

**INFORMATIONAL  
OCTOBER 20, 2022**

---

**SUBJECT**

Elementary Secondary School Accreditation Report, 2021-2022

**REFERENCE**

October 2018	Board accepted the 2018 Accreditation Report.
October 2019	Board accepted the 2019 Accreditation Report.
October 2020	Board accepted the 2020 Accreditation Report.
October 2021	Board accepted the 2021 Accreditation Report.

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-119, Idaho Code  
Idaho Administrative Code, IDAPA 08.02.02.140 – Accreditation

**BACKGROUND/DISCUSSION**

Pursuant to IDAPA 08.02.02.140, “Accreditation is voluntary for elementary schools, grades K-8, and alternative schools not identified in Subsection 140.02.a. through 140.012.e. of this rule....” Section 33-119, Idaho Code charges the Board with establishing the accreditation standards. The Board, through administrative rule, requires schools to meet the accreditation standards of an accrediting body recognized by the Board. Currently, the Board recognizes one accrediting body for elementary and secondary schools, the Northwest Accreditation Commission (NWAC), a division of Cognia.

The attached annual accreditation report is submitted to the State Board of Education in accordance with IDAPA 08.02.02.140.05. This report outlines the accreditation status of Idaho’s schools that serve any grade(s) 9-12 as well as those elementary schools and schools serving grades K-8 that voluntarily seek accreditation, and parochial and private schools.

Cognia accredits both individual schools as well as school systems (school district). Once a school becomes accredited, it may have one of two accreditation statuses: “accredited” or “accredited under review.” The accreditation status is based on the performance of a school in areas related to the accreditation standards, policies, assurances, student performance results and stakeholder feedback. Pursuant to Cognia Accreditation and Certification Policies and Procedures, Policy 3.01, institutions that fail to meet a substantial number of Standards or criteria, and have an Index of Quality (IEQ) score in the bottom 5% of reviews administered in the school year and/or documents levels of poor/unsatisfactory performance results are conferred a status of “Accredited Under Review” with monitoring to take place the subsequent year.

Of all 312 accredited schools and six districts, only three were accredited under review status, one was a private school and two are public charter schools: Sage International School of Boise in Boise and Xavier Charter School in Twin Falls.

## **ATTACHMENTS**

Attachment 1 – 2022 Accreditation Summary Report of Idaho Schools

## **STAFF COMMENTS AND RECOMMENDATIONS**

Section 33-119, Idaho Code, requires all public, private, and parochial secondary schools to meet minimum accreditation standards set by the State Board of Education. Those standards are set in Idaho Administrative Code, IDAPA 08.02.02.140.02, as the accreditation standards of the Northwest Accreditation Commission, a division of AdvancED, now Cognia. Additionally, IDAPA 08.02.02.140.04 requires an annual accreditation report to be submitted to the Board identifying each accredited school and school district in the state and the status of their accreditation.

Cognia accredits both individual schools as well as school systems (school districts). Once a school becomes accredited, it may have one of two accreditation statuses. The accreditation status is based on the performance of a school in areas related to the accreditation standards, policies, assurances, student performance results and stakeholder feedback. The two statuses are “accredited” or “accredited under review.” The term “accredited under review” has replaced the term “accredited probation.”

All schools that are accredited conduct a five year external review during their final year of the accreditation cycle facilitated by Cognia. In addition, all schools have a mid-term accreditation progress report that is done through Cognia’s online accreditation application. This report is done at the end of the second (2nd) year in the cycle for all schools with “accredited” status.

Those schools with “accredited under review” status have a more frequent reporting cycle. The “accredited under review” cycle can be every year, or more often dependent on the situation. All “accredited under review” schools conduct an onsite accreditation progress report review facilitated by Cognia. The accreditation progress report specifically addresses the required actions given by the external review team at the five-year onsite review. A school may be placed in “accredited under review” status under two circumstances. The first is based on the school scoring in the bottom fifth percentile of Cognia’s index of education quality. The second circumstance is based on the school not meeting Cognia’s standards, a complaint has been filed against the school, the school is in violation of Cognia’s accreditation policies and procedures, or based on an onsite team review. The attached report includes accredited schools, school districts, and educational programs serving students in elementary through high school.

In 2021, of the 295 accredited schools and six districts, six school were in accredited under review status, three private schools and three public charter schools. Sage International School of Boise and Xavier Public Charter school were in accredited under review status in the 2021 report.
