REFERENCE

June 22, 2011	First Reading, Board Policy III.M., Public Postsecondary Accreditation approved.
August 11, 2011	Second Reading, Board Policy III.M., Public Postsecondary Accreditation approved by the Board.
June 15, 2022	The Board approved a first reading of Board Policy III.M., clarifying that all eight public postsecondary institutions shall be accredited by NWCCU.

APPLICABLE STATUTES, RULE OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section III.M.
Public Postsecondary Accreditation
Section 33-107, Idaho Code

BACKGROUND/DISCUSSION

Board Policy III.M. Public Postsecondary Accreditation identifies the Northwest Commission on Colleges and Universities (NWCCU) as the Board-recognized accrediting body for public postsecondary institutions in Idaho. The policy also contains reporting requirements related to the accreditation process.

The current policy does not state that it applies to community colleges. The proposed changes clarify that all eight public postsecondary institutions in Idaho, including the community colleges, shall be accredited by the Northwest Commission on Colleges and Universities (NWCCU).

Other proposed amendments clarify Board member participation in the accreditation evaluation process at the four-year institutions.

IMPACT

The proposed amendments will update Board policy to clarify that all eight public postsecondary institutions, including the community colleges, shall be accredited by NWCCU.

STAFF COMMENTS AND RECOMMENDATIONS

It is the statutory responsibility of the Board to ensure transferability of credit to state institutions of higher education. Seamless credit transfer between all eight public postsecondary institutions is of paramount importance to a uniform system of education in Idaho. Section 33-3729, Idaho Code, sets out the requirements

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 24, 2022

for the transfer of credits to and between our public postsecondary institutions, including the requirement that transferring credits must be earned at an institution accredited by a regional accrediting body recognized by the Board. This policy identifies the accrediting body recognized by the Board.

A few minor proposed amendments were made between first and second readings. These amendments would change the requirement of the four-year institutions to share a draft copy of the year one self-evaluation report with the full Board at a regular Board meeting prior to submitting to the NWCCU. The policy would instead require institutions to share a draft copy of this report with the Board's Executive Director. The amendments also generalize the Board's participation in NWCCU site visits, removing the requirement to change Board policy if NWCCU changes the frequency or format of their visits.

BOARD ACTION

I move to approve the second reading of Board Policy III.M., Public Postsecondary Accreditation as submitted in Attachment 1.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies and Procedures, Section III.Z. Planning and Delivery of Postsecondary Programs and Courses
Idaho State Board of Education Governing Policies and Procedures, Section III.G. Postsecondary Program Review and Approval
Section 33-113, Idaho Code

BACKGROUND/DISCUSSION

Section 33-113, Idaho Code, requires the Board, in the interest of efficiency, to define the limits of instruction at all publicly funded institutions, and to limit wasteful duplication to the extent practicable. Board Policy III.Z. sets the method by which the Board limits duplication or evaluates the need for duplication, as well as assigns responsibility for assessing the educational and workforce needs around the state.

Consistent with Board Policy III.Z.2.a.ii, institutions created program plans in alignment with their Statewide and Service Region Program responsibilities that describe proposed programs to be offered over a three-year period. The Three-Year Program Plan represents proposed programs for Academic Years 2023-2024, 2024-2025, and 2025-2026 to an inventory of programs currently offered.

In addition, the plan also includes a name change to the statewide program list for the University of Idaho. Procedures for making any changes to the specific programs and degree levels listed are established in Board Policy III.G, Postsecondary Program Review and Approval. This includes a short proposal requirement and approval of the name change by the Board.

INSTRUCTION, RESEARCH AND STUDENT AFFAIRS
AUGUST 24, 2022

University of Idaho proposes to change the name of their existing Bachelor of Science in Landscape Architecture listed under the statewide program responsibilities assigned by the Board.

IMPACT

The Three-Year Program Plan provides a comprehensive, system-wide picture of anticipated institutional academic and career technical program development. Approval of the Three-Year Program Plan will provide the institutions with the option to proceed with the development of program proposals that will be considered by the Board, as applicable to the level of program impact, for approval and implementation over the next three years. Approval of the Plan will also update the program name for the University of Idaho's Landscape Architecture program.

ATTACHMENTS

Attachment 2 – UI Landscape Architecture Name Change – Short Proposal

BOARD STAFF COMMENTS AND RECOMMENDATIONS

Each institution submitted an institution plan representing proposed programs for Academic Years 2023-2024, 2024-2025, and 2025-2026. Consistent with the planning process and Board Policy III.Z, an overview of institution plans and potential collaboration opportunities was provided to the Board during its work session at the August 2022 regular Board meeting.

As part of its three-year plan update, the University of Idaho submitted a short proposal to change the name of its existing Bachelor of Science in Landscape Architecture to Bachelor of Science in Environmental Design. The proposed name change will comply with changes to 2021 Landscape Architectural Accreditation Board standards, which requires that all degree programs utilizing the term "landscape architecture" be accredited. As it currently stands, the university's master's program is an accredited professional program and the baccalaureate program is not accredited. Consistent with Board Policy III.G, changes to program names or degree titles related to Statewide Program Responsibilities as defined in Board Policy III.Z require full Board approval.

The Council on Academic Affairs and Programs reviewed the Three-Year Program Plan in April 2022. The Instruction, Research, and Student Affairs (IRSA) committee reviewed the Three-Year Program Plan and the proposed name change on August 11, 2022.

Three-Year Plan

Planning and Delivery of Postsecondary Programs

The State Board of Education established in alignment with Board Policy III.Z., a comprehensive process for the planning and delivery of postsecondary education. Consistent with this policy, institutions create an institution plan that describes all current programs and proposed programs to be offered in alignment with each institution's Statewide and Service Region Program Responsibilities. The process requires that institutions provide a level of programmatic information for each current program being offered and for each proposed program as part of the three-year plan development.

Statewide Program Responsibility

In accordance with Board Policy III.Z.1.i, Statewide Program Responsibility shall mean an institution's responsibility to offer and deliver a Statewide Program in all regions of the state. Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.

Service Region Program Responsibility

In accordance with Board Policy III.Z.1.g, Service Region Program Responsibility shall mean an institution's responsibility to offer and deliver a Service Region Program to meet regional educational and workforce needs in its primary service region as defined in subsection 2.b.ii.1) and 2) below. Service Region Program Responsibilities are assigned to the Designated Institution in each service region, but may be offered and delivered by Partnering Institutions in accordance with the procedures outlined in this policy.

The Three-Year Plan consists of proposed programs institutions have identified they will pursue over a three-year period. As proposed programs are developed, institutions must follow the program review process and procedures provided in Board Policy III.G, Postsecondary Program Approval and Discontinuance to acquire appropriate approvals prior to implementation of programs. If the program is to be delivered outside the institution's service region, a Memorandum of Understanding must be developed and agreed upon in cooperation with the Board's Chief Academic Officer prior to implementation.

The Plan also consists of a complete program inventory of programs currently being offered by Idaho's public postsecondary institutions. Programs are listed by CIP code and then alphabetically by institution. The list includes programs, options, and degrees offered through various departments and colleges.

Consistent with Board Policy III.Z., the Plan is updated on an annual basis. It is intended that the Three-Year Plan will provide guidance to the State Board of Education in its planning and coordination of educational programs.

Delivery of Programs

Consistent with Board Policy III.Z., “Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.” The statewide program list is updated by the Board every two years.

Didactic Program in Dietetics (DPD) <i>(expansion to Treasure Valley)</i>	BS	Region III	Regional	2023-2024	The DPD is currently only in Pocatello. Extending into the Treasure Valley will meet a significant need as no undergraduate program is available in that area and we frequently receive questions from residents who are unable to move regarding options to complete a nutrition and dietetics degree. Students can complete prerequisites from ISU or local institutions then apply for admission into the DPD. We anticipate offering the courses synchronously on the Meridian campus. Students who graduate from the DPD are then eligible to apply for a supervised practice program. MOD: online/hybrid	This will require two new faculty positions to implement offering courses on both campuses. This will bring additional students who will cover the increased costs through tuition charges. Some courses have an associated course fee which covers course costs.	Articulation agreements with BSU and CWI need to be put in place.	
Family Nurse Practitioner (FNP)	Specialized Certificate GRADUATE	Region V/Online	Regional	2023-2024	Delivered fully on-line ; the program will allow current licensed Nurse Practitioners in other specialties to complete FNP requirements for taking the FNP national board certification exam which is required for licensure. MOD: online.	Adjunct Clinical faculty (no online program fee)		
Health Information Management	BAS	Online	Regional	2023-2024	Information technology has become essential in managing hospital records and patient data and it is key to the effective and efficient delivery of modern healthcare. There is a high demand for qualified professionals to take managerial positions, and the current trends in the industry indicate that people will need to have a bachelor's degree to stay competitive. This program will continue to build on the skills obtained in our AAS degree program by adding more emphasis in leadership, business management, system analysis, and interdisciplinary professional relationships. Online Program Fees will be implemented to support the program. MOD: fully online	Additional budget requested for 1 FTE, nation-wide travel for practicum supervision budget, and software/equipment for online delivery.

This proposal form must be completed for certificates and program changes as provided in Board Policy III.G.3.b. *Actions Requiring a Short Proposal.*

1. Provide an overview of the changes that includes need and rationale for the proposed modification or change. Identify any existing program that this program will replace.

Change the name of the Bachelor of Science in Landscape Architecture degree program to Bachelor of Science with a major in Environmental Design to comply with changes to 2021 Landscape Architectural Accreditation Board (LAAB) standards. LAAB now requires all degree programs using the term “landscape architecture” to be accredited. Currently, our Master’s program (MLA) is an accredited professional program, and our undergraduate BSLA is not accredited.

The program faculty, College curriculum committee and College administration agree that the appropriate new name for the undergraduate program is Bachelor of Science with a major in Environmental Design. The proposed curriculum changes create a non-professional bachelor’s degree, the BS with a major in Environmental Design. The degree follows much of the BSLA curriculum requirements, providing a pathway for advanced standing in the MLA program (as our current BSLA does). It also provides an opportunity for potential expansion and development of emphasis options in the College of Art and Architecture.

The CIP code for the degree will change. Curriculum changes reduce the total number of required credits from 127 to 121. The Learning outcomes change, now oriented toward a non-professional degree program, emphasizing knowledge areas and technical skill acquisition applicable to a broad range of environmental design career opportunities.

2. Discuss impact of proposed modification on student enrollment. Using the chart below, provide projected new enrollments for the proposed certificate or modified program:

A degree in Environmental Design offers opportunities for CAA to capitalize on landscape architecture’s long-term support of sustainability goals and focus areas, but also move beyond being discipline specific to address the needs of parallel disciplines within city, county, and state government as well as corporate needs related to sustainable planning and design. Depending on their area of focus, students graduating with this degree may develop careers as an: environmental specialist, urban planner, sustainability consultant, environmental planner, landscape architect, water resources engineer, etc.

Further, this degree/program name change, and broader curriculum options also provides an opportunity for potential expansion and development of emphasis options in the College of Art and Architecture focusing on sustainability. We see a number of certificate programs and future degrees to develop in collaboration with not only program within the college, but across campus and across the state.

Estimated New Enrollment			
Year	Fall	Spring	Summer
	Headcount	Headcount	Headcount
2022-23	0	5	0
2023-24	7	5	0
2024-25	10	5	0
2025-26	15	5	0
2026-27	20	5	0

3. Teacher Education/Certification Programs. All Educator Preparation programs that lead to certification require review and recommendation from the Professional Standards Commission (PSC) and approval from the Board. Will this program lead to certification?

Yes _____ No x _____

If yes, on what date was the Program Approval for Certification Request submitted to the Professional Standards Commission?

4. Three-Year Plan. If this is a new proposed certificate (30 credits or more) or degree, is it on your institution's approved 3-year plan?

Yes _____ No _____

If yes, proceed to question 5. If no, please address A and B below:

- a. Which of the following statements address the reason for adding this program outside of the regular three-year planning process.

Indicate (X) by each applicable statement:

<input type="checkbox"/>	Program is important for meeting your institution's regional or statewide program responsibilities.
<input type="checkbox"/>	The program is in response to a specific industry need or workforce opportunity.
<input type="checkbox"/>	The program is reliant on external funding (grants, donations) with a deadline for acceptance of funding.
<input type="checkbox"/>	There is a contractual obligation or partnership opportunity related to this program.
<input type="checkbox"/>	The program is in response to accreditation requirements or recommendations.
<input type="checkbox"/>	The program is in response to recent changes to teacher certification/endorsement requirements.
<input type="checkbox"/>	We failed to include it when we had the opportunity.
<input type="checkbox"/>	Other:

- b. Provide an explanation for all statements you selected.

The 2021 Landscape Architecture Accreditation Board (LAAB) standards have revised the requirements that must be met for accredited Landscape Architecture programs. The new standards no longer allow a program to be called Bachelor of Landscape Architecture or Bachelor of Science in Landscape Architecture unless the program is a stand-alone, accredited program. UI's Bachelor of Science in Landscape Architecture is not a LAAB-accredited program. Our accredited program is the Master of Landscape Architecture. Therefore, the undergraduate degree must be renamed.
