03. Alternative Authorization - Pupil Service Staff. This alternative authorization allows a local education agency to request ~~endorsement/~~certification and endorsement for a candidate when a position requiring the Pupil Service Staff Certificate cannot be filled ~~with someone who has the school counselor or school social worker endorsement~~. (7-1-21)T

a. Initial Qualifications. The applicant must complete the following: (7-1-21)T

i. Prior to application, a candidate must hold a baccalaureate degree or higher; and (7-1-21)T

ii. The local education agency must attest to the ability of the candidate to fill the position. (7-1-21)T

b. Educator Preparation Program. (7-1-21)T

i. At the time of authorization the candidate must enroll in and work toward completion of a state board approved educator preparation program through a participating college/university and the local education agency. The educator preparation program must include annual progress goals. (7-1-21)T

ii. The candidate must complete a minimum of nine (9) semester credits annually to maintain eligibility for renewal. (7-1-21)T

iii. The participating educator preparation program will provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (7-1-21)T

iv. The candidate must meet all requirements for the endorsement/certificate as provided herein. (7-1-21)T

04. Alternative Authorization Renewal. Annual renewal will be based on the school year and satisfactory progress toward completion of the applicable alternate authorization requirements. (7-1-21)T

043. -- 059. (RESERVED)

060. APPLICATION PROCEDURES / PROFESSIONAL DEVELOPMENT.
To obtain a new, renew, or reinstate an Idaho Educator Credential, the applicant must submit an application on a form supplied by the State Department of Education or the Division of Career Technical Education as applicable to the type of certificate. All applications for new, renewed, or reinstated occupational specialist certificates must be submitted to the Division of Career Technical Education. The following requirements must be met to renew or reinstate an Idaho Educator Credential. (7-1-21)T

01. State Board of Education Requirements for Professional Development. All certificated personnel must complete at least six (6) semester credit hours or equivalent professional development within the five (5) year validity period of the certificate being renewed. (7-1-21)T

02. Credit. Graduate or undergraduate credit will be accepted for renewal. Credit must be transcripted and completed through a college or university accredited by an entity recognized by the state board of education.

a. At least three (3) semester credits shall be taken for postsecondary credit and verified by official or unofficial transcript. Individuals found to have intentionally altered transcripts used for verification, who would have not otherwise met this renewal requirement, will be investigated for violations of the Code of Ethics for Idaho Professional Educators. Any such violations may result in disciplinary action.

~~a~~**c.** Credits taken for ~~recertification~~ certificate renewal must be ~~educationally~~ related to the individualized professional learning plan or ~~related to~~ the professional practice of the applicant. (7-1-21)T

i. Credits must be specifically tied to content areas and/or an area of any other endorsement; or (7-1-21)T

ii. Credits must be specific to pedagogical best practices or for administrative/teacher leadership; or (7-1-21)T

iii. Credits must be tied to a specific area of need designated by local education agency administration. (7-1-21)T

iv. Credits must be taken during the validity period of the certificate. (7-1-21)T

~~**b.** Graduate or undergraduate credit will be accepted for recertification. Credit must be transcripted and completed through a college or university accredited by an entity recognized by the State Board of Education. For pupil service staff, continuing education units completed and applied to the renewal of an occupational license issued by the appropriate Idaho state licensing board will be accepted for recertification. The continuing education units must be recognized by the appropriate Idaho state licensing board. (7-1-21)T~~

~~**c.** Credits and continuing education units must be taken during the validity period of the certificate. (7-1-21)T~~

d. All requests for equivalent in-service training to apply toward ~~recertification~~renewal, except occupational specialist certificates, must be ~~made through the State Department of Education upon recommendation of the board of trustees consistent with the State Department of Education guidelines~~approved by the local education agency. Individuals holding Occupational Specialist Certificates must ~~be made~~make requests through the Division of Career Technical Education. Applicants must receive ~~prior~~ approval ~~of~~ for in-service training and course work prior to applying for renewal. All in-service training must be aligned with the ~~individual's~~ applicant's individualized professional learning plan or related to professional practice. Fifteen (15) contact hours are equivalent to one (1) semester credit. (7-1-21)T

e. ~~At least fifteen (15) hours of formal instruction must be given for each hour of in-service credit granted.~~ Pupil service staff certificate holders who hold a professional license through the appropriate Idaho state licensing board may use renewal of their professional license toward the renewal of their pupil service staff certificate in lieu of the requirements herein. (7-1-21)T

f. Renewal~~Recertification~~ credits may not be carried over from one (1) ~~recertification~~ renewal period to the next. (7-1-21)T

03. Professional Development Plans. Local education agencies will have professional development plans.

~~**g.** An appeals process, developed by the State Department of Education in conjunction with the Professional Standards Commission or the Division of Career Technical Education, as applicable to the certificate type, shall be available to applicants whose credits submitted for recertification, in part or as a whole, are rejected for any reason if such denial prevents an applicant from renewing an Idaho certificate. An applicant whose credits submitted for recertification are rejected, in part or as a whole, within six (6) months of the expiration of the applicant's current certification shall be granted an automatic appeal and a temporary certification extension during the appeal or for one (1) year, whichever is greater. (7-1-21)T~~

~~**02. State Board of Education Professional Development Requirements**. (7-1-21)T~~

~~**a.** Local education agencies will have professional development plans. (7-1-21)T~~

~~**b.** All certificated personnel will be required to complete at least six (6) semester credits or the equivalent within the five (5) year period of validity of the certificate being renewed. (7-1-21)T~~

~~**c.** At least three (3) semester credits will be taken for university or college credit. Verification may be by official or unofficial transcript. Individuals found to have intentionally altered transcripts used for verification, who would have not otherwise met this renewal requirement, will be investigated for violations of the Code of Ethics for Idaho Professional Educators. Any such violations may result in disciplinary action. (7-1-21)T~~

~~**d.** Pupil Service Staff Certificate holders who hold a professional license through the appropriate Idaho state licensing board may use continuing education units applied toward the renewal of their professional license toward the renewal of the Pupil Service Staff Certificate. Fifteen (15) contact hours are equivalent to one (1) semester credit. (7-1-21)T~~

061. -- 075. (RESERVED)

076. CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).

Believing in the worth and dignity of each human being, the professional educator recognizes the supreme importance of pursuing truth, striving toward excellence, nurturing democratic citizenship and safeguarding the freedom to learn and to teach while guaranteeing equal educational opportunity for all. The professional educator accepts the responsibility to practice the profession according to the highest ethical principles. The Code of Ethics for Idaho Professional Educators symbolizes the commitment of all Idaho educators and provides principles by which to judge conduct. (7-1-21)T

01. Aspirations and Commitments. (7-1-21)T

a. The professional educator aspires to stimulate the spirit of inquiry in students and to provide opportunities in the school setting that will help them acquire viable knowledge, skills, and understanding that will meet their needs now and in the future. (7-1-21)T

b. The professional educator provides an environment that is safe to the cognitive, physical and psychological well-being of students and provides opportunities for each student to move toward the realization of his goals and potential as an effective citizen. (7-1-21)T

c. The professional educator, recognizing that students need role models, will act, speak and teach in such a manner as to exemplify nondiscriminatory behavior and encourage respect for other cultures and beliefs. (7-1-21)T

d. The professional educator is committed to the public good and will help preserve and promote the principles of democracy. He will provide input to the local school board to assist in the board's mission of developing and implementing sound educational policy, while promoting a climate in which the exercise of professional judgment is encouraged. (7-1-21)T

e. The professional educator believes the quality of services rendered by the education profession directly influences the nation and its citizens. He strives, therefore, to establish and maintain the highest set of professional principles of behavior, to improve educational practice, and to achieve conditions that attract highly qualified persons to the profession. (7-1-21)T

f. The professional educator regards the employment agreement as a pledge to be executed in a manner consistent with the highest ideals of professional service. He believes that sound professional personal relationships with colleagues, governing boards, and community members are built upon integrity, dignity, and mutual respect. The professional educator encourages the practice of the profession only by qualified persons. (7-1-21)T

02. Principle I - Professional Conduct. A professional educator abides by all federal, state, and local education laws and statutes. Unethical conduct shall include the conviction of any felony or misdemeanor offense set forth in Section 33-1208, Idaho Code. (7-1-21)T

03. Principle II - Educator/Student Relationship. A professional educator maintains a professional relationship with all students, both inside and outside the physical and virtual classroom. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Committing any act of child abuse, including physical or emotional abuse; (7-1-21)T

b. Committing any act of cruelty to children or any act of child endangerment; (7-1-21)T

c. Committing or soliciting any sexual act from any minor or any student regardless of age; (7-1-21)T

d. Committing any act of harassment as defined by local education agency policy; (7-1-21)T

e. Soliciting, encouraging, or consummating a romantic relationship (whether written, verbal, virtual, or physical) with a student, regardless of age; (7-1-21)T

f. Soliciting or encouraging any form of personal relationship with a student that a reasonable educator would view as undermining the professional boundaries necessary to sustain an effective educator-student relationship; (7-1-21)T

g. Using inappropriate language including, but not limited to, swearing and improper sexual comments (e.g., sexual innuendos or sexual idiomatic phrases); (7-1-21)T

h. Taking or possessing images (digital, photographic, or video) of students of a harassing, confidential, or sexual nature; (7-1-21)T

i. Inappropriate contact with any minor or any student regardless of age using electronic or social media; (7-1-21)T

j. Furnishing alcohol or illegal or unauthorized drugs to any student or allowing or encouraging a student to consume alcohol or unauthorized drugs except in a medical emergency; (7-1-21)T

k. Conduct that is detrimental to the health or welfare of students; and (7-1-21)T

l. Deliberately falsifying information presented to students. (7-1-21)T

04. Principle III - Alcohol and Drugs Use or Possession. A professional educator refrains from the abuse of alcohol or drugs during the course of professional practice. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Being on school premises or at any school-sponsored activity, home or away, involving students

while possessing, using, or consuming illegal or unauthorized drugs; (7-1-21)T

b. Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming alcohol; (7-1-21)T

c. Inappropriate or illegal use of prescription medications on school premises or at any school-sponsored events, home or away; (7-1-21)T

d. Inappropriate or illegal use of drugs or alcohol that impairs the individual's ability to function; and (7-1-21)T

e. Possession of an illegal drug as defined in Chapter 27, Idaho Code, Uniform Controlled Substances. (7-1-21)T

05. Principle IV - Professional Integrity. A professional educator exemplifies honesty and integrity in the course of professional practice. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Fraudulently altering or preparing materials for licensure or employment; (7-1-21)T

b. Falsifying or deliberately misrepresenting professional qualifications, degrees, academic awards, and related employment history when applying for employment or licensure; (7-1-21)T

c. Failure to notify the state at the time of application for licensure of past revocations or suspensions of a certificate or license from another state; (7-1-21)T

d. Failure to notify the state at the time of application for licensure of past criminal convictions of any crime violating the statutes or rules governing teacher certification; (7-1-21)T

e. Falsifying, deliberately misrepresenting, or deliberately omitting information regarding the evaluation of students or personnel, including improper administration of any standardized tests (changing test answers; copying or teaching identified test items; unauthorized reading of the test to students, etc.); (7-1-21)T

f. Falsifying, deliberately misrepresenting, or deliberately omitting reasons for absences or leaves; (7-1-21)T

g. Falsifying, deliberately misrepresenting, or deliberately omitting information submitted in the course of an official inquiry or investigation; (7-1-21)T

h. Falsifying, deliberately misrepresenting, or deliberately omitting material information on an official evaluation of colleagues; and (7-1-21)T

i. Failure to notify the state of any criminal conviction of a crime violating the statutes and/or rules governing teacher certification. (7-1-21)T

06. Principle V - Funds and Property. A professional educator entrusted with public funds and property honors that trust with a high level of honesty, accuracy, and responsibility. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Misuse, or unauthorized use, of public or school-related funds or property; (7-1-21)T

b. Failure to account for school funds collected from students, parents, patrons, or other donors from all sources, including online donation platforms; (7-1-21)T

c. Submission of fraudulent requests for reimbursement of expenses or for pay; (7-1-21)T

d. Co-mingling of public or school-related funds in personal bank account(s); (7-1-21)T

e. Use of school property for private financial gain; (7-1-21)T

f. Use of school computers to deliberately view or print pornography; and, (7-1-21)T

g. Deliberate use of poor budgeting or accounting practices. (7-1-21)T

07. Principle VI - Compensation. A professional educator maintains integrity with students, colleagues, parents, patrons, or business personnel when accepting gifts, gratuities, favors, and additional compensation. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Unauthorized solicitation of students or parents of students to purchase equipment, supplies, or services from the educator who will directly benefit; (7-1-21)T

b. Acceptance of gifts from vendors or potential vendors for personal use or gain where there may be the appearance of a conflict of interest; (7-1-21)T

c. Tutoring students assigned to the educator for remuneration unless approved by the local board of education; and, (7-1-21)T

d. Soliciting, accepting, or receiving a financial benefit greater than fifty dollars ($50) as defined in Section 18-1359(b), Idaho Code. (7-1-21)T

e. Keeping for oneself donations, whether money or items, that were solicited or accepted for the benefit of a student, class, classroom, or school. (7-1-21)T

08. Principle VII - Confidentiality. A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Sharing of confidential information concerning student academic and disciplinary records, personal confidences, health and medical information, family status or income, and assessment or testing results with inappropriate individuals or entities; and (7-1-21)T

b. Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities. (7-1-21)T

09. Principle VIII - Breach of Contract or Abandonment of Employment. A professional educator fulfills all terms and obligations detailed in the contract with the local board of education or education agency for the duration of the contract. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Abandoning any contract for professional services without the prior written release from the contract by the employing local education agency; (7-1-21)T

b. Willfully refusing to perform the services required by a contract; and, (7-1-21)T

c. Abandonment of classroom or failure to provide appropriate supervision of students at school or school-sponsored activities to ensure the safety and well-being of students. (7-1-21)T

10. Principle IX - Duty to Report. A professional educator reports breaches of the Code of Ethics for Idaho Professional Educators and submits reports as required by Idaho Code. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Failure to comply with Section 33-1208A, Idaho Code, (reporting requirements and immunity);

(7-1-21)T

b. Failure to comply with Section 16-1605, Idaho Code, (reporting of child abuse, abandonment or neglect); (7-1-21)T

c. Failure to comply with Section 33-512B, Idaho Code, (suicidal tendencies and duty to warn); and (7-1-21)T

d. Having knowledge of a violation of the Code of Ethics for Idaho Professional Educators and failing to report the violation to an appropriate education official. (7-1-21)T

11. Principle X - Professionalism. A professional educator ensures just and equitable treatment for all members of the profession in the exercise of academic freedom, professional rights and responsibilities while following generally recognized professional principles. Unethical conduct includes, but is not limited to: (7-1-21)T

a. Any conduct that seriously impairs the Certificate holder's ability to teach or perform his professional duties; (7-1-21)T

b. Committing any act of harassment toward a colleague; (7-1-21)T

c. Failure to cooperate with the Professional Standards Commission in inquiries, investigations, or hearings; (7-1-21)T

d. Using institutional privileges for the promotion of political candidates or for political activities, except for local, state or national education association elections; (7-1-21)T

e. Willfully interfering with the free participation of colleagues in professional associations; and (7-1-21)T

f. Taking, possessing, or sharing images (digital, photographic, or video) of colleagues of a harassing, confidential, or sexual nature. (7-1-21)T

077. DEFINITIONS FOR USE WITH THE CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).

01. Administrative Complaint. A document outlining the specific, purported violations of Section 33-1208, Idaho Code, or the Code of Ethics for Idaho Professional Educators. (7-1-21)T

02. Allegation. A purported violation of the Code of Ethics for Idaho Professional Educators or Idaho Code. (7-1-21)T

03. Certificate Denial. The refusal of the state to grant a certificate. (7-1-21)T

04. Certificate Suspension. A time-certain invalidation of any Idaho certificate. (7-1-21)T

05. Conditioned Certificate. Stated Certificate conditions as determined by the Professional Standards Commission (Section 33-1209(02), Idaho Code). (7-1-21)T

06. Educator. A person who held, holds, or applies for an Idaho Certificate (Section 33-1201, Idaho Code). (7-1-21)T

07. Education Official. An individual identified by local school board policy, including, but not limited to, a superintendent, principal, assistant principal, or school resource officer (SRO). (7-1-21)T

08. Executive Committee. A decision-making body comprised of members of the Professional Standards Commission, including the chair and/or vice-chair of the Commission. A prime duty of the Committee is to review alleged violations of the Code of Ethics for Idaho Professional Educators to determine probable cause and recommend possible disciplinary action. (7-1-21)T

09. Hearing. A formal review proceeding that ensures the respondent due process. The request for a hearing is initiated by the respondent and is conducted by a panel of peers. (7-1-21)T

10. Hearing Panel. A minimum of three (3) educators appointed by the chair of the Professional Standards Commission and charged with the responsibility to make a final determination regarding the charges specifically defined in the Administrative Complaint. (7-1-21)T

11. Investigation. The process of gathering factual information concerning a valid, written complaint in preparation for review by the Professional Standards Commission Executive Committee, or following review by the Executive Committee at the request of the deputy attorney general assigned to the Professional Standards Commission. (7-1-21)T

12. No Probable Cause. A determination by the Executive Committee that there is not sufficient evidence to take action against an educator's certificate. (7-1-21)T

13. Principles. Guiding behaviors that reflect what is expected of professional educators in the state of Idaho while performing duties as educators in both the private and public sectors. (7-1-21)T

14. Probable Cause. A determination by the Executive Committee that sufficient evidence exists to issue an administrative complaint. (7-1-21)T

15. Reprimand. A written letter admonishing the Certificate holder for their conduct. (7-1-21)T

16. Respondent. The legal term for the professional educator who is under investigation for a purported violation of the Code of Ethics for Idaho Professional Educators. (7-1-21)T

17. Revocation. The invalidation of any Certificate held by the educator. (7-1-21)T

18. Stipulated Agreement. A written agreement between the respondent and the Professional Standards Commission to resolve matters arising from an allegation of unethical conduct following a complaint or an investigation. The stipulated agreement is binding to both parties and is enforceable under its own terms. (7-1-21)T

078. -- 099. (RESERVED)

100. OFFICIAL VEHICLE FOR APPROVING EDUCATOR PREPARATION PROGRAMS.
~~Section 33-114, Idaho Code~~

01. The Official Vehicle for the Approval of Traditional Educator Preparation Programs. ~~The official vehicle for the approval of t~~Traditional educator preparation programs will be~~is the Council for the Accreditation of Educator Preparation (CAEP)~~ accredited by an accrediting body that approves educator preparation programs and is recognized by the state board of education~~standards~~ and meets the approved Idaho Standards for the Initial Certification of Professional School Personnel. ~~The Idaho Standards are based upon the accepted national standards for educator preparation and include state specific, core teaching requirements. The State Department of Education will transmit to the head of each Idaho college or Department of Education a copy of all revisions to the Idaho Standards for the Initial Certification of Professional School Personnel. Such revisions will take effect and must be implemented within a period not to exceed two (2) years after notification of such revision.~~ The Idaho Standards for the Initial Certification of Professional School Personnel will be posted on the state board of education and state

department of education websites. All standards will include an implementation date. (7-1-21)T

02. Non-Traditional Educator Preparation Program. ~~The State Board of Education must approve all non-traditional route to teacher certification programs. The programs must include, at a minimum, the following components:~~To be considered for approval each non-traditional educator preparation program must include the following components: (7-1-21)T

~~**a.** Pre-assessment of teaching and content knowledge; (7-1-21)T~~

~~**b.** An academic advisor with knowledge of the prescribed instruction area; (7-1-21)T~~

c. ~~Exams~~ Assessment of pedagogy and content knowledge; and (7-1-21)T

d. ~~Be aligned~~ Alignment to the Idaho Standards for the Initial Certification of Professional School Personnel.

(7-1-21)T

03. Reference Availability. The Idaho Standards for the Initial Certification of Professional School Personnel, ~~incorporated by reference in Subsection 004.01,~~ are available for inspection on the Office of the State Board of Education's website at www.boardofed.idaho.gov. (7-1-21)T

04. Continuing Approval. Approved educator preparation programs will be reviewed for continued approval on a timeline and in a format established by the state board of education. Program reviews will take into consideration the instructional methodology used by the approved program. (7-1-21)T

~~**a.** The state of Idaho will follow the Council for Accreditation of Educator Preparation (CAEP) standards model by which institutions shall pursue continuing approval through a full program review every seven (7) years. The full program review shall be based upon the Idaho Standards for Initial Certification of Professional School Personnel. (7-1-21)T~~

~~**b.** The state of Idaho will additionally conduct focused reviews of state-specific, core teaching requirements in the interim, not to exceed every third year following the full program review. (7-1-21)T~~

~~**c.** All approved non-traditional educator preparation programs will be reviewed for continued approval on the same schedule as traditional educator preparation programs. Reviews will include determination of continued alignment with the approved Idaho Standards for the Initial Certification of Professional School Personnel and effectiveness of program completers. (7-1-21)T~~

05. Payment Responsibilities for Educator Preparation Program Reviews. The Professional Standards Commission is responsible for Idaho educator preparation program reviews, including assigning responsibility for paying for program reviews. To implement the reviews, it is necessary that: (7-1-21)T

a. The Professional Standards Commission pay for all state review team expenses for on-site teacher preparation reviews from its budget. (7-1-21)T

b. Requesting institutions pay for all other expenses related to on-site educator preparation program reviews, including ~~the~~ all standards review. (7-1-21)T

101. -- 109. (RESERVED)

110. PERSONNEL STANDARDS.
The State Board of Education supports the efforts made by the Idaho Legislature to lower class size. Significant progress has been made in grades one through three (1-3). The State Board of Education believes that class sizes in grades four through six (4-6) are too high. Districts are encouraged to lower all class sizes as funds become available. Each district will develop personnel policies and procedures to implement the educational program of the district. The

policies and procedures will address representation in each of the following personnel areas, as appropriate to student enrollment and the needs of each attendance area. Districts should strive to achieve ratios consistent with state class size ratio goals.

TEACHERS	STATE GOALS
Kindergarten	20
Grades 1, 2, 3	20
Grades 4, 5, 6	26
Middle School/Jr. High	160 teacher load
High School	160 teacher load
Alternative School (7-12)	18 average daily class load

INSTRUCTIONAL PERSONNEL

Schools are encouraged to explore technological options that provide for credible alternative delivery systems. Present and emerging information transmission technology may provide for greater teacher/pupil class size ratios.

PUPIL PERSONNEL	
(Certificated School Counselors, Social Workers, Psychologists)	400:1 * student/district average
Secondary Media Generalist and Assistants	500:1 * student/district average
Elementary Media Generalist or Assistants	500:1 * student/district average
Building Administrative Personnel	Not to exceed 500:1 * district average

* The stated pupil to personnel ratio is the goal; each school district will assign personnel as appropriate to student enrollment and the needs of each attendance area.

Classroom Assistants - State Goal: will be provided where the student/teacher ratio is deemed excessive by the district or where other student special needs exist (e.g., limited English proficiency or special education).

Classified Personnel - State Goal: will be employed in each building to support the needs of the staff, students, and community. (7-1-21)T

111. BULLYING, HARASSMENT AND INTIMIDATION PREVENTION AND RESPONSE.

01. Dissemination of Information. School districts and charter schools shall make reasonable efforts to ensure that information on harassment, intimidation and bullying of students is disseminated annually to all school personnel, parents and students. (7-1-21)T

02. Professional Development. The content of ongoing professional development for school staff related to bullying, harassment and intimidation shall include: (7-1-21)T

a. School philosophy regarding school climate and student behavior expectations; (7-1-21)T

b. Definitions of bullying, harassment, and intimidation; (7-1-21)T

c. School prevention strategies or programs including the identification of materials to be distributed annually to students and parents; (7-1-21)T

d. Expectations of staff intervention for bullying, harassment, and intimidation; (7-1-21)T

e. School process for responding to bullying, harassment, and intimidation including the reporting process for students and staff, investigation protocol, the involvement of law enforcement, related student support services and parental involvement; and (7-1-21)T

f. Other topics as determined appropriate by the school district or charter school. (7-1-21)T

03. Graduated Consequences. Graduated consequences for a student who commits acts of bullying, harassment, and intimidation shall include a series of measures proportional to the act(s) committed and appropriate to the severity of the violation as determined by the school board of trustees, school administrators, or designated personnel depending upon the level of discipline. Graduated consequences should be in accordance with the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance. (7-1-21)T

a. Graduated consequences may include, but are not limited to: (7-1-21)T

i. Meeting with the school counselor; (7-1-21)T

ii. Meeting with the school principal and student's parents or guardian; (7-1-21)T

iii. Detention, suspension or special programs; and (7-1-21)T

iv. Expulsion. (7-1-21)T

b. The graduated consequences are not intended to prevent or prohibit the referral of a student who commits acts of harassment, intimidation or bullying to available outside counseling services or to law enforcement, or both, pursuant to Section 18-917A, Idaho Code. (7-1-21)T

c. Students with disabilities may be afforded additional protections under the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act; school districts and charter schools shall comply with applicable state and federal law when disciplining students with individualized education programs (IEPs) or 504 plans for committing acts of bullying, harassment, and intimidation. (7-1-21)T

04. Intervention. School district and charter school employees are authorized and expected to intervene or facilitate intervention on behalf of students facing harassment, intimidation, and bullying. Intervention shall be reasonably calculated to: (7-1-21)T

a. Correct the problem behavior; (7-1-21)T

b. Prevent another occurrence of the problem; (7-1-21)T

c. Protect and provide support for the victim of the act; and (7-1-21)T

d. Take corrective action for documented systemic problems related to harassment, intimidation, or bullying. (7-1-21)T

05. Reporting. Annual reporting will occur at the end of the school year through an aggregate report identifying the total number of bullying incidents by school districts and charter schools, grade level, gender, and

repeat offenders. The State Department of Education shall provide school districts and charter schools with the guidelines and forms for reporting. (7-1-21)T

112. SUICIDE PREVENTION IN SCHOOLS.
As schools offer annual professional development for school staff related to preventing, intervening, and responding to suicide, the content shall include: (7-1-21)T

01. Prevention. School philosophy regarding school climate and the promotion of protective factors; data on suicide for the region or state, or both; risk and protective factors for students; suicide myths and facts; and how to develop community partnerships. (7-1-21)T

02. Intervention. How to utilize safe and appropriate language and messaging when addressing students; warning signs of suicide ideation for students; local and school-based protocols for aiding a suicidal individual; local protocols for seeking help for self and students; identification of appropriate mental health services and community resources for referring students and their families; information about state statutes on responsibility, liability, and duty to warn; confidentiality issues; and the need to ask others directly if they are suicidal. (7-1-21)T

03. Postvention. Evidence-based protocol for responding to a student/staff suicide. (7-1-21)T

113. -- 119. (RESERVED)

120. LOCAL DISTRICT EVALUATION POLICY -- INSTRUCTIONAL STAFF AND PUPIL SERVICE STAFF CERTIFICATE HOLDERS.
Each school district board of trustees will develop and adopt policies for certified staff performance evaluation using multiple measures in which criteria and procedures for the evaluation of certificated personnel are research based. For pupil service staff, those standards shall be aligned with the profession's national standards. For instructional staff, those standards shall be aligned to Charlotte Danielson Framework for Teaching Second Edition domains and components specified in Subsection 120.01 of this rule, and must be determined based on professional practice. For all certification personnel, domain or component ratings, or both, may be weighted based on the individual's individualized professional learning plan. The summative evaluation rating must be based on a combination of professional practice and student achievement as specified in Subsections 120.02 and 120.03. The process of developing criteria and procedures for certificated personnel evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers, and parents. The evaluation policy will be a matter of public record and communicated to the certificated personnel for whom it is written. (7-1-21)T

01. Standards. Each district evaluation model shall be aligned to state minimum standards that are based on Charlotte Danielson's Framework for Teaching Second Edition domains and components of instruction. Those domains and components include: (7-1-21)T

a. Domain 1 - Planning and Preparation: (7-1-21)T

i. Demonstrating Knowledge of Content and Pedagogy; (7-1-21)T

ii. Demonstrating Knowledge of Students; (7-1-21)T

iii. Setting Instructional Outcomes; (7-1-21)T

iv. Demonstrating Knowledge of Resources; (7-1-21)T

v. Designing Coherent Instruction; and (7-1-21)T

vi. Designing Student Assessments. (7-1-21)T

b. Domain 2 - The Classroom Environment: (7-1-21)T

i. Creating an Environment of Respect and Rapport; (7-1-21)T

ii. Establishing a Culture for Learning; (7-1-21)T

iii. Managing Classroom Procedures; (7-1-21)T

iv. Managing Student Behavior; and (7-1-21)T

v. Organizing Physical Space. (7-1-21)T

c. Domain 3 - Instruction and Use of Assessment: (7-1-21)T

i. Communicating with Students; (7-1-21)T

ii. Using Questioning and Discussion Techniques; (7-1-21)T

iii. Engaging Students in Learning; (7-1-21)T

iv. Using Assessment in Instruction; and (7-1-21)T

v. Demonstrating Flexibility and Responsiveness. (7-1-21)T

d. Domain 4 - Professional Responsibilities: (7-1-21)T

i. Reflecting on Teaching; (7-1-21)T

ii. Maintaining Accurate Records; (7-1-21)T

iii. Communicating with Families; (7-1-21)T

iv. Participating in a Professional Community; (7-1-21)T

v. Growing and Developing Professionally; and (7-1-21)T

vi. Showing Professionalism. (7-1-21)T

02. Professional Practice. All certificated instructional employees must receive an evaluation in which at least a majority of the evaluation ratings must be based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Charlotte Danielson Framework for Teaching Second Edition domains and components. Professional Practice shall include a minimum of two (2) documented observations annually, with at least one (1) observation being completed by January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. At least one (1) documented summative evaluation must include a rating for all components of the applicable professional standards used for evaluation of certified personnel. District evaluation models shall also include at least one (1) of the following as a measure to inform the Professional Practice portion of each certificated instructional employee evaluations: (7-1-21)T

a. Parent/guardian input; (7-1-21)T

b. Student input; and/or (7-1-21)T

c. Portfolios. (7-1-21)T

03. Student Achievement. Instructional staff evaluation ratings must in part be based on measurable

student achievement, as defined in Section 33-1001, Idaho Code, as applicable to the subjects and grade ranges taught by the instructional staff. All other certificated staff evaluations must include measurable student achievement or student success indicators, as defined in Section 33-1001, Idaho Code, as applicable to the position. This portion of the evaluation may be calculated using current and/or the immediate past year's data and may use one (1) year or both years' data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (7-1-21)T

04. Participants. Each district evaluation policy will include provisions for evaluating all certificated employees identified in Section 33-1001, Idaho Code. Evaluations shall be differentiated for certificated non-instructional employees and Pupil Service Staff Certificate holders in a way that aligns with the Charlotte Danielson Framework for Teaching Second Edition to the extent possible and aligned to the pupil service staff's applicable national standards. Policies for evaluating certificated employees should identify the differences, if any, in the conduct of evaluations for nonrenewable contract personnel and renewable contract personnel. (7-1-21)T

05. Evaluation Policy – Content. Local school district policies will include, at a minimum, the following information: (7-1-21)T

a. Evaluation criteria -- statements of the criteria upon which certificated personnel will be evaluated and rated. (7-1-21)T

b. Evaluator -- identification of the individuals responsible for observing or evaluating certificated instructional staff and pupil service staff performance. The individuals assigned this responsibility shall have received training in conducting evaluations based on the statewide framework for evaluations within the immediate previous five (5) years of conducting any evaluations. (7-1-21)T

c. Communication of results -- the method by which certificated personnel are informed of the results of evaluation. (7-1-21)T

d. Personnel actions -- the action available to the school district as a result of the evaluation and the procedures for implementing these actions; e.g., job status change. Note: in the event the action taken as a result of evaluation is to not renew an individual's contract or to renew an individual's contract at a reduced rate, school districts should take proper steps to follow the procedures outlined in Sections 33-513 through 33-515, Idaho Code in order to assure the due process rights of all personnel. (7-1-21)T

e. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of certificated personnel evaluations. (7-1-21)T

f. Individualizing teacher evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time and be used to develop individualized professional learning plans. Districts shall have an individualized teacher evaluation rating system with a minimum of three (3) ratings used to differentiate performance of teachers and Pupil Service Staff Certificate holders including: (7-1-21)T

i. Unsatisfactory being equal to "1"; (7-1-21)T

ii. Basic being equal to "2"; and (7-1-21)T

iii. Proficient being equal to "3". (7-1-21)T

iv. A fourth evaluation rating of Distinguished, being equal to "4," may be used in addition to the three (3) minimum ratings at the discretion of the school district or charter school. (7-1-21)T

g. A plan for including all stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their teacher evaluation plan. (7-1-21)T

06. Evaluation Policy – Frequency of Evaluation. The evaluation policy shall include a provision for

evaluating all certificated personnel on a fair and consistent basis. (7-1-21)T

07. Evaluation Policy - Personnel Records. Permanent records of each certificated personnel evaluation will be maintained in the employee's personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the ratings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation ratings in local school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. (7-1-21)T

08. Evaluation System Approval. Each school district board of trustees will develop and adopt policies for teacher and Pupil Service Staff certificated performance evaluation in which criteria and procedures for the evaluation are research based and aligned with the Charlotte Danielson Framework for Teaching Second Edition and national standards for pupil service staff as applicable. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (7-1-21)T

121. LOCAL DISTRICT EVALUATION POLICY – SCHOOL ADMINISTRATOR.
All school and school district administrators must receive an annual evaluation. Individuals serving in the role of superintendent or its equivalent shall be evaluated by the local board of trustees. Individuals serving in the capacity of a school district superintendent shall be evaluated based on the school district evaluation policy for superintendents. For principal and other school level administrator evaluations, each school district board of trustees will develop and adopt policies for performance evaluation using multiple measures in which criteria and procedures for the evaluation of administratively certificated personnel serving as school principal or other school level administrators are research based and aligned to the standards and requirements outlined in Subsections 121.01 through 121.07 of this rule. For Special Education Directors, standards aligned with the profession's national standards may replace those outlined in Subsection 121.01. The process of developing criteria and procedures for administrator evaluations will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. The evaluation policy will be a matter of public record and communicated to the principal for whom it is written. (7-1-21)T

01. Standards. Each district principal and school level administrator evaluation model shall be aligned to state minimum standards based on the Interstate School Leaders Licensure Consortium (ISLLC) standards and include proof of proficiency in conducting teacher evaluations using the state's framework for evaluations, the Charlotte Danielson Framework for Teaching Second Edition. Proof of training in evaluating teacher performance shall be required of all individuals assigned the responsibility for observing or evaluating certificated personnel performance. Principal evaluation standards shall additionally address the following domains and components: (7-1-21)T

a. Domain 1: School Climate - An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs. (7-1-21)T

i. School Culture - Principal establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow's careers and life endeavors. (7-1-21)T

ii. Communication - Principal is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders. (7-1-21)T

iii. Advocacy - Principal advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. (7-1-21)T

b. Domain 2: Collaborative Leadership - An educational leader promotes the success of all students

by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. The educational leader uses research and/or best practices in improving the education program. (7-1-21)T

i. Shared Leadership - Principal fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth. (7-1-21)T

ii. Priority Management - Principal organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities. (7-1-21)T

iii. Transparency - Principal seeks input from stakeholders and takes all perspectives into consideration when making decisions. (7-1-21)T

iv. Leadership Renewal - Principal strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others. (7-1-21)T

v. Accountability - Principal establishes high standards for professional, legal, ethical, and fiscal accountability for self and others. (7-1-21)T

c. Domain 3: Instructional Leadership - An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. The educational leader provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program. (7-1-21)T

i. Innovation - Principal seeks and implements innovative and effective solutions that comply with general and special education law. (7-1-21)T

ii. Instructional Vision - Principal insures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn. (7-1-21)T

iii. High Expectations - Principal sets high expectation for all students academically, behaviorally, and in all aspects of student well-being. (7-1-21)T

iv. Continuous Improvement of Instruction - Principal has proof of proficiency in assessing teacher performance based upon the Charlotte Danielson Framework for Teaching Second Edition. Aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision. (7-1-21)T

v. Evaluation - Principal uses teacher/principal evaluation and other formative feedback mechanisms to continuously improve teacher/principal effectiveness. (7-1-21)T

vi. Recruitment and Retention -Principal recruits and maintains a high quality staff. (7-1-21)T

02. Professional Practice. All principals must receive an evaluation in which a majority of the summative evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Domains and Components listed in Subsection 121.01.a. through 121.01.c. of this rule. As a measure to inform the Professional Practice portion of each evaluation, district evaluation models shall also include at least one (1) of the following: (7-1-21)T

a. Parent/guardian input; (7-1-21)T

b. Teacher input; (7-1-21)T

c. Student input; and/or (7-1-21)T

d. Portfolios. (7-1-21)T

03. Student Achievement. All administrators must receive an evaluation in which part of the summative evaluation results are based in part on objective measures of growth in measurable student achievement, as defined in Section 33-1001, Idaho Code. This portion of the evaluation may be calculated using current and/or the immediate past year's data and may use one (1) or both years data. Growth in student achievement may be considered as an optional measure for all other school based and district based administrators, as determined by the local board of trustees. (7-1-21)T

04. Evaluation Policy - Content. For evaluations conducted on or after July 1, 2014, local school district policies will include, at a minimum, the following information: (7-1-21)T

a. Evaluation criteria -- statements of the criteria upon which administrators will be evaluated. (7-1-21)T

b. Evaluator -- identification of the individuals responsible for observing or evaluating school level administrator performance. The individuals assigned this responsibility shall have received training in administrator evaluations based on the statewide framework for evaluations. (7-1-21)T

c. Communication of results -- the method by which principals are informed of the results of evaluation. (7-1-21)T

d. Personnel actions -- the action, available to the school district as a result of the evaluation, and the procedures for implementing these actions; e.g., job status change. (7-1-21)T

e. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of an evaluations. (7-1-21)T

f. Individualizing principal evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. Districts shall have an individualized principal evaluation rating system with a minimum of three ratings used to differentiate performance of principals including: (7-1-21)T

i. Unsatisfactory being equal to "1"; (7-1-21)T

ii. Basic being equal to "2"; and (7-1-21)T

iii. Proficient being equal to "3". (7-1-21)T

iv. A fourth evaluation rating of Distinguished, being equal to "4," may be used in addition to the three (3) minimum ratings at the discretion of the school district or charter school. (7-1-21)T

g. A plan for including stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their principal evaluation plan. (7-1-21)T

05. Evaluation Policy - Frequency of Evaluation. The evaluation policy should include a provision for evaluating all administrators on a fair and consistent basis. All administrators shall be evaluated at least once annually no later than June 1 of each year. (7-1-21)T

06. Evaluation Policy - Personnel Records. Permanent records of each principal evaluation will be maintained in the employee's personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the ratings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation ratings in local school districts in

accordance with the approved policies of the Idaho State Board of Education Data Management Council. (7-1-21)T

07. Evaluation System Approval. Each school district board of trustees will develop and adopt policies for principal performance evaluation in which criteria and procedures for the evaluation are research based and aligned with state standards. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (7-1-21)T

122. -- 129. (RESERVED)

130. SCHOOL FACILITIES.

Each school facility consists of the site, buildings, equipment, services, and is a critical factor in carrying out educational programs. The focus of concern in each school facility is the provision of a variety of instructional activities and programs, with the health and safety of all persons essential. (7-1-21)T

01. Buildings. All school buildings, including portable or temporary buildings, will be designed and built in conformance with the current edition of the codes specified in the Idaho Building Code Act, Section 39-4109, Idaho Code, including, the National Electrical Code, Uniform Plumbing Code, and Idaho General Safety and Health Standards. All school buildings, including portable or temporary buildings, will meet other more stringent requirements established in applicable local building codes. (7-1-21)T

02. Inspection of Buildings. All school buildings, including portable or temporary buildings, will be inspected as provided in Section 39-4130, Idaho Code, for compliance with applicable codes. Following this inspection, the school district will, within twenty (20) days, (1) correct any deficiencies specified in the inspection report or (2), if the corrective action involves structural modification, file a written plan with the inspecting agency for correction by the beginning of the following school year. (7-1-21)T

131. -- 139. (RESERVED)

140. ACCREDITATION.

01. Requirement. ~~All public secondary schools, serving any grade(s) 9-12, will be accredited pursuant to Section 33-119, Idaho Code.~~ Accreditation is voluntary for elementary schools, grades K-8, and alternative schools not identified in Subsection 140.02.a. through 140.012.e. of this rule. (7-1-21)T

02. Alternative Schools. An alternative school serving any grade(s) 9-12 that meets any three (3) of the criteria in Subsections 140.02.a. through 140.02.e. of this rule, shall be required to be accredited. An alternative school that does not meet three (3) of the following criteria in Subsections 140.02.a. through 140.02.e. is considered as an alternative program by the district board of trustees and shall be included in the accreditation process and reporting of another secondary school within the district for the purposes of meeting the intent of this rule. (7-1-21)T

a. School has an Average Daily Attendance greater than or equal to 36 students based on previous year's enrollment; (7-1-21)T

b. School enrolls any students full-time for the school year once eligibility determination is made as opposed to schools that enroll students for "make-up" or short periods of time; (7-1-21)T

c. School offers an instructional model that is different than that provided by the traditional high school within the district for a majority of the coursework, including but not limited to online/virtual curriculum; (7-1-21)T

d. School administers diplomas that come from that alternative school as opposed to students receiving a diploma from the traditional high school within the school district; or (7-1-21)T

e. School receives its own accountability rating for federal reporting purposes. (7-1-21)T

03. Standards. Schools will meet the accreditation standards of ~~the Northwest Accreditation Commission, a division of AdvancED.~~an accrediting body recognized by the state board of education. (7-1-21)T

04. Residential Schools. In addition to the academic standards, residential schools must meet the applicable health and safety standards established pursuant to Section 39-1210, Idaho Code, to be considered fully accredited by the State Board of Education. (7-1-21)T

05. Reporting. An annual accreditation report will be submitted to the State Board of Education identifying each accredited school and school district in the state and the status of their accreditation. (7-1-21)T

141. -- 149. (RESERVED)

150. TRANSPORTATION.

Minimum School Bus Construction Standards. All new school bus chassis and bodies must meet or exceed Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules and as authorized in Section 33-1511, Idaho Code. (7-1-21)T

151. -- 159. (RESERVED)

160. MAINTENANCE STANDARDS AND INSPECTIONS.

01. Safety. School buses will be maintained in a safe operating condition at all times. Certain equipment or parts of a school bus that are critical to its safe operation must be maintained at prescribed standards. When routine maintenance checks reveal any unsafe condition identified in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules the school district will eliminate the deficiency before returning the vehicle to service. (7-1-21)T

02. Annual Inspection. After completion of the annual school bus inspection, and if the school bus is approved for operation, an annual inspection sticker, indicating the year and month of inspection, will be placed in the lower, right-hand corner of the right side front windshield. The date indicated on the inspection sticker shall correlate to State Department of Education's annual school bus inspection certification report signed by pupil transportation maintenance personnel and countersigned by the district superintendent. (Section 33-1506, Idaho Code) (7-1-21)T

03. Sixty-Day Inspections. At intervals of not more than sixty (60) calendar days, excluding documented out-of-use periods in excess of thirty (30) days, the board of trustees shall cause inspection to be made of each school bus operating under the authority of the board. Except that, no bus with a documented out-of-use period in excess of sixty (60) days shall be returned to service without first completing a documented sixty (60) day inspection. Annual inspections are considered dual purpose and also meet the sixty (60) day inspection requirement. (Section 33-1506, Idaho Code) (7-1-21)T

04. Documentation of Inspection. All inspections will be documented in writing. Annual inspections must be documented in writing on the form provided by the State Department of Education. (7-1-21)T

05. Unsafe Vehicle. When a bus has been removed from service during a State Department of Education inspection due to an unsafe condition, the district will notify the State Department of Education on the appropriate form before the bus can be returned to service. When a bus has been found to have deficiencies that are not life-threatening, it will be repaired within thirty (30) days and the State Department of Education notified on the appropriate form. If the deficiencies cannot be repaired within thirty (30) days, the bus must be removed from service until the deficiencies have been corrected or an extension granted. (7-1-21)T

06. Withdraw from Service Authority. Subsequent to any federal, national, or state advisory with good cause given therefor, the district shall, under the direction of the State Department of Education, withdraw from service any bus determined to be deficient in any prescribed school bus construction standard intended to safeguard

life or minimize injury. No bus withdrawn from service under the provisions of this section shall be returned to service or used to transport students unless the district submits to the State Department of Education a certification of compliance specific to the school bus construction standard in question. (Section 33-1506, Idaho Code) (7-1-21)T

161. -- 169. (RESERVED)

170. SCHOOL BUS DRIVERS AND VEHICLE OPERATION.
All school districts and school bus drivers must meet or exceed the training, performance and operation requirements delineated in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules. (7-1-21)T

171. -- 179. (RESERVED)

180. WRITTEN POLICY.
The board of trustees will establish and adopt a set of written policies governing the pupil transportation system. Each school district that provides activity bus transportation for pupils shall have comprehensive policies and guidelines regarding activity transportation. (7-1-21)T

181. -- 189. (RESERVED)

190. PROGRAM OPERATIONS.
School district fiscal reporting requirements as well as reimbursable and non-reimbursable costs within the Pupil Transportation Support Program, including but not limited to administration, field and activity trips, safety busing, contracting for transportation services, leasing of district-owned buses, insurance, ineligible and non-public school students, ineligible vehicles, capital investments including the purchasing of school buses and equipment, program support and district waiver procedures shall be delineated in Standards for Idaho School Buses and Operations incorporated in Section 004 of these rules. Approved school activities shall include structured college/university visits when such visits are part of the school district college and career advising and mentoring plan. (7-1-21)T

191. -- 219. (RESERVED)

220. RELEASE TIME PROGRAM FOR ELEMENTARY AND SECONDARY SCHOOLS.
In the view of the State Board of Education, public elementary and secondary school programs that permit the practice of releasing students from school for the purpose of attending classes in religious education or for other purposes should observe certain practices that are in keeping with the present state of the law. These practices are designed to ensure that the public school operation is not adversely affected and that public funds and property are not used for sectarian religious instruction in a way which violates the United States Constitution, the Idaho State Constitution, or state law. These practices should include the following: (7-1-21)T

01. Scheduling. The local school board will have reasonable discretion over the scheduling and timing of the release program. Release time programs may not interfere with the scheduling of classes, activities and programs of the public schools. (7-1-21)T

02. Voluntary Decision. The decision of a school district to permit release time programs for kindergarten through grade eight (K-8), as well as the decision of individual students to participate, must be purely voluntary. (7-1-21)T

03. Time Limit. Release time will be scheduled upon the application of a parent or guardian of a student in grades nine through twelve (9-12), not to exceed five (5) periods per week or one hundred sixty-five (165) hours during any one (1) academic school year. (7-1-21)T

04. Location. Release time programs will be conducted away from public school buildings and public school property. (7-1-21)T

05. Request by Parent. No student will be permitted to leave the school grounds during the school day to attend release time programs except upon written request from a parent or guardian filed with the school principal. Such written request by the parent will become a part of the student's permanent record. (7-1-21)T

06. Record Maintenance. The public school will not be responsible for maintaining attendance records for a student who, upon written request of a parent or guardian, is given permission to leave the school grounds to attend a release time program. The school district will maintain a record of each student's daily schedule that indicates when a student is released for classes in religious education or for other purposes. (7-1-21)T

07. Liability. The school district is responsible for ensuring that no public school property, public funds or other public resources are used in any way to operate these programs. The school district is not liable for any injury, act or event occurring while the student participates in such programs. (7-1-21)T

08. Course Credit. No credit will be awarded by the school or district for satisfactory completion by a student of a course or courses in release time for religious instruction. Credit may be granted for other purposes, at the discretion of the local school board. (7-1-21)T

09. Separation From Public Schools. Public schools will not include schedules of classes for release time programs in school catalogs, registration forms or any other regularly printed public school material. Registration for release time programs must occur off school premises, and must be done on forms and supplies furnished by the group or institution offering the program. Teachers of release time programs are not to be considered members of any public school faculty and should not be asked to participate as faculty members in any school functions or to assume responsibilities for operation of any part of the public school program. (7-1-21)T

10. Transportation Liability. Public schools and school districts will not be liable or responsible for the health, safety and welfare of students while they are being transported to and from or participating in release time programs. (7-1-21)T

221. -- 229. (RESERVED)

230. DRIVER EDUCATION.

Public Schools. Pursuant to Section 004 of these rules, all public driver education courses offered in Idaho public schools must be conducted in compliance with all the requirements in the Operating Procedures for Idaho Public Driver Education Programs, as incorporated. (7-1-21)T

231. -- 239. (RESERVED)

240. JUVENILE DETENTION CENTERS.

01. Instructional Program. Every public school district in the state within which is located a public or private detention facility housing juvenile offenders pursuant to court order will provide an instructional program. The instructional program will: (7-1-21)T

a. Provide course work that meets the minimum requirements of Idaho State Board of Education Rules. (7-1-21)T

b. Provide instruction in core subject areas. (7-1-21)T

c. Include the following components, where appropriate: self-concept improvement, social adjustment, physical fitness/personal health, vocational/occupational, adult living skills, and counseling. (7-1-21)T

d. Provide instruction and guidance that may lead to a high school diploma. School districts will accept such instruction for purposes of issuing credit when the detention center certifies to the school that the appropriate work is completed. (7-1-21)T

e. Be directed by an instructor who holds an appropriate, valid certificate. (7-1-21)T

f. Be provided to each student not later than two (2) school days after admission and continue until the student is released from the detention center. (7-1-21)T

g. Be provided to students who have attained "school age" as defined in Idaho Code 33-201. (7-1-21)T

h. Be provided for a minimum of four (4) hours during each school day. (7-1-21)T

i. Be based on the needs and abilities of each student. The resident school district will provide pertinent status information as requested by the Juvenile Detention Center. (7-1-21)T

j. Be coordinated with the instructional program at the school the student attends, where appropriate. (7-1-21)T

k. Be provided in a facility that is adequate for instruction and study. (7-1-21)T

02. State Funding of Instructional Programs at Juvenile Detention Centers. (7-1-21)T

a. Every student housed in a juvenile detention center pursuant to court order and participating in an instructional program provided by a public school district will be counted as an exceptional child by the district for purposes of state reimbursement. (7-1-21)T

b. Public school districts that educate pupils placed by Idaho court order in juvenile detention centers will be eligible for an allowance equivalent to the previous year's certified local annual tuition rate per pupil. The district allowance will be in addition to support unit funding and included in the district apportionment payment. (7-1-21)T

c. To qualify for state funding of instructional programs at Juvenile Detention Centers, school districts must apply for such funding on forms provided by the State Department of Education. Applications are subject to the review and approval of the State Superintendent of Public Instruction. School districts will submit attendance and enrollment reports as required by the State Superintendent of Public Instruction. Juvenile Detention Centers will submit reports to the local school district as required. (7-1-21)T

Idaho Standards for School Nurses 280
Idaho Standards for School Psychologists 285
Idaho Standards for School Social Workers 292
Idaho Standards for Speech-Language Pathology 299

DRAFT

SUMMARY

Overview of the Past Standards

The early standards for initial certification in Idaho were based on the 1989 National Association of State Directors of Teacher Education and Certification (NASDTEC) standards. These standards were "input- based", meaning a candidate was recommended for initial certification based on credits and content of courses successfully completed (transcript review).

In 2000, Idaho adopted new standards based on the Interstate New Teacher Assessment and Support Consortium (INTASC) model. These standards reflected a move to "performance-based" outcomes, meaning a candidate is recommended for initial certification based on the demonstration of what they know and are able to do, similar to mastery-based education.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Each proposed standard is broken down into two areas:

- Knowledge (what the candidate needs to know)
- Performance (what the candidate is able to do)

The performance, therefore, is the demonstration of the knowledge and dispositions of a standard. As the demonstration of a standard, the performances will also guide a teacher-education program review team when evaluating for program accreditation.

REVISED IDAHO CORE TEACHER STANDARDS

The "Idaho Core Teacher Standards" apply to ALL teacher certification areas. These are the 10 basic standards all teachers must know and be able to do, regardless of their specific content areas. These standards are described in more detail with knowledge and performances in the first section of this manual. The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning; Content; Instructional Practice; and Professional Responsibility. The summary of each standard is:

The Learner and Learning

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

~~***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***~~

~~Content~~

~~***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***~~

~~***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***~~

~~Instructional Practice~~

~~***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***~~

~~***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***~~

~~***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***~~

~~Professional Responsibility~~

~~***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

Foundation and Enhancement Standards

The Core Teacher Standards apply to **ALL** teacher certification areas. The Foundations and/or Enhancements for each content certification area are behind the Core Standards in this manual, alphabetically.

Foundation and Enhancement Standards refer to additional knowledge and performances a teacher must know in order to teach a certain content area. The Foundation and Enhancement Standards, therefore, further "enhance" the Core Standard.

Example of content area Enhancements:

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Examples of an Enhancement to Standard 1:

For Elementary: The teacher understands how young children's and early adolescents' literacy and language development influence learning and instructional decisions across content areas.

For Math: The teacher knows how to recognize students' mathematical development, knowledge, understandings, ways of thinking, mathematical dispositions, interests, and experiences.

In this way, the Idaho Core Teacher Standards, Foundation Standards and Enhancement Standards are "layered" to describe what a teacher in the content area must know and be able to do in order to be recommended to the state for initial certification.

Important enhancements for several content areas do not fall under the ten Core Teacher Standards. For example, a science teacher must provide a safe learning environment in relation to labs, materials, equipment, and procedures. This does not fall under an area that every teacher needs to know. Therefore, it is Standard 11 under Science.

In no case are there more than 12 overall standards for any subject area.

DRAFT

Pupil Personnel and Administrator Certification Standards

There are several certification standards for pupil personnel professionals and school administrators that are also addressed through the Idaho teacher certification processes.

- Administrator Endorsements
  - School Principals
  - Superintendents
  - Special Education Directors
- Pupil Personnel Services Endorsements
  - Audiology
  - School Counselors
  - School Nurses
  - School Psychologists
  - School Social Workers
  - Speech Language Pathology

Because of the unique role of these professionals, their standards are independent of the Core Standards, but are still written in the same performance-based format: Knowledge and Performances.

The Process of Idaho Standards Maintenance

The Professional Standards Commission (PSC) continuously reviews/revises 20% of the standards annually. The standards review process ensures current best practices are embedded.

The process for all standards reviews are as follows:

- A standards review team of content area experts from educators, including those from P-12 schools and higher education, is formed for each standard area.
- The team of content area experts reviews the standards and makes revisions, if necessary.
- The recommended revisions from the team of content area experts are presented to the PSC.
- If the PSC approves the revisions, they are presented to the State Board of Education for adoption.
- If the State Board of Education adopts the revised standards, they are presented to the Legislature for approval.
- If approved by the Legislature, the revised standards are incorporated into State Board Rule (IDAPA 08.02.02.004.01).

Please visit the Idaho State Department of Education Standards for Educator Preparation webpage for information on which preparation programs have been changed: http://www.sde.idaho.gov/cert-psc/psc/standards.html

DRAFT

IDAHO CORE TEACHING STANDARDS

All teacher candidates are expected to meet the Idaho Core Teach~~er~~ing Standards and ~~the~~ any standards specific to their discipline area(s) ~~at the "acceptable" level or above~~. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

In accordance with Section 33-1207A, Idaho Code, reviews of already approved nonpublic teacher preparation programs shall be limited to substantive alignment with knowledge or equivalent standards.

EXAMPLE

~~:~~ Standard 2: Learning Differences. The teacher candidate uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

The nonpublic teacher preparation program review of Standard 2 shall be limited to verification that the candidate **knows how** they can use their understanding of individual differences and diverse cultures to ensure inclusive learning environments that enable each learner to meet high standards.

~~**The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.**~~

~~**An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.**~~

~~**The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning, Content, Instructional Practice, and Professional Responsibility. This language has been adopted verbatim from the April 2011 InTASC Model Core Teaching Standards.**~~

The Learner and Learning

~~Teaching begins with the learner. To ensure that each student learns new knowledge and skills, teachers must understand that learning and developmental patterns vary among individuals, that learners bring unique individual differences to the learning process, and that learners need supportive and safe learning environments to thrive. Effective teachers have high expectations~~

~~for each and every learner and implement developmentally appropriate, challenging learning experiences within a variety of learning environments that help all learners meet high standards and reach their full potential. Teachers do this by combining a base of professional knowledge, including an understanding of how cognitive, linguistic, social, emotional, and physical development occurs, with the recognition that learners are individuals who bring differing personal and family backgrounds, skills, abilities, perspectives, talents and interests. Teachers collaborate with learners, colleagues, school leaders, families, members of the learners' communities, and community organizations to better understand their students and maximize their learning. Teachers promote learners' acceptance of responsibility for their own learning and collaborate with them to ensure the effective design and implementation of both self-directed and collaborative learning.~~

Standard 1: Learner Development. The teacher candidate understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

~~Knowledge~~

~~1(a) The teacher understands how learning occurs--how learners construct knowledge, acquire skills, and develop disciplined thinking processes--and knows how to use instructional strategies that promote student learning.~~

~~1(b) The teacher understands that each learner's cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners' strengths and needs.~~

~~1(c) The teacher knows how to identify readiness for learning and understands that development in any one area (cognitive, linguistic, social, emotional, and physical) may affect performance in others.~~

~~1(d) The teacher understands the role of language, culture, and socio-historical context in learning and knows how to differentiate instruction to make language comprehensible and instruction relevant, accessible, and challenging.~~

~~Performance~~

~~1(e) The teacher regularly assesses individual and group performance in order to design and differentiate instruction to meet learners' needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development.~~

~~1(f) The teacher creates developmentally appropriate instruction that takes into account individual learners' strengths, interests, needs, and background that enables each learner to advance and accelerate his/her learning.~~

~~1(g) The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.~~

~~Disposition~~

~~1(h) The teacher respects learners' differing strengths and needs and is committed to using this information to further each learner's development~~

~~1(i) The teacher is committed to using learners' strengths as a basis for growth, and their misconceptions as opportunities for learning.~~

~~1(j) The teacher takes responsibility for promoting learners' growth and development.~~

~~1(k) The teacher values collaborative relationships with families, colleagues, and other professionals in understanding and supporting each learner's development.~~

Standard 2: Learning Differences. The teacher candidate uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

~~Knowledge~~

~~2(a) The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction that uses each learner's strengths to promote growth.~~

~~2(b) The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs.~~

~~2(c) The teacher knows about linguistic diversity and second language acquisition processes and knows instructional strategies and resources to support language acquisition.~~

~~2(d) The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as contemporary and historical impacts on language, culture, family, and community values.~~

~~2(e) The teacher knows how to access reliable information about the values of diverse cultures and communities and how to incorporate learners' experiences, cultures, and community resources into instruction.~~

~~Performance~~

~~2(f) The teacher designs, adapts, and delivers instruction to address each student's diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways.~~

~~2(g) The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, response modes) for individual students with particular learning differences or needs.~~

~~2(h) The teacher designs instruction to build on learners' prior knowledge and experiences, allowing learners to accelerate as they demonstrate their understandings.~~

~~2(i) The teacher brings multiple perspectives to the discussion of content, including attention to learners' personal, family, and community experiences and cultural norms.~~

~~2(j) The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.~~

~~2(k) The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.~~

~~Disposition~~

~~2(l) The teacher believes that all learners can achieve at high levels and persists in helping each learner reach his/her full potential.~~

~~2(m) The teacher respects learners as individuals with differing personal and family backgrounds and various skills, abilities, perspectives, talents, and interests.~~

~~2(n) The teacher makes learners feel valued and helps them learn to value each other.~~

~~2(o) The teacher values diverse languages and dialects and seeks to integrate them into his/her instructional practice to engage students in learning.~~

~~2(p) The teacher values the cultural resources (language, history, indigenous knowledge) of American Indian students and their communities.~~

Standard 3: Learning Environments. The teacher candidate works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

~~**Knowledge**~~

~~3(a) The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning (e.g., principles of universal design for learning and culturally responsive pedagogy).~~

~~3(b) The teacher knows how to create respectful learning communities where learners work collaboratively to achieve learning goals.~~

~~3(c) The teacher knows how to collaborate with learners to establish and monitor elements of safe and productive learning environments including norms, expectations, routines, organizational structures, and multiple levels of behavioral interventions.~~

~~3(d) The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments, including virtual spaces.~~

~~3(e) The teacher knows how to use technologies and how to guide learners to apply them in appropriate, safe, and effective ways.~~

~~**Performance**~~

3(f) The teacher collaborates with learners, families, and colleagues to build a safe, positive learning climate of openness, mutual respect, support, and inquiry.

3(g) The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with diverse local and global ideas.

3(h) The teacher collaborates with learners and colleagues to develop shared values and expectations for respectful interactions, rigorous academic discussions, and individual and group responsibility for quality work.

3(i) The teacher manages the learning environment to actively and equitably engage learners by organizing, allocating, and coordinating the resources of time, space, and learners' attention.

3(j) The teacher uses a variety of methods to engage learners in evaluating the learning environment, collaborating with them to make appropriate adjustments, and employing multiple levels of behavioral interventions.

3(k) The teacher communicates verbally and nonverbally in ways that demonstrate respect for and responsiveness to the cultural backgrounds and differing perspectives learners bring to the learning environment.

3(l) The teacher promotes responsible learner use of interactive technologies to extend the possibilities for learning locally and globally.

3(m) The teacher intentionally builds learner capacity to collaborate in face to face and virtual environments through applying effective interpersonal communication skills.

Disposition

3(n) The teacher is committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments.

3(o) The teacher values the role of learners in promoting each other's learning and recognizes the importance of peer relationships in establishing a climate of learning.

3(p) The teacher is committed to supporting learners as they participate in decision making, engage in exploration and invention, work collaboratively and independently, and engage in purposeful learning.

3(q) The teacher seeks to foster respectful communication and develop rapport among all members of the learning community.

3(r) The teacher is a thoughtful and responsive listener and observer.

Content

Teachers must have a deep and flexible understanding of their content areas and be able to draw upon content knowledge as they work with learners to access information, apply knowledge in real-world settings, and address meaningful issues to assure learner mastery of the content. Today's teachers make content knowledge accessible to learners by using multiple means of

~~communication, including digital media and information technology. They integrate cross-disciplinary skills (e.g., critical thinking, problem solving, creativity, communication) to help learners use content to propose solutions, forge new understandings, solve problems, and imagine possibilities. Finally, teachers make content knowledge relevant to learners by connecting it to local, state, national, and global issues.~~

Standard 4: Content Knowledge. The teacher candidate understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

~~Knowledge~~

~~4(a) The teacher understands major concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the discipline(s) he/she teaches.~~

~~4(b) The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.~~

~~4(c) The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.~~

~~4(d) The teacher knows how to integrate culturally relevant content to build on learners' background knowledge.~~

~~4(e) The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) he/she teaches.~~

~~Performance~~

~~4(f) The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of content standards.~~

~~4(g) The teacher engages students in learning experiences in the discipline(s) that encourage learners to understand, question, and analyze ideas from diverse perspectives so that they master the content.~~

~~4(h) The teacher engages learners in applying methods of inquiry and standards of evidence used in the discipline.~~

~~4(i) The teacher stimulates learner reflection on prior content knowledge, links new concepts to familiar concepts, and makes connections to learners' experiences.~~

~~4(j) The teacher recognizes learner misconceptions in a discipline that interfere with learning, and creates experiences to build accurate conceptual understanding.~~

~~4(k) The teacher evaluates and modifies instructional resources and curriculum materials for their comprehensiveness, accuracy for representing particular concepts in the discipline, and appropriateness for his/her learners.~~

~~4(l) The teacher uses supplementary resources and technologies effectively to ensure accessibility and relevance for all learners.~~

~~4(m) The teacher creates opportunities for students to learn, practice, and master academic language in their content.~~

~~4(n) The teacher accesses school and/or district-based resources to evaluate the learner's content knowledge in their primary language.~~

~~Disposition~~

~~4(o) The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. He/she keeps abreast of new ideas and understandings in the field.~~

~~4(p) The teacher appreciates multiple perspectives within the discipline and facilitates learners' critical analysis of these perspectives.~~

~~4(q) The teacher recognizes the potential of bias in his/her representation of the discipline and seeks to appropriately address problems of bias.~~

~~4(r) The teacher is committed to work toward each learner's mastery of disciplinary content and skills.~~

Standard 5: Application of Content. The teacher candidate understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

DRAFT

~~Knowledge~~

~~5(a) The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches, and the strengths and limitations of each approach in addressing problems, issues, and concerns.~~

~~5(b) The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global mindedness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.~~

~~5(c) The teacher understands the demands of accessing and managing information as well as how to evaluate issues of ethics and quality related to information and its use.~~

~~5(d) The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals.~~

~~5(e) The teacher understands critical thinking processes and knows how to help learners develop high level questioning skills to promote their independent learning.~~

~~5(f) The teacher understands multiple forms of communication as vehicles for learning across disciplines and for expressing learning.~~

~~5(g) The teacher understands creative thinking processes and how to engage learners in producing original work.~~

~~5(h) The teacher knows where and how to access resources to build global mindedness and multiple perspectives and how to integrate them into the curriculum.~~

~~Performance~~

~~5(i) The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills (e.g., a water quality study that draws upon biology and chemistry to look at factual information and social studies to examine policy implications).~~

~~5(j) The teacher engages learners in applying content knowledge to real world problems through the lens of interdisciplinary themes (e.g., financial literacy, environmental literacy).~~

~~5(k) The teacher facilitates learners' use of current tools and resources to maximize content learning in varied contexts.~~

~~5(l) The teacher develops learners' communication skills in disciplinary and interdisciplinary contexts by creating meaningful opportunities to employ a variety of forms of communication that address varied cultures, audiences and purposes.~~

~~5(m) The teacher engages learners in challenging assumptions, generating and evaluating new ideas and novel approaches, seeking inventive solutions to problems, and developing original work.~~

~~5(n) The teacher facilitates learners' ability to develop diverse social and cultural perspectives that expand their understanding of local and global issues and create novel approaches to solving problems.~~

~~5(o) The teacher develops and implements supports for learner literacy development across content areas.~~

~~Disposition~~

~~5(p) The teacher is constantly exploring how to use disciplinary knowledge as a lens to address local and global issues.~~

~~5(q) The teacher values knowledge outside his/her own content area and how such knowledge enhances student learning.~~

~~5(r) The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas.~~

Instructional Practice

~~Effective instructional practice requires that teachers understand and integrate assessment, planning, and instructional strategies in coordinated and engaging ways. Beginning with their end or goal, teachers first identify student learning objectives and content standards and align assessments to those objectives. Teachers understand how to design, implement and interpret results from a range of formative and summative assessments. This knowledge is integrated into instructional practice so that teachers have access to information that can be used to provide immediate feedback to reinforce student learning and to modify instruction. Planning focuses on using a variety of appropriate and targeted instructional strategies to address diverse ways of learning, to incorporate new technologies to maximize and individualize learning, and to allow learners to take charge of their own learning and do it in creative ways.~~

Standard 6: Assessment. The teacher candidate understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

~~Knowledge~~

~~6(a) The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.~~

~~6(b) The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias.~~

~~6(c) The teacher knows how to analyze assessment data to understand patterns and gaps in learning, to guide planning and instruction, and to provide meaningful feedback to all learners.~~

~~6(d) The teacher knows when and how to engage learners in analyzing their own assessment results and in helping to set goals for their own learning.~~

~~6(e) The teacher understands the positive impact of effective descriptive feedback for learners and knows a variety of strategies for communicating this feedback.~~

~~6(f) The teacher knows when and how to evaluate and report learner progress against standards.~~

~~6(g) The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.~~

~~6(h) The teacher understands the ethical responsibilities in selection, administration, and evaluation of student assessment and handling of student assessment data.~~

~~6(i) Performance~~

~~6(j) The teacher balances the use of an effective range of formative and summative assessment strategies to support, verify, and document learning.~~

~~6(k) The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.~~

~~6(l) The teacher works independently and collaboratively to examine test and other performance data to understand each learner's progress and to guide planning.~~

~~6(m) The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work.~~

~~6(n) The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process.~~

~~6(o) The teacher models and structures processes that guide learners in examining their own thinking and learning as well as the performance of others.~~

~~6(p) The teacher effectively uses multiple and appropriate types of assessment data to identify each student's learning needs and to develop differentiated learning experiences.~~

~~6(q) The teacher prepares all learners for the demands of particular assessment formats and makes appropriate accommodations in assessments or testing conditions, especially for learners with disabilities and language learning needs.~~

~~6(r) The teacher continually seeks appropriate ways to employ technology to support assessment practice both to engage learners more fully and to assess and address learner needs.~~

~~6(s) Disposition~~

~~6(t) The teacher is committed to engaging learners actively in assessment processes and to developing each learner's capacity to review and communicate about their own progress and learning.~~

~~6(u) The teacher takes responsibility for aligning instruction and assessment with learning goals.~~

~~6(v) The teacher is committed to providing timely and effective descriptive feedback to learners on their progress.~~

DRAFT

~~6(w) The teacher is committed to using multiple types of assessment processes to support, verify, and document learning.~~

~~6(x) The teacher is committed to making accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.~~

~~6(y) The teacher is committed to the ethical use of various assessments and assessment data to identify learner strengths and needs to promote learner growth.~~

Standard *7*: Planning for Instruction. The teacher candidate plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

~~Knowledge~~

~~7(a) The teacher understands content and content standards and how these are organized in the curriculum.~~

~~7(b) The teacher understands how integrating cross-disciplinary skills in instruction engages learners purposefully in applying content knowledge.~~

~~7(c) The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.~~

~~7(d) The teacher understands the strengths and needs of individual learners and how to plan instruction that is responsive to these strengths and needs.~~

~~7(e) The teacher knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.~~

~~7(f) The teacher knows when and how to adjust plans based on assessment information and learner responses.~~

~~7(g) The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, professional organizations, community organizations, community members).~~

~~Performance~~

~~7(h) The teacher individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners.~~

~~7(i) The teacher plans how to achieve each student's learning goals, choosing appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of learners.~~

~~7(j) The teacher develops appropriate sequencing of learning experiences and provides multiple ways to demonstrate knowledge and skill.~~

~~7(k) The teacher plans for instruction based on formative and summative assessment data, prior learner knowledge, and learner interest.~~

~~7(l) The teacher plans collaboratively with professionals who have specialized expertise (e.g., special educators, related service providers, language learning specialists, librarians, media specialists) to design and jointly deliver as appropriate learning experiences to meet unique learning needs.~~

~~7(m) The teacher evaluates plans in relation to short- and long-range goals and systematically adjusts plans to meet each student's learning needs and enhance learning.~~

~~Disposition~~

~~7(n) The teacher respects learners' diverse strengths and needs and is committed to using this information to plan effective instruction.~~

~~7(o) The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.~~

~~7(p) The teacher is committed to using short- and long-term planning as a means of assuring student learning.~~

~~7(q) The teacher is committed to reflecting on the effectiveness of lessons and seeks to revise plans to meet changing learner needs and circumstances.~~

Standard 8: Instructional Strategies. The teacher candidate understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

DRAFT

~~Knowledge~~

~~8(a) The teacher understands the cognitive processes associated with various types of learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.~~

~~8(b) The teacher knows how to apply an effective range of developmentally, culturally, and linguistically responsive instructional strategies to achieve learning goals.~~

~~8(c) The teacher knows when and how to use effective strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks.~~

~~8(d) The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, visual) convey ideas, foster self-expression, and build connections.~~

~~8(e) The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning.~~

~~8(f) The teacher understands how content and skill development can be supported by media and technology and knows how to evaluate these resources for quality, accuracy, and effectiveness.~~

~~Performance~~

~~8(g) The teacher uses appropriate strategies and resources to adjust instruction to meet the needs of individuals and groups of learners.~~

~~8(h) The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs.~~

~~8(i) The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and/or access family and community resources to develop their areas of interest.~~

~~8(j) The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners.~~

~~8(k) The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances.~~

~~8(l) The teacher engages all learners in developing higher order questioning skills and metacognitive processes.~~

~~8(m) The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.~~

~~8(n) The teacher uses a variety of instructional strategies to support and expand learners' communication through speaking, listening, reading, writing, and other methods of communication.~~

~~8(o) The teacher asks questions to stimulate discussions that serve different purposes.~~

~~**Disposition**~~

~~8(p) The teacher is committed to deepening awareness and understanding of the strengths and needs of diverse learners when designing flexible instruction.~~

~~8(q) The teacher values the variety of ways people communicate and encourages learners to develop and use multiple forms of communication.~~

~~8(r) The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning.~~

~~8(s) The teacher values flexibility and reciprocity in the teaching process as necessary for adjusting instruction to learner responses, ideas, and needs.~~

Professional Responsibility

~~Creating and supporting safe, productive learning environments that result in learners achieving at the highest levels is a teacher's primary responsibility. To do this well, teachers must engage in meaningful and intensive professional learning and self-renewal by regularly examining practice through ongoing study, self-reflection, and collaboration. A cycle of continuous self-improvement is enhanced by leadership, collegial support, and collaboration. Active engagement in professional learning and collaboration results in the discovery and implementation of better practice for the purpose of improved teaching and learning. Teachers also contribute to improving instructional practices that meet learners' needs and accomplish their school's mission and goals. Teachers benefit from and participate in collaboration with learners, families, colleagues, other school professionals, and community members. Teachers demonstrate leadership by modeling ethical behavior, contributing to positive changes in practice, and advancing their profession.~~

Standard 9: Professional Learning and Ethical Practice. The teacher candidate engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

~~Knowledge~~

~~9(a) The teacher understands and knows how to use a variety of self-assessment and problem-solving strategies to analyze and reflect on his/her practice and to plan for adaptations/adjustments.~~

~~9(b) The teacher knows how to use learner data to analyze practice and differentiate instruction accordingly.~~

~~9(c) The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others.~~

~~9(d) The teacher understands laws and responsibilities related to the learner (e.g., educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).~~

9(e) The teacher understands professional responsibilities (e.g., responsibilities to the profession, for professional competence, to students, to the school community, and regarding the ethical use of technology).

Performance

9(f) The teacher engages in ongoing learning opportunities to develop knowledge and skills in order to provide all learners with engaging curriculum and learning experiences based on local and state standards.

9(g) The teacher engages in meaningful and appropriate professional learning experiences aligned with his/her own needs and the needs of the learners, school, and system.

9(h) Independently and in collaboration with colleagues, the teacher uses a variety of data (e.g., systematic observation, information about learners, research) to evaluate the outcomes of teaching and learning and to adapt planning and practice.

9(i) The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving.

9(j) The teacher identifies and reflects on his/her own beliefs and biases and utilizes resources to broaden and deepen his/her own understanding of cultural, ethnic, gender, and learning differences to develop reciprocal relationships and create more relevant learning experiences.

9(k) The teacher advocates, models, and teaches safe, legal, and ethical use of information and technology including appropriate documentation of sources and respect for others in the use of social media.

9(l) The teacher builds and implements an Individualized Professional Learning Plan (IPLP) directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school- and system-wide priorities.

9(m) The teacher engages in respectful inquiry of diverse historical contexts and ways of knowing, and leverages that knowledge to cultivate culturally responsive relationships with learners, families, other professionals, and the community.

Disposition

9(n) The teacher takes responsibility for student learning and uses ongoing analysis and reflection to improve planning and practice.

9(o) The teacher is committed to culturally responsive teaching.

9(p) The teacher sees him/herself as a learner, continuously seeking opportunities to draw upon current education policy and research as sources of analysis and reflection to improve practice.

9(q) The teacher understands the expectations of the profession including codes of ethics, professional standards of practice, and relevant law and policy.

Standard 10: Leadership and Collaboration. The teacher candidate seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

~~**Knowledge**~~

~~10(a) The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.~~

~~10(b) The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence interferes with learning.~~

~~10(c) The teacher knows how to work with other adults and has developed skills in collaborative interaction appropriate for both face-to-face and virtual contexts.~~

~~10(d) The teacher knows how to contribute to a common culture that supports high expectations for student learning.~~

~~10(e) The teacher understands the value of leadership roles at the school, district, state, and/or national level and advocacy for learners, the school, the community, and the profession.~~

~~**Performance**~~

~~10(f) The teacher takes an active role on the instructional team, giving and receiving feedback on practice, examining learner work, analyzing data from multiple sources, and sharing responsibility for decision making and accountability for each student's learning.~~

~~10(g) The teacher works with other school professionals to plan learning experiences that meet the diverse needs of learners.~~

~~10(h) The teacher engages collaboratively in the school wide efforts to build a shared vision and supportive culture.~~

~~10(i) The teacher works collaboratively with learners and their families to establish mutual expectations and ongoing communication to support learner development and achievement.~~

~~10(j) Working with school colleagues, the teacher builds ongoing connections with community resources to enhance student learning and wellbeing.~~

~~10(k) The teacher engages in professional learning, contributes to the knowledge and skill of others, and works collaboratively to advance professional practice.~~

~~10(l) The teacher uses technology and other forms of communication to develop collaborative relationships with learners, families, colleagues, and the local community.~~

~~10(m) The teacher uses and generates meaningful inquiry into education issues and policies.~~

~~10(n) The teacher advocates to meet the needs of learners, to strengthen the learning environment, and to enact change.~~

~~**Disposition**~~

~~10(o) The teacher actively shares responsibility for shaping and supporting the mission of his/her school as one of advocacy for learners and accountability for their success.~~

~~10(p) The teacher is committed to working collaboratively with learners and families in setting and meeting challenging goals, while respecting families' beliefs, norms, and expectations.~~

~~10(q) The teacher takes initiative to grow and develop with colleagues through interactions that enhance practice and support student learning.~~

~~10(r) The teacher takes responsibility for contributing to and advancing the profession.~~

~~10(s) The teacher embraces the challenge of continuous improvement and change.~~

~~10(t)~~

~~The teacher understands the Code of Ethics for Idaho Professional Educators and its place in supporting the integrity of the profession.~~

~~The teacher knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities~~

~~GLOSSARY OF TERMS~~

~~**Culturally Responsive Pedagogy** – Pedagogy that recognizes the importance of including student's cultural references in all aspects of learning. (Ladson-Billings)~~

~~**Global Mindedness** – Exploring new ideas and perspectives, as well as having the humility to learn and willingness to work with people around the globe~~

~~**Learning Environments** – The diverse physical and virtual locations, contexts, and cultures in which students learn.~~

~~**Principles of Universal Design** – A set of principles for curriculum development that give all individuals equal opportunities to learn. (udlcenter.org)~~

~~**Socio-Historical Context** – The social and historic factors which shape learning and learning trajectories over time.~~

State Specific Standards

Standard 11: American Indian Tribes and Tribal Sovereignty*. The teacher candidate knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities and the cultural resources (e.g., language, history, indigenous knowledge) of American Indian students and their communities.

The federal and state governments of Idaho recognize the unique inherent sovereignty of each tribe of Idaho. This tribal sovereignty distinguishes Indigenous peoples as peoples, rather than populations or national minorities.

Standard 12: Code of Ethics for Idaho Professional Educators. The teacher candidate understands the Code of Ethics for Idaho Professional Educators and its place in supporting the integrity of the profession.

Standard 13: Digital Technology and Online Learning. The teacher candidate knows how to use digital technology to create lessons and facilitate instruction and assessment in face-to-face, blended, and online learning environments to engage students and enhance learning.

DRAFT

~~STATE SPECIFIC REQUIREMENTS~~

IDAHO COMPREHENSIVE LITERACY STANDARDS

All teacher candidates are expected to meet ~~the~~ Idaho ~~Core Teacher~~Comprehensive Literacy Standards~~: and the standards specific to their discipline area(s) at the "acceptable" level or above~~

- Standards II, IV, and V apply to all endorsements that can be added to a Standard Instructional Certificate.
- Standards I and III apply only to the following endorsements: All Subjects K-8; Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6; Deaf/Hard of Hearing K-12; Early Childhood Special Education Pre-K-3; Early Literacy K-3; Exceptional Child Generalist K-8, 6-12, and K-12; Literacy K-12; Teacher Leader-Literacy; and Blind and Visually Impaired K-12.

~~. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~Idaho Comprehensive Literacy Standards were revised in Spring 2021 to align with the revised Idaho Comprehensive Literacy Plan adopted by the State Board of Education in December 2020.

~~The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

~~The standards have been grouped into four general categories and represent the inter-relationship between written and oral language, which are key skills for student learning and success. These standards outline the four competencies of effective reading, writing, and communication instruction necessary to meet the Idaho Comprehensive Literacy requirements and Idaho ELA/Literacy Standards.~~

- ~~As needed, adapt instructional materials and approaches to meet the language proficiency needs of English learners and students who struggle to learn to read and write.~~

Standard I: Foundational Literacy Concepts*~~.~~

The teacher candidate demonstrates knowledge of the following foundational concepts~~, including but not limited to:~~of literacy instruction and their typical developmental progression, oral language, emergent literacy, concepts of print, phonological awareness, alphabetic principle,

phonics skills, automatic word recognition, orthographic knowledge, fluency, linguistic development, and English language acquisition~~, and home-to-school literacy partnerships~~. ~~In addition, the~~ The candidate teaches these concepts using ~~demonstrates the ability to apply concepts using research~~evidence-based ~~best~~ practices ~~in lesson planning and literacy~~including systematic, explicit, and multisensory instruction. The teacher candidate understands learners with reading difficulties require code-based explicit, systematic, sequential, and diagnostic instruction with many repetitions.

~~(~~*Applies to the following endorsements: All Subjects K-8~~;~~, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6~~;~~ Deaf/Hard of Hearing K-12~~;~~ Early Childhood Special Education Pre-K-3~~;~~ Early Literacy K-3; Exceptional Child Generalist K-8, 6-12, and K-12~~;~~ Literacy K-12; Teacher Leader-Literacy; and ~~Visual Impairment~~Blind and Visually Impaired K-12~~)~~

~~**Knowledge**~~

~~1(a) The teacher understands the importance of developing oral language, phonological awareness, phonemic awareness, and print concepts.~~

~~1(b) The teacher understands the components of decoding written language, including grade-level phonics and word analysis skills, and their impact on comprehension.~~

~~1(c) The teacher understands the development of fluency (prosody, rate, and accuracy) and its impact on beginning reading comprehension.~~

~~**Performance**~~

~~1(d) The teacher plans instruction that includes foundational literacy skills found in the Idaho Content Standards.~~

~~1(e) The teacher plans instruction to support literacy progression, from emergent to proficient readers, which includes decoding and comprehension skills.~~

~~1(f) The teacher selects and modifies reading instructional strategies and routines to strengthen fluency.~~

Standard II: Fluency, Vocabulary Development and Comprehension~~.~~

~~The teacher demonstrates knowledge of fluency, vocabulary development, and reading comprehension strategies. The teacher demonstrates the ability to apply these components by using research-based best practices in all aspects of literacy and/or content area instruction.~~The teacher candidate understands: the importance of automatic word recognition, reading fluency, reading comprehension, and motivation to read; the impact of vocabulary knowledge in oral and written language comprehension; and factors that contribute to deep listening and reading comprehension. ~~This includes~~The candidate demonstrates the ability to~~:~~ analyze the complexity of text structures~~;~~, utilize a variety of narrative and informational texts from both print and digital sources~~;~~, and make instruction accessible to all, including English ~~Language~~ language ~~Learners~~learners. The teacher candidate demonstrates the ability to apply these components by using evidence-based practices and explicit strategy instruction in all aspects of literacy and/or content area instruction.

*(**Applies to all endorsements that can be added to a Standard Instructional Certificate)*

Knowledge

2(a) The teacher knows the characteristics of the various genres and formats of children's and adolescent literature.

2(b) The teacher recognizes the importance of using a variety of texts and formats to enhance students' understanding of topics, issues, and content.

2(c) The teacher understands text complexity and structures and the importance of matching texts to readers.

2(d) The teacher understands how to use instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.

2(e) The teacher understands how to use instructional strategies to promote vocabulary development for all students, including English language learners.

2(f) The teacher understands how a student's reading proficiency, both oral and silent, affects comprehension.

Performance

2(g) The teacher identifies a variety of high-quality literature and texts within relevant content areas.

2(h) The teacher can develop lesson plans that incorporate a variety of texts and resources to enhance students' understanding of topics, issues, and content.

2(i) The teacher can analyze texts to determine complexity in order to support a range of readers.

2(j) The teacher selects and utilizes instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.

2(k) The teacher selects and utilizes instructional strategies to promote vocabulary development for all students, including English language learners.

2(l) The teacher uses oral and silent reading practices selectively to positively impact comprehension.

Standard III: Literacy Assessment Concepts. *

The teacher candidate understands, interprets, and applies informal and formal formative literacy assessment concepts, strategies, and measures. The candidate knows the basic principles of formal assessment construction and types of assessments including: screening (Idaho Reading Indicator), progress-monitoring, diagnostic, and outcome assessments (Idaho Standards Achievement Test); appropriate uses and administration; and interpretation of results. The candidate understands basic statistical terminology commonly utilized in formal and formative assessment including reliability, validity, criterion, normed, percentile, and percentage. The teacher candidate uses assessment data to inform and design differentiated literacy instruction.

In addition, the teacher candidate demonstrates the ability to use appropriate terminology in communicating pertinent assessment data to a variety of stakeholders.

*~~(~~*Applies to the following endorsements: All Subjects K-8~~;~~, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6~~;~~ Deaf/Hard of Hearing K-12~~;~~ Early Childhood Special Education Pre-K-3~~;~~ ~~and~~ Early Literacy K-3; Exceptional Child Generalist K-8, 6-12, and K-12~~;~~ Literacy K-12; Teacher Leader-Literacy; and ~~Visual Impairment~~Blind and Visually Impaired K-12~~)~~

~~**Knowledge**~~

~~3(a) The teacher understands terms related to literacy assessment, analysis, and statistical measures.~~

~~3(b) The teacher understands types of formal, informal, formative, summative, and diagnostic literacy assessments, their uses, appropriate administration, and interpretation of results across a range of grade levels.~~

~~3(c) The teacher understands how to choose appropriate literacy assessments to determine the needs of the learner.~~

~~3(d) The teacher understands how to use literacy assessment results to inform and guide intervention processes.~~

~~3(e) The teacher knows how to measure and determine students' independent, instructional, and frustration reading levels.~~

~~3(f) The teacher understands Idaho state-specific literacy assessments and related proficiency levels.~~

~~**Performance**~~

~~3(g) The teacher appropriately selects, administers, and interprets results of a variety of formal, informal, formative, summative, and diagnostic literacy assessments.~~

~~3(h) The teacher utilizes literacy assessment results to inform and guide intervention processes.~~

~~3(i) The teacher can measure and determine students' independent, instructional, and frustration reading levels.~~

~~3(j) The teacher utilizes Idaho state-specific literacy assessments and related proficiency levels to inform planning and instruction.~~

Standard IV: Writing Process*~~*~~*~~,~~

The teacher candidate ~~incorporates writing in his/her instructional content area(s)~~understands the benefit of incorporating writing in the content areas. The candidate uses evidence-based practices for teaching developmental spelling and handwriting, written expression, content area writing, and conventions. The ~~teacher~~ candidate understands, models, and ~~instructs~~ provides instruction in the writing process, including ~~but not limited to:~~ pre-~~-~~writing, drafting, revising, editing, and publishing. The ~~teacher~~ candidate knows how to structure~~s~~ frequent, authentic

writing opportunities that encompass a range of tasks, purposes, and audiences. ~~The teacher incorporates ethical research practices using multiple resources.~~ The teacher ~~fosters~~ candidate provides opportunities for written, visual, and oral communication in a variety of formats, including the use of appropriate assistive technology. The candidate understands the components of effective writing, the role of quality rubrics, and how to assess different types of writing in order to provide individualized constructive feedback and support. The teacher candidate incorporates ethical and credible research practices into instruction.

~~(~~*~~*~~*Applies to all endorsements that can be added to a Standard Instructional Certificate~~)~~

~~**Knowledge**~~

~~4(a) The teacher understands writing as a complex communicative process that includes cognitive, social, physical, and developmental components.~~

~~4(b) The teacher understands the purpose and function of each stage of the writing process, including the importance of extensive pre-writing.~~

~~4(c) The teacher has an understanding of the role and range that audience, purpose, formats, features, and genres play in the development of written expression within and across all content areas.~~

~~4(d) The teacher understands how to conduct writing workshops and individual writing conferences to support student growth related to specific content areas.~~

~~4(e) The teacher understands how to assess content area writing, including but not limited to writing types, the role of quality rubrics, processes, conventions, and components of effective writing.~~

~~4(f) The teacher understands the reciprocal relationship between reading, writing, speaking, and listening to support a range of writers, including English language learners.~~

~~4(g) The teacher understands how to help writers develop competency in a variety of writing types: narrative, argument, and informational/explanatory.~~

~~4(h) The teacher understands the impact of motivation and choice on writing production.~~

~~Performance~~

~~4(i) The teacher engages writers in reading, speaking, and listening processes to address cognitive, social, physical, developmental, communicative processes.~~

~~4(j) The teacher utilizes the writing process and strategies to support and scaffold effective written expression within and across content areas and a range of writers.~~

~~4(k) The teacher structures frequent, authentic writing opportunities that encompass a range of tasks, formats, purposes, audiences, and digital technologies.~~

~~4(l) The teacher conducts writing workshops and writing conferences for the purpose of supporting student growth (including peer feedback/response).~~

~~4(m) The teacher assesses components of effective writing in the content areas, including utilizing quality rubrics.~~

~~4(n) The teacher scaffolds instruction for a range of student writers.~~

~~4(o) The teacher helps writers develop competency in a variety of writing types: narrative, argument, and informational/explanatory.~~

~~4(p) The teacher utilizes choice to motivate writing production.~~

Standard V: Diverse Reading & Writing Profiles – Reading & Writing Difficulties**

The teacher candidate understands how reading and writing difficulties vary in presentation and degree. The candidate understands the characteristics of struggling readers and writers, identifies appropriate accommodations, and adapts instruction to meet student needs. The candidate advocates for meeting the needs of struggling readers and writers within the available structure of tiered support. The candidate understands how federal and state laws pertain to learning disabilities, including dyslexia. The teacher candidate understands the (2003) International Dyslexia Association (IDA) definition of dyslexia and recognizes the distinguishing characteristics of dyslexia.

***Applies to all endorsements that can be added to a Standard Instructional Certificate*

DRAFT

~~PRE-SERVICE TECHNOLOGY STANDARDS~~

~~The 2016 Pre-Service Standards Review was conducted by a team of content area experts from across the state of Idaho. The Idaho Pre-Service Technology Standards were revised in January 2016 to align with the Idaho Core Teacher Standards (2013). All teacher candidates are expected to meet the Idaho Core Teacher Standards, including the Idaho Pre-Service Technology Standards. Each candidate shall also meet the Foundation and Enhancement standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The standards review team endeavored to arrive at standards that were comprehensive, research based, support reciprocity, and promote unique local, regional, and statewide implementations within sound and responsible attention to its fundamental outcomes. Special attention was paid to the recognition that technology enriched teaching and learning is a continually and rapidly changing process. It was, therefore, important to determine standards that promote the best preparation of teachers to integrate technologies into instruction that continue to be relevant over time and will best suit any school district in Idaho, regardless of its size, location, or resources. In consideration of these variables as well as careful attention to its correlation to the Idaho Core Teaching Standards, the standards review team recommended that the ISTE (International Society for Technology in Education) Standards for Teachers (2008) be adopted to serve as the Pre-Service Technology Standards.~~

~~The Pre-Service Technology Standards indicate teacher candidates have met the standards and competencies. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the competencies identified in the ISTE Standards for Teachers. These competencies reflect the principles of universal design related to technology, while emphasizing flexibility and accessibility.~~

~~Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate knowledge, skills, and dispositions in which pre-service teachers design, develop, and evaluate technology-based learning experiences and assessments. In addition, teacher candidates must become fully aware of Idaho's technology standards for K-12 students.~~

~~The alignment matrix found on the next page of this standards document and shows the connections between the Idaho Core Teacher Standards and the Pre-Service Technology Standards.~~

~~ISTE STANDARDS FOR TEACHERS~~

~~Effective teachers model and apply the ISTE Standards for Students (Standards•S) as they design, implement, and assess learning experiences to engage students and improve learning; enrich professional practice; and provide positive models for students, colleagues, and the community. All teachers should meet the following standards and performance indicators.~~

1. ~~***Facilitate and inspire student learning and creativity - Teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, creativity, and innovation in both face-to-face and virtual environments.***~~
   a. ~~Promote, support, and model creative and innovative thinking and inventiveness~~
   b. ~~Engage students in exploring real-world issues and solving authentic problems using digital tools and resources~~
   c. ~~Promote student reflection using collaborative tools to reveal and clarify students' conceptual understanding and thinking, planning, and creative processes~~
   d. ~~Model collaborative knowledge construction by engaging in learning with students, colleagues, and others in face-to-face and virtual environments~~
2. ~~***Design and develop digital age learning experiences and assessments-Teachers design, develop, and evaluate authentic learning experiences and assessments incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the Standards•S.***~~
   a. ~~Design or adapt relevant learning experiences that incorporate digital tools and resources to promote student learning and creativity~~
   b. ~~Develop technology-enriched learning environments that enable all students to pursue their individual curiosities and become active participants in setting their own educational goals, managing their own learning, and assessing their own progress~~
   c. ~~Customize and personalize learning activities to address students' diverse learning styles, working strategies, and abilities using digital tools and resources~~
   d. ~~Provide students with multiple and varied formative and summative assessments aligned with content and technology standards, and use resulting data to inform learning and teaching~~
3. ~~***Model digital age work and learning - Teachers exhibit knowledge, skills, and work processes representative of an innovative professional in a global and digital society.***~~
   a. ~~Demonstrate fluency in technology systems and the transfer of current knowledge to new technologies and situations~~
   b. ~~Collaborate with students, peers, parents, and community members using digital tools and resources to support student success and innovation~~
   c. ~~Communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital age media and formats~~

d. Model and facilitate effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources to support research and learning

4. Promote and model digital citizenship and responsibility – Teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices.

a. Advocate, model, and teach safe, legal, and ethical use of digital information and technology, including respect for copyright, intellectual property, and the appropriate documentation of sources

b. Address the diverse needs of all learners by using learner-centered strategies providing equitable access to appropriate digital tools and resources

c. Promote and model digital etiquette and responsible social interactions related to the use of technology and information

d. Develop and model cultural understanding and global awareness by engaging with colleagues and students of other cultures using digital age communication and collaboration tools

5. Engage in professional growth and leadership – Teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community by promoting and demonstrating the effective use of digital tools and resources.

a. Participate in local and global learning communities to explore creative applications of technology to improve student learning

b. Exhibit leadership by demonstrating a vision of technology infusion, participating in shared decision making and community building, and developing the leadership and technology skills of others

c. Evaluate and reflect on current research and professional practice on a regular basis to make effective use of existing and emerging digital tools and resources in support of student learning

d. Contribute to the effectiveness, vitality, and self- renewal of the teaching profession and of their school and community

DRAFT

~~IDAHO STANDARDS FOR MODEL PRESERVICE STUDENT TEACHING EXPERIENCE~~

~~All teacher candidates are expected to meet the Idaho Core Teacher Standards and the Foundation and Enhancement standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The Idaho Standards for Model Preservice Student Teaching Experience are the standards for a robust student teaching experience for teacher candidates. Every teacher preparation program is responsible for ensuring a student teaching experience that meets the standards.~~

~~Standard 1: Mentor Teacher. The mentor teacher is the certified P-12 personnel responsible for day-to-day support of the student teacher in the student teaching experience.~~

- ~~1(a) The mentor teacher is state certified to teach the content for which the candidate is seeking endorsement.~~
- ~~1(b) The mentor teacher has a minimum of three years of experience teaching in the content area(s) for which the student teacher is seeking endorsement.~~
- ~~1(c) The mentor teacher demonstrates effective professional practice and evidence of dispositions of a professional educator, as recommended by the principal.~~
- ~~1(d) The mentor teacher is committed to mentor, co-plan, co-assess, and co-teach with the student teacher.~~
- ~~1(e) The mentor teacher is co-selected, prepared, evaluated, supported, and retained.~~
- ~~1(f) The experienced mentor teacher receives positive candidate and EPP supervisor evaluations.~~

~~Standard 2: Educator Preparation Program (EPP) Supervisor. The EPP supervisor is any individual in the institution responsible for observation/evaluation of the teacher candidate.~~

- ~~2(a) The EPP supervisor has P-12 education certified field experience.~~
- ~~2(b) The EPP supervisor proves proficiency in assessing teacher performance with ongoing rater reliability.~~
- ~~2(c) The experienced EPP supervisor receives positive candidate and school professional evaluations.~~
- ~~2(d) The EPP supervisor demonstrates evidence of dispositions of a professional educator.~~

~~Standard 3: Partnership.~~

- ~~3(a) The P-12 school and EPP partnership supports the cooperating teacher in his/her duties of mentorship.~~
- ~~3(b) The collaboration between P-12 school and EPP supports the conceptual framework of the institution.~~

~~Standard 4: Student Teacher. The student teacher is the candidate in the culminating clinical field experience.~~

- ~~4(a) Passed background check~~
- ~~4(b) Competency in prior field experience~~
- ~~4(c) Passed all required Praxis tests~~
- ~~4(d) Completion of all relevant coursework~~
- ~~4(e) Possesses dispositions of a professional educator~~

~~Standard 5: Student Teaching Experience~~

- ~~5(a) At least three documented, scored observations including pre- and post-conferences by the EPP supervisor, using the approved state teacher evaluation framework~~
- ~~5(b) At least three formative assessments by the mentor teacher~~
- ~~5(c) One common summative assessment based on state teacher evaluation framework~~
- ~~5(d) Performance assessment including influence on P-12 student growth~~
- ~~5(e) Recommended minimum 14 weeks student teaching~~
- ~~5(f) Development of an Individualized Professional Learning Plan (IPLP)~~
- ~~5(g) Demonstration of competence in meeting the *Idaho Standards for Initial Certification of Professional School Personnel*~~
- ~~5(h) Relevant preparatory experience for an Idaho teacher's certificate~~

DRAFT

~~INSTITUTIONAL RECOMMENDATIONS~~

~~All teacher candidates are expected to meet the Idaho Core Teacher Standards and the Foundation and Enhancement standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~Idaho educator preparation programs complete an Institutional Recommendation to the State Department of Education verifying that the candidate has met all the requirements as defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~Standard 1: State Board Approved Program - Educator preparation program had a State Board approved program for initial certification for each area of endorsement indicated on candidate's institutional recommendation.~~

~~Standard 2: Content Knowledge Assessment – Recommended candidate received passing scores on State Board approved content area assessment for each recommended area of endorsement.~~

~~Standards 3: Pedagogy – Recommended candidate demonstrated competency in pedagogy for each recommended area of endorsement.~~

~~Standard 4: Performance Assessment – Recommended candidate received a basic or higher rating in all components of the approved Idaho framework for teaching evaluation.~~

~~Standard 5: Clinical Experience – Recommended candidate completed clinical experience for each recommended area of endorsement and grade range.~~

~~Standard 6: Student Achievement – Recommended candidate demonstrated the ability to produce measurable student achievement or student success and create student learning objectives.~~

~~Standard 7: Individualized Professional Learning Plan – Recommended candidate had an individualized professional learning plan (IPLP).~~

~~Standard 8: Adding Endorsements Only – Educator preparation program issued institutional recommendation once the content, pedagogy, and performance had been demonstrated by the candidate for each area of endorsement. For candidates that are adding endorsements, the program is not required to be a State Board approved program for initial certification.~~

~~Standard 9: Administrator Certificates Only – Recommended candidate for an administrator certificate demonstrated proficiency in conducting accurate evaluations of instructional practice based upon the state's framework for evaluation.~~

DRAFT

IDAHO FOUNDATION STANDARDS FOR BILINGUAL EDUCATION AND ENGLISH AS A SECOND LANGUAGE (ESL) TEACHERS

In addition to the standards listed here, bilingual education and English as a second language (ESL) teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Bilingual Education Teachers or (2) Idaho Standards for English as a Second Language (ESL) Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual and ESL Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands the processes of language acquisition and the stages of development of linguistically diverse students

1(b) The teacher understands the concepts of bilingualism and biliteracy in regards to language development and how a student's first language may influence second language development.

Performance

1(c) The teacher plans, integrates, and delivers language and content instruction appropriate to the students' stages of language development.

1(d) The teacher facilitates students' use of their first language as a resource to promote academic learning and further development of the second language.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The teacher understands differences in culture for planning, integrating, and delivering inclusive learning experiences.

2(b) The teacher understands there are unique considerations and strategies for appropriately identifying culturally and linguistically diverse students with exceptionalities (learning disabilities/giftedness).

2(c) The teacher understands the importance of providing appropriate accommodations that allow students to access academic content based on their current level of language proficiency.

2(d) The teacher understands there are unique considerations for specific language learner groups (e.g. immigrants, refugees, migrant, students with interrupted formal education).

Performance

2(e) The teacher identifies ways to promote respect and advocate for diverse linguistic communities.

2(f) The teacher demonstrates the ability to collaborate with other area specialists to appropriately identify culturally and linguistically diverse students with exceptionalities.

2(g) The teacher demonstrates the ability to provide appropriate accommodations that allow students to access academic content based on their current level of language proficiency.

2(h) The teacher identifies and describes characteristics of major language and cultural groups in Idaho.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Knowledge

3(a) The teacher understands that language is socially constructed and the importance of individual and collaborative learning.

3(b) The teacher understands the importance of creating a safe, culturally responsive learning environment that promotes engagement and motivation.

Performance

3(c) The teacher demonstrates the ability to create a culturally responsive classroom environment.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands the evolution, research, and current federal and state legal mandates of education for linguistically diverse learners.

4(b) The teacher understands various language instruction educational program models.

4(c) The teacher understands that language is a system (including linguistic and socio-linguistic) and is able to distinguish between forms, functions, and contextual usage of social and academic language.

Performance

4(d) The teacher establishes goals, designs curricula and instruction, and facilitates student learning in a manner that builds on students' linguistic and cultural diversity.

4(e) The teacher evaluates various language instruction program models and makes possible recommendations for improvement.

4(f) The teacher analyzes language demands for instruction.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher understands that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.

Performance

5(b) The teacher develops active and interactive activities that promote proficiency in the four domains of language.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher understands variations in assessment of student progress that may be related to cultural and linguistic differences.

6(b) The teacher understands how to measure English language proficiency and is familiar with the state English language proficiency assessment.

6(c) The teacher understands the difference between levels of language proficiency and how it can affect a students' academic achievement through various assessments.

6(d) The teacher knows how to interpret data and explain the results of standardized assessments to students who are English learners, the students' families, and to colleagues.

6(e) The teacher understands appropriate accommodations for language learners being tested in the content areas.

6(f) The teacher understands how to use data to make informed decisions about program effectiveness.

Performance

6(g) The teacher demonstrates the ability to use a combination of observation and other assessments to make decisions about appropriate program services for language learners.

6(h) The teacher demonstrates the ability to use a combination of assessments that measure language proficiency and content knowledge respectively to determine how level of language proficiency may affect the demonstration of academic performance.

6(i) The teacher demonstrates the ability to identify and utilize appropriate accommodations for language learners being tested in the content areas.

6(j) The teacher demonstrates the ability to use English language proficiency data (formative, summative, etc.), in conjunction with other student achievement data, to evaluate language instruction program effectiveness.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher understands how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

Performance

7(b) The teacher creates and delivers lessons that incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.

8(b) The teacher understands research and evidence based strategies that promote students' critical thinking and problem solving at all stages of language development.

Performance

8(c) The teacher selects, adapts, creates and uses various culturally and linguistically appropriate resources related to content areas and second language development.

8(d) The teacher has a repertoire of research and evidence based strategies that promote students' critical thinking and problem solving at all stages of language development.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher understands the importance of staying current on research related to language learning.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher understands the benefits of family and community involvement in students' linguistic, academic, and social development.

10(b) The teacher understands the necessity of collegiality, collaboration, and leadership to promote opportunities for language learners.

Performance

10(c) The teacher identifies ways in which to create family and community partnerships that promote students' linguistic, academic, and social development.

10(d) The teacher identifies ways in which to collaborate with colleagues to promote opportunities for language learners.

10(e) The teacher identifies ways in which to assist other educators and students in promoting cultural respect and validation of students' and families' diverse backgrounds and experiences.

~~GLOSSARY OF TERMS~~

~~**Bilingual Education Program –** An educational approach that uses two languages to promote academic success, bilingualism, biliteracy, and multiculturalism~~

~~**Biliteracy** – The ability to read and write in two languages~~

~~**English as a Second Language (ESL)** – The teaching/studying of English by nonnative English speakers ESL is an educational approach in which English language learners are instructed in the use of English as an additional language. ESL refers to an additive language to either bilingual or multilingual speakers of other languages.~~

~~**First Language** – A person's native language and/or language spoken most fluently – also known as: L1, primary language, home language, native language, heritage language~~

~~**Second Language** – Any language that one speaks other than one's first language – also known as L2, target language, additive language~~

DRAFT

IDAHO STANDARDS FOR BILINGUAL EDUCATION TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, bilingual educations teachers must meet Idaho Foundation Standards for Bilingual Education and English as a Second Language (ESL) Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The bilingual education teacher understands the stages of development for learners of two languages and the impacts on their language and development.

Performance

1(b) The bilingual education teacher uses evidence-based strategies and approaches that promote bilingualism and biliteracy for language development.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The bilingual education teacher has communicative competence and academic language proficiency in the first language and in the second language.

4(b) The bilingual education teacher understands the linguistic features of both the first language and the second language.

4(c) The bilingual education teacher has knowledge of the cultures of the first language and the second language.

4(d) The bilingual education teacher understands the methodology of teaching biliteracy.

Performance

4(e) The bilingual education teacher demonstrates proficiency in key linguistic structures and the ability to expose students to the linguistic features of the first and second language, such as various registers, dialects, and idioms.

4(f) The bilingual education teacher demonstrates the ability to address the cultures of the first and the second language in an instructional cycle.

4(g) The bilingual education teacher demonstrates the ability to plan literacy instruction for students in a bilingual program.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The bilingual education teacher understands how to measure students' level of proficiency in the first language and in the second language.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

DRAFT

IDAHO STANDARDS FOR BLENDED EARLY CHILDHOOD EDUCATION/EARLY CHILDHOOD SPECIAL EDUCATION TEACHERS

These standards apply in addition to Idaho Core Teaching Standards.

Standard 1: Child Development. The teacher candidate understands the development period of early childhood from birth through age 8, both typical and atypical, across all domains of development, including consideration for children who are medically fragile, special health care needs, or have experienced trauma.

Standard 2: Embedding Instructional Strategies. The teacher candidate selects, adapts modifies and uses a repertoire of evidence-based instructional strategies, including universal design for learning and intentional and explicit instruction to embed learning objectives into child initiated, planned, and routine activities in natural and inclusive settings

Standard 3: Functional Skills. The teacher candidate understands functional and communication skills that facilitate the child's growing independence and have the ability to differentiate and scaffold supports for acquisition, fluency, maintenance, and generalization.

Standard 4: Integrated and Meaningful Learning. The teacher candidate utilizes a foundation of exploration, inquiry, and play to plan learning opportunities that integrate the domains of development and traditional content areas connected to meaningful every day early childhood experiences.

Standard 5: Authentic Assessment. The teacher candidate, in collaboration with the child's family, use a variety of methods, including authentic and routine-based assessments, to conduct screening, pre-referral interventions, referral, and eligibility determination to guide educational decisions. The teacher candidate reports assessment results so that they are understandable and useful to families.

Standard 6: Laws, Rules, and Regulations. The teacher candidate develops individualized family service plans, early childhood/K-3 individualized education plans, transition plans, early childhood outcomes, and behavior plans in accordance with applicable standards, laws, rules, regulations, and procedural safeguards.

Standard 7: Assistive Technology. The teacher candidate designs strategies to facilitate optimal access to low- and high technology tools and assistive technologies across learning environments to promote active and equitable participation in learning activities.

Standard 8: Coaching and Consultation. The teacher candidate uses coaching or consultation strategies with primary caregivers, paraeducators, or other adults to facilitate positive adult-child interactions and instruction intentionally designed to promote child learning and development.

Standard 9: Family Partnership. The teacher candidate~~s~~ understands the impact of family systems and culture on children's development and intentionally partner with families throughout the process of assessment, goal development, intervention, and ongoing evaluation. Families' concerns, priorities, and resources are integrated into individualized plans.

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Blended Early Childhood/Early Childhood Special Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of development and learning of young children are integrally linked and different from those of older children and adults. Thus, programs serving young children should be structured to support those unique developmental and learning characteristics. The early childhood educator will extend, adapt, and apply knowledge gained in the professional education core for the benefit of children from birth through grade three.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The early childhood educator knows that family systems are inextricably tied to child development.

1(b) The early childhood educator understands the typical and atypical development from conception to age eight (8).

1(c) The early childhood educator understands how learning occurs and that children's development influences learning and instructional decisions.

1(d) The early childhood educator understands the developmental consequences of toxic (strong, frequent, and/or prolonged) stress, trauma, protective factors and resilience, and the consequences on the child's mental health.

1(e) The early childhood educator understands the importance of supportive relationships on the child's learning, emotional, and social development.

1(f) The early childhood educator understands the role of adult-child relationships in learning and development.

Performance

1(g) The early childhood educator identifies pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children's development and learning.

1(h) The early childhood educator establishes and maintains positive interactions and relationships with the child.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The early childhood educator understands the continuum of medical care for premature development, low birth weight, children who are medically fragile, and children with special health care needs, and knows the concerns and priorities associated with these medical conditions as well as their implications on child development and family resources.

2(b) The early childhood educator knows the characteristics of typical and atypical development and their educational implications and effects on participation in educational and community environments.

2(c) The early childhood educator knows how to access information regarding specific children's needs and disability-related issues (e.g., medical, support, service delivery).

2(d) The early childhood educator knows about and understands the purpose of assistive technology in facilitating individual children's learning differences, and to provide access to an inclusive learning environment.

Performance

2(e) The early childhood educator locates, uses, and shares information about the methods for the care of children who are medically fragile and children with special health care needs, including the effects of technology and various medications on the educational, cognitive, physical, social, and emotional behavior of children with disabilities.

2(f) The early childhood educator adapts learning, language, and communication strategies for the developmental age and stage of the child, and as appropriate identifies and uses assistive technology.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

DRAFT

Knowledge

3(a) The early childhood educator knows that physically and psychologically safe and healthy learning environments promote security, trust, attachment, and mastery motivation in children.

3(b) The early childhood educator understands applicable laws, rules, and regulations regarding behavior management planning and plan implementation for children with disabilities.

3(c) The early childhood educator understands principles of guidance (co-regulation, self-monitoring, and emotional regulation), applied behavioral analysis and ethical considerations inherent in behavior management.

3(d) The early childhood educator understands crisis prevention and intervention practices relative to the setting, age, and developmental stage of the child.

3(e) The early childhood educator knows a variety of strategies and environmental designs that facilitate a positive social and behavioral climate.

Performance

3(f) The early childhood educator embeds learning objectives within everyday routines and activities in natural and inclusive settings.

3(g) The early childhood educator creates an accessible learning environment, including the use of assistive technology.

3(h) The early childhood educator creates a positive, predictable, and safe environment that encourages social-emotional development, self-advocacy and increased independence.

3(i) The early childhood educator designs environments to support inquiry and exploration.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The early childhood educator understands theories, history, and models that provide the basis for early childhood education and early childhood special education practices.

4(b) The early childhood educator aligns curriculum with Idaho's Early Learning eGuidelines and individual children's needs, along with the Idaho Content Standards and other early learning standards. The early learning childhood educator also understands and is current in academic domains, including English language arts, science, mathematics, social studies, the arts, health, safety, nutrition, physical education and other disciplines applicable to their certification.

4(c) The early childhood educator understands speech and language acquisition processes in order to support emergent literacy, including pre-linguistic communication and language development.

4(d) The early childhood educator understands concepts of language arts/literacy and child development in order to teach reading, writing, speaking/listening, language, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.

4(e) The early childhood educator understands nutrition and feeding relationships so children develop essential and healthy eating habits.

4(f) The early childhood educator understands that children are constructing a sense of self, expressing wants and needs, and understanding social interactions that enable them to be involved in friendships, cooperation, effective conflict resolutions, and develop self-regulation skills.

4(g) The early childhood educator understands the acquisition of self-help skills that facilitate the child's growing independence (e.g., toileting, dressing, grooming, hygiene, eating, sleeping).

Performance

4(h) The early childhood educator demonstrates the application of theories and educational models in early childhood education and special education practices.

4(i) The early childhood educator applies developmentally appropriate practices and uses a variety of strategies and supports to individualize meaningful and challenging learning experiences for children with diverse needs across domains of development and content areas of learning.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The early childhood educator understands the essential functions of play and the role of play in the holistic growth and development of children birth through age 8.

5(b) The early childhood educator knows how children integrate domains of development (language, cognition, social and emotional, physical, and self-help) as well as traditional content areas of learning (e.g., literacy, mathematics, science, health, safety, nutrition, social studies, art, music, drama, movement) and how to weave those themes into meaningful learning experiences.

Performance

5(c) The early childhood educator utilizes a play based curriculum to facilitate the holistic development of all children and fosters the emergence of literacy, numeracy, and cognition.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The early childhood educator knows that developmentally appropriate assessment procedures reflect children's behavior over time and rely on regular and periodic observations and record keeping of children's everyday activities and performance.

6(b) The early childhood educator knows the instruments and procedures used to assess children for screening, pre-referral interventions, referral, and eligibility determination for special education services or early intervention services for birth to three years.

6(c) The early childhood educator knows the ethical issues and identification procedures for children with disabilities, including children from culturally and linguistically diverse backgrounds.

Performance

6(d) The early childhood educator assesses all developmental domains (e.g., social and emotional, fine and gross motor, cognition, communication, self-help).

6(e) The early childhood educator ensures the participation and procedural safeguard rights of the parent/child when determining eligibility, planning, and implementing services.

6(f) The early childhood educator collaborates with families and professionals involved in the assessment process of children.

6(g) The early childhood educator conducts an ecological assessment and uses the information to modify various settings as needed and to integrate the children into those setting.

6(h) The early childhood educator uses a diverse array of assessment strategies to assess children depending on the purpose of assessment (e.g., observation, checklists, norm-referenced, teacher-created assessment, functional assessments).

6(i) The early childhood educator regularly monitors the progress of birth to age 8 children and makes instructional adjustments based on assessment data.

6(j) The early childhood educator demonstrates culturally or linguistically diverse assessment practices and procedures used to determine eligibility of a student.

6(k) The early childhood educator conducts functional behavior assessments to understand behavior in the context within which it occurs.

6(l) The early childhood educator evaluates children's skill development in relation to developmental norms and state-adopted standards.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum,

~~***cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***~~

~~**Knowledge**~~

~~7(a) The early childhood educator designs instruction that reflects currently recommended professional practice and provides opportunities for children (from birth through age 2, ages 3-5, and grades K-3) and families to learn through inquiry and exploration.~~

~~**Performance**~~

~~7(b) The early childhood educator designs meaningful child-initiated inquiry and integrated learning opportunities that are scaffolded for the developmental needs of all children.~~

~~7(c) The early childhood educator assists families in identifying their resources, priorities, and concerns in relation to their children's development and provides information about a range of family-centered services based on identified resources, priorities, and concerns through the use of the Individualized Family Service Plans (IFSP) and Individualized Education Programs (IEP).~~

~~7(d) The early childhood educator uses functional behavior assessment to develop a comprehensive, function-based behavior support plan that includes strategies for prevention and replacement of challenging behavior.~~

~~7(e) The early childhood educator facilitates transitions for children and their families (e.g., hospital, home, Infant/Toddler programs, Head Start, Early Head Start, childcare programs, preschool, primary programs).~~

~~***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***~~

~~**Knowledge**~~

~~8(a) The early childhood educator knows the characteristics of physical environments that must vary to support the learning of children from birth through age 2, ages 3-5, and grades K-3 (e.g., schedule, routines, transitions).~~

~~8(b) The early childhood educator understands the breadth and application of low and high assistive technology to support instructional assessment, planning, and delivery of instruction.~~

~~**Performance**~~

~~8(c) The early childhood educator uses developmentally appropriate methods to help children develop intellectual curiosity, solve problems, and make decisions (e.g., child choice, play, small group projects, open ended questioning, group discussion, problem solving, cooperative learning, inquiry and reflection experiences).~~

8(d) The early childhood educator uses evidence-based instructional strategies (e.g., child choice, play, differentiation, direct instruction, scaffolding) that support both child-initiated and adult-directed activities.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The early childhood educator understands the National Association for the Education of Young Children (NAEYC) Standards for Early Childhood Professional Preparation and the Council for Exceptional Children /Division for Early Childhood (CEC/DEC) Initial Preparation Standards.

9(b) The early childhood educator understands the code of ethics of the NAEYC, CEC/DEC, and the Idaho Code of Ethics for Professional Educators.

Performance

9(c) The early childhood educator practices behavior congruent with the NAEYC Standards for Early Childhood Professional Preparation, CEC/DEC Initial Preparation Standards, and the Idaho Code of Ethics for Professional Educators.

9(d) The early childhood educator creates a manageable system to maintain all program and legal records for children.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The early childhood educator knows family systems and its application to the dynamics, roles, and relationships within families and communities.

10(b) The early childhood educator knows community, state, and national resources available for children and their families.

10(c) The early childhood educator understands the role and function of the service coordinator and related service professionals in assisting families of children.

10(d) The early childhood educator knows basic principles of administration, organization, and operation of early childhood programs (e.g., supervision of staff and volunteers, and program evaluation).

10(e) The early childhood educator knows the rights and responsibilities of parents, students, teachers, professionals, and programs as they relate to children with disabilities.

10(f) The early childhood educator understands how to effectively communicate and collaborate with children, parents, colleagues, and the community in a professional and culturally sensitive manner.

Performance

10(g) The early childhood educator demonstrates skills in communicating, consulting and partnering with families and diverse service delivery providers (e.g., home services, childcare programs, school, community) to support the child's development and learning.

10(h) The early childhood educator identifies and accesses community, state, and national resources for children and families.

10(i) The early childhood educator advocates for children and their families.

10(j) The early childhood educator encourages and assists families to become active participants in the educational team, including setting instructional goals for and charting progress of children.

10(k) The early childhood educator demonstrates respect, honesty, caring, and responsibility in order to promote and nurture an environment that fosters these qualities.

10(l) The early childhood educator provides training and supervision for the classroom paraprofessional, aide, volunteer, and peer tutor.

DRAFT

IDAHO FOUNDATION STANDARDS FOR CAREER-TECHNICAL TEACHERS

In addition to the standards listed here, career-technical teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Agricultural Science and Technology Teachers, (2) Idaho Standards for Business Technology Teachers, (3) Idaho Standards for Family and Consumer Sciences Teachers, (4) Idaho Standards for Marketing Technology Teachers, or (5) Idaho Standards for Technology Education Teachers. Occupationally certified teachers must meet these foundation standards for career technical teachers. Additionally, all teacher candidates are expected to meet the requirements defined in IDAPA (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the professional-technical teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Performance

3(a) The teacher is able to apply concepts of classroom motivation and management to laboratory and field settings.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands basic technological principles, processes, terminology, skills, and safety practices of the occupational area.

4(b) The teacher understands industry trends and labor market needs.

4(c) The teacher understands organizational and leadership structures in the workplace.

4(d) The teacher understands the philosophical principles and the practices of career-technical education.

4(e) The teacher understands the importance of intra-curricular student leadership development in career technical program areas.

Performance

4(f) The teacher demonstrates specific occupational skills necessary for employment.

4(g) The teacher uses current terminology, industry logistics, and procedures for the occupational area.

4(h) The teacher incorporates and promotes leadership skills in state-approved Career-Technical Student Organizations (CTSO).

4(i) The teacher assesses the occupational needs of the community.

4(j) The teacher facilitates experiences designed to develop skills for successful employment.

4(k) The teacher informs students about opportunities to develop employment skills (e.g., work-study programs, internships, volunteer work, employment opportunities).

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher knows how to analyze data about a student's progress, including assessments, to evaluate workplace readiness.

6(b) The teacher understands the importance of conducting a follow-up survey of graduates.

6(c) The teacher understands how to modify the instruction based on student progress, changing industry standards, state-approved program assessments, and/or other relevant assessment data.

6(d) The teacher understands how to assess student learning in applicable laboratory settings.

Performance

6(e) The teacher analyzes data about a student's progress, including assessments, to evaluate workplace readiness.

6(f) The teacher provides verbal and written assessment feedback on students' classroom and/or laboratory assignments.

6(g) The teacher modifies instruction based on student progress, changing industry standards, state-approved program assessments, and/or other relevant assessment data.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher understands state-approved career-technical secondary-to-postsecondary standards and competencies, and how these are organized in the curriculum.

7(b) The teacher understands how to embed state-approved career-technical student organization (CTSO) activities in the curriculum.

7(c) The teacher knows how to identify community and industry expectations and access resources.

Performance

7(d) The teacher designs instruction to meet state-approved career-technical secondary-to-postsecondary curricula and industry standards.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands how to provide students with realistic occupational and/or work experiences.

8(b) The teacher knows how to utilize education and industry professionals, and research to enhance student understanding of processes, knowledge, and safety.

8(c) The teacher understands integration of student leadership development, community involvement, and personal growth into instructional strategies.

8(d) The teacher understands how academic skills and advanced technology can be integrated into an occupational learning environment.

Performance

8(e) The teacher models ethical workplace practices.

8(f) The teacher discusses state guidelines to aid students in understanding the trends and issues of an occupation.

8(g) The teacher integrates academic skills into each occupational area.

8(h) The teacher uses simulated and/or authentic occupational applications of course content.

8(i) The teacher uses experts from business, industry, and government as appropriate for the content area.

8(j) The teacher discusses innovation and entrepreneurship in the workforce and incorporates them where possible.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher understands how sustained professionalism reflects on him or her as an educator and as a representative of his or her industry.

9(b) The teacher understands the importance of maintaining current technical skills and seeking continual improvement.

9(c) The teacher understands current state and federal guidelines and regulations related to career technical education requirements.

Performance

9(d) The teacher evaluates and reflects on his or her own level of professionalism as an educator and as a representative of his or her industry.

9(e) The teacher participates in continual relevant professional development activities through involvement with local, state, and national career and technical organizations.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher understands the role technical advisory committees play in continuous program improvement.

10(b) The teacher understands the importance of using industry experts to develop and validate occupational skills.

10(c) The teacher understands the importance of professional organizations within the content and occupational areas.

10(d) The teacher understands career-technical education advanced opportunities.

10(e) The teacher understands the local, state, and national opportunities of state-approved career-technical student organizations (CTSO).

Performance

10(f) The teacher participates with technical advisory committees for program development and improvement.

10(g) The teacher cooperates with educators in other content areas to develop instructional strategies and to integrate learning.

10(h) The teacher interacts with business, industry, labor, government, and the community to build effective partnerships.

Standard 11: Safety - The teacher creates and manages classroom/laboratories that are clean, orderly, safe, and accessible to all students.

Knowledge

11(a) The teacher understands how to safely handle and dispose of waste materials.

11(b) The teacher understands how to care for, inventory, and maintain materials and equipment.

11(c) The teacher understands safety contracts and operation procedures.

11(d) The teacher understands legal safety issues related to the program area.

11(e) The teacher understands safety requirements necessary to conduct laboratory and field activities.

11(f) The teacher understands time and organizational skills in laboratory management.

11(g) The teacher is aware of safety regulations at school and work sites.

Performance

11(h) The teacher ensures that facilities, materials, and equipment are safe to use.

11(i) The teacher instructs and models safety procedures and documents safety instruction, and updates each according to industry standards.

11(j) The teacher demonstrates effective management skills in the classroom and laboratory environments.

11(k) The teacher models and reinforces effective work and safety habits.

Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.

Knowledge

12(a) The teacher understands workplace employability skills and related issues.

12(b) The teacher understands the issues of balancing work and personal responsibilities.

~~12(c) The teacher understands how to promote career awareness.~~

~~**Performance**~~

~~12(d) The teacher designs instruction that addresses employability skills and related workplace issues.~~

~~12(e) The teacher discusses how to balance demands between work and personal responsibilities.~~

~~12(f) The teacher provides opportunities for career awareness and exploration.~~

DRAFT

~~IDAHO STANDARDS FOR AGRICULTURAL SCIENCE AND TECHNOLOGY TEACHERS~~

~~In addition to the standards listed here, agricultural science and technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Career Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The following knowledge and performance statements for the agricultural science and technology teacher standards are widely recognized, but not all encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

~~Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.~~

~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.~~

~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Knowledge~~

~~4(a) The teacher understands biological, physical, and applied sciences relative to practical solutions for the agricultural industry.~~

~~4(b) The teacher knows about production agriculture.~~

~~4(c) The teacher knows plant and animal science, agricultural business management, and agricultural mechanics, as well as computer and other technology related to these areas.~~

4(d) The teacher understands and has experience in one or more of the following specialized occupational areas:

- Agricultural production and marketing
- Agricultural equipment and supplies
- Agriculture product processing
- Ornamental horticulture and turf grass management (e.g., floriculture, greenhouse management)
- Agricultural business planning and analysis
- Natural resource management
- Environmental science
- Forestry
- Small animal production and care

4(e) The teacher understands how to advise, oversee and operate a local FFA chapter and how it relates to the Idaho State and National FFA organizations.

4(f) The teacher understands how to organize and implement Supervised Agricultural Experience (SAE) programs including but not limited to working with parents, students, adults, and employers.

4(g) The teacher is familiar with the administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, SAE).

Performance

4(h) The teacher applies natural and physical science principles to practical solutions.

4(i) The teacher discusses production agriculture.

4(j) The teacher discusses and demonstrates content and best practices of plant and animal science; agricultural business management; and agricultural mechanics; and integrates computer and other technology related to these areas.

4(k) The teacher advises, oversees and operates a local FFA chapter in relationship to the Idaho State and National FFA organizations.

4(l) The teacher organizes and implements SAE programs including but not limited to working with parents, students, adults and employers.

4(m) The teacher observes administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, SAE).

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Performance

6(a) The teacher can develop and utilize performance based assessments to evaluate student projects.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher understands the integrated programmatic approach of incorporating classroom and laboratory, FFA, and SAE.

Performance

7(b) The teacher actively incorporates components of FFA and SAE into instruction.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands that experiential learning theory is the foundation for classroom/laboratory instruction, SAE, and FFA leadership development.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher understands the role of industry experts in agricultural education settings for the purpose of formal training.

10(b) The teacher understands the role of adult volunteers in secondary agricultural education and FFA programs.

Standard 11: Safety - The teacher creates and manages classroom/laboratories that are clean, orderly, safe, and accessible to all students.

~~***Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.***~~

DRAFT

IDAHO STANDARDS FOR BUSINESS TECHNOLOGY TEACHERS

In addition to the standards listed here, business technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the business technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

IDAHO STANDARDS FOR FAMILY AND CONSUMER SCIENCES TEACHERS

In addition to the standards listed here, family and consumer sciences teachers must meet the Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the family and consumer sciences teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands the significance of family and its impact on the well-being of children, adults, and society and the multiple life roles and responsibilities in family, career, and community settings.

4(b) The teacher knows of community agencies and organizations that provide assistance to individuals and families.

4(c) The teacher understands how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.

~~4(d) The teacher understands the roles and responsibilities of parenting and factors that affect human growth and development across the life span.~~

~~4(e) The teacher understands the social, emotional, intellectual, physical, and moral development across the lifespan.~~

~~4(f) The teacher understands the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, cultural and economic needs of individuals, families, and industry; along with practices to encourage wellness for life.~~

~~4(g) The teacher understands the design, selection, and care of textiles and apparel products.~~

~~4(h) The teacher understands housing, design, furnishings, technology, and equipment needs for individuals, families, and industry.~~

~~4(i) The teacher understands consumer economic issues and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.~~

~~4(j) The teacher understands resource conservation and environmental issues in relation to family and community health.~~

~~4(k) The teacher understands the nature of the profession and knows of careers related to family and consumer sciences.~~

~~4(l) The teacher understands how social media can influence communication and outcomes between individuals, family members, and community connections.~~

~~4(m) The teacher understands how to incorporate Family, Career and Community Leaders of America (FCCLA) as intra-curricular learning experiences.~~

~~4(n) The teacher maintains an awareness of the nature of the profession and knows of careers related to family and consumer sciences.~~

~~Performance~~

~~4(o) The teacher integrates Family, Career and Community Leaders of America, FCCLA into family and consumer sciences instruction.~~

~~4(p) The teacher validates the significance of family and its impact on the well-being of children, adults, individuals and society and the multiple life roles and responsibilities in family, work career, and community settings.~~

~~4(q) The teacher promotes the roles and responsibilities of parenting and factors that affect human growth and development across the life span.~~

~~4(r) The teacher incorporates the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, and cultural and economic needs of individuals, and families, and industry; along with practices to encourage wellness for life.~~

4(s) The teacher demonstrates the design, selection, and care of textiles and apparel products.

4(t) The teacher demonstrates housing, design, furnishings, technology, and equipment needs for individuals, and families, and industry.

4(u) The teacher integrates consumer economic issues about and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.

4(v) The teacher integrates resource conservation and environmental issues in relation to family and community health.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher understands formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Performance

6(b) The teacher uses and interprets formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher understands how to apply family and consumer sciences national standards and other resources when planning instruction.

7(b) The teacher understands how program alignment across grade levels (6-12) and family and consumer sciences content area maximizes learning.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

~~***Standard 11: Safety - The teacher creates and manages classroom/ laboratories that are clean, orderly, safe, and accessible to all students.***~~

~~***Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.***~~

IDAHO STANDARDS FOR MARKETING TECHNOLOGY TEACHERS

In addition to the standards listed here, marketing technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the marketing technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

3(a) The teacher understands how classroom environment ties to industry to create a real-world working environment in the classroom/laboratory setting.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher possesses a foundational level of knowledge about a broad range of marketing and marketing technology subjects, which support current state-approved teacher endorsement standards.

4(b) The teacher understands how to advise, oversee, and facilitate a DECA chapter and how it relates to the Idaho and National DECA organizations.

Performance

4(c) The teacher embeds DECA activities and curriculum through an intra-curricular approach within the marketing program of study.

4(d) The teacher integrates academic concepts into marketing and marketing technology content areas.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Standard 11: Safety - The teacher creates and manages classroom/ laboratories that are clean, orderly, safe, and accessible to all students.

Standard 12: Career Readiness – The teacher prepares students to meet the demands and responsibilities of the workplace.

IDAHO STANDARDS FOR TECHNOLOGY EDUCATION TEACHERS

In addition to the standards listed here, technology education teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Career-Technical Teachers.

The following knowledge and performance statements for the technology education teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher has a basic understanding of communication technology; manufacturing; power, energy, and transportation; construction; electronics; computer systems; and other relevant emerging technologies.

4(b) The teacher understands the operation and features of computer-aided design and automated manufacturing systems.

4(c) The teacher understands the principles and concepts of engineering design, technology and the associated mathematics and science concepts.

4(d) The teacher knows the classical and contemporary elements, principles, and processes of structural systems.

4(e) The teacher understands industry logistics, technical terminologies and procedures for the technology occupational area.

4(f) The teacher understands the importance of team dynamics and the project management process when working in the technology occupational areas.

Performance

4(g) The teacher demonstrates the skills that support the fields of communication technology; manufacturing; power, energy, and transportation; construction; electronics; computer technology and other relevant emerging technologies.

4(h) The teacher demonstrates how to install, maintain, and troubleshoot computers and peripheral equipment, and other related technology applications.

4(i) The teacher demonstrates architectural and mechanical drafting skills.

4(j) The teacher demonstrates the various phases of an engineering design process.

4(k) The teacher creates opportunities for students to work collaboratively in teams and practice the project management processes related to the technology occupational areas.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Standard 11: Safety - The teacher creates and manages classroom/ laboratories that are clean, orderly, safe, and accessible to all students.

~~***Standard 12: Career Readiness - The teacher prepares students to meet the demands and responsibilities of the workplace.***~~

DRAFT

IDAHO FOUNDATION STANDARDS FOR COMMUNICATION ARTS TEACHERS

In addition to the standards listed here, communication arts teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Journalism Teachers or (2) Idaho Standards for Speech and Debate Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Communication Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands how values and ethics affect communication.

4(b) The teacher understands the importance of audience analysis and adaptation in differing communication contexts.

4(c) The teacher knows the components and processes of communication.

4(d) The teacher understands the interactive roles of perceptions and meaning.

4(e) The teacher understands how symbolism and language affect communication.

4(f) The teacher understands the role of organization in presenting concepts, ideas, and arguments.

4(g) The teacher knows methods and steps of problem solving in communication arts.

4(h) The teacher understands the impact of outside social structures and institutions – including historical, political, social, economic, and cultural perspectives on communication processes and messages.

Performance

4(i) The teacher emphasizes to students the importance of values and ethics relevant to the communication process in a variety of formats (e.g., speeches, interpersonal interactions, journalistic writing, social media, debate).

4(j) The teacher provides instruction and practice in conducting and applying research.

4(k) The teacher creates lessons that stress the importance of audience analysis and adaptation.

4(l) The teacher presents communication as a process consisting of integral components.

4(m) The teacher explains various methods of organization and their effects on the communication process.

4(n) The teacher delivers instruction that facilitates student analysis and evaluation of message contexts, including historical, political, social, economic, and cultural perspectives.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

~~**Knowledge**~~

~~9(a) The teacher understands contemporary legal standards relating to communication and media.~~

~~**Performance**~~

~~9(b) The teacher develops learning progressions for students that embed contemporary legal standards relating to communication and media.~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

DRAFT

IDAHO STANDARDS FOR JOURNALISM TEACHERS

In addition to the standards listed here, journalism teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the journalism teacher standard are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher comprehends the fundamentals of journalistic style (e.g., news, feature, editorial writing).

4(b) The teacher understands the elements of design and layout.

4(c) The teacher understands the purposes and elements of photojournalism (e.g., composition, processing).

4(d) The teacher understands the purposes, types, and rules of headline and caption writing.

4(e) The teacher possesses knowledge of interviewing skills.

4(f) The teacher knows how to organize and equip a production area.

4(g) The teacher knows how to organize and supervise a student staff (e.g., editors, writers, photographers, business personnel).

4(h) The teacher knows how to adapt journalistic techniques to various media (e.g., radio, television, Internet).

4(i) The teacher understands advertising and finance.

4(j) The teacher knows the fundamentals of editing.

4(k) The teacher understands processes of effective critiquing.

4(l) The teacher understands journalistic and scholastic press law and ethics.

4(m) The teacher understands the role of journalism in democracy.

Performance

4(n) The teacher instructs students in the fundamentals of journalistic style across a variety of journalistic platforms.

4(o) The teacher student application of design and layout techniques.

4(p) The teacher integrates the purposes and elements of photojournalism into the production process.

4(q) The teacher instructs students in the purposes, types, and rules of headline and caption writing.

4(r) The teacher provides opportunities for students to practice and use interviewing skills.

4(s) The teacher teaches editing skills and provides opportunities for student practice.

4(t) The teacher provides opportunities for students to critique and evaluate student and professional work.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

~~***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

IDAHO STANDARDS FOR SPEECH AND DEBATE TEACHERS

In addition to the standards listed here, speech and debate teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the speech and debate teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands the models of interpersonal communication.

4(b) The teacher knows the processes and types of active listening.

4(c) The teacher knows the nature of conflict and conflict resolution strategies in the speech process.

4(d) The teacher knows the dynamics of group communication (e.g., roles, functions, systems, developmental stages, problem solving).

4(e) The teacher understands rhetorical theories and practices.

4(f) The teacher understands types of public speaking (e.g., informative, persuasive, ceremonial).

4(g) The teacher understands the steps of speech preparation, rehearsal, presentation, and constructive feedback.

4(h) The teacher understands the necessity of adapting public speaking styles and skills to various media.

4(i) The teacher understands the principles of competitive debate theory (e.g., categories and styles of debate).

4(j) The teacher knows the theories and practices of argumentation.

4(k) The teacher knows the precepts of logical reasoning (e.g., syllogistic, categorical, disjunctive, fallacies).

4(l) The teacher knows the various types of competitive speaking events (e.g., impromptu, extemporaneous, oratory, debate).

4(m) The teacher knows how to identify and minimize communication anxiety.

Performance

4(n) The teacher instructs in the process of effective interpersonal communication (e.g., effective listening, components of verbal and nonverbal communication, conflict resolution).

4(o) The teacher explains the components and dynamics of group communication and provides opportunities for student implementation.

4(p) The teacher provides opportunities for students to prepare, practice, and present various types of speeches.

4(q) The teacher provides instruction integrating digital media and visual displays to enhance presentations.

4(r) The teacher instructs in the theory, principles, and practices of debate (e.g., argumentation, logical reasoning, competitive speaking).

4(s) The teacher provides opportunities for students to participate in debate and speaking events.

4(t) The teacher explains various methods of organization and their effects on the communication process.

4(u) The teacher provides strategies for assessing and minimizing communication anxiety (e.g., personal anxiety assessment, repetition, visualization).

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

~~***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***~~

~~***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***~~

DRAFT

IDAHO STANDARDS FOR COMPUTER SCIENCE TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Computer Science Teacher Standards are widely recognized, but not all encompassing or absolute, indicators that teacher preparation programs have met the standards. These standards were influenced and developed through use of the standards set forward by the International Society for Technology Education (ISTE) and the Computer Science Teachers' Association (CSTA).

The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands digital citizenship.

Performance

1(b) The teacher promotes and models digital citizenship.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The teacher understands the role of language and culture in learning computer science and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Knowledge

3(a) The teacher understands how to design environments that promote effective teaching and learning in computer science classrooms and promote digital citizenship.

Performance

3(b) The teacher promotes and models the safe and effective use of computer hardware, software, peripherals, and networks.

3(c) The teacher develops student understanding of privacy, security, safety, and effective communication in digital environments.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands data representation and abstraction.

4(b) The teacher understands how to effectively design, develop, and test algorithms.

4(c) The teacher understands the software development process.

4(d) The teacher understands digital devices, systems, and networks.

4(e) The teacher understands the basic mathematical principles that are the basis of computer science, including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.

4(f) The teacher understands the role computer science plays and its impact in the modern world.

4(g) The teacher understands the broad array of opportunities computer science knowledge can provide across every field and discipline.

4(h) The teacher understands the many and varied career and education paths that exist in Computer Science.

Performance

4(i) The teacher demonstrates knowledge of and proficiency in data representation and abstraction. The teacher:

- Effectively uses primitive data types.
- Demonstrates an understanding of static and dynamic data structures.
- Effectively uses, manipulates, and explains various external data stores: various types (text, images, sound, etc.), various locations (local, server, cloud), etc.
- Effectively uses modeling and simulation to solve real-world problems

4(j) The teacher effectively designs, develops, and tests algorithms. The teacher:

- ~~Uses a modern, high-level programming language, constructs correctly functioning programs involving simple and structured data types; compound Boolean expressions; and sequential, conditional, and iterative control structures.~~
- ~~Designs and tests algorithms and programming solutions to problems in different contexts (textual, numeric, graphic, etc.) using advanced data structures.~~
- ~~Analyzes algorithms by considering complexity, efficiency, aesthetics, and correctness.~~
- ~~Effectively uses two or more development environments.~~
- ~~Demonstrates knowledge of varied software development models and project management strategies.~~
- ~~Demonstrates application of phases of the software development process on a project of moderate complexity from inception to implementation.~~

~~4(k) The teacher demonstrates knowledge of digital devices, systems, and networks. The teacher:~~

- ~~Demonstrates an understanding of data representation at the machine level.~~
- ~~Demonstrates an understanding of machine level components and related issues of complexity.~~
- ~~Demonstrates an understanding of operating systems and networking in a structured computing system.~~
- ~~Demonstrates an understanding of the operation of computer networks and mobile computing devices.~~

~~4(l) The teacher demonstrates an understanding of the role computer science plays and its impact in the modern world. The teacher:~~

- ~~Demonstrates an understanding of the social, ethical, and legal issues and impacts of computing, and the attendant responsibilities of computer scientists and users.~~
- ~~Analyzes the contributions of computer science to current and future innovations in sciences, humanities, the arts, and commerce.~~

~~4(m) The teacher demonstrates an understanding of the basic mathematical principles that are the basis of computer science including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.~~

~~Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.~~

~~Knowledge~~

~~5(a) The teacher understands the academic language and conventions of computer science and how to make them accessible to students.~~

Performance

5(b) The teacher designs activities that require students to effectively describe computing artifacts and communicate results using multiple forms of media.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher understands the planning and teaching of computer science lessons/units using effective and engaging practices and methodologies.

Performance

7(b) The teacher selects a variety of real-world computing problems and project-based methodologies that support active learning.

7(c) The teacher provides opportunities for creative and innovative thinking and problem-solving in computer science.

7(d) The teacher develops student understanding of the use of computer science to solve interdisciplinary problems.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands the value of designing and implementing multiple instructional strategies in the teaching of computer science.

Performance

8(b) The teacher demonstrates the use of a variety of collaborative groupings in lesson plans/units, software projects, and assessments.

8(c) The teacher identifies problematic concepts in computer science and constructs appropriate strategies to address them.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Performance

~~9(a) The teacher demonstrates knowledge of evolving social and research issues relating to computer science and computer science education.~~

~~Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.~~

DRAFT

IDAHO STANDARDS FOR ELEMENTARY EDUCATION TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Elementary Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands how young children's and early adolescents' literacy and language development influence learning and instructional decisions across content areas.

1(b) The teacher understands the cognitive processes of attention, memory, sensory processing, and reasoning and their role in learning.

1(c) The teacher recognizes the role of inquiry and exploration in learning and development.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The teacher understands that there are multiple levels of intervention and recognizes the advantages of beginning with the least intrusive for the student.

2(b) The teacher understands culturally responsive pedagogy and the necessity of utilizing it to create the most inclusive learning environment.

Performance

2(c) The teacher appropriately and effectively collaborates with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.

2(d) The teacher systematically progresses through the multiple levels of intervention, beginning with the least intrusive for the student.

2(e) The teacher actively engages the school environment, families, and community partners to enact culturally responsive pedagogy.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

3(a) The teacher understands the importance of teaching and re-teaching developmentally appropriate classroom expectations and procedures.

Performance

3(b) The teacher consistently and effectively models, teaches, and re-teaches developmentally appropriate classroom expectations and procedures.

3(c) The teacher utilizes positive behavioral supports and multiple levels of intervention to support and develop appropriate student behavior.

3(d) The teacher demonstrates understanding of developmentally and age-appropriate digital citizenship and responsibility.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands concepts of language arts/literacy and child development in order to teach reading, writing, speaking/listening, language, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.

4(b) The teacher understands how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and assessment data to improve student reading and writing abilities.

4(c) The teacher understands the fundamental concepts and the need to integrate STEM (Sciences, Technology, Engineering, and Mathematics).

4(d) The teacher understands and articulates the knowledge and practices of contemporary science and interrelates and interprets important concepts, ideas, and applications.

4(e) The teacher understands concepts of mathematics and child development in order to teach number sense and operations, measurement and data analysis, fractions, algebraic reasoning, and proportional reasoning, to help students successfully apply their developing skills through engaging them in the use of the mathematical practices from the Idaho mathematics standards, within many contexts.

4(f) The teacher understands the structure of mathematics and the connections and relationships within learning progressions.

4(g) The teacher knows the major concepts and modes of inquiry for social studies: the integrated study of history, geography, government/civics, economics, social/cultural and other related areas to develop students' abilities to make informed decisions as global citizens of a culturally diverse, democratic society and interdependent world.

4(h) The teacher understands the relevance and application of the arts, such as dance, music, theater, and visual arts as avenues for communication, inquiry, and insight.

4(i) The teacher understands the comprehensive nature of students' physical, intellectual, social, and emotional well-being in order to create opportunities for developing and practicing skills that contribute to overall wellness.

4(j) The teacher understands human movement and physical activity as central elements in learning and cognitive development.

Performance

4(k) The teacher models appropriate and accurate use of written and spoken language.

4(l) The teacher utilizes the structure of mathematics and the connections and relationships within the learning progressions in his/her instructional practice to increase student conceptual understanding in conjunction with diagnostic tools and assessment data to improve students' mathematical ability.

4(m) The teacher utilizes knowledge of how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and assessment data to improve student reading and writing abilities.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher understands the importance of providing a purpose and context to use the communication skills taught across the curriculum.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum,

~~***cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***~~

~~**Performance**~~

~~7(a) The teacher designs instruction that provides opportunities for students to learn through inquiry and exploration.~~

~~***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***~~

~~**Performance**~~

~~8(a) The teacher engages all learners in developing higher order thinking skills.~~

~~***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

~~**Knowledge**~~

~~10(a) The teacher understands the significance of engaging in collaborative data-driven decision making.~~

DRAFT

~~IDAHO STANDARDS FOR ENGINEERING TEACHERS~~

~~All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The following knowledge and performance statements for the Engineering Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

~~Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.~~

~~Knowledge~~

~~1(a) The teacher understands how to design developmentally appropriate engineering activities and assignments.~~

~~Performance~~

~~1(b) The teacher designs and implements developmentally appropriate engineering activities and assignments.~~

~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.~~

~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Knowledge~~

~~4(a) The teacher understands the principles and concepts of engineering design.~~

4(b) The teacher understands the role of mathematics in engineering design and analysis.

4(c) The teacher understands the role of natural and physical sciences in engineering design and analysis.

4(d) The teacher understands the ethical issues and practices of the engineering profession.

4(e) The teacher understands the importance of team dynamics and project management in engineering projects.

4(f) The teacher understands how to embed Technology Student Association (TSA) activities through intra-curricular approaches in the engineering program of study.

4(g) The teacher understands the differences in engineering career pathways and opportunities.

Performance

4(h) The teacher applies the principles and concepts of engineering design in the solution of an engineering design problem.

4(i) The teacher can demonstrate the effects engineering has on the society, the environment and the global community.

4(j) The teacher is able to work in a learning community/project team.

4(k) The teacher facilitates students working in teams to solve engineering design problems.

4(l) The teacher facilitates student understanding of engineering career pathways and opportunities.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher knows the symbols, terminology, and notations specific to engineering.

5(b) The teacher recognizes the importance of oral and written communication in the engineering discipline.

Performance

5(c) The teacher supports and expands student skills in speaking, writing, reading, listening, and in using other mediums, consistent with engineering practices.

5(d) The teacher uses the symbols, terminology, and notations specific to engineering.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher knows how to select, construct, and use assessment strategies and instruments appropriate to students to measure engineering learning outcomes.

Performance

6(b) The teacher uses multiple assessment strategies to measure students' ability to apply an engineering design process to address an engineering design problem.

6(c) The teacher appropriately uses assessment strategies to measure students' ability to use notation, terminology, and symbols in oral and written communication.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands how to incorporate design into instructional practice strategies.

Performance

8(b) The teacher uses a variety of instructional tools and resources for teaching engineering design.

8(c) The teacher develops learning activities that integrate content from science, technology, engineering, arts, and mathematic disciplines.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher is knowledgeable about the different career opportunities for engineering.

9(b) The teacher is familiar with professional engineering organizations and resources available through them.

DRAFT

Performance

9(c) The teacher stays abreast of professional engineering literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.

9(d) The teacher engages in professional discourse about subject matter knowledge and pedagogy.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher is aware of community issues and needs for design opportunities.

Performance

10(b) The teacher is able to adapt lessons to address community needs using the engineering design process.

GLOSSARY OF TERMS

Engineering – The profession in which knowledge of the mathematical and natural sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize economically the materials and forces of nature for the benefit of mankind – Preparation would be a bachelor's degree

Engineering Design Process – A systematic problem-solving strategy, with criteria and constraints, used to develop many possible solutions to solve or satisfy human needs or wants and to narrow down the possible solutions to one final choice.

Engineering Technology – The part of the technological field that requires the application of scientific and engineering knowledge and methods combined with technical skills in support of engineering activities; it lies in the occupational spectrum between the craftsman and the engineer at the end of the spectrum closest to the engineer – Preparation would be an associate's degree or bachelor's degree in engineering technology

Technology – Technology comprises the entire system of people and organizations, knowledge, processes, and devices that go into creating and operating technological artifacts, as well as the artifacts themselves.

IDAHO STANDARDS FOR ENGLISH LANGUAGE ARTS TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the English Language Arts Teacher Standards are widely recognized, but not all encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, and clinical experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands developmental levels in reading, writing, listening, viewing, and speaking.

1(b) The teacher understands how adolescents read, write, and make meaning of a wide range of texts, genres, and formats (e.g., literature, poetry, informational text, digital media, social media, multimodal).

Performance

1(c) The teacher creates developmentally appropriate learning experiences that take into account stages and diverse ways of learning in reading, writing, listening, viewing, and speaking.

Standard 2: Learning Difference - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Performance

2(a) The teacher designs and/or implements instruction that incorporates students' linguistic and cultural backgrounds to enable skillful control over their rhetorical choices and language practices for a variety of audiences and purposes.

Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

3(a) The teacher understands how to use students' individual differences, data for literacy learning, identities, and funds of knowledge to create inclusive learning environments that help students participate actively in their own learning in English language arts (e.g., workshops, project based learning, guided writing, Socratic seminars, literature circles).

Performance

3(b) The teacher collaborates with colleagues to create literacy-rich interdisciplinary learning environments to help students participate actively in their own learning in English language arts.

Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher is knowledgeable about texts (print and non-print, digital, classic, contemporary, and young adult) that represent a range of world literatures, historical traditions, genres, and the experiences of different genders, ethnicities, and social classes.

4(b) The teacher understands principles of language acquisition, dialect, and grammar systems (e.g., descriptive and prescriptive)

4(c) The teacher understands the evolution and impact of language on society.

4(d) The teacher understands the various writing processes in composing a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose.

4(e) The teacher understands the use of contemporary technologies and/or digital media to compose multimodal discourse.

4(f) The teacher understands how to use strategies for acquiring and applying vocabulary knowledge.

Performance

4(g) The teacher uses literary theories to interpret and critique a range of texts.

4(h) The teacher demonstrates command of the conventions of standard English (e.g., grammar, usage, and mechanics).

4(i) The teacher models various writing processes in composing a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose.

4(j) The teacher models the use of contemporary technologies and/or digital media to compose multimodal discourse.

4(k) The teacher designs instruction using strategies for acquiring academic and content-specific vocabulary.

4(l) The teacher models how to gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source (e.g., bias, rhetoric, documentation practices), and quote or paraphrase the data and conclusions, while avoiding plagiarism and following standard format for citation.

Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher understands research-based strategies that lend to students becoming independent, critical, and strategic readers, writers, speakers, and listeners.

Performance

5(b) The teacher designs and/or implements instruction related to the strategic use of language conventions (grammar, usage, and mechanics) in the context of students' writing for different audiences, purposes, and modalities.

5(c) The teacher designs and/or implements English language arts and literacy instruction that promotes social justice and critical engagement with complex issues related to maintaining a diverse, inclusive, equitable society.

5(d) The teacher designs and/or implements instruction related to a breadth and depth of texts, purposes, and complexities that connects concepts so students can become independent, critical, and strategic readers, writers, speakers, and listeners.

5(e) The teacher designs and/or implements instruction related to speaking and listening that leads to students becoming critical and active participants in conversations and collaborations.

Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Performance

6(a) The teacher uses data to differentiate instruction based on multiple kinds of assessments of learning in English language arts (e.g., students' self-assessments, formal assessments, informal assessments).

6(b) The teacher designs or knowledgeably selects appropriate reading assessments in response to student interests, reading proficiencies, and/or reading strategies.

6(c) The teacher designs or knowledgeably selects a range of assessments for students that promote development as writers, are appropriate to the writing task, and are consistent with current research and theory.

6(d) The teacher responds to students' writing throughout the writing processes in ways that engage ideas and encourage their growth as writers over time.

6(e) The teacher communicates with students about their performance in ways that actively involve students in their own learning.

Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Performance

7(a) The teacher plans instruction which, when appropriate, reflects curriculum integration and incorporates interdisciplinary teaching methods and materials which includes reading, writing, speaking, listening, and language.

7(b) The teacher plans standards-based, coherent and relevant learning experiences in reading that reflect knowledge of current theory and research about the teaching and learning of reading, and that utilize individual and collaborative approaches and a variety of reading strategies.

7(c) The teacher uses knowledge of theory, research, and practice to plan standards-based, coherent, and relevant composing experiences that utilize individual and collaborative approaches and contemporary technologies and reflect an understanding of writing processes and strategies in different genres for a variety of purposes and audiences.

7(d) The teacher uses a range of different texts—across genres, periods, forms, authors, cultures, and various forms of media—and instructional strategies that are motivating and accessible to all students.

Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Performance

~~9(a) The teacher models literate and ethical practices in English language arts teaching, engages in a variety of experiences related to English language arts, and reflects on their own professional practices.~~

~~Standard 10: Leadership and Collaboration – The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning; to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth; and to advance the profession.~~

DRAFT

IDAHO STANDARDS FOR ~~SPECIAL EDUCATION~~EXCEPTIONAL CHILD ~~GENERALIST~~EDUCATION TEACHERS ~~TEACHERS~~

These standards apply in addition to Idaho Core Teaching Standards.

Standard 1: Special Education Law. The teacher candidate develops individualized education plans, transition plans, and behavior plans in accordance with applicable laws, rules, regulations, and procedural safeguards.

Standard 2: Specially Designed Instruction. The teacher candidate selects, adapts, modifies, and uses a repertoire of evidence-based instructional strategies, including universal design for learning to advance learning, self-advocacy, and independence of individuals with exceptionalities.

Standard 3: Assistive Technology. The teacher candidate designs strategies to facilitate optimal access to low- and high technology tools and assistive technologies across learning environments to support the communication and learning of individuals with exceptionalities.

Standard 4: Eligibility Assessment. The teacher candidate administers, interprets, and explains technically sound eligibility assessments to guide educational decisions for individuals with exceptionalities.

Standard 5: Support Staff. The teacher candidate demonstrates knowledge in the guidance and direction to paraeducators and other student support staff.

DRAFT

IDAHO STANDARDS FOR EXCEPTIONAL CHILD GENERALISTS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, exceptional child teachers must meet Idaho Core Teacher Standards and the Idaho Generalist Standards and may meet one of the following, if applicable: (1) Idaho Standards for Teachers of the Blind and Visually Impaired or (2) Idaho Standards for Teachers of the Deaf/Hard of Hearing.

The following knowledge and performance statements for the Generalist Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands how language, culture, health, and family background influence the learning of individuals with exceptionalities.

1(b) The teacher has an understanding of development and individual differences to respond to the needs of individuals with exceptionalities.

1(c) The teacher understands how exceptionalities can interact with development and learning.

Performance

1(d) The teacher adapts developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with exceptionalities.

1(e) The teacher is active and resourceful in seeking to understand how primary language, culture, and family interact with the exceptionality to influence the individual's

~~academic and social abilities, attitudes, values, interests, and career and post-secondary options.~~

~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~

~~Knowledge~~

~~2(a) The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.~~

~~2(b) The teacher knows how to intervene safely and appropriately with individuals with exceptionalities in crisis (e.g., positive behavioral supports, functional behavioral assessment and behavior plans).~~

~~2(c) The teacher understands the educational implications of characteristics of various exceptionalities.~~

~~2(d) The teacher understands the effect of learners' academic and social abilities, attitudes, interests, and values on instruction and career development.~~

~~Performance~~

~~2(e) The teacher adapts learning environments for individual needs and regards an individual's language, family, culture, and other significant contextual factors and how they interact with an individual's exceptionality. The teacher modifies learning environments, and provides for the maintenance and generalization of acquired skills across environments and subjects.~~

~~2(f) The teacher safely intervenes with individuals with exceptionalities in crisis. Special education teachers are also perceived as a resource in behavior management that include the skills and knowledge to intervene safely and effectively before or when individuals with exceptionalities experience crisis, i.e. lose rational control over their behavior.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interactions, active engagement in learning, and self-motivation.~~ **~~Knowledge~~**

~~3(a) The teacher knows how to collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.~~

~~3(b) The teacher understands motivational and instructional interventions to teach individuals with exceptionalities how to adapt to different environments.~~

Performance

3(a) The teacher develops safe, inclusive, culturally responsive learning environments for all students, and collaborates with education colleagues to include individuals with exceptionalities in general education environments and engage them in meaningful learning activities and social interactions.

3(b) The teacher structures learning environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy of individuals with exceptionalities, and directly teach them to adapt to the expectations and demands of differing environments.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands and uses general and specialized content knowledge for teaching across curricular content areas to individualize learning for individuals with exceptionalities.

4(b) The teacher knows how to accommodate and/or modify general and specialized curricula to make them accessible to individuals with exceptionalities.

Performance

4(c) The teacher collaborates with general educators in teaching or co-teaching the content of the general curriculum to individuals with exceptionalities and designs appropriate learning, accommodations, and/or modifications.

4(d) The teacher uses a variety of specialized curricula (e.g., academic, social, emotional, and life skills curricula) to individualize meaningful and challenging learning for individuals with exceptionalities.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher understands how to engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them.

Performance

5(a) The teacher identifies and prioritizes areas of the general education curriculum and accommodations and/or modifications for individuals with exceptionalities.

5(b) The teacher integrates social-emotional, behavioral, and life skills with academic curricula.

DRAFT

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher has knowledge of measurement principles and practices, and understands how to interpret assessment results and guide educational decisions for individuals with exceptionalities.

6(b) In collaboration with colleagues and families, the teacher knows how to use multiple types of assessment information in making decisions about individuals with exceptionalities.

6(c) The teacher understands assessment information to identify supports, and/or modifications required for individuals with exceptionalities to access the general curriculum and to participate in school, system, and statewide assessment programs.

6(d) The teacher is aware of available technologies routinely used to support assessments (e.g., progress monitoring, curriculum-based assessments).

6(e) The teacher understands the legal policies of assessment related to special education referral, eligibility, individualized instruction, and placement for individuals with exceptionalities, including individuals from culturally and linguistically diverse backgrounds.

Performance

6(f) The teacher regularly monitors the learning progress of individuals with exceptionalities in both general and specialized content and makes instructional adjustments based on these data.

6(g) The teacher gathers background information regarding academic, medical, and social history.

6(h) The teacher conducts formal and/or informal assessments of behavior, learning, achievement, and environments to individualize the learning experiences that support the growth and development of individuals with exceptionalities.

6(i) The teacher integrates the results of assessments to determine eligibility and to develop a variety of individualized plans, including family service plans, transition plans, and behavior intervention plans.

6(j) The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

~~Knowledge~~

~~7(a) The teacher knows how to consider an individual's abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.~~

~~7(b) The teacher understands technologies used to support instructional assessment, planning, delivery, and the evaluation of instruction for individuals with exceptionalities.~~

~~7(c) The teacher is familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.~~

~~7(d) The teacher knows how to develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.~~

~~7(e) The teacher knows how to enhance student outcomes such as critical thinking, creative problem solving, and collaboration skills for individuals with exceptionalities, and increases their self-determination.~~

~~Performance~~

~~7(f) The teacher develops a variety of individualized transition plans, such as transitions from preschool to elementary school and from secondary settings to a variety of postsecondary work and learning contexts.~~

~~7(g) The teacher personalizes instructional planning within a collaborative context including the individuals with exceptionalities, families, professional colleagues, and personnel from other agencies as appropriate.~~

~~Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.~~

~~Knowledge~~

~~8(a) The teacher understands strategies to enhance language development, communication skills, and social skills of individuals with exceptionalities.~~

~~8(b) The teacher knows how to teach to mastery and promotes generalization of learning for individuals with exceptionalities.~~

~~8(c) The teacher knows how to teach cross-disciplinary knowledge and skills such as critical thinking and problem solving to individuals with exceptionalities.~~

~~Performance~~

~~8(d) The teacher plans and uses a repertoire of evidence-based instructional strategies in promoting positive learning results in general and special curricula and in modifying learning environments for individuals with exceptionalities appropriately.~~

8(e) The teacher develops explicit instruction with modeling, and guided practice to assure acquisition and fluency, as well as, the development, maintenance, and generalization of knowledge and skills across environments.

8(f) The teacher aligns communication methods to an individual's language proficiency and cultural and linguistic differences.

8(g) The teacher utilizes universal design for learning, augmentative and alternative communication systems, and assistive technologies to support and enhance the language and communication of individuals with exceptionalities.

8(h) The teacher provides guidance and direction to paraeducators, tutors, and volunteers.

Standard 9: Professional Learning and Ethical Practice – The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher understands how foundational knowledge and current issues influence professional practice.

9(b) The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with the delivery of special education services.

9(c) The teacher understands how to advance the profession by engaging in activities such as advocacy and mentoring.

9(d) The teacher knows how to create a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.

9(e) The teacher understands Ethical Principles and Professional Practice Standards for Special Educators to guide their practice.

Performance

9(f) The teacher is sensitive to the aspects of diversity with individuals with exceptionalities and their families, and the provision of effective special education services for English learners with exceptionalities and their families.

9(g) The teacher models high expectations and ethical practice, and creates supportive environments that safeguard the legal rights and improve outcomes for individuals with exceptionalities and their families.

Standard 10: Leadership and Collaboration – The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

~~Knowledge~~

~~10(a) The teacher understands how to collaborate with their general education colleagues to create learning environments that meaningfully include individuals with exceptionalities, and that foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement.~~

~~10(b) The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.~~

~~10(c) The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.~~

~~Performance~~

~~10(d) The teacher collaborates with the educational team to uphold current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.~~

~~10(e) The teacher collaborates with related-service providers, other educators including special education paraeducators, personnel from community agencies, and others to address the needs of individuals with exceptionalities.~~

~~10(f) The teacher involves individuals with exceptionalities and their families collaboratively in all aspects of the education of individuals with exceptionalities.~~

~~10(g) The teacher maintains confidential communication about individuals with exceptionalities.~~

DRAFT

IDAHO STANDARDS FOR TEACHERS OF THE BLIND AND VISUALLY IMPAIRED

These standards apply in addition to Idaho Core Teaching Standards.

Standard 1: Special Education Law. The teacher candidate develops individualized education plans, transition plans, and behavior plans in accordance with applicable laws, rules, regulations, and procedural safeguards.

Standard 2: Support Staff. The teacher candidate demonstrates knowledge in the guidance and direction of paraeducators and other student support staff.

Standard 3: Expanded Core Curriculum. The teacher candidate understands and is able to affect appropriate instruction regarding the Expanded Core Curriculum (compensatory, orientation and mobility, social interaction, independent living, recreation and leisure, career education, use of assistive technology, sensory efficiency, and self-determination) and how it relates to the student's academic and daily routines.

Standard 4: Learning Media/Functional Vision Assessments. The teacher candidate conducts Learning Media and Functional Vision Assessments, including Expanded Core Curriculum components, specifically assistive technology and communication skills (e.g., auditory, tactile, and visual), and is able to effectively explain to parents and other stakeholders how to implement appropriate instructional strategies and accommodations.

Standard 5: Assistive Technology for Blind/Visually Impaired. The teacher candidate designs appropriate strategies to facilitate optimal access to low- and high-technology tools and assistive technologies across the learning environments to support the communication and learning of students with visual impairment/blindness and co-occurring impairments.

Standard 6: Braille Skills. The teacher candidate demonstrates reading and writing skills in Unified English Braille (UEB), UEB Math, and Nemeth, with knowledge in music and computer Braille codes, and is able to affect appropriate Braille instruction in a variety of settings.

Standard 7: Educational Access. The teacher candidate collaborates with stakeholders to make and adapt materials that are appropriate to the specific needs of students and able to identify where to obtain federal, state, and local resources.

Standard 8: Implication of Impairment. The teacher candidate understands a variety of eye conditions and co-occurring impairments, as well as their educational implications, and is able to effectively use the information when completing assessments and collaborating with stakeholders to implement goals, classroom accommodations, and educational programming, including Assistive Technology and Compensatory Skills.

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, teachers of the blind and visually impaired must meet Idaho Core Teacher Standards.

The following knowledge and performance statements for the Standards for Teachers of the Blind and Visually Impaired are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The teacher of students with visual impairments is well versed in the foundations for education of the blind and visually impaired, the physiology and functions of the visual system, and the effect of vision impairment has on the instructional program. Further, the teacher collaboratively designs instructional strategies based on the results of specialized assessments.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands the need for students to demonstrate skills within the Expanded Core Curriculum (compensatory or functional academic skills, academic skills, including communication modes; orientation and mobility; social interaction skills; independent living skills; recreation and leisure skills; career education; use of assistive technology; sensory efficiency skills; and self-determination).

1(b) The teacher knows the effects of a visual impairment on the student's family or guardians, and the reciprocal impact on the student's self-esteem.

1(c) The teacher understands the diverse implications of various eye diseases including the effect of medication and treatments.

1(d) The teacher understands typical and atypical development as it applies to students with visual impairments, including those with additional disabilities.

Performance

1(e) The teacher provides students with a means to independently access materials readily available to the sighted world.

1(f) The teacher prepares students who have visual impairments, including those with additional disabilities, to respond to societal attitudes and actions with appropriate behavior and self-advocacy.

1(g) The teacher designs instructional experiences depending on individual student and familial stages of acceptance of the visual impairment.

1(h) The teacher communicates information from the optometrist/ophthalmologist report to school personnel to confirm the educational implications of the eye condition and to ensure the student's visual strengths are used.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The teacher knows the impact of visual disorders on learning, experience, and concept development in PreK-12 grades.

2(b) The teacher is aware of a variety of assistive technology options needed for auditory, tactual, and modified visual communication skills (e.g., screen readers, magnification options, tactile graphics).

2(c) The teacher understands the terminology related to diseases and disorders of the human visual system and their impact on language, communication, cognitive, spatial concept, and psychosocial development.

2(d) The teacher knows how to critique and evaluate the strengths and limitations of various types of assistive technologies.

2(e) The teacher knows a variety of input and output enhancements to computer technologies that address the specific access needs of students with visual impairments, including those with additional disabilities, in a variety of environments.

2(f) The teacher knows techniques for modifying instructional methods and materials for students with visual impairments, including those with additional disabilities, and for assisting classroom teachers in implementing these modifications.

Performance

2(g) The teacher teaches, writes, and reads Unified English Braille (UEB) and Nemeth (math and science), as well as music and computer braille codes.

2(h) The teacher secures specialized materials and equipment and provides training, as needed.

2(i) The teacher integrates knowledge of the visual impairment when identifying and infusing low vision devices and strategies into the curriculum, learning environments, and instructional techniques.

2(j) The teacher integrates ophthalmology, optometry, low vision, and functional vision evaluation/learning media assessments information to comprehensively design strategies as part of an IEP or 504.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

3(a) The teacher knows and understands factors in the learning environment (e.g., physical layout, organization, teacher behavior and expectations) that affect the learning behavior of students with visual impairments.

3(b) The teacher knows and understands strategies for creating a positive, productive learning environment that fosters student achievement and self-determination.

3(c) The teacher knows and understands instructional planning and management issues (e.g., time management, caseload management, collaborative planning) related to various models and systems of service delivery (such as itinerant, residential, and other programs P-12).

Performance

3(d) The teacher develops management strategies for meeting students' needs effectively and efficiently in the context of various service delivery models and systems.

3(e) The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.

3(f) The teacher applies organizational strategies that maximize students' ability to benefit from learning activities (e.g., strategies that help them orient themselves, move comfortably in the environment, interact positively with peers).

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher knows the historical foundations for the education of children with visual impairments, including a continuum of service options.

4(b) The teacher knows about consumer and professional organizations, journals, networks, and services relevant to the field of visual impairment, including deafblindness.

4(c) The teacher knows and understands federal laws and regulations related to the educational rights of all students with disabilities (e.g., The Americans with Disabilities

Act, The Individuals with Disabilities Education Act, Section 504) and those that specifically address students who are blind or visually impaired (e.g., federal entitlements for the provision of specialized equipment and materials, such as the American Printing House for the Blind Quota Funds).

4(d) The teacher possesses an in-depth knowledge of the variances in the medical, federal, and state definitions of visual impairment, identification criteria, labeling issues, incidence and prevalence figures, and how each component interacts with eligibility determinations for service.

4(e) The teacher knows specialized policies and resources regarding referral and placement procedures for students with visual impairments.

4(f) The teacher knows the effects of medications on the visual system.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher knows and understands factors that promote or hinder effective communication and collaboration with students, parents/guardians, paraprofessionals, teachers, administrators, and other school and community personnel.

5(b) The teacher knows and understands the collaborative roles of students, parents/guardians, classroom teachers, and other school and community personnel in planning and implementing students' IEPs, 504s and IFSPs.

5(c) The teacher knows and understands the roles of related service personnel (e.g., certified orientation & mobility specialists, physical therapists, school nurses, counselors, rehabilitation staff), and paraprofessionals (e.g., transcribers) in the education of students with visual impairments, including those with additional disabilities.

Performance

5(d) The teacher applies skills for communicating and collaborating effectively with teachers, paraprofessionals, and other school and community personnel to enhance learning opportunities for students with visual impairments, and ensures that students receive the services they need.

5(e) The teacher uses effective strategies for helping classroom teachers understand the effects of visual impairments on learning, for ensuring that teachers receive necessary support (e.g., training and the use of equipment, braille materials for lessons, interlined transcriptions of students' written work in braille), and for ensuring that students have full access to needed adaptations and resources.

5(f) The teacher works collaboratively with professionals, family members and other personnel to help provide child-centered intervention for infants, toddlers,

preschoolers and school-age students with visual impairments, including those with additional disabilities.

5(g) The teacher serves as a resource for parents/guardians and others in the school and community in regard to students with visual impairments and how to promote their learning and address their needs.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher knows the procedures used for screening, pre-referral, referral, and classifications of students with visual impairments, including vision screening methods, functional vision evaluation, and learning media assessment.

6(b) The teacher possesses an in-depth knowledge of procedures for adapting and administering assessments for the intervention, referral, and identification of students with a visual impairment, including those with additional disabilities.

Performance

6(c) The teacher conducts alternative as well as functional evaluations of visual, literacy, basic orientation and mobility, and educational performance from P-12.

6(d) The teacher uses information obtained through functional, alternative, and standardized assessments to plan, deliver, and modify instructional and environmental factors, including IEP or 504 development.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher knows and understands factors in the learning environment (e.g., physical layout, organization, teacher behaviors and expectations) that affect the learning and behavior of all ages of students with visual impairments.

7(b) The teacher knows and understands resources available for individuals with visual impairments, including deafblindness and those with additional disabilities (e.g., materials, textbooks, agencies).

7(c) The teacher knows and understands techniques for creating and adapting instructional materials (e.g., brailled, enlarged, outlined, highlighted) for students with visual impairments.

Performance

7(d) The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.

7(e) The teacher uses visual, tactile, auditory and other adaptations to design multisensory learning environments that promote students' full participation and independent learning in a variety of group and individual contexts.

7(f) The teacher works collaboratively with the educational team to implement adaptations designed to compensate for visual impairments, including those with additional disabilities.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher possesses in-depth knowledge of methods, materials, and assistive technology for providing for the development of cognitive, auditory, tactual, and communication skills for the blind and visually impaired, including those with additional disabilities.

8(b) The teacher knows how to assist the student in related Expanded Core Curriculum skills in order to provide access to the content areas.

8(c) The teacher knows how to assist the student in developing alternative organizational and study skills.

8(d) The teacher knows methods for providing adapted physical and recreation skills for students who have visual impairments, including those with additional disabilities.

8(e) The teacher knows strategies and resources for developing transition plans that support the student's ability to function as independently as possible in the community.

Performance

8(f) The teacher designs, sequences, implements, and evaluates modifications for daily living skills, to increase independence.

8(g) The teacher implements integrated learning experiences that are multi-sensory and encourage active participation, self-advocacy, and independence.

8(h) The teacher integrates knowledge of the visual impairment, including additional disabilities, with child development when designing and implementing cognitive, communication, and social skills instruction.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher knows and understands ethical responsibilities of teachers of students with visual impairments (e.g., advocating for students and their families, seeking

~~improvements in the quality of students' educational services, pursuing ongoing professional development).~~

~~9(b) The teacher knows and understands the functions of agencies, consumer organizations and initiatives that promote nation-wide standards of excellence for the provision of services to students with visual impairments, including those with additional disabilities.~~

~~9(c) The teacher knows and understands the functions of professional organizations, publications and activities relevant to ongoing practice and professional development in the field of visual impairment.~~

~~**Performance**~~

~~9(d) The teacher applies knowledge of research-based practices and current trends and issues in the field of visual impairment to provide students with educational programming, materials, and services they need to achieve to their full potential.~~

~~9(e) The teacher applies knowledge of legal requirements and documentation related to issues such as referral, evaluation, eligibility criteria, due process, confidentiality and least restrictive environment.~~

~~9(f) The teacher applies knowledge of state requirements and professional guidelines regarding the provision of services to students with visual impairments (e.g., caseloads, funding, array of service options).~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

~~**Knowledge**~~

~~10(a) The teacher knows strategies for assisting family, guardians, professionals, and other members of the community in planning appropriate transitions for students who have visual impairments, including those with additional disabilities.~~

~~10(b) The teacher knows the roles of paraprofessionals (e.g., sighted readers, transcribers, aides) who work directly with students who have visual impairments, including those with additional disabilities.~~

~~10(c) The teacher knows that the attitudes, expectations, and behaviors of professionals and peers will affect the behaviors of students with visual impairments, including those with additional disabilities.~~

~~10(d) The teacher knows and understands The Family Education Rights and Privacy Act (FERPA).~~

~~**Performance**~~

~~10(e) The teacher collaborates with parents, guardians, and other members of the community integral to the student's learning and development.~~

10(f) The teacher guides and supports the paraprofessionals who work directly with students who have visual impairments, including those with additional disabilities.

10(g) The teacher complies with FERPA.

Standard 11: The teacher knows how to read and produce contracted and uncontracted Unified English Braille (UEB) and Nemeth Codes.

Knowledge

11(a) The teacher understands skills and rules for reading and producing UEB and Nemeth Codes, including formatting.

Performance

11(b) The teacher applies skills for reading and producing UEB (uncontracted and contracted) and Nemeth Codes with a braille writer, slate and stylus, and electronic production.

11(c) The teacher applies the rules of the UEB and Nemeth Codes when producing and adapting student work.

11(d) The teacher uses resources to obtain braille materials such as American Printing House materials, parent resources, and braille production centers.

DRAFT

IDAHO STANDARDS FOR TEACHERS OF ~~STUDENTS WHO ARE~~THE DEAF/HARD OF HEARING

These standards apply in addition to Idaho Core Teaching Standards.

Standard 1: Special Education Law. The teacher candidate develops individualized education plans, transition plans, and behavior plans in accordance with applicable laws, rules, regulations, and procedural safeguards.

Standard 2: Individualized Planning for Instruction. The teacher candidate selects, adapts, modifies, and uses a repertoire of evidence-based strategies, including universal design for learning, to advance learning, self-advocacy, and independence of individuals with exceptionalities.

Standard 3: Assistive Technology. The teacher candidate designs strategies to facilitate optimal access to low- and high technology tools and assistive technologies across learning environments to support the communication and learning of individuals with exceptionalities.

Standard 4: Eligibility Assessment. The teacher candidate administers, interprets, and explains technically sound eligibility assessments to guide educational decisions for individuals with exceptionalities.

Standard 5: Support Staff. The teacher candidate demonstrates knowledge in the guidance and direction of paraeducators and other student support staff.

Standard 6: Literacy. The teacher candidate demonstrates the ability to teach all literacy components using current evidence-based practices to a student with hearing loss.

Standard 7: Language. The teacher candidate demonstrates the ability to assess and design data-driven language development goals for a student with hearing loss across the continuum of communication modalities.

Standard 8: Culture. The teacher candidate demonstrates how to integrate culturally relevant and sustaining perspectives, philosophies, and models based on the intersectionalities of the culture and education for the education of students who are deaf/hard of hearing and their families.

DRAFT

In addition to the standards listed here, teachers of the deaf and hard of hearing must meet Idaho Core Teacher Standards. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Standards for Teachers of the deaf and hard of hearing are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands how etiology, age of onset, age of identification, age at provision of services, and hearing status influence a student's language development and learning.

1(b) The teacher understands that being deaf/hard of hearing alone does not necessarily preclude normal academic development, cognitive development, or communication ability.

1(c) The teacher understands how learning and language development occur and the impact of instructional choices on deaf/hard of hearing students so they achieve age appropriate levels of literacy, academics, and social emotional development.

Performance

1(d) The teacher identifies levels of language and literacy development and designs lessons and opportunities that are appropriate.

1(e) The teacher identifies levels of language and general academics and designs lessons and opportunities that are appropriate.

1(f) The teacher identifies levels of social/emotional development and designs lessons and opportunities that are appropriate.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

~~Knowledge~~

~~2(a) The teacher understands how hearing status and limitations of access to language may influence student development in the following areas: sensory, cognitive, communication, physical, behavioral, cultural, social, and emotional.~~

~~2(b) The teacher knows the characteristics and impacts of hearing status, and the subsequent need for alternative modes of communication and/or instructional strategies.~~

~~2(c) The teacher understands the need for written and/or spoken English language learning for students whose native language is American Sign Language (ASL).~~

~~2(d) The teacher understands the need for differentiated instruction for language learning for emergent language users.~~

~~2(e) The teacher knows that all of the following are critical influencing factors which need to be considered when setting up programs and services for deaf/hard of hearing students: communication needs; the student and family's preferred mode of communication; linguistic needs; hearing status and potential for improving auditory access; assistive technology; academic level; and social, emotional, and cultural needs, including opportunities for peer interactions and communication.~~

~~2(f) The teacher knows a variety of evidence-based strategies and resources for parent education related to early intervention (birth to age 5).~~

~~Performance~~

~~2(g) The teacher uses information concerning hearing status (i.e., sensory, cognitive, communication, linguistic needs); potential for using auditory access; academic level; social, emotional, and cultural needs in planning and implementing differentiated instruction and peer interactions and communication.~~

~~2(h) The teacher provides appropriate instruction to students on the effective use of assistive technology and/or interpreting services to support effective access to instructional concepts.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.~~

~~Knowledge~~

~~3(a) The teacher understands the unique social and emotional needs of students who are deaf/ hard of hearing and knows strategies to facilitate the development of healthy self-esteem and identity.~~

~~3(b) The teacher understands that Deaf cultural factors, communication, and family influences impact students' ability to interact with peers and staff across educational environments, including non-academic educational spaces (e.g. playground, lunchroom, hallways, busses).~~

3(c) The teacher understands how the appropriate roles of the teacher, interpreter, and student foster positive social interaction, active engagement in learning, and self-motivation.

3(d) The teacher understands how to prepare students for the appropriate use of interpreters and support personnel.

3(e) The teacher understands how to manage assistive technology and communication modalities and the impact on the learning environment.

3(f) The teacher understands the influence of family communication and culture on all developmental demands.

Performance

3(g) The teacher designs a classroom environment to maximize opportunities for students' visual and/or auditory access to support positive social interaction and active engagement in collaborative learning.

3(h) The teacher creates a learning environment that encourages self-advocacy and the development of a positive self-identity.

3(i) The teacher provides access to incidental language experiences.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands the central concepts, structures of the discipline, and tools of inquiry of the content areas they teach, and can organize this knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions for individuals with exceptionalities.

Performance

4(b) The teacher uses the tools, models, and strategies applicable to the instructional content area(s) that are appropriate to the needs of students who are deaf/hard of hearing.

4(c) The teacher plans and implements transitions across service continuums.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher understands appropriate functional and standardized assessments for students who are deaf/hard of hearing.

6(b) The teacher knows the appropriate assessment accommodations for students.

6(c) The teacher understands the components of an adequate evaluation for eligibility, placement, and program planning decisions for students who are deaf/hard of hearing.

6(d) The teacher understands the limitations of assessment tools specific to individual student characteristics.

Performance

6(e) The teacher uses appropriate formal and informal assessment tools that use the natural, native, or preferred language of the student who is deaf/hard of hearing.

6(f) The teacher designs and uses appropriate formative assessment tools.

6(g) The teacher gathers and analyzes communication samples to determine nonverbal and linguistic skills of students who are deaf/hard of hearing as part of academic assessment.

6(h) The teacher uses data from assessments to inform instructional decision making relative to academic achievement and functional performance.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher knows how to align unit plans to create meaningful instructional experiences to meet rigorous learning goals.

Performance

7(b) The teacher, as an individual and a member of a team, selects and creates learning experiences that are: aligned to State curriculum standards, relevant to students, address and align to students' IEP goals, based on principles of effective instruction and performance modes.

7(c) The teacher develops a unit plan to create meaningful instructional experiences to meet rigorous learning goals in compliance with the learner's education plan.

7(d) The teacher uses resources, materials, and techniques that promote effective instruction for students who are deaf/hard of hearing (e.g. total communication, cued speech, ASL, LSL, hearing aids, cochlear implants, augmentative and assistive technology, FM systems, and closed captioning).

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher knows how to enhance instruction through the use of technology, visual materials and experiential activities to increase outcomes for students who are deaf/hard of hearing.

8(b) The teacher knows how to choose and apply instructional strategies that engages students in critical thinking, problem solving, and performance skills.

Performance

8(c) The teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional objectives and the unique needs of students who are deaf/hard of hearing.

8(d) The teacher maintains a learning environment that facilitates the effective use of the educational interpreter, note taker, and other support personnel.

8(e) The teacher implements accommodation(s) and uses assistive technology to support students who are deaf/hard of hearing to maximize their understanding of content.

8(f) The teacher implements strategies for stimulating and using residual hearing.

8(g) The teacher facilitates independent communication in all contexts.

8(h) The teacher provides inclusion experiences.

8(i) The teacher applies first- and second-language teaching strategies to the instruction of the individual.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher knows The Code of Ethics for Idaho Professional Educators.

9(b) The teacher knows about laws affecting the deaf/hard of hearing community.

9(c) The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching for deaf/hard of hearing students.

9(d) The teacher is aware of their personal bias(es) related to the field of education of deaf/hard of hearing children that affect teaching and knows the importance of presenting issues with objectivity, fairness, and respect.

9(e) The teacher knows where to find and how to access professional resources on teaching deaf/hard of hearing students and subject matters, and cultural perspectives.

9(f) The teacher knows about professional organizations within education in general and education of deaf/hard of hearing students and understands the need for professional activity and collaboration beyond the school.

9(g) The teacher understands the dynamics of change and recognizes that the field of education is not static.

9(h) The teacher knows how to use technology to enhance productivity and professionalism.

9(i) The teacher knows federal and state special education laws (IDEA) as well as ADA laws.

9(j) The teacher understands the ethical relationship among the teacher, interpreter, and student.

Performance

9(k) The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.

9(l) The teacher adheres to local, state, and federal laws, including laws affecting deaf/hard of hearing citizens and students.

9(m) The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and current research in the field of education of deaf/hard of hearing students).

9(n) The teacher uses self-reflection as a means of improving instruction.

9(o) The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.

9(p) The teacher stays abreast of professional literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.

9(q) The teacher engages in professional discourse about subject matter knowledge and pedagogy, as well as knowledge and pedagogy related to the education of deaf/hard of hearing students.

9(r) The teacher uses technology to enhance productivity and professionalism.

9(s) The teacher adapts to effectively interact with students using varying communication modalities appropriate to student need.

9(t) The teacher understands the theories, history, and importance of integrating culturally relevant perspectives, philosophies, and models that provide the basis for education of the deaf/hard of hearing.

9(u) The teacher demonstrates an increase of proficiency and commitment to maintaining instructional language competence.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families,

colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher understands the roles and responsibilities of teachers and support personnel in educational practice for deaf/hard of hearing students.

10(b) The teacher knows of available services, organizations, and networks that support individuals who are deaf or hard of hearing.

10(c) The teacher understands the effects of communication on the development of family relationships and knows strategies to facilitate communication within a family that includes a student who is deaf/hard of hearing students.

10(d) The teacher knows the continuum of services provided by individuals and agencies in the ongoing support of students who are deaf/hard of hearing.

10(e) The teacher knows of the memorandum of understanding between the State Department of Education and the Idaho Educational Services for the Deaf and Blind, including the supports provided by the Outreach Program.

Performance

10(f) The teacher facilitates the coordination of support personnel (e.g., interpreters) and agencies to meet the communication needs of students who are deaf/hard of hearing.

10(g) The teacher provides families with support to make informed choices regarding communication modes, philosophies, and educational options.

DRAFT

IDAHO STANDARDS FOR TEACHERS OF GIFTED AND TALENTED STUDENTS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Idaho Standards for Teachers of Gifted and Talented Students are widely recognized, but not all-encompassing or absolute indicators that candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

The Idaho Standards for Teachers of Gifted and Talented Students incorporate the National Association for Gifted Children (NAGC) and the Council for Exceptional Children (CEC) Teacher Preparation Standards in Gifted and Talented Education (2013).

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, his/her content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development – The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands the social and emotional issues of individuals with gifts and talents (e.g., perfectionism, underachievement, risk taking, high sensitivity, asynchronous development).

1(b) The teacher understands the cognitive, linguistic, social, emotional, and physical theories related to individuals with gifts and talents.

1(c) The teacher understands the moral and ethical challenges faced by individuals with gifts and talents.

1(d) The teacher understands the need for appropriate social and emotional counseling of individuals with gifts and talents.

1(e) The teacher understands the common misconceptions, myths and stereotypes about individuals with gifts and talents.

1(f) The teacher understands the characteristics and needs of twice-exceptional students.

Performance

1(g) The teacher demonstrates knowledge of variations in learning and development between and among individuals with gifts and talents by creating meaningful and challenging learning experiences.

1(h) The teacher identifies, evaluates, develops, and implements strategies and resources to address the social and emotional needs of individuals with gifts and talents.

1(i) The teacher engages students in learning opportunities that develop moral and ethical dispositions.

1(j) The teacher advocates for individuals with gifts and talents and twice-exceptionalities by debunking common misconceptions, myths, and stereotypes associated with giftedness.

Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The teacher understands how language, culture, economic status, family background, age, gender, learning disabilities, and other disabilities can influence the learning of individuals with gifts and talents.

Performance

2(b) The teacher identifies and provides appropriate differentiated curriculum that targets individual students' needs with respect to an individual's high performing capabilities in intellectual, creative, specific academic, or leadership areas, or ability in the performing or visual arts.

2(c) The teacher uses understanding of development and individual differences to respond to the needs of individuals with gifts and talents.

Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

3(a) The teacher understands the environmental needs specific to individuals with gifts and talents, especially concerning the development of emotional well-being, positive social interactions, independence, and self-advocacy.

Performance

3(b) The teacher collaborates with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments that engage individuals with gifts and talents in meaningful learning activities and social interactions.

DRAFT

~~3(c) The teacher uses communication as well as motivational and instructional strategies to facilitate understanding of subject matter and to teach individuals with gifts and talents how to adapt to different environments and develop leadership skills.~~

~~Standard 4: Content Knowledge – The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Performance~~

~~4(a) The teacher organizes knowledge, integrates cross disciplinary skills, and develops meaningful learning progressions within and across grade levels.~~

~~Standard 5: Application of Content – The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.~~

~~Knowledge~~

~~5(a) The teacher understands curriculum models used to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.~~

~~5(b) The teacher understands the responsibility of School Districts outlined in Idaho Code 33-2003, as well as the definition of Gifted/Talented Children defined in Idaho Code 33-2001-04 with respect to high performing capabilities in intellectual, creative, specific academic, leadership, and performing or visual arts areas.~~

~~Performance~~

~~5(c) The teacher implements specialized curriculum to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.~~

~~5(d) The teacher implements the components of Idaho Codes 33-2001-04 and 33-2003 with respect to individuals with high performing capabilities in intellectual, creative, specific academic, leadership and performing or visual arts areas.~~

~~Standard 6: Assessment – The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.~~

~~Knowledge~~

~~6(a) The teacher understands assessments used in identifying students for gifted education programs and services in intellectual and talent areas according to Idaho Code §33-2001 (4).~~

Performance

6(b) The teacher engages individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.

6(c) The teacher collaborates with colleagues and families in using multiple types of assessment information to make identification and learning progress decisions and to minimize bias in assessment and decision-making.

6(d) The teacher uses knowledge of measurement principles and practices to differentiate assessments and interpret results to guide educational decisions for individuals with gifts and talents.

6(e) The teacher selects and administer assessments used to identify students for gifted education programs and services.

6(f) The teacher uses assessment results to develop long- and short-range goals and objectives that take into consideration an individual's abilities and needs, the learning environment, and other factors related to diversity.

6(g) The teacher is able to recognize underrepresented populations in gifted education programs and choose assessments and interpret results in ways that minimize bias.

Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher understands the rationale, history, philosophies, theories, definitions, and models of gifted and talented education.

7(b) The teacher understands a variety of instructional strategies as supported by research for gifted and talented individuals used to enhance critical and creative thinking, problem-solving, and performance.

7(c) The teacher understands curriculum design that includes adaptations to content, process, product, and/or learning environments to differentiate instruction to meet the needs of individuals with gifts and talents.

7(d) The teacher understands how to develop curriculum in the five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

Performance

7(e) The teacher uses curriculum design that includes adaptations to content, process, product, and/or learning environments to address the needs of individuals with gifts and talents.

7(f) The teacher selects and utilizes a variety of curriculum and instructional strategies, as supported by research, to advance the learning of individuals with gifts and talents.

7(g) The teacher collaborates with families and professional colleagues in selecting, adapting, and using research-based strategies to promote challenging learning opportunities.

Standard 8: Instructional Strategies – The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands a variety of differentiated instructional strategies to advance individuals with gifts and talents.

Performance

8(b) The teacher uses and adapt a repertoire of research-based curriculum and instructional strategies to advance the learning and affective development of individuals with gifts and talents.

8(c) The teacher engages students in the development, practice, and transfer of meaningful experiences.

8(d) The teacher delivers curriculum in five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

Standard 9: Professional Learning and Ethical Practice – The teacher engages in ongoing professional learning and uses evidence to evaluate continually his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(h) The teacher understands how foundational knowledge, perspectives, and current issues influence professional practice and the education and treatment of individuals with gifts and talents, both in school and society.

9(i) The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with identification of individuals with gifts and talents and the delivery of gifted services.

Performance

9(j) The teacher uses foundational knowledge of the field and their professional ethical principles and program standards to inform gifted education practice, to engage in lifelong learning, and to advance the profession.

Standard 10: Leadership and Collaboration – The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher understands the array of program options and services available for individuals with gifts and talents.

10(b) The teacher understands effective implementation of gifted and talented programs.

10(c) The teacher understands the State of Idaho components of a district plan for individuals with gifts and talents, as described in IDAPA 08.02.03.171.03.

Performance

10(d) The teacher collaborates with families, other educators and related service providers, individuals with gifts and talents, and personnel from community agencies in culturally responsive ways to address the needs of individuals with gifts and talents across a range of learning experiences.

10(e) The teacher serves as a collaborative resource to colleagues regarding gifted and talented education.

10(f) The teacher educates parents, other family members, and colleagues about the social and emotional needs and development of gifted and talented students.

10(g) The teacher uses collaboration to promote the well-being of individuals with gifts and talents across a wide range of settings and experiences.

10(h) The teacher educates colleagues, parents/guardians, and others about the common misconceptions, myths, stereotypes, and controversial issues related to gifted and talented education.

10(i) and the teacher collaborates to implement program options and provide services for individuals with gifts and talents.

GLOSSARY OF TERMS

Individuals with Exceptionalities – Individuals with exceptionalities include individuals with sensory, physical, emotional, social, cognitive differences, developmentally delays, exceptional gifts and talents; and individuals who are or have been abused or neglected; whose needs differ so as to require personalized special education services in addition to or in tandem with educational services available through general education programs and other human service delivery systems.

Twice-Exceptional – Students who are twice-exceptional are identified as gifted and talented and are also identified with one or more disability or condition.

IDAHO STANDARDS FOR HEALTH TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Health Teacher Standards are widely recognized, but not all encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Knowledge

3(a) The teacher understands developmentally appropriate practices that engage students in health-enhancing behaviors.

3(b) The teacher knows strategies to help students develop the essential skills necessary to adopt, practice, and maintain health-enhancing behaviors (National Health Education Standards, 2nd Edition-American Cancer Society)..

Performance

3(c) The teacher encourages students to incorporate positive health-enhancing behaviors inside and outside the school setting.

3(d) The teacher helps students learn and use personal and social behaviors that promote positive relationships (e.g., avoiding abusive relationships, using refusal skills, setting life goals, and making healthy decisions).

~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Knowledge~~

~~4(a) The teacher understands Elementary and Secondary methods for teaching health literacy to include the following content areas of health:; Alcohol, Tobacco, & Other Drugs; Nutrition & Physical Activity; Injury Prevention & Safety; Mental, Emotional & Social Health; Prevention & Control of Disease; Consumer & Community Health; Growth, Development & Family Life; and Environmental Health.~~

~~4(b) The teacher understands the following health risk behaviors: Tobacco, Alcohol, and Other Drug use; Sexually Transmitted Diseases (STDs), including sexual behaviors resulting in human immunodeficiency virus (HIV), and unplanned pregnancies; Poor Dietary Behaviors; Lack of or Excessive Physical Activity; and Behaviors resulting in Intentional Injury.~~

~~4(c) The teacher understands the relationship between health education content areas and youth risk behaviors.~~

~~4(d) The teacher understands how to implement Idaho Content Standards for Literacy in Technical Subjects (Health) for grades 6-12.~~

~~4(e) The teacher understands Elementary and Secondary methods for teaching Health Skills to include: Analyzing Influences; Accessing Information; Interpersonal Communication; Decision Making; Goal Setting; Practicing Health Behaviors; and Advocacy.~~

~~Performance~~

~~4(f) The teacher instructs students about increasing health-enhancing behaviors, resulting in the reduction of health risk behaviors.~~

~~Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.~~

~~Knowledge~~

~~5(a) The teacher recognizes that student jargon and slang associated with high-risk behaviors is ever changing.~~

~~Performance~~

~~5(b) The teacher identifies and defines student jargon/slang associated with high-risk behaviors and translates this jargon/slang into terminology appropriate to the educational setting.~~

~~5(c) The teacher facilitates responsible decision making, goal setting, and alternatives to high-risk behaviors that enhance health.~~

5(d) The teacher creates a respectful and safe learning environment that is sensitive to controversial health issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher understands how positive evidence-based community health values and practices play a role in the planning process.

7(b) The teacher understands how to access valid, appropriate health information and health-promoting products and services, as it relates to the planning process.

7(c) The teacher understands the influence of culture, media, technology, and other factors on health, as it relates to the planning process.

7(d) The teacher knows when and how to access valid health resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).

Performance

7(e) The teacher modifies instruction to reflect current health-related research and local health policies.

7(f) The teacher accesses valid, appropriate health information and health promoting products and services.

7(g) The teacher analyzes the influence of culture, media, technology, and other factors on health and imbeds them in the planning process.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher knows the laws and codes specific to health education and health services to minors.

Performance

9(b) The teacher uses appropriate interventions following the identification, disclosure, or suspicion of student involvement in a high-risk behavior.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher understands methods of advocating for personal, family, and community health (e.g., letters to editor, community service projects, health fairs, health races/walks).

Performance

10(b) The teacher advocates for a positive school culture toward health and health education.

DRAFT

IDAHO STANDARDS FOR LITERACY TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Literacy Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

For the purposes of these standards, the term "literacy" includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards across all content areas.

Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands developmental progressions of K-12 literacy skills, including emerging literacy.

1(b) The teacher understands how learners apply literacy skills to make meaning of a wide range of texts, genres, and formats (e.g., informational text, digital media, social media, multimodal, literature).

Performance

1(c) The teacher creates learning experiences that take into account developmental stages and diverse methods for acquiring literacy.

Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The teacher understands there are multiple levels of literacy intervention and recognizes the advantages of beginning with the least intrusive for the student.

2(b) The teacher understands the theories and research needed to develop inclusive literacy learning environments that are responsive to students' local, national and international histories, individual and group identities, exceptional needs, and languages and dialects that affect student learning.

2(c) The teacher understands foundational theories of literacy and language acquisition as they relate to diverse learners, equity, and culturally responsive instruction.

2(d) The teacher understands the ways in which diversity influences the literacy development of all students.

Performance

2(e) The teacher provides students with linguistic, academic, and cultural literacy experiences that link their communities with the school.

2(f) The teacher adapts instructional materials and approaches to meet the language proficiency needs of English learners, students with exceptional needs, and students who struggle to acquire literacy skills and strategies.

2(g) The teacher systematically develops and implements multiple levels of literacy intervention, beginning with the least intrusive for the student.

Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

3(a) The teacher understands the role of routines in creating and maintaining positive learning environments using traditional print, digital, and online resources.

3(b) The teacher understands how to create inclusive learning environments that contextualize curriculum and instruction and help students participate actively in their own learning.

Performance

3(c) The teacher arranges instructional areas to provide easy access to books and other instructional materials for a variety of individual, small group, and whole class activities.

3(d) The teacher creates supportive environments where English learners are encouraged and given many opportunities to use English.

3(e) The teacher collaborates with colleagues to create an inclusive, literacy-rich environment to help students participate actively in their own literacy learning.

3(f) The teacher creates an inclusive literacy-learning environment that contextualizes curriculum instruction across content areas and helps students participate actively in their own learning.

3(g) The teacher facilitates effective student collaboration that provides authentic opportunities for the use of social, academic, and domain specific language.

Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences

~~***that make the discipline accessible and meaningful for learners to assure mastery of the content.***~~

~~**Knowledge**~~

~~4(a) The teacher understands theoretical, historical, and evidence-based components of reading (i.e., emerging literacy skills, concepts of print, phonological awareness, phonics, word recognition, fluency, vocabulary development, word analysis, and comprehension for a variety of forms and genres) and their development throughout the grades.~~

~~4(b) The teacher understands theoretical, historical, and evidence-based components of writing (i.e., writing process in a variety of forms, genres, and purposes; developmental spelling; sentence construction; conventions; characteristics of effective composing; keyboarding, word processing, and handwriting) and writing as a developmental process throughout the grades.~~

~~4(c) The teacher understands theoretical, historical, and evidence-based components of communication (i.e., development of oral language, verbal and non-verbal communication skills, structure of language, conventions of academic English, vocabulary acquisition and use, speaking, listening, and viewing) and their development throughout the grades.~~

~~4(d) The teacher understands the key concepts of literacy components and their interconnections as delineated in the Idaho Content Standards to include, but may not be limited to; Reading (Reading for Literature, Reading for Informational Text, and Reading Foundational Skills) based on grade level appropriateness and the developmental needs of student(s) being addressed, Writing, Speaking and Listening, and Language.~~

~~**Performance**~~

~~4(e) The teacher interprets major theories of literacy processes and development to understand the needs of all learners in diverse contexts.~~

~~4(f) The teacher creates a classroom environment that fosters intrinsic motivation to read and write (e.g., access to print, choice, challenge, interests).~~

~~4(g) The teacher analyzes and takes a critical stance toward a wide variety of quality traditional print, digital, and online resources.~~

~~4(h) The teacher analyzes variables of text complexity when selecting classroom materials.~~

~~***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***~~

~~**Knowledge**~~

~~5(a) The teacher understands specific literacy skills required for success in different content areas.~~

5(b) The teacher understands research based strategies that lead to students becoming independent, critical, and strategic readers, writers, speakers and listeners across content areas.

5(c) The teacher understands how to design literacy instruction to promote active participation and collaboration.

Performance

5(d) The teacher uses digital resources appropriately to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

5(e) The teacher designs and implements literacy instruction related to a breadth and depth of texts, purposes, and complexities that connects concepts so students become independent, critical, and strategic readers, writers, speakers, and listeners.

Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher understands the research related to assessments and its uses and misuses.

6(b) The teacher understands purposes for assessing the literacy performance of all learners, including tools for screening, diagnosis, progress monitoring, and measuring outcomes.

6(c) The teacher recognizes the basic technical adequacy of assessments (e.g., reliability, content, construct validity).

6(d) The teacher understands a variety of assessment frameworks, including the State of Idaho literacy assessments, proficiency standards, and student benchmarks.

Performance

6(e) The teacher collaborates with colleagues to administer, interpret, and use data for decision making about student assessment, instruction, intervention, and evaluation for individual students.

6(f) The teacher analyzes and uses assessment data to examine the effectiveness of specific intervention practices and students' responses to instruction.

6(g) The teacher demonstrates the ability to communicate results of assessments to students, teachers, parents, and other stakeholders.

6(h) The teacher designs a range of authentic literacy assessments that demonstrate an understanding of how learners develop and that address interpretive, critical, and evaluative abilities.

6(i) The teacher actively engages students in analyzing their own data, assessing their progress, and setting personal literacy goals.

Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Performance

7(a) The teacher plans literacy instruction which reflects curriculum integration and incorporates interdisciplinary teaching methods and materials.

7(b) The teacher uses knowledge of theory, research, and practice in literacy to plan standards based, coherent and relevant learning experiences using a range of different texts (e.g., across genres, periods, forms, authors, cultures, various forms of media) and instructional strategies that are motivating and accessible to all students, including English learners, students with exceptional needs, students from diverse language and learning backgrounds, and struggling literacy learners.

Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Performance

8(a)

8(b) The teacher plans and implements research based instructional strategies to meet unique language proficiency needs of English learners.

Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Performance

9(a) The teacher promotes the value of literacy by modeling a positive attitude toward literacy with students, colleagues, administrators, and parents and guardians.

9(b) The teacher consults with and advocates on behalf of teachers, students, families, and communities for effective literacy practices and policies.

Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher understands local, state, and national policies that affect literacy instruction.

~~**Performance**~~

~~10(b) The teacher engages in and reflects on a variety of experiences related to literacy that demonstrate understanding of and readiness for leadership, collaboration, ongoing professional development, and community engagement.~~

~~10(c) The teacher collaborates with others to build strong home to school and school to home literacy connections.~~

DRAFT

IDAHO STANDARDS FOR MATHEMATICS TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Mathematics Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher knows how to recognize students' mathematical development, knowledge, understandings, ways of thinking, mathematical dispositions, interests, and experiences.

1(b) The teacher knows of learning progressions and learning trajectories that move students toward more sophisticated mathematical reasoning.

Performance

1(c) The teacher encourages students to make connections and develop a cohesive framework for mathematical ideas.

1(d) The teacher applies knowledge of learning progressions and trajectories when creating assignments, assessments, and lessons.

1(e) The teacher plans and facilitates learning activities that value students' ideas and guide the development of students' ways of thinking, and mathematical dispositions in line with research-based learning progressions.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The teacher knows how to design lessons at appropriate levels of mathematical development, knowledge, understanding, and experience.

2(b) The teacher knows how to use assessment data and appropriate interventions for students.

Performance

2(c) The teacher adjusts and modifies instruction while adhering to the content standards, in order to ensure mathematical understanding for all students.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher knows a variety of problem-solving approaches for investigating and understanding mathematics.

4(b) The teacher understands concepts (as recommended by state and national mathematics education organizations) and applications of number and quantity, algebra, geometry (Euclidean and transformational), statistics (descriptive and infernal) and data analysis, and probability, functions, and trigonometry, and has the specialized and pedagogical content knowledge for teaching necessary for those concepts and applications to be implemented in the 6-12 curriculum.

4(c) The teacher knows how to make use of hands-on, visual, and symbolic mathematical models in all domains of mathematics.

4(d) The teacher knows how to use mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, conceptions, and makes connections between them.

4(e) The teacher knows the standards for mathematical practice, how to engage students in the use of those practices, and how they have shaped the discipline.

Performance

4(f) The teacher connects the abstract and the concrete and asks useful questions to clarify or improve reasoning.

4(g) The teacher uses hands-on, visual, and symbolic mathematical models in all domains of mathematics.

4(h) The teacher uses mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, and conceptions, and makes connections between them.

4(i) The teacher implements the standards for mathematical practice and engages students in the use of those practices.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher knows how to apply mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

Performance

5(b) The teacher applies mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher knows how to assess students' mathematical reasoning.

Performance

6(b) The teacher assesses students' mathematical reasoning.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher knows content and practice standards for mathematics and understands how to design instruction to help students meet those standards.

7(b) The teacher knows how to plan learning activities that help students move from their current understanding through research-based learning progressions.

Performance

7(c) The teacher plans and assesses instructional sequences that engage students in learning the formal structure and content of mathematics with and through mathematical practices.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher knows how to formulate or access questions and tasks that elicit students' use of mathematical reasoning and problem-solving strategies.

8(b) The teacher knows a variety of instructional strategies for investigating and understanding mathematics including inquiry, discourse, and problem-solving approaches.

8(c) The teacher knows how to facilitate expression of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.

8(d) The teacher understands the appropriate use of technology in teaching and learning of mathematics (e.g., graphing calculators, dynamic geometry software, statistical software).

8(e) The teacher knows how to use student conceptions and misconceptions to guide and facilitate learning.

Performance

8(f) The teacher poses questions and tasks that elicit students' use of mathematical reasoning and problem-solving strategies.

8(g) The teacher uses a variety of instructional strategies for investigating and understanding mathematics, including inquiry and problem-solving approaches.

8(h) The teacher facilitates exploration of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.

8(i) The teacher uses technology appropriately in the teaching and learning of (e.g., graphing calculators, dynamic geometry software, statistical software).

8(j) The teacher uses student conceptions and misconceptions to guide and facilitate learning.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

IDAHO STANDARDS FOR ONLINE TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the K-12 Online Teacher Standards are widely recognized, but not all-encompassing or absolute indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

Online instruction represents a continuum of teaching and learning practices. Some characteristics of blended and online instruction are unique. Online schools, programs, and courses serving K-12 students are structured to support the needs of students and teachers in online environments. The Online Teacher Standards extend the Idaho Core Teacher Standards.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Performance

2(a) The online teacher constructs learning experiences that take into account students' physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions in the online environment.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

2(a) The online teacher is familiar with legal mandates including, but not limited to the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility, as they pertain to the online environment.

2(b) The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.

Performance

2(c) The online teacher applies adaptive/assistive technologies to help people who have disabilities gain access to information that might otherwise be inaccessible.

2(d) The online teacher demonstrates unique ways to customize or personalize activities.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Knowledge

3(a) The online teacher knows how to leverage management strategies to foster student motivation and engagement.

3(b) The online teacher understands motivational theories and their application within online environments.

3(c) The online teacher knows the importance of synchronous and asynchronous communication.

3(d) The online teacher understands the unique aspects of communicating with students and stakeholders in online environments.

3(e) The online teacher demonstrates understanding of developmentally and age-appropriate digital citizenship and responsibility.

Performance

3(f) The online teacher applies best practices to foster student motivation and engagement in online learning environments.

3(g) The online teacher provides timely and effective feedback.

3(h) The online teacher demonstrates application in addressing technical issues online students may have.

3(i) The online teacher is an effective and responsive communicator who demonstrates and models the ability to select and use appropriate forms of communication.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

Performance

4(a) The online teacher demonstrates knowledge of digital citizenship, access, equity, and safety concerns in online environments.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The online teacher understands current best practices in online teaching and learning pertinent to subjects taught.

5(b) The online teacher understands appropriate uses of technologies to promote student learning and engagement within the content.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The online teacher understands the importance of maintaining accurate records of student performance for instruction and accountability.

Performance

6(b) The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques appropriate to the online environment.

6(c) The online teacher practices appropriate strategies to ensure security and confidentiality of online student assessments and assessment data.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Performance

7(a) The online teacher designs course materials that clearly communicate to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.

7(b) The online teacher designs and develops subject-specific course materials appropriate to the online environment.

7(c) The online teacher uses multiple forms of technologies to design course materials or media.

7(d) The online teacher designs course materials to facilitate interaction and discussion.

7(e) The online teacher practices legal and ethical media rights and responsibilities.

7(f) The online teacher demonstrates use of design principles in the creation of course materials.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The online teacher understands how to adapt instructional strategies for an online environment.

~~8(b) The online teacher understands appropriate functions of Learning Management Systems (LMS) and Content Management Systems (CMS) for student learning.~~

~~8(c) The online teacher understands the variety of instructional delivery including synchronous and asynchronous modes (e.g., full-time online, blended, face-to-face).~~

~~**Performance**~~

~~8(d) The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs.~~

~~8(e) The online teacher adapts tools, resources, and student-centered instructional strategies to engage students and enhance learning.~~

~~8(f) The online teacher demonstrates application of technologies for teaching, learning, and communication.~~

~~Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.~~

~~**Knowledge**~~

~~9(a) The online teacher understands concepts, biases, debates, and processes of inquiry that are central to the field of online teaching and learning.~~

~~9(b) The online teacher understands the importance of maintaining accurate records of communication and interaction with students and stakeholders for accountability and management.~~

~~Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.~~

~~**Knowledge**~~

~~***10(a)*** The online teacher understands the importance of educating stakeholders and advocating within the community to advance online learning.~~

IDAHO STANDARDS FOR PHYSICAL EDUCATION TEACHERS

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Physical Education Teacher Standards are widely recognized, but not all encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Performance

1(a) The teacher assesses the skillful movement, physical activity, and exercise and fitness levels of students; designs developmentally appropriate instruction; and extends learning through collaboration with communities, colleagues, families and other professionals.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Performance

2(a) The teacher provides opportunities that incorporate individual differences (e.g., various physical abilities and limitations, culture, and gender) in skillful movement, physical activity, exercise and fitness to help students gain physical competence and confidence.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Knowledge

3(a) The teacher knows how to help students cultivate responsible personal and social behaviors that promote positive relationships and a productive environment in physical education and physical activity settings.

3(b) The teacher knows how to engage students in learning about the use of technology operations, concepts, and applications pertinent to healthy active lifestyles (e.g., heart rate monitors, pedometers, global positioning systems, computer software, social media).

3(c) The teacher understands principles of effective management in indoor and outdoor physical education and physical activity settings.

Performance

3(d) The teacher implements strategies and activities to promote positive peer relationships (e.g., caring, mutual respect, support, safety, sportsmanship, and cooperation).

3(e) The teacher uses strategies to motivate students to participate in physical activity inside and outside the school setting.

3(f) The teacher utilizes principles of effective management in indoor and outdoor physical education and physical activity settings.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher understands the relationship between skillful movement, physical activity, exercise, fitness, health outcomes, well-being and quality of life.

5(b) The teacher understands that daily physical activity provides opportunities for enjoyment, challenge, self-expression, and social interaction.

5(c) The teacher understands the scientific foundation of physical activity (e.g., motor behavior and development, human anatomy and physiology, exercise physiology, bio-mechanics, psychosocial aspects of physical activity).

5(d) The teacher knows the appropriate rules, etiquette, instructional cues, tactics (skills and strategies) and techniques for a variety of physical education activities (e.g., aquatics, sports, games, lifetime activities, dance, rhythmical activities, and outdoor/adventure activities).

5(e) The teacher understands cultural, historical, and philosophical dimensions of physical education and physical activity.

Performance*

5(f) The teacher instructs students about the relationship between skillful movement, physical activity, fitness, health outcomes, well-being and quality of life.

5(g) The teacher instructs students in the rules, tactics, (skills, and strategies) and techniques of a variety of physical activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).

5(h) The teacher instructs students in the scientific foundation of physical activity (e.g., motor behavior and development, human anatomy and physiology, exercise philosophy, biomechanics, psychosocial aspects of physical activity).

5(i) The teacher fosters student reflection regarding cultural, historical and philosophical dimension of physical education and physical activity.

5(j) The teacher demonstrates improvement and maintains a health enhancing level of physical fitness and physical activity throughout the program.

5(k) The teacher facilitates technical demonstration and effective performance (tactics and techniques), in a variety of physical education activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).

* Without discrimination against those with disabilities, physical education teacher candidates with special needs are allowed and encouraged to utilize a variety of accommodations and/or modifications to demonstrate competent performance concepts (modified/adapted equipment, augmented communication devices, multi-media devices) and fitness (weight training programs, exercise logs).

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

6(a) The teacher understands appropriate assessment protocols sensitive to student needs.

Performance

6(b) The teacher demonstrates appropriate assessment protocols sensitive to student needs.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

7(a) The teacher knows a variety of management routines (e.g., time transitions, environment, students/staff, equipment) and instructional strategies to maximize physical education activity time and student success.

7(b) The teacher knows how to expand the curriculum utilizing a variety of offerings, through the use of family engagement, school activities, and community resources (e.g., family fitness night, parks, golf courses, climbing walls, multi-use facility agreements, and service organizations).

Performance

7(c) The teacher applies a variety of management routines (e.g., time, transitions, environment, students/staff, equipment) and curricular/ instructional strategies to maximize physical education activity and student success.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher knows multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

Performance

8(b) The teacher utilizes multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher knows how one's own personal skillful movement, physical activity, exercise, and fitness competence and understands its impact on teaching and student motivation.

Performance

9(b) The teacher reflects on one's own personal skillful movement, physical activity, exercise, and fitness competence and its impact on teaching and student motivation.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

10(a) The teacher knows how to promote and advocate for healthy active schools involving physical education, physical activity before, during, and after the school day, and staff, family and community involvement.

10(b) The teacher knows how to promote and advocate for physical education and physical activity to students, staff, administrators, parents, school boards and community partners.

Performance

10(c) The teacher demonstrates a variety of strategies to promote and advocate for healthy active schools.

Standard 11: Safety - The teacher provides a safe physical education learning environment.

Knowledge

11(a) The teacher understands the inherent risks involved in physical activity.

11(b) The teacher recognizes safety considerations when planning and providing instruction.

11(c) The teacher recognizes factors that influence safety in physical activity settings (e.g., skill, fitness, developmental level of students, equipment, attire, facilities, travel, and weather).

11(d) The teacher recognizes the level of supervision required for the health and safety of students in all locations (e.g., teaching areas, locker rooms, off-campus).

11(e) The teacher understands school policies regarding the emergency action plan, student injury medical treatment, and transportation.

11(f) The teacher understands the appropriate steps when responding to safety situations.

11(g) The teacher knows cardiopulmonary resuscitation (CPR) and first aid.

Performance

11(h) The teacher documents safety issues when planning and implementing instruction to ensure a safe learning environment.

11(i) The teacher informs students of the risks associated with physical activity.

11(j) The teacher instructs students in appropriate safety procedures for physical activity and corrects inappropriate actions.

11(k) The teacher identifies and corrects potential hazards in physical education and physical activity facilities and equipment.

~~11(l) The teacher maintains CPR and first aid certification.~~

DRAFT

GLOSSARY OF TERMS

Exercise – A subcategory of physical activity that is planned, structured, repetitive, and purposive in the sense that the improvement or maintenance of one of more components of physical fitness is the objective. "Exercise" and "exercise training" frequently are used interchangeably and generally refer to physical activity performed during leisure time with the primary purpose of improving or maintaining physical fitness, physical performance, or health.*

Health – A human condition with physical, social and psychological dimensions, each characterized on a continuum with positive and negative poles. Positive health is associated with a capacity to enjoy life and to withstand challenges; it is not merely the absence of disease. Negative health is associated with illness, and in the extreme, with premature death.*

Health-Enhancing Physical Activity – Activity that, when added to baseline activity, produces health benefits. Brisk walking, jumping rope, dancing, playing tennis or soccer, lifting weights, climbing on playground equipment at recess, and doing yoga are all examples of health-enhancing physical activity. *

Health-Related Fitness – A type of physical fitness that includes cardiorespiratory fitness, muscular strength and endurance, body composition, flexibility, and balance.*

Moderate-Intensity Physical Activity – On an absolute scale, physical activity that is done at 3.0 to 5.9 times the intensity of rest. On a scale relative to an individual's personal capacity, moderate-intensity physical activity is usually a 5 or 6 on a scale of 0 to 10.*

Performance-Related Fitness – Those attributes that significantly contribute to athletic performance, including aerobic endurance or power, muscle strength and power, speed of movement, and reaction time.*

Physical Activity – Any bodily movement produced by the contraction of skeletal muscle that increases energy expenditure above a basal level. In these Guidelines, physical activity generally refers to the subset of physical activity that enhances health.*

Physical Fitness – The ability to carry out daily tasks with vigor and alertness, without undue fatigue, and with ample energy to enjoy leisure-time pursuits and respond to emergencies. Physical fitness includes a number of components consisting of cardiorespiratory endurance (aerobic power), skeletal muscle endurance, skeletal muscle strength, skeletal muscle power, flexibility, balance, speed of movement, reaction time, and body composition.*

Skillful Movement – An efficient, coordinated, fluent and aesthetic goal-directed voluntary performance that consists of specific body and/or limb behaviors that have physiological and biomechanical components.

Vigorous Intensity Physical Activity – On an absolute scale, physical activity that is done at 6.0 or more times the intensity of rest. On a scale relative to an individual's personal capacity, vigorous intensity physical activity is usually a 7 or 8 on a scale of 0 to 10.*

* Definitions quoted from the U.S. Department of Health and Human Services 2008 Physical Activity Guidelines for Americans

IDAHO FOUNDATION STANDARDS FOR SCIENCE TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Science Teacher Standards are widely recognized, but not all encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, science teachers must meet Idaho Core Teacher Standards and at least one of the following: (1) Idaho Standards for Biology Teachers, (2) Idaho Standards for Chemistry Teachers, (3) Idaho Standards for Earth and Space Science Teachers, (4) Idaho Standards for Natural Science Teachers, (5) Idaho Standards for Physical Science Teachers, or (6) Idaho Standards for Physics Teachers.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher knows how students use Science and Engineering Practices and Crosscutting Concepts to develop understanding of the Disciplinary Core Ideas.

1(b) The teacher knows common misconceptions and/or partial understandings of scientific disciplinary core ideas and how they develop and affect student learning.

Performance

1(c) The teacher addresses common misconceptions and/or partial understandings of scientific disciplinary core ideas as they develop and affect student learning.

1(d) The teacher utilizes Science and Engineering Practices and Crosscutting Concepts to develop student understanding of the Disciplinary Core Ideas.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands the Idaho State Science Standards within their appropriate certification, including all components.

4(b) The teacher is familiar with how history has shaped our current understanding of the nature of science and scientific processes.

4(c) The teacher understands the core ideas of their respective discipline (i.e., Disciplinary Core Ideas).

4(d) The teacher understands the interconnectedness among the science disciplines (i.e., Crosscutting Concepts).

4(e) The teacher understands the processes of science (i.e., Science and Engineering Practices).

Performance

4(f) The teacher designs and implements lessons (e.g., activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.

4(g) The teacher uses diverse examples from history to teach how our current understanding of the nature of science and scientific processes has changed.

4(h) The teacher uses the core ideas of their respective discipline (i.e., Disciplinary Core Ideas) to design and implement lessons.

4(i) The teacher designs and implements lessons (e.g., activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.

4(j) The teacher models and guides students in the use of the processes of science. (i.e., Science and Engineering Practices).

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher knows how to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

Performance

5(b) The teacher designs opportunities to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands how to implement Science and Engineering Practices in instructional planning.

8(b) The teacher understands how to use research based best practices to engage a diverse group of students in learning science (e.g., project-based learning, 5E Instruction, place-based).

8(c) The teacher understands how to apply mathematics and technology to analyze, interpret, and display scientific data.

8(d) The teacher understands technical writing as a way to communicate science concepts and processes.

Performance

8(e) The teacher implements Science and Engineering Practices in instructional planning.

8(f) The teacher uses research based practices to engage a diverse group of students in learning science (e.g., project-based learning, 5E Instruction, place-based).

8(g) The teacher designs lessons which allow students to utilize mathematics and technology to analyze, interpret, and display scientific data.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

9(a) The teacher understands the importance of keeping current on research related to how students learn science.

9(b) The teacher understands the importance of keeping current on scientific research findings.

Performance

9(c) The teacher incorporates current research related to student learning of science into instructional design.

9(d) The teacher incorporates current scientific research findings into instructional design.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Standard 11: Safety - The science teacher demonstrates and maintains chemical safety, safety procedures, and the ethical treatment of living organisms needed in the science classroom appropriate to their area of licensure.

Knowledge

11(a) The teacher knows how to design activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.

11(b) The teacher understands how to design activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.

11(c) The teacher understands how to ensure safe science activities appropriate for the abilities of all students.

11(d) The teacher understands how to design activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.

11(e) The teacher knows how to evaluate a facility for compliance with safety regulations.

11(f) The teacher knows how to procure and use Material Safety Data Sheets (MSDS).

Performance

11(g) The teacher designs activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.

11(h) The teacher designs activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.

11(i) The teacher ensures safe science activities appropriate for the abilities of all students.

11(j) The teacher designs activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.

11(k) The teacher demonstrates the ability to evaluate a facility for compliance to safety regulations.

11(l) The teacher demonstrates the ability to procure and use Material Safety Data Sheet (MSDS).

Standard 12: Laboratory and Field Activities - The science teacher demonstrates competence in conducting laboratory, and field activities.

Knowledge

12(a) The teacher knows a variety of laboratory and field techniques appropriate to their content area.

12(b) The teacher knows a variety of strategies to develop students' laboratory and field skills.

Performance

12(c) The teacher engages students in a variety of laboratory and field techniques appropriate to their content area.

12(d) The teacher uses a variety of instructional strategies in laboratory and field experiences to engage students in developing their understanding of the natural world.

DRAFT

IDAHO STANDARDS FOR BIOLOGY TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, biology teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Biology Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands the major underlying theories and principles of molecular and organismal biology, including: structure and function, growth and development, and organization for matter and energy flow.

4(b) The teacher understands the major underlying theories and principles of ecosystems including: interdependent relationships; cycles of energy and matter transfer; the relationship among dynamics, function, and resilience; and social interactions and group behavior.

~~4(c) The teacher understands the major underlying theories and principles of heredity, including structure and function of DNA, and inheritance and variation of traits.~~

~~4(d) The teacher understands the major underlying theories and principles of biological adaptation; including evidence of common ancestry and diversity, natural selection, adaptation, and biodiversity and humans.~~

~~**Performance**~~

~~4(e) The teacher develops lessons based on the major underlying theories and principles of molecular and organismal biology including; structure and function, growth and development, and organization for matter and energy flow.~~

~~4(f) The teacher develops lessons based on the major underlying theories and principles of ecosystems including: interdependent relationships; cycles of energy and matter transfer; the relationship among dynamics, function, and resilience; and social interactions and group behavior.~~

~~4(g) The teacher develops lessons based on the major underlying theories and principles of heredity; including structure and function of DNA, and inheritance and variation of traits.~~

~~4(h) The teacher develops lessons based on the major underlying theories and principles of biological adaptation; including evidence of common ancestry and diversity, natural selection, adaptation, and biodiversity and humans.~~

~~***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***~~

IDAHO STANDARDS FOR CHEMISTRY TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, chemistry teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Chemistry Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher has a broad knowledge of mathematical principles and is familiar with the connections that exist between mathematics and chemistry.

4(b) The teacher understands fundamental structures of atoms and molecules.

4(c) The teacher understands basic principles of ionic, covalent, and metallic bonding.

4(d) The teacher understands periodicity of physical and chemical properties of elements.

4(e) The teacher understands laws of conservation of matter and energy.

4(f) The teacher understands fundamentals of chemical kinetics, equilibrium and thermodynamics.

4(g) The teacher understands kinetic molecular theory and gas laws.

4(h) The teacher understands mole concept, stoichiometry, and laws of composition.

4(i) The teacher understands solutions and colligative properties.

4(j) The teacher understands acids/base chemistry.

4(k) The teacher understands fundamental oxidation-reduction chemistry.

4(l) The teacher understands fundamental organic chemistry and biochemistry.

4(m) The teacher understands applications of chemistry in personal and community health and environmental quality.

4(n) The teacher understands fundamentals of nuclear chemistry.

4(o) The teacher understands the importance of accuracy and precision in measurements.

4(p) The teacher understands the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.

4(q) The teacher understands the different types of chemical reactions.

4(r) The teacher understands symbolic and particulate models and how they can be used to interpret and explain macroscopic observations.

Performance

4(s) The teacher models the application of mathematical principles and the connections that exist between mathematics and chemistry.

4(t) The teacher demonstrates their knowledge of fundamental structures of atoms and molecules.

4(u) The teacher applies the basic principles of ionic, covalent, and metallic bonding.

4(v) The teacher utilizes the periodic table to predict the physical and chemical properties of elements (e.g. ionization energy, atomic radius, types of bonding).

4(w) The teacher illustrates the laws of conservation of matter and energy qualitatively and quantitatively (e.g. balancing chemical equations, enthalpy calculations).

4(x) The teacher applies the scientific principles and evidence of chemical kinetics, equilibrium and thermodynamics to the behavior of matter.

4(y) The teacher is able to use Kinetic Molecular Theory and concepts of intermolecular forces to make predictions about the macroscopic properties of gases, including both ideal and nonideal.

4(z) The teacher can apply the mole concept, stoichiometry, and laws of composition (e.g. converting moles to mass).

~~4(aa) The teacher applies the concepts of solution chemistry (e.g. calculate and prepare solutions at precise concentrations, colligative properties).~~

~~4(bb) The teacher applies the concepts of acids/base chemistry to predict properties and reactions.~~

~~4(cc) The teacher is able to identify oxidation-reduction reactions and justify the identification in terms of electron transfer.~~

~~4(dd) The teacher demonstrates an understanding of the fundamental ideas of organic chemistry and how they relate to biochemistry.~~

~~4(ee) The teacher relates the fundamental principles of chemistry to personal and community health and environmental quality.~~

~~4(ff) The teacher can develop models to illustrate the changes in the composition of the nucleus of the atom and the energy released during the processes of fission, fusion, and radioactive decay.~~

~~4(gg) The teacher applies accuracy and precision to their measurements and calculations.~~

~~4(hh) The teacher applies the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.~~

~~4(ii) The teacher categorizes and identifies a variety of chemical reaction types.~~

~~4(jj) The teacher can utilize symbolic and particulate models to interpret and explain macroscopic observations.~~

~~Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.~~

~~Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.~~

~~Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.~~

~~Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.~~

~~Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

DRAFT

IDAHO STANDARDS FOR EARTH AND SPACE SCIENCE TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, earth and space science teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the earth and space science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands the major underlying theories and principles of Earth's place in the universe including; the universe and its stars, Earth and the solar system, the history of planet Earth, radiometric dating, and electromagnetic radiation.

4(b) The teacher understands major underlying theories and principles of Earth's systems including; plate tectonics, Earth materials and systems, the roles of water in Earth's surface processes, weather and climate, and biogeology.

~~4(c) The teacher understands the major underlying theories and principles of Earth and human activity including; natural resources, natural hazards, human impacts on Earth systems, and global climate change.~~

~~**Performance**~~

~~4(d) The teacher develops lessons based on the major underlying theories and principles of Earth's place in the universe including; the universe and its stars, Earth and the solar system, the history of planet Earth, radiometric dating, and electromagnetic radiation.~~

~~4(e) The teacher develops lessons based on the major underlying theories and principles of Earth's systems including; plate tectonics, Earth materials and systems, the roles of water in Earth's surface processes, weather and climate, and biogeology.~~

~~4(f) The teacher develops lessons based on the major underlying theories and principles of Earth and human activity including; natural resources, natural hazards, human impacts on Earth systems, and global climate change.~~

~~Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.~~

~~Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.~~

~~Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.~~

~~Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.~~

~~Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.~~

~~Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.~~

~~IDAHO STANDARDS FOR NATURAL SCIENCE TEACHERS~~

~~Teachers with natural science endorsements must meet all of the following standards:~~

1. ~~***Idaho Core Teacher Standards***~~
2. ~~***Idaho Foundation Standards for Science Teachers AND***~~
3. ~~***Idaho Standards for Biology Teachers OR***~~
4. ~~***Idaho Standards for Earth and Space Science Teachers OR***~~
5. ~~***Idaho Standards for Chemistry Teachers OR***~~
6. ~~***Idaho Standards for Physics Teachers***~~

DRAFT

~~IDAHO STANDARDS FOR PHYSICAL SCIENCE TEACHERS~~

~~Teachers with physical science endorsements must meet all of the following standards:~~

1. ~~***Idaho Core Teacher Standards***~~
2. ~~***Idaho Foundation Standards for Science Teachers*** ***AND***~~
3. ~~***Idaho Standards for Chemistry Teachers*** ***OR***~~
4. ~~***Idaho Standards for Physics Teachers***~~

DRAFT

~~IDAHO STANDARDS FOR PHYSICS TEACHERS~~

~~All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here physics teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The following knowledge and performance statements for the physics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

~~Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.~~

~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.~~

~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Knowledge~~

~~4(a) The teacher understands electromagnetic and gravitational interactions as well as concepts of matter and energy to formulate a coherent understanding of the natural world.~~

~~4(b) The teacher understands the major concepts and principles of the basic areas of physics, including classical and quantum mechanics, thermodynamics, waves, optics, electricity, magnetism, and nuclear physics.~~

4(c) The teacher knows how to apply appropriate mathematical and problem solving principles including algebra, geometry, trigonometry, calculus, and statistics in the description of the physical world and is familiar with the connections between mathematics and physics.

Performance

4(d) The teacher develops and applies conceptual models to describe the natural world.

4(e) The teacher tests and evaluates physical models through direct comparison with the phenomena via laboratory and field activities and demonstrations.

4(f) The teacher utilizes the appropriate mathematical principles in examining and describing models for explaining physical phenomena.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

IDAHO FOUNDATION STANDARDS FOR SOCIAL STUDIES TEACHERS

Social Studies teachers must meet Idaho Core Teacher Standards and Idaho Foundations Standards for Social Studies Teachers and one of the following: (1) Idaho Standards for Economics Teachers, (2) Idaho Standards for Geography Teachers, (3) Idaho Standards for Government and Civics Teachers, (4) Idaho Standards for History Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Social Studies Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1(a) The teacher understands the influences that contribute to intellectual, social, and personal development.

1(b) The teacher understands the impact of learner environment on student learning.

Performance

1(c) The teacher provides opportunities for learners to engage in civic life, politics, and government.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher has a broad knowledge base of the social studies and related disciplines (e.g., history, economics, geography, political science, behavioral sciences, humanities).

4(b) The teacher understands how and why various governments and societies have changed over time.

4(c) The teacher understands how and why independent and interdependent systems of trade and production develop.

4(d) The teacher understands the impact that cultures, religions, technologies, social movements, economic systems, and other factors have on civilizations, including their own.

4(e) The teacher understands the responsibilities and rights of citizens in the United States of America's political system, and how citizens exercise those rights and participate in the system.

4(f) The teacher understands how geography affects relationships between people, and environments over time.

4(g) The teacher understands how to identify primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts.

Performance

4(h) The teacher compares and contrasts various governments and cultures in terms of their diversity, commonalties, and interrelationships.

4(i) The teacher incorporates methods of inquiry and scholarly research into the curriculum.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

5(a) The teacher incorporates current events and historical knowledge, to guide learners as they predict how people from diverse global and cultural perspectives may experience and interpret the world around them.

5(b) The teacher understands how to effectively analyze the use of primary and secondary sources in interpreting social studies concepts.

Performance

5(c) The teacher demonstrates and applies chronological historical thinking.

5(d) The teacher integrates knowledge from the social studies in order to prepare learners to live in a world with limited resources, cultural pluralism, and increasing interdependence.

5(e) The teacher uses and interprets primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables) when presenting social studies concepts.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

8(a) The teacher understands strategies for clear and coherent reading, speaking, listening, and writing within the context of social studies, consistent with approved 6-12 standards.

Performance

8(b) The teacher fosters clear and coherent learner reading, speaking, listening, and writing skills within the context of social studies, consistent with approved 6-12 standards.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

~~IDAHO STANDARDS FOR ECONOMICS TEACHERS~~

~~All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Economics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The following knowledge and performance statements for the Economics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

~~Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.~~

~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.~~

~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Knowledge~~

~~4(a) The teacher understands basic economic concepts and models (e.g., scarcity, opportunity cost, productive resources, voluntary exchange, supply and demand credit/debt, market incentives, interest rate, imports/exports).~~

~~4(b) The teacher understands economic indicators (e.g., unemployment, inflation, GDP) in assessing the health of the economy.~~

~~4(c) The teacher understands the functions and characteristics of money.~~

4(d) The teacher understands economic systems and the factors that influence each system (e.g., culture, values, belief systems, environmental and geographic impacts, and technology).

4(e) The teacher knows different types of economic institutions and how they differ from one another (e.g., market structures, stock markets, banking institutions, labor unions).

4(f) The teacher understands how economic institutions shaped history and influence current economic practices.

4(g) The teacher understands the principles of sound personal finance and personal investment.

4(h) The teacher understands fiscal and monetary policy.

Performance

4(i) The teacher demonstrates comprehension, analysis, and relevance of economic principles and concepts.

4(j) The teacher engages learners in the application of economic concepts in their roles as consumers, producers, and workers.

4(k) The teacher employs and promotes learner use of graphs, models, and equations to illustrate economic concepts.

4(l) The teacher illustrates how economic indicators influence historic and current policy.

4(m) The teacher provides examples of the principles of business organizations and entrepreneurship.

4(n) The teacher fosters understanding of the important role of economic systems on economic growth.

4(o) The teacher develops learner understanding of economic issues through application of cost/benefit analyses.

4(p) The teacher conveys the importance and implications of the global marketplace.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

~~Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.~~

~~Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.~~

~~Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.~~

DRAFT

~~IDAHO STANDARDS FOR GEOGRAPHY TEACHERS~~

~~All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Geography teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The following knowledge and performance statements for the Geography teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

~~Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.~~

~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.~~

~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Knowledge~~

~~4(a) The teacher understands the five themes of geography (movement, region, human environment interaction, location, and place) and how they are interrelated.~~

~~4(b) The teacher understands the characteristics and functions of globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases.~~

Performance

4(c) The teacher uses past and present events to interpret political, physical, and cultural patterns.

4(d) The teacher connects the earth's dynamic physical systems to its impact on humans.

4(e) The teacher connects population dynamics and distribution to physical, cultural, historical, economic, and political circumstances.

4(f) The teacher connects the earth's physical systems and varied patterns of human activity to world environmental issues.

4(g) The teacher incorporates geographic resources (e.g., globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases).

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

~~IDAHO STANDARDS FOR AMERICAN GOVERNMENT/POLITICAL SCIENCE TEACHERS~~

~~All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here government and civics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~The following knowledge and performance statements for the American Government/Political Science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

~~Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.~~

~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~

~~Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.~~

~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~

~~Knowledge~~

~~4(a) The teacher understands the relationships between civic life, politics, and government.~~

~~4(b) The teacher understands the political spectrum and factors that affect individual political views and behavior.~~

~~4(c) The teacher understands the purpose and foundations of government and constitutional principles of the United States of America's political system.~~

4(d) The teacher understands the organization of local, state, federal, and tribal governments, how power has evolved, and how responsibilities are organized, distributed, shared, and limited as defined by the Constitution of the United States of America.

4(e) The teacher understands the importance of international relations (e.g., evolution of foreign policy, national interests, global perspectives, international involvements, human rights, economic impacts, environmental issues).

4(f) The teacher understands the role of elections, political parties, interest groups, media (including social), and public policy (foreign and domestic) in shaping the United States of America's political system.

4(g) The teacher understands the civic responsibilities and rights of all individuals in the United States of America (e.g., individual and community responsibilities, participation in the political process, rights and responsibilities of non-citizens, the electoral process).

4(h) The teacher understands different forms of government found throughout the world.

Performance

4(i) The teacher assists learners in developing an understanding of citizenship and promotes learner engagement in civic life, politics, and government.

4(j) The teacher demonstrates comprehension and analysis of the foundations and principles of the United States of America political system and the organization and formation of the United States of America government.

4(k) The teacher demonstrates comprehension and analysis of United States of America foreign policy and international relations.

4(l) The teacher integrates global perspectives and current events into the study of civics and government.

4(m) The teacher engages learners in civil discourse and promotes its use in a democratic society.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

~~***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***~~

~~***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***~~

~~***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

DRAFT

IDAHO STANDARDS FOR HISTORY TEACHERS

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here history teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the History teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

4(a) The teacher understands themes and concepts in history (e.g., exploration, expansion, migration, immigration).

4(b) The teacher understands the political, social, cultural, and economic responses to industrialization and technological innovation.

4(c) The teacher understands how international and domestic relations impacted the development of the United States of America.

4(d) The teacher understands how significant compromises, conflicts, and events defined and continue to define the United States of America.

4(e) The teacher understands the political, social, cultural, and economic development of the United States of America.

4(f) The teacher understands the political, social, cultural, and economic development of the peoples of the world.

4(g) The teacher understands the impact of gender, race, ethnicity, religion, and national origin on history.

4(h) The teacher understands the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts, historical perspectives, and biases.

Performance

4(i) The teacher makes chronological and thematic connections between political, social, cultural, and economic concepts.

4(j) The teacher incorporates the issues of gender, race, ethnicity, religion, and national origin into the examination of history.

4(k) The teacher facilitates student inquiry regarding international relationships.

4(l) The teacher relates the role of compromises and conflicts to continuity and change across time.

4(m) The teacher demonstrates an ability to research, analyze, evaluate, and interpret historical evidence.

4(n) The teacher incorporates the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts, historical perspectives, and biases.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

~~***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***~~

~~***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***~~

DRAFT

~~IDAHO STANDARDS FOR SOCIAL STUDIES TEACHERS~~

~~Teachers with a social studies endorsement must meet the following Idaho Standards:~~

1. ~~***Idaho Core Teacher Standards AND***~~
2. ~~***Foundation Social Studies Standards AND***~~
3. ~~***History Standards OR***~~
4. ~~***Government and Civics Standards OR***~~

IDAHO STANDARDS FOR TEACHER LEADERS

~~The following knowledge and performance statements for the Standards for teacher leaders are widely recognized, but not all encompassing or absolute, indicators that teacher leader candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.~~

Standard 1: Understanding Adults as Learners to Support Professional Learning - The teacher leader understands how adults acquire and apply knowledge and uses this information to promote a culture of shared responsibility for school outcomes.

~~**Knowledge: The teacher leader demonstrates knowledge of:**~~

~~1(a) Learning theory for adults.~~

~~1(b) Stages of career development and learning for colleagues and application of the concepts of adult learning to the design and implementation of professional development frameworks.~~

~~**Performance: The teacher leader:**~~

~~1(c) Models and facilitates high quality professional learning for individuals as well as groups.~~

~~1(d) Supports colleagues' differentiated professional growth.~~

Standard 2: Accessing and Using Research to Improve Professional Practice - The teacher leader understands how educational research is used to create new knowledge, support specific policies and practices, improve instructional practice and make inquiry a critical component in teacher learning and school culture; and uses this knowledge to model and facilitate colleagues' use of appropriate research-based strategies and data-driven action plans.

~~**Knowledge: The teacher leader demonstrates knowledge of:**~~

~~2(a) Action research methodology.~~

~~2(b) Analysis of research data and development of a data-driven action plan that reflects relevance and rigor.~~

~~2(c) Implementation strategies for research based change and for communication of findings for programmatic changes.~~

~~2(d) Identification of high quality research.~~

Performance: The teacher leader:

2(e) Models and facilitates relevant and targeted action research and engages colleagues in identifying research questions and designing and conducting action research to improve outcomes.

2(f) Models and facilitates analysis and application of research findings for informed decision-making to improve outcomes with a focus on increased productivity and effectiveness.

2(g) Assists with application and supports communication of action research findings to improve outcomes.

2(h) Accesses high quality research from various resources.

Standard 3: Supporting Professional Learning - The teacher leader understands the constantly evolving nature of teaching and learning.

Knowledge: The teacher leader demonstrates knowledge of:

3(a) The standards of high quality professional development and their relevance to improved learning.

3(b) Effective use of professional development needs assessment, designs, protocols, and evaluation tools; selection and evaluation of resources appropriate to the identified need(s) along the professional career continuum.

3(c) Appropriate technologies to support collaborative and differentiated professional learning for continuous improvement.

3(d) The role of shifting cultural demographics in educational practice.

Performance: The teacher leader:

3(e) Accurately identifies the professional development needs and opportunities for colleagues in the service of improving education.

3(f) Works with staff and staff developers to design and implement ongoing professional learning based on assessed teacher and student needs and involves colleagues in development and implementation of a coherent, systemic, and integrated approach to professional development aligned with school improvement goals.

3(g) Uses appropriate technologies to support collaborative and differentiated professional learning.

3(h) Continually assesses the effectiveness of professional development activities and adjusts appropriately.

Standard 4: Facilitating Improvements in Instruction and Student Learning - The teacher leader demonstrates a deep understanding of the teaching and learning process and uses this knowledge to advance the professional skills of colleagues by being a continuous learner, modeling reflective practice, and working collaboratively with colleagues to ensure instructional practices are aligned to a shared vision, mission and goal.

~~**Knowledge: The teacher leader demonstrates knowledge of:**~~

~~4(a) Research-based curriculum, instruction, and assessment and their alignment with desired outcomes.~~

~~4(b) The Idaho Framework for Teaching, effective observation and strategies for providing instructional feedback.~~

~~4(c) Role and use of critical reflection in improving professional practice.~~

~~4(d) Effective use of individual interactions, structures, and processes for creating a collaborative culture including networking, facilitation, team building, goal setting, and conflict resolution.~~

~~4(e) Effective listening, oral communication, presentation skills, and expression in written communication.~~

~~**Performance: The teacher leader:**~~

~~4(f) Recognizes, analyzes, and works toward improving the quality of colleagues' professional and instructional practices.~~

~~4(g) Based upon the Idaho Framework for Teaching, demonstrates proficiency in recognizing effective teaching and uses effective observation techniques to identify opportunities to improve curriculum, instruction, and assessment.~~

~~4(h) Provides observational feedback that demonstrates the intent to improve curriculum, instruction, and assessment.~~

~~4(i) Develops, leads and promotes a culture of self-reflection and reflective dialogue.~~

~~4(j) Fosters mutually respectful and productive relationships among colleagues and guides purposeful collaborative interactions, inclusive of team members' ideas and perspectives.~~

~~4(k) Models effective communication skills and processes.~~

~~4(l) Facilitates development of a responsive culture with shared vision, values, and responsibility and promotes team-based responsibility for assessing and advancing the effectiveness of practice~~

Standard 5: Using Assessments and Data for School and District Improvement - The teacher leader is knowledgeable about current research on assessment methods, designing and/or selecting effective formative and summative assessment practices and use of assessment data to make informed decisions that improve student growth, and state board-approved Idaho Mentor Program Standards~~;~~ ~~-~~and uses this knowledge to promote appropriate strategies that support continuous and sustainable organizational improvement.

~~**Knowledge: The teacher leader demonstrates knowledge of:**~~

~~5(a) Design and selection of targeted and effective assessment instruments and practices for a range of purposes.~~

~~5(b) Use of formative and summative data to inform the continuous improvement process.~~

5(c) Analysis and interpretation of data from multiple sources.

Performance: The teacher leader:

5(d) Informs and facilitates colleagues' selection or design of targeted assessment instruments to generate data that will inform instructional improvement.

5(e) Models use of formative and summative data to inform the continuous improvement process.

5(f) Informs and facilitates colleagues' interpretation of data and application of findings from multiple sources (e.g., standardized assessments, demographics).

Standard 6: Improving Outreach and Collaboration with Families and Community - The teacher leader understands that families, cultures and communities have a significant impact on educational processes and student achievement and uses this knowledge to support frequent and effective outreach with families, community members, business and community leaders, and other stakeholders in the education system.

Knowledge: The teacher leader demonstrates knowledge of:

6(a) Contextual and cultural considerations of the student, family, school, and community and their influence on educational processes.

6(b) Effective strategies for involvement of families and other stakeholders as part of a responsive culture.

Performance: The teacher leader:

6(c) Recognizes, responds, and adapts to contextual and cultural considerations to create effective interactions among students, families, communities, and schools.

6(d) Promotes effective interaction and involvement of teachers, families, and stakeholders in the educational process.

6(e) Fosters colleagues' abilities to form effective relationships with families and other stakeholders.

Standard 7: Advocating for Students, Community, and the Profession - The teacher leader understands how educational policy is made at the local, state, and national level as well as the roles of school leaders, boards of education, legislators, and other stakeholders in formulating those policies; and uses this knowledge to advocate for student needs and for practices that support effective teaching and student growth and to serve as an individual of influence and respect within the school, community, and profession.

Knowledge: The teacher leader demonstrates knowledge of:

7(a) The fluidity of local, state, and national policy decisions and their influence on instruction.

7(b) The process and the roles of stakeholders who influence policy, and how to advocate on behalf of students and the community.

Performance: The teacher leader:

~~7(c) Analyzes the feasibility of potential solutions and relevant policy context.~~

~~7(d) Advocates effectively and responsibly to relevant audiences for realization of opportunities.~~

Standard 8: Understanding Systems Thinking – The teacher leader understands systems change processes, organizational change, and the teacher leader's role as a change agent.

DRAFT

~~**Knowledge: The teacher leader demonstrates knowledge of:**~~

~~8(a) Working effectively within an educational system, including an understanding of layers and power structures within the system.~~

~~8(b) How to develop dynamic relationships in a variety of situations, including dealing effectively with resistance to change.~~

~~8(c) Theories and processes for organizational change and the teacher leader's role in facilitating change.~~

~~**Performance: The teacher leader:**~~

~~8(d) Identifies the decision makers and the resource allocations available to them.~~

~~8(e) Establishes and cultivates dynamic relationships in a variety of situations.~~

~~8(f) Sets achievable goals and creates a plan to implement them with an effective message to mobilize others into action.~~

DRAFT

~~IDAHO STANDARDS FOR TEACHER LIBRARIANS~~

~~IN ADDITION TO THE STANDARDS LISTED HERE, TEACHER LIBRARIANS MUST MEET IDAHO CORE TEACHER STANDARDS. THE EVIDENCE VALIDATING CANDIDATES' ABILITY TO DEMONSTRATE THESE STANDARDS SHALL BE COLLECTED FROM A VARIETY OF SETTINGS INCLUDING, BUT NOT LIMITED TO, COURSES, PRACTICUM, AND FIELD EXPERIENCES. ADDITIONALLY, ALL TEACHER CANDIDATES ARE EXPECTED TO MEET THE REQUIREMENTS DEFINED IN STATE BOARD RULE (IDAPA 08.02.02: RULES GOVERNING UNIFORMITY).~~

~~AN IMPORTANT COMPONENT OF THE TEACHING PROFESSION IS A CANDIDATE'S DISPOSITION. PROFESSIONAL DISPOSITIONS ARE HOW THE CANDIDATE VIEWS THE TEACHING PROFESSION, THEIR CONTENT AREA, AND/OR STUDENTS AND THEIR LEARNING. EVERY TEACHER PREPARATION PROGRAM AT EACH INSTITUTION IS RESPONSIBLE FOR ESTABLISHING AND PROMOTING A COMPREHENSIVE SET OF GUIDELINES FOR CANDIDATE DISPOSITIONS.~~

~~THE SCHOOL LIBRARY IS A CLASSROOM THAT SERVES AS THE INSTRUCTIONAL CENTER OF THE SCHOOL AND NEEDS THE EXPERTISE OF A PROFESSIONALLY TRAINED TEACHER LIBRARIAN. THE TEACHER LIBRARIAN IS AN EXPERIENCED CLASSROOM TEACHER WITH ADDITIONAL SPECIALIZED TRAINING IN THE DISCIPLINE OF SCHOOL LIBRARIANSHIP.~~

~~IN THE RAPIDLY EVOLVING LIBRARY LANDSCAPE, TEACHER LIBRARIANS PROMOTE AND PROVIDE INFORMATION LITERACY EXPERTISE IN COLLABORATION WITH THE SCHOOL COMMUNITY.~~

~~THE MANAGEMENT OF A SCHOOL LIBRARY REQUIRES A SPECIAL SET OF SKILLS ABOVE AND BEYOND THOSE OF A CLASSROOM TEACHER. COLLECTION DEVELOPMENT AND MANAGEMENT, CATALOGING AND RESOURCE SHARING, TECHNOLOGY USE AND MAINTENANCE, BUDGETING, ETHICAL AND EFFECTIVE INFORMATION MANAGEMENT, SUPERVISION OF STAFF AND VOLUNTEERS, AND PROVIDING ONGOING PROFESSIONAL DEVELOPMENT FOR STAFF ARE JUST SOME OF THE UNIQUE EXPECTATIONS FOR TEACHER LIBRARIANS.~~

~~THIS DOCUMENT UTILIZES LANGUAGE AND IDEAS ADAPTED FROM THE IDAHO STANDARDS FOR LIBRARY SCIENCE~~

~~TEACHERS (2007) AND THE ALA/AASL STANDARDS FOR INITIAL PREPARATION OF SCHOOL LIBRARIANS (2010).~~

~~STANDARD 1: LEARNER DEVELOPMENT – THE TEACHER UNDERSTANDS HOW LEARNERS GROW AND DEVELOP, RECOGNIZING THAT PATTERNS OF LEARNING AND DEVELOPMENT VARY INDIVIDUALLY WITHIN AND ACROSS THE COGNITIVE, LINGUISTIC, SOCIAL, EMOTIONAL, AND PHYSICAL AREAS, AND DESIGNS AND IMPLEMENTS DEVELOPMENTALLY APPROPRIATE AND CHALLENGING LEARNING EXPERIENCES.~~

~~STANDARD 2: LEARNING DIFFERENCES – THE TEACHER USES UNDERSTANDING OF INDIVIDUAL DIFFERENCES AND DIVERSE CULTURES AND COMMUNITIES TO ENSURE INCLUSIVE LEARNING ENVIRONMENTS THAT ENABLE EACH LEARNER TO MEET HIGH STANDARDS.~~

~~KNOWLEDGE~~

~~2(a) THE TEACHER LIBRARIAN IS AWARE OF AND RESPECTS THE DIVERSE CULTURES WITHIN THE ENTIRE LEARNING COMMUNITY.~~

~~2(b) THE TEACHER LIBRARIAN IS AWARE OF READING AND INFORMATION MATERIALS IN A VARIETY OF FORMATS THAT SUPPORT THE DIVERSE DEVELOPMENTAL, COGNITIVE, SOCIAL, EMOTIONAL, AND LINGUISTIC NEEDS OF K-12 STUDENTS AND THEIR COMMUNITIES AND CULTURES.~~

~~2(c) THE TEACHER LIBRARIAN RECOGNIZES THE IMPORTANCE OF CULTURALLY SIGNIFICANT LEARNING AND READING EXPERIENCES.~~

~~PERFORMANCE~~

~~2(d) THE TEACHER LIBRARIAN DEVELOPS A COLLECTION OF READING AND INFORMATION MATERIALS IN A VARIETY OF FORMATS THAT SUPPORT THE DIVERSE DEVELOPMENTAL, COGNITIVE, SOCIAL, EMOTIONAL, AND LINGUISTIC NEEDS OF K-12 STUDENTS AND THEIR COMMUNITIES.~~

~~2(e) THE TEACHER LIBRARIAN WORKS WITH ALL MEMBERS OF THE LEARNING COMMUNITY TO HELP DETERMINE AND LOCATE APPROPRIATE MATERIALS TO RESPECT THEIR CULTURAL DIVERSITY.~~

~~STANDARD 3: LEARNING ENVIRONMENTS – THE TEACHER WORKS WITH OTHERS TO CREATE ENVIRONMENTS THAT SUPPORT INDIVIDUAL AND COLLABORATIVE LEARNING, AND THAT ENCOURAGE POSITIVE SOCIAL INTERACTION, ACTIVE ENGAGEMENT IN LEARNING, AND SELF MOTIVATION.~~

~~KNOWLEDGE~~

~~3(a) THE TEACHER LIBRARIAN HAS AN UNDERSTANDING OF EVOLVING LIBRARY SPACES THAT PROVIDE A POSITIVE, PRODUCTIVE LEARNING ENVIRONMENT, WITH ENOUGH TIME AND SPACE FOR ALL MEMBERS OF THE LEARNING COMMUNITY TO ACCESS AND UTILIZE RESOURCES AND TECHNOLOGY.~~

~~3(b) THE TEACHER LIBRARIAN KNOWS THE IMPORTANCE OF A BALANCED, ORGANIZED, AND VARIED LIBRARY COLLECTION THAT SUPPORTS CURRICULA, FULFILLS DIVERSE STUDENT, STAFF, AND COMMUNITY NEEDS, AND BRINGS A GLOBAL PERSPECTIVE INTO THE SCHOOL ENVIRONMENT.~~

~~PERFORMANCE~~

~~3(c) THE TEACHER LIBRARIAN CREATES A POSITIVE ENVIRONMENT TO PROMOTE AND MODEL THE HABIT OF LIFELONG READING AND LEARNING.~~

~~3(d) THE TEACHER LIBRARIAN SUPPORTS FLEXIBLE, OPEN ACCESS FOR LIBRARY SERVICES.~~

~~3(e) THE TEACHER LIBRARIAN DEMONSTRATES THE ABILITY TO DEVELOP SOLUTIONS FOR ADDRESSING PHYSICAL, SOCIAL AND INTELLECTUAL BARRIERS TO EQUITABLE ACCESS TO RESOURCES AND SERVICES.~~

~~3(f) THE TEACHER LIBRARIAN FACILITATES ACCESS TO INFORMATION IN A VARIETY OF FORMATS.~~

~~3(g) THE TEACHER LIBRARIAN ORGANIZES, ALLOCATES, AND MANAGES THE LIBRARY RESOURCES, FACILITIES, AND MATERIALS TO FOSTER A USER-FRIENDLY ENVIRONMENT.~~

~~3(h) THE TEACHER LIBRARIAN MODELS AND FACILITATES THE EFFECTIVE USE OF CURRENT AND EMERGING DIGITAL LITERACY TOOLS AND TECHNOLOGY.~~

~~3(i) THE TEACHER LIBRARIAN PROACTIVELY MANAGES THE UNPREDICTABLE TRAFFIC FLOW, ACCOUNTING FOR ACADEMIC VISITS, DROP-IN TRAFFIC, AND PATRON VISITS DURING NON-INSTRUCTIONAL TIMES, ENFORCING SCHOOL EXPECTATIONS WHILE MAINTAINING A POSITIVE CLIMATE.~~

~~STANDARD 4: CONTENT KNOWLEDGE – THE TEACHER UNDERSTANDS THE CENTRAL CONCEPTS, TOOLS OF INQUIRY, AND STRUCTURES OF THE DISCIPLINE(S) HE OR SHE TEACHES AND CREATES LEARNING EXPERIENCES~~

~~***THAT MAKE THE DISCIPLINE ACCESSIBLE AND MEANINGFUL FOR LEARNERS TO ASSURE MASTERY OF THE CONTENT.***~~

~~**KNOWLEDGE**~~

~~4(a) THE TEACHER LIBRARIAN UNDERSTANDS THE DOCUMENTS AND POLICIES THAT PROMOTE INTELLECTUAL FREEDOM AND FREEDOM OF EXPRESSION.~~

~~4(b) THE TEACHER LIBRARIAN UNDERSTANDS COPYRIGHT LAWS, PLAGIARISM, AND FAIR USE STANDARDS.~~

~~4(c) THE TEACHER LIBRARIAN UNDERSTANDS THE CONCEPTS OF INFORMATION LITERACY (E.G., READING, INFORMATION, MEDIA, DIGITAL, AND VISUAL LITERACIES, INCLUDING SOCIAL MEDIA).~~

~~4(d) THE TEACHER LIBRARIAN IS FAMILIAR WITH A WIDE RANGE OF CHILDREN'S, YOUNG ADULT, AND PROFESSIONAL LITERATURE IN MULTIPLE FORMATS AND LANGUAGES TO SUPPORT READING FOR INFORMATION, PLEASURE, AND LIFELONG LEARNING.~~

~~4(e) THE TEACHER LIBRARIAN UNDERSTANDS THE PROCESS OF CATALOGING AND CLASSIFYING LIBRARY MATERIALS USING PROFESSIONAL LIBRARY STANDARDS.~~

~~4(f) THE TEACHER LIBRARIAN UNDERSTANDS THE PROCESS OF INFORMATION RETRIEVAL AND RESOURCE SHARING.~~

~~4(g) THE TEACHER LIBRARIAN UNDERSTANDS MANAGEMENT TECHNIQUES, INCLUDING TIME MANAGEMENT AND SUPERVISION THAT ENSURE THE EFFICIENT OPERATION OF THE SCHOOL LIBRARY.~~

~~4(h) THE TEACHER LIBRARIAN UNDERSTANDS THE PRINCIPLES OF BASIC BUDGET PLANNING, COLLECTION DEVELOPMENT (E.G., SELECTION, PROCESSING, AND DISCARDING), AND THE GRANT APPLICATION PROCESS.~~

~~4(i) THE TEACHER LIBRARIAN UNDERSTANDS THE IMPORTANCE OF POLICIES AND PROCEDURES THAT SUPPORT TEACHING AND LEARNING IN SCHOOL LIBRARIES.~~

~~4(j) THE TEACHER LIBRARIAN UNDERSTANDS THE IMPORTANCE OF THEIR ROLE IN DEVELOPING AND PROMOTING READING (E.G., READING ALOUD TO STUDENTS AND BOOK TALKS).~~

~~**PERFORMANCE**~~

~~4(k) THE TEACHER LIBRARIAN ADHERES TO THE LEGAL AND ETHICAL TENETS EXPRESSED IN THE ALA POLICY ON CONFIDENTIALITY OF LIBRARY RECORDS, PRIVACY: AN INTERPRETATION OF THE LIBRARY BILL OF RIGHTS, AND THE ALA CODE OF ETHICS.~~

~~4(l) THE TEACHER LIBRARIAN TEACHES AND MODELS THE CONCEPTS OF INFORMATION LITERACY (E.G., READING, INFORMATION, MEDIA, DIGITAL, AND VISUAL LITERACIES, INCLUDING SOCIAL MEDIA).~~

~~4(m) THE TEACHER LIBRARIAN READS, RECOMMENDS, AND PROMOTES A WIDE AND DIVERSE RANGE OF CHILDREN'S AND YOUNG ADULT LITERATURE IN MULTIPLE FORMATS THAT REFLECT CULTURAL DIVERSITY TO FOSTER HABITS OF CREATIVE EXPRESSION AND SUPPORT READING FOR INFORMATION, PLEASURE, AND LIFELONG LEARNING.~~

~~4(n) THE TEACHER LIBRARIAN CATALOGS AND CLASSIFIES LIBRARY MATERIALS USING PROFESSIONAL LIBRARY STANDARDS.~~

~~4(o) THE TEACHER LIBRARIAN INITIATES AND PARTICIPATES IN RESOURCE SHARING WITH PUBLIC, ACADEMIC, AND SPECIAL LIBRARIES, AND WITH NETWORKS AND LIBRARY CONSORTIA.~~

~~4(p) THE TEACHER LIBRARIAN ORGANIZES, ALLOCATES, AND MANAGES THE LIBRARY RESOURCES, FACILITIES, TIME, ACTIVITIES, AND MATERIALS TO PROVIDE A BROAD RANGE OF OPPORTUNITIES FOR LEARNING.~~

~~4(q) THE TEACHER LIBRARIAN ADMINISTERS AND TRAINS STAFF TO ENSURE AN EFFECTIVE SCHOOL LIBRARY PROGRAM.~~

~~4(r) THE TEACHER LIBRARIAN UTILIZES BEST PRACTICES TO PLAN AND BUDGET RESOURCES IN A FISCALLY RESPONSIBLE MANNER.~~

~~4(s) THE TEACHER LIBRARIAN USES PROFESSIONAL RESOURCES THAT PROVIDE GUIDANCE IN THE SELECTION OF QUALITY MATERIALS AND MAINTAINS CURRENT AWARENESS OF THE LIBRARY FIELD.~~

~~4(t) THE TEACHER LIBRARIAN SUPPORTS THE STAFF BY LOCATING AND PROVIDING RESOURCES THAT ENABLE MEMBERS OF THE LEARNING COMMUNITY TO BECOME EFFECTIVE USERS OF IDEAS AND INFORMATION.~~

~~4(u) THE TEACHER LIBRARIAN DEVELOPS, IMPLEMENT, AND EVALUATE POLICIES AND PROCEDURES THAT SUPPORT TEACHING AND LEARNING IN SCHOOL LIBRARIES.~~

~~***STANDARD 5: APPLICATION OF CONTENT – THE TEACHER UNDERSTANDS HOW TO CONNECT CONCEPTS AND USE DIFFERING PERSPECTIVES TO ENGAGE LEARNERS IN CRITICAL THINKING, CREATIVITY, AND COLLABORATIVE PROBLEM SOLVING RELATED TO AUTHENTIC LOCAL AND GLOBAL ISSUES.***~~

~~**KNOWLEDGE**~~

~~5(a) THE TEACHER LIBRARIAN UNDERSTANDS THE SCOPE AND SEQUENCE OF CURRICULA, HOW THEY INTERRELATE, AND THE INFORMATION RESOURCES NEEDED TO SUPPORT THEM.~~

~~5(b) THE TEACHER LIBRARIAN HAS A WIDE RANGE OF CROSS-CURRICULAR INTERESTS AND A BROAD SET OF INTERDISCIPLINARY RESEARCH SKILLS.~~

~~**PERFORMANCE**~~

~~5(c) THE TEACHER LIBRARIAN PARTICIPATES ON COLLABORATIVE TEACHING TEAMS AS A PEER OR LEADER TO INTEGRATE INFORMATION SKILLS, PROVIDE ACCESS TO RESOURCES, AND PROMOTE EFFECTIVE USE OF TECHNOLOGY ACROSS THE CURRICULUM.~~

~~5(d) THE TEACHER LIBRARIAN MODELS AND INSTRUCTS MULTIPLE STRATEGIES FOR STUDENTS, OTHER TEACHERS, AND ADMINISTRATORS TO LOCATE, SELECT, EVALUATE, AND ETHICALLY USE INFORMATION FOR SPECIFIC PURPOSES.~~

~~5(e) THE TEACHER LIBRARIAN DETERMINES COLLECTION DEVELOPMENT NEEDS BASED ON A VARIETY OF INPUT, INCLUDING CURRICULA, PATRON INPUT, CIRCULATION STATISTICS, AND PROFESSIONAL RESOURCES.~~

~~5(f) THE TEACHER LIBRARIAN PROMOTES APPROPRIATE USE OF RELEVANT AND RELIABLE INFORMATION AND INSTRUCTION TECHNOLOGIES.~~

~~***STANDARD 6: ASSESSMENT – THE TEACHER UNDERSTANDS AND USES MULTIPLE METHODS OF ASSESSMENT TO ENGAGE LEARNERS IN THEIR OWN GROWTH, TO MONITOR LEARNER PROGRESS, AND TO GUIDE THE TEACHER'S AND LEARNER'S DECISION MAKING.***~~

~~**KNOWLEDGE**~~

~~6(a) THE TEACHER LIBRARIAN UNDERSTANDS MANY METHODS OF ASSESSING THE LIBRARY PROGRAM.~~

~~6(b) THE TEACHER LIBRARIAN HAS AN AWARENESS OF A WIDE VARIETY OF FORMATIVE AND SUMMATIVE ASSESSMENT STRATEGIES TO MONITOR STUDENT PROGRESS.~~

~~**PERFORMANCE**~~

~~6(c) THE TEACHER LIBRARIAN COMMUNICATES AND COLLABORATES WITH STUDENTS, TEACHERS, ADMINISTRATORS, AND COMMUNITY MEMBERS TO DEVELOP A LIBRARY PROGRAM THAT ALIGNS RESOURCES, SERVICES, AND STANDARDS WITH THE SCHOOL'S MISSION.~~

~~6(d) THE TEACHER LIBRARIAN MAKES EFFECTIVE USE OF DATA AND INFORMATION TO ASSESS HOW THE LIBRARY PROGRAM ADDRESSES THE NEEDS OF DIVERSE COMMUNITIES.~~

~~6(e) THE TEACHER LIBRARIAN COLLABORATES WITH OTHER TEACHERS TO CREATE STUDENT ASSESSMENT OPPORTUNITIES IN A VARIETY OF FORMATS.~~

~~***STANDARD 7: PLANNING FOR INSTRUCTION - THE TEACHER PLANS INSTRUCTION THAT SUPPORTS EVERY STUDENT IN MEETING RIGOROUS LEARNING GOALS BY DRAWING UPON KNOWLEDGE OF CONTENT AREAS, CURRICULUM, CROSS- DISCIPLINARY SKILLS, AND PEDAGOGY, AS WELL AS KNOWLEDGE OF LEARNERS AND THE COMMUNITY CONTEXT.***~~

~~**KNOWLEDGE**~~

~~7(a) THE TEACHER LIBRARIAN UNDERSTANDS HOW TO DEVELOP AND IMPLEMENT THE SCHOOL LIBRARY PROGRAM THAT REFLECTS THE MISSION, GOALS, AND OBJECTIVES OF THE SCHOOL.~~

~~7(b) THE TEACHER LIBRARIAN UNDERSTANDS EFFECTIVE PRINCIPLES OF TEACHING AND LEARNING IN COLLABORATIVE PARTNERSHIP WITH OTHER EDUCATORS.~~

~~7(c) THE TEACHER LIBRARIAN ACKNOWLEDGES THE IMPORTANCE OF PARTICIPATING IN CURRICULUM DEVELOPMENT.~~

~~**PERFORMANCE**~~

~~7(d) THE TEACHER LIBRARIAN DEVELOPS AND IMPLEMENTS THE SCHOOL LIBRARY MISSION, GOALS, OBJECTIVES, POLICIES, AND PROCEDURES.~~

~~7(e) THE TEACHER LIBRARIAN IDENTIFIES APPROPRIATE SERVICES, RESOURCES, AND TECHNOLOGY TO MEET DIVERSE LEARNING NEEDS.~~

~~7(f) THE TEACHER LIBRARIAN INCLUDES A VARIETY OF READING AND INFORMATION MATERIALS IN INSTRUCTION AND PROMPTS STUDENTS THROUGH QUESTIONING TECHNIQUES TO IMPROVE PERFORMANCE.~~

~~7(g) THE TEACHER LIBRARIAN COLLABORATES WITH OTHER TEACHERS AS THEY CREATE, IMPLEMENT, AND EVALUATE LESSONS, AND MODELS THE USE OF INFORMATION TOOLS TO MEET THE DEVELOPMENTAL AND INDIVIDUAL NEEDS OF DIVERSE STUDENTS.~~

~~7(h) THE TEACHER LIBRARIAN USES APPROPRIATE PRINT AND/OR ELECTRONIC INSTRUCTIONAL RESOURCES TO DESIGN LEARNING EXPERIENCES.~~

~~7(i) THE TEACHER LIBRARIAN MODELS, SHARES, AND PROMOTES EFFECTIVE PRINCIPLES OF TEACHING AND LEARNING IN COLLABORATIVE PARTNERSHIP WITH OTHER EDUCATORS.~~

~~7(j) THE TEACHER LIBRARIAN ENGAGES IN SCHOOL IMPROVEMENT PROCESSES BY OFFERING PROFESSIONAL DEVELOPMENT TO OTHER EDUCATORS AS IT RELATES TO LIBRARY AND INFORMATION USE.~~

~~STANDARD 8: INSTRUCTIONAL STRATEGIES – THE TEACHER UNDERSTANDS AND USES A VARIETY OF INSTRUCTIONAL STRATEGIES TO ENCOURAGE LEARNERS TO DEVELOP DEEP UNDERSTANDING OF CONTENT AREAS AND THEIR CONNECTIONS, AND TO BUILD SKILLS TO APPLY KNOWLEDGE IN MEANINGFUL WAYS.~~

~~KNOWLEDGE~~

~~8(a) THE TEACHER LIBRARIAN UNDERSTANDS HOW TWENTY-FIRST CENTURY LITERACY SKILLS SUPPORT THE LEARNING NEEDS OF THE SCHOOL COMMUNITY.~~

~~8(b) THE TEACHER LIBRARIAN RECOGNIZES THAT THE EFFECTIVE USE OF CURRENT AND EMERGING DIGITAL TOOLS TO LOCATE, ANALYZE, EVALUATE, AND USE INFORMATION RESOURCES WILL SUPPORT RESEARCHING, LEARNING, CREATING, AND COMMUNICATING IN A DIGITAL SOCIETY.~~

~~PERFORMANCE~~

~~8(c) THE TEACHER LIBRARIAN DESIGNS AND ADAPTS RELEVANT LEARNING EXPERIENCES THAT ENGAGE STUDENTS IN AUTHENTIC LEARNING THROUGH THE USE OF DIGITAL TOOLS AND RESOURCES.~~

~~8(d) THE TEACHER LIBRARIAN STIMULATES CRITICAL THINKING THROUGH THE SKILLFUL USE OF QUESTIONING TECHNIQUES, AND GUIDES STUDENTS AND STAFF IN THE SELECTION OF MATERIALS AND INFORMATION FOR READING, WRITING, VIEWING, SPEAKING, LISTENING, AND PRESENTING.~~

~~8(e) THE TEACHER LIBRARIAN PROVIDES OPPORTUNITIES TO FOSTER AND MODEL HIGHER ORDER THINKING SKILLS AND METACOGNITION.~~

~~8(f) THE TEACHER LIBRARIAN PROVIDES ACCESS TO INFORMATION FROM A VARIETY OF SOURCES TO ENRICH LEARNING FOR STUDENTS AND STAFF.~~

~~8(g) THE TEACHER LIBRARIAN USES APPROPRIATE INSTRUCTIONAL RESOURCES IN A VARIETY OF FORMATS TO DESIGN LEARNING EXPERIENCES.~~

~~8(h) THE TEACHER LIBRARIAN EMPLOYS STRATEGIES TO INTEGRATE MULTIPLE LITERACIES WITH CONTENT CURRICULUM.~~

~~8(i) THE TEACHER LIBRARIAN INTEGRATES THE USE OF EMERGING TECHNOLOGIES AS A MEANS FOR EFFECTIVE AND CREATIVE TEACHING AND TO SUPPORT K-12 STUDENTS' CONCEPTUAL UNDERSTANDING, CRITICAL THINKING AND CREATIVE PROCESSES.~~

~~8(j) THE TEACHER LIBRARIAN COLLABORATES WITH CLASSROOM TEACHERS TO REINFORCE A WIDE VARIETY OF READING INSTRUCTIONAL STRATEGIES TO ENSURE K-12 STUDENTS ARE ABLE TO CREATE MEANING FROM TEXT.~~

~~8(k) THE TEACHER LIBRARIAN SERVES ALL MEMBERS OF THE LEARNING COMMUNITY AS FACILITATOR, COACH, GUIDE, LISTENER, TRAINER, AND MENTOR.~~

~~8(l) THE TEACHER LIBRARIAN DESIGNS AND IMPLEMENTS DEVELOPMENTALLY APPROPRIATE AND CHALLENGING LEARNING EXPERIENCES, BOTH INDEPENDENTLY AND IN COLLABORATION WITH OTHER TEACHERS.~~

~~STANDARD 9: PROFESSIONAL LEARNING AND ETHICAL PRACTICE – THE TEACHER ENGAGES IN ONGOING PROFESSIONAL LEARNING AND USES EVIDENCE TO CONTINUALLY EVALUATE HIS/HER PRACTICE, PARTICULARLY THE EFFECTS OF HIS/HER CHOICES AND ACTIONS ON OTHERS (LEARNERS, FAMILIES, OTHER PROFESSIONALS, AND THE~~

~~***COMMUNITY), AND ADAPTS PRACTICE TO MEET THE NEEDS OF EACH LEARNER.***~~

~~**KNOWLEDGE**~~

~~9(a) THE TEACHER LIBRARIAN UNDERSTANDS THE DOCUMENTS AND POLICIES THAT PROMOTE INTELLECTUAL FREEDOM AND FREEDOM OF EXPRESSION.~~

~~9(b) THE TEACHER LIBRARIAN UNDERSTANDS THE PARAMETERS OF INFORMATION ACCESS, RESOURCE SHARING, AND OWNERSHIP BASED ON PRINCIPLES OF INTELLECTUAL FREEDOM AND COPYRIGHT GUIDELINES.~~

~~9(c) THE TEACHER LIBRARIAN UNDERSTANDS CONFIDENTIALITY ISSUES RELATED TO LIBRARY RECORDS.~~

~~9(d) THE TEACHER LIBRARIAN RECOGNIZES THE IMPORTANCE OF EVALUATING PRACTICE FOR IMPROVEMENT OF THE SCHOOL LIBRARY PROGRAM.~~

~~**PERFORMANCE**~~

~~9(e) THE TEACHER LIBRARIAN PRACTICES THE ETHICAL PRINCIPLES OF THE PROFESSION, ADVOCATES FOR INTELLECTUAL FREEDOM AND PRIVACY, AND PROMOTES AND MODELS DIGITAL CITIZENSHIP AND RESPONSIBILITY.~~

~~9(f) THE TEACHER LIBRARIAN EDUCATES THE SCHOOL COMMUNITY ON THE ETHICAL USE OF INFORMATION AND IDEAS.~~

~~9(g) THE TEACHER LIBRARIAN USES EVIDENCE-BASED RESEARCH TO COLLECT, INTERPRET, AND USE DATA TO IMPROVE PRACTICE IN SCHOOL LIBRARIES.~~

~~9(h) THE TEACHER LIBRARIAN MODELS A STRONG COMMITMENT TO THE PROFESSION BY PARTICIPATING IN PROFESSIONAL GROWTH AND LEADERSHIP OPPORTUNITIES, SUCH AS PROFESSIONAL LEARNING COMMUNITIES, MEMBERSHIP IN LIBRARY ASSOCIATIONS, ATTENDANCE AT PROFESSIONAL CONFERENCES, AND READING PROFESSIONAL PUBLICATIONS.~~

~~9(i) THE TEACHER LIBRARIAN USES PROFESSIONAL RESOURCES TO KEEP CURRENT IN THE FIELD AND TO ASSIST IN THE SELECTION OF QUALITY MATERIALS.~~

~~STANDARD 10: LEADERSHIP AND COLLABORATION - THE TEACHER SEEKS APPROPRIATE LEADERSHIP ROLES AND OPPORTUNITIES TO TAKE RESPONSIBILITY FOR STUDENT LEARNING, TO COLLABORATE WITH LEARNERS, FAMILIES, COLLEAGUES, OTHER SCHOOL PROFESSIONALS, AND COMMUNITY MEMBERS TO ENSURE LEARNER GROWTH, AND TO ADVANCE THE PROFESSION.~~

~~KNOWLEDGE~~

~~10(a) THE TEACHER LIBRARIAN UNDERSTANDS VARIOUS COMMUNICATION AND PUBLIC RELATIONS STRATEGIES.~~

~~10(b) THE TEACHER LIBRARIAN UNDERSTANDS THE ROLE AND RELATIONSHIP OF THE SCHOOL LIBRARY PROGRAM'S IMPACT ON STUDENT ACADEMIC ACHIEVEMENT WITHIN THE CONTEXT OF CURRENT EDUCATIONAL INITIATIVES.~~

~~10(c) THE TEACHER LIBRARIAN RECOGNIZES THE VALUE OF SHARING EXPERTISE WITH COLLEAGUES.~~

~~PERFORMANCE~~

~~10(d) THE TEACHER LIBRARIAN MODELS AND PROMOTES LIFELONG READING FOR PURPOSES OF SEEKING INFORMATION, KNOWLEDGE, PLEASURE, AND LEARNING.~~

~~10(e) THE TEACHER LIBRARIAN COLLABORATES WITH COLLEAGUES AND STUDENTS TO ASSESS, INTERPRET, AND COMMUNICATE INFORMATION.~~

~~10(f) THE TEACHER LIBRARIAN PARTICIPATES IN DECISION-MAKING GROUPS TO CONTINUALLY IMPROVE LIBRARY SERVICES.~~

~~10(g) THE TEACHER LIBRARIAN PARTICIPATES ON COLLABORATIVE TEACHING TEAMS AS A PEER OR LEADER TO INTEGRATE INFORMATION SKILLS, PROVIDE ACCESS TO RESOURCES, AND PROMOTE EFFECTIVE USE OF TECHNOLOGY ACROSS THE CURRICULUM.~~

~~10(h) THE TEACHER LIBRARIAN DEMONSTRATES THE ABILITY TO ESTABLISH CONNECTIONS WITH OTHER LIBRARIES AND TO STRENGTHEN COOPERATION AMONG LIBRARY COLLEAGUES FOR RESOURCE SHARING, NETWORKING, AND FACILITATING ACCESS TO INFORMATION.~~

~~10(i) THE TEACHER LIBRARIAN ARTICULATES THE ROLE AND RELATIONSHIP OF THE SCHOOL LIBRARY PROGRAM'S IMPACT ON STUDENT~~

~~ACADEMIC ACHIEVEMENT WITHIN THE CONTEXT OF CURRENT EDUCATIONAL INITIATIVES.~~

~~10(j) THE TEACHER LIBRARIAN IDENTIFIES STAKEHOLDERS WITHIN AND OUTSIDE THE SCHOOL COMMUNITY WHO IMPACT THE SCHOOL LIBRARY PROGRAM.~~

~~10(k) THE TEACHER LIBRARIAN ADVOCATES FOR SCHOOL LIBRARY AND INFORMATION PROGRAMS, RESOURCES, SERVICES, AND THE LIBRARY PROFESSION.~~

~~10(l) THE TEACHER LIBRARIAN SEEKS TO SHARE EXPERTISE WITH OTHERS THROUGH IN-SERVICE, LOCAL CONFERENCES AND OTHER VENUES.~~

DRAFT

~~IDAHO FOUNDATION STANDARDS FOR VISUAL AND PERFORMING ARTS TEACHERS~~

~~ALL TEACHER CANDIDATES ARE EXPECTED TO MEET THE IDAHO CORE TEACHER STANDARDS AND THE STANDARDS SPECIFIC TO THEIR DISCIPLINE AREA(S) AT THE "ACCEPTABLE" LEVEL OR ABOVE. ADDITIONALLY, ALL TEACHER CANDIDATES ARE EXPECTED TO MEET THE REQUIREMENTS DEFINED IN STATE BOARD RULE (IDAPA 08.02.02: RULES GOVERNING UNIFORMITY).~~

~~THE FOLLOWING KNOWLEDGE AND PERFORMANCE STATEMENTS FOR THE VISUAL AND PERFORMING ARTS TEACHER STANDARDS ARE WIDELY RECOGNIZED, BUT NOT ALL-ENCOMPASSING OR ABSOLUTE, INDICATORS THAT TEACHER CANDIDATES HAVE MET THE STANDARDS. THE EVIDENCE VALIDATING CANDIDATES' ABILITY TO DEMONSTRATE THESE STANDARDS SHALL BE COLLECTED FROM A VARIETY OF SETTINGS INCLUDING, BUT NOT LIMITED TO, COURSES, PRACTICUM, AND FIELD EXPERIENCES. IT IS THE RESPONSIBILITY OF A TEACHER PREPARATION PROGRAM TO USE INDICATORS IN A MANNER THAT IS CONSISTENT WITH ITS CONCEPTUAL FRAMEWORK AND THAT ASSURES ATTAINMENT OF THE STANDARDS.~~

~~AN IMPORTANT COMPONENT OF THE TEACHING PROFESSION IS A CANDIDATE'S DISPOSITION. PROFESSIONAL DISPOSITIONS ARE HOW CANDIDATES VIEW THE TEACHING PROFESSION, THEIR CONTENT AREA, AND/OR STUDENTS AND THEIR LEARNING. EVERY TEACHER PREPARATION PROGRAM AT EACH INSTITUTION IS RESPONSIBLE FOR ESTABLISHING AND PROMOTING A COMPREHENSIVE SET OF GUIDELINES FOR CANDIDATE DISPOSITIONS.~~

~~STANDARD 1: LEARNER DEVELOPMENT. THE TEACHER UNDERSTANDS HOW LEARNERS GROW AND DEVELOP, RECOGNIZING THAT PATTERNS OF LEARNING AND DEVELOPMENT VARY INDIVIDUALLY WITHIN AND ACROSS THE COGNITIVE, LINGUISTIC, SOCIAL, EMOTIONAL, AND PHYSICAL AREAS, AND DESIGNS AND IMPLEMENTS DEVELOPMENTALLY APPROPRIATE AND CHALLENGING LEARNING EXPERIENCES.~~

~~STANDARD 2: LEARNING DIFFERENCES. THE TEACHER USES UNDERSTANDING OF INDIVIDUAL DIFFERENCES AND DIVERSE CULTURES AND COMMUNITIES TO ENSURE INCLUSIVE LEARNING ENVIRONMENTS THAT ENABLE EACH LEARNER TO MEET HIGH STANDARDS.~~

~~**KNOWLEDGE**~~

~~2(a) THE TEACHER UNDERSTANDS THE IMPACT OF THE ARTS ON STUDENTS WITH EXCEPTIONAL NEEDS, INCLUDING THOSE ASSOCIATED WITH DISABILITIES, GIFTEDNESS, SECOND LANGUAGE ACQUISITION, AND AT-RISK STUDENTS.~~

~~***STANDARD 3: LEARNING ENVIRONMENTS. THE TEACHER WORKS WITH OTHERS TO CREATE ENVIRONMENTS THAT SUPPORT INDIVIDUAL AND COLLABORATIVE LEARNING, AND THAT ENCOURAGE POSITIVE SOCIAL INTERACTION, ACTIVE ENGAGEMENT IN LEARNING, AND SELF-MOTIVATION.***~~

~~***STANDARD 4: CONTENT KNOWLEDGE. THE TEACHER UNDERSTANDS THE CENTRAL CONCEPTS, TOOLS OF INQUIRY, AND STRUCTURES OF THE DISCIPLINE(S) HE OR SHE TEACHES AND CREATES LEARNING EXPERIENCES THAT MAKE THE DISCIPLINE ACCESSIBLE AND MEANINGFUL FOR LEARNERS TO ASSURE MASTERY OF THE CONTENT.***~~

~~**KNOWLEDGE**~~

~~4(a) THE TEACHER UNDERSTANDS THE HISTORY AND FOUNDATION OF ARTS EDUCATION.~~

~~4(b) THE TEACHER UNDERSTANDS THE PROCESSES AND CONTENT OF THE ARTS DISCIPLINE BEING TAUGHT.~~

~~4(c) THE TEACHER UNDERSTANDS HOW TO OBSERVE, DESCRIBE, INTERPRET, CRITIQUE, AND ASSESS THE ARTS DISCIPLINE BEING TAUGHT.~~

~~4(d) THE TEACHER UNDERSTANDS THE CULTURAL, HISTORICAL, AND CONTEMPORARY CONTEXTS SURROUNDING WORKS OF ART.~~

~~4(e) THE TEACHER UNDERSTANDS THAT THE ARTS COMMUNICATE, CHALLENGE, AND INFLUENCE CULTURE AND SOCIETY.~~

~~4(f) THE TEACHER UNDERSTANDS THE AESTHETIC PURPOSES OF THE ARTS AND THAT ARTS INVOLVE A VARIETY OF PERSPECTIVES AND VIEWPOINTS.~~

~~4(g) THE TEACHER UNDERSTANDS HOW TO SELECT AND EVALUATE A RANGE OF ARTISTIC SUBJECT MATTER AND IDEAS APPROPRIATE FOR STUDENTS' PERSONAL AND/OR CAREER INTERESTS.~~

~~4(h) THE TEACHER UNDERSTANDS CONNECTIONS BETWEEN ART CURRICULUM AND VOCATIONAL OPPORTUNITIES.~~

~~**PERFORMANCE**~~

~~4(i) THE TEACHER INSTRUCTS, DEMONSTRATES, AND MODELS TECHNICAL AND EXPRESSIVE PROFICIENCY IN THE PARTICULAR ARTS DISCIPLINE BEING TAUGHT.~~

~~***STANDARD 5: APPLICATION OF CONTENT. THE TEACHER UNDERSTANDS HOW TO CONNECT CONCEPTS AND USE DIFFERING PERSPECTIVES TO ENGAGE LEARNERS IN CRITICAL THINKING, CREATIVITY, AND COLLABORATIVE PROBLEM SOLVING RELATED TO AUTHENTIC LOCAL AND GLOBAL ISSUES.***~~

~~**KNOWLEDGE**~~

~~5(a) THE TEACHER UNDERSTANDS THE RELATIONSHIPS BETWEEN THE ARTS AND HOW THE ARTS ARE VITAL TO ALL CONTENT AREAS.~~

~~**PERFORMANCE**~~

~~5(b) THE TEACHER ENGAGES STUDENTS IN IDENTIFYING RELATIONSHIPS BETWEEN THE ARTS AND OTHER CONTENT AREAS.~~

~~5(c) THE TEACHER INSTRUCTS STUDENTS IN MAKING OBSERVATIONS, INTERPRETATIONS, AND JUDGMENTS ABOUT THEIR OWN ARTWORKS AND THE WORKS OF OTHER ARTISTS.~~

~~***STANDARD 6: ASSESSMENT. THE TEACHER UNDERSTANDS AND USES MULTIPLE METHODS OF ASSESSMENT TO ENGAGE LEARNERS IN THEIR OWN GROWTH, TO MONITOR LEARNER PROGRESS, AND TO GUIDE THE TEACHER'S AND LEARNER'S DECISION MAKING.***~~

~~**KNOWLEDGE**~~

~~6(a) THE TEACHER UNDERSTANDS ASSESSMENT STRATEGIES SPECIFIC TO CREATING, PERFORMING, AND RESPONDING.~~

~~6(b) THE TEACHER UNDERSTANDS HOW ARTS ASSESSMENTS STRATEGIES (E.G., PORTFOLIO, CRITIQUE, PERFORMANCE/PRESENTATION) SPECIFIC TO THE ARTS ENHANCE EVALUATION, AS WELL AS STUDENT KNOWLEDGE AND PERFORMANCE.~~

~~**PERFORMANCE**~~

~~6(c) THE TEACHER ASSESSES STUDENT WORK SPECIFIC TO CREATING, PERFORMING, AND RESPONDING.~~

~~***STANDARD 7: PLANNING FOR INSTRUCTION. THE TEACHER PLANS INSTRUCTION THAT SUPPORTS EVERY STUDENT IN MEETING RIGOROUS LEARNING GOALS BY DRAWING UPON KNOWLEDGE OF CONTENT AREAS, CURRICULUM, CROSS- DISCIPLINARY SKILLS, AND PEDAGOGY, AS WELL AS KNOWLEDGE OF LEARNERS AND THE COMMUNITY CONTEXT.***~~

~~**KNOWLEDGE**~~

~~7(a) THE TEACHER UNDERSTANDS THAT INSTRUCTIONAL PLANNING FOR THE ARTS TEACHER INCLUDES ACQUISITION AND MANAGEMENT OF MATERIALS, TECHNOLOGY, EQUIPMENT, AND USE OF PHYSICAL SPACE.~~

~~***STANDARD 8: INSTRUCTIONAL STRATEGIES. THE TEACHER UNDERSTANDS AND USES A VARIETY OF INSTRUCTIONAL STRATEGIES TO ENCOURAGE LEARNERS TO DEVELOP DEEP UNDERSTANDING OF CONTENT AREAS AND THEIR CONNECTIONS, AND TO BUILD SKILLS TO APPLY KNOWLEDGE IN MEANINGFUL WAYS.***~~

~~***STANDARD 9: PROFESSIONAL LEARNING AND ETHICAL PRACTICE. THE TEACHER ENGAGES IN ONGOING PROFESSIONAL LEARNING AND USES EVIDENCE TO CONTINUALLY EVALUATE HIS/HER PRACTICE, PARTICULARLY THE EFFECTS OF HIS/HER CHOICES AND ACTIONS ON OTHERS (LEARNERS, FAMILIES, OTHER PROFESSIONALS, AND THE COMMUNITY), AND ADAPTS PRACTICE TO MEET THE NEEDS OF EACH LEARNER.***~~

~~**KNOWLEDGE**~~

~~KNOWLEDGE~~

~~4(a) THE TEACHER KNOWS THE ACTFL (AMERICAN COUNCIL ON THE TEACHING OF FOREIGN LANGUAGES) PROFICIENCY GUIDELINES FOR LANGUAGE SKILLS ACCORDING TO INTERPRETIVE, PRESENTATIONAL, AND INTERPERSONAL MODES.~~

~~4(b) THE TEACHER KNOWS THE CULTURAL PERSPECTIVES AS THEY ARE REFLECTED IN THE TARGET LANGUAGE.~~

~~4(c) THE TEACHER UNDERSTANDS KEY LINGUISTIC STRUCTURES (E.G., PHONETICS, MORPHOLOGY, SEMANTICS, SYNTAX, PRAGMATICS) PARTICULAR TO THE TARGET LANGUAGE.~~

~~4(d) THE TEACHER KNOWS THE HISTORY, ARTS, AND LITERATURE OF THE TARGET CULTURE(S).~~

~~4(e) THE TEACHER KNOWS THE CURRENT SOCIAL, POLITICAL, AND ECONOMIC REALITIES OF THE COUNTRIES RELATED TO THE TARGET LANGUAGE.~~

~~4(f) THE TEACHER UNDERSTANDS HOW THE TARGET LANGUAGE AND CULTURE PERCEIVES AND IS PERCEIVED BY OTHER LANGUAGES AND CULTURES.~~

~~4(g) THE TEACHER UNDERSTANDS THE STEREOTYPES HELD BY BOTH THE U.S. AND TARGET CULTURES AND THE IMPACTS OF THOSE BELIEFS.~~

~~PERFORMANCE~~

~~4(h) THE TEACHER DEMONSTRATES ADVANCED LEVEL PERFORMANCE ACCORDING TO INTERPRETIVE, PRESENTATIONAL, AND INTERPERSONAL MODES AS DEFINED BY ACTFL.~~

~~4(i) THE TEACHER INTEGRATES LANGUAGE SKILLS AND CULTURAL KNOWLEDGE IN THE TARGET LANGUAGE WITHIN THE PRESENTATIONAL, INTERPRETIVE, AND INTERPERSONAL MODES OF COMMUNICATION.~~

~~4(j) THE TEACHER ADVOCATES FOR THE VALUE AND BENEFITS OF WORLD LANGUAGE LEARNING TO EDUCATION STAKEHOLDERS.~~

~~4(k) THE TEACHER USES THE TARGET LANGUAGE IN PRESENTATIONAL, INTERPRETIVE, AND INTERPERSONAL MODES OF COMMUNICATION AND PROVIDES OPPORTUNITIES FOR THE STUDENTS TO DO SO.~~

4(l) THE TEACHER PROVIDES OPPORTUNITIES TO COMMUNICATE IN THE TARGET LANGUAGE IN MEANINGFUL, PURPOSEFUL ACTIVITIES THAT SIMULATE REAL-LIFE SITUATIONS.

4(m) THE TEACHER SYSTEMATICALLY INCORPORATES CULTURE INTO INSTRUCTION.

4(n) THE TEACHER INCORPORATES HOW THE TARGET LANGUAGE/CULTURE PERCEIVES AND IS PERCEIVED BY OTHER LANGUAGES AND CULTURES.

4(o) THE TEACHER DEMONSTRATES HOW CULTURE AND LANGUAGE ARE INTRINSICALLY CONNECTED.

4(p) THE TEACHER DEMONSTRATES THE WAY(S) IN WHICH KEY LINGUISTIC STRUCTURES, INCLUDING PHONETICS, MORPHOLOGY, SEMANTICS, SYNTAX, AND PRAGMATICS, PARTICULAR TO THE TARGET LANGUAGE, COMPARE TO ENGLISH COMMUNICATION PATTERNS.

STANDARD 5: APPLICATION OF CONTENT. THE TEACHER UNDERSTANDS HOW TO CONNECT CONCEPTS AND USE DIFFERING PERSPECTIVES TO ENGAGE LEARNERS IN CRITICAL THINKING, CREATIVITY, AND COLLABORATIVE PROBLEM SOLVING RELATED TO AUTHENTIC LOCAL AND GLOBAL ISSUES.

PERFORMANCE

5(a) THE TEACHER USES A VARIETY OF TECHNIQUES TO FOSTER PROFICIENCY WITHIN THE TARGET LANGUAGE SUCH AS DIALOGUES, SONGS, OPEN-ENDED INQUIRY, NON-VERBAL TECHNIQUES, GUIDED QUESTIONS, MODELING, ROLE-PLAYING, AND STORYTELLING.

STANDARD 6: ASSESSMENT. THE TEACHER UNDERSTANDS AND USES MULTIPLE METHODS OF ASSESSMENT TO ENGAGE LEARNERS IN THEIR OWN GROWTH, TO MONITOR LEARNER PROGRESS, AND TO GUIDE THE TEACHER'S AND LEARNER'S DECISION MAKING.

KNOWLEDGE

6(a) THE TEACHER KNOWS THE NCSSFL-ACTFL CAN-DO STATEMENTS AND ACTFL PERFORMANCE DESCRIPTORS ACCORDING TO THE INTERPRETIVE, INTERPERSONAL AND PRESENTATIONAL MODES FOR A VARIETY OF SKILLS (E.G., LISTENING, SPEAKING, READING, WRITING, SIGNING).

PERFORMANCE

~~6(b) THE TEACHER USES THE NCSSFL-ACTFL CAN-DO STATEMENTS AND ACTFL PERFORMANCE DESCRIPTORS ACCORDING TO THE INTERPRETIVE, INTERPERSONAL AND PRESENTATIONAL MODES FOR A VARIETY OF SKILLS (E.G., LISTENING, SPEAKING, READING, WRITING, SIGNING) TO CREATE PROFICIENCY- BASED TO CREATE PROFICIENCY-BASED FORMATIVE AND SUMMATIVE ASSESSMENTS.~~

~~STANDARD 7: PLANNING FOR INSTRUCTION. THE TEACHER PLANS INSTRUCTION THAT SUPPORTS EVERY STUDENT IN MEETING RIGOROUS LEARNING GOALS BY DRAWING UPON KNOWLEDGE OF CONTENT AREAS, CURRICULUM, CROSS- DISCIPLINARY SKILLS, AND PEDAGOGY, AS WELL AS KNOWLEDGE OF LEARNERS AND THE COMMUNITY CONTEXT.~~

~~KNOWLEDGE~~

~~7(a) THE TEACHER UNDERSTANDS HOW TO INCORPORATE THE ACTFL STANDARDS OF COMMUNICATION, CULTURES, CONNECTIONS, COMPARISONS, AND COMMUNITIES INTO INSTRUCTIONAL PLANNING.~~

~~7(b) THE TEACHER KNOWS HOW TO DESIGN LESSON PLANS BASED ON ACTFL STANDARDS, RESEARCH-BASED PRACTICES, AND A VARIETY OF PROFICIENCY GUIDELINES THAT ENHANCE STUDENT UNDERSTANDING OF THE TARGET LANGUAGE AND CULTURE.~~

~~7(c) THE TEACHER KNOWS HOW TO DESIGN LESSON PLANS THAT INCORPORATE THE SCAFFOLDING NECESSARY TO PROGRESS FROM BASIC LEVEL SKILLS TO APPROPRIATE CRITICAL AND HIGHER ORDER THINKING SKILLS.~~

~~7(d) THE TEACHER UNDERSTANDS THE RELATIONSHIP OF A VARIETY OF WELL-ARTICULATED, SEQUENTIAL, AND DEVELOPMENTALLY APPROPRIATE LANGUAGE OUTCOMES AND LANGUAGE PROGRAM MODELS.~~

~~7(e) THE TEACHER KNOWS HOW TO CREATE ORGANIZED AND COHESIVE CURRICULUM TOWARDS SUCCESSFUL SECOND LANGUAGE ACQUISITION.~~

~~PERFORMANCE~~

~~7(f) THE TEACHER INCORPORATES THE ACTFL STANDARDS OF COMMUNICATION, CULTURES, CONNECTIONS, COMPARISONS, AND COMMUNITIES INTO INSTRUCTIONAL PLANNING.~~

~~7(g) THE TEACHER DESIGNS LESSON PLANS BASED ON ACTFL STANDARDS, RESEARCH-BASED PRACTICES, AND A VARIETY OF PROFICIENCY GUIDELINES, WHICH ENHANCE STUDENT UNDERSTANDING OF THE TARGET LANGUAGE AND CULTURE.~~

~~7(h) THE TEACHER DESIGNS LESSON PLANS WHICH INCORPORATE THE SCAFFOLDING NECESSARY TO PROGRESS FROM BASIC LEVEL SKILLS TO APPROPRIATE CRITICAL AND HIGHER ORDER THINKING SKILLS.~~

~~7(i) THE TEACHER CREATES ORGANIZED AND COHESIVE CURRICULUM TOWARDS SUCCESSFUL SECOND LANGUAGE ACQUISITION.~~

~~STANDARD 8: INSTRUCTIONAL STRATEGIES. THE TEACHER UNDERSTANDS AND USES A VARIETY OF INSTRUCTIONAL STRATEGIES TO ENCOURAGE LEARNERS TO DEVELOP DEEP UNDERSTANDING OF CONTENT AREAS AND THEIR CONNECTIONS, AND TO BUILD SKILLS TO APPLY KNOWLEDGE IN MEANINGFUL WAYS.~~

~~KNOWLEDGE~~

~~8(a) THE TEACHER UNDERSTANDS THE NEED TO STAY CURRENT ON WORLD LANGUAGES METHODOLOGIES BASED ON EMERGING RESEARCH IN SECOND LANGUAGE ACQUISITION.~~

~~8(b) THE TEACHER UNDERSTANDS INSTRUCTIONAL PRACTICES THAT FACILITATE PROFICIENCY-BASED LEARNING.~~

~~8(c) THE TEACHER UNDERSTANDS THE IMPORTANCE OF REMAINING CURRENT IN SECOND-LANGUAGE PEDAGOGY BY MEANS OF ATTENDING CONFERENCES, MAINTAINING MEMBERSHIPS IN PROFESSIONAL ORGANIZATIONS, READING PROFESSIONAL JOURNALS, AND/OR ON-SITE AND ON-LINE PROFESSIONAL DEVELOPMENT OPPORTUNITIES.~~

~~PERFORMANCE~~

~~8(d) THE TEACHER USES A VARIETY OF INSTRUCTIONAL STRATEGIES BASED ON CURRENT RESEARCH TO ENHANCE STUDENTS' UNDERSTANDING OF THE TARGET LANGUAGE AND CULTURE.~~

~~8(e) THE TEACHER INCORPORATES A VARIETY OF INSTRUCTIONAL TOOLS SUCH AS TECHNOLOGY, LOCAL EXPERTS, AND ON-LINE RESOURCES TO ENCOURAGE HIGHER LEVEL THINKING SKILLS.~~

~~***STANDARD 9: PROFESSIONAL LEARNING AND ETHICAL PRACTICE. THE TEACHER ENGAGES IN ONGOING PROFESSIONAL LEARNING AND USES EVIDENCE TO CONTINUALLY EVALUATE HIS/HER PRACTICE, PARTICULARLY THE EFFECTS OF HIS/HER CHOICES AND ACTIONS ON OTHERS (LEARNERS, FAMILIES, OTHER PROFESSIONALS, AND THE COMMUNITY), AND ADAPTS PRACTICE TO MEET THE NEEDS OF EACH LEARNER.***~~

~~***STANDARD 10: LEADERSHIP AND COLLABORATION. THE TEACHER SEEKS APPROPRIATE LEADERSHIP ROLES AND OPPORTUNITIES TO TAKE RESPONSIBILITY FOR STUDENT LEARNING, TO COLLABORATE WITH LEARNERS, FAMILIES, COLLEAGUES, OTHER SCHOOL PROFESSIONALS, AND COMMUNITY MEMBERS TO ENSURE LEARNER GROWTH, AND TO ADVANCE THE PROFESSION.***~~

DRAFT

~~KNOWLEDGE~~

~~10(a) THE TEACHER KNOWS ABOUT CAREER AND OTHER LIFE-ENRICHING OPPORTUNITIES AVAILABLE TO STUDENTS PROFICIENT IN WORLD LANGUAGES.~~

~~10(b) THE TEACHER UNDERSTANDS THE IMPORTANCE OF AND HOW TO PROVIDE OPPORTUNITIES FOR STUDENTS AND TEACHERS TO COMMUNICATE WITH NATIVE SPEAKERS.~~

~~10(c) THE TEACHER KNOWS HOW TO COMMUNICATE TO EDUCATION STAKEHOLDERS THE AMOUNT OF TIME AND ENERGY NEEDED FOR STUDENTS TO BE SUCCESSFUL IN ACQUIRING A SECOND LANGUAGE.~~

~~10(d) THE TEACHER UNDERSTANDS THE EFFECTS OF SECOND LANGUAGE ACQUISITION ON FIRST LANGUAGE MASTERY AND EDUCATION IN GENERAL.~~

~~PERFORMANCE~~

~~10(e) THE TEACHER INFORMS STUDENTS AND THE BROADER COMMUNITY OF CAREER OPPORTUNITIES AND PERSONAL ENRICHMENT THAT PROFICIENCY IN A SECOND LANGUAGE PROVIDES IN THE UNITED STATES AND BEYOND ITS BORDERS.~~

~~10(f) THE TEACHER ENCOURAGES STUDENTS TO PARTICIPATE IN COMMUNITY EXPERIENCES RELATED TO THE TARGET CULTURE.~~

~~GLOSSARY OF TERMS~~

~~**AMERICAN COUNCIL OF TEACHERS OF FOREIGN LANGUAGES (ACTFL)** - AN ORGANIZATION FOR WORLD LANGUAGE PROFESSIONALS OF K-12 AND HIGHER EDUCATION THAT SETS THE STANDARDS FOR AN AGREED UPON SET OF DESCRIPTIONS OF WHAT INDIVIDUALS CAN DO WITH LANGUAGE IN TERMS OF INTERPRETIVE, INTERPERSONAL, AND PRESENTATIONAL MODES FOR REAL-WORLD SITUATIONS IN A SPONTANEOUS AND NON-REHEARSED CONTEXT. IN ADDITION, THEY PROVIDE PROFICIENCY GUIDELINES THAT IDENTIFY FIVE MAJOR LEVELS OF PROFICIENCY: DISTINGUISHED, SUPERIOR, ADVANCED, INTERMEDIATE, AND NOVICE. THE MAJOR LEVELS ADVANCED, INTERMEDIATE, AND NOVICE ARE SUBDIVIDED INTO HIGH, MID, AND LOW SUBLEVELS. THE LEVELS OF THE ACTFL GUIDELINES DESCRIBE THE CONTINUUM OF PROFICIENCY FROM THAT OF THE HIGHLY ARTICULATE, WELL-EDUCATED LANGUAGE USER TO~~

~~A LEVEL OF LITTLE OR NO FUNCTIONAL ABILITY. THESE GUIDELINES PRESENT THE LEVELS OF PROFICIENCY AS RANGES, AND DESCRIBE WHAT AN INDIVIDUAL CAN AND CANNOT DO WITH LANGUAGE AT EACH LEVEL, REGARDLESS OF WHERE, WHEN HOW THE LANGUAGE WAS ACQUIRED.~~

~~**ACTFL PERFORMANCE DESCRIPTORS** – A ROADMAP FOR TEACHING AND LEARNING, HELPING TEACHERS CREATE PERFORMANCE TASKS TARGETED TO THE APPROPRIATE PERFORMANCE RANGE, WHILE CHALLENGING LEARNERS TO ALSO USE STRATEGIES FROM THE NEXT HIGHER RANGE. PERFORMANCE IS DESCRIBED AS THE ABILITY TO USE LANGUAGE THAT HAS BEEN LEARNED AND PRACTICED IN AN INSTRUCTIONAL SETTING.~~

~~**COMPREHENSIBLE INPUT** – LANGUAGE THAT IS ACCESSIBLE TO STUDENTS BY ENSURING THAT THE INSTRUCTOR IS USING THE TARGET LANGUAGE WITHIN THE REACH OF THE STUDENTS' COMPREHENSION~~

~~**COMPREHENSIBLE OUTPUT** – LANGUAGE PRODUCED BY THE LEARNER THAT IS UNDERSTANDABLE TO OTHERS, OFTEN THROUGH TRIAL AND ERROR~~

~~**CRITICAL THINKING** – AN INTELLECTUALLY DISCIPLINED PROCESS OF ACTIVELY AND SKILLFULLY APPLYING, ANALYZING, SYNTHESIZING, AND OR EVALUATING INFORMATION, WHICH IN ITS EXEMPLARY FORM TRANSCENDS SUBJECT MATTER DISCIPLINES~~

~~**EDUCATION STAKEHOLDERS** – STUDENTS, PARENTS, FACULTY, ADMINISTRATION, AND COMMUNITY MEMBERS~~

~~**INTERPERSONAL MODE (ACTFL)** – LEARNERS INTERACT AND NEGOTIATE MEANING IN SPOKEN, SIGNED, OR WRITTEN CONVERSATIONS TO SHARE INFORMATION REACTIONS, FEELINGS, AND OPINIONS~~

~~**INTERPRETIVE MODE (ACTFL)** – LEARNERS UNDERSTAND, INTERPRET, AND ANALYZE WHAT IS HEARD AND READ ON A VARIETY OF TOPICS~~

~~**LOW AFFECTIVE FILTER** – A METAPHORICAL FILTER THAT IS CAUSED BY A STUDENT'S NEGATIVE EMOTIONS WHICH REDUCE THE STUDENT'S ABILITY TO UNDERSTAND THE LANGUAGE SPOKEN TO THEM~~

~~**NCSSFL (NATIONAL COUNCIL OF STATE SUPERVISORS OF FOREIGN LANGUAGES)-ACTFL CAN DO STATEMENTS** – DESCRIBE THE SPECIFIC LANGUAGE TASKS THAT LEARNERS ARE LIKELY TO PERFORM AT VARIOUS LEVELS OF PROFICIENCY~~

NEGOTIATION OF MEANING – A PROCESS THAT SPEAKERS GO THROUGH TO REACH A CLEAR UNDERSTANDING OF EACH OTHER

PRESENTATIONAL MODE (ACTFL) – LEARNERS PRESENT INFORMATION, CONCEPTS, AND IDEAS TO INFORM, PERSUADE, EXPLAIN, AND NARRATE ON A VARIETY OF TOPICS USING APPROPRIATE MEDIA AND ADAPTING TO VARIOUS AUDIENCES OF LISTENERS, READERS, OR VIEWERS

PROFICIENCY – USING THE TARGET LANGUAGE WITH FLUENCY AND ACCURACY

SECOND LANGUAGE – ANY LANGUAGE THAT ONE SPEAKS OTHER THAN ONE'S FIRST LANGUAGE – ALSO KNOWN AS L2, TARGET LANGUAGE, ADDITIVE LANGUAGE

SECOND LANGUAGE ACQUISITION – THE PROCESS BY WHICH PEOPLE LEARN A SECOND LANGUAGE AND THE SCIENTIFIC DISCIPLINE THAT IS DEVOTED TO UNDERSTANDING THAT PROCESS

SCAFFOLDING - A PROCESS THAT ENABLES A STUDENT TO SOLVE A PROBLEM, CARRY OUT A TASK, OR ACHIEVE A GOAL WHICH OTHERWISE WOULD BE BEYOND HIS OR HER UNASSISTED EFFORTS INCLUDING INSTRUCTIONAL, PROCEDURAL, AND VERBAL TECHNIQUES

TASK BASED – TASK-BASED LEARNING FOCUSES ON THE USE OF AUTHENTIC LANGUAGE THROUGH MEANINGFUL TASKS, SUCH AS VISITING THE DOCTOR OR REQUESTING AN APPOINTMENT WITH AN INSTRUCTOR THROUGH EMAIL.

~~Other Teacher Endorsement Areas~~

~~Several teacher endorsement areas were not individually addressed in the current standards (refer to list below), given the small number of courses offered in these specific areas.~~

~~To be recommended for endorsement in these content areas, a candidate must meet the Idaho Core Teacher Standards and any current standards of their professional organization(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).~~

~~Content/Endorsement Areas~~

- ~~Humanities *~~
- ~~Psychology~~
- ~~Sociology~~

~~**The Idaho Standards for the Initial Certification of Teachers address content areas traditionally categorized as humanities requirements for students (e.g. music, drama, art, foreign language).*~~

DRAFT

~~ADMINISTRATOR ENDORSEMENTS~~

IDAHO STANDARDS FOR ADMINISTRATORS

All administrator candidates are expected to meet the standards specific to their discipline area(s). Additionally, all administrator candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

In accordance with Section 33-1207A, Idaho Code, reviews of already approved nonpublic teacher preparation programs shall be limited to substantive alignment with knowledge or equivalent standards.

EXAMPLE

School Principal Standard 2: Ethics and Professional Norms - ~~Effective~~ The school principal~~s~~ candidate acts ethically, legally, and with fiscal responsibility in accordance with ~~according to~~ professional norms and the Code of Ethics for Idaho Professional Educators to promote ~~all students'~~ the academic success and well-being of all students.

The nonpublic teacher preparation program review of School Principal Standard 2 shall be limited to verification that the candidate **knows how** they can act ethically, legally, and with fiscal responsibility in accordance with ~~according to~~ professional norms and the Code of Ethics for Idaho Professional Educators to promote ~~all students'~~ the academic success and well-being of all students.

IDAHO STANDARDS FOR SCHOOL PRINCIPALS

~~ALL ADMINISTRATOR CANDIDATES ARE EXPECTED TO MEET STANDARDS SPECIFIC TO THEIR DISCIPLINE AREA(S) AT THE "ACCEPTABLE" LEVEL OR ABOVE. ADDITIONALLY, ALL ADMINISTRATOR CANDIDATES ARE EXPECTED TO MEET THE REQUIREMENTS DEFINED IN STATE BOARD RULE (IDAPA 08.02.02: RULES GOVERNING UNIFORMITY).~~

~~The following standards and competencies for school principals were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective school principals. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

Standard 1: Mission, Vision, and Beliefs - ~~Effective~~ The school principal~~s~~ candidate demonstrates knowledge of how to develop, advocate, and enact a shared mission, vision, and beliefs of high-

quality education and academic success, college and career readiness, and well-being of all students.

~~**Knowledge**~~

~~1(a) The school principal understands how to develop an educational mission for the school to promote the academic success and well-being of all students.~~

~~1(b) The school principal understands the importance of developing a shared understanding of and commitment to mission, vision, and beliefs within the school and the community.~~

~~1(c) The school principal understands how to model and pursue the school's mission, vision, and beliefs in all aspects of leadership.~~

~~**Performance**~~

~~1(d) The school principal participates in the process of using relevant data to develop and promote a vision for the school on the successful learning and development of all students.~~

~~1(e) The school principal articulates, advocates, and cultivates beliefs that define the school's culture and stress the imperative of child-centered education.~~

~~1(f) The school principal strategically develops and evaluates actions to achieve the vision for the school.~~

~~1(g) The school principal reviews the school's mission and vision and makes recommendations to adjust them to changing expectations and opportunities for the school, and changing needs and situations of students.~~

Standard 2: Ethics and Professional Norms - ~~Effective~~ The school principal~~s~~ candidate act~~s~~ ethically, legally, and with fiscal responsibility in accordance with ~~according to~~ professional norms and the Code of Ethics for Idaho Professional Educators to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~2(a) The school principal understands ethical frameworks and perspectives.~~

~~2(b) The school principal understands the Code of Ethics for Idaho Professional Educators.~~

~~2(c) The school principal understands policies and laws related to schools and districts.~~

~~2(d) The school principal understands how to act according to and promote the professional norms of integrity, fairness, transparency, trust, collaboration, perseverance, learning, and continuous improvement.~~

~~2(e) The school principal understands the importance of placing children at the center of education and accepting responsibility for each student's academic success and well-being.~~

~~**Performance**~~

~~2(f) The school principal acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the school's resources, and all aspects of school leadership.~~

~~2(g) The school principal leads with interpersonal and communication skills, social-emotional insight, and understanding of all students' and staff members' backgrounds and cultures.~~

~~2(h) The school principal models and promotes ethical and professional behavior among teachers and staff in accordance with the Code of Ethics for Idaho Professional Educators.~~

Standard 3: Equity and Cultural Responsiveness – ~~School~~ The school principal~~s~~ candidate strives for equity of educational opportunity and models culturally responsive practices to promote ~~all students'~~ the academic success and well-being of all students.

~~**Knowledge**~~

~~3(a) The school principal understands how to recognize and respect all students' strengths, diversity, and culture as assets for teaching and learning.~~

~~3(b) The school principal understands the need for each student to have equitable access to effective teachers, learning opportunities, and academic and social support.~~

~~3(c) The school principal understands the importance of preparing students to live productively in and contribute to society.~~

~~3(d) The school principal understands how to address matters of equity and cultural responsiveness in all aspects of leadership.~~

~~3(e) The school principal understands how to ensure that all students are treated fairly, respectfully, and with an understanding of each student's culture and context.~~

~~**Performance**~~

~~3(f) The school principal develops processes that employ all students' strengths, diversity, and culture as assets for teaching and learning.~~

~~3(g) The school principal evaluates student policies that address student misconduct in a positive, fair, and unbiased manner.~~

~~3(h) The school principal acts with cultural competence and responsiveness in their interactions, decision making, and practice.~~

Standard 4: Curriculum, Instruction, and Assessment - ~~School~~ The school principal~~s~~ candidate demonstrates how to develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~4(a) The school principal understands how to implement and align coherent systems of curriculum, instruction, and assessment that promote the mission, vision, and beliefs~~

~~of the school, embody high expectations for student learning, align with academic standards, and are culturally responsive.~~

~~4(b) The school principal understands how to promote instructional practice that is consistent with knowledge of learning and development, effective teaching, and the needs of each student.~~

~~4(c) The school principal understands the importance of instructional practice that is intellectually challenging, authentic to student experiences, recognizes student strengths, and is differentiated and personalized.~~

~~4(d) The school principal understands how to utilize valid assessments that are consistent with knowledge of learning and development and technical standards of measurement.~~

~~4(e) The school principal understands how to ensure instruction is aligned to adopted curriculum and Idaho content standards including provisions for time and resources.~~

~~**Performance**~~

~~4(f) The school principal participates in aligning and focusing systems of curriculum, instruction, and assessment within and across grade levels and programs to promote student academic and career success.~~

~~4(g) The school principal uses and promotes the effective use of technology in the service of teaching and learning.~~

~~4(h) The school principal uses assessment data appropriately and effectively, and within technical limitations to monitor student progress and improve instruction.~~

Standard 5: Community of Care and Support for Students - ~~School~~ The school principal~~s~~ candidate demonstrates knowledge of how to cultivate an inclusive, caring, and supportive school community that promotes the academic success and well-being of all students.

~~**Knowledge**~~

~~5(a) The school principal understands how to build and maintain a safe, caring, and healthy school environment that meets the academic, social, emotional, and physical needs of all students.~~

~~5(b) The school principal understands how to promote adult-student, peer-peer, and school-community relationships that value and support academic learning and positive social and emotional development.~~

~~5(c) The school principal understands the laws and regulations associated with special student populations.~~

~~5(d) The school principal understands various intervention strategies utilized to close achievement gaps.~~

~~5(e) The school principal understands essential components in the development and implementation of individual education programs, adhering to state and federal regulations.~~

~~Performance~~

~~5(f) The school principal participates in creating and sustaining a school environment in which each student is known, accepted and valued, trusted and respected, cared for, and encouraged to be an active and responsible member of the school community.~~

~~5(g) The school principal assists in designing coherent, responsive systems of academic and social supports, services, extracurricular activities, and accommodations to meet the range of learning needs of each student.~~

~~5(h) The school principal cultivates and reinforces student engagement in school and positive student conduct.~~

Standard 6: Professional Capacity of School Personnel - ~~School~~ The school principal~~s~~ candidate develops the individual professional capacity and practice of school personnel to promote ~~all students'~~the academic success and well-being of all students.

~~Knowledge~~

~~6(a) The school principal understands how to recruit, hire, support, develop, and retain effective and caring teachers and staff.~~

~~6(b) The school principal understands how to plan for and manage staff turnover and succession, providing opportunities for effective induction and mentoring of new personnel.~~

~~6(c) The school principal understands how to develop the capacity, opportunities, and support for teacher leadership and leadership from other members of the school community.~~

~~6(d) The school principal understands the importance of the personal and professional health of teachers and staff.~~

~~6(e) The school principal understands the Idaho adopted framework for teaching.~~

~~6(f) The school principal understands how to create individualized professional learning plans and encourage staff to incorporate reflective goal setting practices at the beginning of the school year.~~

~~6(g) The school principal understands how to foster continuous improvement of individual and collective instructional capacity to achieve outcomes envisioned for all students.~~

~~6(h) The school principal understands how to empower and motivate teachers and staff to the highest levels of professional practice and to continuous learning and improvement.~~

~~Performance~~

~~6(i) The school principal assists in developing teachers' and staff members' professional knowledge, skills, and practice through differentiated opportunities for learning and growth, guided by understanding of professional and adult learning and development.~~

~~6(j) The school principal delivers actionable feedback about instruction and other professional practice through valid, research-anchored systems of supervision and evaluation to support the development of teachers' and staff members' knowledge, skills, and practice.~~

~~6(k) The school principal increases their professional learning and effectiveness through reflection, study, and improvement, maintaining a healthy work-life balance.~~

~~6(l) The school principal utilizes observation and evaluation methods to supervise instructional personnel.~~

Standard 7: Professional Community for Teachers - ~~School~~ The school principal~~s~~ candidate demonstrates knowledge of how to foster a professional community of teachers and other professional staff to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~7(a) The school principal understands how to develop workplace conditions for teachers and other staff that promote effective professional development, practice, and student learning.~~

~~7(b) The school principal understands how to establish and sustain a professional culture of trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.~~

~~7(c) The school principal understands how to promote mutual accountability among teachers and other staff for each student's success and the effectiveness of the school as a whole.~~

~~7(d) The school principal understands how to encourage staff initiated improvement of programs and practices.~~

~~**Performance**~~

~~7(e) The school principal assists in developing and supporting open, productive, caring, and trusting working relationships among teachers and staff to promote professional capacity and the improvement of practice.~~

~~7(f) The school principal designs and implements job-embedded and other opportunities for professional learning collaboratively with teachers and staff.~~

~~7(g) The school principal assists with and critiques opportunities provided for collaborative examination of practice, collegial feedback, and collective learning.~~

Standard 8: Meaningful Engagement of Families and Community – ~~School~~ The school principal~~s~~ candidate engage~~s~~ families and the community in meaningful, reciprocal, and mutually beneficial ways to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~8(a) The school principal understands how to create and sustain positive, collaborative, and productive relationships with families and the community for the benefit of students.~~

~~8(b) The school principal understands and values the community's cultural, social, and intellectual, resources to promote student learning and school improvement.~~

~~8(c) The school principal understands how to develop and provide the school as a resource for families and the community.~~

~~8(d) The school principal understands the need to advocate for the school and district and for the importance of education, student needs, and priorities to families and the community.~~

~~8(e) The school principal understands how to build and sustain productive partnerships with the community to promote school improvement and student learning.~~

~~8(f) The school principal understands how to create means for the school community to partner with families to support student learning in and out of school.~~

~~8(g) The school principal understands how to employ the community's cultural, social, and intellectual resources to promote student learning and school improvement.~~

~~**Performance**~~

~~8(h) The school principal facilitates open two-way communication with families and the community about the school, students, needs, problems, and accomplishments.~~

~~8(i) The school principal demonstrates a presence in the community to understand its strengths and needs, develop productive relationships, and engage its resources for the school.~~

~~8(j) The school principal advocates publicly for the needs and priorities of students, families, and the school community.~~

Standard 9: Operations and Management – ~~School~~ The school principal~~s~~ candidate demonstrates knowledge of how to manage school operations and resources to promote ~~all students'~~ the academic success and well-being of all students.

~~**Knowledge**~~

~~9(a) The school principal understands how to institute, manage, and monitor operations and administrative systems that promote the mission and vision of the school.~~

~~9(b) The school principal understands how to strategically manage staff resources, assigning and scheduling teachers and staff to roles and responsibilities that optimize their professional capacity to address all students' learning needs.~~

~~9(c) The school principal understands how to seek, acquire, and manage fiscal, physical, and other resources to support curriculum, instruction, and assessment; the student learning community; professional capacity and community; and family and community engagement.~~

~~9(d) The school principal understands the need to be responsible, ethical, and accountable stewards of the school's monetary and non-monetary resources, engaging in effective budgeting and accounting practices.~~

9(e) The school principal understands how to employ technology to improve the quality and efficiency of operations and management.

9(f) The school principal understands how to comply and help the school community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.

9(g) The school principal understands governance processes and internal and external politics toward achieving the school's mission and vision

9(h) The school principal understands laws and policies regarding school safety and prevention by creating a detailed school safety plan, which addresses potential physical and emotional threats.

9(i) The school principal understands the value of transparency regarding decision making and the allocation of resources.

9(j) The school principal understands how to institute, manage, and monitor operations and administrative systems that promote the mission and vision of the school.

9(k) The school principal understands how to protect teachers' and other staff members' work and learning from disruption.

9(l) The school principal understands how to develop and manage relationships with feeder and connecting schools for enrollment management and curricular and instructional articulation.

9(m) The school principal understands how to develop and manage productive relationships with the district office and school board.

9(n) The school principal understands how to develop and administer systems for fair and equitable management of conflict among students, teachers and staff, leaders, families, and community.

Performance

9(o) The school principal assists in managing staff resources, assigning and scheduling teachers and staff to roles and responsibilities that optimize their professional capacity to address each student's learning needs.

9(p) The school principal assists in seeking, acquiring, and managing fiscal, physical, and other resources to support curriculum, instruction, and assessment; the student learning community; professional capacity and community; and family and community engagement.

9(q) The school principal utilizes technology to improve the quality and efficiency of operations and management.

9(r) The school principal assists in developing and maintaining data and communication systems to deliver actionable information for classroom and school improvement.

~~9(s) The school principal complies with and helps the school community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.~~

Standard 10: Continuous School Improvement – ~~School~~ The school principal~~s~~ candidate demonstrates knowledge of the use of data to create a continuous school improvement plan~~act as agents of continuous school improvement~~ to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~10(a) The school principal understands how to make school more effective for all students, teachers, staff, families, and the community.~~

~~10(b) The school principal understands methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the school.~~

~~10(c) The school principal understands change and change management processes.~~

~~10(d) The school principal understands a systems approach to promote coherence among improvement efforts and all aspects of school organization, programs, and services.~~

~~10(e) The school principal understands how to create and promote leadership among teachers and staff for inquiry, experimentation and innovation, and initiating and implementing improvement.~~

~~10(f) The school principal understands how to implement methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the school.~~

~~10(g) The school principal understands how to manage uncertainty, risk, competing initiatives, and politics of change.~~

~~10(h) The school principal understands how to assess and develop the capacity of staff to evaluate the value and applicability of emerging educational trends and the findings of research for the school and its improvement.~~

~~10(i) The school principal understands how to promote readiness, instill mutual commitment and accountability, and develop the knowledge, skills, and motivation to succeed in improvement.~~

~~**Performance**~~

~~10(j) The school principal participates in an ongoing process of evidence-based inquiry, learning, strategic goal setting, planning, implementation, and evaluation for continuous school and classroom improvement.~~

~~10(k) The school principal analyzes situationally appropriate strategies for improvement, including transformational and incremental, adaptive approaches and attention to different phases of implementation.~~

~~10(l) The school principal assists in developing appropriate systems of data collection, management, analysis, and use, connecting as needed to the district office and~~

~~external partners for support in planning, implementation, monitoring, feedback, and evaluation.~~

DRAFT

IDAHO STANDARDS FOR SUPERINTENDENTS

~~ALL ADMINISTRATOR CANDIDATES ARE EXPECTED TO MEET STANDARDS SPECIFIC TO THEIR DISCIPLINE AREA(S) AT THE "ACCEPTABLE" LEVEL OR ABOVE. ADDITIONALLY, ALL ADMINISTRATOR CANDIDATES ARE EXPECTED TO MEET THE REQUIREMENTS DEFINED IN STATE BOARD RULE (IDAPA 08.02.02: RULES GOVERNING UNIFORMITY).~~

~~The following standards and competencies for superintendents were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective superintendents. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~In addition to the standards listed here, superintendents must also meet the Idaho Standards for School Principals.~~

Standard 1: Mission, Vision, and Beliefs – ~~Effective~~ The superintendent~~s~~ candidate engages the school community to develop, advocate, and enact a shared mission, vision, and the beliefs for high-quality education and academic success for all students.

~~**Knowledge**~~

~~1(a) The superintendent understands the principles of developing and implementing strategic plans.~~

~~**Performance**~~

~~1(b) The superintendent articulates, advocates, and cultivates beliefs that define the district's culture and stress the imperative of child-centered education and continuous improvement.~~

~~1(c) The superintendent strategically develops, implements, and evaluates actions to achieve the vision for the district.~~

~~1(d) The superintendent reviews the district's mission and vision and adjusts them to changing expectations and opportunities for the district, and changing needs.~~

~~1(e) The superintendent develops shared understanding of and commitment to mission, vision, and beliefs within the district and the community.~~

~~1(f) The superintendent models and pursues the district's mission, vision, and beliefs in all aspects of leadership.~~

Standard 2: Ethics and Professionalism – ~~Effective~~ The superintendent~~s~~ candidate act~~s~~ ethically, legally, and with fiscal responsibility in accordance with professional norms and the Code of Ethics for Idaho Professional Educators.

~~**Performance**~~

~~2(a) The superintendent acts in accordance with and promotes the Code of Ethics for Idaho Professional Educators.~~

~~2(b) The superintendent acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the district's resources, and all aspects of district leadership.~~

~~2(c) The superintendent acts in accordance with and promotes the professional norms of integrity, fairness, transparency, trust, collaboration, perseverance, learning, and continuous improvement.~~

Standard 3: Equity and Cultural Responsiveness – ~~Effective~~ The superintendent~~s~~ candidate strive~~s~~ for equity of educational opportunity and ~~respect~~ models and promotes a respectful and inclusive attitude for diversity within the school district and larger communities.

~~**Performance**~~

~~3(a) The superintendent ensures that each student has equitable access to effective teachers, learning opportunities, academic and social support, and other resources necessary for success.~~

~~3(b) The superintendent recognizes and addresses implicit biases of student marginalization and low expectations associated with race, class, culture and language, and disability or special status.~~

~~3(c) The superintendent safeguards and promotes the values of democracy, individual freedom and responsibility, equity, and diversity.~~

Standard 4: High Expectations for Student Success – ~~Effective~~ The superintendent~~s~~ candidate set~~s~~ high expectations for all students and cultivate~~s~~ the conditions for student learning.

~~**Performance**~~

~~4(a) The superintendent implements coherent systems of curriculum, instruction, and assessment that promote the mission, vision, and beliefs of the district, embody high expectations for student learning, align with academic standards, and provide a pathway to college and/or career.~~

~~4(b) The superintendent aligns and focuses systems of curriculum, instruction, and assessment within and across grade levels and schools to promote student academic success.~~

Standard 5: High Expectations for Professional Practice – ~~Effective~~ The superintendent~~s~~ candidate develop~~s~~ the individual professional capacity and practice of school district personnel to promote the academic ~~student~~ success and well-being of all students.

~~**Performance**~~

~~5(a) The superintendent recruits, hires, supports, develops, and retains effective and caring educators and staff.~~

~~5(b) The superintendent develops principals', teachers', and staff members' professional knowledge, skills, and practice.~~

~~5(c) The superintendent delivers actionable feedback about instruction and other professional practice through valid, research anchored systems of supervision and evaluation to support the development of principals', teachers' and staff members' knowledge, skills, and practice.~~

~~5(d) The superintendent empowers and motivates principals, teachers, and staff to the highest levels of professional practice (individually and collectively) for continuous learning and improvement.~~

~~5(e) The superintendent develops workplace conditions for principals, teachers and other professional staff that promote effective professional development, practice, and student learning.~~

~~5(f) The superintendent empowers and entrusts principals, teachers and staff with collective responsibility for meeting the academic, social, emotional, and physical needs of each student, pursuant to the mission, vision, and beliefs of the district.~~

~~5(g) The superintendent establishes and sustains a professional culture of engagement and commitment to shared vision, goals, and objectives.~~

~~5(h) The superintendent establishes mutual accountability among educators and other professional staff for each student's success and the effectiveness of the district as a whole.~~

~~5(i) The superintendent supports open, productive, collaborative, trusting working relationships among principals, teachers, and staff to build professional capacity and improve practices.~~

~~5(j) The superintendent designs and implements job-embedded and other opportunities for professional learning collaboratively with principals, teachers, and staff.~~

Standard 6: Advocacy and ~~c~~Communications – ~~Effective~~ The superintendent candidate~~s~~ engages with school district personnel and the community ~~others~~ in meaningful, reciprocal, and mutually beneficial ways to promote student success.

~~**Performance**~~

~~6(a) The superintendent engages in regular and open two-way communication with families, the community, and other stakeholders about the district, students, needs, problems, and accomplishments.~~

~~6(b) The superintendent creates means for the district community to partner with families to support student learning in and out of schools in the district.~~

~~6(c) The superintendent advocates for education, the district and school, principals, teachers, parents, and students to engender district support and involvement.~~

~~6(d) The superintendent works effectively in the political environment at district, local, and state levels.~~

~~6(e) The superintendent builds and sustains productive partnerships with public and private sectors to promote district improvement and student learning.~~

Standard 7: Operations and Management – ~~Effective~~ The superintendent candidate~~s~~ demonstrates knowledge of how to manage school district operations and monetary and non-monetary resources to promote system success.

~~**Knowledge**~~

~~7(a) The superintendent understands the dynamics of collective bargaining, mediation, arbitration, and contract law.~~

~~7(b) The superintendent understands the responsibility and need for planning, maintaining, and budgeting for school facilities, personnel, technology, support services, and instructional programs.~~

~~7(c) The superintendent understands the importance of educating the whole child; high expectations for professional work; ethical and equitable practice; trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.~~

~~7(d) The superintendent understands and helps the school district community understand local, state, and federal laws, rights, policies, and regulations to promote student success.~~

~~**Performance**~~

~~7(e) The superintendent institutes, manages, and monitors operations and administrative systems that promote the mission and vision of the district.~~

~~7(f) The superintendent organizes time and delegates responsibilities to balance administrative/ managerial, educational, and community leadership priorities.~~

~~7(g) The superintendent strategically manages human resources, assigning and scheduling staff to roles and responsibilities that optimize their professional capacity.~~

~~7(h) The superintendent is a responsible, ethical, and accountable steward of the district's monetary and non-monetary resources, engaging in effective budgeting and accounting practices.~~

~~7(i) The superintendent develops and maintains data and communication systems for continuous improvement.~~

~~7(j) The superintendent develops and administers systems for fair and equitable management of conflict among students, principals, teachers, staff, leaders, families, and community.~~

~~7(k) The superintendent complies with local, state, and federal laws, rights, policies, and regulations to promote student success.~~

DRAFT

Standard 8: Continuous Improvement – ~~Effective~~ The superintendent candidate~~s~~ engages in a process of continuous improvement to ensure student success.

~~**Knowledge**~~

~~8(a) The superintendent understands the responsibility and need to promote strategies for continuous reassessment and improved performance for each student, school, and the district as a whole.~~

~~**Performance**~~

~~8(b) The superintendent uses methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the district.~~

~~8(c) The superintendent engages principals, teachers and stakeholders in an ongoing process of evidence based inquiry, learning, strategic goal setting, planning, implementation, and evaluation for continuous district and school improvement.~~

~~8(d) The superintendent utilizes data to drive improvement.~~

~~8(e) The superintendent adopts a systems perspective and promotes coherence among improvement efforts and all aspects of district organization, programs, and services.~~

~~8(f) The superintendent manages change – uncertainty, risks, competing initiatives, and politics.~~

~~8(g) The superintendent ensures that a clearly articulated district continuous improvement plan is implemented, monitored, evaluated, and revised.~~

Standard 9: Governance – ~~Effective~~ The superintendent~~s~~ candidate understands how to facilitate processes and activities to establish and maintain an effective and efficient governance structure for school districts.

~~**Knowledge**~~

~~9(a) The superintendent understands and complies with applicable laws, statutes, and regulations.~~

~~9(b) The superintendent understands the role of and effectively utilizes legal counsel.~~

~~9(c) The superintendent understands the organizational complexity of school districts, drawing from systems and organizational theory.~~

~~9(d) The superintendent understands the roles and responsibilities of both the superintendent and the local governing board.~~

~~**Performance**~~

~~9(e) The superintendent manages governance processes and internal/external politics toward achieving the district's mission and vision.~~

~~9(f) The superintendent develops and monitors the system for policy development and implementation in all facets of district operations.~~

~~9(g) The superintendent seeks and implements effective solutions that comply with local, state, and federal laws, rules, and policies.~~

~~9(h) The superintendent ensures transparency by complying with the requirements of Idaho open meeting and public records laws.~~

~~9(i) The superintendent develops and fosters a productive relationship with the local governing board.~~

~~9(j) The superintendent advises the local governing board on legal, ethical, and current educational issues and provide/encourage ongoing professional development.~~

DRAFT

IDAHO STANDARDS FOR ~~SPECIAL EDUCATION D~~DIRECTORS OF SPECIAL EDUCATION

~~ALL ADMINISTRATOR CANDIDATES ARE EXPECTED TO MEET STANDARDS SPECIFIC TO THEIR DISCIPLINE AREA(S) AT THE "ACCEPTABLE" LEVEL OR ABOVE. ADDITIONALLY, ALL ADMINISTRATOR CANDIDATES ARE EXPECTED TO MEET THE REQUIREMENTS DEFINED IN STATE BOARD RULE (IDAPA 08.02.02: RULES GOVERNING UNIFORMITY).~~

~~The following standards and competencies for special education directors were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective special education directors. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

~~In addition to the standards listed here, special education directors must also meet Idaho Standards for School Principals.~~

Standard 1: Mission, Vision, and Beliefs - ~~Effective~~ The special education director~~s~~ candidate demonstrates knowledge of how to develop, advocate, and enact a shared mission, vision, and beliefs of high-quality education and academic success, college and career readiness, and well-being of all students.

~~**Knowledge**~~

~~1(a) The special education director understands the importance of the district's mission and vision to promote academic success and well-being of all students.~~

~~1(b) The special education director understands the beliefs of the teaching profession that promote high-expectation and student support; equity, inclusiveness, and equal access; openness, caring, and trust; and continuous improvement.~~

~~1(c) The special education director understands the importance of leading with the district's mission, vision and beliefs.~~

~~**Performance**~~

~~1(d) The special education director evaluates and assesses the mission of the district to ensure it promotes the academic success and well-being of all students.~~

~~1(e) The special education director, in collaboration with members of the district and the community, use relevant data to develop and promote a vision for the district on the~~

~~successful learning and development of all children and on instructional and organizational practices that promote such success.~~

~~1(f) The special education director articulates, advocates, and cultivates beliefs that define the district's culture and stress the imperative of child-centered education; high expectations and student support; equity, inclusiveness, and equal access; openness, caring, and trust; and continuous improvement.~~

~~1(g) The special education director reviews the district's mission and vision and adjusts them to changing expectations and opportunities for the district, and changing needs and situations of all students.~~

~~1(h) The special education director develops shared understanding of and commitment to the mission, vision, and beliefs within the district and the community.~~

~~1(i) The special education director models and pursues the district's mission, vision, and beliefs in all aspects of leadership.~~

Standard 2: Ethics and Professional Norms - ~~Effective s~~The special education director~~s~~ candidate acts ethically, legally, and with fiscal responsibility in accordance with ~~according to~~ professional norms and the Code of Ethics for Idaho Professional Educators to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~2(a) The special education director understands the Code of Ethics for Idaho Professional Educators and its importance to all student success and well-being.~~

~~**Performance**~~

~~2(b) The special education director acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the district's resources, and all aspects of district leadership.~~

~~2(c) The special education director places children at the center of education and accepts responsibility for all students' general and special education academic success and well-being.~~

~~2(d) The special education director safeguards and promotes individual freedom and responsibility, equity, equal access, community, and diversity.~~

~~2(e) The special education director provides direction for ethical and professional behavior among principals, teachers, and staff.~~

Standard 3: Equity and Cultural Responsiveness – The ~~S~~special education director~~s~~ candidate strives for equity of educational opportunity and models culturally responsive practices to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~3(a) The special education director understands the importance of student's equitable access to effective teaching, equal opportunities for academic, social supports, and resources to be successful.~~

~~3(b) The special education director understands leadership roles when addressing equity and cultural responsiveness to assure district policies and procedures are positive, fair, and unbiased.~~

~~**Performance**~~

~~3(c) The special education director develops district policies to address student misconduct in a positive, fair, and unbiased manner.~~

~~3(d) The special education director monitors and addresses institutional biases of student marginalization and low expectations associated with race, class, culture and language, and disability or special status.~~

~~3(e) The special education director address matters of equity and cultural responsiveness in all aspects of leadership.~~

Standard 4: Curriculum, Instruction, and Assessment - ~~Special~~ The special education director~~s~~ candidate demonstrates how to develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment to promote ~~all students'~~the academic success and well-being of all students.

~~**Knowledge**~~

~~4(a) The special education director understands the multi-tiered level of support system of curriculum, instruction, assessment, and technology that embodies high expectation for all students' learning, which is aligned with academic and behavior standards, and is culturally responsive.~~

~~4(b) The special education director understands child learning and development, effective teaching, and data utilization to increase student academic success.~~

~~4(c) The special education director understands the importance of assessment and the different types of assessment that drive instruction.~~

~~**Performance**~~

~~4(d) The special education director aligns and focuses systems of curriculum, instruction, and assessment within and across grade levels, including post-secondary outcomes, to promote all students' academic and career success.~~

~~4(e) The special education director promotes instructional practice that is consistent with knowledge of child learning and development, effective pedagogy, and the needs of all students.~~

~~4(f) The special education director ensures instructional practice that is intellectually challenging, authentic to all student experiences, recognizes student strengths, and is differentiated and personalized.~~

Standard 5: Community of Care and Support for Students - ~~Special~~ The special education director~~s~~ candidate demonstrates knowledge of how to cultivate an inclusive, caring, and supportive school district community that promotes the academic success and well-being of all students.

~~**Knowledge**~~

~~5(a) The special education director knows how to create a safe, caring, and healthy district environment that includes all students as members of the district's community that promotes positive learning environments.~~

~~5(b) The special education director knows how to create an environment of strong engagement and positive conduct to meet the learning needs of all students.~~

~~**Performance**~~

~~5(c) The special education director promotes adult-student, peer-peer, school, and district-community relationships that value and support academic learning and positive social and emotional development.~~

~~5(d) The special education director infuses the district's learning environment with the cultures and languages of the district's community.~~

Standard 6: Professional Capacity of District and School Personnel - ~~Special~~ The special education director candidate~~s~~ develop~~s~~ the professional capacity and practice of school district personnel to promote ~~each student's~~the academic success and well-being of each student.

~~**Knowledge**~~

~~6(a) The special education director understands educational employment trends and how they impact the district's ability to recruit, hire, support, develop, and retain effective and caring teachers and other professional staff.~~

~~6(b) The special education director knows the importance of on-going professional development to ensure opportunities for personal learning and growth, self-reflection, study, and improvement, maintaining a healthy work-life balance.~~

~~**Performance**~~

~~6(c) The special education director fosters continuous improvement of individual and collective instructional capacity to achieve outcomes envisioned for each student.~~

~~6(d) The special education director develops the capacity, opportunities, and support for special education teacher leadership and leadership from other members of the district community.~~

~~6(e) The special education director promotes the personal and professional health, well-being, and work-life balance of special education staff.~~

Standard 7: Professional Community for Teachers - ~~Special~~ The special education director candidate~~s~~ demonstrates knowledge of how to foster a professional community of teachers and other professional staff to promote ~~each student's~~the academic success and well-being of each student.

~~**Knowledge**~~

~~7(a) The special education director understands the importance of educating the whole child; high expectations for professional work; ethical and equitable practice; trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.~~

~~7(b) The special education director knows how to promote mutual accountability between special and general education to facilitate all students' educational success pursuant to the mission, vision, and beliefs of the district.~~

~~**Performance**~~

~~7(c) The special education director develops workplace conditions for special and general education staff that promote effective professional development, practice, and student learning.~~

~~7(d) The special education director empowers and entrusts special and general education staff with collective responsibility for meeting the academic, social, emotional, and physical needs of each student, pursuant to the mission, vision, and beliefs of the district.~~

~~7(e) The special education director promotes mutual accountability among special and general education staff for each student's success and the effectiveness of the district as a whole.~~

~~7(f) The special education director develops and supports open, productive, caring, and trusting working relationships among district and school leaders, teachers, and staff to promote professional capacity and the improvement of practice.~~

~~7(g) The special education director designs and implements job-embedded and other opportunities for professional learning collaboratively with district and school staff.~~

~~7(h) The special education director encourages special and general education staff initiated improvement of programs and practices.~~

Standard 8: Meaningful Engagement of Families and Community – ~~Special~~ The special education director candidate~~s~~ engages families and the community in meaningful, reciprocal, and mutually beneficial ways to promote ~~each student's~~the academic success and well-being of each student.

~~**Knowledge**~~

~~8(a) The special education director understands how to facilitate open effective communication with families and communities to promote student learning and achievements.~~

~~8(b) The special education director understands how to motivate and engage families and communities as partners in increasing student growth, as measured by post-secondary success.~~

~~**Performance**~~

~~8(c) The special education director is approachable, accessible, and welcoming to families and members of the community.~~

~~8(d) The special education director creates and sustains positive, collaborative, and productive relationships with families and the community for the benefit of all students.~~

~~8(e) The special education director engages in regular and open two-way communication with families and the community about the district, schools, students, needs, problems, and accomplishments.~~

~~8(f) The special education director creates means for the district community to partner with families to support student learning in and out of district.~~

~~8(g) The special education director understands, values, and employs the community's cultural, social, and intellectual resources to promote student learning and district improvement.~~

~~8(h) The special education director develops and provides the district as a resource for families and the community.~~

~~8(i) The special education director advocates for the district, the importance of education and student needs, priorities to families, and the community.~~

~~8(j) The special education director advocates publicly for the needs and priorities of students, families, and the community.~~

~~8(k) The special education director builds and sustains productive partnerships with public and private sectors to promote district improvement and student learning.~~

Standard 9: Operations and Management – ~~Special~~ The special education director candidate~~s~~ demonstrates knowledge of how to manage~~s~~ school district operations and resources to promote ~~all students'~~the academic success and well-being of each student.

~~**Knowledge**~~

~~9(a) The special education director knows sources of funding (e.g., IDEA, General Funds, Medicaid) and how to create and implement budgetary systems aligned with the district's mission and vision.~~

~~9(b) The special education director knows how to allocate and account for district's monetary and non-monetary resources to assure each student's needs are met.~~

~~**Performance**~~

~~9(c) The special education director institutes, manages, and monitors operations and administrative systems that promote the mission and vision of the district.~~

~~9(d) The special education director strategically manages staff resources, assigning and scheduling special education staff to roles and responsibilities that optimize their professional capacity to address each student's learning needs.~~

~~9(e) The special education director is a responsible, ethical, and accountable steward of the district's monetary and non-monetary resources, engaging in effective budgeting and accounting practices.~~

~~9(f) The special education director develops and maintains data and communication systems to deliver actionable information for classroom, school, and district improvement.~~

~~9(g) The special education director knows, complies with, and helps the district community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.~~

~~9(h) The special education director develops and administers systems for fair and equitable management of conflict among students, school and district staff, leaders, families, and community.~~

~~9(i) The special education director manages governance processes and internal and external politics toward achieving the district's mission and vision.~~

Standard 10: Continuous School and District Improvement - ~~Special~~ The special education director candidate~~s~~ demonstrates knowledge of the use of data to create a continuous school improvement plan ~~act as agents of continuous school and district improvement~~ to promote ~~each student's~~the academic success and well-being of each student.

~~**Knowledge**~~

~~10(a) The special education director understands continuous improvement to engage in evidence based planning, implementation, and educational trends to improve outcomes for all students.~~

~~10(b) The special education director knows how to make schools within the district more effective for all students, teachers, staff, families, and the community.~~

~~**Performance**~~

~~10(c) The special education director uses methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the district.~~

~~10(d) The special education director assesses and develops the capacity of staff to gauge the value and applicability of emerging special education trends and the findings of research for the district and its improvement.~~

~~10(e) The special education director adopts a systems perspective and promotes coherence among improvement efforts and all aspects of district organization, programs, and services.~~

~~10(f) The special education director manages uncertainty, risk, competing initiatives, and the politics of change with courage and perseverance, providing support and encouragement, and openly communicating the need for, process for, and outcomes of improvement efforts.~~

IDAHO STANDARDS FOR ~~PUPIL~~ PUPIL ~~PERSONNEL S~~SERVICES~~S~~ STAFF ~~ENDORSEMENTS~~

The following national accreditation standards are recognized for each pupil service staff program:

- Audiology and Speech Language Pathologist – Council on Academic Accreditation (CAA), American Speech-Language-Hearing Association (ASHA)
- Nursing (School Nurse) – Commission on Collegiate Nursing Education (CCNE)
- School Counselor – Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- School Psychologist – National Association of School Psychologists (NASP)
- School Social Worker – Council on Social Work Education (CSWE)

A pupil service staff preparation program with national accreditation shall be considered to meet the Idaho Standards for the Pupil Service Staff program. Preparation programs with national accreditation shall be limited to verification of alignment with the State Specific Standards for Pupil Service Staff (see below).

STATE SPECIFIC STANDARDS FOR PUPIL SERVICE STAFF

Standard 1: American Indian Tribes and Tribal Sovereignty*. The pupil service staff candidate knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities and the cultural resources (e.g., language, history, indigenous knowledge) of American Indian students and their communities.

**The federal and state governments of Idaho recognize the unique inherent sovereignty of each tribe of Idaho. This tribal sovereignty distinguishes Indigenous peoples as peoples, rather than populations or national minorities.*

Standard 2: Code of Ethics for Idaho Professional Educators. The pupil service staff candidate understands the Code of Ethics for Idaho Professional Educators and its place in supporting the integrity of the profession.

Standard 3: Digital Technology and Online Learning. The pupil service staff candidate knows how to use digital technology to support students in face-to-face, blended, and online environments.

ALREADY APPROVED NON-PUBLIC PREPARATION PROGRAMS

In accordance with Section 33-1207A, Idaho Code, reviews of already approved nonpublic teacher preparation programs shall be limited to substantive alignment with knowledge or equivalent standards.

EXAMPLE

School Counselor Standard 2: Foundations - School counselors should possess the knowledge, abilities, skills, and attitudes necessary to establish the foundations of a comprehensive school counseling program.

The nonpublic teacher preparation program review of School Counselor Standard 2 shall be limited to verification that the candidate **possesses the knowledge** to establish the foundations of a comprehensive school counseling program.

DRAFT

IDAHO STANDARDS FOR AUDIOLOGY

All audiology candidates are expected to meet standards specific to their discipline area(s) ~~at the "acceptable" level or above~~. Additionally, all audiology candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for audiologists were adopted from the Council For Clinical Certification in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association. (2012 Standards for the Certificate of Clinical Competence in Audiology). ~~These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective audiologists. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

Standard I: Degree – Applicants for certification must have a doctoral degree. The course of study must address the knowledge and skills necessary to independently practice in the profession of audiology.

~~**Implementation: Verification of the graduate degree is required of the applicant before the certificate is awarded. Degree verification is accomplished by submitting (a) an application signed by the director of the graduate program, indicating the degree date, and (b) an official transcript showing that the degree has been awarded, or a letter from the university registrar verifying completion of requirements for the degree.**~~

~~**Individuals educated outside the United States or its territories must submit official transcripts and evaluations of their degrees and courses to verify equivalency. These evaluations are typically conducted by credential evaluation services agencies recognized by the National Association of Credential Evaluation Services (NACES). Information that must be provided is (a) confirmation that the degree earned is equivalent to a U.S. doctoral degree, (b) translation of academic coursework into the American semester hour system, and (c) indication as to which courses were completed at the graduate level.**~~

~~**The CFCC has the authority to determine eligibility of all applicants for certification.**~~

Standard II: Education Program – The graduate degree must be granted by a program accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).

~~**Implementation: Applicants whose graduate degree was awarded by a U.S. institution of higher education must have graduated from a program holding CAA accreditation in audiology.**~~

~~**Satisfactory completion of academic course work, clinical practicum, and knowledge and skills requirements must be verified by the signature of the program director or official designee of a CAA-accredited program or a program admitted to CAA candidacy.**~~

Standard III: Program of Study – Applicants for certification must complete a program of study that includes academic course work and a minimum of 1,820 hours of supervised clinical practicum sufficient in depth and breadth to achieve the knowledge and skills outcomes

stipulated in Standard IV. The supervision must be provided by individuals who hold the ASHA Certificate of Clinical Competence (CCC) in Audiology.

~~**Implementation: The program of study must address the knowledge and skills pertinent to the field of audiology. Clinical practicum must be approved by the academic program from which the student intends to graduate. The student must maintain documentation of time spent in supervised practicum, verified by the academic program in accordance with Standard IV.**~~

~~**Students shall participate in practicum only after they have had sufficient preparation to qualify for such experience. Students must obtain a variety of clinical practicum experiences in different work settings and with different populations so that they can demonstrate skills across the scope of practice in audiology. Acceptable clinical practicum experience includes clinical and administrative activities directly related to patient care. Clinical practicum is defined as direct patient/client contact, consultation, record keeping, and administrative duties relevant to audiology service delivery. Time spent in clinical practicum experiences should occur throughout the graduate program.**~~

~~**Supervision must be sufficient to ensure the welfare of the patient and the student in accordance with the ASHA Code of Ethics. Supervision of clinical practicum must include direct observation, guidance, and feedback to permit the student to monitor, evaluate, and improve performance and to develop clinical competence. The amount of supervision must also be appropriate to the student's level of training, education, experience, and competence.**~~

~~**Supervisors must hold a current ASHA CCC in the appropriate area of practice. The supervised activities must be within the scope of practice of audiology to count toward certification.**~~

Standard IV: Knowledge and Skills Outcomes – Applicants for certification must have acquired knowledge and developed skills in six areas: foundations of practice, prevention/identification, assessment, (re)habilitation, advocacy/consultation, and education/research/administration.

~~**Implementation: This standard distinguishes between acquisition of knowledge for Standards IV-A.1–21 and IV-C.1, and the acquisition of knowledge and skills for Standards IV-A.22–29, IV-B, IV-C.2–11, IV-D, IV-E, and IV-F. The applicant must submit a completed application for certification signed by the academic program director verifying successful completion of all knowledge and skills in all six areas of Standard IV. The applicant must maintain copies of transcripts, and documentation of academic course work and clinical practicum.**~~

Standard IV-A: Foundations of Practice

The applicant must have knowledge of:

A1. Embryology and development of the auditory and vestibular systems, anatomy and physiology, neuroanatomy and neurophysiology, and pathophysiology

A2. Genetics and associated syndromes related to hearing and balance

A3. Normal aspects of auditory physiology and behavior over the life span

A4. Normal development of speech and language

A5. Language and speech characteristics and their development across the life span

A6. Phonologic, morphologic, syntactic, and pragmatic aspects of human communication associated with hearing impairment

A7. Effects of hearing loss on communication and educational, vocational, social, and psychological functioning

A8. Effects of pharmacologic and teratogenic agents on the auditory and vestibular systems

A9. Patient characteristics (e.g., age, demographics, cultural and linguistic diversity, medical history and status, cognitive status, and physical and sensory abilities) and how they relate to clinical services

A10. Pathologies related to hearing and balance and their medical diagnosis and treatment

A11. Principles, methods, and applications of psychometrics

A12. Principles, methods, and applications of psychoacoustics

A13. Instrumentation and bioelectrical hazards

A14. Physical characteristics and measurement of electric and other nonacoustic stimuli

A15. Assistive technology

A16. Effects of cultural diversity and family systems on professional practice

A17. American Sign Language and other visual communication systems

A18. Principles and practices of research, including experimental design, statistical methods, and application to clinical populations

A19. Legal and ethical practices (e.g., standards for professional conduct, patient rights, credentialing, and legislative and regulatory mandates)

A20. Health care and educational delivery systems

A21. Universal precautions and infectious/contagious diseases

The applicant must have knowledge and skills in:

A22. Oral and written forms of communication

A23. Principles, methods, and applications of acoustics (e.g., basic parameters of sound, principles of acoustics as related to speech sounds, sound/noise measurement and analysis, and calibration of audiometric equipment), as applicable to:

a. occupational and industrial environments

b. community noise

c. classroom and other educational environments

d. workplace environments

A24. The use of instrumentation according to manufacturer's specifications and recommendations

A25. Determining whether instrumentation is in calibration according to accepted standards

A26. Principles and applications of counseling

A27. Use of interpreters and translators for both spoken and visual communication

A28. Management and business practices, including but not limited to cost analysis, budgeting, coding and reimbursement, and patient management

A29. Consultation with professionals in related and/or allied service areas

Standard IV-B: Prevention and Identification

The applicant must have the knowledge and skills necessary to:

B1. Implement activities that prevent and identify dysfunction in hearing and communication, balance, and other auditory-related systems

B2. Promote hearing wellness, as well as the prevention of hearing loss and protection of hearing function by designing, implementing, and coordinating universal newborn hearing screening, school screening, community hearing, and occupational conservation and identification programs

B3. Screen individuals for hearing impairment and disability/handicap using clinically appropriate, culturally sensitive, and age- and site-specific screening measures

B4. Screen individuals for speech and language impairments and other factors affecting communication function using clinically appropriate, culturally sensitive, and age- and site-specific screening measures

B5. Educate individuals on potential causes and effects of vestibular loss

B6. Identify individuals at risk for balance problems and falls who require further vestibular assessment and/or treatment or referral for other professional services

Standard IV-C: Assessment

The applicant must have knowledge of:

C1. Measuring and interpreting sensory and motor evoked potentials, electromyography, and other electrodiagnostic tests for purposes of neurophysiologic intraoperative monitoring and cranial nerve assessment

The applicant must have knowledge and skills in:

C2. Assessing individuals with suspected disorders of hearing, communication, balance, and related systems

C3. Evaluating information from appropriate sources and obtaining a case history to facilitate assessment planning

C4. Performing otoscopy for appropriate audiological assessment/management decisions, determining the need for cerumen removal, and providing a basis for medical referral

C5. Conducting and interpreting behavioral and/or electrophysiologic methods to assess hearing thresholds and auditory neural function

C6. Conducting and interpreting behavioral and/or electrophysiologic methods to assess balance and related systems

C7. Conducting and interpreting otoacoustic emissions and acoustic immitance (reflexes)

C8. Evaluating auditory-related processing disorders

C9. Evaluating functional use of hearing

C10. Preparing a report, including interpreting data, summarizing findings, generating recommendations, and developing an audiologic treatment/management plan

C11. Referring to other professions, agencies, and/or consumer organizations

Standard IV-D: Intervention (Treatment)

The applicant must have knowledge and skills in:

D1. The provision of intervention services (treatment) to individuals with hearing loss, balance disorders, and other auditory dysfunction that compromises receptive and expressive communication

D2. Development of a culturally appropriate, audiologic rehabilitative management plan that includes, when appropriate, the following:

a. Evaluation, selection, verification, validation, and dispensing of hearing aids, sensory aids, hearing assistive devices, alerting systems, and captioning devices, and educating the consumer and family/caregivers in the use of and adjustment to such technology

b. Determination of candidacy of persons with hearing loss for cochlear implants and other implantable sensory devices and provision of fitting, mapping, and audiologic rehabilitation to optimize device use

c. Counseling relating to psychosocial aspects of hearing loss and other auditory dysfunction, and processes to enhance communication competence

d. Provision of comprehensive audiologic treatment for persons with hearing loss or other auditory dysfunction, including but not exclusive to communication strategies, auditory training, speech reading, and visual communication systems

D3. Determination of candidacy for vestibular and balance rehabilitation therapy to persons with vestibular and balance impairments

D4. Treatment and audiologic management of tinnitus

D5. Provision of treatment services for infants and children with hearing loss; collaboration/consultation with early interventionists, school based professionals, and other service providers regarding development of intervention plans (i.e., individualized education programs and/or individualized family service plans)

D6. Management of the selection, purchase, installation, and evaluation of large-area amplification systems

D7. Evaluation of the efficacy of intervention (treatment) services

Standard IV-E: Advocacy/Consultation

The applicant must have knowledge and skills in:

E1. Educating and advocating for communication needs of all individuals that may include advocating for the programmatic needs, rights, and funding of services for those with hearing loss, other auditory dysfunction, or vestibular disorders

E2. Consulting about accessibility for persons with hearing loss and other auditory dysfunction in public and private buildings, programs, and services

E3. Identifying underserved populations and promoting access to care

Standard IV-F: Education/Research/Administration

The applicant must have knowledge and skills in:

F1. Measuring functional outcomes, consumer satisfaction, efficacy, effectiveness, and efficiency of practices and programs to maintain and improve the quality of audiologic services

F2. Applying research findings in the provision of patient care (evidence-based practice)

F3. Critically evaluating and appropriately implementing new techniques and technologies supported by research-based evidence

F4. Administering clinical programs and providing supervision of professionals as well as support personnel

F5. Identifying internal programmatic needs and developing new programs

F6. Maintaining or establishing links with external programs, including but not limited to education programs, government programs, and philanthropic agencies

Standard V: Assessment – Applicants for certification must demonstrate successful achievement of the knowledge and skills delineated in Standard IV by means of both formative and summative assessments.

Standard V-A: Formative Assessment – The applicant must meet the education program's requirements for demonstrating satisfactory performance through ongoing formative assessment of knowledge and skills.

~~Implementation: Applicants and program faculties should use the ongoing assessment to help the applicant achieve requisite knowledge and skills. Thus, assessments should be followed by implementation strategies for acquisition of knowledge and skills.~~

Standard V-B: Summative Assessment – The applicant must pass the national examination adopted by ASHA for purposes of certification in audiology.

~~Implementation: Results of the Praxis Examination in Audiology must be submitted directly to ASHA from ETS. The certification standards require that a passing exam score must be earned no earlier than 5 years prior to the submission of the application and no later than 2 years following receipt of the application. If the exam is not successfully passed and reported within the 2-year application period, the applicant's certification file will be closed. If the exam is passed or reported at a later date, the individual will be required to reapply for certification under the standards in effect at that time.~~

Standard VI: Maintenance of Certification – Demonstration of continued professional development is mandated for maintenance of the Certificate of Clinical Competence (CCC) in Audiology. The renewal period will be three (3) years. This standard will apply to all certificate holders, regardless of the date of initial certification.

~~Implementation: Once certification is awarded, maintenance of that certification is dependent upon accumulation of the requisite professional development hours every three years. Payment of annual dues and/or certification fees is also a requirement of certification maintenance. A certificate holder whose dues and/or fees are in arrears on August 31, will have allowed their certification to expire on that date.~~

~~Individuals who hold the CCC in Audiology must accumulate 30 contact hours of professional development over the 3-year period and must submit a compliance form in order to meet this standard. Individuals will be subject to random review of their professional development activities.~~

~~If certification maintenance requirements are not met, certification will lapse. Reinstatement of certification will be required, and certification reinstatement standards in effect at the time of submission of the reinstatement application must be met.~~

DRAFT

IDAHO STANDARDS FOR SCHOOL COUNSELORS

~~The purpose of the standards for school counselors is to promote, enhance, and maximize the learning process. To that end, the school counselor standards facilitate school counselor performance in three broad domains: Academic Development, Career Development, and Social/Emotional Development.~~ The ~~domains~~ Idaho Standards for School Counselors are aligned with the 2018 American School Counselor Association (ASCA) Standards for School Counselor Preparation Programs~~ and are embedded within each standard as described below~~. ~~-~~All school counselor candidates are expected to meet the Idaho Standards for School Counselors as endorsed by their institution. Additionally, all school counselor candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

~~The following knowledge and performance statements for the School Counselors Standards are widely recognized, though not all-encompassing or absolute, indicators that School Counselors have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

Standard 1: School Counseling Programs - School counselors should possess the knowledge, abilities, skills and attitudes necessary to plan, organize, implement and evaluate a comprehensive, developmental, data-informed school counseling program.

~~Knowledge - School counselors should articulate and demonstrate an understanding of:~~

- ~~1(a) The organizational structure and governance of the American educational system, as well as cultural, political, and social influences on current educational practices.~~
- ~~1(b) The organizational structure and components of an effective school counseling program.~~
- ~~1(c) Barriers to student learning and use of advocacy and data-informed school counseling practices.~~
- ~~1(d) Leadership principles and theories.~~
- ~~1(e) Individual counseling, group counseling, and school counseling core curriculum.~~
- ~~1(f) Collaborations with stakeholders such as parents and guardians, teachers, administrators and community leaders.~~
- ~~1(g) Principles of school counseling, including prevention, intervention, wellness, education, multiculturalism, social justice, and advocacy.~~
- ~~1(h) Assessments relevant to K-12 education.~~

~~Performance – An effective school counselor is able to accomplish measurable objectives demonstrating the following:~~

~~1(i) Applying the school counseling themes of leadership, advocacy, collaboration and systemic change.~~

~~1(j) Applying appropriate technologies to support student learning and development, assessment, planning, and delivery of comprehensive school counseling programs.~~

~~1(k) Multicultural, ethical, and professional competencies.~~

~~1(l) Identification and expression of professional and personal qualities and skills of effective leaders.~~

~~1(m) Collaboration with parents, teachers, support personnel, administrators, and community partners to create learning environments that promote and support educational equity, success, and well-being for everystudent.~~

Standard 2: Foundations - School counselors should possess the knowledge, abilities, skills, and attitudes necessary to establish the foundations of a comprehensive school counseling program.

~~Knowledge - School counselors should articulate and demonstrate an understanding of:~~

~~2(a) Beliefs and vision of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.~~

~~2(b) Educational systems, philosophies and theories, and current trends in education, including federal and state legislation.~~

~~2(c) The evolution of the school counseling profession, the basis for a comprehensive school counseling program, and the counselor's role in supporting growth and learning for all students.~~

~~2(d) Aspects of human development, such as cognitive, language, social/emotional, and physical development, as well as the impact of environmental stressors and societal inequities on learning and life outcomes.~~

~~2(e) District, state, and national student standards and competencies.~~

~~2(f) Legal and ethical standards and principles of the school counseling profession and educational systems, including state, district and building policies.~~

~~2(g) The three domains of academic, career, and social/emotional development.~~

~~Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:~~

~~2(h) Development of the beliefs, vision, and mission of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.~~

~~2(i) The use of student standards, such as district, state, or national standards, to drive the implementation of a comprehensive school counseling program.~~

~~2(j) Application of the ethical standards and principles of the school counseling profession and adhering to the legal aspects of the role of the school counselor and the Code of Ethics for Idaho Professional Educators.~~

~~2(k) Responsible advocacy for school board policy, as well as local, state and federal statutory requirements in students' best interests.~~

~~2(l) Practices within the ethical and statutory limits of confidentiality.~~

Standard 3: Management - School counselors should possess the knowledge, abilities, skills and attitudes necessary to manage a comprehensive school counseling program.

~~Knowledge - School counselors should articulate and demonstrate an understanding of:~~

~~3(a) Leadership principles, including formal and informal leadership and authority.~~

~~3(b) Consultation models to facilitate advocacy, collaboration and systemic change.~~

~~3(c) Presentation skills for programs such as teacher in-services, parent workshops and presentation of results reports to school boards.~~

~~3(d) Time management, including long- and short-term management, using tools such as schedules and calendars.~~

~~3(e) Process, perception, and outcome data; program and needs assessments; and other survey tools used to monitor and refine the school counseling program.~~

~~Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:~~

~~3(f) Self-evaluation of competencies in order to formulate an appropriate professional development plan.~~

~~3(g) Engagement in local, state, and national professional growth and development opportunities.~~

~~3(h) Use of multiple data points, including student interviews, direct observation, educational records, consultation with stakeholders, and test results to systematically address student needs and collaboratively establish goals.~~

~~3(i) Creation of calendars to ensure the effective implementation of the school counseling program.~~

~~3(j) Coordination of activities that establish, maintain, and enhance the school counseling program.~~

~~3(k) Use of school-wide data to promote systemic change within the school.~~

Standard 4: Professional Practice - School counselors should possess the knowledge, abilities, skills and attitudes necessary to deliver a comprehensive school counseling program.

~~Knowledge - School counselors should articulate and demonstrate an understanding of:~~

~~4(a) The distinction between direct and indirect student services.~~

~~4(b) Counseling theories and techniques in different settings, such as individual planning, group counseling, and classroom school counseling core curriculum.~~

~~4(c) Principles of career and post-secondary planning.~~

~~4(d) Principles of working with various student populations based on characteristics, such as ethnic and racial background, English language proficiency, special needs, religion, gender, sexual orientation, and socio-economic status.~~

~~4(e) Responsive services e.g., trauma, suicide, crisis response, grief, and bereavement.~~

~~4(f) How diagnoses and common medications or substances affect learning, behavior, and mood.~~

~~Performance – An effective school counselor is able to accomplish measurable objectives demonstrating the following:~~

~~4(g) Creation and presentation of a developmental school counseling curriculum addressing all students' needs based on student data.~~

~~4(h) Demonstration of pedagogical skills, including culturally responsive classroom management strategies, lesson planning, and personalized instruction.~~

~~4(i) Encouragement of staff involvement to ensure the effective implementation of the school counseling curriculum.~~

~~4(j) The ability to build effective, high-quality student support programs.~~

~~4(k) Development of strategies to implement individual student planning, which may include strategies for appraisal, advisement, goal-setting, decision-making, social skills, transition or post-secondary planning.~~

~~4(l) Participation as member of the crisis team, providing assistance to the school and community in a crisis.~~

~~4(m) Development of a list of community agencies and service providers for student referrals and understanding how to make referrals to appropriate professionals when necessary.~~

~~4(n) Partnerships with parents, teachers, administrators and education stakeholders for student achievement and success.~~

~~4(o) The ability to conduct in-service training or workshops for other stakeholders to share school counseling expertise.~~

~~4(p) Understanding and knowledge regarding how to provide supervision for school counseling interns.~~

~~4(q) Skills to critically examine the connections between social, familial, emotional, and behavioral problems and academic development.~~

~~4(r) Strengths-based counseling and relationship building skills to support student growth and promote equality and inclusion.~~

~~4(s) Consulting and seeking supervision to support ongoing critical reflection in an effort to identify cultural blind spots and prevent ethical lapses.~~

IDAHO STANDARDS FOR SCHOOL NURSES

~~The following knowledge and performance statements for the School Nurse Standards are widely recognized, but not all-encompassing or absolute, indicators that school nurse candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences.~~ It is the responsibility of a school nurse preparation program to ~~use indicators in a manner that is consistent with its conceptual framework and that~~ assure~~s~~ attainment of the standards. Additionally, all school nurse candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

~~An important component of the school nursing profession is a candidate's disposition. Professional dispositions are how the School Nurse candidate views their profession, their content area, and/or students and their health and learning. Every School Nurse preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Nurse candidate dispositions.~~

Standard 1: Quality Assurance - The school nurse understands how to systematically evaluate the quality and effectiveness of school nursing practice.

~~**Knowledge**~~

~~1(a) The school nurse understands the professional, state, and local policies, procedures, and practice guidelines that impact the effectiveness of school nursing practice within the school setting.~~

~~1(b) The school nurse understands the scope and standards of practice as identified by the American Nurses Association, National Association of School Nurses, and the Idaho State Board of Nursing administrative code.~~

~~1(c) The school nurse understands how to interpret data applicable to the school setting to ensure meaningful health and academic outcomes.~~

~~1(d) The school nurse understands the importance of documentation and uniform data set collection methods for evaluation and continuous quality improvement.~~

~~**Performance**~~

~~1(e) The school nurse conducts ongoing evaluations of school nursing practice.~~

~~1(f) The school nurse identifies the policies, procedures, and practice guidelines applicable to school nursing practice.~~

~~1(g) The school nurse uses research and data to monitor quality and effectiveness of school nursing practice.~~

~~1(h) The school nurse demonstrates critical thinking skills, use of evidence-based practice, and clinical competence.~~

Standard 2: Professional Development - The school nurse is a reflective practitioner who improves clinical skills through continual self-evaluation and ongoing education.

~~**Knowledge**~~

~~2(a) The school nurse understands how to improve knowledge and competency in school nursing.~~

~~2(b) The school nurse knows how to self-assess professional nursing practice.~~

~~2(c) The school nurse knows how to access professional resources and organizations that support school nursing.~~

~~2(d) The school nurse understands the current educational and health care laws which impact the ability of students to access education and healthcare in their community.~~

~~**Performance**~~

~~2(e) The school nurse participates in professional development related to current clinical knowledge and professional issues.~~

~~2(f) The school nurse seeks and acts on constructive feedback regarding professional development.~~

~~2(g) The school nurse pursues professional development as related to professional and program goals.~~

Standard 3: Communication - The school nurse is skilled in a variety of communication techniques (i.e., verbal and nonverbal).

~~**Knowledge**~~

~~3(a) The school nurse understands the importance of effective communication with school staff, families, students, the community, and other service providers.~~

~~3(b) The school nurse understands problem-solving and counseling techniques and crisis intervention strategies for individuals and groups.~~

~~3(c) The school nurse knows how to document appropriately.~~

~~**Performance**~~

~~3(d) The school nurse follows FERPA and HIPPA guidelines while communicating effectively and with sensitivity to community and cultural values, in a variety of settings (e.g., classroom presentations, public forums, individual interactions, written communication, documentation, professional collaboration).~~

Standard 4: Collaboration - The school nurse understands how to interact collaboratively with and contribute to the professional development of peers and school personnel.

~~**Knowledge**~~

~~4(a) The school nurse understands the principles of collaboration in sharing knowledge and skills.~~

~~**Performance**~~

~~4(b) The school nurse works collaboratively to enhance professional practice and to contribute to a supportive, healthy school environment.~~

Standard 5: Ethics and Advocacy - The school nurse makes decisions and takes actions on behalf of students and families in an ethical, professional manner.

~~**Knowledge**~~

~~5(a) The school nurse understands the code of ethics adopted by the American Nurses Association and the National Association of School Nurses and the Code of Ethics for Idaho Professional Educators.~~

~~5(b) The school nurse knows how to advocate and facilitate behavioral, emotional, and/or psychosocial services, both within the school environment and the community.~~

~~**Performance**~~

~~5(c) The school nurse performs duties in accord with the legal, regulatory, and ethical parameters of health and education (e.g. Idaho Nurse Practice Act, FERPA, HIPPA, IDEA, Section 504).~~

~~5(d) The school nurse acts as an advocate for students and families.~~

~~5(e) The school nurse delivers care in a manner that is sensitive to student diversity.~~

Standard 6: Health and Wellness Education - The school nurse assists students, families, the school staff, and the community to achieve optimal levels of wellness through appropriately designed and delivered clinical practice and health education.

~~**Knowledge**~~

~~6(a) The school nurse understands developmentally appropriate health education.~~

~~6(b) The school nurse understands the influence of social determinates of health and family dynamics on student achievement and wellness.~~

~~6(c) The school nurse understands that health instruction within the classroom is based on learning theory.~~

~~6(d) The school nurse understands child, adolescent, family, and community health issues.~~

~~6(e) The school nurse understands how health issues impact student learning.~~

~~6(f) The school nurse knows how to identify physical manifestations of possible behavioral, emotional, and/or psychosocial issues.~~

~~**Performance**~~

~~6(g) The school nurse assists individual students in acquiring appropriate skills based on age and developmental levels to advocate for themselves.~~

~~6(h) The school nurse participates in the assessment of health education and health instructional needs of the school community.~~

~~6(i) The school nurse provides health instruction within the classroom based on learning theory, as appropriate to student developmental levels and school needs.~~

~~6(j) The school nurse provides individual and group health instruction and counseling for and with students, families, and staff.~~

~~6(k) The school nurse acts as a resource person to school staff, students, and families regarding health education and health community resources.~~

~~6(l) The school nurse assists students in changing high-risk behaviors through education and referral.~~

Standard 7: Program Management - The school nurse is a manager of school health services.

DRAFT

~~Knowledge~~

~~7(a) The school nurse understands the principles of school nursing management.~~

~~7(b) The school nurse understands that program delivery is influenced by a variety of factors (e.g., cost, program diversity, staffing, laws).~~

~~7(c) The school nurse knows how to teach, supervise, evaluate, and delegate to Unlicensed Assistive Personnel.~~

~~7(d) The school nurse knows how to identify and secure appropriate and available services and resources in the community.~~

~~Performance~~

~~7(e) The school nurse demonstrates the ability to organize, prioritize, and make independent nursing decisions.~~

~~7(f) The school nurse demonstrates the ability to plan and budget resources in a fiscally responsible manner.~~

~~7(g) The school nurse demonstrates leadership skills to utilize human resources efficiently.~~

~~7(h) The school nurse teaches, supervises, evaluates, and delegates to Unlicensed Assistive Personnel.~~

~~7(i) The school nurse uses appropriate technology in managing school health services.~~

DRAFT

IDAHO STANDARDS FOR SCHOOL PSYCHOLOGISTS

~~The following knowledge and performance statements for the School Psychologist Standards are widely recognized, but not all-encompassing or absolute, indicators that School Psychologist candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences.~~ It is the responsibility of a school psychologist preparation program ~~to use indicators in a manner that is consistent with its conceptual framework and that~~to assure~~s~~ candidate attainment of the standards. Additionally, all school psychologist candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

~~**An important component of the School Psychology profession is a candidate's disposition. Professional dispositions are how the School Psychologist candidate views their profession, their content area, and/or students and their health and learning. Every School Psychology preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Psychologist candidate dispositions.**~~

Standard 1: Assessment, Data-Based Decision Making, and Accountability - The school psychologist understands varied models and methods of assessment that yield information useful in understanding problems, identifying strengths and needs, measuring progress as it relates to educational, social emotional, and behavioral outcomes of students with respect for cultural and linguistic diversity.

~~**Knowledge**~~

- ~~**1(a) The school psychologist understands traditional standardized norm-referenced assessment instruments.**~~
- ~~**1(b) The school psychologist understands alternative assessment approaches (e.g., curriculum-based, portfolio, ecological).**~~
- ~~**1(c) The school psychologist understands non-test assessment procedures (e.g., observation, diagnostic interviewing, reviewing records).**~~
- ~~**1(d) The school psychologist understands the application of a multi-tiered system of support for educational and social, emotional, and behavioral needs of students.**~~
- ~~**1(e) The school psychologist understands correct interpretation and application of assessment data.**~~
- ~~**1(f) The school psychologist understands the use of assessment data as it applies to the process of transitions at Pre-K through age 21 development levels.**~~

~~**Performance**~~

- ~~**1(g) The school psychologist uses various models and methods of assessment as part of a systematic process to collect data and other information.**~~
- ~~**1(h) The school psychologist interprets assessment results and uses those results to select and implement evidence-based practices.**~~

~~1(i) The school psychologist uses assessment and data collection methods to evaluate the effectiveness of interventions and recommendations.~~

~~1(j) The school psychologist interprets and synthesizes assessment information from a variety of sources.~~

Standard 2: Consultation and Collaboration - The school psychologist understands effective collaborative and consultation approaches to promote the learning and success of students.

~~**Knowledge**~~

~~2(a) The school psychologist understands various methods of consultation (e.g. behavioral, problem-solving, mental health, organizational, instructional) applicable to individuals, families, groups, and systems.~~

~~2(b) The school psychologist understands how to facilitate effective communication and collaboration among families, teachers, community providers, and others.~~

~~2(c) The school psychologist understands how to communicate effectively in oral and written form.~~

~~**Performance**~~

~~2(d) The school psychologist uses effective consultation and collaboration methods to develop a climate in which consensus can be achieved to promote positive student outcomes.~~

~~2(e) The school psychologist consults and collaborates effectively in the planning, problem-solving, and decision-making process to design, implement, and evaluate evidence-based practices (to include respect for cultural and linguistic diversity).~~

~~2(f) The school psychologist displays positive interpersonal skills by listening, adapting, addressing ambiguity, and being professional in difficult situations.~~

~~2(g) The school psychologist effectively communicates information in oral and written form for diverse audiences (e.g., parents, teachers, other school personnel, policy makers, community leaders, and others).~~

Standard 3: Effective Instruction and Development of Cognitive Skills - The school psychologist understands learning theories, cognitive strategies and their application to the development of effective instruction, while considering biological, cultural, linguistic, and social influences on educational progress.

~~**Knowledge**~~

~~3(a) The school psychologist understands human learning, cognition, and developmental processes with respect for cultural and linguistic diversity.~~

~~3(b) The school psychologist understands empirically supported methods in psychology and education to promote cognitive and academic skills, including those related to needs of students with diverse backgrounds and characteristics.~~

~~3(c) The school psychologist understands how to develop appropriate educational goals for students with different ability levels and social-cultural backgrounds.~~

~~3(d) The school psychologist understands appropriate techniques to assess diverse learning and instruction.~~

~~Performance~~

~~3(e) The school psychologist uses assessment data to develop and implement evidence-based instructional strategies that improve student engagement and learning, including those related to needs of students with diverse backgrounds and characteristics.~~

~~3(f) The school psychologist assists in promoting the use of evidence-based interventions with fidelity.~~

Standard 4: Interventions and Mental Health Services to Develop Social and Life Skills - The school psychologist understands biological, cultural, environmental, and social influences on human development, mental health, and psychopathology.

~~Knowledge~~

~~4(a) The school psychologist understands biological, cultural, environmental, and social influences on learning, behavior, mental health, and life skills.~~

~~4(b) The school psychologist understands techniques to assess socialization, mental health, and life skills, as well as methods for using data in decision making, planning, and progress monitoring~~

~~4(c) The school psychologist understands evidence-based strategies to promote social-emotional functioning and mental health.~~

~~Performance~~

~~4(d) The school psychologist uses assessment and data collection methods to develop appropriate goals for students with diverse abilities, backgrounds, strengths, and needs.~~

~~4(e) The school psychologist integrates behavioral supports and mental health services with academic and behavioral goals to promote positive outcomes for students.~~

~~4(f) The school psychologist uses empirically supported strategies to develop and implement behavior change programs at individual, group, classroom, and school-wide levels.~~

~~4(g) The school psychologist advocates for the mental health needs of students and families.~~

Standard 5: School-Wide Practices to Promote Learning - The school psychologist understands the unique organization and culture of schools and related systems.

~~Knowledge~~

~~5(a) The school psychologist understands school organization and structure.~~

~~5(b) The school psychologist understands a variety of educational programs to include tiered systems of support, general and special education.~~

~~5(c) The school psychologist understands empirically supported school practices that promote academic outcomes, learning, social development, and mental health.~~

~~Performance~~

~~5(d) The school psychologist demonstrates skills to develop and implement practices and strategies to create and maintain effective and supportive learning environments.~~

~~5(e) The school psychologist uses data-based decision making and evaluation methods, problem-solving strategies, consultation, and other services for systems-level issues, initiatives, and accountability.~~

Standard 6: Preventive and Responsive Services – The school psychologist understands preventive and responsive services in educational settings to promote a safe school environment.

~~Knowledge~~

~~6(a) The school psychologist understands principles and research related to resiliency , risk, and protective factors in learning and mental health.~~

~~6(b) The school psychologist understands services in schools and communities to support multi-tiered prevention, and empirically supported strategies for effective crisis response.~~

~~Performance~~

~~6(c) The school psychologist participates in school crisis prevention and response teams.~~

~~6(d) The school psychologist promotes services that enhance learning, mental health, safety, physical well-being, and resiliency through protective and adaptive factors.~~

~~6(e) The school psychologist develops, implements, and evaluates prevention and intervention programs that address precursors to learning and behavioral problems.~~

~~6(f) The school psychologist demonstrates skills to implement effective crisis preparation, response, and recovery.~~

~~6(g) The school psychologist uses appropriate methods to evaluate outcomes of prevention, response activities, and crisis services.~~

Standard 7: Home/School/Community Collaboration - The school psychologist understands how to work effectively with students, families, educators, and others in the community to promote and provide comprehensive educational services.

~~**Knowledge**~~

~~**7(a) The school psychologist understands the psychological and educational principles and research related to family systems and their influences on students' academic, motivational, behavioral, mental health, and social characteristics.**~~

~~**7(b) The school psychologist understands the importance of family influences on student learning, socialization, and mental health.**~~

~~**7(c) The school psychologist understands methods to develop collaboration between families, schools, and community agencies.**~~

~~**Performance**~~

~~**7(d) The school psychologist collaborates and engages with parents in decision-making about their children to enhance academic and social behavioral outcomes.**~~

~~**7(e) The school psychologist uses effective strategies to promote collaboration and partnerships among parents, schools, and community agencies, etc.**~~

Standard 8: Student Diversity in Development and Learning - The school psychologist understands that an individual's development and learning are influenced by a multitude of factors (i.e., biological, social, cultural, ethnic, experiential, socioeconomic, environmental, gender-related, linguistic, etc.).

~~**Knowledge**~~

~~**8(a) The school psychologist understands individual differences, abilities, and other diverse characteristics.**~~

~~**8(b) The school psychologist understands principles and research related to diversity factors for students, families, and schools, including, but not limited to, factors related to race, culture, gender, language acquisition, and environment**~~

~~**8(c) The school psychologist understands empirically supported strategies to enhance educational services for diverse students and families.**~~

~~**8(d) The school psychologist understands how stereotypes and biases impact mental health, learning, and service provision.**~~

~~**Performance**~~

~~**8(e) The school psychologist provides educational services that promote effective functioning for individuals, families, and schools with diverse characteristics.**~~

~~**8(f) The school psychologist provides culturally competent and effective practices in all areas of school psychology service (e.g. culturally sensitive assessment practices).**~~

~~**8(g) The school psychologist promotes fairness and social justice in school policies and programs.**~~

~~**8(h) The school psychologist is aware of their own biases, attitudes, and stereotypes and seeks to protect against their influence.**~~

Standard 9: Research and Program Evaluation - The school psychologist understands research, statistics, and evaluation methods.

~~**Knowledge**~~

~~**9(a) The school psychologist understands research design, statistics, measurement, and various data-collection and analysis techniques.**~~

~~**9(b) The school psychologist understands how to evaluate and apply research as a foundation for service delivery.**~~

~~**9(c) The school psychologist understands program evaluation methods at the individual, group, and systems levels.**~~

~~**Performance**~~

~~**9(d) The school psychologist demonstrates skills to evaluate and apply research as a foundation for service delivery.**~~

~~**9(e) The school psychologist demonstrates skills in analyzing, interpreting, and using effective practices at the individual, group, and/or systems levels.**~~

~~**9(f) The school psychologist assists teachers in collecting meaningful student data.**~~

~~**9(g) The school psychologist applies knowledge of evidence-based interventions to evaluate the fidelity and effectiveness of school-based intervention plans.**~~

Standard 10: Legal, Ethical, and Professional Practice – The school psychologist understands the history and foundations of the profession, various service models and methods, and applies legal and ethical practices to advocate for the educational rights and welfare of students and families.

~~**Knowledge**~~

~~10(a) The school psychologist understands the history and foundations of school psychology.~~

~~10(b) The school psychologist understands multiple service models and methods.~~

~~10(c) The school psychologist understands ethical, legal, and professional standards and other factors related to professional identity, including personal biases and effective practice.~~

~~10(d) The school psychologist understands current federal and state statutes and regulations pertaining to educational services.~~

~~10(e) The school psychologist understands self-evaluation methods to determine areas for continuing professional development.~~

~~**Performance**~~

~~10(f) The school psychologist provides services consistent with ethical, legal, and professional standards.~~

~~10(g) The school psychologist engages in ethical and professional decision-making.~~

~~10(h) The school psychologist collaborates and consults with other professionals regarding legal and ethical educational practices.~~

~~10(i) The school psychologist demonstrates professionalism in their practice (e.g., respect for human diversity and social justice, communication skills, interpersonal skills, responsibility, adaptability, initiative, and dependability).~~

~~10(j) The school psychologist demonstrates legal and ethical practices in communication and use of technology.~~

~~10(k) The school psychologist utilizes supervision and mentoring in the development of legal and ethical professional practice.~~

DRAFT

IDAHO STANDARDS FOR SCHOOL SOCIAL WORKERS

~~The following knowledge and performance statements for the School Social Worker Standards are widely recognized, but not all-encompassing or absolute, indicators that School Social Worker candidates have met the standards.~~ These standards were adapted from the 2015 Council on Social Work Education (CSWE) Educational Policy and Accreditation Standards, the National Association of Social Workers (NASW) School Social Work Standards, and the School Social Work Association of America's National School Social Work Model: Improving Academic and Behavioral Outcomes. It is the responsibility of a School Social Work preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all school social worker candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

~~School Social Work is a complex and specialized field of practice that is affected by changes in education policy, research, and practice models that continue to evolve. School social workers are the link between the home, school and community in providing direct as well as indirect services that promote and support students' academic and social success. School social work competence is the ability to integrate and apply social work knowledge, values, and skills to practice situations in a purposeful, intentional, and professional manner to promote human and community well-being. These standards reflect the values of our profession and current practice trends.~~

Standard 1: Foundations of the professional school social worker.

~~Knowledge –~~ The competent school social worker:

1(a) understands that state-issued social work license ensures ethical, legal, and professional social work practice in the P-12 educational setting.

1(b) understands school social work is an area of advanced specialized practice built on the knowledge and competencies of a graduate level social work education;

1(c) values the importance of human relationships;

1(d) understands human behavior and social environment theories of typical and atypical development across the lifespan;

1(e) understands how atypical behavior and adverse experiences (i.e., trauma exposure, emotional and behavioral disorders) impact student, family, school and community functioning;

1(f) understands that engagement, assessment, intervention and evaluation are ongoing components of the dynamic and interactive process of school social work practice;

1(g) understands how their personal experiences and affective reactions may impact their effectiveness with students, families, schools and communities; and

1(h) understands how to synthesize and apply a broad range of interdisciplinary and multidisciplinary knowledge and skills in the educational setting.

Standard 2: Demonstrate Ethical and Professional Behavior.

~~Knowledge –~~ The competent school social worker:

2(a) understands the value base of the profession and its ethical standards;

2(b) understands relevant laws and regulations that may impact practice with students, families, schools and communities;

2(c) understands professional ethics delineated in the National Association of Social Workers Code of Ethics, Code of Ethics for Idaho Professional Educators, and Idaho Social Work licensing laws;

2(d) Understands the legal and ethical principles of confidentiality as they relate to the practice of school social work (i.e., HIPPA, FERPA);

2(e) recognizes personal values and the distinction between personal and professional values;

2(f) understands how their personal experiences and affective reactions influence their professional judgment and behavior;

2(g) understands the profession's history, its mission, and the roles and responsibilities of the profession;

2(h) understands the role of other professions when engaged in inter-professional teams;

2(i) recognizes the importance of lifelong learning and are committed to continually updating their skills to ensure they are relevant and effective; and

2(j) understands emerging forms of technology and the ethical use of technology in school social work practice.

~~Performance – The competent school social worker:~~

~~2(k) adheres to the professional ethical responsibilities delineated in the National Association of Social Workers Code of Ethics, Code of Ethics for Idaho Professional Educators, and Idaho Social Work licensing laws;~~

~~2(l) models and promotes ethical practices for confidential communication;~~

~~2(m) uses reflection and self-regulation to manage personal values and maintain professionalism in practice situations;~~

~~2(n) demonstrates professional demeanor in behavior; appearance; and oral, written, and electronic communication;~~

~~2(o) uses technology ethically and appropriately to facilitate practice outcomes; and~~

~~2(p) uses supervision and consultation to guide professional judgment and behavior.~~

Standard 3: Engage Diversity and Difference in Practice.

~~Knowledge –~~ The competent school social worker:

3(a) understands how diversity and differences characterize and shape the human experience, are critical to the formation of identity and shapes a student's approach to academic performance;

3(b) understands diversity as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status;

3(c) understands that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim;

3(d) understands the forms and mechanisms of oppression and discrimination; and

3(e) recognizes the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.

~~Performance - The competent school social worker:~~

~~3(f) applies and communicates understanding of the importance of diversity and differences in shaping life experiences in practice with students, families, schools and communities;~~

~~3(g) presents themselves as learners and engages others as experts of their own experiences;~~

~~3(h) applies self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse populations and systems; and~~

~~3(i) considers how diversity and differences impact student learning, academic success and achievement.~~

Standard 4: Advance Human Rights and Social, Emotional, and Environmental Justice.

~~Knowledge –~~ The competent school social worker:

4(a) understands methods of advocacy on behalf of students, families, school and communities;

4(b) understands that every person, regardless of position in society, has fundamental human rights such as freedom, safety, privacy, an adequate standard of living, health care, and education;

4(c) understands the global interconnections of oppression and human rights violations, and are knowledgeable about theories of human need and social justice; and

4(d) understands strategies designed to eliminate oppressive structural barriers to educational services are distributed equitably and human rights are protected.

~~Performance - The competent school social worker:~~

~~4(e) advocates for practices that advance social, economic and environmental justice in the educational setting;~~

~~4(f) involves students in identifying their strengths and needs to establish and attain their academic goals; and~~

~~4(g) empowers students, families, and educators to gain access to and effectively use school and community resources to enhance academic performance.~~

Standard 5: Engage in Practice-informed Research and Research-informed Practice.

~~Knowledge~~ The competent school social worker:

5(a) understands evidence-based methods of individual, group, family, and crisis counseling;

5(b) understands quantitative and qualitative research methods in advancing the science of school social work and evaluating practice in the educational setting;

5(c) knows the principles of culturally informed and ethical approaches to building knowledge in the educational setting;

5(d) understands that evidence derived from multi-disciplinary sources guide school social work practice; and

5(e) understands the process for translating research findings into effective school social work practice and interventions

~~Performance - The competent school social worker:~~

~~5(f) uses practice experience and theory to inform research, scientific inquiry and employ evidence-based interventions;~~

~~5(g) uses research findings to evaluate and improve practice, policy, and social service delivery in the educational setting; and~~

~~5(h) uses evidence based knowledge in the development and implementation of individualized student support services (i.e., 504, IEP, LEP).~~

Standard 6: Engage in Policy Practice.

~~Knowledge~~ The competent school social worker:

6(a) understands the interdisciplinary approach to service delivery within the educational environment;

6(b) understands the collaborative process with parents, school personnel, community based organizations, and agencies to enhance the student's educational functioning;

6(c) is informed about court decisions, legislation, rules and regulations, and policies and procedures that affect school social work practice;

6(d) understands their role in policy development and implementation within the educational setting;

6(e) recognizes and understands the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy within the educational setting;

6(f) understands parent/guardian and student rights (both legal and educational) regarding assessment and evaluation; and

6(g) understands school policies and procedures as they relate to student learning, safety and well-being.

~~Performance - The competent school social worker:~~

~~6(h) collaborates with students, families, schools and communities for effective policy action;~~

~~6(i) engages in advocacy that seeks to ensure that all students have equal access to education and services to enhance their academic progress;~~

~~6(j) assesses how social welfare and economic policies impact the delivery of and access to social services; and~~

~~6(k) applies critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.~~

Standard 7: Engage with Students, Families, Schools, and Communities.

~~Knowledge -~~ The competent school social worker:

7(a) understands strategies to effectively engage with students, families, schools and communities;

7(b) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to facilitate engagement;

7(c) understands theories and methods of communication; and

7(d) values principles of relationship-building and inter-professional collaboration.

~~Performance - The competent school social worker:~~

~~7(e) applies knowledge of human behavior and the social environment, person in-environment, and other multidisciplinary theoretical frameworks to engage with students, families, schools and communities;~~

~~7(f) utilizes cultural sensitivity and humility when engaging a variety of audiences; and~~

~~7(g) uses empathy, dispute resolution, reflection, and interpersonal skills to effectively engage and build relationships.~~

Standard 8: Assess Students, Families, Schools, and Communities.

~~Knowledge -~~ The competent school social worker:

8(a) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to facilitate assessment with students, families, schools and communities;

8(b) understands methods of and how to conduct assessments related to adaptive behavior, learning styles, high-risk behavior (i.e. truancy, suicide, homicide, substance use, etc.) and social emotional health;

8(c) recognizes the implications of the larger practice context in the assessment process and values the importance of inter-professional collaboration; and

8(d) understands diagnostic tools in the educational setting.

8(e) Performance - The competent school social worker:

8(f) collects and organizes data, and applies critical thinking to interpret assessment information;

8(g) utilizes effective oral and written communication;

8(h) applies knowledge of human behavior and the social environment, and other theoretical frameworks in the analysis of assessment data;

8(i) develops mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges; and

8(j) uses assessment data; research knowledge; and the values and preferences of students, families, schools and communities to identify appropriate interventions.

Standard 9: Intervene with Students, Families, Schools, and Communities.

~~Knowledge –~~The competent school social worker:

9(a) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to develop effective interventions relevant to the educational setting;

9(b) understands methods of identifying, analyzing and implementing evidence-informed interventions to achieve identified educational goals; and

9(c) understands the importance of inter-professional teamwork and communication when implementing evidence-informed interventions with students, families, schools and communities.

~~Performance - The competent school social worker:~~

~~9(d) applies knowledge of human behavior and the social environment, and other theoretical frameworks in interventions;~~

~~9(e) critically identifies and implements prevention strategies and interventions to achieve identified goals to enhance wellness and academic performance;~~

~~9(f) brokers resources of the school and community to meet identified needs;~~

~~9(g) provides counseling, crisis intervention and other services;~~

~~9(h) uses inter-professional collaboration to achieve beneficial practice outcomes;~~

~~9(i) facilitates effective transitions and endings that advance mutually agreed-on goals; and~~

~~9(j) negotiates, mediates, educates, consults and advocates with and on behalf of students, families, schools and communities.~~

Standard 10: Evaluate Practice with Students, Families, Schools, and Communities.

~~Knowledge –~~The competent school social worker:

10(a) understands theories of human behavior and the social environment, and critically evaluates and applies this knowledge to evaluate outcomes;

10(b) recognizes the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness; and

10(c) understands how to interpret and utilize research to evaluate and guide professional interventions and educational program development.

~~Performance - The competent school social worker:~~

~~10(d) applies knowledge of human behavior and the social environment, person in environment and other theoretical frameworks in the evaluation of practice;~~

~~10(e) critically analyzes, monitors and evaluates intervention outcomes;~~

~~10(f) applies evaluation findings to improve practice effectiveness with students, families, schools and communities; and~~

~~10(g) selects and uses appropriate methods for evaluation of outcomes.~~

DRAFT

IDAHO STANDARDS FOR SPEECH-LANGUAGE PATHOLOGY

All speech-language pathology candidates are expected to meet standards specific to their discipline area(s) at the "acceptable" level or above. Additionally, all speech-language pathology candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for speech-language pathologists were adopted from the Council for Clinical Certification in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association. (2014 Standards for the Certificate of Clinical Competence in Speech-Language Pathology). ~~These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective speech language pathologists. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.~~

Standard I: Degree – The applicant for certification must have a master's, doctoral, or other recognized post-baccalaureate degree.

~~Implementation: The Council for Clinical Certification in Audiology and Speech Language Pathology (CFCC) has the authority to determine eligibility of all applicants for certification.~~

Standard II: Education Program – All graduate course work and graduate clinical experience required in speech-language pathology must have been initiated and completed in a speech-language pathology program accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).

~~Implementation: If the graduate program of study is initiated and completed in a CAA-accredited program or in a program that held candidacy status for CAA accreditation, and if the program director or official designee verifies that all knowledge and skills required at the time of application have been met, approval of academic course work and practicum is automatic. Applicants eligible for automatic approval must submit an official graduate transcript or a letter from the registrar that verifies the date the graduate degree was awarded. The official graduate transcript or letter from the registrar must be received by the National Office no later than 1 year from the date the application was received. Verification of the graduate degree is required of the applicant before the certificate is awarded.~~

~~Individuals educated outside the United States or its territories must submit documentation that course work was completed in an institution of higher education that is regionally accredited or recognized by the appropriate regulatory authority for that country. In addition, applicants outside the United States or its territories must meet each of the standards that follow.~~

Standard III: Program of Study – The applicant for certification must have completed a program of study (a minimum of 36 semester credit hours at the graduate level) that includes academic course work and supervised clinical experience sufficient in depth and breadth to achieve the

specified knowledge and skills outcomes stipulated in Standard IV-A through IV-G and Standard V-A through V-C.

~~Implementation: The minimum of 36 graduate semester credit hours must have been earned in a program that addresses the knowledge and skills pertinent to the ASHA Scope of Practice in Speech-Language Pathology.~~

Standard IV: Knowledge Outcomes

Standard IV-A – The applicant must have demonstrated knowledge of the biological sciences, physical sciences, statistics, and the social/behavioral sciences.

~~Implementation: Acceptable courses in biological sciences should emphasize a content area related to human or animal sciences (e.g., biology, human anatomy and physiology, neuroanatomy and neurophysiology, human genetics, veterinary science). Acceptable courses in physical sciences should include physics or chemistry. Acceptable courses in social/behavioral sciences should include psychology, sociology, anthropology, or public health. A stand-alone course in statistics is required. Research methodology courses in communication sciences and disorders (CSD) may not be used to satisfy the statistics requirement. A course in biological and physical sciences specifically related to CSD may not be applied for certification purposes to this category unless the course fulfills a university requirement in one of these areas.~~

~~Academic advisors are strongly encouraged to enroll students in courses in the biological, physical, and the social/behavioral sciences in content areas that will assist students in acquiring the basic principles in social, cultural, cognitive, behavioral, physical, physiological, and anatomical areas useful to understanding the communication/linguistic sciences and disorders.~~

Standard IV-B – The applicant must have demonstrated knowledge of basic human communication and swallowing processes, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases. The applicant must have demonstrated the ability to integrate information pertaining to normal and abnormal human development across the life span.

Standard IV-C – The applicant must have demonstrated knowledge of communication and swallowing disorders and differences, including the appropriate etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, and linguistic and cultural correlates in the following areas:

- articulation;
- fluency;
- voice and resonance, including respiration and phonation;
- receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication and paralinguistic communication) in speaking, listening, reading, writing;
- hearing, including the impact on speech and language;

- swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding, orofacial myology);
- cognitive aspects of communication (attention, memory, sequencing, problem-solving, executive functioning);
- social aspects of communication (including challenging behavior, ineffective social skills, and lack of communication opportunities);
- augmentative and alternative communication modalities.

~~Implementation: It is expected that course work addressing the professional knowledge specified in Standard IV-C will occur primarily at the graduate level.~~

Standard IV-D – For each of the areas specified in Standard IV-C, the applicant must have demonstrated current knowledge of the principles and methods of prevention, assessment, and intervention for people with communication and swallowing disorders, including consideration of anatomical/physiological, psychological, developmental, and linguistic and cultural correlates.

Standard IV-E – The applicant must have demonstrated knowledge of standards of ethical conduct.

~~**Implementation: The applicant must have demonstrated knowledge of the principles and rules of the current ASHA Code of Ethics.**~~

Standard IV-F – The applicant must have demonstrated knowledge of processes used in research and of the integration of research principles into evidence-based clinical practice.

~~Implementation: The applicant must have demonstrated knowledge of the principles of basic and applied research and research design. In addition, the applicant must have demonstrated knowledge of how to access sources of research information and have demonstrated the ability to relate research to clinical practice.~~

Standard IV-G – The applicant must have demonstrated knowledge of contemporary professional issues.

~~Implementation: The applicant must have demonstrated knowledge of professional issues that affect speech language pathology. Issues typically include trends in professional practice, academic program accreditation standards, ASHA practice policies and guidelines, and reimbursement procedures.~~

Standard IV-H – The applicant must have demonstrated knowledge of entry level and advanced certifications, licensure, and other relevant professional credentials, as well as local, state, and national regulations and policies relevant to professional practice.

Standard V: Skills Outcomes

Standard V-A – The applicant must have demonstrated skills in oral and written or other forms of communication sufficient for entry into professional practice.

~~Implementation: Individuals are eligible to apply for certification once they have completed all graduate-level academic course work and clinical practicum and been judged by the graduate program as having acquired all of the knowledge and skills mandated by the current standards.~~

~~The applicant must have demonstrated communication skills sufficient to achieve effective clinical and professional interaction with clients/patients and relevant others. For oral communication, the applicant must have demonstrated speech and language skills in English, which, at a minimum, are consistent with ASHA's current position statement on students and professionals who speak English with accents and nonstandard dialects. In addition, the applicant must have demonstrated the ability to write and comprehend technical reports, diagnostic and treatment reports, treatment plans, and professional correspondence in English.~~

Standard V-B – The applicant for certification must have completed a program of study that included experiences sufficient in breadth and depth to achieve the following skills outcomes:

1. Evaluation
    a. Conduct screening and prevention procedures (including prevention activities).
    b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, and relevant others, including other professionals.
    c. Select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures.
    d. Adapt evaluation procedures to meet client/patient needs.
    e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention.
    f. Complete administrative and reporting functions necessary to support evaluation.
    g. Refer clients/patients for appropriate services.
2. Intervention
    a. Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process.
    b. Implement intervention plans (involve clients/patients and relevant others in the intervention process).
    c. Select or develop and use appropriate materials and instrumentation for prevention and intervention.
    d. Measure and evaluate clients'/patients' performance and progress.
    e. Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients.
    f. Complete administrative and reporting functions necessary to support intervention.

g. Identify and refer clients/patients for services as appropriate.

3. Interaction and Personal Qualities

a. Communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the client/patient, family, caregivers, and relevant others.

b. Collaborate with other professionals in case management.

c. Provide counseling regarding communication and swallowing disorders to clients/patients, family, caregivers, and relevant others.

d. Adhere to the ASHA Code of Ethics and behave professionally.

~~Implementation: The applicant must have acquired the skills referred to in this standard applicable across the nine major areas listed in Standard IV-C. Skills may be developed and demonstrated by direct client/patient contact in clinical experiences, academic course work, labs, simulations, examinations, and completion of independent projects.~~

~~The applicant must have obtained a sufficient variety of supervised clinical experiences in different work settings and with different populations so that he or she can demonstrate skills across the ASHA Scope of Practice in Speech-Language Pathology. Supervised clinical experience is defined as clinical services (i.e., assessment/diagnosis/evaluation, screening, treatment, report writing, family/client consultation, and/or counseling) related to the management of populations that fit within the ASHA Scope of Practice in Speech-Language Pathology.~~

~~These experiences should allow students to:~~

- ~~interpret, integrate, and synthesize core concepts and knowledge;~~
- ~~demonstrate appropriate professional and clinical skills; and~~
- ~~incorporate critical thinking and decision-making skills while engaged in identification, evaluation, diagnosis, planning, implementation, and/or intervention.~~

~~Alternative clinical experiences may include the use of standardized patients and simulation technologies (e.g., standardized patients, virtual patients, digitized mannequins, immersive reality, task trainers, computer-based interactive).~~

~~Supervisors of clinical experiences must hold a current ASHA Certificate of Clinical Competence in the appropriate area of practice during the time of supervision. The supervised activities must be within the ASHA Scope of Practice in Speech-Language Pathology to count toward certification.~~

Standard V-C – The applicant for certification in speech-language pathology must complete a minimum of 400 clock hours of supervised clinical experience in the practice of speech-language pathology. Twenty-five hours must be spent in clinical observation, and 375 hours must be spent in direct client/patient contact.

~~Implementation: Guided observation hours generally precede direct contact with clients/patients. The observation and direct client/patient contact hours must be within the ASHA Scope of Practice in Speech-Language Pathology and must be under the supervision of a qualified professional who holds current ASHA certification in the appropriate practice area. Such supervision may occur simultaneously with the student's observation or afterwards through review and approval of written reports or summaries submitted by the student. Students may use video recordings of client services for observation purposes.~~

~~Applicants should be assigned practicum only after they have acquired sufficient knowledge bases to qualify for such experience. Only direct contact with the client or the client's family in assessment, intervention, and/or counseling can be counted toward practicum. Up to 20% (i.e., 75 hours) of direct contact hours may be obtained through alternative clinical education (ACE) methods. Only the time spent in active engagement with the ACE may be counted. ACE may include the use of standardized patients and simulation technologies (e.g., standardized patients, virtual patients, digitized mannequins, immersive reality, task trainers, computer-based interactive). Debriefing activities may not be included. Although several students may observe a clinical session at one time, clinical practicum hours should be assigned only to the student who provides direct services to the client or client's family. Typically, only one student should be working with a given client at a time in order to count the practicum hours. It is possible for several students working as a team to receive credit for the same session, depending on the specific responsibilities each student is assigned. The applicant must maintain documentation of time spent in supervised practicum, verified by the program in accordance with Standards III and IV.~~

Standard V-D – At least 325 of the 400 clock hours must be completed while the applicant is engaged in graduate study in a program accredited in speech-language pathology by the Council on Academic Accreditation in Audiology and Speech-Language Pathology.

~~Implementation: A minimum of 325 clock hours of clinical practicum must be completed at the graduate level. At the discretion of the graduate program, hours obtained at the undergraduate level may be used to satisfy the remainder of the requirement.~~

Standard V-E – Supervision must be provided by individuals who hold the Certificate of Clinical Competence in the appropriate profession. The amount of direct supervision must be commensurate with the student's knowledge, skills, and experience, must not be less than 25% of the student's total contact with each client/patient, and must take place periodically throughout the practicum. Supervision must be sufficient to ensure the welfare of the client/patient.

Standard V-F – Supervised practicum must include experience with client/patient populations across the life span and from culturally/linguistically diverse backgrounds. Practicum must include experience with client/patient populations with various types and severities of communication and/or related disorders, differences, and disabilities.

~~Implementation: The applicant must demonstrate direct client/patient clinical experiences in both assessment and intervention with both children and adults from the range of disorders and differences named in Standard IV-C.~~

Standard VI: Assessment – The applicant must have passed the national examination adopted by ASHA for purposes of certification in speech-language pathology.

~~Implementation: Results of the Praxis Examination in Speech-Language Pathology must be submitted directly to ASHA from ETS. The certification standards require that a passing exam score must be earned no earlier than 5 years prior to the submission of the application and no later than 2 years following receipt of the application. If the exam is not successfully passed and reported within the 2-year application period, the applicant's certification file will be closed. If the exam is passed or reported at a later date, the individual will be required to reapply for certification under the standards in effect at that time.~~

Standard VII: Speech-Language Pathology Clinical Fellowship – The applicant must successfully complete a Speech-Language Pathology Clinical Fellowship (CF).

~~Implementation: The Clinical Fellowship may be initiated only after completion of all academic course work and clinical experiences required to meet the knowledge and skills delineated in Standards IV and V. The CF experience must be initiated within 24 months of the date the application is received. Once the CF has been initiated, it must be completed within 48 months. For applicants completing multiple CFs, all CF experiences related to the application must be completed within 48 months of the date the first CF was initiated. Applications will be closed for a CF/CFs that is/are not completed within the 48-month timeframe or that is/are not reported to ASHA within 90 days after the 48-month timeframe. The Clinical Fellow will be required to reapply for certification and must meet the Standards in effect at the time of re-application. CF experiences older than 5 years at the time of application will not be accepted.~~

~~The CF must have been completed under the mentorship of an individual who held the ASHA Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) throughout the duration of the fellowship. It is the Clinical Fellow's responsibility to identify a mentoring speech-language pathologist (SLP) who holds an active Certificate of Clinical Competence in Speech-Language Pathology. Should the certification status of the mentoring SLP change during the CF experience, the Clinical Fellow will be awarded credit only for that portion of time during which the mentoring SLP held certification. It, therefore, is incumbent on the CF to verify the mentoring SLP's status periodically throughout the Clinical Fellowship experience. A family member or individual related in any way to the Clinical Fellow may not serve as a mentoring SLP.~~

Standard VII-A: Clinical Fellowship Experience – The Clinical Fellowship must have consisted of clinical service activities that foster the continued growth and integration of knowledge, skills, and tasks of clinical practice in speech-language pathology consistent with ASHA's current Scope of Practice in Speech-Language Pathology. The Clinical Fellowship must have consisted of no less than 36 weeks of full-time professional experience or its part-time equivalent.

~~Implementation: No less than 80% of the Fellow's major responsibilities during the CF experience must have been in direct client/patient contact (e.g., assessment, diagnosis, evaluation, screening, treatment, clinical research activities, family/client consultations, recordkeeping, report writing, and/or counseling) related to the management process for individuals who exhibit communication and/or swallowing disabilities.~~

~~Full-time professional experience is defined as 35 hours per week, culminating in a minimum of 1,260 hours. Part-time experience of less than 5 hours per week will not meet the CF requirement and may not be counted toward completion of the experience. Similarly, work in excess of the 35 hours per week cannot be used to shorten the CF to less than 36 weeks.~~

Standard VII-B: Clinical Fellowship Mentorship – The Clinical Fellow must have received ongoing mentoring and formal evaluations by the CF mentor.

~~Implementation: Mentoring must have included on-site observations and other monitoring activities. These activities may have been executed by correspondence, review of video and/or audio recordings, evaluation of written reports, telephone conferences with the Fellow, and evaluations by professional colleagues with whom the Fellow works. The CF mentor and Clinical Fellow must have participated in regularly scheduled formal evaluations of the Fellow's progress during the CF experience. The Clinical Fellow must receive ongoing mentoring and formal evaluations by the CF Mentor.~~

~~The mentoring SLP must engage in no fewer than 36 supervisory activities during the clinical fellowship experience. This supervision must include 18 on-site observations of direct client contact at the Clinical Fellow's work site (1 hour = 1 on-site observation; a maximum of six on-site observations may be accrued in 1 day). At least six on-site observations must be conducted during each third of the CF experience. On-site observations must consist of the Clinical Fellow engaged in screening, evaluation, assessment, and/or habilitation/rehabilitation activities. Use of real-time, interactive video and audio conferencing technology is permitted as a form of on-site observation, for which pre-approval must be obtained.~~

~~Additionally, supervision must also include 18 other monitoring activities. At least six other monitoring activities must be conducted during each third of the CF experience. Other monitoring activities are defined as evaluation of reports written by the Clinical Fellow, conferences between the mentoring SLP and the Clinical Fellow, discussions with professional colleagues of the Fellow, etc., and may be executed by correspondence, telephone, or reviewing of video and/or audio tapes.~~

~~On rare occasions, the CFCC may allow the supervisory process to be conducted in other ways. However, a request for other supervisory mechanisms must be submitted in written form to the CFCC, and co-signed by the CF mentor, before the CF is initiated. The request must include the reason for the alternative supervision and a description of the supervision that would be provided. At a minimum, such a request must outline the type, length, and frequency of the supervision that would be provided.~~

Standard VII-C: Clinical Fellowship Outcomes – The Clinical Fellow must have demonstrated knowledge and skills consistent with the ability to practice independently.

~~Implementation: At the completion of the CF experience, the applicant will have acquired and demonstrated the ability to:~~

- ~~integrate and apply theoretical knowledge,~~
- ~~evaluate his or her strengths and identify his or her limitations,~~
- ~~refine clinical skills within the Scope of Practice in Speech-Language Pathology,~~

- ~~apply the ASHA Code of Ethics to independent professional practice.~~

~~In addition, upon completion of the CF, the applicant must have demonstrated the ability to perform clinical activities accurately, consistently, and independently and to seek guidance as necessary.~~

~~The CF mentor must submit the Clinical Fellowship Report and Rating Form, which includes the Clinical Fellowship Skills Inventory (CFSI), as soon as the CF successfully completes the CF experience. This report must be signed by both the Clinical Fellow and mentoring SLP.~~

Standard VIII: Maintenance of Certification – Certificate holders must demonstrate continued professional development for maintenance of the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP).

~~Implementation: Individuals who hold the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) must accumulate 30 certification maintenance hours of professional development during every 3-year maintenance interval. Intervals are continuous and begin January 1 of the year following award of initial certification or reinstatement of certification. A random audit of compliance will be conducted.~~

~~Accrual of professional development hours, adherence to the ASHA Code of Ethics, submission of certification maintenance compliance documentation, and payment of annual dues and/or certification fees are required for maintenance of certification.~~

~~If renewal of certification is not accomplished within the 3-year period, certification will expire. Individuals wishing to regain certification must submit a reinstatement application and meet the standards in effect at the time the reinstatement application is submitted.~~

DRAFT

Re: IDAPA 08.02.02 Rules Governing Uniformity

Superintendent Ybarra,

American Board applauds the efforts of the Educator Standards Working Group to reduce the bureaucratic burden of Idaho's educator preparation program review process. In particular, the group's decision to remove the 100+ indicators from the *Idaho Standards for Initial Certification of Professional School Personnel* document certainly works to serve the group in its mission to "reduce regulatory burden upon educator preparation programs while maintaining high standards for beginning teachers, administrators, and pupil service staff."

AMERICAN BOARD Your Community. Your Teachers.

It's worth noting, however, that the work hasn't been without concern. American Board would like to draw attention to and oppose three changes proposed by the Educator Standards Working Group. First, the addition of three standards to the list of core standards. Second, the qualifying of all standards as knowledge standards. Finally, and most important to American Board, we disagree with the proposed scoring rubric for program renewal reviews.

American Board does not support the addition of three new, state-specific core standards. We believe the addition of three standards (a 30 percent increase in the number of core standards) is counterproductive to the work with which the group was tasked. Furthermore, the new standards themselves are problematic and unnecessary.

> *Standard 11: American Indian Tribes and Tribal Sovereignty*. The teacher candidate knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities and the cultural resources (e.g., language, history, indigenous knowledge) of American Indian students and their communities.*
>
> **The federal and state governments of Idaho recognize the unique inherent sovereignty of each tribe of Idaho. This tribal sovereignty distinguishes Indigenous peoples as peoples, rather than populations or national minorities.*

AMERICAN BOARD
Your Community. Your Teachers.

Standard 12: Code of Ethics for Idaho Professional Educators. The teacher candidate understands the Code of Ethics for Idaho Professional Educators and its place in supporting the integrity of the profession.

Standard 13: Digital Technology and Online Learning. The teacher candidate knows how to use digital technology to create lessons and facilitate instruction and assessment in face-to-face, blended, and online learning environments to engage students and enhance learning.

American Board opposes the notion that all standards are now deemed "knowledge" standards. This is a change we believe is directly in response to House Bill 599 passed in 2020. HB 599 clearly states that nonpublic programs are not responsible for meeting "performance" standards. Rebranding all standards as knowledge standards so they must be met by nonpublic programs is in violation of the spirit of HB 599. If a standard was previously upheld by more performance and disposition indicators than knowledge indicators, it seems clear that standard is a performance standard. This concept is further supported by the verb used in the standard. As an example, a standard requiring a teacher candidate to "work," "plan," or "engage" is a performance standard. Only standards requiring candidates to "know" or "understand" should be considered knowledge standards. Qualifying all standards as knowledge standards is an attempt to hold nonpublic institutions to more bureaucratic requirements than intended by HB 599.

Lastly, American Board holds significant opposition to the scoring rubric developed for the program renewal reviews. Prior to revamping the review process, institutions were able to miss 20 percent of indicators and be approved. Now, the review process requires that all programs receive 100 percent on their scoring in order to be approved. American Board strongly believes nonpublic programs should be granted the flexibility allowed under HB 599 and, therefore, we believe that flexibility should carry over to the review process scoring. Allowing nonpublic programs to meet 80 percent of standards and receive the approval status would be one step in the direction of reducing the regulatory burden the state is currently placing on nonpublic programs.

We appreciate the opportunity to provide this feedback, and we look forward to working with the state to improve the process of reviewing nonpublic educator preparation programs.

Best,
Melanie Olmstead

Re: IDAPA 08.02.02 Rules Governing Uniformity

Dear Members of the State Bord of Education,

American Board applauds the efforts of the Educator Standards Working Group to reduce the bureaucratic burden of Idaho's educator preparation program review process. In particular, the group's decision to remove the 100+ indicators from the *Idaho Standards for Initial Certification of Professional School Personnel* document certainly works to serve the group in its mission to "reduce regulatory burden upon educator preparation programs while maintaining high standards for beginning teachers, administrators, and pupil service staff."

It's worth noting, however, that the work hasn't been without concern. American Board would like to draw attention to and oppose three changes proposed by the Educator Standards Working Group. First, the addition of three standards to the list of core standards. Second, the qualifying of all standards as knowledge standards. Finally, and most important to American Board, we disagree with the proposed scoring rubric for program renewal reviews.

American Board does not support the addition of three new, state-specific core standards. We believe the addition of three standards (a 30 percent increase in the number of core standards) is counterproductive to the work with which the group was tasked. Furthermore, the new standards themselves are problematic and unnecessary.

> *Standard 11: American Indian Tribes and Tribal Sovereignty*. The teacher candidate knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities and the cultural resources (e.g., language, history, indigenous knowledge) of American Indian students and their communities.*
>
> > **The federal and state governments of Idaho recognize the unique inherent sovereignty of each tribe of Idaho. This tribal sovereignty distinguishes Indigenous peoples as peoples, rather than populations or national minorities.*
>
> *Standard 12: Code of Ethics for Idaho Professional Educators. The teacher candidate understands the Code of Ethics for Idaho Professional Educators and its place in supporting the integrity of the profession.*

AMERICAN BOARD
Your Community. Your Teachers.

Standard 13: Digital Technology and Online Learning. The teacher candidate knows how to use digital technology to create lessons and facilitate instruction and assessment in face-to-face, blended, and online learning environments to engage students and enhance learning.

For the most part, the three new standards are duplicative. Proposed Standard 11 fits within current Standard 2; proposed Standard 12 fits within current Standard 9; and proposed Standard 13 within current Standard 8.

American Board opposes the notion that all standards are now deemed "knowledge" standards. This is a change we believe is directly in response to House Bill 599 passed in 2020. HB 599 clearly states that nonpublic programs are not responsible for meeting "performance" standards. Rebranding all standards as knowledge standards so they must be met by nonpublic programs is in violation of the spirit of HB 599. If a standard was previously upheld by more performance and disposition indicators than knowledge indicators, it seems clear that standard is a performance standard. This concept is further supported by the verb used in the standard. As an example, a standard requiring a teacher candidate to "work," "plan," or "engage" is a performance standard. Only standards requiring candidates to "know" or "understand" should be considered knowledge standards. Qualifying all standards as knowledge standards is an attempt to hold nonpublic institutions to more bureaucratic requirements than intended by HB 599.

Lastly, American Board holds significant opposition to the scoring rubric being proposed for the program renewal reviews. Prior to revamping the review process, institutions were able to miss 20 percent of indicators and be approved. Now, the review process requires that all programs receive 100 percent on their scoring in order to be approved. American Board strongly believes nonpublic programs should be granted the flexibility allowed under HB 599 and, therefore, we believe that flexibility should carry over to the review process scoring. Allowing programs to meet 80 percent of standards and receive the approval status would be one step in the direction of reducing the regulatory burden the state is currently placing on nonpublic programs. Furthermore, the review process should take into consideration the type of educator preparation program (i.e. online/in-person or traditional/nontraditional, or public/private) recognizing that programs may have different methods by which to prepare Idaho teachers.

We appreciate the opportunity to provide this feedback, and we look forward to working with the state to improve the process of reviewing nonpublic educator preparation programs.

Best,

Melanie Olmstead

Re: Comment on the Proposed Changes to the Idaho Standards for Initial Certification of Professional School Personnel

--- --- ---

There are some aspects of the proposed changes to the Standards for Initial Certification that are headed in the right direction. For example, the inclusion of a core standard regarding *American Indian Tribes and Tribal Sovereignty* is to be commended. Additionally, it seems entirely reasonable to look for ways to streamline the standards since length and the number of separate (but interrelated) sections makes them a bit unwieldly in their current form. There are undoubtedly items that can be condensed and redundancies that can be removed to make the document more accessible and useful. In that sense, I support the apparent intention of the proposed changes to trim the fat and focus on clarity.

However, the proposed changes take that sentiment to an extreme and result in a standards document that is too vague and stripped of vital content to be useful. This is especially concerning because such a shift could negatively impact our constitutional obligation to maintain uniformity in our system of public education. The two most significant concerns are expanded on below:

1) **The Content-Related Enhancement Standards Have Been Removed.**

   In the current standards document, the enhancement standards provide additional criteria that must be met by new educators seeking initial certification in various content areas (e.g., Science, Mathematics, English Language Arts, etc.). The proposed changes do away with these entirely.

   Such a change fails to acknowledge that there are vital pedagogical skills unique to each content area which are not addressed by the core standards. Taking science as an example (since it is my background), the current document includes standards relating to *Safety* and *Laboratory & Field Activities*. Removing these standards—as the proposed document does—effectively eliminates state's ability to mandate that *all* Idaho science teachers have fundamental competency in managing students in a safe laboratory environment before they step into the classroom. Likewise, the proposed standards omit instructional competencies that are discipline-specific but vital for successful science teaching (e.g. understanding and modeling the science and engineering practices and guiding students to use them). Other content-areas suffer similarly from the omission of their respective standards.

   It is my understanding that the proposed changes to the endorsement rules found in IDAPA 08.02.02.022-024 are meant to address this issue. They do not accomplish that goal. Continuing to use science as an example, the language of "… [to include coursework] in methods of teaching science, lab safety…" has been added to the relevant endorsements in the proposed

rule changes. Although vague, this change acknowledges that methods and safety training are important. However, moving these requirements to the endorsement rules means that they would only apply to *some* prospective science teachers. Candidates seeking initial certification through a non-traditional program like ABCTE or via a Content Specialist Alternative Authorization do not have to address the individual endorsement requirements listed in that section of IDAPA. Both are held only to meet the requirements found in the Standards for Initial Certification. Within the current legal context, the proposed changes would allow some candidates to seek initial certification without demonstrating all the vital competencies needed to be effective (and, in some cases, keep students safe) in their endorsed content areas.

2) **The Knowledge, Performance, and Disposition Statements Have Been Removed.**

Currently, the Standards for Initial Certification are each broken down into statements clarifying what the standard entails with regards to a candidate's Knowledge, Performance, and Dispositions. This is true for both the core and enhancement standards. Although it's quite likely that many of these statements could be consolidated to streamline the document, eliminating them entirely leaves only vague statements whose criteria are highly open to interpretation and cannot be enforced uniformly across preparation routes. Unfortunately, that is what is found in the proposed standards.

An example of this can be found in Core Teaching Standard 6:

> Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making

If we are going to say that this standard must be met by all candidates seeking initial certification, then we must also articulate clearly what an acceptable level of proficiency looks like. Further, that line between proficient and non-proficient must be reliably interpreted from one program to another. Looking at the standard on its own, it is quite difficult to say where that line should be drawn on who has (or hasn't) met the criteria. The statements under each standard provide additional clarification on what needs to be assessed to demonstrate that a candidate has met the standard. For example, a sample of statements under Standard 6 say:

- The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.
- The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.

Unlike the standard on its own, these statements are indicators which can be evaluated in a meaningful and (relatively) consistent way. If the document is whittled down to only the

standards themselves (as proposed), it is very likely that they will be interpreted differently between preparation programs—and potentially even by individuals within the same program. Additionally, it would undermine the accountability of program reviews, since judging whether a program is truly in alignment with any given standard would become extremely difficult. If anything, we should be looking to make the Standards for Initial Certification clearer and less open to interpretation, not more.

This problem only becomes larger when considering non-public preparation programs. Pursuant to Idaho Code Section 33-1207A, non-public teacher preparation programs can only be reviewed on the basis of the "knowledge or equivalent standards set forth in the initial standards for teacher certification…". It is my understanding that this part of Idaho Code was written in direct reference to the current structure of the standards. As such, removing the knowledge, performance, and dispositions statements—and failing to replace them with anything equivalent—calls into question whether there are any remaining criteria by which the state can evaluate non-public preparation programs. Further, even if non-public programs can still be held to the core standards, the removal of the content-specific extension standards means that there are no criteria by which the state can review the content-specific aspects of their programs. That lack of uniform accountability to certification standards is troubling.

Given our constitutional obligation to maintain a uniform system of public schools, it is vital that our Standards for Initial Certification be written in a way that encourages uniformity in certification criteria. The standards must apply equally to all prospective educators—regardless of their route to certification. Also, they must provide enough detail and clarity to limit room for disparate interpretations. As described above, the proposed standards fall short on both fronts. I encourage the State Board of Education to consider rejecting the proposed standards in their current form. However, I do support ongoing work to streamline the standards, so long as that work also increases their clarity and uniformity in the process.

Summary of Comments Received by the Department of Education and Unresolved Issues
Rules Governing Uniformity 08.02.02
Docket No. 08-0202-2102

Summary of Comments During/After July 7, 2021, Meeting

Generally, commenters appreciated the work of the educator stakeholder workgroup to simplify standards and reduce regulatory burden upon educator preparation programs (PC 1, 2, 4, 5, 6, 7, 8, 9, 17). Comments regarding problematic rule sections centered around Career and Technical Education (CTE) content requirements (PC 3, 7, 8), Visual Arts endorsement (PC 7, 8), Early Childhood/Early Childhood Special Education standards (PC10), Speech-Language Pathologist endorsement (Public meeting, PC 12, 14), Audiology endorsement (Public meeting, PC 14, 16), and technical/grammar correction recommendations (PC 11, 15).

Public Comments

CTE content requirements: The comment received is specific to Subsection 015.04.b. The Department seeks feedback and additional revision, if necessary, from the Division of Career and Technical Education.

Visual Arts endorsement: The concern that a class added to the endorsement has increased the credit load to gain the endorsement appears to have no basis. While three (3) credits of art history was added to the endorsement, the number of foundation art and design credits was reduced from nine credits (9) to six (6), resulting in a net change of zero (0) credits.

Early Childhood/Early Childhood Special Education standards:
The comment recommends removing overlapped and repeated emphases and consolidating the those that are not covered by the core standards such as law, regulation, eligibility determination, and coaching/consultation.

Department staff recommends leaving the standards as written, as the state-specific standards for special education programs were crafted by special education professionals from around the state.

Speech-Language Pathologist (SLP) endorsement: The provision that allows for one-time extension of the interim certificate (Subsection 015.02.i) may be costly and potentially dangerous to kids. If the provision is to be retained, more specifics are required:

- The individual seeking the certificate must provide proof to the LEA that he/she is actually accepted, enrolled, and making progress in a master's program.
- The individual must graduate on time, demonstrating at least once a year to the LEA that their GPA and overall coursework is progressing as indicated in the ISU CSD Graduate Student Manual.

- The individual seeking the certificate must be provided with supervision from a licensed and certified speech-language pathologist who belongs to the American Speech, Language, and Hearing Association.
- The individual seeking the certificate must be supervised by a licensed and ASHA certified speech-language pathologist for a minimum of 25% of their clinical experience. That is, if the certificate seeker is practicing with a client for 60 minutes, then 15-minutes must be supervised by the ASHA certified speech-language pathologist.

Department staff recommends incorporation of these amendments into Subsection 015.02.i.

Audiology endorsement:

- Please add "or higher" after master's level for audiologists. For more than 10 years, institutions have NOT awarded master's degrees as they are no longer deemed sufficient to practice. Veterans are grandfathered in, but the doctoral level is all that exists (most of us have an Au.D. with a clinical emphasis but a Ph.D. in audiology is also an option).
- Please consider wording to the effect of, "Valid for 5 years. Renewal may be demonstrated by CCC, state licensure, and/or 6 semester hours." It would give educational audiologists the most flexibility (at least one educational audiologist in Idaho is also an SLP and works with her time shared between two professional roles).

Department staff recommends incorporation of the amendment in the first bullet. The wording in the second bullet does not change the flexibility offered by the existing amendments.

Technical/grammar corrections:
In ISICPSP:

- Page 7, Standard 2: "...embed learning objectives into child initiated . . . " Does the child initiate this action?
- Page 14, Standard 9: "manages" should be "manage"

In IDAPA Subsection 016.05:

- Amend “Teaching for Mathematical Thinking” to “Teaching Mathematical Thinking.”

Department staff has reviewed the question in the first bullet and has determined the language is correct when the entire standard is read. Department staff recommends incorporation of the amendments in the second and third bullets.

Comments 1 and 13 are duplicate from the same person. The concerns may stem from an assumption that only the state-specific standards for Exceptional Child Generalist apply to the Exceptional Child Generalist program. The Idaho Core Teaching Standards also apply to all special education programs.

Other comments regarding the review process and scoring rubric (PC 2, 4) apply to process and procedure manual (manual) revisions, which are dependent upon the result of this rulemaking. Upon completion of the manual revisions, the manual will be recommended by the Professional Standards Commission to the State Board of Education for approval. Recommendation to the Board is anticipated to occur after final changes to IDAPA 08.02.02 are passed by the 2022 Legislature.

Comments regarding pupil service staff pay, working conditions, and higher education funding (PC 12) are not applicable to this section of rule.

Unresolved Issues

- Public educator preparation programs are accountable for ongoing alignment to state board approved educator accreditation program standards (e.g., CAEP), while non-public educator preparation programs are not (Public meeting, PC 17).
- Non-public educator preparation programs should not be held to knowledge of the entirety of each standard (Public meeting, PC 2).
- Newly added State-Specific Core Teaching Standards 11, 12, and 13 are unnecessary (PC 2).
- CTE – 12 credits of CTE content should be reduced to 9 (PC 3, 7, 8).
    - The Department seeks revision

Comments	I appreciate the overall simplification and shortening of the standards for various endorsements. My comments are specific to Exceptional Child Generalist standards: 1) I believe Standard 3 should include both assistive and instructional technology and should have a reference to supporting inclusion, in addition to communication and learning. 2) Standard 4 surprises me- a special educator should have assessment skills beyond just eligibility. Special educator assess their students learning and based on such assessment design specialized instruction, accommodations, modifications, etc. I would delete the reference to eligibility in the standards title, and edit the section of the standard to read "sound assessments (including eligibility) to guide..." 3) I am highly unimpressed with standard 5. A special educator needs broader collaboration

skills to include various professionals- gen ed teachers, school psychologist, related service providers, AND paraprofessionals. Limiting the standard requirement to just "guidance and direction" of support staff is inadequate and incomplete. I would prefer to see a return to a broader collaboration standard.

4) Lastly, I would urge us to keep/add a standard related to designing appropriate behavior supports and inclusive environments recognizing individualized and unique learning characteristics of students with disabilities- such standard could combine previous/current standard 1 and 2. It is paramount that special educators have such skills and knowledge and we- teacher ed preparation programs must be required to teach this content.

Please select	Standards for Certification and Endorsements
Comments	American Board 1123 Zonolite Road, Suite 29 Atlanta, GA 30306 13 July 2021 Idaho State Department of Education 650 W. State Street, 2nd Floor Boise, Idaho 83702 Re: IDAPA 08.02.02 Rules Governing Uniformity Superintendent Ybarra, American Board applauds the efforts of the Educator Standards Working Group to reduce the bureaucratic burden of Idaho's educator preparation program review process. In

particular, the group's decision to remove the 100+ indicators from the Idaho Standards for Initial Certification of Professional School Personnel document certainly works to serve the group in its mission to "reduce regulatory burden upon educator preparation programs while maintaining high standards for beginning teachers, administrators, and pupil service staff."

It's worth noting, however, that the work hasn't been without concern. American Board would like to draw attention to and oppose three changes proposed by the Educator Standards Working Group. First, the addition of three standards to the list of core standards. Second, the qualifying of all standards as knowledge standards. Finally, and most important to American Board, we disagree with the proposed scoring rubric for program renewal reviews.

American Board does not support the addition of three new, state-specific core standards. We believe the addition of three standards (a 30 percent increase in the number of core standards) is counterproductive to the work with which the group was tasked. Furthermore, the new standards themselves are problematic and unnecessary.

Standard 11: American Indian Tribes and Tribal Sovereignty*. The teacher candidate knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities and the cultural resources (e.g., language, history, indigenous knowledge) of American Indian students and their communities. *The federal and state governments of Idaho recognize the unique inherent sovereignty of each tribe of Idaho. This tribal sovereignty distinguishes Indigenous peoples as peoples, rather than populations or national minorities.

Standard 12: Code of Ethics for Idaho Professional Educators. The teacher candidate understands the Code of Ethics for Idaho Professional

Educators and its place in supporting the integrity of the profession.

Standard 13: Digital Technology and Online Learning. The teacher candidate knows how to use digital technology to create lessons and facilitate instruction and assessment in face-to-face, blended, and online learning environments to engage students and enhance learning.

American Board opposes the notion that all standards are now deemed "knowledge" standards. We believe this change is in direct response to House Bill 599 passed in 2020. HB 599 clearly states that nonpublic programs are not responsible for meeting "performance" standards. Rebranding all standards as knowledge standards so they must be met by nonpublic programs is in violation of the spirit of HB 599. If a standard was previously upheld by more performance and disposition indicators than knowledge indicators, it seems clear that standard is a performance standard. This concept is further supported by the verb used in the standard. As an example, a standard requiring a teacher candidate to "work," "plan," or "engage" is a performance standard. Only standards requiring candidates to "know" or "understand" should be considered knowledge standards. Qualifying all standards as knowledge standards is an attempt to hold nonpublic institutions to more bureaucratic requirements than intended by HB 599.

Lastly, American Board holds significant opposition to the scoring rubric developed for the program renewal reviews. Prior to revamping the review process, institutions were able to miss 20 percent of indicators and be approved. Now, the review process requires that all programs receive 100 percent on their scoring in order to be approved. American Board strongly believes nonpublic programs should be granted the flexibility allowed under HB 599 and, therefore, we believe that flexibility should carry over to the

review process scoring. Allowing nonpublic programs to meet 80 percent of standards and receive the approval status would be one step in the direction of reducing the regulatory burden the state is currently placing on nonpublic programs.

We appreciate the opportunity to provide this feedback, and we look forward to working with the state to improve the process of reviewing nonpublic educator preparation programs.

Comments	For the CTE endorsement we initially included the methods requirement in the general CTE certification requirements. They were then removed from the general requirements and put into the area specific requirements. For this reason, I think 9 credits of CTE content is sufficient. We don't need 12 credits if the methods courses are no longer included in the general CTE requirements. There are a LOT of required credits for a CTE endorsement.

Comments	The process that was used by the Committee was thorough and comprehensive while at the same time being relatively efficient. The proposal that has emerged for revised standards, supporting changes in rule, and the starting work on means of evaluation represents the will not merely of a majority in the committee, but consensus on the best ways forward. This does not mean that there are not outliers who disagree with the direction that was taken. However, their views were accounted for and discussed during the open and democratic process, and the proposal that emerged, if it displeases them, should not be subject to the implication that it was somehow ill-considered. The strength of the proposal is that it makes the requirements more direct and streamlines the process while still holding EPPs to the same standards, reflective of national consensus on the best standards for preparation of educators (InTASC).

If there is any remaining shortfall in the proposal, it is the question regarding uniform interpretation of what will qualify as sufficient evidence of meeting each of the standards. This matter can be addressed by allocating sufficient resources to create and carry out uniform training that is identical for the full faculty of all EPPs and all reviewers.
The materials (training videos? seminars? sample cases? collection of sample sufficient evidence items?) need to be developed and training initiated so that the revised standards can be implemented with consensus understanding of application immediately upon passage.

Comments	The proposed changes allow EPPs to more closely align required content courses with the counterpart disciplinary major (e.g., Secondary Biology/Biology, Secondary History/History, etc.). Such an approach ensures quality content preparation that keeps pace with trending changes in these disciplines. The current rules require some teaching majors (e.g., Earth Space Science and Physics) to meet specific indicators not available from the related academic department, forcing additional coursework and requiring additional resources by EPPs to meet the expectation. Closer alignment means stronger arguments in course evidence, optimized use of resources, and potentially enhanced performance on related Praxis II exams.

Comments	I/ we (C of I) endorse these changes. The 3 phases have done extraordinary work at reducing the regulatory burden and still providing an effective template for the diverse composition of EPPs across the state to follow. De-emphasizing indicators puts emphasis back where it should be on the standards and removes the burden to produce artifacts aligned with each indicator. Removing "disposition" statements reduces logical redundancy (it's not clear how one would have any knowledge or ability to perform without some disposition to do so). I am not sure what the other EPPs who expressed dissention are concerned about, but as far as we are concerned these are a giant step forward toward helping us focus on preparing teachers rather than preparing reports.

Comments	I certainly support the proposed revisions and feel there was sufficient representation and opportunities for feedback. I also felt that there was near unanimous support for the proposals in our working groups. Beneficial aspects of the proposed revisions: 1) Going from 291 pages of standards down to 15 is amazing. 2) Previously, just for the education core classes at the university, we had to show how we met 220 individual standards. That was tedious, costly and frankly over-the-top (especially since we had to produce 3 different types of evidence for each one). That has now been boiled down to 13 overall standards which is much more reasonable while still keeping the overall essence of the 220. 3) This reduction in regulatory burden really frees up university personnel and programs to focus on program improvement and quality

teaching of candidates rather than spending so much time preparing accreditation reports, documentation, websites, etc. 4) Broadening the second endorsement options for elementary education candidates will also benefit those students and I think will increase our overall number of graduates in elementary education. 5) There is much greater clarity in the code so as to reduce confusion and misinterpretation. 6) The changes to the Social Studies code will likely increase the number of candidates seeking that highly desirable certification.

Again I emphasize that by and large we are very appreciative of the work that has been done and the resulting reduction in regulatory burden. There were a couple of instances where the regulatory burden was increased that will have some negative repercussions for BYUI and perhaps for other institutions as well. 1) The Art Education code introduced the requirement for an additional art history class. Any time additional classes and credits are required, there are potentially negative ramifications. In our case, this added to the reasons whey the Art faculty decided to cut our Art Education minor. This wasn't the only reason, but it did add to the rationale for ending the program. 2) For our FCS program, it appears that the methods classes no longer count as part of the required 12 credits of CTE. Again this will have the result of requiring an additional class which will be quite challenging for our program to accommodate. FCS is such a shortage area that I hate to see additional requirements dissuade students or universities from pursuing those programs.

In terms of remedying the couple of areas we see as problematic, I think the FCS one would just be a matter of taking the CTE required credits down to 9 instead of 12 since they are no longer counting the methods class.

Comments	From our perspective at BYU-Idaho we are supportive of the proposed revisions. We appreciated being involved and felt that the variety of institutions and interests were well represented in the process. We are supportive of the changes and feel like they do reduce the regulatory burden. The greatest benefit is that reduction of the regulatory burden, which will hopefully result in a simplification of the program review process (a result of the phase III process). As I understand it, the direction to engage in this process is to allow EPPs focus more on improving the preparation of teachers as a part of a continual improvement process rather than trying to satisfy every possible indicator as a checklist expressed in the standards document. By eliminating those indicators, we are allowed to focus on continual

improvement focus on the core standards. I know there is a concern that the standards are not specific enough, but placing more trust that EPPs are professionals with a desire to help prepare the best teachers possible, we will allow EPPs to continually improve rather than struggle to comply.

The changes in the code also have the effect of providing more clarity and flexibility in the program designs. There are some issues in the code that may be problematic that are specific to some programs such as the additional art history requirement that will influence our art major to remove a major and minor program. Also the CTE program is overloaded with requirements that make it extremely difficult to satisfy all those requirements in the 120 credits BYU-Idaho allows for a major. Anytime the number of credits increases for a major, we have discussions whether that program is worth continuing. When these types of changes are made, I hope these issues are considered with an understanding of the potential consequence that fewer teachers may be produced in a given area. The flexibility such as was added to the social studies endorsement is an important modification that will allow more students to earn the social studies composite major, which will be beneficial to both our graduates and the schools that request graduates with social studies endorsements.

Comments	Idaho Lawmakers, The Educator Preparation Program (EPP) at Northwest Nazarene University fully supports the proposed revisions to the Standards for Certification and Endorsements. The proposed standards are very appropriate to provide Idaho students with competent educators. Multiple meetings of many stakeholder groups have worked diligently over 18 months to produce the documents before you. There may be one, or two, highly unique organizations that prepare teachers in Idaho that do not support these revisions, the vast majority of EPPs and stakeholders support the work represented here. Especially beneficial in this work is the representation of one set of standards for all educator preparation programs: public, private,

traditional, and non-traditional. Idaho students deserve nothing less. An additional benefit of the new document is the movement of the indicators for each standard into a guidance document, allowing the focus of the review to be on the standards and how individual EPPs demonstrate meeting the standard within their unique programs. I also appreciate the effort to recognize the additional work in professional development for educators with National Board and Occupational Licensure awards, and the allowance for educators to use that work toward certificate renewal.

Similarly, I appreciate the effort to recognize nationally accredited programs in the area of Pupil Service Staff (PSS) endorsements, and the intent to let national accreditation from those professional bodies stand in for Idaho standards in those areas. I anticipate PSS programs, and CTE, will look unfavorable at the requirement of three new State Specific Standards (11 Tribes, 12 Ethics, 13 Technology). However, if these areas are important for classroom teachers, why would we not indicate their importance for all certificated educators, including PSS and CTE educators? I believe the intent is to have well prepared educators in all certificate areas: standard instructional, pupil service staff, and career technical.

Finally, Lisa Colon-Durham, Helen Henderson, and Cina Lackey from the State Department of Education deserve recognition and congratulations on facilitation of a difficult, time-intensive, multi-phased process of engaging multiple stakeholder groups in a multitude of meetings which occurred over 18 months in which diverse opinions and beliefs were expressed, discussed, negotiated, collaborated upon, and finally communicated in the documents before you. Well done, SDE Team.

Thank you for your consideration of my

comments regarding the Standards for Certification and Endorsements in the process of negotiated rulemaking.

Sincerely,

Dr. Lori Sanchez

Comments	For blended EC/ECSE, there are overlapped and repeated emphases. For example, standard 1: child development has been covered by the core standard 1: learner development (typical development), standard 2: learner differences (atypical, delayed, at-risk, etc), and standard 3 learning environment (Adverse Childhood Experiences). Similarly, standard 2, 3, and 4 focus on embedded, routine and activity based instructions given the early childhood context. Those are covered by core standard core standard 4 content knowledge, 5, application of content, 7 planning for instruction, and 8 instructional strategies. I would suggest removing the repeated one and consolidate the focuses that are not covered by the core standards such as law, regulation, eligibility determination, and coaching/consultation.

Comments	Good Evening, The proposed interim certificate for a speech-language pathology endorsement is inadequate state rulemaking that fails to solve the shortage of Speech Therapists in Idaho for several reasons. First, starting from the top, there is a lack of state funding for higher education. Specifically, Idaho State University is the only university charged with finding and educating students studying within the Communication Sciences and Disorders program. However, the ISU program can only take so many graduate students each year because the faculty cannot teach any more students or send them out on their internships for real-world learning. In fact, we need additional professors and clinical faculty members to grow the program. However, year after year, funding for

higher education is slashed, salaries decreased, and this occurs all while the cost of living in Idaho skyrockets.

Second, school districts in Idaho, where the shortages of speech therapists are rather dire (e.g., Eastern, Southern, and rural central Idaho), have starting salaries in the high $30,000 to mid $40,000 range. These students have college loans, and more importantly, Master's degrees. They simply cannot afford to remain in Idaho with such low salaries. And quite frankly, many of them are insulted by such low starting offers. After running several analyses on where our graduate students go after receiving their Master's, we found that we lose the majority of them to Oregon, Washington, Utah, California, and Nevada. Those states have better salaries.

Third, the working speech therapy working conditions in our neighboring states protect speech therapists. Very few speech therapists in those states have caseloads of 80 and above. However, in Idaho, speech therapists are taking work home, working extra hours, and not receiving compensation for this extra time. No one should work for free. This is simply a job.

Fourth, and the most important point, adding the interim certificate is dangerous. AT BEST, the speech therapy services will be sub-par to poor, resulting in students who stay on speech therapy caseloads longer. In turn, this would mean more taxpayer dollars are spent on children that should have made adequate progress to be dismissed from special education or transitioned into general education. Additionally, Medicare and Medicaid will not allow an interim speech therapist to bill for their services in the school. The state of Idaho will lose revenue if this is implemented. And if another financial incentive is required to prevent this rule change, it's this. Poor clinical assessment and intervention decisions secondary to a lack of formal training will result in additional due process claims,

mediations, and payouts from the state of Idaho. Why? Because these students do not receive the appropriate coursework in communication disorders to diagnoses or treat clients with language disorders, speech-sound disorders, autism, down syndrome, cerebral palsy, or any other child. More importantly, they have no clinical experience, and many of them barely have babysitting experience let alone teaching experience. This field is a science, and our clients deserve that we treat it as such.

Thus, this interim certificate should be more explicit.

1. The individual seeking the certificate must provide proof to the LEA that he/she is actually accepted, enrolled, and making progress in a master's program
2. The individual must graduate on time, demonstrating at least once a year to the LEA that their GPA and overall coursework is progressing as indicated in the ISU CSD Graduate Student Manual
3. The individual seeking the certificate must be provided with supervision from a licensed and certified speech-language pathologist who belongs to the American Speech, Language, and Hearing Association
4. The individual seeking the certificate must be supervised by a licensed and ASHA certified speech-language pathologist for a minimum of 25% of their clinical experience. That is, if the certificate seeker is practicing with a client for 60 minutes, then 15-minutes must be supervised by the ASHA certified speech-language pathologist.

In sum, the shortage of speech therapists is a multivariable phenomenon. We must protect our students from poor and detrimental practice. Idaho must find another way to address the shortage.

Thank you,

Dr. Kris Brock

Comments	I appreciate the overall simplification and shortening of the standards for various endorsements. My comments are specific to Exceptional Child Generalist standards: 1) I believe Standard 3 should include both assistive and instructional technology and should have a reference to supporting inclusion, in addition to communication and learning. 2) Standard 4 surprises me- a special educator should have assessment skills beyond just eligibility. Special educator assess their students learning and based on such assessment design specialized instruction, accommodations, modifications, etc. I would delete the reference to eligibility in the standards title, and edit the section of the standard to read "sound assessments (including eligibility) to guide..."

3) I am highly unimpressed with standard 5. A special educator needs broader collaboration skills to include various professionals- gen ed teachers, school psychologist, related service providers, AND paraprofessionals. Limiting the standard requirement to just “guidance and direction” of support staff is inadequate and incomplete. I would prefer to see a return to a broader collaboration standard.

4) Lastly, I would urge us to keep/add a standard related to designing appropriate behavior supports and inclusive environments recognizing individualized and unique learning characteristics of students with disabilities- such standard could combine previous/current standard 1 and 2. It is paramount that special educators have such skills and knowledge and we- teacher ed preparation programs must be required to teach this content.

Comments	Thank you for the opportunity to provide input in this process. ISHA is grateful for your invitation to participate in the Negotiated Rulemaking Meeting and the opportunity to provide comments during the meeting and now in written form. We are grateful that you have also taken previous feedback from our profession and are changing rules that recognize our fields credentials and licensure as a renewal factor for the Pupil Personnel Service Provider Certificate. This relieved a burden from our professionals. There are two main rules ISHA would like to provide comments on: First Audiology Endorsement - In order to practice in Idaho audiologists only require a state license,

they may or may not be a member of ASHA or other agency. Also, for over 10 years audiologists have been required to receive a doctoral degree rather than a master degree. ISHA recommends that you reach out to an educational audiologist for clarification. I would be happy to connect you with a school based audiologist.

Second
Extension of the Interim Certificate - SLP Endorsement

The option of an Interim Certificate is not given to other pupil personnel candidates in health related fields such as Occupational Therapists, Physical Therapists, and Nurses for good reason. The health and safety of their student-clients need to be protected. This is no different for Speech Language Pathologists. The Idaho Speech Langauge Hearing Association (ISHA) feels this rule should be removed completely.

If the Interim Certificate - Speech Language Pathology Endorsement is removed, as an alternative, a person with a baccalaureate degree in speech language pathology could become an Idaho licensed ASSISTANT (SLPA) until meeting the rigorous requirements to become a certified and licensed speech language pathologist.

If the rule is NOT removed the level of services that our students receive is compromised. Three years is too long, and six years is an excessively unreasonable amount of time for a person who has not met our professional qualification requirements, including receiving a masters degree, participating in supervised intern and externships, practicing for a year under supervision, and continuing to participate in ongoing, updated training in the field of speech language pathology, to be providing speech and language therapy services. This is likely to lead to, at the very least subpar, and possibly even detrimental, communication therapy services being provided to students in need. As a result

the students served by those holding an Interim Certificate may make little or no progress, or even experience declining abilities, requiring additional years of therapy services. This rule essentially nullifies our certification and licensure requirements which are in place to ensure that our clients are provided with competent care. Additionally, having someone who is not licensed and certified providing speech and language therapy services negatively impacts the ability of districts to receive medicaid reimbursement funding, could lead to preventable litigious situations, and unnecessarily damages our profession's reputation by confusing and possibly misrepresenting to clients and their families that they are receiving skilled therapy services from a qualifies speech language pathologist when they are not.

If this rule is left in place, at the very least, stipulations should be added that require the employing LEA to provide proof that the person practicing under an interim certificate is actually accepted, enrolled, and making progress in a master's program and is expected to graduate on time, AND that during the time a person is granted an Interim Certificate Endorsement they are provided with supervision from a licensed and certified speech language pathologist similar to that recommended by the American Speech Language Hearing Association for an SLPA (assistant) or a Clinical Fellowship candidate (those who have graduated with a master's degree in speech language pathology and are then required to work for a year with supervision). This is in the best interest of the students that we serve.

Despite any cost issues an employing LEA is dealing with or the best intentions of the person providing services under an Interim Certificate, providing an extension of an Interim Certificate for SLP Endorsement puts the well being of our student-clients in jeopardy.

This rule is bypassing long standing policies of education, licensure, and certification requirements. It dictates to professionals in the medical field what defines competent services, and confuses the issue for clients and their families as to whether or not they are receiving skilled, evidence based speech and language therapy services. This rule adds an extra layer of regulation, red tape, and complexity and mandates who is and who is not competent to provide services, contrary to procedures already put in place.

Thank you for your consideration of these important points!

Comments	First, thank you for considering our diverse backgrounds and professional credentials. -Please add "or higher" after master's level for audiologists. For more than 10 years, institutions have NOT awarded master's degrees as they are no longer deemed sufficient to practice. Veterans are grandfathered in, but the doctoral level is all that exists (most of us have an Au.D. with a clinical emphasis but a Ph.D. in audiology is also an option). -Please consider wording to the effect of, "Valid for 5 years. Renewal may be demonstrated by CCC, state licensure, and/or 6 semester hours." It would give educational audiologists the most flexibility (at least one educational audiologist in Idaho is also an SLP and works with her time shared between two professional roles). Thank you!

Comments	I wholeheartedly appreciate the work to reduce the redundancies, especially in the standards and IDAPA and bring these elements into aligned consistency. It makes it easier to explain the process to future teachers when it is consistent. This is what I've been considering as I've participated in the process this past year: What problems are we trying to solve? Are we really solving the problem? What are the unintended consequences? With the recent legislative decision statue 33-1203a or 33-1207a to change the accountability of non-traditional programs (e.g. AACTE) and private institutions (e.g. BYU-I), I have wrestled with the new minimum standard. I still believe that ALL preparation programs need to be held to the same minimum standard. There is an extra

burden placed on public institutions for CAEP accreditation, however, I recognize the benefit of maintaining CAEP as it allows our completers to transfer their certificates to other states.

I wonder if additional time outlining some of the consequences for completers ought to be discussed again with the private institutions.

One thing I have found helpful in discussions is creating a decision tree for different scenarios that we have encountered. While it might not catch every nuance available, it does help apply the process with clarity and consistency.

I recognize from discussions with individuals from other institutions and program types there is not a consensus of what minimum standards ought to be. I do support high expectations and a clear review process with designated pilot/review periods, much like each EPP undergoes every 7 years to ensure we are meeting the needs of the EPP, the completers, and ultimately, our P-12 students.

Thank you for providing a venue to express my thoughts.

APPLICABLE STATUTES, RULE OR POLICY

Section 33-118, Idaho Code, Section 33-1612, Idaho Code, Section 33-2211, Idaho Code
Idaho Administrative Code, IDAPA 08.02.03, Rules Governing Thoroughness
Executive Order 2020-01

BACKGROUND/DISCUSSION

Executive Order 2020-01, Zero Based Regulations, creates an ongoing review process for all existing rules as of June 30, 2020. Each rule chapter is required to be reviewed by the agency that promulgated the rule according to a schedule established by the Division of Financial Management (DFM) no later than legislative adjournment *sine die* in 2026. The agency review schedule is required to be staggered across agencies and within agencies with five or more rule chapters. Administrative rules promulgated under the Board's authority include IDAPA 08, IDAPA 55, and IDAPA 47. The Board's administrative rules review schedule may be found at www.dfm.idaho.gov (https://dfm.idaho.gov/about/RegulatoryDocs/ZBR%20Rule%20Review%205%20Year%20Schedule%205.20.2021.pdf). For the 2021-2022 rulemaking cycle the following rules were identified for review, IDAPA 08.01.02, 08.01.10 and 08.02.03. DFM and the State Office of Administrative Rules have enacted, starting with the current year, new procedures requiring any rulemaking within a chapter to be consolidated in a single Docket. In past years the Board could consider multiple rule Dockets from the same IDAPA chapter in different dockets, based on each subject contained in that chapter. As an example, in the past the Board could

consider a Docket amending IDAPA 08.02.01.100 and a separate Docket with amendments to IDAPA 08.02.01.800. Now all amendments to IDAPA 08.02.01 must be consolidated in a single Docket for IDAPA 08.02.01.

The Zero Based Regulations process requires the Board review each IDAPA chapter on a schedule set by DFM, over a five year period, and remove any unnecessary language that duplicates language or provisions in Idaho Code; remove any unnecessary language (e.g. orphaned definitions, redundant language, etc.); move any agency procedures or provisions that can be established through the agencies' policies and procedures; and to simplify and streamline where possible.

In addition to the "normal" promulgation of administrative rule amendments and the requirements of Executive Order 2020-01, the Legislature failed to extend previously codified rules during the 2021 legislative session. This resulted in the need for the Board to promulgate temporary rules reauthorizing previously codified sections of administrative rule at the June Regular Board meeting. When the Board considers pending rules in the fall, rule amendments promulgated through the negotiated rulemaking process will be combined with pending rules for the other sections of administrative rules that need to be reauthorized.

Representatives of the Idaho Technology Council, K-20 Computational Thinking Work Group, Department of Education, Division of Career Technical Education, Public Charter School Commission, stakeholder organizations, Boise School District and Idaho Digital Learning Academy participated in the negotiated rulemaking meetings. As part of the Governor's Zero Based Regulations initiative the group reviewed the entire rule chapter, IDAPA 08.02.03. Specific areas of discussion included general graduation requirements, guided pathways, career technical education specific graduation requirements, math graduation requirements, career exploration courses, computer science as a graduation requirement and math and science credit requirements. Additionally, the Department of Education's Director of Assessment requested an update to the WIDA English Language Development standards. The WIDA standards have been incorporated by reference into this chapter of rule since 2012. If approved, this update would update the incorporated by reference document from the 2012 standards to the 2020 standards.

There was consensus around all of the proposed amendments. The group expressed a desire to maintain the current mathematics credit requirements. Removing the senior year math requirement was specifically discussed. The consensus of the group was that removing the requirement would lower the bar and be a step backwards from where Idaho's graduation requirements are today. The math and science requirements were also discussed in relation to students pursuing career technical education pathway programs. The group felt the current math and science requirements allowed for flexibility in the type of math that was

taken, as well as covering a minimum of what a student would need to know if pursuing a technical or two year postsecondary certificate or degree.

There was a request that the Board consider adding a specific high school graduation requirement in computer science. While there was a recognition that computer science requirement would help modernize Idaho's graduation requirements, there was concern that if a credit requirement were added it would take away from students' ability to take elective courses, humanities, and social studies courses. The group came to consensus around adding computer science as a subject area to the science credit requirements.

Proposed amendments include:

- Removing the career technical education content standards from the incorporated by reference documents;
- Adding more specificity around instruction in career exploration at the middle school level;
- Updating the WIDA English Language Development Standards;
- Adding computer science to the list of high school science courses;
- Removing the college entrance exam from the high school graduation requirements while maintaining the assessment as one of the required assessments schools must administer annually;
- Moving the administration of the high school from 10th to ISAT to 11th grade;
- Moving the Data College and Unique Identifier sections to IDAPA 08.02.01. Rules Governing Administration; and
- Additional administrative clean up.

IMPACT

The approval of this proposed rule will allow the rule to be published in the Administrative Bulletin, at which time the 21-day public comment period will start.

ATTACHMENTS

Attachment 1 – Proposed Rule, Docket Number 08-0203-2101
Attachment 2 – WIDA English Language Development Standards 2020

BOARD STAFF COMMENTS AND RECOMMENDATIONS

Formal negotiated rulemaking requires a notice of intent to promulgate rules. The notice of intent for Docket 08-0203-2101 was published in the July 7, 2021 Administrative Bulletin. The deadline published in the Notice of Intent for requesting participation in the negotiated rulemaking was July 14, 2021. Negotiated meetings were held the week of August 2nd. Negotiated rulemaking provides the opportunity for the public to participate in the drafting of proposed rules prior to the rules coming to the Board of consideration. In addition to being published in the Administrative Bulletin, an email was sent to education stakeholders notifying them of the intent to promulgate amendments to this section of rule. Proposed rules approved by the Board are published in the Administrative Bulletin followed by a 21 day public comment period. At the close of the 21 day

comment period rules are returned to the Board for consideration as a pending rule. Pending rules approved by the Board are submitted to the Legislature for consideration during the upcoming legislative session. The Legislature may accept or reject all or a portion of the rules presented for consideration. Those rules that are not rejected become effective at the end of the legislative session in which they are submitted.

Staff recommends approval.

BOARD ACTION

I move to approve the WIDA English Language Development Standards as provided in Attachment 2.

Moved by_____ Seconded by_____ Carried Yes____ No____

I move to approve the proposed rule docket number 08-0203-2101, as submitted in Attachment 1.

Moved by_____ Seconded by_____ Carried Yes____ No____

08.02.03 – RULES GOVERNING THOROUGHNESS

000. LEGAL AUTHORITY.
All rules in this Thoroughness chapter (IDAPA 08.02.03) are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under sections 33-116, 33-118, and 33-1612, Idaho Code. Specific statutory references for particular rules are also noted as additional authority where appropriate. (7-1-21)T

001. SCOPE.
These rules shall govern the thorough education of all public school students in Idaho. (7-1-21)T

002. -- 003. (RESERVED)

004. INCORPORATION BY REFERENCE.
The following documents are incorporated into this rule: (7-1-21)T

01. The Idaho Content Standards. The Idaho Content Standards as adopted by the State Board of Education. Individual subject content standards are adopted in various years in relation to the curricular materials adoption schedule. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

a. Arts and Humanities Categories: (7-1-21)T

i. Dance, as revised and adopted on August 11, 2016; (7-1-21)T

ii. Interdisciplinary Humanities, as revised and adopted on August 11, 2016; (7-1-21)T

iii. Media Arts, as adopted on August 11, 2016. (7-1-21)T

iv. Music, as revised and adopted on August 11, 2016; (7-1-21)T

v. Theater, as revised and adopted on August 11, 2016; (7-1-21)T

vi. Visual Arts, as revised and adopted on August 11, 2016; (7-1-21)T

vii. World languages, as revised and adopted on August 11, 2016. (7-1-21)T

b. Computer Science, adopted on November 28, 2016. (7-1-21)T

c. Driver Education, as revised and adopted on August 10, 2017. (7-1-21)T

d. English Language Arts/Literacy, as revised and adopted on November 28, 2016. (7-1-21)T

e. Health, as revised and adopted on August 11, 2016. (7-1-21)T

f. Information and Communication Technology, as revised and adopted on August 10, 2017. (7-1-21)T

g. Limited English Proficiency, as revised and adopted on August 21, 2008. (7-1-21)T

h. Mathematics, as revised and adopted on August 11, 2016. (7-1-21)T

i. Physical Education, as revised and adopted on August 11, 2016. (7-1-21)T

j. Science, as revised and adopted on August 10, 2017. (7-1-21)T

k. Social Studies, as revised and adopted on November 28, 2016. (7-1-21)T

l. College and Career Readiness Competencies adopted on June 15, 2017. (7-1-21)T

~~**m.** Career Technical Education Categories: (7-1-21)T~~

~~i. Agricultural and Natural Resources, as revised and adopted on August 29, 2019. (7-1-21)T~~

~~ii. Business and Marketing Education, as revised and adopted on August 29, 2019. (7-1-21)T~~

~~iii. Engineering and Technology Education, as revised and adopted on August 29, 2019. (7-1-21)T~~

~~iv. Health Sciences, as adopted on August 29, 2019. (7-1-21)T~~

~~v. Family and Consumer Sciences, as revised and adopted on August 16, 2018. (7-1-21)T~~

~~vi. Skilled and Technical Sciences, as revised and adopted on August 29, 2019. (7-1-21)T~~

~~vii. Workplace Readiness, as adopted on June 16, 2016. (7-1-21)T~~

02. The English Language Development (ELD) Standards. The ~~World-Class Instructional Design and Assessment (~~WIDA~~)~~ ~~2012~~ 2020 English Language Development (ELD) Standards statements as adopted by the State Board of Education on August ~~16, 2012~~26, 2021. Copies of the document can be found ~~on the WIDA website~~ at ~~www.wida.us/standards/eld.aspx~~ https://wida.wisc.edu. (7-1-21)T

03. The Idaho English Language Proficiency Assessment (ELPA) Achievement Standards. The Idaho English Language Proficiency Assessment (ELPA) Achievement Standards as adopted by the State Board of Education on October 18, 2017. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

04. The Idaho Standards Achievement Tests (ISAT) Achievement Level Descriptors. Achievement Level Descriptors as adopted by the State Board of Education on April 14, 2016. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

05. The Idaho Content Standards Core Content Connectors. The Idaho Content Standards Core Content Connectors as adopted by the State Board of Education. Copies of the document can be found at the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

a. English Language Arts, as adopted by the State Board of Education on August 10, 2017. (7-1-21)T

b. Mathematics, as adopted by the State Board of Education on August 10, 2017. (7-1-21)T

c. Science, as adopted by the State Board of Education on June 19, 2019. (7-1-21)T

06. The Idaho Alternate Assessment Achievement Standards. Alternate Assessment Achievement Standards as adopted by the State Board of Education on October 18, 2017. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

07. The Idaho Standards for Infants, Toddlers, Children, and Youth Who Are Deaf or Hard of Hearing. As adopted by the State Board of Education on October 11, 2007. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

08. The Idaho Standards for Infants, Toddlers, Children, and Youth Who Are Blind or Visually Impaired. As adopted by the State Board of Education on October 11, 2007. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

09. The Idaho Special Education Manual. The Idaho Special Education Manual as adopted by the State Board of Education on October 17, 2018. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (7-1-21)T

005. -- 006. (RESERVED)

007. DEFINITIONS A - G.

01. Achievement Standards. Define "below basic," "basic," "proficient," and "advanced" achievement levels on the Idaho Standards Achievement Tests (ISAT) and level one (1) through level six (6) on Idaho's English language assessment by setting scale score cut points. These cut scores are paired with descriptions of how well students are mastering the material in the content standards. These descriptions are called performance level descriptors or PLDs, and are provided by performance level, by content area, and by grade. (7-1-21)T

02. Advanced Opportunities. Placement courses, Dual Credit courses, Technical Competency Credit, or International Baccalaureate programs. (7-1-21)T

03. Advanced Placement® (AP) - College Board. The Advanced Placement Program is administered by the College Board at http://www.collegeboard.com. AP students may take one (1) or more college level courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students can earn college credit by scoring well on the national exams. It is up to the discretion of the receiving college to accept the scores from the AP exams to award college credit or advanced standing. (7-1-21)T

04. All Students. All public school students, grades K-12. (7-1-21)T

05. Assessment. The process of quantifying, describing, or gathering information about skills, knowledge or performance. (7-1-21)T

06. Assessment Standards. Statements setting forth guidelines for evaluating student work, as in the "Standards for the Assessment of Reading and Writing." (7-1-21)T

07. Career Technical Education. Formal preparation for semi-skilled, skilled, technical, or paraprofessional occupations, usually below the baccalaureate level. (7-1-21)T

08. College and Career Readiness. College and career readiness is the attainment and demonstration of state board adopted competencies that broadly prepare high school graduates for a successful transition into some form of postsecondary education and/or the workplace. (7-1-21)T

09. Content Standards. Describe the knowledge, concepts, and skills that students are expected to acquire at each grade level in each content area. (7-1-21)T

10. Criteria. Guidelines, rules or principles by which student responses, products, or performances, are judged. What is valued and expected in the student performance, when written down and used in assessment, become rubrics or scoring guides. (7-1-21)T

11. Diploma. A document awarded to a student by a secondary school to show the student has successfully completed the state and local education agency graduation requirements. Diplomas may be awarded to individuals who attended a secondary school prior to the year in which the student is requesting issuance of a diploma

based on the graduation requirements in existence at the time the student attended. Determination of meeting past graduation requirements may be determined based on proficiency as determined by the local education agency. Each local education agency may determine the format of the diploma, including the recognition of emphasis areas based on a student's completion of courses or courses or studies in an emphasis area or educational pathways, including but not limited to science, technology, engineering and math (STEM), career technical education, or arts and music. (7-1-21)T

12. Dual Credit. Dual credit allows high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student's permanent college record. Students may enroll in dual credit programs taught at the high school or on the college campus. (7-1-21)T

008. DEFINITIONS H - S.

01. Idaho Standards Achievement Tests. Statewide assessments aligned to the state content standards and used to measure a student's knowledge of the applicable content standards. (7-1-21)T

02. International Baccalaureate (IB) - Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college credit. Successful completion of the full course of study leads to an IB diploma. (7-1-21)T

03. Laboratory. A laboratory course is defined as one in which at least one (1) class period each week is devoted to providing students with the opportunity to manipulate equipment, materials, specimens or develop skills in observation and analysis and discover, demonstrate, illustrate or test scientific principles or concepts. (7-1-21)T

04. Learning Plan. The plan that outlines a student's program of study, which should include a rigorous academic core and a related sequence of electives in academic, career technical education (CTE), or humanities aligned with the student's post-graduation goals. (7-1-21)T

05. Portfolio. A collection of materials that documents and demonstrates a student's academic and work-based learning. Although there is no standard format for a portfolio, it typically includes many forms of information that exhibit the student's knowledge, skills, and interests. By building a portfolio, students can recognize their own growth and learn to take increased responsibility for their education. Teachers, mentors, and employers can use portfolios for assessment purposes and to record educational outcomes. (7-1-21)T

06. Project Based Learning. A hands-on approach to learning that encourages students to create/interpret/communicate an original work or project and assesses quality and success of learning through performance/presentation/production of that work or project. (7-1-21)T

07. Proficiency. Having or demonstrating a high degree of knowledge or skill in a particular area. (7-1-21)T

08. Standards. Statements about what is valued in a given field, such as English language arts, and/or descriptions of what is considered quality work. See content standards, assessment standards, and achievement standards. (7-1-21)T

009. DEFINITIONS T - Z.

01. Technical Competency Credit. Technical competency credit is a sequenced program of study that allows secondary students to document proficiency in the skills and abilities they develop in approved high school career technical programs to be evaluated for postsecondary transcription at a later date. Technical Competency Credits are awarded for skills and competencies identified as eligible through an agreement with at least one Idaho

postsecondary institution. Eligible skills and competencies are included as part of a high school career technical program and approved by the postsecondary institution through the agreement in advance to student participation. Credits are granted by the postsecondary institution for which the agreement is with and are transcripted at the time the student enrolls at the postsecondary institution. (7-1-21)T

02. Technology Education. A curriculum for elementary, middle, and senior high schools that integrates learning about technology (e.g., transportation, materials, communication, manufacturing, power and energy, and biotechnology) with problem-solving projects that require students to work in teams. Many technology education classrooms and laboratories are well equipped with computers, basic hand tools, simple robots, electronic devises, and other resources found in most communities today. (7-1-21)T

04. Unique Student Identifier. A number issued and assigned by the State Department of Education to each student currently enrolled or who will be enrolled in an Idaho local education agency to obtain data. (7-1-21)T

010. – 101. (RESERVED)

102. INSTRUCTIONAL REQUIREMENTS.

01. Instruction and Programs. All schools will deliver a core of instruction and advisement programs (see Section 108, Guidance Programs) for each student in elementary schools, middle schools/junior high and high schools. (7-1-21)T

02. Standards. All students will meet standards established locally (at a minimum, the standards of the state) through rigorous accountability, which includes challenging examinations, demonstrations of achievement, and other appropriate tests and measures. (7-1-21)T

103. INSTRUCTION GRADES 1-12.

01. Instruction. Instruction is inclusive of subject matter, content and course offerings. Patterns of instructional organization are a local school district option. Schools will assure students meet locally developed standards with the state standards as a minimum.* (*This includes special instruction that allows limited English proficient students to participate successfully in all aspects of the school's curriculum and keep up with other students in the regular education program. It also includes special learning opportunities for accelerated, learning disabled students and students with other disabilities.) (7-1-21)T

02. Instructional Courses. At appropriate grade levels, instruction will include but not be limited to the following: (7-1-21)T

a. Language Arts and Communication will include instruction in reading, writing, English, literature, technological applications, spelling, speech and listening, and, in elementary schools, cursive writing. (7-1-21)T

b. Mathematics will include instruction in addition, subtraction, multiplication, division, percentages, mathematical reasoning and probability. (7-1-21)T

c. Science will include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. (7-1-21)T

d. Social Studies will include instruction in history, government, geography, economics, current world affairs, citizenship, and sociology. (7-1-21)T

104. OTHER REQUIRED INSTRUCTION.
Other required instruction for all students and other required offerings of the school are: (7-1-21)T

01. Elementary Schools. (7-1-21)T

a. The following section outlines other information required for all elementary students, as well as other required offerings of the school:

Fine Arts (art and music)
Health (wellness)
Physical Education (fitness) (7-1-21)T

b. Additional instructional options as determined by the local school district. For example:

Languages other than English
Career Awareness (7-1-21)T

02. Middle Schools/Junior High Schools. (7-1-21)T

a. No later than the end of Grade eight (8) each student shall develop parent-approved student learning plans for their high school and post-high school options. The learning plan shall be developed by students with the assistance of parents or guardians, and with advice and recommendation from school personnel. It shall be reviewed annually and may be revised at any time. The purpose of a parent-approved student learning plan is to outline a course of study and learning activities for students to become contributing members of society. A student learning plan describes, at a minimum, the list of courses and learning activities in which the student will engage while working toward meeting the state and school district's or LEA's graduation standards in preparation for postsecondary goals. The school district or LEA will have met its obligation for parental involvement if it makes a good faith effort to notify the parent or guardian of the responsibility for the development and approval of the learning plan. A learning plan will not be required if the parent or guardian requests, in writing, that no learning plan be developed. (7-1-21)T

b. A student must have met the grade eight (8) mathematics standards before the student will be permitted to enter grade nine (9). (7-1-21)T

c. Other required instruction for all middle school students:

Career exploration
Health (wellness)
Physical Education (fitness) (7-1-21)T

d. Other required offerings of the school:

Family and Consumer Science
Fine and Performing Arts
Career Technical Education
Advisory Period (middle school only, encouraged in junior high school) (7-1-21)T

03. High Schools. (7-1-21)T

a. High schools must offer a wide variety of courses to satisfy state and local graduation requirements. High schools are required to provide instructional offerings in Physical Education (fitness) and Career Technical Education and the instruction necessary to assure students are college and career ready at the time of graduation. (7-1-21)T

b. High schools will annually review and update with the student the parent-approved student learning plans outlined in Subsection 104.02.a. (7-1-21)T

105. HIGH SCHOOL GRADUATION REQUIREMENTS.
A student must meet all of the requirements identified in this section before the student will be eligible to graduate

from an Idaho high school. The local school district or LEA may establish graduation requirements beyond the state minimum. (7-1-21)T

01. Credit Requirements. The State minimum graduation requirement for all Idaho public high schools is forty-six (46) credits and must include twenty-nine (29) credits in core subjects as identified in Paragraphs 105.01.c. through 105.01.i. (7-1-21)T

a. Credits. (Effective for all students who enter the ninth grade in the fall of 2010 or later.) One (1) credit shall equal sixty (60) hours of total instruction. School districts or LEA's may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA's reason for not requiring sixty (60) hours of total instruction per credit. (7-1-21)T

b. Mastery. Notwithstanding the credit definition of Subsection 105.01.a., a student may also achieve credits by demonstrating mastery of a subject's content standards as defined and approved by the local school district or LEA. (7-1-21)T

c. Secondary Language Arts and Communication. Nine (9) credits are required. Eight (8) credits of instruction in Language Arts. Each year of Language Arts shall consist of language study, composition, and literature and be aligned to the Idaho Content Standards for the appropriate grade level. One (1) credit of instruction in communications consisting of oral communication and technological applications that includes a course in speech, a course in debate, or a sequence of instructional activities that meet the Idaho Speech Content Standards requirements. (7-1-21)T

d. Mathematics. Six (6) credits are required. Secondary mathematics includes Integrated Mathematics, Applied Mathematics, Business Mathematics, Algebra, Geometry, Trigonometry, Fundamentals of Calculus, Probability and Statistics, Discrete Mathematics, and courses in mathematical problem solving and quantitative reasoning. Dual credit engineering and computer science courses aligned to the state standards for grades nine (9) through (12), including AP Computer Science and dual credit computer Science courses may also be counted as a mathematics credit ~~if the student has completed Algebra II (or equivalent integrated mathematics) standards~~. Students who choose to take computer science and dual credit engineering courses may not concurrently count such courses as both a mathematics and science credit for the same course. (7-1-21)T

i. Students must complete secondary mathematics in the following areas: (7-1-21)T

(1) Two (2) credits of Algebra I, Algebra I level equivalent Integrated Mathematics or courses that meet the High School Algebra Content Standards; (7-1-21)T

(2) Two (2) credits of Geometry, Geometry level equivalent Integrated Mathematics, or courses that meet the Idaho High School Geometry Content Standards; and (7-1-21)T

(3) Two (2) credits of mathematics of the student's choice. (7-1-21)T

ii. Two (2) credits of the required six (6) credits of mathematics must be taken in the last year of high school in which the student intends to graduate. For the purposes of this subsection, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than mathematics are not required to retake a mathematics course as long as they have earned six (6) credits of high school level mathematics. (7-1-21)T

iii. Students who have completed six (6) or more high school credits of mathematics prior to the fall of their last year of high school, including at least two (2) semesters of an Advanced Placement or dual credit calculus or higher level course, are exempt from taking mathematics during their last year of high school. High School mathematics credits completed in middle school shall count for the purposes of this section. (7-1-21)T

iv. Students who earn eight (8) or more high school credits of mathematics that include Algebra II or higher level of mathematics class before the student's senior year are not required to take mathematics during their last year of high school. High school mathematics credits earned in middle school shall count for the purposes of this section. (7-1-21)T

e. Science. Six (6) credits are required~~, four (4)~~two (2) ~~and~~ of which will be laboratory based. Secondary sciences include instruction in applied sciences, earth and space sciences, physical sciences, ~~and~~ life sciences and computer science. (7-1-21)T

~~i. Up to two (2) credits in Dual credit engineering and computer science courses aligned to the state standards for grades nine (9) through (12), including AP Computer Science, Dual Credit Computer Science may be used as science credits. Students who choose to take computer science and Dual Credit Engineering may not concurrently count such courses as both a mathematics and science credit. (7-1-21)T~~

ii. Secondary sciences include instruction in the following areas: biology, computer science, physical science or chemistry, and earth, space, environment, or approved applied science. ~~Four (4) credits of these courses must be laboratory based. (7-1-21)T~~

f. Social Studies. Five (5) credits are required, including government (two (2) credits), United States history (two (2) credits), and economics (one (1) credit). Courses such as geography, sociology, psychology, and world history may be offered as electives, but are not to be counted as a social studies requirement. (7-1-21)T

g. Humanities. Two (2) credits are required. Humanities courses include instruction in visual arts, music, theatre, dance, or world language aligned to the Idaho content standards for those subjects. Other courses such as literature, history, philosophy, architecture, or comparative world religions may satisfy the humanities standards if the course is aligned to the Interdisciplinary Humanities Content Standards. (7-1-21)T

h. Health/Wellness. One (1) credit is required. Course must be aligned to the Idaho Health Content Standards. Effective for all public school students who enter grade nine (9) in Fall 2015 or later, each student shall receive a minimum of one (1) class period on psychomotor cardiopulmonary resuscitation (CPR) training as outlined in the American Heart Association (AHA) Guidelines for CPR to include the proper utilization of an automatic external defibrillator (AED) as part of the Health/Wellness course. (7-1-21)T

i. Students participating in one (1) season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education. Students must show mastery of the Physical Education Content Standards in a format provided by the school district. (7-1-21)T

02. Content Standards. Each student shall meet locally established subject area standards (using state content standards as minimum requirements) demonstrated through various measures of accountability including examinations or other measures. (7-1-21)T

~~**03. College Entrance Examination**. (Effective for all public school students who enter grade nine (9) in Fall 2012 or later.) (7-1-21)T~~

~~**a.** A student must take one (1) of the following college entrance examinations before the end of the student's eleventh grade year: SAT or ACT. Students who participated in the Compass assessment prior to its final administration may also use the Compass to meet this requirement. Students receiving special education services through a current Individualized Education Plan (IEP) may utilize the ACCUPLACER placement exam in lieu of the SAT or ACT. (7-1-21)T~~

~~**b.** A student who misses the statewide administration of the college exam during the student's grade eleven (11) for one (1) of the following reasons, may take the examination during their grade twelve (12) to meet this requirement: (7-1-21)T~~

~~i. Transferred to an Idaho school district during grade eleven (11) and has not previously participated in one of the allowed college entrance exams outlined in Subsection 03.a; (7-1-21)T~~

~~ii. Was homeschooled during grade eleven (11) and is enrolled in an Idaho high school as a diploma seeking student; or (7-1-21)T~~

~~iii. Missed the spring statewide administration of the college entrance exam dates for documented medical reasons. (7-1-21)T~~

~~**c.** A student may elect an exemption in from the college entrance exam requirement if the student is: (7-1-21)T~~

~~i. Receiving special education services through a current Individual Education Plan (IEP) that specifies the student meets the alternate assessment eligibility criteria; (7-1-21)T~~

~~ii. Enrolled in a Limited English Proficient (LEP) program for three (3) academic years or less; or (7-1-21)T~~

~~iii. Transferring from out of state to an Idaho high school in grade twelve (12). (7-1-21)T~~

~~**d.** A school district, on behalf of a student, on a form established by the State Department of Education, may submit an appeal application requesting the Superintendent of Public Instruction or their designee consider another college entrance exam or college placement exam to fulfill this requirement, or exempt the student due to extenuating circumstances. (7-1-21)T~~

04. Senior Project. The senior project is a culminating project to show a student's ability to analyze, synthesize, and evaluate information and communicate that knowledge and understanding. A student must complete a senior project by the end of grade twelve (12). Senior projects may be multi-year projects, group or individual projects, or approved pre-internship or school to work internship programs, at the discretion of the school district or charter school. The project must include elements of research, development of a thesis using experiential learning or integrated project based learning experiences and presentation of the project outcome. Additional requirements for a senior project are at the discretion of the local school district or LEA. Completion of a postsecondary certificate or degree at the time of high school graduation or an approved pre-internship or internship program may be used to meet this requirement. (7-1-21)T

05. Civics and Government Proficiency. Pursuant to Section 33-1602, Idaho Code, each LEA may establish an alternate path for determining if a student has met the state civics and government content standards. Alternate paths are open to all students in grades seven (7) through twelve (12.) Any student who has been determined proficient in the state civics and government content standards either through the completion of the civics test or an alternate path shall have it noted on the student's high school transcript. (7-1-21)T

06. Middle School. A student will have met the high school content and credit area requirement for any high school course if the requirements outlined in Subsections 105.06.a. through 105.06.c. of this rule are met. (7-1-21)T

a. The student completes such course with a grade of C or higher before entering grade nine (9); (7-1-21)T

b. The course meets the same content standards that are required in high school for the same course; and (7-1-21)T

c. The course is taught by a teacher properly certified to teach high school content and who meets the federal definition of highly qualified for the course being taught. (7-1-21)T

d. The student shall be given a grade for the successful completion of that course and such grade and the number of credit hours assigned to the course shall be transferred to the student's high school transcript. Notwithstanding this requirement, the student's parent or guardian shall be notified in advance when credits are going to be transcribed and may elect to not have the credits and grade transferred to the student's high school transcript. Courses taken in middle school appearing in the student's high school transcript, pursuant to this subsection, shall count for the purpose of high school graduation. However, the student must complete the required number of credits in all high school core subjects as identified in Subsections 105.01.c. through 105.01.h. except as provided in 105.01.d.iii. The transcribing high school is required to verify the course meets the requirements specified in Subsections 105.06.a. through 105.06.b. of this rule. (7-1-21)T

07. Special Education Students. A student who is eligible for special education services under the Individuals With Disabilities Education Improvement Act must, with the assistance of the student's Individualized Education Program (IEP) team, refer to the current Idaho Special Education Manual for guidance in addressing graduation requirements. (7-1-21)T

08. Foreign Exchange Students. A foreign exchange student may be eligible for graduation by completing a comparable program as approved by the school district or LEA. (7-1-21)T

106. ADVANCED OPPORTUNITIES.

01. Advanced Opportunities Requirement. All high schools in Idaho shall be required to provide Advanced Opportunities, as defined in Section 007, or provide opportunities for students to take courses at the postsecondary campus. (7-1-21)T

02. Advanced Opportunities Early Graduation Scholarship Funding (Effective July 1, 2016). (7-1-21)T

a. Scholarship Calculation. (7-1-21)T

i. The statewide average daily attendance-driven funding per enrolled pupil shall be calculated by adding the previous fiscal year's statewide distributions for salary-based apportionment, benefit apportionment and discretionary funds, and dividing the total by the previous year's statewide public school enrollment for all grades. (7-1-21)T

ii. The statewide average daily attendance-driven funding per enrolled pupil shall be recalculated each fiscal year. (7-1-21)T

iii. All benefits paid for scholarships and to public schools shall be based on the statewide average daily attendance-driven funding per enrolled pupil figure for the fiscal year in which the benefit is paid. (7-1-21)T

b. Payments to Idaho Colleges and Universities. (7-1-21)T

i. Annual scholarship payments will be made in one (1) installment during the first semester in which the student is enrolled, regardless of the number of years early the student graduated. Proof of enrollment in an Idaho public college or university must be obtained before any scholarship payment is made. (7-1-21)T

ii. The State Department of Education will be responsible for making payments to the Idaho public colleges and universities attended by eligible students. The payments must be made no later than August 30 for the fall semester and January 30 for the spring semester. (7-1-21)T

c. Payments to Public Schools. (7-1-21)T

i. Public schools shall report to the State Department of Education, no later than June 15 of each school year, students who have graduated early. (7-1-21)T

ii. The State Department of Education will make a single annual payment to public schools no later than October 1 of each year for all early graduates who are not attending the public school that school year as a result of early graduation. (7-1-21)T

107. MIDDLE LEVEL CREDIT SYSTEM.
A school district or LEA must implement a credit system no later than grade seven (7) that includes components that address the credit requirements, credit recovery, alternate mechanisms and attendance. The local school district or LEA may establish credit requirements beyond the state minimum. (7-1-21)T

01. Credit Requirements. ~~Each district or LEA credit system shall require students to attain a minimum of eighty percent (80%) of the total credits attempted before the student will be eligible for promotion to the next grade level.~~ Each district or LEA credit system shall require a student to attain, at a minimum, a portion of the total credits attempted in each area in which credits are attempted except for areas in which instruction is less than a school year before the student will be eligible for promotion to the next grade level. (7-1-21)T

02. Credit Recovery. A student who does not meet the minimum requirements of the credit system shall be given an opportunity to recover credits or complete an alternate mechanism in order to become eligible for promotion to next grade level. (7-1-21)T

03. Alternate Mechanism. A school district or LEA may establish an alternate mechanism to determine eligibility for grade level promotion. The alternate mechanism shall require a student to demonstrate proficiency of the appropriate content standards. All locally established mechanisms used to demonstrate proficiency will be forwarded to the State Department of Education. Alternate mechanisms must be re-submitted to the Department when changes are made to the mechanism. (7-1-21)T

04. Attendance. Attendance shall be an element included in the credit system, alternate mechanism or both. (7-1-21)T

05. Special Education Students. The Individualized Education Program (IEP) team for a student who is eligible for special education services under the Individuals with Disabilities Education Improvement Act may, establish alternate requirements or accommodations to credit requirements as are deemed necessary for the student to become eligible for promotion to the next grade level. (7-1-21)T

06. Limited English Proficient (LEP) Students. The Educational Learning Plan (ELP) team for a Limited English Proficient (LEP) students, as defined in Subsection 112.05.g.iv., may establish alternate requirements or accommodations to credit requirements as deemed necessary for the student to become eligible for promotion to the next grade level. (7-1-21)T

108. GUIDANCE PROGRAMS (SECTION 33-1212, IDAHO CODE).
In each Idaho school, a comprehensive guidance program will be provided as an integral part of the educational program. A comprehensive guidance and counseling program includes these elements: (7-1-21)T

01. Guidance. A guidance curriculum that identifies knowledge and skills to be attained by all students at various stages of their development and provides appropriate activities for their achievement. (7-1-21)T

02. Individual Planning. Individualized planning with students and their parents in each of these domains: personal/social development, educational development, and career development. (7-1-21)T

03. Response Services of Counseling, Consultation, and Referral. (7-1-21)T

04. System Support Functions That Promote Effective Delivery of Guidance Services. (7-1-21)T

109. SPECIAL EDUCATION.

01. Definitions. The following definitions apply only to Section 109 of these rules. (7-1-21)T

a. Adult Student. A student who is eligible for special education, is eighteen (18) years of age or older and to whom special education rights have transferred. (7-1-21)T

b. Due Process Hearing. An administrative hearing that is conducted to resolve disputes. (7-1-21)T

i. Regular due process hearing regarding issues on any matter related to identification, evaluation, placement, or the provision of a free appropriate public education. (7-1-21)T

ii. For disputes concerning discipline for which shortened time lines are in effect, an expedited due process hearing may be requested in accordance with the Individuals with Disabilities Education Act. (7-1-21)T

c. Education Agency. Each school district and other public agency that is responsible for providing special education and related services to students with disabilities, including the Department of Juvenile Corrections and the Idaho School for the Deaf and Blind. (7-1-21)T

d. Idaho Special Education Manual. Policies and procedures, as approved by the State Board of Education, that the State Department of Education is required to adopt to meet the eligibility requirements of 20 U.S.C, Section 1412 and are consistent with state and federal laws, rules, regulations, and legal requirements. (7-1-21)T

e. Special Education. Specially designed instruction as defined by the Individuals with Disabilities Education Act or speech-language pathology services to meet the unique needs of a special education student. (7-1-21)T

02. Legal Compliance. The State Department of Education and education agencies shall comply with all governing special education requirements. (7-1-21)T

a. The Board of Trustees or other comparable governing body of each education agency shall adopt policies and procedures for providing special education services and obtain approval from the State Department of Education for the same. Department approval shall be based on current governing special education requirements. Each education agency shall revise its policies and procedures as necessary to conform with changes in governing special education requirements. (7-1-21)T

b. The State Department of Education shall provide education agencies with a sample set of policies and procedures that is consistent with governing special education requirements. The Department shall monitor all education agencies and private agencies who provide special education services to students with disabilities for compliance with governing special education requirements and adopted policies and procedures. (7-1-21)T

c. Each education agency shall ensure that charter schools and alternative schools located in its jurisdiction have nondiscriminatory enrollment practices. Each education agency shall ensure the provision of special education and related services to eligible students enrolled in charter and alternative schools in accordance with governing special education requirements. (7-1-21)T

d. Each education agency contracting with a private school or facility shall ensure that the private school or facility is approved by the State Department of Education to provide special education services. The Department may approve a private school or facility to provide special education services upon application to the Department if it: (7-1-21)T

i. Is an accredited school or a licensed rehabilitation center; and (7-1-21)T

ii. Meets minimum health, fire and safety standards; and (7-1-21)T

iii. Is nonsectarian; and (7-1-21)T

iv. Provides special education services consistent with governing special education requirements. (7-1-21)T

v. Any private school or facility aggrieved by the Department's final decision may appeal that decision to the State Board of Education. (7-1-21)T

e. Education agencies shall employ special education and related services professional personnel using certification standards approved by the State Board of Education or licensing standards adopted by the appropriate Idaho state licensing board. Education agencies shall employ individuals who meet the highest entry-level standard that applies to a specific discipline unless there is a shortage of fully qualified candidates for a specific position. If there is a shortage of fully qualified candidates, the education agency shall hire the most qualified individual available who is making satisfactory progress toward meeting the highest entry-level standard within three (3) years. (7-1-21)T

f. Education agencies may employ paraprofessional personnel to assist in the provision of special education and related services to students with disabilities if they meet standards established by the State Department of Education. (7-1-21)T

g. Education agencies shall collect and report data as necessary to meet state and federal requirements concerning special education services, staff or students. Education agencies shall develop, implement and revise district improvement plans as necessary to improve results as measured by data on goals and indicators for the performance of special education students that are established by the State Department of Education in accordance with the Individuals with Disabilities Education Act. (7-1-21)T

h. Education agencies shall establish a team process to problem solve and plan general education interventions to ensure that referrals to special education are appropriate. (7-1-21)T

03. Eligibility for Special Education. The State Department of Education shall provide state eligibility criteria for special education services for categorical eligibility consistent with the Individuals with Disabilities Education Act. Education agencies shall consider eligibility under all disability categories set forth in the Idaho Special Education Manual with the exception of developmental delay, which is an optional category. If an education agency elects to use the developmental delay category, it shall consider developmental delay for students ages three (3) through nine (9) using the eligibility criteria adopted by the Department and set forth in the Idaho Special Education Manual. The total timeline from the date of receipt of written parental consent for an initial evaluation to the date of determination of eligibility for special education and related services must not exceed sixty (60) calendar days, excluding periods when regular school is not in session for five (5) or more consecutive school days, unless all parties agree to an extension. (7-1-21)T

04. Individualized Education Programs. Each education agency shall develop an individualized education program (IEP) for each student who is eligible for special education. The IEP shall be implemented as soon as possible after it is developed. The total timeline from the determination that the student needs special education and related services to the date of implementation of the initial IEP shall not exceed thirty (30) calendar days. A new IEP shall be developed at least annually, on or before the date the previous IEP was developed. (7-1-21)T

a. IEP team meetings shall be convened upon reasonable request of any IEP team member at times other than the annual review. If the education agency refuses to convene an IEP team meeting requested by a parent or adult student, the agency shall provide written notice of the refusal. (7-1-21)T

b. Education agencies shall document the attendance of all participants at each IEP team meeting. Any participant who does not agree with an IEP team decision regarding a student's educational program may place a minority report in that student's file. A minority report shall not prevent implementation of an IEP team decision. (7-1-21)T

c. The IEP team shall determine the student's placement in the least restrictive environment. (7-1-21)T

d. At the discretion of the education agency, an individualized family service plan (IFSP) may be used in place of an IEP if: (7-1-21)T

i. The child is ages three (3) through five (5), and (7-1-21)T

ii. The child's parents are provided with a detailed explanation of the differences between an IFSP and an IEP, and (7-1-21)T

iii. The child's parents provide written consent to use the IFSP, and (7-1-21)T

iv. The IFSP is developed in accordance with IDEA Part B policies and procedures. (7-1-21)T

v. Nothing in this part requires education agencies to develop IFSPs rather than IEPs for three (3) through five (5) year old nor to implement more than the educational components of the IFSP. (7-1-21)T

e. When a student who has been determined eligible for special education, as indicated by a current IEP, transfers from one (1) Idaho education agency to another, the student is entitled to continue to receive special education services. The receiving education agency may accept and implement the existing IEP or may convene an IEP team meeting to develop a new IEP. If a new IEP cannot be developed within five (5) school days, or if the education agency wishes to re-evaluate the child, an interim (short-term) IEP shall be implemented pending development of the standard IEP. (7-1-21)T

f. If a student who is eligible for special education in another state transfers to an Idaho education agency, the Idaho education agency shall request a copy of the student's most recent eligibility documentation and IEP within two (2) school days. Within five (5) school days of receipt of the eligibility documentation and IEP, the Idaho education agency shall determine if it will adopt the existing eligibility documentation and IEP. If the education agency disagrees with the existing eligibility documentation, or if the documentation is not available within a reasonable time period, consent for an initial assessment shall be sought. While the assessment and evaluation is in process, the education agency may implement an interim IEP if the parent or adult student agrees. If the parent or adult student does not agree to an interim IEP, the student shall be placed in general education. (7-1-21)T

05. Procedural Safeguards. Education agencies will use appropriate procedural safeguards consistent with the Individuals with Disabilities Education Act. (7-1-21)T

a. If a parent or adult student disagrees with an individualized education program (IEP) team's proposed IEP for the student, the parent or adult student may file a written objection to all or parts of the proposed IEP. If the written objection is emailed, postmarked or hand delivered within ten (10) calendar days of the date the parent or adult student receives written notice of the proposed IEP, the proposed change cannot be implemented for fifteen (15) calendar days, or as extended through mutual agreement by the district and the parent or adult student while the parties work to resolve the dispute. Parties may choose to hold additional IEP team meetings which may be facilitated by the State Department of Education (SDE) or request voluntary mediation through the SDE. If these methods fail or are refused, the proposed IEP shall be implemented after fifteen (15) calendar days unless a due process hearing is filed by the parents or adult student, during which time the student shall remain in the current educational placement during the pendency of any administrative or judicial proceeding, unless the district/adult student agree otherwise. The written objection cannot be used to prevent the education agency from placing a student in an interim alternative educational setting in accordance with IDEA discipline procedures, or to challenge an eligibility/identification determination. (7-1-21)T

b. Mediation may be requested by an education agency, parent, or adult student, or offered by the State Department of Education at any time. The Department shall screen all such requests to determine appropriateness. Any time a hearing is requested, the Department shall offer mediation using policies and requirements set forth in the

Individuals with Disabilities Education Act regulations. If the Department appoints a mediator, the Department shall be responsible for compensating the mediator. All mediation participants will receive a copy of the Notification of Mediation Confidentiality form. Attorney fees may not be awarded for a mediation that is conducted prior to a request for a due process hearing. (7-1-21)T

c. The State Department of Education shall administer a single-tiered due process hearing system to resolve disputes between education agencies and parents or adult students. When a due process hearing is requested, the superintendent, special education director, or other agency administrator shall inform the agency's board of trustees or other governing body of the request. The education agency shall immediately notify the Department's Director of Special Education of any request for a due process hearing. Within ten (10) calendar days of a written request for a regular hearing, or within five (5) business days of a written request for an expedited hearing, an impartial hearing officer shall be assigned by the Department. The Department shall maintain a list of trained hearing officers and their qualifications. (7-1-21)T

d. The education agency that is a party to the hearing shall be responsible for compensating the hearing officer and paying for the cost of a verbatim transcript of the hearing. (7-1-21)T

e. Due process hearings shall be conducted pursuant to IDAPA 04.11.01, "Idaho Rules of Administrative Procedure of the Attorney General," Individuals with Disabilities Education Act requirements, and the Idaho Special Education Manual, incorporated by reference in Section 004 of this rule. In case of any conflict between the IDAPA 04.11.01, "Idaho Rules of Administrative Procedure of the Attorney General" and the IDEA, the IDEA shall supersede the IDAPA 04.11.01, and IDAPA 04.11.01 shall supersede the Idaho Special Education Manual. (7-1-21)T

f. The hearing officer shall issue a written decision that includes findings of fact and conclusions of law within forty-five (45) calendar days of the date a regular hearing is requested, unless a specific extension of this time line is requested by one (1) of the parties and granted by the hearing officer. The hearing officer shall issue a written decision that includes findings of fact and conclusions of law within twenty (20) calendar days of a written request for an expedited hearing, unless a specific extension of this time line has been granted. An extension of the time line for an expedited hearing shall not exceed an additional twenty-five (25) calendar days, and may be granted only if requested by one (1) of the parties and agreed to by both parties. The decision shall be sent to the parent or adult student, the education agency administrator, their respective representatives, and the State Department of Education. (7-1-21)T

g. The hearing officer's decision shall be binding unless either party appeals the decision by initiating a civil action. The hearing officer's decision shall be implemented not later than fourteen (14) calendar days from the date of issuance unless an appeal is filed by a parent or adult student or the decision specifies a different implementation date. An appeal to civil court must be filed within forty-two (42) calendar days from the date of issuance of the hearing officer's decision. (7-1-21)T

h. During the hearing the education agency shall provide reasonable accommodations as required by federal and state regulations. Disputes concerning reasonable accommodations shall be referred to the U.S. Department of Education's Americans with Disabilities Act (ADA) Committee for resolution. (7-1-21)T

i. During the pendency of any due process hearing or civil appeal the child's educational placement shall be determined by the Individuals with Disabilities Education Act "stay put" requirements. (7-1-21)T

j. A parent or adult student has the right to an independent educational evaluation (IEE) at public expense if the parent or adult student disagrees with an evaluation obtained by the education agency. Whenever an IEE is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, shall be the same as the criteria the education agency uses when it initiates an evaluation, to the extent those criteria are consistent with the parent or adult student's right to an IEE. If an education agency has cost as one (1) of the criteria the education agency uses when it initiates an evaluation, the education agency may apply that criteria to independent educational evaluations. However, the parent or adult student has the right to demonstrate that unique circumstances justify an IEE that falls outside the education agency's cost criteria,

and if so demonstrated, that IEE shall be publicly funded. A due process hearing may be initiated by the education agency to determine if the evaluation conducted by the education agency is appropriate. If the final decision of a hearing officer, or civil court, if the hearing officer's decision is appealed, is that the evaluation conducted by the education agency is appropriate, the parent or adult student still has the right to an independent educational evaluation, but not at the education agency's expense. (7-1-21)T

k. Student records shall be managed in accordance with IDEA and Family and Educational Rights and Privacy Act regulations governing security, confidentiality, access, maintenance, destruction, inspection and amendment. (7-1-21)T

06. Assistive Technology Devices. Education agencies may hold a parent liable for the replacement or repair of an assistive technology device that is purchased or otherwise procured by the education agency if it is lost, stolen, or damaged due to negligence or misuse at home or in another setting outside of school time. (7-1-21)T

07. Diplomas and Graduation. School districts shall use a regular diploma for students who are eligible for special education at the completion of their secondary program. The transcript serves as a record of individual accomplishments, achievements, and courses completed. A modified or differentiated diploma or certificate may not be used for students who are eligible for special education unless the same diploma or certificate is granted to students without disabilities. If a student is not granted a regular high school diploma or if a regular high school diploma is granted for completing requirements that are not comparable to regular graduation requirements, a student who is eligible for special education is entitled to receive a free appropriate public education through the semester in which the student turns twenty-one (21) years of age or until the student completes requirements that are comparable to regular graduation requirements, whichever comes first. (7-1-21)T

08. Special Education Advisory Panel. The State Superintendent of Public Instruction shall appoint members to serve on the Special Education Advisory Panel. Panel members shall elect annually an individual to serve a one (1) year term as vice-chair followed by a one (1) year term as chair. (7-1-21)T

110. ALTERNATIVE SECONDARY PROGRAMS.

Alternative secondary programs are those that provide special instructional courses and offer special services to eligible at-risk youth to enable them to earn a high school diploma. Designated differences must be established between the alternative school programs and the regular secondary school programs. Alternative secondary school programs will include course offerings, teacher/pupil ratios and evidence of teaching strategies that are clearly designed to serve at-risk youth, pursuant to Section 33-1001, Idaho Code. (7-1-21)T

01. Instruction. Special instruction courses for at-risk youth enrolled in an alternative secondary program will include: (7-1-21)T

a. Core academic content that meets or exceeds minimum state standards; (7-1-21)T

b. A physical fitness and personal health component; (7-1-21)T

c. Career and technical education component approved by the state division of career technical education; (7-1-21)T

d. A personal finance, parenting, and child care component; and (7-1-21)T

e. A personal and career counseling component. (7-1-21)T

02. Graduation Credit. Graduation credit may be earned in the following areas: academic subjects, electives, and approved work-based learning experiences. Nonacademic courses, i.e., classroom and office aides do not qualify for credit unless they are approved work-based learning experiences. (7-1-21)T

03. Special Services. Special services for at-risk youth enrolled in alternative secondary programs include the following where appropriate: (7-1-21)T

a. A day care center when enrollees are also parents. This center should be staffed by a qualified child care provider. (7-1-21)T

b. Direct social services that may include officers of the court, social workers, counselors/psychologists. (7-1-21)T

c. All services in accordance with the student's Individualized Education Program. (7-1-21)T

111. ASSESSMENT IN THE PUBLIC SCHOOLS.

01. Philosophy. Acquiring the basic skills is essential to realization of full educational, vocational and personal/social development. Since Idaho schools are responsible for instruction in the basic scholastic skills, the State Board of Education has a vested interest in regularly surveying student skill acquisition as an index of the effectiveness of the educational program. This information can best be secured through objective assessment of student growth. The State Board of Education will provide oversight for all components of the comprehensive assessment program. (7-1-21)T

02. Purposes. The purpose of assessment in the public schools is to: (7-1-21)T

a. Measure and improve student achievement; (7-1-21)T

b. Assist classroom teachers in designing lessons; (7-1-21)T

c. Identify areas needing intervention and remediation, and acceleration; (7-1-21)T

d. Assist school districts in evaluating local curriculum and instructional practices in order to make needed curriculum adjustments; (7-1-21)T

e. Inform parents and guardians of their child's progress; (7-1-21)T

f. Provide comparative local, state and national data regarding the achievement of students in essential skill areas; (7-1-21)T

g. Identify performance trends in student achievement across grade levels tested and student growth over time; and (7-1-21)T

h. Help determine technical assistance/consultation priorities for the State Department of Education. (7-1-21)T

03. Content. The comprehensive assessment program will consist of multiple assessments, including, the Idaho Reading Indicator (IRI), the National Assessment of Educational Progress (NAEP), the Idaho English Language Assessment, the Idaho Standards Achievement Tests (ISAT), the Idaho Alternate Assessment, and a college entrance exam. (7-1-21)T

04. Testing Population. All students in Idaho public schools, grades kindergarten through twelve (K-12), are required to participate in the comprehensive assessment program approved by the State Board of Education and funded. (7-1-21)T

a. All students who are eligible for special education shall participate in the statewide assessment program. (7-1-21)T

b. Each student's individualized education program team shall determine whether the student shall participate in the regular assessment without accommodations, the regular assessment with accommodations or adaptations, or whether the student qualifies for and shall participate in the alternate assessment. (7-1-21)T

c. Limited English Proficient (LEP) students, as defined in Subsection 112.05.g.iv., may receive designated supports or accommodations, or both, for the ISAT assessment if need has been indicated by the LEP student's Educational Learning Plan (ELP) team. The team shall outline the designated supports or accommodations, or both, in an ELP prior to the assessment administration. Designated supports or accommodations, or both, shall be familiar to the student during previous instruction and for other assessments. LEP students who are enrolled in their first year of school in the United States may take Idaho's English language assessment in lieu of the English language ISAT, but will still be required to take the ISAT (Mathematics and Science). Such LEP students will be counted as participants for the ninety-five percent (95%) participation target, as described in Subsection 112.05.e. However, such LEP students are not required to be counted for accountability purposes as described in Subsection 112.05.i. (7-1-21)T

05. Scoring and Report Formats. Scores will be provided for each subject area assessed and reported in standard scores, benchmark scores, or holistic scores. Test results will be presented in a class list report of student scores, building/district summaries, content area criterion reports by skill, disaggregated group reports, and pressure sensitive labels as appropriate. Information about the number of students who are eligible for special education who participate in regular and alternate assessments, and their performance results, shall be included in reports to the public if it is statistically sound to do so and would not disclose performance results identifiable to individual students. (7-1-21)T

a. All students taking the Idaho Standards Achievement Test (ISAT) must have a unique student identifier. (7-1-21)T

b. Districts must send all assessment results and related communication to parents within three (3) weeks of receipt from the state. (7-1-21)T

06. Comprehensive Assessment Program. The State approved comprehensive assessment program is outlined in Subsections 111.06.a. through 111.06.n. Each assessment will be comprehensive of and aligned to the Idaho State Content Standards it is intended to assess. In addition, districts are responsible for writing and implementing assessments in those standards not assessed by the state assessment program. (7-1-21)T

a. Kindergarten - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

b. Grade 1 - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

c. Grade 2 - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

d. Grade 3 - Idaho Reading Indicator, Grade 3 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

e. Grade 4 - National Assessment of Educational Progress, Grade 4 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

f. Grade 5 - Grade 5 Idaho Standards Achievement Tests in English language usage, mathematics, and science; Idaho Alternate Assessment; Idaho English Language Assessment. (7-1-21)T

g. Grade 6 - Grade 6 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

h. Grade 7 - Grade 7 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

i. Grade 8 - National Assessment of Educational Progress; Grade 8 Idaho Standards Achievement Tests in English language usage, mathematics, and science; Idaho Alternate Assessment; Idaho English Language Assessment. (7-1-21)T

j. Grade 9 - High School Idaho Standards Achievement Tests (optional at the discretion of the school district or charter school), Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

k. Grade 10 - ~~High School Idaho Standards Achievement Tests in English language usage and mathematics,~~ Idaho Alternate Assessment, Idaho English Language Assessment. (7-1-21)T

l. Grade 11 - High School Idaho Standards Achievement Test in English language usage and mathematics, science, Idaho Alternate Assessment, Idaho English Language Assessment~~, college entrance exam~~. (7-1-21)T

m. Grade 12 - National Assessment of Educational Progress, Idaho English Language Assessment. (7-1-21)T

07. Comprehensive Assessment Program Schedule. (7-1-21)T

~~**a.** The Idaho Reading Indicator will be administered in accordance with Section 33-1615, Idaho Code. (7-1-21)T~~

~~**b.** The National Assessment of Educational Progress will be administered in timeframe specified by the U.S. Department of Education. (7-1-21)T~~

c. The Idaho Standards Achievement Tests will be administered in the Spring in a time period specified by the State Board of Education. (7-1-21)T

d. The Idaho Alternate Assessment will be administered in a time period specified by the State Board of Education. (7-1-21)T

e. Idaho's English Language Assessment will be administered in a time period specified by the State Board of Education. (7-1-21)T

08. Costs Paid by the State. Costs for the following testing activities will be paid by the state: (7-1-21)T

a. All consumable and non-consumable materials needed to conduct the prescribed statewide comprehensive assessment program; (7-1-21)T

b. Statewide distribution of all assessment materials; and (7-1-21)T

c. Processing and scoring student response forms, distribution of prescribed reports for the statewide comprehensive assessment program. (7-1-21)T

09. Costs of Additional Services. Costs for any additional administrations or scoring services not included in the prescribed statewide comprehensive assessment program will be paid by the participating school districts. (7-1-21)T

~~**10. Services**. The comprehensive assessment program should be scheduled so that a minimum of instructional time is invested. Student time spent in testing will not be charged against attendance requirements. (7-1-21)T~~

11. Test Security, Validity and Reliability. (7-1-21)T

a. Test security is of the utmost importance. To ensure integrity of secure test items and protect validity and reliability of test outcomes, test security must be maintained. School districts will employ security measures in protecting statewide assessment materials from compromise. Each individual who has any opportunity to see test items must sign a state-provided confidentiality agreement, which the district must keep on file in the district for at least two (2) years. Documentation of security safeguards must be available for review by authorized state and federal personnel. (7-1-21)T

b. Any assessment used for federal reporting shall be independently reviewed for reliability, validity, and alignment with the Idaho Content Standards. (7-1-21)T

12. Demographic Information. Accurate demographic information must be submitted as required for each test to assist in interpreting test results. It may include but is not limited to race, sex, ethnicity, and special programs, (Title I, English proficiency, migrant status, special education status, gifted and talented status, and socio-economic status). (7-1-21)T

13. Dual Enrollment. For the purpose of non-public school student participation in non-academic public school activities as outlined in Section 33-203, Idaho Code, the Idaho State Board of Education recognizes the following: (7-1-21)T

a. The Idaho Standards Achievement Tests (grades 3-8 and High School). (7-1-21)T

b. A portfolio demonstrating grade level proficiency in at least five (5) of the subject areas listed in Subsections 111.13.b.i. through 111.13.b.vi. Portfolios are to be judged and confirmed by a committee comprised of at least one (1) teacher from each subject area presented in the portfolio and the building principal at the school where dual enrollment is desired. (7-1-21)T

i. Language Arts/Communications. (7-1-21)T

ii. Math. (7-1-21)T

iii. Science. (7-1-21)T

iv. Social Studies. (7-1-21)T

v. Health. (7-1-21)T

vi. Humanities. (7-1-21)T

112. ACCOUNTABILITY

.

School district, charter district and public charter school accountability will be based on multiple measures aimed at providing meaningful data showing progress toward interim and long-term goals set by the State Board of Education for student achievement and school improvement. The state accountability framework will be used to meet both state and federal school accountability requirements and will be broken up by school category and include measures of student academic achievement and school quality as determined by the State Board of Education. (7-1-21)T

01. School Category. (7-1-21)T

a. Kindergarten through grade eight (K-8): Schools in this category include elementary and middle schools as defined in Subsection 112.05.f. (7-1-21)T

b. High Schools, not designated as alternative high schools, as defined in Subsection 112.05.f. (7-1-21)T

c. Alternative High Schools. (7-1-21)T

02. Academic Measures by School Category. (7-1-21)T

a. K-8: (7-1-21)T

i. Idaho Standards Achievement Tests (ISAT) Proficiency. (7-1-21)T

ii. ISAT growth toward proficiency based on a trajectory model approved by the State Board of Education. (7-1-21)T

iii. ISAT proficiency gap closure. (7-1-21)T

iv. Idaho statewide reading assessment proficiency. (7-1-21)T

v. English Learners achieving English language proficiency. (7-1-21)T

vi. English Learners achieving English language growth toward proficiency. (7-1-21)T

b. High School: (7-1-21)T

i. ISAT proficiency. (7-1-21)T

ii. ISAT proficiency gap closure. (7-1-21)T

iii. English Learners achieving English language proficiency. (7-1-21)T

iv. English Learners achieving English language growth toward proficiency. (7-1-21)T

v. Four (4) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (7-1-21)T

vi. Five (5) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (7-1-21)T

c. Alternative High School: (7-1-21)T

i. ISAT proficiency. (7-1-21)T

ii. English learners achieving English language proficiency. (7-1-21)T

iii. English learners achieving English language growth towards proficiency. (7-1-21)T

iv. Four (4) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (7-1-21)T

v. Five (5) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (7-1-21)T

03. School Quality Measures by School Category. (7-1-21)T

a. K-8: (7-1-21)T

i. Students in grade 8 enrolled in pre-algebra or higher. (7-1-21)T

ii. ~~State satisfaction and engagement survey administered to parents, students, and teachers (effective starting in the 2018-2019 school year).~~Chronic Absenteeism (7-1-21)T

iii. Communication with parents on student achievement (effective starting in the 2018-2019 school year). (7-1-21)T

b. High School: (7-1-21)T

i. College and career readiness determined through a combination of students participating in advanced opportunities, earning industry recognized certification, and/or participation in recognized high school apprenticeship programs. (7-1-21)T

ii. ~~State satisfaction and engagement survey administered to parents, students, and teachers (effective starting in the 2018-2019 school year).~~Chronic Absenteeism (7-1-21)T

iii. Students in grade 9 enrolled in algebra I or higher. (7-1-21)T

iv. Communication with parents on student achievement (effective starting in the 2018-2019 school year). (7-1-21)T

c. Alternative High School: (7-1-21)T

i. Credit recovery and accumulation. (7-1-21)T

ii. College and career readiness determined through a combination of students participating in advanced opportunities, earning industry recognized certification, and/or participation in recognized high school apprenticeship programs. (7-1-21)T

iii. State satisfaction and engagement survey administered to parents, students, and teachers (effective starting in the 2018-2019 school year). (7-1-21)T

iv. Communication with parents on student achievement (effective starting in the 2018-2019 school year). (7-1-21)T

04. Reporting. Methodologies for reporting measures and determining performance will be set by the State Board of Education. (7-1-21)T

05. Annual Measurable Progress Definitions. For purposes of calculating and reporting progress, the following definitions shall be applied. (7-1-21)T

~~**a.** ISAT Student Achievement Levels. There are four (4) levels of student achievement for the ISAT: Below Basic, Basic, Proficient, and Advanced. Definitions for these levels of student achievement are adopted by reference in Section 004 of these rules. (7-1-21)T~~

~~**b.** Idaho's English Language Assessment Proficiency Levels. There are six (6) levels of language proficiency for students testing on the Idaho English Language Assessment: Level 1, Level 2, Level 3, Level 4, Level 5, and Level 6. Definitions for these levels of language proficiency are adopted by reference in Section 004 of these rules. (7-1-21)T~~

c. Annual Measurable Progress. (7-1-21)T

~~i. ISAT Proficiency is defined as the number of students scoring proficient or advanced on the spring on grade level ISAT. (7-1-21)T~~

ii. The State Department of Education will make determinations for schools and districts each year.

Results will be given to the districts at least one (1) month prior to the first day of school. (7-1-21)T

iii. The State Board of Education will set long-term goals and measurements of interim progress targets toward those goals. The baseline for determining measurable student progress will be set by the State Board of Education and shall identify the amount of growth (percentage of students reaching proficiency) required for each intermediate period. (7-1-21)T

d. Full Academic Year (continuous enrollment). (7-1-21)T

i. A student who is enrolled continuously in the same public school from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included in the calculation to determine if the school achieved progress in any statewide assessment used for determining proficiency. A student is continuously enrolled if the student has not transferred or dropped-out of the public school. Students who are serving suspensions are still considered to be enrolled students. (7-1-21)T

ii. A student who is enrolled continuously in the school district from the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the school district has achieved AYP. (7-1-21)T

iii. A student who is enrolled continuously in a public school within Idaho from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the state has achieved progress in any statewide assessment used for determining proficiency. (7-1-21)T

e. Participation Rate. (7-1-21)T

i. Failure to include ninety-five percent (95%) of all students and ninety-five percent (95%) of students in designated subgroups automatically identifies the school as not having achieved measurable progress in ISAT proficiency. The ninety-five percent (95%) determination is made by dividing the number of students assessed on the Spring ISAT by the number of students reported on the class roster file for the Spring ISAT. (7-1-21)T

(1) If a school district does not meet the ninety-five percent (95%) participation target for the current year, the participation rate can be calculated by the most current three (3) year average of participation. (7-1-21)T

(2) Students who are absent for the entire state-approved testing window because of medical reasons or are homebound are exempt from taking the ISAT if such circumstances prohibit them from participating. Students who drop out, withdraw, or are expelled prior to the beginning of the final makeup portion of the test window are considered exited from the school. (7-1-21)T

ii. For groups of ten (10) or more students, absences for the state assessment may not exceed five percent (5%) of the current enrollment or two (2) students, whichever is greater. Groups of less than ten (10) students will not have a participation determination. (7-1-21)T

f. Schools. As used in this section, schools refers to any school within a school district or charter district and public charter schools. (7-1-21)T

i. An elementary school includes a grade configuration of grades Kindergarten (K) through six (6) inclusive, or any combination thereof. (7-1-21)T

ii. A middle school is a school that does not meet the definition of an elementary school and contains grade eight (8) but does not contain grade twelve (12). (7-1-21)T

iii. A high school is any school that contains grade twelve (12). (7-1-21)T

iv. An alternative high school is any school that contains grade twelve (12) and meets the requirements of Section 110 of these rules. (7-1-21)T

v. The accountability of public schools without grades assessed by this system (i.e., K-2 schools) will be based on the third grade test scores of the students who previously attended that feeder school. (7-1-21)T

vi. A "new school" for purposes of accountability is a wholly new entity receiving annual measurable progress determinations for the first time, or a school with a significant student population change as a result of schools being combined or geographic boundaries changing, or a result of successful school restructuring sanctioned by the Office of the State Board of Education. (7-1-21)T

g. Subgroups. Scores on the ISAT must be disaggregated and reported by the following subgroups: (7-1-21)T

i. Race/Ethnicity - Black/African American, Asian, Native Hawaiian/Pacific Islander, White, Hispanic/Latino Ethnicity, American Indian/Alaska Native. (7-1-21)T

ii. Economically disadvantaged - identified through the free and reduced lunch program. (7-1-21)T

iii. Students with disabilities - individuals who are eligible to receive special education services through the Individuals with Disabilities Education Act (IDEA). (7-1-21)T

iv. Limited English Proficient - individuals who do not score proficient on the state-approved language proficiency test and meet one (1) of the following criteria: (7-1-21)T

(1) Individuals whose native language is a language other than English; or (7-1-21)T

(2) Individuals who come from environments where a language other than English is dominant; or (7-1-21)T

(3) Individuals who are American Indian and Alaskan natives and who come from environments where a language other than English has had a significant impact on their level of English language proficiency, and who, by reason thereof, have sufficient difficulty speaking, reading, writing, or understanding the English language to deny such individuals the opportunity to learn successfully in classrooms, where the language of instruction is English. (7-1-21)T

h. Graduation Rate. The graduation rate will be based on the rate of the cohort of students entering grade nine (9) during the same academic year and attending or exiting the school within a four (4) year or five (5) year period as applicable to the measure being determined. In determining the graduation cohort the school year shall include the students who complete graduation requirements prior to the start of the school district or charter schools next fall term. School districts may only report students as having graduated if the student has met, at a minimum, the state graduation requirements, pursuant to Section 105, and will not be returning to the school in following years to complete required academic course work. The State Board of Education will establish a target for graduation. All high schools must meet the target or make sufficient progress toward the target each year, as determined by the State Board of Education. The graduation rate will be disaggregated by the subgroups listed in Subsection 112.05.g. (7-1-21)T

i. Additional Academic Indicator. The State Board of Education will establish a target for all additional academic and school quality measures. All schools must maintain or make progress toward the additional academic and school quality measure target each year. The additional academic and school quality measure targets will be disaggregated by the subpopulations listed in Subsection 112.05.g. (7-1-21)T

113. (RESERVED)

114. FAILURE TO MEET ANNUAL MEASURABLE PROGRESS.

01. Accountability Measures and Timelines. Accountability measures and timelines will be determined by the state board of education for school districts and schools who fail to meet annual measurable progress. (7-1-21)T

02. Compliance with Federal Law. All schools and local educational agencies in this state shall comply with applicable federal laws governing specific federal grants. (7-1-21)T

a. With respect to schools and local educational agencies in this state that receive federal grants under title I of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act of 2015 (Title I schools), the State Department of Education shall develop procedures for approval by the State Board of Education, consistent with federal law, that describe actions to be taken by local educational agencies and schools in this state in regard to schools that fail to meet interim and long-term progress goals. (7-1-21)T

b. With respect to schools and local educational agencies in this state that do not receive federal grants under Title I of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act of 2015, such non-Title I schools and local educational agencies shall be required to comply with federal law and state requirements with the procedures relating to failure to meet interim and long-term progress goals as provided in Subsection 114.02.a. of this rule, as if they were Title I schools, except that any provisions relating to the use of federal grants to pay for such expenses shall not be applicable to such non-Title I schools and local educational agencies. In such event, non-title I schools shall be required to fund such compliance costs from general operating funds. (7-1-21)T

03. State Department of Education. With respect to the implementation of duties and responsibilities described under Title I of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act of 2015, that are applicable to a state educational agency, the State Department of Education shall perform such duties and responsibilities delegated by the State Board of Education, including, but not limited to, making technical assistance available to local educational agencies that fail to meet interim and long-term goals, and for providing technical assistance, developing improvement plans, and providing for mandatory corrective actions to local educational agencies as required under federal law and state law. (7-1-21)T

~~**115. DATA COLLECTION.**~~

~~The State Department of Education will collect the required information from participating school files for state and federal reporting and decision-making. The enrollment collection will contain information about the enrollment of the student attributes such as unique student identifier, active special education, Limited English Proficient (LEP), migrant, grade level, gender, race, and free/reduced lunch status. The collection will be done in accordance with the reporting requirements established in Chapter 10, Title 33, Idaho Code, or as needed for state and federal accountability purposes. Each participating school is required to verify and assure the accuracy of the data submitted in the files. (7-1-21)T~~

~~**01. State Data System**. In accordance with the provisions of Section 33-133, Idaho Code, the following data elements will be added to the state data system: (7-1-21)T~~

~~**a.** Grade Point Average (GPA); and (7-1-21)T~~

~~**b.** Chronic Absenteeism. (7-1-21)T~~

~~**116. UNIQUE STUDENT IDENTIFIER.**~~

~~**01. Assignment**. Effective April 1, 2009, each student enrolled or enrolling in an Idaho school district or LEA will be assigned a unique student identifier. The unique student identifier shall follow the student from each school district or LEA or upon return to a school district or LEA after an absence from a school district or LEA no matter how long of absence has occurred. (7-1-21)T~~

~~**a.** School districts must obtain unique student identifiers by providing the following information to the~~

~~State Department of Education for each student: (7-1-21)T~~

~~i. First and last name as written on a legal document such as birth certificate, passport, visa, social security card, or other such legal document. (7-1-21)T~~

~~ii. Date of birth. (7-1-21)T~~

~~iii. Ethnicity. (7-1-21)T~~

~~iv. Gender. (7-1-21)T~~

~~**b.** School districts or LEAs may provide any or all of the following additional information to help ensure unique identification such as: (7-1-21)T~~

~~i. Birth mother's first and last name. (7-1-21)T~~

~~ii. Parents' or guardians' first and last name(s). (7-1-21)T~~

~~iii. Social security number. (7-1-21)T~~

~~iv. County of birth. (7-1-21)T~~

117. (RESERVED)

118. HOME SCHOOL.

Any student not attending a public or private school within the state of Idaho may, as an alternative, receive educational instruction in a home school setting at the direction of the student's parent or guardian. A home schooled student is required to receive such instruction in subjects commonly and usually taught in the public schools of the state of Idaho. (7-1-21)T

119. -- 128. (RESERVED)

~~129. COMMUNICATION.~~

~~**01. Communication Skills Emphasis.** Communication skills enabling students to be responsible citizens of their homes, schools and communities will be emphasized throughout the curriculum. The teaching and demonstrating of effective communication skills will be exemplified throughout the kindergarten through twelve (K-12) system. (7-1-21)T~~

~~**02. Age-Appropriate Classroom, School, and Community Activities.** Each year, age-appropriate classroom, school and community activities will be provided to all students for the purpose of developing written and oral communication skills with individuals and groups. Good listening skills are a critical component of the communication process. (Section 33-1612, Idaho Code) (7-1-21)T~~

~~130. TECHNOLOGY.~~

~~Throughout the kindergarten through twelve (K-12) system, technology will be integral to curriculum, instruction and assessment. (Section 33-1612, Idaho Code). Technology moves communication to a new dimension. The kindergarten through twelve (K-12) system must lay the foundation for students to be able to participate comfortably in an increasingly technological society. Classroom activities will include instruction using multi-media, distance learning and other technologies. (7-1-21)T~~

~~**01. Distance Learning Settings.** In distance learning settings, districts will provide for: (7-1-21)T~~

~~**a.** Adequate student contact with a teacher or paraprofessional during instructional process. (7-1-21)T~~

~~**b.** Ready access for answering student questions. (7-1-21)T~~

~~**c.** Adequate teacher time to provide students with feedback on assignments and questions. (7-1-21)T~~

~~**02. Cooperative Instructional Initiatives**. Cooperative instructional initiatives from post-secondary institutions among districts and other sources are encouraged. Local school districts will be responsible for the quality of the programs offered and will assure that all state standards are met. (7-1-21)T~~

131. -- 139. (RESERVED)

140. WORKFORCE SKILLS.

01. Academic Skill Development. All students will be provided the opportunity to develop their academic skills (i.e., reading, language arts and communication, mathematics, science, social studies) and to develop the skills necessary for entering the workforce, including self-management skills (i.e., ability to plan, self-discipline, respect for authority, ongoing skill improvement), individual and teamwork skills (i.e., personal initiative, working with others), thinking/information skills (i.e., reasoning, problem solving, acquiring and using information) and vocational-technical skills based on the standards of the industry as approved by the State Board of Vocational Education. (7-1-21)T

02. Other Skill Development. Recognizing that students may or may not be active in the workforce, the State Board believes all students should be provided the opportunity to become contributing community and family members. This instruction includes homemaking skills (i.e., nutrition, child development, resource management); balancing work and family responsibilities; and entrepreneurial skills. (7-1-21)T

03. Work-Based Learning Experiences. Work-based learning experiences may be provided as part of the instruction in the school. For students to receive credit, these experiences will include: training plans, training agreements, approved work sites, and supervision by appropriately certificated personnel. If work-based learning experiences are selected, they will be included in the Parent Approved Student Learning Plans. Instruction will be organized to facilitate a successful transition into the workforce and further education. (7-1-21)T

141. -- 149. (RESERVED)

~~**150. BASIC VALUES.**~~
~~Honesty, self-discipline, unselfishness, respect for authority and the central importance of work are emphasized. (See Section 33-1612) (7-1-21)T~~

151. -- 159. (RESERVED)

160. SAFE ENVIRONMENT AND DISCIPLINE.
Each school district will have a comprehensive districtwide policy and procedure encompassing the following:

School Climate
Discipline
Student Health
Violence Prevention
Possessing Weapons on Campus
Substance Abuse - Tobacco, Alcohol, and Other Drugs
Suicide Prevention
Student Harassment

Drug-free School Zones
Building Safety including Evacuation Drills
Relationship Abuse and Sexual Assault Prevention and Response

Districts will conduct an annual review of these policies and procedures. (See Section 33-1612) (7-1-21)T

161. -- 169. (RESERVED)

~~**170. CITIZENSHIP.**~~
~~Schools will provide instruction and activities necessary for students to acquire the skills to enable them to be responsible citizens in their homes, schools, communities, state and nation. (Section 33-1612, Idaho Code) (7-1-21)T~~

171. GIFTED AND TALENTED PROGRAMS.

01. Definitions. The following definitions apply only to Section 171 of these rules. (7-1-21)T

a. Gifted/talented children. Those students who are identified as possessing demonstrated or potential abilities that give evidence of high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts and who require services or activities not ordinarily provided by the school in order to fully develop such capabilities Section 33-2001, Idaho Code. (7-1-21)T

~~**b.** Governing gifted and talented educational requirements. Sections 33-201, 33-2001, 33-2003, Idaho Code. (7-1-21)T~~

~~**02. Legal Compliance**. The State Department of Education and districts shall comply with all governing gifted and talented education requirements. (7-1-21)T~~

03. District Plan. Each school district shall develop and write a plan for its gifted and talented program. The plan shall be submitted to the Department no later than October 15, 2001. The plan shall be updated and submitted every three (3) years thereafter and shall include: (7-1-21)T

a. Philosophy statement. (7-1-21)T

b. Definition of giftedness. (7-1-21)T

c. Program goals. (7-1-21)T

d. Program options. (7-1-21)T

e. Identification procedures. (7-1-21)T

f. Program evaluation. (7-1-21)T

04. Screening. The district's process for identifying gifted and talented students shall include the following steps: (7-1-21)T

a. The district shall screen all potentially gifted and talented students to ensure they have an opportunity to be considered; and (7-1-21)T

b. The district shall assess those students meeting the screening criteria and gather additional information concerning their specific aptitudes and educational needs; and (7-1-21)T

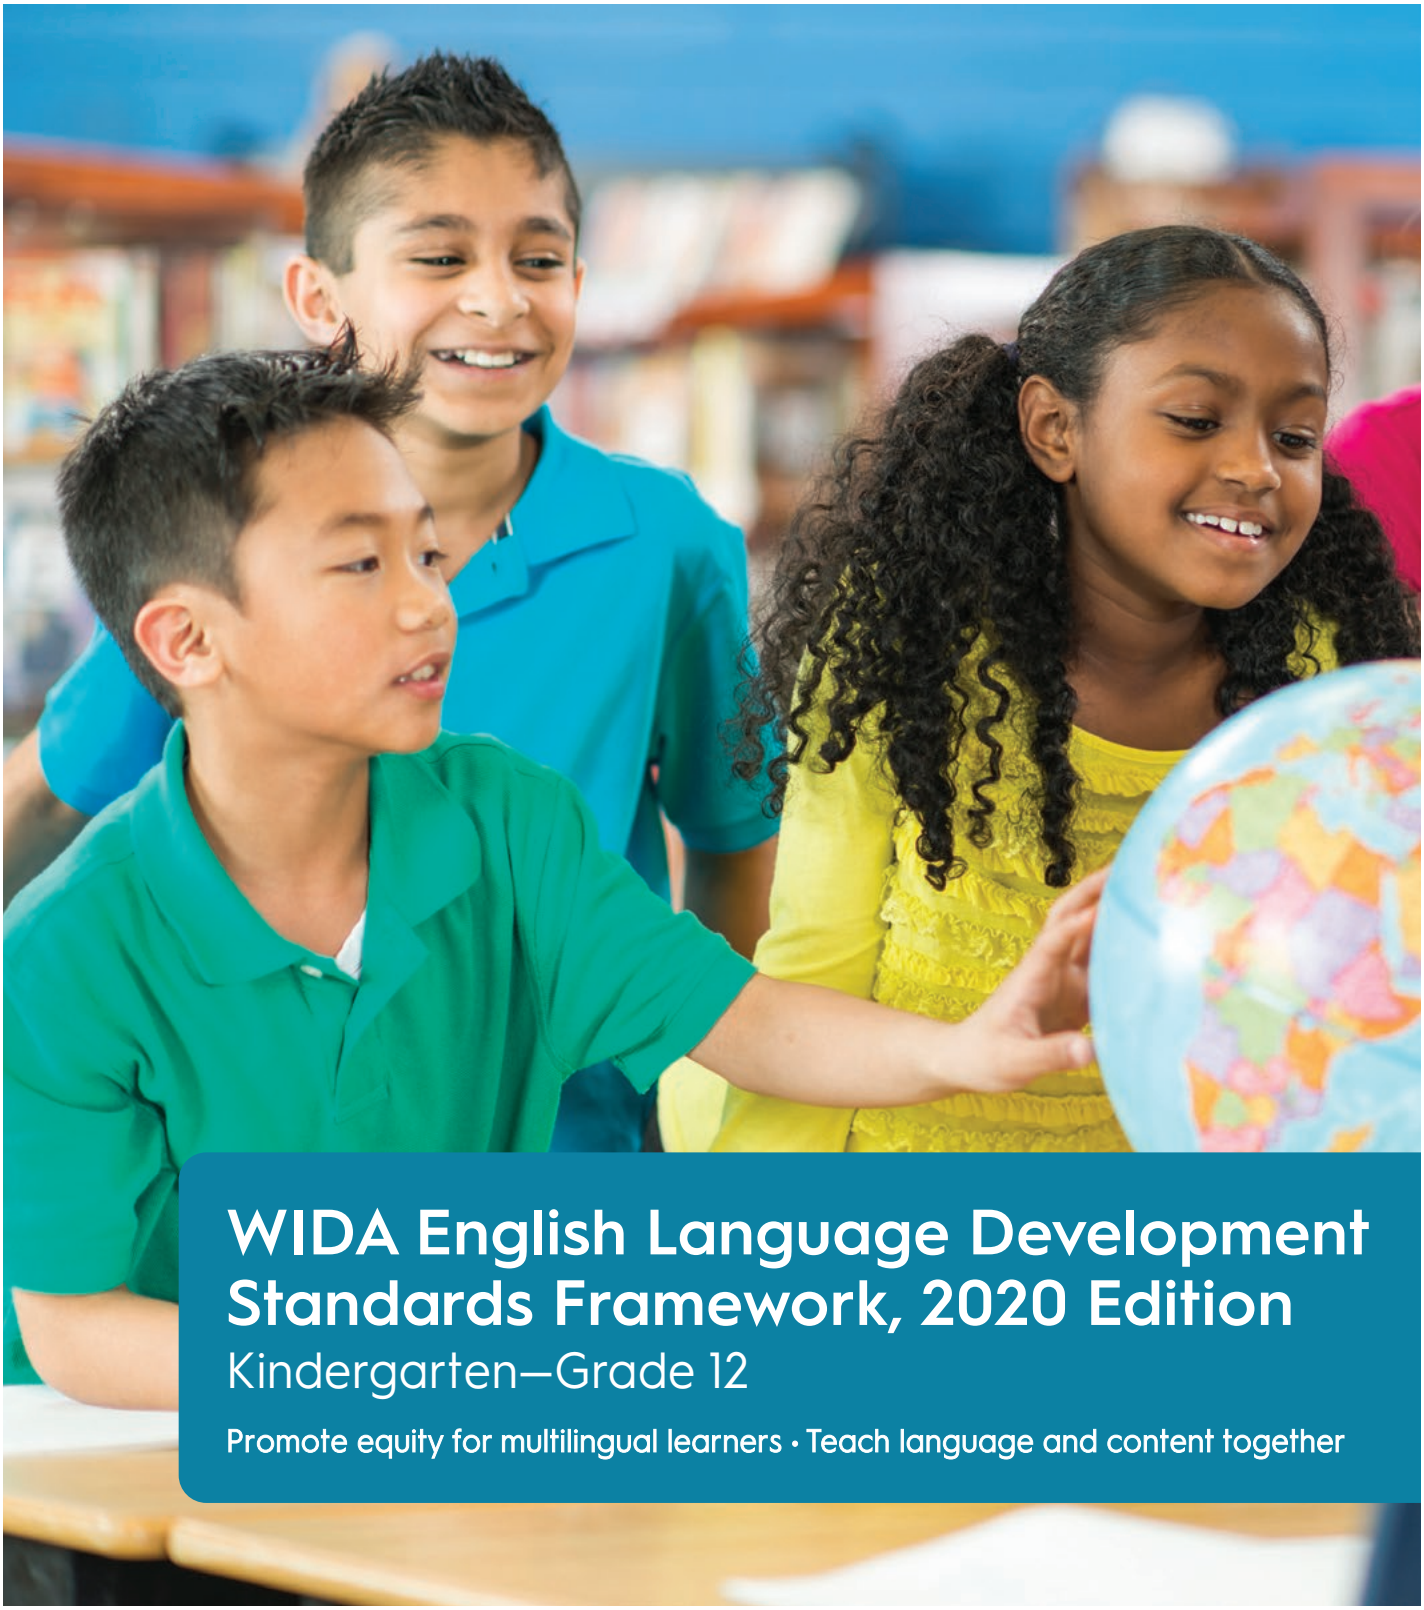
c. The district shall match student needs with appropriate program options. (7-1-21)T

05. Assessment. Placement decisions shall not be determined by a single criterion (for instance, test scores, other measurement, teacher recommendation, or nomination). The district's identification process shall use multiple indicators of giftedness with information obtained through the following methods and sources: (7-1-21)T

a. Procedures for obtaining information about students shall include formal assessment methods, such as group and individual tests of achievement, general ability, specific aptitudes and creativity. (7-1-21)T

b. Procedures for obtaining information about students shall also include informal assessment methods, such as checklists, rating scales, pupil product evaluations, observations, nominations, biographical data, questionnaires, interviews and grades. (7-1-21)T

c. Information about students shall be obtained from multiple sources, such as teachers, counselors, peers, parents, community members, subject area experts, and the students themselves. (7-1-21)T



~~**06. Administration**. The district shall designate a certificated staff person to be responsible for development, supervision, and implementation of the gifted and talented program. (7-1-21)T~~

172. -- 199. (RESERVED)

200. K-12 IDAHO CONTENT STANDARDS.
As stated in Subsection 105.02 of these Thoroughness rules, all students graduating from Idaho public high schools must meet locally established content standards. The standards set forth in Section 004 of this rule are state content standards that shall be the minimum standards used by every school district in the state in order to establish a level of academic content necessary to graduate from Idaho's public schools. Each school district may set standards more rigorous than these state content standards but no district shall use any standards less rigorous than those set forth in these Thoroughness rules. (7-1-21)T

201. -- 999. (RESERVED)

Introduction

Welcome to the WIDA English Language Development Standards Framework, 2020 Edition

WIDA has historically grounded its work in language development standards as a driver of equity for multilingual learners in curriculum, instruction, and assessment. This new edition reflects a continued commitment to these goals.

Starting in 2004, all editions of the WIDA English Language Development (ELD) Standards have reflected the belief that multilingual learners are best served when they learn content and language together in linguistically and culturally sustaining ways. The 2020 Edition recommits to this belief by maintaining the five original WIDA ELD Standards Statements while adding new and expanded resources to address updates in policy, theory, and practice.

Table 1-1: WIDA ELD Standards Statements

WIDA ELD Standards Statements
English Language Development Standard 1: English language learners communicate for **Social and Instructional** purposes within the school setting
English Language Development Standard 2: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Language Arts**
English Language Development Standard 3: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Mathematics**
English Language Development Standard 4: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Science**
English Language Development Standard 5: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Social Studies**

The 2020 Edition presents a new supporting organization for the WIDA ELD Standard Statements, along with additional resources, as shown in Table 1-2.

Table 1-2: Organization of the WIDA ELD Standards Framework, 2020 Edition

Section 1: Big Ideas	• Equity of access and opportunity are essential for multilingual learners' preparation for college, career, and civic participation • Integration of language and content is critical in the planning and delivery of instruction • Collaboration among stakeholders is a shared responsibility for educating multilingual learners • A functional approach to language development focuses on the purposeful use of language
Section 2: Understanding the WIDA ELD Standards Framework	• The five WIDA ELD Standards Statements—conceptual framing of language and content integration • Key Language Uses—prominent language uses across disciplines • Language Expectations—goals for content-driven language learning • Proficiency Level Descriptors—a continuum of language development
Section 3: Grade-Level Cluster Materials	• Representations of the WIDA ELD Standards Framework in sets of grade-level cluster materials • Annotated Language Samples illustrate the WIDA ELD Standards Framework in authentic grade-level texts
Section 4: Resources	• Key Language Uses: A Closer Look—extended definitions and examples for each Key Language Use • Collaborative Planning for Content and Language Integration: A Jump-Off Point for Curricular Conversations • Glossary
Appendices	A. Meeting ESSA Requirements B. Correspondence Tables for Content and Language Standards C. A Compilation of K-12 Key Language Use Distribution Tables and Language Expectations D. A Compilation of K-12 Proficiency Level Descriptors, with Technical Notes E. High Level Comparison of WIDA ELD Standards Editions F. Theoretical Foundations G. References H. Acknowledgements

WIDA Mission, Vision, and Values

WIDA draws its strength from its mission, vision, and values—the Can Do Philosophy, innovation, service, collaboration, and social justice. This belief system underscores the cultural, social, emotional, and experiential assets of multilingual learners, their families, and educators. It acts as a unifying force that gives the consortium its strength of conviction and action throughout the PreK-12 education community.

Mission

WIDA advances academic language development and academic achievement for children and youth who are culturally and linguistically diverse through high quality standards, assessments, research, and professional learning for educators.

From English Language Learners to Multilingual Learners

Multilingual learners refers to all children and youth who are, or have been, consistently exposed to multiple languages.

As part of its asset-based belief system, WIDA uses the term "multilingual learners" to describe all students who come in contact with and/or interact in languages in addition to English on a regular basis. They include students who are commonly referred to as English language learners (ELLs), dual language learners (DLLs), newcomers, students with interrupted formal schooling (SIFE), long-term English learners (L-TELs), English learners with disabilities, gifted and talented English learners, heritage language learners, students with English as an additional language (EAL), and students who speak varieties of English or indigenous languages.

Throughout the field of K-12 education, you will encounter various terms to describe multilingual learners. For example, ESSA (2015) uses the term "English learners" (ELs). For policy purposes, the five original WIDA ELD Standards Statements (2004) maintain the term "English language learners." However, in an effort to encourage the field to use terminology that is asset-based and inclusive, WIDA began to use the term "multilingual learners." You will see this term used throughout this document, starting with the Guiding Principles of Language Development on the next page.

WIDA Guiding Principles of Language Development (2019)

The updated Guiding Principles of Language Development exemplify the overarching and ever-present WIDA Can Do Philosophy and emphasize the importance of language in learning. They highlight the four Big Ideas of the 2020 Edition.

1. Multilingual learners' languages and cultures are valuable resources to be leveraged for schooling and classroom life; leveraging these assets and challenging biases help develop multilingual learners' independence and encourage their agency in learning.
2. Multilingual learners' development of multiple languages enhances their knowledge and cultural bases, their intellectual capacities, and their flexibility in language use.
3. Multilingual learners' language development and learning occur over time through meaningful engagement in activities that are valued in their homes, schools, and communities.
4. Multilingual learners' language, social-emotional, and cognitive development are inter-related processes that contribute to their success in school and beyond.
5. Multilingual learners use and develop language when opportunities for learning take into account their individual experiences, characteristics, abilities, and levels of language proficiency.
6. Multilingual learners use and develop language through activities which intentionally integrate multiple modalities, including oral, written, visual, and kinesthetic modes of communication.
7. Multilingual learners use and develop language to interpret and access information, ideas, and concepts from a variety of sources, including real-life objects, models, representations, and multimodal texts.
8. Multilingual learners draw on their metacognitive, metalinguistic, and metacultural awareness to develop effectiveness in language use.
9. Multilingual learners use their full linguistic repertoire, including translanguaging practices, to enrich their language development and learning.
10. Multilingual learners use and develop language to interpret and present different perspectives, build awareness of relationships, and affirm their identities.

Audiences and Potential Uses of the WIDA ELD Standards Framework, 2020 Edition

The 2020 Edition of the WIDA ELD Standards Framework is designed for U.S. and international audiences. Table 1-3 outlines an array of uses for the document. While you will notice some overlap, we have placed emphasis on the distinct nature and responsibilities of each group and its contribution to the education of multilingual learners.

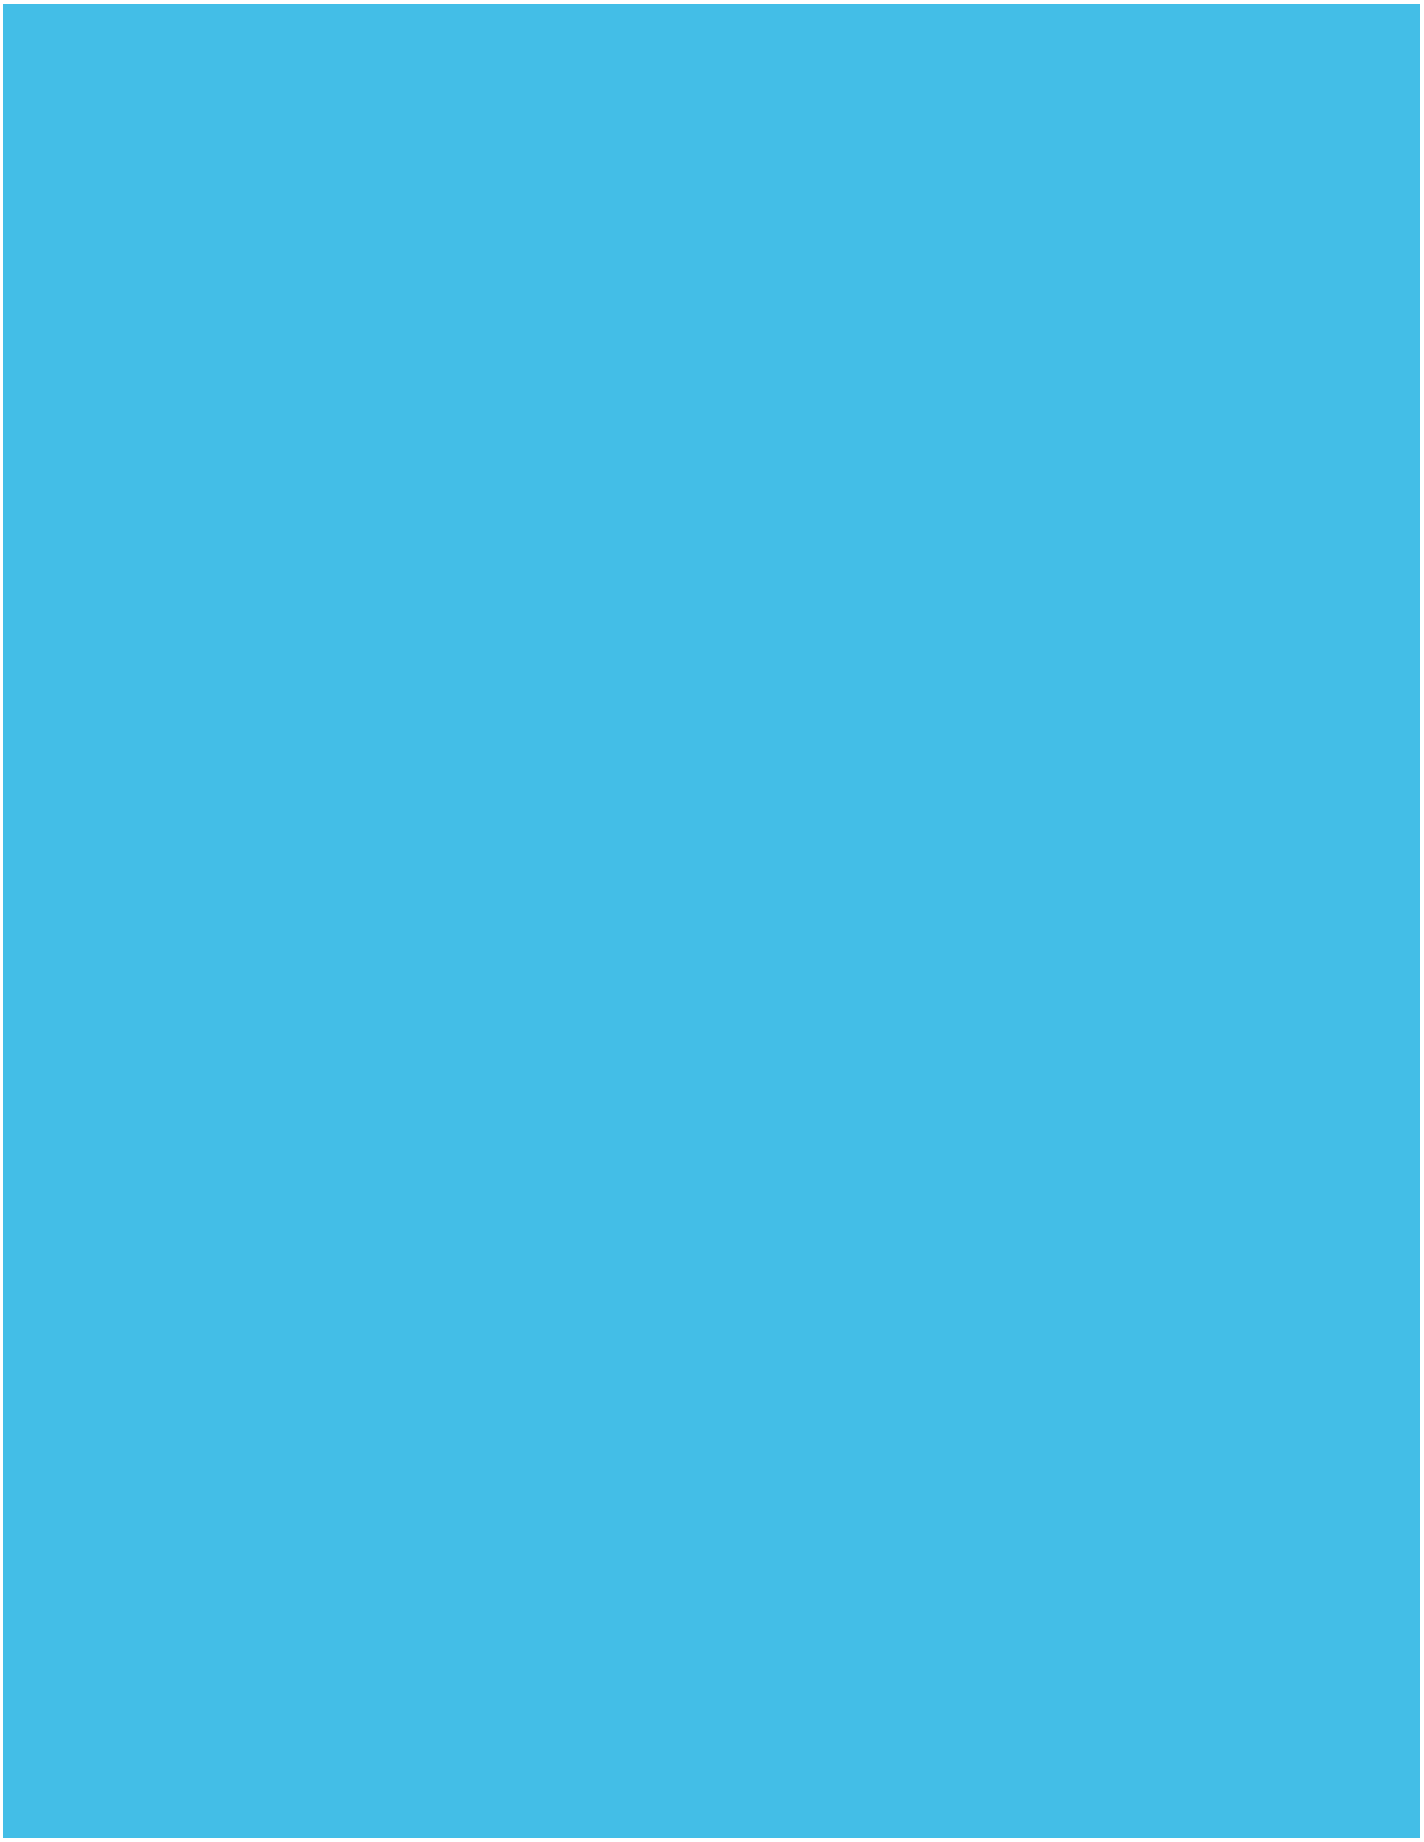

Table 1-3: Audience and Potential Uses of the WIDA ELD Standards Framework, 2020 Edition

Audience	Potential Uses of the WIDA ELD Standards Framework, 2020 Edition
State, Territory, and Federal Education Agencies, known as SEAs	• Comply with federal policy, including peer review requirements, and other state mandates • Ensure alignment with ACCESS for ELLs, the WIDA annual English language proficiency assessment • Guide state policy, informational documents, and resources inclusive of equity for multilingual learners and their families • Organize professional learning opportunities for educators of multilingual learners
District and School Leaders	• Guide local policy, informational documents, and resources • Guide professional learning • Work with teachers, other school leaders, and families to provide guidance on language development • Support teachers in designing and enacting linguistically and culturally sustainable curriculum, instruction, and assessment • Promote collaboration among district and school leadership, content and language teachers, specialists, support staff, students, and families • Prompt coordination of services for multilingual learners and outreach to families • Forge partnerships with multilingual communities
Teachers	• Collaborate with colleagues around integration of content and language • Partner to coordinate learning for multilingual learners • Model products, projects, and performances to illustrate evidence of meeting learning expectations • Monitor multilingual learners' language growth • Provide standards-referenced feedback to students and families

Audience	Potential Uses of the WIDA ELD Standards Framework, 2020 Edition
Teacher Educators and Professional Learning Providers	• Integrate into courses for pre-service teachers, in-service teachers, and administrators • Guide professional learning around asset-driven education for districts and schools • Model the process for integrating content and language in instruction and assessment • Partner in conducting classroom, school, and district research
Assessment Leaders and Test Developers	• Apply to large-scale annual and interim ELP assessment development • Use as a source for alignment and standards-setting studies • Guide in interpreting score reports and in updating interpretive and scoring rubrics • Expand framing of test specifications around Key Language Uses and Language Expectations
International Schools and Educators	• Craft a school-wide language policy • Embed language development into curriculum, instruction, and classroom assessment • Collaborate with colleagues to coordinate language services • Share with grade-level teams to create seamless learning experiences for multilingual learners
Students, Families, and Communities	• Benefit from clear learning goals that promote equity for all • Benefit from a coherent educational experience based on a standards-aligned system • Benefit from having clarity on what teachers should be teaching and what students should be learning • Understand the language development process and how the WIDA ELD Standards Framework represent the joining of grade-level academic content and language

Section 1: Big Ideas

Big Ideas of the WIDA ELD Standards Framework, 2020 Edition: Kindergarten–Grade 12

This 2020 Edition of the WIDA ELD Standards Framework is anchored by four **Big Ideas** that are interwoven throughout the document. Like the Can Do Philosophy, they support the design of standards-based educational experiences that are student-centered, culturally and linguistically sustaining, and responsive to multilingual learners' strengths and needs.

Figure 1-1: Big Ideas in the 2020 Edition

Equity of Opportunity and Access

WIDA's philosophy is rooted in equity and a commitment to supporting high-quality education for multilingual learners. This support for educational excellence is evident in WIDA's vision, mission, and values—innovation, service, the Can Do Philosophy, collaboration, and social justice. As a WIDA value, social justice includes creating positive change, challenging discriminatory actions (i.e., in terms of language, culture, and race), and promoting equity to improve the education of multilingual children, youth, and families.

Multilingual learners come from a wide range of cultural, linguistic, educational, and socioeconomic backgrounds and have many physical, social, emotional, experiential, and/or cognitive differences. All bring assets, potential, and resources to schools that educators must leverage to increase equity in standards-based systems. Increasing avenues of access, agency, and equity for all multilingual learners—including newcomers, students with interrupted formal schooling (SIFE), long-term English learners (L-TELs), students with disabilities, and gifted and talented English learners—requires educators to be knowledgeable, skillful, imaginative, and compassionate.

The 2020 Edition of the WIDA ELD Standards Framework is here to guide educators to

- Set high expectations for all students
- Provide access for multilingual learners to rich, standards-based, grade-level content, including by scaffolding up (see the WIDA website for resources about scaffolding)
- Enact linguistically and culturally sustainable pedagogies
- Create opportunities for multilingual learners to
    - engage actively with each other in deep learning
    - access and use multiple languages, including through translanguaging

When designing and delivering standards-based curriculum, instruction, and assessment, educators should consider multilingual learners'

- Previous personal and educational experiences
- Recency of arrival in the United States, if applicable
- Diverse cognitive and behavioral strengths, needs, and abilities
- Home and community
- Languages and cultures

Drawing on students' linguistic and cultural resources is essential to helping them navigate life in a diverse world, in addition to supporting them in meeting demands of academic content areas as they advance through school.

The 2020 Edition of the WIDA ELD Standards Framework upholds the goal of increasing equity for multilingual learners by providing common and visible language expectations in relation to grade-level academic content. These expectations also serve to increase coherence of policy and practice around the education of multilingual learners at federal, state, and local levels.

Integration of Content and Language

Earlier versions of the WIDA ELD Standards (2004, 2007, 2012) have historically represented the integration of content and language. The 2020 Edition makes the content-language connection more explicit and specific.

By content–language integration, we mean that multilingual learners develop content and language concurrently, with academic content as a context for language learning and language as a means for learning academic content.

The 2020 Edition introduces several new ways of looking at the integration of content and language, for example, through Key Language Uses, Language Expectations, and Correspondence Tables for Content and Language Standards (Appendix B); all these (and more) are introduced later in this document.

Multimodality, the use of multiple means of communication, is an essential way for all students to access and engage in the content areas. In addition to the use of spoken and written language, students also communicate through gestures, facial expressions, images, equations, maps, symbols, diagrams, charts, videos, graphs, computer-mediated content, and other means.

In positioning the 2020 Edition to spotlight the variety of ways in which language is used in content area learning, WIDA is drawing educators' attention to multimodality, the use of multiple means of communication. Multimodality is inherent to and essential for how students make meaning and engage in disciplinary practices. All students are able to both interpret and express ideas with greater flexibility when using multimodal resources, including multiple languages. Multimodality allows all students to use multiple means to engage, interpret, represent, act, and express their ideas in the classroom. For example, as students read, they also might refer to illustrations or diagrams, and as students write, they might also represent their ideas numerically or graphically.

The integration of content and language for multilingual learners promotes

- Understanding the connections between content and language
- Making meaning within and across content areas (disciplines)
- Interaction of students with each other in challenging content activities
- Coordination of design and delivery of curriculum, instruction, and assessment

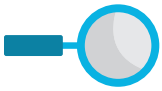
Collaboration among Stakeholders

Districts and schools are complex educational systems with collaboration extending across stakeholders from classrooms, to schools, districts, and the families and communities of students. Stakeholders have different areas of expertise and are often responsible for different aspects of educational planning and delivery; however, collectively they are responsible for the success of multilingual learners.

Collaboration among stakeholders (e.g., district and school leaders, content and language teachers, specialists, support personnel, students, families) is essential for providing multilingual learners high-quality educational experiences that are coordinated and comprehensive.

It is crucial for the academic success of multilingual learners that both language and content teachers and administrators see themselves as responsible for fostering the language development of multilingual learners, and for systems to move away from the idea that language specialists alone should assume sole responsibility for students' language development.

Although different classrooms may have different instructional foci, all classrooms with multilingual learners must incorporate content and language development. Content teachers bring expertise in their discipline, while language teachers bring expertise in language development. Each teacher can contribute to deliver coordinated educational experiences for multilingual learners according to their own qualifications and areas of expertise. With sustained collaboration, language teachers expand their understanding of different content areas, and content teachers develop insights into and respond to the language development needs of multilingual learners.



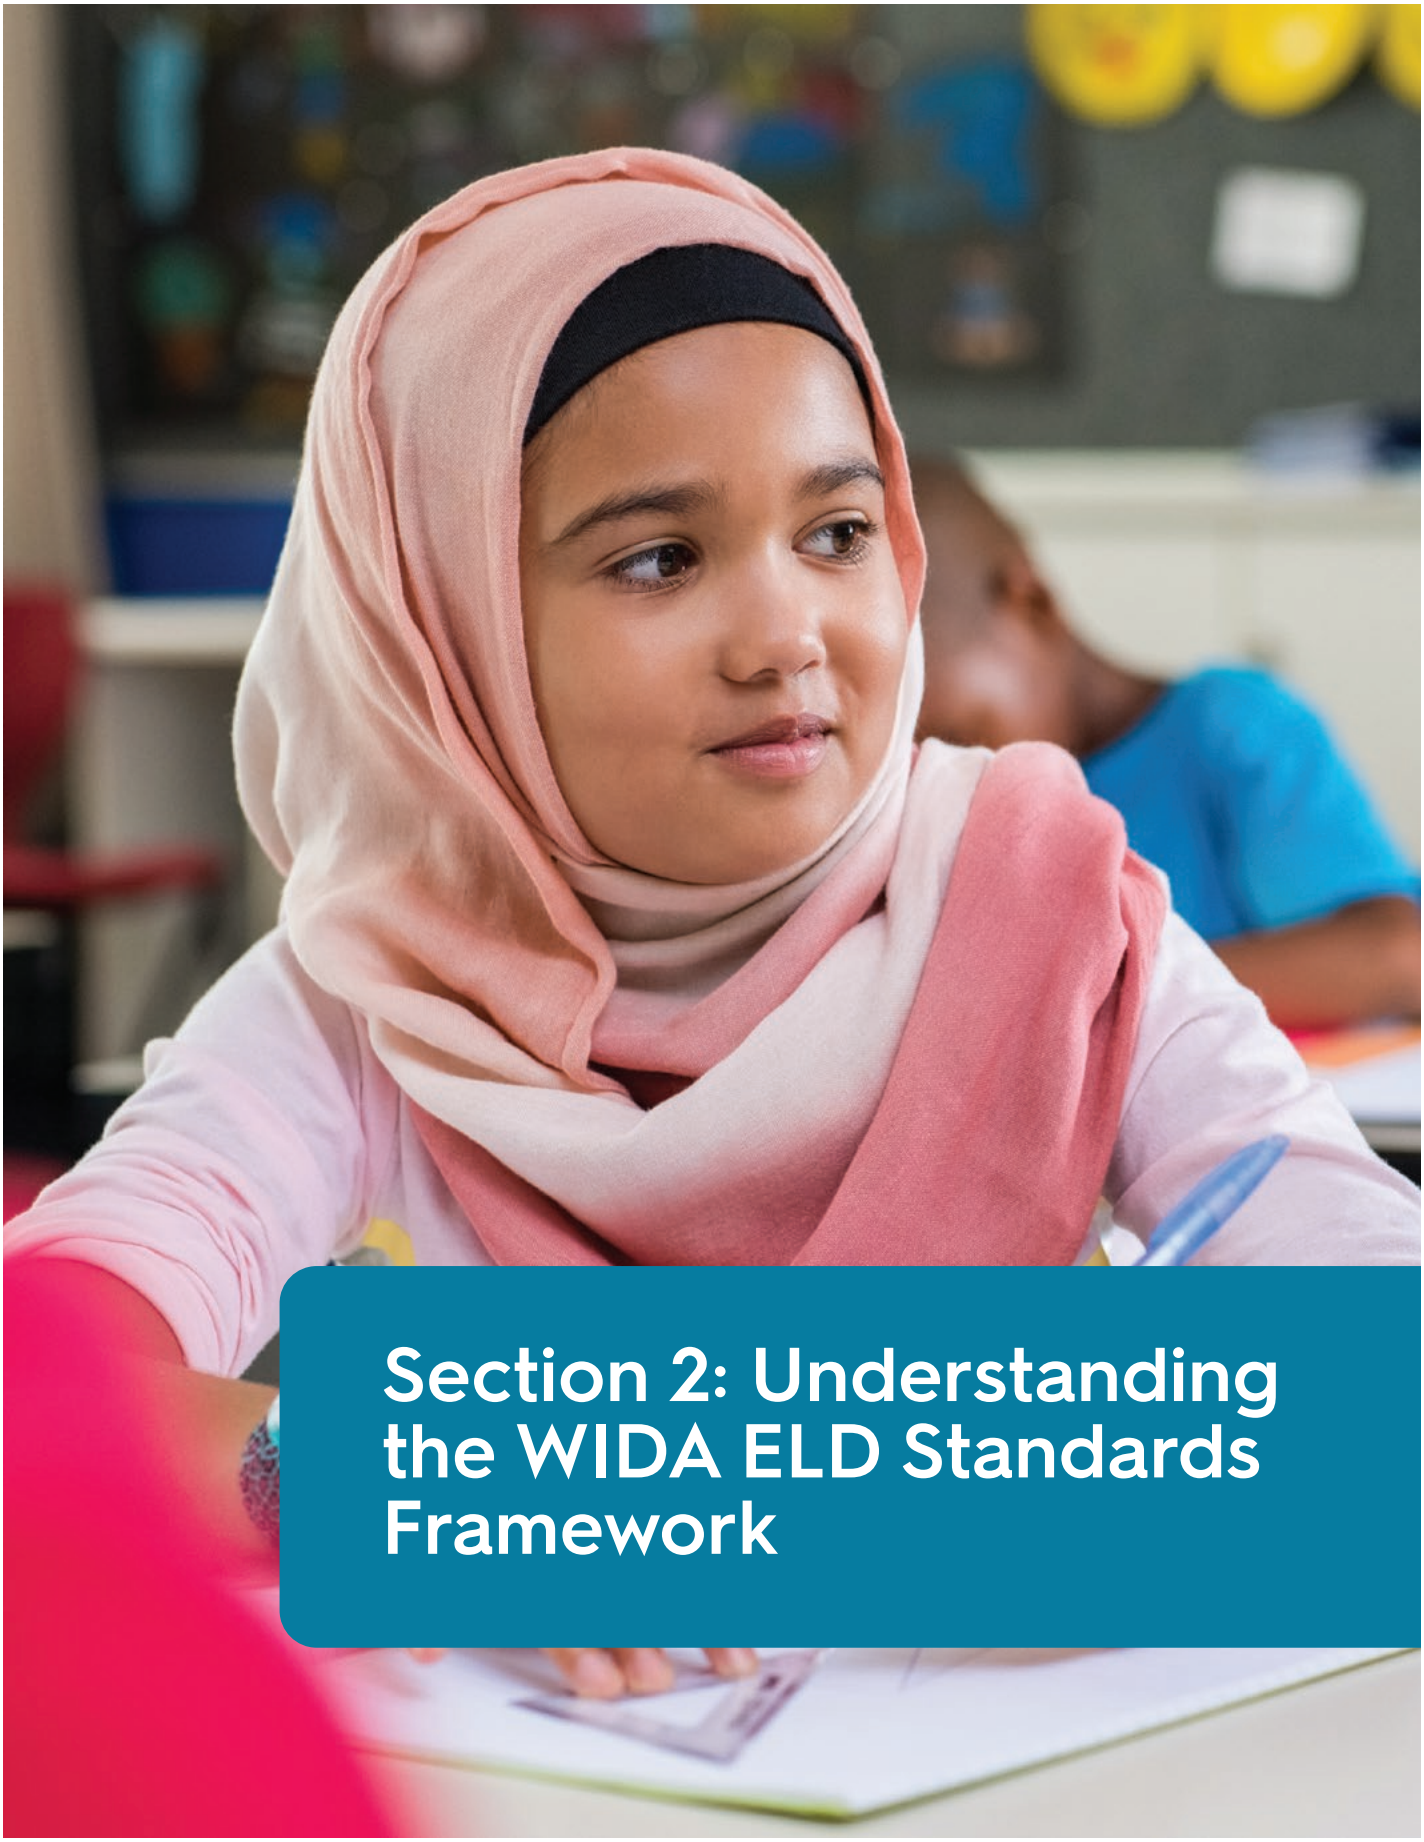
Content and language teachers can work together to

- Plan and deliver grade-level standards-based instruction
- Plan for systematic, explicit, and sustained language development alongside the academic demands of the content areas
- Support one another
- Share unique fields of expertise

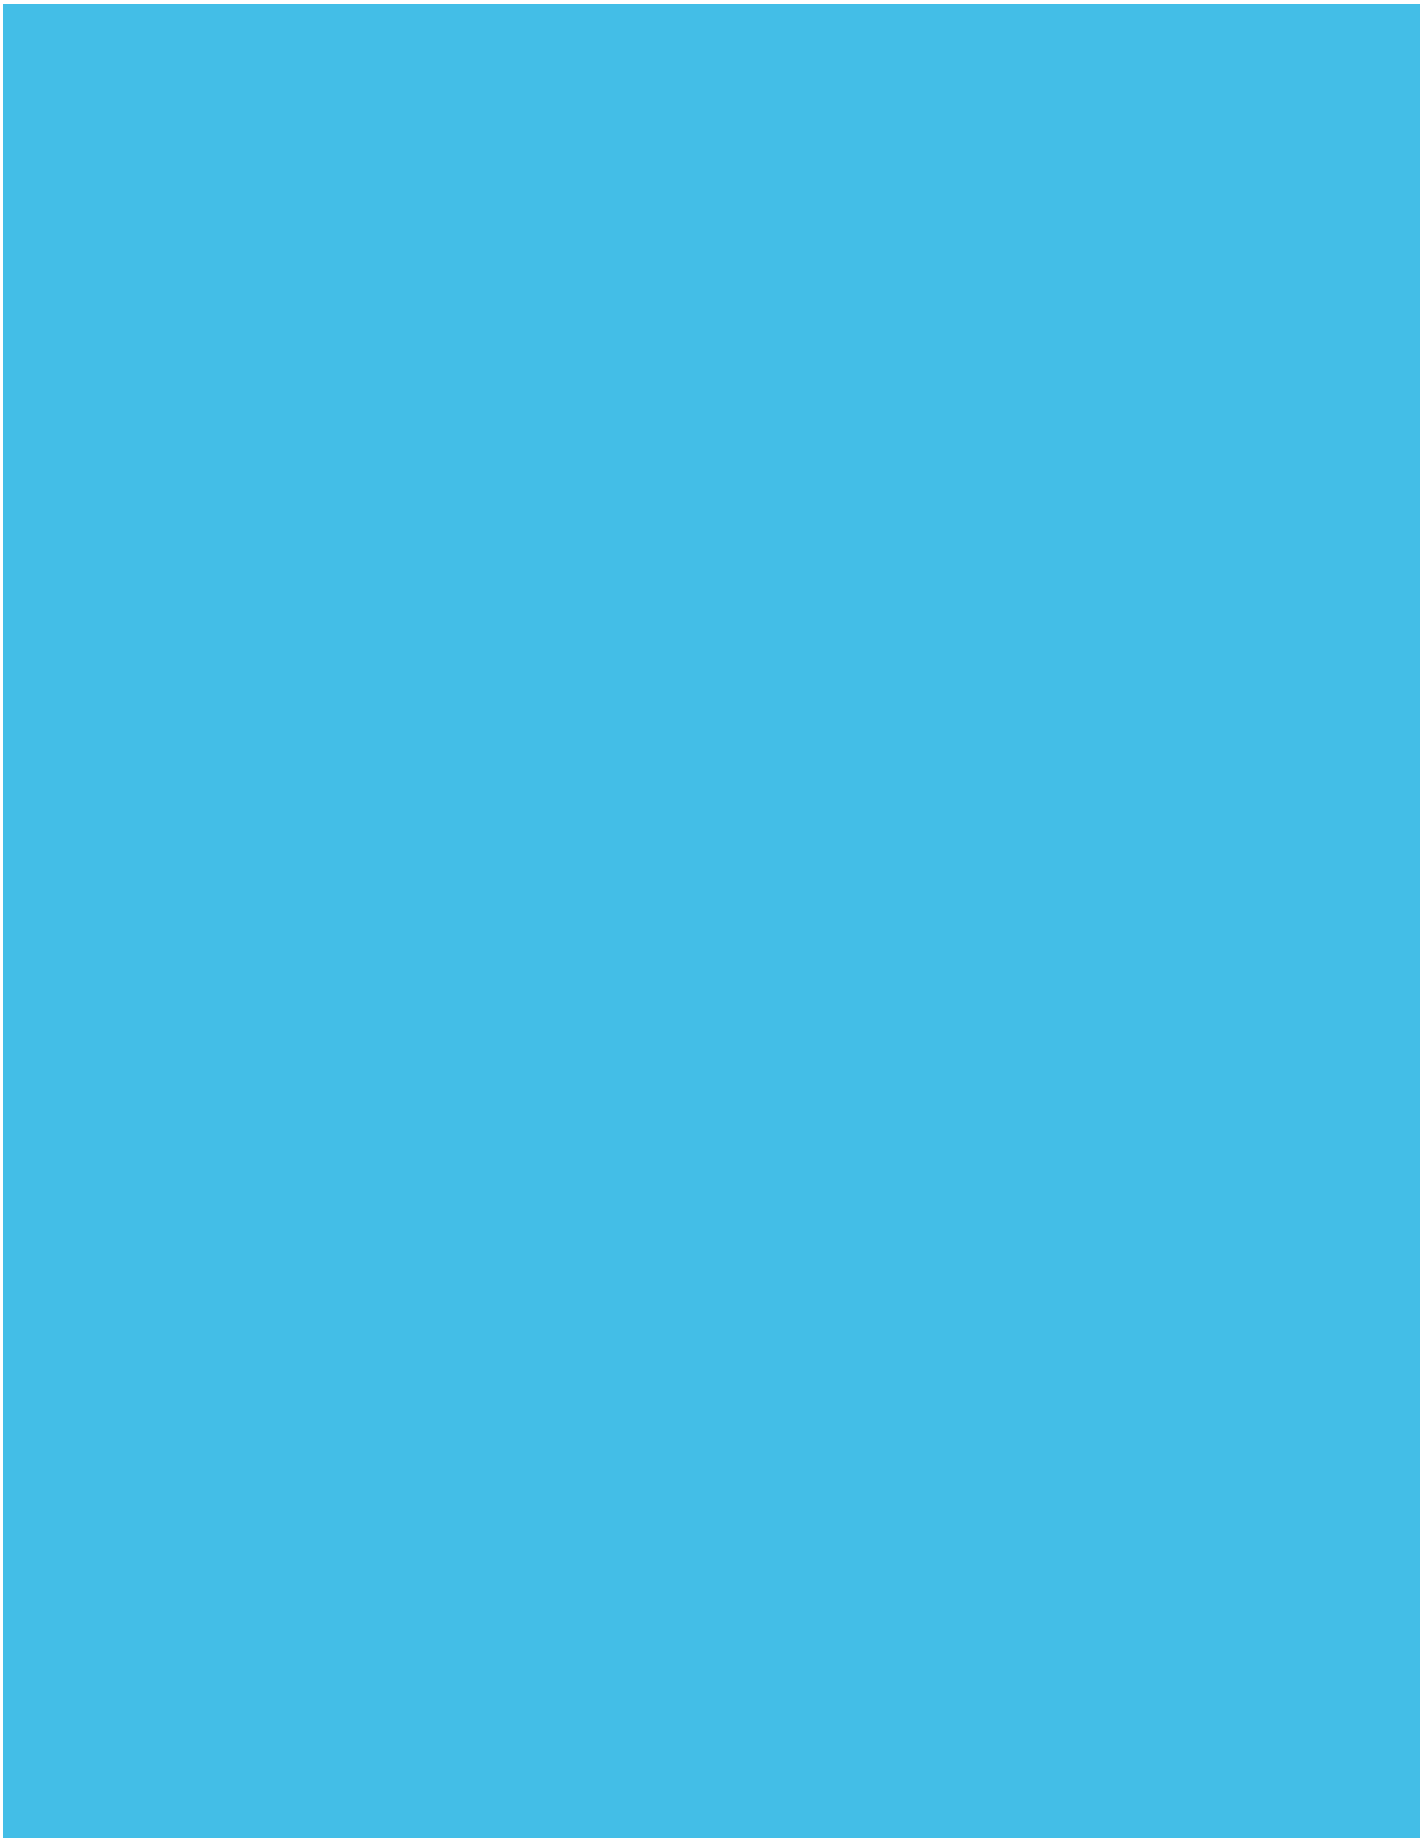
In this way, multilingual learners and their families benefit from a coherent and shared understanding of expectations and common goals for learning.

Functional Approach to Language Development

What does WIDA mean by a functional approach to language development? One metaphor for language is a toolbox, containing different tools that are used to communicate, to develop relationships, and to act upon the world. Like any good toolbox, the language toolbox contains various tools that function for different needs. Particular linguistic tools achieve certain purposes. For example, we make choices with language to reflect the topic at hand, the social roles and identities of those involved (am I talking to a college admissions interviewer or to my best friend?), and the needs of our listeners and readers. We make choices with language to organize our ideas in particular ways, to convey the relationships among these ideas, and about what types of words are most effective for our message. The explicit teaching of how language works can help multilingual learners expand what they can do with language, thereby growing their language toolbox. The result is that students become increasingly aware and strategic in their use of language to negotiate meaning and achieve their purposes in various contexts.



To read more about all these Big Ideas, see the WIDA website.



Language: a dynamic system used by particular communities for communicating with others. The choices we make with language enable us to accomplish many purposes (e.g., to represent experiences, share ideas, to enact roles and relationships, and act upon the world).

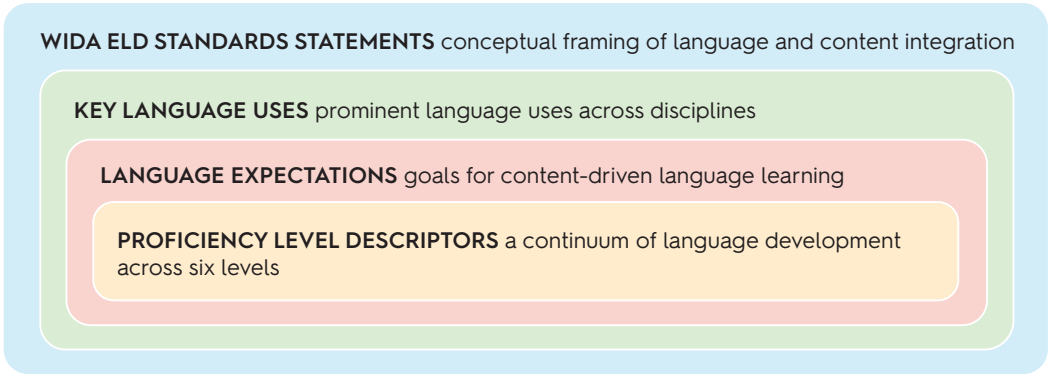
Language development: an interactive social process that occurs over time to expand what we *can do* with language.

Sociocultural context: the association of language with the culture and community in which it is used. In schools, it refers to the interaction among students and the classroom environment, along with the influences that shape the environment (e.g., purpose, topic, situation, participant's identities and social roles, audience).

Section 2: Understanding the WIDA ELD Standards Framework

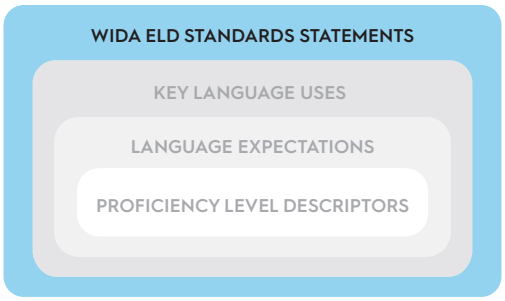
Understanding the WIDA ELD Standards Framework

Underpinned by the four Big Ideas introduced in Section 1, the WIDA ELD Standards Framework is a language development standards framework for K-12 academic settings.



Sometimes people describe a standards framework as being like a map. In the same way that a map points out common, visible landmarks, a standards framework points out common, visible expectations for all students and helps to bring coherence across educational systems. The WIDA ELD Standards Framework is like a map in that it offers language expectations as destination points, as well as road signs to set goals for curriculum, instruction, and assessment for multilingual learners.

The WIDA ELD Standards Framework consists of four components, each explored in the following pages. These four components are like building blocks of language development, and range from broad to narrow in scope. They work together to make a comprehensive picture of language development:



- **Five WIDA ELD Standards Statements** provide the broadest conceptual framing and illustrate the integration of content and language. The standards statements show language use in the service of learning—in other words, language for thinking and doing. They address the language of schooling.
- **Key Language Uses** describe prominent ways that language is used in school, across all disciplines. When educators make choices about how to integrate content and language, the Key Language Uses can help provide focus and coherence.
- **Language Expectations** set goals for content-driven language learning. They add specificity to the ELD Standards Statements and Key Language Uses and make visible the language associated with the content areas. Language Expectations are the statements most similar to what educators generally find in academic content standards.
- **Proficiency Level Descriptors** (PLDs) describe a continuum of language development for activities that target Language Expectations. They provide a detailed articulation of how students might develop language across the six levels of English language proficiency.

Figure 2-1 shows the four components of the framework conceptualized as nested building blocks of language development within sociocultural contexts.

Figure 2-1: The Components of the WIDA ELD Standards Framework

The WIDA ELD Standards Statements

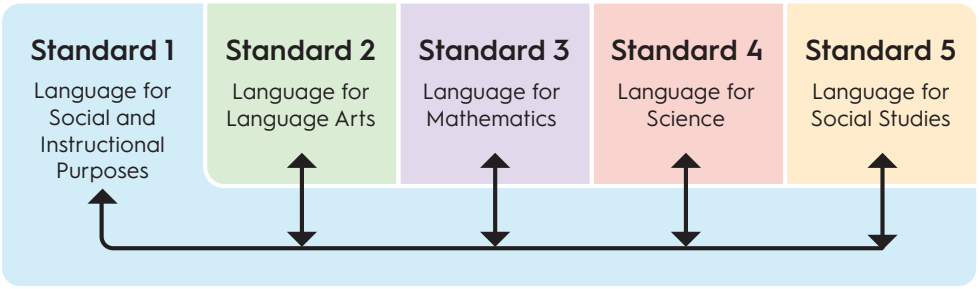
The five standards statements, introduced in Section 1, Table 1-1, represent the language of schooling and provide the broadest conceptual framing of content and language integration.

Each standard is shown in an abbreviated form in Table 2-1, below. Hence *ELD Standard 2: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of Language Arts* is abbreviated as *Language for Language Arts* and its reference code is *ELD-LA*.

Table 2-1: Abbreviated forms of the Five English Language Development Standards Statements

Abbreviated forms of the Five English Language Development Standards Statements
ELD Standard 1: Language **for** Social and Instructional Purposes (ELD-SI)
ELD Standard 2: Language **for** Language Arts (ELD-LA)
ELD Standard 3: Language **for** Mathematics (ELD-MA)
ELD Standard 4: Language **for** Science (ELD-SC)
ELD Standard 5: Language **for** Social Studies (ELD-SS)

These abbreviated forms point to WIDA's functional approach to language development, drawing attention to



- The dynamic nature of language
- Communicative purposes of the discipline or content area
- The use of language to communicate and make meaning
- Language use in the service of learning—in other words, language for thinking and doing

Standard 1

ELD Standard 1, Language for Social and Instructional Purposes, is broader in scope and applicability than the other four ELD Standards Statements that are associated with discipline-specific learning. ELD Standard 1 applies across a range of educational settings, and works both independently from and in conjunction with ELD Standards 2-5. Students communicate to learn but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.

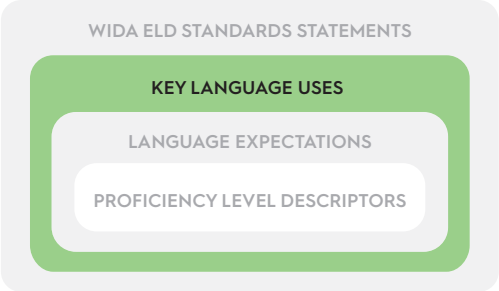
ELD Standard 1 encompasses the experiential, linguistic, and cultural backgrounds and identities of multilingual learners in relation to the other ELD Standards. It draws attention to multilingual learners' positioning in the world that informs their meaning-making in the content areas. It reminds educators of strength-based approaches that meet students where they are in their own contexts, and to bridge the personal, social, and emotional to the academic.

Figure 2-2: Relationship among the WIDA ELD Standards

Standard 1 encompasses multilingual learners' use of language in the following situations:

- **As they expand their linguistic repertoire from English language proficiency level 1 to level 6.** ELD Standard 1 is not just for newcomers and young children, and it is not a precursor to learning disciplinary language. Rather, it encompasses opportunities for multilingual learners to develop language for social and instructional purposes at all language proficiency levels, all grade levels, and in all content areas.
- **Across all disciplines and school settings**. Language for social and instructional purposes is foundational for engagement and learning in every discipline—from core disciplines like language arts and mathematics—to visual and performing arts; health and physical education; cross-disciplinary endeavors like use of technology, and library/media center time; and school-wide activities and events. Language is a part of the entire school day and all educators share responsibility for engaging multilingual learners in rich opportunities to simultaneously learn content and language.
- **Across numerous topics, tasks, and situations.** ELD Standard 1 presents Language Expectations that apply to a range of activities and interactions. Some examples include setting classroom norms; establishing routines; following procedures; asking for clarification; discussing with peers; relating personal ideas, feelings, and views; and exploring languages, cultures, and perspectives.
- **While interacting with others.** Language is, after all, a social practice that is dependent on an awareness of one's own and others' identities, as well as the unique roles and purposes that participants have in communicating with different members of a learning community—including peers, teachers, administrators, counselors, paraprofessionals, interpreters, family and community liaisons, other support staff, and visitors to the school. Interactive learning increases opportunities for multilingual learners to engage fully in content learning and leverage their assets as support for their academic achievements.

Key Language Uses



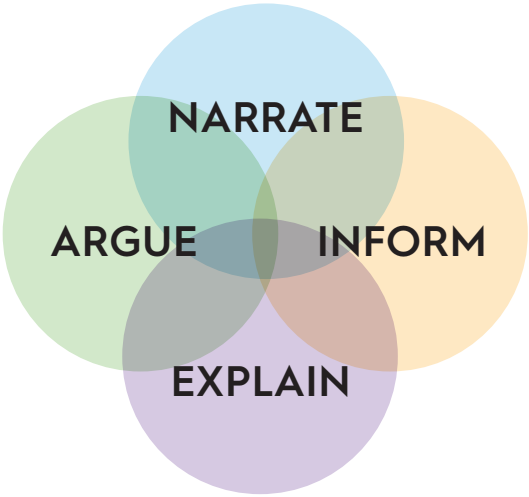


Figure 2-3: Four Key Language Uses

As part of developing the WIDA ELD Standards Framework, 2020 Edition, WIDA researchers analyzed academic content standards, research literature, and disciplinary practices. They also incorporated an understanding of genre families—categories of texts that share specific characteristics, such as purpose, organization, or other similar patterns of language use. From this research, WIDA has identified four Key Language Uses—Narrate, Inform, Explain, and Argue—that can be used to prioritize and organize the integration of content and language.[1]

Key Language Uses exemplify the Big Idea: Functional Approach to Language Development. They emphasize language use for particular purposes, with particular audiences, and in particular sociocultural contexts. They

- Bring focus and coherence to the language of schooling
- Help educators make choices to prioritize and coordinate content and language integration
- Serve as an organizing principle for the Language Expectations

WIDA recognizes that Key Language Uses are one of many different configurations for connecting content to language through standards. The increased emphasis on genre-centered pedagogy (teaching that highlights genres as a way of organizing language use) provides a natural point for collaboration between content and language educators, with Key Language Uses serving as a focus for that partnership.

Key Language Uses share some common aspects across disciplines, and yet each discipline also has unique ways of applying each. Below are brief definitions for each Key Language Use.

- **Narrate** highlights language to convey real or imaginary experiences through stories and histories. Narratives serve many purposes, including to instruct, entertain, teach, or support argumentation.
- **Inform** highlights language to provide factual information. As students convey information, they define, describe, compare, contrast, organize, categorize, or classify concepts, ideas, or phenomena.

---

1 WIDA Key Language Uses have been updated: their definition is refined in the 2020 Edition to mean genre families. "Recount" has been separated into "Narrate" and "Inform." "Discuss" is not a genre family, but it is threaded throughout all Key Language Uses and applies across all five ELD standards.

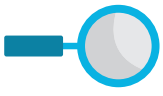
- **Explain** highlights language to give an account for how things work or why things happen. As students explain, they substantiate the inner workings of natural, man-made, and social phenomena.
- **Argue** highlights language to justify claims using evidence and reasoning. Argue can be used to advance or defend an idea or solution, change the audience's point of view, bring about action, or accept a position or evaluation of an issue.

Key Language Uses can overlap and inform each other. Key Language Uses should not be considered strict categorical divisions. As genre families, Key Language Uses can intersect, blend, and build on each other. For example, as students develop complex explanations, they may inform (by naming, defining, describing, or comparing and contrasting something), and even narrate (e.g., by including an anecdote) as they work to help their audiences accurately understand the how or why of a concept (Explain). Narratives can be embedded within other expository structures, such as those in the families of Argue and Explain. Argue can incorporate elements of many Key Language Uses, as it seeks to show an audience the validity of a position or claim.

All Key Language Uses are present across all grade levels and disciplines, and yet at each grade-level cluster and discipline, some are more prominent than others. The emphasis placed on these four Key Language Uses is not intended to restrict curriculum and instruction; rather, it accentuates the most prominent genre families as an organizing principle for the ELD Standards. **The *most prominent* Key Language Uses are the basis for its Language Expectations.**

Genres are multimodal types of texts (oral, written, visual) that recur frequently for specific purposes, with specific discourse organization and language features (e.g., biographies).

Genres with similar characteristics (e.g., biographies, autobiographies, short stories) can be grouped together into **genre families** (e.g., narrate).

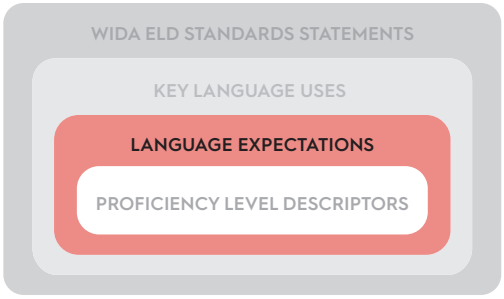


Key Language Uses reflect the most high-leverage genre families across academic content standards. They are **Narrate, Inform, Explain,** and **Argue.**

Key Language Uses can overlap and inform each other.

As genre families, Key Language Uses can intersect, blend, and build on each other.

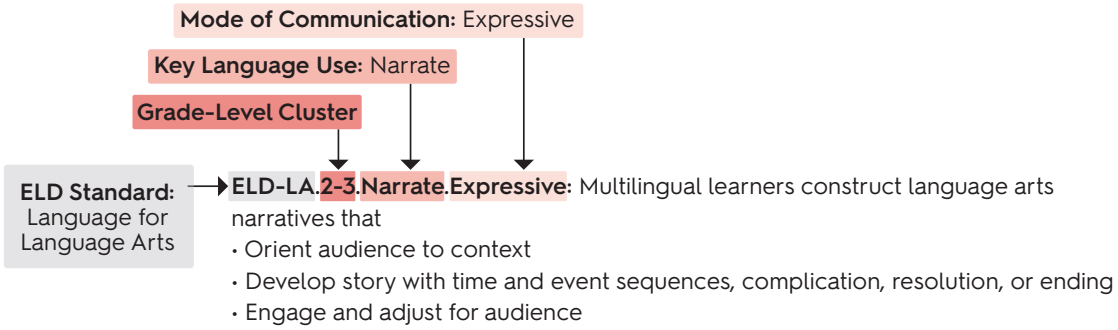
All Key Language Uses are present across all grade levels and disciplines.



The emphasis placed on these four Key Language Uses is not intended to restrict curriculum and instruction; rather it accentuates the most prominent genre families as an organizing principle for the ELD Standards.

For a deeper dive into the features of each Key Language Use across grades and disciplines, visit Section 4: Resources—Key Language Uses: A Closer Look. Appendix C shows K-12 distribution tables of the most prominent Key Language Uses by grade-level cluster and WIDA ELD Standard.

Language Expectations

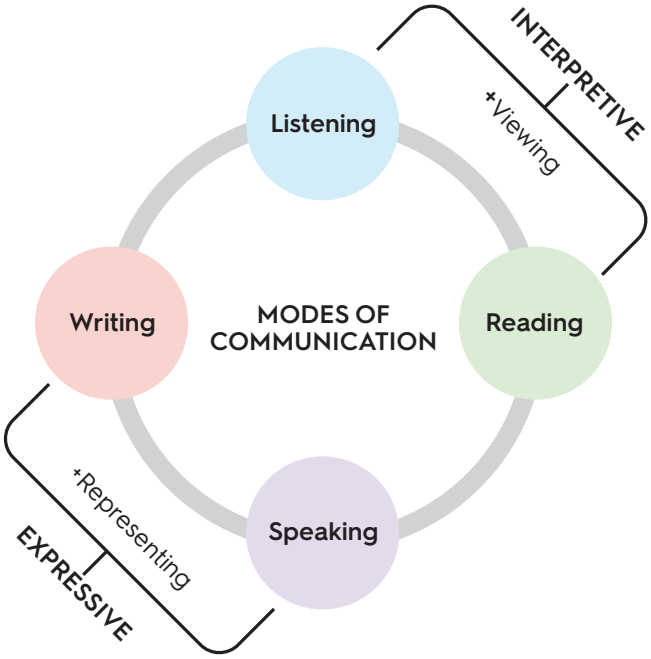


Language Expectations are goals for content-driven language instruction, adding specificity to the ELD Standards Statements and Key Language Uses. They are the statements most similar to what educators generally find in academic content standards. We'd like to call your attention to three aspects of Language Expectations: their reference codes, communication modes, Language Functions, and example Language Features.

Language Expectations: Reference Code

As illustrated in Figure 2-4, each Language Expectation has a reference code that includes the WIDA ELD Standard Statement (incorporating an academic content area), grade-level cluster, Key Language Use, and communication mode.

Figure 2-4: Example Reference Code for a Language Expectation



Language Expectations: Communication Modes

In the Language Expectations, the four individual language domains (listening, speaking, reading, and writing) are consolidated into two more inclusive modes of communication: **interpretive** and **expressive.**

- The **interpretive communication mode** encompasses listening, reading, and viewing
- The **expressive communication mode** encompasses speaking, writing, and representing

Figure 2-5: Modes of Communication

These two broader modes of communication (interpretive and expressive) increase accessibility options for students and emphasize multimodal forms of communication (namely, by adding viewing in conjunction with listening and reading as well as representing in conjunction with speaking and writing).

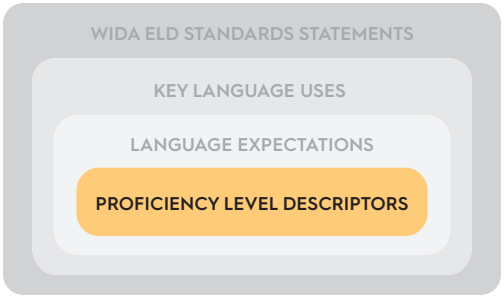
Language Expectations: Language Functions and Features

Developed from a systematic analysis of academic content standards, Language Expectations are built around a set of **Language Functions.** Language Functions are common patterns of language use that showcase particular ways students might use language to meet the purposes of schooling. For example, a series of Language Functions is associated with the process of constructing fictional narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation.

Reminder: the most *prominent* Key Language Uses are the basis for its Language Expectations.

Table 2-2 presents the Language Expectation for ELD-LA.2-3.Narrate.Expressive. It contains three Language Functions that highlight common patterns of language use associated with Language Arts narratives in grades 2-3:

- Orient audience to context
- Develop story with time and event sequences, complication, and resolution
- Engage and adjust for audience



In order to carry out particular Language Functions, language users rely on various language resources, including **Language Features** (e.g., types of sentences, clauses, phrases, and words). Together, the Language Functions and Features form a dynamic and illustrative set that shows some of the ways language works in service of content learning. Table 2-2 shows the Language Features that accompany the second Language Function from the Language Expectation ELD-LA.2-3.Narrate.Expressive.

Table 2-2: The Anatomy of a Language Expectation

Language Expectation ELD-LA.2-3.Narrate.Expressive		
Stem *Indicates interpretive or expressive mode*	**Language Function** Common patterns of language use associated with Key Language Uses (e.g., stages of the genre)	**Example Language Features** Sample language resources that carry out specific Language Functions (e.g., different types of sentences, clauses, phrases, and words)
Construct language arts narratives that…	Develop story with time and event sequences, complication, resolution, or ending through…	• Saying verbs *(yelled, said, whispered)* to add details about characters in dialogs • Verbs to describe what characters do, think, and feel • Pronouns, renaming, and synonyms to reference characters, situations, or ideas across the text *(Miguel=my little brother=he; that night=the worst night)* • Connectors to sequence time *(first, next, and then),* and events *(before, after, later)*, and to combine and link event details *(and, but, so)*

This close integration of content and language invites collaboration between content and language educators as they collectively share responsibility for teaching multilingual learners. Language development is its own field of expertise, just as each discipline is. As content and language teachers dive deeper into standards-based planning and delivery of instruction, language specialists can help content teachers learn more about Language Functions and Features. Similarly, content teachers can help language specialists connect to content learning.

Proficiency Level Descriptors

Proficiency Level Descriptors (PLDs) are a detailed articulation of multilingual learners' growth in interpretive and expressive language across levels of English language proficiency.

PLDs describe how multilingual learners use language toward the end of each language proficiency level (PL) until they reach PL6. PL6 is open ended: it indicates that for all of us, language development continues throughout life. Each end-of-level descriptor includes and builds on previous proficiency levels (e.g., PL4 = PL1 + PL2 + PL3 + PL4). Educators should scaffold learning and resources across all levels of language proficiency.

For the purposes of representation and understanding, PLDs describe proficiency in a linear way. However, language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors, including multilingual learners' familiarity with the topic, audience, and situation. Therefore, multilingual learners may take various paths to develop and reach Language Expectations.

At any given point along their continua of language development, multilingual learners may demonstrate a range of abilities within and across each proficiency level. For example, they may speak at a higher proficiency level while write at an earlier proficiency level. A proficiency level does not categorize a multilingual learner (e.g., 'a PL1 student'), but, rather, identifies snapshots of what a multilingual learner knows and can do at a particular stage of language development (e.g., 'a student at PL1' or 'a student whose listening performance is at PL1').

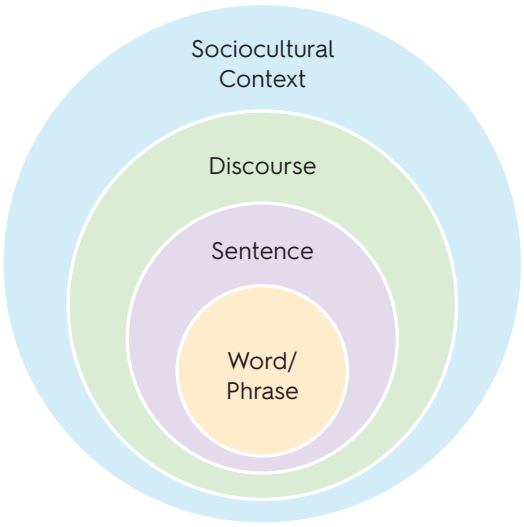
PLDs maintain consistency with the K-12 Performance Definitions of the 2012 edition of the WIDA ELD Standards. As such, the PLDs continue to be written according to the three dimensions of language use: discourse, sentence, and word/phrase.

The relationship between Language Expectations and Proficiency Level Descriptors

Language Expectations offer goals for how all students might use language to meet academic content standards.

Proficiency Level Descriptors describe how multilingual learners might develop language across levels of English language proficiency as they move toward meeting Language Expectations.

The Dimensions of Language Use



The dimensions of language use are one way to conceptualize the linguistic system within a sociocultural context. Language users make choices in all three dimensions of language that contribute to how a text is purposely constructed to have the desired effect on its intended audience(s).

The **discourse dimension** imparts overall meaning across an entire text, supported by the sentence and word/phrase dimensions. To consider how a language user constructs a meaningful message, begin by looking at the discourse dimension and the overarching message to see how language is organized to communicate particular ideas, how language holds ideas together in a text (its cohesion), and how loosely or tightly language is packed (its density).

The **sentence dimension** contributes to the grammatical complexity of a text. Language users make choices in how they express ideas and their interrelationships through clauses in various sentences types. These also help shape how a text is sequenced and connected.

The **word/phrase dimension** adds precision to communication. For example, language users strategically select everyday, cross-disciplinary, or technical language; employ multiple meanings and nuances of words and phrases; or play with their shades of meaning.

Figure 2-6: Dimensions of Language within a Sociocultural Context

Everyday language: language for representing ideas in nontechnical ways (e.g., dogs instead of canines)

Cross-disciplinary language: common academic language used across content area contexts (e.g., analyze, evaluate, summarize)

Technical language: specialized language associated with a content area such as science and history (e.g., mitosis, imperialism)

Table 2-3 updates the Features of Academic Language table (WIDA, 2014). It delineates five criteria across the three dimensions of language, framed within a sociocultural context. In addition to the dimensions and their criteria, the column to the far right presents sample features found in the PLDs.

Table 2-3: Dimensions of Language in the Proficiency Level Descriptors: Criteria Foci and Sample Language Features

The three language dimensions operate within sociocultural contexts for language use.

Dimension	Criteria	Focus on . . .	Sample Language Features
Discourse	Organization of language	How ideas are coherently organized to meet a purpose through organizational patterns characteristic of the genre	Whole text organizational patterns, such as introduction, body, conclusion; claim, evidence, reasoning
	Cohesion of language	How language connects ideas within and across sentences and discourse using a range of cohesive devices	Cohesive devices, such as repeated words, synonyms, pronoun substitution, connectors
	Density of language	How information in noun groups is expanded or consolidated	Noun groups expanded with resources, such as adjectives or other modifiers added before nouns, prepositional phrases following nouns, nominalization
Sentence	Grammatical complexity of language	How relationships are expressed with clauses through simple, compound, and complex sentences	Simple, compound, complex sentences; coordinating, subordinating conjunctions; dependent and independent clauses
Word/Phrase	Precision of language	How everyday, cross-disciplinary, and technical language more effectively conveys precise meaning	A variety of words and phrases, such as adverbials of time, manner, and place; verb types; abstract nouns

Applicable Uses of the WIDA Proficiency Level Descriptors

Below are some non-exhaustive examples of ways the PLDs may be used.

The PLDs might be used during

- Collaboration between language development and content area educators
- Professional learning activities about language development
- School team discussions about the language growth of multilingual learners
- Conversations with families in their preferred language

The PLDs might be used to

- Help design and scaffold classroom instruction and assessment tasks—as one tool among others
- Support teacher and student discussions around language performance in relation to learning goals
- Monitor progress of multilingual learners as they show language growth over time
- Evaluate evidence from student work (portfolio of speaking and writing samples) as part of the eligibility process for special services

Inapplicable Uses of the WIDA Proficiency Level Descriptors

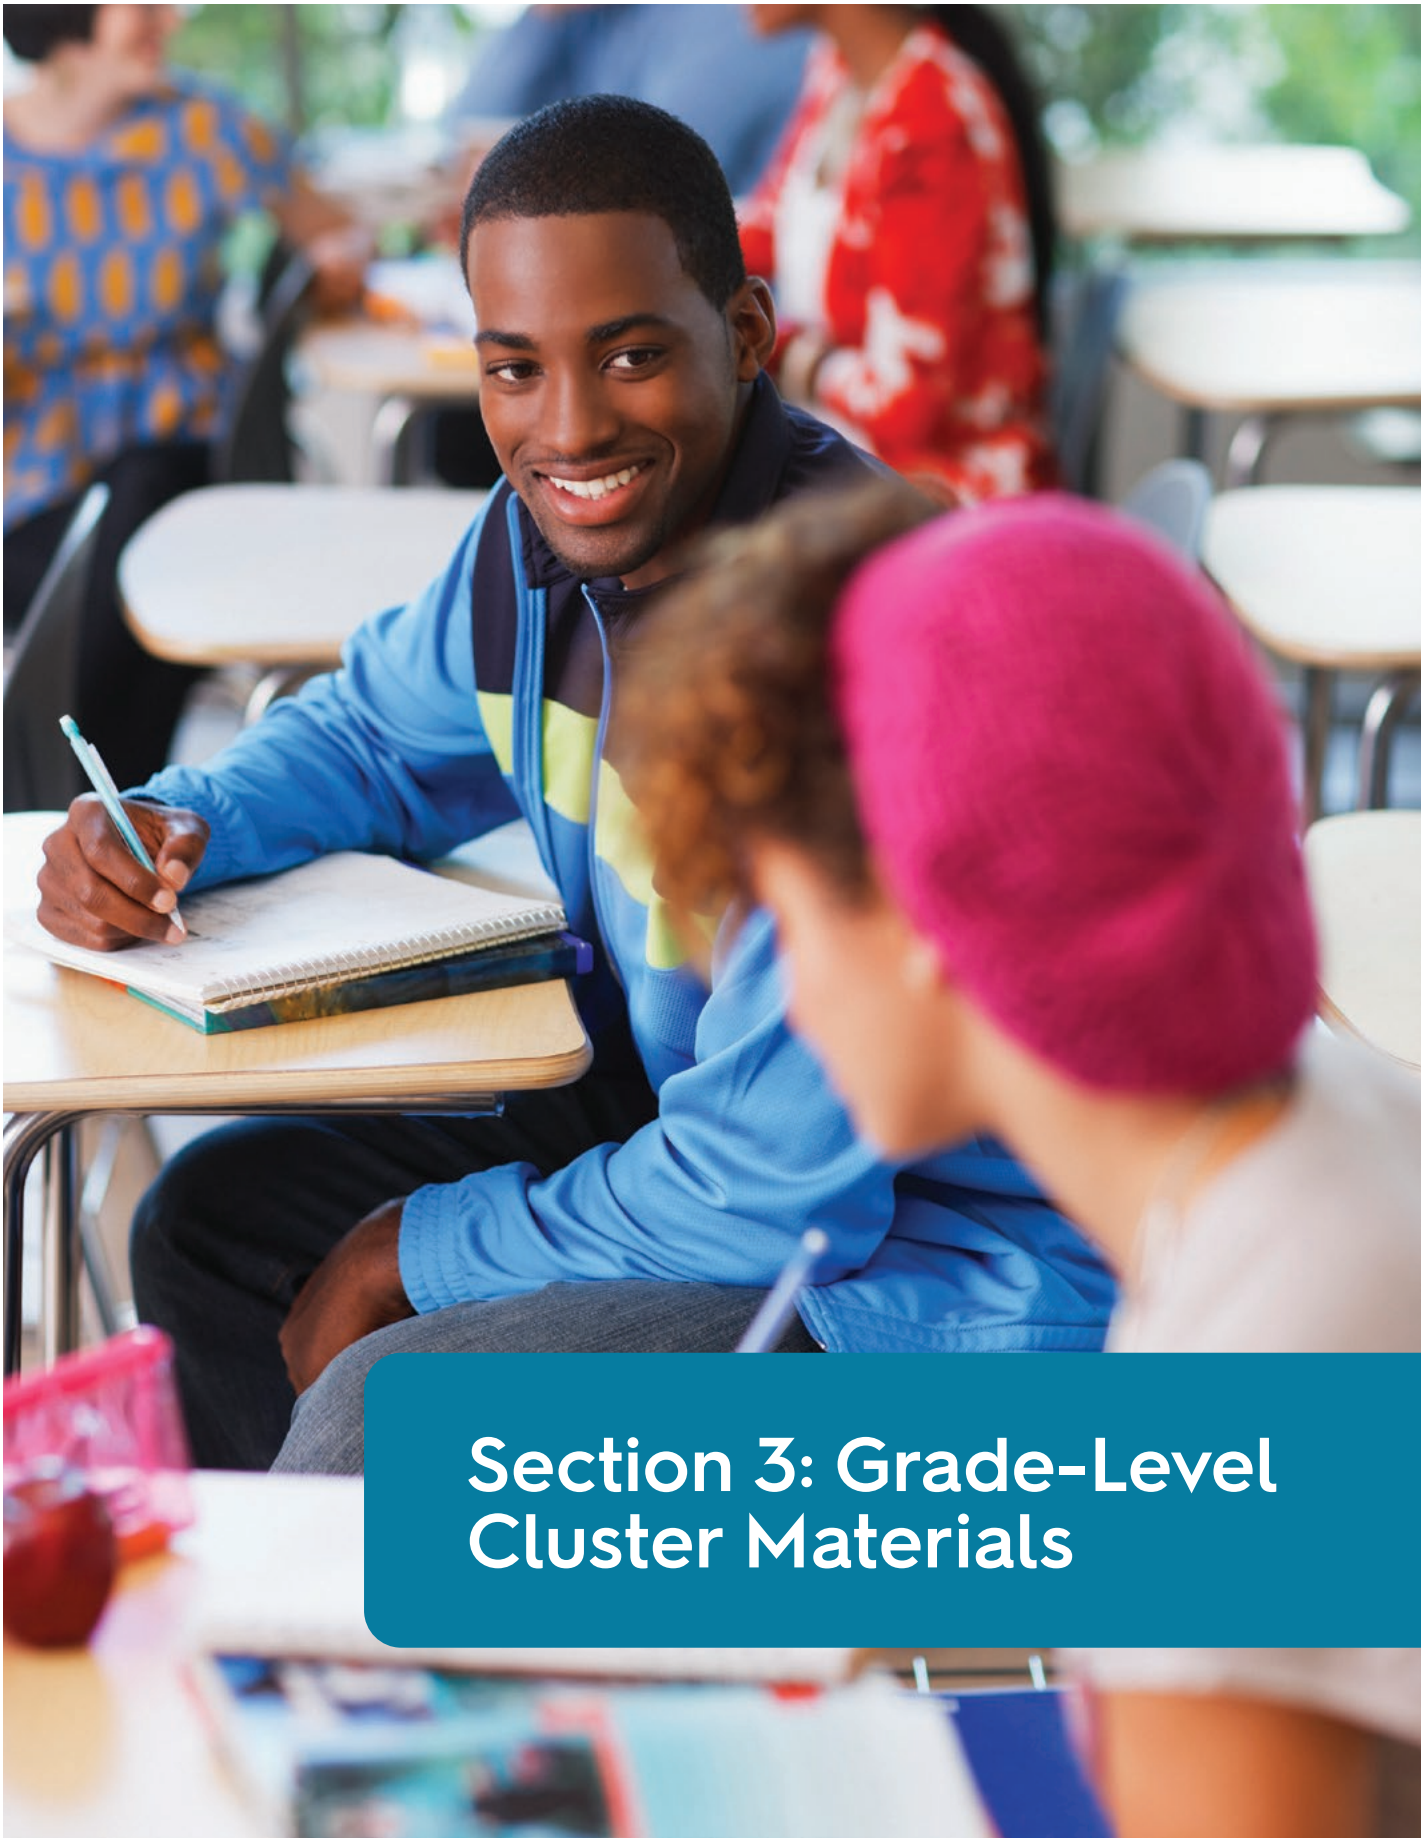
The PLDs should not be used as restrictive examples or as a finite list of student abilities. Nor should they be used to limit access to complex texts and grade-level materials, participation in rigorous learning, or engagement in meaningful classroom discussions. Finally, the grade-level cluster PLDs should not be used to lower expectations or slow student growth.

The Proficiency Level Descriptors should not be used as a sole source to define or categorize a multilingual learner or teacher.

PLDs should not be used as the single document or as the only evidence in high-stakes situations such as

- Identification for special education services; for example in trying to obtain cognitive support services solely based on a student's English language proficiency level
- Description of cognitive ability
- Identification of student readiness abilities
- Tracking for remediation or enrichment
- Grading in report cards
- Consideration for grade placement or retention
- Evaluation of teachers

The WIDA ELD Standards Framework: What It is and What It is Not



The WIDA ELD Standards Framework, together with cross-disciplinary academic content standards and disciplinary practices, defines the language multilingual learners need as they move toward college, career, and civic readiness.

The WIDA ELD Standards Framework does not—indeed, cannot—enumerate all or even most of the language of school. Use of the Standards Framework must therefore be complemented by a well-developed, content-rich curriculum and effective pedagogical approaches within an equitable educational program for multilingual learners (See Section 4: Resources—Collaborative Planning for Content and Language Integration: A Jump-Off Point for Curricular Conversations).

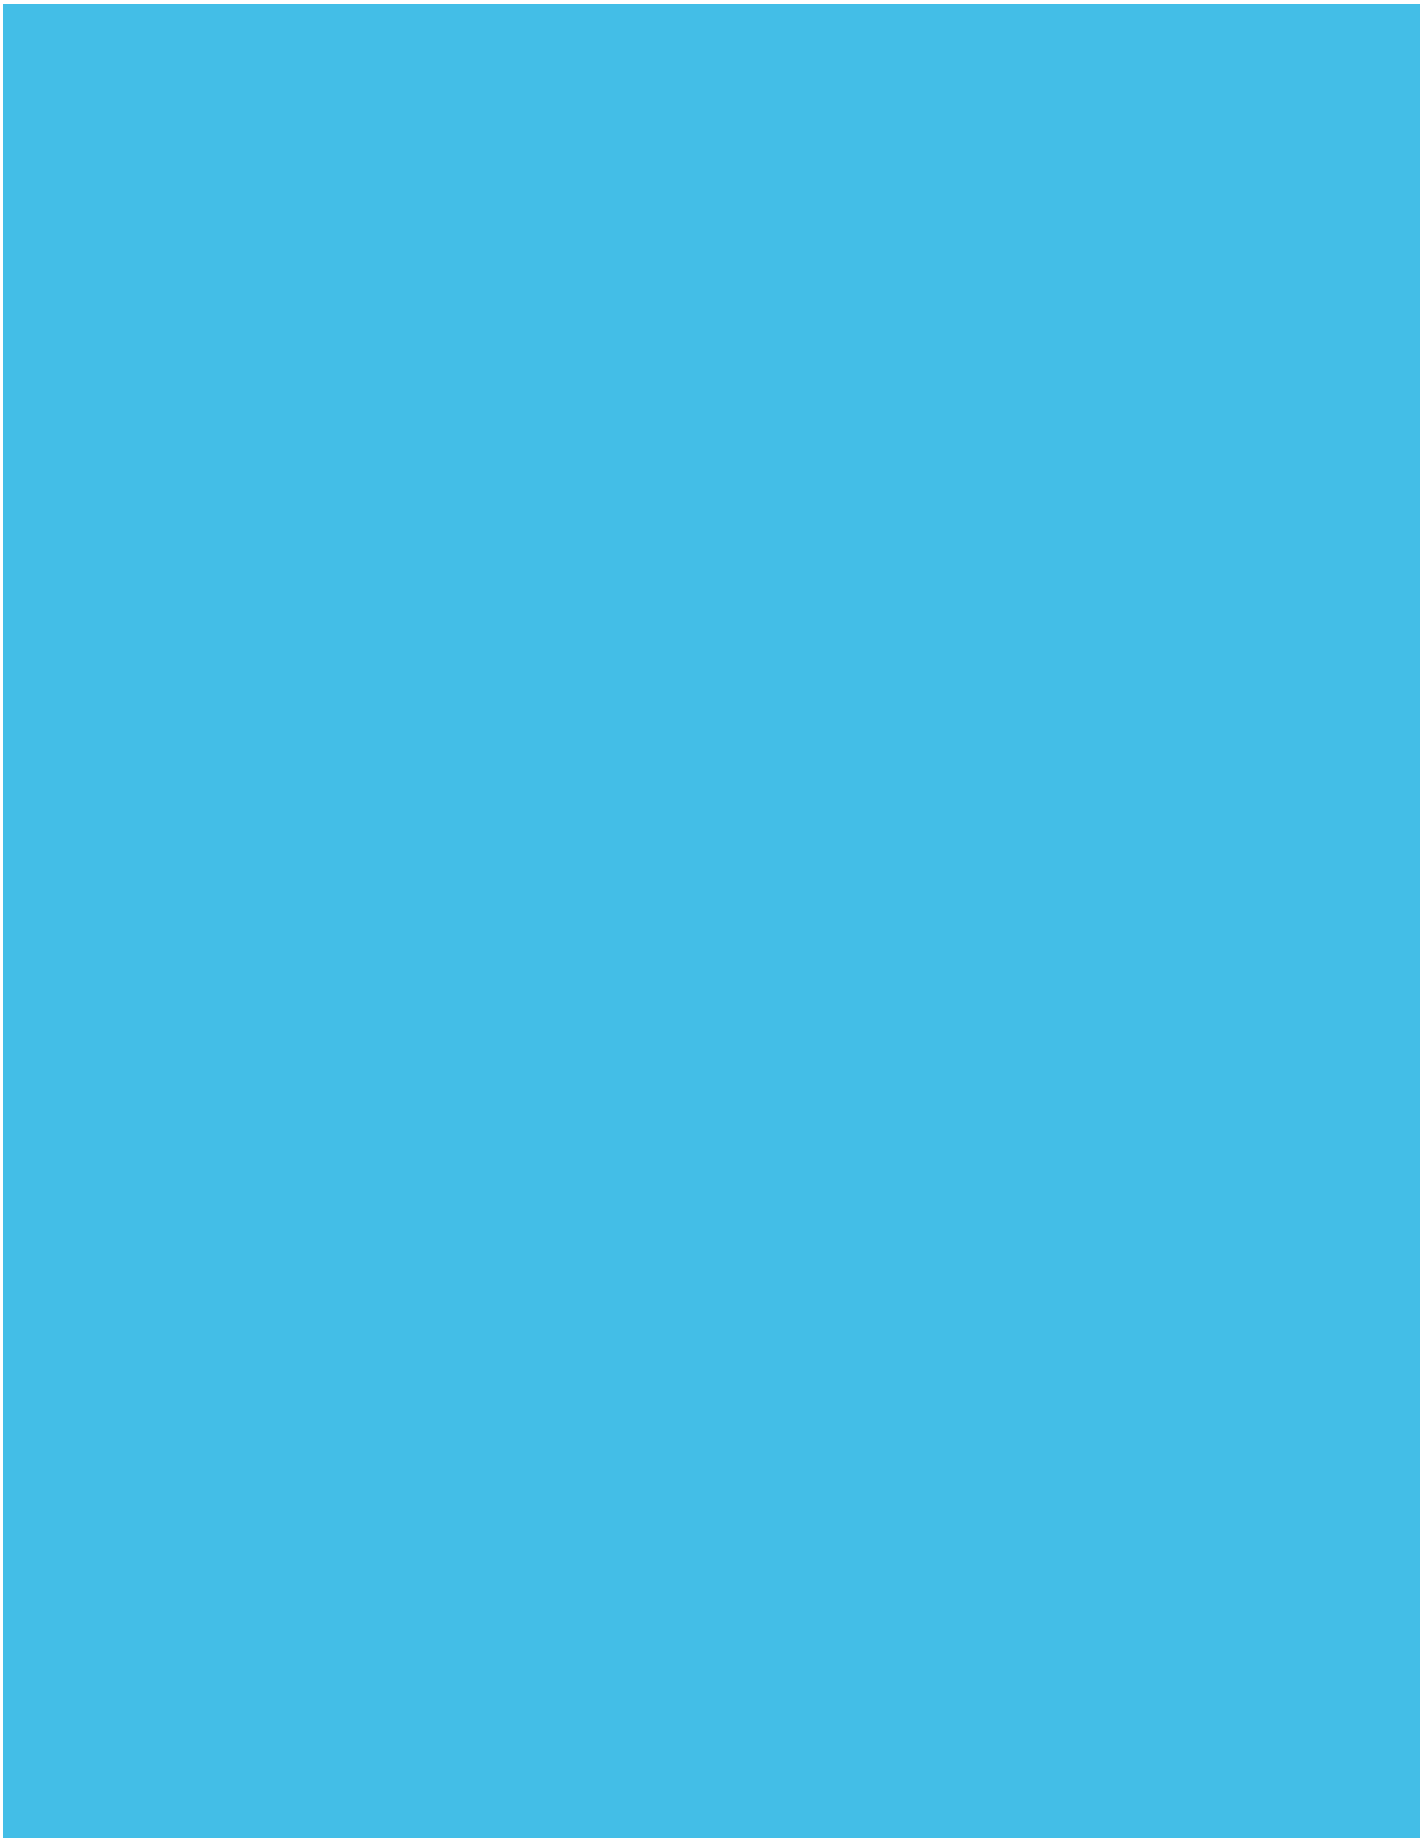


Table 2-4: What the WIDA ELD Standards Framework is and What It Is Not

The WIDA ELD Standards Framework is	The WIDA ELD Standards Framework is NOT intended to be

• A description of clear and measurable goals for language learning represented by
  • Language Expectations for interpretive and expressive modes of communication
  • Grade-level cluster PLDs of what multilingual learners can do at consecutive language proficiency levels
• A resource for state, district, and school accountability
• A guide for informing the design of linguistically and culturally sustaining curriculum, instruction, and assessment
• A central component of the comprehensive WIDA research-based system of language standards, assessment, and professional learning
	• Statements of grade-level knowledge and skills
	• A prescriptive document to be enacted without consideration for the local setting
	• A de facto curriculum or course of study
	• Specific lessons associated with units of learning with a series of language objectives
	• A step-by-step process for teaching and learning
	• An endorsement for any particular language pedagogy
	• A form of evaluation or a basis for grading
	• A compendium of academic content standards and disciplinary practices
	• Used in isolation, independent of grade-level content

Section 3: Grade-Level Cluster Materials

Grade-Level Cluster Materials

WIDA recognizes that English language development occurs over multiple years, is variable, and depends on many factors, such as multilingual learners' ages, maturation, classroom experiences, motivation, attitudes, and types of educational programming.

With this in mind, we have developed sets of materials that are appropriate for students in different grade-level clusters (K, 1, 2-3, 4-5, 6-8, and 9-12). Within each grade-level cluster section, the materials are organized according to the components of the WIDA ELD Standards Framework, and include some additional resources. The grade-level cluster materials help educators enact the WIDA ELD Standards Framework.

Grade-level cluster materials rely on a deep understanding of how language works in the service of content learning. Whereas we recognize that collaboration is not possible in every situation, partnerships between language and content teachers are critically important for planning and enacting curriculum, instruction, and assessment for multilingual learners.

Please be sure you have read the information in the previous two sections of this publication:

- Section 1 introduces the Big Ideas that are threaded throughout this document.
- Section 2 introduces the components of the WIDA ELD Standards Framework.

The table on the next page shows the components of the WIDA ELD Standards Framework on the left, and the corresponding grade-level cluster materials on the right.

Table 3-1: Representations of the Components of the WIDA ELD Standards Framework in Grade-Level Cluster Materials

Section 2: Components of the WIDA ELD Standards Framework	Section 3: Representation of the Framework in Each Grade-Level Cluster Section
WIDA ELD Standards Statements – Language for Social and Instructional Purposes, Language for Language Arts, Language for Mathematics, Language for Science, and Language for Social Studies – the broadest conceptual framing of language and content integration	**WIDA ELD Standards Statements** – Remain the same from kindergarten through grade 12
Key Language Uses – Narrate, Inform, Explain, Argue – select genre families summarizing the most prominent language uses across academic content standards	**Key Language Use Distribution Table** – Most prominent Key Language Uses for a particular grade-level cluster and ELD standard
Language Expectations – Interpretive and expressive goals for content-driven language learning	**Language Expectations,** along with embedded **Language Functions** and example **Language Features**
Proficiency Level Descriptors – Continua of language development across six language proficiency levels and six grade-level clusters	**Proficiency Level Descriptors** – A continuum of language development across six language proficiency levels for a particular grade-level cluster

An additional resource in Section 3, **Annotated Language Samples,** illustrates WIDA ELD Standards Statements, Key Language Uses, and Language Expectations, Functions, and Features in authentic grade-level texts. These samples are drawn from teachers and multilingual students from across the WIDA Consortium. Together, the grade-level cluster materials enhance visibility of language to help educators enact the WIDA ELD Standards Framework, planning for the simultaneous development of content and language in systematic, sustained, and explicit ways.

K

KINDERGARTEN

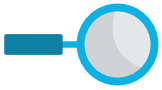
Kindergarten

Entering kindergarten is a big milestone for many children and their families. Children develop in different ways and at different rates, but in general, kindergartners tend to be quite active—playing, running, enjoying being silly, and making friends. Around this time, young children learn many new skills, from hopping on one foot, to holding a pencil, cutting with scissors, and recognizing colors, shapes, numbers, and letters. As kindergartners develop in social-emotional ways, they are also beginning to learn academic concepts through language and other multimodal means of communication.

The physical, hands-on world of kindergartners fosters their language development. Make-believe, singing, dancing, and playing games create natural connections between school and home, where, bolstered by their families, multilingual learners interact in multiple languages and draw on their cultures and experiences to express feelings, tell stories, and enter the world of print.

In this section you can find detailed, grade-level cluster specific information about the WIDA ELD Standards Framework. Remember that the **WIDA ELD Standards Statements** are the same from kindergarten through grade 12. Then, you will find the following materials for kindergarten:

- The most prominent **Key Language Uses**
- **Language Expectations,** Language Functions, and Language Features
    - **Annotated Language Samples** illustrating WIDA ELD Standards Statements, Language Expectations, Functions, and Features in authentic kindergarten texts
- **Proficiency Level Descriptors**



Before using these materials, be sure to read the information in Section 1 (Big Ideas) and Section 2 (Introduction to the WIDA ELD Standards Framework: WIDA ELD Standards Statements, Key Language Uses, Language Expectations, and Proficiency Level Descriptors).

Key Language Uses

Key Language Uses—Narrate, Inform, Explain, and Argue—are present across all grade levels and disciplines. Table 3-2 offers snapshots of some ways students engage in each Key Language Use throughout kindergarten.

Table 3-2: Snapshots of Key Language Uses in Kindergarten

Snapshots of Key Language Uses in Kindergarten	
Narrate	• Reflect on their lived experiences • Retell personal experiences • Create imaginative new stories through multimodal text, combining drawings and spelling approximations
Inform	• Describe observations about the world around them • Share observations about experiences and topics they know well • Compare and contrast information about individual entities • Categorize objects
Explain	• Wonder and ask questions about natural observable phenomena, such how caterpillars become butterflies • Construct pictorial representations of their emerging understandings of phenomena • Ask and answer how things work or why things are the way they are
Argue	• Express likes and dislikes on familiar topics, such as food and games • Express emotions stemming from personal experiences • Share opinions about issues from their own lives

Learn more about each Key Language Use across the grades and disciplines in Section 4: Resources—Key Language Uses: A Closer Look.

The most prominent Key Language Uses in kindergarten are the basis for its Language Expectations. They are marked with a filled-in circle (●) in the boxes of Table 3-3. The half-filled circle and the open circle indicate lesser degrees of prominence of each Key Language Use; see the legend underneath the table.

Language Expectations, Functions, and Features

Language Expectations

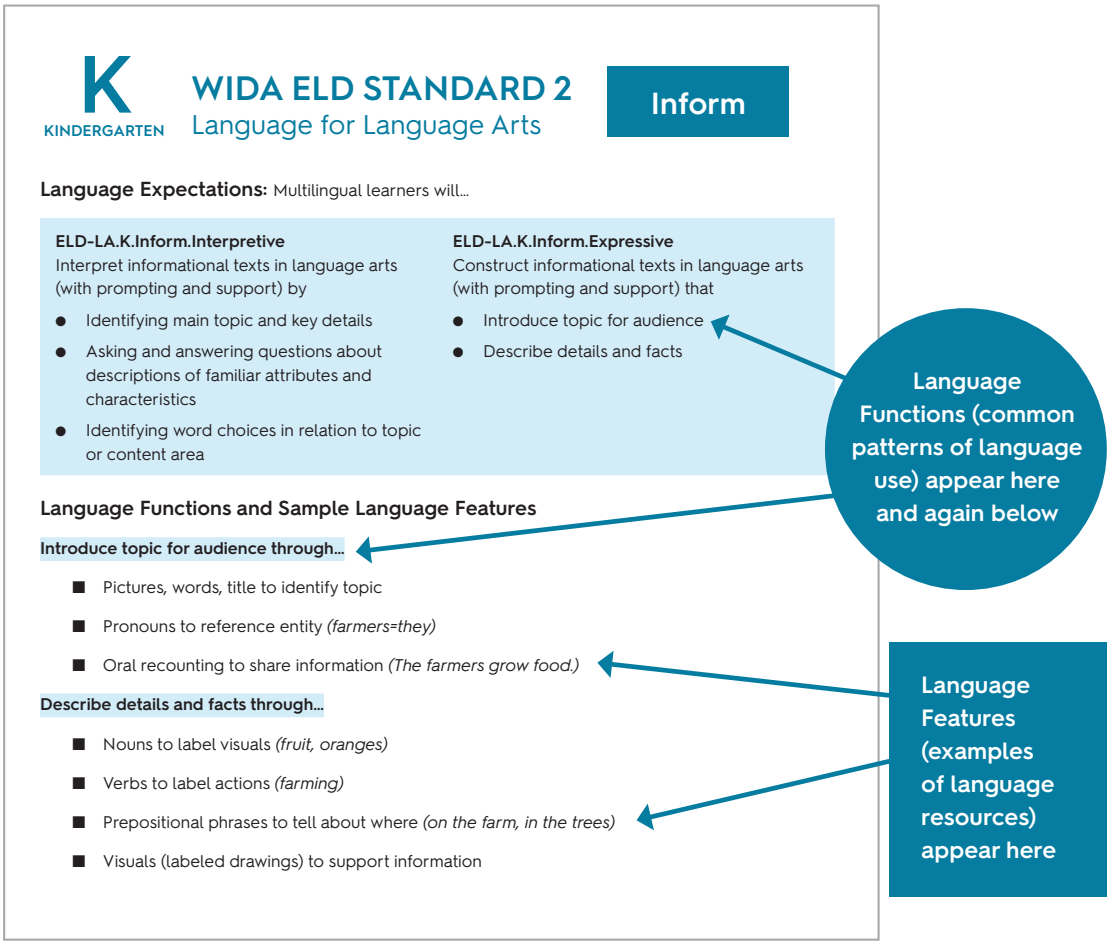
Language Expectations are interpretive and expressive goals for content-driven language learning. They articulate the language necessary for meeting academic content standards.

Language Functions

Language Expectations are built around a set of **Language Functions.** Language Functions highlight common patterns of language use, showcasing particular ways students might use language to meet the purposes of schooling. For example, a series of Language Functions is associated with the process of constructing fictional narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation. In Figure 3-1, you can see that the Language Functions are listed in bulleted form, under the interpretive and expressive Language Expectations.

Standard 1 Language Expectations and Language Functions

Given its broad scope and applicability, Language Expectations and Language Functions for **Standard 1** (Language for Social and Instructional Purposes) are presented in two wide-ranging spans, the first for grades K-3 and the second for grades 4-12. These are logical divisions between early childhood education and upper elementary years and beyond. Language Expectations and Functions for **Standard 1** can be readily interwoven or paired with those in **Standards 2-5** (Language for Language Arts, Mathematics, Science, and Social Studies). The pairing of Standard 1 with Standards 2-5 reminds us that students communicate as part of disciplinary learning, but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.



Language Features

The Language Functions of Standards 2-5 are further delineated with **Language Features.** In Figure 3-1, you can see sample Language Features for each Language Function, marked with a box (■). Language Features are examples of various language resources that carry out particular Language Functions, such as different types of sentences, clauses, phrases, and words. Due to the intertwining nature of Standard 1 with Standards 2-5, there are no specific Language Features for Standard 1.

In the example here, you can see how the Language Features connect to the Language Functions in the expressive Language Expectations. Language Features are only shown in the expressive functions because those also help us see how learners have processed information through interpretive modes. For example, when multilingual learners share information about something they have heard, read, or viewed, we can use their expressive language skills to evaluate and guide our instructional choices.

Figure 3-1 on the next page shows how the Language Functions and Language Features appear.

Figure 3-1: Kindergarten Language Functions and Language Features

K
KINDERGARTEN

WIDA ELD STANDARD 1
Social and Instructional Language

The Language Expectations and Language Functions of Standard 1 are interwoven and paired with those of Standards 2-5. For this reason, remember that there are no specific Language Features for Standard 1, and that the expectations for the interpretive and expressive communication modes are the same. As you can see from the reference codes, the Language Expectations are the same for students in kindergarten through grade 3.

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.K-3.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Ask questions about what others have shared
- Recount and restate ideas
- Discuss how stories might end or next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.K-3.Inform

- Define and classify objects or concepts
- Describe characteristics, patterns, or behavior
- Describe parts and wholes
- Sort, clarify, and summarize ideas
- Summarize information from interaction with others and from learning experiences

K
KINDERGARTEN

WIDA ELD STANDARD 1
Social and Instructional Language

Language Expectations: Multilingual learners will...

Explain

ELD-SI.K-3.Explain

- Share initial thinking with others
- Follow and describe cycles in diagrams, steps in procedures, or causes and effects
- Compare and contrast objects or concepts
- Offer ideas and suggestions
- Act on feedback to revise understandings of how or why something works

Language Expectations: Multilingual learners will...

Argue

ELD-SI.K-3.Argue

- Ask questions about others' opinions
- Support own opinions with reasons
- Clarify and elaborate ideas based on feedback
- Defend change in one's own thinking
- Revise one's own opinions based on new information

K
KINDERGARTEN

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.K.Narrate.Interpretive
Interpret language arts narratives (with prompting and support) by

- Identifying key details
- Identifying characters, settings, and major events
- Asking and answering questions about unknown words in a text

ELD-LA.K.Narrate.Expressive
Construct language arts narratives (with prompting and support) that

- Orient audience to story
- Describe story events

Language Functions and Sample Language Features

Orient audience to story through...

- Pictures, words, title, simple statements, or common story expressions to introduce context
- Noun groups to state who or what the story is about *(tall man, baby bear)*
- Prepositional phrases to specify location and time *(at Grandma's house, by the river; in the winter, at night)*

Describe story events through...

- Verbs to describe character actions *(jumped),* feelings *(was sad),* behaviors *(eating)*
- Connectors to establish sequence *(then, after, and)*
- Pronouns and renaming to reference a character across the text *(the girl=she=Nancy)*

K
KINDERGARTEN

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.K.Inform.Interpretive
Interpret informational texts in language arts (with prompting and support) by

- Identifying main topic and key details
- Asking and answering questions about descriptions of familiar attributes and characteristics
- Identifying word choices in relation to topic or content area

ELD-LA.K.Inform.Expressive
Construct informational texts in language arts (with prompting and support) that

- Introduce topic for audience
- Describe details and facts

Language Functions and Sample Language Features

Introduce topic for audience through...

- Pictures, words, title to identify topic
- Pronouns to reference entity *(farmers=they)*
- Oral recounting to share information *(The farmers grow food.)*

Describe details and facts through...

- Nouns to label visuals *(fruit, oranges)*
- Verbs to label actions *(farming)*
- Prepositional phrases to tell about where *(on the farm, in the trees)*
- Visuals (labeled drawings) to support information

K
KINDERGARTEN

WIDA ELD STANDARD 3
Language for Mathematics

Inform

Language Expectations: Multilingual learners will...

ELD-MA.K.Inform.Interpretive
Interpret mathematical informational texts (with prompting and support) by

- Identifying concept or object
- Describing quantities and attributes

ELD-MA.K.Inform.Expressive
Construct mathematical informational texts (with prompting and support) that

- Define or classify concept or entity
- Describe a concept or entity
- Compare/contrast concepts or entities

Language Functions and Sample Language Features

Define or classify concept or entity through...

- Single nouns to represent class of things *(colors, shapes, patterns)*
- Relating verbs *(be, have)* to define, describe, or classify *(The pattern is red, blue, red, blue.)*

Describe a concept or entity through...

- Expanded noun groups to add specificity *(The red star has five points.)*
- Sequential signals *(first, second, then, last)* to describe patterns *(First is a green bear, then two blue bears.)*
- Prepositional phrases *(behind, on top of, under, next to, below, above)* to specify location *(The blue star is next to the green triangle.)*

Compare/contrast concepts or entities through...

- Comparison/contrast language *(both, same, different)* and pointing to differentiate between entities *(This pattern is different than that one.)*
- Causal language *(because, so)* and demonstration to provide reasoning *(I can make a triangle because I have three sticks.)*

K
KINDERGARTEN

WIDA ELD STANDARD 4
Language for Science

Inform

Language Expectations: Multilingual learners will...

ELD-SC.K.Inform.Interpretive	ELD-SC.K.Inform.Expressive
Interpret scientific informational texts by	Construct scientific informational texts that
● Determining what text is about	● Introduce others to a topic or entity
● Defining or classifying a concept or entity	● Provide details about an entity

Language Functions and Sample Language Features

Introduce others to a topic or entity through...

- Pictures, words, drawings to introduce others to the topic
- Generalized nouns to identify class of things *(pollinators, insects)*
- Pronouns *(it, they)* to reference entity or idea *(insects=they)* (demonstratives identify that this is a plant)
- Oral recounting to share information *(The butterflies fly for a really long time.)*

Provide details about an entity through...

- Prepositional phrases to tell about where *(in the trees, on the flowers, next to, above, below)*
- Verbs to label actions *(fly, grow, eat)*
- Relating verbs *(be, have)* to define entity *(Butterflies are pollinators. Butterflies have antennae.)*
- Adjectives to add details *(red and black wings)*
- Pictures, labeled drawings, words to categorize, compare, and contrast information *(moths=night, butterflies=day)*

K
KINDERGARTEN

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will…

ELD-SC.K.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or simple design problems based on observations and data about a phenomenon
- Using information from observations to find patterns and to explain how or why a phenomenon occurs

ELD-SC.K.Explain.Expressive
Construct scientific explanations that

- Describe information from observations about a phenomenon
- Relate how a series of events causes something to happen
- Compare multiple solutions to a problem

Language Functions and Sample Language Features

Describe information from observations about a phenomenon through…

- Single words to identify context *(floating, sinking)*
- Relating verbs *(have, be)* to state relationships or attributes
- Pictures, diagrams, to add information or illustrate phenomenon

Relate how a series of events causes something to happen through…

- Nouns to represent concepts *(investigation)*
- Simple sentences to describe the phenomenon *(A feather floats.)*
- Cohesion to reference ideas, people across text, including pronouns, articles, demonstratives *(it, a, the, this, that)*
- Causal connectors to combine ideas into logical relationships *(so, because, when/then)*
- Connectors to link or compare observations *(Paper floats but rocks sink.)*

Compare multiple solutions to a problem through…

- Simple statements to represent conclusions *(Heavy things float.)*

K
KINDERGARTEN

WIDA ELD STANDARD 5
Language for Social Studies

Inform

Language Expectations: Multilingual learners will...

ELD-SS.K.Inform.Interpretive
Interpret informational texts in social studies by

- Determining topic associated with a compelling or supporting question
- Defining attributes and characteristics in relevant information

ELD-SS.K.Inform.Expressive
Construct informational texts in social studies that

- Introduce topic associated with a compelling or supporting question
- Provide a detail about relevant information

Language Functions and Sample Language Features

Introduce topic associated with a compelling or supporting questions through...

- Pictures, words, title to identify topic or concept *(My Neighborhood, Activities)*
- Visuals (labeled drawings, diagrams) to share information about topic attributes

Provide a detail about relevant information through...

- Nouns to label visuals or cultural items *(family members, weather words, food, events)*
- Verbs to label actions and activities *(dancing, cooking)*
- Prepositional phrases to tell about location *(on the block, in the house, next to the store, at Grandma's house, on the bus)*
- Adjectives to add description to labeled nouns and simple sentences *(It is a sunny day.)*

Annotated Language Samples

Annotated Language Samples exemplify the WIDA ELD Standards Framework in action. In particular, they show an ELD Standards Statement, a Key Language Use, a Language Expectation, as well as its Language Functions and Language Features contextualized in authentic grade-level texts. The samples, drawn from the work of teachers and students from across the WIDA Consortium, help make more visible the language for content learning. In this way, educators can envision how to highlight language and plan for its systematic development during content learning.

LEGEND FOR THE ANNOTATED TEXTS

Several different conventions are used to indicate example Language Features in the annotated text:

- **Language Functions (bold white text on a blue background)**
- **Connectors, sequence words (in bold)**
- Nouns and noun groups (in red with dashed underline)
- Verbs and verb groups (in green with dotted underline)
- Prepositional and adverbial phrases (in blue with diamond underline)
- *Objective/evaluative language (words or phrases) (in italics)*
- Cohesive devices (circles and arrows within the text) 
- *Clauses (underlined and italics)*
- Sentences (highlighted with boxes around them)

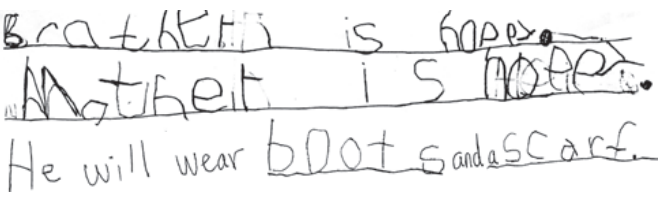
  Note: Examples of sentences are declarative statements, statements of claims, statements foreshadowing events. See individual texts for more detail.

K
KINDERGARTEN

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Annotated Language Sample



Context: This text was written by a multilingual kindergartner. At this time, students were writing every day about their lives or about books they were reading. This is the first of two texts presented here, written by the same kindergartner on two consecutive days. Both are modeled after a book the learner was reading.

Prompt: It's story writing time!

Language Expectation: ELD-LA.K.Narrate.Expressive
Multilingual learners use language to construct language arts narratives (with prompting and support) that
- Orient audience to story
- Describe story events

Functions & Features		Functions & Features
Orient audience to story through… Simple statements • Brather … hopey Noun groups to introduce context • Brather [brother] • Mother	Brather [Brother] is hopey [hoping]. Mother is hoee [home]. He will wear boots and a scarf.	**Describe story events through…** Verbs (and verb groups) • is hopey [hoping] • will wear Pronoun to reference characters • Brather … he

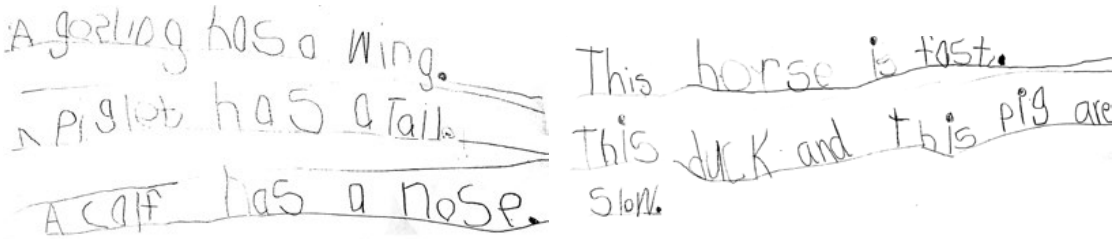
Example of Student Writing

K KINDERGARTEN

WIDA ELD STANDARD 4
Language for Science

Inform

Annotated Language Sample



Context: This is the second text written by the same multilingual kindergartner (the first is on the previous page). The student had been reading informational books about animals.

Prompt: "Ok friends, it's writing time! Get out your notebooks and pencils. Remember you can write about books you are reading."

Language Expectation: ELD-SC.K.Inform.Expressive
Multilingual learners use language to construct scientific informational texts that
- Introduce others to a topic or entity
- Provide details about an entity

Functions & Features		Functions & Features
Introduce others to the topic through… Generalized nouns • a gosling • a piglet • a calf • a wing • a tail • a nose	A gosling has a wing. A piglet has a tail. A calf has a nose. … This horse is *fast*. This duck and this pig are *slow*.	**Provide details about an entity through…** Relational verbs • has, is, are Adjectives to add details • *fast* • *slow* Noun groups to add details • a wing • a tail

Example of Student Writing

Proficiency Level Descriptors

Remember...

Proficiency Level Descriptors (PLDs) illustrate a continuum of language development for multilingual learners across six levels of English language proficiency for each grade-level cluster. The descriptors span three dimensions of language: discourse, sentence, and word/phrase.

- Each proficiency level (PL) includes and builds on previous levels (e.g., PL4 = PL1 + PL2 + PL3 + PL4). PL6 is open-ended. It indicates that for all of us, language development continues throughout life.
- Language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors. Multilingual learners may take various paths to develop language.
- The PLDs are designed to be used in coordination with Language Expectations, Language Functions, and Language Features.
    - Whereas Language Expectations offer goals for how *all students* might use language to meet academic content standards, PLDs offer a succinct description of how multilingual learners might develop language *across levels of language proficiency* in moving toward meeting Language Expectations.
- In the PLDs, *text* is multimodal, including oral, visual, and written forms.
- Scaffolding learning increases accessibility for multilingual learners, supports and bolsters their opportunities to meaningfully engage in grade-level content learning, and builds toward independence. The PLDs are predicated on the idea that appropriate scaffolding supports students in moving through the language proficiency levels.

Grade K WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around topics *(my family)* with words, pictures, phrases, or chunks of language	around topics *(all about me)* with repetition, rhyming, and common language patterns	around topics *(all about me)* with repetition, rhyming, and other language patterns with short sentences	to meet a purpose *(to inform, narrate, entertain)* through multiple related sentences	to meet a purpose in a series of extended sentences	to meet a purpose in a short text
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	patterned language with repetitive words	patterned language with repetitive words and phrases *(This is a duck. The duck says quack, quack. This is a goat.)*	repetitive words and phrases across a text *(Brown bear, brown bear, what do you see?)*	some frequently used cohesive devices (demonstratives: *this, these, that, those*)	a few different types of cohesive devices *(repetition, pronoun referencing, etc.)*	multiple types of cohesive devices *(synonyms, antonyms, repetition)*
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	labels with single nouns *(ball, car)*	frequently used single noun groups *(my toys, my car, your ball?)*	frequently used multi-word noun groups *(my favorite book)*	multi-word noun groups with connectors *(a shiny truck and a red ball)*	expanded noun groups with classifiers *(the red fire truck)*	expanded noun groups with prepositional phrases *(the red fire truck in the station)*
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	words, pictures, and phrases *(Anna's chair)*	words, pictures, phrases, and chunks of language *(ran to her room)*	chunks of language *(sat in her chair, jumps on her bed)*	simple sentences *(She picked it up.)*	related simple sentences *(She picked it up. She carried it to her room.)*	multiple related simple sentences *(She picked it up. She carried it to her room. She opened it up.)*
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	a few words and phrases in familiar contexts and topics *(map, desk, hello)*	repeated words and phrases in familiar contexts and topics *(sound it out, think first)*	frequently used words and phrases in familiar contexts *(time to clean up)*	situation-specific words and phrases *(What sounds do we hear?)*	an increasing number of words and phrases *(We need four different colors to make a pattern.)*	a growing number of words and phrases in a variety of contexts *(special visitor, school assembly)*

Grade K WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	single words, phrases, or chunks of language to represent ideas	phrases or short sentences to represent ideas with an intended purpose (to describe, narrate, share opinion)	short sentences linked together to convey an intended purpose *(and, then)*	short sentences that convey an intended purpose with emerging organizational patterns	sentences linked together to convey an intended purpose (inform: *The parrot eats nuts and seeds.*)	text that conveys an intended purpose with emerging organizational patterns *(first, and then, also, next)*
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	single words and phrases related to topic *(water, leaf)*	an emerging use of cohesive devices (repetition: *water, water, the water*)	a few frequently used cohesive devices (repetition: *this leaf is red, this leaf is yellow*)	some frequently used cohesive devices (demonstratives)	some formulaic cohesive devices (pronoun referencing)	a growing number of cohesive devices (emerging use of articles to refer to the same word)
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	limited elaboration (single words)	simple elaboration (familiar single nouns)	simple types of elaboration (newly learned single nouns)	a few types of elaboration (adding a familiar adjective to describe a noun)	some types of elaboration (adding a newly learned adjective to a noun)	a growing number of types of elaboration (adding articles or demonstratives to a noun: *the or these clouds*)
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	words, pictures, and phrases *(cats and dogs)*	words, pictures, phrases and chunks of language *(cats meow and dogs bark)*	sentence fragments *(cats and dogs)*	sentence fragments and emerging use of simple sentences *(Dogs sleep, Dogs bark.)*	simple sentences *(Cats like to climb. Dogs like to run.)*	sentences with emerging use of clauses *(My cat sleeps all day. My dog runs all the time. They are my pets.)*
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	frequently reoccurring words and phrases *(Good Morning, let's play)*	emerging use of words and phrases with attempted precision *(Today is Friday, September 15.)*	few frequently used words and phrases with emerging precision *(lunch time, morning meeting)*	some frequently used words and phrases with some precision *(my pattern is red, blue, red, blue)*	a small repertoire of words and phrases with developing precision *(beautiful butterfly, repeating pattern)*	a growing repertoire of words and phrases with growing precision *(green and yellow stripes)*

GRADE 1

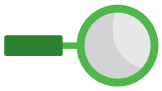
Grade 1

Moving from kindergarten to first grade can mean big changes for children in the way they think about and interact with peers and their surroundings. In general, these young learners tend to ask and answer questions about the world, themselves, and texts in multimodal ways (for example, oral, visual, or written). Social and thinking skills develop rapidly as first graders actively explore their environment and look for answers in increasingly logical ways. Working with partners or in small groups, students feel proud to share their discoveries with others. They start to combine spoken language with some reading and writing, and make connections among ideas, illustrations, and words.

In first grade, educators and families may easily connect school to home by encouraging multilingual learners to share observations about the world in multiple languages. For example, academic learning can readily be reinforced at home simply by walking around the neighborhood to describe plant life or notice environmental print. Activities like dancing, playing games, and doing chores are also great opportunities to strengthen the home–school connection in culturally and linguistically sustaining ways. Likewise, in school, multicultural books allow students to practice academic concepts in ways that reflect the experiences of multilingual learners and their families.

In this section you can find detailed, grade-level cluster specific information about the WIDA ELD Standards Framework. Remember that the **WIDA ELD Standards Statements** are the same from kindergarten through grade 12. Then, you will find the following materials for grade 1:

- The most prominent **Key Language Uses**
- **Language Expectations,** Language Functions, and Language Features
    - **Annotated Language Samples** illustrating WIDA ELD Standards Statements, Language Expectations, Functions, and Features in authentic grade-level texts
- **Proficiency Level Descriptors**



Before using these materials, be sure to read the information in Section 1 (Big Ideas) and Section 2 (Introduction to the WIDA ELD Standards Framework: WIDA ELD Standards Statements, Key Language Uses, Language Expectations, and Proficiency Level Descriptors).

Key Language Uses

Key Language Uses—Narrate, Inform, Explain, and Argue—are present across all grade levels and disciplines. Table 3-4 offers snapshots of some ways students engage in each Key Language Use throughout grade 1.

Table 3-4: Snapshots of Key Language Uses in Grade 1

Snapshots of Key Language Uses in Grade 1	
Narrate	• Imagine and create new stories • Begin to develop a sense of story structures • Interpret narratives read aloud with predictable structures and language patterns
Inform	• Describe and define familiar concepts or topics • Categorize and classify information • Interpret and construct brief descriptions or reports on familiar, concrete entities, such as animals, objects, places, or people
Explain	• Describe their observations in relation to concrete phenomena in their immediate environment • Ask and answer questions about how things work or why things are the way they are • Interpret and construct multimodal representations of their emerging understandings of observed relationships
Argue	• Formulate opinions • Give reasons for their opinions • Interpret persuasive texts

Learn more about each Key Language Use across the grades and disciplines in Section 4: Resources—Key Language Uses: A Closer Look.

The **most prominent Key Language Uses** in grade 1 are the **basis for its Language Expectations.** They are marked with a filled-in circle (●) in the boxes of Table 3-5. The half-filled circle and the open circle indicate lesser degrees of prominence of each Key Language Use; see the legend underneath the table.

Language Expectations, Functions, and Features

Language Expectations

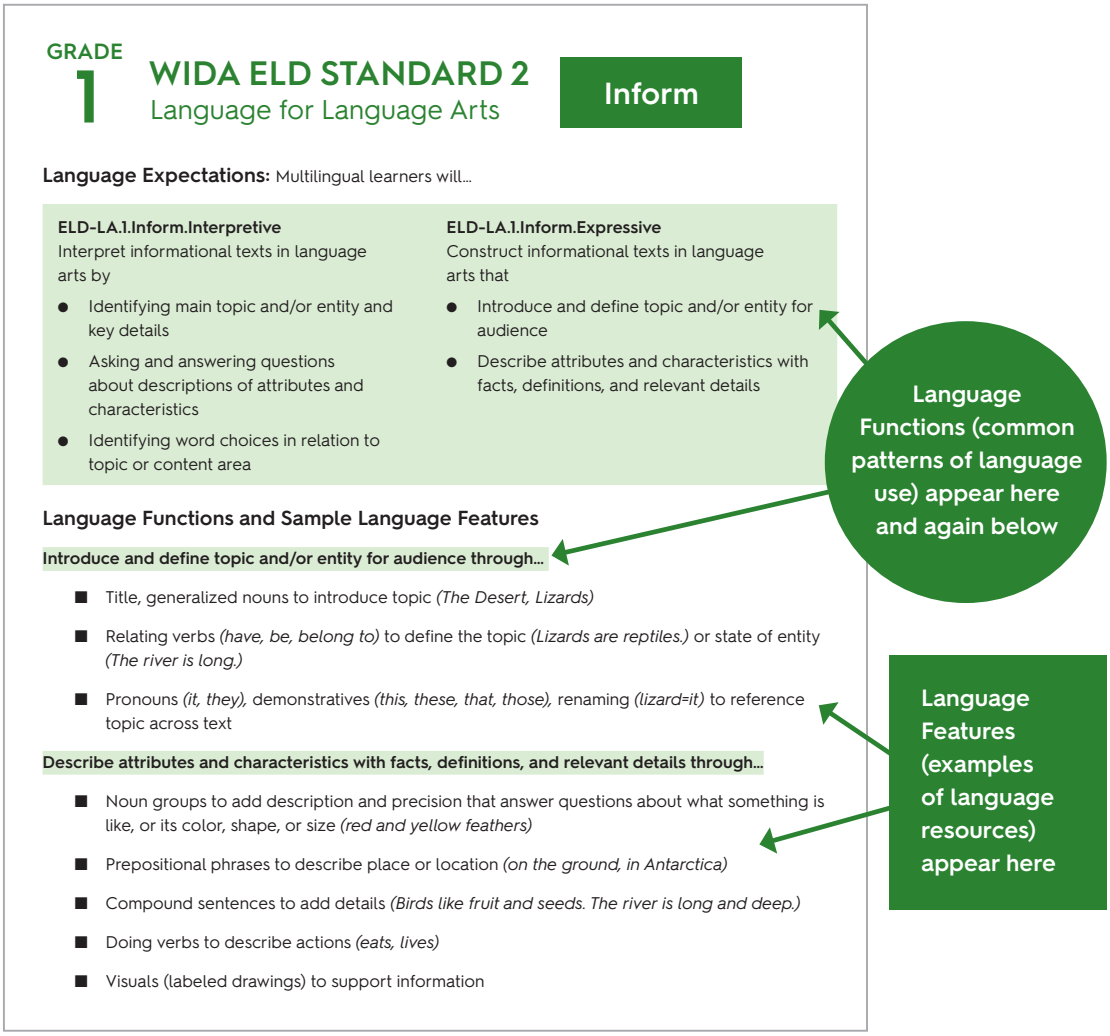
Language Expectations are interpretive and expressive goals for content-driven language learning. They articulate the language necessary for meeting academic content standards.

Language Function

Language Expectations are built around a set of **Language Functions.** Language Functions highlight common patterns of language use, showcasing particular ways students might use language to meet the purposes of schooling. For example, a series of Language Functions is associated with the process of constructing fictional narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation. In Figure 3-2, you can see that the Language Functions are listed in bulleted form, under the interpretive and expressive language expectations.

Standard 1 Language Expectations and Language Functions

Given its broad scope and applicability, Language Expectations and Language Functions for **Standard 1** (Language for Social and Instructional Purposes) are presented in two wide-ranging spans, the first for grades K-3 and the second for grades 4-12. These are logical divisions between early childhood education and upper elementary years and beyond. Language Expectations and Functions for **Standard 1** can be readily interwoven or paired with those in **Standards 2-5** (Language for Language Arts, Mathematics, Science, and Social Studies). The pairing of Standard 1 with Standards 2-5 reminds us that students communicate as part of disciplinary learning, but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.



Language Features

The Language Functions of Standards 2-5 are further delineated with **Language Features.** In Figure 3-2, you can see sample Language Features for each Language Function, marked with a box (■). Language Features are examples of various language resources that carry out particular Language Functions, such as different types of sentences, clauses, phrases, and words. Due to the intertwining nature of Standard 1 with Standards 2-5, there are no specific Language Features for Standard 1.

In the example here, you can see how the Language Features connect to the Language Functions in the expressive Language Expectations. Language Features are only shown in the expressive functions because those also help us see how learners have processed information through interpretive modes. For example, when multilingual learners share information about something they have heard, read, or viewed, we can use their expressive language skills to evaluate and guide our instructional choices.

Figure 3-2 on the next page shows how the Language Functions and Language Features appear.

Figure 3-2: Grade 1 Language Functions and Language Features

GRADE 1

WIDA ELD STANDARD 1

Social and Instructional Language

The Language Expectations and Language Functions of Standard 1 are interwoven and paired with those of Standards 2-5. For this reason, remember that there are no specific Language Features for Standard 1, and that the expectations for the interpretive and expressive communication modes are the same. As you can see from the reference codes, the Language Expectations are the same for students in kindergarten through grade 3.

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.K-3.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Ask questions about what others have shared
- Recount and restate ideas
- Discuss how stories might end or next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.K-3.Inform

- Define and classify objects or concepts
- Describe characteristics, patterns, or behavior
- Describe parts and wholes
- Sort, clarify, and summarize ideas
- Summarize information from interaction with others and from learning experiences

GRADE 1

WIDA ELD STANDARD 1

Social and Instructional Language

Language Expectations: Multilingual learners will...

Explain

ELD-SI.K-3.Explain

- Share initial thinking with others
- Follow and describe cycles in diagrams, steps in procedures, or causes and effects
- Compare and contrast objects or concepts
- Offer ideas and suggestions
- Act on feedback to revise understandings of how or why something works

Language Expectations: Multilingual learners will...

Argue

ELD-SI.K-3.Argue

- Ask questions about others' opinions
- Support own opinions with reasons
- Clarify and elaborate ideas based on feedback
- Defend change in one's own thinking
- Revise one's own opinions based on new information

GRADE 1

WIDA ELD STANDARD 2

Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.1.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a central message from key details
- Identifying how character attributes and actions contribute to an event
- Identifying words and phrases that suggest feelings or appeal to the senses

ELD-LA.1.Narrate.Expressive
Construct language arts narratives that

- Orient audience to story
- Develop story events
- Engage and adjust for audience

Language Functions and Sample Language Features

Orient audience to story through...

- Pictures, words, title, statements or common story expressions *(Once upon a time)* to introduce context
- Noun groups to state who or what the story is about *(the white swans, Joey's big family)*
- Simple statements to introduce the problem *(They got lost.)*
- Prepositional phrases to specify location and time *(by the river, in the barn, during the summer, last year, every night)*

Develop story events through...

- Verbs to describe what characters do, think, feel, and say
- Connectors to sequence time *(first, next, and then),* and events *(before, after, later),* and to combine and link event details *(and, but, so)*
- Pronouns, renaming, and synonyms to reference a character or idea across the text *(my neighbor=Bob, the tree fort=my special place)*
- Simple statement to provide closure *(The End, And then we went home.)*

Engage and adjust for audience through...

- Pictures and other graphics to complement the storyline
- Word choices to convey attitudes, develop suspense, share excitement *(my best friend, really scary, wonderful!)*
- Literary and familiar expressions *(big, ugly monster; run, run as fast as you can!),* sensory language *(yucky)* onomatopoeia *(BOOM! CRASH!)* to add interest; tone of voice and gesturing to tell a story

GRADE 1

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.1.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying main topic and/or entity and key details
- Asking and answering questions about descriptions of attributes and characteristics
- Identifying word choices in relation to topic or content area

ELD-LA.1.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Describe attributes and characteristics with facts, definitions, and relevant details

Language Functions and Sample Language Features

Introduce and define topic and/or entity for audience through...

- Title, generalized nouns to introduce topic *(The Desert, Lizards)*
- Relating verbs *(have, be, belong to)* to define the topic *(Lizards are reptiles.)* or state of entity *(The river is long.)*
- Pronouns *(it, they),* demonstratives *(this, these, that, those),* renaming *(lizard=it)* to reference topic across text

Describe attributes and characteristics with facts, definitions, and relevant details through...

- Noun groups to add description and precision that answer questions about what something is like, or its color, shape, or size *(red and yellow feathers)*
- Prepositional phrases to describe place or location *(on the ground, in Antarctica)*
- Compound sentences to add details *(Birds like fruit and seeds. The river is long and deep.)*
- Doing verbs to describe actions *(eats, lives)*
- Visuals (labeled drawings) to support information

GRADE 1

WIDA ELD STANDARD 3
Language for Mathematics

Inform

Language Expectations: Multilingual learners will...

ELD-MA.1.Inform.Interpretive
Interpret mathematical informational texts by

- Identifying concept or entity
- Describing attributes and characteristics

ELD-MA.1.Inform.Expressive
Construct mathematical informational texts that

- Define or classify concept or entity
- Describe a concept or entity
- Compare/contrast concepts or entities

Language Functions and Sample Language Features

Define or classify concept or entity through...

- Generalized nouns to identify class of things *(shapes, patterns, properties)*
- Relating verbs *(be, have)* to define, describe, or classify *(Rectangles have four sides. This is a closed shape.)*

Describe a concept or entity through...

- Expanded noun groups to add specificity *(this has three equal sides)*
- Technical word choices to add precision and detail *(flat or solid shapes)*
- Common phrasal verbs *(part of, put together)* to describe concepts *(These two halves are part of the whole triangle.)*
- Conditional clauses *(if/then)* to demonstrate relationships *(If I put these shapes together then I can make a rectangle.)*

Compare/contrast concepts or entities through...

- Compare/contrast signals *(both, same, different, but)* to differentiate attributes of objects *(They are both solids but this one is a triangle and this one is a cube.)*
- Causal connectors *(because, so)* to link ideas and provide reasoning *(These two shapes are the same kind because they both have four sides.)*

GRADE 1

WIDA ELD STANDARD 4
Language for Science

Inform

Language Expectations: Multilingual learners will...

ELD-SC.1.Inform.Interpretive
Interpret scientific informational texts by

- Determining what text is about
- Defining or classifying concept or entity

ELD-SC.1.Inform.Expressive
Construct scientific informational texts that

- Introduce others to topic or entity
- Define, describe, and classify concept, topic, or entity
- Summarize observations or factual information

Language Functions and Sample Language Features

Introduce others to the topic or entity through...

- Generalized nouns to introduce topic or idea *(Whales, Sound, Patterns)*
- Openers to address audience *(Have you ever wondered about? Did you know?)*
- Relating verbs *(belong to, have, be)* to define or present state of entity *(Whales are mammals.)*
- Pronouns *(it, they)* and demonstratives *(this, that, these, those)* to reference entity or concept across text *(Paper vibrates. It makes a sound.)*

Define, describe, and classify concept, topic, or entity through...

- Noun groups to add details that answer questions about what something is like, its qualities, and descriptions *(floating objects, long, brown fur)*
- Visuals (labeled drawings, graphs, tables) to support information
- Timeless present verbs to indicate generalizable nature of action *(floats, sinks, eats, swims, turns)*
- Qualifiers *(some, all, many)* to describe observation or fact *(some things float, all sound is vibration, many dolphins hunt together)*
- Sequence words *(first, and, then, next, last)* to clarify order or sequence of events *(First whales swim to cold water, then...)*

Summarize observations or factual information through...

- Compare/contrast signals *(-er, -est, bigger than, more, both, but, different)* to differentiate or summarize attributes, details or behaviors *(Feathers float better than paper.)*
- Declarative statements to present conclusions *(Some objects float and some sink.)*
- Speculation to hypothesize to additional contexts *(I think, I wonder if...)*

GRADE 1

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.1.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or simple design problems based on observations and data about a phenomenon
- Analyzing several events and observations to help explain how or why a phenomenon occurs
- Identifying information from observations (that supports particular points in explanations)

ELD-SC.1.Explain.Expressive
Construct scientific explanations that

- Describe observations and/or data about a phenomenon
- Relate how a series of events causes something to happen
- Compare multiple solutions to a problem

Language Functions and Sample Language Features

Describe observations and/or data about a phenomenon through...

- Openers to engage audience *(Did you know how frogs change?)*
- Abstract and technical terms to add precision *(tadpole, adapt, life cycle)*
- Pictures, diagrams, graphs to add information or illustrate content
- Cohesion to reference ideas, people across text (pronouns, renaming subject, demonstratives such as *this, that*)

Relate how a series of events causes something to happen through...

- Timeless verbs to state on-going facts about phenomenon *(Tadpoles change into frogs)*
- Prepositional phrases to provide details *(where, when, how; Tadpoles live in the water.)*
- Relating verbs *(have, be, belong to)* and conjunctions to state relationships or compare attributes *(Tadpoles have gills but frogs have lungs.)*
- Connectors to express sequences in time *(first, next, last)*

Compare multiple solutions to a problem through...

- Visual data displays (charts, graphs) to support explanations
- Declarative statements to present conclusions *(Living things grow and change.)*
- Speculation to hypothesize to additional contexts *(I think, I wonder if...)*

GRADE 1

WIDA ELD STANDARD 5
Language for Social Studies

Inform

Language Expectations: Multilingual learners will...

ELD-SS.1.Inform.Interpretive
Interpret informational texts in social studies by

- Determining topic associated with compelling or supporting questions
- Defining and classifying attributes, characteristics, and qualities in relevant information

ELD-SS.1.Inform.Expressive
Construct informational texts in social studies that

- Introduce topic associated with compelling or supporting questions
- Provide details about disciplinary ideas

Language Functions and Sample Language Features

Introduce topic associated with compelling or supporting questions through...

- Generalized nouns to introduce topic *(weather, maps, environment)*
- Pronouns *(it, they),* demonstratives *(this, these, that, those),* to reference topic or ideas across text
- Relating verbs *(have, be, belong)* to define topic or type of information *(There are seven continents.)*
- Verbs *(are going to, will,)* to link compelling questions with topic *(We're going to learn about what people do in different places.)*

Provide details about disciplinary ideas through...

- Noun groups to describe and add precision to answer questions about what something is like, its quantity, qualities *(hot places, many countries, lots of rain)*
- Prepositional phrases to describe place or location *(below the Equator, on the corner, underground, in the desert)*
- Adverbials to specify periods of time, duration, specific points in time *(last year, long ago, August 12, in the future, everyday)*
- Visuals, labeled drawings to support ideas and information
- Compound sentences to add details *(Rice grows in hot and wet places.)*

GRADE 1

WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.1.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic
- Analyzing evidence gathered from source
- Evaluating source based on distinctions between fact and opinion

ELD-SS.1.Argue.Expressive
Construct social studies arguments that

- Introduce topic
- Select relevant information to support claim with evidence
- Show relationship between claim, evidence and reasoning

Language Functions and Sample Language Features

Introduce topic through...

- Title, generalized nouns to introduce topic *(Fresh fruit for lunch)*
- Declarative statements to identify position *(School lunch should have fresh fruit.)* and/or provide background information *(Fruit is good for children to eat.)*
- Pronouns *(it, they, we, our),* demonstratives *(these, this, that, those),* and renaming subject *(food=it; students=we=children)* to reference topic across text

Select relevant information to support claim with evidence through...

- Relating verbs *(have, be)* to identify topic *(Fruit is part of the food pyramid. Children need fruit every day.)*
- Prepositional phrases to identify time and place (every day, at lunch, in school)
- Visuals (labeled drawings) to support purpose
- Expanded noun phrases to add details *(fresh fruit, healthy food)*

Show relationship between claim and evidence, and reasoning through...

- Connectors (because, so, and) to link claims with evidence and reasoning *(We should eat fruit every day because it has vitamins to help us grow.)*

Annotated Language Samples

Annotated Language Samples exemplify the WIDA ELD Standards Framework in action. In particular, they show an ELD Standards Statement, a Key Language Use, a Language Expectation, as well as its Language Functions and Language Features contextualized in authentic grade-level texts. The samples, drawn from the work of teachers and students from across the WIDA Consortium, help make more visible the language for content learning. In this way, educators can envision how to highlight language and plan for its systematic development during content learning.

LEGEND FOR THE ANNOTATED TEXTS

Several different conventions are used to indicate example Language Features in the annotated text:

- **Language Functions (bold white text on a green background)**
- **Connectors, sequence words (in bold)**
- Nouns and noun groups (in red with dashed underline)
- Verbs and verb groups (in green with dotted underline)
- Prepositional and adverbial phrases (in blue with diamond underline)
- *Objective/evaluative language (words or phrases) (in italics)*
- Cohesive devices (circles and arrows within the text) 
- *Clauses (underlined and italics)*
- Sentences (highlighted with boxes around them)

Note: Examples of sentences are declarative statements, statements of claims, statements foreshadowing events. See individual texts for more detail.

GRADE 1

WIDA ELD STANDARD 2
Language for Language Arts

Explain

Annotated Language Sample

Context: This text was written by a first-grader as part of a lesson on how to write procedural texts. This student chose to write about making an edible spider out of Rice Krispie treats (cereal with marshmallows). The teacher guided the students to sequence the steps in the procedure using connectors (e.g., first, next, then, lastly).

Prompt: Write a paragraph that tells someone how to make something.

Language Expectation: ELD-LA.1.Inform.Expressive
Multilingual learners use language to construct informational texts in language arts that
- Introduce and define topic and/or entity for audience
- Describe attributes and characteristics with facts, definitions, and relevant details

Functions & Features	How to Make a Spider Treat	Functions & Features
Introduce and define topic and/or entity for audience through... Title **Describe attributes and characteristics with facts, definitions and relevant details through...** Doing verbs to describe actions • sceesd [squeezed] • to mack [make] • use • pushd [pushed] • put	First, I sceesd [squeezed] a Rice krispy treat to mack [make] the body. Next, I use 8 pretzels for the legs and 2 for the fangs. Then, I pushd [pushed] 2 penusts [peanuts] in thet back as the spinnert [spinneret] lastly, I put 3 raisins for the eyes.	**Describe attributes and characteristics with facts, definitions and relevant details through...** Noun groups to add description and precision • Rice krispy treat • 8 pretzels • 2 penusts [peanuts] • the spinnert [spinneret] • 3 raisins Prepositional phrases • for the fangs • in thet back • for the eyes

GRADE 1

WIDA ELD STANDARD 4
Language for Science

Explain

Annotated Language Sample

Context: This text was written by first grade teacher modeling the writing of sequential explanations about observed phenomena. Together, the class deconstructed the text, examined its language and stages, and then jointly constructed a similar text about the life cycle of a butterfly.

Language Expectation ELD-SC.1.Explain.Expressive
Multilingual learners use language to construct scientific explanations that
- Describe observations and/or data about a phenomenon
- Relate how a series of events causes something to happen
- Compare multiple solutions to a problem

Functions & Features	The Life Cycle of a Frog	Functions & Features
Describe observations and/or data about a phenomenon through… Cohesion to reference ideas across a text • a tadpole … it (pronoun referencing) • the tadpole … it (pronoun referencing) Abstract and technical terms • the life cycle of a frog • stages • tadpole • froglet • adult frogs • the life cycle	The life cycle of a frog has several stages. **First,** a tadpole hatches out of an egg. It looks like a little fish. **Next,** the tadpole grows two back legs and its tail gets smaller. It is now called a "froglet." **Then,** it grows two front legs and the tail gets even smaller. **Finally,** it is a full-grown adult frog with four legs and no tail. Adult frogs can lay more eggs and the life cycle starts again.	**Relate how a series of events causes something to happen through…** Relating verbs • has • is Timeless verbs • hatches • grows Prepositional phrases to provide details about where or when • out of an egg Connectors • **first** • **next** • **then** • **finally**

GRADE 1

WIDA ELD STANDARD 5
Language for Social Studies

Inform

Annotated Language Sample

Context: This text comes from a first grade interdisciplinary unit. It was jointly written by a first grader and his teacher, who scribed for him. The student dictated the words and the teacher wrote them down. The teacher had been reading aloud informational texts on animals. The teacher had pointed out that in the texts, the authors write about what animals eat, their habitat, and where they live. Then each student chose an animal and made their own information booklet.

Prompt: Write an information report on an animal: tell your reader what type of animal it is, what it eats, and describe its habitat.

Language Expectation: ELD-SS.1.Inform.Expressive
Multilingual learners use language to construct informational texts in social studies that
- Introduce topic associated with compelling or supporting questions
- Provide details about disciplinary ideas

Functions & Features	Pandas	Functions & Features
Introduce topic associated with compelling or supporting questions through… Generalized nouns • pandas • habitat • a panda Relating verbs • are • should have	Pandas eat bamboo to stay alive. Pandas need a habitat to have food. Pandas are a type of animal. Pandas are a type of bear. A panda should have a type of habitat or a home. A panda lives in China. Pandas also have to drink fresh water.	**Provide details about disciplinary ideas through…** Noun groups to describe and add precision • a type of animal • a type of bear • a type of habitat or a home • fresh water Prepositional phrases to describe place or location • in China

Proficiency Level Descriptors

Remember...

Proficiency Level Descriptors (PLDs) illustrate a continuum of language development for multilingual learners across six levels of English language proficiency for each grade-level cluster. The descriptors span three dimensions of language: discourse, sentence, and word/phrase.

- Each proficiency level (PL) includes and builds on previous levels (e.g., PL4 = PL1 + PL2 + PL3 + PL4). PL6 is open-ended. It indicates that for all of us, language development continues throughout life.
- Language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors. Multilingual learners may take various paths to develop language.
- The PLDs are designed to be used in coordination with Language Expectations, Language Functions, and Language Features.
    - Whereas Language Expectations offer goals for how *all students* might use language to meet academic content standards, PLDs offer a succinct description of how multilingual learners might develop language *across levels of language proficiency* in moving toward meeting Language Expectations.
- In the PLDs, *text* is multimodal, including oral, visual, and written forms.
- Scaffolding learning increases accessibility for multilingual learners, supports and bolsters their opportunities to meaningfully engage in grade-level content learning, and builds toward independence. The PLDs are predicated on the idea that appropriate scaffolding supports students in moving through the language proficiency levels.

Grade 1 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around topics *(all about pandas)* with repetition, rhyming, and common language patterns	around topics *(all about pandas)* with short sentences	around topics (habitat, diet, behavior) through multiple related simple sentences	to meet a purpose in a series of extended sentences	to meet a purpose in a short text (to inform, narrate, entertain)	to meet a purpose through generic (not genre-specific) organizational patterns in texts (beginning, middle, end)
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	patterned language with repetitive words, phrases, and sentences	repetitive chunks of meaning across a text *(Brown bear, brown bear, what do you see?)*	some frequently used cohesive devices (demonstratives: *these, those, that, this*)	a few different types of cohesive devices (repetition, pronoun referencing, etc.)	multiple types of cohesive devices (synonyms, antonyms, *(We are all alike. We are all different.)*	a variety of cohesive devices that connect larger meaningful chunks of text (class/subclass: *animals like dogs, cats, tigers*)
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	frequently used single word noun groups *(dinosaurs)*	frequently used multi-word noun groups *(big tall dinosaurs)*	multi-word noun groups with connectors *(a big **and** hungry dinosaur)*	expanded noun groups with classifiers *(the biggest meat-eating dinosaurs)*	expanded noun groups with prepositional phrases *(the meat-eating dinosaurs in the jungle)*	expanded noun groups with embedded clauses *(the biggest meat-eating dinosaurs, who lived at that time)*
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	words, pictures, phrases, and chunks of language *(turtle eggs)*	chunks of language *(turtles swimming)*	simple sentences *(Turtles swim in the ocean.)*	related simple sentences *(Turtles are reptiles. They like warm water.)*	multiple related simple sentences *(There are many types of turtles. Some live in the ocean. Other turtles live in lakes and rivers.)*	simple and compound sentences with familiar ways of combining clauses (using coordinating conjunctions: *Some turtles eat only sea grasses, but others eat shrimp, crabs, and small fish.*)
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	repeated words and phrases in familiar contexts and topics *(classroom helpers)*	frequently used words and phrases in familiar contexts and topics *(Would you like to share…?)*	situation-specific words and phrases *(Plant the seeds in this pot.)*	an increasing number of words and phrases *(Tell me about your picture on the left.)*	a growing number of words and phrases in a variety of contexts *(How many red triangles are there?)*	an expanding number of words and phrases, including idioms and collocations *(plus and minus)*

Grade 1 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	single words, phrases, or chunks of language to represent ideas	phrases or short sentences to represent ideas with an intended purpose (to describe, narrate, share opinion)	short sentences linked together to convey an intended purpose	sentences that convey an intended purpose with an emerging organizational pattern *(one day, first, last, I think, etc.)*	short texts that convey an intended purpose using basic connectors *(first, and then, next)*	text that conveys an intended purpose (retelling an experience) using generic (beginning, middle, end or sequencing) organizational patterns
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	patterned language with repetitive phrases and sentences *(The big, hungry bear…)*	few frequently used cohesive devices (repetition: *The tiger… The tiger…*)	some frequently used cohesive devices (simple pronouns: *it, they, she, he*)	some formulaic cohesive devices (pronoun referencing: *my ball, her brother, they gave it to us, etc.*)	a growing number of cohesive devices (emerging use of articles to refer to the same word, substitution/ omission: *that one, so did I*)	an expanding number of cohesive devices to connect larger bundles of meaning (class/ subclass: *wild animals like lions, bears, tigers*)
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	limited elaboration (single words)	simple elaboration (familiar single nouns)	a few types of elaboration (adding a familiar adjective to describe a noun)	some types of elaboration (adding a newly learned adjective to a noun)	a growing number of types of elaboration (adding articles or demonstratives to a noun: *those big fluffy white clouds*)	a variety of types of elaboration (adding in a variety of adjectives)
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	words, pictures, phrases, and chunks of language *(flowers and trees)*	sentence fragments *(grow taller)*	sentence fragments and emerging use of simple sentences *(had no water so died)*	simple sentences *(Plants need water. They need sun.)*	sentences with emerging use of clauses *(Plants need water but… They need sun. Those ones died.)*	simple and compound sentences (with some coordinating conjunctions: *Our plants died and those ones did too.*)
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and disciplinary language with…**					
	emerging use of words and phrases with attempted precision *(over there, line up in a row)*	few frequently used words and phrases with emerging precision *(lunch time, clean up my desk)*	some frequently used words and phrases with some precision *(have a nice day, I'm finished)*	a small repertoire of words and phrases with developing precision *(best friend, the red ball)*	a growing repertoire of words and phrases with growing precision *(preschool friends, math time, after lunch)*	an expanding repertoire of words and phrases including idioms and collocations, with expanding precision *(do homework, saving time)*

GRADES
2-3

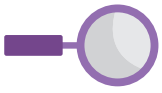
Grades 2-3

Second- and third-graders continue to make leaps in the ways they use language and think about themselves, their peers, and the world. These students are becoming more coordinated physically, and their problem-solving skills continue to sprout. These young learners reason and use logic to make more in-depth connections, discover causes and effects of phenomena or events, do more complex math, and experiment with how they express themselves through speech, writing, and multimodal means of communication (for example, through gestures, facial expressions, drawings, charts, and technology).

As multilingual learners explore specific activities that interest them, they can benefit from using all of their cultural experiences and multilingual skills—be it to communicate through social interactions or to tackle academic challenges. Children this age tend to enjoy being part of groups and teams and are generally eager to fit in. By partnering with families, educators can create culturally and linguistically sustaining classrooms so that all children feel welcome, nurtured, and safe, thus supporting their social and emotional development. As students in this age group are developmentally ready to start understanding various perspectives, this is an opportune time to highlight various cultures and languages in the classroom.

In this section you can find detailed, grade-level cluster specific information about the WIDA ELD Standards Framework. Remember that the **WIDA ELD Standards Statements** are the same from kindergarten through grade 12. Then, you will find the following materials for grades 2-3:

- The most prominent **Key Language Uses**
- **Language Expectations,** Language Functions, and Language Features
    - **Annotated Language Samples** illustrating WIDA ELD Standards Statements, Language Expectations, Functions, and Features in authentic grade-level texts
- **Proficiency Level Descriptors**



Before using these materials, be sure to read the information in Section 1 (Big Ideas) and Section 2 (Introduction to the WIDA ELD Standards Framework: WIDA ELD Standards Statements, Key Language Uses, Language Expectations, and Proficiency Level Descriptors).

Key Language Uses

Key Language Uses—Narrate, Inform, Explain, and Argue—are present across all grade levels and disciplines. Table 3-6 offers snapshots of some ways students engage in each Key Language Use throughout grades 2-3.

Table 3-6: Snapshots of Key Language Uses in Grades 2-3

Snapshots of Key Language Uses in Grades 2-3	
Narrate	• Develop a sense of narrative structure and the purposes for which people use narratives • Structure narratives to express experiences and ideas about familiar places and people • Add interactions and reactions to characters' actions to develop characters' inner and outer worlds
Inform	• Recognize the difference between imaginative stories and nonfiction informational texts • Develop an emerging sense of text structure as they interpret and create multimodal representations of their knowledge on topics of interest • Develop emerging research skills to build knowledge for reports
Explain	• Develop a sense of some causal, sequential, and cyclical relationships by observing concrete phenomena • Report observations of phenomena to build understanding of the world around them • Interpret and construct multimodal representations, such as diagrams and drawings, to illustrate how or why things work
Argue	• State opinions or construct tentative claims and offer those in class discussions • Recognize the difference between claims with and without support • Offer observations to support opinions and claims • Develop emerging research skills to use in constructing claims • Begin to use data from observations as evidence for their claims

Learn more about each Key Language Use across the grades and disciplines in Section 4: Resources—Key Language Uses: A Closer Look.

The **most prominent Key Language Uses** in grades 2-3 are the basis for its **Language Expectations.** They are marked with a filled-in circle (●) in the boxes of Table 3-7. The half-filled circle and the open circle indicate lesser degrees of prominence of each Key Language Use; see the legend underneath the table.

Table 3-7: Distribution of Key Language Uses in Grades 2-3

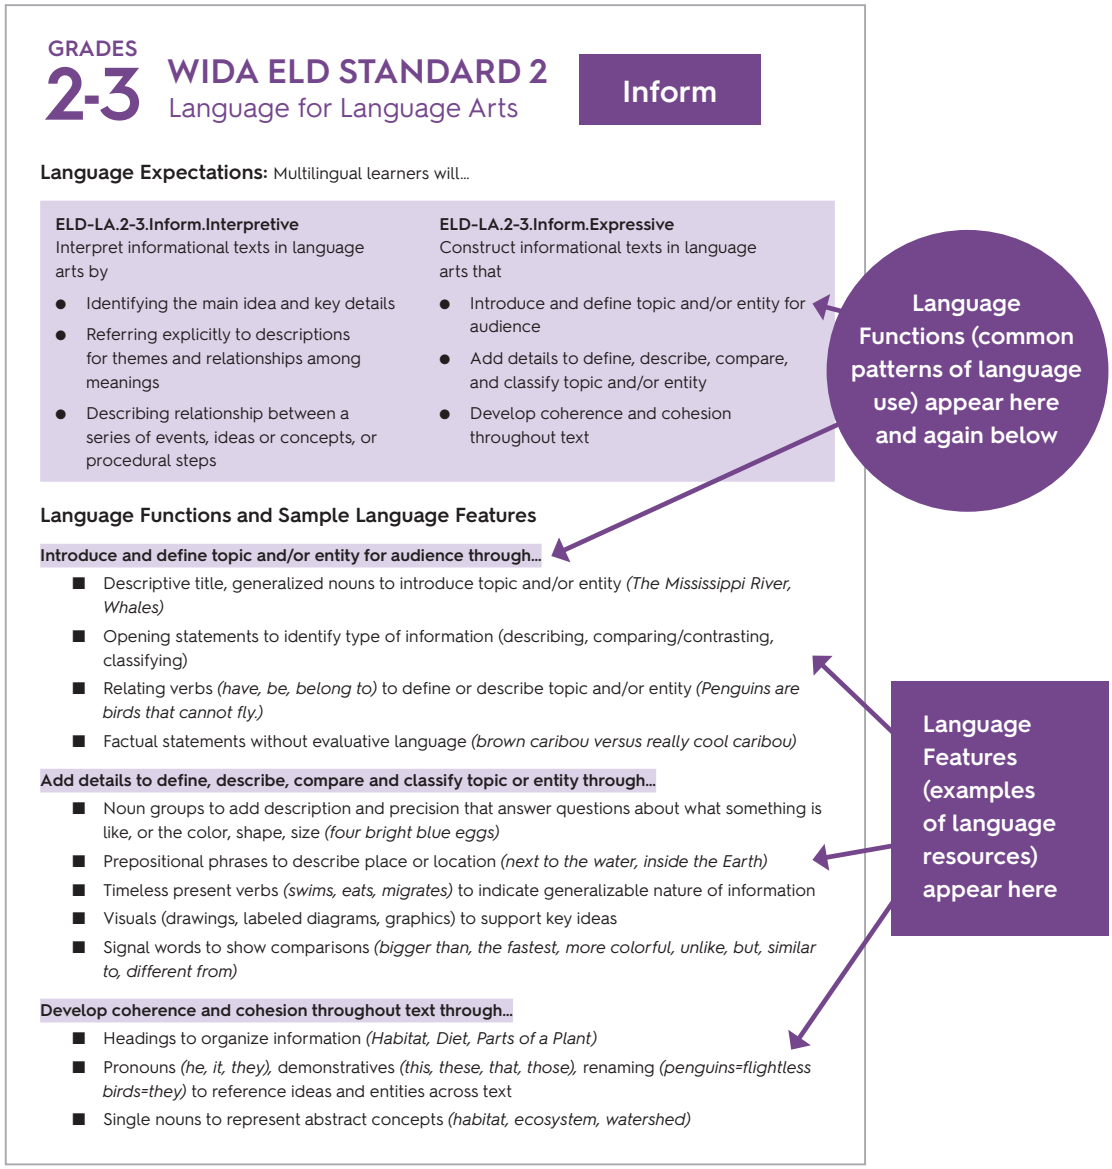
Language Expectations, Functions, and Features

Language Expectations are interpretive and expressive goals for content-driven language learning. They articulate the language necessary for meeting academic content standards.

Language Expectations are built around a set of **Language Functions.** Language Functions highlight common patterns of language use, showcasing particular ways students might use language to meet the purposes of schooling. For example, a series of Language Functions is associated with the process of constructing fictional narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation. In Figure 3-3, you can see that the Language Functions are listed in bulleted form, under the interpretive and expressive language expectations.



Given its broad scope and applicability, Language Expectations and Language Functions for **Standard 1** (Language for Social and Instructional Purposes) are presented in two wide-ranging spans, the first for grades K-3 and the second for grades 4-12. These are logical divisions between early childhood education and upper elementary years and beyond. Language Expectations and Functions for **Standard 1** can be readily interwoven or paired with those in **Standards 2-5** (Language for Language Arts, Mathematics, Science, and Social Studies). The pairing of Standard 1 with Standards 2-5 reminds us that students communicate as part of disciplinary learning, but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.

The Language Functions of Standards 2-5 are further delineated with **Language Features.** In Figure 3-3, you can see sample Language Features for each Language Function, marked with a box (■). Language Features are examples of various language resources that carry out particular Language Functions, such as different types of sentences, clauses, phrases, and words. Due to the intertwining nature of Standard 1 with Standards 2-5, there are no specific Language Features for Standard 1.

In the example here, you can see how the Language Features connect to the Language Functions in the expressive Language Expectations. Language Features are only shown in the expressive functions because those also help us see how learners have processed information through interpretive modes. For example, when multilingual learners share information about something they have heard, read, or viewed, we can use their expressive language skills to evaluate and guide our instructional choices.

Figure 3-3 on the next page shows how the Language Functions and Language Features appear.

Figure 3-3: Grades 2-3 Language Functions and Language Features

GRADES 2-3

WIDA ELD STANDARD 1

Social and Instructional Language

The Language Expectations and Language Functions of Standard 1 are interwoven and paired with those of Standards 2-5. For this reason, remember that there are no specific Language Features for Standard 1, and that the expectations for the interpretive and expressive communication modes are the same. As you can see from the reference codes, the Language Expectations are the same for students in kindergarten through grade 3.

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.K-3.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Ask questions about what others have shared
- Recount and restate ideas
- Discuss how stories might end or next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.K-3.Inform

- Define and classify objects or concepts
- Describe characteristics, patterns, or behavior
- Describe parts and wholes
- Sort, clarify, and summarize ideas
- Summarize information from interaction with others and from learning experiences

GRADES 2-3

WIDA ELD STANDARD 1

Social and Instructional Language

Language Expectations: Multilingual learners will...

Explain

ELD-SI.K-3.Explain

- Share initial thinking with others
- Follow and describe cycles in diagrams, steps in procedures, or causes and effects
- Compare and contrast objects or concepts
- Offer ideas and suggestions
- Act on feedback to revise understandings of how or why something works

Language Expectations: Multilingual learners will...

Argue

ELD-SI.K-3.Argue

- Ask questions about others' opinions
- Support own opinions with reasons
- Clarify and elaborate ideas based on feedback
- Defend change in one's own thinking
- Revise one's own opinions based on new information

GRADES 2-3

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.2-3.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a central message from key details
- Identifying how character attributes and actions contribute to event sequences
- Determining the meaning of words and phrases as they are used in texts, distinguishing literal from nonliteral language

ELD-LA.2-3.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context
- Develop story with time and event sequences, complication, resolution, or ending
- Engage and adjust for audience

Language Functions and Sample Language Features

Orient audience to context through...

- Pictures, descriptive title, opening statements *(It was a dark and stormy night; "What?!" exclaimed Mom)* to capture the reader's interest
- Expanded noun groups to introduce characters *(the old man on the block, the hungry little mouse)*
- Adverbials and prepositional phrases to establish time and location *(a hundred years ago, when I was six, on the playground, around the corner)*
- Statements to introduce problem or complication *(The boat began to leak. It all started when...)*

Develop story with time and event sequences, complication, resolution, or ending through...

- Saying verbs *(yelled, said, whispered)* to add details about characters in dialogs
- Verbs to describe what characters do, think, and feel
- Pronouns, renaming, and synonyms to reference characters, situations, or ideas across the text *(Miguel=my little brother=he; that night=the worst night)*
- Connectors to sequence time *(first, next, and then)* and events *(before, after, later),* and to combine and link event details *(and, but, so)*
- Verbs and adjectives to judge behavior and situation *(mended, destroyed, nasty, thoughtful)*
- Declarative statements to provide closure *(The End, It was over for good.)*

Engage and adjust for audience through...

- Language to address reader/listener and draw them in *(It was so exciting!)*
- Word choices to convey attitudes, develop suspense, share excitement *(my amazing adventure, super interesting, fantastic!)*
- Sensory and literary language *(yucky),* onomatopoeia *(BOOM! CRASH!)* to add interest
- Tone of voice, gesturing, acting behaviors to adjust for story audience
- Pictures and other graphics to complement storyline

GRADES 2-3

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.2-3.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying the main idea and key details
- Referring explicitly to descriptions for themes and relationships among meanings
- Describing relationship between a series of events, ideas or concepts, or procedural steps

ELD-LA.2-3.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Add details to define, describe, compare, and classify topic and/or entity
- Develop coherence and cohesion throughout text

Language Functions and Sample Language Features

Introduce and define topic and/or entity for audience through...

- Descriptive title, generalized nouns to introduce topic and/or entity *(The Mississippi River, Whales)*
- Opening statements to identify type of information (describing, comparing/contrasting, classifying)
- Relating verbs *(have, be, belong to)* to define or describe topic and/or entity *(Penguins are birds that cannot fly.)*
- Factual statements without evaluative language *(brown caribou versus really cool caribou)*

Add details to define, describe, compare, and classify topic or entity through...

- Noun groups to add description and precision that answer questions about what something is like, or the color, shape, size *(four bright blue eggs)*
- Prepositional phrases to describe place or location *(next to the water, inside the Earth)*
- Timeless present verbs *(swims, eats, migrates)* to indicate generalizable nature of information
- Visuals (drawings, labeled diagrams, graphics) to support key ideas
- Signal words to show comparisons *(bigger than, the fastest, more colorful, unlike, but, similar to, different from)*

Develop coherence and cohesion throughout text through...

- Headings to organize information *(Habitat, Diet, Parts of a Plant)*
- Pronouns *(he, it, they),* demonstratives *(this, these, that, those),* renaming *(penguins=flightless birds=they)* to reference ideas and entities across text
- Single nouns to represent abstract concepts *(habitat, ecosystem, watershed)*

GRADES 2-3

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will…

ELD-MA.2-3.Explain.Interpretive
Interpret mathematical explanations by

- Identifying concept or entity
- Analyzing plan for problem-solving steps
- Evaluating simple pattern or structure

ELD-MA.2-3.Explain.Expressive
Construct mathematical explanations that

- Introduce concept or entity
- Describe solution and steps used to solve problem with others
- State reasoning used to generate solution

Language Functions and Sample Language Features

Introduce a concept or entity through…

- Generalized nouns to identify concept *(fractions, equations, plot graphs)*
- Relating verbs *(be, have)* to define or describe concept *(Fractions are pieces of a whole thing.)*
- Mathematical terms to describe concept, process, purpose, or action *(mean, quotient, divide, subtract, reduce)*

Describe solution and steps used to solve problem with others through…

- Abstract nouns to establish context *(process, answer, approach, solution)*
- Past tense doing *(added, grouped)* and thinking *(thought, remembered)* verbs to recount steps
- Visuals (charts, diagrams, manipulatives, drawings) to support approach and/or solution
- Connectors to order steps *(first, next, then)* and show causal relationships *(because, so, then)*
- Compare/contrast signal words to differentiate results, approaches, objects *(Our solution is… but your group has a different solution.)*

State reasoning used to generate solution through…

- If/then clause structures to show reasoning *(if a shape only has 3 sides, then it is a triangle)*
- Declarative statements to state conclusion with a neutral stance of authority *(This shows five 3rd-grade students jumped higher than the average of seven inches.)*
- Thinking verbs to reflect on process *(I wonder if we tried, if it would be different, I think we should have done…)*

GRADES 2-3

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will...

ELD-MA.2-3.Argue.Interpretive
Interpret mathematics arguments by

- Identifying conjectures about what might be true
- Distinguishing connections among ideas in justifications
- Extracting mathematical operations and facts from solution strategies to create generalizations

ELD-MA.2-3.Argue.Expressive
Construct mathematics arguments that

- Create conjecture using definitions
- Generalize commonalities across cases
- Justify conclusion steps and strategies in simple patterns
- Identify and respond to others' arguments

Language Functions and Sample Language Features

Create conjecture using definitions through...

- Relating verbs *(have, belong to, be)* to make claim *(A is bigger than B because it is taller.)*
- Adverbial phrases (qualities, quantities, frequency) to add precision related to conjecture *(All squares have 4 equal sides. Triangles always have 3 sides.)*

Generalize by finding commonalities across cases through...

- A variety of structures such as comparatives *(er, est; more, most);* demonstratives *(these, both, that)* to point out similarities *(Both squares and rhombuses have 4 equal sides, ½ is bigger than ¼)*
- Conditional structures *(if/then, when)* to draw conclusions *(If 34+68=102 then 102-68=34, When a number is even you can divide it into two equal parts.)*

Justify conclusion steps and strategies in simple patterns through...

- Technical nouns to add precision and details *(place value, communicative property, angles, measurement, fractions, even/odd)*
- Causal connectors *(because, so, that means)* to present case to others *(The taller rectangle isn't always bigger because you have to look at the area inside.)*
- Drawings, manipulatives, models, diagrams to support thinking

Identify and respond to others' arguments through...

- Questions *(how, what, why)* to ask for clarification or information *(How did you get your answer?)*
- Declarative statements to disagree/debate *(I disagree, I'm not sure, I got a different answer...)*
- Declarative statements to counter claim or reasoning *(5-3 is not the same as 3-5, Just because it has 4 sides that doesn't make it a square, the sides have to be equal)*

GRADES 2-3

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.2-3.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or simple design problems based on observations, data, and prior knowledge about a phenomenon
- Obtaining and combining information from observations, and using evidence to help explain how or why a phenomenon occurs
- Identifying information from observations as well as evidence that supports particular points in explanations

ELD-SC.2-3.Explain.Expressive
Construct scientific explanations that

- Describe observations and/or data about a phenomenon
- Develop a logical sequence between data or evidence and claim
- Compare multiple solutions to a problem considering how well they meet the criteria and constraints of the design solution

Language Functions and Sample Language Features

Describe observations and/or data about a phenomenon through...

- Abstract nouns and to introduce concepts *(habitat)*
- Declarative statements to present facts
- Cohesion to reference ideas, people across text (pronouns, renaming subject, demonstratives: *this, that*)
- Relating verbs to state relationships or attributes *(have, be, belong to)*

Develop a logical sequence between data or evidence and claim through...

- Timeless verbs to state on-going facts about phenomenon *(Rain forests create oxygen.)*
- Connectors to sequence and order events across paragraphs *(first, second, begins, ends)*
- Causal connectors to link events *(because, so that, when)*
- Prepositional phrases to provide details *(where, when, how)*
- Clauses to express sequences in time *(after digestion, when the air cools)*
- Comparatives to show similarities and differences

Compare multiple solutions to a problem considering how well they meet the criteria and constraints of the design solution through...

- Technical terminology *(food chain, biome)* to add precision
- Comparatives to show similarities and differences
- Connectors to sequence and order events across paragraphs *(first, second, begins, ends)*
- Causal connectors to link events *(because, so that, when)*
- Prepositional phrases to provide details about where, when, how
- Clauses to express sequences in time *(after digestion, when the air cools)*

GRADES 2-3

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.2-3.Argue.Interpretive
Interpret scientific arguments by

- Identifying potential evidence from data, models, and/or information from investigations of phenomena or design solutions
- Analyzing whether evidence is relevant or not
- Distinguishing between evidence and opinions

ELD-SC.2-3.Argue.Expressive
Construct scientific arguments that

- Introduce topic/phenomenon for an issue related to the natural and designed world(s)
- Make a claim supported by relevant evidence
- Establish a neutral tone
- Signal logical relationships among reasoning, evidence, data, and/or a model when making a claim

Language Functions and Sample Language Features

Introduce topic/phenomenon for an issue related to the natural and designed world(s) through...

- Generalized nouns to interpret observations and evidence *(heating, cooling, temperatures, Heating butter makes it melt.)*
- Relating verbs *(have, belong to, be)* to define topic/phenomenon
- Nouns and adjectives to add precise technical descriptions *(solid, liquid)*

Make a claim supported by relevant evidence through...

- A variety of clause structures to connect and combine ideas *(If I add heat, I can melt butter. The butter melted because it got hot.)*
- Labeled pictures, diagrams to support claim
- Verb groups to add precision to the claim and/or evidence *(soften, harden, melt, cook, burn)*

Establish a neutral tone through...

- Declarative statements to state claim, observations, conclusion *(Temperature changes materials.)*
- Technical nouns to add precision and details *(materials, reversible/irreversible changes)*

Signal logical relationships among reasoning, evidence, data, and/or a model when making a claim through...

- Reference devices (pronouns, synonyms, renaming subject) to create cohesion across text *(Ice melts when it gets heated. It becomes water. Water turns to ice when it gets cold.)*
- A variety of clause structures to explain phenomenon *(because, but, when, like, so, so that)*

GRADES 2-3

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will...

ELD-SS.2-3.Explain.Interpretive
Interpret social studies explanations by

- Determining types of sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for event sequences and/or causes/effects
- Evaluating disciplinary concepts and ideas associated with a compelling or supporting question

ELD-SS.2-3.Explain.Expressive
Construct social studies explanations that

- Introduce phenomena or events
- Describe components, order, causes, or cycles
- Generalize possible reasons for a development or event

Language Functions and Sample Language Features

Introduce phenomena or events through...

- Language to speak to the reader directly and draw them in *(Did you know?)*
- Prepositional phrases of time, place to contextualize phenomena or events
- Relating verbs *(be, have)* to define phenomena or events *(Deserts are the driest places on earth)*
- Pronouns and renaming to reference ideas and people across the text *(explorers=Spaniards=they)*
- Single nouns to represent abstract concepts *(habitat, pollution)*

Describe components, order, causes, or cycles through...

- Connectors to establish relationships among ideas: sequence examples *(first, another);* time markers *(after an earthquake, millions of years later);* causality *(because, so that)*
- Prepositional phrases to add spatial and directional details *(The river flows down the mountain.)*
- Expanded noun groups that include adjectives to answer questions about how many, and what something is like (*seven continents, longest river)*
- Past tense verbs to describe events
- Adverbials to place event in time *(last year, a long time ago, everyday)*

Generalize possible reasons for a development or event through...

- Declarative statements to evaluate and interpret events *(The fish are dying because people throw trash in the ocean.)*
- Verbs and adjectives to judge behavior or moral character *(wasting, destroying, bad)*
- Verbs to highlight agents and recipients
- Evaluative language to summarize event *(best, important, dangerous, sad)*

GRADES 2-3

WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.2-3.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information from one or two sources to develop claims in response to compelling questions
- Evaluating source credibility based on distinctions between fact and opinion

ELD-SS.2-3.Argue.Expressive
Construct social studies arguments that

- Introduce topic
- Select relevant information to support claims with evidence from one or more sources
- Show relationships between claim, evidence, and reasoning

Language Functions and Sample Language Features

Introduce topic through...

- Title, generalized nouns to introduce topic *(Important People, Nurses, Community Helpers)*
- Declarative statement to present position and/or provide background information *(Nurses are the most important people in our community.)*
- Pronouns *(they, we, us),* demonstratives *(these, this, that, those),* and renaming subject *(nurses=they=helpers)* to reference topic across text
- Text connectors to sequence ideas, support *(Three reasons why nurses are important. First..., Next..., Finally)*

Select relevant information to support claims with evidence from one or more sources through...

- Prepositional phrases to identify time, place, *(last year, in January, in our town, at school)*
- Past tense verbs to describe events *(helped, fixed, took care of)*
- Evaluative verbs, adverbs, and adjectives to add author's perspective *(helped, nicely, best)*

Show relationships between claim, evidence, and reasoning through...

- Connectors *(because, so, and)* to link claims with evidence and reasoning *(Nurses are important because they help sick people feel better.)*
- Connectors show concession or comparison/contrast *(if, but; Some people don't like shots but nurses do other things to help people.)*
- Summary statements to reiterate position *(That's why nurses are important community helpers.)*

Annotated Language Samples

Annotated Language Samples exemplify the WIDA ELD Standards Framework in action. In particular, they show an ELD Standards Statement, a Key Language Use, a Language Expectation, as well as its Language Functions and Language Features contextualized in authentic grade-level texts. The samples, drawn from the work of teachers and students from across the WIDA Consortium, help make more visible the language for content learning. In this way, educators can envision how to highlight language and plan for its systematic development during content learning.

LEGEND FOR THE ANNOTATED TEXTS

Several different conventions are used to indicate example Language Features in the annotated text:

- **Language Functions (bold white text on a purple background)**
- **Connectors, sequence words (in bold)**
- Nouns and noun groups (in red with dashed underline)
- Verbs and verb groups (in green with dotted underline)
- Prepositional and adverbial phrases (in blue with diamond underline)
- *Objective/evaluative language (words or phrases) (in italics)*
- Cohesive devices (circles and arrows within the text) 
- *Clauses (underlined and italics)*
- Sentences (highlighted with boxes around them)

Note: Examples of sentences are declarative statements, statements of claims, statements foreshadowing events. See individual texts for more detail.

GRADES 2-3

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Annotated Language Sample

Context: This text was written by a multilingual student in grade 2. As part of the language arts program, the teacher asks students to write every day in a journal. This is a piece from that journal.

Prompt: It is journal writing time. You can write about whatever you would like. Maybe you want to write a story, or some of you might want to write about characters from movies you like.

Language Expectation: ELD-LA.2-3.Narrate.Expressive
Multilingual learners use language to construct language arts narratives that
- Orient audience to context
- Develop story with time and event sequences, complication, resolution or ending
- Engage and adjust for audience

Functions & Features	Olaf	Functions & Features
Orient audience to context through… Pictures Noun groups to introduce characters • Olaf Prepositional phrases to establish time and location • in Summer **Engage and adjust for audience through…** Word choices to convey attitudes • *haveing fun*	This is Olaf he is playing in Summer with flowers and different animals he likes Summer he is *haveing* *fun* in Summer! *Example of Student Writing*  	**Develop story with time and event sequences, complication, resolution or ending through…** Verbs to describe what characters do • is playing • is haveing fun Verbs to describe what characters feel • likes Pronouns to reference characters • Olaf … he …. he … he

GRADES 2-3

WIDA ELD STANDARD 4
Language for Science

Explain

Annotated Language Sample

Context: This text was written by a multilingual third grader. As the teacher worked on supporting students to develop explanations, she showed them how critical information was concentrated in the noun groups. Together, the class learned how to expand the noun groups to include details such as fewer sticky toe pads, the green anoles, etc. Students jointly constructed noun groups, comparing and contrasting which ones included sufficient information needed to communicate hereditary traits. After that, students wrote independently.

Prompt: Which green anoles (a type of lizard) were most likely to be caught by the brown anoles? Why is that?

Language Expectation: ELD-SC.2-3.Explain.Expressive
Multilingual learners use language to construct scientific explanations that
- Describe observations and/or data about a phenomenon
- Develop a logical sequence between data or evidence and claim
- Compare multiple solutions to a problem considering how well they meet the criteria and constraints of the design solution

Functions & Features	Green and Brown Anoles	Functions & Features
Describe observations and/or data about a phenomenon through… Declarative statements to state present facts • The green anoles that were born … good. Cohesion to reference ideas across text • a brown anole … the brown anoles (renaming subject) Relating verbs to state attributes • are	The green anoles that were born with *fewer* sticky toe scales are *most likely* to get caught by a brown anole **because** the brown anoles can't climb *that good*.	**Develop a logical sequence between data or evidence and claim through…** Causal connectors to link events • **because** Prepositional phrases to provide details • with fewer sticky toe scales • by a brown anole Comparatives to show similarities and differences • *fewer* • *most likely* • *that good*

Proficiency Level Descriptors

Remember...

Proficiency Level Descriptors (PLDs) illustrate a continuum of language development for multilingual learners across six levels of English language proficiency for each grade-level cluster. The descriptors span three dimensions of language: discourse, sentence, and word/phrase.

- Each proficiency level (PL) includes and builds on previous levels (e.g., PL4 = PL1 + PL2 + PL3 + PL4). PL6 is open-ended. It indicates that for all of us, language development continues throughout life.
- Language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors. Multilingual learners may take various paths to develop language.
- The PLDs are designed to be used in coordination with Language Expectations, Language Functions, and Language Features.
    - Whereas Language Expectations offer goals for how *all students* might use language to meet academic content standards, PLDs offer a succinct description of how multilingual learners might develop language *across levels of language proficiency* in moving toward meeting Language Expectations.
- In the PLDs, *text* is multimodal, including oral, visual, and written forms.
- Scaffolding learning increases accessibility for multilingual learners, supports and bolsters their opportunities to meaningfully engage in grade-level content learning, and builds toward independence. The PLDs are predicated on the idea that appropriate scaffolding supports students in moving through the language proficiency levels.

Grades 2-3 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around general topics (continents, shapes, animals) with short sentences	around specific topics (habitats, diet, behavior) with multiple related simple sentences	to meet a purpose (to inform, narrate, argue or explain) in a series of extended sentences	to meet a purpose in a short text	to meet a purpose through generic (not genre-specific) organizational patterns in texts (introduction, body, conclusion)	to meet a purpose through genre-specific organizational patterns (paragraph openers and topic sentences signaling relationships between paragraphs)
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	repetitive chunks of meaning across text *(red crayon, yellow crayon, blue crayon)*	frequently used cohesive devices (demonstratives: *this, that, these, those*)	a few different types of cohesive devices (pronoun referencing, etc.)	multiple cohesive devices (synonyms, antonyms)	a variety of cohesive devices that connect larger meaningful chunks of text (class/subclass: shapes like circles, triangles, and rectangles)	a wide variety of cohesive devices that connect ideas throughout text (whole/part, class/subclass, substitution: *The **rectangle** is a big **one**.*) and ellipsis *(There isn't any. [milk])*
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	frequently used multi-word noun groups *(green frogs)*	multi-word noun groups with connectors *(green **and** slimy frogs)*	expanded noun groups with classifiers *(tree frogs and poison frogs)*	expanded noun groups with prepositional phrases *(three little green tree frogs on the log)*	expanded noun groups with embedded clauses *(three little green tree frogs that jumped into the water)*	expanded noun groups with a variety of embedded clauses *(three little green tree frogs with long legs that swam away and didn't come back)*
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	chunks of language *(stick to rocks and coral)*	simple sentences *(They stick to rocks and coral.)*	related simple sentences *(They look like plants. They stick to rocks and coral.)*	multiple related simple sentences *(They are called anemones. They look like plants. They stick to rocks and coral.)*	simple and compound sentences with familiar ways of combining clauses (using coordinating conjunctions: *They are called anemones* **and** *they look like plants.*)	compound sentences with frequently used ways of combining clauses (coordinating conjunctions: *Anemones look like plants* **but** *they are sea animals.*)
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	frequently used words and phrases in familiar contexts and topics *(time to clean up)*	situation-specific words and phrases *(How do we spell that word?)*	an increasing number of words and phrases (my favorite characters in this story)	a growing number of words and phrases in a variety of contexts (nonfiction books)	an expanding number of words and phrases, including idioms and collocations (plus and minus)	a variety of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns (in the book about dolphins…)

Grades 2-3 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	single words and phrases to represent ideas with an intended purpose (to inform, narrate, share opinion)	short sentences linked by topic to convey intended purpose	sentences convey intended purpose with emerging organization (topic sentence, supporting details)	short text that conveys intended purpose using predictable organizational patterns (signaled with some paragraph openers: *Last week, When I was five, I think, etc.*)	expanding text that conveys intended purpose using generic (not genre-specific) organizational patterns across paragraphs (introduction, body, conclusion)	text that conveys intended purpose using genre-specific organizational patterns (opinion and reasons; information and details)
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	few frequently used cohesive devices (repetition)	some frequently used cohesive devices (demonstratives)	some formulaic cohesive devices (pronoun referencing)	a growing number of cohesive devices (emerging use of articles to refer to the same word)	an expanding number of cohesive devices (given/new, whole/part, class/subclass)	a flexible number of cohesive devices (ellipsis, substitution/omission)
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	Simple elaboration (single nouns)	a few types of elaboration (adding a familiar adjective to describe a noun)	some types of elaboration (adding a newly learned adjective to a noun)	a growing number of types of elaboration (adding articles or demonstratives to a noun: *the* or *these clouds*)	a variety of types of elaboration (adding in a variety of adjectives)	a wide variety of types of elaboration (adding in embedded clauses after the noun *(those storm clouds that we saw yesterday)*
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	sentence fragments *(triangles and rectangles)*	sentence fragments and emerging use of simple sentences *(triangle has three sides)*	simple sentences *(A square has 4 right angles.)*	sentences with emerging use of clauses *(We put triangles, then rectangles)*	simple or compound sentences with familiar ways of combining clauses (with some coordinating conjunctions: *We put blue triangles, then we put red triangles.*)	compound and complex sentences with frequently used ways of combining clauses (with a broad range of coordinating conjunctions: *We put blue triangles, then red triangles, but there was no pattern.*)
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	few frequently used words and phrases with emerging precision *(Time to eat?)*	some frequently used words and phrases with some precision *(three groups of four equals…)*	a small repertoire of words and phrases with developing precision *(best friend, the red ball)*	a growing repertoire of words and phrases with growing precision *(preschool friends, math time, after lunch)*	an expanding repertoire of words and phrases including idioms and collocations with expanding precision *(hard as a rock)*	flexible repertoire of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns with consistent precision *(rounding off and finding the mean)*

GRADES
4-5

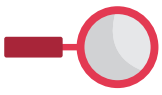
Grades 4-5

In the upper elementary grades, the classroom is bustling with activity as learners interact, interpret, and express themselves in multimodal ways. These students are beginning to think about more abstract ideas, and they are developing the ability to understand different points of view. They are improving their skills to plan and organize their thoughts and actions as they predict, process information, connect causes and effects, distinguish opinions from claims, and formulate claims substantiated with evidence. In the social-emotional realm, these students have a growing need to be independent, but also to be accepted and nurtured by family, adults in the school community, and peers.

Classrooms are windows for multilingual learners to make discoveries while expanding their language repertoire in content area learning. The oral and written language of fourth and fifth graders is becoming more sophisticated, and multilingual learners are increasing their range of numeracy, literacy, and other academic experiences through multiple languages and cultures. Authentic hands-on activities offer opportunities for multilingual learners to interact in pairs and small groups to enhance their learning. Collaborating in teams, multilingual learners rely on each other to problem-solve, dialogue, and build relationships with their peers as they share the world around them.

In this section you can find detailed, grade-level cluster specific information about the WIDA ELD Standards Framework. Remember that the **WIDA ELD Standards Statements** are the same from kindergarten through grade 12. Then, you will find the following materials for grades 4-5:

- The most prominent **Key Language Uses**
- **Language Expectations,** Language Functions, and Language Features
    - **Annotated Language Samples** illustrating WIDA ELD Standards Statements, Language Expectations, Functions, and Features in authentic grade-level texts
- **Proficiency Level Descriptors**



Before using these materials, be sure to read the information in Section 1 (Big Ideas) and Section 2 (Introduction to the WIDA ELD Standards Framework: WIDA ELD Standards Statements, Key Language Uses, Language Expectations, and Proficiency Level Descriptors).

Key Language Uses

Key Language Uses—Narrate, Inform, Explain, and Argue—are present across all grade levels and disciplines. Table 3-8 offers snapshots of some ways students engage in each Key Language Use throughout grades 4-5.

Table 3-8: Snapshots of Key Language Uses in Grades 4-5

Snapshots of Key Language Uses in Grades 4-5	
Narrate	• Add details about characters and settings • Use dialogue to provide insight into characters' motives and personalities • Create images in the reader's mind through descriptive language • Interpret and construct narratives in a variety of contexts and purposes, including fictional or historical narratives about significant individuals or events
Inform	• Provide objective general descriptions of entities and concepts of observable and unobservable phenomena • Share factual knowledge by moving from concrete and familiar topics to unfamiliar topics • Construct generalizations of concepts beyond experiences (e.g., compare earthquakes and cyclones)
Explain	• Identify consequences of actions or events • Give account for the underlying causes of how something works or why something happens • Begin to show underlying causes of more abstract phenomena
Argue	• Substantiate claims with evidence and reasoning • Use evidence from texts or data to support claims • Consider and engage with other voices, possibilities, and perspectives • Argue about topics that go beyond students' immediate contexts to topics outside their realm of personal experience

Learn more about each Key Language Use across the grades and disciplines in Section 4: Resources—Key Language Uses: A Closer Look.

The **most prominent Key Language Uses** in grades 4-5 are the basis for its **Language Expectations.** They are marked with a filled-in circle (●) in the boxes of Table 3-9. The half-filled circle and the open circle indicate lesser degrees of prominence of each Key Language Use; see the legend underneath the table.

Table 3-9: Distribution of Key Language Uses in Grades 4-5

Language Expectations, Functions, and Features

Language Expectations

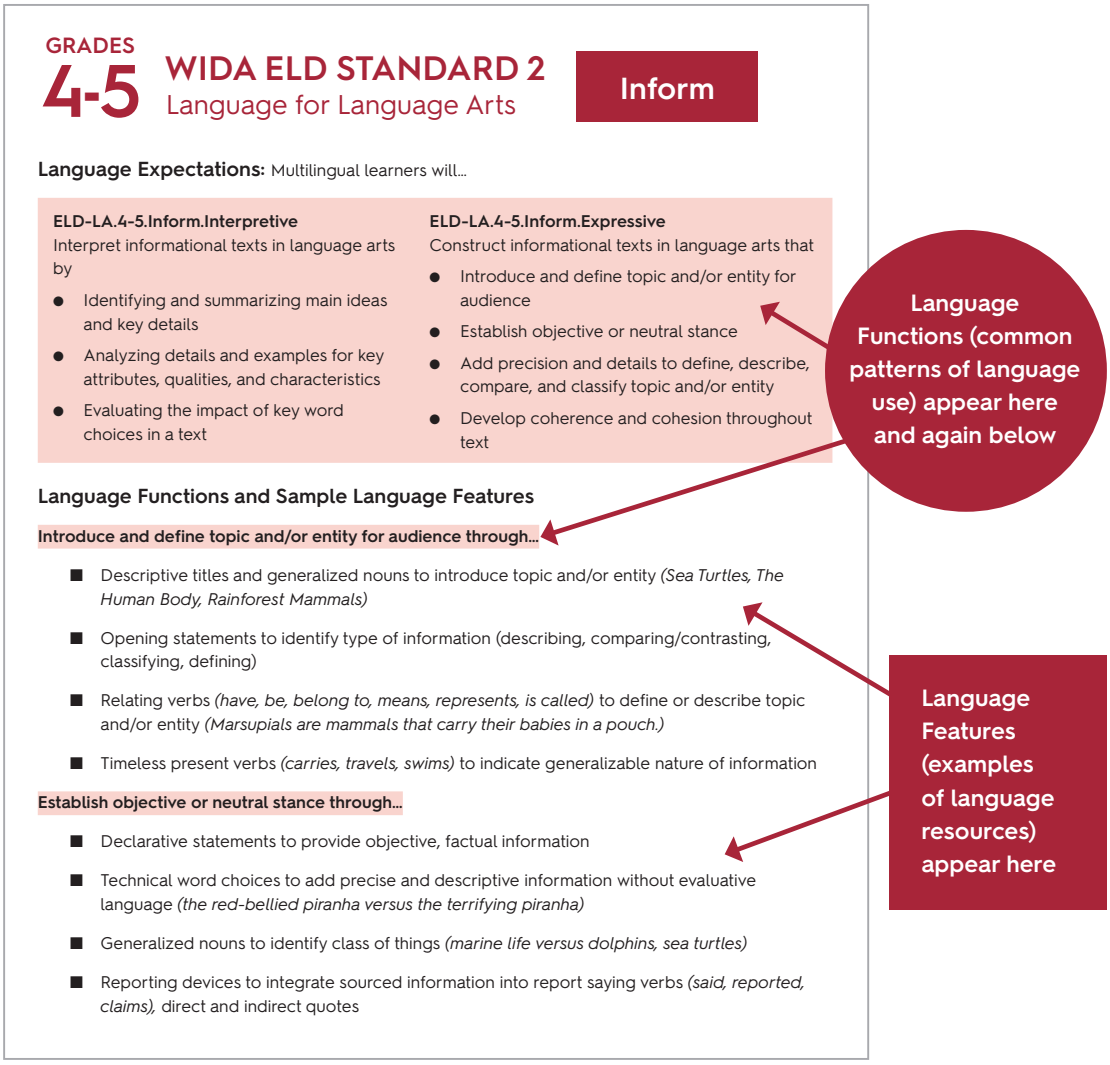
Language Expectations are interpretive and expressive goals for content-driven language learning. They articulate the language necessary for meeting academic content standards.

Language Functions

Language Expectations are built around a set of **Language Functions.** Language Functions highlight common patterns of language use, showcasing particular ways students might use language to meet the purposes of schooling. For example, a series of Language Functions is associated with the process of constructing fictional narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation. In Figure 3-4, you can see that the Language Functions are listed in bulleted form, under the interpretive and expressive language expectations.

Standard 1 Language Expectations and Language Functions

Given its broad scope and applicability, Language Expectations and Language Functions for **Standard 1** (Language for Social and Instructional Purposes) are presented in two wide-ranging spans, the first for grades K-3 and the second for grades 4-12. These are logical divisions between early childhood education and upper elementary years and beyond. Language Expectations and Functions for **Standard 1** can be readily interwoven or paired with those in **Standards 2-5** (Language for Language Arts, Mathematics, Science, and Social Studies). The pairing of Standard 1 with Standards 2-5 reminds us that students communicate as part of disciplinary learning, but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.



Language Features

The Language Functions of Standards 2-5 are further delineated with **Language Features.** In Figure 3-4, you can see sample Language Features for each Language Function, marked with a box (■). Language Features are examples of various language resources that carry out particular Language Functions, such as different types of sentences, clauses, phrases, and words. Due to the intertwining nature of Standard 1 with Standards 2-5, there are no specific Language Features for Standard 1.

In the example here, you can see how the Language Features connect to the Language Functions in the expressive Language Expectations. Language Features are only shown in the expressive functions because those also help us see how learners have processed information through interpretive modes. For example, when multilingual learners share information about something they have heard, read, or viewed, we can use their expressive language skills to evaluate and guide our instructional choices.

Figure 3-4 on the next page shows how the Language Functions and Language Features appear.

Figure 3-4: Grades 4-5 Language Functions and Language Features

GRADES
4-5 WIDA ELD STANDARD 1
Social and Instructional Language

The Language Expectations and Language Functions of Standard 1 are meant to be interwoven and paired with those of Standards 2-5. For this reason, remember that there are no specific Language Features for Standard 1, and that the expectations for the interpretive and expressive communication modes are the same. As you can see from the reference codes, the Language Expectations below are the same for grades 4-12.

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.4-12.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Identify and raise questions about what might be unexplained, missing, or left unsaid
- Recount and restate ideas to sustain and move dialogue forward
- Create closure, recap, and offer next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.4-12.Inform

- Define and classify facts and interpretations; determine what is known vs. unknown
- Report on explicit and inferred characteristics, patterns, or behavior
- Describe the parts and wholes of a system
- Sort, clarify, and summarize relationships
- Summarize most important aspects of information

GRADES 4-5

WIDA ELD STANDARD 1

Social and Instructional Language

Language Expectations: Multilingual learners will...

Explain

ELD-SI.4-12.Explain

- Generate and convey initial thinking
- Follow and describe cycles and sequences of steps or procedures and their causes and effects
- Compare changing variables, factors, and circumstances
- Offer alternatives to extend or deepen awareness of factors that contribute to particular outcomes
- Act on feedback to revise understandings of how or why something is or works in particular ways

Language Expectations: Multilingual learners will...

Argue

ELD-SI.4-12.Argue

- Generate questions about different perspectives
- Support or challenge an opinion, premise, or interpretation
- Clarify and elaborate ideas based on feedback
- Evaluate changes in thinking, identifying trade-offs
- Refine claims and reasoning based on new information or evidence

GRADES 4-5

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.4-5.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a theme from details
- Analyzing how character attributes and actions develop across event sequences
- Determining the meaning of words and phrases used in texts, including figurative language, such as metaphors and similes

ELD-LA.4-5.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context
- Develop and describe characters and their relationships
- Develop story with complication and resolution, time and event sequences
- Engage and adjust for audience

Language Functions and Sample Language Features

Orient audience to context through...

- Expanded noun groups to state who or what the narrative is about
- A variety of sentence types to establish the context e.g., questions, statements, dialog *("We must think only of the things that we must do," the old lady said.)*
- Adverbial and prepositional phrases to establish time and location *(During the last century, Last Tuesday, On Saturn's second outer ring, High above the city)*
- Statements and questions to foreshadow or state complication *(Would her dream ever come true? She knew not to give up.)*

Develop and describe characters and their relationships through...

- Verbs to describe character behaviors *(raced, explored),* thoughts *(wondered, believed),* feelings *(hoped, longed for),* speech *(mumbled, screamed, questioned)*
- Expanded noun groups to add description and detail *(seven powerful kings, curly-haired baby girl)*
- Expanded verb groups to show relationship between characters *(Uncle smiled lovingly at his nephew. She whispered angrily into Sonia's ear.)*
- Saying, thinking, and feeling dialog verbs to add nuance to characters' relationships
- Pronouns, demonstrative, renaming, synonyms to reference characters or ideas across the text *(he, his; these, this; Zeus=Greek God=King of Mt. Olympus)*

Develop story with complication and resolution, time and event sequences through…

- Dependent clauses to add details *(the race, which only happened every four years)*
- A variety of verb tenses to locate events in time, including dialog *("Where are you going?" I asked.)*
- Connectors to sequence time *(later that night),* and events *(While the game was on, we slipped out.)*
- Statements to provide closure, evaluate experience, or summarize narrative *(finally, it was over, the experience was enlightening, there are some things that can't be seen but only felt.)*

Engage and adjust for audience through…

- Evaluative word choices to describe author's attitudes *(awesome, scared, mean, enjoyed the time, most people)*
- Literary devices to enrich the narrative, including simile *(as cool as a cucumber),* personification, alliteration *(lounging lizard),* sensory words/phrases *(tingling),* onomatopoeia *(ZAP!)*
- Tone of voice, gesturing, acting behaviors to adjust for audience
- Language to address reader/listener and draw them in *(Listen while I tell you the most amazing story.)*

GRADES 4-5

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will…

ELD-LA.4-5.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying and summarizing main ideas and key details
- Analyzing details and examples for key attributes, qualities, and characteristics
- Evaluating the impact of key word choices in a text

ELD-LA.4-5.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Establish objective or neutral stance
- Add precision and details to define, describe, compare, and classify topic and/or entity
- Develop coherence and cohesion throughout text

Language Functions and Sample Language Features

Introduce and define topic and/or entity for audience through…

- Descriptive titles and generalized nouns to introduce topic and/or entity *(Sea Turtles, The Human Body, Rainforest Mammals)*
- Opening statements to identify type of information (describing, comparing/contrasting, classifying, defining)
- Relating verbs *(have, be, belong to, means, represents, is called)* to define or describe topic and/or entity *(Marsupials are mammals that carry their babies in a pouch.)*
- Timeless present verbs *(carries, travels, swims)* to indicate generalizable nature of information

Establish objective or neutral stance through…

- Declarative statements to provide objective, factual information
- Technical word choices to add precise and descriptive information without evaluative language *(the red-bellied piranha versus the terrifying piranha)*
- Generalized nouns to identify class of things *(marine life versus dolphins, sea turtles)*
- Reporting devices to integrate sourced information into saying verbs *(said, reported, claims),* direct and indirect quotes

Add precision and details to define, describe, compare, and classify topic and/or entity through…

- Adverbial and prepositional phrases to specify times and location *(every year, during the 17th century, in the North Atlantic, throughout Australia)*
- Comparing/contrasting connectors to differentiate between entities or components *(unlike/like, fewer/more than, however, likewise)*
- Variety of structures (past tenses, embedded clauses, passive voice, complex sentences) to report on past events
- Expanded noun groups and adjectives to add details to the concept or entity *(spherical ball of rocks or gas),* and to classify or qualify information *(environmental threats, greenhouse gasses)*
- Visuals (graphs, labeled diagrams, photos) to support key details

Develop coherence and cohesion throughout text through…

- Pronouns, demonstratives, synonyms, and renaming to reference and link ideas/entities across sections of text *(his, he; these, this; tornado=natural disaster; Orca=ocean mammal=killer whale)*
- Ellipsis to reduce repetition and redundancy *(Scientists asked legislators to make changes to protect turtles and they did [make the changes])*
- Topic nouns to begin sentences or paragraphs across text
- Nominalizations to represent abstract concepts *(Leatherbacks are declining=this decline in population)*

GRADES 4-5

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Language Expectations: Multilingual learners will...

ELD-LA.4-5.Argue.Interpretive
Interpret language arts arguments by

- Identifying main ideas
- Analyzing points of view about the same event or topic
- Evaluating how details, reasons, and evidence support particular points in a text

ELD-LA.4-5.Argue.Expressive
Construct language arts arguments that

- Introduce and develop a topic clearly; state an opinion
- Support opinions with reasons and information
- Use a formal style
- Logically connect opinions to appropriate evidence, facts, and details; offer a concluding statement or section

Language Functions and Sample Language Features

Introduce and develop a topic clearly; state an opinion through...

- Declarative statements to frame topic, provide background information, and state opinion *(The Proudest Blue provides a great example of being proud of your heritage.)*
- Noun groups *(adjectives, embedded clauses)* to add description and/or introduce topic *(Lance, a first-generation immigrant; Dinner, which was always wonderful)*
- Pronouns, synonyms, renaming subjects to maintain cohesion *(they=the new arrivals=immigrants=the foreigners)*
- First person *(I think, In my opinion)* or third person *(this book provides, the author believes)* to state an opinion

Support opinions with reasons and information through...

- A variety of clauses (adverbial, embedded) to support opinion and/or claim (quotes, examples, detailed descriptions)
- Expanded noun and verb groups to add detail *(Faizah arrived for her first day of school with a new backpack and light-up shoes.)*
- Connectors to elaborate an idea/interpretation *(so, this means, therefore, a way to think about this)*
- Connectors to link claim/opinion with evidence and reasoning *(because, as a result, when, if, although, but)*
- Modality to express obligation or certainty *(might, could, must, need to, have to)*

Use a formal style through…

- First person (personal) or third person (neutral) to present point of view *(The book tells us that even through difficult times, we can still stick to our culture.)*
- Authoritative declarative sentences to evaluate and interpret events *(The Proudest Blue teaches us to be proud of our culture.)*
- Evaluative adjectives and adverbs to add writer's perspective *(beautiful, amazing, unfortunately)*
- Emotive or objective language to appeal to logic or feelings *(love flowed from everything she made versus she cooked dinner)*

Logically connect opinions to appropriate supporting evidence, facts, and details; offer a concluding statement or section through…

- That-clauses to link claim with evidence *(This shows that the theme is)*
- Connectors to sequence points in the argument *(first, furthermore, as evidenced by)*
- Summary statement to reiterate opinion or encourage a response *(I recommend this book, a book to help us remember)*

GRADES 4-5

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will...

ELD-MA.4-5.Explain.Interpretive
Interpret mathematical explanations by

- Identifying concept or entity
- Analyzing problem-solving steps
- Evaluating a pattern or structure that follows a given rule

ELD-MA.4-5.Explain.Expressive
Construct mathematical explanations that

- Introduce concept or entity
- Share solution with others
- Describe data and/or steps to solve problem
- State reasoning used to generate solution

Language Functions and Sample Language Features

Introduce concept or entity through...

- Mathematical terms and phrases to describe concept, process, or purpose *(the angles within a circle can be measured with a protractor like this)*
- Relating verbs *(belong to, are part of, be, have)* to define or describe concept

Share solution with others through...

- Generalized nouns to add precision to discussion *(conversion, measurement, volume)*
- Language choices to reflect on completed and on-going process *(we should have done this, we might be able to, what if we try)*
- First person *(I, we)* to describe approach; third person to describe approach with neutral stance of authority
- Observational *(notice, it appears, looks like)* and comparative language *(different from, similar to, the same)* to share results *(We notice our process was different, but we have the same solution.)*

Describe data and/or steps to solve problem through…

- Abstract, generalized, or multi-meaning noun groups to add precision to mathematical descriptions *(operation, associative property, area formula, function)*
- Past tense doing verbs *(measured, converted)* and thinking verbs *(remembered, thought, figured out)* to recount steps
- Visuals (charts, graphs, diagrams, manipulatives, drawings) to support approach and/or solution
- Connectors to order steps *(first, next, then)* and indicate causal relationships *(because, so, that means, as a result)*

State reasoning used to generate solution through…

- Declarative statements to state conclusion with a neutral stance of authority *(These two fractions are equivalent because…)*
- Causal connectors to express reasoning *(We multiplied the two numbers together because…)*
- Conjunctions *(if/then, when/then, because, as, since, so that)* to establish result/condition relationships *(if the field has a length that is twice its width, then the area is…)*

GRADES 4-5

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will…

ELD-MA.4-5.Argue.Interpretive
Interpret mathematics arguments by

- Comparing conjectures with patterns, and/or rules
- Distinguishing commonalities and differences among ideas in justifications
- Extracting patterns or rules from solution strategies to create generalizations

ELD-MA.4-5.Argue.Expressive
Construct mathematics arguments that

- Create conjecture using definitions, patterns, and rules
- Generalize commonalities and differences across cases
- Justify conclusions with patterns or rules
- Evaluate others' arguments

Language Functions and Sample Language Features

Create conjecture using definitions, patterns, and rules through…

- Relating verbs *(have, belong to, be)* to make a claim *(9/15 is equivalent to 3/5 and 6/10 is an equivalent fraction too because they are all multiples)*
- Adverbial phrases *(for qualities, quantities, frequency)* to add precision related to conjecture *(The interior angles of a triangle will always add up to 180°)*

Generalize commonalities and differences across cases through…

- Conditional clauses *(when, if)* to extend conjecture *(If you remember the inverse operations, you can figure out the missing quantity by…)*
- Declarative statements to present generalizable processes *(The divisibility rules can help you find all the factor pairs of a product.)*

Justify conclusion with patterns or rules through…

- Conditional structures *(if/then, when)* to demonstrate conclusions *(Adding 3 to an even number always gives you an odd number and if you add 3 to an odd number, you will get an even number.)*
- Technical nouns and noun groups to add precision and details *(exponents, decimals, inverse operations, intersecting lines)*
- Drawings, manipulatives, diagrams, graphs, models to demonstrate thinking

Evaluate others' arguments through…

- Questions *(how, what, why)* and requests *(could, would)* to ask for clarification or information *(How did you know how to start? Could you explain this part of your diagram?)*
- Declarative statements to disagree/debate *(I don't think that's right, I disagree, how did you, I did it differently, let's compare our process)*

GRADES 4-5

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will…

ELD-SC.4-5.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or design problems based on observations, data, and prior knowledge about a phenomenon
- Obtaining and combining evidence and information to help explain how or why a phenomenon occurs
- Identifying evidence that supports particular points in an explanation

ELD-SC.4-5.Explain.Expressive
Construct scientific explanations that

- Describe observations and/or data about a phenomenon
- Establish neutral or objective stance in communicating results
- Develop reasoning to show relationships between evidence and claims
- Summarize and/or compare multiple solutions to a problem based on how well they meet the criteria and constraints of the design solution

Language Functions and Sample Language Features

Describe observations and/or evidence about a phenomenon through…

- Abstract nouns to introduce concepts, ideas, and technical terms *(cycles, states of matter, condensation)*
- Cohesion to reference ideas, people across text *(pronouns, renaming subject, synonyms)*
- Relating verbs to state relationships or attributes *(have, be, belong to)*
- Timeless verbs to state on-going facts about the phenomenon *(ocean water evaporates)*

Establish neutral or objective stance in communicating results through…

- Passive voice and declarative statements *(evaporation is caused by, ice and snow evaporate)*
- Word choices to moderate stance, e.g., hedging *(could/might, sometimes, usually)*
- Objective language to adjust precision and/or invite shared interest

Develop reasoning to show relationships between evidence and claims through…

- Nominalizations to represent abstract concepts *(condensation)*
- Connectors to link clauses and combine ideas into logical relationships *(so, because, and then),* or express causality (*when, although, in order to)*
- A variety of ways to describe phenomena (relative clauses, declarative statements)
- Given/new patterns to link relationships, add new details, and condense information into abstract nouns

Summarize and/or compare multiple solutions to a problem based on how well they meet the criteria and constraints of the design solution through…

- Labeling/describing diagrams, graphs and tables to add information about the phenomenon
- Ask and answer questions to clarify or hypothesize about phenomenon
- Conditional clauses *(if/then)* to generalize phenomenon to additional contexts

GRADES 4-5

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.4-5.Argue.Interpretive
Interpret scientific arguments by

- Identifying relevant evidence from data, models, and/or information from investigations of phenomena or design solutions
- Comparing reasoning and claims based on evidence
- Distinguishing among facts, reasoned judgment based on research findings, and speculation in an explanation

ELD-SC.4-5.Argue.Expressive
Construct scientific arguments that

- Introduce topic/phenomenon in issues related to the natural and designed world(s)
- Make and define a claim based on evidence, data, and/or model
- Establish a neutral tone or an objective stance
- Signal logical relationships among reasoning, relevant evidence, data, and/or a model when making a claim

Language Functions and Sample Language Features

Introduce topic/phenomenon related to the natural and designed world(s) through...

- Generalized nouns to define phenomenon *(weathering, erosion, eruptions, mapping)*
- Relating verbs *(have, belong to, be)* to define topic/phenomenon *(The Earth is shaped by many forces like wind and water.)*
- Expanded noun phrases to add clarity, classify, or add descriptions *(underground pressure, marine shell fossils)*

Make and define claim based on evidence, data, and/or model through...

- Expanded noun groups to add precision and details *(Earth's cycles of heating and cooling)*
- Connectors to link ideas *(as a result, therefore, over time)*
- Maps, diagrams, graphics, data to support claim/evidence

Establish a neutral tone or an objective stance through…

- Passive voice to keep focus on topic *(The Earth was shaped by many forces.)*
- Active verb groups to describe phenomenon *(Water erodes rock over time.)*
- Declarative third person statements to record claim, observations, conclusion *(Wind causes erosion in three ways.)*

Signal logical relationships among reasoning, relevant evidence, data, and/or a model when making a claim through…

- Connectors to signal time *(next, at the same time),* causality *(therefore, consequently, as a result, because),* clarification *(for example, this shows how)*
- Reference devices (pronouns, synonyms, renaming subject) to create cohesion across text
- Modal verbs to describe possible impacts of phenomenon on various situations, including human *(Natural forces like tsunamis and volcanic eruptions can impact the Earth's surface and people's safety.)*

GRADES 4-5

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will...

ELD-SS.4-5.Explain.Interpretive
Interpret social studies explanations by

- Determining different opinions in sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for a series of contributing factors or causes
- Evaluating disciplinary concepts and ideas that are open to different interpretations

ELD-SS.4-5.Explain.Expressive
Construct social studies explanations that

- Introduce phenomena or events
- Describe components, order, causes and effects, or cycles using relevant examples and details
- Generalize probable causes and effects of developments or events

Language Functions and Sample Language Features

Introduce phenomena or events through...

- Prepositional phrases of time, place to contextualize phenomena or events
- Relating verbs *(have, be)* to define phenomena or events
- Nouns to represent abstract concepts *(factors, effects, economics)*
- Cohesion to reference ideas, people across text (pronouns, substitutions, renaming, synonyms, collocations)

Describe components, order, causes and effects, or cycles using relevant examples and details through...

- Connectors to order, sequence, show relationships among ideas *(the first factor, after the bill passed, that caused)*
- Noun groups to provide details answering who, what, when, where *(They made maple syrup in the spring outside the winter camp.)*
- Verbs groups to add accuracy *(traveled quickly and quietly)*

Generalize probable causes and effects of developments or events through...

- Word choices to evaluate, judge, or appreciate significance of event or phenomenon
- Nominalizations to summarize events and name abstract phenomenon *(city expansion)*
- Declarative statements to evaluate or interpret events

GRADES 4-5

WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.4-5.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information from multiple sources to develop claims in response to compelling questions
- Evaluating point of view and credibility of source, based on distinctions between fact and opinion

ELD-SS.4-5.Argue.Expressive
Construct social studies arguments that

- Introduce topic
- Select relevant information to support claims with evidence from multiple sources
- Establish perspective
- Show relationships between claims with reasons and multiple sources of evidence

Language Functions and Sample Language Features

Introduce topic through...

- Generalized nouns and descriptive title to introduce topic *(Native Peoples of Wisconsin)*
- Declarative statements to present position and/or provide background information
- Expanded noun groups to provide detail about the topic with relative clauses *(The Ho-Chunk, an Indigenous Nation in Wisconsin)*
- Pronouns, synonyms, renaming subject to create cohesion
- Connectors to structure paragraphs *(first, In the beginning, meanwhile, as a result, In conclusion)*

Select relevant information to support claims with evidence gathered from multiple sources through...

- Variety of clauses (adverbial, embedded) to add details, examples, quotes, data *(in the book, according to, the author tells us)*
- Adverbial and prepositional phrases to specify time (duration, specific date, or range), location, how or why something happened *(During the 1800s, many native peoples were forced to move west because of settlers from the east.)*
- Doing verbs *(fled, hunted)* to identify agent

Establish perspective through…

- Passive voice to keep emphasis on main topic rather than who or what is doing the action (*the people were forced off their land).* Alternately, use active voice to keep emphasis on who or what is doing the action.
- Evaluative verbs, adverbs, and adjectives to add author's perspective *(forced, lonely, worst)*
- Objective or emotive language to appeal to logic or feelings *(relocated versus forcibly driven from their home)*

Show relationships between claims with reasons and multiple sources of evidence through…

- Connectors to link claims with evidence and reasoning *(because, so, and)*
- Connectors to signal alternate points of view *(one way, another way, on the other hand)*
- Connectors to show comparison/contrast *(if, unless, however)*
- Modality in summary statements to reiterate position, or create a call to action *(should, must, necessary to, might, could)*

Annotated Language Samples

Annotated Language Samples exemplify the WIDA ELD Standards Framework in action. In particular, they show an ELD Standards Statement, a Key Language Use, a Language Expectation, as well as its Language Functions and Language Features contextualized in authentic grade-level texts. The samples, drawn from the work of teachers and students from across the WIDA Consortium, help make more visible the language for content learning. In this way, educators can envision how to highlight language and plan for its systematic development during content learning.

LEGEND FOR THE ANNOTATED TEXTS

Several different conventions are used to indicate example Language Features in the annotated text:

- **Language Functions (bold white text on a red background)**
- **Connectors, sequence words (in bold)**
- Nouns and noun groups (in red with dashed underline)
- Verbs and verb groups (in green with dotted underline)
- Prepositional and adverbial phrases (in blue with diamond underline)
- *Objective/evaluative language (words or phrases) (in italics)*
- Cohesive devices (circles and arrows within the text) 
- *Clauses (underlined and italics)*
- Sentences (highlighted with boxes around them)

  Note: Examples of sentences are declarative statements, statements of claims, statements foreshadowing events. See individual texts for more detail.

GRADES 4-5

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Annotated Language Sample

Context: This is a mentor text developed by a teacher to apprentice her fourth-grade class to write arguments. The teacher read, deconstructed, and analyzed the mentor text with her students to make visible how the text is structured, as well as the way certain language features are employed to meet the purpose of the argument. Then, the teacher and students jointly constructed another argument text making use of similar structures and language features.

Language Expectation: ELD-LA.4-5.Argue.Expressive
Multilingual learners use language to construct language arts arguments that

- Introduce and develop a topic clearly; state an opinion
- Support opinions with reasons and information
- Use a formal style
- Logically connect opinions to appropriate evidence, facts, and details; offer a concluding statement or section

Functions & Features	School over Summer?	Functions & Features
Introduce and develop a topic clearly; state an opinion through… Declarative statement to frame the topic • Although there are … school over the summer. First person to state an opinion • I • my position Noun groups to introduce topic • many great things about vacations • students and teachers	Although there are many great things about vacations, students and teachers should go to school over the summer. I will share several reasons to support my position on this issue. **First**, if students went to school over the summer, they would forget less of what they learned during the school year and be better prepared for the next grade. **Also**, some students do not go on trips or go to camp, and going to school over the summer means they would not get bored.	**Support opinions with reasons and information through…** Noun groups and verb groups to add detail • several reasons • school year • would forget • do not go • would not get bored **Logically connect opinions to appropriate evidence through…** Connectors to sequence points in the argument • **first** • **also**

Functions & Features	School over Summer? *Continued*	Functions & Features
Introduce and develop a topic clearly; state an opinion through... Pronouns and renaming subject to maintain cohesion • teachers .... their own ... their time **Use a formal style through...** Third person to present point of view • teachers • students	**Additionally**, teachers work on their own during the summer anyway, and it *would be* a better use of their time to work with students. **As stated above**, it is my position that going to school over the summer would benefit students and teachers.	**Logically connect opinions to appropriate evidence through...** Connectors to sequence points in the argument • **additionally** • **as stated above** **Support opinions with reasons and information through...** Modality to express certainty • *would be ...* Summary statement to reiterate opinion • As stated above, it is my position that... teachers.

GRADES 4-5

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Annotated Language Sample

Context: This mentor text was developed by a researcher who modeled for fourth graders how to write an explanation for a social studies unit focusing on the indigenous people of Wisconsin. Students learned about who the groups of people are (and were) and studied the causes and effects of phenomena, such as removing people from their land, sending children to boarding schools, and treaties. For their writing assignment, students produced a factorial explanation where they identified and described the factors that led to a particular outcome, such as loss of identity, loss of language, and loss of culture.

Language Expectation: ELD-SS.4-5.Explain.Expressive
Multilingual learners use language to construct social studies explanations that
- Introduce phenomena or events
- Describe components, order, causes and effects, or cycles using relevant examples and details
- Generalize probable causes and effects of developments or events

Functions & Features	Loss of Identity and the Menominee	Functions & Features
Introduce phenomena or events through… Prepositional phrases of time, place to contextualize phenomenon or event • from the forest • before Europeans arrived • in western Wisconsin • along the … Green Bay • on the Wolf River Relating verbs to define phenomenon or event • is, is, is Cohesion to reference people across text • the Menominee Nation, the Menominee, Menominee people (renaming)	Identity is who you are. So, to say that you lost your identity is to say you lost who you are. This is what happened to the Menominee Nation of Wisconsin. The Menominee Nation is a group of people native to Wisconsin. Their traditions and identity come from the forest. Before the Europeans arrived the Menominee lived in western Wisconsin along the shores of Lake Michigan and Green Bay. They hunted for animals and fished for sturgeon on the Wolf River. The forest was very important to them. The forest is their identity. Menominee people say, "we are the forest".	**Describe components, order, causes and effects, or cycles using relevant examples and details through…** Noun groups to provide details answering who, what, when, where • the Menominee Nation of Wisconsin • a group of people native to Wisconsin • their tradition and identity • the forest • Menominee people Verbs groups to add accuracy • lived • hunted • fished

Functions & Features	Loss of Identity and the Menominee Continued	Functions & Features
Introduce phenomena or events through… Nouns to represent abstract concepts • identity • factors • homelands Cohesion to reference ideas, people across text • the first factor … this … it (pronouns) • they, they, they (repetition) • had to give up, had to give up (repetition) **Generalize probable causes and effects of events or developments through…** Nominalizations to summarize event and name abstract phenomenon • taking their land away • cutting down their forest • assimilation	When the Europeans arrived in the 1600s, everything changed for the worse. The Menominee people lost their identity, almost forever. **There are three factors** which caused the Menominee to lose their identity. The first is taking their land away, the second is cutting down their forest, the third is assimilation. **The first factor** that caused the Menominee people to lose their identity was that the US government forced them to give up their land. This happened first in the 1820s. Native peoples from New York were pushed out of their homelands and were trying to find a new place to live. The US government told the Menominee they had to give up 500,000 acres of their land to the Oneida and the Mochican. It happened again in 1848, when Wisconsin became a state. They had to give up the rest of their land. Without their forests, they couldn't be themselves. They lost their identity. *Fortunately*, some of the Menominee leaders fought back. In 1854, they got back 276,000 of forest along the Wolf River.	**Describe components, order, causes and effects, or cycles using relevant examples and details through…** Connectors to order, sequence, show relationships among ideas • **there are three factors** • **the first factor** Noun groups to provide details answering who or what • the US government • native peoples from New York • the Oneida and the Mochican • 500,000 acres of their land • some of the Menominee leaders • 276,000 of forest along the Wolf River Verbs groups to add accuracy • caused to lose • forced … to give up • happened • were pushed out • were trying to find • had to give up • couldn't be … • lost

Functions & Features	Loss of Identity and the Menominee Continued	Functions & Features
Introduce phenomena or events through… Nouns to represent abstract concepts • tradition • assimilation Relating verbs to define phenomenon • is **Generalize probable causes and effects of events or developments through…** Word choices to evaluate, judge, or appreciate significance of event • *unfortunately* • *destroyed* • *fortunately* • *alive* • *almost lost forever* • *never do that again* Declarative statements to evaluate or interpret events • Unfortunately, the US … forest. • Fortunately, … assimilation. • We should … group of people.	**The second factor** that caused the Menominee to lose their identity was logging. The Menominee tradition was to only cut down mature trees. This is a way to protect the forest. *Unfortunately,* the US forest service put a big sawmill on their land and used it to clear-cut big sections of the forest. Clear-cut is when you cut down everything at once. The forest service also left behind lots of brush which caught fire and *destroyed* more of the forest. The Menominee believe that they are the forest. When you cut down the forest, you cut down the people. **The third factor** that led to the Menominee to lose their identity was assimilation. …. *Fortunately*, there were enough Menominee people who fought the US government against taking their land, logging, and assimilation. **One time** the Menominee elders lay down on the highway to prevent the land from being sold. In 1969, a law was passed that gave them back their Reservation. **Today** there are many Menominee people who still remember their identity and teach their ways to the children. So the Menonimee identity is still *alive*. But because of the bad things the US government did, it was *almost lost forever*. We should remember what happened and *never do that again* to a group of people.	**Describe components, order, causes and effects, or cycles using relevant examples and details through…** Connectors to order, sequence, show relationships among ideas • **the second factor** • **the third factor** • **one time** • **today** Noun groups to provide details about who or what • the second factor that caused the Menominee to lose their identity • the Menominee tradition • the US forest service • big sections of the forest • the Menominee elders • the Menonimee identity • a group of people Verb groups to add accuracy • fought • lay down…to prevent • was passed • teach • should remember

Proficiency Level Descriptors

Remember...

Proficiency Level Descriptors (PLDs) illustrate a continuum of language development for multilingual learners across six levels of English language proficiency for each grade-level cluster. The descriptors span three dimensions of language: discourse, sentence, and word/phrase.

- Each proficiency level (PL) includes and builds on previous levels (e.g., PL4 = PL1 + PL2 + PL3 + PL4). PL6 is open-ended. It indicates that for all of us, language development continues throughout life.
- Language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors. Multilingual learners may take various paths to develop language.
- The PLDs are designed to be used in coordination with Language Expectations, Language Functions, and Language Features.
    - Whereas Language Expectations offer goals for how *all students* might use language to meet academic content standards, PLDs offer a succinct description of how multilingual learners might develop language *across levels of language proficiency* in moving toward meeting Language Expectations.
- In the PLDs, *text* is multimodal, including oral, visual, and written forms.
- Scaffolding learning increases accessibility for multilingual learners, supports and bolsters their opportunities to meaningfully engage in grade-level content learning, and builds toward their independence. The PLDs are predicated on the idea that appropriate scaffolding supports students in moving through the language proficiency levels.

Grades 4-5 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around specific topics *(clean water)* with multiple related simple sentences	to meet a purpose (to inform, argue, explain or narrate) in a series of topic-related extended sentences	to meet a purpose in a short, connected text	to meet a purpose through generic (not genre-specific) organizational patterns in a text (introduction, body, conclusion)	to meet a purpose through genre-specific organizational patterns (paragraph openers and topic sentences signaling relationships between paragraphs)	to meet a purpose through genre-specific organizational patterns (claim, evidence, reasoning) linking ideas, events, and reasons across a text
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	frequently used cohesive devices (repetition, demonstratives)	a few different types of cohesive devices (pronoun referencing, etc.)	multiple cohesive devices (synonyms, antonyms)	a variety of cohesive devices that connect larger meaningful chunks of text (including class/ subclass, whole/part)	a wide variety of cohesive devices that connect ideas throughout text including substitution and ellipsis	cohesive devices and common strategies that connect ideas throughout text (given/new)
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	multi-word noun groups with connectors *(mean and nasty bullies)*	expanded noun groups with classifiers *(mean and nasty fourth grade bullies)*	expanded noun groups with prepositional phrases *(my favorite character in this book)*	expanded noun groups with embedded clauses *(my favorite character who stood up to the bullies)*	expanded noun groups with a variety of embedded clauses *(my favorite character who stood up to the bullies and hardship)*	expanded noun groups with a wide variety embedded clauses and compacted noun groups (nominalization: *she stood up to bullies = her courage*)
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	simple sentences *(Strong winds blow through the forest.)*	related simple sentences *(Winds blow through the forest. The trees sway and shake.)*	multiple related simple sentences *(Winds blow through the forest. The trees sway and shake. Dead branches fall off to the ground.)*	simple or compound sentences with familiar ways of combining clauses (using coordinating conjunction: *The trees sway **and** shake, **and** dead branches fall off to the ground.*)	compound sentences with frequently used ways of combining clauses *(Strong winds blow through the forests, **but** the mighty oaks stand tall and proud.)*	compound and complex sentences with a variety of ways of combining clauses addressing genre, audience, and content area *(**When** strong winds blow through the forests, the trees sway and shake.)*
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	situation-specific words and phrases *(between those two black wires)*	an increasing number of words and phrases *(Over there on the board?)*	a growing number of words and phrases in a variety of contexts *(lightbulb went off, the electric circuit)*	an expanding number of words and phrases including idioms and collocations *(push and pull, quit pulling my leg)*	a variety of words and phrases, such as adverbials of time, manner, and place; verb types; collocations; and abstract nouns *(the invisible force between two magnets)*	a wide variety of words, phrases, and expressions with multiple meanings across content areas *(electric shock versus I'm shocked)*

Grades 4-5 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	short sentences linked by topic to convey an emerging sense of purpose (to inform, explain, argue, narrate)	sentences that convey intended purpose with emerging organization (topic sentence, supporting details)	short text that conveys intended purpose using predictable organizational patterns (signaled with some paragraph openers: *first, and then, then*)	expanding text that conveys intended purpose using generic (not genre-specific) organizational patterns across paragraphs (introduction, body, conclusion) with a variety of paragraph openers	text that conveys intended purpose using genre-specific organizational patterns (statement of position, arguments, call to action)	text that conveys intended purpose using genre-specific organizational patterns with strategic ways of signaling relationships between paragraphs and throughout text *(the first reason, the second reason, the evidence is…)*
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	some frequently used cohesive devices (repetition, demonstratives)	some formulaic cohesive devices (pronoun referencing, etc.)	a growing number of cohesive devices (emerging use of articles to refer to the same word, synonyms, antonyms)	an expanding variety of cohesive devices (given/new, whole/part, class/subclass)	a flexible number of cohesive devices (substitution, ellipsis, given/new)	a wide variety of cohesive devices used in genre- and discipline-specific ways
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	a few types of elaboration (adding familiar adjectives to describe nouns: *maple syrup*)	some types of elaboration (adding newly learned or multiple adjectives to nouns *(thick, sweet, sticky maple syrup)*	a growing number of types of elaboration (adding articles or demonstratives to nouns: *the dark syrup*)	a variety of types of elaboration (adding in a variety of adjectives including concrete and abstract nouns: *the long, slow process…*)	a wide variety of types of elaboration (adding in embedded clauses after the noun: *the sap which boiled for six hours…*)	flexible range of types of elaboration that includes embedded clauses and condensed noun groups (elaborating: *a sweet sap that turned into a delicious syrup after hours of boiling* and condensing through nominalization: *this tedious process*)

CONTINUED

Grades 4-5 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	sentence fragments and emerging use of simple sentences *(the blue one, the red one)*	simple sentences *(The red side pushed away. The blue side stayed.)*	sentences with emerging use of clauses *(The red side blocked the paperclip. The blue side picked it up. They are opposites.)*	simple or compound sentences with familiar ways of combining clauses (with coordinating conjunctions: *The red side repelled the paperclip, but also it….*)	compound and complex sentences with frequently used ways of combining clauses (with coordinating conjunctions: *Neither the red one nor the blue one…*)	compound and complex sentences characteristic of the genre and content area, with a variety of ways of combining clauses (with a range of techniques to extend, or shorten sentences: *The magnetic force caused the paperclip to lift off the table because the paperclip is metal.*)
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	some frequently used words and phrases with some precision *(social studies, government)*	a small repertoire of words and phrases with developing precision *(branches of government, executive power)*	a growing repertoire of words and phrases with growing precision *(the founders, "two if by land…")*	an expanding repertoire of words and phrases, including idioms and collocations with expanding precision *(the lights are on but nobody's home…)*	a flexible repertoire of words and phrases, such as adverbials of time, manner, and place; verb types; and abstract nouns; with consistent precision *(as a result of the war, forming a new nation)*	a variety of words and phrases, including evaluation, obligation, idioms, and collocations *(necessary sacrifices, outdated law, fit for a king)*

GRADES
6-8

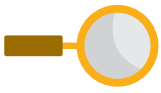
Grades 6-8

Middle schoolers are developing a stronger sense of independence, becoming more sophisticated thinkers and problem solvers. As they develop, they can more strategically self-regulate and plan how to use resources (including multiple languages and cultures), make decisions, and take steps to address academic challenges. They can use their thinking more flexibly, separate opinion from fact, substantiate claims with evidence, and recognize perspective and bias.

The home–school connection continues to be an important facet of education for middle-schoolers. Their interest in inquiry presents opportunities to explore various cultural points of view. In school and at home, students, families, and educators can discuss world events and issues while capitalizing on the community's collective linguistic and cultural knowledge.

In this section you can find detailed, grade-level cluster specific information about the WIDA ELD Standards Framework. Remember that the **WIDA ELD Standards Statements** are the same from kindergarten through grade 12. Then, you will find the following materials for grades 6-8:

- The most prominent **Key Language Uses**
- **Language Expectations,** Language Functions, and Language Features
    - **Annotated Language Samples** illustrating WIDA ELD Standards Statements, Language Expectations, Functions, and Features in authentic grade-level texts
- **Proficiency Level Descriptors**



Before using these materials, be sure to read the information in Section 1 (Big Ideas) and Section 2 (Introduction to the WIDA ELD Standards Framework: WIDA ELD Standards Statements, Key Language Uses, Language Expectations, and Proficiency Level Descriptors).

Key Language Uses

Key Language Uses—Narrate, Inform, Explain, and Argue—are present across all grade levels and disciplines. Table 3-10 offers snapshots of some ways students engage in each Key Language Use throughout grades 6-8.

Table 3-10: Snapshots of Key Language Uses in Grades 6-8

Snapshots of Key Language Uses in Grades 6-8	
Narrate	• Describe people, objects, and scenes using imagery, metaphors, and other stylistic devices • Manipulate pace to bring attention to key points in the narrative • Underscore the significance of events • Create tension and suspense • Interpret and use historical narratives as primary source evidence in constructing arguments
Inform	• Manage information about entities according to their composition, taxonomies, and classifications • Identify and describe various relationships among ideas and information • Interpret multiple sources of information to develop knowledge before reporting on topics • Construct research reports that require multiple sources of factual information
Explain	• Identify, analyze, and give account for causal, consequential, or systems relationships • Apply scientific reasoning to show how or why something works • Construct explanations using models or representations • Use evidence in the construction of scientific explanations
Argue	• Interpret multiple sources of information to develop claims and counterclaims • Construct claims and offer them for debate • Respond to counterclaims • Contextualize and evaluate primary and secondary sources • Analyze literary techniques, such as the development of theme and characterization in works of fiction

Learn more about each Key Language Use across the grades and disciplines in Section 4: Resources—Key Language Uses: A Closer Look.

The **most prominent Key Language Uses** in grades 6-8 are the basis for its **Language Expectations.** They are marked with a filled-in circle (●) in the boxes of Table 3-11. The half-filled circle and the open circle indicate lesser degrees of prominence of each Key Language Use; see the legend underneath the table.

Language Expectations, Functions, and Features

Language Expectations

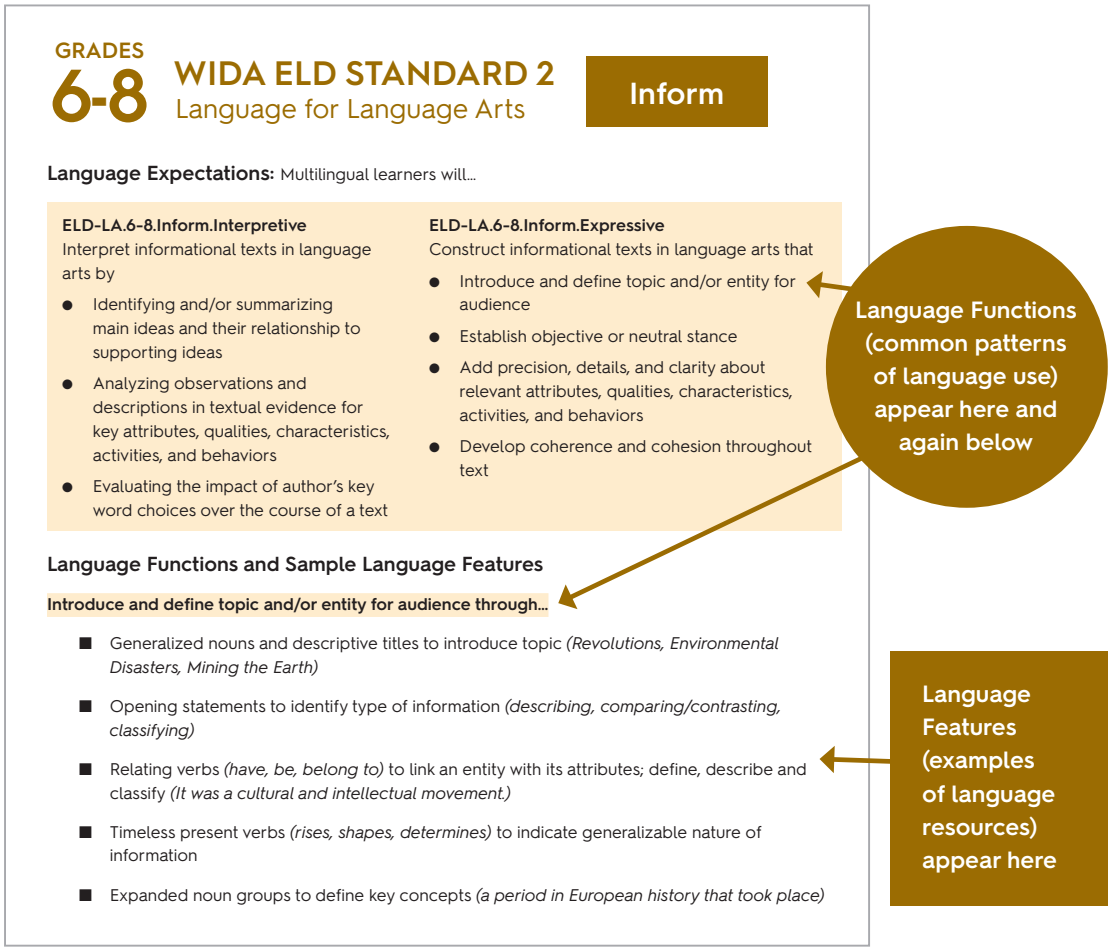
Language Expectations are interpretive and expressive goals for content-driven language learning. They articulate the language necessary for meeting academic content standards.

Language Functions

Language Expectations are built around a set of **Language Functions.** Language Functions highlight common patterns of language use, showcasing particular ways students might use language to meet the purposes of schooling. For example, a series of Language Functions is associated with the process of constructing fictional narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation. In Figure 3-5, you can see that the Language Functions are listed in bulleted form, under the interpretive and expressive language expectations.

Standard 1 Language Expectations and Language Functions

Given its broad scope and applicability, Language Expectations and Language Functions for **Standard 1** (Language for Social and Instructional Purposes) are presented in two wide-ranging spans, the first for grades K-3 and the second for grades 4-12. These are logical divisions between early childhood education and upper elementary years and beyond. Language Expectations and Functions for **Standard 1** can be readily interwoven or paired with those in **Standards 2-5** (Language for Language Arts, Mathematics, Science, and Social Studies). The pairing of Standard 1 with Standards 2-5 reminds us that students communicate as part of disciplinary learning, but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.



Language Features

The Language Functions of Standards 2-5 are further delineated with **Language Features**. In Figure 3-5, you can see sample Language Features for each Language Function, marked with a box (■). Language Features are examples of various language resources that carry out particular Language Functions, such as different types of sentences, clauses, phrases, and words. Due to the intertwining nature of Standard 1 with Standards 2-5, there are no specific Language Features for Standard 1.

In the example here, you can see how the Language Features connect to the Language Functions in the expressive Language Expectations. Language Features are only shown in the expressive functions because those also help us see how learners have processed information through interpretive modes. For example, when multilingual learners share information about something they have heard, read, or viewed, we can use their expressive language skills to evaluate and guide our instructional choices.

Figure 3-5 on the next page shows how the Language Functions and Language Features appear.

Figure 3-5: Grades 6-8 Language Functions and Language Features

GRADES 6-8

WIDA ELD STANDARD 1

Social and Instructional Language

The Language Expectations and Language Functions of Standard 1 are meant to be interwoven and paired with those of Standards 2-5. For this reason, remember that there are no specific Language Features for Standard 1, and that the expectations for the interpretive and expressive communication modes are the same. As you can see from the reference codes, the Language Expectations below are the same for grades 4-12.

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.4-12.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Identify and raise questions about what might be unexplained, missing, or left unsaid
- Recount and restate ideas to sustain and move dialogue forward
- Create closure, recap, and offer next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.4-12.Inform

- Define and classify facts and interpretations; determine what is known vs. unknown
- Report on explicit and inferred characteristics, patterns, or behavior
- Describe the parts and wholes of a system
- Sort, clarify, and summarize relationships
- Summarize most important aspects of information

GRADES 6-8

WIDA ELD STANDARD 1

Social and Instructional Language

Language Expectations: Multilingual learners will...

Explain

ELD-SI.4-12.Explain

- Generate and convey initial thinking
- Follow and describe cycles and sequences of steps or procedures and their causes and effects
- Compare changing variables, factors, and circumstances
- Offer alternatives to extend or deepen awareness of factors that contribute to particular outcomes
- Act on feedback to revise understandings of how or why something is or works in particular ways

Language Expectations: Multilingual learners will...

Argue

ELD-SI.4-12.Argue

- Generate questions about different perspectives
- Support or challenge an opinion, premise, or interpretation
- Clarify and elaborate ideas based on feedback
- Evaluate changes in thinking, identifying trade-offs
- Refine claims and reasoning based on new information or evidence

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.6-8.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a theme or central idea that develops over the course of a text
- Analyzing how character attributes and actions develop in relation to events or dialogue
- Evaluating impact of specific word choices about meaning and tone

ELD-LA.6-8.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context and point of view
- Develop and describe characters and their relationships
- Develop story, including themes with complication and resolution, time, and event sequences
- Engage and adjust for audience

Language Functions and Sample Language Features

Orient audience to context and point of view through...

- Expanded noun groups to state who or what the narrative is about
- A variety of sentence types to introduce the context such as rhetorical and other questions, statements, dialog *(Are we ever truly happy? It was confusing time, nothing seemed normal.)*
- Adverbial and prepositional phrases to establish time and location *(They stood together silently on the hill as the sun rose.)*
- Statements and questions to foreshadow or state complication *(As she walked home, she felt watched.)*

Develop and describe characters and their relationships through...

- Verbs to describe character behaviors *(turned instinctively),* thoughts *(concerned),* feelings *(pleased),* speech *(asked weakly)*
- Expanded verb groups to show relationship between characters
- Saying, thinking, and feeling dialog verbs to add nuance to characters' relationships *("Danny," the old man said, "I was angry. Forgive me.")*
- Expanded noun groups to add description and detail *(He was short, but strong, with light, closely cut hair and a determined face.)*
- Cohesive devices (pronouns, demonstratives, renaming, synonyms) to reference characters or ideas across the text

Develop story, including themes with complication and resolution, time, and event sequences through…

- Dependent clauses to add details *(the race, which only happened every four years)*
- A variety of verb tenses to pace narrative and locate events in time, including dialog *("Where are you going?," I asked.)*
- Connectors to develop and link sections of text to sequence time *(meanwhile, later),* ideas *(in the first place, at this point),* and add information *(what's more, likewise, in addition)*
- Statements to provide closure, evaluate experience, or summarize narrative *(Finally, it was over; The experience was enlightening; There are some things that can't be seen but only felt.)*

Engage and adjust for audience through…

- Evaluative word choices to describe author's attitudes *(with death-cold scorn in his voice; pitiful, gracious, self-sacrificing, enriching)*
- Literary devices (similes and metaphors) to enrich the narrative *(fly like an eagle, life is a highway),* alliteration *(babbling brook),* sensory words/phrases, and onomatopoeia *(tick-tock)*
- Tone of voice, gesturing, acting behaviors to adjust for audience
- Language to address reader/listener and draw them in *(She scuffled away across the snowy field like a small hunched animal.)*

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will…

ELD-LA.6-8.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying and/or summarizing main ideas and their relationship to supporting ideas
- Analyzing observations and descriptions in textual evidence for key attributes, qualities, characteristics, activities, and behaviors
- Evaluating the impact of author's key word choices over the course of a text

ELD-LA.6-8.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Establish objective or neutral stance
- Add precision, details, and clarity about relevant attributes, qualities, characteristics, activities, and behaviors
- Develop coherence and cohesion throughout text

Language Functions and Sample Language Features

Introduce and define topic and/or entity for audience through…

- Generalized nouns and descriptive titles to introduce topic *(Revolutions, Environmental Disasters, Mining the Earth)*
- Opening statements to identify type of information *(describing, comparing/contrasting, classifying)*
- Relating verbs *(have, be, belong to)* to link an entity with its attributes; define, describe, and classify *(It was a cultural and intellectual movement.)*
- Timeless present verbs *(rises, shapes, determines)* to indicate generalizable nature of information
- Expanded noun groups to define key concepts *(a period in European history that took place)*

Establish objective or neutral stance through…

- Declarative statements to provide objective, factual information
- Technical word choices to add precise and descriptive information without evaluative language *(the effects versus devastating effects)*
- Generalized nouns to maintain neutrality *(millennials, stringed instruments, marsupials)*
- Variety of structures to define and describe entities (embedded clauses, relating verbs, nominalizations, given/new patterns)
- Reporting devices (saying verbs) to integrate sourced information into report *(said, reported, claims),* direct and indirect quotes

Add precision, details, and clarity about relevant attributes, qualities, characteristics, activities, and behaviors through…

- Adverbial and prepositional phrases to specify time and location *(in 1592, following the Middle Ages, during the spring, along the ridge, located within the Earth's core)*
- Expanded noun groups to add precision *(strummed or plucked vibration of the strings)*
- Adjectives and adverbs to answer questions about quantity, size, shape, manner *(microscopic, right-angled, voraciously, precisely)*
- Contrasting connectors to differentiate between entities or components *(unlike, as opposed to, however)*
- Visuals (graphs, data, diagrams) to support key details

Develop coherence and cohesion throughout text through…

- Referential devices (pronoun reference, synonyms, renaming, collocations) to link ideas across sections of text
- Topic or headings to serve as openers for sentences or paragraphs
- Nominalization to condense clauses *(it rained year after year=annual floods)* or summarize key ideas

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Language Expectations: Multilingual learners will…

ELD-LA.6-8.Argue.Interpretive
Interpret language arts arguments by

- Identifying and summarizing central idea distinct from prior knowledge or opinions
- Analyzing how an author acknowledges and responds to conflicting evidence or viewpoints
- Evaluating relevance, sufficiency of evidence, and validity of reasoning that support claim(s)

ELD-LA.6-8.Argue.Expressive
Construct language arts arguments that

- Introduce and develop claim(s) and acknowledge counterclaim(s)
- Support claims with reasons and evidence that are clear, relevant, and credible
- Establish and maintain formal style
- Logically organize claim(s) with clear reasons and relevant evidence; offer a conclusion

Language Functions and Sample Language Features

Introduce and develop claim(s) and acknowledge counterclaim(s) through…

- Declarative statements to frame topic, provide background information, state claim, and acknowledge counterclaim *(Graphic novels provide a unique way to read that appeals to many teenagers.)*
- Noun groups to provide details *(Maus, a graphic novel written and illustrated by Art Spiegelman…)*
- Connectors to introduce alternative points of view *(although, on the other hand, unlike, contrary to common belief)*
- Pronouns, synonyms, collocations, renaming subjects to maintain cohesion *(graphic novels=these unique texts=young adult comic books)*

Support claims with reasons and evidence that are clear, relevant, and credible through…

- A variety of clauses (adverbial, embedded) to support opinion and/or claim(s) (quotes, references, detailed descriptions, examples or other sources and data) *(according to X, the author's claim)*
- Connectors to elaborate an idea/interpretation *(so, this means, therefore, leading one to believe, a way to think about this)*
- Connectors to link claim(s) with evidence and reasoning *(because, as a result, when, if, although, but)*
- Literary devices to support evidence and interpretation (similes and metaphors, alliteration, idioms, figurative and sensory words/phrases, collocation, multilingual words/phrases)
- Modality to express obligation or certainty *(might, could, must, need to)* or to open up to other possibilities *(possibly, apparently, perhaps, definitely, absolutely)*

Establish and maintain formal style through…

- First, second, third person use to connect with reader, build alliance, or maintain neutrality *(unjust power, a theme throughout the text, reminds us to be aware of our individual resourcefulness as sources of hope in desperate situations)*
- Authoritative declarative sentences to evaluate and interpret events *(Spiegelman's clever use of imagery and graphic layout presents a unique way of using the graphic novel format.)*
- Nouns, adjectives, verbs, and adverbs to adjust intensity and strength of message *(somewhat powerful versus incredibly powerful; ugly versus grotesque)*

Logically organize claim(s) with clear reasons and relevant evidence; offer a conclusion through…

- Connectors to support inferential conclusions *(Students' preference for graphic novels is evident because/due to the rate these novels are checked out of the library.)*
- Comparing/contrasting connectors to differentiate between claims and counterclaims *(unlike, as opposed to, contrasted with, conversely, similarly, in spite of that)*
- Verb structures to present information in a variety of ways *(past, timeless present, passive voice)*
- Connectors to sequence points in the argument and maintain logical progression *(one way, another point, as mentioned previously, in addition)*
- Summary statement to reiterate claim(s), call to action, or encourage a response *(While Maus relies on images to get the point across, the message of how we dehumanize others is loud and clear.)*

GRADES 6-8

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will...

ELD-MA.6-8.Explain.Interpretive
Interpret mathematical explanations by

- Identifying concept or entity
- Analyzing possible ways to represent and solve a problem
- Evaluating model and rationale for underlying relationships in selected problem-solving approach

ELD-MA.6-8.Explain.Expressive
Construct mathematical explanations that

- Introduce concept or entity
- Share solution with others
- Describe data and/or problem-solving strategy
- State reasoning used to generate solution

Language Functions and Sample Language Features

Introduce concept or entity through...

- Mathematical terms and phrases to describe concept, process, or purpose *(this probability model, randomized sampling will provide more valid results)*
- Relating verbs *(belong to, are part of, be, have)* to define or describe concept

Share solution with others through...

- Generalized nouns to add precision to discussion *(distributions, probability, frequencies)*
- Language choices to reflect on completed and on-going process *(we should have done this, we might be able to, what if we try)*
- First person *(I, We)* to describe approach; third person to describe approach with neutral stance of authority
- Observational *(notice, it appears, looks like)* and comparative language *(different from, similar to, the same)* to share results *(We notice our process was different, but we have the same solution.)*
- Modality (verbs, adverbs, nouns, adjectives) to express opinions, degrees of certainty, or temper disagreement *(It's a possibility, We have to do it this way, Maybe we could look at)*

Describe data and/or problem-solving strategy through…

- Abstract, generalized, or multi-meaning noun groups to add precision to mathematical descriptions *(randomized variation, proportional relationships, constituents)*
- Visual data displays (tables, tree diagrams, simulations, data charts, manipulatives) to clarify approach and/or solution
- Connectors to link sentences and longer stretches of text signaling details of time *(next, at the same time),* causality *(therefore, consequently, as a result),* clarification *(for example, as seen in the model)*
- Passive voice verbs to explain or analyze *(The variable is given a value of six.)*
- Timeless present verbs to present generalizable truths *(The hypotenuse is opposite the right angle.)*

State reasoning used to generate solution through…

- Causal connectors to express reasoning *(We took these steps to solve problems with the ratios because…)*
- Conditional conjunctions to propose future options (if/so, if/then) and generalized relationships *(if/will, if we follow the order of operations, we will show that…)*

GRADES 6-8

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will...

ELD-MA.6-8.Argue.Interpretive
Interpret mathematics arguments by

- Comparing conjectures with previously established results
- Distinguishing commonalities among strategies used
- Evaluating relationships between evidence and mathematical facts to create generalizations

ELD-MA.6-8.Argue.Expressive
Construct mathematics arguments that

- Create conjecture, using definitions and previously established results
- Generalize logic across cases
- Justify conclusions with evidence and mathematical facts
- Evaluate and critique others' arguments

Language Functions and Sample Language Features

Create conjecture, using definitions and previously established results through...

- Conditional conjunctions *(if or when)* to make and justify conjecture *(If I add 4/5 and 3/4, the result will be less than 2 because each fraction is less than a whole number.)*
- Relating verbs *(have, belong to, be)* to define principles, operational theorems, and properties *(for right angled triangles the Pythagorean formula is $a^2 + b^2 = c^2$)*
- Adverbial phrases (qualities, quantities, frequencies) to add precision related to conjecture *(For all integers, For every vote candidate A received, candidate B received three votes which means...)*

Generalize logic across cases through...

- Declarative statements to present generalizable processes *(The expression 4n-1 can be used to find any value in the pattern.)*
- Verbs to apply mathematical principles (commands) *(use, do, apply, divide)* across cases *(Use the distributive property when there is no common factor.)*

Justify conclusions with evidence and mathematical facts through…

- Conditional structures *(if/then, when)* to demonstrate conclusions *(If it's a proportional relationship then the ratio between the 2 variables is always going to be the same thing.)*
- Technical nouns and noun groups to add precision and details *(coordinate plane, one-variable equations, two- and three-dimensional shapes)*
- Models, drawings, graphs to demonstrate principles

Evaluate and critique others' arguments through…

- Questions *(what, how, why, do),* requests *(could, would)* to request information, clarification, procedure *(Could you show me how you got that answer? Why did you do…instead of…?)*
- Causal connectors *(so, because, therefore)* to identify misconceptions *(The pattern is multiplying by a factor of 2, so it can't be a linear function.)*
- Negation *(don't, doesn't, can't)* and obligation model verbs *(have to, must, should, could, might)* to engage with others *(I don't think you can apply that theorem, I think you have to use this….)*

GRADES 6-8

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.6-8.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or design problems based on observations, information, and/or data about a phenomenon
- Determining central ideas in complex evidence and information to help explain how or why a phenomenon occurs
- Evaluating scientific reasoning that shows why data or evidence adequately supports conclusions

ELD-SC.6-8.Explain.Expressive
Construct scientific explanations that

- Describe valid and reliable evidence from sources about a phenomenon
- Establish neutral or objective stance in how results are communicated
- Develop reasoning to show relationships among independent and dependent variables in models and simple systems
- Summarize patterns in evidence, making trade-offs, revising, and retesting

Language Functions and Sample Language Features

Describe valid and reliable evidence from sources about a phenomenon through...

- Abstract nouns to introduce concepts, ideas, and technical terms *(effects, predator-prey relationships, magnetic forces)*
- Cohesion to reference ideas, people across text (pronouns, substitutions, renaming, synonyms, collocations)
- Relating verb groups to state relationships or attributes *(have, be, belong to)*
- A variety of ways to define phenomenon (relative clauses, declarative statements)

Establish neutral or objective stance in how results are communicated through...

- Passive voice and declarative statements *(Indonesia was formed by, tectonic plates have shifted for billions of years)*
- Word choices to moderate stance (hedging) *(could/might, a possibility, usually)*
- Objective and evaluative language to adjust precision and establish shared interest

Develop reasoning to show relationships among independent and dependent variables in models and simple systems through…

- Connectors to link clauses and combine ideas into logical relationships *(as a result, therefore)* or order events
- Variety of clause types to express causality *(If magma is thick, gas bubbles cannot easily escape, building pressure as the magma rises.)*
- Given/new patterns to link relationships, add new details, and condense information into abstract nouns

Summarize patterns in evidence, making trade-offs, revising, and retesting through…

- Labeling/describing diagrams, graphics, data, statistics to add information about a phenomenon
- Ask and answer questions to theorize, clarify, and make extrapolations about a phenomenon
- Conditional clauses *(if/then)* to generalize a phenomenon to additional contexts

GRADES 6-8

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.6-8.Argue.Interpretive
Interpret scientific arguments by

- Identifying convincing evidence from data, models, and/or information from investigations of phenomena or design solutions
- Comparing reasoning and claims based on evidence from two arguments on the same topic
- Evaluating whether they emphasize similar or different evidence and/or interpretations of facts

ELD-SC.6-8.Argue.Expressive
Construct scientific arguments that

- Introduce and contextualize topic/ phenomenon in issues related to the natural and designed world(s)
- Support or refute a claim based on data and evidence
- Establish and maintain a neutral or objective stance
- Signal logical relationships among reasoning, evidence, data, and/or a model when making or defending a claim or counterclaim

Language Functions and Sample Language Features

Introduce and contextualize topic/phenomenon in issues related to the natural and designed world(s) through...

- A variety of ways to define phenomenon (relative clauses, declarative statements, relational verbs)
- Abstract nouns to introduce concepts, ideas, and technical terms *(molecules, atoms, reactions, energy, regrouping)*
- A variety of verb groups (past, timeless present, future, conditional) to describe events known or anticipated

Support or refute a claim based on data and evidence through...

- Expanded noun groups to classify and/or add details *(energy releasing reactions, reconfigured molecular bonds)*
- Connectors to link clauses and establish logical relationships *(as a result, therefore, to be more precise, instead, however, on the other hand)*
- Variety of clause types to express causality *(If the total number in each type of atom is conserved, there is no change in the atom's mass.)*
- Diagrams, models, data, graphics to add support to claim or evidence

Establish and maintain a neutral or objective stance through…

- Passive voice and declarative statement to establish a factual stance *(Some chemical reactions release energy, others store it.)*
- Word choices to moderate stance (hedging) *(could/might, a possibility, usually, often)*

Signal logical relationships among reasoning, evidence, data, and/or a model when making or defending a claim or counterclaim through…

- Given/new patterns to link relationships, add new details, and condense information into abstract nouns
- Cohesion to reference ideas, concepts, phenomena across text (pronouns, substitutions, renaming subjects, collocations, synonyms)
- Connectors to signal time *(next, at the same time),* causality *(therefore, consequently, as a result, because),* clarification *(for example, this shows how…)*

GRADES 6-8

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will…

ELD-SS.6-8.Explain.Interpretive
Interpret social studies explanations by

- Determining multiple points of view in sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for logical relationships among contributing factors or causes
- Evaluating experts' points of agreement, along with strengths and weakness of explanations

ELD-SS.6-8.Explain.Expressive
Construct social studies explanations that

- Introduce and contextualize phenomena or events
- Establish perspective for communicating outcomes, consequences, or documentation
- Develop reasoning, sequences with linear and nonlinear relationships, evidence, and details, acknowledging strengths and weaknesses
- Generalize multiple causes and effects of developments or events

Language Functions and Sample Language Features

Introduce and contextualize phenomena or events through…

- Prepositional phrases of time, place to contextualize phenomena or events *(a place where tourists already come)*
- A variety of structures (embedded clauses, relating verbs, nominalizations, noun groups) to define phenomena or events
- Cohesion to reference ideas, people across text (pronouns, substitutions, renaming, synonyms, collocations)

Establish perspective for communicating outcomes, consequences, or documentation through…

- Passive voice to emphasize main topic *(British trade was disrupted by…)*
- Active verbs to highlight agents and recipients *(The colonists disrupted British trade.)*
- Declarative statements to evaluate and interpret events *(Feudalism was the ultimate system of control for medieval society.)*
- Verbs and adjectives to judge behavior or moral character *(rallied, conquered, cruel, compassionate)*

Develop reasoning, sequences with linear and nonlinear relationships, evidence, and details, acknowledging strengths and weaknesses through...

- Nominalizations to name abstract concepts, ideas, ideologies *(colonization, feudalism)*
- Dependent clauses to express details as a result of place, manner, duration, extent
- Complex sentences to clarify causal, linked, time-bound, or sequential relationships
- Expanded noun groups to add details *(living standards of 18th century people)*
- Connectors to maintain chronological, causal or logical relationships *(as a result, meanwhile, later, in order to)*

Generalize multiple causes and effects of events and developments through...

- Word choices to evaluate, judge, or appreciate significance of events or phenomena
- Nominalizations to summarize events and name abstract phenomena

GRADES 6-8

WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.6-8.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information from multiple sources to support claims
- Evaluating point of view and credibility of source based on relevance and intended use

ELD-SS.6-8.Argue.Expressive
Construct social studies arguments that

- Introduce and contextualize topic
- Select relevant information to support claims with evidence gathered from multiple sources
- Establish perspective
- Show relationships between claims and counterclaims, differences in perspectives, and evidence and reasoning

Language Functions and Sample Language Features

Introduce and contextualize topic through...

- Generalized nouns and a descriptive title to introduce topic *(empire, excavation, The Cradle of Modern Civilization)*
- A variety of verb tenses (past, timeless present, relational) to present position and/or provide background information
- Expanded noun groups with embedded and relative clauses to add details *(Mesopotamia, often referred to as the Cradle of Life, was located between the Tigris and Euphrates Rivers.)*
- Cohesion to reference ideas, people across text (pronouns, synonyms, substitutions, renaming, collocations)
- Connectors to structure paragraphs *(first, in the beginning, meanwhile, as a result, in conclusion)*
- Given/new patterns to link relationships, add new details, and condense information into abstract nouns

Select relevant information to support claims with evidence gathered from multiple sources through…

- A variety of clauses to frame details, examples, quotes, data *(according to, historians dis/agree, several sources suggest, these data suggest)*
- Adverbial and prepositional phrases to specify time (duration, specific date or range), location, how or why something happened *(during the late Neolithic period, the area between…)*
- A variety of verb forms to express agency in doing, thinking, saying, feeling actions *(I contradicted him, we support, they challenged)*

Establish perspective through…

- Passive voice to keep emphasis on main topic rather than who or what is doing the action *(Soldiers were housed in primitive tents.)* or to keep emphasis on who or what is doing the action
- Objective or emotive language to appeal to logic or feelings *(credited with inventing the wheel versus the greatest inventions of all times)*
- Evaluative verbs, adverbs, and adjectives to add author's perspective *(dominated, absolutely, compelling)*

Show relationships between claims and counterclaims, differences in perspectives, and evidence and reasoning through…

- Connectors to link claims with evidence and reasoning *(because, but, as a result, when, if, although, therefore)*
- Connectors to signal alternate points of view *(on the other hand, contrary to common belief, according to),* show concession or comparison/contrast *(while, although, instead, despite this, however)*
- Modality in summary statements to reiterate position, or create a call to action *(could be argued, undoubtedly, ought to, may)*

Annotated Language Samples

Annotated Language Samples exemplify the WIDA ELD Standards Framework in action. In particular, they show an ELD Standards Statement, a Key Language Use, a Language Expectation, as well as its Language Functions and Language Features contextualized in authentic grade-level texts. The samples, drawn from the work of teachers and students from across the WIDA Consortium, help make more visible the language for content learning. In this way, educators can envision how to highlight language and plan for its systematic development during content learning.

LEGEND FOR THE ANNOTATED TEXTS

Several different conventions are used to indicate example Language Features in the annotated text:

- **Language Functions (bold white text on a gold background)**
- **Connectors, sequence words (in bold)**
- Nouns and noun groups (in red with dashed underline)
- Verbs and verb groups (in green with dotted underline)
- Prepositional and adverbial phrases (in blue with diamond underline)
- *Objective/evaluative language (words or phrases) (in italics)*
- Cohesive devices (circles and arrows within the text) 
- *Clauses (underlined and italics)*
- Sentences (highlighted with boxes around them)

Note: Examples of sentences are declarative statements, statements of claims, statements foreshadowing events. See individual texts for more detail.

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Annotated Language Sample

Context: This is a mentor text developed by an ELA teacher to apprentice her seventh-grade students to write narratives with a climax and resolution. When she taught her personal narrative unit, the teacher read, deconstructed, and analyzed the mentor text with her students to make visible how the text is structured as well as the way certain language features are employed to meet the purpose of the narrative. For example, students learned to identify how writers use language to engage their audience and build tension. Students later were able to use this kind of language in their own writing.

Language Expectation: ELD-LA.6-8.Narrate.Expressive
Multilingual learners use language to construct language arts narratives that
- Orient the audience to context and point of view
- Develop and describe characters and their relationships
- Develop story, including themes with complication and resolution, time, and event sequences
- Engage and adjust for audience

Functions & Features	Minerva	Functions & Features
Orient the reader to the point of view and context through… First person signaling this is a personal narrative • I • my Prepositional phrases to establish time and location • on the floor of my bedroom • for 12 hours • to a new house Statement foreshadowing complication • She was gone and it was all my fault.	I *collapsed* on the floor of my bedroom, *sobbing*. I had been trying not to cry for 12 hours, and I couldn't hold it in any longer. She was gone, and it was all my fault. I *never should have* moved to a new house. The day before, I moved from my apartment to a new house. The house was bigger than my apartment, with more space for my furniture, my piano, and most importantly of all, my two cats. But soon after I moved in, I thought I had made a terrible mistake by bringing my cats here.	**Engage and adjust for audience through…** Language to draw the reader in • *collapsed* • *sobbing* • *never should have* **Develop and describe characters and their relationships through…** Verbs describing thoughts • thought • had made

Functions & Features	Minerva Continued	Functions & Features
Develop the story with complication through… Dependent clauses to add details • *fixing the garage door* • *what to do out there* • *to take my search back outside* A variety of verb tenses • was • make • left…to unpack • walked • wouldn't know Dialog • "Please make sure you don't let the cats outside" • "Minerva! Minerva!" **Develop the story with time and event sequences through…** Connectors to sequence time • **a little while later** **Develop the story with complication through…** Prepositional phrases • around the house • under and behind anything	A contractor was at the house *fixing the garage door*. "Please make sure you don't let the cats outside," I told him. "Make sure you don't leave the door open." Then I left the room to unpack - that is where I went wrong. **A little while later** I walked into the kitchen and I noticed the garage door was wide open. My heart started *pounding*. My cats had never been outside alone before, and they wouldn't know *what to do out there*. I quickly checked outside but I didn't see either cat, so I started to search the house. I found one cat, but not the other. Minerva was *missing*. I continued to search, getting more and more frantic as I ran around the house looking inside and under and behind anything I could think of. She was *nowhere to be found*. I knew I had *to take my search back outside.* … "Minerva! Minerva!" I called, my voice shaking as I tried not to cry. With no luck finding her, I went back inside.	**Develop and describe characters and their relationships through…** Expanded verb groups • had never been • started to search • continued to search Saying, thinking, and feeling verbs • told • noticed • called • tried not to cry Cohesive devices • my cats … they … either cat … one cat … the other (pronoun referencing) • Minerva … she (pronoun referencing) Expanded noun groups to add description and detail • one cat, but not the other **Engage and adjust for audience through…** Descriptive emotive language builds tension • *pounding* • *missing* • *nowhere to be found*

Functions & Features	Minerva Continued	Functions & Features
Develop the story with complication through… Dependent clauses to add details • *to see if they had found any cats.* • *that I would probably never see her again.* **Develop the story with time and event sequences through…** Connectors to sequence time • **at that point** • **since 9 o'clock** Connectors to link ideas • **that's how** • **just then**	I called animal control *to see if they had found any cats*. They had not, and they told me to keep looking. They didn't sound optimistic. **At that point** it was almost 9 o'clock at night, and she had been missing **since 9 o'clock** that morning. 12 hours and no sign of Minerva. "How could I let this happen?" I thought to myself. "I can't believe I rescued her from a shelter and then I lost her. She would have been better off if I had never gotten her at all. I let it sink in *that I would probably never see her again*." **That's how** I *ended up on the floor, crying*. …. **Just then**, as I started to pack my bag for school, I heard a noise that sounded like a cat's meow. I whipped my head around. "Is that..?" I heard it again. It was so quiet that it had to be coming from outside. I went back out and searched again. I even looked up in the trees this time but she wasn't there. So I went back inside and listened very carefully. I heard the meow again but I still didn't see her.	**Develop and describe characters and their relationships through…** Verbs to describe behavior • called • had found • whipped • heard • searched Expanded noun groups to add description and detail • noise that sounded like a cat's meow **Engage and adjust for audience through…** Language to address reader/listener and draw them in • *probably never see her again* • *ended up on the floor, crying.*

Functions & Features	Minerva Continued	Functions & Features
Orient audience to context and point of view through… Prepositional phrases to establish location • behind the dryer • in the house • in a little hole in the wall • in one of her hiding spots • up in the ceiling of the garage • in my lap Prepositional phrases to establish time • for at least the fifth time • the whole time • all day **Develop story with complication and resolution, time and event sequences through…** Statements to provide closure, evaluate experience, or summarize narrative • Now I call her … to panic. • The whole ordeal was exhausting, … than ever that I adopted her. • And when she's curled up in my lap, I think she's grateful, too.	Then, as I looked behind the dryer for at least the fifth time, I heard a tiny meow and saw a little bit of fur poking out from a hole in the wall. It looked like a hole where a mouse in a cartoon might live. But it was no mouse - it was Minerva! I pulled her out of the hole in the wall and *hugged her tightly*. I *kissed* her on the head and told *her how happy I was to see her*. "I'll *never lose* you again!" I said to her through happy tears. But then I thought, "I never really lost her at all!" She was in the house the whole time, hiding in a little hole in the wall all day. I never knew a cat could do that! Now I call her my expert hider, and whenever I can't find her, I know not to panic. She's just in one of her hiding spots- most recently it was up in the ceiling of the garage! More often than not, however, she's in my lap snuggling and purring. The whole ordeal was exhausting, but when it was over, I felt more grateful than ever that I adopted her. And when she's curled up in my lap, I think she's grateful, too.	**Develop and describe characters and their relationships through…** Expanded noun groups to add description and detail • a tiny meow • a little bit of fur • my expert hider Saying, thinking, and feeling verbs to add nuance to characters' relationships • told • said • thought Cohesive devices to reference character across text (repetition) • her … her … her **Engage and adjust for audience through…** Evaluative word choices to describe author's attitudes • *hugged her tightly* • *kissed* • *how happy* • *never lose*

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Annotated Language Sample

Context: This text was written by a multilingual 8th grader. As part of the English language arts curriculum, the students had been studying the genre of biography. Students were paired and interviewed each other. Each wrote an "author biography" of a peer. (Kamaly Tineaval is a pseudonym).

Prompt: Imagine you are a biographer. Write a biography that tells the story of your subject.

Language Expectation: ELD-LA.6-8.Inform.Expressive
Multilingual learners use language to construct informational texts in language arts that
- Introduce and define topic and/or entity for audience
- Establish an objective or neutral stance
- Add precision, details, and clarity about relevant attributes, qualities, characteristics, activities, and behaviors
- Develop coherence and cohesion throughout text

Functions & Features	Kamaly Tineaval	Functions & Features
Introduce and define topic and/or entity for audience through… Opening statements to identify type of information (describing) • Kamaly … Massachusetts Relating verbs to link an entity with its attributes • is Expanded noun groups • an author/poet …, Massachusetts	Kamaly Tineaval is an author/poet and student living in Leeds, Massachusetts. Kamaly Tineaval was born on January 8, 2005, in Holyoke, Massachusetts but then moved to PR for nursery school. Since his birth he has explored through, essays, chapter books, coloring books, and so on. And finally found his safe spot in poems.	**Establish an objective or neutral stance through…** Generalized nouns • essays • chapter books • coloring books **Add precision, details, and clarity about complex attributes through…** Prepositional and adverbial phrases to specify time and duration • on January 8, 2005 • in Holyoke, Massachusetts • since his birth
Develop coherence and cohesion throughout text through… • Kamaly Tineaval (repetition) • Kamaly Tineaval … his birth … his safe spot		

Functions & Features	Kamaly Tineaval Continued	Functions & Features
Develop coherence and cohesion throughout text through… Referential devices to link ideas across text • he … he … he (repetition) • Kamaly Tineaval… he's, his (pronoun referencing) • the teacher … his English teachers Topic or headings to serve as openers for sentences or paragraphs • **Kamaly Tineaval** • **he**	After moving back from PR to Holyoke and then from Holyoke to Northampton, he started new school at Leeds Elementary. When he was in elementary school, he taught by his teachers how to speak English. Soon, he learned to write stories about the worst day of his life and his favorite seasons. He also learned from texting his mom that he don't know how to work the machine and keeping up with his Insta followers how to write. After elementary school he moved on to JFK, where he learned new things and is a better writer now. **Kamaly Tineaval** writes all different kinds of poems to[sic], list poems, similes, utopia poems. Some poems that Kamaly Tineaval has written are called, "I had a Goldfish", "Seasons", and "Things I hear in the morning…." Kamaly Tineaval never won an award, but never say never! He's very determined to be the best author/poet he can be and make his *old/new* teachers, friends, and family proud. **He** *mostly* edits all of his pieces and makes sure they're *presentable* to the teacher. With the help of his English teachers he gets his work out there for others to see, admire and to gawk over. Right now Kamaly Tineaval is starting 8th grade and is also working on a new masterpiece called "Kamaly Tineaval's Author bio" (coming out soon).	**Add precision, details, and clarity about relevant attributes, qualities, characteristics, activities, and behaviors through…** Adverbials and prepositional phrases to specify time and location • after moving back from … Holyoke • from … Northampton • at Leeds Elementary • in elementary school • after elementary school • on to JFK • where he … things • out there for others to see Expanded noun groups to add precision • stories about the worst day of his life • his Insta followers • all different kinds … poems. • the best author/poet he can be • a new masterpiece called … bio Adjectives and adverbs to answer questions about size, shape, manner • *better* • *never, never* • *very determined* • *old/new* • *mostly* • *presentable*

Proficiency Level Descriptors

Remember...

Proficiency Level Descriptors (PLDs) illustrate a continuum of language development for multilingual learners across six levels of English language proficiency for each grade-level cluster. The descriptors span three dimensions of language: discourse, sentence, and word/phrase.

- Each proficiency level (PL) includes and builds on previous levels (e.g., PL4 = PL1 + PL2 + PL3 + PL4). PL6 is open-ended. It indicates that for all of us, language development continues throughout life.
- Language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors. Multilingual learners may take various paths to develop language.
- The PLDs are designed to be used in coordination with Language Expectations, Language Functions, and Language Features.
    - Whereas Language Expectations offer goals for how *all students* might use language to meet academic content standards, PLDs offer a succinct description of how *multilingual learners* might develop language *across levels of language proficiency* in moving toward meeting Language Expectations.
- In the PLDs, *text* is multimodal, including oral, visual, and written forms.
- Scaffolding learning increases accessibility for multilingual learners, supports and bolsters their opportunities to meaningfully engage in grade-level content learning, and builds toward independence. The PLDs are predicated on the idea that appropriate scaffolding supports students in moving through the language proficiency levels.

Grades 6-8 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	to meet a purpose (to inform, narrate, entertain, argue, explain) in a series of topic-related sentences	to meet a purpose in a short, connected text	to meet a purpose through generic (not genre-specific) organizational patterns in texts (introduction, body, conclusion)	to meet a purpose through genre-specific organizational patterns (orientation and explanation sequence)	to meet a purpose through genre-specific organizational patterns (claim, evidence, reasoning) linking ideas, events, and reasons	to meet a purpose reflective of genre and discipline, linking ideas, events, and reasons in a variety of ways (causes and effects, factors and outcomes, events and consequences)
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	a few different types of cohesive devices (repetition, pronoun referencing, demonstratives, etc.)	multiple cohesive devices (synonyms, antonyms)	a variety of cohesive devices that connect larger meaningful chunks of text (class/ subclass, whole/part)	a wide variety of cohesive devices that connect ideas throughout text (whole/part, substitution, ellipsis)	cohesive devices and common strategies that connect ideas throughout text (given/ new)	various types of cohesive devices and strategies that connect ideas throughout text
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	expanded noun groups with classifiers *(crescent moon)*	expanded noun groups with prepositional phrases *(waxing crescent moon in the second half of the month)*	expanded noun groups with embedded clauses *(waxing crescent moon that was growing each day)*	expanded noun groups with a variety of embedded clauses *(predictable and observable moon phases in your particular time zone)*	expanded noun groups with a wide variety of embedded clauses and compacted noun groups (nominalization)	multiple ways of elaborating and condensing text to enrich the meaning and add details characteristic of genres and content areas *(the relative positions of the sun, earth, and moon cause these changes)*

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	related simple sentences *(African savannas are full of wildlife.)*	multiple related simple sentences *(African savannas are full of life. Explore Tanzania.)*	simple or compound sentences with familiar ways of combining clauses through (using coordinating conjunctions: *African savannas are unique **and** they have amazing wildlife.*)	compound sentences with frequently used ways of combining clauses *(A variety of wildlife live in the savanna **such as…**)*	compound and complex sentences with a variety of ways of combining clauses addressing genre, audience, and content area *(**Since** it's an ecosystem, it has a variety of…)*	a wide variety of sentence types that show a variety of increasingly complex relationships (condition, concession, contrast) addressing genre, audience, and content area *(The Black Rhino is at risk of extinction, **unless…**)*
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	an increasing number of words and phrases *(don't be late for class)*	a growing number of words and phrases in a variety of contexts *(inside the membrane)*	an expanding number of words and phrases including idioms and collocations *(gravity is bringing me down)*	a variety of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns *(at the speed of light)*	a wide variety of words, phrases, and expressions with multiple meanings across content areas	strategic use of various words, phrases, and expressions with shades of meaning across content areas *(trembling in the corner, pounding rain, the whisper of dragonfly wings)*

Grades 6-8 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	sentences that convey intended purpose with emerging organization (topic sentence, supporting details)	short text that conveys intended purpose using predictable organization (signaled with some paragraph openers: *First…Finally, In 1842, This is how volcanos form*)	expanding text that conveys intended purpose using generic (not genre-specific) organizational patterns (introduction, body, conclusion)	text that conveys intended purpose using genre-specific organizational patterns (statement of position, arguments, call to action) with a variety of paragraph openers	text that conveys intended purpose using genre-specific organizational patterns with strategic ways of signaling relationships between paragraphs and throughout text *(the first reason, the second reason, the evidence…)*	text that conveys intended purpose using genre-specific organizational patterns using a wide range of ways to signal relationships throughout the text
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	some formulaic cohesive devices (repetition, pronoun referencing, etc.)	a growing number of cohesive devices (emerging use of articles to refer to the same word, synonyms, antonyms)	an expanding number of cohesive devices (given/new, whole/part, class/subclass)	a flexible number of cohesive devices (ellipsis, substitution/omission)	a variety of cohesive devices used in genre- and discipline-specific ways	a wide variety of cohesive devices (substitution, omission, synonyms, antonyms, whole/part, class/subclass) used in genre- and discipline-specific ways
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	some types of elaboration (adding a newly learned adjective to a noun)	a growing number of types of elaboration (adding articles or demonstratives to a noun: the or these clouds)	a variety of types of elaboration (adding classifiers: *cumulus and cumulonimbus clouds*)	a wide variety of types of elaboration (adding in embedded clauses after the noun: *those storm clouds that we saw yesterday*)	a flexible range of types of elaboration and some ways to condense ideas *(scary looking storm clouds that turned dark in a matter of minutes and condensing through nominalization: that storm system)*	multiple types of elaboration and a growing number of ways to condense ideas throughout a text

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	simple sentences *(The main character is Harry. He is a wizard.)*	sentences with emerging use of clauses (no conjunctions: *The main character is Harry. His friends are… They go to Hogwarts.*)	simple or compound sentences with familiar ways of combining clauses (with some coordinating conjunctions: *He goes to Hogwarts School **and** his friends are…*)	compound sentences with frequently used ways of combining clauses *(They fight the forces of evil, **yet** they can't overcome them.)*	compound and complex sentences with a variety of ways of combining clauses characteristic of the genre and content area (with a range of techniques to extend, or shorten sentences: *Harry has a lightning bolt scar **because** he was attacked **when…**)*	a wide variety of sentence types with increasingly complex clause relationships (condition, cause, concession, contrast) addressing genre, audience, and content area *(When Harry is close to Voldemort, his scar throbs.)*
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	a small repertoire of words and phrases with developing precision *(order of operations, on page 12)*	a growing repertoire of words and phrases with growing precision *(kinetic energy, law of motion)*	an expanding repertoire of words and phrases including idioms and collocations with expanding precision *(love-hate relationship)*	a flexible repertoire of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns with consistent precision *(fill the beaker to the top line)*	a variety of words and phrases, including evaluation and obligation, with precision *(stupid test, we should figure this out)*	a wide variety of words and phrases with precision *(weighing 4.4 pounds on Earth, wrong answer)* according to the genre, purpose and discipline

GRADES
9-12

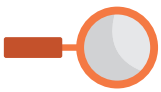
Grades 9-12

Multilingual learners bring knowledge of the world, along with multiple languages and cultural insights, to high school classrooms. Their values, experiences, and socioemotional development are foundations for formulating perspectives in the exploration of complex new ideas. Incorporating students' backgrounds and identities into meaningful topics can promote their engagement in disciplinary practices. High schoolers are critical thinkers who develop deep understandings, evaluate information and attitudes, make choices, and effect change.

Multilingual learners must have access to meaningful rigorous coursework and programs that maximize language development within and across disciplines. The course of studies that multilingual learners choose in high school plays a critical role in their successful transition to college or entrance into satisfying careers. Such coursework, including advanced classes, should be delivered through an asset-based, culturally and linguistically sustaining approach.

In this section you can find detailed, grade-level cluster specific information about the WIDA ELD Standards Framework. Remember that the **WIDA ELD Standards Statement**s are the same from kindergarten through grade 12. Then, you will find the following materials for grades 9 12.

- The most prominent **Key Language Uses**
- **Language Expectations,** Language Functions, and Language Features
    - **Annotated Language Samples** illustrating WIDA ELD Standards Statements, Language Expectations, Functions, and Features in authentic grade-level texts
- **Proficiency Level Descriptors**



Before using these materials, be sure to read the information in Section 1 (Big Ideas) and Section 2 (Introduction to the WIDA ELD Standards Framework: WIDA ELD Standards Statements, Key Language Uses, Language Expectations, and Proficiency Level Descriptors).

Key Language Uses

Key Language Uses—Narrate, Inform, Explain, and Argue—are present across all grade levels and disciplines. Table 3-12 offers snapshots of some ways students engage in each Key Language Use throughout grades 9-12.

Table 3-12: Snapshots of Key Language Uses in Grades 9-12

Snapshots of Key Language Uses in Grades 9 12	
Narrate	• Interpret and construct narratives with complex plots, themes, and developments • Identify perspectives in historical narratives and discern authors' intent in presenting history in a particular light • Develop characters in their own stories and connect themes to issues in past and present
Inform	• Manage information about entities according to their composition, taxonomies, and classifications • Identify and describe various relationships among ideas and information • Use available new information to construct and revise research reports that incorporate multiple sources of information
Explain	• Analyze and evaluate data in explanations • Identify multilayered causal or consequential relationships in social or scientific phenomena • Apply reasoning or theory to link evidence to the claims in explanations • Construct and revise explanations based on evidence from multiple sources
Argue	• Construct claims that offer objective stance using less polarized language so that claims appear more "balanced" • Anticipate what evidence audiences will need and adjust evidence and reasoning accordingly • Adjust arguments based on new data from experiments • Discern what types of arguments are needed, when they are needed, and what purposes they meet in different content areas

Learn more about each Key Language Use across the grades and disciplines in Section 4: Resources—Key Language Uses: A Closer Look.

The **most prominent Key Language Uses** in grades 9-12 are the basis for its **Language Expectations.** They are marked with a filled-in circle (●) in the boxes of Table 3-13. The half-filled circle and the open circle indicate lesser degrees of prominence of each Key Language Use; see the legend underneath the table.

Language Expectations, Functions, and Features

Language Expectations

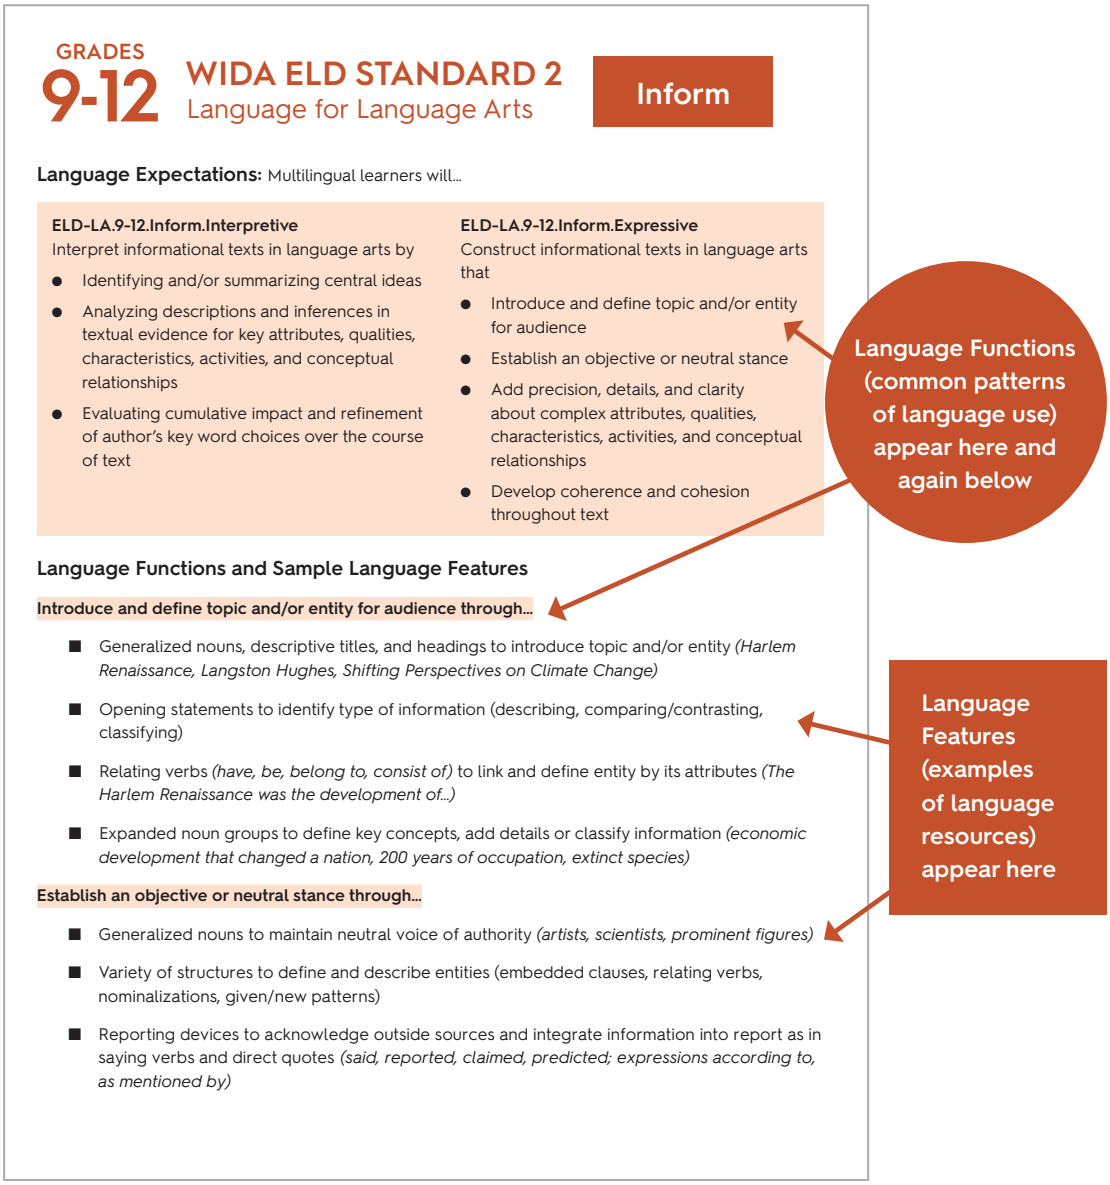
Language Expectations are interpretive and expressive goals for content-driven language learning. They articulate the language necessary for meeting academic content standards.

Language Functions

Language Expectations are built around a set of **Language Functions.** Language Functions highlight common patterns of language use, showcasing particular ways students might use language to meet the purposes of schooling. For example, a series of Language Functions is associated with the process of constructing fictional narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation. In Figure 3-6, you can see that the Language Functions are listed in bulleted form, under the interpretive and expressive language expectations.

Standard 1 Language Expectations and Language Functions

Given its broad scope and applicability, Language Expectations and Language Functions for **Standard 1** (Language for Social and Instructional Purposes) are presented in two wide-ranging spans, the first for grades K-3 and the second for grades 4-12. These are logical divisions between early childhood education and upper elementary years and beyond. Language Expectations and Functions for **Standard 1** can be readily interwoven or paired with those in **Standards 2-5** (Language for Language Arts, Mathematics, Science, and Social Studies). The pairing of Standard 1 with Standards 2-5 reminds us that students communicate as part of disciplinary learning, but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.



Language Features

The Language Functions of Standards 2-5 are further delineated with **Language Features**. In Figure 3-6, you can see sample Language Features for each Language Function, marked with a box (■). Language Features are examples of various language resources that carry out particular Language Functions, such as different types of sentences, clauses, phrases, and words. Due to the intertwining nature of Standard 1 with Standards 2-5, there are no specific Language Features for Standard 1.

In the example here, you can see how the Language Features connect to the Language Functions in the expressive Language Expectations. Language Features are only shown in the expressive functions because those also help us see how learners have processed information through interpretive modes. For example, when multilingual learners share information about something they have heard, read, or viewed, we can use their expressive language skills to evaluate and guide our instructional choices.

Figure 3-6 on the next page shows how the Language Functions and Language Features appear.

Figure 3-6: Grades 9-12 Language Functions and Language Features

GRADES
9-12

WIDA ELD STANDARD 1
Social and Instructional Language

The Language Expectations and Language Functions of Standard 1 are meant to be interwoven and paired with those of Standards 2-5. For this reason, remember that there are no specific Language Features for Standard 1, and that the expectations for the interpretive and expressive communication modes are the same. As you can see from the reference codes, the Language Expectations below are the same for grades 4-12.

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.4-12.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Identify and raise questions about what might be unexplained, missing, or left unsaid
- Recount and restate ideas to sustain and move dialogue forward
- Create closure, recap, and offer next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.4-12.Inform

- Define and classify facts and interpretations; determine what is known vs. unknown
- Report on explicit and inferred characteristics, patterns, or behavior
- Describe the parts and wholes of a system
- Sort, clarify, and summarize relationships
- Summarize most important aspects of information

GRADES 9-12

WIDA ELD STANDARD 1

Social and Instructional Language

Language Expectations: Multilingual learners will...

Explain

ELD-SI.4-12.Explain

- Generate and convey initial thinking
- Follow and describe cycles and sequences of steps or procedures and their causes and effects
- Compare changing variables, factors, and circumstances
- Offer alternatives to extend or deepen awareness of factors that contribute to particular outcomes
- Act on feedback to revise understandings of how or why something is or works in particular ways

Language Expectations: Multilingual learners will...

Argue

ELD-SI.4-12.Argue

- Generate questions about different perspectives
- Support or challenge an opinion, premise, or interpretation
- Clarify and elaborate ideas based on feedback
- Evaluate changes in thinking, identifying trade-offs
- Refine claims and reasoning based on new information or evidence

GRADES 9-12

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.9-12.Narrate.Interpretive
Interpret language arts narratives by

- Identifying themes or central ideas that develop over the course of a text
- Analyzing how author choices about character attributes and actions relate to story elements (setting, event sequences, and context)
- Evaluating the impact of specific word choices on meaning, tone, and explicit vs. implicit points of view

ELD-LA.9-12.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context and one or multiple point(s) of view
- Develop and describe characters and their relationships over a progression of experiences or events
- Develop story, advancing the plot and themes with complications and resolutions, time and event sequences
- Engage and adjust for audience

Language Functions and Sample Language Features

Orient audience to context and one or multiple point(s) of view through...

- Title, heading, opening statements to capture readers' interest *(March. Two people, a man and a woman, are walking along the corridor.)*
- Expanded noun groups to introduce the setting *(the sands stretch into the distance, bands of yellow, and grey and gold)*
- A variety of sentence types to introduce the context (rhetorical and other questions, statements, points of view) *(One good deed to set against other, darker, actions. What did it matter?)*
- Statements and questions to foreshadow or introduce complications *(Where the road led, he didn't know, but he was determined to leave David behind before the morning came.)*

Develop and describe characters and their relationships over a progression of experiences or events through…

- Action verbs to describe character behaviors *(Joe leaps into action, grabs his phone and dives for the door, yelling for Julie to follow him.)*
- Complex sentences to establish context and characters *(He stayed with the job because the merchant, although he was an old grouch, treated him fairly.)*
- Attitudinal word choices to express character's feelings, *(very upset),* appreciation *(lovely, fascinating),* or judgment/evaluation *(intricate, grossly incompetent)*
- Cohesive devices (pronouns, demonstratives, renaming, synonyms, collocation, deletion) *(They told us to sit, and we did.)* to reference characters or ideas across the text

Develop story, advancing the plot and themes with complications and resolutions, time and event sequences through…

- A variety of verb tenses to pace the narrative and locate events in time, including dialog *(The wind told me you would be coming and that you would need help.)*
- Dependent clauses to add details *(Village children scampered out the door, which left the room strangely quiet.)*
- A variety of short and complex sentence structures to pace the narrative *(The door flung open. The snow spat at him, sleet slashed his face, winds whistled down the hall.)*
- Connectors to develop and link sections of text as in time, sequence, clarifying *(for instance),* adding information *(likewise, furthermore),* contrast *(on the other hand, even so, at least)*
- Statements to provide closure, evaluate experience, or summarize narrative

Engage and adjust for audience through…

- Word choices to advance mood (surprise, tension, humor, reflection) and to describe author's purpose *(contemptuous eyes, his voice softened)*
- Literary devices to enrich the narrative as in similes and metaphors, alliteration, idioms *(butterflies in her stomach),* figurative and sensory words/phrases, collocation, multilingual words/phrases *(he ate like a burro, focused and intentional)*
- Tone of voice, gesturing, acting behaviors to adjust for audience
- Language to address reader/listener and draw them in *(Instantly, the tension in the room lessened.)*

GRADES 9-12

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.9-12.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying and/or summarizing central ideas
- Analyzing descriptions and inferences in textual evidence for key attributes, qualities, characteristics, activities, and conceptual relationships
- Evaluating cumulative impact and refinement of author's key word choices over the course of text

ELD-LA.9-12.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Establish an objective or neutral stance
- Add precision, details, and clarity about complex attributes, qualities, characteristics, activities, and conceptual relationships
- Develop coherence and cohesion throughout text

Language Functions and Sample Language Features

Introduce and define topic and/or entity for audience through...

- Generalized nouns, descriptive titles, and headings to introduce topic and/or entity *(Harlem Renaissance, Langston Hughes, Shifting Perspectives on Climate Change)*
- Opening statements to identify type of information (describing, comparing/contrasting, classifying)
- Relating verbs *(have, be, belong to, consist of)* to link and define entity by its attributes *(The Harlem Renaissance was the development of...)*
- Expanded noun groups to define key concepts, add details or classify information *(economic development that changed a nation, 200 years of occupation, extinct species)*

Establish an objective or neutral stance through...

- Generalized nouns to maintain neutral voice of authority *(artists, scientists, prominent figures)*
- Variety of structures to define and describe entities (embedded clauses, relating verbs, nominalizations, given/new patterns)
- Reporting devices to acknowledge outside sources and integrate information into report as in saying verbs and direct quotes *(said, reported, claimed, predicted; expressions according to, as mentioned by)*

Add precision, details, and clarity about complex attributes, qualities, characteristics, activities, and conceptual relationships through…

- Adverbial and prepositional phrases to specify point in time or duration *(on Sept 12, from 1910 to 1920, during World War II),* location *(in a NYC neighborhood),* and manner *(in a calculated movement)*
- Technical word choices to define and classify entity *(Jazz, characterized by polyrhythms and improvisation was…)*
- Verb structures to present information in a variety of ways: timeless present indicates generalizable nature *(It chases and scavenges for food);* passive voice focuses attention on action *(when the food is prepared)*
- Adjectives and adverbs to answer questions about quantity, size, shape, manner *(abundant, colossal, amorphous, rightfully)*
- Comparing/contrasting connectors to entities or components *(unlike, as opposed to, contrasted with, conversely, similarly, in spite of that)*
- Visual representations (graphs, data, diagrams) to support key details

Develop coherence and cohesion throughout text through…

- Referential devices (pronoun reference, synonyms, renaming) *(the subsequent social and artistic explosion=the Harlem Renaissance)* to link ideas across sections of text
- Topic and/or entity, headings to serve as openers for sentences and paragraphs
- Single technical nouns and collocations *(improvisation, blues, piano, double bass)* to define class/subclass *(jazz/New Orleans, West African),* general/specific *(musician/Louis Armstrong),* whole/part relationships *(historical influences on jazz)*

GRADES 9-12

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Language Expectations: Multilingual learners will...

ELD-LA.9-12.Argue.Interpretive
Interpret language arts arguments by

- Identifying and summarizing central ideas of primary or secondary sources
- Analyzing use of rhetoric and details to advance point of view or purpose
- Evaluating and corroborating relevance and sufficiency of evidence as well as validity of reasoning to support claims

ELD-LA.9-12.Argue.Expressive
Construct language arts arguments that

- Introduce and develop precise claims and address counterclaims
- Support claims and refute counterclaims with valid reasoning and relevant and sufficient evidence
- Establish and maintain a formal style and objective tone
- Logically organize claims, counterclaims, reasons, and evidence; offer a conclusion with recommendations

Language Functions and Sample Language Features

Introduce and develop precise claims and address counterclaims through...

- Declarative statements to frame topic, provide background information, state claim, and acknowledge counterclaim *(In "Tongue Tied" Maxine Hong Kingston captures her experience of growing up as a Chinese American woman.)*
- Noun groups to provide details *(The Harlem Renaissance's intellectual, social, and artistic explosion)*
- Connectors to introduce alternative points of view *(although, on the other hand, unlike, contrary to common belief)*
- Pronouns, synonyms, collocations, renaming subjects to maintain cohesion *(someone=character=s/he=teenager)*

Support claims and refute counterclaims with valid reasoning and relevant and sufficient evidence through…

- A variety of clauses (adverbial, embedded) to support claim (quotes, references, detailed descriptions, examples or other sources and data) and provide detail about issue/ literary technique *(In "Letter from Birmingham Jail," King's extended allusions to multiple philosophers…)*
- Connectors to elaborate an idea/interpretation *(so, this means, therefore, leading one to believe, a way to think about this)*
- Literary devices to support evidence and interpretation (similes and metaphors, alliteration, idioms, figurative and sensory words/phrases, collocation, multilingual words/phrases)
- Modality to express obligation or certainty *(might, could, must, need to),* to open up to other possibilities *(possibly, apparently, perhaps, definitely, absolutely),* or to temper space for negotiation *(most would agree, could be a consideration)*

Establish and maintain a formal style and objective tone through…

- First, second, or third person to connect with reader, build alliance, or maintain neutrality *(as teenagers, we…)*
- Authoritative declarative sentences to evaluate and interpret events *(Anzaldúa's interweaving of literary genres, languages, cultures, and identities in "Borderlands" is highly innovative.)*
- Nouns, adjectives, verbs, and adverbs to evaluate the positive/negative qualities of topic, position, or evidence *(a toxic perspective, contradictory information, impressive presentation, successful outcome)*

Logically organize claims, counterclaims, reasons, and evidence; offer a conclusion with recommendations through…

- A variety of structures to define, describe, interpret, and refute claims, evidence, reasoning (embedded clauses, active and passive voice, nominalizations, given/new patterns)
- Comparing/contrasting connectors to differentiate between claims and counterclaims *(unlike, as opposed to, contrasted with, conversely, similarly, in spite of that)*
- If/then clauses to support inferential conclusions *(If these studies are accurate, then it is reasonable to expect)*
- Cohesive devices (deletions, substitutions, ellipsis) to reduce repetition, redundancy *(Teens were told to stop and they did. Teens use social media as a substitute for in-person socializing…if they do that…)*
- Connectors to sequence points in the argument and maintain logical progression *(one way, another point, as mentioned previously, in addition, it is clear then)*
- Summary statement to reiterate claim, call to action, encourage a response, or suggest next steps

GRADES
9-12 WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will...

ELD-MA.9-12 Explain Interpretive
Interpret mathematical explanations by

- Identifying concept or entity
- Analyzing data and owning problem-solving approaches
- Evaluating rationales, models, and/or interpretations based on evidence and mathematical principles

ELD-MA 9-12 Explain Expressive
Construct mathematical explanations that

- Introduce mathematical concept or entity
- Share solutions with others
- Describe data and/or approach used to solve a problem
- State reasoning used to generate own or alternate solutions

Language Functions and Sample Language Features

Introduce a concept or entity through...

- Mathematical terms and phrases to describe concept, process, or purpose *(the sum of the angles of a triangle is 180°)*
- Relating verbs *(belong to, are part of, be, have)* to define or describe concept

Share solutions with others through...

- Generalized nouns to add precision to discussion *(congruence, theorems, bisector)*
- Language choices to reflect on completed and on-going process *(we should have done this, we might be able to, what if we try)*
- First person *(I, We)* to describe approach; third person to describe approach with neutral stance of authority
- Observational *(notice, it appears, looks like)* and comparative language *(different from, similar to, the same)* to share results *(We notice our process was different, but we have the same solution.)*
- Modality (verbs, adverbs, nouns, adjectives) to express opinions, degrees of certainty, or temper disagreement *(it's a possibility, that's definitely wrong, we need to)*

Describe data and/or approach to solve a problem through…

- Abstract, generalized, or multi-meaning noun groups to provide precision to mathematical descriptions *(theorems, transformations, plane, translation, reflection)*
- Imperative verbs *(factor, solve, invert, simplify, apply)* to establish a process or approach
- Visual data displays (drawings, software, demonstrations, reflective devices, tables, charts) to clarify approach(es) and solution(s)
- Connectors to link sentences and longer stretches of text signaling details of time *(next, at the same time),* causality *(therefore, consequently, as a result),* clarification *(for example, as seen in the model).*
- Reference devices (personal and demonstrative pronouns, articles, text reference) to create cohesion

State reasoning used to generate own or alternate solutions through…

- Causal connectors to establish or refute relationship, solution, validity *(the relationship is not a function because a function is…)*
- Conditional conjunctions to propose future options *(if/so, if/then)* and generalized relationships *(if/will; if a transversal crosses parallel lines, then the alternate interior angles are congruent)*

GRADES 9-12

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will…

ELD-MA.9-12.Argue.Interpretive
Interpret concepts in arguments by

- Comparing conjectures with previously established results and stated assumptions
- Distinguishing correct from flawed logic
- Evaluating relationships among evidence and mathematical principles to create generalizations

ELD-MA.9-12.Argue.Expressive
Construct mathematics arguments that

- Create precise conjecture, using definitions, previously established results, and stated assumptions
- Generalize logical relationships across cases
- Justify (and refute) conclusions with evidence and mathematical principles
- Evaluate and extend others' arguments

Language Functions and Sample Language Features

Create precise conjecture, using definitions, previously established results, and stated assumptions through…

- Verb groups and sequential connectors *(first, then)* to recount and explain steps in solving problems assumed to be solvable
- Conditional *(if, when)* to make and justify conjecture *(If a population doubles each week, then it will always be 16 times the original population after 4 weeks.)*
- Adverbial phrases *(qualities, quantities, frequencies)* to add precision related to conjecture *(Lines with equivalent slopes will never intersect.)*
- Relating verbs *(have, belong to, be)* to define principles, operational theorems and properties *(an inscribed angle is the angle formed when… A rhombus is a parallelogram with perpendicular diagonals.)*

Generalize logical relationships across cases through…

- Declarative statements to present generalizable processes *(We don't have outliers in our data. We can use a dot plot or histogram.)*
- Verbs to apply mathematical principles, as in commands *(use, do, apply)* across cases *(We need to rewrite the equation to see if we can use factors to solve it.)*

Justify (and refute) conclusions with evidence and mathematical principles through…

- Conditional structures *(if/then, when, given)* to demonstrate conclusions *(Given all the sides of a cube are the same, take the length and raise it to the third power to find the volume.)*
- Technical nouns and noun groups to add precision and details *(inscribed and circumscribed circles, quadratic equations, recursive definition)*
- Models, drawings, graphs to demonstrate principles

Evaluate and extend other's arguments through…

- Questions *(what, how, why, do),* requests *(could, would)* to ask for information, clarification, procedure *(Could you show me how you got that answer? Why did you do…instead of…?)*
- Causal connectors *(so, because, therefore)* to identify misconceptions *(These two figures have to have the same volume because they have the same height and area even when you change the shape; it's Cavalieri's principle.)*
- Negation *(don't, doesn't, can't)* and obligation modal verbs *(have to, must, should, could, might)* to engage with others *(I don't think you can apply that theorem, I think you have to use this, I found a counterexample.)*

GRADES 9-12

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will…

ELD-SC.9-12.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or problems based on observations, information, and/or data about a phenomenon
- Paraphrasing central ideas in complex evidence, concepts, processes, and information to help explain how or why a phenomenon occurs
- Evaluating the extent to which reasoning, theory and/or models link evidence to claims and support conclusions

ELD-SC.9-12.Explain.Expressive
Construct scientific explanations that

- Describe reliable and valid evidence from multiple sources about a phenomenon
- Establish neutral or objective stance in how results are communicated
- Develop reasoning to illustrate and/or predict the relationships between variables in a system or between components of a system
- Summarize and refine solutions referencing scientific knowledge, evidence, criteria, and/or trade-offs

Language Functions and Sample Language Features

Describe reliable and valid evidence from multiple sources about a phenomenon through…

- Abstract nouns to introduce concepts, ideas, and technical terms *(effects, impairment, perception, antioxidants)*
- Cohesion to reference ideas, information across text (pronouns, substitutions, renaming, synonyms, collocations)
- Relating verb groups to state relationships or attributes *(have, be, belong to)*
- A variety of structures (embedded clauses, relating verbs, nominalizations, and noun groups) to define a phenomenon

Establish neutral or objective stance in how results are communicated through…

- Passive voice and declarative statements *(The heat within the earth is transmitted. Disease spreads through human contact.)*
- Word choices to moderate stance, such as hedging *(could/might, a possibility, usually)*
- Objective and evaluative language to adjust precision, soften tone, acknowledge others

Develop reasoning to illustrate and/or predict the relationships between variables in a system or between components of a system through…

- Nominalizations to represent abstract concepts
- Connectors to link clauses and combine ideas into logical relationships *(as a result, therefore)*
- Variety of clause types to express causality *(Unable to grow or repair themselves, the corals eventually die.)*
- Given/new patterns to link relationships, add new details, and condense information into abstract nouns

Summarize and refine solutions referencing scientific knowledge, evidence, criteria, and/or trade-offs through…

- Labeling/describing diagrams, graphics, data, statistics to add information about a phenomenon
- Ask and answer questions to theorize, clarify, and make extrapolations about a phenomenon
- Conditional clauses *(if/then)* to generalize a phenomenon to additional contexts

GRADES 9-12

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.9-12.Argue.Interpretive
Interpret scientific arguments by

- Identifying appropriate and sufficient evidence from data, models, and/or information from investigations of a phenomenon or design solutions
- Comparing reasoning and claims based on evidence from competing arguments or design solutions
- Evaluating currently accepted explanations, new evidence, limitations (trade-offs), constraints, and ethical issues

ELD-SC.9-12.Argue.Expressive
Construct scientific arguments that

- Introduce and contextualize topic/phenomenon in current scientific or historical episodes in science
- Defend or refute a claim based on data and evidence
- Establish and maintain an appropriate tone and stance (neutral/objective or biased/subjective)
- Signal logical relationships among reasoning, evidence, data, and/or models when making and defending a claim, counterclaim, and/or rebuttal

Language Functions and Sample Language Features

Introduce and contextualize topic/phenomenon in current scientific or historical episodes in science through...

- A variety of ways to define a phenomenon (relative clauses, declarative statements, relational verbs)
- Abstract nouns to introduce concepts, ideas, and technical terms *(atmosphere, organisms, carbon dioxide, noble gases)*
- A variety of verb groups (past, timeless present, future, conditional) to describe and/or extrapolate events known or anticipated

Defend or refute claim based on data and evidence through...

- Expanded noun groups to classify and/or add details *(greenhouse gasses, gradual atmospheric changes, irrevocable damage)*
- Connectors to link clauses and establish logical relationships *(as a result, therefore, to be more precise, instead, however, on the other hand)*
- Clauses to link claim with evidence and reasoning *(based on these data, the scientific principle here is...)*
- Diagrams, models, projections, data, graphics to add support to claim or evidence

Establish and maintain an appropriate tone and stance (neutral/objective or biased/subjective) through…

- Passive voice and declarative statements to establish a factual stance *(Elliptical paths around the sun are formed by orbiting objects. The sun's radiation varies due to sudden solar flares.)*
- Word choice to moderate stance, i.e., hedging *(undoubtedly, is likely, probable, a possibility, usually, arguably)*

Signal logical relationships among reasoning, evidence, data, and/or models when making and defending a claim, counterclaim, and/or rebuttal through…

- Given/new patterns to link relationships, add new details, and condense information into abstract nouns
- Cohesion to reference ideas, concepts, phenomena across text, using pronouns, substitutions, renaming subjects, collocations, synonym *(fusion-radiation-energy)*
- Connectors to signal time *(next, at the same time),* causality *(therefore, consequently, as a result, because),* clarification *(for example, this shows how…)*

GRADES 9-12

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will...

ELD-SS.9-12.Explain.Interpretive
Interpret social studies explanations by

- Determining multiple types of sources, points of view in sources, and potential uses of sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for logical relationships among contributing factors, causes, or related concepts
- Evaluating experts' points of agreement and disagreement based on their consistency with explanation given its purpose

ELD-SS.9-12.Explain.Expressive
Construct social studies explanations that

- Introduce and contextualize multiple phenomena or events
- Establish perspective for communicating intended and unintended outcomes, consequences, or documentation
- Develop sound reasoning, sequences with linear and nonlinear relationships, evidence, and details with significant and pertinent information, acknowledging strengths and weaknesses
- Generalize experts' points of agreement and disagreement about multiple, complex causes and effects of developments or events

Language Functions and Sample Language Features

Introduce and contextualize multiple phenomena or events through...

- Prepositional phrases to establish conditions, time, place *(during the Industrial Revolution)*
- A variety of structures (embedded clauses, relating verbs, nominalizations, and noun groups) to define phenomena or events
- Cohesion to reference ideas, people across text (pronouns, substitutions, renaming, synonyms, collocations)

Establish perspective for communicating intended and unintended outcomes, consequences, or documentation through…

- Passive voice to keep emphasis on main topic *(Farm policies were enforced by regulatory agents.)*
- Verbs to highlight agents and recipients *(Migrant workers challenged farm policies.)*
- Declarative statements to evaluate and interpret events *(Impressionist artists showcased a new way to observe and depict the world.)*
- Evaluative verbs and adjectives to judge behavior or moral character *(dominated, succumbed to; ineffective, powerful)*

Develop sound reasoning, sequences with linear and nonlinear relationships, evidence, and details with significant and pertinent information, acknowledging strengths and weaknesses through…

- Nominalizations to name abstract concepts, ideas, ideologies *(racism, reunification, criminalization)*
- Dependent clauses to express details that occur as a result of place, manner, duration, extent
- Complex sentences to clarify causal, linked, time-bound or sequential relationships
- Expanded noun groups to add details *(One young girl lives in the urban streets of Chicago.)*
- Connectors to maintain chronological, causal or logical relationships *(as a result, meanwhile, therefore)*

Generalize experts' points of agreement and disagreement about multiple, complex causes and effects of developments or events through…

- Word choices to evaluate, judge, or appreciate significance of events or phenomena
- Nominalizations to summarize event and name abstract phenomena

GRADES 9-12

WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.9-12.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor of or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information to support and/or revise claims with reliable and valid evidence from multiple sources
- Evaluating credibility, accuracy, and relevancy of source based on expert perspectives

ELD-SS.9-12.Argue.Expressive
Construct social studies arguments that

- Introduce and contextualize topic
- Select relevant information to support precise and knowledgeable claims with evidence from multiple sources
- Establish perspective
- Show relationships between claims and counterclaims, differences in perspectives, evidence, and reasoning

Language Functions and Sample Language Features

Introduce and contextualize topic through...

- Generalized nouns and descriptive title to introduce topic *(occupation, reunification, The Allied and Axis forces)*
- A variety of verb tenses (past, timeless present, relational) to present position and/or provide background information
- Expanded noun groups with embedded and relative clauses to add details *(Germany's growing domination, which expanded into...)*
- Cohesion to reference ideas, people across text (pronouns, synonyms, substitutions, renaming, collocations)
- Given/new patterns to link relationships, add new details, and condense information into abstract nouns

Select relevant information to support precise and knowledgeable claims with evidence from multiple sources through…

- A variety of clauses to frame details, examples, quotes, data *(according to, historians dis/agree, several sources suggest, these data suggest)*
- Adverbial and prepositional phrases to specify time (duration, specific date or range), location, how or why something happened
- A variety of verb forms to express agency in doing, thinking, saying, feeling actions *(they decreed, she conspired, children were playing when)*

Establish perspective through…

- Passive voice to keep emphasis on main topic rather than who or what is doing the action *(Those who resisted were rounded up and sent to work camps.)* or to use active voice to keep emphasis on who or what is doing the action.
- Objective or emotive language to appeal to logic or feelings *(forces, versus brave, focused fighters)*
- Evaluative verbs, adverbs, and adjectives to add author's perspective *(tormented, bravely, substantial)*

Show relationships between claims and counterclaims, differences in perspectives, evidence, and reasoning through…

- Connectors to link claims with evidence and reasoning *(because, but, as a result, when, if, although, therefore)*
- Connectors to signal alternate points of view *(on the other hand, contrary to common belief, according to);* show concession or comparison/contrast *(while, although)*
- Modality in summary statements to reiterate position or create a call to action *(could be argued, undoubtedly, ought to, may)*

Annotated Language Samples

Annotated Language Samples exemplify the WIDA ELD Standards Framework in action. In particular, they show an ELD Standards Statement, a Key Language Use, a Language Expectation, as well as its Language Functions and Language Features contextualized in authentic grade-level texts. The samples, drawn from the work of teachers and students from across the WIDA Consortium, help make more visible the language for content learning. In this way, educators can envision how to highlight language and plan for its systematic development during content learning.

LEGEND FOR THE ANNOTATED TEXTS

Several different conventions are used to indicate example Language Features in the annotated text:

- **Language Functions (bold white text on an orange background)**
- **Connectors, sequence words (in bold)**
- Nouns and noun groups (in red with dashed underline)
- Verbs and verb groups (in green with dotted underline)
- Prepositional and adverbial phrases (in blue with diamond underline)
- *Objective/evaluative language (words or phrases) (in italics)*
- Cohesive devices (circles and arrows within the text) 
- *Clauses (underlined and italics)*
- Sentences (highlighted with boxes around them)

Note: Examples of sentences are declarative statements, statements of claims, statements foreshadowing events. See individual texts for more detail.

GRADES 9-12

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Annotated Language Sample

Context: This essay *draft* was written by an 11th grader from Vietnam. Students had been defending their textual interpretations and the validity of their analyses of authors' uses of rhetorical strategies and their effects. This assignment was completed after the class and the teacher had jointly deconstructed and analyzed similar rhetorical strategies, both from published authors and from other students.

Prompt: Carefully read the first five paragraphs from Alice Walker's "Everyday Use." In the beginning of the story, the narrator describes the idealistic world of television in juxtaposition to her "real life." Consider Walker's rhetorical strategy in the context of this juxtaposition, and describe the effects.

Language Expectation: ELD-LA.9-12.Argue.Expressive
Multilingual learners use language to construct language arts arguments that
- Introduce and develop precise claim(s) and address counterclaim(s)
- Support claims and refute counterclaims with valid reasoning and relevant and sufficient evidence
- Establish and maintain a formal style and objective tone
- Logically organize claims, counterclaims, reasons, and evidence; offer a conclusion with recommendations

Functions & Features	"Everyday Use"	Functions & Features
Introduce and develop precise claims through... Declarative statements to frame topic, provide background information, state claim • In "Everyday Use" ... invisible conflict. Noun groups to provide details • unique organization • an almost invisible conflict. • the opposing views in content of adjacent paragraphs • the continuing subject of division.	In "Everyday Use" Alice Walker intertwines context, unique organization and juxtaposition to subtely shine a light on an almost invisible conflict. Juxtaposition is the opposing views in content of adjacent paragraphs is used to show the continuing subject of division. The introduction of Dee is begun with *what Mama wanted with a T.V. show providing the dream setting* and *what Dee actually is in real life.*	**Support claims and refute counterclaims with valid reasoning and relevant and sufficient evidence through...** A variety of clauses to support claim • *what Mama wanted with a T.V. show providing the dream setting* • *what Dee actually is in real life.*

Functions & Features	"Everyday Use" Continued	Functions & Features
Introduce and develop precise claims through… Noun groups to provide details • slight negative tension to her arrival • the meek resentment the reader initially has • the idea of sentimenal value • the memory of the quilt. Pronouns and renaming subjects to maintain cohesion • the contrast … the conflict … the issue … the true conflict (renaming) • this (pronoun)	The contrast Dee shows to Mama's hopes and dreams build slight negative tension to her arrival. The meek resentment the reader initially has is superficial as the standard Mama set was fantasy but, *the prescence of the emotion set the stage for the conflict.* The issue expands with comparisons between Maggie and Dee *to show the many differences between the two*. **Later in the story** Maggie and Dee end up arguing over a quilt. The literal argument itself is unremarkable and one-sided as Mama has to defend Maggie; the true conflict was in the idea of sentimental value. Dee puts value in the quilt and not in the memory of the quilt. She sees the quilt or any heirloom *as something to be collected or chosen.* Maggie and Mama cherish memories and knowledge in their entirety; it cannot be denied or rejected. This mirrors the context and contributes to the message of different ways *people remember not only the past but also their bloodline.*	**Support claims with valid reasoning and relevant and sufficient evidence through…** A variety of clauses (adverbial, embedded) to support claim • *the prescence of the emotion set the stage for the conflict* • *to show the many differences between the two* • *as something to be collected or chosen* • *people remember not only the past but also their bloodline* Connectors to elaborate on an idea/interpretation • **later in the story**

Functions & Features	"Everyday Use" Continued	Functions & Features
Establish and maintain a formal style and objective tone through… Third person to maintain neutrality • the "Everyday Use" • Maggie • Dee Authoritative declarative sentences to evaluate and interpret events • Such a massive … population. • Mama and Maggie's…which they are rising up against. Nouns, adjectives, verbs, and adverbs to evaluate the positive/ negative qualities of topic, position, or evidence • *took the nation by storm* • *Such a massive and sudden surge* • *the loud and proud* • *the new outspoken group* • *did little to recognize* • *a form of ignorance* • *mean little* • *has no significance*	*The "Everyday Use" is set in an era where* a new wave African-Americans *took the nation by storm. Such a massive and sudden surge* of cultural created a schism within the population. Maggie represents the old generation, characterized by her shy and nervous persona. While Dee is the new breed of *the loud and proud*. The new outspoken group Dee symbolises created the back to Africa movement and revived African pride yet *did little to recognize* the history of slavery and subsequent liberation. Mama and Maggie's generation consider that to be a form of ignorance and that they are no better than the people which they are rising up against. The quilt, names, arguments *mean little* without the context as the family would have no background *with which to draw the real issues from*. The differences between Maggie and Dee would be comparable to a sitcom *as neither person represent anything*. The fight over the quilt *has no significance* without the backdrop of the civil rights movement.	**Logically organize claims, counterclaims, reasons, and evidence; offer a conclusion with recommendations through…** A variety of structures to define, describe, interpret, and refute claims, evidence, reasoning • the "Everyday Use" is set in an era where (passive voice) • the old generation, characterized by her shy and nervous persona (expanded noun group) • the back to Africa movement (noun group and nominalization) • *with which to draw the real issues from* (subordinate clause) • *as neither person represent anything* (causal) • the fight over the quilt (nominalization) • represents, • characterized, • created, • symbolizes (verbs)

Functions & Features	"Everyday Use" Continued	Functions & Features
Establish and maintain a formal style and objective tone through… Authoritative declarative sentences to evaluate and interpret events • Had Dee and Maggie … less pronounce. • Today … not just in race. Nouns, adjectives, verbs, and adverbs to evaluate the positive/ negative qualities of topic, position, or evidence • *pervades* • *identity crises* • *has many confused*	**In the same vein** the meaning of the essay would be difficult to convey without the constant separation in character personalities. Had Dee and Maggie been more similar the representations of generations would have been less pronounce. Context and juxtaposition work in unison to focus on the issue of personal identity. **The 70's** had half the African-American population declaring their nationality and half wondering about what their ancestors would say. **Today** the same issue still persists but not just in race. It also *pervades* the culture of our people and what it means to be anything, from gender roles to sexual orientation, *identity crises has many confused*. "Everyday Use" does not offer a solution or point to what is right, instead it sends the message that there are many ways to belong to the same group and yet, at the same time be very different.	Cohesive devices • personalities …. had Dee and Maggie been more similar (whole/part) • context … the 70's (renaming) • juxtaposition … declaring their nationality …. say (renaming) • has many [people] confused (omission) Connectors to sequence points in the argument and maintain logical progression • **In the same vein** • **The 70's** • **Today** Summary statement to reiterate claim, call to action, encourage a response, or suggest next steps • "Everyday Use" does not offer a … different

GRADES 9-12

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Annotated Language Sample

Context: This mentor explanation text was developed by a teacher to illustrate the language required for students to answer this type of Algebra 1 problem they might encounter on a final exam or standardized test. The teacher read, deconstructed, and analyzed the mentor text with students to make visible how the text is structured as well as the way certain language features are employed to meet the purpose of the explanation.

Prompt: Give the domain and range of the relationship. Then tell whether the relation is a function. Explain your answer. $Y = X^2-5$

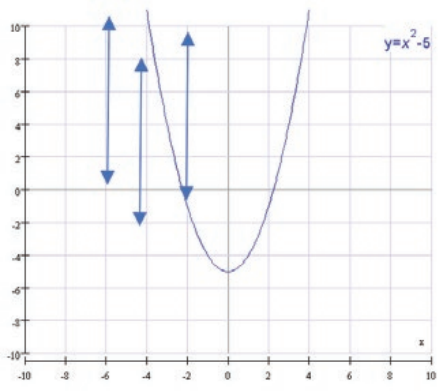
Language Expectation: ELD-MA.9-12.Explain.Expressive
Multilingual learners use language to construct mathematical explanations that
- Introduce mathematical concept or entity
- Share solutions with others
- Describe data and/or approach used to solve a problem
- State reasoning used to generate own or alternate solutions

Functions & Features	Grade 10 Algebra	Functions & Features
Introduce a concept through... Relating verbs to define or describe concept • is, is, is, . Mathematical terms and phrases to describe concept, process • the equation's domain and range • the vertical line test • X • Y	I explain that this equation is a function by providing a definition of the equation's domain and range and graphing what it looks like. This helps me see if the equation passes the vertical line test. The domain is the set of all numbers that can be substituted for X in the equation. X can be any real number, so the domain is all real numbers. The range is all the possible numbers that can be Y.	**Share solutions with others through..** Generalized nouns to add precision • equation • function • domain • range First person to describe approach • I • me Third person to describe approach with neutral stance of authority • the domain • the range

Functions & Features	Grade 10 Algebra Continued	Functions & Features

Describe data and/or approach to solve a problem through…

Connectors to link sentences and longer stretches of text signaling
- **one way** (clarification)
- **as shown below** (clarification)



Verbs to establish a process or approach
- to graph
- intersect

Multi-meaning noun groups to provide precision to mathematical descriptions
- positive
- the range
- function
- every possible value

Reference devices to create cohesion
- the equation … the equation (repetition)
- this … this (repetition)
- X^2-5 … X^2-5 (repetition)
- Y ≥ -5 … Y (renaming)

Visual data displays to clarify approach (es) and solution(s)

Because X^2 is positive or at a minimum 0, (X^2-5) could be -5 or greater. (This) means that the range is (Y ≥ -5). **Therefore**, (the equation, Y = (X^2-5,) is a function **because** for every possible value for X, there is only one value of (Y.) **One way** to show that (this) is true, is to graph (the equation) and use the vertical line test. If vertical lines intersect the graph at a single point, **then** the equation is a function, **as shown below**.

State reasoning used to generate own or alternate solutions through…

Causal connectors to establish or refute relationship, solution, validity
- **because**
- **therefore**
- **because**

Conditional conjunctions to propose future options (if/so, if/then) and generalized relationships (if/will)
- **if … then**

Proficiency Level Descriptors

Remember...

Proficiency Level Descriptors (PLDs) illustrate a continuum of language development for multilingual learners across six levels of English language proficiency for each grade-level cluster. The descriptors span three dimensions of language: discourse, sentence, and word/phrase.

- Each proficiency level (PL) includes and builds on previous levels (e.g., PL4 = PL1 + PL2 + PL3 + PL4). PL6 is open-ended. It indicates that for all of us, language development continues throughout life.
- Language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors. Multilingual learners may take various paths to develop language.
- The PLDs are designed to be used in coordination with Language Expectations, Language Functions, and Language Features.
    - Whereas Language Expectations offer goals for how *all students* might use language to meet academic content standards, PLDs offer a succinct description of how *multilingual learners* might develop language *across levels of language proficiency* in moving toward meeting Language Expectations.
- In the PLDs, *text* is multimodal, including oral, visual, and written forms.
- Scaffolding learning increases accessibility for multilingual learners, supports and bolsters their opportunities to meaningfully engage in grade-level content learning, and builds toward independence. The PLDs are predicated on the idea that appropriate scaffolding supports students in moving through the language proficiency levels.

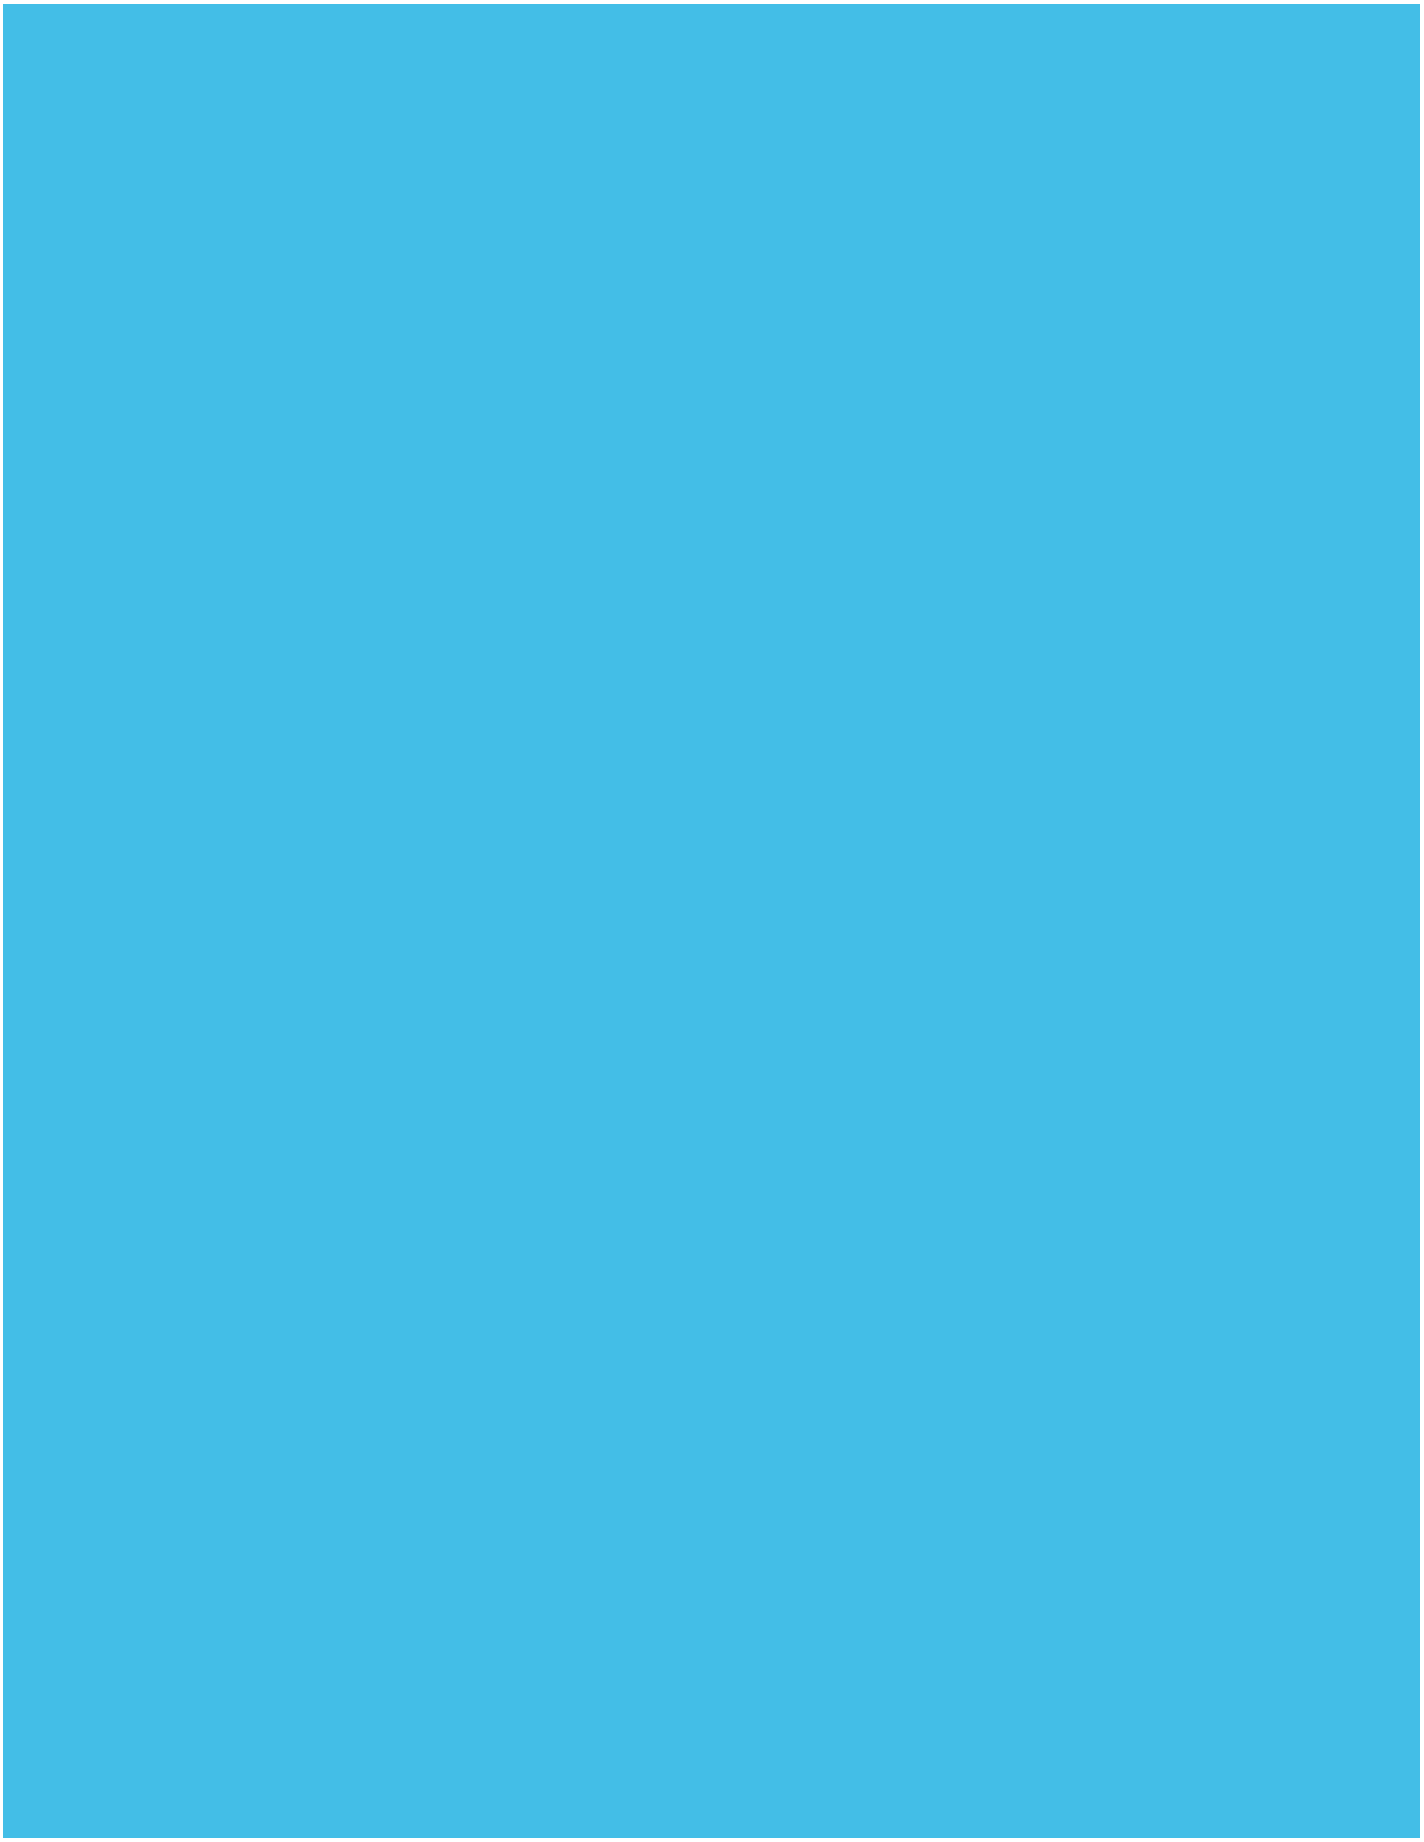
Grades 9-12 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

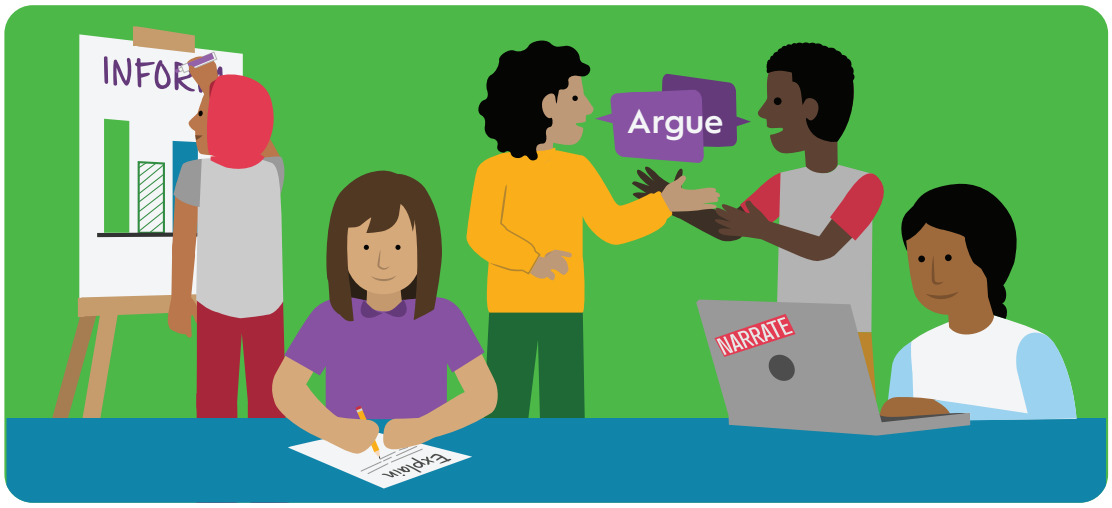
Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	to meet a purpose (to inform, narrate, entertain) in a series of topic-related connected sentences	to meet a purpose through generic (not genre-specific) organization (introduction, body, conclusion)	to meet a purpose through specific organization (orientation and explanation sequence)	to meet a purpose through organizational patterns characteristic of the genre (claim, evidence, reasoning) that link ideas, events, and reasons across text	to meet a purpose reflective of genre and discipline, linking ideas, events, and reasons in a variety of ways (causes and effects, factors and outcomes, events and consequences)	According to authors' strategic use of generic structure (combining different genres to meet their social purpose) for particular effects and for a variety of audiences
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	multiple cohesive devices (synonyms, antonyms)	a variety of cohesive devices that connect larger meaningful chunks of text including (class/ subclass, whole/part)	a wide variety of cohesive devices that connect ideas throughout a text (whole/part, substitution/omission)	cohesive devices and common strategies that connect ideas throughout a text (given/new)	various types of cohesive devices and strategies that connect ideas throughout a text	authors' strategic and creative ways to connect units of meaning throughout a whole text
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	expanded noun groups with prepositional phrases *(the chemical element with the symbol H)*	expanded noun groups with embedded clauses *(chemical element that has these physical properties)*	expanded noun groups with a variety of embedded clauses *(chemical element with the symbol Na and an atomic number 11 that …)*	expanded noun groups with embedded clauses and compacted noun groups (nominalization)	a variety of noun groups expanded with pre- and post- modifiers *(the chemical element with the symbol H and atomic number 1)*	authors' strategic use of noun groups and nominalization to elaborate and condense ideas characteristic of various genres and content areas

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	multiple related simple sentences *(All people have needs and wants. This is called demand.)*	simple or compound sentences with familiar ways of combining clauses (using coordinating conjunction: *All people have needs **and** wants and it's called demand.*)	compound sentences with frequently used ways of combining clauses (coordinating conjunctions: *All people have needs and wants **but** there are only limited…*)	compound and complex sentences with a variety of ways of combining clauses addressing genre, audience, and content area *(**Whenever** there is an increased demand, the prices go up.)*	a wide variety of sentence types that show various increasingly complex relationships (condition, cause, concession, contrast) addressing genre, audience, and content area *(**Despite** the obvious problems with equity, some people…)*	authors' strategic use of sentences that combine clauses reflecting increasingly complex relationships addressing genre, audience, and content area *(Interest rates are controlled by the Federal Reserve Bank, although some would argue…)* with awareness of how various sentences create different effects
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	a growing number of words and phrases in a variety of contexts *(sit tight for the announcements, in this novel)*	an expanding number of words and phrases including idioms and collocations *(to make a long story short)*	a variety of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns *(within seconds)*	a wide variety of words, phrases, and expressions with multiple meanings across content areas *(division of power versus long division)*	strategic use of various words, phrases, and expressions with shades of meaning across content areas *(tumultuous and catastrophic events)*	authors' flexible and strategic use of words and phrases across a variety of contexts and content areas *(stares, hesitates, agonizes and finally…)*

Grades 9-12 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)



Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

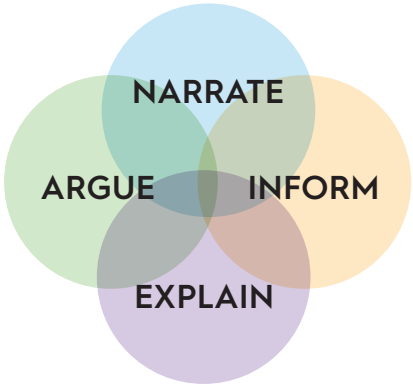


Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	short text that conveys intended purpose using predictable organization (paragraph openers: *First…, Finally, In November, Plant cells have…*)	expanding text that conveys intended purpose using generic (not genre-specific) organization (introduction, body, conclusion) with some paragraph openers	text that conveys intended purpose using genre-specific organizational patterns (statement of position, arguments, call to action) with a variety of paragraph openers	text that conveys intended purpose using genre-specific organizational patterns (claims and counterclaims or rebuttals) with strategic ways of signaling relationships between paragraphs and throughout a text	text that conveys intended purpose using genre-specific organizational patterns with a wide range of ways to signal relationships throughout the text	elaborated text that conveys authors' intended and strategic purpose, including flexibility in combining multiple genres for a variety of audiences and effects.
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	a growing number of cohesive devices (demonstratives, repetition)	an expanding number of cohesive devices (given/new, whole/part, class/subclass)	a flexible number of cohesive devices (ellipsis, substitution/omission)	a variety of cohesive devices used in genre- and discipline-specific ways	a wide variety of cohesive devices used in genre- and discipline-specific ways	a flexible and strategic use of cohesive devices
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	some types of elaboration (demonstratives: *these five rules*)	an expanding number of types of elaboration (adding classifiers: *Roman empire*)	a variety of types of elaboration (adding in embedded clauses after the noun: *ancient kingdoms which were buried by ash*)	a wide variety of types of elaboration and some ways to condense ideas that includes embedded clauses and condensed noun groups through nominalization	a flexible range of types of elaboration and a growing number of ways to condense ideas	multiple and strategic use of language features to elaborate and condense ideas

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	simple sentences with emerging use of clauses *(Bolivia is in South America. It's a home to…)*	simple or compound sentences with familiar ways of combining clauses with some coordinating conjunctions *(Bolivia is in South America and it's a home to…)*	compound sentences with frequently used ways of combining clauses that use a broad range of techniques to connect ideas *(Democracy was established in the 1980s, **yet**, leaders…)*	compound and complex sentences with a variety of ways of combining clauses in characteristic of the genre and content area (with a range of techniques to extend, or shorten sentences: ***Although** the northern part of…)*	a wide variety of sentence types that show complex clause relationships (condition, cause, concession, contrast) through addressing genre, audience, and content area *(**Despite** the country's suffering…)*	strategic use of multiple techniques and strategies for creating increasingly complex clause relationships that address genre, audience, and content area *(**Even though** Spanish is the official language, several indigenous languages are spoken.)*
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	a growing repertoire of words and phrases with growing precision *(mitosis, symbiotic relationships)*	an expanding repertoire of words and phrases such as idioms and collocations with expanding precision *(miss the boat)*	a flexible repertoire of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns with consistent precision *(by exploring cultures, later that day)*	a variety of words and phrases, including evaluation and obligation, with precision *(we shall overcome)*	a wide variety of words and phrases with precision *(the dictator ruled with terror)* according to the genre, purpose, and discipline	flexible and strategic use of various words and phrases *(marveled at the Eiffel Tower)* according to the genre, purpose, and discipline

Section 4: Resources

Key Language Uses: A Closer Look



Section 2 of this document, "Understanding the WIDA ELD Standards Framework," introduces readers to Key Language Uses. This resource takes a deeper dive into the common and unique linguistic and organizational features of each Key Language Use, and includes the following:

- A brief review of the Key Language Uses
- A quick reference table that includes brief definitions, examples of genres, and curricular contexts
- Common linguistic and organizational features across Key Language Uses
- Unique linguistic and organizational features of each Key Language Use
  - A definition of each Key Language Use
  - Example genres within each Key Language Use
  - Samples of how each Key Language Use is applied in a classroom setting across all grade level clusters.
  - Descriptions of how each Key Language Use appears across the disciplines
  - Examples of how each Key Language Use interacts with and builds on other Key Language Uses

A Review of the Key Language Uses

The four Key Language Uses—Narrate, Inform, Explain, Argue—represent prominent genre families in the context of the disciplines to 1) help bring focus and coherence to the language of schooling and 2) prompt educators to attend to language in systematic, explicit, and sustained ways. Key Language Uses provide a natural source for collaboration between content and language teachers and help educators make choices to prioritize and organize content and language integration.

Figure 4-1: The Four Key Language Uses

Genres are multimodal types of texts (oral, written, visual) that recur frequently for specific purposes, with specific discourse organization and language features (e.g., biographies).

Genres with similar characteristics (e.g., biographies, autobiographies, short stories) can be grouped together into **genre families** (e.g., narrate).

Key Language Uses reflect the most high-leverage genre families across academic content standards. They are **Narrate, Inform, Explain,** and **Argue.**

As genre families, Key Language Uses overlap, blend, and build on each other. They are not strict categorical divisions. For example, as students develop complex explanations, they may Inform (by naming, defining, describing, or comparing and contrasting something), and even Narrate (e.g., include an anecdote) as they work to help their audiences accurately understand the *how* or *why* of a concept (Explain). Narratives can be embedded within other expository structures, such as those in the families of Argue and Explain. Argue can incorporate elements of many Key Language Uses, as it seeks to show an audience the validity of a position.

Educators who are aware of how genres work in school can offer students explicit and systematic explanations of the way language works in context. This understanding can also help educators shift from seeing language as a static inventory of structures to language as a functional resource for making meaning. In other words, Key Language Uses draw attention to the language of schooling to help both students and educators see that language use is shaped by

- The larger context of schooling
- The content area, topic, and purpose for using language
- The person(s) with whom one communicates
- Students' identities and social roles
- The channel of communication

Table 4-1 offers a quick reference to the definition of each Key Language Use, along with examples of genres and classroom applications.

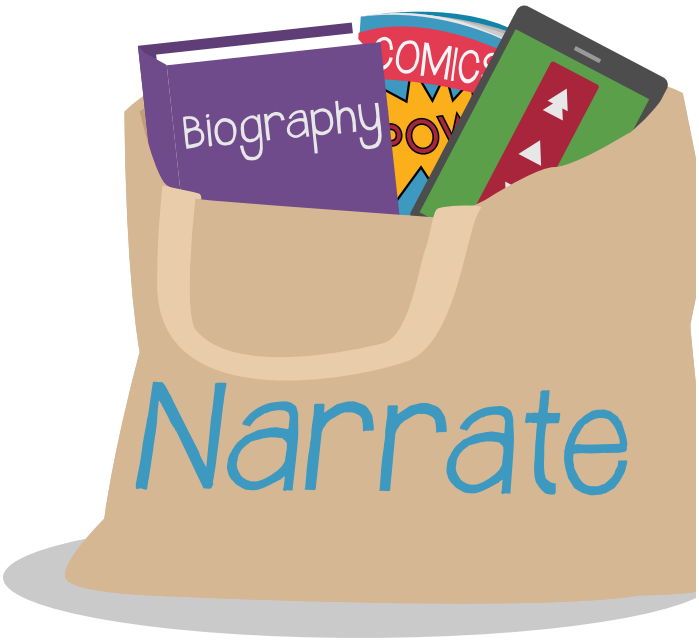


Table 4-1: Definitions of Key Language Uses

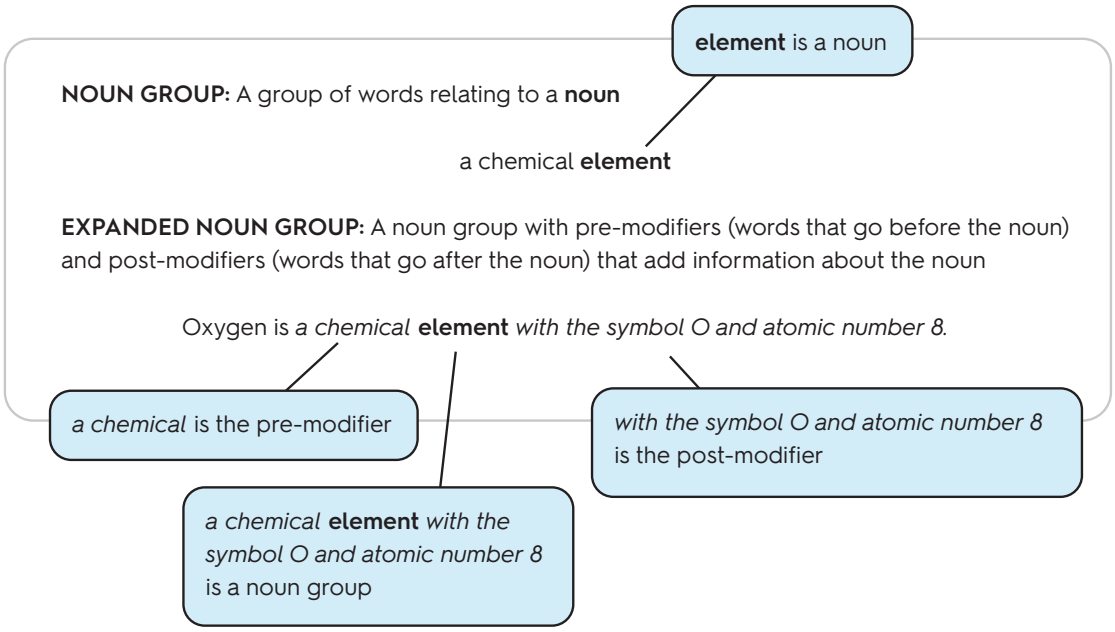
Key Language Use (Genre Family)	Genre Examples	Sample Classroom Applications
Narrate Represent experiences through stories and histories	• Stories: personal recounts of real experiences or imaginative creative stories (e.g., personal narrative, short stories, novels, mystery, science fiction, fantasy) • Histories: autobiographies, memoirs, biographies, and historical recounts	• My first day of school. • Imagine yourself as a person in a particular historical period. • Who are my heroes?
Inform Communicate factual information on a topic	• Descriptive, compositional, classifying, contrastive or comparative reports • Lab reports, investigation reports, design reports, problem-solution reports	• What are environmental disasters? • How are stars and planets different? • How do cells divide?
Explain Give account for how or why things work	• Sequential • Causal • Cyclical • Factorial • Consequential • Mathematical explanations	• How does a bill become a law? • Why do I have hiccups? • How does a caterpillar become a butterfly? • How are tornadoes formed?
Argue Justify one's claims using evidence and reasoning	• Exposition (one side) • Discussion (both sides) • Challenge • Critical response • Book, film, videogame reviews • Mathematical arguments • Scientific arguments	• Should plastic straws be banned? • Defend, challenge, or qualify a character's view of the relationship between wealth and justice. • A response to immigration policy. • Should masks be required in a global pandemic? • Develop mathematical proofs.

(de Oliveira, 2016; Derewianka & Jones, 2018)

Common Linguistic and Organizational Features of Key Language Uses



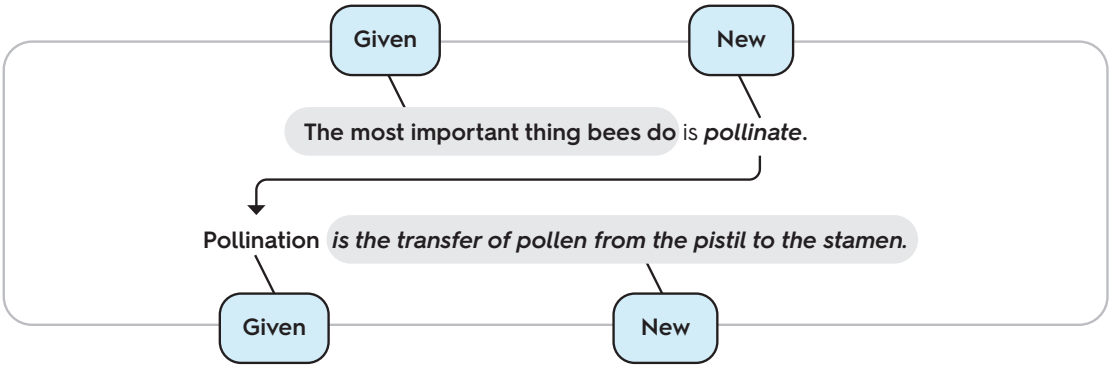
While each Key Language Use has unique organizational structures and language features, several are common across all Key Language Uses. In this section we highlight and discuss three such structures and features:

- Noun groups
- Nominalization
- Given/new organizational pattern of discourse (also known as zig-zag)

Teachers who recognize how these common language features work in texts can explicitly teach them to multilingual learners. This will help learners use these features across various Key Language Uses, making these features portable. Ultimately, this recognition will increase students' independence in being able to read academic texts on their own, regardless of genre.

Noun Groups

Academic texts are often challenging because of the density of information packed in noun groups connected with one simple verb (is, have, are, was). A **noun group** is a *group of words relating to* a ***noun*** (e.g., a *chemical* ***element***). An expanded noun group typically includes pre-modifiers (words that go before the noun) and post-modifiers (words that go after the noun) that add information about the noun.



Nominalization

Nominalization is a prominent feature of written text. It occurs when events and qualities are represented as "things," using an abstract noun instead of a verb, adjective, or clause (e.g., discrimination, assumption). Many abstract and technical terms are nominalizations that help us condense information (e.g., fragmentation, deposition, pollination). At the same time, nominalizations often emphasize an end result of an action while making the doer of that action disappear.

Given/New Information

Given/new Information is an organizational pattern in written texts in English that functions to build and sequence information between sentences. The **given (or known)** information is placed at the beginning of the sentence. The ***new (or unknown)*** information is placed at the end of the sentence. In the sentence that follows, the new information is picked up as **given** so that more information can be added, typically through the use of nominalization. For example:

The first sentence presents **"The most important thing that bees do"** as given information and ***"pollinate"*** as new information. The second sentence starts with the nominalization **"pollination,"** now as a **given**. The given/new pattern allows the second sentence to capture and build on the concept pollinate as **given** so that more information can be added (e.g., the transfer of pollen from a stamen to a pistil).

Educators can undoubtedly identify other common organizational patterns and language structures in English. Being able to see how these patterns and structures connect to the Key Language Uses can help you use them with your multilingual learners.

Unique Linguistic and Organizational Features of Key Language Uses

Narrate: Represent Experiences Through Stories and Histories

The Key Language Use **Narrate** refers to the way students use language to represent experience—real or imaginary. This genre family has the function of engaging and/or informing the reader or audience. (See Table 4-2 for examples.) The many genres that come under the umbrella of Narrate serve purposes including to convey what one imagines, to share an experience, to entertain, to inform, and to persuade. Narratives can take the form of stories, such as fictional creative short stories and novels, or nonfiction news stories and anecdotes. They can also take the form of histories, such as chronicles, biographies, and historical recounts.

Narratives tend to follow cultural story-telling patterns, and cultural norms for narratives can affect students' interpretations. It is important to be mindful that multilingual learners from different backgrounds may approach aspects of narrative such as truth, identity, and themes according to their cultural norms.

Table 4-2: Narrate Genre Family

Sample Genres	Purpose	Sample Classroom Applications
Personal recount	Reflect on experience by giving details of an incident	• How I came to this country • Our class field trip to the virtual museum
Short stories	Engage, encourage reflection, entertain, or teach a moral lesson	• The Rabbit and the Fox • Finding Helena
Anecdotes	Share a short and amusing episode about a real person	You won't believe what happened!
News stories	Inform about newsworthy events in a compelling way	Writing a story or blog for a school newspaper: Safety in School
Autobiographies	Recount episodes in someone's life as told by that person	• *A Long Walk to Here and Now* • *Hard Lessons Learned*
Biographies	Recount episodes from another person's life	*A Biography of Nelson Mandela*
Historical recounts and accounts	• Recount historical periods • Recount and explain historical stages	• The Ming Dynasty • The Victorian Era • U.S. Immigration History

Narrate Through the Years of Schooling

As students move through school, what they are expected to be able to do with Narrate changes (see Table 4-3). Students are always expected to express their ideas, interact with others, and create multimodal texts (written, oral, visual), but the resources they are expected to use become more sophisticated and often build upon previously acquired ways of using language. As such, when a multilingual learner arrives any time after early elementary school, they may need a great deal of support in building up their resources for Narrate.

Table 4-3: Narrate Through the Years of Schooling

Early Elementary	Upper Elementary and Middle	Middle and High School
Young learners come to school with experience and skill in telling stories. They use language to narrate when they • Share and reflect on lived experiences • Retell or create imaginative stories that rely on shared understanding with their audience • Create multimodal texts that include drawings and spelling approximations	In upper elementary school students expand their use of language to • Add details about people, characters, scenes, settings, and actions • Create images in the reader's mind through richly descriptive language • Interpret and develop more complicated plots • Move back and forth between spoken and written modes as they create increasingly coherent multimodal narratives for a variety of contexts and purposes	Middle and high schoolers use language in increasingly strategic ways to • Add nuance to how they describe people, objects, scenes, and actions • Use dialogue to provide insight into character's motives and personalities • Underscore the significance of events • Manipulate pace to bring attention to key points in the narrative • Create tension and suspense • Draw on a range of language resources to make narratives flow well and hang together coherently

Narrate Across Content Areas

Narratives as a genre family are generally associated with literature or language arts; however, narratives are present in all disciplines, as shown in Table 4-4.

Table 4-4: Narrate Across Content Areas

Language Arts	Mathematics	Science	Social Studies
In language arts, students process and produce narratives to • Convey real or imaginary experience through short stories, novels, anecdotes, memoirs, and autobiographies • Develop and process their own identities	In mathematics, students process and produce narratives to • Illustrate mathematical concepts • Contextualize and build stronger connections to the applications of math, bringing them to life in story forms	In science, students process and produce narratives to • Tell stories that add meaning to technical and abstract scientific phenomena • Share observations of how things work and evolve, and of how humans become interested in science	In social studies, students process and produce narratives to • Communicate their perspective on what happened, who was involved, and where and when it took place (settings, epochs) • Paint a larger picture of a particular event or social phenomenon

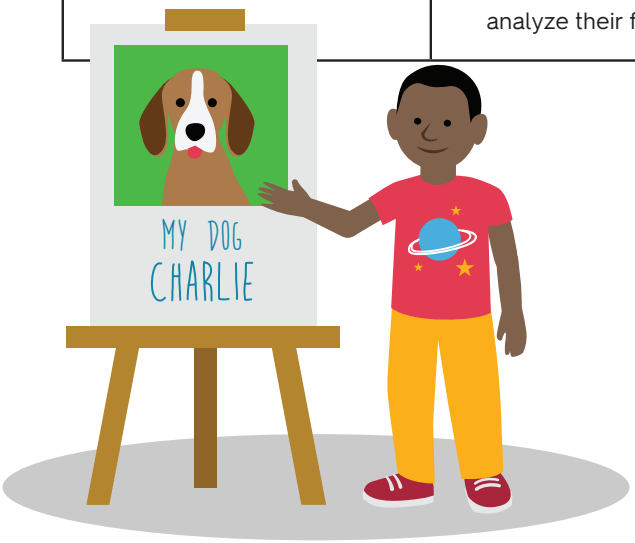
How Narrate Interacts with other Key Language Uses

As a genre family that allows students to create real or imaginary stories and recount histories, the Key Language Use Narrate relies largely on descriptions and sequencing of events. This way of using language underlies the other Key Language Uses as well. It is typical, for example, for arguments to include a personal story to connect with the audience, or for a science explanation to use a narrative to illustrate a phenomenon.

Inform: Communicate Factual Information on a Topic

The Key Language Use **Inform** allows students to observe, record, and describe information about the natural world around them. (See Table 4-5 for examples.) This genre family consists of texts that convey facts in nonfiction contexts as students define, describe, compare, contrast, organize, categorize, or classify something (for example, a favorite animal, a musical instrument, a planet, an epoch, or other newly researched knowledge). Informational texts are often multimodal: they tend to include pictures, symbols, charts, diagrams, illustrations, and other means that help to show relationships like parts to whole, or classes/subclasses of things.

Table 4-5: Inform Genre Family



Sample Genres	Purpose	Sample Classroom Applications
Descriptive report	Give information about an entity by describing its uses, characteristics, physical attributes, behavior, or other features	• Dolphins • Magnets • Stages of cell division
Classifying report	Organize and describe a field or topic into class and subclass hierarchies	• Classes of environmental disasters • Types of software
Comparative report	Identify similarities and differences between two or more things	• Stars and planets • Mitosis and meiosis
Compositional report	Describe parts and wholes	• Layers of the rainforest • The acoustic guitar
Lab report	Describe experiments using the scientific method	Types of techniques to separate mixtures
Investigation report	Research a topic using a variety of sources	The impact of COVID-19 on school learning
Design report	Design and create a product, service, performance, or artwork	Designing and constructing multimedia compositions
Problem-solution report	Devise a solution to a problem	Solutions report: robot arm designs for trash pick up

Inform Through the Years of Schooling

The language demands required for students through the Key Language Use Inform change significantly throughout the years of schooling. The language for observing and describing information shifts from describing people, places, and objects in the immediate environment to classifying and categorizing more abstract phenomena involving deeper taxonomies. What students can demonstrate with the language for informing depends on their knowledge of the topic; therefore, students need support to research topics before reporting on them. Because linguistic demands of Inform increase through the years of schooling, multilingual learners need ongoing explicit support with Inform across the grades. The progression is shown here in Table 4-6.

Table 4-6: Inform Through the Years of Schooling

Early Elementary	Upper Elementary and Middle	Middle and High School
Young learners use language for informing when they • Report on topics they know well • Discuss or write about people, places, or familiar things in their environment, such as "My dog Charlie"	In upper elementary school students expand their use of language to • Report on their researched topics at a distance and in general terms such as "Canine species" or "Dogs" in general • Manage information about entities according to their composition and classifications, to compare and contrast phenomena, and to analyze their features	Middle and high schoolers use language in increasingly strategic ways to • Provide extended scientific classifications or technical information with much more detail, precision, and sophistication • Share their research findings through different kinds of reports (e.g., more complex problem-solution reports and lab reports)

Inform Across Content Areas

Because information reports are used to describe phenomena and entities, these texts are more prevalent in science and social studies; however, they are also present in mathematics and language arts. (See Table 4-7 for examples.)

Table 4-7: Inform Across Content Areas

Language Arts	Mathematics	Science	Social Studies
In language arts, students process and produce information to • Ask and answer questions about local and global issues • Compare and contrast themes in various works • Research, summarize, draw conclusions, and report findings	In mathematics, students process and produce information to • Ask and answer questions, explore, model, conjecture, test, and prove • Define and represent concepts • Engage in problem-solving	In science, students process and produce information to • Ask and answer questions about phenomena • Explore solutions to problems • Elaborate on concepts and processes	In social studies, students process and produce information to • Ask and answer questions about past and present events • Pursue investigations through the tools and lenses of geography, history, economics, and political science

How Inform Interacts with other Key Language Uses

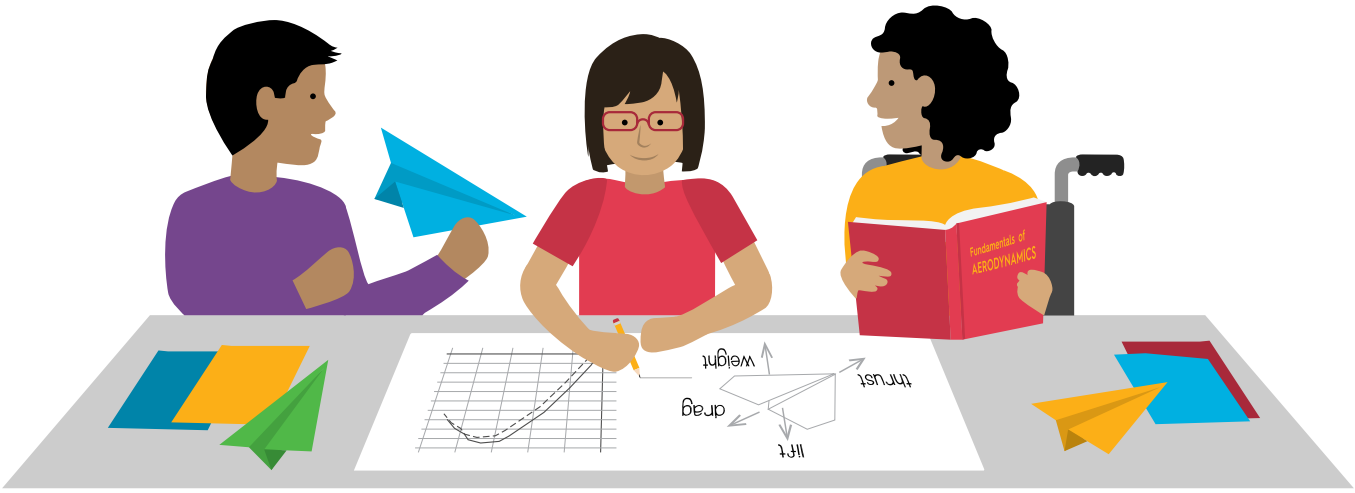
When students research a topic, the newfound knowledge can inform the basis for evidence in arguments. The researched material can also inform the background of a narrative short story. When students explain a phenomenon with a poster, they might need to inform by providing a definition of key concepts, such as magnetism. When asked to explain how energy flows through an ecosystem, they may need to inform by classifying the components of an ecosystem.

Notice that information reports are different from explanations because, for example, while the former describes or classifies such phenomena as clouds, explanations are concerned with how clouds are formed or why it rains.

Explain: Give Account for How or Why Things Work

The Key Language Use **Explain** centers on locating and substantiating the inner workings of natural, artificial, and social phenomena (see Table 4-8). Explanations are more than descriptions or recounts—they ask not only about the "what," but the "how," thus searching for causal relationships and overarching theories to construct deeper understandings. As they grow in complexity, explanations often draw on the unobservable or underlying concepts or mechanisms for how something works.

Table 4-8: Explain Genre Family



Sample Genres	Purpose	Sample Classroom Applications
Sequential explanation	Explain phenomena in a linear sequence	• How recycled paper is made • How a bill becomes a law
Causal explanation	Explain phenomena in a linear sequence showing how one step causes the next	• How a volcano erupts • How a solar eclipse occurs • How we get hiccups
Cyclical explanation	Explain phenomena in a way that the last step is also the beginning of the cycle	• The life cycle of a frog • The water cycle
Systems explanation	Explain how a system works. Includes a description of the components and how they relate and interact with one each other.	• How the desert works as an ecosystem • How the branches of the government work • How school or local community works as a system
Factorial explanation	Explain factors (multiple causes) that contribute to an event or outcome	• Factors that create the conditions for a tornado • Factors that led to World War II
Consequential explanation	Explain consequences (multiple effects) of an event	• What are the consequences of not following our classroom community rules? • What happened as a result of Westward Expansion in the U.S.? • What were the consequences on Native people?

Explain Through the Years of Schooling

The language demands required for students through the Key Language Use Explain change significantly throughout the years of schooling. The language for explaining how or why things work shifts from explaining observable phenomena in early years to explaining the underlying causes and the inner workings of natural, built, or social phenomena in later ones. Explanations take on a more multifaceted nature because they deal with complex phenomena involving multiple causes and multiple effects. Because linguistic demands of Explain increase through the years of schooling, multilingual learners need ongoing explicit support with Explain across grade levels. The progression is shown in Figure 4-9.

Table 4-9: Explain Through the Years of Schooling

Early Elementary	Upper Elementary and Middle	Middle and High School
Young learners use language for explaining when they • Share their observations of the how and why of observable and familiar phenomena (life cycle of a butterfly) • Use diagrams, drawings, speech, and some writing to process and produce multimodal texts that are sequential (from farm to table) or cyclical (how a caterpillar becomes a butterfly)	In upper elementary school students expand their use of language to • Convey the underlying causes of phenomena (how magnets work) • Identify consequences of events or actions (what happens as a result) • Establish connections and relationships between different ideas	Middle and high schoolers use language in increasingly strategic ways to • Establish more complex connections between causes and effects • Convey more abstract concepts and relationships among ideas (how aerodynamics or electromagnetism work) • Use multiple sources of empirical evidence to locate and substantiate underlying causes for phenomena

Explain Across Content Areas

Explain features prominently in the fields of science and social studies, as these two disciplines exist to explain natural, artificial, and social phenomena. However, it is also present in other content areas, as shown in Table 4-10.

Table 4-10: Explain Across Content Areas

Language Arts	Mathematics	Science	Social Studies
In language arts, students process and produce explanations to • Account for how ideas, characters, and themes develop in various literary and informational works	In mathematics, students process and produce explanations to • Account for how something was done (how students determined a solution or came to a conclusion) • Convey flaws in the chain of mathematical reasoning	In science, students process and produce explanations to • Account for the underlying causes or principles of phenomena • Draw on scientific models, principles, and ideas that are based on evidence	In social studies, students process and produce explanations to • Account for causal and consequential relationships among events and outcomes • Foreground reasons that contribute to outcomes • Account for the effects or consequences of something • Account for how political, economic, or cultural systems work

How Explain Interacts with other Key Language Uses

As students develop complex explanations, they may Inform (e.g., by naming, defining, describing, or comparing and contrasting something), Narrate (e.g., include an anecdote), and Argue (e.g., make a claim) as they work to help their audiences accurately understand the how or why of a concept.

Explanations share some features with the Key Language Use Inform. Yet, while Inform is concerned with describing, classifying, or categorizing things, explanations ask students to substantiate the inner workings, the how and why of phenomena or issues. For example, instead of merely describing types of precipitation, explanations require that students convey why it rains or snows. Argue also shares similarities and differences with Explain. Whereas Explain starts with the assumption of truthfulness as it proceeds to answer questions about the why or how of something, Argue is concerned with making others believe that something is true or persuading people to change their beliefs or behavior.

Argue: Justify One's Claims Using Evidence and Reasoning

The Key Language Use **Argue** refers to the way students use language to change the audience's point of view, to bring about action, or to ask the audience to accept one's position or evaluation of a concept, issue, or problem. Argue has the function of validating, evaluating, and persuading by supporting or challenging points of view, advocating for particular approaches, convincing based on the merits of a proposed solution, interpreting messages in a text, or analyzing various aspects of a literary work. The practice of constructing convincing arguments propels student thinking and learning, develops critical judgement, and enhances oral language, writing, and research skills. (Table 4-11 shows examples.)

Table 4-11: Argue Genre Family

Sample Genres	Purpose	Sample Classroom Applications
Persuasion	Convince an audience to act in a particular way	• Plastic straws should be banned! • Save the rainforests!
Discussion	Discuss two or more sides of an issue	• Nuclear power, for or against? • Online learning, pros and cons
Challenge	Rebut a position on an issue	• Graffiti is art • A response to immigration policy
Review	Assess the value of a work	Reviews of books, films, videogames
Interpretation	Interpret message in a work, usually a literary text or art form	• What is the message/theme in *The House on Mango Street?* • Literary elements in *Bless Me Ultima*
Critical response	Analyze and evaluate various aspects of a texts, including ideas, themes, messages, and symbols	• Analyze the representation of Mexicans in *American Dirt*

Argue Through the Years of Schooling

The language demands required for students to argue change significantly throughout the years of schooling (see Table 4-12). The expression and elaboration of ideas shifts from describing personal opinions about everyday topics to using research, data, and textual evidence to engage with abstract concepts. Interacting with and convincing an audience requires increasing control over language resources that express attitude and engage with possibilities. For example, creating coherent and logical texts through textual organization, connectives, and reference becomes increasingly sophisticated and varied. Multilingual learners need ongoing explicit support with Argue across the grades.

Table 4-12: Argue Through the Years of Schooling

Early Elementary	Upper Elementary	Middle and High School
Young learners use language for arguing to • Express emotions, likes, and dislikes on familiar topics such as food and games • Formulate and share opinions through short multimodal texts about familiar issues	In upper elementary school students expand their use of language to • Substantiate claims with evidence and reasoning on topics outside their realm of personal experience • Elaborate on ideas from research, data derived from experiments, or citations from literary texts • Engage with other voices, possibilities, and perspectives	Middle and high schoolers use language in increasingly strategic ways to • Express attitudes, adjust the strength of feelings and opinions, refer to other perspectives, and engage the audience • Sustain claims and reasoning by weighing evidence, evaluating data sources, and connecting evidence to claims • Contextualize and evaluate primary and secondary sources • Conduct and present research • Analyze sophisticated literary texts

Argue Across Content Areas

The Key Language Use Argue is relevant to every content area. Students are expected to engage in evaluation and persuasion in each discipline. Some distinctive features of Argue across the disciplines are highlighted in Table 4-13.

Table 4-13: Argue Across Content Areas

Language Arts	Mathematics	Science	Social Studies
In language arts, students process and produce arguments to • Determine the validity of a claim, position, belief, or conclusion • Offer reasons and evidence from multiple sources to support an opinion or claim • Convince someone to believe or do something • Respond to, interpret, and evaluate literary and informational works	In math, students process and produce arguments to • Examine and evaluate the validity of conjectures (explanations) • Distinguish correct from flawed reasoning • Examine connections to mathematical principles or previously accepted ideas	In science, students process and produce arguments to • Test out claims about the world • Evaluate the limitations of a claim • Design solutions • Engage in a process of reasoning that is grounded in evidence • Reach agreements	In social studies, students process and produce arguments to • Interpret and analyze the nature of historical understandings • Evaluate and communicate understandings through political, historical, geographic, and economic lenses • Discuss and evaluate sources that are grounded in evidence

How Argue Interacts with Other Key Language Uses

Argue incorporates elements of other Key Language Uses as it seeks to show an audience the validity of a position. For example, an anecdote Narrate may introduce the background of an argument, definitions and facts Inform may frame the evidence to defend a claim, and an explanation Explain may be the basis for evidence.

In science, in particular, there is an overlap between the Key Language Uses of Argue and Explain. Explanations account for how or why things work (e.g., how energy flows through an ecosystem), and arguments seek to use data as evidence for their claims.

Collaborative Planning for Content and Language Integration: A Jump-Off Point for Curricular Conversations

An Overview of Collaborative Planning

The WIDA ELD Standards Framework, working in tandem with academic content standards, defines the language multilingual learners need as they engage in learning and prepare for college, career, and civic life. The framework upholds the goal of increasing equity for multilingual learners by promoting a culturally and linguistically sustaining approach to education and by providing common and visible language expectations in relation to grade-level academic content. Attending to how students use language in learning acknowledges that all learners are language learners, and all teachers are language teachers. For multilingual students, this attention to language use is especially critical.

One of the framework's functions is to serve as a guide for informing the design of curriculum, instruction, and assessment for multilingual learners. Along with WIDA's many resources (e.g., focus bulletins, professional learning), it helps educators navigate the options for engaging students in rigorous academic content learning while simultaneously promoting their language development.

Collaboration is one of the four Big Ideas of the WIDA English Language Development Standards Framework, 2020 Edition.

These four Big Ideas anchor the standards and are interwoven throughout the document:

1. Equity for Multilingual Learners
2. Teach Language and Content Together
3. Functional Approach to Language
4. Collaboration Among Stakeholders

To support this important work, we offer a springboard for discussion around collaborative planning for curricular integration of content and language. This example showcases initial steps educators can take to promote language development in content units of learning. It illustrates how educators can use components of the WIDA ELD Standards Framework to help multilingual learners expand the ways they use language to make meaning in the classroom and beyond.

Below are a few considerations about the WIDA ELD Standards Framework and the sample collaborative planning process:

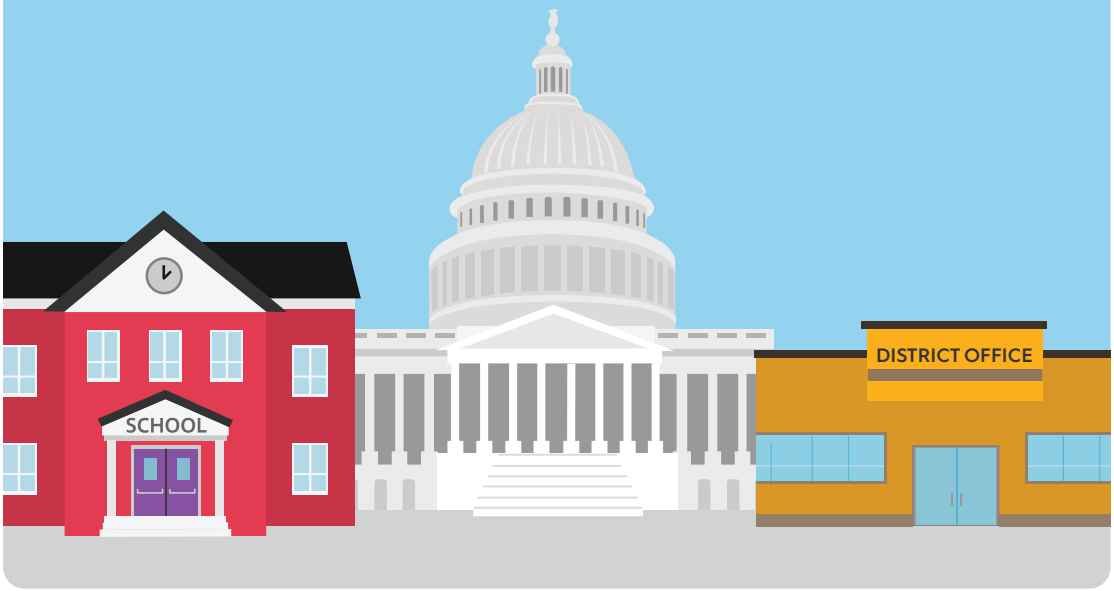
- **The ELD Standards Framework is inclusive: multilingual learners can enter at many different points and follow unique, individual language learning pathways.** It illustrates how students do not need to attain a certain proficiency level before engaging in grade-level content learning. WIDA resources are intended to guide educators—and not only ESL teachers—in a continual process of designing instruction that builds on and expands students' language strengths and competencies.
- **The ELD Standards Framework does not prescribe a specific curriculum, pedagogy, or teaching methodology.** The sample collaborative planning process offers one possible way (among many others) to use the framework to plan and deliver systematic, explicit, and sustained language development in an embedded manner as multilingual learners learn grade-level content in curricular units of study.
- **The ELD Standards Framework can be used in flexible ways to ensure that all multilingual learners are engaged in processes for making meaning across classrooms.** Educators can use scaffolding practices as needed through innovative and accessible approaches that validate multilingual learners' home, school, and community experiences; leverage students' multiple languages; and offer students opportunities to interact with peers and adults in meaningful, substantial ways. (For more information about scaffolding learning, see the WIDA resource library on the WIDA website.)
- **This sample collaborative planning process starts once educators have identified a well-designed, content-rich curricular unit of study.** In cases where educators do not have an existing unit to work with, additional planning work is needed to fully outline unit-level content and language goals. This sample process is not intended as a basic introduction to curricular design.
- **This sample collaborative planning process is intended to help educators define a unit's language development goals alongside the unit's academic content goals.** Educators can use the unit-level language goals to guide further planning at the lesson level. This sample process offers a starting point for curricular conversations and prompts possible next steps to flesh out how educators will guide multilingual learners towards meeting unit content and language goals.
- **Educators can use the sample collaborative planning process in different ways based on their role, instructional context, curriculum, and students.** For example, content area classroom teachers can use this process to plan upcoming units of study in collaboration with language specialists. Coaches, curriculum supervisors, and other administrators can use this process to support classroom teachers as they collaborate and use the components of the framework to inform language development planning across units of study or curriculum maps.

Administrative Support for Systemwide Collaboration

Multilingual learners are educated in a variety of settings, each with its own unique populations, communities, resources, and approaches. Regardless of the type of educational setting and programming, a coordinated effort among all district and school levels is necessary to provide multilingual learners with coherent learning experiences and an equitable, high-quality education. Several overlapping district and school teams are responsible for making decisions, planning, and implementing programming and instruction for multilingual learners. These plans are best realized when there is communication, coordination, buy-in, and shared responsibility among these teams.

Although collaboration is not possible in every situation, every educator (administrators, teachers, support personnel) is responsible for providing an effective and coherent program for multilingual learners. In addition to district and school levels, administrators can support collaboration at the classroom level by ensuring that content and language educators, as well as other specialists and support personnel, have common planning time, regular opportunities to interact in professional learning communities, and dedicated professional time for shared planning of curriculum, instruction, and assessment for multilingual learners.

In these collaborative sessions, each educator brings expertise and knowledge from their own field, as well as firsthand knowledge of student performance in their classroom. This joint expertise and ongoing sharing of data can be a significant factor in the education of multilingual learners, and a critical part of the infrastructure that supports intentional, resourceful, and responsive design for the achievement and success of multilingual learners.



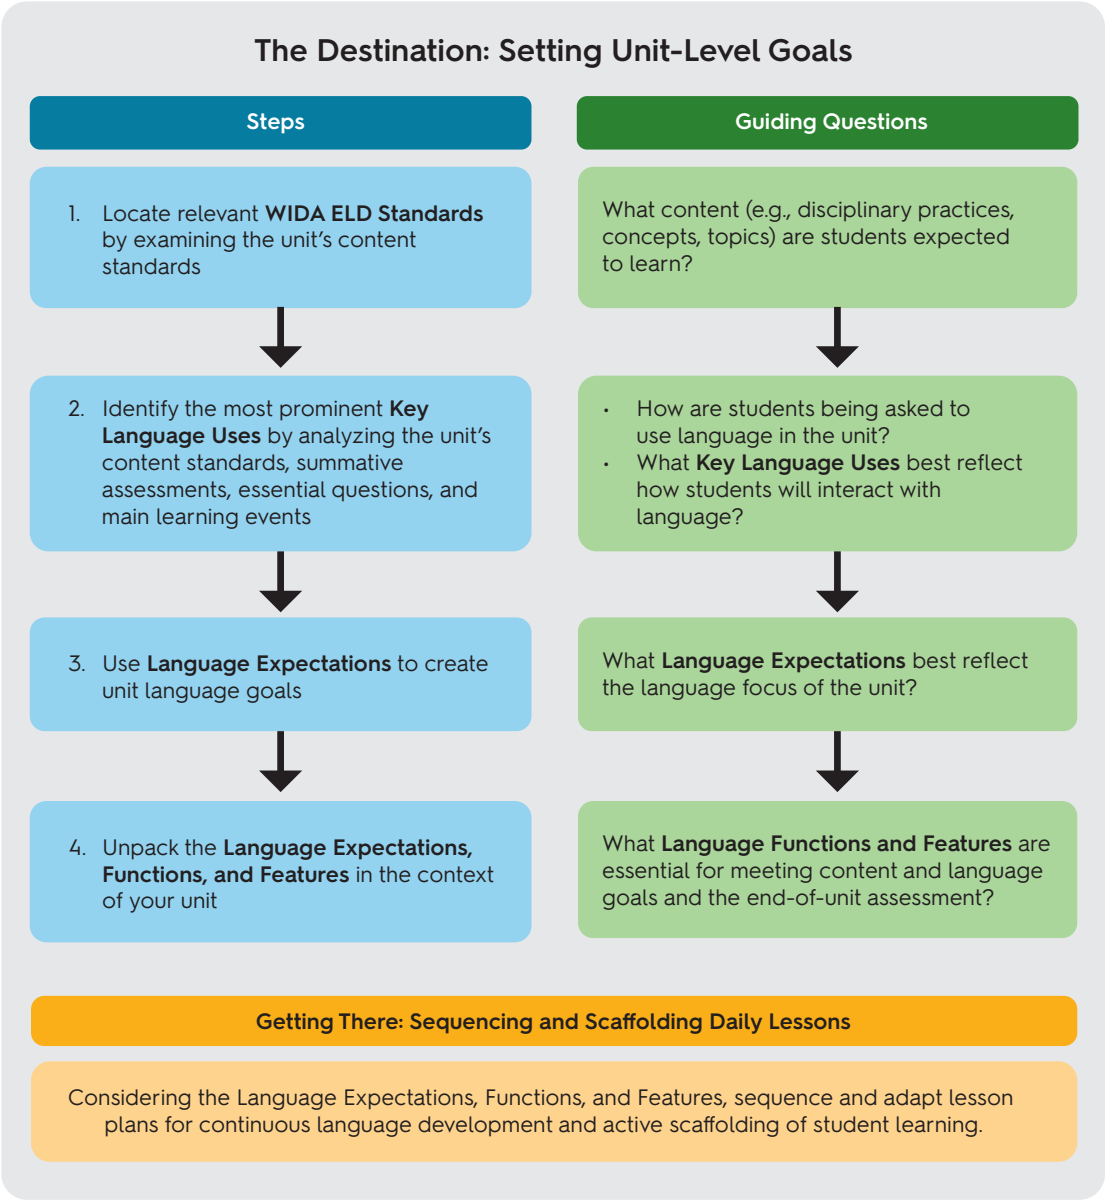


Figure 4-2: Sample Collaborative Planning Process

Sample Collaborative Planning Process: Ms. Khoury and Mr. Renner

The scenario in this section provides multiple snapshots of how to leverage the components and resources of the WIDA ELD Standards Framework. It follows Ms. Khoury, a 7th grade science teacher, as she collaborates with Mr. Renner, an ESL teacher, to incorporate systematic, explicit, and sustained language development into a science unit she will teach this year.

The unit they have chosen, *Where does food come from and where does it go next?,* is part of the OpenSciEd[2] curriculum and has been identified as an emerging example of high quality curricular units designed to meet state science standards. The unit was developed to include educators' perspectives, tested by teachers and schools, and improved over time based on feedback from teachers and field testing. It was also intentionally designed with attention to equity and making sure practices and instructional strategies support sense-making for all learners.

Where does food come from and where does it go next? focuses on matter cycling and photosynthesis. In this unit, students develop and use a model to explain the cycling of matter and flow of energy in a system of living and nonliving components. To develop this scientific model and explanation, students ask and answer questions about phenomena, develop and implement investigations to test out their ideas, and use the results of their investigations to explain phenomena.

To prepare for this task, Ms. Khoury gathered her unit materials, the state science standards, and the WIDA ELD Standards Framework, 2020 Edition. She also reached out to Mr. Renner, the ESL teacher, and scheduled some time for collaborative planning using the sample collaborative planning process. (For more about collaborative planning, see the WIDA website.)

The Destination: Setting Unit-Level Goals

Step 1: Locate relevant WIDA ELD Standards by examining the unit's content standards

First, Ms. Khoury identified content standards her students are expected to learn in the unit and located relevant WIDA ELD Standard statements in grade-level cluster materials (See Table 4-14.).

2 See openscied.org

Table 4-14: The Unit's Academic Content and WIDA ELD Standards

Academic Content Standards	WIDA ELD Standards Statements
MS-PS1-3: Gather and make sense of information to describe that synthetic materials come from natural resources and impact society. MS-LS1-6: Construct a scientific explanation based on evidence for the role of photosynthesis in the cycling of matter and flow of energy into and out of organisms. MS-LS2-3: Develop a model to describe the cycling of matter and flow of energy among living and nonliving parts of an ecosystem. Focal Disciplinary Core Ideas (DCIs): LS1.C; LS2.B; PS1.A; PS1.B; PS3.D Focal Science and Engineering Practices (SEPs): Developing and Using Models; Constructing Explanations and Design Solutions; Engaging in Argument from Evidence; Obtaining, Evaluating, and Communicating Information Focal Crosscutting Concepts (CCCs): Systems and System Models; Energy and Matter	ELD-SI: English language learners will communicate for social and instructional purposes within the school setting. ELD-SC: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of science.

Step 2: Identify the most prominent Key Language Uses

Next, Ms. Khoury and Mr. Renner analyzed the unit's most important elements such as content standards, essential questions, summative assessments, and main learning events. Their analysis is shown in Table 4-15

They highlighted and outlined the important ways students are expected to use language to engage with the content and demonstrate learning.

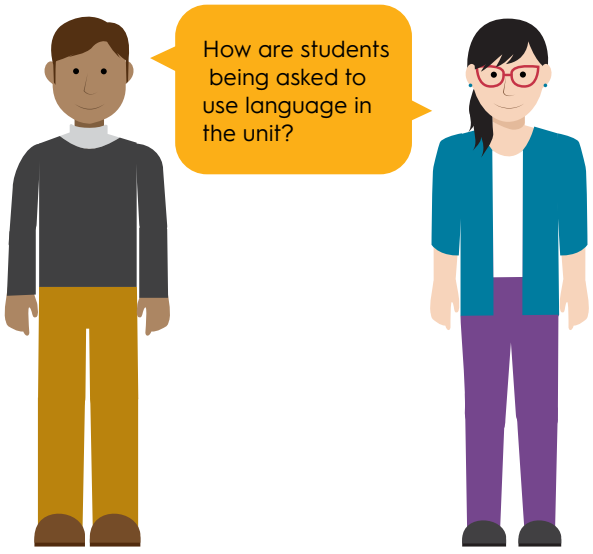

Table 4-15: Sample Content Unit Architecture

<table>
<tr><th>Content Standards</th><th>Essential Questions</th></tr>
<tr><td rowspan="3">• MS-PS1-3: Gather and make sense of information to describe that synthetic materials come from natural resources and impact society.
• MS-LS1-6: Construct a scientific explanation based on evidence for the role of photosynthesis in the cycling of matter and flow of energy into and out of organisms.
• MS-LS2-3: Develop a model to describe the cycling of matter and flow of energy among living and nonliving parts of an ecosystem</td><td>• Where does food come from and where does it go next?
• How and why do plants have molecules that animals use to make food and energy?
• How do these molecules move between living and non-living parts of the ecosystem?</td></tr>
<tr><th>Summary of Major Learning Activities</th></tr>
<tr><td>To figure out how plants make food molecules and where plants get the matter and energy to do that, students conduct investigations that help them
• Develop a model to track the inputs and outputs of plants
• Carry out experiments to figure out how leaves and seeds interact with the gases in the air around them in the light and the dark
• Develop and evaluate arguments from their evidence to figure out where plants are getting the energy and matter they need to live
• Construct an explanation for the central role of photosynthesis in all food production, including synthetic foods
• Obtain and communicate information to explain how matter gets from living things that have died back into the system through processes done by decomposers
• Develop and use a model to explain that the major atoms that make up food (carbon, hydrogen, and oxygen) are continually recycled between living and nonliving parts of a system.</td></tr>
<tr><th colspan="2">End of Unit Assessment</th></tr>
<tr><td colspan="2">1. Use a model to explain how the snot worms make it possible for the system to access all this new matter and energy from the whale fall. Include inputs and outputs of each component of the system in your model. In the zoom-in, show what changes or processes you would expect to see happening in the water or snot worms that you couldn't see with just your eyes.
2. Complete a table with data and use it to explain what will happen to the system in time.
3. Add words and arrows to the partial food web (representation) below to explain why the whale needs to live in the part of the ocean system near the surface.</td></tr>
</table>

As the teachers looked through the unit and began to identify language needed to meaningfully engage in the main tasks and assessments, they noticed that some of the more important and recurring tasks included maintaining progress trackers, reading informational texts, developing Driving Question Boards, and having discussions for building understanding (see Table 4-16).

Ms. Khoury and Mr. Renner then looked closely at how students would be using language to engage in these activities and learn.

Table 4-16: Progress Trackers, Reading Informational Text, Driving Question Boards, and Building Understanding

Progress Tracker Activity (Sample from OpenSciEd Lesson 4)

Task: On chart paper, draw out the format, headings, and lesson question for the progress tracker shown below for students to reference. Have students draw a three-box progress tracker directly in their science notebooks. Ask them to list the sources of evidence from this lesson and use their own words and pictures to describe what they figured out. This can be done individually or with a partner. Below is one possible representation of a student progress tracker.

Example:

Question	Source of Evidence
Are any parts that make up food molecules going into the plant above the surface?	• CO_2 and water data from the investigation we did as a class • Another class's data on CO_2, water, oxygen, and light levels
What we figured out in words/pictures	
• Carbon dioxide goes into plant leaves. Plants could be using it to make food molecules because it has C and O. • Water comes out of plant leaves. Plants don't take in water through their leaves. • Oxygen also comes out of plant leaves. Plants must be making oxygen somehow.	

Reading Informational Text (Sample from OpenSciEd Lesson 7)

Task: Ask students to individually read *How do scientists measure energy in food?* and answer Making Sense questions. Say, *I came across this article that explains how food scientists make food labels. Let's take a few minutes to use what we see and read about food labels to help us clarify our claims about matter and energy for our input and outputs of plants in the process of photosynthesis.* To help students gather information from the text and images, have them use the *Obtaining Information from Scientific Text Checklist.*

Examples:

Reading: How do scientists measure energy in food?

You've probably heard before that the food we eat provides energy for our bodies, but what exactly does that mean? Remember from the Inside our Bodies unit that when we eat food, it gets broken down in our bodies, and the chemical reactions that happen inside our cells provide energy that our body can use. But how much energy is in the food we eat that can be used by our bodies?

Remember back in Lesson 1, we looked at food labels to see what our breakfast foods were made of?

Food labels also provide information about how much energy a serving of that food can provide our bodies. Look at the food labels below.

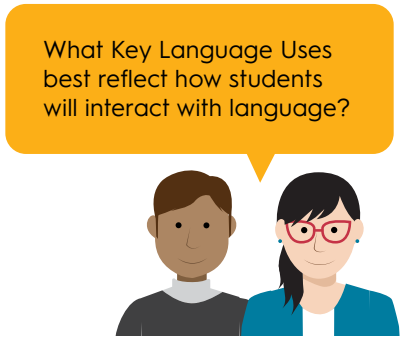
Obtaining Information from Scientific Text Checklist

Obtaining Information	
• Read for the gist—skim the title, headings, images.	What is the central idea or claim?
• Mark up the text.	Select methods for marking the text. For example: • Keep track of questions you have in the margins. • Circle key words. • Put question marks by words you want to learn more about. • Underline main ideas.
• Examine any images, graphs, or tables.	Write one sentence about the central point of each image, graph, or table.
• Examine where the authors obtained their information.	What sources did the authors cite?

Driving Question Board (DQB)

DQB steps:

- The first student comes to the DQB with their sticky note, faces the class, and remains standing. The student reads their question from their note and then posts it on the DQB near the section of the consensus model or the related phenomena.
- The students who are listening should raise their hands if they have a question that relates to the question that was just read aloud. The first student selects the next student whose hand is raised.
- The second student reads their question and identifies what other question on the board it relates to, and why or how. Then the second student places their question near the question it most relates to and selects the next student.



This process continues until everyone has had a chance to post a question.

Building Understanding Discussions

A Building Understandings discussion is useful following an investigation because the purpose is to focus students on drawing conclusions based on evidence. Your role during the discussion is to invite students to share conclusions and claims and to push them to support their conclusions and claims with evidence. Students can disagree with each other, and the class does not need to reach consensus on all ideas shared, however areas of disagreement can motivate future investigations. Helpful prompts during these kinds of discussions include:

- What can we conclude? How did you arrive at that conclusion?
- What's your evidence?
- Does anyone have evidence to support Student A's claim? What data do we have that challenges Student B's claim?

Next, Ms. Khoury and Mr. Renner used this information to identify the most prominent Key Language Use of the unit. This helped them organize a focus for language development.

They noticed how content standards and main learning events prioritized the Key Language Use of **Explain**. They also noticed how Social and Instructional language was woven throughout the types of multimodal interactions and discussions students would experience in the unit. Prominent language demands they noticed in the unit included:

- Asking and answering questions to gather and make sense of information
- Drawing conclusions from investigations
- Communicating results from investigations; listening to others' findings and building on them to clarify claims and gather evidence
- Summarizing and using evidence from multimodal texts (readings, videos, discussions) to explain how and why things work
- Using models to explain how and why things work

As the teachers mapped out the language students would need to learn and to demonstrate learning, they also noted that students would be developing and sharing claims supported by evidence throughout the unit. They debated about whether to include Argue as a prominent Key Language Use for the unit. Upon closer inspection, they noticed that students would be developing claims supported by evidence to explain why and how phenomena worked. They also considered how the academic content standards and the unit's summative assessment focused on explaining how things work and why they happen. As a result, they decided that Explain was a better fit for this unit's language development focus.

Step 3: Use Language Expectations to create unit language goals

Once Ms. Khoury and Mr. Renner chose Explain as the Key Language Use of the unit, they looked at related Language Expectations, as shown in Table 4-17.

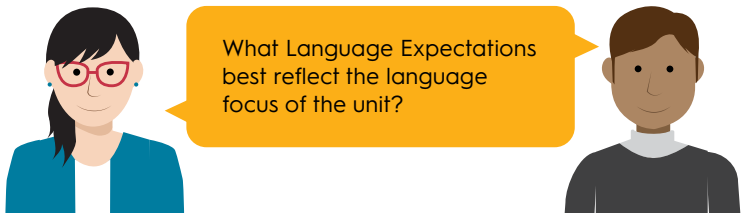


Table 4-17: Language Expectations with Embedded Language Functions

ELD Standard	Language Expectations related to Explain
ELD-SI: Language for Social and Instructional Purposes	ELD-SI.4-12.Explain: Multilingual learners interpret and express explanations for social and instructional purposes that • Generate and convey initial thinking • Follow and describe cycles and sequences of steps or procedures and their causes and effects • Compare changing variables, factors, and circumstances • Offer alternatives to extend or deepen awareness of factors that contribute to particular outcomes • Act on feedback to revise understandings of how or why something is or why it works in particular ways
ELD-SC: The Language for Science	ELD-SC.6-8.Explain.Interpretive: Multilingual learners interpret scientific explanations by • Defining investigable questions or design problems based on observations, information, and/or data about a phenomenon • Determining central ideas in complex evidence and information to help explain how or why a phenomenon occurs • Evaluating scientific reasoning that shows why data or evidence adequately supports conclusions ELD-SC.6-8.Explain.Expressive: Multilingual learners construct scientific explanations that • Describe valid and reliable evidence from sources about a phenomenon • Establish neutral or objective stance in how results are communicated • Develop reasoning to show relationships among independent and dependent variables in models and simple systems • Summarize patterns in evidence, making trade-offs, revising, and retesting

Ms. Khoury and Mr. Renner could see that ELD-SI worked well in conjunction with ELD-SC. They noted how ELD-SI functions would be naturally interwoven in day-to-day lessons as students more fluidly interacted, engaged in inquiry and discussion, and took notes. Given its more interactive nature, ELD-SI reminded them that students communicate to learn but also to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.

The teachers wondered whether they should adapt the ELD-SC Explain Language Expectations into more customized unit goals. Whereas they might do that for a different unit, in this case they decided that, as they were, ELD-SC Explain interpretive and expressive Language Expectations sufficiently prioritized the language they would need to systematically teach and assess throughout the unit.

Step 4: Unpack the Language Expectations, Functions, and Features in the context of your unit

Ms. Khoury and Mr. Renner then began to unpack the Language Expectations represented throughout the unit. They saw that each Language Expectation is built around a set of Language Functions (Table 4-18). They noticed that the Language Functions highlighted common patterns of language associated with scientific explanations like the one required in the end-of-unit assessment. The Language Functions helped them see how language works in the context of the unit, giving them ideas for how they could design their instructional plan to help students practice and use this language.

For example, the teachers saw that students would need to use the Language Function **"describe valid and reliable evidence"** to support their explanation about how whale falls work. In their explanation, students would also need to **establish a neutral stance** that is typical of scientific discourse and **develop reasoning to show relationships** among the inputs and outputs of their model of a whale fall system. Finally, students would also need to **summarize patterns in evidence** as they watched the whale fall video, completed the data table, and used this information as evidence in their explanation.

Next, the teachers wondered about what other kinds of language resources students might be able to use to carry out these Language Functions associated with a scientific explanation. They began to examine the Language Features. Language Features are *examples* of various language resources that carry out particular Language Functions, such as different types of sentences, clauses, phrases, and words. See Table 4-18 for example Language Features.

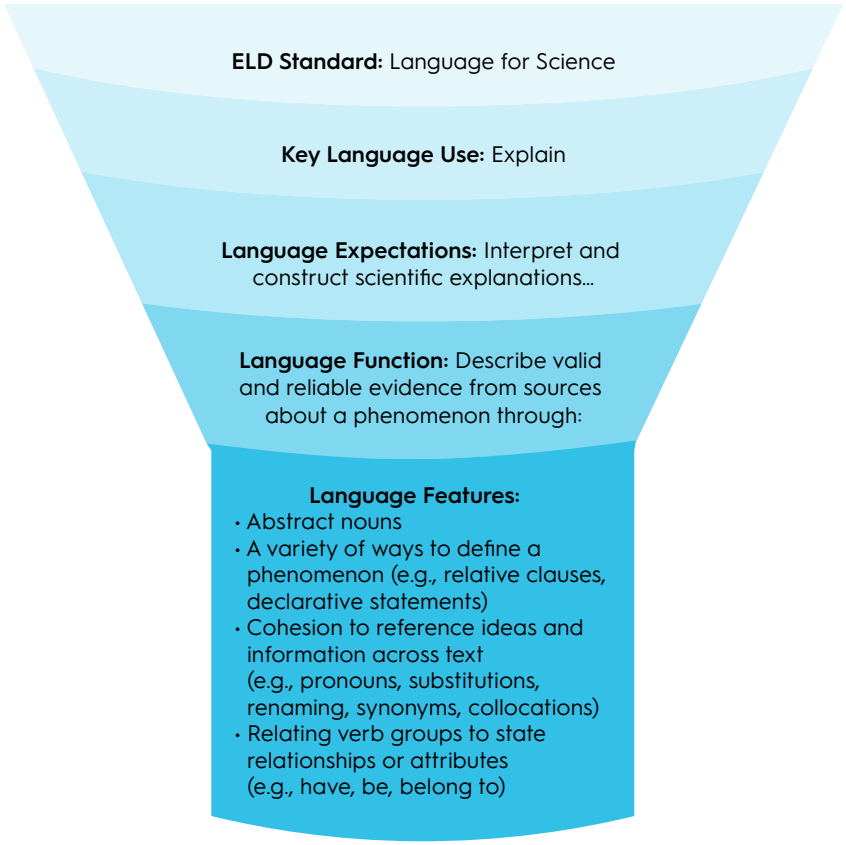

Table 4-18: Example Language Features that are Commonly Associated with a Language Function

Language Function	Commonly Associated Example Language Features
Describe valid and reliable evidence from sources about a phenomenon through	• Abstract nouns to introduce concepts, ideas, and technical terms *(effects, predator-prey relationships, magnetic forces)* • Cohesion to reference ideas and information across text (pronouns, substitutions, renaming, synonyms, collocations) • Relating verb groups to state relationships or attributes *(have, be, belong to)* • A variety of ways to define phenomena (relative clauses, declarative statements)

Figure 4-3 illustrates the process of how Ms. Khoury and Mr. Renner moved their focus from the WIDA ELD Standard Statement all the way to specific Language Features.

Figure 4-3: Honing a Language Focus through the WIDA ELD Standards Framework

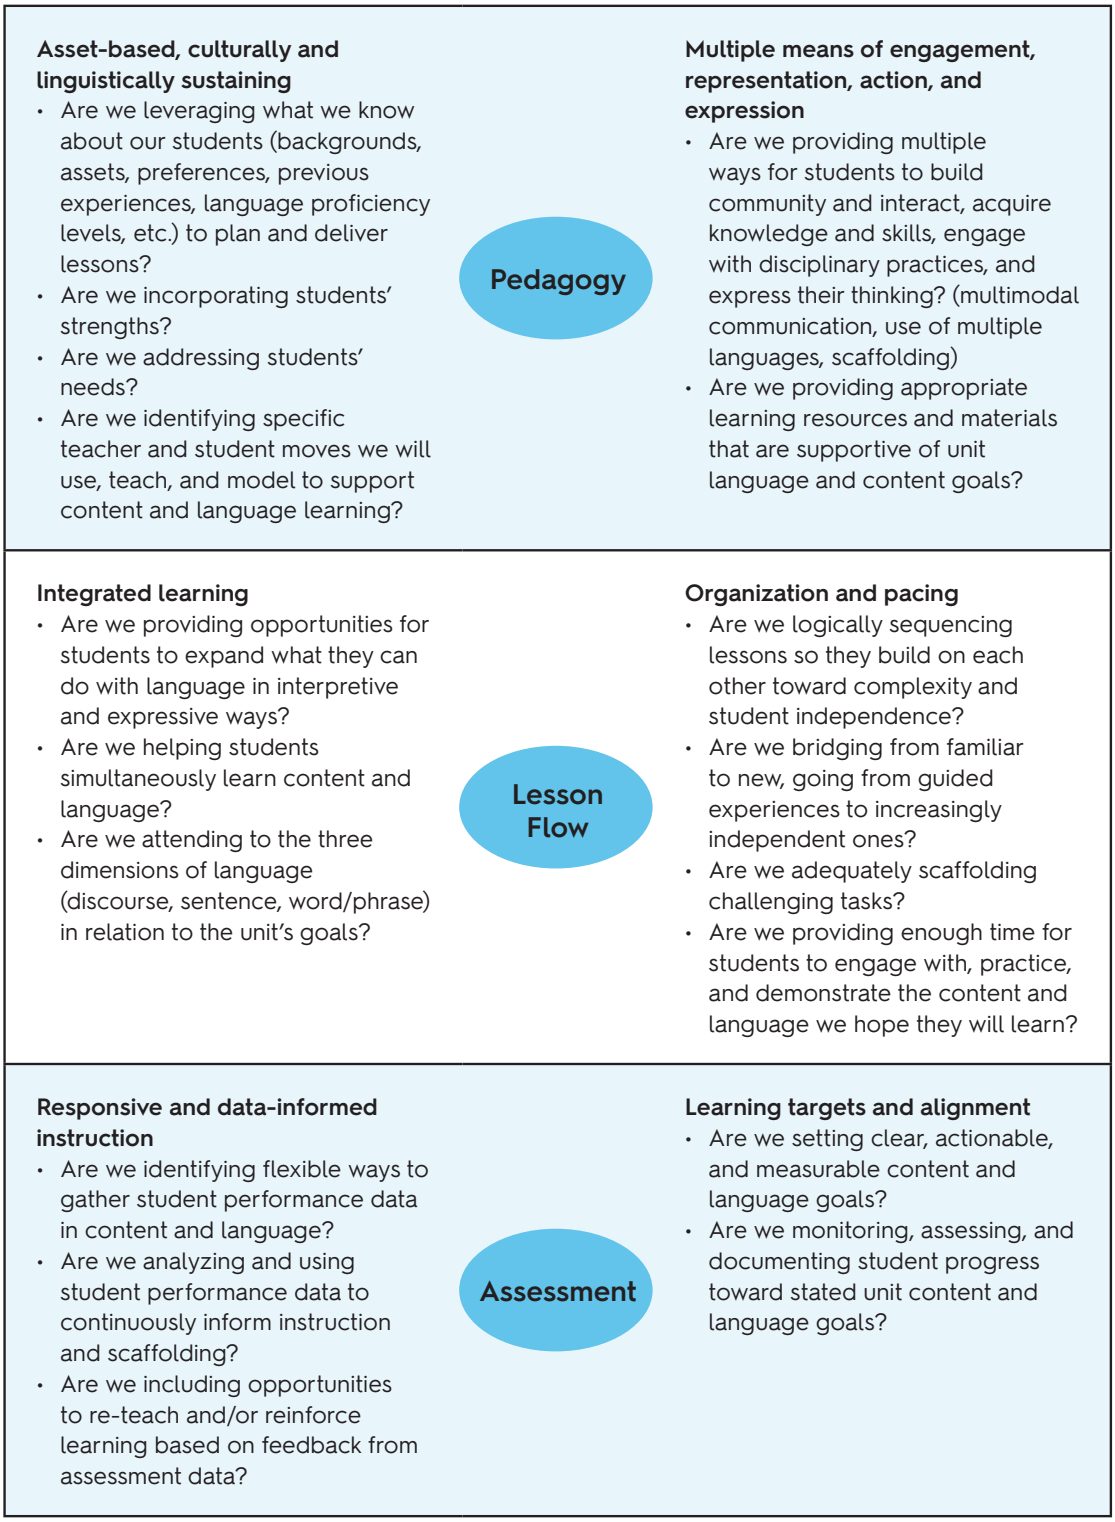
As they worked together and discussed how students would be using language to meet content expectations, Ms. Khoury brought her expertise in the field of science, and Mr. Renner brought his in the field of language development. As they dove deeper into the planning, Mr. Renner helped Ms. Khoury learn more about Language Functions and Features, just as Ms. Khoury helped Mr. Renner learn more about the scientific concepts and practices that would be the focus of language use.

Together, the teachers wrote a mentor text to demonstrate to students how language might work in a systems explanation in the context of their unit. Later, the teachers would select one or two Language Functions and Features to work on with students based on their needs and the unit goals. The mentor text is shown on the next page in the center column. The teachers' annotations appear in the left and right hand columns, with colors indicating the connections between the annotations and the text itself. You can find a key to these annotations in the Grade-level Cluster Materials, in Section 3.

Functions & Features	Prompt: If nothing else is added to the system, will the worms be able to live after the whale fall is gone?	Functions & Features
Describe valid and reliable evidence from sources about a phenomenon Abstract nouns to introduce concepts, ideas, and technical terms • the whale fall • the system • ecosystems • carbon dioxide • oxygen • the whale fall ecosystem • cellular respiration Cohesion to reference ideas and information across text • plants...they (pronouns) • carbon dioxide... Co2 (synonyms) • oxygen...O2 (synonyms) • worms...they (pronouns) • oxygen...this (pronouns) Relating verb groups to state relationships or attributes • is • are	Worms will not be able to live on the seafloor after the whale fall is gone because the whale is an essential part of the system providing the worms with food and oxygen. This is how ecosystems typically work: plants have a cycle where they take in carbon dioxide, make sugars, and give off oxygen. **Then**, animals consume the oxygen, eat plants, and give off carbon dioxide. The whale fall ecosystem is unusual **because** there are no plants. It is thousands of feet below the ocean surface where there is no light; ***however,*** *plants need light to absorb energy from the sun to make food*. Since plants are what take in CO2 and give off O2 in ecosystems, without plants the whale fall is high in carbon dioxide and low in oxygen. **Additionally**, other animals *who are also eating the whale carcass*, such as octopi and eels, breathe in the little O2 there is and breathe out more carbon dioxide. The table shows that after the whale bones are gone, the level of carbon dioxide on the sea floor will get higher and higher and the level of oxygen will get lower and lower. Here is how worms make use of the whale fall. Worms do cellular respiration by combining oxygen with food. They get the food from the bones and they get their oxygen from the water. As they consume the bones, their food starts to run out. *Since there are no plants on the seafloor to give off more oxygen* this starts running out too. Without this food and oxygen, the worms will not be able to live on the seafloor.	**Develop reasoning to show relationships** Connectors to link clauses and combine ideas into logical relationships • **then** • **because** • **however** • **additionally** Variety of clauses to express causality • *however, plants need light* • *to absorb energy ... food.* • *who are also eating the whale carcass* • *Since there are no plants on the ... more oxygen*

At this point in the process, the teachers had gained a solid understanding about what language they wanted to prioritize in unit design. They felt confident that their unit goals identified language students should strive toward using to meet content expectations. They also knew that once this overall language destination was set in the service of content, they would spend more time fleshing out specific aspects of language they would be targeting in daily lessons, considering students' backgrounds, experiences, and English language proficiency levels.

Getting There: Sequencing and Scaffolding Daily Lessons



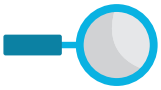
For the next part of the process, Ms. Khoury and Mr. Renner examined and adapted daily lesson plans to ensure multilingual learners could meaningfully engage with grade-level content.

Once the teachers understood how Language Expectations, Functions, and Features represented the language students would need to meet content objectives in the context of this unit, they turned to their Can Do Student Portraits. (A WIDA Can Do Student Portrait is a written or electronic document that focuses on a student's strengths with specific information about the learner's educational background, languages, family, and interests—in addition to what the student can do in English; see the WIDA website for more about these.)

Looking at the student data they had previously gathered, they considered students' emerging strengths and needs, patterns of language and content learning, personal preferences, and interests. They used this information to select instructional approaches that were responsive to student needs and preferences, planning to scaffold instruction as needed. They worked to embed explicit instruction for developing language daily in the context of content learning.

Ms. Khoury and Mr. Renner also planned specific opportunities to look at student work together and make sense of student progress. These collaborative meetings would help them figure out next steps for addressing student strengths and needs. The meetings would also include planning for ways to continue to scaffold the expansion of what students can do with language over time. Figure 4-4 highlights some questions Ms. Khoury and Mr. Renner asked as they planned their daily lessons.

Figure 4-4: Lesson Planning Considerations



In addition, Ms. Khoury and Mr. Renner developed a common list of classroom supports they could use as needed to help students make meaning and learn language throughout the lesson.

- **Connect** familiar experiences and knowledge to new ones
- **Use home discussion questions** to involve families in discussions of the concepts covered in school
- **Allow multiple options** for students to share their thinking and create their own representations of ideas, including by using other languages, drawing, or using manipulatives
- **List visually-supported key words, cross-disciplinary or technical language,** and their meanings
- **Present sketches, charts, and other visual supports** for students to point to or refer to as needed
- **Prompt students to generate lists** of terms and ideas in English and other relevant languages
- **Continuously revise conceptual webs,** including sketches, graphic supports, and labels in relevant languages
- **Create visual displays/portrayals** of student learning
- **Model language** to communicate ideas more precisely
- **Use chart of language cues** to point to various ways to respond to an idea (elaborate, support, challenge, revise, clarify)
- **Offer sentence frames** that model use of language features needed to accomplish task
- **Cue students to stretch language use** as they share their thinking
- **Provide sufficient wait time** to allow students to formulate ideas in English
- **Purposefully group students** for low-pressure language formulation and peer assistance

As they adapted their daily lesson plans, Ms. Khoury and Mr. Renner reflected on the fluidity of the process of curricular and instructional design. They saw themselves as explorers and learners who benefited from each other's expertise as well as from what they learned from their students. They were committed to continuously learning about best design practices, content and language development, as well as responsive and enriching pedagogies.

This collaborative process helped them understand what language students were really being asked to use in service of content learning. Developing clarity about content and language goals better positioned the teachers to make choices to organize and prioritize instruction, and to expand what students can do with language in different contexts. Making content and language expectations explicit and visible also better positioned the teachers to be more responsive to multilingual learners' strengths and needs, and to strategically guide them toward deepening knowledge, enhancing critical lenses, and increasing independence and agency.

To read more about collaboration, see the WIDA website.

Glossary

causal language: words, phrases, and clauses that express causes and effects. Typical spoken language **connectors** are *because* and *so.* Additional connectors used mainly in writing include *therefore, consequently, as a result,* nouns such as *the result, the effects,* and entire clauses (e.g., *Unable to grow or repair themselves, the corals eventually die),* verbs *lead to, are caused by, resulting in,* and prepositions such as *as*, *for, through.*

clause: a unit of meaning that expresses a message, usually containing a **verb** (e.g., *walk*) and a subject **noun** or noun phrase (e.g., *They walked*). Examples of clauses include the following:

- **conditional clause:** a clause that creates conditional meanings, meanings that pose a hypothesis or impose conditions. A conditional clause usually connects to the beginning or end of the **independent clause** with the **conjunctions** *if* or *unless* (e.g., *The seeds will sprout in a week unless someone forgets to water them.* or *Unless someone forgets to water the seeds, they will sprout in a week.)*
- **dependent clause** (also known as subordinate clause): a clause that depends on an independent clause for its meaning and cannot stand alone (e.g., *as the newly hatched caterpillars grow* or *who eat their prey*). One type of dependent clause is a **relative clause**.
- **independent clause** (also known as main clause): a clause that can stand alone to communicate a complete idea and forms a complete sentence (e.g., *Please take turns.* or *Sharks have rows of teeth*.). An independent clause usually has a subject (a noun) and a predicate (a verb), unlike a **dependent clause**.
- **relative clause**: a dependent clause that starts with *that*, *who,* or *which* and adds details to its noun. The relative clause (underlined) in the following example adds specificity to the word "magnets": *Magnets <u>that are strong enough</u> can lead to personal injury.* Also see **expanded noun group**.

cognates: words that have similar spelling, pronunciation, and meaning across languages. For example, *el paquete* in Spanish and *packet* in English for "packet," *pomidori* [помідори] in Ukrainian and *pomodoro* in Italian for "tomato." False cognates are words that sound similar but have different meanings. For example, *embarazada* ("pregnant" in Spanish) is not a cognate to *embarrassed* in English.

coherence: how text holds together at the **discourse dimension of language** through its logical links in meanings. Coherent text makes sense; readers can understand its meaning and intent in the context in which it is presented.

cohesion: how parts of text interconnect and flow with help from **cohesive devices**.

cohesive devices: words, phrases, clauses, and organizational patterns that tie ideas together so they become unified in the whole text. **Given/new** is an organizational pattern; linguistic resources include **lexical cohesion, substitution or omission** (also known as ellipsis), and **reference devices** (e.g., personal pronouns, demonstrative pronouns, qualifiers).

collocation: a group of words that habitually go together such as *plus and minus, multiply and divide*, *push and pull, up and down, ebb and flow, peanut butter and jelly*. On the other hand, hearing these collocations worded in different order would sound a bit unusual: *minus and plus, flow and ebb.*

communication modes: interpretive mode (listening, reading, and viewing) and **expressive mode (speaking, writing, and representing)** are the two types of communication modes incorporated into the WIDA English Language Development Standards Framework's Language Expectations and Proficiency Level Descriptors.

conjunctions: words that combine clauses or sentences. Examples of conjunctions include the following:

- **coordinating conjunctions:** a conjunction placed between words, phrases, clauses, or sentences of equal rank such as *and, nor, yet, so, but,* and others.
- **subordinating conjunctions:** a conjunction that introduces a subordinate clause and creates concessive, contrastive, and causal relationships (e.g, *while, although, however, because*). See **connectors.**

connectors: text connectives, coordinating and subordinating **conjunctions**, and linking phrases used to connect ideas in sentences and signal different relationships (causal, additive, chronological). Connectors create cohesion and logical development across a text. Examples of connectors:

- **addition**: *and, and then, furthermore, in addition, apart from that, furthermore, besides, along with, again, along with*
- **cause/consequence**: *because, so, despite, nevertheless, even though, so, therefore, consequently, due to, because of this, as a result*
- **comparison/contrast**: *but, for example, instead, in other words, however, in fact, in that case, while, although, on the other hand, despite*
- **concession**: *while, although*
- **condition**: *if, unless*
- **purpose**: *in order to, so*
- **sequence**: *first, second, finally, in the first place, to start with, at this point, to get back to the point, in short, all in all, to conclude*
- **time:** *when, then, next, afterward, after a while, at the same time, at this moment, meanwhile, previously, before that, finally*

connotation and denotation: While the **denotation** of a word refers to its primary, dictionary meaning, **connotation** refers to a range of secondary, inferred, or associated significances and feelings a word may imply. Most words have denotative and connotative meanings that speakers and writers interpret within their contexts of identity, history, culture, and situation. For example, the dictionary defines "cheap" as inexpensive. Yet, *cheap* may invoke connotative meanings of frugality and good value, whereas in another situation, the word may convey stinginess and poor quality.

cross-disciplinary language: common academic language used across content areas, e.g., *analyze, evaluate, critique, identify, evidence, analysis, summary, explanations.*

culture: practices and beliefs members of a group share. Cultural practices are dynamic—changing based on context.

declarative sentence: a sentence with subject-verb order, typically used to make statements that are not commands or questions. For example, declarative sentences evaluate and interpret events (e.g., *The review describes how the author used the graphic novel format.)*

denotation of a word refers to its primary, dictionary meaning. See **connotation and denotation.**

density: see **lexical density** under **text complexity**

dimensions of language: a linguistic system can be described along three dimensions: **discourse, sentence,** and **word/phrase**.

- **discourse:** discourse is the broadest dimension of language. Discourse imparts meaning across an entire text (oral, written, visual), supported by the sentence and word/phrase dimensions. To consider how a language user constructs a meaningful message, begin by looking at the discourse dimension and the overarching message to see how language is organized to communicate particular ideas, how language holds ideas together in a text (its cohesion), and how loosely or tightly language is packed (its density). In the discourse dimension, the text's purpose, such as explaining how or why something happens, shapes its organizational pattern. For example, typical discourse of mathematical explanations may include a statement of solution to a problem, an explanation sequence, and an evaluation or justification of one's reasoning.
- **sentence:** a sentence is a word or group of words that states, asks, commands, or explains an idea. As a dimension of language, sentences contribute to the grammatical complexity of a text. Language users make choices in how they express ideas and their interrelationships through clauses in various sentence types. These also help shape how a text is sequences and connected. A sentence can be simple, compound, or complex. See **sentence types**.
- **word/phrase:** as a dimension of language, words and phrases add precision to communication. For example, language users strategically select **everyday**, **cross-disciplinary**, or **technical** language; employ multiple meanings and nuances of words and phrases; or play with their shades of meaning.

disciplinary learning: learning in the disciplines, such as math or science, that includes learning how to think, communicate, read, and write according to each discipline's traditions.

discipline-specific language: language used in distinctive ways within each discipline or field. For example, words like *substitute, show,* and *intersect* have particular meanings for mathematics. *Defense, extend,* and *goal* have meanings specific to physical education. Each discipline or field contextualizes the meaning of words such as *table: table* of data in math versus *table* as a piece of furniture. See also **everyday language** and **technical language.**

everyday language: language for representing ideas in nontechnical ways (e.g., *puppies* instead of *canines, plussing* instead of *addition, reasons why* instead of *evidence, hills* instead of *effigy mounds*). See **discipline-specific language** and **technical language.**

evaluative language: language for expressing different attitudes, feelings, beliefs, or judgments toward people and phenomena. Writers and speakers can use evaluative language to make moral judgments of people's behavior, assess the quality of objects, or build empathy and suspense. Evaluative language includes **nouns** (e.g., *disdain, emptiness, fear, admiration)*, **verbs** (e.g., *frighten, laugh, reassure, dislike, contradict)*, and adjectives (e.g., *significant, trusting, irrelevant, worthless, shallow, mean).*

expressive mode: The expressive mode includes **speaking**, **writing**, and **representing.** One of two types of **communication modes**.

genres: multimodal texts (e.g., *oral, written, visual, computer-mediated*) that recur for specific purposes, with specific discourse organization patterns and language features.

genre families: groups of genres with similar characteristics, purposes, and common organizational structures (e.g., *the biography, autobiography, and short story genres belong to the "narrate" genre family*). Each Key Language Use represents a specific genre family.

given/new: an organizational pattern that builds and sequences information from sentence to sentence. The writer places the given (or known) information at the beginning of the sentence and the new (or unknown) information at the end. In the sentence that follows, the new information is presented as given so more information can be added, often through **nominalization (**see **text complexity)**. For example:

> ***The most important thing that bees do*** [given] *is pollinate* [new]. ***Pollination*** [given] *is the transfer of pollen from a stamen to a pistil* [new].
>
> The first sentence presents *"The most important thing that bees do"* as given information and "pollinate" as new information. The second sentence starts with the nominalization "pollination" as a given. The given/new pattern allows the second sentence to capture and build on the concept "pollinate" as given so more information can be added: *the transfer of pollen from a stamen to a pistil.*

grammatical complexity: when multiple clauses are embedded in text to add details, illustrate, elaborate, and/or create different logical relationships (e.g., **conditional**, **causal**, **consequential**). See **sentence types** and **connectors.** Typically, literary writing is more grammatically complex, while science writing is less grammatically complex but lexically dense. Spoken language is more grammatically intricate and complex than written language.

imperative: a sentence with no subject, typically used for commands. (e.g., *Put the wire on the other side of the LED light.*)

interpretive mode: The interpretive mode includes **reading**, **listening**, and **viewing.** One of two types of **communication modes**.

interrogative: a sentence that asks a question (e.g., *Why do we need to create a graph with data?*). See **clause.**

Key Language Uses: high-leverage genre families across academic content standards.

- **Narrate:** language to convey real or imaginary experiences through stories and histories. Narratives serve many purposes, including to instruct, entertain, teach, or support persuasion.
- **Inform:** language to provide factual information. As students convey information, they define, describe, compare, contrast, organize, categorize, or classify concepts, ideas, or phenomena.
- **Explain:** language to account for how things work or why things happen. As students explain, they substantiate the inner workings of phenomena.
- **Argue:** language to develop claims and counterclaims, and to provide evidence to substantiate them. Argue is also used to evaluate issues, advance or defend ideas or solutions, change the audience's point of view, or bring about action.

language: a dynamic system of choices used to communicate within a sociocultural context. Speakers and writers make language choices to accomplish many purposes (e.g., to represent experiences, to enact roles and relationships, and act upon the world).

language development: an interactive social process that occurs over time to expand what students can do with language.

Language Expectations: goals for content-driven language instruction.

Language Features: examples of language resources that carry out specific Language Functions. (e.g., different types of sentences, clauses, phrases, and words).

Language Functions: common patterns of language use associated with the Language Expectations. For example, a series of Language Functions is associated with the process of constructing narratives, informing peers of newly gained knowledge, explaining phenomena, or engaging in scientific argumentation.

lexicon: words/phrases or vocabulary of a language.

lexical cohesion: refers to the use of word association to tie together meanings in a text, such as through

- **repetition**: e.g., *Dolphins have fins. Dolphins use fins to swim.*
- **synonyms**: phrases with similar meanings: *parallel lines = lines that never meet*
- **antonyms**: phrases with contrastive meanings: *hot air goes up, cold air comes down*
- **hyponyms**: words that identify a general class and a subclass: *nations: Algeria, China, Haiti*
- **classifications that are more general or specific**: *mammals: monotremes, marsupials, and placentals*
- **compositions that identify a whole and its parts**: *earth: mantle, outer core, inner core*

lexical density: the amount of information in a clause's noun group. Density increases with the number of nouns, verbs, adjectives, and adverbs. In *The phenomenon in which current is induced due to relative motion between a coil and a magnet is called electromagnetic induction.*, the noun group has seven content words that make it expanded and lexically dense. See **nouns: expanded noun phrase**.

linguistic and cultural sustainability: the preservation of languages, literacies, and other cultural practices and identities of multilingual learners and communities.

linguistic repertoire: languages, language varieties, and registers that combine into a set of dynamic resources from which language users can draw when they communicate. A linguistic repertoire is not fixed from birth. Rather, people develop their language resources as they go through life by engaging in a variety of contexts in local and global communities. See **translanguaging**.

listening: an **interpretive mode** of communication used in interpreting meanings created through sound.

metacognitive awareness: people's ability to consciously reflect on how they think and learn, including by examining learning strategies, what works and why, and adjusting strategies as needed.

metacultural awareness: the ability to consciously reflect about cultural conceptualizations, both one's own and that of others. See **culture**.

metalanguage: language for talking about language. For example, vocabulary for talking about **cohesion** includes **lexical cohesion**, synonyms, and antonyms.

metalinguistic awareness: the ability to reflect about language and how it works, the choices one makes with language, how language influences and is influenced by context, as well as how language use creates meanings and enacts relationships among people and things.

mode: a meaning-making system that includes such elements as oral and written language, symbols, charts, tables, graphs, images, videos, voice, body positioning, and sound. See **communication modes.**

modifiers: words, phrases, or clauses that go before (called premodifiers) or after (called postmodifiers) nouns. They add specificity, details, and precision to the main noun. Modifiers include adjectives, adverbs, classifiers, and quantifiers. For example, dog → *the* dog → *the beautiful* dog → *the beautiful, tall* dog → *the beautiful, tall, 7-year-old* dog → *the beautiful, tall, 7-year-old black* dog *that ran across the street …*

multilingual learners: language learners who regularly come in contact with and/or interact in languages in addition to English. Multilingual learners include English language learners, dual-language learners, newcomers, students with interrupted formal schooling, long-term English learners, English learners with disabilities, gifted and talented English learners, heritage language learners, students with English as an additional language, and students who speak varieties of English or indigenous languages.

multimodality: use of multiple means of communication, including spoken and written language, gestures, facial expressions, images, equations, maps, symbols, diagrams, charts, videos, graphs, and computer-mediated means.

nominalization: the conversion of verbs, adjectives, adverbs, or entire clauses into nouns, such as from the verb "evaporate" to the noun "evaporation" and "persecuting" to "persecution." For example, *Heated water **evaporates** faster. **Evaporation** increases as temperature rises.*

nouns: nouns and noun phrases (also known as noun groups) represent people, places, things, or ideas. A noun phrase includes a noun (e.g., *dog*) plus its modifiers, including articles (e.g., *the dog*) and adjectives (e.g., *the black dog*).

- **simple noun phrase:** a group of words relating to a noun that may include a single modifier such as an adjective or a classifier (e.g., *a marsupial animal* or *this chemical element)*.
- **expanded noun phrase:** a group of words relating to a noun that typically includes premodifiers and postmodifiers adding information about the noun. These **modifiers** can include determiners (*the bees*), prepositional phrases (*bees in the beehive*), demonstratives (*these bees*), adjectives or adjectival phrases (*hardworking bees*), quantifiers (*many bees*), classifiers (*Western honeybees, Carpenter bees),* and **relative clauses** (*bees that pollinate crops and flowers*), or a combination of these **modifiers** (*hardworking, nonaggressive pollinator bees that pollinate crops and flowers)*.

passive voice: sentences can be structured in the active voice (*He made mistakes.*) or the passive voice (*Mistakes were made.*). In the passive voice, the object (or recipient) of an action is the subject of a sentence, as in *Magnetism was discovered about 4,000 years back in Greece.* or *The numbers were multiplied by.* Writers and speakers may intentionally use the passive voice to foreground an action's result, hide who is to blame for an action, or avoid mentioning the actor.

Proficiency Level Descriptors: a continuum of language development articulating how students might develop language across six levels of English language proficiency.

reading: an **interpretive mode** of communication used to interpret meaning created thorough printed words.

reference devices: words that bridge back or forward to people, things, or sections of a text. For example:

- **personal pronouns:** such as *you, she, they* that refer to living and non-living things (e.g., *People use maps to find where they need to go*.)
- **articles:** as in *a, an, the.* For example, in *"Can you hold the pencil?,"* "the" refers to a pencil that the speaker or writer mentioned previously.
- **demonstrative pronouns:** such as *this/these, that/those, there* that refer to living and nonliving things, places, or actions mentioned previously (e.g., *Once you decide where you want to go, you need to find out how to get there*.)
- **qualifiers:** such as *many/some/several* (e.g., *Maps used to be drawn by hand. Many had pictures of fantastic beasts and other decorations.*)
- **comparatives:** such as *same/different*, *other*, *bigger/est*, *more/less* (e.g., *This map has a lot of detail, but that one has more*.)
- **text reference:** where a pronoun (such as *this/these* or *that/those*) works a substitute for an idea or phenomenon previously described in the text (e.g., *Maps are flat, but the world is round. This is why globes are so useful*.).

representing: an **expressive mode** of communication used to create meanings using images, graphic representations, movement, video, graphics, or other visual means.

scaffolding: a contingent, collaborative process of supporting student development of new skills, concepts, practices, and understandings to build student autonomy by providing the needed kind of support that will trigger agency. Unlike a fixed, "one size fits all" set of routine supports, scaffolding starts with high expectations for all students and provides them with high support so they can rise to that challenge and perform tasks independently over time.

sentence types: there are three types of sentences: simple, compound, and complex.

- **simple sentences:** a simple sentence contains a single independent **clause**. Simple sentences are not necessarily short (e.g., *Pooh always liked a little something at eleven o'clock in the morning.*) nor are they always simple (e.g., *On Earth (and elsewhere), trace amounts of various elements continue to be produced from other elements as products of nuclear transmutation processes.*).
- **compound sentences:** a compound sentence contains two or more independent clauses, often linked with connectives such as *and*, *so*, *but*, *yet*, *either … or*.
- **complex sentences:** containing multiple clauses, a complex sentence is useful for conveying intricate and detailed relationships among ideas. The relationships among the clauses are not equal in that one of the clauses is independent and the others are dependent. Clauses in complex sentences are often joined by connectives such as *after, before, as long as* (for time); *as if, like* (for comparison); *because, since, in case, as a result of* (for reason); *as long as, unless* (for condition); *although, even if, despite* (for concession); *besides, as well as* (for addition), *except for,* and *instead of* (for replacing) (Derewianka, 2013). See **clause**.

sociocultural context: the social and cultural environment in which people live and interact, or in which something happens or develops. In reference to language use in schools, sociocultural context refers to the interaction between students and the classroom environment, along with the influences that shape the environment (e.g., purpose, topic, situation, participant's identities and social roles, audience). For example, the purpose of the communicative activity might be: *to persuade someone to stop using plastic straws, to warn someone of the impending storm,* or *to write a science explanation*. The topic might be *force and motion in science, or the Industrial Revolution in history*. The identities and social roles of the language users, as well as their relationship, might be *friend to friend or boss to employee*.

speaking: an **expressive mode** of communication used to create meanings orally through spoken language.

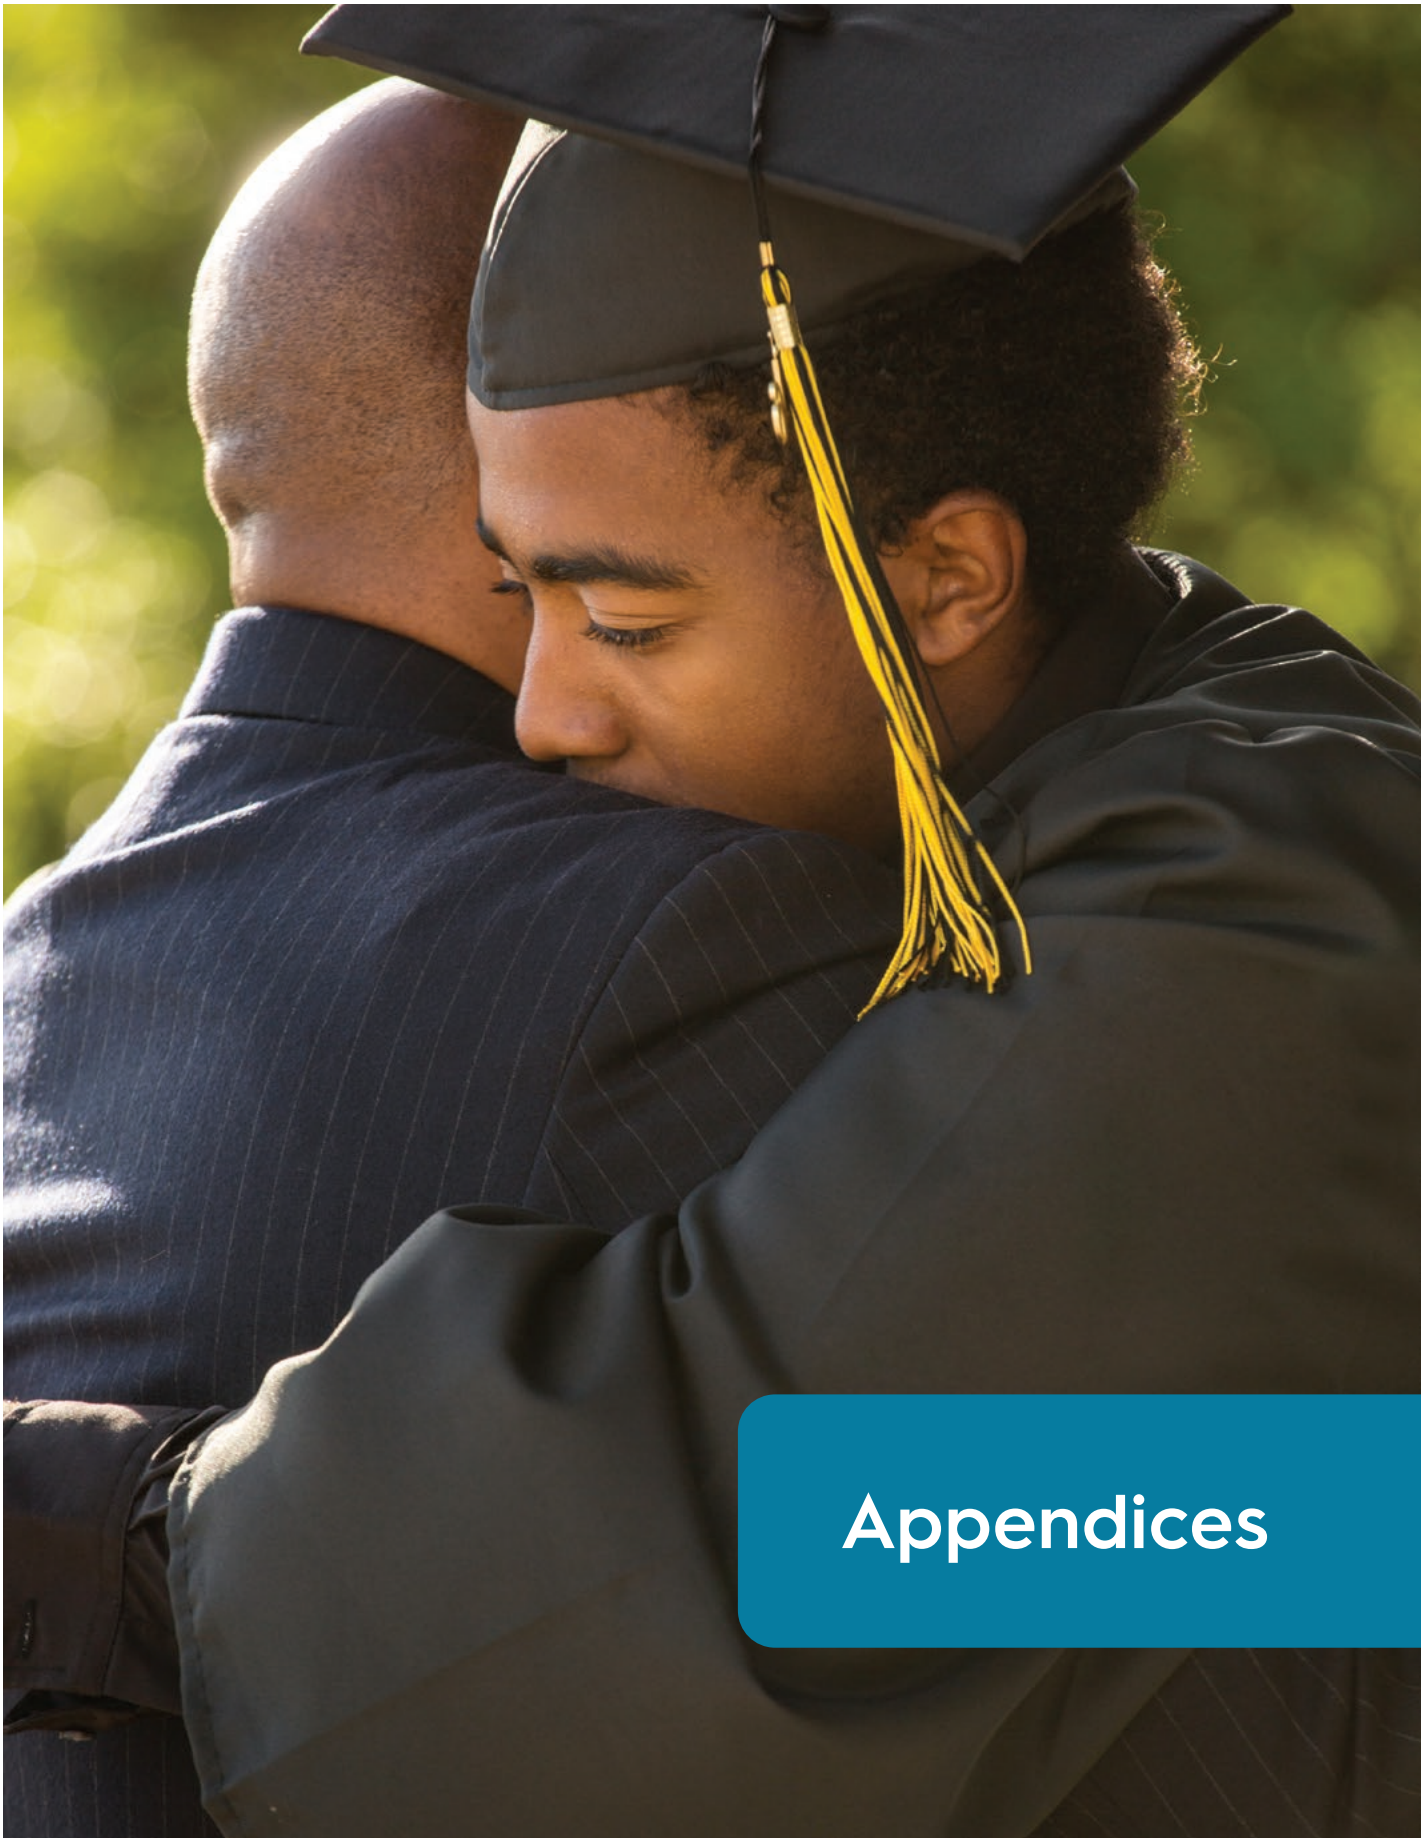
substitution or omission: words may be substituted or omitted as a text unfolds to avoid unnecessary repetition. Any element of a clause or even an entire clause can be substituted or omitted.

- **common noun substitutions***: ones, some, other, another one, same one, else, more* (e.g., *There were two rocks, and I chose the smooth one*.)
- **common verb substitutions***: do, does, did, have, will* (e.g., *Some rocks break easily, but others don't*.)
- **other substitutions**: *so* (e.g., *Water can pass through rock. To do so, it has to find air spaces that are connected*.), *none* (e.g., *If there are none, the water won't pass through the rock*.); possessive pronouns: *mine, yours, theirs, hers* (e.g., *My rock is permeable but hers isn't*.)
- **omission**: *don't, does, didn't, haven't, won't* (e.g., *Water will pass through rock only if the air spaces are connected. Otherwise, it won't*.)

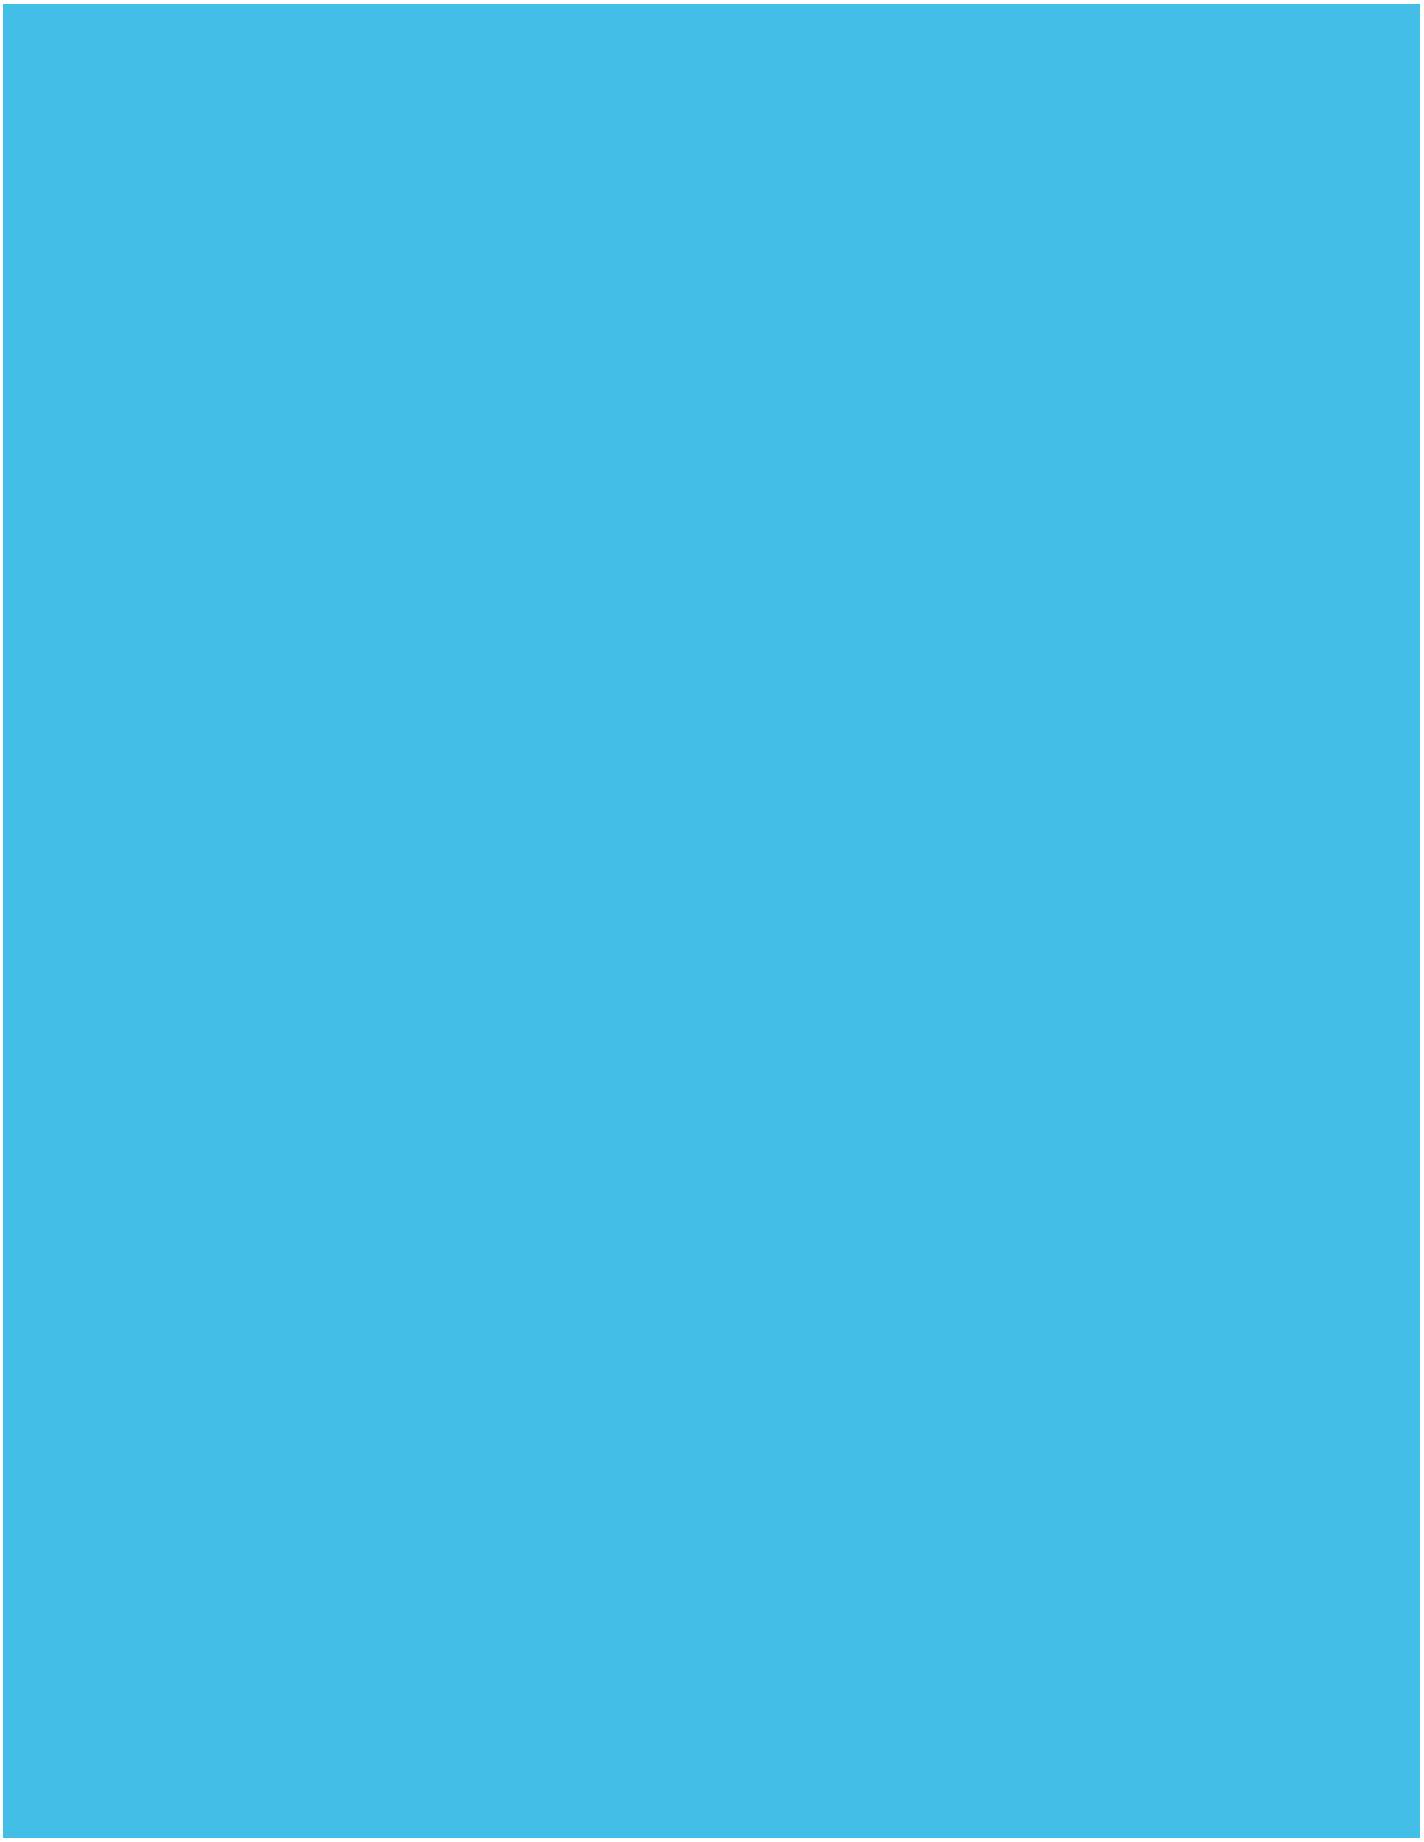
technical language: specialized language that is central to building knowledge and conceptual understanding within a specific field of study; language associated with a content area like science (e.g., *geothermal*) and math (e.g., *polynomials*) or with fields like video games or sports. See also **everyday language** and **discipline-specific language.**

text: a unit of meaning with a purpose in a particular context. Meaning can be created with different meaning-making systems: art, words, sound, symbols, color, movement. Texts can be written, oral (conversations or presentations), digital (websites or news broadcasts), visual (diagrams, art, posters, advertisements), or a combination of all these types. This document defines texts as multimodal; they can contain symbols, maps, timelines, drawings, and other modalities.

text complexity: how challenging a text is to process and interpret. Different features contribute to text complexity, including (and see also) **lexical density, nominalization, passive voice,** and **grammatical complexity.**



translanguaging: how multilingual learners access and use their full **linguistic repertoire**s in communication and learning, including by using more than one language.



verbs: a word or a combination of words that indicates action, a state of being, a condition, or a relationship among ideas. For example:

- **doing verbs** represent actions: *pull, attract, pollinate, added, subjugate.*
- **relating verbs** show relationships between ideas: *is, belongs to, consists of, has.*
- **thinking verbs** represent thought: *consider, imagine, wonder.*
- **feeling verbs** represent feelings: *admire, detest, respect, love.*
- **saying verbs** indicate what someone or something has said: *confirm, ask, whisper, challenge, yell, contradict.*

viewing: an **interpretive mode** of communication used in interpreting meanings created through images, movement, video, graphics, etc.

writing: an **expressive mode** of communication used to create meanings using symbols (e.g., letters of the alphabet, punctuation, numbers) to communicate ideas in a readable form.

Appendices

Appendix A: WIDA English Language Development Standards Framework, 2020 Edition—Meeting ESSA Title 1 Requirements

One use of the WIDA English Language Development Standards Framework, 2020 Edition, is to serve as a policy document. In that capacity, this edition has been carefully crafted to comply with requirements for English language proficiency standards under Title I of the Every Student Succeeds Act (ESSA, 2015). Specifically, it addresses provisions outlined in the U.S. Department of Education's document, "A State's Guide to the U.S. Department of Education's Assessment Peer Review Process" (U.S. Department of Education, 2018). Table A-1 outlines how relevant Critical Elements in this federal guide apply to the 2020 Edition. WIDA entities can be confident that the consortium will meet its legal obligation of English language proficiency standards and its alignment to assessment.

Table A-1: Critical Elements in Meeting ESSA Title 1 Requirements

Critical Element for Peer Review of State English Language Proficiency Assessment Systems	Requirements per ESSA	Response According to WIDA ELD Standards Framework, 2020 Edition	Examples of locations where the evidence can be found in the 2020 Edition
Critical Element 1.1, Provision of ELP Standards for all English Learners and **Critical Element 1.2,** Coherent and Progressive ELP Standards that Correspond to the State's Academic Content Standards	**The ELP* standards…** align to the State academic content standards	**Correspondence Tables** establish strong alignment of **Language Expectations** to States' academic content standards, as do **Key Language Use Distribution Tables**	• **Correspondence Tables** can be found in Appendix B. • **Key Language Use Distribution Tables** for each grade-level cluster are found in Section 3. Appendix C presents a compilation of these tables from K-12.

*Since 2012, WIDA has referred to its language standards as language development to describe the process over time rather than language proficiency that points to performance at a point in time.

Critical Element for Peer Review of State English Language Proficiency Assessment Systems	Requirements per ESSA	Response According to WIDA ELD Standards Framework, 2020 Edition	Examples of locations where the evidence can be found in the 2020 Edition
Critical Element 1.1, Provision of ELP Standards for all English Learners and **Critical Element 1.2,** Coherent and Progressive ELP Standards that Correspond to the State's Academic Content Standards	**The ELP* standards...** address the different proficiency levels of English learners	**Proficiency Level Descriptors (PLDs)** present 6 levels of English language proficiency	**PLDs** are presented in Section 3, Grade-Level Cluster Materials. Appendix D, A Compilation of K-12 Proficiency Level Descriptors, with Technical Notes, also includes a listing of PLDs in their complete K-12 progression; a comparison between the 2012 Performance Definitions and 2020 PLDs; and additional notes on alignment of the 2020 PLDs with existing WIDA performance definitions, scales, and tools.
	The ELP* standards... are derived from the 4 domains of speaking, listening, reading, and writing	The 4 domains are subsumed under 2 communication modes—**Interpretive** (listening, reading, viewing) and **Expressive** (speaking, writing, representing)	**Communication Modes** are illustrated in Section 2, The WIDA ELD Standards Framework.

*Since 2012, WIDA has referred to its language standards as language development to describe the process over time rather than language proficiency that points to performance at a point in time.

Critical Element for Peer Review of State English Language Proficiency Assessment Systems	Requirements per ESSA	Response According to WIDA ELD Standards Framework, 2020 Edition	Examples of locations where the evidence can be found in the 2020 Edition
Critical Element 1.5, Meaningful Consultation in the Development of Challenging State Standards and Assessments	(This requirement does not apply to standards and assessments adopted prior to the passage of ESSA, December 2015)	WIDA designed and adopted its first edition of ELP standards in 2004. It has continued to involve multiple entities in subsequent editions through national surveys, advisory panels, focus groups, SEA subcommittees, and Board meetings.	**Documentation of consultation** for this edition is available in Appendix G.

Appendix B: Correspondence Tables for Content and Language Standards

The WIDA English Language Development Standards Framework, 2020 Edition, has been carefully crafted to comply with requirements for English language proficiency standards under Title I of *Every Student Succeeds Act* (ESSA, 2015; see Appendix A: Meeting ESSA Requirements). These requirements are outlined in the U.S. Department of Education's document, *A State's Guide to the U.S. Department of Education's Assessment Peer Review Process* (U.S. Department of Education, 2018).

Critical Element 1.2 *Coherent and Progressive ELP Standards that Correspond to the State's Academic Content Standards* (U.S. Department of Education, 2018) states:

> The ELP standards must contain language proficiency expectations that reflect the language needed for ELs to acquire and demonstrate their achievement of the knowledge and skills identified in the State's academic content standards appropriate to each grade-level/grade-band in at least reading/language arts, mathematics, and science.

The correspondence tables in this appendix are organized by grade-level cluster and Key Language Use. They provide a sampling of evidence of a strong relationship (that is, correspondence) between state academic content standards and WIDA ELD Standards. They also provide a preview of information that may be included in state peer review submissions to the federal government. These correspondences reinforce the connection between content and language as illustrated in each Key Language Use and the WIDA Language Expectations.

For state peer review evidence, final correspondence determinations between the WIDA Language Expectations and the state academic content standards may be made as part of future alignment studies with educator panels. For more information on this process, see the Council of Chief State School Officers (CCSSO) *Framework for English Language Proficiency Development Standards corresponding to the Common Core State Standards and the Next Generation Science Standards* [commonly referred to as the ELPD Framework] (CCSSO, 2014), Section 2.3.

Cautions on Unintended Interpretations of Sample Correspondence Tables

The sample high-leverage correspondences shared in this section intentionally preserve for educators the critical choices to be made around the selection of curricular content and instructional approaches. Use these types of high-leverage correspondences to

- Prioritize and engage multilingual learners in deep, rigorous instruction
- Offer flexible, yet consistent instruction and assessment
- Coordinate with other required standards

The correspondences included here are not intended to be interpreted as the only matches possible between the WIDA ELD Standards Framework, 2020 Edition, and academic content standards. The correspondences are the first step in the process used by educators and may potentially vary due to situational circumstances, student-related factors, educator choice, and other considerations.

Grade 1

Mathematics.Inform

Content Area Standards Sampling	WIDA Language Expectations
Interpretive Communication Mode	
Source: Standards for Mathematical Practices (MP) **CCSS.MATH.PRACTICE.MP1 Make sense of problems and persevere in solving them** In first grade, students realize that doing mathematics involves solving problems and discussing how they solved them. Students explain to themselves the meaning of a problem and look for ways to solve it. Younger students may use concrete objects or pictures to help them conceptualize and solve problems. They may check their thinking by asking themselves, "Does this make sense?" They are willing to try other approaches. **CCSS.MATH.PRACTICE.MP4 Model with mathematics** In early grades, students experiment with representing problem situations in multiple ways including numbers, words (mathematical language), drawing pictures, using objects, acting out, making a chart or list, creating equations, etc. Students need opportunities to connect the different representations and explain the connections. They should be able to use all of these representations as needed. **CCSS.MATH.PRACTICE.MP7 Look for and make use of structure** Mathematically proficient students look closely to discern a pattern or structure. First graders begin to discern a number pattern or structure. For instance, if students recognize 12 + 3 = 15, then they also know 3 + 12 = 15. (Commutative property of addition.) To add 4 + 6 + 4, the first two numbers can be added to make a ten, so 4 + 6 + 4 = 10 + 4 = 14.	**ELD-MA.1.Inform.Interpretive** Interpret mathematical informational texts by... • Identifying concept or entity • Describing attributes and characteristics

Social and Instructional Language

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.K-3.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Ask questions about what others have shared
- Recount and restate ideas
- Discuss how stories might end or next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.K-3.Inform

- Define and classify objects or concepts
- Describe characteristics, patterns, or behavior
- Describe parts and wholes
- Sort, clarify, and summarize ideas
- Summarize information from interaction with others and from learning experiences

Language Expectations: Multilingual learners will...

Explain

ELD-SI.K-3.Explain

- Share initial thinking with others
- Follow and describe cycles in diagrams, steps in procedures, or causes and effects
- Compare and contrast objects or concepts
- Offer ideas and suggestions
- Act on feedback to revise understandings of how or why something works

Language Expectations: Multilingual learners will...

Argue

ELD-SI.K-3.Argue

- Ask questions about others' opinions
- Support own opinions with reasons
- Clarify and elaborate ideas based on feedback
- Defend change in one's own thinking
- Revise one's own opinions based on new information

K

Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.K.Inform.Interpretive
Interpret informational texts in language arts (with prompting and support) by

- Identifying main topic and key details
- Asking and answering questions about descriptions of familiar attributes and characteristics
- Identifying word choices in relation to topic or content area

ELD-LA.K.Inform.Expressive
Construct informational texts in language arts (with prompting and support) that

- Introduce topic for audience
- Describe details and facts

K
KINDERGARTEN

WIDA ELD STANDARD 3
Language for Mathematics

Inform

Language Expectations: Multilingual learners will...

ELD-MA.K.Inform.Interpretive
Interpret mathematical informational texts (with prompting and support) by

- Identifying concept or object
- Describing quantities and attributes

ELD-MA.K.Inform.Expressive
Construct mathematical informational texts (with prompting and support) that

- Define or classify concept or entity
- Describe a concept or entity
- Compare/contrast concepts or entities

K
KINDERGARTEN

WIDA ELD STANDARD 4
Language for Science

Inform

Language Expectations: Multilingual learners will...

ELD-SC.K.Inform.Interpretive
Interpret scientific informational texts by

- Determining what text is about
- Defining or classifying a concept or entity

ELD-SC.K.Inform.Expressive
Construct scientific informational texts that

- Introduce others to a topic or entity
- Provide details about an entity

K
KINDERGARTEN

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.K.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or simple design problems based on observations and data about a phenomenon
- Using information from observations to find patterns and to explain how or why a phenomenon occurs

ELD-SC.K.Explain.Expressive
Construct scientific explanations that

- Describe information from observations about a phenomenon
- Relate how a series of events causes something to happen
- Compare multiple solutions to a problem

K
KINDERGARTEN

WIDA ELD STANDARD 5
Language for Social Studies

Inform

Language Expectations: Multilingual learners will...

ELD-SS.K.Inform.Interpretive
Interpret informational texts in social studies by

- Determining topic associated with a compelling or supporting question
- Defining attributes and characteristics in relevant information

ELD-SS.K.Inform.Expressive
Construct informational texts in social studies that

- Introduce topic associated with a compelling or supporting question
- Provide a detail about relevant information

Language Expectations: Multilingual learners will...

Explain

ELD-SI.K-3.Explain

- Share initial thinking with others
- Follow and describe cycles in diagrams, steps in procedures, or causes and effects
- Compare and contrast objects or concepts
- Offer ideas and suggestions
- Act on feedback to revise understandings of how or why something works

Language Expectations: Multilingual learners will...

Argue

ELD-SI.K-3.Argue

- Ask questions about others' opinions
- Support own opinions with reasons
- Clarify and elaborate ideas based on feedback
- Defend change in one's own thinking
- Revise one's own opinions based on new information

GRADE 1

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.1.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a central message from key details
- Identifying how character attributes and actions contribute to an event
- Identifying words and phrases that suggest feelings or appeal to the senses

ELD-LA.1.Narrate.Expressive
Construct language arts narratives that

- Orient audience to story
- Develop story events
- Engage and adjust for audience

GRADE 1

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.1.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying main topic and/or entity and key details
- Asking and answering questions about descriptions of attributes and characteristics
- Identifying word choices in relation to topic or content area

ELD-LA.1.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Describe attributes and characteristics with facts, definitions, and relevant details

GRADE 1

WIDA ELD STANDARD 3
Language for Mathematics

Inform

Language Expectations: Multilingual learners will...

ELD-MA.1.Inform.Interpretive
Interpret mathematical informational texts by

- Identifying concept or entity
- Describing attributes and characteristics

ELD-MA.1.Inform.Expressive
Construct mathematical informational texts that

- Define or classify concept or entity
- Describe a concept or entity
- Compare/contrast concepts or entities

GRADE 1

WIDA ELD STANDARD 4
Language for Science

Inform

Language Expectations: Multilingual learners will...

ELD-SC.1.Inform.Interpretive
Interpret scientific informational texts by

- Determining what text is about
- Defining or classifying concept or entity

ELD-SC.1.Inform.Expressive
Construct scientific informational texts that

- Introduce others to topic or entity
- Define, describe, and classify concept, topic, or entity
- Summarize observations or factual information

GRADE 1

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.1.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or simple design problems based on observations and data about a phenomenon
- Analyzing several events and observations to help explain how or why a phenomenon occurs
- Identifying information from observations (that supports particular points in explanations)

ELD-SC.1.Explain.Expressive
Construct scientific explanations that

- Describe observations and/or data about a phenomenon
- Relate how a series of events causes something to happen
- Compare multiple solutions to a problem

GRADE 1

WIDA ELD STANDARD 5
Language for Social Studies

Inform

Language Expectations: Multilingual learners will...

ELD-SS.1.Inform.Interpretive
Interpret informational texts in social studies by

- Determining topic associated with compelling or supporting questions
- Defining and classifying attributes, characteristics, and qualities in relevant information

ELD-SS.1.Inform.Expressive
Construct informational texts in social studies that

- Introduce topic associated with compelling or supporting questions
- Provide details about disciplinary ideas

GRADE 1

WIDA ELD STANDARD 5

Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.1.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic
- Analyzing evidence gathered from source
- Evaluating source based on distinctions between fact and opinion

ELD-SS.1.Argue.Expressive
Construct social studies arguments that

- Introduce topic
- Select relevant information to support claim with evidence
- Show relationship between claim and evidence, and reasoning

GRADES 2-3

WIDA ELD STANDARD 1

Social and Instructional Language

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.K-3.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Ask questions about what others have shared
- Recount and restate ideas
- Discuss how stories might end or next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.K-3.Inform

- Define and classify objects or concepts
- Describe characteristics, patterns, or behavior
- Describe parts and wholes
- Sort, clarify, and summarize ideas
- Summarize information from interaction with others and from learning experiences

Language Expectations: Multilingual learners will...

Explain

ELD-SI.K-3.Explain

- Share initial thinking with others
- Follow and describe cycles in diagrams, steps in procedures, or causes and effects
- Compare and contrast objects or concepts
- Offer ideas and suggestions
- Act on feedback to revise understandings of how or why something works

Language Expectations: Multilingual learners will...

Argue

ELD-SI.K-3.Argue

- Ask questions about others' opinions
- Support own opinions with reasons
- Clarify and elaborate ideas based on feedback
- Defend change in one's own thinking
- Revise one's own opinions based on new information

GRADES 2-3

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.2-3.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a central message from key details
- Identifying how character attributes and actions contribute to event sequences
- Determining the meaning of words and phrases as they are used in texts, distinguishing literal from nonliteral language

ELD-LA.2-3.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context
- Develop story with time and event sequences, complication, resolution or ending
- Engage and adjust for audience

GRADES 2-3

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.2-3.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying the main idea and key details
- Referring explicitly to descriptions for themes and relationships among meanings
- Describing relationship between a series of events, ideas or concepts, or procedural steps

ELD-LA.2-3.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Add details to define, describe, compare, and classify topic and/or entity
- Develop coherence and cohesion throughout text

GRADES 2-3

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will...

ELD-MA.2-3.Explain.Interpretive
Interpret mathematical explanations by

- Identifying concept or entity
- Analyzing plan for problem-solving steps
- Evaluating simple pattern or structure

ELD-MA.2-3.Explain.Expressive
Construct mathematical explanations that

- Introduce concept or entity
- Describe solution and steps used to solve problem with others
- State reasoning used to generate solution

GRADES 2-3

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will...

ELD-MA.2-3.Argue.Interpretive
Interpret mathematics arguments by

- Identifying conjectures about what might be true
- Distinguishing connections among ideas in justifications
- Extracting mathematical operations and facts from solution strategies to create generalizations

ELD-MA.2-3.Argue.Expressive
Construct mathematics arguments that

- Create conjecture using definitions
- Generalize commonalities across cases
- Justify conclusion steps and strategies in simple patterns
- Identify and respond to others' arguments

GRADES 2-3

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.2-3.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or simple design problems based on observations, data, and prior knowledge about a phenomenon
- Obtaining and combining information from observations, and using evidence to help explain how or why a phenomenon occurs
- Identifying information from observations as well as evidence that supports particular points in explanations

ELD-SC.2-3.Explain.Expressive
Construct scientific explanations that

- Describe observations and/or data about a phenomenon
- Develop a logical sequence between data or evidence and claim
- Compare multiple solutions to a problem considering how well they meet the criteria and constraints of the design solution

GRADES 2-3

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.2-3.Argue.Interpretive
Interpret scientific arguments by

- Identifying potential evidence from data, models, and/or information from investigations of phenomena or design solutions
- Analyzing whether evidence is relevant or not
- Distinguishing between evidence and opinions

ELD-SC.2-3.Argue.Expressive
Construct scientific arguments that

- Introduce topic/phenomenon for an issue related to the natural and designed world(s)
- Make a claim supported by relevant evidence
- Establish a neutral tone
- Signal logical relationships among reasoning, evidence, data, and/or a model when making a claim

GRADES 2-3

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will...

ELD-SS.2-3.Explain.Interpretive
Interpret social studies explanations by

- Determining types of sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for event sequences and/or causes/effects
- Evaluating disciplinary concepts and ideas associated with a compelling or supporting question

ELD-SS.2-3.Explain.Expressive
Construct social studies explanations that

- Introduce phenomena or events
- Describe components, order, causes, or cycles
- Generalize possible reasons for a development or event

GRADES 2-3

WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.2-3.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information from one or two sources to develop claims in response to compelling questions
- Evaluating source credibility based on distinctions between fact and opinion

ELD-SS.2-3.Argue.Expressive
Construct social studies arguments that

- Introduce topic
- Select relevant information to support claims with evidence from one or more sources
- Show relationships between claim, evidence, and reasoning

GRADES
4-5 WIDA ELD STANDARD 1
Social and Instructional Language

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.4-12.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Identify and raise questions about what might be unexplained, missing, or left unsaid
- Recount and restate ideas to sustain and move dialogue forward
- Create closure, recap, and offer next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.4-12.Inform

- Define and classify facts and interpretations; determine what is known vs. unknown
- Report on explicit and inferred characteristics, patterns, or behavior
- Describe the parts and wholes of a system
- Sort, clarify, and summarize relationships
- Summarize most important aspects of information

Language Expectations: Multilingual learners will...

Explain

ELD-SI.4-12.Explain

- Generate and convey initial thinking
- Follow and describe cycles and sequences of steps or procedures and their causes and effects
- Compare changing variables, factors, and circumstances
- Offer alternatives to extend or deepen awareness of factors that contribute to particular outcomes
- Act on feedback to revise understandings of how or why something is or works in particular ways

Language Expectations: Multilingual learners will...

Argue

ELD-SI.4-12.Argue

- Generate questions about different perspectives
- Support or challenge an opinion, premise, or interpretation
- Clarify and elaborate ideas based on feedback
- Evaluate changes in thinking, identifying trade-offs
- Refine claims and reasoning based on new information or evidence

GRADES 4-5

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.4-5.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a theme from details
- Analyzing how character attributes and actions develop across event sequences
- Determining the meaning of words and phrases used in texts, including figurative language, such as metaphors and similes

ELD-LA.4-5.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context
- Develop and describe characters and their relationships
- Develop story with complication and resolution, time and event sequences
- Engage and adjust for audience

GRADES 4-5

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.4-5.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying and summarizing main ideas and key details
- Analyzing details and examples for key attributes, qualities, and characteristics
- Evaluating the impact of key word choices in a text

ELD-LA.4-5.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Establish objective or neutral stance
- Add precision and details to define, describe, compare, and classify topic and/or entity
- Develop coherence and cohesion throughout text

GRADES 4-5

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Language Expectations: Multilingual learners will...

ELD-LA.4-5.Argue.Interpretive
Interpret language arts arguments by

- Identifying main ideas
- Analyzing points of view about the same event or topic
- Evaluating how details, reasons, and evidence support particular points in a text

ELD-LA.4-5.Argue.Expressive
Construct language arts arguments that

- Introduce and develop a topic clearly; state an opinion
- Support opinions with reasons and information
- Use a formal style
- Logically connect opinions to appropriate evidence, facts, and details; offer a concluding statement or section

GRADES 4-5

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will...

ELD-MA.4-5.Explain.Interpretive
Interpret mathematical explanations by

- Identifying concept or entity
- Analyzing problem-solving steps
- Evaluating a pattern or structure that follows a given rule

ELD-MA.4-5.Explain.Expressive
Construct mathematical explanations that

- Introduce concept or entity
- Share solution with others
- Describe data and/or steps to solve problem
- State reasoning used to generate solution

GRADES 4-5

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will...

ELD-MA.4-5.Argue.Interpretive
Interpret mathematics arguments by

- Comparing conjectures with patterns, and/or rules
- Distinguishing commonalities and differences among ideas in justifications
- Extracting patterns or rules from solution strategies to create generalizations

ELD-MA.4-5.Argue.Expressive
Construct mathematics arguments that

- Create conjecture using definitions, patterns, and rules
- Generalize commonalities and differences across cases
- Justify conclusions with patterns or rules
- Evaluate others' arguments

GRADES 4-5

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.4-5.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or design problems based on observations, data, and prior knowledge about a phenomenon
- Obtaining and combining evidence and information to help explain how or why a phenomenon occurs
- Identifying evidence that supports particular points in an explanation

ELD-SC.4-5.Explain.Expressive
Construct scientific explanations that

- Describe observations and/or data about a phenomenon
- Establish neutral or objective stance in communicating results
- Develop reasoning to show relationships between evidence and claims
- Summarize and/or compare multiple solutions to a problem based on how well they meet the criteria and constraints of the design solution

GRADES 4-5

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.4-5.Argue.Interpretive
Interpret scientific arguments by

- Identifying relevant evidence from data, models, and/or information from investigations of phenomena or design solutions
- Comparing reasoning and claims based on evidence
- Distinguishing among facts, reasoned judgment based on research findings, and speculation in an explanation

ELD-SC.4-5.Argue.Expressive
Construct scientific arguments that

- Introduce topic/phenomenon in issues related to the natural and designed world(s)
- Make and define a claim based on evidence, data, and/or model
- Establish a neutral tone or an objective stance
- Signal logical relationships among reasoning, relevant evidence, data, and/or a model when making a claim

GRADES 4-5

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will...

ELD-SS.4-5.Explain.Interpretive
Interpret social studies explanations by

- Determining different opinions in sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for a series of contributing factors or causes
- Evaluating disciplinary concepts and ideas that are open to different interpretations

ELD-SS.4-5.Explain.Expressive
Construct social studies explanations that

- Introduce phenomena or events
- Describe components, order, causes and effects, or cycles using relevant examples and details
- Generalize probable causes and effects of developments or events

GRADES 4-5

WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.4-5.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information from multiple sources to develop claims in response to compelling questions
- Evaluating point of view and credibility of source, based on distinctions between fact and opinion

ELD-SS.4-5.Argue.Expressive
Construct social studies arguments that

- Introduce topic
- Select relevant information to support claims with evidence from multiple sources
- Establish perspective
- Show relationships between claims with reasons and multiple sources of evidence

GRADES 6-8

WIDA ELD STANDARD 1

Social and Instructional Language

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.4-12.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Identify and raise questions about what might be unexplained, missing, or left unsaid
- Recount and restate ideas to sustain and move dialogue forward
- Create closure, recap, and offer next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.4-12.Inform

- Define and classify facts and interpretations; determine what is known vs. unknown
- Report on explicit and inferred characteristics, patterns, or behavior
- Describe the parts and wholes of a system
- Sort, clarify, and summarize relationships
- Summarize most important aspects of information

Language Expectations: Multilingual learners will...

Explain

ELD-SI.4-12.Explain

- Generate and convey initial thinking
- Follow and describe cycles and sequences of steps or procedures and their causes and effects
- Compare changing variables, factors, and circumstances
- Offer alternatives to extend or deepen awareness of factors that contribute to particular outcomes
- Act on feedback to revise understandings of how or why something is or works in particular ways

Language Expectations: Multilingual learners will...

Argue

ELD-SI.4-12.Argue

- Generate questions about different perspectives
- Support or challenge an opinion, premise, or interpretation
- Clarify and elaborate ideas based on feedback
- Evaluate changes in thinking, identifying trade-offs
- Refine claims and reasoning based on new information or evidence

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.6-8.Narrate.Interpretive
Interpret language arts narratives by

- Identifying a theme or central idea that develops over the course of a text
- Analyzing how character attributes and actions develop in relation to events or dialogue
- Evaluating impact of specific word choices about meaning and tone

ELD-LA.6-8.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context and point of view
- Develop and describe characters and their relationships
- Develop story, including themes with complication and resolution, time, and event sequences
- Engage and adjust for audience

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.6-8.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying and/or summarizing main ideas and their relationship to supporting ideas
- Analyzing observations and descriptions in textual evidence for key attributes, qualities, characteristics, activities, and behaviors
- Evaluating the impact of author's key word choices over the course of a text

ELD-LA.6-8.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Establish objective or neutral stance
- Add precision, details, and clarity about relevant attributes, qualities, characteristics, activities, and behaviors
- Develop coherence and cohesion throughout text

GRADES 6-8

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Language Expectations: Multilingual learners will...

ELD-LA.6-8.Argue.Interpretive
Interpret language arts arguments by

- Identifying and summarizing central idea distinct from prior knowledge or opinions
- Analyzing how an author acknowledges and responds to conflicting evidence or viewpoints
- Evaluating relevance, sufficiency of evidence, and validity of reasoning that support claim(s)

ELD-LA.6-8.Argue.Expressive
Construct language arts arguments that

- Introduce and develop claim(s) and acknowledge counterclaim(s)
- Support claims with reasons and evidence that are clear, relevant, and credible
- Establish and maintain formal style
- Logically organize claim(s) with clear reasons and relevant evidence; offer a conclusion

GRADES 6-8

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will...

ELD-MA.6-8.Explain.Interpretive
Interpret mathematical explanations by

- Identifying concept or entity
- Analyzing possible ways to represent and solve a problem
- Evaluating model and rationale for underlying relationships in selected problem-solving approach

ELD-MA.6-8.Explain.Expressive
Construct mathematical explanations that

- Introduce concept or entity
- Share solution with others
- Describe data and/or problem-solving strategy
- State reasoning used to generate solution

GRADES 6-8

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will...

ELD-MA.6-8.Argue.Interpretive
Interpret mathematics arguments by

- Comparing conjectures with previously established results
- Distinguishing commonalities among strategies used
- Evaluating relationships between evidence and mathematical facts to create generalizations

ELD-MA.6-8.Argue.Expressive
Construct mathematics arguments that

- Create conjecture, using definitions and previously established results
- Generalize logic across cases
- Justify conclusions with evidence and mathematical facts
- Evaluate and critique others' arguments

GRADES 6-8

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.6-8.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or design problems based on observations, information, and/or data about a phenomenon
- Determining central ideas in complex evidence and information to help explain how or why a phenomenon occurs
- Evaluating scientific reasoning that shows why data or evidence adequately supports conclusions

ELD-SC.6-8.Explain.Expressive
Construct scientific explanations that

- Describe valid and reliable evidence from sources about a phenomenon
- Establish neutral or objective stance in how results are communicated
- Develop reasoning to show relationships among independent and dependent variables in models and simple systems
- Summarize patterns in evidence, making trade-offs, revising, and retesting

GRADES 6-8

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.6-8.Argue.Interpretive
Interpret scientific arguments by

- Identifying convincing evidence from data, models, and/or information from investigations of phenomena or design solutions
- Comparing reasoning and claims based on evidence from two arguments on the same topic
- Evaluating whether they emphasize similar or different evidence and/or interpretations of facts

ELD-SC.6-8.Argue.Expressive
Construct scientific arguments that

- Introduce and contextualize topic/phenomenon in issues related to the natural and designed world(s)
- Support or refute a claim based on data and evidence
- Establish and maintain a neutral or objective stance
- Signal logical relationships among reasoning, evidence, data, and/or a model when making or defending a claim or counterclaim

GRADES 6-8

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will...

ELD-SS.6-8.Explain.Interpretive
Interpret social studies explanations by

- Determining multiple points of view in sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for logical relationships among contributing factors or causes
- Evaluate experts' points of agreement, along with strengths and weakness of explanations

ELD-SS.6-8.Explain.Expressive
Construct social studies explanations that

- Introduce and contextualize phenomena or events
- Establish perspective for communicating outcomes, consequences, or documentation
- Develop reasoning, sequences with linear and nonlinear relationships, evidence, and details, acknowledging strengths and weaknesses
- Generalize multiple causes and effects of developments or events

GRADES 6-8

WIDA ELD STANDARD 5

Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.6-8.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information from multiple sources to support claims
- Evaluating point of view and credibility of source based on relevance and intended use

ELD-SS.6-8.Argue.Expressive
Construct social studies arguments that

- Introduce and contextualize topic
- Select relevant information to support claims with evidence gathered from multiple sources
- Establish perspective
- Show relationships between claims and counterclaims, differences in perspectives, and evidence and reasoning

GRADES
9-12 WIDA ELD STANDARD 1
Social and Instructional Language

Language Expectations: Multilingual learners will...

Narrate

ELD-SI.4-12.Narrate

- Share ideas about one's own and others' lived experiences and previous learning
- Connect stories with images and representations to add meaning
- Identify and raise questions about what might be unexplained, missing, or left unsaid
- Recount and restate ideas to sustain and move dialogue forward
- Create closure, recap, and offer next steps

Language Expectations: Multilingual learners will...

Inform

ELD-SI.4-12.Inform

- Define and classify facts and interpretations; determine what is known vs. unknown
- Report on explicit and inferred characteristics, patterns, or behavior

- Sort, clarify, and summarize relationships
- Summarize most important aspects of information

GRADES
9-12 WIDA ELD STANDARD 1
Social and Instructional Language

Language Expectations: Multilingual learners will...

Explain

ELD-SI.4-12.Explain

- Generate and convey initial thinking
- Follow and describe cycles and sequences of steps or procedures and their causes and effects
- Compare changing variables, factors, and circumstances
- Offer alternatives to extend or deepen awareness of factors that contribute to particular outcomes
- Act on feedback to revise understandings of how or why something is or works in particular ways

Language Expectations: Multilingual learners will...

Argue

ELD-SI.4-12.Argue

- Generate questions about different perspectives
- Support or challenge an opinion, premise, or interpretation
- Clarify and elaborate ideas based on feedback
- Evaluate changes in thinking, identifying trade-offs
- Refine claims and reasoning based on new information or evidence

GRADES 9-12

WIDA ELD STANDARD 2
Language for Language Arts

Narrate

Language Expectations: Multilingual learners will...

ELD-LA.9-12.Narrate.Interpretive
Interpret language arts narratives by

- Identifying themes or central ideas that develop over the course of a text
- Analyzing how author choices about character attributes and actions relate to story elements (setting, event sequences, and context)
- Evaluating the impact of specific word choices on meaning, tone, and explicit vs. implicit points of view

ELD-LA.9-12.Narrate.Expressive
Construct language arts narratives that

- Orient audience to context and one or multiple point(s) of view
- Develop and describe characters and their relationships over a progression of experiences or events
- Develop story, advancing the plot and themes with complications and resolutions, time and event sequences
- Engage and adjust for audience

GRADES 9-12

WIDA ELD STANDARD 2
Language for Language Arts

Inform

Language Expectations: Multilingual learners will...

ELD-LA.9-12.Inform.Interpretive
Interpret informational texts in language arts by

- Identifying and/or summarizing central ideas
- Analyzing descriptions and inferences in textual evidence for key attributes, qualities, characteristics, activities, and conceptual relationships
- Evaluating cumulative impact and refinement of author's key word choices over the course of text

ELD-LA.9-12.Inform.Expressive
Construct informational texts in language arts that

- Introduce and define topic and/or entity for audience
- Establish an objective or neutral stance
- Add precision, details, and clarity about complex attributes, qualities, characteristics, activities, and conceptual relationships
- Develop coherence and cohesion throughout text

GRADES 9-12

WIDA ELD STANDARD 2
Language for Language Arts

Argue

Language Expectations: Multilingual learners will...

ELD-LA.9-12.Argue.Interpretive
Interpret language arts arguments by

- Identifying and summarizing central ideas of primary or secondary sources
- Analyzing use of rhetoric and details to advance point of view or purpose
- Evaluating and corroborating relevance and sufficiency of evidence as well as validity of reasoning to support claims

ELD-LA.9-12.Argue.Expressive
Construct language arts arguments that

- Introduce and develop precise claims and address counterclaims
- Support claims and refute counterclaims with valid reasoning and relevant and sufficient evidence
- Establish and maintain a formal style and objective tone
- Logically organize claims, counterclaims, reasons, and evidence; offer a conclusion with recommendations

GRADES 9-12

WIDA ELD STANDARD 3
Language for Mathematics

Explain

Language Expectations: Multilingual learners will...

ELD-MA.9-12.Explain.Interpretive
Multilingual learners use language to interpret mathematical explanations by

- Identifying concept or entity
- Analyzing data and owning problem-solving approaches
- Evaluating rationales, models, and/or interpretations based on evidence and mathematical principles

ELD-MA.9-12.Explain.Expressive
Multilingual learners use language to construct mathematical explanations that

- Introduce mathematical concept or entity
- Share solutions with others
- Describe data and/or approach used to solve a problem
- State reasoning used to generate own or alternate solutions

GRADES 9-12

WIDA ELD STANDARD 3
Language for Mathematics

Argue

Language Expectations: Multilingual learners will...

ELD-MA.9-12.Argue.Interpretive
Interpret concepts in arguments by

- Comparing conjectures with previously established results and stated assumptions
- Distinguishing correct from flawed logic
- Evaluating relationships among evidence and mathematical principles to create generalizations

ELD-MA.9-12.Argue.Expressive
Construct mathematics arguments that

- Create precise conjecture, using definitions, previously established results, and stated assumptions
- Generalize logical relationships across cases
- Justify (and refute) conclusions with evidence and mathematical principles
- Evaluate and extend others' arguments

GRADES 9-12

WIDA ELD STANDARD 4
Language for Science

Explain

Language Expectations: Multilingual learners will...

ELD-SC.9-12.Explain.Interpretive
Interpret scientific explanations by

- Defining investigable questions or problems based on observations, information, and/or data about a phenomenon
- Paraphrasing central ideas in complex evidence, concepts, processes, and information to help explain how or why a phenomenon occurs
- Evaluating the extent to which reasoning, theory and/or models link evidence to claims and support conclusions

ELD-SC.9-12.Explain.Expressive
Construct scientific explanations that

- Describe reliable and valid evidence from multiple sources about a phenomenon
- Establish neutral or objective stance in how results are communicated
- Develop reasoning to illustrate and/or predict the relationships between variables in a system or between components of a system
- Summarize and refine solutions referencing scientific knowledge, evidence, criteria, and/or trade-offs

GRADES 9-12

WIDA ELD STANDARD 4
Language for Science

Argue

Language Expectations: Multilingual learners will...

ELD-SC.9-12.Argue.Interpretive
Interpret scientific arguments by

- Identifying appropriate and sufficient evidence from data, models, and/or information from investigations of a phenomenon or design solutions
- Comparing reasoning and claims based on evidence from competing arguments or design solutions
- Evaluating currently accepted explanations, new evidence, limitations (trade-offs), constraints, and ethical issues

ELD-SC.9-12.Argue.Expressive
Construct scientific arguments that

- Introduce and contextualize topic/phenomenon in current scientific or historical episodes in science
- Defend or refute a claim based on data and evidence
- Establish and maintain an appropriate tone and stance (neutral/objective or biased/subjective)
- Signal logical relationships among reasoning, evidence, data, and/or models when making and defending a claim, counterclaim, and/or rebuttal

GRADES 9-12

WIDA ELD STANDARD 5
Language for Social Studies

Explain

Language Expectations: Multilingual learners will...

ELD-SS.9-12.Explain.Interpretive
Interpret social studies explanations by

- Determining multiple types of sources, points of view in sources, and potential uses of sources for answering compelling and supporting questions about phenomena or events
- Analyzing sources for logical relationships among contributing factors, causes, or related concepts
- Evaluating experts' points of agreement and disagreement based on their consistency with explanation given its purpose

ELD-SS.9-12.Explain.Expressive
Construct social studies explanations that

- Introduce and contextualize multiple phenomena or events
- Establish perspective for communicating intended and unintended outcomes, consequences, or documentation
- Develop sound reasoning, sequences with linear and nonlinear relationships, evidence, and details with significant and pertinent information, acknowledging strengths and weaknesses
- Generalize experts' points of agreement and disagreement about multiple, complex causes and effects of developments or events

GRADES
9-12 WIDA ELD STANDARD 5
Language for Social Studies

Argue

Language Expectations: Multilingual learners will...

ELD-SS.9-12.Argue.Interpretive
Interpret social studies arguments by

- Identifying topic and purpose (argue in favor or against a position, present a balanced interpretation, challenge perspective)
- Analyzing relevant information to support and/or revise claims with reliable and valid evidence from multiple sources
- Evaluating credibility, accuracy, and relevancy of source based on expert perspectives

ELD-SS.9-12.Argue.Expressive
Construct social studies arguments that

- Introduce and contextualize topic
- Select relevant information to support precise and knowledgeable claims with evidence from multiple sources
- Establish perspective
- Show relationships between claims and counterclaims, differences in perspectives, evidence, and reasoning

Appendix D: A Compilation of K-12 Proficiency Level Descriptors, with Technical Notes

Expansion of the K-12 Performance Definitions into Proficiency Level Descriptors for All Grade-Level Clusters

Since 2004, the WIDA K-12 Performance Definitions have offered an interpretation of student language performance across five levels of English language proficiency. For the 2020 Edition, WIDA has expanded the K-12 Performance Definitions into Proficiency Level Descriptors with six grade-level clusters that provide elaborated, developmental interpretations for multilingual learners' proficiency levels in English. This appendix offers a comparison of the 2004 Performance Definitions and 2020 Proficiency Level Descriptors.

Both the 2004 K-12 Performance Definitions and 2020 grade-level cluster Proficiency Level Descriptors use similar language performance criteria that focus on similar concepts:

- Organization
- Cohesion
- Density
- Grammatical Complexity
- Precision/Vocabulary Usage

However, the 2020 Proficiency Level Descriptors provide heightened emphasis on discourse; there are three criteria provided in the discourse dimension and only one criterion each in the other two dimensions (sentence and word/phrase).

Table D-1 provides a comparison of the 2014 Features of Academic Language (WIDA, 2014) and its update, the 2020 Dimensions of Language in the Proficiency Level Descriptors: Criteria and Sample Features (see Section 2 of this document).

Table D-1: Comparison of Criteria in 2014 Features of Academic Language Chart and 2020 Dimensions of Language Table

	2012 Performance Definitions (2014 Features of Academic Language Table)	2020 Proficiency Level Descriptors
Discourse Dimension	• Structure and variety of organized speech/written text • Coherence and cohesion of ideas • Density of speech/written text • Amount of speech/written text*	• Organization of language • Cohesion of language • Density of language
Sentence Dimension	Types and variety of grammatical constructions	Grammatical complexity of language

	2012 Performance Definitions (2014 Features of Academic Language Table)	2020 Proficiency Level Descriptors
Word/Phrase Dimension	General, specific, and technical language • Multiple meanings of words and phrases • Collocations and idioms • Nuances and shades of meaning	Precision of language • 3 types of language (everyday, cross-disciplinary, and technical) • Examples (e.g., multiple meanings, collocations, idioms, shades of meaning, etc.)

*The 2020 Proficiency Level Descriptors measure excerpts of language; neither descriptors nor examples within the Proficiency Level Descriptors describe the full amount of text that students can process or produce (e.g., chapter books)

Similarities among 2012 K-12 Performance Definitions and 2020 Grade-Level Cluster Proficiency Level Descriptors

- Both K-12 Performance Definitions and grade-level cluster Proficiency Level Descriptors conceptualize the linguistic system within a sociocultural context.
- Both are organized around three dimensions of language:
    - The discourse dimension imparts overall meaning across an entire text, supported by the sentence and word/phrase dimensions.
    - The sentence dimension contributes to the grammatical complexity of how various sentence types shape text sequencing and connections.
    - The word/phrase dimension adds precision to communication. For example, language users strategically select different three types of language; employ multiple meanings and nuances of words and phrases; or play with their shades of meaning.
- Both describe the interpretive and expressive communication modes. (The 2012 edition used the terms *receptive* and *productive* communication modes.) The two communication modes encompass the four language domains (speaking, listening, reading, and writing), as outlined in federal requirements for language proficiency standards.
- For both the K-12 Performance Definitions and the grade-level cluster Proficiency Level Descriptors, proficiency levels are cumulative, meaning that each proficiency level includes and builds on previous ones (e.g., the student proficiency descriptors for the end of PL4 include the three previous sets of descriptors. The descriptors for the end of PL4 = End of PL1 + End of PL2 + End of PL3 + End of PL4).

Figure D-1: Cumulative Expansion of Multilingual Learners' Linguistic Resources

- Both the K-12 Performance Definitions and the grade-level cluster Proficiency Level Descriptors highlight the notion that, as multilingual learners gain proficiency in English, their abilities to effectively use language across each of the criteria increases accordingly. As multilingual learners progress across proficiency levels, they develop an increasing range of linguistic resources to use when making meaning in context and in coordination with multimodal communication resources.
- Both target end-of-level performance in order to provide aligned interpretations of WIDA scale scores. Within each level, the progression of student language development may develop differently.
- Both include an assumption that appropriate scaffolding must be provided to the student. The choice of scaffolding and multimodal communication (e.g., visual, auditory, tactile, kinesthetic) for multilingual learners, including those with disabilities, should be based on various factors, including the communicative purpose of the situation and the student's level of language proficiency.

Differences between K-12 Performance Definitions and Grade-Level Cluster Proficiency Level Descriptors

Table D-2: Differences Between Performance Definitions and Proficiency Level Descriptors

K-12 Performance Definitions	Grade-Level Cluster Proficiency Level Descriptors
• Describe student language development for activities that target the **WIDA Model Performance Indicators** • Reflect language development across the **K-12** grade span	• Describe student language development for activities that target the **2020 WIDA Language Expectations** • Reflect language development at designated grade-level clusters that correspond to those used with WIDA ACCESS for ELLs **(K, 1, 2-3, 4-5, 6-8, 9-12)**
Offer **five proficiency levels**	Offer **five proficiency levels plus new descriptors for PL6** (Reaching). It is important to remember even when reaching the criteria described in PL6 (Reaching), the student continues onward with lifelong language development.
Define three types of vocabulary: • **General language:** Everyday words or expressions not typically associated with a specific content area (e.g., describe, book) • **Specific language:** Words or expressions used across multiple academic content areas in school (e.g., chart, total, individual) • **Technical language:** The most precise words or expressions associated with topics within academic content areas in school	Clarify definitions for three types of vocabulary: • **Everyday language:** Language for representing ideas in nontechnical ways (e.g., dogs instead of canines) • **Cross-disciplinary language:** Common academic language used across content area contexts (e.g., analyze, evaluate, summarize) • **Technical language:** Specialized, increasingly abstract language associated with a content area such as science and history (e.g., mitosis, imperialism)

Alignment of 2020 Grade-Level Cluster Proficiency Level Descriptors with Existing WIDA Performance Definitions, Scales, and Tools

The single K-12 continuum of K-12 Performance Definitions was expanded into six grade-level cluster Proficiency Level Descriptors to support consistency of proficiency level interpretations by state, local, and school-based educators and to provide additional details that address developmental differences in the complexity and range of language uses needed by primary and secondary students.

For federal peer review purposes, it is important for state education agencies to show that, in the new 2020 Edition, WIDA has not changed the fundamental nature of the scores aligned with the WIDA English Language Development Standards. Thus, a key activity during 2019-2020 development work was ensuring consistency and equivalency with the interpretations used with the 2012 Performance Definitions and 2016 Standards Setting cut scores.

Thus, some key activities in the development of the 2020 Proficiency Level Descriptors focused on ensuring consistency and equivalency with the interpretations used with the 2012 Performance Definitions and 2016 Standards Setting cut scores. These activities included the following:

- Conducted literature review to identify key performance criteria to be measured
- Created alignment mapping between 2012 and 2020 performance criteria and tools
- Checked validity and calibrated equivalent difficulty levels in descriptors with evidence from ACCESS for ELLs student samples and scoring tools
- Checked consequential validity with international, national, state, and local educator reviews and panels
- Obtained external expert feedback and recommendations
- Checked to ensure proposed levels fit with descriptions of student performances for each grade-level cluster on ACCESS for ELLs

Summary

The 2020 grade-level cluster Proficiency Level Descriptors have been carefully designed to ensure consistency and equivalency with the interpretations used with the 2012 Performance Definitions and 2016 Standards Setting cut scores. The six grade-level clusters in the Proficiency Level Descriptors provide elaborated, developmental interpretations for multilingual learners' proficiency levels in English.

Proficiency Level Descriptors for all grade-level clusters are provided beginning on the next page. These are identical to the descriptors shown in the grade-level cluster materials.

Grade K WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around topics *(my family)* with words, pictures, phrases, or chunks of language	around topics *(all about me)* with repetition, rhyming, and common language patterns	around topics *(all about me)* with repetition, rhyming, and other language patterns with short sentences	to meet a purpose *(to inform, narrate, entertain)* through multiple related sentences	to meet a purpose in a series of extended sentences	to meet a purpose in a short text
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	patterned language with repetitive words	patterned language with repetitive words and phrases *(This is a duck. The duck says quack, quack. This is a goat.)*	repetitive words and phrases across a text *(Brown bear, brown bear, what do you see?)*	some frequently used cohesive devices (demonstratives: *this, these, that, those*)	a few different types of cohesive devices *(repetition, pronoun referencing, etc.)*	multiple types of cohesive devices *(synonyms, antonyms, repetition)*
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	labels with single nouns *(ball, car)*	frequently used single noun groups *(my toys, my car, your ball?)*	frequently used multi-word noun groups *(my favorite book)*	multi-word noun groups with connectors *(a shiny truck and a red ball)*	expanded noun groups with classifiers *(the red fire truck)*	expanded noun groups with prepositional phrases *(the red fire truck in the station)*
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	words, pictures, and phrases *(Anna's chair)*	words, pictures, phrases, and chunks of language *(ran to her room)*	chunks of language *(sat in her chair, jumps on her bed)*	simple sentences *(She picked it up.)*	related simple sentences *(She picked it up. She carried it to her room.)*	multiple related simple sentences *(She picked it up. She carried it to her room. She opened it up.)*
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	a few words and phrases in familiar contexts and topics *(map, desk, hello)*	repeated words and phrases in familiar contexts and topics *(sound it out, think first)*	frequently used words and phrases in familiar contexts *(time to clean up)*	situation-specific words and phrases *(What sounds do we hear?)*	an increasing number of words and phrases *(We need four different colors to make a pattern.)*	a growing number of words and phrases in a variety of contexts *(special visitor, school assembly)*

Grade K WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	single words, phrases, or chunks of language to represent ideas	phrases or short sentences to represent ideas with an intended purpose (to describe, narrate, share opinion)	short sentences linked together to convey an intended purpose *(and, then)*	short sentences that convey an intended purpose with emerging organizational patterns	sentences linked together to convey an intended purpose (inform: *The parrot eats nuts and seeds.*)	text that conveys an intended purpose with emerging organizational patterns *(first, and then, also, next)*
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	single words and phrases related to topic *(water, leaf)*	an emerging use of cohesive devices (repetition: *water, water, the water*)	a few frequently used cohesive devices (repetition: *this leaf is red, this leaf is yellow*)	some frequently used cohesive devices (demonstratives)	some formulaic cohesive devices (pronoun referencing)	a growing number of cohesive devices (emerging use of articles to refer to the same word)
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	limited elaboration (single words)	simple elaboration (familiar single nouns)	simple types of elaboration (newly learned single nouns)	a few types of elaboration (adding a familiar adjective to describe a noun)	some types of elaboration (adding a newly learned adjective to a noun)	a growing number of types of elaboration (adding articles or demonstratives to a noun: *the or these clouds*)
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	words, pictures, and phrases *(cats and dogs)*	words, pictures, phrases and chunks of language *(cats meow and dogs bark)*	sentence fragments *(cats and dogs)*	sentence fragments and emerging use of simple sentences *(Dogs sleep, Dogs bark.)*	simple sentences *(Cats like to climb. Dogs like to run.)*	sentences with emerging use of clauses *(My cat sleeps all day. My dog runs all the time. They are my pets.)*
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	frequently reoccurring words and phrases *(Good Morning, let's play)*	emerging use of words and phrases with attempted precision *(Today is Friday, September 15.)*	few frequently used words and phrases with emerging precision *(lunch time, morning meeting)*	some frequently used words and phrases with some precision *(my pattern is red, blue, red, blue)*	a small repertoire of words and phrases with developing precision *(beautiful butterfly, repeating pattern)*	a growing repertoire of words and phrases with growing precision *(green and yellow stripes)*

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around topics *(all about pandas)* with repetition, rhyming, and common language patterns	around topics *(all about pandas)* with short sentences	around topics (habitat, diet, behavior) through multiple related simple sentences	to meet a purpose in a series of extended sentences	to meet a purpose in a short text (to inform, narrate, entertain)	to meet a purpose through generic (not genre-specific) organizational patterns in texts (beginning, middle, end)
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	patterned language with repetitive words, phrases, and sentences	repetitive chunks of meaning across a text *(Brown bear, brown bear, what do you see?)*	some frequently used cohesive devices (demonstratives: *these, those, that, this*)	a few different types of cohesive devices (repetition, pronoun referencing, etc.)	multiple types of cohesive devices (synonyms, antonyms, *(We are all alike. We are all different.)*	a variety of cohesive devices that connect larger meaningful chunks of text (class/subclass: *animals like dogs, cats, tigers*)
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	frequently used single word noun groups *(dinosaurs)*	frequently used multi-word noun groups *(big tall dinosaurs)*	multi-word noun groups with connectors *(a big **and** hungry dinosaur)*	expanded noun groups with classifiers *(the biggest meat-eating dinosaurs)*	expanded noun groups with prepositional phrases *(the meat-eating dinosaurs in the jungle)*	expanded noun groups with embedded clauses *(the biggest meat-eating dinosaurs, who lived at that time)*
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	words, pictures, phrases, and chunks of language *(turtle eggs)*	chunks of language *(turtles swimming)*	simple sentences *(Turtles swim in the ocean.)*	related simple sentences *(Turtles are reptiles. They like warm water.)*	multiple related simple sentences *(There are many types of turtles. Some live in the ocean. Other turtles live in lakes and rivers.)*	simple and compound sentences with familiar ways of combining clauses (using coordinating conjunctions: *Some turtles eat only sea grasses, but others eat shrimp, crabs, and small fish.*)
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	repeated words and phrases in familiar contexts and topics *(classroom helpers)*	frequently used words and phrases in familiar contexts and topics *(Would you like to share…?)*	situation-specific words and phrases *(Plant the seeds in this pot.)*	an increasing number of words and phrases *(Tell me about your picture on the left.)*	a growing number of words and phrases in a variety of contexts *(How many red triangles are there?)*	an expanding number of words and phrases, including idioms and collocations *(plus and minus)*

Grade 1 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	single words, phrases, or chunks of language to represent ideas	phrases or short sentences to represent ideas with an intended purpose (to describe, narrate, share opinion)	short sentences linked together to convey an intended purpose	sentences that convey an intended purpose with an emerging organizational pattern *(one day, first, last, I think, etc.)*	short texts that convey an intended purpose using basic connectors *(first, and then, next)*	text that conveys an intended purpose (retelling an experience) using generic (beginning, middle, end or sequencing) organizational patterns
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	patterned language with repetitive phrases and sentences *(The big, hungry bear…)*	few frequently used cohesive devices (repetition: *The tiger… The tiger…*)	some frequently used cohesive devices (simple pronouns: *it, they, she, he*)	some formulaic cohesive devices (pronoun referencing: *my ball, her brother, they gave it to us, etc.*)	a growing number of cohesive devices (emerging use of articles to refer to the same word, substitution/ omission: *that one, so did I*)	an expanding number of cohesive devices to connect larger bundles of meaning (class/ subclass: *wild animals like lions, bears, tigers*)
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	limited elaboration (single words)	simple elaboration (familiar single nouns)	a few types of elaboration (adding a familiar adjective to describe a noun)	some types of elaboration (adding a newly learned adjective to a noun)	a growing number of types of elaboration (adding articles or demonstratives to a noun: *those big fluffy white clouds*)	a variety of types of elaboration (adding in a variety of adjectives)
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	words, pictures, phrases, and chunks of language *(flowers and trees)*	sentence fragments *(grow taller)*	sentence fragments and emerging use of simple sentences *(had no water so died)*	simple sentences *(Plants need water. They need sun.)*	sentences with emerging use of clauses *(Plants need water but… They need sun. Those ones died.)*	simple and compound sentences (with some coordinating conjunctions: *Our plants died and those ones did too.*)
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and disciplinary language with…**					
	emerging use of words and phrases with attempted precision *(over there, line up in a row)*	few frequently used words and phrases with emerging precision *(lunch time, clean up my desk)*	some frequently used words and phrases with some precision *(have a nice day, I'm finished)*	a small repertoire of words and phrases with developing precision *(best friend, the red ball)*	a growing repertoire of words and phrases with growing precision *(preschool friends, math time, after lunch)*	an expanding repertoire of words and phrases including idioms and collocations, with expanding precision *(do homework, saving time)*

Grades 2-3 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around general topics (continents, shapes, animals) with short sentences	around specific topics (habitats, diet, behavior) with multiple related simple sentences	to meet a purpose (to inform, narrate, argue or explain) in a series of extended sentences	to meet a purpose in a short text	to meet a purpose through generic (not genre-specific) organizational patterns in texts (introduction, body, conclusion)	to meet a purpose through genre-specific organizational patterns (paragraph openers and topic sentences signaling relationships between paragraphs)
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	repetitive chunks of meaning across text *(red crayon, yellow crayon, blue crayon)*	frequently used cohesive devices (demonstratives: *this, that, these, those*)	a few different types of cohesive devices (pronoun referencing, etc.)	multiple cohesive devices (synonyms, antonyms)	a variety of cohesive devices that connect larger meaningful chunks of text (class/subclass: shapes like circles, triangles, and rectangles)	a wide variety of cohesive devices that connect ideas throughout text (whole/part, class/subclass, substitution: *The **rectangle** is a big **one**.*) and ellipsis *(There isn't any. [milk])*
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	frequently used multi-word noun groups *(green frogs)*	multi-word noun groups with connectors *(green **and** slimy frogs)*	expanded noun groups with classifiers *(tree frogs and poison frogs)*	expanded noun groups with prepositional phrases *(three little green tree frogs on the log)*	expanded noun groups with embedded clauses *(three little green tree frogs that jumped into the water)*	expanded noun groups with a variety of embedded clauses *(three little green tree frogs with long legs that swam away and didn't come back)*
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	chunks of language *(stick to rocks and coral)*	simple sentences *(They stick to rocks and coral.)*	related simple sentences *(They look like plants. They stick to rocks and coral.)*	multiple related simple sentences *(They are called anemones. They look like plants. They stick to rocks and coral.)*	simple and compound sentences with familiar ways of combining clauses (using coordinating conjunctions: *They are called anemones* **and** *they look like plants.*)	compound sentences with frequently used ways of combining clauses (coordinating conjunctions: *Anemones look like plants* **but** *they are sea animals.*)
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	frequently used words and phrases in familiar contexts and topics *(time to clean up)*	situation-specific words and phrases *(How do we spell that word?)*	an increasing number of words and phrases (my favorite characters in this story)	a growing number of words and phrases in a variety of contexts (nonfiction books)	an expanding number of words and phrases, including idioms and collocations (plus and minus)	a variety of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns (in the book about dolphins…)

Grades 2-3 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Create coherent texts (spoken, written, multimodal) using…**					
	single words and phrases to represent ideas with an intended purpose (to inform, narrate, share opinion)	short sentences linked by topic to convey intended purpose	sentences convey intended purpose with emerging organization (topic sentence, supporting details)	short text that conveys intended purpose using predictable organizational patterns (signaled with some paragraph openers: *Last week, When I was five, I think, etc.*)	expanding text that conveys intended purpose using generic (not genre-specific) organizational patterns across paragraphs (introduction, body, conclusion)	text that conveys intended purpose using genre-specific organizational patterns (opinion and reasons; information and details)
DISCOURSE Cohesion of language	**Connect ideas across a whole text through…**					
	few frequently used cohesive devices (repetition)	some frequently used cohesive devices (demonstratives)	some formulaic cohesive devices (pronoun referencing)	a growing number of cohesive devices (emerging use of articles to refer to the same word)	an expanding number of cohesive devices (given/new, whole/part, class/subclass)	a flexible number of cohesive devices (ellipsis, substitution/omission)
DISCOURSE Density of language	**Elaborate or condense ideas through…**					
	Simple elaboration (single nouns)	a few types of elaboration (adding a familiar adjective to describe a noun)	some types of elaboration (adding a newly learned adjective to a noun)	a growing number of types of elaboration (adding articles or demonstratives to a noun: *the* or *these clouds*)	a variety of types of elaboration (adding in a variety of adjectives)	a wide variety of types of elaboration (adding in embedded clauses after the noun *(those storm clouds that we saw yesterday)*
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	sentence fragments *(triangles and rectangles)*	sentence fragments and emerging use of simple sentences *(triangle has three sides)*	simple sentences *(A square has 4 right angles.)*	sentences with emerging use of clauses *(We put triangles, then rectangles)*	simple or compound sentences with familiar ways of combining clauses (with some coordinating conjunctions: *We put blue triangles, then we put red triangles.*)	compound and complex sentences with frequently used ways of combining clauses (with a broad range of coordinating conjunctions: *We put blue triangles, then red triangles, but there was no pattern.*)
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	few frequently used words and phrases with emerging precision *(Time to eat?)*	some frequently used words and phrases with some precision *(three groups of four equals…)*	a small repertoire of words and phrases with developing precision *(best friend, the red ball)*	a growing repertoire of words and phrases with growing precision *(preschool friends, math time, after lunch)*	an expanding repertoire of words and phrases including idioms and collocations with expanding precision *(hard as a rock)*	flexible repertoire of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns with consistent precision *(rounding off and finding the mean)*

Grades 4-5 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	around specific topics *(clean water)* with multiple related simple sentences	to meet a purpose (to inform, argue, explain or narrate) in a series of topic-related extended sentences	to meet a purpose in a short, connected text	to meet a purpose through generic (not genre-specific) organizational patterns in a text (introduction, body, conclusion)	to meet a purpose through genre-specific organizational patterns (paragraph openers and topic sentences signaling relationships between paragraphs)	to meet a purpose through genre-specific organizational patterns (claim, evidence, reasoning) linking ideas, events, and reasons across a text
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	frequently used cohesive devices (repetition, demonstratives)	a few different types of cohesive devices (pronoun referencing, etc.)	multiple cohesive devices (synonyms, antonyms)	a variety of cohesive devices that connect larger meaningful chunks of text (including class/ subclass, whole/part)	a wide variety of cohesive devices that connect ideas throughout text including substitution and ellipsis	cohesive devices and common strategies that connect ideas throughout text (given/new)
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	multi-word noun groups with connectors *(mean and nasty bullies)*	expanded noun groups with classifiers *(mean and nasty fourth grade bullies)*	expanded noun groups with prepositional phrases *(my favorite character in this book)*	expanded noun groups with embedded clauses *(my favorite character who stood up to the bullies)*	expanded noun groups with a variety of embedded clauses *(my favorite character who stood up to the bullies and hardship)*	expanded noun groups with a wide variety embedded clauses and compacted noun groups (nominalization: *she stood up to bullies = her courage*)

Grades 4-5 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
SENTENCE Grammatical complexity	**Extend or enhance meanings through…**					
	sentence fragments and emerging use of simple sentences *(the blue one, the red one)*	simple sentences *(The red side pushed away. The blue side stayed.)*	sentences with emerging use of clauses *(The red side blocked the paperclip. The blue side picked it up. They are opposites.)*	simple or compound sentences with familiar ways of combining clauses (with coordinating conjunctions: *The red side repelled the paperclip, but also it…*)	compound and complex sentences with frequently used ways of combining clauses (with coordinating conjunctions: *Neither the red one nor the blue one…*)	compound and complex sentences characteristic of the genre and content area, with a variety of ways of combining clauses (with a range of techniques to extend, or shorten sentences: *The magnetic force caused the paperclip to lift off the table because the paperclip is metal.*)
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	some frequently used words and phrases with some precision *(social studies, government)*	a small repertoire of words and phrases with developing precision *(branches of government, executive power)*	a growing repertoire of words and phrases with growing precision *(the founders, "two if by land…")*	an expanding repertoire of words and phrases, including idioms and collocations with expanding precision *(the lights are on but nobody's home…)*	a flexible repertoire of words and phrases, such as adverbials of time, manner, and place; verb types; and abstract nouns; with consistent precision *(as a result of the war, forming a new nation)*	a variety of words and phrases, including evaluation, obligation, idioms, and collocations *(necessary sacrifices, outdated law, fit for a king)*

Grades 6-8 WIDA Proficiency Level Descriptors for the Interpretive Communication Mode (Listening, Reading, and Viewing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
DISCOURSE Organization of language	**Understand how coherent texts (spoken, written, multimodal) are created…**					
	to meet a purpose (to inform, narrate, entertain, argue, explain) in a series of topic-related sentences	to meet a purpose in a short, connected text	to meet a purpose through generic (not genre-specific) organizational patterns in texts (introduction, body, conclusion)	to meet a purpose through genre-specific organizational patterns (orientation and explanation sequence)	to meet a purpose through genre-specific organizational patterns (claim, evidence, reasoning) linking ideas, events, and reasons	to meet a purpose reflective of genre and discipline, linking ideas, events, and reasons in a variety of ways (causes and effects, factors and outcomes, events and consequences)
DISCOURSE Cohesion of language	**Understand how ideas are connected across a whole text through…**					
	a few different types of cohesive devices (repetition, pronoun referencing, demonstratives, etc.)	multiple cohesive devices (synonyms, antonyms)	a variety of cohesive devices that connect larger meaningful chunks of text (class/subclass, whole/part)	a wide variety of cohesive devices that connect ideas throughout text (whole/part, substitution, ellipsis)	cohesive devices and common strategies that connect ideas throughout text (given/new)	various types of cohesive devices and strategies that connect ideas throughout text
DISCOURSE Density of language	**Understand how ideas are elaborated or condensed through…**					
	expanded noun groups with classifiers *(crescent moon)*	expanded noun groups with prepositional phrases *(waxing crescent moon in the second half of the month)*	expanded noun groups with embedded clauses *(waxing crescent moon that was growing each day)*	expanded noun groups with a variety of embedded clauses *(predictable and observable moon phases in your particular time zone)*	expanded noun groups with a wide variety of embedded clauses and compacted noun groups (nominalization)	multiple ways of elaborating and condensing text to enrich the meaning and add details characteristic of genres and content areas *(the relative positions of the sun, earth, and moon cause these changes)*

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6
SENTENCE Grammatical complexity	**Understand how meanings are extended or enhanced through…**					
	related simple sentences *(African savannas are full of wildlife.)*	multiple related simple sentences *(African savannas are full of life. Explore Tanzania.)*	simple or compound sentences with familiar ways of combining clauses through (using coordinating conjunctions: *African savannas are unique **and** they have amazing wildlife.*)	compound sentences with frequently used ways of combining clauses *(A variety of wildlife live in the savanna **such as…**)*	compound and complex sentences with a variety of ways of combining clauses addressing genre, audience, and content area *(**Since** it's an ecosystem, it has a variety of…)*	a wide variety of sentence types that show a variety of increasingly complex relationships (condition, concession, contrast) addressing genre, audience, and content area *(The Black Rhino is at risk of extinction, **unless…**)*
WORD, PHRASE Precision of language	**Understand how precise meanings are created through everyday, cross-disciplinary, and technical language through…**					
	an increasing number of words and phrases *(don't be late for class)*	a growing number of words and phrases in a variety of contexts *(inside the membrane)*	an expanding number of words and phrases including idioms and collocations *(gravity is bringing me down)*	a variety of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns *(at the speed of light)*	a wide variety of words, phrases, and expressions with multiple meanings across content areas	strategic use of various words, phrases, and expressions with shades of meaning across content areas *(trembling in the corner, pounding rain, the whisper of dragonfly wings)*

Grades 6-8 WIDA Proficiency Level Descriptors for the Expressive Communication Mode (Speaking, Writing, and Representing)

Toward the end of each proficiency level, when scaffolded appropriately, multilingual learners will…

Criteria	End of Level 1	End of Level 2	End of Level 3	End of Level 4	End of Level 5	Level 6

	simple sentences with emerging use of clauses *(Bolivia is in South America. It's a home to…)*	simple or compound sentences with familiar ways of combining clauses with some coordinating conjunctions *(Bolivia is in South America and it's a home to…)*	compound sentences with frequently used ways of combining clauses that use a broad range of techniques to connect ideas *(Democracy was established in the 1980s, **yet**, leaders…)*	compound and complex sentences with a variety of ways of combining clauses in characteristic of the genre and content area (with a range of techniques to extend, or shorten sentences: ***Although** the northern part of…)*	a wide variety of sentence types that show complex clause relationships (condition, cause, concession, contrast) through addressing genre, audience, and content area *(**Despite** the country's suffering…)*	strategic use of multiple techniques and strategies for creating increasingly complex clause relationships that address genre, audience, and content area *(**Even though** Spanish is the official language, several indigenous languages are spoken.)*
WORD, PHRASE Precision of language	**Create precise meanings through everyday, cross-disciplinary, and technical language with…**					
	a growing repertoire of words and phrases with growing precision *(mitosis, symbiotic relationships)*	an expanding repertoire of words and phrases such as idioms and collocations with expanding precision *(miss the boat)*	a flexible repertoire of words and phrases such as adverbials of time, manner, and place; verb types; and abstract nouns with consistent precision *(by exploring cultures, later that day)*	a variety of words and phrases, including evaluation and obligation, with precision *(we shall overcome)*	a wide variety of words and phrases with precision *(the dictator ruled with terror)* according to the genre, purpose, and discipline	flexible and strategic use of various words and phrases *(marveled at the Eiffel Tower)* according to the genre, purpose, and discipline

Appendix E: High-Level Comparison of WIDA Standards Editions From 2004 to 2020

Figure E-1: Editions of the WIDA Language Standards

2004 2007 2012 2020

Since its inception in 2003, WIDA's Can Do Philosophy has been its mantra and has underscored the four editions of English language development standards—released in 2004, 2007, 2012, and 2020. The editions of the standards have evolved over time to remain current with research, theory, policy, practice, and the demands of academic content standards. Even as editions continue to evolve, throughout the years WIDA has remained steadfast in its commitment to equitable educational opportunities for multilingual learners as exemplified in its standards' documents and resources, and it stands behind the original five standards statements that have anchored all its editions.

Certain universal themes (although represented in slightly different ways) are threaded throughout the four editions of the standards:

- First, WIDA has always envisioned language through a content lens (as is evident in its standards statements) and the importance of intertwining the two constructs as a means of contextualizing learning.
- Second, WIDA has maintained a functional approach to language development (as is evident in its Language Functions), where a purpose has always been attached to meaningful communication.
- Historically, the standards statements have been couched in a larger framework that has included K-12 Performance Definitions that, in 2020, have been converted to grade-level cluster Proficiency Level Descriptors.
- Lastly, WIDA has always complied with federal requirements of the Elementary and Secondary Education Act, for years representing language as four independent language domains—listening, speaking, reading, and writing—and most recently combining and extending the language domains to represent interpretive and expressive modes of communication.

See the next page to compare changes in thinking across the editions of the WIDA language development standards.

Table E-1: Comparison of Editions of the WIDA Language Standards

WIDA Consortium English Language Proficiency Standards, 2004 Edition	*The WIDA English Language Proficiency Standards, 2007 Edition*	*The 2012 Amplification of the WIDA English Language Development Standards*	***WIDA ELD Standards Framework, 2020 Edition***

Appendix F: Theoretical Foundations of the WIDA ELD Standards Framework, 2020 Edition

In the years since the 2012 Amplification of the WIDA English Language Development (ELD) Standards, the U.S. educational terrain has changed substantively. A decade has passed since the adoption of new state academic content standards, providing educators with time to build familiarity with the performance expectations, disciplinary shifts, and 21st century skills described within these standards. Policy has shifted as well, as states strive to meet requirements under the latest iteration of the Elementary and Secondary School Act, the *Every Student Succeeds Act* (ESSA) of 2015.

Even as general educators' familiarity with academic content standards increases, many still express a strong need for explicit, practical guidance on how to best support multilingual learners' access to grade-level academic content standards. Yet, without increased access to such guidance and related supports, there remains a risk that multilingual learners' opportunities to develop language and literacy resources for a range of purposes, audiences, and disciplinary situations may be limited rather than fostered (Understanding Language Initiative, 2012; Walqui & Bunch, 2020). WIDA seeks to broaden the reach of its guidance by creating ELD standards that are accessible, not only to language specialists, but also to content specialists.

To provide clear guidance to diverse stakeholders in a changing educational landscape, WIDA has used the 2020 Edition as an opportunity to clarify and renew the theoretical foundations of the WIDA ELD Standards Framework. The 2020 Edition leverages a functional theoretical approach to language development, more specifically to a variant of genre theory popularized for use in K-12 schools (e.g., Brisk, 2014; Derewianka & Jones, 2016; Gibbons, 2015; Humphrey et al., 2012; Schleppegrell, 2004). In particular, by electing to organize the 2020 Edition around the high-leverage genre families most prominent in content area standards (de Oliveira et al., 2019), WIDA is prompting K-12 educators to attend to language development in a clear and systematic way during content learning, as well as to prioritize language as a meaning-making resource, as opposed to a static inventory of rules and structures. The 2020 Edition provides educators with resources to explicitly teach language in a way that enhances learning in disciplinary contexts.

The following two sections of this document provide the following:

I. An overview of theoretical framing that permeates the Big Ideas in the 2020 Edition of the WIDA ELD Standards Framework

II. Theories and research that informed the development of each of the four components in the WIDA ELD Standards Framework

I. Big Ideas that Permeate the 2020 Edition of the WIDA ELD Standards Framework

The theoretical underpinnings of WIDA English Language Development Standards Framework, 2020 Edition, remain connected to four Big Ideas that have propelled WIDA forward since its inaugural edition of the ELD Standards in 2004.

Figure F-1: Four Big Ideas in WIDA ELD Standards Framework, 2020 Edition

The four Big Ideas anchor the standards framework and are interwoven throughout the document.

Equitable Opportunity and Access

Explicit language instruction has a stronger positive impact on enhancing equitable access and the academic performance of multilingual learners than simply focusing on making content comprehensible.

For more than a decade, concerns about student achievement have focused attention on the need to improve student opportunity to learn (American Educational Research Association [AERA], American Psychological Association [APA], & National Council on Measurement in Education [NCME], 2014). Researchers have worked to expand general education opportunity-to-learn models to include linguistic and cultural dimensions impacting multilingual learners. A well-received series of studies (summarized in Aguirre-Muñoz & Ambiasca, 2010) challenged the conventional wisdom that language education should focus on making content comprehensible (e.g., Krashen & Terrell, 1983) by finding that explicit instruction of language has a stronger, positive impact on multilingual learner academic performance and improving equitable access to grade-level curriculum, instruction, and assessment.

Another significant shift promoted in the 2020 Edition is an acknowledgement of the importance of *effective* language use by students across a variety of contexts, rather than a more conventional definition of language proficiency that focuses on student accuracy to match an idealized, yet static form of English (Pennycook, 2010). While correctness and accuracy are not irrelevant, sole focus on these in the classroom can ultimately exclude students from being effective language users. A focus on *effective* language use ensures that variability of language production is accepted and built upon.

An expanded view of language development in academic settings is designed to foster classroom engagement of multilingual learners by supporting the use of initially "imperfect" English, for example, as they participate in knowledge co-construction during classroom discussions (Canagarajah, 1999; MacDonald et al., 2014). It is an important step in overcoming the tendency to perceive multilingual learners as if they were failed native speakers (Kibler & Valdés, 2016) or to view multilingual learners' cultural differences as deficits, devaluing the "funds of knowledge" found in individual, home, and community strengths and resources (González et al., 2005). A commitment to an asset-based approach is essential for multilingual learners to flourish in school and beyond (Grant, 2012).

Multilingual learners bring linguistic, cultural, experiential, and social and emotional funds of knowledge (González et al., 2005) which they can access and enact, especially when taught through culturally sustaining pedagogy (Paris, 2012). In the language development literature, what is known as "taking the multilingual turn" encourages educators to view multilinguals not just as *learners of language* in comparison to a monolingual benchmark, but to value multilinguals as language users (Cook, 2003) "who have the ability to select, adapt, negotiate, and use a range of linguistic resources that are appropriate in the context" (Mahboob & Dutcher, 2014, p. 117). Language development and content learning are enhanced when multilingual learners use their full linguistic repertoires, including translanguaging practices (García et al., 2017; Hornberger & Link, 2012; Wei, 2018). The belief in multiple, multilingual competencies and an expanded view of language proficiency are reflected in the choice to update the name of the Key Uses of Academic Language (WIDA, 2016) to *Key Language Uses* in the 2020 Edition.

Accordingly, a foundational assumption within the WIDA ELD Standards Framework is the conceptualization of student academic performance not as purely an individual cognitive event, but as integrated within multiple sociocultural contexts and systems that include social activity, local institutions and communities, and broader ideologies (Douglas Fir Group, 2016). With this in mind, the 2020 Edition seeks to help educators create the conditions that support development of language and literacy while guarding against the inherently limiting view that lack of success in schooling is a problem that originates primarily from within the child (Escamilla, 2015).

A commitment to an asset-based approach is essential for multilingual learners to flourish in school and beyond.

The Big Idea of Equity moves beyond classroom walls to underscore some of the ways in which language is inextricably connected with identity, culture, and race. Multilingual learners use and develop language in school to successfully meet academic content standards, but also to interpret and present different perspectives, build awareness of relationships, and affirm their identities (Cummins, 2001; Esteban-Guitart & Moll, 2014; May, 2014; Nieto, 2010). The Big Idea of Equity encourages educators to leverage multilingual learners' assets, challenge biases in education (e.g., in terms of language, culture, and race), and develop student independence and agency (Little et al., 2017; Moll et al., 1992; Nieto & Bode, 2018; Perley, 2011).

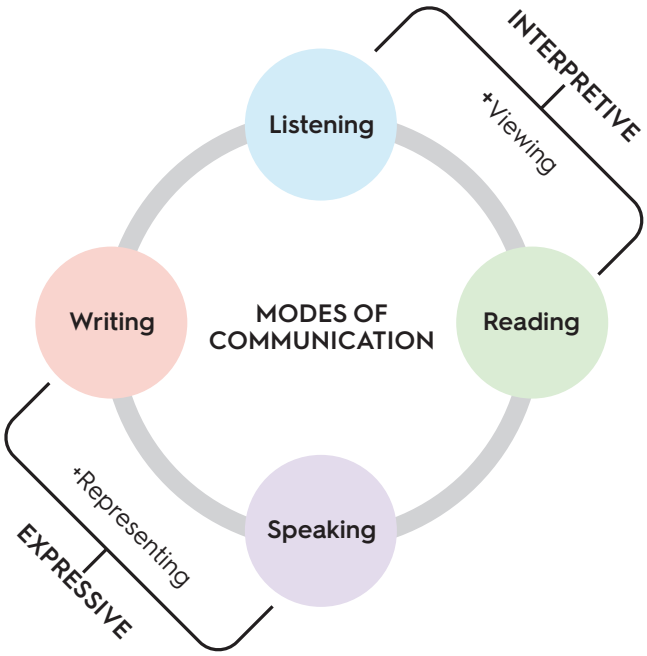
Integration of Content and Language

The convergence of language development and content learning has been supported in the literature on language education since the 1980s (see Mohan, 1986; Bailey & Butler, 2003; Gottlieb, 2003, among others), yet their integration did not appear in any set of U.S. English language proficiency standards until WIDA's inaugural edition in 2004. As recounted in Gottlieb (2016), WIDA's positioning of its standards has been situated in a long-term evolution of constructs influencing their design: In the 1980s, language teaching began to co-exist with content-based instruction; by the 2000s academic language use became infused in content areas; and today, there is a movement toward unity of language and content. As a result, the language-to-content relationship in ELD standards has grown more coherent and intertwined over the years.

The tighter integration of language and academic content has challenged the traditional separation of language from other semiotic resources (Kress & van Leeuwen, 2001). In positioning the 2020 Edition to spotlight the variety of ways in which disciplinary language is used in content area learning, WIDA is drawing educators' attention to multimodality, the use of multiple means of communication. Multimodality is inherent to and essential for how students make meaning and engage in disciplinary practices. In addition to the use of spoken and written language, students also communicate through gestures, facial expressions, images, equations, maps, symbols, diagrams, charts, videos, graphs, computer-mediated, and other means (Kress, 2009; Unsworth & Macken-Horarik 2015).

> By underscoring the multimodal nature of both language development and content area learning, the 2020 Edition seeks to increase educators' awareness of the multifaceted ways in which multilingual learners communicate and construct meaning.

The 2020 Edition integrates language and multimodal communication, defining text as spoken, written, and multimodal (Choi & Yi, 2016; Jewitt, 2008; van Lier, 2004; Zwiers & Crawford, 2011). Honoring students' use of multimodalities is vitally important for providing them access to their full funds of knowledge and complete range of meaning-making abilities, as use of multimodalities increases the flexibility with which students can interpret and create meaning.



This spotlight on the multimodal nature of both language development and content area learning, and on the multifaceted ways in which multilingual learners communicate and construct meaning creates a natural connection to the principles of Universal Design for Learning, namely multiple means of engagement, representation, and action and expression (CAST, 2015; Meyer & Rose, 2005).

In the 2020 ELD Standards Framework, the Language Expectations and the Proficiency Level Descriptors are organized according to communication modes. A communication mode is defined as "a socially and culturally shaped resource for making meaning" (Bezemer & Kress, 2008, p. 171). Examples of modes include, but are not limited to, images, videos, symbols, charts, tables, graphs, and oral/written language.

In the 2020 Edition, the four traditional domains of listening, reading, speaking, and writing have been consolidated into two more inclusive modes of communication: interpretive and expressive. The updated terms emphasize increased accessibility options for students and emphasize multimodal forms of communication, namely viewing in conjunction with listening and reading, as well as *representing* in

conjunction with speaking and writing (Cope & Kalantzis, 2015; New London Group, 1996). Expanded accessibility options also support the alternative forms of communication used by those multilingual learners with identified disabilities (Shafer Willner & Mokhtari, 2018).

Figure F-2: Communication Modes Used in WIDA 2020 Edition

Collaboration among Stakeholders

Multilingual learners are educated in a variety of settings, each with its own unique populations, communities, resources, and approaches. Regardless of the type of educational setting and programming, a collaborative effort among state, district, school, and classroom levels is to critical to providing multilingual learners with coherent, equitable, and high-quality learning experiences.

Language development occurs in tandem with content area learning and plays an important role in academic achievement (Boals et al., 2015; Bailey, 2013). It is crucial for the academic success of multilingual learners that both language specialists and content area teachers see themselves as having a responsibility to foster the language development of multilingual learners, and for educational systems to move away from the idea that language specialists alone should assume sole responsibility for students' language development (Valdés et al., 2014).

Teacher collaboration has been linked to improved learning outcomes and engagement, particularly for multilingual students.

Teacher collaboration has been linked to improved learning outcomes and engagement, particularly for multilingual students (Greenberg Motamedi et al., 2019). Collaborative work within trusting environments offers a foundation for inquiry and reflection into educators' own practices, thus providing a base that supports educators in taking risks and addressing challenges in their own practice (Darling-Hammond et al., 2017). As content and language teachers work together to plan and deliver standards-based instruction, they support one another, share unique fields of expertise, and take collective responsibility for the success of multilingual learners (Honigsfeld & Dove, 2011).

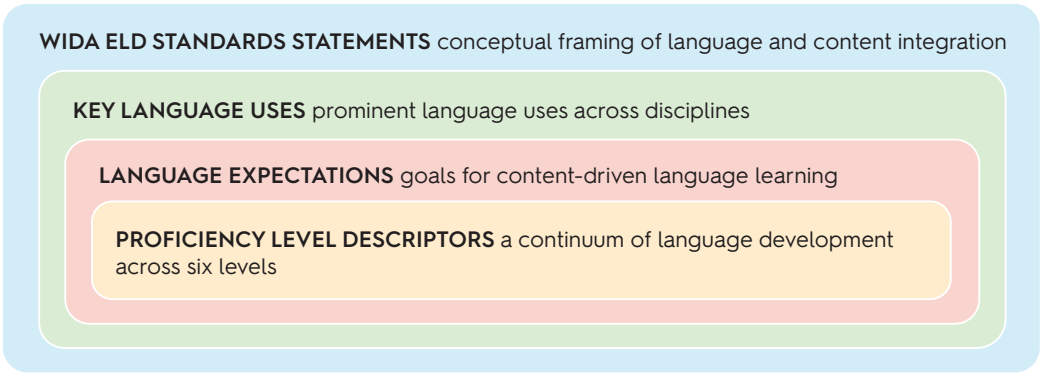
A Functional Approach to Language Development

The 2020 Edition renews and deepens WIDA's dedication to functional approaches to language development, informed by systemic functional linguistics (SFL) (e.g., Halliday & Matthiessen, 2004). In this theoretical tradition, language is defined as a resource for making meaning rather than as a set of rules for ordering isolated grammatical structures. Language offers a dynamic set of tools that can be used in the service of learning disciplinary concepts and practices (Schleppegrell, 2013). This theoretical perspective assumes that we use language for particular purposes, with particular audiences, and in particular sociocultural contexts. As such, the functional approach portrays language as a system of choices—influenced by the context of culture and situation (Halliday & Matthiessen, 2004).

> Language development occurs as learners expand their meaning-making repertoires to develop control over increasing ranges of the registers and genres required both for school and for the learner's own purposes.

Particularly relevant to language development and disciplinary learning is the SFL approach to genre, or genre theory, which affords explicit and systematic explanation of the ways people use language *for social purposes* (Martin & Rose, 2007; Hyland, 2007). In other words, a genre can refer to a culturally situated, goal-oriented activity that uses recurrent patterns of language—such as ordering coffee, reading an editorial opinion in a newspaper, or instructing someone how to do or make something such as your favorite dish. Individual genres can be organized into broader genre families that use similar, broad patterns—such as narrating, informing, explaining, arguing and other groupings (Rose & Martin, 2012). As Mohan (1989) explains, "A genre is defined by its stages or schematic structures; it is defined on sequential patterns of discourse" (p. 102). What's most important is that genres are constantly evolving and shaped by the cultural practices of various communities, in and outside of school. Genres, therefore, are "not straightjackets, rather, they are flexible tools a writer uses to make meaning" (Martin & Rothery, 1981, p. 47).

When taking a functional approach, language development becomes more than a linear process of increasingly accurate structures, but an expansion of what multilingual learners can do with language in a diversity of contexts that expand through the years of schooling (Christie & Derewianka, 2008). In other words, language development occurs as learners expand their meaning-making repertoires in order to develop control over increasing ranges of the registers and genres required both for school and for the learner's own purposes (Hammond & Gibbons, 2005).



Building on the theoretical framing of the Big Ideas, the next section of this appendix details additional theoretical bases and applications for the design of the WIDA ELD Standards Framework, 2020 Edition.

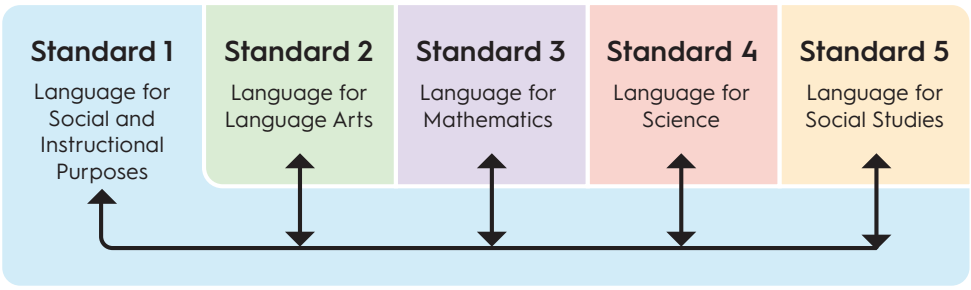
II. Theoretical Underpinnings of the Four Components in the WIDA ELD Standards Framework, 2020 Edition

The Big Ideas discussed in the previous section are infused across the four components of the WIDA ELD Standards Framework:

- ELD Standards Statements
- Key Language Uses
- Language Expectations
- Proficiency Level Descriptors

Figure F-3: The WIDA ELD Standards Framework, 2020 Edition

ELD Standards Statements



As noted previously, since 2004, the five original WIDA ELD Standard statements have emphasized the importance of providing multilingual learners with opportunities to understand how language works in the context of content area instruction (Bailey & Butler, 2003; Fang & Schleppegrell, 2008: Gottlieb, 2003; Mohan, 1986; Mohan et al., 2001; Scarcella, 2003; Schleppegrell, 2004). In the 2020 Edition, the abbreviations of the five standard statements have been shortened to emphasize the message that language is used for learning (Schleppegrell, 2013) and as a tool for deepening student engagement in disciplinary learning (Valdés et al., 2014).

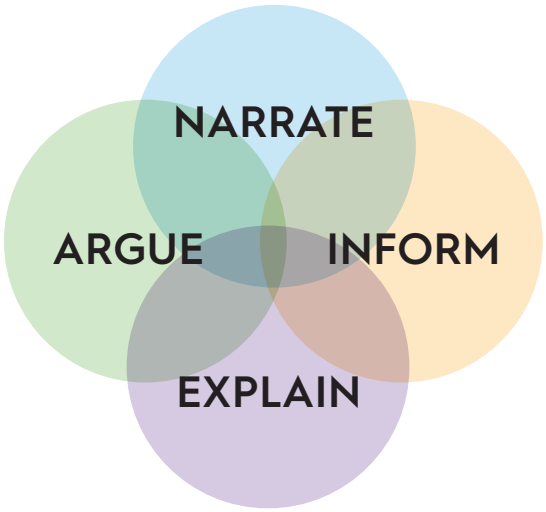
Table F-1: Updated Abbreviations for the WIDA ELD Standards, 2020 Edition

WIDA English Language Development Standards Statements	Abbreviations
Standard 1: English language learners communicate for **Social and Instructional** purposes within the school setting	**ELD Standard 1:** Language **for** Social and Instructional Purposes (ELD-SI)
Standard 2: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Language Arts**	**ELD Standard 2:** Language **for** Language Arts (ELD-LA)
Standard 3: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Mathematics**	**ELD Standard 3:** Language **for** Mathematics (ELD-MA)
Standard 4: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Science**	**ELD Standard 4:** Language **for** Science (ELD-SC)
Standard 5: English language learners communicate information, ideas, and concepts necessary for academic success in the content area of **Social Studies**	**ELD Standard 5:** Language **for** Social Studies (ELD-SS)

In the 2020 Edition, ELD Standard 1 (Language for Social and Instructional Purposes) has been purposefully repositioned to emphasize the message that it applies across a range of educational settings and is embedded throughout the four other ELD standards (Language for Language Arts, Mathematics, Science, and Social Studies). This repositioning moves beyond the binary view of social language as a precursor to academic language – introduced forty years ago using the configuration of Basic Interpersonal Communication Skills (BICS) and Cognitive Academic Language Proficiency (CALP) (Cummins, 1981); since then, Cummins' work has moved beyond the BICS/CALP dichotomy (e.g., Cummins et al., 2015). In the 2020 edition, students' everyday language is viewed as a legitimate component of academic language development (May, 2014) and part of the system of choices students make in order to most effectively meet activity purpose and other contextual variables (e.g., Derewianka & Jones, 2016; Halliday & Matthiessen, 2004)

Figure F-4: Relationship among the WIDA ELD Standards

The emphases in Standard 1 have heightened attention to the notion that language, social-emotional, and cognitive development are interrelated processes that contribute to students' success in school and beyond (Aldana & Mayer, 2014; Barac & Bialystok, 2012; Gándara, 2015; Sánchez-López & Young, 2018). As students make their thinking visible (Ritchhart & Church, 2020), they communicate to learn, to convey personal needs and wants, to affirm their own identities, and to form and maintain relationships.



The five WIDA ELD standards are shaped by the following definitions:

- **Language:** a dynamic system used by particular communities for communicating with others. The choices we make with language enable us to accomplish many purposes, such as representing experiences, sharing ideas, enacting roles and relationships, and acting upon the world (e.g., Derewianka & Jones, 2016; Halliday & Matthiessen, 2004).
- **Language development:** an interactive social process that occurs over time to expand what we can do with language (e.g., Christie & Derewianka, 2008; Hammond & Gibbons, 2005).
- **Sociocultural context:** the association of language with the culture and community in which it is used. In schools, it refers to the interaction among students and the classroom environment, along with the influences that dynamically shape the environment, including purpose, topic, situation, participant's identities and social roles, and audience (e.g., Atkinson, 2011; Douglas Fir Group, 2016; Martin & Rose, 2007; Mohan, 1989). Other interrelated factors include social, emotional, motivational, cognitive, developmental, biological, and temporal contexts in which learning occurs (National Academies of Sciences, Engineering, and Medicine, 2018).
- **Learning:** The activation of developmental processes through interaction, collaboration, and negotiation with knowledgeable others and peers as part of activities embedded in contexts (Lantolf & Pavlenko, 1995; Leont'ev, 1978; Vygotsky, 1978).

In order to provide equitable access and opportunity for all students to learn and participate fully in standards-based, grade-level mainstream curriculum, educators should scaffold learning for multilingual learners across all levels of language proficiency (Hammond & Gibbons, 2005). Legally, all multilingual learners are entitled access to curriculum, instruction, and assessment (U.S. Department of Justice & U.S. Department of Education, 2015). An inherent part of sociocultural learning theories, scaffolding refers to an interactionally driven, contingent, and collaborative process of supporting student development of new skills, concepts, practices, and understandings to build student autonomy by providing the kind of support that will trigger student agency (Hammond & Gibbons, 2005; Vygotsky, 1978).

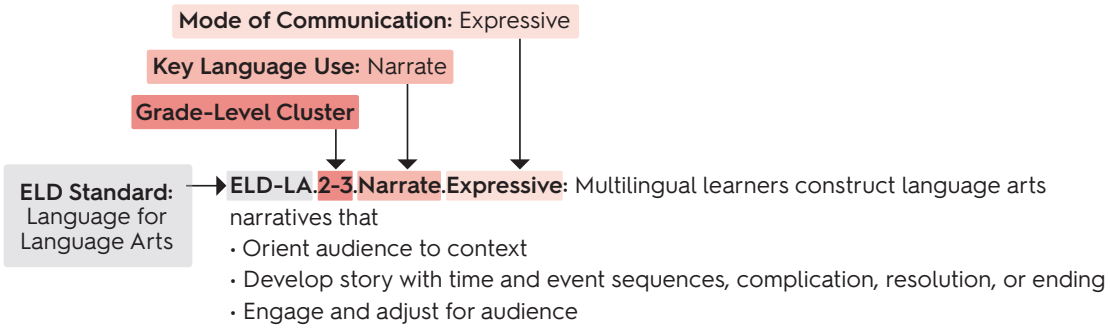
Key Language Uses

Figure F-5: Key Language Uses

In the 2020 Edition, WIDA organizes the ELD Standards Framework through Key Language Uses—Narrate, Inform, Explain, Argue—prominent genre families selected through a systematic analysis of academic content standards, disciplinary practices, and the literature. This re-orientation of the Key Language Uses aligns with de Oliveira's multi-year analyses of genre expectations found in state content standards for English language arts, mathematics, social studies, and science (reported in de Oliveira et al., 2019).

De Oliveira's analysis describes the development of key genres including narrating, informing, explaining, and arguing, using theoretical alignment with the Sydney School architecture found in Systemic Functional Linguistics and, more specifically, genre theory (Derewianka & Jones, 2016; Halliday & Matthiessen, 2004; Martin, 1985; Rothery, 1989). The American renditions of the Sydney School architecture were introduced in the United States by Schleppegrell (2001, 2004, 2007 2013) and have been further developed by a growing range of researchers (e.g., Brisk, 2014; Gebhard, 2019).

The integration of genre theory into the Key Language Uses organizes them into genre families and more clearly foregrounds *purpose for language* use as a key variable among contextual factors that influence language choices and bring to the forefront students' authentic needs to accomplish various social and instructional purposes (Standard 1) and academic purposes (Standards 2-5).



The integration of genre theory into the Key Language Uses organizes them into genre families and more clearly foregrounds *purpose for language* use as a key variable among contextual factors that influence language choices and bring to the forefront students' authentic needs to accomplish various social and instructional purposes (Standard 1) and academic purposes (Standards 2-5).

WIDA recognizes that Key Language Uses are one of many different configurations for connecting content to language through standards. The emphasis placed on these four Key Language Uses is not intended to restrict curriculum and instruction; rather it accentuates the most prominent genre families that emerged out of WIDA's analysis as an organizing principle for the ELD Standards 2020 Edition.

Language Expectations

Developed from a systematic analysis of academic content standards, Language Expectations define specific contexts for language development and illustrate how language and content work together at each grade-level cluster. As illustrated in Figure F-6, each Language Expectation has a reference code that includes the WIDA ELD standard statement (incorporating an academic content area), grade-level cluster, Key Language Use, and communication mode.

Figure F-6: Elements within WIDA Language Expectations

The Language Expectations make visible the genres that are valued by particular communities, such as identifying differences in what counts as evidence in social studies (i.e., primary versus secondary sources) versus science (i.e., data). (See, for example, Fang & Schleppegrell, 2008; Gebhard, 2019; de Oliveira et al, 2019). In doing so, the design of Language Expectations responds to calls to address the interplay between content and language, showing how the most prominent Key Language Uses are realized within disciplinary contexts (e.g., Gebhard, 2019; Lee, 2018).

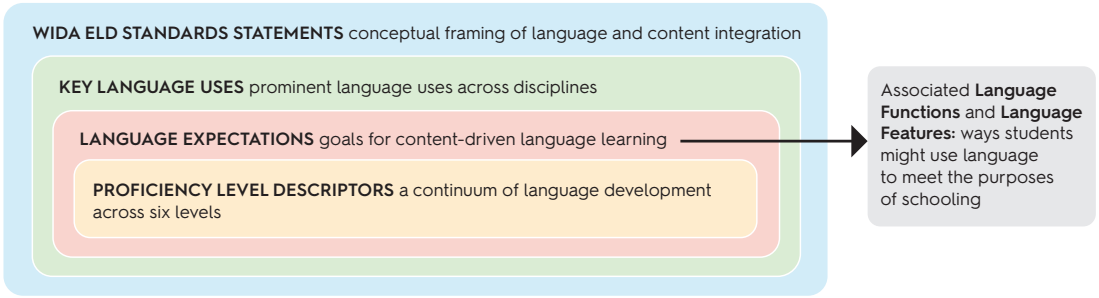
The Language Expectations also support equitable access for multilingual learners by making visible common patterns of language use in academic contexts that can be learned through explicit instruction (Aguirre-Muñoz & Amabisca, 2010; Rothery, 1989; Rose & Martin, 2012). Thus, concomitant with the 2020 Edition's emphasis on high expectations, engaged learning, and improved opportunity to learn for all multilingual learners, Language Expectations provide goals (for example, in curricular units of learning) for multilingual learners at all levels of language proficiency.

> Language Expectations provide goals for multilingual learners at all levels of language proficiency.

In other words, while the 2012 Edition Model Performance Indicators embedded different language expectations for multilingual learners at each proficiency level, the 2020 Edition ELD Standards Framework is designed to separate grade-level cluster Language Expectations from individual performance measures found in the Proficiency Level Descriptors. All multilingual learners should be offered access to the same high expectations for content-driven language development.

The relationship between Language Expectations and Proficiency Level Descriptors

Language Expectations offer goals for how all students might use language to meet academic content standards.



Proficiency Level Descriptors describe how multilingual learners might develop language across levels of English language proficiency as they move toward meeting Language Expectations.

Language Functions and Language Features

The interpretive and expressive Language Expectations contain closely associated sets of Language Functions and Features that have been selected to meet the purposes of schooling—for example, in the process of learning scientific argumentation, explaining phenomena, constructing fictional narratives, or informing their peers of their newly gained knowledge. The **Language Functions** showcase common language patterns students might use to meet grade-level cluster language expectations as derived from academic content standards. The associated **Language Features** are examples of language resources students may need to carry out particular functions.

Together, Language Functions and Features form a dynamic and illustrative set exemplifying the functional nature of language and language development (e.g., Derewianka, 1990, 2013; Derewianka & Jones, 2016; Fang & Schleppegrell, 2008; Humphrey et al., 2012; Rose & Martin 2012).

Figure F-7: WIDA ELD Standards Framework: Relationship between Language Expectations, Language Functions, and Language Features

The illustrative sets of Language Functions and Features offer a concrete way to shift to a focus on language forms as part of *functional language* use connected with and in service of learning. In doing so, choices around language use are situated in dynamic local versions that depend on local purposes and contexts (Pennycook, 2010).

As student language proficiency increases, their language repertoires become more responsive to the setting of the communicative event—that is, the student's ability to select, adapt, negotiate, and use a range of linguistic resources and meaning in different contexts (Mahboob & Dutcher, 2014). The Proficiency Level Descriptors, described next, provide a tool for use with summative assessment activities to gather evidence of multilingual learners' expanding linguistic repertoires; yet, depending on the situation, other tools may be just as or more appropriate for other purposes.

Proficiency Level Descriptors

Grounded in language development theory, the Proficiency Level Descriptors (PLDs) provide trajectories with typical language development targets (e.g., Bailey & Heritage, 2014; Cook & MacDonald, 2014) across five levels of English language proficiency, until proficiency level 6. PL6 is open ended: it indicates that for all of us, language development continues throughout life.

For the purposes of representation and understanding, PLDs describe proficiency in a linear way. However, language development is not a straightforward linear process across proficiency levels; it is contingent on a variety of factors. Therefore, multilingual learners may take various paths to develop and reach Language Expectations.

The 2020 PLDs maintain consistency with WIDA's 2012 K-12 Performance Definitions but are expanded from *a single K-12 continuum into six grade-level cluster continua.* In this way, PLDs create equivalent, yet more explicit, descriptions of the 2012 Performance Definitions. PLDs have been cross-referenced to the WIDA Interpretive Rubrics for Speaking and Writing; to a range of measurement tools and scales used with WIDA ACCESS for ELLs (the summative English language proficiency assessment offered by WIDA); to the *Common EL Definition Project Reference Proficiency Level Descriptors* (Linquanti, Cook, Bailey, & MacDonald, 2016); and to the Language descriptors in the Common European Framework (CEFR) (North, Piccardo, & Goodier, 2018).

The PLDs are designed to be used in coordination with language goals described in the Language Expectations. They take a multi-dimensional view of language (Degand & Simon, 2008), and continue to be written according to the discourse, sentence, and word/phrase dimensions. Discourse focuses attention on how a text is a unit of meaning and not a string of disparate sentences (de Oliveira & Schleppegrell, 2015; Fang 2011, 2020; Gebhard 2019; Halliday & Matthiessen, 2004; Humphrey et al. 2012). Choices language users make at the sentence (Derewianka 2013; Humphrey et al., 2012) and word/phrase dimensions (Gibbons, 2015; Derewianka & Jones, 2016) contribute to how meaning is created at the discourse dimension (Martin & Rose, 2007). Language choices in all three dimensions contribute to how a text is purposely constructed to have the desired effect on its intended audience(s).

Table F-2: The Dimensions of Language: A Short Reference

Dimension	Criteria	Focus on . . .
Discourse	Organization of language	How ideas are coherently organized to meet a purpose through organizational patterns characteristic of the genre
	Cohesion of language	How language connects ideas within and across sentences and discourse using a range of cohesive devices
	Density of language	How information in noun groups is expanded or consolidated
Sentence	Grammatical complexity of language	How relationships are expressed with clauses through simple, compound, and complex sentences
Word/Phrase	Precision of language	How everyday, cross-disciplinary, and technical language more effectively conveys precise meaning.

Using this theoretical perspective, the PLDs frame language as a system of interlocking choices (Halliday & Matthiessen, 2004). The descriptors examine how students' linguistic repertoires expand and become increasingly precise as they move from concrete, shared contexts (situation-embedded, more spoken-like communication) to increasing abstract, distant contexts (more written-like, literate communication) (Gibbons, 2015). The lead-in sentence for PLDs in each grade-level cluster point to multilingual learners' performance when scaffolded appropriately.

Proficiency Level Descriptors take a multidimensional view of languages as an interlocking set of choices. They continue to be written according to the Discourse, Sentence, and Word/Phrase dimensions.

Summary

The WIDA ELD Standards, 2020 Edition, provides educators with a set of tools that connects language development for multilingual learners with academic content standards, multimodality, scaffolding, student funds of knowledge, and support for effective language use. This document articulates the theoretical foundations of the 2020 Edition and offers research-based rationales to prompt K-12 educators to prioritize language as a meaning-making resource as they attend to language development in systematic, explicit, and sustained ways during content learning. In doing so, the 2020 Edition renews and deepens WIDA's commitment to equitable opportunity and access, integration of content and language, collaboration among stakeholders, and a functional approach to language development. With these Big Ideas in mind, the 2020 Edition seeks to further galvanize a purposeful shift in national, state, and local educational systems, helping educators create the conditions that support and sustain multilingual learners in developing the language, literacy, disciplinary knowledge, and agency they need to flourish in a variety of contexts in school and beyond.

Appendix H: Standards Development Process and Acknowledgements

WIDA would like to extend its appreciation to the many educators who have inspired, supported, and contributed to the development of the 2020 Edition of the English Language Development (ELD) Standards Framework.

Since the WIDA ELD Standards were first published in 2004, they have highlighted the importance of developing student language abilities in five schooling contexts described in the five WIDA Standards Statements. As part of the regular development cycle, the 2004 edition was first revised in 2007 and then further amplified in 2012. With each subsequent revision, the WIDA ELD Standards continue to build on previous editions, incorporate emerging research, and address federal legislation and associated policy trends.

Project Launch (November 2018)

In November of 2018, WIDA launched the development of the 2020 Edition of its ELD Standards. WIDA wishes to extend its appreciation to representatives from all the state, territory, and federal education agencies who contributed thoughtful feedback and guidance throughout the project.

Quarterly SEA Review and Feedback (2018-2020)

Meeting quarterly, WIDA standards subcommittee members reviewed, discussed, and suggested next steps on various iterations of conceptual questions and standards prototypes. SEA subcommittee members also discussed issues related to standards adoption and implementation.

WIDA gratefully acknowledges the many contributions made by members of the standards subcommittee.

Table H-1: SEA Standards Subcommittee Members (2018-2020)

Local Educational Agency Advisory Committee (2018-2020)

WIDA also received feedback on standards development issues and prototypes from the WIDA local educational agency (LEA) advisory committee. WIDA appreciates the perspectives provided by local educators serving on this committee.

Table H-2: LEA Advisory Committee Members

Standards Alignment Panel (August 2019)

Prototype development work continued throughout spring and summer 2019. Along with regular reviews by the members of the WIDA standards subcommittee, in August 2019, WIDA convened a panel of national content and language alignment experts in order to ensure the 2020 Edition of the WIDA ELD Standards would be positioned to meet peer review requirements. Thanks go to the following individuals from the expert alignment panel for their important contributions.

August 2019 Alignment Panel Members

Sara Christopherson, University of Wisconsin-Madison (WCEPS)
Karin Hess, Educational Research in Action
Rebecca Kopriva, University of Wisconsin-Madison (ONPAR)
Steve Sireci, University of Massachusetts Amherst
Art Thacker, HumRRO
Laura Wright, University of Wisconsin-Madison (ONPAR)
Shu Jing Yen, Center for Applied Linguistics

WIDA Conference Teacher Focus Groups (October 2019)

After the August 2019 expert panel meeting, WIDA streamlined and narrowed its prototype down to four components to create what is now known as the 2020 Edition of the WIDA ELD Standards Framework: WIDA ELD Standards Statements, Key Language Uses, Language Expectations, and Proficiency Level Descriptors.

As a check to ensure that the fall 2019 redevelopment work was positioned to meet state, district/LEA, and school-based educator needs, WIDA convened five focus groups at the 2019 WIDA Annual Conference in Providence, Rhode Island. WIDA appreciates the time and insights provided by the following educators.

Table H-3: October 2019 Focus Group Participants, WIDA Annual Conference

Focus Group #1	Focus Group #2	Focus Group #3

Wright (Purdue University) • Nancy Commins (University of Colorado, Denver) • Kristina Soprano (Roger Williams University)

Large-Scale Public Input (November – January 2019)

WIDA published its standards draft for large-scale input in late November 2019. WIDA would like to thank the 1,275 respondents from both U.S. and international locations.

Proficiency Level Descriptor Review Panel (February 2020)

After several months of further development work and to address questions raised in the winter 2019-2020 public input period, WIDA convened a statewide panel of 33 experienced K-12 educators from small, medium, and large divisions [districts] from across Virginia. To ensure WIDA had adequately addressed concerns raised during the public input period, the Virginia Performance Level Descritors (PLD) panel was asked to review an updated January 2020 version of the interpretive language PLDs to check the developmental accuracy. Moreover, to support consequential validity framing about local uses of the PLDs, panelists were asked to create recommendations on appropriate uses for PLDs.

Researcher/Teacher Educator Panel (April 2020)

With development work on the 2020 Edition nearing fruition, in April 2020, WIDA convened two virtual panels of nationally recognized institutes of higher education (IHE) experts for the following purposes:

1. To obtain feedback on the quality, relevance, and usefulness of the proposed 2020 Edition to IHE teacher educators and researchers of K-12 content and language teachers and
2. To cross-check the degree to which the 2020 Edition met criteria outlined by internal WIDA stakeholders, SEA stakeholders, and a previous expert panel on alignment issues.

WIDA appreciates the time and insights shared by panel members.

Educator Review Panel (June 2020)

In June of 2020, WIDA gathered input from practitioners via surveys and virtual panels regarding the following:

- How educators envisioned using the 2020 Edition of the WIDA ELD standards to plan instruction and develop curriculum
- Resources, materials, etc. that could be helpful to educators as they begin implementing the 2020 edition.

WIDA appreciates the time and insights provided by the following educators:

SUBJECT

American Rescue Plan (ARP) Act: ESSER State Education Agency State Plan

REFERENCE

April 5, 2021	The Board approved the distribution of the ESSER II funds to local education agencies (LEAs) under a methodology that assured each LEA received an amount at least equivalent to what they would have received from discretionary funds prior to the 5% hold back and set 2.5% of the APR ESSER SEA Reserve (ESSER III) funds for distribution to schools who receive no Title I or low Title I funds, pending legislative approval of spending authority.
April 22, 2021	The Board received an update on the COVID Relief K-12 funds, which included CARES Act ESSER, CRRSA Act ESSER, ARP ESSER, CRRSA EANS and ARP EANS.
June 4, 2021	The Board postponed consideration of a draft ARP ESSER SEA State Plan in order to give Board members an opportunity to review and provide comments.
June 16, 2021	Board approved Idaho's ARP ESSER SEA State Plan and authorized the Board president to sign the plan as the Board's representative to the US Department of Education

APPLICABLE STATUTE, RULE, OR POLICY

Idaho Code § 33-110

BACKGROUND/DISCUSSION

On March 24, 2021, the U.S. Department of Education (USED) made available two-thirds of each state's ARP ESSER allocation to support ongoing efforts to reopen school safely for in-person learning, keep schools safely open once students are back, and address the academic, social, emotional, and mental health needs of all students. To receive the remaining third of a state's ARP ESSER allocation and to comply with the terms and conditions of the ARP ESSER funds, the state has received, USED requires state education agencies (SEA) to develop and submit an ARP ESSER plan that describes, among other things, the current education needs within the state, the intended uses of ARP ESSER funds, and the plans for the SEA to support local education agencies (LEAs) in their planning for and use of ARP ESSER funds.

An ARP ESSER SEA State Plan template was provided to states on April 21, 2021. The State Department of Education (SDE) identified leads for each of the seven sections of the plan. Six of leads were SDE staff, with the seventh being Board staff. Section D., Maximizing State-Level Funds to Support Students, drafting was

lead by Board staff. SDE identified stakeholders and a timeline to quickly draft and receive feedback on the plan. A notification from SDE's Chief Deputy Superintendent was emailed May 5, 2021 to notify stakeholders of the opportunity to participate in the drafting of the plan. This email included the timeline and a form for indicating interest in sections of the plan. An additional communication went out on May 7, 2021 from SDE's Deputy Superintendent of Communications and Policy.

Team leads scheduled meetings for their sections between May 10 and May 18, 2021, and invited interested stakeholders to participate. The opportunity to collaborate was communicated to a variety of stakeholders including school district superintendents, Board staff, the Governor's Office staff, Division of Financial Management (DFM) staff, Legislative Services Office (LSO) staff, Idaho Association of School Administrators (IASA), Idaho School Boards Association (ISBA), Idaho Education Association (IEA), LEA business managers, Nez Perce Tribe Education Director, Idaho Business for Education (IBE), Idaho Association of Commerce and Industry (IACI), Bluum, Idaho PTA Association Board, and SDE's directors of Special Education, Indian Education, Certification, Student Engagement & Safety Coordination, Assessment and Accountability, and Federal Programs.

A link to the first draft of Idaho's ARP ESSER State Plan was published on SDE's website on the front page at www.sde.idaho.gov from May 21– June 1, 2021 for public review. Sixteen individuals and organizations provided input on the draft Plan posted on SDE's webpage (this input is provided in Attachment 3). These stakeholders represented district administrators and business managers, a retired counselor, local school board member, a grandparent, United Way, College of Idaho, New Classrooms, and interested citizens.

The Board's Accountability Oversight Committee (AOC) met May 27, 2021 to review the draft plan and make comments. This feedback was provided to SDE on June 1st. The final draft of the plan provided in Attachment 1 incorporates the AOC's feedback.

A stakeholder feedback review committee was convened on June 2, 2021 to review the public comment feedback and make recommendations for changes to the plan. Twenty seven participants representing the IEA, LEA administrator, Public Charter School Commission, Idaho State Board of Education, ISBA, IBE, IACI, Idaho legislator, Bluum, Idaho Hispanic Commission, DFM, Education Northwest REL and Comprehensive Center 17, and SDE executive staff and directors from the Indian Education, Special Education, Assessment and Accountability, Certification, and Federal Programs departments discussed the comments and provided suggestions for plan revisions.

Following submittal of the ARP ESSER SEA Plan to the US Department of Education, SDE and Board staff received a request for additional clarification.

IMPACT

Once approved by the Board, the plan will be resubmitted to the USED.

ATTACHMENTS

Attachment 1 – Idaho ARP ESSER SEA State Plan Amendment
Attachment 2 – US Department of Education Request for Additional Information (received 7/13/21)
Attachment 3 – US Department of Education Request for Additional Information (received 8/23/21)

BOARD STAFF COMMENTS AND RECOMMENDATIONS

The USED template asks the SEA for each state to identify:

A. Description of the State's Current Status and Needs
   1. Assessment of top 2-3 strategies that have been most effective in supporting the needs of students.
   2. Assessment of top 2-3 issues currently facing students and schools.
   3. Describe top 2-3 highest priority academic, social, emotional, and/or mental health needs for the remainder of the 2020-2021 school year (if applicable) and for the 2021-2022 school year.
   4. Describe how the Board/SEA will support LEAs in identifying the extent of the impact of the pandemic on student learning and student well-being.
   5. Describe current status of data collection on operational status and mode of instruction for all schools.

B. Describe how the Board/SEA will support LEAs in safely reopening schools and sustaining safe operations.
   1. Describe how the Board/SEA will support its LEAs in safely returning to in-person instruction and sustaining the safe operation of schools.
   2. Describe how the Board/SEA will ensure that its LEAs that receive ARP ESSER funds meet the requirements in section 2001(i) of the ARP Act and the requirements relating to the ARP ESSER funds.

C. Describe the Boards/SEA plans for consultation from stakeholders and for coordinating the use of ARP ESSER funds with other resources to meet the needs of students.
   1. Describe how the Board/SEA engaged in meaningful consultation with stakeholders, and incorporated input into this plan.
   2. Describe to what extent the Board/SEA has and will coordinate Federal COVID-19 pandemic funding and other Federal funding.

D. Describe Board's/SEA evidence-based strategies for the use of these resources.

1. Describe how the Board/SEA will use the funds it reserves on evidence-based interventions to address the academic impact of lost instructional time.
2. Describe how the Board/SEA will use the funds it reserves for evidence-based summer learning and enrichment programs.
3. Describe how the Board/SEA will use the funds it reserves for evidence-based comprehensive afterschool programs.
4. Describe the intended use of the reserved funds for emergency needs, including to what extent these funds will be used to build Board/SEA and LEA capacity to ensure students' and staff's health and safety; to meet students' academic, social, emotion, and mental health needs; and to implement evidence-based interventions (the board took action on a portion of these funds on April 5, 2021).

E. Describe how the Board/SEA will support their LEAs in developing plans for LEAs' use of ARP ESSER funds.
   1. Describe what the Board/SEA will require its LEAs to include in LEA plans consistent with the ARP ESSER requirements.
   2. Describe how the Board/SEA will, in planning for the use of ARP ESSER funds, ensure LEAs engage in meaningful consultation with stakeholders.
   3. Describe how the Board/SEA will support and monitor its LEAs in using ARP ESSER funds.
   4. Describe the extent to which the Board/SEA will support its LEAs in implementing additional strategies for taking educational equity into account.

F. Describe strategies for supporting and stabilizing the educator workforce and for making staffing decisions.
   1. Describe the extent to which the State is facing shortages of educators, education administration personnel, and other school personnel involved in safely reopening schools and how the Board / SEA will assist its LEAs in identifying the most urgent areas of shortages or potential shortages.
   2. Describe the extent to which the Board/SEA has developed or will develop strategies and will support its LEAs in increasing student access to key support staff.

G. Describe how the Board / SEA is building capacity at the Board/SEA and LEA levels to ensure high-quality data collection and reporting and to safeguard funds for their intended purposes.
   1. Describe how the Board/SEA will ensure its capacity and the capacity of its LEAs to collect data on reporting requirements.
   2. Describe how the Board/SEA will implement appropriate fiscal monitoring of and internal controls for the ARP ESSER funds.

The amendments to the ARP ESSER SEA Plan provided in Attachment 1 include:

- Added language on SDE's efforts to reach out to the various stakeholder groups in Section C.1.;
- A restructuring of Section D.1. to help clarify how the funds are going to be used, including the addition of section titles to help organize the information. Additionally, language was added to demonstrate Idaho recognizes that groups are disproportionately affected by the pandemic;
- A restructuring of Section D.2.i. to make it consistent with the order and subsection titles used in section D.1.i. and added additional language around plans for data collection;
- Additional language in Section D.3. identifying the intended use of funds the Board has already taken preliminary actions on (2.5% for no and low Title I schools);
- Addition of Idaho's General Education Provision Act (GEPA) Statement; and
- Addition of Appendix I to incorporate the Board approved Idaho Back to School Framework.

On August 23, 2021 the US Department of Education requested additional clarification to the draft amended plan. Those additional edits are highlighted in yellow.

Staff recommends approval of Attachment 1.

BOARD ACTION

I move to approve the Idaho ARP ESSER SEA State Plan as provided in Attachment 1 and authorize the Board President to sign the ARP ESSER SEA State Plan as the representative of the State Education Agency.

Moved by _____ Seconded by _____ Carried Yes _____ No _____

Idaho State Plan for the American Rescue Plan Elementary and Secondary School Emergency Relief Fund

U.S. Department of Education

Issued: April 21, 2021

OMB Number: 1810-0754
Expiration Date: October 31, 2021

Paperwork Burden Statement According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1810-0754. Public reporting burden for this collection of information is estimated to average 100 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is required to obtain or retain benefit under Section 2001 of the American Rescue Plan Act of 2021 (ARP Act). If you have any comments concerning the accuracy of the time estimate, suggestions for improving this individual collection, or if you have comments or concerns regarding the status of your individual form, application or survey, please contact Britt Jung, Office of State and Grantee Relations, Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-6450, email: SGR@ed.gov directly.

Introduction

The American Rescue Plan Elementary and Secondary School Emergency Relief ("ARP ESSER") Fund, authorized under the American Rescue Plan ("ARP") Act of 2021, provides nearly $122 billion to States to support the Nation's schools in safely reopening and sustaining safe operations of schools while meeting the academic, social, emotional, and mental health needs of students resulting from the coronavirus disease 2019 ("COVID-19") pandemic. It is particularly important that ARP ESSER funding will enable States and local educational agencies ("LEAs"), and more directly schools, to support students who have been most severely impacted by the COVID-19 pandemic and are likely to have suffered the most because of longstanding inequities in our communities and schools that have been exacerbated by the COVID-19 pandemic.

The U.S. Department of Education ("Department") is committed to working in partnership with States so that these unprecedented resources are quickly put to work to ensure students have sustained access to in-person instruction and that the resources are used to provide the effective support students need as they persist through and recover from the impacts of the COVID-19 pandemic. The thoughtful and timely use of these funds will have a lasting impact on our Nation's schools and help to address the inequities in resources, services, and opportunities available to our students.

This template presents an opportunity for States to share their plans for the use of ARP ESSER funds with the public. The Department must approve a State educational agency's ("SEA's") plan in order to make the State's remaining ARP ESSER allocation available for use. Please note that the Department intends to issue ARP ESSER reporting requirements separately.

Instructions

Each SEA must provide descriptions and other information that address each requirement listed below. An SEA may use this template or another format as long as every item and element is addressed in the SEA's response. Throughout this document, questions that refer to an SEA's ARP ESSER funding are referencing the total allocation to be received by the SEA, including that which it allocates to its LEAs.

Each SEA must submit to the Department by June 7, 2021, either: (1) its ARP ESSER plan or (2) the State requirements that preclude submission of the plan by that date and a date by which it will be able to submit its complete ARP ESSER plan.

To submit the SEA's plan, please email the plan to your Program Officer at [State].OESE@ed.gov (e.g., Alabama.OESE@ed.gov).

In order to ensure transparency, the Department will post each plan on the Department's website when it is received and will indicate each plan's approval status.

This template also allows States to fulfill the requirement of the Coronavirus Response and Relief Supplemental Appropriations ("CRRSA") Act ESSER II 6-month reporting requirement in section 313(f) of the CRRSA Act.

Sherri Ybarra, State Superintendent of Public Instruction	Date:

DRAFT

A. Describing the State's Current Status and Needs

The Department recognizes the extraordinary efforts made by States, LEAs, and educators to support students during the COVID-19 pandemic. In this section, SEAs will describe the progress they have made, the priorities and student needs guiding their ARP ESSER funding decisions, and their current and projected operating status.

1. Progress and Promising Practices: Provide your assessment of the top 2-3 strategies that have been most effective in supporting the needs of students in your State during the COVID-19 pandemic, especially for students most impacted by the COVID-19 pandemic. Please include, if applicable, how your State will submit and encourage its LEAs to submit lessons learned and best practices to the Department's *Safer Schools and Campuses Best Practices Clearinghouse* so that they can be shared with other States and LEAs.

   Response:

   During the COVID-19 pandemic, the State Board of Education, State Department of Education, and other state agencies, as appropriate (state) developed various resources and trainings to support school districts and charter schools (local education agencies – LEAs) in meeting the needs of students across Idaho. For example, the State Department of Education (Department) held regular webinars to discuss all of the aspects of the shifting educational landscape, including the use of relief funds, child nutrition policy, and changes in assessment and accountability. The Department also created a public schools reopening page as a central repository for this type of information to assist local education agencies address student learning, operations, coordination with parents, safety and wellness, government resources, and connectivity. This page also included the Back to School Framework approved by the State Board of Education / State Education Agency (Board / SEA). All of these resources provided guidance for supporting effective instruction and student wellbeing whether a school was open fully in-person, hybrid, or remote.

   Using this information, Idaho LEAs adopted various strategies, based on local needs and consultation with community partners, to support students during the COVID-19 pandemic. Three primary strategies implemented in Idaho are outlined below.

   In-person instruction

   For many LEAs, the most effective strategy was maintaining in-person instruction. To support this approach, the Department provided guidance about physical logistics such as distancing procedures, air filtration, and environmental hygiene. Additionally, the Department disseminated resources to support the broader social and emotional needs of students returning to school, such as the CASEL SEL Roadmap for Re-Opening Schools. All LEAs prioritized student health and safety, but with appropriate precautions, in-person learning remained safe and sustainable throughout the entire school year for various LEAs, particularly smaller LEAs in rural areas with minimal community transmission.

Equitable access

When LEAs did need to incorporate distance learning, effective strategies focused on providing equitable access to the necessary technological resources and enhancing support for the students most at-risk in this educational environment. The Department collaborated with LEAs to manage these challenges. For example, the public schools reopening page included guidance to help local IT Directors identify the locations of students without internet service. These students could be assisted by providing an alternate method of internet access or prioritizing them for remaining in-person when hybrid learning was an option. These efforts built on ongoing cross-agency efforts to improve technology access in Idaho, started under the Governor's Broadband Task Force and Digital Divide Committee. The Broadband Task Force and Digital Divide Committee worked to identify gaps in Idaho's broadband infrastructure and supported efforts to improve access. For LEAs operating in a hybrid environment, the maintenance of in-person learning was further focused on students for whom online learning would be the most disruptive. NAEP school survey results indicate that Idaho educators were able to prioritize maintaining in-person instruction for traditionally at-risk student groups, including English learners, children with disabilities, and students experiencing homelessness. Many schools also targeted in-person learning for students in lower grades, for whom online learning could be more difficult.

Teacher preparation

Another key strategy was ensuring educators were sufficiently prepared to provide effective instruction online, whether in a hybrid or fully-remote environment. The Department along with other stakeholders like the Idaho Digital Learning Academy, offered trainings on virtual classroom strategies and distance education resources, including those contributed by educators and school personal from around the state. The Department also introduced remote assessment options to help teachers gather ongoing data from formative assessment processes, interim assessments, and progress monitoring tools to help educators track student outcomes and refine teaching and learning strategies.

Although many LEAs in Idaho modified their operating status multiple times during the year to respond to the existing public health situation, by the spring of 2021 there was a consistent trend towards offering in-person instruction. As of May 13, 2021, among 115 traditional school districts, 108 were in person, eight were hybrid and zero were fully online or closed.

2. Overall Priorities: Provide your assessment of the top 2-3 issues currently facing students and schools across your State as a result of or in response to the COVID-19 pandemic including, to the extent possible, data illustrating why these are the most critical and/or most widespread issues facing schools and students.

Response:

Using data to target student needs

The foremost challenge for students and schools across Idaho is continuing to identify and employ effective strategies for assisting students who experienced unfinished learning. Statewide data on summative assessments in English Language Arts/Literacy and Mathematics and several other metrics are not yet available, but results from Idaho's fall early reading assessment indicated around a five-percentage point reduction in the share of kindergarten through third grade students reading at grade level from the year prior. Idaho is awaiting spring data from this early reading assessment to determine whether ongoing disruptions caused by COVID-19 further increased that performance gap relative to previous cohorts or if local education agencies were able to narrow it through instruction and specific intervention strategies during the year. Additional assessment results from available formative and summative assessments and end-of-year data on course enrollment, course grades, and other metrics will help districts and schools identify academic priorities. The state will help LEAs develop strategies to analyze intervention priorities outside of the academic context, such as student social/emotional health and economic need, which may have changed based on the ongoing COVID-19 disruptions.

Re-connecting with students

As part of that process, one additional challenge is supporting students who have not maintained consistent contact with the educational system during the past school year. These students may not have assessment data to identify their academic needs and, in some cases, may not have current connections to their district or school. Idaho's overall K-12 enrollment fell by several thousand students from the previous school year and some districts' enrollment fell by over five percent. LEAs will continue their efforts to identify and support any "missing' students as well. All of these results will determine priority focus areas for learning during the summer and next fall.

3. Identifying Needs of Underserved Students: Describe your State's 2-3 highest priority academic, social, emotional, and/or mental health needs for the remainder of the 2020-2021 school year (if applicable) and for the 2021-2022 school year related to the impact of the COVID-19 pandemic on each of the following student groups:

   i. Students from low-income families,
   ii. Students from each racial or ethnic group (e.g., identifying disparities and focusing on underserved student groups by race or ethnicity),
   iii. Gender (e.g., identifying disparities and focusing on underserved student groups by gender),
   iv. English learners,
   v. Children with disabilities (including infants, toddlers, children, and youth with disabilities eligible under the Individuals with Disabilities Education Act ("IDEA")),
   vi. Students experiencing homelessness,

vii. Children and youth in foster care,
viii. Migratory students, and
ix. Other groups disproportionately impacted by the pandemic that have been identified by the SEA (e.g., youth involved in the criminal justice system, students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years, students who did not consistently participate in remote instruction when offered during school building closures, and LGBTQ+ students).

To the extent possible, this description should include data on indicators such as estimates of the academic impact of lost instructional time,[1] chronic absenteeism, student engagement, and social-emotional well-being.

Complete the table below, adding rows as necessary, or provide a narrative description.

Response: The three core priorities for Idaho throughout the rest of this school year and school year 2021-2022 are continuing efforts to improve broadband access, addressing the academic impact of unfinished learning, and addressing the social, emotional, and mental health needs of students. These general areas of focus are the same for all students, but interventions will focus on the specific needs for each group.

Improving Broadband Access

As indicated above, the Broadband Task Force and Digital Divide Committee have engaged in efforts to identify and address gaps in Idaho's broadband infrastructure. To improve equity in resources that support student learning, all students needs internet access and appropriate technology in order to engage in research and complete homework, and when necessary or preferred, to participate in online or hybrid learning. While improvements have been made, additional work is needed, particularly for students experiencing socioeconomic or housing challenges, and those in rural and remote communities. The Board / SEA is engaged on these committees and state agencies are engaged in ongoing discussions and work to identify appropriate next steps to address remaining broadband and technology gaps.

[1] For the purposes of the plan, "academic impact of lost instructional time" refers to "learning loss" experienced by students as a result of the COVID-19 pandemic, as referenced in the ARP Act and the CRRSA Act.

Addressing Unfinished Learning

At this point in time, Idaho has limited statewide data to quantify the impacts of unfinished learning due to the pandemic. As indicated in Section D of this plan, the Accountability Oversight Committee (AOC), an ad-hoc committee of the Board / SEA, will be working with the Department to gather and analyze appropriate data. Preliminary information suggests that the specific academic consequences of unfinished learning due the COVID-19 pandemic vary by student group in ways that should inform intervention efforts. As an example, the fall statewide early literacy assessment data indicates that the percentage of students from low-income families reading at grade level fell more from 2019 to 2020 than the statewide whole (5.7 percentage points compared to 5.1 percentage points). Similar patterns were seen among many, but not all, traditionally underserved groups, highlighting the need for targeted support. The Board / SEA has reviewed this data, as well as national data regarding the impacts of the pandemic, and has considered anecdotal evidence received from LEAs. Based on this combined information, the Board / SEA has tentatively identified priorities for addressing unfinished learning in our state: early English language arts / literacy skills (K-4), middle grades mathematics (4-9), and credit completion and course recovery for high school. The Board's / SEA's staff will work with the AOC and the Department to conduct an analysis of the state's data to confirm if these areas are those with of greatest need. Once the priority areas are confirmed, the Board / SEA and Department will communicate them to LEAs and will provide professional development and resources to support LEAs in addressing them.

To fully understand and address unfinished learning, the Board / SEA and Department are also reviewing attendance and chronic absenteeism data in order to identify and support students who have or continue to miss substantial instructional time.. Current data on chronic absenteeism for school year 2020-2021 also highlights disparities by student group. For instance, mid-year results indicate that nearly 12 percent of Hispanic students were identified as chronically absent upon exiting school, which was nearly double the rate among white students. An outline of all data to be considered by the AOC is included in Section D.

Addressing Social and Emotional Challenges

The Board / SEA and the Department recognize that the pandemic has had an impact on the social, emotional, and mental health of students and educators. While we are still gathering data to better understand these issues, initial data from the 2020-2021 student engagement survey indicate that the social emotional impacts of the pandemic may have been more substantial for students in certain subgroups. As an example, the statewide student engagement survey administered to students in grades 3-12 in February and March, 2021, showed a substantially higher percentage of students with disabilities categorized as disengaged in the behavioral, cognitive, and emotional domains when compared with students without disabilities. More comprehensive data will become available at the end of this school year, allowing Idaho to enter the summer

and the 2021-2022 school year with detailed information disaggregated by student group.

Table A1. *This table will be populated when data is available in summer 2021.*

The types of data disaggregated by the student groups below will include assessment results, graduation rate, go-on rate, course grades, and other metrics discussed above, including the extent of the ongoing digital divide. These data will provide critical information about how to best support traditionally underserved groups, such as Native American and Hispanic students. Idaho anticipates the majority of data used for this analysis will be gathered through already established collection methods and will not require additional data submissions from LEAs.

Student group	Highest priority needs
Students from low-income families	Available summer 2021
Students from each racial or ethnic background used by the State for reporting purposes – please add a row for each racial or ethnic group (e.g., identifying disparities and focusing on underserved student groups by race/ethnicity)	Available summer 2021
Students by gender – please add a row for each gender (e.g., identifying disparities and focusing on underserved student groups by gender)	Available summer 2021
English learners	Available summer 2021
Children with disabilities	Available summer 2021
Students experiencing homelessness	Available summer 2021
Children and youth in foster care	Available summer 2021
Migratory students	Available summer 2021
Other groups of students identified by the State (e.g., youth involved in the criminal justice system, students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years, students who did not consistently participate in remote instruction when offered during school building closures, LGBTQ+ students)	Available summer 2021

4. Understanding the Impact of the COVID-19 Pandemic: Describe how the SEA will support its LEAs in identifying the extent of the impact of the COVID-19 pandemic on student learning and student well-being, including identifying the groups of students most impacted by the pandemic. Where possible, please identify the data sources the SEA will suggest its LEAs use in thoughtfully diagnosing areas of need, including data on the academic, social, emotional, and mental health impacts of lost instructional time.

Response: To support LEAs, the Department will provide both recorded and in-person trainings on using existing reporting tools to identify the academic and social/behavioral impacts of the COVID-19 disruptions. These trainings will address strategies for appropriately using existing data systems for our statewide assessments (interim and summative) in English Language Arts/Literacy and Mathematics, the statewide early literacy assessment (formative and summative), the English learner assessment, the student engagement survey, and graduation rates. The Department will

advertise these training opportunities through newsletters, webinars, and direct outreach to LEA stakeholders. The AOC will review and analyze data in the Student Achievement Report (created by the Department), which will include a focus on g the effects of COVID-19 on students across Idaho across myriad metrics, including opportunity to learn, statewide achievement tests, the state's early reading assessment, attendance, and enrollment. These results will be disaggregated by both student and school characteristics. The Department will also produce this report at the LEA level to help stakeholders contextualize their results and inform ongoing intervention efforts. Upon request, the state will provide LEAs with custom data reports targeted to their specific priorities. Of particular concern are schools previously identified for support and improvement. The Department will provide customized tools and reports to ensure these schools have ongoing support for their improvement efforts and that this year's disruptions do not derail their progress in improving overall outcomes and narrowing achievement gaps.

5. School Operating Status: It is essential to have data on how students are learning in order to support the goals of access and equity, especially for student groups that have been disproportionately impacted by the COVID-19 pandemic. Describe the current status of data collection on operational status and mode of instruction of all schools in your State. This description must include:

    i. A description of to what extent, and how frequently, the State collects now and will collect in the future data for all schools in your State on:

        a. Mode of instruction: The number of schools in your State that are offering fully remote or online-only instruction; both remote/online and in-person instruction (hybrid model); and/or full-time in-person instruction;

        b. Enrollment: Student enrollment for all students and disaggregated for each of the student groups described in A.3.i-viii for each mode of instruction; and

        c. Attendance: Student attendance for all students and disaggregated for each of the student groups described in A.3.i-viii for each mode of instruction.

    Response: Throughout the 2021-2022 school year, the Department employed several approaches to track operating status. At the start of the year, staff monitored district websites and reported the listed status. However, the data were not always completely accurate because district websites did not always reflect operating status changes and the process for manually reviewing websites sometimes took several weeks to complete. In January and February 2021, staff contacted all districts by phone and email to obtain their correct operating status. Since that time, staff have continued to follow up regularly based on anticipated changes. This manual approach was necessary because Idaho does not have a single, unified system for tracking district or school operating status.

Enrollment and attendance, disaggregated by student group, have been collected regularly throughout the year via the state's K-12 longitudinal data system. LEAs submit information to the state via this system in October, November, December, March, May, at the end of the school year in June, and in September to cover the summer period. These attendance and enrollment data can be merged with the operating status information via the state's unique LEA identification number.

Idaho's longitudinal data system also includes information on instructional setting for each course in which a student participates. The available instructional settings can delineate between in-person instruction, synchronous online instruction, and asynchronous online instruction. However, these data are not captured at the individual student level, so a hybrid course would be identified with a single setting while individual students might be participating either in-person or remotely. Furthermore, the setting may have changed at different times during the year without those updates being reflected in the data LEAs provide to the state.

ii. The data described in A.5.i.a. and b. using the template in Appendix A (and to the extent available, the data described in A.5.i.c.) for the most recent time period available. Please note that this data can be submitted separately within 14 calendar days after a State submits this plan. The SEA must also make this data publicly available on its website as soon as possible but no later than June 21, 2021, and regularly provide updated available information on its website. The Department will periodically review data listed in A.5.i on SEA websites.

Response: Please see the tables in Appendix A for the data described in A.5.i.a and A.51.b. Using the most current mid-term average daily attendance (ADA) figures in Idaho to address item A.5.1.c, the ADA by operational status is as follows: Remote or online only = 8,837; Hybrid = 126,126; and Full-time in-person instruction = 168,123. All data will be made publicly available on the State Department of Education website (sde.idaho.gov) by June 21, 2021 and will be updated regularly.

iii. To the extent available, a description of the planned operational status and mode of instruction for the State and its LEAs for Summer 2021 and for the 2021-2022 school year.

Response: The Board / SEA expects that nearly all traditional LEAs will offer in-person instruction during Summer 2021 and the 2021-2022 school year, with the exception of fully virtual charter schools. However, within traditional LEAs, we anticipate that some districts will continue to offer online school options that they created during the 2020-2021 school year. The Board / SEA and Department will explore options for capturing more detailed and accurate instructional methodology information. In making this decision, the Board / SEA will weigh the benefits of any new data collection against the

additional time and effort necessary for LEAs to report this information. The state will track any available operating status information and report enrollment by student group on the State Department of Education website.

B. Safely Reopening Schools and Sustaining their Safe Operations

The Department recognizes that safely reopening schools and sustaining their safe operations to maximize in-person instruction is essential for student learning and student well-being, and especially for being able to address the educational inequities that have been worsened by the COVID-19 pandemic. In this section, SEAs will describe how they will support their LEAs in this vital area.

1. Support for LEAs: Describe how the SEA will support its LEAs in safely returning to in-person instruction and sustaining the safe operation of schools. This description must include:
    i. How the SEA will support its LEAs implementing, to the greatest extent practicable, prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention ("CDC") for the reopening and operation of school facilities to effectively maintain the health and safety of students, educators, and other staff;

Response: The Board / SEA approved Idaho Back to School Framework (Framework) 2020, Appendix I, (https://boardofed.idaho.gov/resources/idaho-back-to-school-framework-2020) provides expectations, guidelines and best practices to ensure a safe and successful school environment. This document was most recently updated on October 21, 2020, and will continue to be updated by the Board / SEA as necessary to remain current with changes to state and federal guidance. The Framework is a collective effort by the Idaho Governor's Office and the Board / SEA. The Framework was developed and recommended for Board / SEA approval by a work group made up of representatives from the Department of Education, the Department of Health and Welfare, the local public health districts, and LEAs. This guidance document addresses each of the mitigation strategies listed in the table below. For reference, the corresponding pages from the Framework 2020 have been provided for each mitigation strategy in the table below.

In addition to the guidelines provided in the Framework 2020 related to the appropriate accommodations for children with disabilities, the Department also distributed a 53-page document that dove deeper into the guidance on this particular topic. The "Guidelines for Providing Special Education Services During the COVID-19 Pandemic" is the Board's / SEA's detailed guidance to support districts in meeting the needs of students with disabilities (https://www.sde.idaho.gov/coronavirus/sped/SPED-COVID-19-Q-A-06-03-2020.pdf).

The Board / SEA also distributed a separate guidance document specific to the wearing of masks in our schools (https://www.sde.idaho.gov/re-opening/files/COVID-19-School-Mask-Guidance.pdf).

Complete the table below, adding rows as necessary, or provide a narrative description.

Table B1.

Mitigation strategy	SEA response
Universal and correct wearing of masks	*p. 9, 12, 31*
Physical distancing (e.g., including use of cohorts/podding)	*p. 7, 8, 10-13, 31*
Handwashing and respiratory etiquette	*p. 9, 29-31*
Cleaning and maintaining healthy facilities, including improving ventilation	*p. 9, 29-31*
Contact tracing in combination with isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments	*p. 7-10*
Diagnostic and screening testing	*p. 9- 11*
Efforts to provide vaccinations to educators, other staff, and students, if eligible	*The* Superintendent of Public Instruction, *State Department of Education is not involved in the effort to provide vaccinations.*
Appropriate accommodations for children with disabilities with respect to the health and safety policies	*p. 13, 23, 24, 26- 28*

ii. Any Statewide plans, policies, estimated timelines, and specific milestones related to reopening and operation of school facilities, including any mechanisms the SEA will use to track, monitor, or enforce their implementation;

Response: In the late Summer of 2020, each LEA was required to develop a local plan. With input from the local public health district or other health experts, each LEA developed a plan that outlined their operations, including how it would respond to disease transmission within their community, enabling them to continue to provide instruction and educational services to their students. The Board / SEA staff verified that each LEA plan had been drafted, vetted, and adopted by the local school board. It is anticipated that districts will update these plans for the upcoming school year through the Safe Return to In-Person Instruction and Continuity of Services Plan. By May 2021, most Idaho brick-and-mortar LEAs had reopened and returned to full-time, in-person instruction.

During the 2021 legislative session, the Superintendent of Public Instruction introduced and sponsored House Bill 175 (https://legislature.idaho.gov/wp content/uploads/sessioninfo/2021/legislation/H0175.pdf), which was signed into law

later in the session. Beginning July 1, Idaho law will require, "to the greatest extent possible and where safety requirements can be developed by the school district or public charter school, an in-person instruction option will be made available to students." . This new law clearly prioritizes in-person instruction for our traditional brick and mortar schools.

iii. To what extent the SEA and its LEAs consult with Federal, State, and local health officials. This description should include, if available, whether the SEA and its LEAs have received support for screening testing from their State or local health department based on funding awarded by the CDC; and

Response: The state coordinated a network of statewide task forces to inform aspects of prevention, mitigation, response, and recovery from the pandemic events and effects. Federal resource coordination and information flow was primarily accomplished through federal and state agency representatives in the task force environment. The primary vehicle for guidance and information to individual LEAs was through regular webinars with Idaho public school administrators and staff, the Idaho Superintendents Network, the Idaho School Boards Association, and formal policy guidance from the Board / SEA and the Department. LEAs were incorporated into technical working groups with Education Liaisons through the 7 Public Health Districts (PHDs) as well as county Emergency Managers to support regional and local decision-making and resource requests. These technical working groups assisted in determining critical information and process development related to screening, testing, essential worker testing, community situational awareness and healthcare resource allocation specific to the education environment. This coordination pattern from federal partners to statewide task forces to local technical working groups and ultimately to the local governing body comprised the primary support structure for coordination and guidance throughout the preparation and response phase of operations.

iv. Any guidance, professional learning, and technical assistance opportunities the SEA will make available to its LEAs.

Response: The Department will continue to hold informational webinars for LEA administrators and staff to provide ongoing and uninterrupted support for their needs in responding to COVID. The Department will facilitate the Idaho Superintendents Network, a professional learning community that works with superintendents across Idaho's LEAs. These monthly gatherings allow for direct and timely communication with district administrators, providing information that will facilitate nimble transitions in instruction delivery throughout the highly dynamic environment the pandemic has created in our schools. The Governor's Office convened a K-12 Emergency Council made up of superintendents representing each educational region of the state, charter school representatives, and State Board of Education members. This group continues to meet to identify issues, share information and inform LEA's in the regions. The Board / SEA will update and maintain the relevant guidance documents described in our responses in Section B.1.i-iii. The Board / SEA will continue to maintain and update a primary webpage focused on COVID resources that support Idaho schools in

the year ahead, and the Department will maintain the pandemic resource page located on the its website. A link to the state coronavirus resource website is available here, https://coronavirus.idaho.gov/resources-for-schools/. Additionally, the Department will continue to offer professional development opportunities to support educators in implementing instructional practices and programs to address the academic impact of unfinished learning and the social and emotional challenges created by COVID-19. Efforts to address social and emotional impacts include a statewide professional development activity, the Idaho Prevention and Support Conference, for all K-12 educators to learn about school safety and prevention support programs. This event most recently occurred in April of 2021, with more than 800 Idaho educators in virtual attendance. The Department will be offering this opportunity again in the Spring of 2022. Further, the Idaho Rural Education Association has as their mission to expand the quality of learning and educational opportunities in rural schools and communities. Partly in response to the COVID-19 pandemic, this association offers a resource list of mental health providers who will travel to rural and remote locations throughout the state to support the emotional and mental health needs of students.

2. Safe Return to In-Person Instruction and Continuity of Services Plans: Describe how the SEA will ensure that its LEAs that receive ARP ESSER funds meet the requirements in section 2001(i) of the ARP Act and the requirements relating to the ARP ESSER funds published in the Federal Register and available at https://oese.ed.gov/offices/american-rescue-plan/american-rescue-plan-elementary-and-secondary-school-emergency-relief/ (ARP ESSER requirements) to either: (a) within 30 days of receipt of the funds, develop and make publicly available on the LEA's website a plan for the safe return to in-person instruction and continuity of services, or (b) have developed and made publicly available on the LEA's website such a plan that meets statutory requirements before the enactment of the ARP Act, including:

   i. How the SEA will ensure that each LEA plan includes, or will be modified to include, the extent to which it has adopted policies and a description of any such policies on each of the strategies listed in table B1;

   ii. How the SEA will ensure that each LEA plan describes how it will ensure continuity of services including but not limited to services to address the students' academic needs, and students' and staff social, emotional, mental health, and other needs, which may include student health and food services;

   iii. How the SEA will ensure that the LEA periodically reviews, no less frequently than every six months for the duration of the ARP ESSER grant period (i.e., through September 30, 2023),[2] and revises as appropriate, its plan, and how the SEA will ensure that the LEA seeks public input, and takes such input into

[2] ARP ESSER funds are subject to the Tydings amendment in section 421(b) of the General Education Provisions Act, 20 U.S.C. 1225(b), and are therefore available to SEAs and LEAs for obligation through September 30, 2024. Review and revisions of these plans, if necessary, are not required during the Tydings period.

account on (1) whether revisions are necessary and, if so, (2) the revisions to the plan; and

iv. Describe, to the extent the SEA collects it, information about LEA implementation, to the greatest extent practicable, of each element of the most up-to-date CDC guidance listed in table B1 and its LEAs' needs for support and technical assistance to implement strategies consistent, to the greatest extent practicable, with relevant CDC guidance.

Response: In October 2020, LEAs posted a Back-to-School Plan on their website or made them available through their district offices, which was verified by Board / SEA staff. This was five months prior to the enactment of ARP ESSER. A checklist form (see Appendix E) by which LEAs can compare their original plan and the ARP Act ESSER LEA plan requirements will be made available. This checklist may be used for LEAs to verify their existing plans meet Federal requirements and identify any amendments they will need to make to come into compliance. LEAs whose Back-to-School plan included input from stakeholders and is publicly available on the LEA's website as identified under Sec. 2001(i)(1) and (2), but does not address all the requirements of the April 22, 2021 Federal Register, will have until November 24, 2021 (6 months after May 24, 2021) to revise and post its plan. Any LEA whose Back-to-School plan does not meet the requirements under Sec. 2001(i)(1) and (2) will have 30 days within receipt of the funds to develop and make publicly available a Safe Return plan that meets statutory requirements (August 1, 2021). All LEAs must complete the Safe Return to In-Person Instruction Checklist and post it on their website with their Back-to-School Plan by August 1, 2021. Department staff will visit each LEA website for these documents beginning August 2, 2021. Technical assistance and support will be provided, as needed, for any LEA that does not meet the minimum statutory requirements, which includes meaningful stakeholder input. For a copy of the Safe Return to In-Person Instruction and Continuity of Services Plans Checklist, see Appendix E.

C. Planning for the Use and Coordination of ARP ESSER Funds

The Department recognizes that seeking input from diverse stakeholders is essential to developing plans for the use of ARP ESSER funds that are responsive to the needs of students, families, and educators. In this section, SEAs will describe their plans for consultation and for coordinating the use of ARP ESSER funds with other resources to meet the needs of students.

1. SEA Consultation: Consistent with the ARP ESSER requirements, describe how the SEA engaged in meaningful consultation with stakeholders, and incorporated input into its plan, including, but not limited to:
   i. students;
   ii. families;
   iii. Tribes (if applicable);
   iv. civil rights organizations (including disability rights organizations);
   v. school and district administrators (including special education administrators);
   vi. superintendents;

vii. charter school leaders (if applicable);
viii. teachers, principals, school leaders, other educators, school staff, and their unions; and
ix. stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children and youth in foster care, migratory students, children who are incarcerated, and other underserved students.

The description must include how the SEA provided the public the opportunity to provide input in the development of the plan, a summary of the input (including any letters of support), and how the SEA took such input into account.

Response: As soon as Idaho received the ARP ESSER State Plan template on April 22, 2021, the Department staff met several times to identify team leads for each section of the plan and to develop a core stakeholder list for initial communication. On May 5, 2021, a letter went out from the Department's Chief Deputy Superintendent to stakeholders. The letter invited stakeholders to provide input into Idaho's ARP ESSER Plan, included the timeline for developing and submitting the Plan, and provided a process for stakeholders to identify sections of interest. The same communication was sent out again May 7, 2021 from the Department's Deputy Superintendent of Communications and Policy.

Team leads scheduled meetings for their sections between May 10-May 18, 2021, and invited interested stakeholders to participate. The opportunity to collaborate was communicated to a variety of stakeholders including superintendents, Board / SEA staff, Governor's Office staff, Division of Financial Management staff, Legislative Services Office staff, Idaho Association of School Administrators, Idaho School Boards Association, Idaho Education Association, LEA business managers, Nez Perce Tribe Education Director, Idaho Business for Education, Idaho Association of Commerce and Industry, Bluum, Idaho PTA Association Board, and the Department's directors of Special Education, Indian Education, Certification, Student Engagement and Safety Coordination, Assessment and Accountability, and Federal Programs.

Additionally, Superintendent of Public Instruction Sherri Ybarra is currently accepting applications through June 25, 202,1 for a new Student Advisory Council. This statewide panel will include representation from students in grades 2 – 11 from different backgrounds, cultures, and school size. Through this council, Idaho students will have an opportunity to share their voices on important educational topics, including the Idaho ARP ESSER SEA State Plan implementation. This group will meet quarterly either virtually or in person.

A link to the first draft of Idaho's ARP ESSER State Plan was published on the State Department of Education's website (www.sde.idaho.gov) from May 21– June 1, 2021 for public review. Sixteen individuals and organizations provided input on the draft Plan posted on the Department's webpage. These stakeholders represented district administrators and business managers, a retired counselor, local school board member, a grandparent, United Way, College of Idaho, New Classrooms, and interested citizens.

Stakeholder input included support and gratitude in using part of the ARP ESSER State Set-Aside Reserve 3% for LEAs who do not receive Title I-A allocations. Support for Innovation Zones to address unfinished learning was promoted by New Classrooms. Support was expressed for using the State Set-Aside Reserve for students with unique needs such as those students who are homeless, migratory, English Learners, or with disabilities. Several stakeholders described support for using full-service community-based afterschool and summer enrichment providers as a valuable resource and partner to schools in addressing the academic, social and emotional needs of students. Support for using chronic absenteeism as a measure for identifying students was included. There was some confusion expressed about the two LEA plans and the need for approval by the local school board prior to submission to the State Department of Education. Support was also expressed for additional educator professional development for social emotional health and positive behavioral interventions and supports (PBIS) as well as the importance of good nutrition and feeding children at school. All feedback documentation is on file with the Department.

The Board's / SEA's Accountability Oversight Committee (AOC) met May 27, 2021 to read the draft plan and make comments. This feedback was provided to the Department on June 1st and the input was incorporated into the final draft.

A stakeholder feedback review committee was convened on June 2, 2021 to review the public comment feedback and make recommendations for changes to the plan. Twenty seven participants representing the Idaho Educators Association, LEA administrator, Charter Commission, Board / SEA, Idaho School Boards Association, Idaho Business for Education, Idaho Association of Commerce and Industry, Idaho legislators, Bluum, Idaho Hispanic Commission, Idaho Division of Financial Management, Education Northwest REL and Comprehensive Center 17, and the Department's executive staff and directors from the Indian Education, Special Education, Assessment and Accountability, Certification, and Federal Programs departments discussed the comments and provided suggestions for plan revisions. The final version of the Idaho ARP ESSER State Plan submitted to the State Board of Education / SEA for consideration and submittal to the U.S. Department of Education reflects discussions from this meeting.

The Board/ SEA met June 15, 2021, to review and approve Idaho's ARP ESSER State Plan and delegate submittal of the plan by the SEA's representative to the U.S. Department of Education.

In addition to the stakeholders represented in the development of Idaho's plan, Idaho will engage representation from two additional vulnerable populations of students: advocates for students in the foster care system and advocates for children and youth incarcerated in the juvenile justice system. The number of students in the foster care system fluctuated between 1,800 and 1,900 during the 2020-2021 school year, and approximately 5,000 students were served in Neglected or Delinquent facilities during this same period. The Board / SEA is committed to both of these underserved populations. The State Department of Education's Foster Care liaison works closely

with LEAs to ensure students are provided transportation to their school of origin when it is determined to be in their best interest. Additionally, quarterly meetings are held between the State Department of Education staff and Health and Welfare Family and Children Services Division to develop practices, procedures and policies to support K-12 students in the foster care system. The State Department of Education's Foster Care Liaison also participates in the U.S. Department of Education and American Bar Association Foster Care Community of Practice. This group assists other states working to strengthen their foster care processes. Idaho's Title I-D Coordinator is a member of the Idaho Juvenile Justice Commission / State Advisory Group and participates in quarterly meetings where specific needs related to justice-involved youth are discussed.

Moving forward, Department staff will continue to provide weekly ESSER reports on its website, updates on the implementation of the state's ARP ESSER State Plan to the Board / SEA, and quarterly virtual/in-person updates to the public. As the Idaho ARP ESSER State Plan is implemented, the Board / SEA and Department of Education staff will continue to invite and engage all stakeholders including representation from students, families, tribes, civil rights organizations, including the Hispanic Commission, school staff, district administrators, special education administrators, charter school leaders, as well as advocates for children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and any other identified underserved students. Additional stakeholders include associations connected with education such as the PTA Association Board, staff from the Governor's office, business, commerce and industry leaders, and Board / SEA and State Department of Education staff.

2. Coordinating Funds: Describe to what extent the SEA has and will coordinate Federal COVID-19 pandemic funding and other Federal funding. This description must include:
    i. How the SEA and its LEAs 1) are using or have used prior to the submission of this plan and 2) plan to use following submission of this plan, Federal COVID-19 funding under the Coronavirus Aid, Relief, and Economic Security ("CARES") Act and the CRRSA Act to support a safe return to and safely maximize in-person instruction, sustain these operations safely, and address the disproportionate impact of the COVID-19 pandemic on individual student groups (including students from low-income families, children with disabilities, English learners, racial or ethnic minorities, students experiencing homelessness, children and youth in foster care, and migratory students);

    Complete the table below or provide a narrative description.

Table C1.

Funding Source	Prior/current SEA and LEA uses (including funding amounts, if applicable)	Planned SEA and LEA uses (including funding amounts, if applicable)
CARES Act ESSER I: $47,854,695 Idaho allocated 100% of its ESSER I funds, including the State Set-Aside Reserve to LEAs.	LEA: $43,069,226 total See Appendix F for LEAs' Reimbursement by Category	Idaho does not collect LEAs' future/planned uses of funds.
	$3,785,469 – LMS/Blended Learning	
	$1,000,000 – SEL activities	
CARES Act GEER I:	$1,036,000 –funds to Career Technical Ed for PD to teachers	Idaho does not collect LEAs' future/planned uses of funds.
	$742,000 – funds to Career Technical Ed for PD to teachers	
	$3,813,800 – funds to Idaho Digital Learning Alliance	
	$839,700 – funds to Idaho Public Television	
	$368,250 - STEM	
	$25,000 – Building Safety	
CRRSA Act ESSER II: $195,890,413	LEA: $176,301,372 total discretionary flow through. The Governor signed the supplemental appropriation into law May 10, 2021 and LEAs received access to half of these funds May 20, 2021 and the remaining funds July 1, 2021, per the legislature. Data on how LEAs spend these funds are not yet available.	100% of the State Set-Aside Reserve has been obligated. There are no additional planned uses of funds at the state level. The state does not collect LEAs' planned uses of funds.
	SEA: $19,589,041 total $11,851,302 – allocations to LEAs who do not receive a Title I-A allocation and low funded ESSER II LEAs $300,000 – administration costs $6,137,700 – HB22 $1,300,000 – Content and Curriculum Digital Tech	
CRRSA Act GEER II: $6,857,039	These funds have not been obligated yet.	

Response: In addition to the GEER funds, the Governor approved the funding request of the Board / SEA for flowthrough grants to LEAS administered by the Department:

- $99 M Special Distribution,
- $24,920,000 Blended Learning for devices, connectivity, professional development, assistive technology and a learning management system
- $1,000,000 for Technology for 60 LEAs with high poverty needs
- $1,000,000 for LEAs that did not receive a Title I-A allocation.

ii. To what extent ESSER I and ESSER II funds have been awarded to LEAs and, if funds have not yet been made available to LEAs, when they will be. In addition, please provide any available information on the total dollar amounts of ESSER I and ESSER II funds that have been obligated but not expended by the SEA and its LEAs, including whether the SEA is able to track LEA obligations.

Response: CARES Act ESSER I funds were awarded to LEAs on June 24, 2020. The Board / SEA allocated 100% of its 10% State Set-Aside Reserve to LEAs for LMS/Blended Learning and SEL activities. The Board / SEA and Department do not track LEA obligations, only reimbursements. In Idaho, Federal funds are subject to legislative appropriation. Governor Little signed the supplemental appropriation for CRRSA Act ESSER II funds into law May 10, 2021. LEAs received access to approximately half of these funds May 20, 2021 and will receive access to the remaining funds July 1, 2021, per the legislature. The 10% State Set-Aside Reserve of $19,589,041 has been obligated by the Board / SEA:

- $11,851,302 – allocations to LEAs who did not receive a Title I-A allocation and low funded ESSER II LEAs
- $300,000 – administration costs

The legislature approved:

- $6,137,700 – HB22 – an additional appropriation based on increased attendance for two Charter LEAs
- $1,300,000 – Content and Curriculum Digital Tech ($1,000,000 must be used for research-based programs to assist with the instruction of students with non-English or limited-English proficiency for learning loss while $300,000 may be used by the Department to contract for services that provide technology education opportunities and/or information technology certification to students and faculty that prepare students for college, career, or the workplace.

Idaho does not track LEA obligations.

iii. In supporting LEAs as they plan for the safe return to and continuity of in-person instruction and for meeting the academic, social, emotional, and mental health needs of students resulting from the COVID-19 pandemic, the extent to which the SEA is also using other Federal funding sources including but not limited to under the Elementary and Secondary Education Act of 1965 ("ESEA"), IDEA, Workforce Innovation and Opportunity Act ("WIOA"), funding for child nutrition services, and McKinney-Vento Homeless Assistance Act, and the funds to support the needs of students experiencing homelessness provided by section 2001(b)(1) of the ARP Act.[3]

Response: LEAs are highly encouraged to coordinate and leverage all their Federal funds, including ESEA, IDEA, McKinney-Vento Homeless Assistance Act, and child nutrition funds, to meet the academic, social, emotional, and mental health needs of students resulting from the COVID-19 pandemic as they plan for the safe return to and continuity of in-person instruction.

[3] Please note that the needs of students experiencing homelessness must be addressed (along with the other groups disproportionately impacted by the COVID-19 pandemic) through the use of the ARP ESSER SEA reservations and the required LEA reservation for the academic impact of lost instructional time; the funding provided to support the needs of students experiencing homelessness by section 2001(b)(1) of the ARP Act is in addition to the supports and services provided with ARP ESSER funds.

D. Maximizing State-Level Funds to Support Students

The Department recognizes that States have an extraordinary opportunity to address the disproportionate impact of the COVID-19 pandemic on underserved students through the ARP Act's required State set-asides to address the academic impact of lost instructional time, provide summer learning and enrichment programs, and provide comprehensive afterschool programs. In this section, SEAs will describe their evidence-based strategies for these resources.

1. Academic Impact of Lost Instructional Time: Describe how the SEA will use the funds it reserves under section 2001(f)(1) of the ARP Act (totaling not less than 5 percent of the State's total allocation of ARP ESSER funds) on evidence-based interventions to address the academic impact of lost instructional time by supporting the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs, and ensure that such interventions respond to students' academic, social, emotional, and mental health needs. The description must include:
    i. A description of the evidence-based interventions (e.g., providing intensive or high-dosage tutoring, accelerating learning) the SEA has selected, and the extent to which the SEA will evaluate the impact of those interventions on an ongoing basis to understand if they are working;

~~The Board / SEA has not chosen specific interventions, as those will be determined at the local level. The Board / SEA will require LEAs to use evidence-based interventions and to provide the appropriate research.~~
In an effort to level the playing field for small, rural districts, t~~T~~he Board / SEA will use 2.5% of the state reserve funds, as outlined in Section D.4. Emergency Needs, to provide funds to the Bureau of Educational Services for the Deaf and the Blind and LEAs who are receiving little to no funding through the ARP ESSER LEA funds, as distributed based on the Title I formulas. No other state reserve funds will be distributed to LEAs. Please see Section D.4. Emergency Needs for additional details regarding distribution of state reserve funds to LEAs.

The Board / SEA will use the state~~wide~~ reserve funds to address the impact of lost instructional time, through the following three targeted activities.

Data Systems, Research and Monitoring

The Board / SEA will use state-level funds to support expanding data systems needed for research regarding the impact of the pandemic and ongoing monitoring of the impact of strategies implemented by the state and LEAs. This will include costs to program the state longitudinal data system to support expanded data collection and costs related to analysis and research, including engaging with contractors as needed. A primary focus of this work will be ensuring we have research and data systems capacity to accurately identify students disproportionately affected by the pandemic, including research on the

impact on each of the student groups listed in A.3.i.-viii. Funds used for collecting, researching and monitoring the impact of loss instructional time and the impact of evidence-based interventions that support learning loss will be tracked separately from state-level funds designated for other purposes such as evidenced based summer learning and enrichment programs and evidenced based comprehensive afterschool programs. The use of funds will be tracked to assure they are only expended for allowable uses.

The Accountability Oversight Committee (AOC), an ad hoc committee of the Board / SEA, will review data related regarding the effectiveness of the state's implementation of the ARP ESSER Plan no less than two times per year. Based on this analysis, the AOC will make recommendations to the Board / SEA regarding any adjustments that should be considered to improve the use of funds or implementation. The data that will be included in the AOC's annual report is provided romanette ii below. The analysis will include a focus on the disproportionate impact of the pandemic on certain groups of students, including those listed in A.3.i-viii. In addition to the data outlined in romanette ii below, the AOC will review the state's interim assessment data. As a part of the Idaho's suite of standardized assessments, the Idaho Standards Achievement Test by Smarter Balanced includes the Smarter Balanced Interim Assessments. The Smarter Balanced Interim Assessments are provided at no cost to LEAs, and between 30% and 40% of the state's LEAs have used them in recent years as a part of progress monitoring and/or formative assessment. Moving forward, the Board / SEA will continue to strongly encourage LEAs to use the Interim Block and Focused Interim Block assessments throughout the year and the Department will provide professional development and communications to support LEAs in effectively using them. The AOC will review a sampling of the Smarter Balanced Interim Assessment data midyear to monitor progress and attempt to identify LEAs that are demonstrating success in accelerating student learning. The AOC recognizes the limitations of the interim assessment data and will take care in making interpretations and using the data.

Statewide Tools to Address Unfinished Learning

The Board / SEA has reviewed national data regarding the impacts of the pandemic and has considered anecdotal evidence received from LEAs has tentatively identified priorities for addressing learning gaps in our state: early English language arts / literacy skills (K-4), middle grades mathematics (4-9), and credit completion and course recovery for high school. The Board / SEA will be conducting an analysis of the state's data to confirm if these areas are those with the greatest need. Once the priority areas are confirmed, the Board / SEA and Department will communicate them to LEAs and will provide professional development and resources to support LEAs in addressing them.

The Board has created the Unfinished Learning Work Group, and has tasked the Unfinished Learning Work Group with identifying evidence-based tools for statewide use. The Unfinished Learning Work Group will work with the Board / SEA to develop specifications for resources and tools to be purchased through a statewide contract using ARP ESSER state reserve funds. These evidence-based tools will be provided to all LEAs for their use in support of accelerated learning. Once the evidence based practices have been identified the state plan will be updated to include the specific evidence based practices.

Professional Development

The Board / SEA will use state reserve funds to provide pProfessional development ~~will be provided~~ to LEAs, including administrators and teachers. Professional development will be focused~~,~~ on: a) using data to identify gaps in student learning caused by unfinished learning, with an emphasis on identifying students disproportionately impacted by the pandemic; and b) implementing accelerated learning strategies to address those gaps. Such strategies may include high-dosage tutoring, extended learning time interventions (during or before/after school), acceleration academies (focused instruction in one subject during vacation breaks), with an emphasis on ensuring strategies are tied closely to classroom content (and aligned to the state content standards) and designed to meet the needs of their local student populations.

In addition to strategies focused on addressing disrupted learning, the Board / SEA will use state reserve funds to ~~state will~~ provide professional development to LEAs regarding using ARP ESSER funds to increase resources available to students and families to meet students' social, emotional, and mental health needs and will strongly encourage LEAs to set aside funds for this purpose. The Idaho Rural Education Support Network and Idaho Digital Learning Academy have gathered a list of social, emotional, and mental health resources, and the Board / SEA and Department will partner with them to distribute the list to all LEAs. LEAs will be required to indicate how they are addressing these needs in their Use of Funds Plan, as outlined in Section E.

~~The Board / SEA will use state level funds to support the evaluation and ongoing monitoring of the impact of strategies implemented by LEAs. This will include costs to program the state longitudinal data system to support expanded data collection and costs related to analysis and research, including engaging with contractors as needed. It may also include providing funds to LEAs to manage data at the local level.~~

~~The Accountability Oversight Committee (AOC), an ad hoc committee of the Board / SEA, will review data related regarding the effectiveness of the state's implementation of the ARP ESSER Plan no less than two times per year. Based on this analysis, the AOC will make recommendations to the Board / SEA regarding any adjustments that should be considered to improve the use of funds~~

~~or implementation. The data that will be included in the AOC's annual report is provided romanette ii below. In addition to that data, the AOC will review the state's interim assessment data. As a part of the Idaho's suite of standardized assessments, the Idaho Standards Achievement Test by Smarter Balanced includes the Smarter Balanced Interim Assessments. The Smarter Balanced Interim Assessments are provided at no cost to LEAs, and between 30% and 40% of the state's LEAs have used them in recent years as a part of progress monitoring and/or formative assessment. Moving forward, the Board / SEA will continue to strongly encourage LEAs to use the Interim Block and Focused Interim Block assessments throughout the year and the Department will provide professional development and communications to support LEAs in effectively using them. The AOC will review a sampling of the Smarter Balanced Interim Assessment data midyear to monitor progress and attempt to identify LEAs that are demonstrating success in accelerating student learning. The AOC recognizes the limitations of the interim assessment data, and will take care in making interpretations and using the data.~~

ii. How the evidence-based interventions will specifically address the disproportionate impact of COVID-19 on certain groups of students, including each of the student groups listed in question A.3.i.-viii. When possible, please indicate which data sources the SEA will use to determine the impact of lost instructional time; and

~~The Board / SEA will require LEAs to indicate the evidence-based strategies they will use to address the needs of individual students, including students within subgroups disproportionally impacted by the COVID-19 pandemic, in their Use of Funds Plans, as outlined in Section E.~~

Idaho's previous assessment data has demonstrated gaps between subgroups of students and their peers, including students from low socioeconomic backgrounds, those receiving special education services, English Learners, and students from diverse ethnic backgrounds. The Board / SEA is committed to determining the extent to which these gaps have been exacerbated by the pandemic. As previously indicated, the Board / SEA has reviewed national data related to the impacts of the pandemic and has engaged in preliminary discussions regarding prioritizing efforts to address learning gaps. However, the Board / SEA is looking forward to reviewing Idaho's data to determine if the national trends related to learning gaps and disproportionate impact hold true in our state. As outlined in Section D1.i., above, the Board / SEA will use state reserve funds to support expansion of our data and research capacities to ensure we have an accurate understanding of the student groups disproportionately affective by the COVID-19 pandemic. The Board / SEA has tasked the AOC with reviewing the data and reporting to the Board. An emphasis of the AOC's analysis will be the disproportionate impact of the pandemic on certain groups of students, including those listed in A.3.i-viii.

The statewide data to be used to determine the disproportionate impact of the pandemic on certain groups of students will be compiled by the Department annually into Idaho's Student Achievement Report. The Student Achievement Report will be analyzed by the AOC, and the committee will provide recommendations to the Board regarding policies and strategies that need to be adjusted to address student needs and improve achievement. The majority of the data to be included in the Student Achievement Report is already collected by the state; however, the Department and the AOC will be comparing and analyzing the data in new ways in order to identify students disproportionately impacted by the pandemic. The 2022 Student Achievement Report will include the following data:

- Opportunity to Learn Survey Results
- Longitudinal representation of cohort performance on state standardized assessments, including the Idaho Standards Achievement Test and the Idaho Reading Indicator
- Comparison of performance on the state standardized assessment by student subgroups (low socioeconomic, special education, English learners, homeless, migrant, and foster).
- Comparison of performance on state standardized assessment by locale designation (rural vs. urban)
- Comparison of performance on state standardized assessment by attendance
- Comparison of graduation rates by student subgroups and by attendance
- Comparison of secondary student grades (with a focus on failure grade rates) by student subgroups and by attendance
- Comparison of Go On rates by student subgroups

As outlined in Sections A and E of this plan, the state will distribute the AOC's Annual Report, including the Student Achievement Report to all LEAs. The Board / SEA will use state reserve funds, as outlined in Section D1.i. above, to provide professional development to ~~state will also~~ support LEAs in conducting similar analyses of their LEA-level data. ~~Finally,~~ The Board / SEA and Department will encourage LEAs to consider other locally available data, such as benchmark and formative assessments and teacher feedback, that they may use to identify and support students disproportionately impacted by the pandemic. Further, the professional development provided by the state will include information regarding how to use accelerated learning strategies to address the needs of students disproportionally impacted by the pandemic, including how strategies can be adjusted to target the student groups listed in A.3.i.-viii. LEAs will also be provided with evidence-based tools purchased by the state to address the needs of all students, with an emphasis on those ~~dispropriationately~~disproportionately impacted by the pandemic. Such strategies may include high-dosage tutoring, extended learning time interventions (during or before/after school), acceleration academies (focused instruction in one subject during vacation breaks), with an emphasis on ensuring

strategies are tied closely to classroom content (and aligned to the state content standards) and designed to meet the needs of their local student populations.

~~The Board / SEA will~~ Finally, the Board / SEA will require LEAs to indicate the evidence-based strategies they will use to address the needs of individual students, including students within subgroups disproportionally impacted by the COVID-19 pandemic, in their Use of Funds Plans, as outlined in Section E.

iii. The extent to which the SEA will use funds it reserves to identify and engage 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and 2) students who did not consistently participate in remote instruction when offered during school building closures.

The Board / SEA will review the AOC's Annual Report, which will include an analysis of data comparing the performance of students on statewide standardized assessments based on their enrollment (movement between LEAs) and attendance, including those identified as chronically absent. Professional development will be provided to LEAs regarding use of the statewide data and how they can conduct similar analysis at the LEA level. LEAs will be guided to use their attendance and absenteeism data to identify students who missed the most instruction during the 2019-2020 and 2020-2021 school years, and those whose attendance is problematic during the 2021-2022 school year. To support LEAs in addressing the needs of students who missed substantial instruction, professional development will be provided to LEAs regarding how they can use a tiered system of support to improve student attendance and engagement. The tiered system of support will be based on resources available through AttendanceWorks, as previously recommended to the Board by the Accountability Oversight Committee.

The Board / SEA will offer LEAs with no or low formula-based allocations and those who use their LEA-level ARP ESSER funds and have exhausted other funding sources, but still need additional funds to implement the tiered system of support, the opportunity to apply for funds from the state.

2. Evidence-Based Summer Learning and Enrichment Programs: Describe how the SEA will use the funds it reserves under section 2001(f)(2) of the ARP Act (totaling not less than 1 percent of the State's total allocation of ARP ESSER funds) for evidence-based summer learning and enrichment programs, including those that begin in Summer 2021, and ensure such programs respond to students' academic, social, emotional, and mental health needs. The description must include:

i. A description of the evidence-based programs that address the academic, social, emotional, and mental health needs of students (e.g., providing intensive or

high-dosage tutoring, accelerating learning) the SEA has selected, and the extent to which the SEA will evaluate the impact of those programs;

~~The Board / SEA has not chosen specific interventions, as those will be determined at the local level. The Board / SEA will require LEAs to use evidence-based interventions when implementing summer programming.~~

As previously indicated, the Board / SEA will use 2.5% of the state reserve funds, as outlined in Section D.4. Emergency Needs, to provide funds to the Idaho Bureau of Educational Services for the Deaf and the Blind and LEAs who are receiving little to no funding through the ARP ESSER LEA funds, as distributed based on the Title I formulas. No other state reserve funds will be distributed to LEAs. The Bureau of Educational Services for the Deaf and the Blind and LEAs who receive funds through the Emergency Needs set aside may use those funds for summer learning and enrichment programs. Please see Section D.4. Emergency Needs for additional details regarding distribution of state reserve funds to LEAs.

The Board / SEA will use the state reserve funds for summer learning and enrichment programs in the following ways.

Data Systems, Research and Monitoring

As outlined in Section D1.i. above, the Board / SEA will use state-level funds to support expanding data systems needed for research regarding the impact of the pandemic and ongoing monitoring of the impact of strategies implemented by the state and LEAs, including summer learning and enrichment programs. Funds used for collecting, researching and monitoring the impact of loss instructional time and the effectiveness of evidence-based summer learning and enrichment programs will be tracked separately from funding used for identifying the effectiveness of evidence based interventions that support learning loss and the effectiveness of evidenced based comprehensive afterschool programs.

Beginning with summer 2021, LEAs will be required to submit data regarding student enrollment and attendance in summer programs. As the state has not previously collected this data, state reserve funds will be used to program the statewide longitudinal data system for this data collection, and to provide training to districts to ensure they collect and report the data correctly. Gathering this data will allow the Board / SEA to conduct an evaluation of the effectiveness of summer programs. The state may utilize the following data points to evaluate the effectiveness of summer programs:

- Comparison of student scores on the spring Idaho Reading Indicator (prior to participation in summer) and the fall Idaho Reading Indicator (after participation) for grades K-3;

- Comparison of students scores on the spring Idaho Standards Achievement Test by Smarter Balanced and the Smarter Balanced Interim Comprehensive Assessment administered at the end of summer programs for grades 4-8;
- Student grades for secondary students enrolled in specific courses for the purposes of credit recovery; and
- LEA established pre and post test results.

Statewide Tools to Address Unfinished Learning

As described in Section D1.i. above, t~~T~~he Board / SEA will use state reserve funds to purchase evidence-based tools to support accelerated learning. The tools will be made available to all LEAs and may be used by LEAs in summer learning and enrichment programs. The funds reserved under this section will only be used for evidence based summer learning and enrichment programs and shall be tracked separately from funds used for other purposes. Once the evidence based practices have been identified the state plan will be updated to include the specific evidence based practices. The use of funds will be tracked to assure they are only expended for allowable uses. Once identified, the state plan will be updated to include specific evidence-based summer learning and enrichment programs.

Professional Development and Resource Distribution

The Board / SEA will use state reserve funds to provide professional development focused on evidence-based summer learning and enrichment. Idaho is participating in the Summer Learning and Enrichment Collaborative, and the Board / SEA and Department will gather and ~~and Department will~~ distribute resources to LEAs regarding evidence-based approaches to implementing effective summer programs that address students' academic and social, emotional, and mental health needs, with an emphasis on ~~.~~ supporting students disproportionately affected by the pandemic. Professional development aligned to these resources will be provided. Evidence-based practices included in the professional development and/or distributed resources could include:

- facilitation by credentialed teachers with content knowledge;
- focus on single-subject intensives;
- use of rigorous curricula aligned to the state content standards and consistent with the curricula used by the LEA during the school year;
- high-quality enrichment experiences; and
- an emphasis on consistent attendance and engagement.

~~Beginning with summer 2021, LEAs will be required to submit data regarding student enrollment and attendance in summer programs. Gathering this data will allow the Board / SEA to conduct an evaluation of the effectiveness of~~

~~summer programs. The state may utilize the following data points to evaluate the effectiveness of summer programs:~~

- ~~Comparison of student scores on the spring Idaho Reading Indicator (prior to participation in summer) and the fall Idaho Reading Indicator (after participation) for grades K-3;~~
- ~~Comparison of students scores on the spring Idaho Standards Achievement Test by Smarter Balanced and the Smarter Balanced Interim Comprehensive Assessment administered at the end of summer programs for grades 4-8;~~
- ~~Student grades for secondary students enrolled in specific courses for the purposes of credit recovery; and~~
- ~~LEA established pre and post test results.~~

ii. How the evidence-based programs will specifically address the disproportionate impact of COVID-19 on certain groups of students, including each of the student groups listed in question A.3. i.--viii. When possible, please indicate which data sources the SEA will use to identify students most in need of summer learning and enrichment programs; and

As outlined in Section D1.i-ii., above, the Board / SEA will use state reserve funds to support expansion of our data and research capacities to ensure we have an accurate understanding of the student groups disproportionately affective by the COVID-19 pandemic. The Board / SEA has tasked the AOC with reviewing the data (outlined in D1.ii) and reporting to the Board. An emphasis of the AOC's analysis will be the disproportionate impact of the pandemic on certain groups of students, including those listed in A.3.i-viii.

The Board / SEA will also use state reserve funds to provide professional development to LEAs to support them in conducting internal analyses to identify students within their LEA disproportionately impacted by the pandemic. The Board / SEA and Department will guide LEAs to use spring data, including statewide standardized assessment results and local assessments, to review the needs of individual students and determine which students should be enrolled in summer programs. The Board / SEA will guide LEAs to provide prioritized enrollment in summer learning and enrichment programs to students in their LEA identified as disproportionately affected by the pandemic. ~~Professional development will provided that includes how LEAs can review their student subgroup data to identify students disproportionately impacted by the pandemic, and how accelerated learning strategies can be implemented to ensure students' individual learning gaps and needs are addressed.~~

Idaho is participating in the Summer Learning and Enrichment Collaborative, and the Board / SEA and Department will gather and distribute ~~information~~ resources and provide aligned professional development to LEAs, as outlined in Section D2.i. above, ~~to LEAs~~ regarding ~~effective~~ evidence-based strategies

for meeting students' needs, ~~particularly~~ with an emphasis on targeting strategies to effectively support students disproportionately affected by the pandemic.

~~The Board / SEA and Department will guide LEAs to use spring data, including statewide standardized assessment results, to review the needs of individual students and determine which students should be enrolled in summer programs. Professional development will provided that includes how LEAs can review their student subgroup data to identify students disproportionately impacted by the pandemic, and how accelerated learning strategies can be implemented to ensure students' individual learning gaps and needs are addressed.~~

iii. The extent to which the SEA will use funds it reserves to identify and engage 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and 2) students who did not consistently participate in remote instruction when offered during school building closures.

The Board / SEA will use enrollment, attendance, and absenteeism data to identify students who missed the most learning during the 2019-2020 and 2020-2021 school years, as outlined in Section D.1.iii above. Professional development will be provided to guide LEAs in using their attendance and absenteeism data to identify the students who missed the most instruction within their LEA, and LEAs will be guided to prioritize those students for enrollment in summer programs.

Additionally, professional development regarding implementing a tiered support system to address the needs of students demonstrating attendance issues will be provided to LEAs beginning in the 2021-2022 school year.

3. Evidence-Based Comprehensive Afterschool Programs: Describe how the SEA will use the funds it reserves under section 2001(f)(3) of the ARP Act (totaling not less than 1 percent of the State's total allocation of ARP ESSER funds) for evidence-based comprehensive afterschool programs (including, for example, before-school programming), and ensure such programs respond to students' academic, social, emotional, and mental health needs. The description must include:

i. A description of the evidence-based programs (e.g., including partnerships with community-based organizations) the SEA has selected, and the extent to which the SEA will evaluate the impact of those programs;

~~The Board / SEA has not chosen specific interventions, as those will be determined at the local level. The Board / SEA will require LEAs to use evidence-based strategies in implementing before and afterschool programs.~~
As previously indicated, the Board / SEA will use 2.5% of the state reserve funds, as outlined in Section D.4. Emergency Needs, to provide funds to the Idaho Bureau of Educational Services for the Deaf and the Blind and LEAs who

are receiving little to no funding through the ARP ESSER LEA funds, as distributed based on the Title I formulas. No other state reserve funds will be distributed to LEAs. The Bureau of Educational Services for the Deaf and the Blind and LEAs who receive funds through the Emergency Needs set aside may use those funds to implement evidence-based comprehensive after school programs. Please see Section D.4. Emergency Needs for additional details regarding distribution of state reserve funds to LEAs.

The Board / SEA will use the state reserve funds to support implementation of evidence-based comprehensive after school programs in the following ways.

Data Systems, Research and Monitoring

As outlined in Section D1.i. above, the Board / SEA will use state-level funds to support expanding data systems needed for research regarding the impact of the pandemic and ongoing monitoring of the impact of strategies implemented by the state and LEAs, including after school programs. Funds used for collecting, researching and monitoring the impact of loss instructional time and the effectiveness of evidenced based comprehensive afterschool programs will be tracked separately from funding used for identifying the effectiveness of evidence based interventions that support learning loss and the effectiveness of evidence-based summer learning and enrichment programs. Once identified, the state plan will be updated to include specific evidence-based comprehensive after school programs.

Beginning in the 2021-2022 school year, the Board / SEA will require LEAs to submit data about student enrollment and attendance in before and afterschool programs. As the state has not previously collected this data, state reserve funds will be used to program the statewide longitudinal data system for this data collection, and to provide training to districts to ensure they collect and report the data correctly. The Board / SEA will use statewide standardized assessment data, including interim assessments when appropriate, to compare the performance of students attending before and afterschool programs to their peers who do not attend. The Board / SEA will use state-level funds to support data gathering and analysis, as needed.

Statewide Tools to Address Unfinished Learning

As described in Section D1.i. above, the Board / SEA will use state reserve funds to purchase evidence-based tools to support accelerated learning. The tools will be made available to all LEAs and may be used by LEAs within their after school programs. The funds reserved under this section will only be used for evidence based afterschool programs and shall be tracked separately from funds used for other purposes. Once the evidence based practices have been identified the state plan will be updated to include the specific evidence based

practices. The use of funds will be tracked to assure they are only expended for allowable uses.

Professional Development

The Board / SEA will use state reserve funds to provide pProfessional development ~~will be provided~~to LEAs on effective implementation of accelerated learning strategies within the after school environment. Further, the Board / SEA will strongly encourage LEAs to begin or expand partnerships with non-profits and other community agencies that provide or support before and after school programming, and will ensure LEAs understand that they may use LEA-level funds to support these partnerships. The Board / SEA will require LEAs to report how their before and afterschool programs were created, including if they have engaged in new community partnerships or built upon existing partnerships, and to indicate if the number of available spots in before and afterschool programs has increased using ARP ESSER funds. The SEA will also require LEAs to provide information regarding their efforts to increase attendance and participation in before and afterschool programs (or maintain high attendance if previous data indicates it was already strong).

~~Beginning in the 2021-2022 school year, the Board / SEA will require LEAs to submit data about student enrollment and attendance in before and afterschool programs. The Board / SEA will use statewide standardized assessment data, including interim assessments when appropriate, to compare the performance of students attending before and afterschool programs to their peers who do not attend. The Board / SEA will use state-level funds to support data gathering and analysis, as needed.~~

ii. How the evidence-based programs will specifically address the disproportionate impact of COVID-19 on certain groups of students, including each of the student groups listed in question A.3.i.-viii. When possible, please indicate which data sources the SEA will use to identify students most in need of comprehensive afterschool programming; and

As outlined in Section D1.i-ii., above, the Board / SEA will use state reserve funds to support expansion of our data and research capacities to ensure we have an accurate understanding of the student groups disproportionately affective by the COVID-19 pandemic. The Board / SEA has tasked the AOC with reviewing the data (outlined in D1.ii) and reporting to the Board. An emphasis of the AOC's analysis will be the disproportionate impact of the pandemic on certain groups of students, including those listed in A.3.i-viii.

The Board / SEA will also use state reserve funds to provide professional development to LEAs to support them in conducting internal analyses to identify students within their LEA disproportionately impacted by the pandemic. The Board / SEA and Department will guide LEAs to use data,

including statewide standardized assessment results, interim assessments, and/or locally-chosen progress monitoring, to review the needs of individual students and determine which students should be enrolled in before and afterschool programs. The Board / SEA will guide LEAs to provide prioritized enrollment in summer learning and enrichment programs to students in their LEA identified as disproportionately affected by the pandemic.

The Board / SEA will use state reserve funds to provide pProfessional development ~~will provided that includes how~~to LEAs ~~can~~ regarding implementing evidence-based accelerated learning strategies in after school programs ~~review their student subgroup data to identify student disproportionately impacted by the pandemic, and how accelerated learning strategies can be implemented~~ to ensure students' individual learning gaps ~~and needs~~ are addressed, with an emphasis on targeting strategies to effectively support students disproportionately affected by the pandemic.

iii. the extent to which the SEA will use funds it reserves to identify and engage 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and 2) students who did not consistently participate in remote instruction when offered during school building closures.

The Board / SEA will use enrollment, attendance, and absenteeism data to identify students who missed the most learning during the 2019-2020 and 2020-2021 school years, as outlined in Section D.1.iii above. Professional development will be provided to guide LEAs in using their attendance and absenteeism data to identify the students who missed the most instruction within their LEA, and LEAs will be guided to prioritize those students for enrollment in summer before and afterschool programs.

Additionally, professional development regarding implementing a tiered support system to address the needs of students demonstrating attendance issues will be provided to LEAs beginning in the 2021-2022 school year.

4. Emergency Needs: If the SEA plans to reserve funds for emergency needs under section 2001(f)(4) of the ARP Act to address issues responding to the COVID-19 pandemic, describe the anticipated use of those funds, including the extent to which these funds will build SEA and LEA capacity to ensure students' and staff's health and safety; to meet students' academic, social, emotional, and mental health needs; and to use ARP ESSER funds to implement evidence-based interventions.

The Board / SEA will set aside 2.5% of the total state reserve allocation as ~~use~~ the statewide Eemergency Nneeds funds, which will be distributed ~~to provide funding~~ to LEAs that receive no or low formula-based ARP ESSER LEA allocations based on Title I. ~~to support their implementation of accelerated learning strategies.~~ Additionally, the Board / SEA will use a portion of the Emergency Needs funds to provide funding

to the Idaho Bureau of Educational Services for the Deaf and the Blind, as they have not qualified for allocations, but have students in need of services.

The Idaho Bureau of Education Services for the Deaf and the Blind and LEAs with no or low ARP ESSER LEA allocations will receive funds through a state established formula. The Idaho Bureau of Education Services for the Deaf and the Blind and LEAs with no or low LEA ARP ESSER allocations will be required to create and submit Use of Funds Plans, as outlined in Section E, to indicate how they will use their funds, including how they will address the academic, social emotional, and mental health needs of students, with an emphasis on students disproportionately impacted by the pandemic, including the student groups listed in A.3.i.-viii and those who missed the most in-person instruction during the 2019-2020 or 2020-2021 school years. The Board / SEA will allow the Idaho Bureau of Education Services for the Deaf and the Blind and LEAs with no or low ARP ESSER LEA allocations to use the funds provided to them to address the impact of lost instructional time, and to implement evidence-based summer learning and enrichment programs, and/or comprehensive afterschool programs, based on the identified needs of their student populations.

E. Supporting LEAs in Planning for and Meeting Students' Needs

The Department recognizes that the safe return to in-person instruction must be accompanied by a focus on meeting students' academic, social, emotional, and mental health needs, and by addressing the opportunity gaps that existed before – and were exacerbated by – the pandemic. In this section, SEAs will describe how they will support their LEAs in developing high-quality plans for LEAs' use of ARP ESSER funds to achieve these objectives.

1. LEA Plans for the Use of ARP ESSER Funds: Describe what the SEA will require its LEAs to include in LEA plans consistent with the ARP ESSER requirements for the use of ARP ESSER funds, how the SEA will require such plans to be made available to the public, and the deadline by which the LEA must submit its ARP ESSER plan (which must be a reasonable timeline and should be within no later than 90 days after receiving its ARP ESSER allocation). The LEA plans must include, at a minimum:

    i. The extent to which and how the funds will be used to implement prevention and mitigation strategies that are, to the greatest extent practicable, in line with the most recent CDC guidance, in order to continuously and safely operate schools for in-person learning;
    ii. How the LEA will use the funds it reserves under section 2001(e)(1) of the ARP Act (totaling not less than 20 percent of the LEA's total allocation of ARP ESSER funds) to address the academic impact of lost instructional time through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs;
    iii. How the LEA will spend its remaining ARP ESSER funds consistent with section 2001(e)(2) of the ARP Act; and
    iv. How the LEA will ensure that the interventions it implements, including but not limited to the interventions under section 2001(e)(1) of the ARP Act to address

the academic impact of lost instructional time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students.

Response: Ensuring LEAs develop high-quality thoughtful plans identifying how they will use their ARP ESSER funds is critical in addressing the significant impact of COVID-19, including keeping schools open for in-person instruction, lost instructional time, and the social and emotional health of both students and staff. The Department has an important role in supporting LEAs in meeting the Federal Register requirements for the ARP ESSER Plan. An LEA ARP ESSER Use of Funds template was developed and will be distributed to LEAs to complete. The Board / SEA expects each LEA's local board of trustees to guide collaborative community efforts to develop their Use of Funds Plans, and is requiring the LEA Plans to be signed by the LEA's superintendent or charter administrator and the president of the LEA's local board of trustees prior to submitting the plan to the Department. See Appendix H for the LEA ARP ESSER Use of Funds template. This template requires LEAs to address the impact of lost instruction time on academics, social, emotional, and mental health needs of all students with a targeted focus on the students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory children. Additionally, Idaho requires LEAs to address interventions to support Native American students and Hispanic students experiencing gaps. These underserved population groups are included in the LEA plan template.

Technical assistance and support in developing the plan will be provided to LEAs until all plans are submitted to the state. State support includes an upcoming webinar in June on the four tiers of evidence-based interventions. The Comprehensive Center 17 organized an Idaho team that is currently participating in the Summer Learning and Enrichment Collaborative. This professional learning community supports organizations that are partnering to provide summer programs that engage students academically, socially and emotionally, particularly those students hardest hit by the pandemic. Information is posted on the ARP ESSER webpage at https://www.sde.idaho.gov/federal-programs/american-rescue-plan/index.html , and LEAs are invited to visit the Collaborative website and engage in the series of virtual learning offerings. ESEA Federal Programs coordinators are planning a mini-webinar series later this summer to share specific ideas on how ESSER funds can be used to support the at-risk subgroup populations. This includes students identified as homeless, children and youth in foster care, migratory students, and students in correctional facilities.

LEAs who want to move to a community school model are encouraged. Community schools are an evidence-based framework for coordinating recovery efforts and actively engaging families and partner organizations. The Federal Programs' FACE coordinator is actively involved in supporting LEAs to become community schools. On June 10, 2021, a virtual learning presentation will provide LEAs information on how ESSER funds can

support the practical implementation of the community school strategy, ongoing professional development and implementation support. An additional presentation is planned to provide LEAs information on the importance of stakeholder involvement in developing and revising their Back-to-School plans and the LEA ARP ESSER Use of Funds plan.

2. LEA Consultation: Describe how the SEA will, in planning for the use of ARP ESSER funds, ensure that, consistent with the ARP ESSER requirements], its LEAs engage in meaningful consultation with stakeholders, including, but not limited to:

    i. students;
    ii. families;
    iii. school and district administrators (including special education administrators); and
    iv. teachers, principals, school leaders, other educators, school staff, and their unions.

    The LEA must also engage in meaningful consultation with each of the following to the extent present in or served by the LEA:

    i. Tribes;
    ii. civil rights organizations (including disability rights organizations); and
    iii. stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children and youth in foster care, migratory students, children who are incarcerated, and other underserved students.

    The description must also include how the SEA will ensure that LEAs provide the public the opportunity to provide input in the development of the LEA's plan for the use of ARP ESSER funds and take such input into account.

Response: As part of the LEA ARP ESSER Plan – Use of Funds, LEAs must identify the stakeholder roles providing input, describe the process, including timeline, for involving stakeholders, and describe how the public was given an opportunity to provide input in the development of the plan. Involving stakeholders includes meaningful participation in conversations, discussions, and meetings where plan components are addressed. Examples of obtaining public input could include conducting a public hearing, posting the plan on the LEA's website and soliciting comment, and conducting a survey on sections of the plan. The Department will ensure LEAs are aware of resources available to develop their plan and ensure stakeholder input is included. Staff are currently scheduling a mini-webinar series that includes stakeholder involvement in ESSER use of funds planning and program use of funds for the underserved populations.

3. Describe how the SEA will support and monitor its LEAs in using ARP ESSER funds. The description must include:

i. How the SEA will support and monitor its LEAs' implementation of evidence-based interventions that respond to students' academic, social, emotional, and mental health needs, such as through summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs – including the extent to which the SEA will collect evidence of the effectiveness of interventions employed;

Response: The LEA ARP ESSER Plan template requires the LEA to describe how it will consistently monitor student progress and effectiveness of the strategies/interventions implemented to address gaps in student learning and well-being. The Department will review LEA plans for inclusiveness and will provide direct support for LEAs with gaps in their plans. Information from LEA plans will be used to devise ongoing specific support plans and deliver through existing state support mechanisms.

The Department will collaborate with federal technical assistance providers (e.g., Region 17 Comprehensive Center), to provide professional development and resource support to LEA staff on topics to be determined through analysis of developed LEA plans. It is anticipated, but not limited to, the following topics:

- Acceleration Academies
- Devising and best utilizing additional instructional time
    - Before or After School
    - Additional School Days
    - Summer School
- Common formative assessments
- Early learning (K-4 literacy)
- Extended day partnerships (CBOs)
- Extracurricular Activities
- High-quality tutoring
- Mastery learning/Project-based learning
- Multi-tiered system of supports
- Narrowing standards
- SEL and mental health supports
- Strategic staffing (teacher advocates, advisory, looping)
- Student voice and perception
- Transition supports (Pre-K-Elem; Elem- MS; MS-HS; HS-post-secondary/ career/beyond)
- Four tiers of evidence-based interventions

ii. How the SEA will support and monitor its LEAs in specifically addressing the disproportionate impact of the COVID-19 pandemic on certain groups of students, including each of the student groups listed in question A.3.i.-viii; and

Response: The Accountability Oversight Committee (AOC) is an ad-hoc committee of the Board / SEA that provides the Board with recommendations related to assessment

and accountability. The AOC's annual report is focused on analyzing data and providing recommendations regarding policy and implementation strategies the state can put in place to improve student achievement. For its fiscal year 2022 report, the AOC will be including a special focus analyzing the effects of the COVID 19 pandemic on student achievement, including a review of data to determine if disparate impacts exist between subgroups of students. The Department will compile the data into the 2020-2021 Student Achievement Report, and the AOC will analyze the data and make recommendations to the Board / SEA regarding its use. The data will be distributed to LEAs to improve their understanding of any disparate impacts on student subgroups. Professional development will be provided to LEAs on conducting analysis of local data to identify disproportionately impacted students within their LEA and to support development of appropriate intervention strategies.

iii. How the SEA will support and monitor its LEAs in using ARP ESSER funds to identify, reengage, and support students most likely to have experienced the impact of lost instructional time on student learning, such as:
    1. Students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years;
    2. Students who did not consistently participate in remote instruction when offered during school building closures; and
    3. Students most at-risk of dropping out of school.

Response: The LEA ARP ESSER Use of Funds template includes a section on identifying, re-engaging, and supporting students who have experienced the impact of unfinished learning. These data will be collected from the LEA plan templates and analyzed at the state level to identify the largest gaps. The state will share the information with LEAs, and these data will identify the areas of greatest need which will inform technical assistance and professional development to support LEAs.

4. Describe the extent to which the SEA will support its LEAs in implementing additional strategies for taking educational equity into account in expending ARP ESSER funds, including but not limited to:

    i. Allocating funding both to schools and for districtwide activities based on student need, and
    ii. Implementing an equitable and inclusive return to in-person instruction. An inclusive return to in-person instruction includes, but is not limited to, establishing policies and practices that avoid the over-use of exclusionary discipline measures (including in- and out-of-school suspensions) and creating a positive and supportive learning environment for all students.

Response: In the LEA ARP ESSER Use of Funds template, LEAs must describe how remaining funds will be allocated to schools and for districtwide activities based on student need to support student success both equitably and inclusively. These data will provide a state-level view of where professional development and support is needed. Additionally, the Board / SEA has approved the use of SEA set-aside/reserve fund for LEAs that do not receive a Title I-A allocation and, therefore, do not receive an ESSER

formula allocation in recognition of their COVID pandemic needs that require funding to address. As a result, with the ESSER I round of funding, LEAs that did not receive a Title -A allocation received "equitable like" funding from one of the Governor's COVID relief funding sources. With CRRSA Act ESSER II and ARP ESSER, the Board / LEA approved funding these same LEAs using monies from the State Set-Aside Reserve.

In an effort to provide financial transparency, the Every Student Succeeds Act (ESSA) requires public schools to report per-pupil federal and non-federal costs, and for states to collect and publish this information. Idaho reports this information on its report card website at https://idahoschools.org/ under the Non-Academics section of each LEA's page. The new maintenance of equity requirement under the American Rescue Plan (ARP) will further protect funding levels for those high poverty LEAs and schools.

F. Supporting the Educator Workforce

The Department recognizes the toll that the COVID-19 pandemic has taken on the Nation's educators as well as students. In this section, SEAs will describe strategies for supporting and stabilizing the educator workforce and for making staffing decisions that will support students' academic, social, emotional, and mental health needs.

1. Supporting and Stabilizing the Educator Workforce:

   i. Describe the extent to which the State is facing shortages of educators, education administration personnel, and other school personnel involved in safely reopening schools, and the extent to which they vary by region/type of school district and/or groups of educators (e.g., special educators and related services personnel and paraprofessionals; bilingual or English as a second language educators; science, technology, engineering, and math ("STEM") educators; career and technical education ("CTE") educators; early childhood educators). Cite specific data on shortages and needs where available.

   Complete the table below, changing or adding additional rows as needed, or provide a narrative description.

   Table F1.

Area	2018-2019 Idaho State Student to Area Ratio*	2019-2020 Idaho State Student to Area Ratio*	2020-2021 Idaho State Student to Area Ratio*
Special educators	24 special education students per special educator	23 special education students per special educator	21 special education students per special educator
Paraprofessionals – special education	11 special education students per special education paraprofessional	10 special education students per special education paraprofessional	11 special education students per special education paraprofessional

Area	2018-2019 Idaho State Student to Area Ratio*	2019-2020 Idaho State Student to Area Ratio*	2020-2021 Idaho State Student to Area Ratio*
English as a second language educators	180 English language students per English as a second language educator	145 English language students per English as a second language educator	129 English language students per English as a second language educator
Paraprofessionals – English as a second language	103 English language students per English as a second language paraprofessional	113 English language students per English as a second language paraprofessional	104 English language students per English as a second language paraprofessional
School counselors	421 students per school counselor 31 out of 176 LEAs had no school counselors	413 students per school counselor 31 out of 180 LEAs had no school counselors	403 students per school counselor 39 out of 185 LEAs had no school counselors
Social workers	5796 students per school social worker 144 out of 176 LEAs had no school social workers	5673 students per school social worker 149 out of 180 LEAs had no school social workers	5822 students per school social worker 152 out of 185 LEAs had no school social workers
Nurses	1969 students per school nurse 130 out of 176 LEAs had no school nurses	1902 students per school nurse 131 out of 180 LEAs had no school nurses	1825 students per school nurse 135 out of 185 LEAs had no school nurses
School psychologists	1755 students per school psychologist 107 out of 176 LEAs had no school psychologists	1686 students per school psychologist 109 out of 180 LEAs had no school psychologists	1704 students per school psychologist 117 out of 185 LEAs had no school psychologists

*The number for each area is determined by an individual serving in at least one (1) applicable assignment and counts that person as one individual (full or part time), and does not include those who were contracted by outside vendors.

ii. Describe how the SEA will assist its LEAs in identifying the most urgent areas of shortages or potential shortages, with particular plans for individual LEAs facing the most significant needs (e.g., by avoiding layoffs, providing high-quality professional learning opportunities, and addressing the impact of stress or trauma on educators). Include a description of how other Federal COVID-19 funding (e.g., ESSER and GEER funds under the CARES Act and CRRSA Act) have already been used to avoid layoffs during the COVID-19 pandemic.

Response: To recruit and retain certificated individuals in the identified shortage areas, the Department will provide the following professional development opportunities which is in alignment with the second recommendation of the Educator Pipeline Subcommittee of the Our Kids, Idaho's Future – Final Report to continue to grow statewide professional development efforts for educators:

- The Department partnered with NNU to develop behavioral health and wellness professional development specific to grade level. For a list of opportunities click here.
- Free Youth Mental Health First Aid twice a month
- Free Suicide Prevention Gatekeeper training, both online and community trainings
- Various workshops on behavioral health and wellness at the annual Prevention and Support Conference
- Various workshops on mental health at Idaho School Mental Health conference, in collaboration with the Idaho School Counselors Association, the Idaho School Psychologist Association, and the Association of Idaho School Social Workers.
- Implementation and technical support for student wellness programs in Idaho elementary, middle, and high schools via Idaho Lives Project and Sources of Strength.
- Management and oversight of the Garrett Lee Smith Grant and the ID-AWARE (Addressing Wellness and Resilience in Education) Grant.
- SEA provides PD for educators with a special education focus throughout the year through the SEA and SESTA. For a list of trainings please see the ITC link at https://idahotc.com/

Idaho LEAs have had access to CARES Act ESSER funds since June 24, 2020. Approximately, half of CARES Act funds have been expended and drawn down from LEAs as of May 3, 2021. For CARES Act ESSER, 25% of these expended funds have been used for salaries and benefits to avoid, in part, layoffs during the COVID-19 pandemic.

The Idaho legislature has been given spending authority for CRRSA Act funds, and these budget appropriations were signed into law by the Governor the week of May 10, 2021. These funds are being made available to LEAs in the Grant Reimbursement Application (GRA) program, for which LEAs will have access the week of May 17, 2021.

iii. Describe the actions the SEA will take to fill anticipated gaps in certified teachers for the start of the 2021-2022 school year and to what extent the SEA will further support its LEAs in expanding the educator pipeline and educator diversity while addressing the immediate needs of students disproportionately impacted by the pandemic (e.g., recruiting teaching candidates to provide high-dosage tutoring or implementing residencies for teacher candidates).

Response: The following are options provided by the Board / SEA to fill areas of need in certified educators for the 2021-2022 school year.

- Three alternative authorization options to allow educators to serve as a teacher of record, school counselor of record, and social worker of record while they are completing a program that leads to certification.

- Four non-traditional routes to teacher certification that allows teachers to serve as the teacher of record while they are finishing the requirements for certification.
- Emergency provisional certification for areas a school district or charter school identify as a declared emergency hire.

The Department has a *Be an Educator* webpage for the recruitment of certified educators. The Department will continue to update the website to include options and routes for certification.

The Department will provide Career Fairs through already established funding to assist LEAs in recruitment of certified educators. The Career Fair will include information for LEAs on how they can use different types of funding to cover costs for the preparation of their staff that are working toward certification as well as the professional development opportunities provided by the Department.

2. Staffing to Support Student Needs: Describe the extent to which the SEA has developed or will develop strategies and will support its LEAs in increasing student access to key support staff within school buildings, including school counselors, special education personnel, nurses, social workers, and psychologists (e.g. hiring additional personnel or freeing up these staff to focus on providing services to students).

Response: The Department has a *Be an Educator* webpage for the recruitment of certified educators. The Department will continue to update the website to include options and routes for certification.

The Board / SEA and Department of Education will collaborate with Department of Labor and PERSI on ideas for recruiting individuals for employment opportunities.

The Department will provide Career Fairs through already established funding to assist LEAs in recruitment of certified educators. The Career Fair will include information on how LEAs can use different types of funding to cover costs for the preparation of their staff that are working toward certification. In addition, information will be provided on opportunities for preparation of paraeducators to increase the number of qualified paraeducators available to LEAs.

The Department will provide resources of ideas on options for classified staff/paraprofessionals to free up teachers, school counselors, school social workers, school nurses, and school psychologists to focus on providing services to students.

The Department to create a website with resources available for behavioral health and wellness.

G. Monitoring and Measuring Progress

The Department recognizes that transparency on how ARP ESSER funds are used and their impact on the Nation's education system is a fundamental responsibility of Federal, State, and

local government. In this section, SEAs will describe how they are building capacity at the SEA and LEA levels to ensure high-quality data collection and reporting and to safeguard funds for their intended purposes.

1. Capacity for Data Collection and Reporting: It is important for an SEA to continuously monitor progress and make adjustments to its strategies, as well as to support its LEAs in making adjustments to LEA strategies, based on impact. Describe how the SEA will ensure its capacity and the capacity of its LEAs to collect data on reporting requirements, including but not limited to the examples of reporting requirements described in the SEA's Grant Award Notification (listed in Appendix B). Describe the SEA's capacity and strategy to collect data from its LEAs (disaggregated by student group, where applicable), to the greatest extent practicable, including any steps the SEA will take to build its capacity in the future (which may include the use of ARP ESSER and other Federal COVID-19 pandemic funds at the SEA and LEA levels), on issues that may include the following:

    i. Student learning, including the academic impact of lost instructional time during the COVID-19 pandemic;
    ii. Opportunity to learn measures (e.g., chronic absenteeism; student engagement; use of exclusionary discipline; access to and participation in advanced coursework; access to technology, including educator access to professional development on the effective use of technology; access to high-quality educators; access to school counselors, social workers, nurses, and school psychologists; and results from student, parent, and/or educator surveys);
    iii. Fiscal data that is comparable across the State (e.g., per-pupil expenditures at the LEA and school levels);
    iv. Jobs created and retained (by position type);
    v. Participation in programs funded by ARP ESSER resources (e.g., summer and afterschool programs); and
    vi. Other reporting requirements reasonably required by the Secretary (please refer to Appendix B of this template; final requirements will be issued separately).

    Response: The Board / SEA will ensure LEAs have the capacity to collect and report data for all identified metrics by maintaining existing systems and using SEA set-aside ARP ESSER funds to expand the state's statewide longitudinal data system and support data management, research, and analysis. The Board / SEA and Department have been thoughtful in prioritizing use of existing data for analysis and only adding requirements for new data submission when necessary. Additionally, the Board / SEA may use SEA funds to address capacity issues at the LEA level, if needed. The existing data management and reporting system for the Idaho Standards Achievement Test in English Language Arts/Literacy, Mathematics, and Science includes the results of interim assessments that LEAs may administer to students throughout the year to identify learning needs relative to the state content standards. LEAs who use these optional assessments can view their results in this system and the state can access this information as well. The state's early literacy assessment also incorporates a monthly

progress monitoring system that LEAs can use to support younger students and that the state can access as needed.

Data on coursework, chronic absenteeism, exclusionary discipline, and school personnel characteristics will continue to be available in the state's longitudinal data system, via which LEAs submit information several times throughout the year.

Idaho LEAs will also continue to administer student, parent, and staff engagement surveys in the 2021-2022 school year. Fiscal data, including per-pupil expenditures by LEA and school, are also available through the existing data infrastructure and will continue to be included on the state and local report cards, (available at IdahoSchools.org).

To assist LEAs in reporting these data, the Department will also generate consistent, streamlined templates with associated guidance. This approach will mirror the process the Department already uses for state intervention and remediation funds, where LEAs report the specific amount allocated towards personnel, technology, curriculum, professional development, or other resources.

Consistent with Appendix B, the state will also produce more general guidance to assist LEAs in creating appropriate policies that allow them to safely maintain in-person learning in the summer and during school year 2021-2022. This guidance will build on the state's Back to School Framework.

2. Monitoring and Internal Controls: Describe how the SEA will implement appropriate fiscal monitoring of and internal controls for the ARP ESSER funds (e.g., by updating the SEA's plan for monitoring funds and internal controls under the CARES and CRRSA Acts; addressing potential sources of waste, fraud, and abuse; conducting random audits; or other tools). In this response, please describe the SEA's current capacity to monitor ARP ESSER; steps, if needed, to increase capacity; and any foreseeable gaps in capacity, including how the SEA will provide its LEAs with technical assistance in the anticipated areas of greatest need.

Response: As ARP ESSER funds are released, Idaho will provide regular trainings to LEAs about the rules for using these funds and effective strategies for identifying local high priority needs. The state will base these strategies on the analysis components outlined in Section A. These steps will assist LEAs in setting up appropriate and effective use of these funds at the start of the process. For reporting, Idaho currently maintains a Grant Reimbursement Application (GRA) that educational entities use to provide documentation about the use of funds for federal flow through grants. However, this application does not include all of the reporting information associated with the use of ARP ESSER funds, such as the amount of funds spent on unfinished learning and on social/emotional needs. Consequently, to support appropriate monitoring of these funds, the state will create a separate ARP ESSER tracking system that includes all of the associated federal reporting requirements. LEAs receiving these funds will be required to report their use of funds on a quarterly basis. Staff members

will review all submissions and follow up with any entities who have not submitted their information or who have submitted information, insufficient data, or a questionable use of funds. Each submission period, staff will randomly select five percent of the LEAs for more detailed auditing.

The state will also regularly track changes in the identified priority metrics over time to help determine whether interventions have been effective or require refinement. Particular attention will be paid to the effectiveness of support for traditionally underserved student groups, such as Native American and Hispanic students. Idaho anticipates it will be the able to develop and support this new ARP ESSER monitoring framework with existing staff, who are well practiced in assisting LEAs in appropriately using and reporting on other sources of funds.

DRAFT

Appendix A: School Operating Status and Instructional Mode Data Template

Indicate the date or time period represented by the following data.

Response: The data below are current as of 5/13/2021. The data in Table 1 are based on the current LEA-level operating status information that Idaho tracks. The possible values are "Online," "Virtual School," "Hybrid," "In Person with Online School Option," and "In Person." To align with the categories in Table 1, these values are mapped as follows:

- Online and Virtual School entries = Remote or online only
- Hybrid and In Person with Online School Option = School buildings open with remote/online and in-person instruction (hybrid)
- In Person = School buildings open with full-time in-person instruction

Since Idaho only captures these data at the LEA level, all schools within an LEA are considered to have the same status as the LEA as a whole to generate the counts in Table 1. It is also impossible to fully discern with the existing data whether a particular educational environment is being offered to all students or some students. Consequently, schools are listed as offering the option associated with their operating status to all students. All other schools are listed in the "Not offered" category. Based on these caveats, users should cautious in interpreting these data.

Table 1

In the most recent time period available, how many schools in your State offered each mode of instruction or learning model described below? Each row should account for all schools in your State, so that, for each row, the sum of the numbers in the "offered to all students," "offered to some students," and "not offered" columns is equal to the number in the "all schools" column.

Add or change rows as needed

Number of schools	All schools	Offered to all students	Offered to some students	Not offered
Remote or online only	760	17	-	743
School buildings open with both remote/online and in-person instruction (hybrid)	760	294	-	466
School buildings open with full-time in-person instruction	760	449	-	311

To the extent data are available, please complete the above table for 1) all schools in the State, and 2) separately for each instructional level (e.g., pre-kindergarten/elementary schools, middle schools, high schools).

Response: Due to these underlying data limitations discussed above, the state is not able to confidently disaggregate the figures by instructional level.

Table 2

In the most recent time period available, what was the enrollment and mode of instruction for the schools in your State?

Add or change rows as needed

Response: The data in Table 2 are based on enrollment data as of 5/13/2021. Students who are enrolled in more than one entity are counted in each location. Student enrollment data are merged with the operational status information summarized above Table 1.

Table 2. Enrollment and mode of instruction

Number of students	Total enrollment	Remote or online only	Both remote/online and in-person instruction (hybrid)	Full-time in-person instruction
Students from low-income families	98,070	4,160	38,159	55,751
White, not Hispanic	229,134	7,538	91,784	129,812
Black or African American, not Hispanic	3,335	64	1,297	1,974
Hispanic, of any race	57,759	1,418	27,674	28,667
Asian, not Hispanic	3,460	65	1,436	1,959
American Indian or Alaskan Native, not Hispanic	3,211	70	1,347	1,794
Native Hawaiian or Pacific Islander, not Hispanic	976	21	429	526
Two or more races, not Hispanic	9,415	443	4,236	4,736
Race/Ethnicity information not available	NA	NA	NA	NA
English learners	18,601	126	8,725	9,750
Children with disabilities	33,918	1,040	14,691	18,187
Students experiencing homelessness	5,521	149	2,132	3,240
Children and youth in foster care	1,105	40	433	632
Migratory students	3,758	0	2,236	1,522

DRAFT

Appendix B: Reporting Language Included in the Grant Award Notification ("GAN")

As described in the Grant Award Notification ("GAN"), the SEA will comply with, and ensure that its LEAs comply with, all reporting requirements at such time and in such manner and containing such information as the Secretary may reasonably require, including on matters such as:

- How the State is developing strategies and implementing public health protocols including, to the greatest extent practicable, policies and plans in line with the CDC guidance related to mitigating COVID-19 in schools;
- Overall plans and policies related to State support for return to in-person instruction and maximizing in-person instruction time, including how funds will support a return to and maximize in-person instruction time, and advance equity and inclusivity in participation in in-person instruction;
- Data on each school's mode of instruction (fully in-person, hybrid, and fully remote) and conditions;
- SEA and LEA uses of funds to meet students' social, emotional, and academic needs, including through summer enrichment programming and other evidence-based interventions, and how they advance equity for underserved students;
- SEA and LEA uses of funds to sustain and support access to early childhood education programs;
- Impacts and outcomes (disaggregated by student subgroup) through use of ARP ESSER funding (e.g., quantitative and qualitative results of ARP ESSER funding, including on personnel, student learning, and budgeting at the school and district level);
- Student data (disaggregated by student subgroup) related to how the COVID-19 pandemic has affected instruction and learning;
- Requirements under the Federal Financial Accountability Transparency Act ("FFATA"); and
- Additional reporting requirements as may be necessary to ensure accountability and transparency of ARP ESSER funds.

DRAFT

Appendix C: Assurances

By signing this document, the SEA assures all of the following:

- The SEA will conduct all its operations so that no person shall be excluded from participation in, be denied the benefits of, or be subject to discrimination under the ARP ESSER program or activity based on race, color, national origin, which includes a person's limited English proficiency or English learner status and a person's actual or perceived shared ancestry or ethnic characteristics; sex; age; or disability. These non-discrimination obligations arise under Federal civil rights laws, including but not limited to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments Act of 1972, section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975. In addition, the SEA must comply with all regulations, guidelines, and standards issued by the Department under any of these statutes;
- The SEA will comply with all ARP Act and other ARP ESSER requirements and all requirements of its Grant Award Notification, including but not limited to:
    - Complying with the maintenance of effort provision in section 2004(a)(1) of the ARP Act, absent a waiver by the Secretary pursuant to section 2004(a)(2) of the ARP Act; and
    - Complying with the maintenance of equity provisions in section 2004(b) of the ARP Act, and ensuring its LEAs comply with the maintenance of equity provision in section 2004(c) of the ARP Act (please note that the Department will provide additional guidance on maintenance of equity shortly);
- The SEA will allocate ARP ESSER funds to LEAs in an expedited and timely manner and, to the extent practicable, not later than 60 days after the SEA receives ARP ESSER funds (i.e., 60 days from the date the SEA receives each portion of its ARP ESSER funds). An SEA that is not able to allocate such funds within 60 days because it is not practicable (e.g., because of pre-existing State board approval requirements) will provide an explanation to the Department within 30 days of receiving each portion of its ARP ESSER funds (submitted via email to your Program Officer at [State].OESE@ed.gov (e.g., Alabama.OESE@ed.gov)), including a description of specific actions the SEA is taking to provide ARP ESSER funds to LEAs in an expedited and timely manner and the SEA's expected timeline for doing so;
- The SEA will implement evidence-based interventions as required under section 2001(f) of the ARP Act and ensure its LEAs implement evidence-based interventions, as required by section 2001(e)(1) of the ARP Act;
- The SEA will address the disproportionate impact of the COVID-19 pandemic on underserved students (i.e., students from low-income families, students from racial or ethnic groups (e.g., identifying disparities and focusing on underserved student groups by race or ethnicity), gender (e.g., identifying disparities and focusing on underserved student groups by gender), English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students), as required under section 2001(f) of the ARP Act, and ensure its LEAs address the disproportionate impact of the COVID-19 pandemic on underserved students (i.e., students from low-income families, students from racial or ethnic groups, gender, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students), as required by section 2001(e)(1) of the ARP Act; and

- The SEA will provide to the Department: (1) the URL(s) where the public can readily find data on school operating status and (2) the URL(s) for the SEA and/or LEA websites where the public can find the LEA plans for a) the safe return to in-person instruction and continuity of services required under section 2001(i) of the ARP Act, and b) use of ARP ESSER funds. SEAs should consider ensuring a standardized URL format in all cases (e.g., xxx.gov/COVIDplan).

DRAFT

Appendix D

OMB Control No. 1894-0005 (Exp. 06/30/2023)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Educations General Education Provisions Act ("GEPA") that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access to, or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving,

among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

(4) An applicant that proposes a project to increase school safety might describe the special efforts it will take to address concerns of lesbian, gay, bisexual, and transgender students, and efforts to reach out to and involve the families of LGBT students.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Idaho's GEPA Statement:

Idaho adheres to Section 427 of the General Education Provisions Act (GEPA) through its policies and practices for barrier-free programs. In carrying out its educational mission, the Board / SEA and Department ensures to the fullest extent possible equitable access to, participation in, and appropriate educational opportunities for all individuals served. Board / SEA and Department is committed to ensuring that Federally funded activities, programs, and services are accessible to all teachers, students, program beneficiaries, contractors, and the public. The Board / SEA and Department ensures equal access and participation to all persons regardless of their race, color, ethnicity, religion, national origin, age, citizenship status, disability, gender or sexual orientation in its education programs, services, and/or activities. For state-level activities as well as all other activities supported by federal assistance through our electronic grant application, Idaho enforces all federal and state laws and regulations designed to ensure equitable access to all program beneficiaries and to overcome barriers to equitable participation. The Board / SEA and Department holds LEAs accountable for ensuring equal access and providing reasonable and appropriate accommodations to meet the needs of a diverse group of students, staff, community members and other participants. LEAs are provided training on Section 427 GEPA and are required to annually upload their GEPA statement in the Consolidated Federal and State Grant Application (CFSGA). Specifically, all State Department of Education public facing documents are made accessible and we continue to make information on Idaho programs available in Spanish and other languages as needed. The State Department of Education works with LEAs to make information on its programs available to Special Education teachers and administrators. The State Department of Education continues to work with LEAs to make data available on its programs to the districts, schools, and the public to ensure equitable access and participation.

DRAFT

Estimated Burden Statement for GEPA Requirements

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 3 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is required to obtain or retain benefit (Public Law 103-382). Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC 20210-4537 or email ICDocketMgr@ed.gov and reference the OMB Control Number 1894-0005.

Appendix E: Safe Return to In-Person Instruction and Continuity of Services Plan Checklist

Instructions: All Idaho LEAs must complete this Safe Return to In-Person Instruction Checklist and post it on their website with their Back-to-School Plan by August 1, 2021.

LEA # and Name:
DATE LEA's 2020-2021 Back-to-School Plan was approved by the local school board:
Website link to the LEA's current Back-to-School Plan:

Mitigation Strategies Information Required to be Included in LEA's Plan		
CDC Recommended Prevention/Mitigation strategies required to be addressed in the LEA plan by the U.S. Department of Education (Federal Register/Vol. 86, No. 76/Thursday, April 22, 2021/Rules and Regulations)	Does the LEA's *current* Back to School Plan include information regarding policies applicable to the mitigation strategy? (Note: the LEA is not required to implement all strategies, but the LEA's plan must include information about the LEA's policy about each mitigation strategy)	
Universal and correct wearing of masks	Yes ☐	No ☐
Modifying facilities to allow for physical distancing (e.g., including use of cohorts/podding)	Yes ☐	No ☐
Handwashing and respiratory etiquette	Yes ☐	No ☐
Cleaning and maintaining healthy facilities, including improving ventilation	Yes ☐	No ☐
Contact tracing in combination with isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments	Yes ☐	No ☐
Diagnostic and screening testing	Yes ☐	No ☐
Efforts to provide vaccinations to school communities	Yes ☐	No ☐
Appropriate accommodations for children with disabilities with respect to the health and safety policies	Yes ☐	No ☐

NARRATIVE Information Required to be Included in LEA's Plan		
Required Information	Does the LEA's *current* Back to School Plan include this NARRATIVE information?	
How the LEA is addressing and plans to address students' academic needs	Yes ☐	No ☐
How the LEA is addressing and plans to address students' social, emotional, mental health, and other needs (which may include student health and food services)	Yes ☐	No ☐
How the LEA is addressing and plans to address their staff's social, emotional, mental health, and other needs	Yes ☐	No ☐
The process for review and revision of the plan (including gathering community / stakeholder input) no less frequently than every six months through September 30, 2023.	Yes ☐	No ☐
The LEA's need for support and/or technical assistance related to implementing the strategies identified in Table 1 or Table 2, if applicable.	Yes ☐	No ☐

Assurances	LEA Response	
1. The LEA assures that, to the best of the LEA's knowledge and belief, all information in this plan is true and correct.	Yes ☐	No ☐
2. The LEA engaged in meaningful consultation with stakeholders and gave the public an opportunity to provide input in the development of this plan. Specifically, the LEA engaged in meaningful consultation with students; families; school and district administrators (including special education administrators); and teachers, principals, school leaders, other educators, school staff, and their unions.	Yes ☐	No ☐
3. The LEA engaged in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.	Yes ☐	No ☐
4. The plan is in an understandable and uniform format; to the extent practicable, written in a language that parents can understand or, if not practicable, orally translated; and, upon request by a parent who is an individual with a disability, will be provided in an alternative format accessible to that parent.	Yes ☐	No ☐
5. The plan is publicly available on the LEA website.	Yes ☐	No ☐

NOTES:

- If the LEA developed a Back-to-School plan before ARP ESSER was enacted (March 11, 2021) and that plan was developed with public input, but the plan does not include *all* of the required information, as outlined in Table 1 and Table 2 above, the LEA must revise its plan to include all required elements..
- LEAs are required to review and revise their Back-to-School / Safe Return to In-Person Instruction Plan no less frequently than every 6 months.

Date of most recent review of the LEA's current Back-to-School Plan:

If the LEA answered "No" to any elements in Table 1 or Table 2,
LEA Plan Modification Deadline): November 24, 2021 (6 months after May 24, 2021).

If the LEA answered "Yes" to all elements in Table 1 and Table 2, next planned LEA Plan Review Date (no more than 6 months from the last plan review date):

Appendix G: ARP Section 2001(e)(1-2): Use of LEA Funds

2001(e)(1)

(e) USES OF FUNDS.—A local educational agency that receives funds under this section—

(1) shall reserve not less than 20 percent of such funds to address learning loss through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs, and ensure that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on the student subgroups described in section 1111(b)(2)(B)(xi) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(B)(xi)), students experiencing homelessness, and children and youth in foster care.

2001(e)(2)

(2) shall use the remaining funds for any of the following:

(A) Any activity authorized by the Elementary and Secondary Education Act of 1965.

(B) Any activity authorized by the Individuals with Disabilities Education Act.

(C) Any activity authorized by the Adult Education and Family Literacy Act.

(D) Any activity authorized by the Carl D. Perkins Career and Technical Education Act of 2006.

(E) Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and territorial public health departments, and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to coronavirus.

(F) Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.

(G) Developing and implementing procedures and systems to improve the preparedness and response efforts of local educational agencies.

(H) Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.

(I) Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.

(J) Planning for, coordinating, and implementing activities during long-term closures, including providing meals to eligible students, providing technology for online learning to all students, providing guidance for carrying out requirements under the Individuals with Disabilities Education

Act and ensuring other educational services can continue to be provided consistent with all Federal, State, and local requirements.

(K) Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and children with disabilities, which may include assistive technology or adaptive equipment.

(L) Providing mental health services and supports, including through the implementation of evidence-based full-service community schools.

(M) Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.

(N) Addressing learning loss among students, including low-income students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency, including by—

(i) administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

(ii) implementing evidence-based activities to meet the comprehensive needs of students;

(iii) providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment; and

(iv) tracking student attendance and improving student engagement in distance education.

(O) School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.

(P) Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and nonmechanical heating, ventilation, and air conditioning systems, filtering, purification and other air cleaning, fans, control systems, and window and door repair and replacement.

(Q) Developing strategies and implementing public health protocols including, to the greatest extent practicable, policies in line with guidance from the Centers for Disease Control and Prevention for the reopening and operation of school facilities to effectively maintain the health and safety of students, educators, and other staff.

(R) Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency.

Appendix H: LEA ARP ESSER Use of Funds Template

Instructions: Complete this plan template by engaging meaningful consultation with stakeholders, as identified in the assurances below, and by giving the public an opportunity to provide input in the development of this plan. Submit this plan, or a Plan developed by the LEA that includes all requirements, to Lisa at lenglish@sde.idaho.gov by October 1, 2021.

LEA # and Name:
Website link to the LEA's ARP ESSER Plan – Use of Funds

Section 1: Using ARP ESSER funds for the continuous and safe operation of in-person learning

1. *Describe the LEA's process, including timeline, for engaging meaningful consultation with stakeholders. Identify the stakeholder groups involved. Describe how the public was given an opportunity to provide input in the development of this plan.*
   [Open-ended response]

2. *Describe how funds will be used to implement prevention and mitigation strategies that are consistent with the most recent Centers for Disease Control and Prevention (CDC) guidelines[4] for reopening and operating schools for in-person learning.*
   [Open-ended response]

3. *Describe how the LEA will use no less than, 20% of allotted ARP funds to address the academic impact of lost instructional time through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year. Specifically, address how the LEA will utilize funds to identify, reengage, and support students most likely to have experienced the impact of lost instructional time on student learning, such as:*
   a. *Students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years;*
   b. *Students who did not consistently participate in remote instruction when offered during school building closures; and*
   c. *Students most at-risk of dropping out of school.*
   d. *Subgroups of students disproportionally impacted by COVID-19, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, migratory students, Hispanic students, and Native American students.*

   [Open-ended response]

4. *Describe how the LEA will spend its remaining ARP ESSER funds consistent with section 2001(e)(2) of the ARP Act (See Appendix G) . In your description, please identify how funds will be allocated to schools and for districtwide activities based on student need to equitably and inclusively support student success.*
   [Open-ended response]

[4] The most recent guidelines can be found here: https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/index.html

5. *Describe how the LEA will ensure that the interventions it implements, including but not limited to the interventions implemented to address the academic impact of lost instructional time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID–19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.*
   [Open-ended response]

6. *Describe how the LEA will consistently monitor student progress and effectiveness of the strategies/interventions implemented to address gaps in student learning and well-being.*
   [Open-ended response]

Section 2: Assurances

Assurance	LEA Response	
1. The LEA assures that, to the best of the LEA's knowledge and belief, all information in this plan is true and correct.	Yes ☐	No ☐
2. The LEA engaged in meaningful consultation with stakeholders and gave the public an opportunity to provide input in the development of this plan. Specifically, the LEA engaged in meaningful consultation with students; families; school and district administrators (including special education administrators); and teachers, principals, school leaders, other educators, school staff, and their unions. Keep documentation of stakeholder communications and meetings on file at the LEA.	Yes ☐	No ☐
3. The LEA engaged in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students. Keep documentation of stakeholder communications and meetings on file at the LEA.	Yes ☐	No ☐
4. The plan is in an understandable and uniform format; to the extent practicable, written in a language that parents can understand or, if not practicable, orally translated; and, upon request by a parent who is an individual with a disability, will be provided in an alternative format accessible to that parent.	Yes ☐	No ☐
5. The plan is publicly available on the LEA website.	Yes ☐	No ☐
[5a] If the LEA response with 'yes', this is an open-ended item for the URL Please provide the URL:		

Superintendent's Printed Name: _____

Superintendent's Signature: _____ Date: _____

School Board President's Printed Name: _____

School Board President's Signature: _____ Date: _____

Submit this plan to Lisa at lenglish@sde.idaho.gov no later than October 1, 2021.

ATTACHMENT 2

US DEPARTMENT OF EDUCATION

Request for Additional Information (Received July 13, 2021)

Requirement	Feedback for State
B1i. Support for LEAs – COVID-19 Prevention Strategies	Section B.1.i. of the ARP ESSER State plan template requires the SEA to provide a description of how the SEA will support its LEAs' implementation of prevention and mitigation practices in line, to the extent practicable, with the most up-to-date guidance from the CDC. The Idaho State Department of Education (IDSE) provided a response to each row in the Table B1 with the associated page numbers from its "Back to School Framework" guidance that aligns with the CDC's prevention and mitigation elements. Please attach a copy of the "Back to School Framework" guidance document as an attachment, rather than just the embedded link in the State plan.
C1. Consultation	Section C.1. of the ARP ESSER State plan template requires an SEA to describe how it engaged in meaningful consultation with several stakeholder groups in the development of the SEA's ARP ESSER State plan. In its plan, while ISDE provided information related to its consultation efforts, it did not describe how it engaged in meaningful consultation with the following stakeholders representing the interests of: • children and youth in foster care, and • children who are incarcerated. Please describe how ISDE engaged in meaningful consultation with stakeholders representing the interests of these specific groups.
D1i.-ii. Impact of Lost Instructional Time – Evidence-based Interventions and Address Student Groups	Section D.1.i of the ARP ESSER State plan template requires the SEA to describe how it will use the funds it reserves under section 2001(f)(1) of the American Rescue Plan Act of 2021 (ARP) (totaling not less than 5 percent of the State's total ARP ESSER allocation) for activities to address the academic impact of lost instructional time. The SEA must also describe how the evidence-based interventions will specifically address the disproportionate impact of COVID-19 on certain groups of students, including each of the subgroups listed in section A.3.i.-viii. of the ARP ESSER State plan template. While ISDE describes initial priority areas and possible evidence-based interventions in this section, it is unclear which interventions will be funded under this reservation or, if the funds will be allocated to LEAs, how the State will allocate the funds and ensure that the State-set aside is used only for addressing the impact of lost instructional time. Please describe how ISDE intends to use the ARP ESSER funds it reserves under section 2001(f)(1) of the ARP to address the academic impact of lost instructional time. If the funds will be used at the State-level, please also describe how ISDE will ensure that the selected evidence-based interventions will specifically address the disproportionate impact of COVID-19 on certain subgroups of students including each of the student groups listed in question A.3.i.-viii. If the funds will be allocated to LEAs, please describe ISDE's process for allocating funds to ensure that they serve students disproportionately impacted by COVID-19 including each of the student groups listed in question A.3.i.-viii.

D.2 (i. and ii.) Summer Learning – Evidence-based Interventions	Under section D.2 of the ARP ESSER State plan template, the SEA must describe how it will use the funds it reserves under section 2001(f)(2) of the ARP Act (totaling not less than 1 percent of the State's total allocation of ARP ESSER funds) for evidence-based summer learning and enrichment programs. The SEA must also describe how the evidence-based summer programs will specifically address the disproportionate impact of COVID-19 on the groups of students listed in section A.3.i.-viii. of the ARP ESSER State plan template. In its response, ISDE explained that it will allocate resources to LEAs that will select evidence-based strategies. However, it is unclear if ISDE intends to allocate the full State set-aside funds directly to LEAs. Please describe how ISDE intends to use the ARP ESSER funds it reserves under section 2001(f)(2) of the ARP for summer learning and enrichment programs. If the funds will be used at the State-level, please also describe how ISDE will ensure that the selected evidence-based summer programs will specifically address the disproportionate impact of COVID-19 on certain subgroups of students including each of the student groups listed in question A.3.i.-viii. If the funds will be allocated to LEAs, please describe ISDE's process for allocating funds to ensure that they serve students disproportionately impacted by COVID-19 including each of the student groups listed in question A.3.i.-viii.
D.3 (i. and ii.) Afterschool Programs – Evidence-based Interventions	Section D.3 of the ARP ESSER State plan template requires the SEA to describe how the funds it reserves under section 2001(f)(3) of the ARP (totaling not less than 1 percent of the State's total allocation of ARP ESSER funds) will be used for evidence-based comprehensive afterschool programs to address the academic, social, emotional, and mental health needs of students. In its response, ISDE explained that it will allocate resources to LEAs that will select evidence-based comprehensive afterschool programs. However, it is unclear if ISDE intends to allocate the full State set-aside funds directly to LEAs. Please describe how ISDE intends to use the ARP ESSER funds it reserves under section 2001(f)(3) of the ARP for evidence-based comprehensive afterschool programs. If the funds will be used at the State-level, please also describe how ISDE will ensure that the selected evidence-based interventions will specifically address the disproportionate impact of COVID-19 on certain subgroups of students including each of the student groups listed in question A.3.i.-viii. If the funds will be allocated to LEAs, please describe ISDE's process for allocating funds to ensure that they serve students disproportionately impacted by COVID-19 including each of the student groups listed in question A.3.i.-viii.
Description for Section 427 of GEPA	As described in Appendix D of the ARP ESSER State plan template, section 427 of the General Education Provisions Act (GEPA) requires each applicant for Federal education funds to include in its application a description of the steps it proposes to take to ensure equitable access to, and participation in, its Federally assisted program for students, teachers, and other program beneficiaries with special needs. ISDE does not provide a description of how it is meeting this requirement. Please provide a description to address this requirement.

ATTACHMENT 3

US DEPARTMENT OF EDUCATION

Request for Additional Information (Received August 23, 2021)

Requirement	Feedback for State
Section D	In sections D.1, D.2, and D.3 of its ARP ESSER State plan, ISDE indicates it will use funds to support expanding the data systems needed for research regarding the impact of the pandemic and ongoing monitoring of the impact of strategies implemented by the State and LEAs. Please note that each State reservation may only be used for its statutorily allowed purposes and must be tracked separately (i.e., the State reservation in D.1 may only be used for evidence-based interventions that support learning loss, the State reservation in D.2 may only be used for evidenced-based summer learning and enrichment programs, and the State reservation in D.3 may only be used for evidenced-based comprehensive afterschool programs.) Please describe how ISDE will ensure that the funds in each section for this initiative will be tracked separately and only used for its intended purpose.
D1i.-ii. Impact of Lost Instructional Time – Evidence-based Interventions and Address Student Groups	Section D.1.i of the ARP ESSER State plan template requires the SEA to describe how it will use the funds it reserves under section 2001(f)(1) of the American Rescue Plan Act of 2021 (ARP) (totaling not less than 5 percent of the State's total ARP ESSER allocation) for activities to address the academic impact of lost instructional time. The SEA must also describe how the evidence-based interventions will specifically address the disproportionate impact of COVID-19 on certain groups of students, including each of the subgroups listed in section A.3.i.-viii. of the ARP ESSER State plan template. In its response, ISDE indicates that its Unfinished Learning Workgroup will identify evidence-based interventions but does not indicate what interventions will be identified or when. While no further information is needed at this time, ISDE will be required to amend its plan to provide information, when it is available, on the evidence-based interventions identified by the Unfinished Learning Workgroup for LEAs to use to address the impact of lost instructional time on student groups listed in A.3i-viii.
D.2 (i. and ii.) Summer Learning – Evidence-based Interventions	Section D.2.i of the ARP ESSER State plan template requires an SEA to describe how it will use the funds it reserves under section 2001(f)(2) of the ARP (totaling not less than 1 percent of the State's total ARP ESSER allocation) for evidence-based summer programs and enrichment. In its resubmission, ISDE indicates that it will use state reserve funds to purchase evidence-based tools to support accelerated learning that will be made available to all LEAs and may be used by LEAs in summer learning and enrichment programs. Please note that the funds reserved under this section must be used *only* for evidence-based summer learning and enrichment programs. Please clarify how ISDE will ensure that funds reserved under this section are used only for summer learning and enrichment programs. ISDE will be required to amend its plan to provide information, when it is available, on the evidence-based interventions identified to respond to students' academic, social, emotional, and mental health needs.

D.3 (i. and ii.) Afterschool Programs – Evidence-based Interventions	Section D.3.i of the ARP ESSER State plan template requires an SEA to describe how it will use the funds it reserves under section 2001(f)(3) of the ARP (totaling not less than 1 percent of the State's total ARP ESSER allocation) for evidence-based comprehensive afterschool programs. In its resubmission, ISDE explained that it will purchase statewide tools to support accelerated learning. However, it is not clear that these will be evidence-based interventions only for afterschool programs. Please note that the funds reserved under this section must be used only for afterschool programming. Please clarify how ISDE will ensure that funds reserved under this section are used only for comprehensive afterschool programs. In addition, because ISDE has not selected all of its interventions or tools, ISDE will be required to amend its plan to provide information, when it is available, on the evidence-based interventions that respond to students' academic, social, emotional, and mental health needs.

SUBJECT

Research Findings – COVID-19 Impact on High School Grades

REFERENCE

June 2021	The Accountability Oversight Committee presented its plans for data analysis to be included in its FY 22 Recommendations Report, including Special Focus Data on the impact of the COVID 19 pandemic. They recommended providing support to the State Department of Education in gathering and confirming accurate data.

BACKGROUND/DISCUSSION

This research provides a first look at the impact of the COVID-19 pandemic on Idaho public school students. It uses preliminary data from the State Department of Education on the instructional delivery models used during the 2020-2021 school year to classify districts according to the model used by the school districts and charter schools (i.e. local education agency or LEA). It then examines whether or not the grade point average (GPA) of 9th graders changed from March 2020 to March 2021. It examines if there are differences in the students' reported GPA by the instructional delivery model used and by student demographic characteristics. It finds that 9th grade GPAs decreased for LEAs that utilized a hybrid delivery model or an online delivery model at any point during the 2020-2021 school year. It also finds that, for some LEAs, the GPAs of Hispanic students decreased more than the GPAs of White students, the GPAs of economically disadvantaged students decreased more than the GPAs of students not economically disadvantaged, the GPAs of English Language Learners decreased more than the GPAs of non-English Language Learners, and the GPAs of Migrant students decreased more than the GPAs of students who are not Migrants.

These differential decreases in GPAs did not necessarily translate into differential decreases in the share of students with GPAs eligible for the Opportunity Scholarship or automatic admissions to the eight public postsecondary institutions in Idaho through the Board's Direct Admissions initiative. Only Migrant students experienced a differential decrease in the share of students eligible for these programs than the comparison group. However, even though students with different demographic characteristics were not differentially affected, the base effect was statistically significant. Unless these 9th grade students increase their GPA, there will be fewer students eligible for these programs.

IMPACT

This agenda item provides the Board with an update on the impact on student outcomes from the COVID-19 pandemic.

Attachment 2 – COVID-19 Impact Series – Part 2

BOARD STAFF COMMENTS AND RECOMMENDATIONS

During the 2020-2021 school year, LEAs were forced to explore various modes of instruction in an effort to keep students safe. These modes of instruction ranged from moving all students to an on-line format, having all students participate in a hybrid model of instruction where students participated part of the week online and part of the week in person, or hybrid models where academically at-risk students participated in-person, while other student participated online. Additionally, some LEAs were able to keep their students in-person for the majority of the school year if not the entire school year. Overlapping these modes of instruction for the majority of the student bodies were LEA policies around quarantining students that were exposed to the virus or tested positive for the virus. Depending on the length of time of the quarantine, these students could have received all on-line instruction during this time period or no instruction during this time period. Similarly, LEAs moved in and out of the various modes of instruction depending on the level of infection within their local communities. Currently, unweighted GPA is reported by LEAs for high school students only. LEAs report course "grades" for all students, however, grading methodologies may vary widely between schools and LEAs. Examples of grading methodologies include pass/fail, mastery of standard (m, m+, m-, etc.), letter grades, and numbering.

The research findings presented here are preliminary and may be updated once the Accountability Oversight Committee and State Department of Education have gathered and analyzed additional data. The Accountability Oversight Committee will be gathering data and providing the Board with analysis of the scope of the unfinished learning students experienced during the pandemic and the progress Idaho makes in accelerating learning for all students over the next few years. These findings track with national studies using other methodologies indicating COVID-19 and changes in the modes of instruction appear to have exacerbated existing achievement gaps.

BOARD ACTION

This item is for informational purposes only.

SPECIAL BOARD REPORT

Idaho State Board of Education

COVID-19 Impact Series

Part 1: 2020-2021 Instructional Environments in Idaho's K-12 Local Education Agencies[1,2]

OVERVIEW

Some Local Education Agencies Were Disrupted More Than Others

COVID-19 unequally altered the instructional environments of Idaho's K-12 local education agencies (LEAs) in the 2020-2021 school year. For some LEAs, the start of the 2020-2021 school year looked very much like the start of the 2019-2020 school year. These LEAs saw little disruption as they started around the usual date and offered the usual in-person[3] instructional delivery model and persisted in that same model. For other LEAs, there was some disruption. They either offered a hybrid instructional delivery model and persisted in that model or offered a mix of both hybrid and in-person instructional delivery models. Still other LEAs had more disruption. These LEAs used an online instructional delivery model exclusively for at least some period of time.

Classification of Instructional Delivery Models*

In-Person

Districts that used only in-person instructional delivery model.

Hybrid

Districts that used hybrid instructional delivery model for at least some period of time but did not use strictly online instructional delivery model at any point.

Online

Districts that used strictly online instructional delivery model for at least a period of time.

*Classification of districts by instructional delivery model is preliminary. There are known limitations with the data as it currently exists – see Appendix I for more detail.

Purpose

This paper characterizes the instructional delivery models (as defined above) offered by Idaho's LEAs in the 2020-2021 school year.[4] It also examines whether or not different types of students experienced different instructional delivery models.

[1] Author: Dr. Cathleen McHugh, Chief Research Officer, Idaho State Board of Education

[2] LEAs encompass both local school districts and charter schools.

[3] In this paper, "in-person" refers to students in the classroom full-time as opposed to "hybrid" which would refer to a mix of online and in-person instructional delivery models. As of February 15, 2021, only two charter schools that were not previously operating as virtual schools were operating virtually (online). The other charter schools that were operating virtually were charter schools that normally operated virtually. All other districts/charters were operating either in-person or as a hybrid.

[4] Some LEAs did delay the start of the fall semester. However, even if LEAs started later than they did in 2019-2020, they will still meet the minimum required instructional hours.

RESULTS

Overall Trends for LEAS

The vast majority (82 percent) of LEAs offered either an in-person or a hybrid instructional delivery model.

- 46 percent of LEAs offered an in-person model.
- 36 percent of LEAs offered a hybrid model.
- 13 percent of LEAs offered an online model.
- 5 percent of LEAs offered an online model but are established virtual charter schools.

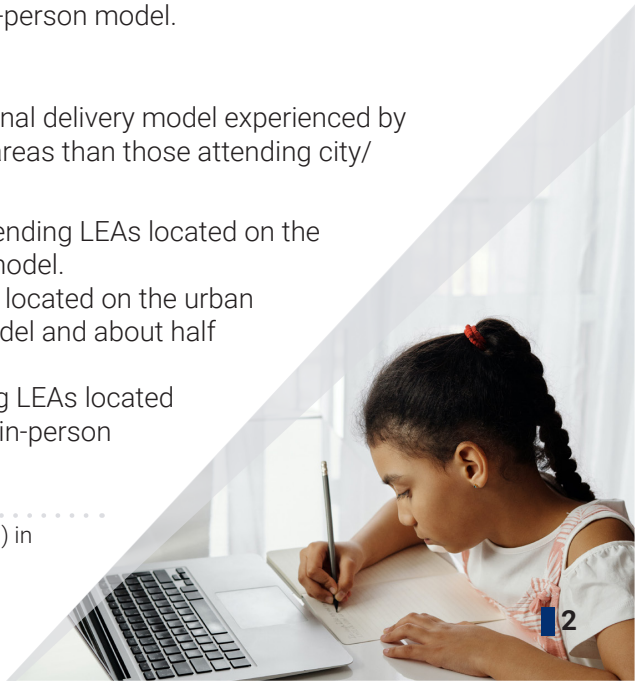
Overall Trends for Students

The majority (67 percent) of students attended LEAs that offered in-person or hybrid instructional delivery models. The share of students attending LEAs that offered an online instructional delivery model (29 percent) was higher than the share of LEAs offering this model (13 percent) because the largest LEAs fell into this group.

- 23 percent of students attended LEAs that offered an in-person model.
- 44 percent of students attended LEAs that offered a hybrid model.
- 29 percent of students attended LEAs that offered an online model.
- 3 percent of students attended established virtual charter schools.

Student Trends by Locale[5] and Region

Cities and Suburbs



The instructional delivery model experienced by students attending city/suburb LEAs depended on which region the students lived in.

- Almost all Region 3 students who attended city/suburb LEAs experienced an online instructional delivery model. These students made up the vast majority of all students who experienced that model.
- In Regions 1, 5, and 6, the majority of city/suburb students attended LEAs that offered a hybrid model.
- In Region 2, the only city/suburb LEA offered an in-person model.

Fringe Towns and Fringe Rural areas

There was more variation within regions in the instructional delivery model experienced by students attending LEAs located on the fringe of urban areas than those attending city/suburb LEAs.

- In Regions 3, 4, and 6, the majority of students attending LEAs located on the urban fringe attended LEAs that offered a hybrid model.
- In Region 1, about half of students attending LEAs located on the urban fringe attended LEAs that offered an in-person model and about half attended LEAs that offered a hybrid model.
- In Region 5, the vast majority of students attending LEAs located on the urban fringe attended LEAs that offered an in-person model.

[5] See Appendix II for a discussion of locales (city, suburb, town, rural) in Idaho.

Table 1. Number of students by region, locale, and instructional delivery model and share of students in each region and locale experiencing instructional delivery model

		Instructional Delivery Model		
Region	Locale	In-Person	Hybrid	Online
Region 1 	City/Suburb	0 (0%)	15,736 (96%)	618 (4%)
	Fringe	868 (46%)	1,000 (54%)	0 (0%)
	Town	3,316 (53%)	2,624 (42%)	295 (5%)
	Rural	483 (8%)	5,351 (92%)	0 (0%)
Region 2 	City/Suburb	4,482 (100%)	0 (0%)	0 (0%)
	Fringe	0 (0%)	0 (0%)	0 (0%)
	Town	2,104 (46%)	2,495 (54%)	0 (0%)
	Rural	2,135 (66%)	1,123 (34%)	0 (0%)
Region 3 	City/Suburb	571 (1%)	1,282 (1%)	85,293 (98%)
	Fringe	948 (4%)	19,621 (88%)	1,688 (8%)
	Town	5,389 (45%)	6,689 (55%)	0 (0%)
	Rural	5,294 (70%)	2,172 (29%)	150 (2%)
Region 4 	City/Suburb	0 (0%)	0 (0%)	0 (0%)
	Fringe	1,275 (30%)	2,957 (70%)	0 (0%)
	Town	11,413 (38%)	18,389 (62%)	0 (0%)
	Rural	2,224 (63%)	920 (26%)	385 (11%)
Region 5 	City/Suburb	414 (3%)	12,097 (97%)	0 (0%)
	Fringe	2,373 (81%)	540 (19%)	0 (0%)
	Town	3,211 (68%)	1,498 (32%)	0 (0%)
	Rural	11,956 (95%)	681 (5%)	0 (0%)
Region 6 	City/Suburb	198 (1%)	24,248 (99%)	0 (0%)
	Fringe	4,684 (28%)	11,929 (72%)	0 (0%)
	Town	6,619 (95%)	315 (5%)	0 (0%)
	Rural	1,418 (28%)	3,474 (68%)	215 (4%)

Towns

There was also more variation within regions in the instructional delivery model experienced by students attending LEAs located in towns than those attending city/suburb LEAs.

- In Region 4, the majority of students attending LEAs located in towns attended LEAs that offered a hybrid model.
- In Regions 1, 2, and 3, about half of students attending LEAs located in towns attended LEAs that offered an in-person model and about half attended LEAs that offered a hybrid model.
- In Regions 5 and 6, the vast majority of students attending LEAs located in towns attended LEAs that offered an in-person model.

Rural areas

In most regions, the majority of students attending LEAs located in rural areas attended LEAs that offered an in-person model.

- In Regions 2, 3, 4, and 5, the majority of students attending rural LEAs attended LEAs that offered an in-person model.
- In Regions 1 and 6, the majority of students attending rural LEAs attended LEAs that offered an hybrid model.

Trends by Student Group

Figure 1 shows how different groups of students are under- or over-represented in each instructional delivery model.

- There are about 13 percent more American Indian students and Migrant students in the in-person model than what there would be if these groups were perfectly represented in each model.
- There are about 30 percent more Asian and Black students in the online model than there would be if these groups were perfectly represented in each model.

The region and locale divide discussed above is reflected in the types of students who were most likely to experience the different models because students of various demographic groups are not always evenly distributed across the state.

- Approximately 50 percent of American Indian students attended only 5 LEAs while the remaining 50 percent of American Indian students were spread out over 127 LEAs. These 5 LEAs exclusively offered an in-person or hybrid model. This led to American Indian students being over-represented in the LEAs that offered an in-person model.
- A little over 50 percent of Migrant students attended only 6 LEAs while the remaining Migrant students were spread out over 50 LEAs. These 6 LEAs disproportionately offered an in-person or a hybrid model. This led to Migrant students being over-represented in LEAs that offered an in-person model.
- Asian and Black students were highly concentrated in a few LEAs. Slightly over 50 percent of both Asian students and Black students attended two city/suburb LEAs located in Region 3 – both of which offered an online model.

Figure 1. Over-representation or under-representation for each demographic group by instructional delivery model

APPENDIX I
Methodology

LEA Characterization

This paper characterizes LEAs based on information gathered by the State Department of Education (SDE). These characterizations are preliminary. They were gathered mainly using data published on the LEA's website. SDE employees would go through each individual LEA's website to check the status and when all LEAs had been checked, they would cycle through the list again. There could have been several weeks passed between when a specific LEA's status was first checked and when it was checked again.

The characterizations are preliminary because it is possible that the status data was not always updated on the LEA websites. It is also possible that the status changed several times mid-cycle. For instance, if an LEA went from in-person to hybrid and then back to in-person within several weeks, it could have appeared as if there was no status changed. Finally, LEAs were characterized as hybrid or online if any school in that LEA was hybrid or online. Elementary schools may have returned to in-person instruction before high schools did. However, the status for an elementary school would not change until the status for all schools in the LEA changed.

Student Subgroups

This paper uses the same subgroups of students used by SDE in their Report Card. There were several steps to calculate how under- or over-represented a group of students was in each type of instructional delivery model. First, the percentage of students in each type of instructional delivery model who belong to each group was calculated. That was then compared to the percentage of all students who belong to each group. If the difference in these percentages was statistically significant, the percentage of students in each group who would have to move from that particular type of instructional delivery model in order to achieve expected representation was calculated.

For instance, 78 percent of students in the in-person instructional delivery model are White students while only 74 percent of all students are White. This difference is statistically significant and 1 percent of all White students would have to move from the in-person instructional delivery model in order for White students to be perfectly represented in that group.

APPENDIX II
Locales in Idaho

This paper uses the National Center for Education Statistics (NCES) locale framework. The NCES framework depends on the Census Bureau's delineation of areas as either urban or rural.[1] Basically, urban areas have a certain minimum level of population density. Urban areas are further delineated by population into Urbanized Areas (UAs) and Urban Clusters (UCs). UAs are those urban areas with a population of 50,000 or more while UCs have populations less than 50,000.

NCES uses this urban and rural framework to define LEAs as either rural, town, suburban, or city. Rural LEAs are those LEAs that are located in rural areas. Town, suburban, and city LEAs are located in urban areas. Specifically, town LEAs are located in UCs while suburban and city LEAs are located in UAs. City LEAs are located in the principal city of the UA while suburban LEAs are located outside the principal city of the UA.

The NCES framework does include a more granular definition of these locales. Specifically, it subdivides cities and suburbs into large, midsize, and small (reflecting population). It subdivides town and rural into fringe, distant, and remote (reflecting the distance from an UA). This analysis does reclassify those LEAs that normally operate virtually. NCES currently assigns these LEAs a geographic-based locale. However, it is more useful to classify these LEAs separately.

The tables below show how the LEAs used in this paper are classified.

City

City, Midsize: Territory inside an urbanized area and inside a principal city with population less than 250,000 and greater than or equal to 100,000.

LEA Name	LEA Name	Region
1	Boise Independent District	3
454	Rolling Hills Public Charter School, Inc.	3
473	The Village Charter School, Inc.	3
475	The Sage International School Of Boise, A Public Charter School, Inc.	3
511	Peace Valley Charter School, Inc.	3

City, Small: Territory inside an urbanized area and inside a principal city with population less than 100,000.

LEA Name	LEA Name	Region
271	Coeur D'Alene District	1
491	Coeur D'Alene Charter Academy, Inc.	1
340	Lewiston Independent District	2
25	Pocatello District	5
494	The Pocatello Community Charter School, Inc.	5
496	Gem Prep: Pocatello, Inc.	5
91	Idaho Falls District	6
495	Forrester Academy, Inc.	6

[1] The Census Bureau defines urban/rural areas, Urbanized Areas, and Urban Clusters after every Decennial Census. The definitions used in this paper are those from the 2010 Census.

Suburb

Suburban, Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more.

LEA Name	LEA Name	Region
2	West Ada (Joint School LEA Name 2)	3
492	Anser Of Idaho Inc.	3
498	Gem Innovation Schools	3
499	Future Public School, Inc.	3
550	Doral Academy Of Idaho, Inc.	3
768	Meridian Technical Charter High School, Inc.	3
785	Meridian Medical Arts Charter High School, Inc.	3

Suburban, Midsize: Territory outside a principal city and inside an urbanized area with population less than 250,000 and greater than or equal to 100,000.

LEA Name	LEA Name	Region
131	Nampa School District	3
132	Caldwell District	3
463	Vision Charter School, Inc.	3
478	Legacy Public Charter School, Inc.	3
481	Heritage Community Charter School, Inc.	3
497	Pathways In Education - Nampa, Inc.	3
523	Elevate Academy Inc.	3
528	Forge International, Llc	3
559	Thomas Jefferson Charter School, Inc.	3
795	Idaho Arts Charter School, Inc.	3

Suburban, Small: Territory outside a principal city and inside an urbanized area with population less than 100,000.

LEA Name	LEA Name	Region
273	Post Falls District	1
93	Bonneville Joint District	6
464	White Pine Charter School, Inc.	6
474	Monticello Montessori Charter School, Inc.	6

Town

Town, Fringe: Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area.

LEA Name	LEA Name	Region
3	Kuna Joint District	3
456	Falcon Ridge Public Charter School, Inc.	3
513	Project Impact Stem Academy	3
60	Shelley Joint District	6

Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area.

LEA Name	LEA Name	Region
41	St Maries Joint District	1
84	Lake Pend Oreille School District	1
487	Sandpoint Charter School, Inc.	1
171	Orofino Joint District	2
281	Moscow District	2
472	Palouse Prairie Educational Organization, Inc.	2
813	Moscow Charter School, Inc.	2
193	Mountain Home District	3
221	Emmett Independent District	3
370	Homedale Joint District	3
371	Payette Joint District	3
373	Fruitland District	3
532	Treasure Valley Classical Academy, Inc.	3
485	Idaho Stem Academy, Inc.	4
201	Preston Joint District	5
381	American Falls Joint District	5
55	Blackfoot District	6
322	Sugar-Salem Joint District	6
468	Idaho Science And Technology Charter School, Inc.	6
477	Blackfoot Charter Community Learning Center, Inc.	6

Town

Town, Remote: Territory inside an urban cluster that is more than 35 miles from an urbanized area.

LEA Name	LEA Name	Region
101	Boundary County District	1
393	Wallace District	1
244	Mountain View School District	2
431	Weiser District	3
61	Blaine County District	4
151	Cassia County Joint District	4
261	Jerome Joint District	4
331	Minidoka County Joint District	4
411	Twin Falls District	4
413	Filer District	4
414	Kimberly District	4
465	North Valley Academy, Inc.	4
479	Heritage Academy, Inc.	4
488	Syringa Mountain School, Inc.	4
553	Pinecrest Academy Of Idaho	4
150	Soda Springs Joint District	5
291	Salmon District	6
531	Fern-Waters Public Charter School, Inc.	6

Rural

Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster.

LEA Name	LEA Name	Region
391	Kellogg Joint District	1
480	North Idaho Stem Charter Academy, Inc.	1
508	Hayden Canyon Charter School	1
134	Middleton District	3
135	Notus District	3
139	Vallivue School District	3
451	Victory Charter School, Inc.	3
455	Compass Public Charter School, Inc.	3
458	Liberty Charter School, Inc.	3
493	North Star Charter School, Inc.	3
544	Mosaics Public School	3
231	Gooding Joint District	4
232	Wendell District	4
412	Buhl Joint District	4
462	Xavier Charter School, Inc.	4
52	Snake River District	5
460	The Academy, Inc.	5
483	Chief Tahgee Elementary Academy, Inc.	5
215	Fremont County Joint District	6
251	Jefferson County Joint District	6
321	Madison District	6
461	Taylor's Crossing Public Charter School, Inc.	6
482	American Heritage Charter School	6

Rural

Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster.

LEA Name	LEA Name	Region
44	Plummer-Worley Joint District	1
83	West Bonner County District	1
272	Lakeland District	1
274	Kootenai District	1

APPENDIX III

Idaho Education Regions & School Districts[1]

[1] Regions are delineated by color. The boundary lines represent school district boundaries. School districts are identified by the school district number. See https://www.sde.idaho.gov/school-choice/charter/files/idaho-schools/Idaho-Charter-Schools-by-Region.pdf for a list of charter schools by region.

SPECIAL BOARD REPORT

Idaho State Board of Education

COVID-19 Impact Series

Part 2: The Impact of COVID-19 on 9th Grade GPA in Idaho Public Schools[1]

OVERVIEW

This paper compares GPAs of 9th grade students as of March 6, 2020 (pre-COVID) with GPAs of 9th grade students as of March 5, 2021 (post-COVID) in order to understand how the pandemic and the resultant changes in instructional delivery models could have affected GPAs. Ninth grade GPA should be more sensitive to any impact than the GPA of other grades as there is not any other year in the calculation that could mitigate that impact. For instance, any effect on 10th grade GPA would be mitigated by one year of pre-COVID GPA, any effect on 11th grade GPA would be mitigated by two years of pre-COVID GPA, and any effect on 12th grade GPA would be mitigated by three years of pre-COVID GPA.

Using the instructional delivery model classifications developed in Part 1 of this series, this paper examines whether or not there were differences in impacts on GPAs across local education agencies (LEAs) that offered the different instructional delivery models and if there were differences across various groups of students experiencing those instructional delivery models. It also estimates if there was a change in the share of 9th grade students with GPAs meeting eligibility requirements for two programs meant to encourage students going on to college. The first is the Opportunity Scholarship. Students must have a GPA of at least 2.7 to be eligible. The second is Direct Admissions. While in the past, Direct Admissions has used both standardized tests and GPA as criteria, the Direct Admissions criterion has shifted to being only GPA-based. In the next year, students will be directly admitted into all 8 Idaho public institutions (Direct Admissions – Group of 8) if they have a GPA of at least 2.6.

Classification of Instructional Delivery Models*

In-Person

Districts that used only in-person instructional delivery model.

Hybrid

Districts that used hybrid instructional delivery model for at least some period of time but did not use strictly online instructional delivery model at any point.

Online

Districts that used strictly online instructional delivery model for at least a period of time.

*Classification of districts by instructional delivery model is preliminary. There are known limitations with the data as it currently exists – see Appendix I for more detail.

[1] Author: Dr. Cathleen McHugh, Chief Research Officer, Idaho State Board of Education

FINDINGS

This paper finds that LEAs that offered either a hybrid or online instructional delivery model did have a decrease in 9th grade GPAs. Ninth grade GPA dropped by 0.13 points in LEAs that offered a hybrid model and by 0.09 points in LEAs that offered an online model. There was not a statistically significant change for LEAs that offered an in-person model.

This decrease did affect the share of 9th grade students with GPAs that would meet the Opportunity Scholarship or the Direct Admissions – Group of 8 threshold. The share of 9th grade students with GPAs meeting the Opportunity Scholarship threshold dropped by 5 percentage points both in LEAs offering a hybrid model and in LEAs offering an online model. The share of 9th grade students with GPAs meeting the Direct Admission threshold dropped by 5 percentage points in LEAs offering a hybrid model and by 4 percentage points in LEAs offering an online model. There was no statistically significant change in LEAs that offered an in-person model.

Findings for Student Subgroups

There were subgroups of students with statistically significant effects. These were:

White Students

- LEAs offering an in-person model: There was not a statistically significant impact on 9th Grade GPA for White students.
- LEAs offering a hybrid model: Ninth grade GPA decreased by 0.10 points. Both the share of those with GPAs eligible for the Opportunity Scholarship and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 4 percentage points.
- LEAs offering an online model: Ninth grade GPA decreased by 0.07 points. Both the share of those with GPAs eligible for the Opportunity Scholarship and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 4 percentage points.

Summary of Findings for White Students									
	In-Person			Hybrid			Online		
	GPA	% Eligible for Opportunity Scholarship	DA Group of 8 Eligibility	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8
Significant Change?	**No**	**No**	**No**	**Yes**	**Yes**	**Yes**	**Yes**	**Yes**	**Yes**

Note: The value reported in the Decrease or Increase row may not match the number computed using the data in the % or GPA Change row due to rounding.

Hispanic Students

- LEAs offering an in-person model: There was not a statistically significant impact on 9th Grade GPA for Hispanic students.
- LEAs offering a hybrid model: Ninth grade GPA decreased by 0.27 points. The difference between this estimate and the estimate for White students was statistically significant. The share of those with GPAs eligible for the Opportunity Scholarship decreased by 8 percentage points and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 9 percentage points. Neither difference between these estimates and the estimates for White students was statistically significant.

» LEAs offering an online model: Ninth grade GPA decreased by 0.16 points. Both the share of those with GPAs eligible for the Opportunity Scholarship and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 5 percentage points. None of the differences between these estimates and the estimates for White students were statistically significant.

Summary of Findings for Hispanic Students									
	In-Person			Hybrid			Online		
	GPA	% Eligible for Opportunity Scholarship	DA Group of 8 Eligibility	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8
Significant Change?	**No**	**No**	**No**	**Yes**	**Yes**	**Yes**	**Yes**	**Yes**	**Yes**

Note: The value reported in the Decrease or Increase row may not match the number computed using the data in the % or GPA Change row due to rounding.

Economically Disadvantaged Students

» LEAs offering an in-person model: There was not a statistically significant impact on 9th Grade GPA for Economically Disadvantaged students.

» LEAs offering a hybrid model: Ninth grade GPA decreased by 0.22 points. The share of those with GPAs eligible for the Opportunity Scholarship decreased by 7 percentage points and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 8 percentage points. None of the differences between these estimates and the estimates for students who are not economically disadvantaged were statistically significant.

» LEAs offering an online model: Ninth grade GPA decreased by 0.23 points. The difference between this estimate and the estimate for students who are not economically disadvantaged was statistically significant. The share of those with GPAs eligible for the Opportunity Scholarship decreased by 9 percentage points and the share of those eligible for Direct Admissions - Group of 8 decreased by 8 percentage points. Neither difference between these estimates and the estimates for students who are not economically disadvantaged was statistically significant.

Summary of Findings for Economically Disadvantaged Students									
	In-Person			Hybrid			Online		
	GPA	% Eligible for Opportunity Scholarship	DA Group of 8 Eligibility	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8

Note: The value reported in the Decrease or Increase row may not match the number computed using the data in the % or GPA Change row due to rounding.

English Language Learner Students

- LEAs offering an in-person model: There was not a statistically significant impact on 9th Grade GPA for English Language Learner students.
- LEAs offering a hybrid model: Ninth grade GPA decreased by 0.38 points. The difference between this estimate and the estimate for students who are not English Language Learners was statistically significant. The share of those with GPAs eligible for the Opportunity Scholarship decreased by 12 percentage points and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 14 percentage points. Neither difference between these estimates and the estimates for students who are not English Language Learners was statistically significant.
- LEAs offering an online model: Ninth grade GPA decreased by 0.40 points. The difference between this estimate and the estimate for students who are not English Language Learners was statistically significant. The share of those with GPAs eligible for the Opportunity Scholarship decreased by 10 percentage points and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 9 percentage points. Neither difference between these estimates and the estimates for students who are not English Language Learners was statistically significant.

Summary of Findings for English Language Learners

Note: The value reported in the Decrease or Increase row may not match the number computed using the data in the % or GPA Change row due to rounding.

Migrant students

- LEAs offering an in-person model: There was not a statistically significant impact on 9th Grade GPA for Migrant students.
- LEAs offering a hybrid model: Ninth grade GPA decreased by 0.42 points. The difference between this estimate and the estimate for students who are not Migrant was statistically significant. Both the share of those with GPAs eligible for the Opportunity Scholarship and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 16 percentage points. Neither difference between these estimates and the estimates for students who are not Migrants was statistically significant.
- LEAs offering an online model: Ninth grade GPA decreased by 0.57 points. The difference between this estimate and the estimate for students who are not Migrant was statistically significant. Both the share of those with GPAs eligible for the Opportunity Scholarship and the share of those with GPAs eligible for Direct Admissions – Group of 8 decreased by 12 percentage points. Both difference between these estimates and the estimates for students who are not Migrants was statistically significant.

	Summary of Findings for Migrant Students								
	In-Person			Hybrid			Online		
	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8	GPA	% Eligible for Opportunity Scholarship	% Eligible for DA Group of 8

IMPACT

This analysis found statistically significant decreases in the 9th grade GPAs for several groups of students who attended LEAs that offered hybrid or online instructional delivery models. Unless these 9th graders raise their GPA before graduation, it is projected there will be decreases in the number of students eligible for the Opportunity Scholarship and Direct Admissions – Group of 8 programs compared to what there would have been if their GPAs had followed the same pattern that existed pre-COVID.

- There could be about **580**, or 3%, fewer White students eligible for the programs.
- There could be about **250**, or 5%, fewer Hispanic students eligible for the programs.
- There could be about **400**, or **5**%, fewer Economically Disadvantaged students eligible for the programs.
- There could be about **100**, or **10**%, fewer English Language Learner students eligible for the programs.
- There could be about **30**, or 10%, fewer Migrant students eligible for the programs.

Not being eligible to participate in these programs could impact the rate at which different groups of students attend college. For instance, earlier work by OSBE has found that being offered an Opportunity Scholarship increased the probability that a student attended college by 9 percentage points. Unless students are able to increase their GPAs to meet eligibility criteria for these programs, then the secondary to postsecondary pipeline could be affected.

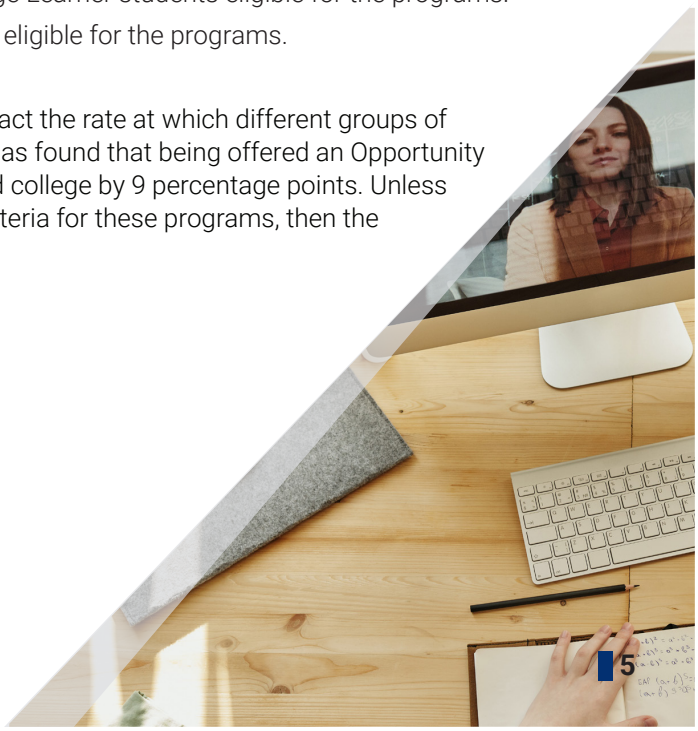

Figure 1. Significant Changes in the GPA of 9th Grade Students in March of 2020 vs. March of 2021 by Demographic Group and Instructionional Delivery Model

		Point Change in GPA			
		Statewide (All Models)	In-Person	Hybrid	Online
Overall	All students			**-0.13** Change in GPA: 2.92 to 2.79 (n = 22,163)	**-0.09** Change in GPA: 2.98 to 2.89 (n = 14,373)
Race	Asian	**-0.20** Change in GPA: 3.45 to 3.25 (n = 599)			
	Hispanic			**-0.27** Change in GPA: 2.60 to 2.33 (n = 4,162)	**-0.16** Change in GPA: 2.50 to 2.34 (n = 2,741)
	White			**-0.10** Change in GPA: 3.01 to 2.92 (n = 16,709)	**-0.07** Change in GPA: 3.10 to 3.03 (n = 10,289)

Notes: Negative numbers indicate a decrease in eligibility while positive numbers would indicate an increase in eligibility. The number of students included in the analysis is denoted by "n". Only statistically significant changes were reported in this table. Statistical signficance was considered a p-value of less than 0.05.

APPENDIX I
Methodology

GPA Analysis

This paper compares the GPA of students in a particular grade in a particular school as of March 6, 2020 with the GPA of students in that same grade and same school as of March 5, 2021. This analysis does not track GPAs of individual students across these time periods. It is possible that a student's GPA naturally decreases (or increases) as that student progresses through high school. It would require at least 3 years of GPA data to do this sort of analysis. The change between years 1 and 2 would set the baseline for understanding the change between years 2 and 3. In contrast, the analysis done in this paper only requires 2 years of data.

While high school GPA has been collected in ISEE for several years, it is just in 2020 that only unweighted GPA was collected. Prior to that, schools could submit either unweighted or weighted GPA. Thus, there is only one year of data prior to COVID that contains a GPA measure that is consistent with the GPA data after COVID.

This paper analyzes GPAs for all students in the 9th grade[1] according to the instructional delivery model offered by the student's LEA and then repeats that analysis for students of various demographic groups (race/ethnicity, economic disadvantaged, special education, English Language learner status, homeless status, and migrant status). It holds constant the school attended.[2] This means any attributes of the school that did not change from 2020 to 2021 is also held constant. It also did sensitivity analysis using LEA level fixed effects in case students moved between schools within an LEA in response to the pandemic.

LEA Characterization

This paper characterizes LEAs based on information gathered by the State Department of Education (SDE). These characterizations are preliminary. They were gathered mainly using data published on the LEA's website. SDE employees would go through each individual LEA's website to check the status and when all LEAs had been checked, they would cycle through the list again. There could have been several weeks passed between when a specific LEA's status was first checked and when it was checked again.

The characterizations are preliminary because it is possible that the status data was not always updated on the LEA websites. It is also possible that the status changed several times mid-cycle. For instance, if an LEA went from in-person to hybrid and then back to in-person within several weeks, it could have appeared as if there was no status changed. Finally, LEAs were characterized as hybrid or online if any school in that LEA was hybrid or online. Elementary schools may have returned to in person instruction before high schools did. However, the status for an elementary school would not change until the status for all schools in the LEA changed.

Student Subgroups

This paper uses the same subgroups of students used by SDE in their Report Card.

[1] GPAs for 10th, 11th, and 12th graders were also examined. The results for those grades are available upon request.
[2] Specifically, this analysis uses a multiple regression model with school year variables and school level fixed effects.

AGENCIES AND INSTITUTIONS OF THE STATE BOARD

SUBJECT

FY2023 Line Item Budget Requests

REFERENCE

April 2021	Directed the college and universities to limit Fiscal Year 2023 budget line items requests to up to two (2) line items in priority order, the total value of which shall not exceed five percent (5%) of an institution's FY2022 total General Fund appropriation. Requests for occupancy costs for eligible space and faculty promotions will not count towards the two line item limit or the 5% cap.

APPLICABLE STATUTE, RULE, OR POLICY

Title 67, Chapter 35, Idaho Code
Idaho State Board of Education Governing Policies & Procedures, Section V.B.1.

BACKGROUND/ DISCUSSION

At the April meeting, the Board was informed that the Division of Financial Management (DFM) provided guidance for agencies to operate as they did prior to the COVID-19 pandemic, and the Board directed the college and universities to limit their requests to up to two line items that do not exceed 5% of the institution's FY2022 general fund appropriation.

Subsequently, DFM issued the following guidelines to institutions and agencies: to align ongoing expenses with ongoing revenue, each agency supported by General Fund must prepare its FY 2023 budget with a total General Fund request not to exceed its FY 2022 original ongoing General Fund appropriation by an amount more than 3.1%. This 3.1% growth factor is inclusive of all Maintenance Items such as Enrollment Workload Adjustment, 1% CEC, replacement capital and inflation.

Following Board approval, the budget requests will be submitted to the Legislative Services Office (LSO) and Division of Financial Management (DFM) by September 1, 2021.

IMPACT

The approved Line Items will be included with the FY2023 budget requests and submitted to DFM and LSO for consideration by the Governor for his FY2023 Budget recommendations and by the Joint-Finance Appropriations Committee for funding.

ATTACHMENTS

Attachment 1 - Line Items Summary
Attachment 2 - Occupancy Costs
Attachment 3 - 36: Individual Line Items

STAFF COMMENTS AND RECOMMENDATIONS

Each proposed line item set forth has been discussed in consultation with the Division of Financial Management and meets the specific criteria set forth in the June 3, 2021 memo from DFM.

Attachment 1 shows the line items for each institution and agency. It also displays the FY 2022 General Fund Appropriation and the total request for line items. Staff did not provide a percentage of the line items to General Fund in order to compare to the 3.1% limit because the full amount of general fund requests (i.e. replacement capital, inflation, etc.) is unknown at this time.

Board staff acknowledge the very difficult work that has been done at each of the agencies and institutions in preparing these budget line item requests. Staff recommends approval.

BOARD ACTION

I move to approve the Line Items for the agencies and institutions as listed in Attachments 1 and 2, and to authorize the Executive Director to approve the maintenance of current operations and Line Item budget requests for agencies and institutions due to the Division of Financial Management and Legislative Services Office on September 1, 2021.

Moved by _____ Seconded by _____ Carried Yes _____ No ____

Request Narrative

1. What is being requested and why? Specifically, what problem is this request trying to solve and how does this request address that problem?

The request is for stipends to be supported by the general fund for 60 teachers taking 6 graduate level credits annually.

The rapid growth in students taking part in the State of Idaho's dual enrollment (DE) Advanced Opportunities (AO) has led to a situation in which the State has a need for qualified DE teachers. This, in turn, has had several impacts on DE offerings in the State. In some schools, for instance, administrators have had to resort to increasing the cap on particular courses, resulting in overcrowding,

compromised instruction, and, at times, misalignment with state board and NACEP[1] standards. In other situations, school administrators have felt compelled to assign DE courses to teachers with limited, and in some cases questionable, credentials in a particular subject area and potentially and unintentionally misleading students about their readiness for college or other post-secondary programming.

Recognizing the barrier this situation presents in providing Idaho's high school students with quality DE opportunities, both BSU and ISU established their own in-house tuition waiver programs that make it possible for practicing teachers to earn the required knowledge and skills needed at the graduate level (or other certification) to teach in a particular subject area. In return, the teachers are allowed to start teaching in their subject of study for their high schools in a manner similar to how post-secondary institutions (PSI) traditionally manage graduate teaching assistantships, as long as: 1) they have met all department requirements; 2) they are continuing to make adequate progress toward degree or certificate completion; and 3) their teaching is determined to be satisfactory according to department guidelines. All parties benefit from these programs. Qualifying teachers can earn their credentials at limited (to no) cost in a time frame that is manageable to them given their heavy PSI teaching loads.

For students, these programs provide increased access not only to instruction in certain areas but in *quality* instruction in these areas. Finally, these programs build stronger relations between high schools and PSIs. In many cases, this levels the playing field for DE seeking students in rural communities and in disciplines that might not otherwise be accessible to them. Given the considerable level of success and numerous benefits of these programs, the PLC recommends the establishment and implementation of a State-level program that formalizes and replaces current PSI-level programs. Given the considerable amount of revenue already dedicated to the State's DE program, teacher training scholarships have the potential for considerable return on investment as described in item 6.

[1]NACEP, an acronym for National Alliance of Concurrent Enrollment Partnerships, is the national accrediting agency for DE programs. State board guidelines are consistent with NACEP accreditation standards.

2. Indicate the specific source of authority, whether in statute or rule, that supports this request.

In 2014, the State of Idaho approved legislation that resulted in the release of millions of dollars in funding to increase access to Dual Enrollment (DE) opportunities to high school students across the State. The Advance Opportunities program has proven successful in increasing access to higher education opportunities in high schools; at the conclusion of the 2014 AY, 33% of high school graduates had earned any DE credits, a number that increased to 58% in 2020

graduates. This, in turn, has allowed students to shorten their time to degree after matriculating to post-secondary institutions (PSIs).

3. **What is the agency staffing level, OE, or CO for this activity currently and how much funding, by source, is in the Base?**

   Consistent with the desire for greater state-wide coordination, applications from teachers interested in the teacher training scholarship program would be submitted to the board office for consideration regardless of the institution for which the high school teacher is interested in teaching (i.e., state institution and/or community college) and the institution for which the teacher is seeking the desired instructional credential.

   This support for 60 teachers taking 6 graduate level credits annually would be exclusively in operating expenses and would not require additional staffing or and new equipment.

4. **What resources are necessary to implement this request?**
   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire and terms of service.**
      No new positions required.

   b. **Note any existing agency human resources that will be redirected to this new effort, how existing operations will be impacted, and anticipated oversight the position.**
      Participating post-secondary institutions will need to provide greater liaison oversight and mentoring of teachers who are working towards certification. Liaisons are compensated by their institutions. Dual enrollment offices across the state will also assist in teacher placement in the appropriate graduate and/training program. This will be an extension of what dual enrollment coordinators/directors already do as part of the teacher certification processes at their institutions.

   c. **List any additional operating funds and capital items needed and note onetime versus ongoing costs**
      This is all ongoing need exclusively from the general fund.

   d. **What is the basis for the requested resources? How were PC, OE, or CO needs projected? Was an RFI done to project estimated costs (if so, please attach a copy of the cost estimates.)**
      The expenditures for these scholarships are calculated under OE, and based on current program costs.

5. **Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example,**

whether there is a new customer base, fee structure changes, anticipated grant awards, or anticipated partnerships with other state agencies or other entities.

The Presidents' Leadership Council (PLC) representing the eight public institutions in Idaho agreed with a state-wide working group that it would be highly advantageous to all parties if the state established a dual enrollment (DE) teacher scholarship program for secondary education teachers seeking to become DE teachers in a particular content area. ISU is currently piloting such a program, and BSU has had a similar program in place for several years in an effort to build DE STEM instructional capacity. After carefully reviewing the strengths and limitations of both programs, it seemed that a program embracing the benefits of both programs could be scalable to the state level. The proposed program works by providing teachers with a $3,000 teacher training scholarship annually (as long as the teacher meeting the continuing criteria of the program) paid directly to the institution where instruction is being provided, and the teacher will receive compensation from the sponsoring institution as would any DE enrollment teacher. This training is designed to lead to either an advance degree or certification in a particular content area ensuring that teachers are meeting the expectations of dual credit programs as specified in board policy and accepted by accrediting organizations (e.g., NACEP). The program is based on current graduate-level training models where it is typical to allow students, in this case teachers, to teach DE courses in the content area prior to receiving their advance degree (or other certification), as long as they are making adequate progress to completion. Though different models could obviously be developed, the proposed model stipulates that the teachers need to earn no fewer than six graduate-level credits per year in order to continue to receive the teaching scholarship. Additionally, the sponsoring institution will need to provide more regular and in-depth mentorship and instructional observations to ensure students are receiving instruction that is in line with what one would expect in university-level/college/technical courses.

Implementing such a system would provide numerous advantages to our students, our teachers, and the state. First of all, it could drastically improve the qualifications of our high school teachers in general, which in turn would provide the students with richer and more diverse DE opportunities (with all, this implies for time to degree and go-on rates at the post-secondary level). In addition, it would encourage the DE teachers to improve their employability, as well as increasing their level of compensation. Finally, it provides high school students across the state, including in rural areas, training opportunities that are key to building an adaptable workforce.

6. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

The anticipated expense of this program as outlined and based upon average cost of 6 graduate credits per year for each participating teacher is $175, 426.20. (See attached document.) The average cost for 6 credits across state institutions is just under $3,000 per/year/teacher. This would be an ongoing request. It will provide educational opportunities for up to 60 teachers per year across all institutions in an effort to enhance delivery and access to DE opportunities for high school students. As noted by the PLC working group, the ROI on this request where participating teachers provide DE instruction to approximately 40 students a year would result in 7,200 more students served in rural and underserved communities and in disciplines that meet the training needs of the state.

7. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

   The increased opportunities available to high school students in the State of Idaho to earn DE credits via Advanced Opportunities funding has been a very positive development. However, a byproduct of the extremely rapid development has been a number of issues that ultimately limit the efficiency and efficacy of the program—including a teacher shorter and limited number of qualified DE high school teachers. By addressing these limitations, the state will be able to solidify a program that not only maximizes opportunities for our students, but also serves the needs of our constituents.

Request Narrative

1. Explain the request and provide justification for the need.

   This request significantly expands the existing Community Impact Program (CIP) at Boise State University. Launched in Fall 2020, CIP provides specialized educational programming and student support in three hub communities: McCall (West-Central Mountains Region), Mountain Home (Elmore County Region), and Payette (Western Treasure Valley Region). The effort leverages the 53+ fully online degree programs offered by Boise State, and is augmented by community based instruction (delivered in the community), deep community involvement in planning, design, delivery, and outcomes, and specialized experiential learning opportunities for participating students.

   In its first year alone, CIP generated eight (8) entrepreneurial start-ups, attracted Apple, Inc. to invest equipment and high value programming to local school districts and libraries, and resulted in significant increases in students coming to Boise State from these regions (based

on a three year running average): 28.6% increase from West Central Mountains, 17.5% increase from Elmore County, and 25% increase from Payette/Western Treasure Valley. Conversely, the comparison of control communities showed a corresponding decrease in students coming to Boise State of between 6.5% and 52%.

The Community Impact Program links directly with the strategies and outcomes in the 2017 Higher Education Taskforce Recommendations and builds on significant work already in place. The requested resources will be used to:

- Expand the number of hub communities served from 3 to 8.
- Intensify the focus and volume of activities dedicated to underserved communities.
- Create and advocate for tailored institutional support for the needs and long-term success of rural students and their communities of choice.
- Provide a clear "front door" to the university that enables rural Idaho communities to leverage resources and connections across Boise State.
- Expand external funding opportunities through a clarified focus, cross-institutional collaborations, and community partnerships.
- Establish structures to support an active institutional research agenda focused on rural students and communities.
- Enhance economic and workforce development efforts in underserved regions of the state.
- Increase partnerships that strengthen localized business and industry sectors.
- Support localized entrepreneurial start-up centers.
- Connect an expert cadre of university faculty and staff to serve the needs of these communities and populations.

2. If a supplemental, what emergency is being addressed?

   N/A, not supplemental

3. Indicate existing base of PC, OE, and/or CO by source for this request.

   Boise State currently has budgeted $265,000 in base funding for this program.

4. What resources are necessary to implement this request?

   The foundational aspect of this program is deep engagement with communities and students within their communities. The geographic distribution and volume of communities to be served requires significant personnel resources to achieve successful outcomes.

   A total of 31 positions are needed for the expansion of Community Impact Programs. Of those, 8 are full-time, including 2 faculty and 8 are part-time navigators based directly in the hub communities to be served. The remaining 15 positions are part-time adjunct and assistant faculty positions.

Operating expenses for this program include travel, general office supplies, marketing, sponsored community events (i.e. planning meetings, summits, student showcases, etc.), Room rentals for community based course offerings, and a dedicated vehicle lease.

Financial support for students is requested to reduce program costs.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	**Salary**	**FT or PT**	**Benefit Elig**	**Date of Hire**	**Term Service**
Admin. Asst. 2	$37,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month
Community Navigators	$160,000	PT 8 @ .5 FTE	Yes	July 1, 2022	12-month
High School Ambassadors	$47,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month
Business Faculty	$75,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month
Experiential Learning Faculty	$64,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month
Adjunct Faculty	$23,100	PT 7 @ Adjunct 2 Rate of $3,300 per semester	No	Variable	Semester x 3
Assistant Instructors	$24,000	PT 8 @ AI rate of $1,000 per semester x 3 semesters	No	Variable	Semester x 3
Communications and Marketing Professional	$50,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month
Senior Outreach Coordinator	$47,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month
Professional and Continuing	$60,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month

Education Instructor					
Operations Manager	$52,000	FT 1 @ 1.00 FTE	Yes	July 1, 2022	12-month

6. Will staff be re-directed? If so, describe impact and show changes on org chart

   All staff included in the budget will augment existing staff supporting the existing Community Impact Program effort.

7. Detail any current one-time or ongoing OE or CO and any other future costs.

   Current One Time: Boise State has provided $160,000 per year in financial support for students in FY21 and FY22. These funds have been used to lower the cost of the program by discounting tuition by 50% for 30 people per year. Unfortunately, these funds are one time and will be exhausted at the end of the FY22 fiscal year.

   Ongoing OE will be $96,800 for travel, general office supplies, marketing, room rentals, and sponsored events (i.e. student recruitment, community planning, summits, and student showcases).

   Ongoing costs for reduced tuition will be $802,500.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies

   N/A

9. Provide detail about the revenue assumptions supporting this request

   N/A

10. Who is being served by this request and what is the impact if not funded.

    The target population for this program include individuals living, working, starting businesses, raising families, etc. in the communities of their choice. Failure to fund this expansion initiative will prevent Boise State from building on this proven concept, thus failing to engage with Idaho's rural communities using innovative, outcomes driven methods that directly align with the 2017 Higher Education Taskforce recommendations.

Request Narrative

1. Explain the request and provide justification for the need.

   The proposed initiative will better enable Boise State students to connect their educational experience to a future career while ensuring graduates are prepared and ready for the careers that await them. This proposal embeds career services into most of the academic colleges. This embedded model will connect classroom learning, academic advising and support, and career counseling/job search advising. Funding will add career specialists to most of the colleges to provide direct student contact in the form of one-on-one career counseling/advising, job search advising, workshops/classroom presentations, and career courses. College Career Specialists will also work directly with faculty and staff in each college to embed career education in the classroom and better integrate the academic and career components of a student's education (both in and out of the classroom).

Funding this request will provide the necessary resources for Boise State University to provide a more connected curricular and co-curricular educational experience that prepares students for work and *life beyond the blue*. This, in turn, will provide employers and community partners with a more career ready workforce.

2. If a supplemental, what emergency is being addressed?

   N/A

3. Indicate existing base of PC, OE, and/or CO by source for this request.

   Boise State currently has budgeted $574,959 of appropriated funds in the Career Center and $160,520 in local funds.

4. What resources are necessary to implement this request?

   Academic Colleges – Career Specialists – (7)

5. List positions, pay grades, full/part-time status, benefits, terms of service.

   N/A

10. Who is being served by this request and what is the impact if not funded?

    This request directly serves students and graduates of Boise State University. Employers, community partners, and the State of Idaho's economy are also positively impacted. The infrastructure described in this proposal will improve student participation in early career planning and access and participation in high-impact educational practices ultimately positively impacting retention and graduation rates, first destination results, and alumni satisfaction and affinity for Boise State University.

Request Narrative

Idaho State University and the Kasiska Division of Health Sciences respectfully submit this appropriation request for FY23. ISU would like to thank the State Board of Education,

the Governor and his office, and the Idaho Legislature for their ongoing support of our health science programs.

This appropriation request is based on workforce needs in the state. Registered Nurses (RN) are high-paying, in-demand jobs that are needed in the state. There is a projected shortage of over 500 registered nurses in the state of Idaho.

This appropriation request specifically enhances programs prioritized in our budgeting and planning processes and is based on workforce needs to alleviate the shortage of registered nurses across the state of Idaho. It also is intended to improve not only the students' clinical experiences within the Nursing program but all the clinical placements for all students pursuing health care professions at ISU.

1. Explain the request and provide justification for the need.

   Nursing – Five full-time faculty positions as well as ongoing operating costs are being requested to alleviate the shortage of baccalaureate prepared nurses in the state of Idaho by increasing the number of students in the southeast Idaho accelerated nursing program at ISU from 20 students to 30 students. The data in the 2020 Idaho Nursing Report shows that 2020 there was a shortage of 514 Nurses in Idaho and a projected shortage of Idaho nurses of 528 in 2021 and 560 in 2022. In addition, it is projected that 100+ additional registered nurses will be needed because of new facilities opening in Eastern Idaho. To mitigate this workforce shortage problem ISU has been working to increase the number of new nursing graduates. Expansion of nursing programs are limited by clinical placement sites (community health system partners) and accreditation-mandated faculty to student ratios. The accelerated nursing program is designed for individuals who have a baccalaureate degree in a field other than nursing. Students complete their baccalaureate degree in nursing over a 12-month period.

   Office of Clinical Education & Compliance – Two full-time staff positions as well as ongoing operating costs are being requested to support the creation of an office of clinical education and compliance. A HIPAA compliance officer is necessary to support all of ISU's health clinics including the University Health Center. Without a HIPAA compliance officer, ISU is subject to significant legal and regulatory exposure. With the emerging shortfall of clinical rotation sites due to the pressures of additional organizations also needing these sites, it has become necessary to have an office and full-time Director of Clinical Placement Coordination specifically responsible for the continued coordination of these efforts across all of the health science programs at ISU. Once up and running, the goal is to coordinate this function with other Idaho universities.

2. If a supplemental, what emergency is being addressed?
   NA

3. Indicate existing base of PC, OE, and/or CO by source for this request.

   Nursing – This additional expansion of the undergraduate accelerated nursing program in Eastern Idaho will run concurrently with the existing, and very popular, accelerated nursing program in Meridian. The Southeastern Idaho undergraduate accelerated nursing program is slated to start in FY2022 and this increase in funding will allow ISU to further expand the program from 20 students in Eastern Idaho to 30 students. This request will increase the total FTE for the undergraduate accelerated nursing program at ISU from 7.00 FTE to 13.00 FTE.

   Office of Clinical Education & Compliance – Additional professional staff are necessary to provide the coordination of clinical placements, the development and sustainment of preceptor sites for students needing clinical training, the development/improvement of a HIPAA-compliant privacy program and ensuring privacy policies to protect the integrity of PHI are enforced, overseeing and ongoing training, risk assessments and HIPPA-compliant procedures. This is a new office and does not currently have any personnel.

4. What resources are necessary to implement this request?

   Nursing – The five full-time faculty positions as well as the operating expenses for travel and the supplies for students will be ongoing. There will be other anticipated increase in expenses, but these will be covered by the anticipated increase in revenue do to professional fees.

   Office of Clinical Education & Compliance – The salaries for the Director of Clinical Placement and the HIPPA Compliance Officer, as well as the operating expenses for travel and supplies will be ongoing.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Nursing

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Clinical Assist. Prof.	72,000	FT 1.00 FTE	Yes	July 2022	12-month
Clinical Assist. Prof.	72,000	FT 1.00 FTE	Yes	July 2022	12-month
Clinical Assist. Prof.	72,000	FT 1.00 FTE	Yes	July 2022	12-month
Clinical Assist. Prof.	60,000	FT 1.00 FTE	Yes	July 2022	9-month
Sim. Lab Coord.	65,000	FT 1.00 FTE	Yes	July 2022	12-month

Office of Clinical Education and Compliance

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
HIPAA Compliance Officer	110,000	FT 1.00 FTE	Yes	July 2022	12-month
Dir. Clinical Placement Coord.	75,000	FT 1.00 FTE	Yes	July 2022	12-month

6. Will staff be re-directed? If so, describe impact and show changes on org chart

Nursing – This line item request is for new accelerated nursing faculty position. The existing nursing faculty members within the School of Nursing will Continue to assist in teaching the additional students using distance learning technology, online content, and clinics and laboratory sessions.

Office of Clinical Education & Compliance – This line item request is for new staff. The current structure of clinical training is handled for each program specifically within that program. The current faculty and support personnel will continue to assist in clinical training but this office will be in charge of coordinating these efforts to increase efficiencies, identify additional clinical training sites, and provide opportunities for students to receive that training in areas of the state that have been designated as medically underserved population areas. ISU's legal counsel will continue to offer assistance for HIPAA compliance issues as needed. This office will report to the Associate Vice President for Health Sciences (see attached organizational chart).

7. Detail any current one-time or ongoing OE or CO and any other future costs

Nursing – An ongoing request for additional operating funds for travel, materials and supplies and equipment that fall below the $5K SCO capitalization threshold will be needed.

Ongoing Requests for Operating Expense – Accelerated Nursing:	
Operating – Travel	$12,500
Operating – Materials, Supplies, and Equipment	$12,500
Total Request for Ongoing Operating Expense:	**$25,000**

Office of Clinical Education & Compliance – An ongoing request for additional operating funds for travel, communications, materials and supplies, and equipment that fall below the $5K SCO capitalization threshold will be needed.

Ongoing Requests for Operating Expense – Office of Clinical Education & Compliance:

Operating – Travel	$10,000
Operating – Materials, Supplies, Services, Equipment	$ 8,000
Total Request for Ongoing Operating Expense:	**$18,000**

8. Describe method of calculation (RFI, market cost, etc.) and contingencies

Accelerated Nursing – Additional full-time faculty are required to provide clinical oversight at required ratios for accreditation and to ensure the competence and safety of future graduates. Salaries for faculty were based on current market trends and recent hiring experiences.

Office of Clinical Education & Compliance – Additional professional staff are necessary to provide the coordination of clinical placements, the development and sustainment of preceptor sites for students needing clinical training, the development/improvement of a HIPAA-compliant privacy program and ensuring privacy policies to protect the integrity of PHI are enforced, overseeing and ongoing training, risk assessments and HIPPA-compliant procedures.

9. Provide detail about the revenue assumptions supporting this request

Nursing – With the increase of 10 students there will be new tuition and professional fees collected. These increased professional fees will be used to cover additional operating and adjunct costs not requested in this line item request.

Office of Clinical Education & Compliance – With one office coordinating all clinical placements for all health science programs at ISU, we are anticipating increased positive partnerships/preceptorships with existing health care clinics across the state. We are also expecting the development of many new partnerships/preceptorships with smaller more rural clinics across the state to improve access to health care.

10. Who is being served by this request and what is the impact if not funded?

The citizens of Idaho are the benefactors of this request. Preparing more primary care providers will increase access to care for citizens of Idaho. With the accelerated increase in Idaho's population, it is anticipated that Idaho needs more than the reported 73 additional primary care providers (https://data.hrsa.gov/tools/shortage-area/hpsa-find) to meet the targeted minimum provider/population ratio. Creating

additional baccalaureate prepared nurses in underserved areas within the state provides better care for the residents of those areas.

The health of Idaho citizens is expected to improve because of this request. Access to care, particularly in rural and underserved areas is known to be associated with higher morbidity and mortality in nearly all chronic health conditions.

Idaho employers seeking to hire Registered Nurses will benefit because a greater number of licensed providers will be available to hire. This request is to expand the number of licensed providers where the greatest current and projected need for these providers exists. Expansion of the accelerated nursing program to the eastern and southern parts of Idaho will allow employers to have a greater number of nurses in Twin Falls, Pocatello, and Idaho Falls.

Idaho students who seek an education to become a licensed provider benefit from this request because we will be increasing the number of seats available for Registered Nurses through our accelerated nursing program. The cost of these in-state graduate programs is substantially less than out-of-state or private academic institutions. Increasing the number of seats available in this graduate program will provide more opportunities for Idaho Residents to receive the education they desire while reducing the student debt incurred while pursuing that education. Expansion of the accelerated program in the eastern and southern parts of Idaho provides convenience to students who live in those areas and allows them to capitalize on the clinical placements in Twin Falls, Pocatello, and Idaho Falls without having to travel.

If this line item request is not funded then ISU will not be able to increase the number of primary care providers or registered nurses within the state.

IT Narrative (If applicable) [not applicable]

1. How does this request conform with your agency's IT plan?
2. Is your IT plan approved by the Office of Information Tech. Services?
3. Does the request align with the state's IT plan standards?
4. Attach any supporting documents from ITS or the Idaho Tech. Authority.
5. What is the project timeline?

Request Narrative

1. Explain the request and provide justification for the need.

Idaho State University is uniquely focused on improving retention and graduation rates of current students and decreasing the number of students stopping out prior to receiving a degree or certificate. This request is designed to expand academic advising and tutoring services, which will provide students needed guidance and support to ensure timely degree completion. Proactive and consistent academic advising, combined with accessible tutoring and academic support services has a significant impact on student retention and degree completion. The objective of this request is to make both advising and tutoring more robust, and to create a greater connection between these important student support services.

Academic Advisors provide support to all students at ISU, with a focus on first- and second-year students. Current caseloads of up to 400 students per advisor is a barrier to providing optimal guidance to students, so that they can receive a degree or certificate as expeditiously as possible. Additional advising capacity will enable us to provide essential advising services to all students, particularly those struggling or considering stopping out.

Similarly, ISU's tutoring services support all students, however, demand currently exceeds capacity. ISU recently invested in a new student success platform to proactively identify students struggling academically to then provide targeted intervention. Once ISU has the ability to identify these students, it will be important to be able to support students by providing increased access to both advisors and tutors. Scaling up the capacity of tutoring services will ensure our ability to meet the needs of students and their goals of timely degree completion.

Implementation of these additional resources will better position ISU to meet and exceed currently established goals of student retention and degree completion.

2. If a supplemental, what emergency is being addressed?

   NA

3. Indicate existing base of PC, OE, and/or CO by source for this request.

   These investments will increase advising and tutoring services by 6.0 FTE, representing a 15% increase over current levels.

4. What resources are necessary to implement this request?

   Personnel:

   Academic Advisors (4)
   Provide academic advising to newly admitted and current undergraduate students including regular communications, outreach, personalized assistance, program and career advising.

   First-Year Success Coordinator
   Serves on the front line of the institution's commitment to increasing retention as most students who stop-out do so in their first year. The primary focus of this role would be the management of several broad and impactful first year initiatives that would improve the success and persistence of our first- year students.

   Tutoring Supplemental Instruction Coordinator
   Oversees the Supplemental Instruction program Provides comprehensive support and encourages student achievement through individualized instructional plans.

   Tutoring Support
   Provides additional part-time tutors and academic support staff to meet the current student demand for these services.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Academic Advisor	$43,000	FT 1.0 FTE	Yes	July 1, 2022	12-month
Academic Advisor	$43,000	FT 1.0 FTE	Yes	July 1, 2022	12-month
Academic Advisor	$43,000	FT 1.0 FTE	Yes	July 1, 2022	12-month
Academic Advisor	$43,000	FT 1.0 FTE	Yes	July 1, 2022	12-month
First-Year Success Coordinator	$50,000	FT 1.0 FTE	Yes	July 1, 2022	12-month
Tutoring Supplemental Instruction Coordinator	$50,000	FT 1.0 FTE	Yes	July 1, 2022	12-month
Tutoring Support	$48,726	PT	No	July 1, 2022	12-month

6. Will staff be re-directed? If so, describe impact and show changes on org chart.

   Additional staff will be incorporated into current advising structures. The additional part-time tutors (tutoring support) will be housed in academic advising to facilitate seamless integration of advising and tutoring services.

7. Detail any current one-time or ongoing OE or CO and any other future costs

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.

   Costs are calculated based on base salary ranges for positions and standard operating costs associated with new positions.

9. Provide detail about the revenue assumptions supporting this request.

   NA

10. Who is being served by this request and what is the impact if not funded?

    This request serves and impacts all current and future ISU students by impacting their retention and graduation rates. ISU must expand academic support structures to avoid students stopping out prior to receiving the degrees or certificates that increase their employability upon graduation. If these positions are not funded ISU will continually face a barrier in providing adequate support services to ensure timely degree completion.

Request Narrative

1. **Explain the request and provide justification for the need**.

In Spring 2020, the University of Idaho convened a working group to examine how the university could move rapidly into the online course and program delivery market. The focus of this group was to examine the opportunities available to the university in online education and to develop a plan to set in motion the development of a robust and stable online education function at the University of Idaho.

The outcome of this working group was a recommendation for a university-wide approach to online education with a single office overseeing and coordinating the online efforts and programming. This request includes funding for the Vice Provost for Digital Learning, who will lead this office, as well an assistant director, two instruction designers and a learning management system administrator. These positions will be key to developing and maintaining high quality online programming and ensuring a positive experience for online learners.

The working group also indicated a need for a robust and well-resourced marketing and communications strategy to create visibility for the university in the online education marketplace. This strategy will include identification of programs, analysis of the competitive environment, the creation of startup grants to get new and exciting programs moving forward and other initiatives focusing on undergraduate students, community college transfer students, students with some college credit but no degree, and dual credit students. This request includes $350,000 in ongoing operating costs to support marketing and communications needs as well as to cover the day-to-day operations of the digital learning office.

Finally, the working group recommended investment in technological and user experience upgrades across the university's state-wide footprint. These investments include both ongoing and one-time needs which are detailed in the table below. Investment in technology is key to the success of this initiative as it enables the university to provide a positive experience both to faculty creating online offerings and to online learners.

2. **If a supplemental, what emergency is being addressed?**

   N/A

3. **Indicate existing base of PC, OE, and/or CO by source for this request.**

   The University of Idaho currently has a Center for Teaching Innovation and a Distance/Extended Education office. These units receive $226,063 in base General Education funding for salary, benefits and operation which provides funding for 2.25 FTE.

4. **What resources are necessary to implement this request?**

   Personnel cost support of $722,800 to fund 5.00 FTP, $1,025,000 in ongoing operating funding, and $300,000 in onetime capital outlay funding is necessary to implement this request.

5. **List positions, pay grades, full/part-time status, benefits, terms of service**.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Vice Provost – Digital Learning	$195,000	1.0 FTP Full-time	Yes	July 26, 2021	12-month
Assistant Director – Digital Learning	$100,000	1.0 FTP Full-time	Yes	July 1, 2022	12-month
Instructional Designers (2)	$80,000 ea $160,000 ttl	2.0 FTP Full-time	Yes	July 1, 2022	12-month
Learning Management System Administrator	$100,000	1.0 FTP Full-time	Yes	July 1, 2022	12-month

6. **Will staff be re-directed? If so, describe impact and show changes on org chart**.

N/A

7. **Detail any current one-time or ongoing OE or CO and any other future costs**.

   $10,000 in ongoing expenses to support 5.00 FTE, $340,000 in OE for marketing, $675,000 in IT ongoing operating costs and $300,000 in one-time capital outlay for IT investments.

IT Items	Ongoing Operating	One-Time Capital Outlay	Total
Lecture Recording, Steaming and Cloud Distribution	$ 85,000	$ 100,000	$ 185,000
Cloud/Virtual Computer Laboratory Enhancements	100,000	100,000	200,000

Microsoft Software Licensing	175,000	100,000	275,000
Total	$ 675,000	$ 300,000	$ 975,000

8. **Describe method of calculation (RFI, market cost, etc.) and contingencies**.

   Salary rates are based on existing position salary rates as well as peer salaries. IT estimates provided by University of Idaho CIO/VP for Information Technology based on current market costs.

9. **Provide detail about the revenue assumptions supporting this request.**

   N/A

10. **Who is being served by this request and what is the impact if not funded?**

This request allows the University of Idaho to further develop its online education presence. It will provide students from Idaho and beyond a learning platform that meets their needs: the University of Idaho will be able to serve "Any Student, Anywhere" which was a key focus of the working group. Many potential students are limited in their ability to relocate to a college campus. Strong online options will allow active learning, leading to better earning potential, for students who are place bound or for whom an on-campus experience is not preferable.

IT Narrative (If applicable)

1. How does this request conform with your agency's IT plan?
    a. All IT purchases are made in alignment with University of Idaho IT protocols and in accordance with purchasing requirements
2. Is your IT plan approved by the Office of Information Tech. Services?
    a. N/A
3. Does the request align with the state's IT plan standards?
    a. N/A
4. Attach any supporting documents from ITS or the Idaho Tech. Authority.
    a. N/A
5. What is the project timeline?
    a. The university plans to make IT equipment purchases during FY2023 to the extent possible.

LUMP SUM:					
GRAND TOTAL	$268,600				$268,600

Request Narrative

1. **Explain the request and provide justification for the need**.

The James A. and Louise McClure Center for Public Policy Research was established by the University of Idaho, working with former U.S. Senator Jim McClure and his wife Louise. With a focus on critical issues facing the state, region, nation, and world, the McClure Center conducts evidence-based research to inform public policy, communicates reliable policy findings in an accessible manner, convenes and collaborates with a diverse group of stakeholders, engages students in public policy, while advancing the University of Idaho as a leader in public policy research. Since the McClure Center opened nearly fifteen years ago, it has become Idaho's most trusted and preeminent public policy entity.

Current appropriated funding support is minimal, and supports 1.48 FTE. This funding level is not sustainably adequate for the McClure Center's mission, and it is impacting the ability of the McClure Center's portfolio to support state priorities. The McClure Center currently bridges operational funding needs through grant and contract work, which require contractual obligations that limit the McClure Center's statewide purview.

This request will provide ongoing appropriated funding (salary and benefits) for existing staff and support a new full-time economist (3.95 FTE total). Through this dedicated funding, the McClure Center will continue its work that supports Idaho. Examples include publishing *Idaho at a Glance* public policy briefs, facilitating collaborative processes (Governor's Salmon Workgroup), evaluating collaborative processes (Owyhee Initiative), hosting the Idaho Science and Technology Policy Fellowship, supporting applied learning and research programs in public policy for University of Idaho students, and conducting nonpartisan research on many topics of importance to the state. This request also will provide dedicated funding to support a full-time Economist, who will conduct benefit-cost analysis and demography research, producing studies that support planning and strengthen Idaho's economy. Idaho has neither a State Economist nor a State Demographer; most states have one or both. These critically important services are needed as Idaho's population increases, and the integration of economics, demography, and public policy research is part and parcel of the McClure Center's approach.

The McClure Center currently has no ongoing funding for travel across Idaho. To uphold the McClure Center mission and statewide purview, the McClure Center needs to visit the Moscow campus and other University of Idaho locations several times per year, travel around the state, and present work at seminars and conferences.

Capital Outlay: Laptop equipment needed for added FTE (Economist).

2. **If a supplemental, what emergency is being addressed?**
   N/A

3. **Indicate existing base of PC, OE, and/or CO by source for this request.**
   This request will provide annual support for current McClure Center staff necessary for daily operations and will increase the McClure Center by 1.00 FTE (Economist).

4. **What resources are necessary to implement this request?**
   Personnel: Dedicated Gen Ed funding to fully support current McClure Center staff, which includes the Director (1.00 FTE), Research and Program Manager (1.00 FTE), Grants and Research Associate (0.75 FTE), and Administrative Support (0.20 FTE/shared with the President's Office at 1.00 FTE). New position: Economist (1.00 FTE).

5. **List positions, pay grades, full/part-time status, benefits, terms of service**.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Director	$13,000	FTE 1.00 FT	Yes	July 1, 2017	12-month
Research and Program Manager	$35,000	FTE 1.00 FT	Yes	July 1, 2017	12-month
Administrative Support	$5,000	FTE 0.20 FT (shared with Pres. Office 80-20)	Yes	July 1, 2017	12-month
Grants and Research Associate	$45,000	FTE 0.75 FT	Yes	July 1, 2019	12-month
Economist	$75,000	FTE 1.00 FT	Yes	July 1, 2022	12-month

6. **Will staff be re-directed? If so, describe impact and show changes on org chart**. N/A

7. **Detail any current one-time or ongoing OE or CO and any other future costs**. Ongoing Expenses: Ongoing travel funding to Moscow campus and across the state; this is ongoing, as the McClure Center is based in Boise.

   Capital Outlay: Needed for laptop, monitors, peripherals, software, and workstation for new 1.00 FTE (Economist).
   - High-end laptop: $2,000
   - Flat-panel monitors (2): $600
   - Peripherals: $500
   - Specialized software: $1000 (economic modeling, statistical analysis)
   - Workstation: $900

8. **Describe method of calculation (RFI, market cost, etc.) and contingencies**. Salary for additional FTE (Economist) is based on current University of Idaho market-based compensation and market costs compared to similar positions regionally and nationally. The remining salaries are based on current salaries of existing positions.

9. **Provide detail about the revenue assumptions supporting this request.** N/A

10. **Who is being served by this request and what is the impact if not funded?** The McClure Center was established to provide the state of Idaho with information to make sound policy decisions, using open dialogue and robust, nonpartisan research. The McClure Center is Idaho's premiere public policy institution. Its placement within the University of Idaho creates a conduit for students, faculty, and staff to be an integral part of that mission. Current funding limits the capacity of the McClure Center to maintain student programs, advance statewide and regional outreach, and conduct nonpartisan research and analysis in an adaptive and nimble manner.

    Not funding the McClure Center – and the Economist position – puts University of Idaho at a disadvantage when working with government entities (local, state, and federal levels); businesses; non-profit organizations; universities; and others. Without this funding, funding core operations that satisfy the McClure Center's mission and purview will be impacted and diminished. Specifically, *Idaho at a Glance* policy briefs will be published on a limited schedule, facilitation and evaluation of collaborative processes both inside Idaho and including Idaho stakeholders will be reduced, the Idaho Science and Technology Policy Fellowship may shift to an every other year program, the number of University of Idaho students in applied learning and research programs will decrease, the breadth and number of nonpartisan research studies on topics of importance to Idaho will decrease substantially, and dedicated benefit-cost economic analysis will be unavailable to Idaho governments, businesses, and nonprofit organizations. Without this funding, the McClure Center will need to seek project contracts that support essential staff. By contracting such services, time and effort lines within the McClure Center will be constricted; programs that do not have funding will cease to occur. This includes student and faculty programs, as well as public policy briefs and full-length research reports.

IT Narrative (If applicable)

N/A

1. How does this request conform with your agency's IT plan?
    a. All IT purchased are made in alignment with University of Idaho IT standards and through approved U of I purchasing processes
2. Is your IT plan approved by the Office of Information Tech. Services?
    a. No.
3. Does the request align with the state's IT plan standards?
    a. N/A
4. Attach any supporting documents from ITS or the Idaho Tech. Authority.
    a. N/A
5. What is the project timeline?
    a. N/A

Request Narrative

1. **Explain the request and provide justification for the need**.

The University of Idaho currently receives $300,500 in state general fund support for its payment to the State of Idaho Department of Administration for space in the University of Idaho Law and Justice Learning Center; however this space is no longer adequate in size to meet program needs. In order to address the need for additional space, the university recently entered into a 30-year lease with option to buy agreement for a building located on Front Street in Boise, which was recently vacated by the Concordia Law School. The new Front Street location, which is fully furnished, will provide substantially more space

for the College of Law's operations in Boise, allowing the UI to better meet the College of Law's immediate and long-term needs in the Treasure Valley.

The move to this new location, scheduled to occur during the course of FY2022, will result in the College of Law vacating its space in the Law and Justice Learning Center thereby eliminating its payment to the State of Idaho Department of Administration. This request is seeking approval to retain the funding received for the Department of Administration payment and redirect it towards the cost of the new Front Street lease. This would be an overall net zero increase to the University of Idaho's state general fund appropriation.

2. **If a supplemental, what emergency is being addressed?**
   N/A

3. **Indicate existing base of PC, OE, and/or CO by source for this request.**
   N/A

4. **What resources are necessary to implement this request?**
   No new resources are necessary. This is requesting that the university be allowed to retain and redirect existing state general fund resources.

5. **List positions, pay grades, full/part-time status, benefits, terms of service**.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
N/A					

6. **Will staff be re-directed? If so, describe impact and show changes on org chart**.
   N/A

7. **Detail any current one-time or ongoing OE or CO and any other future costs**.
   Ongoing expense of new lease offset by elimination of payments to Department of Administration.

8. **Describe method of calculation (RFI, market cost, etc.) and contingencies**.
   N/A.

9. **Provide detail about the revenue assumptions supporting this request.**
   N/A

10. **Who is being served by this request and what is the impact if not funded?**
    This request allows the university to redirect existing funding towards a non-state owned leased facility capable of housing the Boise College of Law in a single location. This will allow the College of Law adequate space to meet current and long-term needs and best serve its students.

GRAND TOTAL	$326,400				$326,400

Request Narrative

1. Explain the request and provide justification for the need.

   LC State seeks funding to develop and sustain a robust adult/non-traditional learner program (ALP) inclusive of support services. The request is intended to support one of the fastest growing segments of the potential college-going population – the adult/non-traditional learner. According to the National Student Clearinghouse Research Center's 2019 publication *Some College, No Degree,* nearly 165,000 Idaho citizens had started college and left without completing a credential. The Idaho State Board of Education's strategic plan (Goal 3) and the College's strategic plan (Goal 2, Performance Measure 2) both underscore the need to widen access to higher education for people of all ages in our state.

   This request seeks funds to support and expand current staffing hours and services, to target adult/non-traditional student needs. Specifically, this request includes: (a) two

FTE (i.e., mental health counseling and adult learner/prison ed coordination); and (b) funds to support workload and hour expansion and strengthen employee retention.

Mental health challenges on the part of college students have become more pronounced over the last decade. Adult/non-traditional learners have unique stresses associated with the balance they must find in pursuing their post-secondary credentials while also balancing the demands of work and often providing for a family. As the College seeks to support more adult learners, an investment in mental health counseling and non-traditional-student administrative coordination are paramount. If funded, a new mental health counselor would assist in expanding the hours and modalities in which counseling services would be made available. The addition of a new counselor will allow us to assist between 20 - 30 more students per week and provide support services to adult/non-traditional learners.

In 2020, the U.S. Department of Education announced that, starting in Fall 2023, federal financial aid would be available to residents in state and federal penitentiaries who otherwise qualify to enroll in post-secondary education. The College is moving discussions forward with the Idaho Department of Corrections to work with the state's prisons to deliver educational programs that provide current inmates with education opportunities leading to meaningful employment upon release.

To support adult/non-traditional learners, faculty and staff will be called upon to modify instructional and support services, approaches and modalities. The College has and will continue to modify its business model to serve greater numbers of students who wish to access courses and services in the evenings, on the weekends, or via virtual environments (all three apply especially to adult learners). Retaining and compensating employees, who have gained experience in andragogy already, and investing to expand capacity for evening and weekend support, and instructional services and portfolio assessments, will expedite the College's ability to make education accessible to adult/non-traditional learners. Additionally, the College is implementing clearer and more direct competency-based pathways for adult/non-traditional learners to earn college credit based on prior and/or current life and work experiences (e.g., portfolios, etc.).

2. If a supplemental, what emergency is being addressed?

   Not applicable

3. Indicate existing base of PC, OE, and/or CO by source for this request.

   LC State currently has 2.58 mental health counselors, one of whom serves as Director of the Student Counseling Center and Student Health Services while also providing direct counseling services to students. The Student Counseling Center also utilizes interns from graduate programs in counseling or social work and has hired mental health professionals as part-time Irregular Help employees. The mental health counselors are currently funded with a combination of appropriated funds and student fees.

LC State is utilizing existing resources and staff for the adult learning program as it is currently constituted. Staff from Admissions, for example, conduct outreach to regional employers to offer enrollment services to prospective adult learners. Students who left the college in good standing without completing a degree receive invitations to re-engage with their studies through Admissions, Registrar/Records, and instructional divisions. The College also maintains a list of options students may pursue to earn credit based on prior learning. These functions are managed primarily by the Dean of Liberal Arts and Sciences as well as Registrar/Records. We seek funds to expand our outreach, to provide better administrative coordination for all aspects of adult learning, and to make this an otherwise more robust program. We have resources for prison education through our non-credit adult basic education program and workforce training. With changes in federal regulations permitting prisoners to access Pell Grants to assist with college expenses, the College is exploring how for-credit degree options may also be offered to prisoners within the State of Idaho. This, too, will require administrative coordination.

4. What resources are necessary to implement this request?

   The overall dollar amount for this request is $326,400, and includes a Mental Health Counselor and an Adult Learner/Prison Education Coordinator, as well as funds to support employee retention and expanded hours and services.

   To enhance and capitalize on adult/non-traditional learning opportunities, a Mental Health Counselor position and an Adult Learner/Prison Education Coordinator are requested. Because the mental health counselor position would be embedded within the existing student health unit, operating and capital costs would be minimal ($3,000 for one-time capital outlay and $3,000 in ongoing operating expenses). Beyond $3,000 for a computer and equipment, the adult/non-traditional learner coordinator position request includes $50,000 in operating funds, which would primarily be used to promote adult learning opportunities via a multi-media strategy targeting the College's entire service region. The ALP program will necessitate a more traditional marketing approach, therefore operating expenses are requested to initiate a strong marketing campaign by diversifying with print, out-of-home (billboards, signage, etc.), radio, television, and digital ads.

   LC State's education mission focuses on teaching; serving students through high-touch, interpersonal, connected education experiences. Retaining quality faculty and staff is paramount to achieving and sustaining this mission. To that end, this request prioritizes salary/fringe ($99,800) to support employee retention and expand current staffing hours and services to assist in implementing a robust adult/non-traditional learner program.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Mental Health Counselor	$60,000	1.00 FTE	Yes	July 1, 2022	12-month
Adult/Non-Traditional Learner/Prison Education Coordinator	$60,000	1.00 FTE	Yes	July 1, 2022	12-month
Support Employee Retention and Expand Current Staffing Hours and Services	$83,000	N/A	Yes	July 1, 2022	9-12-months

6. Will staff be re-directed? If so, describe impact and show changes on org chart.

   Staff who are currently supporting degree-seeking students (i.e., traditional, full-time/part-time, adult learners, etc.) will continue to play a direct supporting role, though there may be some organizational changes should the College secure funding for the coordinator position. Key enrollment offices (e.g., Registrar/Records, Admissions, Financial Aid, and the Advising Center) will continue to offer services to the adult student population but these services will be better coordinated, refined and targeted to meet the unique needs of adult/non-traditional learners if the coordinator position is funded.

7. Detail any current one-time or ongoing OE or CO and any other future costs.

   The request is for ongoing personnel and operating expenses from the general fund. Operating funds for the positions include basic office support, supplies, and professional developing totaling $6,000 for both new positions. Additionally, one-time capital outlay is needed to purchase computers and equipment for the new personnel totaling $6,000. Finally, because the positions target adult/non-traditional student populations, program marketing / launch funding in the amount of $47,000 is requested.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.

   CUPA medians for each position and market demand, such as for Mental Health Counselors informed the salaries. Operating expenditures were estimated based on current advertising costs and an estimate for supplies and professional development.

9. Provide detail about the revenue assumptions supporting this request.

   In partnership with Boise State University, the College is assessing the potential demand for credit-bearing classes and degree programs among the state's prison population. This will provide a reasonable estimate of the number of inmates who may take advantage of this opportunity. Without factoring in the prison population, the College could see an increase of up to 100 new adult/non-traditional learners within two years of filling the coordinator position. The counseling position should allow for an increase of between 20 - 30 counseling sessions per week, which will contribute to student retention.

10. Who is being served by this request and what is the impact if not funded?

    The ALP will serve adult/non-traditional learners in LC State's service regions. Receipt of funding will allow for excellent instruction, accessible support services and a safe campus environment. LC State is committed to meeting the needs of non-traditional students and adult learners; and recognizes that post-pandemic retooling for the future will become increasingly relevant and important across student/learner ages and demographics.

    Note: While the focus of this request is on a new adult/non-traditional learner program, each of the requested positions will also benefit current and future LC State students.

IT Narrative (If applicable) [not applicable]

1. How does this request conform with your agency's IT plan?
2. Is your IT plan approved by the Office of Information Tech. Services?
3. Does the request align with the state's IT plan standards?
4. Attach any supporting documents from ITS or the Idaho Tech. Authority.
5. What is the project timeline?

T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$159,700				$159,700

Request Narrative

1. Explain the request and provide justification for the need.

   An assessment of compliance and safety measures on campus indicates that in order to effectively manage: (a) the requirements of the Governor's Task Force on Cyber-Security, and (b) the full implementation of LC State's Title IX compliance plan, current staffing and technology must be supplemented to an extent that requires more than merely reallocating internal funding.

   Cybersecurity software and resources are requested to fully implement the Governor's Cybersecurity Executive Order 2017-02, and to address critical and increasing security controls and needs included in the Order. The request derives from priorities established through LC State's annual assessment process, which is an outgrowth of the program prioritization initiative established by the State Board of Education. The

campus assessment included the on-going two-year statewide analysis of all agencies, which has been led by cybersecurity experts in the governor's office. In order to meet the expectations of Executive Order 2017-02, it became apparent that the current technology utilized by LC State is not sufficient in addressing growing cybersecurity needs and demands. The Cybersecurity request will help LC State build a more secure infrastructure and monitor internal irregularities as well as external threats. In short, Cybersecurity software and resources will allow the College to address potential cyber threats in a more comprehensive and effective manner.

To address athletic Title IX obligations, the addition of a full-time Athletic Trainer (AT)/Instructor to provide on-field medical support to student-athletes is necessary (a personnel resource that must be expanded as student-athlete numbers are increased). An additional trainer/instructor will assist in (a) meeting Title IX objectives, as well as safety objectives through adherence to the standards set forth in the Recommendations and Guidelines for Appropriate Medical Coverage of Intercollegiate Athletics (AMCIA) and the NAIA, (b) support students engaged in the College's successful athletic programs, and (c) further the College's ability to provide instructional staff for the growing movement and sport science programs.

Specific to athletic training: The NAIA adopted the National Athletic Training Association's (NATA), appropriate medical coverage recommendations and guidelines. These guidelines were established to help institutions protect against liability-related issues associated with providing adequate care to student-athletes. LC State's athletics' menu includes 12 sports. As such, LC is currently not in compliance with the NATA's AMCIA recommendations pertaining to athletic training staffing levels and appropriate healthcare for student-athletes. Based on the guidelines, LC State should have 4.0 full-time athletic trainers, not including the increased requirements associated with growing current sport roster numbers and potentially adding a women's sport, as per the College's Title IX plan. LC State currently employs two full-time athletic trainers. A 3rd AT is essential to making meaningful progress on the Title IX plan. This position will also supplement instructional needs associated with LC's exercise science and kinesiology curricula – particularly in areas of sport fitness and wellness.

2. If a supplemental, what emergency is being addressed?

   Not applicable

3. Indicate existing base of PC, OE, and/or CO by source for this request.

   LC State currently has 2.00 full-time FTE in athletic trainers and limited Cybersecurity resources. The athletic trainers are funded by general/tuition funds. This request will significantly increase our capacity in IT and Athletics.

4. What resources are necessary to implement this request?

A cybersecurity fundamentals toolset to aid the information technology staff in securing and monitoring our environment. The toolset will include annual operating funds for: 1) DUO ($27,000) for multi-factor authentication; 2) A Security Information and Event Monitoring (SIEM) System ($25,000/year) to collect security information and provide passive security alerting; 3) Cisco Umbrella Cloud Security ($15,000) to block malicious websites; 4) 3rd party penetration testing ($24,600).

The 1.00 FTE Athletic Trainer/Instructor will need modest ongoing operating expenses of $3,000 and $3,000 in one-time capital outlay for general office supplies, professional development, and computer equipment.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	**Salary**	**FT or PT**	**Benefit Elig**	**Date of Hire**	**Term Service**
Athletic Trainer/Instructor	$42,000	1.00 FTE	Yes	July 1, 2022	12-month

6. Will staff be re-directed? If so, describe impact and show changes on org chart.

   LC State underwent significant budget reductions leading into FY 2021. With operations at minimal staffing levels, no positions can be redirected to assist with these functions.

7. Detail any current one-time or ongoing OE or CO and any other future costs.

   The request is for ongoing personnel and operating expenses from the general fund. The Cybersecurity software and resources request is $91,600 in ongoing operating expense funding for necessary cybersecurity software and testing. Ongoing operating funds for basic office support, supplies, and professional development for the Athletic Trainer/Instructor positions totals $3,000. Additionally, one-time capital outlay is needed to purchase a computer and equipment for the new personnel totaling $3,000.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.

   CUPA median for the position and market demand informed the salary.

9. Provide detail about the revenue assumptions supporting this request.

   The request is to assist with compliance, safety, and cybersecurity vulnerabilities. An indirect revenue assumption is to decrease future exposure that could lead to a monetary impact.

10. Who is being served by this request and what is the impact if not funded?

    The requested items support existing and/or future students. Although the institution has engaged in the continual reallocation of funds to support the cybersecurity directive and move forward to meet its Title IX athletics obligations, the costs to do so continues to outpace our ability to reallocate funding. The College acknowledges that compliance support may seem a little less attractive for funding purposes but is essential to address the growing areas of required compliance and safety. The College requests the support to better advance its efforts in these areas and meet fundamental, bread-and-butter, needs.

    If the position is not funded, the liability exposure of the institution will continue to increase, creating both a financial and a reputational risk.

IT Narrative (If applicable)

1. How does this request conform with your agency's IT plan?

LC State has adopted the State of Idaho's IT security plan and guidelines for agencies.

2. Is your IT plan approved by the Office of Information Tech. Services?

LC State adopted the NIST Framework, as was required by the State of Idaho for all agencies.

3. Does the request align with the state's IT plan standards?

Yes, LC State follows the ITA policies and associated standards and guidance: https://ita.idaho.gov/resources/.

4. Attach any supporting documents from ITS or the Idaho Tech. Authority.

See links at https://ita.idaho.gov/resources/ for P4110 – IT Security Coordinator and P4140 – Cybersecurity Framework.

5. What is the project timeline?

Umbrella was implemented in March 2021 with one-time funding, everything else will be implemented when funded.

Request Narrative

1. Explain the request and provide justification for the need.

   To provide career opportunities for students and provide skilled employees for Idaho business, CTE program added-cost funding must be sufficient to meet enrollment growth in existing programs.

   The purpose of program added-cost funding is to provide additional funding resources to CTE programs to ensure high quality equipment and supplies are made available to teachers and programs. Program added-cost funding also provides the necessary resources for ongoing teacher professional development, extended work contracts for activities outside the annual teacher contract and travel to required career technical student activities.

Program added-cost funding ensures a quality program will develop the necessary student learning outcomes to prepare a graduate for their transition to a postsecondary program, apprenticeship or into the workforce.

Program added-cost funding must increase to meet the ongoing annual demand of existing program enrollment growth.

2. If a supplemental, what emergency is being addressed?
   N/A
3. Indicate existing base of PC, OE, and/or CO by source for this request.
   TB base of $8,117,400 of General Fund.
4. What resources are necessary to implement this request?
   None
5. List positions, pay grades, full/part-time status, benefits, terms of service.
   None
6. Will staff be re-directed? If so, describe impact and show changes on org chart.
   No
7. Detail any current one-time or ongoing OE or CO and any other future costs.
   N/A. Ongoing TB only.
8. Describe method of calculation (RFI, market cost, etc.) and contingencies.
   Based on requests from secondary school districts.

209,600	New program requests for FY 2021
300,000	New program requests for FY 2022
200,000	Middle school CTE programs
709,600	

9. Provide detail about the revenue assumptions supporting this request.
   No revenue is expected from this program.
10. Who is being served by this request and what is the impact if not funded?
    Program added-cost funds collectively benefits students, their teachers, postsecondary faculty, and industry through increased participation, training and collaboration.

    If this request is not funded, the Division will not be able to financially support the enrollment growth of new and existing secondary CTE programs in Idaho.

TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:	$57,000				$57,000
LUMP SUM:					
GRAND TOTAL	$57,000				$57,000

Request Narrative

1. Explain the request and provide justification for the need.

During the 2014 legislative session, the Idaho Quality Program Standards (IQPS) grant was created as part of the Idaho Ag Ed Initiative. The initial fiscal note anticipated $504,000 for incentive grants and $100,000 for new program start-up grants. In FY 2017, $325,000 was appropriated from the General Fund for 30 $10,000 incentive grants and one $25,000 start-up grant. In FY 2020, $25,000 was appropriated for one additional start-up grant.

Since FY 2020, base funding has been $350,000 until an ongoing 2% reduction in FY 2021 removed $7,000 for a net ongoing appropriation of $343,000. Per IDAPA rules, the grants must be in increments of $10,000 (IDAPA 55.01.04.100.04b) and start-up grants in increments of $25,000 (IDAPA 55.01.04.200.04). This leaves an unusable amount of $3,000. The Division

received DFM approval to use other resources to make whole grants during FY 2021.

Applications for incentive grants continue to exceed appropriations. As the success of the IQPS program increases, the Division is requesting ongoing funding of an additional $57,000 to be passed through to Agriculture programs in the form of five additional incentive grants. In total, this would provide 35 $10,000 incentive grants and two $25,000 start-up grants.

2. If a supplemental, what emergency is being addressed?
   N/A
3. Indicate existing base of PC, OE, and/or CO by source for this request.
   TB base of $343,000 of General Fund.
4. What resources are necessary to implement this request?
   None
5. List positions, pay grades, full/part-time status, benefits, terms of service.
   None
6. Will staff be re-directed? If so, describe impact and show changes on org chart.
   No
7. Detail any current one-time or ongoing OE or CO and any other future costs.
   N/A. Ongoing TB only.
8. Describe method of calculation (RFI, market cost, etc.) and contingencies.
   Based on requests from secondary school districts.
9. Provide detail about the revenue assumptions supporting this request.
   No revenue is expected from this program.
10. Who is being served by this request and what is the impact if not funded?
    CTE students in districts with existing Agriculture & Natural Resources will benefit from this funding, as it would allow the district to invest additional resources to invest in program improvement. If the request is not funded, it may limit the ability of some districts to fully invest in the infrastructure for a robust and well-equipped program.

IT Narrative (If applicable)

1. How does this request conform with your agency's IT plan?

LUMP SUM:					
GRAND TOTAL	$193,200				$193,200

Request Narrative

1. Explain the request and provide justification for the need.

   The Program Quality Initiative (PQI) contains three separate grant programs designed to establish, improve and then maintain high-quality CTE secondary programs. Two of the PQI programs cover all five non-Ag programs areas, while Technical Assistance includes Ag programs and all six major program areas. The Division receives many excellent applications but is unable to fund many of them.

   Incentive Grants: 25-30 grants provided annually to high-performing programs.
   Technical Assistance Grants: Receives at least $600,000 in annual requests.
   Program Quality Establishment Grants: Designed to assist districts with purchasing essential CTE equipment for new programs and pathways. FY 2021 had over $850,000 in requests.

2. If a supplemental, what emergency is being addressed?
   N/A
3. Indicate existing base of PC, OE, and/or CO by source for this request.
   TB base of $686,000 of General Fund.
4. What resources are necessary to implement this request?
   None
5. List positions, pay grades, full/part-time status, benefits, terms of service.
   None
6. Will staff be re-directed? If so, describe impact and show changes on org chart.
   No
7. Detail any current one-time or ongoing OE or CO and any other future costs.
   N/A. Ongoing TB only.
8. Describe method of calculation (RFI, market cost, etc.) and contingencies.
   Based on requests from secondary school districts and program success and then limited within the 3.1% General Fund cap. This request will vary as the budget is developed to adjust within the 3.1% cap.

$	33,200	Incentive Grants
	80,000	Technical Assistance Grants
	80,000	Program Establishment Grants
$	193,200	

9. Provide detail about the revenue assumptions supporting this request.
   No revenue is expected from this program.
10. Who is being served by this request and what is the impact if not funded?
    This would expand PQI funding for both high-performing secondary CTE programs and those programs in need of additional support and technical assistance, including new programs and pathways. This performance-based approach more clearly demonstrates the return on investment provided by career technical education and holds CTE programs more accountable for producing quality results based on established performance metrics. The PQI Technical Assistance and the Program Quality Establishment grants are competitive grant awards. It is difficult for most districts to purchase all the essential equipment and supplies needed for CTE programs, to update old equipment or add capacity to their programs. The PQI grant programs provide districts with some resources to fill some of that need. Without this additional funding, many requests from school districts would continue to go unfunded.

IT Narrative (If applicable)

1. How does this request conform with your agency's IT plan?
2. Is your IT plan approved by the Office of Information Tech. Services?
3. Does the request align with the state's IT plan standards?
4. Attach any supporting documents from ITS or the Idaho Tech. Authority.
5. What is the project timeline?

Request Narrative

1. Explain the request and provide justification for the need. CEI has experienced significant growth and will continue to grow in the future. Every student, including AAS, AS, or AA programs, have to take a math class to fulfill programmatic requirements. It is difficult to find adjunct instructors who are qualified to teach Math, and as we are building our Math program, we need full time faculty to do that work. We also need to start to offer introductory engineering courses. We need to build curriculum for these types of classes and we need full time faculty to work to build these courses and then to also deliver these courses as well. Engineering is an area that we have not been able to expand into yet, because we haven't had a dedicated full time faculty member to help with the development of these types of courses. This is critical to our development as a community college, in an area that has the INL in its community. We would also like to work to help support our CTE programs that utilize both Math and Engineering disciplines and courses.

2. If a supplemental, what emergency is being addressed? NA

3. Indicate existing base of PC, OE, and/or CO by source for this request. This is an OE request that will increase existing OE by $84,100 per year plus performance increases.

4. What resources are necessary to implement this request? Operating resources would include office supplies, professional development oportunities, course books, advertising for new higher level math courses. Capital outlay include desktop computer, desk, phone, and likely a Surface Book for online instruction.

5. List positions, pay grades, full/part-time status, benefits, terms of service. Full time benefitted status on an 11 month renewable contract.

6. Will staff be re-directed? If so, describe impact and show changes on org chart. N/A

7. Detail any current one-time or ongoing OE or CO and any other future costs. See number 4. All would be ongoing except the desktop computer, phone, desk, and Surface Book expenses.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies. N/A

9. Provide detail about the revenue assumptions supporting this request. CEI is a growing institution that will serve many more students in the future and most of them will need to take at least one math class. This is a position that will contribute to the foundational faculty needed to continue to grow. We need another full time instructor to keep up with the pace of growth, especially as we continue to build the mathematics program. We plan to offer more upper 200 level courses to students who want to move towards engineering disciplines. This instructor could be someone who could help us continue to improve our mathematics offerings, and also help us build curriculum in appropriate engineering disciplines. By doing this foundational expansion, it could

encourage students to stay with CEI and get as many classes done here as possible, before moving on to a four year institution, as well as encourage new students to consider CEI as an option to take these foundational classes before moving on. This expansion could increase the revenue for our institution by being able to serve students in courses that otherwise they would have to take at another institution. We believe that building a very solid mathematics department is critical for forward movement on disciplines such as computer science and engineering, which we would like to eventually expand into.

10. Who is being served by this request and what is the impact if not funded? As discussed above, any student wishing to finish an AAS, AS, or AA degree must take at least one math class. This is a significant portion of our students and is growing quickly. If not funded, we will not be able to expand offerings for students who wish to stay and get as much of their math completed with CEI as possible. This means students will have to take these classes that we can't provide due to staffing insufficiency at a 4 year institution at a much higher cost. We would like to continue to serve our student population by increasing our abilities to expand into more math courses and also into introductory engineering courses.

3. Group Position Funding					-
TOTAL PERSONNEL COSTS:	$80,200	-			$80,200
OPERATING EXPENDITURES **by summary object:**					
1. Travel	$800				$800
2. Operating	200				200
TOTAL OPERATING EXPENDITURES:	$1,000	-			$1,000
CAPITAL OUTLAY **by summary object:**					
1. PC and workstation	$3,000				$3,000
TOTAL CAPITAL OUTLAY:	$3,000	-			$3,000
GRAND TOTAL	$84,200	-			$84,200

Request Narrative

1. Explain the request and provide justification for the need. CEI has experienced significant growth and will continue to grow in the future. Our Biological Science courses are critical for not only our science majors students, but also for supporting some of the largest CTE programs on campus in the Health and Human Services division. We are always in need of faculty for courses that would fall under the Biological Sciences Department due to the growing nursing programs. Courses from this discipline make up the prerequisite courses for these programs and they are consistently filled with waitlists every semester. We often have to open additional sections for these courses and we are consistently looking for qualified adjunct instructors. This is one of the fastest growing area on campus and would benefit from having another committed instructor for this discipline and it is also needed to keep up with the growth rate and demand of these courses.

2. If a supplemental, what emergency is being addressed? NA

3. Indicate existing base of PC, OE, and/or CO by source for this request. This is an OE request that will increase existing OE by $84,100 per year plus performance increases.

4. What resources are necessary to implement this request? Operating resources would include office supplies, professional development oportunities, course books, advertising for new higher level math courses. Capital outlay include desktop computer, desk, phone, and likely a Surface Book for online instruction.

5. List positions, pay grades, full/part-time status, benefits, terms of service. Full time benefitted status on an 11 month renewable contract.

6. Will staff be re-directed? If so, describe impact and show changes on org chart. N/A

7. Detail any current one-time or ongoing OE or CO and any other future costs. See number 4. All would be ongoing except the desktop computer, phone, desk, and Surface Book expenses.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies. N/A

9. Provide detail about the revenue assumptions supporting this request. CEI is a growing institution that will serve many more students in the future. The healthcare programs are some of the most in demand programs at CEI. They are continuing to grow and gain a very good reputation in the community, which will encourage more students to enroll in these type of courses. In addition to serving healthcare, these courses also serve students going into the biological science disciplines. Our growth in the other areas of biological sciences is rapid and we need to continue to expand in our faculty in this area to accomodate this growth. This is a position that will contribute to the foundational

faculty that is needed to continue to grow. By being able to offer a more comprehensive program, we will continue to see upward movement with regards to student demand and therefore revenue. This expansion could increase the revenue for our institution by being able to serve more students in courses that are required by CTE programs as prerequisite courses. In addition, students majoring in Biology would have the opportunity to complete as much curriculum at CEI before moving on to another institution and do it at a much reduced tuition rate.

10. Who is being served by this request and what is the impact if not funded? As discussed above, students wishing to pursue healthcare disciplines through our CTE programs have to take prerequisite courses in biological science disciplines. We also have a growing population of science majors students who want to take as many courses possible through CEI before moving on. This area has been an area of significant growth consistently since becoming a community college. If not funded, we will not be able to expand offerings for students who wish to stay and get as much of these courses completed with CEI as possible. This means students will have to take the classes that we can't provide due to staffing insufficiency at a 4 year institution at a much higher cost. We would like to continue to serve our student population by increasing our abilities to serve more students and maintain a high quality of instruction. This is important because we are serving potential healthcare providers. We want them to have the best foundation for their programs as possible. We also want to provide opportunities to link students with opportunities around the state in the disciplines of biological sciences. We need to have a good full time faculty foundation to work together to find and connect students with summer research opportunities, opportunities with other institutional research and other external opportunities that are available around the state.

Request Narrative

1. Explain the request and provide justification for the need

The College of Southern Idaho's Bridge to Success program introduces students to the academic expectations of college, specifically for degrees that require challenging first-semester course work in math, since math is often a key indicator of student success and degree completion. Moreover, the program develops 21st century skills that are essential in the classroom and in the workplace; promotes community

engaged learning; familiarizes students to valuable campus resources to increase student success; fosters social and academic relationships with peers, faculty, and staff; and provides academic coaching. Since its inception in 2016, the Bridge to Success Summer program has served nearly 300 first-time, degree-seeking students. The program has retained 78% of its students with over 70% of those graduating on time or within 150% of time. When compared to all CSI students, Bridgers perform significantly better toward achievement of their educational goals by having a higher semester GPA, a higher percentage of completing 30 or more credits per academic year, a higher percentage of success in a college-level math course after taking a remedial math course, and a higher percentage of completing a gateway math course within two years of enrollment.

Over the past five years, we've noted that not all students can begin the program in the summer semester and not all students can attend the program on the main campus. Recognizing there are many more students who can benefit from the program, this request is to expand Bridge to Success from a summer semester program to include additional cohorts during the fall and spring semesters and to offer the program at off-campus centers in Mini-Cassia, Blaine County, and Jerome/Gooding. This request involves hiring two part-time assistants, tutors to provide instructional support, and operational supplies to support the students and program.

4. What resources are necessary to implement this request?

Financial Support to support students participating in the program. We anticipate 500 students (4 cohorts per academic year: 200 participants summer semester; 200 fall semester; 50 fall flex start; 50 spring semester).

Operating Supplies:

- $5,000: Community Engaged Learning to include leadership, teamwork, service learning, and 21st Century skill development.
- $18,100: Instructional support
- $ 5,000: Office Supplies—marketing, promotion, general supplies
  - Total $28,100

Part-time tutors: $20,000

5. List positions, pay grades, full/part-time status, benefits, terms of service

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
FT	$40,000	FT 1.00 FTE 1.00	Yes	July 1, 2022	12-month
PT	$29,000	PT 2.00 FTE 1.00	No	July 1, 2022	12-month

Two (2) part-time assistants are being requested for a) the coordination of the Bridge program in the summer, fall, and spring semesters, b) academic support (tutoring) for Bridge participants, and c) operational monies to support students and the program.

Two (2) part-time assistants: $29,000 (2 @ $14,500 per year) Part-time assistants no benefits, Hire Date of July 1, 2022, 12-month employee.

Part-time tutors: $20,000 (total), part-time, no benefits, August 1, 2022, summer, fall, and spring contract.

- We have a Bridge to Success Coordinator in place. Part-time assistants will be trained and supervised by the Bridge to Success Coordinator.
- We have a Learning and Tutoring commons Coordinator in place. Part-time tutors will be trained and supervised by the Coordinator.
- We have Academic Advisors in place. New Bridge to Success students will be advised by these academic advisors.

9. Provide detail about the revenue assumptions supporting this request.

   This request is for on-going funds to support new students entering the college.

10. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

    The request is to expand the Bridge to Success Program to include additional cohorts in the fall and spring semesters and to add offerings at off-campus centers in Mini-Cassia, Blaine County, and Jerome/Gooding. By expanding the program, more first time, degree seeking students will have quicker progress into and successful completion of college math as well gaining valuable insight to the academic expectations of college. Students will develop 21st century skills that are essential in the classroom and in the workplace; will have access to community engaged learning; will become familiar with valuable campus resources to increase student success; will develop social and academic relationships with peers, faculty, and staff; and will get personalized academic and career coaching. We expect to see immediate results in retention and math completion rates. With additional cohorts, CSI expects to see increased results in degree completion and graduation rates.

    If this request is not funded, we will continue to run the summer Bridge to success program, but it will not have the desired major impact on increasing access, enrollment, and completion rates.

Supports institution/agency and Board strategic plans:

Idaho State Board of Education Strategic Plan

Goal 3; Objective A: Increase completion of certificates and degrees through Idaho's educational system.

Goal 3; Objective C: Access – Increase access to Idaho's robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.

Goal 4; Objective A: Workforce Alignment – Prepare students to efficiently and effectively enter and succeed in the workforce.

College of Southern Idaho Strategic Plan

STRATEGIC GOAL: DRIVE STUDENT SUCCESS

Strategy #3, Objective 3.2: Increase the rate of college completion by removing barriers, providing targeted support measures, creating multiple pathways to completion, and increasing flexible schedule options.

Strategy #3, Objective 3.3: Develop student support services to ensure a supportive and equitable environment for all.

Performance Measure:

- Increase the percentage of first-time, degree-seeking freshmen successfully completing Math 043, Math 123, Math 143, and Math 153 by 10% by fiscal year 2023 (May 2023). Fall 2018 benchmark.
- Increase the percentage of first-time, degree-seeking freshmen completing a gateway math course within two years by at the College of Southern Idaho by 10% by fiscal year 2023 (May 2023). Fall 2021 benchmark.
- Increase the percentage of first-time, full-time, degree-seeking students retained or graduated the following year by 10% by fiscal year 2023 (May 2023) – IPEDS definition of Fall to Fall retention rate. Fall of 2018 benchmark.
- Increase the number of students earning degree or certificates by 10% by fiscal year 2023 (May 2023). Fall 2018 benchmark.

LUMP SUM:					
GRAND TOTAL	$135,000				**$135,000**

Request Narrative

1. Explain the request and provide justification for the need.
   CSI seeks staff for the primary purpose of providing coordination of scheduling and program availability to support non-traditional working students seeking to continue their education or seek upgraded skills and/or credentials. In addition, the staff (1.0 FTE Coordinator and 1.0 FTE Office Specialist) would support alternative credit activities, including work-based learning functions. The office created would satisfy the need for staff dedicated to:

a. Coordination of programming at alternative days, times, and modalities to better support and accommodate incumbent workers.
b. Coordination of work-based learning opportunities including but not limited to cooperative education, internships, externships, preceptorships, and clinical activity.
c. Coordination with College units to support regional employer needs and connecting CSI students with those future employers.
d. Coordination of alternative credit activities including credit for prior learning.

2. If a supplemental, what emergency is being addressed?
NA

3. Indicate existing base of PC, OE, and/or CO by source for this request.
This is a new request.

4. What resources are necessary to implement this request?
The request includes PC for 2.0 new FTP (as noted below), along with OE for travel (visits to local employers and professional development of staff), general office supplies and services, the necessity of a marketing budget to inform constituents.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	**Salary**	**FT or PT**	**Benefit Elig**	**Date of Hire**	**Term Service**
Coordinator	$50,000	FT 1.00 FTE	Yes	July 1, 2022	12 month
Office specialist	$30,000	FT 1.00 FTE	Yes	July 1, 2022	12 month

6. Will staff be re-directed? If so, describe impact and show changes on org chart.
No change to organization. This would be a new unit at CSI reporting through the Office of the Provost.

7. Detail any current one-time or ongoing OE or CO and any other future costs
No one time funding requested

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.
Salaries and benefits are taken from the CSI salary and classification schedule along with current cost of benefits with anticipated increased for FY2023.

9. Provide detail about the revenue assumptions supporting this request.
The priority goal is to enhance services to students, employers, and the general public, not as a specific revenue source. However, the activity would logically increase college participation and consequent tuition revenue, which would be directed to the CSI General Fund.

10. Who is being served by this request and what is the impact if not funded? This proposal provides multiple benefits to many constituents and provides a significant value-add to the regional service responsibilities of the College. In particular:
    a. Serves regional employers by providing a connecting point for they and their future employees.
    b. Serves students by providing a clear gateway to future employment as well as opportunities to "learn and earn" as they participate in work-based learning activities.
    c. Serves non-traditional students by providing a dedicated office to address their unique needs and circumstances.
    d. Serves the current College operation through optimizing expertise in work-based learning, non-traditional students, credit for prior learning, and other essential functions that are currently spread throughout the organization without central coordination.

    If not funded, CSI will continue to struggle with serving our students and employers in these particular areas of concern. This proposal is considered a high priority for regional economic and workforce development for southern Idaho.

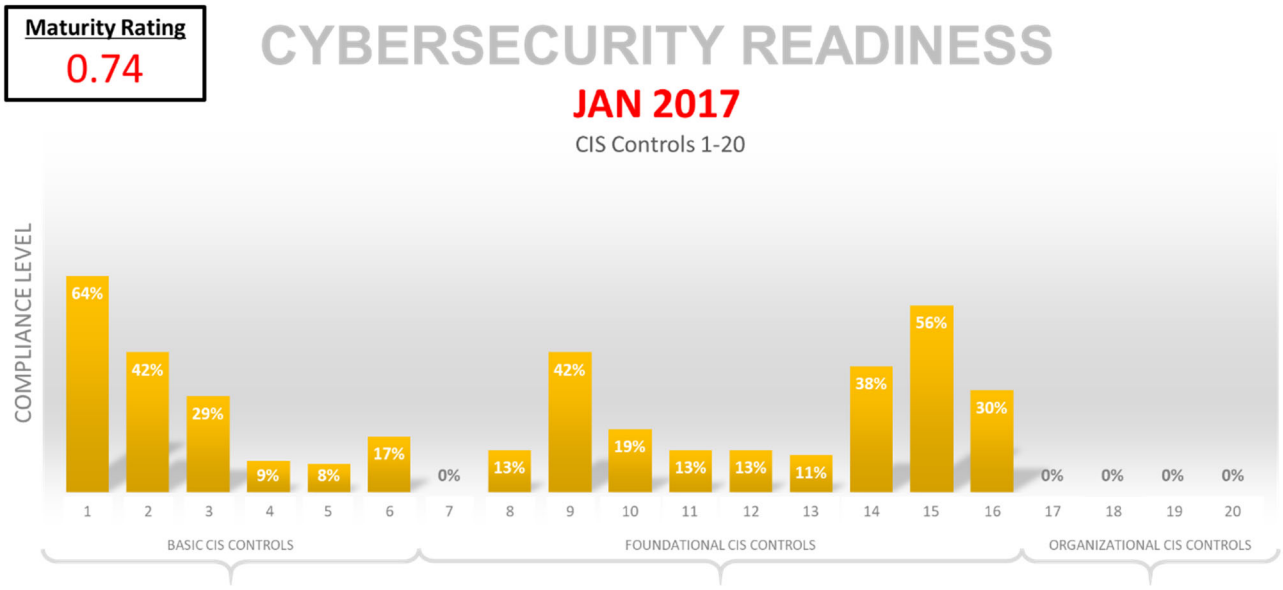
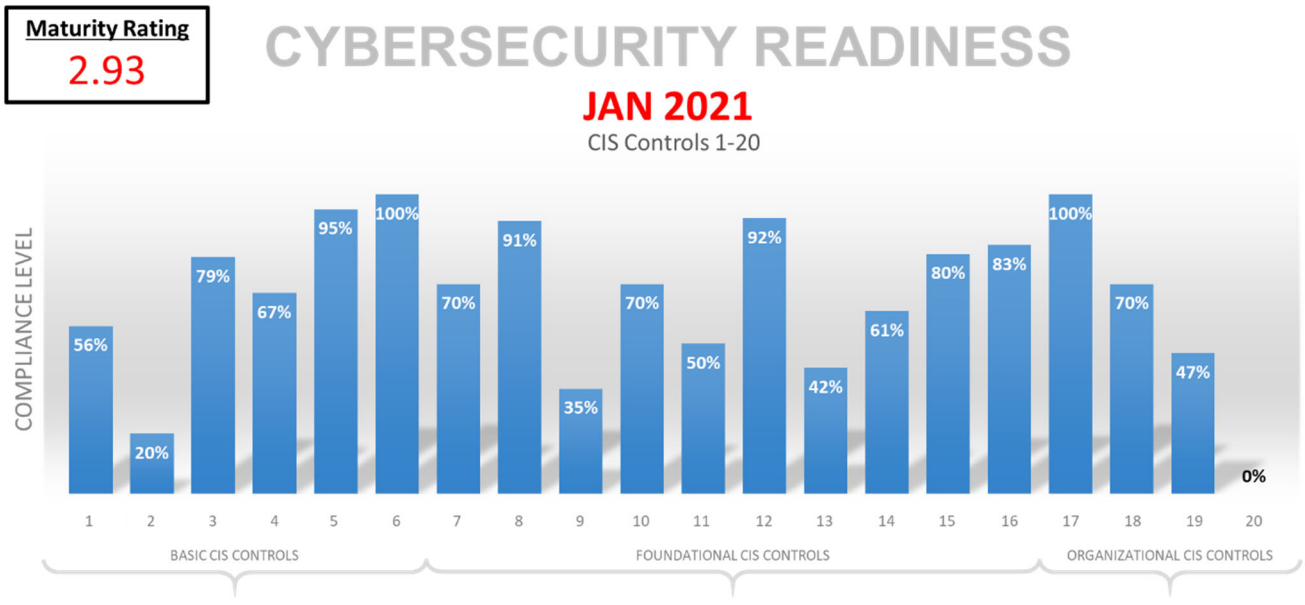
Request Narrative

1. Explain the request and provide justification for the need.



This request encompasses 1 full-time personnel resource dedicated to cybersecurity operations, and ongoing support to perform annual comprehensive threat assessments (via penetration testing). The sheer volume, types, and level of complexity of cybersecurity attacks that CSI encounters daily exceed the capacity and expertise of existing personnel resources. If funded, this request will help CSI increase its compliance with Idaho Governor's Executive Order 02-2017, formalize its cybersecurity program, and strengthen the institution's disaster resilience.



CSI has aggressively pursued alignment with industry standards for cybersecurity. Our institution actively collaborates with state and national agencies including the Idaho Higher Education Technology Leadership Council (IHETLC), Idaho Higher Education Cybersecurity Council (IHECC), Idaho Counties Risk Management Program (ICRMP), Multi-State Information Sharing

& Analysis Center (MS-ISAC), Pacific Northwest Economic Region (PNWER), and the U.S. Department of Homeland Security (DHS).

In addition, CSI's agency plan aligns to industry standard frameworks to increase cybersecurity resilience. Frameworks used at CSI include the National Institute of Standards and Technology (NIST), Control Objectives for Information and Related Technology (COBIT), Information Technology Infrastructure Library (ITIL), and The Open Group Archtiecture Framework (TOGAF). Along with other Idaho state agencies, CSI also aligns to the standards for cybersecurity controls published by the *Center for Internet Security* (https://cisecurity.org). These standards include 20 measurable cybersecurity controls that govern CSI's cybersecurity strategy.

The illustrations below show the progress made to comply with all 20 security controls over the last 4 years. Gaps remain with inadequate compliance for multiple security controls due to the lack of personnel and funding to support cybersecurity audits and comprehensive penetration testing. Funding for this request will enable CSI to continue improving its cybersecurity resilience by increasing compliance for all 20 security controls.

4. What resources are necessary to implement this request.

Currently, CSI does not have any dedicated resources responsible for cybersecurity. CSI has not completed a comprehensive cybersecurity audit or penetration test for at least 7 years due to lack of personnel and funding to engage external auditors. The new position will be 100% dedicated to supporting and managing CSI's cybersecurity operations and completing the tasks associated with annual cybersecurity audits along with other duties associated to increasing the cybersecurity resilience of the institution.

Operating Expenditures

This request includes ongoing funding for salary and benefits of the new position and estimated service fees to perform cybersecurity threat analysis and comprehensive penetration testing of CSI's digital environment at least once per year. Completing these threat tests on a yearly basis will meet multiple requirements outlined in the 20 security controls that govern CSI's cybersecurity resilience strategy.

Cost Estimates

The estimate for base compensation for the requested position is determined according to market value in the local region. The pay range is far below competing markets such as Boise, Salt Lake City, and Bozeman. However, the base salary gives us a reasonable opportunity to recruit qualified candidates that possess the skills and expertise needed to be effective in this role. The estimate for completing the cybersecurity analysis and penetration tests range from $10,000 - $30,000. We are confident that a budget for a middle-tier auditing process will be sufficient for the type of computing environment we provide. This is also balanced with the maturity of technologies we currently have in place.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Cyber Security Specialist	$70,000	FT 1.00 FTE	Yes	July 1, 2022	12-month

One (1) full time employee, full benefits, hire date of July 1, 2022, 12-month contract.
Cybersecurity Specialist - $70,000 base salary

This position will report to the Director of IT Operations and serve as a senior member of the technical staff, working closely with the enterprise architecture team members. The general scope of responsibility will include protection of electronic information and software systems by managing access privileges, controlling structures, identifying abnormalities, reporting violations, and implementing security improvements. The scope also includes investigating security breaches, identifying vulnerabilities, managing security software systems and appliances, and developing and implementing organization-wide security policies, protocols, and processes that support the cybersecurity strategy defined by the Chief Information Officer and/or Chief Information Security Officer.

Projected Timeline

The intent is to hire the position immediately after funding is secured. Work would begin soon after to prepare for the audit and penetration activities, all of which would be completed prior to December 31, 2022.

T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	$377,200				$377,200

Request Narrative

1. Explain the request and provide justification for the need
   This request has several pieces to a multiprong strategy.
   A. The fist strategy is to add two (2) full time positions to support the Math Solutions Center (MSC) in its mission to provide mathematics guidance and coaching to students within the student's first semester at CWI. Students entering college (particularly those who are first-generation college students, English Language Learners, or who come from lower socio-economic backgrounds) are typically overwhelmed by their own mathematical insecurities, as well as understanding their college mathematics course and remediation options. Research indicates that persistence and retention rates are directly linked to successful completion of math requirements related to the students' programs. Having one-on-one access to a trained CWI Math instructor during the assessment of current skills completed at the start of a student's academic journey provides the most effective opportunity to help students better understand how to choose the right math course and/or remediation option based on the student's skillsets, previous experiences, mathematical self-confidence, and degree requirements.

B. The second strategy is to make the Center for Teaching and Learning a permanent part of the College.

   The Center for Teaching and Learning supports innovative, quality classroom experiences through intentional distribution of best practices, technology adoption, training and instruction design for traditional, hybrid and online learning environments. The Instructional Designer and Curriculum Designer positions were created and funded through the CARES grant where funding will run out at the end of FY2022.

   With the dynamic shifts that have taken place in education throughout the pandemic, we are continuing to move additional programs to online and hybrid modalities to meet the needs of our learners. The role of these positions is to support faculty in labor-intensive development of courses. Their work includes designing quality, online learning experiences that enhance student learning with clear, measurable outcomes that allows CWI to expand its ability to improve the lives of students in the Treasure Valley.

C. The third strategy is to increase student retention through dedicated advising. Student retention metrics are lower than desired; it is imperative that advising resources be available to our most at-risk (based on progress towards completion and other factors) students. This Senior Advisor for Retention will be dedicated to focusing on interventions for students who are struggling and may not achieve their academic goals

2. If a supplemental, what emergency is being addressed?

   [NA]

3. Indicate existing base of PC, OE, and/or CO by source for this request.
   Strategy A). The Math Solutions Center is staffed by full time and part time instructors. This request represents an expansion of existing MSC services that would allow individual mathematical coaching opportunities for students to occur prior to the student's enrollment in a particular mathematics course.

   Strategy B) Increase the CTL from 6.00 FTE to 8.00 FTE in the staff that directly supports faculty in the creation of content and delivery of quality, distance education programs.

   Strategy C) requires the addition of 1 FTE in a new position that has not been funded in prior years. This advising position is designed to improve persistence, retention, and graduation rates.

4. What resources are necessary to implement this request?
   Five total new personnel required along with a computer for each staff member

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	Salary	FT or PT	Benefit Elig.	Date of Hire	Term Service
Teaching Faculty	$50,500	FT 2.00	Yes	August 1, 2022	12 month
Course Designer	$57,200	FT 1.00	Yes	July 1, 2022	12 Month
Instructional Designer	$50,400	FT 1.0	Yes	July 1 2022	12 Month
Advisor, Student Success	$50,000	FT 1.0	Yes	July 1, 2022	months

6. Will staff be re-directed? If so, describe impact and show changes on org chart.
   Staff will not be re-directed.

7. Detail any current one-time or ongoing OE or CO and any other future costs.
   Continued funding for salary and benefits is requested.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.
   The dollar value utilized aligns with the mid-point of the current salary allocated to these types of position at CWI. New positions are determined using Economic Resource Institute (ERI) & CUPA-HR survey (if current data is available) median for minimum # years of experience and then put it within a current CWI salary range that is most relevant to similar positions.

9. Provide detail about the revenue assumptions supporting this request.
   The addition of these positions will reduce dependency on adjunct faculty. These coaching and advising positions are anticipated to improve retention and math completion thus leading to increased degree and certificate completion. Based on trends and impacts from the pandemic, we anticipate continued growth in our distance education programs, particularly in the area of hybrid modalities. Increasing these opportunities for students, particularly in our CTE programs and within the new Online Idaho initiative, will increase our ability to reach more students in providing them quality educational programs that meet demands for our community.

10. Who is being served by this request and what is the impact if not funded?
    A) It is the expectation that math coaching opportunities for students during the first semester of college enrollment would reduce the likelihood of mathematics being a barrier to the student's attainment of a college degree or certificate. Without the addition of these two faculty positions, fewer students will receive this level of support.

    B) These positions impact the development of quality online content and the ability of CWI to extend current degrees and certificates to be provided in online and hybrid

modalities. Non-traditional students, students with full-time jobs, families are other responsibilities would be most impacted by the lack of quality online courses and programs.

C) Students will be positively impacted by our increased ability to serve them quickly and accurately, having accounted for their individual needs. Not funding this position will mean that we are unable to address unique and complex student needs.

1. PC and workstation					
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL REQUEST	$216,500				$216,500

Request Narrative

1. Explain the request and provide justification for the need. This initiative also reflects a three-pronged approach to drive enrollment and make CWI more attractive to students.
   A. With the implementation and expansion of a cybersecurity program there is/will be a need for dedicated Network systems support for both IT Instructional and campus Cyber security programs.
   B. We have tremendous need for data mining and report writing relative to student success metrics and interventions. Additionally, we have a need for divisional support of institution-wide initiatives relative to student success and completion metrics (via data and system management). This Analyst will be housed within student services, but function across all divisions to collaborate for individual and collective student success.
   C. We do very well to recruit students from high schools in our service area, but we are not equipped to be as successful as we want to be in recruiting mid-career professionals. The Adult Education Enrollment Counselor will be focused

exclusively on recruiting employed and under-employed persons to begin or complete their degree at CWI.

2. If a supplemental, what emergency is being addressed?
Not applicable.

3. Indicate existing base of PC, OE, and/or CO by source for this request.
These 3 FTE positions are new positions that have not been funded in prior years. The existing IT support base will be increased by 1 FTE; The advisor for student success will complement existing analysts in other areas; The advisor for Student retention position is designed to improve persistence, retention, and graduation rates.

4. What resources are necessary to implement this request?
This request is for 3.0 FT. Each position will need a new computer and desk, and the IT position will need training on software/hardware that is used in the IT programs.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	**Salary**	**FT or PT**	**Benefit Elig**	**Date of Hire**	**Term Service**
Network Systems Administrator	$56,500	FT 1.0	Yes	July 1, 2022	12 months
Advisor, Student Success	$55,000	FT 1.0	Yes	July 1, 2022	12 months
Advisor, Student Retention	$40,000	FT 1.0	Yes	July 1, 2022	12 months

6. Will staff be re-directed? If so, describe impact and show changes on org chart.
Not applicable – existing staff will not be reallocated.

7. Detail any current one-time or ongoing OE or CO and any other future cost.
All equipment will come out of the programmatic budgets.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.
Salaries are based on estimated market costs. Internal compensation and leveling practices were utilized, in accordance with state standards. Supplemental internal funding may be required depending on market conditions at the time of hiring.

9. Provide detail about the revenue assumptions supporting this request.
A) Not applicable – No revenue is tied to this position. The position supports programmatic enrollment growth.
B) This position will make current processes more efficient and effective for the entire

division of Enrollment & Student Services (105 staff members). It is assumed that this will increase recruitment and retention, and thus increase revenue.
C) This position will work with faculty and staff members to save students who may, without intervention, not be successful. It is assumed that they will support student success which will lead to an increase in revenue.

10. Who is being served by this request and what is the impact if not funded?
A) Students and faculty of IT programs will be served by this position. Inefficient or ineffective access to achieve student outcomes will impact if the request is not funded.
B) Even as the primary persons served by the Analyst will be faculty and staff members, students will be positively impacted by our increased ability to serve them quickly and accurately, having accounted for their individual needs. Not funding this position will leave cracks in the system that students will fall through.
C) The community will be the recipient of the services provided by this individual; mid-career professionals need continual education whether they change careers or not. If not funded, we will not be able to successfully recruit those who have some credits, but no degree and we will not be supporting the state economy in a number of ways that are possible with this funding.

Request Narrative

1. Explain the request and provide justification for the need.

The University of Idaho's Center for Agriculture, Food, and the Environment (CAFE) based in Rupert is critical to the Governor's Building Idaho's Future initiative. Design of the CAFE research dairy is nearly complete with construction set to begin in 2022. In addition, significant agronomic research activities have begun in the fields surrounding the dairy site. The agronomic research has a strong focus on impact of manure production

and application to soil and water health, and methods to mitigate environmental impacts. The success of future research in this area is dependent upon gathering baseline data on the attributes of current soil and water quality on the CAFE acreage (640 acres) at Rupert. Since U of I's acquisition of the Rupert property, substantial soil sampling has been conducted including installation of numerous sensors to monitor soil moisture, environment, and fluxes of various gases. Over 1,600 samples (4,000 pounds) of soil have been collected at CAFE the past 2 years, with soil samples being transported to the U of I Moscow campus for analysis, and taken back to Rupert for storage for the future.

Hiring staff to support the ongoing operations at the Rupert site is critical to launch the long term research efforts at CAFE on environmental impacts of dairy production on soil and water health. Faculty and staff from other Research and Extension Centers (IAES) that comprise the university's Idaho Agriculturlal Experiment Station have spent considerable time at the Rupert site to demonstrate the value for research.

This request follows the model of operations at other IAES Research and Extension Centers in which an operations manager oversees the operations and support staff ensure the research runs smoothly. We request two (2) comparable positions to support operations and research at Rupert.

The first position at CAFE requiring requested funding is the **operations manager** at the Rupert site. This position is requested to coordinate the research and demonstration plots on site, and prepare for cows to be on site in 2023. The operations manager will oversee maintenance of the land and facilitation of researchers needs; provide assistance in evaluating timelines, proposed research systems and procedures to facilitate multiple concurrent research objectives; and make recommendation for operational changes when necessary and assist in implementation of new processes. In short, the operations manager will improve access for research, which has already provided a return on investment by bringing large amounts of competitive federal, state, and industry funding (over $10 million to date) for research at the Rupert site.

The second position at the CAFE Rupert site is a **research support scientist** who is needed to sample soil and monitor and maintain the various data gathering sensors, weather monitoring equipment, and irrigation systems in the 640 acres located there. Care of the valuable research infrastructure requires a skilled support scientist who can continuously evaluate conditions and data while supporting further federal- and industry-funded grant submissions. This individual will report to the operations manager to assist in coordination of field use while aiding faculty from across the state who have established long-term research studies at Rupert.

We are also requesting funding to establish one (1) new **4-H STEM Area Extension Educator** to deliver critical STEM education to Idaho youth in the areas showcased through precision and regenerative agriculture research conducted at CAFE. As important as CAFE is to determining important research findings for the long term sustainability of Idaho's dairy and agricultural industries to Building Idaho's Future, educating Idaho's youth on the technology and scientific principles that create that research can be

accomplished through support of an additional 4-H STEM Area Extension Educator. This request includes supporting funds for programmatic expenses and travel funds, related to education of Idaho's youth in STEM areas consistent with the vision for economically and environmentally sustainable Idaho diary production. This STEM Extension Educator is being requested to increase engagement with more youth, 4-H volunteers, and community leaders in Idaho communities in the development of STEM knowledge and skills, postsecondary educational opportunities, and career awareness particularly related to precision agriculture technology, and biological/chemistry concepts related to sustainable and regenerative agriculture.

Currently, UI Extension 4-H Youth Development offers non-formal K-12 educational programming in all counties in Idaho serving over 55,000 youth annually. UI Extension 4-H has led in developing STEM opportunities for Idaho youth, reaching 13,000 youth annually. Demand for these programs has grown rapidly, and has increased with the learning loss many of our Idaho youth experienced in 2020 and 2021 due to COVID-19. These STEM opportunities include programs in Agricultural, Natural and Biological Sciences, Technology and Engineering, such as Water Quality, Animal Health, Robotics and Drones, Coding, Electronics, 3-D Printing, Physical Computing, and other exciting STEM activities. Additional capacity to run quality educational 4-H STEM programs is needed to meet growing demand from rural and urban communities across Idaho.

2. If a supplemental, what emergency is being addressed?

N/A

3. Indicate existing base of PC, OE, and/or CO by source for this request.

This request is for continuous funding for expanded program development at CAFE and in 4-H activity tied to precision agriculture – areas that are critical to the efficient and effective use of Idaho's natural resources in support of Idaho's vibrant dairy industry and Idaho's large food processing industry.

4. What resources are necessary to implement this request?

See below.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

Title	Salary	FT or PT	Benefit Elig	Date of Hire	Term Service
Operations Manager	$65,000	FT 1.00 FTE	Yes	July 1, 2023	12-month
Research Support Scientist	$45,000	FT 1.00 FTE	Yes	July 1, 2023	12-month
4-H STEM Educator	$72,404	FT 1.00 FTE	Yes	July 1, 2023	12-month

6. Will staff be re-directed? If so, describe impact and show changes on org chart.

Staff will not be re-directed.

7. Detail any current one-time or ongoing OE or CO and any other future costs.

This request is for continuous funding for expanded program development tied to CAFE and precision agriculture. UI Extension is an established network throughout Idaho with a long history of supporting Idaho communities by providing youth and adult educational programs in many needed areas such as agriculture, horticulture, economics, citizenry, and health. As noted earlier, UI Extension 4-H has also made great progress in implementing many STEM programs. However, the newer STEM programs are at capacity with the current staffing level and in some cases are detracting from other community desired programs. Therefore, the requested position would build onto the STEM programs already being conducted by one 4-H Area Educator that was funded in 2019, local institutional knowledge and university-driven expectation for high-quality programs to enable a focus on educational STEM programs.

The request includes ongoing OE funding.

- Educational resources fund of $20,000/year for the 4-H STEM Educator
- Annual travel budget for the 4-H STEM Educator to reach rural communities at $10,000
- Annual travel budget of $7,500 for CAFE operations staff to support maintenance and improvements
- Annual operation expenses of $25,000 for materials and supplies to maintain equipment, sensors, weather stations, and infrastructure at CAFE in Rupert

Total ongoing request for operating funds is **$62,500.**

For capital outlay, funds ($40,840) are requested for a one-time purchase of a **PowerProbe automated soil sampler** (equipment made by a local manufacturer AMS, Inc., in American Falls, ID) to aid in precision sampling of soil at CAFE and throughout the IAES Research and Extension Centers. Soil sampling at Rupert to support decision making in precision agriculture is currently every 0.4 acres to a depth of bedrock or 3 meters. Over 1,600 samples (4,000 pounds) of soil have been collected at CAFE the past 2 years. This extensive sampling will be aided by the PowerProbe system which can be tied to GPS controls for extreme accuracy. In addition, this unit can be moved easily to other locations for use.

Total one-time request for CO is **$40,840**.

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.

All costs are based on market data and costs for comparable positions/research.

9. Provide detail about the revenue assumptions supporting this request.

N/A

10. Who is being served by this request and what is the impact if not funded?

This request is designed to serve the citizenry of the State of Idaho as it addresses key societal issues related to the economic and environmental sustainability of Idaho's dairy production and the feed industries that support it.

Agriculture is one of the biggest industries in Idaho providing a strong economic foundation for the state's success. Idaho's dairy industry has grown dramatically over the past three decades, ranking third nationally with cash receipts exceeding $2.9 billion in 2020 while employing directly and indirectly nearly 51,000 Idahoans. CAFE provides a base to study the effects of dairies on both crop- and livestock-based agriculture, food-processing and surrounding communities.

Agricultural production associated with dairy in Idaho impacts Idahoans' quality of life in many ways. CAFE research will improve sustainability in the industry by enabling producers, dairies and food processors to adopt practices and policies to meet the sustainability requirements of their customers. These practices include STEM principles as precision and monitoring are inherent.

CAFE research will also address the economic, social and cultural sustainability of rural communities and diverse populations as well as the quality and sustainability of air, land and water resources of the rural communities impacted by the dairy industry.

Additionally, research through CAFE will support the economic vitality of agricultural and food production by expanding markets and food products to increase Idaho's GDP. CAFE will encourage the development of innovative agricultural practices that will support new STEM-related industries developing sensors, critical control modules, and the intellectual

capacity to use these tools in decision-making. Demonstrating to Idaho's youth through 4-H will aid in creating the next generation of skilled labor for Idaho agriculture.

UI Extension 4-H leads STEM programs open to all youth in both rural and urban communities throughout Idaho. This request is designed to build the capacity to scale up our programs to meet the demand to involve and serve more youth across Idaho.

The expected, immediate impacts of this request if funded would be a doubling to tripling of the number of youth in STEM programs such as precision agriculture technology and biological/chemical soil/water processes. We have confidence in this expectation because of feedback from participants and county staff. With this support, we will be able to retain current 4-H members year-to-year by providing higher level education and challenges, and we will be better able to engage new members by making more room for them and by providing the educational support for keeping them involved.

The expected longer-term impacts are increased Go-On Rates and increased interests in pursuing STEM fields. We are confident in stating this impact because our robotics programs alone have improved youth interest in pursuing post-secondary training in STEM fields. Many youth have reported in post-season surveys that they very likely to pursue engineering as a result of their involvement in robotics.

If the funding is not provided, coordinated research and 4-H STEM educational activity via CAFE will be limited leading to a lack of objective, science-based answers to publicly important questions that would educate Idaho’s youth and aid Idaho’s producers and agricultural industry in adopting practices critical to the industry’s sustainability for generations.

IT Narrative (If applicable) – N/A

1. How does this request conform with your agency's IT plan?
2. Is your IT plan approved by the Office of Information Tech. Services?
3. Does the request align with the state's IT plan standards?
4. Attach any supporting documents from ITS or the Idaho Tech. Authority.
5. What is the project timeline?

Request Narrative

1. Explain the request and provide justification for the need.

The legislative mandate of the Idaho Geological Survey (IGS) is to collect, interpret and publicly distribute geologic data for the State of Idaho. IGS has been operating on minimal operational funding, typically in the order of a few thousand dollars from the state appropriation. This funding level is not appropriate for the Survey's mission, and it is impacting the ability of IGS to conduct work focused on state priorities. IGS currently bridges the funding needs through grant and contract work, which creates available salary savings used for operational expenses, but ties IGS to contractual obligations taking away from a statewide mandate. Only a few programs can land successful grant funding, and critical programs are left with minimal to no funding (e.g., Geologic Hazards, Economic Geology, Oil & Gas, Hydrogeology). IGS presence on the State territory is currently dictated entirely by contract obligation and does not address directly needs for societal, economic, and public safety priorities of the state of Idaho. Investment in operational

funds for IGS has potential for high return as evident in many well-established economic assessments on benefits for basic geologic investigation[1].

2. If a supplemental, what emergency is being addressed?

N/A

3. Indicate existing base of PC, OE, and/or CO by source for this request.

Requesting $28,000 in ongoing OE funding to support IGS operations and reduce sole reliance on salary savings achieved through grant and contract work which take away from IGS's ability to meet its statewide mandate.

4. What resources are necessary to implement this request?

$28,000 in ongoing OE funding.

5. List positions, pay grades, full/part-time status, benefits, terms of service.

N/A

6. Will staff be re-directed? If so, describe impact and show changes on org chart.

N/A

7. Detail any current one-time or ongoing OE or CO and any other future costs.

The request for $28,000 in continuous funding for OE includes minimum estimate for multi-day trips for economic geologist to mine sites, multi-day trips for hazard related research and monitoring, multi-day trips for hydrogeology related research, multi-day trips for energy related research, State Geologist trips to Boise for Agency governance and interagency collaboration, State Geologist trips to national meetings and government liaisons, specialty software annual licenses and maintenance, support for Oil & Gas research, support for Hydrogeological investigation, and support for geologic hazard related research (landslide and earthquake).

8. Describe method of calculation (RFI, market cost, etc.) and contingencies.

All costs for travel are based on state allowed per-diem and mileage. All costs in support of research programs are estimated on IGS 5-year average historic expenditures[2].

[1] E.g.: https://www.sciencedirect.com/science/article/pii/S0301420714000804#s0065

[2] For context, in FY21 the response to the 03/2020 Stanley earthquake alone costed to date > $53,000.

9. Provide detail about the revenue assumptions supporting this request.

The current request directly benefits public safety, contributes to minimizing potential losses from natural hazards, and supports and incentivizes industry presence and collaboration across the state.

We do not anticipate increase in revenue for IGS.

10. Who is being served by this request and what is the impact if not funded?

This request is designed to serve the constituents of the State of Idaho as it instrumental to address key scientific, economic, and public safety issues related to the stewardship of natural and mineral resources and the understanding and mitigation of natural hazards.

The Idaho Geological Survey is charged by legislative mandate with addressing geological investigations over the vast and complex territory of the State of Idaho, and to serve citizens and stakeholders in response to specific local, regional, and state-wide needs. Data acquired through monitoring, instrumentation, and direct observation in the field and its interpretation and communication are in support of the economic vitality of industry and private citizens, affect the security and safety of public infrastructure including transportation corridors, and guarantee sustainable management practices for continued prosperity of the numerous state industries, including forestry, agriculture, water, and mineral resources.

As the leading state agency for geological data, IGS' collective knowledge provides critical information to numerous prospective and current companies that are attracted by Idaho's natural resources, with direct impact on the economy of local communities, especially in rural areas, which provide a source of revenue for private businesses and municipalities.

At a broader scale, the services that will be made available through the proposed request will serve the entirety of the state through increased basic scientific and applied knowledge, with direct application to hazard mitigation, infrastructure resilience and limiting losses associated with geologic disasters.

If funding is not provided, the IGS' priorities and ability to operate across the state will be dictated by contractual obligations from external funding sources, leading to a lack of objective, science-based answers to publicly important questions.

IT Narrative (If applicable)

1. How does this request conform with your agency's IT plan?

All IT purchases are processed in alignment with UI IT standard and go through approved UI purchasing processes.

2. Is your IT plan approved by the Office of Information Tech. Services?

No.

3. Does the request align with the state's IT plan standards?
4. Attach any supporting documents from ITS or the Idaho Tech. Authority.
5. What is the project timeline?

1. **Explain the request and provide justification for the need.**

Supports institution/agency and Board strategic plans:
This request to add additional business consultants at the Idaho Small Business Development Center supports:

- *Governor Little's Vision & Priority of creating a "Robust Economy in Idaho" specifically his initiative to diversify Idaho's economy in Rural areas.*
- *The State Board of Education's objectives around innovation and economic development, and the increase of access to education for all Idahoans regardless of socioeconomic status, age, or geographic location.*
- *Boise State University's core theme for community commitment.*
- *The Boise State College of Business and Economics' goal to support economic development through collaboration with public and private organizations.*
- *The host college and university goals for outreach to communities and support of economic development.*

Description:

The Idaho Small Business Development Center (SBDC) has been providing no-cost consulting and coaching to Idaho's small businesses and entrepreneurs since 1986 through a network of 6 offices hosted by Idaho's colleges and universities that service all 44 counties in the state. The Procurement Technical Assistance Center (PTAC) has also been providing assistance to businesses on government procurement since 1986. In 2015, the PTAC transitioned from the Idaho Department of Commerce to the Idaho SBDC to complement the services being provided to small businesses.

The COVID-19 Pandemic and ensuing economic crisis affected every part of Idaho. The SBDC network responded to this crisis by being on the front lines of the economic recovery. Critical information was relayed to Idaho Businesses looking to keep their doors open, Agency partners like Labor and Commerce, and the Financial Management leveraged the SBDC network as a trusted voice to deliver information about unemployment, funding opportunities, and grants for Idaho businesses.

Demand for the Idaho SBDC's professional consultants increased by 94% in 2020 over 2019, and year to date is still up 66% over 2019. This significant and sustained increase in demand requires our network to expand to meet this need, particularly in Rural areas of Idaho.

This request is part of a larger initiative to significantly increase the availability of businesses consultants to rural parts of Idaho.

Rural Impact

On average over the past eight years, 23% of Idaho SBDC clients have been located in rural areas. The time spent with these clients has resulted in rural Idaho accounting for; 23% of all new business starts, 26% of all capital raised, 26% of all jobs created, and 25% of all sales in the past six years (from SBDC clients).

Historical Data for SBDC Rural Client Impact:

	2013	2014	2015	2016	2017	2018	2019	2020
% of Rural Clients	23.12%	19.32%	21.65%	23.52%	22.66%	21.80%	22.18%	27.44%
% of Total Rural Impact from all SBDC Clients								
Business Starts	33.82%	13.54%	24.10%	13.10%	16.50%	25.00%	21.21%	38.81
Capital Raised	12.90%	20.00%	13.55%	25.65%	30.67%	53.90%	24.69%	28.62%
Jobs Created	27.30%	16.25%	19.95%	26.00%	45.80%	25.90%	26.60%	19.62%
Sales Growth	17.93%	22.66%	32.82%	40.79%	25.75%	24.75%	18.62%	16.35%

While these statistics are encouraging, there is need and opportunity for improvement. Even with its strong track record of performance, under the current resources, the Idaho SBDC has not been able to significantly increase these measures. The Idaho SBDC conducted a rural awareness study in 2018 that found 47% of the businesses in the study were aware of the SBDC, but only 27% specifically knew about, and utilized its services. To effectively reach rural business owners with one-one-one consulting and high-quality training, the SBDC needs to expand its presence and awareness in rural Idaho.

The request focuses on increasing "on-the-ground" rural development support with remotely located consultants servicing rural communities in Northern Idaho.
