--

January 2015

teach.

- If weights are used, they are explained or justified.
- What do the performance levels represent?
  - There are three, four or five distinct levels, and they are clearly distinguishable from one another.
  - Levels are constructed in parallel with one another in terms of the attributes and descriptors used.
  - For each level of performance, attributes are described that are related to actual classroom performance; attributes are not simply mechanical counts of particular attributes.
  - Levels represent a developmental sequence in which each successive level is qualitatively different from the prior level.
  - Headings clearly describe which levels are acceptable and which are not acceptable.
  - It is clear which level represents exit proficiency (ready to practice).
  - A “no data” or “unobserved” category is included.

*NOTE: Information in this category would help documents that the evidence is actionable—it is in forms directly related to the preparation program and can be used for program improvement and for feedback to the candidate.*

- Are the levels described in language that is readily understandable?
  - The levels should communicate to broad audiences including educators, stakeholders, and school partners.
  - Any special terms used are clearly defined.
- Is there evidence of efforts to achieve consistency in scoring?
  - Multiple scorers are used.
  - Consistent training of reviewers is present.
  - Evidence of consistency such as inter-rater reliability is supplied.

*NOTE: This information can be used by the provider to document reliability of the assessment.*

**4. HOW THE DATA ARE REPORTED**

- Are data reported?
  - Data are needed to show that the assessment is actually in use.
  - Data distributions (e.g. across rubric levels, disaggregated by area of specialty/ licensure preparation and by demographic groups) are reported and interpreted.
  - The EPP uses the data and its interpretation to suggest changes in the preparation program.
  - All candidates who completed the assessment are included or the cases included constitute a representative sample.

*NOTE: this information would be appropriate for the providers to use in demonstrating that the data are representative.*

- How are results aggregated for reporting?
  - Scores are reported in terms of a percentage distribution of candidates scoring at each level or a mean with a range and not just a single central tendency (e.g. mean).
- Are there comparisons?

January 2015

- The EPP explains how it determines that an answer is “good enough”.
- Comparisons should be criterion based.
- The EPP describes other kinds of comparisons that are used (e.g. fixed standard or target, normative, improvement over time, comparison with peers in a state or region or nationally).

*NOTE: The information from reporting is linked with the actionability principle since it determines how closely the information aligns with particular preparation programs or experiences and with groups of candidates.*

**5. INFORMING THE TEST TAKERS**

- Is there a mechanism for supplying feedback?
  - To candidates.
  - To the EPP for purposes of continuous improvement.
- Are candidates given information about the bases on which they will be scored/judged?

*NOTE: This information can be used by the provider as part of their documentation that assessments are fair.*

**b) Surveys**

Surveys allow EPPs to gather information to use for program improvement and can provide valuable insights on candidate preparation from a broad spectrum of individuals. EPPs often use surveys to gather evidence on candidate, graduate, and employer satisfaction as well as the perceptions of clinical faculty of candidates' preparedness for teaching.

The quality of the evidence provided by surveys is directly linked to the quality of the survey with an emphasis on the accuracy, reliability and validity of the results. To this end, surveys should be carefully designed, systematically collect data related to the topic of the survey, measure the property the survey is claimed to measure, and produce data that are clear and usable. If ratings are based primarily on a candidate self-report, they should wherever possible be triangulated or supported by other evidence. The box, below contains a list of guideline questions that Visitor Teams and the CAEP three-year-out reviews will follow.

**1. HOW THE SURVEYS ARE USED**

- Are the purpose and intended use of the survey clear and unambiguous?
- Is the point in the curriculum at which the survey is administered clear (e.g., first year, last year, etc.)?
  - At mid-point, exit, pre-service, in-service, etc.?
  - Are surveys being used at different points so comparisons can be made? (For example, are candidates surveyed at the completion of the program as well as one or two years after completion?)

*NOTE: This information would be part of the documentation that surveys are relevant.*

**2. HOW THE SURVEYS ARE CONSTRUCTED**

- Is it clear how the EPP developed the survey?
  - It should be clear who developed the survey.

- Documentation should include evidence that prior research was used to develop the content and format of the survey questions.
- The survey was pilot tested or otherwise tried out in advance.
- Are the individual items or questions in the survey constructed in a manner consistent with sound survey research practice?
  - Questions should be simple and direct; lengthy questions should be avoided.
  - Questions should have a single subject and not combine two or more attributes.
  - Vague language or language that can be interpreted in more than one way should be avoided; if frequency questions (e.g. "occasionally") are included, they should be defined in numerical terms (e.g. "3-5 times").
  - Questions should be stated positively.
  - Questions should maintain a parallel structure throughout the survey.
  - Leading questions should be avoided.
  - Response choices should be mutually exclusive and exhaustive.

*NOTE: Information of this type would be a part of the documentation that surveys are valid in terms of construct or fact validity and they are relevant.*

### 3. HOW RESULTS ARE SCORED AND REPORTED

- What efforts were made to ensure an acceptable return rate for surveys? Has a benchmark been established?  
(NOTE: This information can be used by the EPP to document representativeness)
- What conclusions can or cannot be determined by the data based on return rate? Is there a comparison of respondent characteristics with the full population or sample of intended respondents?
- How are qualitative data being evaluated?
- How are results summarized and reported? Are the conclusions unbiased?
- Is there consistency across the data and are there comparisons with other data?

*NOTE: This information can be used by the EPP, in part, to document reliability.*

### 4. SPECIAL NOTE ON SURVEYS OF DISPOSITIONS

- If surveys that address professional dispositions are included, does the EPP provide an explanation/justification of why they are included and how they are related to effective teaching and impact on P-12 student learning?
  - Judgments of dispositions are anchored in actual performance and are demonstrably related to teaching practice.

*NOTE: This information would be related to actionability.*

- Language describing dispositions is conceptually framed well enough to be reliably inferred from an observation of performance.

### 5. INFORMING SURVEY RESPONDENTS

- Is the intent of the survey clear to respondents and reviewers?
  - A cover letter or preamble explains what respondents are being asked to do and why.
  - The sequence of questions makes sense and is presented in a logical order.
  - Individual items or questions are grouped under appropriate headings and subheadings.

January 2015

- Are clear and consistent instructions provided to respondents so they know how to answer each section?
    - Instructions are provided where needed as the respondent progresses through the survey.
    - Instructions are written in simple, easy-to-understand language.
    - Clear references document the timeframe or context that the respondent should consider (e.g. "over the last year" or "in all my classes").
- NOTE: This information could be a part of a self-study documentation that the survey is fair.*

**c) Case Studies**

The CAEP Commission's final report includes an appendix with 79 illustrative examples of evidence across the five Standards and annual reporting recommendations<sup>24</sup>. A quarter of those illustrative examples describe exhibits such as case studies, documentation of particular program features, or demonstrations of the consequences of practice. Among them are examples in which the EPP would develop and evaluate new measures, such as these:

- Assess the effects of a change in admissions that define criteria for "grit," persistence and leadership abilities, as an "innovation"—for Standard 3 on candidate quality and Standard 5 on continuous improvement/quality assurance;
- Pilot a new assessment constructed to show developing candidate proficiencies for use of an assessment to enhance learning during clinical experiences—for demonstration of one InTASC standard in CAEP Standard 1 on content and pedagogical knowledge; or
- Conduct a case study of completers that demonstrates the impacts of preparation on P-12 student learning and development—for part of the evidence under Standard 4.

Evidence of this kind is generally most useful in generating hypotheses or ideas, and is less useful or applicable in confirmatory analysis. In assembling such evidence, moreover, the standards that apply to research for peer review and publication cannot be implemented rigidly or in all situations.

The case study guidelines are founded on four assumptions:

- **Focus on results**—Data used for improvement efforts and accreditation should ultimately aim to enhance preparation performance outputs related to P-12 student learning;
- **Always improve**—Data for accreditation should be some portion of the data that an EPP uses for its own continuous improvement efforts. A successful EPP builds capacity for improvement rather than for compliance;
- **Rely on data**—Collecting valid and reliable data from multiple sources to inform decision making is an essential component of a continuous improvement system; and
- **Engage stakeholders**—EPPs engage stakeholders as an integral part of the on-going effort to improve programs.

In developing and implementing systems that use evidence for continuous improvement, providers may consider questions posed under the following headings: identify the topic; generate ideas for change; define the measurements; test promising solutions; sustain and scale solutions; and share knowledge.

<sup>24</sup> Council for the Accreditation of Educator Preparation (CAEP). (2013). *CAEP Accreditation Standards* (p. 41-57). Washington, DC: CAEP. Retrieved from [http://caepnet.files.wordpress.com/2013/09/final\\_board\\_approved1.pdf](http://caepnet.files.wordpress.com/2013/09/final_board_approved1.pdf)

**i. Identify the topic to study.** Questions, and the case study designs developed to investigate them, should reflect a solid understanding of relevant prior theoretical, methodological, and empirical work. Tony Bryk of the Carnegie Foundation for the Advancement of Teaching asks, “what specifically is the problem we are trying to solve?”<sup>25</sup> And he observes that engaging key participants early and often at this and later stages is enlivening and important. Questions that EPPs can pose include these:

- Is your improvement work focused on identifying and solving specific problems of practice that are measurable and whose solutions are reasonably attainable?
- What evidence have you used to identify the problem?
- Does your problem statement (question of inquiry) reflect a solid understanding of relevant prior theoretical, methodological, and empirical work on this topic?

**ii. Generate ideas for change.** Developing ideas to address the identified problem is not just a matter of brainstorming. Bryk cautions that it is hard to improve what you do not fully understand. He advises: “Go and see how local conditions shape work processes. Make your hypotheses for change public and clear.” Generating ideas should be a deliberative process that considers such questions as the following:

- Do you have a disciplined process in place for generating promising ideas for solving the problem?
- Does the process involve key stakeholders and end users?
- Are the ideas based upon a strong theoretical framework?
- Are the ideas clearly and directly aligned with the problem to be addressed?

**iii. Define the measurements.** What measures can be used to determine whether the change is an improvement? The National Academy of Education report on teacher preparation evaluation constructed a table listing commonly used measures of provider quality, together with brief descriptions of the strengths and limitations of each. This table is provided as Appendix III and EPPs may find it a useful tool as they define metrics for case studies. Bryk notes that measures should be embedded to gauge key outcomes and processes, tracking change and supporting judgments that the changes are actually improvements. He also reminds EPPs to anticipate unintended consequences and to measure those as well.<sup>26</sup>

**iv. Test promising solutions.** Bryk reminds us that the critical issue at this stage of studying an issue is not only what works, but rather what works, for whom, and under what set of conditions? He further urges EPPs to adopt a *Plan-Do-Study-Act cycle*<sup>27</sup>, and observes “that failures may occur is not the problem; that we fail to learn from them is”<sup>28</sup>. Key questions embodied in this process include:

<sup>25</sup> *Improvement Research*. Carnegie Foundation for the Advancement of Teaching. Retrieved from <http://www.carnegiefoundation.org/improvement-research/approach>

<sup>26</sup> *Improvement Research*. Carnegie Foundation for the Advancement of Teaching. Retrieved from <http://www.carnegiefoundation.org/improvement-research/approach>

<sup>27</sup> Langley, G. J., Moen, R., Nolan, K. M., Nolan, T. W., Norman, C. L., & Provost, L. P. (2009). *The improvement guide: A practical approach to enhancing organizational performance (2nd ed.)*. San Francisco, CA: Jossey-Bass. Retrieved from <http://www.ihl.org/resources/Pages/HowtoImprove/default.aspx>

<sup>28</sup> *Improvement Research*. Carnegie Foundation for the Advancement of Teaching. Retrieved from <http://www.carnegiefoundation.org/improvement-research/approach>

- Does the EPP have a system in place to test ideas in authentic settings, rapidly collect and analyze results, make adjustments, and test interventions in additional contexts?
- Is the EPP using the measures set up in section iii to test promising solutions?
- Is the EPP able to determine if the change is an “improvement” based upon the evidence?
- Is the EPP able to determine through evidence what works, for whom, and under what set of conditions?

**v. Sustain and scale solutions.** A key goal of improvement work is the effort to transform promising ideas into sustainable solutions that that achieve effectiveness reliably at scale. The term “scaling up” is popularly used to indicate moving from a limited effort to one that is much more widely implemented. Within an EPP, the concept might pertain to moving from piloting a “promising solution” with, say, half of the elementary teacher candidates, to the entire elementary preparation program. Or it might mean adapting a successful “promising solution” developed for the elementary preparation program to secondary preparation or preparation of special education teachers.

Issues of sustainability and scaling should be built into the solution’s design from the outset and not be done as an afterthought of the improvement process. Bryk writes: “Accelerate improvements through networked communities. Embrace the wisdom of crowds. We can accomplish more together than even the best of us can accomplish alone.”

Here are questions to consider at the early stages and into the later steps:

- Does the EPP intend to implement the solution in other programs or contexts over time?
- What level of evidence does the EPP need to begin to scale the solution?
- At what point will the EPP need to conduct an impact study?
- Will scaling require changes in the design of the solution? How will these changes affect performance?

**vi. Share knowledge.** Bryk emphasizes that building the field’s capacity to “learn in and through practice to improve” is a critical need<sup>29</sup>. Thus sharing new knowledge about both the solution and the improvement process for developing it is a critical element of this improvement work. Here are several questions to consider:

- What conclusions and inferences can be drawn from the solutions generated through the process?
- How will the EPP share the findings?
- What lessons has the EPP learned about the continuous improvement process itself?
- What kinds of adjustments are needed in the EPP’s continuous improvement process?
- What more does the EPP need to know about the solution and continuous improvement?

## Appendix I

### Applying Principles of “good evidence” To typical accreditation measures

The seventy-nine measures included in the appendix to the CAEP Standards<sup>37</sup> adopted by the CAEP Board of Directors on August 29, 2013 are of different kinds, as described below:

- **Examinations.** Prospective teachers take examinations in the course of their training and in order to be licensed to practice. Dimensions of interest for examinations include their content coverage, the level at which this content is tested, the depth at which various kinds of knowledge is probed (which affects the duration of the examination), how items are structured (e.g. constructed response or multiple choice), and whether or not responses can be compared across test-taking populations (degree of standardization). The results of examinations can be reported on an absolute basis or in the form of Value-Added Measures (VAM).
- **Surveys.** Students in teacher preparation programs are frequently surveyed as they progress and after they are employed. Dimensions of interest for surveys strongly resemble those for examinations except that items are self-reported. Another important coverage dimension involves the extent to which survey items are directed at actions or behaviors, or are self-reports on knowledge or skill outcomes. This is important because students are generally more accurate commentators on the former than the latter. Surveys are also administered to the employers of teachers and to their students to help provide evidence of the effectiveness of teacher training.
- **Observations.** Observations of teacher candidates in field placements and of newly employed program graduates are also used as quality measures. Dimensions of interest parallel those of surveys but employ an element of peer judgment embodied in a trained observer using a well-developed observational protocol.
- **Statistics.** Various behavioral statistics are used as outcome measures for teacher training programs. The most prominent examples are completion rates and job placement rates. Dimensions of interest include the outcome of interest (the numerator), the population to which the rate applies (its denominator), and the time period over which the calculation is run (e.g. “one-and-a-half times catalog length of program” or “within one year”).
- **Curricular Features.** The CAEP Standards address various aspects of teacher training curricula, so some of the proposed measures address descriptive aspects of the programs themselves such as the extent to which students are taught assessment methods or reflect upon professional expectations. Dimensions of interest here are the aspect of the program in question and the extent or duration of coverage.

---

<sup>37</sup> Council for the Accreditation of Educator Preparation (CAEP). (2013). *CAEP Accreditation Standards*. Washington, DC: CAEP. Retrieved from [http://caepnet.files.wordpress.com/2013/09/final\\_board\\_approved1.pdf](http://caepnet.files.wordpress.com/2013/09/final_board_approved1.pdf)

- Case Studies. Where quantitative measures are unavailable, the CAEP Standards call for qualitative investigations termed “case studies” (for example, “case studies of districts in which a large number of program graduates are employed”). Dimensions of interest include the question to be investigated through the case study, baseline conditions, the intervention or phenomenon of interest, the goal of the intervention, observed results, and implications for action.

To illustrate how the principles can be used, this Appendix applies each of the principles to three measures: licensure passage rates, employment rates, and case studies of districts where a large number of program graduates are employed.

#### Validity and Reliability

- Examinations example: Licensure Passage Rates. Although state licensure examinations differ by provider, the two main test vendors have established rigorous standards of test development and regularly report statistics on validity and reliability. As a result, this measure fully meets the principle.
- Statistics example: Employment Rates. These are also well-defined measures that are valid and reliable so long as they are properly calculated. Because of the latter, they should be examined carefully for threats to validity and reliability such as exclusions from the denominator or changed conditions over repeated annual measures.
- Case Studies example. Case studies are a bit more problematic with respect to this principle because their validity depends on the type of information collected and the extent to which the same procedures are used across cases and over time. This will naturally be a peer judgment.

#### Relevance

- Examinations example: Licensure Passage Rates. Insofar as licensure tests faithfully reflect content knowledge and knowledge of pedagogical practice, program completers’ performance on them constitutes relevant information about the quality of the program.
- Statistics example: Employment Rates. Many things can affect employment rates that are not directly related to program quality including local job market conditions or the general state of the economy. As a result, this measure does not fully meet the principle.
- Case Studies example. So long as the topics addressed in the case study are selected to reflect important dimensions of program performance—for example, the ability of program graduates to effect learning growth in their pupils or their demonstration of ethical and professional practices—the principle of relevance is met.

#### Representativeness

- Examinations example: Licensure Passage Rates. The examined population is the population of interest with the denominator representing the parent population. So long as these populations are correctly constituted, the measure is representative.
- Statistics example: Employment Rates. These will typically be representative but when measured over time, they may not be if labor market conditions change.

January 2015

- Case Studies example. These must be carefully examined to determine if the districts chosen are typical of many districts to which the program sends graduates as employees. This could be done if the requisite documentation was supplied.

#### Cumulativeness

- Examinations example: Licensure Passage Rates. Although these are precise, they are sole source measures so there is not much ability to triangulate results. One indication of “weight of evidence” might be recording performance over time or correlating test score performance with other evidence of academic achievement on the part of program graduates such as grades in course examinations or portfolios.
- Statistics example: Employment Rates. The same situation largely applies here as to licensure passage rates. A possible exception is if this information is collected both by surveys and by tapping wage record databases.
- Case Studies example. Case study results will be bolstered by the presence of other measures such as teacher observations or student surveys that show similar conclusions. They also can be examined for consistency over time. Finally, the construction of case studies themselves is important; if they involve mutually reinforcing lines of inquiry or investigation, their credibility is strengthened.

#### Fairness

- Examinations example: Licensure Passage Rates. These are supplied by third parties, so there should normally be little opportunity for bias. Where this could occur is when EPPs themselves report these rates.
- Statistics example: Employment Rates. If states collect these data on behalf of EPPs using surveys or by tapping wage record databases, the measure should be unbiased. Again, if EPPs themselves conduct the surveys, bias could enter.
- Case Studies example. Because they are conducted by EPPs entirely and are used to advance a particular quality claim, case studies are unlikely to be entirely unbiased.

#### Robustness

- Examinations example: Licensure Passage Rates. These data are not likely to vary much across contexts and are fairly robust, so long as a large number of cases are present. Being supplied by third parties, moreover, they are unlikely to be deliberately misrepresented.
- Statistics example: Employment Rates. These may vary by changes in economic conditions that may lead to different chances for employment from place to place or from time to time.
- Case Studies example. These can be moderately robust if they are constructed so that multiple case studies reinforce one another’s conclusions or can be corroborated by other kinds of evidence.

#### Actionability

January 2015

- Examinations example: Licensure Passage Rates. The ability to take action on the results of this measure depends a good deal on the amount of information on test performance that is available. If sub-scores on these examinations are provided, there is some diagnostic information to inform action. Similarly, disaggregating the tested population to determine who passed and who did not can aid intervention.
- Statistics example: Employment Rates. The case here is similar. Disaggregating the population can determine who is not completing and this would aid intervention. There is no analog to sub-scores for employment rates, but some information on when and in what jobs and circumstances graduates obtain employment might inform action.
- Case Studies example. Actionability will depend entirely on the contents of the case and how thoroughly this is discussed and actionable implications drawn. Actionability can be aided by constructing the case study in a way that explicitly emphasizes actionable conclusions.

Appendix 11

Principal Interview Form

**Rating Form**

**Interviewees that receive a low score during partnership interviews**

**Name of Candidate:** \_\_\_\_\_

**Endorsement Areas:** \_\_\_\_\_

Please give comments in the following categories to help us know why this candidate received the lowest interview rating. Thank you.

Appendix 12  
Mentor Teacher Survey

Mentor Teacher Survey administered through Qualtrics

What is the last semester that you had a student teacher?

- Spring 2018
- Fall 2018
- Winter 2019

Please provide the name of the school where you teach.

Did the BYU-I supervisor and/or Area Coordinator arrange and conduct an initial meeting with teacher candidates and you, the mentor teacher, as part of the orientation process?

- Yes
- No

Did the BYU-I supervisor assist the teacher candidate in analyzing their teaching and coaching them in developing new teaching skills?

Yes

No

Please explain your response

Did the BYU-I supervisor and/or Area Coordinator assist you (the mentor teacher) in dealing with any problems you or the teaching candidate may have been experiencing?

Yes

No

Please explain your response

Did the BYU-I supervisor and/or Area Coordinator assist you (the mentor teacher) in dealing with any problems you or the teaching candidate may have been experiencing?

Yes

No

Please explain your response

Did the BYU-I supervisor conduct an exit interview with the teacher candidate to review the Summative Teacher Candidate Evaluation Form and the Individualized Professional Learning Plan (IPLP)?

Yes

No

Did the BYU-I supervisor and/or Area Coordinator perform their duties in a professional and respectful manner?

- Yes  
 NO

Please explain your response

Would you like to see any changes in the BYU-I student teaching programs?

- Yes  
 No

Please explain your response

We thank you for your time spent taking this survey.  
Your response has been recorded.

**PROFESSIONAL STANDARDS COMMISSION**

**SUBJECT**

Idaho State University 2018 Educator Preparation Program Review: Idaho State Program Review Team Report

**REFERENCE**

June 2016 Board accepted the Professional Standards Commission's recommendation to accept the 2015 State Team Report as submitted, and grant Conditional Approval based on the additional documentation submitted by Idaho State University for their English, English as a New Language, and Economics programs.

**APPLICABLE STATUTE, RULE, OR POLICY**

Sections 33-114, 33-1254, 33-1258; Idaho Code  
Idaho Administrative Code, IDAPA 08.02.02, Section 100 - Official Vehicle for the Approval of Teacher Preparation Programs

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 4: Workforce Readiness, Objective A: Workforce Alignment

**BACKGROUND/DISCUSSION**

The Professional Standards Commission (PSC) is tasked with reviewing all State Board-approved teacher preparation programs. From November 10-13, 2018, the PSC convened a State Review Team composed of twelve (12) content experts and two (2) state observers to conduct a full unit review of the Idaho State University (ISU) educator preparation program. The purpose of the on-site review was to determine if sufficient evidence was presented indicating that candidates at ISU meet state standards for initial certification. The standards used to validate the State Report were the State Board of Education approved Idaho Standards for the Initial Certification of Professional School Personnel. State Board approved knowledge and performance indicators, as well as rubrics, were used to assist team members in determining how well standards were being met. Individual program foundation and enhancement standards were reviewed as well as state specific requirements. Team members looked for a minimum of three applicable pieces of evidence provided by the institution to validate each standard. This evidence included but was not limited to: course syllabi and other course materials (lessons/assignments, readings, exams, etc.); candidate performance on key indicators such as Praxis exams and other performance-based assessments; examples of lesson plans and unit plans created by candidates; evaluations from candidate student teaching placements; and interviews with current candidates, recent program completers, and university faculty.

**CONSENT**  
**JUNE 20, 2019**

---

After the site visit and review of the State Report, ISU submitted a rejoinder to the State Report, as well as supporting documentation. The Standards Committee of the PSC reviewed all documents at the PSC meeting on January 24, 2019.

The rejoinder to the State Report addresses the Special Education Director program. The Standards Committee of the PSC studied the rejoinder and supporting documents and recommended to the full PSC acceptance of the Idaho State University State Team Report and Rejoinder; moving Special Education Director to Conditionally Approved due to insufficient evidence and lack of completers.

**IMPACT**

The recommendations in this report will enable ISU to continue to prepare teachers in the best possible manner, ensuring that all state teacher preparation standards are being effectively embedded in their teacher preparation programs.

**ATTACHMENTS**

Attachment 1 – 2018 ISU State Review Team Report

Attachment 2 – 2018 ISU Rejoinder to State Review Team Report

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-114, Idaho Code, the review and approval of all teacher preparation programs in the state is vested in the State Board of Education. The program reviews are conducted for the Board through the Professional Standards Commission (Commission). Recommendations are then brought forward to the Board for consideration. The review process is designed to ensure the programs are meeting the Board-approved standards for Initial Certification of Professional School Personnel (Certification Standards) for the applicable program areas. Certification Standards are designed to ensure that educators are prepared to teach the state content standards for their applicable subject areas and are up-to-date on best practices in various teaching methodologies.

Current practice is for the Commission to review new programs and make recommendations to the Board regarding program approval. New program reviews are conducted through a “Desk Review” and do not include an on-site review. The Commission review process evaluates whether or not the programs meet or will meet the approved Certification Standards for the applicable certificate and endorsement area. The Commission may recommend to the Board that a program be “Approved,” “Not Approved,” or “Conditionally Approved.” Programs conditionally approved are required to have a subsequent focus visit. The focus visit is scheduled three years following the conditional approval, at which time the Commission forwards a new recommendation to the Board regarding approval status of the program.

Once approved by the Board, candidates completing these programs will be able to apply for a Standard Instructional Certificate with an endorsement in the area of

**CONSENT**  
**JUNE 20, 2019**

---

study completed or Pupil Service Certificate as applicable to the area of study. The specific programs reviewed and recommendations are listed in Attachment 1 starting on page 5.

**BOARD ACTION**

I move to accept the recommendation from the Professional Standards Commission to accept the 2018 Idaho State Team Report and Rejoinder and approve the programs identified for continued approval as indicated in Attachments 1 and 2 with conditional approval for the Special Education Director program due to insufficient evidence and lack of completers.

INTRODUCTION

“**Idaho State University**, a Carnegie-classified doctoral research and teaching institution founded in 1901, attracts students from around the world to its Idaho campuses. At the main campus in Pocatello, and at locations in Meridian, Idaho Falls and Twin Falls, ISU offers access to high-quality education in more than 250 programs. Over 12,000 students attend ISU, receiving education and training in those programs. Idaho State University is the state's designated lead institution in health professions.

Idaho State University faculty and students are leading the way in cutting-edge research and innovative solutions in the areas of energy, health professions, nuclear research, teaching, humanities, engineering, performing and visual arts, technology, biological sciences pharmacy and business. Idaho State University combines exceptional academics amidst the grand natural beauty of the West. ISU is at the heart of an outdoor-lover's paradise and a short drive to some of America's greatest natural wonders and exciting outdoor recreation opportunities.”

(Source: <https://www.isu.edu/about/>)

The purpose of the on-site review was to determine if sufficient evidence was presented indicating that candidates at Idaho State University meet state standards for initial certification. A twelve-member state program approval team, accompanied by two state observers, conducted the review. The standards used to validate the State Report were the State Board of Education approved *Idaho Standards for the Initial Certification of Professional School Personnel*. State Board approved knowledge and performance indicators, as well as rubrics, were used to assist team members in determining how well standards were being met. Individual program foundation and enhancement standards were reviewed as well as state specific requirements.

Team members looked for a minimum of three applicable pieces of evidence provided by the institution to validate each standard. This evidence included but was not limited to: course syllabi and other course materials (lessons/assignments, readings, exams, etc.); candidate performance on key indicators such as Praxis exams and other performance-based assessments; examples of lesson plans and unit plans created by candidates; evaluations from candidate student teaching placements; and interviews with current candidates, recent program completers, and university faculty.

The following terms are defined by the Council for Accreditation of Educator Preparation (CAEP), a national educator preparation accrediting body, and used throughout this report.

- **Candidate.** An individual engaged in the preparation process for professional education licensure/certification with an educator preparation provider (EPP).
- **Completer.** Any candidate who exited a preparation program by successfully satisfying the requirements of the EPP.
- **Student.** A learner in a P-12 school setting or other structured learning environment but not a learner in an EPP.
- **Educator Preparation Provider (EPP).** The entity responsible for the preparation of educators including a nonprofit or for profit institution of higher education, a school district, an organization, a corporation, or a governmental agency.
- **Program.** A planned sequence of academic courses and experiences leading to a degree, a recommendation for a state license, or some other credential that entitles the holder to perform professional education services in schools. EPPs may offer a number of program options (for example, elementary education, special education, secondary education in specific subject areas, etc.).
- **Dispositions.** The habits of professional action and moral commitments that underlie an educator's performance (InTASC Model Core Teaching Standards, p. 6.)

**PROGRAM APPROVAL RECOMMENDATIONS**

Standards/Program	Recommendation	Notes
<b>State Specific Requirements: Idaho Comprehensive Literacy Standards</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standard 3.2 performance, unacceptable: <i>Due to insufficient evidence</i>
<b>State Specific Requirements: Pre-Service Technology Standards</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	
<b>State Specific Requirements: Model Pre-Service Student Teaching Experience</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standard 2 (EPP supervisor), unacceptable: <i>Due to insufficient evidence</i>
<b>State Specific Requirements: Institutional Recommendations</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standard 9, Administrator certificate only, unacceptable: <i>Due to insufficient evidence</i>
<b>Idaho Standards for Bilingual Education and English as a New Language (ENL) Teachers</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standard 9.2 performance: unacceptable <i>Due to insufficient evidence</i>
<b>Idaho Standards for Blended Early Childhood Education/Early Childhood Special Education Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	<i>Conditionally approved due to no evidence collected for early childhood specific indicators</i>
<b>Idaho Foundations Standards for Communication Arts Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	4.2 performance, unacceptable, 9.2 performance, unacceptable: <i>Due to lack of evidence due to lack of completers</i>  <i>Conditionally approved due to lack of completers</i>

Standards/Program	Recommendation	Notes
<b>Idaho Standards for Journalism Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	4.2 performance, unacceptable: <i>Lack of evidence due to lack of completers</i>  <i>Conditionally approved due to lack of completers</i>
<b>Idaho Standards for Speech and Debate Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	4.2 performance, unacceptable: <i>Insufficient evidence due to lack of completers</i>  <i>Conditionally approved due to lack of completers</i>
<b>Idaho Standards for English Language Arts Teachers</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	
<b>Idaho Standards for Exceptional Child Generalists</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	
<b>Idaho Standards for Special Education Teachers of Students who are Deaf/Hard of Hearing</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standards 1.2, 2.2, 3.2, 4.2, 5.2, 6.2, 7.2, 8.2, 9.2, 10.2 performance, standard 7.1 knowledge: unacceptable <i>Due to lack of completers</i>  <i>Conditionally approved due to insufficient evidence and lack of completers</i>
<b>Idaho Standards for Mathematics Teachers</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	

Standards/Program	Recommendation	Notes
<b>Idaho Foundation Standards for Professional-Technical Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standards 1.2, 4.2, 7.2, 8.2, 9.2, 10.2, 11.2, 12.2 performance: unacceptable <i>Each marked unacceptable due to lack of completers</i>  <i>Conditionally approved due to lack of completers</i>
<b>Idaho Standards for Family and Consumer Science Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standards 1.2, 2.2, 5.2, 7.2, 8.2, 9.2 performance: unacceptable <i>Insufficient evidence due to lack of completers</i>  <i>Conditionally approved due to lack of completers</i>
<b>Idaho Foundation Standards for Science Teachers</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	5.1 knowledge, 5.2 performance, 9.2 performance: unacceptable <i>Each marked unacceptable due to lack of completers</i>
<b>Idaho Standards for Chemistry Teacher</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	4.2 performance: unacceptable <i>Due to lack of completers and insufficient evidence</i>  <i>Conditionally approved due to insufficient evidence and lack of completers</i>
<b>Idaho Standards for Physics Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	4.2 performance: unacceptable <i>Due to lack of completers</i>  <i>Conditionally approved due to lack of completers</i>
<b>Idaho Foundation Standards for Social Studies Teachers</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	

Standards/Program	Recommendation	Notes
<b>Idaho Foundation Standards American Government/Political Science Teachers</b>	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	4.1 knowledge: exemplary
<b>Idaho Standards for Economics</b>	<input type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input checked="" type="checkbox"/> Not Approved	4.1 knowledge, 4.2 performance: unacceptable <i>Due to lack of evidence</i>  <i>Unapproved due to lack of evidence</i>
<b>Idaho Foundation Standards for Visual and Performing Arts Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	<i>Conditionally approved due to lack of completers</i>
<b>Idaho Standards for Theatre Arts Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	<i>Conditionally approved due to lack of completers</i>
<b>Idaho Standards for Visual Arts Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	<i>Conditionally approved due to lack of completers</i>
<b>Idaho Foundation Standards for World Languages Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standard 6.2, 7.2, 8.2, 10.2 performance: unacceptable <i>Due to lack of evidence</i>  <i>Conditionally approved due to lack of evidence</i>
<b>Idaho Standards for Online Teachers</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	Standards 7.2, 8.2, 9.2 performance: unacceptable <i>Each marked insufficient due to lack of completers</i>
<b>Idaho Foundation Standards for the Preparation of School Administrators</b>	<input type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	<i>Not reviewed, prerequisite for Special Education Directors</i>

Standards/Program	Recommendation	Notes
<b>Idaho Standards for Special Education Directors</b>	<input type="checkbox"/> Approved <input checked="" type="checkbox"/> Conditionally Approved <input type="checkbox"/> Not Approved	5.1 knowledge, 5.2 performance 10.1 knowledge, 10.2 performance, 12.1 knowledge, 12.2 performance: unacceptable <i>Insufficient evidence and lack of completers</i>  In April 2019, the PSC accepted ISU's rejoinder and voted to move Special Education Director to Conditionally Approved due to insufficient evidence and lack of completers.

**STATE PROGRAM APPROVAL RUBRICS**

The *Idaho Standards for Initial Certification of Professional School Personnel* provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubrics are used to evaluate the extent to which educator preparation programs prepare educators who meet the standards. The rubrics are designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

The rubrics describe three levels of performance: unacceptable, acceptable, and exemplary for each of the Idaho Standards for Initial Certification. The rubrics shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards.

<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<ul style="list-style-type: none"> <li>• <b>The program provides evidence that candidates meet fewer than 75% of the indicators.</b></li> </ul>	<ul style="list-style-type: none"> <li>• The program provides evidence that candidates meet 75%-100% of the indicators</li> <li>• The program provides evidence candidates use assessment results in guiding student instruction (when applicable).</li> </ul>	<ul style="list-style-type: none"> <li>• The program provides evidence that candidates meet 100% of the indicators.</li> <li>• The program provides evidence of the use of data in program improvement decisions.</li> <li>• The program provides evidence of at least three (3) cycles of data of which must be sequential.</li> </ul>

STATE SPECIFIC REQUIREMENTS

IDAHO COMPREHENSIVE LITERACY STANDARDS

**Standard 1: Foundational Literacy Concepts.** *The teacher demonstrates knowledge of the following foundational concepts, including but not limited to: emergent literacy, concepts of print, phonological awareness, alphabetic principle, phonics, word recognition, fluency, linguistic development, English language acquisition, and home-to-school literacy partnerships. In addition, the candidate demonstrates the ability to apply concepts using research-based best practices in lesson planning and literacy instruction. (Applies to the following endorsements: All Subjects K-8, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6, Deaf/Hard of Hearing K-12, Early Childhood Special Education Pre-K-3, Exceptional Child Generalist K-8, 6-12, and K-12, and Visual Impairment K-12)*

**Knowledge**

- 1(a) The teacher understands the importance of developing oral language, phonological awareness, phonemic awareness, and print concepts.
- 1(b) The teacher understands the components of decoding written language, including grade-level phonics and word analysis skills, and their impact on comprehension.
- 1(c) The teacher understands the development of fluency (prosody, rate, and accuracy) and its impact on beginning reading comprehension.

<b>Standard 1 Foundational Literacy Concepts</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.1 Knowledge</b>		X	

**1.1 Analysis** – Course syllabi, including course assignments, rubrics, and guidelines indicate knowledge standards are met for Foundational Literacy Concepts. Reports on pass percentages for different standards of the Idaho Comprehensive Literacy Assessment indicate Standard 1 (Foundational Literacy Concepts) have a lower initial pass rate than Standards 2 and 3.

**Sources of Evidence**

- Course Syllabi (EDUC 3321, 3322)
- Basal Inquiry Report rubrics
- Reports of ICLA
- Case study guideline and rubrics

**Performance**

- 1(d) The teacher plans instruction that includes foundational literacy skills found in the Idaho Content Standards.
- 1(e) The teacher plans instruction to support literacy progression, from emergent to proficient readers, which includes decoding and comprehension skills.

- 1(f) The teacher selects and modifies reading instructional strategies and routines to strengthen fluency.

<b>Standard 1 Foundational Literacy Concepts</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>		X	

**1.2 Analysis** – Course syllabi, including course assignments, rubrics, and guidelines adequately address standards for Foundational Literacy Concepts. Reports on pass percentages for different standards of the Idaho Comprehensive Literacy Assessment indicate Standard 1 (Foundational Literacy Concepts) has a lower initial pass rate than Standards 2 and 3. Course assignments indicate they could demonstrate performance standards via candidate artifacts. The Basal Inquiry Report analyzes how one might use a basal reader to teach reading; however, no lesson plans are included. Evidence of planning for 1d and 1e is not provided. The adaptations portfolio identifies selection and modification of reading instructional strategies and routines for comprehension and, potentially, fluency (1f).

**Sources of Evidence**

- Course Syllabi (EDUC 3321, 3322)
- Basal Inquiry Report
- Reports of ICLA

**Standard II: Fluency, Vocabulary Development and Comprehension. The teacher demonstrates knowledge of fluency, vocabulary development, and reading comprehension strategies. The teacher demonstrates the ability to apply these components by using research-based best practices in all aspects of literacy and/or content area instruction. This includes the ability to: analyze the complexity of text structures; utilize a variety of narrative and informational texts from both print and digital sources; and make instruction accessible to all, including English Language Learners. (Applies to all endorsements that can be added to a Standard Instructional Certificate)**

**Knowledge**

- 2(a) The teacher knows the characteristics of the various genres and formats of children’s and adolescent literature.
- 2(b) The teacher recognizes the importance of using a variety of texts and formats to enhance students’ understanding of topics, issues, and content.
- 2(c) The teacher understands text complexity and structures and the importance of matching texts to readers.
- 2(d) The teacher understands how to use instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.
- 2(e) The teacher understands how to use instructional strategies to promote vocabulary development for all students, including English language learners.
- 2(f) The teacher understands how a student’s reading proficiency, both oral and silent, affects comprehension.

<i>Standard 2 Fluency, Vocabulary, Development, and Comprehension</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.1 Knowledge</i>		X	

**2.1 Analysis** – Course syllabi and pass scores on ICLA reports serve as acceptable evidence for knowledge standards for Standard 2, Fluency, Vocabulary, Development, and Comprehension. Interviews with candidates also indicated they practiced writing lesson plans for literacy concepts and were observed in early field experiences.

**Sources of Evidence**

- Course Syllabi (EDUC 3322, 4419)
- Pass Scores on ICLA
- Interviews

**Performance**

- 2(g) The teacher identifies a variety of high-quality literature and texts within relevant content areas.
- 2(h) The teacher can develop lesson plans that incorporate a variety of texts and resources to enhance students’ understanding of topics, issues, and content.
- 2(i) The teacher can analyze texts to determine complexity in order to support a range of readers.
- 2(j) The teacher selects and utilizes instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.
- 2(k) The teacher selects and utilizes instructional strategies to promote vocabulary development for all students, including English language learners.
- 2(l) The teacher uses oral and silent reading practices selectively to positively impact comprehension.

<i>Standard 2 Fluency, Vocabulary, Development, and Comprehension</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.2 Performance</i>		X	

**2.2 Analysis** – Candidate pass rates indicated on ICLA reports run in Taskstream demonstrate meeting performance standards for ICLS 2. Course assignments, such as the annotated bibliography, indicate candidates are asked to review multiple text genres and instructional strategies. The lesson plans and reflections provided for Standard 2 indicate performance standards for vocabulary.

**Sources of Evidence**

- Story Hour 2 PowerPoint slides with lesson plan, reflection and differentiation for English Language Learners provided
- Adaptations Portfolio
- Interviews with Candidates

**Standard III: Literacy Assessment Concepts. The teacher understands, interprets, and applies informal and formal literacy assessment concepts, strategies, and measures. The teacher uses assessment data to inform and design differentiated literacy instruction. In addition, the teacher demonstrates the ability to use appropriate terminology in communicating pertinent assessment data to a variety of stakeholders. (Applies to the following endorsements: All Subjects K-8, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6, Deaf/Hard of Hearing K-12, Early Childhood Special Education Pre-K-3, and Exceptional Child Generalist K-8, 6-12, and K-12, and Visual Impairment K-12)**

**Knowledge**

- 3(a) The teacher understands terms related to literacy assessment, analysis, and statistical measures.
- 3(b) The teacher understands types of formal, informal, formative, summative, and diagnostic literacy assessments, their uses, appropriate administration, and interpretation of results across a range of grade levels.
- 3(c) The teacher understands how to choose appropriate literacy assessments to determine the needs of the learner.
- 3(d) The teacher understands how to use literacy assessment results to inform and guide intervention processes.
- 3(e) The teacher knows how to measure and determine students’ independent, instructional, and frustration reading levels.
- 3(f) The teacher understands Idaho state-specific literacy assessments and related proficiency levels.

<b>Standard 3 Literacy Assessment Concepts</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.1 Knowledge</b>		X	

**3.1 Analysis** – Course syllabi and ICLA scores indicate Standard 3 Literacy Assessment Concepts are met. Interviews with mentor teachers indicate candidates practice Idaho Reading Indicator assessments and progress monitoring in field experiences.

**Sources of Evidence**

- Course syllabi (EDUC 3322, 4419)
- ICLA Scores
- Interviews

**Performance**

- 3(g) The teacher appropriately selects, administers, and interprets results of a variety of formal, informal, formative, summative, and diagnostic literacy assessments.
- 3(h) The teacher utilizes literacy assessment results to inform and guide intervention processes.
- 3(i) The teacher can measure and determine students’ independent, instructional, and frustration reading levels.
- 3(j) The teacher utilizes Idaho state-specific literacy assessments and related proficiency levels to inform planning and instruction.

<i><b>Standard 3 Literacy Assessment Concepts</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>3.2 Performance</b></i>	X		

**Analysis** – Assignments and rubrics from EDUC 4419 indicate performance standards are addressed for literacy assessment. Candidates complete a case study assignment engaging in reading diagnosis and assessment. Mentor teachers indicate candidates do practice with “state-specific literacy assessments.” Adaptations portfolio artifacts indicate candidates could suggest different strategies for differentiating instruction; however, these are not connected directly to “literacy assessment results.” Minimal evidence was provided for 3g “The teacher appropriately selects, administers, and interprets results of a variety of formal, informal, formative, summative, and diagnostic literacy assessments” as these lesson plans and adaptations were created as conjecture and no evidence was provided for authentic implementation (and evaluation) in a field experience setting.

**Sources of Evidence**

- Adaptations Portfolio
- EDUC 4401 and 4419 assignment

**Summary**

<b>Type of Standard</b>	<b>Total Number of Standards</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Knowledge</b>	3	0	3	0
<b>Performance</b>	3	1	2	0

**Areas for Improvement**

- More attention to Standard III, Indicator 3g (selecting, administering, and interpreting assessments), would provide evidence for meeting diagnostic literacy assessment practices.

**Recommended Action on Idaho Comprehensive Literacy Standards**

- Approved
- Conditionally Approved

**CONSENT  
JUNE 20, 2019**

**ATTACHMENT 1**

- Insufficient Evidence
- Lack of Completers
- New Program
  
- Not Approved

PRE-SERVICE TECHNOLOGY STANDARDS

ISTE STANDARDS FOR TEACHERS

Effective teachers model and apply the ISTE Standards for Students (Standards•S) as they design, implement, and assess learning experiences to engage students and improve learning; enrich professional practice; and provide positive models for students, colleagues, and the community. All teachers should meet the following standards and performance indicators.

1. **Facilitate and inspire student learning and creativity - Teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, creativity, and innovation in both face-to-face and virtual environments.**
  - a. Promote, support, and model creative and innovative thinking and inventiveness
  - b. Engage students in exploring real-world issues and solving authentic problems using digital tools and resources
  - c. Promote student reflection using collaborative tools to reveal and clarify students' conceptual understanding and thinking, planning, and creative processes
  - d. Model collaborative knowledge construction by engaging in learning with students, colleagues, and others in face-to-face and virtual environments

<i>Standard 1</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<b><i>Facilitate and Inspire Student Learning and Creativity</i></b>		X	

**Standard 1 Analysis** – EDUC 3311 Syllabus and assignment descriptions with rubrics and guidelines demonstrate Standard 1 Facilitate and Inspire Student Learning and Creativity are addressed in coursework. Interviews with candidates, completers, supervisors and mentor teachers indicated ISU candidates are well-prepared for preparing instructional activities supported by technology. Candidate work artifacts demonstrate candidate reflection and attention to each ISTE Standard.

**Sources of Evidence**

- EDUC 3311 Syllabus
  - EDUC 3311 assignments and rubrics/guidelines
  - ISTE Project Rubric; Webquest Rubric; Virtual Group Assignments
  - Performance reports by standard indicate 1b and 1c are 64% and 69% respectively
  - Tech Portfolios from 3311
2. **Design and develop digital age learning experiences and assessments-Teachers design, develop, and evaluate authentic learning experiences and assessments incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the Standards.**

- a. Design or adapt relevant learning experiences that incorporate digital tools and resources to promote student learning and creativity
- b. Develop technology-enriched learning environments that enable all students to pursue their individual curiosities and become active participants in setting their own educational goals, managing their own learning, and assessing their own progress
- c. Customize and personalize learning activities to address students’ diverse learning styles, working strategies, and abilities using digital tools and resources
- d. Provide students with multiple and varied formative and summative assessments aligned with content and technology standards, and use resulting data to inform learning and teaching

<i>Standard 2</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>Design and develop digital age learning experiences and assessments</i>		X	

**Standard 2 Analysis** – EDUC 3311 Syllabus and assignment descriptions with rubrics and guidelines demonstrate that Standard 2 Design and develop digital age learning experiences and assessments are addressed in coursework. Interviews with supervisors and mentor teachers indicated ISU candidates plan lessons with technology (including assessments) in their student teaching field experiences. Candidate work artifacts demonstrate candidate reflection and attention to each ISTE Standard.

**Sources of Evidence**

- 3311 Webquest assignment
- 3311 Tech portfolios
- Interviews with candidates, completers, and mentor teachers

**3. Model digital age work and learning - Teachers exhibit knowledge, skills, and work processes representative of an innovative professional in a global and digital society.**

- a. Demonstrate fluency in technology systems and the transfer of current knowledge to new technologies and situations
- b. Collaborate with students, peers, parents, and community members using digital tools and resources to support student success and innovation
- c. Communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital age media and formats
- d. Model and facilitate effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources to support research and learning

<i>Standard 3</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>Model digital age work and learning</i>		X	

**Standard 3 Analysis** – EDUC 3311 Syllabus and assignment descriptions with rubrics and guidelines demonstrate that Standard 3 Model digital age work and learning are addressed in coursework. Interviews with candidates, completers, supervisors and mentor teachers indicated ISU candidates implement technology-based lessons in their student teaching placements. Candidate work artifacts demonstrate candidate reflection and attention to each ISTE Standard.

**Sources of Evidence**

- Weebly website examples for communicating with students, peers, parents, and community members
- Candidate discussion forums during 3311 coursework
- 3311 syllabus and rubrics/guidelines

**4. Promote and model digital citizenship and responsibility - Teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices.**

- a. Advocate, model, and teach safe, legal, and ethical use of digital information and technology, including respect for copyright, intellectual property, and the appropriate documentation of sources
- b. Address the diverse needs of all learners by using learner-centered strategies providing equitable access to appropriate digital tools and resources
- c. Promote and model digital etiquette and responsible social interactions related to the use of technology and information
- d. Develop and model cultural understanding and global awareness by engaging with colleagues and students of other cultures using digital age communication and collaboration tools

<i>Standard 4</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>Promote and model digital citizenship and responsibility</i>		X	

**Standard 4 Analysis** – EDUC 3311 Syllabus and assignment descriptions with rubrics and guidelines demonstrate Standard 4 Promote and model digital citizenship and responsibility are addressed in coursework. Candidate interviews indicated Assistive Technology coursework and assignments addresses how to meet diverse needs of all learners. Candidate work artifacts demonstrate candidate reflection and attention to each ISTE Standard. Minimal attention is paid global awareness by engaging with colleagues and students of other cultures using digital age communication and collaboration tools.

**Sources of Evidence**

- 3311 Portfolios
- 3311 Syllabus, Rubrics, Guidelines
- Taskstream analysis reports of scores per standards

**5. Engage in professional growth and leadership - Teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community by promoting and demonstrating the effective use of digital tools and resources.**

- a. Participate in local and global learning communities to explore creative applications of technology to improve student learning
- b. Exhibit leadership by demonstrating a vision of technology infusion, participating in shared decision making and community building, and developing the leadership and technology skills of others
- c. Evaluate and reflect on current research and professional practice on a regular basis to make effective use of existing and emerging digital tools and resources in support of student learning
- d. Contribute to the effectiveness, vitality, and self-renewal of the teaching profession and of their school and community

<b>Standard 5</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Engage in professional growth and leadership</b>		X	

**Standard 5 Analysis** – EDUC 3311 Syllabus and assignment descriptions with rubrics and guidelines demonstrate Standard 5 Engage in professional growth and leadership are addressed in coursework. Reflections in the portfolios indicate specific attention to leadership and research for growth in professional practice. Self-renewal is evident in candidate artifacts. Interviews indicate candidates are well-prepared and exhibit leadership in technology pedagogy. Candidate work artifacts demonstrate candidate reflection and attention to each ISTE Standard.

**Sources of Evidence**

- 3311 Portfolio reflections
- 3311 discussion board forums
- Syllabus
- Interviews

**Summary**

<b>Summary</b>	<b>Total Number of Standards</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Pre-Service Technology Standards</b>	5	0	5	0

**Areas for Improvement**

- Interviews with mentor teachers indicate teacher candidates and completers are very well-prepared to use technology in their teaching and professional activities. A potential area for attention in the program is having a “back-up plan” for when instructional technology fails in the classroom due to technical difficulties.

**Recommended Action on Pre-Service Technology Standards**

- Approved
- Conditionally Approved
  - Insufficient Evidence
  - Lack of Completers
  - New Program
- Not Approved

IDAHO STANDARDS FOR MODEL PRESERVICE STUDENT TEACHING EXPERIENCE

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The Idaho Standards for Model Preservice Student Teaching Experience are the standards for a robust student teaching experience for teacher candidates. Every teacher preparation program is responsible for ensuring a student teaching experience that meets the standards.

**Standard 1: Mentor Teacher. The mentor teacher is the certified P-12 personnel responsible for day-to-day support of the student teacher in the student teaching experience.**

- 1(a) The mentor teacher is state certified to teach the content for which the candidate is seeking endorsement.
- 1(b) The mentor teacher has a minimum of three years of experience teaching in the content area(s) for which the student teacher is seeking endorsement.
- 1(c) The mentor teacher demonstrates effective professional practice and evidence of dispositions of a professional educator, as recommended by the principal.
- 1(d) The mentor teacher is committed to mentor, co-plan, co-assess, and co-teach with the student teacher.
- 1(e) The mentor teacher is co-selected, prepared, evaluated, supported, and retained.
- 1(f) The experienced mentor teacher receives positive candidate and EPP supervisor evaluations.

<i>Standard 1</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>Mentor Teacher</i>		X	

**Standard 1 Analysis** – Institutional documents and a mentor teacher survey demonstrate that indicators 1a through 1c are met. Interview with Field Experience Supervisor indicates initial contact with administrators listing these requirements is the first step while the follow-up survey confirms these attributes are met. Interviews with mentor teachers and supervisors indicate there are different levels of co-planning and co-teaching. Mentor teachers do conduct observations and provide feedback on candidate teaching. The mentor teachers are not evaluated by candidates.

**Sources of Evidence**

- Mentor Teacher Survey
- Placement Request Email to Principals
- Interviews

**Standard 2: Educator Preparation Program (EPP) Supervisor. The EPP supervisor is any individual in the institution responsible for observation/evaluation of the teacher candidate.**

- 2(a) The EPP supervisor has P-12 education certified field experience.
- 2(b) The EPP supervisor proves proficiency in assessing teacher performance with ongoing rater reliability.
- 2(c) The experienced EPP supervisor receives positive candidate and school professional evaluations.
- 2(d) The EPP supervisor demonstrates evidence of dispositions of a professional educator.

<b>Standard 2</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Educator Preparation Program (EPP) Supervisor</b>	X		

**Standard 2 Analysis** – Institutional documents (e.g., supervisor survey) indicate teaching experience is required. Interviews with supervisors and Director indicate “proficiency in assessment of teacher performance with ongoing rater reliability” are not present requirements for EPP supervisors. A plan for moving forward in meeting this standard is being outlined. EPP supervisor interviews indicate they do receive some feedback from candidate evaluations. Systems for documenting Standard 2 requirements are being discussed and should be in place in near future.

**Sources of Evidence**

- Interviews with candidates and supervisors
- Institutional documents
- Interview with Director of Field Experiences

**Standard 3: Partnership.**

- 3(a) The P-12 school and EPP partnership supports the cooperating teacher in his/her duties of mentorship.
- 3(b) The collaboration between P-12 school and EPP supports the conceptual framework of the institution.

<b>Standard 3</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Partnership</b>		X	

**Standard 3 Analysis** – Mentor teachers indicate they receive support from EPP representatives in their work. There is evidence of shared observations in files where mentor teachers and supervisors work together. An interview with the Director of Field Experiences indicates full-day seminars where candidates engage in development in ideas connected to school district focus areas (e.g., trauma and resilience). The Director also visits each placement classroom to provide support to mentor teachers and candidates. There is limited evidence connected to partnership systems and structures being in place to sustain activities or connected to the conceptual framework.

**Sources of Evidence**

- Interview with Director
- Interview with Mentor Teachers
- Notes from a partner meeting

**Standard 4: Student Teacher. The student teacher is the candidate in the culminating clinical field experience.**

- 4(a) Passed background check
- 4(b) Competency in prior field experience
- 4(c) Passed all required Praxis tests
- 4(d) Completion of all relevant coursework
- 4(e) Possesses dispositions of a professional educator

<b>Standard 4</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Student Teacher</b>		X	

**Standard 4 Analysis** – Interviews with candidates, the Director, and a review of candidate files indicate 4a – 4e requirements are being met. Institutional Recommendation Audit indicates Praxis assessments are passed prior to student teaching. The Director interviews all candidates individually before placing them for student teaching, and there is an interview with dispositional criteria to be formally admitted to Teacher Education.

**Sources of Evidence**

- Interview with candidates
- Interview with Director
- Review of candidate files

**Standard 5: Student Teaching Experience**

- 5(a) At least three documented, scored observations including pre- and post-conferences by the EPP supervisor, using the approved state teacher evaluation framework
- 5(b) At least three formative assessments by the mentor teacher
- 5(c) One common summative assessment based on state teacher evaluation framework
- 5(d) Performance assessment including influence on P-12 student growth
- 5(e) Recommended minimum 14 weeks student teaching
- 5(f) Development of an Individualized Professional Learning Plan (IPLP)
- 5(g) Demonstration of competence in meeting the *Idaho Standards for Initial Certification of Professional School Personnel*
- 5(h) Relevant preparatory experience for an Idaho teacher’s certificate

<i>Standard 5</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>Student Teaching Experience</i>		X	

**Standard 5 Analysis** – Candidate files hold multiple observations from mentor teachers and supervisors. There are 10 observations required over the course of 13 weeks of student teaching. Interviews with candidates, supervisors and the Director indicate a common summative assessment, Individualized Professional Learning Plan, and influence on student learning are all documented in student teaching. 5g will be evidenced through this process per individual programs.

**Sources of Evidence**

- Candidate files
- Interview with Director
- Interview with candidates and supervisors

**Summary**

Summary	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Model Preservice Student Teaching Experience Standards	5	1	4	0

**Areas for Improvement**

- Creation of a plan for “proficiency in assessing teacher performance with ongoing rater reliability” for all EPP supervisors.
- Documentation of “proficiency” for all EPP supervisors meeting teacher observation/evaluation state requirements.
- Creation of system for candidate and school professional evaluations of supervisors.

**Recommended Action on Model Preservice Student Teaching Experience Standards**

- Approved
- Conditionally Approved
  - Insufficient Evidence
  - Lack of Completers
  - New Program
- Not Approved

**INSTITUTIONAL RECOMMENDATIONS**

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

Idaho educator preparation programs complete an Institutional Recommendation to the State Department of Education verifying that the candidate has met all the requirements as defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

***Standard 1: State Board Approved Program - Educator preparation program had a State Board approved program for initial certification for each area of endorsement indicated on candidate’s institutional recommendation.***

<b><i>Standard 1</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>State Board Approved Program</i></b>		X	

***Standard 1 Analysis*** – All areas of endorsement indicated on the randomly selected institutional recommendations were State Board approved preparation program areas. There were a total of four (4) institutional recommendations for mathematics, of which two (2) were for grades 6-12. Both did not include the minimum 20 credit requirement in mathematics, and one (1) did not include the requirement of second year calculus.

***Standard 2: Content Knowledge Assessment – Recommended candidate received passing scores on State Board approved content area assessment for each recommended area of endorsement.***

<b><i>Standard 2</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>Content Knowledge Assessment</i></b>		X	

***Standard 2 Analysis*** – Ninety-three percent (93%) of the institutional recommendations provided evidence the candidate passed the State Board approved content area assessment. One institutional recommendation did not include the corresponding history assessment, and one included the incorrect mathematics assessment.

**Standards 3: Pedagogy – Recommended candidate demonstrated competency in pedagogy for each recommended area of endorsement.**

<b>Standard 3</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Pedagogy</b>		X	

**Standard 3 Analysis** – Eighty four (84%) of the institutional recommendations provided evidence the candidate completed a methods course in all areas of endorsement. Elementary math methods was used for candidates completing the Mathematics - Basic (5-9) in conjunction with an All Subjects (K-8) endorsements. Candidates completing a Mathematics (6-12) did not complete any math methods coursework. IDAPA Rule requires at least two (2) semester credits must be focused on secondary mathematics pedagogy for all mathematics endorsements. Institutional recommendations included a common summative assessment indicating competency in pedagogy of the area of endorsements.

**Standard 4: Performance Assessment – Recommended candidate received a basic or higher rating in all components of the approved Idaho framework for teaching evaluation.**

<b>Standard 4</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Performance Assessment</b>		X	

**Standard 4 Analysis** – Random selection of institutional recommendations included common summative assessments with a basic or higher rating in all components.

**Standard 5: Clinical Experience – Recommended candidate completed clinical experience for each recommended area of endorsement and grade range.**

<b>Standard 5</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Clinical Experience</b>		X	

**Standard 5 Analysis** – Approximately sixty-five percent (65%) of randomly selected institutional recommendations included evidence that candidates completed clinical experience in all areas of endorsements. Majority of the lack of evidence was from the additional content area for elementary candidates; there was evidence for the elementary placement, but not evidence for the specific 5-9 grade level endorsement. All randomly selected institutional recommendations had at least one clinical experience based on their endorsements.

**Standard 6: Student Achievement – Recommended candidate demonstrated the ability to produce measurable student achievement or student success and create student learning objectives.**

<b>Standard 6</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Student Achievement</b>		X	

**Standard 6 Analysis** – Evidence provided that candidates have the ability to produce measurable student achievement/success and create student learning objectives for those candidates whose information was stored in Taskstream.

**Standard 7: Individualized Professional Learning Plan – Recommended candidate had an individualized professional learning plan (IPLP).**

<b>Standard 7</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Individualized Professional Learning Plan</b>		X	

**Standard 7 Analysis** – Random selection of institutional recommendations included individual professional learning plan.

**Standard 8: Adding Endorsements Only – Educator preparation program issued institutional recommendation once the content, pedagogy, and performance had been demonstrated by the candidate for each area of endorsement. For candidates that are adding endorsements, the program is not required to be a State Board approved program for initial certification.**

<b>Standard 8</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Adding Endorsement Only</b>		X	

**Standard 8 Analysis** – All areas of endorsement indicated on the randomly selected institutional recommendations, including adding endorsements, were approved preparation program areas by the State Board of Education.

**Standard 9: Administrator Certificates Only – Recommended candidate for an administrator certificate demonstrated proficiency in conducting accurate evaluations of instructional practice based upon the state’s framework for evaluation.**

<b>Standard 9</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Administrator Certificates Only</b>	X		

**Standard 9 Analysis** – Randomly selected institutional recommendations for administrators included training in conducting evaluations. There is no evidence that the administrators have demonstrated proficiency. This is an area that the program will need to develop in order to include evidence that administrator candidates are proficient.

**Summary**

	<b>Total Number of Standards</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Institutional Recommendations</b>	9	1	8	0

**Areas for Improvement**

- Include a secondary mathematics methods course to all mathematics endorsements, including grade 5-9 and 6-12 in order to meet IDAPA Rule.
- Include a process for measuring proficiency in administrator ability to conduct teacher evaluations based on the statewide framework for evaluation.

**Recommended Action on Institutional Recommendations**

- Approved
- Conditionally Approved
  - Insufficient Evidence
  - Lack of Completers
  - New Program
- Not Approved

## IDAHO STANDARDS FOR BILINGUAL EDUCATION AND ENGLISH AS A NEW LANGUAGE (ENL) TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual-ENL Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim*

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.***

### **Knowledge**

1. The teacher understands the evolution, research, and current federal and state legal mandates of bilingual and ENL education.
2. The teacher understands and knows how to identify differences and the implications for implementation in bilingual and ENL approaches and models.
3. The teacher understands and is able to distinguish between forms, functions, and contextual usage of social and academic language.
4. (Bilingual only) The teacher possesses language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading and writing in English and the second target language necessary to facilitate learning in the content area(s) (Federal Requirement).
5. (ENL only) The teacher possesses the language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading, and writing, in English necessary to facilitate learning of academic language in the content area(s) (Federal Requirement).

6. (Bilingual only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of both English and the second target language.
7. (ENL only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of the English language.

<i>Standard 1 Knowledge of Subject Matter</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>1.1 Knowledge</i>		x	

**1.1 Analysis** – Candidates have knowledge and understanding of key components and structure found in a language rich environment as demonstrated by documentation of course realignment by education department and stakeholders, autonomy candidates have to structure course sequence for the endorsement as needed, and evidence listed on syllabi for variety of assignments,

**Sources of Evidence**

- Changes made to course list for English as a New Language endorsement program (copy of Google document and meeting minutes)
- Assignments listed on syllabi (Linguistic Forum, Linguistics Reading Groups, field reports)
- Assignments designed for understanding language rich environments (reading, writing, listening and speaking)

**Performance**

1. (Bilingual only) The teacher articulates in key linguistic structures and exposes students to the various registers, dialects, and idioms of English and the second target language.
2. (ENL only) The teacher is articulate in key linguistic structures and exposes students to the various registers, dialects, and idioms of the English language.
3. The teacher uses knowledge of language and content standards and language acquisition theory content areas to establish goals, design curricula and instruction, and facilitate student learning in a manner that builds on students’ linguistic and cultural diversity.
4. The teacher demonstrates instructional strategies that an understanding of the variety of purposes that languages serve, distinguish between forms, functions, and contextual usage of social and academic language.
5. The teacher designs and implements activities that promote inter-cultural exploration, engaged observation, listening, speaking, reading, and writing.

<b>Standard 1 Knowledge of Subject Matter</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>		<b>X</b>	

**1.2 Analysis** – Candidates are given a variety of opportunities to conduct interviews with parents and English Language teachers in a variety of settings. Candidates demonstrate knowledge and understanding of instructional strategies by creating lessons taught in schools.

**Sources of Evidence**

- Syllabus indicates candidate creates and teaches lesson plans after observing English Language Learners
- Evidence of candidate work sample of observations conducted in schools and experience reflection
- Culture and community interview assignment

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Knowledge**

1. The teacher understands the processes of language acquisition and development, and the role that culture plays in students’ educational experiences.
2. The teacher understands the advantages of bilingualism, biliteracy, and multiculturalism.

<b>Standard 2 Knowledge of Human Development and Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>		<b>X</b>	

**2.1 Analysis** – Syllabi and assignment criteria demonstrate that candidates have knowledge and understanding of how students learn and develop the process of second language acquisition, and the advantages of bilingualism and biliteracy.

**Sources of Evidence**

- Syllabi: Linguistic Reading Groups assignment/Linguistic Forum
- Syllabi: ESL textbook evaluation assignment and rubric
- Literature Review assignment

**Performance**

1. The teacher plans and delivers instruction using knowledge of the role of language and culture in intellectual, social, and personal development.

2. The teacher integrates language and content instruction appropriate to the students’ stages of language acquisition.
3. The teacher facilitates students’ use of their primary language as a resource to promote academic learning and further development of the second language.
4. The teacher uses effective strategies and approaches that promote bilingualism, biliteracy, and multiculturalism.

<b>Standard 2 Knowledge of Human Development and Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.2 Performance</b>		X	

**2.2 Analysis** – There is acceptable evidence that candidates observe and teach lessons during practicum experiences. Reflections after these observations indicate a depth of understanding of the way culture influences learning a second language.

**Sources of Evidence**

- Syllabus lists requirement for lesson plan design and teaching
- Course-standard Alignment Matrix: (Knowledge and Performance)
- Candidate reflection includes evidence of observation and evaluation of student learning
- Candidate lesson plan and reflection in English Learner Profile assignment
- Cooperating teacher and university supervisor evaluations using Danielson and WiDA framework.

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.**

**Knowledge**

1. The teacher understands the nuances of culture in structuring academic experiences.
2. The teacher understands how a student’s first language may influence second language production (ex: accent, code-switching, inflectional endings).
3. The teacher understands there is a distinction between learning disabilities/giftedness and second language development.
4. The teacher understands how and when to provide appropriate accommodations that allow students to access academic content.

<b>Standard 3 Modifying Instruction for Individual Needs</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.1 Knowledge</b>		X	

**3.1 Analysis** – Evidence from course syllabi, assignments from core education courses, and an interview with the English language program coordinator indicates that candidates understand the distinctions between identification processes and appropriate accommodations/scaffolding for both English Language Learners and special education students.

**Sources of Evidence**

- Interview with ISU English Language Learner program coordinator who described in-class discussions and lecture with candidates about the distinction between special education and English Learner identification
- Assignment identifying the distance between a first language and learning a second language and how culture can influence the distance between the two
- UDL lesson plan identifying the distinction between accommodations written for special education students and English language learners

**Performance**

1. The teacher promotes respect for diverse cultures by facilitating open discussion, treating all students equitably, and addressing individual student needs.
2. The teacher utilizes strategies that advance accuracy in students’ language production and socio- culturally appropriate usage with an understanding of how these are influenced by the first language.
3. The teacher collaborates with other area specialists to distinguish between issues of learning disabilities/giftedness and second language development.
4. The teacher provides appropriate accommodations that allow students to access academic content.

<b>Standard 3 Modifying Instruction for Individual Needs</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.2 Performance</b>		X	

**3.2 Analysis** – Evidence indicates that candidates develop relationships with cooperating teachers, community members, parents, and students to develop an understanding of how culture can influence learning a second language.

**Sources of Evidence**

- English Language Learner coordinator interview discussing course assignments
- Field experiences including candidate interviewing community members and parents of students from diverse cultures
- Field experiences including 40 hours of practicum experience in schools with diverse learning populations. Field experiences can include teaching two or more lessons to English language learners

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.**

**Knowledge**

1. The teacher knows how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.
2. The teacher has a repertoire of effective strategies that promote students' critical thinking and problem solving at all stages of language development.

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		<b>X</b>	

**4.1 Analysis** – Syllabi and a variety of course assignments, especially in methods and cultural diversity courses, indicate that candidates have knowledge of adaptation processes to curriculum and technology resources.

**Sources of Evidence**

- English as a Second Language textbook review assignment.
- Software evaluation assignment
- Understanding WiDA (standards for language learners) standards assignment

**Performance**

1. The teacher selects, adapts, creates and uses varied culturally and linguistically appropriate resources related to content areas and second language development.
2. The teacher employs a repertoire of effective strategies that promote students' critical thinking and problem solving at all stages of language development.

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – Faculty interview, candidate lesson plans, and syllabi demonstrate that candidates are able to apply strategies used to support English Language Learners.

**Sources of Evidence**

- Candidates develop lessons during practicum experience to teach to English Language Learners
- Interview with English Language Learner program coordinator who shared strategies taught to candidates and integrated into lesson plans taught during practicum experience
- Candidate evidence of integration of language rich strategies to support English Language Learners

**Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

**Knowledge**

1. The teacher understands the influence of culture on student motivation and classroom management.

<b>Standard 5 Classroom Motivation and Management Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>		X	

**5.1 Analysis** – The program provides acceptable evidence throughout coursework assignments that candidates have a good understanding of how culture influences motivation in a K-12 classroom setting.

**Sources of Evidence**

- English Language Learner candidate Philosophy Paper indicating specifics on how culture can influence student progress
- Candidate classroom observations
- Informed Belief Statement on Diversity assignment

**Performance**

1. The teacher demonstrates a culturally responsive approach to classroom management.

<b>Standard 5 Classroom Motivation and Management Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.2 Performance</b>		X	

**5.2 Analysis** – The program provides acceptable evidence that candidates understand the importance of being culturally responsive when planning classroom management techniques.

**Sources of Evidence**

- Candidate reflection paper written after observation experience discussing teacher interviews and classroom environment
- Candidate discusses student adaptability to regular classroom instruction
- Cooperating teacher disposition evaluation of candidate

**Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.**

**Knowledge**

1. The teacher understands that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.
2. The teacher understands how to design active and interactive activities that promote proficiency in the four domains of language.
3. The teacher understands the extent of time and effort required for language acquisition.

<b>Standard 6 Communication Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.1 Knowledge</b>		X	

**6.1 Analysis** – The program provides acceptable evidence of the four modalities of a language rich environment throughout course curriculum.

**Sources of Evidence**

- Course syllabi
- Interview with English Language Learner program coordinator of course discussions and lectures given to candidates
- Candidate demonstrate knowledge of the distance between learning a first and second language on class assignments

**Performance**

1. The teacher demonstrates competence in facilitating students’ acquisition and use of language in listening, speaking, reading, and writing for social and academic purposes.
2. The teacher uses active and interactive activities that promote proficiency in the four domains of language.
3. The teacher communicates to students, their families, and stakeholders the extent of time and effort required for language acquisition.

<i>Standard 6 Communication Skills</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>6.2 Performance</i>		X	

**6.2 Analysis** – The program provides some evidence of candidate understanding of facilitating students’ acquisition through lesson plans and candidate reflections, stakeholder interviews, and student data. Evidence was lacking in the area of using active and interactive activities to promote student learning.

**Sources of Evidence**

- Community and parent interviews conducted by candidate
- Pre-post student data taken by candidate
- Candidate lesson plan reflection

**Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.**

**Knowledge**

1. The teacher understands how to incorporate students’ diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

<i>Standard 7 Instructional Planning Skills</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>7.1 Knowledge</i>		X	

**7.1 Analysis** – Candidate work shows evidence of how to take into consideration students’ diverse cultural backgrounds and support instruction utilizing specific strategies for English Language Learners.

**Sources of Evidence**

- English Language Development Standard (WiDA) assignments
- Class discussion and assignments focused on Basic Interpersonal Communicative Skills (BICS) and Cognitive Academic Language Proficiency (CALP) along with relationship between first language (L1) and second language (L2)
- Candidate observation during multicultural assignment

**Performance**

1. The teacher creates and delivers lessons that incorporate students’ diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

<i><b>Standard 7 Instructional Planning Skills</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>7.2 Performance</b></i>		<b>X</b>	

**7.2 Analysis** – The EPP provides acceptable evidence that candidates deliver lesson plans in a K-12 setting.

***Sources of Evidence***

- Disposition evaluations done by cooperating teachers on candidates after practicum hours are finished
- English Learner profile assignment
- Lesson plans taught by candidate and indicated on course matrix

***Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.***

**Knowledge**

1. The teacher understands variations in assessment of student progress that may be related to cultural and linguistic differences.
2. (Bilingual only) The teacher understands how to measure students’ level of English language proficiency and second target language proficiency.
3. (ENL only) The teacher understands how to measure the level of English language proficiency.
4. The teacher understands the relationship and difference between levels of language proficiency and students’ academic achievement.
5. The teacher is familiar with the state English language proficiency assessment.
6. The teacher knows how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students’ families, and to colleagues.
7. The teacher understands appropriate accommodations for language learners being tested in the content areas.
8. The teacher understands how to use data to make informed decisions about program effectiveness.

<i>Standard 8 Assessment of Student Learning</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>8.1 Knowledge</i>		X	

**8.1 Analysis** – The EPP provides sufficient evidence of how candidates are taught to use WiDA (World-Class Instructional Design and Assessment) state specific English Language Learner standards and assessment, instructional strategies that help to scaffold learning for English learners, and how to assess areas including reading, writing, listening, and speaking.

**Sources of Evidence**

- Course assignments focused on state specific English Language Learner standards
- Pre and post assessment data
- Syllabi indicating how to write accommodations for English learners

**Performance**

1. The teacher selects and administers assessments suited to the students’ culture, literacy and communication skills.
2. The teacher uses a combination of observation and other assessments to make decisions about appropriate program services for language learners.
3. The teacher uses a combination of assessments that measure language proficiency and content knowledge respectively to determine how level of language proficiency may affect the demonstration of academic performance.
4. The teacher uses appropriate accommodations for language learners being tested in the content areas.
5. The teacher uses data to make informed decisions about program effectiveness.

<i>Standard 8 Assessment of Student Learning</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>8.2 Performance</i>		X	

**8.2 Analysis** – Acceptable evidence was provided by the EPP to demonstrate that candidates use assessment when instructing English Language Learners.

**Sources of Evidence**

- Candidate lesson plans
- Cooperating and university supervisor evaluations
- Portfolio assignment

**Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.**

**Knowledge**

1. The teacher understands the necessity of maintaining an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction.

<b>Standard 9 Professional Commitment and Responsibility</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – The EPP provided evidence of candidates continuing to learn and grow through first-hand experiences required during course work. This included but was not limited to volunteering for community events related to cultural experiences, observation hours in schools, collaboration with cooperating teachers to support English learners, and parent interviews. A variety of course assignments helped candidates recognize the complexity of supporting English learners with understanding the importance of developing ongoing relationships with families, communities, and other stakeholders.

**Sources of Evidence**

- Syllabi
- Observation hours connected to courses and practicum experience
- Portfolio assignment

**Performance**

1. The teacher maintains an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction.

<b>Standard 9 Professional Commitment and Responsibility</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>	X		

**9.2 Analysis**– The endorsement program has had a limited number of completers at time of review. In an interview, a professor from World Languages indicated she had taken courses from the education department and has changed coursework because of this experience. No other evidence was available from alumni, completers, or candidates.

**Sources of Evidence**

- Faculty interview

**Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.**

**Knowledge**

1. The teacher understands the benefits of family and community involvement in students' linguistic, academic, and social development.
2. The teacher understands the necessity of collegiality and collaboration to promote opportunities for language learners.

<b>Standard 10 Partnerships</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.1 Knowledge</b>		<b>X</b>	

**10.1 Analysis** – The EPP provided considerable evidence of the importance of investing in community stakeholders when supporting English learners. A focus is placed on the way in which the culture influences the way an English Language Learns.

**Sources of Evidence**

- Portfolio assignment
- Community experiences and parent interviews
- Observation hours spent in schools and participation in community cultural events

**Performance**

1. The teacher creates family and community partnerships that promote students' linguistic, academic, and social development.
2. The teacher collaborates with colleagues to promote opportunities for language learners.
3. The teacher assists other educators and students in promoting cultural respect and validation of students' and families' diverse backgrounds and experiences.

<b>Standard 10 Partnerships</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.2 Performance</b>		<b>X</b>	

**10.2 Analysis** – Candidates are required to spend observation hours within the community. Candidates interview parents, meet with community members, attend public school board meetings, volunteer at a local food bank, teach and support English learners, and meet with cooperating teachers.

**Sources of Evidence**

- Interviews
- Observation hours
- Practicum requirements

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	10	0	10	0
Performance	10	1	9	0

**Areas for Improvement**

- It could be beneficial for education faculty to develop a lesson plan template candidates could use which includes the four modalities.
- Candidate knowledge of how to assess (both formative and summative) in the four modalities would be helpful when candidates move to practicum and internship experiences.
- Not enough evidence was provided on whether or not candidates maintained a high level of proficiency according to the ACTFL guidelines.

**Recommended Action for Bilingual Education and ENL**

- Approved
- Conditionally Approved
  - Insufficient Evidence
  - Lack of Completers
  - New Program
- Not Approved

**IDAHO STANDARDS FOR BLENDED/EARLY CHILDHOOD SPECIAL EDUCATION TEACHERS**

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

**Knowledge**

1. The early childhood educator knows that family systems are inextricably tied to child development.
2. The early childhood educator understands the typical and atypical development of infants’ and children’s attachments and relationships with primary caregivers.
3. The early childhood educator understands how learning occurs and that children’s development influences learning and instructional decisions.
4. The early childhood educator understands pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.
5. The early childhood educator understands the developmental consequences of toxic (strong, frequent, and/or prolonged) stress, trauma, protective factors and resilience, and the consequences on the child’s mental health.
6. The early childhood educator understands the importance of supportive relationships on the child’s learning, emotional, and social development.
7. The early childhood educator understands the role of adult-child relationships in learning and development.

<b><i>Standard 1 Learner Development</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>1.1 Knowledge</i></b>		<b>X</b>	

***1.1 Analysis*** – The EPP provides sufficient evidence (assignments, rubrics, student lesson plans, candidate and program faculty interviews) of all knowledge indicators for Standard 1. Evidence demonstrates the program ensures the teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

***Sources of Evidence***

- Candidate work samples: motivation and management case study, classroom management plan assignment, instructional sequence plan, common summative assessment assignment, UDL lesson plan, severe disabilities strategies project
- Early childhood education and special education syllabi
- Candidate Interview
- Faculty interviews

**Performance**

1. The early childhood educator identifies pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.
2. The early childhood educator collaborates with parents, families, specialists and community agencies to identify and implement strategies to minimize the developmental consequences of toxic (strong, frequent, and/or prolonged) stress and trauma, while increasing protective factors and resilience.
3. The early childhood educator establishes and maintains positive interactions and relationships with the child.

<b><i>Standard 1 Learner Development</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>1.2 Performance</i></b>		<b>X</b>	

**1.2 Analysis** – Interviews with candidates, candidate work samples (lesson plans, case studies, and classroom management plan), student teaching observation, family meeting conference, and candidate reflections provide evidence that teacher candidates demonstrate an adequate ability to meet Standard 1 performance indicators.

***Sources of Evidence***

- Candidate work samples: candidate reflection on student teaching observation, child observations, family meeting conference, development reflection essay
- Candidate interviews
- Faculty interviews
- Candidate reflection on development

**Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.**

**Knowledge**

1. The early childhood educator understands the continuum of medical care for premature development, low birth weight, children who are medically fragile, and children with special health care needs, and knows the concerns and priorities associated with these medical conditions as well as their implications on child development and family resources.
2. The early childhood educator understands variations of beliefs, traditions, and values across cultures and the effect of these on the relationships among the child, family, and their environments.
3. The early childhood educator knows the characteristics of typical and atypical development and their educational implications and effects on participation in educational and community environments.
4. The early childhood educator knows how to access information regarding specific children’s needs and disability- related issues (e.g. medical, support, service delivery).
5. The early childhood educator knows about and understands the purpose of assistive technology in facilitating individual children’s learning differences, and to provide access to an inclusive learning environment.

<b>Standard 2 Learning Differences</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>		<b>X</b>	

**2.1 Analysis** – The EPP provides sufficient evidence for all knowledge indicators to demonstrate that the program is designed to meet Standard 2 suggesting the teaching candidate uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards. Evidence reviewed includes syllabi, course assignments and rubrics, ECE (Early Childhood Education) Praxis scores, as well as interviews with program candidates and program faculty.

**Sources of Evidence**

- Candidate work samples: classroom management plan assignment, assessment: comprehensive evaluation guidelines
- Severe disabilities strategies rubric
- Early childhood education and special education syllabi
- Candidate interviews
- Faculty interviews
- ECE praxis scores

**Performance**

1. The early childhood educator locates, uses, and shares information about the methods for the care of children who are medically fragile and children with special health care needs, including the effects of technology and various medications on the educational, cognitive, physical, social, and emotional behavior of children with disabilities.
2. The early childhood educator adapts learning, language, and communication strategies for the developmental age and stage of the child, and as appropriate identifies and uses assistive technology.

<i>Standard 2 Learning Differences</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.2 Performance</i>		X	

**2.2 Analysis** – Interviews with candidates and faculty, review of candidate work samples, and student teaching observations provide evidence that performance indicators for Standard (2) are addressed completely.

**Sources of Evidence**

- Candidate interviews
- Candidate work samples: technology portfolio (assistive technology project), tool kit case study, position and mobility project
- Student teaching observations
- Faculty interviews

**Standard #3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Knowledge**

1. The early childhood educator understands the importance and use of routines as a teaching strategy.
2. The early childhood educator knows that physically and psychologically safe and healthy learning environments promote security, trust, attachment, and mastery motivation in children.
3. The early childhood educator understands applicable laws, rules, and regulations regarding behavior management planning and plan implementation for children with disabilities.
4. The early childhood educator understands principles of guidance (co-regulation, self-monitoring, and emotional regulation), applied behavioral analysis and ethical considerations inherent in behavior management.

5. The early childhood educator understands crisis prevention and intervention practices relative to the setting, age, and developmental stage of the child.
6. The early childhood educator knows a variety of strategies and environmental designs that facilitate a positive social and behavioral climate.
7. The early childhood educator understands that the child’s primary teacher is the parent.
8. The early childhood educator understands appropriate use of evidence-based practices that support development at all stages.

<b><i>Standard 3 Learning Environments</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>3.1 Knowledge</i></b>		<b>X</b>	

**3.1 Analysis** – The EPP provides sufficient evidence regarding all knowledge indicators for Standard 3 demonstrating the teacher candidate works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation. Evidence reviewed included candidate work samples and rubrics, syllabi, and candidate and program faculty interviews.

***Sources of Evidence***

- Candidate work samples: common summative assessment, safety plan
- Literacy case study rubric
- Early childhood syllabi
- Candidate interviews
- Faculty interviews

**Performance**

1. The early childhood educator promotes opportunities for all children in natural and inclusive settings.
2. The early childhood educator embeds learning objectives within everyday routines and activities.
3. The early childhood educator creates an accessible learning environment, including the use of assistive technology.
4. The early childhood educator provides training and supervision for the classroom paraprofessional, aide, volunteer, and peer tutor.
5. The early childhood educator creates an environment that encourages self-advocacy and increased independence.
6. The early childhood educator plans and implements intervention consistent with the needs of children.

7. The early childhood educator conducts functional behavior assessments and develops positive behavior supports, and creates behavior intervention plans.
8. In collaboration with the parent, the early childhood educator applies evidence-based strategies that support development at all stages in home, community, and classroom environments.

<i><b>Standard 3 Learning Environments</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>3.2 Performance</b></i>		<b>X</b>	

**3.2 Analysis** – Interviews with candidates and faculty, review of candidate work samples, and framework for teaching observations provide evidence that performance indicators for Standard (3) are addressed by the EPP.

***Sources of Evidence***

- Framework for teaching observation of candidate
- Candidate work samples: teaching and learning plan reflection, IPLP, IEP meeting and attendance, UDL lesson plan
- Candidate interviews
- Faculty interviews

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The early childhood educator knows how children integrate domains of development (language, cognition, social and emotional, physical, and self-help) as well as traditional content areas of learning (e.g., literacy, mathematics, science, health, safety, nutrition, social studies, art, music, drama, movement).
2. The early childhood educator understands theories, history, and models that provide the basis for early childhood education and early childhood special education practices as identified in the National Association for the Education of Young Children (NAEYC) Standards for Early Childhood Professional Preparation Programs and the Council for Exceptional Children/Division of Early Childhood (CEC/DEC) Preparation Standards.
3. The early childhood educator understands the process of self-regulation that assists children to identify and cope with emotions.
4. The early childhood educator understands speech and language acquisition processes in order to support emergent literacy, including pre-linguistic communication and language development.

5. The early childhood educator understands the elements of play and how play assists children in learning.
6. The early childhood educator understands nutrition and feeding relationships so children develop essential and healthy eating habits.
7. The early childhood educator understands that children are constructing a sense of self, expressing wants and needs, and understanding social interactions that enable them to be involved in friendships, cooperation, and effective conflict resolutions.
8. The early childhood educator understands the acquisition of self-help skills that facilitate the child’s growing independence (e.g., toileting, dressing, grooming, hygiene, eating, sleeping).
9. The early childhood educator understands the comprehensive nature of children’s well being in order to create opportunities for developing and practicing skills that contribute to healthful living and enhanced quality of life.
10. The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.

<i><b>Standard 4 Content Knowledge</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>4.1 Knowledge</b></i>		<b>X</b>	

**4.1 Analysis** – The EPP provides sufficient evidence to address all knowledge indicators for Standard 4 to demonstrate that the teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content. Evidence reviewed included candidate work samples, rubrics, and candidate and program faculty interviews.

***Sources of Evidence***

- Candidate work samples: menu assignment, USDA guideline assignment, unit plan, instructional planning sequence, UDL lesson plan
- Literacy case study rubric
- Candidate interviews
- Faculty interviews

**Performance**

1. The early childhood educator demonstrates the application of theories and educational models in early childhood education and special education practices.
2. The early childhood educator applies developmentally appropriate practices to facilitate growth towards developmental milestones and emerging foundational skills.

3. The early childhood educator differentiates practices for the acquisition of skills in English language arts, science, mathematics, social studies, the arts, health, safety, nutrition, and physical education for children from birth through age 2, ages 3-5, and grades K-3.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		<b>X</b>	

**4.2 Analysis** – Candidate work samples, framework for teaching observation, and an IEP meeting checklist provide evidence that all performance indicators for Standard (4) are addressed by the EPP.

***Sources of Evidence***

- Candidate work samples: lesson plan, student teaching assignment, common summative assessment, unit plan 1, classroom management plan, IEP meeting reflection
- Framework for teaching observation
- IEP meeting checklist

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The early childhood educator understands critical developmental processes and knows how to facilitate the growth and development of children birth through age 8.
2. The early childhood educator recognizes the role that social and emotional development plays in overall development and learning.
3. The early childhood educator knows the multiple factors that contribute to the development of cultural competence in young children birth through age 8.
4. The early childhood educator understands how to promote the development of executive functioning in children birth through age 8 (e.g. impulse control, problem solving, exploration).
5. The early childhood educator knows the importance of facilitating emergent literacy and numeracy.
6. The early childhood educator understands the essential functions of play and the role of play in the holistic growth and development of children birth through age 8.

<i><b>Standard 5 Application of Content</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>5.1 Knowledge</b></i>		<b>X</b>	

**5.1 Analysis** – The EPP provides sufficient evidence to address all knowledge indicators for Standard 5 suggesting the teacher candidate understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues. Evidence reviewed included test scores from the National Occupational Competency Testing Institute (NOCTI), syllabi, student work samples, rubrics, and candidate and program faculty interviews.

***Sources of Evidence***

- National Occupational Competency Testing Institute (NOCTI) test scores
- Early Childhood Education (ECE) syllabi
- Candidate work samples: common summative assessment, instructional sequence plan, Universal Design for Learning (UDL) lesson plan
- Severe disabilities strategies rubric
- Faculty interviews

**Performance**

1. The early childhood educator effectively creates and maintains an environment that facilitates overall growth and development of all children (e.g. routines, materials and equipment, schedules, building relationships, assistive technology).
2. The early childhood educator builds positive relationships with children and families and encourages cultural sensitivity among children to foster social and emotional development of all children.
3. The early childhood educator utilizes a play-based curriculum to facilitate the holistic development of all children and fosters the emergence of literacy, numeracy, and cognition.
4. The early childhood educator effectively utilizes explicit instruction to facilitate the development of executive functioning (e.g. impulse control, problem solving, exploration).

<i><b>Standard 5 Application of Content</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>5.2 Performance</b></i>		<b>X</b>	

**5.2 Analysis** – Candidate work samples, assignment guidelines and rubrics, practicum observations, and framework for teaching observations provide evidence that all performance indicators for Standard (5) are addressed by the EPP.

***Sources of Evidence***

- Candidate work samples: lesson plans, student teaching, student reflection, UDL lesson plan

- Role playing assignment
- Practicum observation
- Framework for teaching observation
- Social problems rubric

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.***

**Knowledge**

1. The early childhood educator understands the legal provisions, regulations, guidelines, and ethical concerns regarding assessment of children.
2. The early childhood educator knows that developmentally appropriate assessment procedures reflect children’s behavior over time and rely on regular and periodic observations and record keeping of children’s everyday activities and performance.
3. The early childhood educator knows the instruments and procedures used to assess children for screening, pre-referral interventions, referral, and eligibility determination for special education services or early intervention services for birth to three years.
4. The early childhood educator knows the ethical issues and identification procedures for children with disabilities, including children from culturally and linguistically diverse backgrounds.

<b><i>Standard 6 Assessment</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>6.1 Knowledge</i></b>		<b>X</b>	

**6.1 Analysis** – The EPP provides sufficient evidence to address all knowledge indicators for Standard 6 demonstrate that the teacher candidate understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making. Evidence reviewed includes candidate work samples, syllabi, and candidate interviews.

***Sources of Evidence***

- Candidate work samples: unit plan, lesson plan, common summative assessment, assessment comprehensive evaluation report
- ECE syllabi
- Candidate interviews

**Performance**

1. The early childhood educator assesses all developmental domains (e.g., social and emotional, fine and gross motor, cognition, communication, self-help).

2. The early childhood educator ensures the participation and procedural safeguard rights of the parent/child when determining eligibility, planning, and implementing services.
3. The early childhood educator collaborates with families and professionals involved in the assessment process of children.
4. The early childhood educator conducts an ecological assessment and uses the information to modify various settings as needed and to integrate the children into those setting.
5. The early childhood educator uses a diverse array of assessment strategies to assess children depending on the purpose of assessment (e.g. observation, checklists, norm-referenced).
6. The early childhood educator demonstrates culturally or linguistically diverse assessment practices and procedures used to determine eligibility of a student.

<b>Standard 6 Assessment</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.2 Performance</b>		<b>X</b>	

**6.2 Analysis** – Candidate work samples as well as candidate and program faculty interviews provide evidence that all performance indicators for Standard (6) are addressed by the EPP.

***Sources of Evidence***

- Candidate work samples: environment reflection, student teaching work sample, lesson plan, environment design project, IEP meeting candidate reflection, classroom management plan, unit plan
- Candidate interviews
- Faculty interviews

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

1. The early childhood educator understands theory and research that reflect currently recommended professional practice for engaging with families and children (from birth through age 2, ages 3-5, and grades K-3).
2. The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.

<b>Standard 7 Planning for Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.1 Knowledge</b>		<b>X</b>	

**7.1 Analysis** – The EPP provides sufficient evidence to address all knowledge indicators for Standard 7 suggesting the teacher candidate plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context. Evidence reviewed included student work samples (case study, classroom management plans, technology portfolio), ECE syllabi, NOCTI test scores, and program faculty interviews.

**Sources of Evidence**

- NOCTI tests scores
- Candidate work samples: case study, classroom management plan, technology portfolio
- ECE syllabi
- Faculty interviews

**Performance**

1. The early childhood educator designs meaningful child-initiated inquiry and integrated learning opportunities that are scaffolded for the developmental needs of all children.
2. The early childhood educator assists families in identifying their resources, priorities, and concerns in relation to their children’s development and provides information about a range of family-oriented services based on identified resources, priorities, and concerns through the use of the Individualized Family Service Plans (IFSP) Individualized Education Programs (IEP).
3. The early childhood educator facilitates transitions for children and their families (e.g., hospital, home, Infant/Toddler programs, Head Start, Early Head Start, childcare programs, preschool, primary programs).
4. The early childhood educator analyzes activities and tasks and uses procedures for monitoring children’s skill levels and progress.
5. The early childhood educator evaluates children’s skill development in relation to developmental norms and state-adopted standards.

<b>Standard 7 Planning for Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.2 Performance</b>		<b>X</b>	

**7.2 Analysis** – Candidate work samples as well as candidate and program faculty interviews provide evidence that all performance indicators for Standard (7) are addressed by the EPP. Evidence reviewed included student work samples, candidate interviews, assignment rubrics, and practicum observations.

**Sources of Evidence**

- Candidate work samples: candidate reflection, unit plan, common summative assessment, UDL lesson plan, student teaching work sample

- Candidate interview
- Instructional sequence rubric
- Practicum observations

**Standard #8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The early childhood educator knows the characteristics of physical environments that must vary to support the learning of children from birth through age 2, ages 3-5, and grades K-3 (e.g., schedule, routines, transitions).
2. The early childhood educator understands the breadth and application of low and high assistive technology to support instructional assessment, planning, and delivery of instruction.

<b>Standard 8 Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.1 Knowledge</b>		<b>X</b>	

**8.1 Analysis** – The EPP provides sufficient evidence to address all knowledge indicators for Standard 8 demonstrate the teacher candidate understands and uses a variety of instructional strategies to encourage learners to develop a deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways. Evidence reviewed included student work samples (environment design project, classroom management plan, assessment comprehensive evaluation, NOCTI exam scores, technology portfolio, and development appropriate practice lesson plan), ECE and SPED syllabi, and candidate interviews.

**Sources of Evidence**

- Candidate work samples: environment design project, classroom management plan, assessment-comprehensive evaluation report, NOCTI exam scores, technology portfolio (assistive technology), developmentally appropriate practice lesson plan
- ECE and SPED syllabi
- Candidate interviews

**Performance**

1. The early childhood educator uses developmentally appropriate methods to help children develop intellectual curiosity, solve problems, and make decisions (e.g., child choice, play, small group projects, open-ended questioning, group discussion, problem solving, cooperative learning, inquiry and reflection experiences).
2. The early childhood educator uses evidence-based instructional strategies (e.g., child choice, play, differentiation, direct instruction, scaffolding) that support both child-initiated and adult-directed activities.

<b>Standard 8 Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.2 Performance</b>		X	

**8.2 Analysis** – Candidate work samples as well as candidate and program faculty interviews provide evidence that all performance indicators for Standard (8) are addressed by the EPP. Evidence reviewed included student work samples, faculty interviews, and practicum observations.

**Sources of Evidence**

- Candidate work samples: developmentally appropriate lesson plan, UDL lesson plan, practicum observation, student teaching work samples, student reflection, case study
- Practicum observation
- Faculty interviews

**Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.**

**Knowledge**

1. The early childhood educator understands the NAEYC Standards for Early Childhood Professional Preparation and the CEC/DEC Initial Preparation Standards.
2. The early childhood educator understands the code of ethics of the NAEYC, CEC/DEC, and the Idaho Code of Ethics for Professional Educators.
3. The early childhood educator understands the responsibilities as outlined in the Pre-Service Technology Standards (e.g. digital citizenship and ethical practice).

<b>Standard 9 Professional Learning and Ethical Practice</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – The EPP provides sufficient evidence to address all knowledge indicators for Standard 9 suggesting the teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner. Evidence reviewed included student work samples, NOCTI exam scores, technology portfolio, syllabi, and faculty interviews.

**Sources of Evidence**

- Candidate work samples: technology portfolio, article reading and reflection, NOCTI exam scores, director lens project
- ECE syllabi
- Faculty interviews
- NOCTI exam scores

**Performance**

1. The early childhood educator practices behavior congruent with the NAEYC Standards for Early Childhood Professional Preparation, CEC/DEC Initial Preparation Standards, and the Idaho Code of Ethics for Professional Educators.
2. The early childhood educator practices behavior as outlined in the Pre-Service Technology Standards (e.g. digital citizenship and ethical practice).

<b>Standard 9 Professional Learning and Ethical Practice</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>		<b>X</b>	

**9.2 Analysis** – Candidate work samples, program faculty and candidate interviews and checklists provide evidence that all performance indicators for Standard (9) are addressed by the EPP.

**Sources of Evidence**

- Candidate work samples: technology portfolio, candidate reflection, director lens project
- Faculty interviews
- Director/lead teacher checklist and feedback form
- Candidate interviews

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The early childhood educator knows about state and national professional organizations (e.g., NAEYC and CEC/DEC).
2. The early childhood educator knows family systems theory and its application to the dynamics, roles, and relationships within families and communities.

3. The early childhood educator knows community, state, and national resources available for children and their families.
4. The early childhood educator understands the role and function of the service coordinator and related service professionals in assisting families of children.
5. The early childhood educator knows basic principles of administration, organization, and operation of early childhood programs (e.g., supervision of staff and volunteers, and program evaluation).
6. The early childhood educator knows the rights and responsibilities of parents, students, teachers, professionals, and programs as they relate to children with disabilities.
7. The early childhood educator understands how to effectively communicate and collaborate with children, parents, colleagues, and the community in a professional and culturally sensitive manner.

<b><i>Standard 10 Leadership and Collaboration</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>10.1 Knowledge</i></b>		<b>X</b>	

**10.1 Analysis** – The EPP provides sufficient evidence to address all knowledge indicators for Standard 10 demonstrate that the teacher candidate seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession. Evidence reviewed included candidate work samples, optional conference attendance, director feedback checklist form, syllabi, field trip resource activity, portfolio, National Association for the Education of Young Children (NAEYC) student membership, ECE library advisory agendas, and candidate and program faculty interviews.

***Sources of Evidence***

- Candidate work samples: final case study, unit plan, severe disabilities strategies project, candidate reflection, student teaching work sample
- Conference attendance (optional)
- Director feedback checklist form
- Candidate interview
- Faculty interviews
- ECE syllabi
- Field trip (local childcare resource center for Idaho Stars)
- Portfolio guidelines
- National Association for the Education of Young Children (NAEYC) member requirement
- ECE Library Advisory Board agendas
- NAEYC accreditation

**Performance**

1. The early childhood educator demonstrates skills in communicating, consulting and partnering with families and diverse service delivery providers (e.g., home services, childcare programs, school, community) to support the child’s development and learning.
2. The early childhood educator identifies and accesses community, state, and national resources for children and families.
3. The early childhood educator advocates for children and their families.
4. The early childhood educator creates a manageable system to maintain all program and legal records for children.
5. The early childhood educator encourages and assists families to become active participants in the educational team, including setting instructional goals for and charting progress of children.
6. The early childhood educator demonstrates respect, honesty, caring, and responsibility in order to promote and nurture an environment that fosters these qualities.

<i><b>Standard 10 Leadership and Collaboration</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>9.2 Performance</b></i>		<b>X</b>	

**10.2 Analysis** – Candidate work samples, program faculty and candidate interviews and checklists provide evidence that all performance indicators for Standard (10) are addressed by the EPP.

***Sources of Evidence***

- Candidate work samples: final case study, unit plan, severe disabilities strategies project, candidate reflection, student teaching work sample
- Conference attendance (optional)
- Director feedback checklist form
- Final exam questions
- Candidate interviews
- Faculty interviews

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	10	0	10	0
Performance	10	0	10	0

**Areas for Improvement**

- For two reviews in a row, there has been no evidence for the Early Childhood specific indicators available to reviewers, nor a systematic process defined to assess competencies.
- Early Childhood standards and evidence are not embedded in offered coursework in a documented way.
- See Conditional Approval Note

**Recommended Action for Blended Early Childhood Education/Early Childhood Special Education**

- Approved
- Conditionally Approved
  - Insufficient Evidence  
*No evidence provided for early childhood specific indicators*
  - Lack of Completers
  - New Program
- Not Approved

## IDAHO FOUNDATION STANDARDS FOR COMMUNICATION ARTS TEACHERS

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands how values and ethics affect communication.
2. The teacher understands the importance of audience analysis and adaptation in differing communication contexts.
3. The teacher knows the components and processes of communication.
4. The teacher understands the interactive roles of perceptions and meaning.
5. The teacher understands how symbolism and language affect communication.
6. The teacher understands the role of organization in presenting concepts, ideas, and arguments.
7. The teacher knows methods and steps of problem solving in communication arts.
8. The teacher understands the impact of outside social structures and institutions—including historical, political, social, economic, and cultural perspectives—on communication processes and messages.

<i><b>Standard 4 Content Knowledge</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>4.1 Knowledge</b></i>		<b>X</b>	

**4.1 Analysis** – Required course syllabi, PRAXIS scores, faculty interviews and College Course Catalog descriptions provide minimal but acceptable evidence that candidates understand the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches. Evidence for these indicators relies heavily on course syllabi which have been updated to show correlating standards for Communication Arts Teachers, Journalism teachers, and Speech and Debate Teachers. Although these have been updated, it was often difficult to determine within the rest of the syllabus just how these standard are being met within the teaching of the course. Interviews were able to fill some of these gaps. Journalism teachers do not have to take a PRAXIS; therefore PRAXIS scores provided by the EPP are not able to be used as evidence for Journalism teachers meeting standards.

***Sources of Evidence***

- Required course syllabi (separate classes for Speech and Debate Teachers and Journalism teachers)
- College Course Catalog course descriptions  
[http://coursecat.isu.edu/undergraduate/education/secondaryeducation/#programs text](http://coursecat.isu.edu/undergraduate/education/secondaryeducation/#programs_text)
- PRAXIS scores for Speech and Debate Teachers
- Faculty interview CMP 1110 instructor

**Performance**

1. The teacher emphasizes to students the importance of values and ethics relevant to the communication process in a variety of formats (e.g., speeches, interpersonal interactions, journalistic writing, social media, debate).
2. The teacher provides instruction and practice in conducting and applying research.
3. The teacher creates lessons that stress the importance of audience analysis and adaptation.
4. The teacher presents communication as a process consisting of integral components.
5. The teacher explains various methods of organization and their effects on the communication process.
6. The teacher delivers instruction that facilitates student analysis and evaluation of message contexts, including historical, political, social, economic, and cultural perspectives.

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.2 Performance</i>	X		

**4.2 Analysis** – There have been only 2 completers with a Communications endorsement in the last 3 years. Neither candidate provided evidence within this endorsement area so therefore no performance evidence was provided. Journalism has not had a completer in the last 3 years, therefore no performance evidence was provided. In addition, lack of a required methods course for both Speech and Debate and Journalism teachers makes the performance portion of this standard difficult to attain. This lack of methods coursework also makes it challenging for candidates to be able to create learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

**Sources of Evidence**

- No evidence

**Standard #5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Standard #6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.*

**Standard #7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard #8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard #9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

1. The teacher understands contemporary legal standards relating to communication and media.

<b>Standard 9 Knowledge of Human Development and Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – Course syllabi, College catalog course descriptors, faculty interview, and assignment descriptions indicate that both communications and journalism endorsement candidates have the opportunity to gain the knowledge required in the professional learning and ethical practice standard. The required courses CMP 2205 for Communication Endorsement and CMP1110 for Journalism endorsement cover these topics well.

**Sources of Evidence**

- CMP 2205 & CMP 1110 syllabi
- Required Course assignment details
- ISU Course catalog descriptors for required courses:  
<http://coursecat.isu.edu/undergraduate/education/secondaryeducation/#programs>  
text

**Performance**

1. The teacher designs instruction and provides opportunities for students to learn through inquiry and exploration.

<b>Standard 9 Knowledge of Human Development and Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>	X		

**9.2 Analysis** – There have been only 2 completers with a Communications endorsement in the last 3 years. Neither candidate provided evidence within this endorsement area so therefore no performance evidence was provided. Journalism has not had a completer in the last 3 years, therefore no performance evidence was provided. Due to lack of a required methods course, evidence for the performance portion of this standard where the candidate is expected to adapt practice to meet the needs of each learner would be difficult to attain.

**Sources of Evidence**

- No evidence

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	2	0	2	0
Performance	2	2	0	0

**Areas for Improvement**

- Required methods course

**Recommended Action for Foundations of Communications**

- Approved
- Conditionally Approved
  - Insufficient evidence
  - Lack of Completers
  - New Program
- Not approved

## IDAHO STANDARDS FOR JOURNALISM TEACHERS

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher comprehends the fundamentals of journalistic style (e.g., news, feature, editorial writing).
2. The teacher understands the elements of design and layout.
3. The teacher understands the purposes and elements of photojournalism (e.g., composition, processing).
4. The teacher understands the purposes, types, and rules of headline and caption writing.
5. The teacher possesses knowledge of interviewing skills.
6. The teacher knows how to organize and equip a production area.
7. The teacher knows how to organize and supervise a student staff (e.g., editors, writers, photographers, business personnel).
8. The teacher knows how to adapt journalistic techniques to various media (e.g., radio, television, Internet).
9. The teacher understands advertising and finance.
10. The teacher knows the fundamentals of editing.
11. The teacher understands processes of effective critiquing.
12. The teacher understands journalistic and scholastic press law and ethics.

13. The teacher understands the role of journalism in democracy.

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.1 Knowledge</i>		X	

**4.1 Analysis** – Required course syllabi, College catalog course descriptors, and interviews provide minimal but acceptable evidence that candidates seeking a journalism 20 credit endorsement would be able to understand the central concepts, tools of inquiry. No evidence was provided to demonstrate that candidates would know how to organize and equip a production area (indicator 6), organize and supervise a student staff (indicator 7), or understand advertising and finance (indicator 9) unless they take CMP 3311 as one of their optional courses.

**Sources of Evidence**

- Required course syllabi
- Course Catalog:  
<http://coursecat.isu.edu/undergraduate/education/secondaryeducation/#programs>  
text
- Faculty interviews

**Performance**

1. The teacher instructs students in the fundamentals of journalistic style across a variety of journalistic platforms.
2. The teacher student application of design and layout techniques.
3. The teacher integrates the purposes and elements of photojournalism into the production process.
4. The teacher instructs students in the purposes, types, and rules of headline and caption writing.
5. The teacher provides opportunities for students to practice and use interviewing skills.
6. The teacher teaches editing skills and provides opportunities for student practice.
7. The teacher provides opportunities for students to critique and evaluate student and professional work.

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.2 Performance</i>	X		

**4.2 Analysis** - Journalism has not had a completer in the last several years, therefore no performance evidence was provided. In addition, lack of a required methods course for Journalism teachers would make the performance portion of this standard, as well as creating learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content, difficult to attain.

**Sources of Evidence**

- No evidence

**Standard #5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Standard #6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Standard #7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard #8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard #9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Summary**

## IDAHO STANDARDS FOR SPEECH AND DEBATE TEACHERS

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands the models of interpersonal communication.
2. The teacher knows the processes and types of active listening.
3. The teacher knows the nature of conflict and conflict resolution strategies in the speech process.
4. The teacher knows the dynamics of group communication (e.g., roles, functions, systems, developmental stages, problem solving).
5. The teacher understands rhetorical theories and practices.
6. The teacher understands types of public speaking (e.g., informative, persuasive, ceremonial).
7. The teacher understands the steps of speech preparation, rehearsal, presentation, and constructive feedback.
8. The teacher understands the necessity of adapting public speaking styles and skills to various media.
9. The teacher understands the principles of competitive debate theory (e.g., categories and styles of debate).
10. The teacher knows the theories and practices of argumentation.

11. The teacher knows the precepts of logical reasoning (e.g., syllogistic, categorical, disjunctive, fallacies).
12. The teacher knows the various types of competitive speaking events (e.g., impromptu, extemporaneous, oratory, debate).
13. The teacher knows how to identify and minimize communication anxiety.

<i><b>Standard 4 Content Knowledge</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>4.1 Knowledge</b></i>		<b>X</b>	

**4.1 Analysis** – Required course syllabi, college course catalog course descriptors, and PRAXIS scores provide evidence that candidates applying for a communications 20 credit endorsement understand the central concepts, tools of inquiry, and structures of the discipline he or she teaches. However, no evidence was provided to support that candidates understand types of public speaking, (indicator 6), the steps of speech preparation, rehearsal, presentation, and constructive feedback (indicator 7), or knows how to identify and minimize communication anxiety (indicator 13). In addition, evidence was limited in how the teacher knows the various types of competitive speaking events except for debate.

***Sources of Evidence***

- Required course syllabi (no speech syllabi were supplied and 1 4000 or above speech course if required)
- Course Catalog:  
<http://coursecat.isu.edu/undergraduate/education/secondaryeducation/#programs>  
text
- PRAXIS scores

**Performance**

1. The teacher instructs in the process of effective interpersonal communication (e.g., effective listening, components of verbal and nonverbal communication, conflict resolution).
2. The teacher explains the components and dynamics of group communication and provides opportunities for student implementation.
3. The teacher provides opportunities for students to prepare, practice, and present various types of speeches.
4. The teacher provides instruction integrating digital media and visual displays to enhance presentations.

5. The teacher instructs in the theory, principles, and practices of debate (e.g., argumentation, logical reasoning, competitive speaking).
6. The teacher provides opportunities for students to participate in debate and speaking events.
7. The teacher explains various methods of organization and their effects on the communication process.
8. The teacher provides strategies for assessing and minimizing communication anxiety (e.g., personal anxiety assessment, repetition, visualization).

<i><b>Standard 4 Content Knowledge</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>4.2 Performance</b></i>	<b>X</b>		

**4.2 Analysis** – There have been only 2 completers with a Communications endorsement in the last 3 years. Neither candidate provided evidence within this endorsement area so therefore no performance evidence was provided. In addition, lack of a required methods course for Speech and Debate teachers would make the performance portion of this standard, as well as creating learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content, difficult to attain.

***Sources of Evidence***

- No evidence

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.***

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Standard #9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	1	0	1	0
Performance	1	1	0	0

**Areas for Improvement**

- Requiring a methods course for Speech and Debate candidates, as well as creating learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content, will serve these teacher-candidates well.
- Provide opportunities that support candidate understanding of types of public speaking and the steps of speech preparation, as well as how to identify and minimize communication anxiety.

**Recommended Action for Speech and Debate**

- Approved
- Conditionally Approved
  - Insufficient evidence
  - Lack of Completers
  - New Program
- Not approved

**IDAHO STANDARDS FOR ENGLISH LANGUAGE ARTS TEACHERS**

**Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.**

**Performance**

1. Candidates demonstrate knowledge of developmental levels in reading, writing, listening, viewing, and speaking and plan for developmental stages and diverse ways of learning.
2. Candidates demonstrate knowledge about how adolescents read and make meaning of a wide range of texts (e.g. literature, poetry, informational text, and digital media).
3. Candidates demonstrate knowledge about how adolescents compose texts in a wide range of genres and formats including digital media.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>		<b>X</b>	

**1.2 Analysis** – Syllabi requiring developmental analysis of student reading texts, candidate work samples of unit plans, classroom student diversity analysis, examples of student work, and college supervisor observation notes of candidates’ teaching observations show that candidates meet the criteria for Learner Development Standard 1 Performance 1.2

**Sources of Evidence**

- Student diversity analysis records, candidate lesson plan units
- Course syllabi requiring analysis of adolescent literature and instruction methods
- Candidate teaching evaluations completed by college supervisor

**Standard 2: Learning Difference - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.**

**Performance**

1. Candidates demonstrate knowledge of theories and research needed to plan and implement instruction responsive to students’ local, national and international histories, individual identities (e.g., race, ethnicity, gender expression, age, appearance, ability, spiritual belief, sexual orientation, socioeconomic status, and community environment), and languages/dialects as they affect students’ opportunities to learn in ELA.
2. Candidates design and/or implement instruction that incorporates students’ linguistic and cultural backgrounds to enable skillful control over their rhetorical choices and language practices for a variety of audiences and purposes.

<i>Standard 2 Learning Difference</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.2 Performance</i>		X	

**2.2 Analysis** – Course descriptions and syllabi, candidate student teaching lesson plans, student work handouts and samples, and candidate student teaching observations provide evidence that teacher candidates demonstrate performance of Standard 2 Learning Difference Performance 2.2.

**Sources of Evidence**

- English 2211 and 3311 Course syllabi
- Student teaching lesson plans, student work handouts
- Student work samples, candidate observations from college student teaching supervisor

**Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.**

**Performance**

1. Candidates use various types of data about their students’ individual differences, identities, and funds of knowledge for literacy learning to create inclusive learning environments that contextualize curriculum and instruction and help students participate actively in their own learning in ELA (e.g., workshops, project based learning, guided writing, Socratic seminars, literature circles etc.).

<i>Standard 3 Learning Environments</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>3.2 Performance</i>		X	

**3.2 Analysis** – Student differentiation chart showing accommodations for specific students, candidate lesson plan with assignment description, and other candidate work samples show that the candidates use knowledge of students’ abilities and interests to create projects and show evidence of completion of Standard 3.2.

**Sources of Evidence**

- Student Differentiation chart showing interventions/accommodations for students
- Assignment description/lesson plan, projects
- Candidate work samples

**Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.**

**Performance**

1. Candidates demonstrate knowledge and use print and non-print texts, media texts, classic texts and contemporary texts, including young adult—that represent a range of world literatures, historical traditions, genres, and the experiences of different genders, ethnicities, and social classes; they are able to use literary theories to interpret and critique a range of texts.
2. Candidates demonstrate knowledge and use the conventions of English language as they relate to various rhetorical situations (grammar, usage, and mechanics); they apply the concept of dialect and relevant grammar systems (e.g., descriptive and prescriptive); they facilitate principles of language acquisition; they connect the influence of English language history on ELA content and its impact of language on society.
3. Candidates demonstrate knowledge and compose a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose; candidates understand that writing involves strategic and recursive processes across multiple stages (e.g., planning, drafting, revising, editing, and publishing); candidates use contemporary technologies and/or digital media to compose multimodal discourse.
4. Candidates demonstrate knowledge and use strategies for acquiring and applying vocabulary knowledge to general academic and domain specific words as well as unknown terms important to comprehension (reading and listening) or expression (speaking and writing).

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.2 Performance</i>		X	

**4.2 Analysis** – Candidate interviews, lesson plans, work samples, and observation notes from student teaching supervisors provide evidence that teacher candidates demonstrate performance of Standard 4.2 Content Knowledge.

**Sources of Evidence**

- Candidate interviews, lesson plans
- Candidate unit plan work samples
- Student teaching observation notes from supervisors

**Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**

**Performance**

1. Candidates design and/or implement instruction related to the strategic use of language conventions (grammar, usage, and mechanics) in the context of students’ writing for different audiences, purposes, and modalities.

2. Candidates design and/or implement English language arts and literacy instruction that promotes social justice and critical engagement with complex issues related to maintaining a diverse, inclusive, equitable society.
3. Candidates design and/or implement instruction related to a breadth and depth of texts, purposes, and complexities (e.g., literature, digital, visual, informative, argument, narrative, poetic) that lead to students becoming independent, critical, and strategic readers, writers, speakers, and listeners.
4. Candidates design and/or implement instruction related to speaking and listening that lead to students becoming critical and active participants in conversations and collaborations.

<b>Standard 5 Application of Content</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.2 Performance</b>		<b>X</b>	

**5.2 Analysis** – Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of Standard 5.2 Application of Content.

**Sources of Evidence**

- Candidate interviews
- Candidate work samples
- Candidate lesson plans

**Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.**

**Performance**

1. Candidates design a range of authentic assessments (e.g., formal and informal, formative and summative) of reading and literature that demonstrate an understanding of how learners develop and that address interpretive, critical, and evaluative abilities in reading, writing, speaking, listening, viewing, and presenting.
2. Candidates design or knowledgeably select appropriate reading assessments in response to student interests, reading proficiencies, and/or reading strategies.
3. Candidates design or knowledgeably select a range of assessments for students that promote their development as writers, are appropriate to the writing task, and are consistent with current research and theory. Candidates respond to students’ writing throughout the students’ writing processes in ways that engage students’ ideas and encourage their growth as writers over time.
4. Candidates differentiate instruction based on multiple kinds of assessments of learning in English language arts (e.g., students’ self-assessments, formal assessments, informal assessments); candidates communicate with students about their performance in ways that actively involve students in their own learning.

<i>Standard 6 Assessment</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<b>6.2 Performance</b>		X	

**6.2 Analysis** – Candidate interviews, work samples, student diversity differentiation and accommodations, and lesson plans provide evidence that teacher candidates demonstrate performance of Standard 6.2 Assessment.

***Sources of Evidence***

- Candidate interviews
- Candidate work samples and lesson plans
- Student diversity differentiation and accommodations

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Performance**

1. Candidates plan instruction which, when appropriate, reflects curriculum integration and incorporates interdisciplinary teaching methods and materials which includes reading, writing, speaking, listening, and language.
2. Candidates plan standards-based, coherent and relevant learning experiences in reading that reflect knowledge of current theory and research about the teaching and learning of reading and that utilize individual and collaborative approaches and a variety of reading strategies.
3. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant composing experiences that utilize individual and collaborative approaches and contemporary technologies and reflect an understanding of writing processes and strategies in different genres for a variety of purposes and audiences.
4. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant learning experiences utilizing a range of different texts—across genres, periods, forms, authors, cultures, and various forms of media—and instructional strategies that are motivating and accessible to all students, including English language learners, students with special needs, students from diverse language and learning backgrounds, those designated as high achieving, and those at risk of failure.

<b>Standard 7 Planning for Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.2 Performance</b>		<b>X</b>	

**7.2 Analysis** – Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of Standard 7.2 Planning for Instruction.

**Sources of Evidence**

- Candidate interviews
- Candidate work samples
- Lesson plans

**Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.**

**Performance**

1. Candidates plan and implement instruction based on ELA curricular requirements and standards, school and community contexts by selecting, creating, and using a variety of instructional strategies and resources specific to effective literacy instruction, including contemporary technologies and digital media, and knowledge about students’ linguistic and cultural backgrounds.

<b>Standard 8 Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.2 Performance</b>		<b>X</b>	

**8.2 Analysis** – Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of Standard 8.2 Instructional Strategies.

**Sources of Evidence**

- Candidate work samples
- Candidate interviews
- Candidate lesson plans

**Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.**

**Performance**

1. Candidates model literate and ethical practices in ELA teaching, and engage in a variety of experiences related to ELA and reflect on their own professional practices.

<b>Standard 9 Professional Learning and Ethical Practice</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>		X	

**9.2 Analysis** – Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of Standard 9.2 Professional Learning and Ethical Practice.

**Sources of Evidence**

- Candidate interviews
- Candidate work samples with reflections
- Candidate lesson plans

**Standard 10: Leadership and Collaboration** - *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Performance**

1. Candidates engage in and reflect on a variety of experiences related to ELA that demonstrate understanding of and readiness for leadership, collaboration, ongoing professional development, and community engagement.

<b>Standard 10 Leadership and Collaboration</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.2 Performance</b>		X	

**10.2 Analysis** – Completer and candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of Standard 10.2 Leadership and Collaboration.

**Sources of Evidence**

- Completer and candidate interviews
- Candidate work samples
- Candidate lesson plans

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	0	0	0	0
Performance	10	0	10	0

**Areas for Improvement**

- Completers asked for better guidance in preparation for the Praxis II ELA Content Knowledge test in both 6-12 and Middle School English Language Arts.
- First time pass rates for the last 4 years of data show a steady decline in 6-12: 100% in 14-15 (18), 94% in 15-16 (17), 84% in 16-17 (13), 63% in 17-18 (11). The Middle School results are even lower, though uneven in the trend line: 68% in 14-15 (19), 72% in 15-16 (22), 45% in 16-17 (11), 64% in 17-18 (17).
- Alignment between course offerings and Praxis preparation is not clearly delineated, and school districts' emergency hires may be contributing to the lower pass rate percentages.

**Recommended Action for English Language Arts**

- Approved
- Conditionally approved
  - Insufficient evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO STANDARDS FOR EXCEPTIONAL CHILD GENERALISTS**

*Standard 1: Learner Development and Individual Learning Differences - The teacher understands how exceptionalities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.*

**Knowledge**

1. The teacher understands how language, culture, and family background influence the learning of individuals with exceptionalities.
2. The teacher has an understanding of development and individual differences to respond to the needs of individuals with exceptionalities.
3. The teacher understands how exceptionalities can interact with development and learning.

<i>Standard 1 Learner Development</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>1.1 Knowledge</i>		X	

**1.1 Analysis** – Required course syllabi, faculty interviews, required course assignments and assignment rubrics as well as PRAXIS scores indicate that candidates understand how exceptionalities may interact with development and learning. Interviews as well as course assignments provide evidence that candidates understand how language, culture, and family background influence the learning of individuals with exceptionalities as well as understanding how exceptionalities can interact with development and learning.

**Sources of Evidence**

- Required course syllabi
- Required course assignments
- Required course assignment rubrics
- Faculty interviews

**Performance**

1. The teacher modifies developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with exceptionalities.
2. The teacher is active and resourceful in seeking to understand how primary language, culture, and family interact with the exceptionality to influence the individual’s academic and social abilities, attitudes, values, interests, and career and post-secondary options.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>		<b>X</b>	

**1.2 Analysis** – Faculty and candidate interviews, required course assignments, lesson plans, and Framework for Teaching Observation forms provide evidence that candidates are able to use their knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.

**Sources of Evidence**

- Required course assignment samples
- Faculty interviews
- Candidate interviews

**Standard 2: Learning Environments - The teacher creates safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well-being, positive social interactions, and self-determination.**

**Knowledge**

1. The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.
2. The teacher knows how to collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.
3. The teacher understands motivational and instructional interventions to teach individuals with exceptionalities how to adapt to different environments.
4. The teacher knows how to intervene safely and appropriately with individuals with exceptionalities in crisis (e.g., positive behavioral supports, functional behavioral assessment and behavior plans).

<b>Standard 2 Learning Environments</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>		<b>X</b>	

**2.1 Analysis** – Syllabi, faculty and candidate interviews, required course assignments, and assignment rubrics indicate that candidates are able to create safe, inclusive, and culturally responsive learning environments. Candidate interviews as well as work samples from required courses provided sufficient evidence that candidates have the knowledge to create and modify learning environments in relationship to the learners’ exceptionalities.

**Sources of Evidence**

- Required course syllabi
- Required course assignments

- Case study rubrics
- Faculty interviews
- Candidate interviews

**Performance**

1. The teacher develops safe, inclusive, culturally responsive learning environments for all students, and collaborates with education colleagues to include individuals with exceptionalities in general education environments and engage them in meaningful learning activities and social interactions.
2. The teacher modifies learning environments for individual needs and regards an individual’s language, family, culture, and other significant contextual factors and how they interact with an individual’s exceptionality. The teacher modifies learning environment, and provides for the maintenance and generalization of acquired skills across environments and subjects.
3. The teacher structures learning environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy of individuals with exceptionalities, and directly teach them to adapt to the expectations and demands of differing environments.
4. The teacher safely intervenes with individuals with exceptionalities in crisis. Special education teachers are also perceived as a resource in behavior management that include the skills and knowledge to intervene safely and effectively before or when individuals with exceptionalities experience crisis, i.e. lose rational control over their behavior.

<i>Standard 2 Learning Environments</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.2 Performance</i>		X	

**2.2 Analysis** – Faculty and candidate interviews, required course work samples, as well as observation forms indicate that candidates are able to create safe, inclusive, culturally responsive learning environments. Candidate interviews indicated that they felt very well prepared in the knowledge and skills regarding preparing appropriate learning environments for exceptional learners.

**Sources of Evidence**

- Required course syllabi
- Required course assignment work samples
- Candidate interviews
- Faculty interviews

**Standard 3: Curricular Content Knowledge - The teacher uses knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.**

**Knowledge**

1. The teacher understands the central concepts, structures of the discipline, and tools of inquiry of the content areas they teach, and can organize this knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions for individuals with exceptionalities
2. The teacher understands and uses general and specialized content knowledge for teaching across curricular content areas to individualize learning for individuals with exceptionalities.
3. The teacher knows how to modify general and specialized curricula to make them accessible to individuals with exceptionalities.

<b>Standard 3 Curricular Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.1 Knowledge</b>		<b>X</b>	

**3.1 Analysis** – Required course syllabi, required course assignments and assignment rubrics as well as candidate and faculty interviews provide evidence that candidates have knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities. Candidate interviews indicate that an area for growth in content knowledge is the topic of literacy and literacy development.

**Sources of Evidence**

- Required course syllabi
- Faculty interviews
- Required course assignments
- Required course assignment rubrics

**Performance**

1. The teacher demonstrates in their planning and teaching, a solid base of understanding of the central concepts in the content areas they teach.
2. The teacher collaborates with general educators in teaching or co-teaching the content of the general curriculum to individuals with exceptionalities and designs appropriate learning, accommodations, and/or modifications.
3. The teacher uses a variety of specialized curricula (e.g., academic, strategic, social, emotional, and independence curricula) to individualize meaningful and challenging learning for individuals with exceptionalities.

<i><b>Standard 3 Curricular Content Knowledge</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>3.2 Performance</b></i>		<b>X</b>	

**3.2 Analysis** – Faculty and candidate interviews, required course work samples, lesson plans, common summative assessments, as well as framework for teaching observation forms provide evidence that candidates are able to use their knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities. Candidate interviews indicated a desire for additional coursework or knowledge in the area of literacy and literacy development. Candidates reported that their knowledge of mathematics and mathematics curricula was very strong.

***Sources of Evidence***

- Candidate interviews
- Faculty interviews
- Required course work samples
- Required course lesson plans
- Required course assessments,
- Framework for Teaching Observation Forms

***Standard 4: Assessment - The teacher uses multiple methods of assessment and data-sources in making educational decisions***

**Knowledge**

1. The teacher knows how to select and use technically sound formal and informal assessments that minimize bias.
2. The teacher has knowledge of measurement principles and practices, and understands how to interpret assessment results and guide educational decisions for individuals with exceptionalities.
3. In collaboration with colleagues and families, the teacher knows how to use multiple types of assessment information in making decisions about individuals with exceptionalities.
4. The teacher understands how to engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them.
5. The teacher understands assessment information to identify supports, adaptations, and modifications required for individuals with exceptionalities to access the general curriculum and to participate in school, system, and statewide assessment programs.
6. The teacher is aware of available technologies routinely used to support assessments (e.g., progress monitoring, curriculum-based assessments, etc.).
7. The teacher understands the legal policies of assessment related to special education referral, eligibility, individualized instruction, and placement for individuals with exceptionalities, including individuals from culturally and linguistically diverse backgrounds.

<i>Standard 4 Assessment</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – Required course syllabi, required course assessments and assignments as well as interviews provide evidence that candidates are able to use multiple methods of assessment and data-sources in making educational decisions. Candidates are able to utilize a variety of assessments, and have learned how assessment results can be used to guide educational decisions for individuals. In addition, candidates learn how to engage individuals with exceptionalities to work toward quality learning and provide guidance feedback.

**Sources of Evidence**

- Required course syllabi
- Required course assignment guidelines
- Faculty interviews

**Performance**

1. The teacher regularly monitors the learning progress of individuals with exceptionalities in both general and specialized content and makes instructional adjustments based on these data.
2. The teacher gathers background information regarding academic, medical, and social history.
3. The teacher conducts formal and/or informal assessments of behavior, learning, achievement, and environments to individualize the learning experiences that support the growth and development of individuals with exceptionalities.
4. The teacher integrates the results of assessments to develop a variety of individualized plans, including family service plans, transition plans, behavior change plans, etc.
5. The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.

<i>Standard 4 Assessment</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – Candidate and faculty interviews, required course assignment work samples, lesson plans and unit plans all provide evidence that candidates are able to use multiple methods of assessment and data-sources to make educational decisions for the students they teach. Candidate interviews indicate that although they have not created actual IEP plans or transitional plans, they have utilized assessment data to create mock IEP goals and IEP plans as well as transition plans and behavior plans. All candidates interviewed felt very confident in their abilities to create those types of plans once they are employed.

**Sources of Evidence**

- Candidate interviews
- Faculty interviews
- Required course assignments

**Standard 5: Instructional Planning and Strategies – The teacher selects, adapts, and uses a repertoire of evidence-based instructional strategies and interventions to advance learning of individuals with exceptionalities.**

**Knowledge**

1. The teacher knows how to consider an individual’s abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.
2. The teacher understands technologies used to support instructional assessment, planning, and delivery for individuals with exceptionalities.
3. The teacher is familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.
4. The teacher understands strategies to enhance language development, communication skills, and social skills of individuals with exceptionalities.
5. The teacher knows how to develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.
6. The teacher knows how to teach to mastery and promotes generalization of learning for individuals with exceptionalities.
7. The teacher knows how to teach cross-disciplinary knowledge and skills such as critical thinking and problem solving to individuals with exceptionalities.
8. The teacher knows how to enhance 21st Century student outcomes such as critical thinking, creative problem solving, and collaboration skills for individuals with exceptionalities, and increases their self-determination.
9. The teacher understands available technologies routinely used to support and manage all phases of planning, implementing, and evaluating instruction.

<b>Standard 5 Instructional Planning and Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>		<b>X</b>	

**5.1 Analysis** – Required course syllabi, required course assignments, and interviews provide evidence that candidates are able to acquire the knowledge which helps them to select, adapt, and use a repertoire of evidence-based instructional strategies and interventions to advance learning of individuals with exceptionalities.

**Sources of Evidence**

- Faculty interviews
- Required course syllabi
- Required course assignments
- Candidate interviews

**Performance**

1. The teacher plans and uses a repertoire of evidence-based instructional strategies in promoting positive learning results in general and special curricula and in modifying learning environments for individuals with exceptionalities appropriately.
2. The teacher emphasizes explicit instruction with modeling, and guided practice to assure acquisition and fluency, as well as, the development, maintenance, and generalization of knowledge and skills across environments.
3. The teacher matches their communication methods to an individual’s language proficiency and cultural and linguistic differences.
4. The teacher utilizes universal design for learning, augmentative and alternative communication systems, and assistive technologies to support and enhance the language and communication of individuals with exceptionalities.
5. The teacher develops a variety of individualized transition plans, such as transitions from preschool to elementary school and from secondary settings to a variety of postsecondary work and learning contexts.
6. The teacher personalizes instructional planning within a collaborative context including the individuals with exceptionalities, families, professional colleagues, and personnel from other agencies as appropriate.

<b>Standard 5 Instructional Planning and Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.2 Performance</b>		<b>X</b>	

**5.2 Analysis** – Interviews, required course work samples including multiple lesson and unit plans, and framework for teaching observation forms provide evidence that candidates are able to select, adapt, and use a repertoire of evidence-based instructional strategies and interventions to advance learning of individuals with exceptionalities. Interviews indicated that candidates believe their knowledge of best practices and evidence-based instructional strategies surpasses those of colleagues in the field and candidates from other programs that they know.

**Sources of Evidence**

- Candidate interviews
- Faculty interviews
- Required course assignments
- Framework for Teaching Observation forms

**Standard 6: Professional Learning and Ethical Practices – The teacher uses foundational knowledge of the field and the their professional Ethical Principles and Practice Standards to inform special education practice, to engage in lifelong learning, and to advance the profession.**

**Knowledge**

1. The teacher understands how foundational knowledge and current issues influence professional practice.
2. The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with the delivery of special education services.
3. The teacher understands the significance of lifelong learning and participates in professional activities and learning communities.
4. The teacher understands how to advance the profession by engaging in activities such as advocacy and mentoring.
5. The teacher knows how to create a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.

<b>Standard 6 Professional Learning and Ethical Practices</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.1 Knowledge</b>		<b>X</b>	

**6.1 Analysis** – Required course syllabi, faculty interviews, and required course assignments and rubrics provide evidence that candidates are able to gain foundational knowledge of the field and the professional Ethical Principles and Practice Standards. Although acceptable evidence was provided to meet this standard, interviews with faculty and candidates demonstrated that it is an area of concern. Interviews with faculty indicate that new classes and program structures are being put into place in response.

**Sources of Evidence**

- Required course syllabi
- Candidate interviews
- Faculty interviews
- Required course assignments

**Performance**

1. The teacher uses professional Ethical Principles and Professional Practice Standards to guide their practice.
2. The teacher provides guidance and direction to paraeducators, tutors, and volunteers.

3. The teacher plans and engages in activities that foster their professional growth and keep them current with evidence-based practices.
4. The teacher is sensitive to the aspects of diversity with individuals with exceptionalities and their families, and the provision of effective special education services for English learners with exceptionalities and their families.

<b>Standard 6 Professional Learning and Ethical Practices</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.2 Performance</b>		<b>X</b>	

**6.2 Analysis** – Faculty and candidate interviews, required course work samples, and required course assessments provide evidence that candidates are able to use their foundational knowledge of the field and their professional Ethical Principles and Practice standards to inform special education practice to engage in lifelong learning and to advance the profession. Although sufficient evidence was found to mark this performance standard as acceptable, candidate and faculty interviews indicate that collaboration and knowledge of laws may be areas of growth for the program. In response, new program classes and guidelines are being put into place.

**Sources of Evidence**

- Candidate interviews
- Faculty interviews
- Required course assignments
- Required course assessments

**Standard 7: Collaboration** – *The teacher will collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.*

**Knowledge**

1. The teacher understands the theory and elements of effective collaboration.
2. The teacher understands how to serve as a collaborative resource to colleagues.
3. The teacher understands how to use collaboration to promote the well-being of individuals with exceptionalities across a wide range of settings and collaborators.
4. The teacher understands how to collaborate with their general education colleagues to create learning environments that meaningfully include individuals with exceptionalities, and that foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement.
5. The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.

6. The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.

<i>Standard 7 Collaboration</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>7.1 Knowledge</i>		X	

**7.1 Analysis** – Candidate and faculty interviews, required course syllabi, and required course assignments provide evidence that candidates have knowledge about collaborating with families, other educators, related service providers, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences. Although evidence was sufficient for this standard, the EPP faculty and candidates have determined that this area is an area of growth and have already taken steps to increase the rigor of collaborative knowledge through new program designs and classes.

**Sources of Evidence**

- Required course syllabi
- Required course assignments
- Faculty interviews
- Candidate interviews

**Performance**

1. The teacher collaborates with the educational team to uphold current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.
2. The teacher collaborates with related-service providers, other educators including special education paraeducators, personnel from community agencies, and others to address the needs of individuals with exceptionalities.
3. The teacher involves individuals with exceptionalities and their families collaboratively in all aspects of the education of individuals with exceptionalities.

<b>Standard 7 Collaboration</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.2 Performance</b>		<b>X</b>	

**7.2 Analysis** – Faculty and candidate interviews, required course work samples, and required course assessments all provide evidence that candidates are able to effectively collaborate with families, other educators, related service providers, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.

***Sources of Evidence***

- Candidate interviews
- Faculty interviews
- Required course work samples
- Required course assignments

***Summary***

<b>Type of Standard</b>	<b>Total Number of Standards</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Knowledge</b>	<b>7</b>	<b>0</b>	<b>7</b>	<b>0</b>
<b>Performance</b>	<b>7</b>	<b>0</b>	<b>7</b>	<b>0</b>

***Areas for Improvement***

- Candidate interviews reveal a need for additional support, coursework, and opportunity to practice skills around literacy and literacy development.
- Candidates could benefit from a greater emphasis on Professional Ethical Principles and Practice standards to inform special education practice, as well as the chance to gain a deeper knowledge of education law.

***Recommended Action for Exceptional Child Generalists***

- Approved
- Conditionally approved
  - Insufficient evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO STANDARDS FOR SPECIAL EDUCATION TEACHERS OF STUDENTS WHO ARE DEAF/HARD OF HEARING**

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

**Knowledge**

1. The teacher understands how etiology, age of onset, age of identification, age at provision of services, and hearing status influence a student’s language development and learning.
2. The teacher understands that being deaf/hard of hearing alone does not necessarily preclude normal academic development, cognitive development, or communication ability.
3. The teacher understands how learning and language development occur and the impact of instructional choices on deaf/hard of hearing students so they achieve age appropriate levels of literacy, academics, and social emotional development.

<b><i>Standard 1 Learner Development</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>1.1 Knowledge</i></b>		<b>X</b>	

**1.1 Analysis**– The EPP provides sufficient evidence for indicators (1), (2), and (3), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of learner development for deaf or hard of hearing students.

***Sources of Evidence***

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher identifies levels of language and literacy development and designs lessons and opportunities that are appropriate.
2. The teacher identifies levels of language and general academics and designs lessons and opportunities that are appropriate.

3. The teacher identifies levels of social/emotional development and designs lessons and opportunities that are appropriate.

<i>Standard 1 Learner Development</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>1.2 Performance</i>	X		

**1.2 Analysis** – Due to lack of completers and/or current candidates, the program provides insufficient evidence that teacher candidates demonstrate an adequate ability to develop appropriate language, literacy, academic or social development lessons that meet the deaf or hard of hearing learner’s need.

***Sources of Evidence***

- Interviews with faculty

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

1. The teacher understands how hearing status may influence student development in the following areas: sensory, cognitive, communication, physical, behavioral, cultural, social, and emotional.
2. The teacher knows the characteristics and impacts of hearing status, and the subsequent need for alternative modes of communication and/or instructional strategies.
3. The teacher understands the need for English language learning for students whose native language is American Sign Language (ASL).
4. The teacher understands the need for differentiated instruction for language learning for emergent language users.
5. The teacher understands that an Individualized Education Plan (IEP), including all current State and Federal guidelines for deaf/hard of hearing students should consider the following: communication needs; the student and family’s preferred mode of communication; linguistic needs; hearing status and potential for using auditory access; assistive technology; academic level; and social, emotional, and cultural needs, including opportunities for peer interactions and communication.

<i>Standard 2 Learning Differences</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.1 Knowledge</i>		X	

**2.1 Analysis** – The EPP provides sufficient evidence for indicators (1), (2), (3), (4) and (5), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of learning differences for deaf or hard of hearing students.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher uses information concerning hearing status (i.e., sensory, cognitive, communication, linguistic needs); potential for using auditory access; academic level; social, emotional, and cultural needs in planning and implanting differentiated instruction and peer interactions and communication.

<i>Standard 2 Learning Differences</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.2 Performance</i>	X		

**2.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate an adequate ability to create differentiated learning experiences that support each deaf or hard of hearing learner to have access, and to progress in academic and social development.

**Sources of Evidence**

- Interviews with faculty

**Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.**

**Knowledge**

1. The teacher understands the unique social and emotional needs of students who are deaf/hard of hearing and knows strategies to facilitate the development of healthy self-esteem and identity.
2. The teacher understands that Deaf cultural factors, communication, and family influences impact classroom management of students.
3. The teacher understands the role of and the relationship among the teacher, interpreter, and student.

<b>Standard 3 Learning Environments</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.1 Knowledge</b>		<b>X</b>	

**3.1 Analysis** – The EPP provides sufficient evidence for indicators (1), (2), and (3), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of learning environments for deaf or hard of hearing students.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher designs a classroom environment to maximize opportunities for students’ visual and/or auditory access.
2. The teacher creates a learning environment that encourages self-advocacy and the development of a positive self-identity.
3. The teacher prepares students for the appropriate use of interpreters and support personnel.

<b>Standard 3 Learning Environments</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.2 Performance</b>	X		

**3.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate an adequate ability to create learning experiences that will implement developmentally appropriate and challenging learning experiences.

**Sources of Evidence**

- Interviews with faculty

**Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.**

**Knowledge**

1. The teacher understands the theories, history, cultural perspectives, philosophies, and models that provide the basis for education of the deaf/hard of hearing.
2. The teacher knows the various educational placement options and how they influence a deaf/hard of hearing student’s cultural identity and linguistic, academic, social, and emotional development.
3. The teacher understands the complex facets regarding issues related to deaf/hard of hearing individuals and working with their families (e.g., cultural and medical perspectives).

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – The EPP provides sufficient evidence for indicators (1), (2), and (3), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of content knowledge for deaf or hard of hearing students.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher uses the tools, models, and strategies appropriate to the needs of students who are deaf/hard of hearing.
2. The teacher educates others regarding the potential benefits, and constraints of the following: cochlear implants, hearing aids, other amplification usage, sign language systems, ASL, use of technologies, and communication modalities.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>	X		

**4.2 Analysis-** Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make the content meaningful for the deaf or hard of hearing learners.

**Sources of Evidence**

- Interviews with faculty

**Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**

**Knowledge**

1. The teacher understands the role of the interpreter and the use and maintenance of assistive technology.
2. The teacher knows resources, materials, and techniques relevant to communication choices (e.g., total communication, cued speech, ASL, listening and spoken language (LSL), hearing aids, cochlear implants, augmentative and assistive equipment, FM systems, and closed captioning).

<b>Standard 5 Application of Content</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>		X	

**5.1 Analysis** –The EPP provides sufficient evidence for indicators (1), (2), and (3), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of application of content for deaf or hard of hearing students.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher uses resources, materials, and techniques that promote effective instruction for students who are deaf/hard of hearing (e.g., total communication, cued speech, ASL, LSL, hearing aids, cochlear implants, augmentative and assistive technology, FM systems, and closed captioning).
2. The teacher meets and maintains the proficiency requirements of the linguistic and educational environment of the student/program. For teachers to be employed in programs where sign language is used for communication and instruction, the teacher will meet one of the following to demonstrate sign language proficiency: 1) score Intermediate Plus level or above as measured by the Sign Language Proficiency Interview (SLPI), 2) receive 3.5 or above on the Educational Interpreter Performance Assessment (EIPA), or 3) obtain the National Registry of Interpreters for the Deaf Certification (RID).
3. The teacher maintains a learning environment that facilitates the services of the interpreter, support personnel, and implementation of other accommodations.
4. The teacher provides instruction to students on the effective use of appropriate assistive technology.

<i><b>Standard 5 Application of Content</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>5.2 Performance</b></i>	<b>X</b>		

**5.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that candidates can demonstrate an adequate ability to apply connect concepts, engage students who are deaf or hard of hearing in critical thinking or collaborative problem solving.

**Sources of Evidence**

- Interviews with faculty

**Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.**

**Knowledge**

1. The teacher knows specialized terminology used in the assessment of students who are deaf/hard of hearing.
2. The teacher knows the appropriate assessment accommodations.
3. The teacher understands the components of an adequate evaluation for eligibility, placement, and program planning decisions for students who are deaf/hard of hearing.

<b>Standard 6 Assessment</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.1 Knowledge</b>		<b>X</b>	

**6.1 Analysis** – EPP provides sufficient evidence for indicators (1), (2), and (3), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of assessment for deaf or hard of hearing students.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher uses appropriate assessment tools that use the natural, native, or preferred language of the student who is deaf/hard of hearing.
2. The teacher designs and uses appropriate formative assessment tools.
3. The teacher gathers and analyzes communication samples to determine nonverbal and linguistic skills of students who are deaf/hard of hearing as part of academic assessment.
4. The teacher uses data from assessments to inform instructional decision making to develop present levels of performance (PLOP) and IEP goals.

<b>Standard 6 Assessment</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.2 Performance</b>	<b>X</b>		

**6.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates can demonstrate an adequate ability to use and apply multiple methods of assessment that result in being able to monitor progress and guide teacher and learner decision making for the deaf or hard of hearing learner.

**Sources of Evidence**

- Interviews with faculty

**Standard #7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher knows Federal and State special education laws (IDEA).
2. The teacher knows how to develop a meaningful and compliant IEP.

<b>Standard 7 Planning for Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.1 Knowledge</b>	X		

**7.1 Analysis** – The EPP provides insufficient evidence for indicator (2) within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet Standard 7, indicator 1 to provide an adequate understanding of Federal/state laws. But the syllabi do not show that learning to develop a compliant IEP is included in any of the classes. While the draft matrix classes might cover this important topic and skill, there is no clear evidence.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher, as an individual and a member of a team, selects and creates learning experiences that are: aligned to State curriculum standards, relevant to students, address and align to students’ IEP goals, based on principles of effective instruction and performance modes.
2. The teacher implements the IEP.

<i><b>Standard 7 Planning for Instruction</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>7.2 Performance</b></i>	<b>X</b>		

**7.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate planning for instruction that meets rigorous learning goals for students who are deaf or hard of hearing.

***Sources of Evidence***

- Interviews with faculty

**Standard #8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher knows how to enhance instruction through the use of technology, visual materials and experiential activities to increase outcomes for students who are deaf/hard of hearing.
2. The teacher knows how to develop instruction that incorporates critical thinking, problem solving, and performance skills.

<i><b>Standard 8 Instructional Strategies</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>8.1 Knowledge</b></i>		<b>X</b>	

**8.1 Analysis** – The EPP provides sufficient evidence for indicators (1), and (2), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of Instructional Strategies for deaf or hard of hearing students.

***Sources of Evidence***

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and the unique needs of students who are deaf/hard of hearing.
2. The teacher maintains a learning environment that facilitates the services of the educational interpreter, note taker, and other support personnel, as well as other accommodations.
3. The teacher enables students who are deaf/hard of hearing to use support personnel and assistive technology.

<i>Standard 8 Instructional Strategies</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>6.2 Performance</i>	X		

**8.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate application of a variety of strategies within their instruction for the deaf or hard of hearing learner.

**Sources of Evidence**

- Interviews with faculty

**Standard #9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

1. The teacher knows The Code of Ethics for Idaho Professional Educators.
2. The teacher knows about laws affecting deaf/hard of hearing citizens and students.
3. The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching for deaf/hard of hearing students.
4. The teacher is aware of the personal biases related to the field of education of deaf/hard of hearing children that affect teaching and knows the importance of presenting issues with objectivity, fairness, and respect.
5. The teacher knows where to find and how to access professional resources on teaching deaf/hard of hearing students and subject matters, and cultural perspectives.
6. The teacher knows about professional organizations within education in general and education of deaf/hard of hearing students and understands the need for professional activity and collaboration beyond the school.
7. The teacher understands the dynamics of change and recognizes that the field of education is not static.
8. The teacher knows how to use technology to enhance productivity and professionalism.

<b>Standard 9 Professional Learning and Ethical Practice</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – The EPP provides sufficient evidence for indicators (1), (2), (3), (4), (5), (6), (7), and (8), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of professional learning and ethical practice related to serving deaf or hard of hearing students.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.
2. The teacher adheres to local, state, and federal laws, including laws affecting deaf/hard of hearing citizens and students.
3. The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and current research in the field of education of deaf/hard of hearing students).
4. The teacher uses self-reflection as a means of improving instruction.
5. The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.
6. The teacher stays abreast of professional literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.
7. The teacher engages in professional discourse about subject matter knowledge and pedagogy, as well as knowledge and pedagogy related to the education of deaf/hard of hearing students.
8. The teacher uses technology to enhance productivity and professionalism.

<b>Standard 9 Professional Learning and Ethical Practices</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>	X		

**9.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate the practice of professional learning and ethical practice, as relates to working with the deaf or hard of hearing learner.

**Sources of Evidence**

- Interviews with faculty

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher understands the roles and responsibilities of teachers and support personnel in educational practice for deaf/hard of hearing students (e.g., educational interpreters, class teachers, transliterators, tutors, note takers, and audiologist).
2. The teacher knows of available resources.
3. The teacher understands the effects of communication on the development of family relationships and knows strategies to facilitate communication within a family that includes a student who is deaf/hard of hearing students.
4. The teacher knows the continuum of services provided by individuals and agencies in the ongoing support of students who are deaf/hard of hearing.

<b>Standard 10 Leadership and Collaboration</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.1 Knowledge</b>		X	

**10.1 Analysis** – The EPP provides sufficient evidence for indicators (1), (2), (3), and (4), within syllabi dated 2015, required coursework, faculty interviews, and a draft matrix for possible future course alignment. The evidence minimally demonstrates that the program is designed to meet the standard of an adequate understanding of learner development for deaf or hard of hearing students.

**Sources of Evidence**

- Syllabi from 2015
- Draft matrix for possible future program alignment to standards
- Interviews with faculty
- Course catalog

**Performance**

1. The teacher facilitates the coordination of support personnel (e.g., interpreters and transliterators) and agencies to meet the communication needs of students who are deaf/hard of hearing.
2. The teacher accesses and shares information about available resources with family and community.

<b>Standard 10 Leadership and Collaboration</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.2 Performance</b>	<b>X</b>		

**10.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate development of leadership and collaboration skills.

**Sources of Evidence**

- Interviews with faculty

**Summary**

<b>Type of Standard</b>	<b>Total Number of Standards</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>Knowledge</b>	<b>10</b>	<b>1</b>	<b>9</b>	<b>0</b>
<b>Performance</b>	<b>10</b>	<b>10</b>	<b>0</b>	<b>0</b>

**Areas for Improvement**

- Continue to collect evidence, artifacts, and data for candidates and completers to show EPP is meeting the standards for the Teacher of the Deaf or Hard of Hearing program.
- Continue and follow-through with plans for program alignment, provided in ISU’s draft matrix presented at the review.

**Recommended Action for Special Education Teachers of Students Who Are Deaf/Hard of Hearing**

- Approved
- Conditionally approved
  - Insufficient evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO STANDARDS FOR MATHEMATICS TEACHERS**

**Standard 1: Learner Development.** *The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Knowledge**

1. The teacher knows how to recognize students’ mathematical development, knowledge, understandings, ways of thinking, mathematical dispositions, interests, and experiences.
2. The teacher knows of learning progressions and learning trajectories that move students toward more sophisticated mathematical reasoning.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.1 Knowledge</b>		<b>X</b>	

**1.1 Analysis** – Required coursework, syllabi, candidate lesson plans, interviews and candidate instructional units, provide evidence that teacher candidates demonstrate both (1) and (2), in recognizing students’ mathematical development and understandings, and the trajectories to move students forward.

**Sources of Evidence**

- Course syllabi
- Evaluations by supervisor
- Education Dept. course requirements
- Candidate lesson and unit plans
- Candidate reflections
- Candidate interviews
- Faculty interviews

**Performance**

1. The teacher encourages students to make connections and develop a cohesive framework for mathematical ideas.
2. The teacher applies knowledge of learning progressions and trajectories when creating assignments, assessments, and lessons.
3. The teacher plans and facilitates learning activities that value students’ ideas and guide the development of students’ ways of thinking, and mathematical dispositions in line with research-based learning progressions.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>		X	

**1.2 Analysis** –Candidate and completer interviews, lesson plans, evaluations, and candidate reflections provide adequate evidence that teacher candidates demonstrate performance of (1) supporting students to make connections within the learning, (2) applying learning progressions in instruction, (3) working to plan lessons that connect with students’ interests and ways of thinking. Some examples provided in the evidence include thoughtful reflectiveness about student responses in a lesson and considering next steps, choosing examples or context for problems that relate to student interests.

**Sources of Evidence**

- Candidate lesson plans
- Evaluations by supervisor and mentor
- Candidate reflections
- Candidate and completer interviews

**Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.**

**Knowledge**

1. The teacher knows how to design lessons at appropriate levels of mathematical development, knowledge, understanding, and experience.
2. The teacher knows how to use assessment data and appropriate interventions for students.

<b>Standard 2 Learning Differences</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>		X	

**2.1 Analysis** –Required coursework and transcripts, candidate lesson plans & reflections and instructional units, provide adequate evidence that teacher candidates demonstrate an adequate understanding of individual differences that impact learners, (1) matching learner levels, and (2) using assessment to drive interventions for specific students.

**Sources of Evidence**

- Candidate lesson plans
- Candidate instructional units
- Candidates reflections
- Candidates’ transcripts
- Education Dept. course requirements

**Performance**

1. The teacher adjusts and modifies instruction while adhering to the content standards, in order to ensure mathematical understanding for all students.

<i>Standard 2 Learning Differences</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>2.2 Performance</i>		X	

**2.2 Analysis** –Candidate and completer interviews, lesson plans, and candidate reflections, provide evidence that teacher candidates demonstrate performance of adjusting and modifying instruction while adhering to content standards to support mathematical understanding for diverse learners. Examples provided in the evidence include detailed information within several lesson plans stating ways to accommodate a lesson activity for varied students in a class who have different learning needs.

**Sources of Evidence**

- Candidate lesson plans showing modifications for diverse learners (multiple examples)
- Candidate’s reflections
- Interviews with candidates and completers

**Standard 3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Standard 4: Content Knowledge.** *The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. The teacher knows a variety of problem-solving approaches for investigating and understanding mathematics.
2. The teacher understands concepts (as recommended by state and national mathematics education organizations) and applications of number and quantity, algebra, geometry (Euclidean and transformational), statistics (descriptive and infernal) and data analysis, and probability, functions, and trigonometry, and has the specialized and pedagogical content knowledge for teaching necessary for those concepts and applications to be implemented in the 6-12 curriculum.
3. The teacher knows how to make use of hands-on, visual, and symbolic mathematical models in all domains of mathematics.

4. The teacher knows how to use mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, conceptions, and makes connections between them.
5. The teacher knows the standards for mathematical practice, how to engage students in the use of those practices, and how they have shaped the discipline.

<b><i>Standard 4 Content Knowledge</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>4.1 Knowledge</i></b>		<b>X</b>	

**4.1 Analysis** –Syllabi, required coursework, candidate lesson plans, candidate instructional units, Praxis scores, and interviews provide adequate evidence that teacher candidates demonstrate an adequate understanding of Math content for (1) varieties of problem solving approaches (3) how to use hands on, visual, symbolic models, (4) use of mathematical argument to support use of algorithms, (5) standards of mathematical practice and how to engage students in such.

***Sources of Evidence***

- Course catalog/program course requirements
- Course syllabi
- Candidates lesson plans and unit plans for MS/ HS Math
- Praxis scores
- Candidate and completer interviews

**Performance**

1. The teacher connects the abstract and the concrete and asks useful questions to clarify or improve reasoning.
2. The teacher uses hands-on, visual, and symbolic mathematical models in all domains of mathematics.
3. The teacher uses mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, and conceptions, and makes connections between them.
4. The teacher implements the standards for mathematical practice and engages students in the use of those practices.

<b><i>Standard 4 Content Knowledge</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>4.2 Performance</i></b>		<b>X</b>	

**4.2 Analysis** –Candidate and Completer interviews, candidate reflections, and lesson plans provide adequate evidence that teacher candidates demonstrate performance of (1) connecting abstract with concrete, (2) using hands on, visual and symbolic models, (3) using mathematical argument to support connections with algorithms, and (4) implementing and engaging students in mathematical practice. Some strategies noted in the evidence include connecting decimals and percent with money and with banking, eliciting students to respond to questions that draw them to apply a concept in a new way, and multiple candidate created visual (within Power Points) models and real life items that connect to concepts.

**Sources of Evidence**

- Candidate and completer interviews
- Candidate lesson plans
- Candidate written reflections

**Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**

**Knowledge**

1. The teacher knows how to apply mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

<b>Standard 5 Application of Content</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>		X	

**5.1 Analysis** –Candidate lesson plans, candidate lesson plans, and candidate reflections provide evidence that teacher candidates demonstrate an adequate understanding of how to connect math content to other disciplines.

**Sources of Evidence**

- Candidate lesson plans
- Candidate written reflections
- Completer and candidate interviews

**Performance**

1. The teacher applies mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

<b>Standard 5 Application of Content</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.2 Performance</b>		X	

**5.2 Analysis** –Candidate and completer interviews, candidate lesson plans, and provide evidence that teacher candidates demonstrate performance of applying mathematics concepts and practice to other disciplines/ life applications. Some examples of applying math concepts to other areas of life included connecting percent and decimals to banking/savings accounts, and to loans, and also connecting several everyday items to recognize angles in them.

**Sources of Evidence**

- Candidate lesson plans
- Candidate written reflections
- Completer and candidate interviews

**Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.**

**Knowledge**

1. The teacher knows how to assess students’ mathematical reasoning.

<b>Standard 6 Assessment</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.1 Knowledge</b>		X	

**6.1 Analysis** –Required coursework, candidate lesson plans and instructional units, and interviews provide evidence that teacher candidates demonstrate an adequate understanding of how to assess students’ mathematical reasoning.

**Sources of Evidence**

- Candidate and completer interviews
- Candidate Lesson plans and units
- Required courses

**Performance**

1. The teacher assesses students’ mathematical reasoning.

<b>Standard 6 Assessment</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.2 Performance</b>		x	

**6.2 Analysis** – Candidate and completer interviews, and lesson plans provide evidence that teacher candidates demonstrate adequate performance of assessing students’ mathematical reasoning through multiple strategies. Some examples provided in evidence included multiple formative assessments: exit tickets, attending to student oral responses, use of visual/ concrete

demonstrations, listening to group or partner discussions, as well as custom made short quizzes to target specific concepts.

**Sources of Evidence**

- Candidate and completer interviews
- Danielson evaluations by supervisor
- Candidate Lesson plans and materials, and units
- Danielson process reflective report from candidate

**Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.**

**Knowledge**

1. The teacher knows content and practice standards for mathematics and understands how to design instruction to help students meet those standards.
2. The teacher knows how to plan learning activities that help students move from their current understanding through research-based learning progressions.

<b>Standard 7 Planning for Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.1 Knowledge</b>		X	

**7.1 Analysis**–Required coursework, Syllabi, candidate lesson plans, and candidate instructional units, provide evidence that teacher candidates demonstrate an adequate understanding of (1) content and practice standards, and (2) how to plan learning activities to move students forward in their learning.

**Sources of Evidence**

- Candidate lesson plans
- Candidate unit plans
- Required courses
- Syllabi for required courses

**Performance**

1. The teacher plans and assesses instructional sequences that engage students in learning the formal structure and content of mathematics with and through mathematical practices.

<b>Standard 7 Planning for Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.2 Performance</b>		X	

**7.2 Analysis** –Candidate and completer interviews, and lesson plans, candidate unit plans, and Danielson evaluations provide evidence that teacher candidates demonstrate performance of planning and assessing within instructional sequences to support engaging students in learning and in mathematical practices. Examples provided included materials created for lessons, such as candidate created Power Points with many visuals, use of Essential Questions, inclusion in lesson plans of strategies and accommodations to draw all students into the learning.

**Sources of Evidence**

- Candidate lesson plans
- Materials created for lessons
- Candidate reflections on lesson implementations
- Candidate unit plans
- Candidate and completer interviews
- Danielson evaluations by supervisor or mentor
- Praxis scores of candidates

**Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.**

**Knowledge**

1. The teacher knows how to formulate or access questions and tasks that elicit students’ use of mathematical reasoning and problem-solving strategies.
2. The teacher knows a variety of instructional strategies for investigating and understanding mathematics including inquiry, discourse, and problem-solving approaches.
3. The teacher knows how to facilitate expression of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.
4. The teacher understands the appropriate use of technology in teaching and learning of mathematics (e.g., graphing calculators, dynamic geometry software, statistical software).
5. The teacher knows how to use student conceptions and misconceptions to guide and facilitate learning.

<b>Standard 8 Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.1 Knowledge</b>		X	

**8.1 Analysis** – Candidate lesson plans, candidate unit plans, candidate reflections, Danielson evaluations conducted by supervisor, and candidate reflection papers provide evidence that teacher candidates demonstrate an adequate understanding of Instructional Strategies, (1) how

to formulate questions to elicit student use of problem solving strategies, (2) know a variety of strategies for investigating and understanding math, (3) how to facilitate using various mathematical representations, (4) understand appropriate use of technology in math instruction, (5) how to student misconceptions in the learning process.

***Sources of Evidence***

- Candidate lesson plans
- Candidate unit plans
- Danielson evaluations done by supervisor
- Candidate reflections
- Candidate and completer interviews

**Performance**

1. The teacher poses questions and tasks that elicit students’ use of mathematical reasoning and problem-solving strategies.
2. The teacher uses a variety of instructional strategies for investigating and understanding mathematics, including inquiry and problem-solving approaches.
3. The teacher facilitates exploration of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.
4. The teacher uses technology appropriately in the teaching and learning of (e.g., graphing calculators, dynamic geometry software, statistical software).
5. The teacher uses student conceptions and misconceptions to guide and facilitate learning.

<b><i>Standard 8 Instructional Strategies</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>8.2 Performance</i></b>		<b>X</b>	

**8.2 Analysis** – Candidate and completer interviews, lesson and unit plans and materials created for instruction provide evidence that teacher candidates demonstrate performance of (1) posing questions or tasks to elicit student use of reasoning and problem solving, (2) using a variety of instructional strategies to build student understanding, (3) promote student use of various mathematical representations, (5) use student misconceptions to guide and facilitate learning. Examples of strategies used as found in the artifacts provided include formative assessment strategies (exit tickets, shoulder partner sharing, checking for understanding), breaking up a class period by providing several activities with some providing movement, use of visuals and concrete examples, connecting math concepts to real life.

**Sources of Evidence**

- Candidate lesson plans
- Candidate unit plans
- Candidate Power Point presentations within lessons
- Candidate and completer interviews
- Supervisor Danielson evaluations

**Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.**

**Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.**

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	7	0	7	0
Performance	7	0	7	0

**Areas for Improvement**

- Development and implementation of a minimum two-credit course focused on secondary mathematics pedagogy. ISU currently offers and requires Elementary Math Methods for those seeking an Elementary Teacher Degree. While ISU recently implemented a new class to address this need at the secondary, Advanced Math Methods, it is not a required class for the program.  
Consider exploring the factors leading to many of the candidates’ struggles to pass the Math Praxis (data provided from 2017-18 for 6-12<sup>th</sup> grade Praxis: 9 students, 25 total attempts, 3 have passed at this point).

**Recommended Action for Mathematics**

- Approved
- Conditionally approved
  - Insufficient evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO FOUNDATION STANDARDS FOR PROFESSIONAL-TECHNICAL TEACHERS**

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught, and creates learning experiences that make these aspects of subject matter meaningful for learners.***

**Knowledge**

1. The teacher understands basic technological principles, processes, and skills such as design and problem solving, team decision making, information gathering, and safety.
2. The teacher understands how basic academic skills and advanced technology can be integrated into an occupational learning environment.
3. The teacher understands industry logistics, technical terminologies, and procedures for the occupational area.
4. The teacher understands industry trends and labor market needs.
5. The teacher understands workplace leadership models.
6. The teacher understands the philosophical principles and the practices of professional-technical education.
7. The teacher understands the importance of student leadership qualities in technical program areas.

<b><i>Standard 1 Knowledge of Subject Matter</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>1.1 Knowledge</i></b>		<b>X</b>	

**1.1 Analysis** –Syllabi, candidate portfolio entries, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of knowledge of subject matter.

***Sources of Evidence***

- CFS 1100 candidate portfolio assignment
- CFS 3314 syllabus objectives and course plan
- Candidate lesson plans (food truck wars, flowerpot families, etc.)
- NTD 2239 syllabus

**Performance**

1. The teacher maintains current technical skills and seeks continual improvement.
2. The teacher demonstrates specific occupational skills necessary for employment.

3. The teacher uses current terminology, industry logistics, and procedures for the occupational area.
4. The teacher incorporates and promotes leadership skills in state-approved Professional-Technical Student Organizations (PTSO).
5. The teacher writes and evaluates occupational objectives and competencies.
6. The teacher uses a variety of technical instructional resources.
7. The teacher assesses the occupational needs of the community.
8. The teacher facilitates experiences designed to develop skills for successful employment.
9. The teacher informs students about opportunities to develop employment skills (e.g., work-study programs, internships, volunteer work, and employment opportunities).

<i>Standard 1 Knowledge of Subject Matter</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>1.2 Performance</i>	X		

**1.2 Analysis** – Work samples and lesson plans provide some evidence that teacher candidates demonstrate performance of knowledge of subject matter. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate lesson plans (six essential nutrients, food truck wars, etc.)
- Candidate comprehensive portfolio entries
- Faculty interview

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.**

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.**

**Knowledge**

1. The teacher understands the entry-level skills in the occupation.
2. The teacher understands workplace culture and ethics.
3. The teacher understands how to provide students with realistic occupational and/or work experiences.

4. The teacher knows how to use education professionals, trade professionals, and research to enhance student understanding of processes, knowledge, and safety.
5. The teacher understands how occupational trends and issues affect the workplace.
6. The teacher understands how to integrate academic skills into technical content areas.
7. The teacher understands the role of innovation and entrepreneurship in the workplace.
8. The teacher understands integration of leadership training, community involvement, and personal growth into instructional strategies.

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		<b>X</b>	

**4.1 Analysis** –Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of multiple instructional strategies.

**Sources of Evidence**

- CFS 3332 syllabus
- Technology portfolio assignment
- BED 3341, BED 3342, BED 3343 syllabi
- Candidate lesson plans

**Performance**

1. The teacher models appropriate workplace practices and ethics.
2. The teacher discusses state guidelines to aid students in understanding the trends and issues of an occupation.
3. The teacher integrates academic skills appropriate for each occupational area.
4. The teacher uses simulated and/or authentic occupational applications of course content.
5. The teacher uses experts from business, industry, and government as appropriate for the content area.
6. The teacher develops a scope and sequence of instruction related to the students' prior knowledge and that aligns with articulation requirements and course competencies.
7. The teacher integrates instructional strategies and techniques that accommodate prior student knowledge.
8. The teacher discusses innovation and the entrepreneurial role in the workforce and incorporates them where possible.

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>	X		

**4.2 Analysis** –Work samples, observations of candidate, and candidate unit and lesson plans provide evidence that teacher candidates demonstrate performance of multiple instructional strategies. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate technology portfolio
- Candidate lesson plans (money matters, etc.)
- Candidate unit plans (food truck wars, etc.)
- University supervisor, cooperating teacher, and principal observations

**Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

**Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.**

**Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.**

**Knowledge**

1. The teacher recognizes the scope and sequence of content and PTSOs across secondary and postsecondary technical curricula.
2. The teacher knows how to identify community and industry expectations and access resources.

<b>Standard 7 Instructional Planning Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.1 Knowledge</b>		X	

**7.1 Analysis** –Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of instructional planning skills.

**Sources of Evidence**

- CFS 3332 syllabi
- CFS 1100 syllabi

- Candidate lesson plans
- Faculty interview

**Performance**

1. The teacher designs instruction that aligns with secondary and postsecondary curricula that develops technical competencies.
2. The teacher designs instruction to meet community and industry expectations.

<i><b>Standard 7 Instructional Planning Skills</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>7.2 Performance</b></i>	<b>X</b>		

**7.2 Analysis** –Work samples and lesson plans provide evidence that teacher candidates demonstrate performance of instructional planning skills. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate lesson plans
- Candidate unit plans (food truck wars, etc.)
- Domain 1 & 4 candidate professional response narratives

**Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.**

**Knowledge**

1. The teacher knows how to use information about a student’s progress, including assessments, to evaluate work-readiness.
2. The teacher knows how to conduct a follow-up survey of graduates and how to use the information to modify curriculum and make program improvement.
3. The teacher understands how evaluation connects to instruction.

<i><b>Standard 8 Assessment of Student Learning</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>8.1 Knowledge</b></i>		<b>X</b>	

**8.1 Analysis** –Required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of assessment of student learning.

***Sources of Evidence***

- Candidate instructional units (personal development unit, etc.)
- Candidate lesson plans (family flowerpots, etc.
- Pre- and post-test reflection assignment

**Performance**

1. The teacher writes and evaluates occupational goals, objectives, and competencies.
2. The teacher develops clear learning objectives and creates and integrates appropriate assessment tools to measure student learning.
3. The teacher modifies the curriculum, instruction, and the program based on student progress and follow-up data from recent graduates and employers.

<b><i>Standard 8 Assessment of Student Learning</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>8.2 Performance</i></b>	<b>X</b>		

**8.2 Analysis** – Work samples, lesson plans, and candidate observations provide evidence that teacher candidates demonstrate performance of assessment of student learning. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

***Sources of Evidence***

- Pre- and post-test reflection (personal development unit, etc.)
- Domain 3 candidate professional response narratives
- University supervisor, cooperating teacher, and principal observations

***Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continually engaged in purposeful mastery of the art and science of teaching.***

**Knowledge**

1. The teacher understands the value and impact of having a professional development plan.
2. The teacher understands how sustained professionalism reflects on him or her as an educator and as a representative of his or her industry.

<b>Standard 9 Professional Commitment and Responsibility</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – Candidate student teaching observations, candidate portfolio, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of professional commitment and responsibility.

**Sources of Evidence**

- University supervisor, cooperating teacher, principal candidate observations
- Domain 4 candidate professional response narrative activity
- Candidate educational philosophy statement
- Domain 4 candidate reflection narrative assignment

**Performance**

1. The teacher collaborates with an administrator to create a professional development plan.
2. The teacher evaluates and reflects on his or her own level of professionalism as an educator and as a representative of his or her industry.

<b>Standard 9 Professional Commitment and Responsibility</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>	X		

**9.2 Analysis** – Work samples, candidate observations, and professional development plans provide evidence that teacher candidates demonstrate performance of professional commitment and responsibility. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Domain 4 candidate professional response narrative
- University supervisor, cooperating teacher, and principal candidate observations
- Candidate individualized professional learning plan (IPLP)

**Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.**

**Knowledge**

1. The teacher knows the contributions of advisory committees.

2. The teacher understands the importance of using the employment community to validate occupational skills.
3. The teacher understands how to effect change in professional-technical education and in the occupational area taught.
4. The teacher knows about professional organizations within the occupational area.
5. The teacher knows how to cooperatively develop articulation agreements between secondary and postsecondary programs.
6. The teacher understands the structure of state-approved PTSOs.
7. The teacher understands the ideas, opinions, and perceptions of business and industry.

<i><b>Standard 10 Partnerships</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>10.1 Knowledge</b></i>		<b>X</b>	

**10.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of partnerships.

***Sources of Evidence***

- CFS 3332 syllabus
- Domain 4 candidate professional response narrative
- Candidate lesson and unit plans
- EDUC 2204 partnership project

**Performance**

1. The teacher establishes and uses advisory committees for program development and improvement.
2. The teacher cooperates with educators in other content areas to develop appropriate instructional strategies and to integrate learning.
3. The teacher interacts with business, industry, labor, government, and the community to build effective partnerships.
4. The teacher participates in appropriate professional organizations.
5. The teacher cooperatively constructs articulation agreements.
6. The teacher incorporates an active state-approved PTSO in his or her program.
7. The teacher understands the role of PTSOs as an integral part of the total professional-technical education program.

<i>Standard 10 Partnerships</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<b>10.2 Performance</b>	<b>X</b>		

**10.2 Analysis** – Work samples and candidate lesson plans provide evidence that teacher candidates demonstrate performance of partnerships. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Domain 4 candidate professional response narrative
- Candidate lesson plans
- Candidate unit plans

**Standard 11: Learning Environment - The teacher creates and manages a safe and productive learning environment.**

**Knowledge**

1. The teacher understands how to dispose of waste materials.
2. The teacher understands how to care for, inventory, and maintain materials and equipment.
3. The teacher understands safety contracts and operation procedures.
4. The teacher understands legal safety issues related to the program area.
5. The teacher understands safety requirements necessary to conduct laboratory and field activities.
6. The teacher understands time and organizational skills in laboratory management.
7. The teacher is aware of safety regulations at school and work sites.
8. The teacher understands how to incorporate PTSOs as intracurricular learning experiences.

<i>Standard 11 Learning Environment</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<b>11.1 Knowledge</b>		<b>X</b>	

**11.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of learning environment.

**Sources of Evidence**

- CFS 3314 syllabus
- NTD 1139 syllabus
- Domain 1 & 2 candidate professional response narrative

**Performance**

1. The teacher ensures that facilities, materials, and equipment are safe to use.
2. The teacher instructs and models safety procedures and documents safety instruction, and updates each according to industry standards.
3. The teacher demonstrates effective management skills in the classroom and laboratory environments.
4. The teacher models and reinforces effective work and safety habits.
5. The teacher incorporates PTSOs as intra-curricular learning experiences.

<i>Standard 11 Learning Environment</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>11.2 Performance</i>	X		

**11.2 Analysis** –Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of learning environment. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Domain 2 student analysis of strengths
- Domain 1 candidate professional response narrative
- University supervisor, cooperating teacher, and principal candidate observations

**Standard 12: Workplace Preparation - The teacher prepares students to meet the ~~competing~~ demands and responsibilities of the workplace.**

**Knowledge**

1. The teacher understands workplace employability skills and related issues.
2. The teacher understands the issues of balancing work and personal responsibilities.
3. The teacher understands how to promote career awareness.

<i>Standard 12 Workplace Preparation</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>12.1 Knowledge</i>		X	

**12.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of workplace preparation.

**Sources of Evidence**

- CFS 4431 syllabus

- Candidate unit plan with career plan capstone activity
- Candidate portfolio assignment for standard 12

**Performance**

1. The teacher designs instruction that addresses employability skills and related workplace issues.
2. The teacher discusses how to balance demands between work and personal responsibilities.
3. The teacher provides opportunities for career awareness and exploration.

<b>Standard 12 Workplace Preparation</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>12.2 Performance</b>	<b>X</b>		

**12.2 Analysis** – Faculty interview, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of workplace preparation. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate portfolio project
- Faculty interview
- Candidate philosophy of education/career technical education

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
<b>Knowledge</b>	<b>8</b>	<b>0</b>	<b>8</b>	<b>0</b>
<b>Performance</b>	<b>8</b>	<b>8</b>	<b>0</b>	<b>0</b>

**Areas for Improvement**

- All performance areas are solid, but lack completers that would allow the program to be approved.

**Recommended Action for Foundation Standards for Professional-Technical**

- Approved
- Conditionally approved
  - Insufficient Evidence
  - Lack of completers
  - New Program
- Not approved

## IDAHO STANDARDS FOR FAMILY AND CONSUMER SCIENCES TEACHERS

***Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.***

### **Knowledge**

1. The teacher understands the significance of family and its impact on the well-being of children, adults, and society and the multiple life roles and responsibilities in family, career, and community settings.
2. Teacher understands the impact of families' multiple roles within the home, workplace and community.
3. The teacher knows of community agencies and organizations that provide assistance to individuals and families.
4. The teacher understands how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.
5. The teacher understands the roles and responsibilities of parenting and factors that affect human growth and development across the life span.
6. The teacher understands the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, cultural and economic needs of individuals, families, and industry; along with practices to encourage wellness for life.
7. The teacher understands the design, selection, and care of textiles and apparel products.
8. The teacher understands housing, design, furnishings, technology, and equipment needs for individuals, families, and industry.
9. The teacher understands consumer economic issues and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.
10. The teacher understands resource conservation and environmental issues in relation to family and community health.
11. The teacher understands the nature of the profession and knows of careers related to family and consumer sciences.
12. The teacher understands how social media can influence communication and outcomes between individuals, family members, and community connections.
13. The teacher understands how to incorporate Family, Career and Community Leaders of America (FCCLA) as intra-curricular learning experiences.

<i><b>Standard 1 Knowledge of Subject Matter</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>1.1 Knowledge</b></i>		X	

**1.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of knowledge of subject matter enhancement standards.

***Sources of Evidence***

- NTD 2239 syllabus
- CFS 3314 syllabus
- Elements & principles of housing and design candidate lesson plan
- Candidate lesson plan (flowerpots and family)

**Performance**

1. The teacher demonstrates a command of instructional methodology in the delivery of family and consumer sciences content at the middle and secondary school levels.
2. The teacher integrates Family, Career and Community Leaders of America, FCCLA into family and consumer sciences instruction.
3. The teacher validates the significance of family and its impact on the well-being of children, adults, individuals and society and the multiple life roles and responsibilities in family, work career, and community settings.
4. The teacher selects and creates learning experiences that include the impact of families' multiple roles within the home, workplace and community
5. The teacher knows of community agencies and organizations that provide assistance to individuals and families.
6. The teacher selects and creates learning experiences that include how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.
7. The teacher promotes the roles and responsibilities of parenting and factors that affect human growth and development across the life span.
8. The teacher incorporates the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, and cultural and economic needs of individuals, and families, and industry; along with practices to encourage wellness for life.
9. The teacher demonstrates the design, selection, and care of textiles and apparel products.

10. The teacher demonstrates housing, design, furnishings, technology, and equipment needs for individuals, and families, and industry.
11. The teacher integrates consumer economic issues about and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.
12. The teacher integrates resource conservation and environmental issues in relation to family and community health.
13. The teacher maintains an awareness of the nature of the profession and knows of careers related to family and consumer sciences.

<b>Standard 1 Knowledge of Subject Matter</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>	X		

**1.2 Analysis** – Work sample and lesson plans provide evidence that teacher candidates demonstrate performance of knowledge of subject matter. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate lesson plans
- Candidate unit plans
- Candidate teaching activities (protein advertisement, food truck wars, etc.)

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Knowledge**

1. The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, physical, emotional and moral development.

<b>Standard 2 Knowledge of Human Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>		X	

**2.1 Analysis** – Candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of human development and learning.

**Sources of Evidence**

- Domain 3 candidate professional response narrative
- Candidate portfolio assignment
- Candidate Lesson and Unit Plans

**Performance**

1. The teacher develops lessons which focus on progressions and ranges of individual variation within intellectual, social, physical, emotional and moral development and their interrelationships.

<b>Standard 2 Knowledge of Human Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.2 Performance</b>	X		

**2.2 Analysis** – Work samples and lesson plans provide evidence that teacher candidates demonstrate performance of knowledge of human development standard. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- University supervisor, cooperating teacher, and principal candidate observations
- Candidate child development exam (adapted)
- Domain 1 professional response candidate narrative

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.**

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.**

**Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

**Knowledge**

1. The teacher understands individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.

<b>Standard 5 Classroom Motivation and Management Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>		X	

**5.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of classroom motivation and management skills.

**Sources of Evidence**

- CFS 3302 candidate portfolio
- Candidate lesson plans
- Candidate unit plans
- Candidate lesson reflection

**Performance**

1. The teacher promotes individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.

<b>Standard 5 Classroom Motivation and Management Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.2 Performance</b>	X		

**5.2 Analysis** – Work samples, candidate observations, and lesson plans provide evidence that teacher candidates demonstrate performance of classroom motivation and management skills. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate classroom management plans
- University supervisor, cooperating teacher, and principal candidate observations
- Candidate case analysis

**Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.**

**Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.**

**Knowledge**

1. The teacher understands how to apply knowledge about the current subject matter, learning theory, instructional strategies, curriculum development, evaluation, and child and adolescent development to meet curriculum goals using family and consumer sciences national standards and other resources.
2. The teacher understands how program alignment across grade levels and disciplines maximizes learning.

<b>Standard 7 Instructional Planning Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.1 Knowledge</b>		X	

**7.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of instructional planning skills.

**Sources of Evidence**

- CFS 3332 syllabus
- SPED 3350 Universal Design for Learning (UDL) candidate lesson plan
- Faculty interview

**Performance**

1. The teacher maximizes such elements as instructional materials; individual student interests, needs, and aptitudes; technology and community resources in planning instruction that creates an effective bridge between curriculum goals and students learning.

<b>Standard 7 Instructional Planning Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.2 Performance</b>	X		

**7.2 Analysis** – Work samples and lesson plans provide evidence that teacher candidates demonstrate performance of instructional planning skills. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate lesson plans
- Candidate unit plans
- University supervisor, cooperating teacher, and principal candidate observations

**Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.**

**Knowledge**

1. The teacher understands formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

<b>Standard 8 Assessment of Student Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.1 Knowledge</b>		X	

**8.1 Analysis** –Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of assessment of student learning.

**Sources of Evidence**

- CFS 3332 syllabus
- Candidate lesson and unit plans (food truck wars, etc.)
- Candidate unit plan assessment reflection narrative

**Performance**

1. The teacher uses and interprets formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

<b>Standard 8 Assessment of Student Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.2 Performance</b>	X		

**8.2 Analysis** – Work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of assessment of student learning. Consider linking with Content Specialist Partners through the ISU College of Technology to have students better understand the connection to industry standards and certifications. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

**Sources of Evidence**

- Candidate Personal Development Pre- and Post-Test Unit Reflection
- Candidate Portfolio Entries

**Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.**

**Knowledge**

1. The teacher understands how to research and select relevant professional development aligned to curriculum and industry standards.

<b>Standard 9 Professional Commitment and Responsibility</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of professional commitment and responsibility.

**Sources of Evidence**

- University supervisor, cooperating teacher, and principal candidate observations
- Candidate College of Education dispositions
- Candidate teaching reflection

**Performance**

1. The teacher participates in continual relevant professional development in order to stay current in content areas.

<b>Standard 9 Professional Commitment and Responsibility</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>	X		

**9.2 Analysis** – Work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of professional commitment and responsibility. Lack of completers in the FCS educator preparation program limited the ability to generalize the evidence to the full program.

***Sources of Evidence***

- Candidate visible learning evaluation – depth of complexity clues
- Candidate teaching reflection
- Candidate Individualized Professional Learning Plan

***Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.***

***Summary***

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	6	0	6	0
Performance	6	6	0	0

***Areas for Improvement***

- Consider how to expose and grow students with regard to connecting with industry partners through Technical Advisory Committees, industry resources, etc.
- All performance areas are solid, but lack completers that would allow the program to be approved.

***Recommended Action for Family and Consumer Sciences***

- Approved
- Conditionally approved
  - Insufficient Evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO FOUNDATION STANDARDS FOR SCIENCE TEACHERS**

**Standard 1: Learner Development.** *The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Knowledge**

1. The teacher knows how students use Science and Engineering Practices and Crosscutting Concepts to develop understanding of the Disciplinary Core Ideas.
2. The teacher knows common misconceptions and/or partial understandings of scientific disciplinary core ideas and how they develop and affect student learning.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.1 Knowledge</b>		X	

**1.1 Analysis** – The collection of evidence provided by the EPP reveals that teacher candidates demonstrate an acceptable understanding of the foundational knowledge indicators as listed under standard one. This standard is supported by evidence across the indicators consisting of course objectives and outcomes with suggested assessments, and candidate work samples. Further evidence was gathered through interviews with recent completers, current candidates, and content faculty. 100% of the indicators were supported by sufficient and aligned evidence. PRAXIS II scores revealed that teacher candidates demonstrate an acceptable understanding of their science content and the nature of scientific knowledge and how to articulate the importance of engaging in the process of science.

**Sources of Evidence**

- Course Syllabi for CHEM 1111, 1112 and 4400 were provided
- Praxis scores
- Interviews with current candidates

**Performance**

1. The teacher addresses common misconceptions and/or partial understandings of scientific disciplinary core ideas as they develop and affect student learning.
2. The teacher utilizes Science and Engineering Practices and Crosscutting Concepts to develop student understanding of the Disciplinary Core Ideas.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>		X	

**1.2 Analysis** – The collection of evidence from the EPP included candidate portfolio lesson plans, student teaching unit plans, and additional lesson plan reflections. Little portfolio evidence was present that teacher candidates can demonstrate an adequate ability to create learning experiences that make the concepts of science, tools of inquiry, structure of scientific knowledge, and the processes of science meaningful to students through the use of materials and resources that support instructional goals and learning activities, including laboratory and field activities, that are consistent with curriculum goals and reflect principles of effective instruction. While learning activities in candidate work samples included demos and lab-based activities, many activities were focused on lower-level thinking tasks (e.g. note taking, multiple choice test questions, worksheets).

**Sources of Evidence**

- Teacher candidate lesson plans
- Teacher candidate evaluations
- Teacher candidate observations

**Standard 2: Learning Differences.** *The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

**Standard 3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Standard 4: Content Knowledge.** *The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. The teacher understands the Idaho State Science Standards within their appropriate certification, including all components.
2. The teacher is familiar with how history has shaped our current understanding of the nature of science and scientific processes.
3. The teacher understands the core ideas of their respective discipline (i.e. Disciplinary Core Ideas).

4. The teacher understands the interconnectedness among the science disciplines (i.e. Crosscutting Concepts).
5. The teacher understands the processes of science (i.e. Science and Engineering Practices).

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – Data gathered by the EPP reveal course syllabi and course objectives. Topics across science content included in course syllabi, PRAXIS II scores, and candidate/completer interviews provide evidence that teacher candidates demonstrate an adequate understanding of their science content and the nature of scientific knowledge and how to articulate the importance of engaging in the process of science.

**Sources of Evidence**

- Syllabi and course objectives/outcomes/assessments
- Praxis two test scores
- Teacher Candidate and Completer interviews

**Performance**

1. The teacher designs and implements lessons (e.g. activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.
2. The teacher uses diverse examples from history to teach how our current understanding of the nature of science and scientific processes has changed.
3. The teacher uses the core ideas of their respective discipline (i.e. Disciplinary Core Ideas) to design and implement lessons.
4. The teacher designs and implements lessons (e.g. activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.
5. The teacher models and guides students in the use of the processes of science. (i.e. Science and Engineering Practices).

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – Candidate portfolios, and other course lesson plans provide minimal evidence that teacher candidates demonstrate an adequate ability to appropriately use models, simulations, laboratory and field activities, and demonstrations for larger groups, where appropriate, to facilitate students' critical thinking, problem solving, and performance skills. A majority of candidate work samples emphasized traditional information delivery/lecture-based teaching (outside of lab-based learning situations).

**Sources of Evidence**

- Candidate Lesson Plans
- Candidate Portfolios
- Candidate work samples

**Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**

**Knowledge**

1. The teacher knows how to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

<b>Standard 5 Application of Content</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>	<b>X</b>		

**5.1 Analysis** – Some work samples (EDUC 449 student teaching portfolios) were provided, but little or no evidence that teacher candidates demonstrate an adequate knowledge of how to use standard forms of scientific communications in their fields (i.e., graphs, technical writing, results of mathematical analysis, scientific posters, and multimedia presentations). During the interview session, candidates and completers as well as supervisors described their ability to utilize content knowledge to connect concepts and utilize differing perspectives to engage learners. Little evidence was provided to show depth of critical thinking or collaboration to solve problems.

**Sources of Evidence**

- Student Portfolios
- Interviews with completers, teacher candidates, university supervisors and cooperating teachers

**Performance**

1. The teacher designs opportunities to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

<i>Standard 5 Application of Content</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>5.2 Performance</i>	X		

**5.2 Analysis** – Some work samples (EDUC 497 Student teaching portfolio and a school visit interview/observation) including the use of technology, graphs, and data were provided, but overall there was little or no evidence that teacher candidates demonstrate an adequate ability to engage students in the practical application of standard forms of scientific communications in their fields (i.e., graphs, technical writing, results of mathematical analysis, scientific posters, and multimedia presentations). Overall, evidence did not demonstrate an emphasis on the teaching and use of varied standard communication forms in science.

**Sources of Evidence**

- Teacher candidate portfolios

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.*

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher understands how to implement Science and Engineering Practices in instructional planning.
2. The teacher understands how to use research based best practices to engage a diverse group of students in learning science (e.g. project-based learning, 5E Instruction, place-based).
3. The teacher understands how to apply mathematics and technology to analyze, interpret, and display scientific data.
4. The teacher understands technical writing as a way to communicate science concepts and processes.

<i>Standard 8 Instructional Strategies</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>8.1 Knowledge</i>		X	

**8.1 Analysis** – Required course syllabi and course objectives provide minimal evidence that teacher candidates demonstrate an adequate understanding of methods of inquiry and how to apply mathematics and technology to analyze, interpret, and display data.

**Sources of Evidence**

- Syllabi from CHEM 1111, 1112, 1112L, 2211, 2232, 2234
- Course objectives, outcomes and stated assessments

**Performance**

1. The teacher implements Science and Engineering Practices in instructional planning.
2. The teacher uses research-based practices to engage a diverse group of students in learning science (e.g. project-based learning, 5E Instruction, place-based).
3. The teacher designs lessons which allow students to utilize mathematics and technology to analyze, interpret, and display scientific data.

<b>Standard 8 Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.2 Performance</b>		<b>X</b>	

**8.2 Analysis** – Candidate portfolios, and other course lesson plans provide minimal evidence that teacher candidates demonstrate an adequate ability to appropriately use models, simulations, laboratory and field activities, and demonstrations for larger groups, where appropriate, to facilitate students' critical thinking, problem solving, and performance skills. A majority of candidate work samples did not emphasize true inquiry learning and instead emphasized traditional information delivery/lecture-based teaching (outside of lab-based learning situations).

**Sources of Evidence**

- Portfolio examples for teacher candidates
- Lesson plans from teacher candidates
- Interviews with candidates and completers

**Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.**

**Knowledge**

1. The teacher understands the importance of keeping current on research related to how students learn science.
2. The teacher understands the importance of keeping current on scientific research findings.

<i><b>Standard 9 Professional Learning and Ethical Practice</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>9.1 Knowledge</b></i>		X	

**9.1 Analysis** – Required course syllabi, interviews and some portfolios indicate that an emphasis on current science research occurs in some science content classes. The program provides evidence that teacher candidates demonstrate an adequate knowledge of recent developments in their fields and of how students learn science.

***Sources of Evidence***

- Syllabi from CHEM 1111, 1112 and 4400
- Teacher Candidate Portfolio
- Interviews

**Performance**

1. The teacher incorporates current research related to student learning of science into instructional design.
2. The teacher incorporates current scientific research findings into instructional design.

<i><b>Standard 9 Professional Learning and Ethical Practice</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>9.2 Performance</b></i>	X		

**9.2 Analysis** – Due to lack of artifacts, the program provides no evidence that teacher candidates demonstrate an adequate ability to incorporate an understanding of recent developments in their fields and knowledge of how students learn science into instruction. There was some knowledge evidence about the reading/discussion of scientific or educational journals in methods course syllabi, but there was not a consistent pattern of application of research in candidate lessons/units. Neither of the performance indicators were met in this standard.

***Sources of Evidence***

- No evidence

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Standard 11: Safety - The science teacher demonstrates and maintains chemical safety, safety procedures, and the ethical treatment of living organisms needed in the science classroom appropriate to their area of licensure.**

**Knowledge**

1. The teacher knows how to design activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.
2. The teacher understands how to design activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.
3. The teacher understands how to ensure safe science activities appropriate for the abilities of all students.
4. The teacher understands how to design activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.
5. The teacher knows how to evaluate a facility for compliance with safety regulations.
6. The teacher knows how to procure and use Material Safety Data Sheets (MSDS).

<b>Standard 11 Safety</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>11.1 Knowledge</b>		X	

**11.1 Analysis** – Required course syllabi and course descriptions provide evidence that teacher candidates demonstrate an adequate knowledge of material selection, safety, waste disposal, care and maintenance of materials and equipment, legal responsibilities associated with safety, safety requirements for laboratory, field activities, and demonstrations, and the procurement and use of Material Safety Data Sheets (MSDS).

**Sources of Evidence**

- Syllabi from CHEM 1111, 1112, 1112L, 4400
- Course objectives, outcomes and assessments denote the learners ability to address each indicator in this standard

**Performance**

1. The teacher designs activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.
2. The teacher designs activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.
3. The teacher ensures safe science activities appropriate for the abilities of all students.
4. The teacher designs activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.
5. The teacher demonstrates the ability to evaluate a facility for compliance to safety regulations.
6. The teacher demonstrates the ability to procure and use Material Safety Data Sheet (MSDS).

<i><b>Standard 11 Safety</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>11.2 Performance</b></i>		X	

**11.2 Analysis** – Candidate portfolio lesson plans and course lesson plans provide evidence that teacher candidates demonstrate an adequate ability to model safe practices in laboratory, classroom and storage area in the following: 1) set up procedures for safe handling, labeling and storage of chemicals and electrical equipment; 2) demonstrate that safety is a priority in science and other activities; 3) take appropriate action in an emergency; 4) instruct students in laboratory safety procedures; 5) evaluate students' safety competence before allowing them in the laboratory; 6) take action to prevent hazards; 7) adhere to the standards of the science education community for ethical care and use of animals; and 8) use preserved or live animals appropriately in keeping with the age of the students and the need for such animals. In CHEM 4400 and PHYS 4400, candidates design and teach lesson plans that safely design and run laboratory-based experiences for their classmates.

***Sources of Evidence***

- Teacher candidate lesson plans
- Laboratory journals
- Faculty conversations

**Standard 12: Laboratory and Field Activities - The science teacher demonstrates competence in conducting laboratory, and field activities.**

**Knowledge**

1. The teacher knows a variety of laboratory and field techniques appropriate to their content area.
2. The teacher knows a variety of strategies to develop students' laboratory and field skills.

<b>Standard 12 Laboratory and Field Activities</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>12.1 Knowledge</b>		X	

**12.1 Analysis** – Required course syllabi provide evidence that teacher candidates demonstrate an adequate ability to explain the importance of laboratory and field activities in the learning of science.

**Sources of Evidence**

- Syllabi from CHEM 1111, 1112, 4400,
- Conversations with faculty and teacher candidates reinforced the evidence that students are aware of a variety of strategies and techniques necessary to safely teach and learn

**Performance**

1. The teacher engages students in a variety of laboratory and field techniques appropriate to their content area.
2. The teacher uses a variety of instructional strategies in laboratory and field experiences to engage students in developing their understanding of the natural world.

<b>Standard 12 Laboratory and Field Activities</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>12.2 Performance</b>		X	

**12.2 Analysis** – Candidate portfolio lesson plans, additional course lesson plan reflections provide evidence that teacher candidates engage students in experiencing the phenomena they are studying by means of laboratory and field exercises.

**Sources of Evidence**

- Teacher candidate lesson plans
- Teacher candidate evaluations and observations

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	12	1	11	0
Performance	12	2	10	0

**Areas for Improvement**

- Gathering student performance data from each respective discipline is a critical component to understanding the way teacher candidates are being equipped to teach.

**Recommended Action for Science Foundations**

- Approved
- Conditionally approved
  - Insufficient Evidence
  - Lack of completers
  - New Program
- Not approved

## IDAHO STANDARDS FOR CHEMISTRY TEACHERS

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher has a broad knowledge of mathematical principles and is familiar with the connections that exist between mathematics and chemistry.
2. The teacher understands fundamental structures of atoms and molecules.
3. The teacher understands basic principles of ionic, covalent, and metallic bonding.
4. The teacher understands periodicity of physical and chemical properties of elements.
5. The teacher understands laws of conservation of matter and energy.
6. The teacher understands fundamentals of chemical kinetics, equilibrium and thermodynamics.
7. The teacher understands kinetic molecular theory and gas laws.
8. The teacher understands mole concept, stoichiometry, and laws of composition.
9. The teacher understands solutions and colligative properties.
10. The teacher understands acids/base chemistry.
11. The teacher understands fundamental oxidation-reduction chemistry.
12. The teacher understands fundamental organic chemistry and biochemistry.

13. The teacher understands applications of chemistry in personal and community health and environmental quality.
14. The teacher understands fundamentals of nuclear chemistry.
15. The teacher understands the importance of accuracy and precision in measurements.
16. The teacher understands the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.
17. The teacher understands the different types of chemical reactions.
18. The teacher understands symbolic and particulate models and how they can be used to interpret and explain macroscopic observations.

**Knowledge**

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.1 Knowledge</i>		X	

**4.1 Analysis** – The collection of evidence provided by the EPP reveals that teacher candidates demonstrate an acceptable understanding of the foundational knowledge indicators as listed under standard 1. This standard is supported by numerous course syllabi. Further evidence was gathered through interviews with recent completers, current candidates, and methodology faculty. 100% of the indicators were supported by evidence. There is no data provided by the department for student coursework in core CHEM classes.

**Sources of Evidence**

- Syllabi from CHEM 1111, 1111L, 1112, 1112L, 2211, 2232, 2234, 3302, 3301, 3303, 3304, 3331, 3341, 3342, 4400
- Course objectives, outcomes and assignments

**Performance**

1. The teacher models the application of mathematical principles and the connections that exist between mathematics and chemistry.
2. The teacher demonstrates their knowledge of fundamental structures of atoms and molecules.
3. The teacher applies the basic principles of ionic, covalent, and metallic bonding.
4. The teacher utilizes the periodic table to predict the physical and chemical properties of elements (e.g. ionization energy, atomic radius, types of bonding).

5. The teacher illustrates the laws of conservation of matter and energy qualitatively and quantitatively (e.g. balancing chemical equations, enthalpy calculations).
6. The teacher applies the scientific principles and evidence of chemical kinetics, equilibrium and thermodynamics to the behavior of matter.
7. The teacher is able to use Kinetic Molecular Theory and concepts of intermolecular forces to make predictions about the macroscopic properties of gases, including both ideal and nonideal.
8. The teacher can apply the mole concept, stoichiometry, and laws of composition (e.g. converting moles to mass).
9. The teacher applies the concepts of solution chemistry (e.g. calculate and prepare solutions at precise concentrations, colligative properties).
10. The teacher applies the concepts of acids/base chemistry to predict properties and reactions.
11. The teacher is able to identify oxidation-reduction reactions and justify the identification in terms of electron transfer.
12. The teacher demonstrates an understanding of the fundamental ideas of organic chemistry and how they relate to biochemistry.
13. The teacher relates the fundamental principles of chemistry to personal and community health and environmental quality.
14. The teacher can develop models to illustrate the changes in the composition of the nucleus of the atom and the energy released during the processes of fission, fusion, and radioactive decay.
15. The teacher applies accuracy and precision to their measurements and calculations.
16. The teacher applies the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.
17. The teacher categorizes and identifies a variety of chemical reaction types.
18. The teacher can utilize symbolic and particulate models to interpret and explain macroscopic observations.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>	X		

**4.2 Analysis** – Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make the central concepts of chemistry, tools of inquiry, structure of chemical knowledge, and the processes of chemistry meaningful to students through the use of materials and resources that support instructional goals; and use learning activities, including laboratory and field activities, that are consistent with curriculum goals and reflect principles of effective instruction. Indicators 3 and 4 were found in a teacher candidate lesson plan. The remaining 16 indicators did not appear in the provided evidence. Therefore, 88.8% of the indicators were not met.

**Sources of Evidence**

- CHEM 4400 is a course that students produce lesson plans in for proper utilization of the Chemistry Laboratory. No work was collected, but through conversations with the Chemistry Department Chair, details were provided to reveal that the students are exposed to numerous opportunities to teach and develop lessons surrounding these performance standards.

**Standard 5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	1	0	1	0
Performance	1	1	0	0

**Areas for Improvement**

- The college of education is working diligently to foster partnerships with the colleges around campus who are teaching content. This endeavor is a necessary one, that takes time and consistent effort to sustain.
- Content faculty need to understand the value of the accreditation process and provide necessary documentation for the College of Education.
- The College of Education is looking to utilize an Education faculty to teach the methodology courses for each content area, which is a very strong recommendation for consistency within the College of Education.

**Recommended Action for Chemistry**

- Approved
- Conditionally Approved
  - Insufficient Evidence
  - Lack of Completers
  - New Program
- Not approved

IDAHO STANDARDS FOR PHYSICS TEACHERS

**Standard 1: Learner Development.** *The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Standard 2: Learning Differences.** *The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

**Standard 3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Standard 4: Content Knowledge.** *The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. The teacher understands electromagnetic and gravitational interactions as well as concepts of matter and energy to formulate a coherent understanding of the natural world.
2. The teacher understands the major concepts and principles of the basic areas of physics, including classical and quantum mechanics, thermodynamics, waves, optics, electricity, magnetism, and nuclear physics.
3. The teacher knows how to apply appropriate mathematical and problem-solving principles including algebra, geometry, trigonometry, calculus, and statistics in the description of the physical world and is familiar with the connections between mathematics and physics.

<b>Standard 4 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – Required course syllabi, PHYS 4400 work samples provide evidence that teacher candidates demonstrate an acceptable understanding of physics content.

**Sources of Evidence**

- Course syllabi, including PHYS 4400, Practicum in Physical Science, provide knowledge evidence to meet all three indicators

**Performance**

1. The teacher develops and applies conceptual models to describe the natural world.
2. The teacher tests and evaluates physical models through direct comparison with the phenomena via laboratory and field activities and demonstrations.
3. The teacher utilizes the appropriate mathematical principles in examining and describing models for explaining physical phenomena.

<b>Standard 4 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>	X		

**4.2 Analysis** – No new candidates have completed the program in the past three years. Due to lack of completers and/or current candidates, the program provides little or no evidence that teacher candidates demonstrate adequate ability to create learning experiences that make the central concepts of physics, tools of inquiry, structure of physics knowledge, and the processes of physics meaningful to students through the use of materials and resources that support instructional goals; and use learning activities, including laboratory and field activities and demonstrations, that are consistent with curriculum goals and reflect principles of effective instruction.

**Sources of Evidence**

- The current Physics Department Chair provided data from PHYS 4400, which is the department’s version of a methodology course for physics majors. The data is from Spring 2014.
- The data from Spring 2014 reveal that all three indicators for performance were being met in the students who completed the PHYS 4400 course final project.

**Standard 5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Standard 6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.*

**Standard 7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	1	0	1	0
Performance	1	1	0	0

**Areas for Improvement**

- There were simply no majors in this program, which means there was no performance data specific to this standard.

**Recommended Action for Physics**

- Approved
- Conditionally approved
  - Insufficient Evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO FOUNDATION STANDARDS FOR SOCIAL STUDIES  
TEACHERS**

**Standard #1: Learner Development.** *The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Knowledge**

1. The teacher understands the influences that contribute to intellectual, social, and personal development.
2. The teacher understands the impact of learner environment on student learning.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>	
<b>1.1 Knowledge</b>		X		

**1.1 Analysis** –Syllabi, required coursework, candidate instructional units, and candidate and faculty interviews provide evidence that candidate and completer understand how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

**Sources of Evidence**

- Syllabi
- Coursework
- Interviews with completers and faculty

**Performance**

- 1(a) The teacher provides opportunities for learners to engage in civic life, politics, and government.

<b>Standard 1 Learner Development</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>	
<b>1.2 Performance</b>		X		

**1.2 Analysis** –Candidate and faculty interviews, work samples, lesson plans and completed evaluation rubrics provide evidence that teacher candidates demonstrate performance of providing opportunities for learners to engage in civic life, politics, and government.

**Sources of Evidence**

- Candidate and faculty interviews
- Completed student teacher rubrics
- Lesson plans

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher has a broad knowledge base of the social studies and related disciplines (e.g., history, economics, geography, political science, behavioral sciences, humanities).
2. The teacher understands how and why various governments and societies have changed over time.
3. The teacher understands how and why independent and interdependent systems of trade and production develop.
4. The teacher understands the impact that cultures, religions, technologies, social movements, economic systems, and other factors have on civilizations, including their own.
5. The teacher understands the responsibilities and rights of citizens in the United States of America's political system, and how citizens exercise those rights and participate in the system.
6. The teacher understands how geography affects relationships between people, and environments over time.
7. The teacher understands how to identify primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts.

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.1 Knowledge</i>		X	

**4.1 Analysis** –Syllabi, faculty interviews, candidate lesson plans, and candidate instructional units provide evidence that the candidate and completer understand the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

**Sources of Evidence**

- Candidate lesson plans
- Faculty interviews
- Candidate instructional units

**Performance**

1. The teacher compares and contrasts various governments and cultures in terms of their diversity, commonalties, and interrelationships.
2. The teacher incorporates methods of inquiry and scholarly research into the curriculum.

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.2 Performance</i>		X	

**4.2 Analysis** – Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of comparing and contrasting various governments and cultures in terms of their diversity, commonalties, and interrelationships and that the teacher candidate incorporates methods of inquiry and scholarly research into the curriculum.

**Sources of Evidence**

- Candidate lesson plans
- Faculty interviews
- Candidate instructional units

**Standard #5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Knowledge**

1. The teacher incorporates current events and historical knowledge, to guide learners as they predict how people from diverse global and cultural perspectives may experience and interpret the world around them.
2. The teacher understands how to effectively analyze the use of primary and secondary sources in interpreting social studies concepts.

<i><b>Standard 5 Application of Content</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>5.1 Knowledge</b></i>		X	

**5.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and faculty interviews provide evidence that teacher candidates demonstrate an adequate understanding of current events and historical knowledge, to guide learners as they predict how people from diverse global and cultural perspectives may experience and interpret the world around them and that the teacher candidate understands how to effectively analyze the use of primary and secondary sources in interpreting social studies concepts.

**Sources of Evidence**

- Candidate lesson plans
- Candidate and faculty interviews
- Candidate instructional units

**Performance**

1. The teacher demonstrates and applies chronological historical thinking.
2. The teacher integrates knowledge from the social studies in order to prepare learners to live in a world with limited resources, cultural pluralism, and increasing interdependence.
3. The teacher uses and interprets primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables) when presenting social studies concepts.

<i><b>Standard 5 Application of Content</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>5.2 Performance</b></i>		X	

**5.2 Analysis** – Candidate and faculty interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

**Sources of Evidence**

- Candidate lesson plans
- Candidate and faculty interviews
- Candidate instructional units

**Standard #6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.*

**Standard #7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard #8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher understands strategies for clear and coherent reading, speaking, listening, and writing within the context of social studies, consistent with approved 6-12 standards.

<b>Standard 8 Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.1 Knowledge</b>		X	

**8.1 Analysis** –Syllabi, candidate lesson plans, candidate instructional units, and completed student teaching evaluation rubrics provide evidence that teacher candidates demonstrate an adequate understanding of clear and coherent reading, speaking, listening, and writing within the context of social studies, consistent with approved 6-12 standards.

**Sources of Evidence**

- Course syllabi
- Candidate lesson plans and instructional units
- Completed student teaching evaluation rubrics

**Performance**

1. The teacher fosters clear and coherent learner reading, speaking, listening, and writing skills within the context of social studies, consistent with approved 6-12 standards.

<b>Standard 8 Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.2 Performance</b>		X	

**8.2 Analysis** – Candidate interviews, lesson plans, and completer interviews provide evidence that teacher candidates demonstrate performance fostering clear and coherent learner reading, speaking, listening, and writing skills within the context of social studies, consistent with approved 6-12 standards.

**Sources of Evidence**

- Candidate interviews
- Candidate lesson plans and instructional units
- Completer interviews

**Standard #9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

IDAHO STANDARDS FOR AMERICAN GOVERNMENT/POLITICAL SCIENCE  
TEACHERS

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher understands the relationships between civic life, politics, and government.
2. The teacher understands the political spectrum and factors that affect individual political views and behavior.
3. The teacher understands the purpose and foundations of government and constitutional principles of the United States of America's political system.
4. The teacher understands the organization of local, state, federal, and tribal governments, how power has evolved, and how responsibilities are organized, distributed, shared, and limited as defined by the Constitution of the United States of America.
5. The teacher understands the importance of international relations (e.g., evolution of foreign policy, national interests, global perspectives, international involvements, human rights, economic impacts, environmental issues).
6. The teacher understands the role of elections, political parties, interest groups, media (including social), and public policy (foreign and domestic) in shaping the United States of America's political system.
7. The teacher understands the civic responsibilities and rights of all individuals in the United States of America (e.g., individual and community responsibilities, participation in the political process, rights and responsibilities of non-citizens, the electoral process).
8. The teacher understands different forms of government found throughout the world.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>			X

**4.1 Analysis** – Syllabi, candidate lesson plans, candidate instructional units, and candidate and faculty interviews provide evidence that teacher candidates demonstrate an adequate understanding of the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

**Sources of Evidence**

- Course Syllabi
- Candidate lesson plans and instructional units
- Completed student teaching evaluation rubrics

**Performance**

1. The teacher assists learners in developing an understanding of citizenship and promotes learner engagement in civic life, politics, and government.
2. The teacher demonstrates comprehension and analysis of the foundations and principles of the United States of America political system and the organization and formation of the United States of America government.
3. The teacher demonstrates comprehension and analysis of United States of America foreign policy and international relations.
4. The teacher integrates global perspectives and current events into the study of civics and government.
5. The teacher engages learners in civil discourse and promotes its use in a democratic society.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – Candidate and faculty interviews, completed student teaching evaluation rubrics, and lesson plans and instructional units provide evidence that teacher candidates demonstrate performance of the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

**Sources of Evidence**

- Candidate and faculty interviews
- Candidate lesson plans and instructional units
- Completed student teaching evaluation rubrics

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## IDAHO STANDARDS FOR ECONOMICS TEACHERS

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands basic economic concepts and models (e.g., scarcity, opportunity cost, productive resources, voluntary exchange, supply and demand credit/debt, market incentives, interest rate, imports/exports).
2. The teacher understands economic indicators (e.g., unemployment, inflation, GDP) in assessing the health of the economy.
3. The teacher understands the functions and characteristics of money.
4. The teacher understands economic systems and the factors that influence each system (e.g., culture, values, belief systems, environmental and geographic impacts, and technology).
5. The teacher knows different types of economic institutions and how they differ from one another (e.g., market structures, stock markets, banking institutions, labor unions).
6. The teacher understands how economic institutions shaped history and influence current economic practices.
7. The teacher understands the principles of sound personal finance and personal investment.
8. The teacher understands fiscal and monetary policy.

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<b>4.1 Knowledge</b>	X		

**4.1 Analysis** – Due to lack of evidence, the EPP fails to demonstrate that candidates or completers understand the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content. Course syllabi were provided that demonstrate content is being taught. Lack of completers caused there to be a lack of evidence to fully support an acceptable score. Praxis scores, students work samples, or completer interviews are needed to corroborate findings.

***Sources of Evidence***

- Course syllabi
- Department assessment

**Performance**

1. The teacher demonstrates comprehension, analysis, and relevance of economic principles and concepts.
2. The teacher engages learners in the application of economic concepts in their roles as consumers, producers, and workers.
3. The teacher employs and promotes learner use of graphs, models, and equations to illustrate economic concepts.
4. The teacher illustrates how economic indicators influence historic and current policy.
5. The teacher provides examples of the principles of business organizations and entrepreneurship.
6. The teacher fosters understanding of the important role of economic systems on economic growth.
7. The teacher develops learner understanding of economic issues through application of cost/benefit analyses.
8. The teacher conveys the importance and implications of the global marketplace.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>	X		

**4.2 Analysis** – Due to lack of completers there was no evidence that teacher candidates demonstrate performance of central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content. Student work samples, sample lesson plans, interview information, student teaching evaluations, etc. are needed to demonstrate performance data.

**Sources of Evidence**

- No evidence

**Standard #5: Application of Content.** *The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Standard #6: Assessment.** *The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.*

**Standard #7: Planning for Instruction.** *The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Standard #8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard #9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Standard #10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**IDAHO FOUNDATION STANDARDS FOR VISUAL AND PERFORMING ARTS TEACHERS**

**Standard 1: Learner Development.** *The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Standard 2: Learning Differences.** *The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

**Knowledge**

1. The teacher understands the impact of the arts on students with exceptional needs, including those associated with disabilities, giftedness, second language acquisition, and at-risk students.

<b>Standard 2 Learning Differences</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>		X	

**2.1 Analysis** –The EPP provided Praxis testing scores in both Theater and Art for each of their completers along with student transcripts and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate understanding of individual differences, diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Praxis Scores in both Theater and Art for each completer
- Student transcripts
- Danielson Framework evaluations
- Candidate interviews

**Standard 3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher understands the history and foundation of arts education.
2. The teacher understands the processes and content of the arts discipline being taught.
3. The teacher understands how to observe, describe, interpret, critique, and assess the arts discipline being taught.
4. The teacher understands the cultural, historical, and contemporary contexts surrounding works of art.
5. The teacher understands that the arts communicate, challenge, and influence culture and society.
6. The teacher understands the aesthetic purposes of the arts and that arts involve a variety of perspectives and viewpoints.
7. The teacher understands how to select and evaluate a range of artistic subject matter and ideas appropriate for students’ personal and/or career interests.
8. The teacher understands connections between art curriculum and vocational opportunities.

<b><i>Standard 4 Content Knowledge</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>4.1 Knowledge</i></b>		X	

**4.1 Analysis** – The EPP provided Praxis testing scores in both Theater and Art for each of their completers along with student transcripts, Danielson Framework evaluations, course syllabi and completer interviews as evidences that the teacher candidates and completers demonstrate an adequate understanding of the history and foundation of arts education, how to observe, describe, interpret, critique, and assess the arts discipline being taught, understand the cultural, historical, and contemporary contexts surrounding works of art, that the arts communicate, challenge, and influence culture and society, understand the aesthetic purposes of the arts and that arts involve a variety of perspectives and viewpoints, and how to select and evaluate a range of artistic subject matter and ideas appropriate for students’ personal and/or career interests. There was no mention in any of the evidence of an understanding of the connections between art curriculum and vocational opportunities. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Praxis Scores in both Theater and Art for each completer
- Student transcripts
- Course syllabi
- Danielson Framework evaluations
- Candidate interviews

**Performance**

1. The teacher instructs, demonstrates, and models technical and expressive proficiency in the particular arts discipline being taught.

<i>Standard 4 Content Knowledge</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>4.2 Performance</i>		X	

**4.2 Analysis** – The EPP provided evidence in the forms of completer interviews, multiple lesson plans, observations with feedback from multiple sources, unit checklists and Danielson Framework evaluations specific to all domains that show teacher candidates and completers demonstrate an adequate understanding of the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content. However, it needs to be noted that all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Completer Interviews
- Multiple Lesson plans in both Art and Theater
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

**Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**

**Knowledge**

1. The teacher understands the relationships between the arts and how the arts are vital to all content areas.

<i><b>Standard 5 Application of Content</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>5.1 Knowledge</b></i>		X	

**5.1 Analysis** – The EPP provided Praxis testing scores in both Theater and Art for each of their completers along with student transcripts, completer interviews, course syllabi and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate understanding of the relationships between the arts and how the arts are vital to all content area. However, all of the evidence is based upon one completer for Theater and one completer for Art.

***Sources of Evidence***

- Praxis Scores in both Theater and Art for each completer
- Student transcripts
- Course syllabi
- Danielson Framework evaluations
- Candidate interviews

**Performance**

1. The teacher engages students in identifying relationships between the arts and other content areas.
2. The teacher instructs students in making observations, interpretations, and judgments about their own artworks and the works of other artists.

<i><b>Standard 5 Application of Content</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>5.2 Performance</b></i>		X	

**5.2 Analysis** – The EPP provided evidence in the forms of completer interviews, multiple lesson plans, observations with feedback from multiple sources, unit checklists and Danielson Framework evaluations specific to all domains that show teacher candidates and completers demonstrate an adequate understanding of how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues. However, all of the evidence is based upon one completer for Theater and one completer for Art.

***Sources of Evidence***

- Completer interviews
- Multiple Lesson plans in both Art and Theater

- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

**Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.**

**Knowledge**

1. The teacher understands assessment strategies specific to creating, performing, and responding.
2. The teacher understands how arts assessments strategies (e.g., portfolio, critique, performance/presentation) specific to the arts enhance evaluation, as well as student knowledge and performance.

<b>Standard 6 Assessment</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.1 Knowledge</b>		X	

**6.1 Analysis** – The EPP provided Praxis testing scores in both Theater and Art for each of their completers along with student transcripts, course syllabi, completer interviews and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate understanding of assessment strategies specific to creating, performing, and responding and how arts assessments strategies specific to the arts enhance evaluation, as well as student knowledge and performance. However, it needs to be noted that all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Praxis scores in both Theater and Art for each completer
- Student transcripts
- Course syllabi
- Danielson Framework evaluations
- Candidate interviews

**Performance**

1. The teacher assesses student work specific to creating, performing, and responding.

<i>Standard 6 Assessment</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>6.2 Performance</i>		X	

**6.2 Analysis** – The EPP provided evidence in the forms of completer interviews, multiple lesson plans, observations with feedback from multiple sources, unit checklists and Danielson Framework evaluations specific to all domains that show teacher candidates and completers demonstrate an adequate understanding of how teacher assesses student work specific to creating, performing, and responding. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Completer interviews
- Multiple lesson plans in both Art and Theater
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

**Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.**

**Knowledge**

1. The teacher understands that instructional planning for the arts teacher includes acquisition and management of materials, technology, equipment, and use of physical space.

<i>Standard 7 Planning for Instruction</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>7.1 Knowledge</i>		X	

**7.1 Analysis** – The EPP provided Praxis testing scores in both Theater and Art for each of their completers along with student transcripts, course syllabi, completer interviews and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate understanding of that instructional planning for the arts teacher includes acquisition and management of materials, technology, equipment, and use of physical space. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Praxis Scores in both Theater and Art for each completer
- Student transcripts
- Course syllabi
- Danielson Framework evaluations
- Candidate interviews

**Standard 8: Instructional Strategies.** *The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Standard 9: Professional Learning and Ethical Practice.** *The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

1. The teacher understands regulations regarding copyright laws.

<b>Standard 9 Professional Learning and Ethical Practice</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – The EPP provided Praxis testing scores in both Theater and Art for each of their completers along with student transcripts, course syllabi, completer interviews and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate understanding of teacher engagement in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others and copy right laws. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Praxis Scores in both Theater and Art for each completer
- Student transcripts
- Course syllabi
- Danielson Framework evaluations
- Candidate interviews

**Standard 10: Leadership and Collaboration.** *The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families,*

*colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher understands appropriate administrative, financial, management, and organizational aspects specific to the school/district arts program and its community partners.
2. The teacher understands the unique relationships between the arts and their audiences.

<i>Standard 10 Leadership and Collaboration</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>10.1 Knowledge</i>		X	

**10.1 Analysis** – The EPP provided Praxis testing scores in both Theater and Art for each of their completers along with student transcripts, course syllabi, completer interviews and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate understanding of appropriate administrative, financial, management, and organizational aspects specific to the school/district arts program and its community partners along with the unique relationships between the arts and their audiences. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Praxis Scores in both Theater and Art for each completer
- Student transcripts
- Course syllabi
- Danielson Framework evaluations
- Candidate interviews

**Performance**

1. The teacher promotes the arts for the enhancement of the school, the community, and society.
2. The teacher selects and creates art exhibits and performances that are appropriate for different audiences.

<b>Standard 10 Leadership and Collaboration</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.2 Performance</b>		X	

**10.2 Analysis** – The EPP provided evidence in the forms of completer interviews, multiple lesson plans, observations with feedback from multiple sources, unit checklists and Danielson Framework Evaluations specific to all domains that show teacher candidates and completers demonstrate an adequate understanding of how to seek appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Completer Interviews
- Multiple Lesson plans in both Art and Theater
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

**Standard 11: Safety and Management - The teacher creates a safe, productive physical learning environment, including management of tools, supplies, equipment, and space.**

**Knowledge**

1. The teacher knows the procedures for safely handling, operating, storing, and maintaining the tools and equipment appropriate to his or her arts discipline.
2. The teacher understands the use and management of necessary performance and exhibit tools and equipment specific to his or her discipline.

<b>Standard 11 Safety and Management</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>11.1 Knowledge</b>		X	

**11.1 Analysis** – The EPP provided course syllabi, completer interviews, lesson plans and unit checklists as evidences that the teacher candidates and completers demonstrate an adequate understanding of teachers creating a safe, productive physical learning environment, including

management of tools, supplies, equipment, and space. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Course syllabi
- Candidate interviews
- Lesson Plans
- Unit Checklists

**Performance**

1. The teacher established procedures that ensure students have the skills and knowledge necessary to accomplish tasks safely.
2. The teacher manages the simultaneous activities that take place daily in the arts classroom.

<b>Standard 11 Safety and Management</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>11.2 Performance</b>		X	

**11.2 Analysis** – The EPP provided evidence in the forms of completer interviews, multiple lesson plans, observations with feedback from multiple sources, unit checklists and Danielson Framework Evaluations specific to all domains that show teacher candidates and completers demonstrate an adequate understanding of how teachers creates a safe, productive physical learning environment, including management of tools, supplies, equipment, and space. However, all of the evidence is based upon one completer for Theater and one completer for Art.

**Sources of Evidence**

- Completer Interviews
- Multiple Lesson plans in both Art and Theater
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains
- Course syllabus for Theater 1111-Stagecraft

IDAHO STANDARDS FOR THEATRE ARTS TEACHERS

**Standard 1: Learner Development.** *The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Standard 2: Learning Differences.** *The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

**Standard 3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Standard 4: Content Knowledge.** *The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or*

**Knowledge**

1. The teacher knows the history of theater as a form of entertainment and as a reflection of culture and society influence.
2. The teacher knows the basic history, theories, and processes of play writing, acting, and directing.
3. The teacher understands technical theatre/stagecraft is an essential component of theatre arts.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – The EPP provided Praxis testing scores, student transcripts, course syllabi, and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate understanding that teachers know the history of theater as a form of entertainment and as a reflection of culture and society influence, basic history, theories, processes of play writing, acting, directing and teachers understand technical theatre/stagecraft

is an essential component of theatre arts. However, all of the evidence is based upon one completer.

**Sources of Evidence**

- Praxis Scores
- Student transcripts
- Course syllabi
- Danielson Framework evaluations

**Performance**

1. The teacher demonstrates proficiency in all aspects of technical theatre/stagecraft.
2. The teacher demonstrates proficiency in all aspects of performance.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – The EPP provided multiple lesson plans, observations with feedback, unit checklists, and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate proficiency in all aspects of technical theatre/stagecraft and proficiency in all aspects of performance. However, all of the evidence is based upon one completer for Theater.

**Sources of Evidence**

- Multiple Lesson plans
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

**Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**

**Performance**

1. The teacher demonstrates the ability to direct shows for public performance.
2. The teacher demonstrates the ability to employ all aspects of technical theatre/stagecraft to build a show for public performance.

<i>Standard 5 Application of Content</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>5.2 Performance</i>		X	

**5.2 Analysis** – The EPP provided multiple lesson plans, observations with feedback, unit checklists, and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate ability to direct shows for performance and the ability to employ all aspects of technical theatre/stagecraft to build a show for public performance. However, all of the evidence is based upon one completer for Theater.

***Sources of Evidence***

- Multiple Lesson plans
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Performance**

1. Teacher demonstrates the ability to secure performance rights for various forms of productions.

<i>Standard 9 Professional Learning and Ethical Practice</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>9.2 Performance</i>		X	

**9.2 Analysis** – The EPP provided multiple lesson plans, observations with feedback, unit checklists, and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate ability to secure performance rights for various forms of productions. However, all of the evidence is based upon one completer for Theater.

***Sources of Evidence***

- Multiple Lesson plans
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

***Standard 11: Safety and Management - The teacher creates a safe, productive physical environment, including management of tools, supplies, equipment, and space.***

**Knowledge**

1. The teacher understands how to operate safely and maintain the theatre facility.
2. The teacher understands how to operate safely and maintain technical theatre equipment.
3. The teacher understands OSHA and safety standards specific to theatre arts.
4. The teacher understands how to manage safely the requirements unique to theatre arts.

<b>Standard 11 Safety and Management</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>11.1 Knowledge</b>		X	

**11.1 Analysis** – The EPP provided course syllabi, lesson plans and unit checklists as evidences that the teacher candidates and completers demonstrate an adequate understanding of teachers creating a safe, productive physical learning environment, including management of tools, supplies, equipment, and space. However, all of the evidence is based upon one completer.

**Sources of Evidence**

- Lesson Plans
- Unit checklists
- Course syllabus for Theater 1111-Stagecraft

**Performance**

1. The teacher can operate safely and maintain the theatre facility.
2. The teacher can operate safely and maintain technical theatre equipment.
3. The teacher employs OSHA and safety standards specific to theatre arts.
4. The teacher can manage safely the requirements unique to theatre arts.

<b>Standard 11 Safety and Management</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>11.2 Performance</b>		X	

**11.2 Analysis** – The EPP provided evidence in the forms of course syllabus in Theater 1111, multiple lesson plans, observations with feedback from multiple sources, unit checklists and Danielson Framework evaluations specific to all domains that show teacher candidates and completers demonstrate an adequate understanding of how teachers creates a safe, productive physical learning environment, including management of tools, supplies, equipment, and space. However, all of the evidence is based upon one completer for Theater.

**Sources of Evidence**

- Multiple lesson plans
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains
- Course syllabus Theater 1111-Stagecraft

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	2	0	2	0
Performance	4	0	4	0

**Recommended Action for Theatre Arts**

- Approved
- Conditionally approved
  - Insufficient Evidence
  - Lack of completers
  - New Program
- Not approved

IDAHO STANDARDS FOR VISUAL ARTS TEACHERS

**Standard 1: Learner Development.** *The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

**Standard 2: Learning Differences.** *The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

**Standard 3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Standard 4: Content Knowledge.** *The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. The teacher understands a variety of media, styles, and techniques in multiple art forms.
2. The teacher has knowledge of individual artists’ styles and understands the historical and contemporary movements and cultural contexts of those works.
3. The teacher understands the elements and principles of art and how they relate to art making and art criticism.
4. The teacher understands how to use the creative process (brainstorm, research, rough sketch, final product, and reflection).
5. The teacher understands the value of visual arts as they relate to everyday experiences.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – The EPP provided Praxis testing scores, student transcripts, course syllabi, and Danielson Framework evaluations as evidences that the teacher candidates and completers

demonstrate an adequate understanding of a variety of media, styles, and techniques in multiple art forms, understand the elements and principles of art and how they relate to art making and art criticism, understand how to use the creative process (brainstorm, research, rough sketch, final product, and reflection), and understand the value of visual arts as they relate to everyday experiences. However, all of the evidence is based upon one completer.

**Sources of Evidence**

- Praxis Scores
- Student transcripts
- Course syllabi
- Danielson Framework evaluations

**Performance**

1. The teacher applies a variety of media, styles, and techniques in multiple art forms.
2. The teacher instructs students in individual artist styles and understands historical and contemporary movements and cultural contexts of those works.
3. The teacher applies the elements and principles of art and how they relate to art making and art criticism.
4. The teacher demonstrates how to use the creative process (brainstorm, research, rough sketch, final product).
5. The teacher provides opportunities for students to collect work over time (portfolio) to reflect on their progress, and to exhibit their work.

<b>Standard 4 Content Knowledge</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – The EPP provided multiple lesson plans, completer interviews, observations with feedback, unit checklists, and Danielson Framework evaluations as evidences that the teacher candidates and completers demonstrate an adequate proficiency to apply a variety of media, styles, and techniques in multiple art forms, instruct students in individual artist styles and understands historical and contemporary movements and cultural contexts of those works, application of the elements and principles of art and how they relate to art making and art criticism, how to use the creative process (brainstorm, research, rough sketch, final product), provides opportunities for students to collect work over time (portfolio) to reflect on their progress, and to exhibit their work. However, all of the evidence is based upon one completer.

***Sources of Evidence***

- Completer Interviews
- Multiple lesson plans
- Observations with feedback from instructors, cooperating teachers and mentors
- Unit checklists
- Danielson Evaluations specific to all domains

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary

IDAHO STANDARDS FOR WORLD LANGUAGES TEACHERS

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the disciplines taught and creates learning experiences that make these aspects of subject matter meaningful for students.**

**Knowledge**

1. The teacher knows the ACTFL (American Council on the Teaching of Foreign Languages) Proficiency Guidelines for listening, speaking, reading, and writing.
2. The teacher knows the target culture(s) in which the language is used.
3. The teacher understands key linguistic structures particular to the target language and demonstrates the way(s) in which they compare to English communication patterns.
4. The teacher knows the history, arts, and literature of the target culture(s).
5. The teacher knows the current social, political, and economic realities of the countries related to the target language.
6. The teacher understands how the U.S. culture perceives the target language and culture(s).
7. The teacher understands how the U.S. is perceived by the target language culture(s).
8. The teacher understands the stereotypes held by both the U.S. and target cultures and the impacts of those beliefs.

<i>Standard 1 Knowledge of Subject Matter</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>1.1 Knowledge</i>		X	

**1.1 Analysis** – The EPP provides evidence to indicate that candidates understand the complexities of understanding culture, history, art, literature, social and political issues when teaching from a cultural perspective. Candidates receive rich and in-depth instruction in the world language they are studying to teach in secondary schools.

**Sources of Evidence**

- Course syllabi
- Faculty interviews
- Assignments focused on comparing and contrasting cultures
- Coursework focused on historical events and timelines

**Performance**

1. The teacher demonstrates advanced level speaking, reading and writing proficiencies as defined in the ACTFL Proficiency Guidelines established by the American Council on the Teaching of Foreign Languages.
2. The teacher incorporates into instruction the following activities in the target language: listening, speaking, reading, writing, and culture.
3. The teacher promotes the value and benefits of world language learning to students, educators, and the community.
4. The teacher uses the target language extensively in formal, informal, and conversational contexts and provides opportunities for the students to do so.
5. The teacher provides opportunities to communicate in the target language in meaningful, purposeful activities that simulate real-life situations.
6. The teacher systematically incorporates culture into instruction.
7. The teacher incorporates discussions of the target culture’s contributions to the students’ culture and vice-versa.
8. The teacher encourages students to understand that culture and language are intrinsically tied.

<i>Standard 1 Knowledge of Subject Matter</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>1.2 Performance</i>		X	

**1.2 Analysis** – Lessons created and taught by the candidate indicated evidence of rich instruction in areas such as vocabulary, speaking, listening, reading and writing. Evaluations conducted by institution supervisor indicate evidence of creative and supportive environments for students to learn a second language.

**Sources of Evidence**

- Candidate evaluations
- Mini-lesson assignment
- Lesson plans

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Knowledge**

1. The teacher understands that the process of second language acquisition includes the interrelated skills of listening, speaking, reading, and writing.
2. The teacher understands that cultural knowledge is essential for the development of second language acquisition.
3. The teacher understands the skills necessary to create an instructional environment that encourages students to take the risks needed for successful language learning.
4. The teacher knows the methodologies and theories specific to second language acquisition.
5. The teacher knows university/college expectations of world languages and the life-long benefits of second-language learning.

<b>Standard 2 Knowledge of Human Development and Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>		X	

**2.1 Analysis** – Syllabi indicate a variety of assignments candidates do in order to prepare candidates to teach in a secondary classroom. Assignments focused on culture, history, and community show evidence of understanding these are important elements for future teaching and learning.

**Sources of Evidence**

- Syllabi
- Course assignments, which include candidates understanding of interrelated skills involved with second language acquisition processes (reading, writing, listening, and speaking)
- Faculty interviews indicating support within the institution for cultural activities and foreign language clubs on campus (indicating support for students studying a second language)

**Performance**

1. The teacher uses a variety of instructional strategies that incorporate culture, listening, reading, writing and speaking in the target language.
2. The teacher integrates cultural knowledge into language instruction.

3. The teacher builds on the language learning strengths of students rather than focusing on their weaknesses.
4. The teacher uses cognates, expressions, and other colloquial techniques common to English and the target language to help further the students’ understanding and fluency.
5. The teacher explains the world language entrance and graduation requirements at national colleges/universities and the general benefits of second language learning.

<b>Standard 2 Knowledge of Human Development and Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.2 Performance</b>		X	

**2.2 Analysis** – Candidates show adequate performance during student teaching internship. Observation and summative assessments include evidence of candidate integrating instructional strategies, focus on culture, and offer encouragement to students to learn a second language.

**Sources of Evidence**

- Common summative assessment of candidates performance during internship
- Faculty interview: evidence of world language professors seeking opportunities to teach at the high school level as part of the institution focus of offering concurrent credit to students.
- Observations done by institution supervisors

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse needs.**

**Knowledge**

1. The teacher understands that gender, age, socioeconomic background, ethnicity, sexual orientation, religious beliefs and other factors play a role in how individuals perceive and relate to their own culture and that of others.
2. The teacher understands that students’ diverse learning styles affect the process of second-language acquisition.

<b>Standard 3 Modifying Instruction for Individual Needs</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.1 Knowledge</b>		X	

**3.1 Analysis** – The EPP demonstrates that it provides candidates with knowledge about individual differences, religious beliefs, and how culture can influence the way students learn in an academic setting.

**Sources of Evidence**

- Syllabi
- Candidate course work focused on human development and individual differences
- Assignments focused on religion and values in other cultures

**Performance**

1. The teacher plans learning activities that enable students to grasp the significance of language and cultural similarities and differences.
2. The teacher differentiates instruction to incorporate the diverse needs of the students' cognitive, emotional and psychological learning styles.

<b>Standard 3 Modifying Instruction for Individual Needs</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.2 Performance</b>		X	

**3.2 Analysis** – The EPP provided evidence candidates understand the importance of providing support to diverse groups of students. Lesson plans and other assignments completed during teaching indicated candidates understand the importance of offering students differentiation during instruction.

**Sources of Evidence**

- Observations done by institution supervisors
- Student Achievement Report: Created during student teaching internship
- Differentiation Chart: Created during student teaching internship

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.**

**Knowledge**

1. The teacher understands that world languages methodologies continue to change in response to emerging research.
2. The teacher understands instructional practices that balance content-focused and form-focused learning.
3. The teacher knows instructional strategies that foster higher-level thinking skills such as critical- thinking and problem solving.

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – Course syllabi indicate that candidates are exposed to a variety of assignments that support the standard.

**Sources of Evidence**

- Technology assignments
- Course assignments focused on strategies and techniques to effectively engage students in a technological era
- Mini lessons taught by candidates to secondary students

**Performance**

1. The teacher uses a variety of instructional strategies based on current research to enhance students’ understanding of the target language and culture.
2. The teacher remains current in second-language pedagogy by means of attending conferences, maintaining memberships in professional organizations, reading professional journals, and/or on-site and on-line professional development opportunities.
3. The teacher incorporates a variety of instructional tools such as technology, local experts, and on-line resources to encourage higher-level thinking skills.

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – The EPP provided evidence of candidate lesson plans that incorporated a variety of strategies to support student learning. Candidates created teaching and learning plan guidelines to help support their knowledge and understanding of students they were teaching.

**Sources of Evidence**

- Presentations candidates created for students during internship
- Lesson plans
- Cooperating teacher evaluation of candidate lesson plans using the Danielson Framework (Domain One) and offering feedback to candidates as needed

**Standard 5: Classroom Motivation and Management Skills - Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self- motivation**

**Knowledge**

1. The teacher understands that, due to the nature of second-language acquisition, students need additional instruction in positive group/pair work and focused practice.
2. The teacher knows current practices of classroom management techniques that successfully allow for a variety of activities, such as listening and speaking, that take place in a world language classroom.

<b>Standard 5 Classroom Motivation and Management Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>		X	

**5.1 Analysis** – The EPP provides candidates with several opportunities to understand topics related to second language acquisition. Course syllabi indicate many opportunities for candidates to explore these topics through in class/online discussions, assignments, reading, and writing assignments.

**Sources of Evidence**

- Course assignments focused on areas related to second language acquisition

- Syllabi
- Course work focused on the interactions between school, family, community, and culture

**Performance**

1. The teacher implements classroom management techniques that use current research-based practices to facilitate group/pair interactions and maintain a positive flow of instruction.

<i>Standard 5 Classroom Motivation and Management Skills</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>5.2 Performance</i>		X	

**5.2 Analysis** – Candidate lesson plans include small group and whole group instruction. Discussion techniques are woven throughout candidate lesson plans.

**Sources of Evidence**

- Observations done by institution supervisors
- Lesson plans
- Candidate reflections

**Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom**

**Knowledge**

1. The teacher understands of the extension and broadening of previously gained knowledge in order to communicate clearly in the target language.

<i>Standard 6 Communication Skills</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>6.1 Knowledge</i>		X	

**6.1 Analysis** – Faculty interviews indicated the importance of candidates having in-depth knowledge and understanding of how to speak, write, and read in the world language they are studying prior to teaching in a secondary setting.

**Sources of Evidence**

- Course assignments requiring candidates speak in second language and recording themselves by answering questions related to course topics.
- Course assignments requiring candidates write in second language

- Faculty interviews: Upper division second language courses are required for all secondary world language-teaching candidates. Faculty wants to insure candidates can speak, write, read, and listen to conversation in the world language they are studying

**Performance**

1. The teacher uses a variety of techniques to foster fluency within the target language such as dialogues, songs, open-ended inquiry, non-verbal techniques, guided questions, modeling, role-playing, and storytelling.

<i>Standard 6 Communication Skills</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>6.2 Performance</i>	X		

**6.2 Analysis** – Lesson plans show evidence candidates offer investigative practices to students during student teaching. These showed minimal evidence of techniques to foster fluency.

**Sources of Evidence**

- Lesson plans
- Teaching and Learning Plan Guidelines
- SMART (specific, measurable, achievable, results focused, and time bound) Goal

**Standard 7: Instructional Planning Skills -The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.**

**Knowledge**

1. The teacher understands how to incorporate the ACTFL Standards for Foreign Language Learning of communication, cultures, connections, comparisons, and communities into instructional planning.
2. The teacher knows how to design lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines that enhance student understanding of the target language and culture.
3. The teacher knows how to design lesson plans that incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.

<i>Standard 7 Instructional Planning Skills</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>7.1 Knowledge</i>		X	

**7.1 Analysis** – Course syllabi provide evidence of a variety of assignments candidates participate in to prepare for the teaching in a secondary classroom.

**Sources of Evidence**

- Quiz question assignment
- Syllabus/Weekly schedule assignment
- Mini lesson assignment

**Performance**

1. The teacher incorporates the ACTFL Standards for Foreign Language Learning of communication, cultures, connections, comparisons, and communities into instructional planning.
2. The teacher designs lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines, which enhance student understanding of the target language and culture.
3. The teacher designs lesson plans which incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.

<i>Standard 7 Instructional Planning Skills</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>7.2 Performance</i>	X		

**7.2 Analysis** – Candidate reflects on areas in the evaluation tool (Danielson Framework) and creates personal instructional goals during internship experience. Scaffolding is provided to students taught by candidates on the lesson plan. However, these techniques could be more specific in how the candidate plans to use these techniques for specific students.

**Sources of Evidence**

- Candidate reflections
- Lesson plans
- Differentiation Chart on Teaching and Learning Plan Guidelines

**Standard 8: Assessment of Student Learning -The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.**

**Knowledge**

1. The teacher understands the ACTFL Proficiency Guidelines for listening, speaking, reading, and writing.
2. The teacher has the skills to assess proficiency in listening, speaking, reading, writing and culture, which is based on a continuum.
3. The teacher understands the importance of assessing the content and the form of communication.

<b>Standard 8 Assessment of Student Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.1 Knowledge</b>		X	

**8.1 Analysis** – Course syllabi and course assignments focused on listening, speaking, reading, and writing. However, reviewer had difficulty finding specific instruction on how candidates learned to assess within the four modalities of learning.

**Sources of Evidence**

- Quiz question assignment
- SMART (specific, measurable, achievable, results focused, and time bound) Goal assignment
- Lesson plans

**Performance**

1. The teacher motivates the students to reach level-appropriate proficiency based on ACTFL Proficiency Guidelines for listening, speaking, reading, writing, and culture.
2. The teacher employs a variety of ways to assess listening, speaking, reading, writing, and culture, using both formative and summative assessments.
3. The teacher constructs and uses a variety of formal and informal assessment techniques, including tests in the primary and target languages, to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
4. The teacher appropriately assesses for both the content and form of communication.

<i>Standard 8 Assessment of Student Learning</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>8.2 Performance</i>	X		

**8.2 Analysis** – Assessment plans candidates created during student teaching were limited. Evidence included tests and exams or questions asked at the end of a lesson.

**Sources of Evidence**

- Observations done by institution supervisors
- Summative
- SMART (specific, measurable, achievable, results focused, and time bound) Goal assignment to help improve instruction during candidate internship

**Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.**

**Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.**

**Knowledge**

1. The teacher knows about career and other life-enriching opportunities available to students proficient in world languages.
2. The teacher knows how to provide opportunities for students and teachers to communicate with native speakers.
3. The teacher is able to communicate to the students, parents, and community members the amount of time and energy needed for students to be successful in acquiring a second language.
4. The teacher understands the effects of second language study on first language.

<i>Standard 10 Partnerships</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>10.1 Knowledge</i>		X	

**10.1 Analysis** – Syllabi indicate several assignments candidates do to develop deeper understanding of first-hand experiences of native speakers.

**Sources of Evidence**

- Assignment: Interview with native speaker
- Assignment: Conversation with advanced speaker related to the themes and vocabulary studied during semester
- Syllabi

**Performance**

1. The teacher informs students and the broader community of career opportunities and personal enrichment that proficiency in a second language provides in the United States and beyond its borders.
2. The teacher provides opportunities for students to communicate with native speakers of the target language in person or via technology.
3. The teacher encourages students to participate in community experiences related to the target culture.
4. The teacher communicates to the students, parents, and community members the amount of time and energy needed for students to be successful in acquiring a second language.

<b>Standard 10 Partnerships</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.2 Performance</b>	X		

**10.2 Analysis** – Evidence was limited. Lesson plans included a family and community connections section to help candidates address this specific standard in their lesson plans. However, evidence was otherwise limited.

**Sources of Evidence**

- Lesson plans: Family community and connection section
- Mini lessons taught by candidates

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Target
Knowledge	9	0	9	0
Performance	9	4	5	0

**Areas for Improvement**

- Continued collaboration between language and education department may offer candidates the opportunities to develop community activities.
- A common ISU lesson plan template, including ISU logo and specific structure, could be beneficial for candidates to use in their field work.
- There was limited evidence of candidate knowledge and understanding of data driven instructional practices within the four modalities (listening, speaking, reading, and writing). A recommendation would be to have candidates capture specifics on lesson plans on how they plan to assess students within the four modalities and use this information to drive instructional practices.
- Faculty from the education and foreign language departments collaborating to ensure knowledge and performance areas of the standards are taught.

**Recommended Action for World Languages**

- Approved
- Conditionally approved
  - Insufficient evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO STANDARDS FOR ONLINE TEACHERS**

***Standard 1: Knowledge of Online Education - The online teacher understands the central concepts, tools of inquiry, and structures in online instruction and creates learning experiences that take advantage of the transformative potential in online learning environments.***

**Knowledge**

1. The online teacher understands the current standards for best practices in online teaching and learning.
2. The online teacher understands the role of online teaching in preparing students for the global community of the future.
3. The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
4. The online teacher understands the relationship between online education and other subject areas and real life situations.
5. The online teacher understands the relationship between online teaching and advancing technologies.
6. The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.
7. The online teacher understands the instructional delivery continuum. (e.g., fully online to blended to face-to-face).

<b><i>Standard 1 Knowledge of Online Education</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>1.1 Knowledge</i></b>		X	

***1.1 Analysis*** –Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of all standards listed above.

***Sources of Evidence***

- Course syllabi
- Defense of Internship project (multiple candidates)
- SCL Report template

**Performance**

1. The online teacher utilizes current standards for best practices in online teaching to identify appropriate instructional processes and strategies.
2. The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).
3. The online teacher demonstrates application of emerging technologies for teaching and learning (e.g., blogs, wikis, content creation tools, mobile technologies, virtual worlds).
4. The online teacher demonstrates application of advanced troubleshooting skills (e.g., digital asset management, firewalls, web-based applications).
5. The online teacher demonstrates the use of design methods and standards in course/document creation and delivery.
6. The online teacher demonstrates knowledge of access, equity (digital divide) and safety concerns in online environments.

<i>Standard 1 Knowledge of Online Education</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>1.2 Performance</i>		X	

**1.2 Analysis** –Candidate work samples provide evidence that teacher candidates demonstrate acceptable performance for all indicators.

**Sources of Evidence**

- Defense of Internship project (multiple candidates)
- 6639 Plan for Adaptation
- Interview with faculty

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Performance**

1. The online teacher understands the continuum of fully online to blended learning environments and creates unique opportunities and challenges for the learner (e.g., Synchronous and Asynchronous, Individual and Group Learning, Digital Communities).

2. The online teacher uses communication technologies to alter learning strategies and skills (e.g., media literacy, visual literacy).
3. The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.
4. The online teacher constructs learning experiences that take into account students' physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. {Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g. Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e., Enigmatic communities, Disinhibition effect, Cognitive, Creativity)}.

<b>Standard 2 Knowledge of Human Development and Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.2 Performance</b>		X	

**2.2 Analysis** – Candidate work opportunities like the Annotated Bibliography and the Literature Review meet indicator 3. Lesson plans addressed indicators 2 and 4. No evidence of Indicator 1 was provided.

**Sources of Evidence**

- Annotated bibliography/scoring sheet
- Literature review
- Teacher Candidate- 6639 Plan for Adaptation
- Teacher Candidate- 6639 Lesson Plan Adaptation

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.**

**Knowledge**

1. The online teacher is familiar with legal mandates stipulated by the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility.

<b>Standard 3 Modifying Instruction for Individual Needs</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.1 Knowledge</b>		X	

**3.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of Americans with Disabilities Act (ADA), Individuals with Disabilities Education Act (IDEA), and assistive technology. An interview with faculty confirmed that 508 compliant and accessibility were items that were addressed in courses.

**Sources of Evidence**

- Defense of Internship project
- EDLT 6655 syllabus
- Interview with faculty
- Teacher Candidate- 6639 plan for adaptation

**Performance**

1. The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.
2. The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).
3. The online teacher coordinates learning experiences with adult professionals (e.g., parents, local school contacts, mentors).

<b>Standard 3 Modifying Instruction for Individual Needs</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.2 Performance</b>		X	

**3.2 Analysis** – Candidate work samples provide evidence that teacher candidates demonstrate performance of indicators 2, 3. Candidates are offering examples of modifying review items to assist students. Indicator 1 is met via the 6639 Plan for Adaptation because the assignment asks them to identify needs and what the plan will be to solve that need. An interview with faculty revealed conversations that happen within

the program/course on how to personalize activities and coordinate with their cooperating teachers and others in the environment.

**Sources of Evidence**

- Defense of Internship project
- Interview with faculty
- 6639 plan for adaptation

**Standard 4: Multiple Instructional Strategies - The online teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.**

**Knowledge**

1. The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).
2. The online teacher understands appropriate uses of learning and/or content management systems for student learning.

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>		X	

**4.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of all the indicators above.

**Sources of Evidence**

- Defense of Internship project
- EDLT 6655 syllabus
- Interview with faculty

**Performance**

1. The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs. (e.g., online teacher-gathered data and student offered feedback).

2. The online teacher uses student-centered instructional strategies to engage students in learning. (e.g., Peer-based learning, peer coaching, authentic learning experiences, inquiry-based activities, structured but flexible learning environment, collaborative learning, discussion groups, self-directed learning, case studies, small group work, collaborative learning, and guided design)
3. The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).

<b>Standard 4 Multiple Instructional Strategies</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>		X	

**4.2 Analysis** – Candidate work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of all indicators. The lesson plan allows candidates to create multiple lesson plans with different activity options to meet stated objectives in the assignment. The template for assignments also shows outcomes that meet all indicators.

**Sources of Evidence**

- LAP Gagne Style template document
- Teacher Candidate 6639 lesson plan assignment (multiple candidates)
- Candidate work samples

**Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

**Performance**

1. The online teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school or program as a whole (e.g., digital etiquette, Internet safety, Acceptable Use Policy [AUP]).
2. The online teacher performs management tasks (e.g., tracks student enrollments, communication logs, attendance records, etc.).
3. The online teacher uses effective time management strategies (e.g., timely and consistent feedback, provides course materials in a timely manner, use online tool functionality to improve instructional efficiency).

<b>Standard 5 Classroom Motivation and Management Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.2 Performance</b>		X	

**5.2 Analysis** – Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of all indicators.

**Sources of Evidence**

- Defense of Internship project (multiple candidates)
- Faculty interviews
- Candidate lesson plans

**Standard 6: Communication Skills, Networking, and Community Building - The online teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.**

**Knowledge**

1. The online teacher knows the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.

<b>Standard 6 Communication Skills, Networking, and Community Building</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.1 Knowledge</b>		X	

**6.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of all indicators. Candidates have the opportunity to communicate through writing, presentations, and various modes of communication through a Learning Management System (LMS).

**Sources of Evidence**

- Faculty interview
- Defense of Internship project
- 6639 lesson plan assignment

**Performance**

1. The online teacher is a thoughtful and responsive communicator.
2. The online teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking (e.g., discussion board facilitation, personal communications, and web conferencing).
3. The online teacher demonstrates the ability to communicate effectively using a variety of mediums.
4. The online teacher adjusts communication in response to cultural differences (e.g., wait time and authority).

<b>Standard 6 Communication Skills, Networking, and Community Building</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.2 Performance</b>		X	

**6.2 Analysis** – Candidate work samples provide evidence that teacher candidates demonstrate performance of indicators 1, 2, and 3. No evidence was provided that directly aligned with indicator 4. Through analysis of student performance data and interviews, 75% of the indicators were met.

**Sources of Evidence**

- Defense of Internship Project (multiple candidates)
- Interview with the Dean of the College of Education

**Standard 7: Instructional Planning Skills - The online teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.**

**Performance**

1. The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
2. The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
3. The online teacher designs and develops subject-specific online content.
4. The online teacher uses multiple forms of media to design course content.

5. The online teacher designs course content to facilitate interaction and discussion.
6. The online teacher designs course content that complies with intellectual property rights and fair use standards.

<b>Standard 7 Instructional Planning Skills</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.2 Performance</b>	X		

**7.2 Analysis** – Candidate work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of indicator 3, 4, 5. The lesson plan examples meet indicators 3 and 5. The Defense of Internship Paper offers examples of multiple forms of media to create instructional materials for the course. 60% of the indicators were met, while 40% of the indicators had no performance evidence available for review.

**Sources of Evidence**

- EDLT 6656 syllabi with standards indicators as outcomes
- 6639 lesson plan assignment (multiple candidates)
- Defense of Internship paper

**Standard 8: Assessment of Student Learning - The online teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.**

**Performance**

1. The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
2. The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.

<b>Standard 8 Assessment of Student Learning</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.2 Performance</b>	X		

**8.2 Analysis** – Candidate work samples are aligned to indicator 1 but no evidence aligned to indicator 2. Unacceptable was given in part because of the lack of completers in the program, thus performance pieces are not available. 50% of the indicators were not met due to lack of evidence.

**Sources of Evidence**

- Defense of Internship project (multiple candidates)

**Standard 9: Professional Commitment and Responsibility - The online teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of online teaching.**

**Knowledge**

1. The online teacher understands the need for professional activity and collaboration beyond school (e.g., professional learning communities).
2. The online teacher knows how educational standards and curriculum align with 21<sup>st</sup> century skills.

<b>Standard 9 Professional Commitment and Responsibility</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>		X	

**9.1 Analysis** – Syllabi, required coursework, candidate lesson plans, candidate instructional units, and candidate papers provide evidence that teacher candidates demonstrate an adequate understanding of all the indicators.

**Sources of Evidence**

- Defense of Internship paper
- Syllabi
- Faculty interview

**Performance**

1. The online teacher adheres to local, state, and federal laws and policies (e.g., FERPA, AUP's).
2. The online teacher has participated in an online course and applies experiences as an online student to develop and implement successful strategies for online teaching environments.
3. The online teacher demonstrates alignment of educational standards and curriculum with 21st century technology skills.

<i>Standard 9 Professional Commitment and Responsibility</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>9.2 Performance</i>	X		

**9.2 Analysis** – Candidate interviews, work samples, and lesson plans provide evidence that teacher candidates demonstrate performance of indicators 2 and 3. There is no performance evidence showing that the student adhered to indicator 1. Unacceptable was given in part because of the lack of completers in the program, thus performance pieces are not available. 67% of the indicators were met. 33% of the indicators were not met due to lack of evidence.

**Sources of Evidence**

- Defense of Internship paper

**Standard 10: Partnerships - The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and wellbeing.**

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	5	0	5	0
Performance	9	3	6	0

**Areas for Improvement**

- As the program grows and continues to develop, faculty and the reviewer spoke about more opportunities to give feedback in specific areas throughout the candidate's life in the program.

**Recommended Action for Online Teachers**

- Approved
- Conditionally approved
  - Insufficient Evidence
  - Lack of completers
  - New Program
- Not approved

**IDAHO FOUNDATION STANDARDS FOR THE PREPARATION OF SCHOOL ADMINISTRATORS**

**School Climate**

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

***Standard 1: School Culture - The School Administrator establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors.***

**Knowledge: The School Administrator:**

1. Understands the importance of eliciting feedback that measures the school and community perceptions.
2. Understands laws and policies regarding school safety and prevention by creating a detailed school safety plan, which addresses potential physical and emotional threats.
3. Understands disciplinary policies and multiple strategies for intervention that occur prior to removal of students.
4. Understands methods for responding to conflict.

<b><i>Standard 1 School Culture</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>1.1 Knowledge</i></b>			

***1.1 Analysis – Not reviewed, prerequisite for Special Education Directors***

**Performance: The School Administrator:**

1. Demonstrates ability to disaggregate school climate data to collaboratively engage faculty, staff, students, and parents in identifying concerns or threats to school safety.
2. Demonstrates ability to proactively engage staff in conflict resolution.
3. Demonstrates ability to establish rules and related consequences designed to keep students safe.
4. Demonstrates ability to individually and/or collaboratively monitor school climate by gathering data about student and staff perceptions.

5. Demonstrates ability to connect appropriate strategies and solutions to known barriers to promote a school culture of excellence, equity, and safety across all school settings.
6. Demonstrates ability to use data to monitor and improve school climate.
7. Demonstrates ability to collaborate with instructional staff and parents in creating opportunities to safely examine and address barriers to a school culture, embracing diversity.

<b>Standard 1 School Culture</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>1.2 Performance</b>			

**1.2 Analysis** – *Not reviewed, prerequisite for Special Education Directors*

**Standard 2: Communication - The School Administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.**

**Knowledge: The School Administrator:**

1. Understands the importance of making organizational decisions based upon the mission and vision of the school and district.
2. Understands effective communication strategies.
3. Understands the importance of the school improvement plan and adjusting it based on data, including input from district and school staff.

<b>Standard 2 Communication</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.1 Knowledge</b>			

**2.1 Analysis** – *Not reviewed, prerequisite for Special Education Directors*

**Performance: The School Administrator:**

1. Demonstrates ability to develop and monitor school goals, programs, and actions to ensure that they support the school’s vision and mission.
2. Demonstrates ability to develop and facilitate a clear, timely communication plan across the school’s departments to support effective and efficient school operations.

3. Demonstrates ability to lead and engage school staff and stakeholders, using multiple communication strategies.
4. Demonstrates ability to ensure that stakeholders have meaningful input in the school's vision and mission, aligning with academic and social learning goals for students.

<b>Standard 2 Communication</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>2.2 Performance</b>			

**2.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Standard 3: Advocacy - The School Administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement.**

**Knowledge: The School Administrator:**

1. Understands the importance of inviting community input and using the input to inform decisions
2. Understands cultural diversity and its importance in the schools learning community.

<b>Standard 3 Advocacy</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.1 Knowledge</b>			

**3.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Demonstrates the ability to develop and implement opportunities for involving community in school activities that support teaching and learning.
2. Demonstrates the ability to promote appreciation and understanding of diverse cultural opportunities and integrate them in the schools learning community.

<b>Standard 3 Advocacy</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>3.2 Performance</b>			

**3.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Collaborative Leadership**

An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

**Standard 4: Shared Leadership - The School Administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.**

**Knowledge: The School Administrator:**

1. Understands the importance of providing staff equal access to opportunities for learning, leadership, and advancement.
2. Understands the importance of developing and implementing distributed leadership as part of the process of shared governance.
3. Understands the importance of developing and using Professional Learning Plans to encourage professional growth and expand competencies.

<b>Standard 4 Shared Leadership</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.1 Knowledge</b>			

**4.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Demonstrates the ability to use Professional Learning Plans to provide feedback on professional behavior to teachers and other staff and remediates behavior as needed.

2. Demonstrates the ability to create structured opportunities for instructional staff and other staff to expand leadership through the use of reflections, mentoring, feedback, and learning plans.

<b>Standard 4 Shared Leadership</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>4.2 Performance</b>			

**4.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Standard 5: Priority Management - The School Administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.**

**Knowledge: The School Administrator:**

1. Understands the importance of prioritizing the use of school time to ensure that staff activities focus on improvement of student learning and school culture.
2. Understands the importance of prioritizing school time to ensure that student activities are focused on high leverage activities and school priority areas as delineated by the School Improvement Plan.
3. Applies project management to systems throughout the school and systematic monitoring and collaboration with stakeholders.
4. Understands the importance of clear and consistent processes and systems to manage change.
5. Understands the importance of school staff and other stakeholders adhering to established processes and procedures.

<b>Standard 5 Priority Management</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.1 Knowledge</b>			

**5.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Demonstrates the ability to manage projects using lists of milestones and deadlines, and document the impact of change.
2. Demonstrates the ability to apply project management to systems and systematically monitor and collaborate with stakeholders.

<b>Standard 5 Priority Management</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>5.2 Performance</b>			

**5.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Standard 6: Transparency - The School Administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.**

**Knowledge: The School Administrator:**

1. Understands emerging issues and trends impacting families, school, and community.
2. Understands available resources in the community.
3. Understands the value of transparency regarding decision making and the allocation of resources.
4. Understands the importance of seeking input from stakeholders and takes all perspectives into consideration when making decisions.

<b>Standard 6 Transparency</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.1 Knowledge</b>			

**6.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance**

1. Provides rationale for decisions regarding the allocation of resources.
2. Develops a plan that solicits input from all stakeholders to create and sustain a culture of collaboration, trust, learning, and high expectation.

<b>Standard 6 Transparency</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>6.2 Performance</b>			

**6.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Standard 7: Leadership Renewal - The School Administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.**

**Knowledge: The School Administrator:**

1. Understands the roles of leadership.
2. Understands the impact of education on personal and professional opportunities, social mobility, and a democratic society.
3. Understands the political, social, cultural, and economic systems and processes that support and impact education.
4. Understands effective models and strategies of leadership as applied to the larger political, social, cultural, and economic contexts of education.

<b>Standard 7 Leadership Renewal</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.1 Knowledge</b>			

**7.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Creates and implements an individual professional learning plan.
2. Enhances leadership skills through collaboration with colleagues and professional development.
3. Uses feedback, surveys, and evaluations that inform professional development and improve professional practice by consistently monitoring progress.

4. Communicates results of self-reflection after evaluating his/her own practice and consults with evaluator, adjusting accordingly.
5. Uses self-reflection and data that are aligned to school and district vision and/or needs to drive improvement in leadership skills, school culture, and student learning.

<b>Standard 7 Leadership Renewal</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>7.2 Performance</b>			

**7.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Standard 8: Accountability – The School Administrator establishes high standards for professional, legal, ethical, and fiscal accountability.**

**Knowledge: The School Administrator:**

1. Understands operational policies and procedures.
2. Understands human resources management.
3. Understands sound fiscal operations principles and issues.
4. Understands facilities maintenance and principles regarding use of space and educational suitability.
5. Understands legal issues impacting personnel, management, and operations.
6. Understands ethical frameworks and perspectives.
7. Understands the Idaho Professional Code of Ethics and the Idaho Administrators Code of Conduct.
8. Understands policies and laws related to school and district.

<b>Standard 8 Accountability</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.1 Knowledge</b>			

**8.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Demonstrates the ability to create a site budget that allocates available fiscal, personnel, space, and material resources in an appropriate legal and equitable manner.
2. Demonstrates the ability to develop a budget that appropriately utilizes federal funds and grant allocations.

<b>Standard 8 Accountability</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>8.2 Performance</b>			

**8.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Instructional Leadership**

An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

**Standard 9: Innovation** – *The School Administrator seeks and implements innovative and effective solutions that comply with general and special education law.*

**Knowledge: The School Administrator:**

1. Understands that each student can learn and that varied and data-informed learning goals are an important part of the process.
2. Understands the principles of effective instruction, differentiated instruction, learning theories, motivation strategies, and positive classroom management.
3. Understands student growth and development.
4. Understands adult learning and professional development.
5. Understands the change process for systems, organizations, and individuals.
6. Understands the essential role of technology in education.

<b>Standard 9 Innovation</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.1 Knowledge</b>			

**9.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Provides opportunities for staff to utilize research based strategies to refine curriculum implementation and encourage purposeful innovation.
2. Engages instructional staff in collaborative analysis to plan for continuous academic improvement.
3. Ensures innovation adheres to all local, state, and federal laws and policies and regulations.

<b>Standard 9 Innovation</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>9.2 Performance</b>			

**9.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Standard 10: Instructional Vision - The School Administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.**

**Knowledge: The School Administrator:**

1. Understands that each student can learn and that varied and data-informed learning goals are an important part of the process.
2. Understands how to enhance the school culture and instructional programs through research, best practice, and curriculum design.
3. Understands the effective use of assessment and evaluation.
4. Understands how to develop, implement, and evaluate co-curricular and extracurricular programs that enhance student growth and character development.

<b>Standard 10 Instructional Vision</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>10.1 Knowledge</b>			

**10.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Provides time, space, and opportunities for instruction.
2. Ensures instruction is aligned to adopted curriculum and Idaho content standards including provisions for time and resources.
3. Promotes an instructional vision that includes the process of curriculum alignment in collaboration with a systematic, continuous process to fully align the curriculum horizontally and vertically with the standards.
4. Creates an action plan for instructional improvement designed to increase student achievement.

<b><i>Standard 10 Instructional Vision</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>10.2 Performance</i></b>			

***10.2 Analysis – Not reviewed, prerequisite for Special Education Directors***

***Standard 11: High Expectations - The School Administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.***

**Knowledge: The School Administrator:**

1. Understands the difference between, and the appropriate use of formative and summative assessments.
2. Understands the process for developing common formative benchmark assessments or rubrics.
3. Understands how to use data to guide student instruction and tiered intervention.
4. Understands how to identify at risk students.
5. Understands the laws and regulations associated with special student populations.
6. Understands the importance of collaboration and the critical role principals play in establishing high expectations for student learning.
7. Understands the role that frequent collaboration plays in analyzing student growth data to identify critical content achievement gaps.
8. Understands various intervention strategies to be implemented to close achievement gaps.

9. Understands multiple methods for monitoring and documenting instructional practices including behavioral supports.
10. Understands the importance of implementing a comprehensive approach to learning that integrates researched based practices to address the whole child.
11. Understands essential components in the development and implementation of individual education programs, adhering to state and federal regulations.

<b>Standard 11 High Expectations</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>11.1 Knowledge</b>			

**11.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Uses data to guide instruction and develop/implement appropriate interventions and student improvement plans.
2. Has used observation and evaluation methods to supervise instructional personnel.
3. Conducts student response teams that integrate research based practices to address the whole child and also seeks advice of psychologists, nurses, social workers, learning disabilities and gifted and talented specialists, speech and language pathologists, and other experts who can help address student needs.

<b>Standard 11 High Expectations</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>11.2 Performance</b>			

**11.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

***Standard 12: Continuous Improvement of Instruction – The School Administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The School Administrator also aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.***

**Knowledge: The School Administrator:**

1. Understands that the evaluation process is used to improve instructional practice.
2. Understands the use of multiple measures of student performance data to improve classroom instruction.
3. Understands the role of professional learning plans during the evaluation process, using self-reflection, student growth goals and formative and summative conversations at the beginning and ending of the year to improve teacher effectiveness.

<b><i>Standard 12 Continuous Improvement of Instruction</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>12.1 Knowledge</i></b>			

***12.1 Analysis – Not reviewed, prerequisite for Special Education Directors***

**Performance: The School Administrator:**

1. Collaborates with staff and teachers to create individualized professional learning plans and encourages staff to incorporate reflective goal setting practices prior to the school year.
2. Collects formative assessment and student growth data during the course of the school year to inform summative evaluation and instructional goal setting.
3. Uses data to inform school wide professional development.

<b><i>Standard 12 Continuous Improvement of Instruction</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>12.2 Performance</i></b>			

***12.2 Analysis – Not reviewed, prerequisite for Special Education Directors***

**Standard 13: Evaluation – The School Administrator demonstrates proficiency in assessing teacher performance based upon the Idaho adopted framework for teaching.**

**Knowledge: The School Administrator:**

1. Understands laws and policies governing staff evaluation.
2. Understands the Idaho adopted framework for teaching.
3. Understands differentiated tools for evaluation of all staff.
4. Understands effective instructional supervision, evaluation, and due process.

<b>Standard 13 Evaluation</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>13.1 Knowledge</b>			

**13.1 Analysis – Not reviewed, prerequisite for Special Education Directors**

**Performance: The School Administrator:**

1. Assesses all staff performance with accuracy and consistency.
2. Creates processes to provide formative and summative evaluation feedback to staff and teachers, informing them of the effectiveness of their classroom instruction and ways to improve their instructional practices using data to inform professional development.

<b>Standard 13 Evaluation</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>13.2 Performance</b>			

**13.2 Analysis – Not reviewed, prerequisite for Special Education Directors**

**Standard 14: Recruitment and Retention - The School Administrator recruits and maintains a high quality staff.**

**Knowledge: The School Administrator:**

1. Understands laws regarding highly qualified requirements for teachers.
2. Understands laws and policies governing hiring and retaining personnel.

3. Understands multiple interview strategies and techniques for hiring teachers.
4. Understands the process and research based practices of mentoring.

<b>Standard 14 Recruitment and Retention</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>14.1 Knowledge</b>			

**14.1 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Performance: The School Administrator:**

1. Demonstrates appropriate use of hiring procedures in accordance with accepted practices/policies.
2. Creates a model for an effective school environment where staff is valued, teams are supported, and achievements are consistently celebrated.
3. Creates a comprehensive mentoring or coaching program designed to provide systems where teachers are supported in an individualized mentoring or coaching program.

<b>Standard 14 Recruitment and Retention</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>14.2 Performance</b>			

**14.2 Analysis** – Not reviewed, prerequisite for Special Education Directors

**Recommended Action for Foundations for Preparation of School Administrators**

**Not reviewed, as they were previously approved in 2015. Foundations for Preparation of School Administrators are foundational and a prerequisite for Special Education Directors.**

- Approved
- Conditionally approved
  - Insufficient Evidence
  - Lack of completers
  - New Program

## IDAHO STANDARDS FOR SPECIAL EDUCATION DIRECTORS

### **School Climate**

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

### **Collaborative Leadership**

An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

### **Instructional Leadership**

An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

***Standard 1: School Culture - The administrator establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow's careers and life endeavors.***

***Standard 2: Communication - The administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.***

***Standard 3: Advocacy - The administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. T***

***Standard 4: Shared Leadership - The administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.***

***Standard 5: Priority Management - The administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.***

### **Knowledge**

1. The special education director knows about curriculum, instruction, school activities, and environments to increase program accessibility for students with special needs.

2. The special education director understands the special education processes and procedures required by federal and state laws and regulations and by school district policies.
3. The special education director understands how to manage workflow and access resources to meet the needs of staff, students, and parents.
4. The special education director understands the use of technology in referral processes, IEP Individual Education Plan development, and records management.

<b><i>Standard 5 Priority Management</i></b>	<b><i>Unacceptable</i></b>	<b><i>Acceptable</i></b>	<b><i>Exemplary</i></b>
<b><i>5.1 Knowledge</i></b>	X		

**5.1 Analysis** – The EPP did not provide sufficient evidence for indicators (1), (2), and (3) to demonstrate that the program is designed to meet the standard. The materials provided were limited to review of syllabi. Many of the listed syllabi are for the courses that lead to endorsement as an Educational Administrator not the Special Education Director Endorsement. As there are no current candidates nor any completers since the program was updated two years ago there were no coursework, or interviews to conduct. Interviews with two faculty members indicated that since the Special Education Directors program was conditionally approved in 2016 there have been no changes to the program design.

***Sources of Evidence***

- Syllabi
- Faculty interview

**Performance**

1. The special education director advocates for and implements curriculum, instruction, activities, and school environments that are accessible to special populations.
2. The special education director implements the special education processes and procedures required by federal, state and school district policies.
3. The special education director advocates for, seeks, and directs resources to meet staff, student and parent needs.

<i>Standard 5 Priority Management</i>	<i>Unacceptable</i>	<i>Acceptable</i>	<i>Exemplary</i>
<i>5.2 Performance</i>	X		

**5.2 Analysis** –There is incomplete evidence as there are no current students nor any completers to interview, or coursework to review. As a result there is no performance evidence to review for this standard.

**Sources of Evidence**

- Syllabi
- Faculty interviews

**Standard 6: Transparency** - *The administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.*

**Standard 7: Leadership Renewal** - *The administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.*

**Standard 8: Accountability** - *The administrator establishes high standards for professional, legal, ethical, and fiscal accountability.*

**Standard 9: Innovation** - *The administrator seeks and implements innovative and effective solutions that comply with general and special education law.*

**Standard 10: Instructional Vision** - *The administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.*

**Knowledge**

1. The special education director understands the concept and best practices of least restrictive environment.
2. The special education director understands the importance of post-school outcomes and articulates a full range of services and supports for students with disabilities ages three to twenty-one to maximize their potential.
3. The special education director understands the importance of collaboration to provide general education targeted interventions.

<i><b>Standard 10 Instructional Vision</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>10.1 Knowledge</b></i>	X		

**10.1 Analysis** – The EPP did not provide sufficient evidence for indicators (1), (2), and (3) to demonstrate that the program is designed to meet the standard. The materials provided were limited to review of syllabi. Many of the listed syllabi are for the courses that lead to endorsement as an Educational Administrator not the Special Education Director Endorsement. As there are no current candidates nor any completers since the program was updated two years ago there were no coursework, or interviews to conduct. Interviews with two faculty members indicated that since the Special Education Directors program was conditionally approved in 2016 there have been no changes to the program design.

***Sources of Evidence***

- Syllabi
- Faculty interviews

**Performance**

1. The special education director collaborates with community, staff, and students to explain and implement the concepts and goals of best practice in the least restrictive environment.
2. The special education director engages in district planning processes that cultivate a shared vision for meeting the needs of all learners.

<i><b>Standard 10 Instructional Vision</b></i>	<i><b>Unacceptable</b></i>	<i><b>Acceptable</b></i>	<i><b>Exemplary</b></i>
<i><b>10.2 Performance</b></i>	X		

**10.2 Analysis** – There is incomplete evidence as there are no current students nor any completers to interview, or coursework to review. As a result there is no performance evidence to review for this standard.

***Sources of Evidence***

- Syllabi
- Faculty interviews

**Standard 11: High Expectations - The administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.**

**Standard 12: Continuous Improvement of Instruction - The administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The administrator aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.**

**Knowledge**

1. The special education director knows instructional and behavioral strategies for meeting the needs of special populations.
2. The special education director knows how to plan, write, implement, and access Individual Education Programs.
3. The special education director understands the role of assistive and adaptive technology and related services in instruction.
4. The special education director understands community-based instruction and experiences for students.
5. The special education director understands how to use data to determine instructional needs and to develop professional training to meet those needs.
6. The special education director understands statewide assessment policies.

<b>Standard 12 Continuous Improvement of Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>12.1 Knowledge</b>	X		

**12.1 Analysis** – The EPP did not provide sufficient evidence for indicators (1), (2), and (3) to demonstrate that the program is designed to meet the standard. The materials provided were limited to review of syllabi. Many of the listed syllabi are for the courses that lead to endorsement as an Educational Administrator not the Special Education Director Endorsement. As there are no current candidates nor any completers since the program was updated two years ago there were no coursework, or interviews to conduct. Interviews with two faculty members indicated that since the Special Education Directors program was conditionally approved in 2016 there have been no changes to the program design.

**Sources of Evidence**

- Syllabi
- Faculty interviews

**Performance**

1. The special education director serves as a resource for staff and administration concerning instructional and behavioral strategies for meeting the needs of special populations as well as allocating appropriate resources.
2. The special education director ensures that data is used to provide appropriate individualized educational programs and supports, and develops and implements services in school and community environments.
3. The special education director ensures the fulfillment of federal and state requirements related to the instruction and assessment of special populations.

<b>Standard 12 Continuous Improvement of Instruction</b>	<b>Unacceptable</b>	<b>Acceptable</b>	<b>Exemplary</b>
<b>12.2 Performance</b>	X		

**12.2 Analysis** – There is incomplete evidence as there are no current students nor any completers to interview, or coursework to review. As a result there is no performance evidence to review for this standard.

**Sources of Evidence**

- Syllabi
- Faculty interviews

**Standard 13: Evaluation - The administrator demonstrates proficiency in assessing teacher performance based upon the Idaho adopted framework for teaching.**

**Standard 14: Recruitment and Retention - The administrator recruits and maintains a high quality staff.**

**Summary**

Type of Standard	Total Number of Standards	Unacceptable	Acceptable	Exemplary
Knowledge	3	3	0	0
Performance	3	3	0	0

**Areas for Improvement**

- There are five specific courses for the Idaho Standards for Special Education Director Endorsement. These are: EDLA 7724, SPED 5538, SPED 5550, SPED 6639 and SPED 6632. The EPP has listed most all of the courses in the Master of Education in Education Administration as meeting the Knowledge and Performance Standards. There is a disconnect between the depth that Educational Administrators and Special Education Administrators need in order to meet the Special Education Director standards and indicators. An EDUC course meant to qualify Educational Administrators is insufficient for training Special Education Directors. These are courses designed for the Education Administration programs and are not designed for the Special Education Director Endorsement.
- Only SPED 6632 is designed to specifically meet the Idaho Standards for the Special Education Director Endorsement. EDLA 7724 does meet some of the Knowledge and Performance Standards. SPED 5538, 5550, and 6639 according the syllabi provided do not meet the Knowledge and Performance Standards that the EEP has listed on the included matrix. Based on the interviews with faculty and review of course syllabi along with the inability to interview current candidates and completers as there have not been any candidates since the program was granted conditional status in 2016 indicate nothing has changed since that time. There is no evidence to support instruction shifts for the Special Education Director program.

**Recommended Action for Special Education Directors**

- Approved
- Conditionally Approved
  - Insufficient Evidence
  - Lack of Completers
  - New Program
- Not approved

In April 2019, the PSC accepted ISU's rejoinder and voted to move Special Education Director to Conditionally Approved due to insufficient evidence and lack of completers.

Professional Standards Commission  
c/o Katie Mathias  
Idaho State Department of Education  
650 State Street  
Boise, ID 83702

March 7, 2019

Dear Professional Standards Commission members,

Please accept this rejoinder in response to the November 2018 findings prepared by the Idaho State Department of Education Mid-Cycle Focus Visit Review Team that examined the teacher endorsements offered through the Idaho State University Educator Preparation Program. We sincerely appreciate the care, attention, and useful feedback provided by members of the Review Team.

During the 2018 Focus Visit, two ISU educational endorsements received a Recommended Action of “Not Approved.” The two identified areas were the Economics and Special Education Director endorsements. In consultation with educator preparation faculty in the College of Education and faculty in the College of Business who teach a significant number of courses that support the Economics endorsement, it has been mutually decided that we no longer wish to offer the Economics endorsement at Idaho State University. Truthfully, we have not had a candidate pursue this degree nor had a school district request a graduate with this endorsement in at least 20 years. However, College of Business faculty are committed to continuing to teach the economic courses that support the Social Studies endorsement.

We would like to highlight some areas of concern in the final report related to the Special Education Director Endorsement. Based on our understanding of the relationship between the Idaho Foundation Standards for School Administrators (IFSSA) and the Idaho Standards for Special Education Directors (ISSED), the foundation standards intentionally permeate and align across all program components of both the school administrator and special education director endorsements. The ISSED standards highlight 13 indicators, found in three (3) standards that address competencies specific to the Special Education Director endorsement. The remainder of the competencies are addressed in the remaining indicators found in the other 11 Idaho Foundation Standards for School Administrators.

The Special Education Director endorsement reviewer noted, “there is a disconnect between the depth that Educational Administrators and Special Education Administrators need in order to meet the Special Education Director standard and indicators” (p. 244). However, as noted in the preceding paragraph, there are only three standards (Standard 5: Priority Management, Standard 10: Instructional Vision, and Standard 12: Continuous Improvement of Instruction) that specifically address Special Education Director competencies. All of these competencies are

addressed through a combination of administrator coursework and these five courses specific to the SPED Director endorsement:

EDLA 7724: Data Informed Instructional Leadership  
SPED 5538: Policies and Procedures in Special Education  
SPED 5550: Creating Inclusive Classrooms  
SPED 6632: Administration of Special Education  
SPED 6639: Internship in Special Education

Each of these courses and those in the Education Administration track are aligned to the Idaho Foundation Standards for School Administrators and the Idaho Standards for Special Education Directors. These courses are also been aligned with national standards for Directors of Special Education provided by the Council for Exceptional Children. A matrix (attached) outlining this alignment was submitted as evidence to be considered during this review, but was not cited as evidence considered in the in the final assessment of the program. In recommending that the SPED Director program be “Not approved,” the review cited only two sources of evidence to support this decision; Syllabi and Faculty interviews.

We contend that sufficient evidence, if considered, was provided to justify a recommendation of “Conditionally approved” for the Special Education Director endorsement.” As with all of our endorsement areas, we continue to work to improve the design, delivery, and assessment of courses to meet the evolving landscape of teacher preparation. Currently, a team of Educational Administration, Special Education, and School Psychology faculty, along with regional Special Education Directors are collaborating to examine course objectives and learner outcomes to more clearly align with the practice required of Idaho Special Education Directors.

We are requesting the “Not approved” status for Special Education Director endorsement, as recommended in the Mid-cycle Focus Visit Report be reconsidered and a change be made to “Conditionally Approved” citing lack of completer. Such a designation will support our ongoing efforts to improve the SPED Director program, allow interested candidates to be admitted to this program and continue to address the urgent need for qualified Special Education Directors in Idaho State University’s service region.

Please feel free to contact me if you require additional information or feel I can be of some additional service.

Best regards,

Mark W. Neill  
Assistant Dean of Educator Preparation  
Idaho State University

<p>SEA.7.S2: Strengthen the role of parent and advocacy organizations as they support individuals with exceptionalities and their families</p>	<p align="center"><b>Idaho Standard 6: Transparency</b></p> <p><b>Performance Standard 6.2:</b> ... develops a plan that solicits input from all stakeholders to create and sustain a culture of collaboration, trust, learning, and high expectation.</p>	<p><b>Performance Standard 6.2:</b> <i>EDLA 6608</i> – Culture &amp; climate exercise; <i>EDLA 6642</i> – PR plan; <i>EDLA 6657</i> – Leadership exercise; <i>EDLA 7724</i> – using a research team to analyze data (lesson #5); <i>SPED 6632</i>: Reflection paper, Interview w/ SpEd Director, Principal, &amp; Business Mgr., Mini-research assignment;</p>
<p>SEA.7.S3: Develop and implement intra-and interagency agreements that create programs with shared responsibility for individuals with individuals with exceptionalities and their families</p>	<p align="center"><b>Idaho Standard 5: Priority Management</b></p> <p><b>Performance Standard 5.3:</b> ... advocates for, seeks, and directs resources to meet staff, student and parent needs.</p>	<p><b>Performance Standard 5.3:</b> <i>EDLA 6609</i> – Budgeting exercise; <i>EDLA 6657</i> – Faculty meeting activity, Activity log exercise;</p>
<p>SEA.7.S4: Develop seamless transitions of individuals with exceptionalities across the educational continuum and other programs from birth through adulthood</p>	<p align="center"><b>Idaho Standard 9: Innovation</b></p> <p><b>Performance Standard 9.3:</b> ... ensures innovation adheres to all local, state, and federal laws and policies and regulations.</p> <p align="center"><b>Idaho Standard 10: Instructional Vision</b></p>	<p><b>Performance Standard 9.3:</b> <i>EDLA 6612</i> – Case study; Teacher evaluation activities; <i>SPED 5538</i> – Case study;</p> <p><b>Knowledge Standard 10.2:</b></p>

	<p><b>Knowledge Standard 10.2:</b> ... understands the importance of post-school outcomes and articulates a full range of services and supports for students with disabilities ages three to twenty-one to maximize their potential.</p>	<p><i>EDLA 6608</i> – Systems thinking (lesson #4);  <i>EDLA 6609</i> – Special populations (lesson 14);  <i>EDLA 6614</i> – Backward design process (lesson #5);  <i>EDLA 6612</i> – Students w/ disabilities (lesson #13);  <i>EDLA 6642</i> – Communicating with external stakeholders (lesson #6);  <i>SPED 5538</i> – Procedural safeguards (lesson #13);</p>
<p>SEA.7.S5: Implement collaborative administrative procedures and strategies to facilitate communication among all stakeholders</p>	<p><b>Idaho Standard 2: Communication</b></p> <p><b>Performance Standard 2.3:</b> ... demonstrates ability to lead and engage school staff and stakeholders, using multiple communication strategies.</p>	<p><b>Performance Standard 2.3:</b>  <i>EDLA 6608</i> – Belief statements;  <i>EDLA 6642</i> – Community Public relations plan;  <i>EDLA 6657</i> – Faculty meeting exercise;  <i>SPED 6632</i> - Reflection papers;</p>
<p>SEA.7.S6: Engage in leadership practices that support shared decision making</p>	<p><b>Idaho Standard 1: School Culture</b></p> <p><b>Performance Standard 1.7:</b> ... demonstrates ability to collaborate with instructional staff and parents in creating opportunities to safely examine and address barriers to a school culture, embracing diversity.</p>	<p><b>Performance Standard 1.7:</b>  <i>EDLA 6642</i> – Public-relations plan;  <i>EDLA 6657</i> – Parent contact w/diverse learners;  <i>SPED 5538</i> – Case study;</p>
<p>SEA.7.S7: Demonstrate the skills necessary to provide ongoing communication, education, and support for families of individuals with exceptionalities</p>	<p><b>Idaho Standard 5: Priority Management</b></p> <p><b>Performance Standard 5.3:</b> ... advocates for, seeks, and directs resources to meet staff, student and parent needs</p>	<p><b>Performance Standard 5.3:</b>  <i>EDLA 6609</i> – Budgeting exercise;  <i>EDLA 6657</i> – Faculty meeting activity, Activity log exercise;</p>
<p>SEA.7.S8: Consult and collaborate in administrative and instructional decisions at the school and district levels</p>	<p><b>Idaho Standard 2: Communication</b></p> <p><b>Performance Standard 2.4:</b> ... demonstrates ability to ensure that stakeholders have meaningful input in the school's vision and mission, aligning with academic and social learning goals for students.</p>	<p><b>Performance Standard 2.4:</b>  <i>EDLA 6608</i> – Mission &amp; vision exercise;  <i>EDLA 6642</i> – PR plan;  <i>EDLA 6657</i> – Leadership meeting;</p>

**PROFESSIONAL STANDARDS COMMISSION**

**SUBJECT**

Northwest Nazarene University; Proposed Computer Science (6-12) Endorsement Program

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section 33-114, 33-1254, and 33-1258, Idaho Code  
Idaho Administrative Code, IDAPA 08.02.02, Section 100 - Official Vehicle for the Approval of Teacher Preparation Programs

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 4: Workforce Readiness, Objective A: Workforce Alignment

**BACKGROUND/DISCUSSION**

The Standards Committee of the Professional Standards Commission (PSC) conducted a New Program Approval Desk Review of the Computer Science (6-12) endorsement program proposed by Northwest Nazarene University (NNU). Through the comprehensive presentation, the Standards Committee gained a clear understanding that all of the state standards would be met through the proposed program.

During its April 2019 meeting, the PSC voted to recommend Conditional Approval of the proposed Computer Science (6-12) endorsement program through Northwest Nazarene University (NNU). With this Conditionally Approved status, NNU may admit candidates to the Computer Science (6-12) endorsement program. This new program will be re-visited during the next regularly scheduled review.

**IMPACT**

This new program will enable NNU to prepare educators who seek an endorsement to teach computer science in grades 6-12 in Idaho schools.

**ATTACHMENTS**

Attachment 1 – NNU Computer Science 6-12 Proposal

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-114, Idaho Code, the review and approval of all teacher preparation programs in the state is vested in the State Board of Education. The program reviews are conducted for the Board through the Professional Standards Commission (Commission). Recommendations are then brought forward to the Board for consideration. The review process is designed to ensure the programs are meeting the Board-approved standards for Initial Certification of Professional School Personnel (Certification Standards) for the applicable program areas.

**CONSENT**  
**JUNE 20, 2019**

---

Certification Standards are designed to ensure that educators are prepared to teach the state content standards for their applicable subject areas and are up-to-date on best practices in various teaching methodologies.

Current practice is for the Commission to review new programs and make recommendations to the Board regarding program approval. New program reviews are conducted through a "Desk Review" and do not include an on-site review. The Commission review process evaluates whether or not the programs meet or will meet the approved Certification Standards for the applicable certificate and endorsement area. The Commission may recommend to the Board that a program be "Approved," "Not Approved," or "Conditionally Approved." Programs conditionally approved are required to have a subsequent focus visit. The focus visit is scheduled three years following the conditional approval, at which time the Commission forwards a new recommendation to the Board regarding approval status of the program.

Once approved by the Board, candidates completing these programs will be able to apply for a Standard Instructional Certificate with an endorsement in the area of study completed.

**BOARD ACTION**

I move to accept the Professional Standards Commission recommendation to and to conditionally approve the Computer Science 6-12 endorsement program offered through Northwest Nazarene University.

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-114, Idaho Code, the review and approval of all teacher preparation programs in the state is vested in the State Board of Education. The program reviews are conducted for the Board through the Professional Standards Commission (Commission). Recommendations are then brought forward to the Board for consideration. The review process is designed to ensure the programs are meeting the Board-approved standards for Initial Certification of Professional School Personnel (Certification Standards) for the applicable program areas. Certification Standards are designed to ensure that educators are prepared to

**CONSENT**  
**JUNE 20, 2019**

---

teach the state content standards for their applicable subject areas and are up-to-date on best practices in various teaching methodologies.

Current practice is for the Commission to review new programs and make recommendations to the Board regarding program approval. New program reviews are conducted through a "Desk Review" and do not include an on-site review. The Commission review process evaluates whether or not the programs meet or will meet the approved Certification Standards for the applicable certificate and endorsement area. The Commission may recommend to the Board that a program be "Approved," "Not Approved," or "Conditionally Approved." Programs conditionally approved are required to have a subsequent focus visit. The focus visit is scheduled three years following the conditional approval, at which time the Commission forwards a new recommendation to the Board regarding approval status of the program.

Once approved by the Board, candidates completing these programs will be able to apply for a Standard Instructional Certificate with an endorsement in the area of study completed.

**BOARD ACTION**

I move to accept the Professional Standards Commission recommendation and to conditionally approve the Mathematics 6-12 endorsement program offered through The College of Idaho.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

The College of Idaho's Education Department and Math Department propose the following Math Education Program:

Coursework is specific to students who major in mathematics and minor in education in order to teach math in secondary (6-12) placements. Those completing their undergraduate with a major in mathematics and a minor in education will then enroll in the fifth year education program to complete certification requirements.

### **Education Department Mission**

The Education Department at The College of Idaho is committed to improving student learning in K-12 classrooms by preparing teachers who have a thorough knowledge of content, educational theory, and best practices. The department works collaboratively with K-12 practitioners, professional organizations, and policy makers to improve the preparation of new teachers, as well as to support the development of practicing educators. The Education Department will extend and enhance The College of Idaho's reputation and impact on the community, and within the education profession, by working with policy makers, practitioners, and professional organizations to improve the learning of K-12 students. Where possible, the department will act within the dynamic education environment to change policy that supports improved practice and to prepare new teachers with the knowledge, skills, and dispositions that will empower them to operate within existing policies and institutions, while providing leadership that will influence the profession and practice in positive ways.

### **Education Department Core Values**

- All individuals are inherently valuable and should be treated with respect.
- All individuals can learn.
- Learning is enhanced when informed by a combination of research and best practice.
- Educators should be people of integrity.
- Regarding teaching and learning, the whole is bigger than the sum of the parts.

### **Math Department Description:**

Studying math at the C of I requires a combination of creative thinking, detailed analysis, and organized problem-solving skills. This program will challenge you to:

- Develop critical thinking skills that are necessary for understanding a technologically driven world.
- Acquire a broad range of mathematical and scientific knowledge.
- Expand and develop problem-solving and analytical skills.
- Engage with a pragmatic curriculum that fosters understanding of mathematical structure.

The teacher education program at The College of Idaho strives to be an educative learning community. The conceptual framework of our educative learning community is one based on John Dewey's understanding of educative experiences that encourage personal and community growth (Dewey & Archambault, 1964). It is a community where students are provided with a reflective, caring environment so that the process of becoming a teacher can be explored. It is a community where students are offered a vision of schooling that promotes and helps create to a more just and democratic society.

### **Coursework for Math Education Specialization undergraduate**

The following math courses (43 credits) will be taken as undergraduate coursework. (Descriptions provided below)

- MAT 120
- MAT 125
- MAT 175
- MAT 275
- MAT 280
- CSC 150
- PHY 271
- PHY 271L
- MAT/PHY 199
- MAT 400
- MAT 311
- MAT 361
- MAT 370
- MAT 440
- MAT 4XX

The following education courses will be taken as undergraduate coursework in the Education Minor.

- EDU 202 Introduction to Teaching
- PSY 221 Educational Psychology
- EDU 301 Foundations of Schooling
- EDU 305 Literacy in Content Area
- EDU 442 Teaching Exceptional Children
- EDU 441 Curriculum and Instruction
- EDU 430 Teaching in a Diverse Society

The following education courses will be taken as graduate coursework in the fifth year. Some of the following courses are referenced in the Standards Matrix.

- EDU 520 Assessment for Teaching and Learning

- EDU 596 Clinical Experience Student Teaching
- EDU 597 Intern Seminar
- EDU 542 Secondary Math Methods

### **Mathematics Course Descriptions:**

#### **MAT-120 CONTEMPORARY MATHEMATICS**

A course designed to explore some of the great ideas in mathematics and to discover the power of mathematical thinking in everyday life. Topics include counting techniques, infinity, geometry, shape and space, chaos and fractals, and decision science. Prerequisites: MAT-101 or placement according to the Math Placement Guide. **3 credits**

#### **MAT-125 DATA ANALYSIS AND STATISTICS**

An applications-oriented approach to data analysis and statistics. Topics may include descriptive statistics, probability and probability distributions, confidence intervals, hypothesis testing, and regression. The course will also cover linear inequalities and interpreting functions with emphasis on their graphs. Applications in business, economics, natural sciences and the social sciences. Students who have received credit for AP Statistics may not take this course for credit. Prerequisite: MAT-101 or placement according to the Math Placement Guide. **3 credits**

#### **MAT-175 SINGLE VARIABLE CALCULUS**

This calculus course studies the theory of differentiation and integration of functions of one variable. Main topics include functions, limits, differentiation, and integration. Topics may include continuity, Riemann sums, the fundamental theorem of calculus, techniques of integration, improper integrals, L'Hopital's rule, geometric series, power series, and Taylor series. This is a more mathematically rigorous course than MAT-150. Students planning further work in mathematics or physics and who have successfully completed a previous calculus course are encouraged to take MAT-175. Prerequisites: MAT-150 with a B- or better, or MAT-150 and MAT-130, each with a grade of C or better, or placement according to the Math placement guide. **4 credits**

#### **MAT-275 MULTIVARIABLE CALCULUS**

This course is an extension of calculus to higher-dimensional spaces. Main topics include differentiation of functions of two and three variables, an introduction to vector analysis and parametrization, and a study of definite integration in both rectangular and curved coordinate systems. Topics may include a review of functions of several variables, vector geometry of 3-dimensional space, partial derivatives, gradient vectors, optimization techniques, multiple integration in the three classical curvilinear coordinate systems, parametric equations, vector fields, line integrals and Green's Theorem, and the other classical integral theorems of differential geometry. Prerequisites: MAT-175 with minimum grade of C, or meet the criteria of the Math placement guide, or Instructor permission. **4 credits**

### **MAT-280 INTRODUCTION TO PROOF: NUMBER THEORY**

Methods of mathematical proof will be introduced using concepts from number theory. Topics may include: axioms for the integers, Euclidean algorithm, Diophantine equations, Fermat's Little Theorem, unique factorization, and primality testing. Prerequisites: MAT-175 or MAT-275 with a minimum grade of C and sophomore standing or Instructor permission. **1 credit**

### **CSC-150 COMPUTER SCIENCE I: INTRODUCTION TO COMPUTER SCIENCE AND PROGRAMMING**

Students learn elements of computer programming including variables, input and output, operators, control structures, functions, and arrays, using a high level language such as C++. In the process of learning to program, students become familiar with some of the ideas and vocabulary used in computer science and develop problem solving skills. Prerequisites: MAT-150 or MAT-175 or MAT-275 or placement. The prerequisite course must be passed with a minimum grade of C. **3 credits**

### **PHY-271 ANALYTICAL PHYSICS I**

A general survey of physics topics including motion, forces, work, energy, waves, and special relativity. Calculus is used extensively and some familiarity with computers is assumed. This course is intended for math-physics majors and dual-degree engineering students and strongly recommended for any student who plans to do graduate work in any of the sciences or mathematics. Four lectures weekly. Credit for PHY-271 will not be granted to students who have completed PHY-231. **4 credits**

### **PHY-271L ANALYTICAL PHYSICS I LAB**

An integral part of PHY-271 with which it should normally be taken concurrently. One laboratory period weekly. Credit for PHY-271L will not be granted to students who have completed PHY-231L. **1 credit**

### **MAT-311 PROBABILITY AND MATHEMATICAL STATISTICS I**

A study of finite sample spaces, conditional probability and independence, functions of random variables, random variables of one or more dimensions, discrete random variables, continuous random variables, moment generating functions, sampling distribution, estimation and testing of hypotheses. Prerequisites: MAT-280, MAT-281, MAT-282, or MAT-283 with a minimum grade of C. **3 credits**

### **MAT-361 LINEAR ALGEBRA**

A study of general vector spaces, linear transformations, eigenvalues and eigenvectors. Prerequisites: MAT-280, MAT-281, MAT-282, or MAT-283 with a minimum grade of C. **3 credits**

**MAT-370 GEOMETRY**

A study of Euclidean geometry and the development of non-Euclidean geometry, one of the most significant occurrences in the history of mathematics. Prerequisites: MAT-280, MAT-281, MAT-282, or MAT-283 with a minimum grade of C. **3 credits**

**MAT 400: 6 credits**

**MAT 400 Capstone:** The Mathematics capstone will be added the current course sequence.

**MAT 4XX Course Assistant in MAT 101/102/103:** This practicum is unique to the pre-service math teachers' content understanding and skills teaching math prior to student teaching, through a professional experience directly involved with the Math Department at The College of Idaho and the Education Department. The course is a collaborative venture among the college student, college peers, and a college instructor. **1 credit**

**CONSENT  
JUNE 20, 2019**

---

**DEPARTMENT OF EDUCATION**

**SUBJECT**

Request for Waiver of 103% Student Transportation Funding Cap

**REFERENCE**

June 2016	Board approved the request for eight (8) school districts to receive a funding cap waiver
June 2017	Board approved the request for six (6) school districts to receive a funding cap waiver
June 2018	Board approved the request for eight (8) districts to receive a funding cap waiver

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-1006, Idaho Code

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 2: Educational Attainment, Objective C: Access

**BACKGROUND/DISCUSSION**

During its 2001 session, the Idaho Legislature amended Section 33-1006, Idaho Code. The amendment created a student transportation funding cap, affecting school districts that exceed by 103% the statewide average cost per mile and cost per rider. The 2007 and 2009 Legislatures further amended this language to provide clear, objective criteria that defines when a district may qualify to be reimbursed for expenses above the cap, and by how much. These new criteria designate certain bus runs as “hardship” runs, and allow the district to receive a higher cap based on the percentage of the district’s bus runs that are so categorized.

As of April 15, 2019, 23 school districts / charter schools were negatively affected by the pupil transportation funding cap:

<b>District #</b>	<b>District Name</b>	<b>Reduction in Funding</b>
011	MEADOWS VALLEY DISTRICT	\$15,388
013	COUNCIL DISTRICT	\$5,967
044	PLUMMER-WORLEY JOINT DISTRICT	\$45,217
061	BLAINE COUNTY DISTRICT	\$55,430
071	GARDEN VALLEY DISTRICT	\$78,246
132	CALDWELL DISTRICT	\$19,154
137	PARMA DISTRICT	\$22,338
171	OROFINO JOINT DISTRICT	\$45,411
244	MOUNTAIN VIEW SCHOOL DISTRICT	\$55,135

**CONSENT  
JUNE 20, 2019**

<b>District #</b>	<b>District Name</b>	<b>Reduction in Funding</b>
274	KOOTENAI DISTRICT	\$11,671
281	MOSCOW DISTRICT	\$74,364
282	GENESEE JOINT DISTRICT	\$15,493
304	KAMIAH JOINT DISTRICT	\$11,864
341	LAPWAI DISTRICT	\$27,580
391	KELLOGG JOINT DISTRICT	\$23,160
392	MULLAN DISTRICT	\$2,425
393	WALLACE DISTRICT	\$19,266
401	TETON COUNTY DISTRICT	\$14,643
411	TWIN FALLS DISTRICT	\$34,003
415	HANSEN DISTRICT	\$7,526
421	MCCALL-DONNELLY JT. SCHOOL DISTRICT	\$21,745
463	VISION CHARTER SCHOOL	\$14,460
468	IDAHO SCIENCE & TECHNOLOGY CHARTER	\$7,437

The State Department of Education received requests from various school districts and charter schools for a waiver of the 103% funding cap as provided in Section 33-1006, Idaho Code. Student Transportation staff reviewed these requests to ensure they met the eligibility criteria. Of the 23 districts and charter schools negatively affected by the pupil transportation funding cap, only nine (9) school districts had routes meeting the statutory requirements of a hardship bus run, which would allow the Board to grant a waiver. All nine (9) of these school districts, listed below, have applied for a waiver of the funding cap.

**#044 Plummer Worley School District** submitted school bus routes that met the required criteria. This represents 16.67% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 119.67%.

**#071 Garden Valley School District** submitted school bus routes that met the required criteria. This represents 30% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 133%.

**#171 Orofino School District** submitted school bus routes that met the required criteria. This represents 31.25% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 134.25%.

**CONSENT**  
**JUNE 20, 2019**

---

**#244 Mountain View School District** submitted school bus routes that met the required criteria. This represents 60% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 163%.

**#274 Kootenai School District** submitted school bus routes that met the required criteria. This represents 100% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 203%.

**#281 Moscow School District** submitted school bus routes that met the required criteria. This represents 16.13% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 119.13%.

**#304 Kamiah School District** submitted school bus routes that met the required criteria. This represents 40% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 143%.

**#341 Lapwai School District** submitted school bus routes that met the required criteria. This represents 44.44% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 147.44%.

**#391 Kellogg School District** submitted school bus routes that met the required criteria. This represents 2.78% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 105.78%.

**IMPACT**

Approval of the funding cap waivers allows districts to be reimbursed for routes that meet the hardship criteria. Board inaction or denial of the funding cap waivers would result in a loss of funding for the school districts in question.

**ATTACHMENTS**

Attachment 1 – Funding Cap Waiver Spreadsheet

**STAFF COMMENTS AND RECOMMENDATIONS**

At the June 2017 Board meeting the Board approved a waiver of the funding cap for St. Maries School District, Plummer-Worley School District, Garden Valley School District, Butte County School District, Orofino School District, Bliss School District, Mountain View School District, Kootenai School District, Moscow School District, Kamiah School District, Highland School District, and Kellogg School District. Of the nine requests the Board is considering this year, seven were

**CONSENT  
JUNE 20, 2019**

---

approved in 2018. St. Maries School District and Lapwai School District are new for 2019.

Pursuant to Section 33-1006, Idaho Code:

“A school district may appeal the application of the one hundred three percent (103%) limit on reimbursable costs to the state board of education, which may establish for that district a new percentile limit for reimbursable costs compared to the statewide average, which is higher than one hundred three percent (103%). In doing so, the state board of education may set a new limit that is greater than one hundred three percent (103%), but is less than the percentile limit requested by the school district. However, the percentage increase in the one hundred three percent (103%) cap shall not exceed the percentage of the district’s bus runs that qualify as a hardship bus run, pursuant to this subsection. Any costs above the new level established by the state board of education shall not be reimbursed. Such a change shall only be granted by the state board of education for hardship bus runs. To qualify as a hardship bus run, such bus run shall meet at least two (2) of the following criteria:

- (a) The number of student riders per mile is less than fifty percent (50%) of the statewide average number of student riders per mile;
- (b) Less than a majority of the miles on the bus run are by paved surface, concrete or asphalt road;
- (c) Over ten percent (10%) of the miles driven on the bus run are a five percent (5%) slope or greater.”

The Department of Education transportation staff review each of the applications prior to submittal for Board consideration. Only those school districts that have met the statutory requirements may be considered for approval.

**BOARD ACTION**

I move to approve the request by School District #044, Plummer-Worley School District, for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2018 of 119.67%, for a total of \$45,217 in additional funds from the public school appropriation.

**DEPARTMENT OF EDUCATION**

**SUBJECT**

Requests for Safety Busing Approval for the 2018-2019 School Year

**REFERENCE**

June 2016	Board approved the request for 98 school districts and 13 charter schools to transport students less than one and one-half miles for the 2015-2016 school year.
June 2017	Board approved the request for 99 school districts and 13 charter schools to transport students less than one and one-half miles for the 2016-2017 school year.
June 2018	Board approved the request for 98 school districts and 13 charter schools to transport students less than one and one-half miles for the 2017-2018 school year.

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-1006, Idaho Code  
Section 33-1501, Idaho Code

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 3: Educational Attainment, Objective C: Access

**BACKGROUND/DISCUSSION**

Pursuant to Section 33-1006, Idaho Code, "The state board of education shall determine what costs of transporting pupils, including maintenance, operation and depreciation of basic vehicles, insurance, payments under contract with other public transportation providers whose vehicles used to transport pupils comply with federal transit administration regulations, "bus testing," 49 CFR part 665, and any revision thereto, as provided in subsection (4)(d) of this section, or other state department of education approved private transportation providers, salaries of drivers, and any other costs, shall be allowable in computing the transportation support program of school districts."

The transportation support program of a school district shall be based upon the allowable costs of transporting pupils less than one and one-half (1½) miles, commonly known as safety busing, as provided in Section 33-1501, Idaho Code, when approved by the State Board of Education.

The *Standards for Idaho School Buses and Operations* states, "All school districts submitting applications for new safety busing reimbursement approval shall establish a board policy for evaluating and rating all safety busing requests. The State Department of Education staff shall develop and maintain a measuring instrument model, which shall include an element for validating contacts with

**CONSENT**  
**JUNE 20, 2019**

---

responsible organizations or persons responsible for improving or minimizing hazardous conditions. Each applying district will be required to annually affirm that conditions of all prior approved safety busing requests are unchanged.

The local board of trustees shall annually, by official action (§33-1502, Idaho Code), approve all new safety busing locations. School districts that receive state reimbursement of costs associated with safety busing will re-evaluate all safety busing sites at intervals of at least every three years using the local board adopted measuring or scoring instrument. In order to qualify for reimbursement the local school board will, by official action, approve the initial safety-busing request and allow the students in question to be transported before the application is sent to the state. Consideration for reimbursement is contingent on the application being received by the State Department of Education Transportation Section on or before March 1 of the school year in which the safety busing began.”

All requests were submitted on the Safety Busing form found in the Idaho Bus Utilization System (IBUS) portal. Reminders were emailed to all districts and charter schools prior to March 1. All requests recommended for approval are compliant with Section 33-1006, Idaho Code. A total of 114 school districts and charter schools (LEAs), 97 school districts and 17 charter schools affecting 24,705 students, applied for safety busing using the correct form and are recommended for approval.

**IMPACT**

The approval of LEAs with safety-based students as listed in Attachment 1 allows LEAs to be reimbursed for routes that meet the safety busing requirements. Board inaction or denial of the safety bus waivers would result in a loss of funding for the LEAs in question.

**ATTACHMENTS**

Attachment 1 – Safety Busing LEA List and Student Count

**STAFF COMMENTS AND RECOMMENDATIONS**

Section 33-1006, Idaho Code, allows for the reimbursement of cost to transport students 1.5 miles or more from the school and pupils less than 1.5 miles as provided in Section 33-1501, Idaho Code, when approved by the State Board of Education. State Department of Education staff annually review school district requests and forward those meeting the requirements for safety busing to the Board for consideration. Staff recommends approval.

**BOARD ACTION**

I move to approve the requests by 97 school districts and 17 charter schools for approval to transport students less than one and one-half miles as submitted in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**DEPARTMENT OF EDUCATION**

**SUBJECT**

Appointments to the Assessment Item Review (Bias and Sensitivity) Committee

**REFERENCE**

November 2014	Board appointed 30 committee members for a two (2) or four (4) year term. A list of 90 additional members were appointed to perform a one-time review.
February 2015	Board approved the removal of an audio clip and associated items per the recommendation of the committee members.
August 2016	Board approved the appointment of committee members.
December 2016	Board disapproved the removal of the three (3) ELA items, one (1) grade 11 passage with five (5) associated items, one (1) grade 8 passage with 11 associated items, and one (1) grade 6 math item.
August 2017	Board approved the appointment of committee members.
August 2018	Board approved the appointment of committee members.
November 2018	Board approved the removal of one (1) grade 5 ELA item.

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-134, Idaho Code - Assessment Item Review Committee

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 1: Educational System Alignment

**BACKGROUND/DISCUSSION**

In accordance with Section 33-134, Idaho Code, the State Department of Education (Department) recommended and the State Board of Education appointed a review committee to ensure that parents, teachers, administrators, and school board members in Idaho's public education system have the opportunity to review the types and kinds of questions used on state assessments. The law requires a committee of thirty individuals in each of the six (6) educational regions in the state. Each region is represented by two (2) parents, one (1) teacher, one (1) school board member, and one (1) public or charter school administrator. Committee members shall serve a term of four (4) years.

This committee reviews all summative computer adaptive test questions for bias and sensitivity. The committee is authorized to make recommendations to revise

**CONSENT**  
**JUNE 20, 2019**

---

or eliminate test questions from the Idaho Standards Assessment Tests in English Language Arts/Literacy, Mathematics, and Science.

The Department recommends the following people to serve 4-year terms on the Bias and Sensitivity Committee, expiring June 30, 2023: Jody Hendrickx, Debi Schoonover, Rebekka Boysen-Taylor, Vickie McCullough, Erin McCandless, Robin Zikmund, Joy Thomas, Deanna Richards, Catherine Griffin, Judy Hoffman, Becky Vordermann, and E. Marie Hammon.

**IMPACT**

Appointment of Assessment Item Review Committee members ensures statutory compliance.

**ATTACHMENTS**

Attachment 1 – Assessment Item Review Committee Members

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-134, Idaho Code, the Assessment Item Review Committee (commonly referred to as the Bias and Sensitivity Committee) is charged with reviewing all summative computer adaptive test questions for bias and sensitivity, this includes the Idaho Standards Achievement Test for English Language Usage and Mathematics. Following the review process the committee may make recommendations to the Board for removal of any test questions that the committee determines may be bias or unfair to any group of test takers, regardless of differences in characteristics, including, but not limited to disability status, ethnic group, gender, regional background, native language or socioeconomic status. Additionally, this section of code established the makeup of the committee. The committee must include:

- (i) Two (2) parents of public school or public charter school students, selected from each of the six (6) education regions in this state;
- (ii) One (1) public school or public charter school teacher, selected from each of the six (6) education regions in this state;
- (iii) One (1) member who is an administrator of a school district or public charter school, selected from each of the six (6) education regions in this state; and
- (iv) One (1) member from the district board of trustees or public charter school board of directors, selected from each of the six (6) education regions in this state.

The Idaho Standards Achievement Test developed by the Smarter Balanced Assessment Consortium is refreshed each year through the addition of new assessment items. As part of Idaho's participation in the consortium we have access to the refreshed assessment and new assessment items. The committee reviews only the new items that are added each year. Items are added in both mathematics and English language usage. In 2015 361 combined items were added, in 2016 798 items were added and in 2017 1,051 items were added.

**CONSENT**  
**JUNE 20, 2019**

---

**BOARD ACTION**

I move to approve the request by the State Department of Education to appoint Jody Hendrickx, Debi Schoonover, Rebekka Boysen-Taylor, Vickie McCullough, Erin McCandless, Robin Zikmund, Joy Thomas, Deanna Richards, Catherine Griffin, Judy Hoffman, Becky Vordermann, and E. Marie Hammon to serve on the Assessment Item Review Committee in the roles identified in Attachment 1.

**SUBJECT**

Chief Executive Officer Salaries

**REFERENCE**

June 2018

The Idaho State Board of Education (Board) approved Chief Executive Officer salaries.

**APPLICABLE STATUTES, RULE OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.E.2.d. and e.

Idaho Code §33-102A

**ALIGNMENT WITH STRATEGIC PLAN**

Chief Executive Officer salary adjustments are a non-strategic Board governance agenda item.

**BACKGROUND/DISCUSSION**

Per a March 22, 2019 guidance memo from the Division of Financial Management (DFM) and Division of Human Resources, “[p]ay increases for [agency] directors will be determined by the Governor. For those reporting to a Board or Commission, the governing board shall make a recommendation in a letter to the Governor for his review by May 6, 2019.”

Idaho Code §33-102A provides that [t]he state board of education is hereby authorized to appoint an executive officer of the state board who ... shall receive such salary as fixed by the state board.” The Board’s recommended salary change for its Executive Director was sent to DFM on April 23, 2019.

Pursuant to Board Policy I.E.2.d., the administrator of the Division of Career Technical Education, the administrator of the Division of Vocational Rehabilitation, and the general manager of Idaho Public Television “are evaluated by the Executive Director annually, who makes recommendations to the Board with respect to compensation and employment.” The Board’s Executive Director has completed annual performance evaluations for these agency heads and transmitted salary recommendations to DFM on or before May 2, 2019. The Executive Director’s salary recommendations for these positions were based on the evaluations and the individual agencies’ DFM-approved compensation plans for FY2020.

On June 4, 2019, the Governor’s Office notified all directors and agency heads that they will receive a 3% ongoing salary increase.

Agency heads’ salaries are entered into the state payroll system based on the equivalent hourly amount. The Board’s consideration of salary changes at this time will allow for any approved changes to be entered into the state payroll system prior to the start of the payroll fiscal year.

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

**IMPACT**

Approval of the proposed salaries will allow staff to enter the salaries for FY2020 into the state payroll system.

**Governor Brad Little**

*State Capitol :: Boise, Idaho 83720  
(208) 334-2100 :: gov.idaho.gov*

June 4, 2019

Dear Directors and Agency Heads,

Governor Little's FY20 budget recommendation included a 3-percent Change in Employee Compensation (CEC) for permanent state employees. The Legislature appropriated funding for a 3-percent CEC with instructions that a portion of that amount be used to provide no less than \$550 per year increase for permanent state employees.

The purpose of this memo is to inform you that all Directors and Agency Heads will receive a 3-percent ongoing salary increase, which encompasses a \$550 per year increase, effective July 1, 2019. Please work with DHR and DFM to finalize the increase.

Next year, we will request the agencies that have been asked to fill out the Governor's objectives and key results to include their agency's key results when submitting CEC recommendations.

Please let your policy contact in the Governor's Office know if you have questions.

Thank you for your leadership in helping Governor Little carry out his vision of making Idaho the place where our children and grandchildren choose to stay.

Zach Hauge  
Chief of Staff

**First Amendment to the Employment Agreement  
for  
President Lewis-Clark State College**

This First Amendment to the Employment Agreement for President Lewis-Clark State College ("First Amendment") is made between the Idaho State Board of Education, as the Board of Trustees of Lewis-Clark State College ("Board"), and Dr. Cynthia Lee A. Pemberton ("President") and is effective July 1, 2019.

- 1. The Employment Agreement has an effective date of April 5, 2018.
- 2. All terms of the Employment Agreement remain unchanged with the exception of Paragraph 4. Paragraph 4.a. is hereby deleted and replaced with the following:

4. Salary

a. For all services rendered under this Agreement, the President's annual salary of two hundred and twenty-five thousand dollars (\$225,000) shall be increased by a three percent (3%) change in employee compensation (CEC) equal to \$6,750 plus an equity adjustment in the amount of \$8,250, for a total base compensation of two hundred and forty thousand dollars (\$240,000) payable solely from Institutional funds.

IN WITNESS WHEREOF, Debbie Critchfield, President of the Board, and Dr. Cynthia Lee A. Pemberton, President of Lewis-Clark State College, have executed this First Amendment.

**Second Amendment to the Employment Agreement  
for  
President Idaho State University**

This Second Amendment to the Employment Agreement for President Idaho State University ("Second Amendment") is made between the Idaho State Board of Education, as the Board of Trustees of Idaho State University ("Board"), and Kevin Satterlee ("President") and is effective June 16, 2019 ("Effective Date").

1. The Employment Agreement has an effective date of May 4, 2018 and was amended by a First Amendment to the Employee Agreement, effective October 18, 2018 ("First Amendment").
2. The Employment Agreement and the First Amendment are collectively referred to herein as the "Agreement."
3. All terms of the Agreement remain unchanged with the exception of Paragraph 4. Paragraph 4.a. is hereby deleted and replaced with the following:

4. Salary

a. For all services rendered under this Agreement, the President's annual salary of three \$370,000 shall be increased by a three percent (3%) change in employee compensation (CEC) equal to \$11,100 plus an equity adjustment in the amount of \$18,900 for a total base compensation of four hundred thousand dollars (\$400,000) payable solely from Institutional funds.

IN WITNESS WHEREOF, Debbie Critchfield, President of the Board, and Kevin Satterlee, President of Idaho State University, have executed this Second Amendment.

**BOISE STATE UNIVERSITY**

**SUBJECT**

New Multi-year contract for Gordon Presnell, Head Women's Basketball Coach

**REFERENCE**

February 2011	The Idaho State Board of Education (Board) approved a two-year employment agreement with Head Women's Basketball Coach Gordon Presnell.
December 2014	The Board approved a five-year employment agreement with Coach Presnell.
August 2016	The Board approved a new three-year employment agreement with Coach Presnell.
August 2017	The Board approved a new five-year rolling employment agreement with Coach Presnell.
December 2018	The Board approved an amendment to the 2017 employment agreement with Coach Presnell regarding incentive pay.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section II.H.

**ALIGNMENT WITH STRATEGIC PLAN**

Multi-year coach contracts are a non-strategic, Board governance agenda item.

**BACKGROUND/DISCUSSION**

Boise State University (BSU) is seeking to renew and extend a contract for its Head Women's Basketball Coach, Gordon Presnell.

In August 2017, the Board approved a four (4) year and seven (7) month employment extension contract with Coach Presnell, terminating March 31, 2022. The contract included an automatic extension clause extending one year after each season the team reached 18 wins. During the 2017-18 season, the employment agreement extended to March 31, 2023 when the team obtained its 18<sup>th</sup> win. After a great season of winning the Mountain West Conference Championship, playing in the first round of the NCAA tournament which is the second time in three years and a record setting season for wins of 25-8 overall, an amendment was negotiated for Coach Presnell's contract. The amendment updated his incentive pay to reward the continued success of the program.

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

During the 2018-19 season, the employment agreement extended to March 31, 2024 when the team obtained its 18th win. He led his team to double championships both in the regular season and conference tournament. The Broncos produced the best season in school history with a 28-5 record, made their third-straight NCAA Tournament appearance, and fifth overall appearance (2007, 2015, 2017-19) under Presnell's direction. Coach Presnell also reached 650 victories for his career. He became the 24th active NCAA (all levels) women's head coach, and the 16th active Division I women's head coach, to accomplish the feat. He is an asset to our University, our department and to the student-athletes he coaches. With the success he has had during his tenure, Boise State University requests approval to enter into a new multi-year contract with Coach Presnell as Head Women's Basketball Coach.

**IMPACT**

No state funds are used and these amounts are paid only from program revenues, media, donations and other non-state funds. Terms are as follows:

**Term:** Fixed term contract of four years and nine months.

**Base Compensation:** \$300,000 per year.

**Pay for Performance - Academic**

APR between 975-980	-	\$ 5,000
APR between 981-985	-	\$ 7,500
APR between 986-990	-	\$ 10,000
APR 991 or above	-	\$ 18,000

**Buy-Out Provision:** If Coach terminates early without cause, he may be required, at BSU's discretion, to pay liquidated damages as follows for the amount of time remaining in the contract:

▪ 5 years – 4 years and 1 day:	\$100,000
▪ 4 years – 3 years and 1 day:	\$ 80,000
▪ 3 years – 2 years and 1 day:	\$ 60,000
▪ 2 years – 1 year and 1 day:	\$ 40,000
▪ 1 year – 1 day:	\$ 20,000

**Pay for Performance - Athletic:**

a) The greatest of the following:	
12-14 conference wins	\$ 6,000
15+ conference wins	\$ 10,000
Conference Regular Season Champions	\$ 18,000
b) Conference Tournament Champions	\$ 15,000
c) At-large selection for the NCAA Tournament	\$ 10,000
d) NCAA Tournament Win (per game)	\$ 7,500
e) WNIT Win (per game)	\$ 3,000

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

f)	Conference Coach of the Year	\$ 3,000
g)	National Coach of the Year	\$ 10,000
h)	Conference Player of the Year	\$ 2,000
i)	Conference Freshman of the Year	\$ 2,000
j)	Top 50 RPI (at end of season)	\$ 6,000

**ATTACHMENTS**

- Attachment 1 – Proposed Contract
- Attachment 2 – Redline of Proposed Contract to Model Agreement
- Attachment 3 – Redline of Proposed Contract to Current Agreement as amended
- Attachment 4 – Maximum Compensation Calculation
- Attachment 5 – Maximum Compensation Calculation Comparison
- Attachment 6 – 2013-2017 APR Summary
- Attachment 7 – Base Salary and Incentive Comparison
- Attachment 8 – Liquidated Damages Comparison

**STAFF COMMENTS AND RECOMMENDATIONS**

The Board approved a contract amendment for Coach Presnell in December 2018. Boise State University intended to make further adjustments to the contract, but was unable to do so before the start of the basketball season. The changes in December only involved the incentive bonuses, with no adjustment to the base salary. The proposed contract includes an adjustment to the base salary from \$250,000 to \$300,000. Compared to other Mountain West conference coaches, Coach Presnell would have the highest base salary. In addition to the base salary, the incentive bonuses have been changed. The overall impact is a decrease in the maximum compensation from \$428,500 to \$426,500.

Liquidated damages have increased from a maximum of \$40,000 to a maximum of \$100,000. Compared to other Mountain West coaches, the liquidated damages are lower than most. Two other coaches in the conference do not have any liquidated damages. Of those coaches that do have a liquidated damages clause in the contract, the maximum amount in Coach Presnell's contract is lower than the maximum amount of all other coaches.

The following table details the differences between the proposed contract and the current contract.

**Liquidated Damages**

Current Amount	Proposed Amount	Date
\$20,000		Before March 31, 2019
\$10,000		Before March 16, 2020
	\$100,000	Between 5 years – 4 years and 1 day remaining
	\$80,000	Between 4 years – 3 years and 1 day remaining
	\$60,000	Between 3 years – 2 years and 1 day remaining
	\$40,000	Between 2 years – 1 year and 1 day remaining
	\$20,000	Between 1 year – 1 day remaining

Staff recommends approval

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

**BOARD ACTION**

I move to approve the request by Boise State University to enter into a new multi-year agreement as proposed with Gordon Presnell, Head Women's Basketball Coach for a term commencing on July 1, 2019 and terminating March 31, 2024, with a base salary of \$300,000 as proposed in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**EMPLOYMENT AGREEMENT**

This Employment Agreement (Agreement) is entered into by and between Boise State University (the University), and Gordon H. Presnell (Coach).

ARTICLE 1

1.1. Employment. Subject to the terms and conditions of this Agreement, the University shall employ Coach as the head coach of its intercollegiate women’s basketball team (the Team). Coach represents and warrants that Coach is fully qualified to serve, and is available for employment, in this capacity.

1.2. Reporting Relationship. Coach shall report and be responsible directly to the University’s Athletic Director (Director) or the Director’s designee. Coach shall abide by the reasonable instructions of Director or the Director’s designee and shall confer with the Director or the Director’s designee on all administrative and technical matters. Coach shall also be under the general supervision of the University’s President (President).

1.3. Duties. Coach shall manage and supervise the Team and shall perform such other duties in the University’s athletic program as the Director may assign and as may be described elsewhere in this Agreement. The University shall have the right, at any time, to reassign Coach to duties at the University other than as head coach of the Team, provided that Coach’s compensation and benefits shall not be affected by any such reassignment, except that the opportunity to earn supplemental compensation as provided in Sections 3.2.1 through 3.2.2 shall cease.

ARTICLE 2

2.1. Term. This Agreement is for a fixed-term appointment of four (4) years and nine (9) months, commencing on July 1, 2019 and terminating, without further notice to Coach, on March 31, 2024 unless sooner terminated in accordance with other provisions of this Agreement.

2.2. Extension or Renewal. This Agreement is renewable solely upon an offer from the University and an acceptance by Coach, both of which must be in writing and signed by the parties. Any renewal is subject to the prior approval of the Idaho State Board of Education (Board). This Agreement in no way grants to Coach a claim to tenure in employment, nor shall Coach’s service pursuant to this Agreement count in any way toward tenure at the University.

2.3. Automatic Extensions. The term of this Agreement will automatically be extended by one (1) additional year commencing on April 1 and concluding on March 31 for each season in which the team has at least eighteen (18) wins. For the purpose of calculation of wins, such wins must occur during the regular season, the conference tournament, the Women’s National Invitation Tournament (“WNIT”), or the National Collegiate Athletic Association (“NCAA”) Tournament, to the exclusion of all other pre-season exhibition games or post-season tournaments.

**ARTICLE 3**

**3.1. Regular Compensation.**

3.1.1 In consideration of Coach’s services and satisfactory performance of this Agreement, the University shall provide to Coach:

- a) A base salary \$300,000 per year and subsequent extension years pursuant to section 2.3 herein payable in biweekly installments in accordance with normal University procedures, and such salary increases as may be determined appropriate by the Director and President and approved by the Board;
- b) The opportunity to receive such employee benefits as the University provides generally to non-faculty exempt employees, provided that Coach qualifies for such benefits by meeting all applicable eligibility requirements (except that in accordance with Board Policy II.H.6.b.ii, University and Coach agree that Coach shall not accrue any annual leave hours, and may take leave (other than sick leave) only with prior written approval of the Director); and
- c) The opportunity to receive such employee benefits as the Department provides generally to its employees of a comparable level. Coach hereby agrees to abide by the terms and conditions, as now existing or hereafter amended, of such employee benefits.

Coach understands and agrees that financial conditions may require the President, in the President’s discretion, to institute furloughs or to take such other actions consistent with Board policy as the President may determine to be necessary to meet such challenges. In the event of a furlough or other action, the actual salary paid to Coach may be less than the salary stated in Section 3.1.1(a) above.

3.2. Supplemental Compensation. Each year Coach shall be eligible to receive supplemental compensation as detailed below:

3.2.1 Athletic Achievement Incentive Pay.

- a) The greatest of the following:
 

12-14 conference wins	\$6,000
15+ conference wins	\$10,000
Conference Regular Season Champions	\$18,000
- b) Conference Tournament Champions \$15,000
- c) At-large selection for the NCAA Tournament \$10,000
- d) NCAA Tournament Win (per game) \$7,500
- e) WNIT Win (per game) \$3,000
- f) Conference Coach of the Year \$3,000

g)	National Coach of the Year	\$10,000
h)	Conference Player of the Year	\$2,000
i)	Conference Freshman of the Year	\$2,000
j)	Top 50 RPI (at end of season)	\$6,000

If Coach qualifies for Athletic Achievement Incentive Pay under this Section, the University will pay Coach on the first regular pay date in July if Coach is still employed by the University on that date.

3.2.2. Academic Achievement Incentive Pay.

Academic Incentive Pay may be earned if annual team APR ranks nationally within women’s basketball as follows:

<u>National Rank Within Sport</u>		
975-980	=	\$5,000
981-985	=	\$7,500
986-990	=	\$10,000
991 or above	=	\$18,000

If Coach qualifies for Academic Achievement Incentive Pay, it will be paid as soon as reasonably practical following APR rating determination and verification by the National Collegiate Athletic Association (NCAA), if Coach is still employed by the University on that date.

3.2.3. Conditions for payment of Athletic and Academic Achievement supplemental compensation.

- a) If Coach qualifies for Athletic Achievement Supplemental Compensation pursuant to section 3.2.1, University will pay Coach on the first regular pay date in July, following the year in which such supplemental compensation is calculated but only if Coach is still employed by the University on that date. Ranking shall be determined based on NCAA National End of Season Ranking.
- b) If Coach qualifies for Academic Achievement Supplemental Compensation pursuant to section 3.2.2, it will be paid as soon as reasonably practical following APR rating determination and verification by the NCAA, if Coach is still employed by the University on that date.
- c) In order to receive any of the 3.2.1 supplemental compensation, the Team’s retention rate must be at least 50% for the academic year in which the supplemental pay is earned. The retention rate will be calculated anew each year and will not be cumulative.

The decisions whether or not to award the Incentive Pay outlined in this Section 3.2, and in what amounts, are within the Director's sole discretion. The decisions may be made based on a variety of factors, including, but not limited to, Coach's individual performance, athletic/academic performance of Coach's assigned player personnel groups, or other performance-related factors.

3.2.4. Coach agrees that the University has the priority right to operate camps and/or clinics on its campus using University facilities.

- a) If the University exercises its right to operate camps and/or clinics on campus, the University shall allow Coach the opportunity to earn supplemental compensation by assisting with the University's camps and/or clinics in Coach's capacity as a University employee. Coach hereby agrees to assist in the marketing, supervision, and general administration of the University's camps and/or clinics. Coach also agrees that Coach will perform all obligations mutually agreed upon by the parties. In exchange for Coach's participation in the University's camps and/or clinics, the University shall pay Coach supplemental compensation during each year of his employment as a coach at the University.
- b) If the University allows Coach to operate camps and/or clinics at the University, such operation shall be according to a written agreement which shall include conditions such as:
  - i) Coach compliance with all NCAA, Conference, and University rules and regulations related, directly or indirectly, to the operation of camps and/or clinics;
  - ii) Payment for use of University facilities; and
  - iii) Provision of proof of liability insurance

In the event of termination of this Agreement, suspension, or reassignment, University shall not be under any obligation to permit a camp and/or clinic to be held by the Coach after the effective date of such termination, suspension, or reassignment, and the University shall be released from all obligations relating thereto.

3.2.5 Away Game Guarantee. In the event the University schedules an away contest with a non-conference opponent for which a game guarantee is paid to the University by the host institution, the payment shall be distributed as follows: any amount of the game guarantee, will be split between (a) the Department and (b) the Coach and assistant coaches at the recommendation of Coach, subject to the Director's final approval

3.3. Footwear; Apparel; Equipment. Coach agrees that the University has the exclusive right to select footwear, apparel and/or equipment for the use of its student athletes and staff,

including Coach, during official practices and games and during times when Coach or the Team is being filmed by motion picture or video camera or posing for photographs in their capacity as representatives of University. In order to avoid entering into an agreement with a competitor of any University selected vendors, Coach shall submit all outside consulting agreements to the University for review and approval prior to execution. Coach shall also report such outside income to the University in accordance with Section 4.3 of this Agreement. Coach further agrees that Coach will not endorse any athletic footwear, apparel and/or equipment products, and will not participate in any messages or promotional appearances which contain a comparative or qualitative description of athletic footwear, apparel or equipment products.

3.4. General Conditions of Compensation. All compensation provided by the University to Coach is subject to deductions and withholdings as required by law or the terms and conditions of any fringe benefit in which Coach participates. However, if any fringe benefit is based in whole or in part upon the compensation provided by the University to Coach, such fringe benefit shall be based only on the compensation provided pursuant to Section 3.1.1, except to the extent required by the terms and conditions of a specific fringe benefit program.

#### ARTICLE 4

4.1. Coach's Specific Duties and Responsibilities. In consideration of the compensation specified in this Agreement, Coach, in addition to the obligations set forth elsewhere in this Agreement, shall:

4.1.1. Devote Coach's full time and best efforts to the performance of Coach's duties under this Agreement;

4.1.2. Develop and implement programs and procedures with respect to the evaluation, recruitment, training, and coaching of Team members which enable them to compete successfully and reasonably protect their health, safety, and well-being;

4.1.3. Observe and uphold all academic standards, requirements, and policies of the University and encourage Team members to perform to their highest academic potential and to graduate in a timely manner; and

4.1.4. Know, recognize, and comply with all applicable laws, and with the policies, rules and regulations of the University, the Board, the conference, and the NCAA; supervise and take appropriate steps to ensure that Coach's assistant coaches, any other employees for whom Coach is administratively responsible, and the members of the Team know, recognize, and comply with all such laws, policies, rules and regulations; and immediately report to the Director and to the Department's Director of Compliance if Coach has reasonable cause to believe that any person or entity, including without limitation representatives of the University's athletic interests, has violated or is likely to violate any such laws, policies, rules or regulations. Coach shall promote an atmosphere of compliance with the rules and regulations. In accordance with NCAA rules and regulations, Coach must annually pass the NCAA Coaches Certification Test before having any off-campus contact with prospects. Coach shall promote an atmosphere of compliance with the rules and regulations. In accordance with NCAA rules and regulations, Coach

must annually pass the NCAA Coaches Certification Test before having any off-campus contact with prospects. Coach shall cooperate fully with the University and Department at all times. The names or titles of employees whom Coach supervises are attached as Exhibit A. The applicable laws, policies, rules, and regulations include: (a) Board policies; (b) University's Policy Manual; (c) the policies of the Department; (d) NCAA rules and regulations; and (e) the rules and regulations of the [Sport] conference of which the University is a member.

4.2. Outside Activities. Coach shall not undertake any business, professional or personal activities, or pursuits that would prevent Coach from devoting Coach's full time and best efforts to the performance of Coach's duties under this Agreement, that would unreasonably detract from those duties in any manner, or that, in the reasonable opinion of the University, the Department, would reflect adversely upon the University or its athletic program. Subject to the terms and conditions of this Agreement, Coach may, with the prior written approval of the Director, who may consult with the President, enter into separate arrangements for outside activities and endorsements which are consistent with Coach's obligations under this Agreement. Coach shall report such outside income and business interests to the University in accordance with Section 4.3 of this Agreement. Coach may not use nor may Coach authorize third parties to use the University's name, logos, or trademarks in connection with any such arrangements without the prior written approval of the Director and the President (such approval not to be unreasonably withheld).

4.3. Outside Income. In accordance with NCAA rules, Coach shall obtain prior written approval from the University's President and the Director (such approval not to be unreasonably withheld) for all athletically-related and other business-related income and benefits from sources outside the University and shall report the source and amount of all such income and benefits in accordance with the Department's Outside Income Reporting Form. The report shall be in a format reasonably satisfactory to University. In no event shall Coach accept or receive directly or indirectly any monies, benefits, or gratuities whatsoever from any person, association, corporation, University booster club, University alumni association, University foundation, or other benefactor, if the acceptance or receipt of the monies, benefits, or gratuities would violate applicable law or the policies, rules, and regulations of the University, the Board, the conference, or the NCAA.

4.4. Hiring Authority. Coach shall have the responsibility and the sole authority to recommend to the Director the hiring and termination of assistant coaches for the Team, but the decision to hire or terminate an assistant coach shall be made by the Director and shall, when necessary or appropriate, be subject to the approval of President and the Board.

4.5. Scheduling. Coach shall consult with, and may make recommendations to, the Director or the Director's designee with respect to the scheduling of Team competitions, but the final decision shall be made by the Director or the Director's designee.

4.6. Other Coaching Opportunities. Coach shall not, under any circumstances, interview for, negotiate for, or accept employment as a coach at any other institution of higher education or with any professional sports team, requiring performance of duties prior to the expiration of this Agreement, without the prior approval of the Director. Such approval shall not unreasonably be withheld.

4.7. Disclosure of Serious Misconduct. Coach warrants that prior to signing this Agreement, Coach has disclosed and will continue to disclose if Coach has been accused, investigated, convicted of or pled guilty or no contest to a felony or misdemeanor involving serious misconduct, or has been subject to official institution or athletic department disciplinary action at any time at any prior institution where Coach was employed. “Serious misconduct” is defined as any act of sexual violence, domestic violence, dating violence, stalking, sexual exploitation, or any assault that employs the use of a deadly weapon or causes serious bodily injury.

4.8. Media Obligations. Coach must fully participate in media programs and public appearances (Programs) through the date of the Team’s last regular season or post-season competition. Agreements requiring Coach to participate in Programs related to Coach’s duties as an employee of University are the property of the University. The University shall have the exclusive right to negotiate and contract with all producers of media productions and all parties desiring public appearances by Coach. Coach agrees to cooperate with the University in order for the Programs to be successful and agrees to provide Coach’s services to and perform on the Programs and to cooperate in their production, broadcasting, and telecasting. It is understood that neither Coach nor any assistant coaches shall appear without the prior written approval of the Director on any competing radio or television program (including but not limited to a coach’s show, call-in show, or interview show) or a regularly scheduled news segment, except that this prohibition shall not apply to routine news media interviews for which no compensation is received. Without the prior written approval of the Director, Coach shall not appear in any commercial endorsements which are broadcast on radio or television that conflict with those broadcast on the University’s designated media outlets.

4.9. Attendance at Specific Gatherings. Coach will attend all staff meetings, public relation functions, dinners, awards banquet and make appearances as directed by the Director unless excused by the Director. Such functions shall include, but are not limited to, the following:

- a) The annual BAA barbecue
- b) The weekly BAA function during the relevant season;
- c) The annual BAA Endowment dinner;
- d) The Boise State Athletic Hall of Fame dinner;
- e) The BAA Bronze Bronco Award banquet;
- f) The BAA/Alumni Auction dinner;
- g) All Department staff meetings called by the Director;
- h) Athletic Department Graduation Reception;
- i) Bronco Golf Series Tournaments.

## ARTICLE 5

5.1. Termination of Coach for Cause. The University may, in its discretion, suspend Coach from some or all of Coach’s duties, temporarily or permanently, and with or without pay; reassign Coach to other duties; or terminate this Agreement at any time for good or adequate cause, as those terms are defined in applicable rules and regulations.

5.1.1 In addition to the definitions contained in applicable rules and regulations, University and Coach hereby specifically agree that the following shall constitute good or adequate cause for suspension, reassignment, or termination of this Agreement:

- a) A deliberate or major violation of Coach's duties under this Agreement or the refusal or unwillingness of Coach to perform such duties in good faith and to the best of Coach's abilities;
- b) The failure of Coach to remedy any violation of any of the terms of this Agreement within 30 days after written notice from the University;
- c) A deliberate or major violation by Coach of any applicable law or the policies, rules or regulations of the University, the Board, the conference or the NCAA, including but not limited to any such violation which may have occurred during the employment of Coach at another NCAA or NAIA member institution;
- d) Ten (10) working days' absence of Coach from duty without the University's consent;
- e) Any conduct of Coach that constitutes moral turpitude or that would, in the University's judgment, reflect adversely on the University or its athletic programs;
- f) The failure of Coach to represent the University and its athletic programs positively in public and private forums;
- g) The failure of Coach to fully and promptly cooperate with the NCAA or the University in any investigation of possible violations of any applicable law or the policies, rules or regulations of the University, the Board, the conference, or the NCAA;
- h) The failure of Coach to report a known violation of any applicable law or the policies, rules or regulations of the University, the Board, the conference, or the NCAA, by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team; or
- i) A violation of any applicable law or the policies, rules or regulations of the University, the Board, the conference, or the NCAA, by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team if Coach knew or should have known of the violation and could have prevented it by ordinary supervision.

- j) The failure of Coach to disclose Serious Misconduct as required in Section 4.7 of this Agreement.

5.1.2 Suspension, reassignment, or termination for good or adequate cause shall be effectuated by the University as follows: before the effective date of the suspension, reassignment, or termination, the Director or the Director's designee shall provide Coach with notice, which notice shall be accomplished in the manner provided for in this Agreement and shall include the reason(s) for the contemplated action. Coach shall then have an opportunity to respond. After Coach responds or fails to respond, University shall notify Coach whether, and if so when, the action will be effective.

5.1.3 In the event of any termination for good or adequate cause, the University's obligation to provide compensation and benefits to Coach, whether direct, indirect, supplemental or collateral, shall cease as of the date of such termination, and the University shall not be liable for the loss of any collateral business opportunities or other benefits, perquisites, or income resulting from outside activities or from any other sources.

5.1.4 If found in violation of NCAA regulations, Coach shall, in addition to the provisions of Section 5.1, be subject to disciplinary or corrective action as set forth in the provisions of the NCAA enforcement procedures. This Section applies to violations occurring at the University or at previous institutions at which Coach was employed.

5.2. Termination of Coach for Convenience of University.

5.2.1 At any time after commencement of this Agreement, University, for its own convenience, may terminate this Agreement by giving ten (10) days prior written notice to Coach.

5.2.2 In the event that University terminates this Agreement for its own convenience, University shall be obligated to pay Coach, as liquidated damages and not a penalty, the salary set forth in Section 3.1.1(a), excluding all deductions required by law, on the regular paydays of University until the term of this Agreement ends or until Coach obtains reasonably comparable employment, whichever occurs first. In the event Coach obtains other employment after such termination, then the amount of compensation the University pays will be reduced by the amount of compensation paid Coach as a result of such other employment, such adjusted compensation to be calculated for each University pay-period by reducing the gross salary set forth in Section 3.1.1(a) (before deductions required by law) by the gross compensation paid to Coach under the other employment, then subtracting from this adjusted gross compensation deductions according to law. In addition, Coach will be entitled to continue with the University health insurance plan and group life insurance as if Coach remained a University employee until the term of this Agreement ends or until Coach obtains reasonably comparable employment or any other employment providing Coach with a reasonably comparable health plan and group life insurance, whichever occurs first. Coach shall be entitled to no other compensation or fringe benefits, except as otherwise provided herein or required by law. Coach specifically agrees to inform University within ten business days of obtaining other employment, and to advise University of all relevant terms of such employment, including without limitation the nature and location of employment, salary, other compensation, health insurance benefits, life insurance benefits, and other fringe

benefits. Failure to so inform and advise University shall constitute a material breach of this Agreement and University's obligation to pay compensation under this provision shall end. Coach further agrees to repay to University all compensation received from the University after the date other employment is obtained.

5.2.3 The parties have both been represented by, or had the opportunity to consult with, legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that Coach may lose certain benefits, supplemental compensation, or outside compensation relating to employment with University, which damages are extremely difficult to determine with certainty. The parties further agree that the payment of such liquidated damages by University and the acceptance thereof by Coach shall constitute adequate and reasonable compensation to Coach for the damages and injury suffered by Coach because of such termination by University. The liquidated damages are not, and shall not be construed to be, a penalty.

5.3. Termination by Coach for Convenience.

5.3.1 Coach recognizes that Coach's promise to work for University for the entire term of this Agreement is of the essence of this Agreement. Coach also recognizes that the University is making a highly valuable investment in Coach's employment by entering into this Agreement and that its investment would be lost were Coach to resign or otherwise terminate employment with the University before the end of the Agreement term.

5.3.2 Coach may terminate this Agreement for convenience during its term by giving prior written notice to the University. Termination shall be effective ten (10) days after notice is given to the University.

5.3.3 If the Coach terminates this Agreement for convenience at any time, all obligations of the University shall cease as of the effective date of the termination. If the Coach terminates this Agreement for his convenience he shall pay to the University, as liquidated damages and not a penalty, for the breach of this Agreement the following sum for the associated amount of time remaining in the contract:

- |                                |           |
|--------------------------------|-----------|
| ▪ 5 years – 4 years and 1 day: | \$100,000 |
| ▪ 4 years – 3 years and 1 day: | \$80,000  |
| ▪ 3 years – 2 years and 1 day: | \$60,000  |
| ▪ 2 years – 1 year and 1 day:  | \$40,000  |
| ▪ 1 year – 1 day:              | \$20,000  |

Buyout will remain in effect based on the number of years remaining in the contract. If contract is extended by one year due to the automatic extension clause, the buyout remains at the current limit. By way of clarification, if the contract is extended one year after the 2019-20 season due to the team reaching 18 wins, the buyout will remain at \$100,000 for the 2020-21 season, as five years remain in contract.

The liquidated damages shall be due and payable within twenty (20) days of the effective date of the termination, and any unpaid amount shall bear simple interest at a rate eight (8) percent per annum until paid. Liquidated damages shall not be due and payable if:

- a) Coach terminates this Agreement for convenience for family reasons, unless after such termination Coach becomes employed in a coaching position at another college or university prior to March 16, 2021, in which case the liquidated damages shall be due in accordance with the terms contained in the above paragraph; or
- b) Coach terminates this Agreement for convenience in order for Coach to take a non-coaching position, unless after such termination Coach becomes employed in a coaching position at another college or university prior to March 16, 2021, in which case the liquidated damages shall be due in accordance with the terms contained in the above paragraph.

5.3.4 The parties have both been represented by legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that the University will incur administrative and recruiting costs in obtaining a replacement for Coach, in addition to potentially increased compensation costs if Coach terminates this Agreement for convenience, which damages are extremely difficult to determine with certainty. The parties further agree that the payment of such liquidated damages by Coach and the acceptance thereof by University shall constitute adequate and reasonable compensation to University for the damages and injury suffered by it because of such termination by Coach. The liquidated damages are not, and shall not be construed to be, a penalty. This Section 5.3.4 shall not apply if Coach terminates this Agreement because of a material breach by the University.

5.3.5 Except as provided elsewhere in this Agreement, if Coach terminates this Agreement for convenience, Coach shall forfeit to the extent permitted by law the right to receive all supplemental compensation and other payments.

5.4. Termination due to Disability or Death of Coach.

5.4.1 Notwithstanding any other provision of this Agreement, this Agreement shall terminate automatically if Coach becomes totally or permanently disabled as defined by the University's disability insurance carrier, becomes unable to perform the essential functions of the position of head coach, or dies.

5.4.2 If this Agreement is terminated because of Coach's death, Coach's salary and all other benefits shall terminate as of the last day worked, except that Coach's personal representative or other designated beneficiary shall be paid all compensation due or unpaid and death benefits, if any, as may be contained in any fringe benefit plan now in force or hereafter adopted by the University and due to Coach's estate or beneficiaries thereunder.

5.4.3 If this Agreement is terminated because Coach becomes totally or permanently disabled as defined by the University's disability insurance carrier, or becomes unable to perform the essential functions of the position of head coach, all salary and other benefits shall terminate, except that Coach shall be entitled to receive any compensation due or unpaid and any disability-related benefits to which Coach is entitled by virtue of employment with the University.

5.5. Interference by Coach. In the event of termination, suspension, or reassignment, Coach agrees that Coach will not interfere with the University's student-athletes or otherwise obstruct the University's ability to transact business or operate its intercollegiate athletics program.

5.6. No Liability. The University shall not be liable to Coach for the loss of any collateral business opportunities or any other benefits, perquisites or income from any sources that may ensue as a result of any termination of this Agreement by either party or due to death or disability or the suspension or reassignment of Coach, regardless of the circumstances.

5.7. Waiver of Rights. Because Coach is receiving a multi-year contract and the opportunity to receive supplemental compensation and because such contracts and opportunities are not customarily afforded to University employees, if the University suspends or reassigns Coach, or terminates this Agreement for good or adequate cause or for convenience, Coach shall have all the rights provided for in this Agreement but hereby releases the University from compliance with the notice, appeal, and similar employment-related rights provided for in Board policy, IDAPA 08.01.01 et seq., and the University's policies.

## ARTICLE 6

6.1. Board Approval This Agreement shall not be effective unless approved by the Board and executed by both parties as set forth below. In addition, the payment of any compensation pursuant to this Agreement shall be subject to the approval of the Board, the President, and the Director; the sufficiency of legislative appropriations; the receipt of sufficient funds in the account from which such compensation is paid; and the Board policies and University's rules regarding financial exigency.

6.2. University Property. All personal property (excluding vehicle(s) provided through the courtesy car program), material, and articles of information, including, without limitation, keys, credit cards, personnel records, recruiting records, team information, films, statistics or any other personal property, material, or data, furnished to Coach by the University or developed by Coach on behalf of the University or at the University's direction or for the University's use or otherwise in connection with Coach's employment hereunder are and shall remain the sole property of the University. Within twenty-four (24) hours of the expiration of the term of this Agreement or its earlier termination as provided herein, Coach shall immediately cause any such personal property, materials, and articles of information in Coach's possession or control to be delivered to the Director.

6.3. Assignment. Neither party may assign its rights or delegate its obligations under this Agreement without the prior written consent of the other party.

Any notice shall be deemed to have been given on the earlier of: (a) actual delivery or refusal to accept delivery, (b) the date of mailing by certified mail, or (c) the day facsimile delivery is verified. Actual notice, however and from whomever received, shall always be effective.

6.11. Headings. The headings contained in this Agreement are for reference purposes only and shall not in any way affect the meaning or interpretation hereof.

6.12. Binding Effect. This Agreement is for the benefit only of the parties hereto and shall inure to the benefit of and bind the parties and their respective heirs, legal representatives, successors and assigns.

6.13. Non-Use of Names and Trademarks. Coach shall not, without the University's prior written consent in each case, use any name, trade name, trademark, or other designation of the University (including contraction, abbreviation or simulation), except in the course and scope of official University duties.

6.14. No Third Party Beneficiaries. There are no intended or unintended third party beneficiaries to this Agreement.

6.15. Entire Agreement; Amendments. This Agreement constitutes the entire agreement of the parties and supersedes all prior agreements and understandings with respect to the same subject matter. No amendment or modification of this Agreement shall be effective unless in writing, signed by both parties, and approved by the Board if required under Board Policy II.H.

6.16. Opportunity to Consult with Attorney. Coach acknowledges that Coach has had the opportunity to consult and review this Agreement with an attorney. Accordingly, in all cases, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any party.

**EMPLOYMENT AGREEMENT**

This Employment Agreement (Agreement) is entered into by and between Boise State  
\_\_\_\_\_ (University ~~(the University/College)~~), and Gordon H.  
Presnell\_\_\_\_\_ (Coach).

ARTICLE 1

1.1. Employment. Subject to the terms and conditions of this Agreement, the University  
~~(College)~~ shall employ Coach as the head coach of its intercollegiate women's basketball ~~(Sport)~~  
 team ~~(the Team)~~. ~~(or Director of Athletics)~~. Coach ~~(Director)~~ represents and warrants that Coach  
 is fully qualified to serve, and is available for employment, in this capacity.

1.2. Reporting Relationship. Coach shall report and be responsible directly to the  
~~University's~~ University (College)'s Athletic Director (Director) or the Director's designee. Coach  
 shall abide by the reasonable instructions of Director or the Director's designee and shall confer  
 with the Director or the Director's designee on all administrative and technical matters. Coach  
 shall also be under the general supervision of the University's President (President University  
~~(College)'s Chief Executive Officer (Chief Executive Officer)~~.

1.3. Duties. Coach shall manage and supervise the Team and shall perform such other  
 duties in the University's ~~University (College)'s~~ athletic program as the Director may assign and  
 as may be described elsewhere in this Agreement. ~~The University (College)~~ shall have the right,  
 at any time, to reassign Coach to duties at the University ~~(College)~~ other than as head coach of the  
 Team, provided that Coach's compensation and benefits shall not be affected by any such  
 reassignment, except that the opportunity to earn supplemental compensation as provided in  
 Sections 3.2.1 through 3.2.2 ~~(depending on supplemental pay provisions used)~~ shall cease.

ARTICLE 2

2.1. Term. This Agreement is for a fixed-term appointment of four (4) ~~( )~~ years and  
nine (9) months, commencing on July 1, 2019 \_\_\_\_\_ and terminating, without further notice to  
 Coach, on March 31, 2024 \_\_\_\_\_ unless sooner terminated in accordance with other provisions  
 of this Agreement.

2.2. Extension or Renewal. This Agreement is renewable solely upon an offer from the  
 University ~~(College)~~ and an acceptance by Coach, both of which must be in writing and signed by  
 the parties. ~~Any renewal is subject to the prior approval of the Idaho State Board of Education~~  
 (Board). This Agreement in no way grants to Coach a claim to tenure in employment, nor shall

Coach's service pursuant to this Agreement count in any way toward tenure at the University ~~(College)~~.

2.3. Automatic Extensions. The term of this Agreement will automatically be extended by one (1) additional year commencing on April 1 and concluding on March 31 for each season in which the team has at least eighteen (18) wins. For the purpose of calculation of wins, such wins must occur during the regular season, the conference tournament, the Women's National Invitation Tournament ("WNIT"), or the National Collegiate Athletic Association ("NCAA") Tournament, to the exclusion of all other pre-season exhibition games or post-season tournaments.

### ARTICLE 3

#### 3.1. Regular Compensation.

3.1.1 In consideration of Coach's services and satisfactory performance of this Agreement, the University ~~(College)~~ shall provide to Coach:

- a) ~~A base~~An annual salary ~~\$300,000~~ of \$ \_\_\_\_\_ per year and subsequent extension years pursuant to section 2.3 herein, payable in biweekly installments in accordance with normal University ~~(College)~~ procedures, and such salary increases as may be determined appropriate by the Director and ~~President~~Chief Executive Officer and approved by the Board;
- b) The opportunity to receive such employee benefits as the University ~~(College)~~ provides generally to non-faculty exempt employees, provided that Coach qualifies for such benefits by meeting all applicable eligibility requirements ~~-(except that in accordance with Board Policy II.H.6.b.ii, University (College) and Coach agree that Coach shall not accrue any annual leave hours, and may take leave (other than sick leave) only with prior written approval of the Director); and~~
- c) The opportunity to receive such employee benefits as the ~~University (College)'s Department of Athletics (Department)~~ University (College) provides generally to its employees of a comparable level. Coach hereby agrees to abide by the terms and conditions, as now existing or hereafter amended, of such employee benefits.

Coach understands and agrees that financial conditions may require the ~~President/Chief Executive Officer~~, in the ~~President's/Chief Executive Officer's~~ discretion, to institute furloughs or to take such other actions consistent with Board policy as the ~~President/Chief Executive Officer~~ may determine to be necessary to meet such challenges. ~~- In the event of a furlough or other action, the actual salary paid to Coach may be less than the salary stated in Section 3.1.1(a) above.~~

~~3.2~~ 3.2. Supplemental Compensation. Each year Coach shall be eligible to receive supplemental compensation as detailed below:

3.2.1 Athletic Achievement Incentive Pay.

- a) The greatest of the following:

<u>12-14 conference wins</u>	<u>\$6,000</u>
<u>15+ conference wins</u>	<u>\$10,000</u>
<u>Conference Regular Season Champions</u>	<u>\$18,000</u>
  
- b) Conference Tournament Champions \$15,000

~~3.2.1.~~ c) At-large selection for the NCAA Tournament \$10,000

~~Each year the Team is the conference champion or co-champion and also becomes eligible for a (bowl game pursuant to NCAA Division I guidelines or post-season tournament or post-season playoffs), and if Coach continues to be employed as University (College)'s head (Sport) coach as of the ensuing July 1st, the University (College) shall pay to Coach supplemental compensation in an amount equal to (amount or computation) of Coach's Annual Salary during the fiscal year in which the championship and (bowl or other post-season) eligibility are achieved. The University (College) shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.~~

~~3.2.2 Each year the Team is ranked in the top 25 in the (national rankings of sport's division), and if Coach continues to be employed as University (College)'s head (Sport) coach as of the ensuing July 1st, the University (College) shall pay Coach supplemental compensation in an amount equal to (amount or computation) of Coach's Annual Salary in effect on the date of the final poll. The University (College) shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.~~

~~3.2.3 Each year Coach shall be eligible to receive supplemental compensation in an amount up to (amount or computation) based on the academic achievement and behavior of Team members. The determination of whether Coach will receive such supplemental compensation and the timing of the payment(s) shall be at the discretion of the Chief Executive Officer in consultation with the Director. The determination shall be based on the following factors: the Academic Progress Rate set by the Board, grade point averages; difficulty of major course of study; honors such as scholarships, designation as Academic All-American, and conference academic recognition; progress toward graduation for all athletes, but particularly those who entered the University (College) as academically at risk students; the conduct of Team members on the University (College) campus, at authorized University (College) activities, in the community, and elsewhere. Any such supplemental compensation paid to Coach shall be accompanied with a detailed justification for the supplemental compensation based on the factors listed above and such justification shall be separately reported to the Board as a document available to the public under the Idaho Public Records Act.~~

~~3.2.4 Each year Coach shall be eligible to receive supplemental compensation in an amount up to (amount or computation) based on the overall development of the intercollegiate~~

~~(men's/women's) (Sport) program; ticket sales; fundraising; outreach by Coach to various constituency groups, including University (College) students, staff, faculty, alumni and boosters; and any other factors the Chief Executive Officer wishes to consider. The determination of whether Coach will receive such supplemental compensation and the timing of the payment(s) shall be at the discretion of the Chief Executive Officer in consultation with the Director.~~

~~3.2.5—Coach shall receive the sum of (amount or computation) from the University (College) or the University (College)'s designated media outlet(s) or a combination thereof each year during the term of this Agreement in compensation for participation in media programs and public appearances (Programs). Coach's right to receive such a payment shall vest on the date of the Team's last regular season or post-season competition, whichever occurs later. This sum shall be paid (terms or conditions of payment).~~

~~3.2.6—(SUMMER CAMP—OPERATED BY UNIVERSITY (COLLEGE))~~

<del>d) NCAA Tournament Win (per game)</del>	<del>\$7,500</del>
<del>e) WNIT Win (per game)</del>	<del>\$3,000</del>
<del>f) Conference Coach of the Year</del>	<del>\$3,000</del>
<del>g) National Coach of the Year</del>	<del>\$10,000</del>
<del>h) Conference Player of the Year</del>	<del>\$2,000</del>
<del>i) Conference Freshman of the Year</del>	<del>\$2,000</del>
<del>j) Top 50 RPI (at end of season)</del>	<del>\$6,000</del>

~~If Coach qualifies for Athletic Achievement Incentive Pay under this Section, the University will pay Coach on the first regular pay date in July if Coach is still employed by the University on that date.~~

3.2.2. Academic Achievement Incentive Pay.

Academic Incentive Pay may be earned if annual team APR ranks nationally within women's basketball as follows:

<u>National Rank Within Sport</u>		
<u>975-980</u>	<u>=</u>	<u>\$5,000</u>
<u>981-985</u>	<u>=</u>	<u>\$7,500</u>
<u>986-990</u>	<u>=</u>	<u>\$10,000</u>
<u>991 or above</u>	<u>=</u>	<u>\$18,000</u>

If Coach qualifies for Academic Achievement Incentive Pay, it will be paid as soon as reasonably practical following APR rating determination and verification by the National Collegiate Athletic Association (NCAA), if Coach is still employed by the University on that date.

3.2.3. Conditions for payment of Athletic and Academic Achievement supplemental compensation.

- a) If Coach qualifies for Athletic Achievement Supplemental Compensation pursuant to section 3.2.1, University will pay Coach on the first regular pay date in July, following the year in which such supplemental compensation is calculated but only if Coach is still employed by the University on that date. Ranking shall be determined based on NCAA National End of Season Ranking.
- b) If Coach qualifies for Academic Achievement Supplemental Compensation pursuant to section 3.2.2, it will be paid as soon as reasonably practical following APR rating determination and verification by the NCAA, if Coach is still employed by the University on that date.
- c) In order to receive any of the 3.2.1 supplemental compensation, the Team's retention rate must be at least 50% for the academic year in which the supplemental pay is earned. The retention rate will be calculated anew each year and will not be cumulative.

The decisions whether or not to award the Incentive Pay outlined in this Section 3.2, and in what amounts, are within the Director's sole discretion. The decisions may be made based on a variety of factors, including, but not limited to, Coach's individual performance, athletic/academic performance of Coach's assigned player personnel groups, or other performance-related factors.

3.2.4. Coach agrees that the University (~~College~~) has the ~~priority~~exclusive right to operate youth (~~Sport~~) camps and/or clinics on its campus using University (~~College~~) facilities.

- a) If the University exercises its right to operate camps and/or clinics on campus, the University ~~The University (College)~~ shall allow Coach the opportunity to earn supplemental compensation by assisting with the ~~University's~~University (~~College~~)'s camps and/or clinics in Coach's capacity as a University (~~College~~) employee. Coach hereby agrees to assist in the marketing, supervision, and general administration of the ~~University's~~University (~~College~~)'s (~~Sport~~) camps and/or clinics.~~– Coach also agrees that Coach will perform all obligations mutually agreed upon by the parties. In exchange for Coach's participation in the University's~~University (~~College~~)'s ~~summer (Sport) camps and/or clinics, the University (College) shall pay Coach (amount) per year as~~ supplemental compensation during each year of his employment as ~~ahead (Sport) coach at the University. (College). This amount shall be paid (terms of payment).~~

If the University allows(~~SUMMER CAMP—OPERATED BY COACH~~) Coach to may operate camps and/or clinics a summer youth (~~Sport~~) camp at the University, ~~such (College) under the following conditions:~~

- ~~a) The summer youth camp operation shall be according to a reflects positively on the University (College) and the Department;~~
- ~~b) b) The summer youth camp is operated by Coach directly or through a private enterprise owned and managed by Coach. Coach shall not use University (College) personnel, equipment, or facilities without the prior written agreement which shall include conditions such as: approval of the Director;~~
- ~~e) Assistant coaches at the University (College) are given priority when Coach or the private enterprise selects coaches to participate;~~
- ~~d) i) Coach compliance Coach complies with all NCAA, (NAIA), Conference, and University (College) rules and regulations related, directly or indirectly, to the operation of summer youth camps and/or clinics;~~
- ~~e) Coach or the private enterprise enters into a contract with University (College) and (campus concessionaire) for all campus goods and services required by the camp.~~
- ~~f) ii) Payment Coach or private enterprise pays for use of University (College) facilities; and including the~~
- ~~g) Within thirty days of the last day of the summer youth camp(s), Coach shall submit to the Director a preliminary "Camp Summary Sheet" containing financial and other information related to the operation of the camp. Within ninety days of the last day of the summer youth camp(s), Coach shall submit to Director a final accounting and "Camp Summary Sheet." A copy of the "Camp Summary Sheet" is attached to this Agreement as Exhibit A.~~
- ~~h) Coach or the private enterprise shall provide proof of liability insurance as follows: (1) liability coverage: spectator and staff \$1 million; (2) catastrophic coverage: camper and staff \$1 million maximum coverage with \$100 deductible;~~
- ~~i) To the extent permitted by law, Coach or the private enterprise shall defend and indemnify the State of Idaho, the University (College) and the Board against any claims, damages, or liabilities arising out of the operation of the summer youth camp(s)~~
- ~~j) iii) Provision of proof of liability insurance~~

~~All employees of the summer youth camp(s) shall be employees of Coach or the private enterprise and not the University (College) while engaged in camp activities. Coach and all other University (College) employees involved in the operation of the camp(s) shall be on annual leave status or leave without pay during the days the camp is in operation. Coach or private enterprise shall provide workers' compensation insurance in accordance with Idaho law and comply in all respects with all federal and state wage and hour laws~~

In the event of termination of this Agreement, suspension, or reassignment, University ~~(College)~~ shall not be under any obligation to permit a ~~summer youth camp and/or clinic~~ to be held by ~~the~~ Coach after the effective date of such termination, suspension, or reassignment, and the University ~~(College)~~ shall be released from all obligations relating thereto.

3.2.5 Away Game Guarantee. ~~In the event the University schedules an away contest with a non-conference opponent for which a game guarantee is paid to the University by the host institution, the payment shall be distributed as follows: any amount of the game guarantee, will be split between (a) the Department and (b) the Coach and assistant coaches at the recommendation of Coach, subject to the Director's final approval~~

3.3. Footwear; Apparel; Equipment. ~~7—Coach agrees that the University (College) has the exclusive right to select footwear, apparel and/or equipment for the use of its student\_athletes and staff, including Coach, during official practices and games and during times when Coach or the Team is being filmed by motion picture or video camera or posing for photographs in their capacity as representatives of University. (College). Coach recognizes that the University (College) is negotiating or has entered into an agreement with (Company Name) to supply the University (College) with athletic footwear, apparel and/or equipment. Coach agrees that, upon the University (College)'s reasonable request, Coach will consult with appropriate parties concerning an (Company Name) product's design or performance, shall act as an instructor at a clinic sponsored in whole or in part by (Company Name), or give a lecture at an event sponsored in whole or in part by (Company Name), or make other educationally related appearances as may be reasonably requested by the University (College). Notwithstanding the foregoing sentence, Coach shall retain the right to decline such appearances as Coach reasonably determines to conflict with or hinder Coach's duties and obligations as head (Sport) coach. In order to avoid entering into an agreement with a competitor of any University selected vendors, (Company Name), Coach shall submit all outside consulting agreements to the University (College) for review and approval prior to execution. -Coach shall also report such outside income to the University (College) in accordance with Section 4.3 of this Agreement. NCAA (or NAIA) rules.— Coach further agrees that Coach will not endorse any athletic footwear, apparel and/or equipment products, including (Company Name), and will not participate in any messages or promotional appearances which contain a comparative or qualitative description of athletic footwear, apparel or equipment products.~~

3.4.3 General Conditions of Compensation. All compensation provided by the University ~~(College)~~ to Coach is subject to deductions and withholdings as required by law or the terms and conditions of any fringe benefit in which Coach participates. However, if any fringe

benefit is based in whole or in part upon the compensation provided by the University ~~(College)~~ to Coach, such fringe benefit shall be based only on the compensation provided pursuant to Section 3.1.1, except to the extent required by the terms and conditions of a specific fringe benefit program.

#### ARTICLE 4

4.1. Coach's Specific Duties and Responsibilities. —In consideration of the compensation specified in this Agreement, Coach, in addition to the obligations set forth elsewhere in this Agreement, shall:

4.1.1. Devote Coach's full time and best efforts to the performance of Coach's duties under this Agreement;

4.1.2. Develop and implement programs and procedures with respect to the evaluation, recruitment, training, and coaching of Team members which enable them to compete successfully and reasonably protect their health, safety, and well-being;

4.1.3. Observe and uphold all academic standards, requirements, and policies of the University ~~(College)~~ and encourage Team members to perform to their highest academic potential and to graduate in a timely manner; and

4.1.4. Know, recognize, and comply with all applicable laws, and with the policies, rules and regulations of the University, ~~(College)~~, the Board, the conference, and the NCAA; ~~(or NAIA)~~; supervise and take appropriate steps to ensure that Coach's assistant coaches, any other employees for whom Coach is administratively responsible, and the members of the Team know, recognize, and comply with all such laws, policies, rules and regulations; and immediately report to the Director and to the Department's Director of Compliance if Coach has reasonable cause to believe that any person or entity, including without limitation representatives of the ~~University's~~ University (College)'s athletic interests, has violated or is likely to violate any such laws, policies, rules or regulations. Coach shall promote an atmosphere of compliance with the rules and regulations. In accordance with NCAA rules and regulations, Coach must annually pass the NCAA Coaches Certification Test before having any off-campus contact with prospects. Coach shall promote an atmosphere of compliance with the rules and regulations. In accordance with NCAA rules and regulations, Coach must annually pass the NCAA Coaches Certification Test before having any off-campus contact with prospects. Coach shall cooperate fully with the University ~~Coach shall cooperate fully with the University (College)~~ and Department at all times. The names or titles of employees whom Coach supervises are attached as Exhibit AB. The applicable laws, policies, rules, and regulations include: (a) Board policies; (b) University's Policy ~~University (College)'s (Faculty Staff) Handbook~~; (c) University (College)'s Administrative Procedures Manual; ~~(cd)~~ the policies of the Department; ~~(de)~~ NCAA ~~(or NAIA)~~ rules and regulations; and ~~(ef)~~ the rules and regulations of the ~~[Sport]~~ conference of which the University ~~(College)~~ is a member.

4.2 Outside Activities. Coach shall not undertake any business, professional or personal activities, or pursuits that would prevent Coach from devoting Coach's full time and best efforts to the performance of Coach's duties under this Agreement, that would

~~unreasonably otherwise~~ detract from those duties in any manner, or that, in the reasonable opinion of the University, ~~the Department, (College),~~ would reflect adversely upon the University ~~(College)~~ or its athletic program. Subject to the terms and conditions of this Agreement, Coach may, with the prior written approval of the Director, who may consult with the President~~Chief Executive Officer~~, enter into separate arrangements for outside activities and endorsements which are consistent with Coach's obligations under this Agreement. Coach shall report such outside income and business interests to the University in accordance with Section 4.3 of this Agreement. Coach may not use nor may Coach authorize third parties to use the University's~~the University (College)'s~~ name, logos, or trademarks in connection with any such arrangements without the prior written approval of the Director and the President (such approval not to be unreasonably withheld).~~Chief Executive Officer.~~

4.3. Outside Income. ~~— NCAA (or NAIA) Rules.~~ In accordance with NCAA ~~(or NAIA)~~-rules, Coach shall obtain prior written approval from the University's President and the Director (such approval not to be unreasonably withheld)~~University (College)'s Chief Executive Officer~~ for all ~~athletically-related and other business--~~related income and benefits from sources outside the University ~~(College)~~ and shall report the source and amount of all such income and benefits ~~in accordance with to the University (College)'s Chief Executive Officer whenever reasonably requested, but in no event less than annually before the Department's Outside Income Reporting Form, close of business on June 30th of each year or the last regular University (College) work day preceding June 30th.~~ The report shall be in a format reasonably satisfactory to University ~~(College)~~. In no event shall Coach accept or receive directly or indirectly any monies, benefits, or gratuities whatsoever from any person, association, corporation, University ~~(College)~~ booster club, University ~~(College)~~ alumni association, University ~~(College)~~ foundation, or other benefactor, if the acceptance or receipt of the monies, benefits, or gratuities would violate applicable law or the policies, rules, and regulations of the University, ~~(College),~~ the Board, the conference, or the NCAA. ~~(or NAIA).~~

4.4. Hiring Authority. Coach shall have the responsibility and the sole authority to recommend to the Director the hiring and termination of assistant coaches for the Team, but the decision to hire or terminate an assistant coach shall be made by the Director and shall, when necessary or appropriate, be subject to the approval of President~~Chief Executive Officer~~ and the Board.

4.5. Scheduling. Coach shall consult with, and may make recommendations to, the Director or the Director's designee with respect to the scheduling of Team competitions, but the final decision shall be made by the Director or the Director's designee.

4.6. Other Coaching Opportunities. Coach shall not, under any circumstances, interview for, negotiate for, or accept employment as a coach at any other institution of higher education or with any professional sports team, requiring performance of duties prior to the expiration of this Agreement, without the prior approval of the Director. ~~Such approval shall not unreasonably be withheld.~~

4.7. Disclosure of Serious Misconduct. Coach warrants that prior to signing this Agreement, Coach has disclosed and will continue to disclose if Coach has been accused,

investigated, convicted of or pled guilty or no contest to a felony or misdemeanor involving serious misconduct, or has been subject to official institution or athletic department disciplinary action at any time at any prior institution where Coach was employed. “Serious misconduct” is defined as any act of sexual violence, domestic violence, dating violence, stalking, sexual exploitation, or any assault that employs the use of a deadly weapon or causes serious bodily injury.

4.8. Media Obligations. Coach must fully participate in media programs and public appearances (Programs) through the date of the Team’s last regular season or post-season competition. -Agreements requiring Coach to participate in Programs related to Coach’s duties as an employee of University ~~(College)~~ are the property of the University. ~~(College)~~. The University ~~(College)~~ shall have the exclusive right to negotiate and contract with all producers of media productions and all parties desiring public appearances by Coach. Coach agrees to cooperate with the University ~~(College)~~ in order for the Programs to be successful and agrees to provide Coach’s services to and perform on the Programs and to cooperate in their production, broadcasting, and telecasting. It is understood that neither Coach nor any assistant coaches shall appear without the prior written approval of the Director on any competing radio or television program (including but not limited to a coach’s show, call-in show, or interview show) or a regularly scheduled news segment, except that this prohibition shall not apply to routine news media interviews for which no compensation is received. Without the prior written approval of the Director, Coach shall not appear in any commercial endorsements which are broadcast on radio or television that conflict with those broadcast on the ~~University’s~~ ~~University (College)’s~~ designated media outlets.

4.9. Attendance at Specific Gatherings. Coach will attend all staff meetings, public relation functions, dinners, awards banquet and make appearances as directed by the Director unless excused by the Director. Such functions shall include, but are not limited to, the following:

- a) The annual BAA barbecue
- b) The weekly BAA function during the relevant season;
- c) The annual BAA Endowment dinner;
- d) The Boise State Athletic Hall of Fame dinner;
- e) The BAA Bronze Bronco Award banquet;
- f) The BAA/Alumni Auction dinner;
- g) All Department staff meetings called by the Director;
- h) Athletic Department Graduation Reception;
- i) Bronco Golf Series Tournaments.

## ARTICLE 5

5.1. Termination of Coach for Cause. The University ~~(College)~~ may, in its discretion, suspend Coach from some or all of Coach’s duties, temporarily or permanently, and with or without pay; reassign Coach to other duties; or terminate this Agreement at any time for good or adequate cause, as those terms are defined in applicable rules and regulations.

5.1.1 In addition to the definitions contained in applicable rules and regulations, University ~~(College)~~ and Coach hereby specifically agree that the following shall constitute good or adequate cause for suspension, reassignment, or termination of this Agreement:

- a) A deliberate or major violation of Coach's duties under this Agreement or the refusal or unwillingness of Coach to perform such duties in good faith and to the best of Coach's abilities;
- b) The failure of Coach to remedy any violation of any of the terms of this Agreement within 30 days after written notice from the University; ~~(College);~~
- c) A deliberate or major violation by Coach of any applicable law or the policies, rules or regulations of the University; ~~(College);~~ the Board, the conference or the NCAA; ~~(NAIA);~~ including but not limited to any such violation which may have occurred during the employment of Coach at another NCAA or NAIA member institution;
- d) Ten (10) working days' absence of Coach from duty without the ~~University's~~ University (College)'s consent;
- e) Any conduct of Coach that constitutes moral turpitude or that would, in the ~~University's~~ University (College)'s judgment, reflect adversely on the University ~~(College)~~ or its athletic programs;
- f) The failure of Coach to represent the University ~~(College)~~ and its athletic programs positively in public and private forums;
- g) The failure of Coach to fully and promptly cooperate with the NCAA ~~(NAIA)~~ or the University ~~(College)~~ in any investigation of possible violations of any applicable law or the policies, rules or regulations of the University; ~~(College);~~ the Board, the conference, or the NCAA; ~~(NAIA);~~
- h) The failure of Coach to report a known violation of any applicable law or the policies, rules or regulations of the University; ~~(College);~~ the Board, the conference, or the NCAA; ~~(NAIA);~~ by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team; or
- i) A violation of any applicable law or the policies, rules or regulations of the University; ~~(College);~~ the Board, the conference, or the NCAA; ~~(NAIA);~~ by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team if Coach knew or should have known of the violation and could have prevented it by ordinary supervision.

- j) The failure of Coach to disclose Serious Misconduct as required in Section 4.7 of this Agreement.

5.1.2 Suspension, reassignment, or termination for good or adequate cause shall be effectuated by the University ~~(College)~~ as follows: before the effective date of the suspension, reassignment, or termination, the Director or the Director's designee shall provide Coach with notice, which notice shall be accomplished in the manner provided for in this Agreement and shall include the reason(s) for the contemplated action. Coach shall then have an opportunity to respond. After Coach responds or fails to respond, University ~~(College)~~ shall notify Coach whether, and if so when, the action will be effective.

5.1.3 In the event of any termination for good or adequate cause, the ~~University's~~ ~~University (College)'s~~ obligation to provide compensation and benefits to Coach, whether direct, indirect, supplemental or collateral, shall cease as of the date of such termination, and the University ~~(College)~~ shall not be liable for the loss of any collateral business opportunities or other benefits, perquisites, or income resulting from outside activities or from any other sources.

5.1.4 If found in violation of NCAA ~~(NAIA)~~ regulations, Coach shall, in addition to the provisions of Section 5.1, be subject to disciplinary or corrective action as set forth in the provisions of the NCAA ~~(NAIA)~~ enforcement procedures. This Section applies to violations occurring at the University ~~(College)~~ or at previous institutions at which Coach was employed.

## 5.2. Termination of Coach for Convenience of University. ~~(College)~~.

5.2.1 At any time after commencement of this Agreement, University ~~(College)~~, for its own convenience, may terminate this Agreement by giving ten (10) days prior written notice to Coach.

5.2.2 In the event that University ~~(College)~~ terminates this Agreement for its own convenience, University ~~(College)~~ shall be obligated to pay Coach, as liquidated damages and not a penalty, the salary set forth in Section 3.1.1(a), excluding all deductions required by law, on the regular paydays of University ~~(College)~~ until the term of this Agreement ends or until Coach obtains reasonably comparable employment, whichever occurs first. -In the event Coach obtains other employment after such termination, then the amount of compensation the University pays will be reduced by the amount of compensation paid Coach as a result of such other employment, such adjusted compensation to be calculated for each University pay-period by reducing the gross salary set forth in Section 3.1.1(a) (before deductions required by law) by the gross compensation paid to Coach under the other employment, then subtracting from this adjusted gross compensation deductions according to law. In addition, Coach will be entitled to continue with the University ~~(College)~~ health insurance plan and group life insurance as if Coach remained a University ~~(College)~~ employee until the term of this Agreement ends or until Coach obtains reasonably comparable employment or any other employment providing Coach with a reasonably comparable health plan and group life insurance, whichever occurs first. Coach shall be entitled to no other compensation or fringe benefits, except as otherwise provided herein or required by law. Coach specifically agrees to inform University within ten business days of obtaining other employment, and to advise University of all relevant terms of such employment, including without limitation

the nature and location of employment, salary, other compensation, health insurance benefits, life insurance benefits, and other fringe benefits. -Failure to so inform and advise University shall constitute a material breach of this Agreement and University's obligation to pay compensation under this provision shall end. -Coach further agrees to repay to University all compensation received from the University ~~(College)~~ after the date other employment is obtained.

5.2.3 The parties have both been represented by, or had the opportunity to consult with, legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that Coach may lose certain benefits, supplemental compensation, or outside compensation relating to employment with University, ~~(College)~~, which damages are extremely difficult to determine with certainty. -The parties further agree that the payment of such liquidated damages by University ~~(College)~~ and the acceptance thereof by Coach shall constitute adequate and reasonable compensation to Coach for the damages and injury suffered by Coach because of such termination by University. ~~(College)~~. The liquidated damages are not, and shall not be construed to be, a penalty.

### 5.3.- Termination by Coach for Convenience.

5.3.1 Coach recognizes that Coach's promise to work for University ~~(College)~~ for the entire term of this Agreement is of the essence of this Agreement. Coach also recognizes that the University ~~(College)~~ is making a highly valuable investment in Coach's employment by entering into this Agreement and that its investment would be lost were -Coach to resign or otherwise terminate employment with the University ~~(College)~~ before the end of the Agreement term.

5.3.2 Coach may terminate this Agreement for convenience during its term by giving prior written notice to the University. ~~(College)~~. Termination shall be effective ten (10) days after notice is given to the University. ~~(College)~~.

5.3.3 If the Coach terminates this Agreement for convenience at any time, all obligations of the University ~~(College)~~ shall cease as of the effective date of the termination. If the Coach terminates this Agreement for his convenience he, Coach shall pay to the University, (College), as liquidated damages and not a penalty, for the breach of this Agreement the following sum for the associated amount of time remaining in the contract:

▪ <u>5 years – 4 years and 1 day:</u>	<u>\$100,000</u>
▪ <u>4 years – 3 years and 1 day:</u>	<u>\$80,000</u>
▪ <u>3 years – 2 years and 1 day:</u>	<u>\$60,000</u>
▪ <u>2 years – 1 year and 1 day:</u>	<u>\$40,000</u>
▪ <u>1 year – 1 day:</u>	<u>\$20,000</u>

Buyout will remain in effect based on the number of years remaining in the contract. If contract is extended by one year due to the automatic extension clause, the buyout remains at the current limit. By way of clarification, if the contract is extended one year after the 2019-20 season due to the team reaching 18 wins, the buyout will remain at \$100,000 for the 2020-21 season, as five years remain in contract.

death benefits, if any, as may be contained in any fringe benefit plan now in force or hereafter adopted by the University ~~(College)~~ and due to Coach's estate or beneficiaries thereunder.

5.4.3 If this Agreement is terminated because Coach becomes totally or permanently disabled as defined by the ~~University's University (College)'s~~ disability insurance carrier, or becomes unable to perform the essential functions of the position of head coach, all salary and other benefits shall terminate, except that Coach shall be entitled to receive any compensation due or unpaid and any disability-related benefits to which Coach is entitled by virtue of employment with the University. ~~(College).~~

5.5. Interference by Coach. In the event of termination, suspension, or reassignment, Coach agrees that Coach will not interfere with the ~~University's University (College)'s~~ student-athletes or otherwise obstruct the ~~University's University (College)'s~~ ability to transact business or operate its intercollegiate athletics program.

5.6. No Liability. The University ~~(College)~~ shall not be liable to Coach for the loss of any collateral business opportunities or any other benefits, perquisites or income from any sources that may ensue as a result of any termination of this Agreement by either party or due to death or disability or the suspension or reassignment of Coach, regardless of the circumstances.

5.7. Waiver of Rights. Because Coach is receiving a multi-year contract and the opportunity to receive supplemental compensation and because such contracts and opportunities are not customarily afforded to University ~~(College)~~ employees, if the University ~~(College)~~ suspends or reassigns Coach, or terminates this Agreement for good or adequate cause or for convenience, Coach shall have all the rights provided for in this Agreement but hereby releases the University ~~(College)~~ from compliance with the notice, appeal, and similar employment-related rights provided for in Board policy, IDAPA 08.01.01 et seq., and the ~~University's policies University (College) (Faculty Staff) Handbook.~~

## ARTICLE 6

6.1. Board Approval This Agreement shall not be effective unless approved by the Board and executed by both parties as set forth below. In addition, the payment of any compensation pursuant to this Agreement shall be subject to the approval of the Board, the ~~President Chief Executive Officer~~, and the Director; the sufficiency of legislative appropriations; the receipt of sufficient funds in the account from which such compensation is paid; and the Board policies and ~~University's University (College)'s~~ rules regarding financial exigency.

6.2. University ~~(College)~~ Property. All personal property (excluding vehicle(s) provided through the ~~courtesy car~~ program), material, and articles of information, including, without limitation, keys, credit cards, personnel records, recruiting records, team information, films, statistics or any other personal property, material, or data, furnished to Coach by the University ~~(College)~~ or developed by Coach on behalf of the University ~~(College)~~ or at the ~~University's University (College)'s~~ direction or for the ~~University's University (College)'s~~ use or otherwise in connection with Coach's employment hereunder are and shall remain the sole property of the University. ~~(College).~~ Within twenty-four (24) hours of the expiration of the term

of this Agreement or its earlier termination as provided herein, Coach shall immediately cause any such personal property, materials, and articles of information in Coach’s possession or control to be delivered to the Director.

6.3. Assignment. Neither party may assign its rights or delegate its obligations under this Agreement without the prior written consent of the other party.

6.4. Waiver. No waiver of any default in the performance of this Agreement shall be effective unless in writing and signed by the waiving party. -The waiver of a particular breach in the performance of this Agreement shall not constitute a waiver of any other or subsequent breach. The resort to a particular remedy upon a breach shall not constitute a waiver of any other available remedies.

6.5. Severability. If any provision of this Agreement is determined to be invalid or unenforceable, the remainder of the Agreement shall not be affected and shall remain in effect.

6.6. Governing Law. This Agreement shall be subject to and construed in accordance with the laws of the state of Idaho. -Any action based in whole or in part on this Agreement shall be brought in the courts of the state of Idaho.

6.7. Oral Promises. Oral promises of an increase in annual salary or of any supplemental or other compensation shall not be binding upon the University. ~~(College)~~.

6.8. Force Majeure. Any prevention, delay or stoppage due to strikes, lockouts, labor disputes, acts of God, inability to obtain labor or materials or reasonable substitutes therefor, governmental restrictions, governmental regulations, governmental controls, enemy or hostile governmental action, civil commotion, fire or other casualty, and other causes beyond the reasonable control of the party obligated to perform (including financial inability), shall excuse the performance by such party for a period equal to any such prevention, delay or stoppage.

6.9. Confidentiality. This Agreement and all documents and reports Coach is required to produce under this Agreement may be released and made available to the public by the University. ~~(College)~~.

6.10. Notices. Any notice under this Agreement shall be in writing and be delivered in person or by public or private courier service (including U.S. Postal Service Express Mail) or certified mail with return receipt requested. All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing:

the University: Boise State University  
~~(College)~~: —Director of Athletics  
1910 University Drive  
Boise, Idaho 83725-1020

with a copy to: Boise State University Chief Executive Officer

Office of the President  
1910 University Drive  
Boise, Idaho 83725-1000

Coach: Gordon H. Presnell  
Last known address on file with  
University's/University (College)'s Human Resource Services

Any notice shall be deemed to have been given on the earlier of: (a) actual delivery or refusal to accept delivery, (b) the date of mailing by certified mail, or (c) the day facsimile delivery is verified. -Actual notice, however and from whomever received, shall always be effective.

6.11. Headings. The headings contained in this Agreement are for reference purposes only and shall not in any way affect the meaning or interpretation hereof.

6.12. Binding Effect. This Agreement is for the benefit only of the parties hereto and shall inure to the benefit of and bind the parties and their respective heirs, legal representatives, successors and assigns.

6.13. Non-Use of Names and Trademarks. Coach shall not, without the University's/University (College)'s prior written consent in each case, use any name, trade name, trademark, or other designation of the University (College) (including contraction, abbreviation or simulation), except in the course and scope of official University (College) duties.

6.14. No Third Party Beneficiaries. There are no intended or unintended third party beneficiaries to this Agreement.

6.15. Entire Agreement; Amendments. This Agreement constitutes the entire agreement of the parties and supersedes all prior agreements and understandings with respect to the same subject matter. -No amendment or modification of this Agreement shall be effective unless in writing, signed by both parties, and approved by the Board if required under Board Policy II.H.

6.16. Opportunity to Consult with Attorney. Coach acknowledges that Coach has had the opportunity to consult and review this Agreement with an attorney. Accordingly, in all cases, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any party.

~~[\*Note: Multiyear employment agreements requiring Board approval are defined Board Policy H.H.]~~

## EMPLOYMENT AGREEMENT

This Employment Agreement (~~the “Agreement”~~) is entered into ~~this \_\_\_\_\_ day of \_\_\_\_\_, 2017 (“Effective Date”)~~ by and between Boise State University (the “University”) and Gordon H. Presnell (~~the “Coach”~~).

### ARTICLE 1

1.1. Employment. Subject to the terms and conditions of this Agreement, the University shall employ Coach as the head coach (~~the “Position”~~) of its intercollegiate women’s basketball ~~Women’s Basketball~~ team (the “Team”). Coach represents and warrants that Coach is fully qualified to serve, and is available for employment, in this capacity.

1.2. Reporting Relationship. Coach shall report and be responsible directly to the University’s Athletic Director (~~of Athletics (the “Director”)~~) or the Director’s designee. Coach shall abide by the reasonable instructions of ~~the~~ Director or the Director’s designee and shall confer with the Director or the Director’s designee on all administrative and technical matters. Coach shall also be under the general supervision of the University’s President (~~the “President”~~).

1.3. Duties. Coach shall manage and supervise the Team and shall perform such other duties in the University’s athletic program as the Director may assign and as may be described elsewhere in this Agreement. The University shall have the right, at any time, to reassign Coach to duties at the University other than as head coach of the Team, provided that Coach’s compensation and benefits shall not be affected by any such reassignment, except that the opportunity to earn supplemental compensation as provided in Sections 3.2.1 through 3.2.2 shall cease ~~Coach shall, to the best of Coach’s ability, and consistent with University policies and procedures, perform all duties and responsibilities customarily associated with the Position.~~

### ARTICLE 2

2.1. Term. This Agreement is for a fixed-term appointment of four (4) years and nine (9) seven (7) months, commencing on July 1, 2019 ~~August 13, 2017~~ and terminating, without further notice to Coach, on March 31, 2024 ~~2022~~ (~~the “Term”~~) unless sooner terminated in accordance with other provisions of this Agreement.

2.2. Extension or 2.2 — Renewal. This Agreement is renewable solely upon an offer from the University and an acceptance by Coach, both of which must be in writing and signed by the parties. ~~Any renewal is subject to the prior approval of the Idaho State University’s Board of Education (Board) Trustees.~~ This Agreement in no way grants to Coach a claim to tenure in employment, nor shall Coach’s service pursuant to this Agreement count in any way toward tenure at the University.

2.3. 2.3 — Automatic Extensions. The term of this Agreement will automatically be extended by one (1) additional year commencing on April 1 and concluding on March 31 for each season in which the team has at least eighteen (18) wins. For the purpose of calculation of wins,

such wins must occur during the regular season, the conference tournament, the Women's National Invitation Tournament ("WNIT"), or the National Collegiate Athletic Association ("NCAA") Tournament, to the exclusion of all other pre-season exhibition games or post-season tournaments.

### ARTICLE 3

#### 3.1. Regular Compensation.

3.1.1 In consideration of Coach's services and satisfactory performance of this Agreement, the University shall provide to Coach:

- a) ~~a)~~ A base salary ~~\$300~~of ~~\$230,000~~ ~~perfor the first~~ year; ~~\$240,000 for the second year, \$250,000 for the third~~ and subsequent extension years pursuant to section 2.3 herein; payable in biweekly installments in accordance with normal University procedures, and such salary increases as may be determined appropriate by the Director and President and approved by the University's Board of Trustees;
- b) The opportunity to receive such employee benefits ~~calculated on the "base salary" set forth in set forth in section 3.1.1(a)~~ as the University provides generally to non-faculty exempt employees, provided that Coach qualifies for such benefits by meeting all applicable eligibility requirements (except that in accordance with Board Policy II.H.6.b.ii, University; and Coach agree that Coach shall not accrue any annual leave hours, and may take leave (other than sick leave) only with prior written approval of the Director); and
- c) The opportunity to receive such employee benefits as the ~~University's Department of Athletics (the "Department")~~ provides generally to its employees of a comparable level.- Coach hereby agrees to abide by the terms and conditions, as now existing or hereafter amended, of such employee benefits.

Coach understands and agrees that financial conditions may require the President, in the President's discretion, to institute furloughs or to take such other actions consistent with Board policy as the President may determine to be necessary to meet such challenges. In the event of a furlough or other action, the actual salary paid to Coach may be less than the salary stated in Section 3.1.1(a) above.

3.2 3.2. Supplemental Compensation. Each year Coach shall be eligible to receive~~may earn~~ supplemental compensation as detailed below~~follows~~:

~~3.2.1~~ 3.2.1 Athletic Achievement Incentive Pay.

b)a) The greatest of the following:

<del>10 conference wins</del>	<del>_____</del>	<del>\$2,500</del>
<del>11 conference wins</del>	<del>_____</del>	<del>\$3,500</del>
<del>12 conference wins</del>	<del>_____</del>	<del>\$5,000</del>
<del>13 conference wins</del>	<del>_____</del>	<del>\$6,000</del>
14 conference wins	_____	\$69,000
15+ conference wins	_____	\$10,000
_____ Conference Regular Season Champions	_____	\$18\$20,000

b) ~~The greater of the following two:~~

<del>Conference Tournament Finalist</del>	<del>_____</del>	<del>\$5,000 or</del>
b) <del>Conference Tournament Champions</del>	<del>_____</del>	<del>\$15</del>
		<del>\$20,000</del>

~~c) At-large selection for the NCAA Tournament~~  
~~\$105,000~~

d) ~~\_\_\_\_\_~~ ~~NCAA Tournament Appearance (per game)~~ ~~\_\_\_\_\_~~ ~~\$5,000~~

~~e) NCCA Tournament Win (per game)~~ ~~\_\_\_\_\_~~ ~~\$7,500~~

~~e) f) WNIT Win Appearance (per game)~~ ~~\_\_\_\_\_~~  
~~\$3,000~~

~~f) Conference Coach of the Year~~ ~~\_\_\_\_\_~~ ~~\$3,000~~

~~g) g) 18 Wins~~ ~~\_\_\_\_\_~~ ~~\$6,000~~

~~h) Conference Coach of the Year~~ ~~\_\_\_\_\_~~ ~~\$3,000~~

~~i) National Coach of the Year~~ ~~\_\_\_\_\_~~  
~~\$10,000~~

~~h) j) Conference Player of the Year~~ ~~\_\_\_\_\_~~  
~~\$23,000~~

~~i) k) Conference Freshman of the Year~~ ~~\_\_\_\_\_~~  
~~\$23,000~~

~~j) l) Top 50 RPI (at end of season)~~ ~~\_\_\_\_\_~~ ~~\$6,000 or~~

If Coach qualifies for Athletic Achievement Incentive Pay under this Section, the University will pay Coach on the first regular pay date in July if Coach is still employed by the University on that date.

3.2.2. \_\_\_\_\_ Top 100 RPI (at end of season) \_\_\_\_\_ \$3,000

3.2.4 Academic Achievement Incentive Pay.

Academic Incentive Pay may be earned if annual team APR ranks nationally within women's basketball as follows:

National Rank Within Sport

975-980	=	\$5,000
981-985	=	\$7,500
986-990	=	\$10,000
991 or above	=	\$ <del>120</del> ,000

If Coach qualifies for Academic Achievement Incentive Pay, it will be paid as soon as reasonably practical following APR rating determination and verification by the National Collegiate Athletic Association (NCAA), if Coach is still employed by the University on that date.

~~3.2.3.~~ Conditions for payment of ~~Academic and Athletic~~ and Academic Achievement supplemental compensation.:

- a) If Coach qualifies for Athletic Achievement Supplemental Compensation pursuant to section 3.2.1, University will pay Coach on the first regular pay date in July, following the year in which such supplemental compensation is calculated but only if Coach is still employed by the University on that date. Ranking shall be determined based on NCAA National End of Season Ranking.
- b) If Coach qualifies for Academic Achievement Supplemental Compensation pursuant to section 3.2.2, it will be paid as soon as reasonably practical following APR rating determination and verification by the NCAA, if Coach is still employed by the University on that date.
- c) In order to receive any of the 3.2.1 supplemental compensation, the Team's retention rate must be at least 50% for the academic year in which the supplemental pay is earned. The retention rate will be calculated anew each year and will not be cumulative.

The decisions whether or not to award the Incentive Pay outlined in this Section 3.2, and in what amounts, are within the Director's sole discretion. The decisions may be made based on a variety of factors, including, but not limited to, Coach's individual performance, athletic/academic performance of Coach's assigned player personnel groups, or other performance-related factors.

~~3.2.4.3.2.4 Each year Coach may be eligible to receive supplemental compensation based on the overall development of the intercollegiate women's basketball program; ticket sales; fundraising; outreach by Coach to various constituency groups, including University students, staff, faculty, alumni and boosters; and any other factors the President wishes to consider. The determination of whether Coach will receive such supplemental compensation and the timing of the payment(s) shall be at the sole discretion of the President in consultation with the Director and approved by the University's Board of Trustees.~~

~~3.2.5 The Coach may receive compensation hereunder from the University's designated media outlet(s) or a combination thereof each year during the term of this Agreement in compensation for participation in media programs and public appearances (collectively, "Programs). Agreements requiring the Coach to participate in Programs related to his duties as an employee of University are the property of the University. The University shall have the exclusive right to negotiate and contract with all producers of media productions and all parties desiring public appearances by the Coach. Coach agrees to cooperate with the University in order for the Programs to be successful and agrees to provide his services to and perform on the Programs and to cooperate in their production, broadcasting, and telecasting. It is understood that neither Coach nor any assistant coaches shall appear without the prior written approval of the Director on any competing radio or television program (including, but not limited to, a coach's show, call-in show, or interview show) or a regularly scheduled news segment, except that this prohibition shall not apply to routine news media interviews for which no compensation is received. Without the prior written approval of the Director, Coach shall not appear in any commercial endorsements, which are broadcast on radio or television that conflict with those broadcast on the University's designated media outlets.~~

3.2.6 Coach agrees that the University has the ~~priority~~exclusive right to operate ~~athletic camps and/or clinics~~("Camps") on its campus using University facilities.

- a) If the University exercises its right to operate camps and/or clinics on campus, the ~~The~~ University shall allow Coach the opportunity to earn supplemental compensation by assisting with the University's camps and/or clinics in Coach's capacity as a University employee. Coach hereby agrees to assist in the marketing, supervision, and general administration of the University's camps and/or clinics.~~Camps.~~ Coach also agrees that Coach will perform all obligations mutually agreed upon by the parties. In exchange for Coach's participation in the University's camps and/or clinics~~Camps~~, the University shall pay Coach supplemental compensation during each year of his employment as a coach at the University.
- b) If the University allows Coach to operate camps and/or clinics at the University, such operation shall be according to a written agreement which shall include conditions such as:
  - i) Coach compliance with all NCAA, Conference, and University rules and regulations related, directly or indirectly, to the operation of camps and/or clinics;
  - ii) Payment for use of University facilities; and
  - iii) Provision of proof of liability insurance

In the event of termination of this Agreement, suspension, or reassignment, University shall not be under any obligation to permit a camp and/or clinic to be held by the Coach after the effective date of such termination, suspension, or reassignment, and the University shall be released from all obligations relating thereto.

~~3.2.53.2.7 Coach agrees that the University has the exclusive right to select footwear, apparel and/or equipment for the use of its student athletes and staff, including Coach, during official practices and games and during times when Coach or the Team is being filmed by motion picture or video camera or posing for photographs in their capacity as representatives of University. In order to avoid entering into an agreement with a competitor of the University's designated company, Coach shall submit all outside consulting agreements to the University for review and approval prior to execution. Coach shall also report such outside interests to the University in accordance with Section 4.3 of this Agreement. Coach further agrees that Coach will not endorse any athletic footwear, apparel and/or equipment products and will not participate in any messages or promotional appearances which contain a comparative or qualitative description of athletic footwear, apparel, or equipment products.~~

~~3.2.8 Away Game Guarantee. In the event the University schedules an away contest with a non-conference opponent for which a game guarantee is paid to the University by the host institution, the payment shall be distributed as follows: any amount of the game guarantee, will be split between (a) the Department and (b) the Coach and assistant coaches at the recommendation of Coach, subject to the Director's final approval.~~

3.3. Footwear; Apparel; Equipment. Coach agrees that the University has the exclusive right to select footwear, apparel and/or equipment for the use of its student athletes and staff, including Coach, during official practices and games and during times when Coach or the Team is being filmed by motion picture or video camera or posing for photographs in their capacity as representatives of University. In order to avoid entering into an agreement with a competitor of any University selected vendors, Coach shall submit all outside consulting agreements to the University for review and approval prior to execution. Coach shall also report such outside income to the University in accordance with Section 4.3 of this Agreement. Coach further agrees that Coach will not endorse any athletic footwear, apparel and/or equipment products, and will not participate in any messages or promotional appearances which contain a comparative or qualitative description of athletic footwear, apparel or equipment products.

3.4.3.3 General Conditions of Compensation. All compensation provided by the University to Coach is subject to deductions and withholdings as required by law or the terms and conditions of any fringe benefit in which Coach participates. However, if any fringe benefit is based in whole or in part upon the compensation provided by the University to Coach, such fringe benefit shall be based only on the compensation provided pursuant to Section 3.1.1, except to the extent required by the terms and conditions of a specific fringe benefit program.

## ARTICLE 4

4.1. Coach's Specific Duties and Responsibilities. In consideration of the compensation specified in this Agreement, Coach, in addition to the obligations set forth elsewhere in this Agreement, shall:

4.1.1. Devote Coach's full time and best efforts to the performance of Coach's duties under this Agreement;

4.1.2. Develop and implement programs and procedures with respect to the evaluation, recruitment, training, and coaching of Team members which enable them to compete successfully and reasonably protect their health, safety, and well-being;

4.1.3. Observe and uphold all academic standards, requirements, and policies of the University and encourage Team members to perform to their highest academic potential and to graduate in a timely manner; and

4.1.4. Know, recognize, and comply with all applicable laws, and with the policies, rules and regulations of the University, the Board~~University's governing board~~, the conference, ~~of which the University is a member (the "Conference")~~, and the NCAA; supervise and take appropriate steps to ensure that Coach's assistant coaches, any other employees for whom Coach is administratively responsible, and the members of the Team know, recognize, and comply with all such laws, policies, rules and regulations; and immediately report to the Director and to the Department's~~University's~~ Director of ~~NCAA~~ Compliance if Coach has reasonable cause to believe that any person or entity, including without limitation representatives of the University's athletic interests, has violated or is likely to violate any such laws, policies, rules or regulations. Coach shall promote an atmosphere of compliance with the rules and regulations. In accordance with NCAA rules and regulations, Coach must annually pass the NCAA Coaches Certification Test before having any off-campus contact with prospects. Coach shall promote an atmosphere of compliance with the rules and regulations. In accordance with NCAA rules and regulations, Coach must annually pass the NCAA Coaches Certification Test before having any off-campus contact with prospects. Coach shall cooperate fully with the University and Department at all times. The names or titles of employees whom Coach supervises are attached as Exhibit A.~~will be provided periodically to Coach by the University.~~ The applicable laws, policies, rules, and regulations include: (a) State Board policies of Education Governing Policies and Procedures and Rule Manual; (b) ~~the~~ University's Policy Manual; (c) the policies of the Department; (d) NCAA rules and regulations; and (e) the rules and regulations of the [Sport] conference of which the University is a member~~Conference~~.

4.2 Outside Activities. Coach shall not undertake any business, professional or personal activities, or pursuits that would prevent Coach from devoting Coach's full time and best efforts to the performance of Coach's duties under this Agreement, that would unreasonably detract from those duties in any manner, or that, in the reasonable opinion of the University, the Department, ~~the Department~~, or its athletic program. Subject to the terms and conditions of this Agreement, Coach may, with the prior written approval of the Director, who may consult with the President, enter into separate arrangements for outside

activities and endorsements which are consistent with Coach's obligations under this Agreement. Coach shall report such outside income and business interests to the University in accordance with Section 4.3 of this Agreement. Coach may not use nor may Coach authorize third parties to use, the University's name, logos, or trademarks in connection with any such arrangements without the prior written approval of the Director and the President (such approval not to be unreasonably withheld).

4.3. Outside Income. In accordance with NCAA rules. Coach shall obtain prior written approval from the University's President and the Director (such approval not to be unreasonably withheld) for all athletically-related and other business-related income and benefits from sources outside the University and shall report the source and amount of all such income and benefits in accordance with the Department's Outside Income Reporting Form. The report shall be in a format reasonably satisfactory to University. In no event shall Coach accept or receive directly or indirectly any monies, benefits, or gratuities whatsoever from any person, association, corporation, University booster club, University alumni association, University foundation, or other benefactor, if the acceptance or receipt of the monies, benefits, or gratuities would violate applicable law or the policies, rules, and regulations of the University, the Board, the conference, or the NCAA~~University's governing board, the Conference, or the NCAA.~~ Sources of such income shall include, but are not limited to, the following: (a) income from annuities; (b) sports camps, clinics, speaking engagements, consultations, directorships, or related activities; (c) housing benefits (including preferential housing arrangements); (d) country club membership(s); (e) complimentary tickets (i.e., tickets to a Stampede game); (f) television and radio programs; (g) endorsement or consultation contracts with athletic shoe, apparel, or equipment manufacturers.

4.4. Hiring Authority. Coach shall have the responsibility and the sole authority to recommend to the Director the hiring and termination of assistant coaches for the Team, but the decision to hire or terminate an assistant coach shall be made by the Director and shall, when necessary or appropriate, be subject to the approval of President and the University's Board of Trustees.

4.5. Scheduling. Coach shall consult with, and may make recommendations to, the Director or the Director's designee with respect to the scheduling of Team~~the Team's~~ competitions, but the final decision shall be made by the Director or the Director's designee.

4.6. Other Coaching Opportunities. Coach shall not, under any circumstances, interview for, negotiate for, or accept employment as a coach at any other institution of higher education or with any professional sports team, requiring performance of duties prior to the expiration of this Agreement, without the prior approval of the Director. Such approval shall not unreasonably be withheld.~~Such approval shall not unreasonably be withheld. Without first giving ten (10) days prior written notice to the Director, Coach shall not negotiate for or accept employment, under any circumstances, as a coach at any other institution of higher education or with any professional sports team requiring the performance of the duties set forth herein.~~

4.7. Disclosure of Serious Misconduct. Coach warrants that prior to signing this Agreement, Coach has disclosed and will continue to disclose if Coach has been accused, investigated, convicted of or pled guilty or no contest to a felony or misdemeanor involving serious

misconduct, or has been subject to official institution or athletic department disciplinary action at any time at any prior institution where Coach was employed. “Serious misconduct” is defined as any act of sexual violence, domestic violence, dating violence, stalking, sexual exploitation, or any assault that employs the use of a deadly weapon or causes serious bodily injury.

4.8. Media Obligations. Coach must fully participate in media programs and public appearances (Programs) through the date of the Team’s last regular season or post-season competition. Agreements requiring Coach to participate in Programs related to Coach’s duties as an employee of University are the property of the University. The University shall have the exclusive right to negotiate and contract with all producers of media productions and all parties desiring public appearances by Coach. Coach agrees to cooperate with the University in order for the Programs to be successful and agrees to provide Coach’s services to and perform on the Programs and to cooperate in their production, broadcasting, and telecasting. It is understood that neither Coach nor any assistant coaches shall appear without the prior written approval of the Director on any competing radio or television program (including but not limited to a coach’s show, call-in show, or interview show) or a regularly scheduled news segment, except that this prohibition shall not apply to routine news media interviews for which no compensation is received. Without the prior written approval of the Director, Coach shall not appear in any commercial endorsements which are broadcast on radio or television that conflict with those broadcast on the University’s designated media outlets.

4.9. Attendance at Specific Gatherings. ~~4.7 Attendance at Specific Gatherings.~~  
 The Coach will attend all staff meetings, public relation functions, dinners, awards banquet and make appearances as directed by the Director unless excused by the Director. Such functions shall include, but are not limited to, the following:

- a) The annual BAA barbecue
- b) The weekly BAA function during the relevant season;
- c) The annual BAA Endowment dinner;
- d) The Boise State Athletic Hall of Fame dinner;
- e) The BAA Bronze Bronco Award banquet;
- f) The BAA/Alumni Auction dinner;
- g) All Department staff meetings called by the Director;
- h) Athletic Department Graduation Reception;
- i) Bronco Golf Series Tournaments.

## ARTICLE 5

5.1. Termination of Coach for Cause. The University may, in its discretion, suspend Coach from some or all of Coach’s duties, temporarily or permanently, and with or without pay; reassign Coach to other duties; or terminate this Agreement at any time for good or adequate cause, as those terms are defined in applicable rules and; regulations, ~~and policies.~~

~~5.1.1~~ In addition to the definitions contained in applicable rules and regulations, ~~and policies~~, University and Coach hereby specifically agree that the following shall constitute good or adequate cause for suspension, reassignment, or termination of this Agreement: ~~;~~

- a) A deliberate or major violation of Coach's duties under this Agreement or the refusal or unwillingness of Coach to perform such duties in good faith and to the best of Coach's abilities;
- b) The failure of Coach to remedy any violation of any of the terms of this Agreement within ~~thirty (30)~~ days after written notice from the University;
- c) A deliberate or major violation by Coach of any applicable law or the ~~policies, rules or, regulations, or policies,~~ of the University, the ~~Board~~University's governing board, the ~~c~~Conference or the NCAA, including, but not limited to, any such violation which may have occurred during the employment of Coach at another NCAA or ~~National Association of Intercollegiate Athletics ("NAIA")~~ member institution;
- d) Ten (10) working days' absence of Coach from duty without the University's consent;
- e) Any conduct of Coach that constitutes moral turpitude or that would, in the University's judgment, reflect adversely on the University or its athletic programs;
- f) The failure of Coach to represent the University and its athletic programs positively in public and private forums;
- ~~g)~~ g) The failure of Coach to fully and promptly cooperate with the NCAA or the University in any investigation of possible violations of any applicable law or the policies, rules or regulations of the University, the ~~Board~~University's governing board, the ~~c~~Conference, or the NCAA;
- ~~h)~~ h) The failure of Coach to report a known violation of any applicable law or the policies, rules or regulations of the University, the ~~Board~~University's governing board, the ~~c~~Conference, or the NCAA, by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team; or
- ~~i)~~ i) A violation of any applicable law or the policies, rules or regulations of the University, the ~~Board~~University's governing board, the ~~c~~Conference, or the NCAA, by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team if Coach knew or should have

known ~~by ordinary supervision~~ of the violation and could have prevented it by ~~such~~ ordinary supervision.

j) The failure of Coach to disclose Serious Misconduct as required in Section 4.7 of this Agreement.

5.1.2 Suspension, reassignment, or termination for good or adequate cause shall be effectuated by the University as follows: before the effective date of the suspension, reassignment, or termination, the Director or the Director's designee shall provide Coach with notice, which notice shall be accomplished in the manner provided for in this Agreement and shall include the reason(s) for the contemplated action. Coach shall then have an opportunity to respond. After Coach responds or fails to respond, University shall notify Coach whether, and if so when, the action will be effective.

5.1.3 In the event of any termination for good or adequate cause, the University's obligation to provide compensation and benefits to Coach, whether direct, indirect, supplemental or collateral, shall cease as of the date of such termination, and the University shall not be liable for the loss of any collateral business opportunities or other benefits, perquisites, or income resulting from outside activities or from any other sources.

5.1.4 If found in violation of NCAA regulations, Coach shall, in addition to the provisions of Section 5.1, be subject to disciplinary or corrective action as set forth in the provisions of the NCAA enforcement procedures. This ~~S~~section applies to violations occurring at the University or at previous institutions at which ~~the~~ Coach was employed.

~~5.2~~ 5.2. Termination of Coach for Convenience of University.

~~5.2.1~~ 5.2.1 At any time after commencement of this Agreement, University, for its own convenience, may terminate this Agreement by giving ten (10) days prior written notice to Coach.

~~5.2.2~~ 5.2.2 In the event that University terminates this Agreement for its own convenience, University shall be obligated to pay Coach, as liquidated damages and not a penalty, the ~~"base salary amount~~ set forth in ~~S~~section 3.1.1(a), excluding all deductions required by law, on the regular paydays of University until the ~~t~~Term of this Agreement ends or until Coach obtains reasonably comparable employment, whichever occurs first. ~~In, provided, however, in~~ the event Coach obtains other employment after such termination, then the amount of compensation the University pays will be ~~adjusted and~~ reduced by the amount of compensation paid Coach as a result of such other employment, such adjusted compensation to be calculated for each University pay-period by reducing the gross salary set forth in ~~S~~section 3.1.1(a) (before deductions required by law) by the gross compensation paid to Coach under the other employment, then subtracting from this adjusted gross compensation deductions according to law. In addition, Coach will be entitled to continue ~~with the University's~~ health insurance plan and group life insurance as if ~~Coach~~ remained a University employee until the term of this Agreement ends or until Coach obtains reasonably comparable employment or any other employment providing Coach with a reasonably comparable health plan and group life insurance, whichever occurs first. Coach shall

be entitled to no other compensation or fringe benefits, except as otherwise provided herein or required by law. Coach specifically agrees to inform University within ten business days of obtaining other employment, and to advise University of all relevant terms of such employment, including without limitation the nature and location of ~~the~~ employment, salary, other compensation, health insurance benefits, life insurance benefits, and other fringe benefits. Failure to so inform and advise University shall constitute a material breach of this Agreement and University's obligation to pay compensation under this provision shall end. ~~Coach agrees not to accept employment for compensation at less than the fair market value of Coach's services, as determined by all circumstances existing at the time of employment.~~ Coach further agrees to repay to University all compensation ~~received from the paid to him by~~ University after the date ~~he obtains~~ other employment, ~~to which he is obtained not entitled under this provision.~~

~~5.2.3~~ 5.2.3 The parties have both been represented by, or had the opportunity to ~~consult with, be represented by~~ legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that ~~the~~ Coach may lose certain benefits, supplemental compensation, or outside compensation relating to ~~his~~ employment with University, which damages are extremely difficult to determine with certainty. ~~The parties further agree that the payment of such liquidated damages by University and the acceptance thereof by Coach shall constitute adequate and reasonable compensation to Coach for the damages and injury suffered by Coach because of such termination by University. The liquidated damages are not, and shall not be construed to be, a penalty.~~

~~5.2.4—5.3.~~ 5.3. ~~In the event of non-renewal or termination of Coach's employment, Coach will use all accumulated annual leave prior to the end of the contract period.~~

### 5.3 Termination by Coach for Convenience.

~~5.3.1~~ 5.3.1 ~~The~~ Coach recognizes that ~~Coach's his~~ promise to work for University for the entire term of this Agreement is of the essence of this Agreement. ~~The~~ Coach also recognizes that the University is making a highly valuable investment in ~~Coach's his~~ employment by entering into this Agreement and that its investment would be lost were ~~Coach he~~ to resign or otherwise terminate ~~his~~ employment with the University before the end of the ~~Agreement term~~ contract Term.

~~5.3.2~~ 5.3.2 ~~The~~ Coach, ~~for his own convenience,~~ may terminate this Agreement ~~for convenience~~ during its term by giving prior written notice to the University. Termination shall be effective ten (10) days after notice is given to the University. ~~Such termination must occur at a time outside the Team's season (including NCAA post-season competition) so as to minimize the impact on the program.~~

5.3.3 If the Coach terminates this Agreement for convenience at any time, all obligations of the University shall cease as of the effective date of the termination. If the Coach terminates this Agreement for his convenience he shall pay to the University, as liquidated damages and not a penalty, for the breach of this Agreement the following sum for the associated amount of time remaining in the contract:

▪ 5 years – 4 years and 1 day:	\$100,000
▪ 4 years – 3 years and 1 day:	\$80,000
▪ 3 years – 2 years and 1 day:	\$60,000
▪ 2 years – 1 year and 1 day:	\$40,000
▪ 1 year – 1 day:	\$20,000

Buyout will remain in effect based on the number of years remaining in the contract. If contract is extended by one year due to the automatic extension clause, the buyout remains at the current limit. By way of clarification, if the contract is extended one year after the 2019-20 season due to the team reaching 18 wins, the buyout will remain at \$100,000 for the 2020-21 season, as five years remain in contract.

~~5.3.3 :—(a) if the Agreement is terminated on or before March 31, 2018, the sum of \$40,000; (b) if the Agreement is terminated between April 1, 2018 and March 31, 2019 inclusive, the sum of \$20,000; (c) if the Agreement is terminated between April 1, 2019 and March 16, 2020 inclusive, the sum of \$10,000.~~ The liquidated damages shall be due and payable within twenty (20) days of the effective date of the termination, and any unpaid amount shall bear simple interest at a rate eight (8) percent per annum until paid. Liquidated damages shall not be due and payable if:

- a) Coach terminates this Agreement for convenience for family reasons, unless after such termination Coach becomes employed in a coaching position at another college or university prior to March 16, 2021, in which case the liquidated damages shall be due in accordance with the terms contained in the above paragraph; or
- b) Coach terminates this Agreement for convenience in order for Coach to take a non-coaching position, unless after such termination Coach becomes employed in a coaching position at another college or university prior to March 16, 2021, in which case the liquidated damages shall be due in accordance with the terms contained in the above paragraph.

~~5.3.4~~ 5.3.4 The parties have both ~~been had opportunity to be~~ represented by legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that the University will incur administrative and recruiting costs in obtaining a replacement for Coach, in addition to potentially increased compensation costs if Coach terminates this Agreement for convenience, which damages are extremely difficult to determine with certainty. -The parties further agree that the payment of such liquidated damages by Coach and the acceptance thereof by University shall constitute adequate and reasonable compensation to University for the damages and injury suffered by it because of such termination by Coach. -The liquidated damages are not, and shall not be construed to be, a penalty. -This ~~S~~section 5.3.4 shall not apply if Coach terminates~~s~~s this Agreement because of a material breach by the University.

~~5.3.5~~ 5.3.5 Except as provided elsewhere in this Agreement, if Coach terminates this Agreement for convenience, Coach shall forfeit to the extent permitted by law ~~the~~his right to receive all supplemental compensation and other payments ~~and all accumulated leave~~.

~~5.4~~ 5.4. Termination dDue to Disability or Death of Coach.

~~5.4.1~~ 5.4.1 Notwithstanding any other provision of this Agreement, this Agreement shall terminate automatically if Coach becomes totally or permanently disabled as defined by the University's disability insurance carrier, becomes unable to perform the essential functions of the position of head coach, or dies.

~~5.4.2~~ 5.4.2 If this Agreement is terminated because of Coach's death, Coach's salary and all other benefits shall terminate as of the last day worked, except that ~~the~~Coach's personal representative or other designated beneficiary shall be paid all compensation due or unpaid and death benefits, if any, as may be contained in any fringe benefit plan now in force or hereafter adopted by the University and due to ~~the~~Coach's estate or beneficiaries thereunder.

~~5.4.3~~ 5.4.3 If this Agreement is terminated because ~~the~~ Coach becomes totally or permanently disabled as defined by the University's disability insurance carrier, or becomes unable to perform the essential functions of the position of head coach, all salary and other benefits shall terminate, except that ~~the~~Coach shall be entitled to receive any compensation due or unpaid and any disability-related benefits to which Coach is entitled by virtue of employment with the University.

5.5. Interference by Coach. In the event of termination, suspension, or reassignment, Coach agrees that Coach will not interfere with the University's student-athletes or otherwise obstruct the University's ability to transact business or operate its intercollegiate athletics program.

5.6. No Liability. The University shall not be liable to Coach for the loss of any collateral business opportunities or any other benefits, perquisites or income from any sources that may ensue as a result of any termination of this Agreement by either party or due to death or disability or the suspension or reassignment of Coach, regardless of the circumstances.

5.7. Waiver of Rights. Because ~~the~~ Coach is receiving a multi-year contract and the opportunity to receive supplemental compensation and because such contracts and opportunities are not customarily afforded to University employees, if the University suspends or reassigns Coach, or terminates this Agreement for good or adequate cause or for convenience, Coach shall have all the rights provided for in this Agreement but hereby releases the University from compliance with the notice, appeal, and similar employment-related rights provided for in ~~the State Board policy, IDAPA of Education and Board Rules (ID ADMIN. CODE 08.01.01 et seq., and the University's policies) and Governing Policies and Procedures, and University Policies.~~

## ARTICLE 6

6.1. Board Approval. This Agreement shall not be effective ~~until and~~ unless approved ~~by~~ of the ~~University's Board of Trustees~~ and executed by both parties as set forth below. In addition, the payment of any compensation pursuant to this Agreement shall be subject to the approval of the ~~University's Board of Trustees~~, the President, and the Director; the sufficiency of legislative appropriations; the receipt of sufficient funds in the account from which such compensation is paid; and the Board ~~policies of Trustees~~ and University's rules regarding financial exigency.

6.2. University Property. All personal property (excluding vehicle(s) provided through the courtesy car program), material, and articles of information, including, without limitation, keys, credit cards, personnel records, recruiting records, team information, films, statistics or any other personal property, material, or data, furnished to Coach by the University or developed by Coach on behalf of the University or at the University's direction or for the University's use or otherwise in connection with Coach's employment hereunder are and shall remain the sole property of the University. ~~Within twenty-four (24) hours of the expiration of the t~~Term of this Agreement or its earlier termination as provided herein, Coach shall immediately cause any such personal property, materials, and articles of information in Coach's possession or control to be delivered to the Director.

6.3. Assignment. Neither party may assign its rights or delegate its obligations under this Agreement without the prior written consent of the other party.

6.4. Waiver. No waiver of any default in the performance of this Agreement shall be effective unless in writing and signed by the waiving party. ~~The waiver of a particular breach in the performance of this Agreement shall not constitute a waiver of any other or subsequent breach.~~ The resort to a particular remedy upon a breach shall not constitute a waiver of any other available remedies.

6.5. Severability. If any provision of this Agreement is determined to be invalid or unenforceable, the remainder of the Agreement shall not be affected and shall remain in effect.

6.6. Governing Law. This Agreement shall be subject to and construed in accordance with the laws of the ~~s~~State of Idaho, ~~as an agreement to be performed in Idaho~~. Any action based in whole or in part on this Agreement shall be brought in the courts of the state of district court in Ada County, Boise, Idaho.

6.7. Oral Promises. Oral promises of an increase in annual salary or of any supplemental or other compensation shall not be binding upon the University.

6.8. Force Majeure. Any prevention, delay or stoppage due to strikes, lockouts, labor disputes, acts of God, inability to obtain labor or materials or reasonable substitutes therefore, governmental restrictions, governmental regulations, governmental controls, enemy or hostile governmental action, civil commotion, fire or other casualty, and other causes beyond the

reasonable control of the party obligated to perform (including financial inability), shall excuse the performance by such party for a period equal to any such prevention, delay or stoppage.

6.9. ~~\_\_\_\_\_~~ Non-Confidentiality. ~~This Agreement~~~~The Coach hereby consents~~ and agrees that this document may be released and made available to the public after it is signed by the Coach. ~~The Coach further agrees that~~ all documents and reports Coach is required to produce under this Agreement may be released and made available to the public by the University~~University's sole discretion.~~

6.10. Notices. Any notice under this Agreement shall be in writing and be delivered in person or by public or private courier service (including U.S. Postal Service Express Mail) or certified mail with return receipt requested, ~~or by facsimile.~~ All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing:

the University: ~~\_\_\_\_\_~~ Director of Athletics  
Boise State University  
Director of Athletics  
1910 University Drive  
Boise, Idaho -83725-1020

with a copy to: Boise State University  
Office of the President  
~~\_\_\_\_\_~~ Boise State University  
1910 University Drive  
~~\_\_\_\_\_~~ Boise, Idaho -83725-1000

~~the~~ Coach: \_\_\_\_\_ Gordon H. Presnell  
Last known address on file with  
University's Human Resource Services

Any notice shall be deemed to have been given on the earlier of: (a) actual delivery or refusal to accept delivery, (b) the date of mailing by certified mail, or (c) the day facsimile delivery is verified. ~~-Actual notice, however and from whomever received, shall always be effective.~~

6.11. Headings. The headings contained in this Agreement are for reference purposes only and shall not in any way affect the meaning or interpretation hereof.

6.12. Binding Effect. This Agreement is for the benefit only of the parties hereto and shall inure to the benefit of and bind the parties and their respective heirs, legal representatives, successors and assigns.

6.13. Non-Use of Names and Trademarks. ~~The~~ Coach shall not, without the University's prior written consent in each case, use any name, trade name, trademark, or other designation of the University (including contraction, abbreviation or simulation), except in the course and scope of his official University duties.

6.14. No Third Party Beneficiaries. There are no intended or unintended third party beneficiaries to this Agreement.

6.15. Entire Agreement; Amendments. This Agreement constitutes the entire agreement ~~of between~~ the parties and supersedes all prior agreements and understandings with respect to the same subject matter. ~~No~~ amendment or modification of this Agreement shall be effective unless in writing, signed by both parties, and approved by ~~the University's~~ Board ~~of Trustees,~~ if required under ~~Section II.H. of~~ Board Policy II.H.

6.16. Opportunity to Consult with Attorney. ~~The~~ Coach acknowledges that ~~Coach~~ has had the opportunity to consult and review this Agreement with an attorney. Accordingly, in all cases, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any party.

**IDAHO STATE UNIVERSITY**

**SUBJECT**

Multi-year contract for new Head Men's Basketball Coach, Ryan Looney

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section II.H.

**ALIGNMENT WITH STRATEGIC PLAN**

Single and multi-year coach contracts are a non-strategic, Board governance agenda item.

**BACKGROUND/DISCUSSION**

Idaho State University (ISU) has hired a new Head Men's Basketball Coach and requests permission to extend a 5-year fixed term contract.

**IMPACT**

The annual base salary is \$115,000. Coach Looney will also be eligible to receive an increase in compensation each fiscal year in accordance with increases as determined by the Athletic Director and University President, and approved by the Board of Trustees.

In addition, Coach Looney has the opportunity to earn the following as supplemental compensation:

- Two weeks' pay of annual salary each year the Team is the regular-season conference champion or co-champion (see Section 3.2.1)
- Two weeks' pay of annual salary each year the Coach is named Big Sky Conference Coach of the Year (see Section 3.2.2)
- Two weeks' pay of annual salary each year the Team wins the Big Sky Conference tournament or obtains an NCAA Men's Basketball Tournament berth (see Section 3.2.3)
- Up to \$5,000 based on academic achievement and behavior of Team members (see Section 3.2.4)

<u>Team APR Ranking</u>	<u>Incentive Pay</u>
970-979	\$ 2,000.00
980-989	\$ 2,500.00
990-999	\$ 3,000.00
1,000	\$ 5,000.00

- \$6,000 for winning twenty (20) or more regular season Men's Basketball games (see Section 3.2.5)
- Up to \$92,000 for advancing in the NCAA Men's Basketball Tournament (see Section 3.2.6)

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

Round 1	64 Teams	1 <sup>st</sup> win	\$ 5,000
Round 2	32 Teams	2 <sup>nd</sup> win	\$10,000
Round 3	16 Teams	3 <sup>rd</sup> win	\$12,000
Round 4	8 Teams	4 <sup>th</sup> win	\$15,000
Round 5	4 Teams	5 <sup>th</sup> win	\$20,000
Round 6	2 Teams	6 <sup>th</sup> win	\$30,000

- Up to \$20,000 for advancing in the NIT Men's Basketball Post-Season Tournament (see Section 3.2.7)

Round 1	32 Teams	1 <sup>st</sup> win	\$2,000
Round 2	16 Teams	2 <sup>nd</sup> win	\$3,000
Round 3	8 Teams	3 <sup>rd</sup> win	\$4,000
Round 4	4 Teams	4 <sup>th</sup> win	\$5,000
Round 5	2 Teams	5 <sup>th</sup> win	\$6,000

- \$15,000 for participation in media programs and public appearances (see Section 3.2.8)

The maximum potential annual compensation is \$245,000.00, excluding revenue from youth summer camps.

If Coach Looney terminates the contract for convenience, Coach shall pay to ISU, as liquidated damages and not a penalty, the following sum: \$100,000.00 if termination occurs within one year of the contract commencement date, \$75,000.00 if termination occurs within two years of the contract commencement date, \$50,000.00 if termination occurs within three years of the contract commencement date, and \$25,000.00 anytime thereafter prior to the expiration date. The liquidated damages shall be due and payable within twenty (20) days of the effective date of the termination, and any unpaid amount shall bear simple interest at a rate eight (8) percent per annum until paid. (see Section 5.3.3)

Coach Looney is also eligible for the Courtesy Car program, whereby local dealers provide courtesy vehicles for use by various coaches. The Idaho Department of Administration Risk Management Program insures the courtesy vehicles for business use, and the coach is required to provide personal, non-owned car coverage pursuant to Board policy II.F.2.b.vi.

- Attachment 4 – Liquidated Damages
- Attachment 5 – 4-year History of APR/national average APR
- Attachment 6 – ISU Men's Basketball Coaching Staff

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

**STAFF COMMENTS AND RECOMMENDATIONS**

The proposed coach employment agreement requires Board approval under Board Policy II.H. because the term of the contract is longer than three years. The maximum potential annual compensation for the contract (base compensation plus bonuses) is \$245,000. Compared to other Big Sky conference coaches, the base salary for Ryan Looney is lowest in the conference.

Liquidated damages are included in the contract at \$100,000 for the first year of the contract. Compared to other Big Sky conference coaches, this amount is on the higher end of liquidated damages.

Staff recommends approval.

**BOARD ACTION**

I move to approve the request by Idaho State University to extend the multi-year employment contract with Ryan Looney as Men's Basketball Coach as described in Attachment 1, for a fixed-term effective July 1, 2019 and expiring May 5, 2024.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**IDAHO STATE UNIVERSITY MEN'S BASKETBALL HEAD COACH MULTI-YEAR  
CONTRACT**

(Template adopted by Idaho State Board of Education, \_\_\_\_\_, 2018)

**EMPLOYMENT AGREEMENT**

This Employment Agreement (Agreement) is entered into by and between IDAHO STATE UNIVERSITY (University), and RYAN LOONEY(Coach).

ARTICLE 1

1.1. Employment. Subject to the terms and conditions of this Agreement, the University shall employ Coach as the head coach of its intercollegiate Men's Basketball Team (Team). Coach represents and warrants that Coach is fully qualified to serve, and is available for employment, in this capacity.

1.2. Reporting Relationship. Coach shall report and be responsible directly to the University's Athletic Director (Director) or the Director's designee. Coach shall abide by the reasonable instructions of Director or the Director's designee and shall confer with the Director or the Director's designee on all administrative and technical matters. Coach shall also be under the general supervision of the University's Chief Executive Officer (Chief Executive Officer).

1.3. Duties. Coach shall manage and supervise the Team and shall perform such other duties in the University's athletic program as the Director may assign and as may be described elsewhere in this Agreement. The University shall have the right, at any time, to reassign Coach to duties at the University other than as head coach of the Team, provided that Coach's compensation and benefits shall not be affected by any such reassignment, except that the opportunity to earn supplemental compensation as provided in Sections 3.2.1 through 3.2.10 shall cease.

ARTICLE 2

2.1. Term. This Agreement is for a fixed-term appointment of (5) years, commencing on July 1, 2019 and terminating, without further notice to Coach, on May 5<sup>th</sup>, 2024 unless sooner terminated in accordance with other provisions of this Agreement.

2.2. Extension or Renewal. This Agreement is renewable solely upon an offer from the University and an acceptance by Coach, both of which must be in writing and signed by the parties. Any renewal is subject to the prior approval of the Idaho State Board of Education (Board). This Agreement in no way grants to Coach a claim to tenure in employment, nor shall Coach's service pursuant to this Agreement count in any way toward tenure at the University.

## ARTICLE 3

3.1 Regular Compensation.

3.1.1 In consideration of Coach's services and satisfactory performance of this Agreement, the University shall provide to Coach:

- a) An annual salary of \$115,000 per year, payable in biweekly installments in accordance with normal University procedures, and such salary increases as may be determined appropriate by the Director and Chief Executive Officer and approved by the Board;
- b) The opportunity to receive such employee benefits as the University provides generally to non-faculty exempt employees, provided that Coach qualifies for such benefits by meeting all applicable eligibility requirements (except that in accordance with Board Policy II.H.6.b.ii, University and Coach agree that Coach shall not accrue any annual leave hours, and may take leave (other than sick leave) only with prior written approval of the Director); and
- c) The opportunity to receive such employee benefits as the University's Department of Athletics (Department) provides generally to its employees of a comparable level. Coach hereby agrees to abide by the terms and conditions, as now existing or hereafter amended, of such employee benefits.

Coach understands and agrees that financial conditions may require the Chief Executive Officer, in the Chief Executive Officer's discretion, to institute furloughs or to take such other actions consistent with Board policy as the Chief Executive Officer may determine to be necessary to meet such challenges. In the event of a furlough or other action, the actual salary paid to Coach may be less than the salary stated in Section 3.1.1(a) above.

## 3.2 Supplemental Compensation

3.2.1. Each year the Team is the conference champion or co-champion, and if Coach continues to be employed as University's's head men's basketball coach as of the ensuing May 1st, the University shall pay to Coach supplemental compensation in an amount equal to two weeks (2/52) of Coach's Annual Salary during the fiscal year in which the championship or eligibility are achieved. The University shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.

3.2.2 Each year the Coach is named as the Big Sky Conference Coach of the Year, and if Coach continues to be employed as University's head men's basketball coach as of the ensuing May 1st, the University shall pay Coach supplemental compensation in an amount equal to two weeks (2/52) of Coach's Annual Salary in effect on the date that Coach is named Big Sky Conference Coach of the Year. The University shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.

3.2.3 Each year the Team either wins the Big Sky Conference Tournament or obtains an NCAA Men's Basketball Tournament berth, and if Coach continues to be employed as University's head men's basketball coach as of the ensuing May 1<sup>st</sup>, the University shall pay to Coach supplemental compensation in an amount equal to two weeks (2/52) of Coach's Annual Salary during the fiscal year in which the post-season participation is achieved. The University shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.

3.2.4 Each year Coach shall be eligible to receive supplemental compensation in an amount up to \$5,000 based on the academic achievement and behavior of Team members. The determination of whether Coach will receive such supplemental compensation and the timing of the payment(s) shall be at the discretion of the Chief Executive Officer in consultation with the Director. The determination shall be based on the following factors: the Academic Progress Rate set by the Board, grade point averages; difficulty of major course of study; honors such as scholarships, designation as Academic All-American, and conference academic recognition; progress toward graduation for all athletes, but particularly those who entered the University as academically at-risk students; the conduct of Team members on the University campus, at authorized University activities, in the community, and elsewhere. Any such supplemental compensation paid to Coach shall be accompanied with a detailed justification for the supplemental compensation based on the factors listed above and such justification shall be separately reported to the Board as a document available to the public under the Idaho Public Records Act.

Team APR:	Incentive Pay Up To:
970-979	\$2,000
980-989	\$2,500
990-999	\$3,000
1,000	\$5,000

3.2.5 Each year Coach shall be eligible to receive supplemental compensation in an amount up to \$6,000.00 for winning twenty (20) or more regular season men's basketball games, provided that Coach continues to be employed as University's men's basketball coach as of the ensuing May 1<sup>st</sup>.

3.2.6 Each year the Team advances in the NCAA Men's Basketball Tournament, and if Coach continues to be employed as University's head men's

basketball coach as of the ensuing May 1<sup>st</sup>, the University shall pay Coach supplemental compensation in an amount equal to the following:

Round 1	64 Teams	1 <sup>st</sup> win	\$ 5,000
Round 2	32 Teams	2 <sup>nd</sup> win	\$10,000
Round 3	16 Teams	3 <sup>rd</sup> win	\$12,000
Round 4	8 Teams	4 <sup>th</sup> win	\$15,000
Round 5	4 Teams	5 <sup>th</sup> win	\$20,000
Round 6	2 Teams	6 <sup>th</sup> win	\$30,000

Possible total national championship winner computation bonus is \$92,000.00. The University shall determine the appropriate manner in which it shall pay Coach any supplemental compensation.

3.2.7 Each year the Team advances in the NIT Men’s Basketball Post-Season Tournament, and if Coach continues to be employed as University’s head men’s basketball coach as of the ensuing May 1<sup>st</sup>, the University shall pay Coach supplemental compensation in an amount equal to the following:

Round 1	32 Teams	1 <sup>st</sup> win	\$2,000
Round 2	16 Teams	2 <sup>nd</sup> win	\$3,000
Round 3	8 Teams	3 <sup>rd</sup> win	\$4,000
Round 4	4 Teams	4 <sup>th</sup> win	\$5,000
Round 5	2 Teams	5 <sup>th</sup> win	\$6,000

Possible bonus compensation total for winning NIT Mens’s Basketball Post-Season Tournament \$20,000.00. The University shall determine the appropriate manner in which it shall pay Coach any supplemental compensation.

3.2.8 Coach shall receive the sum of \$15,000.00 from the University or the University's designated media outlet(s) or a combination thereof each year during the term of this Agreement in compensation for participation in media programs and public appearances (Programs). Coach's right to receive such a payment shall vest on the date of the Team's last regular season or post-season competition, whichever occurs later. The University shall determine the appropriate manner in which it shall pay Coach any supplemental compensation.

3.2.9 **(SUMMER CAMP—OPERATED BY COACH)** Coach may operate a summer youth boys basketball camp at the University (College) under the following conditions:

- a) The summer youth camp operation reflects positively on the University (College) and the Department;

- b) The summer youth camp is operated by Coach directly or through a private enterprise owned and managed by Coach. Coach shall not use University personnel, equipment, or facilities without the prior written approval of the Director;
- c) Assistant coaches at the University are given priority when Coach or the private enterprise selects coaches to participate;
- d) Coach complies with all NCAA, Conference, and University (College) rules and regulations related, directly or indirectly, to the operation of summer youth camps;
- e) Coach or the private enterprise enters into a contract with University and Chartwell's for all campus goods and services required by the camp.
- f) Coach or private enterprise pays for use of University facilities.
- g) Within thirty days of the last day of the summer youth camp(s), Coach shall submit to the Director a preliminary "Camp Summary Sheet" containing financial and other information related to the operation of the camp. Within ninety days of the last day of the summer youth camp(s), Coach shall submit to Director a final accounting and "Camp Summary Sheet." A copy of the "Camp Summary Sheet" is attached to this Agreement as Exhibit A.
- h) Coach or the private enterprise shall provide proof of liability insurance as follows: (1) liability coverage: spectator and staff--\$1 million; (2) catastrophic coverage: camper and staff--\$1 million maximum coverage with \$100 deductible;
- i) To the extent permitted by law, Coach or the private enterprise shall defend and indemnify the State of Idaho, the University and the Board against any claims, damages, or liabilities arising out of the operation of the summer youth camp(s)
- j) All employees of the summer youth camp(s) shall be employees of Coach or the private enterprise and not the University while engaged in camp activities. Coach and all other University employees involved in the operation of the camp(s) shall be on annual leave status or leave without pay during the days the camp is in operation. Coach or private enterprise shall provide workers' compensation insurance in accordance with Idaho law and comply in all respects with all federal and state wage and hour laws

In the event of termination of this Agreement, suspension, or reassignment, University (College) shall not be under any obligation to permit a summer youth camp to be held by Coach after the effective date of such termination, suspension, or reassignment, and the University (College) shall be released from all obligations relating thereto.

3.2.10 Coach agrees that the University has the exclusive right to select footwear, apparel and/or equipment for the use of its student-athletes and staff, including Coach, during official practices and games and during times when Coach or the Team is being filmed by motion picture or video camera or posing for photographs in their capacity as representatives of University. Coach recognizes that the University is negotiating or has entered into an agreement with Adidas to supply the University with athletic footwear, apparel and/or equipment. Coach agrees that, upon the University's reasonable request, Coach will consult with appropriate parties concerning an Adidas product's design or performance, shall act as an instructor at a clinic sponsored in whole or in part by Adidas, or give a lecture at an event sponsored in whole or in part by Adidas, or make other educationally related appearances as may be reasonably requested by the University. Notwithstanding the foregoing sentence, Coach shall retain the right to decline such appearances as Coach reasonably determines to conflict with or hinder Coach's duties and obligations as head men's basketball coach. In order to avoid entering into an agreement with a competitor of Adidas, Coach shall submit all outside consulting agreements to the University for review and approval prior to execution. Coach shall also report such outside income to the University in accordance with NCAA rules. Coach further agrees that Coach will not endorse any athletic footwear, apparel and/or equipment products, including Adidas, and will not participate in any messages or promotional appearances which contain a comparative or qualitative description of athletic footwear, apparel or equipment products.

3.3 General Conditions of Compensation. All compensation provided by the University to Coach is subject to deductions and withholdings as required by law or the terms and conditions of any fringe benefit in which Coach participates. However, if any fringe benefit is based in whole or in part upon the compensation provided by the University to Coach, such fringe benefit shall be based only on the compensation provided pursuant to Section 3.1.1, except to the extent required by the terms and conditions of a specific fringe benefit program.

#### ARTICLE 4

4.1. Coach's Specific Duties and Responsibilities. In consideration of the compensation specified in this Agreement, Coach, in addition to the obligations set forth elsewhere in this Agreement, shall:

4.1.1. Devote Coach's full time and best efforts to the performance of Coach's duties under this Agreement;

4.1.2. Develop and implement programs and procedures with respect to the evaluation, recruitment, training, and coaching of Team members which enable them to compete successfully and reasonably protect their health, safety, and well-being;

4.1.3. Observe and uphold all academic standards, requirements, and policies of the University and encourage Team members to perform to their highest academic potential and to graduate in a timely manner; and

4.1.4. Know, recognize, and comply with all applicable laws, and with the policies, rules and regulations of the University, the Board, the conference, and the NCAA; supervise and take appropriate steps to ensure that Coach's assistant coaches, any other employees for whom Coach is administratively responsible, and the members of the Team know, recognize, and comply with all such laws, policies, rules and regulations; and immediately report to the Director and to the Department's Director of Compliance if Coach has reasonable cause to believe that any person or entity, including without limitation representatives of the University's athletic interests, has violated or is likely to violate any such laws, policies, rules or regulations. Coach shall cooperate fully with the University and Department at all times. The names or titles of employees whom Coach supervises are attached as Exhibit B. The applicable laws, policies, rules, and regulations include: (a) Board policies; (b) University's Policies and Procedures; (c) University's Administrative Procedures Manual; (d) the policies of the Department; (e) NCAA rules and regulations; and (f) the rules and regulations of the Big Sky conference of which the University is a member.

4.2 Outside Activities. Coach shall not undertake any business, professional or personal activities, or pursuits that would prevent Coach from devoting Coach's full time and best efforts to the performance of Coach's duties under this Agreement, that would otherwise detract from those duties in any manner, or that, in the opinion of the University, would reflect adversely upon the University or its athletic program. Subject to the terms and conditions of this Agreement, Coach may, with the prior written approval of the Director, who may consult with the Chief Executive Officer, enter into separate arrangements for outside activities and endorsements which are consistent with Coach's obligations under this Agreement. Coach may not use the University's name, logos, or trademarks in connection with any such arrangements without the prior written approval of the Director and the Chief Executive Officer.

4.3 NCAA Rules. In accordance with NCAA rules, Coach shall obtain prior written approval from the University's Chief Executive Officer for all athletically related income and benefits from sources outside the University and shall report the source and amount of all such income and benefits to the University's Chief Executive Officer whenever reasonably requested, but in no event less than annually before the close of business on June 30th of each year or the last regular University work day preceding June 30th. The report shall be in a format reasonably satisfactory to University. In no event shall Coach accept or receive directly or indirectly any monies, benefits, or gratuities whatsoever from any person, association, corporation, University booster club, University alumni association, University foundation, or other benefactor, if the

acceptance or receipt of the monies, benefits, or gratuities would violate applicable law or the policies, rules, and regulations of the University, the Board, the conference, or the NCAA .

4.4 Hiring Authority. Coach shall have the responsibility and the sole authority to recommend to the Director the hiring and termination of assistant coaches for the Team, but the decision to hire or terminate an assistant coach shall be made by the Director and shall, when necessary or appropriate, be subject to the approval of Chief Executive Officer and the Board.

4.5 Scheduling. Coach shall consult with, and may make recommendations to, the Director or the Director's designee with respect to the scheduling of Team competitions, but the final decision shall be made by the Director or the Director's designee.

4.6 Other Coaching Opportunities. Coach shall not, under any circumstances, interview for, negotiate for, or accept employment as a coach at any other institution of higher education or with any professional sports team, requiring performance of duties prior to the expiration of this Agreement, without the prior approval of the Director. Such approval shall not unreasonably be withheld.

4.7 Disclosure of Serious Misconduct. Coach warrants that prior to signing this Agreement, Coach has disclosed and will continue to disclose if Coach has been accused, investigated, convicted of or pled guilty or no contest to a felony or misdemeanor involving serious misconduct, or has been subject to official institution or athletic department disciplinary action at any time at any prior institution where Coach was employed. "Serious misconduct" is defined as any act of sexual violence, domestic violence, dating violence, stalking, sexual exploitation, or any assault that employs the use of a deadly weapon or causes serious bodily injury.

4.8 Media Obligations. Coach must fully participate in media programs and public appearances (Programs) through the date of the Team's last regular season or post-season competition. Agreements requiring Coach to participate in Programs related to Coach's duties as an employee of University are the property of the University . The University shall have the exclusive right to negotiate and contract with all producers of media productions and all parties desiring public appearances by Coach. Coach agrees to cooperate with the University in order for the Programs to be successful and agrees to provide Coach's services to and perform on the Programs and to cooperate in their production, broadcasting, and telecasting. It is understood that neither Coach nor any assistant coaches shall appear without the prior written approval of the Director on any competing radio or television program (including but not limited to a coach's show, call-in show, or interview show) or a regularly scheduled news segment, except that this prohibition shall not apply to routine news media interviews for which no compensation is received. Without the prior written approval of the Director, Coach shall not appear in any commercial endorsements which are broadcast on radio or television that conflict with those broadcast on the University's designated media outlets.

ARTICLE 5

5.1 Termination of Coach for Cause. The University may, in its discretion, suspend Coach from some or all of Coach's duties, temporarily or permanently, and with or without pay; reassign Coach to other duties; or terminate this Agreement at any time for good or adequate cause, as those terms are defined in applicable rules and regulations.

5.1.1 In addition to the definitions contained in applicable rules and regulations, University and Coach hereby specifically agree that the following shall constitute good or adequate cause for suspension, reassignment, or termination of this Agreement:

- a) A deliberate or major violation of Coach's duties under this Agreement or the refusal or unwillingness of Coach to perform such duties in good faith and to the best of Coach's abilities;
- b) The failure of Coach to remedy any violation of any of the terms of this Agreement within 30 days after written notice from the University ;
- c) A deliberate or major violation by Coach of any applicable law or the policies, rules or regulations of the University, the Board, the conference or the NCAA, including but not limited to any such violation which may have occurred during the employment of Coach at another NCAA or NAIA member institution;
- d) Ten (10) working days' absence of Coach from duty without the University's consent;
- e) Any conduct of Coach that constitutes moral turpitude or that would, in the University's judgment, reflect adversely on the University or its athletic programs;
- f) The failure of Coach to represent the University and its athletic programs positively in public and private forums;
- g) The failure of Coach to fully and promptly cooperate with the NCAA or the University in any investigation of possible violations of any applicable law or the policies, rules or regulations of the University, the Board, the conference, or the NCAA;
- h) The failure of Coach to report a known violation of any applicable law or the policies, rules or regulations of the University, the Board, the conference, or the NCAA , by one of Coach's assistant coaches, any

other employees for whom Coach is administratively responsible, or a member of the Team; or

- i) A violation of any applicable law or the policies, rules or regulations of the University, the Board, the conference, or the NCAA , by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team if Coach knew or should have known of the violation and could have prevented it by ordinary supervision.
- j) The failure of Coach to disclose Serious Misconduct as required in Section 4.7 of this Agreement.

5.1.2 Suspension, reassignment, or termination for good or adequate cause shall be effectuated by the University as follows: before the effective date of the suspension, reassignment, or termination, the Director or the Director's designee shall provide Coach with notice, which notice shall be accomplished in the manner provided for in this Agreement and shall include the reason(s) for the contemplated action. Coach shall then have an opportunity to respond. After Coach responds or fails to respond, University shall notify Coach whether, and if so when, the action will be effective.

5.1.3 In the event of any termination for good or adequate cause, the University's obligation to provide compensation and benefits to Coach, whether direct, indirect, supplemental or collateral, shall cease as of the date of such termination, and the University shall not be liable for the loss of any collateral business opportunities or other benefits, perquisites, or income resulting from outside activities or from any other sources.

5.1.4 If found in violation of NCAA regulations, Coach shall, in addition to the provisions of Section 5.1, be subject to disciplinary or corrective action as set forth in the provisions of the NCAA enforcement procedures. This Section applies to violations occurring at the University or at previous institutions at which Coach was employed.

## 5.2 Termination of Coach for Convenience of University.

5.2.1 At any time after commencement of this Agreement, University , for its own convenience, may terminate this Agreement by giving ten (10) days prior written notice to Coach.

5.2.2 In the event that University terminates this Agreement for its own convenience, University shall be obligated to pay Coach, as liquidated damages and not a penalty, the salary set forth in Section 3.1.1(a), excluding all deductions required by law, on the regular paydays of University until the term of this Agreement ends or until Coach obtains reasonably comparable employment, whichever occurs first. In the event Coach obtains other employment after such termination, then the amount of compensation the University pays will be reduced by the amount of compensation paid

Coach as a result of such other employment, such adjusted compensation to be calculated for each University pay-period by reducing the gross salary set forth in Section 3.1.1(a) (before deductions required by law) by the gross compensation paid to Coach under the other employment, then subtracting from this adjusted gross compensation deductions according to law. In addition, Coach will be entitled to continue with the University health insurance plan and group life insurance as if Coach remained a University employee until the term of this Agreement ends or until Coach obtains reasonably comparable employment or any other employment providing Coach with a reasonably comparable health plan and group life insurance, whichever occurs first. Coach shall be entitled to no other compensation or fringe benefits, except as otherwise provided herein or required by law. Coach specifically agrees to inform University within ten business days of obtaining other employment, and to advise University of all relevant terms of such employment, including without limitation the nature and location of employment, salary, other compensation, health insurance benefits, life insurance benefits, and other fringe benefits. Failure to so inform and advise University shall constitute a material breach of this Agreement and University's obligation to pay compensation under this provision shall end. Coach further agrees to repay to University all compensation received from the University after the date other employment is obtained.

5.2.3 The parties have both been represented by, or had the opportunity to consult with, legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that Coach may lose certain benefits, supplemental compensation, or outside compensation relating to employment with University, which damages are extremely difficult to determine with certainty. The parties further agree that the payment of such liquidated damages by University and the acceptance thereof by Coach shall constitute adequate and reasonable compensation to Coach for the damages and injury suffered by Coach because of such termination by University. The liquidated damages are not, and shall not be construed to be, a penalty.

5.3 Termination by Coach for Convenience.

5.3.1 Coach recognizes that Coach's promise to work for University\_ for the entire term of this Agreement is of the essence of this Agreement. Coach also recognizes that the University is making a highly valuable investment in Coach's employment by entering into this Agreement and that its investment would be lost were Coach to resign or otherwise terminate employment with the University before the end of the Agreement term.

5.3.2 Coach may terminate this Agreement for convenience during its term by giving prior written notice to the University. Termination shall be effective ten (10) days after notice is given to the University.

5.3.3 If Coach terminates this Agreement for convenience at any time, all obligations of the University shall cease as of the effective date of the termination. If Coach terminates this Agreement for convenience, Coach shall pay to the University, as liquidated damages and not a penalty, the following sum: \$100,000.00 if termination occurs within one year of the contract commencement date, \$75,000.00 if termination occurs within two years of the contract commencement date, \$50,000.00 if termination occurs within three years of the contract commencement date, and \$25,000.00 anytime thereafter prior to the expiration date. The liquidated damages shall be due and payable within twenty (20) days of the effective date of the termination, and any unpaid amount shall bear simple interest at a rate eight (8) percent per annum until paid.

5.3.4 The parties have both been represented by legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that the University will incur administrative and recruiting costs in obtaining a replacement for Coach, in addition to potentially increased compensation costs if Coach terminates this Agreement for convenience, which damages are extremely difficult to determine with certainty. The parties further agree that the payment of such liquidated damages by Coach and the acceptance thereof by University shall constitute adequate and reasonable compensation to University for the damages and injury suffered by it because of such termination by Coach. The liquidated damages are not, and shall not be construed to be, a penalty. This Section 5.3.4 shall not apply if Coach terminates this Agreement because of a material breach by the University.

5.3.5 Except as provided elsewhere in this Agreement, if Coach terminates this Agreement for convenience, Coach shall forfeit to the extent permitted by law the right to receive all supplemental compensation and other payments.

5.4 Termination due to Disability or Death of Coach.

5.4.1 Notwithstanding any other provision of this Agreement, this Agreement shall terminate automatically if Coach becomes totally or permanently disabled as defined by the University's disability insurance carrier, becomes unable to perform the essential functions of the position of head coach, or dies.

5.4.2 If this Agreement is terminated because of Coach's death, Coach's salary and all other benefits shall terminate as of the last day worked, except that Coach's personal representative or other designated beneficiary shall be paid all compensation due or unpaid and death benefits, if any, as may be contained in any fringe benefit plan now in force or hereafter adopted by the University and due to Coach's estate or beneficiaries thereunder.

5.4.3 If this Agreement is terminated because Coach becomes totally or permanently disabled as defined by the University's disability insurance carrier, or becomes unable to perform the essential functions of the position of head coach, all salary

and other benefits shall terminate, except that Coach shall be entitled to receive any compensation due or unpaid and any disability-related benefits to which Coach is entitled by virtue of employment with the University.

5.5 Interference by Coach. In the event of termination, suspension, or reassignment, Coach agrees that Coach will not interfere with the University's student-athletes or otherwise obstruct the University's ability to transact business or operate its intercollegiate athletics program.

5.6 No Liability. The University shall not be liable to Coach for the loss of any collateral business opportunities or any other benefits, perquisites or income from any sources that may ensue as a result of any termination of this Agreement by either party or due to death or disability or the suspension or reassignment of Coach, regardless of the circumstances.

5.7 Waiver of Rights. Because Coach is receiving a multi-year contract and the opportunity to receive supplemental compensation and because such contracts and opportunities are not customarily afforded to University employees, if the University suspends or reassigns Coach, or terminates this Agreement for good or adequate cause or for convenience, Coach shall have all the rights provided for in this Agreement but hereby releases the University from compliance with the notice, appeal, and similar employment-related rights provided for in Board policy, IDAPA 08.01.01 et seq., and the University Policies and Procedures.

## ARTICLE 6

6.1 Board Approval This Agreement shall not be effective unless approved by the Board and executed by both parties as set forth below. In addition, the payment of any compensation pursuant to this Agreement shall be subject to the approval of the Board, the Chief Executive Officer, and the Director; the sufficiency of legislative appropriations; the receipt of sufficient funds in the account from which such compensation is paid; and the Board policies and University's rules regarding financial exigency.

6.2 University Property. All personal property (excluding vehicle(s) provided through the Courtesy Car), material, and articles of information, including, without limitation, keys, credit cards, personnel records, recruiting records, team information, films, statistics or any other personal property, material, or data, furnished to Coach by the University or developed by Coach on behalf of the University or at the University's direction or for the University's use or otherwise in connection with Coach's employment hereunder are and shall remain the sole property of the University. Within twenty-four (24) hours of the expiration of the term of this Agreement or its earlier termination as provided herein, Coach shall immediately cause any such personal property, materials, and articles of information in Coach's possession or control to be delivered to the Director.

6.3 Assignment. Neither party may assign its rights or delegate its obligations under this Agreement without the prior written consent of the other party.

6.4 Waiver. No waiver of any default in the performance of this Agreement shall be effective unless in writing and signed by the waiving party. The waiver of a particular breach in the performance of this Agreement shall not constitute a waiver of any other or subsequent breach. The resort to a particular remedy upon a breach shall not constitute a waiver of any other available remedies.

6.5 Severability. If any provision of this Agreement is determined to be invalid or unenforceable, the remainder of the Agreement shall not be affected and shall remain in effect.

6.6 Governing Law. This Agreement shall be subject to and construed in accordance with the laws of the state of Idaho. Any action based in whole or in part on this Agreement shall be brought in the courts of the state of Idaho.

6.7 Oral Promises. Oral promises of an increase in annual salary or of any supplemental or other compensation shall not be binding upon the University.

6.8 Force Majeure. Any prevention, delay or stoppage due to strikes, lockouts, labor disputes, acts of God, inability to obtain labor or materials or reasonable substitutes therefor, governmental restrictions, governmental regulations, governmental controls, enemy or hostile governmental action, civil commotion, fire or other casualty, and other causes beyond the reasonable control of the party obligated to perform (including financial inability), shall excuse the performance by such party for a period equal to any such prevention, delay or stoppage.

6.9 Confidentiality. This Agreement and all documents and reports Coach is required to produce under this Agreement may be released and made available to the public by the University.

6.10 Notices. Any notice under this Agreement shall be in writing and be delivered in person or by public or private courier service (including U.S. Postal Service Express Mail) or certified mail with return receipt requested. All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing:

the <u>University (College)</u> :	Director of Athletics 921 So. 8 <sup>th</sup> Ave. Stop 8173 Pocatello, ID 83209	with a copy to:	Chief
Executive Officer	921 So. 8 <sup>th</sup> Ave. Stop 8310 Pocataello, ID 83209		

Coach: Ryan Looney  
Last known address on file with  
University's Human Resource Services

Any notice shall be deemed to have been given on the earlier of: (a) actual delivery or refusal to accept delivery, (b) the date of mailing by certified mail, or (c) the day facsimile delivery is verified. Actual notice, however and from whomever received, shall always be effective.

6.11 Headings. The headings contained in this Agreement are for reference purposes only and shall not in any way affect the meaning or interpretation hereof.

6.12 Binding Effect. This Agreement is for the benefit only of the parties hereto and shall inure to the benefit of and bind the parties and their respective heirs, legal representatives, successors and assigns.

6.13 Non-Use of Names and Trademarks. Coach shall not, without the University's prior written consent in each case, use any name, trade name, trademark, or other designation of the University (including contraction, abbreviation or simulation), except in the course and scope of official University duties.

6.14 No Third Party Beneficiaries. There are no intended or unintended third party beneficiaries to this Agreement.

6.15 Entire Agreement; Amendments. This Agreement constitutes the entire agreement of the parties and supersedes all prior agreements and understandings with respect to the same subject matter. No amendment or modification of this Agreement shall be effective unless in writing, signed by both parties, and approved by the Board if required under Board Policy II.H.

6.16 Opportunity to Consult with Attorney. Coach acknowledges that Coach has had the opportunity to consult and review this Agreement with an attorney. Accordingly, in all cases, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any party.

~~(MODEL ATHLETICS MULTI-YEAR CONTRACT)~~ **IDAHO STATE UNIVERSITY MEN'S BASKETBALL HEAD COACH MULTI-YEAR CONTRACT**  
 (~~template~~ Template adopted by Idaho State Board of Education, \_\_\_\_\_, 2018)

### EMPLOYMENT AGREEMENT

This Employment Agreement (Agreement) is entered into by and between \_\_\_\_\_ ~~(University (College))~~ **IDAHO STATE UNIVERSITY (University)**, and \_\_\_\_\_ **RYAN LOONEY** (Coach).

#### ARTICLE 1

1.1. Employment. Subject to the terms and conditions of this Agreement, the University ~~(College)~~ shall employ Coach as the head coach of its intercollegiate ~~(Sport) Men's Basketball t~~ Team (Team) ~~(or Director of Athletics)~~. Coach ~~(Director)~~ represents and warrants that Coach is fully qualified to serve, and is available for employment, in this capacity.

1.2. Reporting Relationship. Coach shall report and be responsible directly to the University's ~~(College)'s~~ Athletic Director (Director) or the Director's designee. Coach shall abide by the reasonable instructions of Director or the Director's designee and shall confer with the Director or the Director's designee on all administrative and technical matters. Coach shall also be under the general supervision of the University's (College)'s Chief Executive Officer (Chief Executive Officer).

1.3. Duties. Coach shall manage and supervise the Team and shall perform such other duties in the University's ~~(College)'s~~ athletic program as the Director may assign and as may be described elsewhere in this Agreement. The University ~~(College)~~ shall have the right, at any time, to reassign Coach to duties at the University ~~(College)~~ other than as head coach of the Team, provided that Coach's compensation and benefits shall not be affected by any such reassignment, except that the opportunity to earn supplemental compensation as provided in Sections 3.2.1 through 3.2.10 (depending on supplemental pay provisions used) shall cease.

#### ARTICLE 2

2.1. Term. This Agreement is for a fixed-term appointment of ~~(5)~~ years, commencing on ~~April 29<sup>th</sup>~~ July 1, 2019 \_\_\_\_\_ and terminating, without further notice to Coach, on \_\_\_\_\_ May 5<sup>th</sup>, 2024 unless sooner terminated in accordance with other provisions of this Agreement.

2.2. Extension or Renewal. This Agreement is renewable solely upon an offer from the University ~~(College)~~ and an acceptance by Coach, both of which must be in

writing and signed by the parties. Any renewal is subject to the prior approval of the Idaho State Board of Education (Board). This Agreement in no way grants to Coach a claim to tenure in employment, nor shall Coach's service pursuant to this Agreement count in any way toward tenure at the University ~~(College)~~.

### ARTICLE 3

#### 3.1 Regular Compensation.

3.1.1 In consideration of Coach's services and satisfactory performance of this Agreement, the University ~~(College)~~ shall provide to Coach:

- a) An annual salary of \$115,000 per year, payable in biweekly installments in accordance with normal University ~~(College)~~ procedures, and such salary increases as may be determined appropriate by the Director and Chief Executive Officer and approved by the Board;
- b) The opportunity to receive such employee benefits as the University ~~(College)~~ provides generally to non-faculty exempt employees, provided that Coach qualifies for such benefits by meeting all applicable eligibility requirements- (except that in accordance with Board Policy II.H.6.b.ii, University ~~(College)~~ and Coach agree that Coach shall not accrue any annual leave hours, and may take leave (other than sick leave) only with prior written approval of the Director); and
- c) The opportunity to receive such employee benefits as the University's ~~(College)'s~~ Department of Athletics (Department) provides generally to its employees of a comparable level. Coach hereby agrees to abide by the terms and conditions, as now existing or hereafter amended, of such employee benefits.

Coach understands and agrees that financial conditions may require the Chief Executive Officer, in the Chief Executive Officer's discretion, to institute furloughs or to take such other actions consistent with Board policy as the Chief Executive Officer may determine to be necessary to meet such challenges. In the event of a furlough or other action, the actual salary paid to Coach may be less than the salary stated in Section 3.1.1(a) above.

#### 3.2 Supplemental Compensation

3.2.1. Each year the Team is the conference champion or co-champion ~~and also becomes eligible for a (bowl game pursuant to NCAA Division I guidelines or post-~~

~~season tournament or post-season playoffs~~), and if Coach continues to be employed as University's ~~(College)~~'s head ~~(Sport)~~men's basketball coach as of the ensuing ~~July-May~~ 1st, the University ~~(College)~~ shall pay to Coach supplemental compensation in an amount equal to ~~(amount or computation)two weeks (2/52)~~ of Coach's Annual Salary during the fiscal year in which the championship ~~and or(bowl or other post-season)~~ eligibility are achieved. The University ~~(College)~~ shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.

3.2.2 Each year the ~~Team is ranked in the top 25 in the (national rankings of sport's division)~~Coach is named as the Big Sky Conference Coach of the Year, and if Coach continues to be employed as University ~~(College)~~'s head ~~men's basketball(Sport)~~ coach as of the ensuing ~~July-May~~ 1st, the University ~~(College)~~ shall pay Coach supplemental compensation in an amount equal to ~~(amount or computation)two weeks (2/52)~~ of Coach's Annual Salary in effect on the date ~~of the final poll~~that Coach is named ~~Big Sky Conference Coach of the Year~~. The University ~~(College)~~ shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.

3.2.3 Each year the Team either wins the Big Sky Conference Tournament or obtains an NCAA Men's Basketball Tournament berth, and if Coach continues to be employed as University's head men's basketball coach as of the ensuing May 1<sup>st</sup>, the University shall pay to Coach supplemental compensation in an amount equal to two weeks (2/52) of Coach's Annual Salary during the fiscal year in which the post-season participation is achieved. The University shall determine the appropriate manner in which it shall pay Coach any such supplemental compensation.

3.2.34 Each year Coach shall be eligible to receive supplemental compensation in an amount up to ~~(amount or computation)\$5,000~~ based on the academic achievement and behavior of Team members. The determination of whether Coach will receive such supplemental compensation and the timing of the payment(s) shall be at the discretion of the Chief Executive Officer in consultation with the Director. The determination shall be based on the following factors: the Academic Progress Rate set by the Board, grade point averages; difficulty of major course of study; honors such as scholarships, designation as Academic All-American, and conference academic recognition; progress toward graduation for all athletes, but particularly those who entered the University ~~(College)~~ as academically at-risk students; the conduct of Team members on the University ~~(College)~~ campus, at authorized University ~~(College)~~ activities, in the community, and elsewhere. Any such supplemental compensation paid to Coach shall be accompanied with a detailed justification for the supplemental compensation based on the factors listed above and such justification shall be separately reported to the Board as a document available to the public under the Idaho Public Records Act.

<u>Team APR:</u>	<u>Incentive Pay Up To:</u>
<u>970-979</u>	<u>\$2,000</u>
<u>980-989</u>	<u>\$2,500</u>
<u>990-999</u>	<u>\$3,000</u>
<u>1,000</u>	<u>\$5,000</u>

3.2.45.5 Each year Coach shall be eligible to receive supplemental compensation in an amount up to ~~(amount or computation) \$6,000.00 based on the overall development of the intercollegiate (men's/women's) (Sport) program; ticket sales; fundraising; outreach by Coach to various constituency groups, including University (College) students, staff, faculty, alumni and boosters; and any other factors the Chief Executive Officer wishes to consider. The determination of whether Coach will receive such supplemental compensation and the timing of the payment(s) shall be at the discretion of the Chief Executive Officer in consultation with the Director~~ for winning twenty (20) or more regular season men's basketball games, provided that Coach continues to be employed as University's men's basketball coach as of the ensuing May 1<sup>st</sup>.

3.2.56 Each year the Team advances in the NCAA Men's Basketball Tournament, and if Coach continues to be employed as University's head men's basketball coach as of the ensuing May 1<sup>st</sup>, the University shall pay Coach supplemental compensation in an amount equal to the following:

Round 1	64 Teams	1 <sup>st</sup> win	\$ 5,000
Round 2	32 Teams	2 <sup>nd</sup> win	\$10,000
Round 3	16 Teams	3 <sup>rd</sup> win	\$12,000
Round 4	8 Teams	4 <sup>th</sup> win	\$15,000
Round 5	4 Teams	5 <sup>th</sup> win	\$20,000
Round 6	2 Teams	6 <sup>th</sup> win	\$30,000

Possible total national championship winner computation bonus is \$92,000.00. The University shall determine the appropriate manner in which it shall pay Coach any supplemental compensation.

3.2.7 Each year the Team advances in the NIT Men's Basketball Post-Season Tournament, and if Coach continues to be employed as University's head men's basketball coach as of the ensuing May 1<sup>st</sup>, the University shall pay Coach supplemental compensation in an amount equal to the following:

Round 1	32 Teams	1 <sup>st</sup> win	\$2,000
Round 2	16 Teams	2 <sup>nd</sup> win	\$3,000
Round 3	8 Teams	3 <sup>rd</sup> win	\$4,000
Round 4	4 Teams	4 <sup>th</sup> win	\$5,000
Round 5	2 Teams	5 <sup>th</sup> win	\$6,000

Possible bonus compensation total for winning NIT Mens's Basketball Post-Season Tournament \$20,000.00. The University shall determine the appropriate manner in which it shall pay Coach any supplemental compensation.

3.2.8 Coach shall receive the sum of ~~(amount or computation)~~ \$15,000.00 from the University ~~(College)~~ or the University ~~(College)~~'s designated media outlet(s) or a combination thereof each year during the term of this Agreement in compensation for participation in media programs and public appearances (Programs). Coach's right to receive such a payment shall vest on the date of the Team's last regular season or post-season competition, whichever occurs later. ~~This sum shall be paid (terms or conditions of payment). The University shall determine the appropriate manner in which it shall pay Coach any supplemental compensation.~~

~~3.2.6 (SUMMER CAMP—OPERATED BY UNIVERSITY (COLLEGE))~~  
 Coach agrees that the University (College) has the exclusive right to operate youth (Sport) camps on its campus using University (College) facilities. ~~The University (College) shall allow Coach the opportunity to earn supplemental compensation by assisting with the University (College)'s camps in Coach's capacity as a University (College) employee. Coach hereby agrees to assist in the marketing, supervision, and general administration of the University (College)'s (Sport) camps. Coach also agrees that Coach will perform all obligations mutually agreed upon by the parties. In exchange for Coach's participation in the University (College)'s summer (Sport) camps, the University (College) shall pay Coach (amount) per year as supplemental compensation during each year of employment as head (Sport) coach at the University (College). This amount shall be paid (terms of payment).~~

3.2.9 (SUMMER CAMP—OPERATED BY COACH) Coach may operate a summer youth boys basketball(Sport) camp at the University (College) under the following conditions:

- a) The summer youth camp operation reflects positively on the University (College) and the Department;
- b) The summer youth camp is operated by Coach directly or through a private enterprise owned and managed by Coach. Coach shall not use University ~~(College)~~ personnel, equipment, or facilities without the prior written approval of the Director;
- c) Assistant coaches at the University ~~(College)~~ are given priority when Coach or the private enterprise selects coaches to participate;
- d) Coach complies with all NCAA ~~(NAIA)~~, Conference, and University (College) rules and regulations related, directly or indirectly, to the operation of summer youth camps;
- e) Coach or the private enterprise enters into a contract with University ~~(College)~~ and ~~(campus concessionaire)~~ Chartwell's for all campus goods and services required by the camp.

- f) Coach or private enterprise pays for use of University ~~(College)~~ facilities, ~~including the \_\_\_\_\_~~.
- g) Within thirty days of the last day of the summer youth camp(s), Coach shall submit to the Director a preliminary "Camp Summary Sheet" containing financial and other information related to the operation of the camp. Within ninety days of the last day of the summer youth camp(s), Coach shall submit to Director a final accounting and "Camp Summary Sheet." A copy of the "Camp Summary Sheet" is attached to this Agreement as Exhibit A.
- h) Coach or the private enterprise shall provide proof of liability insurance as follows: (1) liability coverage: spectator and staff--\$1 million; (2) catastrophic coverage: camper and staff--\$1 million maximum coverage with \$100 deductible;
- i) To the extent permitted by law, Coach or the private enterprise shall defend and indemnify the State of Idaho, the University ~~(College)~~ and the Board against any claims, damages, or liabilities arising out of the operation of the summer youth camp(s)
- j) All employees of the summer youth camp(s) shall be employees of Coach or the private enterprise and not the University ~~(College)~~ while engaged in camp activities. Coach and all other University ~~(College)~~ employees involved in the operation of the camp(s) shall be on annual leave status or leave without pay during the days the camp is in operation. Coach or private enterprise shall provide workers' compensation insurance in accordance with Idaho law and comply in all respects with all federal and state wage and hour laws

In the event of termination of this Agreement, suspension, or reassignment, University (College) shall not be under any obligation to permit a summer youth camp to be held by Coach after the effective date of such termination, suspension, or reassignment, and the University (College) shall be released from all obligations relating thereto.

3.2.710 Coach agrees that the University ~~(College)~~ has the exclusive right to select footwear, apparel and/or equipment for the use of its student-athletes and staff, including Coach, during official practices and games and during times when Coach or the Team is being filmed by motion picture or video camera or posing for photographs in their capacity as representatives of University ~~(College)~~. Coach recognizes that the

University ~~(College)~~ is negotiating or has entered into an agreement with ~~(Company Name)Adidas~~ to supply the University ~~(College)~~ with athletic footwear, apparel and/or equipment. Coach agrees that, upon the University ~~(College)~~'s reasonable request, Coach will consult with appropriate parties concerning an ~~—(Company Name)Adidas~~ product's design or performance, shall act as an instructor at a clinic sponsored in whole or in part by ~~—(Company Name)Adidas,—~~ or give a lecture at an event sponsored in whole or in part by ~~(Company Name)Adidas~~, or make other educationally related appearances as may be reasonably requested by the University ~~(College)~~. Notwithstanding the foregoing sentence, Coach shall retain the right to decline such appearances as Coach reasonably determines to conflict with or hinder Coach's duties and obligations as head ~~(Sport)men's basketball~~ coach. In order to avoid entering into an agreement with a competitor of ~~(Company Name)Adidas~~, Coach shall submit all outside consulting agreements to the University ~~(College)~~ for review and approval prior to execution. Coach shall also report such outside income to the University ~~(College)~~ in accordance with NCAA ~~(or NAIA)~~ rules. Coach further agrees that Coach will not endorse any athletic footwear, apparel and/or equipment products, including ~~(Company Name)Adidas~~, and will not participate in any messages or promotional appearances which contain a comparative or qualitative description of athletic footwear, apparel or equipment products.

3.3 General Conditions of Compensation. All compensation provided by the University ~~(College)~~ to Coach is subject to deductions and withholdings as required by law or the terms and conditions of any fringe benefit in which Coach participates. However, if any fringe benefit is based in whole or in part upon the compensation provided by the University ~~(College)~~ to Coach, such fringe benefit shall be based only on the compensation provided pursuant to Section 3.1.1, except to the extent required by the terms and conditions of a specific fringe benefit program.

## ARTICLE 4

4.1. Coach's Specific Duties and Responsibilities. In consideration of the compensation specified in this Agreement, Coach, in addition to the obligations set forth elsewhere in this Agreement, shall:

4.1.1. Devote Coach's full time and best efforts to the performance of Coach's duties under this Agreement;

4.1.2. Develop and implement programs and procedures with respect to the evaluation, recruitment, training, and coaching of Team members which enable them to compete successfully and reasonably protect their health, safety, and well-being;

4.1.3. Observe and uphold all academic standards, requirements, and policies of the University ~~(College)~~ and encourage Team members to perform to their highest academic potential and to graduate in a timely manner; and

4.1.4. Know, recognize, and comply with all applicable laws, and with the policies, rules and regulations of the University ~~(College)~~, the Board, the conference, and

the NCAA ~~(or NAIA)~~; supervise and take appropriate steps to ensure that Coach's assistant coaches, any other employees for whom Coach is administratively responsible, and the members of the Team know, recognize, and comply with all such laws, policies, rules and regulations; and immediately report to the Director and to the Department's Director of Compliance if Coach has reasonable cause to believe that any person or entity, including without limitation representatives of the University ~~(College)~~'s athletic interests, has violated or is likely to violate any such laws, policies, rules or regulations. Coach shall cooperate fully with the University ~~(College)~~ and Department at all times. The names or titles of employees whom Coach supervises are attached as Exhibit B. The applicable laws, policies, rules, and regulations include: (a) Board policies; (b) University ~~(College)~~'s ~~(Faculty Staff) Handbook~~ Policies and Procedures; (c) University ~~(College)~~'s Administrative Procedures Manual; (d) the policies of the Department; (e) NCAA ~~(or NAIA)~~ rules and regulations; and (f) the rules and regulations of the ~~(Sport)~~ Big Sky conference of which the University ~~(College)~~ is a member.

4.2 Outside Activities. Coach shall not undertake any business, professional or personal activities, or pursuits that would prevent Coach from devoting Coach's full time and best efforts to the performance of Coach's duties under this Agreement, that would otherwise detract from those duties in any manner, or that, in the opinion of the University ~~(College)~~, would reflect adversely upon the University ~~(College)~~ or its athletic program. Subject to the terms and conditions of this Agreement, Coach may, with the prior written approval of the Director, who may consult with the Chief Executive Officer, enter into separate arrangements for outside activities and endorsements which are consistent with Coach's obligations under this Agreement. Coach may not use the University ~~(College)~~'s name, logos, or trademarks in connection with any such arrangements without the prior written approval of the Director and the Chief Executive Officer.

4.3 NCAA ~~(or NAIA)~~ Rules. In accordance with NCAA ~~(or NAIA)~~ rules, Coach shall obtain prior written approval from the University ~~(College)~~'s Chief Executive Officer for all athletically related income and benefits from sources outside the University ~~(College)~~ and shall report the source and amount of all such income and benefits to the University ~~(College)~~'s Chief Executive Officer whenever reasonably requested, but in no event less than annually before the close of business on June 30th of each year or the last regular University ~~(College)~~ work day preceding June 30th. The report shall be in a format reasonably satisfactory to University ~~(College)~~. In no event shall Coach accept or receive directly or indirectly any monies, benefits, or gratuities whatsoever from any person, association, corporation, University ~~(College)~~ booster club, University ~~(College)~~ alumni association, University ~~(College)~~ foundation, or other benefactor, if the acceptance or receipt of the monies, benefits, or gratuities would violate applicable law or the policies, rules, and regulations of the University ~~(College)~~, the Board, the conference, or the NCAA ~~(or NAIA)~~.

4.4 Hiring Authority. Coach shall have the responsibility and the sole authority to recommend to the Director the hiring and termination of assistant coaches for the Team, but the decision to hire or terminate an assistant coach shall be made by the

Director and shall, when necessary or appropriate, be subject to the approval of Chief Executive Officer and the Board.

4.5 Scheduling. Coach shall consult with, and may make recommendations to, the Director or the Director's designee with respect to the scheduling of Team competitions, but the final decision shall be made by the Director or the Director's designee.

4.6 Other Coaching Opportunities. Coach shall not, under any circumstances, interview for, negotiate for, or accept employment as a coach at any other institution of higher education or with any professional sports team, requiring performance of duties prior to the expiration of this Agreement, without the prior approval of the Director. Such approval shall not unreasonably be withheld.

4.7 Disclosure of Serious Misconduct. Coach warrants that prior to signing this Agreement, Coach has disclosed and will continue to disclose if Coach has been accused, investigated, convicted of or pled guilty or no contest to a felony or misdemeanor involving serious misconduct, or has been subject to official institution or athletic department disciplinary action at any time at any prior institution where Coach was employed. "Serious misconduct" is defined as any act of sexual violence, domestic violence, dating violence, stalking, sexual exploitation, or any assault that employs the use of a deadly weapon or causes serious bodily injury.

4.8 Media Obligations. Coach must fully participate in media programs and public appearances (Programs) through the date of the Team's last regular season or post-season competition. Agreements requiring Coach to participate in Programs related to Coach's duties as an employee of University ~~(College)~~ are the property of the University ~~(College)~~. The University ~~(College)~~ shall have the exclusive right to negotiate and contract with all producers of media productions and all parties desiring public appearances by Coach. Coach agrees to cooperate with the University ~~(College)~~ in order for the Programs to be successful and agrees to provide Coach's services to and perform on the Programs and to cooperate in their production, broadcasting, and telecasting. It is understood that neither Coach nor any assistant coaches shall appear without the prior written approval of the Director on any competing radio or television program (including but not limited to a coach's show, call-in show, or interview show) or a regularly scheduled news segment, except that this prohibition shall not apply to routine news media interviews for which no compensation is received. Without the prior written approval of the Director, Coach shall not appear in any commercial endorsements which are broadcast on radio or television that conflict with those broadcast on the University ~~(College)~~'s designated media outlets.

## ARTICLE 5

5.1 Termination of Coach for Cause. The University ~~(College)~~ may, in its discretion, suspend Coach from some or all of Coach's duties, temporarily or permanently, and with or without pay; reassign Coach to other duties; or terminate this

Agreement at any time for good or adequate cause, as those terms are defined in applicable rules and regulations.

5.1.1 In addition to the definitions contained in applicable rules and regulations, University ~~(College)~~ and Coach hereby specifically agree that the following shall constitute good or adequate cause for suspension, reassignment, or termination of this Agreement:

- a) A deliberate or major violation of Coach's duties under this Agreement or the refusal or unwillingness of Coach to perform such duties in good faith and to the best of Coach's abilities;
- b) The failure of Coach to remedy any violation of any of the terms of this Agreement within 30 days after written notice from the University ~~(College)~~;
- c) A deliberate or major violation by Coach of any applicable law or the policies, rules or regulations of the University ~~(College)~~, the Board, the conference or the NCAA ~~(NAIA)~~, including but not limited to any such violation which may have occurred during the employment of Coach at another NCAA or NAIA member institution;
- d) Ten (10) working days' absence of Coach from duty without the University ~~(College)~~'s consent;
- e) Any conduct of Coach that constitutes moral turpitude or that would, in the University ~~(College)~~'s judgment, reflect adversely on the University ~~(College)~~ or its athletic programs;
- f) The failure of Coach to represent the University ~~(College)~~ and its athletic programs positively in public and private forums;
- g) The failure of Coach to fully and promptly cooperate with the NCAA ~~(NAIA)~~ or the University ~~(College)~~ in any investigation of possible violations of any applicable law or the policies, rules or regulations of the University ~~(College)~~, the Board, the conference, or the NCAA; ~~(NAIA)~~;
- h) The failure of Coach to report a known violation of any applicable law or the policies, rules or regulations of the University ~~(College)~~, the Board, the conference, or the NCAA ~~(NAIA)~~, by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team; or
- i) A violation of any applicable law or the policies, rules or regulations of the University ~~(College)~~, the Board, the conference, or the NCAA

~~(NAIA)~~, by one of Coach's assistant coaches, any other employees for whom Coach is administratively responsible, or a member of the Team if Coach knew or should have known of the violation and could have prevented it by ordinary supervision.

- j) The failure of Coach to disclose Serious Misconduct as required in Section 4.7 of this Agreement.

5.1.2 Suspension, reassignment, or termination for good or adequate cause shall be effectuated by the University ~~(College)~~ as follows: before the effective date of the suspension, reassignment, or termination, the Director or the Director's designee shall provide Coach with notice, which notice shall be accomplished in the manner provided for in this Agreement and shall include the reason(s) for the contemplated action. Coach shall then have an opportunity to respond. After Coach responds or fails to respond, University ~~(College)~~ shall notify Coach whether, and if so when, the action will be effective.

5.1.3 In the event of any termination for good or adequate cause, the University ~~(College)~~'s obligation to provide compensation and benefits to Coach, whether direct, indirect, supplemental or collateral, shall cease as of the date of such termination, and the University ~~(College)~~ shall not be liable for the loss of any collateral business opportunities or other benefits, perquisites, or income resulting from outside activities or from any other sources.

5.1.4 If found in violation of NCAA ~~(NAIA)~~ regulations, Coach shall, in addition to the provisions of Section 5.1, be subject to disciplinary or corrective action as set forth in the provisions of the NCAA ~~(NAIA)~~ enforcement procedures. This Section applies to violations occurring at the University ~~(College)~~ or at previous institutions at which Coach was employed.

## 5.2 Termination of Coach for Convenience of University ~~(College)~~.

5.2.1 At any time after commencement of this Agreement, University ~~(College)~~, for its own convenience, may terminate this Agreement by giving ten (10) days prior written notice to Coach.

5.2.2 In the event that University ~~(College)~~ terminates this Agreement for its own convenience, University ~~(College)~~ shall be obligated to pay Coach, as liquidated damages and not a penalty, the salary set forth in Section 3.1.1(a), excluding all deductions required by law, on the regular paydays of University ~~(College)~~ until the term of this Agreement ends or until Coach obtains reasonably comparable employment, whichever occurs first. In the event Coach obtains other employment after such termination, then the amount of compensation the University pays will be reduced by the amount of compensation paid Coach as a result of such other employment, such adjusted compensation to be calculated for each University pay-period by reducing the gross salary set forth in Section 3.1.1(a) (before deductions required by law) by the gross

compensation paid to Coach under the other employment, then subtracting from this adjusted gross compensation deductions according to law. In addition, Coach will be entitled to continue with the University ~~(College)~~ health insurance plan and group life insurance as if Coach remained a University ~~(College)~~ employee until the term of this Agreement ends or until Coach obtains reasonably comparable employment or any other employment providing Coach with a reasonably comparable health plan and group life insurance, whichever occurs first. Coach shall be entitled to no other compensation or fringe benefits, except as otherwise provided herein or required by law. Coach specifically agrees to inform University within ten business days of obtaining other employment, and to advise University of all relevant terms of such employment, including without limitation the nature and location of employment, salary, other compensation, health insurance benefits, life insurance benefits, and other fringe benefits. Failure to so inform and advise University shall constitute a material breach of this Agreement and University's obligation to pay compensation under this provision shall end. Coach further agrees to repay to University all compensation received from the University ~~(College)~~ after the date other employment is obtained.

5.2.3 The parties have both been represented by, or had the opportunity to consult with, legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that Coach may lose certain benefits, supplemental compensation, or outside compensation relating to employment with University ~~(College)~~, which damages are extremely difficult to determine with certainty. The parties further agree that the payment of such liquidated damages by University ~~(College)~~ and the acceptance thereof by Coach shall constitute adequate and reasonable compensation to Coach for the damages and injury suffered by Coach because of such termination by University ~~(College)~~. The liquidated damages are not, and shall not be construed to be, a penalty.

### 5.3 Termination by Coach for Convenience.

5.3.1 Coach recognizes that Coach's promise to work for University ~~(College)~~ for the entire term of this Agreement is of the essence of this Agreement. Coach also recognizes that the University ~~(College)~~ is making a highly valuable investment in Coach's employment by entering into this Agreement and that its investment would be lost were Coach to resign or otherwise terminate employment with the University ~~(College)~~ before the end of the Agreement term.

5.3.2 Coach may terminate this Agreement for convenience during its term by giving prior written notice to the University ~~(College)~~. Termination shall be effective ten (10) days after notice is given to the University ~~(College)~~.

5.3.3 If Coach terminates this Agreement for convenience at any time, all obligations of the University ~~(College)~~ shall cease as of the effective date of the termination. If Coach terminates this Agreement for convenience, Coach shall pay to the University ~~(College)~~, as liquidated damages and not a penalty, the following sum:

\$100,000.00 if termination occurs within one year of the contract commencement date, \$75,000.00 if termination occurs within two years of the contract commencement date, \$50,000.00 if termination occurs within three years of the contract commencement date, and \$25,000.00 anytime thereafter prior to the expiration date. The liquidated damages shall be due and payable within twenty (20) days of the effective date of the termination, and any unpaid amount shall bear simple interest at a rate eight (8) percent per annum until paid.

5.3.4 The parties have both been represented by legal counsel in the contract negotiations and have bargained for and agreed to the foregoing liquidated damages provision, giving consideration to the fact that the University ~~(College)~~ will incur administrative and recruiting costs in obtaining a replacement for Coach, in addition to potentially increased compensation costs if Coach terminates this Agreement for convenience, which damages are extremely difficult to determine with certainty. The parties further agree that the payment of such liquidated damages by Coach and the acceptance thereof by University ~~(College)~~ shall constitute adequate and reasonable compensation to University ~~(College)~~ for the damages and injury suffered by it because of such termination by Coach. The liquidated damages are not, and shall not be construed to be, a penalty. This Section 5.3.4 shall not apply if Coach terminates this Agreement because of a material breach by the University ~~(College)~~.

5.3.5 Except as provided elsewhere in this Agreement, if Coach terminates this Agreement for convenience, Coach shall forfeit to the extent permitted by law the right to receive all supplemental compensation and other payments.

#### 5.4 Termination due to Disability or Death of Coach.

5.4.1 Notwithstanding any other provision of this Agreement, this Agreement shall terminate automatically if Coach becomes totally or permanently disabled as defined by the University ~~(College)~~'s disability insurance carrier, becomes unable to perform the essential functions of the position of head coach, or dies.

5.4.2 If this Agreement is terminated because of Coach's death, Coach's salary and all other benefits shall terminate as of the last day worked, except that Coach's personal representative or other designated beneficiary shall be paid all compensation due or unpaid and death benefits, if any, as may be contained in any fringe benefit plan now in force or hereafter adopted by the University ~~(College)~~ and due to Coach's estate or beneficiaries thereunder.

5.4.3 If this Agreement is terminated because Coach becomes totally or permanently disabled as defined by the University ~~(College)~~'s disability insurance carrier, or becomes unable to perform the essential functions of the position of head coach, all salary and other benefits shall terminate, except that Coach shall be entitled to receive any compensation due or unpaid and any disability-related benefits to which Coach is entitled by virtue of employment with the University ~~(College)~~.

5.5 Interference by Coach. In the event of termination, suspension, or reassignment, Coach agrees that Coach will not interfere with the University ~~(College)~~'s student-athletes or otherwise obstruct the University ~~(College)~~'s ability to transact business or operate its intercollegiate athletics program.

5.6 No Liability. The University ~~(College)~~ shall not be liable to Coach for the loss of any collateral business opportunities or any other benefits, perquisites or income from any sources that may ensue as a result of any termination of this Agreement by either party or due to death or disability or the suspension or reassignment of Coach, regardless of the circumstances.

5.7 Waiver of Rights. Because Coach is receiving a multi-year contract and the opportunity to receive supplemental compensation and because such contracts and opportunities are not customarily afforded to University ~~(College)~~ employees, if the University ~~(College)~~ suspends or reassigns Coach, or terminates this Agreement for good or adequate cause or for convenience, Coach shall have all the rights provided for in this Agreement but hereby releases the University ~~(College)~~ from compliance with the notice, appeal, and similar employment-related rights provided for in Board policy, IDAPA 08.01.01 et seq., and the University ~~(College)~~ ~~(Faculty Staff Handbook)~~ Policies and Procedures.

## ARTICLE 6

6.1 Board Approval This Agreement shall not be effective unless approved by the Board and executed by both parties as set forth below. In addition, the payment of any compensation pursuant to this Agreement shall be subject to the approval of the Board, the Chief Executive Officer, and the Director; the sufficiency of legislative appropriations; the receipt of sufficient funds in the account from which such compensation is paid; and the Board policies and University ~~(College)~~'s rules regarding financial exigency.

6.2 University ~~(College)~~ Property. All personal property (excluding vehicle(s) provided through the Courtesy Car \_\_\_\_\_ program), material, and articles of information, including, without limitation, keys, credit cards, personnel records, recruiting records, team information, films, statistics or any other personal property, material, or data, furnished to Coach by the University ~~(College)~~ or developed by Coach on behalf of the University ~~(College)~~ or at the University ~~(College)~~'s direction or for the University ~~(College)~~'s use or otherwise in connection with Coach's employment hereunder are and shall remain the sole property of the University ~~(College)~~. Within twenty-four (24) hours of the expiration of the term of this Agreement or its earlier termination as provided herein, Coach shall immediately cause any such personal property, materials, and articles of information in Coach's possession or control to be delivered to the Director.

6.3 Assignment. Neither party may assign its rights or delegate its obligations under this Agreement without the prior written consent of the other party.

6.4 Waiver. No waiver of any default in the performance of this Agreement shall be effective unless in writing and signed by the waiving party. The waiver of a particular breach in the performance of this Agreement shall not constitute a waiver of any other or subsequent breach. The resort to a particular remedy upon a breach shall not constitute a waiver of any other available remedies.

6.5 Severability. If any provision of this Agreement is determined to be invalid or unenforceable, the remainder of the Agreement shall not be affected and shall remain in effect.

6.6 Governing Law. This Agreement shall be subject to and construed in accordance with the laws of the state of Idaho. Any action based in whole or in part on this Agreement shall be brought in the courts of the state of Idaho.

6.7 Oral Promises. Oral promises of an increase in annual salary or of any supplemental or other compensation shall not be binding upon the University ~~(College)~~.

6.8 Force Majeure. Any prevention, delay or stoppage due to strikes, lockouts, labor disputes, acts of God, inability to obtain labor or materials or reasonable substitutes therefor, governmental restrictions, governmental regulations, governmental controls, enemy or hostile governmental action, civil commotion, fire or other casualty, and other causes beyond the reasonable control of the party obligated to perform (including financial inability), shall excuse the performance by such party for a period equal to any such prevention, delay or stoppage.

6.9 Confidentiality. This Agreement and all documents and reports Coach is required to produce under this Agreement may be released and made available to the public by the University ~~(College)~~.

6.10 Notices. Any notice under this Agreement shall be in writing and be delivered in person or by public or private courier service (including U.S. Postal Service Express Mail) or certified mail with return receipt requested. All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing:

the University (College): Director of Athletics  
921 So. 8<sup>th</sup> Ave. Stop 8173  
Pocatello, ID 83209

**SUBJECT**

Approval of FY 2020 Appropriated Funds Operating Budgets

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures Section II.F.b.v.; V.B.3.b.ii., 4.b., 5.c, 6.b.

**ALIGNMENT WITH STRATEGIC PLAN**

Annual budget approval is a non-strategic Board governance item.

**BACKGROUND/DISCUSSION**

Pursuant to Board policy V.B., each institution and agency prepares an operating budget for appropriated funds, non-appropriated auxiliary enterprises, non-appropriated local services, and non-appropriated other.

For the appropriated funds operating budget, Board policy V.B.3.b.ii provides as follows: “each institution or agency prepares an operating budget for the next fiscal year based upon guidelines adopted by the Board. Each budget is then submitted to the Board in a summary format prescribed by the Executive Director, for review and formal approval before the beginning of the fiscal year.” The appropriated operating budgets have been developed based on appropriations enacted during the 2019 session.

For the college and universities’ non-appropriated operating budgets, Board policy V.B. requires reports of revenues and expenditures to be submitted to the State Board of Education at the request of the Board. Currently, these operating budgets are available on each institution’s website and are available upon request.

Operating budgets are presented in two formats: budgets for agencies, health education programs, and special programs contain a summary (displayed by program, by source of revenue, and by expenditure classification) and a budget overview that briefly describes the program and changes from the previous fiscal year. All sources of revenues are included (i.e. General Funds, federal funds, miscellaneous revenue, and any other fund source).

For the college and universities, postsecondary career technical education and agricultural research and extension, supplemental information is provided including personnel costs summarized by type of position. The college and universities’ reports contain information about appropriated funds, which only include state General Funds, endowment funds, and appropriated student fees.

**IMPACT**

Approval of the budgets establishes agency and institutional fiscal spending plans for FY 2020, and allows the agencies and institutions to continue operations from FY 2019 into FY 2020.

**STAFF COMMENTS AND RECOMMENDATIONS**

Budgets were developed according to legislative intent and/or Board guidelines. There was funding for a 3% ongoing Change in Employee Compensation (CEC) in FY 2020. Representatives from the institutions will be available to answer specific questions.

Attachment 20 presents a system-wide summation of personnel costs by institution, by classification and also includes the number of new positions added at each institution. Board policy requires prior Board approval for the following positions:

- Salaries for new appointments to dean, associate/assistant dean, vice president and equivalent positions above the College and University Professional Association for Human Resources (CUPA-HR) median rate for such positions. (II.F.2.b.)
- Any position at a level of vice-president (or equivalent) and above, regardless of funding source. (II.B.3.a.)

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

- The initial appointment of an employee to any type of position at a salary that is equal to or higher than 75% of the chief executive officer's annual salary. (II.B.3.b.)
- The employment agreement of any head coach or athletic director (at the institutions only) longer than three years, or for a total annual compensation amount of \$350,000 or higher, and all amendments thereto. (II.B.3.c.)
- Non-classified employee contracts (other than for athletic directors or coaches) over one year. (II.F.1.b.v.)

All other hiring authority has been expressly delegated to the presidents. Therefore, Board review of the operating budgets is the best opportunity for the Board to see the number of new positions added year-over-year.

For informational purposes only, the list of FY 2020 maintenance (Alteration and Repair) projects recommended by the Permanent Building Fund Advisory Council is included in Attachment 28.

Staff recommends approval.

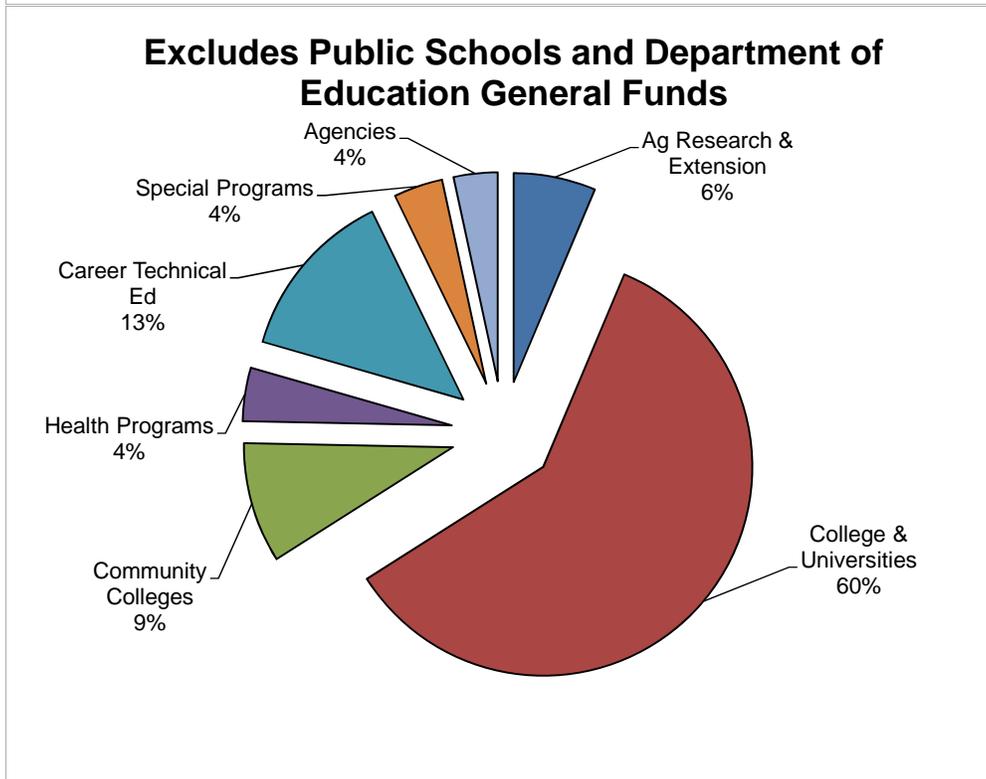

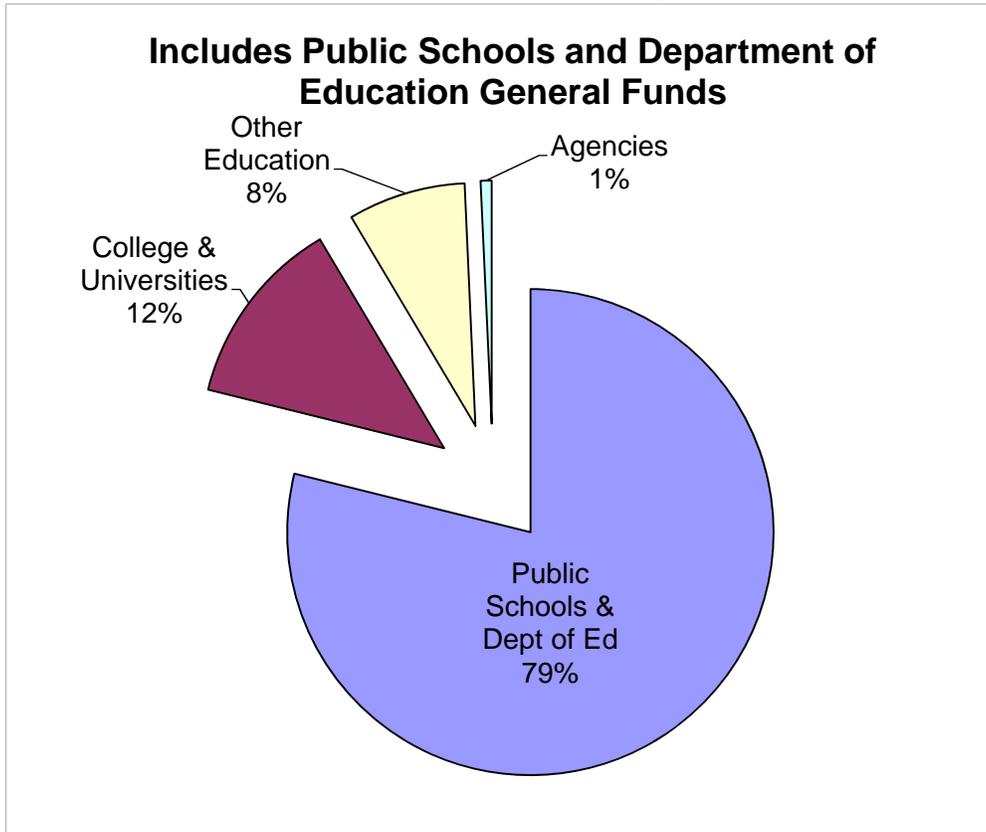

**BOARD ACTION**

I move to approve the FY 2020 operating budgets for the Office of the State Board of Education, Idaho Public Television, Division of Vocational Rehabilitation, College and Universities, Career Technical Education, Agricultural Research and Extension Service, Health Education Programs and Special Programs, as presented in Attachments 1-27.

Enrollment Workload Adjustment	2,489,100
Occupancy Costs	<u>683,700</u>
 <b>NET INCREASE IN BASE STATE FUNDING</b>	 <b>\$5,385,000</b>
 <b>Increases from Student Tuition and Fees</b>	 <b><u>\$9,615,000</u></b>
 <b>FY 2020 Operating Budget</b>	 <b><u>\$233,000,000</u></b>

---

Boise State's FY 2020 base operating budget of \$233,000,000 is a \$15 million increase over the previous year's base funding. About 65% of the new funding will come from student tuition and fees. The State general account funding comprises 45% of the proposed FY20 operating budget and totals \$105,196,800. Student tuition and fees comprise 55% of the proposed FY20 operating budget for a total of \$127,803,200.

Following are highlights of the FY 2020 appropriated operating budget.

- Health insurance costs remain flat while there is a slight increase in variable benefit rates.
- Salary Adjustments - State funding will partially cover a 3% CEC with student tuition and fees covering the remaining. The total cost to the appropriated budget is \$4.3 million.
- Enrollment Workload Adjustment – State general funding will provide \$2,489,100 to Boise State University to fund enrollment growth.
- Occupancy Costs - \$683,700 was provided to support occupancy costs for the Center for Visual Arts and the Micron Center for Materials Research. This funding represents half of Boise State's request

**IDAHO STATE UNIVERSITY  
FY2020 BUDGET OVERVIEW  
Appropriated Funds**

Idaho State University is undergoing a multi-year project to revise and improve the budget setting process. The goal of the project is to create transparency in developing the budget, improve strategic financial decisions, create a process to incentivize innovation, better align uses with sources, and develop an “all-funds” budget in alignment with the institution’s financial statements.

The first step in the process is to reset the existing base budget, which will begin with FY2020. Idaho State University has been operating under an incremental budget model for the past two decades. The base has not been reset in over 20 years. This creates an inequitable distribution of resources across campus and fails to incentivize units from making optimal financial decisions. In the second step we will align uses to sources of funding. This process will move approximately \$3 million of expenditures, which have been traditionally funded by appropriations, to local funds.

Employing previous years allocation methods, the FY2020 budget would have had a deficit of 9,063,497. However, by shifting the \$3 million of expenditures to local funding sources, the appropriated deficit will be \$6,063,497 representing 11.1% of estimated student tuition and fee revenue. The institution’s proposed and approved 6.1% full-time undergraduate resident tuition and fee increase will not be sufficient to cover funding for institutional priorities when combined with enrollment challenges. As a result, Idaho State will fund this budget deficit from reserves. The establishment of a new budgeting process will allow the university leadership team to make strategic investments designed to increase enrollments, and improve retention and graduation rates. It is expected to take several years to return to the higher enrollments of recent years. During this time-frame we anticipate several years of deficit budgets.

The institution has significant cash reserves to fund the current and anticipated budgets. With an all-funds budget, we will monitor our financial performance in real time throughout the year and will take corrective action if needed.

The FY2020 General Education operating budget totaling \$146,832,197 represents an increase of 0.8 % over FY2019. An overview of the FY2020 state appropriated budget is provided as follows:

<b>Y2020 Base Operating Budget</b>	<b>\$145,647,400</b>
<b>Adjustments to Base from State Funds</b>	
Personnel Benefits	-28,200
Risk Management / Controller’s Fees	-55,000
Change in Employee Compensation	1,998,900
Enrollment Workload Adjustment	499,900
State Endowment Adjustments	178,000
Occupancy Costs	<u>94,400</u>

<b>NET INCREASE IN BASE STATE FUNDING</b>	<b>\$2,688,000</b>
<b>Change in Student Tuition and Fees</b>	<b>-\$5,471,300</b>
<b>Incremental One-time Funding</b>	<b><u>\$3,968,097</u></b>
<b>FY2020 Operating Budget</b>	<b><u>\$146,832,197</u></b>

State General appropriations increased by \$2,398,000 in both permanent and one-time funding, representing a 3.0% increase. State Endowment appropriations increased by \$268,000, or 7.2%, from their FY2019 funding levels. Budgeted revenue generated by student tuition is estimated to decrease by -\$5,471,300, or -9.1%, primarily due to a continuing decline in student enrollment coupled with an increase in institutional discounts and waivers. Through state appropriations, institutional reallocations and adjustments, student tuition and fee revenue, and reserves, funding will be provided for facility occupancy costs, Athletics, graduate and teaching assistant waivers, compensation schedule changes, faculty tenure and promotions, and the 3% Change in Employee Compensation.

The compensation plan for FY2020 includes a performance increase with a 3% merit pool in accordance with guidance from DFM and DHR. Classified minimum salaries will continue at 75% of Policy in the State's FY2020 pay structure. The classified minimum hourly rate for benefitted positions will raise to \$11.00. Further, limited equity and/or market adjustments will be considered to address compensation issues if there are incumbents who are significantly trailing the market or their internal peers where those salary differences are not based on differing qualifications or performance.

The institution will continue to maintain and enhance student support, actively develop and grow sponsored research, address key infrastructure and deferred maintenance needs, and focus on compensation equity. A use of reserves will be used to aid in the continuing rebalancing of the institution's financial posture, which is essential for improving student opportunities and increasing access to a high-quality education.

**UNIVERSITY OF IDAHO**  
**FY2020 Budget Overview**  
**Appropriated Funds**

The FY2020 General Education operating budget totals \$192,000,000. Key funding from the state includes:

- Salary Increases (CEC): \$2,146,700
  - This amount covers only a portion of the CEC cost (salaries and benefits) for regular employees paid on General Education, leaving \$2.6M including 100% of faculty promotions and RA/TA increases to be covered from other sources, primarily student tuition.
- Enrollment Workload Adjustment: \$608,900

Overall the base state general fund appropriation for the University of Idaho is increasing from \$91,500,700 in FY2019 to \$94,465,700 in FY2020, an increase of \$2,965,000 or 3.2%.

The Board approved an overall undergraduate resident student tuition and fee increase of 5.6% or \$220 per academic year. Thanks in large part to the work of student leadership to once again keep increases to activity fees low, the University was able to put the majority of this increase into tuition, which is the primary source of flexible dollars to meet the institution's key operating budget needs. There was no increase to the technology fee and a \$30 per academic year increase to the facility fee for the ICCU Arena for FY20.

The Board approved a professional fee increase for the Colleges of Law and Art and Architecture as well as program fee increases for the Executive MBA and MOSS Environmental Education Graduate programs. These increases will enable these programs to sustain quality and further invest in student success using resources outside the General Education budget.

The University continues to focus on ensuring that all university resources are used in an effective manner to meet the strategic priorities of the university. Within the General Education budget a primary focus continued to be the implementation of our market based compensation system which is a critical need for the university as we try to compete for the best faculty and staff on the behalf of our students. While no additional central funding beyond the 3% CEC pool was allocated as part of the FY20 salary setting process, the 3% pool itself was allocated to positions based on the staff and faculty market based compensation systems. The University also implemented a \$2M internal reallocation of General Education funding and a \$3M base reduction to the General Education budget as part of setting the FY20 budget. This effort utilized existing program prioritization data to set targets for each major unit and was the first step in efforts to right size the General Education budget to match anticipated revenues.

The FY20 General Education budget reflects an estimated base funding deficit of \$11.6M. This deficit is driven by two major items: benefit cost increases and funding reductions and a shift in enrollment from non-resident to WUE students. The base state benefit funding was reduced by \$1.2M effective FY19 but was offset by state one-time funding; however this one-time funding did not continue for FY20 and when combined with planned increases in benefit expenses the overall anticipated impact is \$7.1M. In addition, the UI is estimating a large increase in WUE enrollment in fall 2019. While the University hopes to see an overall enrollment increase, for budget-setting purposes we have conservatively planned for flat enrollment, meaning that each additional WUE enrollment has been offset by a reduction in non-resident enrollment leading to an estimated net revenue impact of \$4.5M. As indicated above, the University has already begun the process of identifying cost reduction measures in order to bring the revenue and expense budgets into alignment. The University held a university-wide open forum in May to educate campus on the challenges and announce that further details regarding ways to address these challenges would be shared with campus over the course of the summer. These cost reduction actions will help us to not only mitigate the impact on reserves in the coming year but will also put us on the path towards a balanced base General Education budget in future years.

**LEWIS-CLARK STATE COLLEGE  
FY2020 BUDGET OVERVIEW  
Appropriated Funds**

**2020 State Budget Overview**

<b>FY 2019 Base Operating Budget (excl. one-time)</b>	<b>\$35,630,000</b>
<b>Adjustments to Base from State Funds</b>	
Personnel Benefits	(\$6,200)
Risk Management / Controller's Fees	\$13,300
CEC 3% + Pay Structure Adjustments	\$376,500
Enrollment Workload Adjustment	\$87,900
Normal School Endowment Fund Adjustment	\$268,000
<b>NET INCREASE IN BASE STATE FUNDING</b>	<b>\$739,500</b>
<b>Increases from Student Tuition and Fees</b>	<b>\$323,500</b>
<b>Budget Deficit- Reserve Funds</b>	<b>\$410,000</b>
<b>FY 2020 Base Budget</b>	<b><u>\$37,103,000</u></b>
<b>One-time Funds</b>	<b>\$0</b>
<b>FY 2020 Operating Budget</b>	<b><u>\$37,103,000</u></b>
<b>FY 2020 Operating Budget Increase Over Previous Year</b>	<b>\$1,473,000</b>
<hr/>	
<b>FY 2020 Base Budget</b>	<b><u>\$37,103,000</u></b>
<b>General Fund (47.58%)</b>	<b>\$17,651,800</b>
<b>Normal School Endowment (6.67%)</b>	<b>\$2,473,000</b>
<b>Tuition (44.65%)</b>	<b>\$16,568,200</b>
<b>Budget Deficit – Reserve Funds (1.11%)</b>	<b>\$410,000</b>

The FY2020 General Education operating budget totaling \$37,103,000 represents an increase of 4.13% over FY2019. State General Fund appropriations increased by \$471,500 in permanent funding, representing a 2.7% increase. State Endowment appropriations increased \$268,000 from the FY2019 funding level. Budgeted revenue generated by student tuition is estimated to increase by \$323,500 or 2%.

The revenue generated from these increases will be used to fund the CEC stipulated by the legislature, faculty promotions, scholarships, and partially offset funding and enrollment changes.

The following are highlights of the FY 2020 appropriation operating budget:

- The FY2020 budget has a deficit of approximately \$410,000. In order to remain sensitive to concerns regarding the cost of tuition, the institution did not request this as a tuition increase (est. additional 2%) and will utilize reserve funding. LCSC will continue to monitor this deficit while striving to maintain an affordable and high quality education. The deficit is in response to institutional obligations such as graduation, disability services, maintenance contracts, retirement obligations, and scholarships. This deficit does not reflect general inflationary adjustments such as LCSC's estimated \$144,700 that was requested as an inflationary adjustment within the FY20 budget request. Additionally, LCSC has not been provided with inflationary adjustments for operating expenses within the last decade.
- In our efforts to prioritize programs and decrease deficits, LCSC's General Education personnel structure will decrease by 1.99 in FY2020 for a total of 362.01 FTP.

The following is not reflected in the General Education budget but is included in the operational functions of the College.

- Student leadership supported a \$17 per semester increase to the facilities fee. The fee will provide funds for planning and developing a general use facility (e.g., a recreation/wellness center). When sufficient funding has been accrued, student interests and needs will be assessed to determine the specific facility to be planned and developed.
- Career-Technical Education (C.T.E.) allocation for FY2020 (\$5,027,400) includes funding for salary and benefit increases and \$109,900 for a virtual server in a CTE's Informational Technology program.

The total revenue sources outlined above (General Fund, Student Fees, Normal School Endowment, and C.T.E. allocated funding) finance LCSC's FY2020 total General Education and Career-Technical Education operating budget of \$42,130,400. The ensuing schedules speak to the General Education program only, and does not include Career-Technical Education.

**Idaho Division of Career Technical Education  
Postsecondary Career Technical Education  
Appropriated Funds - FY 2020**

Funds are appropriated to Idaho Division of Career Technical Education (ICTE) for career technical education programs and services. The State Board of Education approved the allocation of the appropriation for postsecondary career technical education at its April 17-18, 2019 meeting. ICTE requests approval of the fiscal year 2020 operating budget for Postsecondary Career Technical Education.

The allocation and reallocation of funds for the fiscal year 2020 postsecondary operating budget is based on the strategic plan for career technical education in Idaho as well as Board and legislative intent.

The fiscal year 2020 postsecondary budget reflects an overall increase in the budget of \$1,529,300 or 3.3%. The increase includes \$1,278,500 ongoing and \$250,800 one-time funds to support nuclear energy/advanced reactor training, \$1,019,900 for a 3% CEC, and \$129,000 for benefit costs.

**University of Idaho**  
**FY2020 Budget Overview**  
**Agricultural Research and Extension Service**

In FY2020 the Agricultural Research and Extension Service (ARES) Appropriation received \$140,000 in one-time capital outlay to fund replacement items at various research stations.

The FY2020 budget included an additional \$733,600 for Changes in Employee Compensation.

The following items were requested and appropriated for FY2020 to support Agricultural Research and Extension Service at the University of Idaho:

- Funding for a 1FTP and \$118,300 for an additional 4-H extension educator to increase engagement with youth and community 4-H leaders in the development of STEM knowledge and skills, postsecondary education opportunities, and career awareness.
- Funding for a 2FTP and \$217,600 to staff the Rinker Rock Creek Ranch and expand research opportunities related to rangeland utilization.
- Funding for a 0.57FTP and \$122,600 for occupancy costs for the completed projects including: the Sandpoint research and extension complex occupied in August of 2018; Aberdeen Research Support Facility occupied in November of 2018; and the classroom and office facility at the Nancy M Cummings Ranch to be occupied in October, 2019.

With the support of the ARES appropriation, the University of Idaho's College of Agricultural and Life Sciences will continue to serve the needs of the citizens and stakeholders of Idaho.

**AGENCIES AND INSTITUTIONS OF THE STATE BOARD**

**SUBJECT**

FY 2021 Line Item Budget Requests

**REFERENCE**

April 2019 Board approved guidance to the 4-year institutions regarding submission of line item requests

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section V.B.1. Title 67, Chapter 35, Idaho Code

**BACKGROUND/ DISCUSSION**

As discussed at its April 2019 meeting, the State Board of Education (Board) directed the college and universities to limit Fiscal Year 2021 budget line items requests to those that will measurably support implementation of student success strategies approved by the Board. Institutions may request up to two (2) line items in priority order, the total value of which shall not exceed five percent (5%) of an institution's FY2020 total General Fund appropriation. Requests for occupancy costs for eligible space and faculty promotions will not count towards the two line item limit or the 5% cap.

Subsequently, the Board will approve the final budget request at the August 2019 meeting. Following Board approval in August, the budget requests will be submitted to the Legislative Services Office (LSO) and Division of Financial Management (DFM) by September 3, 2019.

The line items represent the unique needs of the institutions and agencies and statewide needs. Following review, the Board may prioritize the line items for the institutions. The line items are summarized separately, one summary for the college and universities and one for the community colleges and agencies. The detail information for each line item request is included on the page referenced on the summary report.

**IMPACT**

Once the Board has provided guidance on priority, category, dollar limit, etc., Board staff will work with the Business Affairs and Human Resources (BAHR) Committee, DFM and the agencies/institutions to prepare line items to be approved at the August Board meeting.

**ATTACHMENTS**

Attachment 1 - Line Items Summary  
Attachment 2 - Occupancy Costs  
Attachment 3 - 42: Individual Line Items

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

**STAFF COMMENTS AND RECOMMENDATIONS**

Staff asked the institutions to provide as much detail as possible for their line item requests to be submitted for the June Board meeting.

In the past few years, best practices were further enhanced in terms of information needed in order for DFM and LSO analysts to conduct their own analysis in support of policymakers:

- Write-ups need a strong problem statement supported with data and strong solution statement supported with outcome data.
- Where applicable, include projected Return on Investments (ROIs) for new programs or program expansion (i.e. where funding for a program has been provided in the past).
- Requests should be scalable and prioritized.
- Address the influence of program prioritization on the request. Did the institution consider reallocating funding for this line-item?
- Describe how the request advances the Board's 60% Educational Attainment Goal or the Board's Complete College Idaho Plan (if applicable).

The budget line item requests should support the implementation of student success strategies that the Board has adopted. The strategies are as follows:

- 15 to Finish
- Math Pathways
- Corequisite Support
- Momentum Year
- Academic Maps with Proactive Advising
- A Better Deal for Returning Adults

Per the Board's guidance, 5% of the College & Universities' FY 2020 total General Fund appropriation equates to the following:

BSU: \$5,259,800  
ISU: \$4,111,000  
UI: \$4,727,300  
LCSC: \$ 882,600

**BOARD ACTION**

I move to direct the Business Affairs and Human Resources Committee to review the FY 2021 budget line items as listed on Attachment 1 - Line Items Summary, and to bring recommendations back to the Board for its consideration at the regular August 2019 Board meeting.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**Description:**

An insufficient number of Idaho high school graduates are going on to some form of postsecondary education, whether that be a career technical certificate program or our two or four year colleges and universities. One of the identified barriers to students going on to some form of postsecondary education experience after high school is availability of relevant college and career advising. While the state has invested much in the areas of college and career advising for our students in grades 8 through 12, through our public schools, as part of the implementation of the K-12 Task Force for Improving Education Recommendations, additional strategies have been identified to help in this area. One of the primary advisors of students are parents and the family unit. In identifying strategies to work more closely with our communities and provide equitable access to information and resources for our first generation and other underserved population “Parent Academies” have been identified as an effective strategy that has shown promise in other states. A “Parent Academy” would be a program run through our postsecondary

institutions that provide typically between a four to twelve week program for parents. The academies provide information to parents in a culturally relevant way for the local community. These programs include providing information on:

- Creating a “college-ready” academic plan to ensure appropriate course selection for their students;
- Learning how to finance college, gaining scholarship and financial aid literacy, and understanding the return on college investment;
- Identifying support networks and key resources for a successful transition to college;
- Developing a better understanding about what their student will experience in college;
- Learning what it takes for students to be successful; and
- Meeting and talking with other parents, staff members, and instructors.

Based on input from Idaho groups that have been brought together to provide recommendations on the implementation of the Higher Education Task Force Recommendations, and success seen by institutions in other states implementing some form of parent academy and early work being done by our Idaho institutions in this area, the Board is seeking funds to scale-up Parent Academies at each of our public postsecondary institutions. Each institution would be able to tailor their Parent Academy based on their local and regional needs within a set framework that includes close collaboration with the local school districts and charters schools and be targeted toward families with first generation students.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? Funding is being requested to scale up Parent Academies at all eight public Idaho postsecondary institutions. No Board staff would be used for this activity other than that necessary for the distribution of funds.
2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.  
No new positions will be required in the Board office. The institutions may use the funding to hire staff to manage the parent academies.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.  
No human resources in the Board office will be redirected. The institutions may redirect staff to manage the parent academies.
  - c. List any additional operating funds and capital items needed.  
No additional operating funds or capital items outside of the funding listed above will be necessary in the Board office.

d. Basis for request.

\$70,000 for each institution for a program director and operating expenses (\$60,000 personnel costs and \$10,000 operating expenses).

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.  
This request is for ongoing funding to provide for the establishment of Parent Academies at each of the eight public institutions. While the institutions provide some information and advising resources to parents it is generally specific to individual programs or limited in scope. Boise State University and the College of Southern Idaho have implemented or are in the process of implementing similar limited programs. Their experience and costs have been used to establish the funding request. It is estimated that \$70,000 for each institution ongoing would allow the institution to run a single program cohort (class) of parents through the program at a time. Based on the duration of each program, multiple academies would be able to be run each year.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted? This request will allow the institutions to expand the number of students being served by providing relevant and timely information to student's parents, allowing the parents to be the first resource to the students.

**Description:**

Funds to support delivery of Open Education Resources (OER), which would result in no-cost and low-cost textbooks (and other learning resources) for all postsecondary courses included in the state common course list.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The funding is being requested to support faculty development of open educational resources that provides undergraduate students with textbooks at no (or minimal) cost. On average, this would be correspondent to the 38 general education (GEM) courses to be adopted in the common course framework beginning in Fall 2019.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.  
Existing faculty and staff at public institutions of higher learning.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.  
Faculty within the appropriate discipline areas will be compensated for the time and effort necessary to learn new software and to develop online textbooks and other learning resources. Each institution has staff (in variable numbers) that support faculty development, particularly as it relates to OER.
  - c. List any additional operating funds and capital items needed.
  - d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

The average faculty salaries at Idaho public institutions are as follows:

Boise State University	\$59,157
University of Idaho	\$70,081
Idaho State University	\$55,236
Lewis-Clark State College	\$51,637
College of Southern Idaho	\$51,027
College of Eastern Idaho	\$51,741
College of Western Idaho	\$47,085
North Idaho College	<u>\$56,907</u>
Total	\$442,871

Source: <https://data.chronicle.com/category/state/Idaho/faculty-salaries/>

Average salary:  $\$442,871 / 8 \text{ institutions} = \$55,359$

Average cost for a faculty buyout of a course (to develop an OER text) is between 33%-75% of a quarterly salary.

Average quarterly salary:  $\$55,359 * .25 = \$13,840$ .

Buyout at 33% is \$4,567

Common-numbered courses that need OER development: 43

$43 * \$4,567 = \$196,381$  rounded to \$200,000

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request is for one-time funds of \$200,000 to build out the remaining OER development needed for common-numbered courses.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Though faculty will be compensated for their efforts, over 65,000 part-time and full-time undergraduate students in Idaho and their families would be served through this effort. Furthermore, school districts responsible for delivering dual credit would also benefit from not needing to purchase textbooks. As it stands, the average cost of a new textbook is \$80, and the average cost for a used textbook is \$50. If not funded, degree-seeking students will continue to incur, on average, over \$650-\$1,000 in textbook costs for general education courses. If all students in the state enroll in approximately 10 classes (30 semester hours) of common-indexed courses in the General Education (GEM) curriculum in order to earn an associates or baccalaureate degree, total student savings would be approximately \$32.5 million across the system if each course used only one \$50 textbook. (65,000 students x 10 courses x \$50 textbook cost) This does not include the savings that will be afforded to districts who render textbook costs for each dual credit student. If OER can be leveraged, this item would offer a significant impact towards achieving the affordability goals outlined by the Governor's Task Force on Higher Education, as well as the Board's goals to deliver a postsecondary system that is more accessible to Idaho students.

Average cost of new and used textbooks: *National Association of College Stores website:*

<b>GRAND TOTAL</b>	<b>\$50,000</b>				<b>\$50,000</b>

**Description:**

The [NextSteps.Idaho.com](http://NextSteps.Idaho.com) website provides college and career information and resources targeted toward Idaho students in 8<sup>th</sup> through 12<sup>th</sup> grade as well as their parents and school counselors and advisors who work with those students. The Workforce Development Taskforce, convened in 2017, recommended using the Next Steps website to also target adults seeking training and expanded education and for the website to serve as a single portal for all college and career advising for students and adults. The recommendation was based in part due to the strong branding of the Next Steps website and high user rates. These user rates are a direct result of the research that was conducted specific to the original target audience (Idaho students and their parents 8<sup>th</sup> through 12<sup>th</sup> grade) in the initial development of the site and on-going maintenance, testing, and updating of the site. The Task Force recommendation of expanding the target audience for the website to include adults will require similar research. This research

includes gathering information from diverse user groups statewide through interviews, focus groups and surveys, and the identification of available resources across state agencies and educational institutions. Research will also include a review of other states' websites identified as effectively meeting the needs of a similar population. This research is needed to prevent any diminished usage of Next Steps by our target audience while identifying strategies to create the expanded portal. In FY19 the Board Office collaborated with the Workforce Development Council to conduct research on updating the website to include the expanded target audience and initiate the first phase of updates to the website. Identified resources and information added to the site will be implemented through a phased approach in FY19 and FY20 to allow for testing of the additions and to maintain the quality of the site. Once implemented the additional pages and resources on the site will need to be maintained and refreshed regularly to keep the site relevant. This includes not only updating information but also adding additional resources as they are identified or developed.

The work to expand the website will be done in collaboration with the Workforce Development Council, Department of Labor, other state agencies, colleges and universities, the business community and other stakeholder groups. It is anticipated the additions to the site will more than double the resources available through the site and will result in an equivalent increase in the annual maintenance and updating of the site. Maintenance and updating of the current site is done through a competitively bid contract.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? There is currently 1 FTE whose primary responsibilities include in part working to identify updates to the site and managing the site maintenance and updating contract. Additional existing staff have secondary roles in working with the current site as part of the sites role in the Board's overall communication initiative and college and career advising initiatives. No new FTE are being requested. The request is for additional funding for contracted services.
2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.  
No new positions will be required.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.  
No human resources will be redirected.
  - c. List any additional operating funds and capital items needed.  
No additional operating funds or capital items outside of the funding listed above.
  - d. Basis for request.

Costs are an estimate based on the current contract for maintenance and refreshing the data. It is expected that expanding the site to the adult learner population will more than double the number of pages and resources on the website. Doubling the contract amount is a conservative estimate assuming some cost savings from the current base maintenance operations.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

The request is for ongoing funds to expand the user base of the NextSteps Idaho website and create a single portal for students, student parents (K-20) and adults with college/education and career advising and other resources. The funding amount requested is based on the current contract for maintenance and “refreshing” of content on the site. The expansion of the site will result in more than doubling the resources available on the site and thereby doubling the amount of work necessary to keep the site updated. Services are currently received through a competitively bid contract. In FY20 the Board office will need to go through a new RFP process for the maintenance and refreshing/updating of the site.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted? The current site serves students in grades 8 through 12, the expanded site will include younger and older students as well as adults that are not currently served. The additional funds will allow for work to be done that will make sure the expansion of the site does not take away from the resources currently provided to students in grades 8 through 12 while expanding resources to a much larger group of people. Without the funding the Board will not be able to assure the necessary maintenance of the site is done in order to maintain its value and usability. Websites that are not maintained and updated quickly become obsolete.

<b>GRAND TOTAL</b>	<b>\$3,138,900</b>				<b>\$3,138,900</b>

**Description:**

Boise State University requests 28 FTP and \$3,138,900 ongoing from the General Fund for the implementation of the Degree Completion and Career Readiness program. Of this request, \$2,433,700 is for personnel costs to fund nineteen career specialists, eight instructors and support staff for high-impact first-year courses, and one technical support position to maintain a student-oriented degree tracker software system. Boise State believes this investment will measurably increase student retention, degree completion, and student preparation for post-college career. The strategies and structures employed support the Governor’s Higher Education Task Force and the Idaho State Board of Education’s “Complete College Idaho” and “Complete College America” initiatives.

This request will increase degree completion and career readiness by embedding career services in the academic colleges as well as connect classroom learning, academic advising and support, and career counseling/job search advising through the creation of a Student Success Team model in each college.

The Idaho State Board of Education (SBOE) has operationalized the recommendations of the Higher Education Task Force by directing post-secondary institutions to focus their efforts on the “Game Changer” strategies of Complete College America (CCA), as part of the SBOE’s Momentum Pathways initiative.

Boise State has a very long and highly successful history of work in increasing retention and graduation rates; work that aligns remarkably well with the goals of the Higher Education Task Force and Complete College America. This work has been recognized by the Association of Public and Land Grant Universities (APLU) when it named Boise State a finalist for a national degree completion award. Improvement across these measures include:

- a 79.5% first-year retention rate, a 5-percentage point climb in the past five years.
- a 45.8% six-year graduation rate, a nearly 8-percentage point climb in the past five years.
- a total of 3,188 degrees granted in 2017-2018, which exceeds the State Board of Education’s target by 2%.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The degree completion and career readiness program has three components:

1. Using student support teams to integrate career advising and academic advising.
2. Expanding next steps to increase early academic success in key courses such as Math, English, and other subjects with low success rates.
3. Strengthening the infrastructure of academic advising.

1. Using Student Support Teams to Integrate Career Advising and Academic Advising

This initiative is aligned with the CCI and CCA “Momentum Year”, Academic Maps, and Proactive Advising Game Changer Strategies and fits very well under the “purpose first” focus of CCA. It is another important step in sustaining an institutional culture where the focus is on helping students to connect their academic pathways with life and career goals as soon as students begin college.

The proposed initiative will embed career services in the academic colleges, connecting classroom learning, academic advising and support, and career

counseling/job search advising through a Student Success Team model in each college. The Student Support Team will work with department/college staff to set strategic direction, outcomes, and accountabilities. College Career Specialists will also work directly with faculty and staff in each college to embed career education in the classroom.

## 2. Next Steps to Increase Early Academic Success

This initiative builds on existing retention work and is aligned with the “Math co-requisite”, “English Co-requisite,” “Momentum Year,” “Math Pathways,” and “Better Deal for Returning Adults” CCA Game Changer Strategies.

- **Expansion of Math Co-requisites and Math Pathways:** Boise State’s Math Learning Center has developed a remarkably effective structure for facilitating the success of students in early mathematics courses for students pursuing majors in STEM and business. This initiative will apply that successful approach to other pathways of mathematics including statistics, education, and liberal arts. The following are the components of this initiative:
  - Develop and implement a single course that simultaneously serves as a general education math class for students who typically would pursue Math for Liberal Arts and as a stepping-stone for students pursuing STEM or other fields.
  - Develop and implement a “math welcome mat” for students who are returning adults. Boise State has found that 70% of students enrolled in our Basic Algebra course are returning adults who need to brush up on math skills after having been out of the classroom for some time.
  - Develop co-requisites for the courses that serve students pursuing statistics, education, and liberal arts pathways using the existing highly successful STEM and business pathways as models.
  - Develop a full complement of online courses and online tutoring support. Expanding to an online format will increase access for students who are place-bound or who have constraints on time because of work and/or family.
- **Expansion of English Co-requisites Access:** Boise State’s First Year Writing Program has developed a highly successful co-requisite model for English 101. Students who would have placed into remedial English are placed in English 101P, which has an extra hour per week of class time as well as a very small class size. Students who complete ENGL 101P have equivalent or higher success rates in the follow-on course (English 102) than students who were placed directly into English 101. ENGL 101P is now seen as a very positive initial experience for students, one that combines immersion in academic work with additional support. ENGL 101P makes use of small and highly engaged classes that provides constant feedback and creates exactly the kind of environment that has been

shown to be important for the retention of first-year students. This initiative will expand access to ENGL 101P and thereby enable the University to use ENGL 101P more broadly as a highly effective tool for retaining at-risk student populations such as first-generation students and returning adult students.

- **Expansion of the Learning Assistant Program:** Learning Assistants support high-fail-rate courses in Math, Chemistry, and Biology by assisting students with embedded peer-to-peer support. These facilitated study groups make asking for help a normalized activity, which has collateral benefits for students beyond the immediate course. This initiative would further expand the reach of the Learning Assistant program by adding 10 new Learning Assistants in other general education courses such as Physics, Economics, and Political Science, strengthening the infrastructure of the program, and strengthening the Chemistry Instructional Center.

#### Strengthening the Infrastructure of Academic Advising

This initiative would continue to strengthen Boise State’s advising capacity and effectiveness, and is aligned with the “Academic Maps and Proactive Advising” CCA Game Changer Strategy. This initiative would fully fund the “Degree Tracker” software system. Degree Tracker is designed to provide students with information on which courses to take as well as help them sign up for the correct courses. It also provides alerts to an advisor if a student gets off-track. A technician is needed to ensure that the information in the system is up-to-date and fully usable by colleges and departments.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
  - c. List any additional operating funds and capital items needed.
  - d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

#### Student Support Team Initiative:

Career Specialist-- College of Arts and Sciences - three  
 Career Specialist -- College of Business and Economics  
 Career Specialist -- College of Engineering  
 Career Specialist -- College of Health Sciences  
 Career Specialist -- School of Public Service  
 Career Specialist -- Honors College  
 Career Specialist -- Graduate College  
 Career Specialist -- Alumni Relations  
 Career Data Specialist

Career Services Internship Program Faculty / Student Liaison  
Career Services Career Course Manager  
Career Services Career Technology Coordinator  
Career Services Instructional Designer / eLearning  
University Foundations First Year Experience Coordinator  
Career Services Career Development Training Specialist  
Career Services Employee Relations Event Coordinator  
Career Services Marketing Specialist

Travel and operating expenses are also requested for the above-referenced positions.

Two-day immersion program for first-year students: \$300,000 is requested for a two-day immersion program that, in conjunction with summer orientation, provides students with an in-depth overview of available services, resources, and programs that combined with their academic experience will augment their preparedness for post-college employment.

Sophomore cohort experience: \$100,000 is requested for a coordinated second-year exploration effort dedicated to increasing the likelihood of progression, persistence, graduation, and employability for students identified as “at risk” to stop out of college.

Need based scholarships to support professional experiences: Funding for scholarships are requested to support professional experiences, such as unpaid internships, for students who demonstrate financial need: \$158,200.

Group Positions: Peer Mentoring Program (students): Peer mentoring to support first and second year students: \$312,582 is requested for student employment and \$50,000 is requested for peer mentoring curriculum, training, and course delivery.

Career Services Technology: The requested \$50,000 technology budget will be used to pay for annual subscriptions to career education focused web-based technology intended to expand the reach of Career Services and engage students when and where they want. This technology includes, but is not limited to, career research tools, a mentoring platform, career assessment and guidance systems, and online interview/resume coaching platforms. This funding will also be used to purchase eLearning software used to create interactive, multimedia online modules embedded within courses and virtual workshops accessible 24 hours a day by distance and on-campus students via Virtual Career Center.

Early Academic Success Initiative:

Math Learning Center -- Lecturer  
Math Learning Center -- Lecturer/Co-Director  
Math Learning Center -- At-risk advisor  
Math Learning Center -- Computer support specialist  
Math Learning Center -- Coordinator of Co-requisites

Math Learning Center – Tutors: \$86,880 is requested to hire additional tutors. Free tutors are offered to students and cover content for twenty different Math courses, primarily first and second year courses.

Math Learning Center -- Part-time instructional staff: \$76,083 is requested to hire part-time faculty in the Math Learning Center.

First Year Writing – Two Lecturers

Learning Assistant Program -- 10 Learning Assistants: \$33,280 is requested for hiring students employees to serve as learning assistants in the Writing Center. Learning Assistants are embedded in classes and offer study sessions to help students with the class.

Learning Assistant Program – Position Reclassifications: Reclassification of current Academic Support Coordinator position to Assistant Director of Learning Assistance (\$12,000 projected salary and fringe) and current CIC Manager to Learning Assistant Coordinator (\$12,000 projected salary and fringe)

Chemistry Success Center Manager

Chemistry Tutors: \$21,738 is requested to hire additional tutors in the Chemistry Instructional Center.

Strengthen Advising Infrastructure Initiative

Degree Tracker -- Support Technician

Degree Tracker – annual license

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

All funding requested is ongoing.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Studies at Boise State have shown that retention and graduation depend strongly on early academic success in foundational courses such as math, english and other general education courses. This request is designed specifically to increase success in those courses. Higher risk student populations, such as first-generation college students and returning adult students, will especially benefit from this request.

Without this funding, implementation of a Student Success Team model as described above will not be possible. Similarly, the success of math pathways and math co-requisite model for math pathways in statistics, education and liberal education described above cannot be developed quickly or at scale without the requested funding.

LUMP SUM:					
<b>GRAND TOTAL</b>	<b>\$2,100,000</b>				<b>\$2,100,000</b>

**Description:**

Boise State University requests \$2,100,000 ongoing from the General Fund for the enhancement of the True Blue Scholarship program. These funds will supplement existing institutional funds to provide four-year scholarships of \$4,000 to 600 Idaho resident students with financial need. When paired with the Idaho Opportunity Scholarship, the enhanced True Blue Scholarship will cover up to 93% of typical tuition and fees, greatly increasing access to higher education for Idaho residents for whom financing college is a barrier. The strategies and structures employed support the Governor’s Higher Education Task Force and the Idaho State Board of Education’s “Complete College Idaho” and “Complete College America” initiatives.

This initiative will increase the impact of Boise State's Idaho resident True Blue Scholarship. This scholarship request is complementary to the Idaho Opportunity Scholarship. Together, True Blue and the Idaho Opportunity Scholarship can close a critical gap in our ability to fund low-income, Idaho residents who cite financial challenges as the root cause of leaving or never attempting college. Graduation rates for these students are the lowest at the university, currently more than 10 percentage points behind graduation rates for non-low income students. In addition, we know that approximately 1,200 Idaho residents applied to Boise State, but ultimately did not attend college at all. Often these decisions were purely financial. Robust scholarships will increase the access for Idaho students to attend college full-time, thereby speeding their time to degree completion.

The infusion of scholarship aid will support the Governor's Higher Education Task Force and the Idaho State Board of Education's "Complete College Idaho" and "Complete College America" initiatives.

The Idaho State Board of Education (SBOE) has operationalized the recommendations of the Higher Education Task Force by directing post-secondary institutions to focus their efforts on the "Game Changer" strategies of Complete College America (CCA), as part of the SBOE's Momentum Pathways initiative.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Funding is requested for the expansion of Boise State's True Blue Scholarship program to provide ongoing funding for the number of students presently in the program, to double the number of students who will receive scholarships (to 600 total), and to double the amount of funding per student (to \$4,000 per year). This initiative helps to address a severe lack of scholarships for Idaho residents who attend Boise State University.

This initiative aligns particularly well with CCA Game Changer "Think 30" because it provides the financial means necessary for students to attend Boise State on a full-time basis.

Surveys of students who have left Boise State before completing their degree indicated that financial challenges are often the root cause. In addition, many students (in particular Idaho residents) who attend Boise State must hold jobs year-round to be able to pay for school, and therefore are able to attend only part-time. Scholarships will help to mitigate financial challenges and will enable more students to attend full-time, thereby speeding their time to degree completion.

The impact of student financial need on academic success is apparent in the persistent gaps in first-year retention rate and the graduation rate between Pell-eligible and non-Pell-eligible students at Boise State. Currently there is a ten percentage-point gap in first-year retention between students who are eligible for federal Pell Grants based on low family incomes and those students who are not Pell-eligible. The gap rises to nearly 13-percentage points in six-year graduation rate between the same two groups. In addition, Boise State's ability to help low-income students is substantially less than that of peer institutions. Institutions that have substantial need-based aid are better able to reduce the price of college for low-income students than are institutions without substantial need-based aid. Currently, Boise State has a lower "Net

Price of College” than peers for high-income students, but a “Net Price of College” that is equal to or higher than peers for low-income students. As a result, Boise State has less ability to help lower income students than peer institutions.

Boise State’s True Blue Scholarship is a scholarship available only to Idaho residents with demonstrated financial need. At present, it awards \$2,000 per year for four years to about 300 students, a program cost of about \$600,000 per year. Of that \$600,000, about one-half is ongoing funding and one-half is one-time funding. This initiative has three parts. First, the one-time funding would be replaced by ongoing funding, at a cost of \$300,000. Second, the per-year award would be increased from \$2,000 to \$4,000 at a cost of \$600,000. Third, the number of funded students would be expanded from 300 to 600, at a cost of \$1,200,000.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
  - c. List any additional operating funds and capital items needed.
  - d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

Ongoing funding to replace one-time funding: \$300,000.

Funding to increase award amount from \$2,000 to \$4,000 per year: \$600,000.

Funding to expand the number of funded students from 300 to 600: \$1,200,000.

Existing personnel will be used to administer the program.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

All funding requests are ongoing.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This initiative would serve low-income students who are Idaho residents.

Without this initiative, the True Blue would serve only 300 students instead of 600, and the average award would remain at only \$2,000 per year instead of increasing to \$4,000 per year.

***Description:***

**Center for Mathematics Pathways**

The state of Idaho has been selected to participate in Complete College America’s (CCA) Momentum Pathways Scale Project, an initiative focused on boosting college attainment by developing clear pathways amongst participating institutions and implementing evidence-based strategies that help students meet key, first-year benchmarks leading to increased success and graduation rates. This effort leverages CCA “Game Changers,” such as 15 to Finish/Think 30, Math Pathways, Corequisite Math Support, Momentum Year, Academic Maps, and Proactive Advising. The Momentum Pathways model defines

a path for implementation that leads to substantial student momentum and success through increased early credit accumulation, gateway course completion, and completion of credits in a program of study.

Key to the success of this Momentum Pathways project is the coordination and integration of foundational mathematics and mathematics alignment. These two fundamental “game changer” strategies, Math Corequisites and Math Pathways, support each student’s need for quantitative literacy within his/her chosen field. Math Pathways align the appropriate gateway math course with each discipline to provide a clear “mathematics path” for each major and meta-major. It further requires students to complete their college level math requirements within the first year, providing needed momentum to improve student success and college completion. Corequisite Support ends the practice of pre-requisite remedial education and instead provides “just in time” support for students in need of additional academic support in math.

ISU proposes the development of a "Center for Mathematics Pathways." This center will coordinate assessment, communication, and professional development for Math Pathways and Corequisite Support in our service region. The Center will ensure that there is significant and consistent outreach, collaboration, interaction, and training for instructors, teachers, tutors, and advisors at ISU, within the community colleges (CEI and CSI in particular), and in the high schools. Center instructors will coordinate professional development in our region and provide much needed hands-on support and consistency for mathematics general education instruction, supporting both early college and gateway course success. Tutors will be trained such that their understanding of math is specific to each math pathway course and are available for adult learner support (e.g., late in the evening, weekends, etc.). Center instructors will further support assessment and provide assessment training; coordinating consistent metrics and data management. These instructors will develop consistent messaging for strong alignment in both math pathways and math corequisites. Center instructors will work directly with Career and College Advisors in the high schools to ensure students are receiving this vital information early in their academic experience.

Due to the significant quantitative and mathematical literacy challenges that rural America faces today, the Center for Mathematics Pathways offers tremendous potential for a substantial impact on Idaho’s “go on” rates. Furthermore, we anticipate that this program will contribute significantly to college retention and completion rates in our service region.

### **Proactive Advising**

In order to support Idaho’s Momentum Pathways project and thus expand student success, retention, and graduation, ISU proposes the implementation of a university-wide Proactive Advising program. University-wide Proactive Advising will ensure all students receive the timely support they need to fulfill their higher education attainment goals. This implementation will utilize technology-enabled early alert solutions to reach students when support is needed most.

Proactive Advising for all students will assist them in receiving an appropriate, efficient, and cost-effective pathway to college completion. This intensive, student-specific advising will continue throughout the entirety of each student's collegiate experience. ISU will utilize technological support in order to fully scale proactive advising. We will implement and expand the use of strategies such as texting, ZOOM, Degree Works, and Recruit (ISU's CRM) in order to enhance a student's ability to access support and assistance and increase a student's knowledge of available options for degree path to completion.

Proactive advising provides additional points of connection for students and is particularly effective with student populations more likely to struggle with maintaining continuous enrollment. Examining the holistic needs of students through proactive advising will allow Idaho State University to connect students with campus and community resources to address their individual needs.

The National Academic Advising Association (NACADA) indicated in a 2003 report that the median student load for a full time advisor at a public institution is approximately 285 students. Advising needs certainly vary between students based on their program of study and their particular demographic characteristics. Some student populations, including veterans, those pursuing graduate or professional school, student athletes, first year and transfer students, first generation college students, and those with limited income, all benefit from additional time and attention from academic advisors. Based on NACADA's median student advisor load, and the particular needs of our student population, ISU is proposing to add an additional 8 advisors including an Assistant Director of Advising.

An Assistant Director for advising is essential to ensure an appropriate level of training with regard to Proactive Advising best practices. Additionally, the Assistant Director will create and oversee a Peer Mentor program to further support the retention and success of our students. A Peer Mentor program will provide opportunities for first year and transfer students to work with student mentors as they navigate their college career. Furthermore, the Assistant Director will coordinate the communications for advisors throughout campus, work closely with the university's curriculum council, and collaborate with the registrar's office to provide vital updates and information, with the goal of a seamless and supportive experience for all students.

A key component of ISU's Proactive Advising program is regular and consistent travel to ISU's outreach sites. Thus, we will provide in-person, proactive, student specific advising to populations in Idaho Falls, Twin Falls, and Meridian and therefore ensure students at these locations are receiving the same high quality services as students on the Pocatello campus.

**Questions:**

1. *What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?*

In order to support the Idaho Momentum Pathways Project, ISU is proposing the creation of a "Center for Mathematics Pathways." This center will coordinate assessment, communication, and professional development for Math Pathways and Corequisite Support in ISU's service region. In conjunction with the center, ISU is proposing the implementation of a university-wide Proactive Advising program. University-wide Proactive Advising will help ensure all students receive the timely support they need to fulfill their higher education attainment goals.

2. *What resources are necessary to implement this request?*

- a. *List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.*

This request includes 15 full-time positions for the center all of which are benefit eligible with an anticipated hire date of July 1, 2020. These positions include a Center Director, Assistant Director, 5 instructors, 7 advisors and an Advising Director. These positions are all expected to be permanent positions. The request also includes numerous part-time tutor positions who are not benefit eligible with an anticipated hire date of August 10, 2020. This date allows these individuals the ability to receive training for the start of fall semester classes. These part-time positions are all temporary in nature but are expected to be refilled annually.

- b. *Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.*

We anticipate all of these employees will be new hires.

- c. *List any additional operating funds and capital items needed.*

This request includes funding to provide professional development opportunities for high school teachers and to further bring all of those involved in teaching general education mathematics together on a regular and consistent basis. We are requesting funds to pay travel and stipends for teachers/instructors to attend numerous collaborative professional development opportunities. Funds will also be made available to ensure that our rural high schools receive the support that they need; this includes travel funds to take training programs to rural high schools and the creation of a distance-learning classroom to further this regular support. We will collaborate with CEI to provide professional development opportunities in Idaho Falls and collaborate with CSI to provide professional development opportunities in Twin Falls. The ability to frequently and consistently collaborate with the high schools and community colleges schools will go a long way toward solving many of the "go on" issues in Idaho.

3. *Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.*

This proposal includes \$150,000 in one-time funding for the creation of a distance-learning classroom and the remodeling of existing space for the Center. The remainder of the request is ongoing funding. This effort is aimed at improving "go on," retention, and graduation rates.

4. *Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?*

A wide range of students in ISU's service region is to be served through this request. Because this request is collaborative in nature, and because mathematics education is key to higher education attainment, this proposal will support high school students, community college students, and students attending ISU. It will further support high school math teachers, Early College math teachers, College and Career advisors, community college math instructors, and ISU math gateway and corequisite support instructors. If this project is not funded, we would go forward with our current processes, and not offer this coordinated assistance for math pathways and math corequisite support.

**Description: Health Sciences-Occupational Therapy and Nursing Expansions**

Idaho State University and the Kasiska Division of Health Science respectfully submit this appropriation request for FY21. ISU would like to thank the State Board of Education, the Governor and his office, and the Idaho Legislature for their ongoing support of our health science programs.

This appropriation request specifically enhances programs prioritized during our budgeting and 3-year planning processes and is based on workforce needs in the state. Occupational therapy and nursing are high paying, in-demand jobs with high vacancy rates in the state of Idaho.

*Goal of this Initiative:*

- *Increase degree production in high demand, health science careers to meet workforce needs of the state*

## Questions: Health Sciences-Occupational Therapy and Nursing Expansions

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

**Occupational Therapy** – Seven faculty positions, two staff positions, group position funding, as well as ongoing operating costs are being requested to support the expansion of the occupational therapy program to the ISU Meridian Health Science Center. Occupational therapists are one of the top in-demand jobs in the state, currently with 30% vacancy rates according to the Department of Labor.

The US Bureau of Labor forecasts a substantial increase in occupational therapy positions by 2020 and beyond. ISU's occupational therapy program consistently has over 60 applicants per year; 30-40 of these applicants meet the criteria to be admitted and 16-18 are accepted each year. By expanding this program to Meridian and adding faculty, we will be able to increase the number of seats available by an additional 24. With the robust applicant pool, we expect this program to be fully enrolled the very first year it is offered in Meridian. Graduates are in very high demand as occupational therapy is #2 on Idaho's list of job vacancies.

Idaho State University recently completed a construction project in Meridian where offices, classrooms, laboratories, and clinic space has been built/renovated to be shared by the Department of Physical and Occupational Therapy. Efficiencies were gained by the physical therapy space being designed and created to eventually be a shared space with occupational therapy. This newly created space will improve **Access and Opportunity** for students in Meridian and will meet the accreditation agencies' requirement for equivalent didactic spaces and allow synchronous learning between cohorts in Pocatello and Meridian. Growth of the occupational therapy program is not possible without additional faculty and resources due to accreditation requirements related to expansion. This program has been identified as the top priority within our planning processes and budgeting.

### **Expansion of Nursing Programs in SE Idaho**

The Institute of Medicine published the outcomes of a national study addressing the *Future of Nursing, Advancing Health (2010)*. The Institute's recommendation was to increase the number of baccalaureate prepared nurses to 80% of the nursing work force by 2020. St. Luke's Health System has established a policy that all of the new nurses they hire will have a baccalaureate degree by 2023. This policy assures the best possible nursing care is provided in their facilities and meets one of their requirements for Magnet Hospital Status. Idaho Department of Labor Workforce data from 2017 and Idaho census projection data show that there is an expected population-based demand for increased numbers of registered nurses in Ada and Canyon Counties and in Idaho Falls. In addition, as new facilities open in Eastern Idaho, it is projected that 100+ additional registered nurses will be needed before the fall of 2020. To mitigate this workforce shortage problem, each university

will need to increase the number of new graduates and employers of nurses will need to focus on retention strategies for their incumbent staff.

Two faculty positions as well as ongoing operating costs are being requested to help expand ISU's nursing programs in Southeastern Idaho.

The ISU College of Nursing proposes an expansion of the traditional bachelors of nursing (BSN) cohort by 30 students. Idaho's monthly workforce data consistently indicate over 1000 vacancies for registered nurses. Expansion of nursing programs are limited by clinical placement sites (community health system partners) and accreditation-mandated faculty to student ratios at 1:10. In this scenario three faculty will be added (two funded by this proposal and a third by new tuition/fee revenue).

There are two other initiatives underway to expand ISU's production of registered nurses.

1). The College of Nursing at ISU is participating with industry partners from across Eastern Idaho to increase the number of baccalaureate registered nurses by offering an accelerated nursing program. A pending Department of Labor grant may assist with the initial development of this program, however the sustainability of this project is dependent upon future appropriation. The accelerated nursing program is designed for individuals who have a baccalaureate degree in a field other than nursing. Students complete their baccalaureate degree in nursing over a 12-month period. While enrollment numbers for the accelerated nursing program in Meridian over the past five years have remained at an average of 33 admits annually, the number of applicants has grown from around 40 in 2015 to 75+ for FY2019 academic year. In the last five years, the accelerated nursing program has had more than 255 applicants. These numbers, along with the growing nursing shortage, indicate the accelerated nursing program is highly desired. This new undergraduate accelerated nursing program in Eastern Idaho will run concurrently with the existing, and very popular, accelerated nursing program in Meridian. Students will take classes online in the distance learning classroom environments on the Pocatello and Idaho Falls campuses.

2). The College of Nursing has initiated conversations with College of Southern Idaho (CSI) and St. Luke's Health System as well as College of Eastern Idaho and the Idaho State University College of Technology to develop a new BS Completion program to better meet the needs of students who have completed the AD-RN program on the CSI and other community college campuses. This program will coordinate BS completion education for students presently trained as AD-RNs in ISU's service region. Adequate faculty to staff this program are currently employed by the College of Nursing. By expanding BSN program (30 students), the accelerated nursing program in Eastern Idaho (30 students), and the BS completion program (20 students), ISU expects to add 80 new nursing students each year.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

***Occupational Therapy*** - Total Personnel Costs: **\$982,258**

***Expansion of Nursing Programs in SE Idaho*** - Total Personnel Costs: **\$179,897**

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

**Occupational Therapy** - This line item request is for new faculty positions and support personnel. The current occupational therapy faculty members in Pocatello will continue to assist in teaching the extended cohort using distance learning technology, online content, and onsite classes, clinics and laboratory sessions.

**Expansion of Nursing Programs in SE Idaho** - This line item request is for new faculty positions. The nursing faculty members in Pocatello and Meridian will continue to assist in teaching the additional cohort using distance learning technology, online content, and onsite classes, clinics and laboratory sessions.

- c. List any additional operating funds and capital items needed.

**Occupational Therapy** – An ongoing request for additional operating funds for travel, communications and materials and supplies and equipment that fall below the \$5K SCO capitalization threshold will also be needed.

**Ongoing Requests for Operating Expense – Occupational Therapy:**

<i>Travel</i>	\$20,000
<i>Communications</i>	\$9,600
<i>Materials/Supplies/Equipment</i>	\$87,000

**Total Request for Ongoing Operating Expense: \$116,600**

**Expansion of Nursing Programs in SE Idaho** – An ongoing request for additional operating funds for travel, communications, and materials and supplies and equipment that fall below the \$5K SCO capitalization threshold will also be needed.

**Ongoing Requests for Operating Expense – Nursing:**

<i>Travel</i>	\$7,500
<i>Communications</i>	\$2,000
<i>Materials/Supplies/Equipment</i>	\$10,000

**Total Request for Ongoing Operating Expense: \$19,500**

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

**Occupational Therapy**– Seven faculty positions, two support staff positions, and adjunct faculty are being requested. Faculty-to-student ratios are used in all laboratory courses to ensure the competence and safety of future graduates. Due to the specialization of faculty, multiple areas of clinical expertise are necessary onsite. In addition to the clinical areas of expertise, two of the requested faculty positions will serve administrative roles including the Occupational Therapy Assistant Program Director and the Assistant Academic Fieldwork Coordinator. These administrative roles are required to provide management of

the expanded program, provide increased support for finding and supervising part-time and full-time student clinical affiliations and practicums, and for managing occupational therapy service provision within one or more inter-professional clinics. The staff positions are required to provide clerical support and IT support for the expanded program. The adjunct faculty salaries are required to provide instruction in highly specialized areas of clinical expertise that are not represented by the full time faculty.

**Expansion of Nursing Programs in SE Idaho** – Two faculty positions. One faculty member for every 10 students in the tradition BSN program is needed due to accreditation requirements and to ensure the competence and safety of future graduates. The program intends to use tuition and fee revenue from program expansion to hire additional faculty and staff to further support program growth.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

**Occupational Therapy**- The salaries for the seven positions will be ongoing as well as the group position funding. Operating expenses for travel, supplies, communications, etc. will also be ongoing.

**Expansion of Nursing Programs in SE Idaho** – The salaries for the two positions will be ongoing. Operating expenses for travel, supplies, communications, etc. will also be ongoing. Pending grant funds from the Department of Labor for the expansion of the accelerated program will be used to supplement this request. In addition, increases in enrollment will generate additional tuition and fee revenue to support growth in faculty and staff which are needed to meet our enrollment targets in these three nursing programs.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

**Occupational Therapy** – Idaho students who seek an education to become a licensed occupational therapist benefit from this request since more than twice the number of seats in the occupational therapy program will become available within the state. The cost of an in-state 3-year graduate program is substantially less than out-of-state or private academic institutions. Increasing the number of seats in an Idaho occupational therapy program will provide more opportunities for Idaho residents to receive education they desire while reducing the student debt incurred while pursuing that education. Expansion of this program provides convenience to students who live in western Idaho and it allows them to capitalize on the clinical placements in the Treasure Valley without having to travel. This expansion will also serve the needs of patients in the state of Idaho as occupational therapists are in high demand to provide rehabilitative patient care.

Idaho employers seeking to hire occupational therapists will benefit because the number of graduating therapists within Idaho will double within 3-4 years. There is a tremendous need for occupational therapists in the state.

Idaho residents in need of occupational therapy services will benefit because there will likely be an increased number of licensed, practicing therapists in the state within 3-4 years of expanding the program.

**Expansion of Nursing Programs in SE Idaho** – Idaho students who seek an education to become a Registered Nurse benefit from this request since within three years 30 new seats

will become available in the accelerated nursing program and 30 new seats will become available in the BS Completion Nursing program. Increasing the number of seats in Idaho will provide more opportunities for Idaho residents to receive education they desire. Expansion of this program provides convenience to students who live in the eastern and southern parts of Idaho, and it allows them to capitalize on the clinical placements in Twin Falls and in Idaho Falls without having to travel. This expansion will also serve the needs of patients in the state of Idaho, as there is a shortage of Registered Nurses.

Idaho employers seeking to hire Registered Nurses will benefit because a greater number of licensed providers will be available to hire. These nursing programs will have been expanded directly to eastern Idaho where the greatest current and projected need for these providers exists. Employers and recent nursing student graduates will likely have had some previous experience working with each other during clinical experiences that students received while at ISU. Employers will have a better understanding of the recent graduates' values and attitudes and how they will fit within their organization. This will likely lead to less attrition. An increase in Registered Nurses will benefit Idaho residents because nurses protect, promote, and optimize the health of those for whom they are responsible. They play a significant role in health promotion and disease prevention, alleviate pain and suffering, and advocate for individuals, families, and communities. Idaho residents will benefit by having additional providers who play a significant role in the overall health of people.

## **Description: Cybersecurity Program I3C**

Idaho State University seeks to establish the Idaho Center for Critical Cybersecurity (I3C). The Center would build on existing capabilities in the College of Science and Engineering, the College of Business, College of Technology and the emerging capacity of ISU's Polytechnic Initiative to create a regional center of excellence for cybersecurity education and research that would help meet the cyber workforce and innovation demands of Idaho and the Intermountain West.

On an individual level we tend to think of cybersecurity as it affects our personal computers, bank accounts and credit cards. Although inconvenient these breaches of cybersecurity are not life threatening events. Of far graver consequence are breaches of the critical infrastructure that support life in modern society. Air handling systems in buildings such as hospitals, traffic control systems on land and in the air, dams and water purification plants, and the U.S. electrical grid itself are vulnerable to cyber-attack and the consequences of system failure are profound. These critical infrastructure vulnerabilities are a key area of research and development activity for the Idaho National Laboratory and are central to the partnership between INL and the State of Idaho in the new Cybercore Integration Center on ISU's Idaho Falls campus.

Compounding our national vulnerability to crippling cyber-attack is an acute shortage of trained cybersecurity professionals. The National Institutes of Science and Technology supports research that estimates a current national shortage of 350,000 cybersecurity workers and the firm Cybersecurity Ventures suggests that there will be a global shortage of 3.5 million cybersecurity experts by 2021. Idaho State University currently offers an associate's degree program in cyber physical security. This AA program is unique in the country is currently home to four students. The Informatics Research Institute at ISU is recognized as a Center of Excellence by the National Security Agency. This program is the academic home of approximately 20 MBA students with specialization in cybersecurity. The proposed I3C would

help meet statewide cybersecurity workforce demand by expanding existing programs and creating new BS, MS and Ph.D. degrees in cybersecurity. Conversations among ISU and INL leadership have revealed INL's need for and support of expanded cybersecurity training and research capacity at ISU. This increased capacity would support not only INL but a wide variety of private and public employers in Idaho and across the nation.

A build out of ISU's cybersecurity personnel and educational infrastructure would poise the university as a regional leader in research and innovation in cybersecurity. The National Science Board reports a venture capital investment in cybersecurity of approximately \$13 billion between 2011 and 2016. That amount is certain to rise considerably. The National Science Foundation announced in October of this year, \$78 million of new support for cybersecurity research and education. Precise numbers for the Department of Energy's overall investment in cybersecurity are not readily available but by partnering with colleagues at INL, ISU faculty and students would be in an enviable position to attract external financial support for research and education to Idaho.

### ***Building the I3C-Phased Approach***

Three components are required to expand and build cybersecurity education programs at ISU:

- Faculty
- Graduate students
- Infrastructure

*Faculty.* Cybersecurity resides at the nexus of electrical engineering (EE) and computer science (CS). ISU grants BS degrees in both EE and CS but no current faculty have substantial expertise in cybersecurity. To build competitive undergraduate and graduate curricula ISU would need to hire new faculty at the rank of assistant professor and a faculty as an associate professor and program leader. The market for these professors is quite competitive but the opportunity to build a new program in connection with the INL and Cybercore will make ISU an attractive opportunity.

- **Phase 1-***One Associate and one Assistant faculty member to build the program are needed in years 1 and 2 as shown in the attached RAIS form which shows estimated enrollment and revenue growth over a 5 year period. Additional faculty would be needed in future years to grow program. \$342,500*
- **Phase 2-***Three additional faculty will be needed as the program and enrollment develops and expands. \$400,000*

*Graduate Students.* In order jumpstart workforce development and position our new faculty to be successful in the classroom and in the research laboratory we need to initiate I3C with top flight graduate students who will be involved in research and education.

- **Phase 1-***Three to four graduate students. \$127,000*
- **Phase 2-***Three additional graduate students. \$100,000*

*Infrastructure.* Providing relevant, real world learning and research opportunities will require a substantial investment in the types of industrial Control Systems (ICS) and Supervisory Control and Data Acquisition (SCADA) systems that are in use in the private and public sectors across the nation.

- **Phase 1 and 2-One-time funding would be provided by ISU given the faculty support is granted in this request.**

### ***Demand***

The dramatic need for a cybersecurity workforce is clear. Students with bachelor's degrees in cybersecurity enter the workforce at salaries between \$80,000 and \$100,000. A recent report by Raytheon indicates that familiarity with cybersecurity on the part of both high school students and their parents will continue to pull new students into university degree programs. Although these cybersecurity degree programs are increasingly common in American universities, the number of programs does not approach the nation's need for a cyber-educated workforce. The development of the I3C at ISU will be a boon to enrollment and to the business and industry of Idaho.

### **Questions: Cybersecurity Program I3C**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? Phase I funding of the Cybersecurity program.
2. What resources are necessary to implement this request? **One Associate Professor, one Assistant Professor and three to four graduate students to build the program in the first two years as detailed in the attached RAIS forms.**
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. **See attached RAIS Forms**
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. **N/A**
  - c. List any additional operating funds and capital items needed. **Operating will be supplied through one-time University funds.**
  - d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?) **RAIS Forms attached**
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards. **One-time funds would be supported by ISU in the event that recurring operating needs are granted**

Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted? **–Listed in description**

## **Description: Magic Valley Educator Pipeline**

The teacher shortage in Idaho is most pronounced in the Magic Valley. Evidence suggests the several factors contribute to this situation; however, two factors regularly rise to the top; the supply of new teachers and the retention of current teachers. While this proposal will not solve the teacher shortage in the Magic Valley, it will creatively address both of these concerns.

The first part of this proposal will provide the resources necessary to support the online delivery of ISU's educator preparation program to place-bound and non-traditional education students in the region. Data suggests that the majority of perspective education students in the Magic Valley prefer a blended educational experience that utilizes elements of a traditional (face-to-face) program and an online delivery model. However, there is a significant segment of prospective teachers that are unable to access courses via the traditional approach, thus this proposal will address these student's needs by creating an online educator preparation delivery system. This proposal includes funding for additional sections of the educator preparation curriculum, to be taught by adjunct faculty, including interested faculty from the College of Southern Idaho, and instructional design support to inform and enhance the delivery of courses via an online instructional format.

Funding realized through this part of the proposal will provide an on-site administrator and an on-site advisor to support education students and the educator preparation program in the Magic Valley. The placement of on-site administrator and an advisor will streamline decision-making, provide more personalized service and attention to Magic Valley education students, and support their matriculation through the program and into regional schools.

The second part of this proposal is designed to provide additional support to "early-career" teachers (those in the first three years of their careers), with particular attention paid to those early-career teachers who have entered the profession via an alternate certification route. This program will train and use retired educators to provide weekly coaching support to these vulnerable early-career teachers. This program was piloted in spring of 2019 with considerable success. This proposal will support an early-career coordinator who will identify, train, and monitor retired teacher's work in this program. It will also provide compensation to the early-career coaches in the form of a stipend for and travel to their work sites.

## **Questions: Magic Valley Educator Pipeline**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

One full-time faculty position, group position funding, as well as ongoing operating and one-time capital costs are being requested to support the development and delivery of an online educator preparation program and an early-career teacher coaching program in the Magic Valley. These resources provide for administrative oversight, on-site academic advising, on-site faculty, adjunct faculty to teach online sections of courses, early-career mentors, travel expenses, and technological support to meet the elements of these programs.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Total Personnel Costs: **\$252,800**

- Assistant Dean of Educator Preparation in Twin Falls (12 months part-time not benefit eligible) on-going
- Education Program Advisor – Twin Falls (12 months part-time not benefit eligible) on-going
- Early-Career Coaching Coordinator (Full-time benefit eligible) on-going
- Early-Career Coaching Mentors (part-time, not benefit eligible) on-going
- Adjunct Faculty (part-time, not benefit eligible) approximately \$4,300 per course, per-semester on-going
- Instructional Design Support (part-time not benefit eligible) on-going

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The intend of this program is to use some of the salary dedicated to the main-campus Assistant Dean to support the stipend for the On-site Coordinator in Twin Falls.

- c. List any additional operating funds and capital items needed.

An ongoing request for additional operating funds for travel, communications, office space rent, and materials and supplies and equipment that fall below the \$5K SCO capitalization threshold will also be needed.

**Ongoing Requests for Operating Expense:**

<i>Travel</i>	<i>\$72,000</i>
<i>Communications</i>	<i>\$800</i>
<i>Materials/Supplies/Equipment</i>	<i>\$49,500</i>

**Total Request for Ongoing Operating Expense: \$122,300**

**One-Time Request for Capital Outlay:**

<i>Office Furniture</i>	<i>\$2,500</i>
<i>PC and Workstations</i>	<i>\$2,000</i>
<b><u>Total Request for One-Time Capital Outlay:</u></b>	<b><u>\$4,500</u></b>

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

The salaries for the one full-time position along with the group position funding to cover stipends for the Assistant Dean, Education Program Advisor, Early-Career Coaching Mentors, Instructional Design Support, and adjuncts is on-going. The request for office furniture and computer for the one full-time position is a one-time request to set up an office. In addition, school districts who take advantage of the early-career coaching program will be expected to bear two-thirds of the cost of the coach(es) assigned to work with early-career teacher in their school district. The challenges associated with teacher retention are well documented, with many early-career teacher at the greatest risk of attrition.

4. Who is being served by this request and what are the expected impacts of the funding requested?

Place-bound and non-traditional students who desire to be teachers will be the direct recipients of this funding that supports this program. Additionally, school districts in the Magic Valley will also benefit from this proposal by producing more candidates for teaching positions in the Magic Valley and by supporting early-career teachers with specific supports tailored to their individual needs.

If this request is not funded who and what are impacted?

If this proposal is not funded, place-bound students and many non-traditional students will have limited options available to them to enter the teaching profession. Additionally, many early-career and alternately prepared teachers will continue to struggle with teaching challenges on their own with limited support from available and qualified teaching coaches.

**AGENCY: College and Universities**

**Description:**

Funding this proposal will provide the infrastructure University of Idaho needs to offer online programs for adults returning to complete their college education (A Better Deal for Returning Adults), to support student success in math and English courses by adding additional support (Co-Requisite Support), and to ensure students receive the advising they need to keep them on track to graduate on time (Proactive Advising).

**Questions:**

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

**Priority 1. A Better Deal for Returning Adults:** University of Idaho is a residential campus with a traditionally-aged undergraduate student body. In order for us to provide a better deal for returning adults, we need to build capacity to design, implement, and maintain high quality online programs. To meet the needs of adult learners, we will collaborate with our 2-year institutional partners on 2+2 programs that are fully online so that place-bound students can complete a 4-year degree. We currently offer fully online degrees in high-interest areas such as organizational sciences, psychology, and criminology, but we would like to improve delivery of these programs as well as create new programs in general business and similar fields aligned to market needs.

Currently we have 4 FTE support personnel to help faculty use Blackboard (our learning management system) and only one of these staff members can assist with instructional design. To support high quality, market-driven online programs, we need to hire two instructional designers and two multimedia designers. Instructional designers will be responsible for designing high quality online courses and degree programs and oversee the quality assurance process. Instructional designers need expertise in pedagogy, educational psychology, and instructional/educational technology. Multimedia designers will be responsible for creating interactive and engaging course content, which requires expertise in audio narration, animation, graphic design of presentations, video editing, and accessibility compliance. The positions requested are:

- 1. Senior Instructional Designer/Online Learning Specialist to support and oversee the design and development of new online courses and the redesign of existing courses**
- 2. Two Instructional Designer to support faculty in the design and delivery of high quality online courses**
- 3. Senior Digital Media Teaching and Learning Specialist to produce digital content as well as to design and manage the One Button Studio, Lightboard Studio, and technology-enhanced collaborative learning space.**
- 4. Digital Media Lab and Instructional Technology Consultant to produce digital media and integrate various instructional technologies into online courses. This position will also help oversee undergraduate support specialists who can assist faculty in their digital media production efforts on an on-demand basis**

To support this effort, we also wish to hire four part-time undergraduate student media editors and add a streaming server (Kaltura) so that high quality video can be used for online learning. In addition, we have a one-time (OT) capital outlay request to create a video recording studio where online course content will be developed.

Modeled on aspirational peer institutions (Arizona State University, Georgia State University) but on a much smaller scale, we are requesting equipment to support (1) a fully automated *One-Button* self-service studio where faculty can record audio/video presentations and (2) a full-service studio where professional audio, video, and graphic presentations can be created.

**Priority 2. Co-Requisite Support:** University of Idaho has a strong co-requisite program for English that we would like to replicate for several general education math courses (MATH143, MATH 153, and MATH 251). Building co-requisites will require permanent funding to support instructors, graduate assistants, and peer mentors. Currently, our success rates for MATH 143 and MATH 251 (statistics) are 60% and 64%, respectively. MATH 153 is a new statistical reasoning course and we do not yet have success data to report. Our goal for these gateway math courses is an 80% success rate.

**MATH 143:** MATH 143 (precalculus) is the gateway math courses for our STEM majors. Currently, we teach 2000 students annually with three instructors in this course, making class sizes very large. Going to a co-requisite model will require us to increase the number of sections we offer as well as our contact hours with students. We will need additional instructors, teaching assistants, peer tutors, and hardware. To provide adequate support and consistency to ensure that the co-requisite model is successful, the instructors will need additional support during class. Teaching Assistants (TA's) will work 15-20 hours/week assisting instructors and working in our math center, also known as the Polya Lab. The positions requested are:

1. **Four Instructors of Mathematics to teach MATH 143 and provide co-requisite support.**
2. **Four half-time teaching assistants to work in the Polya Lab to provide co-requisite support.**

We are also seeking additional funds to support six undergraduate peer tutors. Co-requisite support for MATH 143 also requires additional laptops for students to use in our math center (the Polya lab), computers for new instructors, and funding to support database updates and hardware upgrades. This includes ongoing funding for database support and one-time funding for laptops, personal computers, peripherals, and printers.

**MATH 153/251:** These statistics courses are the gateway math courses for several majors in the social sciences. MATH 153 is a new course, and both it and MATH 251 will have co-requisite support to ensure students can successfully complete the course. The addition of MATH 153 aligns to the Complete College America strategy *math pathways*. This statistical reasoning course is better aligned with several of our majors than is MATH 251. To support both statistics courses, we will need instructors, teaching assistants, peer tutors, and hardware. The positions requested are:

1. **Instructor of Statistical Science to teach MATH 153 and MATH 251 and provide co-requisite support.**
2. **Half-time Instructor of Statistical Science to teach MATH 153 and MATH 251 and provide co-requisite support.**
3. **Two half-time Teaching Assistants to provide co-requisite support.**

We are requesting funds for six peer tutors as well as one-time funds for personal computers for instructors and teaching assistants.

**ENGL 101/109:** We plan to make improvements to our English co-requisite course to improve student success rates and increase the likelihood that students can successfully complete both ENGL 101 and 102 in their first year, which is predicted to increase retention, progression, and on-time graduation (Complete College America strategy *Momentum Year*). While our success rates are relatively high for co-requisite English (87%), we believe we can improve this with funding to support embedded graduate tutors, computers for tutors to use with students during tutoring, and funding to support a faculty director to manage tutors and provide high quality tutor training.

**Priority 3. Proactive Advising:** University of Idaho has recently restructured to support shared, centralized advising services to increase student success. We seek funding for two additional academic advisors to build positive, professional student relationships and implement proactive advising strategies to help students fulfill their educational goals. These advisors will help students identify potential barriers early in their academic careers; customize early interventions for students in various areas (study skills, goal striving, social activity, and academic self-confidence), educate students on major options; and support students identified via the VandalStar early alert system. Currently, our student to advisor ratio is 575:1, well above the national average for peer institutions of 285:1. Based on best practices of advisor to student ratio, the College of Letters, Arts and Social Sciences (CLASS) needs long-term funding for two additional academic advisors, and the College of Engineering (COE) needs one more academic advisor to adequately support our students. The positions requested are:

1. **Three Academic Advisors to support timely degree completing by implementing proactive advising strategies.**

**2. What resources are necessary to implement this request?**

**a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

1. Senior Instructional Designer, Center for Teaching & Learning, 1 FTE, \$85,000 Exempt, Benefits Eligible, Date of Hire July 2020
2. Instructional Designer, Center for Excellence in Teaching & Learning, 1 FTE \$65,000, Exempt, Benefits Eligible, Date of Hire July 2020
3. Instructional Designer, Center for Excellence in Teaching & Learning, 1 FTE \$65,000, Exempt, Benefits Eligible, Date of Hire July 2020

4. Senior Digital Media Teaching and Learning Specialist. 1 FTE, \$67,500, Exempt, Benefits Eligible, Date of Hire July 2020
5. Digital Media Lab and Instructional Technology Specialist, 1 FTE, \$47,500, Exempt, Benefits Eligible, Date of Hire July 2020
6. Four Part-time Undergraduate Student Media Editors, 0 FTE, \$12,800 Not Benefits Eligible, Date of Hire August 2020
7. Instructor, Mathematics (MATH 143), 1 FTE \$ 56,481, Exempt, Benefits Eligible, Date of Hire: August 2020
8. Instructor, Mathematics (MATH 143), 1 FTE \$ 56,481, Exempt, Benefits Eligible, Date of Hire: August 2020
9. Instructor, Mathematics (MATH 143), 1 FTE \$ 56,481, Exempt, Benefits Eligible, Date of Hire: August 2020
10. Instructor, Mathematics (MATH 143), 1 FTE \$ 56,481, Exempt, Benefits Eligible, Date of Hire: August 2020
11. Teaching Assistant, Mathematics (MATH 143), 0 FTE., \$18,837, Group, Date of Hire, August 2020
12. Teaching Assistant, Mathematics (MATH 143), 0 FTE, \$18,837, Group, Date of Hire, August 2020
13. Teaching Assistant, Mathematics (MATH 143), 0 FTE, \$18,837, Group, Date of Hire, August 2020
14. Teaching Assistant, Mathematics (MATH 143), 0 FTE, \$18,837, Group, Date of Hire, August 2020
15. MATH 143 Peer Tutors (undergrads), 0 FTE, \$19,200, Not Benefits Eligible, Date of Hire, August 2020
16. Instructor for Statistical Science (MATH 153/251), 1 FTE \$67,204, Exempt, Benefits Eligible, Date of Hire: August, 2020
17. Instructor for Statistical Science (MATH 153/251), .5 FTE \$33,602, Exempt, Benefits Eligible, Date of Hire: August 2020
18. Teaching Assistant 1, Statistical Science (MATH 153/251), 0 FTE, \$15,007.20, Date of Hire, August 2020
19. Teaching Assistant 2, Statistical Science (MATH 153/251), 0 FTE, \$15,007.20, Date of Hire, August 2020
20. MATH 153/251 Peer Tutors (Undergrads), 0 FTE, \$19,200, Not Benefits Eligible, Date of hire: August 2020.
21. ENGL 101/109 Graduate Tutors, 0 FTE, \$57,600, Not Benefits Eligible, Date of Hire August 2020
22. Academic Advisor, University Advising Services, Strategic Enrollment Management, 1 FTE, \$45,000, Exempt, Benefits Eligible, Date of Hire: Start FY21
23. Academic Advisor, University Advising Services, Strategic Enrollment Management, 1 FTE, \$45,000, Exempt, Benefits Eligible, Date of Hire: Start FY21
24. Academic Advisor, University Advising Services, Strategic Enrollment Management, 1 FTE, \$45,000, Exempt, Benefits Eligible, Date of Hire: Start FY21

- b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

**A Better Deal for Returning Adults:** Our Center for Excellence in Teaching and Learning currently has four full-time staff who support faculty in using our learning management system and who can provide some basic assistance in course redesign to develop online courses. With our desired growth in online programs to support adult and place-bound learners, about 75% of their time will be redirected to support this initiative, but that will reduce the amount of assistance they can provide to support our traditional, face-to-face courses.

**Co-Requisite Support:** Faculty, teaching assistants, and peer tutors who are currently supporting MATH 143 and MATH 251 will provide co-requisite support, as well as staff for the Polya Lab and the Statistical Assistance Center. While we will redirect their efforts to help support the co-requisites, we do not have the capacity, with our current staff and peer tutors alone, to provide co-requisite support.

**Proactive Advising:** There are a total of 21 permanent advising positions supported by Complete College Idaho funding, one position supported by general education funding, and one position supported by Strategic Enrollment Management temporary funding. These positions include 14 college-specific academic advisors, three lead advisors, two pre-health advisors, one honors advisor, one student success coordinator, a VandalStar coordinator to support proactive advising, and one college associate director of student services. However, our advisor to student ratio is approximately 575:1, well above the 350:1 ratio that is in line with best practices or equivalent to peer institutions, which have on average a ratio of 285: 1. Without additional advisors, we are not able to fully implement proactive advising.

- c. **List any additional operating funds and capital items needed.**

**A Better Deal for Returning Adults:**

1. Senior Instructional Designer, Center for Teaching & Learning, Academic Initiatives
  - Staff Travel: \$5000
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$5000
2. Instructional Designer, Center for Excellence in Teaching & Learning, Academic Initiatives
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$5000

3. Instructional Designer, Center for Excellence in Teaching & Learning, Academic Initiatives
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$5000
4. Senior Digital Media Teaching and Learning Specialist, Center for Excellence in Teaching & Learning, Academic Initiatives
  - Staff Travel: \$5000
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$5000
5. Digital Media Lab and Instructional Technology Specialist, Center for Excellence in Teaching & Learning, Academic Initiatives
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$5000
6. One Button Studio Capital Outlay: \$13,513 (One-time)
7. Lightboard Studio & Portable Lightboard Capital Outlay: \$14,150 (One-time)
8. Streaming Server (MyMedia by Kaltura): \$85,000 annually

**Co-Requisite Support:**

1. Instructor, Mathematics (MATH 143), College of Science
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$2500
2. Instructor, Mathematics (MATH 143), College of Science
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$2500
3. Instructor, Mathematics (MATH 143), College of Science
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$2500
4. Instructor, Mathematics (MATH 143), College of Science
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$2500
5. Teaching Assistant, Mathematics (MATH 143), College of Science
  - Trustee/Benefits for In-State Tuition and Fees: \$9876
  - Start-Up/Capital Outlay: \$2500

6. Teaching Assistant, Mathematics (MATH 143), College of Science
  - Trustee/Benefits for In-State Tuition and Fees: \$9876
  - Start-Up/Capital Outlay: \$2500
7. Teaching Assistant, Mathematics (MATH 143), College of Science
  - Trustee/Benefits for In-State Tuition and Fees: \$9876
  - Start-Up/Capital Outlay: \$2500
8. Teaching Assistant, Mathematics (MATH 143), College of Science
  - Trustee/Benefits for In-State Tuition and Fees: \$9876
  - Start-Up/Capital Outlay: \$2500
9. Instructor for Statistical Science (MATH 153/251), College of Science
  - Staff Travel: \$2500
  - Operating Expenses: \$4000
  - Start-Up/Capital Outlay: \$2500
10. Instructor for Statistical Science (MATH 153/251), College of Science
  - Staff Travel: \$1000
  - Operating Expenses: \$2000
  - Start-Up/Capital Outlay: \$2500
11. Teaching Assistant 1, Statistical Science (MATH 153/251), College of Science
  - Trustee/Benefits for In-State Tuition and Fees: \$9876
  - Start-Up/Capital Outlay: \$2500
12. Teaching Assistant 2, Statistical Science (MATH 153/251), College of Science
  - Trustee/Benefits for In-State Tuition and Fees: \$9876
  - Start-Up/Capital Outlay: \$2500
13. Math Database Updates: \$30,000 (annually)
14. English Co-Requisite Support College of Science
  - Operating Expenses: \$12,000 (annually)
  - Start-Up/Capital Outlay: \$7500

**Proactive Advising:**

1. Academic Advisor, University Advising Services, Strategic Enrollment Management
  - Staff Travel: \$3,000
  - Operating Expense: \$4,000
  - Start-up/Capital Outlay: \$5,000

2. Academic Advisor, University Advising Services, Strategic Enrollment Management
  - Staff Travel: \$3,000
  - Operating Expense: \$4,000
  - Start-up/Capital Outlay: \$5,000
3. Academic Advisor, University Advising Services, Strategic Enrollment Management
  - Staff Travel: \$3,000
  - Operating Expense: \$4,000
  - Start-up/Capital Outlay: \$5,000

- a. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

To determine our needs for online/digital learning, we contacted University of Georgia, Georgia State University, and Penn State to find out what equipment they use to support their highly successful online learning initiatives as well as how many staff support their programs. For studios (one-button and Lightboard), we created a cost sheet for each item and reviewed several suppliers to find the most cost-efficient way to purchase equipment.

For personnel, we calculated how many professional and instructional staff are needed based on best-practice ratios (staff-to-student; faculty-to-student; staff-to-faculty) based on our current enrollments and factoring in flat enrollment growth. Currently in all requested areas we are understaffed to support online course development for ***A Better Deal for Returning Adults***, to support math and English ***co-requisite*** courses, and to support students with ***proactive advising***.

Salary administration at the University of Idaho is based primarily on market rates, or the average salary paid for a particular job. Each position has a market rate assigned to it based on the duties and responsibilities of that particular position. U of I uses the rates available from the following two primary-salary surveys:

- The Bureau of Labor Statistics (BLS), which collects data with salary information from an eight-state region — Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming
- The College and University Professional Association (CUPA). The CUPA data is based on both regional and national data for institutions with the same Carnegie designation (R2, Higher Research Activity) as U of I.

This information is managed position by position and not aggregated into a pay chart with grades and steps. Beyond the market rate, there other factors considered such as minimum compa-ratio (80% of the market or greater) and education. We used our market based compensation system when determining salaries for the positions in this request.

- 3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

One-time funds would be for technology to support these initiatives (one-button studio, lightboard studio, computers for faculty/staff). Ongoing includes faculty and staff positions, peer tutors, travel, operating expenses, database maintenance, and the streaming server.

- 4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

Undergraduate students will be served by this request. With funding to support online degree programs, we will be able to serve returning adult students as well as traditional students who may be place-bound. This would allow us to serve a new student base. Also served will be currently enrolled undergraduate students as well as incoming undergraduates. With additional resources to support students in gateway math and English courses, as well as advisors to support proactive advising, we will increase our retention, progression, and graduation rates.

Without this funding, it will be difficult to develop high quality online programs for returning adults, provide corequisite support, or fully implement our proactive advising plan, hindering us from fully implementing the Complete College America game changer strategies that are part of Idaho's Momentum Pathways Project.

**Description:**

The College of Law seeks funding to support its two-location operation in Boise and Moscow. The College’s expansion in Boise has relied almost entirely on funds generated by the law student professional fee. But this funding source has not been sufficient to support the full cost of the expansion, or to serve our students adequately. In addition, reliance on professional fee revenue has both significantly increased the costs borne by students, and created a structural imbalance that will only increase that reliance on students in the future. This is inconsistent with our duty to serve the public as the state’s public law school. Because most of the costs associated with the expansion of our operations are in payroll, this request seeks funding for faculty and staff lines currently funded by the student professional fee. This funding is critical to the continued success of our students in both locations. It will allow us to offer in-person career development,

academic success, student-support, and bar-exam preparation services in both locations. Because of the personal and often sensitive nature of these services, the opportunity to develop in-place relationships with staff at the College of Law is crucial to our students' long-term success. In addition, the funding will allow us to offer experiential learning opportunities with full-time faculty—opportunities that provide students with the knowledge and skills they need to be successful advocates from day one of their professional careers. In sum, this funding will stabilize the College's financial condition, reduce our reliance on student fees, and secure our ability to continue serving the state by providing high-quality, affordable legal education that ensures the long-term success of our students and the people and businesses they will serve.

Since 1909, the University of Idaho College of Law has provided a high-quality, affordable legal education to Idaho residents and our neighbors throughout the Pacific Northwest and Northern Rockies. After more than a century, our primary goal remains to ensure that all Idaho residents—whatever their means or origins—have access to an affordable legal education, and thus can return to their homes and hometowns to provide legal services that reach all of Idaho. Our purpose is to serve the entire state—Bonners Ferry to Boise, Preston to Potlatch.

In 2010, as part of our effort to serve all of Idaho, the College of Law began offering courses in Boise. Beginning with the 2010-2011 academic year, students could complete their entire third year in Boise. In the 2014-2015 academic year, students could finish their second and third years in Boise, after attending law school in Moscow for their first year. And finally, beginning in 2017-2018, students could complete all three years of legal study in either Moscow or Boise.

Now completing our second year of offering all three years in both Moscow and Boise, we can confirm that the effort has been successful and the future continues to look promising. The College is already at capacity in Boise, and Moscow continues to attract highly-credentialed students. The College's enrollment is strong. From 2017-2018 to 2018-2019, our entering student enrollment increased by more than 6%, and the information available as of this writing (June 6, 2019) indicates that the College will see an even larger year-to-year increase for the class that enters in fall 2019. Current enrollment numbers suggest that our next class could be the largest in the College's history.

But operating a single law school in two locations, 300 miles apart, and serving a state of Idaho's size and diversity does come with some costs. Since 2010, when the College began its significant expansion into Boise, it has added 10 staff and 10.5 faculty positions. Combined with increased operational costs associated with two locations, the College's total costs have increased approximately \$2.7 million per year since 2010 as a result of our expansion into Boise. Although the College of Law did receive an appropriation of \$400,000 to help fund the Boise expansion, the majority of the funding has come from our students. But that funding is not sufficient to cover the full cost.

The cost paid by students in the College of Law consists of two basic components: tuition paid to the University and a professional fee dedicated to the College of Law. The professional fee paid by students has increased from \$6,220 during the 2009-2010 academic year to \$12,384 for the upcoming 2019-2020 academic year. The increase in

the law school professional fee has served multiple purposes, but the primary purpose has been to fund the expansion into Boise. The effect on our students has been significant.

In 2009-2010, the year before the College started the expansion into Boise, our combined tuition and fees were \$11,776 for residents and \$16,924 for non-residents. Ten years later, for the upcoming 2019-2020 academic year, our combined tuition and fees will be \$22,260 for residents and \$41,496 for non-residents. This increase has largely eliminated our competitive advantage relative to other law schools in the region (e.g., our non-resident tuition is now more than the tuition at Gonzaga Law in Spokane), significantly increases the debt load for our students, and limits our students' ability to seek public-service or other employment in Idaho's small towns and cities where salaries are not what they might be in larger metropolitan areas.

Over the past decade, the College of Law has proven the viability of a two-location operation that can serve the entire state. The College's enrollment is growing, and demand remains high in both Moscow and Boise. With limited additional public funding, the College has succeeded through increased efficiencies, reduced programming, the dedication of faculty and staff, and—most significant—increased fees paid by our students. But those efforts are not enough. The College now seeks the public's support to ensure its continued success as Idaho's public law school throughout its second century.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The College of Law is requesting ongoing funding to support ten faculty positions and nine staff positions currently funded by the law student professional fee. Although the faculty positions are not all physically located in Boise, they do represent the ten new positions required by the Boise expansion, and the funding for these positions was transitioned to the law student professional fee to free up general education funding to support other aspects of the expansion into Boise. The staff positions are all new positions physically located in Boise and required by the Boise expansion. The amounts requested are based on the FY20 salary for each position, with an additional 3% to estimate increases for FY21.

In addition, the College is requesting one-time funding to support upgrading its ability to provide both classes and events that serve both our Moscow and Boise locations. Our current technology is inadequate and prohibits us from providing interactive distance education experiences in our large classrooms.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Position	Exempt/CL	FTE	Salary	Benefits	PCTotal
Dean	Exempt	1.00	\$298,833	\$73,063	\$371,896
Regular Faculty-Academic Year	Exempt	1.00	\$158,334	\$44,189	\$202,523
Regular Faculty-Academic Year	Exempt	1.00	\$150,591	\$42,598	\$193,189
Regular Faculty-Academic Year	Exempt	1.00	\$144,473	\$41,341	\$185,814
Associate Dean for Boise	Exempt	1.00	\$144,866	\$41,421	\$186,287

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

This request only addresses the faculty and some staff positions required by our expansion into Boise, although covering those positions helps address other areas. There have been many other effects, including the additional staff hires mentioned above. The most significant non-monetary human resources consequences are the increased demands on existing administrators and staff who are now tasked with managing a law school that spans 300 miles and two time zones, and on faculty who teach in both locations via distance technology. Due to the financial constraints this request seeks to remedy, the College has sought out all possible efficiencies, in some cases eliminating positions. The College of Law's staff and administrators are all extremely dedicated to the College and its future, and often perform work well in excess of that described in their position descriptions. This situation, although heartening, is likely not sustainable.

- c. List any additional operating funds and capital items needed.

The College of Law offers 12-16 hours of distance classes per day, throughout the year, and thus relies substantially on the ability to connect the two locations. In addition, we attempt to hold student meetings and activities, events, and faculty and staff meetings jointly in Moscow and Boise. The current situation does not serve all of our needs. While the College does have the capacity to connect our smaller classrooms, the larger classrooms cannot interact, and the College lacks the ability to have all of a single cohort of students meet in one virtual classroom. Similarly, large events like the Bellwood Memorial Lecture and its associated programming cannot be shared interactively, and thus both our students and the public miss out on the opportunities these events provide. The technology in our building in Moscow is completely out of date and malfunctioning, is no longer supported by the manufacturer, and needs to be replaced in its entirety. The basic technology in our building in Boise is adequate, but the room was not set up as a distance education classroom, and thus requires modifications to serve that purpose. Our ability to connect the two locations in a truly interactive fashion is critical to our continued ability to serve the state and the University's land-grant mission.

<b>Total</b>	<b>\$250,000</b>

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

The College compared its operating costs in 2009-2010 (the year before the expansion into Boise, when overall enrollment numbers were near a historic peak but similar to current numbers) to its current operating costs, focusing specifically on the increases in faculty and staff that were required to make the Boise expansion work. There were also additional increases in operating costs, facilities, and in the library, but over 90% of the additional costs were in payroll. The College then subtracted additional funding it received from the state to support the Boise expansion, yielding an overall increase of approximately \$2.4 million in operating costs. This request thus reflects both the increase in the number of faculty positions required to support the Boise expansion, and the overall increase in total costs to operate the College.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request is for ongoing funds to support faculty salaries in both Boise and Moscow. Stabilizing both the law student professional fee and the College's overall financial position will allow us to rebuild our competitive advantage relative to other regional law schools, which will allow for continued enrollment growth, and thus continued increases in revenue without increasing the per student cost.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Ultimately, this request serves Idaho's citizens, both those who wish to attend law school and those who require affordable legal services. As the state's public law school, it is our mission to serve the public and support a legal profession that can provide affordable legal services throughout the state. Our ability to serve both sides of this equation—the Idaho residents who wish to enter law school and the people they will serve after successfully completing that journey—is dependent on our ability to provide a high-quality legal education at a cost that makes sense in our state and region. The legal profession is fundamentally a service profession, providing the advice and counsel that helps the economy expand, builds businesses, protects fundamental rights, and provides assistance in the very worst of situations. Unfortunately, the College's continued viability, and ability to serve the public, will suffer substantially if it does not receive this funding. The College's other options at this point are to decrease the services it provides significantly, on top of reductions in services already required, or to continue to increase the costs borne by our students. This will, of course, have a negative effect on our ability to attract good students and provide a legal education consistent with the expectations of Idaho's citizens. That outcome is inconsistent with the University's land-grant mission, and our obligations

to serve the state and her people. The College of Law has served Idaho for over a century, and intends to be here serving the state a century from now.

TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
<b>GRAND TOTAL</b>	<b>90,000</b>				<b>90,000</b>

**Description:**

The University of Idaho College of Law and the Idaho Supreme Court share space within the Idaho Law and Justice Learning Center (ILJLC) which is leased from the state via an MOU which requires rental payment to the Department of Administration. The current arrangement is that the Department of Administration bills only the University of Idaho for the full space; however when funds were first appropriated for this space \$90,000 was appropriated to the Idaho Supreme Court based on the amount of space they initially occupied in the ILJLC and the remainder was appropriated to the University of Idaho. This split funding requires that the University of Idaho invoice the Idaho Supreme Court

each year in order to receive their \$90,000 in funding and then pay the full amount owed to the Department of Administration.

This request is to shift the \$90,000 in base state general funds that was originally appropriated to the Idaho Supreme Court to the University of Idaho, thereby aligning the funding with the entity responsible for making payment to the Department of Administration. This proposed change has been communicated to and is supported by the Division of Financial Management as a method to streamline funding.

**Questions:**

**1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

A shift of \$90,000 from the Idaho Supreme Court to the University of Idaho is being requested. There is no staffing impact and no new funding being requested.

**2. What resources are necessary to implement this request?**

No new resources are necessary; this is a shift of existing resources from the Idaho Supreme Court to the University of Idaho.

**3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

This request is ongoing as it is for a permanent shift of \$90,000 from the Idaho Supreme Court to the University of Idaho.

**4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

This funding shift would simplify the administration of the ILJLC space for both the University of Idaho and the Idaho Supreme Court by eliminating the need for interagency invoicing. If not funded, the current inefficient and non-value added process would remain in place.

**Description:** Inspired by the new Complete College America (CCA) strategy, *A Better Deal for Returning Adults*, and building on Lewis-Clark’s long tradition of serving non-traditional students, this FY21 Line Item request is focused on the Adult Learner Program (ALP). In our line item request for FY21, we requested staff positions to support a full ALP. While no funds were received, through internal reallocation, we were able to utilize existing staff and resources to launch the program. There are many important components of the program which will require dedicated staff as the program gains traction – for now, we are exploring accelerated terms, creating structured schedules, ensuring student support offices are open at alternative times, enhancing our focus on Prior Learning Assessment (PLA). We have also received Workforce Development Council funds for an ALP marketing campaign. As we roll out the program, there are critical positions where we have insufficient resources, which is the subject of this FY21 request.

Alignment with institution/ Board strategic plans: Development of an Adult Learner Program fits with SBOE's FY19 Goals 2 (Educational Attainment) and 3 (Workforce Readiness). The program aligns with LCSC's 2018-2023 Strategic Plan *Goal 2 Increase student enrollment, retention and completion: Objective 2.B. Increase the number of non-traditional, adult learners enrolled in degree programs*. LCSC's Core Theme I. *Opportunity: Expand access to higher education and lifelong learning* provides a fitting backdrop for this initiative.

Performance Measures: Relevant FY19 SBOE measures include Percentage of Idahoans (ages 24-35) who have a college degree or certificate requiring one academic year or more of study—benchmark: 60%. LCSC measures: 1) Number of adult learners age 25 or older and 2) increase in online headcount, as well as 3) number of degrees or certificates awarded.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Lewis-Clark State College seeks funds to retain high quality, experienced key faculty and staff. In support of adult learner initiatives, faculty and staff will be expected to make contributions to the program by expanding work hours, modalities and teaching and learning strategies to best teach and meet the support services needs of 25+ year olds who are balancing work and family obligations, along with school. In other words, faculty and staff will be expected to do new work and to do more work, often at alternative hours and employing different methodologies. LCSC has updated its Duty Assignment Policy to clearly state that evening and weekend hours, as well as alternate teaching and communicating delivery modes (e.g., face-to-face, online, hybrid, real-time chat, etc.) will be expectations across LCSC faculty and staff employees to meet the needs of the Adult Learner program participants, and enhance the education experience among all LCSC students. Specifically, funds are requested to address longstanding and growing faculty and staff salary compression and equity issues, which is also in alignment with LCSC's Strategic Plan Goal #4.B., *Bring 8% of employees to 80% of policy each year*. To fully address compensation issues at the College, more than \$1 million of ongoing monies are needed. This current request will make a significant down payment on achieving the institution's compensation goals which simultaneously addresses the need to provide broader coverage through differential shift and non-traditional hours.

Lewis-Clark State College has historically seen part of its niche as service to non-traditional and first-generation College students. In order to better serve those students and provide a campus that is accessible and safe for all, the objective of this FY21 line item is to first create better access for students and adult learners with disabilities. According to a May 19, 2016 briefing Paper from the National Council on Disability, "Students with disabilities are attending postsecondary education at rates similar to nondisabled students but the

completion rates are significantly lower (only 34 percent finish a four-year degree in eight years), indicating the possibility of inadequate or inappropriate supports and services.” In order to support students with disability needs, and seeking to meet what is a growing need at the college, LCSC is requesting support for a full-time Disabilities Services Coordinator, with substantial funding to help provide advising, support and equipment.

Lewis-Clark State College requests on-going funding for a full-time (1.0 FTE) Disability Services Coordinator and additional resources to support compliance with the Americans with Disability Act related to classroom and service accommodations. The college has relied upon counseling staff to perform this function since the early 1990s. But, as demand for student counseling has grown in addition to demand for disability accommodations, this model is no longer sustainable. Internal reorganization and reallocation have occurred. However, the complexities of developing accommodations for students in all facets of their educational experience, plus the growing number of requests filed by students (an increase of 18% from the 2015-16 academic year to the 2017-18 academic year) justify this request. Further, the expenses associated with accommodating student disabilities have also increased. Federal requirements for accommodating hearing-impaired students, for example, have changed such that only interpreters with specific certifications are considered “appropriate.” Costs for such interpreters can be as much as \$42 per hour – especially in North Central Idaho, which has a limited pool of interpreters in general. Specialized computer equipment required by students with visual impairments or other high tech equipment, which the college is required by federal law to provide, also represent a growing financial burden for the institution. The demand for assistive technology, interpreter services, and similar support has more than doubled in two years.

Lastly, LCSC requests further campus security, including the addition of an after-hours Security Officer in support of after-hours programming. With an increase in adult learners on campus, particularly during after-hours, there is a commensurate need for increase in Security personnel to maintain a safe and welcoming campus experience. Accompanying this personnel request is a proposal to add further surveillance cameras to the campus to provide greater security as the hours of campus operations expand.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Employee Retention	\$216,000	NA	Yes	July 1, 2020	12-month
Disabilities Services Coordinator	\$60,000	1.0 FTE	Yes	July 1, 2020	12-month
After Hours Security Officer	\$27,000	1.0 FTE	Yes	July 1, 2020	12-month

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Through the program prioritization process, existing resources will be reallocated to support online course development. As previously referenced, the Financial Aid, Advising, and Counseling offices will be directed to expand their business hours into the evening or perhaps on Saturdays, to accommodate the adult learners.

- Disabilities Services Coordinator, the College requests \$67,000 in ongoing funding to support the hiring of sign language interpreters and other accommodations for students, and further requests \$3,000 for a computer workstation (total \$70,000).
- One-time capital outlay of \$87,000 for security cameras to support the after-hours security officer plus \$3,000 for a computer workstation (total \$90,000).

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

To create a comprehensive and sustainable program, with the exception of Capital Outlay, the request is for ongoing State General Funds. The attached spreadsheet lists requested positions in order of priority.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The ALP will serve adults in LC's service regions. Receipt of funding will allow for excellent instruction, accessible support services and a safe campus environment LCSC is committed to meeting the needs of non-traditional students and adult learners.

Note: While the focus of this request is on a new Adult Learner Program, each of the requested positions will also benefit current and future LCSC students.

LUMP SUM:					
<b>GRAND TOTAL</b>	<b>\$267,500</b>				<b>\$267,500</b>

**Description:** Consistent with FY2021 request guidelines, enhancing and expanding existing, successful programs require additional attention to federal, state, and local compliance requirements. Assessment of compliance measures on campus indicate that in order to effectively manage the requirements of the Governor’s Task Force on Higher Education, current staffing and technology must be supplemented to an extent that requires more than merely reallocating internal funding. A Cybersecurity Analyst would allow the College to think about addressing potential threats in a more comprehensive way.

Through assessment and accreditation processes, LCSC became aware of the many areas across campus where environmental safety standards are required. However, many different people address environmental safety in their own division or department, but no one office holds oversight for such standards. Lewis-Clark State College is the only four-year institution in Idaho without a distinct Environmental Health and Safety

Department. Establishment of this position would be the beginning of the creation of clear policies and procedures to support compliance on issues such as waste disposal, hazardous material disposal, and operational safety.

The addition of an Athletic Trainer/Instructor who would provide on-field medical support to student-athletes, similarly addresses compliance objectives through adherence to the standards set forth in the Recommendations and Guidelines for Appropriate Medical Coverage of Intercollegiate Athletics (AMCIA) and the NAIA.

Alignment with institution/ Board strategic plans: This request fulfills the State Board of Education's Goal 1, Objective C (Higher Level of Educational Attainment – Increase successful progression through Idaho's educational system) and its superordinate goal of the State Board of Education to provide a secure and safe environment to support LCSC's learning objectives and assures compliance with standards set forth by the Governor's Task Force on Cyber-Security. It further supports LCSC's Strategic Plan Goal 2, to increase student enrollment, retention and completion by assuring equal access for all students and LCSC's Strategic Plan Goal 3, to foster inclusion throughout campus culture and processes.

Performance Measures: Relevant FY19 SBOE measures include Percentage of Idahoans (ages 24-35) who have a college degree or certificate requiring one academic year or more of study—benchmark: 60%.

### Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

In order to support the safety of students, both traditional and adult learners, resources need to be driven to customer service, requiring new funding streams to support cybersecurity initiatives. A 1.0 FTE Cybersecurity Analyst is requested to fully implement the Governor's Cybersecurity Executive Order 2017-02, and to address critical security controls included in the Order. To thwart continuous cyber threats, the position will focus on procuring appropriate systems, maximizing the capabilities of existing systems, and professionalizing employee awareness on matters involving cybersecurity. The request derives from priorities established through LCSC's annual assessment process, which is an outgrowth of the program prioritization initiative established by the State Board of Education. The campus assessment included the on-going two-year statewide analysis of all agencies, which has been led by cybersecurity experts in the governor's office. In order to meet the expectations of Executive Order 2017-02, it became apparent that the current personnel structure within IT to address these needs through fractions of multiple positions is not efficient in addressing cybersecurity needs.

In summary: 1) This position will develop better campus initiative to educate students, faculty and staff about cybersecurity issues and create awareness of the appropriate ways to respond to various threats; and 2) This position will help LCSC build a more secure infrastructure, and monitor internal irregularities as well as external threats.

The College also seeks funding for a 1.0 FTE Environmental Health & Safety Specialist. This position will allow the college to operate in accordance with best practices regarding potentially hazardous materials, and will be responsible for the creation of institution-wide policies and protocols. The responsibilities associated with this position are currently subsumed by several campus personnel, thus putting the college at risk for inconsistent handling of hazardous materials. By creating this position, the staff tasked with this responsibility will be able to focus on other aspects of the college’s operation including support of adult learner and other enrollment initiatives. The Environmental Health & Safety Specialist will go beyond ensuring compliance by helping to establish laboratory procedures that will serve as a model for students in their chosen professions.

In order to: 1) Support students engaged in the College’s successful athletic programs; and 2) Further the College’s ability to provide instructional staff for the growing Movement and Sport Science department, the request is being made for an additional full-time Athletic Trainer (AT)/Instructor. Specific to athletic training: the NAIA adopted the National Athletic Training Association’s (NATA), appropriate medical coverage recommendations and guidelines. These guidelines were established to help institutions protect against liability-related issues associated with providing adequate care to student-athletes. LCSC’s sports menu includes 12 sports. As such, LCSC is currently not in compliance with the NATA’s AMCIA recommendations pertaining to athletic training staffing levels and appropriate healthcare for student-athletes. Based on the guidelines, LCSC should have 4.0 full-time athletic trainers, not including the increased requirements associated with women’s soccer and with Title IX compliance. LCSC currently employs 2.4 AT’s. A 3rd AT is essential to LCSC’s Title IX compliance plan and the addition of women’s soccer (which is considered a contact sport and requires daily on-field medical supervision and travel). This position will also supplement instructional needs associated with LCSC’s exercise science and kinesiology curricula – particularly in areas of sport fitness and wellness.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

<b>Title</b>	<b>Salary</b>	<b>FT/PT</b>	<b>Benefit Elig</b>	<b>Date of Hire</b>	<b>Term</b>
Cybersecurity Analyst	\$75,000	1.0 FTE	Yes	July 1, 2020	12-month
Environmental Health & Safety Specialist	\$60,800	1.0 FTE	Yes	July 1, 2020	12-month
Athletic Trainer/Instructor	\$39,000	1.0 FTE	Yes	July 1, 2020	12-month

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Existing operations will be positively impacted by creating centralized recordkeeping, processes and policies to protect the institution and the various constituencies it supports. Existing employees will be freed from the responsibility of researching and determining best practices, allowing faculty, in particular, to focus on implementing compliance, rather than researching compliance. Further, establishment of best practices across the institution will elevate awareness of concerns and issues that can be more easily and quickly addressed.

- c. List any additional operating funds and capital items needed.

Operating funds for the other two positions include basic office support/supplies, and the addition of a Cisco Umbrella license (\$7,800), which extends domain name/phishing protection and provides content filtering. Capital Outlay includes a computer workstation for each of those two requested positions, totaling an additional \$9,000.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

With the exception of Capital Outlay, the request is for ongoing State General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All the requested items support either existing or future students, particularly to attract students who may need to have disability requirements met. Although the institution has engaged in the continual reallocation of funds to support these students, the cost to do so continues to outpace our ability to reallocate funding. The College acknowledges that compliance support may seem a little less attractive for funding purposes, but is essential in order to address the growing areas of required compliance that provide a secure environment for students. The College requests the support to better advance its efforts in these areas.

If these positions are not funded, the exposure of the institution to liability due to decentralized processes could create both financial and reputational risk.

**Description:**

As the total number of CTE pathways and programs continue to expand career opportunities for students and provide skilled employees for Idaho business, CTE added-cost funding must be sufficient to meet growth. In addition, the launch of the new CTE Middle School program will require additional added-cost resources. The Middle School initiative will provide greater and earlier exposure to a wide range of career opportunities to help improve student preparation and planning for high school and beyond.

The purpose of program added-cost funding is to provide additional funding resources to CTE programs to ensure high quality equipment and supplies are made available to teachers and programs. Added-cost funding also provides the necessary resources for ongoing teacher professional development, extended work contracts for activities outside the annual teacher contract, and travel to required Career Technical Student Activities.

Added-cost funding ensures a quality program will develop the necessary student learning outcomes to prepare a graduate for their transition to a postsecondary program, apprenticeship or into the workforce.

**Questions:**

**1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

As the total number of pathways/programs continue to grow, added-cost funding must increase to meet the ongoing annual demand of these new programs. This request continues this funding on an ongoing basis. Funding will also be used to review the current funding model to ensure resources are applied equally and effectively across all CTE programs and well as start implementation of the CTE Middle School initiative.

**2. What resources are necessary to implement this request?**

**a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

None

**b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

None

**c. List any additional operating funds and capital items needed.**

None

**3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

This request is for ongoing funding.

**4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

Added-cost funds collectively benefits students, their teachers, postsecondary faculty, and industry through increased participation, training and collaboration.

If this request is not funded, the division will not be able to financially support the expansion of secondary CTE programs in Idaho.

**How connected to institution/agency and Board strategic plans:**

**Description:**

The Division is requesting three FTP to increase staff capacity for the following critical functions:

Research Analyst, Senior

This position is critical to our ongoing efforts to increase accountability and oversight and to improve student learning outcomes. The need for greater data analysis capacity is the result of the following new initiatives and requirements:

- Implementation of the new federal Perkins V Act (passed by Congress in 2018) requiring new accountability measures;
- Implementation of a new CTE Management System (CTEMS) that will assure greater accuracy of reported student enrollment data and program funding;

- Increased utilization of State Department of Education's ISEE system to assure accuracy of data reported for calculation and distribution of added-cost and Career Technical Schools;
- Implementation of the expanded Program Quality Initiative that requires additional data analysis of the quality of applications;
- Implementation of the "Workforce Incentive" teacher bonus that requires data analysis of qualifying teachers that prepare their students for the workforce; and
- Stronger connectivity with the State Board of Education's Longitudinal Data System.

#### Senior Manager of Student Engagement

As the Division continues its efforts to expand quality CTE offerings and strengthen the career opportunities of students and the talent pipeline for business it is critical that we continue to increase our capacity to more effectively engage with students directly. This engagement includes:

- Improving the recruitment and retention of students into CTE programs starting in Middle School;
- Enhancing more effective student participation in Career & Technical Student Organizations;
- Increasing the understanding and utilization of SkillStack as a means to demonstrate student competencies; and
- Developing closer working relationships with counselors, college and career advisors, and transition coordinators, which is essential to helping assure students effectively connect with and "Go-On" to technical college programs, apprenticeships and career opportunities.

#### CTE Teacher Preparation Manager

Currently, the management and processing of CTE teacher certifications and endorsements is divided between the Division of Career Technical Education and the State Department of Education. The Division and SDE has jointly determined to consolidate and streamline all of the CTE teacher certification responsibilities within the Division of Career Technical Education. This will improve the quality of our service and interaction with teachers and improve the process of CTE teacher endorsements and certification. Additional workload for our Division includes the following:

- Processing of initial and renewal applications of degree-based CTE teacher certificates;
- Development and maintenance of CTE Certification Application packet for degree-based CTE teachers accessible on the CTE website;
- Professional development for new and existing CTE teachers;
- Processing of initial and renewal applications for Alternative Authorization CTE teacher certifications and occupational specialist endorsements; and
- Create and maintain the CTE Assignment Credential Manual.

#### **Questions:**

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

#### Research Analyst, Senior

This request is for one full-time Research Analyst position that will allow the Division to streamline of our data collection procedures, ensure the accuracy and comparability of data, and enable us to better analyze data for our program improvement efforts.

Director of Student Engagement

This request is for one full-time manager of CTE Student Engagement. Student engagement is currently directly accomplished through our team of CTSO managers, as well as indirectly through a number of other employees. This shift would centralize that function and strengthen not only support and outreach, but accountability and oversight of how our programs are communicated to the field and prioritized within the education system.

CTE Teacher Preparation Manager

This request is for one full-time CTE Teacher Preparation Manager to expand the capacity of the Division to accommodate the additional responsibility being received from the State Department of Education to streamline and improve CTE teacher certification and endorsement process.

**2. What resources are necessary to implement this request?**

- a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire and terms of service.**

See attached detail report

- b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

No resources will be redirected. This will expand current capacity in this area.

- c. **List any additional operating funds and capital items needed.**

This request includes funding for ongoing operating expenses such as travel, professional development, office related expenses. This request also includes one-time funding to repurpose existing space into offices.

**3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

Personnel and Operating requested is ongoing. Capital is one-time.

**4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

Research Analyst, Senior

Secondary and postsecondary teachers and administrators will benefit from this additional resource, which will allow us to better analyze student outcomes for data driven program improvement. Educators and Division Program Quality Managers will have reliable data and reports to make data- driven decisions on programs and opportunities to improve programs. Without this funding the Division will have not have the ability to insure adequate data analysis to implement important new initiative and continue to improve the quality and accountability of existing CTE funds.

Senior Manager of Student Engagement

Secondary and postsecondary CTE students will benefit from funding this request. The addition of this dedicated position within our office will help ensure students have access to the resources they need, and that information is communicated to teachers and administrators in ways that advocate for CTE and for better student learning outcomes. Counselors, transition coordinators, and college and career advisors will also benefit from having consistent, relevant information about CTE and how it can improve Idaho's go-on rate.

Given the ongoing support and growth of CTE in Idaho, not funding this request will continue to put a strain on existing resources. Consequently, it will limit the Division's ability to maximize support for our students and counselors, jeopardizing the foundation we have worked so diligently to build.

CTE Teacher Preparation Manager

Individuals applying for CTE teacher certifications and endorsement will greatly benefit by an improved process, as well as the schools and students these teachers serve throughout Idaho. Without these funds the Division will be greatly limited in its ability to sustain the increased CTE teacher certification workload.

<b>GRAND TOTAL</b>	<b>1,025,000</b>				<b>1,025,000</b>

**Description:**

This request is to provide increased support to the Division to help address the on-going, critical CTE teacher shortage in Idaho. It will help provide resources to maintain and expand programs to prepare CTE teachers coming through degree-based University programs and prepare individuals coming from the private sector into the CTE classroom.

University Prepared CTE Teacher Program

For over 20 years, the Division has helped fund the CTE teacher preparation programs at University of Idaho and Idaho State University. This funding is intended to support traditional 4- year degree educator training for CTE teachers. These programs are the primary education pipelines for teachers in the areas of agriculture, business, technology education and family consumer sciences. Due to rising costs for the four year education degrees, the current numbers of student teachers aren't adequate to sustain these programs at the Universities. Without the additional funding provided by the Division, the

degree-based CTE teacher preparation programs at these Idaho Universities would likely close, further jeopardizing the ability of Idaho secondary and postsecondary programs to find qualified CTE teachers. The combination of increased expenses at the Universities, demand for other services from the Division and efforts to improve the teacher pipeline has put the Division's ability to fund these programs in jeopardy.

Funding this request will formalize the support of the CTE teacher preparation programs in Idaho. It will provide more transparency and responsiveness by the Universities because it will be tied to specific teacher-educator positions, will be increasingly based on accountability through established metrics, and will help to elevate the support for these programs.

### Preparation of CTE Teachers from the Private Sector

In response to the ongoing CTE teacher shortage, the Division implemented a new certification program (INSPIRE) for individuals entering the CTE teaching profession directly from the industry without any out-of-pocket expenses by the new teacher. Historically teachers coming directly from the industry were required to attend formal programs at the Universities at significant cost to them both financially and in terms of time and travel.

The Division implemented the INSPIRE program in fall 2017 and since that time, 66 of the initial 75 teachers will graduate from the 2-year INSPIRE program with 8 of the remaining choosing to complete the university coursework in lieu of INSPIRE. Currently we see that 100% of the initial participants are still in the classroom after 2 years. The second cohort contains 33 enrollees finishing their first year. The Division requires additional funding to maintain this exciting new program which is proving highly successful at both teacher preparation and retention. Funding the ongoing training program for industry prepared teachers through INSPIRE will also increase the ongoing accountability required to ensure a high quality teacher preparation program continues to thrive.

### **Questions:**

**1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

This request includes the funds directly allocated to University of Idaho and Idaho State University and for ongoing teacher preparation resources.

**2. What resources are necessary to implement this request?**

**a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

None

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

None

- c. List any additional operating funds and capital items needed.**

None

- 3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

The entire amount of funding is ongoing.

- 4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

Funding this request will directly benefit our secondary and postsecondary institutions by providing a consistent CTE teacher pipeline. Failing to fund this line item request places the availability of these CTE teacher-preparation programs at risk. The ability to find trained CTE teachers is already a major concern and barrier to expanding quality CTE programs.

<b>GRAND TOTAL</b>	<b>70,000</b>				<b>70,000</b>

**Description:**

In the 2015 legislative session, amendments to Idaho Code 33-2205 (3) and (4) outline the intent that the Division of Career Technical Education will coordinate with the Idaho Digital Learning Alliance (IDLA) to provide approved online career technical education courses.

These initiatives were started in Fiscal Year 2015 using Division funds available for this purpose. One-time funds are being requested for continued course development for career technical education.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is for one-time funds of \$70,000 for course creation and inclusion in CTE Digital. The courses would be created by IDLA and offered through its delivery system. The legislature has asked the Division to expand online career technical education course offerings, and we can fulfill this request by working through IDLA. This funding would support creating four to six courses.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

None

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

None

- c. List any additional operating funds and capital items needed.

Operating funding requested is for payments to Idaho Digital Learning Alliance, no additional funding is required.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

The entire amount is for one-time funding.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request allows the Division to expand the number of online CTE courses. Over 2,000 students in over 100 school districts have been served by CTE Digital. Not funding this request will limit the number of online CTE courses to the current 10 courses previously developed and offered, and thereby limit the Division's ability to fulfill a legislative ask for more online CTE offerings.

## Line Item Questions - FY 2021

### Priority 1 - Dental Hygiene

#### Supports institution and SBE strategic plans:

Request supports NIC Core Theme I - Student Success: To provide access to an education environment that helps students attain their education goals; Core Theme II - Educational Excellence: To provide diverse, quality educational opportunities that promote lifelong learning; Core Theme III - Community Engagement: To meet the diverse educational needs of employers and the communities we serve. Request supports Board Goal 1 - A Well Educated Citizenry, 1. ICTE Objective: Student Success - create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements; Board Goal 3 - Effective and Efficient Educational System, 8. ICTE Objective: Funding Quality Programs - secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Priority request to fund Dental Hygiene Program satellite site in the LCSC area. Program was originally established through TAACCCT grant received by North Idaho College in October 2014; program director was hired in 2015; 2015-2016 curriculum developed; Idaho State Board of Education approval, December 2016; initial self-study submitted to accrediting body CODA, October 2016; institutional accreditation approval through NWCCU, April 2017; ICTE line item request for NIC program approved FY19 to transition program off of TAACCCT grant; CODA site visit scheduled - September/October 2019; first student cohort acceptance fall 2020

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.

Personnel: Adjunct Faculty Yr 1 - maximum 19.5 hours per week - non-benefited hourly position @ \$30.90 per hour; Adjunct Faculty Yr 2 -maximum 19.5 hours per week - non-benefited hourly position @ \$30.90 per hour; Part-Time Staff Administrative Assistant -maximum 19.5 hours per week - non-benefited hourly position @ \$14.00 per hour; Part-Time Dental Assistant - maximum 19.5 hours per week - non-benefited hourly position @ \$16.00 per hour; Capital Expense includes equipment for lab/clinic \$3,000.00; Operating Expenses include clinical mileage, faculty professional development, contracts with supervising dentists. and insurance for supervising dentists.

#### 3) Completed within Budget sheet

#### 4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Five students (mandated by CODA per faculty:student ratio) will be served in the LCSC area by this NIC satellite location. It is important to note that LCSC's Dental Clinic is fully equipped and functional based on a past partnership between LCSC and Lane College. Thus, initial start up costs to establish a dental clinical have been met. If this request is not funded, students and the community will be impacted. LCSC's advising services have maintained contact with NIC regarding students interested in the Dental Hygiene program. Dental clinics in the LCSC area have been attending meetings in Coeur d'Alene to assist with implementation. The Idaho State Board of Dentistry is also very interested in this program opening and will be participating in the upcoming CODA site visit this fall.

#### 5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.

This request was #3 last year; priority #1 and #2 from last year have been tabled until direction from NWCCU, SDE, and ICTE on apprenticeship framework and competency based education has been further outlined.

ICTE Objective: Funding Quality Programs - secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry

**1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

Personnel and operating expenses are being requested in order to begin new CTE program in Business Management. Agency staffing includes administration for program and fiscal oversight/development, otherwise, new funding is being requested. The Business Management program includes three components which make up the AAS degree: completion of the general business core; completion of three Basic Technical Certificates for a rich mix of CTE; and workplace skills.

**2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.**

Personnel: Assistant Professor in Business Management; Operating Expenses: misc expenses for reception/TAC meetings, specific use supplies for program operation, and employee travel for faculty professional development. NOTE: Hourly rate is not accurate due to formula calculation in spreadsheet. Annual faculty salary is \$55,000 based on NIC faculty salary schedule, thus had to back into an hourly rate. Benefits reflected using the formula in the spreadsheet are also not correct based on NIC's benefit package.

**3) Completed within Budget sheet**

**4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

The Business Management program is designed to fit educational and professional goals geared towards business leadership and management. The program will allow students to specialize in specific areas of interest for entry-level positions that meet their individual career and employer goals. If this request is not funded, both students and employers will be impacted as this degree is part of the college's larger entrepreneurship vision.

**5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.**

This request was not submitted last year; priority #1 and #2 from last year have been tabled until direction from NWCCU, SDE, and ICTE on apprenticeship framework and competency based education has been further outlined.

# North Idaho College

## Line Item Questions - FY 2021

### Priority 3 - Wastewater Treatment Technology

#### Supports institution and SBE strategic plans:

Request supports NIC Core Theme I - Student Success: To provide access to an education environment that helps students attain their education goals; Core Theme II - Educational Excellence: To provide diverse, quality educational opportunities that promote lifelong learning; Core Theme III - Community Engagement: To meet the diverse educational needs of employers and the communities we serve. Request supports Board Goal 1 - A Well Educated Citizenry, 1. ICTE Objective: Student Success - create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements; Board Goal 3 - Effective and Efficient Educational System, 8. ICTE Objective: Funding Quality Programs - secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Funding for adjunct faculty to instruct in specialized wastewater content areas is being requested. The primary instruction for this program will occur by clustering classes with the Industrial Mechanics/Millwright and Mechatronics programs. Thus, no additional full-time faculty or operational expenses required.

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are one the Budget sheet.

Adjunct Faculty working a maximum of 19.5 hours per week (non-benefited); \$15,200 wages + \$1,200 employer costs = \$16,400

#### 3) Completed within Budget sheet

#### 4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho's Wastewater Rules require all public wastewater treatment and collection systems to have a responsible charge wastewater operator that meets the wastewater system's classification requirements. Thus, the State of Idaho Department of Environmental Quality has requested the development of an accredited Wastewater Operator Training program at NIC's Parker Technical Education Center. In addition to the State of Idaho Dept of Environmental Quality, if this request is not funded, students and the community will be impacted due to lack of adequate training in the area.

#### 5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.

This request was not submitted last year; priority #1 and #2 from last year have been tabled until direction from NWCCU, SDE, and ICTE on apprenticeship framework and competency based education has been further outlined.

# North Idaho College

# North Idaho College

## Line Item Questions - FY 2021

### Priority 4 - CITE: Cybersecurity

#### Supports institution and SBE strategic plans:

Request supports NIC Core Theme I - Student Success: To provide access to an education environment that helps students attain their education goals; Core Theme II - Educational Excellence: To provide diverse, quality educational opportunities that promote lifelong learning; Core Theme III - Community Engagement: To meet the diverse educational needs of employers and the communities we serve. Request supports Board Goal 1 - A Well Educated Citizenry, 1. ICTE Objective: Student Success - create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements; Board Goal 3 - Effective and Efficient Educational System, 8. ICTE Objective: Funding Quality Programs - secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Personnel, operating expenses, and capital are being requested in order to begin new offsite CTE program in CITE: Cybersecurity to serve rural community. Agency staffing includes administration for program and fiscal oversight/development, otherwise, new funding is being requested. Collaboration with onsite CITE: Cybersecurity faculty will also be provided.

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.

CITE Assistant Professor - 1.0 FTP - Benefited position; Computer Equipment: (16) Desktop computers with dual monitors @ \$2,900.00 ea = \$46,400.00; (1) Hyper-V virtualization server \$8,000.00; (1) ESXi virtualization server \$8,000.00; (1) Storage area network server \$2,000.00; (1) 4-post equipment rack with surge protection \$1,500.00; (1) 2-post equipment rack with surge protection \$1,000.00; 10/100/1000 switch - WAN \$800.00; (1) 10/100/1000 Switch - LAN \$800.00; (1) Rackmount patch panel(s) \$200.00; (1) Firewall appliance \$800.00; (1) Network printer \$275.00; (1) KVM switch \$200.00; (1) misc length patch cables \$350.00; (1) wireless access point \$140.00; (1) Network installation costs \$7,875.00; Total: 78,340.00; Educ-Material/Equip: (1) Instructor Computer & Smart \$5,150.00; (1) Beam projector \$2,300.00; (1) Interactive classroom audio & video equipment \$12,000.00; Total: \$19,450.00. NOTE: Hourly rate is not accurate due to formula calculation in spreadsheet. Annual faculty salary is \$49,000.00 based on NIC faculty salary schedule, thus had to back into an hourly rate. Benefits reflected using the formula in the spreadsheet are also not correct based on NIC's benefit package.

#### 3) Completed within Budget sheet

#### 4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Because cybersecurity continues to be of industry concern including in the outreach sites, establishment of another lab in a rural community served by NIC is requested to meet rural needs. Determination of location (which Outreach Center) is under consideration based on feedback from the communities served. The one-time costs will establish the new lab. If this request is not funded, NIC will be unable to meet the requests from our rural partners. This impacts both students and community members.

#### 5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.

This request was not submitted last year; priority #1 and #2 from last year have been tabled until direction from NWCCU, SDE, and ICTE on apprenticeship framework and competency based education has been further outlined.

**Lewis-Clark State College**  
**Line Item Questions - FY 2021**  
**Priority 1 - Hospitality and Culinary**

**Supports institution and SBE strategic plans:**

Yes, this supports the 3-year plan for the institution

**1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

1 FTE is being requested to help with the expansion of one program (Hospitality) and the building of an additional program (Culinary).

**2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are one the Budget sheet.**

1 FTE is required and OE to support the new programs

**3) Completed within Budget sheet**

**4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

This request will help expansion in the hospitality program and allow the school to create the culinary program. Without the funding, the new program will not be created.

**5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.**

## Line Item Questions - FY 2021

### Priority 1 - Database Administrator

Supports institution and SBE strategic plans:

Goal 2: Educational Attainment: Objective A; Higher level of educational attainment

**1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

Equipment for delivery of this content is being requested. We are also requesting one FTE faculty for the program.

**2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are one the Budget sheet.**

Technology to deliver content and tools to replicate what will be used in this career path.

**3) Completed within Budget sheet**

**4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

This program will allow students to fill currently vacant positions across our state as we see a need for Database administrators rising as systems continue to grow in the web-based environment.

**5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.**

This was on last year's request.

## Line Item Questions - FY 2021

### Priority 2 - Cybersecurity Advanced AAS Expansion

**Supports institution and SBE strategic plans:**

Goal 2: Educational Attainment: Objective A; Higher level of educational attainment.

**1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

Equipment and development funding. A single FTE is already in our budget and being re-allocated to this area.

**2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.**

Computers with capacity for delivery and use in Cyber Security for this advanced curriculum and deployment of the additional tools.

**3) Completed within Budget sheet**

**4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

This addresses the state and national need for Cybersecurity specialists and the advanced technical skills gap within this field for advanced positions.

**5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.**

This was on last year's request.

## Line Item Questions - FY 2021

### Priority 3 - Paramedic

#### Supports institution and SBE strategic plans:

Goal 1: Educational System Alignment: Objective B: Alignment and Coordination with secondary, post-secondary. Goal 2: Educational Attainment: Objective A; Higher level of educational attainment. Goal 3: Workforce Readiness: Objective A: Workforce Alignment; Objective B: Medical Education

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Paramedic Science AAS Degree. The Paramedic Science academy style program will create an opportunity for students to enter the field of emergency management services and align our public safety programming to the trends in the industry. As with many other emergency service jobs like fire and law enforcement, the industry is trending toward credit programs as a requirement for advancement.

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.

We would need a 1.0 Paramedic Faculty (Program Director), several adjunct teachers to support ratios for labs, No existing labor within Instruction. When the program launches there will be a need equipment for demonstrations, labs, and clinical training.

#### 3) Completed within Budget sheet

#### 4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request serves the public safety community and the associated industries of paramedics, fire, and emergency response. Fire departments are now adding a trained paramedic to the engines. If the request is not funded, we will delay the implementation of the program, ultimately impacting the public service industry.

#### 5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.

# College of Southern Idaho

## Line Item Questions - FY 2021

### Priority 1 - Apprenticeship and Apprenticeship for Credit Expansion

#### Supports institution and SBE strategic plans:

Expansion of apprenticeship offerings and offering college credit for apprenticeships is an important element in promoting CSI and SBEs goal of increasing the number of Idahoans possessing college certificates and degrees. We are working with our local and regional industries to develop apprenticeships and to offer apprenticeship completers the opportunity to transcribe all, or part of their related training and on the job training for college credit.

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

##### 1. Apprenticeship Curriculum Designer and Instructor

a. Expanding the current Student to Registered Apprenticeship Program (STRAP) that is currently offered only in the MiniCassia area to, first, Jerome, and then to Twin Falls. This position would teach the Machine Operator Apprenticeship related instruction in all three areas, as well as work in outreach and development/ expansion of similar opportunities.

b. The Curriculum Designer would primarily be tasked with outreach and developing programming specifically related to college credit for apprenticeship as outlined by the Registered Apprenticeship-College Consortium (RACC) and Industry-Recognized Apprenticeship Program (IRAP) that have not yet been developed in Idaho, but are in the works. Our relationship with Idaho Power and their apprenticeship program would be an example. This individual would also help to expand apprenticeship beyond traditional fields.

##### 2. Apprenticeship Instructors (2)

a. Our desire to expand apprenticeships is especially important since many of our students have full-time work available to them. These instructors would teach our current and expanded STRAP apprenticeships, work with industries to provide assistance in the development and delivery of instruction, and offer technical assistance to business partners in the administrative responsibilities of managing apprenticeship programs.

##### 3. Operating Funds

- a. Consumable supplies for apprenticeship programs, travel, marketing materials
- b. Funds associated with curriculum development, conferences, office technology, etc.

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are one the Budget sheet.

CSI currently employs a full-time, CTE funded apprenticeship instructor who does some curriculum development and outreach. We also employ a full-time apprenticeship coordinator who manages logistical concerns, scheduling, and limited promotion. We want to expand this team by adding three full-time instructional positions, including one, which will emphasize development of curriculum, and one who will actively work with the credited CTE programs to develop apprenticeship to credit

#### 3) Completed within Budget sheet

# College of Southern Idaho

## Line Item Questions - FY 2021

### Priority 1 - Apprenticeship and Apprenticeship for Credit Expansion

**4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

We plan to target both existing CSI students participating in established CTE programs as well as increasing the participation rate in existing registered apprenticeships such as Maintenance Mechanic and Machine Operator programs. These programs target both adult (incumbent workers) as well as high school students 16 to 18 years of age.

Programs targeted through this project will include selected programs in trade and industry, healthcare, advanced manufacturing, and business (i.e. welding, diesel mechanic, manufacturing technology, food processing technology, automation controls engineering, culinary, business management, etc.). In addition, CSI will leverage its existing apprenticeship programs (both state and federal) to increase participation in these programs by acting as an Apprentice Sponsor.

Targeting the programs above builds consistency with previous work and projects aimed at addressing skills and workforce gaps in advanced manufacturing, healthcare, IT, and energy sectors.

Since 2016, CSI apprenticeship participation has increased by 30%. We see this trend continuing as students express the desire to earn-and-learn, and as industry clamors for employees. Expansion opportunities are impressive, especially when we

**5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.**

This is essentially unaltered from the priority we expressed in our FY20 request.

# ISU College of Technology

## Line Item Questions - FY 2021

### Priority 1 - CoT EAMES: Furniture, Fixtures, and Equipment

#### Supports institution and SBE strategic plans:

Yes, the support of this project will join with the \$5 million already raised from donors toward moving these programs into this new state-of-the art facility. We believe this investment into our programs will only grow the opportunity to support our students in these programs with raising the bar on our teaching opportunity.

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The remodel of the EAMES Complex on the Idaho State University campus for the use of the College of Technology will give our students the opportunity to house many of our state-of-the-art programs under one roof side by side with each other. The remodel allows for 11 new classroom, large live work areas for each program, Computer labs, and new spaces for our Student Services and Marketing Offices. These spaces require new furniture of 425 Chairs, 275 Tables/desks, and new Welding booths, and Computers.

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are one the Budget sheet.

No additional funding for faculty or OE is required.

#### 3) Completed within Budget sheet

#### 4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All of this is being done to support our students and provide them with the highest learning quality experience.

#### 5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.

We reviewed the College's current needs and submit these Line item requests representing the most thought and planning to maximize the benefit for our students.

# ISU College of Technology

## Line Item Questions - FY 2021

### Priority 2 - CAT Tier 4 Trainer Engine

#### Supports institution and SBE strategic plans:

Purchase of this device would provide more learning opportunities to prepare students for entry into the workforce. Having access to such a device would better prepare graduates to compete for employment at better pay scales by having the opportunity to be trained on this device. Additionally, before a technician can service a vehicle, Tier 4 treatments must be removed to get to the engine in most cases. Finally, Tier 4 equipment needs maintenance as well. It is impossible to teach techniques and train students if we don't have the right equipment.

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

We are requesting a CAT C9 300 engine with Tier 4 treatments. We don't currently have any devices or trainers to educate our students in Tier 4 services or how to remove/reinstall Tier 4 pollution control devices. Every diesel motor must have Tier 4 pollution control as per the Clean Air Act of 2010. The Diesel TAC members have suggested that the program acquire a trainer

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.

No additional funding for faculty or OE is required.

#### 3) Completed within Budget sheet

#### 4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Students will be better served in the Diesel Technology program, industry will be better served with graduates who have actually trained on such a device, and the general public will benefit from cleaner air. If the request is not funded, we will still have no way of training on Tier 4 devices, to include Tier 4 functions, and the impacts on diesel powered performance, fuel economy, and pollution control.

#### 5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.

The CAT model is half the price of other brands. WSECO is trying to work us a better deal than most (free shipping). This is the first time this item has been requested. Also, our TAC made it very clear in both our fall and spring meetings that we need to start training on Tier 4

# ISU College of Technology

## Line Item Request - FY 2021

Priority: 2  
 Line Item Title: CAT Tier 4 Trainer Engine

**If this request includes personnel, complete the following:**

# ISU College of Technology

## Line Item Questions - FY 2021

### Priority 3 - CNC Mills

#### Supports institution and SBE strategic plans:

Yes. Providing students with the resources they need to receive the hands-on experience necessary to be successful in a career as a machinist is core to the mission of our program, college, institution and the state.

#### 1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

We are requesting (2) HAAS VF-2SS vertical machining centers (CNC mills) to allow the Computerized Machining Technology program at ISU's College of Technology to provide adequate machine time to students who need to complete their projects.

#### 2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.

We are requesting (2) HAAS VF-2SS vertical machining centers (CNC mills) at a cost of \$60,000 each (\$120K total).

#### 3) Completed within Budget sheet

#### 4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Students in the Computerized Machining Technology program will be served by the requested CNC mills. Currently, there is a scheduling bottleneck where students are trying to schedule time on the existing machines to complete their projects. There are not enough machines to give each student enough time to set up and run their projects. More machines are needed to alleviate this problem and allow students adequate time on the CNC mills to complete their projects.

#### 5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.

A recent change in curriculum for the Computerized Machining Technology program, that was driven by input from their Technical Advisory Committee, has resulted in a decrease in manual machining (from two semesters to one) and an increase in CNC machining (from two semesters to three). This has resulted in more student demand for scheduled time on the CNC machines. We have identified a bottleneck in scheduling time on the CNC mills which this request would remedy.

# College of Eastern Idaho

## Line Item Questions - FY 2021

### Priority 1 - Drafting Technology Program

Supports institution and SBE strategic plans:

**1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

Funding is being requested for the development and implementation of a new Drafting Technology program at the College of Eastern Idaho. This request is in support of the three year plan proposed to the State Board of Education. It is a request in response to local demand and is projected to fill the needs of employers from many fields as it will address mechanical, structural, civil and architectural drafting. There are currently no positions funded at CEI for this activity with no money allocated in the base.

**2) What resources are necessary to implement this request? (Describe positions, existing labor, and any capital items). Financial details are on the Budget sheet.**

To implement this request, CEI would need ongoing support for one program manager. This position would be responsible for designing, maintaining, and teaching curriculum for the program and would serve as the face of the program to the community and the state as a whole. The remaining funds being requested are ongoing operating funds for the program and one time capital outlay for startup. The ongoing services line includes licensing for specialized software. The one time start-up funds include upgraded computing equipment required to run the software and specialized workstations used in this trade.

**3) Completed within Budget sheet**

**4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

There are currently 10 annual openings for this type of job in SE Idaho alone. The larger concern is that this type of employment is projected to grow annually by 35% in future years. In addition to meeting the number 65 and number 86 hot job for this region, this program will serve as a springboard for potential future programs. Future programs could include Green Building, Construction Trades, and various apprenticeship opportunities.

**5) If this is a high-priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. There are many requests and this request will replace some of those requested in previous years.**

T/B PAYMENTS:	200,000				200,000
LUMP SUM:					
<b>GRAND TOTAL</b>	200,000				200,000

**Description:**

In the 2018 legislative session, Idaho Code 33-1364 was passed, which created a Workforce Readiness Incentive Grant beginning in FY 2020. During the 2019 legislative session, \$200,000 was appropriated to support initial implementation of the grant. The Division has developed specific criteria to award incentive funds based on the number of secondary career technical concentrators who have demonstrated workforce readiness at the completion of their career technical education program. The first round of grants will be awarded at the end of the 2019-2020 school year. If expanded, the Division will distribute the second round of grants to secondary CTE teachers at the end of the 2020-2021 school year.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is for an ongoing appropriation of \$200,000 to award additional incentive funds to CTE teachers of pathway programs based on the number of secondary career technical concentrators who have demonstrated workforce readiness at the completion of their career technical education program. The funds would be passed on directly to the CTE teachers of intermediate and capstone courses in which the secondary concentrators were enrolled.

The Division has requested an additional data analyst for FY2021. If this position is funded, this FTE will also support the data analysis required to successfully oversee the grant and ensure award criteria is met.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.  
None
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.  
None
  - c. List any additional operating funds and capital items needed.  
None. All funds are trustee benefit funds that will be passed through to CTE teachers by their school districts.
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

The requested amount is ongoing and may fluctuate according to the number of students who meet the grant criteria each year. Each qualified student will generate up to \$200 per pathway. These funds will then be divided among eligible teachers, based on the number of qualified students each year, as well as the total number of eligible CTE teachers.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Additional funding for this grant would benefit secondary CTE teachers who have invested the time and energy to ensure CTE concentrators have the tools they need

to succeed in the workforce, as well as have attained and demonstrated the relevant skills within their pathway program.

This incentive-based approach would more clearly demonstrate the return on investment provided by career technical education and hold career technical education programs more accountable for producing results. This approach will also ensure a greater number of career technical education students are ready for the workforce and able to meet the demands of business and industry. In the long term, this would also include an increase in the number of students who are eligible to test for and earn Technical Competency Credits.

<b>GRAND TOTAL</b>	<b>50,000</b>				<b>50,000</b>

**Description:**

During the 2014 legislative session, the Idaho Quality Program Standards (IQPS) grant was created as part of the Idaho Ag Ed Initiative. This grant provides incentive funds to high quality Ag programs in the form of \$10,000 per grant, to be invested in the qualifying Ag program. The current ongoing annual appropriation is \$300,000 in incentive grants. As the success of the current IQPS program increases, we are requesting ongoing funding for an additional \$50,000 to be passed through to Agriculture programs in the form of five additional incentive grants.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

There are no additional resources necessary to implement this request. Within the current grant structure, approximately 30 awards are already made annually. An additional appropriation would allow ICTE to award up to five additional grants to qualifying Ag programs.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.  
None
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.  
None
  - c. List any additional operating funds and capital items needed.  
None. All funds are trustee benefit funds that will be passed through to CTE programs by their school districts.
  
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

The request is for ongoing funding. As ICTE continues to support the introduction and expansion of high-quality CTE programs, ICTE anticipates that Ag programs will continue to grow statewide.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

CTE students in districts with existing Agriculture & Natural Resources will benefit from this funding, as it would allow the district to invest additional resources to invest in program improvement. If the request is not funded, it may limit the ability of some districts to fully invest in the infrastructure for a robust and well-equipped program.

<b>GRAND TOTAL</b>	<b>200,000</b>				<b>200,000</b>

**Description:**

**Workforce Readiness** – Prepare students to efficiently and effectively enter and succeed in the workforce.

For historical perspective, Idaho’s investment in CND dropped by 46% (from \$1,212,850 to \$654,051) over the course of the recession and funding has remained relatively flat at this reduced level since FY11.

**Questions:**

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

Since 1982, the divorce filing fee which funds the Centers for New Directions (CNDs) has remained at \$20 but with the reduction in divorce filings, the amount of funding for CNDs has steadily decreased over time.

CNDs experienced a \$200,000 decrease in 2012 when general funds that were previously appropriated for this purpose were eliminated.

The request is for an ongoing funding increase in the amount of \$200,000 to help the state meet the employment readiness needs of single parents and displaced homemakers as well as to support new federal accountability requirements of Perkins V that target specific special populations in Idaho:

- out-of-workforce individuals
- individuals with disabilities
- individuals from economically disadvantaged families, including low-income youth and adults
- individuals preparing for non-traditional fields
- single parents, including single pregnant women
- English learners
- homeless individuals described in section 725 of the McKinney Vento Homeless Assistance Act (42 U.S.C. 11434a)
- youth who are in, or have aged out of, the foster care system, and
- youth with a parent who is a member of the armed forces and is on active duty.

Changes to federal local needs assessment requires technical colleges in Idaho to focus training and programs that increase the employment opportunities for populations who are chronically unemployed or underemployed. Idaho's CND program is carried out in six regions through our technical colleges and support the retention of CTE students through proactive advising, training, and tracking of student progression in postsecondary CTE and workforce training programs. This request would allow all six regions to improve and sustain their program offerings that support these special populations in Idaho.

**2. What resources are necessary to implement this request?**

- a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire and terms of service.**

None

- b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

None

- c. **List any additional operating funds and capital items needed.**

None

**3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

The entire amount is for ongoing funding.

**4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

The Centers have a specific CTE objective to help meet the Board's goal on Innovation and Economic Development. They support the ICTE's mission and strategic initiatives in a variety of ways. Current funding levels are insufficient to effectively support and expand activities and partnerships required at the local level to help with outreach and training. The proposed funding increase will be awarded across six regions, and therefore must be substantial enough to represent a meaningful increase for each region.

If this request is not funded, CNDs will not be able to prepare students efficiently and effectively enter and succeed in the workforce.

**Description:**

The College of Eastern Idaho (CEI) is requesting 1 FTE for a Lead Math Instruction to facilitate our efforts to scale up implementation of the Complete College America Game Changer Strategies – and improve student retention and time to graduation.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

**1 FTE - Lead Math Faculty:** College of Eastern Idaho (CEI) is making the above line

item request to scale up implementation of the Complete College America Game Changer Strategies – and improve student retention and time to graduation. Development of Math Pathways and plus classes for gateway Math courses, as well as curriculum, will be needed in order to begin phasing out remedial testing, and allow students to enroll in the Math class they need for their program. Money for scaling up our Math Pathways and Co-Requisite design will be imperative to carrying out CCA initiatives. This includes critical mentoring of fulltime and adjunct faculty in the adoption of this evidence based, best practice approach for the acceleration of student success and completion. The proposed faculty position will increase student engagement across Math curriculum and contribute to the State Board of Education 60% goal and Complete College America initiatives.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Lead Math Faculty Member (Co-requisite, Curriculum & Academic Maps Pathway support). This is full-time faculty eligible for benefits, In order to scale up our practices across the curriculum and accelerate student success by 2021, CEI will make an initial investment in this Math faculty hire in fall of 2020. CEI is requesting that retroactive and continuing funding for this position be provided by the state, per this line item funding request. This position would be an 11-month contract to support ongoing Math plus classes through the summer term. The faculty member would be expected to hold office hours and be available to mentor Math full time faculty and adjunct Math faculty in plus class delivery. This critical position includes collaboration with Content Experts from Complete College America, and the efforts will be vital for working with other faculty to scale up retention and completion practices across the curriculum.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The Math Department Chair will oversee the efforts of the new Math faculty position, in developing curriculum for co-requisite Math courses and Math Pathways. These new activities for the department chair will be monitored by the Dean of General Education and the Vice President of Academic and Student Affairs to determine if campus wide impact is great enough to warrant additional compensation for the chair due to the increased workload.

- c. List any additional operating funds and capital items needed.
- Travel and Professional Development funds: \$1,500
  - Other Materials and Supplies: \$500

- Laptop Computer, Printer, Desk and Chair (One-time): \$2,000

d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request involves ongoing funds for salary and benefits for the Math faculty fulltime position.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All students taking courses with CEI – including and especially at-risk students and underserved populations – will benefit from retention and completion efforts. CEI's ability to scale up retention and completion practices will be substantially impacted through ongoing funding from the state. Specifically, Gateway courses in Math (which all students must take). In order to implement the evidence-based CCA practices, specifically in Math co-requisite and Math Pathways, this money is imperative to scaling up our efforts campus wide. Additionally, regional employers and universities will be served through CEI's contributions to an educated workforce and transfer-prepared students.

Nationwide data suggest that Math courses represent a critical gateway in which significant numbers of First Time in College (FTIC) students struggle. Without this funding to scale up and redesign the co-requisite and Math Pathways, CEI's ability to provide best practices for retention and completion campus wide would be limited. Additionally, CEI's ability to support the state and region's desire to accelerate the number of adults prepared to enter the workforce could be limited – since success in Math is fundamental to the completion of a degree.

**Description:**

The College of Eastern Idaho is requesting 1 FTE for an academic advisor to assist in scaling up our implementation of the Complete College America effort. This position will improve student retention and time to graduation.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

**Student/Academic Advisor:** The College of Eastern Idaho (CEI) is making the above line item request to scale up implementation of the Complete College America Game Changer Strategies – and improve student retention and time to graduation. Development of pathways, meta-majors, and new student orientations will be needed in order to scale up retention and success strategies across the college. Money for scaling up intrusive advising practices will be imperative to carrying out CCA initiatives. This includes critical advising functions historically performed by faculty in the adoption of evidence based, best practice approaches to Academic Maps with Proactive Advising (e.g. defaulting students onto highly-structured academic maps, with intervention and intrusive advising provided). This proposed advising position will increase student engagement across the curriculum – particularly for underserved and at-risk students – and contribute to the State Board of Education 60% goal and Complete College America initiatives.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

This CCA Advisor would be fulltime staff, eligible for benefits. In order to scale up our practices across the college and accelerate student success by 2021, CEI will make an initial investment in the hiring of this Advisor in fall of 2020. CEI is requesting that retroactive and continuing funding for this position be provided by the state, per this line item funding request. This position would be a 12-month contract to scale up and embed best practices for Advising across Student Services. The CCA Advisor will mentor current advisors and faculty on best practices and collaborate with Content Experts from Complete College America. The efforts will be vital for working with Instruction and Student Affairs in scaling up retention and completion practices across the college. This position will also be expected to carry an advising load.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

This position will be key in transitioning to a hybrid advising model (shared between faculty and student affairs).

- c. List any additional operating funds and capital items needed.

- Travel and Professional Development funds: \$1,500
- Other Materials and Supplies: \$500
- Laptop Computer, Printer, Desk and Chair (One-time): \$2,000

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request involves ongoing funds for salary and benefits for the Advisor position.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All students – current and prospective - including and especially at-risk and underserved populations will benefit from retention and completion efforts. CEI's ability to scale up retention and completion practices will be substantially impacted through ongoing funding from the state. Specifically, a CCA Advisor to implement and lead campus efforts to adopt evidence-based CCA practices. Additionally, regional employers and universities will be served through CEI's efforts to accelerate student completion for transition to the workforce and/or university studies.

Nationwide data suggest that intrusive advising is critical to the success of First Time in College (FTIC) and first-generation college students. Without this funding to scale up and redesign our advising model, CEI's ability to provide best practices for retention and completion campus wide would be limited. Additionally, this position will be fundamental to the design of clear pathways and meta-majors at CEI. Finally, CEI's ability to support the state and region's desire to accelerate the number of adults prepared to enter the workforce could be limited – since adequate advising is key to the accelerated completion of a degree.

**Description:**

The College of Eastern Idaho is requesting 1 FTE for an Instructional Designer. The College is experiencing rapid growth which is putting added stress on the Learning Management System (LMS) and our needs for hybrid and online courses.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

**Instructional Designer 1 FTE:** As College of Eastern Idaho grows, and the use of

the Learning Management System (LMS) and needs for hybrid and online courses increases, there is need for a fulltime instructional designer. Additionally, given an emphasis for at least one fully online Associate of Arts degree aimed at non-traditional students and students in rural areas, the strategy is to use online delivery as a mechanism of delivery. As a newly formed community college, this type of position is mission critical for the delivery of fully online, hybrid and face-to-face supplemental classes and materials. This position will guide the development of course shells, content, and consistent use of standards across the curriculum. Additionally, this position is vital to meeting the development and support needs of faculty, student affairs, and the students themselves. Additionally, the college's ability to reach students throughout our 9-county service area will be significantly dependent on CEI's online learning capabilities.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Steady funding to hire a full-time qualified instructional designer is critical. The position is for an Instructional Designer in Online Learning, Course Design, and Learning Outcomes Assessment. It is a fulltime employee, \$55,000 salary plus full benefits, with anticipated date of hire July of 2019.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

No other resources are available to redirect to this position.

- c. List any additional operating funds and capital items needed.

- Travel and Professional Development funds: \$1,500
- Other Materials and Supplies: \$500
- Laptop Computer, Printer, Desk and Chair (One-time): \$2,000

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

Essential functions of service include:

- Reports to the Director of Online Learning Services regarding course development and other projects and deliverables as assigned.
- Coordinates closely with the Director of Online Learning Services to coordinate the planning, developing and creation of courses related to curriculum development projects.

- Collaborates with academic constituents and colleagues (both on campus and rural) during the design, development, and launch for new courses and major course revisions.
- Provides insights and recommendations to academic constituents regarding selection of learning objects, activities and assessments as related to the strengths and capabilities of the institution's online learning platform.
- Produces instructional materials such as graphics and interactive media elements as needed.
- In collaboration with the Director of Online Learning ensure the creation and adoption of standards in online materials, course templates, quality principles and ongoing review of course delivery to ensure CEI delivers a valuable online experience.

Managerial duties for the Director of Online Learning Services will be impacted. The director will solely manage the new position and provide all training and collaboration of current and future hybrid and online projects. Overall, the addition of such a position at the college will greatly benefit students and faculty in allowing for more training and support opportunities for the growing campus.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This will be an ongoing, full-time benefitted position - aimed at assisting the creation of additional hybrid and fully online offerings in support of CEI's rapidly expanding enrollment. The mission of College of Eastern Idaho is to provide open-access and affordable quality education to our 9-county region of Southeast Idaho. By providing more quality hybrid and online opportunities for the completion of course and degree opportunities, the college will increase the reach to rural and under-represented students. The reach and quality embedded across the curriculum through this position will increase our reach and thus our revenue – with expanded career opportunities for those who may need flexible scheduling and degree offerings due to work and life circumstances.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Ultimately, the students of College of Eastern Idaho in our 9-county region are being served by this position and the increase in quality hybrid and online course/degree opportunities. The instructional designer will assist faculty in adopting, developing, and creating standardized LMS courses and fully online courses/degrees that meet the highest needs of quality assurance. By assisting the faculty and Director of Online Learning, the instructional designer will have a key responsibility in supporting the

creation of policies and online course standards. This will make online learning at College of Eastern Idaho more navigable, accessible, and tuned to best practices for an engaging online experience. Having more faculty support as the college grows, will also assist the Office of Online Learning in meeting accreditation support guidelines for current and future planned hybrid and online offerings.

If this position is not funded, faculty and students – both current and prospective - in our rural, traditionally under-represented areas of our 9-county region may be negatively impacted without easy access to higher education opportunities. As the college has transformed into an open-access comprehensive community college, the need for more affordable and quality hybrid and online learning options becomes more apparent each day.

**Description:**

CSI faces substantial challenges with finding, accessing, and acting on data insights that are necessary to make informed decisions. For example, these challenges hinder CSI's ability to identify and help at-risk students early enough, ensure scarce resources are focused on what matters most, and decision-owners have adequate visibility into their operations to proactively make improvements. There are also significant capability deficiencies that negatively affect CSI's core operations due to non-existent or inadequate software tools, antiquated infrastructure, and obsolete systems that require excessive maintenance and manual intervention.

To tackle these challenges, CSI aims to build a foundation to design efficient processes and workflows, connect students and employees to the right data quickly and securely, and

achieve greater stability with its infrastructure. In this way, CSI will strengthen its position to fulfill its missional goals for community success, student success, and institutional stability.

CSI is seeking financial support for ongoing software costs related to the solutions necessary to overcome the challenge areas. CSI also seeks additional funding to increase staffing resources by five (5) full-time employees to fill the roles of Cybersecurity Analyst, Project Manager, Business Analyst, Application Support Specialist, and Data Architect to help overcome these challenges.

1. Research demonstrates that student engagement is one of the keys to student retention and success. It is critical to place students on pathways that lead them to their educational goals as efficiently as possible. Engagement outside of the classroom is equally important when it comes to retaining students. If funded, CSI would deliver enterprise analytic capabilities and services to better-assess student behaviors to develop deeper understandings of the student educational experience while guiding students' pathways to success. Additionally, the new capabilities would provide the opportunity to track and document student co-curricular experiences. CSI would use this information to increase both retention and graduation rates by strengthening student engagement.
2. CSI's current payment processing capabilities are outdated and archaic, resulting in unnecessary delays with payment activities. CSI would deliver PCI-compliant capabilities allowing flexible payment plans, multiple payment options, and easy access to account balances. The capabilities would be delivered through a solution design that integrates seamlessly with CSI's primary business software systems, enable eCommerce and mobile payment options, receipting, and billing.
3. Many students are unable to access the free tutoring services offered on campus, but who also cannot afford to pay for fee-based online tutoring services offered by CSI. There are also challenges with CSI's training system to help educate students on avoiding risky behaviors that may negatively impact their health, safety, and college experience. Additionally, CSI struggles with inadequate tools to help ensure employees are compliant with required or regulated training for federal, state, and institutional mandates and cybersecurity training. If funded, CSI would expand and enhance its digital training capabilities for both students and employees, improve compliance tracking and reporting, and offer online tutoring services free of charge, 24x7, to all students (including dual credit).
4. Recruiting, onboarding, retaining, evaluating, and offboarding employees requires a comprehensive system that is integrated with core business services, communications, and leverages highly-automated workflows. CSI lacks the necessary software tools to provide an effective solution to support its human resource operations. If funded, CSI would be able to implement an end-to-end common software system and associated processes designed to support all institutional workforce scenarios (full-time, part-time, temporary, contract, student Work-Study, internships, and volunteer).
5. CSI seeks to improve the stability of its production environment for physical and digital infrastructure, business software systems, and facility operations. During fiscal year 2017-18, CSI experienced approximately 180 hours of unplanned downtime with its production environment affecting campus-wide IT service availability. An estimated 35% of the number of unplanned outages were due to delayed notifications to support teams not knowing an incident had occurred. If funded, CSI would pursue modern

- capabilities for monitoring and notification services leveraging Artificial Intelligence, Internet-of-Things (IoT) devices, and real-time error reporting with the aim of responding faster to major incidents and improving recovery times to minimize disruption to academic and business services across the institution.
6. Surveillance is considered a critical component of CSI's enterprise security strategy, but its current environment is constrained by antiquated equipment that is prone to instability. CSI seeks to improve the reliability of its security surveillance with upgrades to camera equipment, network infrastructure, and support of modern video codecs. If funded, CSI will be able to provide greater assurance of safety for employees, students, and community members. CSI will also be able to provide better assistance to law enforcement when responding to incidents or criminal activities on campus.

This request entails investments in hardware, software, business processes, and highly-skilled personnel. The combination of these resources will help fill critical capability gaps at the College of Southern Idaho. With complete and successful deployment of the requested resources, Idaho will see long-term value on this investment.

#### Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

CSI is seeking funding to add five additional staff to design and develop the systems and services necessary for improving student engagement, student success, streamlining financial processes, and increasing academic support across the institution. The full deployment of these capabilities will result in an enhanced understanding of the CSI student experience leading to an increase in both retention and graduation rates. The proposed capabilities, personnel, and enabling technologies will positively impact the engagement of students and therefore contribute to the State Board of Education 60% goal and Complete College Idaho initiatives.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Five (5) IT Staff, Full Time, Full Benefits, Hire Date of July 1, 2020, 12-month contract.

1. **Cybersecurity Specialist:** \$65,000

Summary: Protects systems by defining access privileges, controlling structures, identifying abnormalities, reporting violations and implementing security improvements. To comply with Executive Order No. 2017-02 CSI would need to add a security specialist to its IT team.

2. **Project Manager:** \$57,000

Summary: Oversees and orchestrates the execution of business initiatives with defined start and end dates. Requests resources, manages task assignments, oversees project

budgets, manages project contracts, accountable for final delivery of all business requirements according to measurable outcomes.

**3. Data Architect: \$79,000**

Summary: Designs, creates, deploys, and manages the technology systems that serve an organization's digital information ecosystem (a.k.a., data architecture). Defines how/where data is stored, consumed, integrated, and managed by business systems that process data.

**4. Business Analyst: \$51,000**

Summary: Analyzes, documents, and designs business systems and processes. Standardizes workflows and defines system policies. Performs needs analysis and interprets business rules and/or requirements that help identify technical systems and solutions to drive operational maturity.

**5. Application Support Analyst: \$45,000**

Summary: Responsible for installing, upgrading, and maintaining enterprise business software systems. Works with application databases and data sets, with general knowledge of operating systems and client-server networks and domains.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

While existing IT will be involved with some aspects of these new initiatives, the five positions outlined in the request will be the primary drivers of the initiatives. New IT staff will report to the appropriate leadership members within the Office of Information Technology on the main CSI campus in Twin Falls.

- c. List any additional operating funds and capital items needed.

The software platforms would require both implementation funding and on-going annual fees, as follows:

- Data Analytics: \$50,000 annually
- Payment Processing: \$50,000 annually
- Compliance & Training: \$75,000 annually
- Onboarding/Offboarding: \$40,000 annually
- Infrastructure Monitoring: \$25,000 annually
- Digital Security Maintenance: \$50,000 annually

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request involves ongoing annual subscription and maintenance for software platforms. CSI plans to cover the cost for the one-time implementation of these software platforms. There is also an ongoing request for salary and benefits.

Parallel external funding request opportunities are being pursued, but such external grants (if awarded) would not contribute to ongoing requirements over the long term. Rather, they would offset the implementation costs to be absorbed by the College, should they be available.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All students taking classes at CSI would benefit from the systems and services developed from this request. High-risk students would benefit from advanced metrics used to put them in contact with appropriate support systems. All students, employees, and community members would benefit from flexibility in payment options and see a decrease in current payment processing times. Students would benefit from prevention education along with increased access to online tutoring. The institution would also see a decrease in risk due to more thorough employee education and compliance with college policy, legislative requirements, and safe computing. The College would benefit from improved business processes, access to data insights, and integrated services for workforce resource management. All stakeholders would benefit from more reliable infrastructure services and security improvements with campus safety enhancements.

Without funding, CSI will continue to struggle with data-informed decision-making. Efforts to find, collect, and present strategic data insights will remain unnecessarily burdensome, requiring extensive manual labor, and raising questions about data integrity and accuracy. Online tutoring services will be less accessible to students who cannot afford to pay the additional fees. CSI will also be hindered in its ability to meet regulatory requirements for compliance training, risk management programs, and services that are necessary to provide a safe learning environment for students and employees. CSI's workforce management services will also be dependent upon manual and disjointed processes making it difficult to support human resource activities across the institution. Also, the inability to proactively monitor core infrastructure systems will constrain CSI's response times to downtime situations and extend the duration of unplanned outages. CSI employees, students, and community members will also be subject to heightened safety risk due to limited secure coverage areas and antiquated surveillance infrastructure.

**Description:**

The College of Southern Idaho (CSI) is well-positioned to apply for and receive the U.S. Department of Education’s (USDE) Hispanic Serving Institution (HSI) designation in the near future. This designation will allow CSI to participate in the federal program designed to assist colleges and universities which focus on assisting and retaining students successfully in higher education. CSI would become the first higher education institution in the State of Idaho to achieve the HSI designation. To be designated as an HSI, CSI needs to have enrollment of undergraduate full time equivalent (FTE) students that is at least 25 percent Hispanic students, at the end of the award year for two consecutive academic years, immediately preceding the date of application. Of the 25 percent, at least 50 percent of the degree seeking students enrolled must be receiving need-based assistance as defined by the USDE. At the end of Fiscal Year 2018, CSI’s

FTE figure with respect to Hispanic student enrollment was 22.87% [to be updated with annual census July 2018].

The Hispanic/Latino college student profile influences—and is directly impacted by—the ever-changing higher education world. As such, understanding what works for Hispanic students to improve access, retention, and completion is critical to our Magic Valley community service area and the State of Idaho. Just as important, the CSI Hispanic FTE figure illustrates the need for the institution to become even more proactive, engaging, and innovative alongside the Hispanic student growth.

The request not only provides the College strategic vision and planning to obtain the designation, but to also expand and sustain services and programming critical to our high impact, high touch expectations with Hispanic residents. This emerging Hispanic initiative request aims to provide services primarily to our high density Hispanic populations in our service area, institutionalizing our Multicultural Student Affairs Coordinator from Title III grant funding into a permanent position, and developing the Career and Technical Education (CTE) Bilingual Healthcare CNA program.

For the Hispanic initiative request to operate effectively, this request seeks on-going funds for two (2) full-time staff professionals, (1) full-time faculty position, and operating funds to support duties/task line of work.

#### Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

CSI requests three (3) FTEs for a) Bilingual (Spanish and English language) Jerome and Gooding Outreach Centers Student Advocate Coordinator, b) Multicultural Student Affairs Coordinator, and c) Bilingual (English and Spanish language) Healthcare CNA instructor, **Total Personnel Costs:** \$178,500

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Two (2) professional staff and one (1) instructor position, Full Time, Full Benefits, Hire Date of July 1, 2019. Two professional staff would be on 12-month contracts, two instructor positions would be on 9-month contracts.

1. Bilingual (Spanish and English language) Jerome and Gooding Student Services Coordinator: Salary: \$35,000 + benefits  
Summary: Employee serves the North Side Centers—Jerome and Gooding Outreach Center service areas to effectively recruit, advise, serve as a completion coach, and provide a wide-range of office coverage and services at both respective campuses. Additionally, works collaboratively with community-based organizations and systems which support student success initiatives.

2. Multicultural Student Affairs Coordinator: \$40,000 + benefits  
Summary: Applies, designs, executes, manages various Hispanic-focused programming and supportive services in the areas of a Parent College Academy, General Education 101-Latino/Hispanic diversity course instruction, College Assistance Migrant Program (CAMP) program application, Idaho Hispanic Chamber of Commerce official designee, development of a campus-wide bilingual/bicultural responsiveness training program for all CSI employees, and summer program academy implementation for incoming Hispanic students.
  3. Bilingual Healthcare CNA Instructor: \$43,000 + benefits  
Summary: Instructor provides CNA instruction, in both English and Spanish, designed to facilitate a viable career entry pathway in the health profession for local Hispanic residents whose primary language is not English. The instructor collects, reports, and presents outcomes data to internal and external constituents.
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
- Bilingual Student Advocate will be housed in the Jerome and Gooding off-campus centers. This position will report to the North Side Centers Director.
  - Multicultural Student Affairs Coordinator will be housed in the Office of Student Affairs. This position will report to the Dean of Students.
  - Bilingual healthcare instructor will be trained and supported through the College's instructional designer and College & Career Readiness English Acquisition Division. This position will report to the Health Sciences & Human Services Department Chair.
- c. List any additional operating funds and capital items needed.
- Operating Supplies: \$32,000
- Office Supplies: marketing, promotion, and general supplies: \$15,000 (on-going)
  - Instructional Supplies: \$15,000 (on-going)
  - Software: \$2,000 (on-going)
- Professional Development: \$10,000
- Staff and faculty professional development: \$10,000 (on-going)
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

- CSI requests on-going funds to support full-time staff and instructor personnel (salary and benefits) and operational expenditures (operating supplies and professional development).
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The emerging Hispanic Serving initiative legislative request will serve a central piece in our attempt towards a more holistic student understanding and expanding institutional practices which will accelerate Hispanic student achievement across all student services and instructional platforms. The legislative request will also continue to move the needle in a positive direction when it comes to the “next level” of relationship building and strategic plan alignment with state agencies such as the Idaho Commission on Hispanic Affairs, Community Council of Idaho, and Idaho Hispanic Chamber of Commerce. Last, but certainly not least, our Hispanic instruction initiatives will fill in the workforce need gaps of our local health care providers and cultivate go-on strategies with our four-year school partners as we attempt to support our students through the associate-to-bachelor’s degree and career diversity pipeline. If this request is not funded, we face a real dilemma of severely underserving our student diversity interests and employer workforce needs. Equally important, we potentially can undermine cultural responsiveness training and professional development for employees to meet the needs of our Hispanic population.

**Description:**

The College of Southern Idaho Weekend College is an innovative and engaging program designed to provide access for students who typically can't attend college during the day. The primary focus of the program is to enable non-traditional students, particularly Hispanics, to complete a transfer degree or certificate within two years. A secondary focus is to enable students to complete pre-program requirements for Health Sciences and Human Services (HSHS) programs or to enable students to complete the General Education Certificate. To accommodate the unique needs of adult learners, courses are offered in a pre-formatted block schedule on Friday evenings, Saturdays, and online. Students attend courses as a cohort and benefit from learning communities in which they develop social and professional relationships with fellow students and faculty. Students receive personalized advising through credential completion and assistance with transition to an HSHS program, a university bachelor program, or employment. Weekend College incorporates mechanisms to support retention and completion through student success strategies and learning assistance services.

This request allows CSI to develop a Weekend College program for working adults and high school students who typically cannot attend a traditional academic model. The program enables students to complete a transfer degree or certificate within two-years of enrollment. For those who seek a bachelor's degree, this program allows students to transfer seamlessly to a university program (BSU, ISU, or UI) on the CSI campus.

For the program to operate effectively, this request seeks on-going funds for two (2) full-time professionals, tutors to provide academic support, and operating funds to support extended weekend hours.

### Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

CSI requests two (2) FTEs for a) coordination of the Weekend College program, b) tutors to support instruction, and c) part-time office specialist, information technology support technician, and building and maintenance personnel to support infrastructure. **Total Personnel Costs: \$155,500**

a) In order to support and effectively operate the Weekend College program, CSI requests one (1) program coordinator to manage the program and one (1) bi-lingual academic coach to advise students through credential completion and to assist students with transfer to a HSHS program, university program, or employment. **Salaries and Benefits for 2 FTE: \$109,700**

b) In order to maintain ongoing excellence in teaching protocol and support services, CSI requests funding to hire qualified tutors (\$10,000). **Group Funding: \$10,000**

c) In order to provide services during extended weekend hours, CSI requests funding for a part-time office specialist (\$15,000), a part-time Information Technology Service Technician (\$10,500), and part-time maintenance personnel (\$10,300). **Group Funding: \$35,800**

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Two (2) Weekend College Staff, Full Time, Full Benefits, Hire Date of July 1, 2019, 12-month contract.

1. Program Coordinator: \$37,000

Summary: Designs, creates, deploys, and manages all operations and personnel for the Weekend College program. Works with internal and external organizations to develop articulation agreements and transfer processes. Collects, reports, and presents outcomes data to internal and external constituents.

2. Bi-lingual Completion Coach: \$34,000

Summary: Advises students through credential completion and assists students with transition/transfer to a HSHS program, university program, or employment. Works with at-risk students to develop effective learning strategies and activities that foster retention. Works collaboratively with campus- and community-based programs and organizations regarding services available to students. Assists in the maintenance of program projects and outcomes assessment.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

- Weekend College staff will be housed in the Student Success Center on the main campus and will report to the Dean of Student Success (in place).
- Weekend College Learning Assistance personnel (tutors) will report to the Learning Assistance Coordinator (in place) on the main campus.
- Weekend part-time Information Technology Service Technician will report to the IT Department (in place).
- Weekend part-time Office Specialist will report to the Dean of Student Success (in place).
- Weekend Maintenance Personnel will report to the Maintenance Supervisor (in place).

c. List any additional operating funds and capital items needed.

Operating Supplies: \$19,000

- Office Supplies: marketing, promotion, and general supplies: \$10,000 (on-going)
- Instructional Supplies: \$8,000 (on-going)
- Software: \$1,000 (on-going)

Professional Development: \$5,000

- Staff and faculty professional development: \$5,000 (on-going)

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

- CSI requests on-going funds to support full-time personnel (salary and benefits), group position funding (part-time personnel and tutors), and operational expenditures (operating supplies and professional development).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The College of Southern Idaho Weekend College program is aimed at improving student access and completion. The program enables students, particularly working Hispanic adults, to complete an associate degree in General Business, Teacher Education, or Agriculture Science or a certificate program in Career and Technical Education within two years through classes taken exclusively on Friday evenings, Saturday, and online. Moreover, the program enables students to complete pre-program course requirements for programs in Health Sciences and Human Services (HSHS) or to complete the General Education Certificate. And, the program offers another option for high school students to take college courses on the CSI campus without interrupting their high school schedule.

We expect to see an increase in enrollment, non-traditional Hispanic enrollment, student retention, degree/certificate completion, and graduation. Moreover, we expect to see an increase in the number of students transferring to university programs in General Business, Teacher Education, and Agriculture Science. These programs are offered by Boise State University, Idaho State University, and University of Idaho, respectively, on the CSI main campus. We expect to see an increase in the number of students prepared for high-need jobs in Career and Technical Education fields.

If this request is not funded, we will continue to run pilot programs, serving small groups of students. This will refine the development of programs and course offerings, but it will not have the desired major impact on increasing student enrollment, retention, and completion rates for students who are unable to attend a traditional college schedule.

<b>GRAND TOTAL</b>	856,400	-	-	-	856,400

**Description:**

This request is for the Change in Employee Compensation (CEC) to be funded 100% on-going, by the General Fund for the positions budgeted by the General Fund and General Fund – “Other.” This change in funding CEC will allow the College to ensure available funding for all budgeted, General Fund and General Fund – Other positions without placing the burden on the tuition and fee revenue source(s).

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

CWI continues to address the funding gap, relative to the other Idaho community colleges. As a result, CWI must carry on the use of tuition and fee revenue to offset this lower level of funding not covered by the General Fund in not only operational costs, but in personnel costs; specifically, CEC.

Below is an excerpt from the FY2020 B-8, DU 13.00 submitted by CWI that illustrates the percentage of FTPs and Funding between the General Fund and Other. Historically, these percentages have averaged 30% funded by General Fund and 70% funded by Other.

FY2020 – CWI Submitted B-8, DU 13.00							
Fund Source	Funding %	FTP %	FTP	Total PC	Salary	Fringe	Health
General	31.16%	30.39%	106.00	\$10,114,300	\$7,338,400.00	\$1,541,000.00	\$1,234,900.00
Other	68.84%	69.61%	242.75	\$22,342,700	\$16,127,900.00	\$3,386,800.00	\$2,828,000.00
<b>Total</b>	<b>100.00%</b>	<b>100.00%</b>	<b>348.75</b>	<b>\$32,457,000</b>	<b>\$23,466,300.00</b>	<b>\$4,927,800.00</b>	<b>\$4,062,900.00</b>

2. What resources are necessary to implement this request?
  - a. This would require the General Fund to absorb the CEC costs for the General Fund – Other positions.
  
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.
  - a. This request would be on-going, allowing CWI to reallocate its General Fund – Other revenue toward initiatives that would be value added for students, the College and the community.
  
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
  - a. The CWI employees would be served by this request knowing that CEC is not reliant upon the revenues directly related to students. This would allow that revenue source to be better utilized toward other areas and initiatives to help enrollment, retention and graduation.
  - b. If this request is not funded, CWI will run the risk of not being able to provide comparable CEC funding to those employees that are not covered by the General Fund. This will also result in the College not being able to invest in those initiatives that will help students attain their goals to graduate and become gainfully employed citizens of their communities.

**Description:**

Current Institutional Research (IR) staffing levels are insufficient to support the College of Western Idaho’s (CWI) strategic, operational, and tactical data and reporting needs. The College of Western Idaho is requesting approval for three (3) full-time Data Analyst positions. The three Data Analyst positions are mission critical to the short and long-term strategic and operational stability of the College of Western Idaho to meet state and federal reporting requirements, improve institutional effectiveness, and continuing to implement a culture of data driven decision-making.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Current IR staffing levels are insufficient to support CWI's strategic, operational, and tactical data and reporting needs. Therefore, the College of Western Idaho is requesting three (3) Data Analyst positions (\$55,000.00 salary + \$23,750 benefits per each position). These mission critical positions are essential to improving student programming and the student experience, improving data integrity, meeting internal and external state and federal reporting needs, building a sustainable IR function and structure to support CWI's evolving data and reporting needs, and continuing to implement a culture of data driven decision-making.

The Institutional Research (IR) Department supports each and every College of Western Idaho (CWI) unit, division, and department college-wide. Currently, there are three (3) Institutional Research resources (i.e., IR Manager, Sr. Research Analyst, and Research Analyst) to support all of CWI. There is \$271,030.00 of CWI funding currently in the base to support the three CWI IR positions.

The College of Western Idaho is implementing a Data Future State that transitions to a decentralized data resource model and embeds IR resources within the functional areas. The three (3) Data Analysts positions are foundational to the CWI Data Future State and will help create a sustainable institutional research (IR) organizational structure to support CWI's strategic, tactical, and operational data and reporting needs, help ensure data integrity, provide timely and actionable data information and insights, and facilitate data driven decision-making. In addition, having IR resources embedded in the functional areas who know the functional area's business processes and data, will drastically reduce and streamline the time it takes to fulfill operational and tactical reporting and data requests.

**2. What resources are necessary to implement this request?**

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

The 3.0 FTP Data Analyst positions are full-time, benefitted positions and the anticipated start date for the positions is July 1, 2020. Total salary and benefits per each Data Analyst position is \$78,800 a year; On-going travel expense funding of \$500 in for each position and one-time capital outlay of \$3,200 for computer/workstation equipment.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Without the three (3) mission critical Data Analyst positions, the three (3) existing IR resources will continue to be adversely impacted and have to manage all of CWI's strategic, operational, and tactical data and reporting needs. A significant

amount of time is spent with functional areas when fulfilling data and reporting needs to learn the functional areas' business processes and how data is entered in the system. This requires the IR resources to focus on operational and tactical data and reporting needs as opposed to focusing on much needed higher level strategic IR work college-wide, such as instituting consistent data definitions, ensuring data integrity, assisting in the development of the CWI Data Warehouse, standing-up the Data Future State, etc. Embedding Data Analysts in the functional areas would significantly reduce the amount of time spent fulfilling operational and tactical data and reporting needs, free current IR resources time to focus on mission critical strategic IR work college-wide, and help facilitate a data driven decision-making culture. In addition, current data and reporting needs are not able to be fulfilled in a timely manner due to extensive amount of data and reporting needs and requests and the limited amount of IR resources to fulfill all of CWI's data and reporting needs.

- c. List any additional operating funds and capital items needed.

Additional funds are needed for the following items (please see table above for actual costs):

1. Travel: \$500 (x3) = \$1,500
2. PC and workstation: \$3,200 (one-time) (x3) = \$9,600

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

This request is based on significant adverse impacts being experienced on a strategic, operational, and tactical level throughout CWI due to the insufficient amount of IR resources to support all of CWI's data and reporting needs college-wide.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This is an on-going budget request for the personnel costs associated with the three (3) Data Analyst positions. The \$500 in operating costs per each position is an on-going expenditure for travel expense to facilitate training and professional development.

This request reflects the college's efforts related to making data driven decisions that will assist CWI in better providing stakeholders with information from which

decisions can be made regarding the factors that affect enrollment, retention, completion and operations, which will have a positive impact on revenue.

All positions in this request, including operating expenses, are ongoing. No changes will be made to fee structure; no grant awards are currently being sought for these positions.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

CWI students and the entire CWI organization are expected to be positively impacted and served by this request. The expected impacts are to improve student programming and the student experience, improve data driven decision-making, improve data integrity, meet internal and external state and federal reporting needs, and build a sustainable IR function and structure to support CWI's evolving strategic, operational, and tactical data and reporting needs.

If this request is not funded, CWI students and all of CWI will continue to be adversely impacted. The following items are currently adversely impacted: CWI student programming and the student experience; data driven decision-making; data integrity; ability to meet internal and external state and federal reporting needs and the CWI Data Future State.

**Description:**

Transition advisors are committed to the needs of students who are interested in pursuit of further education, or would pursue such possibilities if they were better informed and supported for such pursuits. As the college, the wider community, and the state seeks to achieve the critical goals of a more educated citizenry, and support non-traditional student educational advancement, and non-traditional or returning adults, commitment of a dedicated transition advisor will effectively and efficiently address a clear and evident need.

At NIC, transition coordinators would be dedicated to serving specific populations of students from helping dual credit students matriculate and transition into traditional college students after high school graduation to helping students graduating NIC prepare to transfer on to our four-year sister institutions. Perhaps most importantly, transition advisors will work with our adult learners to transition to higher education.

For NIC, this need is well defined in our student population pursuing their GED and working on non-credit certification programs at the Workforce Training Center. NIC is well aware that the vast majority of GED students aspire to more education, the high school equivalent is not a terminus but a gateway. However, the GED program, as a grant funded operation, has advising to bring students into the Adult Education Center and can provide some guidance and information for future steps upon graduation, but the needs far outstrip the piecemeal resource currently in place.

Another example are the many students in apprenticeship programs at NIC's Workforce Training Center. These students often mirror the profile and the interests of GED students at NIC and desire to pursue higher education, yet do not have the guidance needed to transition to higher education. Transition advisors provide the necessary support to help non-traditional or returning adults by providing the commitment of a dedicated transition resource to provide counsel, advising and problem solving to make pursuit of a higher education a reality.

### Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request is for 4.0 FTE Transition Advisors to provide guidance and support for dual credit and non-traditional, adult learners. There is currently no dedicated resource assigned to these populations.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
  - i. Four Full-Time, Benefit Eligible Transition Advisors. Anticipated Start Date of July 1, 2020. Anticipated Salary \$51,517 P5 on NIC Salary Schedule.
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
  - i. N/A
- c. List any additional operating funds and capital items needed.
  - i. Operating Funds: \$5,300 Travel and Professional Development per FTE.
  - ii. Capital Outlay: \$5,500 for Initial IT and Furniture Set-Up per FTE.
- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)
  - i. Projection based on current salary schedule at North Idaho College for similar positions and operating and capital allocations for new positions.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.
  - i. This request is for on-going funding of personnel and operating expenses to support the Transition Advisor positions.
  
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
  - i. This request will serve both transitioning dual credit students as well place specific resources to serve adult learners and students desiring to transition for GED and non-credit programs at the Workforce Training Center. The anticipated impact of this request is a greater matriculation of GED graduates and non-credit Workforce Training Center students entering into degree programs at NIC. In addition, an anticipated impact is higher enrollment of adult learners and returning adult learners who have some college but no degree.

**Description:**

As part of our mission to be responsive to the needs of the community and ensure quality educational programs that prepare students for both transfer and career, North Idaho College has invested heavily in creating a center for entrepreneurship education where entrepreneurs from across North Idaho can receive training, advice, guidance and access to a state of the art makerspace and rapid prototyping lab to ensure Idaho is a place where ideas are developed and products are made.

This request is to expand the reach of NIC’s entrepreneurship education and outreach efforts, increasing our capacity and creating a regional resource for economic development in North Idaho. North Idaho College recently received an i6 Innovation Grant from the Economic Development Administration to bring a rapid prototype lab to campus. In addition, North Idaho College was named the 2018 Entrepreneurial College of the Year by the National Association of Community College Entrepreneurship. This

request builds upon this work to add two lab assistants to assist entrepreneurs and students to take their idea from concept to credible business venture.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request is for 3.0 FTEs to expand the impact and educational offerings related to entrepreneurship, prototyping and business development. This request will cover the personnel and operating expenses for a director and two lab instructors.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

- i. One Full-Time, Benefit Eligible Director of Regional Entrepreneurship. Anticipated Start Date of July 1, 2020. Anticipated Salary \$75,427 P9 on NIC Salary Schedule. Currently the director has been grant funded. The support of this line item will create sustainability and enhancement of this program for the North Idaho region.

- ii. Two Full-Time, Benefit Eligible Lab Instructors. Anticipated Start Date of July 1, 2020. Anticipated Salary \$51,517 P5 on NIC Salary Schedule

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

- i. N/A

- c. List any additional operating funds and capital items needed.

- i. Operating Funds: \$5,300 Travel and Professional Development per FTE.

- ii. Capital Outlay: \$5,500 for Initial IT and Furniture Set-Up for 2 FTEs.

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

- i. Projection based on current salary schedule at North Idaho College for similar positions and operating and capital allocations for new positions.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

- i. This request is for on-going funding of personnel and operating expenses to support Regional Entrepreneurship.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
  - i. This request will serve both students at North Idaho College pursuing credit and non-credit course work as well as the larger community and students from other higher education institutions pursuing entrepreneurship and product proto-typing.

**Description:**

The push for documented, cyclical, and meaningful student learning outcomes assessment originated in a call for public accountability, but has been a focal point for accrediting bodies since the 1980s. The role of an Assessment Coordinator is a common approach for institutions to support learning outcomes assessment efforts.

At North Idaho College, the Student Learning Outcomes Assessment (SLOA) committee is responsible for guiding assessment efforts in the General Education Matriculation courses and program learning outcomes within the program review process. The institution is also aware of the need for course-level outcomes assessment and co-curricular learning outcomes assessment.

Accrediting bodies nationwide declare, and rightly so, that learning outcomes assessment efforts must be conducted with significant participation of faculty members. Although this aspect is crucial, there is another, often overlooked component that is critical for success:

a knowledgeable support structure. Faculty members are professionals in their areas of study, but frequently have little training or expertise in best practices for outcomes assessment.

Despite almost 40 years of outcomes assessment emphasis in higher education, North Idaho College can still improve in the area of planning, facilitating, implementing, and communicating comprehensive and consistent assessment processes that yield actionable results. This year's SLOA co-chairs conducted a review of institutions that excel at outcomes assessment and found a single commonality in each case: support and guidance from the Institutional Effectiveness unit.

The Assessment Coordinator will help North Idaho College embrace outcomes assessment as a part of the institutional culture. The Coordinator will assist programs, committees, and working units with establishing learning outcomes, and identifying and implementing quality methods for assessment of those outcomes. This role facilitates and champions the use of data for informed decision-making that may include review of instructional methodology, curriculum design, and strategic planning efforts.

### Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request is for 1.0 FTE Assessment Coordinator to provide guidance and support for outcomes assessment throughout the institution. This activity is currently being handled by full-time faculty members on reassigned time.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
  - i. One Full-Time, Benefit Eligible Assessment Coordinator. Anticipated Start Date of July 1, 2020. Anticipated Salary \$62,336 P7 on NIC Salary Schedule.
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
  - i. N/A
- c. List any additional operating funds and capital items needed.
  - i. Operating Funds: \$5,300 Travel and Professional Development
  - ii. Capital Outlay: \$5,500 for Initial IT and Furniture Set-Up
- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

- i. Projection based on current salary schedule at North Idaho College for similar positions and operating and capital allocations for new positions.
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.
  - i. This request is for on-going funding of personnel and operating expenses to support the Assessment Coordinator position.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
  - i. All full-time faculty members will receive support from the Coordinator. At a deeper level, quality outcomes assessment has a significant impact on program quality and student learning gains. Therefore, all students enrolled in credit-bearing courses will subsequently benefit from the work of the Coordinator. Providing evidence for accreditation reports will be streamlined and simplified, as the Coordinator works to systematize assessment efforts. Additionally, the work of the Assessment Coordinator can significantly inform efforts in the following statewide momentum pathway initiatives:
    - 15 to Finish
    - Math Pathways
    - Co-requisite Support
    - Momentum Year
    - Academic Maps
    - A Better Deal for Returning Adults

This proposal enables the University of Idaho’s College of Agricultural and Life Sciences to provide a facility that will address the issues of limited space, outdated facilities, and pest and pathogen containment while providing increased student and stakeholder training to meet the essential needs for the life cycle of crop production.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The University of Idaho Agricultural Research and Extension Service is requesting support for a replacement and enlargement of the laboratory facilities at the Parma Research and Extension Center to establish the Idaho Center for Plant and Soil Health. This center will allow the University of Idaho to continue its innovative research and education in the fields of potatoes, onions, small grains, wine grapes, mint, hops, sugar beets, table grapes, beans, and a multitude of seed and other crops important for the diverse agricultural production in Idaho. These commodities are struggling to develop adequate and economical pest management strategies while maintaining soil health that is critical to plant health and crop quality. These are issues that affect all crops in Idaho.

Although we are targeting expansion at the Parma R&E Center, this new facility will have broad application and address vital research needs across all of Idaho agriculture, benefitting the industry statewide. The current facility at the Parma R&E Center is limited and outdated. Modern and increased space would allow for the growth of the program in support of Idaho agriculture. Crop production in Idaho contributes to supplying food to world markets and is an important economic driver in Idaho's Gross State Product (GSP).

The staffing levels for the Idaho Center for Plant and Soil Health will be a re-distribution of current personnel appropriations and is not included in this request.

2. What resources are necessary to implement this request?

Attached are the detailed expenses for the construction of the Idaho Center for Plant and Soil Health.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

The estimated project cost for this facility is \$7 million. The College of Agricultural and Life Sciences will contribute \$1 million from existing funds, and a variety of stakeholders (comprised of commissions, allied industries and individual growers) have pledged to raise \$3 million across multiple agricultural interests in Idaho. This one-time request to the JFAC is for the remaining \$3 million in Capital Outlay that will support the research, education, and Extension mission of the University of Idaho.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request is designed to serve the students who will be afforded more educational and scientific employment opportunities in the cropping industries, the University of Idaho plant and soil health researchers who bring improvements and innovations to farms and consumers' tables, the sustainability of Idaho's diverse agricultural commodities, and ultimately the citizenry of Idaho who benefit from the economic

impact of the state's agricultural industries. Building a new center will reinforce the established need for earlier funding from the State of Idaho to construct new graduate student housing at many of our Research and Extension Centers across the state. The Parma R&E Center is slated for new graduate student housing this year.

If unfunded, the Parma R&E Center will remain confined to its current facility of outdated laboratories and inadequate technology, which will limit the ability to attract excellent and impactful early-career faculty in research, teaching and Extension. The Idaho Agricultural Experiment Station will be unable to keep up with the demands to solve emerging issues in pest management, irrigation efficiency and maintenance of crop quality through proper soil health. Ultimately, Idaho agriculture would suffer, which would in turn affect the state's economy.

**Description:**

**ECHO Idaho Project**

Project ECHO (Extension for Community Health Outcomes) is a telehealth mentoring model that expands access to specialty and high-quality primary care. The ECHO Idaho project uses distance technology to leverage scarce resources to build the capacity of healthcare providers to treat complicated patients they would otherwise refer out. ECHO Idaho offers providers the knowledge and support they need through continuing medical education and participant-provided case studies to treat common, complex conditions in rural and underserved areas within Idaho. In this way, patients receive the right care, in the right place, at the right time.

The ECHO model was developed by the University of New Mexico Medical Center to expand access to Hepatitis C treatment in rural New Mexico. ECHO has now been

successfully replicated throughout the United States in more than 30 states to address more than 60 complex diseases, including diabetes, opioid addiction, and behavioral/mental health.

ECHO Idaho launched its first virtual teleECHO clinic March 2018 focusing on Opioid Addiction and Treatment. Twice a month, an interdisciplinary specialist team of Idaho experts use video conferencing to connect over the lunch hour with students and providers throughout the state for a brief lecture on an opioid-related topic followed by a case presentation and discussion. ECHO Idaho is the only ECHO project focused on filling the need to support local networks, create linkages, and build community of *Idaho* providers who care for *Idaho* patients, and who understand *Idaho's* unique challenges and opportunities.

### Questions:

#### 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is for personnel costs and operating expenses. Funds will be utilized to provide staff salary and benefits, as well as cover yearly operating expenses for the ECHO Idaho project.

The request is for two full-time ECHO staff personnel and salary compensation for ECHO panel experts for clinic sessions. ECHO Idaho staff will maintain critical infrastructure to deliver teleECHO clinics in; 1. Opioid Addiction and Treatment and 2. Behavioral/Mental health. ECHO Idaho staff will collect and analyze data from various sampling points on ECHO Idaho's impact to the state. Resources will also be utilized to support travel, supplies and operating expenditures to support teleECHO sessions and ECHO Idaho project functions. The University of Idaho launched ECHO Idaho in March 2018 and has been sustaining programming since with resources from philanthropic support, direct federal and state grants and a one-time appropriation from the Idaho State Legislature. The University of Idaho will continue to support ECHO program through WWAMI Medical Education by providing administrative oversight and assistance from our financial specialist and other program staff. We are asking for permanent base funding support for ECHO Idaho.

#### 2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Program Director (1.0 FTE), full time, 12 month appointment, benefit eligible. Hired

This position is responsible for providing direction and guidance for the overall success of the ECHO Idaho project. The program director manages the day-to-day operations of the ECHO program and ensures the coordination of teleECHO clinic initiatives and deliverables. Key responsibilities include planning and oversight of the team's activities,

coordinating ECHO curriculum development, and promoting the ECHO learning model in the state. The program director builds effective relationships with Project ECHO staff, University of Idaho staff, and community partners to advance the program in the state.

Program Coordinator (1.0 FTE), full time, 12 month appointment, benefit eligible. Hired

This position is responsible for coordinating educational sessions for ECHO Idaho and assisting with the use of distance learning technology. The clinic coordinator supports the production and distribution of distance education course materials, schedules, and facilitates delivery of academic courses to learners at remote sites. Key responsibilities include conducting surveys and preparing reports as needed, developing and distributing promotional and informational materials, and providing direct academic/administrative guidance and assistance to distance education students. The program coordinator maintains the integrity of data collection and databases and maintains collaborative relations with rural community partners and internal ECHO/University of Idaho staff.

**b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

Financial specialists will support project operations to process travel and supply purchases. Human Resources will support hiring of personnel. Marketing and Communications staff will support publication and promotion of project results. Director level oversight to ensure adherence to University policies and procedures. Existing operations will be minimally impacted as these functions are currently in place to support all similar activities within the WWAMI Medical Education program.

**c. List any additional operating funds and capital items needed.**

No capital funding is required. Operating funds of \$40,700 are requested to cover travel, supplies and teleECHO operating expenses.

**d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)**

This request is calculated on the minimum required resources to support ECHO Idaho teleECHO clinics in two critical areas: Opioid Addiction and Treatment and Behavioral Health/Mental Health. Personnel and operating needs were projected based on FY20 actuals. State support will allow us to create a stable program base and use grants to expand our programming to meet current demand.

- 3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

This request is for ongoing annual funding in support of ECHO Idaho teleECHO clinics on Opioid Addiction and Treatment, and Behavioral Health/Mental Health. It is anticipated that additional grants will be sought to support the growth of ECHO clinic sessions on other complex diseases in Idaho. Data collection and sample analysis collected through the ECHO Idaho program will continue to build a long-term data set to demonstrate the health care impacts from participants of the teleECHO clinics.

After launching ECHO Idaho, we have seen immediate statewide participation and impact. So much so, demand for behavioral health ECHO trainings has already outpaced what we are able to offer with grant funding alone. We have fielded repeated requests to offer additional trainings by providers across the state. State support will allow us to create a stable program base and use grants to expand our programming to meet current demand. Our strategic vision is to maintain essential programming in Opioid Addiction and Treatment and Behavioral Health as well as grow the number of offerings by creating learning communities to tackle other critical health areas in the state.

- 4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

Enrollment and participation in ECHO Idaho is free and practitioners earn continuing medical education credits. The target audience is a wide range of healthcare providers, including nurses, community health workers, medical assistants, pharmacists, counselors, nurse practitioners, physician assistants, physicians, students and others who provide healthcare education or services. In ECHO Idaho's first year, participants come from all seven health districts, 43 counties, 56 cities, and 120 clinics/organizations. Collectively, over 325 participants have received over 1,100 hours of free medical education. Feedback has been positive, and interest is rapidly growing. Idaho providers, healthcare workers, health profession students and patients will be served by this critical program. The expected impacts are long-term changes in health provider self-efficacy and knowledge in specialty areas for complex clinical problems in Idaho. These benefits will impact Idaho patients by providing the right treatment in the right time in a cost-effective model. The ECHO model is cost-effective in terms of expenses relative to outcome improvements. Cost savings attributed to ECHO projects in other states include reduced hospitalizations and ER visits, preventing the costs of untreated diseases, savings related to increased provider recruitment and retention, and patients saving the expense of traveling long distances to see a specialist.

If this project is not funded there will be increased difficulty to obtain any of the benefits mentioned previously.

**Description:**

The Legislature appropriated the following for fiscal year 2019.

Family Medicine Residencies, \$565,000:

- FMRI Boise, \$240,000 to increase funding to \$35,000 per resident
- ISU FMR, \$105,000 to increase funding to \$40,000 per resident
- Kootenai FMR, \$90,000 to increase funding to \$35,000 per resident
- ISU Pharmacy, \$130,000 for the following:
  - Pharmacy Program Director \$30,000
  - Pharmacy Admin Coordinator \$10,000
  - Three (3) Pharmacy Residents \$90,000

Boise Internal Medicine, \$77,500 to increase funding to \$17,500 per resident

Psychiatry Education, \$240,000 to increase funding to \$60,000 per resident  
 Eastern Idaho Medical Residencies, \$455,000 established at \$35,000 per resident  
 Bingham Internal Medicine, \$525,000 established at \$35,000 per resident

The Legislature appropriated the following for fiscal year 2020.

Family Medicine Residencies, \$750,000:

FMRI Boise, \$330,000 to increase funding from \$35,000 to \$45,000 per resident  
 ISU FMR, \$60,000 for Rexburg resident, \$60,000 for hospitalist and \$300,000 for rural training track residents

Boise Internal Medicine, \$227,500:

\$150,000 for 3 new residents at \$50,000 each  
 \$62,500 to increase funding for 25 residents from \$17,500 to \$20,000  
 \$10,000 to increase funding for 4 Preliminary Year interns from \$17,500 to \$20,000  
 \$5,000 to increase funding for 2 IM Chief Residents from \$17,500 to \$20,000

Eastern Idaho Medical Residencies, \$550,000:

\$50,000 to increase funding for 10 residents from \$35,000 to \$40,000  
 \$500,000 for 10 new residents at \$50,000 each

Bingham Internal Medicine, \$110,000:

\$60,000 to increase funding for 12 residents from \$35,000 to \$40,000  
 \$50,000 for 1 new resident at \$50,000

Assumptions for FY 2021 line item requests:

1. Update for FY 2021 using the following criteria.

FMR, \$720,000:

\$60,000, one new Boise resident at \$60,000  
 \$30,000, one new Boise Pharmacy D resident at \$30,000  
 \$165,000, increase funding for 33 residents from \$40,000 to \$45,000  
 \$45,000, increase funding for 9 Caldwell FM rural training track from \$40,000 to \$45,000  
 \$30,000, increase funding for 6 Magic Valley FM rural training track from \$40,000 to \$45,000  
 \$60,000, one new Kootenai FM/Behavioral Health Fellowship at \$60,000  
 \$90,000, increase funding for 18 Coeur d'Alene residents from \$40,000 to \$45,000  
 \$60,000, one new ISU Rexburg Rural Training Track at \$60,000  
 \$105,000, increase funding for 21 ISU residents from \$40,000 to \$45,000  
**\$75,000, ISU Offset**

2. University of Utah, \$180,000: 3 new residents at \$60,000 each

3. Boise Internal Medicine, \$347,500:

\$180,000, 3 new residents at \$60,000 each  
 \$60,000, one new IM Chief Resident

- \$62,500 to increase funding for 25 VA residents from \$20,000 to \$22,500
- \$30,000 to increase funding for 3 new residents from \$50,000 to \$60,000
- \$10,000 to increase funding for 4 Preliminary Year interns from \$20,000 to \$22,500
- \$5,000 to increase funding for 2 IM Chief Residents at VA from \$20,000 to \$22,500
- 4. Psychiatry Education, \$240,000 for 4 additional residents at \$60,000 each
- 5. Eastern Idaho Medical Residencies, \$1,110,000:
  - \$600,000 for 10 new residents at \$60,000 each
  - \$360,000 for 6 new FM residents at \$60,000 each
  - \$50,000 to increase funding for 10 residents from \$40,000 to \$50,000
  - \$100,000 to increase funding for 10 residents from \$50,000 to \$60,000
- 6. Bingham Internal Medicine, \$190,000:
  - \$60,000 for 1 new resident at \$60,000
  - \$60,000 for 1 new IM Emergency Medicine Fellowship
  - \$60,000 to increase funding for 12 residents from \$40,000 to \$45,000
  - \$10,000 to increase funding for 1 resident from \$50,000 to \$60,000

See following page for total increases by program for all Health Education Programs.

Family Medicine Residencies	\$480,000
ISU FMR	240,000
University of Utah School of Medicine	180,000
Boise Internal Medicine	347,500
Psychiatry Education	240,000
Eastern Idaho Medical Center	1,110,000
Bingham Internal Medicine	<u>190,000</u>
Total Graduate Medical Education	\$2,787,500

## Ten Year GME FY 2021 Budget Increase Request

<b>Total</b>		<b>3</b>	<b>\$ -</b>	<b>3</b>	<b>\$ 180,000</b>		<b>\$ -</b>	<b>\$ 180,000</b>
<b>Grand Total</b>		<b>172</b>	<b>\$ 622,500</b>	<b>38</b>	<b>\$ 1,920,000</b>	<b>4</b>	<b>\$ 245,000</b>	<b>\$ 2,787,500</b>

1. Residual offset for ISU Medicaid GME

2. Three new resident(s) in FY 2020 paid for @ \$50K/resident instead of \$60K/resident. Hence 3 x \$10K = \$30K

3. UW. Psychiatry resident(s) already funded above \$45K. Will catch up to \$60K with subsequent budgets

4. One new resident in FY 2020 paid for @ \$50K/resident instead of \$60K/resident. Hence 1 X \$10K = \$10K

5. Ten new resident(s) in FY 2020 paid for @ \$50K/resident instead of \$60K/resident. Hence 10 X \$10K = \$100K

**Description:**

The IGS provides an essential service to the Idaho’s citizens and economy.

Public demand for geologic and geospatial services from the Idaho Geological Survey (IGS) has grown each year for the last five years. The IGS conducts research and publishes maps, reports, and data on geologic mapping, mines and minerals, oil and gas, hydrogeology, and geologic hazards throughout the state. These publications are available to the public on the agency website for download at no cost. Website visitors have continued to increase, and in FY 2018, nearly a half million visits were logged, over 200,000 publications were downloaded, and more than 18,000 visitors used IGS web map applications to explore Idaho.

The FY 2021 budget request is to address employee retention issues by offering competitive salaries, add to IGS benefits pool to compensate for rising costs, add FTE to assist IGS in meeting public demands, and increase operating costs to supply products and travel necessary to serve the geological, economic, and educational needs of the state of Idaho.

In addition, a one-time request is being made for seed funding for hydrogeology and petroleum research projects across the state.

**Questions:**

What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

- 1) Salary adjustments for Seven (7) IGS Exempt and Classified Staff
  - a. Appropriation of \$64,658 in salary is being requested to bring 7 staff (exempt and classified) up to a competitive rate. In order to slow employee turnover, the IGS needs to address employee retention issues. With IGS operating in Moscow and Boise within the University of Idaho (UI) and in close proximity to Washington State University, Boise State University, Schweitzer Engineering, and Micron Technology among others, we are experiencing high turnover of skilled staff and having an increasingly difficult time hiring qualified geologists and operations personnel.
  - b. In association with this salary increase, an added \$13,288 is being requested to cover the increase in benefits costs as calculated by DFM worksheet.
  - c. IGS has its own appropriation line from the Idaho legislature and does not have access to General Education funds from the UI. This funding request will bring all IGS exempt and classified staff up to competitive rates set by UI and Washington State University.
  
- 2) Additional FTE of .125 for the Assistant to the Director and additional FTE of .31 for the Senior Geologist. A total of \$52,082 is requested for salary and \$15,829 for benefits.
  - a. Request is to raise the FTE of the Assistant to the Director from .875 FTE to a full 1.0 FTE and the FTE of the Senior Geologist from .69 FTE to a full 1.0 FTE.
  - b. Requesting an additional appropriation of \$15,829 in benefits for both positions as calculated by DFM worksheet
  - c. Additional funding and FTE for the two positions, as stated above, adds increased services to the public and improves employee retention at IGS. The .125 FTE increase for the Assistant to the Director will allow full-time

work without the extra funding being drawn from IGS operating funds (OE, CO, and Travel). The additional .31 FTE for the Senior Geologist provides a much stronger state match for competitive U.S. Geologic Survey grants and permits the Survey to secure larger federal grants and map larger areas throughout the state. Providing a small increase in FTE for the Senior Geologist also permits more resources to be allocated for earth science education in public and private schools and outreach opportunities throughout the state. This FTE increase for the Senior Geologist position will also decrease dependence on operations funds to cover salary costs.

- 3) Benefits increase to cover rising benefits rate at UI, \$70,556. Being administered by UI, even though funded independently, benefits costs for IGS has increased by **~5% of our total budget** due to changes in the UI benefits rate. IGS manages our funding very carefully and having an additional 5% of expenditures added without accompanying appropriation increase significantly stretches our resources.
- 4) Operating funds increase (\$20,000) to supplement basic operations and travel needs. As IGS expands and becomes more specialized, the need for additional travel, advanced software, and specialized testing and analysis is becoming more crucial than ever.
  - a. Travel to outreach and research sites for the development of new projects.
  - b. Testing and analysis costs are currently over \$10,000 per year. Sample testing and analysis is critical for IGS geologists to complete a wide variety of projects which will help boost Idaho's economy, improve safety for citizens, protect our water resources, and serve as a lead resource for Idaho geology.
- 5) **One-time** seed funding (\$60,000) for preliminary work for the following:
  - a. Oil and gas research in south-central Idaho along the Idaho and Nevada border.
  - b. Surface and groundwater studies in the Raft River Basin.
  - c. Mine mapping, mineral, and groundwater studies in relation to phosphate mining in southeast Idaho.
  - d. Oil and gas core and cuttings analysis in southeast Idaho, east of Bear Lake.

Proposed one-time funding would be used to visit research sites, conduct field sampling, develop and sustain partnerships with possible funding entities, and support seasonal field geologists. This funding would support new research and be utilized by six IGS personnel.
- 6) **One-time** capital outlay funding (\$15,000) for new software packages for current and future projects for hydrogeologic investigations, petroleum assessment, lidar processing, and digital mapping needs.

1. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
    - i. This request is not for new employees; it is for additional funding and FTE to support existing IGS positions. Resources necessary will be identical to resources currently being used to support these positions. By fulling funding for both positions, operations resources currently being used for salary and benefits will be shifted back to operations.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
    - i. No existing human resources will be redirected to this effort.
    - ii. Additional funding will help IGS maintain competitiveness in hiring and maintaining personnel.
      1. IGS has had difficulty “full staffing” levels due to lower salary funding.
  - c. List any additional operating funds and capital items needed.
    - i. Additional operations funding will assist IGS in maintain outreach and new research efforts.
    - ii. Onetime funding for “seed” allocation will allow IGS to target specific areas of possible research that could have impacts for economic growth, water resources and safety.
  - d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)
    - i. This request is being made so IGS can be more competitive with all peer institutions in the area, both public and private. In order to serve the needs of the state of Idaho, it is necessary for IGS to retain skilled personnel and their institutional knowledge within the agency.
    - ii. Since IGS is administered by UI, personnel costs were projected using existing UI classifications for duties, specialty and experience to set salary rates. Benefit rates were calculated using UI provided rates.
2. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

- a. The first portion of this request is for ongoing funding for existing personnel. The appropriation request will be used for salary and benefits only to keep pace with the employee compensation being set by the UI and other institutions in the area and to increase employee retention at IGS.
  - b. Additional operating funds are to assist in ongoing operations, statewide travel and site visits based on needs of the state and the general public.
  - c. Second portion of this request is for one-time seed funding for ground water hydrogeology, petroleum, mapping and safety feasibility preliminary research efforts.
3. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
- a. Beneficiaries of this request will be the general public, energy and minerals industries, engineering firms, the Idaho legislature, state and federal agencies, the Governor's office, and all other entities who request services from the IGS.
  - b. If these funding requests are not granted, the IGS will fall further behind existing staff salaries at UI and other neighboring institutions. As IGS falls further behind, key personnel are lost to other units and departments within UI and to Washington State University, Boise State University, the Meter Group, and Schweitzer Engineering among other employers. IGS is also having difficulty hiring qualified personnel at current salary rates. One such search lasted over 6 months, and several applicants who were offered the job did not accept due to the low salary. In another recently completed search, IGS had to reallocate from other positions and sacrifice staff increases in order to offer a competitive rate to fill the key Digital Mapping Lab Manager position, a position considered by most at IGS to be the most crucial for continued operations.

\*11.7 FTP reflects the *total* of what is being requested (under General column) and the *existing* FTPs that serve the mission of this line item request that are funded through outside sources (under Federal and Other).

**Description:**

The Idaho Small Business Development Center (SBDC) has been providing no-cost consulting and coaching to Idaho’s small businesses and entrepreneurs since 1986 through a network of 6 offices hosted by Idaho’s colleges and universities that service all 44 counties in the state. The Procurement Technical Assistance Center (PTAC) has also been providing assistance to businesses on government procurement since 1986. In 2015, the PTAC transitioned from the Idaho Department of Commerce to the Idaho SBDC to complement the services being provided to small businesses.

**Request 1: Rural Impact**

On average over the past six years, 22% of Idaho SBDC clients have been located in rural areas. The average time spent with these rural clients has been 19% of total

consulting. The time spent with these clients has resulted in rural Idaho accounting for; 21% of all new business starts, 26% of all capital raised, 27% of all jobs created, and 27% of all sales in the past six years (from SBDC clients).

#### Historical Data for SBDC Rural Client Impact:

	2013	2014	2015	2016	2017	2018	2019 (YTD)
<i>% of Rural Clients</i>	23.12%	19.32%	21.65%	23.52%	22.66%	21.80%	22.18%
<b>% of Total Rural Impact from all SBDC Clients</b>							
<i>Business Starts</i>	33.82%	13.54%	24.10%	13.10%	16.50%	25.00%	21.21%
<i>Capital Raised</i>	12.90%	20.00%	13.55%	25.65%	30.67%	53.90%	24.69%
<i>Jobs Created</i>	27.30%	16.25%	19.95%	26.00%	45.80%	25.90%	26.60%
<i>Sales Growth</i>	17.93%	22.66%	32.82%	40.79%	25.75%	24.75%	18.62%

While these statistics are encouraging, there is need and opportunity for improvement. Even with its strong track record of performance, under the current resources, the Idaho SBDC has not been able to significantly increase these measures. The Idaho SBDC conducted a rural awareness study in 2018 that found 47% of the businesses in the study were aware of the SBDC, but only 27% specifically knew about, and utilized its services. To effectively reach rural business owners with one-one-one consulting and high quality trainings, the SBDC needs to expand its presence and awareness in rural Idaho.

The request focuses on two major areas: 1. Increasing “on-the-ground” rural development support with remotely located consultants servicing rural communities in selected parts of Idaho. 2. Increasing awareness and usage of SBDC program in rural parts of Idaho through trainings, targeted messaging, and referrals. Based on the awareness study, the target for rural clients that are aware of, and utilize SBDC programs should be 40%-50%, which will have a positive effect on the impact our consultants will have on rural Idaho job creation and retention, revenue increases, capital infusion, and new businesses started.

The Idaho SBDC has a proven track record of utilizing state and federal funds to deliver solid results for Idaho’s economy. (see table below) We have currently optimized our regional offices across the state, and have the opportunity to focus on the rural need and opportunity, which needs additional resources to effectively reach Idaho’s rural areas. The initial targeted areas will be Sandpoint, Driggs/Victor, and Lewiston.

<b>Idaho SBDC Impact Data</b>	<b>2018</b>	<b>2017</b>	<b>2016</b>
Jobs Created	998	1,373	677
Clients Served	1,661	1,677	1,562
Businesses Started	100	103	84
Sales Growth	\$67M	\$53M	\$42M
Capital Raised	\$50M	\$42M	\$36M
Training Events	265	263	261
Consulting Hours	19,368	20,284	19,320
Current Percent of Rural Clients Served	24%	28%	31%

**Questions:**

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

Two SBDC regional offices have tested a distributed staffing model, whereby business consultants are remotely located in rural areas. This approach has allowed the SBDC consultants to be more responsive to needs of local companies, has built stronger community relationships, and delivered quality consulting. The Idaho SBDC is seeking to expand this approach in additional rural parts of Idaho.

\$176,680 is being requested to add 2.1 FTPs to the SBDC network as well as support activities to raise awareness of SBDC and PTAC services in rural areas of Idaho to support and grow job creation and retention across the state. \$167,680 is for salary and fringe for new positions located in Sandpoint, Lewiston/Moscow, and Victor/Driggs, and increased hours for positions in Coeur d'Alene and Twin Falls, and the State Office. \$9,000 is for travel activities. The SBDC office in Couer d'Alene will supervise the Sandpoint position, the SBDC office in Lewiston will supervise the Lewiston/Moscow position, and the SBDC office in Idaho Falls will supervise the Victor/Driggs position.

The request is for ongoing funding that would be added to the base.

- 2. What resources are necessary to implement this request?**

Three offices will receive funding for one new part-time remote rural consultant positions two offices will receive funding to increase hours of existing positions. The State Office will receive funding to increase hours of personnel focused on increasing rural awareness.

- Personnel: Three new remotely located part-time positions

- Region I: Rural SBDC Consultant for north Idaho (Sandpoint)
- Region II: Rural SBDC Consultant for north central Idaho (Lewiston/Moscow)
- Region VI: Rural SBDC Consultant for eastern Idaho (Victor/Driggs)
- Personnel: Increased hours for existing positions
  - Region I
  - Region IV
  - State Office
- Operating: Travel and awareness support
  - \$1,000 - \$3,000 travel per position
  - Increased awareness to rural areas via workshops, events, targeted marketing campaigns, and collateral

**3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

Ongoing funding is requested for three new part-time positions, increased hours for three existing positions and travel to best serve rural areas.

Rural outreach is not something that needs one-time or short-term funding. Our staff need to have a sustained footprint within the rural parts of each region to host trainings, build relationships, increase our awareness and be available for one-on-one consulting in order to most effectively provide the Idaho SBDC services needed to assist rural businesses succeed.

**4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

The request is designed to primarily serve businesses located in Rural parts of Idaho, which accounts for roughly 22% of the total clients served by the Idaho SBDC. Last year the SBDC helped create 963 jobs in the state of Idaho. Of those jobs created, 259 were located in rural parts of Idaho. The SBDC also helped rural businesses retain and additional 91 jobs. Those rural businesses accessed \$27 million in capital and had sales growth of over \$16.5 million. There is opportunity and need to increase assistance and there economic impact to rural Idaho.

With a proven track record of deploying funds to create economic impact, the return on this investment will be favorable. The Idaho SBDC forecasts the following annual results by 2025:

- 490 rural jobs created or retained
- 508 rural clients served
- \$23 million in sales growth
- 35 business starts

Please see the below table as a reference to Rural clients currently served, and Rural clients we propose to serve with this allocation:

**SBDC Current Rural Clients Served (2018):**

Center	Clients	Consulting Hours	Business Started	Jobs Created	Jobs Retained	Capital Formation	Sales Growth
30 Lewiston	111	725.03	4	20	32	\$1,183,850	\$828,534
40 Boise	44	268.11	2	5	0	\$2,060,000	\$376,490
50 Twin Falls	72	752.37	6	42	46	\$6,734,013	\$1,390,776
60 Pocatello	35	382.93	6	104	6	\$13,090,793	\$7,269,646
70 Idaho Falls	57	591.25	5	63	7	\$3,253,900	\$2,525,000
80 Coeur d'Alene	44	529.1	2	25	0	\$888,900	\$4,235,246
Total	363	3248.79	25	259	91	\$27,211,456	\$16,625,692

**SBDC Proposed Rural Clients Served (2025):**

Center	Clients	Consulting Hours	Business Started	Jobs Created	Jobs Retained	Capital Formation	Sales Growth
30 Lewiston	155	1015	6	28	45	\$1,657,390	\$1,159,948
40 Boise	62	375	3	7	0	\$2,884,000	\$527,086
50 Twin Falls	101	1053	8	59	64	\$9,427,618	\$1,947,086
60 Pocatello	49	536	8	146	8	\$18,327,110	\$10,177,504
70 Idaho Falls	80	828	7	88	10	\$4,555,460	\$3,535,000
80 Coeur d'Alene	62	741	3	35	0	\$1,244,460	\$5,929,344
Total	508	4548	35	363	127	\$38,096,038	\$23,275,969

Data shows that with all the work SBDCs do nationally, we are still only touching about 5% of small businesses. If this request is not funded, the Idaho SBDC will continue serving businesses in the more rural parts of the state in a limited capacity. However, without additional funding, we expect to deliver only a fraction of the impact to small businesses we believe possible in the rural communities; thus not realizing the potential for increased growth of Idaho’s businesses.

**Request 2: PTAC Expansion**

This request enhances the Idaho SBDC’s resources to help small businesses gain access to federal, state and local government contracts through the Idaho Procurement Technical Assistance Centers (PTAC) program. State funding will support further expansion of the PTAC program across Idaho and allow the SBDC to maintain the viability of the program with increased scrutiny from it’s main funding source, the Federal Defense Logistics Agency (DLA). This request will follows a 2018 increase to partially fund two positions. After two failed searches, it is clear that the positions need to be full-time to attract quality candidates. As such, this request would add to those funds to support two full-time PTAC counselors located in Northern and Eastern Idaho. The PTAC program expansion started in 2017 has been largely successful in terms of working with more clients around the state, and increasing the number of government contracts awarded to Idaho companies. There is an opportunity to increase the effectiveness of this expansion and optimize its economic impact.

**Questions:**

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

The Idaho SBDC was able to successfully expand the PTAC program in 2018, increasing the number of Idaho businesses that receive assistance to secure government contracts. In 2018, the PTAC program, under the supervision of the Idaho SBDC, helped Idaho

companies secure \$132 million in government contracts. While this is a step in the right direction, there is a significant opportunity to increase the PTACs reach, offerings, expertise, and impact. Additionally, the federal grant funding entity, The Defense Logistics Agency, has put tighter constraints on how the program funds are matched. These constraints make it impossible to continue the PTAC program at its current level and put its continued administration by the Idaho SBDC at risk.

**PTAC Impact**

	FY 19 (YTD)	FY 18	FY 17
<b>Clients Served</b>	472	362	625
<b>Government Contracts Awarded</b>	\$123M	\$132M	\$173M
<b>Counseling Hours</b>	621	502	510

The Idaho SBDC is requesting \$175,265.63 of increased personnel cost funding for the PTAC program to match federal funding from DLA for 1.85 FTP. The federal contribution to Idaho PTAC supports three full-time personnel as well as all the operational costs for this program. The funds requested here from the State of Idaho will be used to convert the two previously funded part-time PTAC counselors to full-time and will fund the administrative support necessary to maintain the PTAC program as part of the SBDC.

**2. What resources are necessary to implement this request?**

- Convert part-time funding to full-time funding for positions located in Northern Idaho (Coeur d’Alene), and Eastern Idaho (Idaho Falls)
- Match support for the SBDC personnel needed to provide support and oversight to the PTAC program
- One new office space provided by North Idaho College (provided at no cost by North Idaho College)
- Supervisory/leadership for the one new position located in North Idaho College provided by incumbent regional director (Provided at no additional cost by SBDC)
- See a detailed breakdown below of the positions we are asking to fund and the role they will play in the success of the Idaho PTAC program.

Position	Location	Role	Salary	Fringe	Total	Time spent on PTAC	Requested FTP
<b>PTAC Business Counselor</b>	Idaho Falls	<i>Counsel and train businesses on government contracting</i>	\$32,131.00	\$14,214.75	\$46,345.75	100%	.5
<b>SBDC Region</b>	Idaho	<i>Integrate and oversee the</i>	\$7,325.00	\$2,783.50	\$10,108.50	10%	0.1

<b>VI Director</b>	Falls	<i>regional PTAC counselor</i>						
<b>PTAC Business Counselor</b>	Coeur d'Alene	<i>Counsel and train businesses on government contracting</i>	\$31,444.00	\$14,039.75	\$45,483.75	100%		.5
<b>SBDC Region I Director</b>	Coeur d'Alene	<i>Integrate and oversee the regional PTAC counselor</i>	\$7,266.10	\$1,961.85	\$9,227.95	10%		0.1
<b>SBDC State Director</b>	Boise	<i>Host and supervise the PTAC Program and its Director</i>	\$11,125.40	\$3,494.49	\$14,619.89	10%		0.1
<b>SBDC Associate Director of Finance</b>	Boise	<i>Provide financial oversight and assistance to the PTAC Program</i>	\$10,832.85	\$4,015.74	\$14,848.59	15%		0.15
<b>SBDC Associate Director of Operations</b>	Boise	<i>Provide strategic planning and leadership assistance to the PTAC Program</i>	\$10,832.85	\$4,015.74	\$14,848.59	15%		0.15
<b>SBDC Marketing Manager</b>	Boise	<i>Increase PTAC awareness statewide</i>	\$4,680.00	\$2,726.10	\$7,406.10	15%		0.15
<b>SBDC Region III Director</b>	Nampa	<i>Integrate and oversee the regional PTAC counselor</i>	\$9,270.10	\$3,106.41	\$12,376.51	10%		0.1

**3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

The Idaho SBDC envisions a long-term partnership with PTAC, hosting and supporting their work. Ongoing funding is required to provide sustained services statewide directly supporting businesses as they navigate government procurement. Ongoing funding is required to provide sustained services statewide directly supporting businesses as they navigate government procurement.

The request is for ongoing funding that would be added to the base.

**4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

This request both protects the viability of the statewide PTAC program under the SBDC as well as builds on the success of 2018, in which the program added a full-time counselor to Eastern Idaho. With an additional full-time counselor in Northern Idaho this request will increase support the Businesses in the North and North Central regions covering 10

counties and businesses Businesses in those counties will have greater access to a local PTAC counselor who can assist them with state and federal contracting services at no cost to the business.

Currently there are 103 active clients in North and North Central Idaho and 83 in East and Southeast Idaho. In Eastern Idaho, where there been a successful hire and onboarding of a new PTAC Counselor, the area has already to date worked with 24% more companies, and increased time spent with those companies by 57% versus last year (with two more months before grant cycle ends). Government contracts awarded to Eastern Idaho are trending to exceed last year's \$49.8 million. We expect to similar results in North Central Idaho once a full-time PTAC Counselor is hired and onboarded. It will also decrease unproductive travel time for other PTAC Counselors in Boise allowing for increased services in Southwest, South Central, and Eastern Idaho areas.

If this request is not funded, there is risk that the PTAC program under the SBDC will have to scale back and there may be reduced reach and support for Idaho companies seeking government contracts. This is due to tighter grant matching regulations from the grant funder (DLA).

**Description:**

Educational campaign with messaging around Go On, summer melt, scholarships, FAFSA, etc.

Currently outreach and awareness promotion of SBOE initiatives, campaigns and resources is done primarily through grassroots efforts by OSBE staff. This includes participation in conferences, workshops, campus and school visits, social media and the Next Steps newsletter. This request would expand and improve our effectiveness and create sustainable materials, strategies and collaborations targeted to advance SBOE objectives. Greater outreach results can be achieved through the creation of common messaging and strategies to be adopted and promoted by institutions and other stakeholders.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request is for one-time general funds for professional services to provide the outreach and messaging along with coordination with the institutions and other stakeholders.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

None

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

No resources will be redirected.

- c. List any additional operating funds and capital items needed.

None

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

Estimated cost of hiring a consultant to coordinate efforts among institutions, stakeholders, and OSBE staff to deliver targeted outcomes.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

\$200,000 (OE) one-time

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The State Board of Education, staff, agencies, institutions, schools, stakeholders and the public will be served directly and indirectly by this initiative.

If not funded, current levels of outreach and awareness of SBOE initiatives and campaigns will be limited and our ability to expand and improve the effectiveness and sustainability will be restricted.

**Description:**

*Administrative Assistant 2 position to support communications and research staff.*

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

*This position would provide administrative support to communications and research staff (a total of seven FTP). Currently these staff have no dedicated administrative support. One AA2 is supporting these staff plus four other staff (11 to one ratio). In addition, effective July 1, 2018 the current AA2 will support the three Career Information System staff transferred from Dept. of Labor. This 14 to one ratio for*

*administrative support is not sustainable, and creates chokepoints in the Office workflow.*

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Administrative Assistant 2; pay grade I; full-time; benefit eligible; July 1, 2020 date of hire; classified

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

This new position will provide administrative support needed to meet increased operational demands, in part due to three new positions transferred to the Office in 2018.

- c. List any additional operating funds and capital items needed.

\$1,100 (one-time) for computer and monitor

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

The hourly rate for the Administrative Assistant 2 is set within the range currently provided for the same position in the Office of the State Board of Education.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

\$53,600 (PC) ongoing

\$1,100 (CO) one-time

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The State Board of Education, staff, agencies, institutions, schools, stakeholders and the public will be served directly and indirectly by this position.

If not funded, performance of basic administrative functions will be delayed. Performance of time-sensitive administrative tasks will necessitate pulling professional staff away from their core responsibilities in order to complete the projects.

<b>GRAND TOTAL</b>	<b>69,300</b>				<b>69,300</b>

**Description:**

With this Decision Unit, Idaho Public Television proposes increasing the salaries and benefits to 100% of policy for both new and current positions in our technical department. Idaho Public Television has been having an extraordinarily difficult time attracting and retaining our technical staff at the salaries we are able to provide. For nearly a full year, we have been recruiting for a new broadcast maintenance engineer. Each time we find a qualified candidate and they are interested in coming to work for us, we lose them to offers of higher pay either at their current position or to another employer. Since that time, we have also had retirements and have similar difficulty replacing those positions. In addition, we have had a number of people leave their positions for better paying offers outside our agency. This request will address this issue by both bringing salaries up to competitive rates and addressing both the recruiting and retention concerns.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Idaho Public Television is requesting \$69,300 in General Funds to increase the salaries and benefits expenses for 9 technical positions to bring them up to 100% of policy. This will address both the less than competitive existing staff salaries and give us the resources to attract new staff for our vacant positions that desperately

need to be filled. All of these positions are currently paid with General Funds. Salaries and benefits for these 9 positions currently total \$694,457. If funded, total salaries and benefits for these 9 positions will be \$763,757. These are critical technical positions that repair and replace broadcasting and IT equipment throughout the state, often on remote mountaintop sites.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Because we have been unable to attract qualified people to fill vacant positions at the salaries we are currently able to pay, critical maintenance of our technical infrastructure is being postponed. In addition, several current engineering employees are planning on retiring in the near future. Those retirements will add to this staffing shortage unless we have funding to attract qualified applicants at salaries that are competitive. Raising salaries for existing staff will also help with retention and serve to create equity among long-term employees with lots of expertise and experience and newer employees who have been hired at higher salaries.

- c. List any additional operating funds and capital items needed.

None are being requested for this decision unit.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request is all ongoing. All of these positions are covered by General Funds. No other source of funding for this is available. Engineer and technical costs to provide Idaho Public Television's services to Idahoans wherever they live in Idaho has been always covered with General Fund appropriation.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The staff impacted by this request serve all the people of Idaho by operating and maintaining the technical infrastructure to make sure our programming and services are distributed to every corner of Idaho, including our five full-power transmitters, 47 repeaters (called translators), the network operations center, and facilities in Pocatello, Moscow and at the Capitol Mall. If the request is not funded, we expect to continue to struggle hiring technical staff. Being understaffed will impact our ability to keep the equipment operating. It will also take longer to address service outages and/or disruptions.

**Description:**

Idaho Public Television proposes enhancing our educational outreach efforts with the addition of one new position and related expenses to supplement the one current position devoted to these activities, plus the two PBS grant-funded educational specialist positions. This new position will better allow Idaho Public Television to support Governor Little’s literacy initiative. By making presentations to teachers, parents and caregivers about how best to utilize the more than 100,000 educational resources available from Idaho Public Television free to Idahoans, we hope to increase the use of these resources and the effectiveness of the learning process, thus improving standardized test scores in literacy and STEM subjects. Many educators and parents are not aware of these resources or how best to employ them for maximum effectiveness. This new position will coordinate efforts to travel the state informing the community about these resources and demonstrating best practices for their utilization both at home and in the classroom. This additional position will allow us to increase our effectiveness in northern and eastern Idaho where the current costs to serve these communities from Boise is prohibitive. While we provide high quality educational material for all ages, we plan to concentrate most of our efforts with preschool and elementary grades where the demonstrated impact is greatest. This position will also develop educational material to accompany Idaho Public Television’s productions to make them more valuable to classroom teachers and students.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

One additional full-time education position is being requested to provide support for IdahoPTV and PBS educational tools such as Learning Media and other online resources to schools, libraries, families, daycares, after school networks and other educational institutions. The Project Coordinator position would serve as supervisor and coordinate the activities of both our existing Education Specialist and the two PBS grant-funded Education Specialist positions. This position would be able to produce educational components for local programs as well as bring educational offerings from CPB and PBS to Idaho communities. These offerings could include educational video segments, lesson plans based on state standards, teacher guides and websites and other digital learning materials. The educational positions would work closely with the Idaho State Department of Education, Office of the State Board of Education, Idaho Commission for Libraries, the STEM Action Committee, and other local educational organizations. The position would help augment the classroom curriculum by providing quality material to educators and learners.

The specialists would travel around the state to schools, libraries, and other educational sites to demonstrate Learning Media, Literacy in a Trunk, STEM in a Trunk and a whole host of educational components produced by PBS and CPB, the most trusted educational brands in America.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

In addition to existing Education Specialists, this line item would also receive limited support from existing communication, promotion and production positions. Design and printing of brochures and pamphlets, web and digital assets, as well as short video segments might be occasionally needed.

- c. List any additional operating funds and capital items needed.

Operational funding includes costs of printing of materials, postage and shipping, and travel to schools, libraries, child care facilities, and others sites to make presentations at locations statewide. We anticipate acquiring two \$5,000 grants from private sources (dedicated funds) to supplement operational costs.

Capital items include a portable computer and large, external monitor that will be used both in office and on location for demonstrations of online resources available to students, educators, and other community participants. Due to the extensive in-state travel anticipated for this position capital items also include a vehicle.

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

A full-time position is requested to fulfill the goals as described in question 1. Anything less won't adequately provide for these needs, anything more would be great, but would require additional funding. Minimal operating expenses are

included only for some limited travel costs and a work computer. An RFI was not done.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Besides the ongoing funding for the new position, this request contains ongoing operational expenses for employee travel in each region of the state as well as educational meetings and conferences held by PBS and CPB. IdahoPTV has office space in Moscow and Pocatello to accommodate personnel. One-time costs include the capital items described in 2(c) above.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Educators, students, librarians and patrons from around the state will be served by these educational positions. PBS and CPB extend grants on a semi-regular basis that go along with the educational opportunities that exist with many programs produced for air and online. Educational outreach grants for history and science-based programming have been made available. More educational opportunities will be available in years to come. Currently, we are not able to take advantage of many of these grants because we do not have the personnel to accomplish the tasks. If not funded, we would not be able to enhance education as described herein.

**Description:**

Idaho Public Television seeks a new technical position (pay grade K) to assist with the growing demand of Idahoans to view our programming on-line via a plethora of new devices and technologies.

For more than 50 years, Idaho Public Television’s primary means of distributing its educational content has been via broadcast television. While that continues to be the dominant means of viewing, increasingly Idahoans also want us to make our programming available to them on all the new IP-based streaming platforms – be it live streams of our broadcast channels or video on demand. The number of new platforms and services is growing rapidly and each requires its own set of technical demands and metadata requirements.

The workload demands and specific technical skills and expertise needed has grown beyond what can be met by our existing staff. We see this area as only continuing to grow in the coming years.

This is especially important in order for us to continue to provide our award-winning educational content and services to Idahoan families with young children – who increasingly use our content on-line, via mobile devices and OTT (streaming services onto TV sets.)

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This activity has grown to the point that existing staff can no longer meet demand from our viewers to have all our content delivered on all the new streaming platforms. Here to date, this work has been done by a combination of staff from IT, Engineering, Operations, the Director of Content Services, and the General Manager himself. We need one person who has both the technical skills and strategic knowledge of the “new media” environment to manage this activity.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

While the existing staff will continue to be involved in this activity, by hiring a new staff position with the specific skills necessary to manage this activity, the agency will be able to meet increased need, operate more efficiently, and be more successful in this endeavor.

- c. List any additional operating funds and capital items needed.

Additional operating expenditures for travel and expenses of \$2,000. High-end computer and peripheral equipment for new employee of \$5,000.

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

A full-time position is requested to fulfill the goals as described in question 1 and thus alleviate workloads on other employees; enabling them to fulfill assigned duties. Minimal operating expenses are included only for some limited travel costs and a work computer (per part 2.c.). An RFI was not done.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This is a new ongoing request from the General Fund. We do not anticipate any other funding source to meet this need.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This funding will allow us to reach Idahoans who increasingly consume our educational content (both locally produced and nationally acquired) on the myriad of digital streaming platforms, such as Apple TV, Roku, Smart TVs, Amazon, IdahoPTV On-Demand, IdahoPTV/PBS Kids Channel Live Stream, mobile apps, and live streaming of our broadcast channels via such services as YouTube TV, DirecTV GO and other emerging technologies. These viewers want to view our content, when and where they want. They tend to be younger and often have young children that Idaho Public Television is uniquely able to serve with high quality programming and on-line educational games that have a proven track record of improving educational outcomes. This is a growing area of our work that is critical to our continued success!

T/B PAYMENTS:					
LUMP SUM:					
<b>GRAND TOTAL</b>	<b>17,200</b>				<b>17,200</b>

**Description:**

The Council for the Deaf and Hard of Hearing is requesting .25 FTE, an increase of 10 additional hours for the Communication and Outreach Coordinator.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The role of the Communication and Outreach Coordinator is to increase awareness of the Council's role, services and programs throughout the state of Idaho. Strategies include developing collaborations with community organizations, staffing exhibit tables at expos, providing training sessions, developing and disseminating information and resources, and

managing external and internal communications. The position requires frequent travel. The new staff hired for this position was asked to document and keep track of hours worked since the hire date of August 13, 2018. Here is the data:

Date data collected: March 29, 2019  
Hire Date: Aug 13, 2018  
Weeks worked to date: 35 weeks  
Number of weeks exceed 20 hours: 14 weeks  
Since the hire date, the staff hours ran over **42%** of the time

Due to the nature of the job, it is very difficult to maintain 20 hours maximum weekly. The .25 increase would allow the staff to best manage the work load and duties more efficiently and stabilize work schedule.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

The title of this position is: Communications and Outreach Coordinator  
Pay Grade: K  
Part-Time Status with benefits  
Date of Hire: August 13, 2018  
Terms of Service: NA

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

This effort doesn't require any direction from HR.

This position would relieve the burdens of the current staff in this position to provide the necessary services dictated by Idaho Code Chapter 13, Title 33

- c. List any additional operating funds and capital items needed.

Additional operating funds:

Overnight travel ~ 5 x ~ 80	\$ 400.00 annually
Per Diem ~ 10 x 40.00	\$ 400.00 annually
Flights ~ 1 @ \$400	\$ 400.00 annually

TOTAL Additional Operating Funds \$1,200.00

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Total ongoing request	\$17,200
Breakout of ongoing request	
Personnel	\$16,000
Operating	\$1,200

One Time request None

All funds will be from General Funds. There are no expectations of additional grant monies or federal monies. There is no external funding available that is in line with the objectives, mission and responsibilities/duties of the Council.

If the request is not funded, CDHH will be unable to fully utilize the collaborative relationship with community organizations, local and state governmental entities, and proactively develop a presence for our Council and the programs and services provided without putting hardship on the staff in this position.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho policymakers, the legislators, local, state agencies, businesses, and the 200,000+ deaf and hard of hearing citizens will be served by this request. We anticipate the population to grow. This request allows for areas that are not currently served by the limited staff of CDHH to be included in the mission of the Council.

If this request is not funded, Idaho's deaf and hard of hearing population will continue to be underserved.

TOTAL CAPITAL OUTLAY:	2,500				2,500
T/B PAYMENTS:					
LUMP SUM:					
<b>GRAND TOTAL</b>	<b>8,500</b>				<b>8,500</b>

**Description:**

Additional office space is needed for the increased FTE at CDHH. Approximate cost will be \$6,000 annually on-going. \$2,500 is being requested for video teleconferencing equipment for a small conference room.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Idaho Council for the Deaf and Hard of Hearing is currently housed at the Health and Welfare Westgate complex. Currently the Council operates from office space that is approximately 300 square feet. With the addition of 2 new employees in the last

two years, the space is insufficient. With the renovation of the Westgate complex, the Council has the opportunity and has been offered additional space. The renovation would consist of removing walls and other tenant improvements to best accommodate and house the additional employees. The renovation will also include a much need conference room where meetings and governmental business can be conducted. The renovation will increase productivity and efficiency of the agency. DH&W has agreed to include the cost of the renovation in the rent charge.

The Video Conferencing System will be utilized for meetings, tele-conferences and other communication as needed by the Council. Currently, the Council borrows or utilizes other businesses/agencies' system for this purpose.

A small conference room will be included in the renovation of the office space and would be appropriate to include the technology in the room to increase productivity and accessibility of the Council.

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. None
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. None
  - c. List any additional operating funds and capital items needed.

\$6,000 of operating funds for increased office space. \$2,500 of capital outlay for videoconferencing equipment.

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)
3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

\$6,000 on-going annually from General Funds. \$2,500 one-time capital outlay from General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho policymakers, the legislators, local, state agencies, businesses, and the 200,000+ deaf and hard of hearing citizens will be served by this request. We

anticipate the population to grow. This request allows for areas that are not currently served by the limited staff of CDHH to be included in the mission of the Council.

If this request is not funded, Idaho's deaf and hard of hearing population will continue to be underserved.

**Description:**

New Vehicle (Light SUV) \$23,800

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Currently, CDHH only has one state vehicle.

The new vehicle is needed as the Council has hired 2 addition FTE the past two years and the communications and outreach coordinator has been traveling frequently which leaves no car available for the executive director to use to conduct business. With the

hiring of the new sign language interpreter, the executive director's travel throughout the state will increase significantly. An additional vehicle will be required to perform the Council's statutorily duties and responsibilities

2. What resources are necessary to implement this request?
  - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. None
  - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. None
  - c. List any additional operating funds and capital items needed.

\$23,800 of one-time funding from General Funds appropriated by the Legislature.

- d. What is the basis for the requested resources? (How were personnel and operating needs projected? Was an RFI done to project costs?)

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

\$23,800 of one-time funding from General Funds appropriated by the Legislature.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho policymakers, the legislators, local, state agencies, businesses, and the 200,000+ deaf and hard of hearing citizens will be served by this request. We anticipate the population to grow. This request allows for areas that are not currently served by the limited staff of CDHH to be included in the mission of the Council.

If this request is not funded, Idaho's deaf and hard of hearing population will continue to be underserved.

**SUBJECT**

Policy V.E. Gifts and Affiliated Foundations – Second Reading

**REFERENCE**

February 2006	Idaho State Board of Education (Board) approved the second reading of amendments to Board policy V.E.
December 2017	Board approved the first reading of amendments to Board policy V.E., requiring Board approval of affiliated foundation operating agreements
February 2018	Board approved the second reading of amendments to Board policy V.E.
April 2019	Board approved the first reading of amendments to Board policy V.E.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section V.E.

**ALIGNMENT WITH STRATEGIC PLAN**

This is a non-strategic Board governance item.

**BACKGROUND/DISCUSSION**

Board Policy V.E. sets out the requirements for foundations to be affiliated foundations and an institution's relationship with their affiliated foundations and the Board's role in approving institution-foundation operating agreements. Affiliated foundations operate as Idaho nonprofit organizations that are legally separate from the institutions and are recognized as 501(c)(3) public charities by the Internal Revenue Service. The institution is required to enter into a written operating agreement with each of its affiliated foundations that ensures compliance with Board Policy V.E.

At its November 2018 meeting, the Audit Committee recommended several changes to Board Policy V.E. and the foundation operating agreement template. The Board's deputy attorney general worked with general counsel from the four 4-year institutions to address the Committee's concerns and recommendations.

**IMPACT**

Under the proposed amendment, Board Policy V.E. and the operating agreement template will include the following changes:

1. Board Policy V.E.:
  - a. Allow institutions to transfer scholarship funds raised by the institutions to foundations for investment and distribution.

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

- b. Provide that in the event of the dissolution of a foundation, its assets and records can be distributed to the Board or to the affiliated institution. Currently the policy allows distribution to the affiliated institution only. Language referencing qualified charitable organization status is also removed.
  - c. Encourage foundations to be open to public inquiries pursuant to the Idaho Public Records Law while protecting personal and private information related to private individuals.
2. Board Foundation Operating Agreement Template changes:
- a. Corresponding change regarding transfer of scholarship funds raised by the institution to the foundation.
  - b. Corresponding change to allow transfer of foundation assets to the Board if the foundation is dissolved.
  - c. Corresponding change to encourage the foundation to be open to public inquiries while protecting personal and private information related to private individuals.
  - d. Deleted reference to Risk Management providing foundations with liability coverage. Risk Management does not insure 501(c)(3) organizations.

**ATTACHMENTS**

- Attachment 1: V.E. Gifts and Affiliated Foundations – Second Reading  
Attachment 2: Affiliated Foundation Agreement Template

**STAFF COMMENTS AND RECOMMENDATIONS**

The proposed amendment clarifies the intent of the Board with regards to the transferring of funds between institutions and affiliated foundations. The updated policy clarifies foundation assets may be distributed to either the Board or the affiliated institution.

There were concerns raised from the foundations regarding the language regarding the Idaho Public Records Law. It is the intent of this policy change to encourage the foundations to be open to public inquiries related to the revenue, expenditure policies, investment performance, and/or other information that would normally be subject to release under the Idaho Public Records Law. This is not intended to require the foundations to release confidential information. This language was included in the operating agreement template that was approved by the Board at the April 2019 meeting and was also included in the previous version of the operating agreement template. By including the language in Board Policy V.E., the operating agreement template and the Board policy are in alignment.

New language is added in Board Policy V.E.2.x. that clarifies that the foundations are not subject to the Public Records Law, but are encouraged to be open and transparent with non-personal and non-private information. A new version of the template which includes the new language in Article V.2.c. is attached for Board approval. This language has been shared with and approved by the foundation executive directors unless we knew for sure their attorneys reviewed. In addition

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

to the amendments regarding Foundation transparency, the language in section 4, related to the Idaho Public Television Foundation has been amended to reflect the consolidation of the original four foundations into a single foundation. Those changes were not reflected in the first reading, but have been included in the second reading.

Staff recommends approval.

**BOARD ACTION**

I move to approve the amendments to the affiliated foundation agreement template as presented in Attachment 2.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_ No \_\_\_

AND

I move to approve the second reading of the revisions to Board policy V.E. as presented in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_ No \_\_\_

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

~~February 2018~~ June 2019

1. Purpose of the Policy

- a. The Board recognizes the importance of voluntary private support and encourages grants and contributions for the benefit of the institutions and agencies under its governance. Private support for public education is an accepted and firmly established practice throughout the United States. Tax-exempt foundations are one means of providing this valuable support to help the institutions and agencies under the Board's governance raise money through private contributions. Foundations are separate, legal entities, tax-exempt under Section 501(c) of the United States Internal Revenue Code of 1986, as amended, associated with the institutions and agencies under the Board's governance. Foundations are established for the purpose of raising, receiving, holding, and/or using funds from the private sector for charitable, scientific, cultural, educational, athletic, or related endeavors that support, enrich, and improve the institutions or agencies. The Board wishes to encourage a broad base of support from many sources, particularly increased levels of voluntary support. To achieve this goal, the Board will cooperate in every way possible with the work and mission of recognized affiliated foundations
- b. The Board recognizes that foundations:
  - i. Provide an opportunity for private individuals and organizations to contribute to the institutions and agencies under the Board's governance with the assurance that the benefits of their gifts supplement, not supplant, state appropriations to the institutions and agencies;
  - ii. Provide assurance to donors that their contributions will be received, distributed, and utilized as requested for specified purposes, to the extent legally permissible, and that donor records will be kept confidential to the extent requested by the donor and as allowed by law;
  - iii. Provide an instrument through which alumni and community leaders can help strengthen the institutions and agencies through participation in the solicitation, management, and distribution of private gifts; and
  - iv. Aid and assist the Board in attaining its approved educational, research, public service, student loan and financial assistance, alumni relations, and financial development program objectives.
- c. The Board, aware of the value of tax-exempt foundations to the well being of the institutions and agencies under the Board's governance, adopts this policy with the following objectives:

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

February 2018 June 2019

- i. To preserve and encourage the operation of recognized foundations associated with the institutions and agencies under the Board's governance; and
  - ii. To ensure that the institutions and agencies under the Board's governance work with their respective affiliated foundations to make certain that business is conducted responsibly and according to applicable laws, rules, regulations, and policies, and that such foundations fulfill their obligations to contributors, to those who benefit from their programs, and to the general public.
2. Institutional Foundations
- a. General Provisions Applicable to all Affiliated Foundations
    - i. All private support of an institution not provided directly to such institution shall be through a Board approved affiliated foundation. While an institution may accept gifts made directly to the institution or directly to the Board, absent unique circumstances making a direct gift to the institution more appropriate, donors shall be requested to make gifts to the Board approved affiliated foundations.
    - ii. Each affiliated foundation shall operate as an Idaho nonprofit corporation that is legally separate from the institution and is recognized as a 501(c)(3) public charity by the Internal Revenue Service. The management and control of a foundation shall rest with its governing board. All correspondence, solicitations, activities, and advertisements concerning a particular foundation shall be clearly discernible as from that foundation, and not the institution.
    - iii. The institutions and foundations are independent entities and neither will be liable for any of the other's contracts, torts, or other acts or omissions, or those of the other's trustees, directors, officers, members, or staff.
    - iv. It is the responsibility of the foundation to support the institution at all times in a cooperative, ethical, and collaborative manner; to engage in activities in support of the institution; and, where appropriate, to assist in securing resources, to administer assets and property in accordance with donor intent, and to manage its assets and resources.
    - v. Foundation funds shall be kept separate from institution funds. No institutional funds, assets, or liabilities may be transferred directly or indirectly to a foundation without the prior approval of the Board except as provided herein. Funds may be transferred from an institution to a foundation without prior Board approval when:

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

February 2018 June 2019

- 1) A donor inadvertently directs a contribution to an institution that is intended for the foundation. If an affiliated foundation is the intended recipient of funds made payable to the Board or to an institution, then such funds may be deposited with or transferred to the affiliated foundation, provided that accompanying documents demonstrate that the foundation is the intended recipient. Otherwise, the funds shall be deposited in an institutional account, and Board approval will be required prior to transfer to an affiliated foundation; or
  - 2) The institution has gift funds that were transferred from and originated in an affiliated foundation, and the institution wishes to return a portion of funds to the foundation for reinvestment consistent with the original intent of the gift.
  - 3) The transfer is of a *de minimis* amount not to exceed \$10,000 from the Institution to the Foundation and the transferred funds are for investment by the Foundation for scholarship or other general Institution/Agency support purposes.
  - 3)4) The transfer is of funds raised by the institution for scholarship or program support and the funds are deposited with the affiliated foundation for investment and distribution in accordance with the purpose for which the funds were raised.
- vi. Transactions between an institution and an affiliated foundation shall meet the normal tests for ordinary business transactions, including proper documentation and approvals. Special attention shall be given to avoiding direct or indirect conflicts of interest between the institution and the affiliated foundation and those with whom the foundation does business. Under no circumstances shall an institution employee represent both the institution and foundation in any negotiation, sign for both the institution and foundation in a particular transaction, or direct any other institution employee under their immediate supervision to sign for the related party in a transaction between the institution and the foundation.
  - vii. Prior to the start of each fiscal year, an affiliated foundation must provide the institution chief executive officer with the foundation's proposed annual budget, as approved by the foundation's governing board.
  - viii. Each foundation shall conduct its fiscal operations to conform to the institution's fiscal year. Each foundation shall prepare its annual financial statements in accordance with Government Accounting Standards Board (GASB) or Financial Accounting Standards Board (FASB) principles, as appropriate.

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

February 2018 June 2019

- ix. Institution chief executive officers shall be invited to attend all meetings of an affiliated foundation's governing board in an advisory role. On a case by case basis, other institution employees may also serve as advisors to an affiliated foundation's governing board, as described in the written foundation operating agreement approved by the Board.
- x. ~~The foundation, while protecting personal and private information related to private individuals, is encouraged, to the extent possible or reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or other information that would normally be open in the conduct of institution affairs pursuant to the Idaho Public Records Law, as set forth in Idaho Code Title 74, Chapter 1.~~ Although foundations are private entities and are not subject to the Idaho Public Records Law, foundations, while protecting personal and private information related to private individuals, are encouraged, to the extent reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or similar non-personal and non-confidential financial or policy information.
- xi. A foundation's enabling documents (e.g., articles of incorporation and bylaws) and any amendments are to be provided to the institution. These documents must include a clause requiring that in the event of the dissolution of a foundation, its assets and records will be distributed to the Board or the its affiliated institution, ~~provided the affiliated institution is a qualified charitable organization under relevant state and federal income tax laws.~~ To the extent practicable, the foundation shall provide the institution with an advance copy of any proposed amendments, additions, or deletions to its articles of incorporation or bylaws. The institution shall be responsible for providing all of the foregoing documents to the Board.
- xii. Foundations may not engage in activities that conflict with federal or state laws, rules and regulations; or cause an institution to be in violation of Board policy~~the policies of the Board~~; or the role and mission of the institutions. Foundations shall comply with applicable Internal Revenue Code provisions and regulations and all other applicable policies and guidelines.
- xiii. Fund-raising campaigns and solicitations of major gifts for the benefit of an institution by its affiliated foundation shall be developed cooperatively between the institution and its affiliated foundation. Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by an institution, a foundation will obtain the prior approval of the institution chief executive officer or a designee.

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**

**SECTION: V. FINANCIAL AFFAIRS**

**SUBSECTION: E. Gifts and Affiliated Foundations**

February 2018 June 2019

- xiv. Foundations shall obtain prior approval in writing from the institution chief executive officer or a designee if gifts, grants, or contracts include a financial or contractual obligation binding upon the institution.
- xv. Foundations shall make clear to prospective donors that:
  - 1) The foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the institution; and
  - 2) Responsibility for the governance of the foundation, including investment of gifts and endowments, resides in the foundation's governing board.
- xvi. Institutions shall ensure that foundation controlled resources are not used to acquire or develop real estate or to build facilities for the institution's use without prior Board approval. The institution shall notify the Board, at the earliest possible date, of any proposed purchase of real estate for such purposes, and in such event should ensure that the foundation coordinates its efforts with those of the institution. Such notification to the Board may be through the institution's chief executive officer in executive session pursuant to Idaho Code, Section 74-206(1)(c).

b. Foundation Operating Agreements

Each institution shall enter into a written operating agreement with each of its affiliated foundations that ensures compliance with this Policy.

Board approval of affiliated foundation operating agreements is required if an affiliated foundation will receive donations, membership dues, gifts or other funds (collectively "funds") and delivers those funds directly to the institution. If an affiliated foundation will not receive or maintain funds, or if it routes all funds received to the institution through another Board-approved affiliated foundation, Board approval of the operating agreement is not required. In such cases, the institution shall ensure that services provided by a Board approved affiliated foundation to another affiliated foundation are provided pursuant to a service agreement between the affiliated foundations which complies with Board policy, a copy of which is available to the institution and to the Board.

Operating agreements must be signed by the chairman or president of the foundation's governing board, and by the institution chief executive officer. Operating agreements requiring Board approval must be approved by the Board prior to execution and must be re-submitted to the Board for re-approval every three (3) years, or as otherwise requested by the Board. Operating agreements shall follow the operating agreement template approved by the Board and found

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

February 2018 June 2019

at <http://boardofed.idaho.gov/>. When an operating agreement is presented to the Board for review, an institution must include a redline to the Board's operating agreement template, as well as a redline to the previously Board approved version of the operating agreement, if there is one.

Foundation operating agreements shall establish the operating relationship between the parties, and shall, at a minimum, address the following topics:

- i. Institution Resources and Services.
  - 1) Whether, and how, an institution intends to provide contract administrative and/or support staff services to an affiliated foundation. When it is determined that best practices call for an institution employee to serve in a capacity that serves both the institution and an affiliated foundation, then the operating agreement must clearly define the authority and responsibilities of this position within the foundation. Notwithstanding, no employee of an institution who functions in a key administrative or policy making capacity (including, but not limited to, any institution vice-president or equivalent position) shall be permitted to have responsibility or authority for foundation policy making, financial oversight, spending authority, investment decisions, or the supervision of foundation employees. The responsibility of this position within the foundation that is performed by an institution employee in a key administrative or policy making capacity shall be limited to the coordination of institution and affiliated foundation fundraising efforts, and the provision of administrative support to foundation fundraising activities.
  - 2) Whether, and how, an institution intends to provide other resources and services to an affiliated foundation, which are permitted to include:
    - a) Access to the institution's financial systems to receive, disburse, and account for funds held (with respect to transactions processed through the institution's financial system, the foundation shall comply with the institution's financial and administrative policies and procedures manuals);
    - b) Accounting services, to include cash disbursements and receipts, accounts receivable and payable, bank reconciliation, reporting and analysis, auditing, payroll, and budgeting;
    - c) Investment, management, insurance, benefits administration, and similar services; and

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**

**SECTION: V. FINANCIAL AFFAIRS**

**SUBSECTION: E. Gifts and Affiliated Foundations**

February 2018 June 2019

- d) Development services, encompassing research, information systems, donor records, communications, and special events.
  - 3) Whether the foundation will be permitted to use any of the institution's facilities and/or equipment, and if so, the details of such arrangements.
  - 4) Whether the institution intends to recover its costs incurred for personnel, use of facilities or equipment, or other services provided to the foundation. If so, then payments for such costs shall be made directly to the institution. No payments shall be made directly from a foundation to institution employees in connection with resources or services provided to a foundation pursuant to this policy.
- ii. Management and Operation of Foundations.
- 1) Guidelines for receiving, depositing, disbursing and accounting for all funds, assets, or liabilities of a foundation, including any disbursements/transfers of funds to an institution from an affiliated foundation. Institution officials into whose department or program foundation funds are transferred shall be informed by the foundation of the restrictions, if any, on such funds and shall be responsible both to account for them in accordance with institution policies and procedures, and to notify the foundation on a timely basis regarding the use of such funds.
  - 2) Procedures with respect to foundation expenditures and financial transactions, which must ensure that no person with signature authority shall be an institution employee in a key administrative or policy making capacity (including, but not limited to, an institution vice-president or equivalent position).
  - 3) The liability insurance coverage the foundation will have in effect to cover its operations and the activities of its directors, officers, and employees.
  - 4) Description of the investment policies to be utilized by the foundation, which shall be conducted in accordance with prudent, sound practice to ensure that gift assets are protected and enhanced, and that a reasonable return is achieved, with due regard for the fiduciary responsibilities of the foundation's governing board. Moreover, such investments must be consistent with the terms of the gift instrument.
  - 5) Procedures that will be utilized to ensure that institution and foundation funds are kept separate.

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

~~February 2018~~ June 2019

- 6) Detailed description of the organization structure of the foundation, which addresses conflict of interest in management of funds and any foundation data.
- iii. Foundation Relationships with the Institutions
    - 1) The institution's ability to access foundation books and records.
    - 2) The process by which the institution chief executive officer, or designee, shall interact with the foundation's board regarding the proposed annual operating budget and capital expenditure plan prior to approval by the foundation's governing board.
    - 3) Whether, and how, supplemental compensation from the foundation may be made to institutional employees. Any such payments must have prior Board approval, and shall be paid by the foundations to the institutions, which in turn will make payments to the employee in accordance with normal practice. Employees shall not receive any payments or other benefits directly from the foundations.
  - iv. Audits and Reporting Requirements.
    - 1) The procedure foundations will utilize for ensuring that regular audits are conducted and reported to the Board. Unless provided for otherwise in the written operating agreement, such audits must be conducted by an independent certified public accountant, who is not a director or officer of the foundation. The independent audit shall be a full scope audit, performed in accordance with generally accepted auditing standards.
    - 2) The procedure foundations will use for reporting to the institution chief executive officer the following items:
      - a) Regular financial audit report;
      - b) Annual report of transfers made to the institution, summarized by department;
      - c) Annual report of unrestricted funds received, and of unrestricted funds available for use in that fiscal year;
      - d) A list of foundation officers, directors, and employees;
      - e) A list of institution employees for whom the foundation made payments to the institution for supplemental compensation or any other approved

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

February 2018 June 2019

purpose during the fiscal year, and the amount and nature of that payment;

- f) A list of all state and federal contracts and grants managed by the foundation; and
- g) An annual report of the foundation's major activities;
- h) An annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding foundation fiscal year for the benefit of the institution; and
- i) An annual report of any actual litigation involving the foundation during its fiscal year, as well as legal counsel used by the foundation for any purpose during such year. This report should also discuss any potential or threatened litigation involving the foundation.

v. Conflict of Interest and Code of Ethics and Conduct.

A description of the foundation's conflict of interest policy approved by the foundation's governing board and applicable to all foundation directors, officers, and staff members, and which shall also include a code of ethics and conduct. Such policy must assure that transactions involving the foundation and the personal or business affairs of a trustee, director, officer, or staff member should be approved in advance by the foundation's governing board. In addition, such policy must provide that directors, officers, and staff members of a foundation disqualify themselves from making, participating, or influencing a decision in which they have or would have a financial interest. Finally, such policy must assure that no director, trustee, officer, or staff member of a foundation shall accept from any source any material gift or gratuity in excess of fifty dollars (\$50.00) that is offered, or reasonably appears to be offered, because of the position held with the foundation; nor should an offer of a prohibited gift or gratuity be extended by such an individual on a similar basis.

vi. Affiliated Research Foundations and Technology Transfer Organization for Institutions of Higher Education

The Board wishes to encourage research and technology transfer and the corresponding economic development potential for the state of Idaho. The Board acknowledges that independent, affiliated foundations operating to support an institution's research and technology transfer efforts can be useful tools to provide institutions with avenues for engagement with the private sector as well as with public and private entities interested in funding research, funding technology transfer and promoting spin-off enterprises arising from institutional

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: E. Gifts and Affiliated Foundations**

~~February 2018~~ June 2019

intellectual property and technology. Such affiliated foundations should operate substantially within the framework for affiliated foundations set out in paragraph 1 and 2 of this policy, with such variances as are reasonable based on the nature of the anticipated function of the specific foundation.

- 1) The institutions under the Board's governance may affiliate with non-profit entities which generally meet the criteria set forth in paragraph 2.b. of this policy and which operate for the purpose of supporting the research and technology transfer efforts of one or more of the institutions.
- 2) Research and Technology Transfer Foundation Operating Agreements. The requirement of a foundation operating agreement under paragraph 2.c. of this policy shall also apply to foundations supporting research and technology transfer. Institutions proposing to affiliate with a particular foundation may propose reasonable variances from specific requirements under paragraph 2.c. based upon the anticipated function of the foundation, provided that any such variances are specifically identified by the institution in materials presented to the Board when requesting approval of the foundation.

### 3. Foundations for Other Agencies

Other agencies under the Board's jurisdiction may establish foundations to accept gifts made for the benefit of the agencies' operating purposes. These agencies are subject to the same policies as the institutional foundations. However, agency foundations with annual revenues less than \$100,000 are not required to obtain an independent audit. These agencies must instead submit an annual report to the Board of gifts received and the disposition of such gifts.

4. Idaho ~~Educational~~ Public ~~Broadcasting System Television~~ Foundations ~~and Friends Groups~~
  - a. Foundations ~~and Friends groups~~ that exist for the benefit of ~~the~~ Idaho ~~Educational~~ Public ~~Broadcasting System Television~~ (~~IEPBS IPTV~~) are required by Federal Communications Commission (FCC) regulations to have specific spending authority designated by the Board. Audits of the ~~IEPBS IPTV~~ Foundation ~~and Friends groups~~ will be conducted by the State Legislative Auditor.
  - b. By action of the Board, the ~~Friends of~~ Idaho ~~Educational~~ Public ~~Broadcasting System Television~~, Inc., has been designated to accept gifts made for the benefit of public television in the state of Idaho. The Foundation will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.

- ~~b. By action of the Board, the Friends of Channel 4, Inc., has been designated to accept gifts made for the Benefit of KAID TV, Channel 4. The Friends of Channel 4, Inc., will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.~~
- ~~c. By action of the Board, the Friends of Channel 10, Inc., has been designated to accept gifts made for the benefit of KISU TV, Channel 10. The Friends of Channel 10, Inc., will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.~~
- ~~d. By action of the Board, the Friends of KUID, Inc., has been designated to accept gifts made for the benefit of KUID TV, Channel 12. The Friends of Channel 12, Inc., will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.~~

5. Acceptance of Direct Gifts

Notwithstanding the Board's desire to encourage the solicitation and acceptance of gifts through affiliated foundations, the Board may accept donations of gifts, legacies, and devises (hereinafter "gifts") of real and personal property on behalf of the state of Idaho that are made directly to the Board or to an institution or agency under its governance. Gifts worth more than \$250,000 must be reported to and approved by the executive director of the Board before such gift may be expended or otherwise used by the institution or agency. Gifts worth more than \$500,000 must be approved by the Board. The chief executive officer of any institution or agency is authorized to receive, on behalf of the Board, gifts that do not require prior approval by the executive director or the Board and that are of a routine nature. This provision does not apply to transfers of gifts to an institution or agency from an affiliated foundation (such transfers shall be in accordance with the written operating agreement between the institution or agency and an affiliated foundation, as described more fully herein).

**OPERATING AGREEMENT  
BETWEEN  
FOUNDATION, INC.  
AND  
INSTITUTION/AGENCY**

This Operating Agreement between Foundation, Inc. and Institution/Agency (“Operating Agreement”) is entered into as of this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by and between Institution, herein known as “Institution/Agency” and the Foundation, Inc., herein known as “Foundation”.

WHEREAS, the Foundation was organized and incorporated in \_\_\_\_ for the purpose of generating voluntary private support from \_\_\_\_\_, \_\_\_\_\_, friends, corporations, foundations, and others for the benefit of the Institution/Agency.

WHEREAS, the Foundation exists to raise and manage private resources supporting the mission and priorities of the Institution/Agency, and provide opportunities for \_\_\_\_\_ (e.g. students) and a degree of institutional excellence unavailable with state funding levels.

WHEREAS, the Foundation is dedicated to assisting the Institution/Agency in the building of the endowment to address, through financial support, the long-term academic and other priorities of the Institution/Agency.

WHEREAS, as stated in its articles of incorporation, the Foundation is a separately incorporated 501(c)(3) organization and is responsible for identifying and nurturing relationships with potential donors and other friends of the Institution/Agency, soliciting cash, securities, real and intellectual property, and other private resources for the support of the Institution/Agency, and acknowledging and stewarding such gifts in accordance with donor intent and its fiduciary responsibilities.

WHEREAS, in connection with its fund-raising and asset-management activities, the Foundation utilizes, in accordance with this Operating Agreement, personnel experienced in planning for and managing private support.

WHEREAS, the mission of the Foundation is to secure, manage and distribute private contributions and support the growth and development of the Institution/Agency.

WHEREAS, the Institution/Agency and Foundation desire to set forth in writing various aspects of their relationship with respect to matters such as the solicitation, receipt, management, transfer and expenditure of funds.

WHEREAS, the Parties hereby acknowledge that they will at all times conform to and abide by the Idaho State Board of Education's Governing Policies and Procedures, Gifts and Affiliated Foundations Policy V.E., and that they will submit this Operating Agreement for initial State Board of Education ("State Board") approval, and thereafter every three (3) years, or as otherwise requested by the State Board, for review and re-approval.

WHEREAS, the Foundation and the Institution/Agency intend for this Operating Agreement to be the written operating agreement required by State Board Policy V.E.2.b.

NOW THEREFORE, in consideration of the mutual commitments herein contained, and other good and valuable consideration, receipt of which is hereby acknowledged, the Parties agree as follows:

**ARTICLE I**  
**Foundation's Purposes**

The Foundation is the primary affiliated foundation responsible for securing, managing and distributing private support for the Institution/Agency. Accordingly, to the extent consistent with the Foundation's Articles of Incorporation and Bylaws, and the State Board's Policies and Procedures, the Foundation shall: (1) solicit, receive and accept gifts, devises, bequests and other direct or indirect contributions of money and other property made for the benefit of the Institution/Agency from the general public (including individuals, corporations, other entities and other sources); (2) manage and invest the money and property it receives for the benefit of the Institution/Agency; and (3) support and assist the Institution/Agency in fundraising and donor relations.

In carrying out its purposes, the Foundation shall not engage in activities that: (1) conflict with federal or state laws, rules and regulations (including all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations); (2) cause the Institution to be in violation of applicable policies of the State Board; or (3) conflict with the role and mission of the Institution/Agency.

**ARTICLE II**  
**Foundation's Organizational Documents**

The Foundation shall provide copies of its current Articles of Incorporation and Bylaws to the Institution/Agency. The Foundation, to the extent practicable, also shall provide the Institution/Agency with an advance copy of any proposed amendments to the Foundation's Articles of Incorporation and Bylaws. The Institution/Agency shall provide all such documents to the State Board.

**ARTICLE III**  
**Institution/Agency Resources and Services**

1. Institution/Agency Employees.

a. *Institution/Agency/Foundation Liaison:* The Institution/Agency's Vice President for Institution/Agency Advancement shall serve as the Institution/Agency's Liaison to the Foundation.

- i. The Institution/Agency's Vice President for Institution/Agency Advancement shall be responsible for coordinating the Institution/Agency's and the Foundation's fundraising efforts and for supervising and coordinating the administrative support provided by the Institution/Agency to the Foundation.
- ii. The Vice President for Institution/Agency Advancement or designee shall attend each meeting of the Foundation's Board of Directors and shall report on behalf of the Institution/Agency to the Foundation's Board of Directors regarding the Institution/Agency's coordination with the Foundation's fundraising efforts.

b. *Managing Director:* The *Managing Director* of the Foundation is an employee of the Institution/Agency loaned to the Foundation. All of the *Managing Director's* services shall be provided directly to the Foundation as follows:

- i. The *Managing Director* shall be responsible for the supervision and control of the day-to-day operations of the Foundation. More specific duties of the *Managing Director* may be set forth in a written job description prepared by the Foundation and attached to the Loaned Employee Agreement described in paragraph (iii) below. The *Managing Director* shall be subject to the control and direction of the Foundation.
- ii. The *Managing Director* shall be entitled to Institution/Agency benefits to the same extent and on the same terms as other full-time Institution/Agency employees of the same classification as the *Managing Director*. The Foundation shall reimburse the Institution/Agency for all costs incurred by the Institution/Agency in connection with the Institution/Agency's employment of the *Managing Director* including such expenses as salary, payroll taxes, and benefits.
- iii. The Foundation and the Institution/Agency shall enter into a written agreement, in the form of Exhibit "A" hereto, establishing that the

Managing *Director* is an employee of the Institution/Agency but subject to the direction and control of the Foundation (generally a "Loaned Employee Agreement"). The Loaned Employee Agreement shall also set forth the relative rights and responsibilities of the Foundation and the Institution/Agency with respect to the Managing *Director*, including the following:

1. The Foundation shall have the right to choose to terminate the Loaned Employee Agreement in accordance with Foundation Procedures and applicable law, such termination may include election by the Foundation for non-renewal of the Loaned Employee Agreement.
2. Termination of the Loaned Employee Agreement in accordance with the Foundation procedures and applicable law shall constitute grounds for a termination proceeding by the Institution/Agency or for non-renewal of any obligation of the Institution/Agency to employ the Loaned Employee, subject to applicable legal and procedural requirements of the State of Idaho and the Institution/Agency.
3. The Loaned Employee shall be subject to the supervision, direction and control of the Foundation Board of Directors and shall report directly to the Foundation president or designee.

c. *Other Loaned Employees.* Other loaned employees providing services pursuant to this Operating Agreement shall also serve pursuant to a Loaned Employee Agreement which shall set forth their particular responsibilities and duties.

d. *Other Institution/Agency Employees Holding Key Foundation or Administrative or Policy Positions:* In the event the Institution/Agency and the Foundation determine it is appropriate for one or more additional Institution/Agency employees who function in a key administrative or policy making capacity for the Institution/Agency (including, but not limited to, any Institution/Agency Vice-President or equivalent position) to serve both the Institution/Agency and the Foundation, then, pursuant to State Board Policy V.E., this Operating Agreement shall be amended to clearly set forth the authority and responsibilities of the position of any such Institution/Agency employee.

e. *Limited Authority of Institution/Agency Employees.* Notwithstanding the foregoing provisions, no Institution/Agency employee who functions in a key administrative or policy making capacity for the Institution/Agency (including, but not limited to, any Institution/Agency Vice-President or equivalent position) shall be permitted to have

responsibility or authority for Foundation policy making, financial oversight, spending authority, investment decisions, or the supervision of Foundation employees.

2. Support Services. The Institution/Agency shall provide administrative, financial, accounting, investment, and development services to the Foundation, as set forth in the Service Agreement attached hereto as Exhibit "B" ("Service Agreement"). All Institution/Agency employees who provide support services to the Foundation shall remain Institution/Agency employees under the direction and control of the Institution/Agency, unless agreed that the direction and control of any such employee will be vested with the Foundation in a written Loaned Employee Agreement. The Foundation will pay directly to the Institution/Agency the portion of the overhead costs associated with the services provided to the Foundation pursuant to the Service Agreement. The portion of such costs shall be determined by the agreement of the Parties.

3. Institution/Agency Facilities and Equipment. The Institution/Agency shall provide the use of the Institution/Agency's office space and equipment to the Foundation upon the terms agreed to by the Institution/Agency and the Foundation. The terms of use (including amount of rent) of the Institution/Agency's office space and equipment shall be as set forth in the Service Agreement.

4. No Foundation Payments to Institution/Agency Employees. Notwithstanding any provision of this Operating Agreement to the contrary, the Foundation shall not make any payments directly to an Institution/Agency employee in connection with any resources or services provided to the Foundation pursuant to this Operating Agreement.

#### **ARTICLE IV Management and Operation of Foundation**

The management and control of the Foundation shall rest with its Board of Directors.

1. Gift Solicitation.

*Authority of Vice President for Institution/Agency Advancement.* All Foundation gift solicitations shall be subject to the direction and control of the Vice President for Institution/Agency Advancement.

a. *Form of Solicitation.* Any and all Foundation gift solicitations shall make clear to prospective donors that (1) the Foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the Institution/Agency; and (2) responsibility for the governance of the Foundation, including the investment of gifts and endowments, resides in the Foundation's Board of Directors.

b. *Foundation is Primary Donee.* Absent unique circumstances, prospective donors shall be requested to make gifts directly to the Foundation rather than to the Institution/Agency.

2. Acceptance of Gifts.

a. *Approval Required Before Acceptance of Certain Gifts.* Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by the Institution/Agency, the Foundation shall obtain the prior written approval of the Institution/Agency. Similarly, the Foundation shall also obtain the prior written approval of the Institution/Agency of the acceptance of any gift or grant that would impose a binding financial or contractual obligation on the Institution/Agency.

b. *Acceptance of Gifts of Real Property.* The Foundation shall conduct adequate due diligence on all gifts of real property that it receives. All gifts of real property intended to be held and used by the Institution/Agency shall be approved by the State Board before acceptance by the Institution/Agency and the Foundation. In cases where the real property is intended to be used by the Institution/Agency in connection with carrying out its proper functions, the real property may be conveyed directly to the Institution/Agency, in which case the Institution/Agency and not the Foundation shall be responsible for the due diligence obligations for such property.

c. *Processing of Accepted Gifts.* All gifts received by the Institution/Agency or the Foundation shall be delivered (if cash) or reported (if any other type of property) to the Foundation's designated gift administration office (a unit of the Foundation) in accordance with the Service Agreement.

3. Fund Transfers. The Foundation agrees to transfer funds, both current gifts and income from endowments, to the Institution/Agency on a regular basis as agreed to by the Parties. The Foundation's Treasurer or other individual to whom such authority has been delegated by the Foundation's Board of Directors shall be responsible for transferring funds as authorized by the Foundation's Board of Directors.

a. *Restricted Gift Transfers.* The Foundation shall inform the Institution/Agency officials into whose program or department funds are transferred of any restrictions on the use of such funds and provide such officials with access to any relevant documentation concerning such restrictions. Such Institution/Agency officials shall account for such restricted funds separate from other program and department funds in accordance with applicable Institution/Agency policies and shall notify the Foundation on a timely basis regarding the uses of such restricted funds.

b. *Unrestricted Gift Transfers.* The Foundation may utilize any unrestricted gifts it receives for any use consistent with the Foundation's purposes as generally summarized in Article I of this Operating Agreement. If the Foundation elects to use unrestricted gifts to

make grants to the Institution/Agency, such grants shall be made at such times and in such amounts as the Foundation's Board of Directors may determine in the Board's sole discretion.

4. Foundation Expenditures and Financial Transactions.

a. *Signature Authority.* The Foundation designates the Foundation Treasurer as the individual with signature authority for the Foundation in all financial transactions. The Foundation may supplement or change this designation with written notice to the Institution/Agency; provided, however, in no event may the person with Foundation signature authority for financial transactions be an Institution/Agency employee.

b. *Expenditures.* All expenditures of the Foundation shall be (1) consistent with the charitable purposes of the Foundation, and (2) not violate restrictions imposed by the donor or the Foundation as to the use or purpose of the specific funds.

5. Institution/Agency Report on Distributed Funds. On a regular basis, which shall not be less than annually, the Institution/Agency shall report to the Foundation on the use of restricted and unrestricted funds transferred to the Institution/Agency. This report shall specify the restrictions on any restricted funds and the uses of such funds.

6. Transfer of Institution/Agency Assets to the Foundation. No Institution/Agency funds, assets, or liabilities may be transferred directly or indirectly to the Foundation without the prior approval of the State Board except when:

- a. A donor inadvertently directs a contribution to the Institution/Agency that is intended for the Foundation in which case such funds may be transferred to the Foundation so long as the documents associated with the gift indicate the Foundation was the intended recipient of the gift. In the absence of any such indication of donor intent, such funds shall be deposited in an institutional account, and State Board approval will be required prior to the Institution/Agency's transfer of such funds to the Foundation.
- b. The Institution/Agency has gift funds that were originally transferred to the Institution/Agency from the Foundation and the Institution/Agency wishes to return a portion of those funds to the Foundation for reinvestment consistent with the original intent of the gift.
- c. Transfers of a *de minimis* amount not to exceed \$10,000 from the Institution to the Foundation provided such funds are for investment by the Foundation for scholarship or other general Institution/Agency support purposes. This exception shall not apply to payments by the Institution to the Foundation for obligations of the Institution to the Foundation, operating expenses of the Foundation or other costs of the Foundation.

- d. The transfer is of funds raised by the Institution for scholarship or program support and the funds are deposited with the affiliated foundation for investment and distribution in accordance with the purpose for which the funds were raised.

7. Separation of Funds. All Foundation assets (including bank and investment accounts) shall be held in separate accounts in the name of the Foundation using Foundation's Federal Employer Identification Number. The financial records of the Foundation shall be kept using a separate chart of accounts. For convenience purposes, some Foundation expenses may be paid through the Institution/Agency such as payroll and campus charges. These expenses will be paid through accounts clearly titled as belonging to the Foundation and shall be reimbursed by the Foundation on a regular basis.

8. Insurance. The Foundation shall maintain insurance to cover the operations and activities of its directors, officers and employees. The Foundation shall also maintain general liability coverage.

9. Investment Policies. All funds held by the Foundation, except those intended for short term expenditures, shall be invested in accordance with the Uniform Prudent Management of Institutional Funds Act, Idaho Code Sections 33-5001 to 33-5010, and the Foundation's investment policy which is attached hereto as Exhibit "C"; provided, however, the Foundation shall not invest any funds in a manner that would violate the applicable terms of any restricted gifts. The Foundation shall provide to the Institution/Agency any updates to such investment policy which updates shall also be attached hereto as Exhibit "C".

10. Organization Structure of the Foundation. The organizational structure of the Foundation is set forth in the Foundation's Articles of Incorporation and the Bylaws. The Foundation agrees to provide copies of such Articles and Bylaws as well as any subsequent amendments to such documents to both the Institution/Agency and the State Board. Any such amendments to the Articles and Bylaws shall be attached hereto as additions to Exhibit "D" and "E", respectively.

## ARTICLE V

### Foundation Relationships with the Institution/Agency

At all times and for all purposes of this Operating Agreement, the Institution and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party, provided, however, the Institution and the Foundation acknowledge that the Association carries out functions for the benefit of the Institution. As such, the Parties shall share certain information as provided below.

1. Access to Records. Subject to recognized legal privileges, each Party shall have the right to access the other Party's financial, audit, donor and related books and records as needed to properly conduct its operations.

2. Record Management.

a. The Parties recognize that the records of the Foundation relating to actual or potential donors contain confidential information. Such records shall be kept by the Foundation in such a manner as to protect donor confidentiality to the fullest extent allowed by law. Notwithstanding the access to records permitted above, access to such confidential information by the Institution/Agency shall be limited to the Institution/Agency's President and any designee of the Institution/Agency's President.

b. The Foundation shall be responsible for maintaining all permanent records of the Foundation including but not limited to the Foundation's Articles, Bylaws and other governing documents, all necessary documents for compliance with IRS regulations, all gift instruments, and all other Foundation records as required by applicable laws.

c. Although the Foundation is a private entity and is not subject to the Idaho Public Records Law, the Foundation, while protecting personal and private information related to private individuals, is encouraged, to the extent reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or similar non-personal and non-confidential financial or policy information. ~~The Foundation, while protecting personal and private information related to private individuals, is encouraged, to the extent possible or reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or other information that would normally be open in the conduct of institution affairs pursuant to the Idaho Public Records Law, as set forth in Idaho Code Title 74, Chapter 1.~~

3. Name and Marks. Consistent with its mission to help to advance the plans and objectives of the Institution, the Institution grants the Association the limited, non-exclusive use of the name Institution, for use in its support of the Institution. The Association shall operate under the Institution's logotype in support of its organizational business and activities. Any use by the Association of the Institution's logotypes or other trademarks must be with prior approval of the Institution through the Office of Trademark Licensing and Enforcement.

4. Identification of Source. The Foundation shall be clearly identified as the source of any correspondence, activities and advertisements emanating from the Foundation.

5. Establishing the Foundation's Annual Budget. The Foundation shall provide the Institution/Agency with the Foundation's proposed annual operating budget and capital expenditure plan (if any) prior to the date the Foundation's Board of Directors meeting at which the Foundation's Board will vote to accept such operating budget. Any of the Institution/Agency's funding requests to the Foundation shall be communicated in writing to the Foundation's Treasurer and Assistant Treasurer by April 1 of each year.

6. Attendance of Institution/Agency's President at Foundation's Board of Director Meetings. The Institution/Agency's President shall be invited to attend all meetings of the Foundation's Board of Directors and may act in an advisory capacity in such meetings.

7. Supplemental Compensation of Institution/Agency Employees. Any supplemental compensation of Institution/Agency employees by the Foundation must be preapproved by the State Board. Any such supplemental payment or benefits must be paid by the Foundation to the Institution/Agency, and the Institution/Agency shall then pay compensation to the employee in accordance with the Institution/Agency's normal practice. No Institution/Agency employee shall receive any payments or other benefits directly from the Foundation.

**ARTICLE VI**  
**Audits and Reporting Requirements**

1. Fiscal Year. The Foundation and the Institution/Agency shall have the same fiscal year.

2. Annual Audit. On an annual basis, the Foundation shall have an audit conducted by a qualified, independent certified public accountant who is not a director or officer of the Foundation. The annual audit will be provided on a timely basis to the Institution/Agency's President and the State Board, in accordance with the State Board's schedule for receipt of said annual audit. The Foundation's annual statements will be presented in accordance with standards promulgated by the Financial Accounting Standards Board (FASB). The Foundation is a component unit of the Institution/Agency as defined by the Government Accounting Standards Board (GASB). Accordingly, the Institution/Agency is required to include the Foundation in its financial statements which follow a GASB format. Therefore, the Foundation will include in its audited financial statement, schedules reconciling the FASB Statements to GASB standards in the detail required by GASB Standards. The annual audited financial statements, including the auditor's independent opinion regarding such financial statements, and schedules shall be submitted to the Institution/Agency Office of Finance and Administration in sufficient time to incorporate the same into the Institution/Agency's statements. All such reports and any accompanying documentation shall protect donor privacy to the extent allowable by law.

3. Separate Audit Rights. The Institution/Agency agrees that the Foundation, at its own expense, may at any time during normal business hours conduct or request additional audits or reviews of the Institution/Agency's books and records pertinent to the expenditure of donated funds. The Foundation agrees that the Institution/Agency and the State Board, at its own expense, may, at reasonable times, inspect and audit the Foundation's books and accounting records.

4. Annual Reports to Institution/Agency President. On a regular basis, which shall not be less than annually, the Foundation shall provide a written report to the Institution/Agency President setting forth the following items:

- a. the annual financial audit report;
- b. an annual report of Foundation transfers made to the Institution/Agency, summarized by Institution/Agency department;

- c. an annual report of unrestricted funds received by the Foundation;
- d. an annual report of unrestricted funds available for use during the current fiscal year;
- e. a list of all of the Foundation's officers, directors, and employees;
- f. a list of Institution/Agency employees for whom the Foundation made payments to the Institution/Agency for supplemental compensation or any other approved purpose during the fiscal year, and the amount and nature of that payment;
- g. a list of all state and federal contracts and grants managed by the Foundation;
- h. an annual report of the Foundation's major activities;
- i. an annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding Foundation fiscal year for the benefit of the Institution/Agency; and
- j. an annual report of (1) any actual litigation involving the Foundation during its fiscal year; (2) identification of legal counsel used by the Foundation for any purpose during such year; and (3) identification of any potential or threatened litigation involving the Foundation.

## ARTICLE VII

### Conflict of Interest and Code of Ethics and Conduct

1. Conflicts of Interest Policy and Code of Ethics and Conduct. The Foundation's Conflict of Interest Policy is attached as Exhibit "F", and its Code of Ethical Conduct is set forth as Exhibit "G".

2. Dual Representation. Under no circumstances may an Institution/Agency employee represent both the Institution/Agency and the Foundation in any negotiation, sign for both entities in transactions, or direct any other institution employee under their immediate supervision to sign for the related Party in a transaction between the Institution/Agency and the Foundation. This shall not prohibit Institution/Agency employees from drafting transactional documents that are subsequently provided to the Foundation for its independent review, approval and use.

3. Contractual Obligation of Institution/Agency. The Foundation shall not enter into any contract that would impose a financial or contractual obligation on the Institution/Agency without first obtaining the prior written approval of the Institution/Agency. Institution/Agency

approval of any such contract shall comply with policies of the State Board with respect to State Board approval of Institution/Agency contracts.

4. Acquisition or Development or Real Estate. The Foundation shall not acquire or develop real estate or otherwise build facilities for the Institution/Agency's use without first obtaining approval of the State Board. In the event of a proposed purchase of real estate by the Foundation for the Institution/Agency, the Institution/Agency shall notify the State Board at the earliest possible date. Any such proposed purchase for the Institution/Agency's use shall be a coordinated effort of the Institution/Agency and the Foundation. Any notification to the State Board required pursuant to this paragraph may be made through the State Board's chief executive officer in executive session pursuant to the open meeting law, set forth in Idaho Code, Title 74, Chapter 2.

**ARTICLE VIII  
General Terms**

1. Effective Date. This Operating Agreement shall be effective on the date set forth above.

2. Right to Terminate. This Operating Agreement shall terminate upon the mutual written agreement of both Parties. In addition, either Party may, upon 90 days prior written notice to the other, terminate this Operating Agreement, and either Party may terminate this Operating Agreement in the event the other Party defaults in the performance of its obligations and fails to cure the default within 30 days after receiving written notice from the non-defaulting Party specifying the nature of the default. Should the Institution/Agency choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the Foundation that is not cured within the time frame set forth above, the Foundation may require the Institution/Agency to pay, within 180 days of written notice, all debt incurred by the Foundation on the Institution/Agency's behalf including, but not limited to, lease payments, advanced funds, and funds borrowed for specific initiatives. Should the Foundation choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the Institution/Agency that is not cured within the time frame set forth above, the Institution/Agency may require the Foundation to pay any debt it holds on behalf of the Foundation in like manner. The Parties agree that in the event this Operating Agreement shall terminate, they shall cooperate with one another in good faith to negotiate a new agreement within six (6) months. In the event negotiations fail, the Parties will initiate the dispute resolution mechanism described below (through reference to the Foundation Chair and the State Board) to further attempt to negotiate a new agreement within the time period specified herein, they will refer the matter to the State Board for resolution. Termination of this Operating Agreement shall not constitute or cause dissolution of the Foundation.

3. Dispute Resolution. The Parties agree that in the event of any dispute arising from this Operating Agreement, they shall first attempt to resolve the dispute by working together with the appropriate staff members of each of the Parties. If the staff cannot resolve the

dispute, then the dispute will be referred to the Chair of the Board of the Foundation and the Institution/Agency President. If the Foundation Board Chair and Institution/Agency President cannot resolve the dispute, then the dispute will be referred to the Foundation Chair and the State Board for resolution. If they are unable to resolve the dispute, the Parties shall submit the dispute to mediation by an impartial third Party or professional mediator mutually acceptable to the Parties. If and only if all the above mandatory steps are followed in sequence and the dispute remains unresolved, then, in such case, either Party shall have the right to initiate litigation arising from this Operating Agreement. In the event of litigation, the prevailing Party shall be entitled, in addition to any other rights and remedies it may have, to reimbursement for its expenses, including court costs, attorney fees, and other professional expenses.

4. Dissolution of Foundation. Consistent with provisions appearing in the Foundation's Bylaws and Articles of Incorporation, should the Foundation cease to exist or cease to be an Internal Revenue Code §501(c)(3) organization, the Foundation shall transfer to the State Board (or Institution, as applicable) the balance of all property and assets of the Foundation from any source, after the payment of all debts and obligations of the Foundation, and such property shall be vested in the State Board in trust for the use and benefit of the Institution/Agency.

5. Board Approval of Operating Agreement. Prior to the Parties' execution of this Operating Agreement, an unexecuted copy of this Operating Agreement must be approved by the State Board. Furthermore, this Operating Agreement, including any subsequent modifications and restatements of this Operating Agreement, shall be submitted to the State Board for review and approval no less frequently than once every three (3) years or more frequently if otherwise requested by the State Board.

6. Modification. Any modification to the Operating Agreement or Exhibits hereto shall be in writing and signed by both Parties.

7. Providing Document to and Obtaining Approval from the Institution/Agency. Unless otherwise indicated herein, any time documents are to be provided to the Institution/Agency or any time the Institution/Agency's approval of any action is required, such documents shall be provided to, or such approval shall be obtained from, the Institution/Agency's President or an individual to whom such authority has been properly delegated by the Institution/Agency's President.

8. Providing Documents to and Obtaining Approval from the Foundation. Unless otherwise indicated herein, any time documents are to be provided to the Foundation or any time the Foundation's approval of any action is required, such document shall be provided to, or such approval shall be obtained from, the Foundation's Board of Directors or an individual to whom such authority has been properly delegated by the Foundation's Board of Directors.

9. Notices. Any notices required under this Operating Agreement may be mailed or delivered as follows:

To the Institution/Agency:

President  
Institution/Agency  
Street Address  
City, State and Zip

To the Foundation:

Managing Director  
Foundation, Inc.  
Street Address  
City, State and Zip

10. No Joint Venture. At all times and for all purposes of this Memorandum of Understanding, the Institution/Agency and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party.

11. Liability. The Institution/Agency and Foundation are independent entities and neither shall be liable for any of the other's contracts, torts, or other acts or omissions, or those of the other's trustees, directors, officers, members or employees.

12. Indemnification. To the extent allowed by law, the Institution/Agency and the Foundation each agree to indemnify, defend and hold the other Party, their officers, directors, agents and employees harmless from and against any and all losses, liabilities, and claims, including reasonable attorney's fees arising out of or resulting from the willful act, fault, omission, or negligence of the Party, its employees, contractors, or agents in performing its obligations under this Operating Agreement. This indemnification shall include, but not be limited to, any and all claims arising from an employee of one Party who is working for the benefit of the other Party. Nothing in this Operating Agreement shall be construed to extend to the Institution/Agency's liability beyond the limits of the Idaho Tort Claims Act, Idaho Code §6-901 et seq.

13. Assignment. This Operating Agreement is not assignable by either Party, in whole or in part.

14. Governing Law. This Operating Agreement shall be governed by the laws of the State of Idaho.

15. Severability. If any provision of this Operating Agreement is held invalid or unenforceable to any extent, the remainder of this Operating Agreement is not affected thereby and that provision shall be enforced to the greatest extent permitted by law.

16. Entire Agreement. This Operating Agreement constitutes the entire agreement among the Parties pertaining to the subject matter hereof, and supersedes all prior agreements and understandings pertaining thereto.

IN WITNESS WHEREOF, the Institution/Agency and the Foundation have executed this Operating Agreement on the above specified date.

**SUBJECT**

Idaho State Board of Education (Board) Policy V.X. "Intercollegiate Athletics"  
second reading

**REFERENCE**

June 2012	Board approved first reading of amendments tying general fund limit to General Fund appropriation and tying institutional fund limit to total appropriation as new Board Policy V.X.
August 2012	Board approved second reading of new Board Policy V.X.
June 2014	Board approved first reading of amendments setting athletic limits through formula rather than Board approval.
August 2014	Board approved second reading of amendments to Board Policy V.X.
April 2016	Board approved first reading of amendments revising the reporting requirements for gender equity and financial reporting.
June 2016	Board approved use of the 4-year institutions' Federal Title IX reports for tracking compliance with Gender Equity regulations; and use of annual NCAA reports (and the NCAA report format in the case of Lewis-Clark State College) for annual tracking of institutions' athletic revenues and expenditures.
April 2019	Board approved first reading of amendments to Board Policy V.X.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section V.X.

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 3 ("Educational Attainment") Objective C ("Access: Increase access to Idaho's robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.").

**BACKGROUND/DISCUSSION**

At the direction of the Business Affairs and Human Resources (BAHR) Committee, members from each of the four-year institutions and Board staff were charged with carrying out a comprehensive review of Board Policy V.X. and developing

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

recommendations for updates to the policy. A number of concerns about the current policy and limits were raised. Institutions expressed concern that the current policy limited the amount that student athletic fees could be increased, despite the support from the students for a larger increase than currently allowed. Some Institutions also expressed concern that separating general athletic expenditures and athletic expenditures for gender equity resulted in a bifurcation of allowable expenditures that did not provide the institution flexibility in addressing various athletic-related issues. The current formula for increasing the athletic spending limit did not allow for additional increases due to factors such as athletic conference changes, the addition of new sports, expansion of team rosters and/or schedules, and other student-related factors such as room and board increases, spikes in tuition, or inflationary factors related to academic support and tutoring. The proposed amendment addresses each of these areas and makes other technical changes to improve clarity and correct inaccuracies in the current text.

**IMPACT**

The proposed revisions to Board Policy V.X., Intercollegiate Athletics, will address a number of long-standing concerns with the current policy, improve clarity, correct technical accuracy and readability, and increase institutions' flexibility to manage athletic financial operations while improving the Board's ability to track and oversee athletic operations.

**ATTACHMENTS**

Attachment 1: Board policy V.X. – Second Reading

**STAFF COMMENTS AND RECOMMENDATIONS**

The proposed revision of Board Policy V.X. includes changes to the following areas:

- Clarifies that the policy pertains to the athletic operations at the four 4-year institutions and adds appropriate references to the NCAA and NAIA.
- Merges the previously separate athletic limit categories for Gender Equity, General Fund, and Institutional Fund spending into a single category.
- Allows Student Activity Athletic Fee revenues to be collected at a level consistent with student authorization and approval.
- Provides new FY 2020 athletic spending limits and clarifies that adjustments must be equal to the growth in appropriated funds (General Funds and tuition and fees) or through Board approval.
- Provides a mechanism for Chief Executive Officers to request Board approval for one-time or ongoing changes to the above limits when justified on the basis of adding or expanding programs, investing in facility upgrades or repairs, meeting new federal or state regulatory compliance requirements, and/or meeting intercollegiate athletic association or conference requirements.
- Clarifies the process for dealing with annual athletic budget deficits and fund balance requirements—provides flexibility for the Board to direct deficit/fund deficiencies on a case-by-case basis (as opposed to a two-year fixed term).

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

There were changes between the first and second reading. These changes include:

- Changes to the limits for each of the institutions, reflecting the inflationary growth based on the FY 2019 General Fund appropriations and a more careful review as directed by the Board at the April Board meeting.
- Clarification that the new limits include General Funds and Institutional Funds.
- Clarification that the methodology for increasing the limit is based on appropriated funds and not only General Funds.

Adjustments to the spending limits were requested by the institutions as what is needed for a competitive, yet not extravagant, athletics program. The proposed numbers reflect the limit and not the amount of funding for athletics. The following table highlights the current limit, the proposed limit, and the difference for the applicable institutions.

	Current	Proposed	Difference
Boise State University	5,014,900	5,265,600	250,700
Lewis-Clark State College	1,480,800	3,532,600	2,051,800
University of Idaho	5,457,400	6,850,000	1,392,600
Idaho State University	4,742,600	5,750,000	1,007,400

Institution presidents will be available to answer any questions.

Staff recommends approval.

**BOARD ACTION**

I move to approve the second reading of the proposed amendments to Board Policy Section V.X., Intercollegiate Athletics, as presented in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_ No \_\_\_

~~1. Philosophy~~

~~The Board reaffirms the role of intercollegiate athletics as a legitimate and significant component of institutional activity. The responsibility for and control of institutional activities in this area rest with the Board.~~

~~In the area of intercollegiate athletics, the Board seeks to establish programs which:~~

- ~~a. Provide opportunities for student athletes to attend college and participate in athletic programs while pursuing and completing academic degrees;~~
- ~~b. Reflect accurately the priorities and academic character of its institutions;~~
- ~~c. Fuel school spirit and community involvement;~~
- ~~d. Serve the needs of the institutions as they seek, through their athletic programs, to establish fruitful and sustaining relationships with their constituencies throughout the state and nation; and~~
- ~~e. Actively and strategically progress toward compliance with Title IX of the Higher Education Amendments Act of 1972.~~

~~Given these goals, the Board has a continuing interest in the academic success of student athletes, the scope and level of competition, and the cost of athletic programs administered by its institutions. Consequently, the Board will, from time to time in the context of this policy statement, promulgate, as necessary, policies governing the conduct of athletic programs at its institutions.~~

21. Policies

The day-to-day conduct of athletic programs is vested in the institutions and in their chief executive officers. Decision making at the institutional level ~~must~~ shall be consistent with the policies established by the Board and by those national organizations and conferences with which the institutions are associated. In the event that conflicts arise among the policies of these governance groups, ~~it is the institution shall follow Board policy and the responsibility of the~~ it is the institution shall follow Board policy and the institution's chief executive officer ~~to shall~~ shall notify the Board in a timely manner. ~~Likewise, a~~ Likewise, any knowledge of serious NCAA, NAIA, or conference rule infractions involving an institution ~~should~~ shall be communicated by the athletic department to the chief executive officer of the institution immediately and the chief executive officer shall notify the Executive Director.

~~The Board recognizes that the financing of intercollegiate athletics, while controlled at the institutional level, is ultimately the responsibility of the Board itself. In assuming~~

~~that responsibility, t~~The sources of funds for intercollegiate athletics shall be defined in the following categories:

- a. State General Funds means state General Funds (as defined in Section 67-1205, Idaho Code) appropriated to the institutions.
- b. Student Athletic Fee Revenue means revenue generated from the full-time and part-time student activity fee that is dedicated to the intercollegiate athletics program pursuant to policy V.R.3.b.ii.
- c. Program Funds means revenue generated directly related to the athletic programs, including but not limited to ticket sales/event revenue, tournament/bowl/conference receipts, media/broadcast receipts, concessions/parking/advertisement, game guarantees and foundation/booster donations.
- d. Institutional Funds means any funds generated by the institution outside the funds listed in a., b. and c. above. Institutional Funds ~~do~~shall not include tuition and fee revenue collected under policy V.R.3. Examples of Institutional Funds include, but are not limited to, fees from Auxiliary Enterprises (as defined in Board Policy V.B.4.a), auxiliaries, investment income, interest income, vending, indirect cost recovery funds on federal grants and contracts, and administrative overhead charged to revenue-generating accounts across campus.

~~3. Funds allocated and used by athletics from the above sources are limited as follows~~Athletic spending limits: The Board shall establish annual limits on the expenditures drawn from State General Funds and Institutional Funds. No limits are set for the expenditure of athletic Program Funds.

- a. State General Funds and Institutional Funds
  - ~~i. The limit for State General Funds shall be allocated in two categories: General Funds used for athletics and General Funds used to comply with Title IX.~~
  - ~~ii.i. The Board set the following FY 2013 General Fund~~FY 2020 limits on total athletics spending from State General Funds and Institutional Funds are~~limits:~~

1) General Funds for Athletics:	
a) <u>Universities</u> <u>Boise State University</u>	\$ <u>2,424,400</u> <u>5,265,600</u>
<u>b) Idaho State University</u>	\$ <u>5,750,000</u>
<u>c) University of Idaho</u>	\$ <u>6,850,000</u>
<u>d) Lewis-Clark State College</u>	\$ <u>3,532,600</u>

~~2) General Funds for Gender Equity:~~

<del>a) Boise State University</del>	<del>\$1,069,372</del>
<del>b) Idaho State University</del>	<del>\$ 707,700</del>
<del>c) University of Idaho</del>	<del>\$ 926,660</del>
<del>d) Lewis-Clark State College</del>	<del>\$ ————0</del>

~~ii. The methodology for computing the limits for both categories of State General Funds athletic limits shall be to calculated annually based on the rate of change for the next fiscal year of ongoing State General Funds appropriated funds compared to the ongoing State General Funds appropriated funds in the current fiscal year, and then apply the rate of change to both limits approved by the Board in the previous year unless set through Board action.~~

~~4. Adjustments to Athletic Spending limits: Institution chief executive officers may request from the Board, one-time or permanent changes to the above-described spending limits to address non-routine programmatic changes. Changes that may be used as evidence for adjustments to the Athletic Spending Limit may include but are not limited to the addition of new sports, new expenditures related to gender equity or other compliance requirements, transitions to different athletic conferences, expansion of team rosters and schedules, inflationary factors related to the expense of academic support and tutoring, room and board increases, or atypical spikes in tuition rates.~~

~~b. Institutional funds~~

~~i. The Board set the following FY 2013 limits:~~

<del>1) Boise State University</del>	<del>\$386,100</del>
<del>2) Idaho State University</del>	<del>\$540,400</del>
<del>3) University of Idaho</del>	<del>\$772,100</del>
<del>4) Lewis-Clark State College</del>	<del>\$154,300</del>

~~ii. The methodology for computing the limits for Institutional Funds shall be to calculate the rate of change for the next fiscal year ongoing Appropriated Funds compared to the ongoing Appropriated Funds in the current fiscal year, and then apply the rate of change to the limit approved by the Board in the previous year. For purposes of this paragraph, "Appropriated Funds" means all funds appropriated by the Legislature to the institutions, including but not limited to, State General Funds, endowment funds, and appropriated tuition and fees.~~

~~c. Student Athletic Fee Revenue shall not exceed revenue generated from student activity fee dedicated for the athletic program. Institutions may increase the student~~

~~fee for the athletic program at a rate not more than the rate of change of the total student activity fees.~~

~~d.b.~~ Program Funds

The institutions can use the program funds generated, without restriction.

5. Fund Balances

- a. The ~~president~~ chief executive officer of each institution is accountable for balancing the budget of the athletic department on an annual basis. In accounting for the athletic programs, a positive fund balance for the total athletic program must be maintained. ~~In the event that revenue within a fiscal year exceeds expenses, the surplus would increase the fund balance and would be available for future fiscal years. In the event that expenses within a fiscal year exceeds revenue, the deficit would reduce the fund balance.~~ Athletic program funds shall be maintained in a separate account. If the fund balance becomes negative in any fiscal year, the institutions shall submit a plan for Board approval that eliminates the deficit ~~within two fiscal years~~. Reduction in program expenditures and/or increased revenue (program funds only) can be used in an institutional plan to eliminate a negative fund balance. If substantial changes in the budget occur during the fiscal year resulting in a projected deficit for that year, the ~~president~~ chief executive officer shall advise the Executive Director ~~Board~~ of the situation ~~at the earliest opportunity~~ immediately.
- b. Donations to athletics at an institution must be made and reported according to Board policy V.E. The amount of booster money donated to and used by the athletic department shall be budgeted in the athletic department budget.

~~It is the intent of the Board that increases in program revenues should be maximized before increases to the athletic limits under subsection 3 will be considered.~~

4.6. Gender Equity

- a. ~~Gender equity means compliance with~~ Title IX of the Higher Education Amendments Act of 1972 ~~which~~ prohibits discrimination on the basis of gender in any education program or activity receiving federal financial assistance, including athletics. ~~Congress delegated authority to promulgate regulations (34 C.F.R. §106.41) for determining whether an athletics program complies with Title IX. The U.S. Department of Education, through its Office of Civil Rights (OCR) is responsible for enforcing Title IX.~~
- b. —

~~c.a. \_\_\_\_\_ Title IX measures gender equity in athletics in three distinct areas: participation, scholarships, and equivalence in other athletics benefits and opportunities.~~

d.b. \_\_\_\_\_ The chief executive officer of each institution shall prepare a gender equity narrative for review by the Board in a format and time to be determined by the Executive Director. An institution will provide the Board with report(s) required by the institution's federal regulatory body regarding compliance to Title IX in its athletics programs and any summaries of such reports.

65. Financial Reporting.

~~The Board requires that the institutions adopt certain reporting requirements and common accounting practices in the area of intercollegiate athletic financing.~~ The NCAA Agreed Upon Procedures Reports that are prepared annually and reviewed by the external auditors for each university will be provided to the Board and will also serve as a reporting template for a similar annual report for Lewis-Clark State College. Additional reporting requirements may be required based on a timeline and format established by the Executive Director.

**IDAHO NATIONAL LABORATORY**

**SUBJECT**

Enhancements at the Cybercore and Collaborative Computing Center (C3) facilities

**REFERENCE**

May 2016	State Board of Education (Board) received initial overview briefing on proposed project from INL Program Manager
June 2016	Board members toured potential construction sites for new facilities on properties adjacent to INL operations. Board assigned two of its members to serve on a project feasibility/coordination team.
August 2016	Board approved request to sponsor the Cybercore and Collaborative Computing Center (C3) facilities construction project, subject to subsequent approval of plans for financing and construction of the project through the Idaho State Building Authority.
September 2016	Board approved concurrent resolution for 2017 Legislative session as a prerequisite to obtaining state bonding authority for the project.
February 2017	Board authorized Executive Director to make purchase offer for acquisition of Idaho State University Foundation-owned parcel for siting of the CIC facility.
March 2017	Legislature approved Senate Concurrent Resolution 105, authorizing Board to enter into arrangements with Idaho State Building Authority (ISBA) for financing and construction management of the C3 and CIC facilities.
March 8, 2018	Board authorized bond issuance of \$82,535,000 for construction of the Cybercore and C3 facilities and approved a sublease agreement of the facilities with Battelle Energy Alliance.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section V.I.

**ALIGNMENT WITH STRATEGIC PLAN**

State Board of Education governance item.

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

**BACKGROUND/DISCUSSION**

INL has agreed to purchase and install a new electron microscope in the Center for Advanced Energy Studies (CAES). The installation of this new microscope is at the request of the vice presidents for research at University of Idaho, Idaho State University, Boise State University, and the University of Wyoming and the Director of CAES to support proposed research activities at CAES with the universities and INL. This installation will need the currently planned C3 and Cybercore access road directly in front of CAES to be moved to reduce vibrations from traffic to improve research equipment output reliability and quality.

A proposed road would include a new traffic circle or intersection, walking and bike paths and a new street south from MK Simpson Boulevard to the cross-connecting drive between C3 and Cybercore, as conceptually described in Attachment 1. Once completed, the road would become the responsibility of the City of Idaho Falls, who would maintain the road and provide snow removal. The construction would require that a small portion of state-owned property be transferred to the City of Idaho Falls via the approved new plat signed by all affected land owners. The portion of state property where the road will be located is not really viable for any other use. Pursuant to Board Policy V.I.5.b.iii, disposal of real property requires Board approval.

**IMPACT**

Construction of this road and intersection will provide greater access to C3, Cybercore and CAES, maintain existing access to CAES, enhance walking accessibility between these facilities, and provide the needed separation of traffic in front of CAES to support existing and future research equipment. The remaining funds available from the bond proceeds have been analyzed and it was determined that sufficient funds are available to construct the new access road and traffic circle and there will still be adequate levels of funds to complete all remaining construction and management activities. It should be noted that upon final construction completion and turnover, remaining unused project funds would be paid to Batelle Energy Alliance (BEA) as reimbursement for paying the upfront design costs. BEA supports the change order and construction of the road.

**ATTACHMENTS**

Attachment 1: Access Road Renderings

**STAFF COMMENTS AND RECOMMENDATIONS**

Enhancements to the facilities will benefit the institutions and the partnership at Cybercore and C3. While the Board is authorizing an expenditure of funds, these monies are not state dollars and will have no impact on the finances of the State Board of Education or its institutions.

The other land owners affected by this construction have also given their support.

Staff recommends approval.

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

**BOARD ACTION**

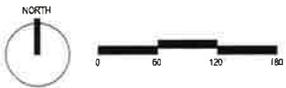

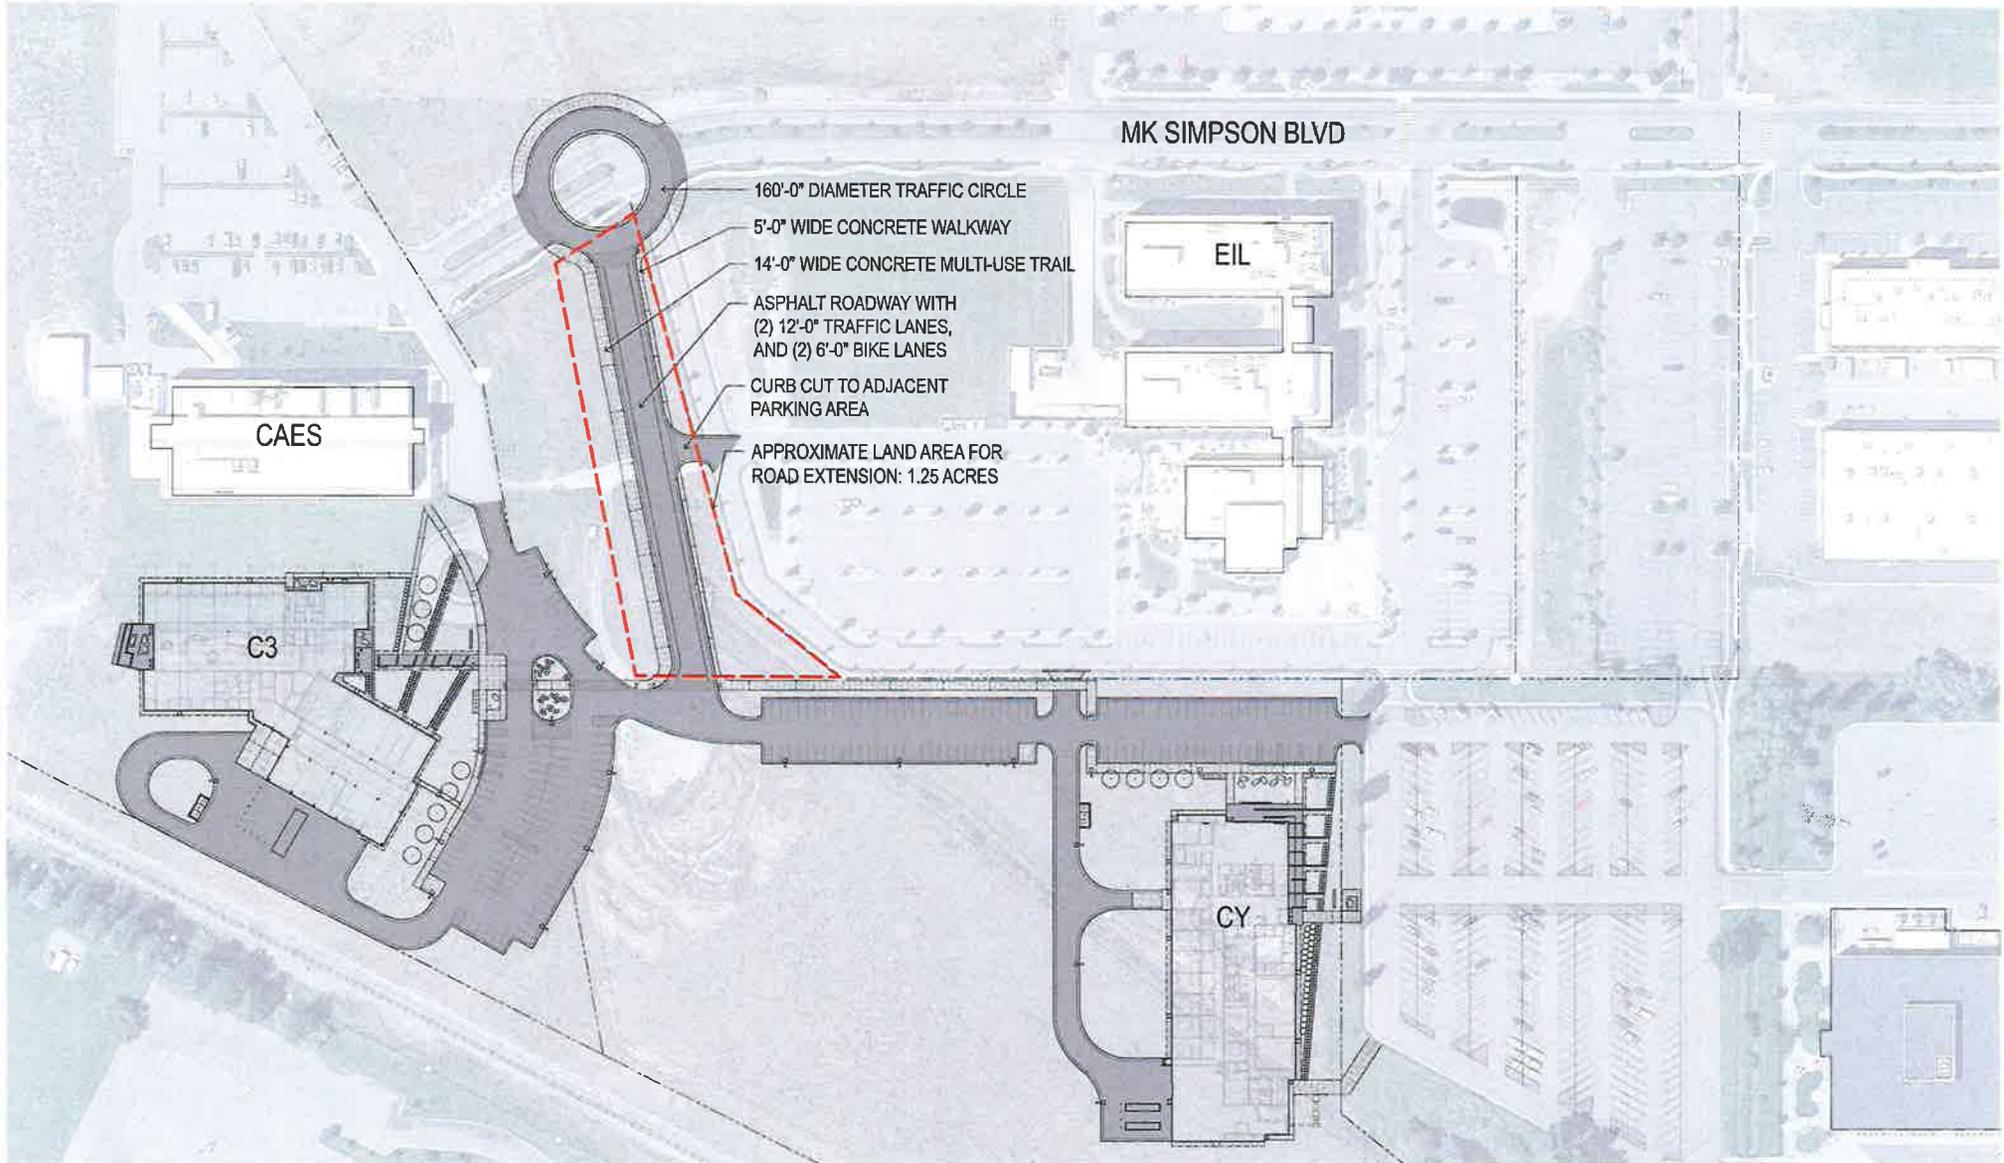

I move to approve the change order requested by BEA for construction of an access road extension and traffic circle on MK Simpson Boulevard as depicted on Attachment 1 for an amount not to exceed \$1,000,000, and the subsequent transfer of property to the City of Idaho Falls as described in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

AND

I move to authorize the Board's Executive Director to execute any documents required to transfer the access road depicted on Attachment 1 to the City of Idaho Falls.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

MK SIMPSON BLVD - PROPOSED ROAD EXTENSION AND TRAFFIC CIRCLE

**UNIVERSITY OF IDAHO**

**SUBJECT**

Declaration of intent to utilize tax-exempt financing for reimbursement of internal expenditures on the Idaho Central Credit Union Arena (ICCU Arena)

**REFERENCE**

March 14, 2019

The Idaho State Board of Education (Board) approved the request from University of Idaho to proceed with project bidding and construction of the ICCU Arena

May 15, 2019

The Board approved a \$5,000,000 increase in the amount authorized in March 2019

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section V.F, Subsection 4(b)(iv).

**ALIGNMENT WITH STRATEGIC PLAN**

State Board of Education Governance Item.

**BACKGROUND/DISCUSSION**

The University of Idaho (UI) requests approval to declare its intent to utilize future tax-exempt bond financing to reimburse itself for internal funds utilized to pay the ICCU Arena project costs. Declaration of intent at this juncture preserves the right, but does not obligate reimbursement with tax-exempt financing. Any financing would still be subject to Board approval pursuant to Idaho State Board of Education Polices & Procedures, Section V.F.

**IMPACT**

UI may expend monies from its own internal funds for costs of the project as indicated above (Project) and in such event, may be reimbursed from the proceeds of any future tax-exempt bonds (Bonds) for any expenditures (Expenditure) made on or after a date not more than 60 days prior to June 20, 2019. Further, that each Expenditure was and will be either: (a) of a type properly chargeable to a capital account under general federal income tax principles (determined in each case as of the date of the Expenditure), (b) a cost of issuance with respect to the Bonds or (c) a nonrecurring item that is not customarily payable from current revenues. Further, that the maximum principal amount of the Bonds to be issue for the Project is not expected to exceed \$34,200,000 and the Bonds may also finance other UI projects. UI reasonably expects on June 20, 2019 that it will reimburse the Expenditures with all or a portion of the proceeds of the Bonds subject to future Board approval of such Bonds pursuant to Idaho State Board of Education Policies & Procedures, Section V.F. Further, that UI will keep books and records of all

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

expenditures and will make a reimbursement allocation, which is a written allocation that evidences UI's use of proceeds of the Bonds to be a reimbursement of Expenditures no later than 18 months after the later of the date on which the Expenditure is paid or the Project is placed in service or abandoned, but in no event more than three years after the date on which the Expenditure is paid. Finally, this agenda item evidences UI's intent and reasonable expectation under Treas. Reg. Section 1.150.2 (d)(1) to use the proceeds of the Bonds to pay the costs of the Project and to reimburse UI for expenditures for the costs of the Project paid prior to the issuance of the Bonds to the extent permitted by federal tax law.

**STAFF COMMENTS AND RECOMMENDATIONS**

Bond counsel has advised institutions that may desire to be reimbursed from the proceeds of any future bonds that language as included under the Impact section of this agenda item is required. Approval of this item does not indicate support or authorization of bonds, but only supports that an institution may use internal funds for the project and be reimbursed by the bonds in the event that bonds are issued.

Staff recommends approval.

**BOARD ACTION**

I move to approve the request from University of Idaho for authority to use future bond proceeds to reimburse itself for costs and expenses of the acquisition of the Idaho Central Credit Union Arena property as described in the Impact Section above; provided however any issuance of bonds will require additional Board approval, consistent with Board Policies & Procedures.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

**SUBJECT**

Systemness Update

**REFERENCE**

September 29, 2017	The Idaho State Board of Education (Board) adopted the Higher Education Task Force recommendations, including recommendation to increase systemness
December 2018	Huron presented the final report to the Board
January 18, 2019	The Board accepted the Huron report and appointed a subcommittee to continue the work on systemness

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.A.

**ALIGNMENT WITH STRATEGIC PLAN**

The agenda item aligns with the following Board of Education Strategic Plan Goals:  
Goal 1: Educational System Alignment  
Goal 2: Educational Attainment

**BACKGROUND/DISCUSSION**

The Board contracted with Huron Consulting to assess the current state of administrative operations at Boise State University, Idaho State University, the University of Idaho and Lewis-Clark State College and to identify opportunities for increases in efficiency and effectiveness. At the December 2018 regular Board meeting, Huron Consulting presented to the Board their final report areas of systems integration.

Huron Consulting identified a series of options and foundational decisions that would first need to be made prior to implementation of the potential efficiencies identified in the report. The report focused on three areas: labor duplication/fragmentation/span of control, purchasing power, and IT enterprise systems and their findings consisted of:

1. Near-term Opportunities
  - a. Optimize mid-level management span of control. Across all institutions, 60% to 70% of supervisors have three or fewer direct reports
  - b. Optimize staff support in functional areas (Finance, HR, Research and IT), and consolidate generalist staff
2. Intermediate-term Opportunities
  - a. Procurement: Negotiate vendor agreements/contracts across institutions and implement eProcurement system housing shared catalogs for jointly negotiated pricing and contracts. Areas for highest savings are administrative (e.g. office supplies), scientific/medical supplies and facilities

**BUSINESS AFFAIRS AND HUMAN RESOURCES**  
**JUNE 20, 2019**

---

- b. Self-insurance: Migrate all institutions to shared self-insurance for health insurance
- 3. Long-term Opportunities
  - a. Centralize selected functional support staff (Finance, HR, IT and Research administration)
  - b. Converge into single ERP environment (two or three of the institutions likely need to upgrade to cloud-based platforms within the next 2-5 years)

A subcommittee was appointed to oversee phase two of this initiative. The subcommittee consists of the following Board members: Andy Scoggin (chair), Linda Clark, David Hill, and Richard Westerberg

The subcommittee engaged Huron Consulting for the second phase of the project, which deliverables include a proposed timeline and cost estimates for the various systemness projects.

**IMPACT**

This item is an update from the subcommittee on the efforts and direction of the systemness work.

**STAFF COMMENTS AND RECOMMENDATIONS**

An update will be provided by the subcommittee's chair.

**BOARD ACTION**

This item is for informational purposes only.

**SUBJECT**

Board Policy III.V, Articulation and Transfer – First Reading

**REFERENCE**

October 2012	The Board approved the first reading of proposed amendments to Board Policy III.V, which provided flexibility in six credits required of the general education core that are not assigned to a specific discipline.
December 2012	The Board approved the second reading of proposed amendments to Board policy III.V.
April 2015	The Board approved the first reading of proposed amendments to Board Policy III.V, which clarified the transfer and articulation policy for general education credit applies to all Idaho public institutions.
June 2015	The Board approved the second reading of proposed amendments to Board Policy III.V.
April 2019	The Board approved the first reading of proposed amendments to Board Policy III.V. which clarified the credit awarded by an institution for prior learning and transfer of general education requirements.

**APPLICABLE STATUTES, RULE OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section III.V., and III.N.

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT – Objective B: Alignment and Coordination

**BACKGROUND/DISCUSSION**

Board Policy III.V, Articulation and Transfer, establishes requirements for the articulation and transfer of courses between Idaho's public postsecondary institutions. Proposed amendments to Board Policy III.V add a requirement that credits awarded through a prior learning assessment (PLA) by one of the institutions for a course on the common course list or for meeting a general education requirement shall transfer between those institutions as the same course on the list and/or meet the same general education requirement.

**INSTRUCTION, RESEARCH AND STUDENT AFFAIRS**  
**JUNE 20, 2019**

---

**IMPACT**

Approval of proposed amendments will provide institutions and staff with necessary guidance for transfer of course credits awarded through PLA. It will also provide maximum transparency and consistency for course articulation across institutions. This will help ensure students are provided with an opportunity to complete their degree in a timely manner without the need to repeat courses or to submit requests for evaluation of PLA credit awarded at a prior institution.

Furthermore, amendments conform with Section 33-3729, Idaho Code ensuring completion of the Board's general education requirements for students who earn an Associate of Arts or Associate of Science degree from any institution within or external to Idaho, which is regionally accredited by a body recognized by the Board.

**ATTACHMENTS**

Attachment 1 – Board Policy III.V, Articulation and Transfer – 2nd Reading

**STAFF COMMENTS AND RECOMMENDATIONS**

Proposed amendments to Board Policy III.V will provide for the seamless transfer of credits earned through PLA consistently across Idaho's public postsecondary institutions. Furthermore, Section 33-3729, Idaho Code requires Idaho postsecondary institutions to recognize students who complete an Associate of Arts or Associate of Science degree at any institution accredited by a body recognized by the Board as having completed the Board's general education requirements and prohibits the institutions from requiring these students to complete any additional general education requirements. One technical correction was made to section 2.C. No other changes were made between the first and second reading. Board staff recommends approval as presented.

**BOARD ACTION**

I move to approve the second reading of proposed amendments to Board Policy III. V, Articulation and Transfer as submitted in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

Idaho State Board of Education  
**GOVERNING POLICIES AND PROCEDURES**  
SECTION: III. POSTSECONDARY AFFAIRS  
SUBSECTION: V. Articulation and Transfer

June 2019<sup>95</sup>

This subsection shall apply to the University of Idaho, Boise State University, Idaho State University, Lewis-Clark State College, College of Eastern Idaho, College of Southern Idaho, College of Western Idaho, and North Idaho College.

The Statewide General Education Policy, Board Policy III.N, Statewide General Education, outlines Idaho's General Education Framework and establishes guidelines for General Education Matriculated (GEM) curricula across all public postsecondary institutions. Statewide recognition of common GEM competencies creates a transparent and seamless transfer experience for undergraduates as defined in Board Policy III.N.

The transfer of GEM courses is predicated on the acquisition of competencies in broad academic areas. Each institution recognizes the professional integrity of all other public institutions in the acceptance of their general education courses and programs.

1. Statewide Articulation

a. Academic Undergraduate Degrees

- i. Students who complete requirements for the Associate of Arts or Associate of Science degree at a regionally accredited postsecondary institution ~~in Idaho~~ will be considered as satisfying the general education requirement, as defined in Board Policy III.N., upon transfer to a ~~four-year~~ public institution in Idaho and will not be required to complete any additional general education requirements.
- ii. Students who have completed the 36-credit General Education Framework, as defined in Board Policy III.N, without an Associate of Arts or Associate of Science Degree and transfer from a regionally accredited postsecondary institution in Idaho will not be required to complete additional general education requirements at the receiving institution.
- iii. If a student has completed a GEM course(s) but has not completed the entire General Education Framework or an Associate of Arts or Associate of Science Degree, those GEM courses will be applied towards the associated GEM competency requirements at the receiving institution.

b. Associate of Applied Science (AAS) Degrees

- i. A student who satisfactorily completes a GEM course(s) as part of the Associate of Applied Science (AAS) degree and then subsequently transfers to another public Idaho postsecondary institution will have those GEM courses

Idaho State Board of Education  
**GOVERNING POLICIES AND PROCEDURES**

SECTION: III. POSTSECONDARY AFFAIRS  
SUBSECTION: V. Articulation and Transfer

June 2019~~5~~

- ~~will be~~ applied towards the associated GEM competency of the receiving institution.
- ii. A student who completes an AAS degree may pursue an interdisciplinary Bachelor of Applied Science or a Bachelor of Applied Technology degree focused on upper-level academic coursework.
2. Authority is delegated to the postsecondary institutions under the Board's governance to evaluate and determine whether to accept equivalent or elective credits on behalf of transferring students within the requirements of sections 33-107(6)(be) and 33-2102, and 33-3729 Idaho Code and Board Policy III.V.2.c through ed. Each institution is responsible for working to facilitate the effective and efficient transfer of students. To that end:
- a. Institutions shall publish the current curriculum equivalencies of all courses on the state transfer web portal.
  - b. Where patterns of student enrollment are identified between institutions, articulation agreements shall be developed between the institutions.
  - c. Non-remedial course credits earned at ~~an~~those institutions under the Board's governance, regardless of being a general education credit or not, are transferable to any other institution governed by this policy.
  - d. Academic credits accepted from a regionally accredited institution into an academic program by one institution under the Board's governance shall transfer from two- and four-year to four-year institutions as either equivalent or elective credits between the other postsecondary institutions governed by this policy.
  - e. Courses on the common course index list, as provided in Board Policy III.N.6.b, that are awarded credit through prior learning assessments, as outlined in Board Policy III.L.1.b, from an institution shall transfer as equivalent course credit between those institutions. An area of general education, as listed in Board Policy III.N.3, for which credit is awarded by an institution through prior learning assessments, shall transfer across those institutions as meeting the same general education requirement.

**INSTRUCTION, RESEARCH AND STUDENT AFFAIRS**  
**JUNE 19, 2019**

---

**BOISE STATE UNIVERSITY**

**SUBJECT**

Online Graduate Certificate in Computer Assisted Language Learning (CALL)

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section III.G. and Section V.R.

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 2: Educational Attainment – Objective A: Higher Level of Educational Attainment and Objective C: Access

**BACKGROUND/DISCUSSION**

Boise State University (BSU) proposes to create a new Graduate Certificate in Computer Assisted Language Learning that will be offered entirely online. The program will operate under the guidelines of the Idaho State Board of Education Policy V.R. as it pertains to wholly online programs. The online format of the program and the flexibility it affords a student who may have family responsibilities, or live in a rural county, contribute to a higher level of educational attainment for Idaho residents as they can take advantage of a graduate-level certificate despite these factors. The wholly online format of the proposed graduate certificate is accessible to Idaho students regardless of socioeconomic status, age, and geographic location. The proposed program will target Idaho foreign language teachers by providing an opportunity to enhance their professional careers through graduate-level coursework in second language teaching methodology and innovative educational technologies.

Because it is wholly online, the proposed program will enable BSU to reach potential students, many of whom are Idaho teachers and who need flexibility in their education that result from professional and personal responsibilities. These students may also live in a rural area of Idaho that does not have face-to-face educational opportunities.

**IMPACT**

The program's size can be scaled to demand for the program, and BSU projects that the program will reach a size of 15 students by the sixth year, graduating approximately 20 students per year once the program is up and running. As the program is designed for working professionals it is expected most students will be part-time.

The student fee will be in accordance with the Online Program Fee as defined in the Board Policy V.R., 3.a.x. We will initially charge \$478 per credit hour. For the 12 credits required for completion of the proposed program, students will pay \$478 per credit; the total cost of those 12 credits totals \$5,736.

**INSTRUCTION, RESEARCH AND STUDENT AFFAIRS**  
**JUNE 19, 2019**

---

**ATTACHMENTS**

Attachment 1 – Proposal, Graduate Certificate in Computer Assisted Language Learning

**STAFF COMMENTS AND RECOMMENDATIONS**

BSU anticipates a projected enrollment of seven students initially. Because program will be using the online program fee model, minimum enrollments are based on course registrations. The capacity for the program is 20 students, which can be scaled to demand for the certificate. BSU has identified a minimum of eight enrollments for program continuance. If that number is not consistently achieved after five years, the certificate will be discontinued.

BSU's proposed Graduate Certificate in Computer Assisted Language Learning is consistent with their Service Region Program Responsibilities and their current institution plan for Delivery of Academic Programs in Region III. As provided in Board Policy III.Z, no institution has the statewide program responsibility for educational technology programs. Additionally, Board Policy III.Z does not apply to programs for which 90% or more of all activity is required or completed online.

BSU also requests approval to assess an online program fee consistent with Board Policy V.R.3.a.x. BSU proposes to charge \$478 per credit for a total program cost of \$5,736 for 12 required credits. The establishment of the online program fee was based on the fee currently assessed by BSU's Educational Technology graduate program. Based on the information for the online program fee provided in the proposal, staff finds that the criteria have been met for this program.

The proposal completed the program review process and was recommended for approval by the Council on Academic Affairs and Programs (CAAP) on May 9, 2019; and was presented to the Committee on Instruction, Research, and Student Affairs (IRSA) on May 21, 2019; and to the Business Affairs and Human Resources (BAHR) Committee on June 7, 2019. The BAHR Committee is currently in the process of reevaluating Board Policy V.R., Establishment of Fees, which includes educational and technical program fees.

Board staff recommends approval.

**BOARD ACTION**

I move to approve the request by Boise State University to create an online Graduate Certificate in Computer Assisted Language Learning as presented in Attachment 1.

## Idaho State Board of Education

### Proposal for Undergraduate/Graduate Degree Program

Date of Proposal Submission:	February 27 2019
Institution Submitting Proposal:	Boise State University
Name of College, School, or Division:	College of Arts and Sciences
Name of Department(s) or Area(s):	Department of World Languages

**Program Identification for Proposed New or Modified Program:**

Program Title:	Graduate Certificate in Computer Assisted Language Learning				
Degree:		Degree Designation		Undergraduate	X Graduate
Indicate if Online Program:	X	Yes		No	
CIP code (consult IR /Registrar):	16.0101				
Proposed Starting Date:	Fall 2019				
Geographical Delivery:	Location(s)	Online Only	Region(s)	Online Only	
Indicate (X) if the program is/has:	X	Self-Support (Online Program Fee)		Professional Fee	
Indicate (X) if the program is:	X	Regional Responsibility		Statewide Responsibility	

**Indicate whether this request is either of the following:**

- |  |   |
|--|---|
| <input type="checkbox"/> New Degree Program  | <input type="checkbox"/> Consolidation of Existing Program            |
| <input checked="" type="checkbox"/> Undergraduate/Graduate Certificates (30 credits or more) | <input type="checkbox"/> New Off-Campus Instructional Program         |
| <input type="checkbox"/> Expansion of Existing Program                                       | <input type="checkbox"/> Other (i.e., Contract Program/Collaborative) |

 President Date

**Before completing this form, refer to Board Policy Section III.G., Postsecondary Program Approval and Discontinuance.** This proposal form must be completed for the creation of each new program. All questions must be answered.

### **Rationale for Creation or Modification of the Program**

1. **Describe the request and give an overview of the changes that will result.** Will this program be related or tied to other programs on campus? Identify any existing program that this program will replace.

The Departments of World Languages and Educational Technology jointly propose to create a 12-credit online graduate certificate in Computer Assisted Language Learning (CALL). The proposed program will operate under the guidelines of SBOE Policy V.R. as it pertains to wholly online programs. The online graduate certificate would be comprised of coursework in Applied Linguistics, Second Language Pedagogy, and Educational Technologies offered by both departments. The proposed start date is fall 2019.

There is currently no opportunity for World Languages teachers to pursue graduate study in the State of Idaho. This program would provide an important first step toward supporting our teachers with graduate instruction in their field of expertise by providing a sound foundation in second language teaching methodology and innovative educational technologies. Students wishing to pursue a Master's Degree in Educational Technology could count the coursework for the CALL graduate certificate toward their M.Ed. The department of Educational Technology's Master of Educational Technology program is one of the largest education master's degree in the United States. The department has four other graduate certificates, which can be taken as specializations within the master's program or as a stand-alone program. This proposed program will continue to build on the Boise State's Ed Tech brand. Greater choice infers greater size and credibility; therefore, curricular choice plays a key role in student recruitment.

2. **Need for the Program.** Describe the student, regional, and statewide needs that will be addressed by this proposal and address the ways in which the proposed program will meet those needs.
  - a. **Workforce need:** Provide verification of state workforce needs that will be met by this program. Include State and National Department of Labor research on employment potential. Using the chart below, indicate the total projected annual job openings (including growth and replacement demands in your regional area, the state, and nation. Job openings should represent positions which require graduation from a program such as the one proposed. Data should be derived from a source that can be validated and must be no more than two years old.

List the job titles for which this degree is relevant:

1. World Language Teacher
2. World Language Professor (SOC 25-1124)

	State DOL data	Federal DOL data	Other data source: (describe)
<b>Local (Service Area)</b>	10 (50% of state)	8 (0.25% of national)	n/a
<b>State</b>	20	16 (0.5% of national)	n/a
<b>Nation</b>	n/a	3,200	n/a

Provide (as appropriate) additional narrative as to the workforce needs that will be met by the proposed program.

Although one will find few job announcements that specifically require graduation with a certificate in CALL, this program is designed for instructors of foreign languages at all levels, and all instructors are expected to be proficient in instructional technologies. According to the U.S. Department of Labor, the national projected growth rate for university-level language professors between 2014 and 2024 is 13%, which is “faster than average,” and the projected growth rate for High School Teachers is 6% or 961,600 jobs. In Idaho, the state Department of Labor projects a growth rate of 18.8. % for High School Foreign Languages teachers.

The CALL graduate certificate is intended to meet employment needs in the sense that all instructors are expected to be proficient in instructional technologies. This program would thus increase students’ employment prospects and improve their ability to perform their job.

- b. Student need.** What is the most likely source of students who will be expected to enroll (full-time, part-time, outreach, etc.). Document student demand by providing information you have about student interest in the proposed program from inside and outside the institution. If a survey of s was used, please attach a copy of the survey instrument with a summary of results as **Appendix A.**

Within Idaho, the proposed graduate certificate will be promoted to elementary and high school teachers through the Idaho Association of Teachers of Language and Culture (IATLC), as well as through district coordinators throughout the state.

Given that the market for this proposed graduate certificate is also national in scope, we will promote this new program to educators who frequent special interest groups in social media, web sites, and conferences. In particular, we plan to advertise through the American Council on the Teaching of Foreign Languages (ACTFL).

- c. Economic Need:** Describe how the proposed program will act to stimulate the state economy by advancing the field, providing research results, etc.

Any effort in the state to increase a teacher’s ability to effectively and creatively deliver language learning content, thereby increasing the number of Idahoans that are proficient in a second or third language has an economic impact for the state of Idaho. When more Idahoans can communicate in multiple languages they will find their employment opportunities increase as they have a valuable skill companies need in their employees. Additionally, these companies can

more effectively seek business opportunities overseas, helping to make Idaho a more significant player in the global economy.

**d. Societal Need:** Describe additional societal benefits and cultural benefits of the program.

Coursework focus on the utilization of technologies that help teach students. Classroom applications such as these are intended to stimulate learning. Nevertheless, strengthening the educational system in Idaho will yield long-term economic benefits for the state.

**e. If Associate’s degree, transferability:**

N/A

**3. Similar Programs.** Identify similar programs offered within Idaho and in the region by other in-state or bordering state colleges/universities.

There are no similar existing programs in the state.

Similar Programs offered <u>by Idaho public institutions</u> (list the proposed program as well)		
Institution Name	Degree name and Level	Program Name and brief description if warranted
N/A	N/A	N/A

Similar Programs offered <u>by other Idaho institutions and by institutions in nearby states</u>		
Institution Name	Degree name and Level	Program Name and brief description if warranted
Arizona State University	Graduate Certificate in CALL	IN PERSON ONLY: 15 credits, focuses on using technology in foreign language teaching and research.
University of Arizona	Graduate Certificate in Technology in Second Language Teaching	IN PERSON ONLY: 15 credits, introduction to various classroom and language-learning technologies and how they are used to assist second language acquisition and second language teaching

**4. Justification for Duplication with another institution listed above.** (if applicable). If the proposed program is similar to another program offered by an Idaho public institution, provide a rationale as to why any resulting duplication is a net benefit to the state and its citizens. Describe why it is not feasible for existing programs at other institutions to fulfill the need for the proposed

program.

N/A

**5. Describe how this request supports the institution's vision and/or strategic plan.**

The mission of the graduate certificate in CALL would align in several ways with the university's mission. One of the university's stated strategies for achieving the goals of "Focus on Effectiveness" is to "Facilitate respect for the diversity of human cultures, institutions, and experiences in curricular and co-curricular education." As the study of languages is inextricably linked to the study of the cultures from which they emerge, the Department of World Languages is one of the primary academic units on campus charged with carrying out this aspect of the strategic plan, and the coursework that would lead to the graduate certificate would directly support our mission by offering advanced training in the overlapping fields of Linguistics and Educational Technology with the aim of enhancing the expertise of language instructors in Idaho and across the nation. Another component of Boise State's strategic plan is to support interdisciplinary collaboration and transdisciplinary degree programs. This certificate would rely on interdepartmental collaboration and cross disciplinary boundaries by drawing on research in the fields of Applied Linguistics and Educational Technology.

**6. Assurance of Quality.** Describe how the institution will ensure the quality of the program. Describe the institutional process of program review. Where appropriate, describe applicable specialized accreditation and explain why you do or do not plan to seek accreditation.

The following measures will ensure the high quality of the new program:

Regional Institutional Accreditation: Boise State University is regionally accredited by the Northwest Commission on Colleges and Universities (NWCCU). Regional accreditation of the university has been continuous since initial accreditation was conferred in 1941. Boise State University is currently accredited at all degree levels (A, B, M, D).

Program Review: Boise State has instituted a new program review procedure. At the inception of new programs, the programs will submit to the Office of the Provost a three-year assessment plan to be scheduled into the Periodic Review/Assessment Reporting Cycle. The plan includes program learning outcomes; and an implementation plan with a timeline identifying when and what will be assessed, how the programs will gather assessment data, and how the program will use that information to make improvements. Then, every three years, the programs will provide Program Assessment Reports (PAR), which will be reviewed by a small team of faculty and staff using a PAR Rubric, which includes feedback, next steps, and a follow-up report with a summary of actions.

Student Authentication: Because the proposed certificate program will be offered entirely online, it is important to include mechanisms by which we authenticate the identity of students enrolled in the program. We will use the following mechanisms:

- During the admissions process, the university will confirm required official transcripts and other documentation required for admission into the program.
- Associated with access to and use of our Learning Management System, a secure log-in environment will be provided and students will be required to use strong passwords and change them every 90 days.

- When high-stakes exams are required, faculty will be encouraged to utilize remote or online proctoring services when appropriate. In those instances, students will need to provide valid photo identification before gaining access to the graded assessments or other required activities.
- Instructors will utilize Blackboard's Safe Assignment plagiarism detection program when appropriate.
- Instructors are expected to be informed of and aware of the importance of student identity authentication and to report and act upon suspected violations.

**7. In accordance with Board Policy III.G., an external peer review is required for any new doctoral program. Attach the peer review report as **Appendix B.****

N/A

**8. Teacher Education/Certification Programs** All Educator Preparation programs that lead to certification require review and recommendation from the Professional Standards Commission (PSC) and approval from the Board.

Will this program lead to certification?

Yes \_\_\_\_\_ No X \_\_\_\_\_

If yes, on what date was the Program Approval for Certification Request submitted to the Professional Standards Commission?

**9. Five-Year Plan: Is the proposed program on your institution's approved 5-year plan? Indicate below.**

Yes \_\_\_\_\_ No X \_\_\_\_\_

Proposed programs submitted to OSBE that are not on the five-year plan must respond to the following questions and meet at least one criterion listed below.

**a. Describe why the proposed program is not on the institution's five year plan.**

When did consideration of and planning for the new program begin?

Graduate certificate programs are not required to be listed on institution's 5 year plans.

**b. Describe the immediacy of need for the program.** What would be lost were the institution to delay the proposal for implementation of the new program until it fits within the five-year planning cycle? What would be gained by an early consideration?

**Criteria.** As appropriate, discuss the following:

- How important is the program in meeting your institution's regional or statewide program responsibilities? Describe whether the proposed program is in response to a specific industry need or workforce opportunity.

As a metropolitan research university in the most heavily populated area of Idaho, we have a responsibility to support K-12 teachers in all disciplines who seek to obtain

additional expertise. There is currently no opportunity for World Languages teachers to pursue graduate study in the State of Idaho. This program would provide an important first step toward supporting our teachers with graduate instruction in their field of expertise, and will be available to instructors of all languages.

- ii. Explain if the proposed program is reliant on external funding (grants, donations) with a deadline for acceptance of funding.

N/A

- iii. Is there a contractual obligation or partnership opportunity to justify the program?

N/A

- iv. Is the program request or program change in response to accreditation requirements or recommendations?

N/A

- v. Is the program request or program change in response to recent changes to teacher certification/endorsement requirements?

N/A

**Curriculum, Intended Learning Outcomes, and Assessment Plan**

**10. Curriculum for the proposed program and its delivery.**

- a. **Summary of requirements.** Provide a summary of program requirements using the following table.

Credit hours in required courses offered by the department (s) offering the program.	12
Credit hours in required courses offered by other departments:	0
Credit hours in institutional general education curriculum	0
Credit hours in free electives	0
Total credit hours required for degree program:	12

- b. **Additional requirements.** Describe additional requirements such as comprehensive examination, senior thesis or other capstone experience, practicum, or internship, some of which may carry credit hours included in the list above.

None.

**11. Program Intended Learning Outcomes and Connection to Curriculum.**

- a. **Intended Learning Outcomes.** List the Intended Learning Outcomes for the proposed program, using learner-centered statements that indicate what will students know, be able to do, and value or appreciate as a result of completing the program.

This program addresses the need for Foreign Language Teachers at all levels to be able to effectively implement technology in the language classroom.

Specific program learning outcomes include:

1. Describe, discuss and synthesize contemporary theories of Second Language Development (SLD).
2. Evaluate instructional technologies through the lens of the world language classroom and predict the potential for augmented language development.
3. Articulate a pedagogical framework for language learning where instructional technologies can be integrated appropriately and successfully.
4. Design a Web 2.0 technology that contributes to the growing field of Computer Assisted Language Learning (CALL) or develop a comprehensive curriculum that integrates SLD and CALL successfully and appropriately for your classroom context.

## 12. Assessment plans

- a. Assessment Process.** Describe the assessment process that will be used to evaluate how well students are achieving the intended learning outcomes of the program.

The program will use required student Portfolios to map student work (Portfolio artifacts) to specific student learning outcomes. The Program Director will use a rubric to review the artifacts to determine the degree to which student learning outcomes have been met and how curriculum might be altered in the future to improve student learning.

- b. Closing the loop.** How will you ensure that the assessment findings will be used to improve the program?

Data will be shared with the Departmental Steering Committee and actions will be developed to address concerns that are raised.

- c. Measures used.** What direct and indirect measures will be used to assess student learning?

Direct measures will include assessment of e-portfolios, lesson plans, and classroom activities as well as classroom observations.

- d. Timing and frequency.** When will assessment activities occur and at what frequency?

Assessment of outcomes for a particular course will occur each time the course is offered. Assessment of all program outcomes will be assessed on a three-year cycle as by submitting Program Assessment Reports to the university.

## Enrollments and Graduates

- 13. Existing similar programs at Idaho Public Institutions.** Using the chart below, provide enrollments and numbers of graduates for similar existing programs at your institution and other Idaho public institutions.

Existing Similar Programs: Historical enrollments and graduate numbers								
Institution and Program Name	Fall Headcount Enrollment in Program				Number of Graduates From Program (Summer, Fall, Spring)			
	FY__	FY__	FY__	FY__ (most recent)	FY__	FY__	FY__	FY__ (most recent)
BSU	N/A							
ISU	N/A							
UI	N/A							
LCSC	N/A							

14. **Projections for proposed program:** Using the chart below, provide projected enrollments and number of graduates for the proposed program:

Proposed Program: Projected Enrollments and Graduates First Five Years											
Program Name: Graduate Certificate Computer Assisted Language Learning											
Projected Fall Term Headcount Enrollment in Program						Projected Annual Number of Graduates From Program					
FY20	FY21	FY22	FY23	FY24	FY25	FY20 (first year)	FY21	FY22	FY23	FY24	FY25
7	10	12	15	15	15	0	5	7	9	12	12

15. **Describe the methodology for determining enrollment and graduation projections.** Refer to information provided in Question #2 “Need” above. What is the capacity for the program? Describe your recruitment efforts? How did you determine the projected numbers above?

This program is designed for working professionals, so all new students will be assumed to be part-time. Given the proposed course offering rotation, it will be possible to complete the program within 13 months. The first course will be offered in summer 2019, so the first possible graduation would be summer 2020. We anticipate that some students will take courses only during the summer, so not all students enrolled in year 1 will graduate in 13 months. The capacity for the program according to the planned course schedule is 20 students. If demand increases beyond 20 students per year, we will consider the possibility of teaching FORLNG 510 and 520 annually

rather than biennially. The projected numbers are based on current enrollments in FORLNG 410, an undergraduate language teaching methodology course, as well as recent enrollments in professional development workshops offered by the department, which have exceeded 50.

- 16. Minimum Enrollments and Graduates.** Have you determined minimums that the program will need to meet in order to be continued? What are those minimums, what is the logical basis for those minimums, what is the time frame, and what is the action that would result?

The minimum enrollment necessary for the program to support itself through the online fee model is 8 students. This number of students will generate sufficient revenue to pay the instructor a full summer salary according to the standard formula for calculating summer pay for full-time instructors. If, after two years, enrollments are lower than 8 students in these classes and there is insufficient carry-forward to pay the full summer salary for the course, the instructor will be asked to prorate their summer salary or cancel the course. If, after five years, enrollments are regularly insufficient and the instructor chooses to cancel the class rather than prorate on a regular basis, the program will be discontinued.

### **Resources Required for Implementation – fiscal impact and budget**

#### **17. Physical Resources.**

- a. Existing resources.** Describe equipment, space, laboratory instruments, computer(s), or other physical equipment presently available to support the successful implementation of the program.

The department already possesses the computer equipment needed to deliver the new courses for this program.

- b. Impact of new program.** What will be the impact on existing programs of increased use of physical resources by the proposed program? How will the increased use be accommodated?

No impact

- c. Needed resources.** List equipment, space, laboratory instruments, etc., that must be obtained to support the proposed program. Enter the costs of those physical resources into the budget sheet.

None needed.

#### **18. Library resources**

- a. Existing resources and impact of new program.** Evaluate library resources, including personnel and space. Are they adequate for the operation of the present program? Will there be an impact on existing programs of increased library usage caused by the proposed program? For off-campus programs, clearly indicate how the

library resources are to be provided.

Current library resources are adequate. No additional library space or personnel will be required. No impact on existing programs is anticipated. Students will use the library primarily by accessing existing databases.

- b. Needed resources.** What new library resources will be required to ensure successful implementation of the program? Enter the costs of those library resources into the budget sheet.

No new library resources will be required.

## 19. Personnel resources

- a. Needed resources.** Give an overview of the personnel resources that will be needed to implement the program. How many additional sections of existing courses will be needed? Referring to the list of new courses to be created, what instructional capacity will be needed to offer the necessary number of sections?

The two new courses that will be developed for this program, FORLNG 510 and 520, will be offered during the summer, outside of the instructor's 9-month contract. Therefore, the only additional personnel resources needed will be summer salary for the instructor, which will be generated through student fees.

- b. Existing resources.** Describe the existing instructional, support, and administrative resources that can be brought to bear to support the successful implementation of the program.

The Department of World Languages is already a highly functioning unit with sufficient infrastructure to support one additional summer course offering per year. The Department of Educational Technology employs a full-time advisor who will provide advising services in conjunction with World Languages. The EDTECH courses for this program are already offered and can accommodate additional students.

- c. Impact on existing programs.** What will be the impact on existing programs of increased use of existing personnel resources by the proposed program? How will quality and productivity of existing programs be maintained?

The impact on existing resources will be minimal because the additional teaching load will occur outside of the regular 9-month contract. Review of applications will require a limited amount of additional service during the regular academic year. This will be offset by the hire of an additional tenure-line colleague in World Languages in another program, which is already assured for FY20. Thus, there should be no impact on quality or productivity of existing programs.

- d. Needed resources.** List the new personnel that must be hired to support the proposed program. Enter the costs of those personnel resources into the budget sheet.

The instructor who will deliver the two new courses is already employed in the Department of World Languages, so no new hires will be required. They will teach the new courses during the summer, outside of their 9-month contract, and will thus only require summer salary, which will be generated through student fees. The following is the class schedule for 2019-2022:

Summer 2019: FORLNG 510 Summer salary for instructor  
 Summer 2020: FORLNG 520 Summer salary for instructor  
 Summer 2021: FORLNG 510 Summer salary for instructor  
 Summer 2022: FORLNG 520 Summer salary for instructor

EDTECH courses are already offered on a regular basis and will not require additional resources.

## 20. Revenue Sources

- a) **Reallocation of funds:** If funding is to come from the reallocation of existing state appropriated funds, please indicate the sources of the reallocation. What impact will the reallocation of funds in support of the program have on other programs?

N/A

- b) **New appropriation.** If an above Maintenance of Current Operations (MCO) appropriation is required to fund the program, indicate when the institution plans to include the program in the legislative budget request.

N/A

- c) **Non-ongoing sources:**

- i. If the funding is to come from one-time sources such as a donation, indicate the sources of other funding. What are the institution's plans for sustaining the program when that funding ends?

N/A

- ii. Describe the federal grant, other grant(s), special fee arrangements, or contract(s) that will be valid to fund the program. What does the institution propose to do with the program upon termination of those funds?

N/A

- d) **Student Fees:**

- i. If the proposed program is intended to levy any institutional local fees, explain how doing so meets the requirements of Board Policy V.R., 3.b.

The student fee will be in accordance with the Online Program Fee as defined in the Board Policy V.R., 3.a.x. That policy enables the institution to set a price-point appropriate for the program; students will pay an online program fee in lieu of tuition. The price-point for our online program fee will be set at \$478 per credit.

- ii. Provide estimated cost to students and total revenue for self-support programs and for professional fees and other fees anticipated to be requested under Board Policy V.R., if applicable.

For the 12 credits required for completion of the certificate, students will pay an online program fee of \$478 per credit. The total cost of those 12 credits would be \$5,735.

We project that by the fourth year of the program, it will generate 120SCH, which will yield a total revenue of \$57,350.

21. Using the budget template provided by the Office of the State Board of Education, provide the following information:
- Indicate all resources needed including the planned FTE enrollment, projected revenues, and estimated expenditures for the first **four** fiscal years of the program.
  - Include reallocation of existing personnel and resources and anticipated or requested new resources.
  - Second and third year estimates should be in constant dollars.
  - Amounts should reconcile subsequent pages where budget explanations are provided.
  - If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(ies) or party(ies).
  - Provide an explanation of the fiscal impact of any proposed discontinuance to include impacts to faculty (i.e., salary savings, re-assignments).

**INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS  
JUNE 19, 2019**

**Program Resource Requirements.**

- Indicate all resources needed including the planned FTE enrollment, projected revenues, and estimated expenditures for the first **four** fiscal years of the
- Include reallocation of existing personnel and resources and anticipated or requested new resources.
- Second and third year estimates should be in constant dollars.
- Amounts should reconcile subsequent pages where budget explanations are provided.
- If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(ies) or party(ies).
- Provide an explanation of the fiscal impact of any proposed discontinuance to include impacts to faculty (i.e., salary savings, re-assignments).

**I. PLANNED STUDENT ENROLLMENT**

	<b>FY 20</b>		<b>FY 21</b>		<b>FY 22</b>		<b>FY 23</b>	
	FTE	Headcount	FTE	Headcount	FTE	Headcount	FTE	Headcount
A. New enrollments	2.33	7	5.00	10	5.00	10	5.00	10
B. Shifting enrollments			1.17	7	1.67	10	1.67	10
<b>Total Enrollment</b>	2.33	7	6.17	17	6.67	20	6.67	20

**II. REVENUE**

	<b>FY 20</b>		<b>FY 21</b>		<b>FY 22</b>		<b>FY 23</b>	
	On-going	One-time	On-going	One-time	On-going	One-time	On-going	One-time
1. New Appropriated Funding Reques	\$0.00	0	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00
2. Institution Funds								
3. Federal	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00
4. New Tuition Revenues from Increased Enrollments		\$0.00		\$0.00				
5. Student Fees		\$20,073		\$53,049		\$57,350		\$57,350
6. Other (i.e., Gifts)								
<b>Total Revenue</b>	<b>\$0</b>	<b>\$20,073</b>	<b>\$0</b>	<b>\$53,049</b>	<b>\$0</b>	<b>\$57,350</b>	<b>\$0</b>	<b>\$57,350</b>

**Ongoing is defined as ongoing operating budget for the program which will become part of the base.**

**One-time is defined as one-time funding in a fiscal year and not part of the base.**

Budget Notes:

- I.A, B. Calculation of FTE and headcount as follows:  
 >1 FTE = 18 credits  
 >Headcount determined as the distinct number of students in the program that year.
- II.5. Student Fee revenue calculated as Student Credit Hours \* \$478 per credit.

**SUBJECT**

Higher Education Research Council Annual Update

**REFERENCE**

February 2015	The Board approved changes to the Higher Education Research Strategic Plan.
October 2015	The Board was provided the Performance Measure Report for the Higher Education Research Strategic Plan.
December 2016	The Board approved changes to the Higher Education Research Strategic Plan.
February 2017	The Board was provided the annual update of the Higher Education Research Council.
February 2018	The Board was provided the annual update of the Higher Education Research Council.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies and Procedures, Section III.W., Higher Education Research

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 3: EDUCATIONAL ATTAINMENT – Objective A: Higher Level of Educational Attainment

Goal 4: WORKFORCE READINESS – Objective A: Workforce Alignment

**BACKGROUND/DISCUSSION**

Board Policy III.W, Higher Education Research, recognizes the significant role research plays in innovation, economic development and enhanced quality of educational programs. By developing and leveraging the state's unique research expertise and strengths, Idaho's universities and college serve as catalyst to spur the creation of new knowledge, technologies, products and industries. This in turn leads to new advances and opportunities for economic growth.

The Board's Higher Education Research Council (HERC) provides recommendations to the Board regarding statewide collaborative efforts and initiatives to accomplish these goals and objectives. In addition, HERC provides direction for and oversees the use of the limited resources allocated by the Board for higher education research by promoting research activities that will have the greatest beneficial effect on the quality of education and the economy of the state.

The Statewide Strategic Plan for research assists in the identification of research areas that will enhance the economy of Idaho through the collaboration of academia, industry, and government and are in alignment with identified areas of strength at our public universities. Changes to the strategic plan were approved by the Board in December 2016.

**INSTRUCTION, RESEARCH AND STUDENT AFFAIRS**  
**JUNE 19, 2019**

---

The plan represents the role Idaho's research universities play in driving innovation, economic development, and enhancing the quality of educational programs in strategic areas. The plan identifies areas of strength among Idaho's research universities; research challenges and barriers facing the universities; research opportunities Idaho should capitalize upon to further build its research base; goals to build the research pipeline through engaging undergraduate students; and steps for achieving the research vision for Idaho's universities. Additional responsibilities of HERC include the management of the Incubation Fund and HERC IGEM Fund programs, disbursement of Infrastructure Funds and the matching funds for our Idaho EPSCoR Track 1 project (Managing Idaho's Landscapes for Ecosystem Services). Additional responsibilities include receiving annual reporting on the institutions activities in relation to the Center for Advanced Energy Studies (CAES).

Incubation Fund projects are single-year projects that are at the proof-of-concept stage. Through a competitive process, HERC awards funds to those projects where the principal investigator can rapidly move their project into the development stage. IGEM Fund projects are those that are designed to develop spin-off companies. While these awards may be for up to three years, the funding is contingent upon successful progress as determined by HERC at an annual review of the project.

CAES is a research and education consortium between the Idaho National Laboratory, the University of Wyoming, and the three Idaho public research institutions: Boise State University, Idaho State University, and the University of Idaho.

## **IMPACT**

Taking a strategic approach to invest in the state's unique research expertise and strengths will lead to new advances and opportunities for economic growth and enhance Idaho's reputation as a national and international leader in excellence and innovation. This update will provide the Board with the opportunity to provide HERC, through the Council's Chair, input on areas of focus or strategic direction.

## **ATTACHMENTS**

- Attachment 1 – Statewide Strategic Plan for Higher Education Research
- Attachment 2 – FY18 Performance Measure Report
- Attachment 3 – FY18 Research Activity Report
- Attachment 4 – FY18 Infrastructure Summary Report
- Attachment 5 – FY18 Undergraduate Research Report
- Attachment 6 – FY18 Idaho Conference on Undergraduate Research
- Attachment 7 – HERC FY19 Budget Allocation
- Attachment 8 – FY19 IGEM Fund Summaries
- Attachment 9 – 2018 CAES Annual Report
- Attachment 10 – Draft presentation to the Board

**INSTRUCTION, RESEARCH AND STUDENT AFFAIRS**  
**JUNE 19, 2019**

---

**STAFF COMMENTS AND RECOMMENDATIONS**

In addition to the responsibility for recommendations to the Board on the Board's Higher Education Research Strategic plan, HERC is responsible for distributing approximately \$4.2M in funds used for the mission of HERC and to incentivize industry and institution research partnerships. Attachment 2 is the October 2018 performance measure report, Attachment 3, is the research institutions' annual research activity reports, Attachment 4 summarizes the infrastructure funding in FY18, Attachment 5 is the institutions' report on undergraduate research, Attachment 6 is the report on the Idaho Conference on Undergraduate Research, Attachment 7 outlines HERC's FY19 budget allocation, and Attachment 8 are summaries of the projects funded by HERC in FY19. Attachment 9 is the annual report for CAES.

The strategic plan is monitored annually and updated as needed based on the work of HERC and direction from the Board. HERC uses a competitive process for distributing funds from the Incubation Fund category and the HERC IGEN Fund category. All proposals that are considered must be in alignment with the Board's Higher Education Research Strategic Plan.

# HIGHER EDUCATION RESEARCH STRATEGIC PLAN

(2017-2022)

Submitted by: Higher Education Research Council

State Board of Education Approved December 2016

## EXECUTIVE SUMMARY

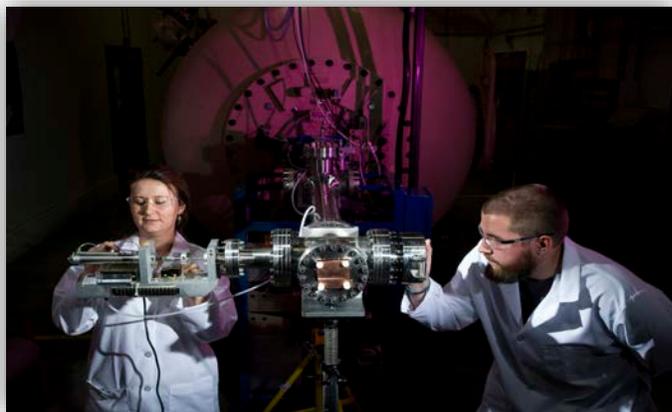

---

Research is being increasingly acknowledged by industry, government and education as a key factor in the future economic vitality of Idaho. The universities and colleges of Idaho's system of higher education understand the need for greater collaboration in order to be competitive in today's global environment. Recognizing the need to focus on and emphasize existing strengths and opportunities in Idaho's research community, the vice presidents for research and economic development developed the following statewide strategic plan for research to ensure the greatest potential for achieving a vital and sustainable research base for Idaho. The strategic plan identifies the key research areas (basic, translational and clinical) that will become the focal points for research and economic development through partnering among academia, industry and government in science, technology, and creative activity.

Research is fundamental to the mission of a university due to its role in knowledge discovery and in providing new ideas for technology commercialization via patents, copyright, licenses and startup companies. University faculty who engage in research and creative activity are at the leading edge of their respective fields. Research also enhances the national reputation of the faculty and the universities. These faculty and their vibrant research programs attract

the best graduate and undergraduate students by providing unique cutting-edge learning experiences in their research laboratories, studios, field sites and classrooms. On the most basic level, and also bolstered through collaborative, interdisciplinary and interprofessional research, such activities strengthen a university's primary product — innovative, well-educated students ready to enter a competitive workforce.

Research is the foundation of a university's economic development role. The influx of research dollars from external grants and contracts creates new jobs at the university, along with the attendant purchases of supplies, services, materials and equipment. The results of the research are new knowledge,

new ideas, and new processes, which lead to patents, startup companies, more efficient businesses as well as a highly trained workforce prepared to tackle 21st century challenges.

Idaho's research universities have strengths and opportunities for economic development in 1) Energy Systems, 2) Natural Resource Utilization and Conservation, 3) Biomedical and Healthcare Sciences, 4) Novel Materials and 5) Systems Engineering and Cybersecurity.

By focusing collaborative efforts in these areas, the research universities will expand research success by:

- Helping Idaho institutions focus on their research strengths;
- Strengthening collaboration among Idaho institutions;
- Creating research and development opportunities that build relationships between universities and the private sector;
- Contributing to the economic development of the State of Idaho;
- Enhancing learning and professional development through research and scholarly activity – also by promoting interdisciplinary and inter-professional research; and
- Building and improving the research infrastructure of Idaho universities to meet current and future research needs.

This statewide Strategic Research Plan for Idaho Higher Education is a tool for identifying and attaining quantifiable goals for research and economic growth and success in Idaho. The plan will be reviewed and updated annually as needed amid the fast-changing pace of research discovery.

## VISION

---

Idaho's public universities will be a catalyst and engine to spur creation of new knowledge, technologies, products and industries that lead to advances and opportunities for economic growth and enhance the quality of life in Idaho and the nation.

## MISSION

---

The research mission for Idaho's universities is to develop a sustainable resource base by:

- Identifying, recruiting and retaining top faculty with expertise in key research areas;
- Building research infrastructure including facilities, instrumentation, connectivity and database systems to support an expanding statewide and national research platform;
- Attracting top-tier students to Idaho universities at the undergraduate and graduate levels and providing outstanding education and research opportunities that will prepare them to excel in future careers;
- Raising awareness among state, national and international constituencies about the research excellence and capabilities of Idaho's universities by developing and implementing targeted outreach, programs and policies; and
- Collaborating with external public, private, state and national entities to further the shared research agenda for the state, thereby promoting economic and workforce development and addressing the needs and challenges of the state, region and nation.

## GOALS AND OBJECTIVES

---

**Goal 1: Increase research at, and collaboration among, Idaho universities and colleges to advance research strengths and opportunities pertaining to critical issues in Idaho, while also providing a vision for national and global impact.**

*Objective 1.A: Ensure growth and sustainability of public university research efforts.*

Performance Measure 1.A.1: Statewide amount of total annual research and development expenditures as reported in the National Science Foundation (NSF) Higher Education Research and Development Survey.

Benchmark: 10% increase per year.

*Objective 1.B: Ensure the growth and sustainability of the existing collaborative research at the Center for Advanced Energy Studies (CAES).*

Performance Measure 1.B.1: Statewide amount of U.S. Department of Energy (DOE) research and development expenditures as reported in the National Science Foundation (NSF) Higher Education Research and Development Survey.

Benchmark: 10% increase per year.

*Objective 1.C: Expand joint research ventures among the state universities.*

Performance Measure 1.C.1: Number of new fully sponsored project proposals submitted by an Idaho University that involve a subaward with another Idaho institution of higher education (in either direction).

Benchmark: 50% increase per year.

Performance Measure 1.C.2: Number of new fully sponsored project awards to an Idaho University that involve a subaward with another Idaho institution of higher education (in either direction). Benchmark: 30% increase per year.

Performance Measure 1.C.3: Establish/fund at least one HERC-directed research project per year which collaborates with one other Idaho university that directly addresses issues of particular importance to the State of Idaho.

Benchmark: 1 per year

**Goal 2: Create research and development opportunities that strengthen the relationship between state universities and the private sector.**

*Objective 2.A: Increase the number of sponsored projects involving the private sector.*

Performance Measure 2.A.1: Number of new sponsored projects involving the private sector.

Benchmark: 50% increase per year.

**Goal 3: Contribute to the economic development of the State of Idaho.**

*Objective 3.A: Increase the amount of university-generated intellectual property introduced into the marketplace.*

Performance Measure 3.A.1: Number of technology transfer agreements (as defined by AUTM [Association of University Technology Managers]).

Benchmark: 15% increase per year.

Performance Measure 3.A.2: Number of invention disclosures (including biomic varieties).

Benchmark: 1 for every \$2M of research expenditures.

Performance Measure: 3.A.3: Amount of licensing revenues.

Benchmark: 10% increase per year.

Performance Measure: 3.A.4: Number of startup companies.

Benchmark: 10% increase per year.

**Goal 4: Enhance learning and professional development through research and scholarly activity.**

*Objective 4.A: Increase the number of university and college students and staff involved in sponsored project activities.*

Performance Measure 4.A.1: Number of undergraduate and graduate students paid from sponsored projects.

Benchmark: 20% increase per year.

Performance Measure 4.A.2: Percentage of baccalaureate students who had a research experience.

Benchmark: 20% increase per year.

Performance Measure 4.A.3: Number of faculty and staff paid from sponsored projects.

Benchmark: 20% increase per year.

## **RESEARCH OPPORTUNITIES**

Idaho's research universities have developed statewide strengths in strategic research areas that have great potential to drive future economic growth and success. The criteria used to select these areas include: number of faculty and qualifications; peer-reviewed publications and impact; infrastructure (facilities, equipment, information technology, staff); external grant and contract funding; academic programs; student involvement; potential benefit to the State of Idaho; and technology transfer activity, including patents, licenses, and startup companies. By focusing collective research efforts and resources in these areas, the universities will be on the most efficient and effective route to research success and state-wide economic development. These high impact areas include 1) Energy Systems, 2) Natural Resource Utilization and Conservation, 3) Biomedical and Healthcare Sciences, 4) Novel Materials, and 5) Systems Engineering and Cybersecurity.

*Energy Systems:* Energy is a critical driver of any economy. The projected increases in the population of the world and increases in the standard of living will produce severe strains on the ability to meet the demands of the next few decades. In addition, finite reserves of fossil fuels and pollution from their combustion requires that alternative sources of energy production be developed. The combination of natural resources in Idaho and presence of the Idaho National Laboratory makes energy a natural area of emphasis. Indeed, the three universities with research capabilities already have extensive research projects in this area. The Center for Advanced Energy Studies (CAES) is an example of the significant investment the three Idaho universities, the University of Wyoming, and the Idaho National Laboratory have made to develop expertise in nuclear science and engineering, materials science and engineering, energy systems design and analysis, fossil carbon conversion, geological systems and applications, energy policy and cybersecurity, and environmental and resource sustainability. Further growth in these areas not only takes advantage of the strong base but strongly supports a positive economic impact through new markets for new product development

*Natural Resource Utilization and Conservation:* In the broad field of natural resource utilization and conservation, Idaho's universities have expertise in water resources, wildfire management and restoration, agriculture, forestry, recreation, and geophysics and geochemical detection, geographical information systems, and monitoring of groundwater pollutants. For example, university geologists, ecologists, and policy experts are collaborating on broad-ranging research projects that examine and predict the impact of climate change on Idaho's water resources. As water is essential to agriculture, recreation, the ecosystem, and human health, the universities have research strength in an area of tremendous societal and economic impact. Agriculture remains an important part of the economy of Idaho. Development of new biomic varieties with improved resistance to disease and climate change remain an area of importance as does the development of new feeds for domestic fish production. The often competing demands for preservation and exploitation put on the environment require understanding of the various ecosystems in the state and region as well as societal, human health, and

economic impacts of policy decisions. Recent national research imperatives, as particularly captured in National Science Foundation's Innovation at the Nexus of Food, Energy, and Water Systems (INFEWS) foundation-wide program and the Department of Energy's report Water-Energy Nexus: Challenges and Opportunities increasingly require multi-sectoral, multi-disciplinary approaches to problems in natural resource utilization and conservation. The depth and breadth of relevant research expertise in the biophysical, rural health and social science fields within Idaho's universities underscores an opportunity that a national emphasis on food, energy, and water security provides. Provided that enhanced coordination and collaboration between Idaho's universities can be successfully executed, we are particularly well-placed to exhibit national and international leadership at the nexus of food, energy, water system research. The future economic success of the state will rely on a deep understanding of these processes.

*Biomedical and Healthcare Sciences:* Idaho's universities have well-established research programs in selected areas of biological and biomedical sciences. University microbiologists and informatics experts, for example, study real-time change in pathogenic microorganisms that enable them to become resistant to drugs and chemical toxins thus resulting in worsening human disease and mortality rates. These effects are not restricted to humans, domestic and wild animals as well as food plants and trees are experiencing the same phenomena. Also, weeds are becoming resistant to herbicides. These phenomena are having a significant negative impact on Idaho's agriculture and forests. Further stress is being put on these important commercial sectors through climate variability. Research in these areas is critical for preserving important economic sectors of Idaho's economy while addressing future global needs.

The public health infrastructure in rural Idaho is not well understood but is potentially the most fragile aspect of the state's health care system. The rural environment, especially typical in Idaho where agriculture, manufacturing, and fishing are important or dominant parts of the economy, presents extraordinary threats to health. Agriculture brings the use of pesticides and herbicides as well as heavy and potentially dangerous machinery. Manufacturing – depending on the type – is a consistently hazardous industry, and employees involved in fishing and forestry are at much higher risks of trauma. Healthcare and in particular a focus on rural health, provides significant opportunities for economic development in Idaho. Partnerships with private entities in the healthcare industry, funding through the National Institutes of Health and other federal agencies utilize the natural laboratory of Idaho's rural population. Idaho's universities' contributions towards this emerging area of scholarship will add to the global competitiveness of the United States and the State.

*Novel Materials:* The global materials industry is worth an estimated \$550 billion, conservatively. Materials revolutionize our lives by offering advanced performance and new possibilities for design and usage. For example, the market for biocompatible materials has grown from a few to \$60B in the past decade. Market size is growing for materials in emerging areas such photonic materials, electronic and dielectric materials, functional coatings, and green materials. Materials research in Idaho is conducted by a wide range of scientists in diverse fields. Across the state, faculty members in Biology, Chemistry, Geosciences, Physics, Electrical Engineering, Mechanical Engineering ,

Nuclear Engineering and Materials Science and Engineering conduct research on improving and developing new materials. Current materials researchers in Idaho cover a broad spectrum of specializations, including semiconductor device reliability, microelectronic packaging, shape memory alloys, DNA machinery, environmental degradation, materials for extreme environments, biomaterials and bio-machinery, materials characterization, and materials modeling. Nanoscale materials and devices, functional materials and their uses and materials for energy applications are a focus of research throughout the state. These areas of research are highly synergistic with local industries and the Idaho National Laboratory (INL). Access to materials characterization equipment and processing laboratories has resulted in collaborations with small businesses and start-up companies.

*Systems Engineering and Cybersecurity:* Device control, information management, and cybersecurity are an essential part of 21<sup>st</sup> century life and, therefore, are an important part of educational requirements. For instance, large amounts of sensitive data are collected, processed, and stored electronically but must be accessed and moved in order to have any impact. In fact, many systems are computer controlled through networks. These include such things as the electric transmission grid and transportation in major cities. The universities are beginning to develop research expertise in software development and data management lifecycle design and operations and secure and dependable system design and operations. This area provides a significant area of opportunity for positive economic impact in Idaho, partnerships with the Idaho National Laboratory, and in improving the global competitiveness of the United States. There are already a significant number of firms in Idaho whose interests are in software development for device control, information management and processing. In addition, many of the major research projects being undertaken in the region by various state and federal agencies as well as the universities require the handling of significant amounts of data in a secure and dependable fashion. Currently, research funding in the universities from private and governmental sources is limited by the number of qualified personnel. In addition, within Idaho there is a high demand for graduates at all levels in computer science, hence workforce development in these areas should be a matter of urgency.

## **EXTERNAL FACTORS: IDAHO RESEARCH ADVANTAGES AND CHALLENGES**

There are unique advantages and challenges to research in Idaho. This document seeks to provide guidance on building upon the advantages present in Idaho and address the challenges through the goals in this strategic plan.

### Research Advantages

*The Idaho National Laboratory (INL) and the Center for Advanced Energy Studies:* Idaho is fortunate to be home to the Idaho National Laboratory, one of only 17 U.S. Department of Energy national laboratories in the U.S. The INL's unique history and expertise in nuclear energy, environmental sciences and engineering, alternative forms

of energy, and biological and geological sciences and related fields provides an excellent opportunity for research collaboration with Idaho's university faculty in the sciences, engineering, business and other fields.

The Center for Advanced Energy Studies (CAES), established at the request of the U.S. Department of Energy, is a public-private partnership that includes Idaho's research universities (Boise State University, Idaho State University, and the University of Idaho), the University of Wyoming, and the Battelle Energy Alliance (BEA), which manages the INL. The CAES partners work together to create unique educational and research opportunities that blend the talents and capabilities of Idaho's universities and the INL. A 55,000 square-foot research facility in Idaho Falls supports the CAES energy mission with laboratory space and equipment for students, faculty, and INL staff in collaborative research projects. The State of Idaho invests \$3M per year in direct support of the three Idaho research universities.

*Natural Resources:* Idaho's beautiful natural resources are well known to fishermen, hunters, skiers, and other outdoor enthusiasts. Through its rivers, forests, wildlife, geological formations, and rangelands, Idaho itself is a unique natural laboratory for geological, ecological, and forestry studies. Idaho is home to some of the largest tracts of remote wilderness in the lower 48 states. In addition, the proximity of Yellowstone National Park and the Great Salt Lake provide additional one of a kind opportunities for ecology and geology research.

*Small Population:* Idaho's relatively small population of 1.6 million people enables every group in the state to be included in research surveys, providing more accurate information than a sampling of only some groups.

*Intrastate Networks:* The existing networks within the state, including agricultural extension services and rural health networks, provide a foundation for collecting research data from across the state, and rapidly implementing new policies and practices as a result of research discoveries.

### Research Challenges

The goals set forth in this strategic plan are specifically designed to address challenges in Idaho. These challenges are identified below and include a description of the challenge and the goal from this strategic plan that addresses that specific challenge.

*Lack of Coordination Among Universities In Advancing Research and Economic Development (technology transfer):* By and large the research universities have not coordinated and shared their technology transfer and economic development activities among themselves. This not only decreases each university's competitiveness at the national and state level but also increases the costs for achieving a particular goal. There is some redundancy in programs, services and infrastructure between the universities. This duplication both limits the success that any one university can achieve and increases the cost.

*Historical Competition Between Universities:* One of the greatest problems with growing the research and economic development enterprise within the Idaho university arena has been the competitiveness between research universities. This problem existed at all levels within the universities themselves, extended through university administration to the state level, and was even prevalent in the press. While competition between the universities is to be expected when all are competing for a finite pot of money within the state and is even healthy at some level, the level of competition was counterproductive. The real competition that Idaho universities face is other universities in the United States when it comes to research dollars and attracting faculty and students. Economic development is also not a competition between the state universities but rather a competition with other states.

Goal 1 is designed to remedy these two challenges by “increas(ing) research at, and collaboration among Idaho universities and colleges to advance research strengths and opportunities pertaining to critical issues in Idaho, while also providing a vision for national and global impact.”

*Competition from Other Universities:* In research, university faculty competes nationally for grant funds from federal agencies such as the National Science Foundation, Department of Energy, and the Department of Health and Human Services. Many other states’ universities are well ahead of Idaho’s universities in terms of state funding per student, patent royalty income, endowments, etc., and are able to move ahead at a faster pace, leaving Idaho universities further behind as time goes on.

Goals 1 and 2 are designed to make Idaho’s research universities more competitive nationally and globally through collaboration with each other and by “(strengthening) the relationship between state universities and the private sector.”

*University Culture:* Each of Idaho’s research universities aspires to greater levels of achievement in research and creative activity, yet many faculty at each of the universities are not fully engaged on a national level in their respective fields. This is changing for the better under new leadership and with new research-active faculty hires at each institution, but these cultural differences remain, resulting in discomfort with change aimed at making the universities more nationally competitive.

While Goal 1 urges the researchers at Idaho’s universities to keep a national and global vision for their research, Goal 4 aims to enhance the research capabilities of faculty by “(enhancing) learning and professional development.”

*Private Sector Support:* Idaho has very little high-technology industry within its borders. This reduces the potential for developing an applied research initiative within the universities that, in many states, provides one important arm of economic development and technology transfer. This also means that it is much harder to develop those private/public partnerships that provide the universities with additional capital to construct research and technology transfer facilities.

The private sector plays a critical role in research. Goal 2 states that we will “create research and development opportunities that strengthen the relationship between state universities and the private sector.”

*Fragmented Economic Development Initiatives:* There are seemingly too many economic development initiatives in Idaho and they are not well coordinated. It is imperative that state, university, and community initiatives work together toward common and agreed to goals. As it is, little progress is being made towards developing an economic strategy for the state that includes the research universities and little money has been secured to drive the economic development process. In fact, it is not uncommon to find that different entities in Idaho are competing against each other.

Positive economic impact is the result of well-organized and collaborative research. It requires strategic planning and execution. Goal 3 indicates that Idaho’s research universities focus on “(contributing) to the positive economic impact of the State of Idaho.”

### Conclusion

This statewide Strategic Research Plan for Idaho Higher Education provides a framework to mitigate these external challenges and help Idaho institutions continue to focus on their research strengths. Overcoming the challenges discussed in this document will require enhanced cooperation between the functional groups at each Idaho university, fueled by a desire to work together towards the common goal of improving Idaho’s economy for future generations.

Number of patents	7	7	3	1	1	10% annual increase
Number of invention disclosures (including plant varieties)	18	14	18	21	24	10% annual increase

**Performance Measure Explanatory Notes:**

Note A - Activity with private sector/industry - (a) is funding from private sector, and (b) is funding from private sector, federal flow through.

Note B - Due to process improvement, previous years have been corrected to reflect correct figures.

Note C - In FY13 to FY15 we had to report the number of internships. Starting in FY16 we had to report % of internships so provided the number and % for FY16

**NOTE:** The glassblower, Mass Spectrometry Core and the Optical Imaging Core provide services to research laboratories, which affects research activities of students, faculty and staff, including publications, presentations, and grants. \$8,778 was spent for security system upgrade for the Hagerman Fish Culture Experiment Station that houses UI's Aquaculture Research Institute, Columbia River Intertribal Fish Commission, and US Department of Agriculture's Agricultural Research Service. The 15-year old security technology was acting erratically and was locking and unlocking doors outside of the normal schedule creating security concerns for staff, infrastructure, and equipment. \$9,647 was partial support to build a pilot plant to extract biopesticides from plant residues was constructed to provide material for determining efficacy on eradicating nematodes and controlling weeds. \$8,000 was provided for two faculty projects. The first project acquired and cleaned data for use with topic modeling to prepare for various data visualizations to be used in a public-facing website. The second project collected oral histories with the Gay Rodeo to create a curated digital exhibit highlighting the points of convergence and divergence in the experiences of LGBTQ+ westerners.

# Higher Education Research Council Fellowship Boise State University Final Report

## Academic Year 2017-18

Donna Llewellyn, Executive Director, Institute for STEM & Diversity Initiatives  
Catherine Bates, STEM Diversity Coordinator, Institute for STEM & Diversity Initiatives

## Introduction

The Institute for STEM & Diversity Initiatives administered the HERC Fellowship at Boise State University for Fall 2017 and Spring 2018. All STEM department chairs were notified of the HERC Research Fellowship application. The application was also disseminated to all STEM undergraduate students. We changed the process this past year to allow for joint faculty and student applications. This change requires students to identify a research faculty to work with and their faculty mentor must nominate them for the fellowship. We had 103 students apply for Fall 2017 and Spring 2018 positions. For Fall 2017, 9 students were awarded the HERC fellowship, and 8 students were awarded the fellowship in the Spring semester.

We saw an increase in the number of underrepresented minority HERC fellows to 41% of the awardees and the majority of the recipients were first-time student researchers. HERC fellows presented final research projects at either the Undergraduate Research Conference or the Idaho Conference of Undergraduate Research at Boise State University. One fellow presented her research at the Northwest Scientific Association in Olympia, Washington in April. Another student disseminated his work at the Annual Biophysical Society Meeting. And finally, 10 students attended the Pacific Sociological Association annual conference in Long Beach, CA. Students and faculty mentors are from a variety of disciplines (please see below).

On behalf of the Institute for STEM and Diversity Initiatives, we thank the Higher Education Research Council for their generous support in helping build meaningful high impact practices for our undergraduate students.

## HERC Funding:

The Higher Education Research Council provided \$55,000 to support undergraduate students in their pursuit of faculty mentor supported undergraduate research experience. Please see table below of how stipends and travel awards were dispersed.

<b>Stipends</b>	<b>Amount</b>
Fall 2017 Research Stipends	\$27,000
Spring 2018 Research Stipends	\$24,000*
<b>Student Travel to Professional Conference</b>	<b>Amount</b>
Supplemental travel to National Biomedical Engineering Society (1 student)	\$600
Pacific Sociological Assoc. Conference (10 students)	\$3,900
<b>Total</b>	<b>\$55,500</b>

\*The Institute for STEM & Diversity contributed \$500 additional research dollars for Spring 2018

**Demographics of Fall 2017 and Spring 2018 Undergraduate Research Fellows**

**Fall 2017 HERC Research Fellow Student Abstracts:****Omar Betancourt****Faculty Mentor: Dr. Jim Browning, Department of Mechanical & Biomedical Engineering**

Research Title: Development of a Phase-Controlled Magnetron Experimental Fixtures

Magnetrons are microwave vacuum electron devices that use the interaction of electrons with a slow wave circuit in a crossed electric and magnetic field. For most magnetrons, phase is almost never preserved, which makes it difficult to synchronize an array of magnetrons to achieve higher total power output. This research is focused on developing a cavity magnetron by utilizing gated field emission arrays. The electron injection is controlled by the gate field emitter arrays (GFEA) in order to control the phase of the device. An experimental system is being designed and fabricated to demonstrate the phase control concept using a commercially available cooker magnetron as the test device. It has the potential to improve radar systems, medical imaging, particle accelerators, etc.

**Donato Callahan****Faculty Mentor: Dr. Sondra Miller, Department of Civil Engineering**

Research Title: Air Quality and Particulate Matter

Particulate matter (PM) can be a combination of solids and liquids including dust, soot, smoke and sand. Fine particles--defined as having a diameter less than 2.5 microns, PM2.5--pose varying negative health and ecologic effects. These in turn can have economic effects. Adverse health effects of PM2.5--which are easily inhaled and get trapped deep in human lungs--can cause an irregular heartbeat, decrease lung function, trigger asthma symptoms, cause non-fatal cardiac arrest, and lead to death for those with pre-existing respiratory issues. Ecologic effects include changes in freshwater pH, nutrient imbalances, and loss of ecosystem diversity. This research focused on understanding the effects of air quality--specifically PM--on human health, ecologic, and economic effects.

**Vanessa Campfield****Faculty Mentor: Dr. Owen McDougal, Department of Chemistry**

Research Title: Isolation, Purification and Characterization of Novel Steroidal Alkaloids from *Veratrum californicum*

Cyclopamine and other steroidal alkaloids found in *Veratrum californicum* are known teratogens which inhibit the Sonic hedgehog (Shh) signaling pathway which has resulted in embryo deformities including but not limited to cyclopia; as observed in lambs. This pathway is also active in over 20 types of cancer; allowing overproduction of cancerous cells and tumor growth. Examination and analysis of alkaloid extractions from *Veratrum californicum* has confirmed various abundancies of cyclopamine and other alkaloids in different sections of the plant; with the highest abundance residing in the root and rhizome section. Observation of bioactivity through the use of Shh Light II cells shows the greatest pathway inhibition is found from the root and rhizome portion of the plant compared to the leaf and stem portions. Further analysis of the root and rhizome extract by High Pressure Liquid Chromatography and MS has verified the presence of uncharacterized, novel compounds. This project concentrates on extracting, isolating and characterizing these novel compounds followed by testing bioactivity levels of the Shh pathway for synergistic effects caused by various combinations of novel compounds with cyclopamine.

**Andrea Carrizales**

**Faculty Mentor: Dr. Gunes Uzer,**

Research Title: Effects of Lamin A/C Depletion on Nuclear Structure and LINC Complex

It is hypothesized that silencing the lamin A/C gene, LMNA, will caused deformation in the nucleus of a mammalian cell. In order to test this, we transfected Mesenchymal Stem Cells with an siRNA transfection reagent and used fluorescence imaging to analyze the results. The results showed that silencing LMNA affects both Nesprin 1 and Sun 1 proteins, which are part of the LINC complex, and changes nuclear shape.

**Karen Fulk**

**Faculty Mentor: Dr. John Ziker, Department of Anthropology**

Research Title: Food Sharing in Siberia: Social Network Analyses Using Frequencies of Transfers Versus Nutritional Values and Quantities Shared

Informal household networks are utilized for tundra foods distribution in Ust'-Avam, Taimyr Region, Russia. Most families in Ust'-Avam rely upon subsistence for their livelihood, chiefly hunting, fishing and trapping. Variation in household ability and household interest in subsistence activities create inequalities in local food production. To adapt to subsistence challenges, food exchanges occur between kin and neighbors, thereby redistributing foods and decreasing food inequalities between households. These exchanges are vital to buffer consumption risk, especially in particularly vulnerable households. A focal sample of ten women in the community provides the core of a food sharing network of 51 households. The food transfers are portions of meat and fish transferred to the women from primary procurers or their intermediaries, as well as the women's sharing of these foods to additional households. Using the results of social network analysis, we consider the frequencies of these transfers, and the quantity and nutritional content (total calories, protein and fat content values) and calculated monetary valuations of exchanged items. In considering who gives what to whom, this research provides yet another opportunity to examine

relevant variables and their effects within the widely debated explanatory hypotheses of food sharing.

**Joel Johnson**

**Faculty Mentor: Dr. Jodi Brandt, Department of Human Environment Systems**

Research title: Statistical Analysis of Idaho Counties Through USDA Census and Survey Data

The management of public lands has widespread implications for the regions they influence. For National Forests, management plans are developed to cover 30 year periods, and the current plan for the Salmon-Challis National Forest (SCNF) is being updated in accordance with the 2012 Planning Rule. The revisions are being made with a focus on ecological, social and economic sustainability. In this study, we examine three counties within SCNF area-of-influence, and compare them with four similar counties outside the SCNF region. We track how farm sizes change over time through differences in total cattle, average herd size, and the total number of farms. We used data compiled by the USDA Census and Survey programs at 5 years intervals from 1978 through 2012 and analyzed trends using repeat-measured ANOVA. Results showed that the number of cattle and average herd size declined over time ( $p < 0.001$ ) but we found no significant difference in the number of farms over time ( $p = 0.37$ ). These results will inform analyses of the effect of changing National Forest management, i.e., allowable grazing, on the ranching sector in the Salmon-Challis area and provide information for decisions on the management level.

**Cybil Lesbyn**

**Faculty Mentor: Dr. Daniel Fologea, Department of Physics**

Research Title: Models of intercellular communication through passive propagation of electrical signals

Continuous communication between cells is essential for creating and maintaining fundamental functionalities of cellular assemblies. Such fast communication pathways are controlled by chemical and physical signals that employ intra and extra cellular components of only closest neighbors. However, electrical signals may quickly propagate for long distances through extra cellular environments owing to their particular electrical properties. To explore such possibilities, we modeled the cellular environment by considering a connected network of passive circuit elements composed of capacitive and resistive elements. The electrical model was tested in simulations to investigate the passive propagation of electrical signals in response to point stimulations consisting in local membrane depolarization of single cells. Our results suggest that physiologically-relevant electrical signals may propagate long distances in a short time, which may provide passive pathways for inter-cellular communication. In accordance to the electrical model, these communication pathways are equally effective for both excitable and non-excitable cells. Consequently, passive communication may substantially contribute to electrical-based communication in brain and muscles. In addition, the model may be expanded to investigate signaling between non-excitable cells such as bacteria, which could be further exploited to better understand the role played by long-distance electrical signaling in bacterial colonization and biofilm formation.

**Erika Petzinger**

**Faculty Mentor: Dr. Marcelo Serpe, Department of Biological Sciences**

Research Title: Identification of a Dark Septate Fungus That Forms a Symbiotic Association with *Artemisia Tridentata*

In previous work, we isolated a dark septate fungus from *Artemisia tridentata* (big sagebrush) roots. In this study, we used partial sequences from three genes to identify this fungus. Based on phylogenetic analyses, the isolated fungus appears to be a non-described species within the *Darksidea* genus or a closely related sister group. The *Darksidea* is within the family Lentitheciaceae in the Pleosporales and the Ascomycota. To investigate the nature of the symbiotic association, we analyzed the root tissues colonized by the fungus and the effect of inoculation on seedling growth under *in vitro* conditions and in soil. The hyphae of the fungus penetrated the epidermis, cortex, and vascular cylinder and were detected in between and inside root cells. After two month of growth *in vitro*, non-inoculated and inoculated seedlings had similar root lengths and fresh weight. However, dry weight was higher in non-inoculated than inoculated seedlings ( $p < 0.05$ ). In soil, inoculation did not affect the fresh weight of seedlings. Based on the results *in vitro* and in soil, the effect of the isolated fungus on sagebrush seedlings was somewhat affected by the growing environment and ranged from slightly parasitic to commensalistic.

Research Title: Analyzing Variability in Exoplanetary Eclipses

A transit occurs when a planet passes in front of its star as seen from Earth, which causes the amount of light we observe from the star to drop while the planet is crossing the face of the star. A secondary eclipse occurs when the planet passes behind the star, during which time the star blocks out light from the planet. Studying observations from NASA's Kepler Mission of exoplanetary transits and eclipses allows us to study the variability of an eclipse from one transit to another. Variability in an eclipse could result from variations of atmospheric condensates or volcanic activity on the planet. The Kepler Science Team has provided a Python package called lightkurve. This package allows data from the Kepler, K2, and TESS missions to be easily analyzed and plotted. The lightkurve package can be used to plot the data for the exoplanets that we are targeting in our study. In this presentation, we discuss our work looking for variability in the eclipses of two short period planets: HAT-P-7b, a hot Jupiter orbiting an F8 star.

Research Title: Manipulating Cartilage Geometry on a Three-Dimensional Model of the Knee Joint

Computer modeling is increasingly prevalent in the medical field. In the Computational Biosciences Lab (CBL), we generate 3D models from magnetic resonance (MR) images to address clinical issues on a subject-specific basis. Within the knee joint, cartilage tissue lines the surfaces of bones and must be reproduced accurately in our simulations to appropriately capture load transfer and cartilage

stresses. Using computer modeling programs, we can create a 3D model and transform it into a mesh. The cartilage mesh comprised of a series of nodes and elements. By identifying the nodes on the edges of the cartilage, the geometry of these nodes can then be manipulated to curve down towards the bone. The resulting cartilage mesh typically has a sharp angular edge, which can cause significant mesh distortion. When the cartilage is loaded near these regions, the distorted edge causes artificial peaks in stress. Our goal was to replace the manual process with an automated way to create a more natural curve to the cartilage as it transitions into the bone. This will be used in ongoing research in the CBL to observe the impact of injuries on the knee and evaluate the efficiency of surgical methods to these injuries.

Research Title: Ovarian Cancer and the Effects of Inflammatory Cytokines

Cyclopamine is a steroidal alkaloid in *Veratrum californicum* that is a teratogen. Steroidal alkaloids from this plant have been shown to inhibit the Sonic hedgehog (Shh) signaling pathway, resulting in embryo deformities including cyclopia in lambs. The Shh signaling pathway is prevalent in over 20 types of cancer, and contributes to the overproduction of cancerous cells and tumor growth. Qualitative and quantitative analysis of *Veratrum californicum* alkaloids has confirmed various abundancies of cyclopamine and other alkaloids in different sections of the plant (leaf, stem, root/rhizome), with the highest amount of alkaloid present in the root and rhizome. Shh Light II cells provide a luminescence assay to assess the degree of Shh pathway inhibition by chemical agents. This assay was used to evaluate alkaloid ratios by plant part. The results showed the greatest pathway inhibition was achieved by the ratio of steroidal alkaloids consistent with that derived from the root and rhizome portion of the plant, followed by stem, and finally leaf. Further analysis of the root and rhizome extract by high pressure liquid chromatography and mass spectrometry has verified the presence of uncharacterized, novel alkaloids that may be potent Shh signaling pathway antagonists. The focus of the current work is to extract, isolate and characterize novel alkaloids and evaluate their bioactivity using the Shh Light II cell assay.

Research Title: Speech Characterization Using a Single Memristor

The ability of a memristor device to uniquely fingerprint a spoken word was investigated. Methods of applying an audio voice signal to the memristor were explored. The most promising method found to date is described in this work. It was shown that even words that sound very similar have characteristics in their audio signal that change the memristor response.

Research Title: Exploring The Ideal Excipients for a Chimeric Vaccine Against Bovine Mastitis

*Staphylococcus aureus* is a leading cause of mastitis, or infections in the udder, in dairy cows. Mastitis causes significant financial losses for the dairy industry, and with the rapid increase of antibiotic

resistant bacteria, such as Methicillin-resistant *Staphylococcus aureus* (MRSA), it is vital to create alternative ways to fight these pathogens. Our lab is developing and testing a mucosal chimeric vaccine against bovine mastitis containing two surface antigens from *S. aureus*. The genes for the adhesins IsdA and ClfA were cloned with those for *Vibrio cholerae* cholera toxin A2/B (CTA2/B) to create the intranasally administered vaccine. The purification of this vaccine was scaled up using 1L culture volumes and D-galactose agarose affinity purification. Purified proteins were analyzed by SDS-PAGE and bicinchoninic (BCA) assay. Currently we have produced over 15 mg of vaccine for use in future bovine vaccine challenge studies. In addition, lyophilization is a well-recognized method in the pharmaceutical industry used to store biologically active drugs that are not stable in solution, or to prolong the shelf-lives of drugs. Excipients can have a great influence on performance and stability of lyophilized drugs therefore, selecting the right stabilizers is very important. IsdA chimera was lyophilized using a variety of excipients and stored at different temperatures. The stability was analyzed using native gel electrophoresis and BCA assay.

**Silvia Perritte****Faculty Mentor: Dr. Nancy Glenn, Department of Geosciences**

Research Title: The use of Survey 123 to improve field data collection for IDARNG

In-situ data are the cornerstone of ecological scientific research. Ecological data collected in the field are used to analyze, identify, and validate research. Given the importance of the data, special care must be taken to ensure complete and accurate measurements. The necessary attention to detail makes field data collection very time consuming. In addition, field data can consist of separate components including paper forms, GPS, and images. Survey 123, a field data collection software developed by ESRI, offers a unique way to collect complete and detailed field data with spatial information in a data survey template. Survey 123, for ArcGIS, is a simple form-centric field data collection designed to use for spatial data, survey questions, and statistics. For this study I consolidated 14 surveys for the Idaho Army National Guard (IDARNG) Environmental Division into one master survey. My work will improve the organization and efficiency of field data collection techniques for IDARNG.

**Sadie Ranck****Faculty Mentor: Dr. Julie Heath, Department of Biological Sciences**

Research Title: Heritability of Telomere Length in American Kestrels

The development of advanced nanoelectronic devices based on emergent 2D nanomaterials has the potential to impact energy consumption in cloud computing, reduce harm to human and planetary health, and facilitate economic development through new device design and nanomanufacturing techniques. The unique physical properties of 2D materials make them attractive for energy-related applications such as low-power nanoelectronics, efficient thermoelectrics, novel energy storage devices, and catalysts for CO<sub>2</sub> conversion. In particular, 2D transition metal dichalcogenides (TMDs) have direct band gaps, high carrier mobility, and can be synthesized on, or transferred to, a variety of substrates, making them ideal 2D material candidates for flexible optoelectronics. The research presented here focuses on the development of an electrical thermometry platform to characterize thermal transport in 2D TMDs and their heterostructures. This research will develop a

greater understanding of the nucleation, growth, and heat carrying properties of these materials, which are currently on the ITRS roadmap as a potential replacement for Silicon.

**Faculty Mentor: Dr. Jen Pierce, Department of Geosciences**

Research Title: Structure from Motion as a Viable Tool for Quantifying Diffuse Post-Fire Erosion

Idaho's 2016 Pioneer Fire burned approximately 188,000 acres in the Boise National Forest. Post-wildfire landscapes experience increased erosion with peak erosion rates occurring in the first year following the fire (Robichaud et al., 2016). Quantifying the volume of sediment removed during this vulnerable time period is challenging and has largely consisted of determining minimum sediment volumes from debris flow deposition. Few studies have included diffuse erosion from the hillslopes due to the difficult nature of obtaining such measurements.

As part of a larger investigation of total post-Pioneer Fire erosion in a catchment of Clear Creek, we seek to develop a method for determining the volume of material removed from the hillslope by diffuse mechanisms. Using mm-scale digital surface models (DSMs) constructed with handheld Structure from Motion (SfM) photogrammetry, we model pre-erosion surfaces for 12 randomly selected 1 m<sup>2</sup> hillslope plots. The volume of eroded sediment for each plot is derived from the difference between the pre-erosion model and the post-erosion DSM. Our results suggest that low-cost SfM photogrammetry is an appropriate tool for quantitative analysis of diffuse hillslope erosion following wildfire. However, additional research is required to fully develop the methodology for pre-erosion surface modeling.

Research Title: Fabric Analysis of Unconsolidated Pyroclastic Density Current Deposits

Pyroclastic density currents (PDCs) are gravity-driven mixtures of hot volcanic tephra and gas. These events are difficult to analyze in real time. Therefore, we must use their deposits to help better understand their flow dynamics. Previous work proves that clast orientation and deposit fabric can provide information about flow processes. We use 19 samples taken from unconsolidated PDC deposits generated in the 1980 Mount St. Helens eruption to constrain PDC flow direction and dynamics. Prior to fabric analysis, these samples were lithified using a sodium silicate vacuum impregnation technique. Then, the samples were cut in three planes: horizontal (map view), parallel to flow, and perpendicular to flow. These faces were analyzed using software that automatically measures particle orientation and produces statistics that can help demonstrate fabric strength. Horizontal plane analyses have produced orientations that correlate well with previous estimations of Mount St. Helens PDC flow directions. This study demonstrates that these techniques can be used to help constrain flow direction in outcrops without contextual information. We are hopeful that continued analyses will produce information on particle transport mechanisms and further insights into flow rheology.

RE: Strategic Initiative, FY 2018 report

Idaho State University would like to thank the State of Idaho Board of Education for the award of Strategic Initiatives for \$55,000.

The funds were instrumental in continuing our Undergraduate STEM Research and Mentoring program. Students were awarded funds in two categories: for research projects, and to attend a professional conference to present their research project.

**Research Projects:**

We were able to fund 24 undergraduate student projects with this money. The application process for the undergraduate research awards involved faculty and student. The proposal provided an outline of the STEM research, the budget, and the purpose of the project and how the faculty would mentor the undergraduate research students. One of the deciding factors in awarding funds is the mentoring plan provided by the faculty. Being mentored by a scientist is as important as doing the science. We wanted to ensure that students had a well-rounded experience. The projects total divided into semester where some students had both a summer and fall project. The students reported on how the funds were of benefit to them academically, personally, continuing on to an advanced degree, and for future career choice. These project reports are included in this report.

**Travel awards to attend a Conference:**

We gave out a total of 12 travel grants. Students used this money to travel to professional conferences, as a strongly suggested requirement of receiving the funds was presenting at a conference. Attending a professional conference gives students an opportunity to learn how to present research and to network with professionals in their field.

As part of the application process for travel funds, we created an essay for the students that asked three questions. The purpose of this was to give us some information about mentoring directly from the students and not what the Office for Research or the Professor believe mentoring is or should be. The first question was "Do you have a research mentor?" The second question was "What makes a good research mentor?" The last and third question asked "What type of research mentoring is the most beneficial to you, and why?" The last two questions had a minimum word count of 100 words but the majority of answers were more than two hundred and most were over 300 words. This leads us to believe that students know what mentoring is and want us to know what helps them. That is a very positive indication that students value the undergraduate program and research mentors. We will use these comments as we develop our program in undergraduate research.

**Budget:**

The amount of funding was \$55,000.00. All funds were fully utilized with \$55,000 in expenses being covered by the State Board of Education funds and approximately \$920 in additional expenses that were covered by the Office for Research. Grants of \$3,000 were provided that paid student wages and materials and supplies for research projects. Travel costs were included if that was needed for the research (for example, going into the field).

ISU Office for Research also covered travel costs for several students who were not eligible for these funds because of the discipline in which they are studying. There is a definite need for research funds to help all our undergraduates.

## Executive Summary

Undergraduate research is recognized as a high-impact educational practice that increases the rates of student retention and engagement. At the University of Idaho, it is practiced throughout all units on campus and it is centrally placed in the institution's strategic plan. The Office of Undergraduate Research is taking the lead in enabling research opportunities for undergraduates at UI. It manages various competitive student grant programs that directly support student research.

During AY 2017-18, generous funding from the State Board of Education permitted UI to continue its Summer Undergraduate Research Fellowship (SURF) Program. This intensive multi-week summer research experience actively engages undergraduates in faculty- mentored, independent research. Over the course of 10 weeks, students are mentored toward increased independence on their projects. Each student is provided with a \$4,000 stipend in the form of a fellowship which allows them to devote full time effort to their projects. Each student is also provided with \$1,000 to help offset materials and supplies and other project-related expenses. Selection of student participants is a competitive process in which students submit research proposals to the Office of Undergraduate Research. State Board of Education funding supported 10 SURF awards during the summer of 2018.

Funding provided by the State Board of Education also allowed the Office of Undergraduate Research to support a number of undergraduate researchers during the academic year. This was accomplished through competitive Undergraduate Research Grants awarded to students during the spring semester of 2018. These grants supported semester-long research projects under the guidance of faculty mentors. These grants were in the amount of \$1,000 each for materials and supplies and other project-related expenses. State Board of Education funding supported 5 Undergraduate Research Grants during the spring semester of 2018.

Almost all of UI students supported by State Board of Education funds attended and presented the results of their projects at the Idaho Conference on Undergraduate Research held in Boise in July of 2018. A few students were unable to attend the ICUR conference. In lieu of this, these students will instead be required to present their results at the UI Undergraduate Research Symposium in April 2019.

End of project feedback from students and their mentors was overwhelmingly positive. Significantly, none of the undergraduate research projects described here would have been possible without the support provided by the State Board of Education. We sincerely thank the Higher Education Research Council and the Idaho State Board of Education for making these experiences possible for our students.

Fellowship Recipient: Mason Anderson, Chemical Engineering, University of Idaho

Faculty Mentor: Dr. Mark Roll, Associate Professor, Dept. of Chemical & Materials Engineering

Project Title: Mechanistic Analysis of Borohydride Thermolysis

**Abstract:** Boron cluster chemistry has seen large strides in progress during the 20<sup>th</sup> century, but little has been investigated since for these robust hybrid compounds outside of a select number of research groups. Borohydride clusters are essential stepping stones in the path toward many phenomenal applications to areas such as nano-building blocks, super-ionic electrochemistry, and refractory precursors. However, the classical syntheses of these borohydride clusters are obscured by highly reactive and toxic neutral borane compounds and shrouded mechanisms. This project aims to analyze the mechanistic nature of these classical syntheses to employ less toxic precursory materials and afford “greener” side products.

**Project Accomplishments:**

1. Analyze theoretical oxidation-reduction mechanism of polarizable reactants: The initiation of cluster formation via reduction by borohydride has been proposed while some other work has shown the possibility of a radical based mechanism, determining which is correct (or both) was attempted here

**Result:** When the classical synthesis was modified slightly and run reacting iodine with NaBH<sub>4</sub> in diglyme, interesting results appeared. With the use of a stainless-steel needle for addition instead of a constant addition funnel (for more precise addition rates) the tip of the needle was destroyed and the broken down by the reaction slurry. This indicates a very reactive intermediate product possibly hydrogen iodide (HI), supporting our prediction.

2. Conduct continuous <sup>11</sup>B NMR to monitor transitional states: The use of time-dependent NMR allowed for minute by minute analysis of classical syntheses to help decode the inner workings of the reactions

**Result:** The time-dependent NMR confirmed the need for a B<sub>2</sub>H<sub>7</sub><sup>-</sup> intermediate product, but the B<sub>3</sub>H<sub>8</sub><sup>-</sup> was not observed in reactions at room temperature indicating the possibility of an activation energy barrier to the formation of B<sub>3</sub>H<sub>8</sub><sup>-</sup>.

3. Observe different borohydride product yields after varying reaction reactants: Alkyl halides and metal halides were also tested during this project for their viability as reactants with NaBH<sub>4</sub>.

**Result:** The use of metal halides formed the target anionic cluster, but the solid metal was left after reduction by  $\text{NaBH}_4$  leading to a difficult workup and extraction of the anionic clusters. The use of alkyl halides proved difficult in their higher concentration as neat liquids and their inherent ability to photoionize when exposed to sunlight, but with the dilution using the appropriate solvent and careful lighting measures lead to similar cluster formation under similar conditions.

4. Test different reaction solvents: Modifying the classical reaction solvent(s) allows for better analysis of the role played by the solvent in the reaction system

**Result:** The most interesting change to the system occurred using THP (tetrahydropyran), a cyclic ether only one carbon longer than a classical solvent THF (tetrahydrofuran). When THP was used the reaction only formed higher neutral borane clusters and little to no anionic borohydride clusters were observed, this could be because the neutral species borane and diborane remained in solution after formation and the borohydride ( $\text{BH}_4^-$ ) was not in solution due to the low solubility of  $\text{NaBH}_4$  in THP. This result could have potential benefits for in-situ generation of neutral borane clusters to avoid direct handling of the toxic neutral clusters

#### Summary of Budget Expenditures

Material	Price
Lithium Borohydride, 25g, 90%	\$285.50
PTFE Needle, 2.11mm OD, 12" L (2)	\$26.96 each
PTFE Needle, 1.57mm OD, 12" L (2)	\$23.58 each
BROMINE LIQUID ACS 99.5% 100G	\$46.08
Lithium Borohydride Solution in THF, 100mL, 2.0M	\$107.50
5 mm Medium Wall Precision NMR Sample Tube 9" L, 400MHz (5)	\$17.06 each
Adamantyl Amine, 25g, 97%	\$153.00
Potassium Borohydride, 25g, 97%	\$40.08
Iodomethane, 50mL, 95%	\$57.25
Poster Printing	\$75
<b>Subtotal Supplies</b>	<b>\$996.37</b>
<b>TOTAL</b>	<b>\$996.37</b>

**Acknowledgment:** This work was made possible by generous support from the Idaho State Board of Education which provided the funding for this Undergraduate Research Grant from the Office of Undergraduate Research. The experience this opportunity provided me was tremendous. I sincerely thank the SBOE and UI's Office of Undergraduate Research.

## Final Project Report: Office of Undergraduate Research (OUR) Undergraduate Research Grant – Spring 2018

Recipient: Neale Ellyson

Faculty Mentor: Dr. David Drown, Department of Chemical and Materials Engineering

Project Title: Determining Electrical Conductivity of Battery Plate Materials

### Abstract

The electrical conductivity of battery plate materials with GUITAR coated ceramic fiber additives and the cycled plates themselves was measured. University of Idaho patent-pending research on GUITAR has been shown to improve lead-acid battery performance. The measured data of varying coating process and materials were able to be compared against each other. Additionally, the plates from finished cells were measured to provide further results.

### Introduction

As a result of years of battery research done by the University of Idaho's Dr. Cheng and Edwards, further exploration of the nature GUITAR coated additives has been required. In response to that, a 4-point conductivity apparatus designed by Roper<sup>###</sup> yielded data on the electrical conductivity of a material providing an additional metric to weigh in considering a battery cell's performance. Using this apparatus, a methodology for determining the conductive property of battery plate materials can be formed for future research.

This 4-point conductivity apparatus, seen in Figure 1, consists of two copper rods, PVC pipe mounted on a base plate. The bottom copper rod is able to be removed from the base for easier clean up, then the PVC pipe is placed on top of the bottom rod, making a seal of the space inside with the O-rings on the bottom copper rod. The top copper rod is able to fit inside that PVC tube. The brass screws protruding from the top and bottom of the apparatus allow for a variety of clips to be applied for the measuring portion of the procedure.

The project was performed alongside the Lead Acid Battery Research And Testing, or LABRAT, senior design project, whose objective was to test the performance of batteries with 15, 20, 25% by volume additive in both the positive and active materials as well as a control, designated 0% by volume additive.

### Method

In establishing a set procedure to measure battery plate materials, the battery plate paste was the main objective to measure. Battery plate paste consists of lead oxide, deionized water, sulfuric acid at 1.4 specific gravity, and in the case of the majority of the research a carbon-coated additive. In the scope of this project, the only additive used was GUITAR coated ceramic fibers produced in the tube furnace. The original intent was to have molds for the paste to be cured and dried in, similar to the fabrication of a battery plate on a lead grid. This required the resulting chip to be completely smooth and flat so the copper rods could make complete contact with the material. Initial trials proved that the curing process adhered the paste to the mold too much to retrieve an intact chip. The next course of action was to crush these chips into a fine powder and

measure the powder. The various preparations done for the variety of materials measured is detailed in Appendix A.1. The measurement procedure is as follows:

- 1) Portion out a consistent mass of the material being measured, approximately 2-3 grams is satisfactory.
- 2) Insert into the PVC tube placed on top of the bottom copper rod.
- 3) Place top copper rod inside and compress material with a weight, approximately 32 lbs.
- 4) Calculate the volume of the material using the known cross-sectional area of the PVC and using the reference pin to measure the length with a digital caliper.
- 5) Either:
  - a. Using an Arbin Battery Tester, apply a uniform current for approximately ten seconds and record measured voltage
  - b. Using a digital multimeter, record resistance.
- 6) Calculate sample conductivity per unit length

This procedure was adapted for the use of other battery plate materials, as well. For example, when measuring the GUITAR coated ceramic fibers, Step 3 required a heavier weight, yielding a more accurate measurement, due to the fibers needing more compression. Step 4 requires the knowledge of the inner diameter of the PVC tube to yield a cross-sectional area of  $3.46 \cdot 10^{-4} \text{ m}^2$ . Additionally, Step 6 requires elaboration. In order to calculate conductivity,  $\sigma$  (S/m), resistance,  $R$  ( $\Omega$ ), must first be calculated using Equation 1:

$$R = \frac{\Delta V}{I} \quad \text{Equation 1}$$

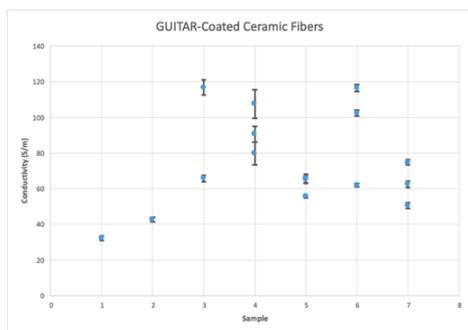

Where  $\Delta V$  is the difference in voltage, mV, and  $I$  is the current in mA. Using this calculation, conductivity can be found using Equation 2:

$$\sigma = \frac{L \cdot R \cdot A}{1000} \quad \text{Equation 2}$$

Where  $L$  is the measured length, m, from the reference pin, yielding the volume of the substance inside the PVC.

## Results

In conjunction with the LABRAT design team, the conductivities of the ceramic fibers were continuously measured prior to the pasting process. These results can be seen in Figure 2.

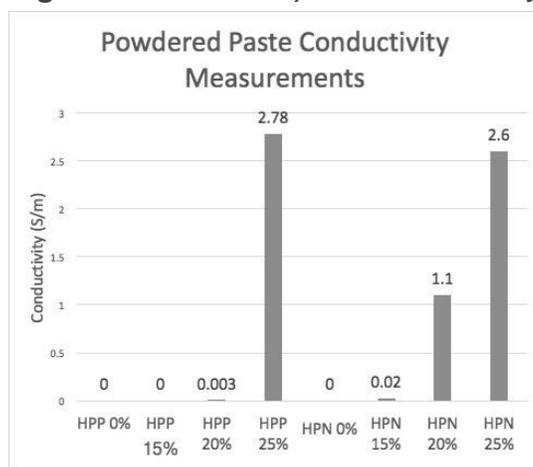

**Figure 2:** Conductivity measurements of GUITAR coated ceramic fiber

It is noticeable that there are multiple measurements for a given sample. As the amount of volume required per battery plate pasting batch increased throughout the semester, multiple batches were produced for a single pasting session. In adapting the procedure to these variations, the batches would first be measured individually and then combined and measured once more. Once combined the fibers would be integrated at varying volume percentages to the battery paste where samples 1-4 were used in 15, 20, 25 and 25% again in the positive material battery paste and samples 5-7 were used in the 15, 20, 25% negative active material battery paste. These results were used alongside the battery cell's performance to compare which cells performed best at a given conductivity.

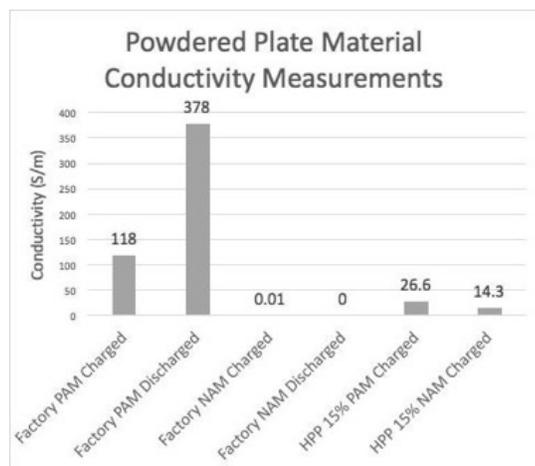

Finally, the conductivities of the powdered paste samples were also measured, seen in Figure 3.

**Figure 3:** Conductivity measurements of powdered battery paste materials

Here, data reflects the understanding that adding more conductive materials to a nonconductive material yields an increase in overall conductivity. To be clear, the notation HPP stands for hand-pasted positive, and HPN, for hand-pasted negative. The 0, 15, 20, and 25 percentages represent the amount of volume added of a specific additive, in this case the GUITAR coated ceramic fibers.

Additionally, preliminary data was recorded from battery plates that had been formed and completed their cycling routine. This data can be seen in Figure 4.

To clarify notation, 'Factory PAM Charged' refers to the positive active material (PAM) plate, fabricated by the Concorde Battery Corporation, retrieved from a charged battery cell. Therefore, the 'Factory NAM Discharged' similarly refers to the negative active material (NAM) plate, also fabricated by the Concorde Battery Corporation, retrieved from a discharged battery cell. Additionally, the HPP 15% PAM/NAM Charged refer to the material retrieved from a charged positive limiting battery cell. In this case the positive active material is the only sample that contains the additive and the negative active material has no additive inside it though it was noted that it certainly seemed affected by the presence of the additive. Further details of the results are presented in Appendix A.2.

These data are only preliminary as a procedure to retrieve these plates requires additional modifications. Recovering these materials proved difficult due to the degradation of the battery plate at the end of its cycling routine. Many plates had bits of the lead grid being removed with the lead or lead dioxide 'biscuits'. Having those remnants of grid in the material seemed to drastically effect the conductivity results, as seen in the two positive active material samples.

The promising piece of data from these trials were the measurements of the 15% by volume additive in the charged state illustrates that the battery plates are still conductive after the duration of a cycling routine. Continuing these trials could corroborate or refute that the additive continues to contribute to the plate's overall conductivity.

### Conclusion

Measuring the conductivities of battery plate materials has proven to be further aid in exploring the properties of a given carbon-coated additive, as well as some insight into the performance of a battery with these additives. Additionally, the battery paste materials showed measurable conductivity increase with the volume percentage increase within a paste.

Preliminary results showed that the battery plates maintain a measure of conductivity after begin formed and processed through a cycling routine.

### Recommendations

To continue this research, it is advisable to explore designing a metallic lead conductivity mold to apply the paste with additive to. This scaled-down version of a battery plate then has the potential to be formed and sent through cycling routines. Furthermore, replicate measurements for fully charged and discharged battery plates should be performed and compared to the preliminary data, additionally providing a consistent and effective method of retrieval for these materials.

### Appendix

#### A.1: Detailed preparation procedure for battery plate materials

##### Battery plate 'chips':

1. Starting with a standard battery plate paste composed of lead oxide, deionized water, sulfuric acid, and ligand expander in the negative paste, take approximately 10g worth of paste and apply to the PVC pipe molds of varying thicknesses using a plastic putty knife.
2. Pack the paste into the mold and flip over, ensuring to flatten both sides as much as

possible.

3. Once packed and flattened, continue the battery plate fabrication process and cure the paste inside an industrial pressure cooker, using wooden popsicle sticks as dividers between the pasted materials to ensure access for the water to properly cure them.
4. After curing for 24 hours, move the materials to an oven to be dried for as long as necessary. Due to the varying thicknesses of the chips some may require longer time in the oven. When first placed in the oven, the materials look clearly saturated with water as the paste still seems wet, but as it dries the saturation is lost and the materials begin to look lighter. When this is seen throughout the plate, it is ready to be removed from the oven, typically three to four days.
5. Once fully dried the chips are ready to be crushed using a mortar and pestle, making sure to create a fine consistency. At this point the conductivity of the battery plate paste is ready to be measured.

Used battery plate materials:

1. Starting with a cell that's completed its cycling routine, remove the desired battery plates and rinse thoroughly with deionized water to remove any sulfuric acid from it.
2. Once rinsed, transfer the used plates to an oven to dry. Similarly to drying paste, identify a fully dried plate by its entire lightness in color from loss of saturation.
3. Once dried, carefully remove the 'biscuits' of the plate, specifically the portion of lead or lead dioxide that fill the holes of the lead grid. It is important to not mix any remnants of the lead grid in with the sample as that can greatly skew the results of the conductivity measurement.
4. Once the biscuits have been retrieved, they may be placed in a mortar and pestle to be pulverized to a fine consistency and then proceed to measurement.

GUITAR-coated ceramic fibers:

1. Starting with a batch of carbon-coated fibers produced from the tube furnace, typically the fibers arrive in a clumped fashion. This requires the separation of the fibers, achieving approximately portioned sizes of a gram.
2. Once the sample is fully de-clumped it is important to thoroughly mix the sample. Coated fibers produced in the tube furnace yields varying conductivities depending on where the fibers were placed in the tube furnace, therefore mixing yields a more accurate measurement.
3. Once entirely mixed the conductivity of the sample is ready to be measured.

A.2: Detailed results of GUITAR-coated ceramic fibers

Date	Sample	Additive %Vol Material	Conductivity (S/m) ± (95% Confidence)	Average Resistance (Ω)	
1/19/18	1	15% GUITAR Coated Ceramic Fibers from 1/17 Pasting (+ 15%)	32.28752	1.43528	1.09719
1/24/18	2	20% GUITAR Coated Ceramic Fibers from 1/24 Pasting (+ 20%)	42.72056	1.18364	0.78396

### A.3: Scanning Electron Microscope Results

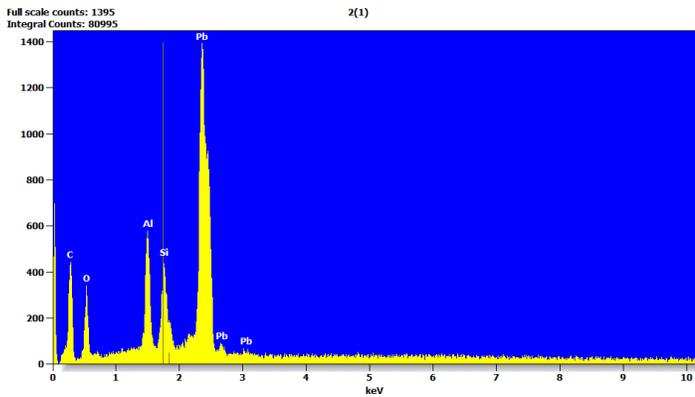

Figure 5. This graph is a general EDS survey of the region of the 20% fiber loading positive plate shown in Fig. 6. This shows the presence of primarily Pb, as would be expected, Al and Si from the fibers, O from the positive active material as well as the fibers.

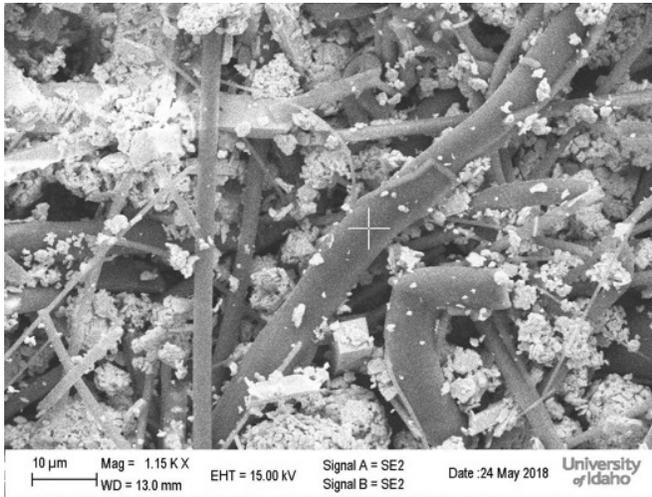

Figure 6. 1.15K X view of the 20% fiber loaded positive plate. The crosshair marks the spot sampled using EDS shown in Fig. 7.

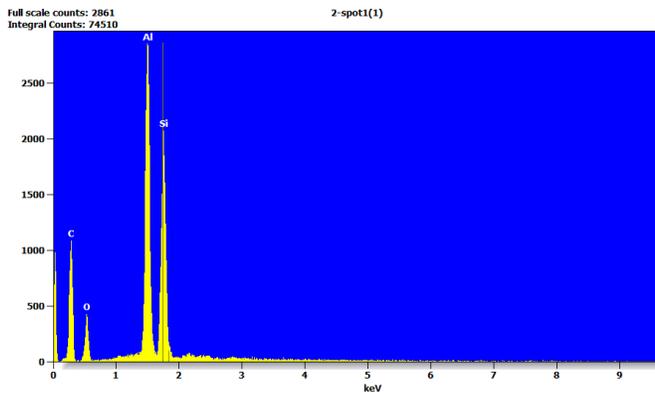

Figure 7. EDS analysis of the spot marked in Fig. 6. This indicates the strong presence of Al, Si, and O in the fibers as would be expected. It also shows a strong presence of C which indicates that the GUITAR coating is intact on the fiber.

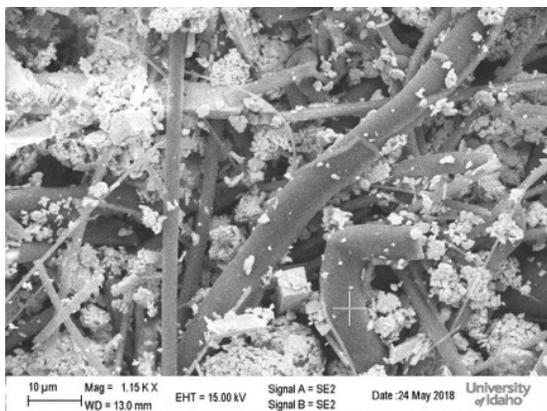

Figure 8. This same view of the plates shown in Fig. 6 except the spots sampled for EDS is moved to a different fiber. Analysis is shown in Fig. 9.

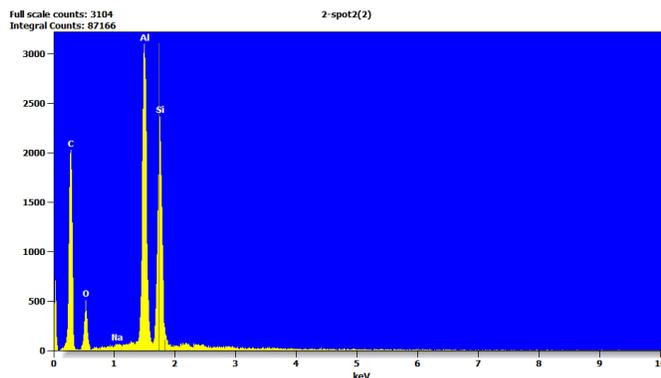

Figure 9. EDS analysis of the spot marked in Fig. 8. This indicates the strong presence of Al, Si, and O in the fibers as would be expected. It also shows a strong presence of C which indicates that the GUITAR coating is intact on the fiber. The indicated presence of sodium is likely indicates that the fibers contain some level of NaO.

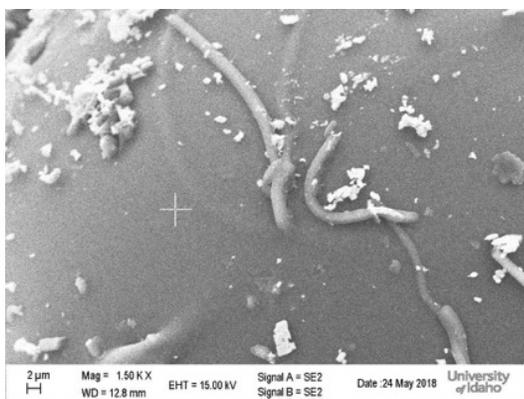

Figure 10. Location of EDS spot scan on a portion of a fiber in the 25% loading positive active plate

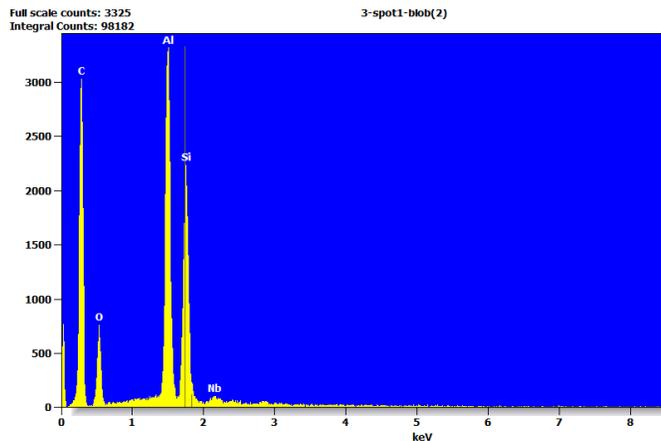

Figure 11. EDS analysis of the spot marked in Fig. 10. As in Fig. 9, the presence of GUITAR on the fiber is strongly indicated. It is unclear as to the source of the Nb peak as there are no elements with x-ray emission energy levels easily confusable with Nb.

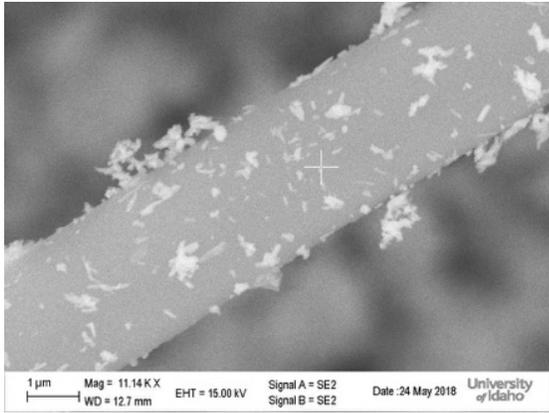

Figure 12. Location of EDS analysis of a fiber found in a sample taken from a 15% fiber loaded positive plate identified as 'charged'. Analysis results shown in Fig. 13

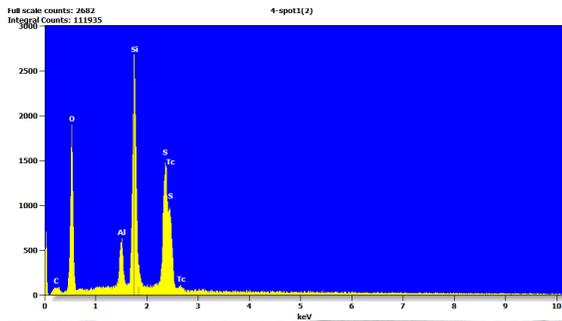

Figure 13. EDS analysis associated with Fig. 12. Only a small amount of C is detected on the sample. This indicates that little if any GUITAR remains on the fiber. S and Tc peak results from an energy level confusion with Pb and indicates a strong presence of Pb on the sample. This is observable on Fig. 12 in the form of the white flakes.

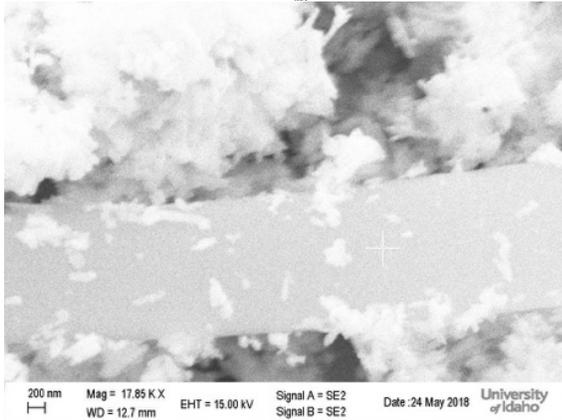

Figure 14. Location of EDS analysis of a fiber found in a sample taken from a 15% fiber loaded positive plate identified as 'charged'. Analysis results shown in Fig. 15

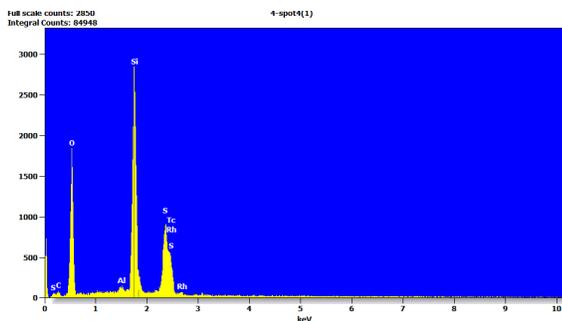

Figure 15. EDS analysis associated with Fig. 14. Only a small amount of C is detected on the sample. This indicates that little if any GUITAR remains on the fiber.

S, Rh, and Tc peak results from an energy level confusion with Pb and indicates a strong presence of Pb on the sample

Materials Engineering

Project Title: Air-brushed nonfouling drug delivery patches

**Abstract:** A significant challenge in the field of biomaterials is the nonspecific adsorption of proteins to implants. Upon implantation, this nonspecific protein adsorption triggers the natural foreign body response leading to encapsulation and failure of the device. Zwitterionic materials are excellent at resisting protein adsorption. For this reason, we are investigating the zwitterionic polymer poly(sulfobetaine methacrylate) (polySBMA). Using polySBMA, our goal is to produce nonfouling-polymer-microfibers by airbrush-spraying. Airbrush-spraying is a novel and innovative technique. To date we have explored the influence of spraying pressure, nozzle diameter, distance to collector, polymer molecular weight, and solvent. We have also optimized the use of a photo-polymerization reaction to reduce the water solubility of the resulting microfibers. The long term goal is to use these microfibers to create a high-surface-area drug delivery platform.

**Project Accomplishments****1. Perfected polymerization technique**

**Description:** Free-radical polymerization was used to produce polySBMA. The reaction took place under nitrogen protection. In the reaction, varying concentrations of potassium chloride (KCl) were used to vary the molecular weight of the polymer.

**Results:** “Mega-batches” of polySBMA, at different molecular weights, were successfully produced. Varying the molecular weight proved to be important in microfiber production. As the concentration of KCl increased, molecular weight decreased, which also decreased fiber diameter. We found KCl to be optimal at a concentration of 2.5 M.

**2. Optimal spraying solvent**

**Description:** The polySBMA was viscous enough to need a solvent for spraying. The following solvents were tested: acetone, ethanol, and aqueous sodium chloride (NaCl(aq)). When testing NaCl(aq), the concentration of NaCl was varied to have an insight as to how fiber diameter changes. KCl concentration was kept constant at 2.5 M.

**Results:** PolySBMA was unable to dissolve in acetone nor ethanol, however, it did dissolve in NaCl(aq). As the concentration of NaCl increased, fiber diameter decreased. We found NaCl to be optimal at a concentration of 0.30 M.

\*Note: It is optimal to have smaller fiber diameter, to allow for high-surface-area.

**3. Varied spraying conditions**

**Description:** To produce uniform microfibers, a variety of spraying conditions were tested: spraying pressure, spraying nozzle diameter, and distance to collector. KCl and

solvent NaCl concentration were kept constant at 2.5 M and 0.30 M, respectively.

**Results:** Uniform microfibers were produced when pressure was at 30 psi, nozzle diameter was at “2-rotation wide”, and the distance from collector to air-brush sprayer was at 10 cm away.

4. Examined the use of a UV-photo-polymerization reaction to reduce water solubility

**Description:** After a successful production of uniform microfibers, water solubility was tested by soaking the resulting microfibers in water. They instantly dissolved upon exposure to water, thus came the idea of introducing a UV-photo-polymerization reaction to help reduce water solubility of the resulting microfibers.

**Results:** Water solubility reduced significantly with the use of a UV-photo-polymerization reaction. After exposure to water, the microfibers kept their structure and uniformity.

5. Optimal photo-initiator concentration

**Description:** Although water solubility was reduced, at the initial tested photo-initiator concentration (introduced in the photo-polymerization reaction), the resulting microfibers had some noticeably large chunks of undissolved photo-initiator within them. For this reason, photo-initiator concentration was examined.

**Results:** By reducing the photo-initiator concentration from 0.089 M to 0.009 M, mixing was optimized and the photo-initiator chunks were no longer present.

#### Summary of Budget Expenditures

Supplies	Cost
Air-brush sprayer (3x)	\$45.06
Photo-initiator (1x)	\$112.09
Frame for system (1x)	\$403.20
Monomers (2x)	\$257.38
Petri dish 100X15mm (1x)	\$110.64
Ethanol 1 gal (1x)	\$23.63
Poster printing	\$48
<b>Total spent</b>	<b>\$1,000</b>

**Conference Presentation:** This research was presented at the 2018 UI Undergraduate Research Symposium and at the 2018 Idaho Conference on Undergraduate Research in Boise, ID.

**Acknowledgment:** This research could not have been as successful as it has been without the generous support of the Idaho State Board of Education. I truly appreciate the support given to me in the form of an Office of Undergraduate Research Grant.

Faculty Mentor: Dr. Gwinyai Chibisa, Department of Animal and Veterinary Sciences

Project Title: Determining what causes differences in feed efficiency in cattle raised on rangeland

**Abstract:** Currently the global population continues to grow at a fast rate, which is increasing the demand for food. However, given the finite amount of resources, such as land and water, meeting this demand is becoming harder. Therefore, improving production/feed efficiency in animal agriculture could be the solution. In Idaho, the cattle industry is a major part of the economy and most cattle are raised on rangeland. Determining whether feed efficiency for rangeland cattle could be improved will help Idaho producers produce more meat with less cattle and reduce their feed costs. Although there is information on what accounts for differences in feed efficiency in animals raised in intensive management systems (feedlots), not much is known about animals raised on rangeland. Therefore, the objective of my study was to determine whether there are differences in protein metabolism in animals that are classified as efficient and inefficient in converting feed to meat when raised on rangeland. I conducted gene expression analysis for markers of protein synthesis and degradation, and also measured amino acid concentration in blood. Having this information is critical as it will add to the body of knowledge that will enable genetic selection of cattle with high feed efficiency.

**Project Accomplishments**

1. My first goal was to determine the differences in protein metabolism in efficient vs. inefficient cattle that are raised on irrigated pasture compared to rangeland.

We know that cattle raised on rangeland have to work harder (traveling to graze and drink water), and deal with a number of stressors, environmental conditions. All of these factors can affect the rates of protein synthesis and breakdown. We know that proteins build up a majority of the body. Proteins function as enzymes, nutrient transporters, and to help the body grow and repair.

Result: We used q-PCR to determine transcript abundance of markers of protein synthesis and degradation in skeletal muscle samples. Unfortunately, during our runs we noted that we had low RNA abundance. Therefore, we have no numbers to report for gene expression. However, we are currently troubleshooting and trying to determine if we can salvage the situation. I sent 6 samples to the on-campus Genomics Resources Core lab to determine the profile and concentration of RNA in our samples. I am also planning to run RNA integrity gels to determine if our samples can be used for q-PCR. We ordered the supplies that are needed and are waiting for them to be delivered. We will report back to you once we have all that information, and I am continuing to work on the project.

2. My second goal was to determine the plasma amino acid concentration in animals that are efficient vs. inefficient

Determining plasma 3-methylhistidine, urea-N and amino acid concentration can be useful in studying protein metabolism. Amino acids are the building blocks for protein. However, body protein can be broken down to provide amino acids in times of need, which can cause muscle wasting. Muscle wasting can cause an increase in the concentration of 3-methylhistidine in blood. Amino acids in excess of requirements cannot be stored and are further broken down to a carbon skeleton and ammonia. Ammonia ends up converted to urea-N, which is then excreted in urine.

Result: There were no differences ( $P = 0.214$ ) in the plasma concentration of 3-methylhistidine, an indirect indicator of muscle protein breakdown. We observed no differences ( $P = 0.750$ ) in the blood urea-N (BUN) concentration. Blood urea-N concentration can be used as a measure of amino acid breakdown. Based on the 3-methylhistidine and BUN data, it is possible that there were no differences in body protein breakdown between efficient and inefficient cattle. Plasma Cit concentration was higher ( $P = 0.025$ ) whereas plasma Try concentration tended ( $P = 0.088$ ) to be higher in inefficient than efficient cattle. We also noted that the concentrations of Ser tended ( $P = 0.088$ ) to be higher in efficient compared to inefficient cattle. However, the plasma concentrations of Asp, Thr, Asp, Glu, Gln, Pro, Gly, Ala, Val, Met, Cys, Iso, Leu, Tyr, Phe, Lys, Arg, His and Orn did not differ ( $P \geq 0.139$ ) across treatments.

### Summary of Budget Expenditures

Supplies	Cost
TF 5X-TAQMAN FAST UNIVERSAL (\$1,000 from this award, remaining \$42.85 provided by mentor)	1,042.85
TOTAL	\$1,042.85

**Conference presentations:** The poster submitted with this project was presented at both the UI university-wide Undergraduate Research Symposium in Moscow, ID, as well as at the ASAS convention in Vancouver, BC, Canada, in July 2018.

**Acknowledgement:** I would like to acknowledge the University of Idaho and the Idaho State Board of Education for providing funding in the form of an Undergraduate Research Grant. This project has been a huge and very positive learning experience for me. Without the funding provided to me through this program, I would not have been to conduct this research. Thank you!

Grant Recipient: Frankie Scholz, Biological Sciences, University of Idaho  
 Faculty Mentor: Dr. Tanya Miura, Department of Biological Sciences

**Abstract:** Respiratory syncytial virus (RSV) is an intracellular pathogen that infects people of all ages. RSV is responsible many deaths each year and currently, there is no licensed vaccine. In an alternate form of therapy, monoclonal antibodies can be used to treat infection by neutralizing the virus. We want to investigate the ability of RSV to mutate under stress of a human monoclonal antibody, D25. We hypothesized that RSV will mutate under stress of a sub-inhibitory dose of D25 resulting in escape from neutralization. Molecular modeling done by our collaborators will also accurately predict these mutations. To test this, we introduced RSV to rounds of selection in the presence of D25 and allowed time for mutations to arise. After ten rounds of selection in HEp-2 cells, viral mutants required significantly more antibody for neutralization. The mutants were sequenced for specific amino acid changes and compared to the modeled predictions done by our collaborators. These results will help us better understand how RSV evolves to escape neutralization.

**Project Description:** The antibody response is crucial for prevention and treatment of RSV. Many antibodies are in development, including D25. The development of a vaccine based on the F protein found on RSV is currently a high priority in the field. RSV is capable of mutating and evolving to escape antibody recognition to avoid neutralization. In this study, we want to select for antibody escape mutations with antibody D25 in the F protein of RSV. Our findings will aid in the work of our collaborators in the physics department who are modeling the F protein to predict possible escape mutations the virus may develop to evade the antibody recognition.

We hypothesize that RSV will mutate under stress of a sub-inhibitory dose of antibody D25 resulting in escape from neutralization. We also predict that molecular modeling done by our collaborators will accurately predict these mutations. To test this, we exposed the virus to antibody D25 in a dilution that hinders the virus but, does not completely neutralize it. This was done in a low dose of D25 (0.16 µg/mL) for five passages. The mutant populations from the five passages were then hit with a higher dose of D25 (2.5 µg/mL) and pressured for another five passages of selection. In this way, the virus will adapt and form mutations to escape the antibody (See Figure 1.1).

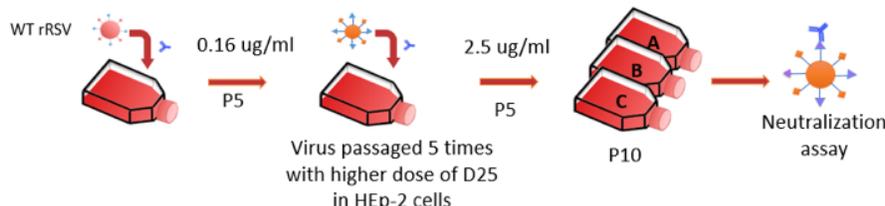

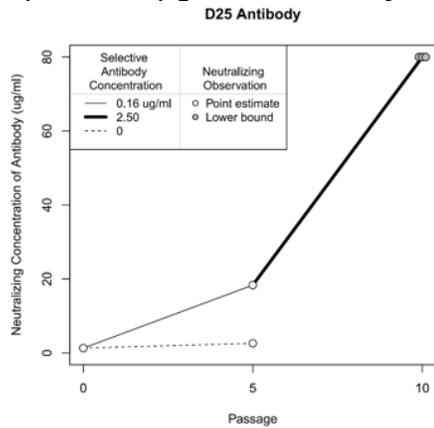

Figure 1.1 *Selection of Antibody Escape Mutants*  
 HEp-2 cells were incubated with wild-type virus infection. Neutralizing antibody D25 was introduced in a low dose then a higher dose to select for natural mutations in the F protein that allow virus to grow in the presence of D25.

We used genetic sequencing to identify the antibody escape mutations. Further experiments will confirm that these mutations lead to antibody escape and determine how the mutations affect the growth of RSV in the absence of antibodies. This study will not only lead to an understanding of how RSV changes to avoid antibody neutralization but, will also provide data to test the predictions made by molecular modeling.

**Project Accomplishments:** Thus far, data illustrates that a significantly higher dose of antibody D25 is required to completely neutralize the passaged RSV compared to that of the wild-type RSV. The wild-type RSV that was used to begin the passage experiments was completely neutralized at 1.3 µg/ml, and populations passaged 10 times in the presence of D25 now require >80 µg/ml of antibody to completely neutralize the virus (*See Figure 1.2*).

**Figure 1.2 Neutralizing Antibody Concentration of Mutants Across Passages**  
 Neutralizing Concentrations were obtained through neutralization assays. HEp-2 cells were incubated in a 96-well plate with 1:2-fold dilutions of D25. Cells were monitored for viral infection for 7 days.

The virus populations passaged five times in 0.16µg/ml of D25 and those passaged an additional five in 2.5µg/ml for a total of ten passages were isolated for their RNA, reverse transcribed to cDNA, and then further amplified by PCR. The PCR products were sent to Elim BioPharm for sequencing of the F gene.

Data received from the sequencing shows a single point mutation in the F protein in mutants evolved from the first five passages of selection: N208Y. In this mutation, an asparagine residue was mutated to a tyrosine and this change alone prevents the access of D25 to a small hydrophobic pocket on the F-protein by steric hindrance. A second point mutation arose in addition to the first in the mutant populations that were passaged ten times in the presence of D25: Q202R. This mutation of a glutamine to an arginine abolishes three hydrogen bond interactions with D25 originally present in the wild-type. Both mutations affect the ability of D25 to bind and interact with the F-protein. These data suggest that RSV successfully evolved to escape neutralization by D25.

**Budget Expenditures:**

Materials	Cost
Plasmid Preparation Kit	\$250
Mutagenesis Reagents	\$300
Chemicals to make buffers	\$50
Plastic ware	\$225
Cell culture media	\$100
Poster	\$75
Total	\$1,000

I presented a poster of my work at the UI Undergraduate Symposium in April of 2018 and at the 2018 Idaho Conference of Undergraduate Research (ICUR) in Boise.

Acknowledgement: I would like to thank the State Board of Education for providing me the opportunity to conduct my research. I am very proud of the research I did this and I learned a tremendous amount that will have a large impact on the rest of my future endeavors. Without the support from SBoE, I would not have been able to participate in this research.

Project title: Evolution of Carbonate Weathering and Nanoparticle Release

The purpose of this experiment was to evaluate detection methods of a new mechanism for carbonate weathering—ejection of nanoparticles from the mineral surface by unidentified repulsive force(s). This new mechanism of carbonate weathering has recently been detected (Levenson and Emmanuel, 2017a) and heavily debated (Le Merrer and Colombani, 2017; Levenson and Emmanuel, 2017b). Such a mechanism could explain why geochemists have struggled to quantify the dissolution rate of carbonates. For this study, it was hypothesized that the use of a dynamic light scattering (DLS) analyzer could detect solution nanoparticles ejected from the surface of the carbonate mineral that would allow for quantification of the nanoparticle distribution and stability (zeta potential). The original proposal was to use smithsonite [ $\text{ZnCO}_3$ ], but sufficient quantities for a reasonable price could not be located; therefore, the subject mineral was changed to calcite, which was used by Levenson and Emmanuel.

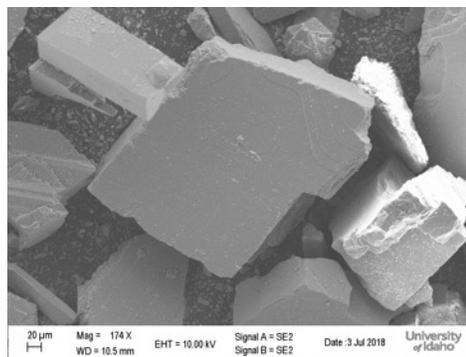

Figure 1. Scanning electron microscope image of calcite grains used in the weathering experiments.

To facilitate the weathering of the calcite and produce a solution for analysis, four weathering chambers were constructed (Fig. 2). A non-traditional design was chosen to enhance the rate of weathering and allow for a more rapid production of potential ejected nanoparticles. The chambers were comprised of 20-cm long, clear plastic tubing with a 5-cm diameter. A black rubber cap and air valve was installed on one end, while the other end contained a layered construction consisting of protective mesh, 23-µm filter, 11-µm filter, protective mesh, snap in drain, and rubber cap with drain spigot. The filter end allowed for draining of each chamber after each experiment. A small hand pump could be attached to the top valve, which allowed for air to be pumped into the tube to force water through the filters. Each weathering chamber was filled with an aqueous solution of a variable volume, typically one circumneutral and the other slightly acidic at each temperature condition. While the weathering chambers were in use, they were placed on shaker tables set to 80 rpm, which was believed to be sufficient to minimize boundary layer issue but not fast enough to inadvertently cause physical weathering processes (collision). In order to test Arrhenius behavior of the weathering processes, two of the chambers were placed in a walk-in refrigerator at 5°C and two chambers in the lab at 21°C.

Each of weathering chamber contained 100 g of ground calcite. The calcite was ground to a diameter range of 125 to 300 µm to maximize available surface area for weathering. It was hypothesized that any particles that passed the 11-µm filter would have been produced by the particle-ejection mechanism. The drain water was collected after each

experiment for analysis as raw water (unfiltered) and 450-nm filtered water to examine a potential large range of micro- to nano-particles (raw) and nanoparticle-only range (<450 nm). All samples were analyzed for particle size distribution and zeta potential (stability) with the DLS analyzer.

Figure 2. Images of the weathering chambers on the shaker tables and in the drain stand setup.

Initial experiments did not produce the expected range of particles or the particle concentration was below detection limits. Believing the initial results were due to low concentrations of the particles in solution, the amount of water in the tubes was reduced, the pH of the solution was adjusted, and the length of time that the tubes were agitated was increased. During the course of the experiments, the water from the weathering chambers underwent several other tests to obtain relevant environmental data. For each drain solution pH, Eh, and electrical conductivity were measured, which allowed for the determination of the amount of buffering and dissolution to be quantified. Initial data indicated that the conductivity of the water remained relatively low until the acidity was substantially increased. A Hach spectrophotometer was used to measure water hardness, to determine the mass of calcite that was being lost during each experiment. Unfortunately, these experiments did not detect particles of the predicted size.

In order to compensate for the unsuccessful weathering chamber experiments, small scale experiments were instituted alongside the chamber experiments. The DLS can be set up to allow for water to flow through the detector, but the equipment necessary is expensive and would require a larger experiment. To replicate this “flow through” design, 100 mg of calcite was added directly to DLS cuvettes with 4 mL of water at neutral, slightly acidic and very acidic conditions. These cuvettes were placed on the shaker table with the larger weathering chambers and analyzed with the chamber samples. While these did yield particles in solution in the water, results were inconsistent between trials.

It is difficult to draw specific conclusions since the nanoparticles were never consistently detected. It is possible that the original study that examined the ejection process solely by examining changes to the mineral surface was not detecting nanoparticle ejection but area-specific (lattice point) dissolution of the carbonate mineral surface at specific locations. If the ejection weathering mechanism does occur, a few possibilities exist for why they were not detected under these experimental conditions. First, it is possible that the ejected nanoparticles are not stable and quickly dissociate into their constituent ions in solution. Additionally, it is possible that the nanoparticles are produced, but they are produced at such low concentrations as to not be detected by the DLS. This possibility also offers a potential reason that these particles have not previously been identified; they are not a major component of the weathering of calcite.

Project Title: Modulation of the Retinal Immune Environment in a Zebrafish System of Rod Photoreceptor-Specific Degeneration

**Abstract:** Activated and pro-inflammatory microglia, along with accompanying local inflammation, are associated with human retinal degenerative disease. However, it remains unclear if these aspects of the immune response are symptomatic or directly initiate and/or contribute to disease pathology, such as the death of additional retinal neurons. One hypothesis for continued loss of neurons in retinal degenerative disease is that microglia may engulf, or possibly initiate cell death of, otherwise healthy neurons. Our project attempts to test this hypothesis using a zebrafish system in which rod photoreceptors die due to a toxic transgene (XOPS:mCFP), but cone photoreceptors survive. We first characterized microglial characteristics in XOPS:mCFP retinas compared to wildtype and found that microglia localize to the photoreceptor layer and engulf dying rods, but total numbers of microglia are similar. Next, we successfully induced a pro-inflammatory retinal immune environment by intraocular injection of zymosan (a pro-inflammatory compound), as indicated by infiltration and division of immune cells in the retina and gene expression of selected transcripts. Our next goal is to determine if this induction of a pro-inflammatory retinal environment may result in subsequent cone death or disappearance in XOPS:mCFP retinas, thus directly probing contributions of a dysregulated immune environment to retinal degenerative disease.

**Project Accomplishments:**

1. Our first goal was to show that we could induce an inflammatory immune response in the zebrafish retina. More specifically, in the retina of a zebrafish transgenic line with rod-photoreceptor specific degeneration.
  - a. The retina contains two distinct types of photoreceptors responsible for vision: rods and cones. Rods are responsible for dark/light distinction and visibility in dimmer light, while cones are responsible for brighter, color vision. In humans (and mice), when rod photoreceptors degenerate due to a genetic mutation, cones inexplicably die as well. One hypothesis for this subsequent cone death is microglia activation – activation of the resident immune cells of the retina. It is thought that by responding to the programmed rod death the microglia may inadvertently consume or kill cones via proinflammatory mechanisms. However, in a zebrafish system in which rods die due to a rod-specific transgene, the cones survive. Our goal was to show that we could activate the microglia in that zebrafish system.

**Results:** We used the compound zymosan, which is a fungal carbohydrate molecule that mimics infection (by binding TLR 2). Zymosan triggers an immune response without the resulting pathology of a real infection. We found that we were able to induce

an inflammatory response in the retina shown by increased immune cell infiltration and up regulation of selected proinflammatory genes in zymosan injected eyes.

2. Our second goal was to determine if the induced proinflammatory state resulted in subsequent cone death.

**Results:** We found that cell death slightly increased in zymosan injected eyes when compared to saline injected control eyes. Interestingly, we found (using the fluorescent cyan reporter for rods) that the increase in cell death appears to be attributed to cell population other than rods in zymosan injected eyes.

3. Our third goal was to determine if the induced proinflammatory state resulted in subsequent increase in cell proliferation

- a. Zebrafish have the incredible ability to regenerate their retinal tissue in response to damage. An increase in cell proliferation following a proinflammatory induced state may indicate an attempt at regeneration in response to damage caused by immune activation.

**Results:** We found that cellular proliferation showed a trend of increasing in zymosan injected eyes when compared to saline injected controls eyes, although it was not statistically significant.

**Future Directions:** From this experiment we have proved we can induce inflammation in the zebrafish retina. The future of this project will be to determine if sustained inflammation (for longer periods) in the retinal microenvironment may result in subsequent cone death or other signs of pathology in the rod-specific degeneration line of zebrafish. This will be more akin to simulating a chronic degenerative disease that we observe in humans. Moving forward we hope to directly probe the contributions of a dysregulated immune environment to retinal degenerative diseases.

#### Summary of Budget Expenditures:

Integrated DNA Technologies (IDT) qPCR primers	\$285.24
LifeTechnologies Superscript IV cDNA synthesis kit and Power SYBR Green qPCR mix	\$714.55
<i>Subtotal for supplies</i>	\$999.79
Stipend (before tax)	\$4,000.00
<i>Total</i>	\$4,999.79

**Conference Presentation:** I presented a poster of my work at the 2018 Idaho Conference on Undergraduate Research (ICUR) at Boise State University and I will be presenting my research again at the UI Undergraduate Research Symposium in April 2019 as well.

**Acknowledgement:** The support provided by the State Board of Education in the form of a Summer Undergraduate Research Fellowship was genuinely appreciated. The experience is one that I feel was inexplicably valuable. It opened new opportunities for a career path I had never considered before, and further invigorated my curiosity towards my field of study. Only with this support from the SBOE was I able to participate in this research, for which I am extremely grateful.

## Final Project Report: Office of Undergraduate Research (OUR) Summer Undergraduate Research Fellowship (SURF) - Summer 2018

Fellowship Recipient: Beau Horenberger, Mathematics, University of Idaho

Faculty Mentor: Dr. Jennifer Johnson-Leung, Department of Mathematics, University of Idaho

Project Title: Calculating Siegel Modular Forms

**Abstract:** The aim of this research project was to build a code base for calculating Siegel modular forms of paramodular level  $N$ . Siegel modular forms have Fourier expansions indexed by binary quadratic forms. Thus, the first step in representing Siegel modular forms is to identify and calculate good representatives for appropriate equivalence classes of these binary quadratic forms. This is the essential problem that was solved in the course of this research. This code base will have practical use for further research in Number Theory, specifically in verifying examples of the paramodular conjecture. The resultant objects also have applications to hyperelliptic curve cryptography. The project will be mentored by Jennifer Johnson-Leung, who will use this computational procedure for further research.

### Project Accomplishments

1. The first goal was to show that the index of  $\Gamma_0(N)$  in  $SL_2(\mathbb{Z})$  was finite so that we could generate finite cosets of binary quadratic forms.

This was achieved in a series of proofs calculating the cardinalities and indexes of related sets. It was shown first that  $|SL_2(\mathbb{Z}/p^e\mathbb{Z})| = p^{3e}(1 - 1/p^2)$ , then  $|SL_2(\mathbb{Z}/N\mathbb{Z})| = N^3 \prod_{p|N} (1 - 1/p^2)$ , so this is the index  $[SL_2(\mathbb{Z}) : \Gamma(N)]$ . Next, we found that the map  $\Gamma_1(N) \rightarrow (\mathbb{Z}/N\mathbb{Z})$  given by  $\begin{pmatrix} a & b \\ c & d \end{pmatrix} \rightarrow b \pmod N$  surjects and has kernel  $\Gamma(N)$  and that the map  $\Gamma_0(N) \rightarrow (\mathbb{Z}/N\mathbb{Z})^*$  given by  $\begin{pmatrix} a & b \\ c & d \end{pmatrix} \rightarrow d \pmod N$  surjects and has kernel  $\Gamma_1(N)$ . From these, we derived that  $[SL_2(\mathbb{Z}) : \Gamma_0(N)] = N \prod_{p|N} (1 + 1/p)$ , as desired.

2. Next, we aimed to prove that the cosets of  $\Gamma_0(N)$  in  $SL_2(\mathbb{Z})$  had a method for determining distinguished representatives.

This was achieved by proving there is a bijection between the cosets of  $\Gamma/\Gamma_0(N)$  and the projective space  $\mathbb{P}^1(\mathbb{Z}/N\mathbb{Z})$ . Once this was done, we proved one could generate representatives for the cosets by showing all members of the projective line  $\mathbb{P}^1(\mathbb{Z}/p^n\mathbb{Z})$ , with  $p$  a prime and  $n$  a natural number, of the form  $(1 : u)$  where  $u = 0, 1, \dots, p^n - 1$  and  $(pu, 1)$  where  $u = 0, 1, p^{n-1} - 1$  represent different equivalence classes. Thus, we could compute representatives using this as the basis for an algorithm.

3. The next goal was to implement these proofs in a program which could calculate

representatives for binary quadratic forms.

The program was written in C++ to efficiently calculate these representative binary quadratic forms in their matrix form. Additional functions and classes were written to handle mathematical operations involving matrices, primes, and moduli.

4. Finally, we intend to use this program to calculate the Fourier coefficients for twists of Siegel paramodular forms.

Work has begun on this end, and the program is still under development. Although more work remains to generate and twist coefficients, the analysis of the coefficients already has a code base from the previous goal, making the remaining work minimal. This work will be continued to completion in approximately the next month.

#### **Summary of Budget Expenditures:**

1. Stipend: \$4000
2. Cost for UI Undergraduate Research Symposium Presentation: \$75
3. Travel expenses for presenting research at AMS National Meeting in Baltimore, MD:  
(a) Flight to Baltimore, round trip: \$450 (b) Hotel for 3 nights: \$225
4. Misc. Project expenses: \$250

Total expenses (sans stipend): \$1,000 + \$4,000 stipend

#### **Acknowledgement:**

I would like to sincerely thank the State Board of Education for the wonderful opportunity I was provided through the Summer Undergraduate Research Fellowship. The support provided by the SBOE made this a truly rewarding eye-opening experience for me.

**Final Project Report: Office of Undergraduate Research (OUR) Summer Undergraduate Research Fellowship (SURF) - Summer 2018.****Fellowship Recipient:** Hannah Jaeger, Biological Sciences, University of Idaho**Faculty Mentor:** Elizabeth Fortunato, Professor, Department of Biological Sciences**Project Title:** Determining the Benefit Human Cytomegalovirus Gains by Down Regulating the Basement Membrane Protein Nidogen-1**Abstract:**

Human Cytomegalovirus (HCMV) is the most prevalent cause of neurological birth defects, ranging from microcephaly to sensorineural hearing loss. This study aims to elucidate the benefit HCMV derives from modifying a particular cellular process to more efficiently disperse infected cells. Within 6-8 h post infection, HCMV begins to downregulate Nidogen-1 (NID1), an important component of the extracellular matrix (ECM) secreted by endothelial cells, by both protein stability and decreased mRNA transcription. To determine if the absence of NID1 increases dispersal of HCMV, we have designed a series of transmigration assays that utilize human umbilical vein endothelial cells (HUVECs) seeded onto a polycarbonate membrane. THP-1 monocytes are seeded on top of the HUVEC monolayer and total transmigration of the monocytes is measured after 24 and 48 hours. Infection of HUVECS has been shown to increase this transmigration rate, presumably via ECM modifications. Five different treatments of HUVECs, ranging from full HCMV infection to just NID1 knockdown, were used to test our hypothesis that downregulation of NID1 increases transmigration. Preliminary results with uninfected monolayers yield an average of 24% transmigration. Ultimately, we believe the targeting of NID1 provides HCMV a selective advantage, which exacts a negative toll on the developing fetus.

**Project Accomplishments:**

## 1. Development of CRISPR knock out cells for NID and control CRISPR

## A. Lentivirus transduction and initial verification.

HUVECs have been successfully transduced with a previously verified NID1 KO CRISPR and control CRISPR encoding lentiviruses, followed by selection with puromycin to ensure delivery of the lentivirus genome (encoding both Cas9 and NID1 targeting guide RNA). After a short selection in puromycin, NID1 KO and control resistant cells were seeded at an equal density and harvested 72 h post plating for supernatant and cell lysate analysis for NID1 via Western blot. Initial analysis showed strong NID1 knockdown. However, after several passages of pooled cell populations, NID1 levels returned to control levels, indicating single cell cloning was necessary to obtain populations with strong/continuous NID1 knock out before performing the transmigration assays.

## B. Single Cloning

We seeded approximately 50-100 HUVEC CRISPR NID1 Knock out and CRISPR control cells onto 10cm plates. Single clones that were large enough to be visible to the eye were circled and then evaluated to make sure no other clones were touching or too close. Colonies were carefully removed and placed into separate wells until cell counts were high enough to analyze via Western blots. We are currently analyzing NID1 levels in these single clones. A population will be selected that have NID1 knocked out and then transmigration assays will be performed.

## 2. Infection of HUVECs with HCMV and Adenovirus

## A. Monitoring infection of HUVECs

HUVECs were infected with HCMV at an MOI of 15 or mock infected for four hours after which time fresh media was added. HUVECs were also infected with either a backbone Adenovirus or one encoding HCMV tegument protein pp71 for 30 mins at room temperature, then fresh media was added. After 24 hours, all wells were washed and fresh media was added. We were able to successfully monitor the infection by staining coverslips and counting the percentage of infected cells using antibodies against viral proteins. Between 80-90% of cells were successfully infected.

B. Infection of transwell monolayers.

Once a confluent monolayer was formed the same method of infection was used. After 24 hpi monolayers were rinsed and transmigration assays were performed.

**Results:** More migration of THP1s (about 8%) was seen in infected monolayers as compared to the uninfected controls. Adenovirus infections (using a multiplicity of infection of 10) were too harsh and killed most of the monolayer. Further testing has shown that adenovirus infections at an MOI=1 are sufficient to deliver pp71 to all cells. A second round of infections is currently underway.

### 3. Transmigration Assays

The main goal of this project was to determine if knock down of NID1 plays an important role in disseminating HCMV. To test this we used transmigration assays of parental HUVECs, CRISPR KO cells, HCMV infected monolayers, and adenovirus carrying pp71 infected monolayers. We were able to test several different monolayers of the parental HUVECs as well as just the transwell insert to determine a baseline for the other cells.

**Results:** Migration of THP1s was approximately 27% per 24 hours in just the transwell compared to transwells that had a confluent monolayer of HUVECs which was about 12% per 24 hours. The CRISPR cells were initially tested, however, results matched the parental cells due to the high amounts of NID1 within the population of cells.

Migration of THP1s through HCMV-infected HUVEC monolayers was higher than the mock, but further testing will need to be done to repeat these results. The adenovirus infection was initially tested, but the infection will need to be adjusted to see the affects that pp71 has on migration.

Faculty Mentor: Diana Mitchell, Professor, Biological Sciences, University of Idaho

Project Title: Live Imaging to Probe the Role of Microglia in Developmental Apoptosis in the Zebrafish Retina

**Abstract:** During mammalian retinal development, programmed cell death (apoptosis) occurs in large waves in a spatio-temporal fashion to generate functional retinas. In zebrafish comparably smaller waves have been observed and are thought to represent fine-tuning of developing retinal tissue (Biehlmaier 2001). It is appreciated that tissue resident macrophages clear apoptotic cells, however, specific roles for microglia in cell survival/death and clearance during retinal development in zebrafish have not been documented (Petrie 2015). We used an inducible system to specifically deplete macrophages/microglia during retinal development and found an increased number of apoptotic cells in the retina compared to controls. This finding suggests that microglia clear larger numbers of apoptotic cells than is currently appreciated, or alternatively, that microglia provide survival signals to developing retinal cells. To address clearance of apoptotic cells during zebrafish retinal development in real-time, we live imaged fluorescently labeled retinal microglia together with apoptotic cells using acridine orange (AO). We observed that microglia sense and engulf cells prior to AO incorporation, and that engulfed apoptotic cells undergo dynamic movements as microglia continue active migration. This suggests that apoptotic cells visualized in fixed tissues using AO may not represent true levels of apoptosis and their retinal locations may differ from where apoptosis was initiated.

**Project Outcomes**

1. Our first goal was to determine the optimal live imaging conditions to visualize the retina of embryonic zebrafish.

We needed to visualize developing retinas for a period of 8 hours. To do this, we used a transgenic zebrafish that expresses a fluorescent marker on macrophages, and acridine orange to visualize the apoptotic cells in the retina. Zebrafish are sensitive to environmental conditions, and so we used a climate control box on a Nikon Spinning Disk Confocal microscope to maintain environmental conditions during the imaging process, and limited the exposure to lasers in order to keep the fish alive while trying.

2. Our Second goal was to determine the role of microglia in developmental apoptosis within the zebrafish retina.

Microglia are the macrophages of the Central Nervous System (CNS), and are known for their immune functions. Preliminary data showed an increase in developmental apoptotic cells in retina that had been depleted of microglia. Using live imaging, we sought to determine if they were actively involved in clearing out apoptotic cells, or if they were sending survival signals to keep cells from apoptosis.

**Result:** Microglia were visualized actively engulfing apoptotic cells.

3. Quantifying the rate of clearance of apoptotic cells by microglia, and duration of acridine orange signal.

After visualizing the retinas, we determined the rate of clearance of apoptotic cells by microglia over the 8 hour period. We found that microglia clear out apoptotic cells at a rate of about 1.2 hours. During this quantification, we also noticed that microglia would phagocytize apoptotic cells before the acridine orange marker would appear, which means that they were sensing the cells before they reached DNA fragmentation. The signal would last anywhere from 10-80 min. This means that the microglia probably sense the apoptotic cells long before the marker appears, and that the time for them to digest the apoptotic cells differs.

4. Quantifying displacement and speed of apoptotic cells.

We noticed that apoptotic cells would be moved about by the microglia once they were phagocytized. We quantified the displacement and the speed of apoptotic cells, and found that the displacement varied between cells, but that the speed of the cells was consistent. The average speed for was around 1.5 $\mu$ m/min, which is similar to other experiments done on microglia outside the retina.

Project Title: Ionic and Biomolecular Movement through Functionalized Thin Filmed Polymers

**Abstract:** Ions and biomolecules are essential for many functions of the human body such as bone strength and development, muscle contractions, and cell functions like membrane transport and membrane potentials. This experiment will use post-polymerization functionalization to bind to Calcium ions ( $\text{Ca}^{2+}$ ), using ion selective electrode polymers; this binding could be a way of monitoring calcium levels in the body. The polymer scaffolding will be made from Poly-(3-sulfopropyl methacrylate). This sulfonic acid polymer will capture  $\text{Ca}^{2+}$  through negatively charged terminal ends, in acidic environments, that can ionically bond to the  $\text{Ca}^{2+}$ . These polymers will be grown on carbon nanotubes. We will characterize these polymers with transmission electron microscopy (TEM) and RAMAN spectroscopy. The transport of  $\text{Ca}^{2+}$  through the polymer surfaces will be monitored by measuring the voltage change on the polymer electrode as a Calcium solution is passed over it. A device was designed to hold the polymer in a closed system to allow the solution to pass over it and out, which allows us to monitor the concentration of the calcium solution after polymer interaction.

**Project Accomplishments**

1. The main goal of this project was to grow 3-sulfopropyl methacrylate (SPMA) onto carbon nanotubes.

The carbon nanotubes first needed a surface on them that would be able to be polymerized onto, the surface we used was poly dopamine. The terminal hydroxyl groups on the ends of the dopamine molecules work as a good starting point for polymerization. Next we attached 2-bromoisobutyryl bromide (BiBB) to terminal hydroxyl groups of the dopamine to act as our initiator. Finally we polymerize SPMA onto the terminal hydroxyl groups of the dopamine with atomic transfer radical polymerization (ATRP).

**Results:** The polymerized carbon nanotubes (CNT-PDA-SPMA) have a terminal sulfonic acid that has a negative charge that has the potential to bind to  $\text{Ca}^{2+}$  ions.

2. The next goal was to design a device that can work as an electrode to monitor  $\text{Ca}^{2+}$  binding to the polymer surface.

The device needed to be able to show a change in voltage as more of the sulfonic acid charges are filled with  $\text{Ca}^{2+}$ . In order to do this the device needed a reference electrode made from conductive Silver ink and the other electrode is a line of conductive Silver ink with a break in the middle where we drop cast our CNT solution to complete the circuit. Connecting these two electrodes is a microfluidic channel

made from an elastomer (PDMS). We are able to push  $\text{CaCl}_2$  solutions through the channel over the electrodes and monitor the voltage with various concentrations of  $\text{CaCl}_2$ . We used a syringe pump to obtain a constant flow rate of solution over the electrodes. We are still working on perfecting the setup of the device but it has been used to run preliminary tests with a Calcium ionophore instead of CNT-PDA-SPMA.

3. Lastly Characterization of the CNT's in their different stages of polymerization.

Thanks to Abdulakeem Osumah we have transmission electron microscopy (TEM) images of the CNT's, CNT-PDA, and CNT-PDA-BiBB. We will soon have images of CNT-PDA-SPMA as well. We have taken infrared spectra of the CNT's at the different stages of polymerization and they are comparable to the spectra presented in the literature.

#### Summary of Budget Expenditures

Supplies	Cost
Syringe Pump	\$290.00
Autoclave Bomb	\$114.00
Lab Supplies	\$252.69
Biopsy Punches	\$103.79

Project Title: In Vitro Magnetic Nanoparticle Drug Delivery to the Central Nervous System

#### **Abstract:**

The aim of this research was to conduct preliminary experiments demonstrating the targeted delivery of fluorescently tagged magnetic nanoparticles (F-MNP) in a 3D-printed model of the cerebrospinal fluid system. CNS diseases can be difficult to treat because of the blood brain barrier (BBB). Due to the physical size of available drug molecules, the BBB prevents or severely impedes passage of necessary drug concentration to the CNS. There many central nervous system (CNS) diseases that are difficult to treat effectively with current drug delivery methods. The advantages of CSF drug delivery could be further exploited by combining chemical targeting strategies. One of these strategies utilizes magnetic nanoparticles bound to the biologic agent and a focused magnetic field to selectively target specific regions. Visualization of the spread of the F-NMPs was visualized in a poly-carbonate tube to gather data on their movement and the influence of a magnetic field on their delivery efficiency and targeting capabilities. It was discovered that a concentrated magnetic field heavily influenced the dispersion rate of the F-NMPs, and a stationary magnet was able to collect the majority of the injected particles.

#### **Project Accomplishments and Goals**

##### **1. Synthesize fluorescently tagged Iron(III) Oxide Magnetic Nanoparticles**

A fluorescently tagged nanoparticle gives the ability to collect high quality imagery showing accurate particle spread and concentration throughout the spinal model. By synthesizing nanoparticles in the lab, consistent size and geometries could be replicated and held constant over all experiments.

**Result:** The IONPs were successfully synthesized in the lab and employed in multiple preliminary experiments. Due to the particles small size and concentration of particles in solution, almost all UV light was absorbed, and fluorescence was only visualized with the aid of a fluorescent microscope. Transmission Electron Microscope imaging revealed that the particles that were synthesized in the lab were indeed within 10nm of the desired 50nm diameter.

##### **2. To develop and construct a prototype targeting system**

A secondary model of the CNS was developed to provide increased particle visualization and the ability to completely remove all residual particles

between experimental trials. A clear polycarbonate tube with an internal acrylic rod was used as an optimized model of the human CNS. A method for transporting the particles along the spinal model was developed using a 5-axis robotic arm in conjunction with a linear stage. This provided the most precise and constant movement of the magnet along the spinal column. It was discovered that slight variations in the robotic arm pathway had a great effect on the spread of particles to the target area. Multiple movement patterns were developed to optimize spread.

### 3. Optimize particle spread and deliver high concentrations of IONPs to target area

Using an optimal robotic arm pathway, the particles were efficiently moved, and collected in various target areas along the spinal column. The support structures for the spinal cord proved to be an interesting case of CSF mixing, and acted as an effective barrier for particle spread. Further work will need to be done on the spinal model to prevent particle clumping around any support structures.

Project Title: Why your gut may be working against you: gut derived molecules cause dysmotility and neuropathy in high fat fed mice

**Abstract:**

Type 2 diabetes (T2D) is a prevalent disease in the United States, affecting 21.9 million people. Patients often suffer from gastrointestinal (GI) issues like stomach cramps and constipation. This is caused by a reduction in inhibitory motor neurons in the intestinal tract. Recent studies have shown the development of gastrointestinal dysmotility and neuropathy before the onset of T2D, and ileocecal supernatants from high fat (HF) fed mice caused dysmotility and neuropathy *ex vivo*. However, the specific cause of dysmotility and neuropathy are still not known. We hypothesized that fractions from HF ileocecal supernatants would cause dysmotility and neuropathy. High Performance Liquid Chromatography (HPLC) was used to separate supernatants into aqueous (water) and methanolic fractions which were tested on mice intestinal muscularis tissue. Contractions of the tissue samples were counted, and immunohistochemistry and imaging used to determine if these fractions caused neuropathy. Water fractions from HF mice caused a significant decrease in muscularis contractions after 24 hours; water fractions of standard chow fed (SC) mice and methanolic fractions of HF and SC mice did not significantly induce dysmotility. It was also found that HF water fractions caused a reduction in neuronal nitric oxide synthase (nNOS) staining, indicating that the inhibitory motor neurons were damaged. These results suggest a molecule(s) in the HF water fractions are causing dysmotility and neuropathy. Sub-fractionation and chemical analysis of these fractions will narrow down on gut derived molecules that may be causing these symptoms; and lead to treatment options before the start of T2D.

**Project goals and accomplishments:**

1. Test the effects of the fractions on longitudinal muscle myenteric plexus contractions at 0, 24, and 48 hours

I was able to culture my preparations in each fraction, along with a control, and record videos of the contraction of the tissue samples at all time points. I recorded the number of contractions for analysis and was able to determine that the HF water fractions were causing a significant decrease in muscular contractions, telling us that they may be causing dysmotility.

2. Determine what fractions, if any, cause neuropathy; specifically, a reduction in inhibitory motor (nNOS) neurons.

After staining the samples mentioned above and analyzing the images and data, we determined that the HF water fractions caused a significant reduction in nNOS staining, as

well as lowering the overall percentage of nNOS neurons. This shows that the HF water fraction may be causing neuropathy and a decrease in inhibitory motor neurons.

3. Identify molecules that may be causing dysmotility and neuropathy in mice fed a HF diet

This was the first step towards accomplishing this overall goal. We have successfully narrowed down on the fractions causing these symptoms, although further research must be done to identify certain culprits.

**Result:**

*These data suggest that molecules present in the supernatant of high fat fed mice ileocecal content causes dysmotility and neuropathy in mice.*

**Summary of budget expenditures:**

Supplies	Cost

Project Title: Body Image, Body Composition & Energy Intake of Adolescent Aesthetic Athletes

**Background:** Adolescent athletes in aesthetic sports such as gymnastics and dance are often evaluated based on appearance and weight. Many of these athletes' experience heightened attention on appearance and it is common to observe unhealthy behaviors in attempt to achieve a particular physique. **Purpose:** The purpose of this study was to assess adolescent aesthetic athletes' body image, body composition and energy intake. **Methods:** Gymnasts and dancers (n=24; age 10.54±2.99) completed questionnaires regarding medical history, body image perception and food consumption. Additionally, body composition was assessed using a dual energy x-ray absorptiometer (DXA). **Results:** 92% (n=22) of the participants felt pretty and were happy with the way their body looked. When asked about being perfect, 79% (n=19) of the participants "didn't worry about it" while 17% (n=4) of the participants put "a lot of pressure on themselves to be perfect". Only 4% (n=1) reported feeling "bad about themselves" whereas 46% (n=11) felt "good about themselves". Body composition results showed healthy weight (37.86 ± 14.02kg), height (55.78 ±6.23in), lean mass (27.04 ±9.57kg), and bone mineral density (BMD) (0.771 ±0.19). Total dietary intake averaged 1,984±538.7 calories, 86.70 ±11.92g/d protein, 286.60 ±53.55g/d carbohydrate and 995.65 ±414.19mg/d calcium. **Conclusion:** Most participants had high self-esteem and body image perception. Three gymnasts recorded at risk for low BMD and one gymnast recorded low BMD for their chronological age. Calcium was recorded below the recommended daily value (1000mg/d), while the macronutrients were above the recommended daily value (19-46g/d protein and 130g/d carbohydrates).

**Project Description**

Aesthetic sports are considered weight-sensitive since the artistic movements that occur during performance are most optimal when the athlete is lean and graceful (6). Aesthetic athletes become aware of the emphasis placed on achieving a lean physique at a young age often beginning as early as 3 years old (24). It has been previously established that peak performance occurs well before puberty in aesthetic sports and excess fat mass (FM) is seen as a disadvantage (33). Therefore, these athletes are subjected to heightened risk for body image dissatisfaction and eating disorders at a much earlier age than other non-aesthetic sports (9, 10, 33).

Since many aesthetic athletes are concerned about appearance, they often consume a low energy diet to maintain a lean physique (9, 34). Low energy intake can place athletes at risk for inadequate nutrient consumption resulting in inadequate recovery, fatigue, and loss of lean body mass (LBM) (34). In addition, low energy intake is often combined with heavy training loads which places aesthetic athletes at a higher risk for injury, stress, and immune system problems (34). If aesthetic athletes chronically diet, it

can impair overall health and physical function, while also causing more serious medical complications that involve the cardiovascular, endocrine, gastrointestinal, and central nervous systems (34). Additionally, delayed menarche, bone growth retardation, reduced height, weight, and FM, and increased rate of injuries can occur at an early age because of inadequate energy intake and heavy training loads in adolescent aesthetic athletes (17, 23, 31, 34).

Gymnasts have been reported to perform exercise training at higher intensities when compared to dancers which may be related to a greater chance of growth stagnation, slowed development of secondary characteristics, and delayed menstrual cycle onset (21). Although gymnasts and dancers have similar overall energy intake, as well as body image dissatisfaction and eating disorder concerns, gymnasts often have a greater overall bone mineral density (BMD) than dancers (10, 21). This may be due to gymnasts performing higher-load activity on the upper and lower body, while dancers lack the weight bearing activity in the upper body. As a result, dancers are often reported as having lower total BMD when compared to gymnasts (8, 21). Low BMD is related to factors such as energy intake and weight bearing activity, both of which increase the risk for injuries and future health problems.

Previous research has used a variety of methods to assess body image dissatisfaction, body composition, energy intake and eating disorders among aesthetic athletes (5, 7, 9, 22, 34). Understanding the relationship between body image dissatisfaction, body composition, and energy intake in adolescent aesthetic athletes can help to prevent and reduce the prevalence of eating disorders and medical complications often observed in this population. Gaps in the current literature stress the need to continue to explore possible explanations for body image dissatisfaction, eating disorders, and injury occurrence in adolescent gymnasts and dancers (1, 7, 9). Therefore, this project will investigate body image, body composition, and energy intake in an adolescent aesthetic athlete population. The project's overall objective is to evaluate the differences between early aged gymnasts and dancers' body image perception, body composition, specifically BMD and LBM, and energy intake in order to identify and develop methodology to improve overall health and performance in the future.

### **Accomplishments**

The initial plan for the research project was to recruit fifteen gymnasts and fifteen dancers to participate to compare and contrast their body image, body composition, and energy intake. Although we are still in the process of recruiting the rest of the participants, it has been much easier to recruit the gymnasts than the dancers. As of now, 18 gymnasts have participated and only 6 dancers. The remaining 6 participants that we recruit will be dancers with the hope that we are better able to find similarities and differences in the two aesthetic athlete populations.

Though some of the participants were as young as five, all of the participants were able to complete the DXA scan with no issues. In addition, if the participant was too young to be able to read the body image/self-esteem questions, the researcher would read the questions aloud to the participant so they could choose the best option for themselves. In the end, every participant completed the DXA scan and was able to answer all of the questions to the body image/self-esteem questions, providing us with enough data to analyze and come up with results and conclusions.

**Budget Expenditures**

<u>Dual-Energy X-Ray Absorptimetry (DEXA) Scans:</u> in order to assess bone mineral density in dancers and gymnasts DEXA scans will be conducted in the HPL. Scan cost is \$5.80/participant and contributes towards maintenance of the equipment. 30 participants x \$5.80 =\$175	\$175
<u>Participation Compensation:</u> incentive to participate, compensation for travel to HPL and time invested in the study. 30 participants x \$25 = \$750	\$750
Poster Printing For presentation at the Undergraduate Research Symposium	\$75
Student Stipend	\$4,000
Total	\$5,000

Since we still have six participants coming into the lab later this month, there is \$34.80 that has not yet been spent for DXA scans and \$150 dollars that has not been given out to the participants for participation compensation. In addition, since this research project was not presented at the ICUR due to not having enough data recorded yet, the \$75 for the poster printing will be spent by the end of this month when the poster is printed. By August 31<sup>st</sup>, all \$1,000 in project funding will be spent. Results will be presented at the UI Undergraduate Research Symposium in April, 2019.

**Acknowledgment:** This work was made possible by generous support from the Idaho State Board of Education which provided the funding for this Undergraduate Research Grant from the Office of Undergraduate Research. I benefited greatly from this experience and I sincerely thank the SBOE and UI's Office of Undergraduate Research for making this possible.

Project Title: Non-thermal Liquid Plasma Treatment for Antibiotic Removal in Aqueous Solution

**Abstract:** Traditional wastewater treatment processes are not able to degrade pharmaceuticals which find their way into the water system; one solution currently being explored to prevent these emerging contaminants from being released into the environment is advanced oxidation processes (AOPs), including non-thermal liquid plasma (NTLP) treatment. The NTLP process produces high energy mobile electrons and oxidizing radicals which degrade large organic molecules. In this proposed project, a novel reactor design will be used which includes a circulating treatment and discharge occurring in the liquid phase to remove three types of beta-lactam penicillins. The conclusion of this study will give results of the amount of degradation achieved, the effects of different reactor parameters on removal rates and efficiency, energy yield (mass removed per kWh), and the influence of  $\cdot\text{OH}$  and  $\text{H}_2\text{O}_2$  radicals on removal. Finally, this new reactor design can be compared to other non-thermal plasma reactors' results in order to make suggestions for its applicability in industry.

**Project Accomplishments:**

Objective 1: Treated solution physical properties

The  $\text{H}_2\text{O}_2$  and COD concentrations are indicators for the chemical processes occurring during treatment. If Chemical Oxygen Demand of the samples decreased during treatment with the NTLP reactor for all three antibiotics, this would suggest that the molecules were oxidized and degraded. A hydrogen peroxide concentration increase would assist in oxidizing these compounds. A 1-hour treatment of tap water was analyzed for the hydrogen peroxide generation.

Result: The COD levels of ampicillin and amoxicillin decreased by 18% and 17% respectively. Oxacillin decreased less than 10%. This lower change may indicate that there is a larger organic part left over after degradation.  $\text{H}_2\text{O}_2$  concentrations consistently increased during treatment reaching around 200ppm after 1 hour, which would provide additional oxidizing potential of this treatment. pH also increased after treatment, which means there is a higher  $[\cdot\text{OH}]$  concentration. The exact antibiotic concentrations were not able to be calculated with the proposed spectrophotometric method, but further tests will be conducted to find these removal values.

Objective 2: Effect of reactor parameters

Parameters of the reactor such as liquid flow rate, applied power, air flow rate, and starting concentrations were tested to find the most efficient operating conditions for the reactor.

Result: In all experiments, applied power increases degradation of organic molecules. The highest energy yield, which was calculated as mass removed per kWhr, was around 300 Watts. Conversely, the lower the flow rate, the better the discharge was able to treat the solution.

Objective 3: Effect of  $\text{FeCl}_2$  as a catalyst

Addition of  $\text{FeCl}_2$  into a NTLP treatment has been shown to increase the production of hydroxyl, a powerful oxidizer.

Result: No consistent trend was obtained from using  $\text{FeCl}_2$  as a catalyst in production of oxidizing radicals at 10 mg/L concentration.

**Budget Expenditures:**

<b>Supplies</b>	<b>Cost</b>
Chemical reagents and antibiotics	\$89.84
Ampicillin (5g)	\$35.01
Oxacillin sodium salt (2g)	\$28.28
Amoxicillin trihydrate (5g)	\$24.07
Passive high voltage probe	\$827.80
Student Fellowship	\$4,000
<b>Total</b>	<b>\$5,005</b>

**Conference Presentation:** This research was presented at the poster presentation session during the Idaho Conference on Undergraduate Research (ICUR) in Boise, ID, July 25-26, 2018.

**Acknowledgement:** I truly appreciate the generous support provided by the State Board of Education in the form of a Summer Undergraduate Research Fellowship. This was a tremendous experience for me. Without this support from the SBOE, I would not have been

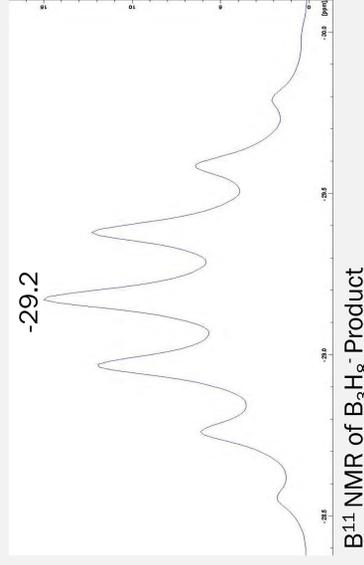

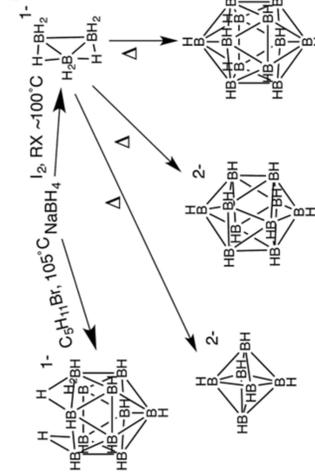

# MECHANISTIC ANALYSIS OF BOROHYDRIDE THERMOLYSIS

Mason Anderson, Dr. Mark Roll: University of Idaho Chemical and Materials Engineering Department

## Introduction

- Borohydride clusters are synthesized with reactive/toxic neutral borane compounds such as diborane
- Oligomerization into larger clusters is dictated by heat and cluster concentration
- Little research has been done towards the synthesis of borohydride clusters utilizing shelf-stable  $\text{NaBH}_4$
- Borohydride clusters show novel nano-building block characteristics, extensive electrochemical functionality of the closo-ionic borohydride clusters ( $\text{B}_{12}\text{H}_{12}^{2-}$ )

## Borohydride Clusters

- Incorporation of icosahedral borohydride clusters and closo-carboranes into refractory thin-films exhibit high temperature and radiation resistance
- Reaction solvent is critical for the dissolution of  $\text{NaBH}_4$  and in-situ capture of  $\text{BH}_3$
- The ability to selectively synthesize the  $\text{B}_3\text{H}_8^-$  anion is crucial for non-toxic synthesis, but current work does not propagate beyond laboratory scale

## Results

### Kinetics

- Reactant concentration and addition rate are critical factors
- Rapid addition can deplete local  $\text{BH}_4^-$  concentration, leading to side products
- Rate of reaction is extremely different, even for similar reactants

### Solvent Decomposition

- Results show decomposition of diglyme in as little as 3hrs at 95 °C during reaction
- THP (tetrahydropyran) shows no decomposition after 24hrs during reaction at reflux (88 °C)
- THP does not dissolve  $\text{BH}_4^-$  well and causes drastically different product observation

Reactant	Solvent	Reactant Concentration (M)	Time (hr)	Temperature (°C)	Results
Iodine	Diglyme	1.8	2	95	$\text{B}_3\text{H}_8^-$ cluster selective
Methyl Iodide	Diglyme	Solid	Rapid	95	Higher clusters, heavy side-products evident
	THP	Solid	Rapid	88	Higher clusters, few side products
	Diglyme	Neat	3-70	RT	No clusters formed, photodissociation of MeI
Pentyl Bromide	Diglyme	Neat	2	95	No $\text{B}_3\text{H}_8^-$ formation, excess formation of $\text{B}_2\text{H}_7^-$
Copper (I) Chloride	Diglyme	1.8	2	95	Small $\text{B}_3\text{H}_8^-$ formation
	Diglyme	Solid	Rapid	100	$\text{B}_3\text{H}_8^-$ formation, difficult workup due to metal deposition
Copper (II) Sulfate	THP	Solid	Rapid	85	Higher borane clusters, no $\text{B}_3\text{H}_8^-$ formation
	Water	Solid	1	95	Reduced metal deposition, no clusters, only borate product

## Conclusions

- $\text{B}_3\text{H}_8^-$  can be synthesized in good yields from non-toxic precursory materials
- Kinetic issues need to be addressed
- Investigation into a new solvent with high  $\text{BH}_4^-$  solubility and low reactant solubility
- Better understanding of  $\text{B}^{11}$  NMR identification is needed for intermediate products

## Acknowledgments

- University of Idaho Summer Undergraduate Research Fellowship
- University of Idaho Department of Chemical and Materials Engineering

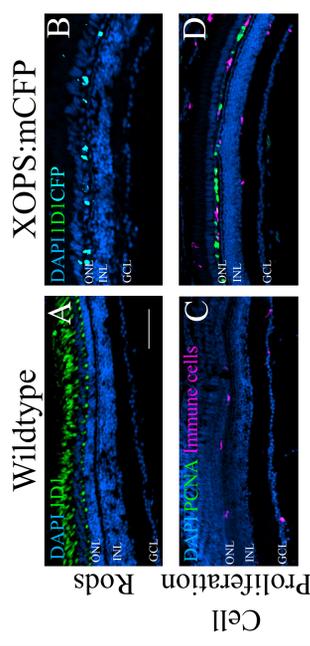

### Abstract

Activated and pro-inflammatory microglia, along with accompanying local inflammation, are associated with human retinal degenerative disease. However, it remains unclear if these aspects of the immune response are symptomatic or directly initiate and/or contribute to disease pathology, such as the death of additional retinal neurons. One hypothesis for continued loss of neurons in retinal degenerative disease is that microglia may engulf, or possibly initiate cell death of, otherwise healthy neurons (1,2).

Our project attempts to test this hypothesis using a zebrafish system in which rod photoreceptors die due to a toxic transgene (XOPS:mCFP), but cone photoreceptors survive (3). We first characterized microglial characteristics in XOPS:mCFP retinas compared to wildtype and found that microglia localize to the photoreceptor layer and engulf dying rods, but total numbers of microglia are similar. Next, we successfully induced a pro-inflammatory retinal immune environment by intravitreal injection of zymosan (a pro-inflammatory compound) (4), as indicated by our results showing infiltration and accumulation of immune cells in the retina and gene expression of selected transcripts.

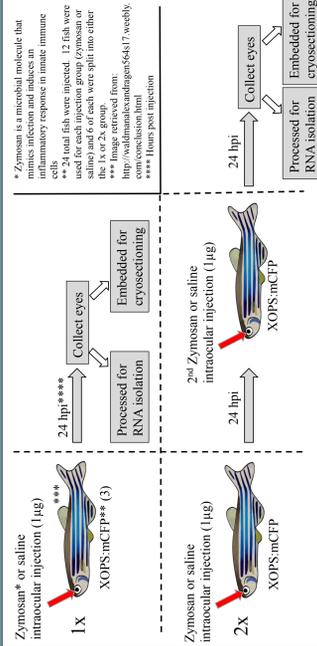

Our next goal is to determine if this induction of a pro-inflammatory retinal environment may result in subsequent cone death or disappearance in XOPS:mCFP retinas, thus directly probing contributions of a dysregulated immune environment to retinal degenerative disease.

**Figure 1: Perpetual Rod Death and Regeneration in XOPS:mCFP Zebrafish Retinas**

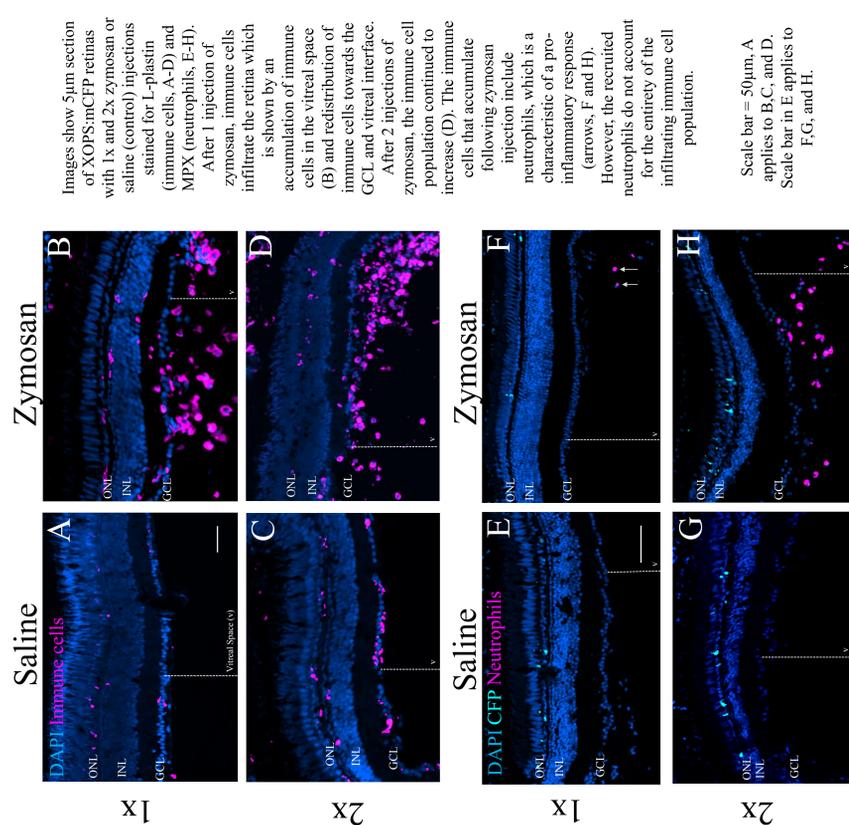

Images show a 5µm section of zebrafish retina from wildtype and XOPS:mCFP transgenic fish. Wildtype retinas (A,C) show healthy rods (A, labeled by ID1) and lack of cell proliferation in the outer nuclear layer (ONL) (C, labeled by PCNA). XOPS:mCFP retinas (B,D) show far fewer rod photoreceptors (B, labeled by CFP). ID1 is not observed in XOPS:mCFP retinas because they do not express the protein rhodopsin (3), which is the ID1 antibody target. We also observe a constant attempt to regenerate dying rods by proliferative rod precursors (D, labeled by PCNA). In XOPS:mCFP retinas, we also see that microglia localize to the ONL (similar to C) around the PCNA+ cells, but do not express PCNA themselves (D). This tells us that immune cells are not dividing in response to ongoing rod death, but instead the PCNA+ cells likely represent only rod precursors. Scale bar = 50µm and applies to all images. INL = inner nuclear layer, GCL = ganglion cell layer, PCNA = proliferating cell nuclear antigen.

### Methods: Modulation of the Retinal Immune Environment

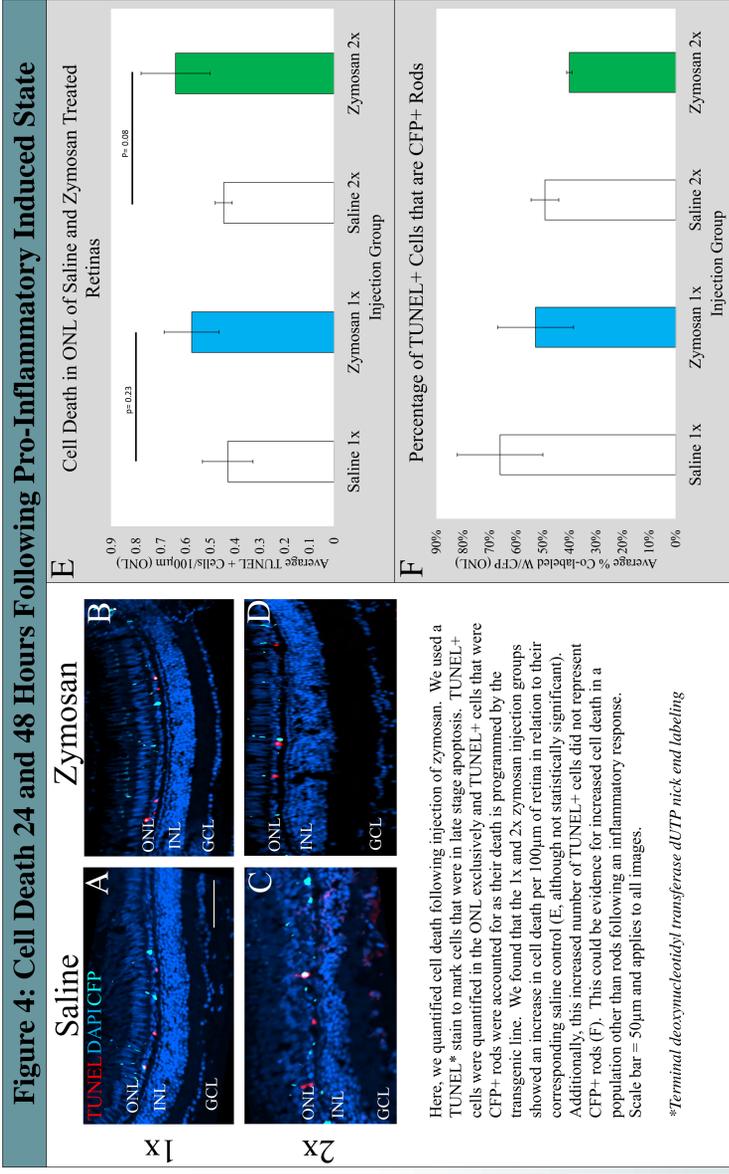

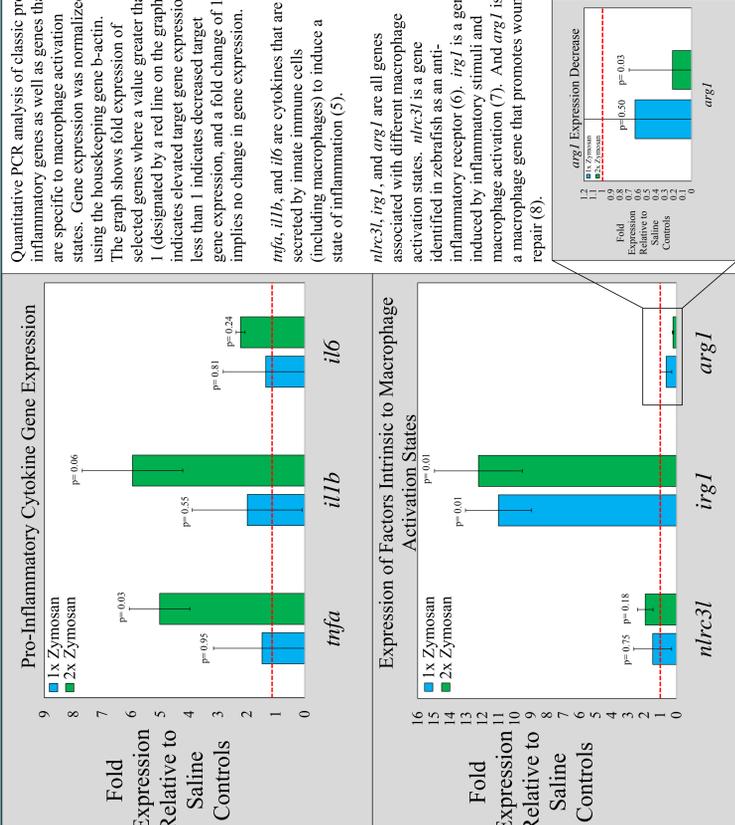

**Figure 2: Zymosan Treated Retinas Show Infiltrating Immune Cell Response**

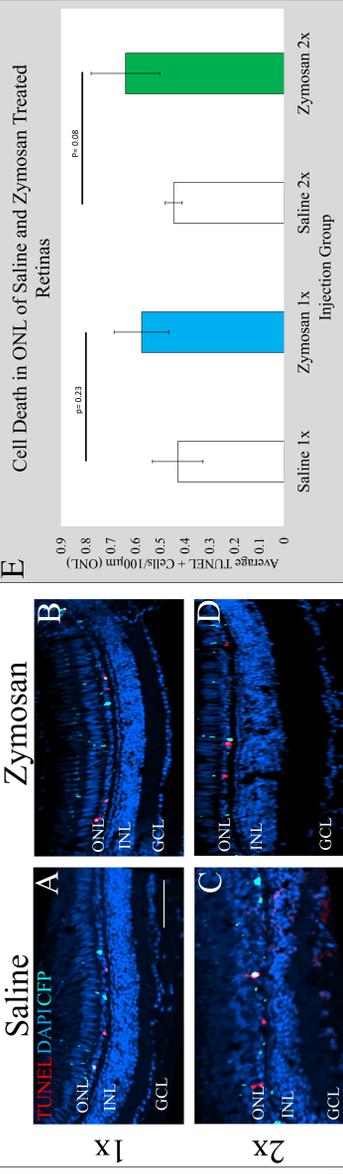

Images show 5µm section of XOPS:mCFP retinas with 1x and 2x zymosan or saline (control) injections stained for L-plastin (immune cells, A-D) and MPX (neutrophils, E-H). After 1 injection of zymosan, immune cells infiltrate the retina which is shown by an accumulation of immune cells in the vitreal space (B) and redistribution of immune cells towards the GCL and vitreal interface. After 2 injections of zymosan, the immune cell population continued to increase (D). The immune cells that accumulate following zymosan injection include neutrophils, which is a characteristic of a pro-inflammatory response (arrows, F and H). However, the recruited neutrophils do not account for the entirety of the infiltrating immune cell population.

Scale bar = 50µm. A applies to B,C, and D. Scale bar in E applies to F,G, and H.

**Figure 3: Increase in Pro-Inflammatory Gene Expression Following Zymosan Injection**

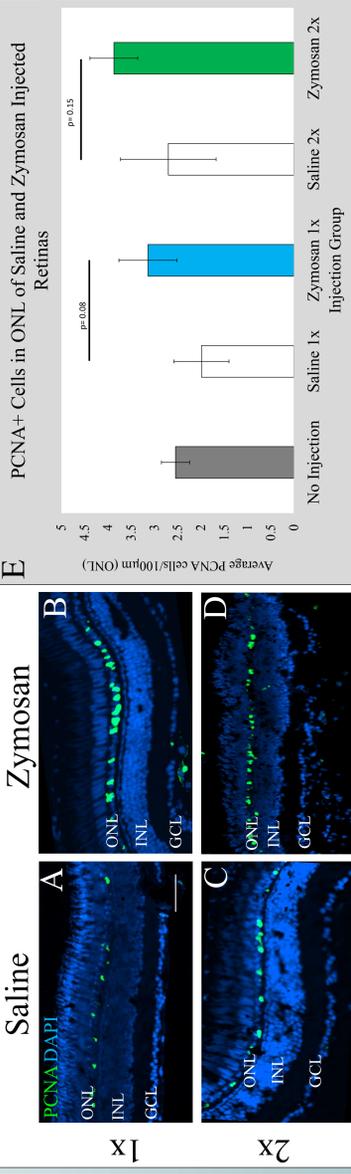

**Figure 4: Cell Death in ONL of Saline and Zymosan Treated Retinas**

Here, we quantified cell death following injection of zymosan. We used TUNEL+ stain to mark cells that were in late stage apoptosis. TUNEL+ cells were quantified in the ONL exclusively and TUNEL+ cells that were CFP+ rods were accounted for as their death is programmed by the transgenic line. We found that the 1x and 2x zymosan injection groups showed an increase in cell death per 100µm of retina in relation to their corresponding saline control (E, although not statistically significant). Additionally, this increased number of TUNEL+ cells did not represent CFP+ rods (F). This could be evidence for increased cell death in a population other than rods following an inflammatory response. Scale bar = 50µm and applies to all images.

\*Terminal deoxynucleotidyl transferase dUTP nick end labeling

**Figure 5: Cell Proliferation 24 and 48 Hours Following Pro-Inflammatory Induced State**

**Figure 5: Cell Proliferation 24 and 48 Hours Following Pro-Inflammatory Induced State**

Images show 5µm section of XOPS:mCFP retinas with 1x and 2x zymosan or saline (control) injections stained for PCNA to indicate cell proliferation. PCNA+ cells were quantified in the ONL exclusively. We found that the 1x and 2x zymosan injection groups had more PCNA+ cells per 100µm of retina when compared to their corresponding saline control (E). XOPS:mCFP eyes that did not receive an injection were also quantified as a control. We found that the zymosan treated eyes had an increased number of PCNA+ cells when compared to eyes receiving no injection, but was not statistically significant ( $p=0.70, 1x$ ) ( $p=0.18, 2x$ ). Both groups of saline injected controls showed no significant change when compared to eyes receiving no injection ( $p=0.03, 1x$ ) ( $p=0.38, 2x$ ). We observed that only rarely were L-plastin+ cells also PCNA+ (not shown) indicating that immune cells in the ONL did not represent significant numbers of the PCNA+ cells quantified. Scale bar = 50µm and applies to all images.

### Conclusions and Future Directions

- We have shown that we can induce an inflammatory response in the zebrafish retina by using the microbial compound zymosan to mimic infection. Resident and infiltrating immune cells mount an inflammatory response as early as 24 hpi and continue to infiltrate up to 48 hpi. Along with infiltrating immune cells characteristic of an inflammatory response, we observed an increase in gene expression for target genes that are indicative of a pro-inflammatory state of macrophage activation.
- In 1x and 2x zymosan injected XOPS:mCFP retinas, TUNEL+ and PCNA+ cells were slightly more numerous than in saline injected controls (although differences were not statistically significant). Also, less cell death appeared to be attributed to CFP+ rods in the zymosan injected retinas.
- The future of this project will be to determine if sustained inflammation (for longer periods) in the retinal microenvironment may result in subsequent cone death, other signs of pathology, in XOPS:mCFP retinas, more akin to simulating a chronic degenerative disease. Moving forward we hope to directly probe the contributions of a dysregulated immune environment to retinal degenerative disease.

### Acknowledgements

Funding: The research for this project was supported by a University of Idaho Summer Undergraduate Education Research fellowship made possible by a 2017-2018 Undergraduate Research Grant from The University of Idaho. I would like to thank all members of the Mitchell and Stenkamp lab for their technical assistance, discussion, and guidance: Ann Norton, IBEST OIC, Dr. Ann Morris (University of Kentucky) for providing the XOPS:mCFP zebrafish line; Dr. Michael Reard (University of Utah) for providing the L-plastin antibody; and Dr. James Faddool (Florida State University) for providing the ID1 antibody.

# Computing Fourier Coefficients of Siegel Modular Forms

Beau Horenberger

## Fourier Expansions

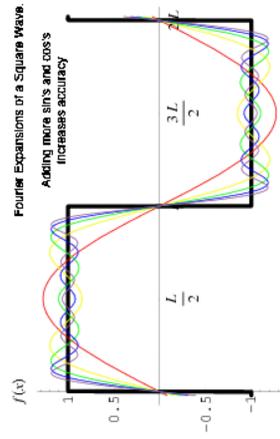

Fourier expansions are a method of writing a periodic function,  $s(x)$ , as a sum of other, simpler functions: sin and cosine waves. One way to write this representation is

$$f(x) = \sum_{n=0}^{\infty} A_n \cos\left(\frac{n\pi x}{L}\right) + \sum_{n=1}^{\infty} B_n \sin\left(\frac{n\pi x}{L}\right)$$

Though this can be condensed as

$$f(x) = \sum_{n=1}^{\infty} c_n e^{i \frac{2\pi n x}{L}}$$

The following is a set of approximations using the first  $k$  terms of a Fourier expansion:

Fourier expansions are a valuable method for analyzing the behavior of functions. The coefficients  $c_n$  are determined via

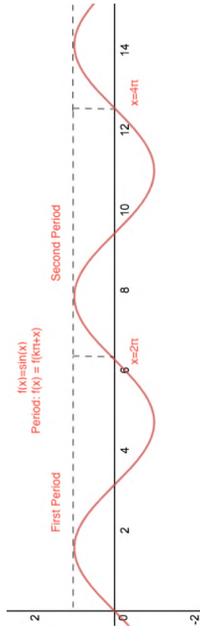

$$c_n = \frac{1}{P} \int_{x_0}^{x_0+P} s(x) \cdot e^{-i \frac{2\pi n x}{P}} dx,$$

Where  $s(x)$  is the original function. These coefficients contain information about the original function and are relevant in the analysis of modular and Siegel modular forms.

## What Are Modular Forms?

Modular forms are complex-valued forms with a kind of periodicity, because of which they can be approximated via Fourier series or polynomials.

Traditional periodicity is illustrated below:

Rather than a period  $P$  and the relation

$f(x) = f(kP+x)$ , a modular form of weight  $k$  has the following relation:

$$f\left(\frac{az+b}{cz+d}\right) = (cz+d)^k f(z) \text{ for all matrices } \det \begin{pmatrix} a & b \\ c & d \end{pmatrix} = 1$$

With  $a, b, c, d$  being integers.

Notice that if we have the matrix  $\begin{pmatrix} 1 & 1 \\ 0 & 1 \end{pmatrix}$ , our equation becomes

$$f(z+1) = f(z)$$

And if we have the matrix  $\begin{pmatrix} 0 & 1 \\ -1 & 0 \end{pmatrix}$ , it becomes

$$f\left(-\frac{1}{z}\right) = z^k f(z)$$

In fact, these two matrices are sufficient to generate all matrices of determinant 1 and describe the underlying actions at work in the set of matrices.

The theory of modular forms has been relevant in many Number Theory proofs as well as in the theory of elliptic curves. An example is Jacobi's 4-Square Theorem, which describes the number of ways an integer can be written as the sum of four squares:

$$\left(\sum_{n=-\infty}^{\infty} q^{n^2}\right)^4 = \sum_{a,b,c,d \in \mathbb{Z}} q^{a^2+b^2+c^2+d^2} = 1 + 8 \sum_{m=1}^{\infty} \sum_{d|m} dq^m.$$

## Binary Quadratic Forms

Binary quadratic forms with discriminant  $N$  are expressions of the form

$$f(x, y) = ax^2 + bxy + cy^2, \text{ where } b^2 - 4ac = N$$

Two binary quadratic forms,  $f(x, y)$  and  $g(x, y)$ , are properly equivalent if there exists a transformation  $\begin{pmatrix} a & b \\ c & d \end{pmatrix}$  with determinant 1 such that

$$f(ax + by, cx + dy) = g(x, y)$$

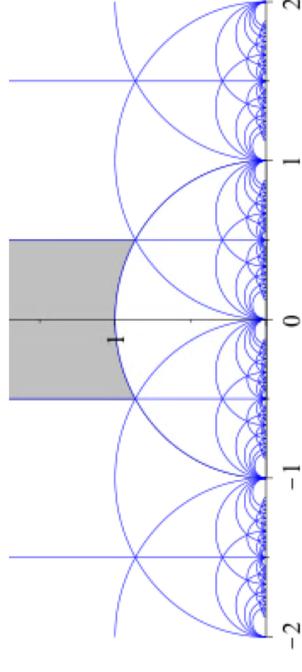

This means properly equivalent binary quadratic forms represent the same values.

Binary quadratic forms of negative discriminant  $N$  are always equivalent to exactly one reduced form, where

$$b \leq a \leq c, \text{ where } b \geq 0 \text{ if } |b| = a$$

And a similar circumstance applies to positive discriminants. There are a finite number of reduced forms, and thus, it can be shown that binary quadratic forms of a discriminant  $N$  can be broken into a finite number of equivalence classes.

The set of reduced forms can be used to reach all other forms via transformation, and thus are valuable for representation purposes. We consider this the "fundamental domain" of binary quadratic forms. The fundamental domain for transformations of the form  $\begin{pmatrix} a & b \\ c & d \end{pmatrix}$  with  $\det \begin{pmatrix} a & b \\ c & d \end{pmatrix} = 1$  is shown here to give a visual representation of the concept.

## Siegel Modular Forms

Siegel modular forms are similar to modular forms, but instead use complex matrices. Siegel modular forms have a level,  $N$ , weight,  $\rho$ , and degree (or genus),  $g$ .

They can be generated through the use of a series, such as the Eisenstein series.

As an example, we consider the Siegel modular form of weight 24, level 4, and degree 1 which has an explicit formula:

$$78 * A^2 * B * C - 67 * A^3 * D - 274492800 * A * C^2 + 25 * B^2 * D + 71539200 * D^2$$

Where  $\begin{pmatrix} A & B \\ C & D \end{pmatrix}$  is in  $\Gamma_g(N)$ , the symplectic group of level  $N$ , defined as

$$\Gamma_g(N) = \left\{ \gamma \in GL_{2g}(\mathbb{Z}) \mid \gamma^T \begin{pmatrix} 0 & I_g \\ -I_g & 0 \end{pmatrix} \gamma = \begin{pmatrix} 0 & I_g \\ -I_g & 0 \end{pmatrix}, \gamma \equiv I_{2g} \pmod{N} \right\}$$

Sample coefficients of the Fourier expansion include:

$$-576, -72864, \text{ and } -722304$$

One kind of modular form, the Siegel paramodular form, uses only an arithmetic subgroup of the symplectic group. These Siegel paramodular forms have a Fourier expansion:

$$f(Z) = \sum_{T \in A(N)^+} a(T) e^{2\pi i \text{tr}(TZ)}$$

However, notice the index set of the sum is not in the integers. Instead, they are binary quadratic forms  $S$  such that:

$$S = \begin{bmatrix} \alpha & \beta \\ \beta & \gamma \end{bmatrix}, \alpha \in \mathbb{N}\mathbb{Z}, \gamma \in \mathbb{Z}, \beta \in \frac{1}{2}\mathbb{Z}, \alpha > 0, \det \begin{bmatrix} \alpha & \beta \\ \beta & \gamma \end{bmatrix} = \alpha\gamma - \beta^2 > 0.$$

This is a matrix representation of the binary quadratic forms  $\alpha x^2 + 2\beta xy + \gamma y^2$  meeting the described conditions.

Thus, analyzing the Siegel paramodular form's Fourier coefficients requires an understanding of binary quadratic forms and the values they can represent

## Computing New Siegel Modular Forms

It has been proven that given a Siegel paramodular form (particularly a Siegel cusp form of paramodular level  $N$ , weight  $k$ , and degree 2) can be twisted to create a new Siegel modular form of level  $Np^4$  with a Fourier expansion:

$$\mathcal{J}_\chi(f)(Z) = \sum_{T \in A(N)^+} W(\chi) \alpha_\chi(T) e^{2\pi i \text{tr}(TZ)}$$

Where  $W(\chi)$  and  $\alpha_\chi(T)$  are described in *Fourier Coefficients For Twists Of Siegel Paramodular Forms (Expanded Version)*, and  $\chi$  is the Dirichlet character mod  $p$ .

The definition of  $W(\chi)$  and  $\alpha_\chi(T)$  involves many computations with binary quadratic forms, necessitating theory of binary quadratic forms for analysis of the Fourier coefficients, such as what values they can represent.

## Goals of Research

The goal of this research is to create a code base which can compute equivalence classes and properties of represented values for binary quadratic in order to generate and analyze new Siegel modular forms and their Fourier coefficients. For example, once sufficient conditions were proven, the following code was created to generate representatives of the equivalence classes of binary quadratic forms in the simplest case:

```
int main()
//Gets the discriminant from the user
cout << "Input discriminant (negative numbers only):\n";
int d;
cin >> d;
//This first loop identifies possible a values
for(long int a = 1; a <= sqrt(float(-1*d)/3.0); a++)
//Identifies possible b values
for(long int b = -a; b <= a; b++)
{
//Solves for c, then checks whether a,b,c work
long int c = (d-(b*b))/(-4*a);
//Checks they sum to b, checks gcd, and then ensures they meet the definiti
on of reduced
if(b*b-(4*a*b+c) == d && gcd(b,gcd(b,c))==1)
{
if((abs(b)|=a && a|=c) || b==0) && (abs(b)<=a && a=c))
addForm(a, b, c);
}
}
//counts and prints the forms (not in that order)
printForms();
cout << "h(0)^\n" << countForms() << endl;
}
```

Additionally, further partitions of binary quadratic forms have been identified and computed based on stricter definitions of equivalence.

This code base will be able to twist Siegel paramodular forms using the described  $W(\chi)$  and  $\alpha_\chi(T)$  and analyze the resulting form's Fourier coefficients. Any new forms will then be added to databases of Siegel modular forms, such as LFMDB.

## Introduction

- Human cytomegalovirus (HCMV) infects one percent of newborns annually
- 10% of these infants show CNS/PNS defects at birth and another 10% develop problems in the first 5 years of life
- Mother-child transmission of HCMV is mainly the result of primary (first exposure) maternal HCMV infection
- HCMV is able to pass through the human umbilical vein endothelial cells (HUVEC) and infect the fetus during an infection, which is uncommon for other viral infections
- HCMV uses tegument proteins to target the downregulation of nidogen 1 (NID1)
- Multiple resources are used by the virus to downregulate NID1 indicating some benefit is derived

## Background

**Figure 1:** (A) HUVECs were mock- or virus infected at an MOI=20 and harvested 96 hpi for Western blot analysis. (B) HUVECs were infected with ADic or ADpp71 at MOI=10 and harvested at 48 hpi for Western blot analysis. (C) HFFs (left) or HUVECs (right) were transduced with 1 of 5 NID1 KO CRISPR lentiviruses, then seeded at an equal density and harvested 72 hp plating for Western blot analysis for NID1.

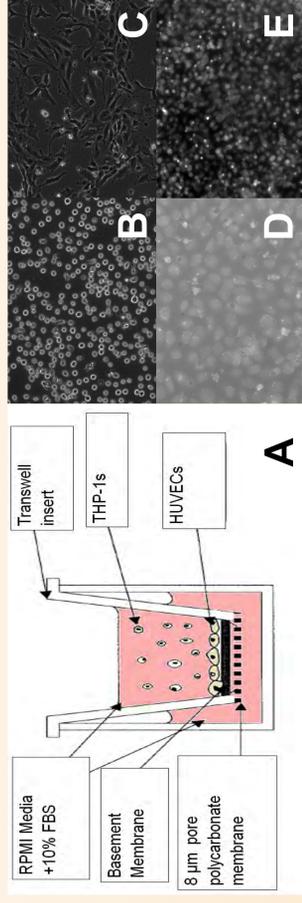

## Objective and Hypothesis

Our overall objective is to elucidate the benefit that HCMV derives from targeting NID1. A series of experiments listed below will test the hypothesis that HCMV uses NID1 downregulation to promote dispersal of infected cells via remodeling of the ECM in infected blood vessels.

## Methods

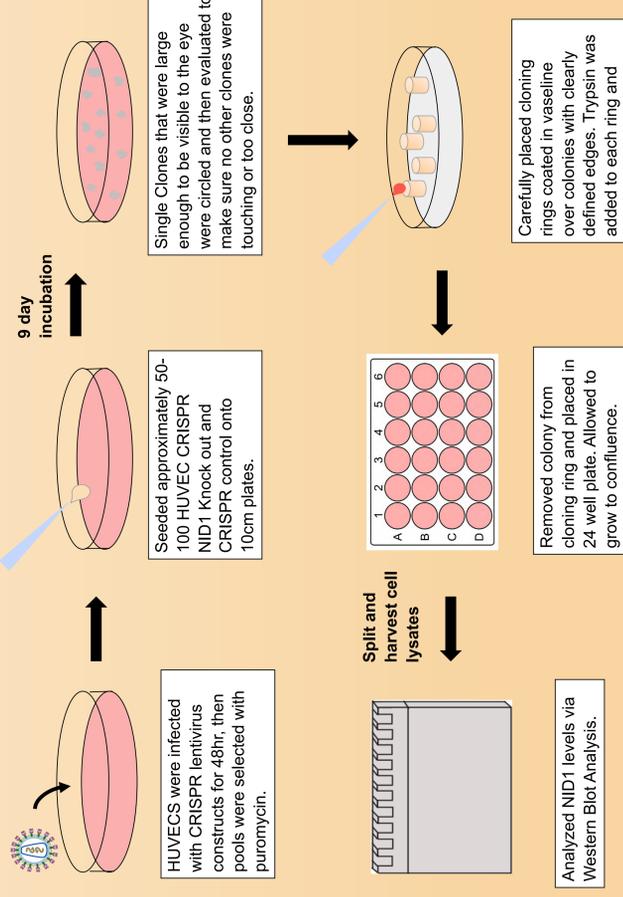

We will test five different treatments of the HUVEC monolayers in order to determine the benefit of targeting NID1: 1) HPV immortalized HUVECs (control/baseline migration), 2) CRISPR NID1 KO HUVECs (to determine the effect of just NID1 knockdown), 3) control CRISPR-treated HUVECs, 4) HCMV-pp71 expressing HUVECs (AD-pp71) (which should knockdown NID1 but may change other additional aspects) and 5) HUVECs infected with full infection of HCMV as well as a mock infection for comparison. HUVECs stably infected with HPV were used for all treatments.

## Transmigration Assay

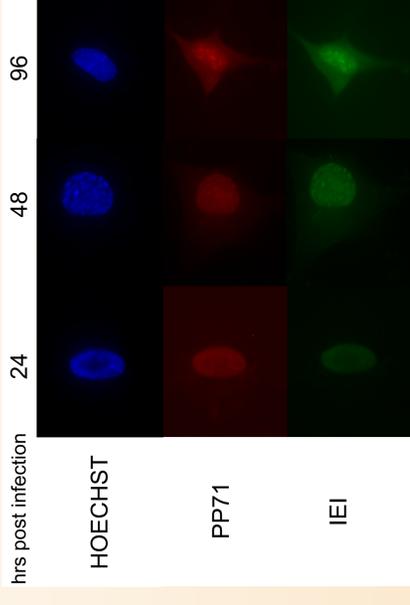

**Figure 2. Schematic Diagram of Transmigration Assay and developed Monolayers.** A, THP-1 monocytic cells were utilized due to their ability to migrate well through the transwell membrane. HUVECs from all four treatments were seeded in triplicate at a density of  $1.5 \times 10^4$  cells in 200 µl of endothelial media onto transwell filters (8 µm pore size) with 600 µl of media in the bottom and allowed to grow to confluence for 8 days. Once confluent,  $5 \times 10^5$  THP-1 cells will be seeded onto the transwell inserts on top of the HUVEC monolayer in 200 µl of RPMI media +FBS. Migration counts were recorded using a hemocytometer at 24 and 48 hours. B, THP1 cells, c, HUVECs, d, HUVEC monolayer in 96 well plate, and e, HUVEC monolayer on transwell insert stained with Calcein. All images were taken using a 10X objective.

## Development of CRISPR HUVECs

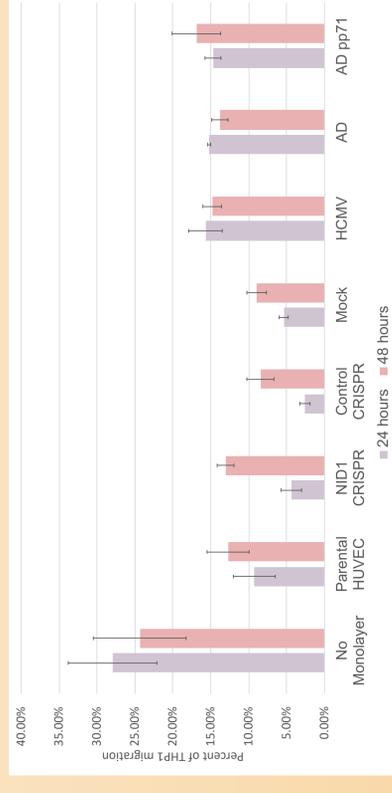

**Figure 3. Schematic Diagram of Single cloning technique.** HUVECs were infected with either a NID1 knock down or an off target CRISPR construct that does not affect any basement membrane proteins. Single cloning was performed and then colonies were analyzed for NID1 levels.

## HCMV/ADpp71 Infections of HUVEC Monolayers

**Figure 4. Images of PP71 and IE1 staining of infected HUVECs.** Once each monolayer had formed HCMV was added at a MOI of 15 and equivalent DMEM F12 was added for mock infection. The media was changed after four hours and THP-1s were added after 24 hours for the migration assay. For the adenovirus infection (not shown), again monolayers were grown to confluence and infected with AD<sub>pp71</sub> or AD<sub>ic</sub> at RT for 30 mins. Media was then added onto of virus before adding THP1s 24 hours later.

## Results

**Figure 5. Preliminary data of transwell assay.** 12 different transwells covering five different experiments for both the parental HUVECs and no monolayer present, 4 transwells in one experiment for both CRISPR constructs, and 2 transwells in one experiment for the HCMV infections and AD infections were tested.

## Conclusion and Future directions

Multiple resources are used by the virus to downregulate NID1 indicating some benefit is derived. We know through these preliminary results that the presence of low amounts of NID1 in the CRISPR pools had similar migration rates as the parental strand, indicating that even a small amount of NID1 helps to uphold the integrity of the monolayer. We also confirmed that a full infection increases migration compared to the mock without decreasing monolayer integrity. Decreased monolayer integrity in the adenovirus infections indicates troubleshooting for future experiments.

# Live Imaging to Probe the Role of Microglia in Developmental Apoptosis in the Zebrafish Retina

Jared Lambert, Anna Lovel, and Diana Mitchell  
Department of Biological Sciences, University of Idaho, Moscow, ID

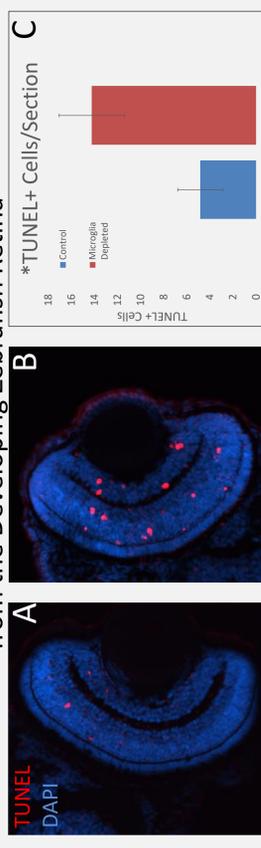

University of Idaho

## Abstract

During mammalian retinal development, programmed cell death (apoptosis) occurs in large waves in a spatio-temporal fashion to generate functional retinas. In zebrafish comparably smaller waves have been observed and are thought to represent fine-tuning of developing retinal tissue (Biehlmaier 2001). It is appreciated that tissue resident macrophages clear apoptotic cells (Hochreiter-Hufford 2013), however, specific roles for microglia in cell survival/death and clearance during retinal development in zebrafish have not been documented. We used an inducible system to specifically deplete macrophages/microglia during retinal development (Petrie 2015) and found an increased number of apoptotic cells in the retina compared to controls. This finding suggests that microglia clear larger numbers of apoptotic cells than is currently appreciated, or alternatively, that microglia provide survival signals to developing retinal cells. To address clearance of apoptotic cells during zebrafish retinal development in real-time, we live imaged fluorescently labeled retinal microglia together with apoptotic cells using acridine orange (AO). We observed that microglia sense and engulf cells prior to AO incorporation, and that engulfed apoptotic cells undergo dynamic movements as microglia continue active migration. This suggests that apoptotic cells visualized in fixed tissues using AO may not represent true levels of apoptosis and their retinal locations may differ from where apoptosis was initiated.

## Background

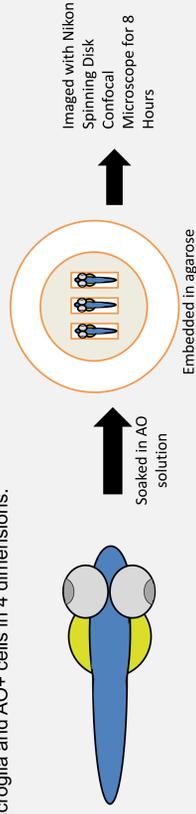

Figure 1. Increase in Apoptotic Cells When Microglia are Depleted from the Developing Zebrafish Retina

Cryosections from control (A) zebrafish retinas (10  $\mu$ m thickness) or those depleted of microglia (B) were stained for TUNEL\* (red) and DAPI (blue). Retinas with depleted microglia show an increased number of TUNEL+ cells than that of control eyes (C). \*TUNEL stands for: Tdt-mediated dUTP Nick End Labeling, and is used to label apoptotic cells undergoing DNA fragmentation.

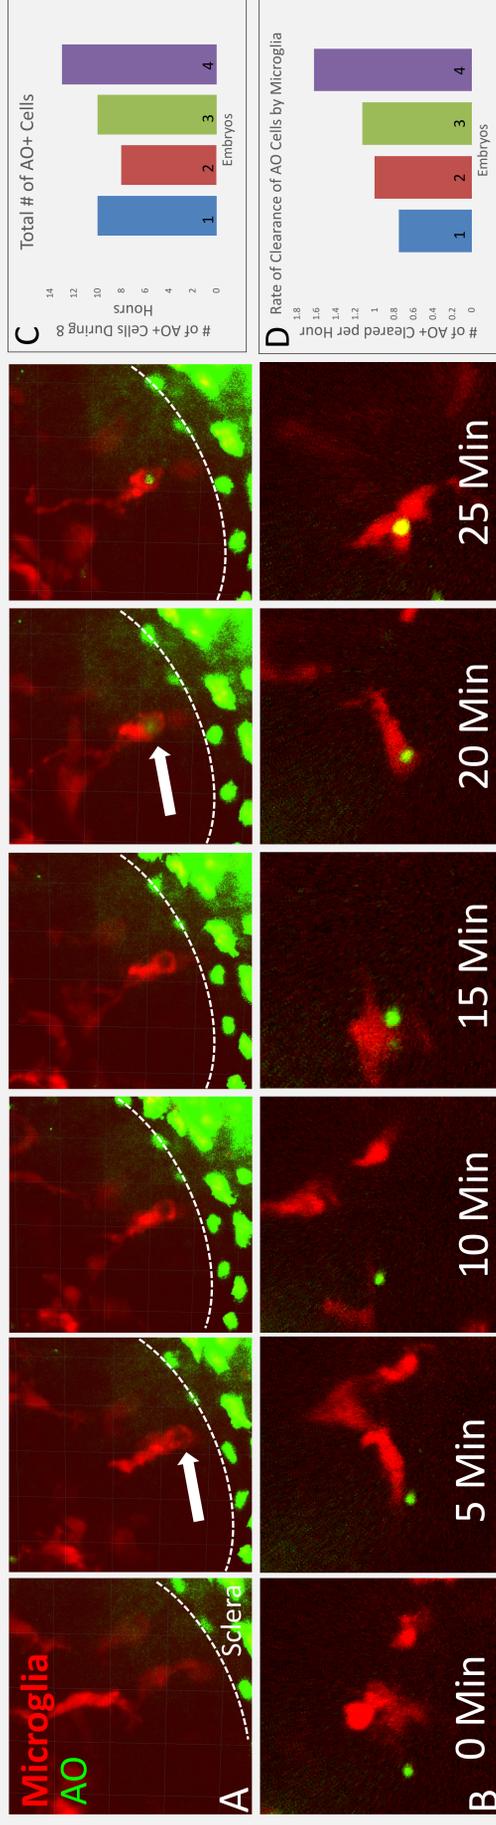

## Methods

- The zebrafish line Tg(mpeg1:mCherry) was used to visualize microglia through fluorescent microscopy, as it expresses a red fluorescent marker in macrophages.
- Embryos were soaked in Acridine Orange (AO) prior to imaging, which binds to fragmented DNA in late stage apoptotic cells and is visualized through fluorescent microscopy.
- Embryos were immobilized with tricaine then embedded in 2% agarose overlaid with 1% agarose. The agarose was then covered with an AO/tricaine/water solution, allowing us to visualize apoptotic cells appearing during imaging, as well as keeping the fish immobilized and alive.
- Embryo Eyes were imaged on a Nikon Spinning Disk Confocal Microscope every 5 min. for a duration of 8 hours, starting at 52 hours post fertilization (hpf) or  $\sim$ 2 1/2 Days Post Fertilization (dpf).
- Z-stacks were obtained at each timepoint, with each stack measuring 5 microns in order to follow microglia and AO+ cells in 4 dimensions.

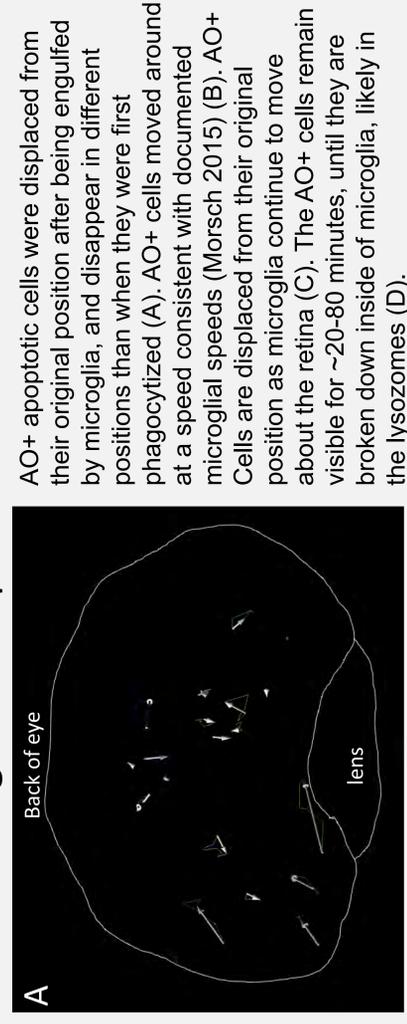

## Results

Figure 2. Microglia Phagocytize Apoptotic Cells before and after DNA Fragmentation

Apoptotic cells are cleared by microglial phagocytosis, which can occur before (A) or after (B) DNA fragmentation. Most of the time, AO+ signal appears after phagosome formation (shown by arrows) as shown in A. The total # of AO+ cells over 8 hours (C). Clearance rate of AO cells over the 8 hour imaging period (D).

Figure 3. Displacement of AO+ Cells

AO+ apoptotic cells were displaced from their original position after being engulfed by microglia, and disappear in different positions than when they were first phagocytized (A). AO+ cells moved around at a speed consistent with documented microglial speeds (Morsch 2015) (B). AO+ Cells are displaced from their original position as microglia continue to move about the retina (C). The AO+ cells remain visible for  $\sim$ 20-80 minutes, until they are broken down inside of microglia, likely in the lysosomes (D).

## Conclusions and Future Directions

Microglia are actively involved in clearing apoptotic cells from developing zebrafish retinas. Most of the time, microglia sense and engulf apoptotic cells prior to DNA fragmentation.

After engulfing AO+ cells, microglia continue to move about the retina, carrying the apoptotic cells with them. Apoptotic cells are digested by microglia as they move about, and completely degenerate in a location different than their generation.

Our next steps will be to (i) inhibit phagocytosis and (ii) inhibit cell death to see if there is an equivalent increase in apoptotic cells. We will also image with early apoptotic markers to visualize engulfment of cells in earlier stages of apoptosis.

The combined results of these studies will allow us to determine more accurate rates of programmed cell death during retinal development in zebrafish and also determine if microglia may provide survival signals to developing retinal neurons.

# Ionic and Biomolecular Movement Through Functionalized Thin Filmed Polymers

Garrett E. Larson and Kristopher V. Waynant\*  
Dept. of Chemistry, University of Idaho, Moscow, Idaho, 83844

## Abstract

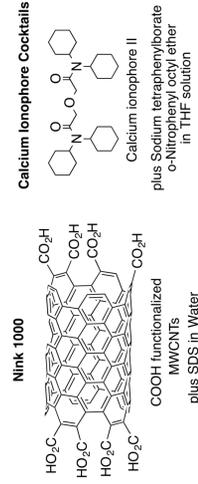

Ions and biomolecules are essential for many functions of the human body such as bone strength and development, muscle contractions, and cell functions like membrane transport and membrane potentials. This experiment will use post-polymerization functionalization to bind to Calcium ions ( $\text{Ca}^{2+}$ ), using ion selective electrode polymers, this binding could be a way of monitoring calcium levels in the body. The polymer scaffolding will be made from Poly-(3-sulfopropyl methacrylate). This sulfonic acid polymer will capture  $\text{Ca}^{2+}$  through negatively charged terminal ends, in acidic environments, that can ionically bond to the  $\text{Ca}^{2+}$ . These polymers will be grown on carbon nanotubes. We will characterize these polymers with transmission electron microscopy (TEM) and RAMEN spectroscopy. The transport of  $\text{Ca}^{2+}$  through the polymer surfaces will be monitored by measuring the voltage change on the polymer electrode as a Calcium solution is passed over it. A device was engineered to hold the polymer in a closed system to allow the solution to pass over it and out, which allows us to monitor the concentration of the calcium solution after polymer interaction.

## Background

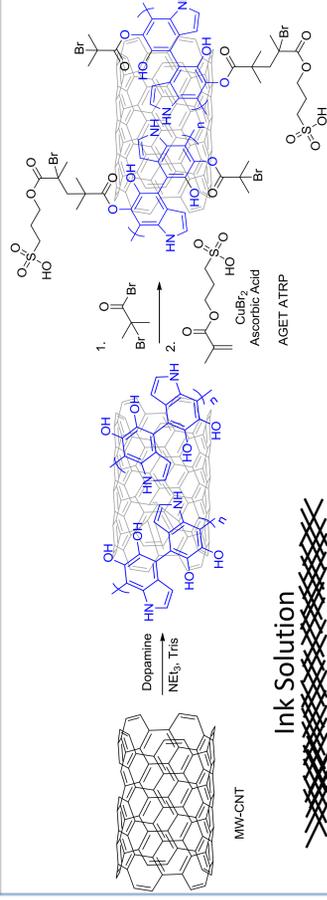

Carbon nanotubes (CNTs) are conductive and can be printed onto surfaces to serve as a reliable sensor. They can also serve as a surface for polymerization to directly sense  $\text{Ca}^{2+}$  ions.

Nanotube inks can be mixed with calcium ionophore to have reliable calcium sensing. Monomers can also be synthesized to act as the ionophore in the solution when they are polymerized onto the carbon nanotubes. The ink cocktails are drop casted onto the device with a reference electrode to make an ion selective electrode. Where the voltage can be measured while running a calcium solution through the device.

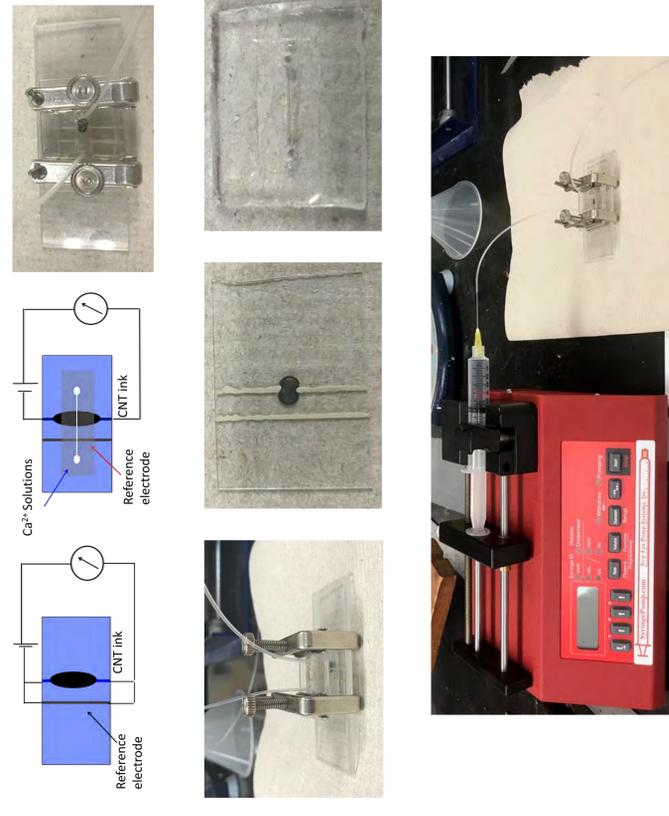

## Polymerization

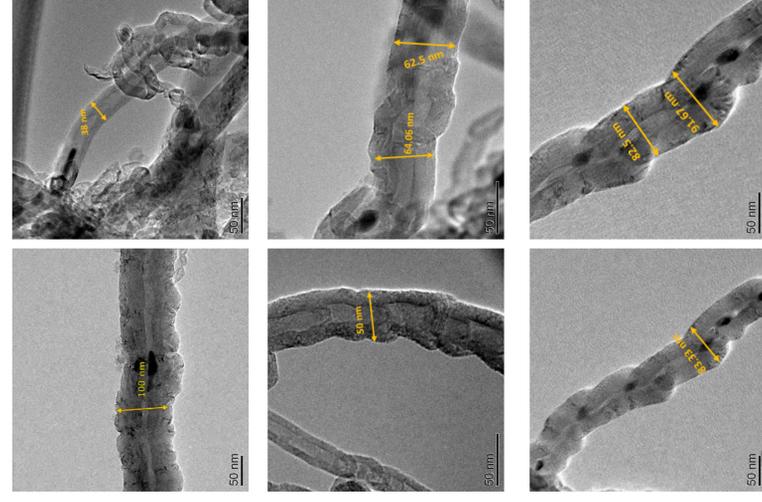

Ink Solution with Polymerized CNTs

Multi-walled Carbon nanotubes are reacted with dopamine to coat the nanotubes in polydopamine (PDA). Then they are reacted with BIBB which acts as the initiator for the polymerization to add 3-sulfopropyl methacrylate to the end of the CNT. These nanotubes were added to an ink solution and drop casted onto a glass slide to make an ion selective electrode.

## Devices

## Transmission Electron Microscopy

## Future Work

- Different Monomers
  - Iminodiacetic acid
  - Malonic Acid
- Printing inks onto devices with a printer
- Determining if the inks are ion selective

# Air-Brushed Nonfouling Drug Delivery Microfiber Mats

Jacquelin Martinez and Dr. Matthew Bernards  
 Chemical & Materials Engineering, University of Idaho, Moscow, ID

**Introduction**  
 A significant challenge in the field of biomaterials is the nonspecific adsorption of proteins to implants. Upon implantation, this nonspecific protein adsorption triggers the natural foreign body response leading to encapsulation and failure of the device. Zwitterionic materials are excellent at resisting protein adsorption. For this reason, we are investigating the zwitterionic polymer poly(sulfobetaine methacrylate) (poly(SBMA)). Using poly(SBMA), our goal is to produce nonfouling polymer-microfibers by airbrush-spraying. To date we have explored the influence of spraying pressure, nozzle diameter, distance to collector, polymer molecular weight, and solvent. We have also optimized the use of a photo-polymerization reaction to reduce the water solubility of the resulting microfibers. The long term goal is to use these microfibers to create a high-surface-area drug delivery platform.

## Approach

**3x round-bottom flask add:**

- Maximum penicillate (K-G-O<sub>4</sub>) initiator
- KCl to control molecular weight (MW)
- Pure water (H<sub>2</sub>O)
- Introduce SBMA monomer

**3x 4 L beaker add:**

- DI H<sub>2</sub>O
- Prepared dialysis membrane flask with poly(SBMA) solution
- Stir bar

**Place on air plate. Dialyze for over 24 hours**

**Remove the polymer**

**Make a 1:1 solution of poly(SBMA) to solvent**

- Add cross-linker triethylene glycol dimethacrylate (TEGDMA)
- Add photo-initiator 2-hydroxy-4-(2-hydroxyethyl)-2-methylpropanoic acid

**Load into spraying reservoir**

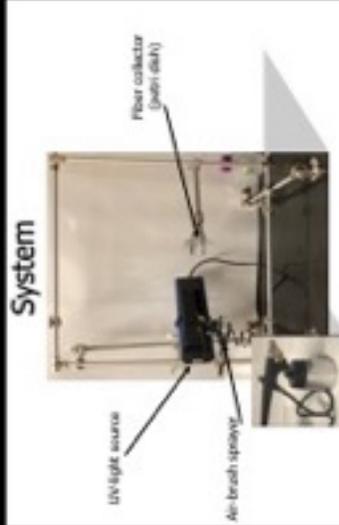

**Spray polymer onto petri dish while spraying, expose to UV light**

**After spraying, wash the fibers to H<sub>2</sub>O**

**Place the washed fibers in a desiccator**

## Conclusions

- Increasing KCl concentration decreases MW and produces uniform fibers
- Increasing NaCl concentration allows for spraying and produces uniform fibers
- Optimal spraying occurs at 30 psi and "3-station" nozzle diameter
- Optimal photo-initiator concentration is 0.009 M C.I.H.O.
- Photo-polymerization reduces water solubility

## Results

**✓ Varying KCl concentration**

At 0.1 M KCl, the polymer solution is extremely viscous and large fibers are produced. Below the KCl concentration exceeds 2.5 M, fibers are not uniform and begin to lose "beading" effect.

**✓ Solvent**

poly(SBMA) is 0.25 M NaCl(aq) 1:1  
 Solvent: Acetone, Acetone/Aqueous NaCl(aq)

When using acetone or acetone, poly(SBMA) does not dissolve and instead clumps and then sticks to the petri dish.

poly(SBMA) is 0.25 M NaCl(aq) 1:1  
 Solvent: Acetone/Aqueous NaCl(aq)

When using acetone or acetone, poly(SBMA) does not dissolve and instead clumps and then sticks to the petri dish.

poly(SBMA) is 0.25 M NaCl(aq) 1:1  
 Solvent: Acetone/Aqueous NaCl(aq)

When using acetone or acetone, poly(SBMA) does not dissolve and instead clumps and then sticks to the petri dish.

**✓ Spraying Pressure**

30 psi  
 20 psi  
 20 psi

When pressure reaches 20 psi, fibers are produced.

**✓ Spraying nozzle diameter**

Set at large diameter, or approximately 3 nozzle dia.

Set at small diameter, or approximately 2 nozzle dia.

**✓ Varying photo-initiator concentration**

0.009 M C.I.H.O.  
 0.003 M C.I.H.O.  
 0.009 M C.I.H.O.

The concentration of photo-initiator is calculated on a basis of 33 µl of a 1:1 poly(SBMA) to solvent solution with 20 µl of TEGDMA.

**✓ Water solubility**

No photo-initiator, completely insoluble in water  
 0.009 M photo-initiator, 4 result UV exposure

0.003 M photo-initiator, 4 result UV exposure

0.009 M photo-initiator, 4 result UV exposure

University of Idaho, Moscow, ID

## Introduction

- Currently, 1 in 10 heifers and most bull-calves are transported to calf-rearing facilities within the first 48 h of birth in the U.S.
- Transport at this vulnerable stage causes stress-related changes in protein metabolism that could restrict growth, since an increase in blood cortisol was shown (Gore et al., 1993; Paddon-Jones et al., 2006) to cause muscle wasting in humans by increasing the rate of protein breakdown relative to synthesis.
- However, there is no information on the impact of transport-related stress on protein metabolism in calves, and the strategies that could potentially be used to mitigate the negative outcomes.
- Our objective was to investigate the effects of transport stress and pre-transport administration of an analgesic in calves (< 1 week old) on blood metabolites, and the gene expression profiles for markers of protein breakdown and synthesis in muscle.

## Methods

- A total of 20 calves (age  $\pm$ SD; 4  $\pm$  0.5 day) were randomly administered either a placebo (CON; n = 10) or meloxicam (MEL; n = 10) orally (1 mg/kg) right before a 8-h road trip.
- Blood samples were collected before departure (0 h), on arrival (8 h) and 96 h post-arrival and analyzed for cortisol and haptoglobin (0 & 8 h samples), and 3-methylhistidine (3-MH), plasma urea-N (PUN) and amino acids (AA; 96 h samples).

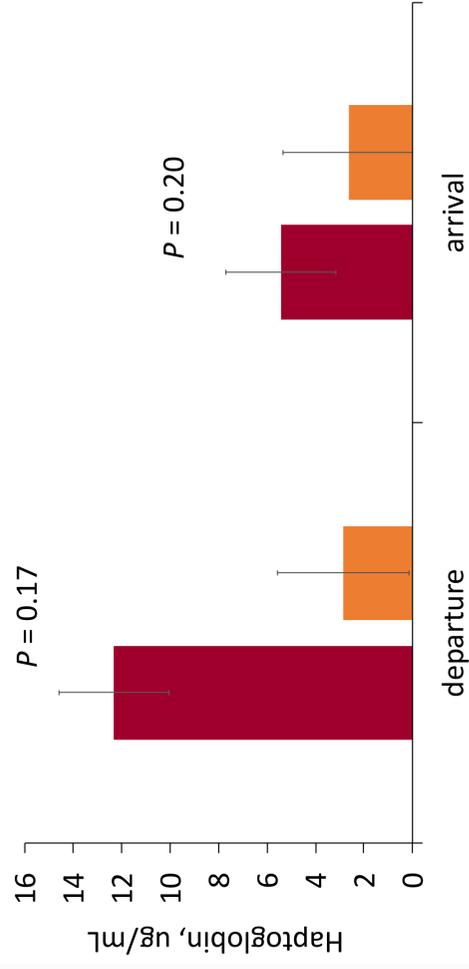

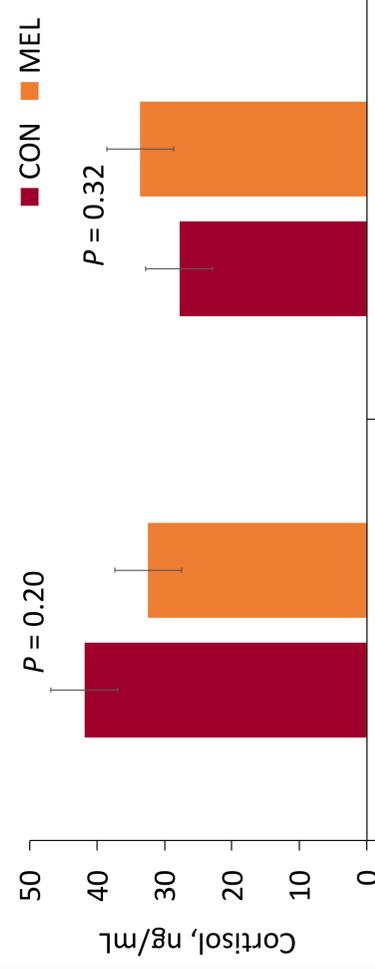

TAP TO GO

TRIM-63	-3.34	-3.31	0.056	0.672

<sup>1</sup>copies/copy 18S

<sup>2</sup>S6k1 = ribosomal protein S6 kinase, 4E-BP1 = eukaryotic

translation initiation factor 4E binding protein, EIFK3 = eukaryotic translation initiation factor 3

<sup>3</sup>UBA = ubiquitin-like modifier activating enzyme, UBE2G1 and

UBE2G2 = ubiquitin conjugating enzymes, TRIM63 = E3 ubiquitin-protein ligase

**Table 3.** Production performance in calves administered either a placebo (CON) or meloxicam (MEL) prior to road transport (8 h trip).

Variable	Treatment		SEM	P-Value
	CON	MEL		
Transportation shrink, kg	1.68	1.75	0.374	0.896
ADG for 4 d, kg/d	1.95	1.983	0.096	0.814
Milk replacer intake, kg/d	1.067	1.129	0.021	0.05
Feed efficiency	1.841	1.761	0.102	0.584

## Summary

- There was no treatment effect on blood cortisol and haptoglobin concentrations, whereas isoleucine was higher and citrulline concentration tended to be higher for MEL than CON calves.
- Although milk replacer intake tended to be higher for MEL compared to CON calves, there was no treatment effect on transportation shrink, ADG and feed efficiency
- Pre-transport administration of MEL had no effect on blood cortisol concentration, and this possibly accounts for the lack of a treatment effect on most measures of protein metabolism including blood urea-N, 3-MH, and mRNA abundance for components of the mTOR or UPS pathways.

## INTRODUCTION

Type 2 Diabetes (T2D) is the seventh leading cause of death in the United States. Along with this disease comes several neurological effects like enteric neuropathy and even blindness. Previous studies using mice fed a high fat (HF) diet suggest that symptoms of gastrointestinal (GI) dysmotility and neuropathy develop before diabetes. In addition, ileocecal supernatants from HF mice cause GI muscle contractions to slow down, and also causes a decrease in inhibitory myenteric neurons<sup>1</sup>. However, substances from GI content that disrupt bowel motility and damage GI neurons are not known.

## HYPOTHESIS

*Ileocecal supernatants from HF diet mice separated into fractions will cause gastrointestinal dysmotility and neuropathy.*

## GOAL

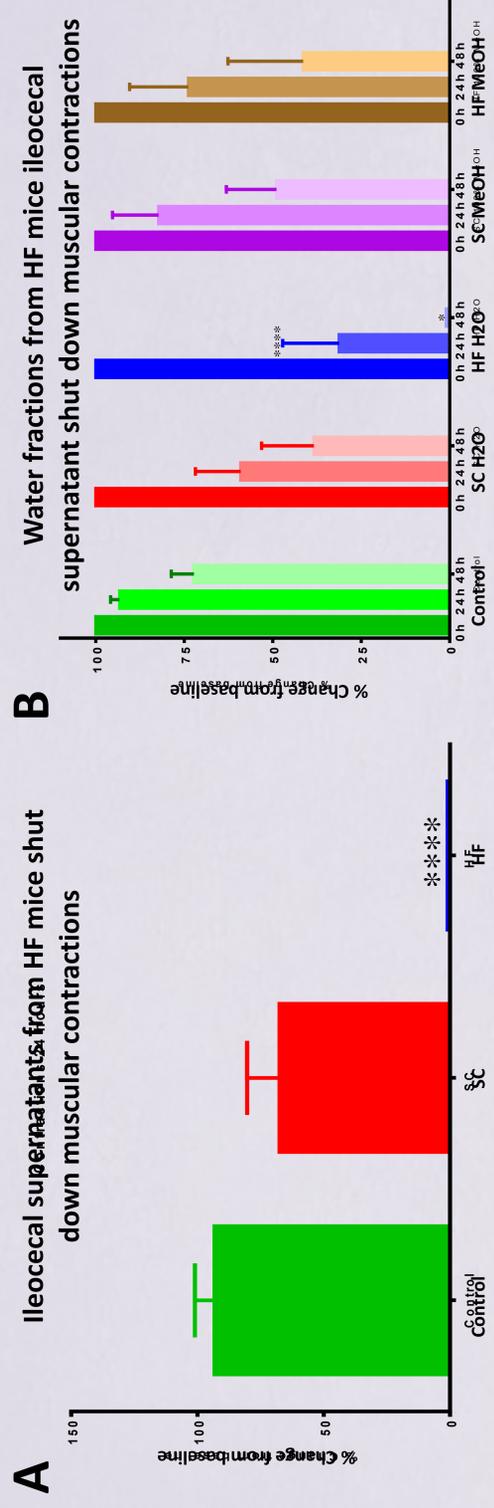

Identify gut derived molecules that may cause diabetic dysmotility and/or neuropathy.

## MATERIALS/METHODS

- Ileocecal supernatants from mice were fractionated using high performance liquid chromatography (HPLC)
- Intestinal tissues were dissected from C57BL/6J mice down to the longitudinal muscle myenteric plexus, cultured with ileocecal supernatant fractions for 48 hours, and fixed with 4% Paraformaldehyde
- Contractions were counted at 0, 24, and 48 hours
- Tissues were stained for neuronal nitric oxide synthase (nNOS) and anti-neuronal nuclear autoantibody-1 (ANNA-1) using immunohistochemistry
- Samples were imaged using a Nikon Spinning Disk microscope and analyzed with Nikon's NIS Elements software

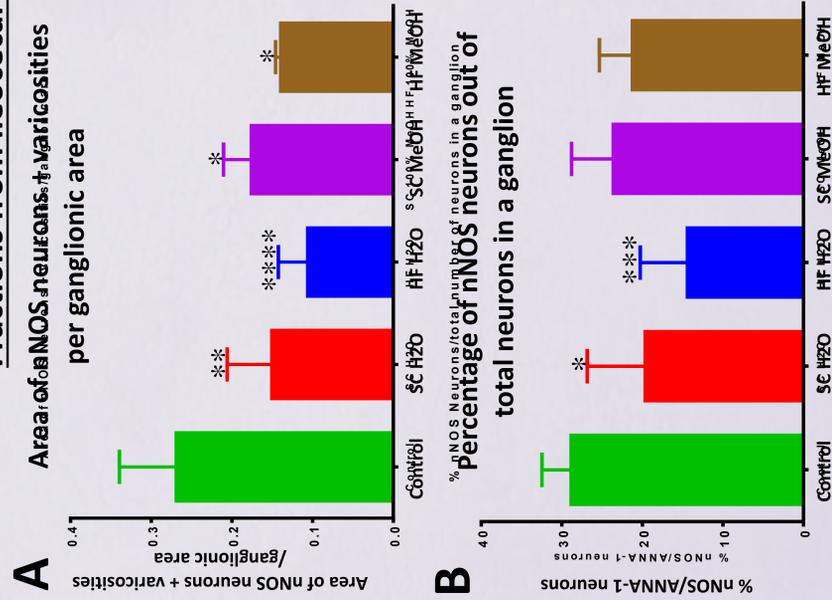

**Why your gut may be working against you: gut derived molecules cause dysmotility and neuropathy in high fat fed mice**

## HF diet causes production of substances that disrupt intestinal muscle contractions

**Figure 1.** A) Preliminary data showing a significant reduction in smooth muscle contractions of samples exposed to HF mice ileocecal supernatant. B) HF water fractions decreased smooth muscle contraction suggesting they contain active molecules. \* $p \leq 0.05$ , \*\* $p \leq 0.01$ , \*\*\* $p \leq 0.001$ , \*\*\*\* $p \leq 0.0001$ ; n= 2-9

## Fractions from ileocecal supernatant cause reduction in nNOS neurons

**Figure 2.** A-B) Summary data showing a significant decrease in nNOS neurons (inhibitory motor neurons) and varicosities in tissues treated with ileocecal fractions from both SC and HF mice (A) and a decline of nNOS neurons in tissues treated with the HF water fractions (B). C) Representative image of nNOS (in red) and ANNA-1 (in green) stained neurons and varicosities from an untreated cultured sample. D) Representative image of sample treated with SC H2O fraction. E) Representative image of sample treated with HF H2O fraction, showing poor condition of ANNA-1 neurons and no nNOS neurons. F) Representative image of sample treated with SC MeOH fraction. G) Representative image of sample treated with HF MeOH fraction. n= 3-9

## DISCUSSION

High fat ingestion causes enteric neuropathy in mice by eliciting oxidative stress and inflammation in inhibitory motor (nNOS) neurons. This is thought to be due to dietary factors – mainly palmitate and bacterial lipopolysaccharide<sup>2</sup>. What causes dysmotility is unknown. Our results suggest that HF water fractions contain molecules that block muscle contractions and damage inhibitory motor neurons.

## CONCLUSION

These results suggest that molecules present in supernatant of HF diet mice ileocecal content causes dysmotility and neuropathy in mice. Further sub-fractionation and analysis of chemical composition could help broaden knowledge about causes of dysmotility and neuropathy in obese and diabetic patients.

## FUTURE WORK

HF water fractions causing dysmotility and neuropathy will be further fractionated down to sub-fractions so that the molecules causing dysmotility and neuropathy can be identified.

## ACKNOWLEDGEMENTS

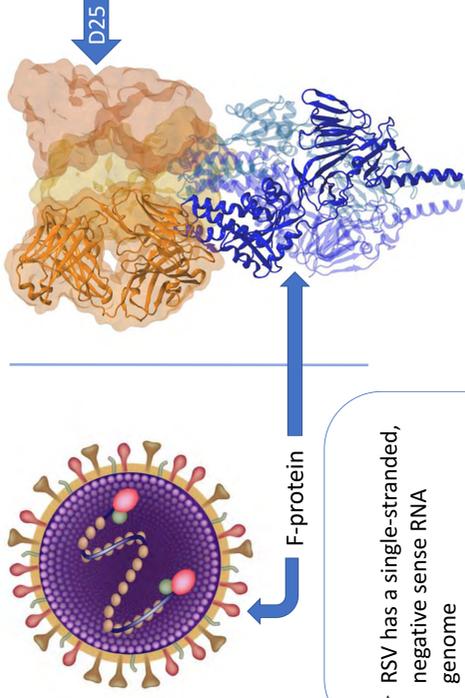

This project was supported by the Office of Undergraduate Research through a Research Fellowship made possible by a 2017-2018 grant from the Higher Education Research Council/Idaho State Board of Education. I would like to also thank Ann Norton and Michael Camerino for help with imaging and analysis!

## Abstract:

Respiratory Syncytial Virus (RSV) is a small intracellular pathogen that infects people of all ages. RSV is responsible for many deaths each year and currently, there is no licensed vaccine. In an alternate form of therapy, monoclonal antibodies can be used to treat infection, however, the monoclonal antibody, Palivizumab, is only administered to high risk infants. In this study, we are investigating the ability of RSV to mutate under stress of a human monoclonal antibody, D25. Under stress, RSV is pressured to evolve resistance against antibodies, known as antibody escape mutations. We introduced RSV to rounds of selection in the presence of D25 and allowed time for mutations to arise. After ten rounds of selection in HEP-2 cells, viral mutants required significantly more antibody for neutralization. The mutants were sequenced for specific amino acid changes and compared to the modeled predictions. These results will help us better understand how RSV evolves to escape neutralization.

## Background:

Respiratory Syncytial Virus

- RSV has a single-stranded, negative sense RNA genome
- It's a significant pathogen among young children, the elderly, and the immunocompromised
- The Fusion (F) protein fuses the viral membrane with the host cell membrane for viral entry into host cells
- F protein is the main target of neutralizing antibodies
- F is also the target for vaccine strategies that are currently in development and the target of monoclonal antibody therapy by Palivizumab

- D25 is a human monoclonal antibody that has potent neutralizing activity against RSV
- D25 is in clinical trials as an RSV therapeutic
- D25 binds to the pre-fusion form of F and inhibits fusion and viral entry
- It is important to understand how RSV can evolve to avoid neutralization by D25

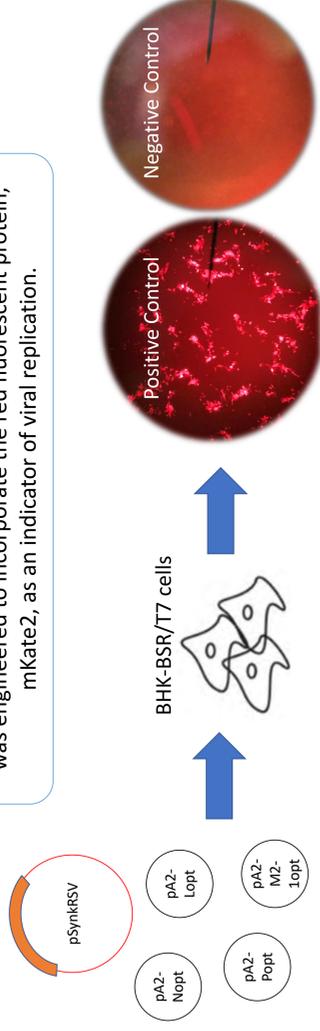

## Hypothesis:

- We hypothesize that RSV will mutate under stress of a sub-inhibitory dose of antibodies (D25) resulting in escape from neutralization.
- We also predict that molecular modeling done by our collaborators, Drs. Marty Ytreberg and Jagdish Patel, will be able to accurately predict these mutations.

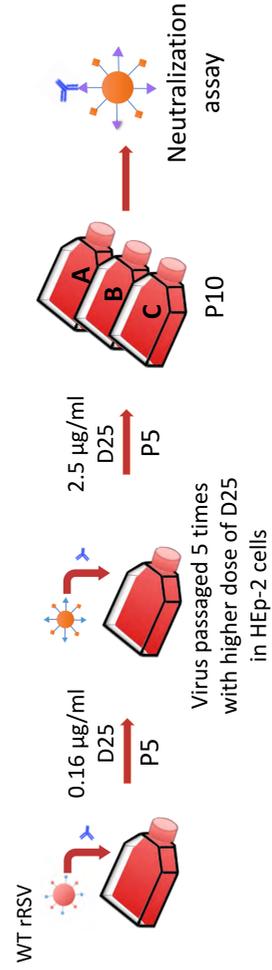

## Methods:

Generating RSV that Expresses a Red Fluorescent Protein

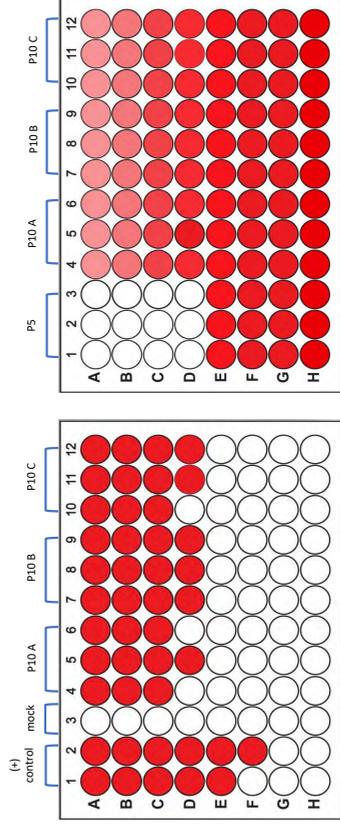

A plasmid with the RSV genome and helper plasmids were transfected into BHK-BSR/T7 cells. The RSV genome plasmid was engineered to incorporate the red fluorescent protein, mKate2, as an indicator of viral replication.

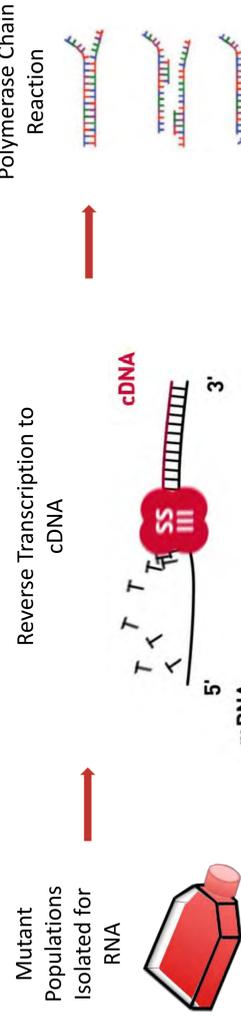

Experimental Evolution of RSV to Select Antibody Escape Mutations

Quantifying RSV by TCID<sub>50</sub> Assay

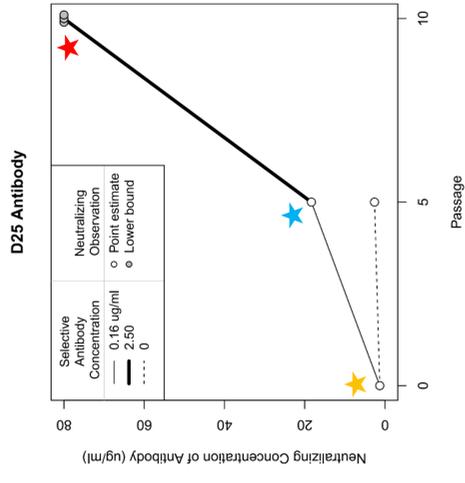

Isolating Mutant RNA to be Reverse Transcribed to DNA for Sequencing

DNA Sent for Sequencing

## Results:

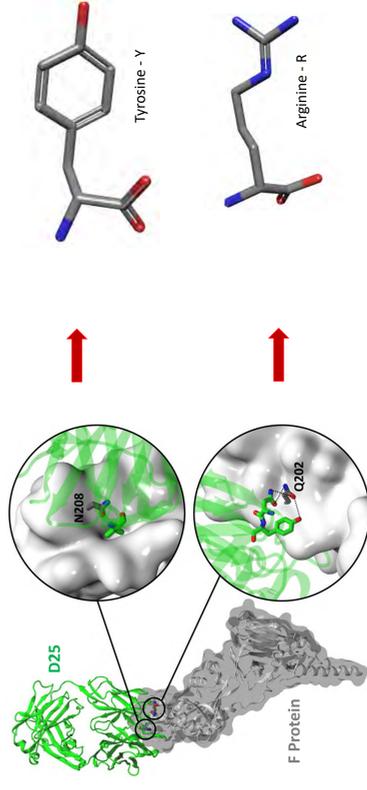

Passage of Virus in the Presence of Antibodies Results in Increased Resistance to Neutralization

Passed Viruses Acquired Two Point Mutations Sequentially

The Mutations are Predicted to Disrupt the Interaction Between D25 and F

## Conclusion and Future Directions:

- After ten rounds of selection in HEP-2 cells, viral mutants required significantly more antibody for neutralization.
- The F protein has mutated that allows it to escape neutralization and the amino acid residues that mutated are predicted to disrupt the interaction between D25 and F.
- Later, we will engineer the predicted D25 mutants into the infectious clone to validate their resistance to D25 and compare their fitness to the wild-type virus.

# Non-Thermal Liquid Plasma Treatment for Removal of Antibiotics in Wastewater

McKenzie Walquist and Dr. Sarah Wu, Department of Biological Engineering

Traditional wastewater treatment processes are not able to degrade pharmaceuticals which find their way into the water system. As a result, many bacterial strains have become antibiotic resistant, which is a significant medical concern. One solution currently being explored to prevent these emerging contaminants from being released into the environment is advanced oxidation processes (AOPs), including non-thermal liquid plasma (NLP) treatment. This process produces high energy mobile electrons and oxidizing radicals which degrade large organic molecules.

## Sources and cycles of antibiotics

A circulating treatment of tap water to simulate a wastewater stream, was used to remove three types of beta-lactam penicillins (ampicillin, oxacillin sodium salt, and amoxicillin trihydrate).

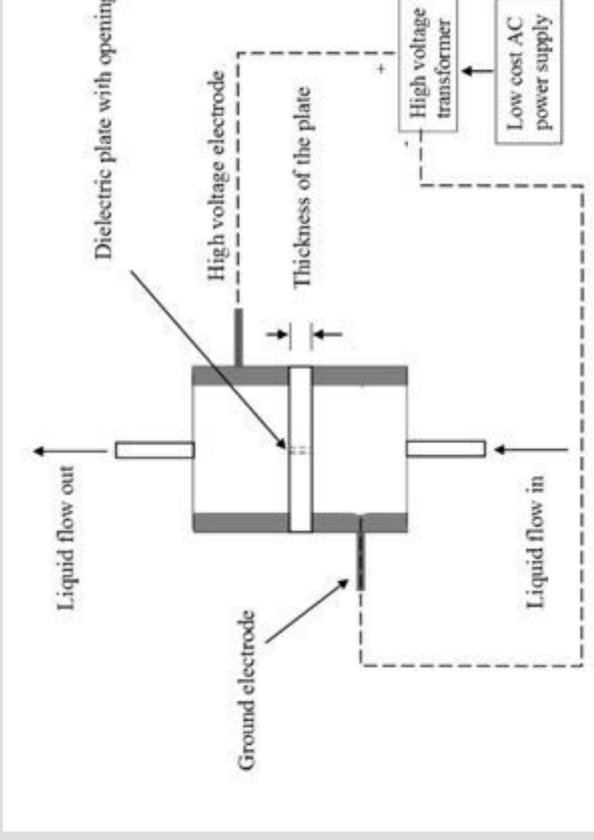

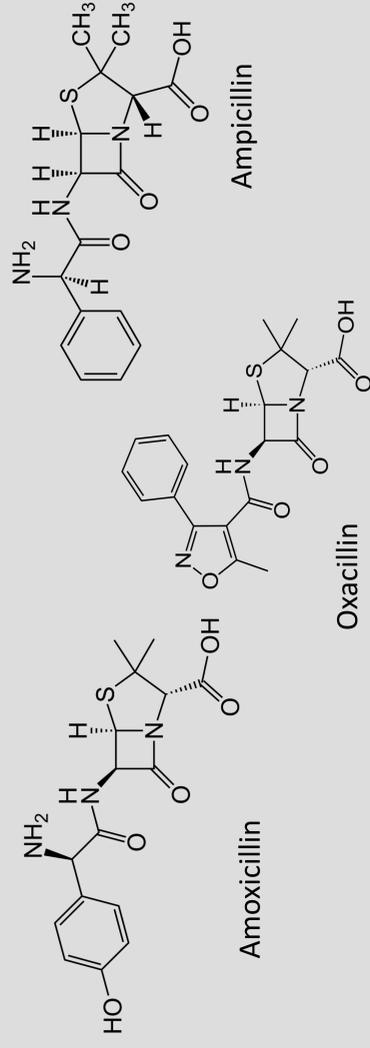

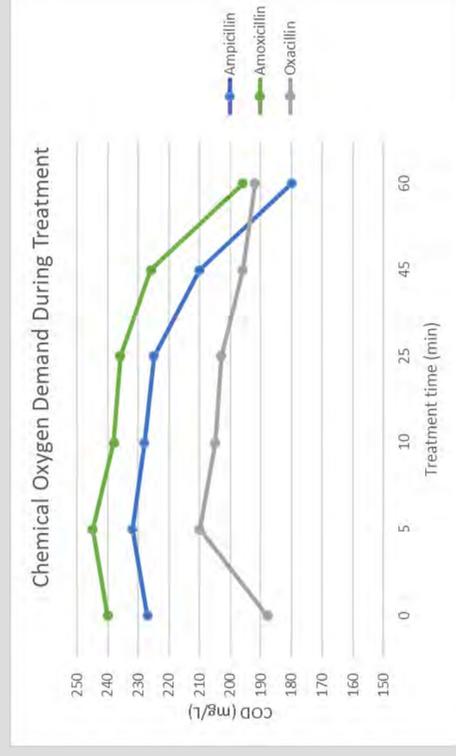

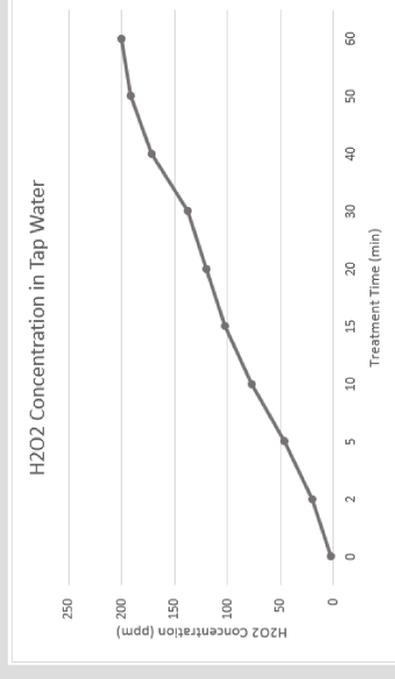

Fig. 1 Circulating non-thermal liquid plasma reactor

## Oxidation

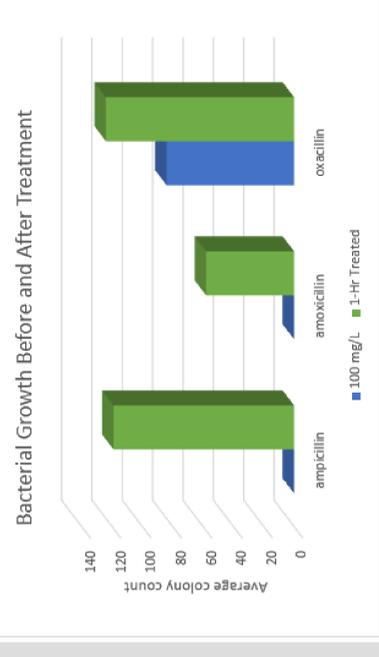

The high voltage between the NLP reactor electrodes physically breaks the large molecules, and also creates hydrogen peroxide, ozone, and hydroxyl ions. These radicals assist in further oxidizing organic molecules.

H<sub>2</sub>O<sub>2</sub> increases with treatment time. The pH of the solution also increases, suggesting the production of -OH radicals. The decrease in COD suggests the molecules are degraded and oxidized.

## Toxicity

In each replicated experiment, using E. coli K12, the bacteria did not grow when plated with either Ampicillin or Amoxicillin. However, when plated with the 1-hour treated solutions, the bacteria were able to grow to the similar colony counts as treated tap water without antibiotics. This suggests the antibiotics were degraded to a point that could no longer affect bacteria at this concentration. This strain of bacteria was not inhibited by the Oxacillin, but the treated solution was shown to also be non toxic.

## What's Next?

- LC/MS analysis to identify intermediates and final degradation products
- Reactor optimization and commercialization

**Final Report for HERC Funding for the 2018 Idaho Conference on Undergraduate Research (ICUR)**

*Submitted by Donna Llewellyn, Executive Director of the Boise State Institute for STEM and Diversity Initiatives*

ICUR 2018 was held on July 25 and 26, 2018 at Boise State University. The total attendance was 296 (not counting some who only came to see the poster sessions), from 38 different institutions/organizations. This included 202 students with 164 poster presentations, and 94 faculty, industry, and governmental representatives. We are aware that this is a decline from the 2017 conference and we are looking at the data to try to understand where the reductions came from and to address these with our campus partners. We have also added a partner at College of Southern Idaho in order to include their students (and faculty) in the future.

There were two full days of workshops and presentations – see the following pages for the program schedule. More details are also available at <https://academics.boisestate.edu/icur/>  
A pdf version of the printed program that was handed out at the event is available upon request.

A survey was been sent out to all of the attendees. The likert scale responses and an overview of the open-ended responses are attached. We intend to use these results to improve the conference next year.

The funding from HERC went to the following categories of expenditures:

Item	Amount
Catering	\$9643.31
Program Design and Printing	\$3016.60
Plenary Speaker Hotel	\$258.00
Facilities and Events	\$138.00
Materials and Supplies	\$233.52
Admin Support	\$1710.47
<b>TOTAL</b>	<b>\$15,000</b>

Other support for the conference came from a number of grant programs at Boise State University, the Institute for STEM and Diversity Initiatives, the University of Idaho, and Idaho State University.

Q4) For each session that you attended, please let us know how satisfied you were with that session.

Q5) Please select your role.

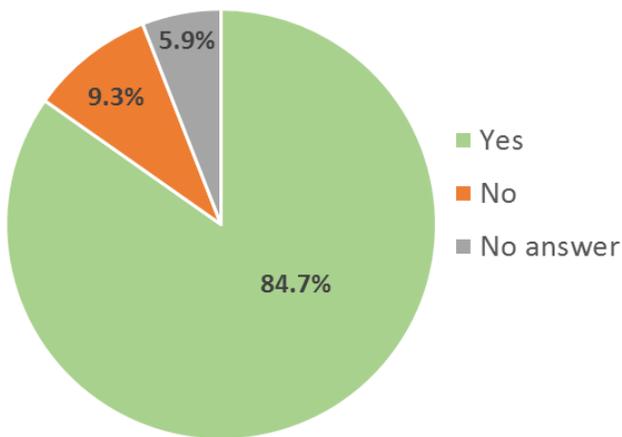

Answer	%	Count
Student	69.4%	118
Educator	15.9%	27
Other	14.7%	25
Total	100.0%	170

Q6) Other roles reported:

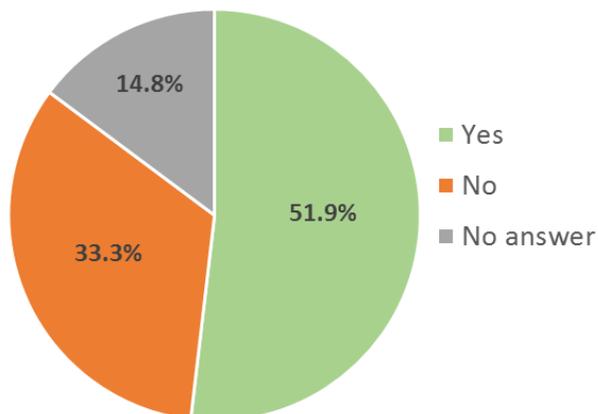

- Administrator
- Conference vistor
- Graduate mentor
- Graduate student
- ICUR committee member
- Invited speaker/panelist
- Mentor
- Parent
- Research funder
- Researcher
- Staff

Q7) Did you present a poster? (This question presented only to the 118 respondents who selected "Student" as their Role.)

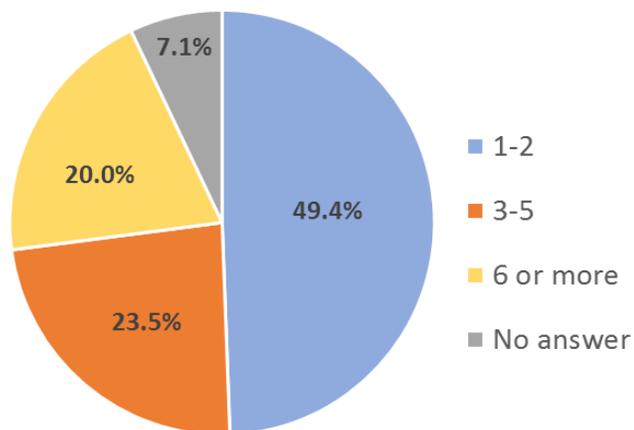

Answer	%	Count
Yes	84.7%	100
No	9.3%	11
No answer	5.9%	7
Total	100.0%	118

**Q8) Were you a mentor of a student researcher who presented a poster?** (This question presented only to the 27 respondents who selected “Educator” as their Role.)

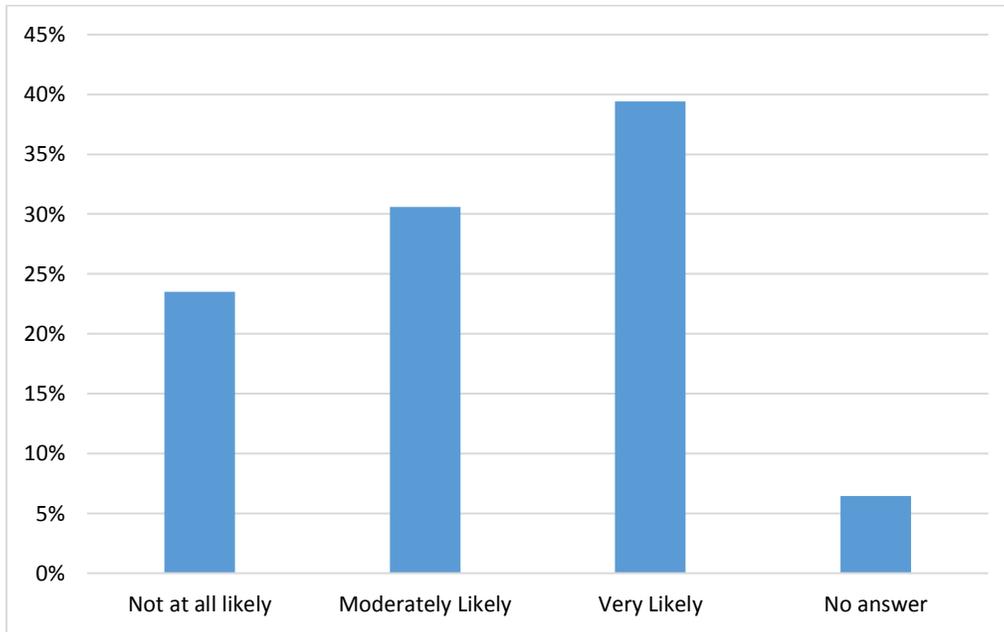

Answer	%	Count
Yes	51.9%	14
No	33.3%	9
No answer	14.8%	4
Total	100.0%	27

**Q9) How many conferences (technical and professional conferences) have you attended including this one?**

Answer	%	Count
1-2	49.4%	84
3-5	23.5%	40
6 or more	20.0%	34
No answer	7.1%	12
Total	100.0%	170

**Q10) How likely are you to attend ICUR next year?**

Answer	%	Count
Not at all likely	23.5%	40
Moderately Likely	30.6%	52
Very Likely	39.4%	67
<i>No answer</i>	6.5%	11
Total	100.0%	170

**Q11) What were your greatest lessons or take-aways from the conference?**

The following table summarizes categories mentioned in the open-ended responses to this question and the count of respondents who mentioned them. The summary is sorted by the greatest number of mentions to the lowest. 141 respondents answered to this question; some mentioned more than one take-away. The sum of the category counts is 164.

The most often cited take-aways are:

- 1) Networking/interpersonal skills
- 2) How to present research/posters
- 3) Learn about students’ research
- 4) Graduation school info
- 5) Learn about fields and types of research

A few criticisms were received and are indicated in red text.

CATEGORIES OF COMMENTS	COUNT
Networking/interpersonal skills	26
How to present research/posters	23
Learn about students' research	15

Total	95

Highlights:

- Breakout sessions:
  - 8 people suggested “better” (not specified) or more interesting sessions
  - 6 people suggested shorter sessions
  - 3 requested suggested the sessions should have more of a research focus
  - 3 respondents indicated the sessions need more preparation
- Poster sessions:
  - 3 respondents felt the poster sessions were too tight on space
  - 3 respondents said the sessions should be shorter
- Conference talks:
  - 3 people were displeased with the content by specific speaker(s)
- Other logistics:
  - 4 respondents mentioned better food
  - 3 respondents felt there was not enough time for lunch
- Networking:
  - 3 people suggested better/more networking opportunities
  - 1 asked for more higher education people with whom to network
- Abstracts:
  - 2 people felt the submission process is confusing
  - 1 respondent suggested a better revision process

- Discipline focus—conflicting suggestions were received:
  - 1 respondent disciplines other than hard science; 1 suggested the conference should be more accessible to non-STEM majors.
  - 1 respondent suggested more science content.

Suggestions by Category (sorted by the greatest number of mentions to the lowest):

Brian Johnson, SEL Endowed Chair, Electrical & Computer Engineering  
Michael Haney, Assistant Professor, Computer Science  
Daniel Conte de Leon, Assistant Professor, Computer Science

**Executive Summary**

Cyber-attacks and intrusions are nearly impossible to reliably prevent given the openness of today's networks and the growing sophistication of advanced threats. Knowing the vulnerabilities is not adequate, as the evolving threat is advancing faster than traditional cyber solutions can counteract. Accordingly, the practice of cyber security should focus on ensuring that intrusion and compromise do not result in business damage or loss through more resilient solutions. We are creating a platform to facilitate and build complementary and multidisciplinary R&D capabilities to address these pressing problems. Our platform will incubate innovative products and services for safeguarding cyber physical control systems (CPCSs) that are ubiquitous and underpin key sectors of our economy. Early participation of industry will aid in vetting promising technologies. Better methods for assessment combined with more resilient systems design will safeguard against potentially immense economic impact currently being faced by Idahoan stakeholders.

## 1 Summary of Project Accomplishments and Plans

This report presents the activities, accomplishments, and current status of the project titled "Security Management of Cyber Physical Control Systems." They are presented under the *four objectives* listed in our original project plan. We are mid-way through the third and final year (July 1, 2018 - December 31, 2018) of this three-year project.

### 1.1 Objective 1: Strengthen our capacity by adding key faculty and enhancing laboratories

In this third year of the project we have been able to add two new faculty members to the two we hired in year one. The hiring took longer than originally planned due to a very competitive job market for cyber security faculty. We have made substantial progress especially on deploying the new video technology infrastructure, continued laboratory enhancement projects, additional industry collaborations, producing research results, and planning for the post-grant period. A summary is as follows:

#### 1.1.1 Faculty Searches

Our work plan called for the hiring of four faculty members to work in the area of cyber physical systems, two in electrical engineering and two in computer science. We planned to hire three in year one and one in year two of the project. We had a failed search for one of the positions last year but now all four positions are filled.

Our first hire was Yacine Chakhchoukh, a new assistant professor in Electrical and Computer Engineering is an expert in signal processing with experience in power systems cyber security operations. He earned a PhD in 2010 from Paris-Sud XI University/Superior School of Electricity, Supélec (Paris, France) with highest honors. Prior to joining the UI he was an assistant professor at the Tokyo Institute of Technology. He is located in Moscow.

Our second hire was Dakota Roberson. Dr. Roberson earned a PhD in Electrical Engineering from the University of Wyoming in 2017. During his studies, he was also a half-time intern for Sandia National Laboratories. Being located in our program in Idaho Falls is an excellent fit for his national laboratory background and is already helping us in our work with the Idaho National Laboratory. His area of expertise is in wide-area damping control to impact the effects of asymmetric time delay in geographically disparate locations, impact on coupling due to sensor/output collocation issues and forced oscillations in the wide-area damping control environment. These situations matter because grid operators consider all these limitations as they develop control systems to be implemented in their jurisdiction. However, sensor/output collocation disparities may limit their ability to ever implement the control.

As a result of a national search we made our third hire for the project, Jia Song. Dr. Song's research focuses on cybersecurity, high assurance computing systems, and security policy design. She was a member of team CSDS, for the DARPA Cyber Grand Challenge, an international competition in automated binary vulnerability analysis and repair. Building all the tools from scratch, the team was able to qualify as one of the seven finalist teams for the August 2016 competition. As security is a concern in many different areas, Dr. Song is collaborating with researchers in other fields, such as cyber physical systems, and sociology, to provide her knowledge of cybersecurity into multidisciplinary research. She is supporting an NSF research project on securing smart power grids under data measurement cyber threats. Dr. Song was also involved in an NSA project to develop a collection of cybersecurity learning modules which include teaching materials and student laboratory exercises. This curriculum is being shared among universities and government agencies to provide education on cybersecurity.

Continuing last year's failed search, we have recently hired Constantinos Koliass for Computer Science in Idaho Falls. Dr. Koliass was most recently an Assistant Research Professor in the CS Department at George Mason University in Virginia, which he joined in 2014. His main research interest revolves around security and privacy for the Internet of Things (IoT). He is also active in the design of intelligent Intrusion Detection Systems (IDS) with a special interest in privacy preserving distributed IDS. In 2015 he created and released the first wireless dataset specifically intended for research in

wireless security, namely the AWID dataset. Today, AWID has been downloaded and used as a benchmark by hundreds of organizations and universities. Currently, he is developing non-intrusive, remote malware detection tools and techniques for IoT systems, based on involuntary side-channel emanations (e.g., electromagnetic emissions from the CPU and power consumption of the device) and is investigating the applicability of blockchain-based authentication methods in the IoT realm.

### 1.1.2 Graduate Students

Four graduate students worked as research assistants under the project: Ananth A. Jillepalli, Ibukun Oyewumi, Andrew Miles, and Maadhavi Sathu. We briefly describe the research work performed by each of these students below. Subsections 1.3.3 and 1.3.4 list the publications that have resulted from the research performed by these graduate students and faculty in the project.

1. Graduate student Ananth Jillepalli is pursuing a doctorate in Computer Science. Jillepalli is completing the development of the High-level and Extensible System for Training and Infrastructure risk Assessment (HESTIA) for Cyber-Physical Control Systems (CPCS). Identifying vulnerabilities in a critical infrastructure can be challenging without a high-level security policy specification. Yet knowing the security policy specification is not enough to eliminate vulnerabilities. Knowledge of possible attacks and respective defense measures are also needed to secure critical infrastructure. HESTIA is a holistic systems and behavioral modeling process and tool-set. A primary approach of HESTIA is to enable Cyber-physical Control System (CPS) engineers to model their system, behaviors, and security capabilities, or lack thereof, using an adversarial-based approach. The goal of HESTIA is enabling scalable and incremental system modeling for cybersecurity risk assessment and optimal system and device hardening strategy determination.

2. Graduate student Ibukun Oyewumi is pursuing a Master's degree in Computer Science. He is co-advised by Yacine Chakhchoukh and Daniel Conte de Leon. During the Fall 2018 semester Oyewumi worked on the design and development of the control system and cyber portions of the Power Laboratory component of the ISAAC ICS Testbed and also the network interconnection between the ICS Testbed laboratories.

3. Graduate student Andrew Miles is pursuing a Doctorate in Electrical Engineering. Miles is working on research toward the implementation of robust state estimators for power systems this past semester. Robust estimators provide resistance against cyber-attacks. He began the semester by continuing his education on data analytics and estimation theory. He has also worked in parallel in software programs such as MATLAB and Python to test new algorithms. The new algorithms learned (GM/MM/S/Tau) estimators are being further implemented in a power system software OpenDSS to show feasibility studies for real world applications. The power systems Lab equipped with the RTDS is very useful for the real-time evaluation of the developed algorithms.

4. Graduate student Maadhavi Sathu is pursuing a Master's degree in Electrical Engineering. Sathu is working on a Power Swing Blocking Scheme for Power System Disturbances with the Integration of Renewables. Power systems operate close to their nominal frequency under steady state conditions. During the power system disturbances like faults, line switching, loss of load, generator disconnection results in sudden change to electrical power, whereas the input mechanical power to generator remains constant. These disturbances cause oscillations in machine rotor angles which results in severe power flow swings. Based on the severity of the power system disturbance, system can remain stable and return to equilibrium state which is referred as stable power swing, on the other hand if there are severe system disturbances there will be a large separation of generator rotor angles, large power swings, large fluctuations of voltage and currents and results in loss of synchronization between generators which is referred as unstable power swing. Large power swings either stable or unstable causes unwanted relay operations at different locations which can cause major power outages or power blackouts. In modern digital relays, power swing blocking (PSB) function is available in distance relays to prevent unwanted distance relay element operation during power swings by differentiating between faults and power swings. Most PSB elements are based on traditional methods which monitors the rate of change of positive sequence impedance such as Conventional Blinder Schemes. The required settings for PSB scheme are difficult to calculate in many applications, particularly those where fast swings can be expected. One such application is integration of renewables such as Wind Generation, Photo-Voltaic Generation with the existing power system models where fast swings are expected which can't be detected with the existing methods. A new method has to be developed in order to detect the fast swings which could prevent unwanted relay operation. Application of these methods will be demonstrated using power system modeled on a Real Time Digital Simulator (RTDS).

**1.1.3 Laboratory Enhancements**

In our proposal we projected to enhance equipment and make capability and facility improvements. In the original proposal we planned to use the existing space dedicated to the Power Laboratory (PowerLab) and just enhance the equipment in it. But we took advantage of an opportunity presented by the Murdock Foundation to invest an additional \$285,000 of their funding plus an additional \$200,000 of other funding invested in Coeur d'Alene to create a distributed Industrial Control Systems (ICS) Testbed with locations in Moscow, Idaho Falls, and Coeur d'Alene. Below we briefly describe the purpose and the progress on designing, installing, or upgrading each of the components of the ICS Testbed.

The Testbed will enable research and development of novel and secure techniques and algorithms for securing today and tomorrow's Power Grid (PG) along with other types of Industrial Control Systems (ICS). Its major advantage is that it will enable researchers and engineers to perform and collaborate on ICS-specific cybersecurity research, development, and testing on a system that closely resembles current distributed critical infrastructure cyber-physical control systems. It will expose hardware-in-the-loop simulation, enable the capture and use of real operational data, integrate current and future components of the power grid and other industrial control systems, and enable realistic attack-defend scenarios for research, evaluation, and testing. The Testbed includes a Real Time Digital Simulator (RTDS) for enhanced power system transmission and distribution system simulation capabilities. We are evaluating options for making the Testbed available from non-UI locations such as BSU. This capability will significantly enhance our ability to demonstrate (in-situ) advanced Power Grid and Industrial Control Systems cybersecurity technology to Idaho industry partners.

The Testbed is planned to connect the following five laboratories to create a distributed cybersecurity control systems and smart grid testbed unique in the Northwest.

A: The Power Laboratory in Moscow, Idaho.

B: The RADICL-Moscow Cybersecurity laboratory in Moscow, Idaho.

C: The SCANVILLE Analytics and Visualization Laboratory in Moscow, Idaho.

D: The RADICL-Idaho Falls Cybersecurity laboratory in Idaho Falls, Idaho.

E: The Industrial Control Laboratory in Coeur d'Alene, Idaho.

Enhancements to laboratories A, B, and C are well under way and will be completed soon. Equipment for the laboratories in Coeur d'Alene and Idaho Falls will be installed in February 2019.

The most significant accomplishment with respect to laboratory enhancements is the expansion of the Power Applications Laboratory (PowerLab) in Moscow. This laboratory underwent a major expansion from about 1,500 sq.ft. to 2,200 sq.ft. (Figure 1). The increased scope and capability of this change has come with a cost, in that the enhancements have taken about a year longer than we originally anticipated. However, this is a justified price to pay for the benefit we are gaining.

The space for the PowerLab section of the ICS Testbed was remodeled and completed the end of November, two months behind schedule because of asbestos abatement in the new space. We have worked with the Schweitzer Engineering Laboratory (SEL) Engineering Services Division to design this portion of the ICS Testbed for performing research on cybersecurity of power and industrial control systems. A contract was given to Schweitzer Engineering Laboratories for the industrial control equipment and RTDS upgrade. The equipment started to arrive in December 2018, as shown in Figure 2. The existing RTDS and associated amplifiers were moved to the PowerLab and test equipment was connected to the RTDS as shown in Figures 3-6. The upgraded RTDS equipment is shown in Figure 7, with the new RTDS NovaCor rack at the left. The existing rack was supplemented with additional processor cards donated by Schweitzer Engineering Laboratories.

Figure 6: Some of the test equipment for the expanded PowerLab along with new equipment racks (each rack will simulate a complete power substation's control).

Figure 7: PowerLab Component of the ICS Testbed with the addition of the new RTDS NovaCor rack (to the left).

**B: ICS Testbed: RADICL Cybersecurity Lab:**

The RADICL cybersecurity laboratory is the Reconfigurable Attack-Defend research and Instructional Computing Laboratory. This laboratory enables students and researchers to perform cybersecurity experiments in a controlled and isolated environment. Under the planned laboratory enhancements, we are enhancing the cybersecurity, computing, and analysis capabilities of this laboratory and integrating them into the ISAAC industrial control systems cybersecurity testbed.

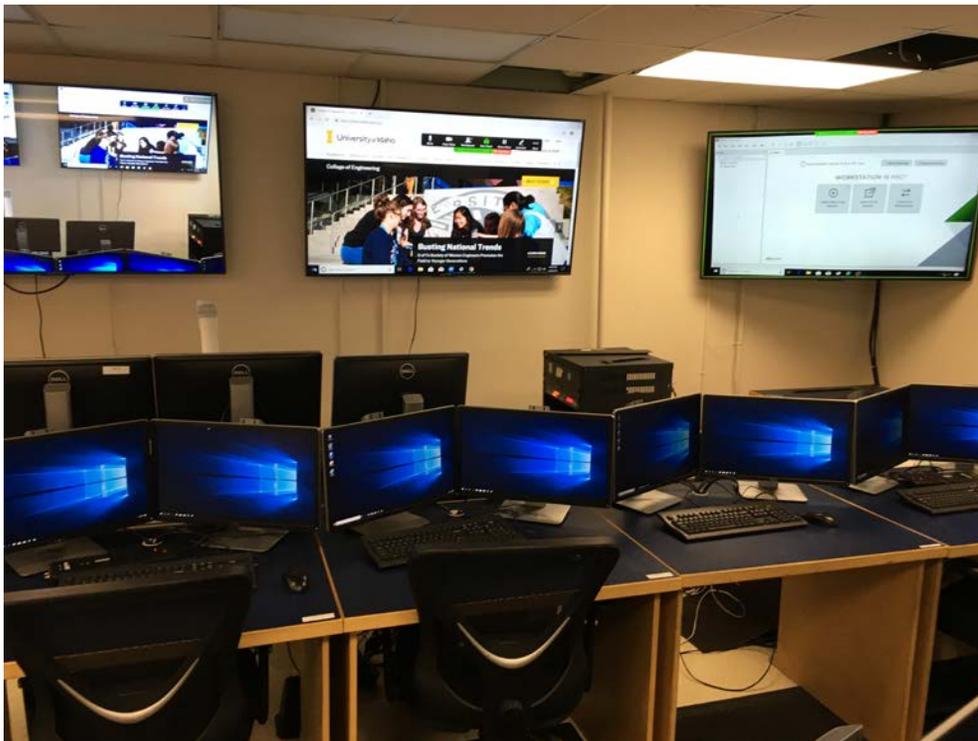

Figure 9: The RADICL Cybersecurity laboratory after its renovation during the Fall of 2018.

SCANVILLE: Securing Cyberphysical systems ANalytics, Visualization, IoT, and machine Learning Laboratory of Enquiry - A new component if the ICS Testbed.

This laboratory will be used to perform research on the architecture, design, implementation, and evaluation of systems for improving the cybersecurity of cyber-physical control systems, information technology (IT) and operational technology (OT) network and software systems, and Internet of Things (IoT) systems. This research includes, among other related activities, the architecture, design, implementation, testing and evaluation of software and combined hardware and software systems for analysis, machine learning, visualization, intrusion detection and avoidance, integration and testing including attack-defend scenarios, of networked digital systems with the purpose of improving the cybersecurity of said or related systems. This laboratory will also be connected to the Idaho Cybersecurity testbed through a dedicated high-speed fiber network.

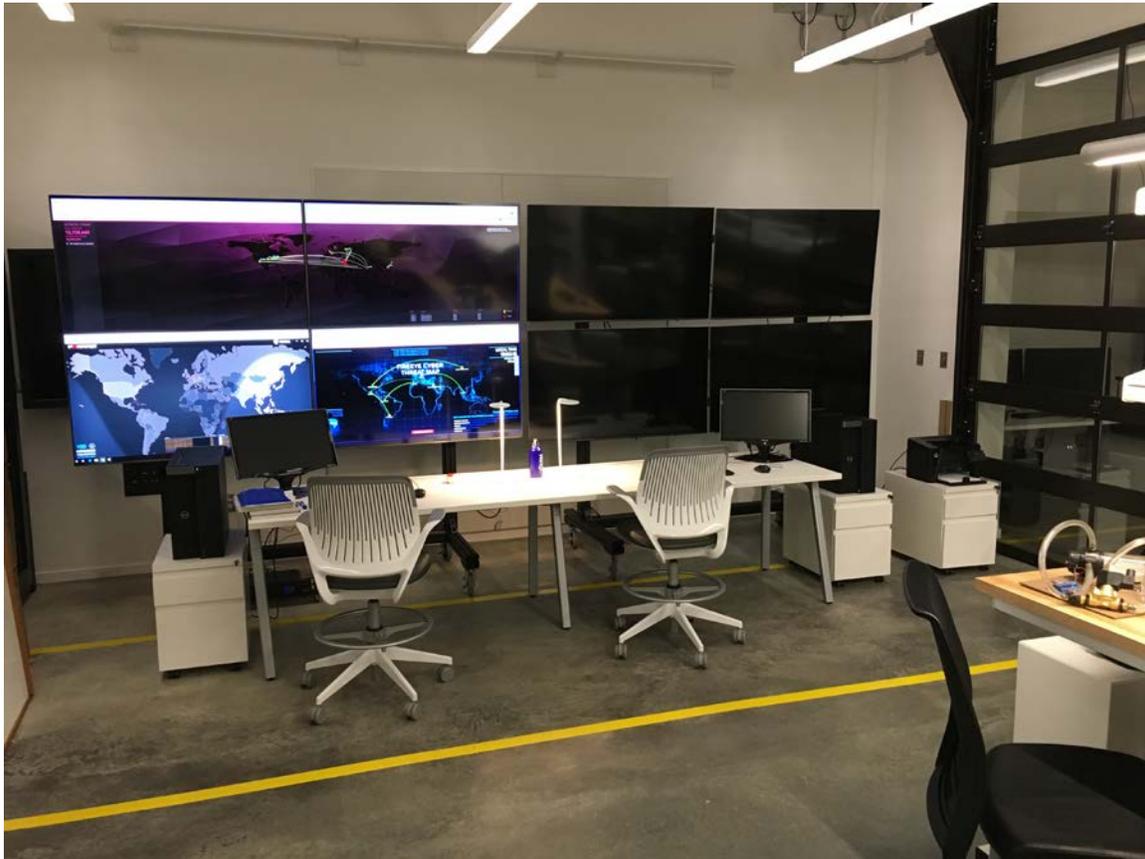

Figure 10: The SCANVILLE Screen Wall (each screen is a 55 inch 4K high definition TV).

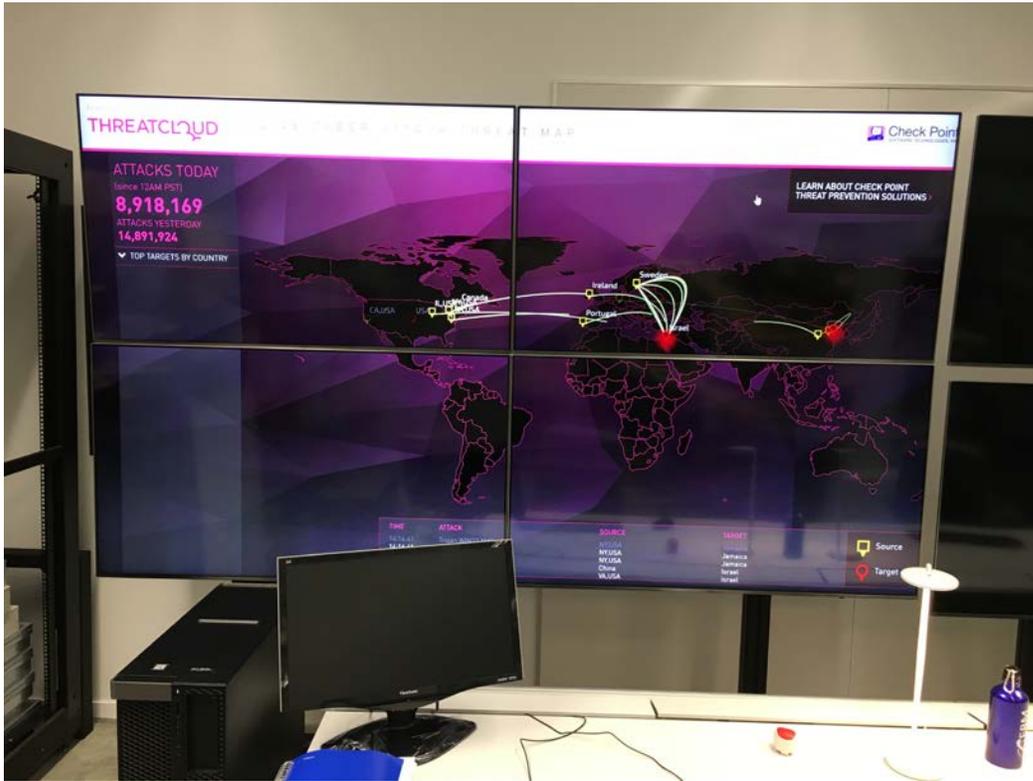

Figure 11: The SCANVILLE Screen Wall - Close Up.

Figure 12: The SCANVILLE Workstations.

We are currently developing the nodes in Idaho Falls and Coeur d'Alene through a contract with Ameresco Inc. Each installation will have an identical Human Machine Interface (HMI) and control system. These are specified as:

1. Single Wonderware HMI running windows OS PC using a virtual machine.
2. (3) PLC supporting Modbus and DNP3 Ethernet protocols from HMI to PLC
  - a. AB 1400 PLC- DNP3.0
  - b. Automation Direct Dumore BRX PLC- Modbus
  - c. Productivity 1000 PLC includes IO simulator
3. Small OIT terminal to read and write variables to PLC's.
4. Network switches and video hubs to extend application to a training video monitor touch screen.
5. Power hub for Ethernet
6. BOX PC with hosted virtual MS OS for Wonderware SCADA HMI
7. All programing development software to be included on BOX PC
8. Kobalt workbench for above stated equipment to be mounted- with caster wheels

The assets that are controlled by this system will be different in both locations. In Idaho Falls the security asset to be controlled will be related to a nuclear reactor. In Coeur d'Alene the security asset to be controlled will be a robotic manufacturing system. In both cases the plan is to integrate these devices into the IDC cybersecurity testbed.

Figure 9 shows a similar system currently being assembled at the vendor facility. Installation is scheduled for late-September. One of the benefits of this system is the flexibility it provides with the Wonderware software platform. Wonderware is the current industry standard.

**Figure 13: Kobalt workbench with HMI and PLC for Asset.**

**1.2 Objective 2: Strengthen collaboration with Idaho industry and Idaho Universities**

Our team had numerous on-going and one-time collaborations with industry and other universities. Some of these collaborations are listed below.

1. Brian Johnson has had weekly meetings with Craig Rieger and Tim McJunkin from the INL related resilient control of critical infrastructure. Efforts included:
  - (a) Ongoing research project as part of DOE Grid Modernization Lab project related to resilience metrics for power distribution systems, which ended September 2018.
  - (b) Collaboration on an ongoing LDRD proposal related to cybersecurity for industrial control systems, with collaboration from Virginia Commonwealth University. UI funding for year three was increased by \$31,000 over the original budget.
  - (c) Collaboration course ECE 469/569: Resilient Control of Critical Infrastructure with collaboration between UI, ISU, WSU, UNR, and INL along with some interaction with Naval Post Graduate School, Weber State University, and Boise State University. Yacine Chakhchoukh coordinated the class from the UI this year.
  - (d) Helped organize a Resilient Controls track for the IEEE Industrial Electronics Society Annual Meeting (IECON), October 21-23, 2018 in Washington DC. Brian arranged for Scott Manson from Schweitzer Engineering Laboratories to be an invited keynote speaker for the track.
2. Brian Johnson and Dakota Roberson had monthly meetings with engineers from ABB Corporation Corporate Research, University of Illinois, Argonne National Lab and Bonneville Power Administration as part of a project addressing cybersecurity for HVDC transmission systems. They also participated in the DOE Cybersecurity for Energy Delivery Systems (CEDS) Peer Review meeting in Washington DC in November 2018 as part of this project.
3. Dakota Roberson and Brian Johnson coordinated an article titled "Improving Grid Resilience Using HVDC" which had contributors for Argonne National Laboratory, University of Illinois Urbana-Champaign and support from ABB. The article was an invited contribution a special issue of IEEE Power and Energy Magazine.
4. Brian Johnson and Yacine Chakhchoukh have been investigators on a project with Avista Corporation looking at non-wire solutions that use sensors and controls to alleviate the need for new transmission lines to improve reliability of power systems at a lower cost. That project ended in August 2018.
5. Yacine Chakhchoukh, Daniel Conte de Leon, and Brian Johnson have been investigators of a project with Avista Corporation looking at developing a secure framework for transactive energy trading at the power distribution level.
6. Brian Johnson was invited to participate in a US DOE Peer Review on the "Future State of Protective Relaying," July 18-19, Oak Ridge National Lab.
7. Brian Johnson and Maadhavi Sathu had weekly meetings with researcher from INL, Oregon State University and industry advisors as part of a project to develop a white paper for the US DOE setting research needs related protective relaying systems.
8. Brian Johnson was advisor for four industry sponsored senior design teams in the fall semester, one sponsored by Avista, one by Schweitzer Engineering Laboratories and two related to developing power lab capabilities related to this grant.
9. Daniel Conte de Leon was advisor for one senior design team during the Fall 2018 semester. This team is working on developing 3D visualization techniques with the objective of visualizing complex industrial control systems.
10. Daniel Conte de Leon was customer for a student building a Faraday Cage to enable research and instruction on wireless IoT and control system devices.
11. Jia Song attended the research and collaboration meeting with SEL to discuss possible collaborations on computer science and security related research topics. (Nov 29, 2018)
12. Michael Haney was selected for a fourth consecutive year to hold a Joint Appointment with the Idaho National Laboratory, maintaining a strong working relationship with the Cybercore Integration Center under the National & Homeland Security division.
13. Michael Haney and Dakota Roberson were selected to support the INL's Cybercore Integration Center strategic planning meeting, representing UI along with Janet Nelson, VPR, Brad Ritts,

Associate VPR, and John Russell, UI's Associate Director of the Center for Advanced Energy Studies (CAES).

14. Michael Haney, Dakota Roberson, and Frederick Sheldon were each selected to receive a Summer Faculty award by the Center for Advanced Energy Studies (CAES) in July and August of 2018 in Idaho Falls.

15. Michael Haney was selected to serve on ISU's search committee for their new cluster hires in cybersecurity, data science, and electrical engineering for the ISU Polytechnic in Idaho Falls.

16. Michael Haney continues to serve on the Advisory Board member, Energy Systems Cyber-Physical Security program, Energy Systems Technology and Education Center (ESTEC), Idaho State University.

17. Michael Haney was invited to speak at the first BSides Idaho Falls cybersecurity conference and presented his work on developing open sourced threat intelligence in September 2018. He has now joined the BSides Idaho Falls advisory board to plan the second and future open security conferences in eastern Idaho.

18. Michael Haney was invited to speak at the Tulsa Cyber Summit, sponsored by the University of Tulsa and the George Kaiser Family Foundation to be held in March 2019 in Tulsa, Oklahoma. There he will present his ongoing research in the methods for preserving privacy in pervasive networking monitoring and large-scale surveillance.

19. Michael Haney was recently invited to join an (ISC)<sup>2</sup> task force for updating the Common Body of Knowledge and the exam for the Certified Information Systems Security Professional (CISSP) exam.

20. Michael Haney continues to direct the Nuclear Cybersecurity Working Group within CAES, cultivating university and industry connections across the state of Idaho, across the nation's nuclear sector, as well as with the International Atomic Energy Agency (IAEA).

### 1.3 Objective 3: Foster technology transfer and commercialization through technology incubation

During the first half of this third year we have had several proposals funded and others submitted for research in this area:

#### 1.3.1 Funded Project Proposals

B.K. Johnson, "Supplement to Resilient Scalable Cyber State Awareness of Industrial Control System Networks to Threat: Power System Design and Testing," Idaho National Laboratory, January 2019 - September 30, 2019, \$31,000.

B.K. Johnson and J. Alves-Foss, "REU Supplement for: Small: Securing Smart Power Grids Under Data Measurement Cyber Threats", Syracuse University (subcontract of NSF funding). January 1, 2019 - June 30, 2019, \$7,999.

A.Zadeghol, H. Lei and B.K. Johnson, "Air-core Reactor Inter-turn Fault Detection, using Magnetic Field Sensors" Schweitzer Engineering Laboratories, \$139,221.94.

B.K. Johnson, "Protective Relay Study," Idaho National Laboratory, August 1, 2018-November 30, 2018, \$10,000.

Y. Chakhchoukh, D. C. De Leon, H. Hess, B. Johnson, H. Lei and A. Daffin, "Designing and Evaluating an Energy Trading System for Prosumers", Avista Corporation, August 1, 2018 - September 1, 2019, \$89,771

Smart Grid Resiliency Seed Funding from Center for Advanced Energy Studies (CAES) at Idaho National Laboratory to provide UI CS/ECE support to engage INL, BSU, ISU and Univ. Wyoming in Larger Scale Extramural Bid, Submitted Feb. 13, 2018 to CASE, provides \$30,000 (six months) to the UI Computer Science (CS). PI F.T. Sheldon, Co-PIs: Michael Haney, Yacine Chakhchoukh, Zouheir Rezki, Paul Titus [INL] and John Stubban [BSU] and Others; Purpose: Develop larger scale proposal to DOE/NSF during CY 2018 (see DE-FOA-0001897 Building EPSCOR-State/National Laboratory Partnerships)

#### 1.3.2 Funding Proposals Submitted and Under Review

B.K. Johnson, "Tool for auto-generation of dynamic zone selection logic for busbar protection," Schweitzer Engineering Laboratories, January 2019-December 2018, \$98,187.

J. Song, "CRII: SaTC: Automating Fuzzing Based on Grammar Detected from User Input", National Science Foundation, May 2019 – May 2021, \$174,999.

J. Alves-Foss, J. Song, "Automated Vulnerability Detection and Repair", DHS, May 2019-April 2022, \$910,484.80.

M. Haney, "GenCyber: Bringing the GenCyber Experience to Eastern Idaho," National Security Agency, May – September 2019, \$99,870.

R. Christensen, M. Haney, et al. "2019 NEUP Infrastructure: Developing a NuScale Simulator for Multi-Institutional Research of Small Modular Reactors", Department of Energy Nuclear Engineering University Program, October 2019, \$285,763.01.

M. Haney, et al, "2019 NEUP NE-1: Analysis and Design of Future Digital Instrumentation and Control in Gen IV Nuclear Power Plant Control Rooms", October 2019, \$798,700.

#### 1.3.3 Publications: Published or Accepted

J.M. Sotelo, J. Guitierrez, B.K. Johnson, P. Moreno, A. Guzman "Time Domain Parameter Identification of Transient Electromechanical Oscillations," Accepted for publication in COMPEL: The International Journal for Computation and Mathematics in Electrical and Computer Engineering.

H. Esponda-Hernandez, E. Vasquez, M.A. Andade, B. Johnson, "A Setting-Free Differential Protection for Power Transformers Based on Second Central Moment," IEEE Transactions on Power Delivery. Available Early Access. Digital Object Identifier: 10.1109/TPWRD.2018.2889471.

N. Fischer, B.K. Johnson, A.G. Miles, J.D. Law, "Induction Motor Modeling for Development of a Secure In-Phase Motor Bus Transfer Scheme," IEEE Transactions on Industry Applications. Vol. 55, No. 1, January/February 2019, pp. 203-212. DOI: [10.1109/TIA.2018.2868763](https://doi.org/10.1109/TIA.2018.2868763).

- M. Abuagreb, M. Allehyani and B.K. Johnson, "Design and Test of a Combined PV and Battery System Under Multiple Load and Irradiation Conditions," Accepted for 2019 IEEE PES Innovative Smart Grid Technologies Conference North America." February 17-20, 2019, Washington DC.
- A.Momen, B.K. Johnson and Y. Chakhchoukh "Parameters Estimation for Very Short Line Using The Least Trimmed Squares (LTS)," *Accepted for 2019 IEEE PES Innovative Smart Grid Technologies Conference North America.* February 17-20, 2019, Washington DC.
- K. Eshghi, B.K. Johnson, C.G. Rieger, "Resilient Agent for Power Systems Operation and Protection," [\*IECON 2018 - 44th Annual Conference of the IEEE Industrial Electronics Society.\*](#) Washington DC, October 21-23, 2018.
- H.S. Samkari and B.K. Johnson, "Multi-Agent Protection Scheme for Resilient Microgrid Systems with Aggregated Electronically Coupled Distributed Energy Resources," [\*IECON 2018 - 44th Annual Conference of the IEEE Industrial Electronics Society.\*](#) Washington DC, October 21-13, 2018.

### 1.3.5 Presentations

- November 2018: Speaker: Krishnanjan Gubba Ravikumar, Schweitzer Engineering Laboratories, Title: Experience with Remedial Action Schemes.
- November 2018: Speaker: Dwight Anderson, Schweitzer Engineering Laboratories, Title: Cybersecurity for Power Protection.

December 2018: Speaker: Sudeep Pasricha. Department of Electrical and Computer Engineering at the Walter Scott Jr. College of Engineering in Colorado State University, Title: Smart Software for the Internet of Future Things.

**1.4 Objective 4: Strengthen and expand the workforce**

During the Summer of 2018 at least 9 students conducted internships focused on cybersecurity. Organizations where these students participated were: US Department of Defense, Idaho National Laboratory, Pacific Northwest National Laboratory, and US Department of Homeland Security.

Also during the Summer of 2019, Michael Haney developed and hosted the 2<sup>nd</sup> Cybercore Summer Camp held in Idaho Falls, receiving support from the College of Eastern Idaho and Idaho National Lab’s Cybercore Integration Center. The tuition-free day camp hosted high school students from across eastern Idaho for three days of hands-on learning projects and “hacking” activities to introduce students to advanced computing and cyber-physical systems programming. Plans are in place and a grant application has been submitted to expand future camps for beginners and advanced students as well as area high school teachers.

As a follow-up to the successful summer camp, Haney has worked with the College of Eastern Idaho and Compass Academy to develop and host after-school programs supporting cyber-physical control systems and embedded device programming and cybersecurity activities for local high school students, which we believe will greatly strengthen the future workforce by fostering interest and skills at an early age.

**2 Summary of Budget Expenditures**

This summary is an estimate only as final mid-point expenditures have not all posted.

Salaries	\$245,000
Fringe	\$70,000
Travel	\$4,000
Operating	\$55,000
Tuition	\$22,400
<b>Total</b>	<b>\$396,400</b>

**3 Demonstration of Economic Development and Impact****3.1 Patents, copyrights, plant protection certificates received or pending**

There are none at this time. We are developing a strategy to raise the bar of awareness concerning patents and copyrights (including software and intellectual property) and engage with industry to identify opportunities.

**3.2 Technology licenses signed, start-up businesses created, and industry involvement**

Karen Stevenson who is our College of Engineering licensing associate at the UI Office of Technology Transfer (OTT) spoke to the Department about the UI Strategic Plan as it relates to Faculty, Research and Sponsored projects and Invention disclosures. We are planning to engage the OTT in the future to increase awareness pertaining to UI's Strategic Planning and Program Prioritization Process and the Commercialization of our research outcomes including public/private entrepreneurial partnerships. All told, we want to increase our enrollments/retention in both our Undergraduate and Graduate programs to meet the needs of Idaho's industry; bring viable technologies to market as well as creating high-value jobs while increasing our research capacity, especially as it pertains to the IGEM objectives and overarching theme: Security Management of Cyber Physical Control Systems.

These discussions are planned as Colloquium Topics and for Departmental Faculty Staff meetings.

**3.3 Private sector engagement**

See Section III (c) above for a list of formal engagements per our Computer Science Colloquium Series. Also, refer to the section on "Strengthening and Expanding the Workforce" at Section III (4) above regarding Industry/Government engagements.

The IGEM team of Co-PIs engaged with the Murdock Charitable Trust (as described above) to leverage (match) IGEM funding that was earmarked for laboratory equipment upgrades that are designed to improve our capabilities in Cyber Security Data Analytics and Visualization.

**3.4 Jobs created**

None for the reporting period other than the new faculty hires.

**3.5 External funding**

Nearly a million dollars of funding beyond the IGEM grant has been secured to help meet the objectives of this project. Of this amount, \$795,000 came from external sources and \$202,000 of college of engineering funding was redirected. A significant factor was the funding provided by the Murdock Charitable Trust to enhance power security laboratory as described above.

**4 Numbers of Faculty and Student Participation as a Result of Funding**

Seven faculty and four graduate students were the primary participants on this project. In addition, numerous other faculty and staff assisted in the activities such as supporting the faculty search process and expanding the laboratories and improved audio/video connections around the state as outlined in the original project plan.

<b>Primary Faculty</b>	<b>Primary Students</b>
Larry Stauffer	Hari Challa
Rick Sheldon	Krishna Koganti
Brian Johnson	Mohammad Ashrafuzzaman
Michael Haney	Ananth Jillepauli
Daniel Conte de Leon	Maadhavi Saathu
Yacine Chakhchoukh	Andrew Miles
Jia Song	Ibukun Oyewumi
Constantinos Koliass	
Dakota Roberson	

**5 Description of Future Project Plans**

Plans for the future are to accomplish the deliverables of the four objectives as stated in our original proposal. Specifically, for the final semester we plan to:

- Continue our research work on developing tools and techniques for securing critical infrastructure systems.
- Expand use of the UI Cybersecurity Training and Operations Center in Coeur d’Alene (including security assessments)
- Expand activities to initiate a Resilience Research Incubation Center in Moscow.
- Conduct assessments with willing industry partners to better understand the threats and potential impacts of compromises associated with CPCSSs.
- Increase our capacities to deliver education course work (both for credit and non-credit professional development) and research.

Perhaps the most impactful outcome of this IGEM project this quarter is that we started to prepare a proposal for the first BS and MS degree programs in Cybersecurity in Idaho. In November 2018 the Computing and Accreditation Commission of ABET introduced the first program-specific criteria for cybersecurity. Given the ABET process, these students will be educated according to the new nationally accepted standards. Through this program we project to be delivering hundreds of cybersecurity engineers to the workforce over the next several years. We plan to educate students in Moscow, Coeur d’Alene, and Idaho Falls and will explore on-line delivery options as well. This program will deliver the talent needed by industry to help secure their data and infrastructure and grow Idaho’s economy.

## IGEM Program

### First 6-month Progress Report

**Project Title:** Sustaining the Competitiveness of the Food Industry in Southern Idaho: Integrated Water, Energy and Waste Management

**Principal Investigator:** Dr. Karen Humes

**Institution:** University of Idaho (lead) with subcontracts to Boise State University and Idaho State University

**Grant Number:** IGEM19-001

**Award Amount:** \$700,000

**Fiscal Period:** July 1, 2018 – June 30, 2019

**Progress Report Submitted to SBOE:** January 1, 2019

**Reporting Period:** July 1, 2018 – Dec 20, 2018

---

### Table of Contents

1. Summary of project accomplishments for first reporting period and plans for the remainder of Yr 1 . . . . .	2
2. Summary of budget expenditures for period just completed . . . . .	8
3. Demonstration of economic development/impact . . . . .	9
4. Numbers of faculty and student participation . . . . .	9
5. Description of future plans for project continuation or expansion . . . . .	9
6. Expenditure report . . . . .	10
7. Commercialization revenue . . . . .	16

**1) Summary of project accomplishments for first reporting period and plans for the remainder of Yr 1:**

The accomplishments and plans for the four primary tasks identified in the original proposal are summarized here (Tasks A-D). A summary of accomplishments for the overall project management and coordinated stakeholder engagement activities are also summarized below, listed as Task E.

***Task A) Recovery of energy, nutrients, water and bioproducts from waste streams: bench to place-based pilot projects***

*Team:* Erik Coats (UI, environmental engineering/molecular biology; emphasis on resource recovery from waste streams); Armando McDonald (UI, biomass conversion and bioproducts); Kevin Feris (BSU, algae-based resource recovery and microbial ecology))

**Accomplishments this reporting period/Plans for next reporting period:**

A note on staffing: As noted above, this task is being carried out by the joint UI/BSU team comprised of three Co-Is. It is the largest and most complex of our four major tasks, in terms of resources and personnel committed. Nearly all of the students planned to be hired in Year 1 have been recruited, including 1 Ph.D. student and 8 undergraduate students hired in the Coats' (Environmental Engineering) lab in Fall 2018 and 1 graduate student coming onboard in January 2019 in the McDonald lab to work on bioplastics. Some delay in getting the subcontract to BSU set up has prevented the expenditure of the funds for one graduate budgeted at BSU in Fall 2018. However, this has allowed a helpful re-examination by the team of the most effective assemblage of personnel types for accomplishing the important objectives of this grant, which go beyond that of traditional research (which is well-accomplished by faculty and graduate students) to include the vital component of developing relationships with potential commercial partners for future implementation of our research advances. The team feels that this latter objective would benefit from the creation of a Research Scientist position (funded partly by this initiative and partly by the BSU institutional funding) that would be filled by and occupied longer by someone with a broader experience base and better sense of private-industry constraints than is typically possible with a graduate student. Indeed, a central goal in conducting research that addresses societal problems is the eventual application of novel research-based solutions beyond the research laboratory. However, often even when research-based solutions are economically viable they may not reach the market or be applied beyond research focused studies. This scenario is often termed "The Valley of Death" which is a colloquialism describing the phase between research and successful application of innovation in a commercial context. Although many research active faculty have the intellectual ability and research funding to support development of economically viable innovations, rarely do they have the time and skills necessary to cross the "Valley of Death". We are pursuing a partnership between research-focused grant funding and institutional support (i.e. Boise State) to create a Research scientist position specifically focused on the research goals of this project and development of the relationships necessary to cross the "Valley of Death". We believe that personnel specifically focused on these integrated goals are necessary to elevate research-based solutions from the Bench to Market.

Meanwhile, however, the many students and several faculty members who have begun work on this task have made good progress on the three sub-tasks within this task, as reported below.

Sub-task i: Bench scale activities

a) Characterization of waste streams from a variety of producers and processors in the Twin Falls area (e.g., dairies, yogurt, cheese, and potato processors);

- Obtained and conducted preliminary analysis on agro-industrial wastes available in the Twin Falls area. Results are summarized below. Further investigations ongoing in remainder of Yr 1.

Entity	Flow (mgd)	BOD (mg/L)	TSS (mg/L)	FOG (mg/L)
AmeriPride	0.13	178.28	70.36	110.53
Chobani	0.80	144.97	164.22	24.16
City of Kimberly	0.30	302.56	285.07	24.59
Clif Bar	0.01	659.22	444.06	23.86
Eagle Eye	0.01	143.01	410.35	2.78
Glanbia	0.51	601.50	244.21	89.27
Independent Meat	0.11	84.34	91.58	17.33
KapStone	0.01	401.69	196.97	3.15
Lamb Weston	1.76	2305.13	510.47	93.24
<b>Total</b>	<b>3.65</b>	<b>1267.98</b>	<b>349.38</b>	<b>69.34</b>

b) Assessment of optimal process sequences (biological, chemical, physical, thermal) to recover energy, bioproducts (biofuels; bioplastics) and nutrients from mixed waste.

- Bench-scale bioreactor operations are set up and underway. Performance assessment is ongoing and will be continued in the second half of Yr 1. One current focus is analysis of process “success” vs. “failure.” Stable operations of any resource recovery system at full scale demands intrinsic knowledge on what constitutes stable operation, and how unstable, or “failed,” operations might be recovered. Investigations are being conducted using macro- and molecular-level methods.
- Phosphorus recovery from wastewater is best achieved through a process known as enhanced biological phosphorus removal, EBPR. Bench-scale EBPR operations are ongoing, with a focus on ascertaining the effects of key process operational criteria on maximal P recovery. Results will ultimately inform pilot and full-scale operations.
- Another current focus is on achieving stable nitrification in an activated sludge wastewater treatment system achieving carbon, ammonia-N, nitrite-N, nitrate-N, and phosphorus removal. Nitrification is a biological process whereby ammonia-N is oxidized only to nitrite. Process success will result in significant energy savings in wastewater treatment.
- Two of Coats’ undergraduate students are investigating the production of bioplastics (polyhydroxybutyrate-co-valerate, PHBV) on fermented dairy manure. Results will inform operations of our pilot scale system for 2019.

- Bench scale algal investigations have focused on establishment of algal cultivars to be employed in testing the effluent streams deemed most economically viable as determined by the wastewater modeling and bench-scale reactor experiments being performed in the Coats lab. Based on these initial wastewater characterization and viability experiments we will determine the most opportunity mechanism for algal cultivation in our integrated system and initiate cultivation tests with individual or consortia of algal strains selected based on their ability to grow in the selected wastewater streams and based on their growth rates, yields, biomass characteristics, and economic potential. These experiments will be initiated in the January/February time frame.

Sub-task ii: Pilot scale assessments - Conduct pilot scale evaluations from mixed waste streams; implement/evaluate treatment resource recovery processes.

- Have hired a team of undergraduate students and started training in the laboratory, with a focus on operations and analysis of biological resource recovery systems that are part of the targeted pilot-scale systems. The undergraduate team, combined with 2-3 graduate students, will operate the UI scale model systems in 2019.
- Conducting hypothetical re-configuration of the Twin Falls wastewater treatment plant to integrate proximate waste streams and achieve resource recovery. Analyses are being conducted using SUMO process modeling software by Dynamita. Results will be used to inform 2019 scale model operations.
- As noted above the outcome of these pilot scale assessments and modeling will inform decisions about which types of algal cultivation systems to couple with the AD/PHA aspects of our integrated system and which algal cultivars/species to employ in our bench and pilot-scale tests. The pilot scale algal cultivation systems will be operated in 2019 in collaboration with the Coats and McDonald labs at UI.

Sub-task iii: Produce prototype products (bioplastic mulch film, biochar, biofuel) for evaluation.

- Ordered laboratory blown-film extruder system for preparing bioplastic films and expected to be installed February-March 2019.
- Hired 1 graduate student and will start spring semester 2019 to characterize the bioplastic generated and prepare and evaluate the bioplastic films.

Note on partnerships inherent in Task A: Partnerships with producers, processors and municipal treatment personnel are fundamental to all of these tasks. Team will build on existing relationships with Twin Falls wastewater treatment facility, Food Northwest, Chobani, Amalgamated Sugar, J.R. Simplot, Idaho Dairyman's Association, and Glanbia, and expand to new partners throughout this project.

***Task B) Decision-support tools for industry and community leaders to quantify and visualize trade-offs among water, energy, land use and municipal growth***

*Team:* Jae Ryu, UI, systems dynamics modeling, water resources; Karen Humes (UI, water/energy nexus, geospatial analysis)

*Accomplishments this period:*

- Began the process of upgrading the existing Stella system dynamics model from an older version to the new Stella Architect, which has more features and is more user friendly.
- Reviewed the data that was included in the original version and identified data needs in order to make the model more current and representative of climate changes and drought that have occurred during the past ten years. Examples of these data include: precipitation, groundwater pumping, spring discharges, evapotranspiration, etc.
- Made a formal request for these data to the Idaho Department of Water Resources (IDWR) and are currently working with them on data needs.
- Completed a literature review of recent published research related to water resources, system dynamics modeling, etc. in preparation for completing the tasks.
- Team began brainstorming about potential scenarios for integrating energy components into the updated Stella Architect model.
- Initial meeting with irrigation expert to begin developing module that would describe energy use in irrigation based on key variables
- Attended Energy Policy Institute meeting at Boise State University in September to connect with regional energy experts
- Explored data sources and availability for information on energy use in irrigation

*Plans for next reporting period:*

- We plan to incorporate new features that are available in Stella Architect into the system dynamics model and user interface.
- We plan to perform a quality analysis of the most recent data available from IDWR and complete the integration process to bring the model up to date.
- We will begin exploring management options to incorporate into the model, such as water conservation, managed recharge, etc.
- We will be developing system evaluation criteria associated with new data inputs and potential uses for the expanded and update model, such as system reliability, vulnerability, resilience, etc.
- We will acquire and analyze data on energy use in irrigation
- We will complete the development of a module for the system dynamics model that quantifies energy use in irrigation for two meteorological scenarios (average and above average demand in a growing season) and number of acres with other key variable combinations (eg., crop type, irrigation source/type)
- We will begin incorporating supply side scenarios to quantify and address the uncertainty of the water/energy nexus in the Eastern Snake Plain Aquifer.

***Task C) Technical innovations/sensing systems to reduce water/energy/nutrient use in targeted production systems:***

*Primary team members:* Donna Delparte, (ISU, drone and satellite-based sensing systems) and grower partners.

*Accomplishments this period:*

Progress in the following task area has been made through the subcontract award to Idaho State University and included:

- Innovative thermal Unmanned Aerial System (UAS) platform assembled and tested for spring data collection
- Programmer/Decision Support Analyst hired (mid-Dec) for development of online interactive website sustainable decision support tool to facilitate growers access to satellite and drone imagery and associated products.
- Private sector participation has been established with several growers and crop inventory has been provided by ProGrow Consulting for building the above-described decision support tool for producers

*Plans for next reporting period:*

For the next reporting period, the team will focus on the continued development and testing of UAS platform and sensor combinations for data collection in the 2019 growing season. These integrated sensor data collection systems will be utilized in field-based pilot projects with our participating growers to provide rapid decision-making information to reduce water and nutrient loads through an online interactive decision support tool.

***Task D) Engaging the present and future workforce in the adoption of new technologies***

*Team members for training (primary):* Karen Humes, Erik Coats and partners at CSI, UI Idaho Falls and professional organizations such as Food Northwest, *Primary team member for drone outreach activities:* Jae Ryu (Idaho Drone League (I-Drone), Founder).

*Accomplishments this period:*

- Although significant engagement with food processors and producers has already begun (see more reporting on this in Task E below), the workforce training aspects of this task were intended (and resourced in our budget) to take place primarily in Yrs 2 and 3 of our project. However, the PI worked in this reporting period to design a survey to be made available to participants at the annual expo of our key partner (Food Northwest) in Portland, OR in January 2019 designed to solicit input on workforce training needs in the food processing industry.
- Co-I Jae Ryu began developing plans for his three I-Drone outreach events (high school students and general public) in the spring/early summer of 2019.

Plans for next reporting period:

- Implement survey at Food Northwest Expo in Jan 2019 on workforce needs in food processing, collate results and discuss/vet with stakeholder advisory committee in March 2019, described in more detail in the next task.
- Implement I-Drone outreach events in Moscow, Boise and Pocatello (possibly add Twin Falls if funds permit).

**Task E) Overall Project Management**

Accomplishments this period:

- Team meetings established, three held via videoconference (in addition to separate coordination by multiple Co-Is under individual tasks)
- Planning for stakeholder advisory committee meeting to be held in March in conjunction with annual team meeting, with Twin Falls as target location. The goal of these initial meetings will be to enhance existing relationships, build new ones, and importantly to build a sense of collaboration and shared vision with regard to the specific nature of the research capabilities we are developing and the outputs and products we target.
- First draft of stakeholder advisory committee list formulated and consists of representatives from producer and processing groups, contract engineers for municipal waste water treatment (including Idaho Dairyman's Association, J.R. Simplot Corp., Amalgamated Sugar, Food Northwest and others who wrote letters of support for the proposal), as well as key state agency representation (such as Idaho Dept of Water Resources) and at least one municipal representative.
- Team began draft of a project-wide prospectus to provide concise explanation of project goals, make clear the genuine desire to better understand stakeholder needs and "value proposition" to stakeholders for their engagement with our project.

Plans for next reporting period:

- Complete plans and issue invitations (Jan 2019) for first annual in-person stakeholder advisory committee meeting to be held in Twin Falls (Mar 2019) with additional quarterly progress meetings to be held by videoconference (beginning Jun 2019)
- Complete project-wide prospectus document described above (Jan 2019) and distribute widely to Idaho producers and processors
- Attend the annual expo of one of our key partners (Food Northwest) in Jan 2019 (Portland, OR) and participate in activities to further disseminate project goals and understand stakeholder needs in energy, water, and waste (see section below on potential Tri-State funding opportunities for continuation and expansion of work).
- Continue to hold monthly team meetings to monitor progress and facilitate coordination of all project tasks and stakeholder engagement activities.

**2. Summary of budget expenditures for period just completed – report through Dec 20, 2018.**

*Note about burn rates at all three institutions:* Burn rates for all three institutions are considerably lower for these first 5 months than they will be in the next reporting period for several reasons. Most importantly, the notification of the award in late July and then lag times in setting up subcontracts to ISU and BSU made for less than 6 full months of activity, although this will not impact our ability to utilize all the resources and meet all deliverables in Year 1. Additionally, due to the holidays and report due date of Jan 1, expenditures are reported only through those posted by Dec 20; full expenditures through Dec 31 will not post until the first week in January. Going forward, the burn rate at all 3 universities will be considerably higher in the last quarter of the next reporting period (eg., late March through the end of June 2019) because of these factors:

- Late spring/early summer field work
- Travel by team and for stakeholder participants to our annual meeting and first annual stakeholder advisory meeting in Twin Falls in late March 2019
- Summer salary for faculty members in May/June 2019
- Increased hours for graduate and undergraduate participants in May/June 2019

*Expenditures at the UI – posted through Dec 20, 2018:*

\$ 40,853.00 Salaries (faculty summer and grad students summer/fall)  
\$ 9,563.25 Temp Help (undergraduate students)  
\$ 4,779.38 Fringe Benefits  
\$ 6,517.20 Travel  
\$ 24,920.11 Operating Expenses, including research supplies for bench scale studies  
\$ 10,134.29 Small equipment (<\$5K) – computer and drones/cameras  
\$ 8,350.00 Tuition Remission (UI graduate students)

\$ 105,117.23 Total UI Expenditures through Dec 20

*Expenditures in subcontract to BSU:*

Due to processing time (both setting up the subcontract in Aug/Sept and invoicing lag), BSU has not yet invoiced for expenses incurred to date, but this will not impact the timeline of project deliverables. Please see note under Task A about proposed modification in type of personnel to be hired at BSU.

*Expenditures in subcontract to ISU:*

Due to processing time (both setting up the subcontract in Aug/Sept and invoicing lag, ISU has not yet invoiced for expenses incurred to date), but this will not impact the timeline of project deliverables. An informal reporting from the ISU Co-I reports these expenditures:

\$ 2,416.80 – student salaries  
\$ 202.54 – fringe  
\$ 1,760.08 – OE, including UAS supporting mounts, hardware, software, tablets, etc.  
\$11,867.75 – UAS platform, GPS and thermal camera

\$16,247.17 – Total ISU expenditures through Dec 20

### 3. Demonstration of economic development/impact

- Patents, copyrights, Plant Variety Protection Certificates received or pending

Although not a direct outgrowth of the funding received on this grant beginning in July 2018, there was a patent filed by ISU in our reporting period on behalf of Co-I Donna Delparte and her collaborator on work of a similar nature to that being done by Dr. Delparte in this grant. The previous work on which the patent was based involved the detection of infected plants in potato fields; the work in this grant will be of similar methodology (detecting plant stress with the use of high spatial and spectral resolution sensors on drones and satellites), but the focus in this investigation is slightly different (the detection of nutrient and moisture stress with remotely sensed imagery). The patent is included here as an example of the likely future outcome of Dr. Delparte's work on this grant and her success in working with stakeholders to develop useful products and methodologies.

Patent filed on Nov 30, 2018 entitled: "Method and system for detecting and managing infected plants" Donna Delparte, L. Michael Griffel, Idaho State University. Cross reference - U.S. Provisional Patent Application No. 62/597,636 (ISU-001 PROV)

- Private sector engagement

Because every aspect of our work involves considerable private sector engagement, we have noted those engagements in each of our five tasks described in Section 1 (Accomplishments Plans for next reporting period).

- Jobs created

Programmer/Decision Support Analyst hired on Dec 16, 2018 (starting date) at Idaho State University

### 4. Numbers of faculty and student participation

Through Dec 20, the numbers of faculty, students and other researchers participating are as follows:

Faculty:	6 (4 UI, 1 BSU, 1 ISU)
Graduate Students:	4 (3 UI, 1 ISU)
Undergrad Students:	8 (all UI)
Research Scientists:	2 (1 UI, 1 ISU, both partially supported by this grant)

### 5. Description of future plans for project continuation or expansion

- The team is coordinating closely with the newly forming CAES entity (led by the UI but including other CAES partners) referred to as the Food Processing Innovation and Education Center (FPIEC). The vision for the center is for it to be a mechanism for collaboration between universities and private industry to develop next-generation technology and education programs for the Pacific Northwest food processing industry, with private industry eventually contributing to research driven by their needs. The collaborations between Idaho institutions, Idaho food processors and Idaho communities that are being supported by this IGEM grant, and

the beneficial results it will produce, should provide excellent examples to encourage more stakeholders to become involved in partnerships through the FPIEC in the future. Likewise, the FPIEC provides a mechanism to continue and expand upon the work begun in this IGEM.

- Some members of the team are also part of an ad-hoc working group organized by the VPRED at the UI to network with other land grant institutions in the Northwest (i.e., Washington State University and Oregon State University) to be mindful of collaborative opportunities for research funding in the arena of sustainable food production and processing and food/energy/water nexus, particularly from the USDA, DOE and NSF. Some of the largest grants awarded at the University of Idaho have been through these types of inter-institutional collaborations. This is one of many reasons that we highly value and are working to continue to build our partnership with Food Northwest, which represents processors in all three states.

**6. Expenditure report**

As noted in the Budget Summary section above, due to lags in setting up and invoicing from subcontracting institutions, the detailed expenditure report provided below is available at this time only on the portion of total spending at the University of Idaho.

Chad Watson  
Elton Graugnard  
Tim Andersen  
Reza Zadegan  
Eric Hayden  
Wan Kuang

## I. Project Summary

**The Idaho Global Entrepreneurial Mission (IGEM) and State Board of Education Higher Education Research Council (HERC) have provided three years of funding to help meet emerging state economic development, research, and workforce needs in the area of Nucleic Acid Memory (NAM). This report summarizes the activities during the first 6 months on the project.**

## II. Project Overview

In 2016, the digital universe produced 16 ZB (1 ZB = 1 trillion GB) of data. In 2025 it will create 163 ZB. These data, once generated, cascade through the information lifecycle — from primary storage media in the form of hard disks and solid-state drives to archival media such as tape. While the semiconductor industry maximizes the density, stability, and energy efficiency of electronic and magnetic memory, both are fast approaching their physical and economic finish lines. As envisioned by the new Semiconductor Synthetic Biology Roadmap, DNA-based massive information storage is a fresh start for memory manufacturing in the United States. According to our study with Micron, Harvard, and the Semiconductor Research Corporation (SRC), DNA has a retention time that ranges from thousands to millions of years, 1 kg of DNA can store the projected digital universe in 2040, and DNA's energy of operation is 100 million times less than current electronic memory. As a result, nucleic acid memory has become a global conversation, a national investment, an industrial opportunity, and a local strength in Idaho.

Our vision is to pioneer a digital data storage paradigm in Idaho by designing, building, and testing accessible, editable, and non-volatile nucleic acid memory (NAM) technologies that are inspired by DNA circuits and made possible by our innovations in DNA nanotechnology. With support from IGEM-HERC, we are creating a Nucleic Acid Institute to meet critical innovation, economic, and workforce development needs in Idaho. To expedite our vision of Idaho becoming a global leader in NAM, five tasks will be met over the life of the IGEM-HERC: Task 1 – Create improved algorithms for coding information into data strands. Task 2 – Create a high-throughput, integrated analytical engine to design and select data strands using quantitative metrics based on an in-house, evolutionary algorithm. Task 3 – Create a cellular factory for manufacturing DNA scaffolds using a rapid design, build, and test cycle of genomes. Task 4 – Design and fabricate NAM storage nodes using the DNA scaffolds. Task 5 – Read and write arbitrary files into NAM storage nodes using super-resolution microscopy.

### III. Summary of project accomplishments

#### Task 1 – Create improved algorithms for coding information into data strands.

- Kelsey Suyehira successfully defended her Master of Science in Computer Science in September 2018. Her thesis topic was entitled, *Using DNA for Data Storage: Encoding and Decoding Algorithm Development*. Briefly described, when encoding binary data into sequences of DNA, algorithms should account for biological constraints representing the idiosyncrasies of working with nucleic acids. In response, Kelsey created the REDNAM software package (a.k.a. Robust Encoding and Decoding of Nucleic Acid Memory). REDNAM includes a novel-mapping scheme that converts digital information into codons while accounting for important constraints when working with DNA. For example, it removes biologically active codes — such as start codons and some known promoter regions — avoids multiple repeats of unique nucleotides, and excludes repeating sequence strings. In doing so, Kelsey developed a schema mimicking how information has evolved to be efficiently encoded into natural DNA while also accounting for the errors that often arise when working with synthetic DNA. She also integrated her mapping scheme into a fountain code in an implementation that balanced information density with error correction. The result is that REDNAM recovers 100% of its data in spite of introducing random errors into the DNA. It also achieved a speed up of 2x for encoding and 435x for decoding digital information when compared to state-of-the-art fountain codes found in the literature. As shown below, Kelsey’s thesis resulted in one publication and two conference proceedings that established a foundation for this award, with two more publications that are in preparation.

- K. Suyehira, S. Llewellyn, R.M. Zadegan, W.L. Hughes, T. Anderson, “A Coding Scheme for Nucleic Acid Memory (NAM),” IEEE Workshop on Microelectronic and Electron Devices, pp 1-3, 2017.
- R.M. Zadegan, K. Suyehira, S. Llewellyn, T. Andersen, W.L. Hughes, A Coding Scheme for Digital Data Storage in Nucleic Acid Memory (NAM), DNA 23, (September 2017), Austin, TX, USA.
- R.M. Zadegan, K. Suyehira, S. Llewellyn, T. Andersen, W.L. Hughes, A Biologically Inspired Coding Scheme for Nucleic Acid Memory, FNANO, (April 2017), Snowbird, UT, USA.

**Task 2** – Create a high-throughput, integrated analytical engine to design select data strands using quantitative metrics based on an in-house, algorithm.

- Michael Tobiason is completing his PhD in the Micron School of Materials Science & Engineering. With an expected graduation date in 2019, his dissertation topic is entitled, *Engineering Kinetically Uniform DNA Devices*. Briefly described, the relationship between DNA sequence and the rate of DNA reactions is not well understood. In response, Mike has hypothesized that observed kinetic variations in the literature arise due to unintentional base pairing in DNA. He has found that ranking model DNA devices based first on the size (in base-pairs) of the largest unintentional structure and then the count (number of structures of this size) reliably identifies sequences with improved kinetic reproducibility. To engineer DNA devices based on this principle, Mike created an evolutionary algorithm and software package called Sequence-Evolver. By engineering DNA devices with favorable interference profiles using Sequence-Evolver, Mike experimentally demonstrated that DNA kinetics vary by a factor of two or less when his sequences satisfy four conditions: (1) no intramolecular interferences longer than 2 base-pairs, (2) no intermolecular interferences longer than 4 base-pairs, (3) no stretches of consecutive cytosines or guanines longer than 3 base-pairs, and (4) no stretches of consecutive adenines or thymines longer than 6 base-pairs. Taken together, his findings support the hypothesis that kinetic variation arise due to interfering events and that kinetic reproducibility is possible through sequence optimization.

**Task 3** – Create a synthetic biological factory for manufacturing DNA scaffolds using a rapid design, build, and test cycle of genomes.

- Steven Burden is completing his PhD in Biomolecular Sciences and is expected to graduate in 2020. His dissertation topic is the development of nucleic acid biosensors with allosteric fluorescence signals. Supporting the Vertically Integrated Project (see section VI), Steven is organizing the training of six undergraduate students to produce, purify, and ensure the quality control of single-stranded DNA scaffolds from a manufacturing perspective. During the Fall 2018 semester, the undergraduate students built basic synthetic biology research skills including DNA primer design and validation in polymerase chain reaction, digital design and sharing of

DNA sequences, bacterial transformation and cloning, gel electrophoresis, and DNA quantification and quality control using ultra-violet absorbance.

- A simple, cost-efficient, and time-saving method for the generation of modified and unmodified long linear ssDNA molecules up to 40 kilobases is under development using a method called asymmetric PCR (aPCR). This method enables direct synthesis of the single-stranded DNA from the template DNA and does not require purification steps. The single-stranded DNA fidelity has been verified by gel electrophoresis and by sequencing.

**Task 4 – Design and fabricate NAM storage nodes using the DNA scaffolds.**

- Sadao Takabayashi is completing his PhD in the Micron School of Materials Science & Engineering while working full time at Micron. He is expected to graduate in 2019 and his dissertation topic is *Patterning and Fabricating with DNA*. Foundational to this IGEM-HERC award, Sadao demonstrated high density and selective adsorption of DNA origami onto boron implanted silicon substrates made by Micron, which resulted in the below listed publication. He has since observed that surface adsorption is inversely proportional to the pattern feature size, and the smaller the pattern, the more pronounced the effect.
  - S. Takabayashi, S. Kotani, J. Flores-Estrada, E. Spears, J.E. Padilla, L. Godwin, E. Graugnard, W. Kuang, S. Sills, W.L. Hughes, “Boron-Implanted Silicon Substrates for Physical Adsorption of DNA Origami,” *International Journal of Molecular Sciences*, vol 19, issue 9, number 2513, pp 1-12, 2018.
- Dr. Reza Zadegan, Assistant Research Professor on the project, has designed, built, and tested preliminary digital NAM (dNAM) structures. He has tested three iterations of rectangular NAM structures that have the capacity to contain 16-256 bits of binary information. Initial screening is underway to evaluate the resolution during super resolution microscopy, rate of structural errors, and direction/orientation of NAM. When completed, these parameters will inform future NAM prototypes.

**Task 5 – Read and write arbitrary files into NAM storage nodes using super-resolution microscopy.**

- In support of this task, Drs. Wan Kuang and Elton Graugnard are pursuing a new super-resolution microscope to push the ultimate optical resolution for NAM. As a starting point, Nikon demoed a microscope at Boise State which had an ultimate demonstrated resolution of 20 nm, which is lower

than the resolution of our in-house microscope of ~14 nm point-to-point. In response, Kuang and Graugnard visited Leica labs in the Bay Area and UC Davis to evaluate two Leica super resolution microscopy systems. The research team is now in conversation with MadCityLabs about real-time camera-based drift correction and the demo is pending. This is in alignment with them pursuing options for building an advanced super-resolution microscope at Boise State.

- Using their current SRM system, the team demonstrated staple strand yield improvement due to PAGE filtration and docking-sequence dependent PAGE filtration.

#### **IV. Demonstration of economic development and impact**

<b>Demonstration of Economic Development and Impact</b>	<b>Number</b>

Shortly after the IGEM-HERC award, the National Science Foundation (NSF) in collaboration with the Semiconductor Research Corporation (SRC) jointly awarded the research team \$1,500,000 to address the scientific challenges facing NAM technologies. The funding mechanism was called *Semiconductor Synthetic Biology for Information Processing and Storage Technologies*. Boise State was one of the few universities in the country to receive the prestigious award in the first round of competition. Other awardees included: MIT, Stanford University, University of Washington, and UT Austin. Prior to the release of this award mechanism, Drs. Will Hughes and Reza Zadegan coauthored the Semiconductor Synthetic Biology Roadmap in collaboration with the SRC, which helped steer the federal investments.

Because of the below listed consortium, industry involvement on the research project includes Gurtej Sandhu (Micron Technology Vice President) and Victor

Zhirnov (SRC Chief Scientist) who jointly serve as the co-chairs of the NAM Institute at Boise State University. According to Gurtej Sandhu, “*the leadership and innovation of this research team has brought them to the threshold of becoming a world class player in the research, development and education of nucleic acid memory.*”

In response to this momentum, Will Hughes has been invited to give a keynote talk on the Nucleic Acid Memory Institute at Boise State to VentureCapital.org (VCO) Investor’s Choice Conference on February 20, 2019. The stage will be shared with senior leadership at Micron Technology. As a non-profit organization, VCOs mission is to improve the human condition by helping technology-based entrepreneurs “get started, find money, and change the world”. Supported by the Wayne Brown Institute in Salt Lake City, VCO pulls together a powerful network of venture professionals who are actively engaged in advancing the impact of entrepreneurs in the United States.

## V. Numbers of student, staff, and faculty participation

Classification	Number
Tenured or Tenure Track Faculty	5
Research Faculty	1
Project Manager	1
Graduate Students	6
Undergraduate Students	6

Critical to the success of any research initiative are the people that make up the project team. As part of the IGEM-HERC, we have six faculty (Will Hughes, Tim Andersen, Wan Kuang, Elton Graugnard, Eric Haden, and Reza Zadegan) and a project manager (Chad Watson). We have also transitioned three graduate students (Mike Tobiason – Task 2; Steven Burden – Task 3; Chris Green – Task 5) to this project and have recruited and hired three additional graduate students (Shoshi Llewellyn and Golam Md Mortuza – Task 1; Elijah Spears – Task 4 and 5). In addition, we hired Kelsey Suyehira, who is a recent graduate student from Computer Science that completed her Master of Science on the project. Ms. Suyehira helped transition graduate students focused on Task 1, while also working toward two project-related publications in which she is the lead author. In support of increasing the research productivity, the faculty are aggressively recruiting two postdoctoral fellows in the areas of nanofabrication and super-resolution microscopy to respectively work with Graugnard and Kuang. After an international search consisting of two advertisements, 42 applicants have applied, 8 finalists have been down-selected and 6 have been interviewed.

In support of this multidisciplinary team, a Vertically Integrated Project (VIP) was also launched in Fall 2018. As active participants in and co-owners of the Vertically Integrated Project courses called VIP 200, 400, 500 Bio-Innovations, undergraduate and graduate students enroll into a multi-year and multi-disciplinary research team that provides ongoing course and teaching credit. As of Spring 2019, six students have enrolled and are engaging in research activities aimed toward the production, purification, and quality control of new single-stranded DNA origami scaffolds. These students are being mentored by two previous VIP students with over 2 years of experience in the Eric Hayden lab, a fourth year PhD student, as well as the faculty members involved in the project. The students include sophomore Biology Major Ben Balzer, Junior Biology Major Madison Edwards, Hailey Jorgenson a senior pre-med student with a visual art minor, a senior Biology major Isaiah Keylor, and a senior Health Studies major Tia Senger. We are excited by the representation of women in this group,

the diversity of the majors and minors, and different levels of progress towards degrees. All students reported positive experiences, and all have signed up for the VIP course this semester (Spring 2019).

## VI. Description of future plans

### Task 1 – Create improved algorithms for coding information into data strands.

- Experimentally validate REDNAM by encoding and decoding digital information using synthetic DNA. The information will be read using commercially available next-generation sequencing. Once validated, the synthetic DNA will be randomly degraded under various doses to test REDNAM's ability to tolerate defects. Based on the performance of the tool, we will improve its robustness by accounting for better error correction techniques for insertion/deletion errors.
- Building on the success of REDNAM, we will create an optimal encoding/decoding algorithm specific to the digital NAM (dNAM). Concurrently, we will develop and publish a website for DNA-based encoding/decoding of data.

### Task 2 – Create a high-throughput, integrated analytical engine to design select data strands using quantitative metrics based on an in-house, algorithm.

- Once published, the Sequence-Evolver software package will become an open source collaborative initiative available in the GitHub repository (<https://github.com>). It will also be posted on the website outlined above in Task 1. Once published, we will optimize the Sequence-Evolver software package to generate sequences specific to NAM, including but not limited to the scaffold strands, staple strands, and the strands used during super-resolution microscopy. In anticipation of needing to use the software tool for more complex jobs, Sequence-Evolver will be expanded to work on a supercomputer platform for larger NAM applications.

### Task 3 – Create a synthetic biological factory for manufacturing DNA scaffolds using a rapid design, build, and test cycle of genomes.

- Building on the initial success of the VIP project, graduate and undergraduate students will continue to collaborate to design and build synthetic phagemids for single-stranded DNA synthesis, and to quantify single-stranded DNA harvested from bacterial culture.

- The design space for scaffolds is quite large, and students will be initially challenged to build larger scaffolds with high yield. Our initial goal will be to double the size of the scaffold with the same molar yield of single-stranded DNA as M13mp18, which is the gold standard. To maximize exploration, the students will be divided up into two teams, each organized by an experienced undergraduate researcher, and each with guidance and mentorship from PhD student Steven Burden and Dr. Reza Zadegan.

**Task 4 – Design and fabricate NAM storage nodes using the DNA scaffolds.**

- DNA origami will be designed for dNAM using in-house scaffolds. In addition, they will be tested in-house using our super-resolution microscope. Synthesis yield and defect rates for the origami structures will be quantified using super-resolution microscopy. In addition, initial origami structures will be designed for sequence NAM (seqNAM).

**Task 5 – Read and write arbitrary files into NAM storage nodes using super-resolution microscopy.**

- Incorporate upgrades to existing super-resolution microscope to both improve its resolution and extend its fluid handling.
- Toward higher resolution, the team will design and build a custom super resolution NAM reading platform capable of sub-10 nm resolution.

**VII. Summary of Budget Expenditures**

The below table summarizes expenditures associated with the project. O&E has helped support the postdoctoral research scientist searches and the purchase of modified and unmodified DNA oligos. The oligos are used to assemble NAM blocks and to perform super-resolution microscopy studies. Funds were also allocated to purchase polymerase enzymes and primer oligos necessary for asymmetrical Polymerase Chain Reactions (PCR). The team is currently assessing super-resolution equipment to be purchased under capital.

Category	Expended
Faculty and Staff Salary	\$32,344
Graduate Students Salary	\$40,425
Fringe Benefits	\$14,824
Graduate Student Tuition and Fees	\$13,791
O&E	\$17,839
Capital	0

**VIII. Commercialization Revenue**

<b>Commercialization</b>	<b>Revenue</b>
None.	\$0

**IX. Additional metrics established specific to individual project**

<b>Metrics</b>	<b>Number</b>
External Funding	\$1,500,000
Software Tools Created and Initially Validated	3
Master of Science Thesis Awarded	1
Peer-Reviewed Publications	1
Manuscripts in Preparation	4
VIP Program Enrollment (grad and undergrad)	7
National and International Postdoc Recruitment	42

Listed above are specific, objective, measurable, and realistic performance metrics to gauge project success and economic impact, many of which have been distributed throughout this report and are consolidated here for ease of review.

## DIRECTOR'S LETTER

I'll never forget the evening of August 5, 2012, when a NASA probe entered the Martian atmosphere, deployed a parachute, and landed the Curiosity Rover successfully on the Red Planet. People around the world gathered to watch and witness this historic accomplishment. But behind all the action were the herculean efforts of thousands of engineers, researchers, scientists, policy-makers, and support staff who helped make this historical event possible. Moments like these are meticulously prepared, the execution must be precise, and collaboration is more than a desire, it's a necessity. In fact, behind every great event, invention, or organization lies the effort of many.

With thoughts of achieving greatness on our minds, CAES took the opportunity this year to engage in a detailed strategic planning process that allowed us to pause – momentarily – from the daily shuffle of meetings, assignments, and project deadlines to reassess what makes us relevant, valuable, and necessary to our stakeholders. This inclusive and transparent process resulted in an ambitious, forward-looking strategic plan that sets CAES on a course for success over the next 20 years.

Our new strategy earned unanimous support from leaders at each of our five member organizations. The strategy focuses on collaboration and leveraging our collective resources, expertise, and facilities to act as a force multiplier in research, education, and innovation. It's this leverage that will allow us to take on significant technical challenges that will create a better energy future for the region, nation, and the world.

While our new mission, vision, and strategy set the course for the future, it's just as important to reflect on some of the year's other significant achievements. As you read this year's annual report, you'll see numerous highlights, accomplishments, and statistics that provide a glimpse of the value CAES provides its members and where we are headed in the future. You'll read about joint research that is solving critical challenges; you'll see the researcher, staff, and student connections and research wins made through CAES collaborations; and you'll hear about the positive impact we are having on our stakeholders at the universities and INL.

I hope you find this year's report engaging and inspiring. During the last fiscal year, it was the work of many researchers, faculty, staff, students, and countless supporters like you working together to make CAES successful. As an organization centered around collaboration, I truly value your input and feedback. At any time, please reach out to me or anyone on our leadership team. Thank you for your support during this process, and we look forward to hearing from you soon.

Sincerely,

Noël Bakhtian, Ph.D.  
CAES Director

# Collaboration Inspiring Innovation and Impact **2019-2039 CAES STRATEGY**

## CAES Releases New 20-Year Strategic Plan

Ten years ago, the Center for Advanced Energy Studies (CAES) was founded as a catalyst to activate world-class research assets at Idaho National Laboratory in combination with research universities in the region. CAES

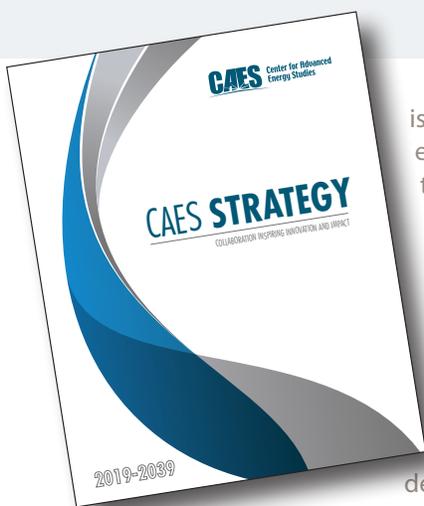

and a wave of new and advanced facilities. As energy, environmental, and national security challenges persist, we believe we can be doing even more to positively impact the world's energy future.

### Vision

Our vision is to create a better energy future through collaboration that inspires energy leadership, ignites technology innovation, and catalyzes global impact.

### Mission

CAES is the collaboration that inspires innovation and impact by leveraging our collective capabilities to empower students, researchers, faculty, and industry to accelerate energy solutions.

To read the entire CAES strategic plan, visit [www.caesenergy.org](http://www.caesenergy.org)

is focusing future collaborative efforts to discover and bring to market the approaches, technologies, and solutions to create measurable and lasting impacts for the people of Idaho and Wyoming, the nation, and the world.

CAES already benefits from a proud tradition, dedicated leadership team, broad community support, and public wins in the form of joint federal projects awarded, collaborative publications, joint appointments,

Thanks to your support, CAES spent the last fiscal year redefining its strategic direction through a series of stakeholder engagement meetings, listening sessions, focus groups, surveys, and internal discussions. Beginning in November 2017 and continuing through March 2018, CAES hosted five large working group meetings bringing together the leadership and stakeholders from all five CAES member organizations to discuss specific areas of focus. More than 500 people attended these forums, providing feedback and ideas, and

helping craft CAES' major focus areas and strategic direction. Some of the ideas generated led to laboratory funding and the development of federal research proposals, white papers, and capabilities road maps.

Through the summer of 2018, the CAES leadership team worked diligently to capture the best ideas from the year of discussion and develop them into a comprehensive 20-year strategic plan. At least 2,000 hours were spent on this project, and while it was a challenging effort, our future is stronger for having gone through the process. On Nov. 7, 2018, the CAES Steering Committee approved the new strategy. Today, CAES researchers, faculty, staff, and students are working to implement the tactical actions that will lead to lasting, long-term results that elevate CAES' potential impact.

The new CAES strategy rests on three strategic pillars: Research, Education, and Innovation. These pillars set the foundation for a series of major deliverables that will be achieved through a concerted, multiyear effort leading to an unprecedented level of

collaboration between researchers, faculty, students, staff, policy-makers, members of industry, entrepreneurs, and many more. Our efforts will focus on several grand challenges including nuclear energy; advanced manufacturing; cybersecurity; energy-water nexus; innovative energy systems; energy policy; and computing, data, and visualization. In each of these areas, there are stark challenges, but enormous opportunities we look forward to tackling together.

Over the next year, we will broadly share our strategy as we begin the long but necessary road toward implementation. We know that to achieve success, we must work together to accelerate research, develop the workforce of the future, and innovate technology for global impact. Our goal is to move the world forward toward a better energy future. We hope you'll join us.

FOCUS AREAS

20

YEARS

“ Sakae Casting opened its Idaho Falls office ... They have been busy collaborating with CAES to bring their unique technology to bear in the nuclear industry— it could greatly impact how we handle storage of spent fuel. ”

Rebecca Casper, Ph.D.  
Mayor, City of Idaho Falls  
2018 State of the City address

## RESEARCH HIGHLIGHTS

### CAES Research Team Wins \$237,000 IGEM Grant for Spent Nuclear Fuel Storage Research

In 2018, a CAES research team was awarded a one-year, \$237,000 grant from the Idaho Global Entrepreneurial Mission (IGEM) program. The funding was used to model heat-transfer properties for a new spent nuclear fuel storage cask that aims to reduce the amount of time irradiated nuclear fuel stays in water-cooled fuel pools. The project is led by researchers Bob Borrelli and Rich Christensen, both from the University of Idaho, with support from Boise State University's Brian Jaques, and Idaho National Laboratory's Piyush Subharwall.

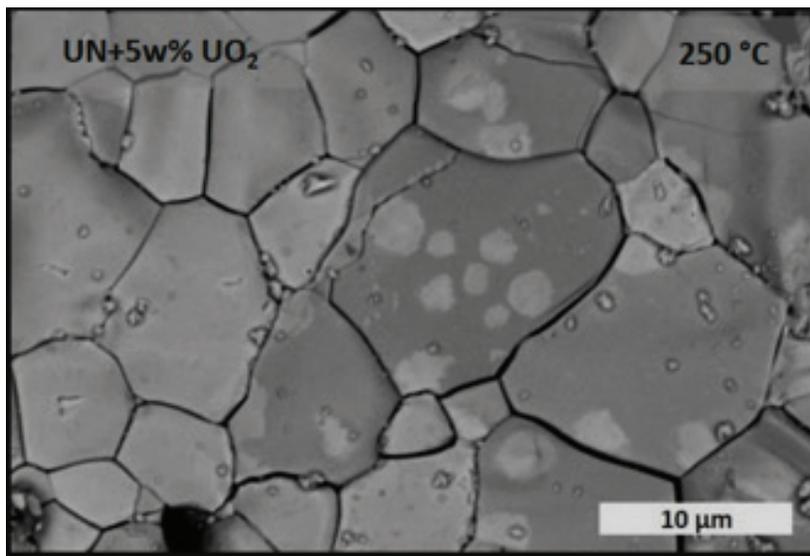

Using computer-aided design software, researchers designed models of aluminum plates infused with boron – a material particularly suited for neutron absorption – capable of fitting inside a newly designed spent nuclear fuel

cask. If successful, the plates and cask design will work together to provide additional layers of neutron and gamma ray shielding, while also cooling the spent nuclear fuel assemblies. This means spent nuclear fuel could be moved out of water pools and into dry storage faster than with the current cool and wait method.

This project also involved technical experts from Tokyo, Japan's Sakae Casting and Blackfoot, Idaho's Premier Technology, along with team members from the College of Eastern Idaho, and Table Rock LLC, a Virginia-based consulting firm focused on Nuclear Regulatory Commission compliance.

### CAES Researcher Wins \$300,000 Grant from DOE's Geothermal Technology Office

As more renewable energy sources are added to the electric grid, power plant operators must continually adjust output to match needs. Since the bulk of U.S. electricity is produced using large spinning turbines and generators powered by natural gas, coal, and nuclear plants, cycling the power flow on and off is time consuming and taxing on the machinery. A potential solution could come by storing excess heat energy in a dynamic earth energy-storage system, or deep underground battery. This concept was proposed by CAES researcher Travis McLing, who picked up a \$300,000 grant from the U.S. Department of Energy's Geothermal Technology Office, to study the feasibility and methods for pumping excess power plant heat into briny, subsurface reservoirs located deep beneath the earth. The project involves several researchers, including McLing and Daniel Wendt from Idaho National Laboratory; Christine Dought, Nic Spycher, and Pat Dobson from Lawrence Berkeley National Laboratory; Dakota Roberson from the University of Idaho; and Fred McLaughlin from the University of Wyoming. Support for the project will also come from Rocky Mountain Power.

*The surface sheath of a High Temperature Irradiation Resistant thermocouple after a ductility test as captured on a scanning electron microscope. The image is part of a collaborative research project between BSU and INL geared toward instrumenting nuclear reactor cores.*

“The days are done when a single researcher can solve a problem alone. CAES is effective because it has a deep bench of talent to draw from, and I know there are some grants and proposals we wouldn’t have gotten had it not been for our affiliation with CAES.”

Mark Rudin, Ph.D.  
President, Texas A&M Commerce  
Former Vice President of Research  
and Economic Development,  
Boise State University and former CAES  
Steering Committee Member

### University of Idaho Wins \$700,000 IGEM Grant with CAES Support

The University of Idaho (UI) will work with food processors and suppliers in the Pacific Northwest to support reductions in their energy, water, and waste footprints as part of a new Idaho Global Entrepreneurial Mission (IGEM) grant awarded to UI and its partners around the state. The Idaho Department of Commerce recently released the first \$700,000 installment of the \$2.1 million grant earlier this month, with an additional \$1.4 million in funding anticipated over the next two years. Professor Karen Humes, an expert in hydrology and geospatial science in UI's College of Science, will lead efforts to pilot, demonstrate, and transfer technologies that will help food processors and producers reduce water and nutrient use, as well as recycle nutrients and other valuable byproducts. Initial funding to develop the grant proposal was provided by CAES.

### CAES Hosts Five Major Working Meetings to Inform Strategy Development

Approaching its 10-year anniversary, CAES underwent a significant revision of its strategic plan during the fiscal year. To help inform the development of the new strategy, five large collaborative meetings were held. Of the meetings, three had a focus on research in nuclear energy, national security, and clean energy. Participants shared their capabilities and expertise, offering their wants, needs, and ideas for the future direction of CAES' success. The goal of each meeting was to share the vision of the major areas of research that will benefit from collaboration in the next 3 years. All five meetings were held to identify gaps and challenges that CAES could help resolve by leveraging shared assets from each of the CAES member organizations.

*Students and faculty conduct research at the University of Idaho's Water Research Center in Boise.*

“ Think of the earth as a perfect YETI cooler. It’s an inherently good place to store heat, and we hope this research will take geothermal energy from a western boutique power source to a nationwide power source. ”

Travis McLing, Ph.D.  
Laboratory Lead,  
CAES Fluids Laboratory

### CAES and Idaho Accelerator Center Host Isotope and Materials Working Meeting

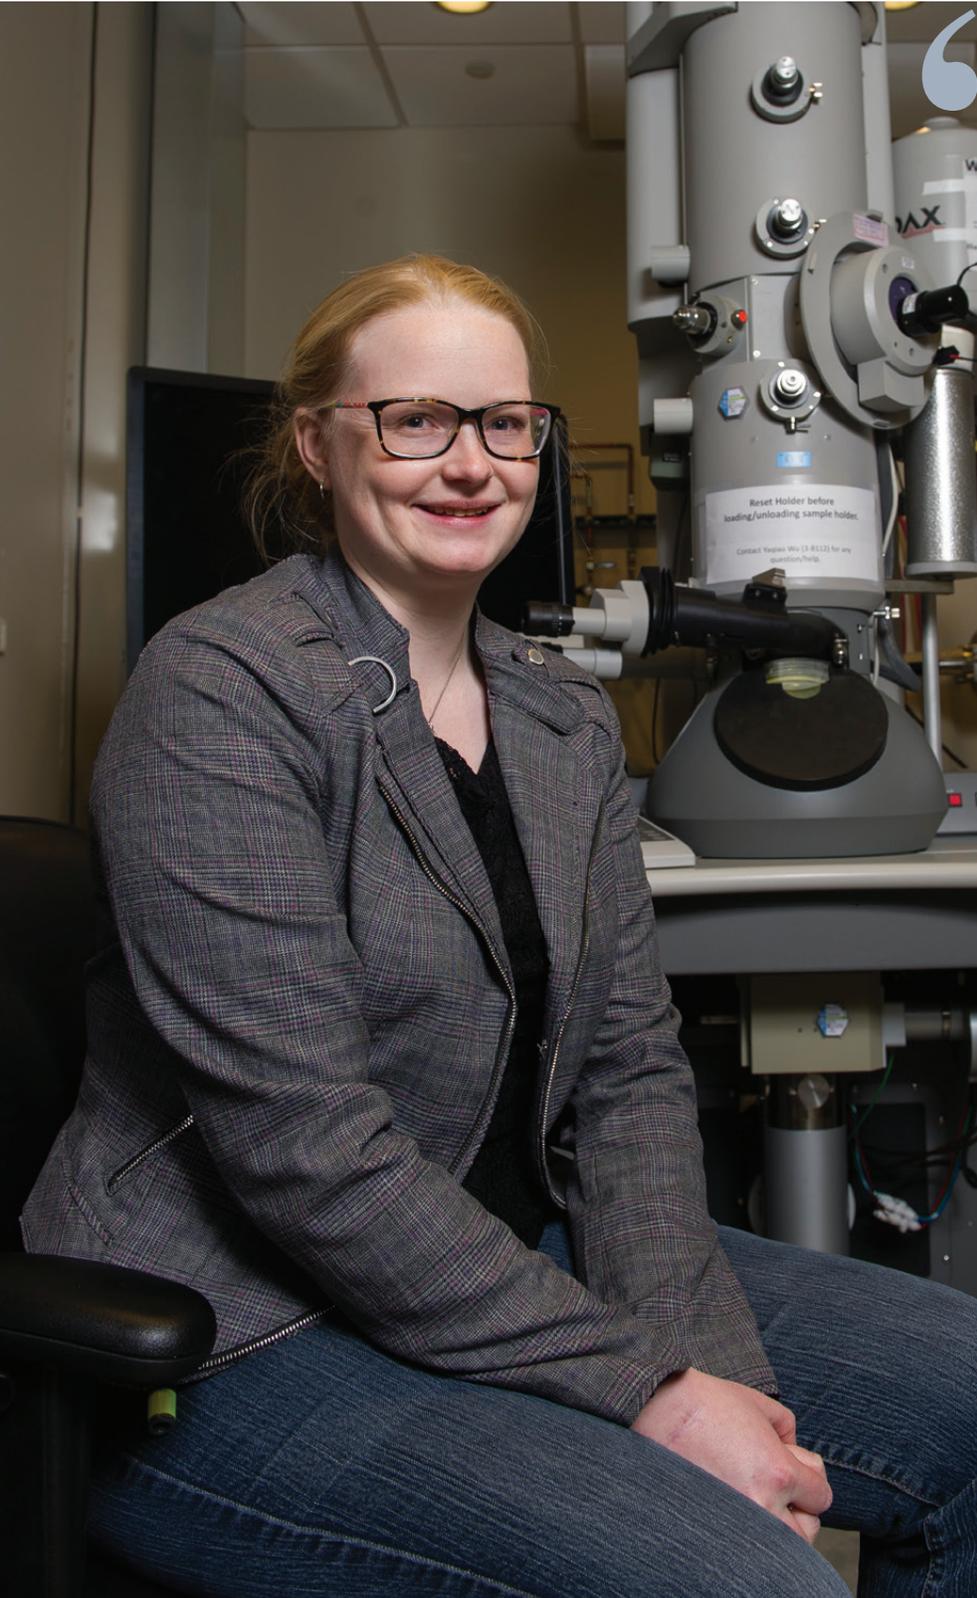

In June, CAES and Idaho State University (ISU) hosted a two-day working meeting in Idaho Falls aimed at forming a collaborative research initiative between CAES member institutions and the Idaho Accelerator Center (IAC). The working meeting began the process of creating dialogue between CAES entities, as well as development of a usage and capabilities road map for the center. It also answered questions about future facility needs for advancing isotope and nuclear materials science. Located in Pocatello, the IAC is a research facility operated by ISU featuring an array of electron accelerators for nuclear physics applications. A collaborative research planning meeting at CAES led to the discussion.

*A researcher works inside a fume hood inside the Energy Innovation Laboratory.*

### CAES Hosts Molten Salt Working Meeting at University of Wyoming

CAES and the University of Wyoming held a collaborative working meeting in July focused on grid-scale energy storage systems. The purpose of the meeting was to discuss the current status, research gaps, CAES comparative advantage, and future prospects for grid-scale energy storage using molten salt systems. The meeting was attended by 32 individuals from Idaho National Laboratory, Boise State University, Idaho State University, the University of Idaho, the University of Wyoming, and Brigham Young University-Idaho. Collaboratively, the group developed a white paper outlining CAES capabilities in scientific, engineering, and economic drivers impacting molten salt energy storage. The group plans to continue meeting to develop a road map for a future federally funded research proposal that relates to molten salt energy-storage systems. The working meeting is the result of a collaborative research planning meeting that CAES held on clean energy.

“The materials challenge is the biggest one for advanced reactors. Ultimately, this research will help engineers understand how long a reactor can be run before adverse conditions in the cladding need to be addressed.”

Elizabeth Getto, Ph.D.  
CAES MaCS Lab customer  
Assistant Professor,  
U.S. Naval Academy

### CAES Energy Policy Research Conference Draws Sell-Out Crowd

CAES' Energy Policy Institute (EPI) hosted the eighth annual Energy Policy Research Conference at Boise State University in early September. Since 2011, the conference has brought researchers together from across the world to discuss a widerange of energy research topics including engineering, economics, law, political science, and other policy-relevant fields. A sellout crowd of more than 200 scholars, students, and practitioners from academia, industry, government, and nonprofits were on hand during this year's event. CAES Director Noël Bakhtian and CAES Fluids Laboratory Lead Travis McLing participated on an energy-water nexus panel session. The event was led by Kathleen Araújo, the new EPI director. Next year's conference will return to Boise Sept. 29–Oct. 1, 2019.

### University of Wyoming's Coddington Mentions CAES in Senate Testimony

Testifying before the U.S. Senate's Environment and Public Works Committee in November, the University of Wyoming's Kipp Coddington referenced his ongoing, collaborative relationship with CAES. Coddington, the director of the Carbon Management Institute at the School of Energy Resources, testified before the committee at a hearing titled "Promoting American Leadership in Reducing Air Emissions Through Innovation." During his testimony, Coddington outlined the numerous ways the university is examining methods to reduce carbon emissions through innovative technologies including research into carbon capture, utilization, and sequestration technologies. The Senate committee is chaired by Wyoming Sen. John Barrasso.

*Participants at the 2018 CAES Energy Policy Research Conference in Boise.*

### Naval Academy First Military School to Use CAES MaCS Lab

In January, Elizabeth Getto, a mechanical engineering instructor at the U.S. Naval Academy, conducted research using tools inside the CAES Microscopy and Characterization Suite. Through the Department of Energy's Nuclear Science User Facilities program, Getto conducted a rapid turnaround experiment to study the effects of radiation and welding on oxide dispersion strengthened steels, commonly used in reactor vessels. The research represented the first time a U.S. military academy had taken advantage of the unique capabilities found in laboratory. Other institutions conducting microscopy work inside CAES this year include the University of Oxford, Purdue University, Texas A&M University, and the Massachusetts Institute of Technology.

“Working at CAES has provided me access to remarkable people who took the time to talk with me about any topic of interest I brought to them.”

Emma Redfoot  
Fellow, OKLO Inc.  
Former CAES Graduate  
Researcher

*Idaho State University students examine samples inside a glovebox.*

### **Governor’s LINE Commission Receives CAES Update**

In May, the Leadership in Nuclear Energy (LINE) Commission 3.0 met in Arco for a quarterly briefing. During the meeting, the commission received an update from CAES Director Noël Bakhtian. This was the first time the commission had received a CAES briefing since 2012. During her presentation, Bakhtian provided an overview of the CAES mission and vision, spoke to the values CAES provides to the state, Idaho National Laboratory (INL), and the four member-universities. She also addressed operational activities including the hiring of a new leadership team and fiscal year plans to produce a refreshed multiyear strategic plan. The presentation concluded with a series of recent accomplishments and questions from commission members. Along with Bakhtian, additional members of the LINE Commission affiliated with CAES include INL’s laboratory director and the three vice presidents for Research and Economic Development from Idaho’s public research universities.

### **Working Meetings**

In FY-18, CAES hosted several collaborative meetings.

Clean Energy Collaborative Research Planning Meeting – November 2017

Nuclear Energy Collaborative Research Planning Meeting – February 2018

National Security Collaborative Research Planning Meeting – February 2018

Education Collaborative Research Planning Meeting – March 2018

Industry Collaborative Research Planning Meeting – March 2018

Idaho Accelerator Center Roadmap Meeting – June 2018

Molten Salt Working Meeting – July 2018

Consolidated Innovation in Nuclear Research Joint Meeting – August 2018

Global Materials Working Meeting – August 2018

Energy Policy Research Conference – September 2018

Carbon Conversion Working Meeting – September 2018

“ At CAES, I have the opportunity to work with experts from diverse fields and areas of expertise. It can be challenging at times, but when you’re able to help a researcher succeed, that’s rewarding. ”

Kristi Moser-McIntire  
CAES Safety Officer,  
Idaho State University

### CAES Hosts Materials Science Roadmap and Capabilities Meeting at Boise State University

CAES hosted a materials science road map and capabilities meeting in August. The event was the first in a series of gatherings at CAES member universities to enable INL scientists and university faculty the opportunity to meet and tour the unique capabilities in materials science and other research areas that exist on campus. During the two-day event, attendees received a detailed set of briefings on research and development work currently underway in the materials science field. Attendees also heard about the strategic directions of the university's materials science program. Approximately 60 people from INL and the four CAES member universities attended the event. The next capabilities meeting will be held at a different CAES member university.

### CAES Hosts Carbon Conversion Working Meeting in Idaho Falls

A Carbon Conversion working meeting was hosted in September at CAES' Idaho Falls headquarters facility. The event brought together research and technical collaborators from Idaho National Laboratory, the University of Wyoming, Idaho State University, and the University of Idaho. During the event, participants presented information on university and laboratory capabilities, and discussed opportunities for joint proposals and federal grants in the areas of carbon capture, sequestration, and conversion. The event was a follow-up to a related meeting held last year at the University of Wyoming campus.

*ISU/CAES Assistant Professor Leslie Kerby, third from right, with her IEEE Brain Hackathon team.*

### ISU's Kerby Part of Winning Team at Big Data Competition in Japan

This summer, Idaho State University assistant professor Leslie Kerby and her team won the Institute of Electrical and Electronics Engineers (IEEE) Hackathon on Big Data Governance and Metadata and Management. The event, held in Tokyo, challenged teams to develop a data mashup scheme to cross reference datasets and apply statistical analysis, machine learning, and visualization tools to analyze and develop predictive models. Kerby's team included Frederic Andres, with the National Institute of Informatics in Tokyo, and Joey Costoya, senior researcher at Trend Micro Incorporated at National Capital Region, Philippines. The competition took place during the IEEE's 42nd International Conference on Computers, Software, and Applications, which explored the evolving relationship between humans and autonomous technology.

FY2018 NUCLEAR ENERGY UNIVERSITY PROGRAM (NEUP) PRIME AWARDS

NEUP R&D AWARD	\$640,000	DR. VIVEK UTGIKAR (UI)	DEVELOPMENT OF NUCLEAR HYBRID ENERGY SYSTEMS: TEMPERATURE AMPLIFICATION THROUGH CHEMICAL HEAT PUMPS FOR INDUSTRIAL APPLICATIONS
NEUP R&D AWARD	\$574,638	DR. VIVEK UTGIKAR (UI)	NOVEL PROCESSES FOR CAPTURE OF RADIOACTIVE IODINE SPECIES FROM VESSEL OFF-GAS STREAMS
NEET AWARD	\$830,000	DR. VIVEK AGARWAL (INL)	ANALYTICS-AT-SCALE OF SENSOR DATA FOR DIGITAL MONITORING IN NUCLEAR PLANTS
NEUP R&D AWARD	\$800,000	DR. INDRAJIT CHARIT (UI)	FRICION-STIR-BASED REPAIR WELDING OF DRY STORAGE CANISTERS AND MITIGATION STRATEGIES: EFFECT OF ENGINEERED BARRIER LAYER ON ENVIRONMENTAL DEGRADATION
NEUP R&D AWARD	\$611,640	DR. RICH CHRISTENSEN (UI)	MODELING AND EXPERIMENTAL VERIFICATION OF THERMAL ENERGY STORAGE SYSTEMS TO ENABLE LOAD-FOLLOWING CAPABILITY FOR NUCLEAR REACTORS

FY2018 NUCLEAR ENERGY UNIVERSITY PROGRAM (NEUP) PARTNER AWARDS

NEUP R&D AWARD	\$169,000	DR. VIVEK UTGIKAR(UI), DR. PIYUSH SABHARWALL (INL)	DEVELOPMENT OF NUCLEAR HYBRID ENERGY SYSTEMS: TEMPERATURE AMPLIFICATION THROUGH CHEMICAL HEAT PUMPS FOR INDUSTRIAL APPLICATIONS
NEUP R&D AWARD	\$225,362	DR. VIVEK UTGIKAR (UI), DR. KRISHNAN RAJA (INL), DR. PIYUSH SABHARWALL (INL)	NOVEL PROCESSES FOR CAPTURE OF RADIOACTIVE IODINE SPECIES FROM VESSEL OFF-GAS STREAMS
NEUP R&D	\$150,000	DR. RICH CHRISTENSEN (UI), DR. PIYUSH SABHARWALL (INL)	MODELING AND EXPERIMENTAL VERIFICATION OF THERMAL ENERGY STORAGE SYSTEMS TO ENABLE LOAD-FOLLOWING CAPABILITY FOR NUCLEAR REACTORS
NEET AWARD	\$170,000	DR. VIVEK AGARWAL (UI), DR. AHMAD AL RASHDAN (INL), DR. RON BORING (INL)	ANALYTICS AT SCALE OF SENSOR DATA FOR DIGITAL MONITORING IN NUCLEAR PLANTS

**FY2018 LABORATORY DIRECTED RESEARCH AND DEVELOPMENT (LDRD) PRIME AWARDS**

\$430,185	DR. MAOHONG FAN (UW), DR. DONG DING (INL)	DEVELOPMENT OF DIRECT CARBON FUEL CELLS
\$258,017	DR. BRIAN JAQUES (BSU), DR. CHAO JIANG (INL)	MICROSCALE TECHNIQUE TO EVALUATE GRAIN BOUNDARY COHESION OF IRRADIATED ALLOYS

**FY2018 LABORATORY DIRECTED RESEARCH AND DEVELOPMENT (LDRD) PARTNER AWARDS**

\$160,699	DR. BRIAN JOHNSON (UI), DR. MICHAEL HANEY (UI), PHILLIP RICHARDSON (UI), DR. CRAIG RIEGER (INL)	RESILIENT, SCALABLE CYBER STATE AWARENESS OF INDUSTRIAL CONTROL SYSTEM NETWORKS TO THREAT
\$95,347	DR. HAIYAN ZHAO (UI), DR. JEREMIAH DUSTIN (UI), DR. JIEUN LEE (UI) DR. SHELLY LI (INL)	INVESTIGATION OF SONICATION-ASSISTED ELECTROLYTIC REDUCTION OF USED OXIDE FUEL IN MOLTEN SALT
\$431,918	DR. MICHAEL GLAZOFF (UI), DR. DONGMEI (KATIE) LI (UW), DR. SHUAI TAN (UW), DR. REBECCA FUSHIMI (INL)	TAILORING THE KINETIC FUNCTION OF A SURFACE THROUGH ELECTRONIC EFFECTS OF NANOSCALE ARCHITECTURE
\$114,961	SAM GIEGEL (ISU), DR. CHAD POPE (ISU), DR. GEORGE IMEL (ISU), DR. AARON CRAFT (INL)	CHARACTERIZATION OF NEUTRON BEAMLINES AT NEUTRON RADIOGRAPHY REACTOR
\$316,328	DR. HAIYAN ZHAO (UI), DR. LUKE WILLIAMS (INL)	ADVANCED CARBON-FEEDSTOCK PROCESSING USING IONIC LIQUIDS
\$222,180	DR. VIVEK UTGIKAR (UI), DR. JARED PERKO (BSU), KEVIN LYON (INL)	MODELING AND SIMULATION FOR NUCLEAR FUEL-CYCLE SEPARATIONS USING MODULAR COUPLING
\$255,641	BRANDON DAY (UI), DR. DONNA BAEK (INL)	ELECTRO-REDUCTION OF METALS IN SUPERCRITICAL-FLUID ROOM-TEMPERATURE IONIC LIQUIDS
\$258,017	DR. RAY FERTIG (UW), DR. INDRAJIT CHARIT (UI), DR. CHAO JIANG (INL)	MICROSCALE TECHNIQUE TO EVALUATE GRAIN BOUNDARY COHESION OF IRRADIATED ALLOYS
\$271,913	DR. RICHARD CHRISTENSEN (UI), DR. COLBY B. JENSEN (INL)	IN-PILE INVESTIGATION OF TRANSIENT BOILING IN TREAT
\$248,127	DR. HAROLD BLACKMAN (BSU), DR. RON BORING (INL)	HUMAN RELIABILITY ANALYSIS FOR ADVANCED-REACTOR TECHNOLOGIES AND SYSTEMS
\$277,887	DR. ERIC JANKOWSKI (BSU), DR. MATTHEW JONES (BSU), MIKE HENRY (BSU), BRYTON ANDERSON (BSU), DR. KEVIN GERING	SURFACE MORPHOLOGICAL PATTERNING, STRUCTURE-ACTIVITY MODELING, AND AGING ANALYSIS OF CATALYST MATERIALS TO ENHANCE ODH-REACTION CONVERSION EFFICIENCY AND IMPROVE CATALYST LIFETIME
\$245,319	RYAN CARNAHAN (ISU), DR. CHENG SUN (INL)	ADVANCED MANUFACTURING OF FUEL-CLADDING MATERIALS BY EQUAL-CHANNEL ANGULAR PRESSING
\$104,972	DR. KUMARI SHARMA (ISU), DR. CHRISTOPHER ZARZANA (INL)	SOLVENT RADIOLYSIS-PRODUCT PRODUCTION USING PREPARATIVE HPLC

“CAES has been a fantastic experience. I was able to connect with people in industry that I wouldn't have had access to before. Working here is how I got my internship, how I got connected to the lab system, and a big part of how I was able to receive my fellowship.”

Seth Dustin  
Fellow, Los Alamos  
National Laboratory  
Former CAES Graduate  
Researcher

## EDUCATION HIGHLIGHTS

### CAES First Annual Summer Visiting Faculty Program Begins

CAES launched its first annual Summer Visiting Faculty program in June. The program works to foster interaction and networking between university faculty and Idaho National Laboratory (INL) researchers with the goal of developing a joint-funded research proposal of value to both parties.

The program allows each faculty member and INL researcher to spend a week at CAES headquarters outlining their research proposal. Then, the pair continues to collaborate throughout the summer. Participants provide a presentation on their proposal at CAES in August before submitting it for funding. The CAES Summer Visiting Faculty program was developed following a series of collaborative planning meetings held earlier this fiscal year between the CAES member universities and INL.

During the inaugural year, CAES provided a part-time summer salary and travel for six faculty members from CAES member universities. The three research areas selected for this year's program included nuclear energy, cybersecurity, and energy-water nexus.

Faculty members and INL researchers participating in the inaugural program included:

#### Nuclear Energy

- Mike Hurley (Boise State University) worked with Gabriel Ilevbare
- David Arcilesi (University of Idaho) worked with Donna Guillen
- Mike McKellar (University of Idaho) worked with Donna Guillen

#### Cybersecurity

- Dakota Roberson (University of Idaho) worked with Steve Hartenstein and Wayne Austad
- Michael Haney (University of Idaho) worked with Steve Hartenstein and Wayne Austad

#### Energy-Water Nexus

- Jon Brant (University of Wyoming) worked with Travis McLing

### CAES Launches Seminar Series Featuring University, Laboratory, and Industry Leaders

A monthly seminar series focused on collaboration and problem-solving was launched at CAES in March. The brainchild of the University of Idaho's Dakota Roberson, the CODEBREAKER seminar series features talks by students, university faculty, Idaho National Laboratory researchers, and outside guests from academia and industry. Each 90-minute session includes a technical or informative lecture on a CAES research or focus area. Presenters also answer audience questions and seek collaborative opportunities for joint proposals or research development. The seminars are broadcast online for those who can't attend in person.

#### FY-18 CAES Seminar Series Speakers

- March **Dakota Roberson** – University of Idaho  
Stability of the Western North American Electric Grid
- April **Travis McLing** – Idaho National Laboratory  
The Water-Food-Energy Nexus
- May **Michel Haney** – University of Idaho  
Bitcoin, Litecoin, and the Future Economy
- June **James Money** – Idaho National Laboratory  
The Future of Real-time 3D Visualization
- July **Emma Redfoot** – University of Idaho  
Nuclear Renewable Hybrid Energy Systems
- Aug. **Nicolas Lee** – Stanford University  
Space Energy Harvesting and Wireless Power-transfer Concepts
- Sept. **John Kotek** – Nuclear Energy Institute  
The Future of Nuclear Energy in the U.S.

“ Over the years,  
Wyoming  
researchers have  
benefited from a  
variety of regional  
relationships from  
Idaho National  
Laboratory,  
including the  
Center for  
Advanced Energy  
Studies. ”

Kipp Coddington  
University of Wyoming,  
U.S. Senate Testimony  
Nov. 2017

### CAES Supports *My Amazing Future* with Interactive Events, Guest Speakers

The 2018 *My Amazing Future* event, which brought together 150 eighth-grade girls from four school districts to learn about science, technology, education, and math (STEM) careers, was held at INL and CAES in March. During the event, students performed dozens of hands-on science experiments, listened to laboratory researchers address career and education opportunities, and toured laboratory facilities. At CAES, several facilities and labs were temporarily turned into interactive learning spaces. CAES staff and students—including Donna Wuthrich, James Money, Tammie Borders, Leslie Kerby, Ross Kunz, Meng Shi, Eugene Engmann, Emma Redfoot, Charles Elverson, Derek Stucki, and Jieun Lee—ushered students through a series of activities and events involving advanced visualization, robotics, and renewable energy. CAES Director Noël Bakhtian provided closing remarks to the students.

### CAES Director Keynotes Idaho Conference on Undergraduate Research

CAES Director Noël Bakhtian provided the keynote address at the July 2018 Idaho Conference on Undergraduate Research at Boise State University. The event is the state's premier annual conference for undergraduate students working on degrees in STEM-focused areas. During the keynote, Bakhtian spoke to an estimated 200 students about her education and career path, including her research opportunities at the National Aeronautics and Space Administration, the U.S. Department of Energy, and the White House's Office of Science and Technology Policy.

*Students participate in the 2018 My Amazing Future event at CAES.*

### Wyoming Women of Influence Conference Hosts CAES Director for Motivational Talk

During the 6th annual Wyoming Women of Influence awards ceremony in Cheyenne in August, CAES Director Noël Bakhtian delivered the keynote address. Nearly 400 people gathered at the event to honor 10 women from across Wyoming for their outstanding work in business, achievement, and mentorship. As an invited guest, Bakhtian spoke about ways to make women visible in work environments traditionally dominated by men. She also addressed her personal education pathway that led to degrees from Duke, Cambridge, and Stanford University. In addition, she shared her curiosity for science and engineering, and how it led to career opportunities with NASA, the Department of Energy, the White House, and now CAES. The event was sponsored by the Wyoming Business Report and the University of Wyoming, a CAES member university.

“National laboratories and universities have strong research and education cultures that lead to critical innovations and technological advancements. We see tremendous opportunity to link our strengths more closely with private sector research and work-force needs.”

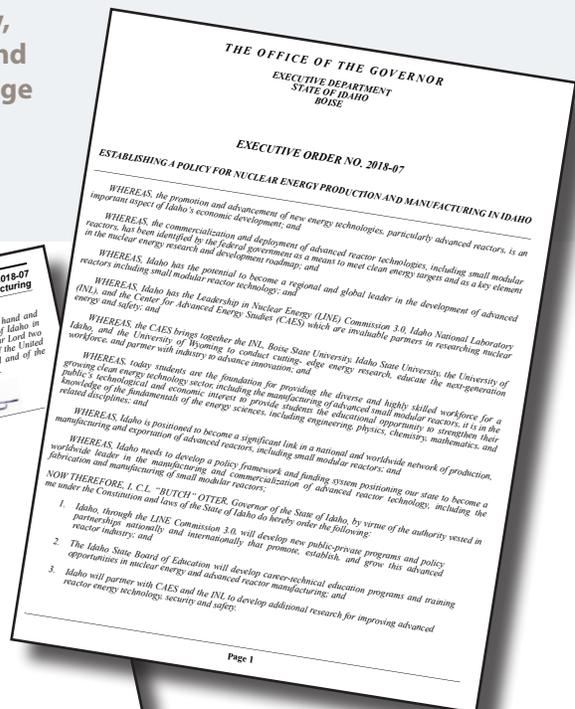

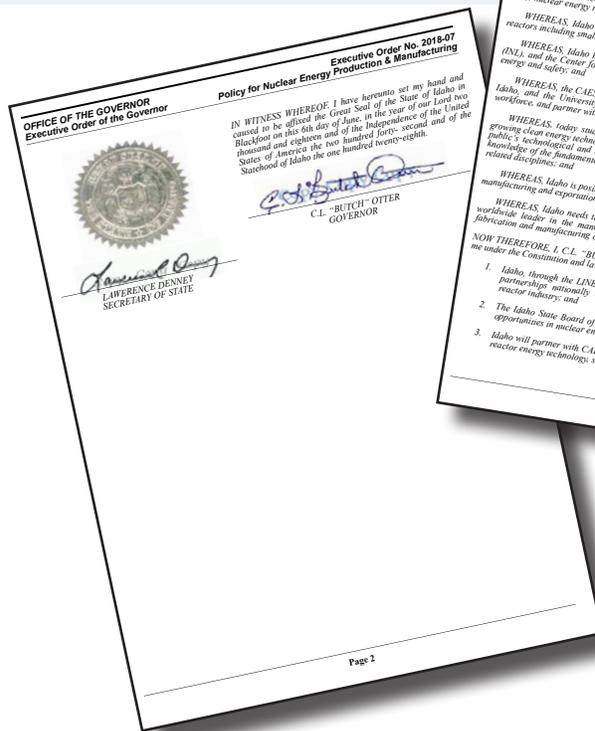

Leah Guzowski  
Director,  
CAES and INL Industry  
Research and Development

# INNOVATION HIGHLIGHTS

## Idaho Governor Signs Nuclear Energy Executive Order Highlighting CAES

In early June, Idaho Gov. C.L. "Butch" Otter signed Executive Order 2018-07, establishing a policy for nuclear energy manufacturing and production in Idaho. The order calls on the state of Idaho to partner with CAES and INL to develop research for improving advanced reactor energy technology, security, and safety. Specifically, it asks the LINE Commission 3.0 to develop new public-private programs and policy partnerships nationally and internationally. These will promote, establish, and grow the advanced nuclear reactor industry. It also directs the Idaho State Board of Education to develop career and technical education programs and training opportunities in nuclear energy and advanced-reactor manufacturing.

"CAES brings together INL, Boise State University, Idaho State University, the University of Idaho, and the University of Wyoming to conduct cutting-edge energy research, educate the next-generation workforce, and partner with industry to advance innovation."

“The value of CAES comes in the opportunity to perform collaborative research. It’s easy to walk 100 feet to talk with a researcher from another university who’s just down the hall. It’s harder to do that when they work on the other side of the state.”

Bob Borelli, Ph.D.  
Assistant Professor,  
Nuclear Engineering  
University of Idaho

### CAES Hosts Idaho Industries Breakfast, Meets with Congressional Delegations

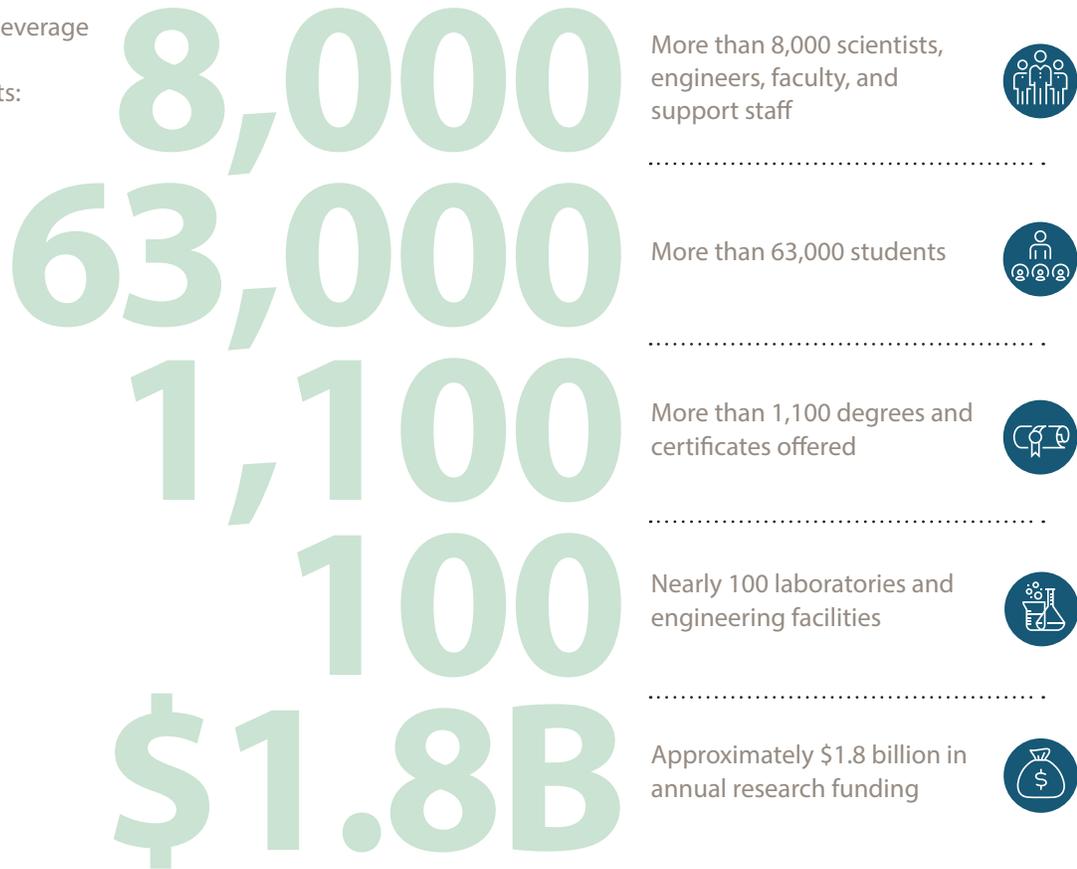

Several members of the CAES leadership team traveled to Washington, D.C., in June to host the Idaho Industries Breakfast and hold meetings on Capitol Hill with federal elected officials from Idaho and Wyoming. During the industry breakfast, CAES Director Noël Bakhtian updated the 80-plus attendees on the CAES mission, vision, strategy development, and recent accomplishments. Later in the day, the team met individually with Idaho Senators Mike Crapo and Jim Risch and Congressman Mike Simpson. The team also met with staff members from Congressman Raúl Labrador's office. Similarly, the group met with Wyoming Sen. John Barrasso and staff from Sen. Mike Enzi's office.

*A Boise State University student explores computer-generated imagery through a set of Oculus Rift 3D goggles.*

## BY THE NUMBERS

Through collaboration, CAES member organizations leverage the following collective assets:

### Investments

**\$7.1M**

\$7.1 million Idaho National Laboratory investments in CAES

**\$3M**

State of Idaho investments in CAES

## Outreach

**1,669**

Visitors to CAES and the  
CAVE 3D immersive research  
environment

**48**

Working meetings, seminars,  
and speeches hosted or  
sponsored by CAES

**343**

CAES publications and  
proceedings

## Research and Program Funding

**\$3,456,278** Federal nuclear energy funding  
awarded to CAES member faculty members (primary award)

**\$705,362** Federal nuclear energy funding  
awarded to CAES member faculty members (secondary award)

**\$688,212** Laboratory Directed Research and  
Development funding (primary award)

**\$4,000,000** Laboratory Directed Research  
and Development projects (secondary award)

**\$878,465** Program-development funding  
awarded to CAES member organizations for 30 strategic  
research projects.

## University Impact at INL

**NINETY-TWO**

students from CAES member universities interned at  
Idaho National Laboratory

**SEVENTEEN**

faculty members from CAES member universities  
were awarded joint appointments at Idaho National  
Laboratory

**9** students from CAES member universities  
were offered graduate fellowships at Idaho  
National Laboratory

**6** faculty from CAES member universities  
participated in the inaugural Visiting  
Summer Faculty program

**5** students from CAES member universities  
were awarded postdoctoral appointments  
at Idaho National Laboratory

## RESEARCHER, FACULTY, STAFF, AND STUDENT ACCOMPLISHMENTS

### CAES Graduate Researcher Earns Fellowship at Los Alamos National Laboratory

This summer, CAES graduate researcher Seth Dustin earned a research fellowship at Los Alamos National Laboratory. As a student at CAES, Dustin worked alongside Idaho National Laboratory researchers Prabhat Tripathy and Michael Shaltry on a project for the Critical Materials Institute involving electrochemical measurements of rare-earth materials in molten salt.

### CAES Graduate Student Earns Industry Fellowship at Oklo, Inc.

CAES graduate student Emma Redfoot earned a six-month fellowship at microreactor startup Oklo, Inc. The company is designing a small, portable nuclear reactor that is waste and carbon negative. Based in Sunnyvale, CA, the company was founded in 2013 and is working to develop a 2-megawatt compact fast reactor to bring distributed, clean, affordable, and reliable nuclear power to the market. During her time at CAES, Redfoot also defended her master's thesis, "Allocating Heat and Electricity in a Nuclear Renewable Hybrid Energy System Coupled with a Water Purification System."

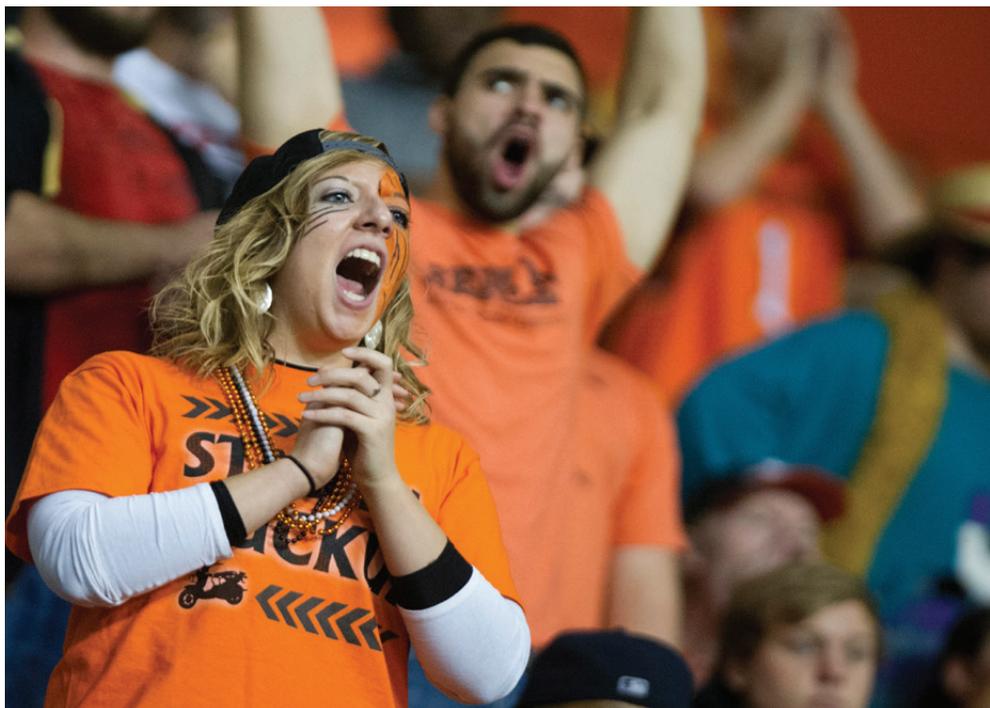

### The Materials Society Awards Best Poster to CAES Student

During the 2018 Minerals, Metals, & Materials Society's annual meeting, CAES graduate researcher Meng Shi was awarded best student research poster for her work on Electrolytic Reduction on  $\text{TiO}_2$  in Molten  $\text{Li}_2\text{O}/\text{LiCl}$ . Her research project used an electrochemical method to reduce metal oxide in spent nuclear fuel to a lower oxidative status. She found that by controlling parameters, like cathodic potentials, the carbon efficiency can reach 17 percent with a possible reduction extent up to 25 percent.

### Four CAES University Students Part of INL's 2018 Graduate Fellows Program

Idaho National Laboratory welcomed 13 students into the second cohort of the Graduate Fellows program, four of whom came from CAES member universities. The program integrates students into the national laboratory and allows them to contribute to significant research projects that will help them fulfill their thesis research requirements. The laboratory gains access to skilled staff, along with the opportunity to build long-term collaborations with universities, increase recruiting opportunities, and interact with a continuous pipeline of students interning and conducting research at the lab. Both the universities and INL have the opportunity for joint publications and intellectual property. Fellows from CAES member universities include Corey Michael Efaw, Sohel Rana, and Jennifer Kay Watkins from Boise State University, and Emerald Dawn Ryan from Idaho State University.

### CAES Intern from Idaho State University Supports LINE Commission Study

Idaho State University Career Path Intern Pedro Mena, working alongside ISU's Leslie Kerby, supported a research study evaluating the value chain for advanced reactors, specifically as it pertains to opportunities for the state of Idaho. The study was coordinated with the Idaho Leadership in Nuclear Energy Commission to inform state leaders about the market potential, value propositions, types of energy sector markets (e.g., utilities, industry, transportation), mechanisms to attract advanced-reactor manufacturers, and the potential for the development of a reactor-manufacturing industry in the state.

CAES would like to congratulate the following students from CAES member universities working as graduate assistants or supporting our research in a range of subjects including nuclear engineering, physics, and chemistry. The following students defended their master's thesis or doctoral dissertation:

#### University of Idaho

- WaiLam Chan
- Stephen Hancock
- Jieun Lee
- Emma Redfoot
- Amey Shirekar

#### Boise State University (doctoral students)

- Steven LeTourneau
- Kassi Smith

#### Idaho State University

- Shawn Fredstrom
- Nathaniel Gardner
- Brittany Grayson
- Connor Harper
- Mason Jaussi
- Daniel Sluder
- Aaron Thompson
- Kory Walling

### Christensen Named University of Idaho's College of Engineering's Outstanding Faculty Member of the Year

In May, CAES Associate Director Rich Christensen was named the University of Idaho (UI) College of Engineering's outstanding faculty member of the year. Following selection by an executive committee of peers, the annual award was given to a faculty member who serves as a role model and helps shape the college's high standard of achievement through their hard work and dedication to engineering. Christensen, who joined the university in 2015, is an internationally recognized scholar and leader in a wide range of nuclear and thermal science research areas. Prior to his time at UI, Christensen had a distinguished 37-year career at The Ohio State University, where he achieved professor emeritus status.

### Jaussi Completes Master's Degree, Earns Radiation Safety Officer Certification

Mason Jaussi, CAES Health Physicist, received his master's degree this year from Idaho State University, and is now a certified radiation safety officer. He completed his thesis, "Developing Am-DTPA (Americium-Diethylenetriamine pentaacetate) and Biokinetic Model," based on chelation treatments to model Am-DTPA to excrete radiation and determine dosage for the human body. Jaussi is currently working on his Certified Health Professional Certificate, gaining operational experience, and training on radiological materials.

### Business Insider Names CAES Director One of 2018's Top Female Engineers

In honor of International Women in Engineering Day, *Business Insider* published a list of the 39 most powerful female engineers of the year. CAES Director Noël Bakhtian came in as No. 11 on the most powerful list. *Business Insider* is one of the most widely read business and technology websites in the world with more than 80 million monthly visitors. In naming each awardee, the editors noted that despite the "arm waving about a lack of female STEM professionals...these are women with engineering backgrounds who are running big business units at important companies, are building impressive up-and-coming technologies, or acting as leaders and role models in the tech communities."

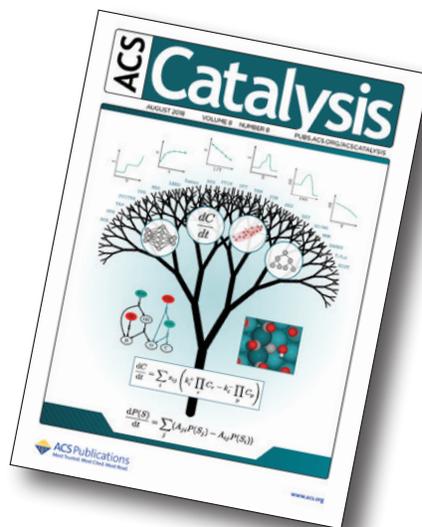

### Kunz Receives Doctoral Degree in Statistics from Idaho State University

Idaho National Laboratory employee Ross Kunz received his doctoral degree in statistics this year. His dissertation, "Fused Lasso and Tensor Covariance Learning with Robust Estimation," touched on block structure for estimation using sets of information to explain an event. Kunz, a data scientist in INL's High Performance Computing and Data Analytics department, looked at relationships between gas species of the overall catalytic process rather than physics just using data. Kunz plans to continue his work supporting Dr. Rebecca Fushimi's research in catalysis and transient kinetics.

### CAES Researcher Named to INL's Inventors Hall of Fame

During the INL Laboratory Director Awards ceremony in April, CAES researcher Harry Rollins was inducted into the laboratory's Inventors Hall of Fame. Rollins, who supports research and engineering efforts in the CAES Catalysis and Transient Kinetics Laboratory, was honored for being issued five career patents. As an INL principal investigator, his areas of research include synthesis and characterization of novel phosphorous-nitrogen compounds as advanced electrolytes for lithium-ion batteries, preparation and characterization of nanoscale catalysts for the production of synthetic fuels, and preparation of nanomaterials using supercritical

fluid technology and nanomaterials characterization. Rollins holds a doctorate in analytical chemistry from Clemson University.

The cover of the August 2018 issue of Catalysis Magazine features a graphic on multiple ways to analyze catalysis data. The cover resulted from a project that took place inside the CAES Catalysis and Transient Kinetics Laboratory.

### McLing Speaks on Water Security at National Governors Association Conference

In September, the National Governors Association's Center for Best Practices hosted the 2018 Annual Water Policy Institute which brought together water specialists from 31 states along with outside experts to talk about pressing issues surrounding water security. During the event, CAES researcher Travis McLing led a panel discussion on water security with an emphasis on cybersecurity. The panel featured notable experts from across the country speaking on topics ranging from infrastructure hardening to vulnerability assessments. In addition to his role as laboratory lead, McLing is the program manager for Idaho National Laboratory's Water Security Test Bed.

## NEW HIRES

### **Kathleen Araújo**

In July, Kathleen Araújo was hired as the director of the CAES Energy Policy Institute. The institute is located on the Boise State University campus and focuses on strategic problem-solving and opportunities in energy through a crosscutting, socio-technical approach that informs policy makers, communities, and private industry. Araújo earned her doctorate at the Massachusetts Institute of Technology, completing postdoctoral research at the Harvard Kennedy School on science, technology and public policy, and nuclear safety. She has worked as an assistant professor of energy-environmental innovation systems and policy at Stony Brook University, and as a researcher with Brookhaven National Laboratory, where she worked in the divisions for nuclear nonproliferation and national security, and sustainable energy. In addition, she is a book-series editor for Routledge's studies in Energy Transitions.

### **Leah Guzowski**

In September, Leah Guzowski was hired as the director of Industry Research and Development for CAES. She also serves as Idaho National Laboratory's director of Industry Engagement in a concurrent role. She comes to CAES from Argonne National Laboratory, where she served as commercial team lead for the U.S. Department of Energy, Building Technology Program. Guzowski's previous work includes strategic consulting and business development for clean technology companies and macro-level economic analysis research for international governments. She is a graduate of Harvard University and the University of Wisconsin-Madison. She also studied economics and policy at the University of Oxford.

### **Jana Pfeiffer**

In May, Jana Pfeiffer joined CAES as the research operations lead. In this role, Pfeiffer supports day-to-day technical, safety, facility, and operational activities for laboratories, equipment, and research operations to ensure successful execution of the CAES mission and vision. She is also the first point of contact for Idaho National Laboratory researchers who want to perform laboratory work at CAES. She provides direction on how to initiate the CAES processes for INL off-site work. Her extensive experience conducting hands-on research in both laboratory and radiological environments adds exceptional operational support to the CAES team. She holds a bachelor's degree in chemistry from Idaho State University.

### **Jeff Benson**

In February, Jeff Benson was hired as the CAES business operations lead. He is responsible for coordination of business outcomes, project management, and CAES process improvement. Prior to joining CAES, Benson worked for the Nuclear Science User Facilities at Idaho National Laboratory as a program administrator. He holds a master's degree in public administration from Marriott School of Management at Brigham Young University and a bachelor's degree in education from Brigham Young University.

## PUBLICATIONS AND PROCEEDINGS

In fiscal year 2018, CAES member organizations published 343 papers, journal articles, reports, and conference proceedings. The following pages include an alphabetized list of the CAES publications and proceedings for fiscal year 2018 as reported by each organization's associate director.

# Higher Education Research Council

## Presentation to the State Board of Education

Cathleen McHugh

June 20, 2019

# Higher Education Research Council (HERC) Mission

.....strengthen the research capabilities at Idaho's public, four-year institutions and contribute to the economic development of the state of Idaho.

# HERC Membership

## Higher Education Representatives

**Dr. Harold Blackman, *Boise State University***

**Dr. Janet Nelson (Chair), *University of Idaho***

**Dr. Scott Snyder, *Idaho State University***

**Dr. Lori Stinson, *Lewis and Clark State  
College***

# HERC Membership

## Industry Representatives

**Dr. Haven Baker, *Pairwise***

**Dr. Todd Combs, *Idaho National Laboratory***

**Bill Canon, *Valmark Interface Solutions***

**Robin Woods, *Alturas Analytics***

# HERC Initiatives

**Research Infrastructure**

**NSF-EPSCoR Matching Funds**

**Incubation Fund Grant Program**

**Undergraduate Research**

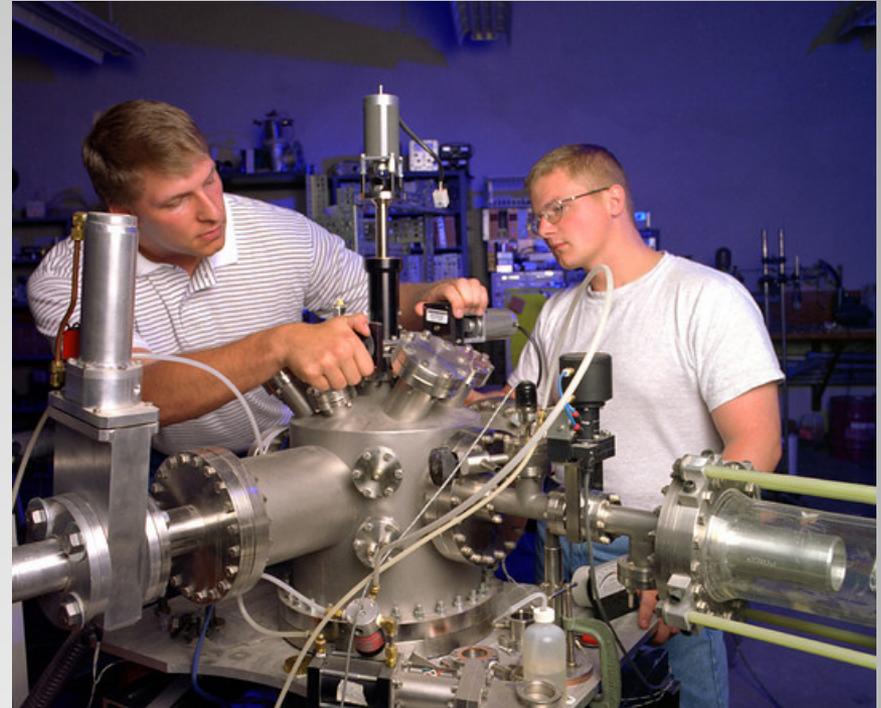

**HERC IGEM Projects**

**Center for Advanced Energy Studies (CAES)**

# HERC Research Infrastructure

- Funding to support science, engineering, and other research infrastructure
- Uses of funds in FY18 – library support, graduate research assistantships, start up packages for new faculty, support for technology transfer director, research equipment, servers, software subscriptions, etc.
- FY 19 Budget - \$950,000

# HERC Incubation Fund Grant Program

- **Competitive grant program initiated in FY11**
- **Projects funded up to \$75K**
- **No proposals submitted for FY19**

# FY19 Undergraduate Research

**Supports STEM undergraduate in research projects and undergraduate travel to conferences**

- \* 17 BSU students**
- \* 24 ISU students**
- \* 15 UI students**
- \* 7 LCSC students**

# 2018 Idaho Conference on Undergraduate Research (ICUR)

Funding for two day conference held at Boise State University in late July 2018. There were approximately 300 attendees with 164 poster presentations and 94 faculty, industry, and governmental representatives.

# FY19 HERC IGEM Projects

**Year 3: Security Management of Cyber Physical Control Systems, *University of Idaho, \$700,000***

**Year 1: Sustaining the Competitiveness of the Food Industry in Southern Idaho: Integrated Water, Energy and Waste Management, *University of Idaho, \$700,000***

**Year 1: Nucleic Acid Memory, *Boise State University, \$666,500***

# FY19 Undergraduate Research

**Supports STEM undergraduate in research projects and undergraduate travel to conferences**

- \* 17 BSU students**
- \* 24 ISU students**
- \* 15 UI students**
- \* 7 LCSC students**

## **Center for Advanced Energy Studies**

- Purpose (from the perspective of the State) – Leverage the capabilities of the Idaho National Lab to the benefit of the State
- Principle – CAES is mutually beneficial for universities, INL, and industry
- Process – Joint proposals to funding agencies {mostly federal}

# Center for Advanced Energy Studies

CAES develops and wins proposals for relevant research leveraging INL and University capabilities

- Key assets:
  - CAES building
  - Capabilities at the universities
  - Access to INL personnel and equipment
- Benefits:
  - External funding for capability development
  - Elevate Idaho's stature as a research and innovation hub
  - Provide a workforce pipeline to the laboratory and other high-tech industries

# Center for Advanced Energy Studies

## EXAMPLE PROJECTS

NUCLEAR ENERGY	ADVANCED MANUFACTURING	DEEP EARTH ENERGY STORAGE
<ul style="list-style-type: none"> <li>• UI, BSU, INL, and Japan-based Sakae Casting, LLC</li> <li>• Develop a used nuclear fuel storage cask</li> <li>• Phase 1 – funded through a one-year \$237,000 IGEM grant</li> <li>• Other collaborators - Idaho's Premier Technology, CEI, and Table Rock, LLC, a Virginia-based consulting firm</li> </ul>	<ul style="list-style-type: none"> <li>• Food Northwest and UI</li> <li>• Establish a research, development, and education center for the food industry</li> <li>• Reduce energy and water consumption at food manufacturing facilities</li> <li>• Food Northwest is one of the nation's largest food trade associations, representing more than 500 processors, manufacturers, and suppliers in ID, OR, WA</li> </ul>	<ul style="list-style-type: none"> <li>• INL, Lawrence Berkeley National Laboratory, UI, and Univ. of Wyoming</li> <li>• Store excess heat from industrial processes in deep underground reservoir systems</li> <li>• Awarded \$300,000 through the DOE</li> <li>• Use the earth's rock bed as a natural battery to store grid-scale energy for later usage</li> </ul>

**Thank You**

## About North Idaho College

Founded in 1933, North Idaho College is a comprehensive community college located on the beautiful shores of Lake Coeur d'Alene. NIC offers degrees and certificates in a wide spectrum of academic transfer, career and technical, and general education programs. The college serves a five-county region with outreach centers in Bonners Ferry, Kellogg and Sandpoint, and has an extensive array of internet and interactive video conferencing courses. NIC also plays a key role in the region's economic development by preparing competent, trained employees for area businesses, industries and governmental agencies.

Money Matters

**Customized Training Solutions** for employers designed to increase employee competencies.

**Continuing Education Units (CEUs)** for various professions.

**Room Rental** options for community members and other organizations.

**Industry Testing** for a wide variety of fields.

**Qualified Worker Retraining Program/ WIOA Adult Services** provides qualified adults with workforce preparation, career services, training services and job placement assistance needed to increase occupational skill attainment, obtain industry recognized credentials, and secure employment that leads to self-sufficiency.

Classes are offered weekly and throughout the year.

**NORTH IDAHO COLLEGE**

**SUBJECT**

North Idaho College Biennial Progress Report

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.M.4.

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 1: Educational System Alignment. Objective B: Alignment and Coordination.

GOAL 3: Educational Attainment. Objective A: Higher Level of Educational Attainment. Objective B: Timely Degree Completion. Objective C: Access.

GOAL 4: Workforce Readiness. Objective A: Workforce Alignment.

**BACKGROUND/DISCUSSION**

This agenda item fulfills the requirement of Board Policy I.M.4, for North Idaho College (NIC) to provide a progress report on the institution's strategic plan, details of implementation, status of goals and objectives and information on other points of interest in accordance with a schedule and format established by the Board's Executive Director.

At the meeting, President MacLennan and NIC leadership will provide an overview of NIC's progress in carrying out the institution's strategic direction and highlight new initiatives and programs designed to meet the strategic goals and objectives of NIC and the State Board of Education.

**IMPACT**

NIC's strategic direction drives the College's integrated planning, programming, budgeting, and assessment cycle and is the basis for the institution's annual budget requests and performance measure reports to the Board, the Division of Financial Management and the Legislative Services Office.

**ATTACHMENTS**

Attachment 1 – North Idaho College Facts & Info (Current overview of the college)

**STAFF COMMENTS AND RECOMMENDATIONS**

NIC's biannual overview gives the Board the opportunity to discuss with College leadership progress toward NIC's strategic goals, initiatives the institution may be implementing to meet those goals, and progress toward State educational system initiatives.

**BOARD ACTION**

This item is for informational purposes only.

**IDAHO PUBLIC TELEVISION**

**SUBJECT**

Idaho Public Television Annual Report

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.M.3

**ALIGNMENT WITH STRATEGIC PLAN**

Board Governance item, required by Board policy.

**BACKGROUND/DISCUSSION**

This agenda item fulfills the Board policy requirement for Idaho Public Television to provide an annual progress report on the agency's strategic plan, details of implementation, status of goals and objectives and information on other points of interest in accordance with a schedule and format established by the Board's Executive Director.

Ron Pisaneschi, General Manager of the Idaho Public Television, will provide an overview of IPTV's progress in carrying out the agency's strategic plan.

**IMPACT**

The annual report provides the Board with an update on Idaho Public Television's progress over the last year and an opportunity for the Board to ask questions and provide direction.

**ATTACHMENTS**

Attachment 1 – Idaho Public Television Annual Review PowerPoint Presentation  
Attachment 2 – 2019 PBS Trust One Sheet  
Attachment 3 – IdahoPTV Educator One Sheet

**STAFF COMMENTS AND RECOMMENDATIONS**

Idaho Public Television serves as a provider of high quality educational content around the state. Idaho Public Television not only provides resources to educators in the classroom, but also to individuals in the home, reaching many areas of the state that have no other access outside of the student's attendance at the local public school. The annual report provides the Board with the opportunity to discuss how Idaho Public Television's efforts support the Board's strategic goals.

**BOARD ACTION**

This item is for informational purposes only.

**IDAHO  
PUBLIC  
TELEVISION**

## **Agency Overview**

June 20, 2019

Ron Pisaneschi, General Manager

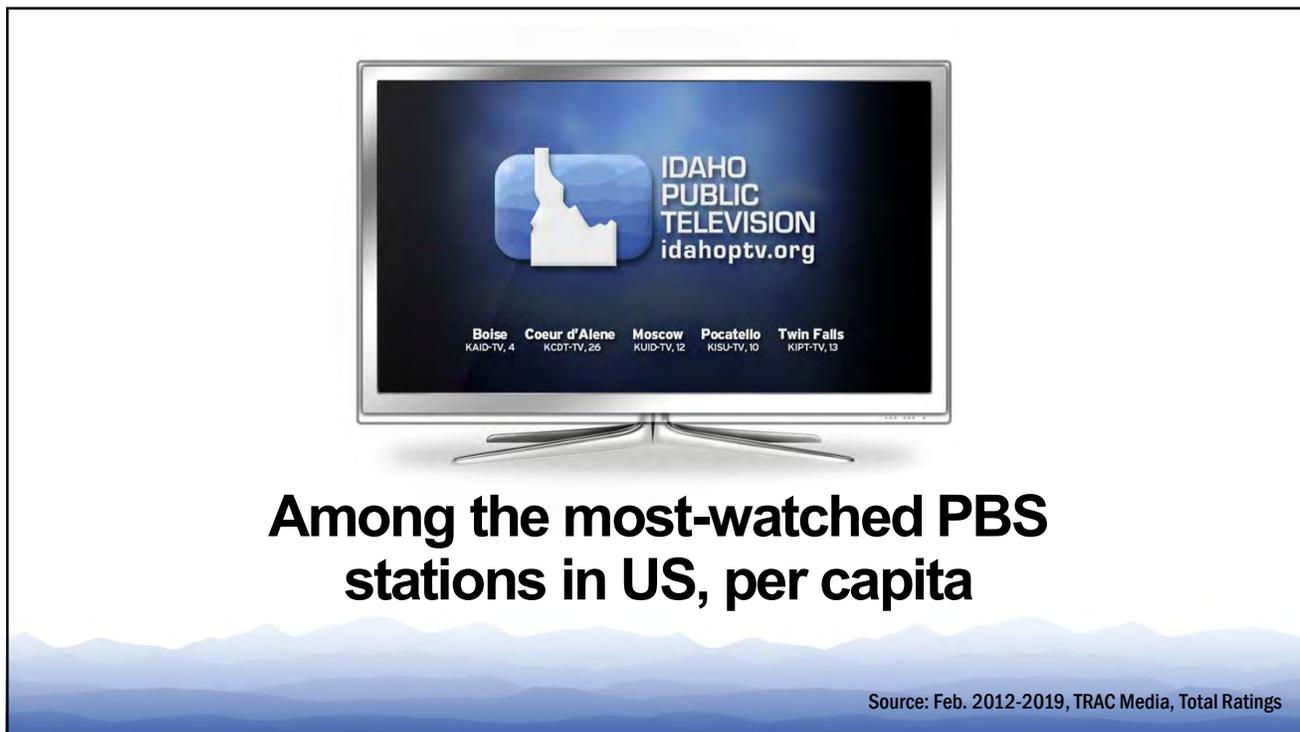

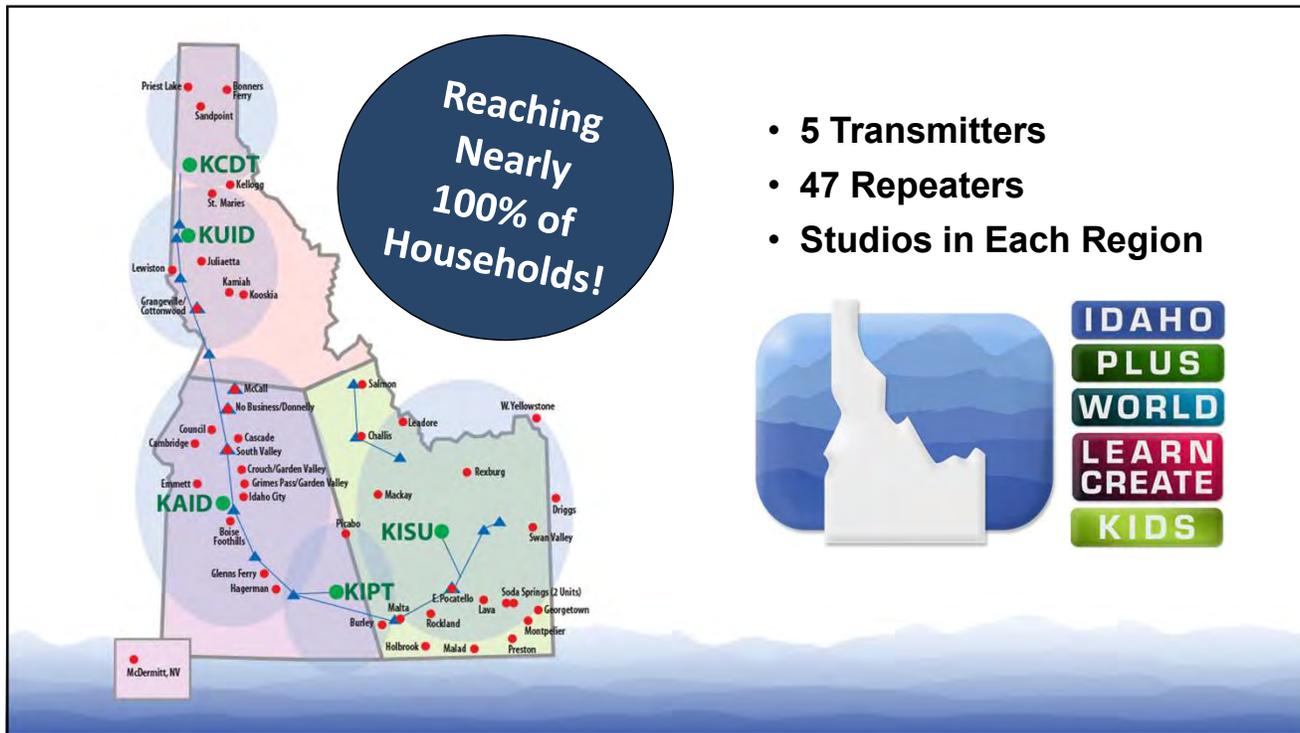

**PBS/IdahoPTV Sizzle Reel**

## Our Mission

Idaho Public Television harnesses the power of public media to encourage lifelong learning, connect our communities, and enrich the lives of all Idahoans. We tell Idaho's stories.

## Online Access via Desktop & Mobile Devices

iOS & Android Apps; Roku, Chromecast, AppleTV Channels

## IdahoPTV | Passport

## Broadcast vs. Online

### Video Viewing Is Still Mostly on Television

**Broadcast Television**  
29.5 Hours per Week

**Online**  
6 Hours per Week

Source: November 2018 Nielsen Company

## Spectrum Auction/Repacking Update

- KCDT/Coeur d'Alene move from Ch 45 to Ch 18 on track for completion this fall – Funded by FCC
- 10 Translator channels changed so far – Grangeville, Kellogg, Garden Valley, McCall, McDermitt, Malad, Holbrook, Hagerman, Salmon, Snowbank Relay
- 6 Translator channel changes to go – Crouch, Rexburg, Juliaetta, Sandpoint, Priest Lake, Bonners Ferry
- T-Mobile grant for translator changes saving \$500,000+

## **Technical Staffing Concerns**

- Fewer People Entering Broadcast Engineering Field
  - Salaries Not Competitive to Attract Candidates
  - Retention of Existing Staff a Concern
  - FY2021 Budget Request to Address Issue
- 

## **Educational Initiatives**

- PBS Teacher Community Program Grant
  - STEM & Literacy Outreach Initiative
  - CPB Innovation Planning Grant
  - Screenings & New 24 x 7 PBS Kids Channel
  - OSERS Project
  - American Graduate Initiative
  - PBS Parent Engagement in Schools Grant
- 

## **PBS Teacher Community Program**

- Training on Effective Use of Digital Media & Technology in the Classroom
- Cargill Grant Extended for a Fourth Year
- Expanding from Buhl, Wendell, and Gooding to Payette, Weiser
- Research Indicates Positive Impact
- PBS Learning Media On-line Portal

**New TCP Video**

## **STEM & Literacy Outreach Initiative**

- Working with Governor's Office on Literacy Initiative
- Libraries & After School Network
- Apps & Online Resources for Kids to Use
- Scratch Jr Coding Camps
- Training for Parents & Caregivers – Progress Tracker

## **Screenings & PBS KIDS Channel**

- Teachers use PBS content more than any other source
- PBS KIDS content delivers results
- Parents trust PBS more than any other media brand
- New channel - broadcast & live streaming

## OSERS

- National Comprehensive Center To Improve Literacy for Students with Disabilities at U of Oregon
- Five Year Grant (Now in Year Three)
- Stream Workshops & Produce Teacher Training Videos
- Working with State Department of Education
- Plan Is to Include Training Videos in PBS Teacherline

- PARTNERS -

**1 minute Am Graduate N. Idaho Video**

## **PBS Parent Engagement Grant**

- One of Three Stations Chosen for Two-Year Project
- Hired Idaho Teacher to Work on Project
- Working with IAEYC's "Preschool the Idaho Way", RISE/TVEP, Others
- Planning for Marsing & American Falls
- Low Income Parents of 3-5 Year-Olds Targeted
- Provide Resources & Strategies to Help Parents Prepare Children to Enter Kindergarten Ready To Learn

The screenshot shows the PBS for parents website. At the top, there are social media icons and a navigation bar with 'SHOWS', 'PLAY', 'THRIVE', and 'LEARN & GROW LITERACY'. A banner for 'Molly of Denali's podcast adventures' is visible. The main section is titled 'ABC Literacy' and includes a paragraph about developing literacy skills. Below the text is an illustration of a colorful boat on water. At the bottom, there are four circular icons labeled 'AGE 2', 'AGE 3', 'AGE 4', and 'AGE 5' over images of children.

## Local Productions

# Award Winning Productions

## 69 International, National & Regional Awards

# Science TREK

The screenshot shows the Science Trek website interface. At the top, it says 'IDAHO PUBLIC TELEVISION' with navigation links for Schedule, Programs A-Z, Video, About Us, Kids & Family, and Support IdahoPTV. Below this is a search bar and social media icons for YouTube, Facebook, Twitter, and YouTube+ (Blogger). A central banner features a cartoon astronaut and the text 'Science TREK Explore Your Universe!'. To the right, there's a 'Click on a Topic:' section with buttons for Ages Past, Animals, Earth Science, Environment, Human Body, Science Fundamentals, Space, Technology, and Other. At the bottom, there's a 'Joan's Blog' section with a post titled 'Tiny Arms - Big Dinosaur' and a 'Science TREK 360' logo.

## Appropriated Funding FY 2020 \$9,601,100

### Statewide Delivery System

- Deliver content to nearly every Idaho household
- Support education
- Emergency communications
- Deliver government  
*(Idaho In Session)*

### Educational Content

- National and Regional Programming
- Local Program Creation
- Online Resources
- Educational Outreach

## **Operational Funding Outlook**

- Federal funding to CPB threatened by President
- Already outperform peers in Private Fundraising – Limited growth projected
- Increased costs of Programming/Production
- Only 14 of 69.5 FTP funded with State funds

## **Other Opportunities/Challenges**

- Continue to grow Educational Outreach
- Continue to grow Local Production efforts
- Ensure content is available on all platforms
- Finish transitioning Transmitter/Translators to new channels per FCC repack

## **FY2021 Line Item Request #1**

### **Increase Salaries of Technical Staff to 100% of Policy to Address Recruitment and Retention Problems**

- Inability to Attract New Hires at Salary Available
- Losing Existing Staff to Better Paying Jobs
- Solve Equity Between Existing & New Staff

## **FY2021 Line Item Request #2**

### **New Educational Outreach Position**

- Address desire for IdahoPTV to provide more services & professional development workshops to more schools & communities
- Help reach more regions of the state

## **FY2021 Line Item Request #3**

### **New Digital Technician Position**

- Address increasing need to provide content on new online streaming services
- Number of technologies and digital platforms growing exponentially
- Idahoans expect us to provide content when and where they want it

## **FY2021 Continue Equipment Funding**

### **Critical Equipment & Infrastructure Concerns**

- \$23.3 Million in State Fixed Assets
- \$18.3 Million is Depreciated
- Federal Capital Grant Programs Eliminated
- Continuing To Address Deferred Replacement

# The Learning Ecosystem

## FOR EDUCATORS

At Idaho Public Television, we promote lifelong learning by engaging educators, families and communities to support the entire learning ecosystem — and teachers are the backbone of that environment. That's why we provide Gem State educators with free resources across multiple platforms that help teachers achieve success in their classrooms and careers.

- As part of PBS' **Teacher Community Program**, IdahoPTV created the Teacher Ambassador position to provide in-person professional development

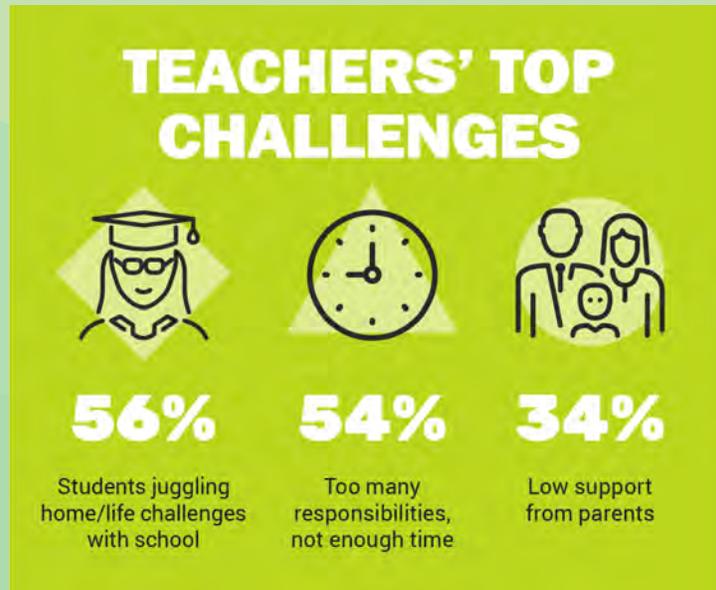

workshops for educators. Idaho's Teacher Ambassador, Kari Wardle, offers digital media and coding camps, lessons on integrating PBS resources in the classroom, trainings on digital collaboration platforms, and customized workshops. Visit [idahoptv.org/professionaldevelopment](http://idahoptv.org/professionaldevelopment) for the list of available trainings.

-  **PBS LearningMedia** ([pbslearningmedia.org](http://pbslearningmedia.org)) is the gateway to America's largest and most trusted classroom for teachers and students. It provides PreK-12 educators with access to thousands of innovative, standards-

aligned digital resources, as well as online professional development opportunities designed to improve teacher effectiveness and student achievement.

-  **PBS TeacherLine** ([pbs.org/teacherline](http://pbs.org/teacherline)) offers facilitated and self-paced professional development courses designed to benefit both beginning and experienced teachers. Topics include science, reading, social studies, math, instructional strategies, and instructional technology. Educators interact with peers and experts in a virtual learning environment to acquire new strategies and tools that can be used right away to enhance classroom instruction.
- IdahoPTV produces an expanding array of resources for teaching science and local history. **ScienceTREK** is an integrated Web and broadcast project designed to introduce science topics to elementary-age schoolchildren, provide educational materials, and inspire students to investigate STEM careers. Idaho teachers are collaborating with IdahoPTV's new series **IDAHO EXPERIENCE**, to create standards-aligned classroom units on the history of Idaho.

Idaho Public Television supports the entire learning ecosystem and promotes lifelong learning by offering educational programs, activities, and resources to Idaho's schools and communities, supporting teachers and parents, and providing children equal opportunities and access to quality educational resources.

"The students were excited and engaged! Coding with PBS KIDS ScratchJr was an amazing experience for them. Most of these kids come from a home that doesn't have access to such technology and it was a blessing that they were able to learn something new like this at school!"  
 (Sarah Castleberry - Popplewell Elementary School, Buhl)

"I have enjoyed PBS having a representative available to teachers. It has been a positive to have Teacher Ambassador Kari Wardle in our district sharing technology ideas and techniques in the classroom."  
 (Winona Gurney - Gooding Elementary School)

"Using the standards-aligned digital assets on Idaho history from PBS LearningMedia is how I went from using a 1970s textbook that is paper-thin to an entire year's worth of curriculum overnight."  
 (Donovan Dahl - Popplewell Elementary School, Buhl)

**CHARTER SCHOOL PERFORMANCE IN IDAHO 2018 – CREDO REPORT**

**SUBJECT**

Charter School Performance in Idaho 2019 – CREDO report

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-5213, Idaho Code

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 1: Educational System Alignment, Objective B: Alignment and Coordination  
Goal 2: Educational Attainment, Objective A: Higher Level of Educational Attainment

**BACKGROUND/DISCUSSION**

In 2018, BLUUM, an Idaho non-profit, provided grant support to Stanford University's Hoover Institution in order to empirically analyze charter school performance in Idaho. This grant support allowed the Center for Research on Education Outcomes at Stanford University (CREDO) to analyze the academic outcomes of charter schools in Idaho. CREDO requested and received de-identified student-level data from the Data Management Council. CREDO used these data to identify Idaho students who were identical to Idaho charter school students along several dimensions and then compared growth in standardized test scores between the two groups. The results from the study were presented to both the Idaho House Education Committee and the Idaho Senate Education Committee in early 2019.

**IMPACT**

The results from this study will help the Idaho State Board of Education understand charter school performance in Idaho.

**ATTACHMENTS**

- Attachment 1 – Charter School Performance in Idaho 2018, CREDO Report
- Attachment 2 – Memorandum from CREDO to the Education Committees of the Idaho House of Representatives and the Senate
- Attachment 3 – CREDO presentation to the State Board

**STAFF COMMENTS AND RECOMMENDATIONS**

CREDO first documented differences in student attributes between traditional public schools, brick-and-mortar charter schools, and online charter schools. Online charter schools were more similar to traditional public schools in terms of the share of students in poverty, the share of special education students, and the share of minority students than were brick-and-mortar charters. Most strikingly, Native American students were over-represented in online charter schools compared to traditional public schools while Hispanic students were under-

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

represented in both online and brick-and-mortar charters compared to traditional public schools.

CREDO next utilized a sophisticated statistical modeling technique to identify the effect of attending a charter school on a student's academic performance. CREDO presents their results as the average one-year growth of charter school students relative to the constructed comparison group. They found that students who attended charter schools in rural locales saw statistically significant gains in both reading and math. No other locale had these statistically significant gains. CREDO also found that students who attended a brick-and-mortar charter school saw statistically significant learning gains in both reading and math. The gains in reading were equivalent to 30 extra days in reading while the gains in math were equivalent to 35 extra days in math. In contrast, students who attended an online charter school saw a statistically significant loss in learning in math. The loss in math was equivalent to 59 fewer days of learning in math.

CREDO also characterized schools according to both achievement levels on standardized tests as well as growth in scores on standardized tests. They found the majority of the 41 Idaho charter schools included in this analysis were high growth, high achievement in reading (65.9%) and in math (58.6%). In follow-up analysis, CREDO performed this analysis separately for online charter schools and brick-and-mortar charter schools. They found that the majority of the 37 brick-and-mortar charter schools were high growth, high achievement in reading (67.5%) and in math (62.1%). However, among the 4 online charter schools, half were high growth, high achievement in reading (50%), half were low growth, low achievement in reading (50%) and most were low growth, low achievement in math (75%).

Finally, CREDO analyzed whether or not the impact of attending a charter school varied by student demographic. CREDO found statistically significant gains in reading and math for white charter students. It did not find any statistically significant impact for students in poverty, special education students, English Language Learner students, or minority students.

Center for Research on Education Outcomes

Stanford University

Stanford, CA

<https://credo.stanford.edu>

CREDO, the Center for Research on Education Outcomes at Stanford University, was established to improve empirical evidence about education reform and student performance at the primary and secondary levels. CREDO at Stanford University supports education organizations and policymakers in using reliable research and program evaluation to assess the performance of education initiatives. CREDO's valuable insight helps educators and policymakers strengthen their focus on the results from innovative programs, curricula, policies and accountability practices.

List of Acronyms & Definitions

CREDO	Center for Research on Education Outcomes
EOC	End-of-Course Exam
ELA	English Language Arts
ELLs	English Language Learners
TPS	Traditional Public School
VCR	Virtual Control Record
NAEP	National Assessment of Educational Progress
NCES	National Center for Education Statistics
OSBE	Idaho's Office of the State Board of Education
Feeder	A feeder school is a traditional public school whose students have transferred to a given charter school. We use students attending feeder schools as potential matches for students attending charter schools.
Growth	The year-to-year change in academic performance relative to one's peers. Growth can be positive or negative.

# Charter School Performance in Idaho 2019

## Introduction

Since the enactment of Idaho's public charter school law in 1998, more than 50 public charter schools in Idaho have offered parents and students choices in their education. Throughout the years, there have been controversies over charter schools. Supporters praise the autonomy that charter schools enjoy in adapting school designs to meet the needs of students, especially those in communities with historically low school quality. Opponents complain that charter schools take students and resources from district schools and further strain existing public schools' ability to improve. However, only a fraction of the debate is grounded in well researched evidence about charter schools' impact on student outcomes.

With the cooperation of Idaho's Office of the State Board of Education (OSBE), CREDO obtained the historical sets of student-level administrative records for the school years from 2014-15 to 2016-17. The support of OSBE staff was critical to CREDO's understanding of the character and quality of the data we received. However, the entirety of interactions with the department dealt with technical issues related to the data. CREDO has developed the findings and conclusions presented here independently.

The study provides an in-depth examination of the academic outcomes for charter schools in Idaho. This current report has two main benefits. First, it provides a rigorous and independent view of the performance of the state's charter schools. Second, the study design is consistent with CREDO's reports on charter school performance in other locations, making the results amenable to benchmarking both nationally and in other locations.

This report begins with a comparison of the students in charter schools compared to other settings. Three related analyses follow. The first type of analysis concerns the overall impact of charter schooling. These results are expressed in terms of the academic progress that a typical charter school student in Idaho would realize from a year of enrollment in a charter school. To help the non-technical reader grasp the findings, we translate the scientific estimates into estimated days of learning based on the foundation of a 180-day school year.

Both legislation and public policy operate to influence school level decisions. Accordingly, the second set of findings look at the performance of students by school attributes, as well as by school and present school average results. These findings are important to understand the range of performance at the school level. As online charter

schools serve students with different characteristics and deliver curriculum differently from brick-and-mortar charters, we break down charter impact by brick-and-mortar charters and online charters. Finally, the third set of analyses looks at the impact of charter school attendance on difference student subgroups.

The analysis shows that in a year's time, the typical charter school student in Idaho exhibits similar academic progress in math and stronger growth in reading compared to the educational gains that the student would have made in a traditional public school (TPS). Thinking of a 180-day school year as "one year of learning," an average Idaho charter student experiences stronger annual growth in reading equivalent to 24 additional days of learning. When we look across charter schools in Idaho, we find important performance differences. Roughly forty percent of charter schools show academic progress that is significantly better than the local district options in reading and math. Finally, the student subgroup analysis reveals little differences in the performance of students of different race/ethnicity groups and for students in designated student support programs, except for White students. White charter students account for the majority of charter students in Idaho and they experience higher learning gains in reading and math associated with their attendance in charter schools.

## Study Approach

This study of charter schools in Idaho focuses on the academic progress (growth) of students in Idaho's charter schools. In order to study their progress over time, a regular measure of academic performance is needed, so the analysis is constrained to enrolled students who took the state-mandated accountability tests. Our outcome of interest is the one-year gain in learning of charter school students.

Whatever else charter schools may provide their students, their contributions to students' readiness for secondary education, high school graduation, and post-secondary life remains of paramount importance. If charter schools do not succeed in forging strong academic futures for their students, it is unclear whether social and emotional skills can compensate. Furthermore, current data limitations prevent the inclusion of non-academic outcomes in this analysis.

To study academic performance of charter students in Idaho, we relied on scores students received on Idaho state standardized achievement tests. Achievement tests capture what a student knows at a point in time. These test results were fitted into a bell curve format that enabled us to see how students moved from year to year in terms of academic performance. Two successive test scores allow us to see how much progress a student makes over a one-year period; this is also known as a growth score or learning gain. Growth scores allow us to zero in on the contributions of schools separately from other things that affect point-in-time scores. The parsed effect of schools in turn gives us the chance to see how students' academic progress changes as the conditions of their education transform. This is the analytic foundation for our examination of the academic impact of enrollment in charter schools.

We employ the Virtual Control Record (VCR) method developed by CREDO in our analysis.<sup>1</sup> We strive to build a VCR for each charter school student. A VCR, or a “virtual twin”, is a synthesis of the actual academic experiences of up to seven students who are identical to the charter school student, except for the fact that the VCR students attend a TPS that each charter school’s students would have attended if not enrolled in the charter school. This synthesized record is then used as the counterfactual condition to the charter school student’s performance.

[Click here for an infographic about the Virtual Control Record method.](#)

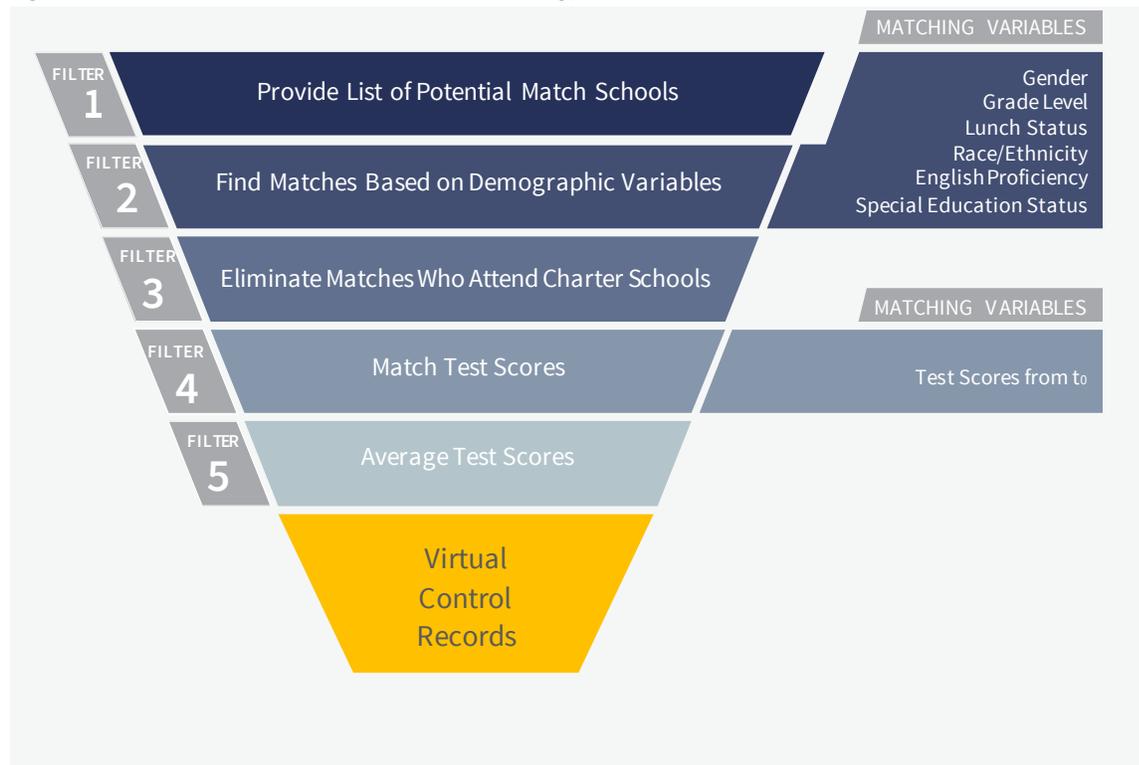

Our approach is displayed in Figure 1. We identify all the traditional public schools whose students transfer to a given charter school; each of these schools is designated as a “feeder school.” Using the records of the students in those schools in the year prior to the test year of interest ( $t_0$ ), CREDO selects all of the available TPS students who match each charter school student.

Match factors include:

- Grade level
- Gender
- Race/Ethnicity
- Free or Reduced-Price Lunch Status
- English Language Learner Status

<sup>1</sup> Davis, D. H., & Raymond, M. E. (2012). Choices for studying choice: Assessing charter school effectiveness using two quasi-experimental methods. *Economics of Education Review*, 31(2), 225–236.

Figure 1: CREDO Virtual Control Record Methodology

At the point of selection as a VCR-eligible TPS student, all candidates and the individual charter school student have identical traits and matching baseline test scores. The focus then moves to the subsequent year, t1. The scores from this test year of interest (t1) for as many as seven VCR-eligible TPS students are then averaged and a Virtual Control Record is produced. The VCR produces a score for the test year of interest that corresponds to the expected result a charter student would have realized had he or she attended one of the traditional public schools.

The above VCR method has been used in previous CREDO publications. In our previous reports, if a charter student could be tracked for multiple periods in the study window, we matched the student for all the periods using the records in the year prior to the first growth period. In this study, we match the student period by period to conform to the new baseline equivalence criteria specified in Procedures Handbook Version 4.0 of What Works Clearinghouse (WWC).<sup>2</sup> Altering the match in this way means that caution is advised when comparing findings in this study and previous reports.

<sup>2</sup> What Works Clearinghouse, “Procedures Handbook Version 4.0,” 2017, [https://ies.ed.gov/ncee/wwc/Docs/referenceresources/wwc\\_procedures\\_handbook\\_v4.pdf](https://ies.ed.gov/ncee/wwc/Docs/referenceresources/wwc_procedures_handbook_v4.pdf).

Using statistical methods, we isolate the contributions of schools from other social or programmatic influences on a student's growth. Student growth data are analyzed in standard deviation units so that the results can be assessed for statistical differences. All the findings that follow are reported as the **average one-year growth** of charter school students relative to their VCR-based comparisons. With three years of student records in this study, it is possible to create two periods of academic growth. Additional details of the matching methodology are provided in the Technical Appendix. In this study of Idaho, it was possible to create virtual matches for 84 percent of tested charter school observations in reading or math.

To assist the reader in interpreting the meaning of growth, we include an estimate of the number of days of learning required to achieve growth of particular units of standard deviations. This estimate was calculated by Dr. Eric Hanushek and Dr. Margaret Raymond based on the 2017 National Assessment of Educational Progress (NAEP) test scores.<sup>3</sup> Using a standard 180-day school year, each one standard deviation (s.d.) change in effect size is equivalent to 590 days of learning.

<sup>3</sup> Detailed information about the 2017 NAEP test scores can be accessed via the "NAEP Reading Report Card" at [https://www.nationsreportcard.gov/reading\\_2017/?grade=4](https://www.nationsreportcard.gov/reading_2017/?grade=4) and the "NAEP Mathematics Report Card" at [https://www.nationsreportcard.gov/math\\_2017/?grade=4](https://www.nationsreportcard.gov/math_2017/?grade=4).

## Idaho Charter School Landscape

### Idaho Charter School Demographics

The Idaho charter school sector grew slightly over the three-year study period. Figure 2 notes the newly opened, continuing, and closed charter school campuses from the 2014-15 school year to the 2016-17 year according to the National Center for Education Statistics (NCES).<sup>4</sup> Figure 2 portrays an upward trend in the number of charter schools open in Idaho over three years.

Figure 2: Opened, Continuing, and Closed Charter Campuses, 2014-15 to 2016-17

The overall size of the charter school community has three different components. The first is the number of existing charter schools that continue operations from one year to the next. The second is the number of charter schools that are closed in a given year. The third factor is the number of new charter schools that open in a given year. In Idaho, charter campus expansion was partly driven entirely by opening of new campuses; there were no

<sup>4</sup> The data were retrieved from “Public Elementary/Secondary School Universe Survey Data,” National Center for Education Statistics, <https://nces.ed.gov/ccd/pubschuniv.asp>. “Opened schools” indicates schools opened as new schools in the fall of the displayed year. “Continuing schools” indicates schools that were opened prior to the fall of the displayed year and remain open into the next school year (i.e. a school listed as continuing in the 2016-17 column opened some time prior to 2016-17 and did not close in 2016-16). There were no charter schools that ceased operation in the years covered in this study.

closures. The total number of charter schools increased from 52 schools in the 2014-15 school year to 56 and 57 in 2015-16 and 2016-17, respectively.

The demographics of student population in charter schools may not mirror those of the TPS in Idaho as a whole. As charter schools are able to choose their location, the demographic profile of the set of students they attract may differ from the overall community profile. Furthermore, charter schools may offer different academic programs and alternate school models which may disproportionately attract particular groups of students relative to TPS. In addition, parents and students choose to attend charter schools for a variety of reasons, such as location, school safety, small school size, academic focus, or special interest programs. The cumulative result of all these forces is that the student populations at charter schools and their TPS feeders<sup>5</sup> may differ. Table 1 presents the characteristics of the student populations in all Idaho traditional public schools, in those TPS that comprise the set of charter feeder schools, and in the charter schools themselves in the 2015-2016 school year.

**Table 1: Demographic Comparison of Students in TPS, Feeders and Charters: 2015-16**

	TPS	Feeders	Charters
Number of schools	691	382	54
Average enrollment per school	395	502	359
Total number of students enrolled	272,869	191,673	19,381
Students in Poverty	27%	28%	19%
English Language Learners	5%	5%	1%
Special Education Students	11%	11%	9%
White Students	76%	76%	81%
Black Students	1%	1%	1%
Hispanic Students	18%	18%	9%
Asian/Pacific Islander Students	2%	2%	2%
Native American Students	1%	1%	4%
Multi-Racial Students	2%	3%	2%

The data in Table 1 show that the demographic profile of charter schools is different from that of the public school population in Idaho as a whole and also different from the feeder schools their students would otherwise attend. In fact, the demographics for the feeder schools are more similar to the TPS population than to the charter population. The charter schools in Idaho have larger shares of White, and Native-American students and smaller

<sup>5</sup> A feeder school is a traditional public school whose students have transferred to a given charter school. We use students attending feeder schools as potential matches for students attending charter schools.

proportions of Hispanic students than TPS and feeder schools. The percentage of students in poverty enrolled in charter schools is noticeably smaller than in TPS and feeders.<sup>6</sup>

The proportion of students in charter schools receiving special education services is a continuing topic of focus and debate. As seen in Table 1, nine percent of students in Idaho charter schools have a designated Special Education status, two percentage points lower than the distributions in TPS and the feeder schools. The percentage of students with special education needs in Idaho charters differs from Idaho TPS and feeders only by a couple of percentage points. The difference in the proportion of students with special education needs between charters and traditional public schools in Idaho is similar to the difference in the proportion of special education students between national charter schools and traditional public schools at the national level.<sup>7</sup> A smaller share of Idaho charter school population is designated as English language learners than the shares in the feeder schools and all of TPS. The student profile for the entire charter school community as displayed in Table 1 does not reveal any strong advantages in the stock of students attending charter schools.

Online charter schools have received increasing attention in the educational landscape nationally and in Idaho. With no physical or geographic barriers to enrollment, online charter schools draw students from across the state and use online instruction as the method of curriculum delivery. People often use the terms of “online schools”, “cyber schools”, and “virtual schools” interchangeably. Virtual schools in this study adhere to the definition of virtual schools by the National Center for Education Statistics (NCES). According to the definition of NCES (2016, p.9), a school is a virtual school if it is “a public school that only offers instruction in which students and teachers are separated by time or location, and interaction occurs via computers or telecommunications technologies. A virtual school generally does not have a physical facility that allows students to attend classes on site.”<sup>8</sup>

As shown in a one-year snapshot in Table 2, online charter schools educate more than 15 percent of Idaho charter students and serve different student populations than brick-and-mortar charters. It is useful to note that online charters enroll more about 50 percent more students than brick-and-mortar charters; even so, the size of Idaho online charters is much smaller than is seen elsewhere. Of particular interest is the high share of Native American students in Idaho online charter schools, 13 percent contrasts sharply to their share in brick-and-mortar schools as well as TPS and feeder schools, all of which have 1 percent of their enrollment as Native Americans. This larger fraction helps explain why the share of white students in online charters is lower than other charter schools. Online charters also serve more students living in poverty than brick-and-mortar charters. The number of Special Education students is greater in Idaho online charters than in brick-and-mortar charters. Overall, within-sector

<sup>6</sup> Our information on eligibility for subsidized school meals reflects Idaho’s State Department of Education’s information on eligibility confirmed through “Direct Certification.” See also footnote 18.

<sup>7</sup> National Center for Special Education in Charter Schools, “Key Trends in Special Education in Charter Schools”, 2018, retrieved from <http://www.ncsecs.org/blog/2018/10/8/key-trends-in-special-education-in-charter-schools>.

<sup>8</sup> National Center for Education Statistics, “Documentation to the 2014-15 Common Core of Data (CCD) Universe Files,” 2016, retrieved from “Public Elementary/Secondary School Universe Survey Data,” <https://nces.ed.gov/ccd/pubschuniv.asp>.

comparisons in Table 2 indicate that online charter schools serve larger shares of students who are disadvantaged on various dimensions than brick-and-mortar charters.

**Table 2: Demographic Composition of Overall, Brick-and-Mortar, and Online Charter Schools: 2015-16**

	All Charters	Brick-and-Mortar Charters	Online Charters
Number of schools	54	44	10
Average enrollment per school	359	330	488
Total number of students enrolled	19,381	14,501	4,880
Students in Poverty	19%	17%	28%
English Language Learners	1%	1%	1%
Special Education Students	9%	7%	13%
White Students	81%	83%	76%
Black Students	1%	1%	1%
Hispanic Students	9%	10%	8%
Asian/Pacific Islander Students	2%	2%	1%
Native American Students	4%	1%	13%
Multi-Racial Students	2%	3%	2%

## Analytic Findings of Charter School Impacts

### Overall Charter School Impact on Student Progress

A foundational question of this study is whether charter schools differ overall from traditional public schools in how much their students learn. To answer this question, we estimate the one-year academic gains observed for all matched charter school students in all growth periods and compare their average learning gain with that of the VCR students.

Please refer to the text box titled Graphics Roadmap No. 1 where guidance is provided to help readers understand the charts that follow.

As described in the Study Approach section, student growth data are analyzed in units of standard deviations so that the results can be assessed for statistical differences. To help the reader interpret our analysis results, we transform standard deviation units of growth into days of learning, shown in Table 3.<sup>9</sup>

In order to understand “days of learning,” consider a student whose academic achievement is at the 50th percentile in one grade and also at the 50th percentile in the following grade the next year. The progress from one year to the next equals the average learning gains for a student between the two grades. That growth is fixed as 180 days of effective learning based on the typical 180-day school year.

Students with positive differences in learning gains have additional growth beyond the expected 180 days of annual academic progress while those with negative differences in learning gains have fewer days of academic progress in that same 180-day period of time. Interested readers can refer to the Study Approach section and Appendix B (Technical Appendix) for additional details on the computation of days of learning.

<sup>9</sup> The values in Table 3 are updated from past reports using the latest (2017) NAEP scores, which show slower absolute annual academic progress than earlier administrations. See Eric A. Hanushek, Paul E. Peterson, and Ludger Woessmann, “Achievement Growth: International and U.S. State Trends in Student Performance,” *Education Next* 12 (July 2012): 1–35.

#### Graphics Roadmap No. 1

The graphics in this section have a common format.

Each graph presents the average performance of charter students relative to their **pertinent comparison students**. The reference group differs depending on the specific comparison being made. Where a graph compares student subgroup performance, the pertinent comparison student is the same for both subgroups. Each graph is labeled with the pertinent comparison group for clarity.

We show two axes on the graphs to help the reader get a sense of learning gains. The **left axis** indicates standard deviation units of learning gains of charter students relative to their comparison students. The **right axis** displays the same learning gains in days of learning. The statistical tests are performed on the values as they are enumerated on the left axis.

The **height** of the bars in each graph reflects the difference between charter school performance and the comparison student group.

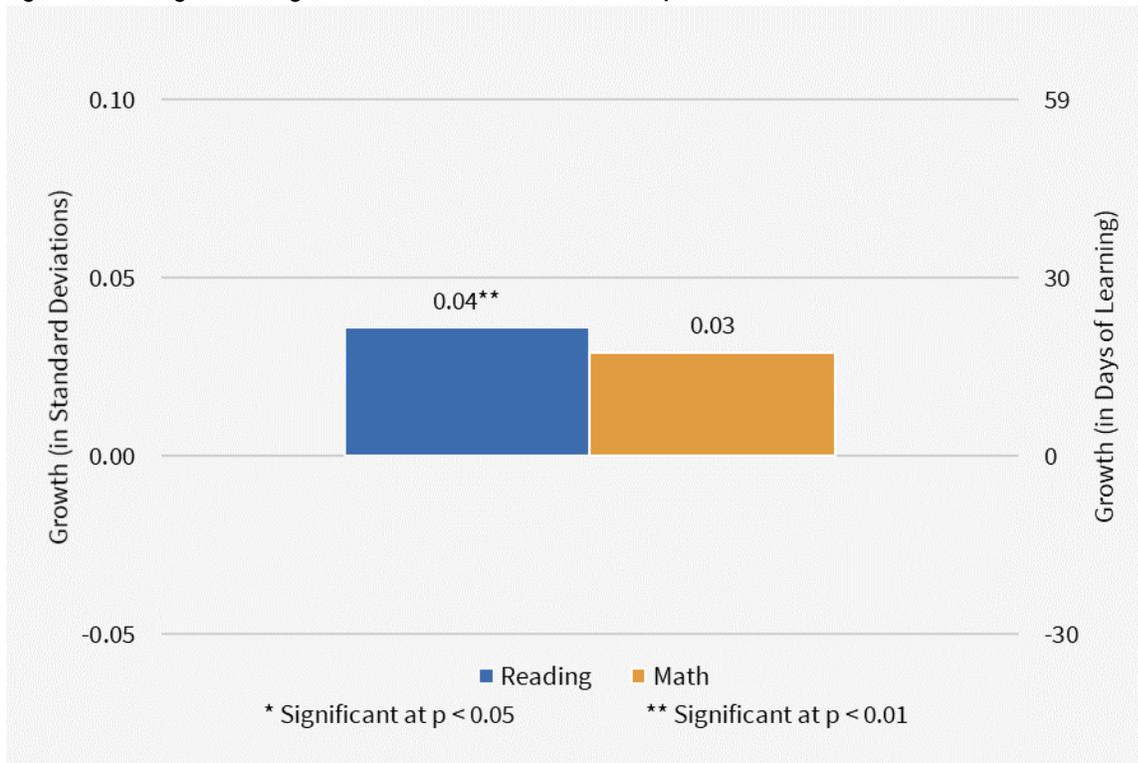

**Stars** are used to reflect the level of statistical significance of the difference between the group represented in the bar and its comparison group of similar students in TPS. The absence of stars means that the schooling effect is not statistically different from zero.

Table 3: Transformation of Average Learning Gains to Days of Learning

Standard Deviations	Days of Learning
0.05	30
0.10	59
0.15	89
0.20	118
0.25	148
0.30	177
0.35	207

Figure 3 displays the overall charter school impact on student academic progress in Idaho. The reference group, represented by the 0.00 baseline in the graph, is the average TPS VCRs in the state. Using the results from Figure 3 and the transformations from Table 3, we can see that in a typical school year, charter students in Idaho experience higher academic progress than their TPS peers in reading. This advantage for charter students is equivalent to 24 additional days of learning in reading in a 180-day school year. Because the difference in the growth in math is not statistically significant, Idaho charter students experience similar growth in the 180-day period as they would have in a traditional school setting.

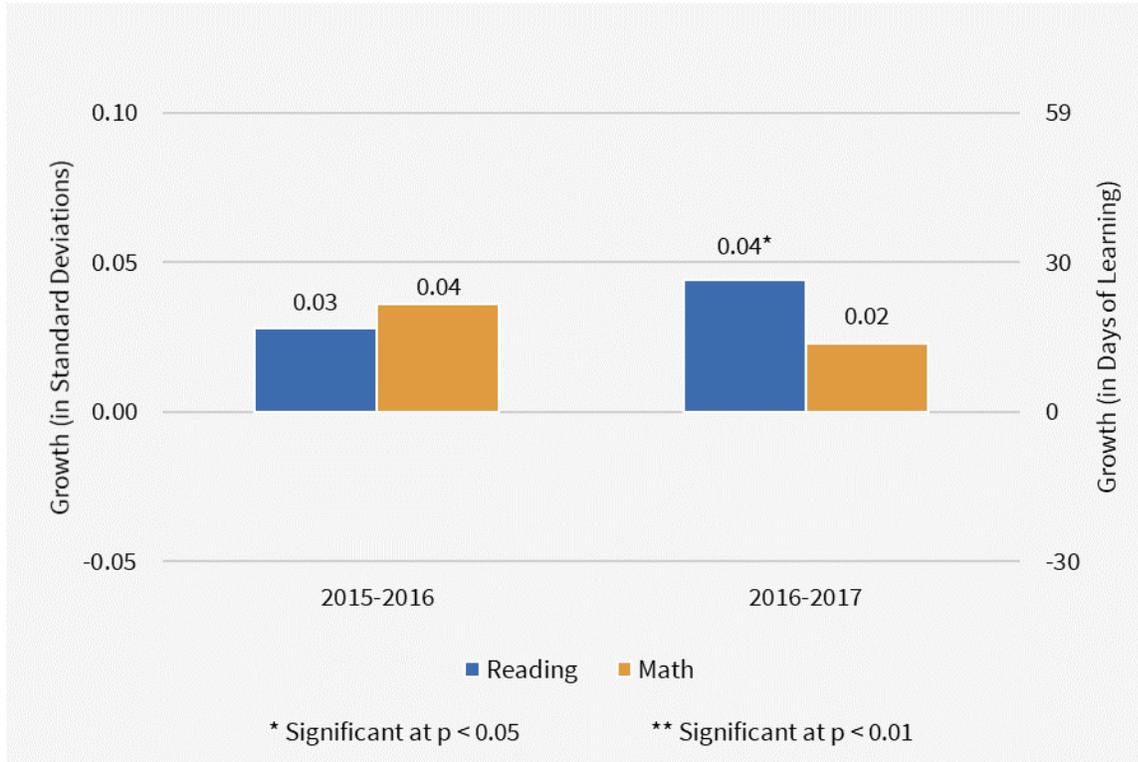

Figure 3: Average Learning Gains in ID Charter Schools Compared to Gains for TPS VCRs

**Charter School Impact by Growth Period**

To determine whether performance is consistent over the window of this study, the impact of attending a charter school on academic progress is examined separately for each of the three growth periods. Recall that a growth period is the measure of progress from one school year to the next. In the presentation of results in Figure 4, the denotation "2015-2016" covers academic growth that occurred between the end of the 2014-2015 school year and the end of the 2015-2016 school year. Similarly, the denotation "2016-2017" corresponds to the year of growth between the 2015-2016 and the 2016-2017 school years. To determine whether performance was consistent over recent time, the average charter school effects were disaggregated into the two growth periods of this study.

**Figure 4: Average Learning Gains in ID Charter Schools Compared to Gains for VCR Students by Growth Period, 2015-2017**

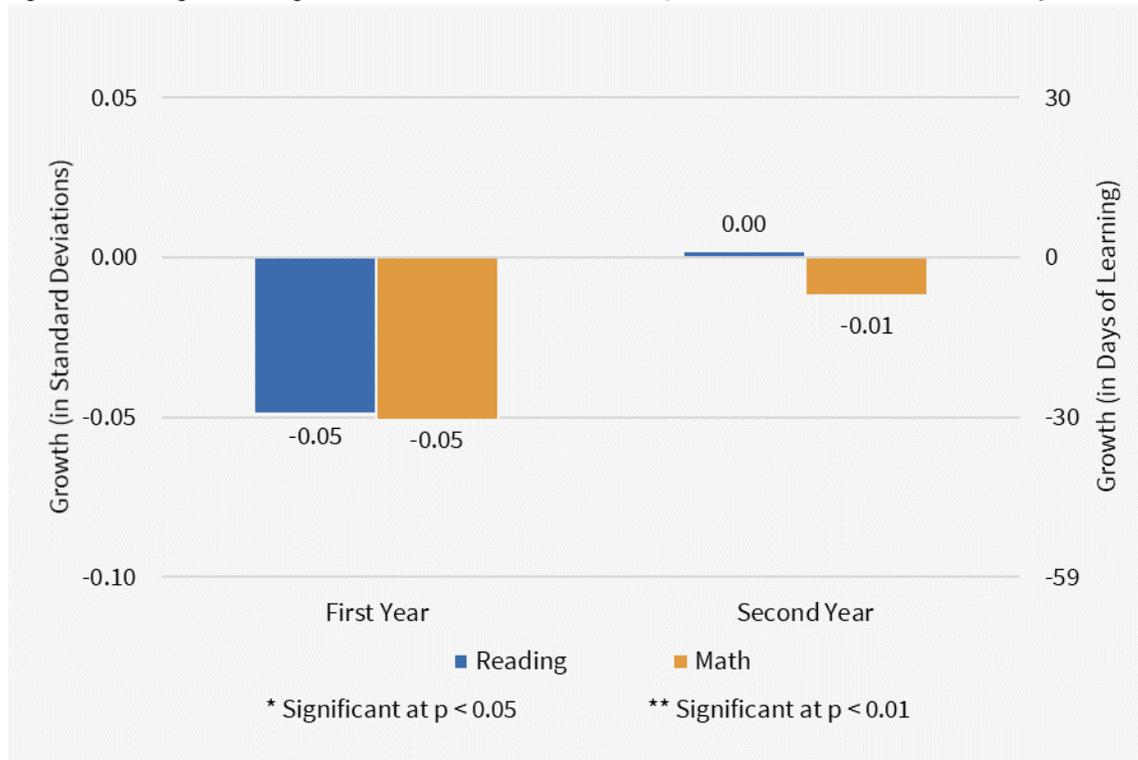

The gains of Idaho charter school students in the 2015-2016 growth period do not differ statistically from the performance of their TPS peers in either reading or math. At the same time, the gains of Idaho charter school students in the 2016-2017 growth period are significantly higher than the growth of their TPS peers in reading. We do not find charter school students to have statistically different math gains from the gains of their TPS peers. During the 2016-2017 growth period, charter students demonstrate growth of approximately 24 more days of learning in reading compared to their TPS counterparts.

**Charter School Impact by Students' Years of Enrollment**

Students' academic growth may differ depending on how many years they enroll in a charter school. To test the relationship between progress and the length of enrollment in a charter school, we group separately test scores from students in the first year of charter enrollment and scores from students in their second year of charter attendance. In this scenario, the analysis is limited to the charter students who enroll for the first time in a charter school between the 2015-16 and 2016-17 school years and their TPS VCRs. Thus, while the analysis of the overall charter impact uses 14,915 student observations in reading and 14,814 student observations in math, the analysis of charter impact by the number of years of charter enrollment speaks to 4,016 and 4,005 student observations in reading and math, respectively. A further breakout of the number of student observations by different lengths of charter attendance is provided in Appendix A.

Although this approach reduces the number of students included, it ensures an accurate measure of the effect of continued enrollment over time. The results for this subset of the full study sample should not be directly compared with other findings in this report. The results are shown below in Figure 5.

*Figure 5: Average Learning Gains in ID Charter Schools Compared to Gains for VCR Students by Years in Charter*

As Figure 5 shows, Idaho charter school students experience learning growth in the first and the second year of charter attendance that is not statistically different from that of students (VCR) enrolled in traditional public school settings. Drawing from CREDO's National Charter School Study II (2013), we find that the learning gains associated with the second year of charter school attendance in Idaho are not too far below the average learning gains associated with the second year of charter school attendance. At the same time, in the earlier national

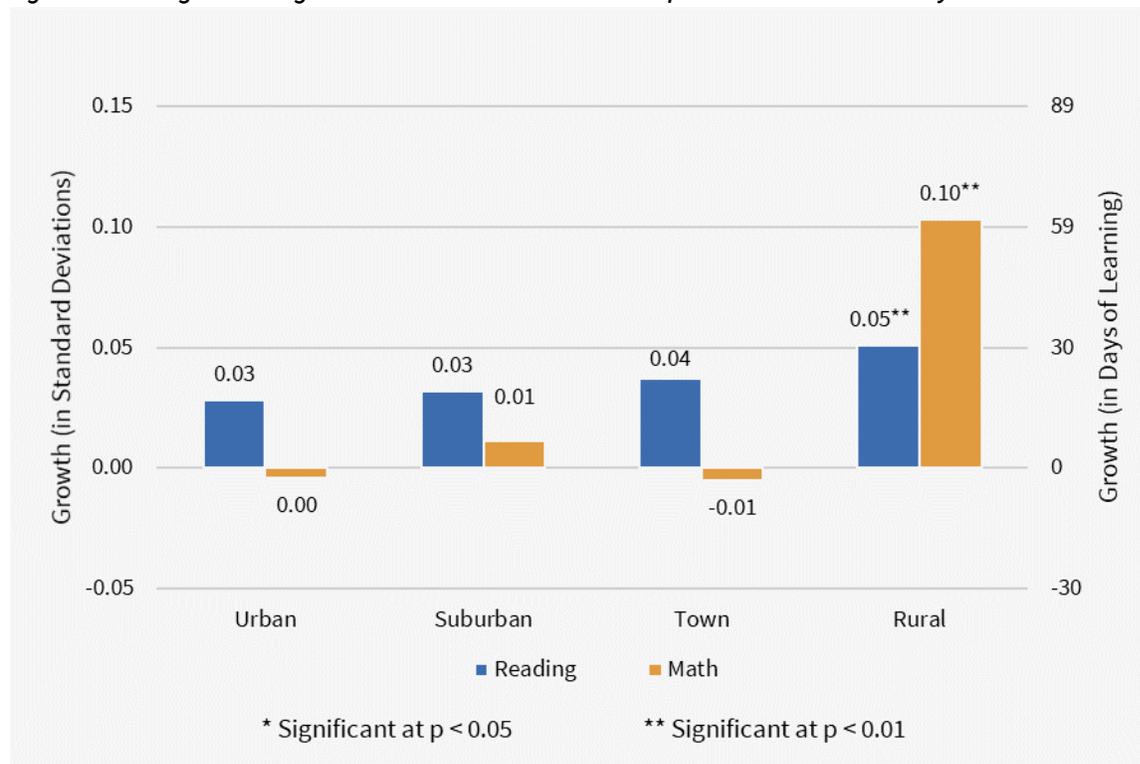

study, the second year of charter school attendance is associated with higher learning growth when compared to the first year of charter school attendance. This pattern is also seen in Idaho, although this trajectory is short, given the limited year span of this study.

## Charter School Impact by School Attribute

### Charter School Impact by School Locale

Depending on their locales, charter schools may serve different student populations, face different levels of available human capital or both. Though charter schools in urban areas receive the bulk of media attention, charter schools in other locales may produce different results. The results in Figure 5 represent the disaggregated impacts of charter school enrollment for urban, suburban, town, and rural charter schools. In this breakdown, charter students in different locations are compared with their virtual twins in TPS.<sup>10</sup> For the following analysis, the comparison is relative to whatever actual progress each group of VCRs realized. But the reader should not assume that the transformation of each VCR group to 0.00 means that all the VCRs have equivalent academic growth.

Figure 6: Average Learning Gains in ID Charter Schools Compared to Gains for VCR by School Locale

<sup>10</sup> The National Center for Education Statistics defines 12 urban-centric locales which are divided into four main locale types: city, suburb, rural, and town.

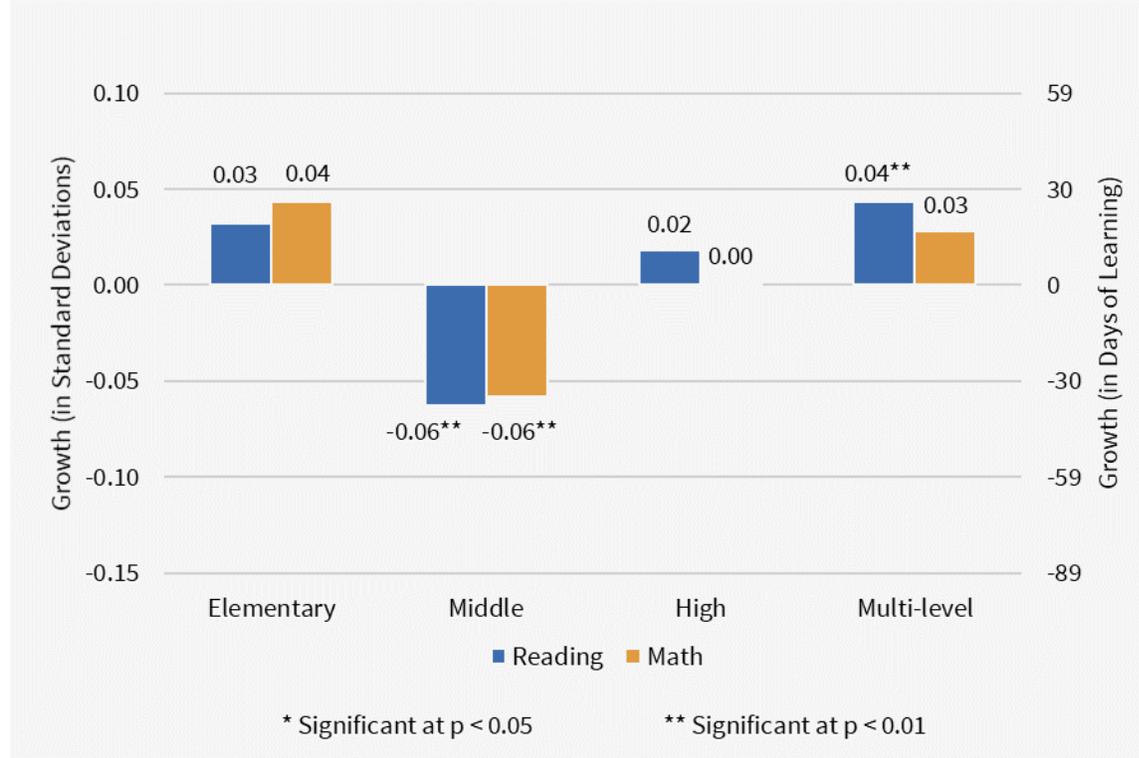

Figure 6 illustrates differences in the academic growth of charter students across locales. Figure 6 shows that Idaho charter students in urban, suburban or town locations perform similarly to their respective TPS VCRs in both reading and math. Students in rural charter schools outperform their TPS VCRs by 30 days of learning in reading and 59 days of learning in math. This finding is important for two reasons. It stands in sharp contrast to results for rural charter schools in other states. The second insight is that rural charters contribute significantly to the overall differences between students from all charters and their TPS VCRs shown earlier in Figure 3.

#### **Charter School Impact by School Grade Configuration**

All charter schools choose which grade levels to offer. Some charter operators focus on particular grades, some seek to serve a full range of grades, and others develop by adding one additional grade each year. The National Center for Education Statistics assigns schools the label of “elementary school,” “middle school,” “high school,” or “multi-level” school based on their predominant grade pattern.<sup>11</sup> The designation “Multi-level charter schools” can apply to a school that serves elementary and middle grades, middle and high grades, or all K-12 grades. Looking at performance by school grade configuration helps inform us whether specialization in a specific range of grades produces better results. Figure 7 shows the learning gains of students in charter schools of different grade configurations compared to their respective VCRs in TPS. The reader should not assume that the transformation of each VCR group to 0.00 means that all the VCRs have equivalent academic growth.

<sup>11</sup> The National Center for Education Statistics (NCES) designates a school as an elementary, middle, high, or multi-level school. CREDO uses the designation by NCES. The sole exception is that CREDO considers a school to be a high school if the lowest grade served is ninth grade or above.

Figure 7: Average Learning Gains in ID Charter Schools Compared to Gains for VCR by School Grade Configuration

The results in Figure 7 show that, on average, charter multi-level school students post the strongest academic growth compared to their TPS virtual twins in reading. Their growth in math is similar. The reading result is equivalent to 24 additional days of learning. Students attending elementary or high charter schools demonstrate similar growth in reading and math, compared to their TPS VCRs.

Opposite patterns are found among charter students enrolled in middle schools. Students in middle charter schools experience the weakest growth compared to their TPS virtual twins in both reading and math, where they have an equivalent of 35 fewer days of learning than TPS VCRs in either subject.

### Charter School Impact by Delivery System

There are both brick-and-mortar and online charters in Idaho.<sup>12</sup> Students from all over the state can attend online charter schools and receive instruction online. As Table 2 reveals, online charter schools enroll over 25 percent of charter students; 4,880 of the state's roughly 19,000 students attend the 10 online campuses in Idaho. Table 2 also shows that online schools have different student compositions compared to brick-and-mortar charters. CREDO's earlier study also finds that online charter schools serve students with higher mobility rates and, across the group of online schools studied, had significantly negative impacts on student academic progress.<sup>13</sup>

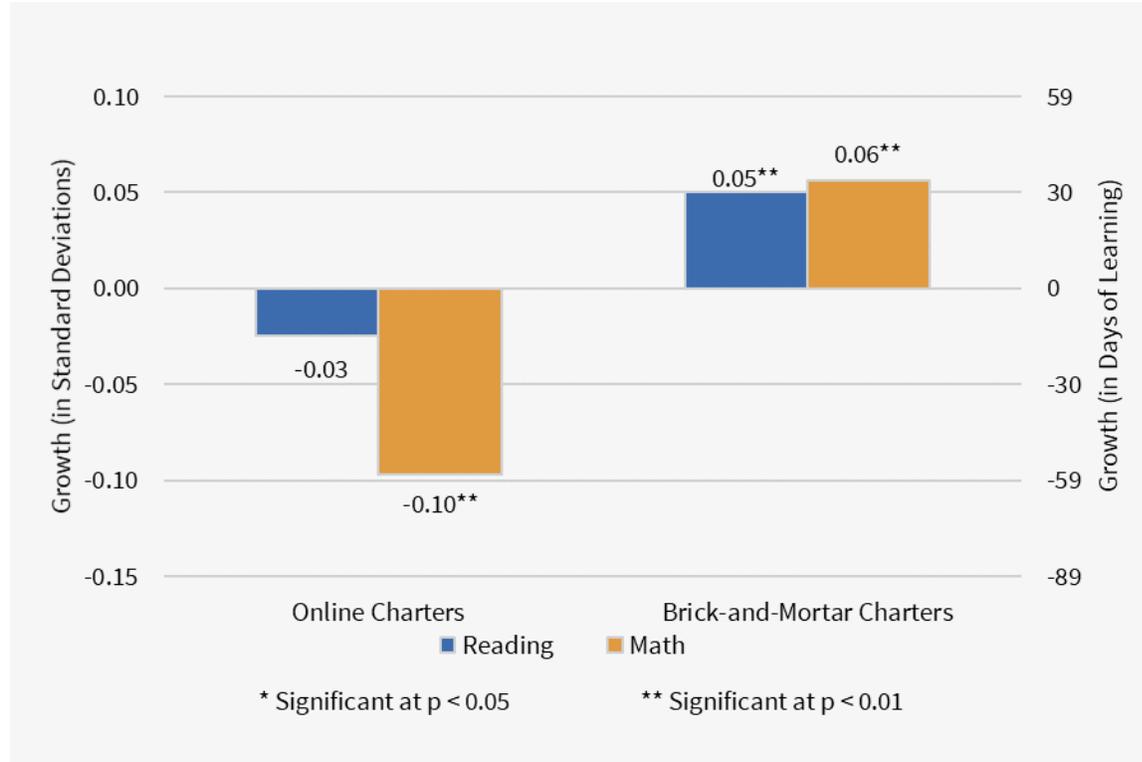

In this sector, we break down the charter school impact on student performance by delivery system and display two distinct comparisons in two graphs:

1. Figure 8 compares the performance of students in online charter schools and students in brick-and-mortar charters against the performance of a common reference group, the "statewide average TPS VCR."
2. Figure 8a compares the difference in learning of students enrolled in online charter schools and those who attend brick-and-mortar charters.

<sup>12</sup> We use information from Idaho's State Department of Education to identify online charter schools: <https://www.sde.idaho.gov/school-choice/files/School-Choice-Packet.pdf>, Retrieved on Dec 5th, 2018

<sup>13</sup> James L. Woodworth, Margaret E. Raymond, Kurt Chirbas, Maribel Gonzalez, Yohannes Negassi, Will Snow, and Christine Van Donge, *Online Charter School Study 2015*, CREDO (Center for Research on Education Outcomes), Stanford University, <https://credo.stanford.edu/pdfs/Online%20Charter%20Study%20Final.pdf>.

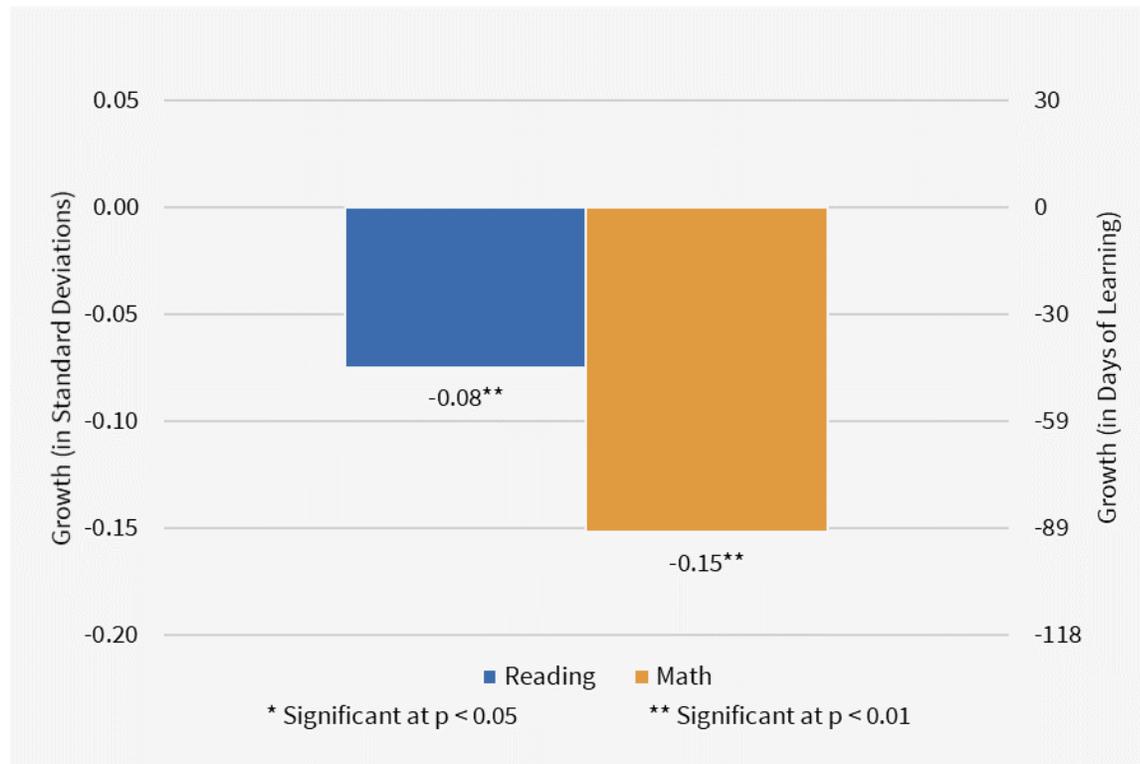

Figure 8: Student Learning Gains for Students in Online and Brick-and-Mortar Charter Schools Benchmarked against Learning Gains for Average TPS VCRs

According to Figure 8, students attending online charter schools have similar growth in reading and weaker growth in math compared to the average TPS VCRs. The gap translates to 59 fewer days of learning in math for online charter students. It is worth highlighting the contrast between the results for online charter schools in Idaho to our earlier findings for online charters schools in 17 states and the District of Columbia.<sup>13</sup> Specifically, CREDO’s earlier study found significant learning losses for online charters in both reading and math. We find no learning loss in reading associated with online charter schools in Idaho, while the learning loss in math is smaller than that at the national level, found in CREDO’s earlier study. Students in brick-and mortar charters exhibit stronger growth in reading and math, equivalent to 30 and 35 extra days of learning, respectively, compared with the average TPS students.

Figure 8a benchmarks the performance of students in online charter schools against that of students attending brick-and-mortar charters (whose performance is represented by the 0.00 line). Online charter school students gain significantly less in both subjects. To be specific, they are behind brick-and-mortar charter students by 47 days of learning in reading. The lag in math is greater, with online charter students losing an equivalent of 77 days of learning as compared to students in brick-and-mortar charters.

Figure 8a: Student Learning Gains in Online Charter Schools Benchmarked against Students in Brick-and-Mortar Charter Schools

Figures 8 and 8a above demonstrate two important points: First, Idaho online charter students fall behind in both reading and math compared to the average statewide student in TPS or brick-and-mortar charter schools. Second, the negative performance of online charter students is sufficiently large to wipe out the positive growth of brick-and-mortar charter students in math, which leads to the lack of overall Idaho charter effect in math growth in Figure 3. Similarly, the overall positive charter impact on reading progress in Figure 3 is lessened by the lagging growth in reading of students in online charter schools.

## School-Level Analysis

The numbers reported in the previous sections represent the typical learning gains at the student level across the state; they reveal what would be the likely result if a typical student were enrolled in any of the Idaho charter schools. The prior results do not let us discern whether some charter schools are better than others. Since school-level results are of interest to policy makers, parents and the general public, we aggregate charter student performance up to the school level for each charter school in the state. This view is necessarily limited to charter schools with a sufficient number of tested students to make a reliable inference on performance.

It is important to understand the counterfactual used in this section. As shown in Table 1 earlier in the report, the student populations within the typical charter school and their feeder schools differ, making whole-school to whole-school comparisons unhelpful. Here instead, we pool each school's VCRs to simulate "apples to apples" for traditional public schools and to serve as the control condition for testing the performance of charter schools. This simulated TPS reflects a precise estimate of the alternative local option for the students actually enrolled in each charter school.

## The Range of School Quality

To determine the range of charter school performance, we estimate the annual learning impact of each charter school over the two most recent growth periods (2015-2016 and 2016-2017). The estimated learning impact for each charter school can be positive (statistically different from zero with a positive sign), negative (statistically different from zero with a negative sign), or zero. We use it to infer how the academic quality of a charter school compares to the quality of traditional public schools which students in that charter school would have potentially attended if they had not attended a charter school.

A statistically positive learning impact for a charter school suggests that the charter school has stronger learning growth than the alternative TPS options for its students. A statistically negative learning impact for a charter school implies the school makes less progress than the traditional schools its students would have attended. A zero learning impact means that the charter school and the TPS alternatives for its students have similar performance.

Our total sample consists of 41 schools with reading scores and 41 schools with math scores in the 2015-2016 and 2016-2017 growth periods.<sup>14</sup> Table 4 below shows the breakout of the performance for the included Idaho charter schools.

<sup>14</sup> As noted in Table 1, charter schools are smaller on average than their corresponding feeder schools. Furthermore, some charter schools elect to open with a single grade and mature one grade at a time. Consequently, care is needed when making school-level comparisons to ensure that the number of tested students in a school is sufficient to provide a fair representation of the school's impact. Our criterion for inclusion is at least 60 matched charter student records over the two growth periods or at least 30 matched charter records for schools with only one growth period.

Table 4 shows the performance comparison of charter schools in Idaho relative to traditional public schooling options in reading and math, respectively. In reading, 17 out of 41 Idaho charter schools, or 41 percent, perform significantly better than the traditional schooling environments the charter students would have otherwise attended. In math, the result is the same: 17 of 41 or 41 percent of charter schools post growth that is significantly higher than that of their traditional public schooling counterparts. The results show that the share of charter schools performing significantly better than the traditional schooling alternatives is higher than the national average. To benchmark these figures at the national level using the 2013 National Charter Study II, 25 percent of charter schools outperform the traditional schooling alternatives in reading and 29 percent do so in math.<sup>15</sup>

**Table 4: Performance of Charter Schools Compared to Traditional Schooling Alternatives in Idaho**

Subject	Significantly Worse		Not Significantly Different		Significantly Better	
	Number	Percent	Number	Percent	Number	Percent
Reading	7	17%	17	41%	17	41%
Math	8	20%	16	39%	17	41%

At the other end of the distribution, seven of 41 Idaho charter schools, or 17 percent, have reading performance that is significantly weaker than the traditional public schooling option as compared to the national figure of 19 percent. In math, eight out of 41 of charter schools, 20 percent, post growth results weaker than the traditional public schooling option compared to the 2013 national figure of 31 percent.

In reading, 17 Idaho charter schools, 41 percent, do not differ significantly from the traditional public school option. In math, 16, or 39 percent of charter schools have growth results that is indistinguishable from the traditional public school option. It is important to emphasize that “no difference in growth” does not reflect the actual level of growth, as it is possible for charter schools to have high levels of growth that are similar to that of the traditional schooling alternative, and the reverse is also true.

<sup>15</sup> Cremata et al., *National Charter School Study 2013*.

### Growth and Achievement

While the impacts of charter schools on academic growth relative to their local competitors is informative, we are also interested in how well students perform in absolute terms. Since many of the students served by charter schools start at low levels of achievement, the combination of absolute achievement and relative growth is vital to understanding student success overall.

For each school, the tested achievement of their students over the same two periods covered by the academic growth analysis (2015-2016 and 2016-2017) is averaged and transformed to a percentile within the statewide distribution of achievement.<sup>16</sup> The 50th percentile indicates statewide average performance for all public school students (traditional and charter). A school achievement level above the 50th percentile indicates that the school's overall achievement exceeds the statewide average. We use standard deviations discussed above to measure growth. We display each school's achievement and growth in a two-dimensional plot, displayed in Tables 5 and 6.

### Graphics Roadmap No. 2

There are **four quadrants** in each of the tables 5 and 6. We have expanded on the usual quadrant analysis by dividing each quadrant into four sections. The value in each box is the percentage of charter schools with the corresponding combination of growth and achievement. The value in the center of each quadrant is the sum of the four sections in that quadrant. These percentages are generated from the 2016 and 2017 growth periods.

The uppermost box on the left denotes the percentage of charters with very low average growth but high average achievement. The box in the bottom left corner depicts low-growth, low-achieving schools.

Similarly, the uppermost box on the right contains the percentage of charters with high average growth and high average achievement. The bottom right corner contains high-growth, low-achieving schools.

The major quadrants were delineated using national charter school data. We would expect the majority of schools to have an effect size between -0.15 and 0.15 standard deviations of growth (the two middle columns). Similarly, we would expect about 40 percent of schools to achieve between the 30th and 70th percentiles. These expectations are based on how we view a normal distribution with the majority of the sample falling within one standard deviation from the mean.

<sup>16</sup> Average achievement was computed using students' z-scores from the end of the growth period (e.g., spring 2016 and spring 2017). The resulting school-level mean was then converted into a percentile.

Table 5: School-Level Reading Growth and Achievement in Idaho Charter Schools

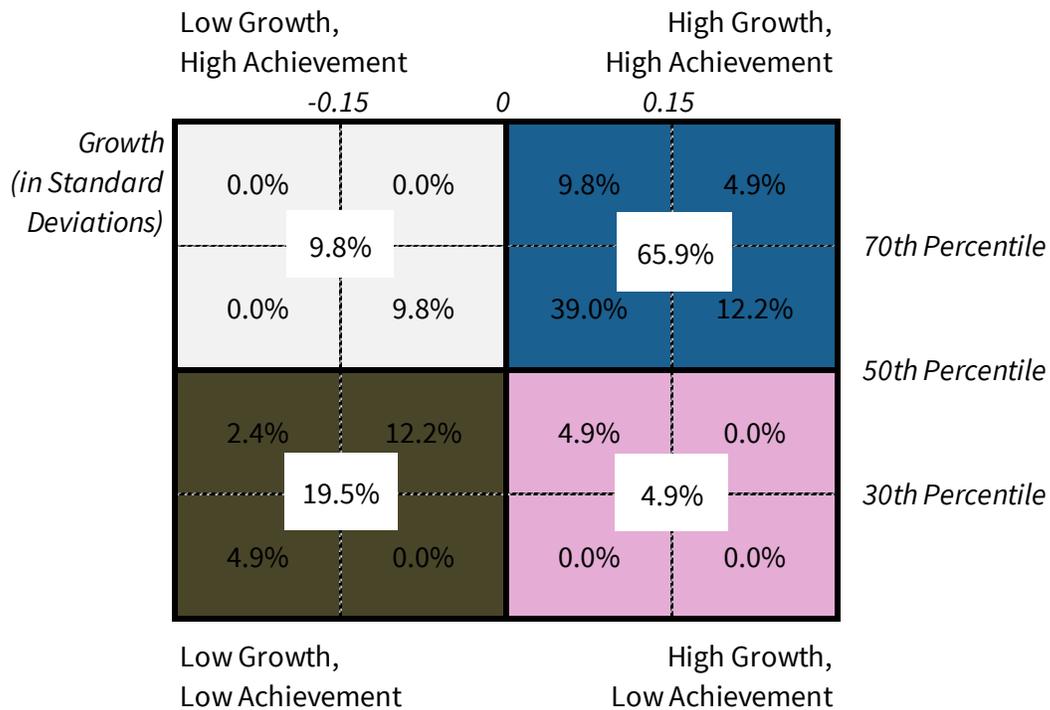

Table 5 presents the reading achievement and growth results for the Idaho charter schools included in this analysis. In the table, Seventy-one percent, 29 of the 41 Idaho charter schools, have positive average growth compared to their peer schools. (This percentage is the sum of the eight squares in the blue and pink quadrants in the right half of the table). Sixty-six percent of charters have positive growth and average achievement above the 50th percentile of the state (i.e., the total for the blue quadrant on the top right). A total of five percent of charter schools in the pink box post above-average gains but remain below the state average in absolute achievement. Over time, if the five percent of charter schools in the pink box maintain or improve their average growth, their achievement would increase, eventually moving them into the blue box.

Roughly 29 percent of schools post smaller learning gains than their peer TPS (the sum of gray and brown quadrants on the left half of the table). If their growth remains steady or worsens, they will fall in the overall distribution of achievement as other schools pull away. Approximately 24 percent of charters perform below the 50th percentile of achievement (the sum of the brown and pink cells in the lower portion of the table). The area of the greatest concern is the roughly 20 percent of schools that fall into the lower left quadrant of the table. These schools are characterized by both low achievement and low growth.

Table 6: School-Level Math Growth and Achievement

Growth (in Standard Deviations)	Low Growth, High Achievement		High Growth, High Achievement		
	-0.15	0	0.15		
	0.0%	2.4%	9.8%	9.8%	70th Percentile
	16.6%		58.6%		
	0.0%	12.2%	34.1%	4.9%	50th Percentile
	2.4%	17.1%	0.0%	2.4%	30th Percentile
	24.3%		2.4%		
	2.4%	2.4%	0.0%	0.0%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

In math, 25 of the 41 Idaho charter schools (61 percent) have positive average growth in math, as seen in the combined orange and pink quadrants in the right half of Table 6. About 59 percent of charters have positive growth and average achievement above the 50th percentile (the orange quadrant in the upper right of the table). Approximately 27 percent of charters post achievement results below the 50th percentile of the state for math (the sum of cells in the lower half of the table); these percentages are slightly smaller than those presented in Table 6 for reading. In the pink quadrant in the lower right of the table, roughly two percent of the schools classified as having low achievement have high growth and appear to be on an upward trajectory. As in the previous table, the schools of the greatest concern are those in the lower left (brown) quadrant that have both low achievement and low growth; they account for roughly 20 percent of the Idaho charter schools in reading (9 of the 41), and roughly 24 percent of the charter schools in math (10 of the 41).

## Charter School Impacts by Student Subgroups

### Charter School Impact for Students by Race/Ethnicity

One of the enduring advances of the *No Child Left Behind Act* of 2001 and the subsequent *Every Student Succeeds Act* of 2015 is the recognition that average results may not be evenly distributed across all students. Attention to the differences in the performance of students of various racial/ethnic backgrounds and other attributes has become standard practice in most assessments of school performance. Table 1 shows that Idaho charter schools serve a somewhat diverse student population. Their ability to support the progress of disadvantaged students is an important policy goal in the state and a strong focus of this study. The effectiveness of charter schools across ethnic and racial groups is especially important given the significant shares of historically underserved students that charter schools enroll. This section investigates the impact of charter school attendance on learning gains of students of different racial backgrounds compared to their same-group peers in traditional settings.

The impact of charter schools on the academic gains of White, Black and Hispanic students is presented in Figures 9 through 11a. For Black and Hispanic students, we present two related graphs. Graphics Roadmap No. 3 in the sidebar provides guidance on how to interpret the graphs and their relation to each other. In short, the first graph depicts the growth of TPS students and charter students in the particular subgroup of

#### Graphics Roadmap No. 3

Figures 10 through 11a show two important contrasts for Black and Hispanic student groups. For each student subgroup we present two graphs:

The **first graph** displays the growth of TPS students and charter students in the particular **subgroup of interest** compared to the growth of the "average White TPS student." In this comparison, the White TPS student is male and does not qualify for subsidized school meals, special education services, or English Language Learner support and is not repeating his current grade. The graph sets the performance of the average White TPS student to **zero** and shows how learning of students in the subgroup compares.

The **stars** indicate if the learning gains of the subgroup are statistically different from the reference group. Thus, if there are no stars, we interpret the difference in learning gains as similar to the white TPS comparison student. The reader should not be swayed by seemingly large differences if there are no stars. If there is no difference in the learning gains, the bar would be missing entirely. If the learning of the student group in question is not as great as the comparison baseline, the bar is negative. If the learning gains exceed the comparison, the bar is positive.

**Graphs labeled "a"** display the results of a second comparison testing whether the learning gains in the charter school student subgroup differ significantly from their VCRs in the same student subgroup. In these graphs, the performance of the TPS peers in the subgroup are set to **zero** and the learning gains of the charter school students in the subgroup are measured against that **baseline**. As with the first graph, stars denote statistical significance.

interest as compared to the growth of the "average White TPS student". Graphs labeled "a" show whether the learning gains in the charter school student subgroup differ significantly from their VCRs in the same subgroup.

White students account for approximately 81 percent of the student population in charter schools in Idaho. Figure 9 displays the relative differences in learning between White students enrolled in TPS and White students enrolled in charter schools. The 0.00 baseline reflects the one-year academic progress of White TPS VCRs in Idaho. White students in charter schools show higher learning growth than White students attending traditional public school settings, that is equivalent to 24 additional days of learning in both math and reading.

Figure 9: Relative Learning Gains for White Charter School Students Benchmarked against Their White TPS Peers

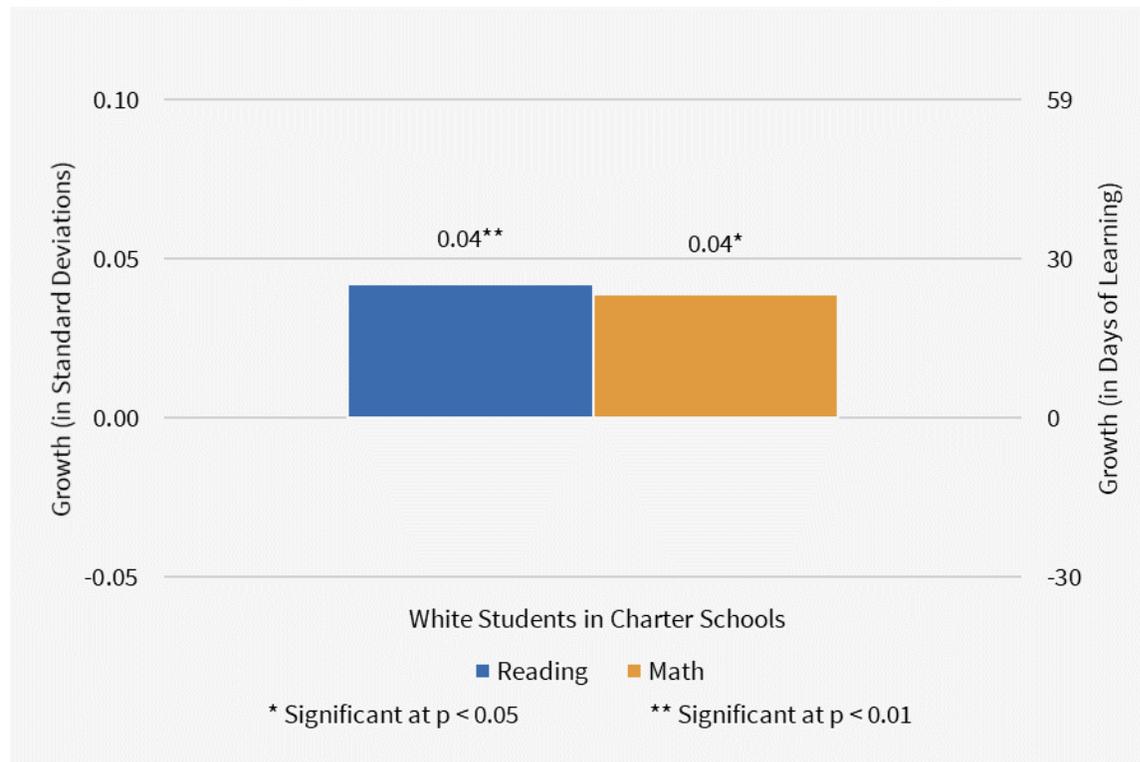

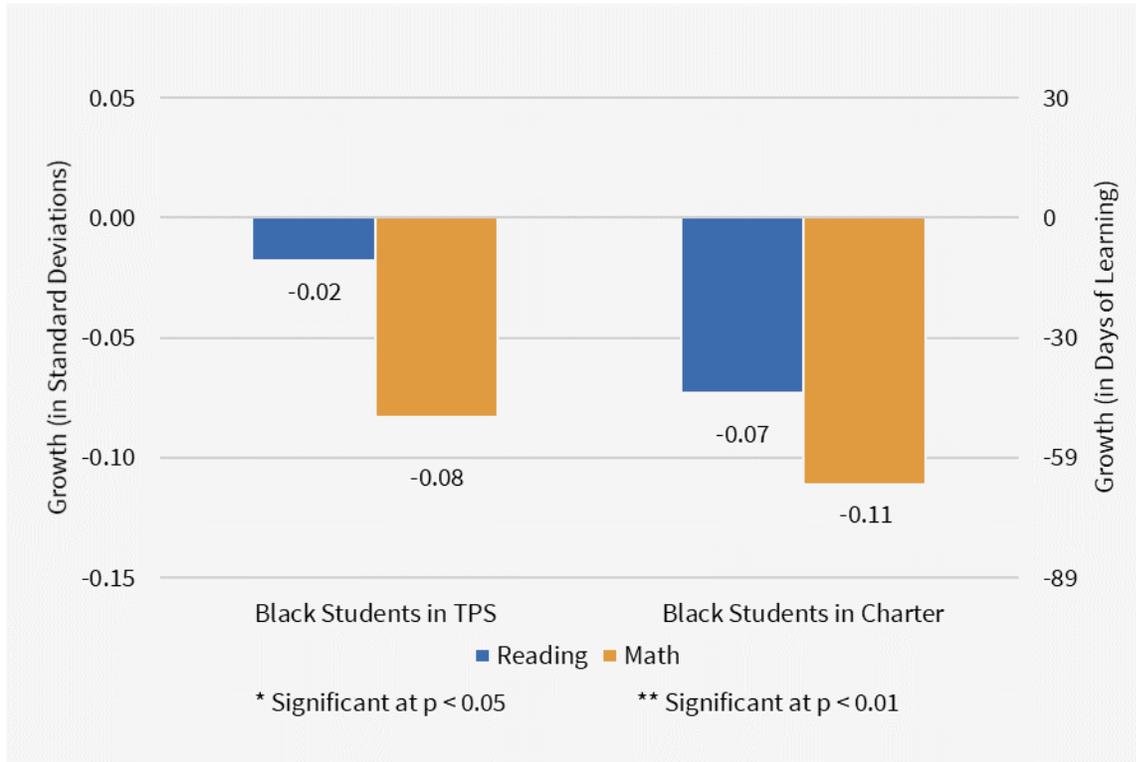

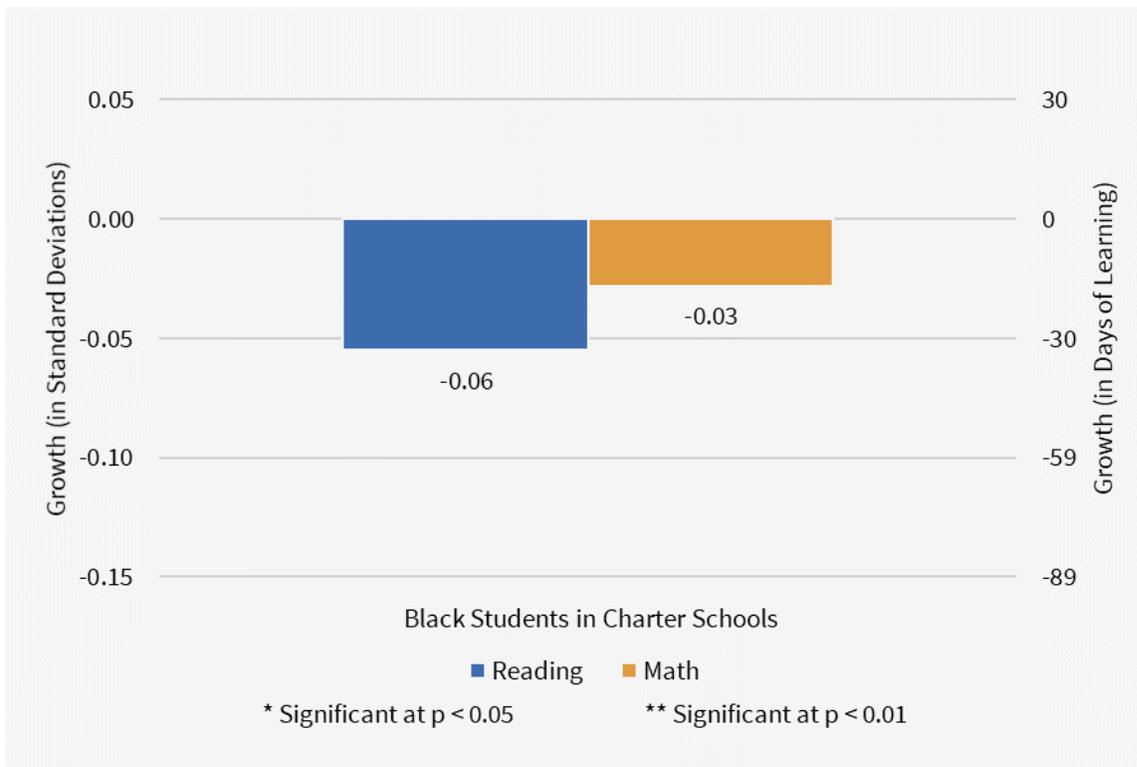

Figure 10: Learning Gains of Black Students Benchmarked against Learning Gains of White TPS Students

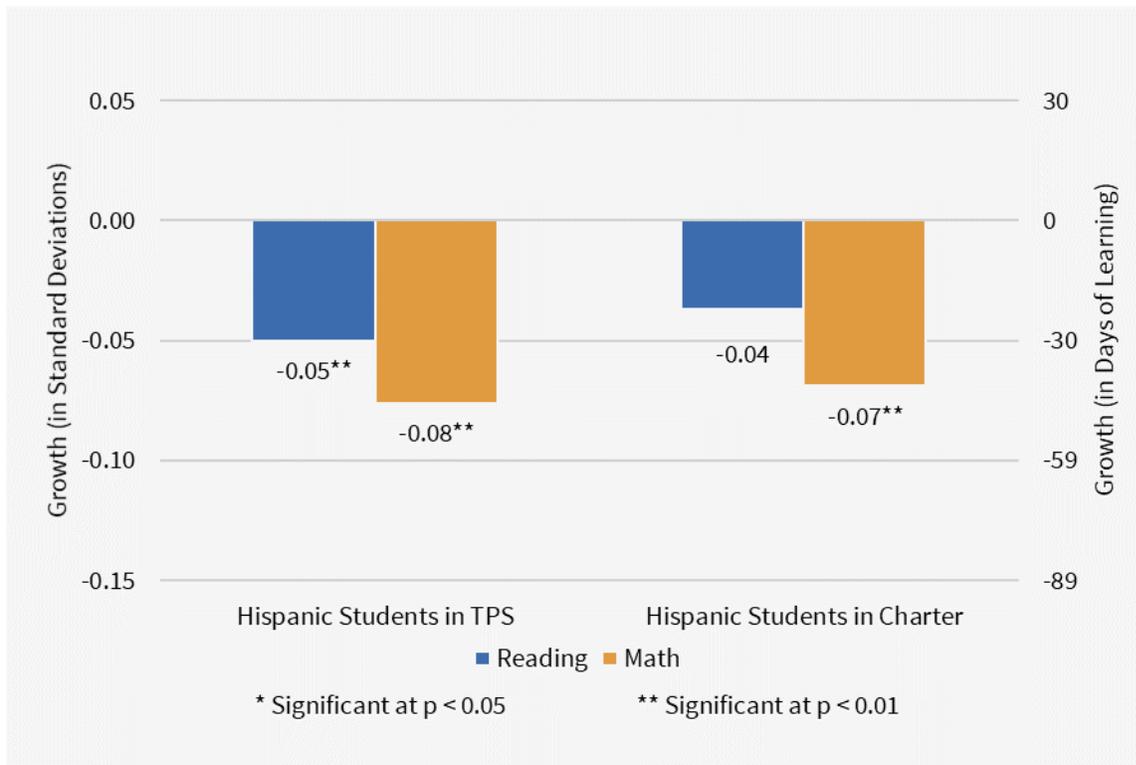

Black students account for roughly one percent of the charter school population in Idaho. As shown in Figure 10, Black students in TPS are found to have similar annual academic learning gains in reading and math when compared to the average White TPS (VCR) student. Accordingly, Black charter school students exhibit statistically similar learning growth to White TPS students in both math and reading. It is worth noting that given the limited number of black students in Idaho, it would take exceptionally large differences to trigger significance in a statistical sense.

Figure 10a: Relative Learning Gains for Black Charter School Students Benchmarked against Their Black TPS Peers

A second comparison examines the learning gains for the same student group across the two school settings to see whether the student group, in this case Black students, fare better in one or the other environment. Figure 10a displays the differences in learning growth between Black students enrolled in TPS and Black students enrolled in charter schools. In Idaho, Black charter school students experience similar growth to their Black TPS counterparts in reading and math.

Figure 11: Learning Gains of Hispanic TPS and Charter Students Benchmarked against Learning Gains of White TPS Students

An equivalent analysis for Hispanic students is presented in Figures 11 and 11a. Hispanic students account for 9 percent of charter school students in Idaho. Hispanic students in TPS are found to have significantly weaker academic growth in both reading and math compared to the average White TPS student, amounting to 30 fewer days of learning in reading and 47 fewer days of learning in math in a year. Hispanic students in charter schools have significantly weaker learning growth in math, but similar growth in reading, when compared to White TPS students over the same time period. Specifically, compared to the average White TPS student, Hispanic charter students experience 41 fewer days of math learning in a year. The finding of similar academic progress in reading between Hispanic charter students and the average White TPS student suggests a stabilization of the achievement gap in reading.

Figure 11a: Relative Learning Gains for Hispanic Charter School Students Benchmarked against Their Hispanic TPS Peers

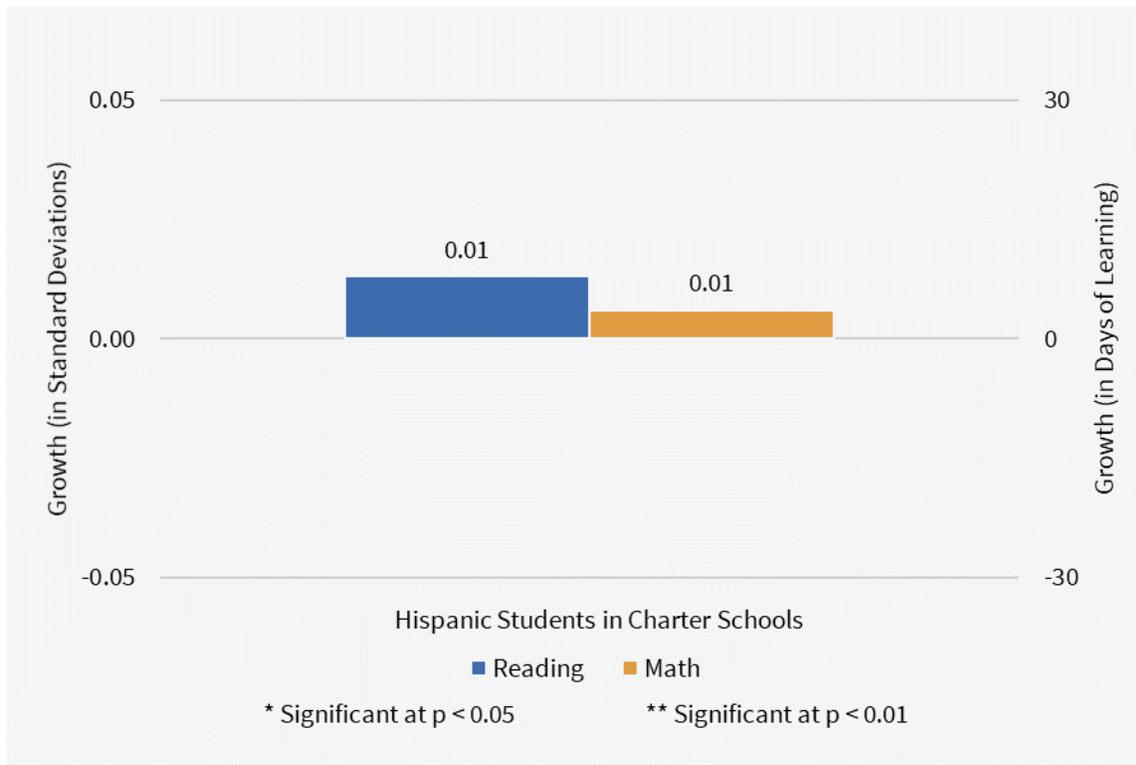

Figure 11a displays the relative differences in learning between Hispanic students enrolled in TPS and Hispanic students enrolled in charter schools. Hispanic students in charter schools show similar learning growth to Hispanic students attending traditional public school settings in both math and reading.

To summarize the race/ethnicity analyses, White students in charter schools post significantly higher academic progress than the average White TPS student in both reading and math. Black students in both charter schools and TPS make similar annual academic progress to the average White TPS student in reading and math. When we compare the progress of Black students across sectors, Black charter students post similar growth to that of Black TPS VCRs in both reading and math. Hispanic TPS and charter students post smaller gains in math, compared to the average White TPS student, while Hispanic TPS post weaker growth in reading as well. When the focus shifts to comparing the outcomes of Hispanic students by sector, Hispanic charter students are on a par with Hispanic TPS peers in both subjects.

The results indicate that charter school enrollment does not diminish learning for Black or Hispanic students. At the same time, we find that the overall positive learning gains in reading associated with charter attendance are primarily driven by the significantly higher learning gains of White charter students compared to White TPS VCRs. The overall not significant charter school impact on learning gains in math associated mask the positive impact

of charter attendance on the academic progress in math of White students, who represent 81 percent of the student population in charter schools in Idaho.

### Charter School Impact for Students in Poverty

Many charter school operators expressly aim to improve educational outcomes for traditionally underserved students, especially for students in poverty. According to the latest data collected by the National Alliance for Public Charter Schools, students in poverty account for 55 percent of the national charter school population.<sup>17</sup> In Idaho, 19 percent of charter school students are eligible for subsidized school meals, a proxy for low income households, compared to 27 percent of TPS students.

Our information on eligibility for subsidized school meals reflects Idaho's State Department of Education's information on eligibility confirmed through "Direct Certification." Direct certification involves matching school enrollment records against the most current available Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Families in Idaho (TAFI), foster care data, or through several other allowable categorically eligible designations. Direct certification is a statutory mandate pursuant to Section 9 of the Richard B. Russell National School Lunch Act (NSLA) as amended by reauthorization legislation (Public Law 108-265). We recognize that several aspects of direct certification contribute to the estimated lunch eligibility being only loosely correlated with lunch eligibility estimated in the Child Nutrition Program reports.<sup>18</sup>

Figure 12 presents the annual academic growth for students in poverty. It is important to note that in this graph, the baseline differs from the race/ethnicity graphs presented earlier: it is a student who is not eligible for free or reduced price school meals in TPS.<sup>19</sup> The study isolates the relationship between poverty and growth. This leaves a picture of the difference in the impact of charter attendance on students in poverty compared to similar students in TPS who are not in poverty. The bars on the right side of Figure 10 (-.05\* for reading and -.08\*\* for math) represent the impact of being a student in poverty and attending a charter school.<sup>20</sup> The bars on the left side of Figure 12 picture a TPS student in poverty. Both are compared to TPS students who are not in poverty, represented by the .00 line.

<sup>17</sup> The data were retrieved from "National Charter School Facts," National Alliance for Public Charter Schools, <https://data.publiccharters.org/>, when the report was produced.

<sup>18</sup> For additional information on Idaho's direct certification, please visit: <https://www.sde.idaho.gov/cnp/sch-mp/files/reference/direct-certification/Direct-Certification.pdf>

<sup>19</sup> Eligibility for free or reduced-price lunch (FRL) has been used as an indicator of poverty in education research for decades. Although we acknowledge that FRL is not as sensitive as we would desire, FRL is currently the best available proxy for poverty.

<sup>20</sup> The learning gains for a charter student in poverty include both the gains associated with charter attendance and the gains associated with being in poverty.

Figure 12: Overall Learning Gains for TPS and Charter Students in Poverty Compared to Students Not in Poverty

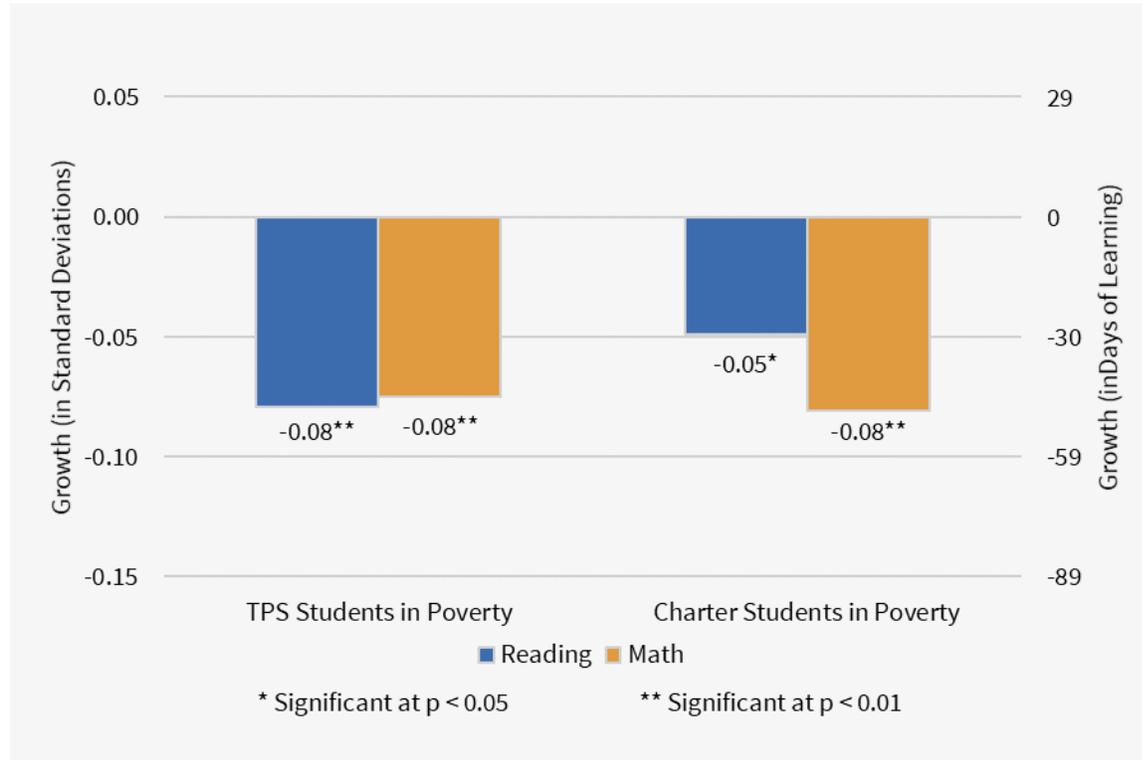

Figure 12a compares the growth of charter students in poverty versus their TPS peers. The results in Figure 12 suggest that student in poverty, regardless of whether they attend TPS or charter schools, significantly underperform TPS students not in poverty in both reading and math. TPS students in poverty make less academic progress than non-poverty TPS students by 47 days of learning in reading and 47 days of learning in math. Charter school students in poverty achieve less academic growth in reading compared to their non-poverty TPS students too, with the deficit amounting to 30 days of learning in reading and 47 days of learning in math. These results mean that learning gaps for charter and TPS students on the socio-economic status have persisted.

Figure 12a: Relative Learning Gains for Charter School Students in Poverty Benchmarked against Their TPS Peers in Poverty

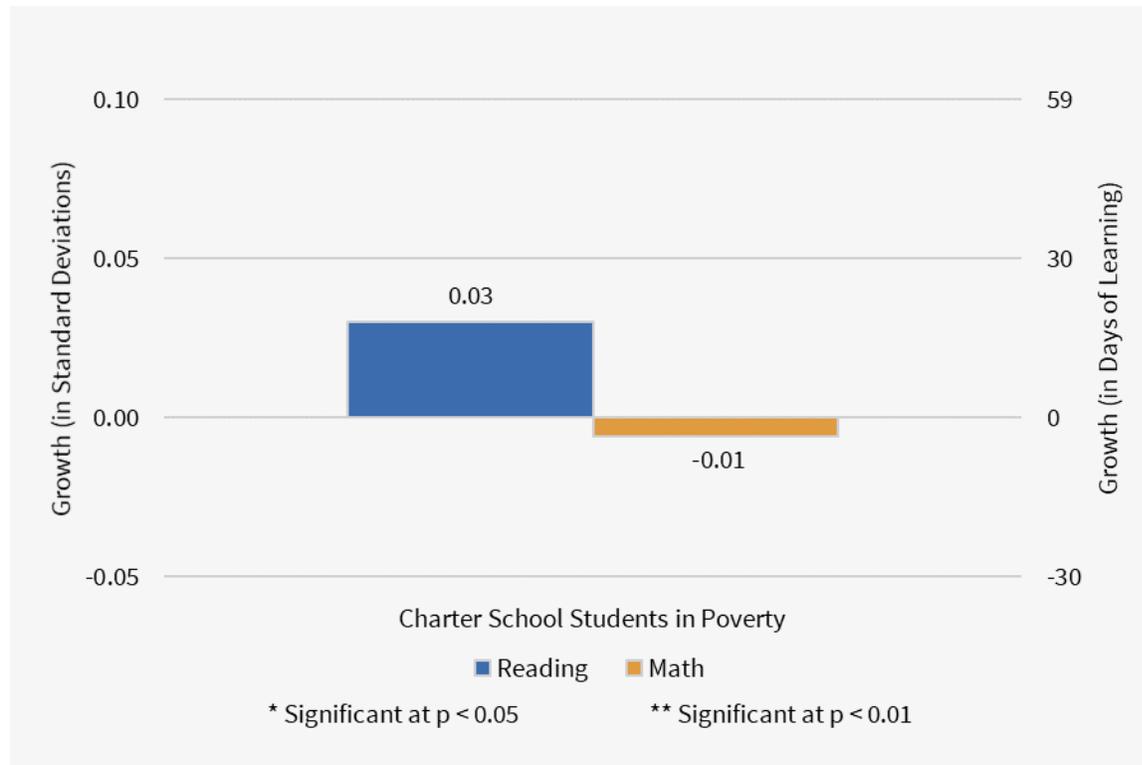

Figure 12a compares the growth of charter students in poverty versus their TPS peers. Charter school students in poverty make similar progress to TPS peers in poverty in both reading and math.

**Charter School Impact for Students in Poverty by Race/Ethnicity**

In public education, some of the most academically challenged students are those who are both living in poverty and also members of historically-underserved racial or ethnic minorities. These students represent a large subgroup, and their case has been the focus of decades of attention. Within the national charter school community, these groups receive special attention. To examine the extent to which gaps are being addressed in Idaho, we further disaggregate the charter school impact on students in poverty by different race/ethnicity groups. We benchmark the discussion by showing the impact of Idaho charter schools on the academic gains of White students living in poverty, presented in Figures 13 and 13a. Figures 14 and 14a show the academic progress of Hispanic students living in poverty. Small numbers of students prevent the same study of Blacks in poverty versus non-poverty Blacks.

Figure 13 compares White students living in poverty, enrolled in TPS or charter schools, with the average White TPS student who is not in poverty. The results show that White TPS students living in poverty make less academic progress annually in reading and math than White TPS students not living in poverty in Idaho. White charter students in poverty exhibit similar academic progress in reading and lower growth in math, compared to White

non-poverty TPS students. White TPS students in poverty exhibit approximately 53 fewer days of learning in reading and 47 fewer days of learning in math than White non-poverty TPS students. White charter students in poverty experience similar growth in reading compared to White non-poverty TPS students. White charter students in poverty experience 41 fewer days of learning in math than White non-poverty TPS students. When focusing on peer comparison as displayed in Figure 13a, we find that White charter students living in poverty make similar learning gains compared to their White TPS peers in poverty in both reading and math.

**Figure 13: Learning Gains of White TPS and Charter Students in Poverty Compared to Learning Gains of White TPS Students Not in Poverty**

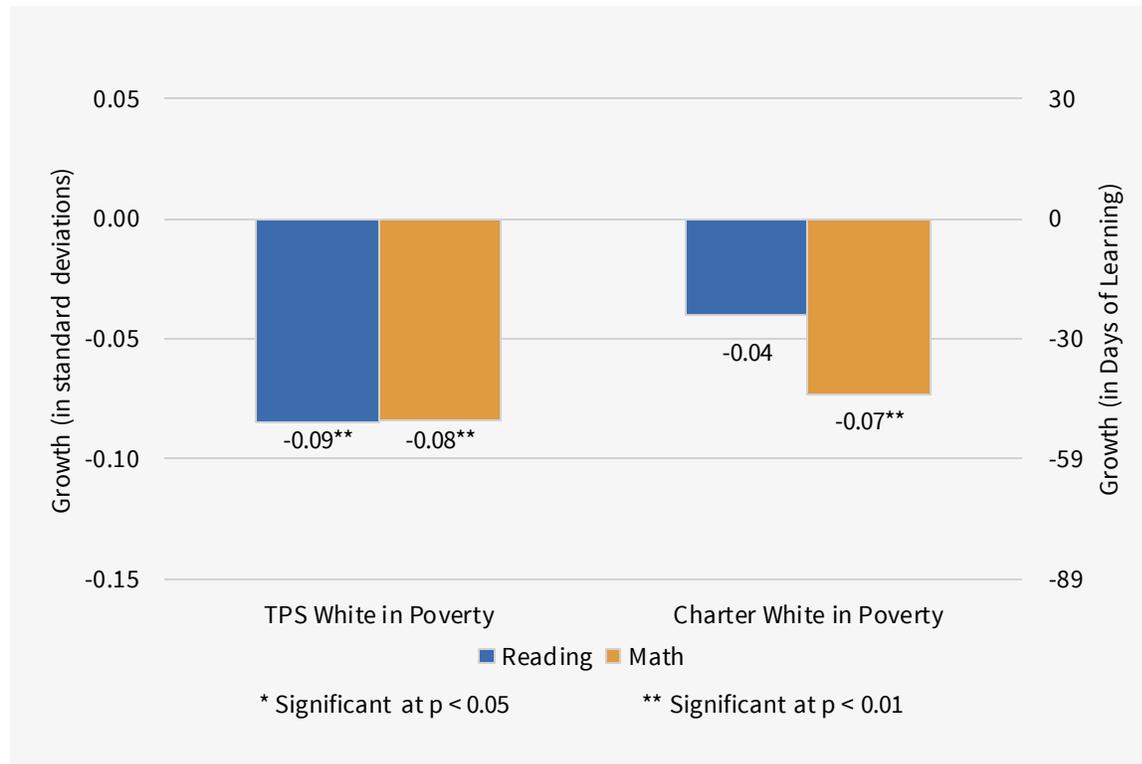

Figure 13a: Relative Learning Gains for White Charter School Students in Poverty Benchmarked against Their White TPS Peers in Poverty

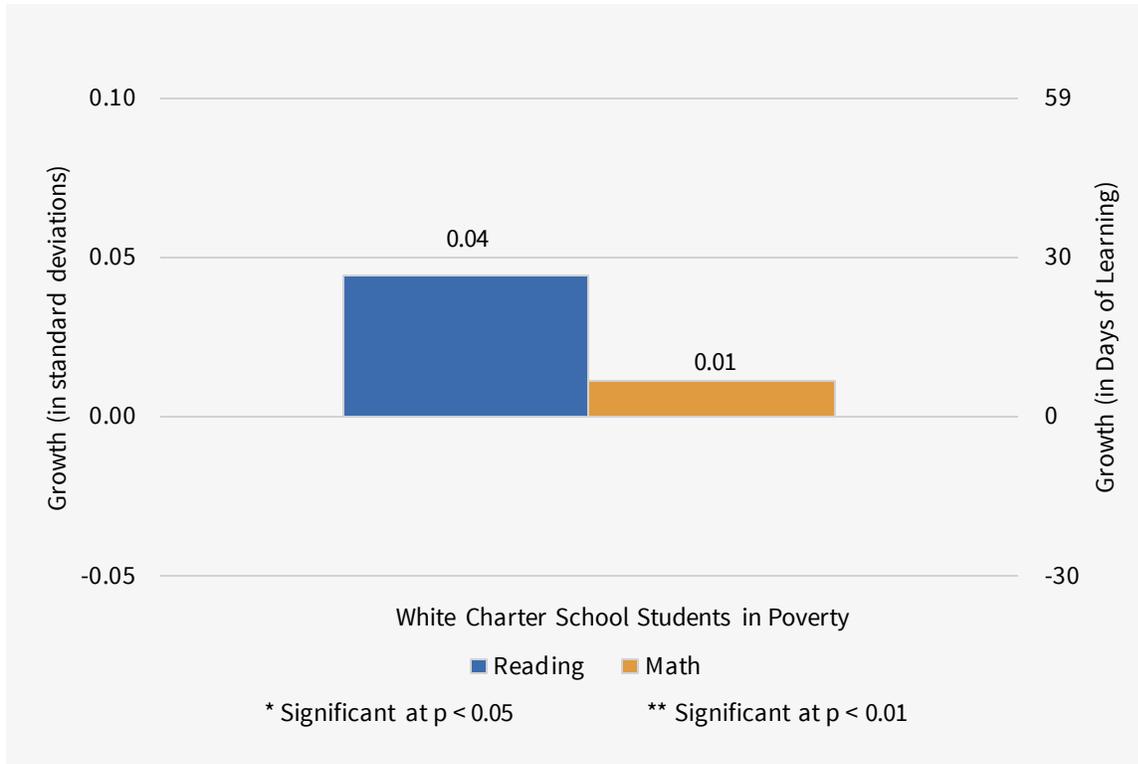

Figure 14: Learning Gains of Hispanic TPS and Charter Students in Poverty Compared to Learning Gains of White TPS Students Not in Poverty

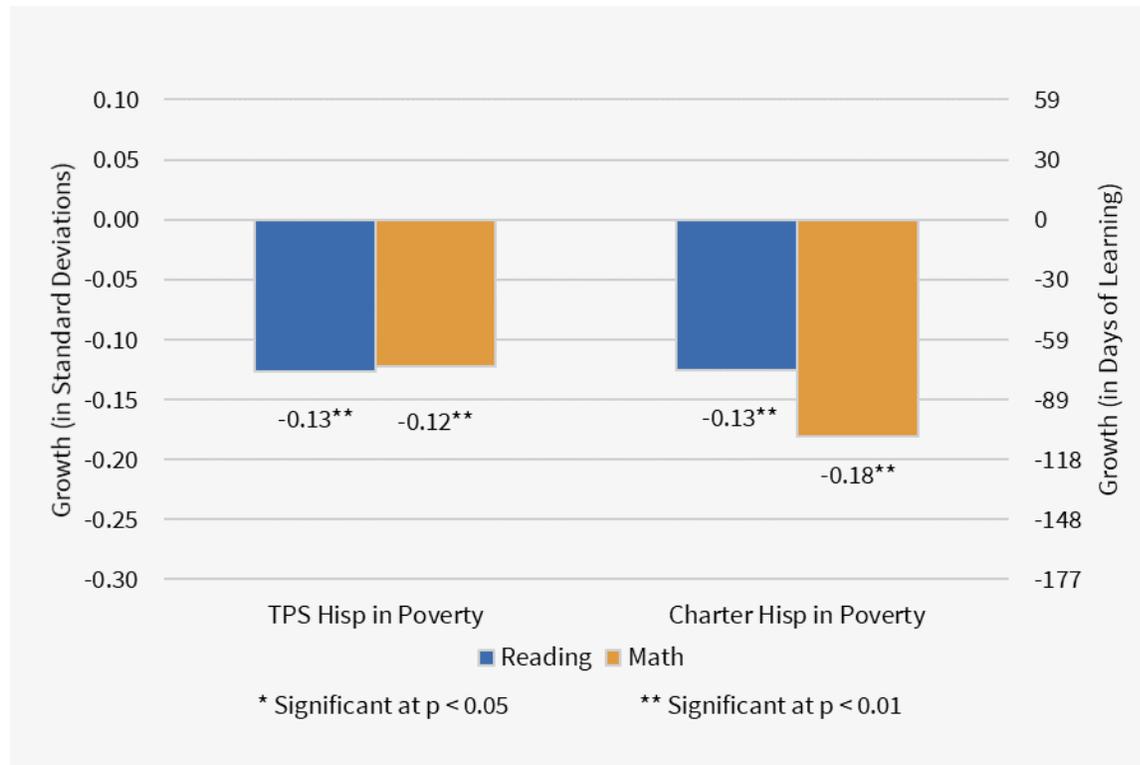

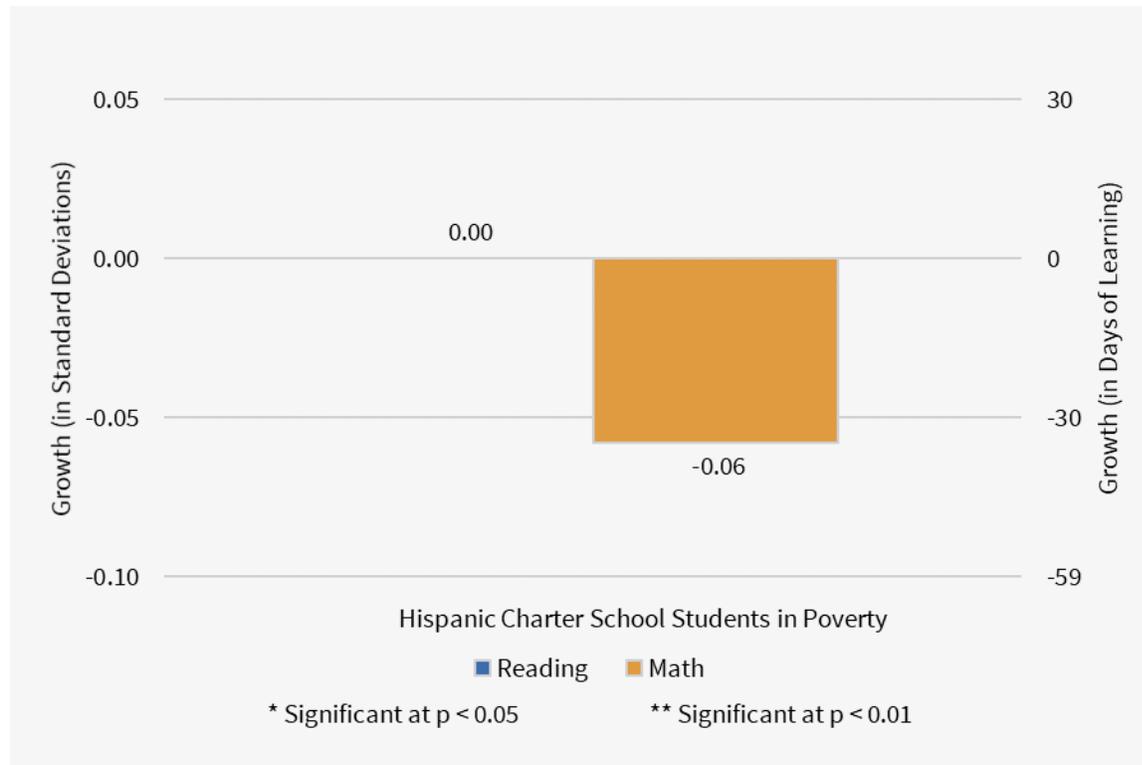

Figure 14 compares Hispanic students living in poverty, enrolled in TPS or charter schools, with the average White TPS student who is not in poverty. The patterns show that Hispanic students living in poverty, regardless of TPS or charter attendance, make less academic progress annually than White TPS students not living in poverty in Idaho. Hispanic TPS students in poverty exhibit approximately 78 fewer days of learning in reading and 71 fewer days of learning in math than White non-poverty TPS students. Hispanic charter students in poverty experience 78 fewer days of learning in reading and 106 fewer days in math than White non-poverty TPS students. When focusing on peer comparison as displayed in Figure 14a, we find that Hispanic charter students living in poverty make similar learning gains relative to their TPS peers in both reading and math.

Figure 14a: Relative Learning Gains for Hispanic Charter School Students in Poverty Benchmarked against Their Hispanic TPS Peers in Poverty

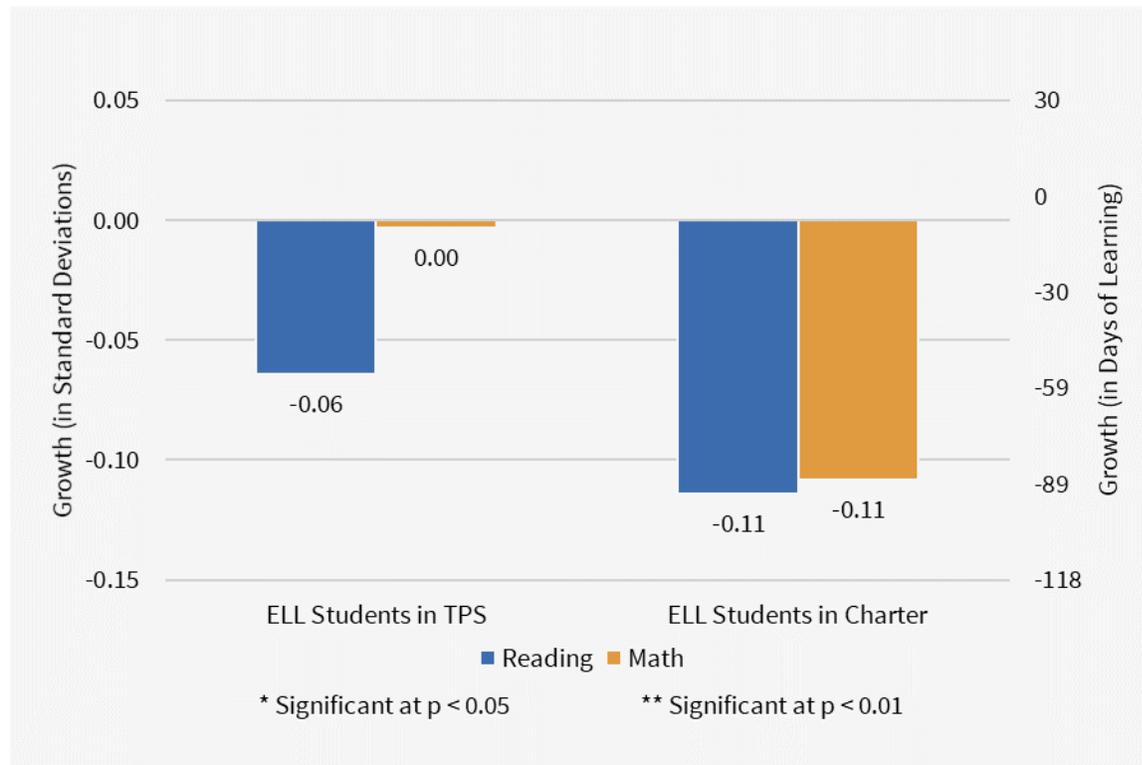

To summarize the findings illustrated in Figure 13 through Figure 14a, we find that the academic progress of White students in poverty, regardless whether they attend TPS or charter schools, lags behind the academic progress of White TPS students not living in poverty. The results suggest that the overall positive charter impacts shown in Figure 3 are chiefly driven by non-poverty White students.

At the same time, there are substantial learning gaps in both subjects for Hispanic students living in poverty, no matter whether they study in TPS or charter schools, compared to white non-poverty students in TPS. Charter attendance does not affect the learning gains of Hispanic students in poverty in either subject.

**Charter School Impact for English Language Learners**

There is a growing population of students enrolled in the public school system with a primary language other than English. Their present success in school will influence their progress in the future once they exit the school system. The 2017 National Assessment of Education Progress (NAEP) documented the performance gap between English language learners (ELL) and their English proficient peers, with ELL students having weaker performance.<sup>21</sup> Even though the share of charter school students who are English Language Learners in Idaho is only 1 percent, demographic trends in the country point to larger shares over time. The analyses in Figure 15 and Figure 15a can provide important baselines for comparisons over time.

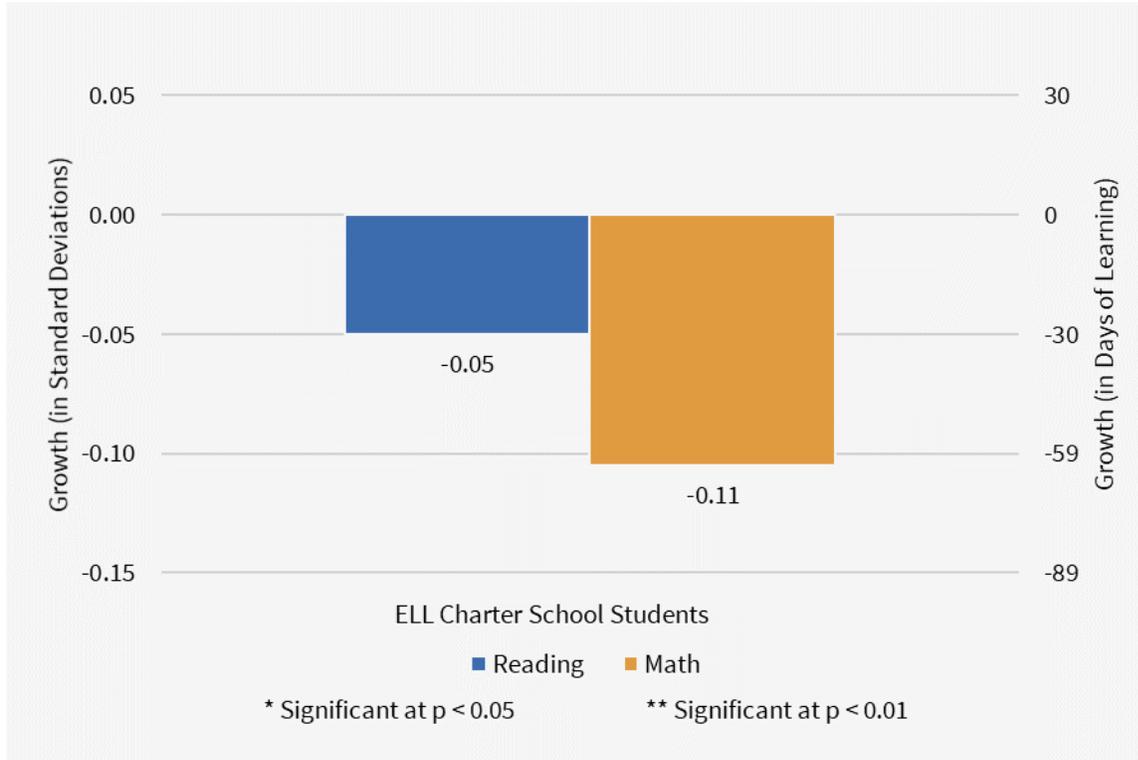

**Figure 15: Learning Gains for TPS and Charter Students with ELL Designation Compared to Non-ELL TPS Students**

The comparison student for Figures 15 is a TPS student who is English proficient. English language learners in TPS schools achieve comparable learning gains in both reading and math relative to non-ELL TPS students. Charter school students with ELL designation have no difference in reading and math gains compared to non-ELL TPS students. When the progress in ELL students is compared across school settings, as displayed in Figure 15a, charter ELL students post similar progress to their TPS ELL peers in both reading and math.

<sup>21</sup> “National Student Group Scores and Score Gaps,” NAEP Mathematics Report Card, [https://www.nationsreportcard.gov/math\\_2017/nation/gaps/?grade=4#?grade=4](https://www.nationsreportcard.gov/math_2017/nation/gaps/?grade=4#?grade=4).

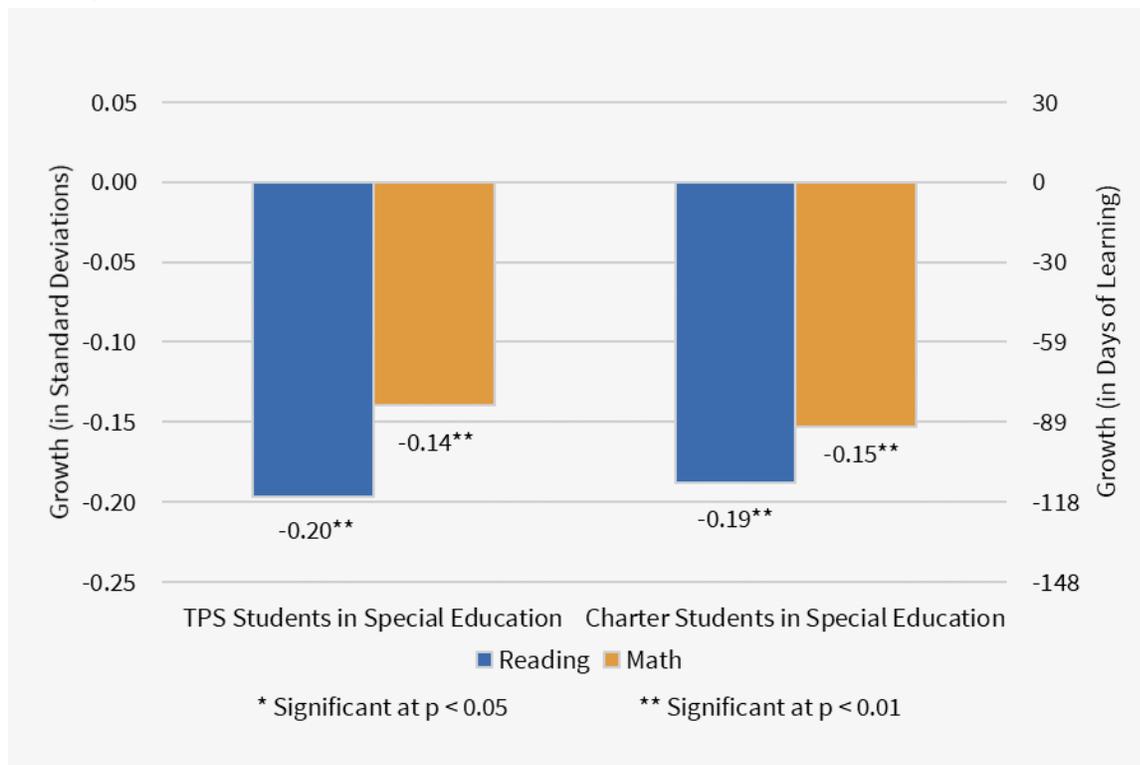

Figure 15a: Relative Learning Gains for ELL Charter School Students Benchmarked against Their ELL TPS Peers

**Charter School Impact for Special Education Students**

Because of the differences in individual needs, comparing the outcomes of special education students is difficult, regardless of where they enroll. In the ideal world, we would only compare students with the same Individual Education Program (IEP) designation, matching for it along with the rest of the matching variables. That approach faces real challenges, however, because of the large number of designations. The finer distinction leads to very small numbers of cases that match between charter schools and their feeder schools, which hinders the analysis. To obtain any estimates of charter school impacts for students with special education needs, it is necessary to aggregate across all IEP categories. It is important to consider this when viewing the results in Figure 16 and Figure 16a.

**Figure 16: Overall Learning Gains for TPS and Charter Students in Special Education Compared to TPS Students Not in Special Education**

In Figure 16, we firstly compare students in Special Education in TPS and charter to students in TPS not receiving Special Education services. Idaho special education students in both TPS and charter schools have significantly weaker academic growth than students in TPS who do not receive special education services. Figure 16 shows that TPS students in special education programs experience 118 fewer days of learning in reading and 83 fewer days of learning in math when compared to TPS students not receiving special education services. A special education student in charter schools also makes less progress than a non-special-education student in TPS, and

the gap is larger, reaching 112 fewer days of learning in reading and 89 fewer days in math. The second comparison is between charter students in Special Education and TPS students in Special Education.

Figure 16a contrasts the growth of special education students attending charter schools relative to their peers in TPS. Figure 16a shows that charter students in Special Education fare as well as their TPS VCRs in reading and math, as the differences are not statistically significant.

**Figure 16a: Relative Learning Gains for Charter School Students in Special Education Benchmarked against Their TPS Peers in Special Education**

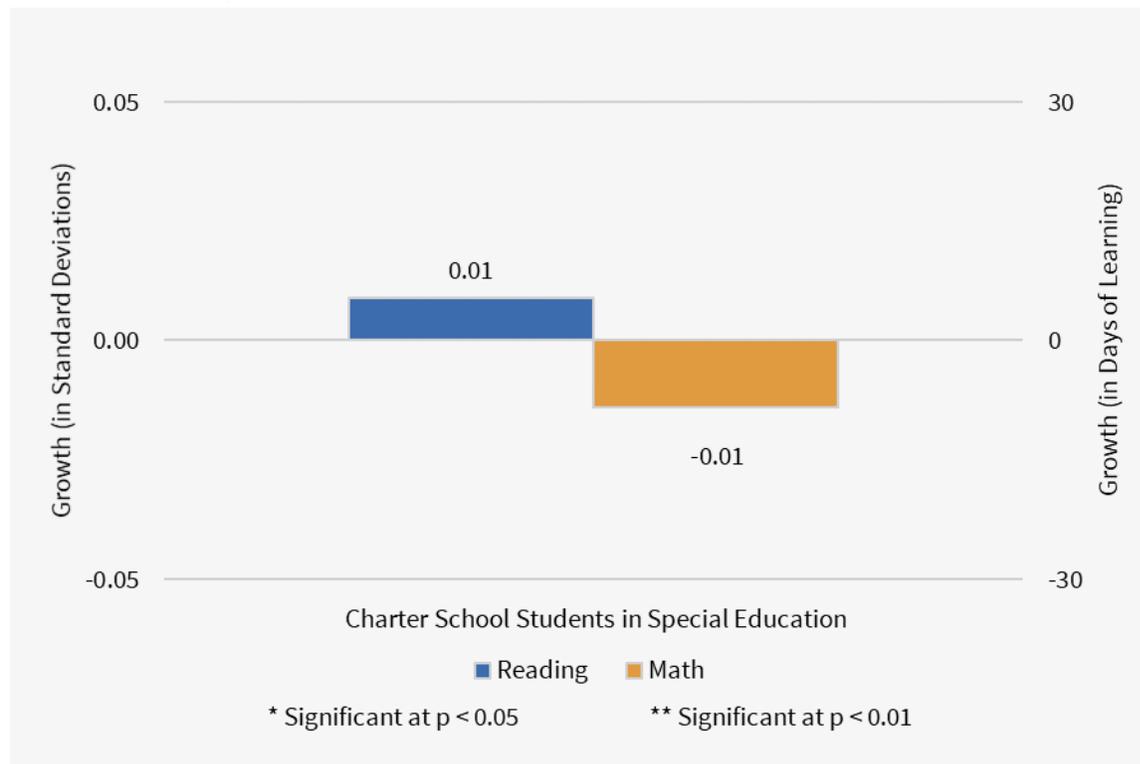

Table 7 summarizes the effect that charter schools have on student group populations. The coefficients represent the growth of each group relative to their counterpart group in TPS.

**Table 7: Charter School Impact on Student Subgroup Performance**

Student Group	Charter Effect on Student Groups Benchmarked against their TPS Peers	
	Reading	Math
Charter School Students in Poverty	0.03	-0.01
White Charter Students	0.04**	0.04*
Black Charter Students	-0.06	-0.03
Hispanic Charter Students	0.01	0.01
White Charter Students in Poverty	0.04	0.01
Hispanic Charter Students in Poverty	0.00	-0.06
Special Education Charter Students	0.01	-0.01

Overall Charter Effect	0.04**	0.03

\* Significant at the 0.05 level, \*\*Significant at the 0.01 level

### Synthesis and Conclusions

In this study, we examine the academic progress of students in Idaho charter schools in a year’s time compared to the gains of identical students in the traditional public schools the students otherwise would have attended. The study employs three years of annual data from 2014-15 to 2016-2017, in order to create two year-to-year measures of progress. The year-to-year measure is referred to as growth or gains. For the reader’s convenience, the following table summarizes the key findings of this report.

**Table 8: Summary of Statistical Significance of Findings for Idaho Charter School Students Benchmarked Against Comparable TPS Students**

	Reading	Math
Idaho Charter Students	Positive	Similar
Students in Online Charter Schools	Similar	Negative
Students in Brick-and-Mortar Charter Schools	Positive	Positive
Students in Charters in 2015-16	Similar	Similar
Students in Charters in 2016-17	Positive	Similar
Students in Urban Charter Schools	Similar	Similar
Students in Suburban Charter Schools	Similar	Similar
Students in Town Charter Schools	Similar	Similar
Students in Rural Charter Schools	Positive	Positive
Students in Elementary Charter Schools	Similar	Similar
Students in Middle School Charter Schools	Negative	Negative
Students in High School Charter Schools	Similar	Similar
Students in Multi-level Charter Schools	Positive	Similar
First Year Enrolled in Charter School	Similar	Similar
Second Year Enrolled in Charter School	Similar	Similar
White Charter School Students	Positive	Positive
Black Charter School Students	Similar	Similar
Hispanic Charter School Students	Similar	Similar
Special Education Charter School Students	Similar	Similar
English Language Learner Charter School Students	Similar	Similar
Charter Students in Poverty	Similar	Similar
White Charter Students in Poverty	Similar	Similar
Hispanic Charter Students in Poverty	Similar	Similar

On average, students in Idaho charter schools experience similar learning gains in math and stronger growth in reading in a year than their TPS peers. The advantage in reading for charter students is as if the students obtained 24 additional days of learning in a school year.

Beyond the overall results, the analysis probes the consistency of charter school performance in Idaho over many dimensions. Urban, suburban and town charter school students grow similarly to their TPS peers in both reading and math. Students enrolled in rural charter schools have stronger gains in both reading and math compared to their TPS virtual twins.

Comparison of charter performance by grade span shows that students in Idaho charter elementary and high schools exhibit similar growth in reading and math compared to their TPS peers. Charter multi-level school students show similar progress in math, while they gain an edge over their TPS peers in reading. However, students in charter middle schools experience weaker growth in reading and math than their TPS peers.

In Idaho, there are different types of operation for charter schools. Online and brick-and-mortar charters have distinct physical or geographic boundaries, student profiles, and means of curriculum delivery. Our investigation reveals remarkably weaker growth in both reading and math among online charter students relative to the average TPS students or brick-and-mortar charter students. In fact, it is the poor performance of online charter schools that drags down the overall charter impact on student academic growth.

The learning gains associated with charter school attendance vary across different demographic subgroups. White charter students post higher academic growth than their White virtual twins in TPS. On the other hand, Black and Hispanic students obtain similar learning gains in both subjects as compared to their respective virtual twins in TPS. Attendance in charter schools produces similar learning gains in both subjects to TPS attendance for students living in poverty. White and Hispanic students in poverty post gains in reading and math equivalent to those of their respective TPS virtual twins. Charter English language learners experience similar learning in reading and math and charter special education students are on par in both subjects compared to their peers enrolled in TPS. When we compare the overall positive charter impacts on White students with the results of non-positive charter impacts on the academic progress of non-White students and students in poverty, we conclude that charter attendance in Idaho is associated with higher academic progress for more traditionally advantaged student populations.

Looking at the results at the school level, around 40 percent of Idaho charter schools outpace their local TPS peers in learning in reading and math. Still, 17 percent of charter schools have results that are significantly worse than TPS for reading and 20 percent of charter schools are underperforming in math relative to their local TPS peers.

The student-to-student and school-to-school results show charter schools to be either ahead or on a par with TPS. The complementary question of whether charter schools are helping students achieve at high levels is also important. More than 75 percent of charter schools in Idaho fall above the 50th percentile in achievement in both reading and math. These outcomes are of course influenced by locational decisions and the starting points of the students they serve. In addition, 71 percent of charter schools have positive academic growth in reading and 61 percent of charter schools have positive academic growth in math irrespective of achievement. Some schools below the 50th percentile of achievement have positive growth in reading and math. With positive and sustained growth, these schools will likely post achievement gains over time. However, the outlook for a considerable

proportion of charter schools with below-average growth and low achievement (20 percent for reading and 24 percent for math) is a source of great concern in Idaho. Students in these schools will fall further behind their TPS peers in the state academically over time if their negative growth persists.

In the 2014-15 school year, a new assessment was administered in Idaho, namely the Smarter Balanced Assessment. Only three years of student performance data are available under this new assessment. It will be worth to continue examining the performance of charter schools in a wider time window with future updates of our study. In the meantime, there are promising examples of stronger performance that are worth attention as well as examples where concern is warranted.

APPENDICES

Appendix A: Sample Size in Each Subgroup

The numbers in the table below represent the number of charter observations associated with the corresponding results in the report. An equal number of VCRs were included in each analysis.

Appendix Table 1: Number of Observations for All Results

Student Group	Matched Charter Student Records	
	Reading	Math
Idaho Charter Students Tested & Matched	14,915	14,814
Students in Charters in 2015-2016	7,113	7,024
Students in Charters in 2016-2017	7,802	7,790
Students in Urban Charter Schools	3,421	3,402
Students in Suburban Charter Schools	5,745	5,704
Students in Town Charter Schools	1,898	1,893
Students in Rural Charter Schools	3,851	3,815
Students in Elementary Charter School	4,413	4,368
Students in Middle School Charter Schools	365	369
Students in High School Charter Schools	518	529
Students in Multi-level School Charter Schools	9,619	9,548
Students in First Year Enrolled in Charter School	3,233	3,224
Students in Second Year Enrolled in Charter School	783	781
Students in Online Charters	2,592	2,565
Students in Brick-and-Mortar Charters	12,323	12,249
Black Charter School Students	28	24
Hispanic Charter School Students	1,338	1,323
White Charter School Students	13,217	13,140
Charter School Students in Poverty	2,175	2,168
Hispanic Charter School Students in Poverty	380	376
Special Education Charter School Students	905	896
English Language Learner Charter School Students	76	77
Grade Repeating Charter School Students	11	18

## Appendix B: Technical Appendix

### Source of Student-Level Data

For the purpose of this study, student-level data were provided by Idaho’s Office of State Board of Education (OSBE). CREDO has no power to audit or control the quality of records held by OSBE. Therefore, we recognize that there is a level of data specificity that is beyond the means CREDO can control.

### Demographic Composition of Charter Students in the Study

This study examines the performance of students in charter schools who participated in annual accountability testing in Idaho, occurring in grades 3-8, 11 and in whatever grade the end-of-course assessments were taken. The test scores allow us to use a common measure of performance across schools and over time. However, in each growth period of the study, students who are enrolled in non-tested grades are not included in the analysis of performance. This partially accounts for the differences in school and student counts in our analysis data compared to other published figures about the charter school population in Idaho.

As discussed in the Study Approach section, we match tested charter students by period if they can be tracked for two or three periods in the study so as to conform to the new baseline equivalence requirement in the *Procedures Handbook Version 4.0 of What Works Clearinghouse*. Appendix Tables 2-3 present the student profiles across all and across matched Idaho charter students tested in math in each matching period.

**Appendix Table 2: Demographic Composition of Charter Students in the Study: Period 1**

Student Group	All Charter Students Tested		Matched Charter Students	
	Number	Percent	Number	Percent
Idaho Charter Students	12,318		10,378	
% Matched	84%			
Black Students	96	1%	13	0%
Hispanic Students	1,275	10%	952	9%
White Students	10,274	83%	9,186	89%
Students in Poverty	2,058	17%	1,601	15%
Special Education Students	1,092	9%	641	6%
English Language Learners	105	1%	56	1%
Grade Repeating Students	174	1%	18	0%

Appendix Table 3: Demographic Composition of Charter Students in the Study: Period 2

Student Group	All Charter Students Tested		Matched Charter Students	
	Number	Percent	Number	Percent
Idaho Charter Students	5,388		4,436	
% Matched	82%			
Black Students	46	1%	11	0%
Hispanic Students	498	9%	371	8%
White Students	4,562	85%	3,954	89%
Students in Poverty	764	14%	567	13%
Special Education Students	445	8%	255	6%
English Language Learners	37	1%	21	0%
Grade Repeating Students	38	1%	0	0%

Note: Appendix Tables 2 and 3 refer to every student who tested in Math.

**Comparison of Starting Scores of Matched Students and VCRs**

The VCR method used in this study of Idaho provided matches for 84 percent of tested charter students with growth scores in reading or math. To assess the quality of the matches, we compare the starting scores of matched charter students and the Virtual Control Records obtained from the matches in both reading and math. The statistical tests of equality of means are shown in Appendix Figures 1 and 2 for math and reading, respectively. We find that the starting scores of matched students and the “virtual twins” used as points of comparison are almost identical. As matched students and their “virtual twins” have identical starting points in terms of learning in the beginning of a growth period, we can be confident that any difference in their final scores and therefore their learning growth can be attributed to charter school attendance, as the only observed way in which matched students and VCRs differ is that the former attend a charter school while the latter consist of students attending a traditional public school.

Appendix Figure 1: Comparison of Starting Math Scores of Matched Charter Students and VCRs

Two-sample t test with unequal variances

Group	Obs	Mean	Std. Err.	Std. Dev.	[95% Conf. Interval]	
TPS	14,814	.2853061	.0074589	.9078481	.2706856	.2999265

**Measuring Academic Growth**

With three years of data, each subject-grade-year group of scores has slightly different mid-point averages and distributions. For end-of-course assessments (EOCs) there are only subject-year groups because EOCs are not grade specific. This means a student takes this assessment after completing the course, no matter what grade he is in. In our study, scores for all these separate tests are transformed to a common scale. All test scores have been converted to standardized scores to fit a "bell curve", in order to allow for year-to-year computations of growth.<sup>22</sup>

<sup>22</sup> For each subject-grade-year set of scores, scores are centered around a standardized midpoint of zero, which corresponds to the actual average score of the test before transformation. Then each score of the original test is

When scores are standardized, every student is placed relative to their peers in the entire state of Idaho. A student scoring in the 50th percentile in Idaho receives a standardized score of zero, while a standardized score of one would place a student in the 84th percentile. Students who maintain their relative place from year to year would have a growth score of zero, while students who make larger gains relative to their peers will have positive growth scores. Conversely, students who make smaller academic gains than their peers will have negative growth scores in that year.

**Model for the Analysis of the Academic Impact of Charter Schools**

After constructing a VCR for each charter student, we then set out to develop a model capable of providing a fair measure of charter impact. The National Charter School Research Project provided a very useful guide to begin the process<sup>23</sup>. First, it was useful to consider student growth rather than achievement. A growth measure provided a strong method to control for each student’s educational history as well as the many observable differences between students that affect their academic achievement. The baseline model included controls for each student’s grade, race, gender, free or reduced price lunch status, special education status, English language learner status, and whether he was held back the previous year. The literature on measuring educational interventions found that the best estimation techniques must also include controls for baseline test scores.<sup>24</sup> Each student’s prior year test score is controlled for in our baseline model. Additional controls are also included for year, and period (first year in charter, second year in charter, etc.). The study’s baseline model is presented below.

$$\Delta A_{i,t} = \theta A_{i,t-1} + \beta X_{i,t} + \rho Y_t + \gamma C_{i,t} + \varepsilon_{i,t} \quad (1)$$

where the dependent variable is

$$\Delta A_{i,t} = A_{i,t} - A_{i,t-1} \quad (2)$$

and  $A_{it}$  is the state-by-test z-score for student  $i$  in period  $t$ ;  $A_{it-1}$  is the state-by-test z-score for student  $i$  in period  $t - 1$ ;  $X_{i,t}$  is a set of control variables for student characteristics and period;  $Y_t$  is a year fixed effect;  $C$  is a vector of variables for whether student  $i$  attended a charter school and what type of charter school in period  $t$ ; and  $\varepsilon$  is the error term. Errors are clustered around charters schools and their feeder patterns as well. The parameters of interest are estimated using Ordinary Least Squares (OLS) in STATA 14.

recast as a measure of variation around that new score of zero, so that scores that fall below the original average score are expressed as negative numbers and those that are higher receive positive values.

<sup>23</sup> Julian Betts and Paul Hill, “Key Issues in Studying Charter Schools and Achievement: A Review and Suggestions for National Guidelines,” National Charter School Research Project, White Paper Series No. 2, May 2006.

<sup>24</sup> Julian Betts and Y. Emily Tang, “The Effect of Charter Schools on Student Achievement: A Meta-Analysis of the Literature,” National Charter School Research Project, May 2006.

The baseline model above was extended to explore additional interactions beyond a simple binary to indicate charter enrollment. One type of extension included both “double” and “triple” interactions between the charter variable and student characteristics. For example, to identify the impact of charter schools on different racial groups, we estimate models that break the charter variable into “charter\_black,” “charter\_hispanic,” etc. To further break down the impact of charters by race and poverty, the variables above were split again. For example, black students in charter schools are split further into students that qualify for free or reduced price lunches (“charter\_black\_poverty”) and those that do not (“charter\_black\_nonpoverty”).

### Presentation of Results

In this report, we present the impacts of attending charter schools in terms of standard deviations. The base measures for these outcomes are referred to in statistics as z-scores. A z-score of 0 indicates the student’s achievement is average for his or her grade. Positive values of the effect size represent higher performance while negative values represent lower performance. Likewise, a positive effect size value means a student or group of students has improved relative to the students in the state taking the same exam. This remains true regardless of the absolute level of achievement for those students. As with the z-scores, a negative effect size means the students have on average lost ground compared to their peers.

It is important to remember that a school can have a positive effect size for its students (students are improving) but still have below-average achievement. Students with consistently positive effect sizes will eventually close the achievement gap if given enough time; however, such growth might take longer to close a particular gap than students spend in school.

While it is fair to compare two effect sizes relationally (i.e., 0.08 is twice 0.04), this must be done with care as to the size of the lower value. It would be misleading to state one group grew twice as much as another if the values were extremely small such as 0.0001 and 0.0002.

Finally, it is important to consider whether an effect size is significant or not. In statistical models, values which are not statistically significant should be considered as no different from zero. Two effect sizes, one equal to .001 and the other equal to .01, would both be treated as no effect if neither were statistically significant.

To assist the reader in interpreting the meaning of effect sizes, we include an estimate of the average number of days of learning required to achieve a particular effect size. This estimate was calculated by Dr. Eric Hanushek and Dr. Margaret Raymond based on the latest (2017) 4th and 8th grade test scores from the National Assessment of Educational Progress (NAEP). Using a standard 180-day school year, each one standard deviation (s.d.) change in effect size was equivalent to 590 days of learning in this study. The values in Table 3 are updated from past reports using more recent NAEP scores, which show slower absolute annual academic progress than earlier administrations.<sup>25</sup>

**To:** The Education Committees of the Idaho House of Representatives and the Senate  
**From:** The Center for Research on Education Outcomes (CREDO) at Stanford University  
**Date:** February 11, 2019  
**Subject:** Response to data and analysis requests from education committees

### Memorandum

Dear Representatives and Senators,

We would like to re-iterate our enthusiasm and appreciation for the opportunity to present the findings of our first study on the performance of charter schools in Idaho to the honorable members of the education committees of the House of Representatives and the Senate on January, 31 2019. In addition, we would like to provide responses to the data and analysis requests made during our presentations. Please find below a list of all the requests made from either committee with the accompanying response. The responses aim to address the essence of each request as the exact phrasing of each question was difficult to recall from memory or infer from notes.

1. Request: Can you provide a list of the schools included in the study with the corresponding locale designation?

Response: Yes, we provide a table with the schools included in the study and their associated locale designation. Please see note [1].

2. Request: Can you provide a list of the schools included in the study with the corresponding grade level designation?

Response: Yes, we provide a table with the schools included in the study and their associated grade level. Please see note [1].

3. Request: Can you provide a list of the schools included in the study with their corresponding online or brick-and-mortar charter designation by locale?

Response: Yes, the table provided in note [1] contains a column with the designation of online and brick-and-mortar charters.

4. Request: Is it possible to estimate charter impact effects for each grade?

Response: Unfortunately, due to small counts, it is not possible to generate reliable estimates of the impact of charter attendance at each grade.

5. Request: Is it possible to estimate charter impact effects for each race/ethnicity group in each level/grade?

Response: Unfortunately, the small counts do not allow us to generate reliable estimates of the impact of charter attendance for each race/ethnicity group at each grade.

6. Request: Do you know how many students at the basic, below basic, and proficient achievement level transfer to online and brick-and-mortar charter? How many students at the basic, below basic, and proficient achievement level transfer out of their school in general in Idaho?

Response: Unfortunately, our data do not allow for a calculation of the numbers requested. We would be extremely interested in investigating this question in a future study of charter schools in Idaho with additional data.

7. Request: Can you provide a schematic of quadrants relating achievement and growth separately for online and for brick-and-mortar charters?

Response: Yes, similar to the schematics of quadrants in our report, we have generated separate schematics for online and brick-and-mortar charters. Please find them in note [2].

8. Request: How many first and second period student records does the study include for online and brick-and-mortar charters? Do they have different impact?

Response: We have calculated the number of growth periods a student is observed in the same charter school in our dataset. We break out these counts for online and brick-and-mortar charters and present them in note [3].

The maximum number of growth periods a student can be observed in the same charter school in a dataset spanning three years of data (between 2014-15 and 2016-17) is two. We cannot infer whether a student was enrolled in a charter school for longer than we observe them in the dataset.

We understand that the aim of this request was to infer whether students who enroll in online charter schools experience higher mobility. Although student mobility was outside the direct scope of our study of charter school performance in Idaho, an earlier national study our team conducted may be able to provide additional useful insights.

The 2015 CREDO study of online charter schools across the nation (17 states and the District of Columbia) studied student mobility inter alia. The study showed that pre-online mobility is the same for online charter students and their virtual twins (Virtual Control Records or VCR) in traditional public schools (TPS). In particular, the study of student mobility showed that students who eventually enroll in online charter schools have pre-online mobility rates similar to those of their VCR comparisons. However, after enrolling in online charter schools these students tend to become more mobile, changing schools at a rate 2 to 3 times higher than their TPS peers. A link to the 2015 CREDO national study of online charter schools is provided below for your reference.

<https://credo.stanford.edu/pdfs/Online%20Charter%20Study%20Final.pdf>

9. Request: Is it possible to estimate charter impact effects for online and brick-and-mortar charters in each locale?

Response: The small counts do not allow us to generate reliable estimates of the impact of charter attendance at each locale. It is possible though to estimate the impact of charter attendance by groups of locales. In note [4] we present charter impacts for online and brick-and-mortar charters in urban or suburban and town or rural locales.

Best Regards,

The CREDO team

Notes:

- [1] See attached list of schools included in the study with their locale, grade level, and online/brick-and-mortar designations.
- [2] Please see attached quadrant schematics of school-level growth and achievement for online and brick-and-mortar charters.
- [3] Please see attached table with student counts by number of growth periods for online and brick-and-mortar charter schools.
- [4] Please see attached figure with charter impacts by growth period for online and brick-and-mortar charter schools.
- [5] Please see attached figure with charter impacts by locale (urban/suburban and town/rural) for online and brick-and-mortar charter schools.

Note 2: Quadrant Schematics of School-Level Growth and Achievement for Online and Brick-and-Mortar Charters

Idaho Online Charter Schools in Mathematics

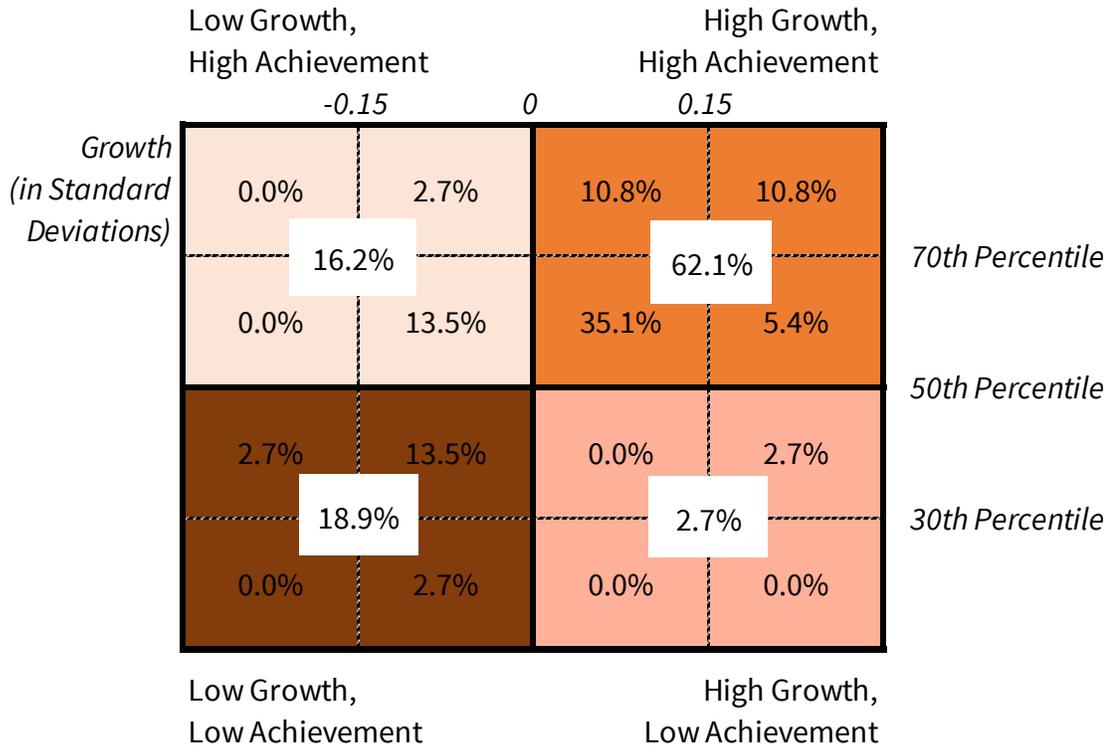

The data provided sufficient counts to generate reliable individual growth estimates for four online charter schools in Idaho. Three out of four online charter schools in Idaho exhibit lower growth in mathematics than the traditional public school option and achievement below the state average. At the same time, one out of four online charter schools in Idaho post higher growth than the traditional public school option and achievement above the state average in mathematics.

Idaho Online Charter Schools in Reading

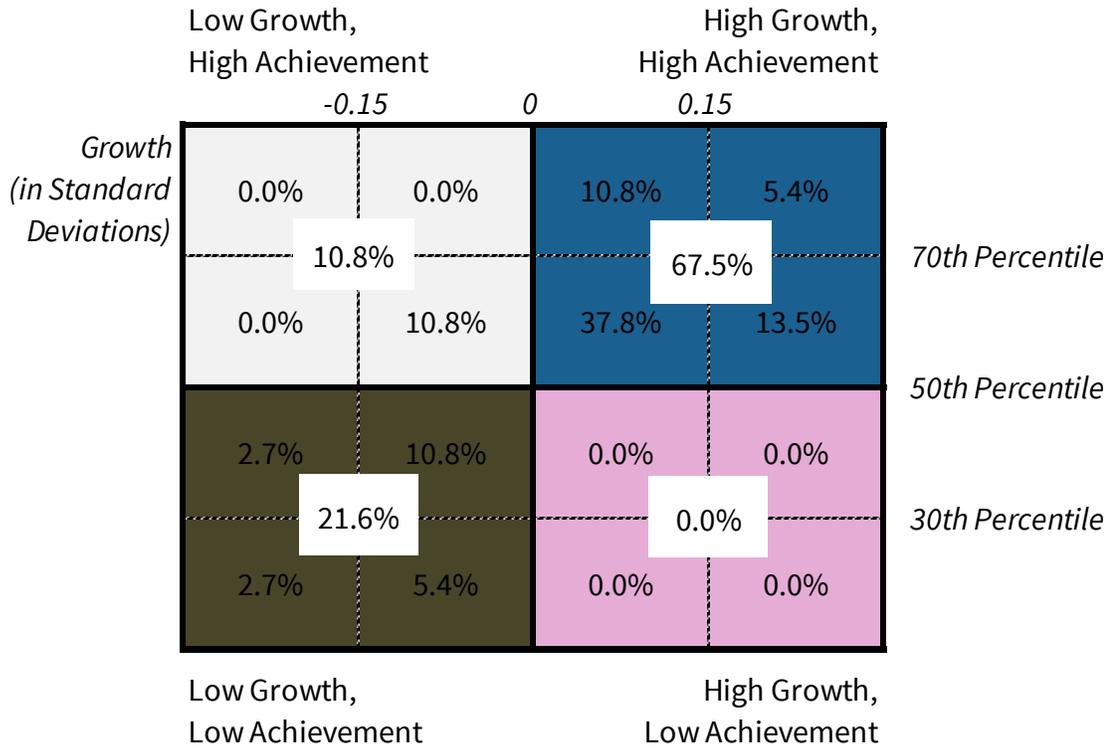

Two out of four online charter schools in Idaho exhibit lower growth than the traditional public school option and achievement below the state average in reading. The other two online charter schools in Idaho post higher growth than the traditional public school option and achievement above the state average in reading.

Idaho Brick-and-Mortar Charter Schools in Mathematics

The data provided sufficient counts to generate reliable individual growth estimates for 37 brick-and-mortar charter schools in Idaho. Roughly 19 percent of brick-and-mortar charter schools in Idaho exhibit lower growth than the traditional public school option brick-and-mortar charter schools in mathematics and achievement below the state average. At the same time, 62.1 percent of brick-and-mortar charter schools in Idaho post higher growth than the traditional public school option in mathematics and achievement above the state average. Sixteen percent of brick-and-mortar charter schools in Idaho have higher achievement than the state average in Idaho in mathematics but academic growth below that of the traditional public school option. The remaining three percent of brick-and-mortar charter schools in Idaho have higher growth compared to traditional public schools and achievement below the state average in mathematics.

Idaho Brick-and-Mortar Charter Schools in Reading

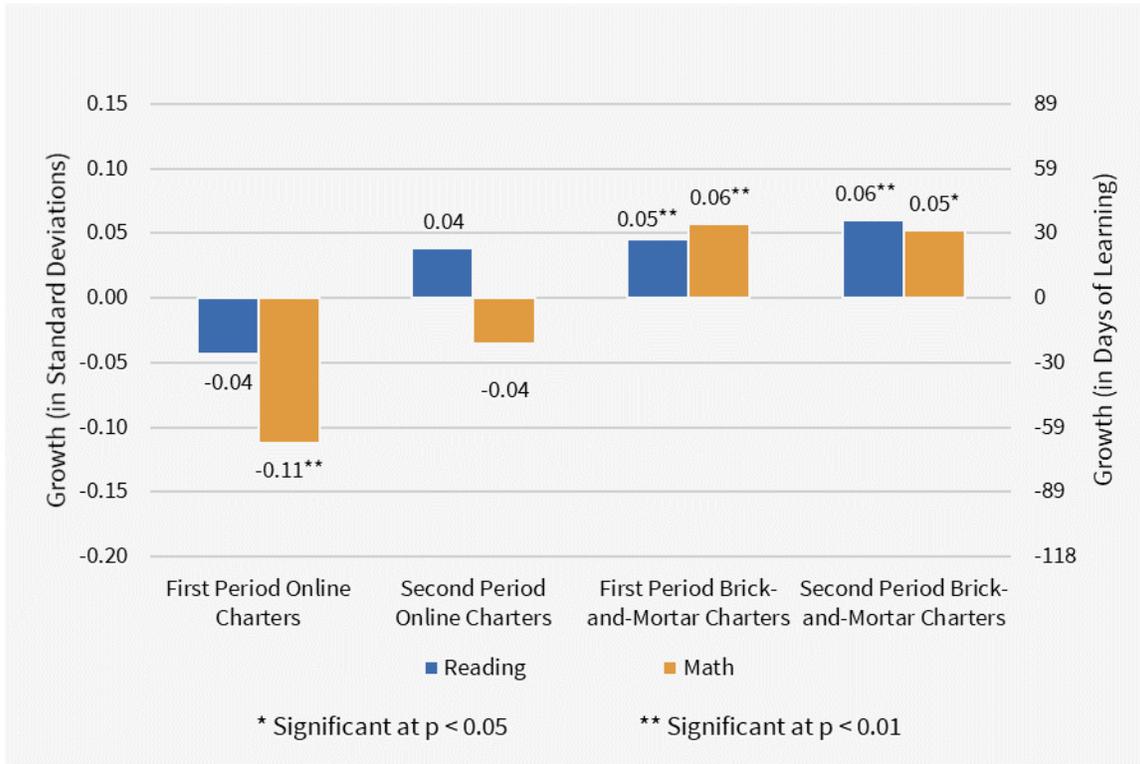

Approximately 22 percent of brick-and-mortar charter schools in Idaho exhibit lower growth than the traditional public school option brick-and-mortar charter schools in reading and achievement below the state average. At the same time, 67.5 percent of brick-and-mortar charter schools in Idaho post higher growth than the traditional public school option in reading and achievement above the state average. Eleven percent of brick-and-mortar charter schools in Idaho have higher achievement than the state average in Idaho in reading but academic growth below that of the traditional public school option. The remaining three percent of brick-and-mortar charter schools in Idaho have higher growth compared to traditional public schools and achievement below the state average in reading.

### Note 3: Student Counts by Growth Period for Online and Brick-and-Mortar Charter Schools

Student Group	Matched Charter Student Records			
	Reading	Percentage	Math	Percentage
Idaho Charter Students Tested & Matched	14,915		14,814	
Students in Online Charter Schools	2,592	100%	2,565	100%
Students in First Period in Online Charter Schools	2,071	80%	2,061	80%
Students in Second Period in Online Charter Schools	521	20%	504	20%
Students in Brick-and-Mortar Charter School	12,323	100%	12,249	100%
Students in First Period in Brick-and-Mortar Charter Schools	8,857	72%	8,799	72%
Students in Second Period in Brick-and-Mortar Charter Schools	3,466	28%	3,450	28%

Twenty-eight percent of the student records from brick-and-mortar charter schools included in the study correspond to second-period growth. In other words, 28 percent of the students in our data set remained in the same charter school for all three years covered by the study. In contrast, 20 percent of student records from online charter schools correspond to second-period growth. Online charter school students are less likely to be observed for a second growth period in our dataset compared to brick-and-mortar charter students.

Note 4: Charter Impacts by Growth Period for Online and Brick-and-Mortar Charter Schools

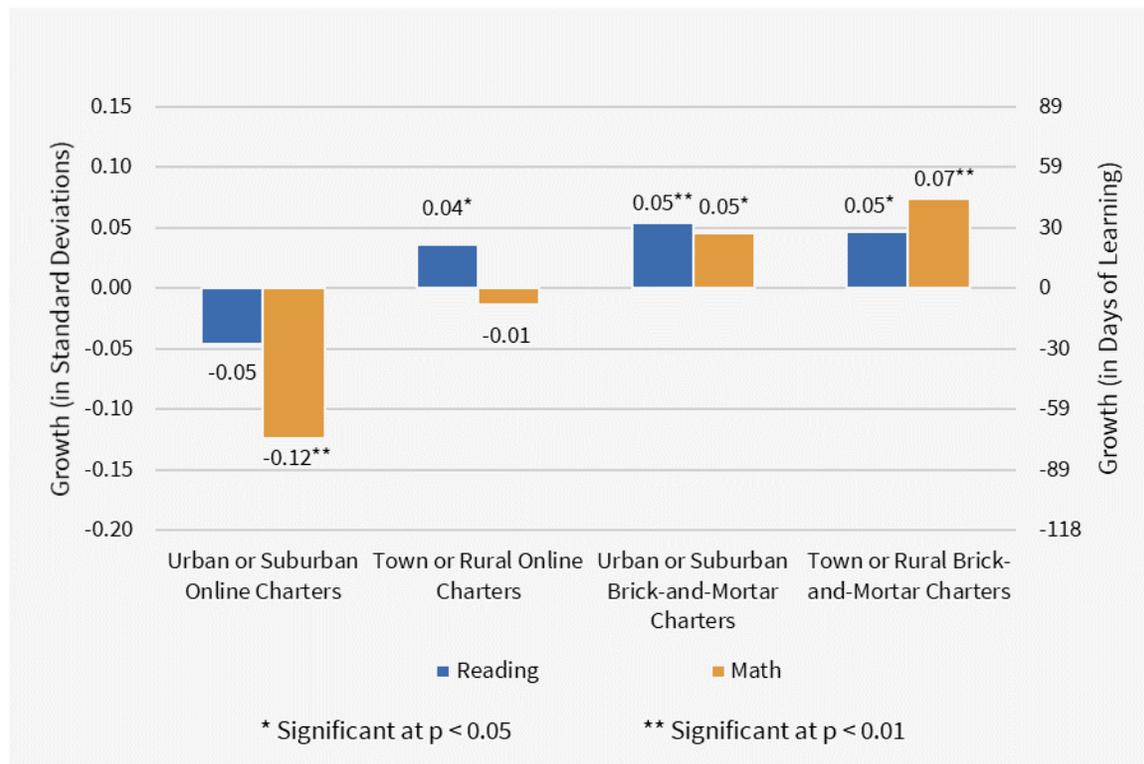

First period in online charter schools is associated with significantly lower progress in math compared to traditional public schools, that is equivalent to 65 fewer days of learning. Online charter school students in the first period in our dataset post a growth in reading that is on par with that of traditional public school students. Online charter school students in Idaho in their second period in our dataset post equivalent academic progress to that of traditional public school students in either math or reading.

First period in brick-and-mortar charter schools is associated with significantly higher progress in math and reading compared to traditional public schools that is equivalent to 35 and 30 additional days of learning, respectively. Online charter school students in the first period in our dataset post a growth in reading that is on par with that of traditional public school students. Brick-and-mortar charter school students in Idaho in their second period in our dataset post higher academic progress than traditional public school students in math or reading, that is equivalent to 30 and 35 additional days of

learning, respectively. Please note that we cannot exclude the possibility that charter students attended a charter school for longer than we observe them in the data.

### Note 5: Charter Impacts by Locale (Urban/Suburban and Town/Rural) for Online and Brick-and-Mortar Charter Schools

Online charter schools in urban or suburban locales are associated with significantly lower progress in math compared to traditional public schools, that is equivalent to 71 fewer days of learning. Online charter schools in urban or suburban locales show similar progress in reading to that of traditional public schools. Online charter schools in town or rural locales post a growth in reading that is higher than that of traditional public schools and equivalent to 24 additional days of learning. Online charter school students in town or rural settings post equivalent academic progress to that of traditional public school students in Math.

Brick-and-mortar charter schools in urban or suburban settings are associated with significantly higher progress in math and reading compared to traditional public schools

that is equivalent to 30 additional days of learning in either subject. Brick-and-mortar charter school students in town or rural settings in Idaho show higher academic progress than traditional public school students in math and reading, that is equivalent to 41 and 30 additional days of learning, respectively.

# School-Level Findings

11

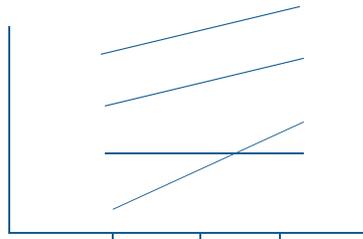

## Subgroups

### Achievement Gaps

Differences in knowledge between student groups at a fixed point in time.

White students are the benchmark.

15

## Subgroups

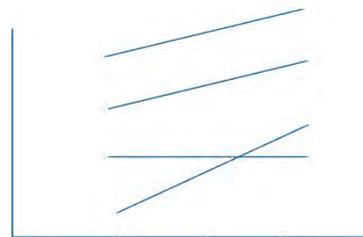

Learning Gaps = Differences in growth of knowledge between student groups in the same year or period.

White student growth is the benchmark.

Same growth – gaps stay the same

Less growth – gaps increase

More growth – gaps decrease

16

## Impact by Student Subgroups

Student Group	Benchmark	Reading		Difference
		TPS	Charter	
White Students	Non-Poverty Non-SpEd Non-ELL White VCR	---	0.04**	0.04**
White Students in Poverty		-0.09**	-0.04	0.04
Students in Poverty		-0.08**	-0.05*	0.03
Black Students		-0.02	-0.07	-0.06
Hispanic Students		-0.05**	-0.04	0.01
Hispanic Students in Poverty		-0.13**	-0.13**	0.00
Special Education Students	Non-SpEd VCR	-0.20**	-0.19**	0.01
English Language Learner Students	Non-ELL VCR	-0.06	-0.11	-0.05

## Impact by Student Subgroups

Student Group	Benchmark	Math		Difference
		TPS	Charter	
White Students	Non-Poverty Non-SpEd Non-ELL White VCR	---	0.04**	0.04**
White Students in Poverty		-0.08**	-0.07**	0.01
Students in Poverty		-0.08**	-0.08**	-0.01
Black Students		-0.08	-0.11	-0.03
Hispanic Students		-0.08**	-0.07**	0.01
Hispanic Students in Poverty		-0.12**	-0.18**	-0.06
Special Education Students	Non-SpEd VCR	-0.14**	-0.15**	-0.01
English Language Learner Students	Non-ELL VCR	0.00	-0.11	-0.11

## Summary of Findings

- In the aggregate, we find positive and significant effects associated with charter attendance for reading and positive but not statistically significant effects for math.
- Brick-and-Mortar Charters outperform Online Charters.
- We find wide variation in individual school effects. There is some good news.
- Charter attendance is associated with improved learning gains for White students.

19

## Policy Considerations

- Facilitate high performers to share and grow.
- Resources need to balance equity and effectiveness.
  - Level is important
  - So are results
- Evidence that stronger authorizing is needed.

Idaho has a unique take on charters – with extra focus on quality, it could be a national exemplar.

20

**SUBJECT**

Speech Language Pathologist Shortage - Recommendations

**REFERENCE**

August 2016	The Board reviewed and discussed available data provided in the teacher pipeline report and discussed pulling together a broader work group to provide feedback and recommendations to the Board regarding educator pipeline barriers and solutions.
April 2017	The Board reviewed an update on the Educator Pipeline and recommendations from the workgroup.
October 2017	Board reviewed and approved the first recommendation of the teacher pipeline workgroup.
December 2017	Board reviewed FY17 Teacher Pipeline Report and Recommendations
December 2018	Board review FY18 Educator Pipeline Report and progress toward recommendations

**APPLICABLE STATUTE, RULE, OR POLICY**

Sections 33-1201 -1207, Idaho Code  
Idaho Administrative Code, IDAPA 08.02.02, Rules Governing Uniformity

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 1: Educational System Alignment, Objective B: Alignment and Coordination  
Goal 2: Educational Readiness, Objective A: Rigorous Education

**BACKGROUND/DISCUSSION**

The Board was presented with a first look at various data points throughout the educator pipeline during the December 2015 Board meeting and received a more comprehensive review at the August 2016 Board meeting. During the discussion at the August 2016 Board meeting it was determined that a broad group of stakeholders who are impacted at the various points in the pipeline should be brought together to form comprehensive recommendations for supports and improvements to Idaho's educator pipeline. The workgroup was made up of individuals nominated by the various stakeholder representative organizations with a focus on those individuals working in our public school system and approved educator preparation programs along with additional state policy makers.

The 2017 Teacher Pipeline Report and recommendations from the Educator Pipeline Workgroup was the first comprehensive effort to investigate and provide recommendations for pipeline issues specific to Idaho. The report was presented

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

to the Board in December 2017 and provided baseline data on the supply and demand of instructional staff across Idaho. The report included recommendations on ways to utilize this information to ensure consistency and efficacy in addressing Idaho's educator pipeline issues over time. Ten total educator workforce recommendations were presented for consideration, with seven prioritized for immediate action.

The FY18 pipeline report explored new data collected through the 2017-2018 school year, identified areas of concern, and provided an update on progress related to the recommendations presented in the FY17 report.

In addition to Instructional Staff, which include classroom teachers, Idaho certificated educators include Pupil Service Staff. Pupil Service Staff are individuals that are required to be certificated to work in a school setting and vital to a student's education, but do not serve as classroom teachers. These positions include school counselors, school psychologists, school nurses, speech-language pathologists, school social workers, and school audiologists, and may include certificated occupational therapist and physical therapist. These position's general include a requirement for a master's degree or professional license in their field. Pupil Service Staff are treated the same as Instruction Staff for salary based apportionment purposes and will be eligible to apply for the Master Educator Premium. School districts and charter schools also face similar issues in retaining and recruiting Pupil Service Staff as they do Instructional Staff. School districts and charter schools may not need all of types of Pupil Service Staff listed, however, many of them are required under Federal and State regulations for students with disabilities that have been identified as needing the applicable services. Audiologist and Speech-language Pathologist are two such categories that are consistently identified around the state as an area of shortage. To compound issues, there are a limited number of individuals completing programs in these areas and becoming certificated in Idaho.

A state-wide group of speech-language pathologist have met over the past year and developed the following barriers and recommendations for Board consideration in helping to increase the availability of certificated speech-language pathologist around the state.

- 1) Provide resources to high school college and career counselors and advisors so they understand the work involved and can help educate students on the rewarding career (e.g. add speech language pathology to career fairs in order to boost interest in the field).
- 2) Work with Idaho State University to boost enrollment for speech-language pathologist into their graduate program and require they prioritize in-state students over out of state students.
- 3) Explore ways to supply northern and eastern Idaho, along with the more rural districts with certificated speech-language pathologists.
- 4) Consider including speech-language pathologists in any proposed loan

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

forgiveness programs.

- 5) Provide more resources to school districts and charter schools to allow them to be more competitive in attracting high-demand employees like speech-language pathologists.
- 6) Set standards for maximum caseloads. Many qualified speech-language pathologists don't consider positions in a school setting due to the large caseloads.
- 7) Create an incentive program for non-traditional students (e.g., a teacher, or another type of professional outside of education) to enter speech-language pathologist programs.
- 8) Create a speech-language pathologist aide program at one of the community colleges to help meet the demand for speech-language pathologists across the state.

**IMPACT**

The presentation will give the Board the opportunity to ask questions and better understand the need for these types of educators in Idaho and look at ways the Board's work on improving the educator pipeline might also impact pupil service staff shortages.

**STAFF COMMENTS AND RECOMMENDATIONS**

Idaho certification requirements set by the Board are established in IDAPA 08.02.02. Rules Governing Uniformity. Pursuant to IDAPA 08.02.02, eight areas of endorsement are available for the Pupil Service Certificate:

- Audiology
- Occupational Therapist
- Physical Therapist
- School Counselor (K-12)
- School Nurse
- School Psychologist
- School Social Worker
- Speech-Language Pathologist

To be eligible for a Pupil Service Certificate with a Speech-Language Pathologist Endorsement, an individual must possess a master's degree from an accredited college or university in a speech/language pathology program approved by the State Board of Education, and receive an institutional recommendation from an accredited college or university. An interim speech-language pathologist endorsement is available for individuals who do not meet the educational requirements but who hold a baccalaureate degree in speech language pathology and are pursuing a master's degree in order to obtain the Pupil Service Staff Certificate endorsed in speech language pathology. An interim certificate is issued for three (3) years while the applicant is meeting the educational requirements, and is not renewable.

Idaho State University provides their Speech Language Pathology program in-

Idaho Administrative code, IDAPA 08.02.01 Section 801 and IDAPA 08.02.03-Sections 104 and 105.

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 3: EDUCATION ATTAINMENT Objective C: Access; GOAL 4: WORKFORCE READINESS: Objective A: Workforce Alignment.

**BACKGROUND/DISCUSSION**

The Governor's Workforce Development Task Force 2017 released a report on the state of Idaho's workforce. The report describes what types of jobs we are likely to see in the future, profiles the kinds of workers needed to fill these jobs, and lays out a plan for how the state can best help prepare Idahoans for the jobs of the future. Specifically, the Task Force presented recommendations for improving Idaho's funding and delivery of training and education programs to meet our state's growing demand for skilled workers.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

A specific recommendation from this report calls for the creation of an online platform: A one-stop shop where Idahoans can find information about how to find and train for careers that might interest them. Whether they are K-12 students looking for information about what to expect in the future, or skilled tradesmen seeking certification to take their career to the next level, the Task Force envisioned a platform each could use to navigate their future path. By having one online platform, the state could focus and pool its resources for advertising, outreach, and communications by promoting a single tool, rather than the disparate resources that are currently housed in different places.

In response to this recommendation, and as the result of collaboration with the Workforce Development Council and the Department of Labor, Board staff amended the current Next Steps website contract to allow for additional work to this end. This amendment will allow staff to conduct research to determine the best way to bring the online tools used by each agency together, under one roof, in a way that will be both simple to explain and promote and that will provide value and a seamless user experience to a wide range of Idahoans.

**IMPACT**

The Board will be provided an update on the current Next Steps website along with recommendations and cost estimates for the Idaho State Board of Education to consider as expansion of the Next Steps.Idaho.gov is contemplated for future years.

**STAFF COMMENTS AND RECOMMENDATIONS**

The Next Steps website was developed to provide resources for students in grades 8 through 12, their parents, and the educators that help to support these students. The development of the website was done through a systematic approach of researching not only those tools most meaningful to the target group but also through gathering feedback from parents and educators using the site to help support these students. Due to this systematic approach, the website has been widely adopted by our public schools, postsecondary student advisors, and students. Additionally, the Next Steps website has been identified as model to emulate by other states looking to provide similar resources to their students. As the Board office looks toward expanding the target audiences of the site, it will be important to use the same systematic, research driven, approach to maintain the quality and usefulness of the site. There are many examples available of sites that have tried to compile or link to the vast amount of available resources for advising individuals, both, students and adults, that have become cumbersome and unwieldy, in the end resulting in a tool the was no longer of use. Through the research process that is currently being conducted and the collaboration that have been developed staff believe the site can be expanded in a meaningful way to a broader audience.

The Board will be provided an update on the current Next Steps website along with recommendations and cost estimates for the Idaho State Board of Education to

**SUBJECT**

Policy V.Q. Residency for Tuition Purposes – First Reading

**REFERENCE**

April 2019	Board received update on impact of legislature not extending codified rules after June 30, 2019.
May 2019	Board approved temporary and proposed rules for reinstatement due to 2019 Legislature action and an update on which rules could be allowed to expire June 30, 2019.

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-3717B, Idaho Code  
Administrative Code, IDAPA 08.01.04

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 3: Educational Attainment, Objective C: Access.

**BACKGROUND/DISCUSSION**

Each year Idaho's codified administrative code is scheduled to expire on June 30<sup>th</sup>. As part of the legislature's annual duties during the legislative session they consider a bill to extend the codified rules, including those not rejected during the legislative session, until June 30<sup>th</sup> of the following year. During the 2019 Legislative Session, this bill did not pass, so all currently codified rules are scheduled to expire on June 30, 2019. To mitigate the potential disruption this could cause and ensuing potential liability to the state for not implementing many provisions required by statute or the state constitution, the Governor has authorized the approval of temporary and proposed rules through an omnibus process that would reinstate the rules on a temporary basis effective July 1, 2019 and start the rule promulgation process with a temporary and proposed rule for each section of the Idaho Administrative Procedures Act (IDAPA). As part of this process, agencies also have the opportunity to identify any outdated or unneeded titles of rules and allow them to expire.

Section 33-3717B, Idaho Code establishes residency requirements for tuition purposes at University of Idaho, Boise State University, Idaho State University and Lewis-Clark State College. Administrative Code, IDAPA 08.01.04 provided further clarification of the provisions set by Section 33-3717B, Idaho Code through the establishment of definitions and factors for determining domicile in Idaho, the process for students to submit a residency reclassification determination and a student appeals process. Pursuant to Section 33-105, Idaho Code, the Board is authorized to establish rules for its own operations and the governance of its executive departments, including the public postsecondary institutions. Due to this authority it was determined that it was unnecessary to keep the provisions in IDAPA 08.01.04 in Administrative Code and the rule could be allowed to expire and be converted into Board policy.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**IMPACT**

Approval of the first reading of proposed new Board Policy V.Q. Residency for Tuition Purposes will be the first step in re-establishing the existing requirements for evaluating student domicile for determining student residency for tuition purposes.

**ATTACHMENTS**

Attachment 1 - V.Q. Residency for Tuition Purposes – First Reading

**STAFF COMMENTS AND RECOMMENDATIONS**

The proposed new policy will establish the existing requirements for residency determination in Board policy. This will provide consistency for those students that are already in the process of having their residency determined for the 2019-2020 school year. If approved by the Board, any future amendments to this policy would go through the normal Board Policy amendment process and would be able to be timed in a way that would provide the minimum amount of disruption to students applying for residency at Idaho's four-year public institutions.

Staff recommends approval.

**BOARD ACTION**

I move to approve the first reading of new Board Policy V.Q. Residency for Tuition Purposes as provided in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**Idaho State Board of Education**  
**GOVERNING POLICIES AND PROCEDURES**  
**SECTION: V. FINANCIAL AFFAIRS**  
**SUBSECTION: Q. Residency for Tuition Purposes**

**August 2019**

Section 33-3717B, Idaho Code establishes residency requirements for tuition purposes at University of Idaho, Boise State University, Idaho State University and Lewis-Clark State College. When applying the provisions of Section 33-3717B, Idaho Code the institutions shall apply the following definitions and factors.

1. Definitions

- a. Accredited Secondary School. "Accredited Secondary School" means an Idaho secondary school accredited by a body recognized by the State Board of Education.
- b. Armed Forces. "Armed Forces" means the United States Army, Navy, Air Force, Marine Corps, Coast Guard, and their reserve forces. It does not include the National Guard or any other reserve force.
- c. Continuously Resided. "Continuously Resided" means physical presence in the state for twelve (12) consecutive months. Absence from the state for normal vacations, family travel, work assignments, short-term military training, and similar occasions during the twelve-month (12) qualifying period, in and of itself, will not be regarded as negating the continuous residence of the individual.
- d. Full-time Employment. "Full-time Employment" means employment consisting on average of at least thirty (30) hours of service per week, or one hundred twenty (120) hours of service per month.
- e. Full-time Student. "Full-time Student" means a student taking the number of credits set by the State Board of Education to constitute a full course load.
- f. Support. "Support" means financial support given to the student during the twelve (12) months preceding the opening date of the term for which resident status is requested, but shall not include educational scholarships or grants provided to the student to attend a postsecondary educational institution. Any student who receives less than fifty percent (50%) support may demonstrate this by showing that the student is not claimed as a dependent by a parent or guardian for income tax purposes.

2. Resident Classification by All Institutions

Any student classified as a resident student for purposes of tuition by one (1) of the institutions shall be considered a resident by all other institutions.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

3. Residency Classification Process

All requests for residency reclassification must be submitted by the student to the institution by the 10th day of the term in which reclassification is sought. Each institution shall develop its own procedures to determine the residency status of applicants, disseminate information about the classification process, and determine the documentation required of each applicant to the institution. The institution may require whatever records, documents, or affidavits it deems necessary to classify each applicant correctly. It is the responsibility of the institution to notify the student in a timely manner of the documentation required for the classification process, and it is the responsibility of the student to provide the documentation by the deadline established by the institution. Each student shall be notified in writing of the residency classification decision within fifteen (15) days of such determination being made.

4. Factors for Determining Domicile

The following, if supported by documentation, support a claim of domicile in Idaho.

- a. Tax Returns and Employment. Both of the following, if done for at least twelve (12) months before the term in which the student proposes to enroll, proves the establishment and maintenance of domicile in Idaho for purposes other than educational:
  - i. Filing of Idaho state income tax returns covering a period of at least twelve (12) months before the term in which the student proposes to enroll as a resident student; and
  - ii. Full-time employment in Idaho.
  
- b. Multiple Factors. Five (5) of the following factors, if done for at least twelve (12) months before the term in which the student proposes to enroll, proves the establishment and maintenance of domicile in Idaho for purposes other than educational:
  - i. Ownership or leasing of a residence in Idaho.
  - ii. Registration and payment of Idaho taxes or fees, other than sales tax, including registration and payment of Idaho taxes or fees on a motor vehicle, mobile home, travel trailer, or other item of personal property for which state registration and the payment of state tax or fee is required.
  - iii. Registration to vote for state elected officials in Idaho at a general election.
  - iv. Holding of an Idaho driver's license or state-issued identification card.
  - v. Evidence of the abandonment of a previous domicile.
  - vi. The establishment of accounts with financial institutions in Idaho.
  - vii. Other similar factors indicating intent to be domiciled in Idaho and the maintenance of such domicile. Factors may include, but are not limited to, enrollment of dependent children in Idaho elementary or secondary schools, establishment of acceptance of an offer of permanent employment

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

for self in Idaho, documented need to care for a relative in Idaho, utility statements, or employment documentation. Multiple factors under this category may be used.

- c. Idaho Elementary and Secondary Students. If a student meets the requirements set forth under Idaho Code, Section 33-3717B(1)(c), that student shall not be required to meet the twelve (12) month requirement for establishing domicile.

5. Independent Students and Domicile

Domicile in the state of Idaho primarily for purposes other than education includes a domicile in Idaho that was established by the student prior to pursuing higher education in Idaho unless the student's Idaho domicile was thereafter interrupted by an intervening change of domicile.

6. Appeals Procedure

Any student who contests the residency classification decision made by the institution may appeal the decision. The student shall be informed of his right to appeal by the institution at the time the student is notified of the residency classification decision. The student must request the appeal in writing and agree to the release of information provided to determine residency to the review body, and comply with deadlines established by the institution for requesting such appeal.

- a. Institution Appeal. The chief executive officer of each institution or his designee shall appoint or cause to be appointed a committee of no less than three (3) no more than five (5) members who represent faculty and administration and who will constitute a residency review committee. Within thirty (30) days following receipt of the student's written request to appeal the residency classification decision, the committee must meet and review the ruling. The student appealing is responsible for presenting such evidence as the committee may request and such other evidence, as the student may deem pertinent to his residency status. The individual responsible for the initial residency classification decision may be present, if requested by the committee, to answer questions from the committee. The student must be notified in writing of the committee's decision. The decision of the committee is final unless the student elects to appeal the decision to the State Board of Education.
- b. Board Appeal. Any student who contests the decision of the residency review committee may appeal to the State Board of Education. In such case, the student must advise the chief executive officer of the institution, in writing, of his request to submit an appeal. The chief executive officer will submit the request to the Office of the State Board of Education for review by the Board or the Board's designated representatives. The decision of the State Board of Education is the final determination and is binding on all parties concerned, subject to the student's statutory right to appeal the final determination to district court.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**

**SUBJECT**

Institution, Agency, and Special/Health Programs Strategic Plans

**REFERENCE**

December 2017	The Board approved new system-wide performance measures for the institutions focused on outcomes from the CCA Game Changers.
February 2018	The Board approved the State K-20 Education Strategic Plan.
April 2018	The Board reviewed the institution, agency and special/health programs strategic plans.
June 2018	The Board approved the annual updates to the institution, agency, and special/health program strategic plans.
December 2018	The Board reviewed and directed staff to make updates to the State K-20 Education Strategic Plan.
February 2019	The Board approved the State K-20 Education Strategic Plan.
April 2019	The Board reviewed the institution, agency and special/health programs strategic plans.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Section I.M.1. Section 67-1901 through 67-1903, Idaho Code.

**ALIGNMENT WITH STRATEGIC PLAN**

Goals 1 through 4: Institution and agency strategic plans are required to be in alignment with the Board's K-20 Strategic Plan.

**BACKGROUND/ DISCUSSION**

Pursuant to sections 67-1901 through 1903, Idaho Code, and Board Policy I.M. the institutions, agencies and special/health programs under the oversight of the Board are required to submit an updated strategic plan each year. The plans must encompass at a minimum the current year and four years going forward. The Board planning calendar schedules these plans to come forward annually at the April and June Board meetings. This timeline allows the Board to review the plans, ask questions or request changes in April, and then have them brought back to the regular June Board meeting, with changes if needed, for final approval while still meeting the state requirement that the plans be submitted to the Division of Financial Management (DFM) by July 1 of each year. Once approved by the Board the Office of the State Board of Education submits all of the plans to DFM.

Board policy I.M. sets out the minimum components that must be included in the strategic plans and defines each of those components. The Board's requirements are in alignment with DFM's guidelines and the requirements set out in sections 67-1901 through 67-1903, Idaho Code. Each strategic plan must include:

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

1. A comprehensive mission and vision statement covering the major programs, functions and activities of the institution or agency. Institution mission statements must articulate a purpose appropriate for a degree granting institution of higher education, with its primary purpose to serve the educational interest of its students and its principal programs leading to recognized degrees. In alignment with regional accreditation, the institution must articulate its purpose in a mission statement, and identify core themes that comprise essential elements of that mission.
2. General goals and objectives for the major programs, functions and activities of the organization, including a description of how they are to be achieved.
  - i. Institutions (including Career Technical Education) shall address, at a minimum, instructional issues (including accreditation and student issues), infrastructure issues (including personnel, finance, and facilities), advancement (including foundation activities), and the external environment served by the institution.
  - ii. Agencies shall address, at a minimum, constituent issues and service delivery, infrastructure issues (including personnel, finance, and facilities), and advancement (if applicable).
  - iii. Each objective must include at a minimum one performance measure with a benchmark.
3. Performance measures must be quantifiable indicators of progress.
4. Benchmarks for each performance measure must be, at a minimum, for the next fiscal year, and include an explanation of how the benchmark level was established.
5. Identification of key factors external to the organization that could significantly affect the achievement of the general goals and objectives.
6. A brief description of the evaluations or processes to be used in establishing or revising general goals and objectives in the future.
7. Institutions and agencies may include strategies at their discretion.

In addition to the required components and the definition of each component, Board policy I.M. requires each plan to be submitted in a consistent format. The Planning, Policy and Governmental Affairs committee established a template for strategic plan submittal that has been in place since April 2017.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

At the December 2017 Regular Board meeting the Board discussed and approved new “System-wide Performance Measures.” These system-wide performance measures are targeted toward measuring outcomes that are impacted by the implementation of the Complete College America Game Changers. The system-wide performance measures are required, by the Board, to be reported consistently across institutions. While each institution is required to include the system-wide performance measures in their strategic plans, each institution sets their own benchmarks. The institutional research directors met and discussed the system-wide performance measures and how they could be collected and reported consistently between institutions prior to Board consideration of the measures in 2017.

The system-wide performance measures are:

Timely Degree Completion

- I. Percent of undergraduate, degree-seeking students completing 30 or more credits per academic year at the institution reporting
- II. Percent of first-time, full-time, freshmen graduating within 150% of time
- III. Total number of certificates/degrees produced, broken out by:
  - a) Certificates of at least one academic year
  - b) Associate degrees
  - c) Baccalaureate degrees
- IV. Number of unduplicated graduates, broken out by:
  - a) Certificates of at least one academic year
  - b) Associate degrees
  - c) Baccalaureate degrees

Remediation Reform

- V. Percent of undergraduate, degree-seeking students taking a remediation course completing a subsequent credit bearing course (in the area identified as needing remediation) within a year with a “C” or higher

Math Pathways

- VI. Percent of new degree-seeking freshmen completing a gateway math course within two years

Guided Pathways

- VIII. Percent of first-time, full-time freshmen graduating within 100% of time

In addition to including the system-wide performance measures, the Board has consistently requested the benchmarks contained within the strategic plans be aspirational benchmarks, not merely a continuation of the “status quo.”

All of the strategic plans are required to be in alignment with the Board’s system-wide strategic plans; these include the Board’s overarching K-20 education strategic plan (approved at the February Board meeting), the Science, Technology,

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

Engineering and Math (STEM) Education Strategic Plan, the Higher Education Research Strategic Plan, and the Idaho Indian Education Strategic Plan.

Additionally, Executive Order 2017-02 requires updates on the adoption of the National Institute of Standards and Technology (NIST) Cybersecurity Framework and implementation of the Center for Internet Security Critical Security Controls (CIS Controls) to be included in each institution's and agencies strategic plan. Board staff reached out to the Division of Financial Management regarding the requirement for the institutions to include their cybersecurity plans. The Division of Financial Management confirmed that the institutions and agencies were still required to include their cybersecurity plans with their strategic plans. The institutions and agencies have the option of imbedding these plans into their strategic plans or providing them as an addendum to the strategic plan.

**IMPACT**

Review will provide the Board with the opportunity to give the institutions and agencies direction on any final changes prior to consideration for approval at the June Board meeting.

Attachment 23 - Idaho - Washington, Wyoming, Alaska, Montana, Idaho  
(WWAMI) Medical Education Program

**STAFF COMMENTS AND RECOMMENDATIONS**

As part of the Board's constitutional and statutory responsibility for oversight and governance of public education in Idaho, the Board approves all of the public education related strategic plans. This includes the approval of each of the required strategic plans for the special programs and health programs that are funded through the various education budgets. In total, the Board considers and approves 24 updated strategic plans annually, inclusive of the K-20 Education Strategic Plan approved in February. Approved plans must meet the strategic planning requirements in Idaho Code, Board Policy, and any Executive Orders that impact strategic planning. Review and approval of the strategic plans gives the Board the opportunity at the broader policy level to affect the long-term direction of public education in the state as well as measure the progress the institutions and agencies are making in meeting their goals and objectives as well as the Board's goals and objectives.

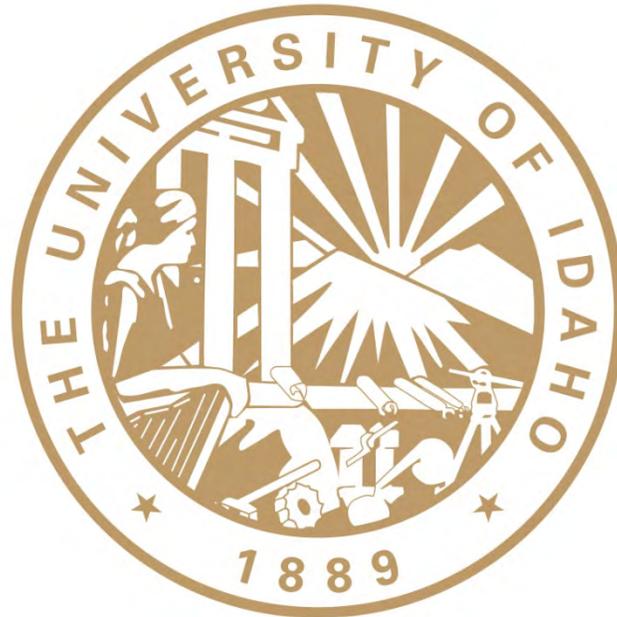

At the April 2017 Regular Board meeting the institutions were reminded that the benchmarks (performance targets) needed to be stretch benchmarks that would challenge the institutions and lead to overall improvements

Between the April review and June 2019 Board meeting minor technical and grammatical corrections were made to four of the strategic plans. No substantive changes were made.

**BOARD ACTION**

I move to approve the FY2020 – FY2025 strategic plans as submitted in Attachments 1 through 23.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

# University of Idaho Strategic Plan and Process

20198 - 2023

Base 10-year plan established for 2016 – 2025; approved by the SBOE June 2016  
Reviewed and submitted March 20197 for 20198 - 2023

**MISSION STATEMENT**

***The University of Idaho will shape the future through innovative thinking, community engagement and transformative education.***

*The University of Idaho is the state’s land-grant research university. From this distinctive origin and identity, we will enhance the scientific, economic, social, legal and cultural assets of our state and develop solutions for complex problems facing our society. We will continue to deliver focused excellence in teaching, research, outreach and engagement in a collaborative environment at our residential main campus in Moscow, regional centers, extension offices and research facilities across Idaho. Consistent with the land-grant ideal, we will ensure that our outreach activities serve the state and strengthen our teaching, scholarly and creative capacities statewide.*

*Our educational offerings will transform the lives of our students through engaged learning and self-reflection. Our teaching and learning will include undergraduate, graduate, professional and continuing education offered through face-to-face instruction, technology-enabled delivery and hands-on experience. Our educational programs will strive for excellence and will be enriched by the knowledge, collaboration, diversity and creativity of our faculty, students and staff.*

**VISION STATEMENT**

*The University of Idaho will expand the institution’s intellectual and economic impact and make higher education relevant and accessible to qualified students of all backgrounds.*

**GOAL 1: Innovate**

**Scholarly and creative work with impact**

***Scholarly and creative products of the highest quality and scope, resulting in significant positive impact for the region and the world.<sup>1</sup>***

**Objective A:** *Build a culture of collaboration that increases scholarly and creative productivity through interdisciplinary, regional, national and global partnerships.*

**Performance Measures:**

**I. Research Expenditures (\$ ~~thousand~~ ~~million~~)**

1.19 1.36	1.15 1.20	1.10 1.15	0.97 1.216	1.32 <sup>4</sup>

**Key External Factors**

Factors beyond our control that affect achievement of goals

- The general economy, tax funding and allocations to higher education.
- The overall number of students graduating from high school in Idaho and the region.
- Federal guidelines for eligibility for financial aid.
- Increased administrative burden increasing the cost of delivery of education, outreach and research activities.

**Evaluation Process**

*A brief description of the evaluations or processes to be used in establishing or revising general goals and objectives in the future.*

The metrics will be reviewed annually to evaluate their continued appropriateness in assessing the various goals and processes. As the feedback from the annual review process is reviewed the effectiveness of the processes will be refined. These feedback cycles are in place for Strategic Plan Metrics, Program Prioritization Metrics, External Program Review Process as well as a continued examination of various elements of community need as well.

---

<sup>1</sup> Quality and scope will be measured via comparison to Carnegie R1 institutions with the intent of the University of Idaho attaining R1 status by 2025. See methodology as described on the Carnegie Foundation website (<http://carnegieclassifications.iu.edu/>).

<sup>2</sup> This was established as a means to achieve our end goal for enrollment and R1 status by 2025.

<sup>3</sup> Measured via survey of newly enrolled students, For students who answered “Yes or No”, “Somewhat No” or “Definitely no” to “In your high school junior year, were you already planning to attend college (UI or other)?” the percent that responded “Yes or No”, “Somewhat Yes” or “Definitely Yes” to “Have the University of Idaho's information and recruitment efforts over the last year impacted your decision to go to college?”

<sup>4</sup> Internally set standard to assure program quality.

<sup>5</sup> Given data availability and importance for national rankings, percent of alumni giving is used for this measure.

<sup>6</sup> Based on a review of our SBOE peer institutions

<sup>7</sup> The IPEDS method for counting degrees and those used to aggregate the numbers reported on the Performance Measurement Report (PMR) for the State Board of Education (SBOE) use different methods of aggregation. As such the sum of the degrees by level will not match the total.

<sup>8</sup> Based on a review of the Idaho demographic and a desire to have the diversity match or exceed that of the general state population.

<sup>9</sup> Based on our desire is to reach the “Good” range (65%-74%), as established by the survey publisher.

<sup>10</sup> Based on HR’s examination of turnover rates of institutions nationally.

<sup>11</sup> Established by SBOE.

# Metric and Data Definitions

## Guiding principle for metric selection and use.

The core guiding principle used in selecting, defining and tracking the metrics used in the strategic plan is to focus on measures key to university success while remaining as consistent with the metrics used when reporting to state, federal, institutional accreditation other key external entities. The desire is to report data efficiently and consistently across the various groups by careful consideration of the alignment of metrics for all these groups where possible. The order of priority for selecting the metrics used in the strategic plan is a) to use data based in the state reporting systems where possible, and b) then move to data based in federal and/or key national reporting bodies. Only then is the construction of unique institution metrics undertaken.

## Metrics for Goal 1 (Innovate):

- 1.) **Terminal Degrees** in given field is the number of Ph.D., P.S.M., M.F.A., M.L.A., M.Arch, M.N.R., J.D., D.A.T., and Ed.D degrees awarded annually pulled for the IR Degrees Awarded Mult table used for reporting to state and federal constituents. This data is updated regularly and will be reported annually.
- 2.) **Postdocs, and Non-faculty Research Staff with Doctorates** as reported annually in the Graduate Students and Postdoctorates in Science and Engineering Survey (<http://www.nsf.gov/statistics/srvygradpostdoc/#qs>).
- 3.) **Research Expenditures** as reported annually in the Higher Education Research and Development Survey (<http://www.nsf.gov/statistics/srvyherd/>).
- 4.) **Invention Disclosures** as reported annually in the Association of University Technology Mangers Licensing Activity Survey (<http://www.autm.net/resources-surveys/research-reports-databases/licensing-surveys/>).
- 5.) **Number of undergraduate and graduate students paid from sponsored projects:** This metric is a newly established SBOE metric. It is calculated by the Office of Research and reported annually.
- 6.) **Percent of students engaged in undergraduate research:** This is a metric from the PMR for the SBOE. These PMR data are pulled from the Graduating Senior Survey annually.

## Metrics for Goal 2 (Engage):

- 1.) **Impact (UI Enrollment that increases the Go-On rate):** The metric will rely on one or two items added to the HERI CIRP First Year Student Survey. We will seek to estimate the number of new

students that were not anticipating attending college a year earlier. As the items are refined, baseline and reporting of the results will be updated.

- 2.) **Extension Contacts:** Outreach to offices in relevant Colleges (CALs, CNR, Engineering, etc.) will provide data from the yearly report to the Federal Government on contacts. This represents direct teaching contacts made throughout the year by recording attendance at all extension classes, workshops, producer schools, seminars and short courses.
- 3.) **Collaboration with Communities:** HERI Faculty Survey completed by undergraduate faculty where respondents indicated that over the past two years they had, "Collaborated with the local community in research/teaching." This survey is administered every three to five years.
- 4.) **NSSE Mean Service Learning, Field Placement or Study Abroad:** This is the average percentage of those who engaged in service learning (item 12 2015 NSSE), field experience (item 11a NSSE) and study abroad (item 11d) from the NSSE.
- 5.) **Alumni Participation Rate:** This is provided annually by University Advancement and represents the percentage of alumni that are giving to UI. It is calculated based on the data reported for the Voluntary Support of Education (VSE) report. (<http://cae.org/fundraising-in-education/>). It is updated annually.
- 6.) **Economic Impact:** This is taken from the EMSI UI report as the summary of economic impact. This report is updated periodically and the data will be updated as it becomes available.
- 7.) **Dual Credit:** These data are pulled from the PMR which is developed for the SBOE annually.

**Metrics for Goal 3 (Transform):**

- 1.) **Enrollment:** This metric consists of headcounts from the data set used in reporting headcounts to the SBOE, IPEDS and the Common Data Set as of census date. The data is updated annually.
- 2.) **Equity Metric:** This metric is derived from the census date data used for reporting retention and graduation rate which is updated annually. The analysis is limited to first-time full-time students. The mean term 1 GPA and semester hours completed for FTFT students is calculated for the all students combined and separately for each IPEDS race/ethnicity category. The mean for the 8 groups are compared to the overall mean. The eight groups identified here are American Indian or Alaska Native, Asian, Black or African American, Hispanic/Latino, International, Native Hawaiian or Other Pacific Islander, Two or More Races and White. If the mean for a group is below the overall mean by 1/3 or more of a standard deviation it is considered below expectations/equity. The percentage of these 8 groups meeting the equity cut off is reported. So for example if 6 of the 8 groups meet equity it is reported as 75%. As there are groups with low numbers the best method for selecting the cut off was based on the principle of effect size (i.e., <https://researchrundowns.wordpress.com/quantitative-methods/effect-size/>).
- 3.) **Retention:** This is reported as first-time full-time student retention at year 1 using the data reported to the SBOE, IPEDs and the Common Data set. This is updated annually. The final goal was selected based on the mean of the 2015-16 year for the aspiration peer group for first-year

retention as reported in the Common Data Set. This group includes Virginia Tech, Michigan State University and Iowa State University.

- 4.) **Graduates (all degrees)**: This is reported from the annual data used to report for IPEDS and the Common Data set for the most recent year and includes certificates.
- 5.) **Degrees by level**: Items (a) to (c) under Graduates are pulled from the PMR established by the SBOE. These numbers differ from IPEDs as they are aggregated differently and so the numbers do not sum to the IPEDs total.
- 6.) **NSSE High Impact Practices**: This metric is for overall participation of seniors in two or more High Impact Practices (HIP). The national norms for 2015 from NSSE is saved in the NSSE folders on the IRA shared drive. The norms for 2015 HIP seniors places UI's percentage at 67%, well above R1/DRU (64%) and RH (60%) as benchmarks. The highest group (Bach. Colleges- Arts & Sciences) was 85%. The goal is to reach at least this level by 2025.
- 7.) **Remediation**: This metric comes from the PMR of the SBOE. It is updated annually.

**Metrics for Goal 4 (Cultivate):**

- 1.) **Chronicle Survey Score (Survey Average)**: This metric is being baselined in spring 2016 and will utilize the "Survey Average" score. The desire is to reach the "Good" range (65%-74%), which is the 4<sup>th</sup> group of 5, or higher. The survey can be found here <http://chroniclegreatcolleges.com/reports-services/>.
- 2.) **Multicultural Student Enrollment**: The headcounts used for this metric will be derived from the data set used to report to the SBOE at fall census date. This is based on the categories used by IPEDS and the Common Data Set. The census date data is updated annually.
- 3.) **International Student Enrollment**: The headcounts used for this metric will be derived from the data set used to report to the SBOE at fall census date. This is based on the categories used by IPEDS and the Common Data Set. The census date data is updated annually.
- 4.) **Full-time Staff Turnover Rate** is obtained from UI Human Resources on an annual basis.
- 5.) **Percentage of Multicultural Faculty and Staff** is the percentage of full-time faculty and staff that are not Caucasian/Unknown from the IPEDS report. Full-time faculty is as reported in IPEDS HR Part A1 for full-time tenured and tenure track. Full-time staff is as reported in IPEDS B1 using occupational category totals for full-time non-instructional staff.
- 6.) **Cost per credit hour**: This metric is from the PMR for the SBOE and is update annually.
- 7.) **Efficiency**: This metric is from the PMR for the SBOE and is update annually.

Information Security Overview and  
Critical Security Controls Assessment Report

## Executive Summary

---

In response to the Idaho Governor's Executive Order 2017-02 issued January 16, 2017, UI ITS personnel initiated an assessment of the Center for Internet Security (CIS) Critical Security Controls (CSC) 1-5. This assessment was scored using the AuditScripts initial assessment tool recommended by the State Office of the CIO and acting Chief Information Security Officer, Lance Wyatt. We continue to regularly re-assess our posture against the CSC.

Version 7.0 of the Critical Security Controls was released in early 2018. ITS assessed our status in April 2018 based upon progress implementing controls, and changes in CSC for version 7. That assessment shows an increase from 0.39 to 0.48 (out of 1.0) for overall implementation of the first 5 controls. Between April 2018 and March 2019, our score increased from 0.48 to 0.50.

### CSC Version 7 – March 2019

Overall completion for each control combines scoring for policy, implementation, automation and reporting. A 100% score could be achieved by approving the written policy, implementing and automating a control for all systems, and reporting it to the executive level. For some specific controls, 100% implementation will not be desirable or achievable on a university network. Prioritization, scope, and target percentage of specific controls will be assessed and prioritized.

The 2018 IT Security Risk assessment was performed and mitigation tasks were planned. These risks were prioritized according to the IT Security Plan and utilizing the NIST Cybersecurity Framework (CSF). These mitigations include, but were not limited to:

1. Funding was requested and approved through the University Budget and Finance Committee (UBFC) to enhance email filtering technologies. Planning is currently underway and will soon be implemented. **CSF: PROTECT**
2. Funding was requested and approved through the UBFC to find and mitigate sensitive Personally Identifiable Information on university laptops and desktops (data leakage protection, or DLP). This project will kick off later in 2019. **CSF: DETECT**
3. Funding requested through the UBFC to enhance multiple aspects of CSC 1-5, including vulnerability scanning, application whitelisting, security orchestration automation and response, and minimizing

administrator privileges. This was not funded by UBFC, and as a result of the 2018 risk assessment was requested again in 2019. CSF: PROTECT CSF: DETECT

4. Funding requested through the UBFC to implement Network Intrusion Prevention technology, including capability to detect and block malicious activity as a core and fundamental capability. This was not funded and was again requested from UBFC. CSF: PROTECT CSF: DETECT
5. Funding was requested through the UBFC to implement a system to improve our IT Risk Assessment process and ability to cross-reference our various compliance needs across the institution. This has not yet been approved or funded. CSF: IDENTIFY

Risks identified against the updated CSC version 7 baseline will again be prioritized in the 2019 IT Security Risk Assessment and mitigations, where feasible or funded, will be addressed within the FY20 IT Security Plan. This will continue to move us towards our target profile under the NIST Cybersecurity Framework.

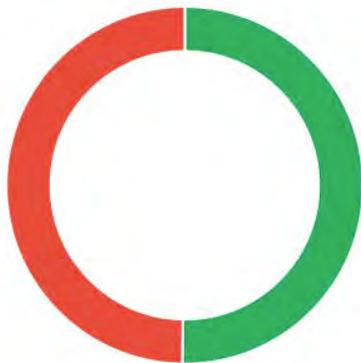

CONFIDENTIAL

## Critical Security Controls

Using the AuditScripts tool, the following pages show the overall risk for each control. This assumes that any control not fully implemented has been implicitly, if not explicitly, accepted as a risk. Detailed answers on each control are not provided, but are on file in the ITS Information Security Office.

### CSC #1: Inventory and Control of Hardware Assets

Total Implementation of CSC #1

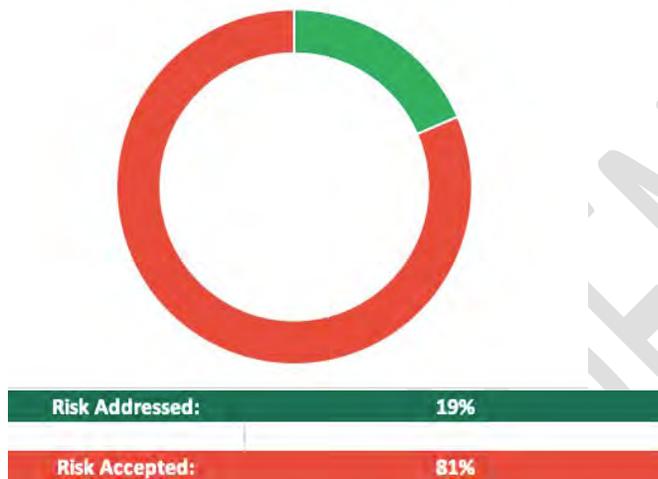

Risk Addressed:	50%
Risk Accepted:	50%

ID	Critical Security Control Detail
1.1	Utilize an active discovery tool to identify devices connected to the organization's network and update the hardware asset inventory.
1.2	Utilize a passive discovery tool to identify devices connected to the organization's network and automatically update the organization's hardware asset inventory.
1.3	Use Dynamic Host Configuration Protocol (DHCP) logging on all DHCP servers or IP address management tools to update the organization's hardware asset inventory.
1.4	Maintain an accurate and up-to-date inventory of all technology assets with the potential to store or process information. This inventory shall include all hardware assets, whether connected to the organization's network or not.
1.5	Ensure that the hardware asset inventory records the network address, hardware address, machine name, data asset owner, and department for each asset and whether the hardware asset has been approved to connect to the network.
1.6	Ensure that unauthorized assets are either removed from the network, quarantined or the inventory is updated in a timely manner.
1.7	Utilize port level access control, following 802.1x standards, to control which devices can authenticate to the network. The authentication system shall be tied into the hardware asset inventory data to ensure only authorized devices can connect to the network.

- 1.8 Use client certificates to authenticate hardware assets connecting to the organization's trusted network.

CSC #2: Inventory and Control of Software Assets

Total Implementation of CSC #2

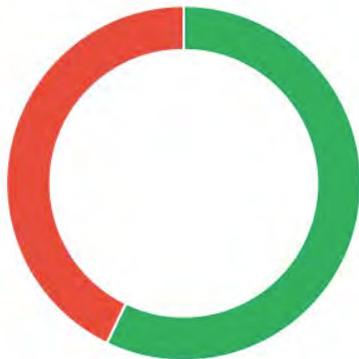

ID	Critical Security Control Detail
2.1	Maintain an up-to-date list of all authorized software that is required in the enterprise for any business purpose on any business system.
2.2	Ensure that only software applications or operating systems currently supported by the software's vendor are added to the organization's authorized software inventory. Unsupported software should be tagged as unsupported in the inventory system.
2.3	Utilize software inventory tools throughout the organization to automate the documentation of all software on business systems.
2.4	The software inventory system should track the name, version, publisher, and install date for all software, including operating systems authorized by the organization.
2.5	The software inventory system should be tied into the hardware asset inventory so all devices and associated software are tracked from a single location.
2.6	Ensure that unauthorized software is either removed or the inventory is updated in a timely manner.

- 2.7 Utilize application whitelisting technology on all assets to ensure that only authorized software executes and all unauthorized software is blocked from executing on assets.
- 2.8 The organization's application whitelisting software must ensure that only authorized software libraries (such as \*.dll, \*.ocx, \*.so, etc) are allowed to load into a system process.
- 2.9 The organization's application whitelisting software must ensure that only authorized, digitally signed scripts (such as \*.ps1, \*.py, macros, etc) are allowed to run on a system.
- 2.10 Physically or logically segregated systems should be used to isolate and run software that is required for business operations but incur higher risk for the organization.

**CSC #3: Continuous Vulnerability Management**

Total Implementation of CSC #3

**Risk Addressed: 57%**

**Risk Accepted: 43%**

ID	Critical Security Control Detail
----	----------------------------------

- 3.1 Utilize an up-to-date SCAP-compliant vulnerability scanning tool to automatically scan all systems on the network on a weekly or more frequent basis to identify all potential vulnerabilities on the organization's systems.
- 3.2 Perform authenticated vulnerability scanning with agents running locally on each system or with remote scanners that are configured with elevated rights on the system being tested.

- 3.3 Use a dedicated account for authenticated vulnerability scans, which should not be used for any other administrative activities and should be tied to specific machines at specific IP addresses.
- 3.4 Deploy automated software update tools in order to ensure that the operating systems are running the most recent security updates provided by the software vendor.
- 3.5 Deploy automated software update tools in order to ensure that third-party software on all systems is running the most recent security updates provided by the software vendor.
- 3.6 Regularly compare the results from back-to-back vulnerability scans to verify that vulnerabilities have been remediated in a timely manner.
- 3.7 Utilize a risk-rating process to prioritize the remediation of discovered vulnerabilities.

CONFIDENTIAL

CSC #4: Controlled Use of Administrative Privileges

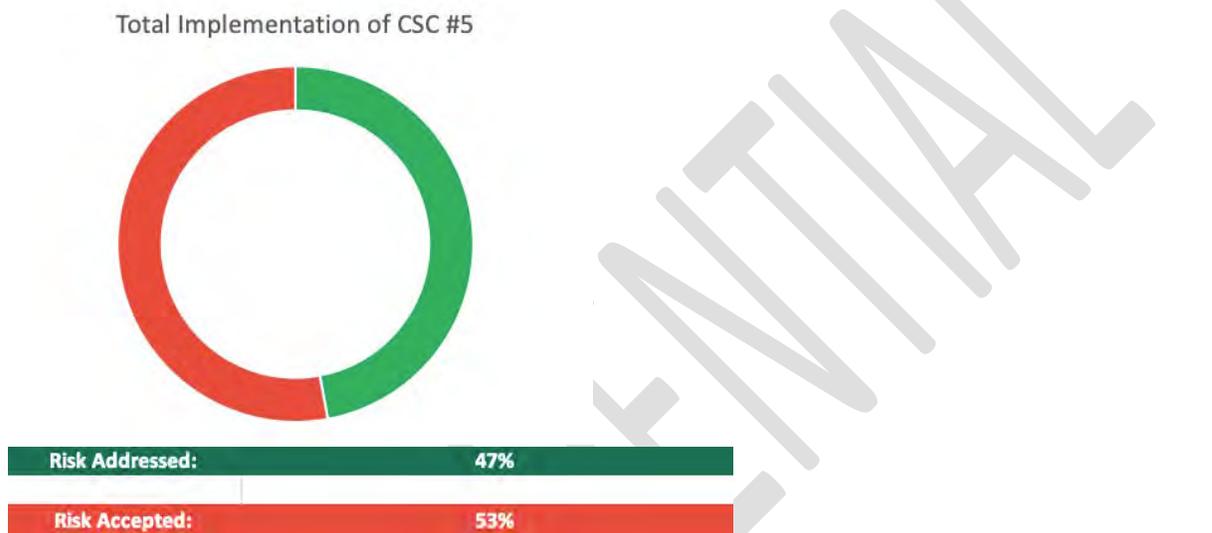

Total Implementation of CSC #4

ID	Critical Security Control Detail
4.1	Use automated tools to inventory all administrative accounts, including domain and local accounts, to ensure that only authorized individuals have elevated privileges.
4.2	Before deploying any new asset, change all default passwords to have values consistent with administrative level accounts.
4.3	Ensure that all users with administrative account access use a dedicated or secondary account for elevated activities. This account should only be used for administrative activities and not internet browsing, email, or similar activities.
4.4	Where multi-factor authentication is not supported (such as local administrator, root, or service accounts), accounts will use passwords that are unique to that system.
4.5	Use multi-factor authentication and encrypted channels for all administrative account access.
4.6	Ensure administrators use a dedicated machine for all administrative tasks or tasks requiring administrative access. This machine will be segmented from the organization's primary network and not be allowed Internet access. This machine will not be used for reading e-mail, composing documents, or browsing the Internet.
4.7	Limit access to scripting tools (such as Microsoft PowerShell and Python) to only administrative or development users with the need to access those capabilities.
4.8	Configure systems to issue a log entry and alert when an account is added to or removed from any group assigned administrative privileges.

- 4.9 Configure systems to issue a log entry and alert on unsuccessful logins to an administrative account.

### CSC #5: Secure Configuration for Hardware and Software

ID	Critical Security Control Detail
5.1	Maintain documented, standard security configuration standards for all authorized operating systems and software.
5.2	Maintain secure images or templates for all systems in the enterprise based on the organization's approved configuration standards. Any new system deployment or existing system that becomes compromised should be imaged using one of those images or templates.
5.3	Store the master images and templates on securely configured servers, validated with integrity monitoring tools, to ensure that only authorized changes to the images are possible.
5.4	Deploy system configuration management tools that will automatically enforce and redeploy configuration settings to systems at regularly scheduled intervals.
5.5	Utilize a Security Content Automation Protocol (SCAP) compliant configuration monitoring system to verify all security configuration elements, catalog approved exceptions, and alert when unauthorized changes occur.

CONFIDENTIAL

# **BOISE STATE UNIVERSITY**

**UPDATED FOR FY2019 THROUGH FY2023**

**MISSION STATEMENT**

**CORE THEMES**

**VISION**

**STRATEGIC PLAN**

**MAPPING OF STRATEGIC PLAN TO THE SBOE STRATEGIC PLAN**

**MAPPING OF STRATEGIC PLAN TO THE**

**COMPLETE COLLEGE IDAHO PLAN**

**KEY EXTERNAL FACTORS**

# *Focus on Effectiveness*

**Boise State University  
Strategic Plan**

**Mission**

*Boise State University is a public, metropolitan research university providing leadership in academics, research, and civic engagement. The university offers an array of undergraduate degrees and experiences that foster student success, lifelong learning, community engagement, innovation, and creativity. Research, creative activity, and graduate programs, including select doctoral degrees, advance new knowledge and benefit the community, the state and the nation. The university is an integral part of its metropolitan environment and is engaged in its economic vitality, policy issues, professional and continuing education programming, and cultural enrichment.*

**Vision**

*Boise State University aspires to be a research university known for the finest undergraduate education in the region, and outstanding research and graduate programs. With its exceptional faculty, staff and student body, and its location in the heart of a thriving metropolitan area, the university will be viewed as an engine that drives the Idaho economy, providing significant return on public investment.*

**Core Themes**

Each core theme describes a key aspect of our mission. A complete description can be accessed at <https://academics.boisestate.edu/planning/core-themes-2/>.

***Undergraduate Education.** Our university provides access to high quality undergraduate education that cultivates the personal and professional growth of our students and meets the educational needs of our community, state, and nation. We engage our students and focus on their success.*

***Graduate Education.** Our university provides access to graduate education that addresses the needs of our region, is meaningful in a global context, is respected for its high quality, and is delivered within a supportive graduate culture.*

***Research and Creative Activity.** Through our endeavors in basic and applied research and in creative activity, our researchers, artists, and students create knowledge and understanding of our world and of ourselves, and transfer that knowledge to provide societal, economic, and cultural benefits. Students are integral to our faculty research and creative activity.*

***Community Commitment.** The university is a vital part of the community, and our commitment to the community extends beyond our educational programs, research, and creative activity. We collaborate in the development of partnerships that address community and university issues. The community and university share knowledge and expertise with each other. We look to the community to inform our goals, actions, and measures of success. We work with the community to create a rich mix of culture, learning*

Update to OSBE May 2019

*experiences, and entertainment that educates and enriches the lives of our citizens. Our campus culture and climate promote civility, inclusivity and collegiality.*

**STRATEGIC PLAN GOALS AND OBJECTIVES**

**NOTE THAT IN THIS DOCUMENT, THE “STRATEGIES” OF BOISE STATE UNIVERSITY’S ORIGINAL PLAN HAVE BEEN CONSOLIDATED INTO “OBJECTIVES” TO MATCH THE TEMPLATE OF THE IDAHO STATE BOARD OF EDUCATION**

**Goal 1: Create a signature, high quality educational experience for all students.**

**Objective A:** Develop the Foundational Studies Program into a memorable centerpiece of the undergraduate experience.

**Performance Measures:**

NSSE <sup>1</sup> Indicators: For Freshmen Only (% of peer group rating)	FY 2016	FY 2017	FY 2018	FY 2019	Target (“Benchmark”)	
					FY 2020	FY 2024
Academic Challenge						
>Higher-order learning	NSSE survey every three years	NSSE survey every three years	99% <sup>2</sup> ↔	NSSE survey every three years	100%	105% <sup>3</sup>
>Reflective & integrative learning			103%↔		105%	105%
Learning with Peers						
>Collaborative learning			107% ↑		107%	107%
>Discussions with diverse others			101%↔		103%	105%

**Objective B:** Provide a relevant, impactful educational experience that includes opportunities within and across disciplines for experiential learning.

**Performance Measures:**

Students participating in internships	FY 2016	FY 2017	FY 2018	FY 2019	Target (“Benchmark”)	
					FY 2020	FY 2024
>Number of students with internship credit	996	921	927	Available July 2019	1,000	1,200

NSSE % of senior participating in internships (and similar experiences), and in research	FY 2016	FY 2017	FY 2018	FY 2019	Target (“Benchmark”)	
					FY 2020	FY 2024
>% of students participating in internships and other applied experiences	NSSE survey every three years	NSSE survey every three years	52.2% ↑	NSSE survey every three years	54%	56%
>% of students participating in research w/faculty members			26.6% ↑		28%	30%

Vertically Integrated Projects <sup>4</sup> (VIPs)	FY 2016	FY 2017	FY 2018	FY 2019	Target (“Benchmark”)	
					FY 2020	FY 2024
>Number of students enrolled in VIP credit	61	75	51	181	300	500

<sup>1</sup> “NSSE” refers to the National Survey of Student Engagement (<http://nsse.indiana.edu/>), which is used by Boise State University every three years to gather information from freshmen and seniors on a variety of aspects of their educational experiences. Because NSSE is taken by a substantial number of institutions, Boise State is able to benchmark itself against peer institutions.

<sup>2</sup> ↔ Indicates that Boise State is statistically the same as peers; ↑ & ↓ indicate statistically higher and lower than peers, respectively.

<sup>3</sup> A percentage of 105% indicates that Boise State would score 5% better than peers.

<sup>4</sup> Boise State University recently implemented a Vertically Integrated Projects (VIPs) initiative. VIPs unite undergraduate education with faculty research in a team-based context. Students earn credit for participation. Boise State is a member of the VIP national consortium that includes more than 20 universities and is hosted by Georgia Tech. Not that not all student participants sign up for credit.

**POLICY, PLANNING AND GOVERNMENTAL AFFAIRS

**Goal 2: Facilitate the timely attainment of educational goals of our diverse student population.**

**Objective A:** Design and implement innovative policies and procedures that remove barriers to graduation and facilitate student success.

**Performance Measures:**

Unduplicated number of graduates (distinct by award level) <sup>5</sup>	FY 2016	FY 2017	FY 2018	FY 2019	Target ("Benchmark")	
					FY 2020	FY 2024
>Undergraduate Certificate	127	200	248	Available Sept. 2019	300	400
>Associate	141	114	118		150	150
>Baccalaureate	2,998	3,141	3,196		3,500	4,050
>(SBOE target for baccalaureate graduates <sup>6</sup> )	(2,843)	(2,986)	(3,130)		(3,416)	
>Graduate Certificate	173	212	241		270	320
>Master's	670	776	917		950	975
>Education Specialist	10	15	16		23	33
>Doctoral	18	36	32		40	50
Total Distinct Graduates	3,916	4,173	4,393		4,800	5,600

First year retention rate <sup>7</sup>	Fall 2015 cohort	Fall 2016 cohort	Fall 2017 cohort	Fall 2018 Cohort	Target ("Benchmark")		
					F2019 cohort	F2021 cohort	F2023 cohort
>Percent of first-time, full-time freshmen retained	78.2%	79.8%	79.5%	Available Oct. 2019	82.0%	83.5%	85.0%
-Resident, Pell-Eligible only							
-Resident, Not Pell-Eligible only	72.7%	72.6%	70.8%		74.0%	76.5%	79.0%
-Non-Resident, Pell-Eligible only	76.1%	76.6%	75.4%		78.0%	80.0%	82.0%
-Non-Resident, Not Pell-Eligible only	76.8%	75.6%	77.3%		80.0%	82.0%	84.0%
>Percent full-time transfers retained or graduated	84.0% <sup>7</sup>	87.8%	88.2%		89.0%	90.0%	91.0%
	5.4%	73.8%	76.6%		79.0%	81.0%	83.0%

4-year graduation rate <sup>8</sup>	Fall 2012 Cohort	Fall 2013 Cohort	Fall 2014 Cohort	Fall 2015 Cohort	Target ("Benchmark")	
					Fall 2016 cohort	Fall 2017 cohort
> % of first-time, full-time freshmen who graduated	21.1%	25.5%	28.7%	Available Sept. 2019	33%	41%
-Resident, Pell-Eligible only						
-Resident, Not Pell-Eligible only						
-Non-Resident, Pell-Eligible only	10.9%	12.2%	15.3%		20%	33%
-Non-Resident, Not Pell-Eligible only	18.7%	22.9%	24.5%		29%	38%

<sup>5</sup> SBOE required metric: timely degree completion. Distinct graduates by award level, totaled for summer, fall, and spring terms. Note that these totals cannot be summed to get the overall distinct graduate count due to some students earning more than one award (e.g., graduate certificate and a master's) in the same year.

<sup>6</sup> Number in parentheses is the SBOE target for the # of baccalaureate graduates as per PPGA agenda materials, August 12, 2012, Tab 10 page 3. SBOE specified targets only through 2020.

<sup>7</sup> Retention measured as the percent of a cohort returning to enroll the subsequent year. Transfer retention reflect the percent of the full-time baccalaureate-seeking transfer cohort that returned to enroll the following year or graduated.

<sup>8</sup> SBOE required metric: guided pathways. % of first-time, full-time freshman graduating within 100% of time.

Student Achievement Measure (After six years: % graduated or still enrolled at Boise State or elsewhere) <sup>10</sup>	Fall 2010 cohort	Fall 2011 Cohort	Fall 2012 cohort	Fall 2013 cohort	Target ("Benchmark")	
					Fall 2014 cohort	Fall 2017 Cohort
>First-time, full-time Freshman cohort	64%	71%	72%	Available	73%	76%
>Full-time Transfer student cohort	74%	80%	78%	Nov. 2019	78%	80%

Gateway math success of new degree-seeking freshmen <sup>11</sup>	Fall 2014 Cohort	Fall 2015 Cohort	Fall 2016 Cohort	Fall 2017 Cohort	Target ("Benchmark")	
					Fall 2018 Cohort	Fall 2022 Cohort
>% completed within two years	84.40%	87.79%	88.65%	Available Sept. 2019	89%	90%

Progress indicated by credits per year <sup>12</sup>	FY 2016	FY 2017	FY 2018	FY 2019	Target ("Benchmark")	
					FY 2020	FY 2024
>% of undergraduate degree seeking students with 30 or more credits per year	23.9%	23.9%	23.9%	Available July 2019	25%	28%

<sup>9</sup> SBOE required metric: timely degree completion. % of first-time, full-time freshman graduating within 150% of time.

<sup>10</sup> The "Student Achievement Measure" (SAM) is a nationally-recognized metric that provides more comprehensive view of progress and attainment than can be provided by measures such as the 6-year graduation rate or the 1-year retention rate. The rate equals the total percent of students who fall into one of the following groups: graduate from or are still enrolled at Boise State, or graduated or still enrolled somewhere else.

<sup>11</sup> SBOE required metric: math pathways. Based on cohorts of incoming first-time bachelor degree seeking cohorts (full- plus part-time) who complete a gateway course (Math 123, 143, 157, or 243) or higher within two years (e.g., students who entered in fall 2015 and completed a gateway math or higher by the end of summer 2017).

<sup>12</sup> SBOE required metric: timely degree completion. Percent of undergraduate, degree-seeking students completing 30 or more credits across one year (defined as summer, fall, and spring term). Based on end-of-term data version. Degree-seeking status is determined as of fall semester unless the student was not enrolled in fall, in which case summer is used. Spring term is used to determine degree-seeking status of students enrolled only for the spring term. Excludes students who earned degrees during the reported year and who did not reach the 30-credit threshold. Includes students meeting the criteria regardless of full- or part-time status and the number of terms enrolled in that year. Students enrolled part-time or for a partial year, especially for only one term, would not be expected to complete 30 credits; thus, the denominator may be inflated resulting in a lower percentage reported.

>Quality of interactions			90% ↓		95%	100%
>Supportive environment						

<sup>13</sup> SBOE required metric: reform remediation. Percent of undergraduate, degree-seeking students who took a remedial course and completed a subsequent credit-bearing, gateway, course (Math 123, 143, 157, or 243) (C- or above) within one year of completing the remedial course (e.g., students who took remedial course in fall 2016 and completed a subsequent course by the end of fall 2017). Math remediation defined as Math 025 and English remediation defined as English 101P.

<sup>14</sup> SBOE required metric: structured programs. Percentage of academic degree programs with structured schedules.

<sup>15</sup> SBOE required metric: degree completion. Reflects the number of awards made (first major, second major, plus certificates as reported to IPEDS). This is greater than the number of graduating students because some graduating students received multiple awards.

Expenditures as reported to the National Science Foundation	\$32.0M	\$34.9 M	\$41.4M	Available Apr 2020	\$44M	\$50M

Publications of Boise State authors and citations of those publications over 5-year period	CY 2011-15	CY 2012-16	CY 2013-17	CY 2014-18	Target ("Benchmark")	
					For CY 2016-20	For CY 2020-24
>Number of peer-reviewed publications by Boise State faculty, staff, students <sup>17</sup>	1,533	1,709	1,957	2,237	2,700	3,500
>Citations of peer-reviewed publications authored Boise State faculty, staff students <sup>18</sup>	11,190	12,684	8,147	10,167	14,000	22,000

<sup>16</sup> Dual enrollment credits and students are measures of activity that occur over the entire year at multiple locations using various delivery methods. When providing measures of this activity, counts over the full year (instead of by term) provide the most complete picture of the number of unduplicated students that are enrolled and the numbers of credits earned. Reflects data from the annual Dual Credit report to the Board.

<sup>17</sup> # of publications over five-year span with Boise State listed as an address for one or more authors; from Web of Science.

<sup>18</sup> Total citations, during the listed five-year span, of peer-reviewed publications published in that same five-year span; limited to those publications with Boise State listed as an address for at least one author; from Web of Science.

Percent of research grant awards and awarded grant \$\$ that are Interdisciplinary vs. single discipline <sup>19</sup>	FY 2016	FY 2017	FY 2018	FY 2019	Target ("Benchmark")	
					FY 2020	FY 2024
>Percent of research grant awards that have PIs and Co-PIs in two or more different academic departments (i.e., are interdisciplinary)	7.1%	9.6%	18.9%	Available Sept 2019	15%	20%
>\$\$ per grant award for interdisciplinary grants	\$276,604	\$237,338	\$244,317		\$300,000	\$350,000
>\$\$ per grant award for single-discipline grants	\$106,394	\$137,209	\$164,347		\$200,000	\$225,000

**Objective B:** Identify and invest in select areas of excellence with the greatest potential for economic, societal, and cultural benefit, including the creation of select doctoral programs with a priority in professional and STEM disciplines.

**Performance Measures:**

Carnegie Foundation Ranking <sup>20</sup>	FY 2016	FY 2017	FY 2018	FY 2019	Target ("Benchmark")	
					FY 2020	FY 2024
>Basic Classification	R3 (Research: Moderate)	R3 (Research: Moderate)	R3 (Research: Moderate)	R2 (Research: High)	R2 (Research: High)	R2 (Research: High)

Number of doctoral graduates	FY 2016	FY 2017	FY 2018	FY 2019	Target ("Benchmark")	
					FY 2020	FY 2024
Graduates with PhD, DNP, EdD	18	36	32	Available Sept. 2019	40	50

**Goal 4: Align university programs and activities with community needs.**

**Objective A:** Include community impact in the creation and assessment of university programs and activities.

**Performance Measures:**

Number of graduates in high demand disciplines <sup>21</sup> (bachelor's, master's, doctoral)	FY 2016	FY 2017	FY 2018	FY 2019	Target ("Benchmark")	
					FY 2020	FY 2024
Number of graduates	1,510	1,575	1,605	Available Sept. 2019	1,700	1,900

Rate of employment in Idaho one year after graduation <sup>22</sup>	Graduation Year Cohort				Target ("Benchmark")	
	FY 2013 Cohort	FY 2014 Cohort	FY 2015 Cohort	FY 2016 Cohort	FY 2018 Cohort	FY 2022 Cohort
>Idaho residents	81%	80%	Not available	Not available	82%	83%
>Non-residents	45%	41%	available	available	45%	46%

<sup>19</sup> Excludes no-cost extensions. Represents per-grant, not per-person \$\$.

<sup>20</sup> Definitions of the classifications show are as follows: R2: Doctoral Universities – Higher research activity; R3: Doctoral Universities – Moderate research activity (definition updated 2019 to D/PU: Doctoral Professional Universities).

<sup>21</sup> Defined as distinct number of graduates in those disciplines, identified by CIP code, appropriate for the top 25% of jobs listed by the Idaho Department of Labor that require at least a bachelor's degree, based on project number of openings 2014-2024.

<sup>22</sup> Percent of all graduates at all award levels who were identified in "covered employment" by the Idaho Department of Labor one year out after graduation. Covered employment refers to employment for an organization that is covered under Idaho's unemployment insurance law. These data do not include several categories of employment, including individuals who are self-employed, federal employees, those serving in the armed forces, foreign aid organizations, missions, etc. Therefore, the actual employment rates are higher than stated. The full report can be accessed at: [https://labor.idaho.gov/publications/ID\\_Postsec\\_Grad\\_Retent\\_Analysis.pdf](https://labor.idaho.gov/publications/ID_Postsec_Grad_Retent_Analysis.pdf).

>Total Endowment Value	\$96.7M	\$105.4M	\$114.8M		\$130M	\$150M

**Key External Factors**

A wide variety of factors affect Boise State University’s ability to implement our strategic plan. Here we present three factors that we regard as impediments to progress and that can be influenced by the state government and its agencies.

**Lack of funding of Enrollment Workload Adjustment.** Lack of consistent funding for the Enrollment Workload Adjustment, especially during the recession, has resulted in a significant base funding reduction to Boise State University. As a result, Boise State University students receive less appropriated funding compared to other Idaho universities.

**Administrative Oversight.** Boise State University is subject to substantial administrative oversight through the State of Idaho Department of Administration and other Executive agencies. Significant operational areas subject to this oversight include capital projects, personnel and benefit management, and risk and insurance. The additional oversight results in increased costs due to additional bureaucracy and in decreased accountability because of less transparency in process. The current system places much of the authority with the Department of Administration and the other agencies, but funding responsibility and ultimate accountability for performance with the State Board of Education and the University. As a result, two levels of monitoring and policy exist, which is costly, duplicative, and compromises true accountability. In 2010, the state legislature passed legislation that exempted the University, under certain conditions, from oversight by the State’s Division of Purchasing. As a result, the university has streamlined policy and procedure and has gained substantial efficiencies in work process and in customer satisfaction, while at the same time maintaining the integrity of the purchasing process. Additional relief from administrative oversight in other areas should produce similar increases in efficiency and customer satisfaction and improve constituent issues.

**Compliance.** Increases in state and federal compliance requirements are a growing challenge in terms of cost and in terms of institutional effectiveness and efficiency.

Update to OSBE May 2019

**Doug Ooley, CISSP**  
*Chief Information Security Officer/Director*  
*IT Governance, Risk, Compliance and Cybersecurity*  
*Office of Information Technology - Boise State University*

---

March 2019 - NIST Cybersecurity Framework and Critical Security Controls  
1-6 Adoption

When Executive Order 2017-02 was published as a State of Idaho directive the Office of Information Technology proceeded with incorporating the NIST Cybersecurity Framework into current IT Risk Management frameworks and began implementing Critical Security Controls 1- 5 across the University's critical network infrastructure systems.

Progress to Date:

- Assessment for now include CSC 1-6 version 7 as outlined by State ITS department.
- The Higher Education Security Council correlated CSC 1-5 gap assessments from participating Higher Education institutions and presented remediation options and priorities to Higher Ed CIOs for review and planning.
- NIST Cybersecurity Framework (CSF) has been incorporated into existing IT Risk Management frameworks. Framework maturity reports are provided through Third Party Security effectiveness vendor. Current average CSF maturity is graded as a B.
- State has agreed in principle that Higher Ed has a different scope and mission than typical agencies so reporting will be considered informational in required.

Planned Activities thru FY2020:

- Higher Ed CIOs will maintain State Board awareness of CSC and NIST Cybersecurity Framework adoption.
- Assessment updates will be reported when practical and will continue to be used for monitoring overall program improvements and increasing maturity.
- Continued collaboration with Higher Education and State agencies to create a statewide purchasing plan to reduce costs. Significant funding will be necessary to effectively close technology gaps and remains a primary obstacle to adoption.
- Continue to create/update policy, procedures, standards and reporting for Critical Security Controls 1-6 where practical.

Note: Adopting and implementing the Critical Security Controls 1-6 will be an ongoing process with the realization that it is not practical to achieve 100% compliance. To balance risk and investment Boise State will seek to achieve a reasonable low risk compliance level.

**Mission**

Idaho State University is a public research-based institution that advances scholarly and creative endeavors through academic instruction, and the creation of new knowledge, research, and artistic works. Idaho State University provides leadership in the health professions, biomedical, and pharmaceutical sciences, as well as serving the region and the nation through its environmental science and energy programs. The University provides access to its regional and rural communities through delivery of preeminent technical, undergraduate, graduate, professional, and interdisciplinary education. The University fosters a culture of diversity, and engages and impacts its communities through partnerships and services.

**Vision**

ISU will be the university of choice for tomorrow’s leaders, creatively connecting ideas, communities, and opportunities.

**Goal 1: Grow Enrollment**

**Objective:** Increase new full-time, degree-seeking students by 20% (+450 new students) over the next five years.\*

**Performance Measures:**

- Increase new full-time, certificate and degree-seeking undergraduate student enrollment and new full and part-time graduate student enrollment for FYs 18-22 by 20% (450).***

<b>FY 2016 (2015-2016)</b>	<b>FY 2017 (2016-2017)</b>	<b>FY 2018 (2017-2018)</b>	<b>FY 2019 (2018-2019)</b>	<b>Benchmark 2022</b>

**Goal 4: Strengthen Communication, Transparency, and Inclusion**

**Objective:** Over the next three years, ISU will continue building relationships within the university, which is fundamental to the accomplishment of all other objectives.

**Performance Measures:**

**4.1 ISU achieves 60% of each of its strategic objectives at the end of the AY 2021 assessment period.**

AY 2016 (2015-2016)	AY 2017 (2016-2017)	AY 2018 (2017-2018)	AY 2019 (2018-2019)	Benchmark 2021
Not Measured	Not Measured	Not Measured	Not avail. until AUG 2020	60%

**Benchmark Definition:** The completion of ISU’s strategic goals using the objectives’ AY 2021 data as a benchmark. \*This is a new indicator and is not currently measured until the end of FY19. \*\*The date change is a result of the selection of a new president.

**4.2 Internal, formal communication events between the ISU’s leadership and the University Community AYs 19-21.**

AY 2016 (2015-2016)	AY 2017 (2016-2017)	AY 2018 (2017-2018)	AY 2019 (2018-2019)	Benchmark 2021
Not Measured	Not Measured	Not Measured	Not avail. until AUG 2020	TBD

**Benchmark:** The number of internal communication events hosted by ISU leadership during an AY using AY19 data as a baseline.

**4.3 Measure the perceived effectiveness of the communication events (4.2) on improving communication and inclusion within the University AYs 19-21**

AY 2016 (2015-2016)	AY 2017 (2016-2017)	AY 2018 (2017-2018)	AY 2019 (2018-2019)	Benchmark 2021
Not Avail.	Not Avail.	Not Avail.	44%	70%

**Benchmark:** Using data collected from the initial employee experience survey given in September 2018 (Q4:How would you rate overall internal communication at ISU?) to measure the perceived effectiveness (as rated by 4 or 5 stars (755 of 1691)) of the communication events (4.2) on improving communication and inclusion within the University AYs 19-21. The date change is a result of the selection of a new president.

**PLANNING, POLICY AND GOVERNEMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 3**

Idaho State University Strategic Plan: 2020-2024

**Goal 5: Enhance Community Partnerships**

**Objective:** By 2022, ISU will establish 100 new partnerships within its service regions and statewide program responsibilities to support the resolution of community-oriented, real-world concerns.

**Performance Measures:**

**5.1** *The number of activities that result in newly established, mutually beneficial ISU faculty, staff, and student/ community relationships that resolve issues within ISU’s service regions and statewide program responsibilities AYs 18-22.*

FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	FY 2019 (2018-2019)	Benchmark 2022
Not Avail.	Not Avail.	1,222 (baseline)	Not Avail.	1,322

**Benchmark:** The number of new activities that ISU employees and students participate in that produce an increase in new relationships over a five-year period FYs 18-22. This is a new baseline based on FY18 data and a new 2022 benchmark.

**5.2** *The number of new communities ISU provides services to within its service regions and statewide program responsibilities AYs 18-22.*

FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	FY 2019 (2018-2019)	Benchmark 2022
Not Avail.	Not Avail.	237 (baseline)	Not Avail.	256

**Benchmark:** Based on input from ISU’s Deans and the Vice President of the Kasiska Division of Health Sciences; the benchmark increased to 256 due to a change in the data collection method--provide 19 new communities with services within its service regions and statewide program responsibilities from AYs 18-22.

**5.3** *The number of new ISU/community partnerships resulting in internships and clinical opportunities for ISU students.*

FY 2016 (2015-2016)	FY 2017 (2016-2017)	FY 2018 (2017-2018)	FY 2019 (2018-2019)	Benchmark 2022
Not Avail.	369	433	Not Avail.	1,131

**Benchmark:** Increase the number of new community partnerships that result in internships and clinical positions by a total of 1,131 over a five-year period (FYs 18-22) using FY17’s numbers.

Idaho State University Strategic Plan: 2020-2024

### **Key External Factors**

#### *Funding*

Many of Idaho State University strategic goals and objectives assume ongoing and sometimes substantive, additional levels of State legislative appropriations. Availability of state revenues, upon which appropriation levels depend, can be uncertain from year to year. Similarly, while gubernatorial and legislative support for ISU efforts is significant, priorities set by those bodies vary from year to year, affecting planning for institutional initiatives and priorities. When we experience several successive years of deep reductions in state-appropriated funding, as has occurred in the recent past, it makes it increasingly difficult to plan for and implement strategic growth.

#### *Legislation/Rules*

Beyond funding considerations, many institutional and State Board of Education (SBOE) policies are embedded in state statute and are not under institutional control. Changes to statute desired by the institution are accomplished according to state guidelines. Proposed legislation, including both one-time and ongoing requests for appropriated funding, must be supported by the Governor, gain approval in the germane legislative committees, and pass both houses of the Legislature.

The required reallocation of staff resources and time and effort to comply directives related to the creation of the Complete College America/Idaho; the 60% Goal; and the additional financial and institutional research reporting requirements.

#### *Institutional and Specialized Accreditation Standards*

The Northwest Commission on Colleges and Universities (NWCCU), our regional accreditation body, continues to refine the revised 2010 standards and associated 7-year review cycle. Similarly, the specialized accrediting bodies for our professional programs periodically make changes to their accreditation standards and requirements, which we must address.

ISU has the largest number of degree programs with specialized accreditation among the state institutions, which significantly increases the workload in these programs due to the requirements for data collection and preparation of periodic reports. The programs in the health professions are reliant on the availability of clerkship sites in the public and private hospitals, clinics, and medical offices within the state and region. The potential for growth in these programs is dependent on maintaining the student to faculty ratios mandated by the specialized accrediting bodies, as well as the availability of a sufficient number of appropriate clerkship sites for our students.

#### *Federal Government*

The federal government provides a great deal of educational and extramural research funding for ISU and the SBOE. Funding is often tied to specific federal programs and objectives, therefore it can greatly influence both education policy, and extramurally funded research agendas at the state and the institutional levels. The recent decrease in funding for Pell Grants has had a negative impact on need-based financial aid for our students. The impact of the

**PLANNING, POLICY AND GOVERNEMENTAL AFFAIRS**  
**JUNE 20, 2019**

**ATTACHMENT 3**

Idaho State University Strategic Plan: 2020-2024

sequestration-mandated federal budget reductions initiated in early 2013 will likely have a negative impact on higher education.

*Local/Regional/National/Global Economic Outlook*

Conventional wisdom has long tied cyclic economic trends to corresponding trends in higher education enrollments. While some recent factors have caused this long relationship to be shaken in terms of the funding students have available for higher education, in general, the perceived and actual economic outlooks experienced by students continues to affect both recruitment into our colleges and universities as well as degree progress and completion rates. A greater proportion of our students must work and therefore are less able to complete their education in a timely manner.

*Achieving State Board of Education Goals*

Achieving State Board of Education goals is a priority for ISU, but the University's leadership believes one of the Board's goals is beyond ISU's reach within this five-year planning cycle. While the long-term objective for ISU is to achieve an 80% fall-to-fall retention rate of first-time, full-time bachelor degree-seeking students, this rate is a significant stretch in this five-year period. While, the expansion of competitive graduate programs at the Meridian Health Sciences Center, ISU-Twin Falls Center, and Idaho Falls Polytechnic Center can help to produce positive impacts, ISU's current retention rate is 63%. ISU's five-year goal remains 74% even though it may be very difficult to achieve. The University continues to focus on attaining the SBOE's goal throughout this and the next planning cycle. The reasons why a 74% retention rate is more realistic for the five-year plan are the following:

- As the local economy improves, fewer students will re-enroll in higher education choosing instead to take positions in the workforce that require less education.
- Assessments of first-generation, low-income ISU students indicate that for those who choose to leave the University, the number-one reason is due to inadequate funding. Students report that paying bills often becomes a priority over attending class or studying. This systemic lack of resources in our region is not easily rectified but is something that we continually work toward developing solutions. Many freshmen at ISU, particularly those from rural, economically unstable communities, lack the required math, laboratory science, and writing skills to meet the rigors of college coursework, placing them at an immediate disadvantage. This academic disadvantage leads to lower retention. ISU is focusing on these areas of concern and is working to create opportunities to address them like, expanding the College of Technology programs, scholarship programs, and a new, more effective placement testing method.
  - New student retention efforts at ISU are being implemented; for example, academic coaches, will take time to make an impact on the overall retention rate.
  - Beginning in Fall 2016, ISU began using the Assessment and Learning in Knowledge Spaces (ALEKS) placement exam as its newest and primary assessment tool for placing students into mathematics classes. It is believed that this new placement exam will do a better job of placing students in the correct

**PLANNING, POLICY AND GOVERNEMENTAL AFFAIRS**  
**JUNE 20, 2019**

**ATTACHMENT 3**

Idaho State University Strategic Plan: 2020-2024

math courses, thus improving student retention. The effects of this implementation will take time to evaluate. ISU should start seeing the results of this change shortly.

- Momentum Pathways, and its subordinate programs, is a SBOE directed set of programs that is currently underway. Many of the initiatives within Pathways are already being implemented, but the SBOE's emphasis is focusing on implementation timelines. Additional required programs include increasing the go-on rate for high school students, increasing return-to-college and completion for adults, and closing gaps for under-represented graduates.
- ISU has high enrollment rates of first-generation, low-income students. These students have inadequate resources and limited support for navigating the complicated processes within a university. These students are therefore transient in nature, moving in and out of college, and are less likely to be retained from one year to the next.
  - The Bengal Bridge initiative continues to expand each summer, so this program will also take time to impact the overall retention rate.
- As part of the retention efforts, ISU's Vice President of Student Affairs is heading up a university-wide retention committee that is working with Academic Affairs and other units to identify and address additional issues focusing barriers to student success.

**Evaluation Process**

Idaho State University has established a mature process for evaluating and revising goals and objectives. ISU's academic and non-academic units track and evaluate the strategic plan's performance measures, and Institutional Research compiles the results. ISU recently purchased an enterprise-based evaluation tool to generate annual reports to better track each objective's improvement based on its annual benchmark to allow leadership, staff, and faculty to view the level of progress achieved.

The Strategic Planning Working Group (SPWG), a team of faculty, staff, students, and community constituents, will meet annually in January to evaluate three factors affecting the progress of each objective.

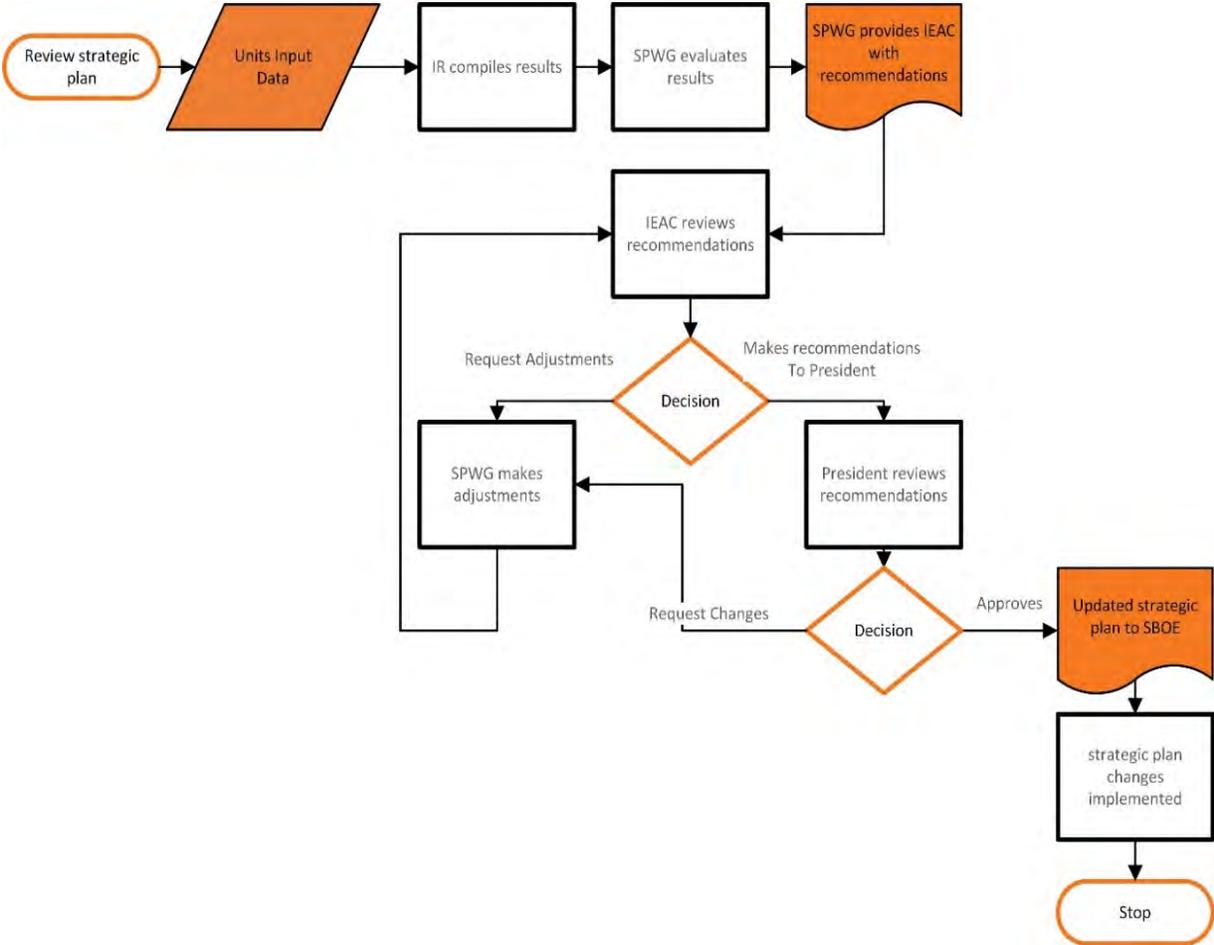

1. If the objective is falling short or exceeding expectations, the SPWG will re-examine the established benchmark to ensure it is realistic and achievable
2. Evaluate the objective's resourcing levels and its prioritization
3. Determine if the indicator(s) is adequately measuring the objective's desired outcome based on the SPWG's original intent for that objective

Upon completion of its analysis, the SPWG will forward its recommendations for consideration to the Institutional Effectiveness and Assessment Council's (IEAC) Steering Committee. The IEAC will review the SPWG's report and can either request additional information from the SPWG or make its recommendations to the President for changes to the plan. Upon presidential approval, the Institution will submit the updated plan to the State Board of Education for approval. The implementation of the changes will occur upon final approval.

## MISSION STATEMENT

Lewis-Clark State College prepares students to become successful leaders, engaged citizens, and lifelong learners.

### Core Theme One: Opportunity

Expand access to higher education and lifelong learning.

### Core Theme Two: Success

Ensure attainment of educational goals through excellent instruction in a supportive learning environment.

### Core Theme Three: Partnerships

Engage with educational institutions, the business sector, and the community for the benefit of students and the region.

## VISION STATEMENT

Lewis-Clark State College (LCSC) will fulfill the Idaho State Board of Education's vision of a seamless public education system by integrating traditional baccalaureate programs, professional-technical training programs, and community college and community support programs within a single institution, serving diverse needs within a single student body, and providing outstanding teaching and support by a single faculty and administrative team.

The college's one-mission, one-team approach will prepare citizens from all walks of life to make the most of their individual potential and will contribute to the common good by fostering respect and close teamwork among all Idahoans. Sustaining a tradition that dates back to its founding as a teacher training college in 1893, LCSC will continue to place paramount emphasis on effective instruction—focusing on the quality of the teaching and learning environment for traditional and non-traditional academic classes, professional-technical education, and community instructional programs.

As professed in the college's motto, "Connecting Learning to Life," instruction will foster powerful links between classroom knowledge and theory and personal experience and application. Accordingly, LCSC will:

- Actively partner with the K-12 school system, community service agencies, and private enterprises and support regional economic and cultural development
- Strive to sustain its tradition as the most accessible four-year higher-education institution in Idaho by rigorously managing program costs, student fees, housing, textbook and lab costs, and financial assistance to ensure affordability
- Vigorously manage the academic accessibility of its programs through accurate placement, use of student-centered course curricula, and constant oversight of faculty teaching effectiveness
- Nurture the development of strong personal values and emphasize teamwork to equip its students to become productive and effective citizens who will work together to make a positive difference in the region, the state, the nation, and the world.

Goal 1: Strengthen and Optimize Instructional and Co-curricular Programming

Objective A: Optimize course and program delivery options<sup>1</sup>

*Performance Measure 1: Number of online and evening/weekend programs.*

Definition: The number of degrees or certificates offered online or during evening or weekend hours.

Benchmark: Based upon current planning processes, LCSC anticipates adding online degrees/certificates and evening & weekend programs of study within the next academic year (FY 20).

Course Delivery Methods	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 20 (2019-20)	FY 23 (2022-23)
Online <sup>2</sup>	New Measure				36		
Benchmark	No Prior Benchmarks					37	42
Evening/ Weekend	New Measure				0		
Benchmark	No Prior Benchmarks					2	6

*Performance Measure 2: Proportion of courses in which course content is delivered online*

Definition: The proportion of courses in which course content (e.g., syllabi & student grades) is delivered using an online learning management system (LMS).

Benchmark: One hundred percent (100%) of courses have content available to students through the LMS.

Web Enhanced Courses	FY15	FY16	FY17	FY18	FY 19 (2018-19)	FY 20 (2019-20)	FY 23 (2022-23)
% Sections	New Measure				Inventory current number of courses with content in LMS Implement new LMS		
Benchmark	No Prior Benchmarks						100%

<sup>1</sup> Consistent with Core Theme One: Opportunity. Expand access to higher education and lifelong learning.

<sup>2</sup> List of online programs available here: <http://www.lcsc.edu/degrees?locations=Online>

Objective B: Ensure high quality program outcomes<sup>3</sup>

*Performance Measure 1: Licensing & certification*

Definition: The proportion of LCSC test takers who pass, or their average test scores, on professional licensure or certification exams.

Benchmark: Meet or exceed national or statewide averages.

Licensing/Certification Exams			FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2022-23)

Objective C: Optimize curricular & co-curricular programming through *Connecting Learning to Life* initiative<sup>10</sup>

*Connecting Learning to Life* has been reenergized as a presidential priority focusing on bringing to life, across and throughout curricula and/or co-curricular engagement, LC's grounding mantra, "connecting learning to life"; and by doing so, make experiential and applied learning a signature hallmark of an LCSC

<sup>7</sup> Workforce Training at LCSC also offers Certified Nursing Assistant (CNA) training requiring exit exam certification. However, a change in statewide contract with vendor does not stipulate that the vendor report the test results back to the institutions. CNA will be brought back as part of this performance measure if/when those records become available.

<sup>8</sup> To protect student privacy, statistics not reported when composed of less than five individual students aggregated.

<sup>9</sup> Written exam results only.

<sup>10</sup> Consistent with Core Theme Two: Success. Ensure attainment of educational goals through excellent instruction in a supportive learning environment.

education. ‘Connecting’ experiences fall under *applied learning*<sup>11</sup> or *experiential learning*<sup>12</sup>. Many students will complete applied or experiential learning within their chosen majors. Others may reach outside their major for hands-on, co-curricular experiences.

*Performance Measure 1: Curricular programming of applied and experiential learning opportunities*

Definition: Courses, programs of study, majors, minors and certificates that serve as avenues of applied or experiential learning opportunities.

Benchmark: All programs of study offer graduates opportunities for applied &/or experiential learning. Long-term goals include the development of signature certificates and new, interdisciplinary degree options through which “academic” and career-technical courses may be woven together.

Curricular Applied & Experiential Learning	FY15 -FY18	FY 19 (2018-19)	FY20-22	FY 23 (2022-23)
Apprenticeships	New Measure	Develop inventory of applied & experiential learning: Identify Courses & Programs of Study/Majors, Minors, Certificates	Report on Gaps	100% of LCSC graduates participate in applied &/or experiential learning via curricular <u>or</u> co-curricular experiences.
Directed Study				
Field Experiences				
‘Hands-on’ courses				
Internships, Practica & Clinicals		Identify gaps: Programs of study for which grads may not encounter applied or experiential learning	Expand & Implement additional opportunities of <i>Connecting Learning to Life</i>	
Performance Arts				
Service Learning				
Undergraduate Research				

*Performance Measure 2: Co-Curricular programming of applied and experiential learning opportunities*

Definition: Co-curriculum programming engaging students in applied &/or experiential learning outside of their chosen program’s curriculum. Examples displayed in the table below.

Benchmark: 100% of LCSC graduates participate in applied &/or experiential learning.

<sup>11</sup> Applied learning = hand’s on application of theory.

<sup>12</sup> Experiential learning = the process through which students develop knowledge, skills, and values from direct experiences outside a traditional academic setting.

Co- Curricular Applied & Experiential Learning	FY15 -FY18	FY 19 (2018-19)	FY20-22 (2019-20)	FY 23 (2022-23)
Intramural athletics	New Measure	Develop inventory of co-curricular applied & experiential learning  Reprioritize/reorg. resources & staff to support co-curricular programming: Center of Student Leadership Student Employment & Career Center	Implement co-curricular transcript & tracking software <sup>13</sup> .  Report on Gaps  Expand & Implement additional opportunities of <i>Connecting Learning to Life</i>	100% of LCSC graduates participate in applied &/or experiential learning via curricular <u>or</u> co-curricular experiences.

Work study/experience including tutoring				
Study abroad				

Goal 2: Optimize Student Enrollment, Retention and Completion

Objective A: Increase the college’s degree-seeking student enrollment<sup>14</sup>

*Performance Measure 1: Direct from high school enrollment*

Definition: The FTE of degree-seeking, entering college students (measured at fall census) who graduated from high school the previous spring term.

Benchmarks derived from financial modeling of institutional viability and expansion<sup>15</sup>. Based upon financial modeling of campus viability, LCSC would like to be 3,000 total FTE or experience a growth of

<sup>13</sup> Soft launch of tracking software May 2019. Full Implementation Fall 2019. First data expected spring 2020.

<sup>14</sup> Consistent with Core Theme One: Opportunity. Expand access to higher education and lifelong learning.

<sup>15</sup> More information on LCSC’s financial modeling of institutional viability and expansion can be found here: <http://www.lcsc.edu/budget/budget-resource-tools/>

10% from current FTE by FY 25, necessitating a 1.6 percent increase annually. How that campus wide goal extrapolates to direct high school enrollment is articulated in the table below.

Direct from High School Enrollment	FY15 (Fall '14)	FY16 (Fall '15)	FY17 (Fall '16)	FY18 (Fall '17)	FY 19 (Fall '18)	FY 20 (Fall '19)	FY 23 (Fall '22)
FTE	398	421	436	479	422	Available Fall '19 Census	Available Fall '22 Census
Benchmark	New Measure – No Prior Benchmarks					429	449

*Performance Measure 2: Adult enrollment*

Definition: The FTE of degree-seeking students (measured at fall census) who are above the age of 24.

Benchmarks derived from financial modeling of institutional viability and expansion<sup>15</sup>. Based upon financial modeling of campus viability, LCSC would like to be 3,000 total FTE or experience a growth of 10% from current FTE by FY 25, necessitating a 1.6 percent increase annually. How that campus wide goal extrapolates to adult enrollment is articulated in the table below.

Adult Learner (>24) Enrollment	FY15 (Fall '14)	FY16 (Fall '15)	FY17 (Fall '16)	FY18 (Fall '17)	FY 19 (Fall '18)	FY 20 (Fall '19)	FY 23 (Fall '22)
FTE	885	760	773	709	631	Available Fall '19 Census	Available Fall '22 Census
Benchmark	New Measure – No Prior Benchmarks					641	671

*Performance Measure 3: Online Headcount*

Definition: The headcount of degree-seeking students (measured at fall census) who are taking courses online (both entirely online and partly online schedule of courses).<sup>16</sup>

Benchmarks derived from financial modeling of institutional viability and expansion<sup>15</sup>. Based upon financial modeling of campus viability, LCSC would like to be 3,000 total FTE or experience a growth of 10% from current FTE by FY 25, necessitating a 1.6 percent increase annually. How that campus wide goal extrapolates to online headcount is articulated in the table below<sup>17</sup>.

<sup>16</sup> Same definition as that used on the IPEDS Fall Enrollment Survey.

<sup>17</sup> This Benchmark assumes that a 10% growth in FTE would also equate a 10% growth in headcount.

Online Headcount	FY15 (Fall '14)	FY16 (Fall '15)	FY17 (Fall '16)	FY18 (Fall '17)	FY 19 (Fall '18)	FY 20 (Fall '19)	FY 23 (Fall '22)
HC	1520	1444	1663	1557	1483	Available Fall '19 Census	Available Fall '22 Census
Benchmark	New Measure – No Prior Benchmarks					1507	1578

*Performance Measures 4: Direct transfer enrollment*

Definition: The FTE of degree-seeking, entering transfer students (measured at fall census) who attended another college the previous spring or summer terms.

Benchmarks derived from financial modeling of institutional viability and expansion<sup>15</sup>. Based upon financial modeling of campus viability, LCSC would like to be 3,000 total FTE or experience a growth of 10% from current FTE by FY 25, necessitating a 1.6 percent increase annually. How that campus wide goal extrapolates to direct transfer enrollment is articulated in the table below.

Direct Transfer Enrollment	FY15 (Fall '14)	FY16 (Fall '15)	FY17 (Fall '16)	FY18 (Fall '17)	FY 19 (Fall '18)	FY 20 (Fall '19)	FY 23 (Fall '22)
FTE	214	207	211	173	149	Available Fall '19 Census	Available Fall '22 Census
Benchmark	New Measure – No Prior Benchmarks					151	159

*Performance Measure 5: Nonresident enrollment*

Definition: The FTE of degree-seeking students (measured at fall census) who are not residents of Idaho.

Benchmarks derived from financial modeling of institutional viability and expansion<sup>15</sup>. Based upon financial modeling of campus viability, LCSC would like to be 3,000 total FTE or experience a growth of 10% from current FTE by FY 25, necessitating a 1.6 percent increase annually. How that campus wide goal extrapolates to nonresident enrollment is articulated in the table below.

Nonresident Enrollment	FY15 (Fall '14)	FY16 (Fall '15)	FY17 (Fall '16)	FY18 (Fall '17)	FY 19 (Fall '18)	FY 20 (Fall '19)	FY 23 (Fall '22)
Asotin Co. Resident FTE <sup>18</sup>	192	177	183	164	150	Available Fall '19 Census	Available Fall '22 Census
Benchmark	New Measure – No Prior Benchmarks					152	160
Nonresident FTE	410	409	395	359	329		
Benchmark:	New Measure – No Prior Benchmarks					334	350

Objective B: Increase credential output<sup>19</sup>

*Performance Measure 1: Certificates and degrees<sup>20</sup>*

Definition: The unduplicated count of degrees/certificates awarded at each degree-level.<sup>21</sup>

Benchmarks developed to align with the Idaho State Board of Education’s K-20 Strategic Plan<sup>22</sup>. Analysis conducted by the Chief Research Officer identified the number of associates and baccalaureate degrees as needing to grow by eight percent by 2025<sup>23</sup>, necessitating a one percent increase annually<sup>24</sup>.

---

<sup>18</sup> Asotin County residents pay a unique tuition & fee rate. More information about tuition & fee as they pertain to residency status available here: <http://www.lcsc.edu/tuition-aid/>

<sup>19</sup> Consistent with Core Theme Two: Success. Ensure attainment of educational goals through excellent instruction in a supportive learning environment.

<sup>20</sup> State Board of Education postsecondary system wide measure.

<sup>21</sup> Consistent with IPEDS Completions Survey definitions.

<sup>22</sup> Goal 2, Objective A, Performance Measure I: “Percent of Idahoans (ages 25-34) who have a college degree or certificate requiring one academic year or more of study”.

<sup>23</sup> Analysis presented to the Board on Dec. 19<sup>th</sup>, 2018, and included in Board materials containing found here: <https://boardofed.idaho.gov/meetings/board/archive/2018/1219-2018/02WORKSESSION.pdf?cache=1552074006132>

<sup>24</sup> Exact amount of growth required to remain in alignment with statewide goals is 1.14%, annually.

Certificates & Degrees	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2022-23)

	Benchmark: +1% annually	New Benchmark Methodology				29%	30%	34%
	Achievement	No Prior Benchmark				MET		

<sup>27</sup> State Board of Education postsecondary system wide measure.

<sup>28</sup> One hundred and fifty percent (150%) normative time to degree is six years for baccalaureate degrees, three years for associate degrees, and one and a half years for a one year certificate. Calculations used IPEDS definitions.

*Performance Measure 4: Graduation Rate - 100% normative time to degree attainment<sup>29</sup>*

Definition: The proportion of first-time, full-time entering students who achieved a baccalaureate or associate within 100% normative time to degree.

Benchmarks developed to align with the Idaho State Board of Education’s K-20 Strategic Plan<sup>22</sup>. Analysis conducted by the Chief Research Officer identified the number of associates and baccalaureate degrees as needing to grow by eight percent by 2025<sup>23</sup>, necessitating a one percent increase annually<sup>24</sup>.

100% Baccalaureate Grad Rate	FY15 (2010 Cohort)	FY16 (2011 Cohort)	FY17 (2012 Cohort)	FY18 (2013 Cohort)	FY 19 (2014 Cohort)	FY 20 (2013 Cohort)	FY 23 (2016 Cohort)
First-Time, Full-Time, Cohort <sup>30</sup>	New	10%	18%	21%	18%		
Benchmark: +1% annually	New Benchmark Methodology				22%	23%	27%
Achievement					NOT MET		

*Performances Measure 5: Retention rates*

Definitions:

The retention or proportion of **first-time, full-time, degree-seeking students** who start college in summer or fall terms and re-enroll (or graduate) by the following fall term of the subsequent academic year.

The retention of the **entire degree-seeking student body**. The proportion of the total degree-seeking headcount of the prior academic year (summer, fall, spring) who graduated or returned to attend LCSC by the following fall of the subsequent academic year.

Benchmarks derived from financial modeling of institutional viability and expansion<sup>15</sup>. Based upon financial modeling of campus viability, LCSC would like to be 3,000 total FTE or experience a growth of 10% from current FTE by FY 25, necessitating a 1.6 percent increase annually. How that campus wide goal extrapolates to degree-seeking student retention is articulated in the table below.

---

<sup>29</sup> State Board of Education postsecondary system wide measure.

<sup>30</sup> Not consistent with IPEDS definitions because associates seeking and certificate seeking students included as well as baccalaureate seeking students.

Retention	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
<b>First-Time, Full-Time, Degree-Seeking, Students</b>	57%	58%	57%	63%	Available Feb 2020

<b>All Degree-Seeking Students</b>	72%	74%	73%	75%	Available Feb 2020	
Benchmark: +2% annually	New Measurement				77%	83%

*Performance Measure 6: 30 to Finish<sup>32</sup>*

Definition: Percent of undergraduate, degree-seeking students, who started their attendance in the fall (or prior summer) term, completing 30 or more credits per academic year, excluding those who graduated midyear and those students who started their enrollment during spring semester.

Benchmarks derived from financial modeling of institutional viability and expansion<sup>15</sup>. Based upon financial modeling of campus viability, LCSC would like to be 3,000 total FTE or experience a growth of 10% from current FTE by FY 25, necessitating a 1.6 percent increase annually. How that campus wide goal extrapolates to degree-seeking student credit load is articulated in the table below.

30+ credits per AY	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
%	26%	23%	25%	38%	Available Summer '19	
Benchmark <sup>33</sup>	New Benchmarking Method				30%	36%

<sup>31</sup> Long-term benchmarks for FY 25 reflect 10% above the baseline, which is the historical four year average of first-time, full-time, degree-seeking retention (59%).

<sup>32</sup> State Board of Education postsecondary system wide measure.

<sup>33</sup> Long-term benchmarks for FY 25 reflect 10% above the baseline, which is the historical four year average of the percent of degree-seeking students who completed 30+ credits per academic year (28%).

*Performance Measure 7: Remediation<sup>34</sup>*

Definition: Percent of degree-seeking students who took a remedial course and completed a subsequent credit bearing course (in the area identified as needing remediation) within a year with a “C” or better.

Benchmarks developed to align with the Idaho State Board of Education’s K-20 Strategic Plan<sup>22</sup>. Analysis conducted by the Chief Research Officer identified the number of associates and baccalaureate degrees as needing to grow by eight percent by 2025<sup>23</sup>, necessitating a one percent increase annually<sup>24</sup>.

Remediation	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
%	13%	16%	21%	19% <sup>35</sup>	Not yet available	
Benchmark	New Benchmarking Method				20%	25%

*Performance Measure 8: Math Pathways<sup>34</sup>*

Definition: Percent of new, degree-seeking freshmen who started in fall (or preceding summer) term and completed a gateway math course<sup>36</sup> within two years.

Benchmarks developed to align with the Idaho State Board of Education’s K-20 Strategic Plan<sup>22</sup>. Analysis conducted by the Chief Research Officer identified the number of associates and baccalaureate degrees as needing to grow by eight percent by 2025<sup>23</sup>, necessitating a one percent increase annually<sup>24</sup>.

Math Pathways	FY15 (Fall 2014- Su 2016)	FY16 (Fall 2015- Su 2017)	FY17 (Fall 2016- Su 2018)	FY18 (Fall 2017- Su 2019)	FY 19 (Fall 2018- Su 2020)	FY 23 (Fall 2022- Su 2024)
%	30%	50%	48%	52% <sup>37</sup>	Not yet available	
Benchmark:	New Benchmarking Method				53%	58%

<sup>34</sup> State Board of Education postsecondary system wide measure.

<sup>35</sup> This measure is still underway and will include spring 2019 “subsequent credit bearing course” grades when terms are complete and grades are available.

<sup>36</sup> Gateway math is defined institutionally as Math 123 and above.

<sup>37</sup> This measure is still underway and will include spring and summer 2019 gateway math enrollments when terms are complete and grades are available.

*Performance Measure 9: Workforce training enrollment*

Definition: Duplicated headcounts of students enrolled in Workforce Training programs at LCSC.

Benchmarks set by Director of Workforce Training accounting for regional market demand and worker demographics.

Workforce Training Enrollments	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
Duplicated Headcount	3471	2887	3345	3563	Available Summer '19	
Benchmark:	New Benchmarking Method				3,600	3,800

*Performance Measure 10: Workforce training completion*

Definition: Completions of LCSC's Workforce Training courses<sup>38</sup>.

Benchmarks are a proportion of the enrollments each fiscal year (FY) and set to maintain the high proportion of completions observed historically.

Workforce Training Completions	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
Duplicated Completions	3,213	2680	3,113	3,420	Available Summer '19	
Benchmark: Maintain	93%	93%	93%	96%	94%	94%

<sup>38</sup> Completions measured by course because most Workforce Training offerings are designed as singular courses.

Goal 3: Foster Inclusion throughout Campus and Community Culture

Objective A: Expand inclusive practices programming<sup>39</sup>

*Performance Measure 1: Number of faculty and staff participating in inclusive practices programming annually.*

Definition: Duplicated headcount of attendees at events designated as inclusive practices programming for faculty and staff. Examples of inclusive practices programming include many of those offered at LCSC’s Center for Teaching & Learning<sup>40</sup> and those coordinated by the President’s Commission on College Diversity<sup>41</sup>.

Benchmark: Steady increase in faculty & staff participation.

Faculty Staff Participation	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
Duplicated Headcount	New Measure				Plan: inventory inclusive programing Implement tracking following year	Benchmark established once baseline inventory and tracking complete.

*Performance Measure 2: Number of participants in community enrichment activities*

Definition: Duplicated headcount of attendees at events designated as community enrichment activities. Examples of inclusive practices programming include many of those offered at LCSC’s Center for Arts & History<sup>42</sup>.

Benchmark: Steady increase in community participation.

---

<sup>39</sup> Consistent with Care Theme Three: Partnerships. Engage with education institutions, the business sector, and the community for the benefit of students and the region.

<sup>40</sup> Center for Teaching & Learning, Inclusive Practice Certificate: <http://www.lcsc.edu/teaching-learning/ideas-and-inspiration/inclusive-practices/>

<sup>41</sup>More information on LCSC’s diversity statement can be found here: <http://www.lcsc.edu/diversity/diversity-vision/>. More information about events that promote college diversity can be found here: <http://www.lcsc.edu/diversity/>

<sup>42</sup> Center for Arts & History: <http://www.lcsc.edu/cah/>

Community Participation	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
<b>Duplicated Headcount</b>	New Measure				Plan: inventory inclusive programs to include following year. Tracking to be implemented with programming.	Benchmark established once baseline inventory and tracking complete.

Goal 4: Increase and Leverage Institutional Resources to Achieve Enrollment, Employee Retention and Campus Planning Objectives

Objective A: Diversify revenue streams to allow for investment in campus programs and infrastructure<sup>43</sup>

*Performance Measure 1: New, ongoing revenue streams*

Definition: New, revenue-generating initiatives.

Benchmarks: Implement new, annual giving initiatives (general and employee campaigns). Expand events revenue opportunities and outcomes.

Revenue Projects <sup>44</sup>	FY15 (2014-15)	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 23 (2021-22)
Employee Giving Campaign	New Measure				Plan, Implement FY 2020	Impact Measured
Annual Day of Giving	New Measure/Event				Plan, Implement FY 2020	Impact Measured
Events Revenue <sup>45</sup>	New Measure: Reevaluate current events hosted by LCSC and consider areas of expansion to event capacity.					Plan, Implement FY 2021

<sup>43</sup> Consistent with Care Theme Three: Partnerships. Engage with education institutions, the business sector, and the community for the benefit of students and the region.

<sup>44</sup> Project list will grow as additional revenue streams crystalize.

<sup>45</sup> Within the parameters of State Board of Education Policy I.J., available here: <https://boardofed.idaho.gov/board-policies-rules/board-policies/general-governing-policies-procedures-section-i/use-of-institutional-facilities-and-services-with-regard-to-the-private-sector/>

*Performance Measure 2: Federal, state, local and private grant funding*

Definition: Grant funding dollars.

Benchmark: \$100,000 growth annually, which is approximately 2% of the historical (four year) average.

<b>Grant Funding</b>	<b>FY15 (2014-15)</b>	<b>FY16 (2015-16)</b>	<b>FY17 (2016-17)</b>	<b>FY18 (2017-18)</b>	<b>FY 19 (2018-19)</b>	<b>FY 23 (2021-22)</b>
Federal	\$658,689	\$567,072	\$895,530	\$1,221,834		Institutional Financial Diversification
State & Local <sup>46</sup>	\$2,136,062	\$2,593,586	\$2,534,164	\$2,671,345		
Private	\$254,428	\$64,370	\$133,075	\$41,565		
Gifts	\$678,335	\$967,320	\$1,174,116	\$3,951,746		
<b>Total</b>	<b>\$3,727,514</b>	<b>\$4,192,348</b>	<b>\$4,736,885</b>	<b>\$7,886,490</b>		
Benchmark: +\$100,000 annually <sup>47</sup>	New Measure: No Prior Benchmarks				\$5,235,809	

Objective B: Bring all employee compensation up to policy/median benchmarks<sup>48</sup>

*Performance Measure 1: The number of employees not meeting compensation benchmarks.*

Definition: The number of employees whose compensation does not meet or exceed policy/median benchmarks as outlined in Idaho’s compensation schedule for classified staff, College and University Professional Association (CUPA) for professional staff, and the American Association of University Professors (AAUP) for faculty.

Benchmark: Decrease the number of employees not meeting these benchmarks by 5%, annually.

Benchmarks for employee compensation based upon the number of years in their current position:

- Employees in current position for 6-10 years: All at greater than or equal to 80% of policy/median.

---

<sup>46</sup> This item includes state scholarships awarded to the student, for the Opportunity Scholarship, and therefore may be resistant to change from institutional effort. FY 18 dollars include \$223k in state scholarships and \$625k in opportunity scholarships.

<sup>47</sup> Benchmark reflects \$100,000 above the baseline, which is the historical four year average of total grant funds (\$5,135,809).

<sup>48</sup> Consistent with Care Theme Three: Partnerships. Engage with education institutions, the business sector, and the community for the benefit of students and the region.

- Employees in current position for 11-15 years: All at greater than or equal to 90% of policy/median.
- Employees in current position for 16 years or more: All at 100% of policy/median.

Compensation	FY16 (2015-16)	FY17 (2016-17)	FY18 (2017-18)	FY 19 (2018-19)	FY 20 (2019-20)	FY 23 (2022-23)
# of staff not meeting compensation benchmarks	New Measure			200		Bring all employees to benchmarks outlined above
Benchmark: +5% annually	No Prior Benchmarks				180	

Key External and Internal Factors

The following assumptions about external and internal factors will impact the institution as the 2019-2023 Strategic Plan is implemented.

Lewis-Clark State College...

1. Will continue to be a moderately selective admission institution with a greater than 95% acceptance rate, serving a substantial number of first generation students, admitting students with various degrees of college preparation.
2. Will serve both residential and non-residential students, including those who commute, take online courses, are place-bound, and are working adults.
3. Has established the near-term goal to serve 3,000 FTE, in an environment where unemployment is low, the number of regional high school graduates is declining, and the Idaho “go-on” rate is less than 50%
4. Will continue to forge strategic partnerships with other institutions, agencies, businesses, and organizations and the community at large for mutual benefit.
5. Will play an active role in fulfilling the recommendations derived from:
  - a. The Governor’s 2017 Higher Education and Workforce Development taskforce.
  - b. Huron consulting report released in the fall of 2018.
6. Will continue to promote its brand and share its successes with multiple audiences, including prospective students.
7. Will continue to recruit diverse faculty, staff and students.
8. Relies on ongoing efforts to maximize operational efficiencies (e.g., program prioritization and internal resource reallocation); and increasing and leveraging grants, private fundraising to complement tuition revenue and reduced state support.
9. Will continue to assess its programs and services (program performance – program prioritization) to determine their efficacy and viability.

10. Will and is engaging meaningful campus master planning to assess current and future physical plant and physical infrastructure needs.
11. Will advocate for increased state funding in support of LCSC's mission, core themes, and strategic goals.

## Evaluation Process

LCSC's Strategic Plan was originally developed for the 2013-2018 timeframe. In light of the college's updated mission and core themes, the waning utility of the college's old strategic plan, and a successful NWCCU accreditation evaluation, institutional goals and objectives have been rewritten. A representative committee developed new strategies and objectives to guide the work of the college. The new goals and objectives were proposed in the 2018-2022 strategic plan, submitted for Board review during the March 2018 meeting and adopted during the June 2018 meeting. The current Strategic Plan 2019-2023 is composed of these goals and objectives. Since Board review, they have been operationalized through relevant performance measures. System-wide performance measures are comingled among institutional performance measures to undergird LCSC's commitment to "systemness". Institutional performance will undergo annual Cabinet review. Changes will be made in alignment with objective performance review and subjective evaluation of the involved campus stakeholders.

## Addendum: Cyber Security

### National Institute of Standards and Technology (NIST) Cybersecurity Framework

Governor Otter's Executive Order 2017-02 calls for:

*All state agencies to immediately adopt and to implement by June 30, 2017, the National Institute of Standards and Technology (NIST) Cybersecurity Framework in order to better foster risk and cybersecurity management communications and decision making with both internal and external organizational stakeholders.*

On March 16, 2017 Michelle Peugh of Idaho's Division of Human Resources (DHR) sent an email attachment – authored by DHR Director Susan Buxton – to Ms. Vikki Swift-Raymond, Lewis-Clark State College's Director of Human Resource Services (HRS). Director Buxton's memo asked LCSC to confirm that the college has adopted the NIST Cybersecurity Framework, per the governor's executive order. On April 15, 2017 Lewis-Clark State College President J. Anthony Fernández returned confirmation to Director Buxton that the college has adopted the NIST Framework.

### Implementation of the Center for Internet Security (CIS) Controls

Governor Otter's Executive Order 2017-02 calls for "agencies to implement the first five (5) Center for Internet Security Critical Security Controls (CIS Controls) for evaluation of existing state systems by June 30, 2018." Lewis-Clark State College has accomplished the following:

- On October 4, 2016 Lewis-Clark State College contracted with CompuNet to perform a “gap analysis” of LCSC’s security posture relative to all twenty CIS Controls. CompuNet’s report was delivered to LCSC on October 19, 2016.
- On January 16, 2017 Governor Otter issued his cybersecurity executive order 2017-02.
- On February 2, 2017 Lieutenant Governor Brad Little held a statewide meeting to organize all agencies in a coordinated response to the governor’s executive order. Lewis-Clark State College attended the meeting remotely. The Lieutenant Governor turned the meeting over to Lance Wyatt, Acting Chief Information Security Officer within Idaho’s Office of the CIO. Mr. Wyatt described the statewide process, where:
  - Each agency would complete a self-assessment of one CIS Control per month, extending through the next five months.
  - Each agency would document its self-discovery in a data repository provided by the state.
  - Each agency would attend a statewide meeting held approximately every two weeks, for coordination, facilitation, and problem solving.
  - At the end of the self-assessment process, agencies would collaborate on cybersecurity product selection that will aid in managing the first five CIS controls
  - Starting in summer 2017, each agency will begin remediation of perceived gaps in the first five controls, finishing the process prior to the governor’s deadline of June 30, 2018.
- Lewis-Clark State College attended each of the state’s cyber-security meetings during 2017 and 2018.
- LCSC has completed the self-assessment process led by Lance Wyatt, Chief Information Security Officer. All relevant data have been entered on the state’s Sharepoint repository designed for collecting these data.
- Based on the Department of Administration’s gap analysis, Lewis-Clark State College has implemented *Tenable Security Center Continuous View*, a product that addresses CIS controls 1-5.
- In July 2018, representatives of Idaho Office of the Governor announced two changes that expanded the governor’s original executive order:
  - The Center for Internet Security deployed version 7 of its twenty controls, and the state said that all agencies would start the entire process again using the new controls.
  - Instead of limiting the self-study to the five controls listed in the governor’s executive order, the Office of the Governor said that each agency will expand its study to include all 20 CIS Controls.
- Lewis-Clark State College’s administration committed the college to the acquisition of suitable hardware - and implement appropriate processes - that combine to minimize

cyber-related risks revealed by the college's self-assessment. This resulted in the purchase and deployment of F5's *Big-IP*.

- As of February 2019, LCSC has complied with the Governor's directives, including the expansion in July 2018. The discovery process for Controls 15 and 16 is due by the end of the month, and Controls 19 and 20 are due in April.

#### Implementation of the Employee Cybersecurity Training

Governor Otter's Executive Order 2017-02 calls for *"All executive branch agencies to require that all state employees complete the state's annual cybersecurity training commensurate with their highest level of information access and core work responsibilities."*

- In 2018, Idaho's Department of Human Resources distributed training software for use by all employees in Idaho.
- In 2018 Lewis-Clark State College's Department of Human Resource Services used DHR's software licensing to create a mandatory training requirement for all college employees, which was completed March 30, 2018.
- As of February 2019, Lewis-Clark State College's Department of Human Resource Services used DHR's software licensing to create a second year of mandatory training requirement for all college employees, to be completed by April 2019.

#### Implementation of the Specialized Cybersecurity Training

Governor Otter's Executive Order 2017-02 calls for *"The State Division of Human Resources, in conjunction with all executive branch agencies, to compile and review cybersecurity curriculum for mandatory education and training of state employees, and to determine appropriate levels of training for various classifications of state employees."*

In December 2017, LCSC's Associate Director charged with cybersecurity completed SANS SEC566 "Implementing and Auditing the Critical Security Controls."

# CIS Controls™

Version 7: a prioritized set of actions to protect your organization and data from known cyber attack vectors.

CIS Controls V7 separates the controls into three distinct categories:

**Basic:**  
 Key controls which should be implemented in every organization for essential cyber defense readiness.

**Foundational:**  
 Technical best practices provide clear security benefits and are a smart move for any organization to implement.

**Organizational:**  
 These controls are more focused on people and processes involved in cybersecurity.

Appendix 1: Crosswalk of State Board of Education Goals with Institutional Goals & Objectives

Institutional Goals & Objectives	State Board of Education Goals		
	Goal 1: Educational System Alignment	Goal 2: Educational Attainment	Goal 3: Workforce Readiness
Goal 1: Strengthen & Optimize Instructional and Co-curricular Programming			
Objective A: Optimize course and program delivery options			✓
Objective B: Ensure high quality program outcomes		✓	
Objective C: Optimize curricular & co-curricular programming through <i>Connecting Learning to Life</i> initiative			✓
Goal 2: Optimize Student Enrollment, Retention and Completion			
Objective A: Increase the college's degree-seeking student enrollment	✓	✓	
Objective B: Increase credential output	✓	✓	✓
Goal 3: Foster inclusion throughout campus and community culture			
Objective A: Expand inclusive practices programming			
Goal 4: Increase and Leverage Institutional Resources to Achieve Enrollment, Employee Retention and Campus Planning Objectives			
Objective A: Diversify revenue streams to allow for investment in campus programs and infrastructure		✓	
Objective B: Bring all employee compensation up to policy/median benchmarks			

College of Eastern Idaho  
Strategic Plan 2018-2022

March 14, 2019

FY 2018-2022

Strategic Plan

**MISSION STATEMENT**

To provide open-access to affordable, quality education that meets the needs of students, regional employers, and community.

**VISION STATEMENT**

Our vision is to be a superior community college. We value a dynamic environment as a foundation for building our college into a nationally recognized community college role model. We are committed to educating all students through progressive and proven educational philosophies. We will continue to provide high quality education and state-of-the-art facilities and equipment for our students. We seek to achieve a comprehensive curriculum that prepares our students for entering the workforce, articulation to advance their degree, and full participation in society. We acknowledge the nature of change, the need for growth, and the potential of all challenges.

**State Metrics:**

**Timely Degree Completion**

- I. Percent of undergraduate, degree-seeking students completing 30 or more credits per academic year at the institution reporting

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Percentage	9%	13%	12%	8%	>10%

- II. Percent of first-time, full-time, freshmen graduating within 150% of time

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Grad Rate %150 IPEDS	57%	56%	53%	54%	>60%

- III. Total number of certificates/degrees produced, broken out by:

- a) Certificates of at least one academic year
- b) Associate degrees

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Certificates	120	120	109	120	>120
Associate Degrees	97	118	121	93	>130

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 5**

IV. Number of unduplicated graduates, broken out by:

- a) Certificates of at least one academic year
- b) Associate degrees

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Completers of Certificates	120	120	109	120	>120
Completers of Degrees	97	117	121	93	>130

**Reform Remediation**

- V. Percent of undergraduate, degree-seeking students taking a remediation course completing a subsequent credit bearing course (in the area identified as needing remediation) within a year with a "C" or higher

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Students	47%	47%	40%	28%	>45%

**Math Pathways**

- VI. Percent of new degree-seeking freshmen completing a gateway math course within two years

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Students	26%	30%	29%	24%	>31%

**Guided Pathways**

- VII. Percent of first-time, full-time freshmen graduating within 100% of time

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
FTFT Completers 100%	40%	30%	37%	46%	>40%

**GOAL 1: A Well-Educated Citizenry<sup>1</sup>**

The College of Eastern Idaho will provide excellent educational opportunities to enter the workforce or to continue their education with articulation agreements with universities.

Objective A: Access

Performance Measures:

- I. Annual number of students who have state funded or foundation funded scholarship:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
State Funded	2	4	15	44	>45
Foundation Funded	266	296	227	246	>350

- II. Percentage of high school students who enroll in CEI programs during the first year after graduation:

FY	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Percentage of Annual Enrollment who entered CEI within 1 year of High School	16%	18%	27%	N/A	>25%

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 5**

III. Total degree and certificate production and headcount:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Degrees/Certificates	217	239	228	213	>260
Completers	216	237	226	211	>245

Objective B: Adult Learner Re-Integration  
Performance Measures:

- I. Number of students enrolled in GED who are Idaho residents
- II. Number of students who complete their GED
- III. Number of students who go on to post-secondary education<sup>5</sup>

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Enrolled	273	242	N/A	458	>300
Completed	21	18	N/A	40	>30
Went On	77	141	N/A	N/A	>200

**GOAL 2: Innovation and Economic Development**

Objective A: Workforce Readiness  
Performance Measures:

- I. Number of graduates who found employment in their area of training
- II. Number of graduates who are continuing their education
- III. Number of graduates who found employment in related fields

Grad by FY	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
I. Employed In training area	177	195	195	N/A	>225
II. Continuing education	24	35	38	N/A	>50
III. Employed in related field	136	141	176	N/A	>175

IV. Percentage of students who pass the TSA for certification:

Percentage By FY	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
TSA Pass Percentage	96%	89%	92.6%	83.48%	96%

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 5**

**GOAL 3: Data-Informed Decision Making**

Objective A: Number of industry recommendations incorporated into career technical curriculum.<sup>4</sup>

Performance measures:

- I. Number of workforce training courses created to meet industry needs:

	FY 2017	FY 2018	Benchmark
WFT Courses	359	442	>440
Customized Training Courses	2,328	3,444	>4,000
Headcount	10,549	14,824	>16,000

**GOAL 4: Effective and Efficient Educational System<sup>1</sup>**

Objective A: High school senior who choose CEI as their first choice to higher education.

Performance Measures:

- I. Total fall enrollment students that are retained or graduate in the following fall:

FA	FA 2014	FA 2015	FA 2016	FY 2017	Benchmark
Grad or still enrolled	430	440	463	N/A	>480

- II. Number of high school students who took a remediation for Math or English:

FY	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Number of Students entering within one year of HS and ever taking a remedial course	57	55	56	N/A	<40

- III. Cost per credit hour –Financials as per IPEDS divided by total annual undergraduate credit hours:

FY	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Cost per Credit Hour	\$ 730	\$ 710	\$ 790	\$ 829	\$ <700

- IV. Number of students who successfully articulate another institution to further their education:

*FY	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Number Continuing On	148	84	55	N/A	>200

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 5**

**GOAL 5: Student Centered<sup>12</sup>**

Objective A: CEI faculty provides effective and student centered instruction.

Performance Measures:

- I. Utilization of annual Student Satisfaction Survey results for Student Centeredness. Gap per Noel Levitz Annual Survey:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
CEI	0.33	0.59	N/A	0.82	<0.25
PEERS	0.6	0.67	N/A	0.64	N/A

- II. Fall to Fall Retention - IPEDS Fall Enrollment Report:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
FTFT Fall-to-Fall Retention	68%	69%	54%	N/A	>74%

- III. Utilization of results of Student Satisfaction Survey results for Financial Aid Services. Gap per Noel Levitz Annual Survey:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
CEI	0.65	0.68	N/A	0.76	>0.78
PEERS	1.01	0.75	N/A	0.73	N/A

- IV. Utilization of results of Student Satisfaction Survey results for Financial Aid and the Admission Process (New Student Survey):

	FY 2016	FY 2017	FY 2018	Benchmark
Financial Aid	94%	94%	N/A	98%
Admissions	83%	94%	N/A	98%

Objective B: Tutoring Center provides services to support education success.

Performance Measures:

- I. Tutoring contact hours to support student needs:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Hours	4	5.76	8.5	9.3	>9.5

Objective C: CEI library services meets the expectation of students.

Performance Measures:

- I. Library services meet the expectations of students. Gap per Noel Levitz Annual Survey:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
CEI	0.38	0.19	N/A	0.09	>.15
PEERS	0.49	0.22	N/A	0.22	N/A

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

---

**ATTACHMENT 5**

Objective D: Increase the reach of the Center for New Directions (CND) to individuals seeking to make positive life changes.

Performance Measures:

- I. Number of applicants/students receiving CND services:

	FY 2015	FY 2016	FY 2017	FY 2018	Benchmark
Clients Served	258	273	266	301	>300

**GOAL 6: Cyber Awareness<sup>3</sup>**

Objective A: Regular Training

- I. CEI will establish a policy to provide regular training to all faculty and staff on best practices for cybersecurity protection using the DHR's recommendation and requirements.
- II. Annual number of trained faculty and staff.
- III. Benchmark to be 100% in 1 year.

Objective B: Specific Training for Super Users

- I. CEI will identify and track employees with elevated privileges and ensure that training meets their elevated status as a user and provide advanced training.
- II. Annual number of advanced users will be identified and trained.
- III. Benchmark to be 100% in 1 year.

Objective C: Monthly Awareness Emails

- I. CEI will send out monthly emails to inform employees on new cyber threats and hacking strategies. This will also include "best practices" for computer users.
- II. Benchmark to be monthly record of sent email.

Objective D: Policy Statement to be Signed by all Employees

- I. CEI will compose a policy for computer use on and off campus that relate to CEI activities and concerns. Employees will receive a copy of the policy each year when they sign their contracts.
- II. Benchmark to be 100% for all employees.

### **Key External Factors**

#### Funding:

Many of our strategic goals and objectives assume on-going and sometimes significant additional levels of State legislative appropriations. Recent funding for Career Technical Education has allowed CEI to respond to industry needs in a timely and efficient manner. The enrollment and graduation rates in many of the Career Technical Programs have limited facilities and seats available to students with waiting lists. The recent State funding has allowed us to hire new instructors and reduce many of the waiting lists. CEI was funded as a community college which allows us to offer the Associates of Arts and the Associates of Science Degrees for the first time in fall 2018. We are projecting growing enrollment over the next few years due to this funding. We are actively engaged in the “go on” rate in Idaho and working with the local high schools to recruit students.

### **Evaluation Process**

CEI is in the process of implanting a more thorough process for evaluation of its measures. The institution has adopted a cycle of continuous improvement known as the Mission Fulfillment process. The Mission Fulfillment Process is a Plan-Do-Study-Act process, which is how CEI implements, measures, adjusts, and informs budget proposals. There are four main areas of the process. Planning is the section of determining how new initiatives can be implemented. Do is the implementation and step for enacting the changes derived from the previous cycle. Study is one of the most intricate steps, it is called the Mission Fulfillment Report (MFR) cycle which encompasses the gathering and assessment of data from all institutional levels. Finally, the action step is where budgets, informed from the assessment, allows for allocations to improve measures. Figure 1: Mission Fulfillment Process is a depiction of the process flow.

## CEI IMPROVEMENT CYCLE

### Mission Fulfillment Process

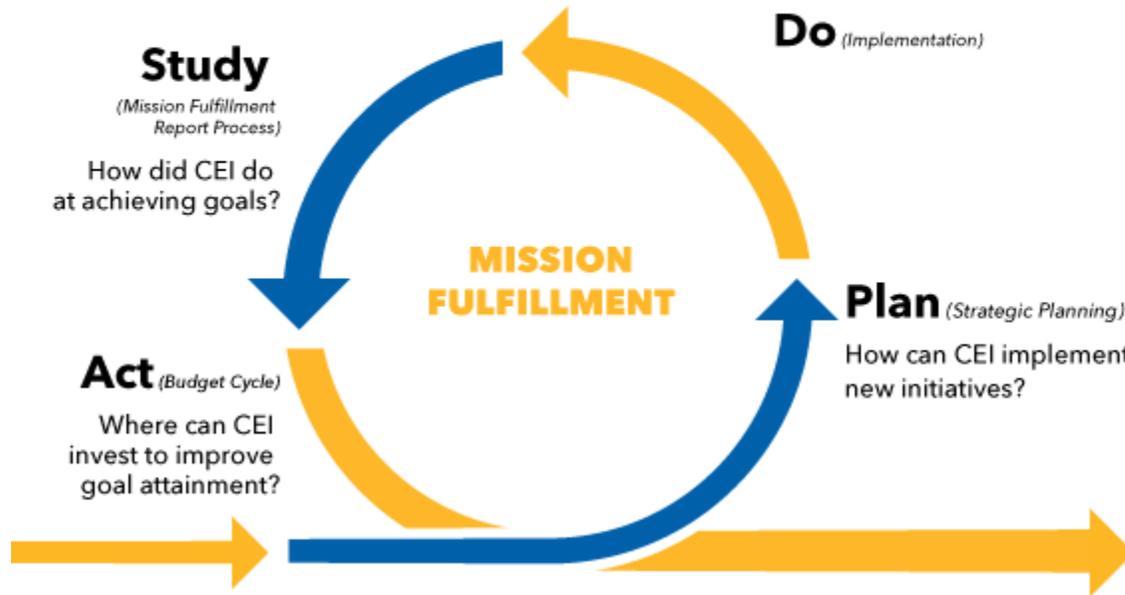

Figure 1: Mission Fulfillment Process

There are four main areas that make up the Mission Fulfillment Report (MFR). The gathering of information, assessment, adjustment, and implementation. The goal of the process is to collect data, to measure it against the benchmarks, and to present the findings for consideration of improvements. The cycle connects the employees to administration, to the trustees, and back to the employees. The cycle also identifies areas where improvements can be made to improve the measures through the allocation of resources.

<sup>1</sup>N/A - Has been used to indicate areas where reports or data have not finalized collection for the year in question or that are otherwise unavailable at the time this report was produced.

<sup>2</sup>In FY 2017 CEI transitioned the administration of the Noel Levitz survey from a fall to spring term resulting in the laps of reportable date for that period.

<sup>3</sup>Currently CEI is collecting data beginning from fall of 2018 that will be available for reporting by fall of 2019

<sup>4</sup>CEI has adjusted this measure. It has changed from misc. course to a more meaningful customized trainings and included WFT headcount.

<sup>5</sup>Due to updates in the ABE system table 5 has not been functional since 2016 resulting in data being unavailable for the students who continued on.

COLLEGE OF  
SOUTHERN  
IDAHO

~~2018-2022~~2019-2023  
STRATEGIC PLAN

**MISSION STATEMENT**

To provide quality educational, social, cultural, economic, and workforce development opportunities that meet the diverse needs of the communities we serve.

**VISION STATEMENT**

To improve the quality of life of those impacted by our services.

## DEFINITIONS OF MISSION TERMS

**“Provide quality...opportunities that meet...the diverse needs”**: This phrase is operationally defined within the document. Demonstration of mission fulfillment is based upon our ability to meet the performance indicators and benchmarks established in this document. These have been created to establish standards of quality that can be regularly assessed to ensure that we are providing quality opportunities that meet the diverse needs of the communities we serve.

**“Educational”**: Relating to activities typically encompassed by teaching and learning.

**“Social”**: Relating to the welfare of human beings as members of society.

**“Cultural”**: Relating to the customs, traditions, and values of a society.

**“Economic”**: Relating to economic development and economic welfare.

**“Workforce Development”**: Relating to the training of a qualified workforce.

**“Communities we serve”**: The communities we serve include the diverse populations of students, employees, and community members impacted by the college. These communities can be organized in many different ways. They include those living in our eight county service area as well as those who interact with the college from afar. They can also be organized by any number of demographic characteristics which transcend geographical boundaries.

## DEFINITIONS OF PLAN TERMS

**Goal/Core Themes**: Individually, core themes manifest the essential elements of our mission and collectively they encompass the mission. They represent the broad themes that guide planning processes designed to lead to mission fulfillment.

**Objectives**: Planning goals contained within each core theme that collectively lead to fulfillment of the core theme.

**Performance Measures**: Quantitative or qualitative indicators used to measure progress in meeting strategies, objectives, core themes, and ultimately, mission fulfillment.

**Critical Success Activity**: A specific action item that must be completed in order to reach fulfillment of a strategy, objective, or core theme.

**Benchmarks**: Targets established by the college in an effort to assess achievement, track progress over time, and set goals for improvement.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 6**

**GOAL/CORE THEME 1: COMMUNITY SUCCESS**

As a community college, we are committed to responding to the diverse needs of the communities we serve and to taking a leadership role in improving the quality of life of the members of those communities.

**Objective A:** Strengthen the communities we serve

**Performance Measure:**

- I. The College of Southern Idaho’s mission fosters interaction between the College and the people of the diverse communities it serves both geographically and demographically. The College measures performance of this important mission component by emphasizing human connectivity and cultural awareness through support of such activities as the Herrett Forum Lecture Series, Arts on Tour, and the Magic Valley Refugee Day, among many others. Additionally, CSI offers public events such as intercollegiate athletics, community education, and various camps and artistic performances in order to encourage learning and community interaction as well as for sheer entertainment. Finally, the College strengthens the community through its support of Head Start, the Office on Aging, and the Refugee Center, among other ancillary agencies. The College further strengthens the community with a commitment to sustainability and civility.

**Benchmark:** Because of the breadth and diversity of this objective, it is continually assessed at the program level as an observable objective rather than a quantifiably measurable objective.<sup>1</sup>

**Objective B:** Cultivate economic partnerships across the communities we serve

**Performance Measure:**

- I. The College of Southern Idaho’s mission promotes active participation in the economic development of the communities we serve. CSI measures performance in fulfilling this mission component through continued membership and active participation in such organizations as the Southern Idaho Economic Development Council (SIEDO), Jerome 20/20, Business Plus, Region IV Development (RIVDA), and Sun Valley Economic Development (SVED), among others. CSI also maintains active participation as a member of various chambers of commerce throughout the region along with other economic development agencies. While the College is never the sole reason that new companies move to the area, or that existing companies thrive, we strive to be a major contributor to both of these outcomes.

**Benchmark:** Because of the breadth and diversity of this objective, it is continually assessed at the specific program level as an observable objective rather than a quantifiably measurable objective.<sup>1</sup>

**Objective C:** Meet the workforce needs of the communities we serve

**Performance Measures:**

- I. Total Unduplicated Headcount of Workforce Training Completers and Total Course Completions (Sources: State Workforce Training Report and Internal Reporting)

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark

Undergraduate Cost Per Credit: IPEDS instruction, academic support, student services, institutional support, and other expenses and deductions, divided by annual weighted credit hours (Sources: Cost: IPEDS Finance Survey, Part C; Credits: Weighted PSR 1.5 [including non-resident] plus CTE credits weighted at 1.0)**

FY13 (2012-2013)	FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	Benchmark
NA	\$ 277.30 (\$50,266,494/ 181,270)	\$262.36 (\$44,004,146/ 167,724)	\$306.37 (\$48,285,971/ 157,609)	Less than \$300

Benchmark: Less than \$300<sup>28</sup> (by FY2019)

**XXV. Unduplicated headcount of all undergraduate degrees and certificates divided by \$100,000 of spending in IPEDS categories of instruction, academic support, student services, institutional support, and other expenses and deductions. (Source: IPEDS Completions of any degree or certificate; IPEDS Finance Survey, Part C)**

FY13 (2012-2013)	FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	Benchmark
NA	1,916 (963/\$502.66)	2,204 (970/\$440.04)	2,143 (1,035/\$482.86)	2.3

Benchmark: 2.3<sup>29</sup> (by FY2019)

**XLIII.I. Institutional reserves equal to three months of general fund budget. (Source: College of Southern Idaho)**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
17.2%	22.5%	27.3%	32.8%	25%

Benchmark: 25%<sup>28</sup> (by FY2020)

**II. Maintain a Composite Financial Index (overall financial health) appropriate for a debt free college. (Source: Composite Financial Index)**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
NA	2.91	2.62	3.66	2.5-5.0

Benchmark: 2.5-5.0<sup>29</sup> (by FY2020)

**Objective C:** Maintain a strong relationship with the CSI Foundation

**Performance Measures:**

**I. Total Dollar Amount Awarded to Students by the CSI Foundation**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
\$1.78 million	\$1.76 million	\$1.69 million	\$2.11 million	\$2.17 million

Benchmark: \$2.17 million (a 3% increase over the previous year)<sup>30</sup> (by FY2020)

**Objective D:** Enhance infrastructure resources to ensure the college is safe, sustainable, and inviting to all of the members of our communities

**Performance Measures:** This measure is under development

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 6**

**I. Potential measures tied to: Maintenance, Clery Report, IT service/availability, Cybersecurity**

**Benchmark: TBD <sup>31</sup> (To be established in 2020)**

**KEY EXTERNAL FACTORS:**

There are numerous external factors that could impact the execution of the College of Southern Idaho's Strategic Plan. These include, but are not limited to:

- Changes in the unemployment rate which has been shown to significantly impact enrollment;
- Changes in local, state, and/or federal funding levels;
- Changes to regional accreditation requirements;
- Circumstances of and strategies employed by our partners (e.g. K-12, higher education institutions, local industry);
- Legal and regulatory changes.

**EVALUATION PROCESS:**

The College of Southern Idaho Strategic Plan is evaluated annually by its locally elected Board of Trustees. Benchmarks are established and evaluated throughout the year by the College's Strategic Planning Steering Committee and by College administration. The College reports on achievement of benchmarks annually to the College of Southern Idaho Board of Trustees and to the Idaho State Board of Education.

---

**NOTES:**

<sup>1</sup>The college has chosen to classify this as an observable benchmark rather than a measurable benchmark. Our performance in strengthening our community and supporting economic development is tied to the College's support and involvement in numerous events, activities, projects, and agencies throughout our service region. These are constantly evaluated through interaction with our constituents at the individual program level. These self-assessments and evaluations provide information used for on-going improvement through our annual strategic planning review and revision cycle. Rather than setting a quantitative benchmark for this performance measure, the College chooses to assess fulfillment of this objective through these program level observations.

<sup>2</sup>The college has chosen to classify this as an observable benchmark rather than a measurable benchmark. Workforce enrollment fluctuates significantly based upon economic conditions outside of the College's control. Annually, CSI expects to meet all workforce training request made by industry partners. Further, the College is continually seeking new avenues for workforce training that will benefit the communities we serve. Rather than setting a quantitative benchmark for this performance measure, the College chooses to assess fulfillment of this objective through these program level observations.

<sup>3</sup>CSI Career Technical Education (CTE) students are enrolled in short-term and 1-Year Certificate Programs along with 2-Year Associate of Applied Science Programs. Given that, as a full-time student it takes two years to graduate with an Associate of Applied Science Degree and one year to graduate with most Technical Certificates, we are targeting a 62% completion rate each year for our CTE students.

<sup>4</sup>This benchmark has been established based upon an average of the past four years of placement. While the current benchmark is below the most recent annual placement level, external forces (e.g. unemployment rate) can significantly impact achievement of this benchmark.

<sup>5</sup>A 2% annual growth rate in headcount meets institutional targets.

<sup>6</sup>A 1% annual growth rate in full-time equivalency meets institutional targets.

<sup>7</sup>The college has chosen to treat this as an observable benchmark, rather than a measurable benchmark. While it is critical that the college track this method of student access, setting a measurable goal is not appropriate at this time.

<sup>8</sup>This benchmark has been established to ensure that tuition aligns with peer institutions in the state and remains affordable for students.

<sup>9</sup>This benchmark reflects the estimated Hispanic/Latino population in the College's eight county service area. The enrollment calculation is based upon the US Department of Education's IPEDS enrollment calculation for Hispanic Serving Institution Designation. (The sum of the number of students enrolled full-time at an institution, plus the full-time equivalent of the number of students enrolled part time [determined on the basis of the quotient of the sum of the credit hours of all part-time students divided by 12] at the institution.)

<sup>10</sup>Ninety percent is a reasonable target considering that comparison schools have averaged 85% during this same time period. Students are asked, "How would you evaluate your entire educational experience at this college?" (Percentage reflects those marking "Good" or "Excellent")

Source Note: The *Community College Survey of Student Engagement* (CCSSE) is an annual survey administered to community college students across the nation by the Center for Community College Student Engagement. CSI participates in the survey annually during the spring semester. In this metric, "comparison schools" consist of all other schools participating in the CCSSE during that term. Approximately 260 schools participated in the CCSSE during the current assessment period.

<sup>11</sup>The 61% benchmark for first-time, full-time students has been set as a stretch benchmark in light of several college initiatives focused on retaining students, and in recognition of Goal 2, Objective A of the Idaho State Board of Education Strategic Plan.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 6**

<sup>12</sup> The 73% benchmark for first-time in college students has been set as a stretch benchmark in light of several college initiatives focused on retaining students, and in recognition of Goal 2, Objective A of the Idaho State Board of Education Strategic Plan.

<sup>13</sup> Because degree completion is directly tied to enrollment, the college has not chosen to set a benchmark for this metric. Metric 2.C.IV (see footnote #14) examines completion in relation to enrollment and is benchmarked. This benchmark also recognizes Goal 2, Objective A of the Idaho State Board of Education Strategic Plan.

<sup>14</sup> The 31% benchmark has been established as a stretch benchmark in light of several initiatives the college has undertaken to increase graduation rates and in alignment with Goal 2, Objective A of the Idaho State Board of Education Strategic Plan.

<sup>15</sup> The College is working to move students initially placed into remediation into successful college level course completion as quickly as possible. These stretch benchmarks reflect a focus on continuous improvement in these areas. These benchmarks also recognize Goal 2, Objective B of the Idaho State Board of Education Strategic Plan.

<sup>16</sup> In recognition of data showing that math can be a significant barrier to student success, the college is working to get students through their college gateway math class as soon as possible in their college experience. This stretch benchmark reflects a focus on continuous improvement in this area. This benchmark also recognizes Goal 2, Objective B of the Idaho State Board of Education Strategic Plan.

<sup>17</sup> In recognition of data showing that students who complete 30 or more credits per year have more long-term success in college than students who do not, the college is working to encourage students to enroll in 30 or more credits per year. This stretch benchmark reflects a focus on continuous improvement in this area. This benchmark also recognizes Goal 2, Objective B of the Idaho State Board of Education Strategic Plan.

<sup>18</sup> The 63% benchmark has been established as a stretch benchmark in light of several initiatives the college has undertaken to increase graduation rates and in alignment with Goal 2, Objective B of the Idaho State Board of Education Strategic Plan.

<sup>19</sup> The 28% benchmark has been established in light of the recent positive trends in this area along with several initiatives the college has undertaken to increase graduation rates, and in alignment with Goal 2, Objective A of the Idaho State Board of Education Strategic Plan.

<sup>20</sup> While the IPEDS 100% of time to completion metric is unrealistic for most community college students given their part-time enrollment patterns, the College has set a benchmark to improve this percentage to 16%. The college also measures and benchmarks completion-based metric 2.C.XI (see footnote 21) which is tied to the VFA Six Year Completion rate. This benchmark also recognizes Goal 2, Objective A of the Idaho State Board of Education Strategic Plan.

<sup>21</sup> The current target is a stretch benchmark. It should be noted that this measure is based on a six-year cohort. Therefore, progress on college initiatives targeted at completion may take longer to appear in this metric.

<sup>22</sup> The College is working to reduce the number of credits earned at graduation by students who began their college career at CSI and are 23 or younger to 70 or fewer. Students over 23 are often returning to school after earning credits at an earlier point in time. Those past credits often inflate the final total of credits at graduation. This benchmark also recognizes Goal 2, Objective B of the Idaho State Board of Education Strategic Plan.

<sup>23</sup> CSI consistently receives scores above 95% on this metric. The college seeks to maintain this high level of satisfaction from year to year. Cohort colleges scored 94% on this metric in the most current assessment year. Students are asked, "Would you recommend this college to a friend or family member?" (Percentage reflects those marking "Yes.")

<sup>24</sup> The college is fully implementing a new program of General Education Student Learning Outcomes Assessment process after a pilot year. The current benchmark is set to ensure that at least 90% of courses at the college participate in the process this year. We will work to increase this percentage in the future.

<sup>25</sup> The college is fully implementing a new program of Program Level Student Learning Outcomes Assessment after a pilot year. The current benchmark is set to ensure that 100% of instructional programs at the college participate in the process this year.

<sup>26</sup> Students are asked about time spent, "participating in college-sponsored activities (organizations, campus publications, student government, intermural sports, etc.)" This benchmark reflects the College's work to increase participation in these areas. Cohort colleges scored 22% on this metric in the most current assessment year.

<sup>27</sup> CSI will participate in the Chronicle of Higher Education's *Great Colleges to Work For* survey for the second consecutive year in the spring of 2019. The College will work to improve its aggregate satisfaction score to 70% by 2023.

<sup>28</sup> The college maintains a 3-month (25% annual) reserve to ensure a stable fiscal environment. This meets generally accepted business practices.

<sup>29</sup> This benchmark recognizes a Composite Financial Index Ratio that has been deemed to be appropriate for debt-free colleges by the Composite Financial Index.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

---

**ATTACHMENT 6**

<sup>30</sup> This benchmark recognizes a growth target for total scholarship dollars awarded each year. The current goal is a 3% annual increase and is set by the College of Southern Idaho Foundation.

<sup>31</sup> This measure is under development as is set to be established by FY20.

Updated March 2019

# College of Western Idaho Strategic Plan 2019 – 2024

## STATUTORY AUTHORITY

This plan has been developed in accordance with Northwest Commission on Colleges and Universities (NWCCU) and Idaho State Board of Education standards. The statutory authority and the enumerated general powers and duties of the Board of Trustees of a junior (community) college district are established in Sections 33-2101, 33-2103 to 33-2115, Idaho Code.

## MISSION STATEMENT

*The College of Western Idaho expands learning and life opportunities, encourages individual advancement, contributes to Idaho's economic growth, strengthens community prosperity, and develops leaders.*

## VISION STATEMENT

*By 2040, the College of Western Idaho will be a best-in-class, comprehensive community college that will influence individual advancement and the intellectual and economic prosperity of Western Idaho. By providing a broad range of highly accessible learning opportunities, this Vision will be realized through the College's Presence, Practice, and Impact.*

## GOAL 1: Advance Student Success

*CWI values its students and is committed to supporting their success in reaching their educational and career goals.*

**Objective A:** Improving Student Retention, Persistence, and Completion

### Performance Measures:

#### *I. Increase percent of credit students who persist from term to term*

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
69%	68%	67%	68%	73%	>=71%

**Benchmark:** Term to term persistence rates will meet or exceed 71% by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**II. Number of degrees/certificates produced annually (IPEDS Completions)**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
<b>Degrees</b>					
895	895	996	979	984	>=1,000
<b>Certificates of at least 1 year</b>					
110	191	229	240	402	>=300

**Benchmark (state-wide performance measure):** Number of degrees produced annually (IPEDS completions) will meet or exceed 1,000 degrees by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**Benchmark (state-wide performance measure):** Number of certificates of at least one year produced annually (IPEDS completions) will be meet or exceed 300 certificates by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**III. Number of unduplicated graduates (IPEDS Completions)**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
<b>Degrees</b>					
822	824	910	893	891	>=975
<b>Certificates of at least 1 year</b>					
95	161	226	240	337	>=275

**Benchmark (state-wide performance measure):** Number of unduplicated graduates with degrees (IPEDS completions) will be greater than or equal to 975 by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**Benchmark (state-wide performance measure):** Number of unduplicated graduates with certificates of at least one year (IPEDS completions) will be greater than or equal to 275 by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**IV. Percentage of students completing 30 or more credits per academic year**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
3%	3%	4%	3%	4%	>=7%

**Benchmark (state-wide performance measure):** Percentage of students completing 30 or more credits per academic year will meet or exceed the FY18 Idaho 2-year Community College Average of 7% by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

\*Note: Prior reports calculated students completing 30 or more credits ever at the institution. Updated in FY18 to reflect students completing 30 or more credits per academic year.

**V. Percentage of first-time, full-time degree/certificate seeking students who graduate within 150% of time (IPEDS Graduation Rates)**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
Fall Cohort 2010 10%	Fall Cohort 2011 9%	Fall Cohort 2012 11%	Fall Cohort 2013 13%	Fall Cohort 2014 12%	>=16%

**Benchmark (state-wide performance measure):** Percentage of first-time, full-time degree/certificate seeking students who graduate within 150% of time (IPEDS Graduation Rates) will meet or exceed 16% by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**VI. Percentage of first-time, full-time degree/certificate seeking students who graduate within 100% of time (IPEDS Graduation Rates)**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
Fall Cohort 2010 4%	Fall Cohort 2011 3%	Fall Cohort 2012 6%	Fall Cohort 2013 3%	Fall Cohort 2014 6%	>=5%

**Benchmark (state-wide performance measure):** Percentage of first-time, full-time degree/certificate seeking students who graduate within 100% of time (IPEDS Graduation Rates) will meet or exceed 5% by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**Objective B:** Developing Effective Educational Pathways

**Performance Measures:**

**I. Increase percent of CWI Dual Credit students who transition to CWI programs within one year of high school graduation.**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
12%	13%	13%	13%	Not Yet Available	1% annual increase

**Benchmark:** Increase the number of Dual Credit students who transition to CWI programs within one year of graduation by 1% annually. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**II. Percentage of degree seeking students taking a remedial course who complete a subsequent credit bearing course with a C or higher within one year of remedial enrollment**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
English: 44% Math: 15%	English: 68% Math: 14%	English: 70% Math: 10%	English: 70% Math: 17%	English: 67% Math: 22%	English: 72% Math: >=25%

**Benchmark (state-wide performance measure):** Percentage of degree seeking students taking a remedial course who complete a subsequent credit bearing course with a C or higher within one year of remedial enrollment will be 72% for English and will meet or exceed 25% for Math by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART). Note: Prior years measure figures and current Benchmark updated in FY18 to reflect PMR Methodology for Math and English Remediation.

**III. Percentage of first time degree seeking students completing a gateway math course within two years of enrollment**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
27%	28%	28%	22%	24%	>=25%

**Benchmark (state-wide performance measure):** Percentage of first time degree seeking students completing a gateway math course within two years of enrollment will meet or exceed 25% by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**IV. Percentage of programs offering structured schedules.**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
100%	100%	100%	100%	100%	100%

**Benchmark (state-wide performance measure):** Percentage of programs offering structured schedules will be 100% by 2024. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**Objective C:** Developing Effective Educational and Career Pathways and Transfer Opportunities

**I. Increase percentage of students completing transfer programs who enroll at a four-year institution within one year of completion**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
53%	53%	52%	53%	Not yet available	>=60%

**Benchmark:** Increase transfer of General Education Academic Certificate (GEAC), AA and AS completers to four-year institutions to meet or exceed 60% by 2023 (based on highest level of completion). The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**GOAL 2: Promote and Invest in the Development of Quality Instruction**

*CWI will provide the highest quality instructional programs, which help learners achieve their goals and that also help the community and region to prosper.*

**Objective A:** Advancing Innovative Programming and Strategies.

**Performance Measures:**

***I. Increase success rates for students who enter CWI underprepared***

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
<b>English</b>					
NA	NA	Fall: 70% Spring: 68% Summer: 77%	Fall: 65% Spring: 74% Summer: 76%	Fall: 66%	>=80%

**Benchmark (English):** *By 2023, 80% or more of students who enter the English pipeline through English-plus co-requisite model successfully pass ENGL 101. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

**GOAL 3: Ensure Operational Stability and Compliance**

**Objective A:** Attracting and Retaining Appropriate Staffing Resources

***I. Increase number of programs that have full-time faculty at the sustainable/qualify target level by 2023***

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
85%	85%	85%	85%	85%	100%

**Benchmark:** *CWI will achieve 100% of disciplines at the sustainable target level by 2023. The benchmark was established based on past years' performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).*

**Objective B:** Adopt and Implement the National Institute of Standards and Technology (NIST) Cybersecurity Framework.

**Performance Measures:**

**I. Foster better risk and cybersecurity management communications and decision making with both internal and external stakeholders.**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
NA	NA	NA	In progress	Full Implementation	Full Implementation

**Benchmark (state-wide performance measure):** Adopt NIST standards by June 30, 2018 and complete IT Annual Work Plan implementation by FY18. The benchmark was established based on past years’ performance and with the intent of being a stretch goal that is specific, measurable, attainable, relevant, and time-bound (SMART).

**Key External Factors**

There are a number of key external factors that can have significant impact on our ability to fulfill our mission and institutional priorities in the years to come. Some of these include:

- Continued revenue. 35% of CWI’s revenue comes from State of Idaho provided funds (general fund, CTE, etc.). Maintaining parity with the state’s other community colleges is a stated objective within our strategic plan. Ongoing state funding is vital to the continued success of CWI.
- Enrollment. CWI is actively engaged in recruiting and retention efforts in all areas of student enrollment. With nearly 50% of revenue generated by active enrollments, it is critical that CWI reach out in meaningful ways to its service area to support ongoing learning opportunities for the community and maintain fiscal stability for the college.
- Economy. Recent years have shown that the state and national economy have significant impacts on enrollment in higher education.

**Evaluation Process**

The College of Western Idaho recently developed its Comprehensive Strategic Plan for 2019-2024 and created associated performance metrics and benchmarks. Evaluations are initiated at regular intervals, the scope and timing of which are determined by the lifecycle of the necessary processes and the impact to our students and institution. Where processes are maintained in a database, regular and recurring reports are leveraged to evaluate against stated standards. Where a more qualitative evaluation is employed, surveys or manual audits are performed to gauge delivery and performance.

When improvements are determined to be necessary, scope and impact to the student or business processes are then evaluated, desired outcomes are determined and a stated goal is formulated and then measured against existing goals or strategies to determine if it can be incorporated into existing structure or would be stand alone in nature. Once a new goal is incorporated, an evaluative process will be created, benchmarking will be established and recurring evaluations made.

FY 2020-2024  
 Strategic Plan

**MISSION STATEMENT**

North Idaho College meets the diverse educational needs of students, employers, and the northern Idaho communities it serves through a commitment to student success, educational excellence, community engagement, and lifelong learning.

**VISION STATEMENT**

As a comprehensive community college, North Idaho College strives to provide accessible, affordable, quality learning opportunities. North Idaho College endeavors to be an innovative, flexible leader recognized as a center of educational, cultural, economic, and civic activities by the communities it serves.

**GOAL 1: STUDENT SUCCESS**

A vibrant, lifelong learning environment that engages students as partners in achieving educational goals to enhance their quality of life.

Goal 1, Objective A: Provide innovative, progressive, and student-centered programs and services.

*Performance Measures*

- I. Percentage of first-time and new transfer-in students who were awarded a degree or certificate, transferred, or are still enrolled, within six years as defined by VFA. *Source: Voluntary Framework of Accountability (VFA).* [CCM 187]

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
65.7% (Fall 08 Credential- Seeking Cohort thru summer 14)	64.5% (Fall 09 Credential- Seeking Cohort thru summer 15)	65.8% (Fall 10 Credential- Seeking Cohort thru summer 16)	65.8% (Fall 11 Credential- Seeking Cohort thru summer 17)	70%

Benchmark: 70% <sup>1</sup> (by 2024)

- II. Percentage of NIC Dual Credit students that matriculate at NIC within three years after enrolling as a new NIC Dual Credit Student. *Source: NIC Trends.* [CCM 201]

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
34.7% (131/377) Fall 12 Cohort	34.7% (132/380) Fall 13 Cohort	29.1% (125/429) Fall 14 Cohort	26.9% (125/464) Fall 15 Cohort	35%

Benchmark: 35% <sup>2</sup> (by 2024)

Benchmark: Rank of 60% against IPEDS comparator institutions<sup>36</sup> (by 2023)

- IV. Auxiliary Services generates sufficient revenue to cover direct costs of operations. *Source: NIC Trends.* [CCM 170]

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
\$196,663 Net revenue	\$174,795 Net revenue	\$195,039 Net revenue	(\$41,047) Net Deficit	Annual direct costs maintained

Benchmark: Annual direct costs maintained<sup>37</sup> (by 2023)

Goal 5, Objective B: Demonstrate commitment to an inclusive and integrated planning environment.  
*This objective is currently under review.*

Goal 5, Objective C: Explore, adopt, and promote initiatives that help sustain the environment.

*Performance Measures*

- I. Energy consumption per gross square foot as determined by gas/electric costs. *Source: NIC Trends.* [CCM 192]

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
		\$0.98 per gross square foot \$702,624/719,173 square feet	\$0.99 per gross square foot \$720,212/727,863 square feet	Benchmark will be defined after 3 years of data is gathered

Benchmark: Benchmark will be defined after three years of data is gathered<sup>38</sup> (by 2020)

**KEY EXTERNAL FACTORS**

- Changes in the economic environment

- Changes in local, state, or federal funding levels
- Changes in local, state, or national educational priorities
- Changes in education market (competitive environment)

**EVALUATION PROCESS**

- Details of implementation
  - The Director of Institutional Effectiveness leads a variety of sub-groups at the college in an annual review and revision of the strategic plan. The strategic plan is organized to align with North Idaho College's core values. Together the core values and the strategic plan guide NIC to mission fulfillment.
- Status of goals and objectives
  - North Idaho College's goals for the strategic plan are also the college's core values. The objectives to meet the goals are reviewed with the data collected to determine if benchmarks have been met. The review process often leads to the following questions:
    - Is the data we are collecting providing information related to goal attainment?
    - Is additional data needed to better understand goal attainment?
    - Do the objectives need revision to reach goal attainment?
  - There were no substantial changes made to the goals and objectives in the past academic year.

**Footnotes**

---

<sup>1</sup> Benchmark is based on comparator institutions from the Voluntary Framework of Accountability (VFA). Numbers for those comparator institutions range between 62% and 66%. This measure is based on a six-year cohort, so initiatives targeted at completion may take longer to appear. This data reflects the credential-seeking cohort, which is determined by course taking behavior - students who earned a minimum of 12 semester credit hours by the end of their second year.

<sup>2</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. National Student Clearinghouse results were used to calculate these numbers.

<sup>3</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. National Student Clearinghouse results were used to calculate these numbers. Other Institutions excludes NIC.

<sup>4</sup> Benchmark currently under development. Total awards by award level.

<sup>5</sup> Benchmark currently under development.

<sup>6</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Job related placement = military, related to training, not related to training, or pursuing additional education. Percentages are calculated on respondents only.

<sup>7</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. This measure represents the number of students (duplicated headcount) who completed non-remedial courses with a C or better (or P or S). Denominator is the duplicated count of students enrolled in non-remedial courses at the end of term. Does not include labs, incompletes, or audits.

<sup>8</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement.

<sup>9</sup> Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. This cohort represents a small percentage of NIC's total credit student population. Rank for FY16 (2015-2016) was not included due to the low number of institutions within the comparator group that had available data.

<sup>10</sup> Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. This cohort represents a small percentage of NIC's total credit student population. Rank for FY16 (2015-2016) was not included due to the low number of institutions within the comparator group that had available data.

<sup>11</sup> Benchmark currently under development. Excludes non-degree seeking, Dual Credit, and 100% audits. Includes registered credits and credits awarded through placement tests; Summer/Fall/Spring.

<sup>12</sup> Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement.

<sup>13</sup> Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement.

<sup>14</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Service Area population numbers are based on United States Census Bureau estimates.

<sup>15</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Service Area population numbers are based on United States Census Bureau estimates.

<sup>16</sup> Benchmark currently under development.

<sup>17</sup> Benchmark currently under development. Full year cohort, first-time degree-seeking, full and part time (IPEDS). Gateway courses include MATH 123, 130, 143, 157, and 253.

<sup>18</sup> New measure; benchmark currently under development. There were only two programs under review in FY2018. In the Program Review document for Communications, there is wording of “improvements” in section 7.1. In the document for Culinary Arts, there is a statement that improvements were made to curriculum as a result of advisory committee meetings documented in section 7.4.

<sup>19</sup> Benchmark is set based on top schools combined with desired level of achievement. Data points represent benchmark scores for the CCSSE Benchmark: Student-Faculty Interaction. Benchmarks are groups of conceptually related survey items that address key areas of student engagement. Benchmark scores are standardized to have a mean of 50 and a standard deviation of 25 across all respondents. Top Schools are those that scored in the top 10 percent of the cohort by benchmark. CCSSE is a survey administered to community college students across the nation.

<sup>20</sup> Benchmark is set based on top schools combined with desired level of achievement. Data points represent benchmark scores for the CCSSE Benchmark: Support for Learners. Benchmarks are groups of conceptually related survey items that address key areas of student engagement. Benchmark scores are standardized to have a mean of 50 and a standard deviation of 25 across all respondents. Top Schools are those that scored in the top 10 percent of the cohort by benchmark. CCSSE is a survey administered to community college students across the nation.

<sup>21</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Each action for the goals is rated on a scale of 1 to 3: 3 = Action Met, 2 = Consistently Progressing, or 1 = Not Attempted. N/A = future timeline for the goal. The mean score of all actions is calculated and the percentage is used to evaluate this measure. The goals are evaluated annually.

<sup>22</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Slight change was made in methodology starting in 2016. Counts now include all active employees. Prior years reflected active employees who were paid within the fiscal year.

<sup>23</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Actual dollars spent on professional development.

<sup>24</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement.

<sup>25</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Percentages shown reflect the average pass rate of all programs. Programs may vary year to year. FY18 includes Medical Assistant, Pharmacy Technology, Physical Therapist Assistant, Practical Nursing, Registered Nursing, Law Enforcement, Radiography Technology, and Medical Laboratory Technology.

<sup>26</sup> Benchmark has been met; new benchmark is currently under development.

<sup>27</sup> Benchmark has been met; new benchmark is currently under development.

<sup>28</sup> Benchmark has been met; new benchmark is currently under development.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 8**

<sup>29</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. Data reflects the number of Distance Learning student credit hours out of number of both non-distance and distance student credit hours, end-of-term. Distance Learning is defined by Instructional Methods, including Internet, Blackboard Live, Hybrid, and IVC-receiving sites.

<sup>30</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. NIC Service Region comparison = 90% White, 7.9% Other, and 2.1% Unknown. Source = U.S. Census Bureau Quick Facts, July 2017.

<sup>31</sup> New measure; benchmark currently under development. Data will represent one custom survey question. The Community College Survey of Student Engagement (CCSSE) is a survey administered to community college students across the nation.

<sup>32</sup> Benchmark is based on national comparators combined with the desired level of achievement. Represents the percentage of students who answered "quite a bit" or "very much" to one individual survey question. The Community College Survey of Student Engagement (CCSSE) is a survey administered to community college students across the nation.

<sup>33</sup> Proficiency outcomes will be defined by spring 2020. GEM = General Education Requirements. GEM 5 = Humanistic & Artistic Ways of Knowing; GEM 6 = Social & Behavioral Ways of Knowing.

<sup>34</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement.

<sup>35</sup> Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement.

<sup>36</sup> Benchmark is set based on IPEDS data from comparator institutions combined with the desired level of achievement. Cost includes Instruction, Academic Support, Student Services, Institutional Support, and Other Expenses/Deductions (as reported to IPEDS). Graduates count is unduplicated. Includes all degrees/certificates as reported to IPEDS, including those certificates of less than one year.

<sup>37</sup> Benchmark is set based on an analysis of historical trends combined with the desired level of achievement. The deficit in 17-18 is due to an unusual increase in "other expenses" - \$1.3M that resulted in a negative balance of \$177K for residence hall income for that year. Stewardship is displayed by leveraging resources to contribute to the economic viability of NIC. Conference & Events (Schuler Performing Arts Center) has historically received General fund support due to its service related to instruction programs. The Student Wellness & Recreation Center is funded by student fees and building revenues. Auxiliary Services Operating Units include: Bookstore, Dining Services, Residence Hall, Student Union Operations, Cardinal Card Office, Financial Services, Parking Services, Conference & Events, and the Student Wellness & Recreation Center.

<sup>38</sup> Benchmark will be defined after three years of data is gathered.

**Appendix 1**

	Goal 1: EDUCATIONAL SYSTEM ALIGNMENT	Goal 2: EDUCATIONAL ATTAINMENT	Goal 3: WORKFORCE READINESS
<b>Institution/Agency Goals and Objectives</b>			
GOAL 1: STUDENT SUCCESS: A vibrant, lifelong learning environment that engages students as partners in achieving educational goals to enhance their quality of life			
Objective A: Provide innovative, progressive, and student-centered programs and services.	✓	✓	
Objective B: Engage and empower students to take personal responsibility and to actively participate in their educational experience.		✓	✓
Objective C: Promote programs and services to enhance access and successful student transitions.		✓	
GOAL 2: EDUCATIONAL EXCELLENCE: High academic standards, passionate and skillful instruction, professional development, and innovative programming while continuously improving all services and outcomes			
Objective A: Evaluate, create and adapt programs that respond to the educational and training needs of the region.		✓	✓
Objective B: Engage students in critical and creative thinking through disciplinary and interdisciplinary teaching and learning.	✓		✓
Objective C: Strengthen institutional effectiveness, teaching excellence and student learning through challenging and relevant course content, and continuous assessment and improvement.	✓	✓	
Objective D: Recognize and expand faculty and staff scholarship through professional development.	✓		
GOAL 3: COMMUNITY ENGAGEMENT -Collaborative partnerships with businesses, organizations, community members, and educational institutions to identify and address changing educational needs			

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 8**

Objective A: Advance and nurture relationships throughout our service region to enhance the lives of the citizens and students we serve.			✓
Objective B: Demonstrate commitment to the economic/business development of the region.			✓
Objective C: Promote North Idaho College in the communities we serve.		✓	
Objective D: Enhance community access to college.		✓	
<b>GOAL 4: DIVERSITY - A learning environment that celebrates the uniqueness of all individuals and encourages cultural competency</b>			
Objective A: Foster a culture of inclusion.	✓		
Objective B: Promote a safe and respectful environment.	✓		
Objective C: Develop culturally competent faculty, staff and students.			
<b>GOAL 5: STEWARDSHIP - Economic and environmental sustainability through leadership, awareness, and responsiveness to changing community resources</b>			
Objective A: Exhibit trustworthy stewardship of resources.		✓	
Objective B: Demonstrate commitment to an inclusive and integrated planning environment.	✓		
Objective C: Explore, adopt, and promote initiatives that help sustain the environment.			

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**Appendix 2**

**NIST Cybersecurity Framework Adoption Progress**

North Idaho College (NIC) has adopted the National Institute of Standards and Technology (NIST) Framework and is currently aligning security practices to the framework and subcategories. NIC has worked with other CIO's and Security teams in Idaho Higher Education and have adopted the CSC controls along agreed upon exceptions where the nature of higher education limit the ability to fully satisfy each control (see exceptions below).

**CSC Controls Progress (Note: This list reflects CSC numbering as defined when NIC first implemented them and not the latest Version 7)**

Control	Progress	Expected Substantial Completion	Exceptions	Notes
<b>CSC 1:</b> Inventory of Authorized and Unauthorized Devices	Implemented with exceptions	August 2018	802.1x certificates for all devices	Currently implemented on all NIC owned machines. Unable to inventory all public wireless devices.
<b>CSC 2:</b> Inventory of Authorized and Unauthorized Software	Implemented with exceptions	August 2018	Software Whitelisting	Currently implemented on all NIC owned machines. Due to nature of education and software, management of white listing every application is not feasible.
<b>CSC 3:</b> Secure Configurations for Hardware and Software	Mostly Implemented with exceptions	August 2018	File integrity checking tools	Currently done as best practices. Continue to align to NIST framework and document practices for standardization. NIC does not currently have a Security Content Automation Protocol (SCAP) tool.
<b>CSC 4:</b> Continuous Vulnerability Assessment and Remediation Control Description	Implemented with exceptions	June 2018	Scope of scanning limited to servers only	Does not include third party/independent scanning.
<b>CSC 5:</b> Controlled Use of Administrative Privileges	Implemented with exceptions	June 2018	Scope of control limited to server core and network admin privileges	All Windows Server Admin credentials now utilize controlled use of Admin Privileges.

## Strategic Plan

FY2020-FY2024

---

**STRATEGIC PLAN**

**MISSION STATEMENT**

The mission of the Career Technical Education system is to prepare Idaho’s youth and adults for high-skill, in-demand careers.

**VISION STATEMENT**

The vision of Idaho Career & Technical Education is to be:

1. A premiere educational opportunity for students and adults to gain relevant workforce and leadership skills in an applied setting;
2. A gateway to meaningful careers and additional educational opportunities; and
3. A strong talent pipeline that meets Idaho business workforce needs.

**GOAL 1**

EDUCATIONAL SYSTEM ALIGNMENT – Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

**Objective A:** *Technical assistance and support for CTE programs – Provide timely, accurate, and comprehensive support to CTE programs that meets the needs of administrators and instructors at both the secondary and postsecondary levels.*

**Performance Measures:**

- I. *The overall satisfaction levels of administrators and instructors with the support and assistance provided by CTE.*

*Baseline data/Actuals:* Initial Survey 2016

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
	<b>3.27</b>	<b>3.46</b>		<b>Improvement</b>

**Benchmark:** Annual improvement in satisfaction levels.<sup>1</sup>

**Objective B:** *Data-informed improvement – Develop quality and performance management practices that will contribute to system improvement, including current research, data analysis, and strategic and operational planning.*

**Performance Measures:**

- I. *Full implementation of Career & Technical Education Management System (C-TEMS).*

*Baseline data/Actuals:* 2009 - C-TEMS development began

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
		<b>System Launch</b>		<b>Analyze System Data</b>

**Benchmark:** By FY2019, begin analyzing system data.<sup>2</sup>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 9**

- II. Using a desk audit function, the percent of secondary programs reviewed for quality and performance on an annual basis.**

**Baseline data/Actuals:** FY2017 Actual -- Test data collected for each data element

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
	Launch	100%	100%	100%

**Benchmark:** All pathway programs are subject to an annual desk audit.<sup>3</sup>

**Objective C:** *Funding Quality Programs – Secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry.*

**Performance Measures:**

- I. A secondary program assessment model that clearly identifies the elements of a quality program.**

**Baseline data/Actuals:** FY2017: Develop a plan for program assessment.

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
	Plan development, including data elements	Identified preliminary measures and secured ongoing funding		Identify comprehensive measures

**Benchmark:** Identify long-term strategies to comprehensively assess high quality secondary CTE programs by FY2020.<sup>4</sup>

**Objective D:** *Create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements.*

**Performance Measures:**

- I. Secondary student pass rate for Technical Skill Assessment (TSA).**

**Baseline data/Actuals:** Baseline FY15 – 71.7

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
72.4	55.0	66.2		67.0

**Benchmark:** 67.0 pass rate by 2019<sup>5</sup>

- II. Postsecondary student pass rate for Technical Skill Assessment (TSA).**

**Baseline data/Actuals:** Baseline FY15 – 92.6

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
93.1	90.2	88.7		92.8

**Benchmark:** 92.8 pass rate by 2019<sup>6</sup>

- III. Positive placement rate of secondary concentrators.**

**Baseline data/Actuals:** Baseline FY15 – 94.1

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
93.2	95.8	94.4		94.3

**Benchmark:** 94.3 placement rate by FY 2019<sup>7</sup>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 9**

**IV. Implementation of competency-based SkillStack® micro-certifications for all relevant programs of study.**

**Baseline data/Actuals:** Baseline FY16 – 0

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
0	9	20	26	<del>3523</del>

**Benchmark:** By FY20~~2019~~, implement SkillStack for ~~3523~~ programs<sup>8</sup>

**V. Number of program standards and outcomes that align with industry standards.**

**Baseline data/Actuals:** FY2017 Actual - 37

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
	37	46	52	<del>4852</del>

**Benchmark:** ~~48-52~~ programs by FY2020<sup>9</sup>

**GOAL 2**

EDUCATIONAL ATTAINMENT – Idaho’s public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.

**Objective A:** Support State Board Policy III.Y by aligning similar first semester CTE programs among the technical colleges and ensuring that secondary program standards align to those postsecondary programs.

**Performance Measures:**

**I. Number of postsecondary programs that have achieved statewide alignment of courses in their first semester.**

**Baseline data/Actuals:** Baseline FY16 – 0

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
0	9	20	26	<del>3523</del>

**Benchmark:** ~~235~~ programs by FY20~~2019~~<sup>10</sup>

**II. The percent of secondary CTE concentrators who transition to postsecondary CTE programs.**

**Baseline data/Actuals:** Baseline FY18 – To Be Determined

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
				Baseline

**Benchmark:** Identify baseline data by FY2018<sup>11</sup>

**Objective B:** Talent Pipelines/Career Pathways – CTE students will successfully transition from high school and postsecondary education to the workplace through a statewide career pathways model.

**Performance Measures:**

**I. Placement rate of postsecondary program completers in jobs related to their training.**

**Baseline data/Actuals:** Baseline FY15 – 68

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 9**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
64.6	60.1	55.8		65

Benchmark: 65 placement rate by 2020<sup>12</sup>

**II. Positive placement rate of postsecondary program completers.**

*Baseline data/Actuals:* Baseline FY15 – 84.7

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
93.7	96.4	94.6		95.6

Benchmark: 95.6 placement rate by FY 2018<sup>13</sup>

**III. The percent of secondary CTE concentrators who transition to postsecondary education.**

*Baseline data/Actuals:* Baseline FY15 – 64

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
63.3	65.9	67.4		70

Benchmark: 70 percent by 2020<sup>14</sup>

**GOAL 3**

WORKFORCE READINESS- The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

**Objective A:** *Workforce Training – Non-credit training will provide additional support in delivering skilled talent to Idaho’s employers.*

**Performance Measures:**

~~I. Percent of students who enter an occupation related to their workforce training (non-credit bearing training).~~

II. The percent of Workforce Training students who complete their short-term training.

*Baseline data/Actuals:* FY2018 – Identify Baseline

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
93	90	93		Baseline 90

~~Benchmark: 90 percent average completion mark: Identify baseline data by FY2018~~<sup>15</sup>

~~Benchmark: 90 percent average completion~~<sup>16</sup>

**Objective B:** *Adult Education (AE) – AE will assist adults in becoming literate and obtaining the knowledge and skills necessary for employment and economic self-sufficiency.*

**Performance Measures:**

I. *The percent of AE students making measurable improvements in basic skills necessary for employment, college, and training (i.e. - literacy, numeracy, English language, and workplace readiness).*

*Baseline data/Actuals:* FY2016 – 33

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
33	38	39		47

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 9**

Benchmark: By FY2020, 47% of AE students make measurable progress.<sup>17</sup>

~~The percent of low skilled adults provided with a viable alternative “entry point” for the workforce and Career Pathway system, who have a positive student placement after program exit.~~

~~Baseline data/Actuals: FY 2019 – Identify baseline data~~

<del>FY16 (2015-2016)</del>	<del>FY17 (2016-2017)</del>	<del>FY18 (2017-2018)</del>	<del>FY19 (2018-2019)</del>	<del>Benchmark</del>
				<del>Identify baseline data</del>

~~Benchmark: Identify baseline data by FY2019.~~<sup>18</sup>

**Objective C:** *Centers for New Directions (CND) – CNDs will help foster positive student outcomes, provide community outreach events and workshops, as well as collaborate with other agencies.*

**I. Percent of positive outcomes/retention that lead to completing a CTE program of study, entering employment or continuing their training.**

*Baseline data/Actuals: FY 2016 – 89*

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
89	80	60		90

Benchmark: 90% positive outcome rate annually.<sup>19</sup>

**II. Number of institutional and community event/workshop hours provided annually that connect students to resources with other agencies, in addition to institutional resources.**

*Baseline data/Actuals: Average 5,000 hours annually*

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
	6,861	7,382		5,000

Benchmark: Maintain an average of 5,000 contact hours annually.<sup>20</sup>

**Key External Factors**

- Lack of knowledge, perceptions, and stigma regarding career opportunities available through career & technical education. As the labor market and overall economic conditions improve, fewer students are expected to enroll in postsecondary CTE programs.
- Policies, practices, legislation, and governance external to ICTE.
- Ability to attract and retain qualified instructors, particularly those who are entering teaching from industry.
- Local autonomy and regional distinctions including technical college institutional priorities/varied missions.
- Timely access to relevant, comprehensive, and accurate data from external reporting sources affects the ability of ICTE to conduct statewide data analyses.

**Evaluation Process**

*Objectives will be reviewed at least annually (more frequently if data is available). The ICTE Leadership Team will review the data in terms of its alignment with objectives, as well as assess progress toward reaching benchmarks. As necessary, the team will identify barriers to success, strategies for improvement, and any additional resources necessary to make measurable progress. As appropriate,*

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

*ICTE will make requests through its budget and legislative requests to support the agency's goals and objectives*

---

<sup>1</sup> Based on survey results; intended to improve communication and feedback with secondary and postsecondary stakeholders.

<sup>2</sup> Based on ICTE goal to improve data accuracy and reduce reporting burden on districts.

<sup>3</sup> Based on ICTE goal to improve program assessment process and 2018 legislative request for incentive funding.

<sup>4</sup> Based on ICTE goal to improve data accuracy and reduce reporting burden on districts.

<sup>5</sup> Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline. After submission of our Strategic Plan for FY19, a comparative analysis looked at data from our assessment vendors compared to self-reported numbers. As part of our program alignment efforts and using approved vendors we anticipated lower numbers and the lower score more accurately reflects those efforts. In FY17, the Office of Career & Technical Education (OCTAE) approved lower benchmarks based on methodology changes for collecting data and our alignment efforts.

<sup>6</sup> Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline.

<sup>7</sup> Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline.

<sup>8</sup> ICTE goal to coincide SkillStack® rollout with the completion of program alignment and standard setting.

<sup>9</sup> Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.

<sup>10</sup> Based on current rate of program alignment.

<sup>11</sup> Based on program alignment efforts: measuring the go-on rate of students in a CTE capstone course for the identified ~~nine~~-aligned programs who continue CTE at the postsecondary level.

<sup>12</sup> Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.

<sup>13</sup> Federally negotiated benchmark. FY19 targets are negotiated and approved after Strategic Plan deadline.

<sup>14</sup> Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.

<sup>15</sup> Based on goal to improve positive placement rate at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.

~~<sup>16</sup> Based on goal to improve positive placement monitor completion rates at the postsecondary level and to better meet workforce needs by increasing the talent pipeline.~~

<sup>17</sup> Federally negotiated benchmark.

~~<sup>18</sup> Federally negotiated benchmark. Baseline data will then be used to determine performance targets.~~

<sup>19</sup> Based on goal of continuing current outcome rates. Statewide totals (FY18) are missing NIC data due to staff vacancies.

<sup>20</sup> Based on current average number of contact hours statewide.

*Mandated Cyber Security Strategic Plan*

**THE OFFICE OF THE GOVERNOR**  
**EXECUTIVE DEPARTMENT STATE OF IDAHO**  
**BOISE**

**EXECUTIVE ORDER NO. 2017-02**

**Career Technical Education – Cyber Security Implementation Plan**

Idaho Division of Career Technical Education (CTE) has been working on proactive steps to mitigate cybersecurity risk. To increase the Department's capacity and ability to protect its systems and the data with which it is entrusted, the Agency has begun to work on the following:

1. CTE has adopted the National Institute of Standards and Technology (NIST) Which will outline the Center for Internet Security Controls (CIS) Working with SDE's Security Coordinator to work on policy and implementation of security initiatives
2. Will have implemented cybersecurity awareness training (KnowBe4) for all CTE employees and initiated in-depth training for key personnel.
3. Begun the process to implement the first five Center for Internet Security Critical Security Controls (CIS Controls).
4. CTE has purchased, installed and configured Ivanti (Landesk) Secure User Management Suite) which will cover the first five (5) CIS controls listed below.

**CSC1: *Inventory of Authorized and Unauthorized Devices***

*Actively manage (inventory, track and correct) all hardware devices on the network so that only authorized devices are given access, and unauthorized and unmanaged devices are found and prevented from gaining access.*

**CSC2: *Inventory of Authorized and Unauthorized Software***

*Actively manage (inventory, track and correct) all software on the network so that only authorized software is installed and can execute, and that unauthorized and unmanaged software is found and prevented from installation and execution.*

**CSC3: *Secure Configuration of Hardware and Software on Mobile Devices, laptops, Servers and Workstations.***

*Establish, implement and actively manage (track, report and correct) the security configuration of Laptops, servers and workstations using a rigorous configuration management and change control process in order to prevent attackers exploiting vulnerable services and settings.*

**CSC4: *Continuous Vulnerability Assessment and Remediation***

*Continuously acquire, access, and take action on new information in order to identify vulnerabilities, remediate and minimize the windows of opportunity for attackers.*

**CSC5: *Controlled Use of Administrative Privileges***

A process with tools used to track/control/prevent/correct the use, assignment and configuration of administrative privileges on Computers, Networks and Applications.

The tools CTE will be using to implement the first 5 NIST controls.

Ivanti – Secure User Management Suite (LANDesk)  
KnowBe4 (end user training)

Idaho Division of  
Vocational Rehabilitation

FY202019 - 20243

## Content and Format

The Plan is divided into four sections. The first three sections describe the programs administered under the Idaho Division of Vocational Rehabilitation (IDVR). Each of the programs described, Vocational Rehabilitation, Extended Employment Services, and the Council for the Deaf and Hard of Hearing, outline specific goals, objectives, performance measures, benchmarks and/or baselines for achieving their stated goals. The final section addresses external factors impacting IDVR.

Due to requirements outlined in the Workforce Innovation and Opportunity Act (WIOA) and from Rehabilitation Services Administration (RSA), IDVR ~~now~~ programmatically operates under a Program Year instead of a Federal Fiscal Year, as outlined in previous strategic plans. ~~The~~ Program Year aligns with Idaho's State Fiscal Year. All three programs under the Division will adhere to state fiscal year reporting for this Plan. This Plan covers fiscal years 20~~2019~~ through 202~~19~~.

This is ~~the second year of IDVR's an entirely new~~ Strategic Plan ~~as a result for the Division because~~ of the significant changes resulting from the Workforce Innovation and Opportunity Act (WIOA) and the Division's ~~latestmost recent~~ Comprehensive Statewide Needs Assessment (CSNA), both of which impacted ~~ed~~ the goals and objectives for the Vocational Rehabilitation program. The changes resulting from WIOA also lead the Division to modify both the mission and vision statements to better reflect the focus on the dual customer; individuals with disabilities and employers. The Workforce Innovation and Opportunity Act dramatically shifted the performance measures for the VR program to be more in alignment with the other core WIOA programs. Rehabilitation Services Administration is providing VR programs time to collect the new data necessary to establish baseline data which will be used to establish levels of performance before negotiating expected target levels of performance in future years for these new performance measures. Baseline data collection will continue for at least the next ~~two~~ state fiscal years (~~SY2019 and SY2020~~).

## Vocational Rehabilitation

### Vision

An Idaho where all individuals with disabilities have the opportunity to participate in the workforce and employers value their contributions.

### Mission

To prepare individuals with disabilities for employment and career opportunities while meeting the needs of employers.

## Vocational Rehabilitation

**Goal 1 – Provide quality, relevant, individualized vocational rehabilitation services to individuals with disabilities to maximize their career potential.**

**Objective 1:** Expand, monitor, and improve pre-employment transition services (Pre-ETS) to students with disabilities and similar services to youth.

**Performance Measure 1.1:** Number of students receiving Pre-employment Transition Services (Pre-ETS)

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	N/A	<del>301</del> N/A	<del>1180</del> 304	≥ <del>1147</del> 304

**Benchmark:** Greater than or equal to ~~1180~~304 for SY~~19~~20<sup>1</sup>

**Performance Measure 1.2:** Number of youth applications for program participants under the age of 25.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	N/A	<del>812</del> N/A	<del>856</del> 842	≥ <del>856</del> 842

**Benchmark:** Greater than or equal to ~~856~~842 for SY~~20~~19<sup>2</sup>

**Objective 2:** Provide a comprehensive array of services to individuals with disabilities, including individuals with Most Significant Disabilities (MSD).

**Performance Measure 2.1:** For all successful Supported Employment closures: the percentage of customers employed in the 2nd quarter after exit.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	N/A	N/A	<del>81</del> N/A%	≥ 60%

**Benchmark:** Greater than or equal to 60% for SY~~21~~19<sup>3</sup>

### **Performance Measure 2.2**

For all successful Supported Employment closures: the percentage of customers employed in the 4th quarter after exit.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	N/A	N/A	N/A	≥ 50%

**Benchmark:** Greater than or equal to 50% for SY~~21~~19<sup>4</sup>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 10**

**Performance Measure 2.3:** Number of Regions where Customized Employment is available.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	N/A	<del>3</del> N/A	3	8 Regions (100%)

**Benchmark:** All 8 Regions <sup>5</sup> (by SY 2020)

**Objective 3:** Hire and retain qualified staff to deliver quality vocational rehabilitation services.

**Performance Measure 1:** Percentage of counselors who meet Comprehensive System of Personnel Development (CSPD) compliance.

SY2015	SY2016	SY2017	SFY2018	Benchmark
<u>85.789.8%</u>	<u>7985.7%</u>	<u>77.879%</u>	<u>7477.8%</u>	≥ 85%

**Benchmark:** Greater than 85% for SY~~2018~~<sup>2019</sup> <sup>6</sup>

**Goal 2 – Improve VR program efficiency through continuous quality improvement activities.**

**Objective 1:** Meet or exceed targets for the first five Primary Performance Indicators established by the US Department of Education, Rehabilitation Services Administration (RSA).

**Performance Measure 2.1:** Meet or exceed negotiated targets on the following five measures.

Performance Measure	SY2015	SY2016	SY2017	SY2018	Benchmark
1. <i>Employment Rate – 2<sup>nd</sup> Qtr after Exit</i>				<u>55%</u>	≥ 65%
2. <i>Employment Rate – 4<sup>th</sup> Qtr after Exit</i>				<u>N/A</u>	≥ 55%
3. <i>Median Earnings – 2<sup>nd</sup> Qtr after Exit</i>				<u>\$3870</u>	≥ \$4680 per
4. <i>Credential Attainment</i>				<u>N/A</u>	≥ 22%
5. <i>Measurable Skill Gains</i>				<u>25%</u>	≥ 20%

**Benchmark:** Greater than or equal to 65% <sup>7</sup>, greater than or equal to 55% <sup>8</sup>, greater than or equal to \$4680 per quarter <sup>9</sup>, greater than or equal 22% <sup>10</sup>, greater than or equal 20% <sup>11</sup> (all benchmarks by 2021):

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

**ATTACHMENT 10**

**Objective 2.2:** Evaluate the satisfaction of customer's vocational rehabilitation experience and service delivery.

**Performance Measure 2.2:** Customer satisfaction rate.

SY2015	SY2016	SY2017	SY2018	Benchmark
<del>87.7%</del> 93.6	<del>89.18</del> 7.8%	<del>88.58</del> 9.1%	<del>87.18</del> 8.5%	≥ 90% satisfaction rate

**Benchmark:** Greater than or equal to 90% for SY~~2019~~ <sup>12</sup>

**Objective 2.4:** Collaborate with Community Rehabilitation Program partners to improve the quality of services.

**Performance Measure 2.4:** Of those cases using CRP employment services (non-assessment), the percentage which contributed to successful case closure.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	N/A	N/A	<del>N/A</del> 43%	≥ 30%

**Benchmark:** Greater than or equal to previous year in SY~~2019~~ <sup>13</sup>

**Goal 3 – Meet the needs of Idaho businesses**

**Objective 3.1:** IDVR to be recognized by the business community as the disability experts in the workforce system by providing employers with skilled workers who maintain employment with that employer.

**Performance Measure 3.1.1:** Retention Rate with the Same Employer the 4<sup>th</sup> quarter after exit.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	N/A	N/A	N/A	≥ 50%

**Benchmark:** Greater than or equal to 50% for SY~~2119~~ <sup>14</sup>

## Extended Employment Services

### Mission

Idahoans with significant disabilities are some of the state's most vulnerable citizens. The Extended Employment Services (EES) Program provides individuals with the most significant disabilities employment opportunities either in a community supported or workshop setting.

### Vision

Provide meaningful employment opportunities to enable citizens of Idaho with the most severe disabilities to seek, train-for, and realize real work success.

### Goal #1 – Provide employment opportunities for individuals who require long-term support services through the Extended Employment Services program.

1. **Objective:** To provide relevant and necessary long-term supports to assist individuals with the most significant disabilities to maintain employment.

**Performance Measure 1.1:** Number of individuals served.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	<u>647</u> N/A	<u>838</u> 647	<u>819</u> 838	≥ previous year performance

**Benchmark:** Greater than or equal to previous year in SY~~2019~~<sup>15</sup>

**Performance Measure 1.1:** Number of individuals on the EES waitlist.

SY2015	SY2016	SY2017	SY2018	Benchmark
N/A	<u>292</u> N/A	<u>208</u> 292	<u>0</u> 208	≤ on waitlist than previous year

**Benchmark:** Less than or equal to previous year in SY~~2019~~<sup>16</sup>

## Council for the Deaf and Hard of Hearing (CDHH)

### Role of CDHH

CDHH is an independent agency. This is a flow-through council for budgetary and administrative support purposes only with no direct programmatic implication for IDVR. The following is the Council for the Deaf and Hard of Hearing's Strategic Plan.

### Mission

Dedicated to making Idaho a place where persons, of all ages, who are deaf or hard of hearing have an equal opportunity to participate fully as active, productive and independent citizens.

### Vision

To ensure that individuals who are deaf, hard of hearing, or hearing impaired have a centralized location to obtain resources and information about services available.

### Goal #1 – Work to increase access to employment, educational and social-interaction opportunities for persons who are deaf or hard of hearing.

1. **Objective:** Continue to provide information and resources.

**Performance Measure 1.1:** Track when information and resources are given to consumers.

FY2015	FY2016	FY2017	FY2018	Benchmark
2 brochures 53 FB posts N/A	2 addt'l brochures 49 FB posts 2 brochures 53 FB posts	42 addt'l brochures 5649 FB posts	24 addt'l brochures 13656 FB posts	Continue to create brochures, social interaction, & website development

**Benchmark:** 24 or more new brochures created in FY2019<sup>17</sup>

### Goal #2 – Increase the awareness of the needs of persons who are deaf and hard of hearing through educational and informational programs.

1. **Objective:** Continue to increase the awareness.

**Performance Measure 2.1:** Deliver presentations and trainings to various groups through education and social media.

FY2015	FY2016	FY2017	FY2018	Benchmark

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 10**

<u>27</u> N/A	<u>2327</u>	<u>6523</u>	<u>8965</u>	Presentations delivered
---------------	-------------	-------------	-------------	-------------------------

**Benchmark:** 8965 or more presentation delivered in SY2019<sup>18</sup>

**Goal #3 – Encourage consultation and cooperation among departments, agencies, and institutions serving the deaf and hard of hearing.**

1. **Objective:** Continue encouraging consultation and cooperation.

**Performance Measure 3.1:** Track when departments, agencies, and institutions are cooperating (such as Department of Corrections and Health and Welfare).

FY2015	FY2015	FY201	FY2018	Benchmark
<u>11</u> N/A	<u>1244</u>	12	<u>1412</u>	Present to various local, state & federal agencies

**Benchmark:** Present at 1412 or more local, state and federal agencies in SY2019<sup>19</sup>

**Goal #4 – Provide a network through which all state and federal programs dealing with the deaf and hard of hearing individuals can be channeled.**

1. **Objective:** The Council's office will provide the network.

**Performance Measure 4.1:** Track when information is provided.

FY2015	FY2016	FY2017	FY2018	Benchmark
<u>200</u> calls N/A	<u>120200</u> calls	<u>1,056420</u> calls	<u>1,160</u> <del>1,056</del> calls	Maintain network through website, social media, brochures, telephone inquiries, & personal communication

**Benchmark:** Track all calls in SY2019<sup>20</sup>

**Goal #5 – Determine the extent and availability of services to the deaf and hard of hearing, determine the need for further services and make recommendations to government officials to e~~i~~n~~s~~ure that the needs of deaf and hard of hearing citizens are best served.**

1. **Objective:** The Council will determine the availability of services available.

**Performance Measure 5.1:** The Council will administer assessments and facilitate meetings to determine the needs.

FY2015	FY2016	FY2017	FY2018	Benchmark
<u>Met</u> N/A	Met	Met	Met	Continued work with mental health personnel

**Benchmark:** Met in SY2019<sup>21</sup>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 10**

**Goal #6 – To coordinate, advocate for, and recommend the development of public policies and programs that provide full and equal opportunity and accessibility for the deaf and hard of hearing persons in Idaho.**

1. **Objective:** The Council will make available copies of policies concerning deaf and hard of hearing issues.

**Performance Measure 6.1:** Materials that are distributed about public policies.

FY2015	FY2016	FY2017	FY2018	Benchmark
<u>Met</u> <del>N/A</del>	Met	Met	Met	Facilitate meetings with various agencies and group

**Benchmark:** Met in SY~~2019~~<sup>22</sup>

**Goal #7 – To monitor consumer protection issues that involve the deaf and hard of hearing in the State of Idaho.**

1. **Objective:** The Council will be the “go to” agency for resolving complaints from deaf and hard of hearing consumers concerning the Americans with Disabilities Act.

**Performance Measure 7.1:** Track how many complaints are received regarding the ADA.

FY2015	FY2016	FY2017	FY2018	Benchmark
<u>10 ADA Issues</u> <del>N/A</del>	10 ADA Issues	<del>5040</del> ADA Issues	<del>15050</del> ADA Issues	Create information resulting from ADA complaint

**Benchmark:** Track all complaints in SY~~2019~~<sup>23</sup>

**Goal #8 – Submit periodic reports to the Governor, the legislature, and departments of state government on how current federal and state programs, rules, regulations, and legislation affect services to persons with hearing loss.**

1. **Objective:** The Council will submit reports.

**Performance Measure 8.1:** Reports will be accurate and detailed.

FY2015	FY2016	FY2017	FY2018	Benchmark
<del>N/A</del> <u>Completed</u>	Completed	Completed	Completed	Submit accurate

**Benchmark:** Completed for SY~~2019~~<sup>24</sup>

## External Factors Impacting IDVR

The field of Vocational Rehabilitation is dynamic due to the nature and demographics of the customers served and the variety of disabilities addressed. Challenges facing the Division include:

### Adequate Supply of Qualified Personnel

IDVR is dedicated to providing the most qualified personnel to address the needs of the customers served. Challenges in recruitment have been prevalent over the past several years. Recruiting efforts have been stifled by low wages as compared to other Idaho state agencies as well as neighboring states. IDVR has identified the need to develop relationships with universities specifically offering a Master's Degree in Rehabilitation Counseling. Furthermore, IDVR has identified universities offering coursework for other degree programs that will meet eligibility for the Certified Rehabilitation Counselor (CRC).

### State and Federal Economic and Political Climate

While Idaho has seen improvement in its economic growth over the past several years there are a variety of influences which can affect progress. Individuals with disabilities have historically experienced much higher unemployment rates, even in strong economic times. Furthermore, Idaho has one of the highest percentages per capita of workers in the country making minimum wage. IDVR recognizes this and strives to develop relationships within both the private and public sectors in an effort to increase employment opportunities and livable wages for its customers.

IDVR is also affected by decisions made at the federal level. The Workforce Innovation and Opportunity Act (WIOA), which replaces the Workforce Investment Act, bring substantial changes to the VR program. WIOA's changes aim to improve the nation's workforce development system through an alignment of various workforce programs, and improve engagement with employers to address skilled workforce needs.

WIOA ~~will~~ requires IDVR to implement substantial programmatic changes. These changes will impact policy development, staff training, fiscal requirements, and compliance reporting requirements. The most impactful changes are the fiscal and programmatic requirements to increase and expand services to students and youth with disabilities. WIOA mandates state VR agencies reserve 15% of their budgets for the provision of Pre-employment transition services (Pre-ETS) which are essentially services the Division was not previously providing. This change will result in an agency which is shifting not only the population it serves, but is serving that population in different and innovative ways. The Division's performance measures have also shifted significantly under WIOA. As a result, the current benchmarks for the federal performance measures identified in this strategic plan present a high degree of error that will diminish as IDVR

completes its transition to business as usual under WIOA, and new baselines are realized. The Division has diligently been working to address the new requirements and continues to move forward with the implementation of Pre-employment transition services and a strategic evaluation of the impact of these requirements. As previously mentioned, Vocational Rehabilitation programs are transitioning to “baseline” measures to capture the required data before negotiating expected levels of performance with RSA, which is expected to take place for SY 2021. Additionally, almost all of the new performance measures are lagging indicators, a few of them lag by one full year.

## IDVR Cyber Security Plan

---

Idaho Division of Vocational Rehabilitation (IDVR) has adopted of the National Institute of Standards and Technology (NIST) Cybersecurity Framework and will be implementing the first five Center for Internet Security (CIS) Controls, Critical Security Controls by June 30, 2019.

The following solutions are currently in place or will be put in play to accomplish the first five Cyber Security Controls.

- IDVR collaborates with the Idaho Office of Administration on:
  - Exterior firewall management
  - Internet and Malware filtering
- Ivanti/~~Landesk~~ is used internally to handle all:
  - Patch management
  - Device discovery
  - OS deployments-/imaging management
  - License monitoring and Inventory controls
- ~~MacAfee EPO~~Palo Alto Traps is used internally to manage all Antivirus monitoring
- DUO for two factor authentication for all elevated server functions and VPN Authentications.
- Mandatory Cyber Security Awareness training is handled by the Division of Human Resources (DHR) Knowbe4 training packages. All users must take this training annually and when initially employed with agency.
- A mobile device management (MDM) solution ~~(not currently identified)~~ will be used to monitor and control cellular phone and security management of mobile devices in the near future. ITS's go forward solution for an MDM solution is being identified this year.

Footnotes:

---

<sup>1</sup> Benchmarks are set based on an internal measure of performance and informed by the Division's SRC. Services for students are a major focus under WIOA.

<sup>2</sup> Benchmarks are set based on an internal measure of performance and informed by the Division's SRC. Services for youth are a major focus.

<sup>3</sup> Benchmarks are set based on an internal measure of performance and informed by the Division's State Rehabilitation Council (SRC) and are similar to the federal common performance measures.

<sup>4</sup> Benchmarks are set based on an internal measure of performance and informed by the Division's State Rehabilitation Council (SRC) and are similar to the federal common performance measures.

<sup>5</sup> Benchmarks are set based on an internal measure of performance and informed by the SRC, implementing the CE pilot services across the state is the goal.

<sup>6</sup> Benchmarks are set based on an internal program measure and represents a commitment to the development of quality vocational rehabilitation counselors, meeting this standard ensures that individuals with disabilities in Idaho receive services through certified professionals and promotes more efficient, comprehensive, and quality services. The baseline is an arbitrary percentage established by IDVR and is a stretch goal the agency aspires to achieve.

<sup>7</sup> Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*

<sup>8</sup> Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*

<sup>9</sup> Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*

<sup>10</sup> Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*

<sup>11</sup> Benchmarks are set based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future years (2021). *(RSA-TAC-18-01, January 19, 2018)*

<sup>12</sup> Benchmarks are set based on an internal measure of performance and was established by the Division's SRC to gauge customer satisfaction with program services and identify areas for improvement. The benchmark of 90% is arbitrary; however, it is typically utilized as a threshold for quality performance.

<sup>13</sup> Benchmarks are set based on an internal measure of performance and informed by the Division's SRC. The emphasis is on quality services provided by Community Rehabilitation Programs.

<sup>14</sup> Benchmarks are established based on federally negotiated targets. The Vocational Rehabilitation program is in a period of "transition" to continue to collect baseline data to establish performance levels which will be used to inform negotiated targets in future year beginning with SY 2021. *(RSA-TAC-18-01, January 19, 2018)*—This performance measure is useful in determining whether VR is serving employers effectively by improving the skills of customers and decreasing employee turnover.

<sup>15</sup> Benchmarks are set based on an internal program measure and were new as of the 2017-2021 Strategic Plan. This measure represents a better indicator of performance for the EES program.

<sup>16</sup> Benchmarks are set based on an internal program measure and were new as of the 2017-2021 Strategic Plan. This measure represents a better indicator of performance for the EES program.

<sup>17</sup> Benchmarks are set based on an internal program measure to expand information to Idaho's deaf and hard of hearing population, to include brochures and information via electronic and social media. The Council is the only clearinghouse of information in Idaho about deaf and hard of hearing issues. This benchmark was established to adhere to Idaho statute 67, chapter 73.

<sup>18</sup> Benchmarks are set based on internal program measure to provide information about the needs of persons who are deaf or hard of hearing. The benchmark was created because the Council is the only state agency to provide this type of information. - CDHH has hired a part time Communications and

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

---

**ATTACHMENT 10**

Outreach Coordination to increase awareness and make presentations throughout the state. This benchmark was established to adhere to Idaho statute 67, chapter 73.

<sup>19</sup> Benchmarks are set based on internal program measure to provide information about deaf and hard of hearing issues. CDHH partnered with JFAC to procure funding for a full-time interpreter and partnered with the Sexual Abuse/Domestic Violence Coalition. This benchmark was established to adhere to Idaho statute 67, chapter 73

<sup>20</sup> The Council has historically been the organization where individuals and groups come for information concerning deaf and hard of hearing issues. The benchmark was created to continue tracking the information. This benchmark was established to adhere to Idaho statute 67, chapter 73.

<sup>21</sup> Benchmarks are set based on internal program measure to determine the need for public services for deaf and hard of hearing community and was established because there was a Task Force that met to determine the need of mental health services that need to be provided to deaf and hard of hearing individuals. This benchmark was established to adhere to Idaho statute 67, chapter 73.

<sup>22</sup> Benchmarks are set to provide information where interpreters can get information about current issues and has established a printed list of Sign Language Interpreters and also on the Council's website. This benchmark was established per the request of the Idaho Registry of Interpreters of the Deaf to support the legislation. This benchmark was established to adhere to Idaho statute 67, chapter 73.

<sup>23</sup> Benchmarks are set based to provide information, in collaboration with the Northwest ADA Center, about the Americans with Disability Act (ADA). The benchmark was established to continue that partnership and to adhere to Idaho statute 67, chapter 73.

<sup>24</sup> Benchmarks are set based on internal program measure to provide information about deaf and hard of hearing issues, this benchmark was established to adhere to Idaho statute 67, chapter 73.

**FY 2020-2024  
 STRATEGIC PLAN**

**MISSION STATEMENT**

We harness the power of public media to encourage lifelong learning, connect our communities, and enrich the lives of all Idahoans. We tell Idaho's stories.

**VISION STATEMENT**

Inspire, enrich and educate the people we serve, enabling them to make a better world.

**SBoE Goal 1: EDUCATIONAL SYSTEM ALIGNMENT**

Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

**IdahoPTV Objectives:**

Objective A: Maintain a digital statewide infrastructure in cooperation with public and private entities.

Performance Measures:

I. Number of DTV translators.

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	FY20 Benchmark
47	46	47	47		47

**SBoE GOAL 2: EDUCATIONAL ATTAINMENT**

Idaho’s public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.

**SBoE GOAL 3: WORKFORCE READINESS**

The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

**KEY EXTERNAL FACTORS**

Funding – While State General Fund support for Idaho Public Television has been increasing as state revenues have grown, there continues to be pressure to reduce the size of government. In addition, significant concerns about Federal funding to the Corporation for Public Broadcasting and the U.S. Department of Education have emerged as Congress and the White House attempt to rein in deficit spending. With nearly 20% of IdahoPTV funding coming from Federal sources via CPB, it remains a major worry. In addition, competition for private contributions continues to grow. IdahoPTV already out performs its peers of other State-licensed PBS stations in the percentage of the population which supports it. It is unrealistic to expect major growth in this area.

FCC Spectrum Auction – With the FCC’s recent auctioning of TV Broadcast spectrum to wireless carriers and the subsequent repacking of stations into the remaining frequencies, Idaho Public Television faces major hurdles. We are currently in the process of changing channels at the KCDT transmitter in Coeur d’Alene ~~will need to change channels~~, requiring a new transmitter & antenna, ~~though the~~ The FCC has given IdahoPTV a new channel and funding to make the move. Unfortunately many of the 47 translators that serve smaller communities ~~may~~ also have to move channels, and the FCC will neither guarantee new frequencies nor provide funding for those mandated changes. We have secured a private grant to cover most of the costs of changing channels at our translators. However, because there aren’t enough frequencies available, some ~~Some~~ areas of the state could lose over-the-air service.

Regulatory Changes – With more than 55% of Idaho Public Television funding coming from private contributions, the recent changes to federal tax policy has the distinct potential to negatively impact charitable giving. In addition, Idaho Public Television operates under numerous other rules and regulations from entities such as the Federal Aviation Administration, Federal Communications Commission, Department of the Interior, Department of Agriculture, Department of Education, Department of Homeland Security, and others. Changes to those policies and regulations could impact operations.

Broadband/New Media Devices – As viewers increasingly obtain their video content via new devices (computers, iPads, smartphones, broadband delivered set-top-boxes, etc.) in addition to traditional broadcast, cable and satellite, Idaho Public Television must invest in the technology to meet our viewers' needs. The ability of public television stations to raise private contributions and other revenue via these new platforms continues to be a significant challenge.

ATSC 3.0 – Recently, the FCC adopted standards for a new, improved television technology. Like the move from analog to digital, this new standard will make all previous television equipment obsolete for both the broadcaster and the consumer. Currently, adoption of this new standard is voluntary, but we expect that eventually it will become mandatory. Planning for this new standard is already underway; and as equipment is replaced, every effort is being made to ensure it is upgradable to the new standard.

## **EVALUATION PROCESS**

Idaho Public Television uses the following methods to evaluate our services:

We are a member of the Organization of State Broadcasting Executives, an association of chief executive officers of state public broadcasting networks, whose members account for almost half of the transmitters in the public television system. OSBE gathers information, keeps years of data on file, and tracks trends. OSBE members are represented on the policy teams for our national organizations, including PBS, APTS, and NETA.

We have a statewide advisory Friends board, currently 29 directors, with broad community and geographic representation. This board meets formally on a quarterly bases. It serves as a community sounding board to provide input.

Through Nielsen data, Google Analytics, and other research information, we have access to relevant metrics to make informed and successful marketing and programming decisions. Viewership helps determine which content is most relevant to the community we serve and how to best serve the people of Idaho. We also receive feedback from the community regarding our work. Our production team ascertains issues in the community and uses this information to plan local program productions. Each quarter, we prepare and post on the FCC website lists of programs we air that provide the station's most significant treatment of community issues.

Recently, Idaho Public Television was successful in obtaining a number of private and federal grants to provide educational services to teachers, students and parents. As part of those grants we will be conducting research on the impact these education initiatives are having on the populations served.

Additionally, IdahoPTV employed leaders from PBS Station Services with expertise in strategic planning to conduct a two-day retreat for station staff and board directors to help learn processes to evaluate our programs, products and services to ensure they support our connection to the community and our audiences. A number of specific goals were identified to help position the organization for a successful future.

1. Benchmark is based on industry standard and the need to reach as many Idahoans as possible via all the content and video technologies.
- ~~2. Benchmark is based on industry standard and the need to reach as many Idahoans as possible via all the content and video technologies.~~

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 11a**

	State Board of Education Goals		
	Goal 1: EDUCATIONAL SYSTEM ALIGNMENT	Goal 2: EDUCATIONAL ATTAINMENT	Goal 3: WORKFORCE READINESS
<b>Institution/Agency Goals and Objectives</b>			
<b>GOAL 1: EDUCATIONAL SYSTEM ALIGNMENT – Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.</b>			
Objective A: Maintain a digital statewide infrastructure in cooperation with public and private entities.	✓		
Objective B: Nurture and foster collaborative partnerships with other Idaho state entities and educational institutions to provide services to the citizens of Idaho.	✓		
Objective C: Provide access to IdahoPTV video content that accommodates the needs of the hearing and sight impaired.	✓		
Objective D: Provide access to IdahoPTV new media content to citizens, anywhere, that supports participation and education.	✓		
Objective E: Broadcast educational programs and provide related resources that serve the needs of Idahoans, which include children, ethnic minorities, learners, and teachers.	✓		
Objective F: Contribute to a well-informed citizenry.	✓		
Objective G: Provide relevant Idaho-specific information.	✓		
Objective H: Provide high-quality, educational television programming and new media content.	✓		
Objective I: Be a relevant, educational and informational resource to all citizens.	✓		
Objective J: Operate an effective and efficient organization.	✓		
Objective K: Work toward implementation of the Center for Internet Controls.	✓		
<b>GOAL 2: EDUCATIONAL ATTAINMENT – Idaho’s public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.</b>			
<b>GOAL 3: WORKFORCE READINESS - The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.</b>			

Idaho State Department of Education

Sherri Ybarra, Ed.S.  
Superintendent of Public Instruction  
OSBE Strategic Plan FY2019-2023

**MISSION STATEMENT**

The Idaho State Department of Education provides the highest quality of support and collaboration to Idaho's public schools, teachers, students and parents.

**VISION STATEMENT**

Supporting Schools and Students to Achieve.

**GOAL 1**

Idaho students are ready for college and careers.

**Objective A:** Fully implement the Idaho Content Standards.

Idaho's plan for fully implementing the Idaho Content Standards uses a successful teacher coaching program. This coaching model invests human capital in local districts to meet community needs. Coaches focus on instructional shifts by working closely with teachers, helping them understand and apply the Idaho Content Standards.

**Performance Measures:**

- I. Percentage of students placing as proficient on the Idaho Reading Indicator (IRI) K-3.

2018-2019 School Year	Benchmark
	Benchmark to be established after two years of data collection.

Notes: The new IRI by Istation will first be administered during the 2018-2019 school year and data will be available in August 2019.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 12**

- II. Percentage of students placing as proficient or advanced on the Idaho Standards Achievement Test.

	2014-2015 School Year	2015-2016 School Year	2016-2017 School Year	2017-2018 School Year	Benchmark <sup>1</sup>
ELA 3 <sup>rd</sup>	48.3% <sup>2</sup>	49.3% <sup>3</sup>	47.18% <sup>4</sup>	49.88% <sup>5</sup>	66.2% by 2022
MATH 3 <sup>rd</sup>	49.9% <sup>6</sup>	52.2% <sup>7</sup>	50.23% <sup>8</sup>	52.17% <sup>9</sup>	68.1% by 2022
ELA 8 <sup>th</sup>	51.7% <sup>10</sup>	53.6% <sup>11</sup>	52.32% <sup>12</sup>	53.87% <sup>13</sup>	69.1% by 2022
MATH 8 <sup>th</sup>	37% <sup>14</sup>	38.5% <sup>15</sup>	38.71% <sup>16</sup>	41.08% <sup>17</sup>	59.0% by 2022
ELA High School	60.6% <sup>18</sup>	61.7% <sup>19</sup>	59.1% <sup>20</sup>	59.28% <sup>21</sup>	74.5% by 2022
MATH High School	30.3% <sup>22</sup>	30.8% <sup>23</sup>	32.1% <sup>24</sup>	32.87% <sup>25</sup>	53.9% by 2022

**Objective B:** Provide pathways to success post high school.

By providing increased flexibility (alternative methods) for students to demonstrate competency in satisfying state and local graduation requirements, the SDE will ultimately open multiple pathways to graduation. Targeted efforts for special education and gifted and talented students, along with Advanced Opportunities and GEAR UP programs, contribute to this strategy, as does increased adoption of mastery-based education.

**Performance Measures:**

- I. Percentage of high school juniors and seniors participating in Advanced Opportunities, which includes: dual credit, technical competency credit, Advanced Placement, and International Baccalaureate programs.

2014-2015 School Year	2015-2016 School Year	2016-2017 School Year	2017-2018 School Year	Benchmark
31.81% <sup>26</sup>	34.33% <sup>27</sup>	46.36 <sup>28</sup>	54.41% <sup>29</sup>	60% by 2022

- II. Percentage of Idaho high school graduates meeting SAT readiness benchmarks.

2017	2018	Benchmark
34% <sup>30</sup>	33% <sup>31</sup>	60% by 2022

- III. High school four-year adjusted cohort graduation rate.

Class of 2014	Class of 2015	Class of 2016	Class of 2017	Class of 2018	Benchmark <sup>32</sup>
77.3% <sup>33</sup>	78.9% <sup>34</sup>	79.7% <sup>35</sup>	79.7% <sup>36</sup>	80.65% <sup>37</sup>	94.9% by 2022

**Objective C:** Expand participation in the Idaho Mastery Education Network (IMEN).

Schools across Idaho and the nation embrace mastery education to empower students to learn at their own pace. At its core, mastery education shifts the measurement of a student's ability to demonstrated mastery from simply clocking seat time devoted to a subject or grade level. The SDE created a voluntary network of schools that are starting to implement mastery. During the initial phases, the SDE convened these schools to learn from one another, offer support where appropriate, learn from their innovations and best practices and collect models for implementation to prepare for supporting additional schools in this shift. Senate Bill 1059, which was signed into law during the 2019 regular legislative session,

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 12**

removed the statutory cap on the Idaho Mastery Education program to allow additional districts and schools to participate in the program. The SDE will continue to evaluate state policy impact on mastery and work with stakeholders and the Idaho Legislature to remove any additional barriers to implementation.

**Performance Measures:**

I. Percentage of students in IMEN that meet their 3-year growth target.

ELA	Percent Making "Adequate" Growth <sup>38</sup>			Benchmark
	2016	2017	2018	
ELA - IMEN Cohort 1	61.8%	60.1%	62.0%	> Idaho Avg.
ELA - Idaho Average	63.1%	60.9%	64.4%	
Math - IMEN Cohort 1	46.9%	45.3%	45.5%	> Idaho Avg.
Math - Idaho Average	53.2%	51.0%	53.8%	

Notes: Nearly 1/3<sup>rd</sup> of the schools included in IMEN Cohort 1 are alternative schools. Adequate Growth is a measure of students on track to be proficient in three years. Analysis is restricted to students continuously enrolled in the state. The growth measure is only calculated for students in grades 4-8 with regular assessment scores in two consecutive years, thus the reported percentages are among students for whom this calculation was possible.

II. Number of schools participating in IMEN.

<b>2017-2018 School Year</b>
32 <sup>39</sup>

NOTES: Senate Bill 1059, which was signed into law during the 2019 regular legislative session, removed the statutory cap on the Idaho Mastery Education program to allow additional districts and schools to participate in the program. The department will support, but not necessarily fund, all schools that wish to participate in Idaho Mastery Education.

**GOAL 2**

Education stakeholders are accountable for student progress.

**Objective A:** Increase support to low-performing schools.

Comprehensive Support and Improvement (CSI) schools represent the lowest performing 5% of Idaho's Title I schools and any non-title schools that fall within that band. These schools are identified and supported over three year periods in order to aid them in improving student outcomes.

**Performance Measures:**

I. Percentage of schools meeting CSI exit criteria.

<b>Benchmark</b>
90% by 2022

Notes: 2018-19 marks the first year of longitudinal data collection for the initial three-year cohort, so there is no data to report at this time.

**GOAL 3**

Recruit and retain effective teachers.

Idaho, like many states, faces a critical shortage of teachers. Additionally, educators possessing fewer than four years of classroom experience make up a growing share of Idaho's teacher workforce. This trend is particularly acute in low-performing and high-poverty schools and common in classrooms of English language learners and students with disabilities. The shortage of qualified teachers, coupled with knowledge that we need our most experienced teachers with our highest need students means Idaho must both recruit new teachers and retain experienced teachers.

**Objective A:** Reduce the percentage of Idaho teachers leaving the profession within the first 5 years of service.

**Performance Measures:**

I. Teacher retention rate.

2015-2016 School Year	2016-2017 School Year	2017-2018 School Year	Benchmark
83.6% <sup>40</sup>	83.6% <sup>41</sup>	84.3% <sup>42</sup>	92% <sup>43</sup>

**Key External Factors**

Movement toward meeting the specified goals is contingent on the actions of state policymakers, efforts of education stakeholders and the work occurring in districts and charter schools.

**Evaluation Process**

The objectives outlined in this plan will be reviewed at least annually to assess the SDE's progress toward reaching benchmarks. As necessary, the SDE will identify barriers to success, strategies for improvement and any additional resources necessary to make measurable progress. The SDE will align its annual budget request and legislative agenda to support schools and students to achieve.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 12**

**Appendix 1: OSBE K-20 Plan Alignment Matrix**

	State Board of Education Goals		
	Goal 1: EDUCATIONA L SYSTEM ALIGNMENT	Goal 2: EDUCATIONAL ATTAINMENT	Goal 3: WORKFORCE READINESS
<b>SDE Goals and Objectives</b>			
<b>Goal 1:</b> Idaho students are ready for college and careers.			
<b>Objective A:</b> Fully implement the Idaho Content Standards.	✓	✓	✓
<b>Objective B:</b> Provide pathways to success post high school.	✓	✓	✓
<b>Objective C:</b> Expand participation in the Idaho Mastery Education Network (IMEN).	✓	✓	✓
<b>Goal 2:</b> Education stakeholders are accountable for student progress.			
<b>Objective A:</b> Increase support to low performing schools.	✓	✓	✓
<b>Goal 3:</b> Recruit and retain effective teachers.			
<b>Objective A:</b> Reduce the percentage of Idaho teachers leaving the profession within the first 5 years of service.	✓	✓	✓

***Appendix 2: Cybersecurity Plan***

The State Department of Education recognizes that technology is in a constant state of fluctuation and works continuously to proactively identify and mitigate cybersecurity risks. In adherence with Executive Order 2017-02 the SDE has taken the following steps:

1. Adopted and implemented the NIST Cybersecurity Framework
2. Implemented the first five (5) Center for Internet Security Critical Security Controls (CIS Controls)
3. Developed employee education and training plans for mandatory cybersecurity training
4. Requires all SDE employees and contractors to complete annual cybersecurity training
5. Placed a link to the statewide cybersecurity website on all public SDE websites

Additionally, the SDE has taken the following steps:

1. Analyzed compliance with updated version of CIS Controls (version 7)
2. Reviewed and adapted policies and procedures to align with updated CIS Controls
3. Adapted current hardware and software configurations to align with updated CIS Controls while also evaluating new technologies, tactics, techniques, and procedures
4. Collaborated with other state agencies to standardize adoption of NIST Cybersecurity Framework
5. Collaborated with other state agencies to standardize incident response capability
6. Conducted code base reviews of critical applications
7. Implemented advanced threat monitoring tools
8. Applied enhanced network security controls

**TechHelp Strategic Plan  
2019 – 2023**

**MISSION STATEMENT**

*TechHelp will be a respected, customer-focused, industry recognized organization with strong employee loyalty, confidence of its business partners and with the resources and systems in place to achieve the following sustained annual results in 2023:*

- 100 manufacturers reporting \$120,000,000 economic impact
- 200 jobs created
- > \$20,000 and < \$50,000 Net Income

**VISION STATEMENT**

*TechHelp is Idaho’s Manufacturing Extension Partnership (MEP) center. Working in partnership with the state universities, we provide assistance to manufacturers, food and dairy processors, service industry and inventors to grow their revenues, to increase their productivity and performance, and to strengthen their global competitiveness.  
“Our identity is shaped by our results.”*

**GOAL 1**

*Economic Impact on Manufacturing in Idaho – Deliver a quantifiable positive return on both private business investments and public investments in TechHelp by adding value to the manufacturing client and the community.*

**Objective A:** *Offer technical consulting services and workshops that meet Idaho manufacturers’ product and process innovation needs.*

**Performance Measure:**

- Client reported economic impacts (sales, cost savings, investments and jobs) resulting from projects*

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
\$182,258,168 / 340 New Jobs	\$33,022,678 / 100 New Jobs	\$33,726,818 / 70 New Jobs	\$97,839,060 / 255 New Jobs	\$120,000,000 / 200 New Jobs

**Benchmark:** *Reported cumulative annual impacts improve by five percent over the prior year achieving \$120,000,000 and 180 new jobs annual reported impact by 2023<sup>i</sup>.*

**Objective B:** *Offer a range of services to address the needs of Small, Rural, Start-up and Other manufacturers Idaho.*

**Performance Measure:**

- Number of impacted clients categorized as Small, Rural, Start-up and Other as reported in the MEP MEIS system*

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 13**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017) Q1-Q3	FY18 (Q2 2017- Q1 2018)	FY19 (Q2 2018- Q1 2019)	Benchmark
N/A	N/A	17 Small	35 Small	30 Small	15 Small
N/A	N/A	39 Rural	42 Rural	21 Rural	20 Rural
N/A	N/A	4 Start-Up	17 Start-up	14 Start-up	10 Start-up
N/A	N/A	25 Other	23 Other	22Other	35 Other

**Benchmark:** Number of clients served by category exceeds MEP goal as follows by 2023<sup>ii</sup>:

15 Small,  
20 Rural,  
20 Start-up,  
35 Other

**Objective C:** *Ensure manufacturing clients are satisfied with services.*

**Performance Measure:**

**I. Customer satisfaction reported on MEP survey**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
9 out of 10	9 out of 10	9.6 out of 10	9.7 out of 10	8 out of 10

**Benchmark:** Customer satisfaction score is consistently > 8 out of 10<sup>iii</sup>

**Goal 2**

*Operational Efficiency – Make efficient and effective use of TechHelp staff, systems, partners and third parties, and Advisory Board members.*

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 13**

**Objective A:** *Increase the number of client projects and events.*

**Performance Measure:**

**I. State dollars expended per project/event**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
\$1,139	\$774	\$920	\$1570	> Prior year's total

**Benchmark:** Dollars per project/event expended is less than prior year's total<sup>iv</sup>

**Objective B:** *Offer services to numerous Idaho manufacturers.*

**Performance Measure:**

**I. Number of impacted clients per \$ Million federal investment as reported on MEP sCOREcard<sup>v</sup>**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
56 Clients Surveyed	69 Clients Surveyed	81 Clients Surveyed	96 Clients Surveyed	100 Clients Surveyed

**Benchmark:** Number of clients served exceeds federal minimum with a goal of 100 clients surveyed (i.e.,110 clients per \$ Million) by 2023<sup>vi</sup>

**Goal 3**

*Financial Health – Increase the amount of program revenue and the level of external funding to assure the fiscal health of TechHelp.*

**Objectives A:** *Increase total client fees received for services.*

**Performance Measure:**

**I. Gross and Net revenue from client projects**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
\$615,117	\$593,940	\$576,890	\$493,923	\$600,000 gross annually
\$454,672	\$409,175	\$391,904	\$336,363	\$400,000 net annually

**Benchmark:** Annual gross and net revenue exceeds the prior year by five percent achieving \$600,000 gross and \$400,000 net annually by 2023<sup>vii</sup>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 13**

**Objectives B:** *Increase external funding to support operations and client services.*

**Performance Measure:**

**I. Total dollars of non-client funding (e.g. grants) for operations and client services.**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
\$910,236	\$885,236	\$885,236	\$1,356,994	\$1,300,000

**Benchmark:** *Total dollars of non-client funding for operations and client services exceed the prior year's total achieving \$1,300,000 by 2023<sup>viii</sup>.*

**Key External Factors**

- I. State Funding:  
Nationally, state funding is the only variable that correlates highly with the performance of the Manufacturing Extension Partnership centers. State funding is subject to availability of state revenues as well as gubernatorial and legislative support and can be uncertain.
  
- II. Federal Funding:  
The federal government is TechHelp's single largest investor. While federal funding has been stable, it is subject to availability of federal revenues as well as executive and congressional support and can be uncertain.
  
- III. Economic Conditions:  
Fees for services comprise a significant portion of TechHelp's total revenue. We are encouraged by current economic activity and believe it will support the ability of Idaho manufacturers to contract TechHelp's services.

**Cybersecurity Plan – Update**

TechHelp has been working on its adoption of the National Institute of Standards and Technology (NIST) Cybersecurity Framework and implementation of Center for Internet Security (CIS) Controls. Progress on complying with the first five CIS Controls (by June 30, 2018) includes:

- 1. Inventory and Control of Hardware Assets – Boise State (and other state universities) requires authentication and sign on credentials to access their network and all Hardware is purchased, inventoried and tracked by BSU.
- 2. Inventory and Control of Software Assets - All software is purchased and approved by Business Manager or Executive Director. BSU OIT uploads all software and maintains updates and does not allowed for unapproved software on Boise State purchased computers. Cloud-based exceptions which are controlled by vendors include: WORKetc., mailchimp, QuickBooks, Regfox.
- 3. Continuous Vulnerability Management - All updates and patches are identified by Boise State IT department and pushed out to campus departments. Internally all software updates are completed to ensure all hardware and software are up to date. All campus departments are made aware by IT department of potential threats and how to handle those situations.
- 4. Controlled Use of Administrative Privileges – Boise State retains all administrative rights to the network and each individual user is given administrative rights to their designated computer.

5. Secure Configuration for Hardware and Software on Mobile Devices, Laptops, Workstations and Servers - All network passwords are required to be changed every 60-90 days as a requirement forced at sign in. Laptops require VPN authentication before access to the network is granted if working off-site. Mobile devices require sign on authentication before access to network is given.

### **Evaluation Process**

The TechHelp Advisory Board convenes its membership, which is made up of representatives from leaders of manufacturing companies, professional services companies, and Idaho's three universities, to review and recommend changes to the center's planning, client services and strategic plan. Recommendations are presented to the Advisory Board and the Executive Director for consideration. Additionally, as part of the NIST MEP cooperative agreement, the Advisory Board reviews and considers inputs that affect its strategic plan. Plan changes may be brought to the Advisory Board or TechHelp leadership and staff during the year. Review and re-approval occurs annually and considers progress towards performance measure goals, which are formally reviewed quarterly.

Performance towards meeting the set benchmarks is reviewed and discussed quarterly at both TechHelp staff meetings and at Advisory Board Meetings. The Advisory Board may choose at that time to direct staff to change or adjust performance measures or benchmarks contained strategic pan.

---

<sup>i</sup> This benchmark is based on current and projected resources and established best practices based on those resources.

<sup>ii</sup> This benchmark is based on current and projected resources, resource geographic location and established best practices based on those resources.

<sup>iii</sup> This benchmark is based on analysis of customer survey feedback for types of services offered.

<sup>iv</sup> This benchmark is based on analysis of available resources, types of services and program investment.

<sup>v</sup> Methodology using a balanced scorecard.

<sup>vi</sup> This benchmark is based on federal requirements and projections of federal investment.

<sup>vii</sup> This benchmark is based on existing average performance levels and a 5% annual increase.

<sup>viii</sup> This benchmark is based on existing average performance levels and a 5% annual increase.

IDAHO SMALL BUSINESS DEVELOPMENT  
 STRATEGIC PLAN  
 2018 – 2023

EMPOWERING BUSINESS SUCCESS

**MISSION STATEMENT**

To enhance the success of small businesses in Idaho by providing high-quality consulting and training, leveraging the resources of colleges and universities.

**VISION STATEMENT**

Idaho SBDC clients are recognized as consistently outperforming their peers.

**GOAL 1 - Maximum Client Impact**

Focus time on clients with the highest potential for creating economic impact.

**Objective A:** Develop long-term relationships with potential and existing growth and impact clients.

**Performance Measures:**

**I. Percent of hours with clients with recorded impact**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark

**Key External Factors**

The Idaho SBDC is part of a national network providing ~~non~~-cost consulting and affordable training to help small business grow and thrive in all U.S. states and territories. The network has an accreditation process conducted every five years to assure continuous improvement and high quality programs. The accreditation standards, based on the Malcolm Baldrige Quality Standards, cover six key areas:

- Leadership
- Strategic Planning
- Stakeholder and Customer Focus
- Measurement, Analysis and Knowledge Management
- Workforce Focus
- Operations Focus

The Idaho SBDC also achieved accreditation of its technology commercialization program – one of 15 SBDC’s out of 63 networks – in 2014 and continues to offer technology commercialization assistance to entrepreneurs, existing companies, and colleges/universities. Maintaining this accreditation is a continuing focus.

**Evaluation Process**

Funding is received from the U.S. Small Business Administration (SBA), the State of Idaho through the State Board of Education, and Idaho’s institutes of higher education who host six outreach offices to cover all 44 Idaho counties. Needs and requirements from ~~a three~~these key stakeholders are considered on a yearly basis and incorporated into the Idaho SBDC’s strategic plan. Strategic planning is an on-going process with a yearly planning session conducted with a statewide leadership team in an all-staff meeting in the Spring ~~each year~~ and progress tracked through action plans reviewed on a quarterly basis. ~~a Fall all-staff meeting and two other conference calls~~. Performance metrics are required by SBA and also the accreditation process. A statewide Advisory Council composed of small businesses and stakeholder representatives meets four times per year and contributes to the strategic plan.

Progress on many of the performance measures versus goals are located on a dashboard in the Idaho SBDC’s client management system so that all staff understand the expectations and progress. Goals are reviewed at least twice a year quarterly during a monthly video conference with regional directors and program managers. Measures that are not part of the dashboard are calculated and reported to the State Board of Education.

---

<sup>1</sup> Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact – 20% increase in hours with impact clients in 5 years.

<sup>2</sup> Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact and a 20% increase in the average of the last 3 years.

<sup>3</sup> Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact and a 20% increase in the average of the last 3 years.

<sup>4</sup> Benchmark is set based on an analysis of historical trends and available resources and a commitment to maximum client impact and a 20% increase in the average of the last 3 years.

<sup>5</sup> Mechanism to measure is being developed.

<sup>6</sup> Completing of marketing plan and yearly marketing calendar

<sup>7</sup> Benchmark is set based on an analysis of historical trends and available resources and the use of training programs to increase awareness.

<sup>8</sup> ~~A process is being developed to set a baseline. A goal will be set in FY19. Benchmark is set based on an analysis of survey results from Cicero survey conducted in 2018.~~

<sup>9</sup> Benchmark is being set by adjusting the list of partners and making the field mandatory. Baseline will be set in FY19 and benchmark projected.

<sup>10</sup> Benchmark was set by calculating the demand for Phase 0 funding and for support of a half-time person in north Idaho and a half-time person in east Idaho.

<sup>11</sup> All employees should be certified within 6 month of start date and obtain 1 hour of certification for each hour worked/week (40 hours of yearly professional development for a full-time person).

<sup>12</sup> Based on 30% increase of the average of the past 3 years and is measured as a 3 year rolling average.

<sup>13</sup> Based historical data and is a combination of the average of the overall satisfaction from the initial survey, 120-day survey, and annual survey - on a scale of 1-5 with 5 being the highest rating.

<sup>14</sup> Based historical data and is a combination of the average of the skills assessment from the initial survey, 120-day survey, and annual survey - on a scale of 1-5 with 5 being the highest rating.

**Family Medicine Residency of Idaho, Inc.**

**FY 2019 – 2023  
Strategic Plan**

**MISSION STATEMENT**

Train outstanding broad spectrum family medicine physicians to work in underserved and rural areas. Serve the vulnerable populations of Idaho with high quality, affordable care provided in a collaborative work environment.

**VISION STATEMENT**

To improve the health care for Idaho and beyond by producing outstanding family medicine physician leaders for their communities.

**GOAL 1: Family Medicine Workforce**

To produce Idaho's future family medicine workforce by attracting, recruiting, and employing outstanding medical students to become family medicine residents and to retain as many of these residents in Idaho as possible post-graduation from residency.

**1.1. Core Program – Boise**

1.1.1. Increase resident class size from 11-11-11 to 12-12-12

1.1.1.1. Raymond (12-6-6)

1.1.1.2. Fort (0-2-2)

1.1.1.3. Emerald (0-2-2)

1.1.1.4. Meridian (0-2-2)

**1.2. Rural Training Tracks**

1.2.1.1. Caldwell (3-3-3)

1.2.1.2. Magic Valley (2-2-2)

**1.3. Fellowships**

1.3.1.1. Sports Medicine (1)

1.3.1.2. HIV Primary Care (1)

1.3.1.3. Geriatrics (1)

1.3.1.4. OB (1)

**1.4. Core Program – Nampa**

1.4.1 Will open new Family Medicine Residency Program in Nampa on July 1, 2019 with resident class size of 6 per class (6-6-6)

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15**

**Objective A:** To recruit outstanding medical school students to FMRI for family medicine residency education, this includes recruitment to the rural training tracks and fellowships. The FMRI maintains an outstanding national reputation for training family physicians, participates in national recruitment of medical students, participates in training of medical students in Idaho and participates actively in the recruitment, interview and selection process to match outstanding candidates for its programs.

**Performance Measures:**

- I. FMRI will track how many students match annually for residency training in family medicine at FMRI.*

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2016-2017)	Benchmark
16/16= 100%	16/16= 100%	16/16= 100%	16/16= 100%	100%

**Benchmark:** One hundred percent of all resident positions and over 50 percent of all fellow positions matched per year. This measure reflects the national standard of excellence in residency accreditation and capacity within the fellowships.

**Objective B:** To graduate fully competent family physicians ready to practice independently the full scope of family medicine. This is achieved through curriculum and experiential training which reflects the practice of family medicine in Idaho, including training in rural Idaho communities.

**Performance Measures:**

- II. FMRI will track the ABFM board certification rates of the number of graduates per year from FMRI.*

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
100%	100%	100%	100%	>95%

**Benchmark:** FMRI will attain a 95 percent ABFM board certification pass rate of all family physicians and fellows per year from the program. This is a measure commensurate with the accreditation standard for family medicine residency programs.

**Objective C:** To keep as many family physicians as possible in Idaho after residency and fellowship graduation. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of Idaho, programming and education reflective graduates in making practice location decisions.

**Performance Measures:**

- III. FMRI will encourage all graduates (residents and fellows) to practice in Idaho and track how many remain in Idaho.*

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017 – 2018)	Benchmark
43%	47%	56%	67%	>50%

**Benchmark:** 50 percent retention rate of graduates to practice in Idaho. This measure reflects an outstanding benchmark well above the state median for retention of physicians retained from GME.

**Objective D:** To produce as many family physicians as possible to practice in rural or underserved Idaho. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of both rural and underserved Idaho, education reflective of the needs and opportunities in rural and underserved practices in Idaho, and dedicated role models in guiding

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15**

graduates in making practice locations decisions to care for rural and underserved populations of patients. The curriculum intentionally involves direct care of rural and underserved populations throughout the course of residency training.

**Performance Measures:**

**IV. Of those graduates staying in Idaho, FMRI will track how many stay in rural or underserved Idaho.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
50%	75%	100%	90%	40%

**Benchmark:** 40 percent of graduates staying in Idaho will be practicing in rural or underserved Idaho. This measure demonstrates an exceptional commitment of the program and its graduates to serving rural and underserved populations in particular.

**Objective E:** To begin a new family medicine residency program in Nampa, Idaho with 6 family medicine residents per class.

**Performance Measures:**

**V. To have the first class of 6 family medicine residents start on July 1, 2019.**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
N/A	N/A	N/A	100%	100%

**Benchmark:** To fill the first class of 6 family medicine residents on July 1, 2019.

**GOAL 2: Patient Care | Delivery | Service**

Serve the citizens of Ada County and surrounding areas in a high-quality Patient Centered Medical Home.

- 2.1 All FMRI clinics where resident education is centered will attain and maintain National Committee on Quality Assurance (NCQA), Level III Patient Centered Medical Home (PCMH) recognition.
- 2.2 All FMRI clinics will utilize Meaningful Use criteria in using the Electronic Medical Records (EMR).
- 2.3 FMRI will maintain a 340b Pharmacy, with expanded access for our patients via expanded hours and utilize Walgreen’s and other local pharmacy collaborations.

**Objective A:** To maintain recognition NCQA Level III PCMH. Maintenance of NCQA recognition is on a 3 year cycle.

**Performance Measures:**

**I. All FMRI clinics where resident continuity clinics reside will maintain Level III PCMH’s and we will apply for NCQA recognition for our other two clinics.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
100%	100%	100%	100%	100%

**Benchmark:** Maintain 100% NCQA designation as a Level III PCMH at all FMRI clinics where resident continuity clinics reside. NCQA recognition is the national standard for PCMH recognition.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15**

**Objective B:** All FMRI clinics using Meaningful Use Electronic Medical Records. We are tracking the meaningful use objectives and measures and are assuring that all the providers at FMRI are meeting these.

**Performance Measures:**

**II. All FMRI clinics using Meaningful Use EMR criteria.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>

**Benchmark:** Implement Meaningful Use EMR at all clinics. Meaningful Use EMR is necessary for coordinated and integrated care as part of NCQA recognition and good patient care. Medicaid Provider Meaningful Use Incentive program is necessary for compliance.

**Objective C:** Maintenance and expansion of FMRI 340b pharmacy services. We have expanded our pharmacy hours to help patient access as well as the Walgreens and other pharmacy collaboration.

**Performance Measures:**

**III. Maintain 340b pharmacy services , with expanded access for our patients via extended pharmacy hours and the Walgreen’s pharmacy collaboration**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
<b>Available</b>	<b>Available</b>	<b>Available</b>	<b>Available</b>	<b>Available</b>

**Benchmark:** 340b pharmacy available for all FMRI patients, with expanded access for our patients via extended hours and the commercial and other pharmacy collaboration.

**GOAL 3: Education**

To provide an outstanding family medicine training program to prepare future family medicine physicians.

- 3.1 All FMRI programs maintain Accreditation Council for Graduate Medical Education (ACGME) accreditation where appropriate.
- 3.2 All FMRI programs maintain integrated patient care curriculum and didactics.
- 3.3 All FMRI programs maintain enhanced focus on research and scholarly activities.
- 3.4 FMRI programs have a quality and patient safety curriculum for clinical learning environments.
- 3.5 FMRI demonstrates mastery of the New Accreditation System (NAS) of the ACMGE.

**Objective A:** To create an exceptionally high quality medical education environment to train future family physicians. All FMRI residents and fellows serve Idaho patients as a integral part of the educational process. Educational milestones and national standard measures are used to demonstrate competencies and excellence. All FMRI programs are in a process of continual improvement and measured for markers of success as a part of local oversight and national accreditation.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15**

**Performance Measures:**

- I. A. Track successful completion of American Board of Family Medicine (ABFM) Board certification examination scores for all program graduates.**  
**B. Track performance on American Board of Family Medicine (ABFM) Annual In-Service Training Examination.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>&gt;95%</b>
<b>96%</b>	<b>97.2%</b>	<b>92%</b>	<b>73%</b>	<b>&gt;50%</b>

**Benchmark:**

- A. At least 95 percent of all program graduates become ABFM Board certified.  
 B. FMRI program performance above the national average (>50 percent) on an annual National In-Training Exam. This is a national standard and interval measure of trainee success in mastery in Family Medicine.

**Objective B:** FMRI will maintain full accreditation with Accreditation Council of Graduate Medical Education (ACGME) and its Residency Review Committee for Family Medicine (RRC-FM). This is a marker of certification and excellence for accredited programs.

**Performance Measures:**

- II. FMRI will track its accreditation status and potential citations.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>

**Benchmark:** Maintain 100 percent full and unrestricted ACGME program accreditation for all programs as appropriate. This measure meets the ideal goal for the FMRI programs.

**Objective C:** FMRI will maintain all ACGME accreditation requirements in the New Accreditation System (NAS) including a Clinical Competency Committee (CCC), Annual Program Evaluations (APE), Annual Institutional Review (AIR), and Clinical Learning Environment Review (CLER). This set of goals is met through oversight of each FMRI program by the FMRI Graduate Medical Education Committee on an ongoing basis.

**Performance Measures:**

- III. FMRI will track its NAS CCC, APE, AIR and CLER goals.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)		Benchmark
<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>

**Benchmark:** Maintain 100 percent monitoring for all programs as appropriate. This measure meets the ideal goal for the FMRI programs.

**GOAL 4: Faculty**

FMRI has a diverse team of faculty that provides rich training environments, who are tremendously dedicated and committed to family medicine education, and enjoy working with family medicine residents and caring for our patients.

- 4.1 Continued expansion of faculty.  
 4.2 Continue to provide faculty development fellowship opportunities at the University of Washington.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15**

**Objective A:** Continue expansion of dedicated and committed family medicine faculty. Targeted recruiting of full spectrum family medicine faculty through local, alumni resource, regional and national recruiting efforts.

**Performance Measures:**

**I. Hire sufficient number of family medicine faculty.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
Less than sufficient	Less than sufficient	Less than sufficient	Sufficient	Sufficient

**Benchmark:** Sufficient numbers of family medicine faculty hired. This measure is based on projected need in consideration of availability of future resources.

**Performance Measures:**

**II. One faculty member per year at the UW Faculty Development Fellowship.**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
One	One	One	One	One

**Benchmark:** One per year. This measure meets the ideal goal for the FMRI programs.

**GOAL 5: Rural Outreach**

The three pillars of FMRI’s rural outreach are to provide education to students, residents and rural providers, to provide service and advocacy for rural communities and foster relationships that will help create and maintain the workforce for rural Idaho.

5.1 Increase to 35 rural site training locations.

**Objective A:** To maintain 35 rural site training locations in Idaho. This goal is met though growing partnerships with communities resulting in development of additional rotations in rural Idaho.

**Performance Measures:**

**III. Maintain 35 rural site training locations**

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
31	34	34 With active PLA’s; In process of developing Driggs for 35	44	35

**Benchmark:** Maintain 35 sites. This measurement is based upon standing agreements with resident rotation sites.

**Key External Factors**

1. Funding: The Family Medicine Residency of Idaho (FMRI) and its operations are contingent upon adequate funding. For fiscal 2018, approximately 55% of revenues were generated through patient services (including pharmacy), 25% were derived from grants and other sources, and 20% came from contributions (excluding in-kind contributions for facility usage and donated supplies). Contributions include Medicare GME dollars and other amounts passed through from the area hospitals, as well as funding from the State Board of Education. Grant revenue is comprised primarily of federal or state-administered grants, notably a Consolidated Health Center grant, Teaching Health Center grant, and grants specific to HIV, TB and refugee programs administered by the FMRI.
2. Teaching Health Center (THC) Grant Funding: The FMRI received grant funding through the THC-GME program of the Affordable Care Act (ACA) in fiscal 2012 to fund six residents annually in family medicine training. This expansion increased the overall FMRI class size by two residents per class (total of six in the program representing the three classes). At this time, it is believed this funding will continue through fiscal 2019 due to the passage of the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA). Award amounts will be dependent on the unused funds from the previous program years but are expected to be similar to fiscal 2016 awards. Future funding is uncertain as this funding requires congressional approval.
3. Hospital Support: FMRI requires contributions from both Saint Alphonsus and St. Luke's Health Systems in regards to Medicare DME/IME pass through money. This is money given through the hospitals to the Residency by the federal government in the form of Medicare dollars to help with our training. In addition, the hospitals both have additional contributions that are essential to FMRI's operations. The Hospitals have become progressively strapped financially and have not increased payment for the last 5 years.
4. Medicaid/Medicare: FMRI requires continued cost-based reimbursement through our Federally Qualified Health Center (FQHC) designation model for Medicaid and Medicare patients. This increased reimbursement funding is critical to the financial bottom line of the Residency. Medicaid and Medicare should continue its enhanced reimbursement for Community Health Centers and Federally Qualified Health Centers into the future. Medicaid expansion in Idaho should be a positive to the FMRI.
5. Federally Qualified Health Center (FQHC) and Teaching Health Center Designations: FMRI must maintain its FQHC and Teaching Health Center designations and advocate for continued medical cost reimbursement. In late October 2013, FMRI became a Section 330 New Access Point grantee with the addition of the Kuna clinic and Meridian Schools clinic and the expansion of the Meridian clinic. Currently, all eight of FMRI's outpatient clinics received the FQHC designation. FQHC grant funding represented approximately 5% of fiscal 2018 funding. FMRI will look to add two additional FQHC sites in the future.
6. Legislation/Rules: The Idaho State Legislature's support of FMRI's request for state funding is critical to the ongoing success of FMRI as it provides essential financial resources for the FMRI's continued residency training program. The total funding FMRI received from the state in FY 2016 was \$1,529,700. This was increased for FY 2018 to \$3,029,700 to provide for the new

Family Medicine Residency in Nampa as well as the FMRI's four fellowship programs and a new Rural Training Track in the future. The increased request to the Idaho Legislature for FY 2020 that has been approved is for an additional \$240,000.

7. Governor's Support: Governor Brad Little continued his strong support for FMRI and graduate medical education training by recommending an increase in funding for graduate medical education training in general and FMRI funding in particular as noted above.

**Evaluation Process**

*A clear, specific and measurable methodology of setting goals around workforce education, patient care, faculty and rural outreach will be used. This will help both the FMRI and SBOE stay on a clear path for success with the FMRI program.*

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15  
Appendix 1**

<b>Institution/Agency Goals and Objectives</b>	<b>Family Medicine Residency Goals</b>				
	<i>Goal 1: Family Medicine Workforce</i>	<i>Goal 2: Patient Care / Delivery / Service</i>	<i>Goal 3: Education</i>	<i>Goal 4: Faculty</i>	<i>Goal 5: Rural Outreach</i>
<b>GOAL 1:</b> Family Medicine Workforce To produce Idaho’s future family medicine workforce by attracting, recruiting, and employing outstanding medical students to become family medicine residents and to retain as many of these residents in Idaho as possible post – graduation from residency.					
<b>Objective A:</b> To recruit outstanding medical school students to FMRI for family medicine residency education, this includes recruitment to the rural training tracks and fellowships. The FMRI maintains an outstanding national reputation for training family physicians, participates in national recruitment of medical students, participates in training of medical students in Idaho and participates actively in the recruitment, interview and selection process to match outstanding candidates for its programs.	✓	✓	✓		✓
<b>Objective B:</b> To graduate fully competent family physicians ready to practice independently the full scope of family medicine. This is achieved through curriculum and experiential training which reflects the practice of family medicine in Idaho, including training in rural Idaho communities.	✓	✓	✓		✓
<b>Objective C:</b> To keep as many family physicians as possible in Idaho after residency and fellowship graduation. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of Idaho, programming and education reflective graduates in making practice location decisions.	✓	✓			✓
<b>Objective D:</b> To produce as many family physicians as possible in Idaho after residency and fellowship graduation. This is done through the recruitment process for residents and fellows, the intentional curriculum design to meet the needs of Idaho, programming and education reflective graduates in making practice location decisions.	✓				✓

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15**

<b>GOAL 2: Patient Care   Delivery   Service</b> Serve the citizens of Ada County and surrounding areas in a high-quality Patient Centered Medical Home.					
<b>Objective A:</b> To maintain recognition NCQA Level III PCMH. Maintenance of NCQA recognition is on a 3 year cycle.		✓	✓		
<b>Objective B:</b> All FMRI clinics using Meaningful Use Electronic Medical Records. We are tracking the meaningful use objectives and measures and are assuring that all the providers at FMRI are meeting these.		✓	✓		
<b>Objective C:</b> Maintenance and expansion of FMRI 340b pharmacy services. We have expanded our pharmacy hours to help patient access as well as the Walgreens and other pharmacy collaboration.		✓			
<b>GOAL 3: Education</b> To provide an outstanding family medicine training program to prepare future family medicine physicians.					
<b>Objective A:</b> To create an exceptionally high quality medical education environment to train future family physicians. All FMRI residents and fellows serve Idaho patients as an integral part of the educational process. Educational milestones and national standard measures are used to demonstrate competencies and excellence. All FMRI programs are in a process of continual improvement and measured for markers of success as a part of local oversight and national accreditation.	✓	✓	✓		✓
<b>Objective B:</b> FMRI will maintain full accreditation with Accreditation Council of Graduate Medical Education (ACGME) and its Residency Review Committee for Family Medicine (RRC-FM). This is a marker of certification and excellence for accredited programs.	✓		✓		
<b>Objective C:</b> FMRI will maintain all ACGME accreditation requirements in the New Accreditation System (NAS) including a Clinical Competency Committee (CCC), Annual Program Evaluations (APE), Annual Institutional Review (AIR), and Clinical Learning Environment Review (CLER). This set of goals is met through oversight of each FMRI program by the FMRI Graduate Medical Education Committee on an ongoing basis.			✓		✓

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 15**

<b>GOAL 4: Faculty</b> FMRI has a diverse team of faculty that provides rich training environments, who are tremendously dedicated and committed to family medicine education, and enjoy working with family medicine residents and caring for our patients.					
<b>Objective A:</b> Continue expansion of dedicated and committed family medicine faculty. Targeted recruiting of full spectrum family medicine faculty through local, alumni resource, regional and national recruiting efforts.		✓	✓	✓	✓
<b>GOAL 5: Rural Outreach</b> The three pillars of FMRI's rural outreach are to provide education to students, residents and rural providers, to provide service and advocacy for rural communities and foster relationships that will help create and maintain the workforce for rural Idaho.					
<b>Objective A:</b> To maintain 35 rural site training locations in Idaho. This goal is met though growing partnerships with communities resulting in development of additional rotations in rural Idaho.	✓		✓	✓	✓

**ATTACHMENT 16**

**Key External Factors**

Securing partial state funding for a new site.

At a minimum maintain current program funding from the state of Idaho and Portneuf Medical center.

Maintaining current faculty FTE to resident ratio at around 1:3

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 16**

**Evaluation Process**

The residency will create 4 subcommittees with members from various areas of the department. These subcommittees will create action plans and benchmarks. These subcommittees will report back to the already established program evaluation committee and Department chair. These findings will be discussed and presented at faculty/staff meetings. Annually, the Department will come together to analyze the data to determine if objectives are being adequately met. After a updated SWOT process, and after careful consideration of the analytics, the group may adjust benchmarks or objectives to ensure the goal remains achievable and relevant.

**Idaho Dental Education Program**  
STRATEGIC PLAN  
 2020 – 2024

**MISSION STATEMENT**

The Mission of the Idaho Dental Education Program is to provide Idaho residents with access to quality educational opportunities in the field of dentistry. We provide Idaho with outstanding dental professionals through a combination of adequate access for residents and the high quality of education provided. The graduates of the Idaho Dental Education Program will possess the ability to practice today’s dentistry. Furthermore, they will have the background to evaluate changes in future treatment methods as they relate to providing outstanding patient care.

**VISION STATEMENT**

*The Idaho Dental Education Program envisions an elite educational program; graduating competent and ethical dentists who benefit the residents of Idaho as professionals.*

**Goal 1: Provide access to a quality dental education for qualified Idaho residents**

**Objective A: Access** - Provide dental education opportunities for Idaho residents

**Performance Measures:**

**I. Contract for 4-year dental education for at least 8 Idaho residents**

2015	2016	2017	2018	Benchmark
Yes	Yes	Yes	Yes	Yes

**Benchmark:** Contract in place with Creighton University School of Dentistry or another accredited dental school.

**II. Number of students in the program per year**

2015	2016	2017	2018	Benchmark
8	8	8	8	10

**Benchmark:** Increase the number of students in the program per year to 10.

**Objective B: Quality education** – Deliver quality teaching to foster the development of students within the program.

**Performance Measures:**

**I. First time pass rate of National Dental Boards Part I**

2015	2016	2017	2018	Benchmark
100%	100%	100%	100%	>85%

**Benchmark:** Pass rate will meet or exceed 85%

**II. First time pass rate of National Dental Boards Part II**

2015	2016	2017	2018	Benchmark
100%	100%	100%	100%	>85%

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 17**

**Benchmark:** Pass rate will meet or exceed 85%

**III. First time pass rate of Clinical Board Exam**

2015	2016	2017	2018	Benchmark
100%	100%	100%	100%	>85%

**Benchmark:** Pass rate will meet or exceed 85% on clinical board exam necessary for licensure in Idaho.

**Goal 2: Maintain some control over the rising cost of dental education**

**Objective A: Idaho Value** - Provide the State of Idaho with a competitive value in educating Idaho dentists.

**Performance Measures:**

**I. State cost per student**

2015	2016	2017	2018	Benchmark
33%	33%	33%	43%	<50%

**Benchmark:** Idaho cost per student will be <50% of the national average cost per DDSE (DDS Equivalent). The cost per DDSE is a commonly utilized measure to evaluate the relative cost of a dental education program.

**Objective B: Participant Value** - Provide program participants with a competitive value in obtaining a dental degree

**I. Student Loan Debt**

2015	2016	2017	2018	Benchmark
73.5%	66.7%	68.2%	78%	<80%

**Benchmark:** Student loan debt for IDEP participants will be <80% of the national average.

**Goal 3: Serve as a mechanism for responding to the present and/or the anticipated distribution of dental personnel in Idaho.**

**Objective A: Availability** - Help meet the needs for dentists in all geographic regions of the state.

**Performance Measures:**

**I. Geographic acceptance of students into the program**

2015	2016	2017	2018	Benchmark
Yes	Yes	Yes	Yes	Yes

**Benchmark:** Students from each of 4 regions of Idaho (North, Central, Southwest, and Southeast) granted acceptance each year.

**II. Return rate**

2015	2016	2017	2018	Benchmark
50%	60%	67%	67%	>50%

**Benchmark:** Greater than 50% of program graduates return to Idaho.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 17**

**Goal 4: Provide access for dental professionals to facilities, equipment, and resources to update and maintain professional skills.**

**Objective A: Quality Care** - Provide current resources to aid the residents of Idaho by maintaining/increasing the professional skills of Idaho Dentists.

**Performance Measures:**

**I. Continuing Dental Education (CDE)**

2014	2015	2016	2017	Benchmark
Yes	Yes	Yes	Yes	Yes

**Benchmark:** Provide continuing dental education opportunities for regional dental professionals when the need arises.

**II. Remediation of Idaho dentists**

2014	2015	2016	2017	Benchmark
Yes	Yes	Yes	Yes	Yes

**Benchmark:** Successfully aid in the remediation of any Idaho dentist, in cooperation with the State Board of Dentistry and the Idaho Advanced General Dentistry Program, such that the individual dentist may successfully return to practice.

**Key External Factors**

**Funding:**

Most Idaho Dental Education Program goals and objectives assume ongoing, and in some cases additional, levels of State legislative appropriations. Availability of these funds can be uncertain. Currently with State budget considerations that specifically impact our program, the goal to increase the number of available positions within the program from 8 to 10 has not been feasible. This will remain a long-term goal for the program.

**Program Participant Choice:**

Some IDEP goals are dependent upon choices made by individual students, such as choosing where to practice. Even though this is beyond our control, we have had an excellent track record of program graduates returning to Idaho to practice.

**Idaho Dentist to Population Ratio**

The more populated areas of Idaho are more saturated with dentists, making it difficult for new graduates to enter the workforce in these areas. With this in mind, we have still seen a good percentage of program graduates return to Idaho to practice.

**Educational Debt of Graduates**

The average educational debt of IDEP graduates continues to be an area of concern. This amount of debt may limit the ability of graduates to return to Idaho initially.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 17**

**Student Performance**

Some of the goals of the program are dependent upon pre-program students to excel in their preparation for the program. However, we have not encountered difficulty in finding highly qualified applicants from all areas of the State.

**Evaluation Process**

The Idaho Dental Education Program utilizes annual department strategic planning meetings to establish and revise program objectives and goals.

Not avail	Not avail	Approx. 300	Not avail	TBA

**Benchmark:** Measure is under development in FY20, to include action items and tracking method.

**Key External Factors**

*Funding*

*Many of IMNH strategic goals and objectives assume ongoing and sometimes substantive, additional levels of State legislative appropriations. Availability of state revenues, upon which appropriation levels depend, can be uncertain from year to year. Similarly, while gubernatorial and legislative support for IMNH efforts are significant, priorities set by those bodies vary from year to year, affecting planning for institutional initiatives and priorities. When we experience several successive years of deep reductions in state-appropriated funding, as has occurred in the recent past, it makes it increasingly difficult to plan for and implement strategic growth.*

**Evaluation Process**

*In May of each year, museum staff will evaluate objectives, benchmarks and current numbers for the fiscal year. Success and issues will be evaluated and objectives and benchmarks will be updated if needed.*

**University of Idaho**

**AGRICULTURAL  
RESEARCH & EXTENSION  
SERVICE**

**STRATEGIC PLAN  
2019-2023**

**COLLEGE OF AGRICULTURAL AND LIFE SCIENCES**  
**Agricultural Research and Extension Service**  
**Strategic Plan**  
**2019-2023**

**MISSION STATEMENT**

The College of Agricultural and Life Sciences fulfills the intent and purpose of the land-grant mission and serves the food-industry, people and communities of Idaho and our nation:

- through identification of critical needs and development of creative solutions,
- through the discovery, application, and dissemination of science-based knowledge,
- by preparing individuals through education and life-long learning to become leaders and contributing members of society,
- by fostering healthy populations as individuals and as a society,
- by supporting a vibrant economy, benefiting the individual, families and society as a whole.

**VALUES STATEMENT**

The College of Agricultural and Life Sciences values:

- excellence in creative discovery, instruction and outreach,
- open communication and innovation,
- individual and institutional accountability,
- integrity and ethical conduct,
- accomplishment through teamwork and partnership,
- responsiveness and flexibility,
- individual and institutional health and happiness.

**VISION STATEMENT**

We will be the recognized state-wide leader and innovator in meeting current and future challenges to support healthy individuals, families and communities, and enhance sustainable food systems. We will be respected regionally and nationally through focused areas of excellence in teaching, research and outreach with Extension serving as a critical knowledge bridge between the University of Idaho, College of Agricultural and Life Sciences, and the people of Idaho.

**GOAL 1**

**Innovate:** Scholarly and creative products of the highest quality and scope, resulting in significant positive impact for the region and the world.

**Objective A:** Build a culture of collaboration that increases scholarly and creative productivity through interdisciplinary, regional, national and global partnerships.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 19**

**Performance Measures:**

- I. Number of grant proposals submitted per year, number of grant awards received per year, and amount of grant funding received per year.

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
323	298	351	327	350
245	217	214	280	300
\$17.2M	\$14.5M	\$18.5M	\$17.8M	\$27M

**Benchmark:** An annual increase of 8% in funding received through both an increase in submissions (350) and awards (300) to reach \$27 million in research expenditures by 2023<sup>1</sup>.

**Objective B:** Create, validate and apply knowledge through the co-production of scholarly and creative works by students, staff, faculty and diverse external partners.

**Performance Measures:**

- I. Number of graduate students.

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
50	44	53	56	60

**Benchmark:** Increase the number of graduate students to 60 by 2023<sup>2</sup>.

- II. Number of technical publications generated/revised.

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
187	167	196	212	240

**Benchmark:** Increase the number of technical publications to 240 by 2023<sup>3</sup>.

**GOAL 2**

**Engage:** Suggest and influence change that addresses societal needs and global issues, and advances economic development and culture.

**Objective A:** Inventory and continuously assess engagement programs and select new opportunities and methods that provide solutions for societal or global issues, support economic drivers and/or promote the advancement of culture.

<sup>1</sup> To attain the University of Idaho’s goal of \$135 million in research expenditures by 2023, AERS will need to increase grant funding by 8% annually to maintain the college’s current proportion of university research expenditures at 20%. The number of grants submitted and received is an increase of 8% and 25%, respectively, over the average of the past 4 years.

<sup>2</sup> To attain the University of Idaho’s goal of 380 by 2023, AERS will need to increase the number of graduate students to 60 to maintain the college’s current proportion of university graduate students at 16%.

<sup>3</sup> To attain the goal of 240 technical publications, AERS will need to increase output of 5% annually over the average output for the past 4 years.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 19**

**Performance Measures:**

**I.** Number of individuals/families benefiting from Outreach Programs.

<b>FY15 (2014-2015)</b>	<b>FY16 (2015-2016)</b>	<b>FY17 (2016-2017)</b>	<b>FY18 (2017-2018)</b>	<b>Benchmark</b>
<b>359,662</b>	<b>338,261</b>	<b>360,258</b>	<b>405,739</b>	<b>430,000</b>

**Benchmark:** Increase the number of individuals/families benefiting from Outreach Programs to 430,000 by 2023<sup>4</sup>.

**II.** Number of Youth Participating in 4-H

<b>FY15 (2014-2015)</b>	<b>FY16 (2015-2016)</b>	<b>FY17 (2016-2017)</b>	<b>FY18 (2017-2018)</b>	<b>Benchmark</b>
<b>55,742</b>	<b>54,786</b>	<b>65,455</b>	<b>70,170</b>	<b>75,000</b>

**Benchmark:** 75,000 participants in 4-H<sup>5</sup>

**Key External Factors**

- Changes in county, state, federal and industry supported research and extension funding could impact ARES activities.
- Change in the public's trust in research-based education.
- Comparison of salary and benefits with peer institutions continues to hamper our ability to hire and retain highly qualified individuals within the Agricultural Research and Extension Service.
- Maintenance and replacement of ageing infrastructure continues to impact research and extension productivity. Finding resources to meet these needs is imperative.

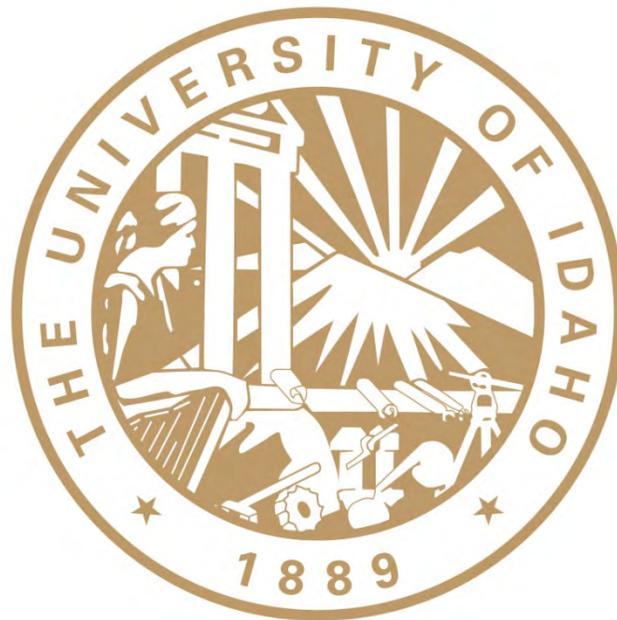

**Evaluation Process**

The Dean's Advisory Board with stakeholders and representatives from agencies in Idaho meets twice annually to review goals and performance of Agricultural Research and Extension. In addition, units (academic departments and extension districts) within the College of Agricultural and Life Sciences also have advisory boards that provide feedback toward those individual unit strategic plans and the performance toward those goals. All of the plans fit under the University of Idaho's Strategic Plan.

---

<sup>4</sup> To attain the University of Idaho Extension goal of 430,000 by 2023, AERS will need to increase the direct teaching contacts by an average of 6% over the contacts for the past year.

<sup>5</sup> To attain the goal of 75,000 youth participating in 4-H by 2023, AERS will need to increase by 4.4% annually over the average participation for the past 4 years.

# University of Idaho Forest Utilization Research and Outreach (FUR)

## STRATEGIC PLAN FY2020-FY2024

## Forest Utilization Research and Outreach (FUR)

### MISSION STATEMENT

*The Forest Utilization Research and Outreach (FUR) program is located in the College of Natural Resources at The University of Idaho. Its purpose is to increase the productivity of Idaho's forests and rangelands by developing, analyzing, and demonstrating methods to improve land management and related problems such as post-wildfire rehabilitation using state-of-the-art forest and rangeland regeneration and restoration techniques. Other focal areas include sustainable forest harvesting and livestock grazing practices, including air and water quality protection, as well as improved nursery management practices, increased wood use, and enhanced wood utilization technologies for bioenergy and bioproducts. The program also assesses forest products markets and opportunities for expansion, the economic impacts of forest and rangeland management activities, and the importance of resource-based industries to communities and the state's economic development. In addition the Policy Analysis Group follows a legislative mandate to provide unbiased factual and timely information on natural resources issues facing Idaho's decision makers. Through collaboration and consultation FUR programs promote the application of science and technology to support sustainable lifestyles and civic infrastructures of Idaho's communities in an increasingly interdependent and competitive global setting.*

### VISION STATEMENT

*The scholarly, creative, and educational activities related to and supported by Forest Utilization Research and Outreach (FUR) programs will lead to improved capabilities in Idaho's workforce to address critical natural resource issues by producing and applying new knowledge and developing leaders for land management organizations concerned with sustainable forest and rangeland management, including fire science and management, and a full spectrum of forest and rangeland ecosystem services and products. This work will be shaped by a passion to integrate scientific knowledge with natural resource management practices. All FUR programs will promote collaborative learning partnerships across organizational boundaries such as governments and private sector enterprises, as well as landowner and non-governmental organizations with interests in sustainable forest and rangeland management. In addition, FUR programs will catalyze entrepreneurial innovation that will enhance stewardship of Idaho's forest and rangelands, natural resources, and environmental quality.*

### AUTHORITY and SCOPE

*The Forest Utilization Research (FUR) program is authorized by Idaho Statute to enhance the value and understanding of vital natural resources and associated industry sectors via the Policy Analysis Group, Rangeland Center, Experimental Forest and Forest and Seedling Nursery through research, education and outreach to legislators, industry and the Idaho citizenry.*

### GOAL 1: Scholarship and Creativity

*Achieve excellence in scholarship and creative activity through an institutional culture that values and promotes strong academic areas and interdisciplinary collaboration.*

**Objective A:** *Promote an environment that increases faculty, student, and constituency engagement in disciplinary and interdisciplinary scholarship.*

### Performance Measures:

- 1. Number of CNR faculty, staff, students and constituency groups involved in FUR-related scholarship or capacity building activities.*

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 20**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
51 participants	61 participants	46 participants	46 participants	48 participants	51 participants	20% growth

**Benchmark:** Number of CNR faculty, staff, students and constituency groups involved in FUR-related scholarship or capacity building activities.<sup>1</sup> (BY FY2024)

**II. Number and diversity of courses that use full or partially FUR funded projects, facilities or equipment to educate, undergraduate, graduate and professional students.**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
	New Measure	26 courses	23 courses	24 courses	25 courses	15% growth

**Benchmark:** Number of courses using FUR funded projects, facilities or equipment during instruction.<sup>2</sup> (BY FY2024)

**Objective B:** Emphasize scholarly and creative outputs that reflect our research-extension and land-grant missions, the university and college's strategic themes, and stakeholder needs, especially when they directly support our academic programming in natural resources.

**Performance Measures:**

**I. An accounting of products (e.g., research reports, economic analyses, BMPs) and services (e.g., protocols for new species shared with stakeholders, policy education programs and materials provided, accessible data bases or market models).**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
46 products	39 products	43 products	31 products	32 products	33 products	15% growth

**Benchmark:** Numbers and types of products and services delivered and stakeholders serviced.<sup>3</sup> (BY FY2024)

**II. An accounting of projects recognized and given credibility by external reviewers through licensing, patenting, publishing in refereed journals, etc.**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
15 referred articles	14 referred articles	15 referred articles	13 referred articles	14 referred articles	15 referred articles	25% growth

**Benchmark:** Number of peer reviewed reports and referred articles produced using FUR funding, facilities or equipment.<sup>4</sup> (BY FY2024)

**GOAL 2: Outreach and Engagement**

Engage with the public, private and non-profit sectors through mutually beneficial partnerships that enhance teaching, learning, discovery, and creativity.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 20**

**Objective A:** *Build upon, strengthen, and connect the College of Natural Resources with other parts of the University to engage in mutually beneficial partnerships with stakeholders to address areas targeted in FUR.*

**Performance Measures:**

- I. Document cases: Communities served and resulting documentable impact; Governmental agencies served and resulting documentable impact; Non-governmental agencies served and resulting documentable impact; Private businesses served and resulting documentable impact; and Private landowners served and resulting documentable impact. Meeting target numbers for audiences identified below and identifying mechanisms to measure economic and social impacts.**

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
			New measure	1,100 participants	1750 participants	50% growth

**Benchmark:** Number of external participants served.<sup>5</sup> (BY FY2024)

**GOAL 3: Financial Efficiency and Return on Investment (ROI)**

*Efficient financial management of FUR state appropriated dollars supporting Goals 1 and 2 and leveraging resources to secure external funding (e.g., external grants, private funding, and cooperatives)*

**Objective A:** *Leveraging state funds to secure additional financial resources to increase impact on products, services and deliverables.*

**Performance Measures:**

- I. New funding sources from external granting agencies, private and public partnerships and other funding groups.**

*Baseline data/Actuals:*

FY14 (2013-2014)	FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
		New Measure	13 new projects	14 new projects	15 new projects	25% growth

**Benchmark:** Number of new research projects leveraged using external funding.<sup>6</sup> (BY FY2024)

**Key External Factors**

*The key external factors likely to affect the ability of FUR programs to fulfill the mission and goals are as follows: (1) the availability of funding from external sources to leverage state-provided FUR funding; (2) changes in human resources due to retirements or employees relocating due to better employment opportunities; (3) continued uncertainty relative to global, national and regional economic conditions; and (4) changing demand for the state and region's ecosystem services and products.*

**Evaluation Process**

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 20**

*Quarterly status meetings between FUR units, including PAG, Rangeland Center, Experimental Forest and Research Nursery to ensure coordinated work, identification of new opportunities, and projects. Assessment of external proposals and new funding sources for leveraging for match opportunities to increase impacts of research, outreach, and technology transfer. Annual review of strategic plan to determine applicable progress toward benchmark and growth.*

---

<sup>1</sup> Increased staff resources in 2016 will allow us to involve more faculty, staff, students and constituency groups in FUR-related scholarship activities.

<sup>2</sup> Based on College and program goals to enhance coordination of course offerings and research.

<sup>3</sup> Based on critical need to communicate with external stakeholders, and increase the pace of products produced.

<sup>4</sup> Increased staff resources in 2016 focused on research will increase scientific outreach and communication.

<sup>5</sup> New measure based on UI and college strategic goal to increase involvement and communication with external stakeholders. Benchmark established from internal analysis of recent year participants served.

<sup>6</sup> Based on analysis of projects started and completed in recent years, staff capacity, and critical need to increase the pace of projects completed annually

**University of Idaho**

**STRATEGIC PLAN  
FY2020 - FY2024**

### MISSION STATEMENT

The Idaho Geological Survey (IGS) is a non-regulatory state agency that leads in the collection, interpretation, and dissemination of geologic and mineral data for Idaho. The agency has served the state since 1919 and prior to 1984 was named the Idaho Bureau of Mines and Geology.

**The Survey's mission is to provide the state with timely and relevant geologic information.** Members of the IGS fulfill this mission through applied geologic research and strong collaborations with federal and state agencies, academia, and the private sector. IGS research focuses on geologic mapping, geologic hazards (earthquakes and landslides), hydrogeology (surface and groundwater evaluation), geothermal energy, oil and gas, and metallic and industrial minerals. The Survey's Digital Mapping Laboratory is central to compiling, producing, and delivering new digital geologic maps and publications for the agency. The IGS is also engaged in dissemination of historic mining records, community service, and earth science education. As Idaho grows, demand is increasing for geologic and geospatial information related to energy, mineral, and water resource development, and landslide and earthquake hazards.

### VISION STATEMENT

IGS is committed to the advancement of diverse disciplines within the geosciences and emphasizes the practical application of geology to benefit society. The Survey seeks to accomplish its responsibilities through service and outreach, research, and education.

### AUTHORITY

[Idaho Statutes, Title 47, Chapter 2](#) provides for the creation, purpose, duties, reporting, offices, and Advisory Board of the IGS. The Statutes specify the authority to conduct investigations, establish cooperative projects, and seek research funding. The IGS publishes an Annual Report as required by its enabling act.

### GOAL 1: Service and Outreach

Achieve excellence in collecting and disseminating geologic information and mineral data to the mining, energy, agriculture, utility, construction, insurance and banking industries, educational institutions, civic and professional organizations, elected officials, governmental agencies, and the public. Continue to strive for increased efficiency and access to survey information primarily through publications, website products, in-house collections, and customer inquiries. Emphasize website delivery of digital products and compliance with new revision of state documents requirements (Idaho Statute 33-2505).

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE, 2019**

**ATTACHMENT 21**

**Objective A: Develop and publish survey documents**

*Initiate and develop research initiatives and publish geological maps, technical reports, and data sets.*

**Performance Measures:**

**I. Number of Published Reports on Geology/Hydrogeology/Geohazards/Mineral & Energy Resources.**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
<b>39</b>	<b>25</b>	<b>31</b>		<b>25*</b>

**Benchmark:** The number and scope of published reports will be equal to or greater than the last full fiscal year reported.<sup>1</sup>

\*IGS has a few very large publications with a much larger scope in FY19-20; therefore the benchmark for number of publications is less than the last full fiscal year reported.

**Objective B: Build and deliver website products**

*Create and deliver IGS products and publications to the general public, state and federal agencies, and cooperators in an efficient and timely manner. Products include GIS data sets, reports, map publications, and web map applications.*

**Performance Measures:**

**I. Number of website products used or downloaded.**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
<b>185,635</b>	<b>204,770</b>	<b>229,893</b>		<b>252,882</b>

**Benchmark:** The number of website products used or downloaded will be equal to or greater than the last full fiscal year reported.<sup>1</sup>

**Objective C: Sustain Idaho State Documents Depository Program and Georef Catalog (International)**

*Deliver all IGS products and publications to the Idaho Commission for Libraries for cataloging and distribution to special document collections in state university libraries and deliver digital copies of all products and publications to GeoRef for entry in their international catalog of geologic literature.*

**Performance Measures:**

**I. Percentage total of Survey documents available through these programs.**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
<b>~99%</b>	<b>~99%</b>	<b>~99%</b>		<b>~99%</b>

**Benchmark:** 100%<sup>2</sup>

**Objective D: Sustain voluntary compliance**

*Sustain voluntary compliance with uploads of new geologic mapping products published at the Idaho Geologic Survey to the National Geologic Map Database Website managed by the U.S. Geological Survey.* **Performance Measures:**

- I. Percentage of Geologic Maps that are uploaded to this national website depicting detailed geologic mapping in Idaho.**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
<b>100%</b>	<b>100%</b>	<b>100%</b>		<b>100%</b>

**Benchmark:** 100% of all geologic maps that are published at the IGS each year will be uploaded to this website.<sup>2</sup>

**GOAL 2: Research**

Promote, foster, and sustain a climate for research excellence. Develop existing competitive strengths in geological expertise. Maintain national level recognition and research competitiveness in digital geological mapping and applied research activities. Sustain and build a strong research program through interdisciplinary collaboration with academic institutions, state and federal land management agencies, and industry partners.

**Objective A: Sustain and enhance geological mapping**

*Sustain and enhance geological mapping and study areas of particular interest that have economic potential and geohazard concerns.*

**Performance Measures:**

- I. Increase the geologic map coverage of Idaho by mapping priority areas of socioeconomic importance. Identify and study areas with geologic resources of economic importance and identify and study areas that are predisposed to geologic hazards.**

FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	FY19 (2018-2019)	Benchmark
<b>37.4%</b>	<b>37.9%</b>	<b>38.5%</b>		<b>39.1%</b>

**Benchmark:** Increase the cumulative percentage of Idaho's area covered by modern geologic mapping.<sup>3</sup>

**Objective B: Sustain and build external research funding**

*Sustain existing state and federal funding sources to maintain research objectives for the IGS. Develop new sources of funding from private entities such as oil and gas, mining, and geothermal energy companies that are exploring and developing geologic resources in Idaho.*

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE, 2019**

**ATTACHMENT 21**

**Performance Measures:**

- I. **Increase externally funded grant and contract dollars with a focus of securing new sources of funding from the private sector.**

<b>FY16 (2015-2016)</b>	<b>FY17 (2016-2017)</b>	<b>FY18 (2017-2018)</b>	<b>FY19 (2018-2019)</b>	<b>Benchmark</b>
<b>\$498,034</b>	<b>\$439,898</b>	<b>\$393,622</b>		<b>\$485,000</b>

**Benchmark:** Increase externally funded grant and contract dollars compared to five-year average.<sup>3</sup>

**GOAL 3: Education**

Support knowledge and understanding of Idaho’s geologic setting and resources through earth science education. Achieve excellence in scholarly and creative activities through collaboration and building partnerships that enhance teaching, discovery, and lifelong learning.

**Objective A: Provide earth science education**

*Develop and deliver earth science education programs, materials, and presentations to public and private schools.*

**Performance Measures:**

- I. **Number of educational programs provided to public and private schools and the public at large.**

<b>FY16 (2015-2016)</b>	<b>FY17 (2016-2017)</b>	<b>FY18 (2017-2018)</b>	<b>FY19 (2018-2019)</b>	<b>Benchmark</b>
<b>19</b>	<b>14</b>	<b>19</b>		<b>19</b>

**Benchmark:** The number of educational and public presentations will be equal to or greater than the last full fiscal year reported.<sup>4</sup>

**Key External Factors**

**Funding:**

Achievement of strategic goals and objectives is dependent on appropriate state funding.

External research support is partially subject to competitive federal funding, and some federal programs require a state match.

Consistent state funding is critical given the Survey’s commitments to provide deliverables that include digital geologic maps, reports on mineral exploration, oil and gas exploration, water resource assessment, and geologic hazards (seismic and slope stability), along with archiving older, unpublished mining records.

With the assistance of the Survey’s Advisory Board, we are receiving valuable advice, as we seek partnerships with state and private entities to produce non-proprietary products accessible through the Survey’s website.

**Demand for services and products:**

Changes in demand for geologic information due to energy and mineral economics play an important role in the achievement of strategic goals and objectives. Over the past five years, IGS has experienced a 74% increase in the number of downloaded products from the Survey’s website. The number of visitors to the IGS website has increased by 12% over the same five-year time frame. State population growth and requirements for geologic and geospatial information by public decision makers and land managers are also key external factors that are projected to increase over time.

**Aspirational Goals for the IGS:**

- Increase public outreach and promote the state’s resource-based economy.
- Implement an interdisciplinary geologic study of the Treasure Valley region that will connect surface geologic mapping, oil and gas subsurface work, hydrogeology, and hazards.
- Understand the southwest Idaho oil and gas play’s source and reservoirs, as well as conduct baseline evaluations of the favorable structures in southern and southeast Idaho.
- Build a functional hazards program that will coordinate with the Idaho Office of Emergency Management and other agencies to focus on geologic hazard assessments and protection of human lives, homes, and the state’s infrastructure such as pipelines, roads, railroads, and dams.
- Coordinate with various surface water and groundwater data collection and administrative agencies to assess watersheds in focus areas of the state and increase outreach and understanding of water resource issues.
- Improve understanding of mineral and ore deposits that are currently being mined and explored including cobalt, phosphate, silver, gold, and rare earth elements.
- Continue to work with the Idaho Geologic Mapping Advisory Committee to develop a 5- to 10-year geologic mapping plan.
- Improve the Survey’s website and web map applications to accommodate mobile devices for the public.

**Evaluation Process**

An annual review of existing benchmarks and goals is necessary to ensure that IGS is successfully executing its strategic plan and providing relevant and timely geologic and geospatial information to the public on the Survey’s website. New technologies will be continually evaluated on an annual basis to ensure IGS is providing its data and publications in a user-friendly format that is easily accessible to the public.

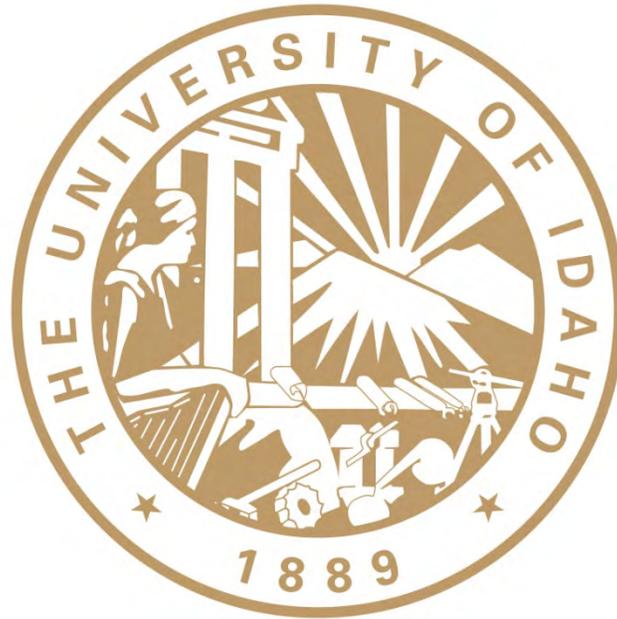

---

<sup>1</sup> These benchmarks are set based on existing resources and projected increases for this area. No additional resources were projected at the time of setting this benchmark, therefore a minimal increase would indicate growth in this area and increase efficiencies.

<sup>2</sup> This benchmark is based on current levels of performance and maintaining the current high level.

<sup>3</sup> This benchmark is dependent in part on the ability to receive external grants to broaden areas not already covered. Due to the increasingly competitive nature of external grant funding it is determined that a simple increase of areas covered was a more meaningful measure than a set number of projects.

<sup>4</sup> This benchmark is based on existing resources (including staff time) to provide presentations and developing educational partnerships to provide new venues for additional presentation above and beyond the current partnerships with public schools and postsecondary institutions.

# **University of Idaho**

## **Idaho (Washington-Idaho- Montana-Utah, WIMU) Veterinary Medical Education Program**

### **STRATEGIC PLAN**

### **2019 - 2023**

**Idaho (Washington-Idaho-Montana-Utah, WIMU)**

**Veterinary Medical Education Program  
Strategic Plan 2019-2023**

**MISSION STATEMENT**

Transfer science-based medical information and technology concerning animal well-being, zoonotic diseases, food safety, and related environmental issues – through education, research, public service, and outreach – to veterinary students, veterinarians, animal owners, and the public, thereby effecting positive change in the livelihood of the people of Idaho and the region.

**VISION STATEMENT**

To improve the health and productivity of Idaho’s food-producing livestock.

**GOAL 1**

**Transform: Increase our educational impact**

**Objective A:** Provide greater access to educational opportunities to meet the evolving needs of society.

**Performance Measures:**

*I.* Offer elective rotations in food animal medicine for experiential learning opportunities.

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
54	75	40	39	40

**Benchmark:** Attain enrollment of 40 senior veterinary students into these optional rotations<sup>1</sup>.

**Objective B:** Foster educational excellence via curricular innovation and evolution.

**Performance Measures:**

*I.* Student placement in the Northwest Bovine Veterinary Experience Program (NW-BVEP).

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
12	12	11	8	12

**Benchmark:** Offer spots for 12 students annually<sup>2</sup>.

**Objective C:** Create an inclusive learning environment that encourages students to take an active role in their student experience.

**Performance Measures:**

*I.* Number/percentage of Idaho resident graduates licensed to practice veterinary medicine in Idaho.

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
4/44%	9/64%	5/45%	3/30%	7/65%

**Benchmark:** Over each 4-year period, at least 7 Idaho resident graduates (65%) become licensed to practice veterinary medicine in Idaho annually<sup>3</sup>.

<sup>1</sup> Based on internal standards as a measure of program quality

<sup>2</sup> Based on internal standards as a measure of program quality

<sup>3</sup> Based on national standards for return rates of similar programs

**GOAL 2**

**Innovate: Scholarly and creative products of the highest quality and scope, resulting in significant positive impact for the region and the world.**

**Objective A:** Build a culture of collaboration that increases scholarly and creative productivity through interdisciplinary, regional, national and global partnerships.

**Performance Measures:**

- I. Number of grant awards received per year and amount of grant funding received per year by WIMU faculty.

FY15 (2014-2015)	FY16 (2015-2016)	FY17 (2016-2017)	FY18 (2017-2018)	Benchmark
7/\$170,800	5/\$146,800	2/\$112,000	1/\$12,000	4/\$200,000

**Benchmark:** Receive 4 grant awards for \$200,000 in funding annually by 2023<sup>4</sup>.

**Key External Factors**

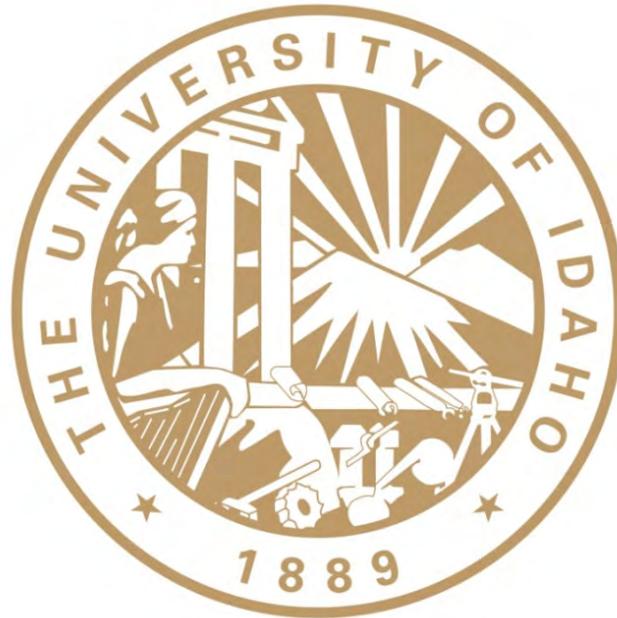

Veterinary education through general food animal, small ruminant, beef and dairy blocks offered by University of Idaho faculty are undergoing a transition to improve student access to animals. The change in teaching is in direct consultation with the Washington State University College of Veterinary Medicine. Hiring of faculty to support this transition is underway.

**Evaluation Process**

Veterinary Medical Education went through the national accreditation process fall 2017; the contribution of the University of Idaho to veterinary education was a part of that review. The review will be provided by the Washington State University College of Veterinary Medicine (WSU CVM) to all partners (Idaho, Montana and Utah) when received. In addition, the Department of Animal and Veterinary Science at the University of Idaho and the Food Animal faculty at WSU CVM meet annually to examine curricular changes, performance of food animal block rotations, and overall performance by the WIMU veterinary medical education program related to the measures in this evaluation. The groups also work jointly to find new faculty for the program when openings occur.

<sup>4</sup> Based on internal standards as a measure of faculty quality

# WWAMI

## Idaho WWAMI (Washington, Wyoming, Alaska, Montana, Idaho) Medical Education Program

Strategic Plan  
2020-2024

WWAMI is Idaho's state funded medical school, and is under the leadership and institutional mission of the University of Idaho, in partnership with the University of Washington School of Medicine (UWSOM). In August 2015, we began a new 2015 UWSOM medical school curriculum at all six regional WWAMI sites. Students started with a multi-week clinical immersion experience—intensively learning the clinical skills and professional habits to serve them throughout their careers. For their first 18 months, students spend a full day each week learning and practicing clinical skills in a community primary care clinic and in workshops. This is in addition to their hospital-based “Colleges” training with a faculty mentor and small group of peers. This new curriculum allows our students to be on the University of Idaho campus for up to 4 terms, instead of the previous 2 terms. It also provides our medical students with the option to spend the majority of all four years of medical education in the State of Idaho. WWAMI now enrolls 40 first year and 40 second year students for a total overlap of 80 students for fall semester.

Over the past few years we have grown the number of medical students in the Idaho WWAMI Targeted Rural and Underserved Track program (TRUST). The mission of TRUST is to provide a continuous connection between underserved communities, medical education, and health professionals in our region. This creates a full-circle pipeline that guides qualified students through a special curriculum connecting them with underserved communities in Idaho. In addition, this creates linkages to the UWSOM's network of affiliated residency programs. The goal of this effort is to increase the medical workforce in underserved regions. ~~The WWAMI now enrolls 40 first year and 40 second year students for a total overlap of 80 students for fall semester.~~

In 2018, students will continue their academic training over the summer between their first and second year in a structured experiential learning environment. This summer experience will enhance the student's knowledge in research, epidemiology and community-based projects. Following the 18 month curriculum (foundations phase), many students will stay on the Moscow campus for an additional 2 months utilizing the resources at the University of Idaho as they prepare for their board examinations. A This year a few majority of our medical students are utilizing University of Idaho facilities and resources at the WWAMI Moscow site. A few of our students utilize the Water Center WWAMI office facility in Boise. This board preparation time is critical for the students' success and is something that we will be developing more programing and resources to support.

As the medical education contract program for the State of Idaho with the University of Washington, the UI-WWAMI supports the Strategic Action Plan of its host university, the University of Idaho, while recognizing its obligation to the mission, goals, and objectives of its nationally accredited partner program, the UWSOM.

#### MISSION STATEMENT

The University of Washington School of Medicine is dedicated to improving the general health and well-being of the public. In pursuit of its goals, the School is committed to excellence in biomedical education, research, and health care. The School is also dedicated to ethical conduct in all of its activities. As the preeminent academic medical center in our region and as a national leader in

biomedical research, we place special emphasis on educating and training physicians, scientists, and allied health professionals dedicated to two distinct goals:

- Meeting the health care needs of our region, especially by recognizing the importance of primary care and providing service to underserved populations.
- Advancing knowledge and assuming leadership in the biomedical sciences and in academic medicine.

The School works with public and private agencies to improve health care and advance knowledge in medicine and related fields of inquiry. It acknowledges a special responsibility to the people in the states of Washington, Wyoming, Alaska, Montana, and Idaho, who have joined with it in a unique regional partnership. The School is committed to building and sustaining a diverse academic community of faculty, staff, fellows, residents, and students and to assuring that access to education and training is open to learners from all segments of society, acknowledging a particular responsibility to the diverse populations within our region.

The School values diversity and inclusion and is committed to building and sustaining an academic community in which teachers, researchers, and learners achieve the knowledge, skills, and attitudes that value and embrace inclusiveness, equity, and awareness as a way to unleash creativity and innovation.

**VISION STATEMENT**

Our students will be highly competent, knowledgeable, caring, culturally sensitive, ethical, dedicated to service, and engaged in lifelong learning.

**GOAL 1**

**A WELL EDUCATED CITIZENRY** – Continuously improve access to medical education for individuals of all backgrounds, ages, abilities, and economic means.

**Objective A:**

**Access** - Provide outreach activities that help recruit a strong medical student applicant pool for Idaho WWAMI.

**Performance Measures:**

The number of Idaho WWAMI applicants per year and the ratio of Idaho applicants per funded medical student.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017 - 2018)</u>	<u>FY19 <del>5</del>(2018-2019)</u>	<b>Benchmark</b>
<u>141 (4.7:1)</u>	<u>164 (4.7:1)</u>	<u>163 (4.075:1)</u>	<u>183<del>157</del> (6.3:1)</u>	<b>5:1</b>

*Benchmark: National ratio of state applicants to medical school per state-supported students.<sup>1</sup> The benchmark is the national ratio of state applicants to medical school to the number of state supported positions. Since the number of WWAMI students has increased and the number of applicants has remained relatively the same we expect the ratio to increase, thus the benchmark was moved closer to the national ratio. In ~~FY17-FY19~~, the ratio of applicants in Idaho to the number of available positions was 4.075~~575~~:1; the national ratio of in-state applicants to available positions is 16:1.*

<https://www.aamc.org/download/321442/data/factstablea1.pdf>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 23**

**Objective B:**

Transition to Workforce - Maintain a high rate of return for Idaho WWAMI graduate physicians who choose to practice medicine in Idaho, equal to or better than the national state return rate.

**Performance Measure:**

Cumulative Idaho WWAMI return rate for graduates who practice medicine in Idaho.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY15-FY19 (20142018- 20152019)</u>	<b>Benchmark</b>
<b>51%</b>	<b>50%</b>	<b>50%</b>	<b>51%51%</b>	<b>55%</b>

*Benchmark: target rate – national average or better.<sup>2</sup> The benchmark is 39%, the national average of students that return to their native state to practice medicine. In Idaho, the return rate was 50% (301/599).*

**GOAL 2**

**CRITICAL THINKING AND INNOVATION** - WWAMI will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of biomedical researchers, medical students, and future physicians who contribute to the health and wellbeing of Idaho’s people and communities.

**Objective A:**

**Critical Thinking, Innovation and Creativity** – Generate research and development of new ideas into solutions that benefit health and society.

**Performance Measure:**

WWAMI faculty funding from competitive federally funded grants.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY15-FY19 (20184-20195)</u>	<b>Benchmark</b>
<b>\$4.4M</b>	<b>\$1M</b>	<b>\$1M</b>	<b>\$2M\$2.3M</b>	<b>\$1.4M</b>

*Benchmark: \$1.4M<sup>3</sup> The benchmark for this objective is \$1.4M annually, through ~~2023~~2024. In FY18, WWAMI-affiliated faculty at UI successfully brought in ~~\$1M-2M~~ of research funding into Idaho from agencies such as the National Institute of Health (NIH) and the Department of Health and Human Services (DHHS). In addition, the University of Idaho WWAMI program launched its ECHO Idaho program in early 2018. Project ECHO is an evidence-based learning model that develops knowledge and capacity among healthcare providers. This program has been successful in bringing in over \$900,000 in multiple grant funding to be used to expanding the program throughout Idaho. In 2018, UI WWAMI launched its first Northern Idaho Health Education Center, a subcontract through the University of Washington Medicine. This \$385,000, five-year grant will help develop and implement education and training activities within the pipeline, and strengthen partnerships in rural communities throughout the State of Idaho. In addition, WWAMI has had a long-standing relationship with the Idaho INBRE Program, where*

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 23**

*each year our medical students apply for summer research fellowships. INBRE received a \$16.3 million renewal grant from NIH in 2013.*

**Objective B:**

**Innovation and Creativity** – Educate medical students who will contribute creative and innovative ideas to enhance health and society.

**Performance Measures:**

Percentage of Idaho WWAMI students participating in medical research (laboratory and/or community health).

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY15-FY19 (20184-20195)</u>	<b>Benchmark</b>
<u>100%</u>	<u>100%</u>	<u>100%</u>	<b>100%</b>	<b>100%</b>

*Benchmark: Internally set benchmark as measure of program quality - 100%<sup>4</sup> The benchmark is 100% of Idaho WWAMI students participating in medical research. All students at the UWSOM must participate in a research activity. Currently only 36% of medical schools have a research requirement (Liaison. Medical. Requirement: May 2017, Medical Student Research Requirement.)*

**Objective C:**

**Quality Instruction** – Provide excellent medical education in biomedical sciences and clinical skills.

**Performance Measure:**

Pass rate on the U.S. Medical Licensing Examination (USMLE), Steps 1 & 2, taken during medical training.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY15-FY19 (20184-20195)</u>	<b>Benchmark</b>
<u>100%</u>	<u>100%</u>	<u>95%</u>	<del>96%</del> <b>100%</b>	<b>95%</b>

*Benchmark: U.S. medical student pass rates, Steps 1 & 2 is 94% for U.S. M.D. medical school graduates.<sup>5</sup> The benchmark for the U.S. Medical Licensing Examination (USMLE), Steps 1 & 2, is the U. S. medical student pass rates.*

**GOAL 3**

**EFFECTIVE AND EFFICIENT DELIVERY SYSTEMS** – Deliver medical education, training, research, and service in a manner which makes efficient use of resources and contributes to the successful completion of our medical education program goals for Idaho.

**Objective A:**

Increase medical student early interest in rural and primary care practice in Idaho.

**Performance Measure:**

The number of WWAMI rural summer training ([RUOP](#)) placements in Idaho each year.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY195 (20184-20195)</u>	<b>Benchmark</b>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 23**

<u>23</u>	<u>22</u>	<u>29</u>	<u>2426</u>	<u>20</u>
-----------	-----------	-----------	-------------	-----------

Benchmark: 20 rural training placements following first year of medical education <sup>6</sup> The benchmark is 20 rural training placements following the first year of medical education. During the past summer, 29 students completed a Rural Underserved Opportunities Program (RUOP) experience in Idaho.

**Objective B:**

Increase medical student participation in Idaho clinical rotations (clerkships) as a part of their medical education.

**Performance Measure:**

The number of WWAMI medical students completing at least one clerkship in Idaho each year.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY195 (20184-20195)</u>	<b>Benchmark</b>
<u>36</u>	<u>24</u>	<u>28</u>	<u>2934</u>	<b>20</b>

Benchmark: 20 clerkship\* students each year <sup>7</sup>. The benchmark is 20 clerkship students per year that complete at least one clerkship in Idaho. The Idaho Track is a voluntary program of the University of Washington School of Medicine in which students complete the majority of required clinical clerkships within Idaho. Third-year Idaho Track medical students complete approximately twenty-four weeks of required clerkships in Idaho, and fourth-year Idaho Track medical students complete three of four required clerkships in Idaho. ~~Twelve~~ Twenty third-year Patient Care Phase students and ~~sixteen-ten~~ fourth-year Explore and Focus students ~~participated-are~~ currently participating in the Idaho Track ~~in~~ during the ~~20172018-2018-2019~~ 20172018-2018-2019 academic year. In addition to Idaho Track students, other UWSOM students rotate among the various clinical clerkships in Idaho. During ~~this~~ this academic year ~~of2017-2018~~ 20172018-20182019, ~~a total of approximately 143-142~~ UWSOM students will completed one or more clinical rotations in Idaho. Those ~~143-142~~ medical students will complete ~~completed~~ a total of ~~276-281~~ individual clinical rotations in Idaho. It is expected that ~~as-since~~ the number of WWAMI medical students have increased and the number of medical students from other programs (ICOM, U of U, PNWU) are growing, the benchmark ~~was-has~~ decreased ~~from 2017 below the FY17 measure~~ to reflect the realities of limited clerkships in Idaho. Efforts ~~s~~ to increase the number of clerkships in Idaho by WWAMI are underway. From AY13-14 to AY 17-18, the total number of individual clerkships being done in Idaho each year has increased from 89 to 142, reflecting a 60% increase since 2013.

\*Patient Care Phase (Year 3) and Explore and Focus (Year 4)

**Objective C:**

Support and maintain interest in primary care and identified physician workforce specialty needs for medical career choices among Idaho WWAMI students.

**Performance Measure:**

Percent of Idaho WWAMI graduates choosing primary care, psychiatry, general surgery, and OB/GYN specialties for residency training each year.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY195 (20184-20195)</u>	<b>Benchmark</b>
<u>47%</u>	<u>59%</u>	<u>67%</u>	<u>61%64%</u>	<b>50%</b>

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 23**

*Benchmark: 50% or more of Idaho WWAMI graduating class choosing needed work force specialties for residency training each year<sup>8</sup> The benchmark is 50% of the Idaho WWAMI graduating class choosing a specialty for residency training that is needed in Idaho (family medicine, general internal medicine, psychiatry, general surgery, and OB/GYN specialties). The benchmark is lower than the previous performance measures as a result of more medical students in the WWAMI cohort and limited graduate medical education options in Idaho and the nation. Currently there is national crisis related to a shortage of medical residencies.*

**Objective D:**

Maintain a high level Return on Investment (ROI) for all WWAMI graduates who return to practice medicine in Idaho.

**Performance Measure:**

Ratio of all WWAMI graduates who return to practice medicine in Idaho, regardless of WWAMI origin, divided by the total number of Idaho medical student graduates funded by the State.

<u>FY16 (2015-2016)</u>	<u>FY17 (2016-2017)</u>	<u>FY18 (2017-2018)</u>	<u>FY19<del>5</del> (2018-201<del>9</del>5)</u>	<b>Benchmark</b>
<u>75%</u>	<u>75%</u>	<u>75%</u>	<u>75%<del>72%</del></u>	<b>70%</b>

*Benchmark: target ratio – 70%<sup>9</sup> The benchmark for the Return on Investment (ROI) for all WWAMI graduates who return to practice medicine in Idaho is 760%. The current ROI is 75% (447467/625599). The benchmark is lower than the previous performance measures as a result of more medical students in the WWAMI cohort and other medical learners in the state competing for limited clerkship and residency positions.*

**Objective E:**

~~Efficiently deliver medical education under the WWAMI contract, making use of Idaho academic and training resources.~~

**Performance Measure:**

~~Percent of Idaho WWAMI medical education contract dollars spent in Idaho each year.~~

			<u>FY15 (2014-2015)</u>	<b>Benchmark</b>
			<u>72%</u>	<b><u>970%</u></b>

~~Benchmark: 970%<sup>10</sup>—The benchmark for this objective is 970%, the percentage of Idaho WWAMI medical education dollars spent in Idaho each year. 2017 to, therefore, we have increased our benchmark to 90%In FY18, 70% of the State appropriations were spent in Idaho.~~

**Key External Factors (beyond the control of the Idaho WWAMI Medical Program):**

**Funding:** the number of state-supported Idaho medical student seats each year is tied to State legislative appropriations. Availability of revenues and competing funding priorities may vary each year.

**Medical Education Partnerships:** as a distributed medical education model, the University of Idaho and the UWSOM WWAMI Medical Program rely on medical education partnership with local and regional physicians, clinics, hospitals, and other educational institutions in the delivery of medical training in Idaho.

The availability of these groups to participate in a distributed model of medical education varies according to their own budget resources and competing demands on their time and staff each year.

**Population Changes in Idaho:** with a growing population and an aging physician workforce, the need for doctors and medical education for Idaho's students only increases. Changes in population statistics in Idaho may affect applicant numbers to medical school, clinical care demands in local communities and hospitals, and availability of training physicians from year to year.

**Medical School Curriculum:** The University of Washington School of Medicine ~~implemented a curriculum reengaged in a newal of major review and revision of the medical school curriculum in 2015,~~ which ~~has~~ impacted delivery of education and training in the WWAMI programs in Idaho. Given that students are on the University of Idaho campus for up to four terms instead of two, adjustments ~~are being must be~~ made to accommodate the increased number of medical students on campus. Expanded facilities, enhanced technology, additional faculty and support staff are necessary for the additional students and delivering this new state of the art curriculum. The University of Idaho ~~has is already~~ anticipating these needs and ~~is~~ working toward expanding facilities to accommodate the increased number of students. Tuition funds from third term medical students will help support the program's needs. The University of Idaho has identified and hired the necessary faculty to support the programmatic changes implemented in fall 2015. This curriculum renewal offers Idaho the opportunity to keep Idaho students in-state throughout a majority of the four years of their medical education, which is a significant advantage in retaining students as they transition to clinical practice.

**For-profit Medical Schools in Idaho:** There is an increasing need for more high quality clerkships for our students. The current challenge in developing clinical training opportunities is that multiple health profession training programs, such as medical students, physician assistant students, nurse practitioner students, family medicine residents, internal medicine residents and psychiatry residents are all seeking clinical training sites in Idaho. The ~~proposed introduction of a~~ for-profit osteopathic school in Idaho ~~is adding has over up to~~ 300 additional clerkship students needing clinical training, ~~which would~~ creates significant challenges for clinicians in Idaho to meet those needs. The saturation of clinical training sites in Idaho has the potential to impact clinical opportunities for Idaho's only public supported medical education program housed in Idaho (WWAMI). Without strategic and thoughtful growth for medical education, the states only allopathic medical education opportunities for Idaho residents may be negatively impacted.

#### **Evaluation Process**

Annually WWAMI conducts an evaluation on the metrics used for the performance measures. The WWAMI Director and WWAMI Program Manager collect data from national, regional and local sources and then distribute that data for review to the University of Washington and University of Idaho administration. Strategic plans of the University of Washington School of Medicine and the University of Idaho serve as the framework for the WWAMI strategic plan and annual review process. Results of our performance measures are reviewed and influence the strategic plan as part of a continuous quality improvement.

#### **Cyber Security Plan**

The WWAMI Medical Education Program has adopted the National Institute of Standards and Technology (NIST) Cybersecurity Framework and implementation of the Center for Internet Security (CIS) Controls

Institution/Agency Goals and Objectives	State Board of Education Goals			
	Goal 1: A WELL EDUCATED CITIZENRY	Goal 2: INNOVATION AND ECONOMIC DEVELOPMENT	Goal 3: DATA- INFORMED DECISION MAKING	Goal 4: EFFECTIVE AND EFFICIENT EDUCATIONAL
<b>GOAL 1: A WELL EDUCATED CITIZENRY</b> <i>Continuously improve access to medical education for individuals of all backgrounds, ages, abilities, and economic means.</i>	✓	✓	✓	
<i>Objective A: Access - Provide outreach activities that help recruit a strong medical student applicant pool for Idaho WWAMI.</i>	✓		✓	✓
<i>Objective B: Transition to Workforce - Maintain a high rate of return for Idaho WWAMI graduate physicians who choose to practice medicine in Idaho, equal to or better than the national state return rate.</i>	✓			✓
<b>GOAL 2: CRITICAL THINKING AND INNOVATION</b> WWAMI will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of biomedical researchers, medical students, and future physicians who contribute to the health and wellbeing of Idaho's people and communities.	✓	✓		
<i>Objective A: Critical Thinking, Innovation and Creativity – Generate research and development of new ideas into solutions that benefit health and society.</i>	✓	✓		✓
<i>Objective B: Innovation and Creativity - Educate medical students who will contribute creative and innovative ideas to enhance health and society.</i>	✓	✓		
<i>Objective C: Quality Instruction – Provide excellent medical education in biomedical sciences and clinical skills.</i>	✓			✓
<b>GOAL 3: EFFECTIVE AND EFFICIENT DELIVERY SYSTEMS</b> Deliver medical education, training, research, and service in a manner which makes efficient use of resources and contributes to the successful completion of our medical education program goals for Idaho.	✓		✓	✓
<i>Objective A: Increase medical student early interest in rural and primary care practice in Idaho.</i>		✓		✓

**SUBJECT**

High School Graduation Requirements Flexibility – College Entrance Exam

**APPLICABLE STATUTE, RULE, OR POLICY**

Chapter 61, Title 33, Idaho Code

**ALIGNMENT WITH STRATEGIC PLAN**

Statutory Requirement

**BACKGROUND/ DISCUSSION**

Senate Bill 1060 (2019), effective July 1, 2019, creates a new chapter of Idaho Code, titled Opportunities for College and Career Ready Students. The provisions of this new chapter create requirements for school districts and charter schools to provide flexibility in a student's schedule and be exempted from completing any remaining high school graduation requirements, both minimum state requirements and local requirements. To be eligible for the flexibility, the student must be at least sixteen years of age, maintain a cumulative 3.5 grade point average, obtain permission from a parent or guardian, and file with the student's school:

- Notification of the student's intent;
- A student participation portfolio;
- An essay of at least one page explaining why the student wishes to have a flexible schedule; and
- Achieves a college and career readiness score.

Additionally, the student must complete the civics test required pursuant to Section 33-1602, Idaho Code, the economics credit, government credits, and senior project required under the State Board of Education's graduation requirements. Students who meet all of these requirements may also opt to graduate early without completing any remaining high school graduation requirements.

Senate Bill 1060 further allows for students who opt for the flexible schedule and do not graduate early to use advanced opportunity funds provided pursuant to Section 33-4602, Idaho Code, for activities identified under the flexible schedule provisions.

Pursuant to Section 6101, Idaho Code, the college and career readiness score identified as the first requirement for earning the flexibility from graduation requirements is "the minimum score on a college entrance examination indicating that a student is academically ready to advance to an institution of higher education to an occupation or occupational training, as determined by the Board."

**IMPACT**

Students meeting the Board approved score on a college entrance exam will be provided flexibility in meeting the state minimum graduation requirements.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENTS**

Attachment 1 – Senate Bill 1060 – Opportunities for College and Career Ready Students

**STAFF COMMENTS AND RECOMMENDATIONS**

Board staff reviewed our Idaho students' past performance on the SAT and ACT and evaluated the likelihood of students testing within various band ranges of going on to postsecondary education. Mathematics, English, and Science subject areas were evaluated separately. Based on the students' junior year testing results using the new SAT scoring methodology implemented in 2016 with concordance to ACT scoring, staff recommend the following score bands in each subject area.

- Mathematics
  - SAT ≥ 750
  - ACT ≥ 33
  
- English
  - SAT (ERW – Evidence-Based Reading and Writing) ≥ 750
  - ACT (English and Reading Combined) ≥ 70
  
- Science
  - SAT (Cross Score Science) ≥ 35
  - ACT ≥ 34

The composite score on each ACT test (English, mathematics, reading, science) ranges from 1 (low) to 36 (high). The SAT score range is 400-1600 for a total score and 200-800 for the mathematics and English sections each.

According to the College Board, students testing in the 11<sup>th</sup> grade with an SAT mathematics section score between 530 and 800 have a 75% chance of earning at least a C in first-semester, credit-bearing college courses in algebra, statistics, pre-calculus, or calculus. Likewise, students with an SAT Evidence-Based Reading and Writing (ERW) section score 530 and 800 have a 75% chance of earning at least a C in first-semester, credit-bearing college courses in history, literature, social sciences, or writing classes. Due to the change in testing methodology in 2016, data is still being evaluated on the performance of students who go on to postsecondary education and scored within these ranges.

Performance on for the 2018 graduating class was:

<b>SAT</b>		<b>English</b>	<b>Mathematics</b>
19,832	Average Score	507	492
<b>ACT</b>		<b>English/Reading Combined</b>	
6,743	Average Score	44.9 (21.8/23.1)	21.5

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

Staff recommend that a minimum score be set by subject area for mathematics and English. The Board may want to consider including the science score, however, a student's performance on the science portion of the assessment does not have as great of an impact on the students postsecondary progress unless they are going into a science related program of study. Additionally, there is no concordance for science between the ACT and SAT, the identified score band is based on average scores between ACT mathematics and science and comparable college readiness bands.

Additional analysis will need to be completed on how students scoring at these levels perform after high school to validate the score ranges.

**BOARD ACTION**

I move to set the college and career readiness score for the purposes of chapter 61, title 33 starting with the 2019-2020 school year greater than 750 on the SAT in mathematics and English (ERW) and greater than 33 on the ACT mathematics exam and greater than 70 on the ACT English (English and Reading Combined) exam.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**STATEMENT OF PURPOSE**

**RS26774**

The purpose of this bill is to give students an opportunity to demonstrate they have met the basic knowledge requirements of the State to 1.) receive a high school diploma without attending all "state required" classes that have been needed in the past or 2.) to have flexibility within their schedules to focus on Career and Technical Education (CTE), or elective programs. They shall take the Scholastic Aptitude Test (SAT), American College Testing (ACT) or other similar examinations identified by the State Board of Education (SBE). When a student demonstrates basic skills, which is defined as "college and career ready," then they will be able to receive 1.) flexibility in their schedules; 2.) the ability to freely take post-secondary classes; or 3.) receive their accredited diploma and opt out of high school to further their educational or career goals.

**FISCAL NOTE**

This bill has minimal fiscal impact to the State. A student may require additional time with a counselor. An estimated 600 students may take advantage of this opportunity. Of this total, 400 would most likely stay in school for the flexibility schedule and 200 students may choose to graduate early. A student who opts to stay in high school with flexibility will have their classes paid by the Advanced Opportunity program. A student who opts to graduate early will be provided funding to attend the Idaho institution of their choice.

LEGISLATURE OF THE STATE OF IDAHO  
Sixty-fifth Legislature First Regular Session - 2019

IN THE SENATE

SENATE BILL NO. 1060, As Amended, As Amended in the House

BY EDUCATION COMMITTEE

AN ACT

1 RELATING TO EDUCATION; AMENDING TITLE 33, IDAHO CODE, BY THE ADDITION OF A  
2 NEW CHAPTER 61, TITLE 33, IDAHO CODE, TO DEFINE TERMS, TO ESTABLISH PRO-  
3 VISIONS REGARDING FLEXIBLE SCHEDULES FOR CERTAIN STUDENTS, TO PROVIDE  
4 FOR CERTAIN FUNDING AVAILABLE TO STUDENTS WITH FLEXIBLE SCHEDULES, TO  
5 ESTABLISH PROVISIONS REGARDING EARLY GRADUATION, AND TO PROVIDE DUTIES  
6 OF THE STATE BOARD OF EDUCATION.  
7

8 Be It Enacted by the Legislature of the State of Idaho:

9 SECTION 1. That Title 33, Idaho Code, be, and the same is hereby amended  
10 by the addition thereto of a NEW CHAPTER, to be known and designated as Chap-  
11 ter 61, Title 33, Idaho Code, and to read as follows:

12 CHAPTER 61

13 OPPORTUNITIES FOR COLLEGE AND CAREER READY STUDENTS

14 33-6101. DEFINITIONS. As used in this chapter:

15 (1) "Board" means the state board of education.

16 (2) "College and career readiness score" means the minimum score on  
17 a college entrance examination indicating that a student is academically  
18 ready to advance to an institution of higher education or to an occupation or  
19 occupational training, as determined by the board.

20 (3) "College entrance examination" means the ACT, the SAT, or a similar  
21 examination identified by the board.

22 (4) "Participation portfolio" means a description of a student's  
23 nonacademic and cocurricular activities including, but not limited to, stu-  
24 dent government, sports, music ensembles, theater, clubs, organizations,  
25 work, internships, and volunteering. A participation portfolio should also  
26 include any leadership positions a student holds in nonacademic activities.

27 33-6102. FLEXIBLE SCHEDULE. (1) A student is eligible to take a flexi-  
28 ble schedule as provided in subsection (2) of this section if the student:

29 (a) Is at least sixteen (16) years of age;

30 (b) Maintains a cumulative 3.5 grade point average;

31 (c) Obtains permission from a parent or guardian, if under the age of  
32 eighteen (18) years;

33 (d) Achieves a college and career readiness score;

34 (e) Files with the student's school:

35 (i) Notification of the student's intent to take a flexible  
36 schedule;

37 (ii) The student's participation portfolio; and

38 (iii) An essay of at least one (1) page explaining why the student  
39 wishes to have a flexible schedule and outlining the student's fu-  
40 ture plans using such flexible schedule; and

- 1 (f) Completes:
- 2 (i) The civics test required by section 33-1602, Idaho Code; and
- 3 (ii) The economics credit, government credits, and senior project
- 4 required under the board's graduation requirements, provided that
- 5 the student's senior project may describe the student's experi-
- 6 ence in achieving a college and career readiness score and include
- 7 a detailed explanation of the student's future plans.
- 8 (2) An eligible student may, at the student's option and upon notifica-
- 9 tion to the student's school, be relieved from completing any remaining high
- 10 school graduation requirements. Such student shall have flexibility in the
- 11 student's schedule to:
- 12 (a) Take elective courses, career technical education programs, or
- 13 core courses as selected by the student and determined to be available
- 14 by the student's school district or public charter school;
- 15 (b) Participate in apprenticeships or internships;
- 16 (c) Act as a tutor at any grade level; or
- 17 (d) Engage in such other activities as identified by the board.
- 18 (3) A student with a flexible schedule must adhere to the plans de-
- 19 scribed pursuant to subsection (1)(e) of this section. If the student is
- 20 under the age of eighteen (18) years, the student's plans may be modified
- 21 with the approval of the student's parent or guardian.

22 33-6103. FLEXIBLE SCHEDULE -- ADVANCED OPPORTUNITIES FUNDING. A stu-

23 dent who opts for a flexible schedule pursuant to the provisions of section

24 33-6102, Idaho Code, may use the student's allotment of advanced opportuni-

25 ties funds for activities identified in subsection (2)(a) of that section.

- 26 33-6104. EARLY GRADUATION. (1) A student is eligible to graduate early
- 27 as provided in subsection (2) of this section if the student:
- 28 (a) Is at least sixteen (16) years of age;
- 29 (b) Maintains a cumulative 3.5 grade point average;
- 30 (c) Obtains permission from a parent or guardian, if under the age of
- 31 eighteen (18) years;
- 32 (d) Achieves a college and career readiness score;
- 33 (e) Files with the student's school:
- 34 (i) Notification of the student's intent to graduate early;
- 35 (ii) The student's participation portfolio; and
- 36 (iii) An essay of at least one (1) page explaining why the student
- 37 wishes to graduate early and outlining the student's future educa-
- 38 tion or training plans if the student graduates early; and
- 39 (f) Completes:
- 40 (i) The civics test required by section 33-1602, Idaho Code; and
- 41 (ii) The economics credit, government credits, and senior project
- 42 required under the board's graduation requirements, provided that
- 43 the student's senior project may describe the student's experi-
- 44 ence in achieving a college and career readiness score and include
- 45 a detailed explanation of the student's future plans.
- 46 (2) An eligible student may, at the student's option and upon notifica-
- 47 tion to the student's school, be relieved from completing any remaining high
- 48 school graduation requirements and graduate early.

1           (3) School districts or public charter schools must grant high school  
2 diplomas to students who are eligible and opt for early graduation pursuant  
3 to this section.

4           33-6105. DUTIES OF BOARD. The board shall:

5           (1) Perform duties specifically provided in this chapter;

6           (2) Ensure, through rules established by the board, that any funds dis-  
7 tributed pursuant to section 33-6103, Idaho Code, are used for the purpose  
8 described in that section; and

9           (3) Take such actions as are necessary to implement and enforce the pro-  
10 visions of this chapter, including the promulgation of any necessary rules.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**SUBJECT**

Legislative Ideas - 2020 Legislative Session

**REFERENCE**

June 2016	The Board approved twenty-eight (28) legislative ideas to be submitted through the Executive Agency Legislation process.
June 2017	The Board approved eighteen (18) legislative ideas to be submitted through the Executive Agency Legislation process.
June 2018	The Board approved three (3) legislative ideas to be submitted through the Executive Agency Legislative process.

**ALIGNMENT WITH STRATEGIC PLAN**

GOAL 3: EDUCATIONAL ATTAINMENT: Objective A: Higher Level of Education Attainment, Objective B: Timely Degree completion, Objective C: Access

**BACKGROUND/ DISCUSSION**

The State Board of Education's legislative process starts with the approval of legislative ideas. Legislative ideas that are approved by the Board are submitted electronically to the Division of Financial Management (DFM) through the Executive Agency Legislative process. A legislative idea consists of a statement of purpose and a fiscal impact. If approved by the Board, the actual legislative language will be brought back to the Board at a later date for final approval prior to submittal to the legislature for consideration during the 2020 Legislative Session. Legislative ideas submitted to DFM are forwarded to the Governor for consideration then to the Legislative Services Office for processing and submittal to the Legislature.

In accordance with the Board's Master Planning Calendar, the institutions and agencies are required to submit legislative ideas for Board consideration at the June Board meeting. The Board office received four (4) legislative ideas from the institutions:

Board Staff

1. Seed Certification
2. Proprietary School and Postsecondary Institution – Records Retention
3. State Board of Education – Election of Officers Date
4. Career Ladder – Educator Experience
5. School Age – Flexibility
6. School District Boundaries – Elections
7. Professional Studies Loan Program Repeal (Section 33-3720, Idaho Code)
8. Educational Interpreter

Division of Vocational Rehabilitation

9. Extended Employment Services Program

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

Division of Career Technical Education

10. Career Technical Program Added Cost Funding

North Idaho College

11. Community College Tuition Cap Amendment

Idaho State University

12. Preceptor Tax Credit

13. Higher Education Personnel Management

Lewis-Clark State College

14. Program Expansion – Legislative Authority

**IMPACT**

Staff will submit Board-approved legislative ideas through the executive agency legislative process and will bring back legislative language to the Board once approved by the Governor's Office. Legislative ideas not approved will not be submitted to through the executive agency legislative process and will not be sponsored by the Board for introduction to the legislature.

**ATTACHMENTS**

Attachment 1 – Legislative Ideas – Statement of Purpose and Fiscal Impact

**STAFF COMMENTS AND RECOMMENDATIONS**

In 2017 the Board approved and forwarded legislation that, if enacted, would no longer required the Board go through the formal rule promulgation process for seed certification. During the 2018 Legislative Session the Potato Commission requested the legislation be held and that a broader group composed of the University of Idaho's College of Agriculture and the various agricultural commodities commissions be formed to look at more holistic changes to the section of code. The Governor's Office concurred with the request and the legislation was held pending further work. This legislative idea concerning Seed Certification is being forwarded again to the Board for consideration as a placeholder. If the broader group were to form consensus and bring forward a consensus piece of legislation, the consensus legislation would be brought to the Board for consideration in lieu of this item.

Legislative ideas are required to be submitted to DFM by July 12, 2019 and final legislation is required to be submitted by August 16, 2018. During the process of working through legislative ideas, additional ideas of merit sometimes surface before the DFM submittal deadline. The Board has traditionally authorized the Executive Director to submit these ideas. Actual legislative language for all submitted legislative ideas will be brought back to the Board prior to the DFM August deadline for final Board approval. The legislative ideas were discussed during the June Presidents' Council meeting.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

Legislative Ideas submitted by institutions or agencies are provided in the form submitted to the Board office. Final edits may be made in substantial conformance to the form provided prior to submittal through the Executive Agency Legislative System. Legislative Ideas that do not indicate who they were submitted by are developed by Board staff based in alignment with Board initiatives or feedback received from legislators and other education stakeholder groups.

Each legislative idea submitted to the Governor's Office must include a Statement of Purpose and a Fiscal Note. The Statement of Purpose and Fiscal Note become part of the proposed legislation and summarize the purpose and impact of the legislation. Pursuant to the requirements for submitting legislation through the Executive Agency Legislative system: "A Fiscal Note is a statement estimating the amount of revenue or expenditure from all funds that will occur if the bill passes. It must be written exactly as it will appear on the attachment to the actual bill. A Fiscal Note must be precise and include impacts for all funds. Use of such terms as "minimal" or "undetermined" are inadequate and will be returned to the agency for editing. If the Fiscal Note states there is no projected fiscal impact, then the Fiscal Note must contain a statement of the reasons why per Idaho Joint Rule 18."

Idaho Joint Rule 18 is a rule of the State Legislature requiring "Fiscal Notes. — (b) The fiscal note applies only to a bill as introduced, and does not necessarily reflect any amendment to the bill that may be adopted. The fiscal note shall reasonably contain the proponent's full fiscal year projected increase or decrease in existing or future appropriations, and/or the increase or decrease in revenues by the state or unit(s) of local government. The bill's proponent bears the responsibility to provide a reasonably accurate fiscal note. If the fiscal note states there is no projected fiscal impact, then the fiscal note must contain a statement of the reasons that no fiscal impact is projected. All fiscal notes shall be reviewed for compliance with this rule by the committee to which the bill is assigned, excepting that any compliance review is subject to Joint Rule 18(e). A member of the committee may challenge the sufficiency of a fiscal note at any time prior to the committee's final action on the bill."

The Legislative Ideas provided in Attachment 1 are listed by number, allowing the Board to approve all of the Legislative Ideas as a whole or choose, by number, which Legislative Ideas they would like to move forward to the next step in the process.

**BOARD ACTION**

I move to approve the Legislative Ideas \_\_\_\_\_ in substantial conformance to the form provided in Attachment 1 and to authorize the Executive Director to submit these and additional proposals that may be identified between the June Board meeting July deadline as necessary through the Governor's legislative process.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**LEGISLATIVE IDEAS**

**1. Seed Certification**

Statement of Purpose

The purpose of this legislation is to amend Section 22-1505, Idaho Code, removing the requirement that the Idaho Agricultural Experiment Station in the College of Agriculture of the University of Idaho use the Administrative Rule process for setting standards for seed certification. The current process that allows for public/industry input in setting seed certification standards through the Idaho Crop Improvement Association, the current Agent of the Idaho Agricultural Experiment Station, would remain in place, however, the added formal rule promulgation process would be removed. Layering the formal rule promulgation process on top of the process that has been developed through the Idaho Crop Improvement Association has added a layer of bureaucracy and time lines that limits the ability to amend standards in a manner responsive to industry needs. The current framework for gathering stakeholder/industry input used by the Idaho Crop Improvement Association allows those that are impacted to be involved in the process through the Idaho Crop Improvement Association. Additionally, a thirty day public comment period for the standards would be required prior to their establishment.

Fiscal Impact

There would be a de minimis positive fiscal impact. The current processes facilitated by the College of Agriculture and its agent the Idaho Crop Improvement Association would continue. The administrative rule process would be eliminated resulting in one less rule being published each year. The publication costs for this rule have run between \$500 and \$1,000 each year.

**2. Proprietary Schools and Postsecondary Institutions – Records Retention**

Statement of Purpose

Chapter 24, Title 33 establishes requirement for proprietary schools and postsecondary institutions (degree granting) to register with the State Board of Education. These requirements include minimum standards for transparency and accreditation for degree granting institutions. From time-to-time a proprietary school or private degree granting institution will go out of business. When this happens there is no requirement that these entities store or archive student records. This can be a problem for a student who may later try to complete a degree or use their training to qualify for a job and can no longer obtain their records from the school or institution. The proposed legislation would add a requirement that as part of the closing procedures the school or institution arrange for the student records to be stored in a manner that would allow them to be accessed by the student. This requirement would include provisions for minimum security levels for any stored personally identifiable student level data.

Fiscal Impact

There would be no fiscal impact to the state or the schools or institutions affected. Record management companies exist that will store student records in a safe manner. These

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 1**

companies then charge the students for access to the records, similarly to a transcription fee.

**3. State Board of Education – Election of Officers Date**

Statement of Purpose

The purpose of this legislation is to amend Section 33-104, Idaho Code, Meetings of the Board. This section of code stipulated the minimum number of regular meetings the Board must hold during the year and requires the Board elect a president, vice-president, and secretary at its first meeting after the first day of April. The proposed amendment would move the election of officer date to the first meeting after the first day of July. Board member terms run from July 1, to June 30, moving the date to July would align the election of officers with the terms of the Board members.

Fiscal Impact

There would be no fiscal impact. The proposed amendment will only impact the timing of existing processes.

**4. Career Ladder – Educator Experience**

Statement of Purpose

Section 33-1004B, Idaho Code, established the Instructional Staff and Pupil Service Staff Career Ladder used for determining salary based apportionment for the school districts and charter schools for these two categories of staff. The requirements for the Career Ladder start individuals new to teaching in the first cell of the first rung and then move individuals based on their performance and student outcomes. For individuals with previous K-12 teaching experience being placed on the Career Ladder for the first time, they are placed in a cell based on their teaching experience and level of education as it would have been based on the old methodology that determined salary based apportionment for all certificated positions based on experience and level of educational attainment. This placement does not take into account any experience the person may have earned while teaching in a postsecondary setting. The proposed amendment would allow for individuals who started as a K-12 teacher, left to teach at the postsecondary level, and then returned to the K-12 classroom to include their postsecondary teaching experience in their initial placement on the Career Ladder.

Fiscal Impact

The impact would be de minimis to the state. This will impact a small number of individuals resulting in a minimum increase to the calculation of salary based apportionment for instructional staff at the state level. At the local level it will result in a slightly higher apportionment, helping the school district or charter school to recruit and retain individuals with educator experience.

**5. School Age – District Flexibility**

Statement of Purpose

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 1**

Section 33-201, Idaho Code, defines “school age” for the Idaho public school system. Students must fall within this definition to attend public schools in Idaho. The current definition of school allows for exceptions for resident children with disabilities, for all other children the child must be the age of five by the first day of September to enroll in kindergarten and the age of six by the first day of September to enroll in first grade. As written there is no flexibility allowed for students who fall just outside of this age range that parents and schools feel are ready and could benefit from entering school early. The proposed legislation would add language that would allow for a determination at the local level for ~~the~~ a student’s readiness to enter kindergarten or first grade and provide some flexibility to the school districts and charter schools. This legislation does not impact the compulsory attendance provision in Idaho Code nor does make kindergarten compulsory. It does provide flexibility at the local level for those parents whose children fall just outside of the September 1 date and would like to enroll their children in public school. Section 33-202, Idaho Code, sets the compulsory attendance requirements for Idaho as ages seven (7) through sixteen (16), inclusively.

Fiscal Impact

There would be a de minimis fiscal impact due to the small number of students that will be impacted and the sState voluntary kindergarten enrollment provisions.

**6. School District Boundaries - Elections**

Statement of Purpose

Section 33-308, Idaho Code sets out the provisions for annexing and excising territory between school districts. Once the Board approves a request for excision and annexation the proposal is then submitted to the voters that live in the area that is being moved between school districts. In recent years, it has not been uncommon for these requests to affect a small number of students, with a larger perceived property value impact than student impact. The proposed amendment would expand the individuals who are eligible to vote on the request to annex and excise territory to the patrons of the two school districts being impacted rather than only the individuals within the territory being adjusted.

Fiscal Impact

There would be no fiscal impact to the state, the process for reviewing and acting on proposals will stay the same. There could be a small fiscal impact to the county dependent on the number of individuals that vote on the matter, this impact could be positive or negative depending on the turnout for any given election. The county is responsible for verify the individuals eligibility to vote on the matter before them. By expanding the eligible electors to the patrons of both school districts the county would no longer have to verify which electors resided in the just the area being considered for annexation/excision.

**7. Professional Studies Loan Program Repeal**

Statement of Purpose

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 1**

The proposed legislation would repeal Section 33-3720, Idaho Code. This section of code establishes a loan program that is no longer administered and has not been funded in over a decade.

Fiscal Impact

There would be no fiscal impact. This program has not been funded in a number of years and is no longer administered.

**8. Educational Interpreter**

Statement of Purpose

Chapter 13, Title 33 establishes provisions for educational interpreters. Additionally, Chapter 29, Title 54 sets out licensing requirements for individuals providing interpreting services. Individuals who are providing interpreting services as education interpreters pursuant to the requirements in chapter 13, title 33, are exempt from the licensing requirements in chapter 29, title 54. To qualify for this exemption the individual is required to be interpreting in a kindergarten through grade 12 educational setting. School districts provide educational services to students with disabilities that meet the definition of school age and fall outside of the kindergarten through grade 12 range. In these cases, school districts are required to hire a licensed interpreter at an increased cost. The proposed amendment would change the reference to grade ranges in the education interpreter provisions to the statutorily defined term of "school age." This will allow for school district to use education interpreters for students that fall outside of the grade range while still meeting the school age definition. These students are students with disabilities that the school districts are required to provide services for through the Individuals with Disability Education Act to provide services for.

Fiscal Impact

There would be no fiscal impact to the state. Interpreters are hired and funded at the local school level. The amendments could result in cost savings to the school district as educational interpreters are generally hired at a lower rate than licensed interpreters are.

**9. Extended Employment Services Program** (Submitted by the Division of Vocational Rehabilitation)

Statement of Purpose

The purpose of this legislation is to codify the Extended Employment Services (EES) Program. The legislation would statutorily establish the EES program with a twofold mission: (1) provide work skills training on a short-term bases for Idahoans with the Most Significant Disabilities for whom competitive integrated employment has not been successful due to the specific limitations of their disability or disabilities; and (2) serve Idahoans with the Most Significant Disabilities who require long term supports in order to maintain competitive integrated employment due to the specific limitations of their disability or disabilities. The legislation would further stipulate that the EES program supports Idahoans who are not otherwise eligible for any other public program funding, including Department of Health and Welfare Medicaid Waivers. In other words, the EES

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

**ATTACHMENT 1**

program would be the payer of last resort and would not supplant or duplicate any other public funding source.

Fiscal Impact

There would be no fiscal impact based on the FY20 EES program appropriation.

**10. Career Technical Program Added Cost Funding** (Submitted by the Division of Career Technical Education)

Statement of Purpose

The proposed legislation creates a new section of Idaho Code to formalize the existing structure of secondary CTE programs in Idaho, as well as creates a statutory framework outlining how CTE programs are funded. Idaho Code currently identifies the eligibility requirements for a Career Technical School, but does not identify the requirements for CTE programs offered through a comprehensive high school. The proposed legislation will identify the operational requirements for both cluster programs and pathway programs, including both traditional classroom and hybrid delivery models. The proposed legislation will formalize the calculation of base funding for CTE programs, as well as the formula used to calculate additional added-cost funding according to the program type and instructional delivery model.

Fiscal Impact

The General Fund Fiscal Impact for this proposed legislation is zero. The proposed legislation codifies current practices and formalizes the current formula-based approach used to generate added-cost funds for secondary CTE programs.

**11. Community College Tuition Cap** (Submitted by North Idaho College on behalf of the community colleges)

Statement of Purpose

The proposed legislation would amend Section 33-2110, Idaho Code, removing the maximum tuition cap allowed to be charged by Community Colleges. Currently, code limits Community Colleges to a maximum tuition of \$2,500 per annum, which equates to an effective per credit cost of \$104.17. Removing the tuition cap will allow the locally elected Boards of Trustees for each Community College to continue to set tuition and use student tuition as one part of the equation to fund quality higher education at each college. Current resident in-district tuition is close to the statutory cap at the Community Colleges. For example, at North Idaho College, resident in-district-tuition is \$101.50 per credit allowing only \$2.67 or an additional 2.6% until reaching the current maximum cap allowed per Code.

Fiscal Impact

The proposed amendments would remove the tuition cap that can be collected by Community Colleges. —Without the amendment, Community Colleges will need to rely more on state funding and local taxing district support to fund operations. For North Idaho College, the change would create additional tuition of \$152,052.27 assuming a 3% tuition increase and a current tuition rate of \$104.17 per credit.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS

**12. Preceptor Tax Credit** (Submitted by Idaho State University)

Statement of Purpose

In recognition of the difficulty in finding clinical training sites in health professions education, a professional association approached ISU to request State Board of Education support for proposed legislation during the 2020 legislative session. This legislation would provide a tax credit to those clinicians (preceptors) who provide preceptorships, without compensation, to Idaho students whose field of study supports the primary care workforce. Preceptors who are training Idaho learners in: graduate medical education (i.e. physician residency training), pharmacy, physician assistant, advanced practice registered nursing (i.e. nurse practitioners), and clinical psychopharmacology programs would qualify for the proposed tax credit.

Several states have implemented these programs. The laws vary in the types of preceptors included and the amount of the tax incentive. Adjudication of the time spent precepting is typically performed by the academic institution. Draft legislation is not yet available for Idaho, but will be later in the summer.

Rationale

- Idaho continues to be an underserved state for primary care;
- This legislation may allow more students to do their clinical work in Idaho and encourage them to stay in Idaho to practice;
- With Medicaid expansion the need for primary care practitioners is growing;
- The cost of preceptors is growing and without an alternative these costs will become an additional cost to students.

Fiscal Impact

A potential fiscal scenario would be: a clinical preceptor shall be allowed a tax credit of \$1000.00 for each one hundred hours of preceptor instruction; however, the credit allowed shall not exceed \$3000 during any taxable year. If, 300 uncompensated preceptors in Idaho all claimed an average of a \$2000 credit there would be a \$600,000 impact to the state general fund. The number of preceptors who would take advantage of the tax credit is unknown at this time.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

**ATTACHMENT 1**

As private institutions are paying or planning on paying for preceptors the alternative to this credit could be an increase in needed state general funds for preceptors in order to maintain an adequate pool. The fiscal impact of this tax credit would help offset this need.

**13. ~~State Classified Staff Autonomy~~ Higher Education Personnel Management**  
(Submitted by Idaho State University on behalf of Lewis-Clark State College and Boise State University)

Statement of Purpose

Currently Section, 67-5303(j), Idaho Code, defines "faculty," "officers," "professional staff" and positions at the agencies and postsecondary institution under the State Board of Education's governance and who receive an annual salary equivalent to three hundred fifty-five (355) Hay points as non-classified. The proposed legislation would expand this provision and define all staff at Boise State University, Lewis-Clark State College, Idaho State University, and the University of Idaho as non-classified staff and would remove employees of these institutions from the authority of the Division of Human Resources that governs the classified employment system in Idaho. The proposed legislation would not change the current universities' practice with retirement plans. Staff positions receiving an annual salary of less than the equivalent of the Step "A" of the pay grade equivalent to three hundred fifty-five (355) Hay points would participate in PERSI and staff receiving an annual salary of more than the equivalent of the Step "A" of the pay grade equivalent to three hundred fifty-five (355), unless otherwise vested in PERSI, would participate in the Board's Optional Retirement Plan. Further amendments would provide that the State Board of Education would determine compensation and compensatory time for all University institution employees; remove the requirement that the State Controller's Office approve the institutions system for maintaining personnel records; and exempt institution staff from the requirement that awards given to staff pursuant to Section 59-1603(8), Idaho Code, be done so in accordance to rules promulgated by the Division of Human Resources. The proposed amendments would impact the following sections of Idaho Code: 33-107A, 59-1603, 59-1607, and 67-5303.

Fiscal Impact

The proposed legislation would have limited fiscal impact to the State of Idaho, rather the legislation adjusts human resource management and practices for Boise State University, Idaho State University, and Lewis and Clark State College. The legislation provides that current classified employees, and any future employees hired who meet the equivalent pay definition of a current classified employee, would remain in the PERSI system rather than the Optional Retirement Plan, resulting in no fiscal impact to the PERSI or the Optional Retirement Plan. This legislation does not have any effect on health insurance enrollment from the colleges and universities.

Currently, Boise State University, Idaho State University, and Lewis-Clark State College pay an ongoing fee to the Idaho Division of Human Resources based on a percentage of classified employee salaries. Boise State University and Idaho State University fees to DHR equal 0.306% of classified employee payroll, while the corresponding fee at Lewis and Clark State College equates to 0.5535% of classified employee salaries. The following table outlines the approximate annualized fees paid by each institution to the

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS  
JUNE 20, 2019**

**ATTACHMENT 1**

Division of Human Resources. These funds would be retained by the institution and the annual budget of the Idaho Division of Human Resources would have to be adjusted to reflect the ~~deficit this would create for~~ reduction in their operating budget.

All employees of the University of Idaho and the community colleges are already exempt from Division of Human Resource management. This bill creates uniformity in how institutions governed by the State Board of Education are treated, recognizes that education and student services have fundamentally different functions in contrast to most state agencies, and provides consistency, flexibility, and greater efficiency in how the universities manage their workforce.

<b>Institution</b>	<b>Number Classified Employees</b>	<b>of Annualized Classified Payroll</b>	<b>DHR Annual Fee</b>
Idaho State University	579	\$18,140,422	\$55,510
Boise State University	519	\$17,275,729	\$52,864
Lewis and Clark State College	120	\$3,810,970	\$21,094

**14. Lewis-Clark State College Program Expansion** (Submitted by Lewis-Clark State College)

Statement of Purpose

Section 33-3101, Idaho Code, currently limits offerings at Lewis-Clark State college to instruction in four (4) year college courses in science, arts and literature, and such courses or programs as are usually included in liberal arts colleges leading to the granting of a baccalaureate degree and career technical education courses or programs of less than four (4) years. The proposed amendments would remove the restrictions and allow the college to offer such programs as the State Board of Education may approve.

Fiscal Impact

The fiscal impact is indeterminate at this time. The State Board of Education program approval process requires institutions to provide evidence of program need and costs when considering the approval of new programs. Any program that demonstrates a high regional or state need may result in the shifting of existing funds from lower priority programs to cover new program costs, and/or a request for new funds through the state appropriation process, and/or the creation of a self-support program fee or increase in general tuition and fees to cover associated costs. New costs could be offset by the increased enrollment derived from participants in new programs, that may not otherwise enroll at Lewis-Clark State College.

The fiscal impact would vary based on the program. However, broadly speaking, administrative and support structures are in place; with primary program expenses likely associated with personal (i.e., faculty). Reallocation of existing resources will be the first source of new program support funds.

**COLLEGE OF SOUTHERN IDAHO**

**SUBJECT**

Non-Traditional Route to Teacher Certification - Mastery-Based

**REFERENCE**

October 2017	Board approved concept of mastery-based pathway for teacher certification for individuals who meet the requirement of the alternative authorization-Content Specialist route to certification.
April 2018	Board approved the College of Southern Idaho's Alternative Authorization-Content Specialist, Mastery-Based Route to Teaching Program

**APPLICABLE STATUTE, RULE, OR POLICY**

Sections 33-114, 33-1201 – 33-1207, and 33-1258, Idaho Code  
Idaho Administrative Code, IDAPA 08.02.02, Rules Governing Uniformity

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 1: Educational System Alignment – Objective B: Alignment and Coordination. Goal 4: Workforce Readiness – Objective A: Workforce Alignment

**BACKGROUND/DISCUSSION**

In August 2016 the Board considered the problem of educator supply throughout the state and determined that a broad group of stakeholders impacted by the pipeline should be brought together to form comprehensive recommendations to address Idaho's educator pipeline. At the April 2017 Board meeting, members received an update on the work of the Educator Pipeline Work Group, and reviewed the initial recommendations.

One specific recommendation was to develop a "mastery-based" preparation program that would be more flexible than current routes to certification, and would account for experience and pre-existing knowledge resulting in lower costs and shorter preparation time. Such a route to certification, Mastery-Based Alternative Authorization, was presented at the October 2017 Board meeting and received approval.

In April 2018, the College of Southern Idaho brought forward a proposal to the Board to offer the alternate route program; specifically to make a contribution to the exceptional teacher shortages present in Region 4 districts. The program was presented and approved as a mastery-based program to serve Alternative Authorization-Content Specialist candidates. The program is completing its first year, with an inaugural cohort of 26 candidates primarily located in districts throughout Region 4. The program is poised to double in size for the 2019-2020 cohort.

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

Throughout this first year, it has become clear that the program could better serve Region 4 and outlying rural districts by being more proactive in partnering with districts. The current model, Content Specialist, allows the program to work only with candidates who have already been hired and are serving as the teacher of record. In alignment with the Teacher Pipeline Committee Recommendations from April 2017, rural districts and areas experiencing critical teacher shortages need an avenue to “Grow Your Own” teachers from members within their communities.

The College of Southern Idaho (CSI) is requesting approval from the Board to be designated as a Non-Traditional Route to Teacher Certification as described in IDAPA 08.02.02.042.03. This change from a Content Specialist-only program to a Non-Traditional program does not require any substantive change; but would allow CSI to partner with districts to identify and train candidates through a residency and/or internship while completing the program. Candidates would have the opportunity to better prepare for the classroom without the pressure of concurrently serving as the teacher of record, and districts could begin initiating prospective teachers up to two years in advance of anticipated vacancies. Such a model would not only alleviate the pressure of last minute, untrained hires, but also empower districts to begin building and filling their own teacher pipelines to address areas of consistent need.

Pursuant to IDAPA 08.02.02.100.02, a non-traditional route to teacher certification program must include, at a minimum, the following components:

- a. Pre-assessment of teaching and content knowledge;
- b. An academic advisor with knowledge of the prescribed instruction area;
- c. Exams of pedagogy and content knowledge; and
- d. Be aligned to the Idaho Standards for the Initial Certification of Professional School Personnel.

Attachment 1 identifies the current program’s alignment to current certification standards. Attachment 2 aligns the current program with the requirements of a Non-Traditional Route to Teacher Certification, also comparing other Idaho programs that currently hold this designation for reference.

**IMPACT**

The area in which CSI is located is experiencing the greatest teacher shortage across the state. Both lawmakers and school leaders from Region 4 have expressed a desire for the college to become more active in assisting with quality preparation of teaching candidates. Designation CSI’s Mastery-Based Program from Content Specialist-only to Non-Traditional will expand the services the college will be able to offer this area.

**ATTACHMENTS**

program proposal (April 2018)  
Attachment 2 – IDAPA Requirements for Non-Traditional Program aligned to CSI's  
current Mastery-Based program.  
Attachment 3 – Program Letter of Support

**STAFF COMMENTS AND RECOMMENDATIONS**

Pursuant to Section 33-114, Idaho Code, the review and approval of all teacher preparation programs in the state is vested in the State Board of Education. The program reviews are typically conducted for the Board through the Professional Standards Commission (Commission). Recommendations are then brought forward to the Board for consideration. The review process is designed to ensure the programs meet the Board approved standards for Initial Certification of Professional School Personnel (Certification Standards) for the applicable program areas. Certification Standards are designed to ensure that educators are highly effective, prepared to teach the state content standards for their applicable subject areas, and are up-to-date on best practices in various teaching methodologies. The Commission reviewed and recommended the CSI program for Board approval as an alternative route at its April 6, 2018 meeting. Initial feedback from school district administrators has been positive. Since this original approval, Lewis-Clark State College has also submitted a proposal for approval of a mastery-based alternate route to certification. The Commission has reviewed this proposal and while they agreed the program met the same standards as the College of Southern Idaho's program they have indicated that these programs would be a better fit as non-traditional programs. Approval as a non-traditional program will allow for these programs to be more proactive in working with individuals that school districts or charter schools have identified that would be a good fit for the classroom and allow them to enter the program and receive training prior to entering the classroom. Lewis-Clark State College's program is being brought forward from the Professional Standards Commission on the Department of Education's portion of the agenda.

Staff recommends approval.

**BOARD ACTION**

I move to approve the request by College of Southern Idaho to expand the college's Mastery-Based Alternate Route to Teacher Certification program to a Non-Traditional Route to Teacher Certification under the same conditional approval as the original program. Full approval is contingent on the evaluation of program complete effectiveness.

(m) The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).</p> <p>Disposition-</p> <p>1. (n) The teacher respects learners' diverse strengths and needs and is committed to using this information to plan effective instruction.</p> <p>2. (o) The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.</p>	<p>9. Uses data on learner performance over time to inform planning, making adjustments for recurring learning needs. (7f; 7p) (INTASC Standards 9 and 10 Embedded)</p> <p>10. Uses information from informal interactions with families to adjust his/her plans and to incorporate home-based resources to provide further support. (7o; 7q) (INTASC Standards 9 and 10 Embedded)</p> <p>11. Identifies learners with similar strengths and/or needs and groups them for additional supports. (7d; 7l; 7q)</p> <p><b>Module 5- Successful Learning by All Students (Designing Instruction and Assessment Literacy)</b> <b>Example Assessment</b> (INTASC Standard 7)- The teacher candidate will plan a complete unit of instruction for high student engagement. Such units may include discussions, project-based learning, inquiry-based learning, and/or cooperative learning, among other instructional strategies. This task addresses several teaching practices including designing a sequence of lessons towards a specific learning goal; appraising, choosing, and modifying tasks and texts for a specific learning goal; and setting long- and short-term learning goals for students. Evaluation should be based on the teacher candidate's ability to work collaboratively, plan multiple lessons, create classroom activities, and design new strategies. Submission Artifacts- Unit Plan</p> <p>(Performance measures drawn directly from INTASC Progressions, pps. 34- 37)</p>

	<p>3. (p) The teacher takes professional responsibility to use short- and long-term planning as a means of assuring student learning.</p> <p>4. (q) The teacher believes that plans must always be open to adjustment and revision based on learner needs and changing circumstances.</p>	
<p align="center"><b>Standard 8 Instructional Strategies</b> - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.</p>	<p><b>Performance-</b></p> <p>1. (a) The teacher uses appropriate strategies and resources to adapt instruction to the needs of individuals and groups of learners.</p> <p>2. (b) The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs.</p> <p>3. (c) The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and access family and community resources to develop their areas of interest.</p> <p>4. (d) The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners.</p> <p>5. (e) The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances.</p>	<p><b>Module 5- Successful Learning by All Students Module (Designing Instruction and Assessment Literacy)-Aligns with INTASC Standards 6, 7, and 8</b></p> <p><b>The teaching candidate:</b></p> <p>1. Directs students' learning experiences through instructional strategies linked to learning objectives and content standards. (7k) (INTASC Standard 10 Embedded)</p> <p>2. Analyzes individual learner needs (e.g., language, thinking, processing) as well as patterns across groups of learners and uses instructional strategies to respond to those needs. (7j; 8b; 8l; 8p) (INTASC Standards 9 and 10 Embedded)</p> <p>3. Makes the learning objective(s) explicit and understandable to learners, providing a variety of graphic organizers, models, and representations for their learning. (8a; 8e; 8m)</p> <p>4. The teacher integrates primary language resources into instruction. (8k; 8m; 8p) (INTASC Standards 9 and 10 Embedded)</p> <p>5. Seeks assistance in identifying general patterns of need in order to support language learners. (8k; 8m) (INTASC Standards 9 and 10 Embedded)</p> <p>6. Helps learners use a variety of sources and tools, including technology, to access information related to an instructional objective. S/he helps students learn to evaluate the</p>

	<p>6. (f) The teacher engages all learners in developing higher order questioning skills and metacognitive processes.</p> <p>7. (g) The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.</p> <p>8. (h) The teacher uses a variety of instructional strategies to support and expand learners' communication through speaking, listening, reading, writing, and other modes.</p> <p>9. (i) The teacher asks questions to stimulate discussion that serves different purposes (e.g., probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question).</p> <p>Knowledge-</p> <p>1. (j) The teacher understands the cognitive processes associated with various kinds of learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.</p> <p>2. (k) The teacher knows how to apply a range of developmentally, culturally, and linguistically appropriate instructional strategies to achieve learning goals.</p> <p>3. (l) The teacher knows when and how to use appropriate strategies to differentiate instruction and</p>	<p>trustworthiness of sources and to organize the information in a way that would be clear to an authentic audience. (8g; 8j; 8n; 8o; 8r) (INTASC Standards 9 and 10 Embedded)</p> <p>7. Develops learners' abilities to participate in respectful, constructive discussions of content in small and whole group settings. S/he establishes norms that include thoughtful listening, building on one another's ideas, and questioning for clarification. (8i; 8q) (INTASC Standards 9 and 10 Embedded)</p> <p>8. Models the use of non-linguistic representations, concept mapping, and writing to show how learners can express their understanding of content area concepts and assigns work that allows the learners to practice doing so. (8e; 8m; 8q) (INTASC Standard 10 Embedded)</p> <p>9. Prepares (as appropriate to the learning objective) learners to use specific content-related processes and academic language. S/he also incorporates strategies to build group work skills. (4j) (INTASC Standard 10 Embedded)</p> <p>10. Poses questions that elicit learner thinking about information and concepts in the content areas as well as learner application of critical thinking skills such as inference making, comparing, and contrasting. (8f; 8g; 8q) (INTASC Standard 10 Embedded)</p> <p>11. Integrates primary language resources into instruction. (8k; 8m; 8p) (INTASC Standard 9 Embedded)</p> <p><b>Module 5- Successful Learning by All Students (Designing Instruction and Assessment Literacy)</b>  <b>Example Assessment</b> (INTASC Standard 8)-          The teacher candidate plans and leads a large group discussion. **Section II: New Program Requirements**

This is a Competency - based teacher preparation program. Candidates organized in a revolving cohort will have access to the following five modules. Regardless of participation in the cohort, however, to complete the “pedagogical assessment” portion of the program all assessments related to each of the modules must be passed:

**Module 1-Clarity of Instructional Purpose and Accuracy of Content Module (Content Methods and Standard Alignment)**

**Module 2- Safe, Respectful, Supportive, Challenging Learning Environment Module (Creating an Environment that Fosters College and Career Ready Skills)**

**Module 3- Classroom Management Module (Creating a Learning Environment for All Learners)**

**Module 4- Student Intellectual Engagement Module (Differentiation and Application of Content)**

**Module 5- Successful Learning by All Students Module (Designing Instruction and Assessment Literacy)**

In addition to completion of the pedagogical assessment, to qualify for full certification a candidate must also complete the assessment of content knowledge (Praxis II) and the state’s common summative performance assessment using the Framework for Teaching.

Boise, ID 83702

Re: Letter of Support – College of Southern Idaho Non-Traditional Route to Teaching

Members of the Board,

The College of Southern Idaho has been actively partnering with Region 4 school districts to help alleviate the critical teacher shortage in the Magic Valley. CSI's current program of mastery-based preparation for Content Specialists has provided training and support for more than twenty teachers through the 2018-19 school year and is poised to double in the 2019-20 school year.

I would like to voice my support for expanding the program to allow for a Non-Traditional Route to Teaching. The goal would be to enhance the number of teachers in Region 4 districts who enter the pipeline. This would allow CSI to proactively partner with districts to identify and train candidates through an internship, learning the craft of teaching without the pressure of concurrently serving as the teacher of record. It is my understanding that CSI has to turn away passionate candidates who do not currently hold a Bachelor's degree.

Expanding what CSI currently offers, to provide for a Non-Traditional route to teaching, will provide more opportunities to enter the teaching profession. Such a model would be attractive to candidates who currently do not hold a bachelor's degree. This model would be of interest to para-educators, substitute teachers and parent volunteers. These modifications would provide opportunities for rural districts to work with CSI to develop "Grow Your Own" teaching programs. These enhancements would empower districts to begin building and filling their own teacher pipelines to address areas of consistent need.

Sincerely,

A handwritten signature in blue ink that reads "Lance W. Clow".

Lance W. Clow  
Chairman House Education Committee

**BOISE STATE UNIVERSITY**

**SUBJECT**

Arena Naming Rights

**REFERENCE**

June 2014

Board approved Boise State University's request to enter a naming agreement with Albertson's to name the Boise State University stadium "Albertsons Stadium."

January 2018

Board approved University of Idaho's request to enter into a naming agreement with ICCU for the ICCU arena project.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies & Procedures, Sections I.K., V.C. and V.I.

**ALIGNMENT WITH STRATEGIC PLAN**

Goal 3: EDUCATIONAL ATTAINMENT, Objective C: Access

**BACKGROUND/DISCUSSION**

In 2004, Boise State University entered into a fifteen year naming rights agreement with ES-O-EN Corp., a franchisee of Taco Bell, for naming rights for the facility currently known as the Taco Bell Arena. That agreement will expire in June of 2019.

Boise State University has been in negotiations with ExtraMile, a Chevron convenience store franchise, for naming rights and an advertising agreement for the arena. Pursuant to the proposed agreement, the Taco Bell Arena will be renamed "ExtraMile Arena" for the fifteen year term of the agreement.

As outlined in the proposed agreement (Attachment 1), ExtraMile will compensate Boise State University \$8,369,511 in cash and in-kind services over the fifteen year agreement in exchange for the following:

- Exclusive right and license to name the arena the ExtraMile Arena
- The right to create a venue logo (to be approved by the University)
- Arena signage benefits
- Advertising opportunities including, but not limited to, print, radio, broadcasting, website and ticket advertising
- Promotional opportunities
- Travel, ticket and game benefits

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

The University requests that the Board waive any application of Board Policy I.K. Naming/Memorializing Building and Facilities. This policy does not contemplate an agreement for the sale of naming rights, nor does it specifically prohibit one. The agreement can be deemed to fall under Board Policy V.I. (Real and Personal Property and Services) as a sale of the naming rights for the specified period of time. Waiver of Policy I.K provides clarity that this is a contract for services.

**IMPACT**

The terms of the proposed agreement provide for an additional \$5,149,497 in cash revenue over and above that provided in the prior naming rights agreement. Additionally, a large portion (approximately \$780,000) of the prior agreement's value was from in-kind marketing donations; under the terms of the new agreement, the University will receive more cash than in-kind donations.

The revenue generated by the naming right will be used to support intercollegiate athletics at Boise State University.

**ATTACHMENTS**

Attachment 1 – Proposed Naming Rights Agreement

**STAFF COMMENTS AND RECOMMENDATIONS**

Board Policy I.K.1.b, outlines the requirements by which a building, facility, or administrative unit may be named for other than a former employee of the system of higher education. These include consideration of the nature of the individuals gift and its significance to the institution; the eminence of the individual whose name is proposed; and the individuals relationship to the institution. The policy does not contemplate selling the rights to name a facility. At the June 2014 regular Board meeting, the Board considered and approved a request by Boise State University to enter into an agreement with Albertsons for the naming of Boise State University's Stadium. At the January 4, 2018 Special Board meeting the board approved the request from the University of Idaho to enter into an agreement for the planned court sports arena with Idaho Central Credit Union.

The proposed naming rights agreement specifies:

- The "Taco Bell Arena" will be renamed the ExtraMile Arena" for a term of 15 years.
- The Sponsor will pay \$8,369,511 in cash over the fifteen-year term,
- The Sponsor will develop, at the sponsors expense, a logo incorporating the arena to be used as the primary logo associated with the arena.
- The logo will be mutually agreed upon by the parties and subject to the final approval of the university.
- The Sponsor will have the right to additional on premises advertising of the arena.
- The Sponsor agrees that neither it nor any of its sublicense shall use the ExtraMile corporate name, ExtraMile Arena Name and/or Arena logo in direct association with any of the following prohibited products or classes of

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**  
**JUNE 20, 2019**

---

services; sell any advertising right to any company that engages in the management of any of the following businesses; or include a reference to any of the following prohibited products or classes of services on the advertising copy directly above, below, next to or in immediate proximity to the ExtraMile Arena name and/or the Arena logo, unless otherwise agreed to by University, which approval may be withheld in University's sole discretion. Such list includes gambling; alcoholic beverages; tobacco or "vaping" products; prophylactics; feminine hygiene products; sexually explicit materials or adult entertainment; religious and/or political materials; ammunition, and/or firearms; any material that is reasonably likely to be considered objectively defamatory, obscene, profane, vulgar or otherwise socially unacceptable or offensive to the general public, or finally, any advertising that is reasonably likely to materially discredit the purposes, values, principles or mission of the NCAA or University or is reasonably likely to have a materially adverse effect on the interests of intercollegiate athletics or higher education.

**BOARD ACTION**

I move to approve Boise State University's request to waive the application of Board Policy I.K. and to enter into a naming rights agreement with ExtraMile in substantial conformance with Attachment 1 and authorize the Vice President and Chief Financial Officer to execute the agreement.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**ARENA NAMING RIGHTS AGREEMENT**

This Arena Naming Rights Agreement (the “Agreement”) is made between BOISE STATE UNIVERSITY, a public higher education institution in the State of Idaho, whose business address is 1910 University Drive, Boise, ID 83725-1200 (the “University”) and ExtraMile Convenience Stores LLC, a limited liability company whose business address is 3875 Hopyard Road, Pleasanton, CA 94588 (the “Sponsor” or “ExtraMile”).

**RECITALS**

**WHEREAS**, the University owns the arena/event facility located on the main campus of Boise State University, in Boise, Idaho (the “Arena”); and

**WHEREAS**, the University manages and operates the Arena for University athletic and academic events, as well as other specialty events, including but not limited to music concerts and other entertainment shows; and

**WHEREAS**, the University desires to obtain sponsors to support the University and its various operations, including the Arena; and

**WHEREAS**, the Sponsor desires to support the University and receive in return certain sponsorship and advertising rights at the Arena; and

**WHEREAS**, certain Sponsor recognition areas located at the Arena will provide an opportunity for the University to recognize Sponsor’s support of the University; and

**WHEREAS**, Sponsor wishes to pay \$8,369,511 in cash to the University over a fifteen (15) year period in exchange for naming rights to the Arena and other advertising opportunities; and

**WHEREAS**, the Sponsor and the University have agreed that the arena/event facility currently known as “Taco Bell Arena” will be renamed “ExtraMile Arena” during the term of this Agreement.

**NOW, THEREFORE**, in consideration of the foregoing and for the condition and covenants herein contained as and for good and valuable consideration, the parties hereby mutually agree as follows:

1) Grant of Rights.

- a) Arena Naming. In accordance with the terms and conditions of this Agreement, University hereby grants to Sponsor the exclusive right and license to name the Arena during the Term (defined below). The parties hereby agree that the Arena currently known as the “Taco Bell Arena” on the main campus of Boise State University shall be renamed and referred to as “ExtraMile Arena” or “Arena Name” as used herein), as of the effective date of this Agreement.
- b) Arena Logos. During the Term of this Agreement, the Parties agree that Sponsor will develop, at Sponsor’s sole expense, a graphic design incorporating the Arena Name to be used as the primary logo associated with the Arena (the “Arena Logo”), to be used for primary and ancillary marketing and promotional purposes pursuant this Agreement. The

Arena Logo will be mutually agreed upon by the Parties and is subject to the final approval of the University.

- c) Signage and Exposure. Sponsor shall have the right, in addition to such naming, to On Premises Advertising at the Arena (see Appendix A for examples of sponsorship elements) as follows:
- i) Exterior Exposure Elements – ExtraMile Arena Logo on the following
    - Illuminated exterior of Arena over all four lobbies
    - Center Entryway signage
    - Center Entry Doorways
    - Staff Door Signage
    - Box Office Parking
    - Directional Signage
  - ii) Interior Exposure Elements- ExtraMile Arena Logo on the following:
    - Sidelines of basketball court
    - Courtside LED Rotational Signage
    - Main Stairwell signage
    - Courtside Floor Vomitory Displays
    - Digital Monitor rotations and poster signage
    - ExtraMile Arena Logo on basket supports
    - ExtraMile Arena Logo on “Welcome” signs in Arena
    - Concourses- ceiling signage and Arena access maps
  - iii) The University shall use good faith efforts to notify Sponsor of any new advertising, sponsorship, or promotional benefits in the Arena. If, within a commercially reasonable time (as determined by the University), Sponsor expresses interest in such advertising, sponsorship, or promotional benefits, the parties shall enter into good faith discussions regarding Sponsor’s acquisition of such advertising, sponsorship or promotional benefits for additional consideration or as a substitute for other benefits provided hereunder, as the parties may mutually agree.
  - iv) Printing
    - ExtraMile Arena Logo on all Arena related literature/media/publications
    - ExtraMile Arena Logo on all Arena brochures and Men’s Basketball Game Program Cover
  - v) Tickets-Advertising
    - ExtraMile Arena Logo on front of all Men’s basketball season tickets, and all other event tickets when the University has a reasonable opportunity to include it (in addition to other University approved logos). University maintains the rights to sell advertising on the back of the tickets, and solely retain all revenues therefrom. University agrees that such advertising shall not be with any motor fuel or convenience store business that competes directly with the Sponsor.

Stock tickets will not bear the Arena Logo, but will bear the Arena Name

vi) Website

- Broncosports.com front page - ExtraMile Arena Logo
- Arena website changes to [www.extramilearena.com](http://www.extramilearena.com) (if available)
- Logo on TicketMaster Venue Page for ExtraMile Arena
- Athletics shall help facilitate promotional items with Arena staff on website

vii) Double R Ranch Vision

- Upper and Lower Digital Ring Rotations on Double R Ranch Vision events at Arena
- Video Board Logo Recognition on Double R Ranch Vision at University Collegiate Athletic Events, accompanied by PA Read

viii) Digital Streaming.

- Live streaming - one thirty second commercial spot in all University Collegiate men's and women's basketball games produced by University

d) In addition, for each year during the term of this Agreement, the University shall also provide to Sponsor the following:

i) Promotional Elements

- (1) University shall provide ExtraMile the option of re-branding at least two concession areas within the Arena. Location, size, etc. shall be determined by mutual cooperation of both parties to ensure locations in high traffic areas.
- (2) The parties agree to use best efforts to sell some ExtraMile products at the concession areas. University retains final product approval of all products sold within the Arena. Products shall not conflict with any current University sponsorships or agreements.

ii) Promotional Possibilities

- University and ExtraMile shall use good faith efforts to creatively generate and implement new promotional strategies. The list below is not inclusive but rather is a list of examples/possible promotions the parties could create:
  - Cross-brand promotions (ex: Double R Ranch dogs sold in ExtraMile locations)
  - Arena event ticket promotions and giveaways within ExtraMile stores
  - Cross-promotions using University logos at ExtraMile locations (with written approval of University Trademark and Licensing Office, and subject to other exclusive rights agreements and promotions/advertising sold through University's multi media rights partner, Bronco Sports Properties)
  - ExtraMile branded grab and go kiosks

- For the sake of clarity and the avoidance of doubt, these promotional possibilities are not guaranteed, and are subject to the express approval of the University, including Section 7 herein.

iii) Travel

- University shall provide Sponsor up to two round-trip airfare, ground transportation, and two nights lodging for one men’s or one women’s basketball game each season.
- Sponsor also has the right to purchase additional accommodations and/or additional trips, if available

iv) Tickets

- Eight tickets to all events in the Arena (best seats available)

v) Additional Benefits

- Two VIP parking passes to all events in the Arena
- VIP Hardwood Club Membership for two people. Membership includes:
  - a. pregame shootaround access
  - b. one (1) reserved gameday parking space for men’s basketball games (in addition to the two parking passes to all events)
  - c. invitation to exclusive socials/pregame scouting at select games
  - d. two (2) conference championship all-tournament passes in Las Vegas
  - e. bench access for one game per season (restrictions apply)
  - f. ten (10) tickets to one game per season (restrictions apply)
  - g. exclusive postgame press conference access
  - h. dinner for Tip-Off event with coaching staff
  - i. annual member gift
  - j. other benefits of the top Harwood Club level.

- e) Sponsor agrees that in exercise of its rights granted hereunder, it shall ensure that any use of the ExtraMile Arena name and/or Arena Logo, or any other representation of the University as permitted hereunder shall be mindful of and consistent with the good image, message and reputation of the University and that such promotion or recognition will not materially distort or impair the presentation and image of the University, its Athletics program and the respective teams.
- f) Sponsor acknowledges that the Arena and the University maintain several other advertising opportunities and sponsors in the Arena and elsewhere (such as banners, signs, ticket sponsors, merchandise sponsors, event sponsors, etc.). None of such advertising or sponsorship is affected, or prohibited, by this agreement.
- g) Sponsor hereby grants the University a limited, non-exclusive right to use the ExtraMile name, service mark, trademark, trade dress or other commercial symbols (“ExtraMile Trademarks”) only as provided in this Agreement during its term, subject to all of the following conditions. The University recognizes the exclusive ownership and rights of

Chevron Intellectual Property LLC, Sponsor's licensor, in the ExtraMile Trademarks and will not contest, directly or indirectly, or in any way impair such exclusive ownership of the ExtraMile Trademarks or aid or encourage others to do so, during the term of this Agreement or afterwards. The University recognizes that all uses of the ExtraMile Trademarks hereunder will at all times inure to the benefit of Sponsor or its licensor or their affiliates as their interests occur, and that it acquires no right, title or interest to the ExtraMile Trademarks. The University is not authorized to sublicense or allow any other party to use the ExtraMile Trademarks except for the limited purpose of operating any kiosk that is rebranded with the ExtraMile Trademarks as expressly permitted hereunder and subject to all conditions imposed on such use as provided herein.

- h) Subject to the validity of any existing Agri Beef sponsorship agreements, promotions for Double R Ranch dogs or other opportunities are subject to the express approval of Agri Beef.
  - i) Sponsor acknowledges that Aramark or its successor has the right to operate and control all food and beverage concessions within the Arena, including the control over pricing, product placement and selection; provided however that if Aramark operates any kiosk that is rebranded with the ExtraMile Trademarks, the University will cause Aramark to comply with all reasonable quality control measures required by Sponsor that Sponsor deems necessary to protect the reputation and goodwill associated with the ExtraMile name, service marks and trademarks. If Aramark fails to comply with such quality control measures, the University will notify Aramark and use best efforts to cause Aramark to comply. If Aramark's noncompliance continues for more than 60 days following notice from the University to comply, Sponsor may elect to require the University to remove the ExtraMile name, service marks, trademarks, logos, trade dress and other branding elements from the concessions at the University's expense, and in that case Sponsor will receive a credit against any future payment due to the University in the amount of Sponsor's initial payment to the University for the costs of rebranding the kiosks to ExtraMile as set forth in Section 5 below.
- 2) Term. This Agreement shall become effective when it is fully executed by the parties and approved by the Idaho State Board of Education as provided in Section 23 below, and will expire fifteen (15) years after the date on which the University completes the installation of the exterior and interior exposure elements (the "Commencement Date") as required in Section 1(c) of this Agreement unless sooner terminated pursuant to the provisions hereof, or by virtue of a default.
- 3) Early Termination Right. ExtraMile shall have the right, in its sole discretion, to terminate this Agreement for any reason (or no reason) after the expiration of the tenth (10<sup>th</sup>) contract year after providing written notice at least two (2) years prior to that final ten year termination date to University. As a pre-condition to the effectiveness of such termination, ExtraMile agrees to pay University an early termination payment of \$250,000, which is equal to the cost of the University converting the signage and other sponsorship elements at the Arena. Additionally, ExtraMile agrees to pay University the actual costs of converting any concession stands that have been converted into ExtraMile stands back to their condition as of July 1, 2019. The parties intend that the early termination fee constitute compensation, and not a penalty. The parties

acknowledge and agree that the University's harm caused by an early termination by Sponsor would be impossible or very difficult to accurately estimate, and that the early termination payment is a reasonable estimate of the anticipated or actual harm that might arise from such early termination. Sponsor's payment of the early termination payment is the Sponsor's sole liability and entire obligation and the University's exclusive remedy for the exercise of this single early termination right after the expiration of the tenth (10th) contract year.

- 4) Right of First Negotiation. University agrees that it will not directly or indirectly solicit indications of interest for, or negotiate with any person regarding, or enter into any agreement or understanding with respect to naming rights for the Arena for any period following the Term without the University having first engaged in good faith exclusive negotiations with ExtraMile during the negotiation period beginning April 1, 2033, and ending September 1, 2033, for an extension of this Agreement beyond the initial Term set to end on June 30, 2034. Sponsor understands that, at any time after the negotiation period, but not before, the University shall be free to negotiate with any third party regarding a replacement agreement.
- 5) Payment.
  - a) In support of the University, Sponsor agrees to pay the University the sum of **Eight Million Three Hundred Sixty Nine Thousand Five Hundred Eleven Dollars (\$8,369,511)**, payable in installments according to the scheduled outline below:
    - i) Annual Contributions
      - (1) For the first annual contribution, Sponsor shall pay the University \$225,000 when the University completes the installation of the exterior exposure elements and the balance of \$225,000 when the University completes the installation of all interior exposure as provided in Section 1 of this Agreement. In each subsequent year, the annual contribution amounts shall be paid on each anniversary of the Commencement Date as follows:

Year	Fee
1	\$450,000
2	\$463,500
3	\$477,405
4	\$491,727.15
5	\$506,478.96
6	\$521,673.33
7	\$537,323.53
8	\$553,443.24
9	\$570,046.54
10	\$587,147.93
11	\$604,762.37
12	\$622,905.24
13	\$641,592.39
14	\$660,840.17
15	\$680,665.38
<b>Total</b>	<b>\$8,369,511</b>

- b) The sponsorship amounts specified above include the cost of production and installation of signs and other exposure elements in the Sponsor recognition areas containing graphics and copy designated by Sponsor at the commencement of this Agreement as well as all other exposure elements outlined in Section 1 of this Agreement, both physical and virtual (collectively “the Sponsorship Elements”). The only areas not included in the sponsorship amounts above are any construction or renovation costs relating to concession stands and portable concession kiosks. Sponsor will pay University actual costs to turn the agreed upon existing concessions stands in the Arena into a stand that looks like an ExtraMile store or for any new kiosks that are added to the Arena and branded as ExtraMile locations. Sponsor must approve the quality of all Sponsorship Elements before they are produced, installed or otherwise used, which approval will not be unreasonably withheld. Any subsequent graphics changes in the Sponsorship Elements made at the request or direction of Sponsor will be made at the Sponsor’s expense (including the cost of removal and installation) with the work performed by the University. The University shall be responsible for all costs and expenses of operating and maintaining all Sponsorship Elements including sign replacements, updates or refurbishments due to vandalism and other damage, theft, and wear and tear.
- 6) Non-Exclusive.
- a) The University reserves the right to sell, through its multi-media partner or partners, advertising and marketing rights within the Arena. This Agreement shall not preclude the University from seeking and obtaining corporate or other types of sponsors for specific events in the Arena; however, Sponsor shall always be given a first right of refusal on any corporate sponsorship related to a University event in the Arena before the sponsorship is offered to another corporate Sponsor. Provided, however, that the University shall not sell advertising in the Arena to any motor fuel or convenience store business that competes

directly with the Sponsor. Direct competition shall be deemed to mean motor fuel (commonly known as gas stations) and smaller footprint food market businesses (commonly known as convenience stores). The signage of another corporate sponsor, other than Sponsor, shall only remain in the Arena for the specific event for which that person is a corporate sponsor. The University may place temporary signage containing a corporate sponsor's logo in the Arena and use the sponsor's name in conjunction with the event title. University may permit any other party which is a promoter or named sponsor of an event or team competing in the Arena to display temporary signage at the Arena and make any public announcements or Arena advertising prior to and during the presence of such Event or team at the Arena. As stated herein, University retains the rights to other types of advertising and sponsorship as well, including but not limited to rights or sponsorships and advertising sold through University's multi media rights partner, Learfield, d/b/a Bronco Sports Properties.

- b) The University is contractually bound to host the 2021 NCAA Men's Basketball tournament first and second round games in the Arena. Per the existing contract with the NCAA, exterior signage of the Arena will remain but University retains no control over inventory inside the Arena and signage will be covered. In addition, if the University is selected to host other NCAA post-season events in the Arena, the NCAA could require the University to cover signage within the Arena.
- 7) Approval of Institution.
- a) Sponsor shall first approve all copy and graphics proposed for display. Then, all copy and graphics proposed for display by Sponsor are subject to approval by the University. The University shall have the right to decline to display any copy of graphics which are in violation of any statute, regulation or ordinance, or which the University reasonably considers to be misleading or offensive or that convey a message the University feels does not meet the standards for University messaging. The University shall not display a message which contains a comparative or qualitative description of the Sponsor's product, price information about Sponsor's product or any message that otherwise endorses Sponsor's product.
  - b) All proposed copy or graphics shall be submitted by Sponsor to Institution not less than thirty (30) days prior to the anticipated date of display.
- 8) Loss of Use by Force Majeure.
- a) Unless otherwise provided in this Agreement, if performance under this Agreement is prevented, restricted or interfered with by reason of any event beyond the reasonable control of the Parties, including but not limited to, fire, flood, epidemic, earthquake, explosion, act of God or public enemy, riot or civil disturbance, strike, labor dispute, war, terrorist threat or activity, any government law, order, or regulation, or order of any court or jurisdiction (a "Force Majeure"), the restricted party will not be in breach hereof and the performance or obligation of such party will be excused for a period of time equal to the period during which the Force Majeure prevents such performance. In such event, the Parties will make reasonable efforts to determine sufficient "make goods" allowing the restricted Party to satisfy its obligations hereunder. The financial condition, default, breach, or intentional or

negligent act or omission of this Agreement by the Party seeking excuse from performance will not constitute a Force Majeure.

- b) **Arena Damage.** If a Force Majeure results in the damage or destruction of the Arena to the extent that Events and Games at the Arena must be cancelled or rescheduled, and repair or reconstruction of the Arena will take longer than ninety (90) days from the time University becomes or should have become aware of the such destruction (the “Discovery Date”), then: (i) if University gives Sponsor notice no more than ninety (90) days following the Discovery Date that the Arena will be repaired and restored within one (1) year of the Discovery Date (the “Repair Assurance”), Sponsor will have no right to terminate this Agreement, provided Sponsor will not be required to make any payments (and will be credited or refunded any payments made) of the Naming Rights Fee due hereunder from the date of any damage or destruction until the first date a Game or Event is presented in the Venue upon the repair and restoration of the Arena following such damage or destruction; but (b) if University fails to give Sponsor such Repair Assurance as set forth herein, Sponsor may terminate this Agreement upon written notice to University (and will be refunded any payments made for the period from the date of the damage or destruction to the date of termination).
- 9) Reputation; Image and Mission of the Institution.
- a) Sponsor agrees that neither it nor any of its sublicenses, or operators: shall use the ExtraMile corporate name, ExtraMile Arena name and/or Arena logo in direct association with any of the following prohibited products or classes of services; sell any advertising right to any company that engages in the management of any of the following businesses; or include a reference to any of the following prohibited products or classes of services on the advertising copy directly above, below, next to or in immediate proximity to the ExtraMile Arena name and/or the Arena logo, unless otherwise agreed to by University, which approval may be withheld in University’s sole discretion. Such list includes gambling; alcoholic beverages; tobacco or “vaping” products; prophylactics; feminine hygiene products; sexually explicit materials or adult entertainment; religious and/or political materials; ammunition, and/or firearms; any material that is reasonably likely to be considered objectively defamatory, obscene, profane, vulgar or otherwise socially unacceptable or offensive to the general public, or finally, any advertising that is reasonably likely to materially discredit the purposes, values, principles or mission of the NCAA or University or is reasonably likely to have a materially adverse effect on the interests of intercollegiate athletics or higher education.
  - b) Sponsor will comply with rules, regulations, and policy of the University and the State Board of Education to ensure that the sponsorship itself and the products marketed by Sponsor and associated with this Agreement (regardless of means or location) be, and remain consistent with the proper image and mission of the institution.
- 10) Default by Sponsor.
- a) **Events of Default.** The occurrence of one or more of the following matters shall constitute a default by Sponsor (a “Sponsor Default”):

- i) Sponsor’s failure to render timely payment when due, if such failure shall continue for a period of thirty (30) days after written notice from University to Sponsor, specifying the failure and demanding that it be cured.
- ii) Sponsor’s failure to perform or comply with any other material term or condition of this Agreement, or its material breach of any representation or warranty made herein, and such failure or breach shall continue for a period of thirty (30) days after written notice from the University to Sponsor, specifying the failure or breach and demanding that it be corrected.
- iii) Sponsor (I) applies for or consents to the appointment of a custodian of any kind, whether in bankruptcy, common law or equity proceedings, with respect to all or any substantial portion of its assets, (II) becomes insolvent or is unable, or admits in writing its inability, to pay its debts generally as they become due, (III) makes a general assignment for the benefit of its creditors, or (IV) (x) files a petition seeking relief under the United States Bankruptcy Code or (y) if such a petition is filed by any of its creditors, such petition is approved by a court of competent jurisdiction and such approval is not vacated within 120 days.
- iv) Sponsor or its owners or executives become the subject of a criminal indictment or prosecution. As set forth above, the parties acknowledge that the positive public image of the University is paramount to this Agreement. Thus, these events of default, or other similar situations or similar actions of the Sponsor which could reasonably cast a negative image on the University by its sponsorship from the Sponsor shall be considered events of default.
- v) Rights and Remedies of the University upon Sponsor Default. Upon the occurrence of a Sponsor Default, the University shall have the right to do any one or more of the following: (i) enforce the specific remedies provided for herein; (ii) recover all damages provided by law or in equity; (iii) exercise any other right or remedy at law or in equity, including seeking an injunction or order of specific performance and (iv) terminate this Agreement.

11) Default by University.

- a) Events of Default. The occurrence of one or more of the following events shall constitute a default by the University (a “University Default”):
  - i) The University’s failure to pay any amounts when due to Sponsor hereunder, if such failure shall continue for a period of thirty (30) days after written notice by Sponsor specifying the failure and demanding that it be cured.
  - ii) The University’s failure to perform or comply with any other material term or condition of this Agreement, or its material breach of any representation or warranty made herein, and such failure or breach shall continue for a period of thirty (30) days after written notice by Sponsor to the University, specifying the failure or breach and demanding that it be cured.
  - iii) The University’s failure to perform by permanently moving its varsity men’s basketball, women’s basketball, or gymnastics competitions to another venue, and such failure or breach shall continue for a period of thirty (30) days after written notice by Sponsor to the University, specifying the failure or breach and demanding that it be cured.

- iv) If the University (I) applies for or consents to the appointment of a custodian of any kind, whether in Bankruptcy, common law or equity proceedings, with respect to all or any substantial portion of its assets, (II) becomes insolvent or is unable, or admits in writing its inability, to pay its debts generally as they become due, (III) makes a general assignment for the benefit of its creditors, or (IV) (x) files a petition seeking relief under the United States Bankruptcy Code or (y) if such a petition is filed by any of its creditors, such petition is approved by a court of competent jurisdiction and such approval is not vacated within one hundred twenty (120) days.
- v) Rights and Remedies of Sponsor upon University Default. Upon the occurrence of a University Default, Sponsor shall have the right to do any one or more of the following:
  - (i) enforce the specific remedies provided for herein; (ii) recover all damages provided by law or in equity; (iii) exercise any other right or remedy at law or in equity, including seeking an injunction or order of specific performance, and (iv) terminate this Agreement.

12) Cumulative Rights and Remedies. All rights and remedies of the parties are cumulative and are in addition to, and not in limitation of, any rights and remedies the parties may have at law, in equity or otherwise, and all such rights and remedies may be exercised singularly or concurrently.

13) Insurance.

- a) Sponsor shall, at its sole expense, procure and maintain during the term of this Agreement, a policy of general liability insurance naming the University, the State Board of Education, and the State of Idaho as additional insureds and providing coverage for advertising liability affording a limit of liability in the amount of One Million dollars (\$1,000,000) per occurrence and Two Million dollars (\$2,000,000) aggregate and covering:
  - i) Libel, slander of defamation;
  - ii) Any infringement of copyright or title or slogan
  - iii) Privacy or unfair competition or idea misappropriation under an implied contract
  - iv) Any invasion of right-of-privacy, committed or alleged to have been committed in any title or slogan.
- b) Nothing contained in this Agreement shall be construed to prevent Sponsor, upon proper notice to the University, from changing insurance carriers; provided, however, that such change does not cause a lapse in coverage or otherwise affect the rights of the University.
- c) Sponsor shall provide a Certificate of Insurance meeting the parameters outlined in Section 13 (a) to Boise State University, attention Risk Management, upon execution of the agreement and each year thereafter.
- d) The liability insurance required herein shall indemnify the University against loss from liability imposed by law or assumed under contract by Sponsor for damages on account of Sponsor's liability: Such policy shall contain the following special endorsement:

Boise State University, its Governing Board, officers, employees, and agents are hereby declared to be additional insureds under the terms of this policy as to the activities of Sponsor. This policy shall not be canceled without prior written notice

to Boise State University. Boise State University is not liable for premiums or assessments on this policy.

14) Indemnification.

- a) Sponsor shall defend, indemnify and hold harmless the University, its respective Affiliates, including the State Board of Education, and the respective officers, directors, managers, owners, agents and employees of the foregoing (“University Indemnitees”) from and against any and all claims alleged to have arisen out of (i) any breach by Sponsor of its covenants or obligations hereunder, (ii) any inaccuracy of the representations and warranties of Sponsor hereunder, (iii) any infringing use, or allegation of such use, by the University of the ExtraMile Arena logo, the Arena name or Arena logo (provided that the University’s use of the Arena marks, name and Logo is in accordance with the terms of this Agreement) and/or any copyright claim for advertising copy created or distributed by or on behalf of Sponsor that include any Sponsor mark, or the Arena name or logo, (iv) the content of any advertising copy or signs, including unfair or fraudulent advertising charges or claims related thereto, or (v) any negligence and willful misconduct by Sponsor or its officers, directors, managers, owners, agents and employees relating to the exercise or utilization by Sponsor of the rights granted hereunder except, in each case, to the extent attributable to the negligence or willful misconduct of the University Indemnitee; provided, however, that University Indemnitees shall promptly notify Sponsor of any claim to which the indemnification set forth in this paragraph applies (it being understood that the failure to so notify shall not excuse Sponsor from its obligations under this paragraph except to the extent that such failure increases the liability of Sponsor hereunder) and shall tender to Sponsor the defense thereof. If Sponsor promptly assumes the defense of a claim covered by this section, no University Indemnitee may settle or compromise such claim without the prior written approval of Sponsor. If Sponsor fails to assume the defense of such claim, the University Indemnitees may settle or compromise such claim on such terms as the University Indemnitees may reasonably deem appropriate, and Sponsor shall reimburse the University Indemnitees for the cost of such settlement, in addition to the University’s other obligations hereunder.
- b) Subject to the limits of the Idaho Tort Claims Act and the Idaho Constitution, the University shall indemnify the Sponsor and its agents, and employees from any and all loss, damage or liability that may be suffered or incurred by the Sponsor, its officers, agents or employees caused by or arising out of any liability for fraud or misrepresentation in connection with Sponsor’s name and/or logo. Notwithstanding anything to the contrary herein, nothing herein shall be deemed to constitute a waiver by either party of any privilege, protection, or immunity otherwise afforded it under any state or federal law.

- 15) Cancellation and Assignment. This Agreement is not subject to cancellation or assignment by Sponsor, without the express written consent of the University. The nature of this sponsorship is personal and image-oriented. As such, the consent of the University shall be at the University’s sole discretion.

- 16) Warranty. University warrants that the display areas shall be free of any defects of workmanship and/or materials. The University further agrees to maintain in good repair during the term of this Agreement all of the areas carrying Sponsor's name and/or logo, subject to the exceptions set forth herein.
- 17) Compliance with Laws, Rules, Regulations. The Parties also acknowledge and agree that this Agreement is subject to Idaho law and any NCAA and Mountain West Conference (MWC) (or any other athletic conference of which University may become a member during the term) rules and regulations applicable to signage, marketing and promotional materials effective as of the date such regulation shall take effect.
- 18) Discrimination. University and Sponsor agree that in fulfilling the terms of this Agreement, that neither party will discriminate against any employee or applicant for employment on the basis of race, color, religion, national origin, ancestry, sex, disability, or Vietnam Era Veteran's or other Veteran status. Any breach of this clause may be regarded as a material breach of this Agreement.
- 19) Binding Effect. This Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and assigns.
- 20) Operation of the Arena. This Agreement grants to Sponsor regarding the operation, control, or management of the Arena. The Arena remains in the sole and exclusive control, operation and management of the University.
- 21) Conflicts with Existing Agreements. This Agreement shall at all times be subordinate to and subject to preexisting agreements University has with Albertsons, Aramark, Coca Cola, and Learfield Sports/Bronco Sports Properties as stadium naming rights sponsor, master concessionaire for food and beverage services in all University buildings, pouring rights contractor, and multi media rights provider, respectively. Copies will be made available to Sponsor upon request.
- 22) Notice. Any notice provided for in this Agreement shall be in writing and shall be deemed to have been given, delivered, or served when delivered personally to the party who is to receive such notice or when mailed by U.S. registered or certified mail, postage prepaid, to such party at the following addresses:

To Institution:

Executive Director of Athletics  
 Boise State University  
 1910 University Drive  
 Boise, ID 83725-1020

with a copy to:

Office of the General Counsel  
 Boise State University  
 1910 University Drive  
 Boise, ID 83725

To Sponsor:

President  
ExtraMile Convenience Stores LLC  
3875 Hopyard Road, Suite 240  
Pleasanton, CA 94588

or to such other addresses as may be hereafter designated by written notice. All such notices shall be effective only when received by the addressee.

- 23) Board of Education Approval. This Agreement and the naming rights referenced above are expressly subject to the approval of the Idaho State Board of Education, acting as the Board of Trustees of Boise State University at a properly called and held meeting of such Board. This Agreement shall only become binding upon approval granted by the Board, and shall be of no force or effect until the Board's approval is obtained. If this Agreement is not approved by the Board, then this Agreement and all terms and conditions contained herein will be null and void.
- 24) Modifications. Modifications to this Agreement must be in writing and mutually agreed to by authorized representatives for both parties.
- 25) Entire Agreement. This Agreement constitutes the entire Agreement between the parties with respect to all subject matter and supersedes all prior negotiations and understandings, whether verbal or written. No waiver, modification, or amendment of any provision of this Agreement shall be valid or effective unless in writing and signed by a duly authorized representative of the party against whom enforcement is sought.
- 26) Headings. The descriptive heading of the Articles and Sections of this Agreement are inserted for convenience only and shall not control or affect the meaning or construction of any of the provisions hereof.
- 27) Governing Law. This Agreement shall be controlled by the laws of the State of Idaho and any dispute arising from it shall be resolved in a court of competent jurisdiction in Ada County, Idaho.
- 28) Dispute Resolution. University and Sponsor agree that any dispute, claim, question or controversy between them arising from or relating to this the Agreement, its construction, operation or effect, or a breach thereof (the "Dispute(s)") that cannot be resolved through consultation and negotiation of University and Sponsor shall be submitted to mediation. The cost of mediation will be shared by the parties equally. After good faith efforts to resolve the controversy, claim or dispute and upon the notice of either party to initiate mediation, University and Sponsor shall select a mutually-agreeable mediator. If the Parties cannot agree on a mediator within three (3) business days of the notice to initiate mediation, University and Sponsor shall each select a mediator. The two mediators shall then select the mediator who will be responsible for the mediation. Within five (5) business days of selection of the mediator, each party shall submit to the mediator a written statement detailing the facts and law pertaining to the dispute and the party's position. Mediation shall begin no later than five (5) days after the submission of the written statements submitted by the Parties or as soon thereafter as possible. A representative of each party with settlement authority must personally attend the mediation.
- 29) Attorney's Fees. If either University or Sponsor commences or engages in an action or other proceeding by or against another party to this Agreement arising out of or in connection with this Agreement, the prevailing party will be entitled to have and recover from the losing party

reasonable attorneys' fees and other costs incurred in connection with the action, preparation for such action or proceeding, any appeals relating thereto and enforcing any judgments rendered in connection therewith.

30) Savings Clause. If any provision of this Agreement shall be invalid or unenforceable by a court or competent jurisdiction, such holding shall not invalidate or render unenforceable any provision hereof.

31) Authority. Sponsor hereby represents and warrants to University that it has all requisite power and authority, legal and otherwise, to execute, deliver and fully perform its obligations under this Agreement. Sponsor has taken all necessary action to authorize the execution, delivery and performance of this Agreement. This Agreement, when executed and delivered by it, shall constitute a legal, valid and binding obligation of Sponsor, enforceable against it in accordance with its terms, except to the extent that enforcement thereof may be limited by bankruptcy, insolvency or other similar laws affecting creditors' rights generally or by general principles of equity.

IN WITNESS WHEREOF, the authorized representatives of the parties have executed this Agreement on this \_\_\_\_ day of \_\_\_\_\_, 2019.
