations available to them.
- 8(e) Establishes and cultivates dynamic relationships in a variety of situations.
- 8(f) Sets achievable goals and creates a plan to implement them with an effective message to mobilize others into action.

## IDAHO STANDARDS FOR TEACHER LIBRARIANS

In addition to the standards listed here, teacher librarians must meet Idaho Core Teacher Standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The school library is a classroom that serves as the instructional center of the school and needs the expertise of a professionally trained teacher librarian. The teacher librarian is an experienced classroom teacher with additional specialized training in the discipline of school librarianship.

In the rapidly evolving library landscape, teacher librarians promote and provide information literacy expertise in collaboration with the school community.

The management of a school library requires a special set of skills above and beyond those of a classroom teacher. Collection development and management, cataloging and resource sharing, technology use and maintenance, budgeting, ethical and effective information management, supervision of staff and volunteers, and providing ongoing professional development for staff are just some of the unique expectations for teacher librarians.

This document utilizes language and ideas adapted from the Idaho Standards for Library Science Teachers (2007) and the ALA/AASL Standards for Initial Preparation of School Librarians (2010).

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

- 2(a) The teacher librarian is aware of and respects the diverse cultures within the entire learning community.
- 2(b) The teacher librarian is aware of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities and cultures.
- 2(c) The teacher librarian recognizes the importance of culturally significant learning and reading experiences.

**Performance**

- 2(d) The teacher librarian develops a collection of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities.
- 2(e) The teacher librarian works with all members of the learning community to help determine and locate appropriate materials to respect their cultural diversity.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher librarian has an understanding of evolving library spaces that provide a positive, productive learning environment, with enough time and space for all members of the learning community to access and utilize resources and technology.
- 3(b) The teacher librarian knows the importance of a balanced, organized, and varied library collection that supports curricula, fulfills diverse student, staff, and community needs, and brings a global perspective into the school environment.

**Performance**

- 3(c) The teacher librarian creates a positive environment to promote and model the habit of lifelong reading and learning.
- 3(d) The teacher librarian supports flexible, open access for library services.
- 3(e) The teacher librarian demonstrates the ability to develop solutions for addressing physical, social and intellectual barriers to equitable access to resources and services.
- 3(f) The teacher librarian facilitates access to information in a variety of formats.
- 3(g) The teacher librarian organizes, allocates, and manages the library resources, facilities, and materials to foster a user-friendly environment.
- 3(h) The teacher librarian models and facilitates the effective use of current and emerging digital literacy tools and technology.
- 3(i) The teacher librarian proactively manages the unpredictable traffic flow, accounting for academic visits, drop-in traffic, and patron visits during non-instructional times, enforcing school expectations while maintaining a positive climate.

***Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.

- 4(b) The teacher librarian understands copyright laws, plagiarism, and fair use standards.
- 4(c) The teacher librarian understands the concepts of information literacy (e.g., reading, information, media, digital, and visual literacies, including social media).
- 4(d) The teacher librarian is familiar with a wide range of children's, young adult, and professional literature in multiple formats and languages to support reading for information, pleasure, and lifelong learning.
- 4(e) The teacher librarian understands the process of cataloging and classifying library materials using professional library standards.
- 4(f) The teacher librarian understands the process of information retrieval and resource sharing.
- 4(g) The teacher librarian understands management techniques, including time management and supervision that ensure the efficient operation of the school library.
- 4(h) The teacher librarian understands the principles of basic budget planning, collection development (e.g., selection, processing, and discarding), and the grant application process.
- 4(i) The teacher librarian understands the importance of policies and procedures that support teaching and learning in school libraries.
- 4(j) The teacher librarian understands the importance of their role in developing and promoting reading (e.g., reading aloud to students and book talks).

**Performance**

- 4(k) The teacher librarian adheres to the legal and ethical tenets expressed in the ALA Policy on Confidentiality of Library Records, Privacy: An Interpretation of the Library Bill of Rights, and the ALA Code of Ethics.
- 4(l) The teacher librarian teaches and models the concepts of information literacy (e.g., reading, information, media, digital, and visual literacies, including social media).
- 4(m) The teacher librarian reads, recommends, and promotes a wide and diverse range of children's and young adult literature in multiple formats that reflect cultural diversity to foster habits of creative expression and support reading for information, pleasure, and lifelong learning.
- 4(n) The teacher librarian catalogs and classifies library materials using professional library standards.
- 4(o) The teacher librarian initiates and participates in resource sharing with public, academic, and special libraries, and with networks and library consortia.
- 4(p) The teacher librarian organizes, allocates, and manages the library resources, facilities, time, activities, and materials to provide a broad range of opportunities for learning.

- 4(q) The teacher librarian administers and trains staff to ensure an effective school library program.
- 4(r) The teacher librarian utilizes best practices to plan and budget resources in a fiscally responsible manner.
- 4(s) The teacher librarian uses professional resources that provide guidance in the selection of quality materials and maintains current awareness of the library field.
- 4(t) The teacher librarian supports the staff by locating and providing resources that enable members of the learning community to become effective users of ideas and information.
- 4(u) The teacher librarian develops, implement, and evaluate policies and procedures that support teaching and learning in school libraries.

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher librarian understands the scope and sequence of curricula, how they interrelate, and the information resources needed to support them.
- 5(b) The teacher librarian has a wide range of cross-curricular interests and a broad set of interdisciplinary research skills.

**Performance**

- 5(c) The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.
- 5(d) The teacher librarian models and instructs multiple strategies for students, other teachers, and administrators to locate, select, evaluate, and ethically use information for specific purposes.
- 5(e) The teacher librarian determines collection development needs based on a variety of input, including curricula, patron input, circulation statistics, and professional resources.
- 5(f) The teacher librarian promotes appropriate use of relevant and reliable information and instruction technologies.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher librarian understands many methods of assessing the library program.

- 6(b) The teacher librarian has an awareness of a wide variety of formative and summative assessment strategies to monitor student progress.

**Performance**

- 6(c) The teacher librarian communicates and collaborates with students, teachers, administrators, and community members to develop a library program that aligns resources, services, and standards with the school's mission.
- 6(d) The teacher librarian makes effective use of data and information to assess how the library program addresses the needs of diverse communities.
- 6(e) The teacher librarian collaborates with other teachers to create student assessment opportunities in a variety of formats.

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher librarian understands how to develop and implement the school library program that reflects the mission, goals, and objectives of the school.
- 7(b) The teacher librarian understands effective principles of teaching and learning in collaborative partnership with other educators.
- 7(c) The teacher librarian acknowledges the importance of participating in curriculum development.

**Performance**

- 7(d) The teacher librarian develops and implements the school library mission, goals, objectives, policies, and procedures.
- 7(e) The teacher librarian identifies appropriate services, resources, and technology to meet diverse learning needs.
- 7(f) The teacher librarian includes a variety of reading and information materials in instruction and prompts students through questioning techniques to improve performance.
- 7(g) The teacher librarian collaborates with other teachers as they create, implement, and evaluate lessons, and models the use of information tools to meet the developmental and individual needs of diverse students.
- 7(h) The teacher librarian uses appropriate print and/or electronic instructional resources to design learning experiences.
- 7(i) The teacher librarian models, shares, and promotes effective principles of teaching and learning in collaborative partnership with other educators.

- 7(j) The teacher librarian engages in school improvement processes by offering professional development to other educators as it relates to library and information use.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher librarian understands how twenty-first century literacy skills support the learning needs of the school community.
- 8(b) The teacher librarian recognizes that the effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources will support researching, learning, creating, and communicating in a digital society.

**Performance**

- 8(c) The teacher librarian designs and adapts relevant learning experiences that engage students in authentic learning through the use of digital tools and resources.
- 8(d) The teacher librarian stimulates critical thinking through the skillful use of questioning techniques, and guides students and staff in the selection of materials and information for reading, writing, viewing, speaking, listening, and presenting.
- 8(e) The teacher librarian provides opportunities to foster and model higher order thinking skills and metacognition.
- 8(f) The teacher librarian provides access to information from a variety of sources to enrich learning for students and staff.
- 8(g) The teacher librarian uses appropriate instructional resources in a variety of formats to design learning experiences.
- 8(h) The teacher librarian employs strategies to integrate multiple literacies with content curriculum.
- 8(i) The teacher librarian integrates the use of emerging technologies as a means for effective and creative teaching and to support K-12 students' conceptual understanding, critical thinking and creative processes.
- 8(j) The teacher librarian collaborates with classroom teachers to reinforce a wide variety of reading instructional strategies to ensure K-12 students are able to create meaning from text.
- 8(k) The teacher librarian serves all members of the learning community as facilitator, coach, guide, listener, trainer, and mentor.
- 8(l) The teacher librarian designs and implements developmentally appropriate and challenging learning experiences, both independently and in collaboration with other teachers.

***Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

- 9(a) The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.
- 9(b) The teacher librarian understands the parameters of information access, resource sharing, and ownership based on principles of intellectual freedom and copyright guidelines.
- 9(c) The teacher librarian understands confidentiality issues related to library records.
- 9(d) The teacher librarian recognizes the importance of evaluating practice for improvement of the school library program.

**Performance**

- 9(e) The teacher librarian practices the ethical principles of the profession, advocates for intellectual freedom and privacy, and promotes and models digital citizenship and responsibility.
- 9(f) The teacher librarian educates the school community on the ethical use of information and ideas.
- 9(g) The teacher librarian uses evidence-based research to collect, interpret, and use data to improve practice in school libraries.
- 9(h) The teacher librarian models a strong commitment to the profession by participating in professional growth and leadership opportunities, such as professional learning communities, membership in library associations, attendance at professional conferences, and reading professional publications.
- 9(i) The teacher librarian uses professional resources to keep current in the field and to assist in the selection of quality materials.

***Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher librarian understands various communication and public relations strategies.
- 10(b) The teacher librarian understands the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.

10(c) The teacher librarian recognizes the value of sharing expertise with colleagues.

**Performance**

10(d) The teacher librarian models and promotes lifelong reading for purposes of seeking information, knowledge, pleasure, and learning.

10(e) The teacher librarian collaborates with colleagues and students to assess, interpret, and communicate information.

10(f) The teacher librarian participates in decision-making groups to continually improve library services.

10(g) The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.

10(h) The teacher librarian demonstrates the ability to establish connections with other libraries and to strengthen cooperation among library colleagues for resource sharing, networking, and facilitating access to information.

10(i) The teacher librarian articulates the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.

10(j) The teacher librarian identifies stakeholders within and outside the school community who impact the school library program.

10(k) The teacher librarian advocates for school library and information programs, resources, services, and the library profession.

10(l) The teacher librarian seeks to share expertise with others through in-service, local conferences and other venues.

## IDAHO FOUNDATION STANDARDS FOR VISUAL AND PERFORMING ARTS TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Visual and Performing Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

- 2(a) The teacher understands the impact of the arts on students with exceptional needs, including those associated with disabilities, giftedness, second language acquisition, and at-risk students.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

- 4(a) The teacher understands the history and foundation of arts education.
- 4(b) The teacher understands the processes and content of the arts discipline being taught.

- 4(c) The teacher understands how to observe, describe, interpret, critique, and assess the arts discipline being taught.
- 4(d) The teacher understands the cultural, historical, and contemporary contexts surrounding works of art.
- 4(e) The teacher understands that the arts communicate, challenge, and influence culture and society.
- 4(f) The teacher understands the aesthetic purposes of the arts and that arts involve a variety of perspectives and viewpoints.
- 4(g) The teacher understands how to select and evaluate a range of artistic subject matter and ideas appropriate for students' personal and/or career interests.
- 4(h) The teacher understands connections between art curriculum and vocational opportunities.

**Performance**

- 4(i) The teacher instructs, demonstrates, and models technical and expressive proficiency in the particular arts discipline being taught.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 5(a) The teacher understands the relationships between the arts and how the arts are vital to all content areas.

**Performance**

- 5(b) The teacher engages students in identifying relationships between the arts and other content areas.
- 5(c) The teacher instructs students in making observations, interpretations, and judgments about their own artworks and the works of other artists.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher understands assessment strategies specific to creating, performing, and responding.
- 6(b) The teacher understands how arts assessments strategies (e.g., portfolio, critique, performance/presentation) specific to the arts enhance evaluation, as well as student knowledge and performance.

**Performance**

- 6(c) The teacher assesses student work specific to creating, performing, and responding.

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

- 7(a) The teacher understands that instructional planning for the arts teacher includes acquisition and management of materials, technology, equipment, and use of physical space.

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

- 9(a) The teacher understands regulations regarding copyright laws.

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

- 10(a) The teacher understands appropriate administrative, financial, management, and organizational aspects specific to the school/district arts program and its community partners.
- 10(b) The teacher understands the unique relationships between the arts and their audiences.

**Performance**

- 10(c) The teacher promotes the arts for the enhancement of the school, the community, and society.
- 10(d) The teacher selects and creates art exhibits and performances that are appropriate for different audiences.

**Standard 11: Safety and Management -** *The teacher creates a safe, productive physical learning environment, including management of tools, supplies, equipment, and space.*

**Knowledge**

- 11(a) The teacher knows the procedures for safely handling, operating, storing, and maintaining the tools and equipment appropriate to his or her arts discipline.
- 11(b) The teacher understands the use and management of necessary performance and exhibit tools and equipment specific to his or her discipline.

**Performance**

- 11(c) The teacher established procedures that ensure students have the skills and knowledge necessary to accomplish tasks safely.
- 11(d) The teacher manages the simultaneous activities that take place daily in the arts classroom.

## IDAHO STANDARDS FOR MUSIC TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Music Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### Performance

- 4(a) The teacher is able to prepare students for musical performance, including:
- Singing, alone and with others, a varied repertoire of music.
  - Performing on instruments, alone and with others, a varied repertoire of music.
  - Reading and notating music
- 4(b) The teacher is able to teach students how to create music, including:
- Improvising melodies, variations, and accompaniments.
  - Composing and arranging music within specified guidelines.

- 4(c) The teacher is able to prepare students to respond to musical works, including the following:
- Listening to, analyzing, and describing music.
  - Evaluating music and music performances.
- 4(d) The teacher is able to prepare students to make musical connections, including:
- Understanding relationships between music, the other arts, and disciplines outside the arts.
  - Understanding music in relation to history and culture.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Performance**

- 5(a) The teacher is able to demonstrate how to apply music content knowledge in the following settings: general music, music theory, music technology, guitar, keyboard, and performing ensembles.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## IDAHO STANDARDS FOR THEATRE ARTS TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Theatre Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### Knowledge

- 4(a) The teacher knows the history of theater as a form of entertainment and as a reflection of culture and society influence.
- 4(b) The teacher knows the basic history, theories, and processes of play writing, acting, and directing.
- 4(c) The teacher understands technical theatre/stagecraft is an essential component of theatre arts.

**Performance**

- 4(d) The teacher demonstrates proficiency in all aspects of technical theatre/stagecraft.
- 4(e) The teacher demonstrates proficiency in all aspects of performance.

**Standard 5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Performance**

- 5(a) The teacher demonstrates the ability to direct shows for public performance.
- 5(b) The teacher demonstrates the ability to employ all aspects of technical theatre/stagecraft to build a show for public performance.

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Performance**

- 9(a) Teacher demonstrates the ability to secure performance rights for various forms of productions.

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Standard 11: Safety and Management -** *The teacher creates a safe, productive physical environment, including management of tools, supplies, equipment, and space.*

**Knowledge**

- 11(a) The teacher understands how to operate safely and maintain the theatre facility.
- 11(b) The teacher understands how to operate safely and maintain technical theatre equipment.

- 11(c) The teacher understands OSHA and safety standards specific to theatre arts.
- 11(d) The teacher understands how to manage safely the requirements unique to theatre arts.

**Performance**

- 11(e) The teacher can operate safely and maintain the theatre facility.
- 11(f) The teacher can operate safely and maintain technical theatre equipment.
- 11(g) The teacher employs OSHA and safety standards specific to theatre arts.
- 11(h) The teacher can manage safely the requirements unique to theatre arts.

## IDAHO STANDARDS FOR VISUAL ARTS TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Visual Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that are consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### Knowledge

- 4(a) The teacher understands a variety of media, styles, and techniques in multiple art forms.
- 4(b) The teacher has knowledge of individual artists’ styles and understands the historical and contemporary movements and cultural contexts of those works.
- 4(c) The teacher understands the elements and principles of art and how they relate to art making and art criticism.
- 4(d) The teacher understands how to use the creative process (brainstorm, research, rough sketch, final product, and reflection).

- 4(e) The teacher understands the value of visual arts as they relate to everyday experiences.

**Performance**

- 4(f) The teacher applies a variety of media, styles, and techniques in multiple art forms.
- 4(g) The teacher instructs students in individual artist styles and understands historical and contemporary movements and cultural contexts of those works.
- 4(h) The teacher applies the elements and principles of art and how they relate to art making and art criticism.
- 4(i) The teacher demonstrates how to use the creative process (brainstorm, research, rough sketch, final product).
- 4(j) The teacher provides opportunities for students to collect work over time (portfolio) to reflect on their progress, and to exhibit their work.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## IDAHO STANDARDS FOR WORLD LANGUAGES TEACHERS

All teacher candidates are expected to meet or exceed the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the World Languages Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that assures attainment of the standards and is consistent with its conceptual framework.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

- 1(a) The teacher understands that the process of second language acquisition includes a variety of skills within the presentational, interpretive, and interpersonal modes of communication.
- 1(b) The teacher understands that cultural knowledge is essential for the development of second language acquisition.
- 1(c) The teacher knows the methodologies and theories specific to second language acquisition.
- 1(d) The teacher understands the learner development process from novice to advanced levels of language proficiency.

### **Performance**

- 1(e) The teacher uses a variety of skills within the presentational, interpretive, and interpersonal modes of communication.
- 1(f) The teacher integrates cultural knowledge into all language development.
- 1(g) The teacher integrates the language theories for first and second language acquisition related to cognitive development in order to facilitate language growth.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

- 2(a) The teacher understands sociolinguistic factors such as gender, age, socioeconomic background, ethnicity, sexual orientation, religious beliefs that affect how individuals perceive and relate to their own culture and language and that of the second culture and language.
- 2(b) The teacher understands students' individual needs and how they affect the process of second language acquisition.

**Performance**

- 2(c) The teacher incorporates learning activities that enable students to identify how their perception of the target culture(s) compares with their own.
- 2(d) The teacher differentiates instruction to address the diverse needs of individual students' second language acquisition.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- 3(a) The teacher understands that students thrive in a low affective filter learning environment.
- 3(b) The teacher knows current practices of classroom management techniques (e.g., comprehensible input and output) that successfully allow for a variety of activities that take place in a world language classroom.

**Performance**

- 3(c) The teacher implements strategies that encourage a low affective filter, such as group/pair work, focused practice, positive error correction, and classroom management techniques that use current research-based practices to facilitate group/pair interactions and maintain a positive flow of instruction.
- 3(d) The teacher implements current best practices of classroom management techniques (e.g., comprehensible input and output) that successfully allow for a variety of activities that take place in a world language classroom.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

- 4(a) The teacher knows the ACTFL (American Council on the Teaching of Foreign Languages) Proficiency Guidelines for language skills according to interpretive, presentational, and interpersonal modes.
- 4(b) The teacher knows the cultural perspectives as they are reflected in the target language.
- 4(c) The teacher understands key linguistic structures (e.g., phonetics, morphology, semantics, syntax, pragmatics) particular to the target language.
- 4(d) The teacher knows the history, arts, and literature of the target culture(s).
- 4(e) The teacher knows the current social, political, and economic realities of the countries related to the target language.
- 4(f) The teacher understands how the target language and culture perceives and is perceived by other languages and cultures.
- 4(g) The teacher understands the stereotypes held by both the U.S. and target cultures and the impacts of those beliefs.

**Performance**

- 4(h) The teacher demonstrates advanced level performance according to interpretive, presentational, and interpersonal modes as defined by ACTFL.
- 4(i) The teacher integrates language skills and cultural knowledge in the target language within the presentational, interpretive, and interpersonal modes of communication.
- 4(j) The teacher advocates for the value and benefits of world language learning to education stakeholders.
- 4(k) The teacher uses the target language in presentational, interpretive, and interpersonal modes of communication and provides opportunities for the students to do so.
- 4(l) The teacher provides opportunities to communicate in the target language in meaningful, purposeful activities that simulate real-life situations.
- 4(m) The teacher systematically incorporates culture into instruction.
- 4(n) The teacher incorporates how the target language/culture perceives and is perceived by other languages and cultures.
- 4(o) The teacher demonstrates how culture and language are intrinsically connected.
- 4(p) The teacher demonstrates the way(s) in which key linguistic structures, including phonetics, morphology, semantics, syntax, and pragmatics, particular to the target language, compare to English communication patterns.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Performance**

- 5(a) The teacher uses a variety of techniques to foster proficiency within the target language such as dialogues, songs, open-ended inquiry, non-verbal techniques, guided questions, modeling, role-playing, and storytelling.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

- 6(a) The teacher knows the NCSSFL-ACTFL Can Do Statements and ACTFL Performance Descriptors according to the interpretive, interpersonal and presentational modes for a variety of skills (e.g., listening, speaking, reading, writing, signing).

**Performance**

- 6(b) The teacher uses the NCSSFL-ACTFL Can Do Statements and ACTFL Performance Descriptors according to the interpretive, interpersonal and presentational modes for a variety of skills (e.g., listening, speaking, reading, writing, signing) to create proficiency-based to create proficiency-based formative and summative assessments.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

- 7(a) The teacher understands how to incorporate the ACTFL Standards of communication, cultures, connections, comparisons, and communities into instructional planning.
- 7(b) The teacher knows how to design lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines that enhance student understanding of the target language and culture.
- 7(c) The teacher knows how to design lesson plans that incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.
- 7(d) The teacher understands the relationship of a variety of well-articulated, sequential, and developmentally appropriate language outcomes and language program models.
- 7(e) The teacher knows how to create organized and cohesive curriculum towards successful second language acquisition.

**Performance**

- 7(f) The teacher incorporates the ACTFL Standards of communication, cultures, connections, comparisons, and communities into instructional planning.
- 7(g) The teacher designs lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines, which enhance student understanding of the target language and culture.
- 7(h) The teacher designs lesson plans which incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.
- 7(i) The teacher creates organized and cohesive curriculum towards successful second language acquisition.

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

- 8(a) The teacher understands the need to stay current on world languages methodologies based on emerging research in second language acquisition.
- 8(b) The teacher understands instructional practices that facilitate proficiency-based learning.
- 8(c) The teacher understands the importance of remaining current in second-language pedagogy by means of attending conferences, maintaining memberships in professional organizations, reading professional journals, and/or on-site and on-line professional development opportunities.

**Performance**

- 8(d) The teacher uses a variety of instructional strategies based on current research to enhance students' understanding of the target language and culture.
- 8(e) The teacher incorporates a variety of instructional tools such as technology, local experts, and on-line resources to encourage higher-level thinking skills.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

- 10(a) The teacher knows about career and other life-enriching opportunities available to students proficient in world languages.
- 10(b) The teacher understands the importance of and how to provide opportunities for students and teachers to communicate with native speakers.
- 10(c) The teacher knows how to communicate to education stakeholders the amount of time and energy needed for students to be successful in acquiring a second language.
- 10(d) The teacher understands the effects of second language acquisition on first language mastery and education in general.

**Performance**

- 10(e) The teacher informs students and the broader community of career opportunities and personal enrichment that proficiency in a second language provides in the United States and beyond its borders.
- 10(f) The teacher encourages students to participate in community experiences related to the target culture.

GLOSSARY OF TERMS

**American Council of Teachers of Foreign Languages (ACTFL)** - an organization for world language professionals of K-12 and higher education that sets the standards for an agreed upon set of descriptions of what individuals can do with language in terms of interpretive, interpersonal, and presentational modes for real-world situations in a spontaneous and non-rehearsed context. In addition, they provide proficiency guidelines that identify five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The major levels Advanced, Intermediate, and Novice are subdivided into High, Mid, and Low sublevels. The levels of the ACTFL guidelines describe the continuum of proficiency from that of the highly articulate, well-educated language user to a level of little or no functional ability. These guidelines present the levels of proficiency as ranges, and describe what an individual can and cannot do with language at each level, regardless of where, when how the language was acquired.

**ACTFL Performance Descriptors** – a roadmap for teaching and learning, helping teachers create performance tasks targeted to the appropriate performance range, while challenging learners to also use strategies from the next higher range. Performance is described as the ability to use language that has been learned and practiced in an instructional setting.

**Comprehensible Input** – language that is accessible to students by ensuring that the instructor is using the target language within the reach of the students’ comprehension

**Comprehensible Output** – language produced by the learner that is understandable to others, often through trial and error

**Critical thinking** - an intellectually disciplined process of actively and skillfully applying, analyzing, synthesizing, and or evaluating information, which in its exemplary form transcends subject matter disciplines

**Education Stakeholders** – students, parents, faculty, administration, and community members

**Interpersonal Mode (ACTFL)** – learners interact and negotiate meaning in spoken, signed, or written conversations to share information reactions, feelings, and opinions

**Interpretive Mode (ACTFL)** – learners understand, interpret, and analyze what is heard and read on a variety of topics

**Low Affective Filter** – a metaphorical filter that is caused by a student’s negative emotions which reduce the student’s ability to understand the language spoken to them

**NCSSFL (National Council of State Supervisors of Foreign Languages)-ACTFL Can Do Statements** – describe the specific language tasks that learners are likely to perform at various levels of proficiency

**Negotiation of Meaning** – a process that speakers go through to reach a clear understanding of each other

**Presentational Mode (ACTFL)** – Learners present information, concepts, and ideas to inform, persuade, explain, and narrate on a variety of topics using appropriate media and adapting to various audiences of listeners, readers, or viewers

**Proficiency** – using the target language with fluency and accuracy

**Second Language** – Any language that one speaks other than one’s first language - also known as L2, target language, additive language

**Second Language Acquisition** – The process by which people learn a second language and the scientific discipline that is devoted to understanding that process

**Scaffolding** - a process that enables a student to solve a problem, carry out a task, or achieve a goal which otherwise would be beyond his or her unassisted efforts including instructional, procedural, and verbal techniques

**Task-Based** – Task-based learning focuses on the use of authentic language through meaningful tasks, such as visiting the doctor or requesting an appointment with an instructor through email. This method encourages meaningful communication and is student-centered.

## OTHER TEACHER ENDORSEMENT AREAS

Several teacher endorsement areas were not individually addressed in the current standards (refer to list below), given the small number of courses offered in these specific areas.

To be recommended for endorsement in these content areas, a candidate must meet the Idaho Core Teacher Standards and any current standards of their professional organization(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

### Content/Endorsement Areas

- Humanities \*
- Psychology
- Sociology

*\*The Idaho Standards for the Initial Certification of Teachers address content areas traditionally categorized as humanities requirements for students (e.g. music, drama, art, foreign language).*

## ADMINISTRATOR ENDORSEMENTS

### IDAHO STANDARDS FOR SCHOOL PRINCIPALS

All administrator candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all administrator candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for school principals were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective school principals. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

***Standard 1: Mission, Vision, and Beliefs - Effective school principals develop, advocate, and enact a shared mission, vision, and beliefs of high-quality education and academic success, college and career readiness, and well-being of all students.***

#### **Knowledge**

- 1(a) The school principal understands how to develop an educational mission for the school to promote the academic success and well-being of all students.
- 1(b) The school principal understands the importance of developing a shared understanding of and commitment to mission, vision, and beliefs within the school and the community.
- 1(c) The school principal understands how to model and pursue the school’s mission, vision, and beliefs in all aspects of leadership.

#### **Performance**

- 1(d) The school principal participates in the process of using relevant data to develop and promote a vision for the school on the successful learning and development of all students.
- 1(e) The school principal articulates, advocates, and cultivates beliefs that define the school’s culture and stress the imperative of child-centered education.
- 1(f) The school principal strategically develops and evaluates actions to achieve the vision for the school.
- 1(g) The school principal reviews the school’s mission and vision and makes recommendations to adjust them to changing expectations and opportunities for the school, and changing needs and situations of students.

***Standard 2: Ethics and Professional Norms - Effective school principals act ethically and according to professional norms to promote all students' academic success and well-being.***

**Knowledge**

- 2(a) The school principal understands ethical frameworks and perspectives.
- 2(b) The school principal understands the Code of Ethics for Idaho Professional Educators.
- 2(c) The school principal understands policies and laws related to schools and districts.
- 2(d) The school principal understands how to act according to and promote the professional norms of integrity, fairness, transparency, trust, collaboration, perseverance, learning, and continuous improvement.
- 2(e) The school principal understands the importance of placing children at the center of education and accepting responsibility for each student's academic success and well-being.

**Performance**

- 2(f) The school principal acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the school's resources, and all aspects of school leadership.
- 2(g) The school principal leads with interpersonal and communication skills, social-emotional insight, and understanding of all students' and staff members' backgrounds and cultures.
- 2(h) The school principal models and promotes ethical and professional behavior among teachers and staff in accordance with the Code of Ethics for Idaho Professional Educators.

***Standard 3: Equity and Cultural Responsiveness – School principals strive for equity of educational opportunity and culturally responsive practices to promote all students' academic success and well-being.***

**Knowledge**

- 3(a) The school principal understands how to recognize and respect all students' strengths, diversity, and culture as assets for teaching and learning.
- 3(b) The school principal understands the need for each student to have equitable access to effective teachers, learning opportunities, and academic and social support.
- 3(c) The school principal understands the importance of preparing students to live productively in and contribute to society.
- 3(d) The school principal understands how to address matters of equity and cultural responsiveness in all aspects of leadership.
- 3(e) The school principal understands how to ensure that all students are treated fairly, respectfully, and with an understanding of each student's culture and context.

**Performance**

- 3(f) The school principal develops processes that employ all students' strengths, diversity, and culture as assets for teaching and learning.
- 3(g) The school principal evaluates student policies that address student misconduct in a positive, fair, and unbiased manner.
- 3(h) The school principal acts with cultural competence and responsiveness in their interactions, decision making, and practice.

***Standard 4: Curriculum, Instruction, and Assessment - School principals develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment to promote all students' academic success and well-being.***

**Knowledge**

- 4(a) The school principal understands how to implement and align coherent systems of curriculum, instruction, and assessment that promote the mission, vision, and beliefs of the school, embody high expectations for student learning, align with academic standards, and are culturally responsive.
- 4(b) The school principal understands how to promote instructional practice that is consistent with knowledge of learning and development, effective teaching, and the needs of each student.
- 4(c) The school principal understands the importance of instructional practice that is intellectually challenging, authentic to student experiences, recognizes student strengths, and is differentiated and personalized.
- 4(d) The school principal understands how to utilize valid assessments that are consistent with knowledge of learning and development and technical standards of measurement.
- 4(e) The school principal understands how to ensure instruction is aligned to adopted curriculum and Idaho content standards including provisions for time and resources.

**Performance**

- 4(f) The school principal participates in aligning and focusing systems of curriculum, instruction, and assessment within and across grade levels and programs to promote student academic and career success.
- 4(g) The school principal uses and promotes the effective use of technology in the service of teaching and learning.
- 4(h) The school principal uses assessment data appropriately and effectively, and within technical limitations to monitor student progress and improve instruction.

***Standard 5: Community of Care and Support for Students - School principals cultivate an inclusive, caring, and supportive school community that promotes the academic success and well-being of all students.***

**Knowledge**

- 5(a) The school principal understands how to build and maintain a safe, caring, and healthy school environment that meets the academic, social, emotional, and physical needs of all students.
- 5(b) The school principal understands how to promote adult-student, peer-peer, and school-community relationships that value and support academic learning and positive social and emotional development.
- 5(c) The school principal understands the laws and regulations associated with special student populations.
- 5(d) The school principal understands various intervention strategies utilized to close achievement gaps.
- 5(e) The school principal understands essential components in the development and implementation of individual education programs, adhering to state and federal regulations.

**Performance**

- 5(f) The school principal participates in creating and sustaining a school environment in which each student is known, accepted and valued, trusted and respected, cared for, and encouraged to be an active and responsible member of the school community.
- 5(g) The school principal assists in designing coherent, responsive systems of academic and social supports, services, extracurricular activities, and accommodations to meet the range of learning needs of each student.
- 5(h) The school principal cultivates and reinforces student engagement in school and positive student conduct.

***Standard 6: Professional Capacity of School Personnel - School principals develop the professional capacity and practice of school personnel to promote all students' academic success and well-being.***

**Knowledge**

- 6(a) The school principal understands how to recruit, hire, support, develop, and retain effective and caring teachers and staff.
- 6(b) The school principal understands how to plan for and manage staff turnover and succession, providing opportunities for effective induction and mentoring of new personnel.
- 6(c) The school principal understands how to develop the capacity, opportunities, and support for teacher leadership and leadership from other members of the school community.
- 6(d) The school principal understands the importance of the personal and professional health of teachers and staff.

- 6(e) The school principal understands the Idaho adopted framework for teaching.
- 6(f) The school principal understands how to create individualized professional learning plans and encourage staff to incorporate reflective goal setting practices at the beginning of the school year.
- 6(g) The school principal understands how to foster continuous improvement of individual and collective instructional capacity to achieve outcomes envisioned for all students.
- 6(h) The school principal understands how to empower and motivate teachers and staff to the highest levels of professional practice and to continuous learning and improvement.

**Performance**

- 6(i) The school principal assists in developing teachers' and staff members' professional knowledge, skills, and practice through differentiated opportunities for learning and growth, guided by understanding of professional and adult learning and development.
- 6(j) The school principal delivers actionable feedback about instruction and other professional practice through valid, research-anchored systems of supervision and evaluation to support the development of teachers' and staff members' knowledge, skills, and practice.
- 6(k) The school principal increases their professional learning and effectiveness through reflection, study, and improvement, maintaining a healthy work-life balance.
- 6(l) The school principal utilizes observation and evaluation methods to supervise instructional personnel.

***Standard 7: Professional Community for Teachers - School principals foster a professional community of teachers and other professional staff to promote all students' academic success and well-being.***

**Knowledge**

- 7(a) The school principal understands how to develop workplace conditions for teachers and other staff that promote effective professional development, practice, and student learning.
- 7(b) The school principal understands how to establish and sustain a professional culture of trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.
- 7(c) The school principal understands how to promote mutual accountability among teachers and other staff for each student's success and the effectiveness of the school as a whole.
- 7(d) The school principal understands how to encourage staff-initiated improvement of programs and practices.

**Performance**

- 7(e) The school principal assists in developing and supporting open, productive, caring, and trusting working relationships among teachers and staff to promote professional capacity and the improvement of practice.
- 7(f) The school principal designs and implements job-embedded and other opportunities for professional learning collaboratively with teachers and staff.
- 7(g) The school principal assists with and critiques opportunities provided for collaborative examination of practice, collegial feedback, and collective learning.

***Standard 8: Meaningful Engagement of Families and Community – School principals engage families and the community in meaningful, reciprocal, and mutually beneficial ways to promote all students’ academic success and well-being.***

**Knowledge**

- 8(a) The school principal understands how to create and sustain positive, collaborative, and productive relationships with families and the community for the benefit of students.
- 8(b) The school principal understands and values the community’s cultural, social, and intellectual, resources to promote student learning and school improvement.
- 8(c) The school principal understands how to develop and provide the school as a resource for families and the community.
- 8(d) The school principal understands the need to advocate for the school and district and for the importance of education, student needs, and priorities to families and the community.
- 8(e) The school principal understands how to build and sustain productive partnerships with the community to promote school improvement and student learning.
- 8(f) The school principal understands how to create means for the school community to partner with families to support student learning in and out of school.
- 8(g) The school principal understands how to employ the community’s cultural, social, and intellectual resources to promote student learning and school improvement.

**Performance**

- 8(h) The school principal facilitates open two-way communication with families and the community about the school, students, needs, problems, and accomplishments.
- 8(i) The school principal demonstrates a presence in the community to understand its strengths and needs, develop productive relationships, and engage its resources for the school.
- 8(j) The school principal advocates publicly for the needs and priorities of students, families, and the school community.

*Standard 9: Operations and Management – School principals manage school operations and resources to promote all students’ academic success and well-being.*

**Knowledge**

- 9(a) The school principal understands how to institute, manage, and monitor operations and administrative systems that promote the mission and vision of the school.
- 9(b) The school principal understands how to strategically manage staff resources, assigning and scheduling teachers and staff to roles and responsibilities that optimize their professional capacity to address all students’ learning needs.
- 9(c) The school principal understands how to seek, acquire, and manage fiscal, physical, and other resources to support curriculum, instruction, and assessment; the student learning community; professional capacity and community; and family and community engagement.
- 9(d) The school principal understands the need to be responsible, ethical, and accountable stewards of the school’s monetary and non-monetary resources, engaging in effective budgeting and accounting practices.
- 9(e) The school principal understands how to employ technology to improve the quality and efficiency of operations and management.
- 9(f) The school principal understands how to comply and help the school community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.
- 9(g) The school principal understands governance processes and internal and external politics toward achieving the school’s mission and vision
- 9(h) The school principal understands laws and policies regarding school safety and prevention by creating a detailed school safety plan, which addresses potential physical and emotional threats.
- 9(i) The school principal understands the value of transparency regarding decision making and the allocation of resources.
- 9(j) The school principal understands how to institute, manage, and monitor operations and administrative systems that promote the mission and vision of the school.
- 9(k) The school principal understands how to protect teachers’ and other staff members’ work and learning from disruption.
- 9(l) The school principal understands how to develop and manage relationships with feeder and connecting schools for enrollment management and curricular and instructional articulation.
- 9(m) The school principal understands how to develop and manage productive relationships with the district office and school board.

- 9(n) The school principal understands how to develop and administer systems for fair and equitable management of conflict among students, teachers and staff, leaders, families, and community.

**Performance**

- 9(o) The school principal assists in managing staff resources, assigning and scheduling teachers and staff to roles and responsibilities that optimize their professional capacity to address each student's learning needs.
- 9(p) The school principal assists in seeking, acquiring, and managing fiscal, physical, and other resources to support curriculum, instruction, and assessment; the student learning community; professional capacity and community; and family and community engagement.
- 9(q) The school principal utilizes technology to improve the quality and efficiency of operations and management.
- 9(r) The school principal assists in developing and maintaining data and communication systems to deliver actionable information for classroom and school improvement.
- 9(s) The school principal complies with and helps the school community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.

***Standard 10: Continuous School Improvement – School principals act as agents of continuous school improvement to promote all students' academic success and well-being.***

**Knowledge**

- 10(a) The school principal understands how to make school more effective for all students, teachers, staff, families, and the community.
- 10(b) The school principal understands methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the school.
- 10(c) The school principal understands change and change management processes.
- 10(d) The school principal understands a systems approach to promote coherence among improvement efforts and all aspects of school organization, programs, and services.
- 10(e) The school principal understands how to create and promote leadership among teachers and staff for inquiry, experimentation and innovation, and initiating and implementing improvement.
- 10(f) The school principal understands how to implement methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the school.
- 10(g) The school principal understands how to manage uncertainty, risk, competing initiatives, and politics of change.

- 10(h) The school principal understands how to assess and develop the capacity of staff to evaluate the value and applicability of emerging educational trends and the findings of research for the school and its improvement.
- 10(i) The school principal understands how to promote readiness, instill mutual commitment and accountability, and develop the knowledge, skills, and motivation to succeed in improvement.

**Performance**

- 10(j) The school principal participates in an ongoing process of evidence-based inquiry, learning, strategic goal setting, planning, implementation, and evaluation for continuous school and classroom improvement.
- 10(k) The school principal analyzes situationally-appropriate strategies for improvement, including transformational and incremental, adaptive approaches and attention to different phases of implementation.
- 10(l) The school principal assists in developing appropriate systems of data collection, management, analysis, and use, connecting as needed to the district office and external partners for support in planning, implementation, monitoring, feedback, and evaluation.

## IDAHO STANDARDS FOR SUPERINTENDENTS

All administrator candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all administrator candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for superintendents were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective superintendents. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, superintendents must also meet the Idaho Standards for School Principals.

***Standard 1: Mission, Vision, and Beliefs – Effective superintendents develop, advocate, and enact a shared mission, vision, and the beliefs for high-quality education and academic success for all students.***

### **Knowledge**

- 1(a) The superintendent understands the principles of developing and implementing strategic plans.

### **Performance**

- 1(b) The superintendent articulates, advocates, and cultivates beliefs that define the district’s culture and stress the imperative of child-centered education and continuous improvement.
- 1(c) The superintendent strategically develops, implements, and evaluates actions to achieve the vision for the district.
- 1(d) The superintendent reviews the district’s mission and vision and adjusts them to changing expectations and opportunities for the district, and changing needs.
- 1(e) The superintendent develops shared understanding of and commitment to mission, vision, and beliefs within the district and the community.
- 1(f) The superintendent models and pursues the district’s mission, vision, and beliefs in all aspects of leadership.

***Standard 2: Ethics and Professionalism – Effective superintendents act ethically, legally, and with fiscal responsibility in accordance with professional norms and the Code of Ethics for Idaho Professional Educators.***

**Performance**

- 2(a) The superintendent acts in accordance with and promotes the Code of Ethics for Idaho Professional Educators.
- 2(b) The superintendent acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the district's resources, and all aspects of district leadership.
- 2(c) The superintendent acts in accordance with and promotes the professional norms of integrity, fairness, transparency, trust, collaboration, perseverance, learning, and continuous improvement.

***Standard 3: Equity and Cultural Responsiveness – Effective superintendents strive for equity of educational opportunity and respect diversity.***

**Performance**

- 3(a) The superintendent ensures that each student has equitable access to effective teachers, learning opportunities, academic and social support, and other resources necessary for success.
- 3(b) The superintendent recognizes and addresses implicit biases of student marginalization and low expectations associated with race, class, culture and language, and disability or special status.
- 3(c) The superintendent safeguards and promotes the values of democracy, individual freedom and responsibility, equity, and diversity.

***Standard 4: High Expectations for Student Success – Effective superintendents set high expectations for all students and cultivate the conditions for student learning.***

**Performance**

- 4(a) The superintendent implements coherent systems of curriculum, instruction, and assessment that promote the mission, vision, and beliefs of the district, embody high expectations for student learning, align with academic standards, and provide a pathway to college and/or career.
- 4(b) The superintendent aligns and focuses systems of curriculum, instruction, and assessment within and across grade levels and schools to promote student academic success.

***Standard 5: High Expectations for Professional Practice – Effective superintendents develop the professional capacity and practice of school personnel to promote student success.***

**Performance**

- 5(a) The superintendent recruits, hires, supports, develops, and retains effective and caring educators and staff.
- 5(b) The superintendent develops principals', teachers', and staff members' professional knowledge, skills, and practice.

- 5(c) The superintendent delivers actionable feedback about instruction and other professional practice through valid, research-anchored systems of supervision and evaluation to support the development of principals', teachers' and staff members' knowledge, skills, and practice.
- 5(d) The superintendent empowers and motivates principals, teachers, and staff to the highest levels of professional practice (individually and collectively) for continuous learning and improvement.
- 5(e) The superintendent develops workplace conditions for principals, teachers and other professional staff that promote effective professional development, practice, and student learning.
- 5(f) The superintendent empowers and entrusts principals, teachers and staff with collective responsibility for meeting the academic, social, emotional, and physical needs of each student, pursuant to the mission, vision, and beliefs of the district.
- 5(g) The superintendent establishes and sustains a professional culture of engagement and commitment to shared vision, goals, and objectives.
- 5(h) The superintendent establishes mutual accountability among educators and other professional staff for each student's success and the effectiveness of the district as a whole.
- 5(i) The superintendent supports open, productive, collaborative, trusting working relationships among principals, teachers, and staff to build professional capacity and improve practices.
- 5(j) The superintendent designs and implements job-embedded and other opportunities for professional learning collaboratively with principals, teachers, and staff.

***Standard 6: Advocacy and communications – Effective superintendents engage with others in meaningful, reciprocal, and mutually beneficial ways to promote student success.***

**Performance**

- 6(a) The superintendent engages in regular and open two-way communication with families, the community, and other stakeholders about the district, students, needs, problems, and accomplishments.
- 6(b) The superintendent creates means for the district community to partner with families to support student learning in and out of schools in the district.
- 6(c) The superintendent advocates for education, the district and school, principals, teachers, parents, and students to engender district support and involvement.
- 6(d) The superintendent works effectively in the political environment at district, local, and state levels.
- 6(e) The superintendent builds and sustains productive partnerships with public and private sectors to promote district improvement and student learning.

***Standard 7: Operations and Management – Effective superintendents manage district operations and resources to promote system success.***

**Knowledge**

- 7(a) The superintendent understands the dynamics of collective bargaining, mediation, arbitration, and contract law.
- 7(b) The superintendent understands the responsibility and need for planning, maintaining, and budgeting for school facilities, personnel, technology, support services, and instructional programs.
- 7(c) The superintendent understands the importance of educating the whole child; high expectations for professional work; ethical and equitable practice; trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.
- 7(d) The superintendent understands and helps the school district community understand local, state, and federal laws, rights, policies, and regulations to promote student success.

**Performance**

- 7(e) The superintendent institutes, manages, and monitors operations and administrative systems that promote the mission and vision of the district.
- 7(f) The superintendent organizes time and delegates responsibilities to balance administrative/ managerial, educational, and community leadership priorities.
- 7(g) The superintendent strategically manages human resources, assigning and scheduling staff to roles and responsibilities that optimize their professional capacity.
- 7(h) The superintendent is a responsible, ethical, and accountable steward of the district's monetary and non-monetary resources, engaging in effective budgeting and accounting practices.
- 7(i) The superintendent develops and maintains data and communication systems for continuous improvement.
- 7(j) The superintendent develops and administers systems for fair and equitable management of conflict among students, principals, teachers, staff, leaders, families, and community.
- 7(k) The superintendent complies with local, state, and federal laws, rights, policies, and regulations to promote student success.

***Standard 8: Continuous Improvement – Effective superintendents engage in a process of continuous improvement to ensure student success.***

**Knowledge**

- 8(a) The superintendent understands the responsibility and need to promote strategies for continuous reassessment and improved performance for each student, school, and the district as a whole.

**Performance**

- 8(b) The superintendent uses methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the district.
- 8(c) The superintendent engages principals, teachers and stakeholders in an ongoing process of evidence-based inquiry, learning, strategic goal setting, planning, implementation, and evaluation for continuous district and school improvement.
- 8(d) The superintendent utilizes data to drive improvement.
- 8(e) The superintendent adopts a systems perspective and promotes coherence among improvement efforts and all aspects of district organization, programs, and services.
- 8(f) The superintendent manages change – uncertainty, risks, competing initiatives, and politics.
- 8(g) The superintendent ensures that a clearly articulated district continuous improvement plan is implemented, monitored, evaluated, and revised.

***Standard 9: Governance – Effective superintendents understands how to facilitate processes and activities to establish and maintain an effective and efficient governance structure for school districts.***

**Knowledge**

- 9(a) The superintendent understands and complies with applicable laws, statutes, and regulations.
- 9(b) The superintendent understands the role of and effectively utilizes legal counsel.
- 9(c) The superintendent understands the organizational complexity of school districts, drawing from systems and organizational theory.
- 9(d) The superintendent understands the roles and responsibilities of both the superintendent and the local governing board.

**Performance**

- 9(e) The superintendent manages governance processes and internal/external politics toward achieving the district’s mission and vision.
- 9(f) The superintendent develops and monitors the system for policy development and implementation in all facets of district operations.
- 9(g) The superintendent seeks and implements effective solutions that comply with local, state, and federal laws, rules, and policies.

- 9(h) The superintendent ensures transparency by complying with the requirements of Idaho open meeting and public records laws.
- 9(i) The superintendent develops and fosters a productive relationship with the local governing board.
- 9(j) The superintendent advises the local governing board on legal, ethical, and current educational issues and provide/encourage ongoing professional development.

## IDAHO STANDARDS FOR SPECIAL EDUCATION DIRECTORS

All administrator candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all administrator candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for special education directors were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective special education directors. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, special education directors must also meet Idaho Standards for School Principals.

***Standard 1: Mission, Vision, and Beliefs - Effective special education directors develop, advocate, and enact a shared mission, vision, and beliefs of high-quality education and academic success, college and career readiness, and well-being of all students.***

### **Knowledge**

- 1(a) The special education director understands the importance of the district’s mission and vision to promote academic success and well-being of all students.
- 1(b) The special education director understands the beliefs of the teaching profession that promote high-expectation and student support; equity, inclusiveness, and equal access; openness, caring, and trust; and continuous improvement.
- 1(c) The special education director understands the importance of leading with the district’s mission, vision and beliefs.

### **Performance**

- 1(d) The special education director evaluates and assesses the mission of the district to ensure it promotes the academic success and well-being of all students.
- 1(e) The special education director, in collaboration with members of the district and the community, use relevant data to develop and promote a vision for the district on the successful learning and development of all children and on instructional and organizational practices that promote such success.
- 1(f) The special education director articulates, advocates, and cultivates beliefs that define the district’s culture and stress the imperative of child-centered education; high expectations and student support; equity, inclusiveness, and equal access; openness, caring, and trust; and continuous improvement.

- 1(g) The special education director reviews the district's mission and vision and adjusts them to changing expectations and opportunities for the district, and changing needs and situations of all students.
- 1(h) The special education director develops shared understanding of and commitment to the mission, vision, and beliefs within the district and the community.
- 1(i) The special education director models and pursues the district's mission, vision, and beliefs in all aspects of leadership.

***Standard 2: Ethics and Professional Norms - Effective special education directors act ethically and according to professional norms to promote all students' academic success and well-being.***

**Knowledge**

- 2(a) The special education director understands the Code of Ethics for Idaho Professional Educators and its importance to all student success and well-being.

**Performance**

- 2(b) The special education director acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the district's resources, and all aspects of district leadership.
- 2(c) The special education director places children at the center of education and accepts responsibility for all students' general and special education academic success and well-being.
- 2(d) The special education director safeguards and promotes individual freedom and responsibility, equity, equal access, community, and diversity.
- 2(e) The special education director provides direction for ethical and professional behavior among principals, teachers, and staff.

***Standard 3: Equity and Cultural Responsiveness – Special education directors strive for equity of educational opportunity and culturally responsive practices to promote all students' academic success and well-being.***

**Knowledge**

- 3(a) The special education director understands the importance of student's equitable access to effective teaching, equal opportunities for academic, social supports, and resources to be successful.
- 3(b) The special education director understands leadership roles when addressing equity and cultural responsiveness to assure district policies and procedures are positive, fair, and unbiased.

**Performance**

- 3(c) The special education director develops district policies to address student misconduct in a positive, fair, and unbiased manner.

- 3(d) The special education director monitors and addresses institutional biases of student marginalization and low expectations associated with race, class, culture and language, and disability or special status.
- 3(e) The special education director address matters of equity and cultural responsiveness in all aspects of leadership.

***Standard 4: Curriculum, Instruction, and Assessment - Special education directors develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment to promote all students' academic success and well-being.***

**Knowledge**

- 4(a) The special education director understands the multi-tiered level of support system of curriculum, instruction, assessment, and technology that embodies high expectation for all students' learning, which is aligned with academic and behavior standards, and is culturally responsive.
- 4(b) The special education director understands child learning and development, effective teaching, and data utilization to increase student academic success.
- 4(c) The special education director understands the importance of assessment and the different types of assessment that drive instruction.

**Performance**

- 4(d) The special education director aligns and focuses systems of curriculum, instruction, and assessment within and across grade levels, including post-secondary outcomes, to promote all students' academic and career success.
- 4(e) The special education director promotes instructional practice that is consistent with knowledge of child learning and development, effective pedagogy, and the needs of all students.
- 4(f) The special education director ensures instructional practice that is intellectually challenging, authentic to all student experiences, recognizes student strengths, and is differentiated and personalized.

***Standard 5: Community of Care and Support for Students - Special education directors cultivate an inclusive, caring, and supportive district community that promotes the academic success and well-being of all students.***

**Knowledge**

- 5(a) The special education director knows how to create a safe, caring, and healthy district environment that includes all students as members of the district's community that promotes positive learning environments.
- 5(b) The special education director knows how to create an environment of strong engagement and positive conduct to meet the learning needs of all students.

**Performance**

- 5(c) The special education director promotes adult-student, peer-peer, school, and district-community relationships that value and support academic learning and positive social and emotional development.
- 5(d) The special education director infuses the district's learning environment with the cultures and languages of the district's community.

***Standard 6: Professional Capacity of District and School Personnel - Special education directors develop the professional capacity and practice of district personnel to promote each student's academic success and well-being.***

**Knowledge**

- 6(a) The special education director understands educational employment trends and how they impact the district's ability to recruit, hire, support, develop, and retain effective and caring teachers and other professional staff.
- 6(b) The special education director knows the importance of on-going professional development to ensure opportunities for personal learning and growth, self-reflection, study, and improvement, maintaining a healthy work-life balance.

**Performance**

- 6(c) The special education director fosters continuous improvement of individual and collective instructional capacity to achieve outcomes envisioned for each student.
- 6(d) The special education director develops the capacity, opportunities, and support for special education teacher leadership and leadership from other members of the district community.
- 6(e) The special education director promotes the personal and professional health, well-being, and work-life balance of special education staff.

***Standard 7: Professional Community for Teachers - Special education directors foster a professional community of teachers and other professional staff to promote each student's academic success and well-being.***

**Knowledge**

- 7(a) The special education director understands the importance of educating the whole child; high expectations for professional work; ethical and equitable practice; trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.
- 7(b) The special education director knows how to promote mutual accountability between special and general education to facilitate all students' educational success pursuant to the mission, vision, and beliefs of the district.

**Performance**

- 7(c) The special education director develops workplace conditions for special and general education staff that promote effective professional development, practice, and student learning.
- 7(d) The special education director empowers and entrusts special and general education staff with collective responsibility for meeting the academic, social, emotional, and physical needs of each student, pursuant to the mission, vision, and beliefs of the district.
- 7(e) The special education director promotes mutual accountability among special and general education staff for each student's success and the effectiveness of the district as a whole.
- 7(f) The special education director develops and supports open, productive, caring, and trusting working relationships among district and school leaders, teachers, and staff to promote professional capacity and the improvement of practice.
- 7(g) The special education director designs and implements job-embedded and other opportunities for professional learning collaboratively with district and school staff.
- 7(h) The special education director encourages special and general education staff-initiated improvement of programs and practices.

***Standard 8: Meaningful Engagement of Families and Community – Special education directors engage families and the community in meaningful, reciprocal, and mutually beneficial ways to promote each student's academic success and well-being.***

**Knowledge**

- 8(a) The special education director understands how to facilitate open effective communication with families and communities to promote student learning and achievements.
- 8(b) The special education director understands how to motivate and engage families and communities as partners in increasing student growth, as measured by post-secondary success.

**Performance**

- 8(c) The special education director is approachable, accessible, and welcoming to families and members of the community.
- 8(d) The special education director creates and sustains positive, collaborative, and productive relationships with families and the community for the benefit of all students.
- 8(e) The special education director engages in regular and open two-way communication with families and the community about the district, schools, students, needs, problems, and accomplishments.

- 8(f) The special education director creates means for the district community to partner with families to support student learning in and out of district.
- 8(g) The special education director understands, values, and employs the community's cultural, social, and intellectual resources to promote student learning and district improvement.
- 8(h) The special education director develops and provides the district as a resource for families and the community.
- 8(i) The special education director advocates for the district, the importance of education and student needs, priorities to families, and the community.
- 8(j) The special education director advocates publicly for the needs and priorities of students, families, and the community.
- 8(k) The special education director builds and sustains productive partnerships with public and private sectors to promote district improvement and student learning.

***Standard 9: Operations and Management – Special education directors manage district operations and resources to promote all students' academic success and well-being.***

**Knowledge**

- 9(a) The special education director knows sources of funding (e.g., IDEA, General Funds, Medicaid) and how to create and implement budgetary systems aligned with the district's mission and vision.
- 9(b) The special education director knows how to allocate and account for district's monetary and non-monetary resources to assure each student's needs are met.

**Performance**

- 9(c) The special education director institutes, manages, and monitors operations and administrative systems that promote the mission and vision of the district.
- 9(d) The special education director strategically manages staff resources, assigning and scheduling special education staff to roles and responsibilities that optimize their professional capacity to address each student's learning needs.
- 9(e) The special education director is a responsible, ethical, and accountable steward of the district's monetary and non-monetary resources, engaging in effective budgeting and accounting practices.
- 9(f) The special education director develops and maintains data and communication systems to deliver actionable information for classroom, school, and district improvement.
- 9(g) The special education director knows, complies with, and helps the district community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.

- 9(h) The special education director develops and administers systems for fair and equitable management of conflict among students, school and district staff, leaders, families, and community.
- 9(i) The special education director manages governance processes and internal and external politics toward achieving the district's mission and vision.

***Standard 10: Continuous School and District Improvement - Special education directors act as agents of continuous school and district improvement to promote each student's academic success and well-being.***

**Knowledge**

- 10(a) The special education director understands continuous improvement to engage in evidence based planning, implementation, and educational trends to improve outcomes for all students.
- 10(b) The special education director knows how to make schools within the district more effective for all students, teachers, staff, families, and the community.

**Performance**

- 10(c) The special education director uses methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the district.
- 10(d) The special education director assesses and develops the capacity of staff to gauge the value and applicability of emerging special education trends and the findings of research for the district and its improvement.
- 10(e) The special education director adopts a systems perspective and promotes coherence among improvement efforts and all aspects of district organization, programs, and services.
- 10(f) The special education director manages uncertainty, risk, competing initiatives, and the politics of change with courage and perseverance, providing support and encouragement, and openly communicating the need for, process for, and outcomes of improvement efforts.

## PUPIL PERSONNEL SERVICES ENDORSEMENTS

### IDAHO STANDARDS FOR AUDIOLOGY

All audiology candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all audiology candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for audiologists were adopted from the Council For Clinical Certification in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association. (2012 Standards for the Certificate of Clinical Competence in Audiology. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective audiologists. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

***Standard I: Degree – Applicants for certification must have a doctoral degree. The course of study must address the knowledge and skills necessary to independently practice in the profession of audiology.***

Implementation: Verification of the graduate degree is required of the applicant before the certificate is awarded. Degree verification is accomplished by submitting (a) an application signed by the director of the graduate program, indicating the degree date, and (b) an official transcript showing that the degree has been awarded, or a letter from the university registrar verifying completion of requirements for the degree.

Individuals educated outside the United States or its territories must submit official transcripts and evaluations of their degrees and courses to verify equivalency. These evaluations are typically conducted by credential evaluation services agencies recognized by the National Association of Credential Evaluation Services (NACES). Information that must be provided is (a) confirmation that the degree earned is equivalent to a U.S. doctoral degree, (b) translation of academic coursework into the American semester hour system, and (c) indication as to which courses were completed at the graduate level.

The CFCC has the authority to determine eligibility of all applicants for certification.

***Standard II: Education Program – The graduate degree must be granted by a program accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).***

Implementation: Applicants whose graduate degree was awarded by a U.S. institution of higher education must have graduated from a program holding CAA accreditation in audiology.

Satisfactory completion of academic course work, clinical practicum, and knowledge and skills requirements must be verified by the signature of the program director or official designee of a CAA-accredited program or a program admitted to CAA candidacy.

***Standard III: Program of Study – Applicants for certification must complete a program of study that includes academic course work and a minimum of 1,820 hours of supervised clinical practicum sufficient in depth and breadth to achieve the knowledge and skills outcomes stipulated in Standard IV. The supervision must be provided by individuals who hold the ASHA Certificate of Clinical Competence (CCC) in Audiology.***

Implementation: The program of study must address the knowledge and skills pertinent to the field of audiology. Clinical practicum must be approved by the academic program from which the student intends to graduate. The student must maintain documentation of time spent in supervised practicum, verified by the academic program in accordance with Standard IV.

Students shall participate in practicum only after they have had sufficient preparation to qualify for such experience. Students must obtain a variety of clinical practicum experiences in different work settings and with different populations so that they can demonstrate skills across the scope of practice in audiology. Acceptable clinical practicum experience includes clinical and administrative activities directly related to patient care. Clinical practicum is defined as direct patient/client contact, consultation, record keeping, and administrative duties relevant to audiology service delivery. Time spent in clinical practicum experiences should occur throughout the graduate program.

Supervision must be sufficient to ensure the welfare of the patient and the student in accordance with the ASHA Code of Ethics. Supervision of clinical practicum must include direct observation, guidance, and feedback to permit the student to monitor, evaluate, and improve performance and to develop clinical competence. The amount of supervision must also be appropriate to the student's level of training, education, experience, and competence.

Supervisors must hold a current ASHA CCC in the appropriate area of practice. The supervised activities must be within the scope of practice of audiology to count toward certification.

***Standard IV: Knowledge and Skills Outcomes – Applicants for certification must have acquired knowledge and developed skills in six areas: foundations of practice, prevention/identification, assessment, (re)habilitation, advocacy/consultation, and education/research/administration.***

Implementation: This standard distinguishes between acquisition of knowledge for Standards IV-A.1–21 and IV-C.1, and the acquisition of knowledge and skills for Standards IV-A.22–29, IV-B, IV-C.2–11, IV-D, IV-E, and IV-F. The applicant must submit a completed application for certification signed by the academic program director verifying successful completion of all knowledge and skills in all six areas of Standard IV. The applicant must maintain copies of transcripts, and documentation of academic course work and clinical practicum.

***Standard IV-A: Foundations of Practice***

***The applicant must have knowledge of:***

- A1. Embryology and development of the auditory and vestibular systems, anatomy and physiology, neuroanatomy and neurophysiology, and pathophysiology
- A2. Genetics and associated syndromes related to hearing and balance
- A3. Normal aspects of auditory physiology and behavior over the life span

- A4. Normal development of speech and language
- A5. Language and speech characteristics and their development across the life span
- A6. Phonologic, morphologic, syntactic, and pragmatic aspects of human communication associated with hearing impairment
- A7. Effects of hearing loss on communication and educational, vocational, social, and psychological functioning
- A8. Effects of pharmacologic and teratogenic agents on the auditory and vestibular systems
- A9. Patient characteristics (e.g., age, demographics, cultural and linguistic diversity, medical history and status, cognitive status, and physical and sensory abilities) and how they relate to clinical services
- A10. Pathologies related to hearing and balance and their medical diagnosis and treatment
- A11. Principles, methods, and applications of psychometrics
- A12. Principles, methods, and applications of psychoacoustics
- A13. Instrumentation and bioelectrical hazards
- A14. Physical characteristics and measurement of electric and other nonacoustic stimuli
- A15. Assistive technology
- A16. Effects of cultural diversity and family systems on professional practice
- A17. American Sign Language and other visual communication systems
- A18. Principles and practices of research, including experimental design, statistical methods, and application to clinical populations
- A19. Legal and ethical practices (e.g., standards for professional conduct, patient rights, credentialing, and legislative and regulatory mandates)
- A20. Health care and educational delivery systems
- A21. Universal precautions and infectious/contagious diseases

***The applicant must have knowledge and skills in:***

- A22. Oral and written forms of communication
- A23. Principles, methods, and applications of acoustics (e.g., basic parameters of sound, principles of acoustics as related to speech sounds, sound/noise measurement and analysis, and calibration of audiometric equipment), as applicable to:
  - a. occupational and industrial environments
  - b. community noise
  - c. classroom and other educational environments
  - d. workplace environments

- A24. The use of instrumentation according to manufacturer's specifications and recommendations
- A25. Determining whether instrumentation is in calibration according to accepted standards
- A26. Principles and applications of counseling
- A27. Use of interpreters and translators for both spoken and visual communication
- A28. Management and business practices, including but not limited to cost analysis, budgeting, coding and reimbursement, and patient management
- A29. Consultation with professionals in related and/or allied service areas

***Standard IV-B: Prevention and Identification***

***The applicant must have the knowledge and skills necessary to:***

- B1. Implement activities that prevent and identify dysfunction in hearing and communication, balance, and other auditory-related systems
- B2. Promote hearing wellness, as well as the prevention of hearing loss and protection of hearing function by designing, implementing, and coordinating universal newborn hearing screening, school screening, community hearing, and occupational conservation and identification programs
- B3. Screen individuals for hearing impairment and disability/handicap using clinically appropriate, culturally sensitive, and age- and site-specific screening measures
- B4. Screen individuals for speech and language impairments and other factors affecting communication function using clinically appropriate, culturally sensitive, and age- and site-specific screening measures
- B5. Educate individuals on potential causes and effects of vestibular loss
- B6. Identify individuals at risk for balance problems and falls who require further vestibular assessment and/or treatment or referral for other professional services

***Standard IV-C: Assessment***

***The applicant must have knowledge of:***

- C1. Measuring and interpreting sensory and motor evoked potentials, electromyography, and other electrodiagnostic tests for purposes of neurophysiologic intraoperative monitoring and cranial nerve assessment

***The applicant must have knowledge and skills in:***

- C2. Assessing individuals with suspected disorders of hearing, communication, balance, and related systems
- C3. Evaluating information from appropriate sources and obtaining a case history to facilitate assessment planning

- C4. Performing otoscopy for appropriate audiological assessment/management decisions, determining the need for cerumen removal, and providing a basis for medical referral
- C5. Conducting and interpreting behavioral and/or electrophysiologic methods to assess hearing thresholds and auditory neural function
- C6. Conducting and interpreting behavioral and/or electrophysiologic methods to assess balance and related systems
- C7. Conducting and interpreting otoacoustic emissions and acoustic immitance (reflexes)
- C8. Evaluating auditory-related processing disorders
- C9. Evaluating functional use of hearing
- C10. Preparing a report, including interpreting data, summarizing findings, generating recommendations, and developing an audiologic treatment/management plan
- C11. Referring to other professions, agencies, and/or consumer organizations

***Standard IV-D: Intervention (Treatment)***

***The applicant must have knowledge and skills in:***

- D1. The provision of intervention services (treatment) to individuals with hearing loss, balance disorders, and other auditory dysfunction that compromises receptive and expressive communication
- D2. Development of a culturally appropriate, audiologic rehabilitative management plan that includes, when appropriate, the following:
  - a. Evaluation, selection, verification, validation, and dispensing of hearing aids, sensory aids, hearing assistive devices, alerting systems, and captioning devices, and educating the consumer and family/caregivers in the use of and adjustment to such technology
  - b. Determination of candidacy of persons with hearing loss for cochlear implants and other implantable sensory devices and provision of fitting, mapping, and audiologic rehabilitation to optimize device use
  - c. Counseling relating to psychosocial aspects of hearing loss and other auditory dysfunction, and processes to enhance communication competence
  - d. Provision of comprehensive audiologic treatment for persons with hearing loss or other auditory dysfunction, including but not exclusive to communication strategies, auditory training, speech reading, and visual communication systems
- D3. Determination of candidacy for vestibular and balance rehabilitation therapy to persons with vestibular and balance impairments
- D4. Treatment and audiologic management of tinnitus

- D5. Provision of treatment services for infants and children with hearing loss; collaboration/consultation with early interventionists, school based professionals, and other service providers regarding development of intervention plans (i.e., individualized education programs and/or individualized family service plans)
- D6. Management of the selection, purchase, installation, and evaluation of large-area amplification systems
- D7. Evaluation of the efficacy of intervention (treatment) services

***Standard IV-E: Advocacy/Consultation***

***The applicant must have knowledge and skills in:***

- E1. Educating and advocating for communication needs of all individuals that may include advocating for the programmatic needs, rights, and funding of services for those with hearing loss, other auditory dysfunction, or vestibular disorders
- E2. Consulting about accessibility for persons with hearing loss and other auditory dysfunction in public and private buildings, programs, and services
- E3. Identifying underserved populations and promoting access to care

***Standard IV-F: Education/Research/Administration***

***The applicant must have knowledge and skills in:***

- F1. Measuring functional outcomes, consumer satisfaction, efficacy, effectiveness, and efficiency of practices and programs to maintain and improve the quality of audiologic services
- F2. Applying research findings in the provision of patient care (evidence-based practice)
- F3. Critically evaluating and appropriately implementing new techniques and technologies supported by research-based evidence
- F4. Administering clinical programs and providing supervision of professionals as well as support personnel
- F5. Identifying internal programmatic needs and developing new programs
- F6. Maintaining or establishing links with external programs, including but not limited to education programs, government programs, and philanthropic agencies

***Standard V: Assessment – Applicants for certification must demonstrate successful achievement of the knowledge and skills delineated in Standard IV by means of both formative and summative assessments.***

***Standard V-A: Formative Assessment – The applicant must meet the education program’s requirements for demonstrating satisfactory performance through ongoing formative assessment of knowledge and skills.***

Implementation: Applicants and program faculties should use the ongoing assessment to help the applicant achieve requisite knowledge and skills. Thus, assessments should be followed by implementation strategies for acquisition of knowledge and skills.

***Standard V-B: Summative Assessment – The applicant must pass the national examination adopted by ASHA for purposes of certification in audiology.***

Implementation: Results of the Praxis Examination in Audiology must be submitted directly to ASHA from ETS. The certification standards require that a passing exam score must be earned no earlier than 5 years prior to the submission of the application and no later than 2 years following receipt of the application. If the exam is not successfully passed and reported within the 2-year application period, the applicant's certification file will be closed. If the exam is passed or reported at a later date, the individual will be required to reapply for certification under the standards in effect at that time.

***Standard VI: Maintenance of Certification – Demonstration of continued professional development is mandated for maintenance of the Certificate of Clinical Competence (CCC) in Audiology. The renewal period will be three (3) years. This standard will apply to all certificate holders, regardless of the date of initial certification.***

Implementation: Once certification is awarded, maintenance of that certification is dependent upon accumulation of the requisite professional development hours every three years. Payment of annual dues and/or certification fees is also a requirement of certification maintenance. A certificate holder whose dues and/or fees are in arrears on August 31, will have allowed their certification to expire on that date.

Individuals who hold the CCC in Audiology must accumulate 30 contact hours of professional development over the 3-year period and must submit a compliance form in order to meet this standard. Individuals will be subject to random review of their professional development activities.

If certification maintenance requirements are not met, certification will lapse. Reinstatement of certification will be required, and certification reinstatement standards in effect at the time of submission of the reinstatement application must be met.

## IDAHO STANDARDS FOR SCHOOL COUNSELORS

The purpose of the standards for school counselors is to promote, enhance, and maximize the learning process. To that end, the school counselor standards facilitate school counselor performance in three broad domains: Academic Development, Career Development, and ~~Personal/Social/Emotional~~ Development. The domains are aligned with ~~follow~~ the 20128 American School Counselor Association (ASCA) Standards for School Counselor Preparation Programs ~~model~~ and are embedded within each standard as described below. All school counselor candidates are expected to meet the Idaho Standards for School Counselors as endorsed by their institution. Additionally, all school counselor candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the School Counselors Standards are widely recognized, though not all-encompassing or absolute, indicators that School Counselors have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

***Standard 1: School Counseling Programs - School counselors should possess the knowledge, abilities, skills and attitudes necessary to plan, organize, implement and evaluate a comprehensive, developmental, data-informed ~~results-based~~ school counseling program.***

**Knowledge - School counselors should articulate and demonstrate an understanding of:**

- 1(a) The organizational structure and governance of the American educational system, as well as cultural, political, and social influences on current educational practices.
- 1(b) The organizational structure and components of an effective school counseling program.
- 1(c) Barriers to student learning and use of advocacy and data-informed ~~driven~~ school counseling practices.
- 1(d) Leadership principles and theories.
- 1(e) Individual counseling, group counseling, and ~~classroom instruction~~ school counseling core curriculum.
- 1(f) Collaborations with stakeholders such as parents and guardians, teachers, administrators and community leaders.
- 1(g) Principles of school counseling, including prevention, intervention, wellness, education, multiculturalism, social justice, and advocacy.
- 1(h) Assessments relevant to K-12 education.

**Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:**

~~1(i) Planning, organizing, implementing and evaluating a school counseling program.~~

~~1(j)~~ 1(i) Applying the school counseling themes of leadership, advocacy, collaboration and systemic change.

~~1(k)~~ 1(j) Applying appropriate technologies to support student learning and development, assessment, planning, and delivery of ~~Using technology effectively and efficiently to plan, organize, implement and evaluate the~~ comprehensive school counseling programs.

~~1(h)~~ 1(k) Multicultural, ethical, and professional competencies.

~~1(m)~~ 1(l) Identification and expression of professional and personal qualities and skills of effective leaders.

~~1(n) Advocacy for student success.~~

~~1(o)~~ 1(m) Collaboration with parents, teachers, support personnel, administrators, and community partners ~~leaders and other stakeholders to create learning environments that~~ promote and support educational equity, success, and well-being for every student ~~success.~~

**Standard 2: Foundations - School counselors should possess the knowledge, abilities, skills, and attitudes necessary to establish the foundations of a comprehensive school counseling program.**

**Knowledge - School counselors should articulate and demonstrate an understanding of:**

2(a) Beliefs and vision of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.

2(b) Educational systems, philosophies and theories, and current trends in education, including federal and state legislation.

~~2(c) Learning theories.~~

~~2(d)~~ 2(c) The evolution of the school counseling profession, the basis for a comprehensive ~~History and purpose of~~ school counseling program, and the counselor's role in supporting growth and learning for all students ~~including traditional and transformed roles of school counselors.~~

~~2(e)~~ 2(d) Aspects of hHuman development, such as cognitive, language, social/emotional, and physical development, as well as the impact of environmental stressors and societal inequities on learning and life outcomes ~~theories and developmental issues affecting student success.~~

~~2(f)~~ 2(e) District, state, and national student standards and competencies.

~~2(g)~~ 2(f) Legal and ethical standards and principles of the school counseling profession and educational systems, including state, district and building policies.

~~2(h)~~ 2(g) The three domains of academic ~~achievement,~~ career, ~~planning~~ and ~~personal~~/social/emotional development.

**Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:**

- ~~2(i)~~2(h) Development of the beliefs, vision, and mission of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.
- ~~2(j)~~2(i) The use of student standards, such as district, state, or national standards, to drive the implementation of a comprehensive school counseling program.
- ~~2(k)~~2(j) Application of the ethical standards and principles of the school counseling profession and adhering to the legal aspects of the role of the school counselor and the Code of Ethics for Idaho Professional Educators.
- ~~2(l)~~2(k) Responsible advocacy for school board policy, as well as local, state and federal statutory requirements in students' best interests.
- ~~2(m)~~2(l) Practices within the ethical and statutory limits of confidentiality.

**Standard 3: Management - School counselors should possess the knowledge, abilities, skills and attitudes necessary to manage a comprehensive school counseling program.**

**Knowledge - School counselors should articulate and demonstrate an understanding of:**

- 3(a) Leadership principles, including ~~sources of power and authority, and~~ formal and informal leadership and authority.
- 3(b) Consultation models~~Organization theory~~ to facilitate advocacy, collaboration and systemic change.
- 3(c) Presentation skills for programs such as teacher in-services, parent workshops and presentation of results reports to school boards.
- 3(d) Time management, including long- and short-term management, using tools such as schedules and calendars.
- 3(e) Process, perception, and outcome data; program and needs assessments; and other survey tools used to monitor and refine the school counseling program.~~Data-driven decision making.~~
- ~~3(f) Current and emerging technologies such as use of the Internet, Web-based resources and information management systems.~~

**Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:**

- ~~3(g)~~3(f) Self-evaluation of ~~his/her own~~ competencies in order to formulate an appropriate professional development plan.
- 3(g) Engagement in local, state, and national professional growth and development opportunities.
- 3(h) Use of multiple data points, including student interviews, direct observation, educational records, consultation with stakeholders, and test results to systematically

~~address student needs and collaboratively establish goals. The ability to access or collect relevant data to monitor and improve student behavior and achievement.~~

3(i) ~~Creation of~~ The capability to create calendars to ensure the effective implementation of the school counseling program.

~~3(j)~~ 3(i) Coordination of activities that establish, maintain, and enhance the school counseling program.

~~3(j)~~ 3(k) Use of school-wide data to promote systemic change within the school.

**Standard 4: Professional Practice Delivery** – School counselors should possess the knowledge, abilities, skills and attitudes necessary to deliver a comprehensive school counseling program.

**Knowledge - School counselors should articulate and demonstrate an understanding of:**

4(a) The distinction between direct and indirect student services.

4(b) Counseling theories and techniques in different settings, such as individual planning, group counseling, and classroom school counseling core curriculum ~~lessons~~.

~~4(c) Classroom management.~~

~~4(d)~~ 4(c) Principles of career and post-secondary planning.

~~4(e)~~ 4(d) Principles of working with various student populations based on characteristics, such as ethnic and racial background, English language proficiency, special needs ~~(IEP and 504 Plans)~~, religion, gender, sexual orientation, and ~~income~~ socio-economic status.

~~4(f)~~ 4(e) Responsive services ~~(e.g., trauma, suicide, counseling and crisis response,)~~ including grief, and bereavement.

~~4(g)~~ 4(f) How diagnoses and common ~~or~~ medications or substances affect learning, behavior, and mood ~~affects the personal, social, and academic functioning of students.~~

**Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:**

~~4(h)~~ 4(g) Creation and presentation of a developmental school counseling curriculum addressing all students' needs based on student data.

~~4(i)~~ 4(h) Demonstration of pedagogical skills, including culturally responsive cClassroom management strategies, lesson planning, and personalized ~~and instructional skills.~~

~~4(j)~~ 4(i) Encouragement of staff involvement to ensure the effective implementation of the school counseling curriculum.

~~4(k)~~ 4(j) The ability to build effective, high-quality student support programs.

~~4(l)~~ 4(k) Development of strategies to implement individual student planning, which may include strategies for appraisal, advisement, goal-setting, decision-making, social skills, transition or post-secondary planning.

- ~~4(m) The capability to provide responsive services, such as individual/small group counseling and crisis response.~~
- ~~4(n)~~4(l) Participation as member of the crisis team, providing assistance to the school and community in a crisis.
- ~~4(o)~~4(m) Development of a list of community agencies and service providers for student referrals and understanding how to make referrals to appropriate professionals when necessary.
- ~~4(p)~~4(n) Partnerships with parents, teachers, administrators and education stakeholders for student achievement and success.
- ~~4(q)~~4(o) The ability to conduct in-service training or workshops for other stakeholders to share school counseling expertise.
- ~~4(r)~~4(p) Understanding and knowledge regarding how to provide supervision for school counseling interns ~~consistent with the principles.~~
- 4(q) Skills to critically examine the connections between social, familial, emotional, and behavioral problems and academic ~~development~~achievement.
- 4(r) Strengths-based counseling and relationship building skills to support student growth and promote equality and inclusion.
- 4(s) Consulting and seeking supervision to support ongoing critical reflection in an effort to identify cultural blind spots and prevent ethical lapses.

## IDAHO STANDARDS FOR SCHOOL NURSES

The following knowledge and performance statements for the School Nurse Standards are widely recognized, but not all-encompassing or absolute, indicators that school nurse candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school nurse preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all school nurse candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the school nursing profession is a candidate's disposition. Professional dispositions are how the School Nurse candidate views their profession, their content area, and/or students and their health and learning. Every School Nurse preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Nurse candidate dispositions.

***Standard 1: Quality Assurance - The school nurse understands how to systematically evaluate the quality and effectiveness of school nursing practice.***

### **Knowledge**

- 1(a) The school nurse understands the professional, state, and local policies, procedures, and practice guidelines that impact the effectiveness of school nursing practice within the school setting.
- 1(b) The school nurse understands the scope and standards of practice as identified by the American Nurses Association, National Association of School Nurses, and the Idaho State Board of Nursing administrative code.
- 1(c) The school nurse understands how to interpret data applicable to the school setting to ensure meaningful health and academic outcomes.
- 1(d) The school nurse understands the importance of documentation and uniform data set collection methods for evaluation and continuous quality improvement.

### **Performance**

- 1(e) The school nurse conducts ongoing evaluations of school nursing practice.
- 1(f) The school nurse identifies the policies, procedures, and practice guidelines applicable to school nursing practice.
- 1(g) The school nurse uses research and data to monitor quality and effectiveness of school nursing practice.
- 1(h) The school nurse demonstrates critical thinking skills, use of evidence-based practice, and clinical competence.

***Standard 2: Professional Development - The school nurse is a reflective practitioner who improves clinical skills through continual self-evaluation and ongoing education.***

**Knowledge**

- 2(a) The school nurse understands how to improve knowledge and competency in school nursing.
- 2(b) The school nurse knows how to self-assess professional nursing practice.
- 2(c) The school nurse knows how to access professional resources and organizations that support school nursing.
- 2(d) The school nurse understands the current educational and health care laws which impact the ability of students to access education and healthcare in their community.

**Performance**

- 2(e) The school nurse participates in professional development related to current clinical knowledge and professional issues.
- 2(f) The school nurse seeks and acts on constructive feedback regarding professional development.
- 2(g) The school nurse pursues professional development as related to professional and program goals.

***Standard 3: Communication - The school nurse is skilled in a variety of communication techniques (i.e., verbal and nonverbal).***

**Knowledge**

- 3(a) The school nurse understands the importance of effective communication with school staff, families, students, the community, and other service providers.
- 3(b) The school nurse understands problem solving and counseling techniques and crisis intervention strategies for individuals and groups.
- 3(c) The school nurse knows how to document appropriately.

**Performance**

- 3(d) The school nurse follows FERPA and HIPPA guidelines while communicating effectively and with sensitivity to community and cultural values, in a variety of settings (e.g., classroom presentations, public forums, individual interactions, written communication, documentation, professional collaboration).

***Standard 4: Collaboration - The school nurse understands how to interact collaboratively with and contribute to the professional development of peers and school personnel.***

**Knowledge**

- 4(a) The school nurse understands the principles of collaboration in sharing knowledge and skills.

**Performance**

- 4(b) The school nurse works collaboratively to enhance professional practice and to contribute to a supportive, healthy school environment.

***Standard 5: Ethics and Advocacy - The school nurse makes decisions and takes actions on behalf of students and families in an ethical, professional manner.***

**Knowledge**

- 5(a) The school nurse understands the code of ethics adopted by the American Nurses Association and the National Association of School Nurses and the Code of Ethics for Idaho Professional Educators.
- 5(b) The school nurse knows how to advocate and facilitate behavioral, emotional, and/or psychosocial services, both within the school environment and the community.

**Performance**

- 5(c) The school nurse performs duties in accord with the legal, regulatory, and ethical parameters of health and education (e.g. Idaho Nurse Practice Act, FERPA, HIPPA, IDEA, Section 504).
- 5(d) The school nurse acts as an advocate for students and families.
- 5(e) The school nurse delivers care in a manner that is sensitive to student diversity.

***Standard 6: Health and Wellness Education - The school nurse assists students, families, the school staff, and the community to achieve optimal levels of wellness through appropriately designed and delivered clinical practice and health education.***

**Knowledge**

- 6(a) The school nurse understands developmentally appropriate health education.
- 6(b) The school nurse understands the influence of social determinates of health and family dynamics on student achievement and wellness.
- 6(c) The school nurse understands that health instruction within the classroom is based on learning theory.
- 6(d) The school nurse understands child, adolescent, family, and community health issues.
- 6(e) The school nurse understands how health issues impact student learning.
- 6(f) The school nurse knows how to identify physical manifestations of possible behavioral, emotional, and/or psychosocial issues.

**Performance**

- 6(g) The school nurse assists individual students in acquiring appropriate skills based on age and developmental levels to advocate for themselves.
- 6(h) The school nurse participates in the assessment of health education and health instructional needs of the school community.
- 6(i) The school nurse provides health instruction within the classroom based on learning theory, as appropriate to student developmental levels and school needs.
- 6(j) The school nurse provides individual and group health instruction and counseling for and with students, families, and staff.

- 6(k) The school nurse acts as a resource person to school staff, students, and families regarding health education and health community resources.
- 6(l) The school nurse assists students in changing high-risk behaviors through education and referral.

***Standard 7: Program Management - The school nurse is a manager of school health services.***

**Knowledge**

- 7(a) The school nurse understands the principles of school nursing management.
- 7(b) The school nurse understands that program delivery is influenced by a variety of factors (e.g., cost, program diversity, staffing, laws).
- 7(c) The school nurse knows how to teach, supervise, evaluate, and delegate to Unlicensed Assistive Personnel.
- 7(d) The school nurse knows how to identify and secure appropriate and available services and resources in the community.

**Performance**

- 7(e) The school nurse demonstrates the ability to organize, prioritize, and make independent nursing decisions.
- 7(f) The school nurse demonstrates the ability to plan and budget resources in a fiscally responsible manner.
- 7(g) The school nurse demonstrates leadership skills to utilize human resources efficiently.
- 7(h) The school nurse teaches, supervises, evaluates, and delegates to Unlicensed Assistive Personnel.
- 7(i) The school nurse uses appropriate technology in managing school health services.

## IDAHO STANDARDS FOR SCHOOL PSYCHOLOGISTS

The following knowledge and performance statements for the School Psychologist Standards are widely recognized, but not all-encompassing or absolute, indicators that School Psychologist candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school psychologist preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all school psychologist candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the School Psychology profession is a candidate's disposition. Professional dispositions are how the School Psychologist candidate views their profession, their content area, and/or students and their health and learning. Every School Psychology preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Psychologist candidate dispositions.

***Standard 1: Assessment, Data-Based Decision Making, and Accountability - The school psychologist understands varied models and methods of assessment that yield information useful in understanding problems, identifying strengths and needs, measuring progress as it relates to educational, ~~and~~ social emotional, and behavioral outcomes of students with respect for cultural and linguistic diversity.***

### Knowledge

- 1(a) The school psychologist understands traditional standardized norm-referenced assessment instruments.
- 1(b) The school psychologist understands alternative assessment approaches (e.g., curriculum-based, portfolio, ecological).
- 1(c) The school psychologist ~~knows~~ understands non-test assessment procedures (e.g., observation, diagnostic interviewing, reviewing records).
- 1(d) The school psychologist understands the application of a multi-tiered system of support for educational and social, emotional, and behavioral needs of students.
- 1(e) The school psychologist understands correct interpretation and application of assessment data.
- 1(f) The school psychologist understands the use of assessment data as it applies to the process of transitions at Pre-K through age 21 development levels.

### Performance

- 1(g) The school psychologist uses various models and methods of assessment as part of a systematic process to collect data and other information.
- 1(h) The school psychologist ~~translates~~ interprets assessment results and uses those results to select and implement evidence-based practices ~~into the design,~~

~~implementation, and accountability of empirically supported instruction, interventions, and educational and mental health services effective for particular situations, contexts, and diverse characteristics.~~

- 1(i) The school psychologist uses assessment and data collection methods to evaluate the effectiveness of interventions and recommendations.
- 1(j) The school psychologist interprets and synthesizes assessment information from a variety of sources.

**Standard 2: Consultation and Collaboration - ~~The~~ school psychologist understands effective collaborative and consultation approaches to promote the learning and success of students.**

### Knowledge

- 2(a) The school psychologist understands vari~~ous~~<sup>used</sup> methods of consultation ~~in psychology and education~~ (e.g. behavioral, problem-solving, mental health, organizational, instructional) applicable to individuals, families, groups, and systems.
- 2(b) The school psychologist understands how to facilitate effective communication and collaboration among families, teachers, community providers, and others~~methods for effective consultation and collaboration that link home, school, and community settings.~~
- ~~2(c) The school psychologist understands factors necessary for effective interpersonal communication.~~
- ~~2(d)~~2(c) The school psychologist understands how to communicate effectively in oral and written form.

### Performance

- ~~2(e)~~2(d) The school psychologist uses effective consultation and collaboration methods to develop a climate in which consensus can be achieved to promote positive student outcomes.
- ~~2(f)~~2(e) The school psychologist consults and collaborates effectively in the planning, problem solving, and decision-making processes to design, implement, and evaluate evidence-based practices (to include respect ~~educational and mental health services with respect~~ for cultural and linguistic diversity).
- ~~2(g)~~2(f) The school psychologist displays positive interpersonal skills by listening, adapting, addressing ambiguity, and being professional in difficult situations.
- ~~2(h)~~2(g) The school psychologist effectively communicates information in oral and written form for diverse audiences, ~~for example,~~ (e.g., parents, teachers, other school personnel, policy makers, community leaders, and ~~or~~ others).

**Standard 3: Effective Instruction and Development of Cognitive ~~and Academic~~ Skills - The school psychologist understands learning theories, cognitive strategies and their application to the development of effective instruction, while considering biological, cultural, linguistic, and social influences on educational progress.**

### Knowledge

- 3(a) The school psychologist understands human learning, cognition, and developmental processes with respect for cultural and linguistic diversity.
- 3(b) The school psychologist understands empirically supported methods in psychology and education to promote cognitive and academic skills, including those related to needs of students with diverse backgrounds and characteristics.
- ~~3(c) The school psychologist understands evidence-based curriculum and instructional strategies that facilitate students' academic achievement.~~
- ~~3(d)~~3(c) The school psychologist understands how to develop appropriate educational goals for students with different ability levels and social-cultural/social backgrounds.
- ~~3(e)~~3(d) The school psychologist understands appropriate techniques to assess diverse learning and instruction ~~for using data in decision making, planning, and progress monitoring.~~

### Performance

- ~~3(f) The school psychologist assists in achieving academic outcomes, such as classroom instructional support, literacy strategies, home and school collaboration, instructional consultation, and other evidenced-based practices.~~
- ~~3(g)~~3(e) The school psychologist uses assessment ~~and data-collection methods~~ to assist in developing and implement evidence-based instructional strategies that improve student engagement and learning, including those related to needs of appropriate educational goals for students with diverse ~~abilities and~~ backgrounds and characteristics.
- ~~3(h)~~3(f) The school psychologist assists in promoting the use of evidence-based interventions with fidelity.

**Standard 4: Interventions and Mental Health Services to Develop Social and Life Skills - The school psychologist understands human development and psychopathology, including biological, cultural, environmental, and social influences on human development, mental health, and psychopathology.**

### Knowledge

- 4(a) The school psychologist understands biological, cultural, environmental/developmental, and social influences on learning, behavior, mental health, and life skills.
- 4(b) The school psychologist understands techniques to assess socialization, mental health, and life skills, as well as and methods for using data in decision making, planning, and progress monitoring
- 4(c) The school psychologist understands evidence-based supported strategies to promote social-emotional functioning and mental health.

### Performance

- 4(d) The school psychologist uses assessment and data collection methods to collaboratively develop appropriate goals for students with diverse abilities, backgrounds, strengths, and needs.
- 4(e) The school psychologist integrates behavioral supports and mental health services with academic and behavioral goals to promote positive outcomes for students.
- 4(f) The school psychologist uses empirically supported strategies to collaboratively develop and implement behavior change programs services at the individual, group, and/or systems levels and to enhance classroom, and school-wide levels, school, home, and community factors related to student's mental health, socialization, and learning.
- 4(g) The school psychologist advocates for the mental health needs of students and families.

~~***Student Diversity in Development and Learning – The school psychologist understands that an individual's development and learning are influenced by one or more of the following factors: biological, social, cultural, ethnic, experiential, socioeconomic, environmental, gender-related, and/or linguistic.***~~

~~Knowledge~~

~~The school psychologist understands individual differences, abilities, and other diverse characteristics.~~

~~The school psychologist understands principles and research related to diversity factors for students, families, and schools, including factors related to culture, context, individual, and role differences.~~

~~The school psychologist understands empirically supported strategies to enhance educational services for students and families and effectively address potential influences on learning related to diversity.~~

~~The school psychologist understands the diversity of the continuum of educational development for students ages three through 21, including all educational service transitions.~~

~~Performance~~

~~The school psychologist provides educational services that promote effective functioning for individuals, families, and schools with diverse characteristics, cultures, and backgrounds across multiple contexts.~~

~~The school psychologist collaborates to address individual differences, strengths, backgrounds, and needs in providing services to improve educational and mental health outcomes for students.~~

~~The school psychologist provides culturally competent and effective practices in all areas of school psychology service delivery.~~

~~***Standard 5: School-Wide Practices to Promote Learning - The school psychologist understands the unique organization and culture of schools and related systems.***~~

~~Knowledge~~

- 5(a) The school psychologist understands school and multi-tiered systems' structure, organization, and theory and structure.
- 5(b) The school psychologist understands a variety of educational programs to include tiered systems of support, general and special education.
- 5(c) The school psychologist understands empirically supported school practices that promote academic outcomes, learning, social development, and mental health.

**Performance**

- 5(d) The school psychologist, in collaboration with others, demonstrates skills to develop and implement practices and strategies to create and maintain effective and supportive learning environments for students and others.
- 5(e) The school psychologist utilizes uses data-based decision making and evaluation methods, problem-solving strategies, consultation, and other services for systems-level issues, initiatives, and accountability responsibilities.

~~***Legal, Ethical, and Professional Practice—The school psychologist understands the history and foundations of the profession, various service models and methods, and applies legal and ethical practices to advocate for the educational rights and welfare of students and families.***~~

~~**Knowledge**~~

~~The school psychologist understands the history and foundations of school psychology.~~

~~The school psychologist understands multiple service models and methods.~~

~~The school psychologist understands ethical, legal, and professional standards and other factors related to professional identity, including personal biases and effective practice.~~

~~The school psychologist understands current federal and state statutes and regulations pertaining to educational services.~~

~~The school psychologist understands self-evaluation methods to determine areas for continuing professional development.~~

~~**Performance**~~

~~The school psychologist provides services consistent with ethical, legal, and professional standards.~~

~~The school psychologist engages in ethical and professional decision making.~~

~~The school psychologist collaborates with and consults other professionals regarding legal and ethical educational practices.~~

~~The school psychologist applies professional work characteristics for effective practice, including respect for human diversity and social justice, communication skills, interpersonal skills, responsibility, adaptability, initiative, and dependability.~~

~~The school psychologist demonstrates legal and ethical practices in communication and the use of technology.~~

~~The school psychologist utilizes supervision and mentoring in the development of legal and ethical professional practice.~~ **Standard 6: Preventive and Responsive Services – The school psychologist understands preventive and responsive services in educational settings to promote a safe school environment.**

**Knowledge**

- 6(a) The school psychologist understands principles and research related to resiliency and, risk, and protective factors in learning and mental health.
- 6(b) The school psychologist understands services in schools and communities to support multi-tiered prevention, and empirically supported strategies for effective crisis response.

**Performance**

- 6(c) The school psychologist participates in school crisis prevention and response teams, in collaboration with others, demonstrates skills to promote services that enhance learning, mental health, safety, physical well-being, and resilience through protective and adaptive factors.
- 6(d) The school psychologist promotes services that enhance learning, mental health, safety, physical well-being, and resiliency through protective and adaptive factors, in collaboration with others, demonstrates skills to implement and/or evaluate effective crisis preparation, response, and recovery.
- 6(e) The school psychologist develops, implements, and evaluates prevention and intervention programs that address precursors to learning and behavioral problems uses assessment and data collection methods to collaboratively develop appropriate goals for and to evaluate outcomes of prevention and response activities and crisis services.
- 6(f) The school psychologist demonstrates skills to implement effective crisis preparation, response, and recovery.
- 6(g) The school psychologist uses appropriate methods to evaluate outcomes of prevention, response activities, and crisis services.

~~**School-Wide Practices to Promote Learning – The school psychologist understands the unique organization and culture of schools and related systems.**~~

**Knowledge**

~~The school psychologist understands school and multi-tiered systems' structure, organization, and theory.~~

~~The school psychologist understands general and special education.~~

~~The school psychologist understands empirically supported school practices that promote academic outcomes, learning, social development, and mental health.~~

**Performance**

~~The school psychologist, in collaboration with others, demonstrates skills to develop and implement practices and strategies to create and maintain effective and supportive learning environments for students and others.~~

~~The school psychologist utilizes data-based decision making and evaluation methods, problem-solving strategies, consultation, and other services for systems-level issues, initiatives, and accountability responsibilities.~~

**Standard 7: *Home/School/Community Collaboration - The school psychologist understands how to work effectively with students, families, educators, and others in the community to promote and provide comprehensive educational services.***

**Knowledge**

~~\_\_\_\_\_ The school psychologist understands the characteristics of families, family strengths and needs, family culture, and family-school interactions that impact student development.~~

7(a) The school psychologist understands the psychological and educational principles and research related to family systems and their influences on students' academic, motivational, behavioral, mental health, and social characteristics.

7(b) The school psychologist understands **the importance of** ~~empirically supported strategies to support~~ family influences on student learning, socialization, and mental health.

7(c) The school psychologist understands methods to develop collaboration between families, schools, and community agencies.

**Performance**

7(d) The school psychologist **collaborates and engages with parents in decision-making about their children to enhance** ~~demonstrates skills, in collaboration with others, to design, implement, and evaluate services that facilitate family and school partnerships and interactions with community agencies for enhancement of academic and social-behavioral outcomes for students.~~

7(e) The school psychologist uses **effective strategies** ~~empirically supported strategies to promote effective collaboration and partnerships among parents, schools, and community agencies, etc~~ regarding student learning, socialization, and mental health.

~~***Interventions and Mental Health Services to Develop Social and Life Skills - The school psychologist understands human development and psychopathology, including biological, cultural, and social influences.***~~

**Knowledge**

~~4(a) The school psychologist understands biological, cultural, developmental, and social influences on learning, behavior, mental health, and life skills.~~

~~4(b)4(a) The school psychologist understands techniques to assess socialization, mental health, and life skills and methods for using data in decision making, planning, and progress monitoring.~~

~~4(c)4(a) The school psychologist understands evidence-based supported strategies to promote social-emotional functioning and mental health.~~

#### **Performance**

~~4(d)4(a) The school psychologist uses assessment and data collection methods to collaboratively develop appropriate goals for students with diverse abilities, backgrounds, strengths, and needs.~~

~~4(e)4(a) The school psychologist integrates behavioral supports and mental health services with academic and behavioral goals to promote positive outcomes for students.~~

~~The school psychologist uses empirically supported strategies to collaboratively develop and implement services at the individual, group, and/or systems levels and to enhance classroom, school, home, and community factors related to student's mental health, socialization, and learning.~~

**Standard 8: Student Diversity in Development and Learning - The school psychologist understands that an individual's development and learning are influenced by a multitude of factors (i.e., one or more of the following factors: biological, social, cultural, ethnic, experiential, socioeconomic, environmental, gender-related, and/or linguistic, etc.).**

#### **Knowledge**

8(a) The school psychologist understands individual differences, abilities, and other diverse characteristics.

8(b) The school psychologist understands principles and research related to diversity factors for students, families, and schools, including, but not limited to, factors related to race, culture, gender, language acquisition, and environment context, individual, and role differences.

8(c) The school psychologist understands empirically supported strategies to enhance educational services for diverse students and families and effectively address potential influences on learning related to diversity.

8(d) The school psychologist understands how stereotypes and biases impact mental health, learning, and service provision the diversity of the continuum of educational development for students ages three through 21, including all educational service transitions.

#### **Performance**

8(e) The school psychologist provides educational services that promote effective functioning for individuals, families, and schools with diverse characteristics, cultures, and backgrounds across multiple contexts.

~~The school psychologist collaborates to address individual differences, strengths, backgrounds, and needs in providing services to improve educational and mental health outcomes for students.~~

~~8(f) The school psychologist provides culturally competent and effective practices in all areas of school psychology service delivery (e.g. culturally sensitive assessment practices).~~

~~8(g) The school psychologist promotes fairness and social justice in school policies and programs.~~

~~8(h) The school psychologist is aware of their own biases, attitudes, and stereotypes and seeks to protect against their influence.~~

~~**Preventive and Responsive Services**—The school psychologist understands preventive and responsive services in educational settings to promote a safe school environment.~~

#### **Knowledge**

~~6(a) The school psychologist understands principles and research related to resilience and risk factors in learning and mental health.~~

~~6(b)6(a) The school psychologist understands services in schools and communities to support multi-tiered prevention, and empirically supported strategies for effective crisis response.~~

#### **Performance**

~~6(c)6(a) The school psychologist, in collaboration with others, demonstrates skills to promote services that enhance learning, mental health, safety, physical well-being, and resilience through protective and adaptive factors.~~

~~6(d)6(a) The school psychologist, in collaboration with others, demonstrates skills to implement and/or evaluate effective crisis preparation, response, and recovery.~~

~~6(e)6(a) The school psychologist uses assessment and data collection methods to collaboratively develop appropriate goals for and to evaluate outcomes of prevention and response activities and crisis services.~~

~~**Standard 9: Research and Program Evaluation - The school psychologist understands research, statistics, and evaluation methods.**~~

#### **Knowledge**

~~9(a) The school psychologist understands research design, statistics, measurement, and various data-collection and analysis techniques.~~

~~9(b) The school psychologist understands how to evaluate and apply research as a foundation for service delivery statistical and other data analysis techniques sufficient for interpretation of research and data in applied settings.~~

~~9(c) The school psychologist understands program evaluation methods at the individual, group, and systems levels.~~

Performance

9(d) The school psychologist demonstrates skills to evaluate and apply research as a foundation for service delivery.

9(e) The school psychologist demonstrates skills in provides assistance in educational settings for analyzing, interpreting, and using empirical foundations for effective practices at the individual, group, and/or systems levels.

9(f) The school psychologist assists teachers in collecting meaningful student data.

9(g) The school psychologist applies knowledge of evidence-based interventions to evaluate the fidelity and effectiveness of school-based intervention plans.

The school psychologist demonstrates skills in using various techniques and technology resources, in collaboration with others, for data collection, measurement, analysis, and program evaluation to support effective practices at the individual, group, and/or systems levels.  
~~**Home/School/Community Collaboration – The school psychologist understands how to work effectively with students, families, educators, and others in the community to promote and provide comprehensive educational services.**~~

Knowledge

~~The school psychologist understands the characteristics of families, family strengths and needs, family culture, and family school interactions that impact student development.~~

~~The school psychologist understands the psychological and educational principles and research related to family systems and their influences on students' academic, motivational, behavioral, mental health, and social characteristics.~~

~~The school psychologist understands empirically supported strategies to support family influences on student learning, socialization, and mental health.~~

~~The school psychologist understands methods to develop collaboration between families, schools, and community agencies.~~

Performance

~~The school psychologist demonstrates skills, in collaboration with others, to design, implement, and evaluate services that facilitate family and school partnerships and interactions with community agencies for enhancement of academic and social behavioral outcomes for students.~~

~~The school psychologist uses empirically supported strategies to promote effective collaboration and partnerships among parents, schools, and community agencies regarding student learning, socialization, and mental health.~~  
**Standard 10: Legal, Ethical, and Professional Practice –The school psychologist understands the history and foundations of the profession, various service models and methods, and applies legal and ethical practices to advocate for the educational rights and welfare of students and families.**

Knowledge

10(a) The school psychologist understands the history and foundations of school psychology.

10(b) The school psychologist understands multiple service models and methods.

10(c) The school psychologist understands ethical, legal, and professional standards and other factors related to professional identity, including personal biases and effective practice.

10(d) The school psychologist understands current federal and state statutes and regulations pertaining to educational services.

10(e) The school psychologist understands self-evaluation methods to determine areas for continuing professional development.

### **Performance**

10(f) The school psychologist provides services consistent with ethical, legal, and professional standards.

10(g) The school psychologist engages in ethical and professional decision-making.

10(h) The school psychologist collaborates ~~with~~ and consults with other professionals regarding legal and ethical educational practices.

10(i) The school psychologist ~~demonstrates~~ applies professionalism in their work characteristics for effective practice, including (e.g., respect for human diversity and social justice, communication skills, interpersonal skills, responsibility, adaptability, initiative, and dependability).

10(j) The school psychologist demonstrates legal and ethical practices in communication and ~~the~~ use of technology.

10(k) The school psychologist utilizes supervision and mentoring in the development of legal and ethical professional practice.

### **~~Research and Program Evaluation – The school psychologist understands research, statistics, and evaluation methods.~~**

#### **Knowledge**

~~9(a) The school psychologist understands research design, statistics, measurement, varied data collection and analysis techniques.~~

~~9(b)9(a) The school psychologist understands statistical and other data analysis techniques sufficient for interpretation of research and data in applied settings.~~

~~9(c)9(a) The school psychologist understands program evaluation methods at the individual, group, and systems levels.~~

#### **Performance**

~~9(d)9(a) The school psychologist demonstrates skills to evaluate and apply research as a foundation for service delivery.~~

~~9(e)9(a) — The school psychologist provides assistance in educational settings for analyzing, interpreting, and using empirical foundations for effective practices at the individual, group, and/or systems levels.~~

~~The school psychologist demonstrates skills in using various techniques and technology resources, in collaboration with others, for data collection, measurement, analysis, and program evaluation to support effective practices at the individual, group, and/or systems levels.~~

## IDAHO STANDARDS FOR SCHOOL SOCIAL WORKERS

The following knowledge and performance statements for the School Social Worker Standards are widely recognized, but not all-encompassing or absolute, indicators that School Social Worker candidates have met the standards. These standards were adapted from the 2008~~15~~ Council on Social Work Education (CSWE) Educational Policy and Accreditation Standards, the National Association of Social Workers (NASW) School Social Work Standards, and the School Social Work Association of America's National School Social Work Model: Improving Academic and Behavioral Outcomes. It is the responsibility of a School Social Work preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. —Additionally, all school social worker candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

School Social Work is a complex and specialized field of practice that is affected by changes in education policy, research, and practice models that continue to evolve. School social workers are the link between the home, school and community in providing direct as well as indirect services that promote and support students' academic and social success. School social work competence is the ability to integrate and apply social work knowledge, values, and skills to practice situations in a purposeful, intentional, and professional manner to promote human and community well-being. These standards reflect the values of our profession and current practice trends.

~~An important component of the School Social Work profession is a candidate's disposition. Professional dispositions are how School Social Work candidates view their profession, their content area, and/or students and their health and learning. Every School Social Work preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Social Worker candidate dispositions.~~

~~**Standard 1: Foundations of the professional school social worker —The competent school social worker is an advanced practitioner trained in mental health with a masters degree in social work, who provides services related to a person's social emotional and life adjustment to school and/or society. School social workers are the link between the home, school and community in providing direct as well as indirect services that promote and support students' academic and social success.**~~

### Knowledge - The competent school social worker:

- 1(a) Understands that state-issued social work license ensures ethical, legal, and professional social work practice in the P-12 educational setting~~school social work is an area of concentration built on the knowledge and competencies of graduate level social work education.~~
- 1(b) understands school social work is an area of advanced specialized practice built on the knowledge and competencies of a graduate level social work education;
- 1(c) values the importance of human relationships;
- 1(d) understands human behavior and social environment theories of typical and atypical development across the lifespan;

- 1(e) understands how atypical behavior and adverse experiences (i.e., trauma exposure, emotional and behavioral disorders) impact student, family, school and community functioning;
- 1(f) understands that engagement, assessment, intervention and evaluation are ongoing components of the dynamic and interactive process of school social work practice;
- 1(g) understands how their personal experiences and affective reactions may impact their effectiveness with students, families, schools and communities; and
- 1(h) understands how to synthesize and apply a broad range of interdisciplinary and multidisciplinary knowledge and skills in the educational setting.

~~1(a) —~~

~~1(b) — Understands how to improve academic and behavioral outcomes of students.~~

~~1(c) — Possesses skills and knowledge to ensure the delivery of scientifically supported services.~~

~~1(d) — Knows how to promote a positive school climate and culture.~~

~~1(e) — Knows how to maximize school based and community resources.~~

~~1(f) — Understands how to synthesize and apply a broad range of interdisciplinary and multidisciplinary knowledge and skills.~~

**Performance — The competent school social worker:**

~~1(g) — Uses knowledge to improve academic and behavioral outcomes of students.~~

~~1(h) — Utilizes skills and knowledge to ensure the delivery of scientifically supported services.~~

~~1(i) — Promotes a positive school climate and culture.~~

~~1(j) — Maximizes school based and community resources.~~

~~1(k) — Synthesizes and applies a broad range of interdisciplinary and multidisciplinary knowledge and skills.~~

**Standard 2: Demonstrate Ethical and Professional Behavior ~~Engagement, Assessment, Intervention, and Evaluation — The competent school social worker engages, assesses, intervenes, and evaluates with individuals, families, groups, organizations and communities for the enhancement of student learning and the educational system.~~**

**Knowledge - The competent school social worker:**

2(a) understands the value base of the profession and its ethical standards;

2(b) understands relevant laws and regulations that may impact practice with students, families, schools and communities;

2(c) understands professional ethics delineated in the *National Association of Social Workers Code of Ethics, Code of Ethics for Idaho Professional Educators, and Idaho Social Work licensing laws;*

2(d) Understands the legal and ethical principles of confidentiality as they relate to the practice of school social work (i.e., HIPPA, FERPA);

- 2(e) recognizes personal values and the distinction between personal and professional values;
- 2(f) understands how their personal experiences and affective reactions influence their professional judgment and behavior;
- 2(g) understands the profession's history, its mission, and the roles and responsibilities of the profession;
- 2(h) understands the role of other professions when engaged in inter-professional teams;
- 2(i) recognizes the importance of lifelong learning and are committed to continually updating their skills to ensure they are relevant and effective; and
- 2(j) understands emerging forms of technology and the ethical use of technology in school social work practice.
- ~~2(a) Understands environmental factors when planning interventions to create an effective bridge between students' experiences and goals.~~
- ~~2(b) Understands how to conduct social work assessment of adaptive behavior, learning styles, self-esteem, social skills, attitudes, high-risk behavior (i.e. truancy, suicide, homicide, drug and alcohol, etc.), interests, and emotional/mental health.~~
- ~~2(c) Understands how to help students work cooperatively and productively.~~
- ~~2(d) Understands how to interpret and utilize research to evaluate and guide professional interventions and program development.~~
- ~~2(e) Understands dispute resolution strategies.~~
- ~~2(f) Is familiar with the diagnostic tools used by other professionals in the school.~~
- ~~2(g) Understands the use of assessment as a means to evaluate the student's social emotional/mental functioning, including:~~
- ~~• The child's physical, cognitive, and social-emotional development.~~
  - ~~• Family history and factors that influence the child's overall functioning.~~
  - ~~• The child's behavior and attitude in different settings.~~
  - ~~• Patterns of interpersonal relationships in all spheres of the child's environment.~~
  - ~~• Patterns of achievement and adjustment at critical points in the child's growth and development.~~
  - ~~• Adaptive behavior and cultural factors that may influence learning; understands the relationship between assessment, eligibility, and placement decisions, including the development of Accommodation, Behavior, Response to Intervention (RTI) and Individualized Education Plans (IEP).~~

**Performance - The competent school social worker:**

2(k) adheres to the professional ethical responsibilities delineated in the *National Association of Social Workers Code of Ethics, Code of Ethics for Idaho Professional Educators, and Idaho Social Work licensing laws;*

2(l) models and promotes ethical practices for confidential communication;

2(m) uses reflection and self-regulation to manage personal values and maintain professionalism in practice situations;

2(n) demonstrates professional demeanor in behavior; appearance; and oral, written, and electronic communication;

2(o) uses technology ethically and appropriately to facilitate practice outcomes; and

2(p) uses supervision and consultation to guide professional judgment and behavior.

~~2(h) Substantively and effectively builds relationships with individuals, families, groups, organizations, and communities.~~

~~2(i) Uses empathy and other interpersonal skills.~~

~~2(j) Develops a mutually agreed-on intervention goals and objectives.~~

~~2(k) Collects, organizes, and interprets student data.~~

~~2(l) Assesses student and family strengths and limitations with the goal of improving student social, emotional, behavioral, and academic outcomes.~~

~~2(m) Selects and utilizes appropriate intervention strategies.~~

~~2(n) Initiates actions to achieve student learning outcomes.~~

~~2(o) Implements prevention interventions that enhance student and family capacities.~~

~~2(p) Helps students and families resolve problems.~~

~~2(q) Negotiates, mediates, and advocates for students, families and the school system.~~

~~2(r) Plans for and facilitates transitions and termination of services.~~

~~2(s) Critically analyzes, monitors, and evaluates interventions.~~

~~2(t) Uses diverse interview techniques and written communication with all persons within the student's environment.~~

~~2(u) Mobilizes the resources of the school and community to meet the needs of students and their families.~~

~~2(v) Assists in establishing expectations for student learning consistent with students' strengths and educational goals.~~

**Standard 3: *Engage Diversity and Difference in Practice***~~Knowledge of human behavior and the social environment — The competent school social worker is knowledgeable about human behavior across the life course; the range of social systems in which people live; and the ways social systems promote or deter people in maintaining or achieving health and well-being. School social workers apply pertinent theories and knowledge to understand biological, social, cultural, psychological, and spiritual development.~~

**Knowledge - The competent school social worker:**

3(a) understands how diversity and differences characterize and shape the human experience, are critical to the formation of identity and shapes a student's approach to academic performance;

3(b) understands diversity as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status;

3(c) understands that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim;

3(d) understands the forms and mechanisms of oppression and discrimination; and

3(e) recognizes the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.

~~3(a) Understands theories of normal and exceptional development in early childhood, middle childhood, adolescence, and early adulthood and their application to all students.~~

~~3(b) Understands the effects of mental illness on students' ability to participate in learning.~~

~~3(c) Understands the person-in-environment context of social work.~~

~~3(d) Understands the effects of biological, spiritual, legal, social, and cultural factors on human development and social functioning.~~

~~3(e) Understands characteristics and implications for education of children with academic, and/or social/emotional challenges.~~

~~3(f) Understands strength-based assessments and practices that support growth and development.~~

~~3(g) Understands the social-developmental history with its focus on the student's functioning within the educational environment.~~

~~3(h) Understands principles of and strategies for effective behavior, emotional and social management within the school environment.~~

~~3(i) Understands how people's attitudes within the educational environment influence behavior of individuals.~~

~~3(j) Understands the importance of parents'/guardians' participation in fostering students' positive development.~~

~~3(k) Understands the goals and objectives of educational organizations.~~

~~3(l) Understands how service learning and volunteerism promote the development of personal and social responsibility.~~

**Performance - The competent school social worker:**

- ~~3(f) applies and communicates understanding of the importance of diversity and differences in shaping life experiences in practice with students, families, schools and communities;~~
- ~~3(g) presents themselves as learners and engages others as experts of their own experiences;~~
- ~~3(h) applies self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse populations and systems; and~~
- ~~3(i) considers how diversity and differences impact student learning, academic success and achievement.~~
- ~~3(m) Utilizes the human behavior in the social environment framework to guide processes of assessment, intervention, and evaluation with individuals, groups, families, and school system.~~
- ~~3(n) Critiques and applies knowledge to understand students in their educational, family and community environments.~~
- ~~3(o) Gathers and interprets appropriate information to document and assess environmental, emotional, cultural, socioeconomic, educational, biological, psychosocial, and legal factors that affect children's learning.~~
- ~~3(p) Develops and implements empirically based prevention and intervention plans that enable the child to "respond to intervention" (RTI).~~
- ~~3(q) Provides individual, group, and/or family counseling and other services to enhance success in the educational process.~~
- ~~3(r) Provides crisis intervention counseling and other services to the school community.~~
- ~~3(s) Provides consultation to teachers, administrators, parents, and community agencies.~~
- ~~3(t) Conducts social work assessments and participates in eligibility conferences for special education and other programmatic options, students' educational planning conferences, and conferences with parents.~~
- ~~3(u) Implements appropriate areas of student IEP, accommodation, and behavior plans.~~
- ~~3(v) Initiates referrals and linkages to community agencies and maintains follow-up services on behalf of identified students.~~

**Standard 4: Advance Human Rights and Social, Emotional, and Environmental Justice**~~Policy practice – The competent school social worker advances social and economic well-being and delivers effective social work services in the educational setting. School social workers, as systems' change agents, shall identify areas of need that are not being addressed by the local education agency and community and shall work to create services that address these needs. School social workers shall be informed about court decisions, legislation, rules and regulations, and policies and procedures that affect school social work practice, to effectively advocate for students.~~

**Knowledge - The competent school social worker:**

4(a) understands methods of advocacy on behalf of students, families, school and communities;

4(b) understands that every person, regardless of position in society, has fundamental human rights such as freedom, safety, privacy, an adequate standard of living, health care, and education;

4(c) understands the global interconnections of oppression and human rights violations, and are knowledgeable about theories of human need and social justice; and

4(d) understands strategies designed to eliminate oppressive structural barriers to educational services are distributed equitably and human rights are protected.

~~4(a) Understands the interdisciplinary approach to service delivery within the educational environment.~~

~~4(b) Understands parent/guardian and student rights (both legal and educational) regarding assessment and evaluation.~~

~~4(c) Understands the collaborative process with parents, school personnel, community based organizations, and agencies to enhance the student's educational functioning.~~

~~4(d) Understands the school's role within the context of the larger community.~~

~~4(e) Understands the importance of audience and purpose when selecting ways to communicate ideas.~~

~~4(f) Understands how to work with administrators and other school personnel to make changes within the school.~~

~~4(g) Understands the organization and operation of safe school systems.~~

~~4(h) Understands school policies and procedures as they relate to student learning, safety and well-being.~~

**Performance - The competent school social worker:**

4(e) advocates for practices that advance social, economic and environmental justice in the educational setting;

4(f) involves students in identifying their strengths and needs to establish and attain their academic goals; and

4(g) empowers students, families, and educators to gain access to and effectively use school and community resources to enhance academic performance.

~~4(i) Analyzes, formulates, and advocates for policies that advance social well-being for students, families, and school system.~~

~~4(j) Collaborates with colleagues and clients for effective policy action.~~

~~4(k) Educates students and parents about school, State, and Federal policies and statutes and accompanying rights and responsibilities.~~

~~4(l) Identifies and addresses gaps in services for students and families.~~

~~4(m) Engages in advocacy that seeks to ensure that all students have equal access to education and services to enhance their academic progress.~~

**Standard 5: Engage in Practice-informed Research and Research-informed Practice**~~Environmental contexts that shape practice—Competent school social workers are informed, resourceful, and proactive in responding to evolving organizational, community, and societal contexts at all levels of practice. They recognize that the educational settings are dynamic, and use knowledge and skills to respond proactively.~~

**Knowledge - The competent school social worker:**

5(a) understands evidence-based methods of individual, group, family, and crisis counseling;

5(b) understands quantitative and qualitative research methods in advancing the science of school social work and evaluating practice in the educational setting;

5(c) knows the principles of culturally informed and ethical approaches to building knowledge in the educational setting;

5(d) understands that evidence derived from multi-disciplinary sources guide school social work practice; and

5(e) understands the process for translating research findings into effective school social work practice and interventions

~~5(a) Understands systems theories as they relate to classrooms, schools, families, and community.~~

~~5(b) Understands the application of social learning theories to identify and develop broad-based prevention and intervention programs.~~

~~5(c) Understands learning theory and normal and exceptional development as it applies to the content and curriculum of educational planning and intervention.~~

~~5(d) Understands how to develop long and short-term empirically based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.~~

~~5(e) Understands how to integrate and use technology for assessments, interventions, and information management.~~

~~5(f) Understands that as members of interdisciplinary teams and coalitions, school social workers shall work collaboratively to mobilize the resources of local education agencies and communities to meet the needs of students and families.~~

~~5(g) Understands how to facilitate a collaborative relationship between general and special education systems to promote a unified system of education.~~

**Performance - The competent school social worker:**

5(f) uses practice experience and theory to inform research, scientific inquiry and employ evidence-based interventions;

- 5(g) uses research findings to evaluate and improve practice, policy, and social service delivery in the educational setting; and
- 5(h) uses evidence based knowledge in the development and implementation of individualized student support services (i.e., 504, IEP, LEP).
- ~~5(h) Continuously discovers, appraises, and attends to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant service.~~
- ~~5(i) Provides leadership in promoting sustainable changes in service delivery and practice to improve the quality of social services.~~
- ~~5(j) Facilitates collaborative relationships between general and special education systems to promote a unified system of education.~~
- ~~5(k) Develops long and short term empirically based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.~~
- ~~5(l) Integrates and uses technology for assessments, interventions, and information management.~~

**Standard 6: Engage in Policy Practice**~~Empirically based practice – The competent school social worker engages in research-informed practice and practice-informed research. School social workers use practice experience to inform research, employ evidence-based interventions, evaluate their own practice, and use research findings to improve practice, policy, and social service delivery in the educational setting.~~

**Knowledge - The competent school social worker:**

- 6(a) understands the interdisciplinary approach to service delivery within the educational environment;
- 6(b) understands the collaborative process with parents, school personnel, community based organizations, and agencies to enhance the student's educational functioning;
- 6(c) is informed about court decisions, legislation, rules and regulations, and policies and procedures that affect school social work practice;
- 6(d) understands their role in policy development and implementation within the educational setting;
- 6(e) recognizes and understands the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy within the educational setting;
- 6(f) understands parent/guardian and student rights (both legal and educational) regarding assessment and evaluation; and
- 6(g) understands school policies and procedures as they relate to student learning, safety and well-being.
- ~~6(a) Understands empirically based methods of individual, group, family, and crisis counseling.~~

- ~~6(b) Understands empirically-based methods of social work service delivery.~~
- ~~6(c) Understands the process of needs assessment, referral, and resource development.~~
- ~~6(d) Understands quantitative and qualitative research.~~
- ~~6(e) Understands scientific and ethical approaches to building knowledge.~~
- ~~6(f) Understands the use of empirically based assessment and evaluation results to develop student interventions.~~

**Performance - The competent school social worker:**

- 6(h) collaborates with students, families, schools and communities for effective policy action;
- 6(i) engages in advocacy that seeks to ensure that all students have equal access to education and services to enhance their academic progress;
- 6(j) assesses how social welfare and economic policies impact the delivery of and access to social services; and
- 6(k) applies critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.
- ~~6(g) Uses practice in the educational setting to inform future research activities.~~
- ~~6(h) Uses research evidence to inform practice in assessment, prevention, intervention and evaluation with individuals, groups, families, and the school system.~~
- ~~6(i) Uses evidence based knowledge in the development and implementation of accommodation, behavioral, RTI, and IEP plans.~~
- ~~6(j) Collects, interprets and uses data in interdisciplinary collaboration to develop and foster academic achievement.~~
- ~~6(k) Involves students in self-assessment activities to help them become aware of their strengths and needs to establish and attain their goals.~~

**Standard 7: Engage with Students, Families, Schools, and Communities Advocacy** — ~~The competent school social worker advances student, family and human rights for social and economic justice within educational settings. Each person, regardless of position in society, has basic human rights, such as freedom, safety, privacy, an adequate standard of living, health care, and education.~~

**Knowledge - The competent school social worker:**

- 7(a) understands strategies to effectively engage with students, families, schools and communities;
- 7(b) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to facilitate engagement;
- 7(c) understands theories and methods of communication; and
- 7(d) values principles of relationship-building and inter-professional collaboration.

- ~~7(a) Understands methods of advocacy on behalf of individuals, families, and school systems.~~
- ~~7(b) Understands the role of advocacy and facilitation at all levels of the system that affect students and their families.~~
- ~~7(c) Understands the need to improve access to services and resources.~~
- ~~7(d) Understands the forms and mechanisms of oppression and discrimination and how these factors impact student learning.~~
- ~~7(e) Recognizes the global interconnections of oppression and are knowledgeable about theories of justice and strategies to promote human and civil rights within the academic setting.~~

**Performance - The competent school social worker:**

- 7(e) applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with students, families, schools and communities;
- 7(f) utilizes cultural sensitivity and humility when engaging a variety of audiences; and
- 7(g) uses empathy, dispute resolution, reflection, and interpersonal skills to effectively engage and build relationships.
- ~~7(f) Advocates for student, family and human rights and social and economic justice.~~
- ~~7(g) Engages in practices that advance social and economic justice.~~
- ~~7(h) Works to empower children, their families, educators, and others to gain access to and effectively use school and community resources.~~
- ~~7(i) Identifies areas of need and accesses or advocates for the creation of resources at the state and community level.~~
- ~~7(j) Advocates for students with other members of the educational community to enhance students' functioning in the learning environment.~~
- ~~7(k) Incorporates social justice practices in organizations, institutions, and society to ensure that these basic human rights are distributed equitably and without prejudice.~~

**Standard 8: Assess Students, Families, Schools, and Communities**~~Diversity and cultural competence— The competent school social worker understands how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation.~~

**Knowledge - The competent school social worker:**

- 8(a) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to facilitate assessment with students, families, schools and communities;

8(b) understands methods of and how to conduct assessments related to adaptive behavior, learning styles, high-risk behavior (i.e. truancy, suicide, homicide, substance use, etc.) and social emotional health;

8(c) recognizes the implications of the larger practice context in the assessment process and values the importance of inter-professional collaboration; and

8(d) understands diagnostic tools in the educational setting.

~~8(a) Understands the variations in beliefs, traditions, and values across cultures and their effect on interactions among group members.~~

~~8(b) Understands the broad range of backgrounds and experiences that shape students' approaches to learning.~~

~~8(c) Understands how students' success is influenced by prior learning and the diversity factors listed above.~~

~~8(d) Understands and identifies differences in approaches to learning and performance, including different learning styles, performance modes, and variations of perception.~~

~~8(e) Understands the issues of second language acquisition and the immigrant experience.~~

~~8(f) Understands ways in which similar behaviors may have different meanings to people in different cultures.~~

~~8(g) Understands that, as a consequence of difference and diversity, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim.~~

**Performance - The competent school social worker:**

8(e) collects and organizes data, and applies critical thinking to interpret assessment information;

8(f) utilizes effective oral and written communication;

8(g) applies knowledge of human behavior and the social environment, and other theoretical frameworks in the analysis of assessment data;

8(h) develops mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges; and

8(i) uses assessment data; research knowledge; and the values and preferences of students, families, schools and communities to identify appropriate interventions.

~~8(h) Considers the extent to which a culture's structures and values may oppress, marginalize, alienate, create or enhance privilege and power.~~

~~8(i) Gains sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups.~~

~~8(j) Communicates their understanding of the importance of difference in shaping life, learning and educational experiences.~~

~~8(k) Actively learns from and engages those with whom they work.~~

~~8(l) — Considers how these factors impact student learning, academic success and achievement.~~

**Standard 9: Intervene with Students, Families, Schools, and Communities**~~Critical Thinking — The competent school social worker is knowledgeable about the principles of logic, scientific inquiry, and professional judgment and their implications to student learning.~~

**Knowledge - The competent school social worker:**

9(a) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to develop effective interventions relevant to the educational setting;

9(b) understands methods of identifying, analyzing and implementing evidence-informed interventions to achieve identified educational goals; and

9(c) understands the importance of inter-professional teamwork and communication when implementing evidence-informed interventions with students, families, schools and communities.

~~9(a) — Understands how to analyze the usefulness of knowledge in specific situations.~~

~~9(b) — Understands how synthesis and communication of relevant information is pertinent to the educational setting.~~

~~9(c) — Understands how to integrate content knowledge for service delivery.~~

~~9(d) — Understands theories and methods of communication.~~

**Performance - The competent school social worker:**

9(d) applies knowledge of human behavior and the social environment, and other theoretical frameworks in interventions;

9(e) critically identifies and implements prevention strategies and interventions to achieve identified goals to enhance wellness and academic performance;

9(f) brokers resources of the school and community to meet identified needs;

9(g) provides counseling, crisis intervention and other services;

9(h) uses inter-professional collaboration to achieve beneficial practice outcomes;

9(i) facilitates effective transitions and endings that advance mutually agreed-on goals; and

9(j) negotiates, mediates, educates, consults and advocates with and on behalf of students, families, schools and communities.

~~9(e) — Distinguishes, appraises, and integrates multiple sources of knowledge, including research-based knowledge, and practice wisdom.~~

~~9(f) — Uses critical thinking and professional judgment augmented by creativity and curiosity in decision making.~~

~~9(g) — Analyzes models of assessment, prevention, intervention, and evaluation.~~

- ~~9(h) Synthesizes and communicates relevant information as it pertains to the learning environment.~~
- ~~9(i) Uses supervision and consultation to determine best practice service delivery.~~
- ~~9(j) Utilizes theories and appropriate methods of communication when engaging a variety of audiences.~~

**Standard 10: Evaluate Practice with Students, Families, Schools, and Communities**~~*Ethical Practice—The competent school social worker conducts themselves ethically by applying ethical principles to guide professional practice and decision making within the educational setting.*~~

**Knowledge - The competent school social worker:**

- 10(a) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to evaluate outcomes;
- 10(b) recognizes the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness; and
- 10(c) understands how to interpret and utilize research to evaluate and guide professional interventions and educational program development.
- ~~10(a) Understands federal and state laws and regulations as they pertain to ethical school social work practice.~~
- ~~10(b) Understands the NASW Code of Ethics and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work Ethics in Social Work, Statement of Principles.~~
- ~~10(c) Understands the legal and ethical principles of confidentiality as they relate to the practice of school social work, (i.e. HIPPA, FERPA).~~
- ~~10(d) Understands the value base of the profession, its ethical standards, and relevant law.~~

**Performance - The competent school social worker:**

- 10(d) applies knowledge of human behavior and the social environment, person-in-environment and other theoretical frameworks in the evaluation of practice;
- 10(e) critically analyzes, monitors and evaluates intervention outcomes;
- 10(f) applies evaluation findings to improve practice effectiveness with students, families, schools and communities; and
- 10(g) selects and uses appropriate methods for evaluation of outcomes.
- ~~10(e) Maintains current knowledge of and abides by federal and State laws and regulations, with emphasis on confidentiality, and students' and families' rights.~~
- ~~10(f) Models and promotes ethical practices for confidential communication.~~
- ~~10(g) Manages personal values in a way that allows professional values to guide practice.~~
- ~~10(h) Makes ethical decisions by applying standards of the NASW Code of Ethics and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work Ethics in Social Work, Statement of Principles.~~

- ~~10(i) Tolerates ambiguity in resolving ethical conflicts.~~
- ~~10(j) Applies strategies of ethical reasoning to arrive at principled decisions.~~
- ~~10(k) Collaborates with other educational professionals in an interdisciplinary and ethical manner.~~

~~**Standard 11: Identifies as a professional school social worker and conducts oneself accordingly—School social workers serve as representatives of the profession, its mission, and its core values. They know the profession’s history. Social workers commit themselves to the profession’s enhancement and to their own professional conduct and growth.**~~

~~**Knowledge—The competent school social worker:**~~

- ~~11(a) Understands methods of practice, including counseling, crisis intervention, case work, and individual, group, and family therapies.~~
- ~~11(b) Understands and develops skills in advocacy, case management, classroom groups, community organization, consultation and in-service training.~~
- ~~11(c) Understands the role of mandated reporters and the function of the State’s child welfare agency and law enforcement interaction.~~
- ~~11(d) Understands the importance of active participation and leadership in professional education and social work organizations.~~
- ~~11(e) Understands how to use supervision, consultation, collaboration, and continuing education to identify areas for ongoing professional development.~~
- ~~11(f) Understands the importance of taking responsibility for self-evaluation as a competent and ethical practitioner.~~
- ~~11(g) Understands the significance of social work history.~~

~~**Performance—The competent school social worker:**~~

- ~~11(h) Advocates for student and family access to social work services in the educational setting.~~
- ~~11(i) Practices personal reflection and self-correction to assure continual professional development.~~
- ~~11(j) Attends to professional roles and boundaries within the context of the educational setting.~~
- ~~11(k) Demonstrates professional demeanor in behavior, appearance, and communication.~~
- ~~11(l) Engages in career-long learning.~~
- ~~11(m) Uses supervision and consultation.~~
- ~~11(n) Uses continuing education, professional development activities, research, professional literature, observations and experiences to enhance professional growth and to guide evaluation of professional practice.~~

~~Participates in professional activities and organizations that promote and enhance school social work practice.~~

## IDAHO STANDARDS FOR SPEECH-LANGUAGE PATHOLOGY

All speech-language pathology candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all speech-language pathology candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for speech-language pathologists were adopted from the Council for Clinical Certification in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association. (2014 Standards for the Certificate of Clinical Competence in Speech-Language Pathology. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective speech language pathologists. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

***Standard I: Degree – The applicant for certification must have a master's, doctoral, or other recognized post-baccalaureate degree.***

Implementation: The Council for Clinical Certification in Audiology and Speech-Language Pathology (CFCC) has the authority to determine eligibility of all applicants for certification.

***Standard II: Education Program – All graduate course work and graduate clinical experience required in speech-language pathology must have been initiated and completed in a speech-language pathology program accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).***

Implementation: If the graduate program of study is initiated and completed in a CAA-accredited program or in a program that held candidacy status for CAA accreditation, and if the program director or official designee verifies that all knowledge and skills required at the time of application have been met, approval of academic course work and practicum is automatic. Applicants eligible for automatic approval must submit an official graduate transcript or a letter from the registrar that verifies the date the graduate degree was awarded. The official graduate transcript or letter from the registrar must be received by the National Office no later than 1 year from the date the application was received. Verification of the graduate degree is required of the applicant before the certificate is awarded.

Individuals educated outside the United States or its territories must submit documentation that course work was completed in an institution of higher education that is regionally accredited or recognized by the appropriate regulatory authority for that country. In addition, applicants outside the United States or its territories must meet each of the standards that follow.

***Standard III: Program of Study – The applicant for certification must have completed a program of study (a minimum of 36 semester credit hours at the graduate level) that includes academic course work and supervised clinical experience sufficient in depth and breadth to achieve the specified knowledge and skills outcomes stipulated in Standard IV-A through IV-G and Standard V-A through V-C.***

Implementation: The minimum of 36 graduate semester credit hours must have been earned in a program that addresses the knowledge and skills pertinent to the ASHA Scope of Practice in Speech-Language Pathology.

***Standard IV: Knowledge Outcomes***

***Standard IV-A – The applicant must have demonstrated knowledge of the biological sciences, physical sciences, statistics, and the social/behavioral sciences.***

Implementation: Acceptable courses in biological sciences should emphasize a content area related to human or animal sciences (e.g., biology, human anatomy and physiology, neuroanatomy and neurophysiology, human genetics, veterinary science). Acceptable courses in physical sciences should include physics or chemistry. Acceptable courses in social/behavioral sciences should include psychology, sociology, anthropology, or public health. A stand-alone course in statistics is required. Research methodology courses in communication sciences and disorders (CSD) may not be used to satisfy the statistics requirement. A course in biological and physical sciences specifically related to CSD may not be applied for certification purposes to this category unless the course fulfills a university requirement in one of these areas.

Academic advisors are strongly encouraged to enroll students in courses in the biological, physical, and the social/behavioral sciences in content areas that will assist students in acquiring the basic principles in social, cultural, cognitive, behavioral, physical, physiological, and anatomical areas useful to understanding the communication/linguistic sciences and disorders.

***Standard IV-B – The applicant must have demonstrated knowledge of basic human communication and swallowing processes, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases. The applicant must have demonstrated the ability to integrate information pertaining to normal and abnormal human development across the life span.***

***Standard IV-C – The applicant must have demonstrated knowledge of communication and swallowing disorders and differences, including the appropriate etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, and linguistic and cultural correlates in the following areas:***

- articulation;
- fluency;
- voice and resonance, including respiration and phonation;
- receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication and paralinguistic communication) in speaking, listening, reading, writing;

- hearing, including the impact on speech and language;
- swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding, orofacial myology);
- cognitive aspects of communication (attention, memory, sequencing, problem-solving, executive functioning);
- social aspects of communication (including challenging behavior, ineffective social skills, and lack of communication opportunities);
- augmentative and alternative communication modalities.

Implementation: It is expected that course work addressing the professional knowledge specified in Standard IV-C will occur primarily at the graduate level.

***Standard IV-D – For each of the areas specified in Standard IV-C, the applicant must have demonstrated current knowledge of the principles and methods of prevention, assessment, and intervention for people with communication and swallowing disorders, including consideration of anatomical/physiological, psychological, developmental, and linguistic and cultural correlates.***

***Standard IV-E – The applicant must have demonstrated knowledge of standards of ethical conduct.***

Implementation: The applicant must have demonstrated knowledge of the principles and rules of the current ASHA Code of Ethics.

***Standard IV-F – The applicant must have demonstrated knowledge of processes used in research and of the integration of research principles into evidence-based clinical practice.***

Implementation: The applicant must have demonstrated knowledge of the principles of basic and applied research and research design. In addition, the applicant must have demonstrated knowledge of how to access sources of research information and have demonstrated the ability to relate research to clinical practice.

***Standard IV-G – The applicant must have demonstrated knowledge of contemporary professional issues.***

Implementation: The applicant must have demonstrated knowledge of professional issues that affect speech-language pathology. Issues typically include trends in professional practice, academic program accreditation standards, ASHA practice policies and guidelines, and reimbursement procedures.

***Standard IV-H – The applicant must have demonstrated knowledge of entry level and advanced certifications, licensure, and other relevant professional credentials, as well as local, state, and national regulations and policies relevant to professional practice.***

***Standard V: Skills Outcomes***

***Standard V-A – The applicant must have demonstrated skills in oral and written or other forms of communication sufficient for entry into professional practice.***

Implementation: Individuals are eligible to apply for certification once they have completed all graduate-level academic course work and clinical practicum and been judged by the graduate program as having acquired all of the knowledge and skills mandated by the current standards.

The applicant must have demonstrated communication skills sufficient to achieve effective clinical and professional interaction with clients/patients and relevant others. For oral communication, the applicant must have demonstrated speech and language skills in English, which, at a minimum, are consistent with ASHA's current position statement on students and professionals who speak English with accents and nonstandard dialects. In addition, the applicant must have demonstrated the ability to write and comprehend technical reports, diagnostic and treatment reports, treatment plans, and professional correspondence in English.

***Standard V-B – The applicant for certification must have completed a program of study that included experiences sufficient in breadth and depth to achieve the following skills outcomes:***

**1. Evaluation**

- a. Conduct screening and prevention procedures (including prevention activities).
- b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, and relevant others, including other professionals.
- c. Select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures.
- d. Adapt evaluation procedures to meet client/patient needs.
- e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention.
- f. Complete administrative and reporting functions necessary to support evaluation.
- g. Refer clients/patients for appropriate services.

**2. Intervention**

- a. Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process.
- b. Implement intervention plans (involve clients/patients and relevant others in the intervention process).
- c. Select or develop and use appropriate materials and instrumentation for prevention and intervention.
- d. Measure and evaluate clients'/patients' performance and progress.

- e. Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients.
- f. Complete administrative and reporting functions necessary to support intervention.
- g. Identify and refer clients/patients for services as appropriate.

**3. Interaction and Personal Qualities**

- a. Communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the client/patient, family, caregivers, and relevant others.
- b. Collaborate with other professionals in case management.
- c. Provide counseling regarding communication and swallowing disorders to clients/patients, family, caregivers, and relevant others.
- d. Adhere to the ASHA Code of Ethics and behave professionally.

Implementation: The applicant must have acquired the skills referred to in this standard applicable across the nine major areas listed in Standard IV-C. Skills may be developed and demonstrated by direct client/patient contact in clinical experiences, academic course work, labs, simulations, examinations, and completion of independent projects.

The applicant must have obtained a sufficient variety of supervised clinical experiences in different work settings and with different populations so that he or she can demonstrate skills across the ASHA Scope of Practice in Speech-Language Pathology. Supervised clinical experience is defined as clinical services (i.e., assessment/diagnosis/evaluation, screening, treatment, report writing, family/client consultation, and/or counseling) related to the management of populations that fit within the ASHA Scope of Practice in Speech-Language Pathology.

These experiences should allow students to:

- interpret, integrate, and synthesize core concepts and knowledge;
- demonstrate appropriate professional and clinical skills; and
- incorporate critical thinking and decision-making skills while engaged in identification, evaluation, diagnosis, planning, implementation, and/or intervention.

Alternative clinical experiences may include the use of standardized patients and simulation technologies (e.g., standardized patients, virtual patients, digitized mannequins, immersive reality, task trainers, computer-based interactive).

Supervisors of clinical experiences must hold a current ASHA Certificate of Clinical Competence in the appropriate area of practice during the time of supervision. The supervised activities must be within the ASHA Scope of Practice in Speech-Language Pathology to count toward certification.

***Standard V-C – The applicant for certification in speech-language pathology must complete a minimum of 400 clock hours of supervised clinical experience in the practice of speech-language pathology. Twenty-five hours must be spent in clinical observation, and 375 hours must be spent in direct client/patient contact.***

Implementation: Guided observation hours generally precede direct contact with clients/patients. The observation and direct client/patient contact hours must be within the ASHA Scope of Practice in Speech-Language Pathology and must be under the supervision of a qualified professional who holds current ASHA certification in the appropriate practice area. Such supervision may occur simultaneously with the student's observation or afterwards through review and approval of written reports or summaries submitted by the student. Students may use video recordings of client services for observation purposes.

Applicants should be assigned practicum only after they have acquired sufficient knowledge bases to qualify for such experience. Only direct contact with the client or the client's family in assessment, intervention, and/or counseling can be counted toward practicum. Up to 20% (i.e., 75 hours) of direct contact hours may be obtained through alternative clinical education (ACE) methods. Only the time spent in active engagement with the ACE may be counted. ACE may include the use of standardized patients and simulation technologies (e.g., standardized patients, virtual patients, digitized mannequins, immersive reality, task trainers, computer-based interactive). Debriefing activities may not be included. Although several students may observe a clinical session at one time, clinical practicum hours should be assigned only to the student who provides direct services to the client or client's family. Typically, only one student should be working with a given client at a time in order to count the practicum hours. It is possible for several students working as a team to receive credit for the same session, depending on the specific responsibilities each student is assigned. The applicant must maintain documentation of time spent in supervised practicum, verified by the program in accordance with Standards III and IV.

***Standard V-D – At least 325 of the 400 clock hours must be completed while the applicant is engaged in graduate study in a program accredited in speech-language pathology by the Council on Academic Accreditation in Audiology and Speech-Language Pathology.***

Implementation: A minimum of 325 clock hours of clinical practicum must be completed at the graduate level. At the discretion of the graduate program, hours obtained at the undergraduate level may be used to satisfy the remainder of the requirement.

***Standard V-E – Supervision must be provided by individuals who hold the Certificate of Clinical Competence in the appropriate profession. The amount of direct supervision must be commensurate with the student's knowledge, skills, and experience, must not be less than 25% of the student's total contact with each client/patient, and must take place periodically throughout the practicum. Supervision must be sufficient to ensure the welfare of the client/patient.***

Implementation: Direct supervision must be in real time. A supervisor must be available to consult with a student providing clinical services to the supervisor's client. Supervision of clinical practicum is intended to provide guidance and feedback and to facilitate the student's acquisition

of essential clinical skills. The amount of direct supervision must be commensurate with the student's knowledge, skills, and experience, must not be less than 25% of the student's total contact with each client/patient, and must take place periodically throughout the practicum. Supervision must be sufficient to ensure the welfare of the client/patient.

***Standard V-F – Supervised practicum must include experience with client/patient populations across the life span and from culturally/linguistically diverse backgrounds. Practicum must include experience with client/patient populations with various types and severities of communication and/or related disorders, differences, and disabilities.***

Implementation: The applicant must demonstrate direct client/patient clinical experiences in both assessment and intervention with both children and adults from the range of disorders and differences named in Standard IV-C.

***Standard VI: Assessment – The applicant must have passed the national examination adopted by ASHA for purposes of certification in speech-language pathology.***

Implementation: Results of the Praxis Examination in Speech-Language Pathology must be submitted directly to ASHA from ETS. The certification standards require that a passing exam score must be earned no earlier than 5 years prior to the submission of the application and no later than 2 years following receipt of the application. If the exam is not successfully passed and reported within the 2-year application period, the applicant's certification file will be closed. If the exam is passed or reported at a later date, the individual will be required to reapply for certification under the standards in effect at that time.

***Standard VII: Speech-Language Pathology Clinical Fellowship – The applicant must successfully complete a Speech-Language Pathology Clinical Fellowship (CF).***

Implementation: The Clinical Fellowship may be initiated only after completion of all academic course work and clinical experiences required to meet the knowledge and skills delineated in Standards IV and V. The CF experience must be initiated within 24 months of the date the application is received. Once the CF has been initiated, it must be completed within 48 months. For applicants completing multiple CFs, all CF experiences related to the application must be completed within 48 months of the date the first CF was initiated. Applications will be closed for a CF/CFs that is/are not completed within the 48-month timeframe or that is/are not reported to ASHA within 90 days after the 48-month timeframe. The Clinical Fellow will be required to reapply for certification and must meet the Standards in effect at the time of re-application. CF experiences older than 5 years at the time of application will not be accepted.

The CF must have been completed under the mentorship of an individual who held the ASHA Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) throughout the duration of the fellowship. It is the Clinical Fellow's responsibility to identify a mentoring speech-language pathologist (SLP) who holds an active Certificate of Clinical Competence in Speech-Language Pathology. Should the certification status of the mentoring SLP change during the CF experience, the Clinical Fellow will be awarded credit only for that portion of time during which the mentoring SLP held certification. It, therefore, is incumbent on the CF to verify the mentoring SLP's status periodically throughout the Clinical Fellowship experience. A family member or individual related in any way to the Clinical Fellow may not serve as a mentoring SLP.

***Standard VII-A: Clinical Fellowship Experience – The Clinical Fellowship must have consisted of clinical service activities that foster the continued growth and integration of knowledge, skills, and tasks of clinical practice in speech-language pathology consistent with ASHA's current Scope of Practice in Speech-Language Pathology. The Clinical Fellowship must have consisted of no less than 36 weeks of full-time professional experience or its part-time equivalent.***

Implementation: No less than 80% of the Fellow's major responsibilities during the CF experience must have been in direct client/patient contact (e.g., assessment, diagnosis, evaluation, screening, treatment, clinical research activities, family/client consultations, recordkeeping, report writing, and/or counseling) related to the management process for individuals who exhibit communication and/or swallowing disabilities.

Full-time professional experience is defined as 35 hours per week, culminating in a minimum of 1,260 hours. Part-time experience of less than 5 hours per week will not meet the CF requirement and may not be counted toward completion of the experience. Similarly, work in excess of the 35 hours per week cannot be used to shorten the CF to less than 36 weeks.

***Standard VII-B: Clinical Fellowship Mentorship – The Clinical Fellow must have received ongoing mentoring and formal evaluations by the CF mentor.***

Implementation: Mentoring must have included on-site observations and other monitoring activities. These activities may have been executed by correspondence, review of video and/or audio recordings, evaluation of written reports, telephone conferences with the Fellow, and evaluations by professional colleagues with whom the Fellow works. The CF mentor and Clinical Fellow must have participated in regularly scheduled formal evaluations of the Fellow's progress during the CF experience. The Clinical Fellow must receive ongoing mentoring and formal evaluations by the CF Mentor.

The mentoring SLP must engage in no fewer than 36 supervisory activities during the clinical fellowship experience. This supervision must include 18 on-site observations of direct client contact at the Clinical Fellow's work site (1 hour = 1 on-site observation; a maximum of six on-site observations may be accrued in 1 day). At least six on-site observations must be conducted during each third of the CF experience. On-site observations must consist of the Clinical Fellow engaged in screening, evaluation, assessment, and/or habilitation/rehabilitation activities. Use of real-time, interactive video and audio conferencing technology is permitted as a form of on-site observation, for which pre-approval must be obtained.

Additionally, supervision must also include 18 other monitoring activities. At least six other monitoring activities must be conducted during each third of the CF experience. Other monitoring activities are defined as evaluation of reports written by the Clinical Fellow, conferences between the mentoring SLP and the Clinical Fellow, discussions with professional colleagues of the Fellow, etc., and may be executed by correspondence, telephone, or reviewing of video and/or audio tapes.

On rare occasions, the CFCC may allow the supervisory process to be conducted in other ways. However, a request for other supervisory mechanisms must be submitted in written form to the CFCC, and co-signed by the CF mentor, before the CF is initiated. The request must include the reason for the alternative supervision and a description of the supervision that would be

provided. At a minimum, such a request must outline the type, length, and frequency of the supervision that would be provided.

A CF mentor intending to supervise a Clinical Fellow located in another state may be required to also hold licensure in that state; it is up to the CF mentor and the Clinical Fellow to make this determination before proceeding with a supervision arrangement.

***Standard VII-C: Clinical Fellowship Outcomes – The Clinical Fellow must have demonstrated knowledge and skills consistent with the ability to practice independently.***

Implementation: At the completion of the CF experience, the applicant will have acquired and demonstrated the ability to:

- integrate and apply theoretical knowledge,
- evaluate his or her strengths and identify his or her limitations,
- refine clinical skills within the Scope of Practice in Speech-Language Pathology,
- apply the ASHA Code of Ethics to independent professional practice.

In addition, upon completion of the CF, the applicant must have demonstrated the ability to perform clinical activities accurately, consistently, and independently and to seek guidance as necessary.

The CF mentor must submit the Clinical Fellowship Report and Rating Form, which includes the Clinical Fellowship Skills Inventory (CFSI), as soon as the CF successfully completes the CF experience. This report must be signed by both the Clinical Fellow and mentoring SLP.

***Standard VIII: Maintenance of Certification – Certificate holders must demonstrate continued professional development for maintenance of the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP).***

Implementation: Individuals who hold the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) must accumulate 30 certification maintenance hours of professional development during every 3-year maintenance interval. Intervals are continuous and begin January 1 of the year following award of initial certification or reinstatement of certification. A random audit of compliance will be conducted.

Accrual of professional development hours, adherence to the ASHA Code of Ethics, submission of certification maintenance compliance documentation, and payment of annual dues and/or certification fees are required for maintenance of certification.

If renewal of certification is not accomplished within the 3-year period, certification will expire. Individuals wishing to regain certification must submit a reinstatement application and meet the standards in effect at the time the reinstatement application is submitted.

**SUBJECT**

Temporary and Proposed Rule, IDAPA 08.02.03, Rules Governing Thoroughness  
– Extended Content Standards and Science Assessment

**REFERENCE**

April 2008	Board approved the temporary and proposed rule change to IDAPA 08.02.03.004, Rules Governing Thoroughness, to incorporate the Idaho Extended Content Standards.
August 2008	Board approved pending rule Docket 08-0203-0802, incorporating by reference the Idaho Extended Content Standards.
August 2017	Board adopted revised Idaho Science Content Standards.
August 2017	Board approved pending rule Docket 08-0203-1703, Rules Governing Thoroughness, to incorporate the Idaho Extended Content Standards Core Content Connectors in ELA and Math.

**APPLICABLE STATUTE, RULE, OR POLICY**

Sections 33-105 and 33-1612, Idaho Code  
Idaho Administrative Code, IDAPA 08.02.03, Rules Governing Thoroughness

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 1: Educational System Alignment; Objective B: Alignment and Coordination

**BACKGROUND/DISCUSSION**

This temporary and proposed rule updates IDAPA 08.02.03, Rules Governing Thoroughness, subsections 004.05 and 111.06. This temporary rule is required to comply with governing law.

**Subsection 004.05**

The Idaho Extended Content Standards in science are not currently aligned with the Idaho Content Standards for science adopted in 2017. Both the Individuals with Disabilities Education Act (IDEA) and the Elementary and Secondary Education Act (ESEA) require that content standards for all students, regardless of cognitive ability, to be aligned with general education standards. This temporary and proposed rule will replace the Idaho Extended Content Standards in Science with the Idaho Content Standards Core Content Connectors-Science (subsection 004.05).

The purpose of the Core Content Connectors (Connectors) is to identify the most salient core academic content in science found in the Idaho Content Standards. The Connectors identify priorities for the instruction of students identified as having significant cognitive disabilities and align with the alternate assessment. They illustrate the necessary knowledge and skills students with significant cognitive

disabilities need to reach the learning targets or critical big ideas within the state standard.

The Connectors were developed by a team of Idaho science and special educators to promote how students with significant cognitive disabilities can engage in the Idaho Content Standards while following the learning progression. They have the following characteristics:

- Sequenced to help guide meaningful instruction for students with significant cognitive disabilities and lead to enduring skills in successive grades;
- Written as outcome based, which provides a description of what students should know and do;
- Written with high level of expectations for students with significant cognitive disabilities; and
- Align to grade-level standards to provide access to the general curriculum. Connectors are designed to contribute to a fully aligned system of content, instruction, and assessment.

**Subsection 111.06**

Under ESEA section 1111(b)(1) and (2) and 34 CFR §§ 200.1–200.8., states are required to have challenging academic content and achievement standards and to administer assessments aligned to these standards to all students. Further, ESEA Section 111(b)(2)(B)(v) requires that states administer the science assessment at least once in grade bands 3-5, 6-9, and 10-12. Idaho currently administers the science assessment in grades 5 and 7 and as an end of course assessment in biology or chemistry at the high school level.

With the adoption of updated science content standards in 2017, the state must develop and administer a new assessment aligned to the new standards. After engagement with stakeholders during the development of the updated science content standards, and in ongoing engagement since the adoption, stakeholders including educators, administrators, and parents agree the science standards are structured in a spiraled sequence that build on the skills in grade bands 3-5, 6-8, and high school.

Engagement conversations between the Department of Education (Department) and these stakeholders have focused on administering assessments at the end of each of the grade bands (elementary school, middle school, and high-school), as this timeframe allows for teaching and learning progression of the standards in elementary, middle, and high school, while recognizing course sequences of the science domains (earth science, physical science, and life science) that vary across the state's local education agencies. Secondary teachers contributed perspectives on not limiting the high school science assessment to a single science domain (e.g. life science, or earth science), as it restricts the value of a well-rounded science education and preparation of Idaho's students in necessary science skills and knowledge.

**DEPARTMENT OF EDUCATION**  
**JUNE 19, 2019**

---

This temporary and proposed rule changes the administration of the grade band 6-9 test from grade 7 to grade 8 (subsection 111.06.h-i). Additionally, the course-specific end of course science assessment (subsection 111.06.n) is replaced by a single science assessment administered in grade 11 (subsection 111.06.l). The administration of an assessment in grade 11 complies with ESEA Section 1111(b)(2), which specifies all students be assessed on the same set of standards. The current end of course assessment in biology or chemistry does not meet this requirement.

**IMPACT**

The adoption of this temporary and proposed rule ensures that students with the most significant cognitive disabilities will receive instruction and assessment aligned with general education standards as required by IDEA and ESEA. Additionally, a science assessment aligned to Idaho science content standards administered in grades 5, 8, and 11 will ensure Idaho's comprehensive assessment program is compliant with ESEA. Failure to comply with federal assessment requirements as outlined can result in the withholding of Title I administrative funds by the US Department of Education. The Department has a condition on Title I funds pending progress on the development of a high-quality science assessment.

**ATTACHMENTS**

Attachment 1 – Proposed Rule Text, IDAPA 08.02.03  
Attachment 2 – Idaho Core Content Connectors - Science  
Attachment 3 – Presentation

**STAFF COMMENTS AND RECOMMENDATIONS**

Administrative rules are made up of three types of rules. Temporary rules, proposed rules and pending rules. Temporary and proposed rules may be promulgated jointly with a single docket number or temporary rules may be promulgated as a stand alone rule. A rule must go through the proposed rule and pending rule steps to become a final rule. Temporary rules go into effect at the time of Board approval unless an alternative effective date is specified by Board action and may circumvent the formal negotiated rulemaking process that takes place prior to a proposed rule being brought forward to the Board.

To qualify as a temporary rule, the rule must meet one of three criteria:

- provides protection of the public health, safety, or welfare; or
- is to come into compliance with deadlines in amendments to governing law or federal programs; or
- is conferring a benefit.

This temporary rule complies with the requirement that it is necessary to come into compliance with governing law or federal programs.

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

Once approved by the Board, the proposed rule is then published in the administrative bulletin and a 21-day public comment period commences. Unlike the negotiated rulemaking process, the public comment period only requires the public be given an opportunity to comment on what has already been drafted. Formal public hearings may also be conducted as part of the 21-day comment period. Following the close of the public comment period, changes may be made to the proposed rule in response to the comments received. The rule is then brought back to the Board, with changes if applicable, as a pending rule. If the pending rule is approved by the Board it is published again in the Administrative Bulletin as a pending (final) rule and forwarded to the Legislature for consideration.

Staff recommends approval.

**BOARD ACTION**

I move to approve the Idaho Core Content Connectors – Science, as submitted in Attachment 2.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

I move to approve temporary and proposed amendments to IDAPA 08.02.03 as submitted in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

IDAPA 08  
TITLE 02  
CHAPTER 03

**08.02.03 – RULES GOVERNING THOROUGHNESS**

**000. LEGAL AUTHORITY.**

All rules in this Thoroughness chapter (IDAPA 08.02.03) are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under sections 33-116, 33-118, and 33-1612, Idaho Code. Specific statutory references for particular rules are also noted as additional authority where appropriate.  
(4-5-00)

**001. TITLE AND SCOPE.**

**01. Title.** These rules shall be known as IDAPA 08.02.03 “Rules Governing Thoroughness.” (4-5-00)

**02. Scope.** These rules shall govern the thorough education of all public school students in Idaho.  
(4-5-00)

**002. WRITTEN INTERPRETATIONS.**

Any written interpretations are on file at the office of the State Board of Education at 650 West State Street, Boise, Idaho 83702.  
(3-15-02)

**003. ADMINISTRATIVE APPEALS.**

Unless otherwise provided for in the Rules of the State Board of Education or in the State Board of Education Governing Policies and Procedures, all administrative appeals allowed by law shall be conducted pursuant to the Idaho Administrative Procedure Act and IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.”  
(4-5-00)

**004. INCORPORATION BY REFERENCE.**

The following documents are incorporated into this rule: (3-30-07)

**01. The Idaho Content Standards.** The Idaho Content Standards as adopted by the State Board of Education. Individual subject content standards are adopted in various years in relation to the curricular materials adoption schedule. Copies of the document can be found on the State Board of Education website at <https://boardofed.idaho.gov>. (3-29-10)

**a. Arts and Humanities Categories:** (3-24-17)

i. Dance, as revised and adopted on August 11, 2016; (3-24-17)

ii. Interdisciplinary Humanities, as revised and adopted on August 11, 2016; (3-24-17)

iii. Media Arts, as adopted on August 11, 2016. (3-24-17)

iv. Music, as revised and adopted on August 11, 2016; (3-24-17)

v. Theater, as revised and adopted on August 11, 2016; (3-24-17)

vi. Visual Arts, as revised and adopted on August 11, 2016; (3-24-17)

vii. World languages, as revised and adopted on August 11, 2016. (3-24-17)

**b. Computer Science,** adopted on November 28, 2016. (3-24-17)

- c. Driver Education, as revised and adopted on August 10, 2017. (3-28-18)
- d. English Language Arts/Literacy, as revised and adopted on November 28, 2016. (3-24-17)
- e. Health, as revised and adopted on August 11, 2016. (3-24-17)
- f. Information and Communication Technology, as revised and adopted on August 10, 2017. (3-28-18)
- g. Limited English Proficiency, as revised and adopted on August 21, 2008. (3-29-10)
- h. Mathematics, as revised and adopted on August 11, 2016. (3-24-17)
- i. Physical Education, as revised and adopted on August 11, 2016. (3-24-17)
- j. Science, as revised and adopted on August 10, 2017. (3-28-18)
- k. Social Studies, as revised and adopted on November 28, 2016. (3-24-17)
- l. College and Career Readiness Competencies adopted on June 15, 2017. (3-28-18)
- m. Career Technical Education Categories: (3-29-17)
  - i. Agricultural and Natural Resources, as revised and adopted on August 16, 2018. (4-11-19)
  - ii. Business and Marketing Education, as revised and adopted on August 31, 2017. (3-28-18)
  - iii. Engineering and Technology Education, as revised and adopted on August 16, 2018. (4-11-19)
  - iv. Health Sciences, as adopted on August 16, 2018. (4-11-19)
  - v. Family and Consumer Sciences, as revised and adopted on August 16, 2018. (4-11-19)
  - vi. Skilled and Technical Sciences, as revised and adopted on August 16, 2018. (4-11-19)
  - vii. Workplace Readiness, as adopted on June 16, 2016. (3-29-17)

**02. The English Language Development (ELD) Standards.** The World-Class Instructional Design and Assessment (WIDA) 2012 English Language Development (ELD) Standards as adopted by the State Board of Education on August 16, 2012. Copies of the document can be found on the WIDA website at [www.wida.us/standards/eld.aspx](http://www.wida.us/standards/eld.aspx). (4-4-13)

~~0908.~~ **The Idaho Standards for Infants, Toddlers, Children, and Youth Who Are Blind or Visually Impaired.** As adopted by the State Board of Education on October 11, 2007. Copies of the document can be found on the State Board of Education website at <https://boardofed.idaho.gov>. (4-2-08)

~~1009.~~ **The Idaho Special Education Manual.** The Idaho Special Education Manual as adopted by the State Board of Education on October 17, 2018. Copies of the document can be found on the State Board of Education website at <https://boardofed.idaho.gov>. (4-11-19)

**BREAK IN CONTINUITY OF SECTIONS**

**111. ASSESSMENT IN THE PUBLIC SCHOOLS.**

**01. Philosophy.** Acquiring the basic skills is essential to realization of full educational, vocational and personal/social development. Since Idaho schools are responsible for instruction in the basic scholastic skills, the State Board of Education has a vested interest in regularly surveying student skill acquisition as an index of the effectiveness of the educational program. This information can best be secured through objective assessment of student growth. The State Board of Education will provide oversight for all components of the comprehensive assessment program. (4-2-08)

**02. Purposes.** The purpose of assessment in the public schools is to: (3-15-02)

a. Measure and improve student achievement; (3-15-02)

b. Assist classroom teachers in designing lessons; (3-15-02)

c. Identify areas needing intervention and remediation, and acceleration; (3-15-02)

d. Assist school districts in evaluating local curriculum and instructional practices in order to make needed curriculum adjustments; (3-15-02)

e. Inform parents and guardians of their child's progress; (3-15-02)

f. Provide comparative local, state and national data regarding the achievement of students in essential skill areas; (3-15-02)

g. Identify performance trends in student achievement across grade levels tested and student growth

over time; and (3-15-02)

- h.** Help determine technical assistance/consultation priorities for the State Department of Education. (3-15-02)

**03. Content.** The comprehensive assessment program will consist of multiple assessments, including, the Idaho Reading Indicator (IRI), the National Assessment of Educational Progress (NAEP), the Idaho English Language Assessment, the Idaho Standards Achievement Tests (ISAT), the Idaho Alternate Assessment, and a college entrance exam. (3-29-12)

**04. Testing Population.** All students in Idaho public schools, grades kindergarten through twelve (K-12), are required to participate in the comprehensive assessment program approved by the State Board of Education and funded. (4-2-08)

**a.** All students who are eligible for special education shall participate in the statewide assessment program. (4-6-05)

**b.** Each student's individualized education program team shall determine whether the student shall participate in the regular assessment without accommodations, the regular assessment with accommodations or adaptations, or whether the student qualifies for and shall participate in the alternate assessment. (4-6-05)

**c.** Limited English Proficient (LEP) students, as defined in Subsection 112.05.g.iv., may receive designated supports or accommodations, or both, for the ISAT assessment if need has been indicated by the LEP student's Educational Learning Plan (ELP) team. The team shall outline the designated supports or accommodations, or both, in an ELP prior to the assessment administration. Designated supports or accommodations, or both, shall be familiar to the student during previous instruction and for other assessments. LEP students who are enrolled in their first year of school in the United States may take Idaho's English language assessment in lieu of the English language ISAT, but will still be required to take the ISAT (Mathematics and Science). Such LEP students will be counted as participants for the ninety-five percent (95%) participation target, as described in Subsection 112.05.e. However, such LEP students are not required to be counted for accountability purposes as described in Subsection 112.05.i. (3-29-17)

**05. Scoring and Report Formats.** Scores will be provided for each subject area assessed and reported in standard scores, benchmark scores, or holistic scores. Test results will be presented in a class list report of student scores, building/district summaries, content area criterion reports by skill, disaggregated group reports, and pressure sensitive labels as appropriate. Information about the number of students who are eligible for special education who participate in regular and alternate assessments, and their performance results, shall be included in reports to the public if it is statistically sound to do so and would not disclose performance results identifiable to individual students. (4-7-11)

**a.** Effective April 1, 2009, all students taking the Idaho Standards Achievement Test (ISAT) must have a unique student identifier. (4-7-11)

**b.** Districts must send all assessment results and related communication to parents within three (3) weeks of receipt from the state. (4-7-11)

**06. Comprehensive Assessment Program.** The State approved comprehensive assessment program is outlined in Subsections 111.06.a. through 111.06.n. Each assessment will be comprehensive of and aligned to the Idaho State Content Standards it is intended to assess. In addition, districts are responsible for writing and implementing assessments in those standards not assessed by the state assessment program. (3-29-17)

**a.** Kindergarten - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)

**b.** Grade 1 - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)

- c. Grade 2 - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (4-11-15)
- d. Grade 3 - Idaho Reading Indicator, Grade 3 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-17)
- e. Grade 4 - National Assessment of Educational Progress, Grade 4 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-17)
- f. Grade 5 - Grade 5 Idaho Standards Achievement Tests in English language usage, mathematics, and science; ~~Idaho Alternate Assessment;~~ Idaho English Language Assessment. (3-29-17)
- g. Grade 6 - Grade 6 Idaho Standards Achievement Tests, ~~Idaho Alternate Assessment~~ in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-17)
- h. Grade 7 - Grade 7 Idaho Standards Achievement Tests, ~~Idaho Alternate Assessment~~ in English language usage, and mathematics, ~~and science;~~ Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-17)
- i. Grade 8 - National Assessment of Educational Progress; ~~Grade 8 Idaho Standards Achievement Tests in English language usage,~~ and mathematics, and science; ~~Idaho Alternate Assessment;~~ Idaho English Language Assessment. (3-29-17)
- j. Grade 9 - High School Idaho Standards Achievement Tests (optional at the discretion of the school district or charter school), Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-17)
- k. Grade 10 - High School Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)
- l. Grade 11 ~~—~~ High School Idaho Standards Achievement Test in science, Idaho Alternate Assessment, Idaho English Language Assessment, college entrance exam. (3-29-17)
- m. Grade 12 - National Assessment of Educational Progress, Idaho English Language Assessment. (4-2-08)
- n. ~~Students are required to take a high school End-of-Course Assessment in science provided by the state and administered by the district as applicable to the course completed by the students.~~ (3-29-17)
- 07. Comprehensive Assessment Program Schedule. (5-3-03)**
- a. The Idaho Reading Indicator will be administered in accordance with Section 33-1615, Idaho Code. (3-29-17)
- b. The National Assessment of Educational Progress will be administered in timeframe specified by the U.S. Department of Education. (3-15-02)
- c. The Idaho Standards Achievement Tests will be administered in the Spring in a time period specified by the State Board of Education. (4-11-15)
- d. The Idaho Alternate Assessment will be administered in a time period specified by the State Board of Education. (4-2-08)
- e. Idaho's English Language Assessment will be administered in a time period specified by the State

Board of Education. (3-29-17)

**08. Costs Paid by the State.** Costs for the following testing activities will be paid by the state: (4-1-97)

**a.** All consumable and non-consumable materials needed to conduct the prescribed statewide comprehensive assessment program; (3-15-02)

**b.** Statewide distribution of all assessment materials; and (3-29-12)

**c.** Processing and scoring student response forms, distribution of prescribed reports for the statewide comprehensive assessment program. (3-29-12)

**09. Costs of Additional Services.** Costs for any additional administrations or scoring services not included in the prescribed statewide comprehensive assessment program will be paid by the participating school districts. (3-15-02)

**10. Services.** The comprehensive assessment program should be scheduled so that a minimum of instructional time is invested. Student time spent in testing will not be charged against attendance requirements. (3-15-02)

**11. Test Security, Validity and Reliability.** (4-2-08)

**a.** Test security is of the utmost importance. To ensure integrity of secure test items and protect validity and reliability of test outcomes, test security must be maintained. School districts will employ security measures in protecting statewide assessment materials from compromise. Each individual who has any opportunity to see test items must sign a state-provided confidentiality agreement, which the district must keep on file in the district for at least two (2) years. Documentation of security safeguards must be available for review by authorized state and federal personnel. (4-2-08)

**b.** Any assessment used for federal reporting shall be independently reviewed for reliability, validity, and alignment with the Idaho Content Standards. (4-2-08)

**12. Demographic Information.** Accurate demographic information must be submitted as required for each test to assist in interpreting test results. It may include but is not limited to race, sex, ethnicity, and special programs, (Title I, English proficiency, migrant status, special education status, gifted and talented status, and socio-economic status). (4-2-08)

**13. Dual Enrollment.** For the purpose of non-public school student participation in non-academic public school activities as outlined in Section 33-203, Idaho Code, the Idaho State Board of Education recognizes the following: (3-15-02)

**a.** The Idaho Standards Achievement Tests (grades 3-8 and High School). (3-29-17)

**b.** A portfolio demonstrating grade level proficiency in at least five (5) of the subject areas listed in Subsections 111.13.b.i. through 111.13.b.vi. Portfolios are to be judged and confirmed by a committee comprised of at least one (1) teacher from each subject area presented in the portfolio and the building principal at the school where dual enrollment is desired. (4-6-05)

**i.** Language Arts/Communications. (3-15-02)

**ii.** Math. (3-15-02)

**iii.** Science. (3-15-02)

**iv.** Social Studies. (3-15-02)

- v. Health. (3-15-02)
- vi. Humanities. (3-15-02)

## Introduction

The *Idaho Content Standards in Science* are essential for developing the science literacy of Idaho students, as it is vital that our students understand the fundamental laws and practices within scientific disciplines. The unifying goal is for Idaho students to practice and perform science and use their working knowledge of science to successfully function in a complex world. This document contains the *Idaho Extended Content Standards in Science*. The *Idaho Extended Content Standards in Science* are aligned with the *Idaho Content Standards in Science*, but have been reduced in depth and complexity, as is appropriate for students with the most significant cognitive impairments who qualify to participate in the Idaho Alternate Assessment. At the standard level, the *Idaho Extended Content Standards* are referred to as *Core Content Connectors*, signifying that the *Idaho Extended Content Standards* are “connected to the core content” of the *Idaho Content Standards in Science*.

## Organization of the Standards

### Kindergarten through Grade 2

The *Idaho Content Standards in Science* for students in kindergarten through grade 2 are broad and foundational. This makes them relevant and meaningful for all students, including those with the most significant cognitive impairments. Therefore, the *Core Content Connectors* for kindergarten through grade 2 are exactly the same as the performance standards outlined in the *Idaho Content Standards in Science* for the same grades. In kindergarten through grade 2, the *Core Content Connectors* are organized in tables with the header rows as illustrated below:

Science Domain	Category	Idaho General Education Performance Standard	Summary of Supporting Content
The Science Domains include the following: <ul style="list-style-type: none"> <li>Physical Science</li> <li>Life Science</li> <li>Earth Science</li> </ul>	Categories specific to each science domain.	Description of the performance standard, including the numbering convention.	Statement summarizing the supporting content for each standard.

The numbering convention for the kindergarten through grade 2 *Core Content Connectors* also mirror those found in the *Idaho Content Standards in Science*, as illustrated below:

Science Domain	Unit	Grade Level	Standard Number	Numbering Convention
Physical Science (PS)	2	K	1	PS2-K-1

### Grade 3 through High School

The remaining *Idaho Extended Content Standards in Science* are organized into grades 3, 4, and 5; middle school; and high school. The *Core Content Connectors* for students in these grades are aligned with the *Idaho Content Standards in Science*, but have been reduced in depth and complexity as appropriate for students with the most significant cognitive disabilities. The *Core Content Connectors* for grades 3, 4, and 5; middle school; and high school are organized in tables with header rows as illustrate below:

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
The Science Domains include the following: <ul style="list-style-type: none"> <li>Physical Science</li> <li>Life Science</li> <li>Earth Science</li> </ul>	Categories specific to each science domain.	Description of the performance standard, including the numbering convention.	Description of the Idaho Core Content Connector that is aligned with each Idaho General Education Performance Standard, including the numbering convention.	Statement summarizing the supporting content for each standard.

The numbering convention for the *Core Content Connectors* in grades 3, 4, and 5; middle school; and high school is illustrate below:

Core Content Connector	Science Domain	Unit	Grade Level	Standard Number	Numbering Convention
CCC	Physical Science (PS)	1	5	1	CCC-PS1-5-1

### Kindergarten Core Content Connectors

Science Domain	Category	Idaho General Education Performance Standard	Summary of Supporting Content
Physical Science	Motion and Stability: Forces and Interactions	PS1-K-1. Plan and conduct an investigation to compare the effects of different strengths or different directions of pushes and pulls on the motion of an object.	Pushing or pulling can have different strengths and directions (e.g., the student pushes a ball in different ways.)
Physical Science	Motion and Stability: Forces and Interactions	PS1-K-2. Analyze data to determine if a design solution works as intended to change the speed or direction of an object with a push or a pull.	Pushing or pulling on an object can change the speed or direction of its motion and can start or stop it (e.g., the student pulls an object toward them).
Physical Science	Energy	PS2-K-1. Make observations to determine the effect of sunlight on Earth's surface.	Sunlight warms Earth's surface (e.g., the student moves into sunlight to get warm).
Physical Science	Energy	PS2-K-2. Use tools and materials to design and build a structure that will reduce the warming effect of sunlight on an area.	Umbrellas, canopies, and tents that minimize the warming effect of the sun (e.g., the student stands under a structure when too warm).
Life Science	Molecules to Organisms: Structure and Processes	LS1-K-1. Use observations to describe patterns of what plants and animals (including humans) need to survive.	All animals need food to live and grow. They obtain their food from plants or from other animals. Plants need water and light to live and grow.

Science Domain	Category	Idaho General Education Performance Standard	Summary of Supporting Content
Life Science	Molecules to Organisms: Structure and Processes	LS1-K-2. Use classification supported by evidence to differentiate between living and non-living items.	Living and non-living things have distinct characteristics (e.g., the student can differentiate between a plant and a rock).
Earth Science	Earth's Systems	ESS1-K-1. Use and share observations of local weather conditions to describe patterns over time, which includes the 4 seasons.	Different types of weather occur during the 4 seasons.
Earth Science	Earth's Systems	ESS1-K-2. Construct an argument supported by evidence for how plants and animals (including humans) can change the environment to meet their needs.	Plants and animals interact with Earth's surface to meet their needs (e.g., a bird uses twigs and pine straw to make a nest and a tree's roots can break apart a rock).
Earth Science	Earth and Human Activity	ESS2-K-1. Use a model to represent the relationship between the needs of different plants and animals (including humans) and the places they live.	Living things need specific resources (e.g., food water and shelter) from the land, and they typically live in places that have the things they need.
Earth Science	Earth and Human Activity	ESS2-K-2. Ask questions to obtain information about the purpose of weather forecasting to prepare for, and respond to, severe weather.	Certain kinds of intense weather events are more likely than others to occur in a given region.
Earth Science	Earth and Human Activity	ESS2-K-3. Communicate solutions that will reduce the impact of humans on the land, water, air, and/or other living things in the local environment.	Humans can make choices that determine how much they impact Earth with interacting with it's resources.

**Grade 1 Core Content Connectors**

Science Domain	Category	Idaho General Education Performance Standard	Summary of Supporting Content
Physical Science	Waves	PS1-1-1. Plan and conduct investigations to provide evidence that vibrating materials can make sound and that sound can make materials vibrate.	Vibrating materials can make sound, and sound can make certain materials vibrate if held near the source.
Physical Science	Waves	PS1-1-2. Make observations to construct an evidence-based account that objects in darkness can be seen only when illuminated.	Illumination could be from an external light source or by an object giving off its own light. Different observations can be made in different areas using varying light sources.
Physical Science	Waves	PS1-1-3. Plan and conduct investigations to determine the effect of placing objects made with different materials in the path of a beam of light.	Some materials allow light to pass through them, others allow only some light through and others block all the light.
Physical Science	Waves	PS1-1-4. Use tools and materials to design and build a device that uses light or sound to solve the problem of communicating over a distance.	Devices can be used to send information over distances (a light source, a paper cup and string, or drum beats.)
Life Science	Molecules to Organisms: Structure and Processes	LS1-1-1. Use materials to design a solution to a human problem by mimicking how plants and/or animals use their external parts to help them survive, grow, and meet their needs.	Humans can copy animals' and plants' structures to solve a problem (e.g., a lily pad's design can be used to create a raft for a human).

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Summary of Supporting Content</b>
Life Science	Molecules to Organisms: Structure and Processes	LS1-1-2. Read texts and use media to determine patterns in behavior of parents and offspring that help offspring survive.	Offspring can tell their parents they need something by making certain noises or acting in a certain manner.
Life Science	Molecules to Organisms: Structure and Processes	LS1-1-3. Develop models to describe that organisms have unique and diverse life cycles but all have in common birth, growth, reproduction, and death.	A pattern can be shown when plants and animals are born, grow, change, and expire.
Life Science	Heredity: Inheritance and Variation of Traits	LS2-1-1. Make observations to construct an evidence-based account that young plants and animals are like, but not exactly like, their parents.	Young plants and animals can look very similar to their parents, but do not exactly match.
Earth Science	Earth's Place in the Universe	ESS1-1-1. Use observations of the sun, moon, and stars to describe patterns that can be predicted.	The moon revolves around Earth and Earth revolves around the sun.
Earth Science	Earth's Place in the Universe	ESS1-1-2. Make observations at different times of year to relate the amount of daylight to the time of year.	The number of hours of daylight during the summer season is more than the number of hours during the winter season.

**Grade 2 Core Content Connectors**

Science Domain	Category	Idaho General Education Performance Standard	Summary of Supporting Content
Physical Science	Matter and Its Interactions	PS1-2-1. Plan and conduct an investigation to describe and classify different kinds of materials by their observable properties.	Different types of materials can be grouped together based on observable features (e.g., color, texture, hardness, and flexibility).
Physical Science	Matter and Its Interactions	PS1-2-2. Analyze data obtained from testing different materials to determine which materials have the properties that are best suited for an intended purpose.	Determining the different properties of materials can help determine their varied purposes.
Physical Science	Matter and Its Interactions	PS1-2-3. Make observations to construct an evidence-based account of how an object made of a small set of pieces can be disassembled and made into a new object.	Objects can be made of smaller pieces that can be taken apart and put back together.
Physical Science	Matter and Its Interactions	PS1-2-4. Construct an argument with evidence that some changes caused by heating or cooling can be reversed and some cannot.	After heating certain substances, they can be cooled back down to what they were originally. Other substances are permanently changed after heating or cooling.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS1-2-1. Plan and conduct an investigation to determine if plants need sunlight and water to grow.	A plant will grow bigger when it is placed in the sun and given water.

Science Domain	Category	Idaho General Education Performance Standard	Summary of Supporting Content
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS1-2-2. Develop a simple model that mimics the function of an animal in dispersing seeds or pollinating plants.	Animals can interact with plants to help pollinate them or spread their seeds (e.g., bee covered in pollen sucking the nectar from a flower).
Life Science	Biological Adaptation: Unity and Diversity	LS2-2-1. Make observations of plants and animals to compare the diversity of life in different habitats.	Plants and animals on land and in water have structures that help them survive in that habitat.
Earth Science	Earth's Place in the Universe	ESS1-2-1. Use information from several sources to provide evidence that Earth events can occur quickly or slowly.	Natural Earth events can either occur very quickly or very slowly (e.g., comparing a lightning strike to a glacier melting).
Earth Science	Earth's Systems	ESS2-2-1. Compare multiple solutions designed to slow or prevent wind or water from changing the shape of the land.	Blowing wind and flowing water and move Earth particles and change the shape of Earth's surface.
Earth Science	Earth's Systems	ESS2-2-2. Develop a model to represent the shapes and kinds of land and bodies of water in an area.	Pictures and drawings of Earth from high up can show different land formations and bodies of water.

**Grade 3 Core Content Connectors**

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Physical Science	Motion and Stability: Forces and Interactions	PS1-3-1 Plan and conduct an investigation to provide evidence of the effects of balanced and unbalanced forces on the motion of an object.	CCC-PS1-3-1 Identify forces as the cause of an object's movement.	Forces can cause an object to move and changes in forces can change that motion (e.g., students pushing on a wooden crate).
Physical Science	Motion and Stability: Forces and Interactions	PS1-3-2 Make observations and/or measurements of an object's motion to provide evidence that a pattern can be used to predict future motion.	CCC-PS1-3-2 Predict the cycle of motion for an object moving in a pattern.	Patterns of motion can be used to predict future motion (e.g., a child on a swing).
Physical Science	Motion and Stability: Forces and Interactions	PS1-3-3 Ask questions to determine cause-and-effect relationships of electric or magnetic interactions between two objects not in contact with each other.	CCC-PS1-3-3 Describe how magnets interact with metal objects when they are not in contact with each other (e.g., place a paper clip two inches away from a magnet and slowly push the paper clip until the magnetic force pulls the paper clip to the magnet).	Some forces, such as electrical and magnetic forces, do not require objects to be in contact (e.g., for balloons, static electricity; for magnets, distance and orientation).
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS1-3-1 Construct an argument that some animals form groups that help members survive.	CCC-LS1-3-1 Determine how the group behavior helps the animals. (Note: Benefits might include obtaining food and protection).	Animals often form groups to help them survive.
Life Science	Inheritance and Variation of Traits	LS2-3-1 Analyze and interpret data to provide evidence that plants and animals have traits inherited from parents and that variation of these traits exists in a group of similar organisms.	CCC-LS2-3-1 Use evidence from graphics to identify similarities and differences between parents and their offspring.	Many of the traits of organisms are similar to those of their parents.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Life Science	Inheritance and Variation of Traits	LS2-3-2 Use evidence to support the explanation that traits can be influenced by the environment.	CCC-LS2-3-2 Identify evidence that shows how the environment has influenced traits in plants and animals.	Some traits of organisms result from environmental factors, such as lack of food, water, and exercise (for animals).
Earth Science	Earth's Systems	ESS1-3-1 Represent data in tables and graphical displays to describe typical weather conditions expected during a particular season.	CCC-ESS1-3-1 Describe typical weather conditions expected during a particular season.	Specific seasons have typical weather conditions.
Earth Science	Earth's Systems	ESS1-3-2 Obtain and combine information to describe climates in different regions of the world.	CCC-ESS1-3-2 Describe the climate of a region of the world.	Different regions of the world have different climates.
Earth Science	Earth and Human Activity	ESS2-3-1 Make a claim about the merit of a design solution that reduces the impacts of a weather-related hazard.	CCC-ESS2-3-1 Match the preventative measure to the related weather hazard.	Humans can take steps to reduce the impact of weather-related hazards.

Grade 4 Core Content Connectors

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Physical Science	Energy	PS1-4-1 Use evidence to construct an explanation relating the speed of an object to the energy of that object.	CCC-PS1-4-1 Recognize that if two identical objects are moving at different speeds, then the one moving faster has more energy.	The faster a given object is moving, the more energy it has. (Note: A “given object” is important here. It is not about comparing the energy of different objects, but two identical objects at different speeds can be compared).
Physical Science	Energy	PS1-4-2 Make observations to provide evidence that energy can be transferred from place to place by sound, light, heat, and electric currents.	CCC-PS1-4-2 Identify examples of energy transferring from place to place (e.g., electrical energy becoming light energy in a lamp, electrical energy becoming heat energy in a microwave).	Energy can be transferred from place to place through sound, light, heat, or electricity.
Physical Science	Energy	PS1-4-3 Ask questions and predict outcomes about the changes in energy that occur when objects collide.	CCC-PS1-4-3 Predict the motion of a stationary object when a moving object collides with it.	When a moving object collides with another object, energy is transferred and the motion changes.
Physical Science	Energy	PS1-4-4 Apply scientific ideas to design, test, and refine a device that converts energy from one form to another.	CCC-PS1-4-4 Given a situation, identify the device that is used to convert energy from one form to another (e.g., in a flashlight, a battery converts chemical energy to light; in a fan, electrical energy is converted to motion energy).	Devices can convert energy from one form to another for a variety of uses.
Physical Science	Waves	PS2-4-1 Develop a model of waves to describe patterns in terms of amplitude and wavelength and understand that waves can cause objects to move.	CCC-PS2-4-1 Identify how wave patterns (amplitude and wavelength) can cause objects to move.	Waves move in patterns that can differ in amplitude (height) and wavelength (spacing between waves) and understand that waves can cause objects to move.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Physical Science	Waves	PS2-4-2 Develop a model to describe that light reflecting from objects and entering the eye allows objects to be seen.	CCC-PS2-4-2 Identify the correct path light follows between a light source, the object, and the eye.	The reflection of light from objects and light entering the eyes allows the objects to be seen.
Physical Science	Waves	PS2-4-3 Generate and compare multiple solutions that use patterns to transfer information.	CCC-PS2-4-3 Describe how different sound patterns can convey different meanings.	Information can be transmitted in patterns through the use of multiple devices (e.g., Morse code, binary code, music).
Life Science	From Molecules to Organisms: Structure and Function	LS1-4-1 Construct an argument that plants and animals have internal and external structures that function to support survival, growth, behavior, and reproduction.	CCC-LS1-4-1 Identify the functions (survival, growth, behavior, and/or reproduction) of various plant and animal structures. (Note: Structures could include thorn, stem, roots, petal, heart, lungs, stomach, brain, skin, or skeleton).	Structures of organisms work together to sustain life.
Life Science	From Molecules to Organisms: Structure and Function	LS1-4-2 Use a model to describe how animals receive different types of information through their senses, process the information in their brains, and respond to the information in different ways.	CCC-LS1-4-2 Identify an animal's response to a given environmental stimuli (e.g., ring a bell, a dog hears it and comes to the food bowl; a porcupine senses danger and bristles its quills at an enemy; a skunk senses danger and sprays).	Animals receive information through their senses, process the information in their brains, and respond.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-4-1 Develop a model to describe the movement of matter among plants, animals, decomposers, and the environment.	CCC-LS2-4-1 Sequence the producers, consumers, and decomposers in a food web.	Matter flows among organisms.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Earth Science	Earth's Place in the Universe	ESS1-4-1 Identify evidence from patterns in rock formations and fossils in rock layers to support an explanation for changes in a landscape over time.	CCC-ESS1-4-1 Describe how fossils in rock layers reveal changes in the landscape over time.	Patterns of rock formations and fossils in rock layers reveal changes in the landscape over time.
Earth Science	Earth's Systems	ESS2-4-1 Make observations and/or measurements to provide evidence of the effects of weathering or the rate of erosion by water, ice, wind, or vegetation.	CCC-ESS2-4-1 Use evidence (e.g., pictures, measurements, data) to show how erosion and/or weathering changes the landscape.	Erosion and weathering reshape the landscape over time.
Earth Science	Earth's Systems	ESS2-4-2 Analyze and interpret data from maps to describe patterns of Earth's features.	CCC-ESS2-4-2 Use map symbols to describe Earth's features.	Maps describe patterns of Earth's features.
Earth Science	Earth's Systems	ESS3-4-1 Obtain and combine information to describe that energy and fuels are derived from natural resources and their uses affect the environment.	CCC-ESS3-4-1 Describe an energy source's effect on the environment.	Energy and fuels are derived from natural resources and their uses affect the environment.
Earth Science	Earth's Systems	ESS3-4-2 Generate and compare multiple solutions to reduce the impacts of natural Earth processes on humans.	CCC-ESS3-4-2 Choose a design that would lessen the impact of a natural hazard on an environment (e.g., a raised house in an area prone to flooding).	Humans can take steps to reduce the impact of natural hazards.

**Grade 5 Core Content Connectors**

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Physical Science	Matter and Its Interactions	PS1-5-1 Develop a model to describe that matter is made of particles too small to be seen.	CCC-PS1-5-1 Use a model to explain that matter is still present even when it too small to be seen (e.g., sugar dissolved in water is still present; thus, the water is sweet).	Matter still exists even when it is too small to be seen.
Physical Science	Matter and Its Interactions	PS1-5-2 Measure and graph quantities to provide evidence that, regardless of the type of change that occurs when heating, cooling, or mixing substances, the total weight of matter is conserved.	CCC-PS1-5-2 Identify total weight data that show the total weight of matter before and after heating, cooling, or mixing materials.	Regardless of the type of change that occurs, the total weight of the matter stays the same.
Physical Science	Matter and Its Interactions	PS1-5-3 Make observations and measurements to identify materials based on their properties.	CCC-PS1-5-3 Make observations and match the materials based on their properties (e.g., color, hardness, solubility).	Different substances have different properties (e.g., color, texture, hardness).
Physical Science	Matter and Its Interactions	PS1-5-4 Conduct an investigation to determine whether the mixing of two or more substances results in new substances.	CCC-PS1-5-4 Use observations to determine if the mixing of two or more substances results in a new substance (e.g., baking cookies, making slime).	The mixing of two or more substances sometimes forms a new substance.
Physical Science	Motion and Stability: Forces and Interactions	PS2-5-1 Support an argument that the gravitational force exerted by Earth on objects is directed down.	CCC-PS2-5-1 Use observations to determine that objects, regardless of weight, fall toward Earth due to its gravitational force.	Gravity causes objects to fall toward Earth.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Physical Science	Energy	PS3-5-1 Use models to describe that energy in animals' food (used for body repair, growth, motion, and warmth) was once energy from the sun.	CCC-PS3-5-1 Trace the source of an animal's energy through a food chain back to the sun.	Energy in animals' food was once energy from the sun.
Life Science	From Molecules to Organisms: Structure and Function	LS1-5-1 Support an argument that plants get the materials they need for growth chiefly from air and water.	CCC-LS1-5-1 Use data from investigations to identify that air and water are the main sources of growth materials for plants (e.g., essential vs. non-essential).	Plants acquire their material for growth chiefly from air and water.
Life Science	Biological Evolution: Unity and Diversity	LS2-5-1 Analyze and interpret data from fossils to provide evidence of the organisms and the environments in which they lived long ago.	CCC-LS2-5-1 Identify the environment in which the fossil animal or plant lived.	Some plants and animals that once lived are no longer alive, but fossils provide information about those plants and animals and their environment.
Life Science	Biological Evolution: Unity and Diversity	LS2-5-2 Use evidence to construct an explanation for how the variations in characteristics among individuals of the same species may provide advantages in surviving, finding mates, and reproducing.	CCC-LS2-5-2 Determine which variation of the characteristic is most helpful to the animal in its current environment (e.g., birds: shape and size of beaks).	Sometimes, differences in the characteristics between individuals of the same species provide advantages.
Life Science	Biological Evolution: Unity and Diversity	LS2-5-3 Construct an argument with evidence that in a particular habitat some organisms can survive well, some survive less well, and some cannot survive at all.	CCC-LS2-5-3 Determine the needs of organisms that can survive in a habitat and/or needs of organisms that cannot survive in a habitat.	In a particular habitat, some organisms can survive and some cannot.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Life Science	Biological Evolution: Unity and Diversity	LS2-5-4 Make a claim about the merit of a solution to a problem caused when the environment changes and the types of plants and animals that live there may change.	CCC-LS2-5-4 Determine how the environment may need to change after a natural or manmade event in order for the organisms found there to survive.	When an environment changes, the organisms in the environment may be impacted.
Earth Science	Earth's Place in the Universe	ESS1-5-1 Support an argument that differences in the apparent brightness of the sun compared to other stars is due to their relative distances from Earth.	CCC-ESS1-5-1 Identify that the sun is the closest star to Earth.	The sun appears brighter because it is closer to Earth than other stars.
Earth Science	Earth's Place in the Universe	ESS1-5-2 Represent data in graphical displays to reveal patterns of daily changes in length and direction of shadows, day and night, and the seasonal appearance of some stars in the night sky.	CCC-ESS1-5-2 Use data and/or images to show that shadows can change in length and direction depending on the time of day in a predictable pattern. Use a graphical display to sequence up to four basic phases of the moon. Given a model, name the seasons.	Day and night, seasons, phases of the moon, and shadows follow a regular pattern.
Earth Science	Earth's Systems	ESS2-5-1 Develop a model using an example to describe ways the geosphere, biosphere, hydrosphere, and/or atmosphere interact.	CCC-ESS2-5-1 Use a model to describe how an organism interacts with the land, water, or air in its environment.	All living things interact with the air, water, and land available on Earth.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Earth Science	Earth's Systems	ESS2-5-2 Describe and graph the amounts and percentages of salt water and fresh water in various reservoirs to provide evidence about the distribution of water on Earth.	CCC-ESS2-5-2 Using a model, identify where fresh water and salt water are found.	The majority of the water found on Earth is salt water. Fresh water is limited and found in various areas.
Earth Science	Earth's Systems	ESS3-5-1 Support, obtain, and combine information about ways that individual communities use science ideas to protect Earth's resources and the environment.	CCC-ESS3-5-1 Describe ways to protect Earth's resources and clean up the environment (e.g., place trash in the trash can).	People can take steps to protect Earth's resources and the environment.

### Middle School Core Content Connectors

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Physical Science	Matter and Its Interactions	PS1-MS-1 Develop models to describe the atomic composition of simple molecules and extended structures.	CCC-PS1-MS-1 Use models to distinguish molecules as either simple molecules (such as oxygen) or extended structures (such as carbon dioxide).	Matter is made up of very small pieces called molecules, and within molecules there are atoms.
Physical Science	Matter and Its Interactions	PS1-MS-2 Analyze and interpret data on the properties of substances before and after the substances interact to determine if a chemical reaction has occurred.	CCC-PS1-MS-2 Recognize that chemical changes involve changes in the molecules (atoms are rearranged), leading to a new material with properties that are different from the properties of the original substances.	Some materials interact to form new substances with new properties.
Physical Science	Matter and Its Interactions	PS1-MS-3 Gather and make sense of information to describe how synthetic materials come from natural resources and impact society.	CCC-PS1-MS-3 Gather information to identify the natural resources used to make a synthetic product (e.g., petroleum into plastics, aluminum into cans).	Natural resources can be used to make materials useful to society.
Physical Science	Matter and Its Interactions	PS1-MS-4 Develop a model that predicts and describes changes in particle motion, temperature, and state of a pure substance when thermal energy is added or removed.	CCC-PS1-MS-4 Use a model to identify that the particles that make up an object move fast or slowly, depending on the temperature of the object.	Matter exists in various states (i.e., solid, liquid, and gas). The molecules in matter behave differently when heat is added or removed.
Physical Science	Matter and Its Interactions	PS1-MS-6 Undertake a design project to construct, test, and modify a device that either releases or absorbs thermal energy by chemical processes.	CCC-PS1-MS-6 Use presented evidence to determine if a reaction has released or absorbed thermal energy (e.g., fireworks).	Some chemical reactions release heat; others store heat.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Physical Science	Motion and Stability: Forces and Interactions	PS2-MS-1 Apply Newton’s Third Law to design a solution to a problem involving the motion of two colliding objects.	CCC-PS2-MS-1 Use models to predict how the motion of objects of the same size with different speeds will be affected when the objects collide.	When objects collide, they exert forces on each other that will affect their motion (e.g., collisions between balls or between a ball and a stationary object).
Physical Science	Motion and Stability: Forces and Interactions	PS2-MS-2 Plan an investigation to provide evidence that the change in an object’s motion depends on the sum of the forces on the object and the mass of the object.	CCC-PS2-MS-2 Predict how the motion of objects with different masses will change when acted on by forces.	Unbalanced forces cause a change of motion. The amount of change depends upon the size of the force and mass of the object.
Physical Science	Motion and Stability: Forces and Interactions	PS2-MS-3 Ask questions about data to determine the factors that affect the strength of electric and magnetic forces.	CCC-PS2-MS-3 Use data to make statements about the effect of distance on the interactions between magnets.	Some forces (e.g., magnetic forces) act at a distance without physical contact with an object.
Physical Science	Motion and Stability: Forces and Interactions	PS2-MS-4 Construct and present arguments using evidence to support the claim that gravitational interactions are attractive and depend on the masses of interacting objects.	CCC-PS2-MS-4 Predict how the motion of objects with different masses will change when acted on by forces.	Gravitational force exists between any two objects. The size of the force depends upon the mass of the object.
Physical Science	Motion and Stability: Forces and Interactions	PS2-MS-5 Conduct an investigation and evaluate the experimental design to provide evidence that fields exist between objects exerting forces on each other even though the objects are not in contact.	CCC-PS2-MS-5 Relate the orientation of magnets and the distance between them to the behavior of the magnets.	The behavior of magnets varies with changes in orientation, distance, and the strength of the magnet.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Physical Science	Energy	PS3-MS-1 Construct and interpret graphical displays of data to describe the relationships of kinetic energy to the mass of an object and to the speed of an object.	CCC-PS3-MS-1 Use mass and speed data to determine the object with the greatest kinetic energy.	Kinetic energy (motion energy) is proportional to the mass of the object. Kinetic energy increases as speed increases.
Physical Science	Energy	PS3-MS-3 Apply scientific principles to design, construct, and test a device that either minimizes or maximizes thermal energy transfer.	CCC-PS3-MS-3 Describe situations where thermal energy is transferred (e.g., if ice is added to a cup of water or if water in a pot is heated on a stove).	Heat can be transferred from one object to another. Humans have invented devices to “manage” this transfer.
Physical Science	Energy	PS3-MS-4 Plan an investigation to determine the relationships among the energy transferred, the type of matter, the mass, and the change in the average kinetic energy of the particles as measured by the temperature of the sample.	CCC-PS3-MS-4 Use temperature data to determine the changes of objects of the same material but different masses when heat is applied for a certain period of time.	Temperature is a measure of the average kinetic energy of matter.
Physical Science	Energy	PS3-MS-5 Construct, use, and present arguments to support the claim that when the kinetic energy of an object changes, energy is transferred to or from the object.	CCC-PS3-MS-5 Identify the motion energy transfer in presented examples (e.g., a ball that was moving begins to slow down, so this means that energy was transferred from the object).	When the motion energy of an object changes, the object may gain or lose energy, but the total energy is conserved.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Physical Science	Waves	PS4-MS-1 Use mathematical representations to describe a simple model for waves that includes how the amplitude of a wave is related to the energy in a wave.	CCC-PS4-MS-1 Compare wave diagrams to identify differences in wavelength and amplitude.	Mechanical waves (water, sound, waves in a rope at the gym) have a repeating pattern, including amplitude, which demonstrates the energy of the wave.
Physical Science	Waves	PS4-MS-2 Develop and use a model to describe that waves are reflected, absorbed, or transmitted through various materials.	CCC-PS4-MS-2 Use models to recognize that light can be reflected, absorbed, or transmitted (light passes through the object).	Light waves can be reflected, transmitted, or absorbed by different materials.
Physical Science	Waves	PS4-MS-3 Integrate qualitative scientific and technical information to support the claim that digitized signals are a more reliable way to encode and transmit information than analog signals.	CCC-PS4-MS-3 Identify advantages or disadvantages of various means of communication.	Technological advances have improved our ability to communicate.
Life Science	From Molecules to Organisms: Structure and Function	LS1-MS-1 Conduct an investigation to provide evidence that living things are made of cells; either one cell or many different numbers and types of cells.	CCC-LS1-MS-1 Use evidence to show that all living things are made up of one or more cells, which are the smallest units that can be said to be alive.	All living things are made up of one or more cells, which are the smallest units that can be said to be alive.
Life Science	From Molecules to Organisms: Structure and Function	LS1-MS-2 Develop and use a model to describe the function of a cell as a whole and ways that parts of cells contribute to the function.	CCC-LS1-MS-2 Describe the function of one or more of the following cell parts: nucleus, chloroplast, mitochondria, cell membrane, and cell wall.	Cells are made up of parts with different functions that work together.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Life Science	From Molecules to Organisms: Structure and Function	LS1-MS-3 Use argument supported by evidence for how a living organism is a system of interacting subsystems composed of groups of cells.	CCC-LS1-MS-3 Use evidence to support a claim that groups of cells form tissues. Tissues come together to form organs, and multiple organs form organ systems.	The body is a group of systems working together to carry out body functions.
Life Science	From Molecules to Organisms: Structure and Function	LS1-MS-4 Construct a scientific argument based on evidence to defend a claim of life for a specific object or organism.	CCC-LS1-MS-4 Use evidence to describe how living things share characteristics (e.g., response to the environment, reproduction, energy use, growth and development, life cycles, made of cells).	All living things have certain shared characteristics.
Life Science	From Molecules to Organisms: Structure and Function	LS1-MS-5 Construct a scientific explanation based on evidence for the role of photosynthesis in the cycling of matter and flow of energy into and out of organisms.	CCC-LS1-MS-5 Use a model or diagram to show that during photosynthesis, sunlight is used to combine carbon dioxide and water into food molecules, which can be used or stored by the plant and oxygen is given off.	Plants take in matter (in the form of carbon dioxide and water), and use energy from the sun to produce food, and release oxygen into the environment through photosynthesis.
Life Science	From Molecules to Organisms: Structure and Function	LS1-MS-6 Develop a model to describe how food is rearranged through chemical reactions forming new molecules that support growth and/or release energy as this matter moves through an organism.	CCC-LS1-MS-6 Describe how food must be broken down so that the nutrients can be absorbed by the organism.	Food moves through different processes to form new molecules that support growth and release energy.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-MS-1 Analyze and interpret data to provide evidence for the effects of resource availability on organisms and populations of organisms in an ecosystem.	CCC-LS2-MS-1 Use data as evidence to show whether a population increases or decreases as a result of a change in the availability of resources in the ecosystem.	Organisms are dependent on interactions in their environment, including other living things and the physical environment.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-MS-2 Construct an explanation that predicts patterns of interactions among organisms across multiple ecosystems.	CCC-LS2-MS-2 Describe interactions among organisms across multiple ecosystems (e.g., how a predatory, land-based animal interacts with prey in water ecosystems).	There are a variety of interactions within and across ecosystems that may be competitive or mutually beneficial.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-MS-3 Develop a model to describe the cycling of matter and flow of energy among living and nonliving parts of an ecosystem.	CCC-LS2-MS-3 Complete a cycle to show the flow of energy within the ecosystem.	Energy cycles show how matter and energy is transferred within an ecosystem.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-MS-4 Develop a model to describe the flow of energy through the trophic levels of an ecosystem.	CCC-LS2-MS-4 Use a food chain/web to complete an energy pyramid.	Food webs can be broken down into an energy pyramid, showing the energy available to organisms.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-MS-5 Construct an argument supported by empirical evidence that changes to physical or biological components of an ecosystem affect populations.	CCC-LS2-MS-5 Use data to determine the effect on a population when a supply is limited due to environmental conditions.	Ecosystems are dynamic; their characteristics can vary over time. Disruptions to any physical or biological component of an ecosystem can lead to shifts in all its populations.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Life Science	Heredity: Inheritance and Variation of Traits	LS3-MS-1 Develop and use a model to describe why mutations may result in harmful, beneficial, or neutral effects to the structure and function of the organism.	CCC-LS3-MS-1 Describe that changes to gene structures can cause new traits that may be helpful or harmful.	Structural changes to genes lead to mutations that may be helpful or harmful.
Life Science	Heredity: Inheritance and Variation of Traits	LS3-MS-2 Develop and use a model to describe why asexual reproduction results in offspring with identical genetic information and sexual reproduction results in offspring with genetic variation.	CCC-LS3-MS-2 Use a model to describe how asexual reproduction differs from sexual reproduction.	All organisms reproduce, either sexually and/or asexually. Asexual reproduction occurs from a single organism. Sexual reproduction leads to offspring that inherit traits from both their parents.
Life Science	Biological Evolution: Unity and Diversity	LS4-MS-1 Analyze and interpret data for patterns in the fossil record that document the existence, diversity, extinction, and change of life forms throughout the history of life on Earth under the assumption that natural laws operate today as in the past.	CCC-LS4-MS-1 Given images of ancient and present-day organisms, describe how the organism changed over time (e.g., woolly mammoth and modern elephant).	Fossil records provide information about how living things have changed over time.
Life Science	Biological Evolution: Unity and Diversity	LS4-MS-2 Apply scientific ideas to construct an explanation for the anatomical similarities and differences among modern organisms and between modern and fossil organisms to infer relationships.	CCC-LS4-MS-2 Compare fossils with present-day organisms with similar characteristics.	Similarities and differences between various organisms living today and organisms in the fossil record.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Life Science	Biological Evolution: Unity and Diversity	LS4-MS-3 Analyze displays of pictorial data to compare patterns of similarities in the anatomical structures across multiple species of similar classification levels to identify relationships.	CCC-LS4-MS-3 Compare the similarities of organisms within a similar classification (e.g., genus, species).	Similarities in anatomical structures across multiple species can be used to identify relationships.
Life Science	Biological Evolution: Unity and Diversity	LS4-MS-4 Construct an explanation based on evidence that describes how genetic variations of traits in a population increase some individuals' probability of surviving and reproducing in a specific environment.	CCC-LS4-MS-4 Describe a trait in a population that would help organisms survive in a specific environment (e.g., wolf surviving in Yellowstone Park better than in a desert environment).	Natural selection favors organisms that have traits that increase the likelihood of survival.
Life Science	Biological Evolution: Unity and Diversity	LS4-MS-5 Gather and synthesize information about the technologies that have changed the way humans influence the inheritance of desired traits in organisms.	CCC-LS4-MS-5 Use information to describe selective breeding as a process that allows the best traits to be chosen.	Humans have the ability to influence the characteristics that organisms have.
Life Science	Biological Evolution: Unity and Diversity	LS4-MS-6 Use mathematical representations to support explanations of how natural selection may lead to increases and decreases of specific traits in populations over time.	CCC-LS4-MS-6 Given a description of an environment, identify the animals or plants within a species that are most likely to survive.	Natural selection favors the survival of organisms in a species with favorable traits.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Earth Science	Earth's Place in the Universe	ESS1-MS-1 Develop and use a model of Earth-sun-moon system to describe the cyclic patterns of lunar phases, eclipses of the sun and moon, and seasons.	CCC-ESS1-MS-1 Use a model to identify Earth's seasons and relate them to Earth's tilt and revolution around the sun	Patterns of the motion of the sun, the moon, and stars in the sky can be observed, described, and predicted.
Earth Science	Earth's Place in the Universe	ESS1-MS-2 Develop and use a model to describe the role of gravity in the motions within galaxies and the solar system.	CCC-ESS1-MS-2 Describe the motions of all objects in the solar system that occur due to the gravitational force of the sun. Our solar system is within the Milky Way galaxy which is one of many galaxies.	Earth is part of the solar system, and gravity is the attractive force between objects in the system.
Earth Science	Earth's Place in the Universe	ESS1-MS-3 Analyze and interpret data to determine scale properties of objects in the solar system.	CCC-ESS1-MS-3 Use data to order the planets based on their size or distance from the sun.	Planets can be compared based on size, distance from the sun, and composition (e.g., hot versus cold, rocky versus gaseous).
Earth Science	Earth's Place in the Universe	ESS1-MS-4 Construct a scientific explanation based on evidence from rock strata for how the geologic time scale is used to organize Earth's history.	CCC-ESS1-MS-4 Identify the relative age of fossils based on their location in a column of rock layers.	Rock layers and the fossil record provide a way to organize Earth's history.
Earth Science	Earth's Systems	ESS2-MS-1 Develop a model to describe the cycling of Earth's materials and the flow of energy that drives this process.	CCC-ESS2-MS-1 Describe how heat from Earth's core powers the rock cycle. Describe how the water cycle impacts the rock cycle (weathering and erosion).	Earth materials cycle through processes such as the rock cycle (which includes weathering and erosion).

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Earth Science	Earth's Systems	ESS2-MS-2 Construct an explanation based on evidence for how geoscience processes have changed Earth's surface at varying time and spatial scales.	CCC-ESS2-MS-2 Given a scenario, describe which process (weathering, erosion, deposition) contributed to the change of Earth's surface.	Fast and slow processes (geoscience processes) shape and reshape the surface of Earth.
Earth Science	Earth's Systems	ESS2-MS-3 Analyze and interpret data on the distribution of fossils and rocks, continental shapes, and seafloor structures to provide evidence of the past plate motions.	CCC-ESS2-MS-3 Use maps to show how the shapes of continents fit together as evidence of plate motions.	Data (maps, investigations of rocks and fossils) show that the surface of Earth consists of plates that have collided, spread apart and moved over time.
Earth Science	Earth's Systems	ESS2-MS-4 Develop a model to describe the cycling of water through Earth's systems driven by energy from the sun and the force of gravity.	CCC-ESS2-MS-4 Describe the parts of the water cycle.	Water continually cycles through Earth's systems: among land, ocean, and the atmosphere.
Earth Science	Earth's Systems	ESS2-MS-5 Collect data to provide evidence for how the motions and complex interactions of air masses results in changes in weather conditions.	CCC-ESS2-MS-5 Describe weather conditions to predict local weather patterns.	The movement of air masses causes changes in weather, including temperature, precipitation, and wind.
Earth Science	Earth's Systems	ESS2-MS-6 Develop and use a model to describe how unequal heating and rotation of Earth cause patterns of atmospheric and oceanic circulation that determine regional climates.	CCC-ESS2-MS-6 Describe how climate is determined in an area based on location, shape of land, and distance from water.	Climates vary and are influenced by interactions involving sunlight, the ocean, the atmosphere, and landforms.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Earth Science	Earth and Human Activity	ESS3-MS-1 Construct a scientific explanation based on evidence for how the uneven distributions of Earth’s mineral, energy, and groundwater resources are the result of past and current geoscience processes.	CCC-ESS3-MS-1 Use data to explain why specific resources are limited.	Humans depend on a variety of natural resources for survival. These come from various parts of the world, and many are not renewable.
Earth Science	Earth and Human Activity	ESS3-MS-2 Analyze and interpret data on natural hazards to forecast future catastrophic events and inform the development of technologies to mitigate their effects.	CCC-ESS3-MS-2 Classify natural hazards as “predictable” or “not yet predictable.”	Data from natural hazards (volcanic eruptions, earthquakes, tsunamis, severe weather, hurricanes, tornados, landslides, floods, and forest fires) can be used to help mitigate the harmful effects of future events.
Earth Science	Earth and Human Activity	ESS3-MS-3 Apply scientific principles to design a method for monitoring and minimizing a human impact on the environment.	CCC-ESS3-MS-3 Match human activities with their effect on Earth.	Human activities can alter the biosphere by damaging habitats.
Earth Science	Earth and Human Activity	ESS3-MS-4 Construct an argument supported by evidence for how increases in human population and per-capita consumption of natural resources impact Earth’s systems.	CCC-ESS3-MS-4 Link population increases to a greater need for consumption of resources.	Human population and the resources they use impact Earth systems.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Earth Science	Earth and Human Activity	ESS3-MS-5 Ask questions to interpret evidence of the factors that cause climate variability over time.	CCC-ESS3-MS-5 Use data (numerical, graphical, or pictorial) as evidence of rising temperatures over the last 100 years.	Human activities (by burning fossil fuels) and natural processes can alter the Earth which can lead to climate variability.

## High School Core Content Connectors

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Life Science	From Molecules to Organisms: Structure and Function	LS1-HS-1 Construct an explanation based on evidence for how the structure of DNA determines the structure of proteins, which carry out the essential functions of life through systems of specialized cells.	CCC-LS1-HS-1 Explain that the DNA in a cell's nucleus is the genetic code that creates proteins that determine a cell's function.	Living things are made up of a variety of types of cells that have different functions. The function of a cell is determined by its DNA, which is found in the cell's nucleus.
Life Science	From Molecules to Organisms: Structure and Function	LS1-HS-2 Develop and use a model to illustrate the hierarchical organization of interacting systems that provide specific functions within multicellular organisms.	CCC-LS1-HS-2 Use a model to explain the function of a body system and identify the major organ in the system.	Living organisms have systems that work together to maintain life. The organs that make up these systems carry out specific functions.
Life Science	From Molecules to Organisms: Structure and Function	LS1-HS-3 Plan and conduct an investigation to provide evidence that feedback mechanisms maintain homeostasis.	CCC-LS1-HS-3 Sequence the steps in an investigation to show how an organism reacts to stimuli (e.g., eyes reacting to light, heart or lungs reacting to exercise).	Organisms, and the organs and cells within them, react to maintain an internal balance (homeostasis). [Note: The term "homeostasis" should not be used within items for the Low and Moderate levels.]
Life Science	From Molecules to Organisms: Structure and Function	LS1-HS-4 Use a model to illustrate the role of cellular division (mitosis) and differentiation in producing and maintaining complex organisms.	CCC-LS1-HS-4 Use a model to explain what happens during cell division.	Cell division and multiplication, which occurs through a process called mitosis, enable growth and the replacement of dead or damaged cells.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Life Science	From Molecules to Organisms: Structure and Function	LS1-HS-5 Use a model to illustrate how photosynthesis transforms light energy into stored chemical energy.	CCC-LS1-HS-5 Use a model to identify the inputs that go into the plant (e.g., sunlight, water) and the outputs from the plant (e.g., food, oxygen) during photosynthesis (for example, fill in the missing part of the model).	Plants produce their food through a process called photosynthesis. Photosynthesis uses light energy to convert carbon dioxide and water into sugars plus released oxygen.
Life Science	From Molecules to Organisms: Structure and Function	LS1-HS-6 Construct and revise an explanation based on evidence for how carbon, hydrogen, and oxygen from sugar molecules may combine with other elements to form amino acids and/or other large, carbon-based molecules.	CCC-LS1-HS-6 Use a model to identify that the elements that make up sugar molecules can be used to form other molecules (e.g., amino acids, DNA, proteins).	Sugar molecules contain carbon, hydrogen, and oxygen. They are used to make other carbon-based molecules.
Life Science	From Molecules to Organisms: Structure and Function	LS1-HS-7 Use a model to illustrate that cellular respiration is a chemical process whereby the bonds of food molecules and oxygen molecules are broken, and the bonds in new compounds are formed, resulting in a net transfer of energy.	CCC-LS1-HS-7 Use a model of cellular respiration to explain the input and output of the process.	Cellular respiration converts oxygen and sugar into carbon dioxide, water, and energy.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-HS-1 Use mathematical and/or computational representations to support explanations of factors that affect the carrying capacities of ecosystems at different scales.	CCC-LS2-HS-1 Use data to determine if the food supply present in an ecosystem can sustain a specified increase in the number of organisms, or populations of organisms, eating that food supply in an ecosystem.	Ecosystems have carrying capacities, which limit the numbers of organisms and populations they can support. Balance exists in organisms, populations, and ecosystems.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-HS-2 Use mathematical representations to support and revise explanations based on evidence about factors affecting biodiversity and populations in ecosystems of different scales.	CCC-LS2-HS-2 Use data or a graphical representation to describe the relationship between population size and the availability of resources in an ecosystem.	Balance (equilibrium) exists in organisms, populations, and ecosystems. Interactions within an ecosystem keep the numbers and types of organisms relatively constant. If a modest disturbance to an ecosystem occurs, it may return to its original status. Extreme changes can challenge the functioning of an ecosystem.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-HS-4 Use mathematical representations to support claims for the cycling of matter and flow of energy among organisms in an ecosystem.	CCC-LS2-HS-4 Create a food web that shows the movement of matter and energy within an ecosystem	Matter and energy flow through a food web (ecosystem) with only small fractions transferred from one level to another.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-HS-5 Develop a model to illustrate the role of photosynthesis and cellular respiration in the cycling of carbon among the biosphere, atmosphere, hydrosphere, and geosphere.	CCC-LS2-HS-5 Given a model, describe the role of carbon during photosynthesis and respiration as it moves through the environment.	Photosynthesis and cellular respiration result in the cycling of carbon in the environment.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-HS-6 Evaluate the claims, evidence, and reasoning that the complex interactions in ecosystems maintain relatively consistent numbers and types of organisms in stable conditions, but that changing conditions may result in a new ecosystem.	CCC-LS2-HS-6 Classify natural and human-initiated changes in the physical environment that can affect a population.	Changes in the physical environment (e.g., landslides, floods, development) can lead to temporary or permanent changes to an ecosystem.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-HS-7 Design, evaluate, and refine a solution for reducing the impacts of human activities on the environment and biodiversity.	CCC-LS2-HS-7 Identify actions that can be taken to preserve or restore the environment.	Human activity can change the environment. Many changes are harmful, but humankind can also take steps to preserve and restore the environment/ ecosystems.
Life Science	Ecosystems: Interactions, Energy, and Dynamics	LS2-HS-8 Evaluate the evidence for the role of group behavior on individual's and species' chances to survive and reproduce.	CCC-LS2-HS-8 Given a group behavior, explain how that behavior helps individuals and species survive and reproduce.	Group behavior has evolved because it can increase the chances of survival and reproduction.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Life Science	Heredity: Inheritance and Variation of Traits	LS3-HS-1 Ask questions to clarify relationships about the roles of DNA and chromosomes in coding the instructions for characteristic traits passed from parents to offspring.	CCC-LS3-HS-1 Explain how traits (genes) are passed from one generation to the next through DNA.	DNA contains genetic information that is passed from parent (cell or organism) to offspring. The instructions for forming species' characteristics (traits) are carried in DNA.
Life Science	Heredity: Inheritance and Variation of Traits	LS3-HS-2 Make and defend a claim based on evidence that inheritable genetic variations may result from: (1) new genetic combinations through meiosis, (2) viable errors occurring during replication, and/or (3) mutations caused by environmental factors.	CCC-LS3-HS-2 Use a model to explain how new genetic combinations are a result of meiosis, DNA replication errors, or mutations caused by environmental factors.	Genetic variation can involve reproduction between two individuals and the process of meiosis (cell division).
Life Science	Biological Evolution: Unity and Diversity	LS4-HS-1 Communicate scientific information that common ancestry and biological evolution are supported by multiple lines of empirical evidence.	CCC-LS4-HS-1 Using descriptions and pictures, determine the sequential development pattern from a fossil to a present-day organism.	Many organisms currently found on Earth are similar and can be traced back to common ancestors that lived very long ago.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Life Science	Biological Evolution: Unity and Diversity	LS4-HS-2 Construct an explanation based on evidence that the process of evolution primarily results from four factors: (1) the potential for a species to increase in number, (2) the heritable genetic variation of individuals in a species due to mutation and sexual reproduction, (3) competition for limited resources, and (4) the proliferation of those organisms that are better able to survive and reproduce in the environment.	CCC-LS4-HS-2 Determine which factor (e.g., an inherited genetic variation, limited resources, organisms that were more fit to survive in an environment) resulted in a specific adaptation within a species.	Evolution explains the change across successive generations in a biological population.
Life Science	Biological Evolution: Unity and Diversity	LS4-HS-3 Apply concepts of statistics and probability to support explanations that organisms with an advantageous heritable trait tend to increase in proportion to organisms lacking this trait.	CCC-LS4-HS-3 Given a scenario of similar organisms with different traits, predict which organism will likely survive (e.g., birds with different shaped beaks trying to eat insects).	Organisms with traits that are advantageous and affect survival are more likely to reproduce, and thus become more common in the population.
Life Science	Biological Evolution: Unity and Diversity	LS4-HS-4 Construct an explanation based on evidence for how natural selection leads to adaptation of populations.	CCC-LS4-HS-4 Use evidence to explain that organisms that survive can pass on beneficial traits.	Natural selection is the result of the survival of organisms with traits that increase the survival rate and the production of more offspring.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Life Science	Biological Evolution: Unity and Diversity	LS4-HS-5 Evaluate the evidence supporting claims that changes in environmental conditions may result in: (1) increases in the number of individuals of some species, (2) the emergence of new species over time, and (3) the extinction of other species.	CCC-LS4-HS-5 Describe an environmental change that will result in changes in the population of organisms.	Changes in an environment favor the survival of some organisms over others and can support the emergence of new species.
Life Science	Biological Evolution: Unity and Diversity	LS4-HS-6 Create or revise a simulation to test a solution to mitigate adverse impacts of human activity on biodiversity.	CCC-LS4-HS-6 Use data (pictorial, graphical, or tabular) to determine the effectiveness of a strategy to protect a species.	Human activity often changes the physical environment in ways that favor some species and harm others, sometimes leading to extinction.
Earth Science	Earth and Space Sciences	ESS1-HS-1 Develop a model based on evidence to illustrate the life span of the sun and the role of nuclear fusion in the sun's core to release energy that eventually reaches Earth in the form of radiation.	CCC-ESS1-HS-1 Use a model to explain that the energy released from the sun's core warms the Earth and provides the surface of the Earth with light.	Energy from the sun reaches the Earth.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Earth Science	Earth and Space Sciences	ESS1-HS-2 Construct an explanation of the current model of the origin of the universe based on astronomical evidence of light spectra, motion of distant galaxies, and composition of matter in the universe.	CCC-ESS1-HS-2 Use evidence to explain that the motion of distant galaxies is one way we know that the universe is expanding from its origin.	The expansion of the universe from its origins can be explained in multiple ways, one of which is the motion of distant galaxies.
Earth Science	Earth and Space Sciences	ESS1-HS-3 Communicate scientific ideas about the way stars, throughout their life cycles, produce elements.	CCC-ESS1-HS-3 Use a model to explain that stars produce elements (including hydrogen, helium, and iron) during their life cycles.	Stars, throughout their life cycle, produce elements.
Earth Science	Earth and Space Sciences	ESS1-HS-4 Use mathematical or computational representations to predict the motion of orbiting objects in the solar system.	CCC-ESS1-HS-4 Use data to predict the motion of an object with a consistent orbit.	Data can be used to predict the motion of orbiting objects in the solar system.
Earth Science	Earth and Space Sciences	ESS1-HS-5 Evaluate evidence of past and current movements of continental and oceanic crust and the theory of plate tectonics to explain the ages of crustal rocks.	CCC-ESS1-HS-5 Explain that the youngest rocks are formed as tectonic plates move apart.	The theory of plate tectonics and evidence from movements of continental and oceanic plates can be used to explain the ages of crustal rocks.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Earth Science	Earth and Space Sciences	ESS2-HS-1 Develop a model to illustrate how Earth's internal and surface processes operate at different spatial and temporal scales to form continental and ocean-floor features.	CCC-ESS2-HS-1 Use models to demonstrate the results of surface and internal processes (e.g., mountains, valleys, sea mounts, volcanoes).	Changes to Earth's continental and ocean-floor features are caused by Earth's internal and surface processes over time.
Earth Science	Earth and Space Sciences	ESS2-HS-5 Plan and conduct an investigation of the properties of water and its effects on Earth's materials and surface processes.	CCC-ESS2-HS-5 Use a model to explain how water changes Earth's materials and surface processes through erosion.	Water affects Earth's materials and changes surface processes.
Earth Science	Earth and Space Sciences	ESS2-HS-7 Construct an argument based on evidence about the simultaneous coevolution of Earth's systems and life on Earth.	CCC-ESS2-HS-7 Explain how life on Earth changes as Earth's systems change (Note: limit to common occurrences and simple cause/effect relationships).	Changes in Earth's systems and life on Earth occur simultaneously.
Earth Science	Earth and Space Sciences	ESS3-HS-1 Construct an explanation based on evidence for how the availability of natural resources, occurrence of natural hazards, and changes in climate have influenced human activity.	CCC-ESS3-HS-1 Evaluate how the availability of natural resources and/or the occurrence of natural hazards influence human activity.	Human activity can be influenced by the availability of natural resources and occurrence of natural hazards.

<b>Science Domain</b>	<b>Category</b>	<b>Idaho General Education Performance Standard</b>	<b>Idaho Core Content Connector</b>	<b>Summary of Supporting Content</b>
Earth Science	Earth and Space Sciences	ESS3-HS-4 Evaluate or refine a technological solution that reduces the impacts of human activities on natural systems.	CCC-ESS3-HS-4 Predict how given technologies (e.g., recycling plants, devices to reduce emissions, etc.) will reduce the effect of human activities on natural systems based on a scenario.	Technology can be used to reduce the impacts of human activities on natural systems.
Earth Science	Earth and Space Sciences	ESS3-HS-5 Analyze geoscience data and the results from global climate models to make an evidence-based forecast of the current rate of global or regional climate change and associated future impacts to Earth systems.	CCC-ESS3-HS-5 Predict environmental change based on current climate data.	Data and evidence forecast the current and future rates of global or regional change that impact Earth systems.
Earth Science	Earth and Space Sciences	ESS3-HS-6 Use a computational representation to illustrate the relationships among Earth's systems and how those relationships are being modified due to human activity.	CCC-ESS3-HS-6 Use a model to explain the influence of two or more human activities on Earth's systems.	Illustrate the relationships among Earth's systems and how those relationships are influenced due to human activity.
Physical Science	Physical Sciences (Chemistry)	PSC1-HS-1 Develop models to describe the atomic composition of simple molecules and extended structures.	CCC-PSC1-HS-1 Use a model to show how atoms combine to form simple molecules (O <sub>2</sub> ) or complex molecules (NaCl or CO <sub>2</sub> ).	Matter is made up of single and complex molecules, and within molecules there are atoms.

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Physical Science	Physical Sciences (Chemistry)	PSC2-HS-3 Apply scientific principles and evidence to provide an explanation about the effects of changing the temperature or concentration of the reacting particles on the rate at which a reaction occurs.	CCC-PSC2-HS-3 Identify increasing the amount of reactants or increasing the temperature as ways to speed up a chemical reaction.	Chemical reactions can be sped up by increasing the amount of reactants or by increasing the temperature.
Physical Science	Physical Sciences (Chemistry)	PSC2-HS-4 Use mathematical representations to support the claim that atoms, and therefore mass, are conserved during a chemical reaction.	CCC-PSC2-HS-4 Recognize that when chemicals change, new material is formed after the reaction with equivalent mass/atoms before and after.	When substances change, mass is conserved (i.e., the masses before and after the reaction are present in different forms).
Physical Science	Physical Sciences (Physics)	PSP1-HS-3 Apply scientific and engineering ideas to design, evaluate, and refine a device that minimizes the force on a macroscopic object during a collision.	CCC-PSP1-HS-3 Use models to predict how impact is minimized when protective components are included.	When objects collide, they exert forces on each other, which affects their motion. Some objects minimize force (e.g., bumper on a car, helmet on a football player.)
Physical Science	Physical Sciences (Physics)	PSP2-HS-5 Develop and use a model of two objects interacting through electric or magnetic fields to illustrate the forces between objects and the changes in energy of the objects due to the interaction.	CCC-PSP2-HS-5 Model magnetic behavior based on force (e.g., stronger magnets versus weaker magnets; number of paper clips one magnet can hold versus another.)	When two objects interact in a magnetic field, forces between the objects change due to the interaction.

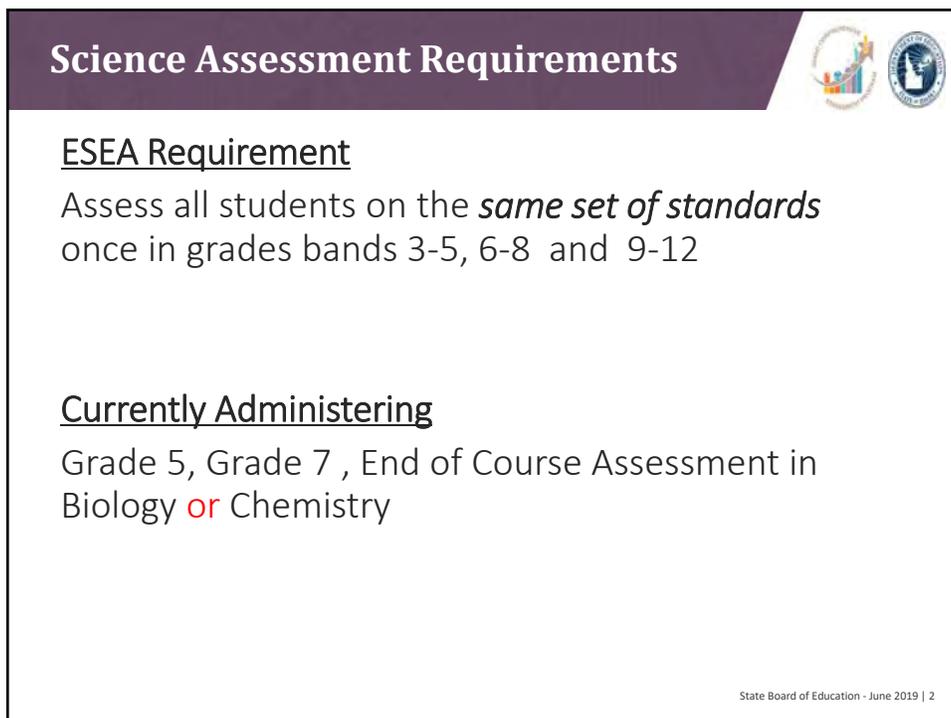

Science Domain	Category	Idaho General Education Performance Standard	Idaho Core Content Connector	Summary of Supporting Content
Physical Science	Physical Sciences (Physics)	PSP3-HS-1 Use mathematical representations to support a claim regarding relationships among the frequency, wavelength, and speed of waves traveling in various media.	CCC-PSP3-HS-1 Compare wave diagrams to identify differences in frequency, wavelength, and amplitude through media.	Mechanical waves (water, sound, waves in a rope at the gym) have repeating patterns (including amplitude, frequency, wavelength) that are impacted by the media (e.g., air, water) through which they travel.
Physical Science	Waves	PSP3-HS-2 Evaluate questions about the advantages of using digital transmission and storage of information.	CCC-PSP3-HS-2 Identify an advantage or disadvantage of a specific digital information technology.	Technological advances have improved our ability to store and transmit information. There are advantages and disadvantages to digital transmission and storage.

The slide features a purple background with a large white arrow pointing right. On the right side of the arrow, there is a photograph of students in a classroom using computers. In the top left corner, there are two circular logos: the State Board of Education logo and a logo with a bar chart. The text on the slide reads: "Science Assessment", "State Board of Education", and "June 19, 2019". At the bottom left, there is a grey box with the text: "Supporting Schools and Students to Achieve" and "SHERRI YBARRA, ED.S., SUPERINTENDENT OF PUBLIC INSTRUCTION".

**Science Assessment**  
State Board of Education  
June 19, 2019

*Supporting Schools and Students to Achieve*  
SHERRI YBARRA, ED.S., SUPERINTENDENT OF PUBLIC INSTRUCTION

The slide has a dark purple header with the text "Science Assessment Requirements" in white. To the right of the header are two circular logos. The main content area is white and contains the following text: "ESEA Requirement", "Assess all students on the *same set of standards* once in grades bands 3-5, 6-8 and 9-12", "Currently Administering", and "Grade 5, Grade 7 , End of Course Assessment in Biology or Chemistry". At the bottom right, there is a small footer: "State Board of Education - June 2019 | 2".

**Science Assessment Requirements**

ESEA Requirement  
Assess all students on the *same set of standards* once in grades bands 3-5, 6-8 and 9-12

Currently Administering  
Grade 5, Grade 7 , End of Course Assessment in Biology or Chemistry

State Board of Education - June 2019 | 2

## Science Assessment Peer Review

### 2018 ESEA Peer Review Findings

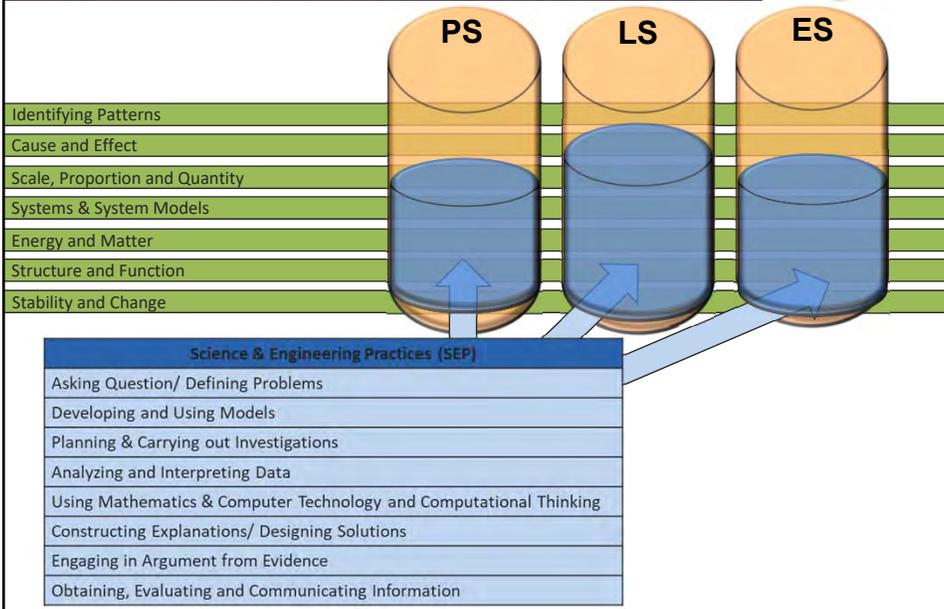

General Science Assessment partially meets requirements

- Out of compliance with ESEA
- Condition on Title 1 Funds
  - Pending development of new science assessment aligned to new standards

\*Idaho will need to submit evidence to the US Department of Education in December 2020 for peer review of new assessment aligned to new standards.

State Board of Education - June 2019 | 3

## Modeling the New Idaho State Science Standards

## Temp and Proposed Rule Change

### Middle School: Move from Grade 7 to Grade 8

Course sequencing to ensure students have coverage of the content standards across domains

### High School: Comprehensive assessment in Grade 11

Shared value/importance of science content  
Students need 6 credits in science – 4 lab based credits

State Board of Education - June 2019 | 5

## Stakeholder Engagement

2016/2017: Science Standards Committee

August 2017: IASA Presentation on Standards and assessment considerations

October 2017: Standards Committee members reviewed new science assessment design ideas

2017/18: Assessment Advisory Committee

2018/2019: New Science Assessment Development with Idaho educators

2019: Assessment Roadshow Presentations

State Board of Education - June 2019 | 6

## Assessment Development

- One-time funding appropriated by legislature for assessment development in FY-2019
- Item sharing with CT, HI, OR, RI, UT, VT, WV & WY
- *Idaho Specific Assessment*
  - Idaho Educators
  - Idaho Bias and Sensitivity Committee

State Board of Education - June 2019 | 7

## Science Assessment Implementation Timeline

### Spring 2020

- Field Test in Elementary, Middle School, High School

### Spring 2021

- Operational assessment in Elementary, Middle School, High School
- Standard Setting (Summer 2021)

State Board of Education - June 2019 | 8

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

**PROFESSIONAL STANDARDS COMMISSION**

**SUBJECT**

Lewis-Clark State College Non-Traditional Route to Certification

**REFERENCE**

October 2017	Board approved the initial concept of a mastery-based program for teacher certification for individuals who meet the requirements of the Mastery-Based Route to Certification: Alternative Authorization – Content Specialist.
April 2018	Board approved the College of Southern Idaho’s Alternative Authorization-Content Specialist, Mastery-Based Route to Teaching Program

**APPLICABLE STATUTE, RULE, OR POLICY**

Sections 33-114, 33-1201 – 33-1207, and 33-1258, Idaho Code  
Idaho Administrative Code, IDAPA 08.02.02, Section 100 - Official Vehicle for the Approval of Teacher Preparation Programs

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 4: Workforce Readiness; Objective A: Workforce Alignment

**BACKGROUND/DISCUSSION**

During its April 2019 meeting, the Standards Committee of the Professional Standards Commission (PSC) conducted a New Program Approval Desk Review of the proposed Lewis-Clark State College (LCSC) PACE Mastery-Based Pathway to Certification. Through the desk review, the Standards Committee found that the program as proposed met the requirements for the State Board-approved Mastery-Based Route to Certification: Alternative Authorization – Content Specialist. However, the Standards Committee expressed concern about whether or not this new program would meet the enhancement standards of the Idaho Standards for Initial Certification of Professional School Personnel. In addition, the Standards Committee discussed how this pathway may better fit as a non-traditional route.

The PSC voted to recommend conditional approval with reservations. The PSC recognized that the proposal aligns to the State Board-approved Mastery-Based Route to Certification: Alternative Authorization – Content Specialist, while acknowledging the PSC Standards Committee’s concerns regarding the lack of evidence in meeting enhancement standards.

After receiving notice of the PSC’s recommendation, LCSC met with PSC staff to discuss the concerns noted in the PSC motion. PSC staff also met with OSBE staff member Tracie Bent to discuss similarities between the Non-Traditional Route and the Mastery-Based Route to Certification: Alternative Authorization – Content

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

Specialist. Following these discussions, PSC staff gave LCSC the option to make an addendum to their request, re-categorizing the proposal under the Non-Traditional Route to certification.

LCSC submitted an addendum to their initial proposal, changing the program to a Non-Traditional Route to Certification.

**IMPACT**

This new program will enable LCSC to prepare educators through a non-traditional route in addition to the traditional and alternate routes to certification that are currently available through the institutions programs.

**ATTACHMENTS**

- Attachment 1 – LCSC AltCert Request for PSC
- Attachment 2 – LCSC AltCert Proposal Letter for PSC
- Attachment 3 – LCSC Appendix 1 Mastery-Based Pathway Crosswalk
- Attachment 4 – LCSC Addendum to Mastery-Based Route to Certification

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Administrative Code, IDAPA 08.02.02. non-traditional routes to certification must include, at a minimum, the following components:

- a. Pre-assessment of teaching and content knowledge;
- b. An academic advisor with knowledge of the prescribed instruction area;
- c. Exams of pedagogy and content knowledge; and
- d. Be aligned to the Idaho Standards for the Initial Certification of Professional School Personnel.

Currently, there are two approved non-traditional routes to certification. Approval of Lewis-Clark State College’s proposal would add a third non-traditional route to certification. The Board will also have the opportunity to consider a fourth non-traditional route to certification proposed by the College of Southern Idaho on the Planning, Policy and Governmental Affairs agenda. Approval of the program as a non-traditional program is consistent with the PSCp discussion at their April 2019 meeting. Staff recommends approval.

**BOARD ACTION**

I move to accept LCSC’s addendum proposal and to approve the proposed program as amended in Attachment 4 as a non-traditional route to certification.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**NEW PROGRAM FOR CERTIFICATION REQUEST**

Institution: Lewis-Clark State College Program Date of Submission March, 2019

Name: PACE Mastery-Based Pathway Certification & Endorsement \_\_\_\_\_

All new educator preparation programs from public institutions require [Program Review and Approval by the State Board of Education](#).

Is this a request from an Idaho **public** institution?

Yes  No \_\_\_\_\_

If yes, on what date was the Proposal Form submitted to the State Board of Education? N/A

**Section I:** Evidence that the program will cover the knowledge and performances outlined in the [Idaho Standards for Initial Certification of Professional School Personnel](#). Pupil Personal Preparation programs will only need to address content specific standards.

The table below includes the overall standards. Complete the table by adding the specific knowledge and performance enhancement standards that are applicable to the program. Pupil Personal Preparation programs will need to revise the standards to address the content specific standards. Standards can be found in the [Idaho Standards for Initial Certification of Professional School Personnel](#).

STANDARD	Enhancement Standards Performance/Knowledge	Alignment of Danielson Framework & Modules
<p><b>Standard 1 Learner Development</b></p> <p>The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.</p>	<p><b>Performances.</b></p> <p>1(a) The teacher regularly assesses individual and group performance in order to design and modify instruction to meet learners' needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development.</p> <p>1(b) The teacher creates developmentally appropriate instruction that takes into account individual learners' strengths, interests, and needs and that enables each learner to advance and accelerate his/ her learning.</p> <p>1(c) The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.</p> <p><b>Knowledge.</b></p> <p>1(d) The teacher understands how learning occurs-- how learners construct knowledge, acquire skills, and develop disciplined thinking processes--and knows</p>	<p><b>Module A – Content methods and standard alignment</b></p> <p>Alignment: INTASC Standard 1*</p> <p>LCSC faculty will assess evidence of a candidate's ability to demonstrate:</p> <p>An understanding of how learners grow and develop (in cognitive, linguistic, social, emotional, and physical areas).</p> <p>The ability to design and implement developmentally appropriate and challenging learning experiences.</p> <p>The candidate:</p> <p>1. Draws on her/his understanding of child and adolescent development, the teacher observes learners, noting changes and patterns in learners across areas of development, and seeks resources, including from families and colleagues, to adjust teaching. (1a; 7i; 9d) <b>(INTASC Standards 9 and 10 Embedded)</b></p> <p>2. Seeks out information about learner interests to engage learners in developmentally appropriate learning experiences.</p>

	<p>how to use instructional strategies that promote student learning.</p> <p>1(e) The teacher understands that each learner’s cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners’ strengths and needs.</p> <p>1(f) The teacher identifies readiness for learning and understands how development in any one area may affect performance in others.</p> <p>1(g) The teacher understands the role of language and culture in learning and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging.</p> <p><b>Dispositions.</b></p> <p>1(h) The teacher respects learners’ differing strengths and needs and is committed to using this information to further each learner’s development.</p> <p>1(i) The teacher is committed to using learners’ strengths as a basis for growth, and their misconceptions as opportunities for learning.</p> <p>1(j) The teacher takes responsibility for promoting learners’ growth and development.</p> <p>1(k) The teacher values the input and contributions of families, colleagues, and other professionals in understanding and supporting each learner’s development.</p>	<p>(1b) (INTASC Standard 9 Embedded)</p> <p>3. Engages learners in a variety of learning experiences to capitalize on strengths and build areas of development that are weaker. (1i; 1j) (INTASC Standard 10 Embedded)</p> <p><b>INTASC Standard 1 Assessment Example:</b></p> <ol style="list-style-type: none"> <li>1. The candidate conducts a classroom (demographic) study to learn about the learners in the classroom (including information gathered from family, community, and school resources). Using the information from the study, the candidate develops a lesson-plan and assessments (formal &amp; informal) with the express purpose of meeting the specific strengths and/or needs of learners in the classroom.</li> <li>2. The candidate teaches the lesson (videoed) while being attentive to the developmental levels of the learners and modifies instruction based on formative assessment(s).</li> <li>3. The candidate submits the video to their mentor/peer for feedback and discussion on how to improve learner growth &amp; development in the classroom.</li> <li>4. The candidate uses the feedback to adjust the lesson plan, and as appropriate reflect on teaching practice.</li> </ol> <p><b>Artifacts:</b> Demographic study results, Lesson plan, Video, Mentor/Peer feedback, Revised/scaffolded lesson, Journal/reflection</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 16 – 19.</p>
<p><b>Standard 2 Learning Differences</b></p> <p>The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.</p>	<p><b>Performances.</b></p> <p>2(a) The teacher designs, adapts, and delivers instruction to address each student’s diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways.</p> <p>2(b) The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, and response modes) for individual students with particular learning differences or needs.</p> <p>2(c) The teacher designs instruction to build on learners’ prior knowledge and experiences, allowing</p>	<p><b>Module A – Content Methods and Standard Alignment</b></p> <p>Alignment: INTASC Standard 2*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate:</p> <p>Understanding of learner differences (particularly culture &amp; community) to foster inclusive learning environments that enable each learner to meet high standards.</p> <p>The candidate:</p> <ol style="list-style-type: none"> <li>1. Draws upon her/his understanding of second language acquisition, exceptional needs, and learners’ background knowledge, the teacher observes individual and groups of learners to identify specific needs and</li> </ol>

	<p>learners to accelerate as they demonstrate their understandings.</p> <p>2(d) The teacher brings multiple perspectives to the discussion of content, including attention to learners' personal, family, and community experiences and cultural norms.</p> <p>2(e) The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.</p> <p>2(f) The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.</p> <p><b>Knowledge.</b></p> <p>2(g) The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction that uses each learner's strengths to promote growth.</p> <p>2(h) The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs.</p> <p>2(i) The teacher knows about second language acquisition processes and knows how to incorporate instructional strategies and resources to support language acquisition.</p> <p>2(j) The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as language, culture, family, and community values.</p> <p>2(k) The teacher knows how to access information about the values of diverse cultures and communities and how to incorporate learners' experiences, cultures, and community resources into instruction.</p> <p><b>Dispositions.</b></p> <p>2(l) The teacher believes that all learners can achieve at high levels and persists in helping each learner reach his/her full potential.</p> <p>2(m) The teacher respects learners as individuals with differing personal and family backgrounds and</p>	<p>responds with individualized support, flexible grouping, and varied learning experiences. (1g; 2b; 2c; 2d; 2e; 2f; 2g; 2h; 2i; 2j; 2l; 2m; 2o) (INTASC Standard 9 Embedded)</p> <p>2. Recognizes how diverse learners process information and develop skills and incorporates multiple approaches to learning that engage a range of learner preferences. (2a; 2d; 2g; 2h; 2m; 8p) (INTASC Standards 9 and 10 Embedded)</p> <p>3. Uses information on learners' language proficiency levels and incorporates tools of language development into planning and instruction, including strategies for making content and academic language accessible to linguistically diverse learners. (1g; 2b; 2e; 2g; 2i; 2j; 2l; 2m; 2o; 8p) (INTASC Standard 9 Embedded)</p> <p>4. Includes multiple perspectives in the presentation and discussion of content that include each learner's personal, family, community, and cultural experiences and norms. (2c; 2d; 2j; 2k; 2m) (INTASC Standard 9 Embedded)</p> <p>5. Applies interventions, modifications, and accommodations based on IEPs, IFSPs, 504s and other legal requirements, seeking advice and support from specialized support staff and families. (2f) (INTASC Standards 9 and 10 Embedded)</p> <p>6. Follows a process, designated by a school or district, for identifying and addressing learner needs (e.g., Response to Intervention) and documents learner progress. (2f; 2g) (INTASC Standard 9 Embedded)</p> <p><b>INTASC Standard 2 Assessment Example:</b>  <i>Assessment is continued from Standard 1, as this would be a summative for Module A</i></p> <p>*5. The candidate uses the mentor/peer feedback (and prior learner assessment and demographic study information) to create a series of new lesson plans focused on meeting additional learner needs.  The new lessons need to include:</p> <ul style="list-style-type: none"> <li>• Assessments and activities that provide learners the opportunity to demonstrate their learning in more than one modality.</li> <li>• Evidence of language acquisition and/or development considerations.</li> </ul>
--	---	--

	<p>various skills, abilities, perspectives, talents, and interests.</p> <p>2(n) The teacher makes learners feel valued and helps them learn to value each other.</p> <p>2(o) The teacher values diverse languages and dialects and seeks to integrate them into his/her instructional practice to engage students in learning.</p>	<ul style="list-style-type: none"> <li>• Connections to resources/supports needed by students who have been identified with specific learning differences.</li> <li>• Provisions for variances in pacing due to student ability/need.</li> </ul> <p>6. The candidate teaches the lessons and works to adjust the instruction the lessons progress based on the needs identified.</p> <p>7. The candidate will submit at least one video to a mentor/peer for feedback specific to the effectiveness of supportive strategies for students with English development needs, and or other specific learning needs (e.g. IEPs, IFSPs, 504s, gifted, RtI, or and other legal requirements) as identified.</p> <p>8. The candidate will reflect on the feedback from the Mentor/Peer and provide a self-diagnostic regarding growth and specific learning relating to the module.</p> <p><b>Artifacts:</b> Lesson plans, Student work samples, Video, Mentor/Peer feedback, Reflection</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 16 – 19.</p>
<p><b>Standard 3 Learning Environments</b></p> <p>The teacher works with others to create environments that support individual and collaborative learning and that encourage positive social interaction, active engagement in learning, and self-motivation.</p>	<p><b>Performances.</b></p> <p>3(a) The teacher collaborates with learners, families, and colleagues to build a safe, positive learning climate of openness, mutual respect, support, and inquiry.</p> <p>3(b) The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with ideas and people locally and globally.</p> <p>3(c) The teacher collaborates with learners and colleagues to develop shared values and expectations for respectful interactions, rigorous academic discussions, and individual and group responsibility for quality work.</p> <p>3(d) The teacher manages the learning environment to actively and equitably engage learners by organizing, allocating, and coordinating the resources of time, space, and learners’ attention.</p> <p>3(e) The teacher uses a variety of methods to engage learners in evaluating the learning environment and collaborates with learners to make appropriate adjustments.</p>	<p><b>Module B – Creating an environment that fosters college and career ready skills</b></p> <p>Alignment: INTASC Standard 3*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate: Collaboration in creating learning environments that: foster college and career ready skills, support individual and collaborative learning, encourage positive social interaction, active engagement in learning, and self-motivation.</p> <p>The candidate:</p> <ol style="list-style-type: none"> <li>1. Articulates explicit expectations for a safe, positive learning environment, including norms for behavior that include respect for others, as well as responsibility for preparation and completion of work. S/he develops purposeful routines that support these norms. (3a) <b>(INTASC Standards 9 and 10 Embedded)</b></li> <li>2. Varies learning activities to involve whole group, small group and individual work, to develop a range of learner skills. (3p)</li> <li>3. Articulates explicit expectations for a safe, positive learning environment, including norms for behavior that include respect for</li> </ol>

3(f) The teacher communicates verbally and nonverbally in ways that demonstrate respect for and responsiveness to the cultural backgrounds and differing perspectives learners bring to the learning environment.

3(g) The teacher promotes responsible learner use of interactive technologies to extend the possibilities for learning locally and globally.

3(h) The teacher intentionally builds learner capacity to collaborate in face-to-face and virtual environments through applying effective interpersonal communication skills.

**Knowledge.**

3(i) The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning.

3(j) The teacher knows how to help learners work productively and cooperatively with each other to achieve learning goals.

3(k) The teacher knows how to collaborate with learners to establish and monitor elements of a safe and productive learning environment including norms, expectations, routines, and organizational structures.

3(l) The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments.

3(m) The teacher knows how to use technologies and how to guide learners to apply them in appropriate, safe, and effective ways.

**Dispositions.**

3(n) The teacher is committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments.

3(o) The teacher values the role of learners in promoting each other's learning and recognizes the importance of peer relationships in establishing a climate of learning.

3(p) The teacher is committed to supporting learners as they participate in decision-making, engage in

others, as well as responsibility for preparation and completion of work. S/he develops purposeful routines that support these norms. (3a)

4. Communicates verbally and nonverbally in ways that demonstrate respect for each learner. (3f; 3r)

**INTASC Standard 3 Assessment Example (Module B):**

1. The candidate involves one or more classes in the development of a classroom learning plan paying particular attention to norms for:

- Self-management,
- Self-awareness,
- Interpersonal skills,
- Collaboration,
- Communication,
- Creativity, and
- Problem-solving

2. The candidate will create a series of interactions for learners in the environment (e.g. learning contracts, group work) where the norms from #1 can be observed/evaluated.

3. The candidate will solicit feedback from a mentor/peer to incorporate/modify norms based on school/district expectations and to promote growth, then finalize the classroom learning plan.

4. The candidate will evaluate the learners during #2 and provide feedback to the learners on the college and career readiness skills.

5. The candidate will require the learners to reflect on their motivation during the learning activities as well as effectiveness in using time, resources, communication, and in collaboration with peers.

6. The candidate will reflect on learner responses and journal about the effectiveness of the impact and implementation of the college and career readiness skills in the classroom

Artifacts: Classroom learning plan, learner artifacts (learning contracts, groups, learner self-evaluations), Feedback on learner performance, Candidate journal.

\* *INTASC Learning Progressions for Teachers* was used to as a framework for module development. Specific performance measures were taken directly from pps. 21 – 23.

**Module C – Creating an environment for all learners**

Alignment: INTASC Standard 3\*

exploration and invention, work collaboratively and independently, and engage in purposeful learning.

3(q) The teacher seeks to foster respectful communication among all members of the learning community.

3(r) The teacher is a thoughtful and responsive listener and observer.

LCSC faculty will assess evidence of a candidate's ability to:  
Work collaboratively to create learning environments that: support individual and collaborative learning, active engagement in learning, self-motivation, and encourage positive social interaction.

The candidate:

1. Sets expectations for the learning environment appropriate to school/district policies and communicates expectations clearly to families. (3n) (INTASC Standards 9 and 10 Embedded)
2. Communicates verbally and nonverbally in ways that demonstrate respect for each learner. (3f; 3r) (INTASC Standard 10 Embedded)
3. Is a responsive and supportive listener, seeing the cultural backgrounds and differing perspectives learners bring as assets and resources in the learning environment. (3f; 3r) (INTASC Standard 10 Embedded)
4. Manages the learning environment, organizing, allocating and coordinating resources (e.g., time, space, materials) to promote learner engagement and minimize loss of instructional time. (3d; 8n) (INTASC Standard 10 Embedded)
5. Varies learning activities to involve whole group, small group and individual work, to develop a range of learner skills. (3p) (INTASC Standard 10 Embedded)
6. Provides opportunities for learners to use interactive technologies responsibly. (3g; 3m) (INTASC Standard 9 Embedded)

**INTASC Standard 3 Assessment Example (Module C):**

1. The candidate plans at least three instructional activities that include two or more of the following (per activity):
  - Clear expectations
  - Whole group, small group, and individual work
  - Interactive technology
  - Transitions that vary in time, classroom space, and/or materials
  - Verbal and non-verbal communication
  - Connections to resources/individuals outside the classroom (preferably outside the U.S.A.)
  - Connections to cultural diversity

		<p>After creating the instructional activities, the candidate and solicits feedback from a mentor/peer to ensure that the activities are addressing the specific needs of students in the classroom (this may include additional collaboration with SPED, ESL, Gifted, or other specialists).</p> <p>2. The candidate conducts the learning activities (videoed) during one or more classes.</p> <p>3. The candidate reviews the video looking specifically for evidence of;</p> <ul style="list-style-type: none"> <li>• Clear communication with learners,</li> <li>• Communication among learners</li> <li>• Respect</li> <li>• Effective use of classroom time, resources, space</li> <li>• Active engagement in the activity/learning</li> <li>• Adjustments made to the environment</li> <li>• Adjustments made due to cultural or other differences (e.g. SES, race, language, etc.)</li> </ul> <p>4. The candidate provides a reflective journal entry on successes and room for improvement in the classroom environment based on the video(s).</p> <p>Artifacts: Instructional activities, video(s), Candidate journal.</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 21 – 23.</p>
<p style="text-align: center;"><b>Standard 4 Content Knowledge</b></p> <p>The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.</p>	<p><b>Performances.</b></p> <p>4(a) The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner’s achievement of content standards.</p> <p>4(b) The teacher engages students in learning experiences in the discipline(s) that encourage learners to understand, question, and analyze ideas from diverse perspectives so that they master the content.</p> <p>4(c) The teacher engages learners in applying methods of inquiry and standards of evidence used in the discipline.</p> <p>4(d) The teacher stimulates learner reflection on prior content knowledge, links new concepts to familiar</p>	<p style="text-align: center;"><b>Module D – Differentiation and application of content Creating an environment for all learners</b></p> <p style="text-align: center;">Alignment: INTASC Standard 4*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate:</p> <p>Understanding of the central concepts, tools of inquiry, and structures of the discipline(s) s/he teaches.</p> <p>The creation of learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.</p> <p>The candidate:</p> <p>1. Accurately and effectively communicates concepts, processes and knowledge in the discipline, and uses vocabulary and academic language that is clear, correct and appropriate for learners. (4h; 4j; 4l; 5i)</p>

	<p>concepts, and makes connections to learners' experiences.</p> <p>4(e) The teacher recognizes learner misconceptions in a discipline that interfere with learning and creates experiences to build accurate conceptual understanding.</p> <p>4(f) The teacher evaluates and modifies instructional resources and curriculum materials for their comprehensiveness, accuracy for representing particular concepts in the discipline, and appropriateness for his/her learners.</p> <p>4(g) The teacher uses supplementary resources and technologies effectively to ensure accessibility and relevance for all learners.</p> <p>4(h) The teacher creates opportunities for students to learn, practice, and master academic language in their content.</p> <p>4(i) The teacher accesses school and/or district-based resources to evaluate the learner's content knowledge in their primary language.</p> <p><b>Knowledge.</b></p> <p>4(j) The teacher understands major concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the discipline(s) s/he teaches.</p> <p>4(k) The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.</p> <p>4(l) The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.</p> <p>4(m) The teacher knows how to integrate culturally relevant content to build on learners' background knowledge.</p> <p>4(n) The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) s/he teaches.</p> <p><b>Dispositions.</b></p> <p>4(o) The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. S/he keeps abreast of new ideas and understandings in the field.</p>	<p>2. Draws upon his/her initial knowledge of common misconceptions in the content area, uses available resources to address them, and consults with colleagues on how to anticipate learner's need for explanations and experiences that create accurate understanding in the content area. (4e; 4k; 4r; 9d) (INTASC Standard 10 Embedded)</p> <p>3. Uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of content standards. (4a; 4j; 4n; 4r; 8e) (INTASC Standard 10 Embedded)</p> <p>4. Engages learners in applying methods of inquiry used in the discipline. (4c) (INTASC Standard 10 Embedded)</p> <p>5. Links new concepts to familiar concepts and helps learners see them in connection to their prior experiences. (4d; 4r) (INTASC Standard 10 Embedded)</p> <p>6. Models and provides opportunities for learners to understand academic language and to use vocabulary to engage in and express content learning. (4c; 4h; 4o)</p> <p>7. Consults with other educators to make academic language accessible to learners with different linguistic backgrounds. (4g) (INTASC Standards 9 and 10 Embedded)</p> <p><b>INTASC Standard 4 &amp; 5 Assessment Example:</b></p> <p>1. The candidate will create a unit of study (multiple lesson plans) that will include:</p> <ul style="list-style-type: none"> <li>• A clear learning progression of content standards</li> <li>• Content from multiple (3 or more) perspectives</li> <li>• Opportunities for learners to practice inquiry and academic language</li> <li>• Instructional resources modified for instruction (by the candidate)</li> <li>• Points of connection for new concepts to prior knowledge</li> <li>• A requirement for learners to cite or support their conclusions/ideas with evidence.</li> <li>• Cross-disciplinary skills (5)</li> <li>• Questioning that challenges assumptions (5)</li> <li>• Critical &amp; creative thinking (5)</li> </ul>
--	--	---

	<p>4(p) The teacher appreciates multiple perspectives within the discipline and facilitates learners’ critical analysis of these perspectives.</p> <p>4(q) The teacher recognizes the potential of bias in his/her representation of the discipline and seeks to appropriately address problems of bias.</p> <p>4(r) The teacher is committed to work toward each learner’s mastery of disciplinary content and skills.</p>	<ul style="list-style-type: none"> <li>• Connections to local and/or global issues (5)</li> </ul> <ol style="list-style-type: none"> <li>2. The candidate will also provide evidence of the anticipation of learner misconceptions regarding the content.</li> <li>3. The candidate will solicit feedback from their mentor &amp; incorporate the feedback into the unit (as appropriate).</li> <li>4. The candidate will instruct the unit (videoed)</li> <li>5. The candidate will watch their video and journal regarding the performances (4a – 4i)...</li> </ol> <p>Artifacts: Unit of study, mentor feedback, instructional resources (modified &amp; original), misconceptions evidence, video, journal</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 24 – 26.</p>
<p><b>Standard 5 Application of Content</b></p> <p>The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.</p>	<p><b>Performances.</b></p> <p>5(a) The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills (e.g., a water quality study that draws upon biology and chemistry to look at factual information and social studies to examine policy implications).</p> <p>5(b) The teacher engages learners in applying content knowledge to real world problems through the lens of interdisciplinary themes (e.g., financial literacy, environmental literacy).</p> <p>5(c) The teacher facilitates learners’ use of current tools and resources to maximize content learning in varied contexts.</p> <p>5(d) The teacher engages learners in questioning and challenging assumptions and approaches in order to foster innovation and problem solving in local and global contexts.</p> <p>5(e) The teacher develops learners’ communication skills in disciplinary and interdisciplinary contexts by creating meaningful opportunities to employ a variety of forms of communication that address varied audiences and purposes.</p> <p>5(f) The teacher engages learners in generating and evaluating new ideas and novel approaches, seeking</p>	<p><b>Module D – Differentiation and application of content</b></p> <p>Alignment: INTASC Standard 5*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate:</p> <p>Connection of concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.</p> <p>The candidate:</p> <ol style="list-style-type: none"> <li>1. Helps learners see relationships across disciplines by making connections between curriculum materials in a content area and related perspectives from another content area or areas. (5i; 5j) <b>(INTASC Standard 10 Embedded)</b></li> <li>2. Engages learners in applying content knowledge and skills in authentic contexts. (5b) <b>(INTASC Standard 10 Embedded)</b></li> <li>3. Engages learners in learning and applying the critical thinking skills used in the content area(s). S/he introduces them to the kinds of problems or issues addressed by the content area(s) as well as the local/global contexts for those issues. (5d; 5k; 5m) <b>(INTASC Standard 10 Embedded)</b></li> <li>4. Engages learners in developing literacy and communication skills that support learning in the content area(s). S/he helps them recognize the disciplinary expectations for reading different types of text and for writing in specific contexts for targeted purposes and/or audiences and</li> </ol>

	<p>inventive solutions to problems, and developing original work.</p> <p>5(g) The teacher facilitates learners' ability to develop diverse social and cultural perspectives that expand their understanding of local and global issues and create novel approaches to solving problems.</p> <p>5(h) The teacher develops and implements supports for learner literacy development across content areas.</p> <p><b>Knowledge.</b></p> <p>5(i) The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches to inquiry, and the strengths and limitations of each approach in addressing problems, issues, and concerns.</p> <p>5(j) The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global awareness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.</p> <p>5(k) The teacher understands the demands of accessing and managing information as well as how to evaluate issues of ethics and quality related to information and its use.</p> <p>5(l) The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals.</p> <p>5(m) The teacher understands critical thinking processes and knows how to help learners develop high level questioning skills to promote their independent learning.</p> <p>5(n) The teacher understands communication modes and skills as vehicles for learning (e.g., information gathering and processing) across disciplines as well as vehicles for expressing learning.</p> <p>5(o) The teacher understands creative thinking processes and how to engage learners in producing original work.</p> <p>5(p) The teacher knows where and how to access resources to build global awareness and understanding, and how to integrate them into the curriculum.</p> <p><b>Dispositions.</b></p>	<p>provides practice in both. (5e; 5h; 5n; 8h) (INTASC Standard 10 Embedded)</p> <p>5. Provides opportunities for learners to demonstrate their understanding in unique ways, such as model making, visual illustration and metaphor. (5h) (INTASC Standards 9 and 10 Embedded)</p> <p>6. Guides learners in gathering, organizing and evaluating information and ideas from digital and other resources and from different perspectives. (5c; 5g; 5k; 5l) (INTASC Standard 9 Embedded)</p> <p>7. Structures interactions among learners and with local and global peers to support and deepen learning. (5p) (INTASC Standard 10 Embedded)</p> <p><b>INTASC Standard 4&amp;5 Assessment Example:</b></p> <p><i>Assessment is continued from Standard 1, as this would be a summative for Module D some items for standard 5 are notated with the prior standard to improve readability and flow.</i></p> <p>5.(cont) The candidate will also reflect on their use of:</p> <ul style="list-style-type: none"> <li>• academic language and content area literacy, and</li> <li>• resources for diverse student experiences with content.</li> </ul> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 27 – 29.</p>
--	---	--

	<p>5(q) The teacher is constantly exploring how to use disciplinary knowledge as a lens to address local and global issues.</p> <p>5(r) The teacher values knowledge outside his/her own content area and how such knowledge enhances student learning.</p> <p>5(s) The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas.</p>	
<p><b>Standard 6 Assessment</b></p> <p>The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide decision making for teachers and learners.</p>	<p><b>Performances.</b></p> <p>6(a) The teacher balances the use of formative and summative assessment as appropriate to support, verify, and document learning.</p> <p>6(b) The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.</p> <p>6(c) The teacher works independently and collaboratively to examine test and other performance data to understand each learner’s progress and to guide planning.</p> <p>6(d) The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work.</p> <p>6(e) The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process.</p> <p>6(f) The teacher models and structures processes that guide learners in examining their own thinking and learning as well as the performance of others.</p> <p>6(g) The teacher effectively uses multiple and appropriate types of assessment data to identify each student’s learning needs and to develop differentiated learning experiences.</p> <p>6(h) The teacher prepares all learners for the demands of particular assessment formats and makes appropriate accommodations in assessments or testing conditions, especially for learners with disabilities and language learning needs.</p> <p>6(i) The teacher continually seeks appropriate ways to employ technology to support assessment practice</p>	<p><b>Module E – Designing instruction and assessment literacy</b></p> <p>Alignment: INTASC Standard 6*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate:</p> <p>The use of multiple methods of assessment to engage learners in understanding their own growth, to monitor learner progress, and to guide decision making for both the candidate and learners.</p> <p>The candidate:</p> <ol style="list-style-type: none"> <li>1. Uses, designs or adapts a variety of classroom formative assessments, matching the method with the type of learning objective. (6a; 6b; 6j; 6k; 6r; 6t) <b>(INTASC Standard 10 Embedded)</b></li> <li>2. Uses data from multiple types of assessments to draw conclusions about learner progress toward learning objectives that lead to standards and uses this analysis to guide instruction to meet learner needs. S/he keeps digital and/or other records to support his/her analysis and reporting of learner progress. (6c; 6g; 6j; 6l; 6o; 6t) <b>(INTASC Standards 9 and 10 Embedded)</b></li> <li>3. Participates in collegial conversations to improve individual and collective instructional practice based on formative and summative assessment data. (6c) <b>(INTASC Standards 9 and 10 Embedded)</b></li> <li>4. Engages each learner in examining samples of quality work on the type of assignment being given. S/he provides learners with criteria for the assignment to guide performance. Using these criteria, s/he points out strengths in performance and offers concrete suggestions for how to improve their work. S/he structures reflection prompts to assist each learner in examining his/her work and making improvements. (6d; 6f; 6n; 6o; 6q; 6r; 6s) <b>(INTASC Standards 9 and 10 Embedded)</b></li> </ol>

	<p>both to engage learners more fully and to assess and address learner needs.</p> <p><b>Knowledge.</b></p> <p>6(j) The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.</p> <p>6(k) The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias.</p> <p>6(l) The teacher knows how to analyze assessment data to understand patterns and gaps in learning, to guide planning and instruction, and to provide meaningful feedback to all learners.</p> <p>6(m) The teacher knows when and how to engage learners in analyzing their own assessment results and in helping to set goals for their own learning.</p> <p>6(n) The teacher understands the positive impact of effective descriptive feedback for learners and knows a variety of strategies for communicating this feedback.</p> <p>6(o) The teacher knows when and how to evaluate and report learner progress against standards.</p> <p>6(p) The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.</p> <p><b>Dispositions.</b></p> <p>6(q) The teacher is committed to engaging learners actively in assessment processes and to developing each learner's capacity to review and communicate about their own progress and learning.</p> <p>6(r) The teacher takes responsibility for aligning instruction and assessment with learning goals.</p> <p>6(s) The teacher is committed to providing timely and effective descriptive feedback to learners on their progress.</p> <p>6(t) The teacher is committed to using multiple types of assessment processes to support, verify, and document learning.</p>	<p>5. Makes digital and/or other records of learner performance so that s/he can monitor each learner's progress. (6i) (INTASC Standard 9 Embedded)</p> <p>6. Matches learning goals with classroom assessment methods and gives learners multiple practice assessments to promote growth. (6b; 6j; 6k)</p> <p>7. Engages in ethical practice of formal and informal assessment implementing various kinds of assessments in the ways they were intended to be used and accurately interpreting the results. (6j; 6k; 6v) (INTASC Standard 9 Embedded)</p> <p>8. Implements required accommodations in assessments and testing conditions for learners with disabilities and language learning needs. (6i; 6k; 6p; 6u) (INTASC Standard 9 Embedded)</p> <p>9. Differentiates assessments, which may include providing more challenging learning goals for learners who are advanced academically. (6k) (INTASC Standard 9 Embedded)</p> <p><b>INTASC Standard 6 Assessment Example:</b></p> <p>1. The candidate will design several formal as well as informal assessments** that:</p> <ul style="list-style-type: none"> <li>• demonstrate alignment with learning objectives</li> <li>• permit the collection of performance data</li> <li>• are varied in scope, delivery, and type</li> <li>• are differentiated for learners who need accommodations in assessments or testing conditions</li> </ul> <p>2. Work with a mentor/peer to evaluate the assessments and adjust as needed.</p> <p>3. After assessments are administered, work with a mentor/peer to evaluate the learner performance data to:</p> <ul style="list-style-type: none"> <li>• adjust planning practices</li> <li>• determine learning needs, strengths, and to use to differentiate content, processes, and or/ products</li> <li>• prepare a plan for future assessment needs for the learners</li> </ul> <p>4. Submit a reflective journal*** on:</p> <ul style="list-style-type: none"> <li>• the process of creating assessments</li> <li>• the impact of the assessment bias on the learners</li> <li>• planning that has been impacted by learner performance data</li> </ul>
--	--	---

	<p>6(u) The teacher is committed to making accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.</p> <p>6(v) The teacher is committed to the ethical use of various assessments and assessment data to identify learner strengths and needs to promote learner growth.</p>	<ul style="list-style-type: none"> <li>• how the use of technology is used to support assessment practices for engagement as well as addressing learner needs.</li> </ul> <p>Artifacts: Candidate created assessments, adjusted assessments, notes/record of the interactions with the mentor/peer for assessment adjustment as well as learner performance data, Reflective journal, learner work samples (as appropriate)</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 30 – 33.</p> <p>**Assessments created for this portion of the assessment will be used as part of the “unit” creation to meet requirements for standard 7.</p> <p>***Reflective journal will also include components for Standard 8.</p>
<p><b>Standard 7 Planning for Instruction</b></p> <p>The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.</p>	<p><b>Performances.</b></p> <p>7(a) The teacher individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners</p> <p>7(b) The teacher plans how to achieve each student’s learning goals, choosing appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of learners.</p> <p>7(c) The teacher develops appropriate sequencing of learning experiences and provides multiple ways to demonstrate knowledge and skill.</p> <p>7(d) The teacher plans for instruction based on formative and summative assessment data, prior learner knowledge, and learner interest.</p> <p>7(e) The teacher plans collaboratively with professionals who have specialized expertise (e.g., special educators, related service providers, language learning specialists, librarians, media specialists) to design and jointly deliver as appropriate effective learning experiences to meet unique learning needs.</p> <p>7(f) The teacher evaluates plans in relation to short- and long-range goals and systematically adjusts plans to meet each student’s learning needs and enhance learning.</p> <p><b>Knowledge.</b></p>	<p><b>Module E – Designing instruction and assessment literacy</b></p> <p>Alignment: INTASC Standard 7*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate:</p> <p>Instruction and planning that support every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.</p> <p>The candidate:</p> <ol style="list-style-type: none"> <li>1. Uses the provided curriculum materials and content standards to identify measurable learning objectives based on target knowledge and skills. (7a; 7g) (INTASC Standard 10 Embedded)</li> <li>2. Plans and sequences common learning experiences and performance tasks linked to the learning objectives and makes content relevant to learners. (7a; 7c; 7k) (INTASC Standard 10 Embedded)</li> <li>3. Identifies learners who need additional support and/or acceleration and designs learning experiences to support their progress. (7j; 7i; 7p) (INTASC Standard 9 Embedded)</li> <li>4. Integrates technology resources into instructional plans. (7k; 7m; 8o; 8r)</li> <li>5. Plans instruction using formative and summative data from digital and/or other records of prior performance together with what s/he knows</li> </ol>

	<p>7(g) The teacher understands content and content standards and how these are organized in the curriculum.</p> <p>7(h) The teacher understands how integrating cross-disciplinary skills in instruction engages learners purposefully in applying content knowledge.</p> <p>7(i) The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.</p> <p>7(j) The teacher understands the strengths and needs of individual learners and how to plan instruction that is responsive to these strengths and needs.</p> <p>7(k) The teacher knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.</p> <p>7(l) The teacher knows when and how to adjust plans based on assessment information and learner responses.</p> <p>7(m) The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).</p> <p><b>Dispositions.</b></p> <p>7(n) The teacher respects learners' diverse strengths and needs and is committed to using this information to plan effective instruction.</p> <p>7(o) The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.</p> <p>7(p) The teacher takes professional responsibility to use short- and long-term planning as a means of assuring student learning.</p> <p>7(q) The teacher believes that plans must always be open to adjustment and revision based on learner needs and changing circumstances.</p>	<p>about learners, including developmental levels, prior learning, and interests. (7d; 7f; 7n) (INTASC Standards 9 and 10 Embedded)</p> <p>6. Uses data from formative assessments to identify adjustments in planning. (7d; 7l; 7q) (INTASC Standard 10 Embedded)</p> <p>7. Identifies learners with similar strengths and/or needs and groups them for additional supports. (7d; 7l; 7q) (INTASC Standard 10 Embedded)</p> <p>8. Uses learner performance data and his/her knowledge of learners to identify learners who need significant intervention to support or advance learning. S/he seeks assistance from colleagues and specialists to identify resources and refine plans to meet learner needs. (7d; 7e; 7n; 7p) (INTASC Standards 9 and 10 Embedded)</p> <p>9. Uses data on learner performance over time to inform planning, making adjustments for recurring learning needs. (7f; 7p) (INTASC Standards 9 and 10 Embedded)</p> <p>10. Uses information from informal interactions with families to adjust his/ her plans and to incorporate home-based resources to provide further support. (7o; 7q) (INTASC Standards 9 and 10 Embedded)</p> <p><b>INTASC Standard 7 Assessment Example:</b></p> <p>1. The candidate will create a unit of study (or series of lessons as appropriate) by:</p> <ul style="list-style-type: none"> <li>• selecting content, materials, &amp; resources</li> <li>• instructional &amp; classroom processes,</li> <li>• products</li> <li>• working collaboratively with at least one specialized teacher (e.g., special educators, language learning specialists, librarians, media specialists, etc.)</li> <li>• contacting parents/community members for relevance with culture/community and soliciting support</li> </ul> <p>that are:</p> <ul style="list-style-type: none"> <li>• relevant to the standards and learners in the class</li> <li>• provide evidences and opportunities for differentiation</li> <li>• sequenced to provide learners several ways to demonstrate knowledge, transfer, and mastery (as appropriate)</li> </ul>
--	---	---

		<ul style="list-style-type: none"> <li>• informed by assessment data**</li> <li>• delivered collaboratively (one or more lessons), either synchronously or asynchronously with a specialized teacher</li> </ul> <p>2. After the creation of the unit and during the instructional time-frame, the candidate will work to adjust the unit plans based on:</p> <ul style="list-style-type: none"> <li>• assessment data**</li> <li>• student needs,</li> <li>• to enhance learning opportunities</li> </ul> <p>Artifacts: Unit plan, evidence of collaboration, adjusted lessons for the unit plan, student work samples (as appropriate)</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 34 – 37. **Assessments created for Standard 6 are used in this portion of the assessment to make adjustments to the unit plan.</p>
<p><b>Standard 8 Instructional Strategies</b></p> <p>The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.</p>	<p><b>Performances.</b></p> <p>8(a) The teacher uses appropriate strategies and resources to adapt instruction to the needs of individuals and groups of learners.</p> <p>8(b) The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs.</p> <p>8(c) The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and access family and community resources to develop their areas of interest.</p> <p>8(d) The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners.</p> <p>8(e) The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances.</p> <p>8(f) The teacher engages all learners in developing higher order questioning skills and metacognitive processes.</p>	<p><b>Module E – Designing instruction and assessment literacy</b> Alignment: INTASC Standard 8*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate:</p> <p>The use of a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections to each other, and to build skills to apply knowledge in meaningful ways.</p> <p>The candidate:</p> <ol style="list-style-type: none"> <li>1. Directs students’ learning experiences through instructional strategies linked to learning objectives and content standards. (7k) (INTASC Standard 10 Embedded)</li> <li>2. Makes the learning objective(s) explicit and understandable to learners, providing a variety of graphic organizers, models, and representations for their learning. (8a; 8e; 8m)</li> <li>3. Prepares learners to use specific content-related processes and academic language (as appropriate to the learning objective). S/he also incorporates strategies to build group work skills. (4j) (INTASC Standard 10 Embedded)</li> <li>4. Analyzes individual learner needs (e.g., language, thinking, processing) as well as patterns across groups of learners and uses</li> </ol>

	<p>8(g) The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.</p> <p>8(h) The teacher uses a variety of instructional strategies to support and expand learners’ communication through speaking, listening, reading, writing, and other modes.</p> <p>8(i) The teacher asks questions to stimulate discussion that serves different purposes (e.g., probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question).</p> <p><b>Knowledge.</b></p> <p>8(j) The teacher understands the cognitive processes associated with various kinds of learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.</p> <p>8(k) The teacher knows how to apply a range of developmentally, culturally, and linguistically appropriate instructional strategies to achieve learning goals.</p> <p>8(l) The teacher knows when and how to use appropriate strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks.</p> <p>8(m) The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, visual) convey ideas, foster self-expression, and build relationships.</p> <p>8(n) The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning.</p> <p>8(o) The teacher understands how content and skill development can be supported by media and technology and knows how to evaluate these resources for quality, accuracy, and effectiveness.</p> <p><b>Dispositions.</b></p> <p>8(p) The teacher is committed to deepening awareness and understanding the strengths and needs of diverse learners when planning and adjusting instruction.</p>	<p>instructional strategies to respond to those needs. (7j; 8b; 8l; 8p) (INTASC Standards 9 and 10 Embedded)</p> <p>5. Integrates primary language resources into instruction. (8k; 8m; 8p) (INTASC Standards 9 and 10 Embedded)</p> <p>6. Seeks assistance in identifying general patterns of need in order to support language learners. (8k; 8m) (INTASC Standards 9 and 10 Embedded)</p> <p>7. Helps learners use a variety of sources and tools, including technology, to access information related to an instructional objective. S/he helps students learn to evaluate the trustworthiness of sources and to organize the information in a way that would be clear to an authentic audience. (8g; 8j; 8n; 8o; 8r) (INTASC Standards 9 and 10 Embedded)</p> <p>8. Poses questions that elicit learner thinking about information and concepts in the content areas as well as learner application of critical thinking skills such as inference making, comparing, and contrasting. (8f; 8g; 8q) (INTASC Standard 10 Embedded)</p> <p>9. Models the use of non-linguistic representations, concept mapping, and writing to show how learners can express their understanding of content area concepts and assigns work that allows the learners to practice doing so. (8e; 8m; 8q) (INTASC Standard 10 Embedded)</p> <p>10. Develops learners’ abilities to participate in respectful, constructive discussions of content in small and whole group settings. S/he establishes norms that include thoughtful listening, building on one another’s ideas, and questioning for clarification. (8i; 8q) (INTASC Standards 9 and 10 Embedded)</p> <p><b>INTASC Standard 8 Assessment Example:</b></p> <ol style="list-style-type: none"> <li>1. The candidate will video at least one teaching experience from the “unit” developed for Standard 7 to demonstrate the use of instructional strategies that are appropriate for learners in the classroom.</li> <li>2. The video(s) will need to reflect the use of: <ul style="list-style-type: none"> <li>• strategies to adapt instruction</li> </ul> </li> </ol>
--	---	--

	<p>8(q) The teacher values the variety of ways people communicate and encourages learners to develop and use multiple forms of communication.</p> <p>8(r) The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning.</p> <p>8(s) The teacher values flexibility and reciprocity in the teaching process as necessary for adapting instruction to learner responses, ideas, and needs.</p>	<ul style="list-style-type: none"> <li>• varied roles (e.g., instructor, facilitator, coach, audience)</li> <li>• multiple representations of content/skills taught and practiced</li> <li>• multiple forms of communication (e.g. speaking, listening, reading, writing)</li> <li>• Varied levels and purposes of questioning</li> <li>• Engagement with problem-solving</li> <li>• Use of technology</li> </ul> <p>3. The candidate will write a reflective journal*** that defends the strategies used in the unit as well as the ways learners were involved in the learning process.</p> <p>Artifacts: Video, reflective journal***</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 37 – 40.</p> <p>***Reflective journal will also include components for Standard 8.</p>
<p><b>Standard 9 Professional Learning and Ethical Practice</b></p> <p>The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.</p>	<p><b>Performances.</b></p> <p>9(a) The teacher engages in ongoing learning opportunities to develop knowledge and skills in order to provide all learners with engaging curriculum and learning experiences based on local and state standards.</p> <p>9(b) The teacher engages in meaningful and appropriate professional learning experiences aligned with his/her own needs and the needs of the learners, school, and system.</p> <p>9(c) Independently and in collaboration with colleagues, the teacher uses a variety of data (e.g., systematic observation, information about learners, research) to evaluate the outcomes of teaching and learning and to adapt planning and practice.</p> <p>9(d) The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving.</p> <p>9(e) The teacher reflects on his/her personal biases and accesses resources to deepen his/her own understanding of cultural, ethnic, gender, and learning differences to build stronger relationships and create more relevant learning experiences.</p>	<p><b>Modules A – E as identified.</b></p> <p>Alignment: INTASC Standard 9*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to demonstrate: Engagement in ongoing professional learning. The use of evidence to evaluate practice of self and on others (e.g. learners, families, other professionals, and the community), and adaptation of practice to meet the needs of each learner.</p> <p>The candidate:</p> <p>1. Engages in structured individual and group professional learning opportunities to reflect on, identify, and address improvement needs and to enable him/her to provide all learners with engaging curriculum and learning experiences. (5r; 9a; 9b; 9k; 9n; 10f; 10t) <b>Evidenced through participation and successful completion of Modules A-E</b></p> <p>2. Completes professional learning processes and activities required by the state in order to meet re-certification or re-licensure requirements. (9b; 9k; 9nl; 10t) <b>Evidenced through successful completion of Modules A-E</b></p>

	<p>9(f) The teacher advocates, models, and teaches safe, legal, and ethical use of information and technology including appropriate documentation of sources and respect for others in the use of social media.</p> <p><b>Knowledge.</b></p> <p>9(g) The teacher understands and knows how to use a variety of self-assessment and problem-solving strategies to analyze and reflect on his/her practice and to plan for adaptations/adjustments.</p> <p>9(h) The teacher knows how to use learner data to analyze practice and differentiate instruction accordingly.</p> <p>9(i) The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others.</p> <p>9(j) The teacher understands laws related to learners' rights and teacher responsibilities (e.g., for educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).</p> <p>9(k) The teacher knows how to build and implement a plan for professional growth directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school- and systemwide priorities.</p> <p><b>Dispositions.</b></p> <p>9(l) The teacher takes responsibility for student learning and uses ongoing analysis and reflection to improve planning and practice.</p> <p>9(m) The teacher is committed to deepening understanding of his/her own frames of reference (e.g., culture, gender, language, abilities, ways of knowing), the potential biases in these frames, and their impact on expectations for and relationships with learners and their families.</p> <p>9(n) The teacher sees him/herself as a learner, continuously seeking opportunities to draw upon current education policy and research as sources of analysis and reflection to improve practice.</p>	<p>3. Actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving. (9d) <b>Module E</b></p> <p>4. Observes and reflects upon learners' responses to instruction to identify areas and set goals for improved practice. (7p; 9c; 9g; 9l) <b>Module E</b></p> <p>5. Seeks and reflects upon feedback from colleagues to evaluate the effects of her/his actions on learners, colleagues and community members. (9a; 9g; 9m; 9n) <b>Module D &amp; E (e.g. Step 3 for Standard 5, step 5 for Standard 6)</b></p> <p>6. Gathers, synthesizes and analyzes a variety of data from sources inside and outside of the school to adapt instructional practices and other professional behaviors to better meet learners' needs. (9a; 9c; 9g; 9h; 9k; 9l; 9n) <b>Module E</b></p> <p>7. Acts in accordance with ethical codes of conduct and professional standards. (9o) <b>Module E</b></p> <p>8. Complies with laws and policies related to learners' rights and teachers' responsibilities. (9j; 9o) <b>Module C</b></p> <p>9. Accesses information and uses technology in safe, legal and ethical ways. (9f; 9j; 9o; 9o) <b>Module E</b></p> <p>10. Follows established rules and policies to ensure learners access information and technology in safe, legal and ethical ways. (9f) <b>Modules C, D, &amp; E</b></p> <p>11. Recognizes how his/her identity affects perceptions and biases and reflects on the fairness and equity of his/her decisions. (4q; 9e; 9m) <b>Modules B &amp; E</b></p> <p>12. Accesses resources to deepen his/ her understanding of the cultural, ethnic, gender and learning differences among learners and their communities. (9e) <b>Modules A, D, &amp; E</b></p>
--	---	--

	<p>9(o) The teacher understands the expectations of the profession including codes of ethics, professional standards of practice, and relevant law and policy.</p>	<p>13. Reflects on the needs of individual learners and how well they are being addressed, seeking to build support for all learners. (9l) <b>Modules A, D, &amp; E</b></p> <p><b>INTASC Standard 9 Assessment Example:</b>  <i>Since this Standard is embedded in the modules, indicators of successful completion are also embedded in the performance indicators for the other modules.</i></p> <p>Sample Examples:          For number 3 above “The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving. (9d)” <b>evidence of the performance can be found in step 1 for Standard 7 and in step 4 in Standard 6</b></p> <p>For number 5 above “The teacher seeks and reflects upon feedback from colleagues to evaluate the effects of her/his actions on learners, colleagues and community members. (9a; 9g; 9m; 9n) <b>evidence of the performance can be found in Modules A, D, &amp; E (e.g. Step 1 for Standard 1, step 5 for Standard 2, step for 3 standard 4, step 3 for Standard 5, step 5 for Standard 6)</b></p> <p>Artifacts: The evidences of collaboration for the appropriate module assessment, Successful completion of the program.</p> <p>* <i>INTASC Learning Progressions for Teachers</i> was used to as a framework for module development. Specific performance measures were taken directly from pps. 41 – 44.</p>
<p><b>Standard 10 Leadership and Collaboration</b></p> <p>The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and</p>	<p><b>Performances.</b></p> <p>10(a) The teacher takes an active role on the instructional team, giving and receiving feedback on practice, examining learner work, analyzing data from multiple sources, and sharing responsibility for decision making and accountability for each student’s learning.</p> <p>10(b) The teacher works with other school professionals to plan and jointly facilitate learning on how to meet diverse needs of learners.</p> <p>10(c) The teacher engages collaboratively in the school-wide effort to build a shared vision and</p>	<p><b>Modules A – E as identified.</b></p> <p>Alignment: INTASC Standard 9*</p> <p>LCSC faculty will assess evidence of a candidate’s ability to:          Seek appropriate leadership roles and opportunities to take responsibility for student learning.          Collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.</p> <p>The candidate:</p>

<p>community members to ensure learner growth, and to advance the profession.</p>	<p>supportive culture, identify common goals, and monitor and evaluate progress toward those goals.                  10(d) The teacher works collaboratively with learners and their families to establish mutual expectations and ongoing communication to support learner development and achievement.                  10(e) Working with school colleagues, the teacher builds ongoing connections with community resources to enhance student learning and well-being.                  10(f) The teacher engages in professional learning, contributes to the knowledge and skill of others, and works collaboratively to advance professional practice.                  10(g) The teacher uses technological tools and a variety of communication strategies to build local and global learning communities that engage learners, families, and colleagues.                  10(h) The teacher uses and generates meaningful research on education issues and policies.                  10(i) The teacher seeks appropriate opportunities to model effective practice for colleagues, to lead professional learning activities, and to serve in other leadership roles.                  10(j) The teacher advocates to meet the needs of learners, to strengthen the learning environment, and to enact system change.                  10(k) The teacher takes on leadership roles at the school, district, state, and/or national level and advocates for learners, the school, the community, and the profession.  <b>Knowledge.</b>                  10(l) The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.                  10(m) The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence interferes with learning.                  10(n) The teacher knows how to work with other adults and has developed skills in collaborative</p>	<ol style="list-style-type: none"> <li>1. Participates on the instructional team(s) and uses advice and support from colleagues to meet the needs of all learners. (10a; 10n; 10r) <b>Modules A – E</b></li> <li>2. Participates in school-wide efforts to implement a shared vision and contributes to a supportive culture. (10a; 10c; 10n; 10o; 10p; 10r) <b>Module B</b></li> <li>3. Elicits information about learners and their experiences from families and communities and uses this ongoing communication to support learner development and growth. **Section II: New Program Course Requirements**

The program proposed is an alternate route teacher certification program that incorporates experience, competency, and traditional Carnegie units.

1. Candidates are required to meet proposed levels of competency in their discipline according to the process involved for completion of the *Uniform Standard for Evaluating Content Competency Rubrics* developed by the Idaho State Board of Education.
2. Candidates will engage in five modules and complete a performance assessment using the pedagogy studied in the module. Successful completion of the performance assessment will meet the needs of pedogeological competency for the module and *INTASC Model Core Teaching/ Idaho Core Teaching Standards*. The modules are as follows;

**Module A – Content methods and standard alignment**

**Module B – Creating an environment that fosters college and career ready skills**

**Module C – Creating an environment for all learners**

**Module D – Differentiation and application of content**

**Module E – Designing instruction and assessment literacy**

3. Candidates are also required to complete a content knowledge assessment (Praxis II)
4. Candidates are required to complete the State of Idaho “*Common Summative Assessment*” using the *Danielson Framework for Teaching* in order to receive full certification.

**Proposal to the Professional Standards Commission – Standards Committee**  
Lewis-Clark State College – Content Specialist Alternative Authorization  
**Mastery-Based Pathway to Certification**

Introduction

Just over a year ago the State Board of Education issued reports and convened workgroups to illustrate the need for highly-trained instructors and well-prepared teachers to be developed due to the current status of the teacher pipeline in Idaho. Members at the October 2017 Board Meeting unanimously approved a competency-based pathway that could provide opportunities to address the current needs of districts where highly-qualified teachers are in desperate need. At the April 2018 Board Meeting the College of Southern Idaho (CSI) was provided conditional approval to begin offering a program in Region IV.

Lewis-Clark State College (LCSC) also desires to address the urgent need for pathways that will provide school districts access to highly-trained educators. We also reiterate the recommendation for cost-effective and time-efficient opportunities that can provide the best educational opportunities for students in Idaho. This proposed mastery-based route to certification augments the current traditional pathways offered at LCSC toward teacher certification as well as the existing alternative Pathways for Accelerated Certification and Endorsement (PACE) program. LCSC's Teacher Education Division seeks the opportunity to work with principals, superintendents, and communities in Idaho to develop partnerships where this mastery-based program can be implemented with success. The candidates prepared through this process will hold at minimum a four-year degree. They will also need to be supported by a school district and engage as a Content Specialist at a school as required by the Board approved program.

Program Proposal

In accordance with the *Alternative Authorization for Content Specialists (MAA-CS)* approved by the State Board of Education, the following three phases of implementation are proposed by LCSC:

- **Phase I - Proof of Content Knowledge and Individualized Learning Plans**
- **Phase II: Pedagogy Boot Camp, Professional Learning Community and Support**
- **Phase III: Mentoring and Performance Assessment**

Each phase of the proposed program adheres to the guidelines of the State Board of Education and is in full compliance with the *Idaho Standards for Initial Certification of Professional School Personnel* by meeting all of the requirements for the common summative assessment which is utilized by traditional preparation programs accredited by the state.

*Phase I*

Individuals or school districts may identify potential candidates for the program. If a school district requests a partnership for an uncertified teacher-of-record, or an individual applies to the program, LCSC will evaluate the applicant's qualifications using the *Uniform Standard for Evaluating Content Competency Rubric* (USECC Rubric). In cases where the applicant does not meet the minimum number of points required an individualized learning plan will be developed that will permit him/her to work toward candidacy.

If the applicant meets or exceeds the minimum number of points required LCSC will continue the application process toward candidacy by completing the following steps:

1. The candidate will take the appropriate Praxis exam (if not yet completed).
2. A school district (if not already identified) will partner with the candidate and LCSC for the mentorship as well as providing the documentation necessary to the Professional Standards Commission to obtain an interim certificate.
3. Candidates will commit to an intensive and rigorous individualized learning plan; and,
4. Candidates will agree to work with the support of a mentor.

### ***Phase II***

LCSC will establish cohorts of candidates based on the regional district classification used by the Idaho State Department of Education (Regions I – VI). These cohorts will provide the professional learning community for each region and will meet together no less than once each quarter to ensure candidates are progressing through the modules and to engage them in professional development, application of pedagogy, and developing rapport with LCSC faculty and peers. In cases where travel is prohibitive, or sufficient candidates are not available in an established region, the cohorts may be adjusted to ensure appropriate support and to strengthen the learning community. For the duration of a candidate's program a mentor will be available to provide support and timely feedback on teaching practice.

The pedagogical component of the program will be delivered online through LCSC's learning management system. The content has been broken down into a set of five self-paced modules. The modules are aligned to the *INTASC Model Core Teaching Standards* and the *Framework for Teaching Clusters*. Modules are designed so that they can be taken independently, in any order, and as many as the candidate is comfortable taking at a time. Specific pedagogical instruction will be developed and provided to candidates, as appropriate, to ensure that the state specific requirement for ELA, literacy, and mathematics instruction are met. Modules will also address reading and writing in the content areas, and academic language. Please review [the attached document \*New Program for Certification Request\*](#) for specific details about the modules as well as alignments *Idaho Core Teaching Standards* outlined in the *Idaho Standards for Initial Certification of Professional School Personnel*.

### *Phase III*

LCSC will require candidates to submit evidence of their practice for evaluation to meet the proof of competence in pedagogy. Each of the performance assessments will be reviewed and scored by individuals outside of the instruction and mentoring of the candidate. Feedback will be provided to the candidate based on the evaluation of the evidence submitted. Candidates will either receive a ‘pass’ on the assessment or receive a ‘no pass’ or ‘incomplete’ score. Additional targeted feedback, coaching, mentoring, and attempts will be provided in cases where candidates are not successful. **Sample performance evidence for each module/assessment is also noted in the attached document New Program for Certification Request.**

A ‘pass’ score for any of the modules will serve as the proof of pedagogy and meet the requirements for the *Idaho Core Teaching Standards*. Once all five performance assessments receive a ‘pass’ score the candidate will have completed the module portion of the program.

If a candidate has also demonstrated the required proficiency on the applicable *Praxis II* test to verify content knowledge a trained supervisor will complete the *Common Summative Assessment* (Danielson Framework) on the candidate. This assessment is required of all teacher candidates and successful completion will qualify the candidate for full standard certification.

An overview of the alignment (crosswalk of standards) between the *Framework for Teaching Clusters/ Common Summative Assessment* (Danielson) and alignment to *Idaho Core Teaching Standards* can be found in **Appendix 1 Mastery-Based Pathway Crosswalk for LCSC.**

### Conclusion

This proposed program provides a more flexible and approachable pathway for certification than the current Carnegie Unit coursework-based programs;

- The entire program is tailored toward the needs of the individual as well as the specific environment where the candidate will teach.
- Modules are available to begin at any time in the year rather than courses that are constrained to a specific location and semester scheduling.
- Performance assessments are available and may be completed at any time. It is possible for an individual with strong pedagogical skills to become highly-qualified in less than a typical semester.
- LCSC’s Teacher Education Division has developed partnerships with many school districts across Idaho in conjunction with the PACE program and is committed to the development of highly-qualified teachers for all students in Idaho.
- The cost for the individualized learning program to the candidate is less than traditional, and many existing alternative preparation programs.

Development Time-line\*

- Modules A and B will be fully developed by Fall 2019
- Modules C, D, and E will be fully developed by Spring 2020

*\*Note: This time-line for development will permit a candidate to complete the program in one academic year with future candidates having no prescribed “seat-time” requirement completion.*

**Appendix 1 Mastery-Based Pathway Crosswalk for LCSC**

<b>LEWIS-CLARK STATE COLLEGE MASTERY-BASED PATHWAY TO CERTIFICATION CROSSWALK</b>	
Streamlined Pedagogy Modules with alignment to the Framework for Teaching	Alignment to Idaho Core Teaching Standards
<p><b>CONTENT METHODS AND STANDARDS ALIGNMENT</b> Alignment to Framework for Teaching (Idaho Common Summative Evaluation): 1a, 1b, 1c, 1d: Knowledge of content, clarity, and appropriateness for students of instructional outcomes, resources for classroom use 1e: Planned activities aligned to instructional purpose 3a: Expectations for learning, accuracy of content, clarity of explanations, use of academic language 3b, 3c: Questions, activities and assignments aligned to instructional purpose</p>	<p><b>#1: Learner Development</b> - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences. <b>#2: Learning Differences</b> - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.</p>
<p><b>CREATING AN ENVIRONMENT THAT FOSTERS COLLEGE AND CAREER READY SKILLS</b> Alignment to Framework for Teaching (Idaho Common Summative Evaluation): 2a: All 2b: Expectations for learning and achievement, student perseverance in challenging work and pride in that work</p>	<p><b>#3: Learning Environment</b> - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.</p>
<p><b>CREATING A LEARNING ENVIRONMENT FOR ALL LEARNERS</b> Alignment to Framework for Teaching (Idaho Common Summative Evaluation): 2c: All 2d: All 2e: All</p>	<p><b>#3: Learning Environment</b> - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.</p>
<p><b>DIFFERENTIATION AND APPLICATION OF CONTENT</b> Alignment to Framework for Teaching (Idaho Common Summative Evaluation): 1e: Design of instruction 2b: Importance of the content 3a: Explanations of content: their rigor and invitations for thinking 3b: Quality of questions/ discussions, student discourse 3c: Intellectual challenge</p>	<p><b>#4: Content Knowledge</b> - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content. <b>#5: Application of Content</b> - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.</p>
<p><b>DESIGNING INSTRUCTION AND ASSESSEMENT LITERACY</b> Alignment to Framework for Teaching (Idaho Common Summative Evaluation): 1b: Knowledge of students 1d: Resources for students 1f: Design of summative and formative assessments aligned to outcomes 3d: Monitoring of student learning, feedback to students, student self-assessment 3e: Persistence, lesson adjustment 4a: All 4b: All 4c: All</p>	<p><b>#6: Assessment</b> - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making. <b>#7: Planning for Instruction</b> - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context. <b>#8: Instructional Strategies</b> - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.</p>
<p><b>STANDARDS #9 – Professional Learning and #10 – Leadership and Collaboration</b> are embedded in select modules. Modules will be designed to integrate pedagogical concepts, that can be taken in any order, so candidates may flow into the course series at any point and exit the course series once all modules have been completed (or candidate has proven mastery based upon other measures) without being artificially time-bound by traditional coursework schedules.</p>	

\*Taken Directly from the PROPOSED MASTERY-BASED PATHWAYS TO CERTIFICATION dated October 19,2017

LCSC Addendum to Mastery-Based Route to Certification  
May 2019

Lewis-Clark State College would like to request that our original proposal for Alternative Authorization - Content Specialist - PACE Mastery-Based Pathway be changed to a Non-Traditional Route to Certification.

This change will permit our application to address the concerns voiced relative to enhancement standards by the Professional Standards Commission (PSC) after our initial application. For clarity, the following items would be acceptable for the non-traditional route.

1. During Phase I (Proof of Content Knowledge and Individualized Learning Plans) of the process applicants would provide the following for evaluation:

- A baccalaureate in the specific content area for endorsement; or,
- Evidence that he/she qualifies for the required number of points on the *Uniform Standard for Evaluating Content Competency Rubric* (USECC Rubric).

Applicants would also be expected to take the Praxis exam as the content area assessment necessary for certification. When applicants do not receive a sufficient score on the Praxis exam they may continue in the program, but their individual learning plan may be remediated with additional coursework in areas of deficiency as well as individualized coaching and mentoring.

2. Completion will require the candidate to have:

- Successfully completed all content courses required in an individual pathway plan;
- Successfully completed all pedagogy modules, seminars ,and/or mastery-based pedagogy assessments;
- Passed the Common Summative Assessment (SBOE-approved performance assessment); and,
- Providing evidence of student proficiency growth scores over two of the three years of interim certification. If this evidence is provided the Praxis may be waived if it was not passed on the first attempt (PPGA, 2017, TAB 6 Pg. 12).

The summative assessments for each of the modules are currently aligned to the Core Teacher Standards to ensure all candidates are meeting the basic requirements for certification per the *Idaho Standards for Initial Certification of Professional School Personnel*. The enhancement standards will be addressed through the individual program of study for each applicant. An example of evidence of meeting the *Idaho Standards for English Language Arts Teachers* could be as follows:

STANDARD	Enhancement Standards	Possible Learning Contract/Evidence/Assessment Alignment
<p><b>Standard 1:</b> <b>Learner Development</b></p> <p>The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.</p>	<p><b>Performance</b></p> <ol style="list-style-type: none"> <li>1. Candidates demonstrate knowledge of developmental levels in reading, writing, listening, viewing, and speaking and plan for developmental stages and diverse ways of learning.</li> <li>2. Candidates demonstrate knowledge about how adolescents read and make meaning of a wide range of texts (e.g. literature, poetry, informational text, and digital media).</li> <li>3. Candidates demonstrate knowledge about how adolescents compose texts in a wide range of genres and formats including digital media.</li> </ol>	<p>The Candidate will:</p> <ol style="list-style-type: none"> <li>1. Compile a classroom demographic report that includes identification of student literacy. Evidence will be used from the report to plan appropriate instruction based on learner development and diversity.</li> <li>2. Plan and teach learning activities that include a wide variety of texts appropriate for the learner’s developmental needs.</li> <li>3. Plan and teach leaning activities that require students to compose various texts appropriate for students’ developmental level.</li> </ol> <p>(Evidences can be taken directly from the assessment example planned for Module A)</p>
<p><b>Standard 2:</b> <b>Learning Difference</b></p> <p>The teacher uses understanding of individual differences and diverse cultures and communities to ensure</p>	<p><b>Performance</b></p> <ol style="list-style-type: none"> <li>1. Candidates demonstrate knowledge of theories and research needed to plan and implement instruction responsive to students’ local, national and international histories, individual identities (e.g., race, ethnicity, gender</li> </ol>	<p>The candidate will:</p> <ol style="list-style-type: none"> <li>1. Incorporate diversity into curricular experiences that are responsive to the demographics in the classroom as well as</li> </ol>

<p>inclusive learning environments that enable each learner to meet high standards.</p>	<p>expression, age, appearance, ability, spiritual belief, sexual orientation, socioeconomic status, and community environment), and languages/dialects as they affect students’ opportunities to learn in ELA.</p> <p>2. Candidates design and/or implement instruction that incorporates students’ linguistic and cultural backgrounds to enable skillful control over their rhetorical choices and language practices for a variety of audiences and purposes.</p>	<p>expansive opportunities to learn about diverse cultures and communities.</p> <p>2. Use rhetorical choices and language practices that are inclusive and sensitive to those being taught.</p> <p>(Evidences can be taken directly from the assessment example planned for Module A with adaptation to ensure that rhetorical choices and language practices are also included in Step 5)</p>
<p style="text-align: center;"><b>Standard 3: Learning Environments</b></p> <p>The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.</p>	<p><b>Performance</b></p> <p>1. Candidates use various types of data about their students’ individual differences, identities, and funds of knowledge for literacy learning to create inclusive learning environments that contextualize curriculum and instruction and help students participate actively in their own learning in ELA (e.g. workshops, project based learning, guided writing, Socratic seminars, literature circles etc.).</p>	<p>The candidate will:</p> <p>1. Use data to plan for inclusive learning environments that permit students to participate in their own literacy development.</p> <p>(Evidences can be taken directly from the assessment example planned for Module B with adaptation to ensure that data regarding literacy is incorporated in Step 1. Evidence can also be taken from the sample assessment in Module C Steps 2 – 4)</p>
<p style="text-align: center;"><b>Standard 4: Content Knowledge</b></p> <p>The teacher understands the central concepts, tools of inquiry, and structures</p>	<p><b>Performance</b></p> <p>1. Candidates demonstrate knowledge and use print and non-print texts, media texts, classic texts and contemporary texts, including young adult—that represent</p>	<p>The candidate will:</p> <p>1. Use various texts (e.g. print and non-print texts, media texts, classic texts and contemporary texts, including young</p>

<p>of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.</p>	<p>a range of world literatures, historical traditions, genres, and the experiences of different genders, ethnicities, and social classes; they are able to use literary theories to interpret and critique a range of texts.</p> <p>2. Candidates demonstrate knowledge and use the conventions of English language as they relate to various rhetorical situations (grammar, usage, and mechanics); they apply the concept of dialect and relevant grammar systems (e.g., descriptive and prescriptive); they facilitate principles of language acquisition; they connect the influence of English language history on ELA content and its impact of language on society.</p> <p>3. Candidates demonstrate knowledge and compose a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose; candidates understand that writing involves strategic and recursive processes across multiple stages (e.g. planning, drafting, revising, editing, and publishing); candidates use contemporary technologies and/or digital media to compose multimodal discourse.</p> <p>4. Candidates demonstrate knowledge and use strategies for acquiring and applying vocabulary knowledge to general academic and domain specific words as well as unknown terms important to comprehension (reading and listening) or expression (speaking and writing).</p>	<p>adult) representing multiple perspectives, differences in traditions, genres, etc. to create a unit of study that incorporates critique.</p> <p>2. Use mechanics, application of grammar systems and dialect, language acquisition, and English history to connect ELA content.</p> <p>3. Create opportunities for students to demonstrate a range of composition skills as well as technologies to produce a variety of texts.</p> <p>4. Apply vocabulary strategies to assist students in further development of their individual lexicons to aid in comprehension or expression as appropriate.</p> <p>(Evidences can be taken directly from the assessment example planned for Module D with specific focus on ELA requirements as a focus for lesson plans developed for Step 1)</p>
--	---	--

<p><b>Standard 5:</b> <b>Application of Content</b></p> <p>The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.</p>	<p><b>Performance</b></p> <ol style="list-style-type: none"> <li>1. Candidates design and/or implement instruction related to the strategic use of language conventions (grammar, usage, and mechanics) in the context of students’ writing for different audiences, purposes, and modalities.</li> <li>2. Candidates design and/or implement English language arts and literacy instruction that promotes social justice and critical engagement with complex issues related to maintaining a diverse, inclusive, equitable society.</li> <li>3. Candidates design and/or implement instruction related to a breadth and depth of texts, purposes, and complexities (e.g., literature, digital, visual, informative, argument, narrative, poetic) that lead to students becoming independent, critical, and strategic readers, writers, speakers, and listeners.</li> <li>4. Candidates design and/or implement instruction related to speaking and listening that lead to students becoming critical and active participants in conversations and collaborations.</li> </ol>	<p>The candidate will:</p> <p>Complete enhancement standard performances 1 – 4 as part of module D.</p> <p>(Evidences can be taken directly from the assessment example planned for Module D with specific focus on ELA requirements as a focus for lesson plans developed for step 1 and then instructed in Step 4.)</p>
<p><b>Standard 6:</b> <b>Assessment</b></p> <p>The teacher understands and uses multiple methods of assessment to</p>	<p><b>Performance</b></p> <ol style="list-style-type: none"> <li>1. Candidates design a range of authentic assessments (e.g., formal and informal, formative and summative) of reading and literature that demonstrate an understanding</li> </ol>	<p>The candidate will demonstrate specific competencies for enhancement performance Standards 1 – 4 in module E. Specific focus of the assessment for Standard 6 will be on the design of</p>

<p>engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.</p>	<p>of how learners develop and that address interpretive, critical, and evaluative abilities in reading, writing, speaking, listening, viewing, and presenting.</p> <p>2. Candidates design or knowledgeably select appropriate reading assessments in response to student interests, reading proficiencies, and/or reading strategies.</p> <p>3. Candidates design or knowledgeably select a range of assessments for students that promote their development as writers, are appropriate to the writing task, and are consistent with current research and theory. Candidates respond to students’ writing throughout the students’ writing processes in ways that engage students’ ideas and encourage their growth as writers over time.</p> <p>4. Candidates differentiate instruction based on multiple kinds of assessments of learning in English language arts (e.g., students’ self-assessments, formal assessments, informal assessments); candidates communicate with students about their performance in ways that actively involve students in their own learning.</p>	<p>appropriate assessments in ELA. The additional requirement of providing evidence for:</p> <ul style="list-style-type: none"> <li>• Candidates’ responses to students’ writing throughout the students’ writing processes in ways that engage students’ ideas and encourage their growth as writers over time.</li> <li>• Candidates’ communications with students about their performance in ways that actively involve students in their own learning.</li> </ul> <p>(Evidences can be taken directly from the assessment example planned for Module E. The additional evidences required can be obtained as part of Step 4.)</p>
<p><b>Standard 7:</b> <b>Planning for Instruction</b> The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon</p>	<p><b>Performance</b> 1. Candidates plan instruction which, when appropriate, reflects curriculum integration and incorporates interdisciplinary teaching methods and materials which</p>	<p>The INTASC Standard 7 Assessment Example can be used as evidence for meeting these specific performance standards. Since the focus would be ELA, planning for the unit of study would</p>

<p>knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.</p>	<p>includes reading, writing, speaking, listening, and language.</p> <p>2. Candidates plan standards-based, coherent and relevant learning experiences in reading that reflect knowledge of current theory and research about the teaching and learning of reading and that utilize individual and collaborative approaches and a variety of reading strategies.</p> <p>3. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant composing experiences that utilize individual and collaborative approaches and contemporary technologies and reflect an understanding of writing processes and strategies in different genres for a variety of purposes and audiences.</p> <p>4. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant learning experiences utilizing a range of different texts—across genres, periods, forms, authors, cultures, and various forms of media—and instructional strategies that are motivating and accessible to all students, including English language learners, students with special needs, students from diverse language and learning backgrounds, those designated as high achieving, and those at risk of failure.</p>	<p>naturally incorporate these standards as well as the Core Teacher Standards.</p>
--	--	---

<p><b>Standard 8:</b> <b>Instructional Strategies</b></p> <p>The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.</p>	<p><b>Performance</b></p> <p>1. Candidates plan and implement instruction based on ELA curricular requirements and standards, school and community contexts by selecting, creating, and using a variety of instructional strategies and resources specific to effective literacy instruction, including contemporary technologies and digital media., and knowledge about students’ linguistic and cultural backgrounds.</p>	<p>The INTASC Standard 8 Assessment Example would need to focus on instructional strategies and resources specific to effective literacy instruction; however, no further adaptation would be necessary.</p>
<p><b>Standard 9:</b> <b>Professional Learning and Ethical Practice</b></p> <p>The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.</p>	<p><b>Performance</b></p> <p>1. Candidates model literate and ethical practices in ELA teaching, and engage in a variety of experiences related to ELA and reflect on their own professional practices.</p>	<p>Standard 9 performances would be embedded in all modules.</p>
<p><b>Standard 10:</b> <b>Leadership and Collaboration</b></p>	<p><b>Performance</b></p> <p>1. Candidates engage in and reflect on a variety of experiences related to ELA that demonstrate</p>	<p>Standard 10 performances would be embedded in all modules.</p>

The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.	understanding of and readiness for leadership, collaboration, ongoing professional development, and community engagement.

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 3: A Well Educated Citizenry, Objective A: Access

**BACKGROUND/DISCUSSION**

Twelve (12) emergency provisional applications were received by the State Department of Education from the school districts listed below. Emergency provisional applications allow a district/charter to request one-year emergency certification for a candidate who does not hold a current Idaho certificate/credential, but who has the strong content background and some educational pedagogy, to fill an area of need that requires certification/endorsement. While the candidate is under emergency provisional certification, no financial penalties will be assessed to the hiring district.

**Bonneville Joint School District #93**

**Applicant Name:** Willis, Julian

**Content & Grade Range:** Business Technology Education 6-12

**Educational Level:** MBA 11/2018, BS, Sports Management 2/2017

**Declared Emergency:** December 12, 2018, Bonneville Joint School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** There were eleven (11) applicants and five (5) interviews. They received two (2) certified applicants who were under contract at other districts. Of the non-certified applicants, they felt Mr. Willis was the strongest

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

candidate. With his degree and employment in the district as an In-School Suspension paraprofessional and coach, they've had the opportunity to observe him working with students.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Bonneville Joint School District's request for Julian Willis without reservation.

**Caldwell School District #132**

**Applicant Name:** Zaragoza, Isidro

**Content & Grade Range:** Mathematics 6-12

**Educational Level:** BA, Spanish 12/2009

**Declared Emergency:** August 13, 2018, Caldwell School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** This candidate was hired in the prior school year but was unable to complete renewal requirements of the Content Specialist application.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee does not recommend Caldwell School District's request for Isidro Zaragoza. Although this application meets the letter of the law, the Authorization Committee does not recommend the approval of the application. This candidate was unable to complete the ABCTE program in the 2017-18 school year. The district submitted a renewal of the Alternative Authorization – Content Specialist application with a change in the educator preparation program. The candidate sought a Mathematics educator program through Boise State University (BSU) but BSU required pre-requisite coursework (090 level Mathematics) to be completed prior to enrollment. The candidate was unable to meet the Uniform Standard for Evaluating Content Competency (rubric) and was not able to enroll in the BSU program as the candidate did not complete the pre-requisite coursework. The application did not meet the requirements for the Alternative Authorization – Content Specialist and the district chose to convert the application to a Provisional.

**Clark County School District #161**

**Applicant Name:** Knight, Michael

**Content & Grade Range:** Health 6-12

**Certified:** Standard Instructional certificate for History 6-12, American Government/Political Science 6-12, and Spanish 6-12.

**Declared Emergency:** January 14, 2019, Clark County School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** There was one(1) applicant and one (1) interview. Mr. Knight was the only applicant and had a desire to go back to college to obtain the endorsement.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Clark County School District's request for Michael Knight without reservation.

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

**Coeur d'Alene School District #271**

**Applicant Name:** Whitted, Alicen

**Content & Grade Range:** English 6-12

**Educational Level:** BA, Secondary Education – English 6-12

**Declared Emergency:** January 7, 2019, Coeur d'Alene School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** There were 17 applicants and seven (7) interviews. Ms. Whitted worked as a long-term substitute in 2017-18 for Lakes Middle School for an English position where she showed that she had a positive attitude and was a collaborative team member and an effective teacher. She earned her bachelor's degree in English education at Arizona State University. She moved to Coeur d'Alene before applying for her Arizona teaching credential. She is in the process of applying to Arizona for her certificate.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Coeur d'Alene School District's request for Alicen Whitted without reservation.

**Gem Prep: Pocatello, Inc. Charter #496**

**Applicant Name:** Ruffridge, Shayla

**Content & Grade Range:** All Subjects K-8

**Educational Level:** AA, 2017

**Declared Emergency:** December 16, 2018, Gem Prep: Pocatello, Inc. Charter Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** This candidate has been a paraprofessional in this classroom for the 2018-19 school year. She is familiar with the curriculum, students, families, and other staff. In the best interests of the students, school administrators felt the transition of this candidate to the classroom was the best direction. No vacancy was posted for this position.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Gem Prep: Pocatello, Inc. Charter's request for Shayla Ruffridge without reservation.

**Joint Hagerman School District #233**

**Applicant Name:** Jayo, Nicolas

**Content & Grade Range:** Physical Education K-12

**Educational Level:** BA, General Studies 5/2017

**Declared Emergency:** August 27, 2018, Joint Hagerman School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** Mr. Jayo was reassigned within district to teach one to two periods of PE and coach to cover the loss of a PE teacher due to reduction in force processes.

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Joint Hagerman School District's request for Nicolas Jayo without reservation.

**Joint Hagerman School District #233**

**Applicant Name:** Johnson, Leeland

**Content & Grade Range:** Music K-12

**Educational Level:** 169 credits, enrolled in BA, Religion program

**Declared Emergency:** April 8, 2019, Joint Hagerman School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** The district has had the need to teach Music to students since the last certified teacher left five (5) years ago. The position has been advertised for years without any inquiries except for classified personnel. The district is a small rural district with limited access to certified teachers. The student interest will need to be rebuilt since the district has been without a program for five (5) years. Meanwhile, the position is only offered as a part time position. Mr. Johnson is a paraprofessional at the elementary school and commented on his ability to teach music (choir) with previous experience. He is currently teaching choir only one period a day as he will finish his bachelor's degree in May 2019. The district will continue to search for a certified teacher that may be interested in a part time position. Mr. Johnson was unable to qualify on the Uniform Standard for Evaluating Content Competency.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Joint Hagerman School District's request for Leeland Johnson without reservation.

**Jerome Joint School District #261**

**Applicant Name:** Navarro Alvarez, Felipe

**Content & Grade Range:** All Subjects K-8

**Certified:** Standard Instructional certificate for English 6-12.

**Declared Emergency:** December 18, 2018, Jerome Joint School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** There were six (6) applicants and six (6) interviews for three (3) vacancies. Felipe was selected due to his extensive experience and education in teaching in dual language programs, and he is proficient in reading, speaking, and writing both Spanish and English. He also brought much cultural knowledge of Mexico to the program.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Jerome Joint School District's request for Felipe Navarro Alvarez without reservation.

**Marsing Joint School District #363**

**Applicant Name:** Hamblin, Maria

**Content & Grade Range:** All Subjects K-8

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

**Educational Level:** BS, Psychology 7/2014

**Declared Emergency:** January 15, 2019, Marsing Joint School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** There was one (1) applicant and one (1) interview. Maria was a sub in the district and enrolled in ABCTE Summer 2018.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Marsing Joint School District's request for Maria Hamblin without reservation.

**Soda Springs Joint School District #150**

**Applicant Name:** Burger, Christopher

**Content & Grade Range:** Mathematics 6-12

**Educational Level:** BS, Science and English 5/2016

**Declared Emergency:** August 20, 2018, Soda Springs Joint School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** There was one (1) applicant and one (1) interview. Mr. Burger is enrolled in Western Governors University for Biology and Physical Science teacher preparation. He does not have a plan for mathematics but was the only applicant.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Soda Springs Joint School District's request for Christopher Burger without reservation.

**Twin Falls School District #411**

**Applicant Name:** Smith, Weston

**Content & Grade Range:** Visual Arts K-12

**Educational Level:** BA, Art 5/2017

**Declared Emergency:** February 11, 2019, Twin Falls School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**Summary of Recruitment Efforts:** There were three (3) candidates and three(3) interviews. This candidate held a bachelor's degree in Art and was selected.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends Twin Falls School District's request for Weston Smith without reservation.

**West Bonner County School District #83**

**Applicant Name:** Pavey, Steffie

**Content & Grade Range:** Mathematics 6-12

**Educational Level:** BS, Business Administration 5/2017

**Declared Emergency:** February 20, 2019, West Bonner County School District Board of Trustees declared an emergency area of need exists for the 2018-2019 school year.

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

**Summary of Recruitment Efforts:** There was only one (1) applicant and one (1) interview.

**PSC Review:** The Professional Standards Commission Authorizations Committee met April 4, 2019. The committee recommends West Bonner County School District's request for Steffie Pavey without reservation.

**ATTACHMENTS**

Attachment 1 – Caldwell School District Letter Regarding Applicant

Attachment 2 – Provisional Certificate Processing Requirements Approved April 2019

**IMPACT**

If the emergency provisional certificate is not approved, the school district will have no certificated staff to serve in the position and funding could be impacted.

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-1201, Idaho Code, "every person who is employed to serve in any elementary or secondary school in the capacity of teacher, supervisor, administrator, education specialist, school nurse or school librarian shall be required to have and to hold a certificate issued under the authority of the State Board of Education...." Section 33-1203, Idaho Code, prohibits the Board from authorizing standard certificates to individuals who have less than four (4) years of accredited college training except in "trades and industries" (occupational fields) or emergency situations.

Section 33-512, Idaho Code, defines substitute teachers as "as any individual who temporarily replaces a certificated classroom educator..." Neither Idaho Code, nor administrative rule, limits the amount of time a substitute teacher may be employed to cover a classroom. In some cases, school districts use a long-term substitute prior to requesting provisional certification for the individual. In many cases the individual that the school district is requesting emergency certification for has been in the classroom as a long-term substitute for the entire term. Requests for emergency provisional certificates after the end of the school year for funding purposes is not consistent with the requirements of Section 33-1201, Idaho Code. At the April 2019 Regular Board meeting the Board approved the request from the Department of Education to limit consideration of Emergency Provisional Certificates by the April Board meeting of each year.

Staff recommends the Board follow the newly adopted process and reject all requests for emergency provisional certificates brought forward after the April Board Meeting for the proceeding school year.

The Department receives applications from the school districts for requests for provisional certifications. Department staff then work with the school districts to ensure the applications are complete. The Professional Standards Commission then reviews requests for the one-year emergency provisional certificates. The

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

Department then brings those that are complete forward to the Board for consideration with a recommendation from the Professional Standards Commission.

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

---

**BOARD ACTION**

I move to accept the recommendation of the Professional Standards Commission to issue one-year emergency provisional certificates for Julian Willis, Michael Knight, Alicen Whitted, Shayla Ruffridge, Nicolas Jayo, Leeland Johnson, Felipe Navarro Alvarez, Maria Hamblin, Christopher Burger, Weston Smith and Steffie Pavey to teach the content area and grade ranges at the specified school districts as provided herein for the 2018-2019 school year.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

I move to accept the recommendation of the Professional Standards Commission to not approve a one-year emergency provisional certificate for Isidro Zaragoza to teach the content area and grade ranges at the specified school district as provided herein for the 2018-19 school year.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

## CALDWELL SCHOOL DISTRICT #132

1502 Fillmore St.  
CALDWELL, IDAHO 83605  
(208) 455-3300 \*FAX (208) 455-3302  
[www.caldwellschools.org](http://www.caldwellschools.org)

May 28, 2019

To Whom It May Concern:

I am writing regarding the Emergency Provisional request for Isidro Zaragosa and to provide the series of events that led up to making this request.

Through the process of renewing Mr. Zaragoza's second year alternative authorization, the District discovered Mr. Zaragosa had passed the ABCTE PTK test, but had taken and failed the ABCTE Math course three times, which made him ineligible to continue the ABCTE program.

Mr. Zaragosa changed his renewal pathway and enrolled in a math course at the College of Western Idaho. During this time, the District also received notice that he did not have enough points on the new rubric, which was implemented in August.

I consulted with the State Department of Education. The options presented to Mr. Zaragosa were:

- Option 1: Ask BSU to reevaluate your math credits for the "basic math" endorsement requirements. If eligible, we would need a copy of the educational plan from BSU asap.
- Option 2: Enroll in CSI's math program for educators.
- Option 3: The district can declare an "Emergency Provisional" for this year only while you research the best route. Then, once enrolled, we could request one more alternative authorization for 19-20. The dilemma with this option is that I believe you would need to complete your program by the end of 19-20.

Emergency Provisional – Zaragosa  
Page 2

Mr. Zaragosa selected Option 2 and enrolled at the College of Southern Idaho. However, at the end of January, Mr. Zaragosa notified the District that he could not financially afford the Math Program at the College of Southern Idaho. At this time, I contacted the State Department of Education and asked to change Mr. Zaragosa's request to an Emergency Provisional to ensure funding for 2018-2019. I notified Mr. Zaragosa that he would not have a teaching position in 2019-2020.

On April 9, 2019, I was advised that the PSC made a recommendation to the SBE *not* to approve the District's request for Mr. Zaragosa's Emergency Provisional and the final decision would not be made until June.

I made many attempts to work through Mr. Zaragosa's certification. The past practice of the State Department of Education has been to recommend the approval of Emergency Provisionals when an emergency has been declared. This situation did become an emergency for Caldwell School District. I ask that the panel approve the District's request. Thank you for your consideration.

Sincerely,

*Patricia Wade*

Patricia Wade  
Director of Human Resources

## Emergency Provisional Certificate Considerations and Recommendations

As of June 19, 2019, State Board of Education (Board) has approved 78 Emergency Provisional Certificates for the 2018-2019 school year

Point of Discussion	Current Process	Additional Information	Points of Consideration	Recommendation
Definition of “two years of college training”	Historically, Federal Programs defined two years of study at an accredited postsecondary educational institution as 32 credits for paraprofessional requirements. Current process mirrors definition.	The Board defines a full time student as taking 12 or more credits (or equivalent) per semester. Based on this definition, an individual with 48 or more semester credits (or equivalent) would be considered as receiving two years of college training.	<ul style="list-style-type: none"> <li>• 69 out of 71 met 48 credits</li> <li>• 2 out of the 71 did not meet 48 credits, but did meet 32 credit</li> </ul>	Two years of college training shall equal 48 semester credits.
Annual or by academic term deadlines for requests	<p>Applications are submitted and processed by academic school year. Applications can be categorized in one of the four scenarios:</p> <ul style="list-style-type: none"> <li>• LEA hired applicant <i>prior</i> to school starting                             <ul style="list-style-type: none"> <li>○ May be due to not finding an appropriately certified individual or losing staff</li> </ul> </li> <li>• LEA started school year without appropriately certified individual and applicant was hired <i>after</i> the year started – may have had a long term substitute (LTS)*                             <ul style="list-style-type: none"> <li>○ May be due to not finding an appropriately certified individual or losing staff</li> </ul> </li> <li>• Original application was processed as an Alternative Authorization – Content Specialist (AA-CS), but later converted to an Emergency Provisional due to applicant not able to meet the initial qualification of passing content or pedagogy assessment nor meet the state board approved <a href="#">Uniform Standard for Evaluating Content Competency Rubric</a> prior to entering the classroom.</li> </ul>	Due to various situations LEAs experience throughout each school year, as well as timelines for Professional Standards Commission (PSC) and Board meetings, it is possible for applications for Emergency Provisional Certificates to be submitted as late as May of a school year, although not likely.	<p>Except for extenuating situations, applications for each school year should be presented by the April Board meeting of the same school year.</p> <ul style="list-style-type: none"> <li>• LEA hired applicant <i>prior</i> to school starting                             <ul style="list-style-type: none"> <li>○ 40 out of 71</li> </ul> </li> <li>• LEA hired applicant <i>after</i> school started                             <ul style="list-style-type: none"> <li>○ 6 out of 71</li> </ul> </li> <li>• Applicant did not qualify for AA-CS                             <ul style="list-style-type: none"> <li>○ 20 out of 71</li> </ul> </li> <li>• Applicant did not meet conditions on Interim                             <ul style="list-style-type: none"> <li>○ 5 out of 71</li> </ul> </li> </ul>	<p style="background-color: yellow;">Emergency provisional certificates for the current school year shall be recommended for consideration by the Board by the April meeting.</p> <p>Should an LEA lose a staff member after the deadline for the April Board meeting, the emergency provisional certificate can be recommended for consideration at the June meeting of the Board.</p>

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

**ATTACHMENT 2**

Point of Discussion	Current Process	Additional Information	Points of Consideration	Recommendation
	<ul style="list-style-type: none"> <li>Applicant did not meet the conditions of their Interim Certificate which has expired.</li> </ul>			
New certificate with endorsement	<p>For every Board-approved Emergency Provisional Certificate, an applicant is issued a Provisional Certificate with corresponding endorsement regardless of whether they hold certification. There are three situations that apply:</p> <ul style="list-style-type: none"> <li>Applicant does not hold any certificates               <ul style="list-style-type: none"> <li>Example: No certificate applying for Provisional Instructional Certificate – All Subjects (K-8)</li> </ul> </li> <li>Applicant holds certification, but NOT the same certificate as the provisional certificate.               <ul style="list-style-type: none"> <li>Example: Pupil Service Staff – School Counselor applying for Provisional Instructional Certificate – Mathematics (6-12)</li> </ul> </li> <li>Applicant holds the same certificate as the provisional certificate.               <ul style="list-style-type: none"> <li>Example: Standard Instructional Certificate – English (6-12) applying for Provisional Instructional Certificate – History (6-12)</li> </ul> </li> </ul>	<p>Is the Emergency Provisional Certificate only applicable to the first two situations (those who do not hold any certificate and those who do not hold the same certificate as the provisional)?</p> <p>Statutory language authorizing the approval of emergency certificates does not address endorsement. Does that preclude the ability to add endorsement to the Emergency Provisional Certificate?</p> <p>Including endorsements assists in tracking areas of need, and also provides transparency to subject areas the Emergency Provisional Certified applicant may be assigned.</p>	<p>Applicants who already hold the same certificate (i.e. Instructional certificate) are typically stronger than those who do not. If the current law precludes this, is there another way, such as rulemaking, that would grant this option?</p> <ul style="list-style-type: none"> <li>Does not currently hold a valid certificate = 57 out of 71</li> <li>Adding a new certificate = 5 out of 71</li> <li>Holds same certificate = 9 out of 71</li> </ul> <p>There is an option to add an endorsement through the Alternative Authorization – Teacher to New Endorsement; however, some candidates may not have the desire to add the endorsement or a plan that will lead to the endorsement, and the</p>	<p>The PSC may recommend an Emergency Provisional Certificate with endorsement, and an Emergency Provisional Certificate with endorsement may be recommended for an individual who already holds the same certificate.</p>

**DEPARTMENT OF EDUCATION  
JUNE 19, 2019**

**ATTACHMENT 2**

Point of Discussion	Current Process	Additional Information	Points of Consideration	Recommendation
			LEA has an identified area of need for one year.	
Extending a non-renewable Interim certificate	Some Emergency Provisional Certificate applications are for applicants who did not meet the requirements of their Interim certificate. For example, failure to complete all required assessment and/or coursework as identified in their educator preparation plan and/or Interim certificate. LEAs may declare an emergency and apply for Emergency Provisional Certification for applicants in this situation.	Statutory language does not address whether an Emergency Provisional Certificate can be issued to an applicant who holds an expired certificate, including expired Interim certificates.	Interim certificates are for up to three years and are non-renewable	Emergency Provisional Certificate may be recommended for an individual who holds an expired certificate, including an expired interim certificate.
Emergency Provisional Certificates issued for Pupil Service Staff or Administrator	The PSC has had discussions regarding the concern about issuing Emergency Provisional Certificates for Pupil Service Staff (PSS) and Administrators, specifically, those individuals with two years of college training serving as a School Counselor, School Social Worker, Speech-Language Pathologist, School Nurse, School Psychologist, Audiologist, Principal, Special Education Director, or Superintendent. Currently the Authorizations Committee of the PSC is extremely selective with recommendations for Emergency Provisional Certificates for PSS or Administrator. An example is an Emergency Provisional Certificate for a School Counselor for an applicant who had a master’s in clinical mental health counseling. The background and educational experience of this applicant reduced concerns of them serving as school counselor for the year.	Statutory language does not address what certificates an Emergency Provisional can issue. In addition, the language does not address any criteria other than the two years of college training and declaration of emergency.	<ul style="list-style-type: none"> <li>• 3 out of 71 were for Pupil Service Staff – School counselor</li> <li>• 68 out of 71 were for instructional staff or occupational specialist with applicable endorsements.</li> </ul>	Continue current practice of providing only exceptionally selective recommendations to the Board.

- \* Long Term Substitute (LTS) – A substitute for 10 or more consecutive days is considered a LTS. Substitutes and LTS must be tied to a teacher of record. The teacher of record is defined as the person who is primarily responsible for planning instruction, delivering instruction, assessing students formatively and summatively, and designating the final grade.
  - If a teacher of record leaves, LEAs may apply for Emergency Provisional Certificate if they cannot find a replacement.

**UNIVERSITY OF IDAHO**

**SUBJECT**

Disposal of Regents real property at University of Idaho (UI) Caine Center, Caldwell.

**REFERENCE**

February 2017 Regents approved disposal by State Board of Land Commissioners auction.

April 2018 Regents approved first sales agreement.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section V.I.5.b(3).

**ALIGNMENT WITH STRATEGIC PLAN**

This is a non-strategic Board governance item.

**BACKGROUND/DISCUSSION**

In 1978 the Regents acquired 40 acres of unimproved agricultural college endowment land from the State of Idaho for the purpose of constructing and operating the Caine Veterinary Center on land adjoining UI's Caldwell Research and Extension Center. The Regents paid \$111,000 to the State of Idaho for the parcel.

In 2016 the University of Idaho's College of Agricultural and Life Sciences closed the Caine Center to reallocate College resources to programs and facilities that better met the needs of the College's current priorities in animal sciences and related areas. In February 2017, the Regents approved disposal of this property by planned auction to be conducted by the Idaho Department of Lands (IDL). This auction would have been in conjunction with an auction of related and adjoining endowment lands by IDL.

Based on a preliminary estimate of auction value (\$665,000) from the IDL consultants, and after consultation with IDL staff, the University of Idaho chose to market the entire 40 acre property in an effort to receive a higher purchase price through a direct sale. The first offer for \$800,000 from a residential developer was terminated by the potential buyer upon completion of their due diligence work. A subsequent offer from another residential developer for \$800,000 was also terminated during the buyer's due diligence period. The value of the adjoining bare land for residential development has been difficult to capture when the existing building is included because of the building's anticipated demolition costs to the buyer/developer.

**CONSENT**  
**JUNE 20, 2019**

---

UI has recently received an offer of \$20,000/acre, but this offer is only for the unimproved portion of the property (not the vacant Caine Veterinary Teaching Center and land immediately surrounding that building). It is estimated the parcel proposed for sale will be approximately 28 acres (to be determined by subsequent survey performed by buyer), and so the selling price for this portion of the total property is expected to be about \$560,000. UI will continue to separately market the building and surrounding land (about 12 acres) to buyers primarily interested in the commercial use of the existing building. At this time, UI is only seeking approval from the Regents for the proposed sale of the adjoining unimproved property as described in the attached sales agreement.

**IMPACT**

The Caine Center has been mothballed and no longer serves any programmatic purpose. UI considers disposal of the entire property in two parcels the best method to eliminate caretaking costs of the surplus property and provide financial resources that can better align with University and College priorities and initiatives.

**ATTACHMENTS**

Attachment 1 – Purchase and sale agreement with map of subject property

**STAFF COMMENTS AND RECOMMENDATIONS**

The sale agreement for the disposal of a portion of the Caine Center property meets the requirements established by Board Policy V.I.5. The University will still pursue efforts to sell the building and immediate property.

Staff recommends approval.

**BOARD ACTION**

I move to approve the request by the University of Idaho to authorize a sale of the Caine Center property described in the Purchase and Sale Agreement submitted as Attachment 1, under the terms and conditions set forth therein for the purchase amount of \$600,000, and to authorize the Vice President for Finance and Administration for the University of Idaho to execute all necessary transaction documents.

Selling Agent Lenny Nelson E-Mail lenny@tokcommercial.com Phone # 208.947.0806

1. BUYER: Bella Tierra, LLC and/or assigns an Oregon limited liability company
(Hereinafter called "BUYER") agrees to purchase, and the undersigned SELLER agrees to sell the following described real estate hereinafter referred to as "PROPERTY" COMMONLY KNOWN AS 1020 E. Homedale Road Caldwell City Canyon County, ID, Zip 83607 legally described as: R3272100000

OR Legal Description Attached as exhibit A (Exhibit must accompany original offer and be signed or initialed by BUYER and SELLER.)

2. \$ 600,000.00 PURCHASE PRICE: Six Hundred Thousand DOLLARS, payable upon the following TERMS AND CONDITIONS (not including closing costs):

This offer is contingent upon the sale, refinance, and/or closing of any other property [ ] Yes [X] No

3. FINANCIAL TERMS: Note: A+C+D+E must add up to total purchase price.
(A) \$ 25,000.00 EARNEST MONEY: Twenty-Five Thousand DOLLARS
BUYER hereby offers the above stated amount as Earnest Money which shall be credited to BUYER upon closing. Earnest Money is:

Evidenced by: Held By: Delivered: Deposited:
[ ] Cash [ ] Responsible Broker [ ] With Offer [ ] Upon Receipt and Acceptance
[ ] Personal Check [X] Closing Company [X] Within 5 business days (three [3] if left blank) of acceptance. [X] Upon Receipt Regardless of Acceptance
[ ] Cashier's Check [ ] Other [ ] Other [ ] Other
[X] Wire Transfer
[ ] Note
[ ] Other

THE RESPONSIBLE BROKER SHALL BE: Michael Ballantyne

(B). ALL CASH OFFER: [ ] NO [X] YES If this is an all cash offer do not complete Sections 3C and 3D, fill blanks with N/A (Not Applicable). IF CASH OFFER BUYER'S OBLIGATION TO CLOSE SHALL NOT BE SUBJECT TO ANY FINANCIAL CONTINGENCY. BUYER agrees to provide SELLER within business days (five [5] if left blank) from the date of acceptance of this agreement by all parties written confirmation of sufficient funds and/or proceeds necessary to close transaction. Acceptable documentation includes, but is not limited to a copy of a recent bank or financial statement.

Cash proceeds from another sale: [ ] Yes [X] No

(C). \$ NEW LOAN PROCEEDS: This Agreement is contingent upon BUYER obtaining the following financing:
FIRST LOAN of \$ not including mortgage insurance, through [ ] FHA, [ ] VA, [ ] CONVENTIONAL, [ ] IHFA, [ ] RURAL DEVELOPMENT, [ ] OTHER with interest not to exceed % for a period of year(s) at: [ ] Fixed Rate [ ] Other
[ ] Fixed Rate [ ] Other. In the event BUYER is unable, after exercising good faith efforts, to obtain the indicated financing,

BUYER's Earnest Money shall be returned to BUYER.
SECOND LOAN of \$ through [ ] FHA, [ ] VA, [ ] CONVENTIONAL, [ ] IHFA, [ ] RURAL DEVELOPMENT, [ ] OTHER with interest not to exceed % for a period of year(s) at: [ ] Fixed Rate [ ] Other
LOAN APPLICATION: BUYER [ ] has applied OR [ ] shall apply for such loan(s). Within business days (ten [10] if left blank) of final acceptance of all parties, BUYER agrees to furnish SELLER with a written confirmation showing lender approval of credit report, income verification, debt ratios, and evidence of sufficient funds and/or proceeds necessary to close transaction in a manner acceptable to the SELLER(S) and subject only to satisfactory appraisal and final lender underwriting. If an appraisal is required by lender, the PROPERTY must appraise at not less than purchase price or BUYER'S Earnest Money shall be returned at BUYER'S request unless SELLER, at SELLER'S sole discretion, agrees to reduce the purchase price to meet the appraised value. SELLER shall be entitled to a copy of the appraisal and shall have 24 hours from receipt thereof to notify BUYER of any price reduction. BUYER may also apply for a loan with different conditions and costs and close transaction provided all other terms and conditions of this Agreement are fulfilled, and the new loan does not increase the costs or requirements to the SELLER.
FHA / VA: If applicable, it is expressly agreed that notwithstanding any other provisions of this contract, BUYER shall not be obligated to complete the purchase of the PROPERTY described herein or to incur any penalty or forfeiture of Earnest Money deposits or otherwise unless BUYER has been given in accordance with HUD/FHA or VA requirements a written statement by the Federal Housing Commissioner, Veterans Administration or a Direct Endorsement lender setting forth the appraised value of the PROPERTY of not less than the sales price as stated in the contract.

If such written confirmation required in 3(B) or 3(C) is not received by SELLER(S) within the strict time allotted, SELLER(S) may at their option cancel this agreement by notifying BUYER(S) in writing of such cancellation within business days (three [3] if left blank) after written confirmation was required. If SELLER does not cancel within the strict time period specified as set forth herein, SELLER shall be deemed to have accepted such written confirmation of lender approval or waived the right to receive written confirmation and shall be deemed to have elected to proceed with the transaction. SELLER'S approval shall not be unreasonably withheld.

(D). \$ \_\_\_\_\_ ADDITIONAL FINANCIAL TERMS:

- Additional financial terms are specified under the heading "OTHER TERMS AND/OR CONDITIONS" (Section 4).
- Additional financial terms are contained in a FINANCING ADDENDUM of same date, attached hereto, signed by both parties.

(E). \$ 575,000.00 APPROXIMATE FUNDS DUE AT CLOSING: Cash at closing, not including closing costs, to be paid by BUYER at closing, in GOOD FUNDS, which includes: cash, electronic transfer funds, certified check or cashier's check.

4. OTHER TERMS AND/OR CONDITIONS: This Agreement is made subject to the following special terms, considerations and/or contingencies which must be satisfied prior to closing  
See Addendum 1 attached hereto and made a part hereof.

5. "NOT APPLICABLE" DEFINED: The letters "n/a," "N/A," "n.a.," and "N.A." as used herein are abbreviations of the term "not applicable." Where this agreement uses the term "not applicable" or an abbreviation thereof, it shall be evidence that the parties have contemplated certain facts or conditions and have determined that such facts or conditions do not apply to the agreement or transaction herein.

6. INSPECTION:

(A). BUYER IS STRONGLY ADVISED TO INVESTIGATE THE CONDITION AND SUITABILITY OF ALL ASPECTS OF THE PROPERTY AND ALL MATTERS AFFECTING THE VALUE OR DESIRABILITY OF THE PROPERTY INCLUDING, BUT NOT LIMITED TO, THE FOLLOWING:

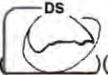

SIZE: Square footage and lot size. (Any numerical statements regarding these items are APPROXIMATION ONLY, and have not been and will not be verified and should not be relied upon by BUYER.)

1. LINES AND BOUNDARIES: Property lines and boundaries, septic, and leach lines (Fences, walls, hedges, and other natural or constructed barriers or markers do not necessarily identify true property boundaries. Property lines may be verified by surveys.)
2. ZONING AND LAND USE: Inquiries, investigations, studies or any other means concerning past, present or proposed laws, ordinances, referendums, initiatives, votes, applications and permits affecting the current use of the PROPERTY, BUYER's intended use of the PROPERTY, future development, zoning, building, size, governmental permits and inspections. Both parties are advised that Broker does not guarantee the status of permits, zoning or code compliance. The parties are to satisfy themselves concerning these issues.
3. UTILITIES AND SERVICE: Availability, costs, and restrictions of utilities and services, including but not limited to, sewage, sanitation, water, electricity, gas, telephone, cable TV, internet and drainage.
4. UTILITIES, IMPROVEMENTS & OTHER RIGHTS: SELLER represents that the PROPERTY does have the following utilities, improvements, services and other rights available (describe availability): Seller makes no representation as to the availability of utilities, improvements or services. Buyer to verify all.
5. HAZARDOUS MATERIALS: The real estate broker(s) or their agents in this transaction have no expertise with respect to toxic waste, hazardous materials or undesirable substances. BUYERS who are concerned about the presence of such materials should have the PROPERTY inspected by qualified experts. BUYER acknowledges that he/she has not relied upon any representations by either the Broker or the SELLER with respect to the condition of the PROPERTY that are not contained in this Agreement or in any disclosure statements.
6. TAX LIABILITY: The BUYER and SELLER acknowledge that they have not received or relied upon any statements or representations by the Broker with respect to the effect of this transaction upon BUYER's or SELLER's tax liability.

(B). BUYER chooses  to conduct inspections;  not to conduct inspections. If BUYER chooses not to conduct inspections skip the remainder of Section 6. If indicated, BUYER shall have the right to conduct inspections, investigations, tests, surveys and other studies at BUYER'S expense, hereafter referred to as the "Primary Inspection." BUYER'S inspection of the PROPERTY includes all aspects of the PROPERTY, including but not limited to neighborhood, conditions, zoning and use allowances, environmental conditions, applicable school districts and/or any other aspect pertaining to the PROPERTY or related to the living environment at the PROPERTY. Unless otherwise addressed BUYER shall, within Add calendar days (thirty [30] if left blank) from acceptance, complete these inspections and give to SELLER written notice of disapproved items/conditions or written notice of termination of this Agreement based on an unsatisfactory inspection. Once BUYER delivers written notice to SELLER it shall end BUYER's timeframe and is irrevocable regardless of if it was provided prior to the deadline stated above. BUYER is strongly advised to exercise these rights and to make BUYER'S own selection of professionals with appropriate qualifications to conduct inspections of the entire PROPERTY. SELLER shall make the PROPERTY available for all inspections. BUYER shall keep the PROPERTY free and clear of liens; indemnify and hold SELLER harmless from all liability, claims, demands, damages and costs; and repair any damages arising from the inspections. No inspections may be made by any governmental building or zoning inspector or government employee without the prior consent of SELLER unless required by local law. No inspections may be made by any governmental building or zoning inspector or government employee without the prior consent of SELLER, unless required by local law.  
BUYER'S acceptance of the condition of the PROPERTY is a contingency of this Agreement.

(C) SATISFACTION/REMOVAL OF INSPECTION CONTINGENCIES:

1. If BUYER does not within the strict time period specified give to SELLER written notice of disapproved items/conditions or written notice of termination of this Agreement, BUYER shall conclusively be deemed to have: (a) completed all inspections, investigations, review of applicable documents and disclosures; (b) elected to proceed with the transaction and (c) assumed all liability, responsibility and expense for repairs or corrections.
2. If BUYER does within the strict time period specified give to SELLER written notice of termination of this Agreement based on an unsatisfactory inspection, the parties will have no obligation to continue with the transaction and the Earnest Money shall be returned to BUYER.

Page 2 of 7

JULY 2018 EDITION

RE-24 VACANT LAND PURCHASE AND SALE AGREEMENT

PROPERTY ADDRESS: 1020 E. Homedale Road Caldwell 83607 ID#: TOK-2019-1020

123 3. If BUYER does within the strict time period specified give to SELLER written notice of disapproved items, it shall end BUYER's timeframe for
124 inspections and is irrevocable. BUYER shall provide to SELLER pertinent section(s) of written inspection reports upon request, if applicable. Upon
125 receipt of written notice SELLER shall have 3 business days (three [3] if left blank) in which to respond in writing. SELLER, at SELLER's option,
126 may agree to correct the items as requested by BUYER in the notice or may elect not to do so. If SELLER agrees in writing to correct items/conditions
127 requested by BUYER, then both parties agree that they will continue with the transaction and proceed to closing. Otherwise, immediately upon a written
128 response from SELLER that rejects BUYER's requests, in whole or in part, said response is irrevocable and BUYER may proceed under 6(C)(4)
129 below.

131 4. If SELLER does not agree to correct BUYER's disapproved items/conditions within the strict time period specified, or SELLER does not respond in
132 writing within the strict time period specified, then the BUYER has the option of either proceeding with the transaction without the SELLER being
133 responsible for correcting these deficiencies or giving the SELLER written notice within 3 business days (three [3] if left blank) that BUYER will not
134 continue with the transaction and will receive the Earnest Money back. If BUYER does not give written notice of cancellation within the strict time periods
135 specified, BUYER shall conclusively be deemed to have elected to proceed with the transaction without repairs or corrections.

137 7. TITLE CONVEYANCE: Title of SELLER is to be conveyed by warranty deed, unless otherwise provided, and is to be marketable and insurable except
138 for rights reserved in federal patents, state or railroad deeds, building or use restrictions, building and zoning regulations and ordinances of any
139 governmental unit, and rights of way and easements established or of record. Liens, encumbrances or defects to be discharged by SELLER may be paid out
140 of purchase money at date of closing. No liens, encumbrances or defects, which are to be discharged or assumed by BUYER or to which title is taken
141 subject to, exist unless otherwise specified in this Agreement.

143 8. TITLE INSURANCE: There may be types of title insurance coverages available other than those listed below and parties to this agreement
144 are advised to talk to a title company about any other coverages available that will give the buyer additional coverage.

145 (A). PRELIMINARY TITLE COMMITMENT: Within 5 business days (six [6] if left blank) of final acceptance of all parties, SELLER or BUYER shall
146 furnish to BUYER a preliminary commitment of a title insurance policy showing the condition of the title to said PROPERTY. BUYER shall have 30
147 business days (two [2] if left blank) after receipt of the preliminary commitment, within which to object in writing to the condition of the title as set forth in
148 the preliminary commitment. If BUYER does not so object, BUYER shall be deemed to have accepted the conditions of the title. It is agreed that if the
149 title of said PROPERTY is not marketable and cannot be made so within 5 business days (two [2] if left blank) after SELLER'S receipt of a written
150 objection and statement of defect from BUYER, then BUYER'S Earnest Money deposit shall be returned to BUYER and SELLER shall pay for the cost of
151 title insurance cancellation fee, escrow and legal fees, if any.

152 (B). TITLE COMPANY: The parties agree that Alliance Title Title Company located
153 at 250 S 5th Street, Suite 100 Boise, ID 83702 shall provide the title policy and preliminary report of commitment.

154 (C). STANDARD COVERAGE OWNER'S POLICY: SELLER shall within a reasonable time after closing furnish to BUYER a title insurance policy in the
155 amount of the purchase price of the PROPERTY showing marketable and insurable title subject to the liens, encumbrances and defects elsewhere set
156 out in this Agreement to be discharged or assumed by BUYER unless otherwise provided herein. The risk assumed by the title company in the
157 standard coverage policy is limited to matters of public record. BUYER shall receive a ILTA/ALTA Owner's Policy of Title Insurance. A title
158 company, at BUYER's request, can provide information about the availability, desirability, coverage and cost of various title insurance coverages and
159 endorsements. If BUYER desires title coverage other than that required by this paragraph, BUYER shall instruct Closing company in writing and pay any
160 increase in cost unless otherwise provided herein.

161 (D). EXTENDED COVERAGE LENDER'S POLICY (Mortgagee policy): The lender may require that BUYER (Borrower) furnish an Extended Coverage
162 Lender's Policy. This extended coverage lender's policy considers matters of public record and additionally insures against certain matters not shown in
163 the public record. This extended coverage lender's policy is solely for the benefit of the lender and only protects the lender.

165 9. COVENANTS, CONDITIONS AND RESTRICTIONS (CC&Rs): As part of the BUYER'S inspection of the PROPERTY as set forth in Section 6,
166 BUYER is responsible for obtaining and reviewing a copy of any CC&Rs which may affect the PROPERTY. BUYER shall have 30 business days (ten
167 [10] if left blank) (but in no event shall such time period exceed that time period set forth for inspections in Section 6) to review any CC&Rs that may affect
168 the PROPERTY. Unless BUYER delivers to SELLER a written and signed objection to the terms of any applicable CC&Rs with particularity describing
169 BUYER'S reasonable objections within such time period as set forth above, BUYER shall be deemed to have conclusively waived any objection to the terms
170 of any CC&Rs affecting the PROPERTY, nothing contained herein shall constitute a waiver of BUYER to challenge CC&Rs directly with a homeowners
171 association after closing. If BUYER timely and reasonably objects to a term of the CC&Rs, this Agreement shall terminate, and the Earnest Money shall be
172 returned to BUYER.

174 10. SUBDIVISION HOMEOWNER'S ASSOCIATION: BUYER is aware that membership in a Home Owner's Association may be required and
175 BUYER agrees to abide by the Articles of Incorporation, Bylaws and rules and regulations of the Association. BUYER is further aware that the PROPERTY
176 may be subject to assessments levied by the Association described in full in the Declaration of Covenants, Conditions and Restrictions. BUYER has
177 reviewed Homeowner's Association Documents: Yes No N/A. Association fees/dues are \$ per
178 BUYER SELLER Shared Equally N/A to pay Association SET UP FEE of \$ and/or
179 BUYER SELLER Shared Equally N/A to pay Association PROPERTY TRANSFER FEES of \$ and/or
180 BUYER SELLER Shared Equally N/A to pay Association STATEMENT OF ACCOUNT FEE of \$ at closing. Association Fees are governed by
181 Idaho Code 55-116 and 55-1507.

183 11. INTERSTATE LAND SALES FULL DISCLOSURE ACT: This Vacant Land Real Estate Purchase and Sale Agreement is NOT intended to
184 be used for situations in which Seller owns and is selling one hundred (100) or more lots. Properties containing one hundred (100) or more lots for
185 sale may be subject to the reporting and disclosure requirements of the Interstate Land Sales Full Disclosure Act ("Act"), 15 USC § 1701 et seq. If you have
186 questions regarding this Act, contact your attorney before signing. Any contract or agreement for the sale or lease of a lot subject to the Act may be revoked
187 at the option of the purchaser or lessee until midnight of the seventh day following the signing of such contract or agreement or until such later time as may
188 be required pursuant to applicable law. Any contract or agreement for the sale or lease of a lot for which a property report is required by the Act and the
189 property report has not been given to the purchaser or lessee in advance of his or her signing such contract or agreement, such contract or agreement may
190 be revoked at the option of the purchaser or lessee within two (2) years from the date of such signing.

JULY 2018 EDITION

RE-24 VACANT LAND PURCHASE AND SALE AGREEMENT

Page 3 of 7

PROPERTY ADDRESS: 1020 E. Homedale Road Caldwell 83607 ID#: TOK-2019-1020

192 12. FARM/CROPS/TIMBER RIGHTS: SELLER, or any tenant of SELLER, shall be allowed to harvest, sell or assign any annual crops which have been
193 planted on the PROPERTY prior to the date of this Contract, even though said harvest time may occur subsequent to the date of the settlement of this
194 contract, unless otherwise agreed by attached addendum. If the crop consists of timber, then neither SELLER nor any tenant of SELLERS shall have any
195 right to harvest the timber unless the right to remove same shall be established by an attached addendum. Notwithstanding the provisions hereof, any tenant
196 who shall be leasing the PROPERTY shall be allowed to complete the harvest of any annual crops that have been planted prior to the date of Contract
197 Acceptance as previously agreed between SELLER and Tenant. ANY AND ALL SUCH TENANT AGREEMENTS ARE TO BE ATTACHED.
198

199 13. NOXIOUS WEEDS: BUYER of the PROPERTY in the State of Idaho should be aware that some properties contain noxious weeds. The laws of the
200 State of Idaho require owners of property within this state to control, and to the extent possible, eradicate noxious weeds. For more information concerning
201 noxious weeds and your obligations as an owner of property, contact your local county extension office.
202

203 14. MINERAL RIGHTS: Any and all mineral rights appurtenant to the PROPERTY, and owned by SELLER, are included in and are part of the sale of this
204 PROPERTY, and are not leased or encumbered, unless otherwise agreed to by the parties in writing.
205

206 15. WATER RIGHTS: Any and all water rights including but not limited to water systems, wells, springs, lakes, streams, ponds, rivers, ditches, ditch rights,
207 and the like, if any, appurtenant to the PROPERTY, and owned by SELLER, are included in and are a part of the sale of this PROPERTY, and are not
208 leased or encumbered, unless otherwise agreed to by the parties in writing.
209

210 16. RISK OF LOSS OR NEGLECT: Prior to closing of this sale, all risk of loss shall remain with SELLER. In addition, should the PROPERTY be
211 materially damaged by fire, neglect, or other destructive cause prior to closing, this agreement shall be voidable at the option of the BUYER.
212

213 17. BUSINESS DAYS: A business day is herein defined as Monday through Friday, 8:00 A.M. to 5:00 P.M. in the local time zone where the subject real
214 PROPERTY is physically located. A business day shall not include any Saturday or Sunday, nor shall a business day include any legal holiday recognized
215 by the state of Idaho as found in Idaho Code §73-108. If the time in which any act required under this agreement is to be performed is based upon a
216 business day calculation, then it shall be computed by excluding the calendar day of execution and including the last business day. The first business day
217 shall be the first business day after the date of execution. If the last day is a legal holiday, then the time for performance shall be the next subsequent
218 business day.
219

220 18. CALENDAR DAYS: A calendar day is herein defined as Monday through Sunday, midnight to midnight, in the local time zone where the subject real
221 PROPERTY is physically located. A calendar day shall include any legal holiday. The time in which any act required under this agreement is to be performed
222 shall be computed by excluding the date of execution and including the last day, thus the first day shall be the day after the date of execution. Any reference
223 to "day" or "days" in this agreement means the same as calendar day, unless specifically enumerated as a "business day."
224

225 19. SEVERABILITY: In the case that any one or more of the provisions contained in this Agreement or any application thereof, shall be invalid, illegal or
226 unenforceable in any respect, the validity, legality or unenforceability of the remaining provisions shall not in any way be affected or impaired thereby.
227

228 20. TRANSMISSION OF DOCUMENTS: Facsimile or electronic transmission of any signed original document, and retransmission of any signed
229 facsimile or electronic transmission shall be the same as delivery of an original. At the request of either the BUYER or SELLER, or the LENDER, or the
230 Closing company, the BUYER and SELLER will confirm facsimile or electronic transmitted signatures by signing an original document.
231

232 21. WIRE TRANSFER WARNING: Electronic means of transferring money (i.e. ETF, wire transfer, electronic check, direct deposit, etc...) are subject
233 to sophisticated cyber fraud attacks. These attacks are even more prevalent in real estate transactions due to the large sums of money being exchanged.
234 BUYER is advised that Brokerage will not provide electronic transfer instructions by e-mail. Following money transfer instructions contained in an email from
235 any party is inherently dangerous and should be avoided. BUYER agree that if BUYER use, or authorize the use of, electronic transfer of funds in a
236 transaction they hereby hold the Brokerages, their agents, and the designated title and escrow company harmless from any and all claims arising out of
237 inaccurate transfer instructions, fraudulent interception of said funds and/or any other damage relating to the conduct of third parties influencing the transfer
238 process or stealing funds.
239

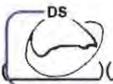

240 22. COUNTERPARTS: This Agreement may be executed in counterparts. Executing an agreement in counterparts shall mean the signature of two
241 identical copies of the same agreement. Each identical copy of an agreement signed in counterparts is deemed to be an original, and all identical copies
242 shall together constitute one and the same instrument.
243

244 23. ENTIRE AGREEMENT: This Agreement including any addendums or exhibits, constitutes the entire Agreement between the parties respecting the
245 matters set forth and supersedes all prior Agreements between the parties respecting such matters. This Agreement may be modified only by a written
246 agreement signed by each of the parties.
247

248 24. SALES PRICE INFORMATION: Pursuant to Idaho Code §54-2083(6)(d), a "sold" price of real property is not confidential client information.
249

250 25. AUTHORITY OF SIGNATORY: If BUYER or SELLER is a corporation, partnership, trust, estate, or other entity, the person executing this
251 agreement on its behalf warrants his or her authority to do so and to bind BUYER or SELLER.
252

253

PROPERTY ADDRESS: 1020 E. Homedale Road Caldwell 83607 ID#: TOK-2019-1020

257 26. ADDITIONAL CONTINGENCIES AND COSTS: The closing of this transaction is contingent upon written satisfaction or waiver of the
258 contingencies listed in the "contingencies" column below. In addition, the parties shall satisfy all contingencies set forth in this section by close of business
259 (Date): Exp of DD unless otherwise agreed to by the parties in writing. The parties agree to pay the following costs as indicated below. None of the costs
260 to be paid by the parties in this section creates an inspection or performance obligation other than strictly for the payment of costs unless otherwise stated
261 below. There may be other costs incurred in addition to those set forth below. Such costs may be required by the lender, by law, or by other such
262 circumstances. Requested tests/inspection reports as indicated below shall be provided to the other party within business days (ten [10] if left blank)
263 prior to closing.

264 Upon closing SELLER agrees to pay [ ] N/A % of the purchase price OR [ ] \$ N/A (dollar amount) (N/A if left
265 blank) as a SELLER concession. This can be used toward lender-approved BUYER'S closing costs, lender fees, and prepaid
266 costs which include but are not limited to those items in BUYER columns marked below. This concession can also be used for
267 any other expense not related to financing at the BUYER'S discretion.

Table with columns: COSTS, BUYER, SELLER, Shared Equally, N/A, CONTINGENCIES, BUYER, SELLER, Shared Equally, N/A. Rows include Appraisal Fee, Long Term Escrow Fees, Closing Escrow Fee, Survey, Flood Certification/Tracking Fee, Title Ins. Standard Coverage, etc.

268 27. DEFAULT: If BUYER defaults in the performance of this Agreement, SELLER has the option of: (1) accepting the Earnest Money as liquidated
269 damages or (2) pursuing any other lawful right or remedy to which SELLER may be entitled. If SELLER elects to proceed under (1), SELLER shall make
270 demand upon the holder of the Earnest Money, upon which demand said holder shall pay from the Earnest Money the costs incurred by SELLER's Broker
271 on behalf of SELLER and BUYER related to the transaction, including, without limitation, the costs of title insurance, escrow fees, credit report fees,
272 inspection fees and attorney's fees; and said holder shall pay any balance of the Earnest Money, one-half to SELLER and one-half to SELLER's Broker,
273 provided that the amount to be paid to SELLER's Broker shall not exceed the Broker's agreed-to commission. SELLER and BUYER specifically
274 acknowledge and agree that if SELLER elects to accept the Earnest Money as liquidated damages, such shall be SELLER's sole and exclusive remedy, and
275 such shall not be considered a penalty or forfeiture. However, in the event the parties mutually agree in writing that the Earnest Money shall become non-
276 refundable, said agreement shall not be considered an election of remedies by SELLER and the non-refundable Earnest Money shall not constitute
277 liquidated damages; nor shall it act as a waiver of other remedies, all of which shall be available to SELLER; it may however be used to offset SELLER'S
278 damages. If SELLER elects to proceed under (2), the holder of the Earnest Money shall be entitled to pay the costs incurred by SELLER's Broker on behalf
279 of SELLER and BUYER related to the transaction, including, without limitation, the costs of brokerage fee, title insurance, escrow fees, credit report fees,
280 inspection fees and attorney's fees, with any balance of the Earnest Money to be held pending resolution of the matter. If SELLER defaults, having
281 approved said sale and fails to consummate the same as herein agreed, BUYER's Earnest Money deposit shall be returned to him/her and SELLER shall
282 pay for the costs of title insurance, escrow fees, credit report fees, inspection fees, brokerage fees and attorney's fees, if any. This shall not be considered as
283 a waiver by BUYER of any other lawful right or remedy to which BUYER may be entitled.
284
285

286 28. EARNEST MONEY DISPUTE / INTERPLEADER: Notwithstanding any termination or breach of this Agreement, BUYER and SELLER agree that
287 in the event of any controversy regarding the Earnest Money and things of value held by Broker or closing company, Broker may reasonably rely on the
288 terms of this Agreement or other written documents signed by both parties to determine how to disburse the disputed money. However, Broker or closing
289 company shall not be required to take any action but may await any proceeding, or at Broker's or closing company's option and sole discretion, may
290 interplead all parties and deposit any moneys or things of value into a court of competent jurisdiction and shall recover all costs which were incurred as a
291 result of the dispute including, but not limited to, reasonable attorney's fees. If either parties' Broker incurs attorney's fees as a result of any Earnest Money
292 dispute, whether or not formal legal action is taken, said Broker is entitled to recover actual fees incurred from either BUYER or SELLER.
293

294 29. ATTORNEY'S FEES: If either party initiates or defends any arbitration or legal action or proceedings which are in any way connected with this
295 Agreement, the prevailing party shall be entitled to recover from the non-prevailing party reasonable costs and attorney's fees, including such costs and fees
296 on appeal.
297

298 30. TIME IS OF THE ESSENCE IN THIS AGREEMENT.

31. CLOSING: On or before the closing date, BUYER and SELLER shall deposit with the closing company all funds and instruments necessary to complete this transaction. Closing means the date on which all documents are either recorded or accepted by an escrow agent and the sale proceeds are available to SELLER. The closing shall be no later than (Date) See Addendum 1

The parties agree that the CLOSING COMPANY for this transaction shall be Alliance Title Company located at 250 S 5th Street, Suite 100, Boise, ID 83702. If a long-term escrow /collection is involved, then the long-term escrow holder shall be N/A

32. POSSESSION: BUYER shall be entitled to possession upon closing or date at am pm.

33. PRORATIONS: Property taxes and water assessments (using the last available assessment as a basis), rents collected, interest and reserves, liens, encumbrances or obligations assumed, and utilities shall be prorated upon closing or as of date. BUYER to reimburse SELLER for fuel in tank Yes No N/A. Dollar amount may be determined by SELLER's supplier.

34. REPRESENTATION CONFIRMATION: Check one (1) box in Section 1 and one (1) box in Section 2 below to confirm that in this transaction, the brokerage(s) involved had the following relationship(s) with the BUYER(S) and SELLER(S).

- Section 1:
A. The brokerage working with the BUYER(S) is acting as an AGENT for the BUYER(S).
B. The brokerage working with the BUYER(S) is acting as a LIMITED DUAL AGENT for the BUYER(S), without an ASSIGNED AGENT.
C. The brokerage working with the BUYER(S) is acting as a LIMITED DUAL AGENT for the BUYER(S) and has an ASSIGNED AGENT acting solely on behalf of the BUYER(S).
D. The brokerage working with the BUYER(S) is acting as a NONAGENT for the BUYER(S).

- Section 2:
A. The brokerage working with the SELLER(S) is acting as an AGENT for the SELLER(S).
B. The brokerage working with the SELLER(S) is acting as a LIMITED DUAL AGENT for the SELLER(S), without an ASSIGNED AGENT.
C. The brokerage working with the SELLER(S) is acting as a LIMITED DUAL AGENT for the SELLER(S) and has an ASSIGNED AGENT acting solely on behalf of the SELLER(S).
D. The brokerage working with the SELLER(S) is acting as a NONAGENT for the SELLER(S).

Each party signing this document confirms that he has received, read and understood the Agency Disclosure Brochure adopted or approved by the Idaho real estate commission and has consented to the relationship confirmed above. In addition, each party confirms that the brokerage's agency office policy was made available for inspection and review. EACH PARTY UNDERSTANDS THAT HE IS A "CUSTOMER" AND IS NOT REPRESENTED BY A BROKERAGE UNLESS THERE IS A SIGNED WRITTEN AGREEMENT FOR AGENCY REPRESENTATION.

35. ASSIGNMENT: This Agreement and any rights or interests created herein may may not be sold, transferred, or otherwise assigned.

36. ACCEPTANCE: This offer may be revoked at any time prior to acceptance and is made subject to acceptance on or before (Date) March 8, 2019 at (Local Time in which PROPERTY is located) 5:00 A.M. P.M.

If BUYER timely approves of SELLER's late acceptance, an initialed copy of this page shall be immediately delivered to SELLER.

**ADDENDUM #1  
RE-24 - TOK-2019-1020  
1020 E. Homedale Road, Caldwell, ID**

1. **ACCEPTANCE.** The transaction contemplated by this Purchase and Sale Agreement is contingent upon approval from the Board of Regents of the University of Idaho being granted prior to **June 30, 2019**. In the event the Board fails to approve by the aforementioned date, this Agreement shall be terminated, and Seller shall reimburse Buyer for the actual costs incurred after the initial 60-day Contingency Period, for any third party reports up to \$20,000.00. Seller shall reimburse Buyer within **thirty (30) days** of receipt of paid invoices and copies of said reports.
2. **PURCHASE PRICE.** The purchase price to be paid by Buyer to Seller for the Property shall be calculated at Twenty Thousand and No/100 Dollars (\$20,000.00) per acre (the "**Purchase Price**"). The final Purchase Price shall be adjusted based upon by the survey obtained by the Buyer and mutually agreed to in writing prior to the expiration of Buyer's Inspection Contingency period.
3. **BUYER'S INSPECTION CONTINGENCY/DUE DILIGENCE.** Per Paragraph 6 (B) of this Purchase and Sale Agreement, Buyer has **sixty (60) days** from mutual acceptance of the Purchase and Sale Agreement in which to complete "Buyer's Inspection Contingency". Upon satisfaction of said Buyer's Inspection Contingency, the Earnest Money shall become non-refundable to Buyer, but applicable to the Purchase Price at Closing, unless the Board does not approve of the sale.
4. **PUBLIC ACCESS.** Any public access provided by the Buyer will allow access to the remaining property, which access shall be defined and mutually agreed to in writing prior to the expiration of Buyer's Inspection Contingency period.
5. **CITY COUNCIL APPROVAL.** The transaction contemplated by this Purchase and Sale Agreement is contingent upon approval from the Caldwell City Council for Buyer's intended use of the Property. Buyer intends to obtain subdivision project approval from the Caldwell City Council for the development of the Property into a residential subdivision. Seller shall cooperate with Buyer and provide any necessary signatures and cooperation for the approval of the proposed subdivision at no cost to the Seller, including an affidavit of interest required to submit an application. Notwithstanding the foregoing, Buyer shall not enter into any agreement affecting the Property prior to the expiration of the Approval Period (defined below), nor shall Seller have any obligation to enter into any binding agreement prior to expiration of the Approval Period.
6. **APPROVAL PERIOD.** Buyer shall have **nine (9) months** after Board Approval in which to complete entitlements and obtain approval from the Caldwell City Council ("Approval Period"). However, upon written notice and an additional Earnest Money deposit of Ten Thousand and No/100 Dollars (\$10,000.00) prior to the expiration of the Approval Period, Buyer shall have one (1) option to extend the Approval Period for sixty (60) days, to complete entitlements and obtain development approval from the Caldwell City Council. Said additional Earnest Money shall be non-refundable to Buyer, but shall be applied to the Purchase Price at Closing. In the event Buyer fails to obtain such entitlements and obtain approval from the Caldwell City, this Agreement may be terminated at Buyer's option with written notice to Seller.
7. **CLOSING.** Closing shall take place at a time mutually agreed upon by the parties at the office of Escrow Agent the within **ninety (90) days** of approval from the Caldwell City Council for Buyer's intended use of the Property, but in no event later than **twelve (12) months** after Board Approval (the "Closing Date"). Title of the Property shall be conveyed by Special Warranty Deed.
8. **MINERAL RIGHTS.** Section 14, Mineral Rights, of the Purchase and Sale Agreement shall be deleted in its entirety.
9. Buyer acknowledges and accepts that the Subject Property includes scrapie contamination.
10. Buyer acknowledges and accepts any structures on the Subject Property in "As Is" condition.
11. Buyer acknowledges that Seller has a farm lease on the property for the 2019 crop year and will provide Buyer with a copy of the farm lease within **five (5) days** of mutual execution of this agreement. Tenant shall be allowed to plant and harvest any annual crops during the 2019 crop year. This lease may be terminated after the 2019 crop year.

**CONSENT**  
**JUNE 20, 2019**

---

**UNIVERSITY OF IDAHO**

**SUBJECT**

Building management services contract for the Idaho Water Center, Boise

**REFERENCE**

March 2004	Idaho Water Center (IWC) Leasing, Operations, and Maintenance Contract (Information Only) – UI of Idaho (UI) presented a pending Request for Qualifications for building management services at the IWC.
January 2005	The Regents approved a contract to provide building management services at the Idaho Water Center.
June 2009	The Regents approved a contract to provide building management services at the Idaho Water Center.
June 2014	The Regents approved a contract to provide building management services at the Idaho Water Center.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedure, Section V.I.3.a.

**ALIGNMENT WITH STRATEGIC PLAN**

This is a non-strategic Board governance item.

**BACKGROUND/DISCUSSION**

The most recent building management contract with Oppenheimer Development Corporation (ODC) allowed for one base year of operations, plus up to four additional one-year options. ODC performed well, and UI exercised the option each year. The final option year of the current contract expires on 30 June 2019.

UI publicly advertised a Request for Qualifications in January 2019, seeking interest in the next five-year contract (again envisioned as a base year contract plus four option years). Two firms submitted materials in response to the RFQ. A selection committee found both firms well qualified and interviewed each in March.

Oppenheimer Development Corporation was rated the top firm with notable strengths including admirable past performance in managing similar facilities in the Boise market, and exhibiting a keen focus upon customer satisfaction, communication, and service delivery. UI has since negotiated contract terms, as well as established the building operating budget for the base year of the anticipated contract.

**CONSENT**  
**JUNE 20, 2019**

---

The contract provides for all building operations, maintenance, and routine repairs, to include janitorial, custodial, and security services. Building reception, service call management, and commercial utility billing and reporting are also included. The contract is structured to cover all operating costs, plus a flat rate management fee. Total contract costs are approximately \$5.21 per square foot per year, to include all utilities. UI believes that continued outsourcing of the building management function best serves UI's need for economical and efficient building operations.

This agreement is fully consistent with UI's strategic plan, specifically:

**Goal 1, Engage** – This agreement supports learning and research activities, which engages with UI's stakeholders, students, staff, alumni and the greater community of the State of Idaho.

**Goal 4, Cultivate** – The building management services will improve cohesion, connectivity, and morale within UI by providing students, faculty, and staff with an ideal environment, supporting research and learning activities. In addition, the education, outreach, extension and research activities supported by the facility have the potential to cultivate relationships and improve communication and collaboration between UI and the greater community.

This project is fully consistent with the principles, goals, and objectives within UI of Idaho's Long Range Campus Development Plan (LRCDP).

**IMPACT**

The contract covers the operating budget for the building, valued at \$1,074,917 for FY20. The costs are billed proportionately among the condominium owners, the U.S. Forest Service (approx 10% share) and UI, on behalf of the state of Idaho (approx 90% share). UI recovers a share of these operating expenses from the tenants leasing space from UI (United Health and the Idaho Dept of Water Resources). Contract amounts for subsequent years will be based on the budget to be submitted annually by Oppenheimer and subject to approval by UI.

UI will cover its proportionate share of the costs associated with this contract out of existing operating funds.

**ATTACHMENTS**

Attachment 1 – Proposed Contract  
Attachment 2 – FY20 Operating Budget

**CONSENT  
JUNE 20, 2019**

---

**STAFF COMMENTS AND RECOMMENDATIONS**

Under the contract with ODC approved by the Board in 2014, the contract value started at \$1,049,021 for FY 2015. The table below shows actual budget, cost per square foot and percent change in contract costs since FY 2015

	<b>Budget</b>	<b>\$/SF</b>	<b>% Chg</b>
FY 2015	\$1,049,021	\$5.08	
FY 2016	\$1,044,053	\$5.06	-0.5%
FY 2017	\$1,033,362	\$5.01	-1.0%
FY 2018	\$1,036,187	\$5.02	0.3%
FY 2019	\$1,067,329	\$5.17	3.0%
FY 2020*	\$1,074,917	\$5.21	0.7%

\* Proposed rate subject to Board approval

Staff recommends approval.

**BOARD ACTION**

I move to approve the agreement between the University of Idaho and Oppenheimer Development Corporation for building management services at the Idaho Water Center, in substantial conformance to the form submitted to the Board in Attachment 1, effective July 1, 2019 through June 30, 2020.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

## MANAGEMENT AGREEMENT

THIS AGREEMENT is made and entered into as of this 1st day of July, 2019, by and between the Regents of the University of Idaho a public corporation, state educational institution, and a body corporate organized and existing under the Constitution and laws of the state of Idaho (herein after called "Institution"), whose address is 875 Perimeter Dr., MS 3168, Moscow, Idaho 83844-3168 and Oppenheimer Development Corporation, (hereinafter called "Manager") whose address is 877 W. Main St., Suite 700 Boise, ID 83702.

### RECITALS

The Property is known as the Idaho Water Center (hereinafter called "Property"), together with all improvements erected thereon and all personal property of the Institution located thereon. The Property is located at 322 East Front Street, Boise, ID 83702.

Manager is licensed to manage real estate in the State of Idaho and is in the business of managing and operating real estate.

The Institution desires to appoint Manager to manage the day-to-day operations of the Property consistent with Institution's objectives of maximizing the Property's economic value.

This Agreement is entered into to set forth the terms on which Manager will manage the Property.

NOW THEREFORE, incorporating the Recitals as set forth above, and in consideration of the mutual covenants herein contained, Institution and Manager mutually hereby agree as follows:

### DEFINITIONS

The terms used in this Agreement shall have the following meanings:

"Authorized Expenses" shall be those expenses included within the Institution-Approved Budget, and such additional expenses as may thereafter be approved by Institution in writing.

"Institution-Approved Budget" shall be the budget approved pursuant to Section 3.8 and included here as Exhibit A.

"Operating Account" shall have the meaning ascribed to it in Section 3.9.

"Fiscal Year" shall coincide with the State Fiscal Year: 1 July through 30 June.

**ARTICLE I****TERM**

Institution hereby appoints and Manager hereby accepts appointment as exclusive Manager for the Property for the period of 1 July 2019 through June 30, 2020. This Agreement also includes four additional one-year option periods, corresponding to state fiscal years 2021, 2022, 2023, and 2024. Contingent upon sustained satisfactory performance by the Manager, the Institution, at its sole discretion, may choose to exercise an option on the Agreement. The Institution shall provide written notification to the Manager of the intent to exercise an option on the Agreement not less than sixty (60) days prior to the end of the current performance period.

This Agreement is cancelable without cause by either party on not less than sixty (60) days advance written notice, which notice may be given at any time during a month, provided that in any event the cancellation shall be effective at the end of the calendar month in which the sixty (60) day notice period ends.

**ARTICLE II****COMPENSATION OF MANAGER**

The compensation and payment thereof for management of the Property shall be as follows:

2.1 *Management Fee.* Institution agrees to pay Manager and Manager agrees to accept as full management fee for the services to be rendered to Institution an amount equal to \$13,125.00, monthly, subject to an annual review by the parties and negotiation for any potential increase for the next contract year. In no case will an increase exceed 3%. Such fee shall be payable monthly in arrears commencing upon the last day of the first initial month of this Agreement.

2.2 *Maintenance Compensation.* Manager shall do everything reasonably necessary for the proper management of the Property, including supervision and staffing of building reception and maintenance/engineering services, regular workday inspections of building systems and services, and arranging for such improvements, alterations, and repairs as may be required by Institution. In the event there is ever a need for additional labor above and beyond the onsite building engineers, and it is determined that the providing of additional maintenance from Manager shall be the most effective method of resolving a maintenance issue, Manager shall provide said labor at a commercially reasonable rate not to exceed \$40.00 per hour, price subject to change with thirty (30) days prior written notice. No improvements, alterations or repair work costing more than Five Thousand Dollars (\$5,000) shall be made by Manager without Institution's prior written authorization unless it is part of a pre-approved budget. In the case of an emergency, as

described in paragraph 3.5, that requires immediate repairs or alterations, if Institution is not readily available for consultation, Manager may use its discretion and judgment regarding same to make repairs.

2.3 *Tenant Improvement/ Capital Improvement / Oversight.*

Tenant Improvement/Capital Improvement is defined as any alteration, renovation, or new construction project which alters the intended use of a space within the building or which supports the reassignment of the space from one owner/occupant to another.

- A. All improvements valued under \$15,000 require Institutional written approval of project and oversight of Manager’s activities in the selection of the contractor(s). Manager shall select contractor(s) in conformity with Institution policy and procedure, and State Board of Education and Board of Regents Policies and procedures. Manager shall provide Institution a written report prior to, and after the bid process to insure proper process was followed. Manager shall be responsible for all supervision and oversight of the contractor and shall hold the contract with the selected contractor.
- B. All improvements valued at or over \$15,000 require Institution written approval and Institution participation in the selection of contractor(s). Selection of contractor(s) shall be in conformity with Institution policies and procedures and State Board of Education and Board of Regents Policies and procedures. Institution may, at its sole option, request in writing the services of Manager, in which case Manager shall hold the contract with the selected contractor. Nothing in this Agreement prohibits Institution from soliciting bids for and managing improvements valued at or over \$15,000 independent of and without any involvement of Manager.
- C. Any Tenant Improvement/Capital Improvement approved by the Institution and undertaken or supervised by the Manager shall be treated as additional work outside of the approved budget. The Management fee for any such tenant or capital improvement shall be on a percentage basis as follows:

Improvement with a total costs of up to \$15,000 . . . . .	5%
Improvement with a total cost at or over \$15,000 . . . . .	3%

2.4 *General Overhead.* Institution shall not additionally compensate or reimburse Manager for Manager's normal central office overhead expenses other than as provided in Section 3.6 and those expressly approved in the Institution-Approved Budget.

2.5 *Other Financial Reports and Audits.* Property Manager shall furnish to Institution as promptly as practicable all routine financial reports and such other financial reports,

statements, audits or other information, outside the usual and customary reporting, with respect to the operations of the Property as Institution may from time to time reasonably request.

### ARTICLE III

#### RESPONSIBILITIES OF MANAGER

3.1 Manager shall operate, manage, and maintain the Property as an independent contractor acting as agent for Institution in accordance with Idaho real estate law and sound property management practices. Manager shall exercise prudence and diligence in performing its duties. The responsibilities of the Manager shall include, but not be limited to, the following:

3.2 *Compliance with Legal Requirements.* Manager shall take such action as may be necessary to comply with any and all orders or requirements affecting the Property by any federal, state, county or municipal authority having jurisdiction thereover and of which Manager has received written notice.

Manager, however, shall not take any such action as long as the Institution is contesting, or has affirmed its intention to contest, and promptly institutes proceedings contesting, any such order or requirement except that Institution and Manager shall promptly notify each other in writing of all such orders and notices or requirements. Manager shall prepare, execute, and, after obtaining the approval of Institution, file any such reports and documents as may be required by any local, state, or federal authority.

Manager shall manage the Property under this Agreement in full compliance with any applicable state or federal legislation governing discrimination or fairness in housing or business, and shall take action considered appropriate to carry out the purposes of any such legislation.

3.3 *Operation.* Manager shall continually operate the Property as a high-quality project, and shall perform all acts which are customary for the management of properties of like size and character or as may be required for the efficient and businesslike operation of the Property.

3.4 *Maintenance and Repairs.* Manager shall, within the limitations of the Institution-Approved Budget, see that the physical facilities, personal property, and grounds are at all times well maintained, kept in good order and repair, and in a proper state of cleanliness.

Manager shall, in accordance with the approved operating budget, make or contract for all repairs that shall reasonably be required to preserve, maintain, and keep the Property in first-class condition. To the extent that Manager must contract out for such services, all such contracts shall be the responsibility of Manager.

Manager shall obtain and maintain records and enforce any guarantees or warranties that may concern Institution's personal property included within the Property. Written approval of the Institution must be obtained before pursuing any legal remedies to enforce said guarantees or warranties.

3.5 *Emergency Maintenance and Repair.* In an emergency where repairs are immediately necessary for the preservation and safety of the Property, or to avoid the suspension of any essential service to the Property, or to avoid danger to life or property, or to comply with federal, state, or local law, such emergency repairs shall be made by Manager at Institution's expense without prior written approval. Manager shall report to the Institution full details of any emergency orally within one (1) business day and by written report remitted within one (1) week of the incident.

Manager shall notify Institution or Institution's designated insurance agent promptly of any personal injury or property damage occurring to or claimed by any tenant or third party on or with respect to the Property and to promptly forward to such insurance agent, with copies to Institution, any summons, subpoena, or other legal document served upon Manager relating to the actual or alleged potential liability of the Institution, Manager, or the Property, with copies to Institution of all such documents.

3.6 *Employment and Supervision of Personnel.* Manager shall employ and supervise all personnel required for the operation, maintenance, and management of the Property. All such employees shall be employees of the Manager, and shall not be employees of the Institution.

Manager agrees not to discriminate against any employee or applicant for employment in the performance of this Agreement, with respect to tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment, because of race, sex, color, religion, disability, sexual orientation, status as a veteran, national origin or ancestry. Breach of this covenant may be regarded as a material breach of this agreement.

Manager shall procure and maintain worker's compensation insurance and employer's liability insurance covering all employees working on or about the Property, and fidelity bonds or employee dishonesty insurance, covering all employees who handle funds of the Institution.

Manager is solely responsible for payment of income, social security, and employment taxes due to the proper taxing authorities and Institution shall not deduct such taxes from any payments to Manager hereunder. Manager shall prepare, maintain, and file all necessary reports with respect to such taxes or deductions and all other necessary statements and reports pertaining to labor employed by Manager in or about the Property. Costs of administering and managing such personnel are to be borne by Manager.

3.7 *Disclosure.* Manager shall disclose the name of any property owned and/or managed by the Manager which is within a two (2)-mile radius of the Property and any other property owned and/or managed by the Manager which is in direct competition with the Property. Subsequent like-kind conflicts shall also be disclosed immediately upon occurrence.

3.8 *Institution-Approved Budget.* An annual budget shall be submitted to the Institution prior to the beginning of each fiscal year. Exhibit A, attached and incorporated herein by reference, is the approved annual budget for the base contract period. Said budget shall include a detailed listing of all the estimated expenses required to operate the property, including but not limited to Janitorial, Window Washing, Repair and Maintenance, Preventative Maintenance, Engineering, Interior Landscaping, Management Fees, Capital Improvements, Utilities, Insurance, Master Association Fees, Capital Reserves and any other customary operating expenses. Said budget shall not include any expenses relating to the leasing of any of the space to be subleased, including commissions, as these items will fall outside of the scope of this Agreement and shall be covered by a separate agreement.

Manager shall submit, along with the budget, a projection of capital expenditures for the forthcoming Fiscal Year. After approval by the Institution in writing, budget shall be used by Manager as a guide for the actual operation of the Property and shall be subject to comparisons monthly. Manager agrees to obtain prior approval for any normal operating expenditure(s) which would cause any budget variance of Five Thousand Dollars (\$5,000) and over, per occasion in any budget year, except for emergencies. All expenses within the Institution-Approved Budget are to be borne by Institution, and it shall be the responsibility of the Institution, to make available sufficient funds to Manager to meet expenses anticipated in the Institution-Approved Budget.

3.9 *Operating Account.* Manager, serving as Agent for Institution, shall establish and maintain on behalf of Institution, a non-interest bearing operating account and, if necessary, an interest bearing reserve account. Said account(s) shall be opened in the name of Manager as trustee for Institution, and maintained in a federally insured bank or savings institution. All receipts and disbursements for the operation of the Property shall be handled through these account(s). Institution shall be responsible for providing funds to pay the Institution-approved cash requirements of the Property on a timely basis. Manager shall have no proprietary interest in Operating Account or reserve account, and all funds in these accounts shall at all times be the property of the Institution. All interest on the reserve account shall accrue to Institution.

3.10 *Collections.* Manager shall make all reasonable steps to collect, and enforce the collection of, all payments and other charges due Institution for tenants of the Property in accordance with the terms of their tenancies and state and federal law.

3.11 *Payment of Bills.* From the Operating and/or Reserve Account(s), Manager is hereby authorized to pay or reimburse itself for all Institution's expenses and costs of operating the Property, including property taxes, Institution's insurance premiums,

mortgage indebtedness, and for all other sums due Manager under this Agreement, including Manager's compensation under Section 2.1.

Institution shall give Manager advance written notice of at least seven (7) days if Institution desires Manager to make any additional monthly or recurring payments out of the proceeds from the Property. Any advance of funds by Manager must have prior approval by Institution.

In the event that the balance in the Operating and/or Reserve Account(s) is at any time insufficient to pay disbursements due and payable under Article II, Manager shall notify Institution of the deficiency. Manager shall give at least fifteen (15) days written notice to Institution of any funds required for deficiency and contingency reserve. Institution shall, immediately upon notice, remit to Manager sufficient funds to cover the deficiency and replenish the contingency reserve. In no event shall Manager be required to use its own funds to pay such disbursements, nor shall Manager be required to advance any monies to Institution or to bank accounts maintained by Manager on behalf of Institution. Manager shall pay, with all available Institution's funds, invoices in order of invoice date with the oldest taking the highest priority.

If Institution requests in writing and Manager elects to advance any money, only pursuant to a written agreement signed by both parties, in connection with the Property to pay any expenses for Institution, such advance shall be a loan subject to repayment with interest at an annual rate equal to the prevailing prime rate plus one and one-half percent (1.5%), calculated on a daily basis, and Institution hereby authorizes Manager to deduct such amounts from any monies due Institution.

Any balance existing in the Operating Account at the termination of this Agreement shall be returned to the Institution within thirty (30) days of termination, and the Institution agrees to pay expenses incurred during the term of the Agreement but which have not been received thirty (30) days after termination of the Agreement.

3.12 *Books, Records and Reports.* Manager shall establish and maintain an accounting and management reporting system that will duly account for all transactions relating to the Property.

On or before the thirtieth (30th) day of each month, Manager shall provide to Institution a report of the Property's operations for the preceding month, including:

- A detailed and itemized statement of all sources and uses of funds in a format satisfactory to Institution and Manager.
- A statement of ending balances in all trust accounts.
- General comments regarding the Property's operation and any requirements by Manager for the Institution, such as payments to cover unexpected expenses.

For a period of three (3) years following completion of the services called for hereunder, Institution or its authorized representatives shall at all reasonable times have access to the accounting records, books and other records of the Manager, in order to audit all charges for the services as they relate to the Property. Manager shall keep Institution notified in writing of the location of all such records. Institution shall have the right to audit said records and books at Institution's expense.

All original reports and documents are to be retained in Manager's possession. Copies, as required, will be made available to the Institution. Manager will retain said records for a period of three (3) years, or as required by law, after which time the records shall be transferred to Institution. At the termination of this agreement all records, except those required by law to be retained by Manager, shall be returned to Institution for retention.

3.13 *Use and Maintenance of Premises.* Manager agrees not to knowingly permit the use of the Property for any purpose which might void any policy of insurance relating to the Property or which might render any loss there under uncollectible, or which would be in violation of any government restriction.

3.14 *Parking Garage.* Manager agrees to assume a lead role on behalf of the tenants in addressing building parking garage safety issues and needs through the parking garage owner and operator. In addition the Manager agrees to seek parking alternatives for tenants as may be warranted from time to time.

3.15 *Local Communications.* Manager agrees to maintain regular communications with institution local personnel keeping the Operations Coordinator/Events Manager apprised of operational, scheduling, parking and other matters that may impact institutional operations and employees.

## ARTICLE IV

### INSURANCE AND INDEMNIFICATION

#### 4.1 *Insurance*

4.1.1 *General Requirements.* Manager is required to carry the types and limits of insurance shown in this insurance clause, section 4.1.2, and to provide Institution with a Certificate of Insurance ("certificate"). Certificates shall be provided within seven (7) days of the signing of the contract by the Manager. Certificates shall be executed by a duly authorized representative of each insurer, showing compliance with the insurance requirements set forth below. All certificates shall provide for thirty (30) days' written notice to Institution prior to cancellation, non-renewal, or other material change of any insurance referred to therein as evidenced by return receipt of United States certified mail. Said certificates shall evidence compliance with all provisions of this section.

Additionally and at its option, Institution may request certified copies of required policies and endorsements. Such copies shall be provided within (10) ten days of the Institution's request.

All insurance required hereunder shall be maintained in full force and effect with insurers with Best's rating of AV or better and be licensed and admitted in Idaho. All policies required shall be written as primary policies and not contributing to nor in excess of any coverage Institution may choose to maintain. Failure to maintain the required insurance may result in termination of this Agreement at Institution's option.

All policies shall name Institution as Additional Insured. On the certificate, the Institution shall be stated as: "State of Idaho and The Regents of the University of Idaho". Certificates shall be mailed to: University of Idaho, Risk Management, 875 Perimeter Drive, MS 3162, Moscow, ID 83844-3162.

Failure of Institution to demand such certificate or other evidence of full compliance with these insurance requirements or failure of Institution to identify a deficiency from evidence that is provided shall not be construed as a waiver of Manager's obligation to maintain such insurance.

No Representation of Coverage Adequacy. By requiring insurance herein, Institution does not represent that coverage and limits will necessarily be adequate to protect Manager, and such coverage and limits shall not be deemed as a limitation on Manager's liability under the indemnities granted to Institution in this section.

4.1.2 *Required Insurance Coverage.* Manager shall at its own expense obtain and maintain:

4.1.2.1 *Commercial General and Umbrella / Excess Liability Insurance.* Manager shall maintain Commercial General Liability ("CGL") written on an occurrence basis and with a limit of not less than \$1,000,000 each occurrence and in the aggregate. If such CGL insurance contains a general aggregate limit, it shall apply separately by location and shall not be less than \$1,000,000. CGL insurance shall be written on standard ISO occurrence form (or a substitute form providing equivalent coverage) and shall cover liability arising from premises, operations, independent contractors, products-completed operations, personal injury and advertising injury, and liability assumed under a Manager contract including the tort liability of another assumed in a business contract. Waiver of subrogation language shall be included. If necessary to provide the required limits, the Commercial General Liability policy's limits may be layered with a Commercial Umbrella or Excess Liability policy.

4.1.2.2 *Commercial Auto Insurance.* For any corporate vehicles in use, Manager shall maintain a Commercial Auto policy with a Combined Single Limit of not less than \$1,000,000; Underinsured and Uninsured Motorists limit of not less than \$1,000,000; Comprehensive; Collision; and a Medical Payments limit of not less than

\$10,000. Coverage shall include Non-Owned and Hired Car coverage. Waiver of subrogation language shall be included.

4.1.2.3 *Personal property.* Manager shall purchase insurance to cover Manager's personal property. In no event shall Institution be liable for any damage to or loss of personal property sustained by Manager, even if such loss is caused by the negligence of Institution, its employees, officers or agents. Waiver of subrogation language shall be included.

4.1.2.4 *Workers' Compensation.* Manager shall maintain all coverage statutorily required of the Manager, and coverage shall be in accordance with the laws of Idaho. Manager shall maintain Employer's Liability with limits of not less than \$100,000 / \$500,000 / \$100,000.

4.1.2.5 *Professional Liability.* If available generally to members of the Manager's profession, Manager shall maintain Professional Liability (Errors & Omissions) insurance on a claims made basis, covering claims made during the policy period and reported within three years of the date of occurrence. Limits of liability shall be not less than one million dollars (\$1,000,000).

4.2 *Indemnification and Hold Harmless.* Manager shall indemnify, defend and hold harmless the State of Idaho, and Institution and its governing board, employees, agents, and assigns, from and against any and all claims, losses, damages, injuries, liabilities and all costs, including attorneys fees, court costs and expenses and liabilities incurred in or from any such claim, arising from any breach or default in the performance of any obligation on Manager's part to be performed under the terms of this Agreement, or arising from any act, negligence or the failure to act of Manager, or any of its agents, contractors, employees, invitees or guests.

Subject to the limits of liability specified in Idaho Code 6-901 through 6-929, known as the Idaho Tort Claims Act, the University shall indemnify and hold harmless Manager, its agents, and employees, from and/or against any and all claims, damages, and liabilities (including reasonable attorney's fees) that may be suffered or incurred and that arise as a direct result of and which are caused by the University's possession, operations, or performance under this agreement. This indemnification does not apply when such claims, damages, and liabilities are the result of negligent acts, errors, omissions or fault on the part of Manager, its agents or assigns, or when the claim or suit is made against Manager by the University, the State of Idaho, or any of its agencies. Manager shall promptly notify the University of Idaho, Attn: Risk Management Officer, 875 Perimeter Dr., MS 3162, Moscow, Idaho 83844-3162, of any such claim of which it has knowledge and shall cooperate fully with the University or its representatives in the defense of the same. The University's liability coverage is provided through a self-funded liability program administered by the State of Idaho Office of Insurance Management. Limits of liability, and this indemnification, are \$500,000 Combined Single Limits, which amount is the University's limit of liability under the Idaho Tort Claims Act.

## ARTICLE V

## TERMINATION

5.1 *Termination of Contract.* Notwithstanding the provisions of Article I above to the contrary, either party may terminate this Agreement at any time at its election, provided only that at least sixty (60) days written notice of such termination is given to the other party.

5.2 *Obligations Upon Termination.* Upon termination of this Agreement, for whatever reason, each party shall promptly pay to the other, as soon as the same is determinable after the effective date of termination, all amounts due such other party under the terms of this Agreement, and upon such payment neither party shall have any further claim or right against the other, except as expressly provided hereinafter.

Upon termination for whatever cause, Manager shall, not later than the effective date of termination, deliver to the Institution, copies of documents in its possession necessary or desirable for the operation of the property, including but not limited to: all books, permits, plans, records, licenses, contracts and other documents pertaining to the Property and its operation, all insurance policies, bills of sale, or other documents evidencing title or rights of the Institution.

All personal property of Institution, whether on the premises of the Property or elsewhere, shall be delivered intact to Institution or Institution's representative. The Operating Account provided for in Section 3.9 hereof will be transferred as directed by the Institution. Manager further agrees to do all other things reasonably necessary to cause an orderly transition of the management of the Property without detriment to the rights of the Institution or to the continued management of the Property.

## ARTICLE VI

## MISCELLANEOUS PROVISIONS

6.1 *Headings.* The headings used herein are for purposes of convenience only and should not be used in constructing the provisions hereof.

6.2 *Notice.* Any notice under this Agreement shall be in writing and be delivered in person or by public or private courier service (including U.S. Postal Service Express Mail) or certified mail with return receipt requested or by facsimile. All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing:

To the Institution: Vice President for Finance and Administration  
University of Idaho  
875 Perimeter Dr., MS 3168

Moscow, ID 83844-3168  
Phone: (208) 885-6174  
Fax: (208) 885-5504

with copies to:

Assistant Vice President, Facilities  
University of Idaho  
875 Perimeter Dr. MS 2281  
Moscow, ID 83843-2281  
Phone: (208) 885-6246  
Fax: (208) 885-9333

and

Associate Vice President & CEO  
University of Idaho  
322 East Front Street; Suite #350  
Boise, ID 83702  
Phone: (208)364-4002  
Phone: (208) 364-4041 (direct line)  
Fax: (208) 364-4084

To Manager: Oppenheimer Development Corporation  
877 W. Main St., Suite 700  
Boise, Idaho 83702

Any notice shall be deemed to have been given on the earlier of: (a) actual delivery or refusal to accept delivery, (b) the date of mailing by certified mail, or (c) the day facsimile delivery is verified. Actual notice, however and from whomever received, shall always be effective.

6.3 *Relationship of the Parties.* It is expressly understood that Manager is an independent contractor and not the partner, or employee of Institution. Manager and Manager's workers are not employees of Institution and are not entitled to tax withholding, Workers' Compensation, unemployment compensation, or any employee benefits, statutory or otherwise. The relationship between the parties is that of principal and agent, and Manager is governed under the regulations promulgated by the Idaho Real Estate Commission.

6.4 *Covenant of Further Assurances.* The parties hereby agree to execute such other documents and perform such other acts as may be necessary or desirable to carry out the purposes of this Agreement.

6.5. *Confidentiality of Information.*

6.5.1 Manager agrees to keep confidential and not to disclose to third parties any information provided by Institution pursuant to or learned by Manager during the course of this Agreement unless Manager has received the prior written consent of Institution to make such disclosure. This obligation of confidentiality does not extend to any information that:

6.5.1.1 Was in the possession of Manager at the time of disclosure by Institution, directly or indirectly;

6.5.1.2 Is or shall become, through no fault of Manager, available to the general public, or

6.5.1.3 Is independently developed and hereafter supplied to Manager by a third party without restriction or disclosure.

6.5.2 This provision shall survive expiration and termination of this Agreement.

6.6 *Entire Agreement.* This document represents the entire agreement between the parties with respect to the subject matter hereof, and to the extent inconsistent therewith, supersedes all other prior agreements, representations, and covenants, oral or written. Amendments to this Agreement must be in writing and signed by both parties.

6.7 *Assignment.* Institution shall have the right to assign at its discretion, this agreement and all its rights, duties and responsibilities to the entity or entities who either are owner-occupants in the Idaho Water Center or who are charged with managing the Water Center under the IWC Condominium Declaration. Manager may not assign the rights or delegate the obligations under this Agreement without Institution's prior written consent.

6.8 *Successors and Assigns.* Subject to the limitations concerning assignment, this Agreement shall be binding upon and inure to the benefit of the parties, their heirs, legal representatives and successors.

6.9 *Attorney Fees.* In the event of any controversy, claim or action being filed or instituted between the parties to this Agreement to enforce the terms and conditions of this Agreement or arising from the breach of any provision hereof, the prevailing party will be entitled to receive from the other party all costs, damages, and expenses, including reasonable attorneys' fees, incurred by the prevailing party, whether or not such controversy or claim is litigated or prosecuted to judgment. The prevailing party will be that party who was awarded judgment as a result of trial or arbitration, or who receives a payment of money from the other party in settlement of claims asserted by that party.

6.10 *Non-Waiver.* The delay or failure of either party to exercise any of its rights under this Agreement for a breach thereof shall not be deemed to be a waiver of such rights, nor shall the same be deemed to be a waiver of any subsequent breach, either of the same provision or otherwise.

6.11 *Representations and Warranties.* Manager represents and warrants the following: (a) that it is financially solvent, able to pay its debts as they mature, and possessed of sufficient working capital to provide the equipment and goods, complete the services, and perform its obligations hereunder; (b) that it is able to furnish any of the plant, tools, materials, supplies, equipment, and labor required to complete the services required hereunder and perform all of its obligations hereunder and has sufficient experience and competence to do so; (c) that it is authorized to do business in Idaho, properly licensed by all necessary governmental and public and quasi-public authorities having jurisdiction over it and the services, equipment, and goods required hereunder, and has or will obtain all licenses and permits required by law; (d) that in performing the services called for hereunder Manager will not be in breach of any agreement with a third party; and (e) that it has familiarized itself with the local conditions under which this agreement is to be performed.

6.12 *Compliance with Rules, Regulations, and Instructions.* Manager shall follow and comply with all rules and regulations of the Institution and the reasonable instructions of Institution personnel. The Institution reserves the right to require the removal of any worker it deems unsatisfactory for any reason. Manager shall comply with all local, state and federal laws in its performance of this agreement.

6.13 *Time of the Essence.* Time is of the essence of this Agreement.

6.14 *Governing Law.* This Agreement shall be governed by and construed in accordance with the laws of the State of Idaho.

6.15 *Severability.* Every provision of this Agreement is intended to be severable. If any term or provision hereof is illegal for any reason whatsoever, such provision shall be severed from the Agreement and shall not affect the validity of the remainder of this Agreement.

6.16 *Appropriations clause.* The Institution's obligations and liabilities are subject to the appropriation of funds from the state of Idaho, which appropriation shall be in the state of Idaho's sole discretion, from revenues legally available to the Institution for the ensuing fiscal year(s) for the purposes of this Agreement. If the state of Idaho does not appropriate the funds for the purpose of this Agreement, the Agreement shall not renew and shall terminate and neither party shall have any further obligations hereunder

6.17 *Authority.* Institution and Manager hereby certify that each is duly authorized to execute the foregoing Agreement and that the Agreement, when so executed, will be binding upon the Institution and Manager in accordance with its terms and no further authorization is required.

IN WITNESS WHEREOF, the parties hereto have caused this instrument to be executed as of the day and year first above written.

Idaho Established Program to Stimulate Competitive Research (EPSCoR)  
Committee Appointments

**REFERENCE**

October 2014	Board appointed Dr. Todd Allen as the INL Representative to the Idaho EPSCoR Committee (Replacing Dr. Hill)
February 2015	Board appointed Senator Tippits to the Idaho EPSCoR Committee (Replacing Senator Goedde)
April 2015	Board appointed Dr. Cornelis J. Van der Schyf to the Idaho Established Program to Stimulate Competitive Research (replacing Dr. Howard Grimes)
October 2015	Board reappointed Representative Maxine Bell and Doyle Jacklin and appointed Gynii Gilliam and Senator Roy Lacey (replacing Doug Chadderdon and Senator Tippits, respectively)
June 2016	Board appointed Dr. Kelly Beierschmitt to the committee (replacing Todd Allen)
December 2016	Board reappointed Laird Noh, and appointed Dr. David Hill and Skip Oppenheimer to the committee.
April 2017	Board appointed Senator Nye to the committee, replacing Senator Lacey.
June 2017	Board reappointed David Tuthill and Leo Ray to the committee, both representing the private sector.
October 2018	Board appointed Dr. Harold Blackman (replacing Dr. Mark Rudin) and Dr. Todd Combs (replacing Dr. Kelly Beierschmitt).

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies and Procedures, Section III.W., Higher Education Research

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 1: EDUCATIONAL SYSTEM ALIGNMENT – Objective B: Alignment and Coordination

**BACKGROUND/DISCUSSION**

The Established Program to Stimulate Competitive Research (EPSCoR) represents a federal-state partnership to enhance the science and engineering research, education, and technology capabilities of states that traditionally have received smaller amounts of federal research and development funds. As a participating state, Idaho EPSCoR is subject to federal program requirements and policies established by the Idaho State Board of Education (Board). The purpose of EPSCoR is to build a high-quality, academic research base to advance science,

**CONSENT**  
**JUNE 20, 2019**

---

technology, engineering and mathematics (STEM) to stimulate sustainable improvements in research and development capacity and competitiveness.

Idaho EPSCoR is guided by a committee of sixteen (16) members appointed by the Board for five (5) year terms. The membership of this committee is constituted to provide for geographic, academic, business and state governmental representation as specified in Board Policy III.W. and includes the Vice Presidents of Research from the University of Idaho, Boise State University, and Idaho State University who serve as voting ex-officio members. Members are allowed to serve up to three (3) consecutive terms. Ex-officio members serve without terms.

The Idaho EPSCoR Committee is recommending the reappointment of both David Barnaby and Gynii Gilliam as private sector representatives.

**ATTACHMENTS**

- Attachment 1 – Current Committee Membership
- Attachment 2 – Letter of Interest, David Barneby
- Attachment 3 – Letter of Interest, Gynii Gilliam

**STAFF COMMENTS AND RECOMMENDATIONS**

Dr. Laird Noh, Chairman  
Idaho State EPSCoR Committee

Subject: EPSCoR  
Committee Member Reappointment

Dear Laird:

My term on the EPSCoR Committee expires this year. It would be an honor to serve another term on this committee.

Attached is my resume for your reference. Please let me know if you need any additional information from me.

Sincerely,

David G. Barneby  
3083 E. 3100 N  
Twin Falls, ID 83301

Attachment

## David G. Barneby

David Barneby is a retired utility executive with 35 years of experience in the power industry. Throughout his career he worked with fossil fired power plants, including four coal-fired plants. He received a Mechanical Engineering degree in 1967 from California State Polytechnic, San Luis Obispo, CA. Dave retired in Fall, 2001, and now resides in Twin Falls, Idaho.

### Volunteer Experience

- Currently completing second term as a member of the EPSCOR Idaho State Committee.
- Volunteered as a Fifth Judicial District Court Appointed Special Advocate from 2006 to 2016; handling 25 child protection cases involving and representing about 60 children.
- Served on the Cal Poly San Luis Obispo Dean of Engineering's Industry Advisory Board from 1993-1999.
- Served on the UNLV Dean of Engineering Industry Advisory Board from 1994 to 1999.

### Work Experience

**1999-2001** - Vice President Generation for Nevada Power Company (NPC) and Sierra Pacific Power Company. During this period, as directed by the NV. Public Utilities Commission and the Nevada Legislature, Sierra Pacific Resources sold several of its wholly owned generating facilities to independent generators for \$1.6 billion. In 2001, NV reversed its course and prohibited the sales.

**1998-1999** - Assigned as NPC's merger integration leader, working with a Sierra Pacific Resources (SPR) counterpart, to plan and implement the successful integration of two merging utility companies. Later, between 1999 and 2001, performed integration planning duties for the attempted acquisition by SPR of Portland General Electric Co.

**1993-1999** - Vice President, Power Delivery, NPC. Responsible for all power production engineering, operation, and construction. Also responsible for line department, substation department, and communication department activities, and fuel procurement and management.

**1989-1999** – Member of the Coordinating Committees managing 275 MW Reid Gardner #4, 550 MW Valmy Station, 2300 MW Navajo Station, and 1600 MW Mohave Station, all coal-fired plants.

**1989-1993** - Vice President, Power Supply, NPC. Responsible for power production engineering, operation, and construction. Also responsible for company environmental activities, fuel procurement and management, and power system dispatch, including short term power procurement activities.

**1983-1989** - Manager, Generation Engineering and Construction Dept., NPC. Responsible for all engineering, large contracted maintenance projects, and construction activities on NPC generating facilities.

**1974-76 & 1983-89** – Member of the Engineering and Operating Committees, Mohave Station and Navajo Station. Served as NPC's owner representative on these coal fired joint ownership projects' steering committees.

- 1979-1983** - Project Manager, Engineering, Construction, and Startup of Reid Gardner #4, a 275 MW, \$316 million coal fired unit built with the California Department of Water Resources as partner. This was a fast track project, with an urgent need for timely 1983 completion because of expiring power supply contracts held by the State of California.
- 1976-1979** - Plant Superintendent, Reid Gardner Station. Responsible for the on site management of a three unit, 375 MW coal fired generating plant with flue gas scrubbing at Moapa, NV.
- 1974-1976** - Mechanical Engineer, NPC. Duties included project engineering and management of the construction and startup of Reid Gardner #3.
- 1971-1974** - Associate Mechanical Engineer, NPC. Projects included project management duties on Clark #4 and project engineering duties on the retrofit of flue gas scrubbers onto Reid Gardner Units 1 & 2. Duties also included engineering on Reid Gardner #3, a new 125 MW coal fired with flue gas scrubbing.
- 1970-1971** - Assistant Mechanical Engineer, NPC. Projects included engineering on Clark #4, a 50 MW combustion turbine peaking unit. Also provided support to NPC Legal and Engineering Departments as Clark County enacted the most stringent coal fired power plant air pollution control regulations in the US at that time.
- 1967-1970** - US Army.  
US Army Corps of Engineers Officer Candidate School, Ft. Belvoir, VA., commissioned Second Lieutenant 1968.  
US Army, 1968 & 1969, attended Engineer Equipment Officer Course, then assigned as a Test Officer at US Armor and Engineer Board, Ft. Knox, KY.  
US Army 1969 and 1970, 20<sup>th</sup> Engineer Brigade, Phu Loi, S. Viet Nam. Commanded an asphalt batch plant and asphalt paving enhanced platoon, constructed roads and airfield facilities in the area N and W of Saigon. Performed road construction in 1970 in Cambodia during the incursion.
- 1967** - Junior Mechanical Engineer, NPC Generation Department. Performed engineering work and construction inspection duties on Reid Gardner #2, a 125 MW coal fired generating unit
- Summers 1965 & 1966** - Engineer in Training, Nevada Power Company (NPC), Las Vegas, NV. Power Plant testing assignments.

**Personal**

- Retired Oct. 1, 2001, moved to Twin Falls, ID. Currently operates a small farm, manages investments, and performs volunteer work.
- Married 1972-present, two adult daughters.

May 8, 2019

Dear Chairman Noh,

Thank you for the opportunity to extend my NSF EPSCoR committee term; I am very interested in staying on as a member of the committee.

As one of the economic development professionals in the state, my affiliation with NSF EPSCoR has been very beneficial both for my organization and our state professional organization. As an industry, we value our critical partnership with higher education –the talent from universities help drive our economy. We also know that university activity, including R&D, can be a leading factor in a community's and our state's success in economic development. Having first-hand and direct knowledge of some of the key R&D our universities are engaged in has allowed me to share the information with not only my colleagues statewide through the Idaho Economic Development Association, but also nationally through the International Economic Development Corporation. I also hope that my perspective as an economic development professional contributes to the variety of views that we bring to the committee. Moreover, as we lean more and more towards developing a knowledge-based economy in the state, it's imperative that we're aware of what's happening in our universities.

On a personal note, I love the sciences. Up to my junior year at UCLA, I was a biology and chemistry major. I switched to political science and economics, when I got an internship with a consulting firm working in the field of economic development. I still enjoy reading about recent developments in chemistry, physics, space exploration and any field of science and technology. Being a part of the NSF EPSCoR committee allows me to stay connected with this personal interest, in addition to the professional benefits.

I look forward to continuing to serve on the committee. I've attached a short bio to this letter. However, if you need a more comprehensive copy of my resume, I'd be happy to forward it to you.

Thank you,

Ms. Gynii Abracosa Gilliam  
President & CEO  
Coeur d'Alene Area Economic Development Corporation/Jobs Plus, Inc.

## Coeur d'Alene Area Economic Development Corporation

210 Sherman Avenue, Suite 206 – Coeur d'Alene, Idaho 83814

**Gynii Abracosa Gilliam** is the President and CEO of the Coeur d'Alene Area Economic Development Corporation (CdAEDC/Jobs Plus, Inc.). She is charged with helping create healthy communities in the North Idaho region by diversifying the economy, helping businesses create jobs, and empowering its citizens with quality jobs. She joined CdAEDC in March of 2015, and since then has led the local team that has helped businesses bring over 2000 direct jobs and over \$150M in capital investment to the county.

Prior to joining CdAEDC, she served as the chief economic development officer for the Idaho Department of Commerce, President of the Bannock Development Corporation, and the Executive Director of the Salmon/Lemhi Economic Development Organizations. Gynii has over 25 years of experience in the field, in both the private and public sectors –from rural communities of 500 to urban centers, like Los Angeles and Detroit.

Gynii was a Graduate Fellow at the University of Michigan where she received her Master in Urban and Regional Planning, and a California State Scholar at UCLA where she received her Bachelor of Arts in Political Science. Gynii has two sons, Jonathan, an architect in Los Angeles; and Michael an ER Nurse in Boise.

**SUBJECT**

State General Education Committee Appointments

**REFERENCE**

October 2014	The Board approved membership of the General Education Committee.
June 2016	The Board appointed Jana McCurdy (CWI), Dr. Margaret Johnson (ISU), and Kenton Bird (UI) to the General Education Committee.
December 2016	The Board appointed Dr. Joanne Togle (ISU) and John Bieter (BSU) to the General Education Committee.
August 2017	The Board appointed Lori Barber, representing EITC, to the General Education Committee.
October 2017	The Board appointed Cher Hendricks, representing UI, to the General Education Committee.
April 2019	The Board appointed Dean Panttaja, representing the UI, and Whitney Smith-Schuler, representing CSI, to the General Education Committee.

**APPLICABLE STATUTE, RULE, OR POLICY**

Governing Policies and Procedures section III.N. General Education

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT: Objective A: Data Access and Transparency.

**BACKGROUND/DISCUSSION**

Consistent with Board Policy III.N, the state General Education Committee is responsible for reviewing the competencies and rubrics of the general education framework for each institution to ensure its alignment with the Association of American Colleges and Universities (AAC&U) Essential Learning Outcomes. Board Policy III.N also provides that faculty discipline groups have ongoing responsibilities for ensuring consistency and relevance of General Education competencies related to their discipline. The General Education Committee consists of a representative from each Idaho public postsecondary institution appointed by the Board; a representative from the Division of Career Technical Education, as an ex officio member; a representative from the Idaho Registrars Council; and the Office of the State Board of Education's Chief Academic Officer, who serves as chair to the committee.

The College of Western Idaho (CWI) has forwarded the name of Greg Wilson for consideration to replace Jana McCurdy who is transitioning to a full-time faculty position at CWI.

**IMPACT**

The proposed appointment replaces CWI's representative on the Committee.

**CONSENT  
JUNE 20, 2019**

---

**ATTACHMENTS**

Attachment 1 – Current General Education Committee Membership

**STAFF COMMENTS AND RECOMMENDATIONS**

Mr. Greg Wilson earned a Bachelor of Arts in English from the University of Idaho, a Masters in Theology from Dallas Theological Seminary, and an Master of Arts in English from the University of Dallas. He spent the next 10 years teaching English and Theology in Nigeria, before moving back to Boise where he grew up. Over the last 10 years, he taught at a local high school, The Ambrose School, as well as teaching as an adjunct at Boise State University and the College of Western Idaho. In 2013, he was hired as a full-time lecturer for the Multidisciplinary Studies Program at Boise State University, where he also headed up their program assessment and review team. Starting in August of 2019, Mr. Wilson will be the General Education Coordinator for the College of Western Idaho and will be taking over responsibilities on the State General Education Committee for Jana McCurdy.

Board staff recommends approval.

**BOARD ACTION**

I move to appoint Mr. Greg Wilson, representing the College of Western Idaho to the General Education Committee, effective immediately.

**IDAHO WWAMI MEDICAL EDUCATION PROGRAM/UNIVERSITY OF WASHINGTON  
SCHOOL OF MEDICINE**

**SUBJECT**

WWAMI Admissions Committee Appointments

**REFERENCE**

June 18, 2015	The Board approved the three-year appointment of Dr. Lance Hansen, renewable once for an additional three years.
April 20, 2017	The Board confirmed proposed WWAMI Admissions Committee members, Dr. Robert McFarland and Dr. Jennifer Gray to serve a three-year term, renewable once for an additional three years.
February 15, 2018	The Board confirmed proposed WWAMI Admissions Committee member, Dr. Cyndi Robison Hayes to serve a three-year term, renewable once for an additional three years.

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 4: WORKFORCE READINESS – Objectives A: Workforce Alignment; and Objective B: Medical Education.

**BACKGROUND/DISCUSSION**

The Idaho WWAMI Admissions Committee consists of Idaho physicians who interview Idaho applicants interested in attending the University of Washington School of Medicine. The members of the Idaho WWAMI Admissions Committee serve three-year terms which are renewable once for an additional three years. The terms of the members are staggered so there are always senior members on the committee. Idaho physicians currently serving on the committee are: Lance Hansen, MD, Family Physician of Montpelier, Robert McFarland, MD, Family Physician of Coeur d'Alene, Jennifer Gray, MD, Family Physician of McCall, and Cyndi Robison Hayes, MD, (OB/GYN) of Boise.

During the 2019 interview season Idaho WWAMI interviewed a significant number of applicants, and this workload volume has inundated the four members currently serving on the Idaho Admissions Committee. To address the increasing work demands, associated with reviewing and interviewing a growing applicant pool, WWAMI has requested three additional committee positions be provided. This would expand the committee size from four to seven members. The Idaho WWAMI Admissions Oversight Nominating Committee has identified three outstanding Idaho physicians to serve on the Committee for the University of Washington School of Medicine.

**CONSENT**  
**JUNE 20, 2019**

---

The Idaho Admissions Oversight Nominating Committee, (consisting of the first-year Idaho WWAMI Director, an Idaho WWAMI Assistant Clinical Dean, Idaho State Board of Education Chief Academic Officer, the Idaho Admissions Committee Chair and a member of the Idaho Medical Association Committee on Medical Education Affairs) reviewed the applications of Haley Minnehan, MD, Family Physician from Cottonwood, Erich Garland, MD, Neurologist from Idaho Falls, and John Hatzenbeuhler, MD, Family Physician from Hailey. Factors taken into consideration included, but were not limited to, geographic diversity and strong representation by primary care. The committee unanimously supports the appointment of these three individuals to serve on the Idaho WWAMI Admissions Committee. See attachments 1-4.

**IMPACT**

Admissions interviews take place in Idaho during the January – March time period of each year. New members of the committee must be in place by July 2019 to allow adequate time to orient and train prior to the beginning of interview season in January, 2020. The expansion of the committee will allow for a more thorough and efficient applicant review process.

**ATTACHMENTS**

- Attachment 1 - Current Idaho WWAMI Admission Committee
- Attachment 2 - Nomination Packet Haley Minnehan, MD
- Attachment 3 - Nomination Packet Erich Garland, MD
- Attachment 4 - Nomination Packet John Hatzenbeuhler, MD

**STAFF COMMENTS AND RECOMMENDATIONS**

Staff recommends approval for the expansion of the Idaho WWAMI/University of Washington School of medicine from four to seven members. Staff also recommends approval of the individuals nominated to serve on the committee.

**BOARD ACTION**

I move to approve the request by Idaho WWAMI/University of Washington School of Medicine to increase the committee from four to seven-members.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

AND

I move to appoint Haley Minnehan, MD, Erich Garland, MD, and John Hatzenbeuhler, MD, to the Idaho WWAMI Admissions Committee for a term of three years, effective July 1, 2019, ending June 30, 2020.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

April 12, 2019

Matt Freeman  
Executive Director  
Idaho State Board of Education  
650 W. State Street  
P.O. Box 83720  
Boise, ID 83720-0037

Dear Mr. Freeman,

I am writing on behalf of The Idaho WWAMI Admissions Oversight Nominating Committee, which has identified the following three outstanding Idaho physicians to serve on the Idaho WWAMI Admissions Committee for the University of Washington School of Medicine. During the 2019 interview season, Idaho WWAMI interviewed a record number of 102 applicants, and this workload volume has overwhelmed our current 4-member Idaho Admissions committee. For this reason, the Nominating Committee seeks to add three more members to the Admissions Committee starting in July 2019.

These proposed new members will serve three-year terms from July 2019 to June 2022 with optional second terms from July 2022 through June 2025. Each candidate's CV is attached for your review.

1. Haley Minnehan, MD, Family Physician practicing in Cottonwood, Idaho.
2. Erich Garland, MD, Neurologist practicing in Idaho Falls and Blackfoot, Idaho.
3. John Hatzenbuehler, MD, Family Physician practicing in Hailey, Idaho.

Thank you for your support of the Idaho Admissions Oversight Nominating Committee and Idaho WWAMI. Please feel free to contact me with any questions.

Sincerely,

Mary E. Barinaga, MD, FAAFP  
Member, Idaho WWAMI Admissions Oversight Committee

**CONSENT  
JUNE 20, 2019**

---

**UNIVERSITY OF IDAHO**

**SUBJECT**

Discontinuation of the Masters of Science in Metallurgy, College of Engineering

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section III.G.

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 1, Educational System Alignment, Objective A: Support data-informed decision-making and transparency through analysis and accessibility of our public K-20 educational system.

**BACKGROUND/DISCUSSION**

The University of Idaho, College of Engineering is requesting to discontinue the Masters of Science in Metallurgy. Data indicates this program has had no student enrolled in the last five years and there is no market demand for this program. There have been no students in the program since before 2007; therefore, no teach-out plans will be necessary. The Master of Science in Metallurgical Engineering under the Material Science and Engineering program will continue to be offered as an alternate option for students.

**IMPACT**

There is no fiscal impact due to the discontinuation of the degree program. Courses will continue to be taught and no faculty or staff will be impacted. There is no operating or other budget line items connected with this program.

**ATTACHMENTS**

Attachment 1 –Proposal, Masters of Science in Metallurgy

**STAFF COMMENTS AND RECOMMENDATIONS**

Board Policy III.G.3.c.i (3) requires Board approval of any graduate program discontinuation regardless of fiscal impact, prior to implementation. The Council on Academic Affairs and Programs as well as Board staff reviewed the proposed program discontinuation and recommends Board approval.

**BOARD ACTION**

I move to approve the request by the University of Idaho to discontinue the Master of Science in Metallurgy as presented in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**CONSENT  
JUNE 19, 2019**

**1. Provide rationale for the discontinuance.**

There have been no students in the program since before 2007—before the merger of MSE with ChE.

**2. Teach-out Plans/Options for currently enrolled students.**

- a. Describe teach-out plans for continuing students. Indicate the year and semester in which the last cohort of students was admitted and the final term the college will offer the program.

None. There are no students.

- b. Is there an alternative program/major or field of study? If so, please describe.

Yes; MS Metallurgical Engineering which is currently offered from the Materials Science and Engineering Program in the Chemical and Materials Engineering Department and will continue.

- c. How will continuing students be advised of impending changes and consulted about options or alternatives for attaining their educational goals?

N/A

**3. Identify similar programs offered by other public colleges/universities (Not applicable to PTE programs).**

Similar Programs offered by other Idaho institutions and by institutions in nearby states		
Institution Name	Degree name and Level	Program Name and brief description if warranted
University of Utah	Master of Science (M.S.)	<p><b>Metallurgical Engineering.</b></p> <p>Area of emphasis: Mineral Processing, hydrometallurgy, pyrometallurgy, physical metallurgy, synthesis and processing of advanced materials.</p>

**CONSENT  
JUNE 19, 2019**

4. Using the chart below, provide enrollments and numbers of graduates for similar existing programs at your institution and other Idaho public institutions. N/A

**IDAHO DIVISION OF VOCATIONAL REHABILITATION**

**SUBJECT**

Idaho State Rehabilitation Council (Council) Appointments

**REFERENCE**

December 2016	Board appointed Robert Atkins to the Council as a representative for business/industry and labor for a term of three years.
April 2017	Board appointed two new members to the Council and re-appointed three current members to the Council.
June 2017	Board appointed Joe Anderson to the Council for a three-year term.
April 2018	Board reappointed Mike Hauser and Suzette Whiting to the Council and appointed Sara Tueller to the Council.
June 2018	Board appointed two members to the Council.
August 2018	Board appointed Dwight Johnson and reappointed a Mel Leviton to the Council.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section IV.G.  
Federal Regulations 34 CFR § 361.

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 3: Educational Attainment, Objective C: Access

**BACKGROUND/DISCUSSION**

Federal regulations (34 CFR §361.17) set out the requirements for the State Rehabilitation Council, including the appointment and composition of the Council.

The members of the Council must be appointed by the Governor or, in the case of a state that, under State law, vests authority for the administration to an entity other than the Governor, the chief officer of that entity. Section 33-2303, Idaho code designates the State Board for Career-Technical Education as that entity.

Further federal regulations establish that the Council must be composed of at least fifteen (15) members, including:

- i. At least one representative of the Statewide Independent Living Council, who must be the chairperson or other designee of the Statewide Independent Living Council;
- ii. At least one representative of a parent training and information center established pursuant to section 682(a) of the Individuals with Disabilities Education Act;

**CONSENT**  
**JUNE 20, 2019**

---

- iii. At least one representative of the Client Assistance Program established under 34 CFR part 370, who must be the director of or other individual recommended by the Client Assistance Program;
- iv. At least one qualified vocational rehabilitation counselor with knowledge of and experience with vocational rehabilitation programs who serves as an ex officio, nonvoting member of the Council if employed by the designated state agency;
- v. At least one representative of community rehabilitation program service providers;
- vi. Four representatives of business, industry, and labor;
- vii. Representatives of disability groups that include a cross section of: (A) Individuals with physical, cognitive, sensory, and mental disabilities; and (B) representatives of individuals with disabilities who have difficulty representing themselves or are unable due to their disabilities to represent themselves;
- viii. Current or former applicants for, or recipients of, vocational rehabilitation services;
- ix. In a state in which one or more projects are carried out under section 121 of the Act (American Indian Vocational Rehabilitation Services), at least one representative of the directors of the projects;
- x. At least one representative of the state educational agency responsible for the public education of students with disabilities who are eligible to receive services under this part and part B of the Individuals with Disabilities Education Act;
- xi. At least one representative of the state workforce investment board; and
- xii. The director of the designated state unit as an ex officio, nonvoting member of the Council.

Additionally, Federal regulations specify that a majority of the council members must be individuals with disabilities who meet the requirements of 34 CFR §361.5(b)(29) and are not employed by the designated State unit. Members are appointed for a term of no more than three (3) years, and each member of the Council, may serve for not more than two consecutive full terms. A member appointed to fill a vacancy occurring prior to the end of the term must be appointed for the remainder of the predecessor's term. A vacancy in membership of the Council must be filled in the same manner as the original appointment, except the appointing authority may delegate the authority to fill that vacancy to the remaining members of the Council after making the original appointment.

The Council currently has three (3) appointments for Board approval: The Council would like to nominate Danielle Reff as a representative of a Former Applicant or Recipient of VR services. She will be completing the term of Joe Anderson who resigned from the Council. The Council would also nominate David Maxwell as a representative for the category of Disability Groups. Dina Flores-Brewer is resigning from the Council as the Client Assistant Program

**CONSENT**  
**JUNE 20, 2019**

---

Representative effective July 11, 2019, and the council would like to nominate Angie Eandi as the new Client Assistant Program (CAP) representative. Suzette Whiting is stepping down as a representative of the council for a Vocational Rehabilitation Counselor position, effective April 11<sup>th</sup>, 2019.

**IMPACT**

The above three (3) appointments and two (2) resignations will bring the Council membership to a total of seventeen (17). Minimum composition for the council is 15 members.

**ATTACHMENTS**

Attachment 1 - Current Council Membership

**STAFF COMMENTS AND RECOMMENDATIONS**

The requested appointments and reappointments meet the provisions of Board policy IV.G. State Rehabilitation Council, and the applicable federal regulations.

Staff recommends approval.

**BOARD ACTION**

I move to approve the appointment of Danielle Reff to the State Rehabilitation Council as a representative for a Former Applicant or Recipient of VR services to complete the term vacated by Joe Anderson which ends May 31, 2020.

April 2010	Board approved second reading of Board Policy III.AA, creating the Accountability Oversight Committee
April 2016	Board approved second reading of proposed amendments to Board Policy I.Q. to revise the Accountability Oversight Committee membership by adding a fifth at-large member who has a background in special education.
June 2016	Board approved the second reading of proposed amendments to Board Policy I.Q. removing the requirement that the committee chair be an at-large member.
June 2017	Board approved reappointment of John Goedde and Jackie Thomason.
June 2018	Board approved reappointment of Julian Duffey, Rob Sauer, and Roger Stewart.
August 2018	Board approved appointment of Jodie Mills to complete Jackie Thomason's term.
October 2018	Board approved second reading of proposed amendments to Board Policy I.Q. adding two (2) members to the committee and designating representation.
October 2018	Board approved appointment of Anne Ritter as an at-large member of the committee.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.Q.  
Accountability Oversight Committee

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT: Data Access and Transparency  
GOAL 3: EDUCATIONAL ATTAINMENT: Objective A: Higher Level of Educational Attainment

**BACKGROUND/DISCUSSION**

The Board's Accountability Oversight Committee (committee) was established in April 2010 as an ad-hoc committee of the Idaho State Board of Education. The committee is charged with providing "recommendations to the Board on the effectiveness of the statewide student achievement system and make recommendations on improvements and/or changes as needed." Board Policy I.Q., Accountability Oversight Committee, outlines the membership and responsibilities of the committee. The committee consists of:

**CONSENT**  
**JUNE 20, 2019**

---

- Two Board members
- The Superintendent of Public Instruction (or designee)
- One member with special education experience
- One member with experience serving in a school district with a focus on assessment and accountability
- One member with experience as a district superintendent
- One member with experience as a school principal or charter school administrator
- One person with experience working with student achievement assessments and data
- Two members at-large.

The committee currently has a vacancy for a member with experience as a school principal or charter school administrator. To fill this vacancy, the committee sought nominations from committee members and stakeholder groups. At their May 7, 2019 meeting, the committee reviewed resumes of four potential members. The committee voted to recommend Laurie Lee Copmann to fill the current vacancy. Laurie Lee Copmann has twenty years of experience as a building-level administrator. She is currently the Assistant Principal of Minico High School in Rupert, Idaho. Laurie previously served as the Principal of Rupert Elementary for twelve years and the Principal of Declo and Albion Elementary School for two years. Prior to serving in school administration, Laurie was a teacher, counselor, and district drug education coordinator. Laurie Lee Copmann has a Bachelor of Arts in Elementary Education from Idaho State University, a Master in Education in School Administration from Azusa Pacific University, and a Master of Arts in Pupil Personnel Services and Counseling from Azusa Pacific University. Her resume is provided as Attachment 2.

John Goedde has served on the committee as an at-large member since the committee's inception. His current appointment ends June 30, 2019. Board staff notified stakeholder groups of the vacancy, and received no nominations for this position. The committee has recommended John Goedde for reappointment. John is a former State Senator with a long history of civic engagement. He represented District 3 in the State Legislature from 2000 to 2002 and District 4 from 2002 to 2014. John Goedde was the Chair of the Senate Education Committee for ten years, from 2004 to 2014. He was also the Vice Chair of the State Legislature's Education Committee for the National Conference of State Legislatures from 2007 to 2010. Prior to serving in the legislature, John spent three years as a School Board Trustee for the Coeur d'Alene School District (1997 to 2000).

Jodie Mills has served on the committee since August 16, 2018. Her initial term was the completion of a term vacated by Jackie Thomason. Jodie is designated as the member with experience serving in a school district with a focus on assessment and accountability. Jodie Mills is the Chief Academic Officer for the

**CONSENT**  
**JUNE 20, 2019**

---

Caldwell School District, a position she has held since July 2012. Her role includes administration and supervision of academic and assessment services. She was previously the Systems Improvement Coordinator for the Idaho State Department of Education, supporting implementation of school improvement plans and guiding schools and districts in using data to identify strengths and weaknesses in their system. Jodie also has extensive experience working with school districts and schools, including as a Principal, Assistant Principal, Director of Testing, Director of Federal Programs, and as a Science and Physical Education Teacher. Jodie Mills has a Bachelor of Science in Secondary Education from Western Montana College, a Masters of Education from University of Idaho, and an Education Specialist in Education Leadership / Superintendent from University of Idaho.

**IMPACT**

Approval of appointment of Laurie Lee Copmann and reappointment of John Goedde and Jodie Mills will fill all seats on the committee through June 30, 2020.

**ATTACHMENTS**

Attachment 1 – Current AOC Membership List	Page 4
Attachment 2 – Laurie Lee Copmann Resume	Page 5

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Board Policy I.Q., terms run from July 1 through June 30 of the applicable year. In making at-large appointments to the Accountability Oversight Committee, consideration should be given to the appointees' background, representative district / school size, and regional distribution. Staff recommends approval of the appointment of Laurie Lee Copmann and re-appointment of John Goedde and Jodie Mills.

**BOARD ACTION**

I move to approve the appointment of Laurie Lee Copmann to the Accountability Oversight Committee for a term of 2 years commencing July 1, 2019 and ending on June 30, 2021.

Idaho Indian Education Committee Appointments

**REFERENCE**

April 14, 2016	The Board approved the appointment of Tomas Puga and reappointments of Selena Grace, Bob Sobotta, and Chris Meyer.
October 20, 2016	The Board approved the appointment of Sharee Anderson, Donna Bollinger, Jessica James-Grant, and Hank McArthur.
June 15, 2017	The Board approved the reappointments of Sharee Anderson and Yolanda Bisbee.
August 10, 2017	The Board approved the appointment of Jason Ostrowski.
October 19, 2017	The Board approved the appointment of Marcus Coby, Tina Strong, and Graydon Stanley.
December 21, 2017	The Board approved the appointment of Gary Aitken.
April 19, 2018	The Board approved the appointment of Ladd Edmo and reappointment of Pete Putra, Hank McArthur, Bill Picard, Joyce McFarland, Jim Anderson, and Jason Ostrowski

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.P.

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 3: EDUCATIONAL ATTAINMENT: Objective A: Higher level of Educational Attainment, and Objective C: Access.

**BACKGROUND/DISCUSSION**

The Idaho Indian Education Committee serves as an advisory committee to the State Board of Education (Board) and the State Department of Education (Department) on educational issues and how they impact Idaho's American Indian student population. The committee also serves as a link between Idaho's American Indian tribes.

Pursuant to Board Policy I.P. the Idaho Indian Education Committee consists of 19 members appointed by the Board. Each member serves a term of five years. Appointments to vacant positions during a previous incumbent's term are filled for the remainder of the open term. The membership consists of:

- One representative from each of the eight public postsecondary institutions
- One representative from each of the five tribal chairs or designee
- One representative from each of the five tribal education affiliations (K-12)
- One representative from each of the two Bureau of Indian Education schools
- One representative from the State Board of Education, as an ex-officio member

**CONSENT**  
**JUNE 20, 2019**

---

Boise State University (BSU), College of Western Idaho (CWI), and College Eastern Idaho (CEI) have forwarded names for consideration to replace committee members due to administrative/structural changes on campuses.

**IMPACT**

The proposed appointments replaces BSU's, CWI's, and CEI's representative on the committee.

**ATTACHMENTS**

- Attachment 1 – Current Committee Membership
- Attachment 2 – BSU Nomination letter
- Attachment 3 – CWI Nomination letter
- Attachment 4 – CEI Nomination letter

**STAFF COMMENTS AND RECOMMENDATIONS**

Mr. Jim Anderson is no longer with Boise State University and Dr. Leslie Webb has been identified to replace Mr. Anderson and serve as BSU's representative on the committee. Dr. Webb is currently the Vice President for Student Affairs and Enrollment Management at BSU. If approved, Dr. Webb would complete Mr. Anderson's term, which runs through June 30, 2023.

Mr. Tomas Puga is no longer with the College of Western Idaho and Jaime Barajas-Zepeda has been identified to replace Mr. Puga and serve as CWI's representative on the committee. Mr. Barajas-Zepeda is currently the Assistant Director of Admissions and Recruitment at CWI. If approved, Mr. Barajas would serve a five-year term, which will run through June 30, 2024.

Dr. Sharee Anderson is no longer with the College of Eastern Idaho and Effie Hernandez has been identified to replace Dr. Anderson and serve as CEI's representative on the committee. Ms. Hernandez is currently the Recruiter and Career Placement Coordinator at CEI. If approved, Ms. Hernandez would complete Mr. Anderson's term, which runs through June 30, 2022.

Board staff recommends approval.

**BOARD ACTION**

**Graydon Stanley** is the Vice President for Student Services at North Idaho College (NIC). Term: July 1, 2017 – June 30, 2022.

**BOISE STATE UNIVERSITY**

OFFICE OF THE PRESIDENT

April 15, 2019

Idaho State Board of Education  
Indian Education Committee  
650 West State Street #307  
Boise, ID 83720-0037

Attn: Patty Sanchez

Please accept this letter of support for Dr. Leslie Webb to serve on the Idaho Indian Education Committee. Her position as the Vice President for Student Affairs and Enrollment Management is relevant to the work of this committee and I support her involvement as we strengthen our efforts to recruit and retain students from the tribal nations. We are committed to furthering our work and appreciate the opportunity to support these endeavors.

Sincerely,

Martin Schimpf  
Interim President

May 2, 2019

Office of the State Board of Education  
P.O. Box 83720  
Boise, ID 83720

To Whom It May Concern:

I would like to submit Jaime Barajas-Zepeda as the College of Western Idaho's nominee to serve on the Indian Education Committee. Jaime is the Assistant Director of Admissions and Recruitment, and as such, is positioned to make decisions about when, where and how we will recruit prospective students.

Below is a small sample of his accomplishments:

- He led the charge in creating a student engagement and mentoring program for our Latinx students resulting in an 8% increase in persistence rates from Fall 2018 to Spring 2019.
- In conjunction with the Business Office, he brokered a contract with Gear Up to bring funding in house for more efficient deployment of grant resources to serve Gear Up students.
- Created Navegando Adelante, an educational event for Latinx students and their families, in partnership with Caldwell High School.

I have been impressed with his ability to get things done and fully expect him to do the same for the Indian Education Committee. In addition, he is well connected to individuals from other institutions in the area from his time with the Southwest Idaho Education Consortium. Thanks to Jaime, we have strengthened our ties with community partners that serve Latinx students. I highly recommend Jaime for a role as part of the IEC and pledge to fully support him in this capacity.

Sincerely,

Dr. Bert Glandon  
President

1600 South 25th East • Idaho Falls, Idaho 83404-5788 • 208.524.3000 • [www.cei.edu](http://www.cei.edu)

March 14, 2019

Dear Mr. Brumfield:

It is with great pleasure that we recommend Effie Hernandez to serve on the Idaho Indian Education Committee. Her résumé and qualifications are listed below. Thank you for your continued advocacy and support of the Idaho Indian Education Committee. Our President's letter of support is enclosed.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Walker", is written over a long horizontal line. The signature is fluid and cursive.

Mike Walker  
Dean of Student Affairs

lp  
Enclosure

Effie Hernandez is a first-generation tribal enrolled student from the Shoshone- Bannock Tribes located in Fort Hall, Idaho. She attended the University of Idaho where she received a B.A. in Organizational Sciences and a minor in American Indian Studies in 2016.

She worked for the University of Idaho as an Assistant Director of Recruitment for three years. She has since transitioned into her new role at the College of Eastern Idaho as Recruiter and Career Placement Coordinator.

"The best thing about my job is being an advocate for higher education to every single person that I meet. This job gives me the resources to help make a difference in someone else's life. Being a minority, and a first-generation student, my overcoming collegiate barriers is giving hope to my tribal community and to the younger generation. My message: "You can and will succeed." – Effie Hernandez

Dr. Randall Brumfield  
Chief Academic Officer  
Office of Idaho State Board of Education  
650 W. State Street, Room 307  
Boise, ID 83720-0037

Dear Dr. Brumfield:

The College of Eastern Idaho will be continuing their participation in and support for the Idaho Indian Education Committee with the State of Idaho. This Committee plays a key role in supporting the education plans for the future of Indian education in the state.

Effie Hernandez is new to CEI in the role of Student Advisor, but Effie has worked in the area in University Recruiting with University Recruiting for the University of Idaho. Additionally, Effie has direct ties to the Shoshone-Bannock Tribe giving her a unique understand and tie to Indian Education. Effie will make an excellent addition to this state-wide committee as our CEI appointee. Her contact information is: Effie Hernandez – 208.535.5338 [effie.hernandez@cei.edu](mailto:effie.hernandez@cei.edu)  
I have attached a brief bio for as well.

We look forward to our continued participation. If you have questions or concerns, please contact my office.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Aman", with a horizontal line extending to the right.

Rick Aman  
President, College of Eastern Idaho  
Idaho Falls, Idaho

**BOISE STATE UNIVERSITY**

**SUBJECT**

Nature Center Naming

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies and Procedures, Section I.K

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 2: EDUCATIONAL ATTAINMENT, Objective C: Access

**BACKGROUND/DISCUSSION**

Boise State University (BSU) requests Board approval for the naming of a nature center on approximately 22 acres of property owned by BSU along the Boise River near the intersection of Warms Springs Avenue and State Highway 21. Boise State is developing this area to further research and community education conducted by the Intermountain Bird Observatory, an academic research and outreach unit within the College of Arts and Sciences. The grand vision for this area is to maintain and improve access, develop an interpretive trail system, improve native plant communities and fish and wildlife habitats, and create a year-round community outreach program.

Boise State University will team up with numerous partners in this endeavor including the City of Boise, Idaho Transportation Department, Idaho Department of Fish and Game, Ada County, and numerous private entities including the Idaho Foundation for Parks and Lands, Golden Eagle Audubon Society, the Boise River Enhancement Network, and others. The City of Boise plans to build a new city park on property adjacent to the proposed nature center and is supportive of the two properties being managed toward a common goal of maintaining open space, creating connectivity, contributing to clean water, restoring native habitats, and promoting community engagement and partnerships. Boise City has invested in this vision by approving a grant of \$440,000 to construct an interpretive trail system.

In 2007 the Moore Family began building the Diane and Winston Moore family Endowed Trust for the director of the Intermountain Bird Observatory. This fund became mature in 2012 and has greatly benefitted the Intermountain Bird Observatory program by increasing recognition, providing financial stability for the director, and providing annual interest to build the program. In particular, endowment interest was used to purchase this property, fund development of education/outreach programs, and fund habitat improvement projects.

This proposal to name the area the Diane Moore Nature Center recognizes the significant contribution of the Diane and Winston Moore family to Boise State University and their transformational role in the emergence and growth of the

**CONSENT  
JUNE 20, 2019**

---

Intermountain Bird Observatory program. The University's naming committee and the interim president have approved the proposed name.

**IMPACT**

The creation of the Diane Moore Nature Center and the naming thereof will honor the Diane and Winston Moore family's vision and commitment to immersive and hands-on science education at Boise State, youth education, and a discovery of nature. As a result of building the vision for this property, the Intermountain Bird Observatory program will reach thousands of students, families, and local public annually. No new funding is required.

**STAFF COMMENTS AND RECOMMENDATIONS**

Board Policy I.K.1.b, outlines the requirements by which a building, facility, or administrative unit may be named for someone other than a former employee of the system of higher education. These include consideration of the nature of the individual's gift and its significance to the institution; the eminence of the individual whose name is proposed; and the individual's relationship to the institution. When naming a facility for an individual in recognition of a gift, no commitment for naming may be made to the prospective donor prior to Board approval of the proposed name.

Based on the information provided by Boise State University the request complies with Board policy.

Staff recommends approval

**BOARD ACTION**

I move to approve Boise State University's request for naming of the Diane Moore Nature Center as outlined herein.

**UNIVERSITY OF IDAHO**

**SUBJECT**

Revisions to Constitution and Bylaws of the Faculty of the University of Idaho.

**REFERENCE**

November 18, 1966	The Board approved the Bylaws of the University Faculty.
June 18, 2009	The Board approved the Constitution of the University Faculty.
June 21, 2012	The Board approved amendments to the University of Idaho Faculty Constitution and Bylaws.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.S.2. Faculty Constitution and Bylaws.

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 3: EDUCATIONAL ATTAINMENT  
Objective A: Higher Level of Educational Attainment  
Objective B: Timely Degree Completion

**BACKGROUND/DISCUSSION**

The Provost and Executive Vice President (Provost) worked with the leadership of the University Faculty Senate on ideas to improve the functionality of the University Faculty Secretary. These proposed changes re-define aspects of the faculty secretary role. In conjunction with these changes the Provost is providing additional support resources for the office, including a dedicated University Policy Coordinator to assist with institutional policy development and education.

These changes were approved by the Faculty Senate and then sent to the General Faculty where they were approved by the full faculty. They were then sent to the President who has also approved them.

**IMPACT**

There is no additional financial burden on the University from these changes, as they will be accomplished within existing budgets.

**ATTACHMENTS**

Attachment 1 – Changes to Faculty Constitution  
Attachment 2 – Changes to Faculty Bylaws

**STAFF COMMENTS AND RECOMMENDATIONS**

Board Policy I.S. Institutional Governance authorizes the faculty to establish written bylaws, a constitution, or necessary procedures for making

**CONSENT**

1520

CONSTITUTION OF THE UNIVERSITY FACULTY

**NOTE:** *When the university was young, the faculty's business could be transacted quite satisfactorily in general meetings and through presidential committees. After the mid-20<sup>th</sup> century, however, the need for a representative form of government became obvious. Shortly after assuming the presidency in 1965, Ernest W. Hartung expressed great confidence in the faculty and urged it to assume the responsibilities entrusted to it by the territorial legislature and the state constitution [see 1120 A-3]. Accordingly, the Interim Committee of the Faculty, a body that performed limited academic functions for a time, recommended the establishment of a council having responsibilities and authority essentially as set forth in this constitution. The university faculty adopted the Interim Committee's recommendation on October 20, 1966, the regents approved it on November 18, 1966, and elections were held in the several colleges. The first Faculty Council assembled on February 23, 1967, with Professor Thomas R. Walenta (law) as chair; during the ensuing year, the council developed a proposed constitution of the university faculty. The document was amended and approved by the university faculty on March 20, 1968, and, with President Hartung's support, was ratified with minor amendments by the regents on September 5, 1968. The last major revision took place in 1986. In 2009 the Faculty Council changed its name to Faculty Senate a more common name used in academia, off campus faculty will have voting members on Senate at Coeur d'Alene, Boise, and Idaho Falls, and off-campus faculty will now be counted in the quorum at university faculty meetings with vote through designated sites and delegates given available technology (see 1640.94 and 1540 A). In 2011 Clinical faculty rank was added and language with respect to associated faculty voting was clarified. In 2012 Faculty Senate Center Senator's role/responsibility was clarified, staff membership increased to two and the required annual venue determination removed. In July 2013 the Faculty Senate's membership was increased again by one member to represent the Student Bar Association. In 2015 Faculty Senate members were allowed to serve an additional term and language was added to Article I. Section 4 that affirms academic freedom in faculty governance and university programs and policies. [In 2019 language in Article V, Section 3 was removed to address the restructure of the Faculty Secretary position.](#) The text printed here includes all amendments to date (see also 1420 A-1-c). Unless otherwise noted, the text is of 1996. For more information, contact the Office of the Faculty Secretary (208-885-6151). [ed. 7-00, rev. 7-09, 7-11, 7-12, 7-13, 7-15, [7-19](#)]*

**PREAMBLE.** The faculty of the University of Idaho, designated "university faculty," as defined in article II, section 1, in acknowledgement of the responsibilities entrusted to it for the immediate government of the university by article IX, section 10, of the constitution of the state of Idaho, has adopted and declared this constitution to be the basic document under which to discharge its responsibilities.

UI FACULTY-STAFF HANDBOOK  
Chapter I: HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE  
Section 1520: Constitution of the University Faculty

---

**ARTICLE I--GENERAL PROVISIONS.**

**Section 1. Regents.** The regents are vested by article IX, section 10, of the constitution of the state of Idaho with all powers necessary or convenient to govern the university in all its aspects. The regents are the authority for actions of the university faculty, and policy actions taken by the university faculty are subject to review and approval by the president and by the regents. [See 1120 A-2 and 1220 A-1.]

**Section 2. President.** The president of the university is both a member of and the president of the university faculty and is also the president of the other faculties referred to in section 4, below, and in article II. The president is the representative of the regents, the institution's chief executive officer, and the official leader and voice of the university. [See also 1420 A.] [ed. 7-00]

**Section 3. Faculty Senate.** This senate is empowered to act for the university faculty in all matters pertaining to the immediate government of the university. The senate is responsible to and reports to the university faculty and, through the president, to the regents. The university faculty, president, and regents retain the authority to review policy actions taken by the senate. [See III-3, V, and 1420 A-1-c.] [ed. 7-00, 7-09]

**Section 4. Constituent Faculties.** The university faculty is composed of various constituent faculties, including the faculties of the several colleges and other units of the university. Faculty are entitled to speak or write freely on matters pertaining to university governance, programs and policies (see Article IV below and FSH 3160). [rev. 7-15]

**Clause A. College Faculties.** The constituent faculty of each college or similar unit, meeting regularly and in accordance with bylaws adopted by a majority vote of the members of such faculty, is authorized to establish and to effect its own educational objectives, including matters of student admission and curriculum, and to participate in the selection of its own dean, other executive officers, and faculty members, subject only to the general rules and regulations of the university faculty and the authority of the president and the regents.

**Clause B. Faculties of Subdivisions.** If there are schools, intracollege divisions, departments, or separate disciplines within a college or similar unit, the constituent faculty of each such subdivision participates in decisions concerning its educational objectives, including matters of student admission and curriculum, the selection of its executive officers, and its faculty appointments, subject only to the general rules and regulations of the college faculty and the university faculty and the authority of the president and the regents.

**Clause C. Interim Government.** The Faculty Senate will provide for the establishment of bylaws for any college or similar unit that has not adopted its own bylaws. [ed. 7-09]

**Clause D. Matters of Mutual Concern.** The Faculty Senate has the responsibility for resolving academic matters that concern more than one college or similar unit. [ed. 7-09]

**ARTICLE II--FACULTY CLASSIFICATIONS.**

**Section 1. University Faculty.** The university faculty is comprised of the president, provost, vice presidents, deans, professors, associate professors, assistant professors, senior instructors, instructors (including those professors, associate professors, assistant professors, senior instructors, and instructors whose titles have distinguished, research, extension, clinical or visiting designations, e.g., "assistant research professor", "assistant clinical professor" and "visiting associate professor"), and lecturers who have served at least four semesters on more than half-time appointment [see 1565 G-1]. Those who qualify under this section have the privilege of participation with vote in meetings of the university faculty and the appropriate constituent faculties. [ed. 7-99, 7-09, rev. 7-01, 7-11]

UI FACULTY-STAFF HANDBOOK

Chapter I: HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE

Section 1520: Constitution of the University Faculty

---

**Section 2. Emeriti.** Faculty members emeriti have the privilege of participation without vote in meetings of the university faculty and the appropriate constituent and associated faculties. Also, they may be appointed to serve with vote on UI committees. [See also 1565 E.] *[ed. 7-00, 7-09]*

**Section 3. Associated Faculties.**

**Clause A.** The adjunct faculty [see 1565 F-1] and the affiliate faculty [see 1565 F-2] are associated faculties. Other associated faculties may be established as needed with the approval of the university faculty, president, and regents. *[ed. 7-00, 7-09]*

**Clause B.** Members of the adjunct faculty have the privilege of participation without vote in meetings of the university faculty. Members of the affiliate faculty may participate with vote in meetings of the university faculty if they have status as university faculty in their home unit. Both adjunct and affiliate faculty members have the privilege of participating in meetings of their respective constituencies of the university faculty, and may participate with vote if the bylaws of their constituent faculty so provide; however, if authorized to vote, they are not counted among the full-time-equivalent faculty members when determining the basis for the constituent faculty's representation on the Faculty Senate. *[ed. 7-09, rev. 7-11]*

**Section 4. General Faculty.** "General faculty" is a collective description for the combined faculties referred to in sections 1, 2, and 3, above.

**ARTICLE III--FACULTY MEETINGS.**

**Section 1. Meetings.** The university faculty meets at least once each semester. Meetings of the university faculty may be called at any time, with due notice, by the president. Meetings of the university faculty must be called with due notice by the president on the request of the Faculty Senate or on the written petition of 25 members of the university faculty. The president, or a member of the university faculty designated by the president, presides at meetings of the university faculty. *[ed. 7-09]*

**Clause A. Venue.** University faculty may participate and vote in faculty meetings by being physically present at the designated venue on the Moscow campus, or by being physically present at another designated venue (see FSH 1540 A-1) in the state that is connected via electronic video and audio link as outlined in Clause B. *[add. 7-09, rev. 7-12]*

**Clause B. Participation.** To be eligible for meeting participation, venues remote from the Moscow campus must be linked to the Moscow venue via compressed video link or other electronic means that conveys audio and visual signals in both directions between Moscow and the remote venue. In addition, an authorized delegate of the Secretary of the Faculty must be present at each site to facilitate meeting participation and counting and reporting of votes (see Section 3, Clause C, Secretary's delegates at remote sites). *[add. 7-09, ed. 7-12]*

**Section 2. Secretary.** The president appoints the secretary of the faculty from among the tenured members of the university faculty [see 1570]. The secretary is responsible for recording and distributing the minutes, tallying and recording of votes, and performs such other duties as may be assigned by the president or the university faculty. *[rev. 7-09]*

UI FACULTY-STAFF HANDBOOK

Chapter I: HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE

Section 1520: Constitution of the University Faculty

---

**Section 3.**

**Clause A. Quorum, Recognition of Speakers, Recording of Votes and Delegates.** A quorum consists of one-eighth of the membership of the university faculty, as defined in article II, section 1. If there is not a quorum at a faculty meeting, Faculty Senate actions reported in the agenda for that meeting have faculty approval and are forwarded to the president and regents. *[rev. 7-97, 7-09]*

**Clause B. Recognition of Speakers.** Participants wishing to speak at the Moscow site or at remote sites will be recognized by the presiding officer in Moscow and may obtain the floor with his/her approval. *[add. 7-09]*

**Clause C. Recording of Votes.** In determining the outcome of motions, the secretary will determine the number of votes for or against. The Secretary's delegate at each electronically linked site will convey votes for and against to the Secretary (see FSH 1540 A). *[add. 7-09, ed. 7-12]*

**Clause D. Secretary's Delegates.** Delegates at remote sites shall be members of the University Multi-Campus Communications Committee appointed by the Committee on Committees as outlined in 1640.94. *[add. 7-09]*

**Section 4. Agenda.** An agenda listing all subjects to be voted on, other than routine matters, must be issued to all members of the university faculty at least one week in advance of each meeting of the university faculty, except as provided in clause E. Faculty Senate actions that require approval by the university faculty must be published in full in the agenda. *[See also 1420 A-1-c.] [ed. 7-00, 7-09]*

**Clause A. Responsibility.** The president is responsible for the agenda and it is issued under the president's direction.

**Clause B. Agenda Items from Individual Members.** Individual members who wish to suggest items for the agenda are to submit them to the president. No items may be considered under this clause that are presented to the president less than 12 calendar days before the meeting.

**Clause C. Resolutions Requiring Action.** Ten or more members of the university faculty desiring to submit a resolution that requires action at the next meeting are to submit the signed resolution to the president at least twelve calendar days before the meeting. Such resolutions must be published in full with, and included in, the agenda. *[But see 1540 B.] [ed. 7-00]*

**Clause D. Proposed Changes of Written Policies or Regulations.** Any proposed change in a written policy or regulation of the university to be voted on by the university faculty must be published in full in the agenda, or final action on the proposal must be delayed until the next meeting. This provision can be waived only by unanimous consent.

**Clause E. Agenda for Emergency Meetings.** If circumstances require an emergency meeting of the university faculty, the president declares the emergency and calls the meeting. In such circumstances the agenda may be limited to items approved by the president and must be published not less than three calendar days before the meeting. Policy actions taken at emergency meetings require an approving vote of two-thirds of the members of the university faculty in attendance at the meeting, a quorum being present. This constitution cannot be amended at an emergency meeting.

UI FACULTY-STAFF HANDBOOK

Chapter I: HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE

Section 1520: Constitution of the University Faculty

---

**ARTICLE IV--RESPONSIBILITIES OF THE UNIVERSITY FACULTY.** Subject to the authority of the president and the general supervision and ultimate authority of the regents, the university faculty accepts its responsibilities for the immediate government of the university, including, but not restricted to:

**Section 1. Standards for Admission.** The university faculty establishes minimum standards for admission to the university. Supplementary standards for admission to individual colleges or other units of the university that are recommended by the appropriate constituent faculties are subject to approval by the university faculty.

**Section 2. Academic Standards.** The university faculty establishes minimum academic standards to be maintained by all students in the university. Supplementary academic standards to be maintained by students in individual colleges or other units of the university that are recommended by the appropriate constituent faculties are subject to approval by the university faculty. [See I-4-D.]

**Section 3. Courses, Curricula, Graduation Requirements, and Degrees.** Courses of instruction, curricula, and degrees to be offered in, and the requirements for graduation from, the individual colleges or other units of the university, as recommended by the appropriate constituent faculties, are subject to approval by the university faculty. [See I-4-D.]

**Section 4. Scholarships, Honors, Awards, and Financial Aid.** The university faculty recommends general principles in accordance with which privileges such as scholarships, honors, awards, and financial aid are accepted and allocated. The university faculty may review the standards recommended by the individual constituent faculties for the acceptance and allocation of such privileges at the college or departmental levels.

**Section 5. Conduct of Students.** The faculty's responsibility for approving student disciplinary regulations and the rights guaranteed to students during disciplinary hearings and proceedings are as provided in the "Statement of Student Rights," the "Student Code of Conduct," and the "University Disciplinary Process for Alleged Violations of Student Code of Conduct." [See 2200, 2300, and 2400.] *[ed. 7-14]*

**Section 6. Student Participation.** The university faculty provides an opportunity for students of the university to be heard in all matters pertaining to their welfare as students. To this end, the students are entrusted with their own student government organization and are represented on the Faculty Senate. If students so desire, they are represented on faculty committees that deal with matters affecting them. *[ed. 7-09]*

**Section 7. Selection of Officers.** The university faculty assists the regents in the selection of the president and assists the president in the selection of the provost, vice presidents and other administrative officers of the university.

**Section 8. Governance of Colleges and Subdivisions.** The university faculty promulgates general standards to guarantee the right of faculty members to participate in the meetings of the appropriate constituent faculties and in the governance of their colleges, schools, intracollege divisions, departments, and other units of the university. [See 1540 A.] *[ed. 7-06, 7-09]*

**Section 9. Faculty Welfare.** The university faculty recommends general policies and procedures concerning the welfare of faculty members, including, but not limited to, appointment, reappointment, nonreappointment, academic freedom, tenure, working conditions, promotions, salaries, leaves, fringe benefits, periodic evaluations, performance reviews, reassignment, layoff, and dismissal or termination.

**Section 10. The Budget.** Members of the university faculty participate in budgetary deliberations, and it is expected that the president will seek faculty advice and counsel on budgetary priorities that could significantly affect existing

Section 1520: Constitution of the University Faculty

---

units of the university. [See 1640.20, University Budget and Finance Committee.] *[ed. 7-05]*

**Section 11. Committee Structure.** The university faculty, through the medium of its Faculty Senate, establishes and maintains all university-wide and interdivisional standing and special committees, subcommittees, councils, boards, and similar bodies necessary to the immediate government of the university and provides for the appointment or election of members of such bodies. This section does not apply to *ad hoc* advisory committees appointed by the president or committees made up primarily of administrators. [See 1620 and 1640] *[ed. 7-97, 7-09]*

**Section 12. Organization of the University.** The university faculty advises and assists the president and the regents in establishing, reorganizing, or discontinuing major academic and administrative units of the university, such as colleges, schools, intracollege divisions, departments, and similar functional organizations.

**Section 13. Bylaws of the Faculty Senate.** The bylaws under which the Faculty Senate discharges its responsibilities as the representative body of the university faculty are subject to review and approval by the university faculty. [See 1580.] *[ed. 7-09]*

ARTICLE V--FACULTY SENATE.

**Section 1. Function.** The Faculty Senate functions as provided in this constitution and in accordance with its bylaws as approved by the university faculty. [See I-3 and 1580.] *[ed. 7-09]*

**Section 2. Structure.** The senate is constituted as follows: *[ed. 7-09]*

**Clause A. Elected Members.** *[ed. 7-00]*

**(1) College Faculties.** The faculty of each college, except the College of Graduate Studies, elects one senator for each 50, or major fraction thereof, full-time-equivalent faculty members in the college, provided, however, that each college faculty elects at least one senator. If, because of a reduction in the membership of a college faculty, there is to be a corresponding reduction in the college's representation in the senate, the reduction does not take place until the expiration of the term of office of an elected senator from the college. *[ed. 7-09]*

**(2) University Centers.** The resident faculty of the university centers in Boise, Coeur d'Alene and Idaho Falls each elects one senator from among its number. Those senators shall have the right to participate and vote in faculty senate meetings by means of available two-way video-audio technology located at the centers. If the available technology fails, telephone conferencing will be used. Senators elected to represent a center have a unique role on senate, which is to provide a voice and vote from the perspective of their centers. That perspective is not intended to be college and/or discipline specific. *[add. 7-09, rev. 7-12]*

**(3) Faculty-at-Large.** Members of the university faculty who are not affiliated with a college faculty constitute the faculty-at-large, and this constituent faculty, in accordance with procedures adopted by the faculty-at-large, elects senators to serve with vote in the senate on the same basis as provided above for college faculties. [See 1566.] *[ed. & ren. 7-09]*

**(4) Dean.** The academic deans elect one of their number to serve with vote in the senate. *[ed. & ren. 7-09]*

**(5) Staff.** The representative body (Staff Council) of the university staff elects two employees who do not have faculty status to serve with vote in the senate. *[ed. & ren. 7-09, rev. 7-12]*

UI FACULTY-STAFF HANDBOOK

Chapter I: HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE

Section 1520: Constitution of the University Faculty

---

**(6) Students.** Two undergraduate students, one graduate student, and one law student serve as voting members of the senate, and the senate provides regulations governing the qualifications, terms of office, and election of student members, and procedures for filling vacancies in the student membership. [See 1580 VI.] *[ed. & ren. 7-09, rev. 7-13]*

**Clause B. Members *Ex Officiis*.** The president or the president's designated representative and the secretary of the faculty are members *ex officio* of the senate, with voice but without vote. *[ed. 7-09]*

**Section 3. Officers.** Each year the senate elects a chair and a vice chair from among the elected faculty members of the senate. ~~Also, each year a secretary is appointed by the chair, subject to confirmation by the senate, from among the members of the senate or from the membership of the university faculty. The appointment of a person who is not a member of the senate to serve as secretary does not carry with it membership on the senate.~~ *[ed. 7-09]*

**Section 4. Terms of Office.** Elected faculty members of the senate serve for three years. The academic dean shall serve one year, the staff representatives shall serve for staggered two year terms. The terms of office for student members are as established by the senate. [See 1580 VI.] Newly elected members take office each year on September 1 or on the official opening date of the academic year, whichever is earlier. To carry out the requirement that approximately one-third of the elected faculty members are to take office each year, the senate may shorten the initial term of office of faculty senators elected to fill new positions in the senate to conform to a balanced rotation plan. When members are elected to fill a vacancy, they take office at the first meeting after the election and serve for the unexpired term of the vacancy. A faculty member elected to the senate may serve two consecutive terms. After serving two consecutive terms the faculty senate member must wait one full year before they are again eligible for election [see also FSH 1580 III-3]. *[ed. 7-09, rev. 7-12, 7-15]*

**Section 5. Eligibility.** Every member of the university faculty is eligible to vote for members of the senate representing his or her college or other unit. Every member of the university faculty is eligible to serve as an elected member of the Faculty Senate and to hold an elective or appointive office in the senate. *[ed. 7-09]*

**Section 6. Elections.** Regular elections for senators in the senate are held before April 15 of each year in which an election is to be held. All elections for members of the senate are by secret ballot. Appropriate procedures for nominations and elections are developed and approved by a majority vote of the faculty of the college or other unit. *[ed. 7-09]*

**Section 7. Vacancies.**

**Clause A.** If it is necessary for a member of the senate to be absent temporarily (more than a month, but less than four months), the candidate who received the next highest number of votes in the most recent election in the college or unit acts as his or her alternate in the senate with full vote. If it is necessary for a member to be absent for more than four months, but less than one year, a special election is held to fill the temporary vacancy. When the senate member returns, he or she resumes the position in the senate. If it is necessary for a member to be absent for more than one year, or if the member is unable to complete the term of office for any reason, a special election is held to fill the unexpired term. [See 1580 VI for procedures covering student vacancies.] *[ed. 7-09]*

**Clause B.** The chair of the Faculty Senate must declare a position vacant if a member is absent from three consecutive meetings unless the member has informed the chair of the senate in writing that he or she intends to participate fully in the activities of the senate in the future. When a position is declared vacant, the chair must notify the constituency concerned. *[ed. 7-09]*

UI FACULTY-STAFF HANDBOOK

Chapter I: HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE

Section 1520: Constitution of the University Faculty

---

**Section 8. Recall.** The recall of a member of the senate may be initiated by a petition bearing the signatures of at least 10 percent, or five members, whichever is greater, of the membership of the particular constituency represented. The petition must be delivered to the chair of the senate. On the receipt of a valid petition, the chair calls a meeting of the faculty of the college or other unit and appoints a chair. Charges against the member are presented in writing and the member is given adequate opportunity for his or her defense. A two-thirds majority vote by secret ballot of the members of the college or other unit present at the meeting is necessary for recall, providing the members present constitute a quorum as defined in the bylaws of the college or other unit. In the event that the vote is to recall the senator, the member may appeal the case to the senate within 10 days. If the case is appealed and the senate affirms the recall, or if the recall stands for 10 days without appeal, the members of the college or other unit elect another senator. Regular procedures are followed in replacing the recalled person, except that the chair of the senate appoints the chair of the election committee of the college or other unit. During the interval between recall and the election of a replacement, the candidate who received the next highest number of votes in the most recent election acts as the alternate in the senate with full vote. [ed. 7-09]

**ARTICLE VI--RULES OF ORDER.** The rules contained in *Robert's Rules of Order Newly Revised* govern all meetings of the university faculty, other faculties, the Faculty Senate, and faculty committees in all cases to which they are applicable and in which they are not in conflict with this constitution, regents' policies, or any bylaws or rules adopted by any of those bodies for the conduct of their respective meetings. An action taken by the university faculty, a constituent or associated faculty, the Faculty Senate, or a faculty committee that conflicts with a previous action by that body takes precedence and, in effect, amends, in part or in full, the previous action. [ed. 7-09]

**ARTICLE VII--AMENDMENTS.** This constitution may be amended by a two-thirds affirmative vote of the members of the university faculty, as defined in article II, section 1, in attendance at a regular meeting, a quorum being present. Proposed amendments must have been published in full in the agenda at least one week before the meeting or presented in writing at a meeting previous to the one at which the vote is to be taken. Amendments to this constitution are subject to review and approval by the president and by the regents.

HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE

July 2015

1580

BYLAWS OF FACULTY SENATE

*PREAMBLE: This section contains the bylaws of Faculty Senate which serve to expand on Article V of the Faculty Constitution (1520). This section first appeared in the 1979 edition of the Handbook and has remained substantially the same, minor title changes aside, ever since. In January 2010 the Faculty Council changed its name to Faculty Senate. In 2011 the requirements for publishing senate meeting minutes were revised to reflect changes in publishing processes across the university. In July 2012 the election process for the graduate student representative on Senate was clarified. In July 2013 the Faculty Senate's membership was increased again by one member to represent the Student Bar Association. In July 2015 Faculty Senate member's term was expanded allowing an additional term. For further information, contact the Office of the Faculty Secretary (208-885-6151). [ed. 7-00, rev. 7-10, 7-11, 7-12, 7-13, 7-15]*

CONTENTS:

- Article I. Function and Membership
- Article II. Duties of Officers
- Article III. Terms of Office
- Article IV. Election of Officers
- Article V. Meetings
- Article VI. Student Members
- Article VII. Executive Committee
- Article VIII. Other Committees

**ARTICLE I--FUNCTION AND MEMBERSHIP.** The function and membership of the Faculty Senate are as provided in the constitution of the university faculty. [See 1520 I-3 and V.] *[ed. 7-10]*

**ARTICLE II--DUTIES OF OFFICERS.**

**Section 1. Chair.** The chair shall: preside at meetings of the senate; appoint the secretary, subject to confirmation by the senate; appoint special or *ad hoc* committees in consultation with the senate; maintain lines of communication between the senate and the president, between the senate and the university faculty, and between the senate and the Staff Affairs Committee; serve as a member ex officio without vote of all committees and similar bodies under the jurisdiction of the university faculty; and perform all other duties pertaining to the office of chair. Given the nature of leadership responsibilities and time requirements of this position, it is UI administrative policy that the chair is given the opportunity for release time of up to one course per semester, or equivalent. *[ed. 7-10]*

**Section 2. Vice Chair.** The vice chair shall: assume the duties and responsibilities of the chair in the temporary absence or disability of the chair; serve as chair of the Committee on Committees; and perform such other duties as may be assigned by the chair or by the senate. *[ed. 7-10]*

**Section 3. Secretary.** The faculty secretary shall be the secretary to the faculty senate and shall maintain minutes and assume other responsibilities set forth in FSH 1570. ~~maintain an accurate record of all meetings of the senate; publish the minutes or a summary thereof on the Faculty Senate website as soon as possible after they are approved; file official copies of the minutes, together with appropriate exhibits, and in the Department of Special Collections and Archives in the University Library for safekeeping; prepare reports of policy actions taken by the senate for review by the university faculty, president, and regents; maintain a file of the minutes of university level standing committees; maintain a file of the current bylaws of the senate and of its standing committees; and perform such other duties as may be assigned by the chair or by the senate.~~ *[ed. 7-97, 7-10, rev. 7-11]*

**ARTICLE III--TERMS OF OFFICE.**

**Section 1. Members.** The terms of office for members of the senate are as provided in the constitution of the university faculty [1520 V-4] and in accordance with these bylaws. *[ed. 7-10]*

**Section 2. Officers.** The term of office for officers of the senate is one year, beginning on September 1 or on the official opening date of the academic year, whichever is earlier. No member may serve as chair more than two consecutive one-year terms. *[ed. 7-10]*

**Section 3. Members Completing Unexpired Terms.** A member who has been elected or appointed to complete the unexpired term of another member and has served more than half of that term will be considered to have served one full term.[see FSH 1520 V-4 – Terms of Office. *[ed. 7-10, rev. 7-15]*

**ARTICLE IV--ELECTION OF OFFICERS.**

**Section 1. Nomination.** Each spring, as soon as practicable following the appointment and election of new members of the senate, the president of the university or the president's designated representative calls and presides at a meeting of those who will be members during the ensuing year for the purpose of nominating candidates for the offices of chair and vice chair. Nominations are by secret ballot, and no other official business is transacted at this meeting. *[ed. 7-10]*

**Section 2. Election.** Not less than three days following the nominating meeting referred to in section 1, above, the president or the president's designated representative calls and presides at a second meeting of the same group for the purpose of electing the chair and the vice chair for the ensuing term. No other official business is transacted at this meeting. The requirement that there be no less than three days between the two meetings may be suspended only by the unanimous consent of the members in attendance. The procedures for the election are as follows:

**Clause A. Additional Nominations.** Before balloting begins for each office, additional nominations may be made for that office.

**Clause B. Procedure for Balloting.** Elections for officers of the senate are by secret ballot, and a majority of all votes cast is necessary for election, a quorum being present [see V-3]. In the event that more than two candidates are nominated for either office and none receives a majority of the votes cast on the first ballot, balloting continues with the name of the candidate receiving the fewest votes being dropped from the ballot after each vote. In the event that there is no candidate with the fewest votes, balloting continues with all names included until such time as a candidate receives a majority of votes (in which case he or she is declared elected) or until a candidate receives the fewest votes (in which case his or her name is dropped from the ballot and the balloting continues). *[ed. 7-97, 7-10]*

**ARTICLE V--MEETINGS.**

**Section 1. Regular Meetings.** The senate determines the time and place for its regular meetings. *[ed. 7-10]*

**Section 2. Special Meetings.** Special meetings of the senate may be called at any time by the chair. Such meetings must be called upon the request of the president of the university or the president's designated representative. Meetings may be convened by 35 percent of the voting membership with a three-day written notice to all members. *[ed. 7-10]*

**Section 3. Quorum.** A quorum is half of the voting members of the senate, including half of the elected membership. *[ed. 7-10]*

**Section 4. Agenda.** The chair is responsible for the agenda and causes it to be issued at least one day before each regular meeting. Notice of special meetings may be given orally, provided each member so notified is informed of the

purpose of the special meeting.

**Section 5. Order of Business.** The usual order of business for regular meetings is: (a) approval of the minutes of the previous meeting; (b) communications; (c) committee reports; (d) special orders; (e) unfinished business and general orders; and (f) new business.

**Section 6. Communications.** Communications that require action by the senate should be furnished in sufficient quantity to provide one copy for each member of the senate and five copies for the secretary. *[ed. 7-10]*

**Section 7. Alternates.** Alternates participate in meetings of the senate only as permitted by the constitution of the university faculty [see 1520 V-7]. This rule does not preclude a member from having another person attend the meeting in his or her stead as an auditor. *[ed. 7-10]*

**Section 8. Policy Actions.** Before each regular meeting of the senate, the agenda for that meeting is to be published on the Faculty Senate website. The website shall include the number, if any, and the title of each agenda item involving the formulation or substantive change of policy and also a link to the proposed redline document. Final action may not be taken on any such item unless it has been included in an agenda previously published on the website and distributed electronically to all senators (preferably the Friday before the meeting, but no later than 24 hours prior to the meeting, see Section 4 above); this requirement for prior notice may be suspended only in emergencies and with approval by a two-thirds vote of the senate members in attendance at a meeting, a quorum being present. *[ed. 7-97, 7-10, rev. 7-11]*

**Section 9. Motions.** Motions involving the formulation or change of policy should be in writing and handed to the secretary. The minutes are to show the names of the person making a motion and of the seconder.

**Section 10. Record of Attendance.** The minutes are to show the names of members attending and of those absent from meetings.

**Section 11. Voting.** Voting on motions is by raising a hand. Proxy votes are not allowed. (According to a standing rule of the senate, the chair does not ask how many members abstained from voting on a particular motion, and abstentions are not recorded in the minutes unless a member requests that his or her abstention be recorded.) *[ed. 7-10]*

**Section 12. Open Meetings.** The university faculty's general regulations governing committee meetings, including meetings of the Faculty Senate, are contained in FSH 1620. *[ed. 7-10]*

**Section 13. Publication of Minutes.** The complete text or a summary of the approved minutes of meetings of the senate is published on the Faculty Senate website and sent electronically to senate members at least one day before the meeting at which they will be ratified. *[ed. 7-97, 7-10, rev. 7-11]*

## ARTICLE VI--STUDENT MEMBERS.

**Section 1. Qualifications.** The two undergraduate-student representatives must have completed at least 26 credits at UI before taking office and must be full-time students as defined in the catalog (regulation O-1). The graduate-student representative must be regularly enrolled in a program leading to an advanced degree.

**Section 2. Terms of Office.** Student members are elected for one-year terms and are eligible for reelection for a second term.

**Section 3. Election.** The election of the two undergraduate-student representatives to serve on the senate is entrusted to the ASUI Senate. The election of one graduate-student representative is entrusted to the Graduate and Professional Student Association. The election of one law-student representative is entrusted to the Student Bar Association. *[ed. 7-10, rev. 7-12, 7-13]*

**Section 4. Vacancies.** Vacancies occurring in student positions are filled by the ASUI and GPSA as appropriate. [rev. 7-12]

**ARTICLE VII--EXECUTIVE COMMITTEE.**

**Section 1. Function.** The function of the Executive Committee is to act for the senate on emergency matters when the senate will not be in regular session for a period of more than two weeks and a quorum cannot easily be convened. The Executive Committee reports to and is subject to the orders of the senate, and the senate retains the authority to review actions of the Executive Committee. [ed. 7-10]

**Section 2. Structure and Quorum.** The Executive Committee is made up of such members of the senate as are present at a meeting called upon 36 hours' written or oral notice. Seven voting members of the senate constitute a quorum for meetings of the Executive Committee. [ed. 7-10]

**Section 3. Officers.** The officers of the senate also serve as the officers of the Executive Committee. In the absence or incapacity of both the chair and the vice chair, the members of the Executive Committee attending the meeting designate a chair *pro tempore*. [ed. 7-10]

**Section 4. Call of Meetings.** Meetings of the Executive Committee may be called on 36 hours' notice by the chair or vice chair or by the president of the university or the president's designee.

**ARTICLE VIII--OTHER COMMITTEES.**

**Section 1. Authority of the Faculty Senate.** Under the authority of the constitution of the university faculty, the senate has the responsibility to establish and maintain all university-wide and interdivisional standing and special committees, except those specifically reserved to the president. [See 1420 A-1-c and 1520 IV-11.] [ed. 7-00, 7-10]

**Section 2. General Regulations.** The general regulations governing committees, as adopted by the senate and the university faculty, are contained in 1620. [ed. 7-10]

**ARTICLE IX--RULES OF ORDER.** [See 1520 VI.]

**ARTICLE X--AMENDMENTS.** These bylaws may be amended by a majority vote of the university faculty, as defined in the constitution of the university faculty [see 1520 II-1], in attendance at a regular meeting, a quorum being present. Amendments that conflict with any provision of the constitution of the university faculty or with regents' policies are without effect. Proposed amendments must have been published in full in the agenda at least one week before the meeting of the university faculty or presented in writing at a meeting previous to the one at which the vote is to be taken.

**CONSENT  
JUNE 20, 2019**

---

**SUBJECT**

Institution President Approved Alcohol Permits

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies and Procedures, I.J.2.b.

**ALIGNMENT WITH STRATEGIC PLAN**

Governance/Oversight required through Board policy to assure a safe environment for students conducive to the institution's mission of educating students.

**BACKGROUND/DISCUSSION**

The chief executive officer of each institution may waive the prohibition against possession or consumption of alcoholic beverages only as permitted by, and in compliance with, Board policy I.J. Immediately upon issuance of an Alcohol Beverage Permit, a complete copy of the application and the permit shall be delivered to the Office of the State Board of Education, and Board staff shall disclose the issuance of the permit to the Board no later than the next Board meeting.

The last update presented to the Board was at the Regular February 2019 Board meeting. Since that meeting, Board staff has received thirty-one (31) permits from Boise State University, nine (9) permits from Idaho State University, seventeen (17) permits from the University of Idaho and three (3) permits from Lewis-Clark State College.

Attachment 1 lists the alcohol permits that have been approved by the presidents and submitted to the Board office since the last Board meeting.

**ATTACHMENTS**

Attachment 1 - List of Approved Permits by Institution

**BOARD ACTION**

I move to accept the report on institution president approved alcohol permits as provided in Attachment 1.

June 2018	meeting for the 2017-2018 basketball competitions and the request to have a permitted event in the Double R Ranch Club Room of Taco Bell Arena. Board considered a first reading and did not approval the proposal to amend Board Policy I.J. expanding areas in which institutions could provide alcohol service in conjunction with student athletic events. Additionally the Board approved annual requests to allow institutions' CEOs to permit alcohol service in conjunction with NCAA athletic events hosted by the institution in venue suites and at designated pre-game events ("Permitted Events") at specific locations for the 2018-2019 football and basketball season in the Stueckle Sky Center, Allen Noble Hall of Fame, the Alumni and Friends Center and the Caven Williams Sports Complex.
August 2018	The Board approved a request to allow consumption of alcohol in designated tailgating areas in conjunction with student athletic events for the 2019 football season, post-season and spring football game.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.J – Use of Institutional Facilities and Services with Regard to the Private Sector  
Idaho Administrative Code, IDAPA 08.01.08 – 100, Possession, Consumption and Sale of Alcoholic Beverages at Public Higher Education Institutions.  
Idaho Administrative Code, IDAPA 38.04.07 – 305, Food and Beverage

**ALIGNMENT WITH STRATEGIC PLAN**

This is a non-strategic Board governance item.

**BACKGROUND/DISCUSSION**

Prior to approval of construction of the Stueckle Sky Center, the Board granted approval for Boise State to represent that alcohol service would be available in the suites. Based on that approval, leases with patrons for the suites, club seats and loge seats were created with the understanding that alcohol service would be available during games in this area.

For the past eleven seasons, the Board has approved alcohol service in the Stueckle Sky Center prior to and throughout home football games.

Boise State University is committed to overall improvement of the game day experience, including enhancing concessions, fan connections with coaches and student-athletes, ticket purchase options and enhanced promotions, among other things. The addition of pre-game events is part of an overall strategy to enhance the game day experience. By improving pregame options on campus, Boise State University can offer a safe and monitored environment where fans can connect with fellow Bronco fans. Increasing ticket sales and donations continues to be a

**CONSENT**  
**JUNE 20, 2019**

---

difficult task with appealing television coverage at home and challenging start times. Improving the fan experience at games will allow Boise State University to create avenues for additional revenue to support championship-level programs and provide community members additional reasons to purchase tickets.

In October 2017, the Board approved amendments to Board Policy I.J. which specified certain pre-game events and in-suite service where alcohol could be permitted in conjunction with NCAA athletic events, if permitted by an Institution's chief executive officer and approved by the Board at the regular June Board meeting, preceding the season. The policy confines alcohol service to specific venues and sports, as follows:

- Caven Williams Sports Complex (Pre-game football)
- Allen Noble Hall of Fame Gallery (Pre-game football)
- Alumni and Friends Center (Pre-game football)
- Stueckle Sky Center (In-suite football)
- Double R Ranch Club Room – Taco Bell Arena (In-suite/Club Room Basketball)

Boise State University requests Board approval to provide alcohol service in conjunction with NCAA football for the 2019-2020 season (each home game and a potential conference championship game), the Famous Idaho Potato Bowl and the 2020 spring football game) as follows:

- Caven Williams Sports Complex (Pre-game event)
- Allen Noble Hall of Fame Gallery (Pre-game event)
- Alumni and Friends Center (Pre-game event)
- Stueckle Sky Center (In-suite service)

Further, Boise State requests Board approval to provide alcohol service in conjunction with NCAA basketball for the 2019-2020 season as follows:

- Double R Ranch Club Room – Taco Bell Arena (In-suite/Club room basketball)

### **Football**

#### **Caven Williams Sports Complex**

Providing alcohol service in the Caven Williams Sports Complex will create a gathering place for ticketed patrons attending Bronco football games and will become part of the game day experience. This reception style event will add value to those attending games by creating a fan zone that offers unique food and drink in a lighted, temperature-controlled environment. The complex will be divided into three areas: an alcohol-free area, an area where patrons can purchase alcoholic beverages, and a main fan zone featuring entertainment, food, and non-alcoholic beverage options. Boise State University will secure the entire facility and will require a valid game ticket to enter the building. Student tickets will not be accepted. The alcohol-free fan zone will have activities for adults and kids alike

**CONSENT**  
**JUNE 20, 2019**

---

with lawn games, band and cheer performances, autograph sessions, etc. Food and non-alcoholic drink options will be available for purchase throughout the secured venue. Boise State University's official food service provider (Aramark) will also have the opportunity to set-up concession areas or contract with local food trucks as additional food choice options for patrons. Within the secured area, Boise State University will create a separate area where patrons may purchase alcohol by partitioning off the area with barricades to ensure only those over the age of 21 can enter. Two Aramark employees (TIPS trained) will check ID's and issue color-coded wrist bands within the over 21 area. No alcohol will be allowed to go into or out of the secured venue.

Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, Boise State University will conduct these pre-game activities under the conditions outlined in the Security Plan, Attachment 1.

**Allen Noble Hall of Fame**

Providing alcohol service in the Allen Noble Hall of Fame will enhance a current gathering place for Albertsons Stadium patrons prior to home football games. In the secure area, Hall of Fame Club members and invited guests will be provided with food and non-alcoholic beverages. Guests may purchase or be provided alcoholic beverages from Boise State University's official food service provider. Individuals become members of the Allen Noble Hall of Fame by purchasing a season membership with the Bronco Athletic Association.

A reception-style event in the Allen Noble Hall of Fame will become part of the Bronco Game day experience and add value to those attending Bronco football games by offering unique food and drink options in a lighted, temperature-controlled environment.

Boise State University will provide all the control measures and follow all requirements of Board policy regarding alcohol service. In addition, Boise State University will conduct these pre-game activities under the conditions outlined in the Security Plan, Attachment 2.

**Alumni and Friends Center**

Providing alcohol service at the Alumni and Friends Center will maintain the donor intent and funding for the building as the intent of the center is to cultivate long term relationships with current donors, alumni and friends.

In the secure area, Alumni and Friends with game tickets will be provided with food and non-alcoholic beverages. Guests may purchase or be provided alcoholic beverages from Boise State University's official food service provider.

**CONSENT**  
**JUNE 20, 2019**

---

As with similar events, Boise State University will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service and under the conditions outlined in the Security Plan, Attachment 3.

**Stueckle Sky Center**

Boise State University seeks permission to allow alcohol sales to patrons leasing seats in the Stueckle Sky Center on the west side of the stadium. In this secure area, Boise State University will allow patrons to purchase food and beverages, both non-alcoholic and alcoholic.

Boise State University will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service. In addition, the Boise State University will conduct these pre-game activities under the conditions outlined in the Security Plan, Attachment 4.

**Basketball**

**Double R Ranch Club Room**

Boise State University requests Board approval to provide alcohol service in the Double R Ranch Club Room of Taco Bell Arena as a "Permitted Event" as outlined in Board Policy I.J. prior to each home basketball game for the 2019-2020 season.

Providing alcohol service in the Double R Ranch Club Room will create a gathering place for Hardwood Club and Fastbreak Club members prior to home basketball games. The club room will serve as a reception style, pre-game gathering place for members and their invited guests where they will be provided with light hors d'oeuvres and non-alcoholic beverages. Guests may be provided with alcoholic beverages from Boise State University's official food service provider. This space will become part of the Bronco game day experience and will add value to those attending games by offering unique food and drink options in a temperature-controlled environment. Alcohol service will be discontinued at tip-off, but invited guests may return to the club room up until the end of half-time to enjoy additional food and non-alcoholic beverages.

As with similar events, Boise State University will provide all of the control measures and follow all requirements of Board Policy I.J. regarding alcohol service and the conditions out lined in the Security Plan, Attachment 5.

**IMPACT**

Approval will allow Boise State University to continue the practice of serving alcohol in restricted areas during home football and basketball games and to improve the offerings for patrons on game day and provide structured, controlled service of alcohol during pregame activities.

**CONSENT**  
**JUNE 20, 2019**

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Board Policy I.J.2.c, the sale or consumption of alcoholic beverages on campus grounds in conjunction with NCAA athletic events is prohibited except for certain listed pre-game events and service in venue suite areas as described below. Alcohol service at pre-game events and in-suite areas is limited to the locations listed below only. No other locations are allowed. Each year an institution that wishes to seek Board approval must present a written proposal to the Board, at the Board's regularly scheduled June Board meeting for the ensuing year. The proposal must include detailed descriptions and drawings of the areas where events which will include alcohol service will occur. All proposals are subject to the following minimum conditions:

- Pre-game events may be no more than three hours in duration, ending at kick-off, only patrons who hold tickets shall be allowed into the event, the event must be conducted in a secured area with controlled access, and a color coded wrist band or similar identification system must identify attendees as well as those of drinking age.
- In-suite/club rooms areas are restricted to ticketed patrons and guests, the sale of alcohol may begin no sooner than three hours prior to the start of the event and end 75% of way through the event.
- All events require notification to be sent outlining the location and Board alcohol policy and the minimum drinking age in Idaho. Alcohol-making or –distributing companies are not allowed to sponsor events and in no event shall the institution supply or sell alcoholic beverages directly. Food must be available at the event, along with non-alcoholic beverages and all food provider personnel who monitor the sale and consumption of all alcoholic beverages must be provided with TIPS training.
- Additional requirements set minimum security and insurance limits.
- A report is required to be submitted annually to the Board regarding alcohol service and any alcohol related incidents reported in conjunction with the event.

This request is consistent with the request approved by the Board at the June 2018 Board meeting.

**CONSENT  
JUNE 20, 2019**

---

**BOARD ACTION**

I move to approve the request by Boise State University for alcohol service in full compliance with all applicable provisions of Board Policy I.J., including sections I.J.2.c., d, and e, as applicable to the location. Alcohol service is approved for the 2019-2020 football and basketball seasons in the following locations: for pre-game football: Caven Williams Sport Complex, Allen Noble Hall of Fame, and the Alumni and Friends Center; to approve in-suite service in the Stueckle Sky Center; and to approve pre-game service in the following location for basketball: the Double R Ranch Club Room of Taco Bell Arena.

**Boise State University  
2019 Football Season – Albertsons Stadium  
Security Plan  
Caven Williams Sports Complex**

The following report addresses security for alcohol service at Boise State Football games in the Caven Williams Sports Complex. Security plans for the facility are as follows and will be conducted at each home game for the 2019 season. The plan outlines measures taken to ensure that no underage drinking occurs.

There were no serious incidents regarding the pre-game service of alcohol during the 2018 season.

**Caven Williams Sports Complex**

Boise State will create a secure, indoor, area where alcohol consumption can be monitored and contained. The area will be a restaurant-type atmosphere for Boise State football game patrons. As with the previous years, Boise State will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service. In addition, Boise State will conduct the pre-game activities under the following conditions:

**Caven Williams Game Day Staffing**

- Two Crowd Managers at front entrance checking individual passes to all that enter. Only patrons with a valid game ticket will be allowed to enter the facility
- Two Aramark employees (TIPS trained) will check ID's and issue color-coded wrist bands within the over 21 secure area.
- Crowd Manager checking for color-coded wristband stationed at entrance to the queuing area for purchase of alcohol.
- Crowd Manager roaming entire area checking for color-coded wristband and patron behavior.
- Two Crowd Managers patrolling the alcohol-free area of the fan zone to make sure alcohol does not pass onto field area.
- Four Boise State Athletics employees roaming throughout facility identifying any problems that may occur. They will notify security personnel when necessary.
- One Boise State Operations employee designated as venue manager roaming throughout facility identifying any problems that may occur. Will notify security personnel when necessary. Also responsible for checking entrances to secure building ensuring that no one is present without proper credentials.

**Policies for Facility**

- All who enter the Caven Williams Sports Complex must have a valid game ticket. Potential patrons holding a student ticket will not be permitted to enter the facility.

**Boise State University  
2019 Football Season – Albertsons Stadium  
Security Plan and Alcohol Report  
Stueckle Sky Center**

The following report addresses security for alcohol service at Boise State Football games in the Stueckle Sky Center (SSC). Security plans for the Sky Center are as follows and will be conducted at each home game for the 2019 season. The plan outlines measures taken to ensure that no underage drinking occurs.

There have been no serious incidents regarding the service of alcohol during the 2005 through 2018 season.

As with previous years, Boise State will provide all the control measures and follow all requirements of the Board policy regarding alcohol service. Also, Boise State will conduct the activities with the following staff and security in the building on game day.

**Staffing Plan**

The following staffing will be implemented. The staff will be instructed that controlling the prevention of underage drinking of alcohol and/or overindulgence of alcohol is high priority.

- Crowd manager Supervisor – Oversee all patron services staff for the SSC
- Assistant Crowd Management Supervisor – Assist Crowd Management Supervisor in supervision of patron services staff in the SSC

**North Elevator Lobby**

- Crowd Manager stationed at entry point, checks tickets, ensures alcoholic beverages do not enter or leave the facility and assists with patron services duties.
- Crowd Manager during load in and out then will move to the Loge level during the game. Manager checks tickets, ensure alcoholic beverages do not enter or leave the facility and assists with patron services duties.

**South Elevator Lobby**

- Crowd Manager stationed at entry point, checks tickets, ensures alcoholic beverages do not enter or leave the facility and assists with patron services duties.
- Crowd Manager during load in and out then will move to the Club level during the game. Manager checks tickets, ensures alcoholic beverages do not enter or leave the facility and assists with patron services duties.

**Level 3 – Loge Level**

- Crowd Manager at the north stairs stadium to loge level will ensure guests in the stadium do not enter the Sky Center and SSC patrons do not enter the stadium. Manager also assists with patron services duties.

- 
- North Elevator lobby Crowd Manager monitors patrons who enter the Loge Level bar and assists in monitoring alcohol sales at the bar.
  - Club Room Bar Crowd Manager monitors alcohol sales at the bar. Manager also assists with patron services duties.
  - South stairs stadium to Loge Level Crowd Manager ensures guests in the stadium do not enter the Sky Center and SSC patrons do not enter the stadium. Manager also assists with patron services duties.
  - Crowd Manager to rove throughout the Loge Level, assists with patron services duties and monitors alcohol sales in bar and seating area.

**Level 4 – Club Level**

- Club Room Crowd Manager monitors the alcohol sales at the bar. Manager also assists with patron services duties.
- South Stairwell Crowd Manager monitors movement of SSC patrons between the Suite and club level.
- Hallway Crowd Manager roves throughout the hall way, assists with patron services duties and monitors alcohol sales at kiosk.
- Club Lounge Crowd Manager monitors alcohol sales in bar area and assists with patron services duties.
- North Stairwell Crowd Manager monitors movement of SSC patrons between the Suite and club level.
- Club Area Crowd Manager monitors back row of club seating area to ensure the aisle remains clear and assists with patron services duties.
- West Stairs Crowd Manager (between 4<sup>th</sup> and 5<sup>th</sup> floor) monitors movement of SSC patrons between the Suite and club level.
- Crowd Manager to rove between lounge and hallway, assists with patron services duties and assists in monitoring alcohol sales at bar and kiosk.

**Level 5—Suite Level**

- Club Room Bar Crowd Manager monitors the alcohol sales at the bar and assists with patron services duties.
- South Hallway Crowd Manager assists with patron services duties and roves hall way to monitor patrons in the suites.
- North End of Hallway Crowd Manager assists with patron services duties and roves hall way to monitor patrons in the suites.

**Level 6—Press Level**

- Club Room Bar Crowd Manager monitors the alcohol sales at the bar and assists with patron services duties.
- South End Hallway Crowd Manager assists with patron services duties and roves hall way to monitor patrons in the suites.
- North End Hallway Crowd Manager assists with patron services duties and roves hall way to monitor patrons in the suites.

**Policies**

**CONSENT  
JUNE 20, 2019**

**ATTACHMENT 4**

- 
- SSC is enclosed and totally separate from the general seating areas and alcohol service will only be available to patrons with tickets in the Sky Center.
  - There is no access from the general seating area into SSC. Only patrons who hold tickets to seats in the SSC will be allowed into the Sky Center during games.
  - The sale of alcohol will begin no sooner than three hours prior to kick off and will end at the start of the 4th quarter.
  - Security personnel will not allow patrons to exit or enter the area with any food or beverages.
  - The Boise State campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.
  - Boise State will abide by all terms and conditions of the Board's existing alcohol policy.
  - The official food sponsor will be required to insure and indemnify the State of Idaho, the State Board of Education, and Boise State for a minimum of \$2,000,000, and to make sure the proper permits and licenses are obtained.
  - No alcohol making or distributing companies may be allowed to sponsor the activities.
  - Each suite in the SSC shall have a sign displayed prominently with the following statement:

**Laminated info sheet included in all suites placed on refrigerator.**

Boise State has received permission from the State Board of Education to serve alcohol in the Stueckle Sky Center. To continue to provide this service, we will need your help and cooperation.

- Please drink responsibly.
- The University will enforce a **zero tolerance policy** on **alcohol abuse** and **underage drinking** that could result in removal from the Sky Center and revocation of game tickets.
- Underage drinking is against the law and is not allowed anywhere in the Stueckle Sky Center.
- Please keep all items away from open windows. Items dropped or thrown from the suites could seriously injure fans seated below.
- Ticket must be displayed on a lanyard at all times. If you do not have a lanyard, let an usher know so one can be provided.
- Service of alcoholic beverages will cease at the completion of the third quarter.
- Alcoholic beverages are not allowed in the elevators.
- Patrons are not allowed to enter or exit the Stueckle Sky Center with any food or beverage.

**“It is a privilege for us to serve alcohol in the Stueckle Sky Center”**

**Boise State University  
2019-2020 Men's and Women's Basketball Season - Double R Ranch Club Room  
Security Plan  
Taco Bell Arena**

The following report addresses security for alcohol service at Boise State Basketball games in the Double R Ranch Club Room of the arena. Security plans for the facility are as follows and will be conducted at each home game for the 2019-2020 season. The plan outlines measures taken to ensure that no underage drinking occurs.

There were no serious incidents regarding the pre-game service of alcohol during the 2018-2019 season.

**Double R Ranch Club Room**

Boise State will create a secure area where alcohol consumption can be monitored and contained. The area will be a restaurant-type atmosphere for Boise State basketball Hardwood and Fastbreak Club patrons and invited guests. The Double R Ranch Club Room is used by the Taco Bell Arena for VIP events prior to concerts and other commercial events. As such, the Arena operations has experience using the room for secure alcohol service as a pre-event venue. As with the previous years, Boise State will provide all the control measures and follow all requirements of Board Policy I.J. regarding alcohol service. In addition, Boise State will conduct the pre-game activities under the below conditions.

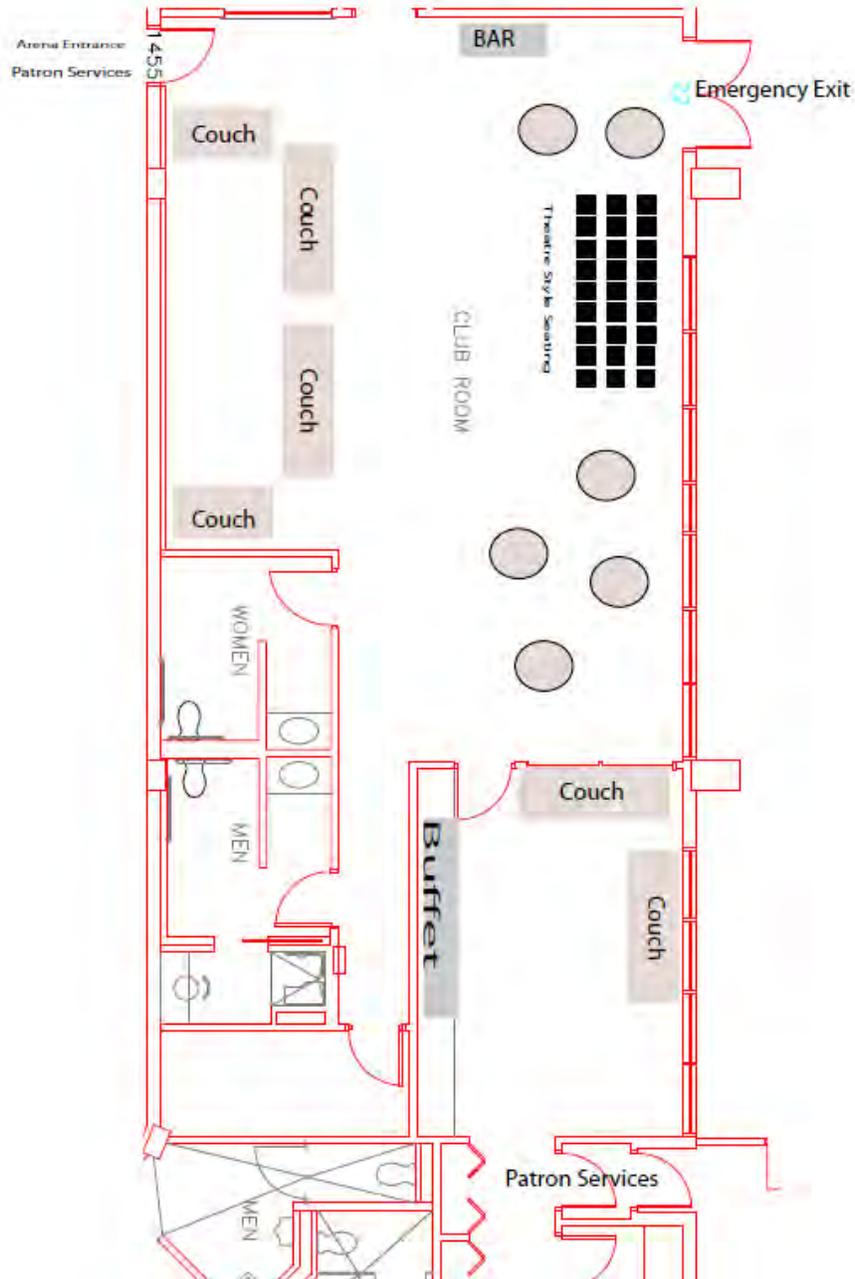

**Double R Ranch Club Room Game Day Staffing**

- One Crowd Manager will be located at the exterior entrance, checking for Hardwood and Fastbreak Club membership credentials for all that enter. Only Hardwood or Fastbreak Club members or invited guests with a membership credential will be allowed to enter the facility.
- One Crowd Manager will be located at the interior entrance, checking for Hardwood and Fastbreak Club membership credentials for all that enter. Only Hardwood or Fastbreak Club members or invited guests with a membership credential will be allowed to enter the facility.
- One Aramark employee (TIPS trained) will check ID's at the bar to ensure attendees receiving alcohol service are over the age of 21.
- Another Crowd Manager will be assigned to roam the entire area checking for membership credentials and patron behavior.
- At least two Boise State Athletics employees will roam throughout the facility, identifying any problems that may occur and will notify security personnel when necessary. In addition, these employees will assist with the responsibility of checking entrances to secure the building, ensuring that no one is present without proper credentials.

**Policies for Facility**

- All who enter the Double R Ranch Club Room must be a Hardwood/Fastbreak Club member or invited guest.
- The event begins 90 minutes prior to tip off and ends at the end of half time. Alcohol will only be provided or sold until the game begins.
- The Double R Ranch Club Room will be secured to control access to and from the area.
- Both entry points into the Double R Ranch Club Room will be manned by security personnel who will check for membership of all patrons entering the facility.
- One ID station will be provided, located inside the facility at the bar, where ID's will be checked to identify attendees over the age of 21.
- Security personnel located throughout the area will be monitoring all alcohol policies, the presence of Hardwood/Fastbreak Club membership credential and patron behavior.
- Security personnel will not allow patrons to exit or enter the secured area with any alcoholic beverages. Only the exterior and interior entrances will be used during the event. Other exits will not be used except as an emergency egress.
- The Boise State campus food provider (Aramark) will carry the alcohol license and insurance and will provide TIPS trained personnel to monitor the sale and consumption of all alcohol to those of legal drinking age only.
- No alcohol making or distributing companies may be allowed to sponsor the event.
- The SBOE alcohol policy as it relates to the Double R Ranch Club Room will be communicated to all Hardwood and Fastbreak Club members and will be posted in the Club Room on game days. Boise State will abide by all terms and conditions of the Board's existing alcohol policy.

Alcohol during tailgating for the 2019 football season, post-season, the Famous Idaho Potato Bowl and the 2020 Spring Game

**REFERENCE**

2013-2017	The Board approved yearly requests to establish secure areas for activities that serve alcohol for the football season, post-season and spring football game.
October 2017	The Board approved revisions to Board Policy I.J. subsection 2.c. and 2.d. establishing designated areas for alcohol service in conjunction with student athletic events and allowing for the consumption of alcohol by game patrons in tailgating areas with prior Board approval.
August 2018	The Board approved a request to allow consumption of alcohol in designated tailgating areas in conjunction with NCAA athletic events for the 2019 football season, post-season and spring football game.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.J – Use of Institutional Facilities and Services with Regard to Private Sector  
Idaho Administrative Code, IDAPA 08.01.08 – 100., Possession, Consumption and Sale of Alcoholic Beverages at Public Higher Education Institutions.

**ALIGNMENT WITH STRATEGIC PLAN**

This is a non-strategic Board governance item.

**BACKGROUND/DISCUSSION**

Boise State University seeks to enhance the game day experience by ensuring secure, safe and enjoyable spaces for patrons to gather prior to games. Athletic events serve as strategic opportunities to build relationships with friends, alumni and donors, which often result in contributions that impact scholarships and academic programs for all students.

Current Board policy allows Idaho institutions to seek approval for the sale or consumption of alcoholic beverages in conjunction with NCAA sporting events. For the past eleven seasons, the Boise State University has consistently received Board approval for the allowance of alcohol service in the Stueckle Sky Center as well as other locations. Boise State University has a history of running successful events with no serious issues or incidents related to the service of alcohol.

In October of 2017, the Board amended Board Policy I.J. to allow alcohol to be consumed, with prior Board approval, at private tailgate spaces that are leased to

**CONSENT**  
**JUNE 20, 2019**

---

patrons for home games. The policy now allows Boise State University to seek approval annually to designate specific parking lots and/or areas of university grounds that will be used for tailgating where alcohol may be consumed by game day patrons.

Accordingly, Boise State University seeks approval to designate the parking and other limited areas shown in orange in Attachment 1 as tailgate areas for the 2019-2020 football season. This includes both traditional parking lot spaces along with some grassy areas where patrons lease small canopies that function the same as traditional parking spaces, albeit without cars. Access to these areas on game day is limited to marked and, in some cases, barricaded entrances where patrons must show proof of authorization to enter.

The University will follow all requirements of Board policy regarding alcohol consumption for tailgating as set forth in policy I.J. Within the tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state laws and regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages, public intoxication, and Boise City Code 6-01-15, Unlawful Consumption of or Possession of Alcoholic Beverages in a Public Place.

The game day timeframe during which tailgating with alcohol consumption that may be authorized by the CEO will fall between 10:00 AM and 10:00 PM, per Board policy. Generally, access to tailgate spaces is limited to four hours before kickoff and lasts until one hour after the game ends, however, this can vary depending on kickoff time and the day of the week that the game is scheduled. Because of this variance, Boise State University seeks approval to allow tailgating for some or all of the time on each game day, between the hours of 10:00 AM and 10:00 PM, as authorized by the President.

Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor. Alcohol may not be taken from the designated tailgate area into any other area. Boise State University will not sell alcohol or serve alcohol in the tailgate area nor license or allow any vendor to sell or dispense alcohol in the tailgate area. Only game patrons who have purchased a space may bring alcohol into the tailgate area for personal use by themselves and their guests.

**IMPACT**

Approval will allow Boise State University to provide pre-game fan experiences for all those who leased or licensed tailgate spaces and their private guests. Boise State University has not had any added expenses with the new policy as security has already been in place in years past for all tailgate areas. This plan also aligns with provisions provided for in the Boise City Code, and thus matches enforcement plans of Boise City Police.

**ATTACHMENT**

Attachment 1 – Layout – Tailgate areas

**STAFF COMMENTS AND RECOMMENDATIONS**

Board Policy Section I.J. allows for the chief executive office to approve limited permits under specific conditions, including the requirement that the events be ticketed or by invitation only, food be provided at the event, the event cannot be in conjunction with any student athletic event and "...the chief executive officer must ensure that the decisions to allow possession and consumption of alcoholic beverages are consistent with the proper image and the mission of the institution." Amendments made to Board Policy I.J. at the October 2017 Regular Board meeting expanded options for institutions, with Board approval, to serve alcohol in conjunction with NCAA student athletic events under specific conditions and specified locations, including the option to establish "tailgating areas" under the following conditions:

- Specific parking lots or limited areas of university grounds must have controlled access as tailgate areas
- Only game patrons authorized by the institution will be allowed to park and tailgate in the designated tailgate areas with their private guests.
- Within tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages and public intoxication.
- Alcohol consumption in tailgating areas shall be limited to the times approved by the Board and at no time shall extend beyond 10:00am through 10:00pm of the day of each NCAA football game hosted by the institution.
- Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor.
- Alcohol may not be taken from the designated tailgate area into any other area.
- The institutions shall not sell alcohol or serve alcohol in the tailgate area nor license or allow any vendor to sell or dispense alcohol in the tailgate area.
- Only private individuals authorized to be in the tailgate area may bring alcohol into the tailgate area for personal use by themselves and their guests.
- Institution sponsored private game-day events at which alcohol may be served by the institution remain subject to the requirements set forth in I.J.2.c.

**BOARD ACTION**

I move to approve the request by Boise State University to establish tailgating areas as identified in orange shading in Attachment 1 in full compliance with the provisions set forth in Board policy I.J.2. and under the conditions set forth in this request for the 2019 football season, including the postseason, the Famous Idaho Potato Bowl, and the spring 2020 scrimmage.

August 2018	Board approved a request to establish tailgating areas where consumption of alcohol by game day patrons may occur for the 2018 football season

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies and Procedures, Section I.J.

**ALIGNMENT WITH STRATEGIC PLAN**

Governance issue. Not aligned with strategic plan.

**BACKGROUND / DISCUSSION**

Board policy I.J.2.c allows identified locations for the service of alcohol on campus in conjunction with athletic events. In accordance with this policy, Idaho State University (ISU) reports that during the 2018 football season the program in place appeared to work well and that there were no reports of violations of the policy or Board approved conditions or incidents of underage drinking. ISU works closely with campus public safety, the Pocatello City Police and other officials to provide a controlled area for service of alcohol prior to home football games.

The Pregame activities this year will again be conducted pursuant to the requirements of Board Policy I.J.2.c.ii as a "Pre-Game Event" in the grass area next to the Sports Medicine Center, identified as area "B" on Attachment 1. ISU will establish a secure area prior to each home Bengal football game, for the purpose of allowing corporate partners, alumni, fans, and invited guests the

**CONSENT**  
**JUNE 20, 2019**

---

opportunity to gather with clients, friends, and guests for the 2019 home football games. In this secure area, Idaho State University Athletics will allow patrons to purchase food and beverages (non-alcoholic and alcoholic). The alcoholic beverages will be sold and served by a licensed provider and ISU's official food service provider in one location, and will be hosted by the Office of the President in a private area. Idaho State University will provide control measures and follow all requirements of Board Policy I.J.2.c.ii. regarding alcohol service.

Further, pursuant to Policy I.J.2.d., the Bengal Athletic Boosters, consistent with previous years, sells continuous parking spots to patrons for the purpose of hosting private pre-game activities in RVs, tents and otherwise arranged configurations. These private sites are made available for setup beginning at 10 am on game days, concluding no later than 10 pm. University public safety officers and Pocatello police officers provide access control at all major entrances to the designated area. The following are the dates of the football games for the 2019 season. 9/5/2019, 9/28/2019, 10/12/2019, 11/2/2019, and 11/9/2019.

**IMPACT**

Board approval will allow ISU to conduct its pre-game activities consistent with the requirements of Board Policy I.J. for the 2019 football season.

**ATTACHMENTS**

Attachment 1 - Map of Designated Area – Holt Arena Full Aerial View

**STAFF COMMENTS AND RECOMMENDATIONS**

The sale or consumption of alcoholic beverages on campus grounds in conjunction with NCAA athletic events is prohibited except for certain listed pre-game events and service in venue suite areas as described below. Alcohol service at pre-game events and in-suite areas is limited to the locations listed below only. No other locations are allowed. Each year an institution that wishes to seek Board approval must present a written proposal to the Board, at the Board's regularly scheduled June Board meeting for the ensuing year. The proposal must include detailed descriptions and drawings of the areas where events which will include alcohol service will occur. The proposal must meet the following criteria and, upon review by the Board, may also include further criteria and restrictions in the Board's discretion. To be compliant with Board policy I.J. all pre-game events must meet the following criteria:

- 1) The event must be conducted during pre-game only, no more than three-hours in duration, ending at kick-off.
- 2) Only patrons who hold tickets to the football game shall be allowed into the event.
- 3) The event must be conducted in a secured area surrounded by a fence or other methods to control access to and from the area. There must be no more than two entry points manned by security personnel where ID's are checked and special colored wrist bands issued (or similar identification system).

**CONSENT**  
**JUNE 20, 2019**

---

- 4) A color-coded wrist band (or similar identification) system must identify attendees and invited guests, as well as those of drinking age. No one under the legal drinking age shall be admitted into the alcohol service and consumption area of an event. The area shall be clearly marked and shall be separated in a fashion that entry into the area and exit from the area can be controlled to ensure that only those authorized to enter the area do so and that no alcoholic beverages leave the area.

All events, pre-game and in-suite, must meet the following requirements:

- 1) All ticket holders to the event must be sent a communication outlining the location and Board alcohol policy. The communication must state the minimum drinking age in Idaho is 21 and that at no time is underage drinking and/or serving of alcohol to visibly intoxicated persons allowed.
- 2) Alcohol-making or -distributing companies are not allowed to sponsor the event. In no event shall the institution supply or sell alcoholic beverages directly. In no event shall invitees or participants in such event be allowed to bring alcoholic beverages into the area, or leave the defined area where possession and consumption is allowed while in possession of an alcoholic beverage.
- 3) The food provider must provide TIPS trained personnel who monitor the sale and consumption of all alcoholic beverages to those of drinking age. Any required local catering permit, and applicable state or local alcoholic beverage permits, shall be posted in a conspicuous place at the defined area where alcoholic beverages are authorized to be possessed and consumed.
- 4) Food must be available at the event. Non-alcoholic beverages must be as readily available as alcoholic beverages.
- 5) Security personnel located throughout the area must monitor all alcohol wristband policies and patron behavior.
- 6) Event sponsors/food providers must be required to insure and indemnify the State of Idaho, the State Board of Education and the institution for a minimum of \$2,000,000, and must obtain all proper permits and licenses as required by local and state ordinances. All applicable laws of the State of Idaho and the local jurisdiction with respect to all aspects of the event, including the possession, sale and consumption of alcoholic beverages, must be complied with. Event sponsors/food providers supplying the alcoholic beverages shall assume full responsibility to ensure that no one under the legal drinking age is supplied with any alcoholic beverage or allowed to consume any alcoholic beverage at the event. Further, event sponsors/food providers must provide proof of insurance coverage, including host liquor liability and liquor legal liability, in amounts and coverage and coverage limits sufficient to meet the needs of the institution, but in no case less than \$1,000,000 minimum coverage per occurrence. Such insurance must list the event sponsor/food provider, the institution, the State Board of Education and the State of Idaho as

**CONSENT  
JUNE 20, 2019**

---

additional insureds, and the proof of insurance must be in the form of a formal endorsement to the policy evidencing the coverage and the required additional insureds.

- 7) A report must be submitted to the Board annually with details on alcohol service in conjunction with athletic events including any alcohol related incidents reported at a time and in a format set by the Executive Director.

By indicating that the institution will comply with Board policy in their request they are indicating they will abide by all of the conditions listed above.

Additionally, Board policy I.J.2.d allows the institutions chief executive officers to designate (subject to annual board approval) specific parking lots or limited areas of university grounds with controlled access as tailgate areas for home NCAA football games or NCAA bowl games hosted by the institution. Only game patrons authorized by the institution will be allowed to park and tailgate in the designated tailgate areas with their private guests. Locations, times and dates must be submitted to the Board for approval as part of the request process.

If approved by the Board, within tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages and public intoxication. Alcohol consumption in tailgating areas shall be limited to the times approved by the Board and at no time shall extend beyond 10:00am through 10:00pm of the day of each NCAA football game hosted by the institution. Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor. Alcohol may not be taken from the designated tailgate area into any other area.

Idaho State Board of Education Governing Policies & Procedures, I.J – Use of Institutional Facilities and Services With Regard to the Private Sector  
Idaho Administrative Code, IDAPA 08.01.08 – 100., Possession, Consumption, and Sale of Alcoholic Beverages at Public Higher Education Institutions.

**ALIGNMENT WITH STRATEGIC PLAN**

Governance issue. Not aligned with strategic plan.

**BACKGROUND/DISCUSSION**

The University of Idaho (UI) seeks approval from the Board to continue its practice whereby in a secure area, patrons may purchase food and beverages (nonalcoholic and alcoholic) from Sodexo, the university’s official food service provider, as part of home football pre-game activities. The university will follow all requirements of Board policy regarding alcohol service, and will conduct the pre-game events under the conditions set out in Board policy I.J.2. As per Board Policy I.J.2.c.iii.(1) a color-coded wristband system will serve to identify all authorized attendees and guests, with a separate wrist band clearly identifying those of drinking age. Underage children will not be allowed into the alcohol service area.

The UI creates a restaurant-type atmosphere within the secure areas. Feedback on the events has been very positive, and fans appreciated the opportunity to participate in pre-game events. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities. In managing its pre-game functions, the UI seeks to provide a family oriented, safe, fun, and exciting atmosphere that promotes attendance and enhances the game experience.

The Student Activities Field and North Kibbie Field, will be the location for the secure areas where food and beverage service (including alcoholic beverages) will take place. Within the secure area there will be space for the President’s Circle Pre-Game Function, and for Corporate Tents, including the university’s athletic marketing agent (Learfield). These functions provide an opportunity for the University and for corporate sponsors to reward employees and say “thank you” to valued customers and supporters by hosting private functions. This area is located on the north and east side of the ASUI-Kibbie Dome.

Service of alcohol at the President’s Pre-game Function and the Corporate/Guest Institution Events will be through tents creating a controlled area for monitoring attendance and consumption, with service limited to a specific area within the tents. Minors will not be allowed in the alcohol service area and no alcohol will be allowed to leave the service area. This layout allows the institution to control all events permitted for pre-game service of alcohol.

Service of alcohol in the Vandal Fan Zone has been discontinued. Instead the

**CONSENT**  
**JUNE 20, 2019**

---

University operates a tent within the tailgating area where food and non-alcoholic refreshments are sold along with Vandal Gear. This was well received during the first year of tailgating and offers a shaded area for gathering as well as a source of food and non-alcoholic beverages to those in the tailgating area.

Again there have been no serious incidences regarding the pre-game service of alcohol through the 2018 football season and the 2019 spring practice football game where service has been approved. The UI creates a restaurant-type atmosphere within the secure areas. Feedback on the events has been very positive, and fans appreciated the opportunity to participate in pre-game events. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities.

**IMPACT**

Approval will allow the University of Idaho to continue to serve alcohol in the approved areas within the limits of Board Policy I.J.

**ATTACHMENTS**

Attachment 1 – Maps and Drawings of Service Areas

**STAFF COMMENTS AND RECOMMENDATIONS**

Board Policy Section I.J. prohibits the sale or consumption of alcoholic beverages on campus grounds in conjunction with NCAA athletic events except for certain listed pre-game events. Alcohol service at pre-game events and in-suite areas is limited to the locations listed below only. Board policy specifically states “No other locations are allowed”. Each year an institution that wishes to seek Board approval must present a written proposal to the Board at the Board’s regularly scheduled June Board meeting for the ensuing year. The proposal must include detailed descriptions and drawings of the areas where events which will include alcohol service will occur. Approved locations for the University of Idaho are:

- Lighthouse Center/Bud and June Ford Club Room (In-suite/Club Room football and basketball)
- President’s/Corporate Tents – activities field north end (Pre-game football)

The proposal must meet all of the criteria specified in Board Policy I.J. and, upon review by the Board, may also include further criteria and restrictions in the Board’s discretion. The institutions indication that they approval includes compliance with Board Policy I.J. includes the requirement that the institutions will follow all of the location restrictions as well as other criteria.

**ALIGNMENT WITH STRATEGIC PLAN**

Board Governance Item

**BACKGROUND/DISCUSSION**

The current Board policy provides that Idaho institutions may seek approval for the sale or consumption of alcoholic beverages in conjunction with NCAA athletic events. The University of Idaho (UI) seeks continued approval to allow ticketed and authorized patrons in the Litehouse Center to purchase food and beverages (non-alcoholic and alcoholic) from Sodexo, the university's official food service provider, before and during home football games in the 2019 football season as well as for the 2020 Spring Football Scrimmage Game, for the Litehouse Center/Bud and June Ford Club Room (Center) in the ASUI-Kibbie Activity Center (ASUI-Kibbie Dome). The university will follow all requirements of Board policy I.J.2.c regarding alcohol service in conjunction with home football games.

In addition, the UI seeks continued approval to allow ticketed and authorized patrons of the Center to purchase food and beverages (non-alcoholic and alcoholic) from Sodexo, the university's official food service provider, before and during home basketball games in the 2019-20 basketball season, including post-season games, for the Litehouse Center/Bud and June Ford Club Room (Center) in the ASUI-Kibbie Activity Center (ASUI-Kibbie Dome). The university will follow all requirements of Board policy I.J.2.c regarding alcohol service in conjunction with home basketball games.

Further:

- The Center is an enclosed secured area within the ASUI-Kibbie Activity Center which is separate from general ticketed seating areas and which will only be available to patrons with tickets to the Center.
- There is no access from the general seating area into the Center and only patrons who hold tickets to seats within the Center will be allowed into the Center during games.
- All entry points to Center Suites and the Center Clubroom area (identified in the attached drawings) will be staffed with trained security personnel.
- In addition, Security Personnel will be located within the Center to monitor activities within the suites and clubroom.
- The university's food service provider (Sodexo) will provide the alcohol license and will provide TIPS trained personnel to conduct the sale of all alcoholic beverages in conjunction with Sodexo's provision of food and non-alcoholic beverages.
- The university and Center Patrons will abide by all terms and conditions of the Board policy and any other conditions placed by the Board. Violation of Board policy of additional conditions by Center Patrons will result in action by the university up through removal from the Center and forfeiture of Center game tickets.

Again, there have been no serious incidences regarding the pre-game service of alcohol through the 2018 football seasons and 2019 football spring scrimmage game where service has been approved. The UI continues to strive for a restaurant-type atmosphere within the secure areas. Feedback on the

**CONSENT**  
**JUNE 20, 2019**

**CONSENT**  
**JUNE 20, 2019**

---

**UNIVERSITY OF IDAHO**

**SUBJECT**

Tailgating for the 2019 football season, including post-season, and the 2020 Spring Game.

**REFERENCE**

2004-2017	Each year the Board approved the request by UI to establish secure areas for pre-game activities that serve alcohol for the football season.
October 19, 2017	Board approved revisions to Board Policy I.J. subsection 2.c to revise requirements applicable to pre-game activities which encompass consumption of alcohol by game patrons tailgating in designated areas.
June 21, 2018	Board approved consumption of alcohol by game patrons tailgating in designated areas for the 2018 football season including post-season and the 2019 Spring Game.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, I.J – Use of Institutional Facilities and Services With Regard to the Private Sector  
Idaho Administrative Code, IDAPA 08.01.08 – 100., Possession, Consumption, and Sale of Alcoholic Beverages at Public Higher Education Institutions.

**ALIGNMENT WITH STRATEGIC PLAN**

Board governance item

**BACKGROUND/DISCUSSION**

The current Board policy provides that Idaho institutions may seek approval for the sale or consumption of alcoholic beverages in conjunction with NCAA sporting events. The University of Idaho (UI) has consistently made and had requests approved by the Board for alcohol services in combination with home football games and has a history of having no serious issues or concerns related to service of alcohol in conjunction with NCAA sporting events.

The UI seeks continued approval from the Board to allow consumption of alcohol by home football game patrons tailgating in designate areas on the University campus in Moscow. The University will follow all requirements of Board policy regarding alcohol consumption at tailgating as set out in Board policy I.J.2. In managing its game day functions, the UI seeks to provide a family oriented, safe, fun, and exciting atmosphere that promotes attendance and enhances the game experience. These types of functions are beneficial to the university and are strategic friend- and fund-raising opportunities.

**CONSENT**  
**JUNE 20, 2019**

---

The parking lots designated as Lots 34, 57, 57E and 110, as shown in attachment 1 hereto, will be those to be designated, in whole or in part, by the President for tailgating activities where private alcohol may be consumed. Access to these lots on game day is limited to the Stadium Drive entrance and all patrons allowed to park in the designated lots must pass through this entrance and present proof of authorization to park.

The game-day timeframe during which tailgating with alcohol consumption that may be authorized by the President will fall between 10:00 AM and 10:00PM. The University seeks approval to allow tailgating within some or all of the parking area designated in Attachment 1. This will allow the President flexibility to adjust the number of areas if and where deemed necessary as the university monitors game day conduct in these areas. Likewise, the University seeks approval to allow tailgating for some or all of the time on each game day, between the hours of 10:00 AM and 10:00 PM. This too will allow the President flexibility to adjust if deemed necessary as the university monitors game day conduct during tailgating.

**IMPACT**

Approval will allow the University to continue to permit alcohol consumption in the tailgating areas in the same fashion as was done in 2018.

The impact of new tailgating rules during the 2018 football season was very positive. Fans appreciated the clarity regarding appropriate consumption of alcohol and accepted the underlying rules well. Any issues of fan conduct were handled by University security and by the Moscow Police Department in the ordinary course of their security and law enforcement work within the tailgating area. A small number of RV's (6 approximately) were allowed to park in an area of the North Kibbie Field that was designated for pre-game events. This occurred after the normally available RV parking filled up. These fans followed the tailgating rules regarding consumption of alcohol without incident, but were in fact outside the approved tailgating area. This was an administrative oversight by the University, not a knowing violation of rule by the fans. This has been resolved internally with University Event Services and Athletics Ticket Sales personnel and will not occur again. Additionally, RV parking will not occur in that area.

The University is not seeking any change in the designated tailgating areas or times.

**ATTACHMENTS**

Attachment 1 – Map of designated areas where tailgating is to be authorized

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Board Policy I.J. the CEO of each institution may designate (subject

**CONSENT**  
**JUNE 20, 2019**

---

to annual board approval) specific parking lots or limited areas of university grounds with controlled access as tailgate areas for home NCAA football games or NCAA bowl games hosted by the institution. Only game patrons authorized by the institution will be allowed to park and tailgate in the designated tailgate areas with their private guests. Locations, times and dates will be submitted to the Board for approval.

Within tailgate areas, authorized game patrons and their private guests may consume alcohol as long as they abide by all local and state regulations governing alcohol usage including, but not limited to, minor in possession or consumption of alcoholic beverages and public intoxication. Alcohol consumption in tailgating areas shall be limited to the times approved by the Board and at no time shall extend beyond 10:00am through 10:00pm of the day of each NCAA football game hosted by the institution. Alcohol beverages must be held in an opaque container that is not labeled or branded by an alcohol manufacturer or distributor. Alcohol may not be taken from the designated tailgate area into any other area.

The institutions may not sell alcohol or serve alcohol in the tailgate area nor license or allow any vendor to sell or dispense alcohol in the tailgate area. Only private individuals authorized to be in the tailgate area may bring alcohol into the tailgate area for personal use by themselves and their guests. Each institution may place additional restrictions on activities in the tailgate area as seen fit to maintain order in the area.

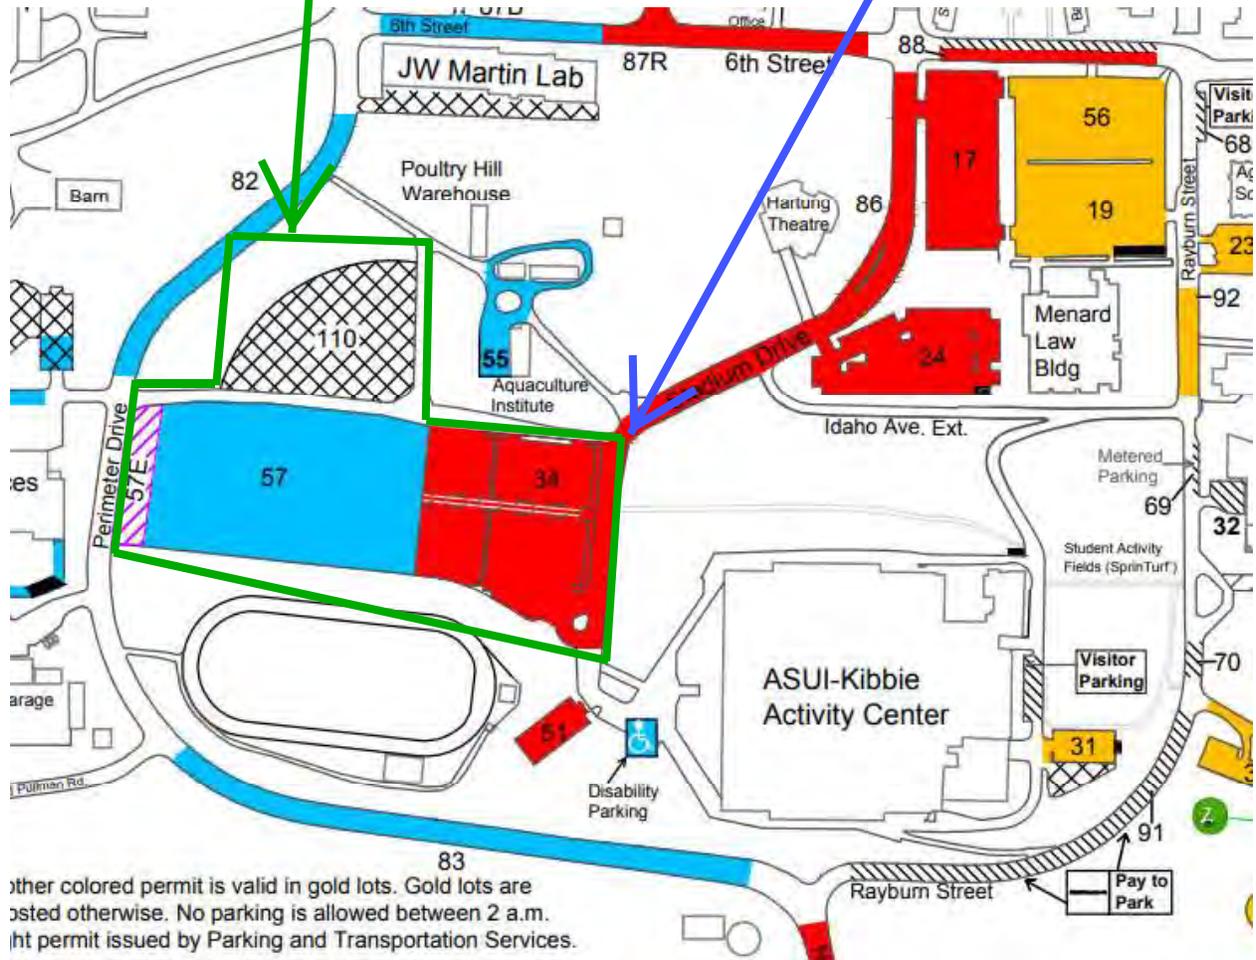

**BOARD ACTION**

I move to approve the request by the University of Idaho for authority to establish tailgating areas where consumption of alcohol by game patrons may occur in parking lots 34, 57, 57E and 110 as shown in Attachment 1 and under the conditions set forth in this request and in full compliance with all provisions set forth in Board policy I.J.2 during the 2019 football season, including post-season home games, and the spring 2020 football scrimmage, with a post-season report brought back to the Board.

**PROFESSIONAL STANDARDS COMMISSION**

**SUBJECT**

Brigham Young University-Idaho 2018 Educator Preparation Program Review: State Program Approval Review Team Report and the Council for Accreditation of Educator Preparation (CAEP) Site Visit Report

**REFERENCE**

February 2012	Board accepted the Professional Standards Commission's recommendation to accept the 2011 state team program approval report thereby granting program approval of ECE/ECSC Blended, Elementary Education, English Language Arts, Foreign Language, Health, Mathematics, Physical Education, Professional Technical Education (Foundation Standards), Agriculture Education, Family and Consumer Science, Science (Foundation Standards), Biology, Earth and Space Science, Physics, Social Studies (Foundation Standards), Economics, Geography, , History Government/Civics, Drama, Visual/Performing Arts (Foundation Standards), Music-NASM Accredited, and Visual Arts at Brigham Young University - Idaho.
---------------	--

**APPLICABLE STATUTE, RULE, OR POLICY**

Sections 33-114, 33-1254, 33-1258; Idaho Code  
Idaho Administrative Code, IDAPA 08.02.02, Section 100 - Official Vehicle for the Approval of Teacher Preparation Programs

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 4: Workforce Readiness, Objective A: Workforce Alignment

**BACKGROUND/DISCUSSION**

The Professional Standards Commission (PSC) is tasked with reviewing all State Board-approved teacher preparation programs. From October 23 through October 26, 2018, the PSC convened a State Review Team composed of twelve (12) content experts and two (2) state observers to conduct a full unit review of the Brigham Young University-Idaho (BYU-I) educator preparation program. As part of this review process, the Council for the Accreditation of Educator Preparation (CAEP) held a concurrent review with a separate CAEP Review Team.

The purpose of the on-site review was to determine if sufficient evidence was presented indicating that candidates at BYU-I meet state standards for initial certification. The standards used to validate the State Report were the State Board of Education-approved *Idaho Standards for the Initial Certification of Professional School Personnel*. State Board-approved knowledge, performance, and

**CONSENT**  
**JUNE 20, 2019**

---

disposition indicators were used to assist team members in determining how well standards were being met. Idaho Core Teaching Standards, State Specific Requirements, and individual program foundation and enhancement standards were reviewed.

Team members looked for a minimum of three applicable pieces of evidence provided by the institution to validate each standard. This evidence included but was not limited to: required course syllabi, required course assignments and rubrics, required course exams, Praxis scores, area specific binder documentation provided by BYU-I, evidence room website/portal, as well as interviews with candidates, completers, BYU-I faculty and staff, mentor teachers, and supervisors, as well as district/school administrators. After the site visit and review of the State and CAEP Reports, BYU-I submitted rejoinders to the CAEP report, as well as supporting documentation. The Standards Committee of the PSC reviewed all documents at the PSC meeting on January 24, 2019. The State Team Report was recommended for approval.

The rejoinder to the CAEP Report addresses CAEP Standards 1-5. The Standards Committee of the PSC studied the rejoinder and supporting documents and recommended the full PSC granting BYU-I “Conditional Approval” for CAEP. The Standards Committee of the PSC also discussed and ultimately recommended that BYU-I be required to submit annual reports to further support continuous improvement, systematic changes, and alignment with the most recent CAEP and State educator preparation standards. Therefore, at the full PSC meeting on January 25, 2018, the PSC voted to recommend acceptance of the CAEP State Team Report and State Team Report as written, with the following changes: Moving the CAEP Program Approval to Conditional Approval for the unit on Standards 1 – 5. Additionally, in preparation for the State Mid-Cycle Focus Review in Fall 2021, the PSC recommends BYU-I submit Annual Reports to the PSC on June 1, 2020 and June 1, 2021 (following the *Standards for Initial Certification of Professional School Personnel for Program Reviews* after July 1, 2020).

**IMPACT**

The recommendations in this report will enable BYU-I to continue to prepare teachers in the best possible manner, ensuring that all state and CAEP teacher preparation standards are being effectively embedded in their teacher preparation programs.

**ATTACHMENTS**

- Attachment 1 – 2018 BYU-I State Team Report
- Attachment 2 – 2018 BYU-I CAEP State Team Report and Rejoinder

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-114, Idaho Code, the review and approval of all teacher preparation programs in the state is vested in the State Board of Education. The program reviews are conducted for the Board through the Professional Standards

**CONSENT**  
**JUNE 20, 2019**

---

Commission (Commission). Recommendations are then brought forward to the Board for consideration. The review process is designed to ensure the programs are meeting the Board-approved standards for Initial Certification of Professional School Personnel (Certification Standards) for the applicable program areas. Certification Standards are designed to ensure that educators are prepared to teach the state content standards for their applicable subject areas and are up-to-date on best practices in various teaching methodologies.

Current practice is for the Commission to review new programs and make recommendations to the Board regarding program approval. New program reviews are conducted through a “Desk Review” and do not include an on-site review. The Commission review process evaluates whether or not the programs meet or will meet the approved Certification Standards for the applicable certificate and endorsement area. The Commission may recommend to the Board that a program be “Approved,” “Not Approved,” or “Conditionally Approved.” Programs conditionally approved are required to have a subsequent focus visit. The focus visit is scheduled three years following the conditional approval, at which time the Commission forwards a new recommendation to the Board regarding approval status of the program.

Once approved by the Board, candidates completing these programs will be able to apply for a Standard Instructional Certificate with an endorsement in the area of study completed or Pupil Service Certificate as applicable to the area of study.

**BOARD ACTION**

I move to accept the recommendation of the Professional Standards Commission to accept the 2018 Brigham Young University-Idaho State Team Report and CAEP State Team Reports and grant conditional approval for the units on standards 1-5 and continued approval for all other areas as identified in Attachments 1 and 2.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

AND

I move to accept the recommendation of the Professional Standards Commission to require Brigham Young University-Idaho to submit annual reports to the Professional Standards Commission on June 1, 2020 and June 1, 2021. The report will follow the standards identified in the 2020 *Standards for Initial Certification of Professional School Personnel* for Program Reviews after July 1, 2020.

## Introduction

Brigham Young University - Idaho (BYU-Idaho) is a private four-year university owned and operated by The Church of Jesus Christ of Latter-day Saints. Established in 1888, the institution's 255-acre campus is located in Rexburg, Idaho, an agricultural community in the heart of the Upper Snake River Valley.

The purpose of the on-site review was to determine if sufficient evidence was presented indicating that candidates at Brigham Young University-Idaho (BYU-I) meet state standards for beginning teachers. The review was conducted by an eleven-member state program approval team accompanied by two state observers/reviewers.

The standards used to validate the Institutional Report were the State Board of Education–approved Idaho Standards for the Initial Certification of Professional School Personnel. State Board–approved rubrics were used to assist team members in determining how well standards are being met.

Core standards, foundational standards as well as individual program enhancement standards were reviewed. Only foundational and enhancement standards are subject to approval. Core standards are not subject to approval, since they permeate all programs but are not in themselves a program.

Team members used a minimum of three sources of evidence to validate each standard, including but not limited to: course syllabi, intern student handbooks, course evaluations both formal and informal, course assignments, Praxis II , Praxis PLT, and Idaho Literacy Assessment test results, portfolios, work samples, letters of support, transcript analysis, surveys and access to BYU-I's accreditation site at [www.box.net](http://www.box.net). In addition to this documentation, team members conducted interviews with candidates, completers, university administrators, full-time and adjunct university faculty, clinical supervisors, PreK-12 principals and cooperating teachers.

A written state team report will be submitted to the unit, which has the opportunity to submit a rejoinder regarding any factual item in the report or identify any area that might have been overlooked by the team. The final report and the rejoinder will be submitted to the Professional Standards Commission (PSC) for review and approval. Upon approval by the PSC, the report will be submitted to the State Board of Education for final approval. Final approval by the State Board will entitle the unit dean, or designee, to submit an institutional recommendation to the State Department of Education/Certification and Professional Standards noting that the candidate graduating from the approved program is eligible to receive pertinent state certification.

CORE

RUBRICS – Idaho Core Teacher Standards

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.***

Element	Unacceptable	Acceptable	Target
1.1 Understanding Subject Matter		X	
1.2 Making Subject Matter Meaningful		X	

1.1 BYU-I teacher education required coursework, required course syllabi, faculty interviews, Praxis II scores, clinical supervisor, cooperating teacher, and candidate survey results and observation evaluation sheets provide evidence that candidates demonstrate adequate knowledge of the content that they plan to teach. Required course reading assignments and faculty interviews indicate that candidates understand the ways new knowledge in the content area is discovered. Praxis II results as well as PLT Praxis reported results indicate that over eighty percent of the candidates meet or exceed the qualifying scores on Idaho State Board-required academic examination(s). According to interviews and clinical practice checklists, candidates are required to pass their Praxis II exams prior to their clinical internship.

1.2 Observations of candidates and student teachers, evaluation sheets, work samples, portfolios, and interviews with faculty, candidates, supervisors, administrators, and cooperating teachers indicate that candidates create learning experiences that make the content taught meaningful to students. One candidate was observed teaching an explicit vocabulary lesson and she specifically in a short 15 minute observation found a way to make all the given vocabulary words from a 5<sup>th</sup> grade reading story meaningful to her students in multiple ways. It was obvious in that short amount of time that she knew her audience and their backgrounds well enough to create these connections.

***Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.***

Element	Unacceptable	Acceptable	Target
2.1 Understanding Human Development and Learning		X	
2.2 Provide Opportunities for Development		X	

2.1 Perusal of required course syllabi, required course readings, reflections regarding the assignments, and interviews of candidates and cooperating teachers indicates that candidates demonstrate an adequate understanding of how students learn and develop.

2.2 Interviews with candidates, cooperating teachers, faculty, and clinical supervisors, and administrators as well as work samples, observations, and required course assignments indicate that candidates provide opportunities to support students' developmental stages and growth.

***Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are modified for students with diverse needs.***

Element	Unacceptable	Acceptable	Target
3.1 Understanding of Individual Learning Needs		X	
3.2 Modifying Instruction for Individual Learning Needs		X	

3.1 Required course syllabi, interviews with faculty regarding cohort meeting topics, required readings from coursework and interviews with faculty indicate that candidates demonstrate an adequate understanding of how students differ in their approaches to learning. The required courses SPED 310 for elementary education and ECE/ECSE majors and SPED 360 for

secondary education students provides a broad overview of a variety of individual learning needs on both the high and low end of the learning continuum. Candidates are introduced to a variety of needs and perspectives throughout the course, required course readings and required coursework. Additional required coursework topics found in literacy and other content area syllabi provide the opportunity for more specific learning challenges in the various content areas.

3.2 Interviews with candidates, cooperating teachers, and faculty, as well as observations, lesson plans from required coursework and work samples reflect evidence that candidates modify instructional opportunities to support students with diverse needs. However, perusal of required course work including lesson plans from various courses, and assessment rubrics indicate that there are varied expectations throughout the program for making modification for individual learning needs. Some courses seemed to require extensive modification and lesson plans found were able to show this evidence, however other courses did not seem to have that as a part of the requirement as lesson plans from those courses did not have any place for modifications in the plan. Modifications found seemed to rely heavily on making modification for struggling and striving readers. No lesson plans were found indicating modification being made for student on the gifted and talented end of the learning spectrum. Interviews with cooperating teachers and candidates themselves suggested that candidates are weak in their knowledge of how to adapt and modify instruction for ELL students.

***Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.***

Element	Unacceptable	Acceptable	Target
4.1 Understanding of multiple instructional strategies		X	
4.2 Application of multiple instructional strategies			X

4.1 Required course syllabi, faculty interviews, course assignments, and observation forms, and survey results indicate that candidates demonstrate an adequate understanding of instructional strategies. Multiple interviews indicated that candidates felt that faculty did a great job of modeling multiple instructional strategies in their delivery of content to the candidates in class.

4.2 Observations of student teachers, interviews with candidates, cooperating teachers, and formal evaluation forms as well as work samples and portfolios provide evidence that consistently and effectively use a variety of appropriate instructional strategies. In just one observation of a candidate, it was noted that the candidate utilized whole group direct instruction, kinesthetic learning, individual work, and cooperative learning groups to help reach her objective. Many interviews indicated that candidates were able to consistently use varied instructional strategies in order to help their students reach the learning goals.

***Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.***

Element	Unacceptable	Acceptable	Target
5.1 Understanding of Classroom Motivation and Management Skills	X		
5.2 Creating, Managing, and Modifying for Safe and Positive Learning Environments	X		

5.1 Required course syllabi, interviews with faculty, candidates, and cooperating teachers, as well as survey results, provide little or no evidence that all teacher candidates demonstrate an adequate understanding of the principles of motivation and management for safe and productive student behavior. Multiple times, ED 242- Motivation and Management was brought up as an excellent course that provided multiple opportunities to learn about motivation and management strategies in the classroom. However this is only a required course for elementary education and ECE/ECSE majors. Also it should be noted that there is quite a distinct difference in the goals, objectives, and course assignments between the 2 syllabi provided by faculty teaching this course. This reflects that candidates are receiving quite different instruction even within the same course.

5.2 Interviews with cooperating teachers, candidates, clinical supervisors, and administrators as well as observations and survey comments indicate that there is little or no evidence that all teacher candidates are able to create, manage, or modify learning environments to ensure they are safe and productive. Some programs including PE, and Drama, provided wonderful examples of how motivation and management techniques were utilized to promote positive and safe learning environments. However, data within other programs was more inconsistent as to how these techniques were included within the required curriculum.

***Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.***

Element	Unacceptable	Acceptable	Target
6.1 Communication Skills		X	
6.2 Application of Communication Skills		X	

6.1 Syllabi, required course assignment instructions, rubrics, and work sample guidelines all indicate that candidates demonstrate an adequate ability to model and use communication skills appropriate to professional settings. All perused syllabi noted that standard English and grammar was a requirement for coursework turned in. Syllabi established a high expectation for quality work.

6.2 Observations of student teachers, interviews with cooperating teachers, work samples, portfolios, and other required course assignments indicated that candidates create learning experiences that promote student learning and communication skills. Several observations included instances where the candidate was requiring communication skills from her students and multiple times it was noted that best handwriting be utilized, correct punctuation was required, and/or a proper presentation voice be used.

***Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.***

Element	Unacceptable	Acceptable	Target
7.1 Instructional Planning Skills		X	
7.2 Instructional Planning		X	

7.1 Perused syllabi, required course work including lesson plans, cooperating teacher surveys and evaluations, and field experience requirements provide evidence that candidates demonstrate an adequate understanding of how to plan and prepare instruction based upon consideration of knowledge of subject matter, students, the community, and curriculum goals.

7.2 Work samples, portfolios, observed lesson plans, interviews, and student teacher evaluations indicate that candidates plan and prepare instruction based upon consideration of subject matter, students, the community, and curriculum goals. However, it should be noted that candidates in secondary education who take ED 361 for their content methods are allowed to choose between creating a work sample or creating a course calendar and therefore may not have many opportunities to create lesson plans based on knowledge of subject matter, students, the community and curriculum goals prior to student teaching. Interviews indicated that some secondary candidates felt the need for more practice with instructional planning prior to student teaching.

***Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.***

Element	Unacceptable	Acceptable	Target
8.1 Assessment of Student Learning		X	
8.2 Using and Interpreting Program and Student Assessment Strategies		X	

8.1 Required course syllabi, required course assignments, and interviews with faculty and candidates indicate that candidates demonstrate an adequate understanding of formal and informal student assessment strategies to evaluate and advance student performance. However, it should be noted that there was little evidence from syllabi and course requirements that all candidates receive instruction on how to utilize assessment strategies in order to determine teaching effectiveness.

8.2 Perused work samples and portfolios, interviews with cooperating teachers and candidates, lesson plans provided for required course work, and student teaching evaluation forms indicate that candidates use and interpret formal and informal assessment strategies to evaluate and advance student performance. Interviews with cooperating teachers as well and observations found an abundance of both formal and informal assessment strategies being utilized by candidates. However, there was not much evidence provided in observations, interviews and data that indicated that candidates were utilizing this assessment data to determine teaching effectiveness.

***Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.***

Element	Unacceptable	Acceptable	Target
9.1 Professional Commitment and Responsibility as Reflective Practitioners		X	
9.2 Developing in the Art and science of Teaching		X	

9.1 Perusal of required course syllabi, course assignments, lesson plan templates, and scoring rubrics as well as interviews with university faculty and students indicates that candidates demonstrate an adequate ability to be reflective practitioners who are committed to their profession. Candidates are required in several courses to reflect upon their lessons as well as observations, course readings, and in other course assignments.

9.2 Work samples, observed lesson plans, portfolios and interviews with candidates, cooperating teachers, and principals indicate that candidates display an adequate ability to engage in purposeful mastery of the art and science of teaching. Candidate interviews and work samples provided multiple evidences of reflection upon various teaching situations.

***Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well being.***

Element	Unacceptable	Acceptable	Target
10.1 Interacting Professionally and Effectively with Colleagues, Parents, and Community in Partnerships		X	

10.2 Interacting Professionally and Effectively with Colleagues, Parents, and Community in Partnerships		X	
---	--	---	--

10.1 Course assignments, stated expectations from syllabi, as well as interviews with candidates and university faculty indicate that candidates understand how to professionally and effectively collaborate with colleagues, parents, and other members of the community to support students' learning and well-being. Several course assignments require candidates to collaborate with each other and the community in order to complete the assignment successfully. Candidates are evaluated on their ability to work with each other.

10.2 Interviews with candidates, cooperating teachers, principals, and clinical supervisors as well as portfolios and work samples reflect that candidates interact in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being. Multiple interviews commended the BYU-I candidates in their abilities to take the initiative and in their professionalism.

College/University: BYU Idaho      Review Dates: October 10-14, 2011

**ECE/ECSE BLENDED**

**RUBRICS – Blended Early Childhood Education/ Early Childhood Special Education**

**Standards-Based State Program Approval  
Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Early Childhood Blended Teachers.

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.***

Element	Unacceptable	Acceptable	Target
<b>1.1 Understanding Subject Matter</b>			<b>X</b>
<b>1.2 Making Subject Matter Meaningful</b>		<b>X</b>	

1.1 Interviews with ECSE teacher candidates, Praxis II scores, and student work samples demonstrate that ECSE candidates have an in-depth understanding of the traditional content areas and children’s growth and development, theories and models of early childhood education as well as the comprehensive nature of what constitutes young children’s well-being.

1.2 Observing ECSE teacher candidates, analyzing lesson plans, and interviewing university supervisors provide evidence that teacher candidates demonstrate an adequate ability to create a balance of developmentally appropriate curriculum activities that helps young students (e.g., typically and atypically developing) successfully apply their skills to different situations and materials.

***Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.***

Element	Unacceptable	Acceptable	Target
<b>2.1 Understanding Human Development and Learning</b>		X	

2.1 Interviews with practicum candidates, pre-service candidates, cooperating teachers, in conjunction with examining Praxis II scores, and perusing student work samples, provide evidence that teacher candidates demonstrate an adequate understanding of typical and atypical development of young children and the impact of family systems on child development.

***Standard 3: Adapting Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse needs.***

Element	Unacceptable	Acceptable	Target
<b>3.1 Understanding of Individual Learning Needs</b>		X	
<b>3.2 Accommodating Individual Learning Needs</b>		X	

3.1 Examining ECSE student work samples, observing practicum and student teaching candidates, besides interviewing cooperating teachers provides evidence that candidates have an adequate understanding of the aspects of medical care for premature development, low birth weight, and other conditions of medically fragile babies, in addition to the concerns and priorities associated with these medical conditions, as well as their implications on child development and family resources.

3.2 Interviewing ECSE student teaching candidates and their cooperating teachers, and checking candidate work samples provide evidence that the candidates demonstrate an adequate ability to locate, access, use, and effectively share information about methods of care for young, medically fragile children who are in need of assistive technology. Some pre-service candidates reported that there was relatively little access to Assistive Technology devices & resources for young children with diverse special needs.

***Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.***

Element	Unacceptable	Acceptable	Target
<b>4.1 Understanding of multiple learning strategies</b>		<b>X</b>	
<b>4.2 Application of multiple learning strategies</b>		<b>X</b>	

4.1 Interviews with cooperating teachers, interviewing ECSE candidates, and perusing student work samples provide evidence that teacher candidates demonstrate an adequate understanding of the characteristics of physical environments that must vary to support the learning of children from birth through age 2, ages 3-5, and grades K-3 (i.e., schedule, routines, and transitions).

4.2 Observing ECSE practicum and student teaching candidates, analyzing lesson plans, and interviewing university supervisors provide evidence that teacher candidates demonstrate an adequate repertoire of developmentally appropriate instructional strategies (i.e., child initiated, teacher directed, and play-based activities) in the learning environment.

*Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*

Element	Unacceptable	Acceptable	Target
<b>5.1 Understanding of Classroom Motivation and Management Skills</b>		X	
<b>5.2 Creating, Managing, and Modifying for Safe and Positive Learning Environments</b>		X	

5.1 Examining ECSE candidate work samples, observing candidates student teaching, and interviews with cooperating teachers provide evidence that ECSE candidates demonstrate an adequate understanding of factors that promote physically and psychologically safe and healthy environments for young children, including the applicable laws, regulations, and procedural safeguards regarding behavior management planning and plan implementation for young children with disabilities.

5.2 Interviewing university supervisors, analyzing ECSE candidate lesson plans and observing ECSE candidates demonstrate that candidates have adequate ability to create an accessible learning environment that promotes opportunities for young children in natural and inclusive settings as well as the ability to embed learning objectives within everyday routines and activities.

*Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.*

Element	Unacceptable	Acceptable	Target
<b>6.2 Application of Thinking and Communication Skills</b>		X	

6.2 Analyzing candidate lesson plans, and interviewing university supervisors along with ECSE student teacher candidates provide evidence that ECSE candidates demonstrate an appropriate ability to adjust language and communication strategies for the developmental age and stage of the child.

*Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.*

Element	Unacceptable	Acceptable	Target
<b>7.1 Instructional Planning Skills in Connection with Knowledge of Subject Matter and Curriculum Goals</b>		X	
<b>7.2 Instructional Planning Skills in Connection with Students' Needs and Community Contexts</b>		X	

7.1 Interviews with cooperating teachers and ECSE candidates, along with checking candidate work samples provide evidence that ECSE teacher candidates demonstrate a sufficient understanding of recommended professional practice for working with families and children (birth- age 2, ages 3-5, and grades K-3).

7.2 Observing ECSE teacher candidates, examining lesson plans, and interviewing cooperating teachers provide evidence that teacher candidates demonstrate the necessary ability to provide information about family-oriented services based on the Individualized Family Service Plan (IFSP) and to support transitions across programs for young children and their families.

*Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*

Element	Unacceptable	Acceptable	Target
<b>8.1 Assessment of Student Learning</b>			X
<b>8.2 Using and interpreting program and student assessment strategies</b>		X	

8.1 Interviews with ECSE cooperating teachers as well as ECSE candidates completing student teaching, and perusing candidate work samples provide evidence that teacher candidates demonstrate in-depth knowledge and understanding of the characteristics of young children that affect testing situations and interpretations of results.

8.2 Observing ECSE teacher candidates, examining candidate work samples, and interviewing ECSE cooperating teachers provide evidence that teacher candidates demonstrate an appropriate ability to screen major developmental domains (e.g., social-emotional, cognition) and involve families in relevant ways.

***Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.***

Element	Unacceptable	Acceptable	Target
<b>9.1 Professional Commitment and Responsibility as Reflective Practitioners</b>		X	
<b>9.2 Developing in the Art and science of Teaching</b>			X

9.1 Examining Praxis II scores, interviews with ECSE cooperating teachers, and interviewing ECSE candidates provide evidence that teacher candidates demonstrate an adequate understanding of NAEYC Licensure and DEC Personnel Standards.

9.2 Observing ECSE teacher candidates, interviewing Principals and ECDSE cooperating teachers, and interviewing university supervisors provide evidence that teacher candidates demonstrate an in-depth ability to practice behavior congruent with NAEYC Licensure and DEC Personnel Standards.

***Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.***

Element	Unacceptable	Acceptable	Target
<b>10.1 Interacting with Colleagues, Parents, and Community in Partnerships</b>			X
<b>10.2 Supporting Students Learning and well-being</b>			X

10.1 Interviews with ECSE cooperating teachers, interviews with Principals, and observing ECSE student teacher candidates provide evidence that teacher candidates demonstrate an in-depth understanding of how to explain and practice behavior congruent with the NAEYC and DEC Code of Ethics and to advocate for resources for young children and their families.

10.2 Observing ECSE teacher candidates, interviewing Principals, as well as interviewing ECSE cooperating teachers provide evidence that teacher candidates demonstrate an in-depth ability to practice behavior congruent with the NAEYC and DEC Code of Ethics.

**ELEMENTARY EDUCATION**

**RUBRICS – Idaho Elementary Education Teacher Standards**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Elementary Teachers.

*Standards 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge: Understanding Subject Matter and structure of the discipline</b>		<b>X</b>	
<b>1.2 Performance: Making Subject Matter Meaningful</b>		<b>X</b>	

1.1 A review of required coursework from the university catalog, required course syllabi, candidate, cooperating teacher, and clinical supervisor surveys, indicate that candidates have adequate knowledge of elementary subject content, and understand the importance of integrated curriculum. In addition, the evidence indicates that candidates understand the relationship

between inquiry and the development of thinking and reasoning. Methods' syllabi, as well as interviews with faculty indicate that candidates are provided with multiple examples of ways to integrate content curriculums within each other. In addition, lesson plans provide examples of candidates utilizing their students' prior knowledge and knowledge from other content areas to further explain current concepts.

1.2 Candidate work samples, mock lesson plans, interviews with cooperating teachers and candidates, as well as survey results indicate that candidates are able to demonstrate an adequate ability to use materials, instructional strategies and/or methods that illustrate and promote relevance and real life application making learning experiences and subject matter meaningful to most students. Interviews as well as observations of candidates provide evidence candidates are able to teach using inquiry and exploration.

***Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.***

Element	Unacceptable	Acceptable	Target
<b>2.1 Knowledge: Understanding Human Development and Learning</b>		<b>X</b>	
<b>2.2 Performance: Provide Opportunities for Development</b>		<b>X</b>	

2.1 Required course syllabi, cohort seminar topics, Praxis II scores and required course assignments indicate that candidates understand how young children and early adolescents learn. Evidence also indicates that candidates understand how literacy and language development influence learning and instructional decisions. Candidates are required to take multiple literacy courses which work together to build upon the knowledge and skill candidates receive in class. In addition, candidate field experiences are integrated within the coursework to allow them to observe, analyze and discuss the development of young children's learning and literacy development. Syllabi goals and objectives and faculty interviews indicate that candidates understand the role of cognition, inquiry and exploration in learning.

2.2 Candidate work samples, portfolios, course assignments, and interviews, as well as observations, surveys, and student teaching evaluations indicate that candidates demonstrate adequate knowledge of how young children and early adolescents learn. Work samples, lesson plans, and observations of student teachers all indicated appropriate content and instructional strategies being used at various times and with various ages of students. Evidence also indicates

that candidates are able to design instruction and provide opportunities for students to learn through inquiry and exploration. Lesson plans were found to indicate opportunities for inquiry and exploration; however no actual observations were made of candidates teaching utilizing these methods.

**ENGLISH LANGUAGE ARTS**

**RUBRICS – Idaho English Language Arts Teacher Standards**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for English Language Arts Teachers.

*Principle 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the English language arts and creates learning experiences that make these aspects of subject matter meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge-Understanding Subject Matter</b>		X	
<b>1.2 Performance-Making Subject Matter Meaningful</b>		X	

1.1 Interviews with cooperating teachers, Praxis II scores, and perusing course syllabi provide evidence that teacher candidates demonstrate adequate knowledge and understanding of English language arts, including the nature, value, and approaches to a variety of literary texts, print and non-print media, composing processes, and language study.

1.2 Interviews with and observing teacher candidates, interviews with supervising teachers and university supervisors, and perusing surveys of candidates completing student teaching provide evidence that teacher candidates demonstrate an adequate ability to use resources and learning activities that support instructional and curriculum goals that reflect effective teaching practice, and accurately reflect language arts content.

*Principle 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

Element	Unacceptable	Acceptable	Target
<b>2.1 Knowledge-Understanding Human Development and Learning</b>		X	
<b>2.2 Performance-Provide Opportunities for Development</b>		X	

2.1 Perusing course catalog (English and core), interviews with content instructors, reviewing Praxis II scores, and reviewing course syllabi provide evidence that teacher candidates demonstrate adequate knowledge of the role of maturation in growth in writing, language acquisition, and understanding of literary concepts.

2.2 Interviewing teacher candidates, perusing course syllabi (English and core), and interviewing university supervisors provide evidence that teacher candidates demonstrate an adequate ability to recognize students' levels of language maturity and identify

*Principle 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.*

Element	Unacceptable	Acceptable	Target
4.1 Knowledge-Understanding of multiple learning strategies		X	
4.2 Performance-Application of multiple learning strategies		X	

4.1 Interviews with cooperating teachers, Praxis II scores, and perusing course offerings and program requirements (English and core) provides evidence that teacher candidates demonstrate adequate knowledge of a variety of instructional strategies needed to develop students’ critical thinking, problem solving, and performance skills at varying literacy levels.

4.2 Interviewing university supervisors and instructors, interviewing teacher candidates, and perusing student work samples provide evidence that teacher candidates demonstrate an adequate ability to use a variety of basic instructional strategies to develop students’ critical thinking, problem solving, and performance skills; and engage students through a variety of language activities (e.g. reading, writing, speaking, listening) and teaching approaches (e.g. small group, whole-class discussion, projects).

*Principle 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*

Element	Unacceptable	Acceptable	Target
8.1 Knowledge-Assessment of Student Learning		X	

<b>8.2 Performance- Using and interpreting program and student assessment strategies</b>		<p style="text-align: center;">X</p>	
--	--	--------------------------------------	--

8.1 Interviews with cooperating teachers, interviews with teacher candidates, reviewing Praxis II scores, and perusing course catalog course offerings and program requirements (core and English), provide evidence that teacher candidates demonstrate adequate knowledge of formal and informal student assessment strategies for evaluating and advancing student performance in reading, writing, speaking, listening, and viewing, and to determine teaching effectiveness (i.e., portfolios of student work, project, self- and peer assessment, journals, response logs, rubrics, tests, and dramatic presentations).

8.2 Observing student teacher candidates, perusing the Formative Observation of Student Teaching, and interviewing cooperating teachers, provide evidence that teacher candidates demonstrate an adequate ability to use formal and informal student assessment strategies for evaluating and advancing student performance in reading, writing, speaking, listening, and viewing, and to determine teaching effectiveness (i.e., portfolios of student work, project, self- and peer assessment, journals, response logs, rubrics, tests, and dramatic presentations). It should be noted that a preponderance of evidence suggests that multiple standards are addressed in primarily one course, English 430.

*Principle 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*

Element	Unacceptable	Acceptable	Target
<b>9.1 Knowledge- Professional Commitment and Responsibility as Reflective Practitioners</b>		<p style="text-align: center;">X</p>	
<b>9.2 Performance- Developing in the Art and science of Teaching</b>	<p style="text-align: center;">X</p>		

9.1 Interviews with cooperating teachers, teacher candidates, and course syllabi, and reviewing Praxis II scores, provide evidence that teacher candidates demonstrate an adequate understanding of reflection and a commitment to their profession. .

9.2 Interviews with teacher candidates and university clinical supervisors provide little or no evidence that teacher candidates demonstrate an adequate ability to engage in reading and writing for professional and personal growth and an awareness of professional organizations and resources for English language arts teachers, such as the National Council of Teachers of English.

**Areas for Improvement:**

1. Teacher candidates will benefit from and become more adequately prepared if they recognize the need for and more intentionally participate in professional resources, conferences, and experiences. A rich exposure in journals (as opposed to “articles”), current best practices, joining appropriate state organizations, attending teacher in-services or seminars, etc. These and other “networking” affords critical conversation and collaborations with those in the field. Although BYU-I is not a “research” university, research and its application is an important component in the profession.

**RUBRICS – Idaho Foreign Language Teacher Standards**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Foreign Language Teachers.

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.***

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge-Understanding Subject Matter</b>		<b>X</b>	
<b>1.2 Performance-Making Subject Matter Meaningful</b>		<b>X</b>	

1.1 Interviews with cooperating teachers, Praxis II scores, checking student files and transcripts, and perusing student work samples provide evidence that teacher candidates demonstrate an

adequate understanding of state and national foreign language standards, advanced language skills, and target cultures.

1.2 Observing foreign language teacher candidates, analyzing teacher lesson plans, and interviewing university supervisors provide evidence that teacher candidates demonstrate an adequate ability to articulate the value of foreign language learning and to plan, create, and execute a variety of language and cultural learning experiences in the target language.

*Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

Element	Unacceptable	Acceptable	Target
<b>2.1 Knowledge-Understanding Human Development and Learning</b>		X	
<b>2.2 Performance-Provide Opportunities for Development</b>		X	

2.1 Interviews with content instructors, reviewing course syllabi and perusing course catalog (Foreign Language) provide evidence that teacher candidates demonstrate an adequate understanding of the process and acquisition of second language learning including viewing, listening, speaking, reading, and writing skills.

2.2 Observing foreign language teacher candidates, analyzing teacher lesson plans, and interviewing cooperating teachers provide evidence that teacher candidates demonstrate an adequate ability to build upon native language skills with new, sequential, long-range, and continuous experiences in the target language.

*Standard 3: Adapting Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse needs.*

Element	Unacceptable	Acceptable	Target
<b>3.1 Knowledge-Understanding of Individual Learning Needs</b>		X	
<b>3.2 Performance-Accommodating Individual Learning Needs</b>		X	

3.1 Interviews with content teachers, reviewing student files and transcripts, and perusing student work samples provide evidence that teacher candidates demonstrate adequate understanding of how the roles of gender, age, socioeconomic background, ethnicity, and other factors relate to individual perception of self and others.

3.2 Interviewing teacher candidates, analyzing teacher lesson plans, and interviewing cooperating teachers provide evidence that teacher candidates demonstrate an adequate ability to use resources and learning activities that enable students to grasp the significance of cultural differences and similarities.

*Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.*

Element	Unacceptable	Acceptable	Target
<b>4.1 Knowledge-Understanding of multiple learning strategies</b>		X	
<b>4.2 Performance-Application of multiple learning strategies</b>		X	

4.1 Interviews with cooperating teachers, perusing course offerings and program requirements and Praxis II scores provide evidence that teacher candidates demonstrate an adequate understanding of how to use and adapt authentic materials for foreign language instruction.

4.2 Interviewing university supervisors and instructors, interviewing and observing teacher candidates and perusing student work samples provide evidence that teacher candidates demonstrate an adequate ability to use and adapt authentic materials for foreign language instruction.

***Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.***

Element	Unacceptable	Acceptable	Target
<b>7.1 Instructional Planning Skills</b>			X
<b>7.2 Instructional Planning</b>			X

7.1 Interviews with professors, cooperating teachers, and perusing student work samples provide evidence that teacher candidates demonstrate in-depth understanding of how to incorporate the ACTFL Standards for Foreign language learning of communication, cultures, connections, comparisons, and communities into instructional planning.

7.2 Observing foreign language teacher candidates, analyzing teacher lesson plans, and perusing candidate's work samples provide evidence that teacher candidates plan and prepare instruction based upon the ACTFL Standards for Foreign language learning of communication, cultures, connections, comparisons, and communities.

***Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.***

Element	Unacceptable	Acceptable	Target
<b>8.1 Knowledge-Assessment of Student Learning</b>		X	
<b>8.2 Performance-Using and interpreting program and student assessment strategies</b>		X	

8.1 Interviews with cooperating teachers, interviews with teacher candidates and perusing course catalog offerings and program requirements provide evidence that teacher candidates demonstrate adequate understanding of ACTFL assessment guidelines and the need to assess progress in the five language skills, as well as cultural understanding.

8.2 Observing and interviewing clinical candidates, perusing the Formative Observation of Student Teaching and analyzing teacher lesson plans provide evidence that teacher candidates demonstrate adequate ability to use formal and informal assessment techniques to enhance individual student competencies in foreign language learning and modify teaching and learning strategies.

***Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.***

Element	Unacceptable	Acceptable	Target
<b>10.1 Knowledge- Interacting with Colleagues, Parents, and Community in Partnerships</b>			X
<b>10.2 Performance- Utilization of community resources.</b>			X

10.1 Interviews with professors, interviewing candidates, and perusing student work samples provide evidence that teacher candidates demonstrate in-depth understanding of foreign language career and life opportunities available to foreign language students, opportunities to communicate in the language with native speakers, and to participate in community experiences related to the target culture.

10.2 Interviewing clinical partners, candidates, and university supervisors provide evidence that teacher candidates demonstrate an in-depth ability to provide a variety of learning opportunities about career awareness, communication in the target language, and cultural enrichment.

**RUBRICS – Idaho Math Teacher Standards**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubrics are used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which a State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho Standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

*Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of mathematics and creates learning experiences that make these aspects of mathematics meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge: Subject Matter and Structure of Mathematics</b>			X
<b>1.2 Performance: Making Mathematics Meaningful</b>		X	

1.1 Interviews with cooperating teachers, student candidates, and university faculty, Praxis scores, course catalogs, syllabi and lesson plans provide evidence that teacher candidates demonstrate in-depth knowledge and understanding of mathematics, by meeting all of the Knowledge indicators as delineated in the Idaho Standards for Mathematics Teachers.

1.2 Observations of mathematics teacher candidates, analyzing teacher lesson plans, assessments and evaluations provide evidence that teacher candidates demonstrate an adequate ability to create meaningful learning experiences as delineated in the Idaho Standards for Mathematics Teachers.

***Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.***

Element	Unacceptable	Acceptable	Target
<b>4.1 Knowledge: Understanding of Multiple Mathematical Learning Strategies</b>		X	
<b>4.2 Performance: Application of Multiple Learning Strategies</b>		X	

4.1 Cooperating teachers, university faculty and candidate interviews, analyzing lesson plans and syllabus, analyzing student work samples provide evidence that teacher candidates demonstrate adequate understanding of a variety of mathematical instructional strategies as delineated by the Knowledge indicators in the Idaho Standards of Mathematics Teachers.

4.2 Observing mathematics teacher candidates, analyzing teacher lesson plans, work samples, and evaluations provide evidence that teacher candidates demonstrate an adequate ability to use a variety of mathematical instructional strategies as delineated by the Performance indicators in the Idaho Standards for Mathematics Teachers.

*Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*

Element	Unacceptable	Acceptable	Target
<b>8.2 Performance: Assessing Students' Mathematical Reasoning.</b>		X	

8.2 Observing mathematics teacher candidates, analyzing teacher lesson plans, student work samples and rubrics provide evidence that teacher candidates demonstrate an adequate ability to assess students' mathematical reasoning.

*Standard 11: Connections among Mathematical Ideas – The teacher understands significant connections among mathematical ideas and their applications of those ideas within mathematics, as well as to other disciplines.*

Element	Unacceptable	Acceptable	Target
<b>11.1 Knowledge: Significant Mathematical Connections</b>		X	
<b>11.2 Performance: Application of Mathematical Connections</b>		X	

11.1 Interviews with cooperating teachers, observation of student candidate, analyzing student work samples, lesson plans, and syllabi provide evidence that teacher candidates demonstrates adequate understanding of mathematical connections as delineated by the Knowledge indicators in the Idaho Standards for Mathematics Teachers.

11.2 Observation of mathematics teacher candidates, analyzing teacher lesson plans and evaluation forms provide evidence that teacher candidates demonstrate an adequate ability to help students make connections as delineated by the Performance indicators in the Idaho Standards for Mathematics Teachers.

**PHYSICAL EDUCATION**

**RUBRICS – Idaho Standards for Physical Education Teachers**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.***

Element	Unacceptable	Acceptable	Target
<b>1.1 Subject Matter and Structure of the Discipline</b>		X	
<b>1.2 Making Subject Matter Meaningful</b>		X	

1.1 Interviews with university faculty and student candidates, analyzing course catalog and syllabi, and Praxis scores provide evidence that teacher candidates demonstrate an adequate understanding of the components of physical fitness and their relationship to a healthy lifestyle; human anatomy and physiology (structure and function), exercise physiology appropriate rules, etiquette, instructional cues, and skills for physical education activities; Adaptive Physical Education and how to work with special and diverse student needs; and the sequencing of motor skills (K-12); opportunities for enjoyment, challenge, self-expression, and social interaction; and technology operations and concepts pertinent to physical activity.

1.2 Analyzing teacher lesson plans and student work samples, and Praxis scores provide evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make physical education meaningful to students.

***Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.***

Element	Unacceptable	Acceptable	Target
<b>2.2 Provide Opportunities for Development</b>		<b>X</b>	

2.2 Analyzing teacher lesson plans, syllabi and course catalog, and interviewing university supervisors and student candidates provide evidence that teacher candidates demonstrate an adequate ability to assess the individual physical activity, movement, and fitness levels of students, make developmentally appropriate adaptations to instruction, and promote physical activities that contribute to good health.

***Standard 3: Modifying instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse***

Element	Unacceptable	Acceptable	Target
<b>3.2 Accommodating Individual Learning Needs</b>		<b>X</b>	

3.2 Analyzing teacher lesson plans, intervention plans, syllabi, and course catalog provide evidence that teacher candidates demonstrate an adequate ability to create opportunities that incorporate individual variations to movement and to help students gain physical competence and positive self-esteem.

*Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*

Element	Unacceptable	Acceptable	Target
<b>5.1 Understanding of Classroom Motivation and Management Skills</b>		X	
<b>5.2 Creating, Managing, and Modifying for Safe and Positive Learning Environments</b>		X	

5.1 Interviews with cooperating teachers and student candidates, analyzing course syllabi, course catalog, and lesson plans provide evidence that teacher candidates demonstrate an adequate understanding of how to help students cultivate responsible personal and social behaviors.

5.2 Analyzing teacher lesson plans, peer and teacher evaluations provide evidence that teacher candidates demonstrate an adequate ability to effectively manage physical activity in indoor and outdoor settings and promote positive peer relationships and appropriate motivational strategies for participation in physical activity.

*Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.*

Element	Unacceptable	Acceptable	Target
<b>7.1 Instructional Planning Skills in Connection with Knowledge of Subject Matter and Curriculum Goals</b>		X	
<b>7.2 Instructional Planning Skills in Connection with Students' Needs and Community Contexts</b>		X	

7.1 Interviews with university faculty and teacher candidates, analyzing course catalog and syllabi, and lesson plans provide evidence that teacher candidates demonstrate an adequate understanding of strategies to maximize physical education activity time and student success in physical education and how to expand the curriculum through the use of community resources.

7.2 Analyzing student work samples, test scores, and teacher evaluations provide evidence that teacher candidates demonstrate an adequate ability to plan and prepare instruction to maximize physical education activity time and student success and to utilize community resources to expand the curriculum.

***Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.***

Element	Unacceptable	Acceptable	Target
<b>8.1 Assessment of Student Learning</b>		X	
<b>8.2 Using and Interpreting Program and Student Assessment Strategies</b>		X	

8.1 Interviews with university supervisors and teacher candidates, analyzing course syllabi, and lesson plans provide evidence that teacher candidates demonstrate an adequate understanding of how to select and use a variety of developmentally appropriate assessment techniques (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals.

8.2 Analyzing lesson plans, teacher evaluations, test scores, and student work provide evidence that teacher candidates demonstrate an adequate ability to use a variety of developmentally appropriate assessment techniques (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals to evaluate student performance and determine program effectiveness.

***Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.***

Element	Unacceptable	Acceptable	Target
<b>9.1 Professional Commitment and Responsibility as Reflective Practitioners</b>		X	

9.1 Interviews with cooperating teachers, university supervisors, and student candidates, peer and teacher evaluations, and course syllabi provide evidence that teacher candidates demonstrate an adequate understanding that their personal physical fitness and activity levels may impact teaching and student motivation.

*Standard 11: Safety – The teacher provides for a safe learning environment.*

Element	Unacceptable	Acceptable	Target
<b>11.1 Understanding of Student and Facility Safety</b>		X	
<b>11.2 Creating a Safe Learning Environment</b>		X	

11.1 Interviews with cooperating teachers, university faculty, and student candidates, course catalog and syllabi, peer and teacher evaluations provide evidence that teacher candidates demonstrate an adequate understanding of CPR, First aid, and factors that influence safety in physical education activity settings and supervision and response required.

11.2 Analyzing teacher lesson plans, peer and teacher evaluations, and interviewing university supervisors provide evidence that teacher candidates demonstrate an adequate ability to provide and monitor for a safe learning environment and inform students of the risks associated with physical education activities.

**PTE FOUNDATION STANDARDS**

**RUBRICS – Idaho Professional-Technical Education Teacher Standards**

**Standards-Based State Program Approval  
Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Professional-Technical Teachers.

*Principle 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Understanding Subject Matter</b>		<b>X</b>	
<b>1.2 Making Subject Matter Meaningful</b>		<b>X</b>	

1.1 Review of FACS programs of study, artifacts, student samples, interviews with cooperating teachers and Praxis II scores provide evidence that teacher candidates demonstrate an adequate

understanding of the importance of engaging students in content development; and the role the work-community and families play in shaping the professional-technical discipline.

1.2 Observing FACS teacher candidates, interviewing teacher candidates, interviewing university supervisors and analyzing candidate lesson plans provide evidence that teacher candidates demonstrate an adequate ability to use materials and resources to contextualize instruction and curriculum to support instructional goals; use learning activities that are consistent with curriculum goals and reflect principles of effective instruction; integrate student organization leadership development concepts into the curriculum; and provide students with exposure to the work community through work-place experiences.

*Principle 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.*

Element	Unacceptable	Acceptable	Target
<b>4.1 Understanding of Multiple Learning Strategies</b>		X	
<b>4.2 Application of Multiple Learning Strategies</b>		X	

4.1 Interviews with FACS cooperating teachers, student samples, review of artifacts, evidence of use of software and technology such as “My Plate”, and Praxis II scores provide evidence that teacher candidates demonstrate an adequate understanding of how to integrate general and professional-technical content.

4.2 Interviewing FACS teacher candidates, interviewing university supervisors, and analyzing course syllabi provide evidence that teacher candidates demonstrate an adequate ability to integrate general and professional-technical content.

*Principle 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.*

Element	Unacceptable	Acceptable	Target
<b>7.1 Instructional Planning Skills in Connection with Knowledge of Subject Matter and Curriculum Goals</b>		X	
<b>7.2 Instructional Planning Skills in Connection with Students' Needs and Community Contexts</b>		X	

7.1 Interviews with FACS cooperating teachers, Praxis II scores, checking student files and transcripts, and perusing student work samples provide evidence that teacher candidates demonstrate an adequate understanding of subject matter, students, the community, curriculum goals, and the work place.

7.2 Observing FACS teacher candidates, interviewing teacher candidates, interviewing university supervisors and analyzing candidate lesson plans provide evidence that teacher candidates demonstrate an adequate ability to plan and prepare instruction based upon consideration of students' needs, work place needs, and community contexts.

*Principle 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*

Element	Unacceptable	Acceptable	Target
<b>8.1 Assessment of Student Learning</b>		X	
<b>8.2 Using and Interpreting Program and Student Assessment strategies</b>		X	

8.1 Interviews with FACS cooperating teachers, Praxis II scores, student files and transcripts, and student work samples provide evidence that teacher candidates demonstrate an understanding of how to use formal and informal assessment strategies about student progress to evaluate work-readiness.

8.2 Interviewing FACS teacher candidates, interviewing university supervisors and analyzing candidate lesson plans provide evidence that teacher candidates use and interpret formal and informal assessment data from recent graduates and employers to modify curriculum, instruction, and the program.

*Principle 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*

Element	Unacceptable	Acceptable	Target
9.2 Developing in the Art and Science of Teaching		X	

9.2 Interviewing FACS teacher candidates, interviewing university faculty, reviewing sample long-range plans provide evidence that teacher candidates demonstrate an adequate ability to develop a professional development plan and evaluate educational and occupational professionalism.

*Principle 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*

Element	Unacceptable	Acceptable	Target
10.1 Interacting in with Colleagues, Parents, and Community in Partnerships		X	

<b>10.2 Interacting Professionally and Effectively with Colleagues, Parents, and Community in Partnerships</b>		<b>X</b>	
--	--	----------	--

10.1 Review of FACS faculty professional development plans, student service activities, and involvement in the FCS Society (soon to be AAFCS) provide evidence that teacher candidates understand of how to utilize the employment community to validate occupational skills and interact effectively with colleagues and other stakeholders.

10.2 Interviewing FACS teacher candidates, interviewing faculty, discussing the activities of FCS provide evidence that teacher candidates utilize the employment community to validate occupational skills and to interact effectively with colleagues and other stakeholders.

***Principle 11: Learning Environment – The teacher creates and manages a safe and productive learning environment.***

<i>Element</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Target</i>
<b>11.1 Knowledge- Create and Manage a Safe and Productive Learning Environment.</b>		<b>X</b>	
<b>11.2 Performance- Create and Manage a Safe and Productive Learning Environment.</b>			<b>X</b>

11.1 Review of the FACS syllabi, interviews with candidates, faculty, and work samples provide evidence that teacher candidates have an adequate ability to create and manage a safe and productive learning environment.

11.2 Observing FACS teacher candidates, interviewing teacher candidates and analyzing candidate lesson plans provide evidence that teacher candidates demonstrate an in-depth ability to provide safety and productivity that are integrated into every strand of instruction.

*Principle 12: Workplace Preparation—The teacher prepares students to meet the competing demands and responsibilities of the workplace.*

<i>Element</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Target</i>
<b>12.1 Competing Demands and Responsibilities of the Workplace.</b>		X	
<b>12.2 Competing Demands of Balancing Work and Personal Life.</b>		X	

12.1 Review of FACS artifacts, student samples, interviews with candidates and faculty provide evidence that teacher candidates have an adequate knowledge of how to prepare students to meet the competing demands and responsibilities of the workplace.

12.2 Observing FACS teacher candidates, interviewing cooperating teachers, and analyzing candidate lesson plans provide evidence that teacher candidates demonstrate an adequate ability to teach about how to manage the competing demands of balancing work and personal life.

College/University: BYU Idaho      Review Dates: October 10-14, 2011

**SCIENCES**

**RUBRICS – Idaho Foundation Standards for Science Teachers**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments, rather than as an element-by-element checklist. Elements identified in the rubrics provide the basis upon which a State Program Approval Team evaluates the institution's evidence that candidates meet the Idaho Standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

In addition to the standards listed here, science teachers must meet Idaho Core Teacher Standards and at least one of the following: (1) Idaho Standards for Biology Teachers, (2) Idaho Standards for Chemistry Teachers, (3) Idaho Standards for Earth and Space Science Teachers, (4) Idaho Standards for Natural Science Teachers, (5) Idaho Standards for Physical Science Teachers, or (6) Idaho Standards for Physics Teachers. Rubrics for these standards are listed after the rubrics for the Foundation Standards for Science Teachers.

*Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge-Subject Matter and Structure of Science</b>		X	
<b>1.2 Performance-Making Science Meaningful</b>		X	

1.1 Evaluation of the required courses, examination of representative candidate and student teacher transcripts, review of the syllabi, performance on Praxis II exams and interviews with faculty and candidates provide evidence that teacher candidates demonstrate an adequate understanding of their science content and how to articulate the importance of engaging in the process of science.

1.2 Observation of Student Teachers, review of teaching observation reports and interviews with candidates, student teachers and alumni of the program provide evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make the concepts of science, tools of inquiry, structure of scientific knowledge, and the processes of science meaningful to students through the use of materials and resources that support instructional goals and learning activities, including laboratory and field activities, that are consistent with curriculum goals and reflect principles of effective instruction. Evidence was marginal in the case of physics and even weaker in chemistry. There was only one student teacher to observe in physics and she was working in a middle school teaching physical science. There were no student teachers or alumni to observe or interview in chemistry. The institution can improve their case by presenting student work in the form of lesson plans and teaching portfolios.

*Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

Element	Unacceptable	Acceptable	Target
<b>2.1 Knowledge-Understanding Human Development and Learning</b>		X	

<b>2.2 Performance- Provide Opportunities for Development</b>	X		
---	---	--	--

2.1 Review of the syllabi, interviews with faculty and candidates and review of student transcripts provide evidence that basic understanding of human development and learning comes from the core education courses, particularly Ed 304 and 361. Specific understanding of the conceptions students are likely to bring to class that can interfere with learning the science comes from science inquiry and methods courses, in particular Phys 311 and 411 and the methods courses taught in each content department.

2.2 Observation of a few Student Teachers and interviews with their Cooperating Teachers, and student reflections provided by biology suggest that teacher candidates probably demonstrate an adequate ability to carry out activities that facilitate students' conceptual development in science. In general, however, the lack of work evidence specific to science candidates in the core Education courses or in content courses like inquiry or methods provide little or no evidence that teacher candidates demonstrate an adequate ability to carry out activities that facilitate students' conceptual development in science.

***Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.***

Element	Unacceptable	Acceptable	Target
<b>4.1 Knowledge- Understanding Multiple Learning Strategies</b>		X	
<b>4.2 Performance- Application of Multiple Learning Strategies</b>		X	

4.1 Interviews with candidates, alumni, perusing course syllabi and interviews with faculty and department chairs provides evidence that teacher candidates demonstrate an adequate understanding of methods of inquiry and how to apply mathematics and technology to analyze, interpret, and display data.

4.2 Observation and interviews with student teachers, interviews with cooperating teachers and perusing student teaching evaluations provide evidence that teacher candidates demonstrate an adequate ability to appropriately use models, simulations, laboratory and field activities, and demonstrations for larger groups, where appropriate, to facilitate students' critical thinking,

problem solving and performance skills. This assessment is somewhat speculative. It required too much dependence on anecdotal support. Increased documentation from chemistry and physics on candidates in the science education majors is necessary for a more confident assessment

***Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.***

Element	Unacceptable	Acceptable	Target
<b>6.1 Knowledge-Communication Skills</b>			X
<b>6.2 Application of Thinking and Communication Skills</b>	X		

6.1 Review of the curriculum, student work and presentations, evaluation of course syllabi and interviews with faculty and candidates provide evidence that teacher candidates demonstrate an in-depth knowledge of how to create and make appropriate use of forms of scientific communications in their fields (i.e., graphs, technical writing, results of mathematical analysis, scientific diagrams, scientific posters, and multimedia presentations).

6.2 Outside of biology, there was little or no evidence presented that teacher candidates demonstrate an adequate ability to engage students in the use of standard forms of scientific communications in their fields (i.e., graphs, technical writing, results of mathematical analysis, scientific posters, and multimedia presentations). There was one interview with a physics alum that indicated use of new media in science classrooms but one piece of evidence is anecdotal.

***Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.***

Element	Unacceptable	Acceptable	Target
<b>9.1 Professional Commitment and Responsibility as Reflective Practitioners</b>		X	

<b>9.2 Developing in the Art and Science of Teaching</b>		<b>X</b>	
--	--	----------	--

9.1 Review of the syllabi of inquiry and methods courses, interviews with faculty, candidates and alumni, and research activity into educational research program provide evidence that teacher candidates demonstrate an adequate knowledge of recent developments in their fields and of how students learn science.

9.2 Student teacher observation, interviews with cooperating teachers and candidate work product provide evidence that teacher candidates demonstrate an adequate ability to incorporate an understanding of recent developments in their fields and knowledge of how students learn science into instruction.

*Principle 11: Safe Learning Environment – The science teacher provides for a safe learning environment.*

Element	Unacceptable	Acceptable	Target
<b>11.1 Knowledge-Creating a Safe Learning Environment</b>		<b>X</b>	

11.1 Student teacher observation, cooperating teacher interviews and alumni interviews and the required curriculum provide evidence that teacher candidates demonstrate an adequate ability to model safe practices in classroom and storage area in the following: 1) set up procedures for safe handling, labeling and storage of chemicals and electrical equipment; 2) demonstrate that safety is a priority in science and other activities; 3) take appropriate action in an emergency; 4) instruct students in laboratory safety procedures; 5) evaluate students' safety competence before allowing them in the laboratory; 6) take action to prevent hazards; 7) adhere to the standards of the science education community for ethical care and use of animals; and 8) use preserved or live animals appropriately in keeping with the age of the students and the need for such animals.

*Principle 12: Laboratory and Field Activities – The science teacher demonstrates competence in conducting laboratory and field activities.*

Element	Unacceptable	Acceptable	Target
<b>12.1 Knowledge-Understanding of Laboratory and Field Experiences</b>		X	
<b>12.1 Performance-Effective Use of Laboratory and Field Experiences</b>		X	

12.1 Content Area (Geology 405, Biology 403, Physics 311 & 411) Teaching Methods course syllabi, course schedules, candidate and faculty interviews indicate a heavy emphasis on laboratory and field activities demonstrating an adequate ability to explain the importance of laboratory and field activities in the learning of science.

12.2 Candidate produced lab demonstrations, candidate, completer and cooperating teacher interviews, as well as candidate observations provide evidence that teacher candidates engage students in experiencing the phenomena they are studying by means of laboratory and field exercises.

**Area for Improvement:**

Documentation of activities and work product from the education and content courses can effectively supplement the sparse number of observations that are possible with current number of student teachers and alumni.

The curriculum is clearly rich in teaching candidates to communicate effectively as scientists but there needs to be evidence that it is practiced in ways that teach others. Evidence in the form of lesson plans, activity plans, practice lessons, modeling labs or the development of educational media would be welcomed.

**IDAHO STANDARDS FOR BIOLOGY TEACHERS**

*Principle 1: Knowledge of Biology - The teacher understands the central concepts, tools of inquiry, and structures of Biology and creates learning experiences that make these aspects of Biology meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge-Subject Matter and Structure of Biology</b>		X	
<b>1.2 Performance-Making Biology Meaningful</b>		X	

1.1 Review of Praxis reports indicate that BYUI Biology candidate’s average scores are slightly above state and national averages. Interviews with faculty, cooperating teachers and alumni confirm that candidates are adequately prepared to teach in their content area. It is unclear if candidates earning minors in Biology are equally prepared, as no disaggregated data was available for analysis. Review of syllabi and materials used to advise candidates of required courses are in aligned to state content standards, and provided further evidence that teacher candidates demonstrate adequate understanding of biology content and the nature of biological knowledge.

1.2 Rich evidence of meeting the performance standards were found in BIO 405. Lesson planning for labs and teaching units combined with feedback from peers, faculty and candidate self-reflection indicate that teacher candidates demonstrate an ability to create learning experiences that make the concepts of biology meaningful to students. Use of learning activities, including laboratory and field activities, are consistent with curriculum goals and reflect principles of effective instruction. This area is close to target based upon review of documentation from BIO 405 and interview with the faculty member responsible for that course. Other evidence of adequate candidate performance was found through interviews with cooperating teachers, building administrators and university supervisors. Student teaching evaluation reports provided little detailed evidence, but appear to support candidate’s having adequate levels of performance.

**Recommended Action on Biology Teacher Program**

Approved  
 Approved Conditionally  
 Not Approved

**IDAHO STANDARDS FOR CHEMISTRY TEACHERS**

*Principle 1: Knowledge of Chemistry - The teacher understands the central concepts, tools of inquiry, and structures of Chemistry and creates learning experiences that make these aspects of Chemistry meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge Subject Matter and Structure of Chemistry</b>		X	
<b>1.2 Performance-Making Chemistry Meaningful</b>	X		

1.1 Scores of standardized ACS exams, Praxis II scores, the curriculum of required courses and associated grade achievement and student transcripts provide evidence that teacher candidates demonstrate adequate knowledge and understanding of high school level chemistry, up to and including general chemistry, quantitative analysis, introductory organic chemistry, quantum chemistry and physical spectroscopy.

1.2 Overall, there is little or no evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make the central concepts of chemistry, tools of inquiry, structure of chemical knowledge, and the processes of chemistry meaningful to students through the use of materials and resources that support instructional goals. There was little evidence that teacher candidates use learning activities, including laboratory and field activities, that are consistent with curriculum goals and reflect principles of effective instruction. There were no student teachers to observe and only two candidates in chemistry who were interviewed. They both were at a very early stage of education, with only one year of chemistry and one introductory level education course. There were no lesson plans found and no alumni that could be reached for interview. The Methods course in Chemistry is offered only as needed, which is infrequently. Faculty indicated the number reported in the program (14 majors) is greatly inflated and review of transcripts supports the claim. Content faculty claimed there are closer to 5 majors who have taken a year of chemistry and the others have not yet started content coursework. Chemistry faculty claim there is no mechanism by which Chem Education Minors can be identified within that department so there is no tracking of progress or support of their success. There were no artifacts supplied by the institution that related to Chem Education Minors so it is difficult to assess the effectiveness of the minor in chemistry.

**Areas for Improvement:**

Areas for improvement are mainly in terms of documentation and support of teacher candidates with a major or minor in chemistry education. Details are indicated in the comments above. There is little doubt the few teacher candidates who move through the program receive the information and practice needed to succeed in chemistry education. The program is excellent.

Review of the program will be facilitated by more emphasis on documentation supporting teacher preparation and record-keeping. Comments from candidates indicate that more support for teacher preparation in the content department is also important for teacher candidate retention.

**IDAHO STANDARDS FOR EARTH AND SPACE SCIENCE TEACHERS**

*Principle 1: Knowledge of Earth and Space Science - The teacher understands the central concepts, tools of inquiry, and structures of Earth and Space Science and creates learning experiences that make these aspects of earth and space science meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Subject Matter and Structure of Earth and Space Science</b>		X	
<b>1.2 Making Earth and Space Science Meaningful</b>		X	

1.1 Review of BYU Idaho 2010-11 catalog course descriptions, syllabi, class schedules, lab activities, and interviews with candidates and completers show a clear correlation to the Earth and Space Science Teacher standards. Interviews with Geology faculty confirm that state standards are forefront in course planning and delivery. Higher than average Praxis II exam scores indicate that candidates have attained the appropriate knowledge outlined in state standards. However, it is unclear if candidates earning minors in Earth Science education are equally prepared, as no disaggregated data was available for analysis.

1.2 Observation of candidate student teaching, cooperating teacher interviews, and lesson plan and lab activity review provide evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make the concepts of earth and space science, tools of inquiry, structures of earth and space science knowledge, and the processes of earth and space science meaningful to students. Candidate interviews further indicate their appropriate use of materials and resources to support instructional goals; and use learning activities, including laboratory and field activities, that are consistent with curriculum goals and reflect principles of effective instruction. A greater emphasis on the collection and documentation of candidate work samples, candidate lesson planning, student teaching evaluation, and self-reflections would greatly enhance the evidence of what candidates know and are able to do.

**SOCIAL STUDIES**

**RUBRICS – Idaho Standards for Social Studies**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubrics are used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments, rather than as an element-by-element checklist. Elements identified in the rubrics provide the basis upon which a State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho Standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.***

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge- Understanding Subject Matter</b>		<b>X</b>	
<b>1.2 Performance- Making Subject Matter Meaningful</b>		<b>X</b>	

1.1 Praxis II scores, interviews with university faculty, analysis of course content, interviews with cooperating teachers, and interviews with candidates provide evidence that teacher candidates demonstrate adequate knowledge and understanding of their disciplines and the ways new knowledge in social studies is discovered; the ways governments and societies have changed over time; and the impact that certain factors have on historical processes.

1.2 Observing social studies teacher candidates, role of international relations in shaping the United States political system; an awareness of global perspectives; and the civic responsibilities and rights of all inhabitants of the United States, work samples of teacher candidates, and interviews with university faculty and cooperating teachers provide evidence that teacher candidates demonstrate an adequate ability to create focused learning opportunities, encourage and guide investigation of governments and cultures.

***Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.***

Element	Unacceptable	Acceptable	Target
<b>2.1 Knowledge-Understanding Human Development and Learning</b>		<b>X</b>	
<b>2.2 Performance-Provide Opportunities for Development</b>		<b>X</b>	

2.1 Interviews with cooperating teachers, Praxis II scores, student work samples, and interviews with faculty provide evidence that teacher candidates demonstrate adequate understanding of how leadership, groups, and cultures influence intellectual, social, and personal development.

2.2 Observing teacher candidates, teacher lesson plans, and interviews with cooperating teachers provide evidence that teacher candidates provide students with opportunities for engagement in civic life, politics, and government relevant to the social sciences.

**VISUAL & PERFORMING ARTS**

**RUBRICS – Idaho Visual/Performing Arts Teacher Foundation Standards**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/Standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Visual/Performing Arts Teachers.

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.***

Element	Unacceptable	Acceptable	Target
<b>1.1 Understanding Subject Matter</b>		<b>X</b>	
<b>1.2 Making Subject Matter Meaningful</b>		<b>X</b>	

**1.1** Examining teacher candidate portfolios and art work samples, Praxis II scores and interviews with university faculty, provide evidence that the teacher candidates demonstrate an adequate understanding of the formal, expressive and aesthetic qualities of the visual arts; a variety of media styles and techniques in multiple art forms; and the historical and contemporary meanings of visual culture.

**1.2** Observing teacher candidates in the process of creating, viewing teacher candidate project displays, and examining teacher candidate portfolio samples shows evidence that the teacher candidates demonstrate an adequate ability to help students create, understand, and participate in

the traditional popular, folk and contemporary arts that are relevant to the students interests and experiences. Viewing video samples of university faculty-to-teacher candidates and teacher candidate self-critiques; and observing teacher candidate-led visiting-student art gallery critique session demonstrates teacher candidates ability to instruct students in interpreting and judging their own artwork, as well as the work of others.

***Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.***

Element	Unacceptable	Acceptable	Target
<b>4.1 Understanding of Classroom Motivation and Management Skills</b>		X	
<b>4.2 Application of multiple instructional strategies</b>		X	

**4.1** Observing a faculty-led kinesthetic drama experience, observing a faculty sculpture demonstration and reading through catalog course descriptions and course syllabi provides evidence that teacher candidates gain adequate knowledge of how to integrate kinesthetic learning into arts instructions.

**4.2** Observing visual art and drama teacher candidates in the process of creating, and examining teacher candidate lesson plans and portfolios provides evidence that teacher candidates demonstrate an ability to use variety of instructional strategies that integrate kinesthetic learning into arts instruction.

***Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.***

Element	Unacceptable	Acceptable	Target
<b>6.1 Communication Skills</b>		X	
<b>6.2 Application of Thinking and Communication Skills</b>		X	

6.1 Reading teacher candidate portfolios, interviewing visual arts faculty and observing faculty classes that are in sync with the visual arts mission and guiding principles statements provides evidence that teacher candidates gain adequate knowledge of multiple communication techniques.

6.2 Viewing teacher candidates video samples, observing teacher candidates physically creating works of art using various media and observing teacher candidates verbally communicating in classes about what and how while they are creating their art provides evidence that teacher candidates demonstrate an adequate ability to use multiple communication techniques simultaneously in the arts classroom.

***Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.***

Element	Unacceptable	Acceptable	Target
7.1 Instructional Planning Skills		X	
7.2 Instructional Planning Skills		X	

7.1 Viewing teacher candidate portfolios, interviews with faculty, and analyzing course sequence and course syllabi demonstrates adequate knowledge that the processes and tools necessary for the communication of ideas in the arts are sequential, holistic and cumulative.

7.2 Analyzing teacher candidate portfolios, reading teacher candidates lesson plans and portfolios, interviewing teacher candidates and practicing students teachers provides evidence that teacher candidates plan, prepare and deliver instructional activities that are sequential, holistic and cumulative and facilitate students' ability to communicate through the visual arts.

***Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.***

Element	Unacceptable	Acceptable	Target
8.1 Assessment of Student Learning		X	

<b>8.2 Using and interpreting program and student assessment strategies</b>		<b>X</b>	
---	--	----------	--

**8.1** Interviews with faculty, observing faculty-student candidate interactions, viewing video samples of teacher-to-student critiques and reading samples of teacher candidate critiques of their own work provides evidence that teacher candidates demonstrate adequate knowledge of how to assess students' learning and creative processes as well as finished products.

**8.2** Viewing video samples of teacher candidates in the process of critiquing others' work, reading samples of teacher candidates reflections on their own work, interviewing teacher candidates preparing for a theatrical performance, and viewing displays of student artworks provides evidence that teacher candidates demonstrate an adequate ability to provide opportunities for students to display their own art, perform in all aspects of a theatrical performance and assess and reflect on what they know and can do as artists.

*Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*

Element	Unacceptable	Acceptable	Target
<b>9.2 Developing in the Art and science of Teaching</b>		<b>X</b>	

**9.2** Interviewing teacher candidates, viewing student displays and observing students participating in the planning and creation of a theatrical performance provides evidence that teacher candidates demonstrate an ability to make personal contributions to the visual and performing arts. Teacher candidates are aware of the benefits as student-members of the national fine arts associations but have limited knowledge of the state resources available.

*Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*

Element	Unacceptable	Acceptable	Target
<b>10.1 Interacting Professionally and Effectively with Colleagues, Parents, and Community in Partnerships</b>		X	
<b>10.2 Interacting Professionally and Effectively with Colleagues, Parents, and Community in Partnerships</b>		X	

**10.1** Interviews with practicing student teachers and teacher candidates, observing a teacher candidate-led gallery critique experience for students, and viewing teacher candidate generated posters and flyers for arts based events provides evidence that teacher candidates have an adequate knowledge of how to promote the arts for the enhancement of the school and the community.

**10.2** Observing students participating in the planning and creation of a theatrical performance, viewing a teacher candidate visual arts display and interviews with faculty provides evidence that teacher candidates have adequate knowledge to promote the arts within their school and their community.

***Standard 11: Learning Environment - The teacher creates and manages a safe, productive learning environment.***

Element	Unacceptable	Acceptable	Target
<b>11.1 Knowledge-Safe learning environment</b>		X	
<b>11.2 Knowledge-Safe learning environment</b>		X	

**11.1** Interviews with faculty, observing classroom facilities and observing teacher candidates provides evidence that teacher candidates have the adequate ability to instruct students in procedures that are essential to safe arts activities, to manage the simultaneous daily activities of the arts classroom and to operate/manage performance and/or exhibit technologies safely.

**11.2** Observing teacher candidates create and perform tasks within their classroom environments, reading teacher candidate portfolio and lesson plans, and interviewing teacher candidates within their creative environments provides evidence that teacher candidates demonstrate an adequate ability to manage the simultaneous daily activities associated with arts-based activities, to instruct students of safety procedures when using art various media, to organize a safe classroom and to show diligence when interacting in an arts environment.

**RUBRICS – Idaho Standards for Drama Teacher**

**State Program Approval Rubric for Teacher Preparation Programs**

**Candidate Performance Relative to the Idaho Standards**

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubrics are used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which a State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho Standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

*Standards 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*

Element	Unacceptable	Acceptable	Target
<b>1.1 Knowledge Understanding Subject Matter</b>		X	
<b>1.2 Performance Making Subject Matter Meaningful</b>		X	

1.1 Interviews with teacher candidates, examining faculty syllabi, analyzing the Theatre and Speech degree requirements, viewing teacher candidate work samples, and viewing examples of teacher candidate theatrical set designs provides evidence that teacher candidates adequately understand the history of theatre as a form of entertainment and as a societal influence; the basic

theories and process of play writing and production, the history of and process of acting; and the elements and purpose of design.

**1.2** Observing teacher candidates participating in the planning and creation of a theatrical performance, observing teacher candidates participating in class activities, viewing poster examples of past, current and future planned productions, and viewing a sample of teacher candidates performances provides evidence that teacher candidates have adequate ability to incorporate various styles of acting and production techniques to communicate the ideas of actors, playwrights and directors. Evidence also showed that teacher candidates demonstrated the ability to model and teach the values and ethical principles associated with the performing arts and showed their ability to perform individual interpretation of character, design, and other elements inherent to theater.

***Standard 11: Learning Environment - The teacher creates and manages a safe, productive learning environment.***

Element	Unacceptable	Acceptable	Target
<b>11.1 Knowledge- Safe learning environment</b>		<b>X</b>	
<b>11.2 Performance- Safe learning environment</b>		<b>X</b>	

**11.1** Interviews with faculty, observing teacher candidates participating in the planning and creation of a theatrical performance, observing the stage, back stage and set design facilities and reviewing teacher candidate work samples provide evidence that teacher candidates have adequate knowledge to operate and maintain the theatre facility and equipment and to operate/manage a performance and/or to exhibit technologies safely, however there was no evidence that state and OSHA standards were introduced to teacher candidates or posted in work areas.

**11.2** Observing teacher candidates build a theatrical set, operate and work on crosswalks to set the lighting for a performance and listening to teacher candidate interactions with faculty provide evidence that teacher candidates have adequate ability to operate and maintain the theatre facility and equipment and operate equipment for and manage all aspects of a performance. However there was no evidence that teacher candidates adhered to state and OSHA standards.

**Standard 1. CONTENT AND PEDAGOGICAL KNOWLEDGE**

1. Findings for each offsite report task to be verified onsite:

Task(s)

Task	Evidence was or was not verified
EPP needs to provide teacher observation data that is disaggregated when looking at the specific breakdown of Danielson sub domains along with candidate disposition data prior to student teaching.	Evidence partially verified. EPP provided disaggregated Danielson sub domain data. EPP did not provide candidate disposition data prior to student teaching.
EPP needs to provide completed feedback forms for each program representing levels of performance with instructor and/or mentor feedback. EPP also needs to provide completer/candidate work samples from each program representing all levels of performance with mentor/instructor feedback.	Evidence partially verified. EPP provided evidence found in the evidence room of completer/candidate work samples from programs with mentor and instructor feedback. EPP partially provided completed feedback forms (only from ELED, SPED, ECSE).
EPP needs to provide artifacts that support analysis of data by specialty licensure area.	Evidence not verified.

2. Summary regarding completeness and accuracy of evidence related to Standard 1:

Through its initial and revised self-study reports (SSR), responses to subsequent requests for additional data and on-site interviews, the EPP makes a case demonstrating that candidates develop a deep understand of the critical concepts and principles of their discipline and, by completion, are able to use discipline-specific practices flexibility to advance the learning of all students toward attainment of college and career readiness standards. The quality of candidates is a continuing and purposeful part of the EPP’s responsibility through the progression of courses and clinical experiences, and to decisions that completers are prepared to teach effectively and are recommended for certification. The provider further makes a case by addressing all components of Standard 1 that development of the candidate is the goal of educator preparation in all phases of their program.

The EPP provided data on its various programs in the form of Praxis and Danielson information. The data was disaggregated by specialty licensure area. However, the EPP stated that there is little to no analysis used from this data to drive instruction or change.

The general rules for Standard 1 in CAEP are as follows:

1. All data must be disaggregated by specialty licensure area for Standard 1.
2. At least three cycles of data must be submitted and analyzed. If a revised assessment is submitted with less than 3 cycles of data from the original assessment should be submitted.
3. Cycles of data must be sequential and be the latest available.
4. EPP-created assessments should be scored at the CAEP Sufficient Level as defined on the CAEP Assessment Evaluation Rubric.
5. All components must be addressed in the self-study.
6. Evidence from Standard 1 is cited in support of continuous improvement and part of an overall system of review (Standard 5).
7. There are no required components for Standard 1.

Overall, the EPP, based on its provided data and using the CAEP Visitor Team Evaluation Rubric (2016) did not provide sufficient evidence demonstrating that it had met the General Rules for Standard 1. The main portions of Standard 1 general rules that were not met were as follows:

- The EPP provided Praxis and Danielson data that was disaggregated by specialty licensure area, however, only a partial attempt was made to interpret/analyze the data/evidence.
- The EPP has not provided evidence that EPP-created assessments are scored at the CAEP Sufficient Level as defined on the CAEP Assessment Evaluation Rubric.
- Insufficient evidence from Standard 1 is cited in support of continuous improvement and part of an overall system of review (Standard 5).

Below you will find an analysis of the evidence presented broken down by individual component.

Component 1.1: In order for this component to be met using the CAEP evaluation rubric the following criteria must be at CAEP sufficient levels.

- All four of the InTASC categories are addressed with multiple indicators across the four categories.
  - The EPP addressed at four of the InTASC categories in the SSR
- Multiple indicators/measures specific to application of content knowledge in clinical settings are identified with performance at or above the acceptable level on rubric indicators.
  - The EPP provided Praxis scores, and course descriptions as indicators of applications of content knowledge. The EPP interpretations are supported by evidence from two data/evidence sets.
- Analysis of data/evidence includes identification of trends/patterns, comparisons, and/or differences.

- Evidence was presented with 3-year trends using Danielson and Praxis scores, but analysis that includes identification of trends/patterns, comparisons and differences was not provided.
- Data/evidences supports interpretations and conclusions.
  - EPP provided data evidence without interpretations and conclusions.
- Class average at or above acceptable levels on the EPP scoring guide indicators specific to the four categories of InTASC Standards.
  - EPP provided data/evidence presented do not align with indictors.
- If applicable, providers demonstrate that candidate performance is comparable to non-candidate performance in the same courses or majors.
  - EPP program structure is such that these criteria are not applicable.
- Specialty licensure area performance indicates competency and is benchmarked against the average licensure area performance of other providers (comparisons are made with scaled scores and/or state/national data when available).
  - EPP provided Praxis data disaggregated by specialty licensure area shows competency when compared to national data.

Component 1.2: In order for this component to be met using the CAEP evaluation rubric the following criteria must be at CAEP sufficient levels.

- Data/evidence documents effective candidate use of research and evidence for planning, implementing and evaluation P-12 students' progress, with performance at or above acceptable level on rubric indicators.
  - EPP provides multiple sources of documentation that support these criteria through candidate lesson plans, evaluations, reflections, rubrics and completed mentor feedback forms.
- Data/evidence document effective candidate use of data to reflect on teaching effectiveness and their own professional practice with performance at or above the acceptable level on rubric indicators.
  - EPP provides multiple sources of documentation that support these criteria through candidate lesson plans, evaluations, reflections, rubrics and IPLPs.
- Data/evidence document effective candidate use of data to assess P-12 student progress and to modify instruction based on student data (data literacy), with performance at or above acceptable level on rubric indicators.
  - EPP provides multiple sources of documentation that support these criteria through candidate lesson plans, evaluations, reflections and rubrics.

Component 1.3: In order for this component to be met using the CAEP evaluation rubric the following criteria must be at CAEP sufficient levels.

- The provider presents at least one source of evidence that candidates apply content and pedagogical knowledge at specialty licensure area levels (SPA or state reports, disaggregated specialty licensure area data, NBCT actions, etc.).
  - EPP provides evidence that candidates are exposed to content and pedagogical knowledge, however there is no application of either. The EPP provides charts and tables that show how standards apply to each class offered.
- A majority (51% or above) of SPA program reports have achieved National Recognition.
  - Not applicable
- OR documentation is provided on periodic state review of program level outcome data.
  - Not applicable
- Answers specific to specialty licensure area questions are complete and supported by an analysis and accurate interpretation of specialty licensure area data.
  - Answers to specific specialty licensure areas questions are incomplete and provide no analysis of data.
- The providers make comparisons and identifies trends across specialty licensure areas based on data.
  - EPP did not provide evidence to support this.
- Assessments submitted for the Program Review with Feedback option are at the minimal level of sufficiency.
  - EPP did not provide evidence to support this.

Component 1.4:

- Multiple indicators/measures specific to evaluating proficiencies for college- and career- readiness are scored at or above the EPP scoring guide indicators at the minimal level of sufficiency (acceptable level):
  - EPP provided evidence through candidate lesson plans that candidates are using and understand CCSS when planning.
    - candidates' ability to provide effective instruction for all students (differentiation of instruction).

EPP evidence show candidate knowledge of differentiation, however there is partial application of differentiation for P-12 learners as shown through candidate lesson plans.
    - candidates' ability to have students apply knowledge to solve problems and think critically.

EPP evidence show candidate knowledge of problem solving and critical thinking, however there is partial application for P-12 learners as shown through candidate lesson plans.

- candidates' ability to include cross-discipline learning experiences and to teach for transfer of skills.  
No or only two indicators of candidate's ability to include cross-discipline learning experiences and to teach for transfer of skills.
- candidates' ability to design and implement learning experiences that require collaboration and communication skills.  
EPP evidence show candidate knowledge of collaboration and communication skills, however there is partial application for P-12 learners as shown through candidate lesson plans.

Component 1.5

- Exiting candidates model and apply technology standards (e.g., ISTE) in coursework and clinical experiences.
  - No or only partial evidence specific to technology standards in coursework and/or clinical experience.
- Candidates demonstrate knowledge and skill proficiencies including accessing databases, digital media, and/or electronic sources with performance at or above the acceptable level on rubric indicators.
  - No or only partial evidence specific to demonstrated proficiencies in the use of technology.
- Candidates demonstrate the ability to design and facilitate digital learning with performance at or above the acceptable level on rubric indicators.
  - No or only partial evidence provided on candidates' ability to design and facilitate digital learning.
- Candidates demonstrate the ability to track and share student performance data digitally with performance at or above the acceptable level on rubric indicators.
  - No or partial evidence provided on candidates' ability to track and share student performance digitally.

a. Analysis of Program-Level Data

The evidence referenced below is the same for both consistently and inconsistently meeting evidence sufficiency. It is listed in both categories because much of the information provided in consistent, however, it lacks analysis on how it is used by the EPP to drive decision making and change.

b. Evidence that is consistent with meeting the standard

- Praxis data
- Danielson Framework Data
- Candidate Lesson Plans
- Supervisor and Mentor feedback forms
- Candidate reflections and rubric
- Interview with cooperating principals and superintendents
- Interviews with faculty

- c. Evidence that is inconsistent with meeting the standard
- Praxis data
  - Danielson Framework Data
  - Candidate Lesson Plans
  - Interview with cooperating principals and superintendents
  - Interviews with faculty

3. Recommendations for new areas for improvement and/or stipulations including a rationale for each

Area for Improvement:

Area for Improvement	Rationale
(1.4) There is limited or no evidence on college or career readiness levels of instruction.	Below acceptable levels for evidence.

**Standard 2. CLINICAL PARTNERSHIPS AND PRACTICE**

1. Findings for each offsite report task to be verified onsite:

Task(s)

Task	Evidence was or was not verified
Use of technology by candidates or students to enhance learning, track progress, and assess growth.	<p>Evidence partially verified.</p> <p>On-site interviews indicated candidates are required to complete one assignment/project prior to their student teaching experience to enhance learning. On-site evidence provided indicated the following:</p> <ol style="list-style-type: none"> <li>1. The Math program evaluates candidates' integration of technology into lesson plans in (3) courses. Analysis of candidate scores across the program not provided.</li> <li>2. Family and Consumer Sciences, World Languages, and Music require candidates to use technology for assignments. However, the assignments listed do not provide</li> </ol>

	<p>faculty member and one member of their advisory committee.</p> <p>7. ECC and Area Coordinator Meeting notes from October, 2018. Information shared focused on positive feedback and areas for improvement. Not identified was the origin of the information (i.e., survey, interview, etc.) shared in the minutes nor evidence of how this information was used to impact program improvement.</p>
<p>Does BYU-I use a shared responsibility model? If so, please share it. If not, what is the plan for implementation?</p>	<p>Evidence not verified.</p> <p>While community school partner feedback is sought, evidence of a system in place to consistently seek and utilize gathered feedback to influence programmatic change was not provided.</p>
<p>How do candidates request assistance?</p>	<p>Evidence was verified.</p> <p>Candidates have mentoring plans to provide assistance. On-site interviews indicate candidates have regular interaction during their internship experience with mentor teachers, supervisors, and members of their cohort.</p>
<p>Can the demographic data for “special placements” be provided?</p>	<p>Evidence not verified.</p> <p>Evidence not available for review.</p>
<p>Is the Danielson training offered face-to-face, online, or both? Are there other trainings? If so, how are the trainings selected? How do they become accessible?</p>	<p>Evidence partially verified.</p> <p>EPP documented that the Danielson training is web-based. Inter-rater reliability training is offered on a volunteer basis in a face-to-face format. Mentor teachers are provided a 1-day face-to-face training regarding program expectations, policies, and procedures.</p>

2. Summary regarding completeness and accuracy of evidence related to Standard 2:

a. Summary of findings

Three cycles of sequential data for PRAXIS scores by licensure area and Danielson performance of candidates during the student teaching experience were provided for review. One cycle of data was provided for review of mentor surveys and partner administrative surveys. However, analysis was not provided of the data. Evidence of assessment of EPP-created surveys being scored at the CAEP Sufficient Level was not provided. A description of EPP performance, by component, is provided below.

#### Component 2.1

The EPP described opportunities for candidates to observe and implement effective strategies linked to coursework. Candidates can be sent to one of six schools for field experience. Regardless of level and type of endorsement, candidates are engaged in multiple practicum experiences prior to the internship. The EPP articulated that if a candidate receives a score of less than a 2 in any area on the summative Danielson Framework for Teaching during a practicum experience, the candidate must repeat the practicum. If the concern is dispositional, a candidate is placed on an improvement plan. Examples of such plans were provided by the EPP for review.

The EPP described several meetings between EPP faculty and P-12 administrator and teachers throughout practicum and internship experiences during which informal conversations provide opportunities to share information regarding intern performance and EPP program delivery. One principal noted during an on-site interview the belief that feedback results in program changes/improvement. However, formal evidence which indicates that program design has been collaborative was not evident.

The EPP shared, “the Partner School Program has increased the quality of candidates’ learning experience by evaluating the student teaching experience through ongoing and regular feedback. The program is a constant two-way communication...with accurate and timely feedback...”. Feedback is gathered informally through conversation between community school partners and EPP faculty and staff and formally through mentor feedback. While program examples of the impact of feedback on program design were provided (i.e., Special Education and Technology), unit-wide evidence was not presented to document the results of informal and formal feedback and how feedback specifically resulted in program change or candidate improvement.

Evidence was not available to document that input is gathered from community school partners about entry/exit into clinical partnerships. Evidence was not available to show that instruments and evaluations are co-constructed or that criteria for selection of mentor teachers is co-constructed. Partner administrator survey results were provided to document P-12 school’s perceptions of benefits of the relationship with the EPP. Evidence presented indicates that informal conversations regarding program strengths and areas for improvement occur frequently between mentor teachers, supervisors, and area coordinators. Area coordinators share informal feedback with the EPP ECC. A formal process for meaningful collaboration is not currently identified or practiced.

Although there is an interactive and engaged relationship between the EPP and their community school partners, there is no formal mechanism by which collaboration regarding program decision making occurs. The EPP determines construction of instruments and evaluations. P-12 administrators identify mentor teachers. Placement of candidates with mentor teachers happens through an interview process during which candidates interview with P-12 administrators at three different school districts. Principals and candidates rank their preferences for placement. The Field Services Office utilizes ranking information to place candidates in student teaching assignments. P-12 stakeholders share feedback with the EPP regarding candidates perceived strengths and weaknesses through a mentor feedback survey and informally with EPP faculty and staff. Mentor teachers, supervisors, and area coordinators provide feedback to individual candidates through informal interactions and during cohort meetings. The EPP provides feedback to candidates during their student teaching experience through lesson observations and summative evaluations. However, it was not evident how candidate performance data within or across programs was used to influence program improvement.

#### Component 2.2

Mentor teachers are identified by building principals. EPP area coordinators confirm with school district Human Resource Services offices that mentor teachers are certified in the area of endorsement in which a student teacher seeks classroom experience and have three years of teaching experience. P-12 Principals interview candidates. P-12 Principals and candidates rank their placement preferences. The Field Services Office makes final placement decisions based upon P-12 Principal and candidate rankings.

School-based clinical educators evaluate candidates but not EPP-based clinical educators. Candidate evaluation is provided formally to the EPP through mentor feedback forms. EPP-based clinical educators evaluate candidates but not school-based clinical educators. Candidate evaluation by EPP-based clinical educators is influenced by mentor survey submissions and is shared with candidates. Evaluation data of candidates is not shared with the aggregate with school-based clinical educators. Candidates evaluate mentor teachers and supervisors through completion of an exit survey. One cycle of exit survey data was provided. However, analysis of the data or how the data was used to inform program or unit improvement was not provided.

Evidence that EPP's and P-12 clinical educators use data collected to modify selection criteria, determine future assignments of candidates, and make changes in clinical experiences was not provided.

Danielson training, required of all candidate evaluators, is web-based. Mentor training, including expectations of mentors, EPP policies and procedures, is offered face-to-face during a 1-day training. Inter-rater reliability activities are offered on a volunteer basis. No additional trainings are offered.

No evidence was provided of the following:

1. All clinical educators are involved in the creation of professional development opportunities on the use of evaluation instruments.
2. All clinical educators receive professional development and are involved in the creation of professional development of evaluating professional dispositions of candidates.
3. All clinical educators receive professional development and are involved in the creation of professional development of setting specific goals/objectives of the clinical experience and providing feedback.

### Component 2.3

The EPP provided demographic information about each of its' partner districts, however, if a student were to be placed outside of a partner district, data was not evident for each of those sites. The EPP provided a list and description of practicum experiences which describes the relationship between clinical experience and coursework. However, data documenting the effectiveness of this model was not evident.

Descriptions of assignments specific to candidates learning to use assessment to influence instruction completed by Elementary Education, Math, Biology, Special Education, and Early Childhood Special Education were provided. Additionally, all candidates must plan a lesson during their student teaching internship where after the conclusion of a pre-test on a topic, interns must document how they have adjusted their curriculum to address student learning needs, and then complete a post-test. Candidate artifacts were available for review. Evidence of candidate engagement in using assessment data to influence curriculum design and delivery in more than one clinical setting was limited to Elementary Education and Early Childhood Special Education majors.

Evidence that specific criteria for appropriate use of technology is identified was not provided. Candidate's performance during the student teaching experience is evaluated using the Danielson framework. Three cycles of scores were provided disaggregated by program. However, an analysis of this evaluation data was not provided. Formal assessment of candidate progress across programs is inconsistent.

#### b. Analysis of Program-Level Data

Evidence that is consistent with meeting the standard:

1. List and description of practicum experiences prior to the internship
2. Appendix 7
3. Appendix 10
4. Appendix 47
5. Appendix 48
6. Appendix 50
7. Appendix 85

8. Appendix 88

Evidence that is inconsistent with meeting the standard:

1. Appendix 49 (not consistent across programs)
2. Appendix 84 and associated on-site evidence (not consistent across programs)
3. Appendix 86 (not consistent across programs)
4. Appendix 87 (one cycle of data)
5. Appendix 90 (data not analyzed)
6. Appendix 91 (one cycle of data)

3. Recommendations for new areas for improvement and/or stipulations, including a rationale for each:

Area for Improvement:

Area for Improvement	Rationale
(2.2) Partnerships effectively co-select, prepare, evaluate, support or retain clinical faculty	Limited evidence provided
(2.2) Pre-service measures monitored in clinical experience of “positive impact on all P-12 students’ learning and development”	Inconsistent evidence provided between programs
(2.1) Limited evidence of a Shared Responsibility Model focused on clinical preparation	Limited evidence of internal consideration of the data for continuous improvement purposes by the EPP.

**Standard 3. CANDIDATE QUALITY, RECRUITMENT, AND SELECTIVITY**

General Rules for Standard 3:

1. At least three cycles of data must be submitted and analyzed. If a revised assessment is submitted with less than 3 cycles of data, the data from the original assessment should be submitted.
2. Cycles of data must be sequential and be the latest available.
3. EPP-created assessments should be scored at the CAEP Sufficient Level as defined on the CAEP Assessment Evaluation Rubric.
4. All components must be addressed in the self-study.
5. Component 3.2 is required.

Through its initial and revised self-study reports (SSR), responses to subsequent requests for additional data and on-site interviews, the EPP makes a case demonstrating that the quality of candidates is a continuing and purposeful part of its responsibility from recruitment, at admission, through the progression of courses and clinical experiences, and to decisions that

completers are prepared to teach effectively and are recommended for certification. The provider further makes a case by addressing all components of Standard 3 that development of candidate quality is the goal of educator preparation in all phases of their program.

Overall, the EPP, based on its provided data and using the CAEP Visitor Team Evaluation Rubric (2016) did not provide sufficient evidence demonstrating that it had met the General Rules for Standard 3.

### Component 3.1

*Recruitment plan, based on mission, with baseline points and goals (including academic ability, diversity, and employment needs) for five years*

The EPP provides data regarding its recruitment plan for Math (p. 60), Science, SPED and ESL (p. 61). Interviews and supporting data show that recruitment efforts are primarily at the institutional level with individual programs recruiting from institutional students and at various events. Evidence of plan alignment to mission was provided in the SSR as were goals and baseline data for three, not five years. Responses to additional inquiries were answered with “*response The SSR only reports goals last year, this year and next year. To my knowledge, programs have not been asked to plan out 5 years.*”

*Disaggregated data on applicants, those admitted, and enrolled candidates by relevant demographics including race/ethnicity, SES, and/or sex.*

The EPP does provide data regarding EPP candidates relative to the overall institution disaggregated by gender and ethnicity (Table on P. 59).

*Recruitment results are recorded, monitored, and used in planning and modification of recruitment strategies.*

Limited evidence was provided to suggest or support that recruitment results are recorded, monitored or used in planning.

*Knowledge of and action that addresses employment opportunities in schools, districts, and/or regions where completers are likely to seek employment*

Interview data suggests that various programs within the EPP (SPED for example) are seeking out knowledge of employment opportunities where completers are likely to seek employment.

*STEM and ELL, special education, and hard-to-staff school needs are explicitly addressed in analysis of shortage areas*

Additionally, limited evidence beyond responses during interviews was provided to

support the concept that the EPP is collecting or using such data to identify or fill high-need areas beyond anecdotal evidence supplied during the interview phase.

*The recruitment plan and its implementation have moved the provider toward the goal of greater candidate diversity and academic achievement.*

Limited to no evidence was found to support that the EPP's recruitment plan is moving the provider towards greater candidate diversity and academic achievement. Supplemental requests for data regarding this criteria were addressed, via email to the review team, as follows; "As can be seen in the SSR, program goals generally focus on two areas: 1) meeting the teacher shortage by increasing the number of candidates in the program, 2) retaining the candidates we have and helping more candidates persist to graduation. It's unlikely that either of these foci would move toward greater diversity or achievement as those are not their intended goals."

*Evidence that the provider monitors the influence of employment opportunities on enrollment patterns.*

Again, there was limited to no evidence that the EPP is monitoring the influence of employment opportunities on enrollment patterns.

### Component 3.2

All general rules for the Standard 3 are met.

*All/data evidence is disaggregated by specialty licensure area, as well as aggregated.*

There were several challenges presented in the SSR and supporting evidence to understanding EPP admission requirements. Structurally, the EPP does not have admission criteria as a function of institutional practice, rather the EPP documents in the SSR, confirms through subsequent data requests and interviews that any student who is admitted to the university in general would be eligible for admission to the EPP through a declaring of an education major."

One of the purposes of BYU-Idaho is to serve the "everyday student." The goal is to take students where they are and then increase their abilities so as to meet high standards at graduation. Three other key imperatives are to "substantially raise the quality of education, reach more students and to decrease the relative cost" (<http://www.byui.edu/human-resources/training-and-development/spirit-of-ricks/three-great-imperatives>). Thus programs are generally discouraged from having admittance criteria that would undermine any of those 4 mandates. Some programs around campus have even been discontinued in part because they had become so selective in who they admitted to their program such that they served less students at an increased cost and ignored the "everyday student." With this in mind, a general institutional student

becomes a teacher candidate as soon as s/he declares an education major, which may as early as on day 1 of their freshman year. (SSR Pg. 62)

Under this structural context, provided data were reviewed. Data provided on p. 63 provides three cycles of data regarding education majors, their high school GPA and their entering ACT scores. These data did not include the most current year available (17-18). When disaggregated by licensure area, the admission data continued to show ACT scores, above the 50<sup>th</sup> percentile, but the GPA provided were for candidates at graduation.

### Component 3.3

*The provider documents evidence of established non-academic criteria used during admissions.*

The EPP did not provide data supporting any EPP established additional selectivity factors at admission were used. Evidence provided by the EPP indicates that there is only one type of non-academic criteria used during admission. The provider's evidence on established non-academic criteria used during admission was limited to institutional requirements for admission; analysis of which was not conducted as all individuals admitted to the institution must meet these institutional criteria.

*The provider's rationale for established non-academic criteria makes an evidence-based case (existing literature or provider investigations) for the selection and implementation.*

Two non-academic criteria pieces were identified from the evidence; the institutional criteria used during admission to the EPP and an unclear application of the Danielson Framework (Domain 4) used during practicum and student teaching (SSR p. 67). The rationale for institutional criteria is embedded within the institutional mission and is referenced numerous times. The EPP makes a case for using Domain 4 of the Danielson framework as the sole dispositional assessment of candidates during the program.

*The EPP monitors candidate progress on established non-academic criteria at multiple points and takes appropriate actions based on results.*

As discussed, the use of Domain 4 data is collected at Practicum and at the student teaching phase of the preparation program. Furthermore, the SSR, subsequent data requests and interview data were contradictory in the process by which the EPP conceptualizes the collection of data for analysis at multiple points. For example, the SSR (p 67) states that "The FSO saves this disposition evidence in Taskstream, and in a filing system within their office." However, requests for data and analysis on dispositions were answered with "We are moving to a new learning management system and it's been messy trying to get Taskstream working. We have not used it to collect dispositions from all the

*program areas. There currently is not common dispositions document.”* Additionally, it was seen in the evidence and responses to subsequent requests for data that the EPP has been adapting, at the program level, the use of the Danielson framework in a variety of program-level created instruments (Appendices 21, 52, 77). SSR, pg 76 states that:

*“Data are just beginning to be collected using these measures. The department has a committee of math education faculty who worked together in the design of the assessment plan and will work together each semester in the analysis of the assessment data and improvement plan.”*

Written responses to additional data requests support this finding *“Each program has developed its own dispositional rubrics”*. Furthermore, on these EPP created assessments No validity data was provided and as such would be insufficient on the CAEP Evaluation Rubric for EPP created assessments. Additionally, the EPP’s monitoring of non-academic criteria at two key points (Practicum and Student Teaching) provided only narrative examples of how a limited number of candidates could be counseled out of the program if they did not meet the expected proficiency levels of performance.

*The provider associates/correlates non-academic criteria with candidate and completer performance.*

There was no data which assessed the association or correlation of non-academic criteria with candidate and completer performance.

#### Component 3.4

*The provider documents two or more measures/gateways of candidate progression (from key decision points).*

The SSR provides limited evidence to support the assertion that it monitors candidates throughout the program at two or more points. Specifically, Appendix 19 does map content knowledge to Idaho standards but not all program/licensure areas are addressed. This is a consistent theme throughout the data that programs and licensure as indicated in a written response to additional data request for additional evidence from programs that data are regularly reviewed using a coherent set of multiple measures. The response was as follows:

*“Since all of our programs have functioned autonomously we (at the tpp/unit level) don’t track each program. If you define “coherent set of measures” as “required at the unit level of all programs”, then the answer is no.”*

Furthermore, after review of the provided evidence, another request for additional evidence specifically asking for Performance evidence (and analysis) at two or more measures/gateways of candidate progression in Integration of use of technology by

program area by licensure/program area. The written response was as follows:

*“ .... Again, we are not set up with a centralized EPP as much as we are set up with autonomous programs so individual programs may have other standards”*

*The provider presents explicit criteria for monitoring/assessing with a focus on candidate development throughout preparation.*

Monitoring of candidate proficiencies during the program, is discussed in greater detail in Standards 1 and 5 sections of this report. Of note in this Standard were the evidentiary pieces submitted by the EPP on the integration of technology. The artifacts provided (Appendices 40-44) show some areas of technology integration (Art, English, SPED, Science, Spanish/TESOL) but the evidence provided does not show any performance data for any cycles. Furthermore, the use of the Technology Competency Assessment; this appears to be an EPP created instrument with no validity or reliability testing provided making it insufficient on the CAEP Rubric for the evaluation of EPP created assessments. Additionally, limited to no performance data on this TCA assessment was provided.

*Results and stated candidate progressions criteria align with evidence of actions taken such as the following:*

Limited to no data were provided on performance or analysis of data relating to candidate progression criteria or evidence of actions taken based on that data.

### Component 3.5

*Evidence documents effective teaching, including positive impacts on P-12 student learning and development for all candidates as noted in Standard 1.*

A summary of the evidence provided by the EPP relating to effective teaching, including positive impacts on P-12 student learning and development for all candidates is provided in Standard 1, Component 1 of this report.

### Component 3.6

*Evidence documents candidates' understanding of codes of ethics and professional standards of practice.*

The EPP provides several artifacts that demonstrate content delivery (Appendices 22, 60-65). Each of these pieces indicates where issues relating to ethics for candidates are delivered. However, there is limited to no evidence demonstrating candidates

understanding of these codes of ethics. Specifically, Appendix 68 appears to be a statement of conduct that candidates may or may not be required to sign. No evidence was found as to if candidates sign this form or if they are retained.

*Evidence documents candidates' knowledge of relevant laws and policies (e.g., 504 disability provisions, education regulations, bullying, etc.).*

Appendix 66 mentions that issues of bullying and suicide prevention may be brought up in the ART 314. This piece appears to be an isolated artifact support for similar content was not found in the data for candidates in areas outside of art.

A supplemental request for data regarding performance evidence and analysis documenting candidates' knowledge of relevant laws and policies was addressed as follows: *"The additions we added to CAEP 3.6 show that are candidates have performance evidence but to my knowledge these are not routinely analyzed."*

- a. Evidence that is consistent with partially meeting the standard:
  - Teacher preparation Programs Table
  - HS GPA and Entering ACT Scores for ED Candidates (63)
  - Entering numbers by program area (64)
  - Appendix 85: Praxis and Danielson breakdowns
  - Appendix 77: Math Ed Tracking Sheet
  - Appendix 19
  - Appendix 39
  - Appendix 68: Code of Ethic brochure
  
- b. Evidence that is inconsistent with meeting the standard
  - Recruitment Plans Tables Recruitment goals - inconsistent across programs or missing a 5-year projection
  - Enrollment numbers (pg 65-66) - Unclear how enrollment numbers support selectivity
  - Appendix 46 - assessment examples - Data missing for some programs
  - Idaho Summative Evaluation (pg 67) - Not most recent data
  - Program breakdown for Danielson (pg 68) – lack of validity in data across programs
  - Appendix 6 - Does not provide data relating to IRR, process only
  - Appendices 48A, B, and C - Limited data as to monitoring of candidates – validity of assessment not established
  - Appendix 52 - FCS only, other program areas use of instrument or validity of other EPP/program instrument not clear through evidence.

- Appendix 21 – Science Disposition form - Different from other available program areas. Validity of apparent EPP created assessment not available.
- Supplemental Statement via data inquiry - “Each program has developed its own dispositional rubrics” No validity of EPP created assessments
- Data and analysis of dispositions by program area for three most recent cycles - Email response – “We are moving to a new learning management system and it’s been messy trying to get Taskstream working. We have not used it to collect dispositions from all the program areas. There currently is not common dispositions document.”
- Appendices 40-44 - Provides limited examples of technology integration through selected assignments. Performance data, analysis not available.
- Appendices 60-65 - No performance data on candidate performance relating to ethics assignment (data or analysis), also incomplete syllabus in outcomes module on Ethics [Appendix 64] and No performance data on candidates [Appendix 65]
- Appendix 22 – Secondary Ed required course (ED 200 Syllabus) - No performance data on candidate performance relating to ethics assignment (data or analysis)
- Appendix 66 – ART 314 - No performance data on candidate performance relating to ethics assignment (data or analysis)
- Appendix 67 – Science Methods – Unclear if ethics or laws are addressed – syllabus only
- Appendix 69 – Ethics assignment Instructions - No performance data on candidate performance relating to ethics assignment (data or analysis)

3. Recommendations for new areas for improvement and/or stipulations including a rationale for each

Area for Improvement:

Area for Improvement	Rationale
(3.6) Documentation of candidate understanding of the expectations of the profession, including codes of ethics, professional standards of practice, and relevant and policies.	There is limited or no evidence of internal consideration of the data for continuous improvement purposes by the EPP.
(3.3) EPP establishes and monitors attributes and dispositions beyond academic ability that candidates must demonstrate at admission and during the program	There is limited or no evidence of internal consideration of the data for continuous improvement purposes by the EPP

Stipulations:

Stipulation	Rationale
(3.1) The provider presents plans and goals to recruit and support completion of high-quality candidates from a broad range of backgrounds and diverse populations to accomplish their mission.	There is no realistic recruitment plan at the EPP level.
(3.2) The EPP has no formal admission process.	The EPP’s argument that it monitors candidate quality continuously and purposefully throughout preparation indicates significant gaps.

**BYU-IDAHO REJOINDER TO STIPULATION 3.1**

“There is no realistic recruitment plan at the EPP level.”

This CAEP standard asks us to have a realistic recruitment plan to recruit high-quality candidates within the mission of the University.

**BYU-Idaho Mission Statement**

Brigham Young University-Idaho was founded and is supported and guided by The Church of Jesus Christ of Latter-day Saints. Its mission is to develop disciples of Jesus Christ who are leaders in their homes, the Church, and their communities.

The university does this by:

- Building testimonies of the restored gospel of Jesus Christ and fostering its principles in a wholesome academic, cultural, and social environment.
- Providing a high-quality education that prepares students of diverse interests and abilities for lifelong learning and employment.
- Serving as many students as possible within resource constraints.
- Delivering education that is affordable for students and the Church.

**BYU-Idaho Education Preparation Program 5-year Recruitment Plan**

In order to address the concerns of recruitment in the CAEP, the committee has developed a 5-year plan, based on the mission of BYU-Idaho, using the baseline data of 2018. This plan, when implemented, will support our goal of recruiting high quality teacher candidates with increased diversity and varying backgrounds. Our overall goals we are targeting with this plan are:

- 1) Consistently increase the quality of our candidates in each of the next 5 years as measured by incoming college GPA and ACT scores.
- 2) Increase our graduation rate consistently over 5 years.

- 3) Increase the breadth and diversity of our candidates over 5 years particularly in terms of increasing the number of non-traditional candidates and ethnically diverse candidates.
- 4) Help meet the needs in Idaho and the surrounding region by increasing our total number of graduates as mentioned in #2 above.
- 5) Help meet the demands in high-needs areas by increasing the number of candidates in STEM, SPED, ESL and FCS.

Below is the specific 5-year plan we will implement in order to achieve these goals. Target deadlines are included at the end of each strategy. Each strategy below also indicates which of the above 5 goals it attempts to achieve.

### Recruitment Efforts

#### Potential Recruit Populations:

- High School Students
- College students in content-specific majors
- Transfer students
- Undecided major students
- Online students

Currently, the admissions office collects interest cards from students while attending high school college fairs. Up to this point those cards have not been forwarded along to our education programs on campus. Beginning in January of 2019, they will forward all the cards indicating an interest in an education field to the office of the Dean of Teacher Preparation, who will then send an invitation to declare an education major and provide a link to pertinent information. The cards will then be forwarded to the individual program area indicated on the card. Individual program areas will follow up by contacting those students and inviting them to visit the BYU-Idaho campus. The Admissions Office plans to reach a more demographically diverse population by reaching out to more rural schools. This will also help to fill the state need for more teachers in those areas. The Associate Dean of Teacher Preparation, in conjunction with the Data Specialist will create a database from the cards received, track the number of contacts collected, the number of education declarations that result from those contacts and total completers from those contacts. Target Deadline – Feb 2019, helps meet Goals 3 & 4 above.

Ensure that each program area creates a 5-year recruitment plan for their content area. Several programs already have plans such as Math, FCS, Science, SPED, and ECSE, but other programs do not. Each plan will include specific goals, as well as, a manageable and effective data strategy. Each program will summarize and review these data annually. Plans will be revised and updated as needed at least every three years during program reviews, in support of

continual improvement in recruitment practices and results. Target Deadline – Winter 2019, Goals 3, 4 & 5.

Continue developing relationships with our partner school districts (11 districts in Idaho, Utah, Arizona, and Nevada) and mentor teachers to not only encourage placement of teacher candidates during their student teaching experiences, but explore the potential to expand these relationships to recruit top students from these school districts to select a degree in education and attend BYU-Idaho. Target Deadline – Winter 2019, Goals 1, 2, 3, 4 & 5.

An EPP-level advisory board of stakeholders representing various backgrounds will be created where ideas for recruiting a more diverse population of teacher candidates will be solicited. (See CAEP 5.5 for details). Target Deadline – June 2019, Goal 3.

In order to increase the academic quality of our candidate pool at the EPP level, a report of GPA's to indicate top performers in a subject area will be generated and each high performing student in that content area will be sent an email communication asking them to consider a career in education. For example, if someone is receiving top grades as an English major, we will invite them to consider switching from a general English major to an English Education major. This will include all education areas across campus. We will collect data on students who switch majors to education majors to determine the impact of this invitation. Target Deadline – Fall 2019, Goals 1, 2 & 5.

The office of the Dean of Teacher Preparation Programs will create an EPP-level website and brochure to promote all of the education programs available at BYU-Idaho. The website will link with our CAEP annual reporting measures website (see CAEP 5.4 rejoinder) and will advertise placement statistics and other information regarding the teaching profession. The website will also include information for teacher candidates regarding job openings in education fields, and links to education posting sites for Idaho and surrounding states in which completers typically teach. It will also provide a first contact for anyone interested in BYU-Idaho education programs, and will be included as a link in the correspondence from the Dean. The brochures will be used by the Admissions Office during their visits to high school college fairs, in the advising office, as well as for individual program recruitment efforts. These brochures will also be available when students complete a campus tour and express interest in an education major.

Our Education Society (student club for education majors) will use social media to highlight educational job openings, especially those indicated as "high-need". Up to this point we have primarily relied on our University Career Placement Office to advertise openings. Target Deadline – Jan 2020, Goal 1, 2, 3, 4 & 5.

Money will be allocated to program areas to attend state and local high school conferences and competitions in an effort to make connections with students and invite them to consider coming to BYU-Idaho and earning an education degree in their respective fields (i.e. Science department can attend state science fairs; History- State National History Day; FCS - State FCCLA conferences, etc.). If the individual program areas are unable to fund these trips, the Dean of Teacher Preparation will fund them (some funding is available now and on February 15,

2019, a request was submitted for increased funding for 2020). Preference will be given to programs listed on the US Department of Education's teacher shortage list for Idaho. Attendance at these conferences will allow for recruiting of a more diverse population. Target Deadline – Jan 2020, Goals 1, 2, 3, 4 & 5.

Currently mathematics, FCS, and science host students on campus for annual competitions or events. All program areas will be encouraged to host academic events on the campus of BYU-Idaho in an effort to bring more students to campus that have an interest in specific education areas. This will allow students to meet and talk with faculty members in the field they are interested in studying. Additionally, BYU-Idaho hosts an Education conference twice a year and we will begin inviting high school juniors and seniors who are interested in a career in education. Partnerships will be created with local high school content teachers to identify these students and encourage them to attend. Personal invitations will be mailed to the students' home address. Target Deadline – 2021, Goals 1, 2, 3, 4 & 5.

As our population from which we draw students is not particularly culturally or racially diverse, our best opportunity to increase our racial and cultural diversity at BYU-Idaho is to recruit more of our international students. Traditionally we have not catered our education programs to their needs because the certification requirements in each country can be so very different. We are at a point where we would like to cater more fully to those students. We have begun exploring licensing requirements for teachers in the most common countries our students come from so we can better meet their needs. Target Deadline – 2022, Goals 3 & 4.

At BYU-Idaho we have nearly 10,000 online students who currently are not able to declare an Education major (choice of majors is limited for online students). From our research, we know that education is one of the top requested majors for our online students. The administration of BYU-Pathway Worldwide, who oversees our online programs, has also expressed an interest in making this available to our online students. As the average age of our online students is 34 years old, this will also increase the breadth and diversity of our candidates. In addition, more than 10% of these students are international student. Target Deadline – 2023, Goals 1, 2, 3, 4 & 5.

Our FSO will reach out and work with alumni working in the field to recruit more teacher candidates from around the nation and in specifically designated "need areas." By 2023 the EPP will have tracked employed graduates more systematically for 4 years (see CAEP 5.1) which will enable teachers currently in the field to act as a resource to fill educator pipelines in high need areas. This will also help in the recruitment of diverse teacher candidates. Target Deadline – 2023, Goals 1, 2, 4 & 5.

### **Overall Retention Efforts of the BYU-Idaho Education Preparation Program (EPP)**

Many of our retention efforts stem from the overall emphasis of the university to improve our freshman retention rates. These efforts include:

- Assign a faculty mentor as soon as a student has been accepted to BYU-Idaho.
- Continually improve the quality of programs/courses with a focus on serving student needs.

- Faculty proactively reach out to struggling students and 1<sup>st</sup> generation college student.
- Develop and distribute clearly marked pathways to student success in I-plan (our computer system for students to track their overall progress toward a major including what additional classes they need to take and when they plan to take the needed classes).
- Engage student learning through collaborative teaching strategies, and learning communities.
- Require a college success course during the freshman year.
- Immediately immerse students in major content courses to engage them in the education field rather than early completion of GE requirements.
- Establish checkpoints throughout the program to track and counsel with students as outlined in CAEP 3.2.
- More university efforts for freshman retention are discussed at:
  - <http://www.byui.edu/student-support/peer-mentoring/new-student-mentor-program>
  - <http://www.byui.edu/alumni/mentoring>
  - <http://www.byui.edu/mentoring>

### Recruitment & Retention Data Points

To help facilitate the collection of relevant data, we will use the tables in Appendix 1.

### BYU-IDAHO REJOINDER TO STIPULATION 3.2

“The EPP has no formal admission process... The EPP’s argument that it monitors candidate quality continuously and purposefully throughout preparation indicates significant gaps.”

BYU-Idaho students are required to declare a major upon acceptance to the university. Previously, students could immediately declare their major in the specific education program of their choice. The only academic admittance criteria into the major were the same criteria to be admitted into the university which is a 16 ACT and a high school GPA of 2.0. As the stipulation states, there is a need for a more formal admission process into our education majors involving continuous and purposeful monitoring throughout teacher candidate preparation. Although we already met the CAEP minimum ACT and GPA standards with our previous general university admittance criteria (CAEP requires a minimum average group ACT of 21 and a minimum average group GPA of 3.0), these additional admittance and monitoring criteria described below will further ensure that we continue to exceed those CAEP minimums.

Starting a year ago in Winter 2018, we developed a task force to develop a more comprehensive plan to ensure quality with Knowledge checkpoints, Performance checkpoints, Professional Dispositions checkpoints and selectivity from admission through graduation. This plan provides a formal admission process into education programs, and establishes criteria for a continuous and purposeful monitoring of candidate quality. The plan is summarized below in

the three areas: Knowledge checkpoints, Performance checkpoints, and Professional dispositions checkpoints.

#### Knowledge Checkpoints

The admission process is that each student will have to be admitted into teacher candidacy at the end of his/her freshman year (completion of 30 credits with a minimum cumulative GPA of 2.5). As can be seen in Appendix 2, this will require a full 34% of our freshmen to improve their GPA prior to being admitted into the education program. Our hope is that we can help these students succeed rather than losing 34% of all of our education majors on campus. Additional knowledge content checks will occur throughout the candidates' time at BYU-Idaho. Those checks are: minimum cumulative GPA of 2.5 at the end of the sophomore year, minimum cumulative GPA of 2.5 prior to student teaching and passing the appropriate Praxis exams prior to student teaching.

#### Performance Checkpoints

Completion of 10-20 hours of volunteer work in schools prior to admittance into the major as well as Danielson scores of 2 or greater for each sub-domain in practicum courses and during student teaching.

#### Professional Dispositions Checkpoints

Maintain a minimum average of 2.5 on the dispositions rubric scores (completed by the instructor at the end of every education class). Checkpoints will be at the beginning of the sophomore, junior, and senior year. This plan should also ameliorate the "area for improvement" for standard 3.3.

Candidates failing to meet any of the above criteria will be given options for remediation or will be counseled out of the program. The tables below provide more detail of checkpoints and options in case of failure (fail options) at each checkpoint. The results of following this plan will include continual cycles of data on individual students that will better inform decisions for their personal improvement and/or continuation in the path of becoming a public educator. The results will also better inform programs of weaknesses and strengths in their individual teacher preparation program. There is a gatekeeper associated with each checkpoint who will be responsible to report results for each candidate using the following terms:

- Continuation: All requirements met.
- Continuation with stipulations: Significant requirement(s) not met (low cumulative GPA, lacking in teaching or disposition areas with recognition of the problem). With any of these, the student is on a contract for improvement.
- Continuation Denied: Significant requirement(s) not met and significant concerns exist (extremely low GPA, lacking dispositions for teaching without ability or foresight for improvement, or poor field experience reports with Danielson scores less than a 2 in each sub-domain).

The gatekeepers, listed in the chart below, will provide general status reports and individual student's concerns to the Associate Dean of Teacher Preparation. The Program Director and/or the Associate Dean of Teacher Preparation will discuss concern(s) with the student. A hold will be placed on that student's registration until that discussion occurs wherein one of two things will happen: (1) continuation with stipulations or (2) continuation is denied. If the student receives a continuation denied, then he or she is referred to Academic Advising to find another field of study.

**Admission:**

Task	Gatekeeper	Pass	Fail Options	CAEP	Year
Declare Major as Education (in General)	University Admissions (students directed to directors of specific programs of interest)	Open enrollment to all students	NA		freshman
Admittance into Specific Education Program Major	Academic Advising & Program Director	Minimum of 2.5 GPA in first 30 credits	Meet minimum standard before completion of sophomore year	3.2	sophomore

**Knowledge:**

Task	Gatekeeper	Pass	Fail Options	CAEP	Year
Content Check #1	Academic Advising & Program Director	2.5 GPA minimum (overall) at the end of their freshman year or first semester at BYU-I for transfer students	Program Director could give options: stipulation for improvement within two semesters, retake courses, or find a new major.	3.2, 3.5	End of freshman year and transfer students
Content Check #2	Report from Data Specialist to Program Director	2.5 GPA at the end of content methods courses	Program Director could give options: stipulation for improvement within two semesters,	3.2, 3.5	End of sophomore/ beginning of junior year

			retake courses, or find a new major.		
--	--	--	---	--	--

Content Check #3	Records and Registration & Field Services	2.5 GPA prior to student teaching	Retake the course(s) or counseled out of program	3.2, 3.5	Prior to student teaching
Content Check #4	Field Services	Praxis	Retake Praxis	3.5	Senior year

**Performance: Teaching Skills and Instructional Practice:**

Task	Gatekeeper	Pass	Fail Options	CAEP	Year
Teaching Skills Check #1	Introduced in ED 200  (Program Director becomes the gatekeeper)	Students must complete 10-20 hours of job shadowing/service OR substitute teaching on their off track (school context). They must fill out a simple form of self-assessment on teaching skills. (Local students will be given a list of school options that would not interfere with other practicums).	Would complete during an on-track semester.	2.2, 2.3, 3.4	Must complete within first 30 credits and before ED 361
Teaching Skills Check #2	Practicum class faculty	The candidate must receive an average of 2 or better in all sub-domains of Danielson	Repeat the class or the teaching experience. Faculty discusses with candidate if this is correct major. Program director notified.	2.2, 2.3, 3.4	Early junior year

Teaching Skills Check #3	Senior Practicum Teacher	The candidate must receive an average of 2 or better in all sub-domains of Danielson.	Repeat Practicum. Faculty discusses with candidate if this is correct major. Program director notified.	2.2, 2.3, 3.4	junior or senior year
--------------------------	--------------------------	---	---	---------------	-----------------------

**Professional Dispositions:**

Task	Gatekeeper	Pass	Fail Options	CAEP	Year
Professional Dispositions Check #1	Data Specialist who emails Program Director	Average of 2.5 in ED classes dispositions rubric (Any 1s will be flagged)	Improvement Plan to be checked at next checkpoint	2.2,2.3,3.3	Beginning of sophomore year
Professional Dispositions Check #2	Data Specialist who emails Program Director	Average of 2.5 in all education classes dispositions rubric (Any 1s will be flagged)	Improvement Plan to be completed by next checkpoint. Encouraged to change major.	2.2,2.3,3.3	Beginning of junior year
Professional Dispositions Check #3	Data Person who emails Program Director	Average of 3 or better in education classes disposition rubrics	Improvement Plan must be satisfactorily completed before student teaching	2.2,2.3,3.3	Beginning of senior year

**Admission to Student Teaching:**

Task	Gatekeeper	Pass	Fail Options	CAEP	Year
Pass all exams including Praxis	Field Services	Student Teach	Retake exam(s)	3.5	Semester before

					student teaching by midterm. Final check is between semesters.
Danielson of 2 or better in practicums and dispositions.	Practicum Teachers (faculty)/Public School Mentors	Student Teach	Repeat practicum	2.2, 2.3, 3.3, 3.4	junior through senior years
Cumulative GPA 2.5	Records and Registration & Field Services	Student Teach	Retake the course(s)	3.2, 3.5	freshman to senior
Professional Dispositions average of 3 or better	Data Specialist sends to Program Director	Student Teach	Counseled out of program	2.2, 2.3, 3.3	End of junior year
Coursework completed semester before student teaching by midterm. Final check is between semesters.	Field Services	Student Teach	Finish coursework	3.5	freshman to senior
Submit cover letter, resume and notice of intent	Field Services	Student Teach			End of junior year

**Recommendation for Certification:**

Task	Gatekeeper	Pass	Fail Options	CAEP	Year
Student Teach	Field Services: <ul style="list-style-type: none"> <li>Submit final copy of IPLP</li> <li>Have a 2 minimum in every sub-domain</li> </ul>	Certification	Repeat student teaching if appropriate or explore alternative degree options	2.2, 2.3	senior

	of Danielson				
Assignment to review and reflect on Idaho Code of Ethics	Field Services	Certification	Retake assignment	3.6	senior
Institutional Recommendation upon request	Dean of Teacher Preparation	Certification			senior

**Standard 4. PROGRAM IMPACT**

“The provider demonstrates the impact of its completers on P-12 student learning and development, classroom instruction, and schools, and the satisfaction of its completers with the relevance and effectiveness of their preparation” (CAEP Handbook, May 2018, p. 45).

1. Findings for each offsite report task to be verified onsite:

Task(s)

Task	Evidence was or was not verified
<u>Standard 4.1, Task 1:</u> Determine if EPP uses direct measures to assess completer impact on P-12 student learning.	Evidence was not verified that the EPP uses direct measures to assess completer impact on P-12 student learning. Evidence presented was one cycle of data from candidates (Pretest Posttest Winter 2018).
<u>Standard 4.2, Task 1:</u> Determine if EPP examines completers’ effective application of professional knowledge, skills, and dispositions for which they were prepared.	Evidence was not verified that the EPP examines completers’ effective application of professional knowledge, skills, and dispositions for which they were prepared. Evidence presented was one cycle of data from the ICEP employer survey.
<u>Standard 4.3, Task 1:</u> Determine if the EPP is able to provide additional evidence of employer satisfaction in employment milestones.	The EPP is not able to provide additional evidence of employer satisfaction in employment milestones.
<u>Standard 4.3, Task 2:</u> Obtain an analysis and interpretation of ICEP Employer Survey responses	The EPP did not provide an analysis and interpretation of ICEP Employer Survey responses
<u>Standard 4.4, Task 1:</u> Determine if the EPP is systematically gathering, analyzing, and interpreting completer satisfaction based on representative data.	Evidence was verified that the EPP is not systematically gathering, analyzing, and interpreting completer satisfaction based on representative data. ICEP alumni survey data is insufficient, limited by the number of cycles (2) and low response rate (13-17%).

2. Summary regarding completeness and accuracy of evidence related to Standard 4:

Special rules for Standard 4:

1. All components are required.
2. All components must be met for the standard to be considered met.

3. All phase-in requirements are met.

In addition to the General Rules:

1. All components must be addressed in the SSR,
2. At least three cycles of data must be submitted and analyzed. If a revised assessment is submitted with less than 3 cycles of data, the data from the original assessment should be submitted.
3. Disaggregated data is provided on enrolled candidates for main and branch campuses, if any, for technology-based preparation and for individual preparation (licensure or certification area) programs.
4. Cycles of data must be sequential and be the latest available.
5. EPP-created assessments should be scored at the CAEP Sufficient Level as defined on the CAEP Assessment Evaluation Rubric.

a. Summary of findings

Impact on P-12 Student Learning and Development

4.1 Required component – “The provider documents, using multiple measures that program completers contribute to an expected level of student-learning growth. Multiple measures shall include all available growth measures (including value-added measures, student growth percentiles, and student learning and development objectives) required by the state for its teachers and available to educator preparation providers, other state-supported P-12 impact measures, and any other measures employed by the provider” (CAEP Handbook, May 2018).

Pretest Posttest assignment data from winter 2018 was submitted as evidence in the self-study report by the EPP as an artifact of the effectiveness of completers on P-12 student learning growth. The data was disaggregated by licensure, but represented a single cycle of data from pre-service candidates in student teaching. CAEP standard 4 requires the analysis of three cycles of data, which is recent and sequential, and that the data is from EPP completers. Data recording performance of pre-service teachers does not meet the sufficiency criteria for Standard 4 (CAEP Evaluation Rubric, March 2016).

- No, limited, or inappropriate in- service data provided.
- Analysis or evaluation of evidence is incomplete or superficial and not supported by data.
- No or inappropriate context or description of the source of P-12 learning.

Additional evidence submitted in the EPP Response to Formative Feedback Report included antidotal comments from a Utah high school principal and assistant superintendent. An appropriate description of the source of P-12 learning was not provided, resulting in a determination of insufficiency for the data.

Indicators of Teaching Effectiveness

4.2 Required component – “The provider demonstrates, through structured and validated observation instruments and/or student surveys, that completers effectively apply the professional knowledge, skills, and dispositions that the preparation experiences were designed to achieve.” (CAEP Handbook, May 2018).

Teaching effectiveness of EPP completers is required in standard 4.2 in the form of classroom observations of in-service teachers and/or P-12 student surveys. The EPP submitted data from the ICEP Employer Survey as evidence for teacher effectiveness. The Employer Survey is not a direct, structured observation of teacher effectiveness and/or P-12 student learning (CAEP Standard 4 Evidence Resource for EPPs, 2017). Additionally, CAEP evidence sufficiency criteria are not met in the Employer Survey artifact based on the single cycle of data presented, and the 14.5% response rate of employers, which falls below the 20% survey response rate required by CAEP in the evidence sufficiency guidelines (CAEP Evaluation Rubric, March 2016).

- Survey return rates were 15%, below the minimum required return rate, or survey data were limited to one or two licensure areas.
- Validity descriptions were not submitted, or were inappropriate, and failed to meet research-based standards for establishment of validity, or no specific type of validity was identified.

#### Satisfaction of Employers

4.3 Required component – “The provider demonstrates, using measures that result in valid and reliable data and including employment milestones such as promotion and retention, that employers are satisfied with the completers’ preparation for their assigned responsibilities in working with P-12 students” (CAEP Handbook, May 2018).

Evidence for employer satisfaction in EPP completers was submitted in the EPP report by presenting qualitative responses to two questions from eleven (11) responders on the Employer Survey. As stated above in 4.2, CAEP evidence sufficiency criteria are not met in the Employer Survey submission based on the single cycle of data presented, and the 14.5% response rate of employers, which falls below the 20% survey response rate required by CAEP in the evidence sufficiency guidelines. Representativeness of the sample was not addressed in the EPP report, nor were EPP completer employment milestones. Employer satisfaction specific to licensure areas was not addressed in the EPP report, and the system for gather employer satisfaction data is inadequate (CAEP Evaluation Rubric, March 2016).

- No system for gathering employer satisfaction data is in place or is inadequate.

#### Satisfaction of Completers

4.4 Required component – “The provider demonstrates, using measures that result in valid and reliable data, that program completers perceive their preparation as relevant to the

responsibilities they confront on the job, and that the preparation was effective” (CAEP Handbook, May 2018).

Completer satisfaction was addressed by the EPP, and supported with submitted evidence from 2015 and 2016 ICEP Alumni Survey response data and BYU-I OIRA Alumni Survey response data. The ICEP Alumni Survey represented two cycles of data, 2015 and 2016, which falls short of the CAEP evidence sufficiency requirements. Additionally, the survey response rates for both years of administration fall below the CAEP evidence sufficiency requirement of 20% (13%; 2015 and 17%; 2016). The ICEP Alumni Survey data was presented in a table within the 4.4 narrative, however, interpretation and analysis of the data was not evident (CAEP Evaluation Rubric, March 2016).

- Interpretation and analysis of data are incomplete or conclusions are not supported by data.
- Only one or two of the following were provided:
  - system for gathering data
  - adequate response rates (20% or more)
  - description on the representativeness of the sample
  - multiple comparison points
  - trends over time.

EPP evidence from the BYU-I OIRA Alumni Survey was submitted as an artifact to demonstrate completer satisfaction. The EPP CAEP Report states on page 90, “80% of respondents agreed that their BYU-Idaho experience fully prepared them for the responsibilities of their employment.” The combined percentage of responses in the following categories of agreement support the statement: “Somewhat Agree” (30.4%), “Agree” (39.13%), and “Strongly Agree” (10.88%). However, the BYU-I OIRA Alumni Survey was a single administration to 1<sup>st</sup> and 5<sup>th</sup> year alumni of the entire university, in which data were presented in aggregate, and the EPP alumni response rate was 8%. All of these factors fail to meet CAEP evidence sufficiency guidelines (CAEP Evaluation Rubric, March 2016).

- Interpretation and analysis of data are incomplete or conclusions are not supported by data.
- Only one or two of the following were provided:
  - system for gathering data
  - adequate response rates (20% or more)
  - description on the representativeness of the sample
  - multiple comparison points
  - trends over time.

Additional evidence items were submitted in the EPP Response to Formative Feedback Report during the onsite visit including the following:

1. End of Student Teaching Graduating Candidates (Appendix 73)

2. One cycle of data on Alumni Survey (Appendix 72)
3. Letter from Weber School District and Partner Administrator Survey (Appendix 87)
4. One cycle of data on Partner Administrator Survey Results 2018 (Appendix 91)
5. One cycle of data on Alumni Survey (Appendix 92)

None of the additional pieces of evidence met the CAEP sufficiency levels for Standard 4 based on one or more of the following attributes.

- Survey return rates were too low (15% or below) for the data to be useful or survey data were limited to one or two licensure areas.
- Validity descriptions were not submitted or were inappropriate and failed to meet any research based standard for establishment of validity or no specific type of validity was identified.
- No system for gathering employer satisfaction data is in place or is inadequate.
- Interpretation and analysis of data are incomplete or conclusions are not supported by data.
- Only one or two of the following were provided:
  - system for gathering data
  - adequate response rates (20% or more)
  - description on the representativeness of the sample
  - multiple comparison points
- trends over time.

#### Analysis of Program-level data

##### a. Evidence that is consistent with meeting the standard

1. None of the evidence submitted met the General Rules for Standard 4
  - a. All phase-in requirements are met.
  - b. All component for Standard 4 are required.
  - c. At least three cycles of data must be submitted and analyzed. If a revised assessment is submitted with less than 3 cycles of data, the data from the original assessment should be submitted.
  - d. Cycles of data must be sequential and be the latest available.
  - e. EPP-created assessments should be scored at the CAEP Sufficient Level as defined on the CAEP Assessment Evaluation Rubric.
  - f. All components must be addressed in the self-study.

##### b. Evidence that is inconsistent with meeting the standard

1. 4.1: student teaching Pretest Posttest assignment from candidates
2. 4.1: one cycle of data for Pretest Posttest assignment (Winter 2018)
3. 4.2: ICEP employer survey is an inconsistent measure for component 4.2
4. 4.2: 14.5% response rate on ICEP employer survey (Appendix 70)
5. 4.2: one cycle of data on ICEP employer survey

6. 4.3: 14.5% response rate on ICEP employer survey
7. 4.3: one cycle of data on ICEP employer survey
8. 4.3: data not specific for licensure areas
9. 4.4: 13% response rate on 2015 ICEP alumni survey (Appendix 71)
10. 4.4: 17% response rate on 2016 ICEP alumni survey (Appendix 71A)
11. 4.4: two cycles of data for ICEP alumni survey
12. 4.4: 8% response rate on BYU-I OIRA alumni survey (Appendix 72)
13. 4.4: single cycle of data on BYU-I OIRA alumni survey
14. End of Student Teaching Graduating Candidates (Appendix 73)
15. Antidotal comments from a Utah high school principal and assistant superintendent
16. One cycle of data on Alumni Survey (Appendix 72)
17. Letter from Weber School District and Partner Administrator Survey (Appendix 87)
18. One cycle of data on Partner Administrator Survey Results 2018 (Appendix 91)
19. One cycle of data on Alumni Survey (Appendix 92)

4. Recommendations for new areas for improvement and/or stipulations including a rationale for each

Area for Improvement:

Area for Improvement	Rationale
(4.4) The EPP did not provide sufficient evidence of requirement 4.4. Analysis and interpretation of completer satisfaction data was incomplete.	Evidence for component 4.4 was limited. Analysis and interpretation of completer satisfaction with their preparation was insufficient. Only two cycles of completer survey data were provided for review. Additionally, each year of presented data had a lower than CAEP acceptable response rate.

Stipulation:

Stipulation	Rationale
(4.1) The EPP did not provide sufficient evidence for required component 4.1. Data are not direct measures of completers and their impact on P-12 student learning.	Submitted evidence is a single cycle of data from pre-service student teachers' winter 2016 Pre-test/Post-test assignment. This evidence is not a measure of in-service completer impact.
(4.2) The EPP did not provide evidence required for component 4.2. Data are not direct measures of completers' effective application of professional knowledge, skills, and /or dispositions.	The provided data are from Employer Survey responses and are not direct measures of completer effectiveness and/or P-12 student learning.

<p>(4.3) The EPP did not provide evidence required for component 4.3. Data on significant components of employer satisfaction were missing.</p>	<p>The EPP provided no evidence for employment milestones and representativeness of the data. One cycle of data was provided from a survey that did not meet the CAEP sufficiency response rate expectation.</p>
---	--

**BYU-IDAHO REJOINDER TO STIPULATION 4.1**

“The EPP did not provide sufficient evidence for required component 4.1. Data are not direct measures of completers and their impact on P-12 student learning.”

The states where our completers are commonly employed (Idaho, Utah, Arizona, Nevada) have confirmed that they cannot share student impact data with us (in terms of ISAT scores and the like). Recently the Idaho State Department of Education has made excellent progress on finding a way to potentially share standardized achievement test scores from the P-12 students of our completers. If these efforts proceed to fruition, this will provide us with direct impact measures from our completers to their students. In addition to these data, our Field Services Office will contact our 11 partner districts each year to collect Danielson observation data for our newly hired completers. As Danielson scores have been shown to impact student learning (Milanowski, 2011

<https://pdfs.semanticscholar.org/7ca8/a5e5ab978347b7da709d45e32ccdcf281c39.pdf>), this will be our measure of impact on public school students. This is a similar strategy to example 1 that is found in the *CAEP Standard 4 Evidence: A Resource for EPPs* (pages 2-4, <http://caepnet.org/~media/Files/caep/standards/guidancecomponent41september2017.pdf?a=en>)

- To date (January 30, 2019) 8 of our 11 partner districts have agreed to send us these data each year. These districts include:
  - Mesa (Arizona)
  - Weber (Utah)
  - Madison (Idaho)
  - Rigby (Idaho)
  - Bonneville (Idaho)
  - Fremont (Idaho)
  - Blackfoot (Idaho)
  - Granite (Utah)
  
- Still waiting for permission from:
  - Vegas (Nevada)
  - Jordan (Utah)
  - Davis (Utah)

These 11 districts regularly hire 42% of our new completers who obtain employment each year. We will be performing an analysis each year to ensure that these completers employed in the

above districts are representative of our overall population of newly employed completers in terms of age, gender, race, socio-economic status and program content area.

These data will be collected the first week of June each year. This will allow completers to finish a year of teaching and will allow administrators to finish the school year but will be before they leave for their summer break. Data collection will be completed by the Data/Accreditation specialist under the direction of the Associate Dean for Teacher Preparation Programs.

Two of our partner districts already have given us their numbers from last year and the averages as well as the quality of the data are promising as can be seen below.

**Mesa Arizona – New BYU-I completer teaching effectiveness scores (1-4 with 4 being the highest)**

Yr Grad	Grade Level	17-18	16-17	15-16	14-15	13-14
Fall 16	Social Studies - World History	2-Effective	2-Effective	x	x	x

	Special Ed. LD k-3	3-Highly Effective	3-Highly Effective	x	x	x
Fall 17	4th	2-Effective	x	x	x	x
Averages		2.47	2.33	2.2	1.75	2

The data from Weber School District in Utah are even more promising because they include a P-12 student growth metric for each instructor as can be seen below. (1-4 scale with 4 being the highest)

	Professional Performance	Student Growth	Total Evaluation Score	Overall Effectiveness
	1.52	3	1.82	Effective
	1.43	2	1.54	Developing/Emerging
	2.33	2	2.26	Effective
	2.05	1	1.84	Effective
	1.71	3	1.97	Effective
	1.52	3	1.82	Effective
	1.95	3	2.16	Effective

Averages	1.79	2.43	1.92	Effective

Although this includes only 2 of our 8 districts who have agreed to send us their data by next June, we are eager to obtain the rest of the data and to see if other districts include P-12 student growth scores similar to Weber School District. This would give us an additional direct measure of impact on P-12 student growth.

#### BYU-IDAHO REJOINDER TO STIPULATION 4.2

“The EPP did not provide evidence required for component 4.2. Data are not direct measures of completers’ effective application of professional knowledge, skills, and /or dispositions.”

As indicated in our response to stipulation 4.1, we will be collecting Danielson Summative Evaluations from 42% of our recently employed completers by working with our 11 partner districts. Knowledge, skills and dispositions will be tracked through the scores following on the Danielson Framework for Teaching.

The Danielson Framework assesses teaching “**Knowledge**” by using the following sub-domains:

- 1a – Demonstrating Knowledge of Content and Pedagogy
- 1e – Designing Coherent Instruction
- 1f – Designing Student Assessments

Completers show their **knowledge** by providing artifacts/evidence in the forms of lesson plans, unit plans, lesson objectives that are tied to state standards, assessment plans, rubrics, etc.

The Danielson Framework assesses teaching “**Performance/Skills**” by using the following sub-domains:

- 2a – Creating an environment of Respect and Rapport
- 2b – Establishing a Culture for Learning
- 2c – Managing Classroom Procedures
- 2d – Managing Student Behavior
- 3a – Communicating with Students
- 3b – Using Questioning and Discussion Techniques
- 3c – Engaging Students in Learning
- 3d – Using Assessments in Instruction
- 3e – Demonstrating Flexibility and Responsiveness

Completers show their **skills** by providing artifacts and classroom evidence that shows their interactions with students, student interactions with students, expectations for learning and achievement, transitions, instructional groups, classroom routines, monitoring student behavior, directions for activities, explanation of content, discussion techniques, student engagement, and response to student’s interests.

The Danielson Framework assesses “Dispositions” by using the following sub-domains:

- 4d – Participating in a Professional Community
- 4e – Growing and Developing Professionally
- 4f – Showing Professionalism

Completers show their Dispositions by providing artifacts and classroom evidence that shows their relationships with colleagues, participation in school/district projects, receptivity to feedback, service to the school, ethical conduct, service to students, and their compliance with school and district policies.

- To date (January 30, 2019) 8 of our 11 partner districts have agreed to send us these data each year. These districts include:
  - Mesa (Arizona)
  - Weber (Utah)
  - Madison (Idaho)
  - Rigby (Idaho)
  - Bonneville (Idaho)
  - Fremont (Idaho)
  - Blackfoot (Idaho)
  - Granite (Utah)
- Still waiting for permission from:
  - Vegas (Nevada)
  - Jordan (Utah)
  - Davis (Utah)

These 11 districts regularly hire 42% of our new completers who obtain employment each year. We will be performing an analysis each year to ensure that these completers employed in the above districts are representative of our overall population of newly employed completers in terms of age, gender, race, socio-economic status and content areas.

These data will be collected the first week of June each year. This will allow completers to finish a year of teaching and will allow administrators to finish the school year but will be before they leave for their summer break. Data collection will be completed by the Data/Accreditation specialist under the direction of the Associate Dean for Teacher Preparation Programs.

In case the reviewer for 4.2 is not the same reviewer as 4.1, we’ve again included the data tables below. Two of our partner districts already have given us their numbers from last year and the averages are promising as can be seen below.

**Mesa Arizona**

	1.52	3	1.82	Effective
	1.95	3	2.16	Effective
Averages	1.79	2.43	1.92	Effective

Although this includes only 2 of our 8 districts who have agreed to send us their data next June, we are eager to see the rest of the data.

### Strategy for Tracking Employed Completors

Standards 4.1-4.4 all rely on our ability to track our employed completors. As an EPP, we have not done this in the past but have relied on data collected with our alumni survey that the university sends out 1-year and 5 years after graduation.

The EPP will now more formally track completors by:

- The Field Services Office has now updated the exit survey required of all student teachers to include updated contact information including their cell phone number and a personal e-mail address (not their student e-mail address from BYU-Idaho). In addition, the survey now asks about any offers of employment that the candidate has

already received. This revision took place in time for our Dec. 2018 student teachers to complete the survey (See Appendix 3).

- Each August, our Field Services Records Coordinator will also send out a list of student teaching candidates from the past year to the Area Coordinators.
- Area Coordinators will report back to the Field Services Office any employment information they are aware of for those completers.
- The Office of Institutional Research administers a survey at graduation and one year after graduation for all graduates at BYU-Idaho. They will also begin administering an additional survey 90 days after graduation starting with the April 2019 graduates. All of these surveys ask about up-to-date personal and employer contact information.
- At the beginning of August of each year, the Data Specialist will also send out a short survey to completers in their first 3 years asking for: updated contact information and place of employment. This will hit the teachers before they get busy at the beginning of the school year.
- For those who don't complete this short survey, we will contact the alumni office for current information they have on file.
- These data will be funneled to our Data Specialist for the purposes of tracking down employed completers in time to submit our information to Boise State University for their ICEP survey of completers and employers. All of these efforts will allow us to more fully fulfill CAEP 4.1-4.4.

#### **BYU-IDAHO REJOINDER TO STIPULATION 4.3**

"The EPP did not provide evidence required for component 4.3. Data on significant components of employer satisfaction were missing."

We will use the ICEP Employer Survey (Appendix 4) to send to all of our completers 1-year after graduation. Previously we only had this survey sent to employers in Idaho but starting in the Dec. 2018 survey we had it sent to our employers outside of Idaho as well. As we more fully implement our tracking plan above, we will have more complete contact information for our completers and their employers outside of Idaho. In an effort to maximize response rates, Boise State gives us a list of those who haven't responded a week before the survey closes. Starting in January 2019, we made personal calls to each of those employers asking them to complete the survey.

Once data are returned to BYU-Idaho, the Data Specialist will receive the report and combine the information with data from previous years. S/he will prepare this information for the Dean and Associate Dean of Teacher Preparation Programs and will also present the information annually to the Education Coordinating Council at the beginning of the Fall Semester. All of these players will analyze the data for their appropriate level (the Dean, Associate Dean and the Education Coordination Council for the EPP-level analysis and the programs and program directors for the program-level analysis).

As the ICEP survey does not address promotion, retention and employment milestones, BYU-Idaho will annually send out a survey to a sample of our employed completers 3 years after graduation. This survey will ask directly about if the completer is still employed in a school system after 3 years (retention and tenure milestone). Additionally, we will ask about any promotions or other milestones such as additional certifications, leadership positions, etc., that the completer may have achieved in that 3-year time frame.

#### **BYU-IDAHO REJOINDER TO AFI 4.4**

“The EPP did not provide sufficient evidence of requirement 4.4. Analysis and interpretation of completer satisfaction data was incomplete.”

Although we did not receive a stipulation for CAEP 4.4, we feel the need to change our procedures here to better meet the standard. The changes below will allow us to be in line with the rest of the state and will provide more consistency in our data collection each year. This should also address the AFI for 4.4. We will use the ICEP Alumni Survey to send to all of our completers 1-year after graduation (See Appendix 5).

Previously we only had this survey sent to completers employed in Idaho but starting in the Dec. 2018 survey we had it sent to our completers outside of Idaho as well. As we more fully implement our tracking plan delineated previously, we will have more complete contact information for our completers outside of Idaho.

To ensure a sufficient response rate, we are reminding our candidates at the end of their program (in the exit survey in student teaching) (see Appendix 3) that it is important for them to complete this survey. Boise State also gives us a list of those who haven't responded a week before the survey closes. Starting in January 2019, we made personal calls to each of those completers asking them to complete the survey.

As with 4.3 above, once data are returned to BYU-Idaho, the Data Specialist will receive the report and combine the information with data from previous years. S/he will prepare this information for the Dean and Associate Dean of Teacher Preparation Programs and will also present the information annually to the Education Coordinating Council at the beginning of the Fall Semester. All of these players will analyze the data for their appropriate level (the Dean, Associate Dean and the Education Coordination Council for the EPP-level analysis and the programs and program directors for the program-level analysis).

#### **Standard 5. PROVIDER QUALITY ASSURANCE AND CONTINUOUS IMPROVEMENT**

General rules for Standard 5:

- Components 5.3 and 5.4 are required.
- At least three cycles of data must be submitted and analyzed. If a revised assessment is submitted with less than 3 cycles of data, the data from the original assessment should be submitted.

- Cycles of data must be sequential and be the latest available.
- EPP-created assessments should be scored at the CAEP Sufficient Level as defined on the CAEP Assessment Evaluation Rubric.

1. Findings for each offsite report task to be verified onsite:

Task(s)

Task	Evidence was or was not verified
<p>5.1 Provider evidence documents that the system supports disaggregation of data by specialty licensure area and other dimensions (e.g., over time, by race/ethnicity, gender, etc.), and regularly uses these data to inform operational effectiveness and continuous improvement.</p>	<p>Evidence was partially verified. During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. These reviews include an outcomes and assessment system that programs are responsible for reporting to the university. Evidence that these program reviews completed for the university are aligned with CAEP standards was not provided.</p>
<p>5.1 Provide evidence of a quality assurance system for all programs, with regular reviews for operational effectiveness. This should include data review and analyses using a coherent set of multiple measures.</p>	<p>Evidence was partially verified. During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. These reviews are based on outcomes and assessments specific to the program. However, evidence that these program reviews completed for the university are aligned with CAEP standards was not provided.</p>
<p>5.2 Evidence of at least 75% of EPP-created assessments used in quality assurance systems are scored at the minimal level of sufficiency as defined by the CAEP Assessment Rubric.</p>	<p>Evidence was not verified. References to Praxis tests and Framework for Teaching observations were made in the SSR and during the site visit specifically to this standard component. No evidence was provided that any EPP-created assessments are scored at the minimal level of sufficiency per the CAEP Assessment Rubric.</p>

Task	Evidence was or was not verified
<p>5.2 Documentation that EPP-created assessments (except for surveys) have:</p> <ul style="list-style-type: none"> <li>a. Established content validity</li> <li>b. Interrater reliability or agreement at .80 or 80% or above (except for surveys)</li> </ul>	<p>Evidence was not verified.</p> <p>No evidence was provided that any EPP-created assessments are scored at the minimal level of sufficiency per the CAEP Assessment Rubric, nor were there any specific references to content validity or interrater reliability.</p>
<p>5.2 Documentation that evidence is relevant (related to standard), verifiable (accuracy of sample), representative (specificity on sample characteristics), cumulative (3 cycles or more), and actionable (in a form to guide program improvement).</p>	<p>Evidence was not verified.</p> <p>During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. Evidence that these program reviews completed for the university are aligned with CAEP standards was not provided.</p> <p>References to the Praxis test scores and the Framework for Teaching were also made for this task. Missing from the references were analyses of the evidence in support of standard 5.2.</p>
<p>5.2 Documentation that interpretations of evidence are consistent, accurate and supported by data/evidence.</p>	<p>Evidence was not verified.</p> <p>During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. Evidence that these program reviews completed for the university are aligned with CAEP standards was not provided.</p>
<p>5.3 The provider documents that it regularly and systematically: reviews quality assurance system data, identifies patterns across preparation programs (both strengths and weaknesses), uses data/evidence for continuous improvement, and tests innovations. Evidence that data-driven changes are ongoing and based on systematic assessment of performance, most (80% or more) program modifications are linked back to evidence/data with specific</p>	<p>Evidence was not verified.</p> <p>During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. Evidence that these program reviews completed for the university are aligned with CAEP standards was not provided.</p>

Task	Evidence was or was not verified
examples provided, and evidence/data from standards 1 through 4 are cited and applied.	
5.3 Specific examples that most (80% or more) change and program modifications are linked back to evidence/data for all programs.	Evidence was not verified. During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. Evidence that these program reviews completed for the university are aligned with CAEP standards was not provided.
5.3 Evidence/data from Standards 1-4 are cited and applied for all programs.	Evidence was not verified. During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. Also during the site visit, the EPP referenced that annual reviews of Praxis and Framework for Teaching summative data are reviewed, but evidence of these analyses was not provided. Multiple follow-up requests were made for evidence that connect the university program reports to CAEP standards. Evidence that these program reviews completed for the university are aligned with CAEP standards was not provided.
5.3 Documentation that EPP regularly and systematically does the following for all programs: <ol style="list-style-type: none"> <li>1. Reviews quality assurance system data</li> <li>2. Identifies patterns across preparation programs (both strengths and weaknesses)</li> <li>3. Uses data/evidence for continuous improvement</li> </ol>	Evidence was not verified. During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. While these reviews demonstrate some of the efforts described for this task, missing was evidence that these reviews are aligned with CAEP standards.
5.4 CAEP's eight outcome and impact measures are monitored and reported together with the following:	Evidence was not verified. During the site visit, the EPP provided limited evidence for some of the annual measures.

Task	Evidence was or was not verified
<ul style="list-style-type: none"> <li>a. Analysis of trends</li> <li>b. Comparison with benchmarks</li> <li>c. Data inform future directions</li> </ul>	<p>Missing was analysis of the collected data and how it can be used to inform continuous improvement.</p>
<p>5.4 Evidence that the eight outcome and impact measures and their trends are posted on the EPP's website.</p>	<p>Evidence was not verified. During the site visit, the EPP stated that the measures are not publicly available.</p>
<p>5.4 CAEP's eight outcome and impact measures are systematically monitored and reported together with: relevant analysis of trends, comparisons with benchmarks, evidence of corresponding resource allocations, and alignment of results to future directions anticipated.</p>	<p>Evidence was not verified. During the site visit, the EPP provided limited evidence for some of the measures. Missing was relevant analysis of the collected data that inform the indicators in standard 5.4 for all of the eight measures.</p>
<p>5.5 Provider documents specific evidence of diverse stakeholder involvement through multiple sources in each of the following areas: decision-making, program evaluation, and selection and implementation of changes for improvement.</p>	<p>Evidence was not verified. During the site visit, interviews with stakeholders provided some evidence of informal involvement. Missing was formal documentation/system of any of these stakeholder involvements or processes, as well as: how data are collected, and how these data are used to inform decision-making, program evaluation, and selection and implementation of changes for improvement.</p>
<p>5.5 Data/evidence of collected feedback for decision-making, program evaluation, and selection and implementation of changes for improvement from diverse stakeholder involvement through multiple sources.</p>	<p>Evidence was not verified. During the site visit, the EPP provided triannual/annual reviews that programs complete for the university as evidence of data systems. Evidence that these program reviews completed for the university are aligned with CAEP standards was not provided. Interviews conducted on site provided evidence of some informal processes for stakeholders to provide input. Missing was evidence that feedback is collected within a quality assurance system</p>

Task	Evidence was or was not verified
	that inform decision-making, program evaluation, and selection and implementation of changes for improvement.

Summary regarding completeness and accuracy of evidence related to Standard 5

a. Summary of findings

In the Self-Study Report (SSR), the EPP noted that the quality assurance system is multifaceted through the university-level annual Outcomes and Assessment reports, the Field Services Office (FSO), and at the program level. Along with the evidence items submitted with the SSR, statements about processes and examples of forms were provided.

In the Formative Feedback Report (FFR), evidence in need of verification of the quality assurance system centered around four areas representative of standard 5:

1. Three cycles of candidate data for all referenced assessments, disaggregated by programs when appropriate, and analyzed.
2. Evidence of at least 75% of EPP-created assessments used in quality assurance systems are scored at the minimal level of sufficiency as defined by the CAEP Assessment Evaluation Rubric.
3. CAEP’s eight outcome and impact measures are monitored and reported, along with analysis of trends, comparison with benchmarks, and data used to inform future directions.
4. Data/evidence of collected feedback for decision-making, program evaluation, and selection and implementation of changes for improvement.

During the site visit, the EPP provided a written response to these requests, and along with additional items, emphasized two particular pieces of evidence: Appendix 82: Quality Assurance Systems by Program, and Appendix 83: Evidence of Data-Based Decisions-Quality Assurance Systems. These two items were also referenced during onsite follow-up requests for evidence. In short, these items were provided as the primary evidence of quality assurance systems that function at the program level.

b. Analysis of Program-Level data

1. Evidence that is consistent with meeting the standard

As indicated in the standard 1-4 reviews, the EPP is committed to the development of teacher candidates. This commitment was further revealed during the onsite visit through interviews with EPP faculty and staff, school partners, candidates, and completers. These interviews indicated that there are some informal processes in place to gather data that could potentially inform some aspects of program improvement. For example, some of the principals indicated

that they were partners in some of the placement decisions, and believed that they had a collaborative, informative voice as a stakeholder.

2. Evidence that is inconsistent with meeting the standard

Throughout the evidence review processes involving the SSR, the onsite visit, and the follow-up requests, it became clear that the EPP does not function as a unit, and as a result, does not have a quality assurance system that informs the unit as a whole, nor the programs as connected parts within the unit. The EPP has self-identified that this approach to a quality assurance system is inconsistent with meeting the standard, and has focused the selected improvement plan goal on standard 5.1.

As described in the reviews above of standards 1-4, some of the evidence provided by the EPP does not meet the general rules for each standard. Additionally, the majority of evidence provided lacks critical pieces that prevent the item from meeting sufficiency requirements. For example, in standard 1, three cycles of Praxis scores and observation scores from the Framework for Teaching were provided, which were also disaggregated by programs. However, missing was an analysis of the trends, patterns, comparisons, and/or differences of these data, and how they support standard 1 components. Another example, from standard 2, includes evidence collected through the SSR and interviews that stakeholders provide input and influence programmatic changes. Again, missing from this evidence item is the analysis of these collected data: how the data were collected, documented, and analyzed for continuous improvement consistently across all programs.

Upon reviewing all evidence provided in the SSR and collected during the site visit, the EPP's current approach to a quality assurance system is inconsistent with meeting almost all components of standard 5, including the general rules for the standard. The EPP has received one AFI for standard 5.1, and four stipulations for standards 5.2-5.5.

1. Preliminary Findings

In the SSR, the EPP centers the quality assurance system discussion around two main principles:

1. Programs are responsible for reporting to the university on an annual and triannual basis.
2. The program reviews are based on assessment and outcomes.

The processes and data used to build these program reports to the university are referenced throughout the SSR as the quality assurance system for the unit. Missing throughout these references (for program reporting for the university) as the quality assurance system for the EPP is: direct connection to the CAEP standards and how these program reports inform program improvement across the unit.

In response, the formative feedback report (i.e., preliminary findings) for standard 5 included a list of tasks for additional evidence to be provided in the response from the EPP. The response and additional evidence were provided during the site visit. The formative feedback report also included preliminary findings for two AFIs and three stipulations:

Areas for Improvement	Rationale
AFI (5.1) Documentation that the EPP uses evidence/data from a coherent set of multiple measures to inform operational effectiveness and support all CAEP standards.	While multiple measures are part of the data review, the system is disjointed with an incoherent set of assessments. Limited evidence is provided of a coherent set of multiple measures to inform operational effectiveness and support all CAEP standards.
AFI (5.5) Specific evidence of diverse stakeholder involvement is documented through multiple sources in decision-making, program evaluation, selection and implementation of changes for improvement.	Limited evidence is provided on ways diverse stakeholders and their input are involved in the decision-making, program evaluation, selection and implementation of changes for improvement processes.

Stipulations	Rationale
Stipulation (5.2) Evidence of at least 75% of EPP-created assessments used in quality assurance systems are scored at the minimal level of sufficiency as defined by the CAEP Assessment Rubric.	Limited to no evidence that EPP-created assessments have: established content validity, interrater reliability or agreement at .80 or 80% or above, evidence that is cumulative, sequential and current (3 cycles or more), nor interpretations that are consistent, accurate and supported by data/evidence.

<p>Stipulation (*5.3) A comprehensive plan that the EPP regularly and systematically: reviews quality assurance system data, identifies strengths and areas of improvement across programs, applies evidence/data from standards 1-4, uses evidence/data for most (80% or more) for program changes and modifications.</p>	<p>Evidence provided is limited. While specific examples are provided (e.g., Spanish program changes, surveys administered by the FSO), evidence of data from a quality assurance <b>system</b> as defined by CAEP is missing.</p>
<p>Stipulation (*5.4) A comprehensive plan that CAEP’s eight outcome and impact measures are systematically monitored and reported together with: relevant analysis of trends, comparisons with benchmarks, evidence of corresponding resource allocations, and alignment of results to future directions.</p>	<p>Evidence/direct reference to annual reporting of the eight outcome and impact measures is missing.</p>

2. Onsite Visit

As described in the reviews above of standards 1-4, some of the evidence provided by the EPP does not meet the general rules for each standard. Additionally, the majority of evidence provided lacks critical pieces that prevent the item from meeting sufficiency requirements.

During the onsite visit, the EPP provided the review team with a response to the formative feedback report. The EPP’s response also included some of the requested evidence items listed in the tasks. Follow up requests were made during the site visit for missing or additional evidence items.

Responses from the EPP to the follow-up requests made during the site visit were similar to what was stated in the SSR and the rejoinder: quality assurance systems operate at the programmatic level, primarily as a response to the university’s assessment and outcomes reporting requirements.

Of the responses received from follow-up requests for evidence for standard 5, there are five responses that are of particular importance for the stipulations determined in this review.

*Response #1:*

In a follow-up request made during the site visit for general evidence requirements for standard 5:

*“-Provide three cycles of **candidate** data for **all** referenced assessments by each program (e.g., all key assessments listed by programs in Appendices 82 and 83).  
-Provide an **analysis** of these data relevant to the standard.”*

The EPP response:

*“Short answer – Not at the Teacher Preparation Unit level  
Long answer – The items that are required by our EPP of all programs, namely Praxis II and Danielson summative scores for senior practicum and student teaching, do meet this standard.  
Plan – Once our new instructional core is in place, we plan to greatly centralize key assessments collection in the core and reduce the number of key assessments across all our programs. This will allow us to more effectively use TaskStream as well. Having a full-time permanent data analyst as well as an associate dean tasked with doing all of this will help immensely.”*

Missing from this written response is evidence of, or specific references to, evidence items that indicate: 1) three cycles of candidate data for all referenced assessments by each program in appendices 82 and 83, and 2) analyses of these data relevant to the standard.

*Response #2:*

In a follow-up request for EPP-created assessment sufficiency requirements:

*“-For EPP-created assessments listed in the SSR and rejoinder (e.g., Appendices 82 and 83), provide evidence that at least 75% meet the minimal level of sufficiency as defined by the CAEP Assessment Rubric.”*

The EPP response:

*“I suspect the majority do, but the only programs that have formally established reliability and validity measures are Math and some of the assessments in ELED, ESCE & SPED.”*

Missing from this response is evidence of, or specific references to, evidence items that indicate minimal level of sufficiency as defined by the CAEP Assessment Rubric for the referenced assessments in Math, ELED, ESCE and SPED.

*Response #3:*

In a follow-up request for evidence of the eight impact and outcome measures:

*“-Provide evidence that all eight outcome and impact measures are monitored and reported annually, along with analysis of trends, comparison with benchmarks, and data used to inform future directions.”*

The EPP response:

*“1. Impact – Pre-service - collected (pre-posttest assignment in student teaching), not reported in past, not analyzed, not compared, not used for decisions. In-service, not collected.  
2. Teaching effectiveness - preservice – yes, meets all the criteria, in-service is not collected.  
3. Employer surveys – ICEP survey used and analyzed. Positive results so no huge changes made. We missed deadline for one of the surveys so only have 2 years of data. We recently collected our own (shared in CAEP 4 feedback response report), very positive results in analysis, no comparison/trends since not collected previously.  
4. Completer surveys – Alumni survey is collected 1 year and 5 years post-graduation. Monitored, reported, analyzed, and used to inform decisions, but alumni survey tends to have very low return rates but it does provide trends.  
5. Grad rates – meets all the standards  
6. meets all the standards  
7. collected in alumni surveys, same answer as #4  
8. collected, very low, not analyzed. I believe this is primarily something that CAEP wants to track for their purposes.”*

Missing from this response is evidence of or specific references to evidence items that meet each annual reporting measure, along with evidence that analyses of trends, comparisons with benchmarks, and data are used to inform future directions for programs.

Additionally, in a follow-up request for publicly available annual reporting data:

*“-Provide evidence these data are publicly available”*

The EPP response:

*“Have not been shared publicly”*

This response self-identifies publicly available annual reporting data as an area for future improvement for the EPP.

*Response #4:*

In a follow-up request for evidence of stakeholder involvement through multiple sources:

*“-Provide evidence from programs that stakeholder involvement through multiple source are used for decision-making, program evaluation, and selection and implementation of changes for improvement. As with ALL evidence items submitted for consideration, data should meet the following criteria:*

*\*Disaggregated by program where appropriate*

*\*Three cycles of data*

*\*Sequential and latest available*

*\*Analysis of data provided\**

The EPP response:

*"The evidence we have are in Appendix 83 and 84"*

Although the EPP response specifically references evidence items, the follow-up requests were made after review of these evidence items determined they were insufficient for meeting general standard guidelines. That is, appendices 83 and 84 did not provide evidence that stakeholder involvement is used for decision-making, program evaluation, and selection and implementation of changes for improvement within a quality assurance system.

*Response #5:*

In follow-up requests for evidence of a quality assurance system that the EPP regularly and systematically uses, the EPP responded with the following:

Follow-up request:

*"-Provide documentation (e.g., through analysis of data) that evidence is relevant, verifiable, representative, cumulative and actionable."*

EPP response:

*"Certainly, the Praxis and Danielsons are. The program reviews (I'll put in caep evidence room) would need to be analyzed program by program (again, we haven't been set up with a centralized EPP structure). However, the program review data do show that evidence collected is relevant (they document that they made decisions and changes based on the data), verifiable (they have to document the data, representative (typically data presented are based on ALL students and not just on a representative sample), cumulative (program reviews must present a summary of at least 3 years of data) and actionable as evidenced by the fact that program reviews also document changes made based on the data."*

Follow-up request:

*-Provide documentation that interpretations of evidence (i.e., analyses of data) are consistent, accurate and supported by data/evidence.*

EPP response:

*In program reviews, programs must present the data, explain how they made decisions based on those data. This is the documentation we have.*

Follow-up request:

*-Disaggregated by programs, provide the evidence/data used to inform most (80% or more) change and program modifications.*

EPP response:

*Program reviews should indicate that all the stated changes are linked back to the data since that's how the report is set up. I don't think most programs document all of their decisions and changes so it would be impossible to calculate a percent, not knowing the denominator.*

Follow-up request:

*-Evidence/data from Standards 1-4 are cited and applied for all programs within their quality assurance systems.*

EPP response:

*Every 3 years, every program must go before the University Curriculum Council (the Dean of Teacher Preparation Programs served on this committee during the previous round of program reviews so sees the reviews of each program). Every program must submit a yearly outcomes and assessment report (which feeds into the program reviews).*

*At the EPP level, we regularly (at least yearly) review with the Education Coordinating Council all disaggregated Praxis and Danielson summative data.*

Missing from these responses are evidence of or specific references to evidence items that meet/ support the indicators defined in standard 5.3.

3. Recommendations for new areas for improvement and/or stipulations including a rationale for each

Area for Improvement:

Areas for Improvement	Rationale
AFI (5.1) Documentation that the EPP uses evidence/data from a coherent set of multiple measures to inform operational effectiveness and support all CAEP standards.	<p>Limited to no evidence provided that a coherent set of multiple measures to inform operational effectiveness and support all CAEP standards are used within a unit-level quality assurance system.</p> <p>This standard component was self-identified by the EPP for the selected improvement plan.</p>

Stipulations:

Stipulation	Rationale
Stipulation (5.2) Evidence of at least 75% of EPP-created assessments used in quality assurance systems are scored at the minimal level of sufficiency as defined by the CAEP Assessment Rubric.	No evidence that EPP-created assessments have: established content validity, interrater reliability or agreement at .80 or 80% or above, evidence that is cumulative, sequential and current (3 cycles or more),

	nor interpretations that are consistent, accurate and supported by data/evidence.
Stipulation (*5.3) A comprehensive plan that the EPP regularly and systematically: reviews quality assurance system data, identifies strengths and areas of improvement across programs, applies evidence/data from standards 1-4, uses evidence/data for most (80% or more) for program changes and modifications.	Evidence of data from a quality assurance system for the unit is missing. In the SSR, specific examples are provided (e.g., Spanish program changes, surveys administered by the FSO) for program-level reporting for the university. However these program reports for the university operate separately from one another, and are not connected within a unit, nor are they aligned with CAEP standards. This finding was verified and confirmed by the EPP during the site visit.
Stipulation (*5.4) A comprehensive plan that CAEP’s eight outcome and impact measures are systematically monitored and reported together with: relevant analysis of trends, comparisons with benchmarks, evidence of corresponding resource allocations, and alignment of results to future directions.	In the SSR, evidence and/or direct reference to annual reporting of the eight outcome and impact measures were not included. In follow-up requests for these measures, the EPP provided a written response, but evidence items or references to specific evidence items were not provided.
Stipulation (5.5) Specific evidence of diverse stakeholder involvement is documented through multiple sources in decision-making, program evaluation, and selection and implementation of changes for improvement.	In the SSR and during the visit, limited evidence (e.g., informal conversations not connected to formal data collection) was provided on ways diverse stakeholders and their input are involved in the decision-making, program evaluation, selection and implementation of changes for improvement processes.

**BYU-IDAHO REJOINDER TO AFI 5.1**

“Documentation that the EPP uses evidence/data from a coherent set of multiple measures to inform operational effectiveness and support all CAEP standards... Limited to no evidence provided that a coherent set of multiple measures to inform operational effectiveness and support all CAEP standards are used within a unit-level quality assurance system.”

Although 5.1 was not a stipulation, in order to fully enact the plan for the other components of CAEP standards 4 and 5, we need to significantly revise our Quality Assurance System. This

should ameliorate the AFI for 5.1 as well. This was also the focus of our Selected Improvement Plan for CAEP.

### Goals and Objectives

To achieve improvement in 5.1, we will need to accomplish several sequential but related goals:

- Restructure the education programs on campus so as to emphasize a centralized EPP. We have had a functioning Education Coordinating Council with representatives from each college with an education program in it, however, we are currently structured with a non-centralized EPP where programs are independent, autonomous and have the power to implement what they see fit with little governance by the EPP generally. A change is necessary to ensure the ability to implement a Quality Assurance System at the EPP level.
- Establish the leadership and personnel necessary to fully implement a Quality Assurance System that meets CAEP 5.1. This will necessitate establishing an Associate Dean position as well as a Data/Accreditation Specialist position.
- Establish common EPP-wide forms, policies, rubrics and assessments necessary to begin to more coherently meet CAEP 3, 4 and all of standard 5.

### Strategies for Interventions

Some may see these goals as far from realistic and achievable, however, we have been planning and laying the groundwork for these steps for over a year now. The following strategies have been implemented:

- Restructuring of Education Programs – Timeline: Completed Fall 2018
  - In September and October 2018, proposals were submitted and presented to the President and Academic Vice President of the university to restructure our education programs. The purpose of this restructuring was, in part, to more fully establish a centralized EPP. The approved plan was announced on October 26, 2018. This plan:
    - Moved the common instructional core faculty out of the Elementary and Special Education Department and into the content areas to better facilitate a connection between these faculty and the content areas. This change also clearly establishes that the common instructional core is not owned by one department but overseen by the EPP. This provides clearer responsibility for the EPP to meet Idaho Core Teaching Standards by collecting and tracking data on the effectiveness of the common instructional core.
    - Clearly establish the Dean of Teacher Preparation Programs as the head of our EPP unit.
    - Provided the Dean the authority to enact EPP-wide policies and procedures (such as enacting the Quality Assurance System).

- Leadership and Personnel – Timeline: Completed January 1, 2019 and March 2019
  - In October 2018 we were able to announce an Associate Dean for Teacher Preparation Programs. Dr. Jackie Nygaard began his duties in January 2019. We were pleased that the administration recommended this be a 50% administrative position even though we had originally only asked for a 25% position (how often does that happen?).
  - Hire a data and accreditation specialist. We proposed this position in March of 2018. We have received approval for this position and should be able to post the announcement in February 2019. All campus-level approvals have been received and we are just awaiting final board approval.
  
- Common Forms and Policies – Timeline: 2019
  - A common dispositions rubric was completed in December 2018 (Appendix 6).
  - A common selectivity and tracking/checkpoints document was approved July 2018 and the revised version received final approval in December 2018 (see CAEP 3.2 rejoinder).
  - Established procedures for CAEP 4. Completed December 2018 (See CAEP 4 rejoinder).
  - Our new common instructional core will go into effect April 2019. Key assessments were identified in Winter 2018.
  - Programs will narrow down and clearly define key assessments (Winter 2019).
  - Establish a data management computer system fully with integration with our learning management system. The university is working to establish a university-wide data management system. During Fall 2018 the university put out a RFP and narrowed the options down to 3 providers. In December, those providers made presentations to the university. We are now in the process of finalizing a decision. Over the summer of 2019, systems integration will be performed and we will be able to start using the new system Fall 2019. In the meantime, we are using Task Stream and other temporary methods to collect and track data.
  
- Implementation of Procedures – Timeline: Fall 2018-2021
  - This timeline will allow us time to fully collect 3 cycles of data prior to our mid-cycle accreditation visit.

#### **Capacity to Implement and Complete Plan**

As 80-90% of the foundational structure of the plan has already been completed (new positions, restructuring departments and establishing our EPP), we feel confident that this plan is realistic. The costliest parts of this plan, a ½ time Associate Dean and a permanent Data

Specialist, have already been implemented and/or approved at the campus level. The necessary structural changes for our colleges, departments and education programs have also already been approved and implemented. The data collection and analysis plans in CAEP 4, 5.2, 5.3, 5.4 and 5.5 are underway.

**Timeline to More Fully Implement Quality Assurance System (See CAEP 5.2-5.5 for more details)**

- Winter 2019 - Clarification of what standards are covered by the new instructional core and what standards are covered by the specific programs.
- Winter 2019 - Each program does a crosswalk between yearly Outcomes and Assessment reports (required by the university for all programs) and State standards.
- Winter 2019 - Narrow down the number of KEY assessments used to assess and track program level outcomes and state standards.
- Winter 2019 – The Associate Dean for Accreditation develops a new Annual Outcomes and Assessment report template to be completed by each program to better tie the report to state and CAEP standards.
- Fall 2019 - The Outcomes and Assessment annual report will now be the same as accreditation yearly update.
- Winter 2020 – Based on an established schedule, each program will report every other year to the Education Coordinating Council on their Outcomes and Assessment annual reports. At this time each program will also updates its electronic evidence room with updated artifacts. The ECC assigns 2 members to review the program and its artifacts similar to an accreditation visit for that program.

**BYU-IDAHO REJOINDER TO STIPULATION 5.2**

“Evidence of at least 75% of EPP-created assessments used in quality assurance systems are scored at the minimal level of sufficiency as defined by the CAEP Assessment Rubric.” And “No evidence that EPP-created assessments have: established content validity, interrater reliability or agreement at .80 or 80% or above, evidence that is cumulative, sequential and current (3 cycles or more), nor interpretations that are consistent, accurate and supported by data/evidence.”

The primary assessments of our Quality Assurance Plan are:  
(Note: \*= EPP-created assessments)

**Knowledge**

- Praxis Scores
- Key Assessments in our Common Instructional Core classes:
  - ED 200 – Teaching as a Profession - \*Philosophy Statement

- ED 304 – Educational Psychology and Cognitive Development - \*Pre-post Knowledge-Based Assessment
- ED 344 – Literacy I - Idaho Comprehensive Literacy Assessment
- ED 361 - Principles of Teaching – \*Lesson Plan
- ED 461 – Reading in the Content - State Literacy Assessment
- SPED 360 – Inclusive Diverse Education and Learning - \*Case Study-Ethnographic Interview
- ED 492 – Student Teaching – \*Unit

Since our Common Instructional Core is new, some of the above assessments will be developed in Winter Semester 2019 to go live in our Spring Semester 2019.

### Performance

- Danielson Summative Observations during:
  - Early Practicum
  - Senior Practicum
  - Student Teaching

### Dispositions

- Our \*Common Dispositions Rubric (Appendix 6)
  - The Professionalism section is given in each required education class each semester. The ISDE Dispositions indicators are administered in each practicum class and in student teaching.

Note: No survey or assessment used to meet Standard 4 is EPP-created.

### Meeting CAEP Sufficient Guidelines for EPP-Created Assessments

Under the direction of the Associate Dean for Teacher Preparation, in conjunction with the Data/accreditation Specialist, each EPP-created assessment will be validated based on the BYU-I EPP Guide to Assessment Quality (Appendix 7). This will be done for EPP level assessments as well as program level assessments. The purpose of this guide is to outline a process by which the quality of EPP key assessments are documented and tracked. The CAEP Evidence Guide highlights that “Perhaps the most important takeaways are that evidence comes from multiple sources, its validity is systematically examined, and, especially, the data are used by the EPP for purposes of continuous improvement.” The BYU-I EPP Guide to Assessment Quality (Appendix 7) documents the systematic examination of overall assessment quality and validity for the use in continuous improvement.

The Assessment Quality Assurance System at BYU-I will be made up of three main components 1) an Assessment Tracking Document (Appendix 8), 2) Assessment Specification Document (Appendix 9), and 3) Key Assessments. The purpose of the Assessment Tracking Document is to

provide an index for all key assessments. This document provides an overview of each EPP-created assessment and links out to detailed assessment documentation. The Assessment Specification Document provides a detailed description of the assessment including the administration, purpose, content, scoring, reliability of data, and validity of inferences. The key assessments are simply the assessment artifacts.

The Assessment Tracking Document (Appendix 8) is an Excel file that is used to index and provide a brief overview of key assessments. The following are a description of the columns in the document:

- **Program Name:** contains the name of the program associated with the key assessment
- **Assessment Name:** the name of the key assessment
- **ASD:** a hyperlink to the Assessment Specifications Document for the key assessment
- **Assessment Description:** This brief description of the key assessment should provide a general overview of the assessment
- **Content Overview:** Provides a brief description of the content of the assessment
- **Assessment type:** A description of the nature of the assessment (e.g., multiple-choice, free response, essay, observation, etc.)
- **Delivery Method:** A description of how the assessment is administered (e.g., Learning Management System, Classroom, Practicum)
- **Course:** If applicable, the course in which the assessment resides
- **Linked Outcomes:** List of program-level or EPP-level outcomes associated with the assessment
- **Semester(s) Administered:** List of the semester(s) in which the assessment is administered
- **Target Audience:** A description of assessment participants
- **Scheduled Review:** The semester in which the Assessment Specifications Document will be reviewed.
- **Owner:** The name and email of the individual responsible for the maintenance and delivery of the assessment

The purpose of the Assessment Specification Document is to help ensure key program assessments are of high quality. Academic programs will use the information and prompts in the document to describe and then self-evaluate key program assessments (including surveys used as assessments) in the following areas:

1. Administration and Purpose
2. Content
3. Scoring
4. Reliability of data
5. Validity of inferences

The detailed descriptions of the assessment, as described in the document, should cumulatively address the eight CAEP general principles of a quality assessment, namely 1) validity, 2) reliability, 3) relevance, 4) representativeness, 5) cumulativeness, 6) fairness, 7) robustness, and 8) actionability (<http://caepnet.org/~media/Files/caep/knowledge-center/caep-evidence-guide.pdf?la=en> pages 16-21).

The Assessment Specifications Document will be reviewed by EPP administrators (Associate Dean & Data Specialist) prior to being accepted as a key assessment and included as a core program document.

Timeline for completion: Initial vetting of EPP-created instructional core assessments – Winter 2019, Program-level key assessments - ongoing and reviewed during the program's bi-annual program outcomes and assessment review.

### **BYU-IDAHO REJOINDER TO STIPULATION 5.3**

“A comprehensive plan that the EPP regularly and systematically: reviews quality assurance system data, identifies strengths and areas of improvement across programs, applies evidence/data from standards 1-4, uses evidence/data for most (80% or more) for program changes and modifications.” “Evidence of data from a quality assurance system for the unit is missing. In the SSR, specific examples are provided (e.g., Spanish program changes, surveys administered by the FSO) for program-level reporting for the university. However, these program reports for the university operate separately from one another, and are not connected within a unit, nor are they aligned with CAEP standards.”

### **Structural Changes to Establish a Centralized EPP**

In order to fully achieve the requirements of CAEP standard 5.3, we have had to make significant structural changes. As mentioned in our CAEP 5.1 rejoinder, we have not functioned previously as an EPP unit. Programs have functioned quite autonomously. The following changes have established the organizational structure to allow us to function coherently as an EPP:

4/2016 – We established a Dean of Teacher Preparation Programs for the first time with responsibilities to coordinate all education programs on campus.

9/2017 – We began work on a fully Common Instructional Core for all education programs.

12/2017 – Common Instructional Core was approved with specific classes, outcomes and mapping to InTASC standards.

3/2018 – Request for a full-time position for a data/accreditation specialist (approved by university, will start sometime in the beginning of Spring 2019).

7/2018 – The Education Coordinating Council approved a checkpoints document to facilitate Standard 3.2.

7/2018 – The Education Coordinating Council approved a comprehensive quality assurance plan.

10/2018 - Associate Dean of Teacher Preparation approved (Dr. Jackie Nygaard, Ed.D. began January 2019).

10/2018 – Made structural changes to the Teacher Education Department to further emphasize the centrality of the EPP (moved some faculty, changed the name of the department and moved the Common Instructional Core under the EPP rather than just under one department).

12/2018 – Moved all EPP positions to one common location in the Hinckley Building (previously the positions have all been in different buildings). The dean, the associate dean, and the Field Services Office will all be together to facilitate communication, coordination and emphasize the EPP unit.

All of these changes have worked together to build a foundation whereby we can truly function as an EPP unit. We are excited to now have this foundation so that we can have a formal system in place to regularly and systematically review our data, make data-based decisions and track the effectiveness of those decisions.

#### **Plan to “Regularly and Systematically Review Quality Assurance System Data.”**

Data will be updated each year during our August recess by our new Data Specialist under the direction of the Associate Dean of Teacher Preparation. These data will include EPP-level data such as: Praxis scores, Danielson Summative Evaluations, dispositions scores, key assessments from the Common Instructional Core (including student teaching assessments), recruitment numbers (CAEP 3.1), and the 8 CAEP annual reporting measures. At the beginning of the school year (September), EPP-level analyses will be completed by the Dean, Associate Dean, the Data Specialist and the directors of the Field Services Office. At the first meeting of the Education Coordinating Council in September, EPP-level recommendations will be discussed. The Education Coordinating Council will make decisions regarding those recommendations and implement action plans.

Reports and data disaggregated by program will also be presented so that individual programs can analyze their data and trends in time for their yearly outcomes and assessment report (due in January each year). This will allow programs time to determine if curriculum changes are in order based on the data. Curriculum changes are due each year in March. Additional program-level data will also be collected by the program areas and reported in their annual University Outcomes and Assessment Report and their bi-annual report to the Education Coordinating Council.

The University requires all programs to participate in a program review every 3 years. This is a formal report and presentation to the Associate Vice President for Curriculum and the University Curriculum Council. The presentation is a compilation, summary and analysis of the yearly Outcomes and Assessment Reports. In the past, only individual programs participated in this review but the EPP as a unit was not involved. The University will now also require the EPP

to report in these program reviews and will require the EPP to submit its own annual Outcomes and Assessments reports.

Further, the EPP will conduct a mid-cycle review of each education program (1.5 years after the program's Program Review). This mid-cycle review will be presented to the Education Coordinating Council and will present data from key assessments which support program outcomes and will include specific ties to State and CAEP standards as well as an update of their artifacts in our Accreditation evidence room for that program.

Another important piece to our plan to ensure alignment to State standards and code is that any proposed curriculum changes by programs are now reviewed by the Dean of Teacher Preparation Programs to ensure alignment to standards. For changes affecting multiple programs (such as changes to core classes), the Education Coordinating Council also reviews the changes. Curriculum changes cannot proceed for full approval until this standards review is complete.

### **Ensuring that Changes and Decisions are Based on Data and Tracked**

As a means to better track data, decisions and subsequent follow-up data on those decisions, we have put into place the Decision Tracking Tool (Appendix 10). This will be used to track decisions as well as the impact and efficacy of those decisions at the EPP level. This Decision Tracking Tool will also be shared with programs so that they too can track their program-level decisions and impacts.

This document will be populated and updated with Education Coordinating Council meeting decisions, Field Services Office meeting decision, yearly EPP Advisory Committee meeting decisions and with decisions based on the yearly data presentations from the Data Specialist to the Education Coordinating Council. In this way, all major changes can be documented and their impact on candidate quality and eventual impact on P-12 students can be tracked.

### **BYU-IDAHO REJOINDER TO STIPULATION 5.4**

"A comprehensive plan that CAEP's eight outcome and impact measures are systematically monitored and reported together with: relevant analysis of trends, comparisons with benchmarks, evidence of corresponding resource allocations, and alignment of results to future directions...In the SSR, evidence and/or direct reference to annual reporting of the eight outcome and impact measures were not included."

Although we had collected data previously on some of the 8 annual reporting measures, no regular analysis was completed and there was no website created for presenting these measures for public consumption. We have now created our webpage at <http://www.byui.edu/education-human-development/annual-reporting>, posted our data and have established procedures for more fully collecting, analyzing and publishing the data and their trends. Our responses to CAEP 4 and 5 detail how these data are collected. Our response

to CAEP 5.3 documents how we will analyze trends, make decisions based on these data and track the effectiveness of those decisions.

Six of the 8 reporting items were gathered and reported in the initial CAEP report. Items 1 and 2 will now be regularly collected as part of our plan for Standard 4. We have been able to work with some of our partner districts (where we place our student teachers) during December to collect preliminary data for items 1 and 2. These will all be reported on our new EPP webpage at <http://www.byui.edu/education-human-development/annual-reporting>. As we enact our new Quality Assurance System, the completeness, depth and quality of the data reported on the website will increase.

These numbers will be updated each year during our August recess by our new Data Specialist under the direction of the Associate Dean of Teacher Preparation. At the beginning of the school year (September), EPP-level analysis will be completed by the Dean, Associate Dean, the Data Specialist and the directors of the Field Services Office. At the first meeting of the Education Coordinating Council in September, EPP-level recommendations will be presented along with reports and data disaggregated by program so that individual programs can analyze their data and trends in time for their yearly outcomes and assessment report (due at the end of each calendar year). This will also allow programs time to determine if curriculum changes are in order based on the data. Curriculum changes are due each year in March.

#### **BYU-IDAHO REJOINDER TO STIPULATION 5.5**

“Specific evidence of diverse stakeholder involvement is documented through multiple sources in decision-making, program evaluation, and selection and implementation of changes for improvement...In the SSR and during the visit, limited evidence (e.g., informal conversations not connected to formal data collection) was provided on ways diverse stakeholders and their input are involved in the decision-making, program evaluation, selection and implementation of changes for improvement processes.”

BYU-Idaho assures appropriate stakeholders, including alumni, employers, practitioners, school and community partners, student teachers, mentor teachers, and BYU-I faculty will be involved in the EPP program evaluation, improvement plans, and implementation of changes for improvement processes.

#### **Program Evaluation and Improvement**

Program evaluation and decisions for program changes are informed through regular surveys of teacher candidates, annual surveys of completers, annual partner school personnel feedback (administrators, mentor teachers), annual survey of program faculty members, and annual advisory council meetings. We will document our practices and plans for each activity below.

#### **Teacher Candidates**

At the end of the student teaching semester, teacher candidates complete an online survey (Appendix 3) regarding their BYU-Idaho preparation experiences. Survey items ask teacher candidates to identify strengths and weaknesses related to (1) academic programs, (2) student teaching supervisors, and (3) mentor teachers. The survey will also include open-response items to allow teacher candidates to provide suggestions for improvement. Survey results will be summarized and reviewed annually with the Education Coordinating Council (ECC). The ECC includes a program director or leads from each of the education programs at BYU Idaho. Each education program will include survey results data and analysis in the program review or annual program review update. The survey analysis will be used to inform program reviews and related improvement plans.

#### Completers

BYU-Idaho surveys completers one year after teacher candidates complete their respective programs with the ICEP completer survey. The survey is administered by Boise State University. In addition, the BYU-Idaho Alumni Association surveys completers at the time of graduation, and post-graduation at the one and five-year marks. The Alumni survey asks completers to identify specific areas of strength and weakness and solicits open-ended improvement feedback. Survey results will be summarized and reviewed annually with the Education Coordinating Council. Each education program will include survey results, data and analysis in their program review or bi-annual outcomes and assessment update. The survey analysis will be used to inform program reviews and related improvement plans.

#### Employers/Partner School Districts

Each semester, Partner School Districts interview and select the teacher candidates that are placed in their building for student teaching. Principals provide detailed written feedback regarding students whose interviews were considered to be deficient (Appendix 11). An analysis of feedback will be shared with the ECC and the respective programs. Partner School District level administrators and principals will be given a yearly online survey. The survey will provide information about the strengths and weaknesses in the student teaching experience, programs, student teaching supervisors and area coordinators. The survey will also solicit open-ended improvement feedback on how individual programs might be improved. Survey results will be summarized and reviewed annually in the ECC data review meeting.

#### Mentor Teachers

Mentor Teachers are given an online survey at the end of each semester they serve as a mentor (Appendix 12). This survey asks mentors specifics regarding strengths and weaknesses in programs, supervisors, and area coordinators. This survey also asks their opinion on how our programs might be improved. The results of these surveys will be summarized and shared in ECC.

#### BYU-Idaho Education Faculty

BYU-Idaho education faculty will be given a yearly survey. This survey asks them specifics regarding program and EPP strengths and weaknesses. This survey also asks their opinion on

how our programs might be improved. The results of these surveys will be summarized and shared in our ECC.

**Advisory Council**

BYU-Idaho will form an EPP-level advisory council. In the past we have had program-level but not an EPP-level advisory council. Advisory council members will include: at least one partner school principal, mentor teachers from the elementary and secondary levels, one Area Coordinator, parent of a school-age student, employed completers who are working in the elementary and secondary levels, an employed Special Education completer, and others as identified or needed. All meetings will be documented through attendance logs, agendas, and minutes. The advisory council will meet annually to discuss pertinent issues, review relevant data including survey and teacher candidate performance information, and develop written improvement recommendations. Advisory council recommendations will be shared with the ECC during the annual data review meeting.

**Selection and Implementation of Changes for Improvement Process**

Stakeholders will be involved in the implementation of the changes and in the improvement plans as the process continues to cycle through annual iterations. BYU-Idaho will track stakeholder decisions, implementation and supporting data through our tracking tool which we identified in standard 5.3. Those changes will feed back into the process to provide future data which will help us regularly reevaluate our programs and continually make decisions leading to continual improvement. Dates, summaries of changes, etc. will be reported out to the ECC on a yearly basis.

**Summary Chart for 5.5 Plan**

<b><u>Stakeholder</u></b>	<b><u>Involvement in Program Evaluation</u></b>	<b><u>Involvement in Decision-Making, Improvement Plan, and Implementation of Changes</u></b>
<b><u>Candidates &amp; Student Teachers</u></b>	<ul style="list-style-type: none"> <li>• Exit Survey</li> <li>• Course Evaluations</li> <li>• Graduate Survey</li> </ul>	<ul style="list-style-type: none"> <li>• ECC and Programs use evaluation results to establish improvement plans.</li> </ul>

**Timeline for 5.5 Plan**

Key "✓" = completed

### CROSS-CUTTING THEME: TECHNOLOGY

From the May 2018 CAEP Accreditation Handbook (p. 53):

The technology crosscutting theme addresses incorporation of technology to improve the effectiveness of school and district functions, enhance instruction, and manage student and assessment data while engaging students in the applications of technology to learning experiences.

The CAEP standards make explicit references to applications of technology in the following areas:

- Standard 1
  - "Providers ensure that candidates model and apply technology standards as they design, implement, and assess learning experiences to engage students and improve learning and enrich professional practice."
- Standard 2

- “Partners co-construct mutually beneficial P-12 school and community arrangements for clinical preparation, including technology-based collaborations.”
- “Clinical experiences, including technology-enhanced learning opportunities, are structured to have multiple, performance-based assessments at key points...to demonstrate candidates’ development of the knowledge, skills, and professional dispositions...associated with a positive impact on the learning and development of all P-12 students.”
- Standard 3
  - “Providers present multiple forms of evidence to indicate candidates’ developing content knowledge, pedagogical content knowledge, pedagogical skills, and the integration of technology in all of these domains.”

a. Summary regarding adequately and accurately use of evidence related to technology

In the SSR, the EPP occasionally references the use of technology throughout the standards. The importance of preparing candidates to work with technology in the preparation of teacher candidates is a recognized value in the SSR narrative provided by the EPP. In alignment with CAEP’s definition of the cross-cutting theme of technology, the formative feedback report identified three specific areas in standards 1-3 in need of additional evidence. Partial evidence was provided in the Response to the FFR, and requests for additional evidence were made during the site visit.

b. Evidence that adequately and accurately demonstrates integration of cross-cutting theme of technology

1. Partial evidence specific to technology standards in coursework or clinical experience (Standard 1, component 5).
2. Partial evidence specific to demonstrated proficiencies in the use of technology by candidates (Standard 1, component 5).
3. Partial evidence provided on candidates’ ability to design and facilitate digital learning (Standard 1, component 5).
4. Limited evidence that candidate and students use technology to enhance learning (Standard 2, component 3).
5. Limited evidence that candidates used technology to track student progress and growth (Standard 3, component 4).

c. Evidence that inadequately demonstrates integration of cross-cutting theme of technology

1. No evidence provided on candidates’ ability to track and share student performance data digitally (Standard 1, component 5).

2. No submitted evidence demonstrated candidates' uses of data to guide instructional decision-making (Standard 2, component 3).
3. No submitted evidence identified specific criteria for the appropriate use of technology (Standard 2, component 3).
4. No submitted evidence of monitoring proficiencies of candidates at two or more measures/gateways of candidate progression of integration of use of technology (Standard 3, component 4).

### **CROSS-CUTTING THEME: DIVERSITY**

From the March 2016 CAEP Accreditation Handbook (p. 13):

- Standard 1
  - Emphasizes “candidates” must demonstrate skills and commitment that provide all P-12 students access to rigorous college and career standards.
- Standard 2
  - Clinical experiences that prepare candidates to work with all students.
- Standard 3
  - Providers committed to outreach efforts to recruit a more able and diverse candidate pool.
  -

From the CAEP Accreditation Handbook:

“All students” is the focus in Standard 1, and InTASC standards that comprise component 1.1 imply, also, the full range of allied InTASC performances, essential knowledge, and critical dispositions that are extensions of those standards. Those characteristics also incorporate scores of references to cultural competence, individual differences, creativity and innovation, and working with families and communities (p. 81).

- a. Summary regarding adequately and accurately of evidence related to diversity

In the SSR, the EPP references themes of diversity throughout the standards. The importance of recruiting and preparing candidates to work with all P-12 learners is a recognized value in the SSR narrative provided by the EPP. In alignment with CAEP’s definition of the cross-cutting theme of diversity, the formative feedback report identified three specific areas in standards 1-3 in need of additional evidence. Partial evidence to support these claims were provided in the SSR, and requests for additional evidence were made in the formative feedback report and during the site visit.

- b. Evidence that adequately and accurately demonstrates integration of cross-cutting theme of diversity

1. The EPP provided interviews with faculty, candidates, and completers. (Standard 1)
  2. A list of practicum sites was provided (Standard 2).
  3. Candidate demographic data was provided (Standard 3).
- c. Evidence that inadequately demonstrates integration of cross-cutting theme of diversity
1. The EPP did not provide multiple indicators/measures specific to evaluating proficiencies for candidates to show knowledge in differentiation, critical thinking, transfer of skills and collaboration to meet the minimum sufficiency requirements to inform P-12 students in college and career readiness. (Standard 1)
  2. Placement/demographic data was not provided for all clinical experiences that inform preparation of candidates to work with all learners (Standard 2).
  3. Evidence of data used in planning and modification of recruitment strategies not verified (Standard 3).

**Response: SELECTED IMPROVEMENT PATHWAY**

The EPP has identified a plan to address Standard 5, specifically 5.1. No plan was provided in the SSR. At the on-site visit, identification of the standard of focus was shared. Four primary goals and corresponding deadlines have been identified by the EPP. Monetary resources to meet the stated goals have already been dedicated by campus administration. Individuals responsible for each goal have not been identified. Evidence for how the plan will lead to a higher level of excellence beyond what is provided in the standards was not provided.

**Rubric for Evaluating the Selected Improvement Initiative Plan**

<b>Indicator</b>	<b>Undefined</b>	<b>Emerging</b>	<b>Meets Expectation</b>	<b>Exceeds</b>
Focal area alignment and rationale for selection driven by self-study	Selected area is unrelated to any CAEP standard(s), components, or thread of diversity or technology. The choice of the selected area is based on such things as faculty interest and expertise and is	Selected area is aligned to multiple CAEP standard(s), components, or thread of diversity or technology without identifying the relationship between the standards and/or	Selected area is aligned to CAEP standard(s), component(s), or thread of diversity or technology. The rationale for the selected area is grounded in data from the self-study and supports the choice of the	Selected area is directly aligned to specific CAEP standard(s), component(s) and/or thread of diversity or technology. The rationale for the choice of the selected area is grounded in data from the self-study and is

	not supported by data from the self-study. No baseline is established for future improvement.	components. The rationale provides general statements on the selection that are not grounded in data provided from the self-study. Limited data from the self-study support the choice of the selected area as needing improvement and/or no baseline is established.	selected area as needing improvement. A baseline is established for future improvement.	a natural extension of the data analysis. Data support the selection of the area as needing improvement. A baseline is established for future improvement.
Goals and objectives are identified and align with selected area	Goals and objectives do not align with the identified selected area for improvement and are stated in vague, poorly defined terms. Stated goals and objectives do not lend themselves to measurement and simply define expectations or processes. Potential to have a positive impact on the provider or its candidates is not addressed.	Goals and objectives are ill-defined and lack specificity. Goals and objectives are identified, but marginally align with the identified area or limited to a few programs. Goals and objectives do not identify the desired outcome or indicators of success making evaluation of project problematic. Selected goals and objectives would not document a	Goals and objectives are appropriate, specific and well-defined. Goals and objectives align with selected area, involve multiple programs in the provider, and are stated in measurable and performance based outcomes. Desired outcomes and indicators of success are identified and have the potential to	Goals and objectives are appropriate, specific and well-defined. Goals and objectives directly align with selected area for improvement, involve most programs in the provider, and are stated in measureable performance based outcomes. Desired outcomes and indicators of success are identified and

		positive impact on the provider.	document a positive impact on the provider.	have the potential to document a positive impact on the provider.
Strategies for intervention	General guidelines are presented for making program improvements. No specific strategies, initiatives, or interventions are identified. No timeline for achieving goals and objectives is provided.	Series of activities or initiatives are identified, but lack clarity and specificity. Identified activities or initiatives are only marginally aligned to selected area for improvement. A general timeline is included, but lacks specificity.	Strategies, initiatives and/or interventions are identified and linked to goals and objectives for selected area for improvement. A yearly timeline is included. Plan includes criteria for evaluation and monitoring of strategies and interventions.	Detailed description of strategies, initiatives and/or interventions is provided & linked to goals and/or objectives. Yearly timeline identifies goals to be achieved yearly. Plan includes specific criteria for evaluation and monitoring of strategies and interventions.
Data collection and analysis	A generalized plan is presented for data collection, but lacks specificity and details. No description is provided on how assessments were selected, how the process would be monitored, and how data were to be analyzed.	The presented assessment plan is underdeveloped and does not include how improvement will be assessed based on baseline data from the self-study. Plan does not link back to goals and objectives. A description for collecting, monitoring, and analyzing data is	Includes an assessment plan to measure improvement based on baseline data from the self-study. Plan is clearly described and assessments are linked to goals and objectives. Plan for collecting, monitoring, and analyzing data is provided. A description of how	A detailed assessment plan is included that measures the amount of improvement in the selected area. Plan clearly describes how each goal and objective will be measured. Plan for collecting, monitoring, and analyzing data is detailed and complete. A description and

		not provided. No description or rationale for selection of assessment is provided.	assessments were selected is provided.	rationale for the selection of assessments were provided.
Capacity to implement and complete plan	The provider's capacity to implement and complete the SIP is not apparent. A general description of the overall plan is provided, but specific criteria on indicators, actions, evaluation, and monitoring processes are not provided or are incomplete.	The provider's capacity to implement and complete the SIP is inconsistently defined. No specific costs are identified in terms of staff time and/or other expenses identified with implementation and data collection.	Specific capacity resources are identified and described including cost associated with staff and faculty time, faculty expertise, and travel cost. The provider's capacity to implement and complete the SIP is documented.	A detailed description of specific capacity resources are identified and described including staff and faculty time, faculty expertise, travel and training cost, and other resources associated with data collection, monitoring, and analysis. The provider's capacity to implement and complete the SIP is well-defined and documented.
Overall evaluation of the SIP	When reviewed as a whole, the proposal lacks specificity, clarity, and coherency. While one or more areas may meet expectations, the overall plan is incomplete or inappropriate.	When reviewed as a whole, the overall proposal shows promise, but there are significant areas for improvement that must be addressed. These areas must be clarified or enhanced to	When reviewed as a whole, the overall plan meets expectations. While there may be one or two weaknesses (lacks specificity, etc.), these weaknesses do not impact the overall SIP.	All components of the plan meet expectations and no weaknesses were identified.

		meet expectations.

# Candidates employed in [other areas of shortage]					

To facilitate targeting students in high need areas, the educational hiring websites from local states will be disaggregated according to the following chart to help teacher candidates identify “high need” areas.

**Job Openings Listed on State Websites by Area**

For this section, we will be highlighting states in which most of our students seek employment. We will use each state’s education posting websites as our primary source of information to track the impact of employment availability on our recruitment numbers. Since most education jobs are posted in the Spring, we will gather this data each Spring.

Appendix 3  
Student Teacher Exit Survey

As you are completing your student teaching experience, what are your upcoming plans?

- Seek employment as a teacher
- Seek employment in a different occupation
- Continue with a graduate program
- I will not be seeking employment

In what state are you planning to seek employment as a teacher?

- Idaho
- Utah
- Arizona
- Nevada
- Other

If you are seeking employment as a teacher, please include an email address or phone number where you can be reached to help us further evaluate our programs during your first few years of teaching.

Indicate the education major (or first endorsement) you earned through your preparation program.

- Art
- Biology
- Chemistry
- ECSE
- Earth Science
- ELED
- English
- Family Consumer Science
- History
- Math
- Music
- Physics
- Spanish
- SPED K-12
- Social Studies
- Theater

Indicate the minor (or second endorsement) you earned through your preparation program.

- American Government
- Art
- Biology
- Chemistry
- Chinese
- Earth Science
- Economics
- Elementary Middle School Language Arts
- Elementary Middle School Math
- Elementary Middle School Science
- Elementary Middle School Social Studies
- English
- Foreign Language

- Geography
- German
- Health
- History
- Math
- Natural Science
- PE
- Physical Science
- Physics
- Russian
- Spanish
- TESOL
- Theater
- Other

In which state did you student teach?

- Idaho
- Utah
- Arizona
- Nevada

Have you already accepted employment as a teacher in that state?

- Yes
- No

If you have already accepted employment, please share the name of the district and school in which you will be teaching. Please share the grade level and content area in which you will be teaching, along with an email address (one you plan to use once you leave BYU) and cell phone number so that we can keep in contact with you to help us further evaluate our programs during your first few years of teaching.

While student teaching, were you able to teach in your major and/or minor content areas?

- Yes
- No

In what grade level did you student teach?

- Kindergarten
- 1st
- 2nd
- 3rd
- 4th
- 5th
- 6th
- 7th
- 8th
- 9th
- 10th
- 11th
- 12th
- Special Ed/Resource

Do you feel your preparation program prepared you to use Danielson's Framework for Teaching to guide your personal teaching practice?

- Agree
- Neutral
- Disagree

In which of the following areas do you feel your professional preparation program was strong in preparing you for teaching?

- Content and Pedagogy
- Practicum (prior to student teaching)
- Technology to enhance learning
- Management of procedures/transitioning
- Self-reflection in an effort to be flexible and responsive
- Maintaining accurate records
- Communicating with parents
- Collaborating with colleagues
- Differentiating to meet diverse needs
- Helping students assess their own learning
- Supporting English language learners (ELL)
- Teaching methods and strategies
- Assessment
- Engagement
- Motivation and Management

In which of the following areas do you feel your professional preparation program was weak in preparing you for teaching?

- Content and Pedagogy
- Practicum (prior to student teaching)
- Technology to enhance learning
- Management of procedures/transitioning
- Self-reflection in an effort to be flexible and responsive
- Maintaining accurate records
- Communicating with parents
- Collaborating with colleagues
- Differentiating to meet diverse needs
- Helping students assess their own learning
- Supporting English language learners (ELL)
- Teaching methods and strategies
- Assessment
- Engagement
- Motivation and Management

Would you recommend BYU-Idaho place another teacher candidate with your mentor teacher?

- Yes
- No

If you answered NO to the above question, please indicate who that mentor is, the school, and the reasons for your answer.

In regard to your mentor teacher, how effective was his/her coaching and feedback?

- **CONSENT - SDE**

- Very effective
- Moderately effective
- Slightly effective
- Not effective at all

In regard to your mentor teacher, how effective was he/she in modeling best practices and being professional?

- Extremely effective
- Very effective
- Moderately effective
- Slightly effective
- Not effective at all

How effective, in terms of being constructive and helpful, was the feedback given by your supervisor following observations?

- Extremely effective
- Very effective
- Moderately effective
- Slightly effective
- Not effective at all

If your experience with your supervisor was not effective at all, please identify who your supervisor was and give some feedback regarding that individual.

Evaluate the effectiveness of your cohort experience during student teaching.

- Extremely effective
- Very effective
- Moderately effective
- Slightly effective
- Not effective at all

If your cohort experience was not effective at all, please share some ways in which the experience could be improved in future semesters.

Rate your overall student teaching experience.

- Exceptional
- Satisfactory
- Unsatisfactory

If your student teaching experience was unsatisfactory, please explain why.

Thank you for filling out this Exit Survey. In order to continue to improve our programs here at BYU-Idaho, there will be times that you will be asked to participate in surveys that will be sent out by the University and also by the state of Idaho through Boise State University (the ICEP Alumni Survey). Please watch for such invitations and be willing to complete these surveys as you teach in public schools during the next few years.

- I will do my best to respond to such correspondence in an effort to help improve the program for those who follow me.

Please rate the teacher/employee on this scale: Unsatisfactory (1), Basic (2), Proficient (3), Distinguished (4)

- (1) The teacher/employee applies the concepts, knowledge, and skills of their discipline(s) in ways that enable learners to grow.
- (2) The teacher/employee uses instructional strategies that promote active learning.
- (3) The teacher/employee uses knowledge of learning, subject matter, curriculum, and learner development to plan instruction.
- (4) The teacher/employee uses a variety of assessments (e.g. observation, portfolios, tests, performance tasks, anecdotal records, surveys) to determine learner's strengths, needs, and programs.
- (5) The teacher/employee chooses teaching strategies for different instructional purposes and to meet different learner needs.
- (6) The teacher/employee evaluates the effects of his/her actions and modifies plans accordingly.
- (7) The teacher/employee can encourage learners to see, question, and interpret ideas from diverse perspectives.
- (8) The teacher/employee uses strategies that support new English language learners.
- (9) The teacher/employee helps learners assess their own learning.
- (10) The teacher/employee uses strategies that support learners with a wide variety of exceptionalities.
- (11) The teacher/employee honors diverse cultures and incorporates culturally- responsive curriculum, programs, and resources.
- (12) The teacher/employee has a positive effect on student achievement according to state assessments.
- (13) The teacher/employee uses technology to enhance learning and learning environments.
- (14) The teacher/employee understands the value of working with colleagues, families, and community agencies to meet learner needs.
- (15) The teacher/employee uses self-reflection as a means of improving performance.
- (16) The teacher/employee maintains accurate records.
- (17) What do you consider to be the major strengths of the teacher preparation program?
- (18) What improvements would you suggest for the teacher preparation program?

Alumni are asked "As a result of my professional preparation, I feel prepared to do the following according to this scale (Unsatisfactory, Basic, Proficient, Distinguished, Not Applicable).

- (1) Teach the concepts, knowledge, and skills of their discipline(s) in ways that enable learners to grow.
- (2) Use instructional strategies that promote active learning.
- (3) Use knowledge of learning, subject matter, curriculum, and learner development to plan instruction.
- (4) Use a variety of assessments (e.g. observation, portfolios, tests, performance tasks, anecdotal records, surveys) to determine learner's strengths, needs, and programs.
- (5) Choose teaching strategies for different instructional purposes and to meet different learner needs.
- (6) Evaluate the effects of his/her actions and modifies plans accordingly.
- (7) Encourage students to see, question, and interpret ideas from diverse perspectives.
- (8) Teach in ways that support new English language learners.
- (9) Helps students assess their own learning.
- (10) Teach students with a wide variety of exceptional needs.
- (11) Honors diverse cultures and incorporates culturally- responsive curriculum, programs, and resources.
- (12) Have a positive effect on student achievement according to state assessments.
- (13) Use technology to enhance learning and learning environments.
- (14) Understand the value of working with colleagues, families, and community agencies to meet learner needs.
- (15) Use self-reflection as a means of improving performance.
- (16) Maintain accurate records.

## *Professional Dispositions Assessment*

**Dispositions:** Attitudes, values, and beliefs as demonstrated by words and actions related to being an effective educator.

Candidate's Name:	
Reviewer's Name:	
Checkpoint:	Date:

**Procedures:** The following rubric will be used to assess the dispositions of candidates at each checkpoint in the teacher preparation program. Faculty members, practicum and student teaching supervisors, and lead teachers are encouraged to provide comments related to the indicators of a candidate's disposition at any point in a candidate's program. Comments related to dispositions will be kept in the candidate's file by the Dean of Teacher Preparation. This form will be completed at each checkpoint in the program. This rubric is to be used as a tool to assist candidates as they develop the dispositions of a successful teacher. Any area that is identified as being unacceptable or developing will be discussed with the candidate. If the candidate wishes to continue in the teacher preparation program, a plan for improvement with assessment points and a timeline will be developed by the candidate and his or her program advisor. Progress on the plan will be reviewed at or before the candidate's next checkpoint.

**Reviewer:** For each of the dispositions listed on the rubric, please mark the group of characteristics that best describes the candidate. If you are completing this form by hand, please circle the level in each category. If you wish to complete this form on the computer, please go to this link:

**Comments:**

*Rubric is on the back of this page.*

Professional Disposition Assessment				
Professional Commitments				
Category	4 – Exemplary	3 – Proficient	2 – Developing	1 – Unacceptable
Commitment to Individual Learners <small>(Lesson 2, ISDE 1, 2, 3)</small>	Candidate demonstrates the belief that all students can learn. Strongly committed to serving those who are sometimes underserved. Persistent and responsive in trying to meet the needs of all learners. Respectful of diverse perspectives and cultures. Prepares for and values the uniqueness of the individual learner.	Candidate demonstrates the belief that most students can learn. Committed to serving those who are sometimes underserved in schools. Becoming responsive in trying to meet the needs of all learners. Respectful of diverse perspectives and cultures. Recognizes uniqueness of individual learner.	Candidate inconsistent in belief of individual learning and role of uniqueness in learning. Inconsistent in meeting individual needs. Inconsistent in respect of diverse perspectives and cultures.	Candidate does not demonstrate the belief that all students can learn. Candidate does not show commitment to serving those who are sometimes underserved in schools. He/she may lack persistence and responsiveness in trying to meet the needs of all learners.
Commitment to Improving Understanding <small>(Lesson 3, ISDE 4)</small>	Seeks ways to improve content knowledge and teaching skills. Evaluates personal beliefs and suggestions made by others objectively. Accepts constructive criticism and is willing to modify behavior or practice. Takes time to reflect on work. Is aware of personal strengths and weaknesses and seeks to improve. Is flexible.	Understands need to improve content knowledge and skills. Cognizant of personal beliefs, understanding, strengths, and weaknesses, but inconsistent in improving. Listens to constructive criticism and makes efforts to modify behavior or practice. Reflects on work and experience.	Understands need to improve content knowledge and skills. Unaware of some personal beliefs, understanding, or weaknesses that need improving. Inconsistent in accepting constructive criticism and modifying behavior or practice based on feedback. Inconsistent in reflecting on work or experiences.	Disagrees with need to improve in one or more areas. Rarely listens to constructive criticism or outwardly rejects it. Rarely works to change behavior or practice and rarely reflects on work or experiences.
Commitment to Teaching <small>(Lesson 1, ISDE 5, 6, 7, 8)</small>	Is consistent and diligent in planning for instruction and assessment. Strives to use a variety of teaching strategies appropriate for his/her content area and needs of students. Consistent and diligent in using assessment and other strategies as ways to improve student learning and personal practice.	Consistent in planning for instruction and assessment. Uses multiple teaching strategies appropriate for content area and needs of students. Uses assessments to reflect on student learning and personal practice.	Inconsistent in planning of instruction and assessment. Uses only a few or limited teaching strategies, some of which are intentional for content area or needs of students. Assessments used, but inconsistent in using them to reflect on student learning and personal practice.	Rarely plans instruction or assessment, or is negative about the need to do so. Uses only a few teaching strategies, often not intentional for content area and rarely based on needs of students. Assessments may be given, but never used to reflect or negative toward use of assessments.
Commitment to Professional Collaboration <small>(Lesson 4, ISDE 9, 10)</small>	Collaborates with students, community and peers. Strives to find and use research-based teaching practices. Embraces and promotes collaborative planning and work opportunities. Creates professional and classroom learning communities	Understands the need to collaborate in the learning process, and works to do so. Uses research-based teaching practices. Engages in professional learning communities and encourages classroom learning communities.	Inconsistent in collaboration with others and sometimes uses research-based teaching practices. Inconsistent in engaging in professional learning communities or encouraging the use of such in the classroom.	Negative toward the use of research-based teaching practices or the need to collaborate with others in professional learning communities. Does not encourage or use learning communities in the classroom.
Professional Behaviors				
Category	4 – Exemplary	3 – Proficient	2 – Developing	1 - Unacceptable
Social-Emotional and Cognitive Presence	Candidate consistently demonstrates self-confidence, enthusiasm, and a positive demeanor. Uses exceptionally good judgment. Demonstrates a strong ability to conceptualize by putting theory into practice. Habits of self-assessment and reflection are strong. Displays an inquiry and self-efficacy mindset.	Candidate generally demonstrates self-confidence, enthusiasm, and a positive demeanor. Judgment appears to be solid. Demonstrates ability to conceptualize by putting theory into practice. Habits of self-assessment and reflection are satisfactory.	Candidate inconsistent in demonstrating self-confidence, enthusiasm, and a positive demeanor. Judgment inconsistent. Inconsistent in ability to conceptualize by putting theory into practice. Habits of self-assessment and reflection are nearing satisfactory.	Candidate is lacking in self-confidence, enthusiasm, and/or a positive demeanor. Candidate's judgment may not always be adequate. Candidate demonstrates a difficulty with conceptualization in terms of putting theory into practice. Habits of self-assessment and reflection need improvement.
Compliance	Candidate complies with and encourages BYUI, school, district, and state regulations. Fully and consistently complies with and is positive about expectation of program and/or compliance such as dress and grooming, attendance and punctuality, and participation and assignment completion.	Candidate complies with BYUI, school, district, and state regulations. Consistently complies with expectation of program and/or compliance such as dress and grooming, attendance and punctuality, and participation and assignment completion.	Candidate complies with BYUI, school, district, and state regulations, but inconsistent in positive attitude about compliance. Inconsistent in complying with expectation of program and/or compliance such as dress and grooming, attendance and punctuality, and participation and assignment completion.	Candidate rarely complies with BYUI, school, district, and state regulations. Rarely complies with expectation of program and/or compliance such as dress and grooming, attendance and punctuality, and participation and assignment completion. Has negative attitude about compliance.

Professional Behavior	Communication	<p>Consistently demonstrates confidentiality in professional communication with all stakeholders in oral, electronic, or written forms.</p> <p>Demonstrates appropriate use of social media. Does not utilize device for personal or non-educational purposes. Communicates as necessary with supervisors, teachers, mentors, or students. Written and verbal communication clear, organized, professional, and consistent with professional educator.</p>	<p>Understands need to be confidential in communication. Demonstrates confidentiality and use of various communication methods. Usually communicates with others when necessary. Written and verbal communication usually clear, organized, professional, and consistent with professional educator. Candidate is a thoughtful, responsive listener.</p>	<p>Inconsistent in confidentiality or use of communication methods. Sometimes communicates with others when needed. Some error and unprofessional elements in written and/or verbal communication. Candidate usually listens well to others.</p>	<p>Inappropriate communication with any stakeholder, including a breach of confidentiality in oral, electronic, or written forms. Utilizes social media inappropriately. Consistently utilizes device(s) for personal or non-educational purposes. Written or verbal expression contains errors that signal potential credibility problems for a future teacher. Candidate's listening skills may not be adequate.</p>
	Ethical and	<p>Committed to the highest levels of integrity, honesty, and follow-through. Candidate uses exceptionally good judgment. Candidate demonstrates effective interpersonal skills. He/she collaborates with others and is seen as a team player. Respects self and others. Serves as a positive role model for the profession.</p>	<p>Maintains high standards of integrity, honesty, and follow-through. Candidate's judgment appears to be solid. Candidate demonstrates effective interpersonal skills. He/she collaborates with others and is seen as a team player. Respects self and others.</p>	<p>Behavior is inconsistent in integrity, honesty, and follow-through. Judgment not always solid, and sometimes exhibits poor interpersonal skills. Inconsistent in working with and being respectful of others.</p>	<p>Candidate displays a lack of integrity, honesty, and/or follow-through. Does not exhibit fairness or equity in all situations. Does not follow ethical standards for the profession. Is less than honest when communicating with others. Does not adhere to school policies. Does not represent the profession in a positive manner.</p>

\*\*Candidates dispositions are presumed to be at the Proficient level, unless data is presented to raise or lower the score\*\*

Appendix 7  
BYU-Idaho EPP Guide to Assessment Quality

## BYU-I EPP Guide to Assessment Quality

The purpose of this guide is to outline a process by which the quality of EPP key assessments are documented and tracked. Assessment quality is an important characteristic of using data to support continuous improvement. As noted in the CAEP Evidence Guide, “Educator Preparation Providers (EPPs) gather data on all aspects of their preparation programs and use them for continuous improvement. Data are not an end in themselves, but the basis for beginning a conversation.” Assessment data is one form of evidence that can be used to start these conversations. The Evidence Guide also highlights that “Perhaps the most important takeaways are that evidence comes from multiple sources, its validity is systematically examined, and, especially, the data are *used* by the EPP for purposes of *continuous improvement*.” The BYU-I EPP Guide to Assessment Quality is an attempt to document the systematic examination of overall assessment quality and validity for the use in continuous improvement.

### Assessment Quality Assurance System

The Assessment Quality Assurance System at BYU-I is made up of three main components 1) an Assessment Tracking document 2) Assessment Specification Documents, and 3) Key Assessments. The purpose of the Assessment Tracking document is to provide an index for all key assessments. This document provides an overview of each assessment and links out to detailed assessment documentation. The Assessment Specification Document provides a detailed description of the assessment including the administration and purpose, content, scoring, reliability of data, and validity of inferences. The key assessments are simply the assessment artifacts.

### Assessment Tracking (AT)

The Assessment Tracking document is an Excel file that is used to index and provides a brief overview of key assessments. The following are a description of AT columns:

- **Program Name:** contains the name of the program associated with the key assessment
- **Assessment Name:** the name of the key assessment
- **ASD:** a hyperlink to the Assessment Specifications Document for the key assessment
- **Assessment Description:** This brief description of the key assessment should provide a general overview of the assessment
  - *Content Overview:* Provides a brief description of the content of the assessment
  - *Assessment type:* A description of the nature of the assessment (e.g., multiple-choice, free response, essay, observation, etc.)
  - *Delivery Method:* A description of how the assessment is administered (e.g., LMS, Classroom, Practicum)
  - *Course:* If applicable, the course in which the assessment resides
- **Linked Outcomes:** List of outcomes associated with the assessment
- **Semester(s) Administered:** List of the semester(s) in which the assessment is administered

- **Target Audience:** A description of all assessment participants
- **Scheduled Review:** The semester in which the Assessment Specifications Document will be reviewed.
- **Owner:** The name and email of the individual responsible for the maintenance and delivery of the assessment

#### Assessment Specification Documents (ASD)

The purpose of the Assessment Specification Document (ASD) is to provide a detailed description of the assessment including the administration and purpose, content, scoring, reliability of data, and validity of inferences. The structure of the ASD closely follows the CAEP Evaluation Framework for EPP-Created Assessments. Many of the levels of sufficiency have been taken directly from the CAEP framework. Each Section of the ASD should be completed before being submitted to EPP administrators for approval as a key assessment. The detailed descriptions of the assessment, as documented in the ASD, should cumulatively address the eight CAEP general principles of a quality assessment namely 1) validity, 2) reliability, 3) relevance, 4) representativeness, 5) cumulativeness, 6) fairness, 7) robustness, and 8) actionability.

#### Key Assessments (KA)

A copy of the key assessment will be submitted to the EPP, along with the ASD, to be recognized as an approved key assessment.

Appendix 9  
Assessment Specification Document

# Assessment Specifications Document

[Assessment Name] | [Program Name]

The purpose of the Assessment Specification Document (ASD) is to help ensure key program assessments are of high quality. Please use the information and prompts below to describe and then evaluate key program assessments (including surveys used as assessments) in the following areas.

1. Administration and Purpose
2. Content
3. Scoring
4. Reliability of data
5. Validity of inferences

The detailed descriptions of the assessment, as documented in the ASD, should cumulatively address the eight CAEP general principles of a quality assessment namely 1) **validity**, 2) **reliability**, 3) **relevance**, 4) **representativeness**, 5) **cumulativeness**, 6) **fairness**, 7) **robustness**, and 8) **actionability**.

This ASD will be reviewed by program leaders and then included as a core program document.

Note: The structure of the ASD closely follows the CAEP Evaluation Framework for EPP-Created Assessments including self-evaluation rubrics. A *Recourse* section has been added to the end of this document which includes a copy of the CAEP [Evaluation Framework for EPP-Created Assessments](#) and selections from the [CAEP Evidence Guide](#).

## Administration and Purpose(s)

Assessment purpose(s) and administration procedures are key elements to evaluating assessment quality. Provide a detailed description of assessment purpose(s) and administrative procedures in the following sections.

### Description of Assessment Purpose(s)

The purpose of an assessment can be considered the keystone in building a quality assessment. Varying forms of evidence of a quality assessment work together to support the use of the assessment for the intended purpose. Clearly defining the purpose of an assessment provides the context in which pieces of evidence of assessment quality are considered.

Additional Information: [CAEP Evidence Guide](#)

*In the space below, please provide a detailed description of the purpose(s) for this assessment.*

---

Self-Evaluation of Assessment Purpose(s)

*Please use the rubric below to evaluate the sufficiency of the purpose(s) described above.*

**The purpose for this assessment is rated:** \_\_\_\_\_ *(Below Sufficient, Sufficient, Above Sufficient)*

Assessment Purpose(s) Rubric		
Below Sufficient	Sufficient	Above Sufficient
Use or purpose(s) are ambiguous or vague	<p>The purpose of the assessment and its use in candidate monitoring or decisions on progression are specified and appropriate.</p> <p>Evaluation categories or assessment tasks are aligned with CAEP, InTASC, national/professional and state standards.</p>	<p>The purpose of the assessment and its use in candidate monitoring or decisions are consequential.</p> <p>Candidate progression is monitored and information is used for mentoring.</p>

Description of Assessment Administration

Assessment administration includes procedures used to systematically deliver the assessment (including an administration schedule) and communicating purposes and instructions to students.

Additional Information: [CAEP Evidence Guide](#)

*In the space below, please provide a detailed description of assessment administration.*

---

Self-Evaluation of Assessment Administration

Please use the rubric below to evaluate the sufficiency of assessment administration described above.

The assessment administration is rated: \_\_\_\_\_ (Below Sufficient, Sufficient, Above Sufficient)

Assessment Administration Rubric		
Below Sufficient	Sufficient	Above Sufficient
<p>There is limited or no basis to know what information is given to candidates.</p> <p>Instructions given to candidates are incomplete or misleading.</p> <p>The criterion for success is not provided or is not clear.</p>	<p>The point or points when the assessment is administered during the preparation program are explicit.</p> <p>Instructions provided to candidates (or respondents to surveys) about what they are expected to do are informative and unambiguous.</p> <p>The basis for judgment (criterion for success, or what is "good enough") is made explicit for candidates (or respondents to surveys).</p>	<p>Candidates are informed how the instrument results are used in reaching conclusions about their status and/or progression.</p>

Assessment Content

The content of an assessment should align with the purpose of the assessment, educational standards, and appropriate levels of understanding/difficulty.

Additional Information: [CAEP Evidence Guide](#)

Description of Assessment Content

*In the space below, please provide a detailed description of assessment content.*

---

Self-Evaluation of Assessment Content

Please use the rubric below to evaluate the sufficiency of the assessment content described above.

The assessment content is rated: \_\_\_\_\_ (Below Sufficient, Sufficient, Above Sufficient)

Assessment Content Rubric		
Below Sufficient	Sufficient	Above Sufficient
<p>Indicator alignment with CAEP, InTASC, national/professional or state standards is incomplete, absent or only vaguely related to the content of standards being evaluated.</p> <p>Indicators fail to reflect the degree of difficulty described in the standard.</p> <p>Indicators not described, are ambiguous, or include only headings.</p> <p>Higher level functioning, as represented in the standards, is not apparent in the indicators.</p> <p>Many indicators (more than 20% of the total score) require judgment of candidate proficiencies that are of limited importance in CAEP, InTASC, national/professional, and/or state standards.</p>	<p>Indicators reflect the degree of difficulty or level of effort described in the standards.</p> <p>Indicators unambiguously describe the proficiencies to be evaluated.</p> <p>When the standards being informed address higher level functioning, the indicators require higher levels of intellectual behavior (e.g., create, evaluate, analyze, &amp; apply). For example, when a standard specifies that candidates' students "demonstrate" problem solving, then the indicator is specific to candidates' application of knowledge to solve problems.</p> <p>Most indicators (at least those comprising 80% of the total score) require observers to judge consequential attributes of candidate proficiencies in the standards.</p>	<p>Almost all indicators (95% or more of the total score) require observers to judge consequential attributes of candidate proficiencies in the standards.</p>
<p>NOTE: the word "indicators" is used as a generic term for assessment items. For content tests, the term refers to a question. For projects or assignments, it refers to a prompt or task that the candidate is to perform. For an observation, an indicator might be a category of performance to observe or a specific aspect of candidate performance that a reviewer would record. For a survey, an indicator would stand for a question or statement for which a response is to be selected.</p>		

### Assessment Scoring

The methods used to score an assessment have a direct impact on the data produced. Consequently, the appropriate use of scoring methods provides evidence of assessment quality. Proficiency Level Descriptors (PLDs) should be developed to articulate various levels of proficiency. PLDs should represent developmental progressions which allow faculty to evaluate student progress toward desired proficiencies. A plan should be developed to share assessment results (scores) with students as actionable feedback on their performance.

Additional Information: [CAEP Evidence Guide](#)

#### Description of Assessment Scoring

*In the space below, please provide a detailed description of assessment scoring.*

---

Self-Evaluation of Assessment Scoring

*Please use the rubric below to evaluate the sufficiency of assessment scoring described above.*

**The assessment scoring is rated:** \_\_\_\_\_ *(Below Sufficient, Sufficient, Above Sufficient)*

Assessment Scoring Rubric		
Below Sufficient	Sufficient	Above Sufficient
<p>Rating scales are used instead of rubrics; e.g., “level 1= significantly below expectation” “level 4 = significantly above expectation.”</p> <p>Proficiency Level Descriptors (PLDs) do not align with indicators.</p> <p>PLDs do not represent developmental progressions.</p> <p>PLDs provide limited or no feedback to candidates specific to their performance.</p> <p>Proficiency level descriptors are vague or not defined, and may just repeat the language from the standards.</p>	<p>The basis for judging candidate performance is well defined.</p> <p>Each Proficiency Level Descriptor (PLD) is qualitatively defined by specific criteria aligned with indicators.</p> <p>PLDs represent a developmental sequence from level to level (to provide raters with explicit guidelines for evaluating candidate performance and for providing candidates with explicit feedback on their performance).</p> <p>Feedback provided to candidates is actionable—it is directly related to the preparation program and can be used for program improvement as well as for feedback to the candidate.</p> <p>Proficiency level attributes are defined in actionable, performance-based, or observable behavior terms. [NOTE: If a less actionable term is used such as “engaged,” criteria are provided to define the use of the term in the context of the category or indicator.]</p>	<p>Higher level actions from Bloom’s or other, taxonomies are used in PLDs such as “analyzes” or “evaluates.”</p>

### Reliability of Data

The reliability of assessment data refers to the degree to which data produced by the assessment are consistent or stable. Reliability is a characteristic of the data produced by an assessment and not a characteristic of the assessment itself. Many methods can be used to assess the reliability of assessment data such as test-retest, parallel forms, inter-rater, and internal consistency. The CAEP Evidence Guide notes that evidence of reliability can come in many forms including, but not limited to, rater agreement, the stability of scores over time, and internal consistency.

Additional Information: [CAEP Evidence Guide](#)

### Description of Assessment Reliability

*In the space below, please provide a detailed description of assessment reliability.*

---

Self-Evaluation of Assessment Reliability

Please use the rubric below to evaluate the sufficiency of assessment reliability described above.

The assessment reliability is rated: \_\_\_\_\_ (Below Sufficient, Sufficient, Above Sufficient)

Assessment Reliability Rubric		
Below Sufficient	Sufficient	Above Sufficient
<p>Description of or plan to establish reliability does not inform reviewers about how it was established or is being investigated.</p> <p>Described steps do not meet accepted research standards for reliability.</p> <p>No evidence, or limited evidence, is provided that scorers are trained, and their inter-rater agreement is documented.</p> <p>Described steps do not meet accepted research standards for reliability.</p>	<p>A description or plan is provided that details the type of reliability that is being investigated or has been established (e.g., test-retest, parallel forms, inter-rater, internal consistency, etc.) and the steps the EPP took to ensure the reliability of the data from the assessment.</p> <p>Training of scorers and checking on inter-rater agreement and reliability are documented.</p> <p>The described steps meet accepted research standards for establishing reliability.</p>	<p>Raters are initially, formally calibrated to master criteria and are periodically formally checked to maintain calibration at levels meeting accepted research standards.</p> <p>A reliability coefficient is reported.</p>

Validity of Inferences

As cited in the CAEP Evidence Guide, “validity is defined in the literature of measurement and testing as ‘the extent to which evidence and theory support the interpretations of test scores’” (p. 17). Validity is not a direct characteristic of the assessment but the inferences drawn from assessment results. The validity of inferences is based on the quality of the evidence and argumentation used to support the inferences. The Standards for Educational and Psychological Testing (APA, AERA, and NCME, 2014) classify validity into two main types 1) empirical, and 2) procedural. The standards note several sources of validity evidence including, internal structure, test content, responses processes, and relations to other measures. The CAEP Evidence Guide also lists several types of evidences that can be used to support inferences. These evidence are, but not limited to, expert validation, predictive abilities.

Additional Information: [CAEP Evidence Guide](#)

Description of the Validity of Assessment Inferences

*In the space below, please provide a detailed description of the validity of assessment inferences.*

---

Self-Evaluation of the Validity of Assessment Inferences

Please use the rubric below to evaluate the sufficiency of the validity of assessment inferences described above.

The validity of assessment inferences is rated: \_\_\_\_\_ (Below Sufficient, Sufficient, Above Sufficient)

Validity of Assessment Inferences Rubric		
Below Sufficient	Sufficient	Above Sufficient
<p>Description of or plan to establish validity does not inform reviewers about how it was established or is being investigated.</p> <p>The type of validity established or investigated is miss- identified or not described.</p> <p>The instrument was not piloted before administration.</p> <p>Process or plans for data analysis and interpretation are not presented or are superficial.</p> <p>Described steps do not meet accepted research standards for establishing validity. For example, validity is determined through an internal review by only one or two stakeholders.</p>	<p>A description or plan is provided that details steps the EPP has taken or is taking to ensure the validity of the assessment and its use.</p> <p>The plan details the types of validity that are under investigation or have been established (e.g., construct, content, concurrent, predictive, etc.) and how they were established.</p> <p>If the assessment is new or revised, a pilot was conducted.</p> <p>The EPP details its current process or plans for analyzing and interpreting results from the assessment.</p> <p>The described steps meet accepted research standards for establishing the validity of data from an assessment.</p>	<p>Types of validity investigated go beyond content validity and move toward predictive validity.</p> <p>A validity coefficient is reported.</p>

Survey Content

Many of the same principles addressed with assessment content apply to surveys as well. However, surveys have a few unique properties. An excerpt from the CAEP Evidence Guide provides a general overview of the use of surveys. Please refer to the full guide for additional details.

Surveys allow EPPs to gather information to use for program improvement and can provide valuable insights on candidate preparation from a broad spectrum of individuals. EPPs often use surveys to gather evidence on candidate, graduate, and employer satisfaction as well as the perceptions of clinical faculty of candidates' preparedness for teaching.

The quality of the evidence provided by surveys is directly linked to the quality of the survey with an emphasis on the accuracy, reliability and validity of the results. To this end, surveys should be carefully designed, systematically collect data related to the topic of the survey, measure the property the survey is claimed to measure, and produce data that are clear and usable. If ratings are based primarily on a candidate self-report, they should wherever possible be triangulated or supported by other evidence.

Additional Information: [CAEP Evidence Guide](#)

#### Description of Survey Content

*In the space below, please provide a detailed description of survey content.*

---

Self-Evaluation of Survey Content

Please use the rubric below to evaluate the sufficiency of the survey content described above.

The survey content is rated: \_\_\_\_\_ (Below Sufficient, Sufficient, Above Sufficient)

Survey Content Rubric		
Below Sufficient	Sufficient	Above Sufficient
<p>Questions or topics are not aligned with EPP mission or standards.</p> <p>Individual items are ambiguous or include more than one subject.</p> <p>There are numerous leading questions.</p> <p>Items are stated as opinions rather than as behaviors or practices.</p> <p>Dispositions surveys provide no evidence of a relationship to effective teaching.</p>	<p>Questions or topics are explicitly aligned with aspects of the EPP’s mission and also CAEP, InTASC, national/professional, and state standards.</p> <p>Individual items have a single subject; language is unambiguous.</p> <p>Leading questions are avoided.</p> <p>Items are stated in terms of behaviors or practices instead of opinions, whenever possible.</p> <p>Surveys of dispositions make clear to candidates how the survey is related to effective teaching.</p>	<p>Scoring is anchored in performance or behavior demonstrably related to teaching practice.</p> <p>Dispositions surveys make an explicit connection to effective teaching.</p>

Survey Data Quality

Survey data quality is a compilation of many aspects including:

1. How the survey is used
2. How the survey is constructed
3. How results are scored and reported

Additional Information: [CAEP Evidence Guide](#)

Description of Survey Data Quality

*In the space below, please provide a detailed description of survey content.*

---

Self-Evaluation of Survey Data Quality

*Please use the rubric below to evaluate the sufficiency of the survey content described above.*

**The survey data quality is rated:** \_\_\_\_\_ *(Below Sufficient, Sufficient, Above Sufficient)*

Survey Data Quality Rubric		
Below Sufficient	Sufficient	Above Sufficient
Scaled choices are numbers only, without qualitative descriptions linked with the item under investigation	Scaled choices are qualitatively defined using specific criteria aligned with key attributes.	EPP provides evidence of survey construct validity derived from its own or accessed research studies.
Limited or no feedback provided to the EPP for improvement purposes	Feedback provided to the EPP is actionable.	
No evidence that questions/items have been piloted	EPP provides evidence that questions are piloted to determine that candidates interpret them as intended and modifications are made if called for.

CAEP Evaluation Framework for EPP-Created Assessments

**CAEP EVALUATION FRAMEWORK  
FOR EPP-CREATED ASSESSMENTS**

**For use with:** Educator preparation provider (EPP)-created assessments, including subject and pedagogical content tests, observations, projects, assignments, and surveys

**For use by:** EPPs to evaluate their own assessments and by CAEP site teams to review evidence in self-study submissions

CAEP uses the term “assessments” to cover content tests, observations, projects or assignments, and surveys. All of these assessment forms are used with candidates. Surveys are often used to gather evidence on aspects of candidate preparation and candidate perceptions about their own readiness to teach. Surveys are also useful to measure the satisfaction of graduates or employers with preparation and the perceptions of clinical faculty about the readiness of EPP completers.

candidate knowledge, performance, and dispositions, aligned with standards. Most assessments that comprise evidence offered in accreditation self-study reports will probably be used by an EPP to examine candidates consistently at various points from admission through exit. These are assessments that all candidates are expected to complete as they pass from one stage of preparation to the next, or that are used to monitor progress of candidates’ developing proficiencies during one or more stages of preparation.

Assessments and scoring guides are used by faculty to evaluate candidates and provide them with feedback on their performance. Assessments and scoring guides should address relevant and meaningful attributes of

CAEP site teams will follow the guidelines in this evaluation tool and it can also be used by EPPs when they design, pilot, and judge the adequacy of the assessments they create.

EXAMPLES OF ATTRIBUTES BELOW SUFFICIENT LEVEL	CAEP SUFFICIENT LEVEL	EXAMPLES OF ATTRIBUTES ABOVE SUFFICIENT LEVEL
<p style="text-align: center;"><b>-</b></p> <p>a. Use or purpose are ambiguous or vague.</p> <p>b. There is limited or no basis for reviewers to know what information is given to candidates.</p> <p>c. Instructions given to candidates are incomplete or misleading.</p> <p>d. The criterion for success is not provided or is not clear.</p>	<p><b>1. ADMINISTRATION AND PURPOSE</b> (informs relevancy)</p> <p>a. The point or points when the assessment is administered during the preparation program are explicit.</p> <p>b. The purpose of the assessment and its use in candidate monitoring or decisions on progression are specified and appropriate.</p> <p>c. Instructions provided to candidates (or respondents to surveys) about what they are expected to do are informative and unambiguous.</p> <p>d. The basis for judgment (criterion for success, or what is “good enough”) is made explicit for candidates (or respondents to surveys).</p> <p>e. Evaluation categories or assessment tasks are aligned with CAEP, InTASC, national/professional and state standards.</p>	<p style="text-align: center;"><b>+</b></p> <p>a. The purpose of the assessment and its use in candidate monitoring or decisions are consequential.</p> <p>b. Candidate progression is monitored and information is used for mentoring.</p> <p>c. Candidates are informed how the instrument results are used in reaching conclusions about their status and/or progression.</p>
<p style="text-align: center;"><b>-</b></p>	<p><b>2. CONTENT OF ASSESSMENT</b> (informs relevancy)</p> <p>a. Indicators assess explicitly identified aspects of CAEP, InTASC, national/professional and state standards.</p>	<p style="text-align: center;"><b>+</b></p>

EXAMPLES OF ATTRIBUTES BELOW SUFFICIENT LEVEL	CAEP SUFFICIENT LEVEL	EXAMPLES OF ATTRIBUTES ABOVE SUFFICIENT LEVEL
<ul style="list-style-type: none"> <li>a. Indicator alignment with CAEP, InTASC, national/professional or state standards is incomplete, absent or only vaguely related to the content of standards being evaluated.</li> <li>b. Indicators fail to reflect the degree of difficulty described in the standard.</li> <li>c. Indicators not described, are ambiguous, or include only headings.</li> <li>d. Higher level functioning, as represented in the standards, is not apparent in the indicators.</li> <li>e. Many indicators (more than 20% of the total score) require judgment of candidate proficiencies that are of limited importance in CAEP, InTASC, national/professional, and/or state standards.</li> </ul>	<ul style="list-style-type: none"> <li>b. Indicators reflect the degree of difficulty or level of effort described in the standards.</li> <li>c. Indicators unambiguously describe the proficiencies to be evaluated.</li> <li>d. When the standards being informed address higher level functioning, the indicators require higher levels of intellectual behavior (e.g., create, evaluate, analyze, &amp; apply). For example, when a standard specifies that candidates' students "demonstrate" problem solving, then the indicator is specific to candidates' application of knowledge to solve problems.</li> <li>e. Most indicators (at least those comprising 80% of the total score) require observers to judge consequential attributes of candidate proficiencies in the standards.</li> </ul> <p>[NOTE: the word "indicators" is used as a generic term for assessment items. For content tests, the term refers to a question. For projects or assignments, it refers to a prompt or task that the candidate is to perform. For an observation, an indicator might be a category of performance to observe or a specific aspect of candidate performance that a reviewer would record. For a survey, an indicator would stand for a question or statement for which a response is to be selected.]</p>	<ul style="list-style-type: none"> <li>a. Version 2.0

January 2015

## Guidelines for Appropriate Data Design, Collection and Analysis

### SECTION 5: VALIDITY AND OTHER PRINCIPLES OF GOOD EVIDENCE

**Key characteristics of evidence and useful data for improvement begin with validity and reliability. They also include data relevance, representativeness, cumulativeness, fairness, robustness, and actionability.**

This section draws together important attributes of evidence found in three sources. One was a paper prepared by Peter Ewell for the CAEP Commission on Standards and Performance Reporting<sup>18</sup>. A second reference is the National Academy of Education report on Evaluation of Teacher Preparation Programs, released in the fall of 2013<sup>19</sup>, and third is additional review and consideration by CAEP's Data Task Force.

The principles below were developed to combine material in these three sources. They are intended as a guide to EPPs in making their own determination of the adequacy of measures proposed for use in the CAEP accreditation process.

- a) **Validity and Reliability.** All measures are in some way flawed and contain an error term that may be known or unknown. In general, the greater the error, the less precise—and therefore useful—the measure. But the level of precision needed depends on the circumstances in which the measure is applied. To be used in accreditation decisions, measures need to be founded upon reliable measurement procedures, but they also need to be designed to operate under less-than-ideal measurement conditions. Even the most rigorous measures, moreover, may not embrace the entire range of validities—construct, concurrent, and predictive.

The meaning of *validity* has evolved and has come to embrace the appropriateness of the use to which the measure is put ("consequential validity" as in Messick, 1995). This means, for example, that studies of value added measures (VAM) that explicitly consider their use as program evaluation indicators, rather than as a component of teacher or school evaluation, are more applicable for preparation program review situations.

In its data analyses to support continuous improvement and accreditation self-studies, accredited EPPs meet accepted research standards for validity and reliability of comparable measures and, among other things, rule out alternative explanations or rival interpretations of reported results. Validity can be supported through evidence of:<sup>20</sup>

- Expert validation of the items in an assessment or rating form (for convergent validity)
- A measure's ability to predict performance on another measure (for predictive validity)
- Expert validation of performance or of artifacts (expert judgment)
- Agreement among coders or reviewers of narrative evidence.

Evaluation of Teacher Preparation Programs<sup>21</sup>

NOTE: "TPP" = Teacher  
Preparation Program

### Validity

*Validity* is defined in the literature of measurement and testing as "the extent to which evidence and theory support the interpretations of test scores" (Messick, 1989; American Educational Research Association, American Psychological Association, and National Council on Measurement in Education, 1999). There is a vast literature about the concept of test validity that goes back many decades (in addition to Messick, 1989, see, for example, Cronbach and Meehl, 1955; Shepard, 1993).

Evaluations typically make use of multiple measures rather than a single test, but key questions about validity, including the following, apply to TPP evaluation:

- To what extent does the evaluation measure what it claims to measure? (This is sometimes referred to as *construct validity*.)
- Are the right attributes being measured in the right balance? (This is sometimes referred to as *content validity*.)
- Is there evidence that teachers graduating from highly rated TPPs prove more effective in the classroom? (This is sometimes referred to as *predictive validity*.)
- Is a measure subjectively viewed as being important and relevant to assessing TPPs? (This is sometimes referred to as *face validity*.)

The committee takes the view that *consequences* are central to judging the soundness of a TPP evaluation system. Questions about consequential validity—an aspect of validity that addresses the intended and unintended consequences of test interpretation and use (Messick, 1989)—include the following:

- To what extent does the evaluation affect the behavior of teacher educators in the ways intended?
- To what extent does the evaluation create perverse incentives such as "gaming" of the system on the part of teacher educators, lead to policy decisions with unknown or unwanted long-term effects, or create other unintended consequences?

Although debate continues among education and measurement researchers about whether consequences should be included in the formal definition of validity (Messick, 1989; Linn, 1997; Popham, 1997; Shepard, 1997; Feuer, 2013a), there is widespread agreement that monitoring consequences of an assessment system is crucial in determining the system's soundness and value. For discussion of a particularly important aspect of consequential validity, see Principle 5<sup>22</sup>.

<sup>21</sup> Feuer et al, NAE, 2013. P. 14

<sup>22</sup> The reference is to "Principle 5" in the NAE report, which the report summarizes (p. 6): Evaluation systems may have differential and potentially unfair effects on diverse populations of prospective teachers and communities.

January 2015

At the heart of *reliability* is the question “can the evidence be corroborated?” Because all evidence is of variable or unknown quality and coverage, it should always be backed up or “triangulated” by evidence from other sources that provide results that are consistent with those already shown. These sources, which can include qualitative data as well as quantitative, should be as different from one another as possible, and the more of them that are presented, the better. A second basic question related to reliability is “can the finding be replicated?” Additional confirmation of what any evidence shows can be provided by clear documentation that would allow the finding to be replicated.

Reliability in its various forms can be supported through evidence of:

- Agreement among multiple raters of the same event or artifact (or the same candidate at different points in time).
- Stability or consistency of ratings over time.
- Evidence of internal consistency of measures.

- b) Relevance.** The measures advanced ought to be demonstrably related to a question of importance that is being investigated. This principle implies validity, but it goes beyond it by also calling for clear explanation of what any information put forward is supposed to be evidence of and why it was chosen.

The principle implies two things with respect to CAEP accreditation. First, any evidence that is advanced by an EPP for accreditation should be appropriately related to a particular CAEP Standard or Standards that the program is claiming it meets. Furthermore, multiple items or measures of evidence will ideally be brought together so that there will be information about several elements of a Standard, or portions of several Standards. Evidence that only attempts to document atomized bits of learning is discouraged. The best evidence involves forms of assessment in which candidates are asked to perform tasks similar to those they will face in their initial employment as education professionals.

Second, evidence that is advanced by an EPP should be demonstrably related to desired candidate proficiencies. Candidates need opportunities to develop proficiencies that are assessed on a test and to be informed prior to its administration what is expected from them.

- The EPP curriculum and experiences should prepare candidates for what is to be tested.
- Unit and program leaders should be clear and explicit about their expectations for candidate proficiencies in relation to standards, and candidates should know and understand what those expectations are so they can effectively strive to achieve them.
- Faculty expectations may be conveyed in narrative descriptive material, perhaps including examples, *in advance* of any assessment.
- Faculty have a responsibility to provide clear directions covering what candidates are supposed to do, how their responses to any assessments of these expectations are to be prepared.

- c) Representativeness.** Any measure put forward should be typical of an underlying situation or condition, not an isolated case. If statistics are presented based on a sample, therefore, evidence of the extent to which the sample is representative of the overall population ought to be provided, such as the relative characteristics of the sample and the parent population. If the evidence presented is in the form of case studies or narratives, multiple instances should be

documented or additional data shown to indicate how typical the examples chosen really are. CAEP holds that sampling is generally useful and desirable in generating measures efficiently. But in both sampling and reporting, care must be taken to ensure that what is claimed is typical and the evidence of representativeness must be subject to audit by a third party.

There are occasions when a "purposeful" sample is preferable or necessary, a sample that is designed to meet a particular and intentionally limited objective. This approach might be appropriate when access to data are limited, or when issues of practicality intrude. An example might be a case study that gathers P-12 student learning data or teacher observation evaluations only from a particular school district that happens to employ a significant group of the EPPs completers. In a case of this type, the EPP needs to be explicit about what part of the whole population is being represented. For example, the proportion of completers from a particular academic year who were employed by District X, spelling out how those completers were similar to, or different from, the cohort of that year's completers. In addition, such a study might be a part of a larger plan comprised of a cluster of studies that, over time, would accumulate to results that are more generally representative of completers or of hired completers.

The guiding question for this principle should always be "is the evidence drawn from situations that are typical and potentially generalizable?" All evidence should be drawn from situations that are typical. A given case study advanced as evidence should therefore be closely examined to determine if a similar case study in another situation or setting might show something else.

- d) Cumulativeness.** Measures gain credibility as additional sources or methods for generating them are employed. The resulting triangulation helps guard against the inevitable flaws associated with any one approach. The same principle applies to qualitative evidence whose "weight" is enhanced as new cases or testimonies are added and when such additions are drawn from different sources. Both imply that the entire set of measures used under a given standard should be mutually reinforcing. The EPP should provide an explanation as to the way these measures are reinforcing and, if they are not, an explanation for that lack of congruence.

Providers using qualitative methods to analyze qualitative data (e.g., candidate reflections and journals, mentor teacher qualitative feedback, etc.) should describe the method used to analyze those data. Usually this involves triangulation of the data using one or more methods. The three most frequently employed types of triangulation are described below:

- *Data Triangulation* involves using different sources of information in order to increase the validity of the study. This includes such processes as in-depth interviews with a variety of stakeholders being interviewed to determine areas of agreement or divergence. And it includes time (collecting data at various points in time), space (collecting data at more than one site), and person (collecting data at more than one level of person) triangulation.
- *Investigator Triangulation* involves using different (more than two investigators) in the analysis process. Each investigator examines the data using the same qualitative method to reach an independent determination. The findings are compared and areas of agreement and divergences are sought.
- *Methodological Triangulation* involves the use of multiple qualitative and/or quantitative methods. For example, the results from surveys are compared to focus groups and in-depth interview to determine if similar results are found.

January 2015

The purpose of using triangulation is to ensure completeness and to confirm findings. In qualitative research validity and reliability are aligned with the concept of “trustworthiness.” By using triangulation, the “trustworthiness” of the findings can be confirmed or replicated.

All aspects of a preparation program from recruitment and admissions, through completion and into on-the-job performance should be informed by multiple measures. These measures will<sup>23</sup>:

- Document and monitor effects of EPP admissions selection criteria.
- Monitor candidate progress.
- Monitor completer achievements.
- Monitor provider operational effectiveness.
- Demonstrate that the provider satisfies all CAEP Standards.
- Trace status and progress of the EPP on measures of program impact—
  - P-12 student learning and development,
  - Indicators of teaching effectiveness,
  - Results of employer surveys and including retention and employment milestones, and
  - Results of completer surveys
- Trace status and progress of the EPP measures of program outcomes—
  - Completer or graduation rates,
  - Ability of completers to meet licensing (certification) and any additional state accreditation requirements, and
  - Ability of completers to be hired in education positions for which they are prepared.
  - Other consumer information, including student loan default rates for completers.

A first guiding question for this principle is “is the evidence theoretically grounded?” Every body of evidence is situated within a larger theoretical or conceptual framework that guides the entire investigation. Every new piece of evidence generated or applied builds upon this framework to create new understanding. For example, case descriptions of candidate teaching in a clinical setting are located within and made sense of through frameworks that describe sound teaching practice.

A second guiding question is “is the evidence part of a coherent and explicit chain of reasoning?” Sound evidence requires the development of a logical chain of reasoning from questions to empirical observations that is coherent, transparent, and persuasive to a skeptical outsider.

- e) **Fairness.** Measures should be free from bias and be able to be justly applied by any potential user or observer. Potential sources of bias might be introduced by the values or beliefs of those applying the measure, such as the conviction that a particular result should be observed. Other sources of bias are situational, such as the limited perspective of an untrained observer undertaking a classroom observation or applying a rubric. In this sense, fairness is a special case of reliability: a fair measure will return the same result even if applied by different observers under different circumstances or at different points in time. With this principle in place, it follows that all evidence should be systematically reviewed to ensure fairness.

---

<sup>23</sup> CAEP Standard 5

Another aspect of fairness is that a sound set of measures should respect a range of client perspectives including the program, the student, the employer, and the state or jurisdiction. Taken as a whole, a set of measures should potentially support the establishment of an informed dialogue among the appropriate parties. A statistic on the employment rates of program completers, for example, can be summarized from the candidate point of view as the probability of being placed, from the program's point of view as a placement rate, and from an employer's point of view as the proportion of job openings filled each year. To reflect stakeholder interests, moreover, proposed measures should be neither arcane nor overly academic.

- f) **Robustness.** A robust body of evidence will lead to the same set of conclusions in the face of a good deal of "noise" or measurement error. Triangulation and replication will bolster the credibility of any set of measures in this respect. A guiding question here should be, "is the evidence direct and compelling?" Evidence should be directly related to the underlying condition or phenomenon under investigation. For example, if the effectiveness of candidate preparation is the object, student testimony through surveys indicating that they feel that they have received effective preparation should not be the only form of evidence submitted.

All measures are also to some extent vulnerable to manipulation. This is one reason to insist upon triangulation and mutual reinforcement across the measures used under each Standard. For example, program graduation and licensure passage rates depend a great deal on which students are included in the denominator. Because the incentives to perform well on such measures are considerable, programs may identify ways to construct these denominators that yield maximum values on these measures regardless of what they are actually doing.

- g) **Actionability.** Good measures, finally, should provide programs with specific guidance for action and improvement. Many promising measures fail simply because they are too expensive, too complex, too time consuming, or too politically costly to implement. Often, the simplest are best, even if they seem less technically attractive. A guiding question here is "why is the evidence important? The intent of the evidence presented should be clear and the evidence should directly suggest program improvements. For example, the potential results of a given case study should be important or significant enough to trigger actions to modify the program.

Actionability also depends on the evidence having clear standards of comparison. Without clear standards of comparison, the interpretation of any measure is subject to considerable doubt. Measures can be compared across programs, against peers, against established "best practices," against established goals, against national or state norms, or over time. For every measure under each Standard, CAEP should be able to indicate an appropriate benchmark against which a given program's performance can be judged. This principle also suggests that any measure should be able to be disaggregated to reveal underlying patterns of strength and weakness or to uncover populations who could be served more effectively. Finally, the measures provided should be reflectively analyzed and interpreted to reveal specific implications for the program.

January 2015

## SECTION 6: EVIDENCE CREATED AND ADMINISTERED BY EPPs

### Guidelines for preparation of evidence on assessments and assignments, surveys, and case studies.

This section describes the desired attributes of evidence offered by an EPP beyond CAEP's eight annual report measures, and beyond commercial and/or state required assessments, to demonstrate that it meets CAEP Standards. This evidence is designed, constructed, administered and scored by EPP faculty and includes assessments and assignments, surveys of candidates and stakeholders, and case studies. In judging the adequacy of such measures, the following background points should be considered—*taken together*:

- The evidence presented should broadly relate to the overriding objective: impact on P-12 student learning.
- Every example does not have to be consistent with every attribute.
- Evidence should collectively address multiple aspects of the program; it should be *comprehensive*.
- EPPs should provide the reasons why they chose the evidence they provide; this should be an "intentional and conscious" selection much like the entries in a student portfolio.
- Attributes may play out differently for EPPs with different kinds of governance structures (e.g. large research university with decentralized departments vs. proprietary institution with lots of adjuncts and a centrally-developed curriculum or a residential-type alternative pathway).

The following additional guides should be applied to evidence that an EPP is planning to submit as part of its self-study, including assessments/assignments, surveys, and case studies:

- The evidence should be linked/mapped to standards and should inform specific aspects of standards.
  - The standards may be those of CAEP (and InTASC), or ones from states.
- The EPP's self-study should describe how the evidence relates to its particular niche or mission.
  - The EPPs selects its own examples.
  - The EPPs self-study would say why the particular evidence was included—and what aspects of niche or mission?
- The collection of evidence demonstrates intentionality and coherence.
  - It is clear what the evidence is evidence of, and why the EPP has chosen to include it.
  - The individual pieces of evidence are worked out in sufficient detail to make clear what they show about important aspects of the EPP's program.
  - There is evidence of faculty buy-in, involvement, and dialogue (where appropriate to the governance structure of the institution).
- The evidence includes both formative and summative examples.
  - The evidence supports an EPP's process of continuous improvement.
  - The evidence can inform an accreditation decision by CAEP.

#### a) Assignments/Assessments and Scoring Guides

An assessment in combination with a scoring guide is a tool faculty use to evaluate candidates and provide them with feedback on their performance. Assessments and scoring guides should address relevant and meaningful attributes of candidate knowledge, performance, and dispositions aligned with standards.

January 2015

For the most part, the assessments submitted by an EPP will not include examples taken from the day to day formative assessments administered by individual faculty members. Instead, most assessments that comprise the evidence offered for accreditation will probably represent assessments used by an EPP to examine all candidates consistently at various points from admission through exit. These are assessments that all candidates are expected to complete as they pass from one part of preparation to the next, or that are used to monitor progress of a candidate's developing proficiencies during one or more stages of preparation.

The box below contains lists of guideline questions that Visitor Teams and the CAEP early instrument reviewers will follow. "NOTES" are interspersed in the list to serve as reminders about how providers can know they are following the principles of good evidence described in section 5, above, and can document that their data are "relevant, verifiable, representative, cumulative and actionable", in the phrase from CAEP's Standard 5, component 2.
