STATE BOARD OF EDUCATION MEETING  
April 17-18, 2024  
University of Idaho  
Pitman Center, 2nd Floor  
709 Deakin Avenue  
Moscow, ID 83843

Public Streaming: https://www.uidaho.edu/news/ui-live

Wednesday, April 17, 2024 – 9:00 a.m. (Pacific Time)

BOARDWORK
1. Agenda Review and Approval – Action Item
2. Minutes Review and Approval – Action Item
3. Rolling Calendar – Action Item

CONSENT
BAHR
1. FY 2025 Appropriations – Action Item
2. FY 2025 Opportunity Scholarship – Educational Costs – Action Item
3. Boise State University – Collegiate Licensing Company – Agreement Extension – Action Item
4. Boise State University – Online Undergraduate Program Fee Request– AI for All – Action Item
5. University of Idaho – Renewal of Existing Lease – CSI/UI College of Agriculture & Life Science Research & Extension Programs in Twin Falls – Action Item
8. University of Idaho - Amendment to Master Agreement between University of Idaho and Sitecore USA, Inc. – Action Item
9. Lewis-Clark State College - Foundation Operating Agreement – Action Item

IDE
10. Emergency Provisional Certificate Recommendations – Action Item
11. Request for Approval to Transport Students Less than One and One-Half Miles for SY2023-2024 - Action Item
12. Student Transportation 103% Cap Waiver – Action Item
13. Consideration of Appointments to the Professional Standards Commission – Action Item

UNIVERSITY OF IDAHO BOARD OF REGENTS
UNIVERSITY OF IDAHO COMMUNITY FORUM
1. University of Idaho - Students address the Board
2. University of Idaho - Employees address the Board

PLANNING, POLICY, AND GOVERNMENTAL AFFAIRS
1. University of Idaho Annual Report

IDAHO DEPARTMENT OF EDUCATION
1. Superintendent’s Update – Information Item
2. Board Discussion, Minimum Student Instructional Day Requirements – Information Item

BUSINESS AFFAIRS AND HUMAN RESOURCES
1. FY 2023 Financial Statement Audits – Action Item
2. University of Idaho – Utility Public/Private Partnership – Amended and Restated Concession Agreement – Action Item
3. University of Idaho – Updated 6-Year Capital Project Plan – Action Item
4. University of Idaho – Design and Construction - Addition to the Huckabay WWAMI Medical Education Building – Action Item

INSTRUCTION, RESEARCH AND STUDENT AFFAIRS
1. Board Policy III.G. Postsecondary Program Review and Approval – First Reading – Action Item
2. Board Policy III.Q. Admission Standards – First Reading – Action Item
3. Board Policy III.N. Statewide General Education – Second Reading – Action Item
4. Boise State University – Online Master of Arts in Digital Communications Management – Action Item
5. Idaho State University – Doctor of Nurse Anesthesia Practice – Action Item

PLANNING, POLICY, AND GOVERNMENTAL AFFAIRS
2. Board Policy I.M. – Annual Planning and Reporting - Proposed Revisions – First Reading - Action Item
3. Board Policy I.G. - Conflict of Interest, Proposed Repeal and Relocation to Board Bylaws; Board Policy II.Q. – Conflict of Interest and Ethical Conduct – All Employees, Proposed Revision; Board Bylaws, Proposed Revision – First Reading – Action Item
4. Board Policy V.H. – Audits, Proposed Revision – First Reading – Action Item
5. Board Policy V.W. – Litigation, Proposed Revision – First Reading – Action Item
6. Board Policy VII.A – General Policies and Definitions (IDCTE); Board Policy VII.B – Program Delivery; and IV.D – Educator Preparation and Certification, Proposed Revisions Related to Program Standards Update – First Reading – Action Item
8. Perkins V Plan Proposed Amendments – Action Item
9. Northwest Nazarene University Request for New Early Literacy Teacher
Certification Endorsement Program – Action Item
10. Legislative Session Update – Information Item

WORK SESSION
INSTRUCTION, RESEARCH AND STUDENT AFFAIRS
A. Strategic Discussion of Board Policy III.Z. Planning and Delivery of Postsecondary Programs and Courses – Information Item

Thursday, April 18, 2024 – 9:00 a.m. (Pacific Time)

Open Forum

WORK SESSION
BUSINESS AFFAIRS AND HUMAN RESOURCES
B. FY2025 Tuition and Fees – Action Item

POLICY, PLANNING AND GOVERNMENTAL AFFAIRS
C. Accountability Oversight Committee Report – Information Item

INFORMATIONAL
BAHR
1. Intercollegiate Athletics – FY 2023 Revenue and Expenses Reports – Information Item
2. Intercollegiate Athletics – FY 2023-2024 Compensation Reports – Information Item
3. Intercollegiate Athletics – FY 2024 Gender Equity Reports – Information Item
4. University of Idaho – Annual Utility P3 Update – Information Item
IRSA
5. Program Progress Reports – Information Item
PPGA
6. Idaho Digital Learning Academy Annual Report – Information Only
7. Strategic Plans – Postsecondary Institutions and Agencies under the Board’s Governance – Information Only

ELECTION OF OFFICERS - Action Item

If auxiliary aids or services are needed for individuals with disabilities, please contact the Board office at 208-332-1571. If you wish to speak at Open Forum the deadline to sign up to speak is 9:00 a.m. (PT), April 15, 2024. While the Board attempts to address items in the listed order, some items may be addressed by the Board prior to, or after the order listed.
1. Agenda Approval

Changes or additions to the agenda.

**BOARD ACTION**
I move to approve the agenda as posted.

2. Minutes Approval

**BOARD ACTION**
I move to approve the minutes for the February 27-28, 2024 Regular Board meeting.

3. Rolling Calendar

**BOARD ACTION**
I move to set April 16-17, 2025, as the date and the University of Idaho as the location for the April 2025 regularly scheduled Board Meeting.
A regular meeting of the Idaho State Board of Education was held at Boise State University February 27 – 28, 2024. Board President Dr. Linda Clark presided and called the meeting to order at 10:30 a.m. (MT).

Present
Dr. Linda Clark, President
William G. Gilbert, Jr. Vice-President
Superintendent Critchfield, Secretary
Kurt Liebich

Dr. David Hill
Cally Roach
Cindy Siddoway

Absent
Shawn Keough

Tuesday, February 27, 2024 – 10:30 a.m. (Mountain Time)

BOARDWORK

1. Agenda Review and Approval – Action Item

Mr. Gilbert asked for approval to move the agenda items for the Idaho Department of Education to the top of the agenda. The request was seconded by Dr. Hill.

BOARD ACTION

M/S (Gilbert / Hill) I move to approve the agenda as amended. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

2. Minutes Review and Approval – Action Item
M/S (Gilbert / Critchfield) I move to approve the minutes for the December 13, 2023, Regular Board meeting, the December 14, 2023, Special Board meeting, the December 21, 2023, Special Board meeting and the January 9, 2024, Special Board meeting. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

3. Rolling Calendar – Action Item

BOARD ACTION
M/S (Gilbert / Siddoway) I move to set February 19-20, 2025, as the date and Boise State University as the location for the February 2025 regularly scheduled Board meeting. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

CONSENT

BAHR
1. Boise State University – Strength of Youth Housing and Facility Contract for Summer Youth Campus 2024-2026 – Action Item

BOARD ACTION
M/S (Gilbert / Hill) I move to approve the request by Boise State University to enter into a 3-year agreement with the For the Strength of Youth program as outlined herein. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

2. Boise State University – Eight (8) Undergraduate Certificates and One (1) Graduate Certificate Online Program Fees – Action Item

BOARD ACTION
M/S (Gilbert / Hill) I move to approve the request by Boise State University to charge an online program fee of $375 per credit for eight (8) undergraduate certificates in Esports, Nonprofit Management, Health and Human Behavior, Foundations of Public Health, Evidence-Based Public Health, and Community-Driven Health Solutions, Applied Emotional Intelligence and Well-being, and Design Thinking for Professional Purpose and Personal Fulfillment, and $560 per credit for the graduate certificate in Organizational Development. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

3. Idaho State University – Ground Lease Extension with Idaho Division of Veteran’s Services – Action Item

BOARD ACTION
M/S (Gilbert / Hill) I move to approve the request by Idaho State University to execute a 25-year long term lease with the Division of Veterans Services for the
property located at 1957 Alvin Ricken Drive in Pocatello at a rate of $4,000 per month with a 5% increase at each 5-year increment of the lease period. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

4. University of Idaho – Amendments to Constitution of the University Faculty, FSH 1520 – Action Item

BOARD ACTION
M/S (Gilbert / Hill) I move to approve the request by University of Idaho to execute the revisions to Faculty Staff Handbook 1520 Constitution of the University Faculty as noted in the documents attached to this motion. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

5. University of Idaho – Amendments to University Policy - Academic Ranks and Responsibilities, FSH 1565 – Action Item

BOARD ACTION
M/S (Gilbert / Hill) I move to approve the request by the University of Idaho to execute the revisions to Faculty Staff Handbook 1565 Academic Ranks and Responsibilities as noted in the documents attached to this motion. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

6. University of Idaho - Amendment to Ground Lease between University of Idaho and Palouse Mall LLC – Action Item

BOARD ACTION
M/S (Gilbert / Hill) I move to approve the Third Amendment to the Master Ground Lease between the University of Idaho and Palouse Mall LLC in substantial conformance to the form submitted to the Board in Attachment 1 and to authorize the University’s Associate Vice President for Budget and Planning to execute the lease amendment. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

7. Lewis-Clark State College – Construction Cost Authorization – Clearwater Hall – Action Item

BOARD ACTION
M/S (Gilbert / Hill) I move to authorize the construction of the first floor of Clearwater Hall by Lewis Clark State College for a cost not to exceed $2.4M, and to further authorize the President or designee to execute such documents and agreements relating thereto. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

IDE
8. Emergency Provisional Certificates – Action Item

**BOARD ACTION**

M/S (Gilbert / Hill) I move to authorize the Idaho Department of Education to issue emergency provisional standard instructional certificates for candidates 1-26 as presented above, effective for the 2023-2024 school year only, and pending a cleared background check. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

9. Adoption of Education Testing Service Paraprofessional Assessment Qualifying Score – Action Item

**BOARD ACTION**

M/S (Gilbert / Hill) I move to approve the request by the Professional Standards Commission to reduce the qualifying score of the Educational Testing Service ParaPro Assessment from 460 to 457. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

**BOARD ACTION**

M/S (Gilbert / Hill) I move to approve the consent agenda. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

**IDAHO STATE DEPARTMENT OF EDUCATION**

1. Superintendent’s Update

Idaho Career Ready Students (ICRS) Update. The Superintendent shared the following:

- This was a request to the Legislature as a way to support the growing Career Technical Education programs in the state that were outside of federal and state revenue streams.
- There are currently 72,000 students currently enrolled in CTE programs in Idaho.
- Last year Idaho received $45 million in onetime funding via grants to school districts to support students in grades 7-12 who seek CTE programs.
- Programs funded were as diverse as a new meat packing processing class; aquaponics with fish hatcheries; forestry programs.

Board President Dr. Linda Clark said one of the motivators in this program was that a significant number of school districts could not qualify for the federal money because they didn’t have the full pathway programs. It is now anticipated that some of these programs could be incubators for those districts to expand their offerings or are they just too small. Superintendent Critchfield said it was hoped that with the help of Dr. Clay Long, Administrator, Division of Career Technical Education, and his team they would be able to tap into other federal and state dollars to grow these programs.

Mr. Liebich expressed his hope that IDE will take the success stories that will come from the students participating in these programs and use that data to inform the U.S. Department of
Graduation Requirements Update. The Superintendent shared that the working group is working to ensure that school districts have local control over what graduation requirements they will be using. This is in addition to the state’s obligation which is to provide the minimum graduation standards for all students regardless of where they live in the state. Some of the avenues being considered would be in updating the senior project requirement to adapt that into a college and career readiness project. The working group hopes to have something in place to bring before the Legislature early in the 2025 Legislative session.

Board President Dr. Clark asked if any consideration was being made as it regards the high school dropout rate which is high. Is any consideration being given to developing a non-traditional pathway towards graduation. Superintendent Critchfield said the short answer was yes.

Mrs. Roach said in the past Idaho has been forced into a box because of the US Department of Education’s requirements for graduation and wondered if getting them involved in the discussion would be worthwhile instead of doing all this work only to be told that what is proposed will not be allowed. Superintendent Critchfield said that during the recent visit by US Secretary Cardona of the US Department of Education here in Idaho she was able to sit with him for a bit and talk about various issues affecting Idaho and when she mentioned the graduation requirements working group he told her to keep doing what she was doing and he even pointed her to some waivers that are available for states to be able to make some of these changes.

Board President Clark asked if any other states had been successful in embracing a pathways approach to graduation. Superintendent Critchfield said North Dakota has used this path and the most recent state to use a pathways approach is Montana.

SDE Legislative and Budget Update. Superintendent Critchfield said SDE didn’t bring big legislative items forward this year because their focus has been on modernizing the budget in a way that aligns with the priorities as set forth by the schools in the state.

Assessment Alignment Update. Ryan Cantrell, Deputy Superintendent, Idaho Department of Education said that after discussions with Board member Kurt Liebich he created an infographic to try and outline the six significant items that IDE are currently working on.

- **Report Card RFP** – the current vendor has communicated that the current platform is no longer going to be available in the years to come so IDE is putting together an RFP to switch over the state report card.
- **IRI RFP** – IDE’s contract with iStation is up and every 5-8 years IDE is required to put out to bid for a new vendor. This allows IDE to ask the question, what do they want from the Idaho Reading Indicator Assessment. IDE received almost
2,000 responses from Idahoans who wanted to express their desires for what they wanted from the IRI, and they are using that information to develop the RFP.

- **ISAT RFP** – another significant contract renewal where the main question is what do Idahoans want from their ISAT and how do we measure student learning and student success.

- The other three items are Standards Review, Essential Standards and Graduation Requirements. All six of these work in concert with one another and more information will be forthcoming.

There were no further comments or questions from the Board.

2. **SY24-25 Amendment to the Elementary Secondary Education Act (ESEA) as amended by the Every Student Succeeds Act (ESSA) Consolidated State Plan**

Mr. Cantrell said IDE staff conducted a thorough review of the ESEA Consolidated Plan and identified edits that are necessary to ensure that the plan reflects current operational practices under Superintendent Critchfield’s administration. Board staff have confirmed that the proposed revisions are minor technical corrections that do not require public comment.

**BOARD ACTION**

M/S (Critchfield / Roach) I move to approve the 2024-2025 Amendment to the Elementary and Secondary Education Act of 1965 (ESEA) as amended by the Every Student Succeeds Act (ESSA) Consolidated State Plan as provided in Attachment 1 and authorize the State Superintendent of Public Instruction to submit the amendment request on behalf of the State Board of Education. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

There were no comments or questions from the Board.

**PLANNING, POLICY, AND GOVERNMENTAL AFFAIRS**

1. **Boise State University Annual Report**

Dr. Marlene Tromp, President, Boise State University, gave the annual report to the members of the Board. She shared the following.

- BSU serves 32,000 students each year producing graduates in fields such as cyber security, manufacturing and snow and water science.
- BSU serves students from 43 of 44 counties in Idaho.
- BSU has increased scholarships to help Idaho’s brightest students. Scholarships are awarded to Idaho students based on need and merit and is renewable for all four years of their degree.
- BSU has been doing online degree programs for 30 years and online students make up a quarter of all degrees awarded.
For Health Care Professionals who already possess an associate degree, BSU offers a BS in Advanced Medical Imaging, nursing, respiratory care, public health and public relations.

BSU offers Veterans the TAP award. This award picks up where the GI bill ends helping veterans cover the full costs of attending college.

BSU has the highest retention rate among 4-year Idaho public institutions for the last 5 years with over 41,000 students completing their degrees in the last 10 years.

In just 5 years BSU’s Esports program has earned four national championships, national player of the year, program of the year and coach of the year. This program may indirectly be critical in recruiting young males to enroll at BSU, where a 2% increase in male student enrollment just this year has been seen.

Seventy-one percent of BSU undergraduates stay and work in Idaho.

In 2023 BSU faculty set a record for bringing in research awards to the amount of $91 million dollars. This amount included a $6 million grant from the USDA to bring locally produced foods into school lunchrooms across the country. That is BSU’s largest sponsored project to date.

BSU has one of the largest faculties who specialize in ‘snow science’ of any University in the country. This is an incredibly important program since winter snowfall is responsible for 71% of Idaho’s water supply.

Mr. Gilbert asked for an update of what could be expected from BSU in the next 5-10 years as BSU focuses on instate students vs. out of state students. Dr. Tromp said several initiatives have been initiated such as program prioritization review eliminating 33 low performing programs. In addition, data shows that students from metro areas continue to enroll in greater numbers. BSU is still focused on growing the student numbers in rural areas, male students, and first-generation students. Further, BSU sees that programs have to evolve to serve professional needs in the state and a focus will be placed on in-demand careers such as STEM field careers in Health Sciences, Natural Sciences and Engineering.

President Clark asked what was the reduction in staff that was necessary to balance BSU’s budget. Alicia Estey, Chief Financial and Operating Officer, Boise State University, said it was 25-30 vacant positions they elected not to fill, and then the program eliminations.

Mr. Liebich asked for a projection of upwards of 5 years for on-time graduation rates; for every student who leaves school without their degree it is a huge lost opportunity for the student and our institutions. Dr. Tromp said many of BSU’s students are working and have families so it would be unrealistic to think that BSU can reach 91% graduation rate especially since many of these students are piecing their degree out over many years, which should still be seen as a success.
Mrs. Roach wondered how BSU differentiates themselves from the other institutions in Idaho as it relates to areas of expertise. Dr. Tromp said one way that BSU is really striking out is through semiconductor development, expanding the material science engineering program. One of BSU’s public health programs, the social work program, has been ranked one of the top in the country. Dr. Tromp offered to create for the Board members a document that would outline some of the areas that show how BSU differs from the other institutions in the state.

Mrs. Roach asked about the agenda item being brought forward today where BSU is seeking permission for a new Ph.D. program in engineering which did not go through the program prioritization process, and she wondered why that was. John Buckwalter, Provost, Boise State University, said the proposal before the Board today did not go through the program prioritization process because that is for existing programs. However, it did go through a process of evaluation both internally and with external evaluators that looked for demand and interest from workforce partners.

Mr. Gilbert asked what BSU saw as the optimal mix of instate and out of state student numbers. Dr. Tromp said that optimum mix is really more about Idaho’s workforce and what their needs are. For instance, even if every man, woman, and child in the US was trained we could still not cover the demand for cyber security jobs. It is also imperative to keep growth gradual and steady so when the plateau does come they will be fiscally responsive to that change in demand.

Dr. Hill asked if BSU had a strategy for closing the gap in graduation rates for Hispanic students and rural students. Dr. Tromp said the provost’s office, the student affairs office and the enrollment management office are all working towards finding a solution as to how to get more Hispanic and more rural students across the finish line. One of the simplest ideas has been to ask the students directly what programs or services will help them be academically successful, which in some cases has allowed the students to redesign higher education that works for them.

There were no further comments or questions from the Board.

At this time the Board took a 15-minute break returning at 12:26 p.m. (MT).

2. BSU’s Educator Preparation Program (EPP) Update

Boise State University’s Educator Preparation Program is a Board-approved educator preparation program for certification purposes. Dr. James Satterfield and Dr. Jennifer Snow, reviewed the College of Education’s EPP program with the Board. They shared the following:

- The College of Education has 5 departments; 31 Educator preparation programs; 19 clinical faculty; 59 faculty members; 214 initial program completers in 2023; 75 advanced program completers in 2023.
Program Innovation and Continuous Improvement includes Early Childhood Program Administration and Leadership courses; AI in Education and Career Technical Education (CTE) teacher preparation which is the first of its kind in Idaho offering a master’s in teaching in CTE and a Cybersecurity CTE degree-based teacher preparation program.

Founded in 2014 the College of Education just passed its accreditation visit and earned full renewal of their accreditation with no areas for improvement and no stipulations.

Board President Dr. Clark asked if the teacher preparation programs address teacher preparation in reading and math and classroom management. Dr. Satterfield said yes, the College of Education was allocating resources to helping teachers with all of these areas. Dr. Snow highlighted the Science of Reading that has been a major focus of the College of Education which has been recognized as a state-approved dyslexia professional development provider. They are actively developing a three-credit series on identification, instructional strategies, and assessment in service.

Mr. Liebich made a comment wondering if the Board was striving enough to generate enough teachers that are actually going to meet the educational needs in Idaho, and he wondered how big the gap was between the need and the number of students training to become teachers. His second comment was to discuss the disconnect in terms of the population of Latino teachers that are out there since 13 to 15 percent of our student population identify as Latino and wondered what is being done to train more teachers from the Latino community. Superintendent Critchfield said it’s time to look beyond the Treasure Valley and into our rural areas for teachers. If we look at the districts who sought emergency certifications we find it everywhere even in the largest school districts, so the need for teachers is great. We are still seeing the fallout from the vast number of teachers who retired after covid, or teachers who entered the profession only to leave after three or four years to pursue jobs with higher pay.

Dr. Satterfield added to the discussion by saying that an avenue that BSU is using to recruit teachers through the TRIO program which allow them to encourage and recruit young teachers into the profession. One of the ways they are doing this is in trying to change the narrative around becoming a teacher and showing young people what a difference they can make in a student’s life. TRIO Teacher Prep is a high impact academic support unit designed to enroll, serve, and graduate 125 first-generation students, limited income students, and/or students with a documented disability into the teaching profession.

There were no further comments or questions from the Board.

WORK SESSION
INSTRUCTION, RESEARCH AND STUDENT AFFAIRS
A. Strategic Discussion of Board Policy III.Z. Planning and Delivery of Postsecondary Programs and Courses

Mrs. Roach shared that Board Policy III.Z Planning and Delivery of Postsecondary Programs and Courses was originally adopted by the Board in August 2003, to “ensure Idaho’s public postsecondary institutions meet the educational and workforce needs of the state through academic planning, alignment, collaboration and coordination of programs.” The policy aimed to “optimize the delivery of academic programs while allowing the institutions to grow and develop consistent with an appropriate alignment of strengths and sharing of resources.” The policy provided a critical framework to support the Board in meeting its constitutional and statutory oversight responsibilities by requiring appropriate levels of planning and accountability of postsecondary educational programming.

In Fall 2023, the Board President established a Working Group comprised of four Board members to closely examine Board Policy III.Z. and determine if further amendments should be made to the policy, particularly related to Designated Service Regions and Statewide Program Responsibilities.

Five institutions proposed maintaining statewide responsibilities as currently established in Board Policy III.Z. and recommended the Board do more to ensure institutions are actively meeting their statewide responsibilities, including conducting the bi-annual review as required by the policy. Six institutions recommended maintaining designated service regions as they currently exist or with some minor modifications to account for population growth. Two institutions proposed the Board establish a time-limited, first right of refusal process for program proposals outside an institution’s designated service region to allow for a speedy response to workforce demand without creating high-cost inefficiencies and undermining systemness. Seven institutions expressed opposition to the idea that institutions be given the ability to offer General Education courses anywhere in the state.

Based on feedback from the institutions and input from Board staff, the Working Group drafted a set of potential recommendations related to Board Policy III.Z. and determined to bring these draft recommendations to the full Board for a Work Session discussion at the February 2024 Board meeting.

Dr. Hill added that in front of the Board members was a paper, which he emphasized was meant to provoke discussion. As the Board’s responsibility is to the people of Idaho via oversight over the four-year college and four junior colleges and also K-12 this review needs to be seen as a system level discussion, not an individual institution discussion.

Dr. Hill said, “the Board has the oft-stated goal of access and affordability for all Idahoans irrespective of where in the state they might choose to live.” So based on the discussions held with the various institutions Dr. Hill said Policy III.Z. should be a
mechanism for managed competition that steers the course between two extremes, the extreme of open competition and the extreme of over managed. The Board’s fundamental functional problem is to build a system with enough rules that people know how to behave broadly but has enough flexibility that the Board and the institutions can use judgement to make sure we don’t collapse innovation.

Further, the role of community colleges needs to be considered in this context. Community Colleges are inherently local institutions, supported by local taxation and overseen by locally elected Boards. In that sense their service region should be identical to their taxing district. They should not encroach on the service areas of other Community Colleges, even with online delivery. Community Colleges are occasionally asked or desire to deliver applied baccalaureate degrees in their region, as allowed by state law. The justification for these degrees is most often expressed in terms of high demand or high need (workforce need) and thus should be specifically addressed in this policy.

Mr. Gilbert said Policy III.Z. states that specific degrees are to be reviewed every two years but that has not been done consistently. When an institution brings forward a program that is similar to another institution’s program these programs need to be reviewed every two years.

Mr. Liebich said he did not feel Idaho was a big enough state to have redundancy across the system in certain areas. Far better to be mission focused as it relates to degree programs. However, if a local business wants to partner with a local institution they should be able to do that, and we shouldn’t be creating natural barriers to that.

Dr. TJ Bliss, Chief Academic Affairs Officer, Idaho State Board of Education, made a couple of clarifying comments. Via Board Policy III.I. the Board approves the missions of the institutions, and those missions are in the Board’s strategic plan which is reviewed every year.

Dr. Bliss said the final paragraph of Board Policy III.Z. says if an institution is approached by a company and wants to enter a contract with them to offer professional development particularly in someone else’s region they just have to notify that institution. The policy encourages them to cooperate, but it does not require them to.

Superintendent Critchfield expressed a concern that perhaps the policy as written years ago is no longer a good fit. She expressed support for the notion that whichever institution is approached by a community business partner to develop particular training courses they will work together to do what is best for the community and the students of Idaho. This collaboration should go a long way in meeting the workforce needs of our state.
Mr. Liebich echoed his agreement with a managed coordinated competition approach especially in areas where we need more students obtaining degrees such as in nursing, and teacher preparation.

Dr. Hill then proposed that the Board members review the tentative proposal as recommended by the working group and bring back any questions they might have tomorrow when the Board meeting continues. They were:

- In each case, designate one institution as the coordinator for statewide programs. (Note: not leader, controller or other supervisory description).
- Create a coordinating committee with co-chairs, Board Member, and the appropriate Dean from the coordinating institution.
- The committee would be charged with developing a statewide multiyear plan for adoption by the Board.
- The Board would then seek legislative approval and attempt to fund the plan.
- The committee would be staffed (minutes, organizational meetings etc.) by the coordinating institution.

The Board recessed for the day at 2:00 p.m. (MT).

Wednesday, February 28, 2024 - 10:25 a.m. (Mountain Time)

Board President Dr. Linda Clark reconvened the meeting at 10:25 a.m. (MT).

EXECUTIVE SESSION – (Closed to the Public) - Action Item to go into Executive Session - No action taken in Executive Session.

M/S (Gilbert / Hill) I move the Board

1. Go into Executive Session pursuant to Idaho Code § 74-206(1)(f) To communicate with legal counsel for the public agency to discuss the legal ramifications of and legal options for pending litigation, or controversies not yet being litigated but imminently likely to be litigated. The mere presence of legal counsel at an executive session does not satisfy this requirement. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

The Board moved to Executive Session at 10:26 a.m. (MT).

BOARD ACTION

M/S (Gilbert / Roach) I move to go out of Executive Session. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

The Board returned from Executive Session at 10:44 a.m. (MT).
Board President Dr. Linda Clark stated that the Board concluded its discussion and took no action on the matter discussed.

Wednesday, February 28, 2024 – 10:44 a.m. (Mountain Time)

PLANNING, POLICY, AND GOVERNMENTAL AFFAIRS

3. Association of Public and Land-Grant Universities (APLU) greeting

Dr. Mark Becker, President, Association of Public and Land-Grant Universities (APLU) addressed the Board. He shared the following:

- The APLU traces its roots in higher education back 1862 with the Morrill land grant act.
- While the nation was at Civil War President Lincoln signed into law a bill which ceded Federal lands to the states and territories, for the purposes of public higher education and particularly public higher education for the education of the common man in Agricultural and Mechanical Arts.
- In 1862 Senator Justin Morrill proposed to the United States Congress that the President create Universities across the country for the purpose of supporting the economies and well fare of our national wellbeing.
- In 1871 twenty-nine of the land grant universities met for the first time in Chicago and started to work together for the common good.
- In 1889 the University of Idaho became Idaho’s land grant institution through the Morrill act. Idaho became a state in 1890.
- The APLU was created in 1896 and was known then as the National Association of State Universities.
- There are now 250 member Universities in the system.
- While BSU is not a land-grant university it does have designation as a research university carrying the Carnegie classification which identifies those institutions that are either research one or two schools. To be eligible for membership into the APLU you must be a research one or two school.
- The APLU governs schools in the United States, Canada and Mexico and represents 5.3 million undergraduate students, 1.4 million graduate students, 1.3 million faculty and staff and members award over 1.4 million degrees per year.
- As a collective members conduct 61 billion in externally sponsored research in a year.
- The APLU is an advocacy organization representing the interest of members in Washington, DC working with the US Congress, US Department of Education, the Department of Agriculture, National Science Foundation, National Institutes of Health, and many others.
- At its national meeting, held this past November, the APLU recognized Boise State with their degree completion award. In 2013 the APLU created this award for those universities who made tangible real progress towards increasing graduation rates and reducing the number of students who are unnecessarily leaving college without their degree.
Mr. Liebich said it seemed that across the country higher education’s reputation has been damaged and what was the APLU doing to address this narrative. Dr. Becker said he is aware of the mainstream media’s spin on this topic, unfortunately their reporting is not based on facts. In the recent edition of the Chronicle of Higher Education, results of fieldwork and surveys show that the vast majority of Americans actually believe there are some things our universities do quite well such as research. Recently, in Utah, the public higher education institutions came together and presented their case to the citizens of Utah about the value they bring to the state both in terms of economic benefits as well as to the graduates.

There were no further comments or questions from the Board.

OPEN FORUM

Mr. Dunkley, of Dunkley Music addressed the Board. “I am Mark Dunkley of Dunkley music here in Meridian and all of Southern Idaho. Thank you board for letting me speak to you today. We have served the community for 74 years. My concern is not just my concern but the concern of other companies in Idaho that have contacted me.

My concern is about the Odyssey program. The old Odyssey program was working well for us and for our students and parents that we have helped with musical education. When they switched, just at the beginning of this year, to a new platform no advanced notice was given to us and chaos and hardship for both vendors and consumers occurred and let me explain. The new platform requires every item to be shipped. This causes additional cost. We want to see the customers in our store so we can help them, train them, give them the education on the product and create the correct product for them to use. This also causes the product to be inflated in price that gives the parents the idea that we are inflating our prices and are not competitive because we have to add on freight to somebody that lives a mile away that could come in our store they could pick it up and sometimes that freight charge can be $100. That is our tax money that is being wasted. It discriminates against the local dealers who can perform personal service and personal education instruction to the customers.

Odyssey should consider allowing well established vendors with approved items to offer a will call or pickup option. The new program has also made it very difficult to add products onto the website and made it very difficult for parents to navigate. Dunkley music also has not received payment for things that have been approved by Odyssey that were billed in 2024. One thing that could help out the vendor, the dashboard could have a help option, there could be a chat function and an FAQ section as well. We have not signed up for the current platform because it has caused our reputation with our customers to be tarnished and that’s just not worth it to me. We have customers and vendors frustrated. The program we would like to be a willing participant in helping to
solve the problem we would love to be a vendor representative to help whoever we need to.

We’re here to help with the musical education of the of the people in Idaho and we’ve done that for 74 years and we want to continue. We want local people to be able to help local people and not have to have outside vendors coming in and shipping things to people that they’re not aware of for instance if a person wanted a violin what size of violin do they need. They need to be fitted personally and if an outside vendor if they require a four violin or full-size violin that might be the wrong size so there are many things that can happen with an individual music store or with local vendors helping out to the musical department. Thank you.”

BOARD OF TRUSTEES – BOISE STATE UNIVERSITY

1. Boise State University Students address the Board

The following students addressed the Board. They were Cheyon Sheen, ASBSU President, Jason Holman, ASBSU Vice President, Calvin Doerr, Alejandra (Ally) Almaraz, Nicolette Missbrenner, and Zackery Tallman.

Dr. Hill asked if any of the students had used the math learning center here that just received an award from the APLU, and if so how did it help them. One student said he has used the math learning centers and tutoring services since he transferred into BSU and he felt they were extremely helpful in getting him to develop the basic foundational understanding of math that he needed for his engineering degree. Jason Holman said he always struggled with math, but the math center helped him go from barely passing pre-algebra to passing calculus this past semester.

Mr. Liebich said one of the things the Board was concerned about is the mental health of the student population as we are still coming out of the covid pandemic. He asked if the students felt they had the support they needed to deal with any mental health issues. The students felt that BSU does a great job of informing students of the programs in place to help them if they need services. There are posters scattered across campus, regular emails sent to students telling them about the services available. In addition, there are mental health rooms available for students to practice yoga and deep breathing. It was shared that it can take upwards of 4 weeks or more to get an appointment with a counselor so providing more counselors would be helpful.

Superintendent Critchfield asked what kind of advice would they give to incoming freshman. The students said to get more involved in the things that interest you immediately. They agreed that getting involved and being willing to try new opportunities opened avenues for their futures they did not think possible. Joining in is also a great way to meet new people and make new friends. And above all else enjoy your college experience; get more involved in campus activities and clubs.
Board President Dr. Clark asked if any of the students had taken advantage of dual credit courses while in high school and if so how many units did they begin college with. The answers ranged from one credit to 20 credits. Some of the students said that in some of their schools they did not get much information on higher education and what dual credit courses could do for them.

Mrs. Roach asked the students why they chose Boise State, and she asked if any of them received scholarships or financial aid. One student mentioned that they received the Presidential Scholarship which covered most of their tuition, other scholarships happened along the way and they also had financial aid which allowed them to go to BSU for free and they will graduate with no student debt. Another mentioned it was the connections between the faculty members and members of the business community that helped them make the decision to attend BSU. One student shared that they have now had two NASA ISGC internships, higher education research fellowships and been involved in research on the campus for the past two and a half years. Another shared that being a Boise native they were well aware of how much BSU does for the local community and state.

Dr. Hill asked the students about the financial burden they will be graduating with and how do they reconcile that burden with their career path. A nursing student said she felt that her education would eventually pay for itself, and she intended to stay in Idaho after graduation. Jason said the connections he’s been able to make through the College of Business will absolutely make his college debt worth it. He felt privileged to receive two internships just because of those connections and he has a third internship coming soon all because of his professors.

There were no further comments or questions from the Board.

2. Boise State University Employees address the Board

The following BSU employees address the Board. They were:

- Dr. Lindsey Turner, Director, Center for School and Community Partnerships,
- Research Professor, College of Education
- Dr. Susan Shadle, Vice Provost for Undergraduate Studies, Distinguished Professor of Chemistry and Biochemistry
- Dr. Anthony Perrenoud, Chair & Associate Professor, Department of Construction Management, College of Engineering
- Dr. Dan Lamborn, Executive Director, Institute of Microelectronics Education and Research
- Mark Wheeler, Dean Extended Studies
- Kelly Myers, Associate Dean for Undergraduate Education and Student Success in the College of Arts and Sciences
Mrs. Roach asked for some data concerning the online students who attend BSU. Are they local students or does BSU serve students from across the country. Mr. Wheeler said a little over 40 percent of the students are from Idaho and the rest come from all over the country including some students who are active military and stationed all over the world. Mrs. Roach asked if the 40 percent of Idaho students were in more remote locations where they didn't have easy access to the campus. Mr. Wheeler said for the most part the students are spread evenly through the state. There are many students who are local who need the flexibility that online courses give them since they work full time and do not have the time to come to the campus.

Mrs. Roach asked for a glimpse of how many dual credit students there might be. Mr. Wheeler said there are currently 7,000 dual credit students enrolled each year most of whom are remote learning. Data does show that those high school students who take dual credit courses through BSU tend to succeed at BSU and graduate on time.

Mr. Gilbert asked Dr. Perrenoud if there was a particular pathway that’s been created across the state between the 2- and 4-year institutions where they work together to help the students transition from school to school especially as it relates to the trades. Mr. Perrenoud said he has been working with North Idaho College and College of Southern Idaho who have recently had an associate degree in construction management be approved which will give more students the opportunity to get construction education in their regions that will then funnel into BSU. Dr. Perrenoud is currently working with the national electrical contractor’s association on a research project on how mega projects impact labor markets. There is a large mega project going on here in the valley and labor is going to attract electricians within the industry which is a huge part of the construction management program. BSU is not a trade school but many people in the trades come to BSU to gain the project management skills necessary to be leaders within their industries.

Dr. Lamborn said the field of semiconductor manufacturing is really complex. There are layers were expertise needs to be utilized in the manufacturing process that includes people who had their Ph.D.’s, their master’s and their bachelor’s in science and engineering or even in finance business management, supply chain management, factory technicians, etc. It is interesting to note that looking at graduate data over half of the graduates each year started as a transfer student.

There were no further comments or questions from the Board.

BUSINESS AFFAIRS AND HUMAN RESOURCES

1. Amendment to Board Policy – Section V.T. Fee Waivers – 2nd Reading

Mr. Gilbert said this was a second reading of Board Policy V.T. After the December 2023 Board meeting and after close consultation with veteran coordinators from
covered institutions, staff confirmed this policy modification would assist the veteran coordinators in working with veterans and their dependent students to continue their education through degree completion. There were no changes between the first and second readings of this policy.

BOARD ACTION
M/S (Gilbert / Roach) I move to approve the second reading of proposed amendments to Board Policy V.T. Fee Waivers, as presented. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

There were no comments or questions from the Board.

2. University of Idaho – IPv4 Litigation

The Board met in executive session to discuss resolution of litigation between University of Idaho and a private entity. State Board policy V.W.2. requires prior approval and authorization of the Board for an institution to initiate legal action with respect to any matter in which the amount in controversy exceeds $200,000.00.

BOARD ACTION
M/S (Liebich / Siddoway) I move to approve the initiation of legal action and to authorize the President of the University of Idaho, or the President’s designee, to initiate the legal action under the advice and guidance of the University’s legal counsel and in substantial conformance with the terms presented to the Board, along with such other documents necessary to carry out the terms of the legal action. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

PLANNING, POLICY, AND GOVERNMENTAL AFFAIRS

4. Consideration of BYU-I - New EPP Literacy Endorsement Program

Kathleen Shoup, Teacher Education Preparation Coordinator, Idaho State Board of Education, shared that in academic year 2022-23, a work group was formed to create the Idaho Standards for Educator Preparation Providers and the Educator Preparation Program Approval Guide. These two documents were approved by the State Board in 2023. Brigham Young University – Idaho (BYU-I) is the first Educator Preparation Provider to submit a new program application for review and consideration by the State Board. A review team was assembled and reviewed BYU-I’s K-12 literacy program application on January 11, 2024. Board staff facilitated the review. The review team concluded the review on January 11, 2024, and recommended BYU-I’s K-12 literacy program application be approved.

The approval of the new program application would allow BYU-I to offer a K-12 literacy endorsement as a 20-credit endorsement option. The disapproval of the new program
application would not allow BYU-I to offer a K-12 literacy endorsement as a 20-credit endorsement option.

BOARD ACTION
M/S (Liebich / Siddoway) I move to approve the request by the Office of the State Board of Education’s review team to approve Brigham Young University - Idaho’s twenty (20) credit K-12 Literacy Program. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

There were no comments or questions from the Board.

6. Division of Career Technical Education Annual Report

Dr. Clay Long, Administrator, Career Technical Education, reviewed the annual report for the Board and said his presentation today was intended to drive conversation and discussion as he goes through some of the data elements. He shared the following:

- There has been a 35% increase in total programs offered over the last five years.
- There are 145 local education agencies participating, 72% of those in rural areas.
- There are 15 career technical centers with 20,631 student enrolled.
- 71% of all high school students take CTE courses.
- 2,394 CTE diplomas were awarded between 2022 – 2023.
- 94% of CTE concentrators graduated from high school compared to only 80% who did not take any CTE courses.
- 48% of high school CTE concentrators went on to college compared to only 42% of all Idaho high school graduates.
- 1,708 students have been awarded certificates and degrees, a 2% increase in five years.
- 93% of technical college completers found jobs, continued their education, or went into the military.
- 71% obtained employment related to their CTE training.
- 5,100 student enrolled and nearly 3,200 FTE in certificate / degree programs.
- There are 215 active programs in the state.
- 95,675-year end credits have been awarded.
- There was an 11% increase in one year for the number of students going to workforce training centers (WTC).
- That is a five-year average of over 47,000 WTC enrollments.
- For Adult Education 44% of students are ages 25-44
- 85% of GED test takers did not finish high school due to personal or academic reasons.
- Idaho’s GED pass rate is 80% - the national rate is only 69%.
- For many students the highest grade completed is the 10th grade.
- 32,000 unique students earning 115,000 microcredentials.
Dr. Long shared that in April he will be back with a first look at IDCTE’s Strategic Plan. He will also have a revised 4-year plan where CTE will be reviewing all 56 of their programs.

Board President Dr. Clark asked if there was a breakdown for the number of males enrolled versus the number of females enrolled in CTE courses. Dr. Long said he would get that data to the Board.

Mr. Liebich asked if there was something in Board policy or statute that prevents a student from continuing on without having their GED. Dr. Long said Idaho currently uses the GED test but other tests can be utilized. Mr. Liebich said if the state wanted to allow adults to earn a high school diploma by taking CTE courses that would be a totally different approach and pathway. Dr. Long said he would do some more research and find out what the number of students might be and see if the new legislation that came forward this legislative session was for those students who have aged out of the system.

Dr. Hill said he totally sees the vision as Clay outlined it here today, but he wondered who owns the vision and who will drive us to the end game. Mr. Freeman said he has been in discussions with Dr. Long, Dr. Clark and Superintendent Critchfield and they feel that they can be an informal data governance council that would make those decisions around capacity, both human capital capacity and financial capacity, and the needs associated with that, to help frame that vision.

Dr. Long said after his Inspire Ready presentation last October he received questions regarding CTE’s teacher certification program and the trend of those pieces. In fact, he made a presentation to JFAC (Joint Finance Appropriations Committee) and they are recommending the positions that CTE requested, three of those being regional teacher educators, that will help deliver course work but also the mentoring piece that is important to the success of new teachers.

Board President Dr. Clark asked for a sense of the struggles in finding CTE teachers or people willing to move into CTE teaching and what will it take to increase those numbers. Dr. Long said they don’t track positions at the district level to see if the jobs are being filled, they look at if a program isn’t able to operate.

There were no further comments or questions from the Board.

At this time the Board took a 30-minute break returning at 12:50 p.m. (MT).

5. Workforce Development Council LAUNCH Report

Wendi Secrist, Executive Director of the Workforce Development Council, gave an update on the LAUNCH program to the Board. She shared the following:
The legislation to create the Idaho Launch Grant Program went into effect on July 1, 2023.
Launch's application program was ready by October 2023.
By November 30th they had received over 11,500 applications from students across Idaho.
Initial grant awards were made in December of 2023.
As of February 26, 2024, they have received a little more than 13,000 applications.
Females applied at a higher rate than male students by 5%. However, this was a smaller gap than is seen in those applying for other scholarships, which suggests that more males have actually applied to this grant award than for other award programs.
About a thousand students have not completed their application. Work is ongoing to have college and career advisors in local school districts work with these students and to encourage them to finish their application.
The application deadline is April 15th, 2024.
Launch is available to public, private, and homeschool students, students in tribal schools, and those getting their GED.
Of students applying to credit granting institutions: 1,160 or 10% are applying for certificates rather than the traditional degree.
The largest number of applications received are from students interested in fields such as Health Care Technicians, Nursing, Business Administration, Engineering, Biological Sciences and Teaching.

Board President Dr. Clark expressed surprise that the number of students applying from tribal schools was so low (7 applications). Ms. Secrist said data analysis is ongoing to determine what the factors are for such a low number. For instance, if a student marks Hispanic but they are also a tribal member Hispanic takes precedence over everything, so more analysis is necessary to look at these numbers.

Mr. Gilbert said it was very likely that funding for this program will be oversubscribed and wanted to know what the mechanism is to prioritize who is awarded a grant, knowing that the priority is in demand careers first. Ms. Secrist said statute required Workforce Development to use either job openings or growth rate to determine in demand careers. This equates to careers with 50 or more job openings. This data is coming from the Idaho Department of Labor statistics.

There were no further comments or questions from the Board.

7. Middle Grade Math Work Group Recommendations

Alison Henken, K-12 Accountability and Projects Program Manager, Idaho State Board of Education, led the Board through the recommendations.
The Math Work Group was chaired by Board President Dr. Linda Clark and included twenty (20) other individuals from across Idaho, including representatives from the State Board of Education (Board), State Department of Education (Department), Division of Career Technical Education, STEM Action Center, higher education math experts, and K-12 educators from district and school administrators to math teachers. The work group met six (6) times as a full group and subgroups met three (3) to five (5) additional times to delve more deeply into their specific areas of focus. The subgroups included: Educator Effectiveness, Special Initiatives, What’s Not Working, What’s Working, and Statute. During full group meetings, the Math Work Group reviewed math achievement data and specific data pulled based at their request, discussed success and challenges, and developed actionable recommendations to present to the Board.

The following are highlighted recommendations from the Math Work Group’s Report.

**Educator Effectiveness**

**Priority Recommendation**
- The Board, Department, and Regional Math Centers should work together to develop professional learning pathways for educators to increase their mathematical knowledge for teaching. Consider use of micro-credentialing within the pathways and adjust renewal requirements and/or processes to support implementation and incentive educator preparation.

**Other Highlighted Recommendation**
- Create a Math Educator Preparation Work Group to 1) identify changes needed to ensure educators develop sufficient mathematical knowledge for teaching during preparation, and 2) review the approach currently used to fund the Idaho State Department of Education, and, if applicable, make recommendations for improvement.

**Standards, Curriculum, Instruction, and Assessment**

**Priority Recommendation**
- Engage a work group to develop a K-12 Comprehensive Math Plan and set a five-year update cycle.

**Other Highlighted Recommendations**
- Department should adjust the process for review of math curricular materials to provide more specific guidance regarding which materials are most aligned to the Idaho Math Instructional Framework and which should be avoided.

**STEM and CTE Integration**

**Priority Recommendation**
- Build a cross-agency collaboration between the Board, Department, CTE, STEM Action Center, Workforce Development Council, and the Regional Math Centers to create and implement a campaign to address math culture in the state.
Other Highlighted Recommendations

- Department should capitalize on existing, successful professional development structures within the STEM Action Center and CTE to provide expanded, integrated math training content.

Idaho Statute

Priority Recommendation

- Update Idaho statute to align to key recommendations in this report. Promote the development of budgets that will support state and LEA efforts to improve math achievement.

Board President Dr. Clark asked if the recommendations brought forward were where the group wanted to be when they began meeting. Ms. Henken said yes, and the group realized they have systemic issues that need to be dealt with and included the establishment of a math educator preparation work group as well as the continued work of this math workgroup in their recommendations.

Mr. Liebich wondered how much of this problem is a curriculum problem on top of an educator confidence problem where teachers just are not comfortable teaching math. Board President Dr. Clark said its true we haven’t identified a strong math curriculum as we did in reading. Superintendent Critchfield said along with a curriculum review there needs to be better teacher preparation in how to teach math, and in being comfortable doing so. A lot of work needs to go into reframing the narrative that, “I’m not a math person”, into “I am a math person.”

There were no further comments or questions from the Board.

For a comprehensive review of the Math Work Group findings please go to //efaidnbnmnnibpcaqpcgclefindmkajhttps://boardofed.idaho.gov/meetings/board/archive/2024/022724/03%20PPGA.pdf

BOARD ACTION

M/S (Liebich / Siddoway)) I move to adopt the Math Work Group recommendations outlined in Attachment 2. A roll call vote was taken, and the motion carried 7-0. Shawn Keough was absent from voting.

IDAHO DEPARTMENT OF EDUCATION

3. Idaho Teacher of the Year

Superintendent Critchfield then introduced Idaho’s Teacher of the Year, Trent Van Leuven. Mr. Van Leuven was selected from over 300 nominations and 70 applicants. He started his teaching career as an agriscience instructor at the West Ada School District in 2009 before moving on to teach career technical education subjects at
Mackay Jr./Sr. High School in 2014. He is the President of the Mackay Education Association and Chairman of the State and Federal Lands Committee of the Idaho Farm Bureau. He was the 2014 recipient of the National NAAE Ideas Unlimited Winner award and the 2008 recipient of the Platinum Award for Regional Dairy Challenge Event in California. He was also named National Agriscience Teacher of the Year from Region 1 in 2017. Van Leuven will serve as Idaho’s 2024 Teacher of the Year and will be Idaho’s nominee for National Teacher of the Year.

Mr. Van Leuven then addressed the Board sharing that he felt we are in the golden age of CTE in the state of Idaho which was propelled by initiatives like the Advanced Opportunities, the emphasis placed on comprehensive local needs assessments by Idaho, the Idaho career ready schools’ program, Idaho Launch, the teacher apprenticeship program, career ladder investments and so many other initiatives. This proactive planning sets Idaho apart.

Mr. Van Leuven spent a minute expressing his concern over the challenges of teacher recruitment and retention which he sees especially in small schools. He shared that at his school, Mackay High in the last 10 years they have had, on average, a new science teacher every other year. Some of the factors that contribute to such high turnover is housing, teacher salary, retirements, benefits, additional duties, and conflicts.

Further, the other critical issue facing schools today is administrator retention and recruitment which plays a critical role in teacher recruitment and retention. A stable administrator is essential for strategic planning and enacting significant change. In addition, the number of Superintendent’s was greatly diminished by covid. A potential solution would be for a superintendent apprenticeship program similar to the teacher apprenticeship programs already in place which would foster homegrown leadership.

Mr. Gilbert said he liked the administrator apprenticeship program idea but worried that taking great teachers, such as Mr. Van Leuven, out of the classroom to make them administrators was doing a disservice to the students. Mr. Van Leuven said in many of the small school districts the superintendent is only a part-time job so they could still be in the classroom. The impediment to getting good teachers who want to become administrators is the financial cost of taking courses to become an administrator.

Mr. Liebich asked for his understanding of why teacher retention is so low, and what is the root cause of this turnover. Mr. Van Leuven answered with the high cost of housing in some of the rural areas was a deterrent to teachers staying for the long term. In Mackay houses are in the million-dollar range and many teachers commute long distances to teach there. So, when a job opens closer to where they live they move on. The other component is that the spouse of the teacher sometimes cannot find a job in the local area. So, the two problems in teacher retention are high cost of housing and lack of employment for the spouse.

Board President Dr. Clark issued a challenge to the institutions to take some of Mr. Van Leuven’s recommendations in how to combat high turnover in both teacher and
superintendent turnover and to see what pathways they could come up with to improve things in our school districts.

There were no further comments or questions from the Board.

PLANNING, POLICY, AND GOVERNMENTAL AFFAIRS

8. Accountability Oversight Committee Recommendations re. Long Term Goals

In April 2023, the Board approved amendments to the Consolidated State Plan that included an extension of the state’s long-term goals and measurements of interim progress for one additional year, with the acknowledgement that the state would need to set new long-term goals and interim progress targets for the 2024-2025 school year and forward.

In May 2023, the AOC began the work to develop a new approach to creating the state’s long-term goals and measurements of interim progress. The AOC has involved Department staff throughout the process, particularly as draft goals have been developed.

Based on substantial discussions in recent years, the AOC recommends that the state establish goals that will push the state to improve performance while also ensuring that the interim targets are meaningful and achievable for all groups. However, the state’s long-term goals must also be developed in alignment with federal law, which requires them to be ambitious and include a component that will aid in reducing performance gaps between subgroups. Goals are required for all students and for subgroups, and the calculation used to create the goals must be the same for all groups.

The proposed approach for setting the long-term goals for ISAT proficiency in English Language Arts and Math and for graduation rates sets the expectation that all groups will improve their performance by seven (7) percentage points over seven (7) years and will close the gap between their group and the all-students’ group by ten (10) percent over the same period. If a gap does not exist between the group and the all-students’ group, only the seven (7) percentage point increase is expected. After the long-term goals are calculated, the measurements of interim progress are identified by dividing the long-term goal by seven (7) to create annual targets.

On January 12, 2024, the AOC voted to submit the proposed approach for creating new long-term goals to the Board for feedback. The AOC also suggested that the proposal be shared with Idaho’s assessment technical advisory board (TAC), to ensure that the formula behind it is sound. Idaho’s TAC includes experts in psychometrics and standardized assessments, including a nationally recognized growth model expert. On January 22, the AOC Chair, Board staff, and Department staff met with the TAC and provided detailed information regarding the proposed approach. The TAC confirmed that the formula is mathematically and theoretically sound. They also suggested pulling
additional data on schools who are demonstrating success with specific subgroups to ensure that the proposed subgroup goals are appropriate.

Ms. Henken said federal law requires that this update to the strategic plan be put out to the public for comment for 30 days. Therefore, any public comments received will be brought back to the Board’s attention at a future Board meeting.

Mr. Gilbert said it seemed to him that as a Board they could do little to drive the outcomes to these goals. If the Board’s intent is to say that regardless of how it comes about the Board expects continuous improvement every year. That would be the goal. Ms. Henken said AOC struggled with how to find the right balance because of the way federal law is written and the requirements around how we navigate the parameters which we need to work in, in terms of calculation is very challenging.

Superintendent Critchfield said the past strategic plan, as Alison mentioned, did not have achievable goals, such as the 95% graduation rate. This new plan has goals that can be aimed for that we believe can be achieved and is something that we can turn into the federal government and say we believe in this plan.

There were no further comments or questions from the Board.

To review the complete report head to; //efaidnbmnnibpcgplcfeimkajhttps://boardofed.idaho.gov/meetings/board/archive/2024/022724/03%20PPGA.pdf

At this time the Board took a 20-minute break returning at 2:44 p.m. (MT).

Superintendent Critchfield left the meeting at 2:25 p.m.

9. Accountability Oversight Committee Recommendation re. Trajectory Growth Model

Ms. Henken led the discussion. The trajectory growth model is used as a part of Idaho’s K-12 school accountability system. Once students’ individual growth targets are identified, the percentage of students who met their targets is calculated for each school. This is used as the growth indicator in the state’s formula to identify schools for comprehensive support and improvement. However, because so many students have not had meaningful targets under the current model, these growth targets are not often used at the school or individual student level. The AOC is hoping to change this by first updating the way that growth targets are identified and then providing support and feedback to Department staff as they revise the ISAT individual student reports.

Over the past ten months, the AOC has reviewed and discussed many potential methods to improve the state’s trajectory growth model by:

- Creating more achievable targets for non-proficient students; and
• Creating more meaningful targets for students who are proficient or advanced.

The proposed model breaks the ISAT performance categories into sub-categories and sets each student’s trajectory growth target based on the expectation that the student will move up one sub-category until they reach the advanced level.

Board President Dr. Clark said this model is really a commitment to growth for all students.

There were no further comments or questions from the Board.

To review the complete report head to; //efaidnbmnnibpcajgclefndmkaj/https://boardofed.idaho.gov/meetings/board/archive/2024/022724/03%20PPGA.pdf

10. State Board of Education Strategic Plan Final Approval

Ms. Thompson led the discussion. Idaho Code § 67-2903 sets out minimum planning elements that are required to be in every agency and institution strategic plan as well as the annual review and updating requirement that is the basis for the Board’s strategic planning cycle.

In October the Board reviews performance measure outcomes from the K-20 Education Strategic Plan as well as the performance of the agencies and institutions under its governance. The data review and work session discussion help to guide revision efforts on the strategic plan for the next cycle. Board staff then work with stakeholders and the PPGA committee to refine proposed revisions. In December, the Board reviews any proposed revisions to the K-20 strategic plan and provides feedback on the proposal. In February the board finalizes any revisions to the K-20 strategic plan going forward.

Board feedback at that time was incorporated into proposed revisions. Proposed revisions were first considered by the PPGA Committee in November of 2023. After revisions based on Committee feedback, the proposed revisions were brought to the full Board for a work session in December of 2023. During the work session the Board members provided feedback and generally expressed support for finalizing the revision ideas for adoption consideration in February.

Since then, Board staff has worked with representatives from the Idaho Department of Education, the Accountability Oversight Committee, and institutional researchers from the colleges and universities to gather feedback for finalizing the proposed revisions. Board staff has also worked with the OSBE research, college and career, academic affairs, and IT teams to discuss the viability and efficacy of the proposed measures.

The result is a proposal for the Board to adopt 3 goals with 9 objectives and 17 performance measures. As the highest-level strategic plan, these measures aim to
serve as a spotlight on key areas of the Board’s work and the efficacy of Board initiatives.

There are three main goals: Educational Readiness, Education Access, and Educational Attainment.

**BOARD ACTION**

M/S (Liebich / Siddoway) I move to approve the FY 2025-2029 K-20 Education Strategic plan as provided in Attachment 2 with an exception to remove measure two under objective C and goal one. A roll call vote was taken, and the motion carried 6-0. Superintendent Critchfield and Shawn Keough were absent from voting.

Discussion ensued concerning the motion as written. It was recommended that a substitute motion be made to remove measure two under objective C and goal one.

There were no further comments or questions from the Board.

For a complete review of the data head to:

11. Legislative Session Update

Ms. Thompson reviewed some of the legislation making its way through the Legislature this session. She noted that the Board did approve three bills or three ideas to move forward as legislation this year.

Some of the other legislation the Board wanted to move forward were.

SB 1246 – State Board of Ed, Retirement – printed. This bill will solve a minor recruiting issue for the office of the State Board of Education.

HB 411 – Education Data – did not pass House floor

Transfer credit reporting between institutions – did not get legislative support.

There are also six pending rules that have moved forward this year.

**House Education – Pending Rules**

- Docket No. 08-0112-2301 – Rules Governing the Postsecondary Credit Scholarship
- Docket No. 08-0203-2301 – Rules Governing Thoroughness
- Docket No. 55-0103-2301 – Rules Governing Career Technical Schools
The House Education Committee approved all pending rules with the exclusion of proposed revisions to revisions to 08.04.01.112.03.

The Senate Education Committee approved all pending rules as presented.

Other bills that will impact the work in the Board of Education office are:

S 1358 – Empowering Parents which will allow reimbursements for purchased. This will require additional staff.

HB 521 – as written has a short turnaround time for implementation.

S 1261 – state employee telework – no more than 15% of employees working remotely during any given pay period

S 1274 – diversity statements, prohibition

HB 417 – cash transactions

HB 415 – concealed weapons on school property bill

HB 447 – parental school choice

S 1289 – libraries bill which failed recently but HB 635 would allow districts to dissolve its libraries

Mr. Freeman mentioned S 1317 which would create a new special license plate with the revenue going to the State Board office who would be required to administer a grant program for firearm safety. That bill passed the Senate on an 18-15 vote and is now in front of the House for consideration.

BOARD ACTION

The Board took No Action or made any motion on any of the Legislation before the Legislature.

There were no further comments or questions from the Board.

INSTRUCTION, RESEARCH AND STUDENT AFFAIRS

1. Board Policy III.N. Statewide General Education – First Reading

Dr. Heidi Estrem, Associate Chief Academic Officer, Idaho State Board of Education, reviewed the policy with the Board. She said the policy change before the Board is a result of about a year’s worth of work and conversation among the general education committee (GEM) members.

The proposed amendments further clarify two areas related to General Education. First, they provide a unified purpose for the rubrics that have been developed for each Way of Knowing or disciplinary area in General Education. Board staff had, at the request of the
General Education Committee, gathered input on the effective use of the rubrics from the faculty representative groups during Spring 2023. The General Education Committee proposed this change at the October 2023 General Education Summit and approved the change in January 2024. While the rubrics may continue to be used for a variety of purposes on campus, including for instruction and assessment, the policy now more clearly describes their utility as a guide for on-campus decisions about assigning general education courses to the various Ways of Knowing categories.

Secondly, the Committee worked collaboratively throughout last year to describe roles and term limits, as reflected in the policy amendments, and to develop Committee Bylaws to help shape the roles and responsibilities of the Committee.

**BOARD ACTION**

M/S (Roach / Hill) I move to approve the first reading of proposed amendments to Board Policy III.N., Statewide General Education, as submitted in Attachment 1. A roll call vote was taken, and the motion carried 6-0. Superintendent Critchfield and Shawn Keough were absent from voting.

Board President Dr. Clark asked what the General Education Committee is and who comprises it and what is its purpose. Dr. Estrem said GEM is made up of the general education directors from each campus as well as five subject area representatives that represent different communities that also impact general education. GEM is a subcommittee of the Board, and they gather several times a year to review courses and give input on policy related to general education across all eight of Idaho’s institutions.

There were no further comments or questions from the Board.

2. Board Policy III.Q. Admissions Standards – First Reading

Dr. Estrem shared that the proposed changes update and streamline this policy in several ways. First, the high school course requirements are clarified by removing specific course limitations that are no longer appropriate. Secondly, changes to Career Technical Education (CTE) program admissions clarify CTE admission procedures and remove descriptions of advising processes that are better described elsewhere. Third, revisions to the provisional (proposed “alternative”) admissions process better reflect options for admitting and serving students, and in particular, high-achieving students from high schools without high school accreditation from a Board-recognized accreditor.

**BOARD ACTION**

M/S (Roach / Hill) I move to approve the first reading of proposed amendments to Board Policy III.Q, Admission Standards as presented in Attachment 1. A roll call vote was taken, and the motion carried 6-0. Superintendent Critchfield and Shawn Keough were absent from voting.

There were no comments or questions from the Board.

Dr. TJ Bliss, Chief Academic Officer, Idaho State Board of Education said the Board approved the first reading at the December 2023 meeting and no changes were made between first and second reading.

The Division is requesting amendments to Board Policy III.Y. Advanced Opportunities and III.L. Prior Learning. The amendments to Policy III.Y would replace what is now referred to as technical competency credit with microcredentials as established in Board policy III.E. Amendments to Board Policy III.L. would call microcredentials as an allowable methodology for prior learning assessment. The Division’s microcredentialing platform referenced in Board Policy III.E. is SkillStack®.

BOARD ACTION

M/S (Roach / Gilbert) I move to approve the second reading of amendments to Board policies III.L and III.Y. as provided in attachments 1 and 2. A roll call vote was taken, and the motion carried 6-0. Superintendent Critchfield and Shawn Keough were absent from voting.

There were no comments or questions from the Board.

4. Boise State University – Ph.D., Engineering

Boise State University proposes to offer a Ph.D. program in Engineering. Initially, there will be four tracks: Infrastructure Systems, Water and Environment Systems, Energy Systems, and Mechatronics and Control Systems.

Dr. Bliss said that two years ago BSU notified the Board office that they would be bringing forward this proposal through the regular three-year planning process. The plan was then discussed extensively with the Council on Academic Affairs and Programs (CAAP) and all of the institutions were able to weigh in. The proposal then was submitted to the IRSA committee where another discussion took place before the proposal was brought before the Board for consideration.

John Buckwalter, Provost and Vice President, Academic Affairs, Boise State University, said the vision for the Ph.D. in Engineering program is to create an interdisciplinary doctoral program that integrates engineering research with non-engineering disciplines to improve the research products, economic return, and community impact.

The program has three broad objectives that will support the career advancement of Idaho residents and stimulate economic growth in the State of Idaho.

1. Expand the postdoctoral workforce in the State of Idaho.
2. Create engineering researchers with transdisciplinary technical skills who can work seamlessly across interdisciplinary boundaries.
3. Increase research and creativity in and for Idaho.

BOARD ACTION
M/S (Roach / Hill) I move to approve the request by Boise State University to create a Ph.D. in Engineering, as presented in Attachment 1. A roll call vote was taken, and the motion carried 6-0. Superintendent Critchfield and Shawn Keough were absent from voting.

There were no comments or questions from the Board.

5. Lewis-Clark State College – MSN, Nursing Leadership in Healthcare

Lewis-Clark State College requests approval to offer a new Master of Science Nursing (MSN) degree in Nursing Leadership in Healthcare. This program will offer two tracks:

1) Bachelor of Science Nursing (BSN) – MSN track (30 credits)
2) Registered Nurse (RN) – MSN track (11-17 bridge credits + 30 graduate level credits)

Dr. Bliss shared that this degree proposal went through the same process as the Ph.D. in Engineering Degree from BSU, however this program did generate some conversation as ISU does have statewide responsibility for a master’s in science in nursing, however through those conversations it was determined that this program is different enough where the courses have very little overlap with the program that ISU has responsibility for. ISU and LCSC did work closely on this program and were able to resolve any concerns before bringing this forward to the Board for consideration.

Dr. Krista Harwick, Associate Dean of the School of Professional Studies, Nursing and Health Sciences, Lewis Clark State College shared that the proposed MSN degree is in response to the need expressed by local and regional industry partners for more nurse leaders and managers to support the health care workforce. Nursing (RN) is listed among the top occupations in terms of job growth through 2026.

The fully online MSN program, Nursing Leadership in Healthcare, challenges the BSN-prepared Registered Nurse to develop the evidenced-based knowledge and skills to become a transformative nurse leader effective across a diverse range of healthcare and academic environments. The graduate will develop expertise to practice at an advanced level in financial and human capital management and quality improvement and safety management. Graduates will be equipped with strategies for managing policy and other issues encountered in healthcare and educator leadership roles.

BOARD ACTION
M/S (Roach / Hill) I move to approve the request by Lewis-Clark State College to offer a Master of Nursing, Nursing Leadership in Healthcare as presented in Attachment 1. A roll call vote was taken, and the motion carried 6-0. Superintendent Critchfield and Shawn Keough were absent from voting.

Mr. Liebich asked how this program differs from the program at ISU. Dr. Harwick said ISU’s master’s degree is specific to nursing education. LSCS has added leadership and healthcare courses into their degree to help nurses understand the economics of health care delivery not just the clinical practice but the business aspect behind it.

Dr. Hill said in his opinion this is the way Board Policy III.Z. should work. We have an institution in one part of the state that wants to deliver a program another school has statewide responsibility for, and they worked together to make sure that the local need was met. In the end Idaho is served.

There were no further comments or questions from the Board.

WORK SESSION
INSTRUCTION, RESEARCH AND STUDENT AFFAIRS

B. Generative AI Workshop

Dr. Estrem said this work session is intended to give the Board a sense of how Generative AI is affecting higher education.

Generative AI has brought transformative changes to higher education, fundamentally altering how teaching, learning, and research are conducted. With generative AI, educational content can potentially be tailored to individual student needs, accommodating different learning styles and paces. This technology enables the creation of dynamic, interactive course materials, making learning more engaging and effective. Additionally, generative AI assists in the development of virtual labs and simulations, providing students with practical, hands-on experience that is particularly beneficial in fields like science, engineering, and medicine.

Generative AI is also revolutionizing research within higher education. It accelerates data analysis, enabling researchers to process vast amounts of information rapidly, which leads to quicker and more innovative discoveries. This capability is particularly impactful in fields such as genomics, climate science, and physics. Moreover, AI-generated models and simulations are opening new frontiers in research, allowing for experimentation and exploration that were previously impossible due to resource constraints.

Dr. Jen Schneider, Associate Dean of the College of Innovation and Design, Boise State University, stated the Generative AI is ubiquitous, powerful and will transform the global workforce and therefore higher education.
What is generative AI? Technology that enables us to immediately generate text, images, and video just by entering prompts. No coding or technical expertise necessary.

How does it work? Generative AI is powered by computers that have digested texts and images and learned from those how to interact with human prompts in a seemingly natural manner.

ChatGPT took only 2 months to reach 100 million users. In context it took Netflix 18 years to reach that milestone.

Generative AI is embedded in various programs and most people do not realize they are using it.

Students can prompt ChatGPT to write a college essay for them. The program won’t write the essay, but it will supply a title and a good outline. However, you can go back and forth with ChatGPT to get more details and once the essay is written it can be uploaded and ChatGPT will edit it and do image generation.

There are limitations to AI’s abilities. It hallucinates so it can make up facts about someone.

Data privacy, social and ethical challenges, intellectual properly violations is another area where AI is not infallible.

In higher education faculty are concerned about student integrity essentially cheating which is leading to the use of plagiarism detectors which tend to generate false positives.

Half of the fastest growing jobs are related to AI which will impact how institutions teach and how students learn.

50% of students are using generative AI. Only 25% of faculty are. (-Inside Higher Ed)

Mr. Liebich said if the data is all coming from the internet and there is a time lag and even years ago things weren’t on the internet the results may not be current. Dr. Schneider that accuracy is a big concern because AI uses patterns when it’s collecting its data it’s not just an internet search engine.

Mr. Liebich said then the real value in the quality of the output of generative AI is dependent on who owns the data set. And with this tool when does it no longer become your work.

Mr. Gilbert said AI will shift the focus to personal interaction. Someone can generate tons of paper on a topic but when you talk with them you will know if they actually understood what they wrote.

Dr. Schneider said some faculty are actually moving to oral exams which creates challenges for students who have accommodations for anxiety.
Dr. Bliss said Dr. Schneider sends out a weekly update, lengthy, exhaustive sometime but delightful and sometimes terrifying on AI as it relates specifically to higher education. If any of the Board members would like to receive this newsletter please let Dr. Bliss know.

Dr. Estrem said the statewide AI Alliance has been meeting and their vision is evolving around transparency and ethics. This group has sponsored and launched a three-part professional development series for higher education professionals. There is also an upcoming webinar on AI and ethics.

Mr. Freeman asked if there was intent for there to be consistency across our institutions on how AI is approached from a pedagogical standpoint. Dr. Schneider said right now the discussion is about exploring where everyone is in using AI. Some institutions have begun at the regulatory phase developing policy for its use. As far as the statewide alliance it is too early for there to be policy at this level because things are so rapidly evolving.

There were no further comments or questions from the Board.

A. Strategic Discussion of Board Policy III.Z. Planning and Delivery of Postsecondary Programs and Courses

This is a continuation of the discussion that began on February 27th.

Ms. Roach and Dr. Hill wrote up some recommendations on how to move forward. The recommendations are:

Direct staff to work with the 8 institutions to revise policy III.Z to meet the following objectives:

- Maintain access and affordability
- Incentive system supporting behavior

The policy should:

- Institutionalize managed competition approach
- Allow for effective implementation
- Be based upon mission areas with coordination responsibility
- Ensure timely response to emergent needs
- Address BAS degrees at CC and AA degrees at 4 years
- Reward Innovation
- Retain designated service regions

Additionally – work on the High Demand Program Advisory Group Development
Mr. Gilbert asked about the retention of the service areas. Dr. Hill said that was still an open question. Mr. Gilbert said everything laid out in the recommendation is very logical, however the details related to the designated service areas and the time in which there’s an opportunity to do something or to have another institution come into the process and into that service area that’s where it feels like we could get stuck. Dr. Hill said it was fairly clear from the Board’s conversation yesterday that the Board doesn’t have the heart for eliminating the service areas but to rather put in place a mechanism by which if a particular thing is not being met there is a time frame for someone else to come in and address the emergent needs. That is why he put in the word ‘timely’ in the recommendation.

Discussion ensued around placing a Board member on CAAP. Dr. Bliss asked for clarification. Was the Board asking for Board policy for first and second reading to add a Board member to CAAP or just to invite Board members to CAAP for the foreseeable future. Dr. Hill said that would require a bit more research to see how Board members are placed on committees. He would like to handle this in the same manner in which we handle the other subcommittees.

Dr. Bliss reminded the Board that neither CAAP nor IRSA were decision-making bodies. The Board could put someone on CAAP, but they cannot make a decision. Anything that needs Board approval is brought before the full Board for consideration. Items for the Board’s attention are funneled from a subcommittee to one of the three germaine committees (BAHR, IRSA, PPGA). No subcommittee has decision making authority.

Mrs. Roach questioned if there were programs or opportunities that were not brought forward by the subcommittees that perhaps the full Board would be interested in hearing. Dr. Bliss said that under his tenure every single issue of concern or controversy has been brought to the Board for consideration. Board Policy III.Z. does not stop the process but facilities a conversation and when those issues can’t be resolved, which has only happened a couple of times, those issues come directly to the Board. Mrs. Roach again stressed that in her opinion there were some issues that CAAP and even IRSA decided did not need to go forward for the Board’s consideration and perhaps the Board members would have wanted to discuss these items, but they never had the chance. Hence the request to put a Board member on CAAP.

Dr. Bliss asked for an elaboration on what those types of issues would have been that didn’t get escalated to the Board’s attention. Dr. Bliss was asked if there had been examples at CAAP where people have brought forward program proposals which after discussion have been modified to make sure that they are adequately different and therefore uniquely different and approvable. He answered yes, that has happened a couple of times.

Mrs. Roach was concerned that perhaps some institutions were feeling frustrated by the process because they could not get their item past CAAP or IRSA to be heard by the full Board. And perhaps Policy III.Z.is stifling conversations and is too restrictive as
Dr. Hill said more work needs to be done before a proposal is brought back to the Board. The purpose of this work session was to ask where we are and where do we want to be and then to send it back to IRSA. Dr. Hill said the policy does need to be specific enough so that every possible decision does not come before the Board. There has to be a balance point and to find that point is to have the institutions craft the policy using Dr. Bliss as the intermediary.

Dr. Bliss said the soonest a new policy could be brought back to the Board for consideration was June or August. Board President Dr. Clark said the Board would be comfortable in having a look at the proposal in June knowing that this will not be a final decision. Dr. Hill asked for another work session on Policy III.Z. for the April Board meeting so that the Board can see something concrete in terms of changes before the draft is brought back in June for consideration.

There were no further comments or questions from the Board.

SUBJECT
FY 2025 Appropriation Information – Institutions and Agencies of the State Board of Education

APPLICABLE STATUTE, RULE, OR POLICY
Applicable Legislative Appropriation Bills (2024)

BACKGROUND/ DISCUSSION
As of agenda preparation time, the appropriation bills for the institutions and agencies of the State Board of Education were in various stages. Bill numbers are provided if available.

The table on Tab 1 Attachment 1 lists the FY 2025 appropriations related to the State Board of Education.

IMPACT
Appropriations provide funding and spending authority for the agencies and institutions of the State Board of Education, allowing them to offer programs and services to Idaho’s citizens. For FY 2025, the Legislature appropriated what was considered a maintenance bill for all agencies in House Bill 458. Then enhancements were appropriated in subsequent bills and those bills are indicated in Attachment 1.

ATTACHMENTS
Attachment 1 – FY 2025 Appropriations List

STAFF COMMENTS
Staff comments and recommendations are included for each specific institution and agency allocation.

BOARD ACTION
Motions for the allocations for College and Universities and Community Colleges are found on each specific allocation.

## Statewide Issues
Permanent Building Fund Advisory Committee Appropriations H735

As of agenda preparation time, the total for A&R projects for the institutions and agencies was $30,115,000. The following capital requests were recommended:

- Boise State University: $13,000,000
- Idaho State University: $7,000,000
- University of Idaho State: $4,000,000
- Lewis-Clark State College: $6,115,000
- College of Western Idaho: Student Learning Center: $10,700,000
SUBJECT
FY 2025 College and Universities Appropriation Allocation

APPLICABLE STATUTE, RULE, OR POLICY
House Bills 458 and 734 (2024)
Idaho State Board of Education Governing Policies & Procedures, Section V.S.

BACKGROUND/DISCUSSION
The Legislature appropriates to the State Board of Education and the Board of Regents monies for the general education programs at Boise State University (BSU), Idaho State University (ISU), University of Idaho (UI), Lewis-Clark State College (LCSC), and system-wide needs. The Board allocates the appropriation to the four institutions based on legislative intent and Board Policy, Section V.S.

According to Board policy, the allocation is made in the following order: 1) each institution shall be allocated its prior year budget base; 2) funds for the Enrollment Workload Adjustment (EWA); 3) operations and maintenance funds for new, major general education capital improvement projects; 4) decision units above the base; and 5) special activities or projects at the discretion of the Board. These funds, allocated along with revenue generated from potential fee increases, will establish the funding for the general education programs for FY 2025. The allocation for FY 2025 is shown on Tab 1a Attachment 1. The FY 2025 general fund appropriation includes the following items:

Maintenance of Current Operations (MCO):
- Decreases in total benefit costs ($2,087,500)
- Decreases in Statewide cost allocation (1,634,200)
- 1% Change in Employee Compensation (CEC) 2,706,600

Line Items:
- Operational Capacity Enhancement 6,995,400
- Transfer Risk Managers to OSBE (489,000)
- Additional 2% CEC: General Funds 5,415,300
- Enrollment Workload Adjustment 569,000

Total General Fund increase over Base $11,475,600

ATTACHMENTS
Attachment 1 - C&U FY 2025 Appropriation Allocation
Attachment 2 - Statement of Purpose/Fiscal Note
Attachment 3 - Appropriation Bills (H458 and H734)

STAFF COMMENTS
Staff recommends approval of the FY 2025 College and Universities allocation as presented in Attachment 1.
BOARD ACTION

I move to approve the allocation of the FY 2025 appropriation for Boise State University, Idaho State University, University of Idaho, Lewis-Clark State College, and system-wide needs, as presented on Tab 1a, Attachment 1.

STATEMENT OF PURPOSE
RS31687 / H0734

This appropriation to the Colleges and Universities provides enhancements to the FY 2025 maintenance budget that include an additional appropriation and 29.25 FTP for occupational capacity enhancements, a reduction of 4.00 FTP and $489,000 to transfer risk managers to the Office of the State Board of Education (OSBE), endowment adjustments, nondiscretionary adjustments, and the additional 2% CEC.

FISCAL NOTE

This appropriation provides an additional $15,892,300 to the maintenance appropriation provided to the Colleges and Universities found in House Bill 458. Table 1 shows incremental adjustments to the budget found in the bill, of which the ongoing increase is $15,892,300 and there are no onetime appropriations. Table 2 shows all the adjustments leading to the FY 2025 Total. The total budget for Colleges and Universities is $700,004,700.

**LEGISLATURE OF THE STATE OF IDAHO**

Sixty-seventh Legislature Second Regular Session - 2024

IN THE HOUSE OF REPRESENTATIVES

HOUSE BILL NO. 734

BY APPROPRIATIONS COMMITTEE

AN ACT

RELATING TO THE APPROPRIATION TO THE STATE BOARD OF EDUCATION AND THE BOARD OF REGENTS OF THE UNIVERSITY OF IDAHO; APPROPRIATING ADDITIONAL MONEYS TO THE STATE BOARD OF EDUCATION AND THE BOARD OF REGENTS OF THE UNIVERSITY OF IDAHO FOR COLLEGE AND UNIVERSITIES AND THE OFFICE OF THE STATE BOARD OF EDUCATION FOR FISCAL YEAR 2025; REDUCING THE APPROPRIATION TO THE STATE BOARD OF EDUCATION AND THE BOARD OF REGENTS OF THE UNIVERSITY OF IDAHO FOR COLLEGE AND UNIVERSITIES AND THE OFFICE OF THE STATE BOARD OF EDUCATION FOR FISCAL YEAR 2025; PROVIDING FOR THE USE OF APPROPRIATED FUNDS; PROVIDING FOR THE USE OF APPROPRIATED FUNDS; AND DECLARING AN EMERGENCY AND PROVIDING AN EFFECTIVE DATE.

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. In addition to any other appropriation provided by law, there is hereby appropriated to the State Board of Education and the Board of Regents of the University of Idaho for College and Universities and the Office of the State Board of Education the following amounts to be expended according to the designated programs and expense classes from the listed funds for the period July 1, 2024, through June 30, 2025:

SECTION 2. Notwithstanding any other provision of law to the contrary, the appropriation to the State Board of Education and the Board of Regents of the University of Idaho for College and Universities for Boise State University is hereby reduced by $4,600 from the General Fund from operating expenditures for the period July 1, 2024, through June 30, 2025.

SECTION 3. USE OF APPROPRIATED FUNDS. State-appropriated funds shall not be utilized to support diversity, equity, inclusion, or social justice ideology as part of any student activities, clubs, events, or organizations.
on campus. Each college and university shall submit a written report of its expenditures related to these activities to the Joint Finance-Appropriations Committee no later than December 1, 2024.

SECTION 4. USE OF APPROPRIATED FUNDS. State-appropriated funds for capacity enhancement at the University of Idaho shall not be utilized to support undergraduate nursing or physician assistant programs that are provided by other colleges, universities, and community colleges that receive state appropriated funds.

SECTION 5. An emergency existing therefor, which emergency is hereby declared to exist, this act shall be in full force and effect on and after July 1, 2024.
SUBJECT
Community Colleges FY 2025 Appropriation Allocation

APPLICABLE STATUTE, RULE, OR POLICY
House Bills 458 and 733 (2024)

BACKGROUND/DISCUSSION
The Legislature makes an annual appropriation to the State Board of Education for College of Eastern Idaho (CEI), College of Southern Idaho (CSI), College of Western Idaho (CWI) and North Idaho College (NIC). The allocation to the colleges includes the base allocation plus each college’s respective share in any annual budget adjustments according to the normal budgeting process.

IMPACT
The FY 2025 appropriation, shown on Tab 1b Attachment 1, includes General Fund decreases in benefit costs, 3% ongoing Change in Employee Compensation (CEC) for all employees based on merit, funding for operational capacity enhancements, and increases or decreases in Enrollment Workload Adjustment.

ATTACHMENTS
Attachment 1 – FY 2025 CC Appropriations Allocation
Attachment 2 – Statement of Purpose/Fiscal Note
Attachment 3 – Appropriation Bills (H458 and H733)

STAFF COMMENTS AND RECOMMENDATIONS
Staff recommends approval of the FY 2025 Community College allocation.

BOARD ACTION
I move to approve the allocation of the FY 2025 appropriation for the College of Southern Idaho, College of Eastern Idaho, College of Western Idaho, North Idaho College, and system-wide needs as presented on Tab 1b, Attachment 1.

STATEMENT OF PURPOSE
RS31676 / H0733

This appropriation to Community Colleges provides enhancements to the FY 2025 maintenance budget and includes funding for operational capacity enhancements at the four institutions, POST training capacity enhancement at the College of Eastern Idaho and College of Western Idaho, the 2% CEC and a net reduction of $99,800 for nondiscretionary adjustments.

FISCAL NOTE

This appropriation provides an additional $2,749,900 to the maintenance appropriation provided to Community Colleges found in House Bill 458. Table 1 shows incremental adjustments to the budget found in the bill, of which the ongoing increase is $2,599,900, of which $2,599,900 is ongoing and $150,000 is onetime. Table 2 shows the adjustments leading to the FY 2025 Total. The total budget for the Community Colleges is $64,735,200 and provides support to the College of Southern Idaho, College of Western Idaho, College of Eastern Idaho, and North Idaho College.

LEGISLATURE OF THE STATE OF IDAHO
Sixty-seventh Legislature Second Regular Session - 2024

IN THE HOUSE OF REPRESENTATIVES

HOUSE BILL NO. 733

BY APPROPRIATIONS COMMITTEE

AN ACT
RELATING TO THE APPROPRIATION TO THE STATE BOARD OF EDUCATION FOR COMMUNITY COLLEGES; APPROPRIATING ADDITIONAL MONEYS TO THE STATE BOARD OF EDUCATION FOR COMMUNITY COLLEGES FOR FISCAL YEAR 2025; REDUCING THE APPROPRIATION TO THE STATE BOARD OF EDUCATION FOR COMMUNITY COLLEGES FOR FISCAL YEAR 2025; AND DECLARING AN EMERGENCY AND PROVIDING AN EFFECTIVE DATE.

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. In addition to any other appropriation provided by law, there is hereby appropriated to the State Board of Education for Community Colleges the following amounts to be expended according to the designated programs for personnel costs from the General Fund for the period July 1, 2024, through June 30, 2025:

April 2021
The Board set the FY 2022 maximum annual award amount at $3,500, expected student contribution at $3,000 and educational cost for each institution.

April 2022
The Board set the FY 2023 maximum annual award amount at $3,500, expected student contribution at $3,000 and educational cost for each institution.

April 2023
The Board set the FY 2024 maximum annual award amount at $3,500, expected student contribution at $3,000 and educational cost for each institution.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code § 33-4303
IDAPA 08.01.13, Rules Governing the Opportunity Scholarship Program

BACKGROUND/ DISCUSSION
The Legislature appropriated approximately $27.7M in FY 2025 for Scholarships and Grants managed by the Office of the State Board of Education. This amount is made up of approximately $22.2M from the General Fund, $1M from Miscellaneous Revenue, and $4.5M in federal funds. In addition to the Idaho Opportunity Scholarship, the Scholarships and Grants appropriation covers the Work Study Program, Armed Forces and Public Safety Officer Scholarship, GEARUP Idaho Scholarship, and the Postsecondary Credit Scholarship. The GEARUP Idaho Scholarship is part of a state and federal cooperative program.
The Idaho Opportunity Scholarship is a hybrid scholarship combining academic merit with financial need and is based on a shared model of responsibility between the state and the student. Students must meet the minimum academic merit requirement set in Administrative Code to be eligible. Eligible students are then ranked based on a combination of need and merit. Need is based on the students’ expected family contribution calculated on the Free Application for Federal Student Aid (FAFSA) at the time of application and makes up 70% of the weighting used for ranking students. The remaining 30% is based on the students’ cumulative grade point average. Beginning in FY 2019, the Board was authorized to award up to 20% of the amount appropriated for the Idaho Opportunity Scholarship for adult students who have earned at least 24 credits toward a certificate or degree and who return to complete a certificate or degree. However, H500 (2024) reduced the adult learner set-aside to 5% effective July 1, 2024.

Pursuant to Idaho Coe § 33-4303, the purpose of the Idaho Opportunity Scholarship is to:

a. Recognize that all Idaho citizens benefit from an educated citizenry;

b. Increase individual economic vitality and improve the overall quality of life for many of Idaho’s citizens;

c. Provide access to eligible Idaho postsecondary education through funding to remove financial barriers;

d. Increase the opportunity for economically disadvantaged Idaho students; and

e. Incentivize students to complete a postsecondary education degree or certificate.

Idaho Code § 33-4303 requires the Board set annually the educational costs for attending an eligible Idaho postsecondary institution; and to establish the need and merit criteria, the expected contributions of the student, the student’s family and available federal financial aid, and the maximum educational costs. These criteria, along with the application process, are established in Administrative Code, IDAPA 08.01.13.

The educational cost is the amount determined by the Board as necessary for student tuition, fees, books, and other such expenses reasonably related to attendance at an eligible Idaho postsecondary educational institution. This cost is used in determining the monetary value of the Opportunity Scholarship. Pursuant to IDAPA 08.01.13, these amounts are required to be set for each eligible institution annually. Staff recommendations for determining this amount are based on the institutions’ published educational cost for full-time undergraduate students attending two semesters per year.

While not required by statute or rule, the Board has historically set a maximum award amount in order to increase the number of awardees. Pursuant to Idaho
Code § 33-4303, the maximum award amount may not exceed the actual education costs at the eligible institution the student attends or the educational costs established by the Board. When a student’s cost for tuition and fees is over the maximum award amount, the award is limited to the set maximum award amount. Should the Board choose not to set a maximum award amount, the award would be limited by the actual cost to the student of tuition and fees and the maximum educational cost. A student’s actual costs are not typically known at the time the initial awards are made. The maximum award amount allows for staff to make preliminary estimates of the total amount needed to cover awards in a given year, thereby allowing more awards to be distributed earlier.

Regardless of whether a student attended a 2-year or a 4-year institution, in FY 2024 most students received awards at or near the maximum award amount. The following table shows the total funds distributed for the Opportunity Scholarship by academic year attended, the number of students awarded, and the average amount of the award for that year.

<table>

<tr>
<td>2023-2024</td>
<td>$22,399,085</td>
<td>6,907</td>
<td>$3,243</td>
</tr>
</tbody>
</table>

Of the awards made for the 2023-24 school year, 69 awardees earned the scholarship under the provisions established for Adult Learners.

Individual student award amounts for the Opportunity Scholarship are calculated based on the educational cost for the institution the student attends, the student contribution amount, other scholarships and financial aid the student receives, actual tuition costs, and the maximum award amount. Students may use scholarships and grants that do not come from institutional, state, or federal funds to offset the student contribution amount. Student loans are not included in the calculation of the eligible award amount.

As an example, based on the proposed amounts, if a student attends the University of Idaho with a set educational cost of $21,898, the Opportunity Scholarship award amount would be calculated as follows:
<table>
<thead>
<tr>
<th></th>
<th>Student A</th>
<th>Student B</th>
<th>Student C</th>
</tr>
</thead>
<tbody>
<tr>
<td>Educational Cost for Institution</td>
<td>$22,254</td>
<td>$22,254</td>
<td>$22,254</td>
</tr>
<tr>
<td>Student Contribution</td>
<td>$3,000</td>
<td>$3,000</td>
<td>$3,000</td>
</tr>
<tr>
<td>Other Scholarships and Financial Aid</td>
<td>$10,000</td>
<td>$16,000</td>
<td>$5,000</td>
</tr>
<tr>
<td>Total Remaining</td>
<td>$8,898</td>
<td>$3,254</td>
<td>$13,898</td>
</tr>
<tr>
<td>Maximum Eligible Award Amount</td>
<td>$3,500</td>
<td>$3,254</td>
<td>$3,500</td>
</tr>
</tbody>
</table>

The actual award amount for each student may be further adjusted based on how other scholarships and financial aid are required to be applied and the actual amount charged to the student. Payments are deposited into the students' institution account on the students’ behalf.

**IMPACT**

Setting the educational cost and student contribution amounts fulfills the Board’s responsibilities under administrative rule. Combined with setting the maximum award amount, this action will enable Board staff to begin processing applications and finalizing award determinations for FY 2025.

**ATTACHMENTS**

Attachment 1 – Educational Costs at Institutions

**BOARD STAFF COMMENTS AND RECOMMENDATIONS**

H458 (2024), the Special Programs FY 25 maintenance appropriation, provides $24.3M from the General Fund, $1M from miscellaneous revenue, and $4.5M in federal funds for scholarship awards made for the 2024-2025 school year.

To be eligible for the Idaho Opportunity Scholarship a student must meet the minimum academic requirements established in Idaho Code and Administrative Code.

Pursuant to Idaho Code § 33-4303, an eligible student must:
- be an Idaho resident as defined in Idaho Code § 33-3717B;
- have graduated or will graduate from an accredited high school or its equivalent in Idaho;
- have enrolled or applied to an eligible Idaho postsecondary educational institution;
- be a postsecondary undergraduate student who has not previously completed a baccalaureate degree or higher; and
- meet need and merit criteria as set by the Board.

The need and merit requirements set by the Board are established in IDAPA 08.01.13:
- 2.7 GPA or higher (or its equivalent as determined by a college entrance exam); adult learners may apply with a 2.5 GPA;
- good standing with postsecondary institution if renewing;
• completed the applicable course load requirements for renewal; and
• completed the FAFSA by the deadline.

Traditional applicants must attend full time and meet the minimum applicable credit requirements. Individuals with 24 or more earned credits who were granted the scholarship under the adult learner provision may attend part time, within the minimum part time credit hour requirements.

Scholarships are awarded based on the student ranking until the appropriated amount is expended. Students are ranked based on the combination of the student need and student merit criteria. Up to 5% of the scholarship may be set aside for adult learners with some credits and no degree, however, due to the low number of adult learner applicants a much smaller amount is set aside each year.

Based on the educational costs for each eligible institution, staff recommends the FY 2025 educational cost for the Idaho Opportunity Scholarship award formula to be set for each public institution as follows:

1. $24,868 for students attending University of Idaho (8.9% increase over FY 2024)
2. $29,957 for students attending Boise State University (12.5% increase over FY 2024)
3. $27,682 for students attending Idaho State University (19.4% decrease over FY 2024)
4. $24,782 for students attending Lewis-Clark State College (21.7% increase over FY 2024)
5. $19,828 for students attending College of Eastern Idaho (12.2% increase over FY 2024)
6. $14,650 for students attending College of Southern Idaho (0% increase over FY 2024)
7. $18,278 for students attending College of Western Idaho (12% decrease over FY 2024)
8. $21,131 for students attending North Idaho College (26.2% increase over FY 2024)

Pursuant to IDAPA 08.01.13, the FY 2025 educational cost for the Idaho Opportunity Scholarship award formula for students attending eligible Idaho private, not-for-profit postsecondary institutions must be the average of the amount set for the four public four-year institutions. For FY2025, this amount would be $26,822.

Staff recommends:
• The FY 2025 student contribution remain $3,000, and to accept student-initiated scholarships and non-institutional and non-federal aid as part of the student contribution; and
• The maximum award amount remain at $3,500 for FY 2025

BOARD ACTION
I move to approve the FY 2025 educational cost for the Idaho Opportunity Scholarship award be set not to exceed the amounts set forth in Attachment 1.

Moved by__________ Seconded by__________ Carried Yes_______ No______

BOISE STATE UNIVERSITY

SUBJECT
Agreement with Collegiate Licensing Company

REFERENCE
June 2007 Idaho State Board of Education (Board) approved agreement between Boise State University and the Collegiate Licensing Company
August 2014 Board approved new 10-year agreement between Boise State University and the Collegiate Licensing Company

APPLICABLE STATUTE, RULE, OR POLICY

BACKGROUND/DISCUSSION
In 2007 and again in 2014, Boise State entered into an agreement to use the Collegiate Licensing Company (CLC) as its agent for licensing merchandise bearing Boise State University trademarks. The current agreement expires June 30, 2024, and Boise State has renegotiated better terms with CLC for a 10-year extension to the 2014 agreement.

All companies that manufacture products bearing Boise State trademarks pay a royalty fee based on the product’s wholesale cost. CLC manages this process and collects the royalties. The royalties are paid to Boise State, and the remaining balance is retained by CLC as fees for their services. Boise State University, the University of Idaho and Idaho State University, all currently partner with CLC as their licensing agent.

Under the current contract, Boise State receives 82.5% of all annual revenue and 85% if annual revenue reaches between $1.5 million and $2 million in the final contract year of the initial term. Under the proposed extension, Boise State would receive 85% of all annual revenue up to $1M and ninety percent 90% of all annual revenue exceeding $1M.

Under the current contract and proposed extension, Boise State requires licensees to comply with CLC’s Labor Codes of Conduct and also requires licensees to join the Fair Labor Association to protect the conditions for the workers who will help create Boise State’s licensed goods.
IMPA CT

Last year, under the prior contract, gross royalties collected by CLC for Boise State merchandise were $833,349. Of that, Boise State received $687,512 and CLC retained $145,837.

The proposed contract is for a term that would renew on July 1, 2024, and expire on June 30, 2034. At any point between the end of contract year four (4) and prior to the end of contract year nine (9), Boise State may give one (1) year notice to terminate without cause. Upon such termination, the CLC commission will be increased by five percent (5%) for the final year. There will be no post-term payment due to CLC.

If the contract reaches its natural expiration in year 10, there will be no reduction in Boise State’s royalties and no post-term payment will be due.

ATTACHMENTS
Attachment 1 – Addendum to Agency Agreement
Attachment 2 – Agency Agreement
Attachment 3 – Sole Source Procurement Documentation

STAFF COMMENTS AND RECOMMENDATIONS
Board Policy V.I.10 – Sales of Services or Licensure of Assets states any transaction where an institution, school or agency seeks to grant to a third party the right to conduct the sale of services on the behalf of, or on the property owned by, the institutions, school or agency (such as concessions, broadcast or license rights) must be conducted via an open process that maximizes competition or other means that maximizes the returns in revenues, assts, or benefits to the institution, school or agency.

Pursuant to Section 5.a of Boise State’s Purchasing Policy, the Boise State University Procurement and Vendor Services Director approved a waiver of the competitive bidding process in this circumstance. This is due to Learfield/IMG Licensing/CLC effectively having a market monopoly. IMG, CLC’s only competitor in the Mountain West league, bought CLC in 2019, which had just merged with Learfield, Boise State multimedia rights licensing partner.

This proposed contract reflects a renegotiation of material terms to the financial benefit of Boise State. Boise State’s royalty take will increase to 85% of all annual revenue up to $1M and 90% of all annual revenue exceeding $1M. In addition, the contract excludes any post-term payment and prohibits early termination rights.
BOARD ACTION

I move to approve the request by Boise State University to enter into a 10-year addendum to the agency agreement with the Collegiate Licensing Company in accordance with the terms outlined herein.

AND
BOISE STATE UNIVERSITY

This Addendum (“Addendum”) is entered into as of the date last signed below (the “Effective Date”) and amends the Agency Agreement (the “Agreement”) by and between Collegiate Licensing Company, LLC (“CLC”) and Boise State University (“University”). Capitalized terms used but not defined in this Addendum shall have the meanings ascribed thereto in the Agreement, as amended.

RECITALS

WHEREAS, CLC and University have entered into the Agreement, the effective date of which being July 1, 2014 as amended from time to time; and

WHEREAS, CLC and University now desire to further amend the Agreement as set forth in this Addendum effective as of the Renewal Commencement Date (as defined herein).

NOW, THEREFORE, for and in consideration of the foregoing recitals, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

ADDENDUM

1. **Term.** The Parties desire to amend the Term of the Agreement such that the Agreement shall renew on July 1, 2024 (the “Renewal Commencement Date”) on the terms and subject to the conditions set forth herein, and expire on June 30, 2034 (such period, the “Renewal Term”). The term of any license granted by CLC shall, as far as feasible, terminate no later than the termination or expiration date of this Agreement.

2. **Payments.** The first three sentences of Paragraph 4(a) are hereby deleted and replaced with the following:

   With regard to Annual Revenue, CLC shall be entitled to retain fifteen percent (15%) of the first One Million and No/100 Dollars (U.S. $1,000,000) and ten percent (10%) of all Annual Revenue in excess of One Million and No/100 Dollars (U.S. $1,000,000). CLC will render the balance of the Annual Revenue to University unless otherwise directed by University.

3. **Travel Stipend.** Paragraph 4(c) is hereby deleted in its entirety and replaced with the following:

   CLC will make available to University, each Contract Year, a stipend in an amount up to
Three Thousand and No/100 Dollars (U.S. $3,000) (“Travel Stipend”) to cover travel and related expenses for University staff to visit the Atlanta office and the annual CLC Seminar. CLC will reimburse University for such travel-related costs actually incurred against the Travel Stipend, and up to the Travel Stipend amount, within one (1) month after University provides documentation of such costs incurred. Any portion of this Travel Stipend not used in the applicable Contract Year shall be forfeited.

4. **Legal Joinder.** In Paragraph 7(b) of the Agreement, the following text is hereby deleted:

   , and CLC shall join as a party plaintiff or defendant with the University at the University’s request

5. **Notices.** Paragraph 15 of the Agreement is hereby modified such that all notices to CLC shall be sent to the following addresses:

   The address for CLC shall be:

   **Collegiate Licensing Company, LLC**
   Attn: Cory Moss
   1075 Peachtree Street NE, Suite 3300
   Atlanta, Georgia 30309
   (770) 956-0520
   Cory.Moss@clc.com

   With a copy to:

   **Collegiate Licensing Company, LLC**
   Attn: General Counsel
   1075 Peachtree Street NE, Suite 3300
   Atlanta, Georgia 30309

6. **Certifications.** New Paragraph 21 is hereby added to the document and shall read as follows:

   **21. CERTIFICATIONS** - University is prohibited by state law from entering into certain contractual agreements. CLC hereby certifies that: (i) pursuant to Idaho Code Section 67-2346, it is not currently engaged in, and will not for the duration of the Agreement engage in, a boycott of goods or services from Israel or territories under its control; (ii) pursuant to Idaho Code Section 67-2359, it is not currently owned or operated by the People’s Republic of China led by the Chinese communist party and will not for the duration of the Agreement be owned or operated by the People’s Republic of China; and (iii) it is not an abortion provider or an affiliation of an abortion provider under the No Public Funds for Abortion Act. The terms in this paragraph defined in Idaho Code Section 67-2346, Idaho Code Section 67-2359, and in Title 18, Chapter 87, Idaho Code, respectively, shall have the meanings defined therein. This certification is made solely to comply with the Idaho statutes referenced herein and to the extent such section does not contravene applicable State or federal law.
7. **Appendix A.** All text and logos set forth on Appendix A of the Agreement are hereby deleted and replaced with the following:

University is the owner of all rights, title, and interest in and to the Indicia associated with University as set forth on BrandManager 360, as updated by University from time to time. In addition to such Indicia, all trademarks hereafter associated with University that are approved and/or used by University will be subject to the same terms and conditions as if fully set out herein, unless specifically excluded by Appendix B.

8. **Appendix B.** All text set forth on Appendix B of the Agreement is hereby deleted and replaced with the following:

University concurs in the basic concept that no user of its marks and logos should be exempt from royalty payments and will make every good faith effort to comply with this concept. However, University reserves the right to exempt any user from royalty payments if circumstances warrant that it would be in the best interests of University, and does not unduly impact CLC’s ability to generate royalties under this Agreement.

9. **Full Force and Effect.** The terms, conditions, and covenants set forth in this Addendum shall go into effect on the Renewal Commencement Date. All other provisions of the Agreement shall remain in full force and effect, it being understood that, in the event of a conflict between the terms of this Addendum and the Agreement or any prior amendments, the terms of this Addendum will take precedence as of the Renewal Commencement Date. The current terms and conditions of the Agreement shall remain in effect until the Renewal Commencement Date.

**IN WITNESS WHEREOF,** the parties have executed this Addendum, effective as of the Effective Date.

AGENCY AGREEMENT

This is an Agreement between Boise State University, an institute of higher education of the state of Idaho, having its principal place of business at 1910 University Drive, Boise, Idaho 83725 ("University") and Collegiate Licensing Company, LLC, a limited liability company of the state of Georgia, having its principal place of business at 1075 Peachtree Street, Suite 3300, Atlanta, Georgia, 30309 ("CLC").

Whereas, University is the owner of certain Indicia, as hereinafter defined; and

Whereas, CLC desires to act as University’s exclusive agent to license the use of the Indicia, as hereinafter defined, in connection with the marketing of various articles of merchandise and to conduct certain Promotions, as hereinafter defined; and

Whereas, University desires to appoint CLC to act as University’s exclusive agent to license the use of the Indicia in such manner as to preserve the integrity, character and dignity of University and maintain the reputation of the Indicia as designating high quality merchandise.

Now, therefore, in consideration of the premises and the mutual promises and covenants herein contained, the parties hereto agree as follows:

1. DEFINITIONS - In addition to the terms defined elsewhere in this Agreement, as used in this Agreement, the following terms shall have the following respective meanings:

   (a) “Indicia” means the names and identifying indicia of the University including, without limitation, the trademarks, service marks, trade dress, team names, nicknames, abbreviations, city/state names in the appropriate context, slogans, designs, colors, uniform and helmet designs, distinctive landmarks, logographics, mascots, seals and other symbols associated with or referring to the University. Indicia includes those shown in Appendix A, modifications of the Indicia approved for use by the University, and any other names or identifying indicia adopted and approved for use by the University.

   (b) “Territory” means the United States of America, its territories, and possessions, and the Commonwealth of Puerto Rico, as well as United States military bases abroad.

   (c) “Licensed Articles” means products that contain the Indicia.

   (d) “Premium” means any article given free or sold at less than the usual selling price, for the purpose of increasing the sale, promoting or publicizing any other product or any service, including incentives for sales force, trade or consumer.

   (e) “Promotion” means any activity involving the presentation of Indicia through advertising, publicity, or other means of exposure, in or on merchandise, Premiums, point of purchase displays, print, electronic or any other medium.
(f) "Annual Revenue" means the revenue received by CLC resulting from the use of the Indicia, during the period of July 1st to June 30th of any year of this Agreement ("Contract Year").

2. GRANT OF AGENCY - University appoints CLC as University's exclusive agent to appoint licensees to use the Indicia on Licensed Articles and Premiums sold or distributed through approved channels in the Territory and to conduct Promotions in the Territory, in the manner, set forth in this Agreement. Notwithstanding the foregoing, this grant of agency shall not be exclusive, or shall not apply, with respect to any item of merchandise, Indicia, and/or company listed in Appendix B, and/or to any company doing business in a location listed in Appendix B, in accordance with the indications set forth in Appendix B. CLC shall work with the University to continue to grow and develop the University licensing program taking into account its distinct approach to licensing and its academic, athletic and business affairs as an institution of higher education. Notwithstanding any of the terms herein, University shall have full decision making over every aspect of its licensing program. CLC agrees that the artwork and licensee approval system and the retail intelligence reporting system will not be of a lesser standard than currently provided to University, and that CLC will continue to make improvements to its systems. CLC will continue to provide transparent reporting regularly, being no less than once per quarter on or around the payment accounting dates set out in paragraph 4(a) below, and in addition ad hoc reporting at University's reasonable request, in a manner that enables the University to properly manage its trademark licensing program. CLC agrees that it will provide high caliber account team of equal or better quality as currently being provided to University.

3. APPROVALS - CLC agrees that it will license the use of the Indicia only in connection with merchandise and promotions of the kind or character approved by the University. CLC acknowledges that if merchandise sold by licensees were of inferior quality in design, material or workmanship, the substantial goodwill that the University possesses in the Indicia may be impaired. Accordingly, CLC undertakes that the licensing and marketing will be done in such a way as to preserve the integrity, character and dignity of University and that the items of merchandise shall be of good quality.

(a) CLC shall require licensees to submit items of merchandise and designs for approval prior to distribution or sale, either electronically via MyiCLC or as a sample or prototype of the actual product (hereinafter "Submissions"). CLC shall, in turn, inspect the Submissions, and then shall transmit or forward the Submissions to the University for its review in accordance with subparagraph 3(b).

(b) Recognizing the time constraints of production schedules, University shall have two weeks from its receipt of a Submission to approve or disapprove said Submission, and if approved, with no further comment from the University, the Submission shall be deemed as accepted to serve as an example of quality for that item. In the event that the University fails to notify CLC of its decision within the two-week period, CLC will have the right to approve said Submission upon notice to the University, unless otherwise notified by the University.

(c) CLC will submit to University for its approval all Promotions developed by CLC,
as well as any Premiums related to said Promotions.

4. PAYMENTS

(a) With regard to Annual Revenue received by CLC resulting from use of the Indicia including, without limitation, royalties, minimum guarantee payments and advance payments from licensees during the Initial Term of this Agreement, as that term is defined in paragraph 11, CLC shall pay to University eighty two and one-half percent (82.5%) of all Annual Revenue during the Initial Term. Upon exercise by the University of the option to extend the Initial Term, as provided in paragraph 11, the parties shall agree to negotiate in good faith a mutually fair rate. In the event that the parties do not agree to such a rate, and provided that the Annual Revenue falls between $1.5 million and $2 million in the final Contract Year of the Initial Term, CLC shall increase the rate payable to the University to eighty five percent (85%) of all Annual Revenue for the remaining Contract Years. Payments hereunder shall be made to University quarterly within one month following each calendar quarter and shall be accompanied by a report setting forth activities resulting in said revenue and any other information as appropriate to enable an independent determination of the amounts due hereunder. CLC shall keep records of operations hereunder for at least four years after the date of payment and shall make such records reasonably available during normal business hours for examination by a representative of University to the extent necessary to verify the payments herein provided.

(b) In the event that the University exercises its termination right, per paragraph 11, after the 4th Contract Year of this Agreement, the CLC revenue share provided in paragraph (a) will be increased by 5% (and the University share accordingly reduced by 5%) for the final Contract Year of this Agreement.

(c) During each Contract Year of this Agreement, CLC shall pay for the University’s licensing director and one additional staff member to visit CLC’s office in Atlanta, Georgia to meet with the staff, analyze the current status and discuss the strategic initiatives of the licensing program. CLC shall also pay for the University’s licensing director and one additional staff member to attend the annual CLC seminar. CLC shall make and pay for all travel and accommodation directly.

(d) To the extent permitted by law, the University agrees that it will not disclose the terms of Paragraph 4 hereof to other colleges and universities without the prior consent of CLC, which consent shall not be unreasonably withheld.

5. MANNER OF PAYMENT - All amounts payable to University shall be paid in United States dollars by check made payable to Boise State University, and sent to Director of Trademark Licensing and Enforcement (currently Ms. Rachael Bickerton), Office of Trademark Licensing, Boise State University, 1910 University Drive, Boise, Idaho 83725.

6. LEGAL

(a) CLC agrees that, in any matter against a third party arising out of or related to this
Agreement, except when University and CLC have conflicting interests, University shall have the sole right, in University’s discretion, to decide whether to file and prosecute an action or lawsuit, to control the prosecution or defense of any action or lawsuit in which University and CLC are named parties, to appeal any judgment adverse to University as a joint or individual party, or to compromise or settle any potential or pending action or lawsuit. CLC further understands and agrees that University shall have the sole right, in University’s discretion, to select and retain counsel for any of these purposes. University agrees to consult with CLC before making any final decision in any matter in which University and CLC are aligned against a third party, and University further agrees that it shall not commit CLC to the terms of any compromise or settlement which would make CLC wholly or partly responsible for the payment of money to a third party without the prior written consent of CLC, which shall not be unreasonably withheld.

(b) CLC agrees to provide, at reasonable cost to be borne by University, any evidence, documents, and testimony which may be requested by University to assist in the filing, prosecution, settlement, or appeal of any action or lawsuit, or potential action or lawsuit, in any court or in any state or federal agency, against any third party arising out of or related to this Agreement or in the defense by University of any action against University by any third party arising out of or related to this Agreement, and CLC shall join as a party plaintiff or defendant with University at University’s request. In the event CLC is joined in any of said actions, either as party plaintiff or party defendant, it is understood that any expenses incurred by CLC in connection therewith, shall be paid by CLC and University shall have no liability for paying said expenses.

(c) University shall pay the costs and expenses of any action or lawsuit in any court or in any state or federal agency when University is a party thereto against a third party in any matter arising out of or related to this Agreement. Any award of attorneys’ fees in any action in any court or in any state or federal agency shall be paid solely to University, and CLC shall not share therein. Any damages or profits ordered to be paid to University by any third party in any matter arising out of or related to this Agreement will, to the extent that such damages or profits are actually collected by University, be first retained by University to reimburse University fully for all costs and expenses incurred in the action or lawsuit, including compensation for the time spent by University’s employees in connection with the action or lawsuit, and any remaining money, to the extent that it is compensation for royalties otherwise payable, will be divided between University and CLC as specified in Paragraph 4 of this Agreement.

7. NOTIFICATION OF CLAIMS - In the event that either University or CLC learns or becomes aware that any third party has made or may make a claim against University or CLC for any matter arising out of or related to this Agreement, the party learning or becoming aware of such actual or potential claim shall notify the other by telephone or email on the same day, and shall follow such notification with a full written report within 48 hours to be sent both by email and by United States Postal Service mail, certified and with return receipt requested.

8. INQUIRIES - University agrees that, if any potential licensee or other party directs an inquiry to University regarding Licensed Articles, Promotions, Premiums or other trademark use or licensing related issues, such inquiry will be forwarded to CLC for a response. CLC agrees that, upon
receiving any inquiry from a potential licensee, whether from University or directly from such potential licensee, CLC will handle said licensee request in an expeditious manner.

9. RELATIONSHIP OF PARTIES - Nothing herein shall give CLC any right, title, or interest in any Indicia of the University except the limited interest specifically stated in this Agreement, and all use by any licensee of any of the Indicia shall inure to the benefit of University. Neither CLC nor any licensee is empowered to state or imply, either directly or indirectly, that CLC or any licensee or any activities other than those pursuant to this Agreement and licenses issued pursuant to this Agreement are supported, endorsed or sponsored by University, and upon the direction of University, express disclaimers to that effect will be issued. Nothing herein shall be construed to place the parties in the relationship of partners or joint venturers, nor shall any similar relationship be deemed to exist between them.

10. INDEMNIFICATION - University shall have no liability for any item manufactured or sold by a licensee, and CLC shall require all licensees to indemnify and hold harmless University and officers, employees, servants, and agents thereof from any and all liability caused by or arising from workmanship, material or design of any item manufactured or sold under any Indicia pursuant to a license granted pursuant to this Agreement. CLC shall require of each licensee that it have and maintain liability insurance sufficient to cover all foreseeable product liability claims. University shall not be liable to CLC or to any licensee, as the result of activities by CLC or any licensee hereunder for infringement of any patent, copyright, or trademark belonging to any third party, or for damages or costs involved in any proceeding based upon any such infringement, or for any royalty or obligation incurred by CLC or any licensee because of any patent, copyright or trademark held by a third party except where Indicia is used as expressly authorized in this Agreement.

11. TERM - This Agreement shall have an effective date of July 1, 2014 and shall expire on June 30, 2019 (the "Initial Term"), unless sooner terminated or extended in accordance with the provisions hereof. This Agreement shall automatically be extended for additional yearly periods, through June 30, 2024, under the same terms and conditions unless either party shall give twelve (12) months written notice of termination by July 1 of the 4th Contract Year or by July 1 of any subsequent Contract Year.

12. TERMINATION OR EXPIRATION - Upon termination of this Agreement as provided in paragraph 11 above, CLC shall continue to receive compensation outlined in Paragraph 4 for the final Contract Year following notice of termination pursuant to paragraph 11.

13. DEFAULT - If either University or CLC shall fail to perform any of the material terms or conditions of this Agreement and such material breach shall not have been cured within thirty (30) days after the non-defaulting party has given written notice thereof, the non-defaulting party shall have the right to terminate this Agreement, without prejudice to the right of compensation for losses and damages.

14. INSOLVENCY - To the extent then permitted by law, this Agreement shall be terminated immediately if CLC shall make any assignment for the benefit of creditors, or shall file any petition
under the Bankruptcy Act for reorganization, or file a voluntary petition of bankruptcy, or be adjudicated bankrupt or insolvent, or if any receiver is appointed for its business or property, or if any trustee in bankruptcy or insolvency shall be appointed under the laws of the United States or of the several states.

15. NOTICES - All notices and statements to be given and all payments to be made, shall be given or made to the parties at their respective addresses set forth herein, unless notification of a change of address is given in writing. Unless otherwise provided in the Agreement, all notices shall be sent by certified mail, return receipt requested with a copy sent by facsimile, the receipt of which is confirmed by confirmation document; email, confirmed by email receipt confirmation notice; or nationally recognized overnight delivery service that provides evidence of delivery, and shall be deemed to have been given at the time they are sent.

16. SEVERABILITY - In the event any portion of this Agreement is declared invalid or unenforceable for any reason, such portion is deemed severable herefrom and the remainder of this Agreement shall be deemed and remain fully valid and enforceable.

17. NONASSIGNABILITY - This Agreement and any rights herein granted are personal to CLC and shall not be assigned, sublicensed or encumbered without University’s written consent except that the Agreement and rights may be assigned along with CLC’s entire business in licensing the marks of universities, provided the obligations of the Agreement are assumed by the assignee.

18. INTEGRATED AGREEMENT - This Agreement constitutes the entire agreement and understanding between the parties hereto and specifically cancels, terminates and supersedes any prior agreement or understanding relating to the subject matter hereof between the University and CLC. There are no representations, promises, agreements, warranties, covenants or understandings other than those contained herein. None of the provisions of this Agreement may be waived or modified except expressly in writing and signed by both parties. However, failure of either party to require the performance of any term in this Agreement or the waiver by either party of any breach thereof shall not prevent subsequent enforcement of such term nor be deemed a waiver of any subsequent breach. Paragraph headings are for convenience only and shall not add to or detract from any of the terms or provisions of this Agreement. When necessary for appropriate meaning, a plural shall be deemed to be the singular and a singular shall be deemed to be the plural.

19. APPLICABLE LAW; JURISDICTION AND VENUE - This Agreement shall be construed in accordance with the laws of the state of Idaho. Any legal proceeding instituted between the parties to this Agreement shall be in the courts of the County of Ada, State of Idaho, and each of the parties agrees to submit to the jurisdiction of such courts.

20. APPROVAL OF AGREEMENT - This Agreement shall be subject to approval by the Idaho State Board of Education.
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives.

APPENDIX B
EXCEPTIONS

The University concurs in the basic concept that no user of its marks and logos should be exempt from royalty payments and will make every good faith effort to comply with this concept. However, the University reserves the right to exempt any user from royalty payments if circumstances warrant that it would be in the best interests of the University, and does not unduly impact CLC’s ability to generate royalties under this Agreement. The exceptions are set forth below.

- University purchases for internal consumption.
- Boise State Bookstore — stationery items and school supplies only.
- License plates issued through the Idaho Department of Vehicles
- Merchandise produced under University’s crafter license program
- Non-merchandise licensing agreements such as corn mazes, sponsorship agreements and the like.
LEGAL NOTICE
PUBLICATION DATE: September 13, 2023

The Boise State University Procurement and Vendor Services hereby publishes notice of intent to award a sole source procurement. This notice is being given pursuant to Boise State University Purchasing Policy.

The sole source procurement is between Collegiate Licensing Company and Boise State University. Boise State University proposes to purchase products or contract services consisting of the following:

- Customized Brand Management Strategies
- Systems and Data - Brand Manager 360 digital license management toolbox and on-demand program management and analysis.
- National Brand Platform creation for marketing and merchandising
- Retail Development & Marketing
- Corporate Responsibility Commitment
- Brand Protection including collegiate trademark protection and licensed products, including marketplace and online enforcement, contract development and compliance, trademark registration and protection.

The Purchasing Director has determined that there is only one vendor qualified to provide this commodity or service.

Any interested vendor may file a challenge to this sole source procurement, in accordance with Boise State University Purchasing Policy, by giving timely notice, within 5 business days, to:

Eric Knothe - ericknothe@boisestate.edu
Director of Procurement and Vendor Services
Boise State University
1910 University Drive, Mail Stop 1210
Boise, ID 83725-1210

https://www.boisestate.edu/vpfa-p2p/vendor-supplier-information-for-businesses/
BOISE STATE UNIVERSITY

SUBJECT
Online Program Fees for a new undergraduate certificate in AI for All

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.R.

BACKGROUND/DISCUSSION
Boise State University proposes to offer an online undergraduate certificate utilizing an online program fee consistent with Board Policy V.R, Establishment of Fees. The certificate program will operate under the guidelines of Board Policy V.R. as it pertains to wholly online programs.

The new undergraduate certificate in AI for All provides students with an understanding of how to effectively use prominent generative AI platforms. Generative artificial intelligence technologies were released to the public in fall 2022. Given the integration of generative AI technologies in workplaces and the culture at large, students need an opportunity to learn how to effectively use dominant generative AI platforms, identify and understand their weaknesses, and have an opportunity to apply them in their domains of study.

IMPACT
The undergraduate certificate in AI for All is being offered at a price point of $375 per credit which aligns with the majority of Boise State University’s undergraduate online programs. The projected enrollment for FY 25-26 is 5 students; FY 26-27 is 10 students and FY 27-28 are 20 students. There are no additional instructional resources required. The cost of the program is $2,625 (7 credits at $375 per credit).

STAFF COMMENTS AND RECOMMENDATIONS
According to Board Policy V.R.3.b.ii – Institutional Online Program Fee, an institutional online program fee may be changed for any fully online undergraduate, graduate, and certificate program. An online program fee shall be in lieu of resident or non-resident tuition (as defined in Idaho Code §33- 3717B) and all other Board approved fees. An online program is one in which all courses are offered and delivered via distance learning modalities, provided however, that limited on-campus meetings may be allowed if necessary for accreditation purposes or to ensure the program is pedagogically sound.

Boise State’s request to assess an online program fee of $375 per credit for the AI for All undergraduate certificate aligns with criteria as defined in Board Policy V.R.3.b.ii.

Staff recommends approval.
BOARD ACTION

I move to approve the request by Boise State University to charge an online program fee of $375 per credit for the undergraduate certificate in Al for All.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
UNIVERSITY OF IDAHO

SUBJECT
Renewal of existing lease from College of Southern Idaho for the University of Idaho’s (UI’s) College of Agricultural and Life Science Research and Extension programs in Twin Falls.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.2(a)

BACKGROUND/DISCUSSION
Since at least 2007, the University of Idaho College of Agricultural and Life Sciences (CALS) has occupied office space at the College of Southern Idaho. The current lease covers 13,111 square feet at CSI’s Evergreen Building. UI CALS substantial presence and service in the Twin Falls region is integral to its education, research and outreach mission for the State, and the University requests permission to extend that lease as provided by the attached draft lease. While UI occupation of the CSI campus has been covered by a continuous series of 1-3 year leases since 2007, prior Board of Regents policy did not require Board approval for each periodic renewal so long as no single term exceeded five years or the rent exceeded the approval threshold established by the then current Board policy. However, August 2023 Board policy changes appear to now require Board approval for any extension of an existing term of a lease when such extension results in a cumulative period of occupation exceeding five years. Aside from periodic escalations in rent to cover increased operating costs by CSI, the terms of the lease have remained essentially unchanged for several years.

IMPACT
The rent amount assessed by CSI is calculated to only cover operating expenses for the space provided by CSI, so the costs of occupation are less than could be secured at commercial spaces in the local market and these costs will be covered by CALS operating budget as they have been covered previously.

ATTACHMENTS
Attachment 1 – Draft Lease Agreement

STAFF COMMENTS AND RECOMMENDATIONS
Board Policy V.I.2(a) – Institutional Approval Authorization Limits requires Board approval for all transactions for institutional leases of real property (as lessee or lessor) if lease amount is over $2M, or the term of the lease exceeds 5 years.

The policy was updated in August 2023 to include the following language that pertains to this lease renewal between the University of Idaho (UI) and College of Southern Idaho (CSI), “If the lease term including renewal terms did not exceed 5
years under the original term of a lease, but through amendment the term is extended, Board approval is required."

The lease terms and details are in substantial conformance with Board policy.

Staff recommends approval.

BOARD ACTION

I move to approve the request by the University of Idaho to enter into a lease with the College of Southern Idaho in substantial conformance to the form submitted to the Board in Attachment 1 and to authorize the University’s Associate Vice President for Budget and Planning to execute the lease and any related transactional documents.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
LEASE AGREEMENT

THIS LEASE AGREEMENT (the "Lease") is entered into by and between College of Southern Idaho, 315 Falls Avenue, Twin Falls, ID 83303, a public body organized and existing under the laws of the State of Idaho, hereinafter referred to as "Lessor" and the Board of Regents of the University of Idaho, a state educational institution and a body politic and corporate organized and existing under the Constitution and laws of the State of Idaho hereinafter referred to as the "Lessee".

WHEREFORE, in consideration of the mutual covenants, agreements, and conditions contained in this Lease Agreement, the Lessor and Lessee agree as follows:

I. Lease of Premises. Lessor is the owner of the following described real property situated in Twin Falls County, State of Idaho: Agricultural Science Center Building on the College of Southern Idaho Campus, 315 Falls Avenue East, Twin Falls, Idaho as shown on the attached Exhibit A and hereinafter referred to as the "Leased Premises". Lessor agrees to lease approximately 13,111 square feet of the Leased Premises to the Lessee for the purpose of providing office, meeting, lab, and classroom space for the University of Idaho's College of Agriculture and Life Science, Twin Falls Research and Extension Center. Lessee is also hereby authorized for the non-exclusive use of any common areas necessary to access or support the use of the Leased Premises (including but not limited to reception areas, storage rooms, hallways and bathrooms) in the building in which Leased Premises is located. During the Lease Term, Lessor covenants on behalf of itself and its respective successors and assigns to provide quiet and peaceable possession of the Leased Premises to Lessee, subject to the express provisions of this Lease. Lessee, subject to reasonable size and installation requirements of Lessor, may install a sign identifying Lessee's location and operation within the building. Such installation shall be at Lessee's sole expense and shall be subject to Lessor's approval, which approval shall not be unreasonably withheld or delayed. This Lease provides no parking spaces. Smoking is prohibited in Leased Premises and in the building in which the Leased Premises are located. Lessor shall provide use of classroom space elsewhere on campus on an "as needed" and "as available" basis.

Lessor will provide Lessee's faculty and staff that occupy stated Leased Premises the same entitlements as Lessor's own faculty and staff, including but not limited to use of the Telecommunications Center and the Audio and Television Production Center at cost, and no cost use of Library facilities.

2. Lease Term. The Lease Term will commence on August 1, 2024, and will continue through July 31, 2027, such Term is subject to continued funding of the College of Agricultural and Life Science programs. Lessee shall have the right to terminate this Lease by providing, in advance, a written 30-day notice to Lessor should the program not have sufficient funding to maintain this location.

3. Lease Payment. Lessee shall pay to Lessor $120,972 before August 1, 2024, for the period of August 1, 2024, until July 31, 2025. Lessee shall pay to Lessor $124,602 before August 1, 2025, for the period of August 1, 2025, until July 31, 2026. Lessee shall pay to Lessor $128,340 before August 1, 2026, for the period of August 1, 2026, until July 31, 2027.
Lessee agrees to send the Lease Payment to Lessor by mail at the address contained in the Notice provisions of this Lease.

4. **Inspection, Repairs, Alteration and Waste.** Lessee has inspected the Leased Premises and leases it "AS IS". Normal or usual repairs or alterations needed by Lessee over the term of the Lease required to maintain the existing condition of the Leased Premises shall be at the Lessor's expense. Major structural alterations desired by Lessee must have prior approval of Lessor's President or Vice President of Administration, such approval not to be unreasonably withheld, and will be accomplished at Lessee's expense. In the event the agreement is terminated prior to the initial term, as provided in paragraph 2, the parties will negotiate and arrive at mutual agreement concerning reimbursement by Lessor to Lessee for the cost of major alterations paid for by Lessee which enrich the values of the property. In the event the Parties cannot mutually agree, the Parties will submit the dispute to mediation. Lessee will not commit waste on the Leased Premises, nor will it disfigure or deface any part of the building, grounds, or any other part or portion of the Leased Premises, including fixtures.

5. **Utilities, Janitorial and Property Taxes.** Lessor shall pay for all the utility charges for the Leased Premises including, but not limited to electricity, natural gas, water, sewer, solid waste, maintenance, including grounds and parking areas, and custodial costs. Lessee shall pay for telephone, internet and cable or satellite television services assessed by the service provider for Lessee's use of the Leased Premises. Lessor shall pay for all property taxes relating to the Leased Premises.

6. **Liability.** Each party shall be responsible only for the acts, omissions or negligence of such party and such party's own employees and agents. Nothing in this Agreement shall extend the tort responsibility or liability of Lessee or the State of Idaho beyond that required by law, including the Idaho Tort Claims Act, Idaho Code section 6-90I, et seq. Each party shall be responsible for damage to property of the other party caused by such party and such party's employees and agents in the performance of the Agreement. If Lessee's liability for property claims or damage is not covered by the Lessee's self-insurance or other property coverage, Lessee shall pay the costs arising from such claim or damage to the extent funds are legally available, therefore. If a claim or damage arises from more than one party's performance of the Agreement or is not allocable to any party, each party shall pay the costs to such party arising from the claim or damage.

7. **Insurance.** Lessor hereby releases Lessee and its respective officers, agents, employees and servants, and Lessee hereby releases Lessor and its respective officers, agents, employees and servants, from any and all claims or demands for damages, loss, expense or injury to the Premises, or to the furnishings, fixtures, and/or equipment or inventory or other property of either Lessor or Lessee in, about or upon the Premises, as the case may be, which be caused by or result from perils, events or happenings which are the subject of insurance carried by the respective parties and in forces at the time of any such loss; provided, however, that such waiver shall be effective only to the extent permitted by the insurance covering such loss and to the extent such insurance is not prejudiced thereby or the expense of such insurance is not thereby increased.

8. **Damage or Destruction Renders Leased Premises Unfit for Occupancy.** If, during the term of this Lease the Leased Premises, or any portion thereof, shall be destroyed or damaged by fire, water, wind or any other cause not the fault of the Lessee so as to render the Leased Premises unfit

---

**CONSENT - BAHR**
**APRIL 17-18, 2024**
**ATTACHMENT 1**
for occupancy by Lessee, this Lease shall be automatically terminated and at an end. Lessee shall immediately surrender the Leased Premises to the Lessor and shall pay rent only to the time of such surrender. If comparable and acceptable space can be provided by the Lessor within thirty (30) days of the date of destruction or damage, the Lessee may elect, at its sole option, to relocate to such substitute space. Rents will be continued upon occupancy at: (i) the current lease rate; or (ii) the market rate for the substitute space, whichever is less. Such relocation shall be for the remainder of this Lease Agreement or any extension.

9. **Hazardous Material Use.** Lessor and Lessee shall not cause or permit any Hazardous Material to be brought upon, kept, used, disposed, or discharged, in, on, from or about the Leased Premises by their agents, employees, contractors, customers, clients, guests or invitees except as incidental to Lessee's permitted use of the Leased Premises or Lessor's maintenance, repair or other ownership obligations for the Leased Premises, and only in quantities that are less than the quantities that are required to be reported to governmental or other authorities under applicable law or regulations. Lessor and Lessee shall comply with all applicable laws and regulations regulating the use, reporting, storage, discharge and disposal of Hazardous Material. As used in the Lease, the term "Hazardous Material" means any hazardous or toxic substance, material or waste that is or becomes regulated by any federal, state or local governmental authority or political subdivision. The term "Hazardous Material" includes, without limitation, any material or substance that is (i) defined as a "hazardous substance" under applicable law, (ii) petroleum, (iii) asbestos, (iv) polychlorinated biphenyl ("PCB"), (v) designated as a "hazardous substance" pursuant to Section 311 of the Federal Water Pollution Control Act (33 U.S.C. §1321), (vi) defined as a "hazardous waste" pursuant to Section 1004 of the Solid Waste Disposal Act (42 U.S.C. §6903), (vii) defined as a "hazardous substance" pursuant to Section 101 of the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. §9601), (viii) defined as a "regulated substance" pursuant to Section 9001 of the Solid Waste Disposal Act (Regulation of Underground Storage Tanks), 42 U.S.C. §6991, (ix) considered a "hazardous chemical substance and mixture" pursuant to Section 6 of the Toxic Substance Control Act (15 U.S.C. § 2605), or (x) defined as a "pesticide" pursuant to Section 2 of the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. § 136).

10. **Prohibition on Lessee Assignment.** Lessee may not assign all or a part of this Lease unless Lessee first obtains the written consent of Lessor.

11. **Default, Termination and Right of Reentry.** It is expressly understood and agreed that if Lessee or Lessor fails to comply with any of the material covenants or agreements contained in the Lease, the other party, at its option, may declare the non-complying party in default of this Lease and shall provide written notice of such default declaration to the non-complying party. Following receipt of a notice of default, the defaulting party shall have thirty (30) days to cure the default. A default shall be deemed to have occurred if a defaulting party fails to cure a default within the time provided herein. In the event of a default by Lessor, Lessee shall have the right to immediately terminate the lease without penalty, owing only rent due as of the date of termination and to take whatever action is permissible under applicable law. In the event of a default by Lessee, Lessor shall have the right to take whatever action is permissible under applicable law and, upon three (3) days written notice, evict Lessee and reenter Leased Premises without termination of the Lease. If at any time the tenancy shall be ended as described above, or should Lessor elect to reenter the premises upon Lessee's default or abandonment, or should the Lessor or Lessee terminate this Lease, Lessee hereby agrees to surrender and deliver Leased Premises to Lessor peacefully and
immediately. If the Lease has not been terminated by 180 day written notice agreed to by both parties, Lessee shall be liable for rent until the Leased Premises are re-let or the lease term has expired; whichever occurs first. Lessor shall have the duty to seek to re-let the Leased Premises as soon as possible and with as much effort as is reasonable within the industry.

12. **Notice.** Any notice under this Lease shall be in writing and be delivered in person or by public or private courier service (including US Postal Service Express Mail and Federal Express) or registered or certified mail shall be sent with return receipt requested. Any notice given by facsimile shall be verified by a facsimile confirmation. All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing.

   If to Lessor: College of Southern Idaho  
   Vice President of Administration  
   PO Box 1238  
   Twin Falls, ID 83303-1238  
   (208) 732-6203

   If to Lessee: University of Idaho  
   Vice President for Finance and Administration  
   875 Perimeter Drive MS 3168  
   Moscow, ID 83844-3168  
   Phone: (208) 885-2127

Either party hereto may, by proper notice to the other designate any other address for the giving of notice. Any notice shall be deemed to have been given on (a) actual delivery or refusal, (b) the day of the mailing by registered or certified mail, or (c) the day facsimile delivery is verified.

13. **Officials, Agents and Employees of Lessee Not Personally Liable.** Lessor and Lessee agree that in no event shall any official, officer, employee or agent of the Lessee be in any way personally liable or responsible for any covenant or agreement contained in this Lease Agreement, whether expressed or implied, nor for any statement, representation or warranty made here in or in any way connected with this Lease Agreement or the Leased Premises.

14. **Entry.** Lessor may at all reasonable times enter to view the Leased Premises to make repairs or show Leased Premises to persons who may wish to lease or buy the same. Lessor shall make every effort to notify Lessee in advance of such showings and repairs to minimize interruption of Lessee's ongoing business activities.

15. **No Partnership.** It is expressly understood and acknowledged that Lessor does not, in any way or for any purpose, become a partner of Lessee in the conduct of its business, or otherwise, or a joint venture or a member of a joint enterprise with Lessee, and that the relationship of Lessor and Lessee hereunder is strictly that of Lessor and Lessee.

16. **Written Modifications.** No modification, release, discharge, or waiver of any provisions hereof shall be of any force, effect or value unless in writing signed by Lessor or Lessor's duly authorized agent or attorney and by Lessee.
17. **Binding Effect.** This Agreement is for the benefit only of the parties hereto and shall inure to the benefit of and bind the parties and their respective heirs, legal representatives, successors and assigns.

18. **Commissions.** Lessee has not employed the services of any person acting as a real estate broker, agent, or finder for the negotiation or execution of this lease and Lessee has no leasing commissions, fees or similar charges payable to any person or entity as a result of its execution of this lease.

19. **Nondiscrimination and Affirmative Action.**

   A. Lessor and Lessee shall not discriminate against any employee or applicant for employment in the performance of this Lease Agreement, with respect to tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment, because of race, sex, color, religion, age, status as disabled or a veteran, or physical or mental handicaps, national origin or ancestry. Breach of this covenant may be regarded as a material breach of this Lease. Lessor and Lessee certify that they do not and will not maintain segregated facilities or accommodations on the basis of race, color, religion or national origin. Regarding any position for which an employee or an applicant is qualified, the Lessor and Lessee agree to take affirmative action to employ, train, advance in employment, and retain individuals in accordance with applicable laws and regulations including:

   1. For nondiscrimination based on race, color, religion, sex or national origin, this includes, but is not limited to, the U.S. Constitution, and Parts II and IV of Executive Order 11246, September 24, 1965 (30 FR 12319). Grantee disputes related to compliance with its obligations shall be handled according to the rules, regulations, and relevant orders of the Secretary of Labor (See 41 CFR 60-1.1).

   2. For nondiscrimination based on Disabled or Vietnam Veterans this includes, but is not limited to, the Vietnam Era Veterans Readjustment Assistance Act of 1972, as amended (38 U.S.C. 4012) (the Act); Executive Order 11701, January 24, 1973 (38 CFR 2675, January 29, 1973); and the regulations of the Secretary of Labor (41 CFR Part 60-250).

   3. For nondiscrimination based on the Handicapped this includes, but is not limited to, Section 503 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 793) (the Act); Executive Order 11758, January 15, 1974; and the regulations of the Secretary of Labor (41 FR Part 60-741).

   4. For nondiscrimination based on Age this includes, but is not limited to, Executive Order 11141, February 12, 1964 (29 CFR 2477).

   B. Lessor and Lessee shall include the terms of this clause in every subcontract or purchase order exceeding $50,000 and shall act as specified by the Department of Labor to enforce the terms and implement remedies.
20. **Attorneys' Fees.** In the event of any controversy, claim or action being filed or instituted between the parties to this Lease to enforce the terms and conditions of this Lease or arising from the breach of any provision hereof, the prevailing party will be entitled to receive from the other party all costs, damages, and expenses, including reasonable attorneys' fees, incurred by the prevailing party, whether or not such controversy or claim is litigated or prosecuted to judgment. The prevailing party will be that party who was awarded judgment as a result of trial or arbitration, or who receives a payment of money from the other party in settlement of claims asserted by that party.

21. **Counterparts.** This Lease may be executed in any number of counterparts and once so executed by all parties thereto, each such counterpart shall be deemed to be an original instrument, but all such counterparts together shall constitute but one agreement.

22. **Venue; Governing Law.** Any legal proceeding instituted between the parties shall be in the courts of the county in which the Premises are located, and each of the parties agrees to submit to the jurisdiction of such courts. It is further agreed that this Lease shall be governed by the laws of the State of Idaho.

23. **Time of Essence.** All times provided for in this Lease, or in any other document executed hereunder, for the performance of any act will be strictly construed, time being of the essence.

24. **Entire Agreement.** This Lease represents all the transactions contemplated by the parties hereto. It is understood and agreed by the parties that there are no verbal promises or implied promises, agreements, stipulations, or other representations of any kind or character pertaining to the Premises between them other than as set forth in this Lease.

UNIVERSITY OF IDAHO

SUBJECT
Renewal of existing lease from College of Southern Idaho for the University of Idaho’s (UI’s) Admissions office in Twin Falls.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.2(a)

BACKGROUND/DISCUSSION
Since 2015, the University of Idaho’s Office of Strategic Enrollment Management has occupied a single office space and some shared space at the Hepworth Building on the College of Southern Idaho campus. The office is used for admissions services for students transferring to the University of Idaho, and the University requests permission to extend that lease as provided by the attached draft lease. While UI occupation of this space has been covered by a series of 1-3 year leases since 2015, prior Board of Regents policy did not require Board approval for each periodic renewal so long as no single term exceeded five years or the rent exceeded the approval threshold established by the then current Board policy. However, August 2023 Board policy changes appear to now require Board approval for any extension of an existing term of a lease when such extension results in a cumulative period of occupation exceeding five years. Aside from periodic escalations in rent to cover increased operating costs, the terms of the lease have remained essentially unchanged for several years.

IMPACT
The rent amount assessed by CSI is calculated to only cover operating expenses for the space provided by CSI, so the costs of occupation are less than could be secured at commercial spaces in the local market and other locations would not be as convenient for transferring students. Leasing costs will be covered by appropriate UI operating budget sources as they have been in the past.

ATTACHMENTS
Attachment 1 – Draft Lease Agreement

STAFF COMMENTS AND RECOMMENDATIONS
Board Policy V.I.2(a) – Institutional Approval Authorization Limits requires Board approval for all transactions for institutional leases of real property (as lessee or lessor) if lease amount is over $2M, or the term of the lease exceeds 5 years.

The policy was updated in August 2023 to include the following language that pertains to this lease renewal between the University of Idaho (UI) and College of Southern Idaho (CSI), “If the lease term including renewal terms did not exceed 5
years under the original term of a lease, but through amendment the term is extended, Board approval is required."

The lease terms and details are in substantial conformance with Board policy.

Staff recommends approval.

BOARD ACTION
I move to approve the request by the University of Idaho to enter into a lease with the College of Southern Idaho in substantial conformance to the form submitted to the Board in Attachment 1 and to authorize the University’s Associate Vice President for Budget and Planning to execute the lease and any related transactional documents.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
LEASE AGREEMENT

This agreement is entered into by the Board of Regents of the University of Idaho, a state educational institution and body politic and corporate organized and under the laws and Constitution of the State of Idaho, hereinafter referred to as “Lessee” and the College of Southern Idaho, a public body organized and existing under the laws of the State of Idaho, hereinafter referred to as “Lessor,” for the premises located at 315 Falls Avenue, Twin Falls, Idaho.

1. LEASE OF PREMISES. The Lessor does hereby demise and lease to the Lessee the Premises situated in the City of Twin Falls, County of Twin Falls, State of Idaho known and described as follows: 315 Falls Avenue, consisting of one office as shown on Exhibit A. Lessee shall also be provided shared access with Idaho State University and Boise State University a conference room, an office equipment room, one storage room, and a reception area. The lease of the Premises includes the right, together with other tenants of the Building and their employees and business invitees, to use the common public areas of the Building for their intended use and subject to the other provisions of this Agreement but includes no other rights not specifically set forth herein.

2. TERM. The term of the Agreement is thirty-six (36) months. As time is of the essence, the term of this Agreement shall begin on July 1, 2024, and shall end at midnight on June 30, 2027. The Parties agree that this Agreement is subject to the termination, expiration, and renewal rights set forth in this Agreement.

3. PAYMENT. Lessee shall pay Lessor a fixed payment for the term of this Agreement in annual installments of $6,707 for year one, $6,707 for year two and $6,707 for year three. Lessor agrees to provide Lessee with an invoice for lease payments. Any payment that is made no later than sixty (60) days after it is actually due shall not be considered an event of default. Lessee shall use its best effort to expedite payment. It is expressly covenanted and agreed that any prepayment of rent made by Lessee under the terms of this Agreement shall be considered as an advance payment of rent only and no part thereof shall be considered as a security or cash deposit.

4. SERVICES AND PARKING. The Lessor covenants that it will provide, perform, and pay for the services, maintenance, and parking as follows:

A. Utilities:
   Domestic water and sewer, electricity, natural gas, and irrigation.
B. Facility Repair and Maintenance:
   General Building structure and related equipment (Interior and Exterior).
   Heating system and related equipment.
   Cooling and air handling system and related equipment.
   Electrical system and related equipment.
   Sewer and plumbing systems and related equipment.
   Exterior lighting, including landscaped areas, parking area, and walkway.
   Cleaning ground and parking area of debris _X_weekly_ monthly _other.
   Common area janitorial service _X_daily week (excluding weekends and holidays).
   Trash removal from property _X_weekly _ other: _____
Furnishing of all washroom materials, including paper products, soap, cleaning supplies, and equipment.
Light bulb and fluorescent tube replacement.
Ice and snow removal prior to start of each business day.
Lawn and shrubbery care weekly during season.

C. Custodial Services:
   Complete janitorial service X five times per week (excluding weekends and holidays).
   Trash removal from Premises X five times per week (excluding weekends and holidays).
   Window cleaning X quarterly.
   Carpet spot cleaning _ semi-annually X as needed.
   Shampoo carpet _ semi-annually X as needed.

D. Computer Network and Phone System: Lessor shall provide access to its computer network and telephone lines. Lessees to each supply their own equipment.

E. Building Hours: The Premises shall be made available to Lessees during the hours of 8:00 A.M. to 5:00 P.M., Monday through Friday.

5. TERMINATION OF AGREEMENT. Lessor may terminate this Agreement in whole or in part at any time after a one-year period from the effective date, by providing Lessee with ninety (90) days written notice prior to the date such termination is to be effective. Lessee may terminate this Agreement in whole or in part at any time after a one-year period from the effective date, by providing Lessor with ninety (90) days written notice prior to the date such termination is to be effective.

6. USE OF PREMISES. Lessee shall use the Premises solely for the purpose of conducting its business and shall at all times comply with all laws, regulations and ordinances. Management and delivery of specific program services and management of the Lessor’s and Lessees individual staff members shall remain the responsibility of the party responsible for the individual(s) and program services, and functions or separateness mandated by state statute or public law will not be violated or abridged in the pursuit of co-location. Services will continue to be performed in accordance with federal and state regulations pertaining to each party.

7. NOTICES. Any notice, request, claim, or other document or instrument, which is required by this Agreement shall be deemed and delivered when it is personally delivered or sent by certified mail to the address of the party as set forth in Attachment I.

8. REPAIRS AND ALTERATIONS. Lessee will not commit waste on the Premises, nor will Lessee disfigure or deface any part of the building, grounds, or any other part of the Premises, including fixtures. Lessee further covenant that upon return, the Premises will be in the same condition as originally received, reasonable wear and tear accepted. Repairs, except those actually necessitated by Lessee's waste. Disfigurement or defacement, and except for repairs required by the removal of Trade Fixtures shall be made solely at the Lessor's expense. Any repairs shall be done in a skillful manner and must comply with all applicable codes, ordinances, rules and regulations.
Except as otherwise agreed, subsequent to the Effective Date and during the term of this agreement and any extension, neither Lessor nor Lessee shall make any alterations, additions or improvements to the Premises without the prior written consent of the other. Any alterations, whether performed by Lessor or Lessee, must be made in a skillful manner and must comply with all applicable codes, ordinances, rules and regulations.

Notwithstanding any other provision of this Agreement, Trade Fixtures, as defined in this Agreement, installed by Lessee shall, at the option of Lessee, not become the property of the Lessor and, upon the termination of this Agreement, the Lessee may remove such Trade Fixtures and return the Premises in as close to original condition as possible, reasonable wear and tear accepted. For purposes of this Agreement, a Trade Fixture is defined as personal property used by the Lessee in the conduct of its business and includes items such as, but not limited to, shelves and reception counters.

9. SUFFICIENT APPROPRIATION BY LEGISLATURE REQUIRED. All parties to this Agreement are government entities and this Agreement shall in no way or manner be construed to bind or obligate the State of Idaho beyond the term of any particular appropriation of funds as may exist from time to time. Each party reserves the right to terminate this Agreement, if, in its judgment, the legislature of the State of Idaho fails, neglects or refuses to appropriate sufficient funds as may be required for either party to continue payments under this Agreement. All future rights and liabilities of the Lessor and Lessee hereto shall thereupon cease within ten (10) days after notice to that other party.

10. FIRE OR DAMAGE. If, during the term of this Agreement, the Premises, or any portion thereof, shall be destroyed or damaged by fire, water, wind or any other cause not the fault of Lessee so as to render the Premises unfit for occupancy by Lessee, this Agreement shall be automatically terminated and at an end. Lessee shall immediately surrender the Premises to Lessor and shall pay rent only to the time of such surrender. If comparable and acceptable office space can be provided by the Lessor within thirty (30) days of the date of destruction or damage, Lessee may elect, at its sole option, to relocate to such substitute office space and all relocation costs shall be at the sole expense of the Lessor. Rents will be continued upon occupancy at the lesser of: (i) the current lease rate or (ii) the market rate for the substitute space. Such relocation shall be for the remainder of this Agreement or any extension.

11. OFFICIALS, AGENTS AND EMPLOYEES OF LESSEE NOT PERSONALLY LIABLE. It is agreed by and between the Parties that in no event shall any official, officer, employee, or agent of the State of Idaho be in any way liable or responsible for any covenant or Agreement contained in this Agreement, express or implied, nor for any statement, representation or warranty made in or in any way connected with this Agreement or the Premises. In particular, and without limitation of the foregoing, no full-time or part-time agent or employee of the State of Idaho shall have any personal liability or responsibility under this Agreement, and the sole responsibility and liability for the performance of this Agreement and all the provisions and covenants contained in this Agreement shall rest in and be vested with the State of Idaho.

12. RELATION OF PARTIES. The Parties agree and acknowledge that neither shall be considered the employer, agents, representative, or contractor of the other by reason of this Agreement.
13. **LIABILITY** Each party shall be responsible only for the acts, omissions or negligence of such party and such party's own employees and agents. Nothing in this Agreement shall extend the tort responsibility or liability of Lessee or the State of Idaho beyond that required by law, including the Idaho Tort Claims Act, Idaho Code section 6-901, et seq. Each party shall be responsible for damage to property of the other party caused by such party and such party's employees and agents in the performance of the Agreement. If Lessee's liability for a property claims or damage is not covered by the Lessee's self-insurance or other property coverage, Lessee shall pay the costs arising from such claim or damage to the extent funds are legally available therefor. If a claim or damage arises from more than one party's performance of the Agreement or is not allocable to any party, each party shall pay the costs to such party arising from the claim or damage.

14. **INSURANCE.** Lessor hereby releases Lessee and its respective officers, agents, employees and servants, and Lessee hereby releases Lessor and its respective officers, agents, employees and servants, from any and all claims or demands for damages, loss, expense or injury to the Premises, or to the furnishings, fixtures, and/or equipment or inventory or other property of either Lessor or Lessee in, about or upon the Premises, as the case may be, which be caused by or result from perils, events or happenings which are the subject of insurance carried by the respective parties and in forces at the time of any such loss; provided, however, that such waiver shall be effective only to the extent permitted by the insurance covering such loss and to the extent such insurance is not prejudiced thereby or the expense of such insurance is not thereby increased.

15. **DEFAULT.** In the event that either party shall default in the performance of any material term, covenant, or condition of this Agreement, the party alleging default must provide written notice of said default, specifying the alleged default, and the receiving party shall have fifteen (15) business days to cure or shall immediately provide written documentation that it is proceeding to cure the default in an expedited manner (e.g., working overtime, express delivery, etc.).

16. **HANDICAP ACCESSIBILITY.** Space leased by the State of Idaho will meet or exceed standards for handicap accessibility as set out in the American National Standards Institute (ANSI A117-1); Americans with Disabilities Act, Americans with Disabilities Accessibility Guidelines (ADAAG) and applicable regulations; the International Building code; all state-adopted codes and standards; and such federal regulations as may be applicable to the occupying agency.

17. **BUILDING SAFETY.** All buildings owned or maintained by any State government agency or entity, or which are constructed or renovated specifically for use or occupancy by any such agency or entity shall conform to all existing state codes, including but not restricted to, the Idaho General Safety and Health Standards, the International Building Code, the International Mechanical Code and the International Fire Code. Prior to construction or remodeling of such buildings, where appropriate, construction plans shall be reviewed and approved by the Division of Building Safety and the State Fire Marshall’s Office.

18. **SMOKING.** Executive Order 2005-10 requires that all State-owned or State-leased buildings, facilities or area occupied by State employees shall be designated as “non-smoking” except for custodial care and full-time residential facilities. The policy governing custodial care and full- time residential facilities may be determined by the directors of such facilities.
19. **MATERIAL REPRESENTATIONS.** The Parties agree and acknowledge that the representations and acknowledgements made in this Agreement are material and the Parties have relied upon them in entering this Agreement.

20. **SEVERABILITY.** If any term or provision of this Agreement is held by the courts to be illegal or in conflict with any existing law, the validity of the remaining terms and provisions shall not be affected, and the rights and obligations of the Parties shall be continued and enforced as if the invalid term or provision were not contained in this Agreement.

21. **COMPLETE STATEMENT OF TERMS.** No other understanding whether oral or written, whether made prior to or contemporaneously with this Agreement, shall be deemed to enlarge, limit, or otherwise affect the operation of this Agreement.

**LESSEE:** Board of Regents of the University of Idaho

UNIVERSITY OF IDAHO

SUBJECT
Renewal of existing lease at the University of Idaho (UI) College of Agricultural and Life Sciences’ Agribusiness Incubator for Nature’s Indulgence Granola, Inc. in Caldwell.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.2(a)

BACKGROUND/DISCUSSION
Since 2015, UI CALS has leased commercial space at its Agribusiness Incubator in Caldwell to a local business, Nature’s Indulgence Granola, Inc. The Regents acquired the property in the 1990s to promote local economic development by providing suitable commercial space to serve local small business needs and to receive support from on-site UI expertise. This is one of several private tenants in this facility that continues business development with recurring, shorter term lease renewals or amendments. The attached draft lease is simply a one-year renewal of an oft renewed lease arrangement that obligates each party to only one more one-year term (in this case with an even shorter early termination provision). In the past, such periodic short-term renewals or amendments for low value leases did not require Board approval when the new term is for a period of less than five years. However, August 2023 Board policy changes appear to now require Board approval for any extension of an existing term of a lease when such extension results in a cumulative period of occupation exceeding five years. Aside from periodic escalations in rent to cover increased operating costs of the facility, the terms of the lease have remained essentially unchanged for several years.

IMPACT
UI CALS collects lease revenue from its operation of the facility to cover expenses of occupancy and management of the facility.

ATTACHMENTS
Attachment 1 – Draft Lease Agreement

STAFF COMMENTS AND RECOMMENDATIONS
Board Policy V.I.2(a) – Institutional Approval Authorization Limits requires Board approval for all transactions for institutional leases of real property (as lessee or lessor) if lease amount is over $2M, or the term of the lease exceeds 5 years.

The policy was updated in August 2023 to include the following language that pertains to this one-year lease renewal extension for commercial space between the University of Idaho (UI) and Nature’s Indulgence Granola at UI’s Agribusiness
Incubator located in Caldwell, “If the lease term including renewal terms did not exceed 5 years under the original term of a lease, but through amendment the term is extended, Board approval is required.”

The lease terms and details are in substantial conformance with Board policy.

Staff recommends approval.

BOARD ACTION
I move to approve the request by the University of Idaho for authority to enter into a lease with Nature’s Indulgence, Inc. in substantial conformance to the form submitted to the Board in Attachment 1 and to authorize the University’s Associate Vice President for Budget and Planning to execute the lease and any related transactional documents.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
THIS TENANT LEASE (“Lease”) is made by and between THE BOARD OF REGENTS OF THE UNIVERSITY OF IDAHO (“Landlord”) and NATURE’S INDULGENCE GRANOLA, INC, an Idaho corporation (“Tenant”). Landlord hereby leases to Tenant and Tenant hereby leases from Landlord the Premises (hereinafter defined) upon all of the terms and conditions provided herein.

ARTICLE 1
PREMISES/ FACILITY/PARKING

1.1 Premises
The premises comprise the area shown as Units L and M on the floor plan attached hereto as Exhibit A (“Premises”). Premises is located at 1904 E Chicago St, Caldwell ID 83605 and located in a building, together with related driveways, parking areas, fixtures and improvements (“Facility”).

1.2 Common Areas
Subject to the terms of this Lease, Tenant shall have the non-exclusive right in common with other occupants of the Facility, to use certain access roads, parking areas, sidewalks, entrances, corridors, grounds, lobby areas, meeting rooms, common restrooms, and other building amenities within the Facility provided and designated from time to time by Landlord for the general use and convenience of the occupants of the Facility (collectively, “Common Areas”).

1.3 Parking
Tenant’s use of the Common Areas shall include use, on an unassigned basis, of those portions of the Common Areas designated by Landlord from time to time for Tenant parking and access to such parking. Parking spaces available to Tenant shall be used for parking only by vehicles no larger than full-sized passenger automobiles. No overnight parking for Tenant vehicles is permitted without the written consent of Landlord. Tenant shall not permit or allow any vehicles that belong to or are controlled by Tenant or Tenant’s employees, suppliers, shippers, customers or invitees to be loaded or parked in areas other than those designated by Landlord for such activities. If Tenant permits or allows any of the prohibited activities described in this Section, Landlord shall have the right, in addition to all other rights and remedies that it may have under this Lease, to remove or tow away the vehicle involved without prior notice to Tenant and the cost thereof shall be paid to Landlord within ten (10) days after notice from Landlord to Tenant.

ARTICLE 2
LEASE TERM/CONDITION OF PREMISES

2.1 Lease Term
Lease term shall commence on May 1, 2024, and shall terminate on April 30, 2025. This Lease may also be terminated prior to the Lease termination date by either party. The party choosing to terminate must provide sixty days’ written notice to the other party.
2.2 Improvement to Premises and Acceptance of Condition of Premises

If improvements to the Premises and/or Facility are deemed necessary by the parties, Landlord shall arrange and perform that work and make the installations in the Premises and/or Facility substantially as listed in Exhibit B (the “Improvements to Premises”). If no work is deemed necessary by Landlord and Tenant, Exhibit B shall simply state “No improvements to Premises or Facility necessary”, and such statement shall be deemed as Tenant’s acknowledgement and acceptance of Premises and Facility “AS IS”. Other than as listed in Exhibit B, Landlord has no obligation to improve, alter or remodel the Premises or Facility beyond repair and maintenance of the existing facility infrastructure as provided herein and Tenant hereby acknowledges that no improvements beyond those specified in Exhibit B shall be provided by Landlord. All such installations provided herein shall immediately become and remain the property of Landlord.

ARTICLE 3
PAYMENT OF RENT/ADDITIONAL RENT

3.1 Amount and Payment of Monthly Rent and Additional Rent

Tenant agrees to pay monthly rent of $1485 for each month of the Lease term to Landlord on or before the first day of that month for which rent is due, e.g. payment for January shall be due on January 1. If the first day of the month falls on a weekend or holiday payment shall be due the first University business day thereafter. Payment must be RECEIVED by the close of business on the due date to be considered timely. Without separate invoice from Landlord, Tenant shall make its monthly rent check payable to “Bursar, University of Idaho” and forward payment to the University of Idaho Agribusiness Office at 1904 E Chicago Street, Caldwell ID 86305, or to such other address as Landlord may designate in writing. All other monies besides monthly rent payable by Tenant to Landlord under this Lease shall be deemed to be additional rent and shall be separately invoiced by Landlord and payable and recoverable as rent in the manner herein provided and Landlord shall have all rights against Tenant for default in any such payment. Rent shall be paid to Landlord during the entire term of this Lease, without abatement, deduction or set-off of any kind. Tenant’s obligation to pay all rent due under this Lease shall survive the expiration or earlier termination of this Lease. Should this Lease commence on a day other than the first day of the month or terminate on a day other than the last day of the month, the rent for such partial month shall be prorated.

3.2 Late Payment Charge

If Tenant fails to pay any rent within fifteen (15) days of when due (as provided in Section 3.1 above), Tenant shall pay to Landlord a late payment charge for each occurrence of $20 to help defray the additional cost to Landlord for processing such late payments. If Tenant fails to pay any rent when due for any period exceeding thirty days, such unpaid amounts shall, in addition to late payment of $20 also pay an additional delinquency fee that shall bear interest from the date due until paid at the rate of eighteen percent (18%) per annum. These provisions for late charges shall be in addition to Landlord’s other rights and remedies hereunder or at law or in equity and shall not be construed as liquidated damages or as limiting Landlord’s remedies in any manner.
3.3 Personal Property Taxes

Tenant shall pay prior to delinquency all personal property taxes and business taxes with respect to all property and business activities of Tenant on Premises and shall provide promptly upon request of Landlord written proof of such payments.

ARTICLE 4

Article intentionally deleted.

ARTICLE 5
SECURITY DEPOSIT

5.1 Security Deposit

Upon execution of the Lease, Tenant shall deposit an amount equal to two month’s rent (as established in Section 3.1 above) as security for the faithful performance and observance by Tenant of all the terms, covenants, conditions, provisions and agreements of this Lease (“Security Deposit”). This amount is separate from and in addition to the amount due as “monthly rent” as provided by Section 3.1 of this Lease. If Tenant shall default with respect to any covenant or condition of this Lease including, but not limited to the payment of rent, Landlord may, but shall not be obligated to, apply all or any part of such deposit to the payment of any sum in default or any other sum which Landlord may be required to spend or incur by reason of Tenant's default, and, in such event, Tenant shall, upon demand, deposit with Landlord the amount so applied so that Landlord shall have the full deposit on hand at all times during the term of this Lease. If Tenant shall have fully complied with all the covenants and conditions of this Lease, the Security Deposit or any balance thereof shall be refunded to Tenant upon Landlord's final inspection of the Premises and within thirty (30) days after Tenant has vacated the same and after any accrued charges for which Tenant is responsible (such as but not limited to repair of damages to the Premises attributable to Tenant) and have been determined and paid in full. Tenant agrees that if this Security Deposit is insufficient to compensate Landlord for any damages, costs, and expenses not covered thereby, including loss of rental income during any period reasonably required to repair physical damages to Premises or to clean Premises, Tenant shall pay the balance thereof, immediately upon demand.

ARTICLE 6
USE AND OCCUPANCY

6.1 Permitted Use, Signage and Preservation of Business Incubator Setting

Premises shall be occupied and used only for the specific purpose of food production, storage and shipping, and for no other business or purpose without the prior written consent of Landlord. Tenant shall not display any sign or advertisement on the exterior of Premises or Facility without the written consent of Landlord and such consent may be withheld at the sole discretion of Landlord. Landlord shall place upon a common sign structure in the Facility’s courtyard a business identification panel with Tenant’s business name. Such panel shall be designed and placed by Landlord at no additional cost to Tenant beyond monthly rent.
No act shall be done in or about the Premises or Common Areas that is unlawful or that will increase the existing rate of insurance on the Building. Tenant shall not commit or allow to be committed any waste upon the Premises or Facility, or any public or private nuisance or other act or thing which disturbs the quiet enjoyment of any other tenant or occupant in the Facility. Tenant shall not, without the written consent of Landlord, use any apparatus, machinery or device in the Premises, which will cause any substantial noise or vibration about the Premises. If any of Tenant's office machines and equipment should disturb the quiet enjoyment of any other tenants in the Facility, then Tenant shall take such action as may be necessary to eliminate the disturbance (subject to any Premises or Facility alteration approvals from Landlord). Tenant shall comply with all state, federal, and local laws, ordinances, and regulations relating to its use of the Premises and shall observe such reasonable rules and regulations as may be adopted and distributed to Tenant in writing by Landlord for the safety, care and cleanliness of the Premises or the Facility, and for preservation of a professional business incubator setting at the Facility.

6.2 Compliance with Environmental Laws

Tenant represents, warrants, and covenants to Landlord that:

(a) Tenant and Premises will remain in compliance with all applicable laws, ordinances, and regulations (including consent decrees and administrative orders) relating to public health and safety and protection of the environment, including those statutes, laws, regulations, and ordinances identified in subparagraph (h), all as amended and modified from time to time (collectively, "Environmental Laws"). All governmental permits relating to the use or operation of the Premises required by applicable Environmental Laws are and will remain in effect, and Tenant will comply with them.

(b) Tenant will not permit any release, generation, manufacture, storage, treatment, transportation, or disposal of hazardous material, as that term is defined in subparagraph (h), on, in, under, or from Premises in violation of any Environmental Laws. Tenant will promptly notify Landlord, in writing, if Tenant has or acquires notice or knowledge that any hazardous material has been or is threatened to be released, generated, manufactured, stored, treated, transported, or disposed of, on, in, under, or from Premises in violation of any Environmental Laws; and if any hazardous material is found on Premises in violation of any Environmental Laws, Tenant, at its own cost and expense, will immediately take such action as is necessary to detain the spread of and remove the hazardous material to the complete satisfaction of Landlord and the appropriate governmental authorities.

(c) Tenant will immediately notify Landlord and provide copies upon receipt of all written complaints, claims, citations, demands, inquiries, reports, or notices relating to the condition of Premises or compliance with Environmental Laws. Tenant will promptly cure and have dismissed with prejudice any of those actions and proceedings to the satisfaction of Landlord. Tenant will keep Premises free of any lien imposed pursuant to Environmental Laws.

(d) Landlord will have the right at all reasonable times and from time to time to conduct environmental audits of Premises, and Tenant will cooperate in the conduct of those audits. The audits will be conducted by a person(s) of Landlord's choosing, and if any hazardous material is detected or if a violation of any of the warranties, representations, or covenants
contained in this paragraph is discovered, the fees and expenses of such person(s) will be borne by Tenant and will be paid as additional rent under this Lease on demand by Landlord.

(e) If Tenant fails to comply with any of the foregoing warranties, representations, and covenants, Landlord may cause the removal (or other cleanup acceptable to Landlord) of any hazardous material from Premises and/or Facility. The costs of hazardous material removal and any other cleanup (including transportation and storage costs) will be additional rent under this Lease, whether or not a court has ordered the cleanup, and those costs will become due and payable on demand by Landlord. Tenant will give Landlord, its agents, and employees, access to Premises to remove or otherwise clean up any hazardous material. Landlord, however, has no affirmative obligation to remove or otherwise clean up any hazardous material, and this Lease will not be construed as creating any such obligation.

(f) Tenant will indemnify and hold harmless Landlord and its employees, agents, officers, and directors from and against any claims, demands, penalties, fines, liabilities, settlements, damages, costs, or expenses of any kind or nature, known or unknown, contingent or otherwise, arising out of or in any way related to the acts and omissions of Tenant, Tenant's officers, directors, employees, agents, contractors, subcontractors, subtenants, and invitees with respect to (1) the generation, manufacture, operations involving, transport, treatment, storage, handling, production, processing, disposal, release, or threatened release of any hazardous materials which are on, from, or affecting the Premises, including, without limitation, the soil, water, vegetation, buildings, and improvements on the Premises; (2) any personal injury (including wrongful death) or property damage (real or personal) arising out of or related to such hazardous materials; (3) any lawsuit brought or threatened, settlement reached, or governmental order relating to such hazardous materials; and (4) any violations of laws, orders, regulations, requirements, or demands of governmental authorities, or any reasonable policies or requirements of Landlord, which are based upon or in any way related to such hazardous material including, without limitation, attorney and consultant fees, investigation and laboratory fees, court costs, and litigation expenses. This indemnification will survive this Lease.

(g) At the end of this Lease, Tenant will surrender Premises to Landlord free of any and all hazardous materials and in compliance with Environmental Laws affecting Premises.

(h) For the purpose of this Section, the term "hazardous materials" includes, without limitation, any flammable explosives, radioactive materials, hazardous materials, hazardous wastes, hazardous or toxic substances, or related materials defined in the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (42 U.S.C. § 9601 et seq.), the Hazardous Materials Transportation Act, as amended (49 U.S.C. § 1801 et seq.), the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. § 6901 et seq.); and in the regulations adopted and publications promulgated pursuant to them, or any other federal, state, or local environmental laws, ordinances, rules, or regulations now enacted or enacted after this date.

(i) The provisions of this Section shall be in addition to any and all obligations and liabilities Tenant may have to Landlord and common law, will survive this Lease.
6.3 Relocation

Landlord shall have the right, at its option and upon at least thirty (30) days' written notice to Tenant, to relocate Tenant and to substitute for the Premises described above other spaces in the Facility containing at least as much useable area as the original Premises. Such substituted Premises shall be improved by Landlord at its expense, with improvements at least equal in quantity and quality to those in the original Premises. Landlord shall pay the expenses reasonably incurred by Tenant in connection with such substitution of Premises, including, but not limited to costs of moving, telecommunication infrastructure relocation, etc., up to an amount that shall not exceed $6.00 per useable square foot of the new Premises.

ARTICLE 7

UTILITIES AND SERVICES

7.1 Utilities

Municipal water, sewer, and garbage collection are provided to Tenant by Landlord at no additional cost to Tenant. However, if Tenant’s use of water, sewer, or garbage collection services results in charges to Landlord from the service provider that exceeds those charges deemed by Landlord to be customary for the Permitted Use of Premises, Landlord reserves the right to bill Tenant for such extraordinary use as additional rent. Electricity and utility services for heating and cooling are metered separately and shall be paid by Tenant directly to service provider.

7.2 Maintenance, Janitorial, and Shared Equipment Services

Landlord shall provide regular maintenance and janitorial services for Building and Common Areas, but janitorial services for Premises are the responsibility and at the expense of Tenant. Landlord may provide certain shared office equipment and services at some additional cost for Tenant’s use. Use of this equipment and services is optional and charges shall only be assessed with use by Tenant, Tenant’s employees, guests, or invitees and such charges shall be in accordance with a payment schedule established by Landlord prior to Tenant’s participation during the Term of this Lease. In the event of specific facility, maintenance, janitorial or shared equipment service questions, Tenant may contact the UI Food Technology Center at 208-795-5332 and/or such other number as Landlord may provide from time to time.

7.3 Landlord’s Liability

Landlord shall not be liable to Tenant for any loss or damage caused by or resulting from any variation, interruption, or failure of such utilities and services due to any cause whatsoever. No temporary interruption or failure of such services incident to the making of repairs, alterations or improvements, or due to accident or strike, or conditions or events beyond Landlord's reasonable control shall be deemed an eviction of Tenant or relieve Tenant from any of Tenant's obligations hereunder.
ARTICLE 8
CARE OF PREMISES/END OF TERM

8.1 Landlord’s Responsibility

As long as Tenant is not in default of any of the provisions of this Lease, Landlord shall maintain Premises and Building in reasonably good condition except for damage occasioned by the act or omission of Tenant, the repair of which shall be paid for by Tenant.

8.2 Tenant’s Responsibility

Tenant shall take good care of the Premises. Tenant’s responsibility shall extend to its visitors, contractors, guests or agents. Tenant shall, at the expiration or termination of this Lease, surrender and deliver the Premises to Landlord in as good condition as when received by Tenant from Landlord or as thereafter improved, reasonable use and wear excepted. At the expiration or termination of this Lease, Landlord shall cause all carpets in Premises to be professionally cleaned and shall thereafter submit a bill to Tenant for the reasonable costs associated with such cleaning. Such bill shall be paid by Tenant as additional rent and shall be due promptly upon receipt by Tenant. Tenant shall be responsible for the cost of replacement of carpet that is damaged as a result of dragging or pushing furniture in the Premises or Common Areas.

Tenant shall not make any alterations, additions or improvements in or to Premises, or make changes to locks on doors, or add, disturb or in any way change any plumbing or wiring without first obtaining the written consent of Landlord. Unless specifically approved by Landlord to the contrary, ALL alterations, additions, or improvements shall be completed by Landlord or Landlord’s contractor and shall become the property of Landlord during the Lease term and after termination. If such approval is given, it shall assign costs for completing such work to Landlord or Tenant and shall also establish if such alterations, additions, and improvements shall be removed by Tenant at Tenant’s expense at the end of term.

All damage or injury done to Premises or Common Areas by Tenant or by any persons who may be in or upon Premises and Common Areas with the consent of Tenant, including the cracking or breaking of glass of any windows and doors, shall be paid for by Tenant, and Tenant shall pay all damage to the Facility caused by Tenant's misuse of the Premises or the appurtenances thereto. If Tenant refuses or neglects to pay for repairs and/or maintain the Premises or any part thereof in a manner reasonably satisfactory to Landlord, Landlord shall have the right, upon giving Tenant five (5) days’ written notice of Landlord's election to do so, to make such repairs or perform such maintenance on for the account of Tenant. In such event, such work shall be paid for by Tenant as additional rent and shall be due promptly upon receipt of a bill therefor. Anything to the contrary herein notwithstanding, in the event that an emergency condition should exist because of the failure of Tenant to perform any of its obligations to repair or maintain Premises in accordance with this Lease, Tenant shall not be entitled to any notice and Landlord may immediately assume all or any portion of such obligations and Tenant shall be responsible for all costs of remedy. For the purposes of the preceding sentence, the phrase “emergency condition” shall mean any condition constituting an immediate risk of injury to person, serious damage to property or impairment of Landlord’s or another tenant’s or occupant’s business. No exercise by Landlord of any rights herein reserved shall entitle Tenant to any damage for any injury or inconvenience occasioned thereby or to any abatement of rent. Tenant shall not put any
curtains, draperies or other hangings on or beside the windows in the Premises without first obtaining Landlord's consent. All normal repairs necessary to maintain the Premises in a tenantable condition shall be done by or under the direction of Landlord and at Landlord's expense except as otherwise provided herein. Landlord shall be the sole judge as to what repairs are necessary.

Tenant shall not make any alterations, additions or improvements in or to Common Areas.

8.3 Surrender of Possession

Upon expiration of the term of this Lease, whether by lapse of time or otherwise, Tenant shall promptly and peacefully surrender Premises to Landlord.

8.4 Removal of Property

Any trade fixtures, equipment, or other personal property placed in the Premises by Tenant and not affixed to the walls, ceiling, floors, or other part thereof, shall remain the property of Tenant, and provided that Tenant is not in default of performance of this Lease, they may be removed by Tenant at any time during the term hereof.

Those trade fixtures or equipment which must necessarily be affixed to the walls, ceiling, floors, or other part of the Premises in such a manner that damage thereto will result from the installation or removal thereof, shall not be installed without the prior consent in writing and approval of the manner of installation by Landlord. If so installed, they shall remain a part of the Premises and not be removed therefrom unless Landlord shall demand their removal, in which event they shall promptly be removed by Tenant, and Tenant shall be responsible for repair of all damage to any part of the Premises occasioned by their installation or removal. If Tenant shall fail to remove any other property of any nature whatsoever from the Premises or Facility at the termination of this Lease, or when Landlord has the right of re-entry, Landlord may, at its option, remove and store said property without liability for loss thereof or damage thereto, such storage to be for the account and at the expense of Tenant. If Tenant shall not pay the cost of storing any such property after it has been stored for a period of thirty (30) days or more, Landlord may, at its option, sell, or permit to be sold, any or all of such property at public or private sale, in such manner at such times and places as Landlord, in its sole discretion, may deem proper, without notice to Tenant, and shall apply the proceeds of such sale as follows: first, to the cost and expense of such sale, including advertising costs and reasonable attorneys' fees actually incurred; second, to the payment of the costs or charges for storing any such property; third, to the payment of any other sums of money which may then be or thereafter become due Landlord from Tenant under any of the term hereof; and, fourth, the balance, if any, to Tenant.

ARTICLE 9
ACCESS

9.1 Access

Tenant will permit Landlord and its agents to enter into and upon the Premises at all reasonable times for the purpose of inspecting the same or for the purpose of cleaning, repairing, altering or improving the Premises or Building. Nothing contained in this Article 9 shall be deemed to
impose any obligation upon Landlord not expressly stated elsewhere in this Lease. When reasonably necessary, Landlord may temporarily close entrances, doors, corridors, or other facilities without liability to Tenant by reason of such closure and without such action by Landlord being construed as an eviction of Tenant or relieve Tenant from the duty of observing and performing any of the provisions of this Lease. Landlord shall have the right to require Tenant to exclusively use service or delivery access routes as designated by Landlord from time to time. Landlord shall have the right to enter the Premises for the purpose of showing the Premises to prospective tenants at any time during the Lease term.

ARTICLE 10
DAMAGE OR DESTRUCTION

10.1 Damage or Destruction

If Premises shall be damaged, either wholly or in part, by fire or other casualty, Landlord may, at its option, restore the Premises to their previous condition, and in the meantime, the monthly rent shall be abated in the same proportion as the untenantable portion of the Premises bears to the whole thereof. Notwithstanding the foregoing, if the fire or other casualty results from or arises out of Tenant’s willful or negligent act or omission, monthly rent shall not be abated. If the Building shall be destroyed or damaged by fire or other casualty to the extent that more than twenty percent (20%) thereof is damaged, notwithstanding that the Premises may be unaffected directly by such destruction or damage, Landlord may, at its election, terminate this Lease upon thirty (30) days’ prior written notice.

ARTICLE 11
INDEMNITY AND INSURANCE

11.1 Indemnification

Tenant shall defend and indemnify Landlord and hold it harmless from and against any and all liability, damages, costs or expenses, including attorneys' fees, arising from any act, omission or negligence of Tenant, or the officers, contractors, licensees, agents, servants, employees, guests, invitees, or visitors of Tenant in and about the Facility, or arising from any accident, injury, or damage, howsoever and by whomsoever caused, to any person or property, occurring in or about the Facility; provided that the foregoing provision shall not be construed to make Tenant responsible for loss, damage, liability or expense resulting from injuries to third parties caused by the willful act or negligence of Landlord, or of any officer, contractor, licensee, agent, servant, employee, guest, invitee or visitor of Landlord.

Landlord shall not be liable for any loss or damage to personal property or loss of income sustained by Tenant, or other persons, which may be caused by the Facility or the Premises, or any appurtenances thereto, being out of repair, or by the bursting or leakage of any water, gas, sewer or steam pipe, or by theft, or by any act or neglect of any tenant or occupant of the Facility, or of any other person, or by any other cause of whatsoever nature, unless caused by the gross negligence or willful misconduct of Landlord.
11.2 Insurance Coverage

By requiring insurance herein, Landlord does not represent that coverage and limits will necessarily be adequate to protect Tenant, and such coverage and limits shall not be deemed as a limitation on Tenant’s liability under the indemnities granted to Landlord in this Lease. Failure to maintain the required insurance may result in termination of this Lease at Landlord’s option.

Tenant shall, at Tenant’s sole cost and expense, throughout the term of this Lease, obtain and maintain insurance of the types and in the amounts described below:

Commercial General and Umbrella Liability Insurance. Tenant shall maintain commercial general liability (CGL) and, if necessary, commercial umbrella insurance with a limit of not less than $1,000,000 each occurrence and in the aggregate. If such CGL insurance contains a general aggregate limit, and if Tenant owns or operates more than one location other than the location under this Lease, then the CGL shall be endorsed to show that “limits apply per location”. CGL insurance shall be written on standard ISO occurrence form (or a substitute form providing equivalent coverage) and shall cover liability arising from premises, operations, independent contractors, products-completed operations, personal injury and advertising injury, and liability assumed under an insured contract including the tort liability of another assumed in a business contract. The policy shall be on a primary occurrence form non-contributable to insurance carried by Landlord.

Workers’ Compensation. Where required by law, Tenant shall maintain all statutorily required coverages including Employer’s Liability.

All policies (except Workers Compensation and personal property) shall name Landlord as an additional insured. Certificates of Insurance shall be issued to Landlord within five (5) days after the commencement date shown in Section 2.1 of this Lease and prior to any renewal or change of policy term of Tenant’s insurance. Additional Insured Endorsement shall be attached to the Certificate. The Certificate shall indicate on the certificate if Tenant’s insurance applies at more than the location insured under this Lease. Failure of Landlord to demand such certificate or other evidence of full compliance with these insurance requirements or failure of Landlord to identify a deficiency from evidence that is provided shall not be construed as a waiver of Tenant’s obligation to maintain such insurance.

ARTICLE 12
ASSIGNMENT/ SUBLETTING

12.1 Assignment and Subletting by Tenant Prohibited

This Lease shall not be assigned by Tenant and the Premises shall not be sublet by Tenant.
ARTICLE 13
LIENS/ INSOLVENCY

13.1 Liens and Insolvency
Tenant shall keep the Premises and the Facility free from any liens arising out of any work performed, materials ordered or obligations incurred by Tenant. If Tenant becomes insolvent, voluntarily or involuntarily bankrupt, or if a receiver or assignee or other liquidating officer is appointed for the business of Tenant, then Landlord may terminate Tenant's right of possession under this Lease at Landlord's option.

ARTICLE 14
DEFAULT

14.1 Default
Time is of the essence hereof, and if at any time the rent or additional rent reserved herein shall become in arrears and be unpaid when due and continue to be unpaid for a period of ten (10) days after written demand for the payment thereof from Landlord specifying such failure to pay, or if Tenant shall default in the performance of any of the other terms, covenants and provisions of this Lease on its part to be performed and such failure is not cured within twenty (20) days after written demand for the performance thereof, or if Premises become vacant or deserted while no rent is being paid, or if Tenant files or has filed against it in any court pursuant to any statute, a petition in bankruptcy or insolvency, or for reorganization or for appointment of a receiver or trustee of all or a substantial portion of the property owned by Tenant, or if Tenant makes an assignment for the benefit of creditors, or any execution or attachment shall be issued against Tenant of all or a substantial portion of Tenant's property, whereby all or any portion of the Premises covered by this Lease or any improvement thereon shall be taken or occupied or attempted to be taken or occupied by someone other than Tenant and such adjudication, appointment, assignment, petition, execution or attachment shall not be set aside, vacated, discharged or bonded within thirty (30) days after the determination, issuance of filing of the same, then, and in such event, Landlord shall have the right to terminate this Lease and the term hereof, as well as all of the right, title and interest of Tenant hereunder, by giving Tenant not less than the aforementioned ten (10) days' notice in writing for default on rent and not less than the aforementioned twenty (20) days' notice in writing for all other defaults of such intention and upon the expiration of the time fixed in such notice (if such default shall not have been cured), this Lease and the term hereof, as well as all the right, title and interest of Tenant hereunder, shall wholly terminate in the same manner and with the same force and effect (except as to Tenant's liability) as if the date fixed by such latter notice were the expiration of the term herein originally granted, and Landlord may enter into and/or repossess said Premises, either by force or summary proceedings, or otherwise, and Tenant hereby expressly waives service of notice of intention to re-enter or to institute legal proceedings to that end.

In the event of a cancellation or termination hereof by either the issuance of a dispossessory warrant or summons, or the service of a notice of termination as hereinabove provided, or otherwise, Tenant shall, nevertheless, remain and continue liable to Landlord in a sum equal to
all of the rent and all additional charges for the balance of the term; and Landlord may re-enter said Premises, using such force for that purpose as may be necessary without being liable to any prosecution for said re-entry or for the use of such force, and Landlord may repair or alter said Premises in such manner as to Landlord may seem necessary or advisable, and/or let or relet said Premises or any or all parts thereof for the whole or any part of the remainder of the original term hereof or for a longer or shorter period, in Landlord's name or otherwise, and, out of any rent so collected or received, Landlord shall first pay to itself the expense and cost of retaking, repossessing, repairing and/or altering said Premises and the expenses of removing all persons and property therefrom; second, pay to itself any cost or expense sustained in securing any new tenant or tenants; and third, to pay to itself any balance remaining and apply the whole said balance, or so much thereof as may be required, toward payment of the liability of Tenant to Landlord for the sum equal to the rents reserved herein and then unpaid by Tenant for the remainder of the term. Any entry or re-entry by Landlord, whether had or taken under summary proceedings or otherwise, shall not absolve or discharge Tenant from liability hereunder. The words "re-enter" and "re-entry" as used in this Lease are not restricted to their technical legal meaning. The failure of Landlord to relet the Premises or any part or parts thereof shall not release or affect Tenant's liability for damages or otherwise.

Should any rent so collected by Landlord after the payments aforesaid be insufficient fully to pay to Landlord a sum equal to all rent and other charges herein reserved, the balance or deficiency shall be paid by Tenant following receipt of notice from Landlord of the amount of such balance or deficiency that is due. Upon the first day of each month during the term of this Lease, Tenant shall pay to Landlord the amount of said deficiency then existing and shall remain liable for any portion thereof not so paid; and the right of Landlord to recover from Tenant the amount of such deficiency, or a sum equal to the amount of all rent and other charges herein reserved if there shall be no reletting by Landlord, shall survive the issuance of any dispossessory warrant or other termination of the term hereof.

Suit or suits for the recovery of any such deficiency or damages, or for a sum equal to any installment or installments of rent or charges payable hereunder may be brought by Landlord, from time to time at Landlord's election, and nothing herein contained shall be deemed to require Landlord to await the date whereon this Lease or the term hereof would have expired by limitation had there been no such default by Tenant or no such termination. Rather, Landlord shall have the right to recover from Tenant (in addition to past-due rent and other sums then owing) the total amount of rent which would be payable over the then remaining term of this Lease.

Tenant hereby expressly waives any and all rights of redemption granted by or under any present or future laws in the event of Tenant being evicted or dispossessed for any cause, or in the event of Landlord obtaining possession of demised Premises, by reason of the violation of Tenant of any of the covenants and conditions of this Lease.

Upon expiration or sooner termination of this Lease, all improvements and additions to the Premises shall become the property of Landlord.
ARTICLE 15
NON-WAIVER

15.1 Non-Waiver
Waiver by Landlord of any breach of any term, covenant, or condition herein contained shall not be deemed to be a waiver of such term, covenant or condition; or of any subsequent breach of the same or any other term, covenant or condition herein contained. The subsequent acceptance of rent hereunder by Landlord shall not be deemed to be a waiver of any preceding breach by Tenant of any term, covenant or condition of this Lease, other than the failure of Tenant to pay the particular rental so accepted, regardless of Landlord's knowledge of such preceding breach at the time of acceptance of such rent.

ARTICLE 16
NOTICES

16.1 Notices
Any notice authorized to be given from Landlord to Tenant or from Tenant to Landlord shall be sufficiently served or given for all purposes if delivered personally or if sent by United States certified mail, return receipt requested, addressed to the party in question at the following address:

Landlord: Vice President for Finance and Administration
University of Idaho
875 Perimeter Dr MS 3168
Moscow ID 83844-3168

Tenant: Nature’s Indulgence Granola, Inc
1904 E Chicago St, Suite M
Caldwell ID 83605

For the purposes of this Lease, a notice served by mail shall be deemed to have been delivered on the date mailed, as indicated by the postal service postmark on the certified mail receipt or on the envelope containing the notice.

ARTICLE 17
ATTORNEYS’ FEES

17.1 Attorneys’ Fees
In the event any person initiates or defends any legal action or proceeding to enforce or interpret any of the terms of this Lease, the prevailing party in any such action or proceeding shall be entitled to recover from the losing party in any such action or proceeding its reasonable costs and attorneys’ and paralegal’s fees (including its reasonable costs and attorneys’ and paralegal’s fees on any appeal).
ARTICLE 18
LANDLORD'S LIABILITY

18.1 Landlord’s Liability
Anything in this Lease to the contrary notwithstanding, covenants, undertakings and agreements herein made on the part of Landlord are made and intended not as personal covenants, undertakings and agreements or for the purpose of binding Landlord personally or the assets of Landlord, except Landlord's interest in the Premises and Facility, but are made and intended for the purpose of binding only Landlord's interest in the Premises. No personal liability or personal responsibility is assumed by, nor shall at any time be asserted or enforceable against Landlord or its agents or employees, and their respective heirs, legal representatives, successors and assigns on account of the Lease or on account of any covenant, undertaking or agreement of Landlord in this Lease contained. In the event this Lease is assigned by Landlord, Landlord's liability hereunder shall terminate upon the effective date of said assignment.

ARTICLE 19
GENERAL PROVISIONS

19.1 Time is of the Essence
In all instances where Tenant is required by the terms and provisions of this Lease to pay any sum or to do any act at a particular time or within an indicated period, it is understood and agreed that time is of the essence.

19.2 Waiver of Jury Trial
Landlord and Tenant hereby agree that each of them shall waive trial by jury in any action, proceeding or counterclaims brought by either Landlord or Tenant against the other. This waiver applies to any matters whatsoever arising out of or in any way connected with this Lease, or the relationship of Landlord and Tenant, or Tenant’s use of the Premises, or any emergency statute, or any remedy authorized by statute.

19.3 Successors
Except as otherwise specifically provided, the terms, covenants, and conditions, contained in this Lease shall apply to and bind the heirs, successors, executors, administrators, and permitted assigns of the parties to this Lease.

19.4 Joint and Several Liability
If there is more than one Tenant, the obligations imposed by this Lease upon Tenant shall be joint and several.

19.5 Entire Agreement - Captions
This Lease contains the entire agreement of the parties. No representations, promises, or agreements oral or otherwise between the parties not contained in this Lease shall be of any force and effect. Neither this Lease nor any provisions hereof may be changed, waived, discharged, or terminated except in writing executed by Landlord and Tenant. The captions for Lease sections
are for convenience only and shall have no effect upon the construction or interpretation of any part of this Lease.

19.6 Severability
The illegality, invalidity or unenforceability of any term, condition, or provision of the Lease shall in no way impair or invalidate any other term, condition, or provision of the Lease. All such other terms, conditions, and provisions shall remain in full force and effect.

19.7 Brokerage Commission
Tenant and Landlord each represents and warrants that it has dealt with no broker, agent or finder in account of this Lease. Tenant agrees to defend, indemnify, and hold harmless Landlord from and against any and all claims, damages, and costs, including attorneys’ fees, in connection with any claim for brokerage, finder’s, or similar fees, or compensation related to this Lease, which may be made or alleged as a result of acts or omissions of that party.

19.8 Authorization to Sign Lease
If Tenant is a corporation, each individual executing the Lease on behalf of Tenant represents and warrants that he/she is duly authorized to execute and deliver the Lease on behalf of Tenant in accordance with Tenant’s bylaws or a duly adopted resolution of Tenant’s Board of Directors, and that the Lease is binding upon Tenant in accordance with its terms. Tenant shall concurrently with its execution of the Lease, deliver to Landlord upon its request, a certified copy of such bylaws or the resolution of its Board of Directors authorizing the execution of the Lease. If Tenant is a partnership or trust, each individual executing the Lease on behalf of Tenant represents and warrants that he/she is duly authorized to execute and deliver the Lease on behalf of Tenant in accordance with the terms of the partnership or trust agreement, respectively, and that the Lease is binding upon Tenant in accordance with its terms. Tenant shall concurrently with its execution of the Lease deliver to Landlord, upon its request, such certificates or written assurances from the partnership or trust as Landlord may request authorizing the execution of the Lease. If Tenant is a limited liability company, each individual executing the Lease on behalf of Tenant represents and warrants that he/she is duly authorized to execute and deliver the Lease on behalf of Tenant in accordance with Tenant’s Operating Agreement and that the Lease is binding upon Tenant in accordance with its terms.

19.9 Governing Law and Venue
This Lease shall be governed by, construed and enforced in accordance with the laws of the State of Idaho. The venue for any action brought to enforce this Agreement or otherwise shall be in the state district court of Latah County, Idaho.

19.10 Force Majeure
Time periods for Landlord’s performance under this Lease, including services to be furnished by Landlord as provided for in this Lease, shall be extended for periods of time during which Landlord’s performance is prevented due to circumstances beyond Landlord’s control. This would include, without limitation, strikes, embargoes, repairs, alterations, governmental action, acts of God, war, or other strife. Landlord shall not be liable for any costs or damages incurred
by Tenant due to such circumstances. Suspension or interruption of any services provided by Landlord shall not result in any abatement of rent, be deemed an eviction, or relieve Tenant of any obligation under this Lease.

19.11 Recordation

This Lease or memorandum hereof, shall not be recorded by Tenant.

19.12 Binding Effect

Submission of this instrument for examination or signature by Tenant does not constitute an offer to lease, or a reservation of or option for a lease, and it is not effective as a lease or otherwise until execution and delivery by both Landlord and Tenant.

19.13 Building Regulations

Tenant shall obey all written rules and regulations of the Facility as imposed by Landlord from time to time so long as such rules and regulations are necessary for the safety of persons at the Facility, the protection of the Facility from damage, the preservation of the professional business incubator setting, and they do not unreasonably affect Tenant’s permitted use of the Premises. Any rules and regulations are in addition to and shall not be construed to modify or amend this Lease in any way. Landlord shall not be liable for failure of any other tenant to obey such rules and regulations. Failure by Landlord to enforce any current or subsequent rules or regulations against any tenant of the Facility shall not constitute a waiver thereof.

19.14 Relationship of Parties

Nothing contained in this Lease shall be construed as creating the relationship of principal or agent, partnership or joint venture. Neither the method of setting monthly rent rates, nor any provision of this Lease, or any act of the parties shall be deemed to create any relationship other than that of landlord and tenant.

19.15 Equal Opportunity

Each party agrees not to discriminate against any employee or applicant for employment in the performance of this Lease with respect to tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of race, sex, color, religion, national origin, disability, ancestry, or status as a Vietnam veteran. Breach of this covenant may be regarded as a material breach of this Lease.

19.16 Non-use of Names and Trademarks

No party to this Lease shall, without written consent in each case from the other party, use any name, trade name, trademark, or other designation of any other party hereto (including contraction, abbreviation, or simulation) in advertising, publicity, promotional, or similar activities or context.
IN WITNESS WHEREOF, Landlord and Tenant have respectively executed this Lease on the day and year below.

UNIVERSITY OF IDAHO

SUBJECT
Amendment to Master Agreement between University of Idaho (U of I) and Sitecore USA, Inc., regarding software and implementation services for new marketing and website technology stack

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.2.a

BACKGROUND/DISCUSSION
The University of Idaho is requesting approval to amend its current contract with its web content management vendor, Sitecore, to modernize its web content management and digital marketing technologies through a platform of products from Sitecore. Sitecore is an international company that provides over 3,000 organizations with web and marketing technologies. The University has worked with Sitecore for more than 15 years. These technologies will enable the University to transition uidaho.edu from an informational website to a tool that allows U of I to create the personalized experiences prospective students, current students and donors have come to expect and that are necessary for the University to compete and successfully deliver on its mission.

To find the technologies that balance capability with value, the University completed a series of five-year total cost and ROI analyses covering the toolsets of multiple vendors. The process showed that Sitecore’s digital experience platform and implementation services best meet these criteria from both a cost and value perspective.

Solution Description

• Website content management system (CMS) and custom search tool
• Digital asset management tool (DAM)
• Customer data platform (CDP)
• Experimentation and personalization platform
• Implementation services

Solution Benefits

• Improve conversion rates (enroll, give, stay) by delivering personalized web content based on user attributes and behavior.
• Enhance employee productivity by streamlining marketing and web content creation, management, delivery and maintenance.
• Improve the quality of data, and thus decision making, by integrating information from multiple systems.
• Increase web content accessibility by aligning with Web Content Accessibility Guidelines (WCAG) level AA.
IMPACT
The total five-year commitment is $3,341,756.03. The contracts will be funded by a $1.5M contribution from the UI Foundation and university operating funds.

Based on a joint Sitecore and University return on investment analysis, the University expects to reach breakeven around year three with an accumulated five-year benefit of $5,736,355. Benefit is defined as value obtained based on increased conversions and employee productivity.

Providing users with the intuitive, personalized web experiences they have come to expect will positively impact the University of Idaho’s ability to attract and retain students and donors, improve Idaho’s go-on rate and meet the talent needs of industry in Idaho.

ATTACHMENTS
Attachment 1 – Master Agreement with Sitecore
Attachment 2 - Sitecore Software Subscription Services Order Form
Attachment 3 – Sitecore Implementation Services Order Form

BOARD STAFF COMMENTS AND RECOMMENDATIONS
UI is requesting to amend its current contract with its web content management vendor Sitecore. The goal is for UI to modernize its web content management and digital marketing technologies to transition uidaho.edu from its current form as an information website to a highly personalized experience resource for prospective students, current students, visitors, staff, faculty, alumni, and donors of UI.

The total five-year commitment is $3,341,756.03 which will be funded by a $1.5M contribution from the UI Foundation and university operating funds.

Board Governing Policies & Procedures, Section V.1.2.a requires approval limits for all transactions over $2M to be reviewed and approved by the Board.

Staff recommends approval.

BOARD ACTION
I move to approve the request by the University of Idaho to sign a five-year agreement with Sitecore for the subscription to and implementation of a platform of products for web content management and digital marketing in substantial conformance to the materials presented to the Board.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
These master subscription terms and conditions ("Master Terms") are entered into as of the date of the last party to sign below ("Effective Date") between Sitecore USA, Inc. ("Sitecore"), with offices at 101 California Street, Suite 1600, San Francisco, CA 94111, and University of Idaho ("Customer"), with offices at 875 Perimeter Dr Ms3020, Moscow, ID 83844. Unless otherwise defined below, capitalized terms will have the meaning given to them in the last section of these Master Terms.

1) **FRAMEWORK.** These Master Terms, together with all incorporated Orders, constitute the "Agreement." An "Order" consists of an order for one or more Sitecore Products and Services which is separately executed by Sitecore and Customer on or after the Effective Date and which states its intention to be governed by these Master Terms. An Order may incorporate attachments or exhibits that contain additional information relevant to a particular Sitecore Product or Service. Affiliates of the parties may agree to operate under these Master Terms, and in such event, the Affiliates may enter into an Order and agree to be bound by these Master Terms.

2) **PRICING, INVOICING AND EXPENSES.** The relevant fees and payment terms will be set forth in the applicable Order. Customer will only reimburse Sitecore for travel and accommodation if pre-authorized by Customer.

3) **TAXES.** Customer will be responsible for sales, use, value-added tax, and excise taxes and any like charges required to be collected by Sitecore with respect to the Sitecore Products and Services provided by Sitecore, and Sitecore will list those taxes and charges as separate line items on Sitecore's invoice. Sitecore will be responsible for all taxes related to its Personnel or business operations, including taxes based on the net income of Sitecore and any taxes payable upon the payroll of Sitecore Personnel. If Customer is exempt from transaction taxes, Customer will provide Sitecore with evidence of such tax-exempt status prior to entering into any Order.

4) **SOFTWARE LICENSES AND RESTRICTIONS**
   a) Customer may request Sitecore to provide a license to Software, and if agreed upon such Software will be documented in an Order. The terms of this Section 4 will apply to such Order except to the extent explicitly overridden in such Order. Additionally, such Order may set forth other specific license terms and restrictions applicable to the Software being licensed to Customer. All licenses are limited to use by the Customer or Customer Affiliate executing the Order unless the applicable Order specifically states otherwise.
   b) Sitecore and its licensors retain all right, title and interest in the Software and Documentation. Subject to compliance with the Agreement, Sitecore grants Customer a non-exclusive, non-transferable, non-assignable, non-sublicensable license, solely during the Subscription Term, to copy and use the Documentation, and the Software in supported configurations as described in the Documentation, in compliance with applicable law, solely for the Permitted Usage.
   c) Upon execution of an Order including Software, Customer will be provided a license key that gives Customer access to the Software ("License Key"). The License Key will be time-limited until full payment of the applicable fees have been received by Sitecore.

5) **HOSTED SERVICES.** Customer may request Sitecore to provide Hosted Services, and if agreed upon such Hosted Services will be documented in an Order. Additionally, such Order may set forth other specific terms and restrictions applicable to the Hosted Services. Sitecore and its licensors retain all right, title and interest in the Hosted Services, Sitecore Technology and applicable Documentation. Subject to compliance with the Agreement, Sitecore grants Customer a non-exclusive, non-transferable, non-assignable, non-sublicensable license to use the Sitecore Technology and access the Hosted Services, solely during Customer's applicable Subscription Term, and solely for the Permitted Usage. Customer's use of the Hosted Services is subject to compliance with the Sitecore Usage Policy.

6) **SAAS PRODUCTS.** Customer may request Sitecore to provide SaaS Products, and if agreed upon such SaaS Products will be documented in an Order. Sitecore and its licensors retain all right, title and interest in the SaaS Products and any applicable Documentation. Subject to compliance with the Agreement, Sitecore grants Customer a non-exclusive, non-transferable, non-assignable, non-sublicensable license to access the SaaS Products, solely during Customer's
applicable Subscription Term, and solely for the Permitted Usage. Customer's use of the SaaS Products is subject to compliance with the Sitecore Usage Policy.

7) SUPPORT & MAINTENANCE; SERVICE LEVEL AGREEMENT. Sitecore will provide support and maintenance services during each applicable Subscription Term in accordance with the terms of the applicable Order. Sitecore offers a Service Level Agreement for each of its SaaS Products and Hosted Services, the details of which will be included as part of each applicable Order.

8) CONSULTING SERVICES; DELIVERABLES. Customer may request Sitecore to provide Consulting Services for its employees or Authorized Third Parties, and if agreed upon such Consulting Services will be documented in an Order. Subject to Customer's rights in any materials provided by Customer and incorporated by Sitecore into the Deliverables, Sitecore retains all right, title and interest in the Deliverables. Subject to compliance with this Agreement, Sitecore grants Customer a non-exclusive, non-transferable, non-assignable, non-sublicensable, perpetual license to copy, use and modify any Deliverables provided by Sitecore solely for Customer's internal business purposes.

9) TRAINING SERVICES
   a) Customer may request Sitecore to provide Training Services for its employees or Authorized Third Parties, and if agreed upon such Training Services will be documented in an Order. Such Training Services may consist of participating in publicly available classes, or scheduling Customer-specific training.
   b) Subject to compliance with this Agreement, Sitecore grants Customer a non-exclusive, non-transferable, non-assignable, non-sublicensable, perpetual license to copy and use any Training Materials provided by Sitecore solely for Customer's internal business purposes. Unless pre-approved in writing by Sitecore, Customer is prohibited from (i) audio recording, editing, reproducing, broadcasting, live-streaming or otherwise making available, in whole or in part, the Training Services or any Training Materials to third parties, and (ii) providing any third party with access to the name, voice, image, or likeness of the Sitecore training Personnel.
   c) In the course of performing Training Services Sitecore may provide Customer with one or more temporary license keys that give access to Sitecore software ("Training Software") to facilitate a training session. Sitecore and its licensors retain all right, title and interest in the Training Software. Sitecore hereby grants Customer a non-exclusive, non-transferable, non-assignable, non-sublicensable license to use any Training Software provided by Sitecore solely for Customer's internal business purposes, only for the time period needed to complete the training activities. THE TRAINING SOFTWARE IS PROVIDED "AS IS" AND SITECORE MAKES NO REPRESENTATION OR WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, WITH REGARD TO THE TRAINING SOFTWARE, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, AVAILABILITY, PERFORMANCE, OR ACCURACY.
   d) Training Services are prepaid and, unless otherwise set forth in an Order, must be consumed within 12 months of the Order effective date, after which date any remaining credits will otherwise expire. Sitecore will not pay any refund for expired Training Services.

10) AUTHORIZED THIRD PARTIES; RESTRICTIONS ON USE
    a) Customer may permit Authorized Third Parties to assist Customer in the implementation and use of the Sitecore Products and Hosted Services provided that: (i) such activities are within the scope of the activities Customer is itself authorized to perform under the Agreement; (ii) such Authorized Third Parties' acts are primarily for the direct or indirect benefit of Customer; and (iii) such Authorized Third Parties are not charged a fee by Customer for such activities. Customer is prohibited from using the Sitecore Products and Hosted Services in any time-sharing or other commercial arrangement of any kind that makes the Sitecore Products and Hosted Services available to third parties for the third party's own benefit. Except as expressly stated in the Agreement, no third party has any rights under the Agreement. Customer is fully liable for compliance with the Agreement by its Authorized Third Parties.
    b) Except as specifically authorized under the Agreement, by applicable law or by Sitecore in writing, Customer will not (i) modify, disclose, disassemble, decompress, reverse compile, reverse assemble, reverse engineer, or translate the Sitecore Products, Services or Documentation, (ii) rent, lease, lend, distribute, sell, assign, license, or otherwise transfer the Sitecore Products, Services, Documentation or any portion thereof, or (iii) create any derivative works of the Sitecore Products, Services or Documentation.
11) PERSONNEL
   a) Sitecore performs standard background checks on all newly hired employees, which include: (i) verification of
      education and previous employment, (ii) right to work in the applicable jurisdiction, and (iii) checks against
      applicable criminal databases where available and permitted by local law. Sitecore also requires all of its employees
      to comply with its Code of Business Conduct. In addition, Sitecore trains all of its employees on the proper
      treatment of confidential information as well as information security best practices.
   b) Sitecore is an independent contractor and is responsible for all matters governing the employment of Personnel.
      Sitecore will be responsible for the supervision, direction, and control of its Personnel, as well as the payment
      of compensation and any other legally required benefits. In no event will Personnel be deemed an employee,
      subcontractor, representative, or agent of Customer.

12) LIMITED WARRANTIES. Sitecore represents and warrants that:
   a) it is duly organized, validly existing, and in good standing under the laws of the jurisdiction of its incorporation or
      organization, and that it has all requisite power and authority to carry out its obligations described in the
      Agreement;
   b) it will render the support and maintenance and the Services in a professional and workmanlike manner in
      accordance with industry standards using qualified Personnel with the necessary skills, qualifications and
      experience;
   c) the Software provided to Customer under an Order will comply with the Documentation for a period of 90 days
      following the effective date of the applicable Order ("Limited Warranty Period"). In the event any such Software
      does not operate according to the Documentation during this Limited Warranty Period, Sitecore will repair
      or replace the Software. If Sitecore is unable to repair or replace the Software within 30 days of receiving notice of
      the defect, Customer will have the right to terminate the applicable Order and receive a full refund of the fees paid for
      the Software under that Order, and such refund will be Customer's sole and exclusive remedy under this warranty;
   d) before delivery to Customer the Software has been tested by software generally used in the industry for such
      purposes to determine that the Software is free from viruses and other malicious code;
   e) the provision of the Services will not violate any applicable laws, rules, regulations, and ordinances of any
      governmental body (collectively, "Applicable Laws"); and
   f) its Personnel will comply with all Applicable Laws and all obligations under the Agreement in performing the
      Services.

13) DISCLAIMER OF WARRANTIES. EXCEPT AS EXPRESSLY SET FORTH IN SECTION 12 ABOVE OR TO THE EXTENT
    ANY WARRANTIES IMPLIED BY LAW CANNOT BE WAIVED, SITECORE MAKES NO WARRANTY OF ANY KIND,
    WHETHER EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE. SITECORE EXPRESSLY DISCLAIMS ALL
    IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY,
    NONINFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES ARISING FROM COURSE
    OF DEALING. SITECORE ALSO EXPRESSLY DISCLAIMS ANY AND ALL EXPRESS, IMPLIED OR STATUTORY
    WARRANTIES THAT THE SITECORE PRODUCTS AND SERVICES WILL MEET CUSTOMER'S REQUIREMENTS, OR
    THAT THE OPERATION OF THE SITECORE PRODUCTS OR SERVICES WILL BE UNINTERRUPTED OR ERROR
    FREE.

14) CONFIDENTIAL INFORMATION. The term "Confidential Information" means all information disclosed in written,
    oral, electronic, visual or other form by either party (each a "Disclosing Party") to the other party ("Recipient") and
    either (a) marked or designated as "confidential" or "proprietary" at the time of disclosure or (b) disclosed in
    circumstances under which a reasonable person would understand it is to be treated as confidential. Confidential
    Information does not include information that (i) is or becomes a matter of public knowledge through no fault of the
    Recipient, (ii) was rightfully in the Recipient's possession free of any obligation of confidence, (iii) was rightfully disclosed
    to Recipient by a third party without restriction as to use or disclosure, or (iv) is independently developed by Recipient
    without use of or reference to Disclosing Party's Confidential Information. Recipient will hold the Confidential
    Information received from the Disclosing Party in confidence and will not, directly or indirectly, disclose it to any third
    party or entity. Recipient will limit use of and access to the Disclosing Party's Confidential Information to Recipient's
employees and independent contractors who have (x) a need to know, (y) been notified that such information is Confidential Information, and (z) entered into binding confidentiality obligations no less protective of the Disclosing Party than the Agreement. Recipient will protect the Disclosing Party’s Confidential Information by using the same degree of care as Recipient uses to protect its own confidential or proprietary information of a like nature (but not less than a reasonable degree of care). Recipient will promptly notify the Disclosing Party upon learning of any misappropriation or misuse of Confidential Information disclosed hereunder. Notwithstanding the foregoing, Recipient will be permitted to disclose Confidential Information pursuant to any statutory or regulatory authority or court order, provided that Recipient provides the Disclosing Party prompt prior notice (to the extent legally permitted to do so), and the scope of such disclosure is limited to the extent possible.

15) CUSTOMER DATA; FEEDBACK.

a) Customer owns and shall retain all right, title, and interest in and to the Customer Data. Customer represents and warrants that none of the Customer Data violates the Agreement and that it has all necessary right, title, interest and consent necessary to allow Sitecore to use Customer Data for the purposes of fulfilling its obligations under the Agreement.

b) Sitecore will manage, process and store all Customer Data in accordance with the Data Processing Addendum, which Customer may separately execute with Sitecore. Customer grants to Sitecore a non-exclusive and non-transferable right and license during the Subscription Term to copy, store, process, transmit, and otherwise use the Customer Data solely as necessary and appropriate for Sitecore to fulfill its obligations under the Agreement and in accordance with Applicable Laws. In addition, Sitecore may monitor Customer’s use of the SaaS Products or Hosted Services and use any resulting usage data as well as Anonymized Data for purposes of (i) offering the SaaS Products and Hosted Services, (ii) compiling statistical, benchmarking and performance information for the purposes of improving Sitecore Products and Services, and (iii) compiling behavioural data for the purposes of improving Sitecore Products and Services.

c) Customer grants Sitecore a royalty-free, worldwide, transferable, sublicensable, irrevocable, perpetual license to use the Feedback for the development of any Sitecore Products, without restriction and without any compensation due to Customer.

16) INSURANCE. Sitecore will maintain in force during the Term adequate liability insurance to protect Sitecore from: (a) errors and omissions and cyber liability related to the Software; (b) claims of personal injury, death, or property damage that arise from Sitecore’s provision of Services; and (c) claims under workers’ compensation where required by law. Upon request, Sitecore will provide Customer with a copy of the applicable certificates of insurance covering Sitecore and its business operations.

17) TERM AND TERMINATION

a) Term. The Agreement will commence on the Effective Date and, unless earlier terminated in accordance with this Section, will continue as long as there is an active Order in place between the parties or any of their Affiliates (the “Term”).

b) Termination for Breach. Either party may terminate these Master Terms and any active Order if the other party defaults in the performance of, or fails to perform, any of its material obligations under these Master Terms or any Order and fails to cure that default within 30 days following receipt of written notice from the non-breaching party. For purposes of clarity, a party may choose to terminate only the applicable Order if the breach event was limited to the substance of that Order. If either party terminates these Master Terms for breach, all active Orders will also terminate. In the event Sitecore terminates these Master Terms or any Order for Customer’s breach, Customer is still obligated to pay any fees which have accrued prior to termination. In the event Customer terminates an Order for Sitecore’s breach, Sitecore will refund the pro-rata share of any fees Customer has prepaid for the applicable Subscription Term under the Order.

c) Termination for Insolvency. Either party may terminate the Agreement by providing written notice to the other party if: (i) the other party files a voluntary petition in bankruptcy or an involuntary petition is filed against it; (ii) a trustee or receiver is appointed by a court for all or a substantial portion of the assets of the other party; (iii) the other party becomes insolvent, suspends business, or ceases to conduct its business in the ordinary course; or (iv) the other party makes an assignment of its assets for the benefit of its creditors."
d) **Suspension.** Sitecore reserves the right, by providing electronic notice to Customer, to immediately suspend any Order for Hosted Services or SaaS Products in the event Sitecore reasonably believes (i) that Customer has violated the Sitecore Usage Policy, (ii) with respect to the Hosted Services only, Customer's use of the Sitecore Technology is materially impacting any other Sitecore customer or their use of the Hosted Services, or (iii) Customer is the source of any security breach or suspected security breach, or compromise of data, stored in the Hosted Services or SaaS Products. In the event Customer does not cure the situation giving rise to this suspension within 10 days of receipt of notice, Sitecore may terminate the Order for breach with no further right to cure.

e) **Change in Circumstances.** Sitecore reserves the right, by providing electronic notice to Customer, to immediately terminate any Order for Hosted Services or SaaS Products in the event (i) there is a material change in the provision of services by a third party upon which the Hosted Services or SaaS Products rely, or (ii) there is a change to the laws governing Sitecore's provision of the Hosted Services or SaaS Products which would cause Sitecore to violate such law by continuing to offer the Hosted Services or SaaS Products. In the event of a termination under this provision, Sitecore will use commercially reasonable efforts to limit the negative impact experienced by Customer by assisting with a transfer to comparable services, or such other action as Customer may reasonably request. In addition, Sitecore will refund the pro-rata share of any fees Customer has prepaid for the applicable Subscription Term under the applicable Order.

f) **Effect of Termination.** Upon termination of any Order, the license and access rights applicable to such Order will also terminate and Customer will immediately cease all use of the Sitecore Products provided to Customer under that Order and delete all copies of Software in its possession or control. Upon Sitecore's request Customer will then certify that such use has ceased and that the Software has been erased, destroyed or otherwise made inoperable by any user in the future. Upon termination of these Master Terms, those provisions of these Master Terms which by their nature are intended to survive will survive termination. With respect to any Order for Hosted Services or SaaS Products: (i) Sitecore will only retain the Customer Data stored in its systems for 30 days (the "Retrieval Period") after termination of any Order for Hosted Services or SaaS Products; (ii) except in the event the Order is terminated for Customer's breach, Sitecore will assist with any reasonable request from Customer to retrieve the Customer Data within the Retrieval Period; and (iii) if requested by Customer, Sitecore will destroy Customer Data before expiration of the Retrieval Period, provided Sitecore may retain Customer Data where required by Applicable Laws or reasonably necessary to prevent liability.

18) **LIMITATION OF LIABILITY.** NEITHER PARTY WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES ARISING OUT OF OR RELATED TO THE AGREEMENT UNDER ANY LEGAL THEORY, EVEN IF THE PARTY HAS BEEN ADVISED OF, KNOWS OF, OR SHOULD HAVE KNOWN OF THE POSSIBILITY OF SUCH DAMAGES. EXCEPT FOR PERSONAL INJURY OR TANGIBLE PROPERTY LOSS, NEITHER PARTY'S AGGREGATE LIABILITY WILL EXCEED THE AMOUNT OF FEES PAID BY CUSTOMER FOR SITECORE PRODUCTS AND SERVICES UNDER THE APPLICABLE ORDER. THE FOREGOING EXCLUSIONS AND LIMITS OF LIABILITY WILL NOT APPLY TO: (A) EITHER PARTY'S FRAUD OR WILLFUL MISCONDUCT; (B) CUSTOMER'S VIOLATION OF THE SITECORE USAGE POLICY; AND (C) CUSTOMER'S BREACH OF THE LICENSES OR ACCESS RIGHTS GRANTED BY SITECORE IN THIS AGREEMENT.

19) **ASSIGNMENT.** Neither party may assign the Agreement, by operation of law or otherwise, except with the other party's written consent, which will not be unreasonably withheld or delayed, except that Sitecore may assign the Agreement to a successor (whether by merger, sale of assets, sale of stock, or otherwise) or an Affiliate that agrees to assume Sitecore's obligations under the Agreement. Any attempted assignment or transfer in violation of this Section will be void and of no force or effect.

20) **WAIVERS.** All waivers must be in writing and signed by authorized representatives of the parties. Any waiver or failure to enforce any provision of the Agreement on one occasion will not be deemed a waiver of any other provision or of such provision on any other occasion.

21) **SEVERABILITY.** If any provision of the Agreement is adjudicated to be unenforceable, such provision will be deemed changed and interpreted to accomplish the objectives of such provision to the greatest extent possible under applicable law and the remaining provisions will continue in full force and effect.

22) **AUDIT RIGHTS & LICENSE VERIFICATION.** With respect to an Order including Software, Customer will maintain accurate records of its compliance with the Agreement and the Order during the Subscription Term, and will promptly
provide these records to Sitecore upon its request. Sitecore may only request these records once in any 12-month period. If the records are not timely produced, or if Sitecore has reasonable grounds to question their accuracy, Sitecore may, at its own expense, engage an independent auditor to audit Customer's use of the Software. Any such audit will be conducted upon reasonable notice to Customer and during Customer's normal business hours using an auditor reasonable acceptable to Customer. Customer will reasonably cooperate with efforts to conduct the audit, including providing the auditor, in a timely fashion, all relevant information regarding its compliance with the Agreement. If such audit determines any unauthorized use of the Software, Sitecore will invoice Customer for all such unauthorized use in accordance with Sitecore's then-current retail prices computed from the date the excess usage commenced. If this invoice exceeds 5% of the amount of fees paid or payable under the applicable Order including Software for the most recent three years, Customer also agrees to pay the expense and costs of the audit. Customer will pay all invoices described in this section within 30 days from receipt. In addition, Customer understands that the Software may track and report to Sitecore the License Key ID, Customer name, hostname (Customer's website URL), host IP, version, and other usage information regarding the Software.

23) NOTICES. Each party will send notices to the other party at its address stated at the beginning of this Agreement or at an address specified by the receiving party in writing, attention Legal Department. All notices sent under the Agreement will be in writing, properly addressed, and: (a) mailed by first-class or express mail, receipt requested; (b) sent by reputable overnight delivery service; or (c) personally delivered to the receiving party. Each notice will be deemed given upon receipt of that notice by the other party.

24) FORCE MAJEUR. Except for any payment obligations under the Agreement, neither party will be in default or otherwise liable for any delay or failure to perform if such delay or failure arises by any event beyond its reasonable control, including, but not limited to, work stoppages, acts of war or terrorism, civil or military disturbances, or nuclear or natural catastrophes; provided the non-performing party provides prompt notice to the other party, and such failure or delay could not have been prevented by reasonable precautions. In such event, the non-performing or delayed party will be excused from further performance for as long as such circumstances prevail and such non-performing or delayed party continues to use its best efforts to recommence performance or observance whenever and to whatever extent possible without delay. In the event one party's lack of performance under this provision continues for more than 60 days, the other party may terminate this Agreement.

25) COMPLIANCE WITH LAWS. In performing its obligations under the Agreement, each party must comply with all Applicable Laws, including as set forth in the Data Processing Addendum.

26) GOVERNING LAW AND VENUE. The validity, construction, interpretation, and performance of the Agreement shall be governed by and construed in accordance with the laws of the State of Idaho except as to its principles of conflicts of laws.

27) INDEMNITY

a) Sitecore will defend, indemnify and hold harmless Customer and its respective directors, officers, employees, and agents (the "Customer Indemnitees"), from and against any third party claims, losses, damages, suits, fees, judgments, costs and expenses (collectively referred to as "Customer Claims"), including reasonable attorneys' fees incurred in responding to such Customer Claims, that the Customer Indemnitees incur as a result of (i) a claim that any Sitecore Product, Services, Training Material or Deliverable (collectively "Indemnified Products") infringes or violates any third party intellectual property right, or (ii) any personal injury (including death) or damage to tangible property resulting from Sitecore or its Personnel's acts or omissions. Notwithstanding the foregoing, the following shall apply in respect of any Customer Claims:

i) Sitecore will have no obligation or liability for that portion of any Customer Claims of infringement arising out of or in connection with: (i) use of a superseded version of the Software if the infringement would have been avoided by the use of an updated release of such Software; (ii) the combination, operation or use of the Indemnified Product with any software, hardware or other materials not furnished by Sitecore; (iii) any modification of the Indemnified Product not performed by Sitecore; or (iv) any breach by Customer of this Agreement, if the infringement would have been avoided by Customer not breaching the Agreement.

ii) If Sitecore reasonably believes Customer's use of an Indemnified Product may be endangered or disrupted, Sitecore may: (i) modify the Indemnified Product so as to provide Customer with a functionally equivalent and
non-infringing product; or (ii) obtain a license or access rights for Customer to continue use of the Indemnified Product for the Subscription Term at no additional cost to Customer; or (iii) if Sitecore in its sole discretion determines that neither of the foregoing alternatives is commercially reasonable, then Sitecore may at its option terminate this Agreement or the applicable Order and promptly refund the pro rata portion of the fees paid by Customer for the applicable Indemnified Product for the applicable Subscription Term; and

iii) to the maximum extent permitted by applicable law, this Section states Sitecore’s entire liability and Customer’s exclusive remedy for claims of intellectual property infringement.

b) Customer will defend, indemnify and hold harmless Sitecore and its respective directors, officers, employees, and agents (the “Sitecore Indemnitees”), from and against any third party claims, losses, damages, suits, fees, judgments, costs and expenses (collectively referred to as “Sitecore Claims”), including reasonable attorneys’ fees incurred in responding to such Sitecore Claims, that the Sitecore Indemnitees incur as a result of (i) Customer’s collection, use or storage of Customer Data, including any claim that the Customer Data is Restricted Data, or (ii) conduct that, if true, would constitute Customer’s breach of the Sitecore Usage Policy.

c) A “Covered Claim” means a Customer Claim or Sitecore Claim, as applicable. With respect to a Covered Claim, the indemnified party must (i) provide reasonably prompt written notice of any Covered Claim to the indemnifying party, (ii) allow the indemnifying party to assume complete control of the defense or settlement of any Covered Claim, and (iii) provide reasonable cooperation and assistance. The indemnified party may participate at its own expense using counsel of its choice. The indemnified party’s failure to perform any obligations under this paragraph (c) will not relieve it of its obligations under this Section unless the indemnifying party can demonstrate that it has been materially prejudiced as a result of such failure. Furthermore, the indemnifying party may not settle any Covered Claim without the indemnified party’s prior written consent (which such consent shall not be unreasonably withheld, conditioned or delayed) if such settlement (i) contains a stipulation to or an admission or acknowledgement of any liability or wrongdoing on the part of the indemnified party, or (ii) imposes any obligation or liability upon the indemnified party.

28) ENTIRE AGREEMENT; ORDER OF PRECEDENCE. The Agreement, together with the Data Processing Addendum if executed by the parties, constitutes the entire agreement between the parties regarding the subject matter hereof and supersedes all prior or contemporaneous agreements, understandings and communications, whether written or oral. In the event of conflict, the documents will have the following order of precedence: first the Data Processing Addendum if entered into by the parties, second these Master Terms, and then the applicable Order. Specific exceptions to these Master Terms may be agreed upon in writing by Customer and Sitecore under a particular Order by specifically referencing the language that the parties agree to override. Exceptions will apply only for the Order in which they are included and will not amend, cancel, or waive any provision of these Master Terms for any other Order. The Agreement may be amended only by a written document signed by both parties specifically noting its intent to amend. Any additional terms or conditions contained in any purchase orders, acknowledgments, invoices, click-through license agreements or other documents delivered, provided, or made available in connection with the Agreement will be of no force and effect.

29) DEFINITIONS. Terms defined below but not used in these Master Terms may be used in an Order.

a) “Affiliate” means any person or entity directly or indirectly controlled by or under common control with a party as of or after the Effective Date, for so long as that relationship is in effect (including affiliates subsequently established by acquisition, merger or otherwise).

b) “Anonymized Data” means Customer Data that is de-identified such that no person or entity (including but not limited to Customer) can be identified using commercially reasonable technology.

c) “Authorized Third Parties” means any subcontractors, agents or other third parties authorized by Customer to perform services related to the Sitecore Products on behalf of Customer.

d) “Consulting Services” means the professional consulting services provided by Sitecore under an Order, whether provided remotely or onsite at Customer facilities.

e) “Customer Data” means any data, content, materials, video, graphics, recordings, or text, including Personal Data, provided to Sitecore by Customer through Customer’s use of the SaaS Products or Hosted Services.
f) "Data Processing Addendum" means the Sitecore data processing addendum available at https://sitecore.com/y/SitecoreCustomerDPA, which Customer and Sitecore may execute separately.

g) "Deliverables" means any document, report, code or other tangible development work provided by Sitecore to Customer as part of the Consulting Services under an Order.

h) "Documentation" means the resources made available setting forth the then-current functional, operational, and performance capabilities of, and the required configurations and specification for acceptable use of, the Sitecore Products and Hosted Services, including as set forth on http://doc.sitecore.net.

i) "Feedback" means any ideas, proposals, improvements and other suggestions about the Sitecore Products or Services that Customer may choose to provide to Sitecore.

j) "Hosted Services" means the platform-as-a-service, infrastructure-as-a-service, email delivery services, or other cloud hosting services specified in an Order and provided by Sitecore, including any Sitecore Technology made available to Customer as part of the Hosted Services.

k) "Permitted Usage" will have the meaning set forth in the applicable Order. If no Permitted Usage is specified in the Order, "Permitted Usage" means management of Customer's own current and future public-facing web properties.

l) "Personal Data" means any information relating to an identified or identifiable natural person, or as otherwise defined under applicable law, but expressly excluding Restricted Data.

m) "Personnel" means Sitecore's employees, officers, and subcontractors.

n) "Restricted Data" means financial records, data governed by PCI or HIPAA, and any other data requiring a standard of protection greater than that set forth in the Data Processing Addendum. For purposes of this definition, PCI means the Payment Card Industry Association's standards for storage and processing of payment card data, and HIPAA means the Health Insurance Portability and Accountability Act of 1996.

o) "SaaS Products" means any software-as-a-service products specified in an Order and provided by Sitecore, including any Sitecore Technology made available to Customer as part of the SaaS Products.

p) "Services" means any Consulting Services, Training Services or Hosted Services that Sitecore performs or provides under the Agreement.

q) "Sitecore Products" means the Software and SaaS Products.

r) "Sitecore Technology" means any software, hardware, processes, user interfaces, algorithms and other technology used by Sitecore to provide the Hosted Services or SaaS Products.

s) "Software" means any of Sitecore's proprietary software products specified in an Order, including any patches, updates or upgrades provided by Sitecore.

t) "Subscription Term" means the term of Customer's license to use the Software or to access the Hosted Services, as further described and defined in the applicable Order.

u) "Training Materials" means any document, report, assessment, code, audio, video, simulation, or product information provided by Sitecore as part of the Training Services.

v) "Training Services" means the professional training services provided by Sitecore to Customer under an Order, including remote training, web-based training, and onsite classes.

w) "Sitecore Usage Policy" means the restrictions and limitations applicable to relevant Hosted Services or SaaS Products, as set forth in the applicable Order.
This Agreement may be executed in counterpart, and may be executed by way of facsimile or electronic signature, and if so, will be considered an original. Each person signing this Agreement represents and warrants that he or she has been duly authorized and has full authority to execute this Agreement on behalf of the party below.

This Order is entered into between Sitecore and Customer under the master agreement executed between the parties as of the Existing Master Terms Date, including any cloud addendum entered into by the parties, if applicable (collectively, the 'Master Terms'). This Order will be governed by the Master Terms and will form part of the Agreement between the parties. This Order will be effective as of the Order Effective Date. Unless otherwise defined in this Order, capitalized terms shall have the meanings set forth in the Master Terms. This Order is voidable at Sitecore's option if not signed by Customer on or before the Order Voidability Date.

1. Sitecore Products

**Termination of the Former Order**

As of 12 (twelve) months from the Order Effective Date, the Former Order is terminated. Sitecore and Customer hereby agree to fully replace and supersede the Former Order with this Order Form. “Former Order” means the Sitecore Customer Order (License ID#20191031080145) dated October 31, 2019, including any and all subsequent amendments or addenda thereto.

Licensing is enabled by electronic delivery of a License Key. Promptly after mutual execution of this Order, a new License Key will be shipped to Steven Cox at scox@uidaho.edu, and as of 12 (twelve) months from the Order Effective Date any license keys associated with the Former Order will be terminated. Notwithstanding Section 4(c) of the Master Terms, the License Key will not be time-limited.

**Permitted Usage:** Customer may use the SaaS Product for creation and management of Customer’s own current and future public-facing or internal web properties.

**SAAS PRODUCT:**

Sitecore will provide the following SaaS Product and entitlements:

**Permitted Usage.** Customer may use the SaaS Products for its own internal business purposes with respect to the Permitted Sites.

SaaS Product Entitlements:
If Customer exceeds its Entitlement for a SaaS Product (with the exception of Experience Manager Cloud) at any time during any of the consecutive 12-month periods that make up a Subscription Term, then upon 15 days’ prior notification Customer will automatically be upgraded to the next applicable pricing tier for the remainder of the Subscription term, unless Customer responds to such notification, in which case Customer will have the option to right-size based on a written mutual agreement between Sitecore and Customer. Automatic upgrades will be in line with Sitecore’s then-current retail prices, the annual fee will be increased accordingly, and Sitecore will immediately invoice Customer for the pro-rata amount applicable to the remaining time in the current invoicing cycle. Any exceptions to this policy will be noted in the Additional Special Terms section within this order form.

For Experience Manager Cloud: no later than the 15th calendar day following each 3-month period beginning from the effective date of the Order, Customer will submit to Sitecore a usage report identifying the number of
Visits (as defined in the Order) in that 3-month period based on Customer’s use of Experience Manager Cloud. Where the report indicates that Customer has exceeded its purchased number of Visits, then upon 15 days’ prior notification Customer will automatically be upgraded to the next applicable pricing tier for the remainder of the Subscription Term, unless Customer responds to such notification, in which case Customer will have the option to right-size based on a written mutual agreement between Sitecore and Customer. Automatic upgrades will be in line with Sitecore’s then-current retail prices, the annual fee will be increased accordingly, and Sitecore will immediately invoice Customer for the pro-rata amount applicable to the remaining time in the current invoicing cycle.

2. Sitecore Services

Consulting & Training

This section is not applicable to this order.

3. Support, SLA and Usage Policy

Sitecore offers support and maintenance services as set forth at https://kb.sitecore.net/articles/583182, at the level indicated in this Order. A current copy of which is attached hereto as Exhibit A.

Sitecore offers a Service Level Agreement for each of its SaaS Products and Hosted Services, which can be found at https://www.sitecore.com/legal/sla. A current copy of which is attached hereto as Exhibit B.

Access to SaaS Products and Hosted Services is provided subject to Customer’s compliance with the Usage Policy set forth at https://www.sitecore.com/legal/usage-policy. A current copy of which is attached hereto as Exhibit C.

4. Sitecore360

A description of the Sitecore360 entitlements can be found at https://www.sitecore.com/legal/sitecore360. A current copy of which is attached hereto as Exhibit D.
5. Sitecore Product Definitions

The Sitecore Product and Hosted Services definitions are as set forth on https://www.sitecore.com/legal/order-definitions. A current copy of which is attached hereto as Exhibit E.

6. Subscription Term; Renewal

This Order is effective on the Order Effective Date and continues for the minimum commitment of 60 months. At the end of this minimum commitment, the Order will automatically renew for additional terms, as set forth below, unless either party provides the other party with at least 90 days’ written notice of its intent not to renew prior to the next renewal date. The ‘Subscription Term’ is equal to the minimum commitment plus any renewals, which will be either:

- additional 12-month renewal terms with an annual increase in pricing of 9%; or
- additional 36-month renewal terms with an annual increase in pricing of 5%.

7. Invoicing and Payment Terms

Below is a summary of the invoicing under this Order:

<table>
<thead>
<tr>
<th>Year</th>
<th>Description</th>

All prices as set out in this Order are USD and exclusive of any applicable taxes unless otherwise indicated.

**Payment Terms**

Net 30 days.

Payment terms for all amounts under this Order are **Net 30 days** from the date of a valid invoice issued by Sitecore. An invoice shall be valid where the amounts invoiced are accurate and without regard to other referenced information including but not limited to purchase order number. In the event of non-payment by Customer of a valid invoice, if Customer still fails to pay such invoice after being sent a 15 days' reminder notice to pay such invoice, Sitecore may, at its sole discretion, suspend the access or provision of the Sitecore Products and/or Services, or terminate the affected Order. Customer agrees to pay interest calculated at the rate of six percent (6%) per annum or the maximum amount permitted by law, whichever is less, of the total outstanding amount, for the time period the payment remains past due.

### Additional Terms and Conditions

**Idaho Regulatory Certifications**

Customer is prohibited by state law from entering into certain contractual agreements. Sitecore hereby certifies that: (i) pursuant to Idaho Code Section 67-2346, if payments under the Agreement exceed one hundred thousand dollars ($100,000) and it employs ten (10) or more persons, it is not currently engaged in, and will not for the duration of the Agreement engage in a boycott of goods or services from Israel or territories under its control; (ii) pursuant to Idaho Code Section 67-2359, it is not currently owned or operated by the People's Republic of China and will not for the duration of the Agreement be owned or operated by the People’s Republic of China; and (iii) it is not an abortion provider or an affiliation of an abortion provider under the No Public Funds for Abortion Act. The terms in this section defined in Idaho Code Section 67-2346, Idaho Code Section 67-2359, and in Title 18, Chapter 87, Idaho Code, respectively, shall have the meanings defined therein.

**Additional Visits & MBUs:**

By providing written notice to Sitecore, Customer shall have the option to upgrade to the next applicable pricing tiers for Sitecore Experience Manager Cloud, Sitecore Search, Sitecore Personalize, and Sitecore CDP. The next pricing tiers are priced as per the tables below. For the avoidance of doubt, all other products under this Order will remain at the pricing tiers and entitlements listed in the Order and any upgrades done in accordance with this section shall be documented in an add-on or amendment to this Order. This pricing structure shall be valid only for 60 months from the Order Effective Date unless otherwise agreed in writing. Upon execution of an add-on or amendment the annual fee will be increased accordingly, and Sitecore will immediately invoice Customer for the pro-rata amount applicable to the remaining time in the current invoicing cycle.

Exhibit A

Sitecore Support Program Terms

Description
Sitecore Support Program is available at two different levels: **Standard Support** and **24x7 Premium Support**. Such service levels do not apply to any beta or technical preview software programs or solutions Sitecore makes available to Customer.

Sitecore shall provide the following Support to Customer for the licensed Software:

**Support Portal.** Sitecore provides a staffed support portal to support Customer's Named Support Contacts. See "Support Cases" below for more information. "Named Support Contacts" means a Customer representative who has completed a training and passed IT Administrator or Developer certification for the appropriate Sitecore software.

**Sitecore Community Forum.** Sitecore Community Forum is an active online community of Sitecore users. This forum offers a wealth of shared experiences among the many Sitecore certified developers worldwide, with fresh and historical insight available 24x7.

**Documentation Library.** The Sitecore Documentation site includes information for business users and developers to work successfully with Sitecore products. There is procedural and conceptual information, as well as walkthroughs, FAQs, and troubleshooting topics. For developers in particular, you can find code snippets, API references, and integration information.

**Support Cases.** Incidents and questions should be reported through the support portal at: [http://support.sitecore.com/](http://support.sitecore.com/).

Support Cases can be opened 24x7, and each Support Case will be responded to in accordance with the Service Levels set forth in Table 1 below. For sake of clarity, only Customer Named Support Contacts may open Support Case, and Customer may only have up to eight (8) Customer Named Support Contacts at any given time. The Support Case shall contain, to the extent known, applicable and/or possible: (i) the name of the Solution to which Customer is subscribed; (ii) the name/type of affected equipment; (iii) Customer contact name, email address if available, telephone number; (iv) the nature of the problem, a description of the problem and Customer's classification of the problem.

Customer will provide Sitecore with as much information as possible to enable Sitecore to investigate and attempt to identify and verify the reported maintenance issue.

Customer will work with Sitecore support personnel during the investigation of Support Case, as reasonably needed and in a timely manner.

**Software Maintenance for Sitecore xM/xP/xC:** A valid and current Sitecore maintenance or subscription agreement for the Software includes access, at no additional charge, to all new versions of the Software to keep Customer's implementation current. This includes all Upgrades and Hotfixes (previously referred to as "Patches"). "Hotfix" means a specific, targeted fix to a problem in the use or functionality of the Software that Sitecore in its sole discretion defines to constitute a "Hotfix" and may from time to time provide to Customer. "Upgrade" means a new version of some or all of the Software, or an improvement in the use or functionality of the Software more substantial than a Hotfix, that Sitecore in its sole discretion defines to constitute an "Upgrade" and may from time to time provide to customers enrolled in the Sitecore Maintenance Program. Customer expressly acknowledges that Upgrades and Hotfixes may change functionality of the Software and integration with other systems, and may not work with some or all of the Software modules, or be backward compatible with earlier versions of Software. Installation of Hotfixes and Upgrades is the choice and responsibility of Customer. To the extent that operation of the Software is affected by problems in standard software, including, but not limited to, Microsoft Internet Explorer, Windows, SQL, SharePoint and the Microsoft.Net Framework, then Customer shall install updates to such standard software per Sitecore's specifications in order to resolve these issues. Sitecore has no control over such standard software, and cannot assure that problems with such standard software will be corrected, or that such corrections will be made in a timely manner. Sitecore shall support any master release and its sub-versions in accordance with the Sitecore Product Support Lifecycle policy, which can be found at: [https://kb.sitecore.net/articles/641167](https://kb.sitecore.net/articles/641167). In the event a Customer is upgrading XP or XM or XC product, Sitecore may grant the Customer the time-limited use of an additional and temporary license for the sole purpose of facilitating the migration or upgrade.
Severity Levels, Target Response Times, and Support Ticket Resolution

Sitecore shall categorize Support Tickets based on the business impact of the incident or question to Customer using the Severity Levels described in Table 1 below.

**Target Response Times**

Sitecore shall provide an update on the investigation, resolution, or escalation of the Support Ticket within the response times set out in Table 1 below based on the Severity (as defined below) of the Support Ticket.

**Table 1: Severity Levels and Target Response Times**

<table>
<thead>
<tr>
<th>Severity Level</th>

<td>operations or visitor experience;</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
In a non-production environment, causes moderate or minor impact on development or implementation activity;

• Documentation related queries or requests for product enhancements;

• Issues that do not meet any of the higher severity criteria.

Support Ticket Resolution
Sitecore will seek to find a resolution to a Support Case in accordance with the standards set out in Table 2 below. Upon the Effective Date of the Support Agreement, Sitecore shall provide Customer with contact information for issue escalation.

Table 2: Severity Levels and Support Ticket Resolution

<table>
<thead>
<tr>

<td>Sitecore will make reasonable efforts to resolve the problem or provide a workaround if such a problem has not been resolved in the next maintenance release of Sitecore Software.</td>
</tr>
</tbody>
</table>

Business Days are calculated as any day other than a Saturday or Sunday.
Business Hours are calculated as follows:

• For Americas, 8am-6pm CST (2pm-12am UTC)

• For Europe, 8am-6pm CET (7am-5pm UTC)

• For Greater Asia, 6am-6pm MYT (10pm-10am UTC)
**EXHIBIT B**

**SITECORE® SaaS PRODUCTS**  
**SAAS SERVICE LEVEL AGREEMENT (SLA)**

**Updates to Terms:** Sitecore may update this SLA from time to time by providing Customer’s technical contact with at least 30 days’ notice, provided that Sitecore does not materially degrade the services or service levels available to Customer under this SLA.

**Monitoring**
Sitecore will monitor the SaaS Product 24x7, 365 days per year.

**Software Maintenance**
Sitecore will perform software and platform updates as part of Customer’s Subscription ("Maintenance").

Maintenance includes all regularly scheduled error corrections, software and platform updates, and improvements to features, where Sitecore may, at its discretion, upgrade versions, install error corrections and apply patches to the hosted systems. Sitecore shall use all reasonable endeavors to avoid downtime due to Maintenance.

In case Maintenance will require downtime, Sitecore will plan this outside of Business Hours and communicate this to Customer in advance and in any case no later than 48 hours before the Maintenance commences.

Business Days are calculated as any day other than a Saturday or Sunday.

Business Hours are calculated as follows:
- For Americas, 8am-6pm CST (2pm-12am UTC)
- For Europe, 8am-6pm CET (7am-5pm UTC)
- For Greater Asia, 6am-6pm MYT (10pm-10am UTC)

**Emergency Maintenance**
Should emergency Maintenance be required (e.g. in the case of a necessary security patch), Sitecore will make every effort to keep the inconvenience to a minimum, including by providing as much notice as is practicable under the circumstances, and to the extent practicable, minimizing downtime or degradation of services during Business Hours.

**Breaking Changes**
Sitecore shall provide at least 30 days’ advance notice prior to Sitecore making changes to integration interfaces between the SaaS Product and Customer’s systems. Such notice will also include the time window for when these changes will be applied to their environments, the new interface specifications, as well as contact details for a Sitecore technical contact to help answer questions about these changes. By providing such notice Sitecore aims to minimize any interference with the continued operation of any integration interfaces affected by such changes. Sitecore shall also use commercially reasonable endeavors to perform these changes outside of Business Hours.
Uptime
If Sitecore does not achieve and maintain the Service Levels (defined below) for the SaaS Product as described in this SLA, Customer will be entitled to a credit towards a portion of the applicable fees as set forth below.
Service Level Definitions

“Accrual Period” means any of the 12-month periods that make up Customer’s subscription.*

“Applicable Monthly Period” means the month in an Accrual Period in which a Service Credit may be earned.

“Applicable Monthly Fees” means the pro-rated amount of the fees paid by Customer for the SaaS Product in the relevant Accrual Period in which the Service Credit was earned, which amount is then divided by twelve.*

“Downtime” is defined for each SaaS Product as set forth in Appendix 1. Downtime does not include unavailability of the SaaS Product due to the Exclusions described below or as otherwise set forth in Appendix 1.

“Maximum Available Minutes” is the total accumulated minutes for the SaaS Product during an Applicable Monthly Period.

“Monthly Uptime Commitment” means the provision of the SaaS Product with a Monthly Uptime Percentage of at least 99.90%.

“Monthly Uptime Percentage” is calculated using the following formula (for each production environment):

\[
\frac{\text{Maximum Available Minutes} - \text{Downtime}}{\text{Maximum Available Minutes}} \times 100
\]

“Service Credit” is the percentage of the Applicable Monthly Fees credited to Customer following Sitecore’s approval of the claim as set forth below:

<table>
<thead>
<tr>
<th>Monthly Uptime Percentage</th>
<th>Service Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Above or equal to 99.90%</td>
<td>None</td>
</tr>
<tr>
<td>&lt;99.90% but above or equal to 98%</td>
<td>10%</td>
</tr>
<tr>
<td>&lt;98%</td>
<td>20%</td>
</tr>
</tbody>
</table>

“Service Level” means the availability metric(s) set forth in this SLA that Sitecore agrees to meet in the delivery of the SaaS Product.

* Where the subscription is for less than 12 months, then the Accrual Period will be equal to the subscription period, and the Applicable Monthly Fees will be calculated by dividing by the number of months in the applicable subscription period.

Service Credit

In the event Sitecore does not meet a Monthly Uptime Commitment, Customer has the right to claim a Service Credit. In order for Sitecore to consider a claim, Customer must submit the claim by emailing Sitecore at billing@sitecore.net and citing the applicable invoice number.
the Service Credit is claimed against. The Service Credit shall be deemed waived unless Sitecore receives the foregoing email request claiming a Service Credit within ten (10) days of the end of the Applicable Monthly Period.

Sitecore will evaluate all information reasonably available to it and make a good faith determination of whether any Service Credit is owed. Customer must be in compliance with the Agreement and current on all payments at the time the reported Service Credit occurred in order to be eligible for a Service Credit. If Sitecore determines that a Service Credit is owed to Customer, Sitecore will apply such Service Credit to any future payment of Fees occurring after the Accrual Period in which the Service Credit was earned.

Service Credits are Customer’s sole and exclusive remedy for any availability issues with the SaaS Product and will not entitle Customer to any refund or other payment from Sitecore. Customer may not unilaterally offset its fees for any availability issues.

**Exclusions to Uptime Guarantee:**

1. Downtime affecting only non-production environments;
2. Downtime caused by planned Maintenance, to the extent that planned Maintenance occurs outside Business Hours, and is communicated at least 48 hours in advance;
3. Downtime caused by emergency Maintenance slots, as long as Downtime for emergency Maintenance does not exceed 4 hours per month;
4. Downtime caused by Customer’s negligence; and
5. Force Majeure, in which case Sitecore will make commercially reasonable efforts to limit any inconvenience for Customer, but will be temporarily relieved from providing Service Credits as long as Sitecore (a) notifies Customer within 2 hours of the occurrence of a Force Majeure event (or if impracticable under the circumstances, as soon as reasonably practicable), and (b) updates Customer every 24 hours during the course of the Force Majeure event of the anticipated duration of the outage (or if impracticable under the circumstances, as often as reasonably practicable).

**Backup and Disaster Recovery**

All SaaS Products are designed and configured for high availability and resiliency against local outages. Sitecore runs all critical components of each of the SaaS Products in at least 2 cloud provider datacenters in separate availability zones within the selected cloud provider region. In addition, as part of its backup procedures Sitecore replicates the backup of all Customer Data to at least 1 other region (the paired cloud datacenter region). Whenever possible the paired cloud datacenter region(s) are at least 300 miles apart, but this is not always possible given that, in order to satisfy data residency, tax and legal enforcement requirements, the paired cloud datacenter regions must be in the same geography.

Sitecore will implement and update on a periodic basis its disaster recovery policies, standards, and procedures, and will maintain strict compliance with its disaster recovery policies, standards, and procedures. Sitecore will report disasters (or potential disasters) to Customer Named Contacts promptly upon identification. Sitecore will schedule and test the components of its disaster recovery plans at least twice a year.
In case of a disaster, when one of the cloud datacenter regions is disrupted or inaccessible and deemed non-recoverable by the cloud service provider, Sitecore will use best efforts to achieve a Recovery Point Objective of 24 hours and a Recovery Time Objective of 3 working days recovery at the paired cloud datacenter region. Sitecore shall use reasonable commercial endeavors to restore the lost or damaged Customer Data from the latest back-up of such Customer Data maintained by Sitecore.

**SaaS Product Specific SLA Terms and Conditions**
Additional terms and conditions applicable to specific SaaS Products are set forth in Appendix 1.
APPENDIX 1: SaaS PRODUCT SPECIFIC DEFINITIONS

1.1 Sitecore Content Hub

Content Hub Maintenance
For sake of clarity, it is no longer possible to opt out of Maintenance for Content Hub. In the extraordinary case where Sitecore and Customer agree to allow Customer to postpone any Maintenance, the following will apply: (i) Sitecore cannot provide Support for, and the Service Levels provided herein will not apply, where Customer has not received Maintenance for a period of 4 months or longer; and (ii) all cost and expense related to skipped or postponed Maintenance shall be borne by Customer.

Non Production Environments
Content Hub subscription tiers include the use of Non-Production Environments. Non-Production Environments are meant to be used for QA of workflows for code or configuration promotion, or development activities, in concert with Customer’s live environment. Maintenance which constitutes breaking changes will be made to Customer’s Non-Production Environments at least 14 calendar days prior to being introduced to Customer’s live environment.

Definition of Downtime
“Downtime” is the total accumulated minutes during which the https://{customer-hostname}/api/status endpoint is unresponsive or returns anything else then 200 - OK. The endpoint checks the status for all internal services and connections to all used datastores.

1.2 Sitecore Experience Edge; Sitecore Experience Edge for Content Hub; Sitecore Experience Edge for XM

Definition of Downtime
“Downtime” is the total accumulated minutes during which the https://edge.sitecorecloud.io/api/status endpoint is unresponsive or the returned status indicates downtime for the customer’s region. The endpoint checks the status for all internal services and connections to all used datastores.
Example for normal response payload for the https://edge.sitecorecloud.io/api/status endpoint:

```json
{
    "weu-01": "up",
    "eus-01": "up",
    "wus-01": "up",
    "aue-01": "up",
    "jpe-01": "up"
}
```

1.3 Sitecore Customer Data Platform

Definition of Downtime
“Downtime” is the total accumulated minutes during which the SaaS Product was unavailable.

Performance
The SaaS Product response time should be recorded as under 200ms for the 95th percentile of the calls to the ingestion API(s), where measurement takes place at the boundary of the SaaS Product and does not include the time taken to traverse the public internet.

1.4 Sitecore Personalize
Definition of Downtime

“Downtime” is the total accumulated minutes during which the SaaS Product was unavailable.

Performance

The SaaS Product response time should be recorded as under 200ms for the 95th percentile of the calls to the decisioning API(s) on a Typical Implementation, where:

- “Typical Implementation” means an implementation that does not include external API calls and/or high complex data ingestions from the Canvas;
- “Canvas” means the component in the SaaS Product where Customer configures its decisioning API; and
- measurement takes place at the boundary of the SaaS Product and does not include the time taken to traverse the public internet.

1.5 Sitecore OrderCloud

Definition of Downtime

“Downtime” is the total accumulated minutes during which the OrderCloud API is not available for use according to third party performance and monitoring services contracted by Sitecore for the SaaS Product at its sole discretion (the "Monitoring Service"). The Monitoring Service reports of availability is currently available upon request.

1.6 Sitecore Discover; Sitecore Search

Definition of Downtime

“Downtime” is the total accumulated minutes during which the Sitecore Discover API is not available for use according to third party performance and monitoring services contracted by Sitecore for the SaaS Product at its sole discretion (the "Monitoring Service"). The Monitoring Service reports of availability is currently available upon request.

Amendments to Definitions of "Monthly Uptime Commitment" and "Service Credit"

For purposes of Sitecore Discover and Sitecore Search only, the following definitions are amended and restated as follows:

“Monthly Uptime Commitment” means the provision of the SaaS Product with a Monthly Uptime Percentage of at least 99.95%.

“Service Credit” is the percentage of the Applicable Monthly Fees credited to Customer following Sitecore’s approval of the claim as set forth below:

<table>
<thead>
<tr>
<th>Monthly Uptime Percentage</th>
<th>Service Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Above or equal to 99.95%</td>
<td>None</td>
</tr>
<tr>
<td>&lt;99.95% but above or equal to 99%</td>
<td>10%</td>
</tr>
<tr>
<td>&lt;99%</td>
<td>20%</td>
</tr>
</tbody>
</table>

1.7 Sitecore Experience Manager Cloud

Definition of Downtime

“Downtime” is the total accumulated minutes during which an endpoint of a Component of the Customer-specified XM Cloud production environment is unresponsive or the returned status indicates unavailability.

Following are the endpoints for the Components:

- **Deploy:**
  - API: https://xmclouddeploy-api.sitecorecloud.io/health/ready
UI: https://deploy.sitecorecloud.io/status

• Authoring: https://(Customer-hostname)/healthz/ready

• Publishing: The Customer region defines which endpoint is applicable:
  o Australia: https://aue-e1-aks-01-publishing.sitecorecloud.io/healthz/ready
  o Japan: https://jpe-e1-aks-01-publishing.sitecorecloud.io/healthz/ready
  o East US: https://eus-e1-aks-01-publishing.sitecorecloud.io/healthz/ready
  o West US: https://wus2-e1-aks-01-publishing.sitecorecloud.io/healthz/ready
  o West Europe: https://weu-e1-aks-01-publishing.sitecorecloud.io/healthz/ready

• Content Delivery: As defined in Appendix 1 Section 1.2 Sitecore Experience Edge.

"Component" is a capability provided with Experience Manager Cloud. This includes:

• Deploy: Enables the deployment of code to the Customer’s XM Cloud environment.
• Authoring: Enables the creation of Customer content.
• Publishing: Enables Customer content to be prepared for use.
• Content Delivery: Enables Customer content to be consumed by their website.

Amendments to Service Level Definitions

For purposes of Sitecore Experience Manager Cloud only, the definition of “Monthly Uptime Percentage” is amended and restated, and a new definition of “Component Uptime Percentage” is added, as set forth below:

• “Component Uptime Percentage” is calculated using the following formula for each Component of the Customer’s production environment:

\[
\frac{\text{Maximum Available Minutes} - \text{Downtime}}{\text{Maximum Available Minutes}} \times 100
\]

• “Monthly Uptime Percentage” is calculated as the weighted average of the sum of all Component Uptime Percentages:

<table>
<thead>
<tr>
<th>XM Cloud Component</th>
<th>Weighting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deploy</td>
<td>10%</td>
</tr>
<tr>
<td>Authoring</td>
<td>30%</td>
</tr>
<tr>
<td>Publishing</td>
<td>20%</td>
</tr>
<tr>
<td>Content Delivery</td>
<td>40%</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
</tr>
</tbody>
</table>

(10% x Deploy Component Uptime Percentage) + (30% x Authoring Component Uptime Percentage) + (20% x Publishing Uptime Percentage) + (40% x Content Delivery Component Uptime Percentage)

Additional Exclusion to Uptime Guarantee

• Downtime due to a fault in the Customer’s input or actions to, or customization(s) of, Experience Manager Cloud.
• Downtime due to Customer’s workloads and tasks running on the Customer’s XM Cloud production environment.

1.8 Sitecore Connect

Definition of Downtime

“Downtime” is the total accumulated minutes during which the Recipe Runtime engine of the embedded Workato platform (within Sitecore Connect) is not available for use according to Workato’s performance and monitoring services. The reports of availability are currently available at https://status.workato.com.
1.9 Sitecore Content Hub ONE

Definition of Downtime

“Downtime” is the total accumulated minutes during which an endpoint of a Component of Content Hub ONE is unresponsive or the returned status indicates unavailability.

Following are the endpoints for the Components:

- **Content Hub ONE API:**
  - Australia: https://content-api-aue.sitecorecloud.io/health/ready
  - Japan: https://content-api-jpe.sitecorecloud.io/health/ready
  - East US: https://content-api-eus.sitecorecloud.io/health/ready
  - West US: https://content-api-wus.sitecorecloud.io/health/ready
  - West Europe: https://content-api-weu.sitecorecloud.io/health/ready

- **Media Delivery:**
  - Australia: https://mms-delivery-aue.sitecorecloud.io/healthz/ready
  - Japan: https://mms-delivery-jpe.sitecorecloud.io/healthz/ready
  - West US: https://mms-delivery-wus2.sitecorecloud.io/healthz/ready
  - West Europe: https://mms-delivery-weu.sitecorecloud.io/healthz/ready

- **Content Delivery:** As defined in Appendix 1 Section 1.2 Sitecore Experience Edge.

"Component" is a capability provided with Content Hub ONE. This includes:

- **Content Hub ONE API:** Enables the modelling, authoring, and management of Customer content.
- **Media Delivery:** Enables Customer media content to be consumed by their multichannel experience.
- **Content Delivery:** Enables Customer content to be consumed by their multichannel experience.

Amendments to Service Level Definitions

For purposes of Sitecore Content Hub ONE only, the definition of "Monthly Uptime Percentage" is amended and restated, and a new definition of "Component Uptime Percentage" is added, as set forth below:

- "Component Uptime Percentage" is calculated using the following formula for each Component of Content Hub One:

\[
\frac{\text{Maximum Available Minutes - Downtime}}{\text{Maximum Available Minutes}} \times 100
\]

- "Monthly Uptime Percentage" is calculated as the weighted average of the sum of all Component Uptime Percentages:

<table>
<thead>
<tr>
<th>Content Hub ONE Component</th>
<th>Weighting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Content Hub ONE API</td>
<td>20%</td>
</tr>
<tr>
<td>Media Delivery</td>
<td>40%</td>
</tr>
<tr>
<td>Content Delivery</td>
<td>40%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>
(20% x Content Hub ONE API Component Uptime Percentage) + (40% x Media Delivery Component Uptime Percentage) + (40% x Content Delivery Component Uptime Percentage)
Exhibit C

Sitecore® Usage Policy

This Usage Policy applies to any products or services hosted by Sitecore (collectively, “Cloud Services”) on behalf of its customers (each a “Customer”). The terms of this Usage Policy may be updated by Sitecore periodically at Sitecore’s reasonable discretion and made applicable thirty (30) days after email notice of the update is sent to Customer at the technical contact email provided by Customer.

The following terms are applicable to all Cloud Services:

A. What are Customer and its authorized users prohibited from doing?

1. Using the Cloud Services to violate the rights of others;
2. Using the Cloud Services to harm, overload, disrupt, or gain unauthorized access to any service, network, system, device, data or account provided or owned by Sitecore or any third party, including any other user of the Cloud Services;
3. Using the Cloud Services in any situation where Customer knows or should reasonably know that failure or fault of the Cloud Services could lead to death or serious bodily injury of any person, or physical or environmental damage;
4. Using the Cloud Services in a manner prohibited by applicable law, regulation or government order, including without limitation any laws regarding the export of data or software, email spamming, and distribution of malware;
5. Erasing or removing any intellectual property right notice contained in the Cloud Services;
6. Attempting to defeat, remove, or otherwise circumvent any software protection or monitoring mechanisms of the Cloud Services; and
7. Authorizing or inducing any third party to do any of the above.

B. As a Customer, what must I do?

1. Upon written request from Sitecore, Customer must promptly remove any data or application stored in the Cloud Services that violates this Usage Policy;
2. In the event Customer becomes aware of any known or suspected violation by its user(s) of this Usage Policy, Customer shall immediately: (a) provide electronic notice to Sitecore of the violation, (b) suspend such user’s access to the Cloud Services, and (c) cooperate with Sitecore in any investigation of such known or suspected violation by Customer’s user(s);
3. Customer acknowledges that the Cloud Services are designed with capabilities for Customer to access the Cloud Services without regard to geographic location and to transfer or otherwise move data and applications between the Cloud Services and other locations. Customer and not Sitecore shall authorize and manage all user accounts, as well as export control and geographic transfer of Customer’s data and applications;
4. Customer shall be solely responsible for the accuracy, quality, content, legality and intellectual property ownership or right to Customer’s data and applications stored in the Cloud Services, including any applicable notice, takedown or other data security and data management policies. Sitecore reserves the right to review, refuse, or remove any or all Customer data or applications from the Cloud Services to comply with applicable law;
5. Customer will require all of Customer’s authorized users to comply with this Usage Policy; and
6. Unless back-up services are included in the Cloud Services that Customer orders from Sitecore, Customer is responsible for any backups of Customer Data used with the Cloud Services and will perform such backups on an environment separate from the Cloud Services.

The following terms are ONLY applicable to Sitecore® Managed Cloud Premium 1.0 Services, or any bundled license offering that includes Sitecore® Managed Cloud Premium 1.0 Services (collectively “Premium Cloud 1.0 Services”):

1. Customer must comply with the acceptable use policy of Rackspace, as set forth at the following web address: http://www.rackspace.com/information/legal/aup/php;
2. Customer must comply with the terms of the Microsoft Customer Agreement for Azure currently found at https://azure.microsoft.com/en-us/support/legal/subscription-agreement/, which may be updated by Microsoft from time to time;
4. Customer understands and acknowledges that third party services providers are involved in the Premium Cloud 1.0 Services, and that such third party service providers will have access to Customer's data or applications which are supported or included as part of the Cloud Services and may contact Customer regarding the Cloud Services and related workload and IT infrastructure needs of Customer; and
5. To the extent Customer requests that any third party software be installed, supported or patched by third party service providers involved in the delivery of Premium Cloud 1.0 Services, Customer must have a written license agreement with such third party software vendor and Customer agrees to provide, upon request and within a reasonable time period, certification and evidence of Customer's compliance with the terms and conditions thereof.

The following terms are applicable to Sitecore® Email Experience Management Delivery Cloud Services (“EXM Services”):

1. Customer must fully implement all required technical reputational features prior to using the EXM Services (in accordance with the Documentation); and
2. Customer must comply with the following message policy: https://www.sparkpost.com/policies/messaging/.

The following terms are ONLY applicable to the Sitecore® Send Services:

1. Customer agrees to use the Sitecore Send Services in compliance with the Sitecore Send Messaging Policy;
2. Notwithstanding anything to the contrary in the Agreement, if Customer is not in compliance with the Sitecore Send Messaging Policy, Sitecore may, in its sole discretion, take any action it deems appropriate regarding Customer's access to the Sitecore Send Services, including without limitation, immediate suspension of Customer's access to the Sitecore Send Services or termination of the Order for Sitecore Send Services without notice;
3. Sitecore reserves the right to take applicable action(s) to verify that email campaigns sent using the Sitecore Send Services are compliant with the with the Sitecore Send Messaging Policy; and
4. The Sitecore Send Services may contain links to websites or resources, owned or operated under the supervision of third parties other than Sitecore ("Linked Sites"), and Sitecore does not control and is not responsible for the operation, content, privacy policies or the security of such Linked Sites. Visiting and accessing Linked Sites occurs at Customer's own responsibility and risk, without any involvement from, or liability of, Sitecore. Customer is responsible for reading and complying with the privacy statements and terms of use posted on any and all Linked Sites. Sitecore does not endorse, make any warranties and is not responsible for any data, software or other content and products or services available from Linked Sites. Customer acknowledges and agrees that Sitecore shall not be held liable, directly or indirectly, for any damage or loss relating to the use of or reliance upon such data, software or other content on any Linked Sites. Where the Sitecore Send Services refer through "links" or "hyperlinks" to Linked Sites, the owners and/or operators of Linked Sites bear full (civil and criminal) responsibility for the security, legitimacy and validity of their site content, to the exclusion of any liability of Sitecore.
Unless otherwise defined in this document, all capitalized terms used herein shall have the same meaning as that given in the Order including Consulting Services between the Sitecore entity (“Sitecore”) and the Customer entity signing such Order (“Customer”).

1. Scope

What is the TAM (Technical Account Manager) package?
The purpose of the package is to help Customers realize value from their portfolio of Sitecore products and solutions using Sitecore. A named consultant is assigned and works closely with the Customer and Customer team. The consultant establishes a regular meeting cadence with the Customer (and partner if customer wishes). The named consultant is an expert in a product or set of products and provides consultancy on best practice product usage. Depending on the desired expertise of the Customer, the job title of the named consultant will vary. Experts in specific areas can be engaged for short periods to help on specific topics (within the scope of the agreed upon hours per month), or a different named consultant with a different expertise can be assigned on request if the Customer’s needs change. Work will be managed and orchestrated by the named consultant.

What is the difference between the Half TAM, TAM, and Sitecore360 TAM packages?
There are 3 TAM packages available: Half TAM, TAM, and Sitecore360 TAM with Consulting Services to be delivered on an annually recurring basis. The specific package which will be delivered to the Customer is set forth in the Order. Each TAM package has a different number of hours allocated per month as detailed in the table below:

<table>
<thead>
<tr>
<th>Half TAM</th>
<th>TAM</th>
<th>Sitecore360 TAM</th>
</tr>
</thead>
<tbody>
<tr>
<td>18 hours per month (54 per quarter)</td>
<td>36 hours per month (108 per quarter)</td>
<td>Pre-defined custom number of hours per month. Only available as part of a Sitecore360 package.</td>
</tr>
</tbody>
</table>

What is the working model of the TAM package?
The named consultant follows the below work model:

- The Customer has direct access to their named consultant during normal business hours.
- The Customer can communicate with the named consultant via:
o Regular meetings at a cadence that suits the customer (we recommend weekly)
o Ad hoc regular calls and screen shares on common topics, scheduled in advance
o Email
  o Collaboration environments such as Teams or Slack on an ad hoc basis

- The Customer has access to additional consultants upon request, as scheduled in advance

**What topics are in scope of the TAM package?**
Typical topics that the named consultant can help with may include, but are not limited to:

- **Product topics**
  - Which use cases to work on next (business case, variations specific to a Customer).
  - Progress on value realization.
  - Best practices and insights on product usage.
  - New feature requests and needs.
  - Periodic capability reviews with the Customer to align with the Customer’s technology roadmap.

- **Technical topics**
  - Status of initiatives, projects, and use cases in progress (issues, design decisions, usage decisions, technical questions, help on support cases).
  - Technical topics related to Sitecore products.
  - Open questions or help with decisions on current development activities.
  - Ideas for improvement in current project activities.
  - Architectural guidance at the product level.
  - Sitecore recommended practice discussions.

- **Optimization topics - for applicable products**
  - Weekly performance discussions – what worked, what didn’t, and why.
  - Tuning discussions – ideas and suggestions for tests, tweaks, and investigation.
  - Marketing calendar reviews – in-flight campaigns, upcoming campaigns, atypical needs, atypical timing.
The TAM may take part in or facilitate the Customer's business reviews to discuss topics such as:

- Overall progress on value realization.
- Details of initiatives and achievements since the last business review.
- A customer's high-level goals and how to achieve them.
- Current perceived challenges and actions needed to address them.
- New features and updates that may benefit the Customer.
- Notable incidents, support tickets, or use cases.

**What activities are in scope of the TAM package?**

Typical activities that the named consultant can help with include:

- Joining customer calls to provide expertise as needed.
- Conducting deep dive sessions on product usage best practices.
- Providing architectural guidance.
- Contributing to planning of customer initiatives.
- Assisting with designing A/B tests and interpreting the results.
- Interpreting and presenting data and reports.
- Facilitating ideation, art of the possible, and operating model workshops with Customer team.
- Assisting the customer with proof-of-concept development.
- Bringing information to the Customer team’s attention (product releases, security bulletins, updates, etc.).
- Investigating technical topics, overall solution health, and otherwise providing technical consulting through screen shares, log file inspection, code reviews, and other appropriate means.
- Collaborating with Sitecore’s Product Support and Escalation Teams to help clarify and refine support tickets, escalate support tickets, and resolve support issues.

**2. General**

The Services will be acquired as a pre-paid pool of hours, where the maximum number of hours to be used in a day corresponds to the length of the workday of each individual Sitecore resource engaged as part of this package unless otherwise agreed between the parties.

Quarterly consumption: Services hours are pre-paid annually and consumed quarterly, with the first quarter starting on the Order Effective Date and ending 3 months thereafter. Any Services hours not consumed within a given quarter will
expire. Sitecore is under no obligation to deliver any unused pre-paid Services after expiry and any fees or applicable expenses will remain payable. If a Customer exceeds the number of Services hours in a given quarter, each additional Service hour will be charged based on Sitecore’s then-current hourly rates for the relevant Sitecore Services role, and will be invoiced by Sitecore at the end of such quarter. Sitecore shall provide monthly consumption reporting. The Fees for the Services do not include any travel, accommodation, and subsistence expenses for onsite visits. Any such visits and associated travel budgets will need to be agreed upon between the Customer and Sitecore for each trip. Sitecore will book economy flight tickets and reasonable option for appropriate 4-star business class hotel. Sitecore will invoice the Customer each month for travel expenses incurred during the preceding month for agreed and approved onsite visits at the Customer’s locations. The remainder of the Services will be performed remotely. Any produced code and Sitecore configuration performed by Sitecore while delivering the Services will be exclusively for reference and guidance. Customer should perform, and is solely responsible for, proper testing in its environment when using any of the work delivered by Sitecore.

3. Location
For this engagement, Services will be performed remotely. Customer will ensure appropriate level of access and collaboration tools to enable remote assessment and Services.

4. Scheduling
The scheduling details of this engagement must be agreed upon between the parties. The Services will be conducted by suitably qualified and experienced Sitecore consultants in close cooperation with the assigned Customer resources. Sitecore chooses, at its sole discretion, suitable consultants.
**Professional Plus Training Services for Sitecore360**

Unless otherwise defined in this document, all capitalized terms used in this document shall have the same meaning as that given in the Order for Sitecore360 entered into between the Sitecore entity (“Sitecore”) and the customer (“Customer”) signing such Order.

1. **OVERVIEW**

Professional Plus Training Services for Sitecore 360 include the following training entitlements for each End User identified by the Customer (up to the number of entitled End Users* as identified in the Order):

   a) One seat in a publicly scheduled Virtual Instructor-Led Training (vILT) class of the End User’s choice, where:
      - Each End User identified as part of the Professional Plus Training Services for Sitecore 360 is provided one seat in a vILT class of their choice; and
      - The public schedule is listed on the Learning@Sitecore catalog. Directions to sign up for a vILT class will be provided as part of Sitecore 360 onboarding.
   
   b) 24 x 7 access for each defined End User to the Professional Plus eLearning course catalog on the Learning@Sitecore platform
   
   c) One certification exam voucher of the End User’s choice

*If during the Sitecore360 subscription an End User designated to use the entitlement no longer is employed by Customer, a replacement End User may be identified by Customer for the unused entitlement.

2. **PREREQUISITES; PREPARATION; CLASS CAPACITY**

Customer understands that its End User attendees must have the appropriate technical qualifications before attending any relevant class(es) that form part of the Professional Plus Training Services for Sitecore 360. Updated information about these qualifications is specified in the class descriptions on Sitecore’s website: [https://www.sitecore.com/knowledge-center/getting-started/training](https://www.sitecore.com/knowledge-center/getting-started/training).

   a. Before the commencement of any Training Services under an Order, each Customer End User participant must:
      1. create a Sitecore account on the Learning@Sitecore platform (link above) with their business email address; and
      2. complete any pre-training preparation detailed in the class description and set out in the pre-training requirements e-mail that will be sent out to each participant upon signing up for the vILT class (which may include pre-training computer setup and study preparation).

   b. The participant limit for each publicly scheduled vILT is ten (10) people; therefore, some
sessions may not be available.

3. RECORDINGS OF ORAL OR VISUAL PRESENTATIONS

Customer is prohibited from audio recording, video recording, editing, reproducing, broadcasting, or otherwise making available the presentation slides and any Training Materials to third parties, and distributing the Sitecore representative’s name, voice, presentation material or likeness of the Sitecore speaker (name, image, voice, photo or video), blogging, or any portion thereof as they may appear without media, time, use or geographic limitation, except where recording of the presentation is required to grant equitable access of Training Materials to attendees with disabilities, or where recording is pre-approved in writing by Sitecore.

4. CANCELLATION, TRANSFERS AND SUBSTITUTION

a. Cancellation of seat(s) in a publicly scheduled virtual instructor-led class is required in writing no later than ten (10) business days prior to the commencement of the class. If Customer cancels seats before these timeframes, Customer will receive a credit to be used for seat(s) in a future training class. If Customer cancels seats later than these timeframes, Customer will not receive a credit or refund. Sitecore reserves the right to cancel classes. When classes are cancelled, Sitecore will provide Customer with a credit to be used for a future Sitecore training class offered on other dates.

b. Transfer to an alternative class date will only be accepted if made in writing up to ten (10) business days before the class start date. Transfer requests received less than ten (10) business days before commencement of a class will not be granted.

c. Substitution of one booked End User participant for another will only be accepted if made in writing. Suitably qualified substitute End User participants will be accepted up to three (3) business days before a class start date, free of charge. If the Training Materials (joining instructions, etc.) have already been sent to the Customer, it is the responsibility of the Customer to ensure that the replacement End User participant receives the Training Materials.

d. If an End User participant does not attend a class, and Customer did not inform Sitecore within the cancellation period, the vILT entitlement will have been forfeited.

5. eLEARNING COURSES

As part of the Professional Plus Training Services for Sitecore 360, eLearning training courses are available 24 x 7 for each applicable identified End User, with such access valid for the duration of the Sitecore360 subscription (as set forth in the Order). Access is provided once the End User establishes an account on the Learning@Sitecore platform. Promptly after the Order Effective Date Sitecore will provide Customer with access codes permitting use of Sitecore’s Learning@Sitecore platform to access the Professional Plus eLearning catalog available as part of Sitecore360. Customer’s use of the eLearning Training will be governed by the terms and conditions of Sitecore’s Learning@Sitecore platform, which are made available to Customer upon registration.
6. CERTIFICATION EXAM VOUCHERS

Each End User identified as part of the Professional Plus Training Services for Sitecore 360 is provided one certification exam voucher of their choice. Study Guides, which contain details and policies related to Sitecore certification are available on the Learning@Sitecore platform. All Sitecore certification exams are proctored through our certification platform vendor. Directions to access a certification voucher will be provided as part of Sitecore 360 onboarding.

3. Software ....................................................................45
   (A) Sitecore XM/XP/XC ............................................45
1. SaaS Products

(A) Sitecore Personalize

Sitecore Personalize Definitions:

“Personalize Events” mean:

- Data sent as an API request to the stream API
- An execution of an inbound personalization API request (Interactive)
- An execution of an outbound personalization API call (Triggered)

“Non-Production Environment” means an environment used to support but not perform production activities.

“Visit” means an instance where an application (e.g. website or any other software application running on a digital device) is presenting, using or otherwise leveraging content, data or functionality originating from (whether accessed directly or indirectly) the SaaS Product to service a single person within a given Time Frame, where a ‘Time Frame’: (A) is deemed to start when a person first interacts with such application or interacts with such application after a previous Time Frame has ended, and (B) is deemed to end upon the occurrence of one of the following events: (i) the Time Frame is longer than 1800 minutes; (ii) the person is not interacting with such application for more than 30 minutes, or (iii) such application is closed or terminated.

(B) Sitecore CDP

Sitecore CDP Definitions:

“CDP Events” mean:

- Data sent as an API request to the stream API
- An API request against the REST API
- A single record in a file that is loaded via the batch API
- A single record that is exported via audience sync

“Monthly Tracked Users” or “MTU” means the total number of CDP profiles that are created/updated (via real time or batch ingestion) within a calendar month.
(C) **Sitecore Order Cloud**

**Sitecore Order Cloud Definitions:**

“**Order Line Volume**” refers to the total distinct number of line items processed across all customer orders.

“**Revenue Volume**” refers to the total US dollar amount (calculated in USD) of line items processed across all customer orders.

(D) **Sitecore Content Hub**

**Sitecore Content Hub Definitions:**

“**Asset Bandwidth**” means the total amount of data transmitted and metered on the Content Hub CDN facility.

“**Asset Storage**” means the physical storage, on disk, of file-based assets in Content Hub such as images, videos, or document files.

“**Entities**” are units of data that can represent content, assets, products, etc. An Entity consists of a defined set of text based attributes that are used to describe the entity. An Entity may have one or more associated media files stored in the Asset Storage.

“**Integration Users**” means the number of dedicated licenses used for third-party integrations such as marketing automation or custom API work.

“**Monthly Business Users**” or “**MBU**” means the total number of business users that have logged in and accessed the application on four or more days within a calendar month.

“**Non-Production Environment**” means an environment that is not used for production activities at any time. Non-Production Environments are meant to be used for development environments or quality assurance (QA) of workflows for code or configuration promotion. Environments that are meant to be used as redundancy, failover, cutover, or other use where at some point they may become production environments, even if not in regular use, are not considered Non-Production Environments. Non-Production Environments do not include additional storage capacity unless separately purchased.
“Total Registered Users” means the total number of unique user IDs enrolled in the Content Hub system.

“Video Indexing Hours” means the number of hours spent analyzing video files, using Microsoft’s Cognitive Service platform to generate metadata and other tags, including speech-to-text transcripts.
(E) **SITECORE SEND**

**Sitecore Send Definitions:**

“**Subscribers**” means the number of unique active subscribers (excluding bounced, unsubscribed and archived).

(F) **SITECORE DISCOVER**

**Sitecore Discover Definitions:**

"**Permitted Sites**" means websites that Customer is authorized (by the website’s owner) to use as the source of web pages, assets, and other intellectual property that may be consumed, delivered, or stored within the Sitecore Products (i.e. excluding any content obtained by crawling or indexing websites without the owner’s authorization).

“**SKU count**” means the total number of stock-keeping units in the Customer’s inventory.

“**Visit**” means an instance where an application (e.g. website or any other software application running on a digital device) is presenting, using or otherwise leveraging content, data or functionality originating from (whether accessed directly or indirectly) the SaaS Product to service a single person within a given Time Frame, where a ‘Time Frame’: (A) is deemed to start when a person first interacts with such application or interacts with such application after a previous Time Frame has ended and (B) is deemed to end upon the occurrence of one of the following events: (i) the Time Frame is longer than 1800 minutes; (ii) the person is not interacting with such application for more than 30 minutes, or (ii) such application is closed or terminated.
(G) **Sitecore XMCloud**

**Sitecore Experience Manager Cloud Definitions:**

"Build" is comprised of one or more of the following activities:

- XM Cloud tenant provisioning process
- Developer related customization that requires compilation
- Developer related customization that requires deployment
- Automatic update related deployment

"Concurrent Builds" means the number of Experience Manager Cloud builds that can operate at the same time. Each Project can have one active Build and deployment at a time.

"Concurrent Users" means the total number of concurrent Experience Manager Cloud users supported across all Production Environments in Experience Manager Cloud. Each Production Environment supports up to fifty (50) Concurrent Users.

"Non-Production Environments" means the total number of non-production environments available to the customer in the Experience Manager Cloud subscription. Each Project has two non-production environments, development and staging.

"Production Environments" means the total number of production Experience Manager environments available to the customer in their Experience Manager Cloud subscription. Customers can have one production environment per Project.

"Projects" represent a collection of Experience Manager Cloud environments where every environment in the Project is related to each other. Within this collection of Experience Manager Cloud environments for a project, only one offshoot is designated as a Production Environment.

"Visit" means an instance where an application (e.g. website or any other software application running on a digital device) is presenting, using or otherwise leveraging content, data or functionality originating from (whether accessed directly or indirectly) the SaaS Product to service a single person within a given Time Frame, where a 'Time Frame': (A) is deemed to start when a person first interacts with such application or interacts with such application after a previous Time Frame has ended and (B) is deemed to end upon the occurrence of one of the following events: (i) the Time Frame is longer than 1800 minutes; (ii) the person is not interacting with such application for more than 30 minutes, or (ii) such application is closed or terminated.
(H) **SITECORE EXPERIENCE EDGE AND SITECORE EXPERIENCE EDGE FOR CONTENT HUB**

**Sitecore Experience Edge Definitions:**

“API Call” means any http request to the API / endpoint of the main application (excluding requests made to Satellites), where ‘Satellite’ means an additional location, separate from the central Instance, used to provide optimized upload or download capabilities for additional geographic locations.

“Bandwidth” is defined as data transfer of entities from Sitecore Experience Edge CDN, including any GraphQL query or media file, regardless if the object is cached in the CDN.

“File Storage” is defined as data storage used for the hosting of published entities, such as media files and pre-rendered layout elements, in the Sitecore Experience Edge platform from Sitecore Software.

(I) **VERCEL**

**Vercel Definitions:**

“Vercel Bandwidth” means the total monthly number of bytes of egress traffic served via Vercel’s edge network, including all static and dynamically generated traffic, and bandwidth generated by background revalidation of assets.

“Vercel Concurrent Builds” mean the total number of deployments that can be built at one time.

“Vercel Serverless Execution” means the total monthly product of time and bandwidth of serverless function execution for producing dynamically generated traffic, including API routes and revalidation, expressed in GB hours.

“Vercel Team Seats” means that the total number of members who may manage and interact with projects and deployments in the team’s scope on Vercel, as further described at https://vercel.com/docs/concepts/teams/members.

(J) **SITECORE SEARCH**
Sitecore Search Definitions:

“Documents” mean the total number of distinct content records indexed into Sitecore Search, aggregated over the designation of both production and non-production under the Customers’ subscription.

“Permitted Sites” means websites that Customer is authorized (by the website’s owner) to use as the source of web pages, assets, and other intellectual property that may be consumed, delivered, or stored within the Sitecore Products (i.e. excluding any content obtained by crawling or indexing websites without the owner’s authorization).

“Production Environment” means the total number of production Sitecore Search environments available to the Customer in their Sitecore Search subscription. Customers can have one production environment per license, which can consist of any number of sites (within entitlements) independently queryable from that singular production license.

“Non-Production Environment” means the total number of non-production environments available to the Customer in the Sitecore Search subscription. Each non-production environment is used for testing, development, and staging and does not follow the service level commitments of Production Environments.

“Concurrent Crawlers” mean the total number of parallel processes of crawling the sources (websites) configured under the subscription. Customers may have any number of sources specified and the concurrent crawler dictates the overall scale and performance of data ingestion into Sitecore Search.

“Crawler Frequency” means how often a specific piece of content can be scheduled to automatically re-index into Sitecore Search. The customer can still directly promote content changes into the API for indexing indifferent of the crawler frequency.

(K) Sitecore Content Hub ONE Definitions:

“Annual Bandwidth Limit” means the total amount of data transmitted and metered on the Content Hub CDN (Content Delivery Network) facility.

“Asset Storage” means the physical storage, on disk, of file-based assets in Content Hub such as images, videos, or document files.
“Content Requests” means the requests coming into the Content Hub ONE APIs or any customer-provided caching system to deliver content.
“Production Environment” means the total number of production Content Hub ONE environments available to the Customer in their subscription.
“Total Users” mean the total number of concurrent Content Hub ONE users.

(L) Sitecore Connect

Sitecore Connect Definitions:

“Connection” means a unique authentication into an instance of an application or a database external to Sitecore. Note: Sitecore products are not counted towards licensed connection counts.
“Connectors” means API-based nodes allowing for the transfer of data between software applications through Sitecore Connect which acts as a bridge.
“Consumption” means the number of Tasks executed. Fair usage policy allows for 3 million Tasks per active Connection per year.
“Recipe” means a set of commands to Sitecore Connect that request Sitecore Connect to carry out certain actions across software applications based on the occurrence of a designated trigger event.
“Task” means a unit of work performed every time a Recipe performs an action (e.g., fetch data from an application by making an API call). A task is counted when a recipe requests data from, or performs an activity in an application. For example, search, create, update, get, upsert actions are counted as tasks, while control functions like If, Error Monitor, Stop, etc. are not counted as tasks.
2. Hosted Services

(A) Managed Cloud

“Azure Spend” means the cost, in USD, of all hosting components in Customer’s Production Set or Non-Production Set, as applicable, as calculated and reported by Sitecore’s third party service providers, which is subject to change over time (i.e., certain third party service providers may increase or decrease this cost at their sole discretion).

“Azure Spend Commitment” means the amount of Azure Spend, in USD, over which overages will apply, as further set forth in the Order (and any exhibits thereto).

“Customer Applications” means all software and services that Customer uses or offers to its users that access, use interact with, or depend upon the Hosted Services.

“Disaster Recovery” or “DR” means recovery from an event that results in a significant disruption or loss of availability of the Hosted Services’ primary production environment by using an alternate production environment where:

   “Basic DR (Cold Standby)” means recovery from a failure of the default Sitecore topologies (for the Software) by creating a new environment in an alternate location and restoring application data from backups; and

   “Managed DR (Hot Standby)” means recovery from a single default Sitecore topology (for the Software) environment by using an alternate environment that is already running and prepared to be promoted to become the replacement using data replication.

“Non-Production Usage” means use of the Hosted Services to support but not perform Production Activities.

“Non-Production Set” means a single mutually exclusive online environment hosting the Software exclusively for Non-Production Usage, which is part of a Non-Production Environment.

“Production Set” means a single mutually exclusive online environment hosting the Software exclusively for Production Activities, which is part of a Production Environment.
“Topology Customizations” (also known as “Hosting Extensions”) means one or more of a series of additional Azure resources that can be used to complement the existing Platform as a Service-based topology pattern (if applicable).

“User” means any user of Customer Applications.

If Customer purchases additional Hosted Services (Cloudflare Enterprise), the following definitions will also apply:

“Cloudflare” means Cloudflare, Inc. involved in the provisions and delivery of the Additional Hosted Services.

“Cloudflare Documentation” means all printed and online user manuals and other technical material relating to the Additional Hosted Services made available by Sitecore, as may be updated from time to time.

“Customer Account Information” means the information Customer provides upon subscribing to the Additional Hosted Services, audit logs, and Customer account settings.

“Customer Information” means, collectively, Customer Account Information, End User Log Files and Customer-specific Aggregations.

“Customer-specific Aggregations” means customer-specific aggregated information derived from the End User Log Files (including, without limitation, usage analytics, bandwidth consumption, availability performance, rules, and settings) which is used to provide the Additional Hosted Services.

“End User” means a third-party visitor to the Customer parties’ Internet Properties and/or user of any of the Customer’s services delivered thereon.

“End User Log Files” means the raw logs of End User interactions with Customer (and applicable Affiliates, to the extent included in the Permitted Usage) Internet Properties that Sitecore processes on behalf of Customer (and applicable Affiliates, to the extent included in the Permitted Usage) during the course of providing the Additional Hosted Services.

“Internet Properties” means a website or any internet connected application, including any subdomain thereof.
3. **Software**

(A) **Sitecore XM/XP/XC**

**Sitecore Software Definitions**

“Domain” means the combination of a single second-level domain with a single top-level domain, and all subdomains thereunder, as illustrated by e.g., *.company.com, where “*.” represents unlimited subdomains, “company” is the second-level domain, and “.com” is the top-level domain. Domains whose sole purpose is to redirect visitors to a Domain (as defined here) will not count against the total number of authorized Domains. Additionally, domains that allow visitors to access a translated version of content will not count against the total authorized number of Domains. For example, if www.company.au is a direct translation of the site located at www.company.com, www.company.au will not count as an additional Domain, but if www.company.au is both translated and otherwise localized, the domain will count against the total authorized number of Domains.

“Environment” means the Software installed on any number of servers that all point back to a single instance of Sitecore’s main content database.

“Non-Production Environment” means an Environment used to support but not perform Production Activities.

“Production Activities” means the creation, authoring, publishing and/or delivery of digital content to a website, email, mobile visitor or service, including separate commerce, email and/or print capabilities if purchased, and the processing and reporting of Visits for use in xDB.

“Production Environment” means an Environment used to perform Production Activities.

“User” means each individual person concurrently logged into the user interfaces of any installation(s) of the Software for purposes of editing content, site administration, development, testing or such similar actions.

“Visit” means an instance where an application (e.g. website or any other software application running on a digital device) is presenting, using or otherwise leveraging content, data or functionality originating from (whether accessed directly or indirectly) the Software to service a single person within a given Time Frame, where a ‘Time Frame’: (A) is deemed to start when a person first interacts with such application or
interacts with such application after a previous Time Frame has ended, and (B) is
deemed to end upon the occurrence of one of the following events: (i) the Time Frame
is longer than 1800 minutes; (ii) the person is not interacting with such application for
more than 30 minutes, or (iii) such application is closed or terminated.
Sitecore Customer Order

Customer: University Of Idaho

Company/Tax ID No: N/A

Customer Address: 875 Perimeter Dr. Moscow, Idaho 83844

Sitecore: Sitecore USA, Inc.

Address: 44 Montgomery, Suite 3340 San Francisco, CA, 94104

Order Voidability Date: May 3rd, 2024

Order Effective Date: This Order will be effective on the date signed by both parties below.

Existing Master Terms Date (where applicable): October 31, 2019

This Order is entered into between Sitecore and Customer under the master agreement executed between the parties as of the Existing Master Terms Date, including any cloud addendum entered into by the parties, if applicable (collectively, the ‘Master Terms’). This Order will be governed by the Master Terms and will form part of the Agreement between the parties. This Order will be effective as of the Order Effective Date. Unless otherwise defined in this Order, capitalized terms shall have the meanings set forth in the Master Terms. This Order is voidable at Sitecore’s option if not signed by Customer on or before the Order Voidability Date.

1. Sitecore Services

Custom Consulting Services

Sitecore will provide the following Consulting Services, a description of which is attached as Appendix A.

One-Time Custom Consulting Services

Sitecore will provide the following One-Time Consulting Services:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Description</th>

</tr>
</tbody>
</table>

2. **Subscription Term; Renewal**

This Order is effective on the Order Effective Date and continues for the minimum commitment of 12 months. At the end of this minimum commitment, any Recurring Consulting Services under the Order may be renewed by mutual written agreement by the parties. The “**Subscription Term**” is equal to the minimum commitment plus any renewals.

3. **Change Orders**

If Customer believes any changes to the schedule, scope or any milestones are necessary or desirable, it shall submit a written change request to Sitecore’s contact set forth above (a “**Change Request**”). Sitecore’s prior approval is needed any time a Change Request increases or decreases the cost of the Services or materially extends the schedule for the Services, and the compensation will be adjusted accordingly and documented in a change order signed by both parties which will serve to amend this Order.

4. **Invoicing and Payment Terms**

Below is a summary of the invoicing under this Order:

<table>
<thead>
<tr>
<th>Year</th>
<th>Description</th>
<th>Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>One-Time Fee (Development Consulting Services)</td>
<td>$693,640.00</td>

</tr>
<tr>
<td></td>
<td><strong>TOTAL</strong></td>
<td><strong>$1,124,074.00</strong></td>
</tr>
</tbody>
</table>

Upon the Order Effective Date, the initial invoice will be sent to Daniel Ewart at dewart@uidaho.edu as set forth below. If applicable, any Recurring Fees under this Order will be invoiced annually and due on the anniversary of the Order Effective Date, for the remainder of the Subscription Term.
Customer Billing Address: 875 Perimeter Dr.
Moscow, Idaho 83844

Customer Shipping Address: 875 Perimeter Dr.
Moscow, Idaho 83844

Customer Technical Contact Name: Steven Cox

Customer Technical Contact Email: scox@uidaho.edu

All prices as set out in this Order are USD and exclusive of any applicable taxes unless otherwise indicated.

**Payment Terms**

Net 30 days

Payment terms for all amounts under this Order are **Net 30 days** from the date of a valid invoice issued by Sitecore. An invoice shall be valid where the amounts invoiced are accurate and without regard to other referenced information including but not limited to purchase order number. In the event of non-payment by Customer of a valid invoice, if Customer still fails to pay such invoice after being sent a 15 days’ reminder notice to pay such invoice, Sitecore may, at its sole discretion, suspend the access or provision of the Sitecore Products and/or Services, or terminate the affected Order. Customer agrees to pay interest calculated at the rate of six percent (6%) per annum or the maximum amount permitted by law, whichever is less, of the total outstanding amount, for the time period the payment remains past due.

**Additional Terms and Conditions**

**Idaho Regulatory Certifications**

Customer is prohibited by state law from entering into certain contractual agreements. Sitecore hereby certifies that: (i) pursuant to Idaho Code Section 67-2346, if payments under the Agreement exceed one hundred thousand dollars ($100,000) and it employs ten (10) or more persons, it is not currently engaged in, and will not for the duration of the Agreement engage in a boycott of goods or services from Israel or territories under its control; (ii) pursuant to Idaho Code Section 67-2359, it is not currently owned or operated by the People’s Republic of China and will not for the duration of the Agreement be owned or operated by the People’s Republic of China; and (iii) it is not an abortion provider or an affiliation of an abortion provider under the No Public Funds for Abortion Act. The terms in this section defined in Idaho Code Section 67-2346, Idaho Code Section 67-2359, and in Title 18, Chapter 87, Idaho Code, respectively, shall have the meanings defined therein.

For any customer that issues Purchase Orders (PO), Sitecore requires Customer’s approved PO Number before being able to fully process the Order and before being able to request staffing.
By executing this Order, Customer commits to the payments set forth above. Each person signing this Order represents and warrants that he or she has been duly authorized and has full authority to execute this Order on behalf of the party below. This Order may be executed in counterpart, and may be executed by way of facsimile or electronic signature, and if so, will be considered an original.

Appendix A

SCOPE OF CONSULTING SERVICES

Project Name

Development Consulting Services (One-time Services) & Development Services Retainer (Subscription Services)

Project Description

Sitecore to work with University of Idaho to implement XM Cloud, Content Hub DAM, CDP, Personalization and Search.

Scope of Development Consulting Services (One-time Services)

The One-time Services will be acquired as a pre-paid pool of hours (as detailed in Section 2 of the Order). The hours consumed will be counted in time increments of 30 minutes.

The One-time Services will be performed based on a delivery schedule agreed upon between the parties after the Order is signed. Changes to the scheduling of activities must be requested no less than two weeks prior to the first day of the scheduled performance of the activity.

The One-time Services must be consumed within 12 months of the Order Effective Date (the “Expiry Date”). Sitecore will also allow customer to move up to 10% of unused hours from Q4 of the 1st year of the Order to Q1 of the 2nd year of the Order (should there be a year 2 renewal), but such hours must be used in the first 3 months of the 2nd year of the Order. Sitecore shall provide monthly consumption reporting. Should Customer require additional hours at any time during the One-time Services Term, the parties shall enter into a mutually agreeable amendment or add-on order to this Order.

Scope of Development Services Retainer (Subscription Services)

Sitecore Subscription Services remote consulting activities (up to 960 Architect/Development Lead hours per year, up to 960 Sr. Developer hours per year, and up to 480 Client Manager hours per year) prioritized by the Customer, as time allows. The resources are dedicated to the Customer on an annual basis as follows:

- Up to 240 hours of Services by Architect/Development Lead each quarter, intended to be delivered as approximately 80 hours per month.
- Up to 240 hours of Services by Sr. Developers each quarter, intended to be delivered as approximately 80 hours per month.
- Up to 120 hours of Services by Client Manager each quarter, intended to be delivered as approximately 40 hours per month.
- The hours consumed will be counted in time increments of 30 minutes.
- The maximum hours to be used in a day is 8 hours per resource.
- Each week that has maintenance requests, the Sitecore Client/Project Manager will provide a weekly report of the hours consumed the previous week with details on the service provided and hours remaining.
The intent is to perform activities such as the following:

- Discovery and project planning/management
  - Planning for and executing on the migration of uidaho.edu, including link management, to ensure a continuity of user experiences (between 8.2 and XM Cloud)
- Assist the web team in website builds and content migrations as requested
- Implementation of the University of Idaho’s user facing website (https://www.uidaho.edu/) on XM Cloud, which will include, at minimum:
  - Initial solution and XM Cloud environment setup for Dev, QA, and Production
  - Working with the design team and primary stakeholders to break down provided designs into well-defined components, functionality, and page templates
  - Sitecore Search configuration and implementation
  - CI/CD pipeline implementation
- Configuration of Sitecore’s Component Builder for use by University of Idaho’s marketing team post implementation
- Implementation of Content Hub DAM
  - Migration of existing DAM content to Content Hub DAM
  - Integration of Content Hub DAM with XM Cloud instance
- Begin discovery for journey mapping and implementation of CDP/Personalize integrations and initial use cases
- Work breakdown and task definition efforts

There is no guarantee that any specific work effort will be completed in the allocated time, however this is Sitecore’s estimate given the information provided. Once work is underway, should Sitecore believe additional hours are needed, Sitecore will communicate that to Customer and provide a Change Request for any additional hours needed.

Quarterly consumption: Subscription Services hours are pre-paid annually and consumed quarterly, with the first quarter starting on the Order Effective Date and ending 3 months thereafter. Sitecore will allow Customer to move up to 10% of unused hours from quarter to quarter within the first year. Sitecore will also allow customer to move up to 10% of unused hours from Q4 of the 1st year of the Order to Q1 of the 2nd year of the Order (should there be a year 2 renewal), but such hours must be used in the first 3 months of the 2nd year of the Order. Any Subscription Services hours not consumed within a given quarter will expire. Sitecore is under no obligation to deliver any unused pre-paid Subscription Services after expiry and any fees or applicable expenses will remain payable. If Customer consumes the allotted number of Subscription Services hours in a given quarter, Sitecore will cease performance until the beginning of the next quarter. Sitecore shall provide monthly consumption reporting. Should Customer require additional hours at any time during the Subscription Term, the parties shall enter into a mutually agreeable amendment or add-on order to this Order.

Assumptions

- Resource availability and staffing to be determined and communicated upon order execution.
- Customer shall provide Sitecore resources access to the following:
  - Sitecore instances (admin logins)
• Source control repository (read and write access)
• Relevant hosting/infrastructure assets
• If VPN access or other security measures are required, Customer will provide the necessary software/credentials to Sitecore prior to project kick-off.
• Access to UAT site(s) which require web tagging, outside of new XM Cloud instances, if any

• Customer to provide documented overview of analytics/user data and storage location for use in CDP discovery.
• The University of Idaho team will be responsible for any required styling and functional updates to 3rd party services, such as embedded forms, which are hosted externally to Sitecore and utilized on the site.
• Customer will identify and schedule the appropriate stakeholders required for meetings of all types in a timely manner. Delays in scheduling meetings may cause delays in the project timeline. Any such delays requiring scope changes are considered change requests by the Customer and may result in a formal Change Request for additional funding, timeline changes, and/or scope changes. Sitecore will make best efforts to promptly communicate the impact of any actual or potential delay to Customer.
• The solution shall adhere to WCAG 2.1 Level AA accessibility standards at the time of initial production deployment.
  • If Customer has design or customer experience requirements that do not adhere to these standards or provides content that does not adhere to these standards, Sitecore shall note the non-compliant items in writing and shall not include the relevant standards in its testing.
  • Changes made by Customer users after initial production deployment may not adhere to these standards and are Customer’s responsibility to identify and fix.
  • Any content entered by Customer may not adhere to these standards and is Customer’s responsibility to identify and fix.

Location

Consulting Services will be performed remotely via a Customer-approved remote access method. Customer’s Confidential Information will not be removed from Customer’s systems.
LEWIS-CLARK STATE COLLEGE

SUBJECT
Operating agreement between Lewis-Clark State College and the Lewis-Clark State College Foundation

REFERENCE
October 2009  Idaho State Board of Education (Board) approved operating agreement between Lewis-Clark State College and the Lewis-Clark State College Foundation.

December 2017  Board again approved operating agreement between Lewis-Clark State College and the Lewis-Clark State College Foundation.

February 2021  Board again approved operating agreement between Lewis-Clark State College and the Lewis-Clark State College Foundation.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.E.

ALIGNMENT WITH STRATEGIC PLAN
Goal 2: Educational Attainment, Objective C: Access

BACKGROUND/DISCUSSION
Board policy requires a foundation of an institution to be formally recognized by the Board as a nonprofit corporation or affiliated foundation to benefit a public college or university in Idaho. The operating agreement between an institution and an affiliated foundation must be approved by the Board prior to execution and must be re-submitted to the Board every three (3) years, or as otherwise requested by the Board for review and re-approval. The operating agreement must address the topics outlined in Policy V.E.

IMPACT
The Operating Agreement was revised in 2021 to conform to Board Policy and minor modifications have been made in the 2024 revision. Notable revisions are the signatory authority has been expanded to include a designee by the Foundation board president to allow for additional coverage during board member absences, clarification that the board approves restricted fund transfers to the institution, recognition that the Foundation funds are transitioning to a separate bank account than the institution, increased limits for the faculty and staff award amounts due to endowment growth, and revisions in the investment and endowment fund fee policies.
ATTACHMENTS
Attachment 1 – Proposed Operating Agreement Between Lewis-Clark State College and Lewis-Clark State College Foundation
Attachment 2 – Redline comparing the Proposed Operating Agreement to the Board Template
Attachment 3 – Redline comparing the Proposed Operating Agreement to the 2021 Operating Agreement

STAFF COMMENTS AND RECOMMENDATIONS
Board staff have reviewed the documents to assure substantial alignment with the template developed in 2019 as part of Board Policy V.E.

Staff inquired as to why changes were made to Art. IV, Section 7. The language from the template requiring that foundation assets be held in a separate bank account in the name of the Foundation using the Foundation’s Federal Employer Identification Number was deleted. Lewis-Clark State College (LCSC) management responded “that up until recently, the Foundation did not have its own bank account, it was within LCSC’s general operating account because the college pays their bills directly and processes transactions on their behalf. Most of the Foundation’s funds are stored with the Foundation’s investor (and under their federal EIN) so only a small portion is stored within the LCSC bank account. We have just started the transition to separating the bank accounts, but it is still an LCSC bank account with a reference as the Foundation, again because the college pays their bills and processes their transactions. Within LCSC’s accounting system, they have their own accounts that reconcile back to what funds belong to the Foundation and now, this reconciliation will compare directly against the college account with the Foundation’s name. So in short, the college has always removed this language from the template and we have now made a small step in creating a separate bank account under the purview of LCSC.”

The Audit Committee reviewed the Operating Agreement at its meeting on March 29 and recommended its approval to the Board.

BOARD ACTION
I move to approve the request by Lewis-Clark State College to enter into the proposed Operating Agreement with the Lewis-Clark State College Foundation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
OPERATING AGREEMENT
BETWEEN
LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.
AND
LEWIS-CLARK STATE COLLEGE

This Operating Agreement (“Operating Agreement”) between Lewis-Clark State College Foundation, Inc. (“Foundation”) and Lewis-Clark State College (“College”) is entered into as of this 9th day of March, 2021.

WHEREAS, the Foundation was organized and incorporated April 4, 1984 for the purpose of generating voluntary private support from alumni, employees, friends, corporations, foundations, and others for the benefit of the College.

WHEREAS, the Foundation exists to receive contributions, raise, and manage private resources supporting the mission and priorities of the College, and provide opportunities for students and employees and a degree of institutional excellence unavailable with state funding levels.

WHEREAS, the Foundation promotes access, excellence and relevance in higher education through financial support of the College. The Foundation is dedicated to assisting the College in the building of the endowment to address, through financial support, the long-term academic and other priorities of the College.

WHEREAS, as stated in its articles of incorporation, the Foundation is a separately incorporated 501(c)(3) organization and is responsible for identifying and nurturing relationships with potential donors and other friends of the College, soliciting cash, securities, real and intellectual property, and other private resources for the support of the College, and acknowledging and stewarding such gifts in accordance with donor intent and its fiduciary responsibilities.

WHEREAS, in connection with its fund-raising and asset-management activities, the Foundation utilizes, in accordance with this Operating Agreement, personnel experienced in planning for and managing private support.

WHEREAS, the mission of the Foundation is to secure, manage and distribute private contributions and support the growth and development of the College.

WHEREAS, the College and Foundation desire to set forth in writing various aspects of their relationship with respect to matters such as the solicitation, receipt, management, transfer and expenditure of funds.
WHEREAS, the Parties hereby acknowledge that they will at all times conform to and abide by the Idaho State Board of Education’s Governing Policies and Procedures, Gifts and Affiliated Foundations Policy V.E., and that they will submit this Operating Agreement for initial State Board of Education (“State Board”) approval, and thereafter every three (3) years, or as otherwise requested by the State Board, for review and re-approval.

WHEREAS, the Foundation and the College intend for this Operating Agreement to be the written operating agreement required by State Board Policy V.E.2.b.

NOW THEREFORE, in consideration of the mutual commitments herein contained, and other good and valuable consideration, receipt of which is hereby acknowledged, the Parties agree as follows:

ARTICLE I
Foundation's Purposes

The Foundation is the primary affiliated foundation responsible for securing, managing and distributing private support for the College. Accordingly, to the extent consistent with the Foundation's Articles of Incorporation and Bylaws, and the State Board's Policies and Procedures, the Foundation shall: (1) solicit, receive and accept gifts, devises, bequests and other direct or indirect contributions of money and other property made for the benefit of the College from the general public (including individuals, corporations, other entities and other sources); (2) manage and invest the money and property it receives for the benefit of the College; and (3) support and assist the College in fundraising and donor relations.

In carrying out its purposes, the Foundation shall not engage in activities that: (1) conflict with federal or state laws, rules and regulations (including all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations); (2) cause the College to be in violation of applicable polices of the State Board; or (3) conflict with the role and mission of the College.

ARTICLE II
Foundation's Organizational Documents

The Foundation shall provide copies of its current Articles of Incorporation and Bylaws to the College. The Foundation, to the extent practicable, also shall provide the College with an advance copy of any proposed amendments to the Foundation's Articles of Incorporation and Bylaws. The College shall provide all such documents to the State Board.
ARTICLE III
College Resources and Services

1. College Employees.

a. College/Foundation Liaison: The College's Director of College Advancement shall serve as the College’s Liaison to the Foundation and as the Foundation Executive Director.

i. The College's Director of College Advancement shall be responsible for coordinating the College's and the Foundation's fundraising efforts and for supervising and coordinating the administrative support provided by the College to the Foundation.

ii. The College’s Director of College Advancement or designee shall attend each meeting of the Foundation’s Board of Directors and shall report on behalf of the College to the Foundation's Board of Directors regarding the College's coordination with the Foundation's fundraising efforts.

iii. The College’s Director of College Advancement shall be responsible for the supervision and control of the day-to-day operations of the Foundation. More specific duties of the Director of College Advancement are set forth in the Service Agreement attached hereto as Exhibit “B” (“Service Agreement”).

d. Other College Employees Holding Key Foundation or Administrative or Policy Positions: In the event the College and the Foundation determine it is appropriate for one or more additional College employees who function in a key administrative or policy making capacity for the College (including, but not limited to, any College Vice-President or equivalent position) to serve both the College and the Foundation, then, pursuant to State Board Policy V.E., this Operating Agreement shall be amended to clearly set forth the authority and responsibilities of the position of any such College employee.

e. Limited Authority of College Employees. Notwithstanding the foregoing provisions, no College employee who functions in a key administrative or policy making capacity for the College (including, but not limited to, any College Vice-President or equivalent position) shall be permitted to have responsibility or authority for Foundation policy making, financial oversight, spending authority, and investment decisions.

2. Support Services. The College shall provide administrative, financial, accounting, investment, and development services to the Foundation, as set forth in the Service Agreement attached hereto as Exhibit "B" ("Service Agreement"). All College employees who provide support services to the Foundation shall remain College employees under the direction and control
of the College, unless agreed that the direction and control of any such employee will be vested with the Foundation in a written Loaned Employee Agreement. The Foundation will pay directly to the College the portion of the overhead costs associated with the services provided to the Foundation pursuant to the Service Agreement. The portion of such costs shall be determined by the agreement of the Parties.

3. **College Facilities and Equipment.** The College shall provide the use of the College's office space and equipment to the Foundation upon the terms agreed to by the College and the Foundation. The terms of use (including amount of rent) of the College's office space and equipment shall be as set forth in the Service Agreement.

4. **No Foundation Payments to College Employees.** Notwithstanding any provision of this Operating Agreement to the contrary, the Foundation shall not make any payments directly to a College employee in connection with any resources or services provided to the Foundation pursuant to this Operating Agreement.

**ARTICLE IV**

**Management and Operation of Foundation**

The management and control of the Foundation shall rest with its Board of Directors.

1. **Gift Solicitation.**

*Authority of College’s Director of College Advancement.* All Foundation gift solicitations shall be subject to the direction and control of the Director for College Advancement.

   a. **Form of Solicitation.** Any and all Foundation gift solicitations shall make clear to prospective donors that (1) the Foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the College; and (2) responsibility for the governance of the Foundation, including the investment of gifts and endowments, resides in the Foundation's Board of Directors.

   b. **Foundation is Primary Donee.** Absent unique circumstances, prospective donors shall be requested to make gifts directly to the Foundation rather than to the College.

2. **Acceptance of Gifts.**

   a. **Approval Required Before Acceptance of Certain Gifts.** Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by the College, the Foundation shall obtain the prior written approval of the College. Similarly, the Foundation shall also obtain the prior written approval of the College of the acceptance of any gift or grant that would impose a binding financial or contractual obligation on the College.
b. **Acceptance of Gifts of Real Property.** The Foundation shall conduct adequate due diligence on all gifts of real property that it receives. All gifts of real property intended to be held and used by the College shall be approved by the State Board before acceptance by the College and the Foundation. In cases where the real property is intended to be used by the College in connection with carrying out its proper functions, the real property may be conveyed directly to the College, in which case the College and not the Foundation shall be responsible for the due diligence obligations for such property.

c. **Processing of Accepted Gifts.** All gifts received by the College or the Foundation shall be delivered (if cash) or reported (if any other type of property) to the Foundation's designated gift administration office (a unit of the Foundation) in accordance with the Service Agreement.

3. **Fund Transfers.** The Foundation agrees to transfer funds, both current gifts and income from endowments to the College on a regular basis as agreed to by the Parties. The Foundation's Treasurer or other individual to whom such authority has been delegated by the Foundation's Board of Directors shall be responsible for transferring funds as authorized by the Foundation's Board of Directors.

   a. **Restricted Gift Transfers.** The Foundation shall inform the College officials into whose program or department funds are transferred of any restrictions on the use of such funds and provide such officials with access to any relevant documentation concerning such restrictions. Such College officials shall account for such restricted funds separate from other program and department funds in accordance with applicable College policies and shall notify the Foundation on a timely basis regarding the expenditure of such restricted funds.

   b. **Unrestricted Gift Transfers.** The Foundation may utilize any unrestricted gifts it receives for any use consistent with the Foundation’s purposes as generally summarized in Article I of this Operating Agreement. If the Foundation elects to use unrestricted gifts to make grants to the College, such grants shall be made at such times and in such amounts as the Foundation's Board of Directors may determine in the Board's sole discretion.

4. **Foundation Expenditures and Financial Transactions.**

   a. **Signature Authority.** The Foundation designates the Foundation Board President and Vice President, or designee by the Foundation Board President, as the individual(s) with signature authority for the Foundation in all financial transactions. The Foundation may supplement or change this designation with written notice to the College; provided, however, in no event may the person(s) with Foundation signature authority for financial transactions be a College employee.

   b. **Expenditures.** All expenditures of the Foundation shall be (1) consistent with the charitable purposes of the Foundation, and (2) not violate restrictions imposed by the donor or the Foundation as to the use or purpose of the specific funds.
5. **College Report on Distributed Funds.** On a regular basis, which shall not be less than annually, the College shall report to the Foundation on the use of restricted and unrestricted funds transferred to the College. This report shall specify the restrictions on any restricted funds. The Foundation shall approve expenditures prior to restricted fund transfers to the College and the Foundation will retain details of the uses of such funds.

6. **Transfer of College Assets to the Foundation.** No College funds, assets, or liabilities may be transferred directly or indirectly to the Foundation without the prior approval of the State Board except when:

   a. A donor inadvertently directs a contribution to the College that is intended for the Foundation in which case such funds may be transferred to the Foundation so long as the documents associated with the gift indicate the Foundation was the intended recipient of the gift. In the absence of any such indication of donor intent, such funds shall be deposited in an institutional account, and State Board approval will be required prior to the College's transfer of such funds to the Foundation.

   b. The College has gift funds that were originally transferred to the College from the Foundation and the College wishes to return a portion of those funds to the Foundation for reinvestment consistent with the original intent of the gift.

   c. Transfers of a *de minimis* amount not to exceed $10,000 from the College to the Foundation provided such funds are for investment by the Foundation for scholarship or other general College support purposes. This exception shall not apply to payments by the College to the Foundation for obligations of the College to the Foundation, operating expenses of the Foundation or other costs of the Foundation.

   d. The transfer is of funds raised by the College for scholarship or program support and the funds are deposited with the affiliated foundation for investment and distribution in accordance with the purpose for which the funds were raised.

7. **Separation of Funds.** All Foundation assets (including bank and investment accounts) shall be held in separate bank accounts. The financial records of the Foundation shall be kept using a separate chart of accounts. For convenience purposes, some Foundation expenses may be paid through the College such as payroll and campus charges. These expenses will be paid through accounts clearly titled as belonging to the Foundation and shall be reimbursed by the Foundation on a regular basis.

8. **Insurance.** The Foundation shall maintain insurance to cover the operations and activities of its directors, officers and employees. The Foundation shall also maintain general liability coverage.
9. **Investment Policies.** All funds held by the Foundation, except those intended for short term expenditures, shall be invested in accordance with the Uniform Prudent Management of Institutional Funds Act, Idaho Code Sections 33-5001 to 33-5010, and the Foundation’s investment policy which is attached hereto as Exhibit "C"; provided, however, the Foundation shall not invest any funds in a manner that would violate the applicable terms of any restricted gifts. The Foundation shall provide to the College any updates to such investment policy which updates shall also be attached hereto as Exhibit "C".

10. **Organization Structure of the Foundation.** The organizational structure of the Foundation is set forth in the Foundation's Articles of Incorporation and the Bylaws. The Foundation agrees to provide copies of such Articles and Bylaws as well as any subsequent amendments to such documents to both the College and the State Board. Any such amendments to the Articles and Bylaws shall be attached hereto as additions to Exhibit "D" and “E”, respectively.

**ARTICLE V**

**Foundation Relationships with the College**

At all times and for all purposes of this Operating Agreement, the College and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party, provided, however, the College and the Foundation acknowledge that the Foundation carries out functions for the benefit of the College. As such, the Parties shall share certain information as provided below.

1. **Access to Records.** Subject to recognized legal privileges and any third-party obligations of confidentiality and protection of proprietary information, each Party shall have the right to access the other Party’s financial, audit, donor and related books and records as needed to properly conduct its operations.

2. **Record Management.**
   
   a. The Parties recognize that the records of the Foundation relating to actual or potential donors contain confidential information. Such records shall be kept by the Foundation in such a manner as to protect donor confidentiality to the fullest extent allowed by law. Notwithstanding the access to records permitted above, access to such confidential information by the College shall be limited to the College's President and any designee of the College's President.

   b. The Foundation shall be responsible for maintaining all permanent records of the Foundation including but not limited to the Foundation's Articles, Bylaws and other governing documents, all necessary documents for compliance with IRS regulations, all gift instruments, and all other Foundation records as required by applicable laws.

   c. Although the Foundation is a private entity and is not subject to the Idaho Public Records Law, the Foundation, while protecting personal and private information related to
private individuals, is encouraged, to the extent reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or similar non-personal and non-confidential financial or policy information.

3. **Name and Marks.** Consistent with its mission to help to advance the plans and objectives of the College, the College grants the Foundation the limited, non-exclusive right to use the name of the College, for use in its support of the College. The Foundation shall operate under the College’s logotype in support of its organizational business and activities. Any use by the Foundation of the College’s logotypes or other trademarks must be with prior approval of the College through the Communications and Marketing Department.

4. **Identification of Source.** The Foundation shall be clearly identified as the source of any correspondence, activities and advertisements emanating from the Foundation.

5. **Establishing the Foundation's Annual Budget.** The Foundation shall provide the College with the Foundation's proposed annual operating budget and capital expenditure plan (if any) prior to the date the Foundation's Board of Directors meeting at which the Foundation's Board will vote to accept such operating budget. Any of the College's funding requests to the Foundation shall be communicated in writing to the Foundation's President and Executive Director by March 1 of each year, or in conjunction with the spring Finance and Investment Committee meeting.

6. **Attendance of College’s President at Foundation's Board of Director Meetings.** The College's President shall be invited to attend all meetings of the Foundation's Board of Directors and may act in an advisory capacity in such meetings.

7. **Supplemental Compensation of College Employees.** Any supplemental compensation of College employees by the Foundation must be preapproved by the State Board. Any such supplemental payment or benefits must be paid by the Foundation to the College, and the College shall then pay compensation to the employee in accordance with the College's normal practice. No College employee shall receive any payments or other benefits directly from the Foundation. The Foundation Board of Directors may provide funds to the College annually for Faculty and Staff Achievement Awards, in an amount not to exceed $35,000. Such awards will be made primarily with funds donated to the Foundation for that purpose and any additional Foundation funds used will be approved by the Board of Directors in the Foundation’s annual budget. The College identifies the faculty and staff who will be recipients of these awards and disburses the funds to the recipients.

**ARTICLE VI**

**Audits and Reporting Requirements**

1. **Fiscal Year.** The Foundation and the College shall have the same fiscal year.

2. **Annual Audit.** On an annual basis, the Foundation shall have an audit conducted by a qualified, independent certified public accountant who is not a director or officer of the
Foundation. The annual audit will be provided on a timely basis to the College’s President and the State Board, in accordance with the State Board’s schedule for receipt of said annual audit. The Foundation’s annual statements will be presented in accordance with standards promulgated by the Financial Accounting Standards Board (FASB). The Foundation is a component unit of the College as defined by the Government Accounting Standards Board (GASB). Accordingly, the College is required to include the Foundation in its financial statements which follow a GASB format. Therefore, the Foundation will include in its audited financial statement, schedules reconciling the FASB Statements to GASB standards in the detail required by GASB Standards. The annual audited financial statements, including the auditor’s independent opinion regarding such financial statements, and schedules shall be submitted to the College Controller’s Office in sufficient time to incorporate the same into the College’s statements. All such reports and any accompanying documentation shall protect donor privacy to the extent allowable by law.

3. **Separate Audit Rights.** The College agrees that the Foundation, at its own expense, may at any time during normal business hours conduct or request additional audits or reviews of the College’s books and records pertinent to the expenditure of donated funds. The Foundation agrees that the College and the State Board, at its own expense, may, at reasonable times, inspect and audit the Foundation's books and accounting records.

4. **Annual Reports to College President.** On a regular basis, which shall not be less than annually, the Foundation shall provide a written report to the College President setting forth the following items:

   a. the annual financial audit report;

   b. an annual report of Foundation transfers made to the College, summarized by College department;

   c. an annual report of unrestricted funds received by the Foundation;

   d. an annual report of unrestricted funds available for use during the current fiscal year;

   e. a list of all of the Foundation's officers, directors, and employees;

   f. a list of College employees for whom the Foundation made payments to the College for supplemental compensation or any other approved purpose during the fiscal year, and the amount and nature of that payment;

   g. a list of all state and federal contracts and grants managed by the Foundation;

   h. an annual report of the Foundation's major activities;
i. an annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding Foundation fiscal year for the benefit of the College; and

j. an annual report of (1) any actual litigation involving the Foundation during its fiscal year; (2) identification of legal counsel used by the Foundation for any purpose during such year; and (3) identification of any potential or threatened litigation involving the Foundation.

ARTICLE VII
Conflict of Interest and Code of Ethics and Conduct

1. Conflicts of Interest Policy and Code of Ethics and Conduct. The Foundation's Conflict of Interest Policy is attached as Exhibit “F”, and its Code of Ethical Conduct is set forth as Exhibit “G”.

2. Dual Representation. Under no circumstances may a College employee represent both the College and the Foundation in any negotiation, sign for both entities in transactions, or direct any other College employee under their immediate supervision to sign for the related Party in a transaction between the College and the Foundation. This shall not prohibit College employees from drafting transactional documents that are subsequently provided to the Foundation for its independent review, approval and use.

3. Contractual Obligation of College. The Foundation shall not enter into any contract that would impose a financial or contractual obligation on the College without first obtaining the prior written approval of the College. College approval of any such contract shall comply with policies of the State Board with respect to State Board approval of College contracts.

4. Acquisition or Development or Real Estate. The Foundation shall not acquire or develop real estate or otherwise build facilities for the College's use without first obtaining approval of the State Board. In the event of a proposed purchase of real estate by the Foundation for the College, the College shall notify the State Board at the earliest possible date. Any such proposed purchase for the College's use shall be a coordinated effort of the College and the Foundation. Any notification to the State Board required pursuant to this paragraph may be made through the State Board's chief executive officer in executive session pursuant to the open meeting law, set forth in Idaho Code, Title 74, Chapter 2.

ARTICLE VIII
General Terms

1. Effective Date. This Operating Agreement shall be effective on the date set forth above.
2. **Right to Terminate.** This Operating Agreement shall terminate upon the mutual written agreement of both Parties. In addition, either Party may, upon 90 days prior written notice to the other, terminate this Operating Agreement, and either Party may terminate this Operating Agreement in the event the other Party defaults in the performance of its obligations and fails to cure the default within 30 days after receiving written notice from the non-defaulting Party specifying the nature of the default. Should the College choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the Foundation that is not cured within the time frame set forth above, the Foundation may require the College to pay, within 180 days of written notice, all debt incurred by the Foundation on the College’s behalf including, but not limited to, lease payments, advanced funds, and funds borrowed for specific initiatives. Should the Foundation choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the College that is not cured within the time frame set forth above, the College may require the Foundation to pay any debt it holds on behalf of the Foundation in like manner. The Parties agree that in the event this Operating Agreement shall terminate, they shall cooperate with one another in good faith to negotiate a new agreement within six (6) months. In the event negotiations fail, the Parties will initiate the dispute resolution mechanism described below (through reference to the Foundation President and the State Board) to further attempt to negotiate a new agreement within the time period specified herein, they will refer the matter to the State Board for resolution. Termination of this Operating Agreement shall not constitute or cause dissolution of the Foundation.

3. **Dispute Resolution.** The Parties agree that in the event of any dispute arising from this Operating Agreement, they shall first attempt to resolve the dispute by working together with the appropriate staff members of each of the Parties. If the staff cannot resolve the dispute, then the dispute will be referred to the President of the Board of the Foundation and the College President. If the Foundation Board President and College President cannot resolve the dispute, then the dispute will be referred to the Foundation President and the State Board for resolution. If they are unable to resolve the dispute, the Parties shall submit the dispute to mediation by an impartial third Party or professional mediator mutually acceptable to the Parties. If and only if all the above mandatory steps are followed in sequence and the dispute remains unresolved, then, in such case, either Party shall have the right to initiate litigation arising from this Operating Agreement. In the event of litigation, the prevailing Party shall be entitled, in addition to any other rights and remedies it may have, to reimbursement for its expenses, including court costs, attorney fees, and other professional expenses.

4. **Dissolution of Foundation.** Consistent with provisions appearing in the Foundation’s Bylaws and Articles of Incorporation, should the Foundation cease to exist or cease to be an Internal Revenue Code §501(c)(3) organization, the Foundation shall transfer to the State Board (or College, as applicable) the balance of all property and assets of the Foundation from any source, after the payment of all debts and obligations of the Foundation, and such property shall be vested in the State Board in trust for the continued support and benefit of the College.

5. **Board Approval of Operating Agreement.** Prior to the Parties' execution of this Operating Agreement, an unexecuted copy of this Operating Agreement must be approved by the
State Board. Furthermore, this Operating Agreement, including any subsequent modifications and restatements of this Operating Agreement, shall be submitted to the State Board for review and approval no less frequently than once every three (3) years or more frequently if otherwise requested by the State Board.

6. **Modification.** Any modification to the Operating Agreement or Exhibits hereto shall be in writing and signed by both Parties.

7. **Providing Document to and Obtaining Approval from the College.** Unless otherwise indicated herein, any time documents are to be provided to the College or any time the College's approval of any action is required, such documents shall be provided to, or such approval shall be obtained from, the College's President or an individual to whom such authority has been properly delegated by the College's President.

8. **Providing Documents to and Obtaining Approval from the Foundation.** Unless otherwise indicated herein, any time documents are to be provided to the Foundation or any time the Foundation's approval of any action is required, such document shall be provided to, or such approval shall be obtained from, the Foundation's Board of Directors or an individual to whom such authority has been properly delegated by the Foundation's Board of Directors.

9. **Notices.** Any notices required under this Operating Agreement may be mailed or delivered as follows:

To the College:

President
Lewis-Clark State College
500 8th Avenue
Lewiston, ID 83501

To the Foundation:

Executive Director
Lewis-Clark State College Foundation, Inc.
500 8th Avenue
Lewiston, ID 83501

10. **No Joint Venture.** At all times and for all purposes of this Memorandum of Understanding, the College and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party.

11. **Liability.** The College and Foundation are independent entities and neither shall be liable for any of the other’s contracts, torts, or other acts or omissions, or those of the other’s trustees, directors, officers, members or employees.
12. **Indemnification.** To the extent allowed by law, the College and the Foundation each agree to indemnify, defend and hold the other Party, their officers, directors, agents and employees harmless from and against any and all losses, liabilities, and claims, including reasonable attorney’s fees arising out of or resulting from the willful act, fault, omission, or negligence of the Party, its employees, contractors, or agents in performing its obligations under this Operating Agreement. This indemnification shall include, but not be limited to, any and all claims arising from an employee of one Party who is working for the benefit of the other Party. Nothing in this Operating Agreement shall be construed to extend to the College’s liability beyond the limits of the Idaho Tort Claims Act, Idaho Code §6-901 et seq.

13. **Assignment.** This Operating Agreement is not assignable by either Party, in whole or in part.

14. **Governing Law.** This Operating Agreement shall be governed by the laws of the State of Idaho.

15. **Severability.** If any provision of this Operating Agreement is held invalid or unenforceable to any extent, the remainder of this Operating Agreement is not affected thereby and that provision shall be enforced to the greatest extent permitted by law.

16. **Entire Agreement.** This Operating Agreement constitutes the entire agreement among the Parties pertaining to the subject matter hereof, and supersedes all prior agreements and understandings pertaining thereto.

17. **List of Attachments**
   a. Exhibit A – Loaned Employee Agreement
   b. Exhibit B - Service Agreement
   c. Exhibit C – Investment Policy

Its: President
EXHIBIT "A"

Loaned Employee Agreement

Not applicable at this time
EXHIBIT "B"

Service Agreement

1. Staff
   a. The Director of College Advancement, an employee of the College, shall serve as Executive Director of the Foundation and shall supervise the College Advancement staff who are likewise employees of the College and who will provide administrative services to the Foundation. The College is responsible for the employment and compensation of College Advancement Staff providing services to the Foundation, including the Director of College Advancement in his or her capacity as Executive Director of the Foundation. Subject to approval by the President of the College, the Foundation may appoint an employee of the College to serve as Treasurer. The Treasurer shall provide and/or supervise the provision of financial and accounting services for the Foundation. While providing services to the Foundation, College employees are subject to the oversight and direction of the Board of Directors of the Foundation. Executive officers of the College (President and Vice Presidents) shall not serve as Foundation Board officers or staff members.

2. Additional services the College provides to the Foundation
   a. Access to the College's financial system to receive, disburse and account for funds of the Foundation. Except for funds transferred into Foundation's brokerage accounts, all funds received by the Foundation shall be deposited with the College and credited to one or more agency accounts established in the name of the Foundation within the College's financial system. In using the College's financial services, the Foundation shall comply with the College's financial and administrative policies and procedures.
   b. Accounting services, to include cash receipts and disbursements, accounts receivable and payable, bank reconciliation, reporting and analysis, and internal auditing.
   c. Investment, insurance, and similar services.
   d. Development services, including research, information systems, donor records, communications and special events.

3. Facilities, Furnishings and Office Equipment
   a. The business office of the Foundation shall be located in the College Advancement Office at 500 8th Avenue, Lewiston, Idaho. The College will provide office space to the Foundation including providing all maintenance and utilities, and local and long-distance telephone service for use in the business of the Foundation. The furnishings, computers, copiers and other items of office equipment used in the Foundation's office are owned by the College but shall be made available for use in the business of the Foundation. The cost of repairing, maintaining and replacing such furnishings and equipment shall be paid by the College.
4. Reimbursement
   a. Except as otherwise provided in the Agreement and Exhibit “L” (“Endowment Fund Fee Policy”), the Foundation shall have no obligation to reimburse the College for costs incurred by the College for personnel, use of facilities or equipment or for other services provided to the Foundation by the College. The Foundation established a fee as referenced in Exhibit L to assist with offsetting general operating costs such as accounting, fundraising, and other administration costs in support of the mission and vision of LC State. Neither the Foundation nor the College require the fee revenue to be transferred to the College though, as mutually agreed upon, all or part of the fee revenue may be transferred to offset the cost of services provided under this agreement. No payments shall be made directly from the Foundation to College employees in connection with resources or services provided to the Foundation under this Agreement.
EXHIBIT "C"

Investment Policy

PURPOSE
The purpose of this Investment Policy Statement (IPS) is to establish a clear understanding between the Lewis-Clark State College Foundation ("Foundation") and the Foundation's professional "Advisor" as to the investment objectives and policies applicable to the Foundation's investment portfolio. This Investment Policy Statement will:

• Establish reasonable expectations, objectives and guidelines in the investment of the portfolio's assets
• Set forth an investment structure detailing permitted asset classes and expected allocation among asset classes
• Encourage effective communication between the Advisor and the Foundation.
• Create the framework for a well-diversified asset mix that can be expected to generate acceptable long term returns at a level of risk suitable to the Foundation.

This IPS is not a contract. This IPS is intended to be a summary of an investment philosophy that provides guidance for the Advisor.

ADVISOR CONTRACT
The Advisor Contract will typically be awarded for an initial three (3) year period, beginning July 1, with an option for one additional three (3) year renewal. The decision to enter a new contract or engage in an RFP process or other process shall be at the sole discretion of the Foundation Board. The Board may, at its discretion, choose to forego an RFP process or other process in favor of entering into a new contract with the existing advisor. All fees shall be firm for the term of the contract and will be included in any contract agreement. A performance review will be conducted annually at the Fall meeting, by the Foundation Finance & Investment Committee, or by any of its designated subcommittees.

If, for any reason, the Foundation should wish to discontinue the professional’s services, the Foundation, with sixty (60) days’ written notice, may terminate the contract.

INVESTMENT OBJECTIVES
The primary investment objective for the Foundation's assets is to seek long term growth. However, the Foundation does intend to withdraw 4% annually to provide for required distribution. The cash flow intentions of the Foundation are detailed in the Foundation's Spending Policy.

TIME HORIZON
For the purposes of planning, the time horizon for investments is perpetuity. The Foundation recognizes that capital values fluctuate over shorter periods and the possibility of capital loss does exist. However, historical asset class return data suggest that the risk of principal loss over a holding period of at least ten years can be minimized with the long-term investment mix employed under this IPS.

RISK TOLERANCE
The Foundation is a moderate risk taker with regard to these investment assets. The portfolio will be managed in a manner that seeks to minimize principal fluctuations over the established horizon and is consistent with the stated objectives. Financial research has demonstrated that risk is best minimized through diversification of assets.

ASSET ALLOCATION
Academic research suggests that the decision to allocate total assets among various asset classes will far outweigh security selection and other decisions that impact portfolio performance. After reviewing the long-term performance and risk characteristics of various asset classes and balancing the risks and rewards of market behavior, the following asset classes were selected to achieve the objectives of the Foundation's Portfolio.

Table 1-1
### Updated Allocations

From time to time, it may be desirable to amend the basic allocation policy or calculations. When such changes are made, updates will be attached to this Investment Policy Statement as Appendix A and will be considered part of this Investment Policy Statement. The Advisor will provide to the Foundation the recommended or desired targeted allocation percentages. The recommendation will fall within the acceptable range as indicated in table 1-1.

### Portfolio Rebalancing

From time to time, market conditions may cause the portfolio's investment in various asset classes to vary from the targeted allocation. To remain consistent with the asset allocation guidelines established by this IPS, each asset class in which the portfolio invests shall be reviewed annually by the Advisor and rebalanced back to the recommended weighting if the actual weighting varies by 3% or more from the recommended weighting (e.g., if the targeted allocation for a particular asset class is 10% and the actual is less than 7% or more than 13%, that asset class will be adjusted back to the targeted 10% allocation by either adding assets or distributing assets to or from the other asset classes.)

### DIVERSIFICATION

Investment of the Foundation's funds shall be limited to the following categories:

#### Permitted Investment Categories

1. Cash and cash equivalents, including money market funds, or certificates of deposit
2. ETF or Index Funds
3. Stock or Bond Mutual Funds

#### Excluded Categories for Investment

1. Derivatives
2. Natural resources
3. Precious metals
4. Venture capital

#### Investment Concentration

At all times there must be a minimum of three investment categories represented among the Foundation's assets. There shall be no maximum limit to the number of categories. No individual security held shall represent more than 15% of the total portfolio.

### INVESTMENT MONITORING AND CONTROL PROCEDURES

#### Reports

1. Advisor shall provide the Foundation with a monthly report that lists all assets held by the Foundation, values for each asset and all transactions affecting assets within the portfolio, including additions and withdraws.
2. Advisor shall provide the Foundation on a quarterly basis and within 30 days of the end of each calendar quarter, the following reports:
   a) Portfolio performance results over the last quarter, year, 3 years and 5 years
   b) Performance results of comparative benchmarks for the same periods; performance shall be reported on a time-weighted basis.
3. Advisor shall assist in the development of investment policies, objectives and guidelines.
4. Advisor shall prepare asset allocation analyses as necessary and recommend asset allocation strategies with respect to the Foundation’s objectives.
5. Advisor shall provide research on specific issues and opportunities and assist the Foundation Finance & Investment Committee in special tasks.
6. Advisor shall make tactical implementation decisions, including rebalancing, within the asset allocations ranges set by the Foundation and among investment managers with communication of such decisions and the rational at the next Foundation meeting. Such decisions will be tracked by the Advisor who will report the results of each of those decisions in its Investment Review provided to the Foundation for its quarterly meetings.
7. Advisor shall notify the Foundation Finance & Investment Committee of any significant changes in portfolio managers, personnel or ownership of any investment management firm hired by the Foundation.
8. Advisor shall, overall, be proactive with the Administration of the Foundation in the management of the Foundation’s investments.

Meeting
Advisor shall meet with the Foundation's Finance and Investment Committee at least annually (or semi-annually if the Foundation chooses) in order to give a detailed report as to activity in the investment account, manager selection, tactical changes in the asset allocation weightings or other information the Foundation shall require.

Advisor shall also meet annually with the Foundation Board in January of each year to give a detailed report on the Foundation’s investments.

ADOPTION
Adopted and Revised by the Foundation on this 21st day of December, 2021. Effective July 1, 2022.
EXHIBIT "D"

Articles of Incorporation

WHEREAS, the members of Lewis-Clark State College Educational Assistance and Development Foundation, Inc., at a duly called meeting, after proper notice, adopted the following resolution amending and restating the Articles of Incorporation to change the name of the corporation and to conform those Articles to the provisions of the Idaho Non-Profit Corporations Act by the affirmative vote of all members present at such meeting, constituting a majority of the voting power of the members of the corporation entitled to vote, to wit:

BE IT RESOLVED that the Articles of Incorporation of Lewis-Clark State College Educational Assistance and Development Foundation, Inc., be, and the same are hereby, amended and restated in their entirety as follows:

AMENDED AND RESTATED ARTICLES

ARTICLE I
Preliminary Matters

1.01 Name. The name of this corporation is LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.

1.02 Nonprofit Status. This corporation is a nonprofit corporation.

1.03 Duration. The duration of this corporation shall be perpetual.

ARTICLE II
Purposes

2.01 Charitable Scope of Purposes. This corporation is organized and shall be operated exclusively for charitable, scientific, literary, and educational purposes, within the meaning of §501(c)(3) of the Internal Revenue Code of 1986, as amended, or corresponding provisions of any subsequent Federal tax laws (hereinafter called "Internal Revenue Code"), and Treasury Regulations issued thereunder. This corporation shall serve the public interest, and no part of its assets or the income therefrom shall inure to the benefit of any private individual, except for payment of
reasonable compensation for services rendered to the corporation. No substantial part of the activities of this corporation shall directly or indirectly consist of attempting to influence legislation by propaganda or otherwise, and the corporation shall not directly or indirectly participate in, or intervene (including the publishing or distributing of statements), any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles of incorporation, this corporation shall not conduct or carry on any activities not permitted to be conducted or carried on (a) by a corporation exempt from federal tax under § 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or (b) by a corporation, contributions to which are deductible under § 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

2.02 Higher Education. In further limitation of the general charitable purposes set forth above, this corporation is organized and shall be operated for the purpose of advancing the goals of higher education. The goals of higher education shall be broadly construed to encompass the charitable, scientific, literary, artistic, educational, social and athletic objectives normally associated with nonsectarian institutions of higher education.

2.03 Lewis-Clark State College. The purposes of this corporation shall be accomplished primarily by encouraging, promoting, supporting, performing and carrying out the functions, programs, operations and purposes of Lewis-Clark State College, an institution of higher education and an agency of the State of Idaho with its principal campus located in Lewiston, Idaho, so long as it is an institution of higher education and an agency of the State of Idaho or an organization described in § 501(c)(3) of the Internal Revenue Code, contributions to which are deductible under § 170(c)(2) of the Internal Revenue Code. By way of illustration and not limitation, it shall be within the purposes of this corporation to:

a. **Funds.** Coordinate fund raising activities on behalf of Lewis-Clark State College and receive, hold, invest and administer donations of every kind on its behalf.

b. **Programs.** Promote, support, develop, perform, carry out and extend the educational undertakings of Lewis-Clark State College, and in furtherance thereof, to support and conduct any and all charitable, scientific, literary, artistic, educational, social and athletic activities relating thereto.
c. **Facilities.** Support, conduct and operate such activities as may be designed or intended to facilitate or enhance the educational, cultural, living and operational conditions at Lewis-Clark State College; to provide support for, maintain, enlarge, and extend the curricula, services, faculty, staff, and real or personal properties of Lewis-Clark State College.

d. **Financial Assistance.** To provide financial or other assistance to the students, faculty and staff of Lewis-Clark State College in their efforts to acquire new knowledge and to extend the educational endeavors of Lewis-Clark State College.

e. **Cooperation.** Promote cooperation, coordination with, and assistance to other charities in the area of Lewiston, Idaho, particularly schools and hospitals.

**ARTICLE III**

**Powers**

3.01 **Statutory Powers.** This corporation shall have all rights and powers now given to nonprofit corporations generally under the laws of the State of Idaho, including those powers now set forth in § 30-3-23 of the Idaho Code, and all further and broader rights and powers which may in the future be given to nonprofit corporations generally under any subsequent laws of this state. No subsequent repeal or amendment of any such laws shall diminish or restrict those corporation’s rights and powers.

3.02 **Activities.** In addition to raising funds and making grants, the corporation may, itself, actively conduct programs designed to accomplish the purposes set forth in Article II, above. Such activities may be engaged in for or on behalf of Lewis-Clark State College in order to assist it in performing its functions or carrying out its purposes.

3.03 **Limitations.** No part of the net earnings or assets of the corporation shall inure to the benefit of, or be distributable to, its members, directors, officers or other private persons, except that the corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article II hereof. No substantial part of the activities of the corporation shall be for the purpose of carrying on of propaganda, or otherwise attempting to influence legislation, and the corporation shall not participate in, or intervene in, (including the publishing and distribution of statements) any political campaign on behalf of any candidate for
public office. Notwithstanding any other provisions of these articles, the corporation shall not carry on any other activities not permitted to be carried on (a) by a corporation exempt from federal income tax under § 501(c)(3) of the Internal Revenue Code or the corresponding section of any future federal tax code, or (b) by a corporation, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code or the corresponding section of any future federal tax code.

ARTICLE IV
No Members

The corporation shall not have any members.

ARTICLE V
Board of Directors

The affairs of the corporation shall be managed by a Board of Directors. The number of directors serving on the Board of Directors shall be fixed in accordance with the corporation’s Bylaws. Other than the directors constituting the initial board of directors, who are designated in these articles, the Directors shall be elected, appointed or designated in the manner and for the term or terms provided in the Bylaws of the corporation.

The names and street addresses of the persons constituting the initial board of directors are:

6.02 Registered Agent. The name and initial registered agent of the corporation at such street address is Dean A. Froehlich.

ARTICLE VII.  
Distribution on Dissolution

Upon dissolution or winding up of the corporation, its assets remaining after payment, or provision for payment of all debts and liabilities of this corporation shall be to the Idaho State Board of Education, as the Board of Trustees of Lewis-Clark State College; provided, however, that if at such time Lewis-Clark State College or its successor in interest is not an agency of the State of Idaho or an exempt organization described in § 501(c)(3) of the Internal Revenue Code or has substantially failed or abandoned its operations or been
dissolved, then the remaining assets of the corporation shall be distributed to such other agencies of the State of Idaho or non-profit fund foundation or corporation involved in higher education which is organized and operated exclusively for charitable purposes and which has established its tax exempt status under § 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, as the Board of Directors may direct. Any such assets not distributed shall be distributed by the district court of the county in which the principal office of the corporation is then located, excluding for any purposes or to such organizations as the court shall determine to be consistent with the purposes of the corporation.

ARTICLE VIII.
Bylaws

Provisions for the regulation of the internal affairs of the corporation shall be set forth in the Bylaws. The Board of Directors of the corporation shall be authorized to amend the corporation’s Bylaws at a properly noticed special or regular meeting of the Board of Directors.

ARTICLE IX.
Amendment of Articles

This corporation reserves the right to amend, alter, change or repeal any provisions contained in these articles of incorporation in any manner now or hereafter prescribed or permitted by statute.

IN WITNESS WHEREOF, the duly undersigned officers have signed and attested these Articles of Amendment.

DATED this 20th day of December, 2001.

ROBERT P. BROWN, Esquire, being over the age of twenty-one (21) years, for the purpose of forming a corporation under the provisions of the Idaho Nonprofit Corporation Act, Title 30, Chapter 3 of the Idaho Code, hereby adopts these articles of incorporation:

ARTICLE I
Preliminary Matters

1.01 Name. The name of this corporation is LEWIS-CLARK STATE COLLEGE EDUCATIONAL ASSISTANCE AND DEVELOPMENT FOUNDATION, INC.

1.02 Nonprofit status. This corporation is a nonprofit corporation.

1.03 Duration. The duration of this corporation shall be perpetual.

ARTICLE II
Purposes

2.01 Charitable scope of purposes. This corporation is organized and shall be operated exclusively for charitable, scientific, literary, or educational purposes, within the meaning of §501(c)(3) of the Internal Revenue Code of 1954, as amended, or corresponding provisions of any subsequent Federal tax laws (hereinafter called Internal Revenue Code”), and Treasury Regulations issued thereunder. This corporation shall serve the public interest, and no part of its assets or the income therefrom shall inure to the benefit of any private individual, except for payment of reasonable compensation for services rendered to the corporation. No substantial part of the activities of this corporation shall directly or indirectly consist of attempting to influence legislation by propaganda or otherwise, and the corporation shall not directly or indirectly participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles of incorporation, this corporation shall not conduct or carry on any activities not permitted to be conducted or carried on by an exempt organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code.
2.02 Higher education. In further limitation of the general charitable purposes set forth above, this corporation is organized and shall be operated for the purpose of advancing the goals of higher education. The goals of higher education shall be broadly construed to encompass the charitable, scientific, literary, artistic, educational, social and athletic objectives normally associated with nonsectarian institutions of higher education.

2.03 Lewis-Clark State College. The purposes of this corporation shall be accomplished primarily by encouraging, promoting, supporting, performing and carrying out the functions, programs, operations and purposes of Lewis-Clark State College, an institution of higher education and an agency of the State of Idaho with its principal campus located in Lewiston, Idaho, so long as it is an institution of higher education and an agency of the State of Idaho or an organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code. By way of illustration and not limitation, it shall be within the purposes of this corporation to:

a. Funds. Coordinate fund raising activities on behalf of Lewis-Clark State College and receive, hold, invest and administer donations of every kind on its behalf.

b. Programs. Promote, support, develop, perform, carry out and extend the educational undertakings of Lewis-Clark State College, and in furtherance thereof, to support and conduct any and all charitable, scientific, literary, artistic, educational, social and athletic activities relating thereto.

c. Facilities. Support, conduct and operate such activities as may be designed or intended to facilitate or enhance the educational, cultural, living and operational conditions at Lewis-Clark State College; to provide support for, maintain, enlarge, and extend the curricula, services, faculty, staff, and real or personal properties of Lewis-Clark State College.

d. Financial assistance. To provide financial or other assistance to the students, faculty and staff of Lewis-Clark State College in their efforts to acquire new knowledge and to extend the educational endeavors of Lewis-Clark State College.

e. Cooperation. Promote cooperation, coordination with, and assistance to other charities in the area of Lewiston, Idaho, particularly schools and hospitals.
ARTICLE III
Powers

3.01 Statutory powers. This corporation shall have all rights and powers now given to nonprofit corporations generally under the laws of the State of Idaho, including those powers now set forth in §30-307 of the Idaho Code, and all further and broader rights and powers which may in the future be given to nonprofit corporations generally under any subsequent laws of this state. No subsequent repeal or amendment of any such laws shall diminish or restrict this corporation's rights and powers.

3.02 Activities. In addition to raising funds and making grants, the corporation may, itself, actively conduct programs designed to accomplish the purposes set forth in Article II, above. Such activities may be engaged in for or on behalf of Lewis-Clark State College in order to assist it in performing its functions or carrying out its purposes.

3.03 Limitations. No power or authority shall be exercised by this corporation in any manner or for any purpose which is not permitted for an exempt organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code.

ARTICLE IV
Members

4.01 Management authority. The management of the affairs of this corporation shall be vested in its members pursuant to Section 30-314(c) of the Idaho Code.

4.02 Apportionment of voting rights among classes. All voting rights shall be exercised by a single class of membership designated "trustee members", with each trustee member entitled to one (1) vote on each matter submitted to a vote at a meeting of such members. The bylaws of the corporation may provide for the designation of any one or more classes of nonvoting members. Except as set forth in these Articles of Incorporation, the designation, number, qualifications, terms of office, manner of selection, time and place of meetings, rights, powers, and duties of the members of each class shall be prescribed in the bylaws of the corporation.

4.03 Compensation. No member of the corporation shall receive any compensation for his or her services as a member of the corporation, but the corporation may pay reasonable compensation to any person, including a member of the corporation, for other services actually rendered to the corporation.
4.04 Notice of organization meeting. Actual personal notice of
the organization meeting of the members of the corporation
shall be sufficient notice pursuant to Section 30-324(b) of
the Idaho Code.

ARTICLE V
Directors

There shall be no directors of the corporation, the management of
the affairs of the corporation being vested in the trustee
members pursuant to Section 30-314 of the Idaho Code.

ARTICLE VI
Principal Organizer

6.01 Name. The name of the principal organizer of this corpo-
ration is LEE A. VICKERS, who is over the age of twenty-one
(21) years.

6.02 Address. The street address of the principal organizer is
Office of the President, 8th Avenue and 6th Street,
Lewiston, Idaho 83501.

ARTICLE VII
Registered Office and Registered Agent

7.01 Registered office. The street address of the initial
registered office of this corporation is Office of the
President, Lewis-Clark State College, 8th Avenue and 6th
Street, Lewiston, Idaho 83501.

7.02 Registered agent. The name of the initial registered agent
at such street address is LEE A. VICKERS.

ARTICLE VIII
Amendment of Articles

This corporation reserves the right to amend, alter, change or
repeal any provisions contained in these articles of incorpo-
ration in any manner now or hereafter prescribed or permitted by
statute.

ARTICLE IX
Dissolution

In the event of termination, dissolution or liquidation of this
corporation, the net assets remaining after payment of all debts
and obligations of the corporation shall be transferred and
conveyed exclusively to Lewis-Clark State College or its
successors-in-interest; provided, however, that if at such time
Lewis-Clark State College or its successor-in-interest is not an
agency of the State of Idaho or an exempt organization described
in §501(c)(3) of the Internal Revenue Code, or has substantially
failed or abandoned its operations or been dissolved, then the
remaining assets of this corporation shall be distributed to such other agencies of the State of Idaho and exempt organizations described in §501(c)(3) of the Internal Revenue Code involved in higher education as the board of directors may direct.

ARTICLE X
Incorporator

10.01 Name. The name of the incorporator of this corporation is ROBERT P. BROWN, Esquire, who is over the age of twenty-one (21) years.

10.02 Address. The street address of the incorporator is 13th and Idaho Streets, Lewiston, Idaho 83501.

IN WITNESS WHEREOF, the incorporator has signed these Articles of Incorporation in duplicate this 2nd day of April, 1984.

ROBERT P. BROWN, Incorporator

STATE OF IDAHO )

EXHIBIT "E"

Bylaws

AMENDED AND RESTATED BYLAWS
OF
LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.

ARTICLE I.
In General

1.01 Nature of Bylaws. The following paragraphs contain provisions for the regulation and management of LEWIS-CLARK STATE COLLEGE FOUNDATION, INC., a nonprofit corporation organized and operating under the laws of the State of Idaho.

1.02 Conflicts. In the event that there is a conflict between a provision of these Bylaws and a mandatory provision of the laws of the State of Idaho, or the Articles of Incorporation of the corporation, then the mandatory provision of the laws of the State of Idaho, or the Articles of Incorporation shall control.

ARTICLE II.
Principal Office

2.01 Principal Office. The principal office of the corporation in the State of Idaho shall be located at Lewis-Clark State College, 500 8th Avenue Lewiston, ID 83501. The corporation may have such other offices, either within or without the State of Idaho, as the Directors may designate from time to time.

ARTICLE III.
Non-Director Members

3.01 Foundation Members. In addition to the Directors as defined in Article IV below, the corporation may recognize a class of benefactors and supporters designated as “Foundation Members”, which class may be further subdivided into any number of subclasses as may be determined by the Directors.

3.02 No Management Authority or Voting Rights. Foundation Members, as described in 3.01 above, shall have no authority to manage the affairs of the corporation, and shall not be entitled to vote on any matter relating to the corporation. Foundation Members shall have the right to attend and participate in meetings of the Directors.

3.03 Rights and Privileges. Except as may be otherwise provided in these Bylaws or the Articles of Incorporation, Foundation Members shall have such recognition, rights, privileges as may be determined by the Board of Directors. Foundation Members are invited to attend meetings of the Board of Directors.

3.04 Selection. Individuals or organizations who are interested in the objectives and purposes of the corporation may be admitted as Foundation Members by majority vote of the Directors upon meeting such qualifications as may be determined by the Directors.

3.05 Designated Members. The following individuals shall serve as Designated Members by virtue of their offices, to serve for the term of their respective offices. Designated Members do not have voting rights.

a. The President of Lewis-Clark State College.
b. The Provost and Vice President for Academic Affairs of Lewis-Clark State College.
c. The Vice President for Finance and Administration of Lewis-Clark State College.
d. The Foundation Treasurer as appointed by Lewis-Clark State College with the consent of the Foundation.

e. The Faculty Senate Chair Elect of the Lewis-Clark State College Faculty Association.

f. The Lewis-Clark State College Alumni Association Board Representative.

g. The Vice President of Student Affairs of Lewis-Clark State College.

3.06 Membership Roster and Certificates. The corporation shall maintain a roster of Foundation Members, and may issue certificates, cards, or other evidence of association.

3.07 Personal Status of Association. Association as a Foundation Member shall be personal to the associate admitted, and shall not survive the death of any individual associate nor be transferred by any means whatsoever.

3.08 Resignation. A Foundation Member may resign at any time by written notice to the corporation.

3.09 Removal. Association as a Foundation Member may be reviewed for any action which is detrimental to the best interests of the corporation, or for failure to actively support corporate purposes, or to actively participate in corporate activities. Removal shall require the affirmative vote of a majority of the Directors.

ARTICLE IV.
Directors

4.01 General Powers. All corporate powers shall be exercised by or under the authority of the Board of Directors. The business and affairs of the corporation shall also be managed under the direction of the Board of Directors, except as otherwise provided in the Idaho Non-Profit Corporation Act or the Articles of Incorporation.

4.02 Presumption of Assent. A Director of the corporation who is present at a meeting of its Board of Directors at which any action on any corporate matter is taken shall be presumed to have assented to the action unless such Director’s dissent shall be entered in the minutes of the meeting or unless such Director shall file such Director’s written dissent to such action with the secretary of the meeting before the adjournment thereof or shall forward such dissent by certified or registered mail to the secretary of the corporation within three days after the adjournment of the meeting. Such right of dissent shall not apply to a Director who voted in favor of such action.

4.03 Qualification. Directors need not be officers of the corporation nor residents of the State of Idaho.

4.04 Elected Directors. The corporation shall have such Directors as may be elected by majority vote of the Directors, as then constituted, at the annual meeting of Directors. The number of such elected Directors serving at any time shall, in no event, exceed thirty (30). Each Director, including the Director whose terms are expiring, shall have the right to vote for as many persons as there are Directors to be elected, but no Director shall be entitled to cumulate his or her votes.

4.05 Terms of Elected Directors. The terms of the Elected Directors pursuant to Article 4.04 shall serve for a period of three (3) years until the annual meeting in the year in which their respective terms expire and until their successors are duly appointed or elected and qualified.

4.06 Resignation. Any Director may resign at any time giving written notice to the corporation. Any such resignation shall take effect at the time specified therein, or if the time be not specified, upon its acceptance by the corporation.

4.07 Removal. An elected or appointed Director may be removed from office prior to expiration of the term of office by the vote of at least two-thirds (2/3) of the Directors other than the Director voted upon, at any regular or special meeting of Directors. Unexcused absences from two (2) consecutive meetings of the Directors shall be cause for consideration of removal of a Director. The Designated Director is not subject to removal.
4.08 Vacancies. A vacancy among the Directors shall be deemed to exist upon death, resignation or removal of a Director. The vacancy of a Director shall be filled by his or her successor in office at the time the office is assumed. The vacancy of a Designated Director shall be filled by appointment of the Executive Committee. A Director appointed or elected to fill a vacancy shall serve the unexpired term of his predecessor in office.

4.09 Place of Meetings. All meetings of the Directors shall be held at the principal office of the corporation or at such other place, either within or without the State of Idaho, as the Directors may, from time to time, direct.

4.10 Organization of Meeting. The president of the corporation shall act as chairman of meetings of Directors. In the absence of the president, the next Officer shall act as chairman: vice president, then secretary, respectively.

4.11 Annual Meetings. The annual meetings of the Directors shall be held in the spring each year. In the event that such annual meeting is omitted by oversight or otherwise, it may be held at a subsequent special meeting called in accordance with the provisions of these Bylaws and the laws of the State of Idaho, and any business transacted or elections held at such meetings shall be valid as if transacted or held at the annual meeting.

4.12 Special Meetings. A special meeting of the Directors may be called at any time by the president, and shall be called by the president upon the written request of a majority of the Directors.

4.13 Notice of Meetings. Written notice of each meeting of Directors stating the place, day or hour of the meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called, shall be delivered not less than two (2) days before the date of the meeting. Exceptions may occur with extenuating circumstances. If mailed, such notice shall be deemed to be delivered three (3) days after they are deposited in the United States Mail addressed to the Director at his or her address as it appears on the records of the corporation, with postage paid thereon.

Attendance of a Director at a meeting shall constitute a waiver of notice of such meeting, except where a Director attends a meeting for the express purpose of objecting to the transaction of any business on the grounds that the meeting is not lawfully called or convened. The Directors may waive notice of any meeting, and written waiver of notice executed either before or after the meeting shall be sufficient.

Any adjournment or adjournments of an annual or special meeting to another time and place may be held without new notice being given.

4.14 Quorum. A simple majority (defined as 51% or more) of the voting Directors shall constitute a quorum for the transaction of business. The act of a majority (defined as 51% or more) of the Directors present at a meeting at which a quorum is present shall be the act of the Directors.

Foundation Members and Designated Members shall not be considered to constitute a quorum and do not have voting rights.

If, at any meeting of the Directors, there shall be less than a quorum present, those present may adjourn the meeting without notice other than by announcement at the meeting. If, subsequently additional directors arrive and a quorum is present, such meeting can be re-convened and any business may be transacted which might have been transacted at the meeting as originally notified.

4.15 Action Without a Meeting. Any action required to be taken at a meeting of the Board of Directors, or any action that may be taken at a meeting of the Directors or of a committee, may be taken without a meeting if a consent in writing, setting forth the actions so taken, shall be signed by a simple majority of the Directors, or by a simple majority of the members of the committee, as the case may be. Such consent shall have the same effect as a unanimous vote.
4.16 **Powers and Duties.** The Directors shall establish policies and have the general management, control and direction of all the business and affairs of the corporation and of all its undertakings to the fullest extent permitted by law. In addition to all powers granted by law, Directors shall have power and authority:

a. To call meetings of the Directors whenever deemed proper or necessary.

b. To elect officers of the corporation, to appoint such employees or agents as they deem necessary or proper, to confer upon any officer the power to appoint, remove and suspend officers, employees and agents, and to similarly remove any officer, employee or agent with or without cause.

c. To determine the policies of the corporation and to make such rules and regulations as may be deemed necessary or proper for the government and guidance of the officers, employees and Directors of the corporation, not inconsistent with the laws of the State of Idaho, the Articles of Incorporation, these Bylaws or the Operating Agreement.

d. To oversee the security and safekeeping of endowment funds to insure that the same are invested in accordance with the Uniform Prudent Management of Institutional Funds Act as adopted by the State of Idaho and in a manner consistent with the objectives of the corporation. These duties include cooperation with any investment committee or external investment advisors that may be designated by the Directors.

e. To purchase or otherwise acquire, and to sell, convey, and otherwise dispose of assets on behalf of the corporation at such prices and upon which terms as the Directors may deem appropriate.

f. To approve payment for such property, rights or privileges, in whole or in part, with money or other securities of the corporation, or by delivery of other property of the corporation.

g. To approve an action to borrow money and incur indebtedness; to create, make and issue mortgages, deeds of trust, trust and annuity agreements and negotiable or transferable instruments and securities; to do every other act necessary to effectuate the same.

h. To hold, operate, leave, invest, reinvest and otherwise manage real and personal property of every kind and description.

i. To fix the compensation, fringe benefits and emoluments of officers and other employees in accordance with noted Article VI.

j. To select one or more financial institutions to act as depositor of the funds of the corporation and to determine the manner of receiving, depositing and disbursing the funds of the corporation.

k. To determine by whom and in what manner the corporation bills, notes, receipts, acceptances, endorsements, checks, releases, contracts or other documents shall be signed, and to confer and delegate such power.

l. To do everything necessary or proper for the carrying out of the objects and purposes of the corporation as set forth in the Articles of Incorporation.

Notwithstanding the general delegation of authority granted, the Directors shall support and assist the College in fundraising and donor relations. In carrying out its purposes the Foundation Directors shall not engage in activities that conflict with federal or state laws, rules and regulations (including but not limited to all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations), applicable policies of the Idaho State Board of Education or the role and mission of the College.

4.17 **Executive Committee.** There shall be an executive Committee which shall have and may exercise all of the authority of the Directors other than in reference to amendment of the Articles of Incorporation, adoption of a plan of merger or consolidation of the corporation, the sale, lease, exchange or other disposition of all or substantially all the assets of the corporation otherwise than in the usual and regular course of its activities, a voluntary dissolution of the corporation or a revocation thereof, or amendment of the Bylaws of the corporation. The members of this committee shall be: The officers of the Board, the Immediate Past President, all chairs of approved committees or task forces and other members as designated.

All action of the executive committee shall be reported to the Directors at its next meeting succeeding such action, and shall be subject to revision or alteration by the Directors, provided that no rights or acts of third parties shall be affected by any such revision or alteration.

A quorum at any meeting of the executive committee shall consist of a simple majority of the Executive Committee Members.
4.18 **Scholarship Committee.** The Directors may designate two or more members as a scholarship committee. These committees, to the extent provided in the resolution below, shall have and exercise the authority of the Directors in the management of the corporation.

To promote the Foundation Scholars Program:

a. Establish and maintain scholarship criteria and policies including approval/disapproval of any exceptions to policy

b. Select scholarship recipients on an annual basis

c. Provide to the Finance & Investment Committee any information that could impact the amount of the annual scholarship award and/or the number of new scholarships to be given

d. Provide support, encouragement and develop rapport with individual Foundation Scholars through attendance at social functions such as the orientation at the beginning of the academic year, a winter holiday party, a reception at the LCSC President’s home, and/or through a graduation recognition event

e. Maintain long-term contact with Foundation Scholars, at the minimum annually, in recognition that these scholars are the future ambassadors for the Foundation

To meet as often as required to review other scholarship applications as requested and select recipients in accordance with established individual scholarship criteria

To participate in the annual Scholarship Luncheon to honor LCSC Foundation and Alumni Association scholarship recipients and donors.

4.19 **Finance & Investment Committee.** The Directors may designate two or more members as the Finance & Investment Committee. These committees, to the extent provided in the resolution below, shall have and exercise the authority of the Directors in the management of the corporation.

Finance & Investment Committee of the Foundation shall have the following responsibilities:

a. Oversight of endowment investments. Allocate investments among assets classes according to the investment policy statement. Review the performance of investment portfolio and advisor at least annually.

b. Approve annual distribution of endowments according to the foundation spending policy. For underwater endowments determine if distribution will be paid. If underwater endowment distributions are made, determine the source of funding, including General Unrestricted Funds, Bryden Canyon Quasi-Endowment or other funding sources.

c. Select the number of Foundation scholar scholarships awarded to freshman each year. For scholarships awarded in excess of funds available in the Foundation Scholars Program, determine if distribution will be paid from General Unrestricted Funds, Bryden Canyon Quasi-Endowment or other funding sources.

d. Review financial reports and examine fund balances. Develop the annual operating budget two months before the start of each fiscal year.

e. Approve charitable gift annuities established with gifts of more than $100,000 per beneficiary. For annuities established with gifts of more than $200,000 per beneficiary, submit recommendation for full board approval.

f. Approve acceptance of gifts of assets other than cash. For noncash gifts in excess of $200,000, submit recommendation for full board approval. Acceptance of marketable securities does not require approval by the committee. Marketable securities will be liquidated immediately upon receipt.

4.20 **Other Committees or Task Forces.** The Directors may designate and appoint one or more standing committees or task forces, each of which shall consist of two (2) or more Directors. These committees, to the extent provided in such resolution, shall have and exercise the authority of the Directors in the management of the corporation.
ARTICLE V.
Officers

5.01 Qualification. An Officer must be a Director of the corporation with the exception of the Treasurer, who may be a Designated Member as described in Section 3.05.

5.02 Offices. The offices of the corporation shall consist of president, vice president, secretary, and treasurer and such other offices as the Directors may choose to appoint.

5.03 Election. The officers of the corporation, with the exception of the Treasurer, shall be elected by the Directors at the organizational meeting of Directors and at such annual meeting of Directors thereafter. Officers shall be elected or appointed for a term extending for two years until the next annual meeting of the Directors and shall serve until their successors shall have been duly elected and qualified.

5.04 Duties of President. The president shall be the chief executive officer of the corporation and shall attend and preside at all meetings of the Directors and any executive committee of the Directors. The president shall have responsibility for the planning and implementation of the corporation’s activities and the appointment of employees of the corporation, subject to the advisement and approval of the Directors. The president or vice-president, unless some other person is specifically authorized by vote of the Directors, shall sign all bonds, deeds, mortgages, contracts and other documents of the corporation. The president shall perform all the duties commonly incident to such office and shall perform such other duties as the Directors shall designate.

5.05 Duties of a Vice President. The vice president shall perform the duties and have the powers of the president during his or her absence or disability. A vice president shall perform such other duties and have such others powers as the Directors may designate.

5.06 Duties of the Secretary. The secretary shall ensure accurate minutes of all meetings of the foundation members and the Directors are maintained. The secretary shall attend to the giving and serving of all notices of the corporation, shall have custody of all the original records, papers, files and books of the corporation (except books of accounts and valuable papers properly in the custody of the treasurer); shall attest all instruments in writing executed in the name of the corporation and requiring his or her signature; and shall, in general, perform all the duties incident to the office of secretary and such other duties as the Directors shall designate. In the absence of the secretary, an assistant secretary or a secretary pro tempore shall perform such duties.

5.07 Duties of Treasurer. The treasurer, subject to the order of the Directors, shall have the care and custody of the funds and valuable papers of the corporation in such bank or banks as the Directors shall designate. The treasurer shall have and exercise, under the supervision of the Directors, all the powers and duties commonly incident to such office and give bond in such form and with such sureties as may be required by the Directors. The treasurer shall keep accurate books of account of the corporation’s transactions, which shall be the property of the corporation, and, together with all its property in his or her possession, shall be subject at all times to the inspection and control of the Directors.

5.08 Duties of Executive Director. The executive director shall be given the necessary authority and responsibility to operate the affairs of the corporation and all its activities subject to such policies as may be adopted and such orders as may be issued by the Directors or by any committee or task force to whom they have delegated power for such action. He or she shall act as the duly authorized representative of the Directors in all matters in which the Directors have not formally designated some other person to act.

The authorities and duties of the executive director shall include the responsibility for:

a. Carrying out all policies established by the Directors.
b. Developing and submitting to the Directors for approval of plans and strategies for the corporation’s affairs, including public relations, soliciting donations, and other matters intended to carry out the objectives of the corporation.
c. Preparing an annual budget showing the expected receipts and expenditures as required by the Directors.
d. Selecting and managing staff and developing and maintaining personnel policies and practices.
e. Presenting to the Directors, or their authorized committee, periodic reports reflecting the operating and financial activities of the corporation and the preparation and submission of such special reports as may be required by the Directors.
f. Attending all meetings of the Directors and committees.
g. Performing such other duties as may be necessary and in the best interest of the corporation.

5.09 Other Officers. The duties of the additional officers, other than as defined in the Bylaws of the corporation, shall be prescribed and defined by the Directors.

5.10 Authority to Sign Checks. All checks, drafts or other orders for payment of money, note or other evidence of indebtedness issued in the name of the Corporation, shall be signed by such officer or officers, agent or agents of the Corporation as provided in these Bylaws or in such manner as shall be determined by the Board of Directors.

5.11 Resignation. Any officer may resign at any time by giving written notice to the corporation, to the Directors, to the president, or to the secretary of the corporation. Any such resignation shall take effect at the time specified therein, or if the time be not specified, upon its acceptance.

5.12 Removal. Any officer or agent may be removed at any time by action of the Directors.

5.13 Vacancies. Any vacancy among the officers of the corporation shall be selected by the executive committee subject to the authority of the Directors to approve, disapprove or fill the vacancy themselves.

ARTICLE VI. 
Compensation and Indemnification

6.01 Compensation of Directors. Directors shall not be compensated.

6.02 Compensation of Officers. The president, vice president, secretary and treasurer shall receive no compensation.

6.03 Repayment. Any payments made to an employee of the corporation for compensation, salary, bonus, interest, rent or expense incurred by him or her, which shall be determined to be unreasonable in whole or in part by the Internal Revenue Service pursuant to Section 4941(d) (2) (E) of the Internal Revenue Code shall be reimbursed by such employee to the corporation to the full extent of such determination of unreasonableness. It shall be the duty of the Directors to enforce repayment of such amount. In lieu of repayment by the employee, subject to the determination of the Directors, amounts may be withheld from the employee’s future compensation or expense reimbursement payments until the amount owed to the corporation shall have been recovered.

6.04 Indemnification. Any person who serves on behalf of the Foundation as a director, employee, chairperson or member of any committee, or as a director, trustee or officer of another corporation, shall be deemed to be the Foundation’s agent for purposes of this Article and shall be indemnified by the Foundation against expenses (including attorney’s fees), judgments, fines, excise taxes and amounts paid in settlement actually an reasonably incurred by such person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or a derivative action, by reason of such service, provided such person acted in good faith and in a manner that he or she reasonably believe to be in the best interest of the foundation and, with respect to any criminal action proceeding, had no reasonable cause to believe his or her conduct was unlawful.
ARTICLE VII.
Gifts to Corporation

7.01 In General. Donors may make gifts to the corporation by naming or otherwise identifying the corporation. Gifts shall vest in the corporation upon receipt and acceptance by it, whether signified by a Director, officer, employee or agent of the corporation.

7.02 Acceptance of Governing Documents. Each donor, by making a gift to the corporation, accepts and agrees to all of the provisions of the Articles of Incorporation and these Bylaws.

ARTICLE VIII.
Miscellaneous

8.01 Books and Records. The corporation shall keep accurate and complete books and records of account and shall keep minutes of the proceedings of its Directors and committees having any authority of the Directors. All books and records of the corporation may be inspected by any Director for any proper purpose at any reasonable time.

8.02 Parliamentary Procedure. Parliamentary Procedure shall be the code that governs the procedures of the Foundation Board of Directors’ meetings.

8.03 Corporate Seal. There shall be no seal of the corporation, and all contracts and other papers of the corporation shall be authenticated without any corporate seal.

8.04 Waiver of Notice. Whenever any notice whatsoever is required to be given by these Bylaws, or the Articles of Incorporation, or any of the nonprofit corporation laws of the State of Idaho, a waiver thereof in writing, signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be equivalent to the giving of such notice for all purposes.

8.05 Contracts and Conveyances. All contracts, deeds, conveyances, negotiable instruments and other instruments of like character which have first been approved by the Directors shall be signed by the president or vice president and the secretary or an assistant secretary, or otherwise as directed by the Directors. No contract of any officer of the corporation shall be valid without previous authorization or subsequent ratification of the Directors.

8.06 Fiscal Year. The Foundation shall operate on a fiscal year beginning July 1st and ending June 30th.

8.07 Dissolution. The corporation exists for the sole purpose of providing support to Lewis-Clark State College (the “College”). Given the significant administrative contribution provided to the corporation by the College, in the event that the corporation ceases to provide such support, the corporation may be dissolved and all assets and records will be distributed exclusively to the College or its successor in interest pursuant to the Articles of Incorporation.

8.08 Amendment. These bylaws may be altered, amended or repealed at any regular or special meeting of the Directors, provided a quorum is present and provided further that notice of the substance of the proposed amendment shall be submitted to each Director within the same time and in the same manner prescribed for notice of the meeting.

CERTIFICATION

We, the undersigned President, Vice President and Secretary of the Lewis-Clark State College Foundation, Inc. an Idaho Corporation, do hereby certify that the foregoing Bylaws supersede all prior Bylaws, amended or restated, were duly adopted as the restated Bylaws of said corporation at a duly constituted meeting of the members.
of the corporation at which a quorum was present, in person or by proxy, said meeting, held March 17, 2015, and that the same do now constitute the Bylaws of said corporation.
EXHIBIT "F"

Conflict of Interest Policy

Lewis-Clark State College Foundation
CONFLICTS OF INTEREST POLICY

No board member shall use his or her position, or the knowledge gained therefrom, in such a manner that conflict between the interest of the organization or any of its affiliates and his or her personal interests arises.

Each board member has a duty to place the interest of the organization foremost in any dealings with the organization and has a continuing responsibility to comply with the requirements of this policy.

Board or committee members may not obtain for themselves, their relatives, or their friends a material interest of any kind from their association with the organization.

It is, nevertheless, recognized that transactions between Lewis-Clark State College Foundation (“Foundation”) and a business or other organization with whom a board member is affiliated may be beneficial to the Foundation and that the Foundation should not be precluded from entering into that beneficial transaction so long as the board member does not participate in or otherwise influence the Foundation’s decision regarding the transaction.

It shall be the policy of the Foundation to require that all new Board members, prior to assuming their positions, and all present Board members, as soon as practicable after the adoption of this policy, submit in writing to the President a list of all businesses or other organizations (other than the Foundation) of which he or she is an officer, member, owner (either as a sole practitioner or partner), shareholder with a five percent (5%) or greater interest in all outstanding voting shares, employee or agent, with which the Foundation has, or may reasonably in the future have, a relationship or transaction in which the Board member or officer would have conflicting interests. Each written statement shall be resubmitted each year with any necessary changes.

The President shall become familiar with the statements of all Board members and officers in order to guide their conduct should a conflict arise. The Vice-President shall be familiar with the statement filed by the President.

At such time as any matter comes before the Board in such a way as to give rise to conflict of interest, the affected Board member or officer shall make known the potential conflict, whether disclosed by written statement or not. After answering any questions that might be asked, the affected Board member shall withdraw from the meeting until the matter has been voted upon. In the event that the affected Board member or officer fails to withdraw voluntarily, the President is empowered to require withdrawal from the room during both discussion and vote on the matter. In the event the conflict of interest affects the President, the Vice-President is empowered to require that the President withdraw in the same manner, and for the duration of discussion and action on the matter the Vice-President shall preside.

If the matter about which a conflict has arisen is the item of business for which a special meeting of the Board was called, the affected member may be counted to establish a quorum, but shall not participate in the discussion or vote on it.

ADOPTED, this 15th day of December, 1998.
EXHIBIT "G"

Code of Ethical Conduct

Directors and Officers of the LC State Foundation represent Lewis-Clark State College and its Foundation, and have a responsibility to conduct themselves in such a manner as to give a positive impression of Lewis-Clark State College to the public, students, and alumni. Directors and Officers of the LC State Foundation pledge to accept the following ethical guidelines:

1. Accountability: Faithfully abide by the Articles of Incorporation, Bylaws and policies of the LC state Foundation, and exercise reasonable care, faith and due diligence in organizational affairs.

2. Professional Excellence: Maintain a professional level of courtesy, respect and objectivity in all Foundation activities.

3. Professional Gain: Exercise the powers invested for the good of all members of the organization rather than his/her personal benefit. Transactions involving the Foundation and the personal or business affairs of a trustee, director, officer, or staff member should be approved in advance by the Foundation’s governing board. In addition, directors, officers, and staff members of a foundation disqualify themselves from making, participating, or influencing a decision in which they have or would have a financial interest.

4. Confidential Information: Respect the confidentiality of sensitive information known due to service.

5. Collaboration and Cooperation: Respect the diversity of opinions as expressed or acted upon by the Foundation board, committees and membership, and promote collaboration, cooperation and partnership among Foundation Members.

6. Gifts: No director, trustee, officer, or staff member of a foundation shall accept from any source any material gift or gratuity in excess of fifty dollars ($50.00) that is offered, or reasonably appears to be offered, because of the position held with the foundation; nor should an offer of a prohibited gift or gratuity be extended by such an individual on a similar basis.
Gift Acceptance Policy

Lewis-Clark State College Foundation
Gift Acceptance Policy
(Article VII of the Bylaws)

Gifts to Corporation:

In General

Donors may make gifts to the corporation by naming or otherwise identifying the corporation. Gifts shall vest in the corporation upon receipt and acceptance by it, whether signified by a Director, officer, employee or agent of the corporation.

Acceptance of Governing Documents

Each donor, by making a gift to the corporation, accepts and agrees to all the provisions of the Articles of Incorporation and (the) Bylaws.

Split Interest Gifts

The corporation shall have the power and authority to arrange and administer deferred and other split-interest gifts, including, but not limited to, charitable lead and remainder unitrusts and annuity trusts, and charitable gift annuities, but only as permitted by the laws of the State of Idaho. If a gift is made to the corporation or a third party (in trust or otherwise) to make income or other payments for a period of a life or lives or other periods to any individuals or for noncharitable purposes, followed by payments to the corporation, or to make income or other payments to the corporation, followed by payments to any individuals or for noncharitable purposes, only the payments to the corporation shall be regarded as subject to the corporation’s Articles of Incorporation and (the) Bylaws and then only when the corporation becomes entitled to their use. The Directors may take such actions as it, from time to time, deems necessary to protect the corporation’s rights to receive such payments.

Restricted Gifts, Acceptance

Any donor may, with respect to a gift made by such donor to the corporation, provide at the time of the gifts restrictions or conditions which are not inconsistent with the charitable purposes of the corporation, as to (i) the manner of distribution, including amounts, times and conditions of payment and whether from principal or income, and (ii) the name, as a memorial or otherwise, for a fund given, or addition to a fund previously held, or anonymity for the gift. Restrictions involving the naming of a fund as a memorial or otherwise may be satisfied by keeping such name appropriate accounts reflecting the interest of such funds in a common investment. Nothing in the foregoing shall obligate the corporation to accept any gift or to perform any act, which, in the opinion of the Directors, will not be in the best interests of the corporation or which may jeopardize or cause it to lose its status as an exempt organization described in Section 501 (c) (3) of the Internal Revenue Code.
EXHIBIT "I"

Policy for Accounting for Gift Revenue

Lewis-Clark State College Foundation
Policy for Accounting of Gift Revenue

1. **Fiduciary Responsibility.** Each gift, regardless of value, form, or designated use, shall be accounted for at the time of receipt until used as directed by the donors in support of the mission of the Foundation and/or the College. During such time as funds are retained, they shall be invested in accordance with procedures of the Finance and Investment Committee. The development office shall be responsible for any reports to donors on the use of their funds, to be accomplished in concert with operating managers and the accounting department.

2. **Allocation to Restricted Funds.** Gifts received for restricted purposes (either temporarily restricted or permanently restricted) shall be separately accounted for in order to maintain stewardship of these funds as donors direct. The segregation of these funds is to be performed by the accounting department, who shall report to donors on their disposition and use through the development office.

3. **Expenditure Controls.** The uses of gift revenue, especially restricted gifts shall be fully accounted for, beginning with their deposit to temporarily restricted fund accounts, stewardship, disposition reports, and with expenditures only as directed by the donor in keeping with the mission of the College and/or the Foundation.

4. **Allocation to Endowment.** Funds restricted to endowment or so restricted by the Foundation Board shall be invested and accounted for in accord with policies of the Finance and Investment Committee.

5. **Investment of Funds.** All gifts received shall be invested until used in accord with donor wishes, using short-term or long-term investment plans as defined by the Finance and Investment Committee. Funds restricted to endowment or so restricted by the Foundation Board shall be invested and accounted for as directed by the Finance and Investment Committee. Investment earnings shall be used only for the purposes board, with amounts as resolved by the Finance and Investment Committee.

6. **Accounting Reports.** Regular accounting reports will summarize the disposition of all money, illustrating their present disposition by source, purpose or use, and fundraising program, which shall be prepared for each Foundation Board meeting and distributed to the Board members.

Committee Descriptions
Committee or Task Force Descriptions

Executive Committee

The Executive Committee is chaired by the President of the Foundation Board.

The members of the Executive Committee shall be: The officers of the Board, the Immediate Past President, all chairs of approved committees or task forces and other members as designated.

Responsibilities include:

* making interim decisions for the Board (to be ratified by the full Board at its subsequent meeting);
* overseeing the long-range and strategic planning of the organization;
* serving as a sounding board for new programs or policies that should come before the full Board eventually;
* enforcing membership responsibilities, including attendance policies and committee appointments;
* monitoring progress of Board and staff in achieving the current year goals;
* scrutinizing budget performance;
* maintaining a close and candid relationship with the leadership of the College;
* following and evaluating the performance of the Foundation’s Executive Director;
* evaluating Board performance by recognizing superior results or levels of service and by arranging for the departure of unproductive Board members;
* acting on behalf of the Board in times of emergency or necessary expediency.

The actions of the Executive Committee are subject to revision or alteration by the Board. Minutes of Executive Committee meetings are sent to each Board member. Membership in the Executive Committee will not exceed a quorum of the full Board. A quorum at any meeting of the Executive Committee shall consist of a simple majority of the members.

Lewis-Clark State College Foundation
Other Committee or Task Force Descriptions

Finance and Investment Committee

The Finance and Investment Committee shall oversee the Foundation’s budget activities and expenses; monitor the flow of funds to determine consistency between expenditures and generated revenue; manage the investment portfolio; establish financial policies; oversee the buildings and grounds owned by the Foundation.
Scholarship Committee

The Scholarship Committee shall oversee the awarding of specific scholarships; establish scholarship policies and review the process; assist in the planning of three scholarship events annually.

Other Committees or Task Forces

The Directors may designate and appoint one or more standing committees or task forces, each of which shall consist of two (2) or more Directors. These committees, to the extent provided in such resolution, shall have and exercise the authority of the Directors in the management of the corporation.
EXHIBIT "L"

Endowment Fund Fee Policy

Notice of Endowment Fund Fee Policy
LCSC Foundation

Effective July 1, 2023, the LCSC Foundation Board will implement the following policy regarding administrative fees on all funds received.

2% Fee on Donations Received

In general, a 2% administrative fee will apply to all donations received by the Foundation to offset the costs of accounting, fundraising, and other administration costs. The fee will not apply to in-kind donations.

The 2% fee will apply at the time of the donation and will be a one-time fee. The 2% fee for gift annuities will apply at the end of the annuity when the funds become available to the Foundation.

½ of 1% (.5%) Annual Fee on Average Endowment Fund Balances

The .5% fee will be charged to Endowment Funds, Alumni Endowments, and Other Endowments. The .5% fee will not apply to the following fund classifications:

1. Gift annuities
2. General Unrestricted Funds
3. Annual Funds
4. Funds designated as Other Funds
5. LCSC Designated Funds

The .5% fee will be based on the average endowment fund balances and not on the amount of profit or loss earned or allocated for any time period. The fee will be calculated twice during each year using .25% times the fund market values at December 31 and June 30, and will be included with the December and June six months’ market allocation postings.

INSTITUTION/AGENCY

LEWIS-CLARK STATE COLLEGE

This Operating Agreement ("Operating Agreement") between Lewis-Clark State College Foundation, Inc. ("Foundation") and Institution/Agency ("Operating Agreement") Lewis-Clark State College ("College") is entered into as of this _____9th day of ______________, 20__, by and between Institution, herein known as “Institution/Agency” and the Foundation, Inc., herein known as “Foundation”. March, 2021.

WHEREAS, the Foundation was organized and incorporated in ____April 4, 1984 for the purpose of generating voluntary private support from _____, ______alumni, employees, friends, corporations, foundations, and others for the benefit of the Institution/Agency College.

WHEREAS, the Foundation exists to receive contributions, raise, and manage private resources supporting the mission and priorities of the Institution/Agency College, and provide opportunities for _____ (e.g. students) and employees and a degree of institutional excellence unavailable with state funding levels.

WHEREAS, the Foundation promotes access, excellence and relevance in higher education through financial support of the College. The Foundation is dedicated to assisting the Institution/Agency College in the building of the endowment to address, through financial support, the long-term academic and other priorities of the Institution/Agency College.

WHEREAS, as stated in its articles of incorporation, the Foundation is a separately incorporated 501(c)(3) organization and is responsible for identifying and nurturing relationships with potential donors and other friends of the Institution/Agency College, soliciting cash, securities, real and intellectual property, and other private resources for the support of the Institution/Agency College, and acknowledging and stewarding such gifts in accordance with donor intent and its fiduciary responsibilities.

WHEREAS, in connection with its fund-raising and asset-management activities, the Foundation utilizes, in accordance with this Operating Agreement, personnel experienced in planning for and managing private support.

WHEREAS, the mission of the Foundation is to secure, manage and distribute private contributions and support the growth and development of the Institution/Agency College.
WHEREAS, the Institution/AgencyCollege and Foundation desire to set forth in writing various aspects of their relationship with respect to matters such as the solicitation, receipt, management, transfer and expenditure of funds.

WHEREAS, the Parties hereby acknowledge that they will at all times conform to and abide by the Idaho State Board of Education’s Governing Policies and Procedures, Gifts and Affiliated Foundations Policy V.E., and that they will submit this Operating Agreement for initial State Board of Education (“State Board”) approval, and thereafter every three (3) years, or as otherwise requested by the State Board, for review and re-approval.

WHEREAS, the Foundation and the Institution/AgencyCollege intend for this Operating Agreement to be the written operating agreement required by State Board Policy V.E.2.b.

NOW THEREFORE, in consideration of the mutual commitments herein contained, and other good and valuable consideration, receipt of which is hereby acknowledged, the Parties agree as follows:

ARTICLE I
Foundation's Purposes

The Foundation is the primary affiliated foundation responsible for securing, managing and distributing private support for the Institution/AgencyCollege. Accordingly, to the extent consistent with the Foundation's Articles of Incorporation and Bylaws, and the State Board's Policies and Procedures, the Foundation shall: (1) solicit, receive and accept gifts, devises, bequests and other direct or indirect contributions of money and other property made for the benefit of the Institution/AgencyCollege from the general public (including individuals, corporations, other entities and other sources); (2) manage and invest the money and property it receives for the benefit of the Institution/AgencyCollege; and (3) support and assist the Institution/AgencyCollege in fundraising and donor relations.

In carrying out its purposes, the Foundation shall not engage in activities that: (1) conflict with federal or state laws, rules and regulations (including all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations); (2) cause the InstitutionCollege to be in violation of applicable polices of the State Board; or (3) conflict with the role and mission of the Institution/AgencyCollege.

ARTICLE II
Foundation's Organizational Documents

The Foundation shall provide copies of its current Articles of Incorporation and Bylaws to the Institution/AgencyCollege. The Foundation, to the extent practicable, also shall provide the Institution/AgencyCollege with an advance copy of any proposed amendments to the Foundation's
Articles of Incorporation and Bylaws. The Institution/Agency college shall provide all such documents to the State Board.

Institution/Agency
ARTICLE III

College Resources and Services

1. Institution/Agency College Employees.

a. Institution/Agency College/Foundation Liaison: The Institution/Agency's Vice President for Institution/Agency College's Director of College Advancement shall serve as the Institution/Agency's College's Liaison to the Foundation and as the Foundation Executive Director.

i. The Institution/Agency's Vice President for Institution/Agency College's Director of College Advancement shall be responsible for coordinating the Institution/Agency College's and the Foundation's fundraising efforts and for supervising and coordinating the administrative support provided by the Institution/Agency College to the Foundation.

ii. The Vice President for Institution/Agency College’s Director of College Advancement or designee shall attend each meeting of the Foundation’s Board of Directors and shall report on behalf of the Institution/Agency College to the Foundation's Board of Directors regarding the Institution/Agency College's coordination with the Foundation's fundraising efforts.

b. Managing Director: The Managing Director of the Foundation is an employee of the Institution/Agency loaned to the Foundation. All of the Managing Director's services shall be provided directly to the Foundation as follows:

i. The Managing Director of College Advancement shall be responsible for the supervision and control of the day-to-day operations of the Foundation. More specific duties of the Managing Director may be set forth in a written job description prepared by the Foundation and attached to the Loaned Employee Agreement described in paragraph (iii) below. The Managing Director shall be subject to the control and direction of the Foundation Director of College Advancement are set forth in the Service Agreement attached hereto as Exhibit “B” (“Service Agreement”).

ii. The Managing Director shall be entitled to Institution/Agency benefits to the same extent and on the same terms as other full-time Institution/Agency employees of the same classification as the Managing Director. The Foundation shall reimburse the
Institution/Agency for all costs incurred by the Institution/Agency in connection with the Institution/Agency's employment of the Managing Director including such expenses as salary, payroll taxes, and benefits.

iii. The Foundation and the Institution/Agency shall enter into a written agreement, in the form of Exhibit “A” hereto, establishing that the Managing Director is an employee of the Institution/Agency but subject to the direction and control of the Foundation (generally a "Loaned Employee Agreement"). The Loaned Employee Agreement shall also set forth the relative rights and responsibilities of the Foundation and the Institution/Agency with respect to the Managing Director, including the following:

1. The Foundation shall have the right to choose to terminate the Loaned Employee Agreement in accordance with Foundation Procedures and applicable law, such termination may include election by the Foundation for non-renewal of the Loaned Employee Agreement.

2. Termination of the Loaned Employee Agreement in accordance with the Foundation procedures and applicable law shall constitute grounds for a termination proceeding by the Institution/Agency or for non-renewal of any obligation of the Institution/Agency to employ the Loaned Employee, subject to applicable legal and procedural requirements of the State of Idaho and the Institution/Agency.

3. The Loaned Employee shall be subject to the supervision, direction and control of the Foundation Board of Directors and shall report directly to the Foundation president or designee.

e. Other Loaned Employees. Other loaned employees providing services pursuant to this Operating Agreement shall also serve pursuant to a Loaned Employee Agreement which shall set forth their particular responsibilities and duties.

d. Other Institution/Agency College Employees Holding Key Foundation or Administrative or Policy Positions: In the event the Institution/Agency College and the Foundation determine it is appropriate for one or more additional Institution/Agency College employees who function in a key administrative or policy making capacity for the Institution/Agency College (including, but not limited to, any Institution/Agency College Vice-President or equivalent position) to serve both the Institution/Agency College and the Foundation, then, pursuant to State Board Policy V.E., this Operating Agreement shall be amended to clearly set forth the authority and responsibilities of the position of any such Institution/Agency College employee.
e. **Limited Authority of Institution/AgencyCollege Employees.** Notwithstanding the foregoing provisions, no Institution/AgencyCollege employee who functions in a key administrative or policy making capacity for the Institution/AgencyCollege (including, but not limited to, any Institution/AgencyCollege Vice-President or equivalent position) shall be permitted to have responsibility or authority for Foundation policy making, financial oversight, spending authority, and investment decisions, or the supervision of Foundation employees.

2. **Support Services.** The Institution/AgencyCollege shall provide administrative, financial, accounting, investment, and development services to the Foundation, as set forth in the Service Agreement attached hereto as Exhibit "B" ("Service Agreement"). All Institution/AgencyCollege employees who provide support services to the Foundation shall remain Institution/AgencyCollege employees under the direction and control of the Institution/AgencyCollege, unless agreed that the direction and control of any such employee will be vested with the Foundation in a written Loaned Employee Agreement. The Foundation will pay directly to the Institution/AgencyCollege the portion of the overhead costs associated with the services provided to the Foundation pursuant to the Service Agreement. The portion of such costs shall be determined by the agreement of the Parties.

3. **Institution/AgencyCollege Facilities and Equipment.** The Institution/AgencyCollege shall provide the use of the Institution/AgencyCollege's office space and equipment to the Foundation upon the terms agreed to by the Institution/AgencyCollege and the Foundation. The terms of use (including amount of rent) of the Institution/AgencyCollege's office space and equipment shall be as set forth in the Service Agreement.

4. **No Foundation Payments to Institution/AgencyCollege Employees.** Notwithstanding any provision of this Operating Agreement to the contrary, the Foundation shall not make any payments directly to an Institution/AgencyCollege employee in connection with any resources or services provided to the Foundation pursuant to this Operating Agreement.

**ARTICLE IV**

**Management and Operation of Foundation**

The management and control of the Foundation shall rest with its Board of Directors.

1. **Gift Solicitation.**

*Authority of Vice President for Institution/AgencyCollege’s Director of College Advancement.* All Foundation gift solicitations shall be subject to the direction and control of the Vice President/Director for Institution/AgencyCollege Advancement.

a. **Form of Solicitation.** Any and all Foundation gift solicitations shall make clear to prospective donors that (1) the Foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the
Institution/AgencyCollege; and (2) responsibility for the governance of the Foundation, including the investment of gifts and endowments, resides in the Foundation's Board of Directors.

b.  *Foundation is Primary Donee.* Absent unique circumstances, prospective donors shall be requested to make gifts directly to the Foundation rather than to the Institution/AgencyCollege.

2. **Acceptance of Gifts.**

a.  *Approval Required Before Acceptance of Certain Gifts.* Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by the Institution/AgencyCollege, the Foundation shall obtain the prior written approval of the Institution/AgencyCollege. Similarly, the Foundation shall also obtain the prior written approval of the Institution/AgencyCollege of the acceptance of any gift or grant that would impose a binding financial or contractual obligation on the Institution/AgencyCollege.

b.  *Acceptance of Gifts of Real Property.* The Foundation shall conduct adequate due diligence on all gifts of real property that it receives. All gifts of real property intended to be held and used by the Institution/AgencyCollege shall be approved by the State Board before acceptance by the Institution/AgencyCollege and the Foundation. In cases where the real property is intended to be used by the Institution/AgencyCollege in connection with carrying out its proper functions, the real property may be conveyed directly to the Institution/AgencyCollege, in which case the Institution/AgencyCollege and not the Foundation shall be responsible for the due diligence obligations for such property.

c.  *Processing of Accepted Gifts.* All gifts received by the Institution/AgencyCollege or the Foundation shall be delivered (if cash) or reported (if any other type of property) to the Foundation's designated gift administration office (a unit of the Foundation) in accordance with the Service Agreement.

3. **Fund Transfers.** The Foundation agrees to transfer funds, both current gifts and income from endowments, to the Institution/AgencyCollege on a regular basis as agreed to by the Parties. The Foundation's Treasurer or other individual to whom such authority has been delegated by the Foundation's Board of Directors shall be responsible for transferring funds as authorized by the Foundation's Board of Directors.

a.  *Restricted Gift Transfers.* The Foundation shall inform the Institution/AgencyCollege officials into whose program or department funds are transferred of any restrictions on the use of such funds and provide such officials with access to any relevant documentation concerning such restrictions. Such Institution/AgencyCollege officials shall account for such restricted funds separate from other program and department funds in accordance with applicable Institution/AgencyCollege policies and shall notify the Foundation on a timely basis regarding the use/expenditure of such restricted funds.
b. **Unrestricted Gift Transfers.** The Foundation may utilize any unrestricted gifts it receives for any use consistent with the Foundation’s purposes as generally summarized in Article I of this Operating Agreement. If the Foundation elects to use unrestricted gifts to make grants to the Institution/Agency/College, such grants shall be made at such times and in such amounts as the Foundation's Board of Directors may determine in the Board's sole discretion.

4. **Foundation Expenditures and Financial Transactions.**

   a. **Signature Authority.** The Foundation designates the Foundation Treasurer, Board President and Vice President, or designee by the Foundation Board President, as the individual(s) with signature authority for the Foundation in all financial transactions. The Foundation may supplement or change this designation with written notice to the Institution/Agency/College; provided, however, in no event may the person(s) with Foundation signature authority for financial transactions be an Institution/Agency/College employee.

   b. **Expenditures.** All expenditures of the Foundation shall be (1) consistent with the charitable purposes of the Foundation, and (2) not violate restrictions imposed by the donor or the Foundation as to the use or purpose of the specific funds.

5. **Institution/Agency/College Report on Distributed Funds.** On a regular basis, which shall not be less than annually, the Institution/Agency/College shall report to the Foundation on the use of restricted and unrestricted funds transferred to the Institution/Agency/College. This report shall specify the restrictions on any restricted funds and. The Foundation shall approve expenditures prior to restricted fund transfers to the College and the Foundation will retain details of the uses of such funds.

6. **Transfer of Institution/Agency/College Assets to the Foundation.** No Institution/Agency/College funds, assets, or liabilities may be transferred directly or indirectly to the Foundation without the prior approval of the State Board except when:

   a. A donor inadvertently directs a contribution to the Institution/Agency/College that is intended for the Foundation in which case such funds may be transferred to the Foundation so long as the documents associated with the gift indicate the Foundation was the intended recipient of the gift. In the absence of any such indication of donor intent, such funds shall be deposited in an institutional account, and State Board approval will be required prior to the Institution/Agency/College's transfer of such funds to the Foundation.

   b. The Institution/Agency/College has gift funds that were originally transferred to the Institution/Agency/College from the Foundation and the Institution/Agency/College wishes to return a portion of those funds to the Foundation for reinvestment consistent with the original intent of the gift.
c. Transfers of a *de minimis* amount not to exceed $10,000 from the Institution/College to the Foundation provided such funds are for investment by the Foundation for scholarship or other general Institution/Agency support purposes. This exception shall not apply to payments by the Institution/College to the Foundation for obligations of the Institution/College to the Foundation, operating expenses of the Foundation or other costs of the Foundation.

d. The transfer is of funds raised by the Institution/College for scholarship or program support and the funds are deposited with the affiliated foundation for investment and distribution in accordance with the purpose for which the funds were raised.

7. **Separation of Funds.** All Foundation assets (including bank and investment accounts) shall be held in separate accounts in the name of the Foundation using Foundation's Federal Employer Identification Number bank accounts. The financial records of the Foundation shall be kept using a separate chart of accounts. For convenience purposes, some Foundation expenses may be paid through the Institution/Agency/College such as payroll and campus charges. These expenses will be paid through accounts clearly titled as belonging to the Foundation and shall be reimbursed by the Foundation on a regular basis.

8. **Insurance.** The Foundation shall maintain insurance to cover the operations and activities of its directors, officers and employees. The Foundation shall also maintain general liability coverage.

9. **Investment Policies.** All funds held by the Foundation, except those intended for short term expenditures, shall be invested in accordance with the Uniform Prudent Management of Institutional Funds Act, Idaho Code Sections 33-5001 to 33-5010, and the Foundation’s investment policy which is attached hereto as Exhibit "C"; provided, however, the Foundation shall not invest any funds in a manner that would violate the applicable terms of any restricted gifts. The Foundation shall provide to the Institution/Agency/College any updates to such investment policy which updates shall also be attached hereto as Exhibit "C".

10. **Organization Structure of the Foundation.** The organizational structure of the Foundation is set forth in the Foundation’s Articles of Incorporation and the Bylaws. The Foundation agrees to provide copies of such Articles and Bylaws as well as any subsequent amendments to such documents to both the Institution/Agency/College and the State Board. Any such amendments to the Articles and Bylaws shall be attached hereto as additions to Exhibit "D" and “E”, respectively.

**ARTICLE V**

**Foundation Relationships with the Institution/Agency/College**

At all times and for all purposes of this Operating Agreement, the Institution/College and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party, provided, however, the Institution/College and the Foundation acknowledge that the
AssociationFoundation carries out functions for the benefit of the InstitutionCollege. As such, the Parties shall share certain information as provided below.

1. **Access to Records.** Subject to recognized legal privileges and any third-party obligations of confidentiality and protection of proprietary information, each Party shall have the right to access the other Party’s financial, audit, donor and related books and records as needed to properly conduct its operations.

2. **Record Management.**
   a. The Parties recognize that the records of the Foundation relating to actual or potential donors contain confidential information. Such records shall be kept by the Foundation in such a manner as to protect donor confidentiality to the fullest extent allowed by law. Notwithstanding the access to records permitted above, access to such confidential information by the Institution/Agency’s President and any designee of the Institution/Agency’s President.
   b. The Foundation shall be responsible for maintaining all permanent records of the Foundation including but not limited to the Foundation's Articles, Bylaws and other governing documents, all necessary documents for compliance with IRS regulations, all gift instruments, and all other Foundation records as required by applicable laws.
   c. Although the Foundation is a private entity and is not subject to the Idaho Public Records Law, the Foundation, while protecting personal and private information related to private individuals, is encouraged, to the extent reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or similar non-personal and non-confidential financial or policy information.

3. **Name and Marks.** Consistent with its mission to help to advance the plans and objectives of the InstitutionCollege, the InstitutionCollege grants the AssociationFoundation the limited, non-exclusive right to use of the name Institution of the College, for use in its support of the InstitutionCollege. The AssociationFoundation shall operate under the Institution’s logotype in support of its organizational business and activities. Any use by the AssociationFoundation of the Institution’s logotypes or other trademarks must be with prior approval of the InstitutionCollege through the Office of Trademark Licensing Communications and Enforcement Marketing Department.

4. **Identification of Source.** The Foundation shall be clearly identified as the source of any correspondence, activities and advertisements emanating from the Foundation.

5. **Establishing the Foundation's Annual Budget.** The Foundation shall provide the Institution/AgencyCollege with the Foundation's proposed annual operating budget and capital expenditure plan (if any) prior to the date the Foundation's Board of Directors meeting at which the Foundation's Board will vote to accept such operating budget. Any of the
Institution/Agency's College's funding requests to the Foundation shall be communicated in writing to the Foundation's Treasurer, President and Assistant Treasurer, Executive Director by April/March 1 of each year, or in conjunction with the spring Finance and Investment Committee meeting.

6. Attendance of Institution/Agency's College's President at Foundation's Board of Director Meetings. The Institution/Agency's College's President shall be invited to attend all meetings of the Foundation's Board of Directors and may act in an advisory capacity in such meetings.

7. Supplemental Compensation of Institution/Agency College Employees. Any supplemental compensation of Institution/Agency College employees by the Foundation must be preapproved by the State Board. Any such supplemental payment or benefits must be paid by the Foundation to the Institution/Agency College, and the Institution/Agency College shall then pay compensation to the employee in accordance with the Institution/Agency College's normal practice. No Institution/Agency College employee shall receive any payments or other benefits directly from the Foundation. The Foundation Board of Directors may provide funds to the College annually for Faculty and Staff Achievement Awards, in an amount not to exceed $35,000. Such awards will be made primarily with funds donated to the Foundation for that purpose and any additional Foundation funds used will be approved by the Board of Directors in the Foundation's annual budget. The College identifies the faculty and staff who will be recipients of these awards and disburses the funds to the recipients.

ARTICLE VI
Audits and Reporting Requirements

1. Fiscal Year. The Foundation and the Institution/Agency College shall have the same fiscal year.

2. Annual Audit. On an annual basis, the Foundation shall have an audit conducted by a qualified, independent certified public accountant who is not a director or officer of the Foundation. The annual audit will be provided on a timely basis to the Institution/Agency College’s President and the State Board, in accordance with the State Board’s schedule for receipt of said annual audit. The Foundation’s annual statements will be presented in accordance with standards promulgated by the Financial Accounting Standards Board (FASB). The Foundation is a component unit of the Institution/Agency College as defined by the Government Accounting Standards Board (GASB). Accordingly, the Institution/Agency College is required to include the Foundation in its financial statements which follow a GASB format. Therefore, the Foundation will include in its audited financial statement, schedules reconciling the FASB Statements to GASB standards in the detail required by GASB Standards. The annual audited financial statements, including the auditor’s independent opinion regarding such financial statements, and schedules shall be submitted to the Institution/Agency College Controller’s Office of Finance and Administration in sufficient time to incorporate the same into the Institution/Agency College’s statements. All such reports and any accompanying documentation shall protect donor privacy to the extent allowable by law.
3. **Separate Audit Rights.** The [Institution/AgencyCollege](#) agrees that the Foundation, at its own expense, may at any time during normal business hours conduct or request additional audits or reviews of the [Institution/AgencyCollege's](#) books and records pertinent to the expenditure of donated funds. The Foundation agrees that the [Institution/AgencyCollege](#) and the State Board, at its own expense, may, at reasonable times, inspect and audit the Foundation's books and accounting records.

4. **Annual Reports to [Institution/AgencyCollege](#) President.** On a regular basis, which shall not be less than annually, the Foundation shall provide a written report to the [Institution/AgencyCollege](#) President setting forth the following items:

   a. the annual financial audit report;

   b. an annual report of Foundation transfers made to the [Institution/AgencyCollege](#), summarized by [Institution/AgencyCollege](#) department;

   c. an annual report of unrestricted funds received by the Foundation;

   d. an annual report of unrestricted funds available for use during the current fiscal year;

   e. a list of all of the Foundation's officers, directors, and employees;

   f. a list of [Institution/AgencyCollege](#) employees for whom the Foundation made payments to the [Institution/AgencyCollege](#) for supplemental compensation or any other approved purpose during the fiscal year, and the amount and nature of that payment;

   g. a list of all state and federal contracts and grants managed by the Foundation;

   h. an annual report of the Foundation's major activities;

   i. an annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding Foundation fiscal year for the benefit of the [Institution/AgencyCollege](#); and

   j. an annual report of (1) any actual litigation involving the Foundation during its fiscal year; (2) identification of legal counsel used by the Foundation for any purpose during such year; and (3) identification of any potential or threatened litigation involving the Foundation.

**ARTICLE VII**

*Conflict of Interest and Code of Ethics and Conduct*
1. **Conflicts of Interest Policy and Code of Ethics and Conduct.** The Foundation's Conflict of Interest Policy is attached as Exhibit “F”, and its Code of Ethical Conduct is set forth as Exhibit “G”.

2. **Dual Representation.** Under no circumstances may an Institution/Agency College employee represent both the Institution/Agency College and the Foundation in any negotiation, sign for both entities in transactions, or direct any other institution College employee under their immediate supervision to sign for the related Party in a transaction between the Institution/Agency College and the Foundation. This shall not prohibit Institution/Agency College employees from drafting transactional documents that are subsequently provided to the Foundation for its independent review, approval and use.

3. **Contractual Obligation of Institution/Agency College.** The Foundation shall not enter into any contract that would impose a financial or contractual obligation on the Institution/Agency College without first obtaining the prior written approval of the Institution/Agency College. Approval of any such contract shall comply with policies of the State Board with respect to State Board approval of Institution/Agency College contracts.

4. **Acquisition or Development or Real Estate.** The Foundation shall not acquire or develop real estate or otherwise build facilities for the Institution/Agency College's use without first obtaining approval of the State Board. In the event of a proposed purchase of real estate by the Foundation for the Institution/Agency College, the Institution/Agency College shall notify the State Board at the earliest possible date. Any such proposed purchase for the Institution/Agency College's use shall be a coordinated effort of the Institution/Agency College and the Foundation. Any notification to the State Board required pursuant to this paragraph may be made through the State Board's chief executive officer in executive session pursuant to the open meeting law, set forth in Idaho Code, Title 74, Chapter 2.

**ARTICLE VIII**

**General Terms**

1. **Effective Date.** This Operating Agreement shall be effective on the date set forth above.

2. **Right to Terminate.** This Operating Agreement shall terminate upon the mutual written agreement of both Parties. In addition, either Party may, upon 90 days prior written notice to the other, terminate this Operating Agreement, and either Party may terminate this Operating Agreement in the event the other Party defaults in the performance of its obligations and fails to cure the default within 30 days after receiving written notice from the non-defaulting Party specifying the nature of the default. Should the Institution/Agency College choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the Foundation that is not cured within the time frame set forth above, the Foundation may require the Institution/Agency College to pay, within 180 days of written notice, all debt incurred by the Institution/Agency College.
Foundation on the Institution/Agency’s behalf including, but not limited to, lease payments, advanced funds, and funds borrowed for specific initiatives. Should the Foundation choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the Institution/Agency that is not cured within the time frame set forth above, the Institution/Agency may require the Foundation to pay any debt it holds on behalf of the Foundation in like manner. The Parties agree that in the event this Operating Agreement shall terminate, they shall cooperate with one another in good faith to negotiate a new agreement within six (6) months. In the event negotiations fail, the Parties will initiate the dispute resolution mechanism described below (through reference to the Foundation ChairPresident and the State Board) to further attempt to negotiate a new agreement within the time period specified herein, they will refer the matter to the State Board for resolution. Termination of this Operating Agreement shall not constitute or cause dissolution of the Foundation.

3. **Dispute Resolution.** The Parties agree that in the event of any dispute arising from this Operating Agreement, they shall first attempt to resolve the dispute by working together with the appropriate staff members of each of the Parties. If the staff cannot resolve the dispute, then the dispute will be referred to the ChairPresident of the Board of the Foundation and the Institution/Agency President. If the Foundation Board ChairPresident and Institution/Agency President cannot resolve the dispute, then the dispute will be referred to the Foundation ChairPresident and the State Board for resolution. If they are unable to resolve the dispute, the Parties shall submit the dispute to mediation by an impartial third Party or professional mediator mutually acceptable to the Parties. If and only if all the above mandatory steps are followed in sequence and the dispute remains unresolved, then, in such case, either Party shall have the right to initiate litigation arising from this Operating Agreement. In the event of litigation, the prevailing Party shall be entitled, in addition to any other rights and remedies it may have, to reimbursement for its expenses, including court costs, attorney fees, and other professional expenses.

4. **Dissolution of Foundation.** Consistent with provisions appearing in the Foundation’s Bylaws and Articles of Incorporation, should the Foundation cease to exist or cease to be an Internal Revenue Code §501(c)(3) organization, the Foundation shall transfer to the State Board (or Institution/College, as applicable) the balance of all property and assets of the Foundation from any source, after the payment of all debts and obligations of the Foundation, and such property shall be vested in the State Board in trust for the use, continued support and benefit of the Institution/Agency.

5. **Board Approval of Operating Agreement.** Prior to the Parties’ execution of this Operating Agreement, an unexecuted copy of this Operating Agreement must be approved by the State Board. Furthermore, this Operating Agreement, including any subsequent modifications and restatements of this Operating Agreement, shall be submitted to the State Board for review and approval no less frequently than once every three (3) years or more frequently if otherwise requested by the State Board.
6. **Modification.** Any modification to the Operating Agreement or Exhibits hereto shall be in writing and signed by both Parties.

7. **Providing Document to and Obtaining Approval from the Institution/Agency-College.** Unless otherwise indicated herein, any time documents are to be provided to the Institution/Agency-College or any time the Institution/Agency's College's approval of any action is required, such documents shall be provided to, or such approval shall be obtained from, the Institution/Agency's College's President or an individual to whom such authority has been properly delegated by the Institution/Agency's College's President.

8. **Providing Documents to and Obtaining Approval from the Foundation.** Unless otherwise indicated herein, any time documents are to be provided to the Foundation or any time the Foundation's approval of any action is required, such document shall be provided to, or such approval shall be obtained from, the Foundation's Board of Directors or an individual to whom such authority has been properly delegated by the Foundation's Board of Directors.

9. **Notices.** Any notices required under this Operating Agreement may be mailed or delivered as follows:

   To the **Institution/Agency-College**:
   
   President
   Institution/Agency
   Street Address
   City, Lewis-Clark State and Zip College
   500 8th Avenue
   Lewiston, ID 83501

   To the **Foundations**:
   
   Managing Executive Director
   Lewis-Clark State College Foundation, Inc.
   Street Address
   City, State and Zip
   500 8th Avenue
   Lewiston, ID 83501

10. **No Joint Venture.** At all times and for all purposes of this Memorandum of Understanding, the Institution/Agency-College and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party.

11. **Liability.** The Institution/Agency-College and Foundation are independent entities and neither shall be liable for any of the other’s contracts, torts, or other acts or omissions, or those of the other’s trustees, directors, officers, members or employees.
12. **Indemnification.** To the extent allowed by law, the Institution/AgencyCollege and the Foundation each agree to indemnify, defend and hold the other Party, their officers, directors, agents and employees harmless from and against any and all losses, liabilities, and claims, including reasonable attorney’s fees arising out of or resulting from the willful act, fault, omission, or negligence of the Party, its employees, contractors, or agents in performing its obligations under this Operating Agreement. This indemnification shall include, but not be limited to, any and all claims arising from an employee of one Party who is working for the benefit of the other Party. Nothing in this Operating Agreement shall be construed to extend to the Institution/Agency’sCollege’s liability beyond the limits of the Idaho Tort Claims Act, Idaho Code §6-901 et seq.

13. **Assignment.** This Operating Agreement is not assignable by either Party, in whole or in part.

14. **Governing Law.** This Operating Agreement shall be governed by the laws of the State of Idaho.

15. **Severability.** If any provision of this Operating Agreement is held invalid or unenforceable to any extent, the remainder of this Operating Agreement is not affected thereby and that provision shall be enforced to the greatest extent permitted by law.

16. **Entire Agreement.** This Operating Agreement constitutes the entire agreement among the Parties pertaining to the subject matter hereof, and supersedes all prior agreements and understandings pertaining thereto.

17. **List of Attachments**

EXHIBIT "A"

Loaned Employee Agreement

Not applicable at this time
1. Staff
   a. The Director of College Advancement, an employee of the College, shall serve as Executive Director of the Foundation and shall supervise the College Advancement staff who are likewise employees of the College and who will provide administrative services to the Foundation. The College is responsible for the employment and compensation of College Advancement Staff providing services to the Foundation, including the Director of College Advancement in his or her capacity as Executive Director of the Foundation. Subject to approval by the President of the College, the Foundation may appoint an employee of the College to serve as Treasurer. The Treasurer shall provide and/or supervise the provision of financial and accounting services for the Foundation. While providing services to the Foundation, College employees are subject to the oversight and direction of the Board of Directors of the Foundation. Executive officers of the College (President and Vice Presidents) shall not serve as Foundation Board officers or staff members.

2. Additional services the College provides to the Foundation
   a. Access to the College's financial system to receive, disburse and account for funds of the Foundation. Except for funds transferred into Foundation's brokerage accounts, all funds received by the Foundation shall be deposited with the College and credited to one or more agency accounts established in the name of the Foundation within the College's financial system. In using the College's financial services, the Foundation shall comply with the College's financial and administrative policies and procedures.
   b. Accounting services, to include cash receipts and disbursements, accounts receivable and payable, bank reconciliation, reporting and analysis, and internal auditing.
   c. Investment, insurance, and similar services.
   d. Development services, including research, information systems, donor records, communications and special events.

3. Facilities, Furnishings and Office Equipment
   a. The business office of the Foundation shall be located in the College Advancement Office at 500 8th Avenue, Lewiston, Idaho. The College will provide office space to the Foundation including providing all maintenance and utilities, and local and long-distance telephone service for use in the business of the Foundation. The furnishings, computers, copiers and other items of office equipment used in the Foundation's office are owned by the College but shall be made available for use in the business of the Foundation. The cost of repairing, maintaining and replacing such furnishings and equipment shall be paid by the College.
4. Reimbursement
   a. Except as otherwise provided in the Agreement and Exhibit “L” (“Endowment Fund Fee Policy”), the Foundation shall have no obligation to reimburse the College for costs incurred by the College for personnel, use of facilities or equipment or for other services provided to the Foundation by the College. The Foundation established a fee as referenced in Exhibit L to assist with offsetting general operating costs such as accounting, fundraising, and other administration costs in support of the mission and vision of LC State. Neither the Foundation nor the College require the fee revenue to be transferred to the College though, as mutually agreed upon, all or part of the fee revenue may be transferred to offset the cost of services provided under this agreement. No payments shall be made directly from the Foundation to College employees in connection with resources or services provided to the Foundation under this Agreement.
EXHIBIT "C"

Investment Policy

PURPOSE
The purpose of this Investment Policy Statement (IPS) is to establish a clear understanding between the Lewis-Clark State College Foundation ("Foundation") and the Foundation's professional "Advisor" as to the investment objectives and policies applicable to the Foundation's investment portfolio. This Investment Policy Statement will:

• Establish reasonable expectations, objectives and guidelines in the investment of the portfolio's assets
• Set forth an investment structure detailing permitted asset classes and expected allocation among asset classes
• Encourage effective communication between the Advisor and the Foundation.
• Create the framework for a well-diversified asset mix that can be expected to generate acceptable long term returns at a level of risk suitable to the Foundation.

This IPS is not a contract. This IPS is intended to be a summary of an investment philosophy that provides guidance for the Advisor.

ADVISOR CONTRACT
The Advisor Contract will typically be awarded for an initial three (3) year period, beginning July 1, with an option for one additional three (3) year renewal. The decision to enter a new contract or engage in an RFP process or other process shall be at the sole discretion of the Foundation Board. The Board may, at its discretion, choose to forego an RFP process or other process in favor of entering into a new contract with the existing advisor. All fees shall be firm for the term of the contract and will be included in any contract agreement. A performance review will be conducted annually at the Fall meeting, by the Foundation Finance & Investment Committee, or by any of its designated subcommittees.

If, for any reason, the Foundation should wish to discontinue the professional’s services, the Foundation, with sixty (60) days’ written notice, may terminate the contract.

INVESTMENT OBJECTIVES
The primary investment objective for the Foundation's assets is to seek long term growth. However, the Foundation does intend to withdraw 4% annually to provide for required distribution. The cash flow intentions of the Foundation are detailed in the Foundation's Spending Policy.

TIME HORIZON
For the purposes of planning, the time horizon for investments is perpetuity. The Foundation recognizes that capital values fluctuate over shorter periods and the possibility of capital loss does exist. However, historical asset class return data suggest that the risk of principal loss over a holding period of at least ten years can be minimized with the long-term investment mix employed under this IPS.

RISK TOLERANCE
The Foundation is a moderate risk taker with regard to these investment assets. The portfolio will be managed in a manner that seeks to minimize principal fluctuations over the established horizon and is consistent with the stated objectives. Financial research has demonstrated that risk is best minimized through diversification of assets.

ASSET ALLOCATION
Academic research suggests that the decision to allocate total assets among various asset classes will far outweigh security selection and other decisions that impact portfolio performance. After reviewing the long-term performance and risk characteristics of various asset classes and balancing the risks and rewards of market behavior, the following asset classes were selected to achieve the objectives of the Foundation's Portfolio.
Table 1-1

<td>70%</td>
<td>60%-80%</td>
</tr>
<tr>
<td>TOTAL</td>
<td>100%</td>
<td>-</td>
</tr>
</tbody>
</table>

*International stocks not to exceed 10% of the total portfolio.

**Updated Allocations**
From time to time, it may be desirable to amend the basic allocation policy or calculations. When such changes are made, updates will be attached to this Investment Policy Statement as Appendix A and will be considered part of this Investment Policy Statement. The Advisor will provide to the Foundation the recommended or desired targeted allocation percentages. The recommendation will fall within the acceptable range as indicated in table 1-1.

**Portfolio Rebalancing**
From time to time, market conditions may cause the portfolio's investment in various asset classes to vary from the targeted allocation. To remain consistent with the asset allocation guidelines established by this IPS, each asset class in which the portfolio invests shall be reviewed annually by the Advisor and rebalanced back to the recommended weighting if the actual weighting varies by 3% or more from the recommended weighting (e.g., if the targeted allocation for a particular asset class is 10% and the actual is less than 7% or more than 13%, that asset class will be adjusted back to the targeted 10% allocation by either adding assets or distributing assets to or from the other asset classes.)

**DIVERSIFICATION**
Investment of the Foundation's funds shall be limited to the following categories:

Permitted Investment Categories
1. Cash and cash equivalents, including money market funds, or certificates of deposit
2. ETF or Index Funds
3. Stock or Bond Mutual Funds

Excluded Categories for Investment
1. Derivatives
2. Natural resources
3. Precious metals
4. Venture capital

Investment Concentration
At all times there must be a minimum of three investment categories represented among the Foundation's assets. There shall be no maximum limit to the number of categories. No individual security held shall represent more than 15% of the total portfolio.

**INVESTMENT MONITORING AND CONTROL PROCEDURES**
Reports
1. Advisor shall provide the Foundation with a monthly report that lists all assets held by the Foundation, values for each asset and all transactions affecting assets within the portfolio, including additions and withdraws.
2. Advisor shall provide the Foundation on a quarterly basis and within 30 days of the end of each calendar quarter, the following reports:
   a) Portfolio performance results over the last quarter, year, 3 years and 5 years
   b) Performance results of comparative benchmarks for the same periods; performance shall be reported on a time-weighted basis.
3. Advisor shall assist in the development of investment policies, objectives and guidelines.
4. Advisor shall prepare asset allocation analyses as necessary and recommend asset allocation strategies with respect to the Foundation’s objectives.
5. Advisor shall provide research on specific issues and opportunities and assist the Foundation Finance & Investment Committee in special tasks.
6. Advisor shall make tactical implementation decisions, including rebalancing, within the asset allocations ranges set by the Foundation and among investment managers with communication of such decisions and the rational at the next Foundation meeting. Such decisions will be tracked by the Advisor who will report the results of each of those decisions in its Investment Review provided to the Foundation for its quarterly meetings.
7. Advisor shall notify the Foundation Finance & Investment Committee of any significant changes in portfolio managers, personnel or ownership of any investment management firm hired by the Foundation.
8. Advisor shall, overall, be proactive with the Administration of the Foundation in the management of the Foundation’s investments.

Meeting
Advisor shall meet with the Foundation’s Finance and Investment Committee at least annually (or semi-annually if the Foundation chooses) in order to give a detailed report as to activity in the investment account, manager selection, tactical changes in the asset allocation weightings or other information the Foundation shall require.

Advisor shall also meet annually with the Foundation Board in January of each year to give a detailed report on the Foundation’s investments.

ADOPTION
Adopted and Revised by the Foundation on this 21st day of December, 2021. Effective July 1, 2022.
EXHIBIT "D"

Articles of Incorporation
WHEREAS, the members of Lewis-Clark State College Educational Assistance and Development Foundation, Inc., at a duly called meeting, after proper notice, adopted the following resolution amending and restating the Articles of Incorporation to change the name of the corporation and to conform those Articles to the provisions of the Idaho Non-Profit Corporations Act by the affirmative vote of all members present at such meeting, constituting a majority of the voting power of the members of the corporation entitled to vote, to wit:

BE IT RESOLVED that the Articles of Incorporation of Lewis-Clark State College Educational Assistance and Development Foundation, Inc., be, and the same are hereby, amended and restated in their entirety as follows:

AMENDED AND RESTATED ARTICLES

ARTICLE I
Preliminary Matters

1.01 Name. The name of this corporation is LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.

1.02 Nonprofit Status. This corporation is a nonprofit corporation.

1.03 Duration. The duration of this corporation shall be perpetual.

ARTICLE II
Purpose

2.01 Charitable Scope of Purposes. This corporation is organized and shall be operated exclusively for charitable, scientific, literary, and educational purposes, within the meaning of §501(c)(3) of the Internal Revenue Code of 1986, as amended, or corresponding provisions of any subsequent Federal tax laws (hereinafter called Internal Revenue Code”), and Treasury Regulations issued thereunder. This corporation shall serve the public interest, and no part of its assets or the income therefrom shall inure to the benefit of any private individual, except for payment of
reasonable compensation for services rendered to the corporation. No substantial part of the activities of this corporation shall directly or indirectly consist of attempting to influence legislation by propaganda or otherwise, and the corporation shall not directly or indirectly participate in, or intervene (including the publishing or distributing of statements), any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles of incorporation, this corporation shall not conduct or carry on any activities not permitted to be conducted or carried on (a) by a corporation exempt from federal tax under § 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or (b) by a corporation, contributions to which are deductible under § 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

2.02 Higher Education. In further limitation of the general charitable purposes set forth above, this corporation is organized and shall be operated for the purpose of advancing the goals of higher education. The goals of higher education shall be broadly construed to encompass the charitable, scientific, literary, artistic, educational, social and athletic objectives normally associated with nonsectarian institutions of higher education.

2.03 Lewis-Clark State College. The purposes of this corporation shall be accomplished primarily by encouraging, promoting, supporting, performing and carrying out the functions, programs, operations and purposes of Lewis-Clark State College, an institution of higher education and an agency of the State of Idaho with its principal campus located in Lewiston, Idaho, so long as it is an institution of higher education and an agency of the State of Idaho or an organization described in § 501(c)(3) of the Internal Revenue Code, contributions to which are deductible under § 170(c)(2) of the Internal Revenue Code. By way of illustration and not limitation, it shall be within the purposes of this corporation to:

a. **Funds.** Coordinate fund raising activities on behalf of Lewis-Clark State College and receive, hold, invest and administer donations of every kind on its behalf.

b. **Programs.** Promote, support, develop, perform, carry out and extend the educational undertakings of Lewis-Clark State College, and in furtherance thereof, to support and conduct any and all charitable, scientific, literary, artistic, educational, social and athletic activities relating thereto.
c. **Facilities.** Support, conduct and operate such activities as may be designed or intended to facilitate or enhance the educational, cultural, living and operational conditions at Lewis-Clark State College; to provide support for, maintain, enlarge, and extend the curricula, services, faculty, staff, and real or personal properties of Lewis-Clark State College.

d. **Financial Assistance.** To provide financial or other assistance to the students, faculty and staff of Lewis-Clark State College in their efforts to acquire new knowledge and to extend the educational endeavors of Lewis-Clark State College.

e. **Cooperation.** Promote cooperation, coordination with, and assistance to other charities in the area of Lewiston, Idaho, particularly schools and hospitals.

**ARTICLE III**

**Powers**

3.01 **Statutory Powers.** This corporation shall have all rights and powers now given to nonprofit corporations generally under the laws of the State of Idaho, including those powers now set forth in § 30-3-23 of the Idaho Code, and all further and broader rights and powers which may in the future be given to nonprofit corporations generally under any subsequent laws of this state. No subsequent repeal or amendment of any such laws shall diminish or restrict those corporation’s rights and powers.

3.02 **Activities.** In addition to raising funds and making grants, the corporation may, itself, actively conduct programs designed to accomplish the purposes set forth in Article II, above. Such activities may be engaged in for or on behalf of Lewis-Clark State College in order to assist it in performing its functions or carrying out its purposes.

3.03 **Limitations.** No part of the net earnings or assets of the corporation shall inure to the benefit of, or be distributable to, its members, directors, officers or other private persons, except that the corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article II hereof. No substantial part of the activities of the corporation shall be for the purpose of carrying on of propaganda, or otherwise attempting to influence legislation, and the corporation shall not participate in, or intervene in, (including the publishing and distribution of statements) any political campaign on behalf of any candidate for
public office. Notwithstanding any other provisions of these articles, the corporation
shall not carry on any other activities not permitted to be carried on (a) by a
corporation except from federal income tax under § 501(c)(3) of the Internal Revenue
Code or the corresponding section of any future federal tax code, or (b) by a
corporation, contributions to which are deductible under §170(c)(2) of the Internal
Revenue Code or the corresponding section of any future federal tax code.

ARTICLE IV
No Members

The corporation shall not have any members.

ARTICLE V
Board of Directors

The affairs of the corporation shall be managed by a Board of Directors. The number of
directors serving on the Board of Directors shall be fixed in accordance with the
corporation’s Bylaws. Other than the directors constituting the initial board of directors, who
are designated in these articles, the Directors shall be elected, appointed or designated in the
manner and for the term or terms provided in the Bylaws of the corporation.

The names and street addresses of the persons constituting the initial board of directors are:

ARTICLE VI  
Registered Agent  

6.01 Registered Office. The street address of the initial registered office of this corporation is the office of the Vice-President for Administrative Services, Lewis-Clark State College, Eighth Avenue and Sixth Street, Lewiston, ID 83501.  

6.02 Registered Agent. The name and initial registered agent of the corporation at such street address is Dean A. Froehlich.  

ARTICLE VII.  
Distribution on Dissolution  

Upon dissolution or winding up of the corporation, its assets remaining after payment, or provision for payment of all debts and liabilities of this corporation shall be to the Idaho State Board of Education, as the Board of Trustees of Lewis-Clark State College; provided, however, that if at such time Lewis-Clark State College or its successor in interest is not an agency of the State of Idaho or an exempt organization described in § 501(c)(3) of the Internal Revenue Code or has substantially failed or abandoned its operations or been
dissolved, then the remaining assets of the corporation shall be distributed to such other agencies of the State of Idaho or non-profit fund foundation or corporation involved in higher education which is organized and operated exclusively for charitable purposes and which has established its tax exempt status under § 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, as the Board of Directors may direct. Any such assets not distributed shall be distributed by the district court of the county in which the principal office of the corporation is then located, excluding for any purposes or to such organizations as the court shall determine to be consistent with the purposes of the corporation.

ARTICLE VIII.
Bylaws

Provisions for the regulation of the internal affairs of the corporation shall be set forth in the Bylaws. The Board of Directors of the corporation shall be authorized to amend the corporation’s Bylaws at a properly noticed special or regular meeting of the Board of Directors.

ARTICLE IX.
Amendment of Articles

This corporation reserves the right to amend, alter, change or repeal any provisions contained in these articles of incorporation in any manner now or hereafter prescribed or permitted by statute.

IN WITNESS WHEREOF, the duly undersigned officers have signed and attested these Articles of Amendment.

DATED this 20th day of ______ 2001.

ROBERT P. BROWN, Esquire, being over the age of twenty-one (21) years, for the purpose of forming a corporation under the provisions of the Idaho Nonprofit Corporation Act, Title 30, Chapter 3 of the Idaho Code, hereby adopts these articles of incorporation:

ARTICLE I
Preliminary Matters

1.01 Name. The name of this corporation is LEWIS-CLARK STATE COLLEGE EDUCATIONAL ASSISTANCE AND DEVELOPMENT FOUNDATION.

1.02 Nonprofit status. This corporation is a nonprofit corporation.

1.03 Duration. The duration of this corporation shall be perpetual.

ARTICLE II
Purposes

2.01 Charitable scope of purposes. This corporation is organized and shall be operated exclusively for charitable, scientific, literary, or educational purposes, within the meaning of §501(c)(3) of the Internal Revenue Code of 1954, as amended, or corresponding provisions of any subsequent Federal tax laws (hereinafter called Internal Revenue Code), and Treasury Regulations issued thereunder. This corporation shall serve the public interest, and no part of its assets or the income therefrom shall inure to the benefit of any private individual, except for payment of reasonable compensation for services rendered to the corporation. No substantial part of the activities of this corporation shall directly or indirectly consist of attempting to influence legislation by propaganda or otherwise, and the corporation shall not directly or indirectly participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles of incorporation, this corporation shall not conduct or carry on any activities not permitted to be conducted or carried on by an exempt organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code.
2.02 Higher education. In further limitation of the general charitable purposes set forth above, this corporation is organized and shall be operated for the purpose of advancing the goals of higher education. The goals of higher education shall be broadly construed to encompass the charitable, scientific, literary, artistic, educational, social and athletic objectives normally associated with nonsectarian institutions of higher education.

2.03 Lewis-Clark State College. The purposes of this corporation shall be accomplished primarily by encouraging, promoting, supporting, performing and carrying out the functions, programs, operations and purposes of Lewis-Clark State College, an institution of higher education and an agency of the State of Idaho with its principal campus located in Lewiston, Idaho, so long as it is an institution of higher education and an agency of the State of Idaho or an organization described in § 501(c)(3) of the Internal Revenue Code, contributions to which are deductible under § 170(c)(2) of the Internal Revenue Code. By way of illustration and not limitation, it shall be within the purposes of this corporation to:

a. Funds. Coordinate fund raising activities on behalf of Lewis-Clark State College and receive, hold, invest and administer donations of every kind on its behalf.

b. Programs. Promote, support, develop, perform, carry out and extend the educational undertakings of Lewis-Clark State College, and in furtherance thereof, to support and conduct any and all charitable, scientific, literary, artistic, educational, social and athletic activities relating thereto.

c. Facilities. Support, conduct and operate such activities as may be designed or intended to facilitate or enhance the educational, cultural, living and operational conditions at Lewis-Clark State College; to provide support for, maintain, enlarge, and extend the curricula, services, faculty, staff, and real or personal properties of Lewis-Clark State College.

d. Financial assistance. To provide financial or other assistance to the students, faculty and staff of Lewis-Clark State College in their efforts to acquire new knowledge and to extend the educational endeavors of Lewis-Clark State College.

e. Cooperation. Promote cooperation, coordination with, and assistance to other charities in the area of Lewiston, Idaho, particularly schools and hospitals.
ARTICLE III
Powers

3.01 Statutory powers. This corporation shall have all rights and powers now given to nonprofit corporations generally under the laws of the State of Idaho, including those powers now set forth in §30-307 of the Idaho Code, and all further and broader rights and powers which may in the future be given to nonprofit corporations generally under any subsequent laws of this state. No subsequent repeal or amendment of any such laws shall diminish or restrict this corporation’s rights and powers.

3.02 Activities. In addition to raising funds and making grants, the corporation may, itself, actively conduct programs designed to accomplish the purposes set forth in Article II, above. Such activities may be engaged in for or on behalf of Lewis-Clark State College in order to assist it in performing its functions or carrying out its purposes.

3.03 Limitations. No power or authority shall be exercised by this corporation in any manner or for any purpose which is not permitted for an exempt organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code.

ARTICLE IV
Members

4.01 Management authority. The management of the affairs of this corporation shall be vested in its members pursuant to Section 30-314(c) of the Idaho Code.

4.02 Apportionment of voting rights among classes. All voting rights shall be exercised by a single class of membership designated "trustee members", with each trustee member entitled to one (1) vote on each matter submitted to a vote at a meeting of such members. The bylaws of the corporation may provide for the designation of any one or more classes of nonvoting members. Except as set forth in these Articles of Incorporation, the designation, number, qualifications, terms of office, manner of selection, term and place of meetings, rights, powers, and duties of the members of each class shall be prescribed in the bylaws of the corporation.

4.03 Compensation. No member of the corporation shall receive any compensation for his or her services as a member of the corporation, but the corporation may pay reasonable compensation to any person, including a member of the corporation, for other services actually rendered to the corporation.
4.04 Notice of organization meeting. Actual personal notice of the organization meeting of the members of the corporation shall be sufficient notice pursuant to Section 30-324(b) of the Idaho Code.

ARTICLE V
Directors

There shall be no directors of the corporation, the management of the affairs of the corporation being vested in the trustee members pursuant to Section 30-314 of the Idaho Code.

ARTICLE VI
Principal Organizer

6.01 Name. The name of the principal organizer of this corporation is LEE A. VICKERS, who is over the age of twenty-one (21) years.

6.02 Address. The street address of the principal organizer is Office of the President, 8th Avenue and 6th Street, Lewiston, Idaho 83501.

ARTICLE VII
Registered Office and Registered Agent

7.01 Registered office. The street address of the initial registered office of this corporation is Office of the President, Lewis-Clark State College, 8th Avenue and 6th Street, Lewiston, Idaho 83501.

7.02 Registered agent. The name of the initial registered agent at such street address is LEE A. VICKERS.

ARTICLE VIII
Amendment of Articles

This corporation reserves the right to amend, alter, change or repeal any provisions contained in these articles of incorporation in any manner now or hereafter prescribed or permitted by statute.

ARTICLE IX
Dissolution

In the event of termination, dissolution or liquidation of this corporation, the net assets remaining after payment of all debts and obligations of the corporation shall be transferred and conveyed exclusively to Lewis-Clark State College or its successors-in-interest; provided, however, that if at such time Lewis-Clark State College or its successor-in-interest is not an agency of the State of Idaho or an exempt organization described in §501(c)(3) of the Internal Revenue Code, or has substantially failed or abandoned its operations or been dissolved, then the
remaining assets of this corporation shall be distributed to such other agencies of the State of Idaho and exempt organizations described in §501(c)(3) of the Internal Revenue Code involved in higher education as the board of directors may direct.

ARTICLE X
Incorporator

10.01 Name. The name of the incorporator of this corporation is ROBERT P. BROWN, Esquire, who is over the age of twenty-one (21) years.

10.02 Address. The street address of the incorporator is 13th and Idaho Streets, Lewiston, Idaho 83501.

IN WITNESS WHEREOF, the incorporator has signed these Articles of Incorporation in duplicate this 2nd day of April, 1984.

[Signature]
ROBERT P. BROWN, Incorporator

STATE OF IDAHO )
County of NEZ PERCE )

On this 2nd day of April, 1984, before me the undersigned, a notary public in and for the State of Idaho, personally appeared ROBERT P. BROWN, known to me to be the person whose name is subscribed to the within and foregoing instrument and acknowledged to me that he executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal the day and year first above written.

[Signature]

EXHIBIT "E"

Bylaws

AMENDED AND RESTATED BYLAWS
OF
LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.

ARTICLE I.
In General

1.01 Nature of Bylaws. The following paragraphs contain provisions for the regulation and management of LEWIS-CLARK STATE COLLEGE FOUNDATION, INC., a nonprofit corporation organized and operating under the laws of the State of Idaho.

1.02 Conflicts. In the event that there is a conflict between a provision of these Bylaws and a mandatory provision of the laws of the State of Idaho, or the Articles of Incorporation of the corporation, then the mandatory provision of the laws of the State of Idaho, or the Articles of Incorporation shall control.

ARTICLE II.
Principal Office

2.01 Principal Office. The principal office of the corporation in the State of Idaho shall be located at Lewis-Clark State College, 500 8th Avenue Lewiston, ID 83501. The corporation may have such other offices, either within or without the State of Idaho, as the Directors may designate from time to time.

ARTICLE III.
Non-Director Members

3.01 Foundation Members. In addition to the Directors as defined in Article IV below, the corporation may recognize a class of benefactors and supporters designated as “Foundation Members”, which class may be further subdivided into any number of subclasses as may be determined by the Directors.

3.02 No Management Authority or Voting Rights. Foundation Members, as described in 3.01 above, shall have no authority to manage the affairs of the corporation, and shall not be entitled to vote on any matter relating to the corporation. Foundation Members shall have the right to attend and participate in meetings of the Directors.

3.03 Rights and Privileges. Except as may be otherwise provided in these Bylaws or the Articles of Incorporation, Foundation Members shall have such recognition, rights, privileges as may be determined by the Board of Directors. Foundation Members are invited to attend meetings of the Board of Directors.

3.04 Selection. Individuals or organizations who are interested in the objectives and purposes of the corporation may be admitted as Foundation Members by majority vote of the Directors upon meeting such qualifications as may be determined by the Directors.

3.05 Designated Members. The following individuals shall serve as Designated Members by virtue of their offices, to serve for the term of their respective offices. Designated Members do not have voting rights.

a. The President of Lewis-Clark State College.
b. The Provost and Vice President for Academic Affairs of Lewis-Clark State College.
c. The Vice President for Finance and Administration of Lewis-Clark State College.
d. The Foundation Treasurer as appointed by Lewis-Clark State College with the consent of the Foundation.
e. The Faculty Senate Chair Elect of the Lewis-Clark State College Faculty Association.
f. The Lewis-Clark State College Alumni Association Board Representative.
g. The Vice President of Student Affairs of Lewis-Clark State College.

3.06 Membership Roster and Certificates. The corporation shall maintain a roster of Foundation Members, and may issue certificates, cards, or other evidence of association.

3.07 Personal Status of Association. Association as a Foundation Member shall be personal to the associate admitted, and shall not survive the death of any individual associate nor be transferred by any means whatsoever.

3.08 Resignation. A Foundation Member may resign at any time by written notice to the corporation.

3.09 Removal. Association as a Foundation Member may be reviewed for any action which is detrimental to the best interests of the corporation, or for failure to actively support corporate purposes, or to actively participate in corporate activities. Removal shall require the affirmative vote of a majority of the Directors.

ARTICLE IV.
Directors

4.01 General Powers. All corporate powers shall be exercised by or under the authority of the Board of Directors. The business and affairs of the corporation shall also be managed under the direction of the Board of Directors, except as otherwise provided in the Idaho Non-Profit Corporation Act or the Articles of Incorporation.

4.02 Presumption of Assent. A Director of the corporation who is present at a meeting of its Board of Directors at which any action on any corporate matter is taken shall be presumed to have assented to the action unless such Director’s dissent shall be entered in the minutes of the meeting or unless such Director shall file such Director’s written dissent to such action with the secretary of the meeting before the adjournment thereof or shall forward such dissent by certified or registered mail to the secretary of the corporation within three days after the adjournment of the meeting. Such right of dissent shall not apply to a Director who voted in favor of such action.

4.03 Qualification. Directors need not be officers of the corporation nor residents of the State of Idaho.

4.04 Elected Directors. The corporation shall have such Directors as may be elected by majority vote of the Directors, as then constituted, at the annual meeting of Directors. The number of such elected Directors serving at any time shall, in no event, exceed thirty (30). Each Director, including the Director whose terms are expiring, shall have the right to vote for as many persons as there are Directors to be elected, but no Director shall be entitled to cumulate his or her votes.

4.05 Terms of Elected Directors. The terms of the Elected Directors pursuant to Article 4.04 shall serve for a period of three (3) years until the annual meeting in the year in which their respective terms expire and until their successors are duly appointed or elected and qualified.

4.06 Resignation. Any Director may resign at any time giving written notice to the corporation. Any such resignation shall take effect at the time specified therein, or if the time be not specified, upon its acceptance by the corporation.

4.07 Removal. An elected or appointed Director may be removed from office prior to expiration of the term of office by the vote of at least two-thirds (2/3) of the Directors other than the Director voted upon, at any regular or special meeting of Directors. Unexcused absences from two (2) consecutive meetings of the Directors shall be cause for consideration of removal of a Director. The Designated Director is not subject to removal.
4.08 Vacancies. A vacancy among the Directors shall be deemed to exist upon death, resignation or removal of a Director. The vacancy of a Director shall be filled by his or her successor in office at the time the office is assumed. The vacancy of a Designated Director shall be filled by appointment of the Executive Committee. A Director appointed or elected to fill a vacancy shall serve the unexpired term of his predecessor in office.

4.09 Place of Meetings. All meetings of the Directors shall be held at the principal office of the corporation or at such other place, either within or without the State of Idaho, as the Directors may, from time to time, direct.

4.10 Organization of Meeting. The president of the corporation shall act as chairman of meetings of Directors. In the absence of the president, the next Officer shall act as chairman: vice president, then secretary, respectively.

4.11 Annual Meetings. The annual meetings of the Directors shall be held in the spring each year. In the event that such annual meeting is omitted by oversight or otherwise, it may be held at a subsequent special meeting called in accordance with the provisions of these Bylaws and the laws of the State of Idaho, and any business transacted or elections held at such meetings shall be valid as if transacted or held at the annual meeting.

4.12 Special Meetings. A special meeting of the Directors may be called at any time by the president, and shall be called by the president upon the written request of a majority of the Directors.

4.13 Notice of Meetings. Written notice of each meeting of Directors stating the place, day or hour of the meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called, shall be delivered not less than two (2) days before the date of the meeting. Exceptions may occur with extenuating circumstances. If mailed, such notice shall be deemed to be delivered three (3) days after they are deposited in the United States Mail addressed to the Director at his or her address as it appears on the records of the corporation, with postage paid thereon.

Attendance of a Director at a meeting shall constitute a waiver of notice of such meeting, except where a Director attends a meeting for the express purpose of objecting to the transaction of any business on the grounds that the meeting is not lawfully called or convened. The Directors may waive notice of any meeting, and written waiver of notice executed either before or after the meeting shall be sufficient.

Any adjournment or adjournments of an annual or special meeting to another time and place may be held without new notice being given.

4.14 Quorum. A simple majority (defined as 51% or more) of the voting Directors shall constitute a quorum for the transaction of business. The act of a majority (defined as 51% or more) of the Directors present at a meeting at which a quorum is present shall be the act of the Directors.

Foundation Members and Designated Members shall not be considered to constitute a quorum and do not have voting rights.

If, at any meeting of the Directors, there shall be less than a quorum present, those present may adjourn the meeting without notice other than by announcement at the meeting. If, subsequently additional directors arrive and a quorum is present, such meeting can be re-convened and any business may be transacted which might have been transacted at the meeting as originally notified.

4.15 Action Without a Meeting. Any action required to be taken at a meeting of the Board of Directors, or any action that may be taken at a meeting of the Directors or of a committee, may be taken without a meeting if a consent in writing, setting forth the actions so taken, shall be signed by a simple majority of the Directors, or by a simple majority of the members of the committee, as the case may be. Such consent shall have the same effect as a unanimous vote.
4.16 **Powers and Duties.** The Directors shall establish policies and have the general management, control and direction of all the business and affairs of the corporation and of all its undertakings to the fullest extent permitted by law. In addition to all powers granted by law, Directors shall have power and authority:

a. To call meetings of the Directors whenever deemed proper or necessary.

b. To elect officers of the corporation, to appoint such employees or agents as they deem necessary or proper, to confer upon any officer the power to appoint, remove and suspend officers, employees and agents, and to similarly remove any officer, employee or agent with or without cause.

c. To determine the policies of the corporation and to make such rules and regulations as may be deemed necessary or proper for the government and guidance of the officers, employees and Directors of the corporation, not inconsistent with the laws of the State of Idaho, the Articles of Incorporation, these Bylaws or the Operating Agreement.

d. To oversee the security and safekeeping of endowment funds to insure that the same are invested in accordance with the Uniform Prudent Management of Institutional Funds Act as adopted by the State of Idaho and in a manner consistent with the objectives of the corporation. These duties include cooperation with any investment committee or external investment advisors that may be designated by the Directors.

e. To purchase or otherwise acquire, and to sell, convey, and otherwise dispose of assets on behalf of the corporation at such prices and upon which terms as the Directors may deem appropriate.

f. To approve payment for such property, rights or privileges, in whole or in part, with money or other securities of the corporation, or by delivery of other property of the corporation.

g. To approve an action to borrow money and incur indebtedness; to create, make and issue mortgages, deeds of trust, trust and annuity agreements and negotiable or transferable instruments and securities; to do every other act necessary to effectuate the same.

h. To hold, operate, leave, invest, reinvest and otherwise manage real and personal property of every kind and description.

i. To fix the compensation, fringe benefits and emoluments of officers and other employees in accordance with noted Article VI.

j. To select one or more financial institutions to act as depositor of the funds of the corporation and to determine the manner of receiving, depositing and disbursing the funds of the corporation.

k. To determine by whom and in what manner the corporation bills, notes, receipts, acceptances, endorsements, checks, releases, contracts or other documents shall be signed, and to confer and delegate such power.

l. To do everything necessary or proper for the carrying out of the objects and purposes of the corporation as set forth in the Articles of Incorporation.

Notwithstanding the general delegation of authority granted, the Directors shall support and assist the College in fundraising and donor relations. In carrying out its purposes the Foundation Directors shall not engage in activities that conflict with federal or state laws, rules and regulations (including but not limited to all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations), applicable policies of the Idaho State Board of Education or the role and mission of the College.

4.17 **Executive Committee.** There shall be an executive Committee which shall have and may exercise all of the authority of the Directors other than in reference to amendment of the Articles of Incorporation, adoption of a plan of merger or consolidation of the corporation, the sale, lease, exchange or other disposition of all or substantially all the assets of the corporation otherwise than in the usual and regular course of its activities, a voluntary dissolution of the corporation or a revocation thereof, or amendment of the Bylaws of the corporation. The members of this committee shall be: The officers of the Board, the Immediate Past President, all chairs of approved committees or task forces and other members as designated.

All action of the executive committee shall be reported to the Directors at its next meeting succeeding such action, and shall be subject to revision or alteration by the Directors, provided that no rights or acts of third parties shall be affected by any such revision or alteration.

A quorum at any meeting of the executive committee shall consist of a simple majority of the Executive Committee Members.
4.18 Scholarship Committee. The Directors may designate two or more members as a scholarship committee. These committees, to the extent provided in the resolution below, shall have and exercise the authority of the Directors in the management of the corporation.

To promote the Foundation Scholars Program:

a. Establish and maintain scholarship criteria and policies including approval/disapproval of any exceptions to policy.
b. Select scholarship recipients on an annual basis.
c. Provide to the Finance & Investment Committee any information that could impact the amount of the annual scholarship award and/or the number of new scholarships to be given.
d. Provide support, encouragement and develop rapport with individual Foundation Scholars through attendance at social functions such as the orientation at the beginning of the academic year, a winter holiday party, a reception at the LCSC President’s home, and/or through a graduation recognition event.
e. Maintain long-term contact with Foundation Scholars, at the minimum annually, in recognition that these scholars are the future ambassadors for the Foundation.

To meet as often as required to review other scholarship applications as requested and select recipients in accordance with established individual scholarship criteria.

To participate in the annual Scholarship Luncheon to honor LCSC Foundation and Alumni Association scholarship recipients and donors.

4.19 Finance & Investment Committee. The Directors may designate two or more members as the Finance & Investment Committee. These committees, to the extent provided in the resolution below, shall have and exercise the authority of the Directors in the management of the corporation.

Finance & Investment Committee of the Foundation shall have the following responsibilities:

a. Oversight of endowment investments. Allocate investments among asset classes according to the investment policy statement. Review the performance of investment portfolio and advisor at least annually.
b. Approve annual distribution of endowments according to the foundation spending policy. For underwater endowments determine if distribution will be paid. If underwater endowment distributions are made, determine the source of funding, including General Unrestricted Funds, Bryden Canyon Quasi-Endowment or other funding sources.
c. Select the number of Foundation scholar scholarships awarded to freshman each year. For scholarships awarded in excess of funds available in the Foundation Scholars Program, determine if distribution will be paid from General Unrestricted Funds, Bryden Canyon Quasi-Endowment or other funding sources.
d. Review financial reports and examine fund balances. Develop the annual operating budget two months before the start of each fiscal year.
e. Approve charitable gift annuities established with gifts of more than $100,000 per beneficiary. For annuities established with gifts of more than $200,000 per beneficiary, submit recommendation for full board approval.
f. Approve acceptance of gifts of assets other than cash. For noncash gifts in excess of $200,000, submit recommendation for full board approval. Acceptance of marketable securities does not require approval by the committee. Marketable securities will be liquidated immediately upon receipt.

4.20 Other Committees or Task Forces. The Directors may designate and appoint one or more standing committees or task forces, each of which shall consist of two (2) or more Directors. These committees, to the extent provided in such resolution, shall have and exercise the authority of the Directors in the management of the corporation.
ARTICLE V.
Officers

5.01 Qualification. An Officer must be a Director of the corporation with the exception of the Treasurer, who may be a Designated Member as described in Section 3.05.

5.02 Offices. The offices of the corporation shall consist of president, vice president, secretary, and treasurer and such other offices as the Directors may choose to appoint.

5.03 Election. The officers of the corporation, with the exception of the Treasurer, shall be elected by the Directors at the organizational meeting of Directors and at such annual meeting of Directors thereafter. Officers shall be elected or appointed for a term extending for two years until the next annual meeting of the Directors and shall serve until their successors shall have been duly elected and qualified.

5.04 Duties of President. The president shall be the chief executive officer of the corporation and shall attend and preside at all meetings of the Directors and any executive committee of the Directors. The president shall have responsibility for the planning and implementation of the corporation’s activities and the appointment of employees of the corporation, subject to the advisement and approval of the Directors. The president or vice-president, unless some other person is specifically authorized by vote of the Directors, shall sign all bonds, deeds, mortgages, contracts and other documents of the corporation. The president shall perform all the duties commonly incident to such office and shall perform such other duties as the Directors shall designate.

5.05 Duties of a Vice President. The vice president shall perform the duties and have the powers of the president during his or her absence or disability. A vice president shall perform such other duties and have such others powers as the Directors may designate.

5.06 Duties of the Secretary. The secretary shall ensure accurate minutes of all meetings of the foundation members and the Directors are maintained. The secretary shall attend to the giving and serving of all notices of the corporation, shall have custody of all the original records, papers, files and books of the corporation (except books of accounts and valuable papers properly in the custody of the treasurer); shall attest all instruments in writing executed in the name of the corporation and requiring his or her signature; and shall, in general, perform all the duties incident to the office of secretary and such other duties as the Directors shall designate. In the absence of the secretary, an assistant secretary or a secretary pro tempore shall perform such duties.

5.07 Duties of Treasurer. The treasurer, subject to the order of the Directors, shall have the care and custody of the funds and valuable papers of the corporation in such bank or banks as the Directors shall designate. The treasurer shall have and exercise, under the supervision of the Directors, all the powers and duties commonly incident to such office and give bond in such form and with such sureties as may be required by the Directors. The treasurer shall keep accurate books of account of the corporation’s transactions, which shall be the property of the corporation, and, together with all its property in his or her possession, shall be subject at all times to the inspection and control of the Directors.

5.08 Duties of Executive Director. The executive director shall be given the necessary authority and responsibility to operate the affairs of the corporation and all its activities subject to such policies as may be adopted and such orders as may be issued by the Directors or by any committee or task force to whom they have delegated power for such action. He or she shall act as the duly authorized representative of the Directors in all matters in which the Directors have not formally designated some other person to act.

The authorities and duties of the executive director shall include the responsibility for:

a. Carrying out all policies established by the Directors.

b. Developing and submitting to the Directors for approval of plans and strategies for the corporation’s affairs, including public relations, soliciting donations, and other matters intended to carry out the objectives of the corporation.
c. Preparing an annual budget showing the expected receipts and expenditures as required by the Directors.
d. Selecting and managing staff and developing and maintaining personnel policies and practices.
e. Presenting to the Directors, or their authorized committee, periodic reports reflecting the operating and financial activities of the corporation and the preparation and submission of such special reports as may be required by the Directors.
f. Attending all meetings of the Directors and committees.
g. Performing such other duties as may be necessary and in the best interest of the corporation.

5.09 **Other Officers.** The duties of the additional officers, other than as defined in the Bylaws of the corporation, shall be prescribed and defined by the Directors.

5.10 **Authority to Sign Checks.** All checks, drafts or other orders for payment of money, note or other evidence of indebtedness issued in the name of the Corporation, shall be signed by such officer or officers, agent or agents of the Corporation as provided in these Bylaws or in such manner as shall be determined by the Board of Directors.

5.11 **Resignation.** Any officer may resign at any time by giving written notice to the corporation, to the Directors, to the president, or to the secretary of the corporation. Any such resignation shall take effect at the time specified therein, or if the time be not specified, upon its acceptance.

5.12 **Removal.** Any officer or agent may be removed at any time by action of the Directors.

5.13 **Vacancies.** Any vacancy among the officers of the corporation shall be selected by the executive committee subject to the authority of the Directors to approve, disapprove or fill the vacancy themselves.

**ARTICLE VI. Compensation and Indemnification**

6.01 **Compensation of Directors.** Directors shall not be compensated.

6.02 **Compensation of Officers.** The president, vice president, secretary and treasurer shall receive no compensation.

6.03 **Repayment.** Any payments made to an employee of the corporation for compensation, salary, bonus, interest, rent or expense incurred by him or her, which shall be determined to be unreasonable in whole or in part by the Internal Revenue Service pursuant to Section 4941(d) (2) (E) of the Internal Revenue Code shall be reimbursed by such employee to the corporation to the full extent of such determination of unreasonableness. It shall be the duty of the Directors to enforce repayment of each such amount. In lieu of repayment by the employee, subject to the determination of the Directors, amounts may be withheld from the employee’s future compensation or expense reimbursement payments until the amount owed to the corporation shall have been recovered.

6.04 **Indemnification.** Any person who serves on behalf of the Foundation as a director, employee, chairperson or member of any committee, or as a director, trustee or officer of another corporation, shall be deemed to be the Foundation’s agent for purposes of this Article and shall be indemnified by the Foundation against expenses (including attorney’s fees), judgments, fines, excise taxes and amounts paid in settlement actually an reasonably incurred by such person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or a derivative action, by reason of such service, provided such person acted in good faith and in a manner that he or she reasonably believe to be in the best interest of the foundation and, with respect to any criminal action proceeding, had no reasonable cause to believe his or her conduct was unlawful.
ARTICLE VII.
Gifts to Corporation

7.01 In General. Donors may make gifts to the corporation by naming or otherwise identifying the corporation. Gifts shall vest in the corporation upon receipt and acceptance by it, whether signified by a Director, officer, employee or agent of the corporation.

7.02 Acceptance of Governing Documents. Each donor, by making a gift to the corporation, accepts and agrees to all of the provisions of the Articles of Incorporation and these Bylaws.

ARTICLE VIII.
Miscellaneous

8.01 Books and Records. The corporation shall keep accurate and complete books and records of account and shall keep minutes of the proceedings of its Directors and committees having any authority of the Directors. All books and records of the corporation may be inspected by any Director for any proper purpose at any reasonable time.

8.02 Parliamentary Procedure. Parliamentary Procedure shall be the code that governs the procedures of the Foundation Board of Directors’ meetings.

8.03 Corporate Seal. There shall be no seal of the corporation, and all contracts and other papers of the corporation shall be authenticated without any corporate seal.

8.04 Waiver of Notice. Whenever any notice whatsoever is required to be given by these Bylaws, or the Articles of Incorporation, or any of the nonprofit corporation laws of the State of Idaho, a waiver thereof in writing, signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be equivalent to the giving of such notice for all purposes.

8.05 Contracts and Conveyances. All contracts, deeds, conveyances, negotiable instruments and other instruments of like character which have first been approved by the Directors shall be signed by the president or vice president and the secretary or an assistant secretary, or otherwise as directed by the Directors. No contract of any officer of the corporation shall be valid without previous authorization or subsequent ratification of the Directors.

8.06 Fiscal Year. The Foundation shall operate on a fiscal year beginning July 1st and ending June 30th.

8.07 Dissolution. The corporation exists for the sole purpose of providing support to Lewis-Clark State College (the “College”). Given the significant administrative contribution provided to the corporation by the College, in the event that the corporation ceases to provide such support, the corporation may be dissolved and all assets and records will be distributed exclusively to the College or its successor in interest pursuant to the Articles of Incorporation.

8.08 Amendment. These bylaws may be altered, amended or repealed at any regular or special meeting of the Directors, provided a quorum is present and provided further that notice of the substance of the proposed amendment shall be submitted to each Director within the same time and in the same manner prescribed for notice of the meeting.

CERTIFICATION

We, the undersigned President, Vice President and Secretary of the Lewis-Clark State College Foundation, Inc. an Idaho Corporation, do hereby certify that the foregoing Bylaws supersede all prior Bylaws, amended or restated, were duly adopted as the restated Bylaws of said corporation at a duly constituted meeting of the members.
of the corporation at which a quorum was present, in person or by proxy, said meeting, held March 17, 2015, and
that the same do now constitute the Bylaws of said corporation.
EXHIBIT "F"

Conflict of Interest Policy

Lewis-Clark State College Foundation
CONFLICTS OF INTEREST POLICY

No board member shall use his or her position, or the knowledge gained therefrom, in such a manner that conflict between the interest of the organization or any of its affiliates and his or her personal interests arises.

Each board member has a duty to place the interest of the organization foremost in any dealings with the organization and has a continuing responsibility to comply with the requirements of this policy.

Board or committee members may not obtain for themselves, their relatives, or their friends a material interest of any kind from their association with the organization.

It is, nevertheless, recognized that transactions between Lewis-Clark State College Foundation (“Foundation”) and a business or other organization with whom a board member is affiliated may be beneficial to the Foundation and that the Foundation should not be precluded from entering into that beneficial transaction so long as the board member does not participate in or otherwise influence the Foundation’s decision regarding the transaction.

It shall be the policy of the Foundation to require that all new Board members, prior to assuming their positions, and all present Board members, as soon as practicable after the adoption of this policy, submit in writing to the President a list of all businesses or other organizations (other than the Foundation) of which he or she is an officer, member, owner (either as a sole practitioner or partner), shareholder with a five percent (5%) or greater interest in all outstanding voting shares, employee or agent, with which the Foundation has, or may reasonably in the future have, a relationship or transaction in which the Board member or officer would have conflicting interests. Each written statement shall be resubmitted each year with any necessary changes.

The President shall become familiar with the statements of all Board members and officers in order to guide their conduct should a conflict arise. The Vice-President shall be familiar with the statement filed by the President.

At such time as any matter comes before the Board in such a way as to give rise to conflict of interest, the affected Board member or officer shall make known the potential conflict, whether disclosed by written statement or not. After answering any questions that might be asked, the affected Board member shall withdraw from the meeting until the matter has been voted upon. In the event that the affected Board member or officer fails to withdraw voluntarily, the President is empowered to require withdrawal from the room during both discussion and vote on the matter. In the event the conflict of interest affects the President, the Vice-President is empowered to require that the President withdraw in the same manner, and for the duration of discussion and action on the matter the Vice-President shall preside.

If the matter about which a conflict has arisen is the item of business for which a special meeting of the Board was called, the affected member may be counted to establish a quorum, but shall not participate in the discussion or vote on it.

ADOPTED, this 15th day of December, 1998.

________________________________________
Code of Ethical Conduct

Directors and Officers of the LC State Foundation represent Lewis-Clark State College and its Foundation, and have a responsibility to conduct themselves in such a manner as to give a positive impression of Lewis-Clark State College to the public, students, and alumni. Directors and Officers of the LC State Foundation pledge to accept the following ethical guidelines:

1. Accountability: Faithfully abide by the Articles of Incorporation, Bylaws and policies of the LC state Foundation, and exercise reasonable care, faith and due diligence in organizational affairs.

2. Professional Excellence: Maintain a professional level of courtesy, respect and objectivity in all Foundation activities.

3. Professional Gain: Exercise the powers invested for the good of all members of the organization rather than his/her personal benefit. Transactions involving the Foundation and the personal or business affairs of a trustee, director, officer, or staff member should be approved in advance by the Foundation’s governing board. In addition, directors, officers, and staff members of a foundation disqualify themselves from making, participating, or influencing a decision in which they have or would have a financial interest.

4. Confidential Information: Respect the confidentiality of sensitive information known due to service.

5. Collaboration and Cooperation: Respect the diversity of opinions as expressed or acted upon by the Foundation board, committees and membership, and promote collaboration, cooperation and partnership among Foundation Members.

6. Gifts: No director, trustee, officer, or staff member of a foundation shall accept from any source any material gift or gratuity in excess of fifty dollars ($50.00) that is offered, or reasonably appears to be offered, because of the position held with the foundation; nor should an offer of a prohibited gift or gratuity be extended by such an individual on a similar basis.

Gift Acceptance Policy

Lewis-Clark State College Foundation
Gift Acceptance Policy
(Article VII of the Bylaws)

Gifts to Corporation:

In General

Donors may make gifts to the corporation by naming or otherwise identifying the corporation. Gifts shall vest in the corporation upon receipt and acceptance by it, whether signified by a Director, officer, employee or agent of the corporation.

Acceptance of Governing Documents

Each donor, by making a gift to the corporation, accepts and agrees to all the provisions of the Articles of Incorporation and (the) Bylaws.

Split Interest Gifts

The corporation shall have the power and authority to arrange and administer deferred and other split-interest gifts, including, but not limited to, charitable lead and remainder unitrusts and annuity trusts, and charitable gift annuities, but only as permitted by the laws of the State of Idaho. If a gift is made to the corporation or a third party (in trust or otherwise) to make income or other payments for a period of a life or lives or other periods to any individuals or for noncharitable purposes, followed by payments to the corporation, or to make income or other payments to the corporation, followed by payments to any individuals or for noncharitable purposes, only the payments to the corporation shall be regarded as subject to the corporation’s Articles of Incorporation and (the) Bylaws and then only when the corporation becomes entitled to their use. The Directors may take such actions as it, from time to time, deems necessary to protect the corporation’s rights to receive such payments.

Restricted Gifts, Acceptance

Any donor may, with respect to a gift made by such donor to the corporation, provide at the time of the gifts restrictions or conditions which are not inconsistent with the charitable purposes of the corporation, as to (i) the manner of distribution, including amounts, times and conditions of payment and whether from principal or income, and (ii) the name, as a memorial or otherwise, for a fund given, or addition to a fund previously held, or anonymity for the gift. Restrictions involving the naming of a fund as a memorial or otherwise may be satisfied by keeping such name appropriate accounts reflecting the interest of such funds in a common investment. Nothing in the foregoing shall obligate the corporation to accept any gift or to perform any act, which, in the opinion of the Directors, will not be in the best interests of the corporation or which may jeopardize or cause it to lose its status as an exempt organization described in Section 501 (c) (3) of the Internal Revenue Code.

Policy for Accounting for Gift Revenue

Lewis-Clark State College Foundation
Policy for Accounting of Gift Revenue

1. **Fiduciary Responsibility.** Each gift, regardless of value, form, or designated use, shall be accounted for at the time of receipt until used as directed by the donors in support of the mission of the Foundation and/or the College. During such time as funds are retained, they shall be invested in accordance with procedures of the Finance and Investment Committee. The development office shall be responsible for any reports to donors on the use of their funds, to be accomplished in concert with operating managers and the accounting department.

2. **Allocation to Restricted Funds.** Gifts received for restricted purposes (either temporarily restricted or permanently restricted) shall be separately accounted for in order to maintain stewardship of these funds as donors direct. The segregation of these funds is to be performed by the accounting department, who shall report to donors on their disposition and use through the development office.

3. **Expenditure Controls.** The uses of gift revenue, especially restricted gifts shall be fully accounted for, beginning with their deposit to temporarily restricted fund accounts, stewardship, disposition reports, and with expenditures only as directed by the donor in keeping with the mission of the College and/or the Foundation.

4. **Allocation to Endowment.** Funds restricted to endowment or so restricted by the Foundation Board shall be invested and accounted for in accord with policies of the Finance and Investment Committee.

5. **Investment of Funds.** All gifts received shall be invested until used in accord with donor wishes, using short-term or long-term investment plans as defined by the Finance and Investment Committee. Funds restricted to endowment or so restricted by the Foundation Board shall be invested and accounted for as directed by the Finance and Investment Committee. Investment earnings shall be used only for the purposes board, with amounts as resolved by the Finance and Investment Committee.

6. **Accounting Reports.** Regular accounting reports will summarize the disposition of all money, illustrating their present disposition by source, purpose or use, and fundraising program, which shall be prepared for each Foundation Board meeting and distributed to the Board members.

Committee Descriptions

Committee or Task Force Descriptions

Executive Committee

The Executive Committee is chaired by the President of the Foundation Board.

The members of the Executive Committee shall be: The officers of the Board, the Immediate Past President, all chairs of approved committees or task forces and other members as designated.

Responsibilities include:

* making interim decisions for the Board (to be ratified by the full Board at its subsequent meeting);
* overseeing the long-range and strategic planning of the organization;
* serving as a sounding board for new programs or policies that should come before the full Board eventually;
* enforcing membership responsibilities, including attendance policies and committee appointments;
* monitoring progress of Board and staff in achieving the current year goals;
* scrutinizing budget performance;
* maintaining a close and candid relationship with the leadership of the College;
* following and evaluating the performance of the Foundation’s Executive Director;
* evaluating Board performance by recognizing superior results or levels of service and by arranging for the departure of unproductive Board members;
* acting on behalf of the Board in times of emergency or necessary expediency.

The actions of the Executive Committee are subject to revision or alteration by the Board. Minutes of Executive Committee meetings are sent to each Board member. Membership in the Executive Committee will not exceed a quorum of the full Board. A quorum at any meeting of the Executive Committee shall consist of a simple majority of the members.

Lewis-Clark State College Foundation

Other Committee or Task Force Descriptions

Finance and Investment Committee

The Finance and Investment Committee shall oversee the Foundation’s budget activities and expenses; monitor the flow of funds to determine consistency between expenditures and generated revenue; manage the investment portfolio; establish financial policies; oversee the buildings and grounds owned by the Foundation.
Scholarship Committee

The Scholarship Committee shall oversee the awarding of specific scholarships; establish scholarship policies and review the process; assist in the planning of three scholarship events annually.

Other Committees or Task Forces

The Directors may designate and appoint one or more standing committees or task forces, each of which shall consist of two (2) or more Directors. These committees, to the extent provided in such resolution, shall have and exercise the authority of the Directors in the management of the corporation.
EXHIBIT "L"

Endowment Fund Fee Policy

Notice of Endowment Fund Fee Policy

LCSC Foundation

Effective July 1, 2023, the LCSC Foundation Board will implement the following policy regarding administrative fees on all funds received.

2% Fee on Donations Received

In general, a 2% administrative fee will apply to all donations received by the Foundation to offset the costs of accounting, fundraising, and other administration costs. The fee will not apply to in-kind donations.

The 2% fee will apply at the time of the donation and will be a one-time fee. The 2% fee for gift annuities will apply at the end of the annuity when the funds become available to the Foundation.

½ of 1% (.5%) Annual Fee on Average Endowment Fund Balances

The .5% fee will be charged to Endowment Funds, Alumni Endowments, and Other Endowments. The .5% fee will not apply to the following fund classifications:

1. Gift annuities
2. General Unrestricted Funds
3. Annual Funds
4. Funds designated as Other Funds
5. LCSC Designated Funds

The .5% fee will be based on the average endowment fund balances and not on the amount of profit or loss earned or allocated for any time period. The fee will be calculated twice during each year using .25% times the fund market values at December 31 and June 30, and will be included with the December and June six months’ market allocation postings.
OPERATING AGREEMENT
BETWEEN
LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.
AND
LEWIS-CLARK STATE COLLEGE

This Operating Agreement ("Operating Agreement") between Lewis-Clark State College Foundation, Inc. ("Foundation") and Lewis-Clark State College ("College") is entered into as of this 9th day of March, 2021.

WHEREAS, the Foundation was organized and incorporated April 4, 1984 for the purpose of generating voluntary private support from alumni, employees, friends, corporations, foundations, and others for the benefit of the College.

WHEREAS, the Foundation exists to receive contributions, raise, and manage private resources supporting the mission and priorities of the College, and provide opportunities for students and employees and a degree of institutional excellence unavailable with state funding levels.

WHEREAS, the Foundation promotes access, excellence and relevance in higher education through financial support of the College. The Foundation is dedicated to assisting the College in the building of the endowment to address, through financial support, the long-term academic and other priorities of the College.

WHEREAS, as stated in its articles of incorporation, the Foundation is a separately incorporated 501(c)(3) organization and is responsible for identifying and nurturing relationships with potential donors and other friends of the College, soliciting cash, securities, real and intellectual property, and other private resources for the support of the College, and acknowledging and stewarding such gifts in accordance with donor intent and its fiduciary responsibilities.

WHEREAS, in connection with its fund-raising and asset-management activities, the Foundation utilizes, in accordance with this Operating Agreement, personnel experienced in planning for and managing private support.

WHEREAS, the mission of the Foundation is to secure, manage and distribute private contributions and support the growth and development of the College.

WHEREAS, the College and Foundation desire to set forth in writing various aspects of their relationship with respect to matters such as the solicitation, receipt, management, transfer and expenditure of funds.
WHEREAS, the Parties hereby acknowledge that they will at all times conform to and abide by the Idaho State Board of Education’s Governing Policies and Procedures, Gifts and Affiliated Foundations Policy V.E., and that they will submit this Operating Agreement for initial State Board of Education (“State Board”) approval, and thereafter every three (3) years, or as otherwise requested by the State Board, for review and re-approval.

WHEREAS, the Foundation and the College intend for this Operating Agreement to be the written operating agreement required by State Board Policy V.E.2.b.

NOW THEREFORE, in consideration of the mutual commitments herein contained, and other good and valuable consideration, receipt of which is hereby acknowledged, the Parties agree as follows:

ARTICLE I
Foundation’s Purposes

The Foundation is the primary affiliated foundation responsible for securing, managing and distributing private support for the College. Accordingly, to the extent consistent with the Foundation's Articles of Incorporation and Bylaws, and the State Board's Policies and Procedures, the Foundation shall: (1) solicit, receive and accept gifts, devises, bequests and other direct or indirect contributions of money and other property made for the benefit of the College from the general public (including individuals, corporations, other entities and other sources); (2) manage and invest the money and property it receives for the benefit of the College; and (3) support and assist the College in fundraising and donor relations.

In carrying out its purposes, the Foundation shall not engage in activities that: (1) conflict with federal or state laws, rules and regulations (including all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations); (2) cause the College to be in violation of applicable polices of the State Board; or (3) conflict with the role and mission of the College.

ARTICLE II
Foundation's Organizational Documents

The Foundation shall provide copies of its current Articles of Incorporation and Bylaws to the College. The Foundation, to the extent practicable, also shall provide the College with an advance copy of any proposed amendments to the Foundation's Articles of Incorporation and Bylaws. The College shall provide all such documents to the State Board.
ARTICLE III
College Resources and Services

1. College Employees.

a. College/Foundation Liaison: The College's Director of College Advancement shall serve as the College’s Liaison to the Foundation and as the Foundation Executive Director.

i. The College's Director of College Advancement shall be responsible for coordinating the College's and the Foundation's fundraising efforts and for supervising and coordinating the administrative support provided by the College to the Foundation.

ii. The College’s Director of College Advancement or designee shall attend each meeting of the Foundation’s Board of Directors and shall report on behalf of the College to the Foundation's Board of Directors regarding the College's coordination with the Foundation's fundraising efforts.

iii. The College’s Director of College Advancement shall be responsible for the supervision and control of the day-to-day operations of the Foundation. More specific duties of the Director of College Advancement are set forth in the Service Agreement attached hereto as Exhibit “B” (“Service Agreement”).

d. Other College Employees Holding Key Foundation or Administrative or Policy Positions: In the event the College and the Foundation determine it is appropriate for one or more additional College employees who function in a key administrative or policy making capacity for the College (including, but not limited to, any College Vice-President or equivalent position) to serve both the College and the Foundation, then, pursuant to State Board Policy V.E., this Operating Agreement shall be amended to clearly set forth the authority and responsibilities of the position of any such College employee.

e. Limited Authority of College Employees. Notwithstanding the foregoing provisions, no College employee who functions in a key administrative or policy making capacity for the College (including, but not limited to, any College Vice-President or equivalent position) shall be permitted to have responsibility or authority for Foundation policy making, financial oversight, spending authority, and investment decisions.

2. Support Services. The College shall provide administrative, financial, accounting, investment, and development services to the Foundation, as set forth in the Service Agreement attached hereto as Exhibit "B" ("Service Agreement"). All College employees who provide support services to the Foundation shall remain College employees under the direction and control
of the College, unless agreed that the direction and control of any such employee will be vested with the Foundation in a written Loaned Employee Agreement. The Foundation will pay directly to the College the portion of the overhead costs associated with the services provided to the Foundation pursuant to the Service Agreement. The portion of such costs shall be determined by the agreement of the Parties.

3. **College Facilities and Equipment.** The College shall provide the use of the College's office space and equipment to the Foundation upon the terms agreed to by the College and the Foundation. The terms of use (including amount of rent) of the College's office space and equipment shall be as set forth in the Service Agreement.

4. **No Foundation Payments to College Employees.** Notwithstanding any provision of this Operating Agreement to the contrary, the Foundation shall not make any payments directly to a College employee in connection with any resources or services provided to the Foundation pursuant to this Operating Agreement.

**ARTICLE IV**  
**Management and Operation of Foundation**

The management and control of the Foundation shall rest with its Board of Directors.

1. **Gift Solicitation.**

   *Authority of College's Director of College Advancement.* All Foundation gift solicitations shall be subject to the direction and control of the Director for College Advancement.

   a. **Form of Solicitation.** Any and all Foundation gift solicitations shall make clear to prospective donors that (1) the Foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the College; and (2) responsibility for the governance of the Foundation, including the investment of gifts and endowments, resides in the Foundation's Board of Directors.

   b. **Foundation is Primary Donee.** Absent unique circumstances, prospective donors shall be requested to make gifts directly to the Foundation rather than to the College.

2. **Acceptance of Gifts.**

   a. **Approval Required Before Acceptance of Certain Gifts.** Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by the College, the Foundation shall obtain the prior written approval of the College. Similarly, the Foundation shall also obtain the prior written approval of the College of the acceptance of any gift or grant that would impose a binding financial or contractual obligation on the College.
b. **Acceptance of Gifts of Real Property.** The Foundation shall conduct adequate due diligence on all gifts of real property that it receives. All gifts of real property intended to be held and used by the College shall be approved by the State Board before acceptance by the College and the Foundation. In cases where the real property is intended to be used by the College in connection with carrying out its proper functions, the real property may be conveyed directly to the College, in which case the College and not the Foundation shall be responsible for the due diligence obligations for such property.

c. **Processing of Accepted Gifts.** All gifts received by the College or the Foundation shall be delivered (if cash) or reported (if any other type of property) to the Foundation's designated gift administration office (a unit of the Foundation) in accordance with the Service Agreement.

3. **Fund Transfers.** The Foundation agrees to transfer funds, both current gifts and income from endowments to the College on a regular basis as agreed to by the Parties. The Foundation's Treasurer or other individual to whom such authority has been delegated by the Foundation's Board of Directors shall be responsible for transferring funds as authorized by the Foundation's Board of Directors.

   a. **Restricted Gift Transfers.** The Foundation shall inform the College officials into whose program or department funds are transferred of any restrictions on the use of such funds and provide such officials with access to any relevant documentation concerning such restrictions. Such College officials shall account for such restricted funds separate from other program and department funds in accordance with applicable College policies and shall notify the Foundation on a timely basis regarding the expenditure of such restricted funds.

   b. **Unrestricted Gift Transfers.** The Foundation may utilize any unrestricted gifts it receives for any use consistent with the Foundation’s purposes as generally summarized in Article I of this Operating Agreement. If the Foundation elects to use unrestricted gifts to make grants to the College, such grants shall be made at such times and in such amounts as the Foundation's Board of Directors may determine in the Board's sole discretion.

4. **Foundation Expenditures and Financial Transactions.**

   a. **Signature Authority.** The Foundation designates the Foundation Board President and Vice President, or designee by the Foundation Board President, as the individual(s) with signature authority for the Foundation in all financial transactions. The Foundation may supplement or change this designation with written notice to the College; provided, however, in no event may the person(s) with Foundation signature authority for financial transactions be a College employee.

   b. **Expenditures.** All expenditures of the Foundation shall be (1) consistent with the charitable purposes of the Foundation, and (2) not violate restrictions imposed by the donor or the Foundation as to the use or purpose of the specific funds.
5. **College Report on Distributed Funds.** On a regular basis, which shall not be less than annually, the College shall report to the Foundation on the use of restricted and unrestricted funds transferred to the College. This report shall specify the restrictions on any restricted funds. The Foundation shall approve expenditures prior to restricted fund transfers to the College and the Foundation will retain details of the uses of such funds.

6. **Transfer of College Assets to the Foundation.** No College funds, assets, or liabilities may be transferred directly or indirectly to the Foundation without the prior approval of the State Board except when:

   a. A donor inadvertently directs a contribution to the College that is intended for the Foundation in which case such funds may be transferred to the Foundation so long as the documents associated with the gift indicate the Foundation was the intended recipient of the gift. In the absence of any such indication of donor intent, such funds shall be deposited in an institutional account, and State Board approval will be required prior to the College's transfer of such funds to the Foundation.

   b. The College has gift funds that were originally transferred to the College from the Foundation and the College wishes to return a portion of those funds to the Foundation for reinvestment consistent with the original intent of the gift.

   c. Transfers of a *de minimis* amount not to exceed $10,000 from the College to the Foundation provided such funds are for investment by the Foundation for scholarship or other general College support purposes. This exception shall not apply to payments by the College to the Foundation for obligations of the College to the Foundation, operating expenses of the Foundation or other costs of the Foundation.

   d. The transfer is of funds raised by the College for scholarship or program support and the funds are deposited with the affiliated foundation for investment and distribution in accordance with the purpose for which the funds were raised.

7. **Separation of Funds.** All Foundation assets (including bank and investment accounts) shall be held in separate bank accounts. The financial records of the Foundation shall be kept using a separate chart of accounts. For convenience purposes, some Foundation expenses may be paid through the College such as payroll and campus charges. These expenses will be paid through accounts clearly titled as belonging to the Foundation and shall be reimbursed by the Foundation on a regular basis.

8. **Insurance.** The Foundation shall maintain insurance to cover the operations and activities of its directors, officers and employees. The Foundation shall also maintain general liability coverage.
9. **Investment Policies.** All funds held by the Foundation, except those intended for short term expenditures, shall be invested in accordance with the Uniform Prudent Management of Institutional Funds Act, Idaho Code Sections 33-5001 to 33-5010, and the Foundation’s investment policy which is attached hereto as Exhibit "C"; provided, however, the Foundation shall not invest any funds in a manner that would violate the applicable terms of any restricted gifts. The Foundation shall provide to the College any updates to such investment policy which updates shall also be attached hereto as Exhibit "C".

10. **Organization Structure of the Foundation.** The organizational structure of the Foundation is set forth in the Foundation's Articles of Incorporation and the Bylaws. The Foundation agrees to provide copies of such Articles and Bylaws as well as any subsequent amendments to such documents to both the College and the State Board. Any such amendments to the Articles and Bylaws shall be attached hereto as additions to Exhibit "D" and “E”, respectively.

**ARTICLE V**

**Foundation Relationships with the College**

At all times and for all purposes of this Operating Agreement, the College and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party, provided, however, the College and the Foundation acknowledge that the Foundation carries out functions for the benefit of the College. As such, the Parties shall share certain information as provided below.

1. **Access to Records.** Subject to recognized legal privileges and any third-party obligations of confidentiality and protection of proprietary information, each Party shall have the right to access the other Party’s financial, audit, donor and related books and records as needed to properly conduct its operations.

2. **Record Management.**

   a. The Parties recognize that the records of the Foundation relating to actual or potential donors contain confidential information. Such records shall be kept by the Foundation in such a manner as to protect donor confidentiality to the fullest extent allowed by law. Notwithstanding the access to records permitted above, access to such confidential information by the College shall be limited to the College's President and any designee of the College's President.

   b. The Foundation shall be responsible for maintaining all permanent records of the Foundation including but not limited to the Foundation's Articles, Bylaws and other governing documents, all necessary documents for compliance with IRS regulations, all gift instruments, and all other Foundation records as required by applicable laws.

   c. Although the Foundation is a private entity and is not subject to the Idaho Public Records Law, the Foundation, while protecting personal and private information related to
private individuals, is encouraged, to the extent reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or similar non-personal and non-confidential financial or policy information.

3. **Name and Marks.** Consistent with its mission to help to advance the plans and objectives of the College, the College grants the Foundation the limited, non-exclusive right to use the name of the College, for use in its support of the College. The Foundation shall operate under the College’s logotype in support of its organizational business and activities. Any use by the Foundation of the College’s logotypes or other trademarks must be with prior approval of the College through the Communications and Marketing Department.

4. **Identification of Source.** The Foundation shall be clearly identified as the source of any correspondence, activities and advertisements emanating from the Foundation.

5. **Establishing the Foundation's Annual Budget.** The Foundation shall provide the College with the Foundation's proposed annual operating budget and capital expenditure plan (if any) prior to the date the Foundation's Board of Directors meeting at which the Foundation's Board will vote to accept such operating budget. Any of the College's funding requests to the Foundation shall be communicated in writing to the Foundation's President and Executive Director by March 1 of each year, or in conjunction with the spring Finance and Investment Committee meeting.

6. **Attendance of College's President at Foundation's Board of Director Meetings.** The College's President shall be invited to attend all meetings of the Foundation's Board of Directors and may act in an advisory capacity in such meetings.

7. **Supplemental Compensation of College Employees.** Any supplemental compensation of College employees by the Foundation must be preapproved by the State Board. Any such supplemental payment or benefits must be paid by the Foundation to the College, and the College shall then pay compensation to the employee in accordance with the College's normal practice. No College employee shall receive any payments or other benefits directly from the Foundation. The Foundation Board of Directors may provide funds to the College annually for Faculty and Staff Achievement Awards, in an amount not to exceed $35,000. Such awards will be made primarily with funds donated to the Foundation for that purpose and any additional Foundation funds used will be approved by the Board of Directors in the Foundation’s annual budget. The College identifies the faculty and staff who will be recipients of these awards and disburses the funds to the recipients.

**ARTICLE VI**

**Audits and Reporting Requirements**

1. **Fiscal Year.** The Foundation and the College shall have the same fiscal year.

2. **Annual Audit.** On an annual basis, the Foundation shall have an audit conducted by a qualified, independent certified public accountant who is not a director or officer of the
Foundation. The annual audit will be provided on a timely basis to the College’s President and the State Board, in accordance with the State Board’s schedule for receipt of said annual audit. The Foundation’s annual statements will be presented in accordance with standards promulgated by the Financial Accounting Standards Board (FASB). The Foundation is a component unit of the College as defined by the Government Accounting Standards Board (GASB). Accordingly, the College is required to include the Foundation in its financial statements which follow a GASB format. Therefore, the Foundation will include in its audited financial statement, schedules reconciling the FASB Statements to GASB standards in the detail required by GASB Standards. The annual audited financial statements, including the auditor’s independent opinion regarding such financial statements, and schedules shall be submitted to the College Controller’s Office in sufficient time to incorporate the same into the College’s statements. All such reports and any accompanying documentation shall protect donor privacy to the extent allowable by law.

3. ** Separate Audit Rights.** The College agrees that the Foundation, at its own expense, may at any time during normal business hours conduct or request additional audits or reviews of the College’s books and records pertinent to the expenditure of donated funds. The Foundation agrees that the College and the State Board, at its own expense, may, at reasonable times, inspect and audit the Foundation's books and accounting records.

4. ** Annual Reports to College President.** On a regular basis, which shall not be less than annually, the Foundation shall provide a written report to the College President setting forth the following items:

   a. the annual financial audit report;
   b. an annual report of Foundation transfers made to the College, summarized by College department;
   c. an annual report of unrestricted funds received by the Foundation;
   d. an annual report of unrestricted funds available for use during the current fiscal year;
   e. a list of all of the Foundation's officers, directors, and employees;
   f. a list of College employees for whom the Foundation made payments to the College for supplemental compensation or any other approved purpose during the fiscal year, and the amount and nature of that payment;
   g. a list of all state and federal contracts and grants managed by the Foundation;
   h. an annual report of the Foundation's major activities;
i. an annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding Foundation fiscal year for the benefit of the College; and

j. an annual report of (1) any actual litigation involving the Foundation during its fiscal year; (2) identification of legal counsel used by the Foundation for any purpose during such year; and (3) identification of any potential or threatened litigation involving the Foundation.

ARTICLE VII
Conflict of Interest and Code of Ethics and Conduct

1. Conflicts of Interest Policy and Code of Ethics and Conduct. The Foundation's Conflict of Interest Policy is attached as Exhibit “F”, and its Code of Ethical Conduct is set forth as Exhibit “G”.

2. Dual Representation. Under no circumstances may a College employee represent both the College and the Foundation in any negotiation, sign for both entities in transactions, or direct any other College employee under their immediate supervision to sign for the related Party in a transaction between the College and the Foundation. This shall not prohibit College employees from drafting transactional documents that are subsequently provided to the Foundation for its independent review, approval and use.

3. Contractual Obligation of College. The Foundation shall not enter into any contract that would impose a financial or contractual obligation on the College without first obtaining the prior written approval of the College. College approval of any such contract shall comply with policies of the State Board with respect to State Board approval of College contracts.

4. Acquisition or Development or Real Estate. The Foundation shall not acquire or develop real estate or otherwise build facilities for the College's use without first obtaining approval of the State Board. In the event of a proposed purchase of real estate by the Foundation for the College, the College shall notify the State Board at the earliest possible date. Any such proposed purchase for the College's use shall be a coordinated effort of the College and the Foundation. Any notification to the State Board required pursuant to this paragraph may be made through the State Board's chief executive officer in executive session pursuant to the open meeting law, set forth in Idaho Code, Title 74, Chapter 2.

ARTICLE VIII
General Terms

1. Effective Date. This Operating Agreement shall be effective on the date set forth above.
2. **Right to Terminate.** This Operating Agreement shall terminate upon the mutual written agreement of both Parties. In addition, either Party may, upon 90 days prior written notice to the other, terminate this Operating Agreement, and either Party may terminate this Operating Agreement in the event the other Party defaults in the performance of its obligations and fails to cure the default within 30 days after receiving written notice from the non-defaulting Party specifying the nature of the default. Should the College choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the Foundation that is not cured within the time frame set forth above, the Foundation may require the College to pay, within 180 days of written notice, all debt incurred by the Foundation on the College’s behalf including, but not limited to, lease payments, advanced funds, and funds borrowed for specific initiatives. Should the Foundation choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the College that is not cured within the time frame set forth above, the College may require the Foundation to pay any debt it holds on behalf of the Foundation in like manner. The Parties agree that in the event this Operating Agreement shall terminate, they shall cooperate with one another in good faith to negotiate a new agreement within six (6) months. In the event negotiations fail, the Parties will initiate the dispute resolution mechanism described below (through reference to the Foundation President and the State Board) to further attempt to negotiate a new agreement within the time period specified herein, they will refer the matter to the State Board for resolution. Termination of this Operating Agreement shall not constitute or cause dissolution of the Foundation.

3. **Dispute Resolution.** The Parties agree that in the event of any dispute arising from this Operating Agreement, they shall first attempt to resolve the dispute by working together with the appropriate staff members of each of the Parties. If the staff cannot resolve the dispute, then the dispute will be referred to the President of the Board of the Foundation and the College President. If the Foundation Board President and College President cannot resolve the dispute, then the dispute will be referred to the Foundation President and the State Board for resolution. If they are unable to resolve the dispute, the Parties shall submit the dispute to mediation by an impartial third Party or professional mediator mutually acceptable to the Parties. If and only if all the above mandatory steps are followed in sequence and the dispute remains unresolved, then, in such case, either Party shall have the right to initiate litigation arising from this Operating Agreement. In the event of litigation, the prevailing Party shall be entitled, in addition to any other rights and remedies it may have, to reimbursement for its expenses, including court costs, attorney fees, and other professional expenses.

4. **Dissolution of Foundation.** Consistent with provisions appearing in the Foundation’s Bylaws and Articles of Incorporation, should the Foundation cease to exist or cease to be an Internal Revenue Code §501(c)(3) organization, the Foundation shall transfer to the State Board (or College, as applicable) the balance of all property and assets of the Foundation from any source, after the payment of all debts and obligations of the Foundation, and such property shall be vested in the State Board in trust for the continued support and benefit of the College.

5. **Board Approval of Operating Agreement.** Prior to the Parties’ execution of this Operating Agreement, an unexecuted copy of this Operating Agreement must be approved by the
State Board. Furthermore, this Operating Agreement, including any subsequent modifications and restatements of this Operating Agreement, shall be submitted to the State Board for review and approval no less frequently than once every three (3) years or more frequently if otherwise requested by the State Board.

6. Modification. Any modification to the Operating Agreement or Exhibits hereto shall be in writing and signed by both Parties.

7. Providing Document to and Obtaining Approval from the College. Unless otherwise indicated herein, any time documents are to be provided to the College or any time the College's approval of any action is required, such documents shall be provided to, or such approval shall be obtained from, the College's President or an individual to whom such authority has been properly delegated by the College's President.

8. Providing Documents to and Obtaining Approval from the Foundation. Unless otherwise indicated herein, any time documents are to be provided to the Foundation or any time the Foundation's approval of any action is required, such document shall be provided to, or such approval shall be obtained from, the Foundation's Board of Directors or an individual to whom such authority has been properly delegated by the Foundation's Board of Directors.

9. Notices. Any notices required under this Operating Agreement may be mailed or delivered as follows:

To the College:

President
Lewis-Clark State College
500 8th Avenue
Lewiston, ID 83501

To the Foundation:

Executive Director
Lewis-Clark State College Foundation, Inc.
500 8th Avenue
Lewiston, ID 83501

10. No Joint Venture. At all times and for all purposes of this Memorandum of Understanding, the College and the Foundation shall act in an independent capacity and not as an agent or representative of the other Party.

11. Liability. The College and Foundation are independent entities and neither shall be liable for any of the other’s contracts, torts, or other acts or omissions, or those of the other’s trustees, directors, officers, members or employees.
12. **Indemnification.** To the extent allowed by law, the College and the Foundation each agree to indemnify, defend and hold the other Party, their officers, directors, agents and employees harmless from and against any and all losses, liabilities, and claims, including reasonable attorney’s fees arising out of or resulting from the willful act, fault, omission, or negligence of the Party, its employees, contractors, or agents in performing its obligations under this Operating Agreement. This indemnification shall include, but not be limited to, any and all claims arising from an employee of one Party who is working for the benefit of the other Party. Nothing in this Operating Agreement shall be construed to extend to the College’s liability beyond the limits of the Idaho Tort Claims Act, Idaho Code §6-901 et seq.

13. **Assignment.** This Operating Agreement is not assignable by either Party, in whole or in part.

14. **Governing Law.** This Operating Agreement shall be governed by the laws of the State of Idaho.

15. **Severability.** If any provision of this Operating Agreement is held invalid or unenforceable to any extent, the remainder of this Operating Agreement is not affected thereby and that provision shall be enforced to the greatest extent permitted by law.

16. **Entire Agreement.** This Operating Agreement constitutes the entire agreement among the Parties pertaining to the subject matter hereof, and supersedes all prior agreements and understandings pertaining thereto.

17. **List of Attachments**
   a. Exhibit A – Loaned Employee Agreement
   b. Exhibit B - Service Agreement

By: _________________________________
Its: President
EXHIBIT "A"

Loaned Employee Agreement

Not applicable at this time
EXHIBIT "B"

Service Agreement

1. Staff
   a. The Director of College Advancement, an employee of the College, shall serve as Executive Director of the Foundation and shall supervise the College Advancement staff who are likewise employees of the College and who will provide administrative services to the Foundation. The College is responsible for the employment and compensation of College Advancement Staff providing services to the Foundation, including the Director of College Advancement in his or her capacity as Executive Director of the Foundation. Subject to approval by the President of the College, the Foundation may appoint an employee of the College to serve as Treasurer. The Treasurer shall provide and/or supervise the provision of financial and accounting services for the Foundation. While providing services to the Foundation, College employees are subject to the oversight and direction of the Board of Directors of the Foundation. Executive officers of the College (President and Vice Presidents) shall not serve as Foundation Board officers or staff members.

2. Additional services the College provides to the Foundation
   a. Access to the College's financial system to receive, disburse and account for funds of the Foundation. Except for funds transferred into Foundation's brokerage accounts, all funds received by the Foundation shall be deposited with the College and credited to one or more agency accounts established in the name of the Foundation within the College's financial system. In using the College's financial services, the Foundation shall comply with the College's financial and administrative policies and procedures.
   b. Accounting services, to include cash receipts and disbursements, accounts receivable and payable, bank reconciliation, reporting and analysis, and internal auditing.
   c. Investment, insurance, and similar services.
   d. Development services, including research, information systems, donor records, communications and special events.

3. Facilities, Furnishings and Office Equipment
   a. The business office of the Foundation shall be located in the College Advancement Office at 500 8th Avenue, Lewiston, Idaho. The College will provide office space to the Foundation including providing all maintenance and utilities, and local and long-distance telephone service for use in the business of the Foundation. The furnishings, computers, copiers and other items of office equipment used in the Foundation's office are owned by the College but shall be made available for use in the business of the Foundation. The cost of repairing, maintaining and replacing such furnishings and equipment shall be paid by the College.
4. Reimbursement
   a. Except as otherwise provided in the Agreement and Exhibit “L” (“Endowment Fund Fee Policy”), the Foundation shall have no obligation to reimburse the College for costs incurred by the College for personnel, use of facilities or equipment or for other services provided to the Foundation by the College. The Foundation established a fee as referenced in Exhibit L to assist with offsetting general operating costs such as accounting, fundraising, and other administration costs in support of the mission and vision of LC State. Neither the Foundation nor the College require the fee revenue to be transferred to the College though, as mutually agreed upon, all or part of the fee revenue may be transferred to offset the cost of services provided under this agreement. No payments shall be made directly from the Foundation to College employees in connection with resources or services provided to the Foundation under this Agreement.
EXHIBIT "C"

Investment Policy

PURPOSE
The purpose of this Investment Policy Statement (IPS) is to establish a clear understanding between the Lewis-Clark State College Foundation ("Foundation") and the Foundation's professional "Advisor" as to the investment objectives and policies applicable to the Foundation's investment portfolio. This Investment Policy Statement will:

• Establish reasonable expectations, objectives and guidelines in the investment of the portfolio's assets
• Set forth an investment structure detailing permitted asset classes and expected allocation among asset classes
• Encourage effective communication between the Advisor and the Foundation.
• Create the framework for a well-diversified asset mix that can be expected to generate acceptable long term returns at a level of risk suitable to the Foundation.

This IPS is not a contract. This IPS is intended to be a summary of an investment philosophy that provides guidance for the Advisor.

ADVISOR CONTRACT
The Advisor Contract will typically be awarded for an initial three (3) year period, beginning July 1, with an option for one additional three (3) year renewal. The decision to enter a new contract or engage in an RFP process or other process shall be at the sole discretion of the Foundation Board. The Board may, at its discretion, choose to forego an RFP process or other process in favor of entering into a new contract with the existing advisor. All fees shall be firm for the term of the contract and will be included in any contract agreement. A performance review will be conducted annually at the Fall meeting, by the Foundation Finance & Investment Committee, or by any of its designated subcommittees.

If, for any reason, the Foundation should wish to discontinue the professional’s services, the Foundation, with sixty (60) days’ written notice, may terminate the contract.

INVESTMENT OBJECTIVES
The primary investment objective for the Foundation's assets is to seek long term growth. However, the Foundation does intend to withdraw 4% annually to provide for required distribution. The cash flow intentions of the Foundation are detailed in the Foundation's Spending Policy.

TIME HORIZON
For the purposes of planning, the time horizon for investments is perpetuity. The Foundation recognizes that capital values fluctuate over shorter periods and the possibility of capital loss does exist. However, historical asset class return data suggest that the risk of principal loss over a holding period of at least ten years can be minimized with the long-term investment mix employed under this IPS.

RISK TOLERANCE
The Foundation is a moderate risk taker with regard to these investment assets. The portfolio will be managed in a manner that seeks to minimize principal fluctuations over the established horizon and is consistent with the stated objectives. Financial research has demonstrated that risk is best minimized through diversification of assets.

ASSET ALLOCATION
Academic research suggests that the decision to allocate total assets among various asset classes will far outweigh security selection and other decisions that impact portfolio performance. After reviewing the long-term performance and risk characteristics of various asset classes and balancing the risks and rewards of market behavior, the following asset classes were selected to achieve the objectives of the Foundation's Portfolio.

Table 1-1
<table>

<td>70%</td>
<td>60% - 80%</td>
</tr>
<tr>
<td>TOTAL</td>
<td>100%</td>
<td></td>
</tr>
</tbody>
</table>

*International stocks not to exceed 10% of the total portfolio.

**Updated Allocations**

From time to time, it may be desirable to amend the basic allocation policy or calculations. When such changes are made, updates will be attached to this Investment Policy Statement as Appendix A and will be considered part of this Investment Policy Statement. The Advisor will provide to the Foundation the recommended or desired targeted allocation percentages. The recommendation will fall within the acceptable range as indicated in table 1-1.

**Portfolio Rebalancing**

From time to time, market conditions may cause the portfolio's investment in various asset classes to vary from the targeted allocation. To remain consistent with the asset allocation guidelines established by this IPS, each asset class in which the portfolio invests shall be reviewed annually by the Advisor and rebalanced back to the recommended weighting if the actual weighting varies by 3% or more from the recommended weighting (e.g., if the targeted allocation for a particular asset class is 10% and the actual is less than 7% or more than 13%, that asset class will be adjusted back to the targeted 10% allocation by either adding assets or distributing assets to or from the other asset classes.)

**DIVERSIFICATION**

Investment of the Foundation's funds shall be limited to the following categories:

**Permitted Investment Categories**
1. Cash and cash equivalents, including money market funds, or certificates of deposit
2. ETF or Index Funds
3. Stock or Bond Mutual Funds

**Excluded Categories for Investment**
1. Derivatives
2. Natural resources
3. Precious metals
4. Venture capital

**Investment Concentration**

At all times there must be a minimum of three investment categories represented among the Foundation's assets. There shall be no maximum limit to the number of categories. No individual security held shall represent more than 15% of the total portfolio.

**INVESTMENT MONITORING AND CONTROL PROCEDURES**

**Reports**
1. Advisor shall provide the Foundation with a monthly report that lists all assets held by the Foundation, values for each asset and all transactions affecting assets within the portfolio, including additions and withdraws.
2. Advisor shall provide the Foundation on a quarterly basis and within 30 days of the end of each calendar quarter, the following reports:
   a) Portfolio performance results over the last quarter, year, 3 years and 5 years
   b) Performance results of comparative benchmarks for the same periods; performance shall be reported on a time-weighted basis.
3. Advisor shall assist in the development of investment policies, objectives and guidelines.
4. Advisor shall prepare asset allocation analyses as necessary and recommend asset allocation strategies with respect to the Foundation’s objectives.
5. Advisor shall provide research on specific issues and opportunities and assist the Foundation Finance & Investment Committee in special tasks.
6. Advisor shall make tactical implementation decisions, including rebalancing, within the asset allocations ranges set by the Foundation and among investment managers with communication of such decisions and the rational at the next Foundation meeting. Such decisions will be tracked by the Advisor who will report the results of each of those decisions in its Investment Review provided to the Foundation for its quarterly meetings.
7. Advisor shall notify the Foundation Finance & Investment Committee of any significant changes in portfolio managers, personnel or ownership of any investment management firm hired by the Foundation.
8. Advisor shall, overall, be proactive with the Administration of the Foundation in the management of the Foundation’s investments.

**Meeting**

Advisor shall meet with the Foundation's Finance and Investment Committee at least annually (or semi-annually if the Foundation chooses) in order to give a detailed report as to activity in the investment account, manager selection, tactical changes in the asset allocation weightings or other information the Foundation shall require.

Advisor shall also meet annually with the Foundation Board in January of each year to give a detailed report on the Foundation’s investments.

**ADOPTION**

Adopted and Revised by the Foundation on this 21st day of December, 2021. Effective July 1, 2022.
EXHIBIT "D"

Articles of Incorporation

WHEREAS, the members of Lewis-Clark State College Educational Assistance and Development Foundation, Inc., at a duly called meeting, after proper notice, adopted the following resolution amending and restating the Articles of Incorporation to change the name of the corporation and to conform those Articles to the provisions of the Idaho Non-Profit Corporations Act by the affirmative vote of all members present at such meeting, constituting a majority of the voting power of the members of the corporation entitled to vote, to wit:

BE IT RESOLVED that the Articles of Incorporation of Lewis-Clark State College Educational Assistance and Development Foundation, Inc., be, and the same are hereby, amended and restated in their entirety as follows:

AMENDED AND RESTATED ARTICLES

ARTICLE I
Preliminary Matters

1.01 Name. The name of this corporation is LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.

1.02 Nonprofit Status. This corporation is a nonprofit corporation.

1.03 Duration. The duration of this corporation shall be perpetual.

ARTICLE II
Purpose

2.01 Charitable Scope of Purposes. This corporation is organized and shall be operated exclusively for charitable, scientific, literary, and educational purposes, within the meaning of §501(c)(3) of the Internal Revenue Code of 1986, as amended, or corresponding provisions of any subsequent Federal tax laws (hereinafter called Internal Revenue Code"), and Treasury Regulations issued thereunder. This corporation shall serve the public interest, and no part of its assets or the income therefrom shall inure to the benefit of any private individual, except for payment of
reasonable compensation for services rendered to the corporation. No substantial part of the activities of this corporation shall directly or indirectly consist of attempting to influence legislation by propaganda or otherwise, and the corporation shall not directly or indirectly participate in, or intervene (including the publishing or distributing of statements), any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles of incorporation, this corporation shall not conduct or carry on any activities not permitted to be conducted or carried on (a) by a corporation exempt from federal tax under § 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or (b) by a corporation, contributions to which are deductible under § 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

2.02 **Higher Education.** In further limitation of the general charitable purposes set forth above, this corporation is organized and shall be operated for the purpose of advancing the goals of higher education. The goals of higher education shall be broadly construed to encompass the charitable, scientific, literary, artistic, educational, social and athletic objectives normally associated with nonsectarian institutions of higher education.

2.03 **Lewis-Clark State College.** The purposes of this corporation shall be accomplished primarily by encouraging, promoting, supporting, performing and carrying out the functions, programs, operations and purposes of Lewis-Clark State College, an institution of higher education and an agency of the State of Idaho with its principal campus located in Lewiston, Idaho, so long as it is an institution of higher education and an agency of the State of Idaho or an organization described in § 501(c)(3) of the Internal Revenue Code, contributions to which are deductible under § 170(c)(2) of the Internal Revenue Code. By way of illustration and not limitation, it shall be within the purposes of this corporation to:

a. **Funds.** Coordinate fund raising activities on behalf of Lewis-Clark State College and receive, hold, invest and administer donations of every kind on its behalf.

b. **Programs.** Promote, support, develop, perform, carry out and extend the educational undertakings of Lewis-Clark State College, and in furtherance thereof, to support and conduct any and all charitable, scientific, literary, artistic, educational, social and athletic activities relating thereto.
c. Facilities. Support, conduct and operate such activities as may be designed or intended to facilitate or enhance the educational, cultural, living and operational conditions at Lewis-Clark State College; to provide support for, maintain, enlarge, and extend the curricula, services, faculty, staff, and real or personal properties of Lewis-Clark State College.

d. Financial Assistance. To provide financial or other assistance to the students, faculty and staff of Lewis-Clark State College in their efforts to acquire new knowledge and to extend the educational endeavors of Lewis-Clark State College.

e. Cooperation. Promote cooperation, coordination with, and assistance to other charities in the area of Lewiston, Idaho, particularly schools and hospitals.

ARTICLE III
Powers

3.01 Statutory Powers. This corporation shall have all rights and powers now given to nonprofit corporations generally under the laws of the State of Idaho, including those powers now set forth in § 30-3-23 of the Idaho Code, and all further and broader rights and powers which may in the future be given to nonprofit corporations generally under any subsequent laws of this state. No subsequent repeal or amendment of any such laws shall diminish or restrict those corporation’s rights and powers.

3.02 Activities. In addition to raising funds and making grants, the corporation may, itself, actively conduct programs designed to accomplish the purposes set forth in Article II, above. Such activities may be engaged in for or on behalf of Lewis-Clark State College in order to assist it in performing its functions or carrying out its purposes.

3.03 Limitations. No part of the net earnings or assets of the corporation shall inure to the benefit of, or be distributable to, its members, directors, officers or other private persons, except that the corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article II hereof. No substantial part of the activities of the corporation shall be for the purpose of carrying on of propaganda, or otherwise attempting to influence legislation, and the corporation shall not participate in, or intervene in, (including the publishing and distribution of statements) any political campaign on behalf of any candidate for
public office. Notwithstanding any other provisions of these articles, the corporation shall not carry on any other activities not permitted to be carried on by a corporation exempt from federal income tax under § 501(c)(3) of the Internal Revenue Code or the corresponding section of any future federal tax code, or (b) by a corporation, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code or the corresponding section of any future federal tax code.

ARTICLE IV
No Members

The corporation shall not have any members.

ARTICLE V
Board of Directors

The affairs of the corporation shall be managed by a Board of Directors. The number of directors serving on the Board of Directors shall be fixed in accordance with the corporation’s Bylaws. Other than the directors constituting the initial board of directors, who are designated in these articles, the Directors shall be elected, appointed or designated in the manner and for the term or terms provided in the Bylaws of the corporation.

The names and street addresses of the persons constituting the initial board of directors are:

Registered Agent

6.01 Registered Office. The street address of the initial registered office of this corporation is the office of the Vice-President for Administrative Services, Lewis-Clark State College, Eighth Avenue and Sixth Street, Lewiston, ID 83501.

6.02 Registered Agent. The name and initial registered agent of the corporation at such street address is Dean A. Froehlich.

ARTICLE VII.
Distribution on Dissolution

Upon dissolution or winding up of the corporation, its assets remaining after payment, or provision for payment of all debts and liabilities of this corporation shall be to the Idaho State Board of Education, as the Board of Trustees of Lewis-Clark State College; provided, however, that if at such time Lewis-Clark State College or its successor in interest is not an agency of the State of Idaho or an exempt organization described in § 501(c)(3) of the Internal Revenue Code or has substantially failed or abandoned its operations or been
dissolved, then the remaining assets of the corporation shall be distributed to such other agencies of the State of Idaho or non-profit fund foundation or corporation involved in higher education which is organized and operated exclusively for charitable purposes and which has established its tax exempt status under § 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, as the Board of Directors may direct. Any such assets not distributed shall be distributed by the district court of the county in which the principal office of the corporation is then located, excluding for any purposes or to such organizations as the court shall determine to be consistent with the purposes of the corporation.

ARTICLE VIII.
Bylaws

Provisions for the regulation of the internal affairs of the corporation shall be set forth in the Bylaws. The Board of Directors of the corporation shall be authorized to amend the corporation’s Bylaws at a properly noticed special or regular meeting of the Board of Directors.

ARTICLE IX.
Amendment of Articles

This corporation reserves the right to amend, alter, change or repeal any provisions contained in these articles of incorporation in any manner now or hereafter prescribed or permitted by statute.

IN WITNESS WHEREOF, the duly undersigned officers have signed and attested these Articles of Amendment.

DATED this 20th day of June, 2001.

LEWIS-CLARK STATE COLLEGE
EDUCATIONAL ASSISTANCE AND DEVELOPMENT FOUNDATION, Inc.
ARTICLES OF INCORPORATION

ROBERT P. BROWN, Esquire, being over the age of twenty-one (21) years, for the purpose of forming a corporation under the provisions of the Idaho Nonprofit Corporation Act, Title 30, Chapter 3 of the Idaho Code, hereby adopts these articles of incorporation:

ARTICLE I
Preliminary Matters

1.01 Name. The name of this corporation is LEWIS-CLARK STATE COLLEGE EDUCATIONAL ASSISTANCE AND DEVELOPMENT FOUNDATION, Inc.

1.02 Nonprofit status. This corporation is a nonprofit corporation.

1.03 Duration. The duration of this corporation shall be perpetual.

ARTICLE II
Purposes

2.01 Charitable scope of purposes. This corporation is organized and shall be operated exclusively for charitable, scientific, literary, or educational purposes, within the meaning of §501(c)(3) of the Internal Revenue Code of 1954, as amended, or corresponding provisions of any subsequent Federal tax laws (hereinafter called Internal Revenue Code”), and Treasury Regulations issued thereunder. This corporation shall serve the public interest, and no part of its assets or the income therefrom shall inure to the benefit of any private individual, except for payment of reasonable compensation for services rendered to the corporation. No substantial part of the activities of this corporation shall directly or indirectly consist of attempting to influence legislation by propaganda or otherwise, and the corporation shall not directly or indirectly participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles of incorporation, this corporation shall not conduct or carry on any activities not permitted to be conducted or carried on by an exempt organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code.
2.02 Higher education. In further limitation of the general charitable purposes set forth above, this corporation is organized and shall be operated for the purpose of advancing the goals of higher education. The goals of higher education shall be broadly construed to encompass the charitable, scientific, literary, artistic, educational, social and athletic objectives normally associated with nonsectarian institutions of higher education.

2.03 Lewis-Clark State College. The purposes of this corporation shall be accomplished primarily by encouraging, promoting, supporting, performing and carrying out the functions, programs, operations and purposes of Lewis-Clark State College, an institution of higher education and an agency of the State of Idaho with its principal campus located in Lewiston, Idaho, so long as it is an institution of higher education and an agency of the State of Idaho or an organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code. By way of illustration and not limitation, it shall be within the purposes of this corporation to:

a. Funds. Coordinate fund raising activities on behalf of Lewis-Clark State College and receive, hold, invest and administer donations of every kind on its behalf.

b. Programs. Promote, support, develop, perform, carry out and extend the educational undertakings of Lewis-Clark State College, and in furtherance thereof, to support and conduct any and all charitable, scientific, literary, artistic, educational, social and athletic activities relating thereto.

c. Facilities. Support, conduct and operate such activities as may be designed or intended to facilitate or enhance the educational, cultural, living and operational conditions at Lewis-Clark State College; to provide support for, maintain, enlarge, and extend the curricula, services, faculty, staff, and real or personal properties of Lewis-Clark State College.

d. Financial assistance. To provide financial or other assistance to the students, faculty and staff of Lewis-Clark State College in their efforts to acquire new knowledge and to extend the educational endeavors of Lewis-Clark State College.

e. Cooperation. Promote cooperation, coordination with, and assistance to other charities in the area of Lewiston, Idaho, particularly schools and hospitals.
ARTICLE III
Powers

3.01 Statutory powers. This corporation shall have all rights and powers now given to nonprofit corporations generally under the laws of the State of Idaho, including those powers now set forth in §30-307 of the Idaho Code, and all further and broader rights and powers which may in the future be given to nonprofit corporations generally under any subsequent laws of this state. No subsequent repeal or amendment of any such laws shall diminish or restrict this corporation’s rights and powers.

3.02 Activities. In addition to raising funds and making grants, the corporation may, itself, actively conduct programs designed to accomplish the purposes set forth in Article II, above. Such activities may be engaged in for or on behalf of Lewis-Clark State College in order to assist it in performing its functions or carrying out its purposes.

3.03 Limitations. No power or authority shall be exercised by this corporation in any manner or for any purpose which is not permitted for an exempt organization described in §501(c)(3) of the Internal Revenue Code, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code.

ARTICLE IV
Members

4.01 Management authority. The management of the affairs of this corporation shall be vested in its members pursuant to Section 30-314(c) of the Idaho Code.

4.02 Apportionment of voting rights among classes. All voting rights shall be exercised by a single class of membership designated "trustee members", with each trustee member entitled to one (1) vote on each matter submitted to a vote at a meeting of such members. The bylaws of the corporation may provide for the designation of any one or more classes of nonvoting members. Except as set forth in these Articles of Incorporation, the designation, number, qualifications, terms of office, manner of selection, time and place of meetings, rights, powers, and duties of the members of each class shall be prescribed in the bylaws of the corporation.

4.03 Compensation. No member of the corporation shall receive any compensation for his or her services as a member of the corporation, but the corporation may pay reasonable compensation to any person, including a member of the corporation, for other services actually rendered to the corporation.
4.04 Notice of organization meeting. Actual personal notice of the organization meeting of the members of the corporation shall be sufficient notice pursuant to Section 30-324(b) of the Idaho Code.

ARTICLE V
Directors

There shall be no directors of the corporation, the management of the affairs of the corporation being vested in the trustee members pursuant to Section 30-314 of the Idaho Code.

ARTICLE VI
Principal Organizer

6.01 Name. The name of the principal organizer of this corporation is LEE A. VICKERS, who is over the age of twenty-one (21) years.

6.02 Address. The street address of the principal organizer is Office of the President, 8th Avenue and 6th Street, Lewiston, Idaho 83501.

ARTICLE VII
Registered Office and Registered Agent

7.01 Registered office. The street address of the initial registered office of this corporation is Office of the President, Lewis-Clark State College, 8th Avenue and 6th Street, Lewiston, Idaho 83501.

7.02 Registered agent. The name of the initial registered agent at such street address is LEE A. VICKERS.

ARTICLE VIII
Amendment of Articles

This corporation reserves the right to amend, alter, change or repeal any provisions contained in these articles of incorporation in any manner now or hereafter prescribed or permitted by statute.

ARTICLE IX
Dissolution

In the event of termination, dissolution or liquidation of this corporation, the net assets remaining after payment of all debts and obligations of the corporation shall be transferred and conveyed exclusively to Lewis-Clark State College or its successors-in-interest; provided, however, that if at such time Lewis-Clark State College or its successor-in-interest is not an agency of the State of Idaho or an exempt organization described in §501(c)(3) of the Internal Revenue Code, or has substantially failed or abandoned its operations or been dissolved, then the
remaining assets of this corporation shall be distributed to such other agencies of the State of Idaho and exempt organizations described in §501(c)(3) of the Internal Revenue Code involved in higher education as the board of directors may direct.

ARTICLE X
Incorporator

10.01 Name. The name of the incorporator of this corporation is ROBERT P. BROWN, Esquire, who is over the age of twenty-one (21) years.

10.02 Address. The street address of the incorporator is 13th and Idaho Streets, Lewiston, Idaho 83501.

IN WITNESS WHEREOF, the incorporator has signed these Articles of Incorporation in duplicate this 2nd day of April, 1984.

[Signature]

ROBERT P. BROWN, Incorporator

STATE OF IDAHO )

ss.

County of NEZ PERCE )

On this 2nd day of April, 1984, before me the undersigned, a notary public in and for the State of Idaho, personally appeared ROBERT P. BROWN, known to me to be the person whose name is subscribed to the within and foregoing instrument and acknowledged to me that he executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal the day and year first above written.

Notary Public in and for the State of Idaho, Residing at Lewiston, therein.
EXHIBIT "E"

Bylaws

AMENDED AND RESTATED BYLAWS
OF
LEWIS-CLARK STATE COLLEGE FOUNDATION, INC.

ARTICLE I.
In General

1.01 Nature of Bylaws. The following paragraphs contain provisions for the regulation and management of LEWIS-CLARK STATE COLLEGE FOUNDATION, INC., a nonprofit corporation organized and operating under the laws of the State of Idaho.

1.02 Conflicts. In the event that there is a conflict between a provision of these Bylaws and a mandatory provision of the laws of the State of Idaho, or the Articles of Incorporation of the corporation, then the mandatory provision of the laws of the State of Idaho, or the Articles of Incorporation shall control.

ARTICLE II.
Principal Office

2.01 Principal Office. The principal office of the corporation in the State of Idaho shall be located at Lewis-Clark State College, 500 8th Avenue Lewiston, ID 83501. The corporation may have such other offices, either within or without the State of Idaho, as the Directors may designate from time to time.

ARTICLE III.
Non-Director Members

3.01 Foundation Members. In addition to the Directors as defined in Article IV below, the corporation may recognize a class of benefactors and supporters designated as “Foundation Members”, which class may be further subdivided into any number of subclasses as may be determined by the Directors.

3.02 No Management Authority or Voting Rights. Foundation Members, as described in 3.01 above, shall have no authority to manage the affairs of the corporation, and shall not be entitled to vote on any matter relating to the corporation. Foundation Members shall have the right to attend and participate in meetings of the Directors.

3.03 Rights and Privileges. Except as may be otherwise provided in these Bylaws or the Articles of Incorporation, Foundation Members shall have such recognition, rights, privileges as may be determined by the Board of Directors. Foundation Members are invited to attend meetings of the Board of Directors.

3.04 Selection. Individuals or organizations who are interested in the objectives and purposes of the corporation may be admitted as Foundation Members by majority vote of the Directors upon meeting such qualifications as may be determined by the Directors.

3.05 Designated Members. The following individuals shall serve as Designated Members by virtue of their offices, to serve for the term of their respective offices. Designated Members do not have voting rights.

   a. The President of Lewis-Clark State College.
   b. The Provost and Vice President for Academic Affairs of Lewis-Clark State College.
   c. The Vice President for Finance and Administration of Lewis-Clark State College.
d. The Foundation Treasurer as appointed by Lewis-Clark State College with the consent of the Foundation.
e. The Faculty Senate Chair Elect of the Lewis-Clark State College Faculty Association.
f. The Lewis-Clark State College Alumni Association Board Representative.
g. The Vice President of Student Affairs of Lewis-Clark State College.

3.06 **Membership Roster and Certificates.** The corporation shall maintain a roster of Foundation Members, and may issue certificates, cards, or other evidence of association.

3.07 **Personal Status of Association.** Association as a Foundation Member shall be personal to the associate admitted, and shall not survive the death of any individual associate nor be transferred by any means whatsoever.

3.08 **Resignation.** A Foundation Member may resign at any time by written notice to the corporation.

3.09 **Removal.** Association as a Foundation Member may be reviewed for any action which is detrimental to the best interests of the corporation, or for failure to actively support corporate purposes, or to actively participate in corporate activities. Removal shall require the affirmative vote of a majority of the Directors.

**ARTICLE IV. Directors**

4.01 **General Powers.** All corporate powers shall be exercised by or under the authority of the Board of Directors. The business and affairs of the corporation shall also be managed under the direction of the Board of Directors, except as otherwise provided in the Idaho Non-Profit Corporation Act or the Articles of Incorporation.

4.02 **Presumption of Assent.** A Director of the corporation who is present at a meeting of its Board of Directors at which any action on any corporate matter is taken shall be presumed to have assented to the action unless such Director’s dissent shall be entered in the minutes of the meeting or unless such Director shall file such Director’s written dissent to such action with the secretary of the meeting before the adjournment thereof or shall forward such dissent by certified or registered mail to the secretary of the corporation within three days after the adjournment of the meeting. Such right of dissent shall not apply to a Director who voted in favor of such action.

4.03 **Qualification.** Directors need not be officers of the corporation nor residents of the State of Idaho.

4.04 **Elected Directors.** The corporation shall have such Directors as may be elected by majority vote of the Directors, as then constituted, at the annual meeting of Directors. The number of such elected Directors serving at any time shall, in no event, exceed thirty (30). Each Director, including the Director whose terms are expiring, shall have the right to vote for as many persons as there are Directors to be elected, but no Director shall be entitled to cumulate his or her votes.

4.05 **Terms of Elected Directors.** The terms of the Elected Directors pursuant to Article 4.04 shall serve for a period of three (3) years until the annual meeting in the year in which their respective terms expire and until their successors are duly appointed or elected and qualified.

4.06 **Resignation.** Any Director may resign at any time giving written notice to the corporation. Any such resignation shall take effect at the time specified therein, or if the time be not specified, upon its acceptance by the corporation.

4.07 **Removal.** An elected or appointed Director may be removed from office prior to expiration of the term of office by the vote of at least two-thirds (2/3) of the Directors other than the Director voted upon, at any regular or special meeting of Directors. Unexcused absences from two (2) consecutive meetings of the Directors shall be cause for consideration of removal of a Director. The Designated Director is not subject to removal.
4.08 **Vacancies.** A vacancy among the Directors shall be deemed to exist upon death, resignation or removal of a Director. The vacancy of a Director shall be filled by his or her successor in office at the time the office is assumed. The vacancy of a Designated Director shall be filled by appointment of the Executive Committee. A Director appointed or elected to fill a vacancy shall serve the unexpired term of his predecessor in office.

4.09 **Place of Meetings.** All meetings of the Directors shall be held at the principal office of the corporation or at such other place, either within or without the State of Idaho, as the Directors may, from time to time, direct.

4.10 **Organization of Meeting.** The president of the corporation shall act as chairman of meetings of Directors. In the absence of the president, the next Officer shall act as chairman: vice president, then secretary, respectively.

4.11 **Annual Meetings.** The annual meetings of the Directors shall be held in the spring each year. In the event that such annual meeting is omitted by oversight or otherwise, it may be held at a subsequent special meeting called in accordance with the provisions of these Bylaws and the laws of the State of Idaho, and any business transacted or elections held at such meetings shall be valid as if transacted or held at the annual meeting.

4.12 **Special Meetings.** A special meeting of the Directors may be called at any time by the president, and shall be called by the president upon the written request of a majority of the Directors.

4.13 **Notice of Meetings.** Written notice of each meeting of Directors stating the place, day or hour of the meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called, shall be delivered not less than two (2) days before the date of the meeting. Exceptions may occur with extenuating circumstances. If mailed, such notice shall be deemed to be delivered three (3) days after they are deposited in the United States Mail addressed to the Director at his or her address as it appears on the records of the corporation, with postage paid thereon.

Attendance of a Director at a meeting shall constitute a waiver of notice of such meeting, except where a Director attends a meeting for the express purpose of objecting to the transaction of any business on the grounds that the meeting is not lawfully called or convened. The Directors may waive notice of any meeting, and written waiver of notice executed either before or after the meeting shall be sufficient.

Any adjournment or adjournments of an annual or special meeting to another time and place may be held without new notice being given.

4.14 **Quorum.** A simple majority (defined as 51% or more) of the voting Directors shall constitute a quorum for the transaction of business. The act of a majority (defined as 51% or more) of the Directors present at a meeting at which a quorum is present shall be the act of the Directors.

Foundation Members and Designated Members shall not be considered to constitute a quorum and do not have voting rights.

If, at any meeting of the Directors, there shall be less than a quorum present, those present may adjourn the meeting without notice other than by announcement at the meeting. If, subsequently additional directors arrive and a quorum is present, such meeting can be re-convened and any business may be transacted which might have been transacted at the meeting as originally notified.

4.15 **Action Without a Meeting.** Any action required to be taken at a meeting of the Board of Directors, or any action that may be taken at a meeting of the Directors or of a committee, may be taken without a meeting if a consent in writing, setting forth the actions so taken, shall be signed by a simple majority of the Directors, or by a simple majority of the members of the committee, as the case may be. Such consent shall have the same effect as a unanimous vote.
4.16 Powers and Duties. The Directors shall establish policies and have the general management, control and direction of all the business and affairs of the corporation and of all its undertakings to the fullest extent permitted by law. In addition to all powers granted by law, Directors shall have power and authority:

a. To call meetings of the Directors whenever deemed proper or necessary.
b. To elect officers of the corporation, to appoint such employees or agents as they deem necessary or proper, to confer upon any officer the power to appoint, remove and suspend officers, employees and agents, and to similarly remove any officer, employee or agent with or without cause.
c. To determine the policies of the corporation and to make such rules and regulations as may be deemed necessary or proper for the government and guidance of the officers, employees and Directors of the corporation, not inconsistent with the laws of the State of Idaho, the Articles of Incorporation, these Bylaws or the Operating Agreement.
d. To oversee the security and safekeeping of endowment funds to insure that the same are invested in accordance with the Uniform Prudent Management of Institutional Funds Act as adopted by the State of Idaho and in a manner consistent with the objectives of the corporation. These duties include cooperation with any investment committee or external investment advisors that may be designated by the Directors.
e. To purchase or otherwise acquire, and to sell, convey, and otherwise dispose of assets on behalf of the corporation at such prices and upon which terms as the Directors may deem appropriate.
f. To approve payment for such property, rights or privileges, in whole or in part, with money or other securities of the corporation, or by delivery of other property of the corporation.
g. To approve an action to borrow money and incur indebtedness; to create, make and issue mortgages, deeds of trust, trust and annuity agreements and negotiable or transferable instruments and securities; to do every other act necessary to effectuate the same.
h. To hold, operate, leave, invest, reinvest and otherwise manage real and personal property of every kind and description.
i. To fix the compensation, fringe benefits and emoluments of officers and other employees in accordance with noted Article VI.
j. To select one or more financial institutions to act as depositor of the funds of the corporation and to determine the manner of receiving, depositing and disbursing the funds of the corporation.
k. To determine by whom and in what manner the corporation bills, notes, receipts, acceptances, endorsements, checks, releases, contracts or other documents shall be signed, and to confer and delegate such power.
l. To do everything necessary or proper for the carrying out of the objects and purposes of the corporation as set forth in the Articles of Incorporation.

Notwithstanding the general delegation of authority granted, the Directors shall support and assist the College in fundraising and donor relations. In carrying out its purposes the Foundation Directors shall not engage in activities that conflict with federal or state laws, rules and regulations (including but not limited to all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations), applicable policies of the Idaho State Board of Education or the role and mission of the College.

4.17 Executive Committee. There shall be an executive Committee which shall have and may exercise all of the authority of the Directors other than in reference to amendment of the Articles of Incorporation, adoption of a plan of merger or consolidation of the corporation, the sale, lease, exchange or other disposition of all or substantially all the assets of the corporation otherwise than in the usual and regular course of its activities, a voluntary dissolution of the corporation or a revocation thereof, or amendment of the Bylaws of the corporation. The members of this committee shall be: The officers of the Board, the Immediate Past President, all chairs of approved committees or task forces and other members as designated.

All action of the executive committee shall be reported to the Directors at its next meeting succeeding such action, and shall be subject to revision or alteration by the Directors, provided that no rights or acts of third parties shall be affected by any such revision or alteration.

A quorum at any meeting of the executive committee shall consist of a simple majority of the Executive Committee Members.
4.18 **Scholarship Committee.** The Directors may designate two or more members as a scholarship committee. These committees, to the extent provided in the resolution below, shall have and exercise the authority of the Directors in the management of the corporation.

To promote the Foundation Scholars Program:

a. Establish and maintain scholarship criteria and policies including approval/disapproval of any exceptions to policy
b. Select scholarship recipients on an annual basis
c. Provide to the Finance & Investment Committee any information that could impact the amount of the annual scholarship award and/or the number of new scholarships to be given
d. Provide support, encouragement and develop rapport with individual Foundation Scholars through attendance at social functions such as the orientation at the beginning of the academic year, a winter holiday party, a reception at the LCSC President’s home, and/or through a graduation recognition event
e. Maintain long-term contact with Foundation Scholars, at the minimum annually, in recognition that these scholars are the future ambassadors for the Foundation

To meet as often as required to review other scholarship applications as requested and select recipients in accordance with established individual scholarship criteria

To participate in the annual Scholarship Luncheon to honor LCSC Foundation and Alumni Association scholarship recipients and donors.

4.19 **Finance & Investment Committee.** The Directors may designate two more members as the Finance & Investment Committee. These committees, to the extent provided in the resolution below, shall have and exercise the authority of the Directors in the management of the corporation.

Finance & Investment Committee of the Foundation shall have the following responsibilities:

a. Oversight of endowment investments. Allocate investments among assets classes according to the investment policy statement. Review the performance of investment portfolio and advisor at least annually.

b. Approve annual distribution of endowments according to the foundation spending policy. For underwater endowments determine if distribution will be paid. If underwater endowment distributions are made, determine the source of funding, including General Unrestricted Funds, Bryden Canyon Quasi-Endowment or other funding sources.

c. Select the number of Foundation scholar scholarships awarded to freshman each year. For scholarships awarded in excess of funds available in the Foundation Scholars Program, determine if distribution will be paid from General Unrestricted Funds, Bryden Canyon Quasi-Endowment or other funding sources.

d. Review financial reports and examine fund balances. Develop the annual operating budget two months before the start of each fiscal year.

e. Approve charitable gift annuities established with gifts of more than $100,000 per beneficiary. For annuities established with gifts of more than $200,000 per beneficiary, submit recommendation for full board approval.

f. Approve acceptance of gifts of assets other than cash. For noncash gifts in excess of $200,000, submit recommendation for full board approval. Acceptance of marketable securities does not require approval by the committee. Marketable securities will be liquidated immediately upon receipt.

4.20 **Other Committees or Task Forces.** The Directors may designate and appoint one or more standing committees or task forces, each of which shall consist of two (2) or more Directors. These committees, to the extent provided in such resolution, shall have and exercise the authority of the Directors in the management of the corporation.
ARTICLE V.
Officers

5.01 Qualification. An Officer must be a Director of the corporation with the exception of the Treasurer, who may be a Designated Member as described in Section 3.05.

5.02 Offices. The offices of the corporation shall consist of president, vice president, secretary, and treasurer and such other offices as the Directors may choose to appoint.

5.03 Election. The officers of the corporation, with the exception of the Treasurer, shall be elected by the Directors at the organizational meeting of Directors and at such annual meeting of Directors thereafter. Officers shall be elected or appointed for a term extending for two years until the next annual meeting of the Directors and shall serve until their successors shall have been duly elected and qualified.

5.04 Duties of President. The president shall be the chief executive officer of the corporation and shall attend and preside at all meetings of the Directors and any executive committee of the Directors. The president shall have responsibility for the planning and implementation of the corporation’s activities and the appointment of employees of the corporation, subject to the advisement and approval of the Directors. The president or vice-president, unless some other person is specifically authorized by vote of the Directors, shall sign all bonds, deeds, mortgages, contracts and other documents of the corporation. The president shall perform all the duties commonly incident to such office and shall perform such other duties as the Directors shall designate.

5.05 Duties of a Vice President. The vice president shall perform the duties and have the powers of the president during his or her absence or disability. A vice president shall perform such other duties and have such others powers as the Directors may designate.

5.06 Duties of the Secretary. The secretary shall ensure accurate minutes of all meetings of the foundation members and the Directors are maintained. The secretary shall attend to the giving and serving of all notices of the corporation, shall have custody of all the original records, papers, files and books of the corporation (except books of accounts and valuable papers properly in the custody of the treasurer); shall attest all instruments in writing executed in the name of the corporation and requiring his or her signature; and shall, in general, perform all the duties incident to the office of secretary and such other duties as the Directors shall designate. In the absence of the secretary, an assistant secretary or a secretary pro tempore shall perform such duties.

5.07 Duties of Treasurer. The treasurer, subject to the order of the Directors, shall have the care and custody of the funds and valuable papers of the corporation in such bank or banks as the Directors shall designate. The treasurer shall have and exercise, under the supervision of the Directors, all the powers and duties commonly incident to such office and give bond in such form and with such sureties as may be required by the Directors. The treasurer shall keep accurate books of account of the corporation’s transactions, which shall be the property of the corporation, and, together with all its property in his or her possession, shall be subject at all times to the inspection and control of the Directors.

5.08 Duties of Executive Director. The executive director shall be given the necessary authority and responsibility to operate the affairs of the corporation and all its activities subject to such policies as may be adopted and such orders as may be issued by the Directors or by any committee or task force to whom they have delegated power for such action. He or she shall act as the duly authorized representative of the Directors in all matters in which the Directors have not formally designated some other person to act.

The authorities and duties of the executive director shall include the responsibility for:

a. Carrying out all policies established by the Directors.
b. Developing and submitting to the Directors for approval of plans and strategies for the corporation’s affairs, including public relations, soliciting donations, and other matters intended to carry out the objectives of the corporation.
c. Preparing an annual budget showing the expected receipts and expenditures as required by the Directors.

d. Selecting and managing staff and developing and maintaining personnel policies and practices.

e. Presenting to the Directors, or their authorized committee, periodic reports reflecting the operating and financial activities of the corporation and the preparation and submission of such special reports as may be required by the Directors.

f. Attending all meetings of the Directors and committees.

g. Performing such other duties as may be necessary and in the best interest of the corporation.

5.09 Other Officers. The duties of the additional officers, other than as defined in the Bylaws of the corporation, shall be prescribed and defined by the Directors.

5.10 Authority to Sign Checks. All checks, drafts or other orders for payment of money, note or other evidence of indebtedness issued in the name of the Corporation, shall be signed by such officer or officers, agent or agents of the Corporation as provided in these Bylaws or in such manner as shall be determined by the Board of Directors.

5.11 Resignation. Any officer may resign at any time by giving written notice to the corporation, to the Directors, to the president, or to the secretary of the corporation. Any such resignation shall take effect at the time specified therein, or if the time be not specified, upon its acceptance.

5.12 Removal. Any officer or agent may be removed at any time by action of the Directors.

5.13 Vacancies. Any vacancy among the officers of the corporation shall be selected by the executive committee subject to the authority of the Directors to approve, disapprove or fill the vacancy themselves.

ARTICLE VI.
Compensation and Indemnification

6.01 Compensation of Directors. Directors shall not be compensated.

6.02 Compensation of Officers. The president, vice president, secretary and treasurer shall receive no compensation.

6.03 Repayment. Any payments made to an employee of the corporation for compensation, salary, bonus, interest, rent or expense incurred by him or her, which shall be determined to be unreasonable in whole or in part by the Internal Revenue Service pursuant to Section 4941(d) (2) (E) of the Internal Revenue Code shall be reimbursed by such employee to the corporation to the full extent of such determination of unreasonableness. It shall be the duty of the Directors to enforce repayment of each such amount. In lieu of repayment by the employee, subject to the determination of the Directors, amounts may be withheld from the employee’s future compensation or expense reimbursement payments until the amount owed to the corporation shall have been recovered.

6.04 Indemnification. Any person who serves on behalf of the Foundation as a director, employee, chairperson or member of any committee, or as a director, trustee or officer of another corporation, shall be deemed to be the Foundation’s agent for purposes of this Article and shall be indemnified by the Foundation against expenses (including attorney’s fees), judgments, fines, excise taxes and amounts paid in settlement actually an reasonably incurred by such person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or a derivative action, by reason of such service, provided such person acted in good faith and in a manner that he or she reasonably believe to be in the best interest of the foundation and, with respect to any criminal action proceeding, had no reasonable cause to believe his or her conduct was unlawful.
ARTICLE VII.
Gifts to Corporation

7.01 In General. Donors may make gifts to the corporation by naming or otherwise identifying the corporation. Gifts shall vest in the corporation upon receipt and acceptance by it, whether signified by a Director, officer, employee or agent of the corporation.

7.02 Acceptance of Governing Documents. Each donor, by making a gift to the corporation, accepts and agrees to all of the provisions of the Articles of Incorporation and these Bylaws.

ARTICLE VIII.
Miscellaneous

8.01 Books and Records. The corporation shall keep accurate and complete books and records of account and shall keep minutes of the proceedings of its Directors and committees having any authority of the Directors. All books and records of the corporation may be inspected by any Director for any proper purpose at any reasonable time.

8.02 Parliamentary Procedure. Parliamentary Procedure shall be the code that governs the procedures of the Foundation Board of Directors’ meetings.

8.03 Corporate Seal. There shall be no seal of the corporation, and all contracts and other papers of the corporation shall be authenticated without any corporate seal.

8.04 Waiver of Notice. Whenever any notice whatsoever is required to be given by these Bylaws, or the Articles of Incorporation, or any of the nonprofit corporation laws of the State of Idaho, a waiver thereof in writing, signed by the person or persons entitled to such notice, whether before or after the time stated therein, shall be equivalent to the giving of such notice for all purposes.

8.05 Contracts and Conveyances. All contracts, deeds, conveyances, negotiable instruments and other instruments of like character which have first been approved by the Directors shall be signed by the president or vice president and the secretary or an assistant secretary, or otherwise as directed by the Directors. No contract of any officer of the corporation shall be valid without previous authorization or subsequent ratification of the Directors.

8.06 Fiscal Year. The Foundation shall operate on a fiscal year beginning July 1st and ending June 30th.

8.07 Dissolution. The corporation exists for the sole purpose of providing support to Lewis-Clark State College (the “College”). Given the significant administrative contribution provided to the corporation by the College, in the event that the corporation ceases to provide such support, the corporation may be dissolved and all assets and records will be distributed exclusively to the College or its successor in interest pursuant to the Articles of Incorporation.

8.08 Amendment. These bylaws may be altered, amended or repealed at any regular or special meeting of the Directors, provided a quorum is present and provided further that notice of the substance of the proposed amendment shall be submitted to each Director within the same time and in the same manner prescribed for notice of the meeting.

CERTIFICATION

We, the undersigned President, Vice President and Secretary of the Lewis-Clark State College Foundation, Inc. an Idaho Corporation, do hereby certify that the foregoing Bylaws supersed all prior Bylaws, amended or restated, were duly adopted as the restated Bylaws of said corporation at a duly constituted meeting of the members
of the corporation at which a quorum was present, in person or by proxy, said meeting, held March 17, 2015, and that the same do now constitute the Bylaws of said corporation.
EXHIBIT "F"

Conflict of Interest Policy

Lewis-Clark State College Foundation
CONFLICTS OF INTEREST POLICY

No board member shall use his or her position, or the knowledge gained therefrom, in such a manner that conflict between the interest of the organization or any of its affiliates and his or her personal interests arises.

Each board member has a duty to place the interest of the organization foremost in any dealings with the organization and has a continuing responsibility to comply with the requirements of this policy.

Board or committee members may not obtain for themselves, their relatives, or their friends a material interest of any kind from their association with the organization.

It is, nevertheless, recognized that transactions between Lewis-Clark State College Foundation (“Foundation”) and a business or other organization with whom a board member is affiliated may be beneficial to the Foundation and that the Foundation should not be precluded from entering into that beneficial transaction so long as the board member does not participate in or otherwise influence the Foundation’s decision regarding the transaction.

It shall be the policy of the Foundation to require that all new Board members, prior to assuming their positions, and all present Board members, as soon as practicable after the adoption of this policy, submit in writing to the President a list of all businesses or other organizations (other than the Foundation) of which he or she is an officer, member, owner (either as a sole practitioner or partner), shareholder with a five percent (5%) or greater interest in all outstanding voting shares, employee or agent, with which the Foundation has, or may reasonably in the future have, a relationship or transaction in which the Board member or officer would have conflicting interests. Each written statement shall be resubmitted each year with any necessary changes.

The President shall become familiar with the statements of all Board members and officers in order to guide their conduct should a conflict arise. The Vice-President shall be familiar with the statement filed by the President.

At such time as any matter comes before the Board in such a way as to give rise to conflict of interest, the affected Board member or officer shall make known the potential conflict, whether disclosed by written statement or not. After answering any questions that might be asked, the affected Board member shall withdraw from the meeting until the matter has been voted upon. In the event that the affected Board member or officer fails to withdraw voluntarily, the President is empowered to require withdrawal from the room during both discussion and vote on the matter. In the event the conflict of interest affects the President, the Vice-President is empowered to require that the President withdraw in the same manner, and for the duration of discussion and action on the matter the Vice-President shall preside.

If the matter about which a conflict has arisen is the item of business for which a special meeting of the Board was called, the affected member may be counted to establish a quorum, but shall not participate in the discussion or vote on it.

ADOPTED, this 15th day of December, 1998.

Code of Ethical Conduct

Directors and Officers of the LC State Foundation represent Lewis-Clark State College and its Foundation, and have a responsibility to conduct themselves in such a manner as to give a positive impression of Lewis-Clark State College to the public, students, and alumni. Directors and Officers of the LC State Foundation pledge to accept the following ethical guidelines:

1. Accountability: Faithfully abide by the Articles of Incorporation, Bylaws and policies of the LC state Foundation, and exercise reasonable care, faith and due diligence in organizational affairs.

2. Professional Excellence: Maintain a professional level of courtesy, respect and objectivity in all Foundation activities.

3. Professional Gain: Exercise the powers invested for the good of all members of the organization rather than his/her personal benefit. Transactions involving the Foundation and the personal or business affairs of a trustee, director, officer, or staff member should be approved in advance by the Foundation’s governing board. In addition, directors, officers, and staff members of a foundation disqualify themselves from making, participating, or influencing a decision in which they have or would have a financial interest.

4. Confidential Information: Respect the confidentiality of sensitive information known due to service.

5. Collaboration and Cooperation: Respect the diversity of opinions as expressed or acted upon by the Foundation board, committees and membership, and promote collaboration, cooperation and partnership among Foundation Members.

6. Gifts: No director, trustee, officer, or staff member of a foundation shall accept from any source any material gift or gratuity in excess of fifty dollars ($50.00) that is offered, or reasonably appears to be offered, because of the position held with the foundation; nor should an offer of a prohibited gift or gratuity be extended by such an individual on a similar basis.
EXHIBIT "H"

Gift Acceptance Policy

Lewis-Clark State College Foundation
Gift Acceptance Policy
(Article VII of the Bylaws)

Gifts to Corporation:

In General

Donors may make gifts to the corporation by naming or otherwise identifying the corporation. Gifts shall vest in the corporation upon receipt and acceptance by it, whether signified by a Director, officer, employee or agent of the corporation.

Acceptance of Governing Documents

Each donor, by making a gift to the corporation, accepts and agrees to all the provisions of the Articles of Incorporation and (the) Bylaws.

Split Interest Gifts

The corporation shall have the power and authority to arrange and administer deferred and other split-interest gifts, including, but not limited to, charitable lead and remainder unitrusts and annuity trusts, and charitable gift annuities, but only as permitted by the laws of the State of Idaho. If a gift is made to the corporation or a third party (in trust or otherwise) to make income or other payments for a period of a life or lives or other periods to any individuals or for noncharitable purposes, followed by payments to the corporation, or to make income or other payments to the corporation, followed by payments to any individuals or for noncharitable purposes, only the payments to the corporation shall be regarded as subject to the corporation’s Articles of Incorporation and (the) Bylaws and then only when the corporation becomes entitled to their use. The Directors may take such actions as it, from time to time, deems necessary to protect the corporation’s rights to receive such payments.

Restricted Gifts, Acceptance

Any donor may, with respect to a gift made by such donor to the corporation, provide at the time of the gifts restrictions or conditions which are not inconsistent with the charitable purposes of the corporation, as to (i) the manner of distribution, including amounts, times and conditions of payment and whether from principal or income, and (ii) the name, as a memorial or otherwise, for a fund given, or addition to a fund previously held, or anonymity for the gift. Restrictions involving the naming of a fund as a memorial or otherwise may be satisfied by keeping such name appropriate accounts reflecting the interest of such funds in a common investment. Nothing in the foregoing shall obligate the corporation to accept any gift or to perform any act, which, in the opinion of the Directors, will not be in the best interests of the corporation or which may jeopardize or cause it to lose its status as an exempt organization described in Section 501 (c) (3) of the Internal Revenue Code.
EXHIBIT "I"

Policy for Accounting for Gift Revenue

Lewis-Clark State College Foundation
Policy for Accounting of Gift Revenue

1. **Fiduciary Responsibility.** Each gift, regardless of value, form, or designated use, shall be accounted for at the time of receipt until used as directed by the donors in support of the mission of the Foundation and/or the College. During such time as funds are retained, they shall be invested in accordance with procedures of the Finance and Investment Committee. The development office shall be responsible for any reports to donors on the use of their funds, to be accomplished in concert with operating managers and the accounting department.

2. **Allocation to Restricted Funds.** Gifts received for restricted purposes (either temporarily restricted or permanently restricted) shall be separately accounted for in order to maintain stewardship of these funds as donors direct. The segregation of these funds is to be performed by the accounting department, who shall report to donors on their disposition and use through the development office.

3. **Expenditure Controls.** The uses of gift revenue, especially restricted gifts shall be fully accounted for, beginning with their deposit to temporarily restricted fund accounts, stewardship, disposition reports, and with expenditures only as directed by the donor in keeping with the mission of the College and/or the Foundation.

4. **Allocation to Endowment.** Funds restricted to endowment or so restricted by the Foundation Board shall be invested and accounted for in accord with policies of the Finance and Investment Committee.

5. **Investment of Funds.** All gifts received shall be invested until used in accord with donor wishes, using short-term or long-term investment plans as defined by the Finance and Investment Committee. Funds restricted to endowment or so restricted by the Foundation Board shall be invested and accounted for as directed by the Finance and Investment Committee. Investment earnings shall be used only for the purposes board, with amounts as resolved by the Finance and Investment Committee.

6. **Accounting Reports.** Regular accounting reports will summarize the disposition of all money, illustrating their present disposition by source, purpose or use, and fundraising program, which shall be prepared for each Foundation Board meeting and distributed to the Board members.

Committee Descriptions
Committee or Task Force Descriptions

Executive Committee

The Executive Committee is chaired by the President of the Foundation Board.

The members of the Executive Committee shall be: The officers of the Board, the Immediate Past President, all chairs of approved committees or task forces and other members as designated.

Responsibilities include:

* making interim decisions for the Board (to be ratified by the full Board at its subsequent meeting);
* overseeing the long-range and strategic planning of the organization;
* serving as a sounding board for new programs or policies that should come before the full Board eventually;
* enforcing membership responsibilities, including attendance policies and committee appointments;
* monitoring progress of Board and staff in achieving the current year goals;
* scrutinizing budget performance;
* maintaining a close and candid relationship with the leadership of the College;
* following and evaluating the performance of the Foundation’s Executive Director;
* evaluating Board performance by recognizing superior results or levels of service and by arranging for the departure of unproductive Board members;
* acting on behalf of the Board in times of emergency or necessary expediency.

The actions of the Executive Committee are subject to revision or alteration by the Board. Minutes of Executive Committee meetings are sent to each Board member. Membership in the Executive Committee will not exceed a quorum of the full Board. A quorum at any meeting of the Executive Committee shall consist of a simple majority of the members.

Lewis-Clark State College Foundation
Other Committee or Task Force Descriptions

Finance and Investment Committee

The Finance and Investment Committee shall oversee the Foundation’s budget activities and expenses; monitor the flow of funds to determine consistency between expenditures and generated revenue; manage the investment portfolio; establish financial policies; oversee the buildings and grounds owned by the Foundation.
Scholarship Committee

The Scholarship Committee shall oversee the awarding of specific scholarships; establish scholarship policies and review the process; assist in the planning of three scholarship events annually.

Other Committees or Task Forces

The Directors may designate and appoint one or more standing committees or task forces, each of which shall consist of two (2) or more Directors. These committees, to the extent provided in such resolution, shall have and exercise the authority of the Directors in the management of the corporation.
EXHIBIT "L"

Endowment Fund Fee Policy

Notice of Endowment Fund Fee Policy
LCSC Foundation

Effective July 1, 2023, the LCSC Foundation Board will implement the following policy regarding administrative fees on all funds received.

2% Fee on Donations Received

In general, a 2% administrative fee will apply to all donations received by the Foundation to offset the costs of accounting, fundraising, and other administration costs. The fee will not apply to in-kind donations.

The 2% fee will apply at the time of the donation and will be a one-time fee. The 2% fee for gift annuities will apply at the end of the annuity when the funds become available to the Foundation.

½ of 1% (.5%) Annual Fee on Average Endowment Fund Balances

The .5% fee will be charged to Endowment Funds, Alumni Endowments, and Other Endowments. The .5% fee will not apply to the following fund classifications:

1. Gift annuities
2. General Unrestricted Funds
3. Annual Funds
4. Funds designated as Other Funds
5. LCSC Designated Funds

The .5% fee will be based on the average endowment fund balances and not on the amount of profit or loss earned or allocated for any time period. The fee will be calculated twice during each year using .25% times the fund market values at December 31 and June 30, and will be included with the December and June six months’ market allocation postings.
IDAHO DEPARTMENT OF EDUCATION

Emergency Provisional Certificate Recommendations

REFERENCE

- April 2019: Board approved SDE recommendations for processing emergency provisional certificates.
- August 2019: Board approved SDE revised procedures regarding emergency provisional certificates.
- August 2021: Board approved SDE revised emergency provisional certificate process.
- October 2022: Board approved 76 provisional certificates for the 2022-2023 school year.
- December 2022: Board approved 87 provisional certificates for the 2022-2023 school year.
- February 2023: Board approved 31 provisional certificates for the 2022-2023 school year.
- April 2023: Board approved 14 provisional certificates for the 2022-2023 school year.
- June 2023: Board approved 4 certificates for the 2022-2023 school year.
- October 2023: Board approved 16 provisional certificates for the 2023-2024 school year. Board approved procedures for processing emergency provisional certificates.
- December 2023: Board approved 117 provisional certificates for the 2023-2024 school year.
- February 2024: Board approved 26 provisional certificates for the 2023-2024 school year.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code § 33-1201 and 33-1203

BACKGROUND
Section 33-1201, Idaho Code, requires that every person who is employed to serve in any elementary or secondary school as a “teacher, supervisor, administrator, education specialist, school nurse or school librarian to hold a certificate issued under authority of the State Board of Education, valid for the service being rendered.” Section 33-1203, Idaho Code allows the State Board of Education to authorize a provisional certificate for teachers when the candidate has at least two years of college training and an emergency has been declared. This section of code does not authorize issuance of emergency provisional certificates for pupil service staff or administrators.

School districts receive the same level of funding for staff with an emergency
provisional certificate as they receive for an individual with a standard certificate. Funding for long-term substitutes is at the same level as non-certified classified staff.

DISCUSSION
Ten complete Emergency Provisional Certificate applications for Instructional certificate(s)/endorsement(s) were received by the Idaho Department of Education by February 28, 2024.

The Certification Department of the Idaho Department of Education reviewed each candidate’s full application. Each candidate presented below, requesting Instructional certificate(s)/endorsement(s), has completed at least two years of college training, making them eligible for emergency provisional certificate consideration. Each LEA has declared a hiring emergency, summarized the hiring efforts, and attested to the candidate’s ability to fill the position.

The Idaho Department of Education is requesting authorization to issue provisional certificates as presented below.

**Council School District #013**
1. **Applicant Name:** Robyn Warner  
   **Certificate:** Provisional  
   **Endorsement(s):** All Subjects K-8  
   **College Training:** 90 credits  
   **Declared Emergency Date:** 7/24/2023  
   **Hire/Assignment Date:** 7/24/2023  
   **Summary of Recruitment Efforts:** Advertised locally, on website and through edjobsidaho.com. No other inquiries or applicants. (need board minutes)

**St. Maries Joint School District #041**
2. **Applicant Name:** Christie Trott  
   **Certificate:** Provisional  
   **Endorsement(s):** All Subjects  
   **College Training:** 91 credits  
   **Declared Emergency Date:** 1/8/2024  
   **Hire/Assignment Date:** 1/8/2024  
   **Summary of Recruitment Efforts:** A 4th grade teacher resigned her position after January 1. Current candidate is current completing classes towards a degree.
Jefferson School District #251
3. **Applicant Name:** Benjamin Hogenson  
**Certificate:** Provisional  
**Endorsement(s):** Visual Arts (K-12)  
**College Training:** BA  
**Declared Emergency Date:** 12/13/2023  
**Hire/Assignment Date:** 12/14/2023  
**Summary of Recruitment Efforts:** One of the school’s teachers passed away suddenly on November 28th. The position was posted on 12/1/2023. Only one applicant applied for the position, but he did not have the proper certification. The school is applying for the Emergency Provisional for him.

Jerome Joint School District #261
4. **Applicant Name:** Christopher Holt  
**Certificate:** Provisional  
**Endorsement(s):** English (6-12)  
**College Training:** 99 credits  
**Declared Emergency Date:** 1/23/2024  
**Hire/Assignment Date:** 1/4/2024  
**Summary of Recruitment Efforts:** Previous to Mr. Holt, the school filled the position with a certified teacher. That person resigned early October creating a vacancy for this position. Multiple subs were utilized in place of a certified teacher. Two other applications applied, one did not have any college credits; the other candidate did have a degree and accepted the position, but resigned after two weeks. Mr. Holt will be completing his degree this year.

Buhl Joint School District #412
5. **Applicant Name:** Nicole Jacobson  
**Certificate:** Provisional  
**Endorsement(s):** Mathematics (6-12)  
**College Training:** AA  
**Declared Emergency Date:** 1/15/2024  
**Hire/Assignment Date:** 1/3/2024  
**Summary of Recruitment Efforts:** The position has been advertised since November. Two applications were received, both will require Alternative Authorization or Emergency.

Idaho Science and Technology Charter School #468
6. **Applicant Name:** Jessica Olsen  
**Certificate:** Provisional  
**Endorsement(s):** All Subjects K-8  
**College Training:** 113 credits  
**Declared Emergency Date:** 2/21/2024  
**Hire/Assignment Date:** 8/1/2022  
**Summary of Recruitment Efforts:** This is a second year provisional
certificate. The candidate does not qualify for an Alternative Authorization due to the student teaching timeline and because she does not have a bachelor's degree.

7. **Applicant Name:** Mashalee Thomas  
   **Certificate:** Provisional  
   **Endorsement(s):** All Subjects K-8  
   **College Training:** 120 credits  
   **Declared Emergency Date:** 2/21/2024  
   **Hire/Assignment Date:** 8/2022  
   **Summary of Recruitment Efforts:** This is a second year provisional certificate. This person is not eligible to student teach because she did not pass the Praxis test. She will be eligible to student teach in the 24-25 school year.

8. **Applicant Name:** Kareene Herman  
   **Certificate:** Provisional  
   **Endorsement(s):** All Subjects K-8  
   **College Training:** 99 credits  
   **Declared Emergency Date:** 11/13/2023  
   **Hire/Assignment Date:** 9/2023  
   **Summary of Recruitment Efforts:** The school advertised the position for six months, using multiple platforms, but was unable to find a qualified teacher.

9. **Applicant Name:** Nikki Martin  
   **Certificate:** Provisional  
   **Endorsement(s):** All Subjects K-8  
   **College Training:** AA  
   **Declared Emergency Date:** 11/13/2023  
   **Hire/Assignment Date:** 9/2023  
   **Summary of Recruitment Efforts:** The school advertised the position for six months, using multiple platforms, but was unable to find a qualified teacher.

10. **Applicant Name:** Lindsay Reese  
    **Certificate:** Provisional  
    **Endorsement(s):** All Subjects K-8  
    **College Training:** 48 credits  
    **Declared Emergency Date:** 11/13/2023  
    **Hire/Assignment Date:** 9/2023  
    **Summary of Recruitment Efforts:** The school advertised for six months, using multiple platforms, but was unable to find a qualified teacher.
IMPACT

If the Board approves the request, the Idaho Department of Education will be authorized to issue emergency provisional certificates to the qualifying candidates. An emergency provisional certificate is effective for one (1) year. No financial penalties will be assessed to the LEA while an emergency provisional certificate is in effect.

If the Board does not approve the request, the Idaho Department of Education will not be authorized to issue the requested emergency provisional certificates. The school district would be required to pursue other hiring options and may face financial impact.

BOARD STAFF COMMENTS AND RECOMMENDATIONS

Board staff verified that each candidate has completed at least two years of college training and that the school district declared a hiring emergency. All candidates have been hired by a local education agency as teachers for the 2023-2024 school year. Candidates that have already completed a Baccalaureate degree or higher are not eligible to apply through another pathway.

The staff recommends that the Board authorize the Idaho Department of Education to issue one-year provisional certificates for candidates 1-10 as presented above.

BOARD ACTION

I move to authorize the Idaho Department of Education to issue emergency provisional standard instructional certificates for candidates 1-10 as presented above, effective for the 2023-2024 school year only, and pending a cleared background check.

Moved by ___________Seconded by ___________Carried Yes _____No _____
SUBJECT
Requests for approval to transport students less than one and one-half miles for the 2023-2024 school year (safety busing)

REFERENCE
June 2021 The Board approved the request for 97 school districts and 22 charter schools to transport students less than one and one-half miles for the 2019-2020 school year.
June 2022 The Board approved the request for 97 school districts and 22 charter schools to transport students less than one and one-half miles for the 2020-2021 school year.
June 2023 The Board approved the request for 96 school districts and 21 charter schools to transport students less than one and one-half miles for the 2021-2022 school year.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code § 33-1006
Idaho Code § 33-1502

BACKGROUND/DISCUSSION
Pursuant to Idaho Code §33-1006, “The State Board of Education shall determine what costs of transporting pupils, including maintenance, operation and depreciation of basic vehicles, insurance, payments under contract with other public transportation providers whose vehicles used to transport pupils comply with federal transit administration regulations, “bus testing,” 49 CFR part 665, and any revision thereto, as provided in subsection (4)(d) of this section, or other state department of education approved private transportation providers, salaries of drivers, and any other costs, shall be allowable in computing the transportation support program of school districts.”

The transportation support program of a school district shall be based upon the allowable costs of transporting pupils less than one and one-half (1½) miles as provided in Idaho Code § 33-1501 when approved by the State Board of Education.

The Standards for Idaho School Buses and Operations states, “All school districts submitting applications for new safety busing reimbursement approval shall establish a board policy for evaluating and rating all safety busing requests. The State Department of Education staff shall develop and maintain a measuring instrument model, which shall include an element for validating contacts with responsible organizations or persons responsible for improving or minimizing hazardous conditions. Each applying district will be required to annually affirm that conditions of all prior approved safety busing requests are unchanged.

The local board of trustees shall annually, by official action (Idaho Code § 33-1502), approve all new safety busing locations. School districts that receive state
reimbursement of costs associated with safety busing will re-evaluate all safety busing sites at intervals of at least every three years using the local board adopted measuring or scoring instrument. To qualify for reimbursement, the local school board will, by official action, approve the initial safety-busing request and allow the students in question to be transported before the application is sent to the state. Consideration for reimbursement is contingent on the application being received by the State Department of Education Transportation Section on or before March 1 of the school year in which the safety busing began.”

All requests are submitted on the Safety Busing form found in the Idaho Bus Utilization System (IBUS) Portal. Reminders are emailed to all districts and charter schools prior to March 1. All requests recommended for approval are compliant with Idaho Code § 33-1006.

Eighty-eight (88) school districts and twenty-six (26) charter schools serving 23,831 students applied for safety busing using the correct form and are being recommended for approval.

IMPACT
The approval of LEAs with safety-bused students listed in Attachment 1 allows LEAs to be reimbursed for routes that meet the safety busing requirements. Board inaction or denial of the safety bus waivers would result in a loss of funding for the LEAs in question.

ATTACHMENTS
Attachment 1 – Safety Busing Rider Count Report

STAFF COMMENTS AND RECOMMENDATIONS
Board staff recommend approval of the request to transport students less than one and one-half miles as submitted in Attachment 1.

BOARD ACTION
I move to approve the requests by eighty-eight (88) school districts and twenty-six (26) charter schools for approval to transport students less than one and one-half miles as submitted in Attachment 1.

CONSENT
APRIL 17-18, 2024

SUBJECT
Transportation Funding – 103% Cap Waiver

REFERENCE
June 2021 The Board approved the request for six (6) districts to receive a funding cap waiver.
June 2022 The Board approved the request for eight (8) school districts to receive a funding cap waiver.
June 2023 The Board approved the request for six (6) school districts to receive a funding cap waiver.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code § 33-1006

BACKGROUND/DISCUSSION
Idaho Code § 33-1006 designates certain bus runs as “hardship” runs and allows districts to receive a higher cap based on the percentage of bus runs that exceed the statewide average cost per mile and cost per rider by 103%.

DISCUSSION
A total of 30 school districts and charter schools were negatively affected by the pupil transportation funding cap as of March 8, 2023. The State Department of Education Student Transportation staff reviewed these requests and determined four (4) districts met the eligibility criteria of the 103% Cap Waiver as outlined in Idaho Code §33-1006.

#341 Lapwai District submitted school bus routes that met the required criteria. This represents 44.44% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 147.44%.

#244 Mountain View School District submitted school bus routes that met the required criteria. This represents 46.43% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 149.43%.

#171 Orofino School District submitted school bus routes that met the required criteria. This represents 27.59% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 130.59%.

#281 Moscow School District submitted school bus routes that met the required criteria. This represents 25% of the bus runs operated by the district. When added to the 103% funding cap, as provided by law, this would allow the Board to increase their funding cap to a maximum of 128%.
IMPACT
Approval of the cap waivers allows districts to be reimbursed for routes that meet the hardship criteria. Board inaction or denial of the funding cap waivers would result in a loss of funding for the school districts in question.

ATTACHMENTS
Attachment 1 – Negatively Affected Schools/Charters
Attachment 2 – Funding Cap Waiver Spreadsheet

STAFF COMMENTS AND RECOMMENDATIONS
Board staff recommends that the Board waive the 103% transportation funding cap for the four districts as presented.

BOARD ACTION
I move to approve the request by #341 Lapwai School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2023 of 147.44%, for a total of $5,876 in additional funds from the public-school appropriation.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

CONSENT
APRIL 17-18, 2024

SUBJECT
Appointments to the Professional Standards Commission

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-1252, Idaho Code

BACKGROUND/DISCUSSION
Section 33-1252, Idaho Code, sets forth criteria for membership on the Professional Standards Commission (PSC). The Commission consists of eighteen (18) members including one (1) from the State Department of Education and one (1) from the Division of Career Technical Education. The remaining members shall be representative of the teaching profession of the State of Idaho, and not less than seven (7) members shall be certificated classroom teachers in the public school system and shall include at least one (1) teacher of exceptional children and at least one (1) in pupil personnel services.

The Idaho School Superintendents’ Association, the Idaho Association of Secondary School Principals, the Idaho Association of Special Education Administrators, the education departments of private colleges, and the colleges of letters and sciences of the institutions of higher education may submit nominees for (1) position each. The community colleges and the education departments of the public institutions of higher education may submit nominees for two (2) positions.

Six (6) positions on the PSC are open for three (3)-year appointments, effective July 1, 2024. two (2) positions representing certificated classroom teachers, one (1) position representing private higher education/teacher education, one (1) position representing elementary school principals, one (1) position representing school board members, and one (1) position representing the Division of Career Technical Education.

Nominations were sought from the Idaho Association of Colleges for Teacher Education (IACTE), the Idaho Education Association (IEA), the Idaho School Boards Association (ISBA), the Northwest Professional Educators (NWPE), the Idaho Indian Education Committee (IIEC), the Idaho Association of Elementary School Principals (IAESP), and the Idaho Division of Career Technical Education (IDCTE). Nominations for appointment or reappointment were received from IEA, IACTE, and IDCTE.

In compliance with Section 33-1252(2), Idaho Code, three (3) nominations are sought for each open position. Three (3) nominations for appointment were received from IACTE. The IEA and ISBA each re-nominated a current PSC appointee and did not seek additional nominations from their membership. The IDCTE also re-nominated their current PSC appointee for appointment. No
nominations were received for one classroom teacher position, and no nominations were received for the elementary school principal position.

IMPACT
Board action allows for the appointment or reappointment of members to the Professional Standards Commission, ensuring all possible seats on the Commission are filled.

ATTACHMENTS
Attachment 1 – Current Professional Standards Commission Members
Attachment 2 – Angela Gillman, IEA
Attachment 3 – Melissa Green, IACTE
Attachment 4 – Kristi Enger, CTE
Attachment 5 – Karen Pyron, ISBA

STAFF COMMENTS AND RECOMMENDATIONS
The Board staff recommends approval of all proposed appointments to the Professional Standards Commission.

BOARD ACTION
I move to appoint Melissa Green of Brigham Young University-Idaho, representing private higher education/teacher education, to the Professional Standards Commission for a three-year term beginning July 1, 2024, and ending June 30, 2024.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to reappoint Angela Gillman of Idaho Falls School District, representing certificated classroom teachers, to the Professional Standards Commission for a three-year term beginning July 1, 2024, and ending June 30, 2027.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to reappoint Kristi Enger, representing the Idaho Division of Career Technical Education to the Professional Standards Commission, for a three-year term beginning July 1, 2024, and ending June 30, 2027.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND
I move to reappoint Karen Pyron, representing the Idaho School Boards Association, to the Professional Standards Commission for a three-year term beginning July 1, 2024, and ending June 30, 2027.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

Kristi A. Enger

Professional Honors and Activities

Leadership Institute/Project Leadership Graduate, 2016
Professional Standards Committee (Idaho State Department of Education), 2013
Association for Computer-Based Systems for Career Information (Idaho CIS), 2010
National Leadership Cadre (OVAE School Counseling State Consortium 1 of 8 states) 2006

Professional Experience

IDAHO DIVISION OF CAREER TECHNICAL EDUCATION – Boise, Idaho
State of Idaho education agency responsible for programs leading to less than a baccalaureate degree
Educator Certification Director; Certification and Professional Development Director; Secondary Programs Director; Secondary Coordinator; IOT & Marketing Education Program Manager, Career Guidance Coordinator 6/2005 to Present
Certify CTE educators as per Idaho and State Board of Education law and policy. Implement and facilitate professional development opportunities. Oversee Idaho’s secondary CTE programs and funding. Coordinate programs associated with the High Schools That Work school reform model. Represent the Division as a superintendents’ liaison. Manage individualized occupational training and marketing education programs toward the Division’s quality initiative. Coordinate career guidance grades 7-16 statewide to support professional-technical programs and access for all students, including special populations.

Selected Accomplishments:

• Provide technical assistance to the field with regard to questions related to CTE educator certification, the IDCTE assignment credential manual, Perkins, and other state and federal legislation.
• Provide technical assistance to the field at the secondary and postsecondary levels in the areas of career guidance, student learning plans, work-based learning, single parent/displaced homemaker and other special populations, and marketing education.
• Facilitate various groups of internal and external stakeholders in generating quality products and program direction including:
  o Resource development for Idaho grades 7-12 based on direction provided by postsecondary technical college Curriculum development for the Idaho School Counseling Model and IOT
  o Curriculum development related to the American Careers Student Planner and Idaho Career Planning Guide
  o Career Pioneer Network implementation in response to Perkins IV and Idaho’s low nontraditional field measures of enrollment and completion at the secondary and postsecondary levels.
• Administer and provide technical assistance to the Centers for New Directions.
• Communicate regularly with the field through various means, including two e-Newsletters—Career Connection, and Diamond Points.
• Define professional development needs and develop learning opportunities for grades 7-20 counselors, work-based learning coordinators, marketing education instructors, and other educational personnel.
• Network with educational and industry professionals throughout Idaho in an effort to promote career technical education, access for all, and career pathway education and employment.

GLENNS FERRY SCHOOL DISTRICT NO. 192 – Glens Ferry, Idaho
Local education agency
High School Principal, 6/1999 to 6/2005
Supervised instruction and provided educational leadership to a staff of 32 certificated and classified staff in academic, co-curricular, and extracurricular activities. Served as district professional-technical online administrator, district curriculum coordinator, and K-12 summer school administrator

Selected Accomplishments:

• Coordinated district curriculum in English and mathematics.
• Authored successful Title I CSR Grant to assist in implementing High Schools That Work systemic school reform and provided collaborative leadership to involve all staff in improving student achievement.
• Administered high school general budget and special project funds, and Associated Student Body funds as district’s assistant treasurer.

THREE FORKS SCHOOL DISTRICT – Three Forks, Montana
Local education agency
**K-6 Counselor, Drug-Free Schools Coordinator, Technology Coordinator, 8/1995 to 5/1999**
Secured resources and implemented K-6 guidance curriculum. Established and maintained collaborative relationships with instructional staff, students, and parents toward facilitating student success. Facilitated district-wide technology implementation, growth, and maintenance.

**Selected Accomplishments:**
- Provided individual, group and family counseling as requested/identified.
- Established *Sidekick* mentoring program (K-12) in collaboration with Big Brothers Big Sisters, and secured grant funding to establish *Bridging the Gap* after-school program.

WILLOW CREEK SCHOOL DISTRICT – Willow Creek, Montana
Local education agency
**K-12 Counselor, Drug-Free Schools Coordinator, Title I Coordinator, 8/1995 to 5/1999**

**Selected Accomplishments:**
- Administered Title I program in cooperation with Title I staff.
- Established electronic student database.

POPLAR PUBLIC SCHOOL DISTRICT – Poplar, Montana
Local education agency
**High School Counselor, 6/1991 to 5/1995**

**Selected Accomplishments:**
- Established crisis intervention management plan and trained staff in same.
- Developed and implemented counseling curriculum, K-12.

**Business Education Instructor, 8/1987 to 5/1991**

**Selected Accomplishments:**
- Designed, maintained, and upgraded PC-compatible lab.
- Implemented student store as authentic, project-based, learning laboratory.

---

**Professional Memberships**

Association for Career Technical Education/Career Technical Educators of Idaho

**Education**

MONTANA STATE UNIVERSITY – Bozeman, Montana
**Administrative Endorsement, Educational Leadership, 8/1998**

MONTANA STATE UNIVERSITY – Bozeman, Montana
**Masters of Education, 8/1994**
- Major: Guidance and Counseling | Graduated with highest honors

MONTANA STATE UNIVERSITY – Bozeman, Montana
**Bachelor of Science, 3/1986**
- Major: Business Education/Office Systems | Minor: Business Management | Graduated with highest honors
Karen M. Pyron
Improving Performance • Enhancing Programs • Inspiring Systemic Change

EXPERIENCED Administrator
An abbreviated resume for re-appointment to the Professional Standards Commission

SUMMARY OF QUALIFICATIONS

• Specializations include: Currently on the Professional Standards Commission; 13 Years administrative experience; state teacher evaluation task force, commissions, leadership; Federal program experience includes over ten years completing Title I consolidated plans, Title IIA, WISE Tool / school improvement, and most recently, Supplemental Education Services (wrote grant for services including “self-provider”; directed local SES program); 2007 Idaho National Distinguished Principal

• Instructional Leadership – Work with TIA, RTI, Danielson teacher evaluation model, SWPBS, Supplemental Educational Services, Title I; State RTI training 2010-2011

• Participated on state program review team – BYU-I teacher education program

• Attended 2011 National Association of State Directors of Teacher Education and Certification Annual Conference: Educator Boundaries & Social Media

• Participated in National Principals Mentor Training and Certification Program, March 2012

• State Administrator training for Danielson evaluation model, March – June 2012

• Attended NAESP National Conference 2012 featuring Charlotte Danielson, Rick Stiggins, Doug Reeves, Richard & Rebecca DuFour

• 2011-2012 Lost River Economic Development Leadership Academy

PROFESSIONAL TEACHING AND ADMINISTRATIVE EXPERIENCES

ELEMENTARY PRINCIPAL ARCO ELEMENTARY SCHOOL, ARCO, IDAHO
April 1998 – August 31, 2011

• Contributed to a significant increase in student performances on standardized testing

• Served on state’s Teacher Evaluation Task Force

• Active member, committees, and region president Idaho Association of Elementary School Principals

• Enforced the “No Child Left Behind” Act through supplemental educational services.

• Named Idaho’s 2007 elementary National Distinguished Principal.

CLASSROOM TEACHER, BUTTE COUNTY SCHOOL DISTRICT, ARCO, IDAHO
August 1975 – April 1998

ASSOCIATIONS & CERTIFICATIONS

Idaho Superintendent Endorsement
Idaho Principal Endorsement, K-12
Secondary Teacher Certification Speech, English, Reading, and Psychology
Idaho Association of School Administrators
Idaho Association of Elementary School Principals (past regional president)
National Association of Elementary School Principals
American Association of Curriculum and Supervision
Idaho Education Association, 1975 – 2009
Board of Control, Idaho High School Activities Association, 1985 - 1995

The University of Idaho elevates students and generates innovative research that fuels our state’s economy.

It is our mission to build on our rich traditions of access and outreach as Idaho’s land grant institution. We educate Idaho’s future leaders and disseminate our research to support residents in each of the state’s 44 counties.

Our 2024 annual report, “World Class, Idaho Focused” includes examples of how the U of I carries out its mission. This report includes the progress made on our institutional strategic plan and the State Board of Education’s strategic plan. It also emphasizes our institutional pillars of supporting student success, prioritizing research and telling our story.

The following pages feature highlights from another banner year for the University of Idaho. Our enrollment continues to climb and our student success markers are on the rise. Our research enterprise set a new standard for excellence and we posted another very strong fundraising year.

The U of I continues to build positive momentum. Our enrollment growth fuels our financial stability and investments in strategic priorities are beginning to produce big wins.

As students discover our immense value, our employees support Idaho industries and communities. The U of I truly is world class and Idaho focused.

President Scott Green

6-year graduation rate increased from 59.1% to 61%.

UI grads earn the TOP STARTING SALARIES IN IDAHO

SECOND-LARGEST FRESHMAN CLASS in U of I history in Fall of 2023.

2,421 DEGREES AND CERTIFICATES awarded in 2022-23.
More than $900K IN SCHOLARSHIPS for cybersecurity students

SERVE 3,500 rural students

65 National Merit Scholars enrolled

Retention rates:
Freshman retention rates remain high at 75%
despite much higher number of first generation students.
In 2019, leadership took a fresh look at the university’s progress on the 10-year strategic plan (2016-2025) and its strength to drive mission fulfillment. Facing a budget deficit and enrollment challenges, the university created a sustainable financial model to guide future university decisions. The result was the Vandal Hybrid Financial Model, developed using four guiding principles:

- Mission alignment
- Transparency
- Agility and adaptability
- Incentive Based.

The model drives our successful financial stability and future program development. We continue to use the model to reallocate current year funds and award new revenues based on the guiding principles above.

Under President Green’s leadership, three strategic initiatives or pillars were identified in 2020 as the foundation for mission fulfillment:

1. Supporting student success
2. Prioritizing research
3. Telling the story of our institution
University leadership continues to monitor and discuss strategic plan metrics. Progress is communicated annually, through the April strategic plan report to the State Board of Education.

The Circle of Success shown in Figure 1 demonstrates how strategic initiatives support the U of I’s mission and values.

Looking ahead, the University plans to hire a consulting firm to guide our strategic planning process in 2024-2025. Our work with a national firm will include market analysis, industry feedback, and stakeholder input. The final plan will result in a unique vision and implementation strategies to assure the U of I’s future leadership in areas at the intersection of our strengths and the state’s greatest needs. We are selecting a consulting firm now and look forward to sharing an update in April 2025. In the meantime, we will continue to aggressively focus on strategic initiatives, mission, students, and data informed decision making.

**Figure 1: Circle of Success**

This framework is supported by the Northwest Commission on Colleges and Universities.
State Board of Education and U of I Strategic Plan Metrics

**SBOE GOAL: EDUCATIONAL READINESS**

Provide a rigorous, uniform, and thorough education that empowers students to be lifelong learners and prepares all students to fully participate in their community and postsecondary and workforce opportunities by assuring they are ready to learn at the next educational level.

The U of I provides many opportunities for students to learn valuable skills while they are still enrolled in their K-12 courses. These programs assist with math and science proficiency, and the high school graduation rate.

**STEM IN 4-H**

The state 4-H office, in collaboration with the Idaho Out-of-School Network, has implemented mobile makerspaces to reach K-8 youth across the state, particularly in rural and underserved areas. Through this partnership, they have successfully reached over 25,000 youth and provided training for more than 275 educators. Also, efforts are bolstered by 100 Idaho 4-H Americorps
members stationed in 46 locations statewide. These Americorps members annually engage over 9,000 youth in dynamic STEM educational activities. Statewide programming encompasses hands-on STEM learning experiences for K-12 students, featuring activities such as circuits, sling-shots, coding, 3D printing, and Microsoft programs. Recognizing the challenges faced by four-day school week districts across the state, 4-H has become a reliable provider of STEM education, offering engaging activities every Friday. In total, 4-H programming reached 75,000 youth with programs across the state.

The College of Education, Health and Human Sciences hosts the Potlatch STEM Carnival in collaboration with other U of I colleges to provide K-12 students opportunities to engage in hands-on learning experiences. The partnership with the Potlatch School District is now in its third year.

The Latah County Fair Passport to STEM event is held each fall and offers hands-on learning activities for participants of all ages. The cross-college effort continues to draw strong support and is a popular stop at the fair.

**SBOE GOAL:**
**EDUCATIONAL ACCESS**

Increase access to Idaho’s robust educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.

**PERFORMANCE MEASURE**
Percent of high school graduates who completed one or more advanced opportunities.

The University of Idaho has invested in our Dual Enrollment Program to increase the quality of programs offered and the number of high school students served with advanced opportunities.
PERFORMANCE MEASURE
Increase the rate at which high school graduates pursue postsecondary opportunities.

We remain committed to developing recruitment and retention strategies specifically designed to facilitate the smooth transition of high school students into the University of Idaho. As a result, we are witnessing ongoing growth in the enrollment of first-time freshmen classes.

SBOE GOAL: EDUCATIONAL ATTAINMENT
Idaho’s public colleges and universities and career technical education programs fuel a strong workforce pipeline evidenced through more students completing certificates and/or degrees.

PERFORMANCE MEASURE
Increase completion of certificates and degrees through Idaho’s educational system.

The U of I has consistently awarded degrees and certificates each year between 2,400 – 2,600. With the enrollment of the two largest freshmen classes in the past two years and a dedicated emphasis on evidence-based retention tactics, we expect the number of degrees granted to increase.
**PERFORMANCE MEASURE**

85% (for four-year institutions) of new full-time degree-seeking students return for a second year.

Over the past five years, our retention rate has consistently ranged between 73% and 76%. We are committed to continual improvement and will persist in implementing evidence-based retention strategies to elevate this metric towards the new standard of 85%.

**PERFORMANCE MEASURE**

Percentage of full-time first-time freshmen graduating within 150% of time or less. Benchmark: Four-year institutions – 60% or more.

The U of I’s Six-Year graduation rate is 61%, above the benchmark of 60% set by the state board of education.
FACTS ABOUT OUR STUDENTS:

- About 60% of incoming freshmen in 2023 were first-generation college students.
- The U of I continues to build its prison education program, providing opportunities for incarcerated students to earn degrees and contribute positively to our communities.

Kent Shriver, Deputy Warden of Operations at the Idaho Correctional Institution, Orofino: “The U of I’s Prison Education Initiative has greatly affected participating students in a positive way. Our residents now have the opportunity, if admitted, to attend college and even attain a college degree. Many of them would never of had the opportunity, nor felt they could even be a college student without the PEI and the second chance Pell Grant."

“Making this a reality was not an easy process. A lot of hard work from prison and university staff was required. The benefit is an opportunity for the residents to earn a degree and upon reentry obtain a job earning a living wage. Just one more step to help them become successful and not return to prison. This opportunity is not only changing the lives of the residents, but their families as well. I believe this will have a generational impact helping to break the criminal cycle.”

Vandal Finish is an initiative through U of I’s College of Letters, Arts and Social Sciences (CLASS) to help former students who left school without a degree finish their education. CLASS representatives reached out to more than 1,300 former students to let them know about their options to receive a degree. Completing a bachelor’s degree, commonly called the Degree Doctor program, can be done for both general studies or interdisciplinary studies. There are also associate of arts and associate of science degrees in general studies available. Vandal Finish can also help former students complete a targeted degree.
**SBOE GOAL:**
**WORKFORCE READINESS**

The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

**PERFORMANCE MEASURE**

Percent of STEM baccalaureate degrees conferred compared to non-STEM degrees conferred. Benchmark: 25% or more

The University of Idaho places a strong emphasis on STEM majors, with notable recognition across various disciplines. Our College of Engineering is ranked among the top seven in the nation by the National Academy of Engineering, particularly for our undergraduate Senior Capstone Design Program, which integrates real-world experiences into engineering education. Furthermore, the College of Science’s Geography B.S. Degree holds the prestigious third position nationwide according to Great Value Colleges, and our online Master’s in Statistics Program ranks sixth in the country by the Data Science Degree Programs Guide.

Students pursuing STEM degrees at the U of I are assured of promising career prospects with renowned employers such as Google, Microsoft, the U.S. Department of Defense, the U.S. Geological Survey, and the Walt Disney Company. Additionally, our science graduates frequently advance to graduate programs at esteemed institutions like Stanford University, Princeton University, Yale University, the University of Washington, the University of Michigan, and Johns Hopkins University.

The U of I has exceeded the state board’s benchmark of awarding a minimum of 25% of STEM degrees.
POST-GRADUATE SUCCESS

Post-graduate success is measured by how well students fare in their careers within six-months of graduation. Data is collected from U of I graduates using NACE’s First-Destination Survey by the Career Center. We track the percentage of students who are working (part or full-time) continuing their education (earning another degree such as a master’s or doctorate) or are still looking for employment.

Recent graduates are sent the survey approximately five months after graduation from U of I.

More U of I graduates are working after graduation than their peers nationally. Fueling this success are frequent, large and successful career fair events, intertwined career objectives and classroom learning, and career counselors with strong ties to colleges and majors.
EVIDENCE-BASED STUDENT RETENTION STRATEGIES

We have focused our resources on supporting students through the American Association of Colleges and Universities’ evidence-based High Impact Practices (HIPs). Students who participate in HIPs such as service learning, internships, or undergraduate research, have better educational outcomes.

- Undergraduate research is a fundamental element of the University of Idaho experience. More than half of our undergraduates participate in research, which correlates with stronger academic and post-graduation outcomes. The Office of Undergraduate Research (OUR) has won nearly $1 million in grant funding of undergraduate research since its inception in 2015. In 2023 OUR funded 17 Summer Undergraduate Research Fellowships, 12 fall fellowships and 19 spring 2024 fellowships. A record 40 students applied for 2024 summer research fellowships in seven different colleges. Eight students earned travel awards from OUR and one student will represent the U of I at the national Conference in Undergraduate Research in April.

- The U of I had a $456,000 National Science Foundation REU Site awarded, which will help grow undergraduate research during the summer. The program is called “Elements of Sustainability” and will be housed in Chemistry and Chemical Engineering (PI: Waynant - $456K)

The U of I received more than $900,000 in funding from the National Institutes of Health for the T34 Bridges to Baccalaureate program, which will use research and the cohort building it provides to help students transfer from North Idaho College to the U of I.
Best Value Public University in the West

U.S. News & World Report named the University of Idaho the Best Value in the West among public colleges for the fourth straight year and remained second nationally behind the University of North Carolina. The ranking recognizes the overall quality of the institution in relation to the cost of attendance. The U of I was also ranked in the top 6% of all public universities on the Top Public Schools list, ahead of regional land grant peers in Montana, Washington, Nevada, Wyoming and Utah.
A+ rating for scholarship transparency

The University of Idaho remains the only school in the state recognized with an A+ rating in scholarship transparency by Universitybusiness.com. The rating is based on how well universities provide clear, easily accessible information about financial aid to ensure students and parents understand the net cost of a college education.

Study ranks U of I No. 2 in the nation for safety

Academic Influence ranked the University of Idaho No. 2 on its list of The Safest Colleges in America, only behind Purdue University. The list highlights the U of I’s crime rate of 1.93 per 1,000 students, along with its numerous programs and resources to promote safety. The article also highlights the Campus Security Team, which works with local law enforcement and emergency responders to address security concerns and cites the U of I’s “proactive approach in addressing the mental health and physical safety of people who may have gone through traumatic experiences.”
A record number of campus visits

In 2023 the U of I hosted 2,992 prospective students for campus visits, and campus visits have increased 7.5% over the past two years. UIdaho Bound and Meet the Vandals orientation events are attracting large numbers of prospective students. Registration for 2024 UIdaho Bound is up more than 15% over last year.

The College Tour

The U of I was featured on Season 7 of the Amazon Prime series The College Tour in 2023. While Amazon viewership is not available, the video has drawn more than 9,000 views on YouTube alone and is exposing our campus and programs to a broad, new audience.
**Highest Spring Enrollment**

- Undergraduate enrollment increased 4.6% to 6,807 over Spring 2023.
- First-time students are up 4.9% and transfers students are up 3.2%.
- Dual credit enrollment increased 28% to 1,959 over Spring 2023’s enrollment of 1,530.
- Graduate student enrollment declined slightly to 1,901 from Spring 2023’s enrollment of 1,933.
- Law school enrollment is up 6.2% to 413 students over spring 2023’s enrollment of 389.

**U of I’s Return on Investment**

The Bipartisan Policy Center determined that the average student’s return on investment at the U of I is $573,297. The BPC is dedicated to promoting policies that make education more affordable, accessible, effective, and efficient. The Center used data from the U.S. Department of Education to determine its net return on investment figures.
Art that heals

Aiming to blend beauty with healing, Ainsley Bauer hit the mark when she designed her Sabi Sling Chair. The College of Art and Architecture graduate from Spokane tapped into the psychological component of healing for her class project, which guides students from concept design to model making to building their own furniture. Bauer built her chair from a piece of solid Baltic Birch and a leather sling, connected with maple dowels pushed through leather loops. After about 200 hours Bauer perfected her chair, which won first place for Design for Production at the Association of Woodworking and Furnishing Suppliers Expo in Las Vegas. Bauer is now working on her Master’s in Architecture at the U of I.
Richter’s family inspires lab research

Inspired by his wife and four children, Idaho WWAMI student Jordan Richter works with professor Bethany Fehrenkamp, whose lab focuses on preventative healthcare for mothers and babies. Richter’s experience in the lab – assisting in the measurement of the expression of specific genes – supplements his WWAMI coursework. He presented the findings of his research project at the Western Medical Research Conference in Carmel, California earlier this year.

Grad student on the cutting edge of ag tech

Mary Everett began her University of Idaho journey as a marketing major in the College of Business and Economics. The Lewiston native shifted gears after graduation and began specializing in robotics under the tutelage of John Shovic, Director of the Center for Intelligent Industrial Robotics in Coeur d’Alene. Everett finished her doctorate in December and gained incredible experience along the way. She and two classmates built and installed an artificial intelligence system called SCARECRO to equip an automated winery in Virginia. The system gives the vintner microclimate and environmental information to help inform their growing and business practices, saving power and reducing operating costs. Everett helped install a similar system at the Sandpoint Organic Agriculture Center and even presented research findings at the European Conference on Precision Agriculture in Bologna, Italy. She is now doing postdoctoral research at the Center for Industrial Intelligent Robotics.
Engineering students help NASA track gravity waves

A team of University of Idaho College of Engineering students put in long hours during the solar eclipse of 2023, helping NASA gather complex datasets on gravity waves using weather balloons. The team traveled to Lakeview, Oregon, joining high school and middle school students to teach them about gravity waves and the significance of the solar eclipse. The data the team gathered could help improve weather forecast accuracy and the ability to anticipate large weather patterns.

The U of I students held weekly balloon launch sessions to prepare for the precise timing and accuracy required during the national eclipse launching efforts. In 2024, the U of I team will travel to Pennsylvania for launches during the total solar eclipse in April.

Boot Barn internship kicks Richardson’s prospects into high gear

Internships can often change career trajectories and Tess Richardson’s professional plans took a sharp turn after her experience over the summer. As an apparel design intern for Boot Barn, Richardson came up with two designs that were selected for production. Her reversible Sherpa jacket that includes military, vintage-inspired pockets with color blocking and a vest made from the same materials with different pockets for workwear are slated to be released in fall of 2024.

Richardson stayed plenty busy throughout her seven-week internship, working on blueprints for her designs, meeting with technical designers, meeting with vendors, attending fit sessions and learning about store layout. Throughout her experience, Richardson gained a great appreciation for communicating about her designs.

“I had to learn a lot about how to talk about my work,” she said. “I typically am not good at sharing why I did that, why that’s there and what it means. So, meeting with my manager about my designs for the first time, I didn’t know what to say. As we met more, I was able to justify my designs and talk about and present them.”

Richardson will graduate from the U of I with her bachelor’s degree in Apparel, Textiles and Design in May and plans on a career in men’s wear design.
McClain ramps up ASUI’s lobbying efforts

Tanner McClain set out to restore Vandal Pride and community as president of the Associated Students of the University of Idaho. And after one term, he felt like there was more to do. McClain was elected for a second term last spring and now as a senior he’s determined to make a difference on campus as he prepares for a career in law. He spent the summer as an intern for Idaho Senator Jim Risch in Washington, D.C., and returned to campus with broader perspectives and a renewed passion for collaboration. McClain helped reestablish ASUI’s lobbying efforts after they were abandoned during the pandemic. He set out to gather support for an initiative to decriminalize fentanyl test strips in Idaho.

McClain plans to enter the military after he graduates in May and his goal is to become a judge advocate general officer.

Chobani Scholar dives into U of I experience

Alejandro Jimenez is headed into a career at John Deere after a jam-packed four years at the University of Idaho. He discovered the then-new Chobani Scholars program as a senior at Wilder High School and joined the inaugural cohort one year later. The support from Chobani and the College Assistance Migrant Program (CAMP) helped ease his transition to college, and Jimenez took advantage of many campus opportunities. He served as an ambassador for the College of Agricultural and Life Sciences, joined the Omega Delta Phi fraternity and founded the U of I chapter of Minorities in Agriculture, Natural Resources and Related Sciences. The financial backing of several scholarship programs allowed Jimenez to graduate debt-free.

“It impacted my life greatly, not having to worry about financial aid,” he said. “I just had to focus on my grades so that was the biggest plus.”
U of I earns STARS Gold Rating

The University of Idaho earned a gold rating from the Association for the Advancement of Sustainability in Higher Education. The Sustainability Tracking, Assessment and Rating System (STARS) measures and encourages sustainability in all aspects of higher education and the U of I has participated in the program since 2019.

The U of I’s Office of Sustainability was established in 2023 and has worked with partners across campus to create a robust catalog of programs that empower the community to engage in sustainable solutions.

The U of I is a certified Bee Campus through the Xerces Society and a certified Tree Campus through the Arbor Day Foundation. It is the only higher education institution in Idaho to achieve a STARS Gold Rating.
Livestock increase bug numbers, sage grouse food

As part of a 10-year study entomologists at the University of Idaho discovered that more insects and arthropods are found in sage lands grazed by cattle, resulting in more food for sage-grouse chicks.

Professor Courtney Conway and a team of students identified over 270,000 specimens and are working through the campus samples. Their work is just one piece of the U of I’s wide-ranging study on sage grouse, which is helping Idaho ranchers keep cattle on their land while informing best practices to preserve the bird’s habitat.

U of I grads make a splash in water conservation

From improving water quality to increasing groundwater levels, the University of Idaho’s water resources program produces graduates ready to take on one of the most challenging issues of our time.

The U of I’s graduate level programs are helping meet the growing need for water resource specialists, environmental compliance inspectors, environmental scientists, ag science teachers and many more related positions. Various degrees are offered through the College of Agricultural and Life Sciences.
The University of Idaho drives Idaho industries and provides practical solutions to the world’s toughest challenges. From agriculture to hydrology to forestry and education, U of I research delivers immense value through grants that enrich our communities.

The Journey to R1

The University of Idaho is closing in on its goal of reaching R1 research status. This important step will open the door for faculty to better compete for larger research grants that can play a key role in development of patents, startups, and commercial applications. This is research with a purpose that will solve issues most important to Idaho. Recent successes put the U of I on track to become Idaho’s first R1 research university in 2025.

- The University of Idaho shattered its previous record in 2023 with $135.9 million in research expenditures.
- The University of Idaho continues to strengthen support for its research enterprise by hiring post-doctoral researchers. A record number of postdocs were employed in 2023.

POP TALKS

- In November, eight outstanding U of I faculty presented 3-minute mini-lectures on the “Power of Possibility” in their respective fields of research to a standing-room only audience on the U of I campus. At the end of the eight presentations the audience voted for their favorite and professor Omi Hodwitz emerged as the winner for her discussion of prison education. Each of the POP Talks was recorded and are now available on U of I’s YouTube channel.
$135.9 million in expenditures

A university working group focusing on the steps to achieve R-1 status under the Carnegie Classification of Institutions of Higher Education developed a roadmap in 2020. As part of the roadmap, U of I has invested in post-doctoral researchers and graduate students to help faculty accomplish research objectives. The benefit to the university, the state of Idaho and our partners throughout the state, is already being realized by a larger share of federal research dollars, higher quality research programs and a greater ability to attract quality faculty and students. The university is on track to reach R-1 status in 2025.

FY23 Research Activity and Expenditures

Expenditures are actual dollars spent on research as a measure of research activity. Research activity is the number of proposals and dollars awarded, not all of which is spent at the time of the report.

Leading Water Research in Idaho and beyond

**NSF PROJECT TO EXPLORE IDAHO ENERGY AND WATER USE**

A team of Idaho researchers, led by the University of Idaho’s Andrew Kliskey, won a $24 million grant from the National Science Foundation for a project studying the impact of changes in climate, population and technology on energy and water use in the state. Kliskey will lead researchers from the U of I, Boise State University, Idaho State University, the Coeur d’Alene Tribe and the Shoshone Bannock Tribes in collaboration with utility companies, state and federal agencies as well as Idaho cities and counties. The goal is to identify energy and water use strategies that will be resilient to Idaho’s changing needs based on feedback from communities.

**UI AWARDED GRANT TO IMPROVE WATER BUDGET PREDICTIONS**

The University of Idaho was awarded a U.S. Geological Survey 104g National Competitive Grant to lead a modeling project to enhance water budget predictions in the contiguous United States. Professor Meng Zhao will lead the more than $618,000 grant in collaboration with researchers at The Ohio State University and the USGS Upper Midwest Water Science Center. The work will aim to improve the accuracy of hydrologic models to account for below-ground processes concerning how water, soil and vegetation interact with prediction of water resource availability.
CLEAN WATER MACHINE UTILIZED BY ANHEUSER-BUSCH

Anheuser-Busch’s Elk Mountain Farms utilized the University of Idaho’s Clean Water Machine to treat shallow groundwater beneath the soil and recover phosphorus. A team of College of Agricultural and Life Sciences researchers used iron and biochar in a flow-through filter to treat the groundwater and the recovered biochar was tested as a soil amendment to nourish and fertilize plants on the farm. Anheuser-Busch may look to implement the technology long term depending on the investment and if the technology can help the company reach one of its sustainability goals.

U OF I RESEARCHERS AIM TO BOOST TROUT PRODUCTION IN GEORGIA

University of Idaho researchers are working with the country of Georgia to modernize its fish farms and preparing Georgians to become aquaculture trainers. The U.S. Department of Agriculture’s Foreign Agriculture Service (FAS) tapped scientists with the U of I’s Aquaculture Research Institute to lead the effort in Georgia to establish trout production as a significant industry. A team of researchers visited Georgia and toured fish farms and provided equipment and supplies to aid in diagnosing disease and testing water quality. A group of Georgia farmers and other representatives from the country visited ARI’s Hagerman facility this year to learn more about the U.S. trout industry.
The Brave. Bold. Unstoppable. campaign centers on three themes — Student Success, Sustainable Solutions for Idaho and a Thriving Idaho for All, with the goal to raise $500 million by 2025. Through FY 2023, the campaign raised more than $394 million, including more than $119.8 million toward scholarships.

The U of I had another outstanding year of fundraising, bringing in $57.4 million in FY23, our second highest amount ever. A total of 6,742 donors made 14,801 gifts. 59 new endowments were established through nearly $7 million in gifts.

Vandal Giving Day (April 4, 2023) also set a record for U of I by bringing in $819,662 in just 1,889 minutes.

In June 2023 P1FCU partnered with the U of I for a 10-year naming sponsorship for the P1FCU Kibbie Dome and includes a variety of financial literacy sponsorships for students. In addition to naming the iconic athletic facility, the partnership includes support for two student financial success programs. Better Education About Money for Students (BEAMS) is a financial education and individualized coaching program that teaches financial knowledge and skills. Elevate Idaho focuses on equipping student-athletes with the financial knowledge to help them best navigate their Name, Image, Likeness (NIL) opportunities. The partnership with P1FCU will also include UI Extension Personal and Family Finance programming, which focuses on personal and family finance for low- and moderate-income households in communities throughout the state.
Individuals/Families

- **Suzie and Maury Wiese** established the Wiese Plant Pathology Teaching and Research endowment to support faculty in the College of Agricultural and Life Sciences. In addition to their FY23 support of the endowment, the Wieses generously included an estate gift to U of I to provide future funding for the endowment.

- **Priscilla Wegars ’91** made additional gifts to the Terry Abraham and Priscilla Wegars Professor of Asian American Historical Archaeology, an endowed professorship in the College of Letters, Arts and Social Sciences. The endowment’s value is now approximately $4.25 million.

- **John A. Huckabay/Durward & Susan Huckabay Foundation** made further contributions to the Durward A. Huckabay, M.D. WWAMI Idaho Scholarship Endowment to make medical education more affordable for Idaho’s future physicians. The Huckabay Foundation’s $14 million endowment is the largest in U of I history and has distributed $200,529 in scholarship support since spring semester 2022.

- **Alice “Mitzi” McHale** made further contributions to the Eugene A. and Alice J. McHale Scholarship Endowment, established in 2020. To date, the endowment has distributed $138,588 in scholarship support to students in the College of Natural Resources.

- **Nancy and John Nation, Jr. ’69** established the Mechanical Engineering Laboratory Equipment Acquisition Fund for upgrades to the College of Engineering Mechanical Engineering Machine Shop, which offers a variety of hands-on learning experiences for students.
Corporations/Organizations

- **Ardurra Group, Inc.**, a leading provider of multidisciplinary engineering and design services to water, transportation and aviation end-markets, gave $100,000 to support and name the Ardurra Civil and Environmental Engineering Water Lab.

- **Optum Idaho**'s mission is to transform the outpatient mental health and substance use system to help people reach recovery. The health care company gave $225,000 to Idaho Extension for Community Health Outcomes (ECHO Idaho) programming and $125,000 to create ECHO Idaho programming addressing behavior health.

- **CHS Foundation** is dedicated to building ag career pathways and educating rural youth by supporting cooperative and safety education, university partnerships and ag leadership programs. Its generous gift of $250,000 directly supports the Meat Science and Innovation Center honoring Ron Richard. The foundation gave an additional $40,000 toward its CHS Foundation Scholarship.

- **Alpine 4-H Club** promotes youth independence and self-confidence all while making new friends and learning exciting new skills. The Alpine 4-H Camp Endowment provides $300,000 for 4-H Summer Camp scholarships as the club removes financial barriers for experiential learning and discovery in a positive environment.

- **Cargill, Inc.** is a family company providing food, ingredients, agricultural solutions and industrial products to nourish the world. Its gift of $500,000 to the Idaho Center for Agriculture Food and the Environment (Idaho CAFE) supports dynamic research and education to develop solutions to complex problems in Idaho’s dairy, livestock and food processing industries.
“When I am awarded a scholarship, doors open. I worry less about working and instead can invest my time volunteering within my college and community. This scholarship has enabled me to step up as a leader. My senior year, I am the Vice President of the Graue Scholars, an ambassador for the College of Business & Economics, and the student representative on the College’s Dean Search Committee.”

Lian Koeppel, Business Management ’23

“I am a first generation college student who is paying for school by herself. I work during breaks and a part time job while classes are in session. Thanks to scholarship support I am able to afford to further my education without taking student loans out! U of I donors’ generosity has inspired me to one day be a donor to the same programs that have impacted me so deeply.”

Kamryn Orr, Agriculture Economics ’24

“My scholarship has allowed me to attend U of I and prosper without the worry if I can buy my materials to succeed in my courses. I cannot thank the donors enough for the doors that receiving this scholarship has opened to me, but I can guarantee that I will seize every opportunity to be better than I was.”

Samuel Aguilar, Exercise, Sport, Health Science Pre-Athletic Training ’25

“My scholarship has helped me and my family substantially. My wife and I live in Lewiston, and this scholarship has helped us afford the books and supplies that are needed for my schooling, as well as being able to support ourselves as I go through this program.”

Isaac Krasselt, Agricultural Systems Management ’24
Thanks to key investment from the state, the Idaho Center for Agriculture, Food and the Environment is becoming a reality this year. When finished, CAFE will be the largest research dairy in the country and allow faculty and staff to address constraints on water usage and environmental quality while supporting the agricultural sectors of dairy, livestock and cropland, as well as the food processing industries. A partnership between education, industry and economic development stakeholders will result in dynamic research and education to develop solutions to complex problems.

Research at CAFE will cover a broad range of areas, from agriculture economic impacts and labor management to nutrient and wastewater management.
Meat Science Center

The U of I broke ground on the Meat Science and Innovation Center Honoring Ron Richard on the west side of campus. This facility will be critical for workforce training and research. The current building is more than 50 years old and is the only USDA-inspected facility in the region. The limited space in the building restricts our ability to deliver modern programs and meet local processing needs. The new Center allows us to add value to Idaho agricultural products. Instead of shipping cows out of state for processing, this facility ensures we keep Idaho cows in Idaho – adding to our state’s bottom line through sales and income tax returns. The new Meat Science and Innovation Center will house Vandal Brand Meats and help us address a big need in the industry for workforce development and training. It’s already garnered more than $6 million in private support from more than 30 stakeholders statewide and it will play a central role in powering Idaho’s livestock, agriculture, and meat processing industries.
Parma Research and Extension Center

Idaho has nearly 25,000 farms and ranches, which produce more than 185 different commodities. One of the founding missions of the University of Idaho is to help these farmers, ranchers and associated businesses succeed, through our research and education programs. And one of the best ways to see this in action is at the Parma Research and Extension Center. In 2025, the Center will celebrate a century of supporting Treasure Valley farmers through research focused on the production, harvesting and storage of vegetables, forages, cereals, hops, mint, fruit and seed crops. This partnership has helped ensure Idaho seeds are ranked the best in the world. Seeds like lettuce, carrots, onions and turnips are harvested, cleaned, packaged and shipped to more than 120 countries worldwide – creating thousands of Idaho jobs in the process. The new research and extension center will allow the U of I to deliver critical research and service to Idaho growers.

McCall

Our McCall Field Campus is home to the McCall Outdoor Science School, or MOSS, the premier experiential STEM Education program in Idaho. Each year, thousands of Idaho K-12 students visit the McCall Field Campus to gain hands-on education in STEM fields. Plans are in place to expand and remodel the dining lodge and kitchen as part of the campus master plan. The expansion will triple the capacity of the facility.

The MOSS program aligns with the workforce goals of major employers in our state including Micron and the INL that are dedicated to expanding K-12 STEM learning opportunities. Analysis of State Board of Education data shows that MOSS students are more likely to continue in school with “go-on” rates 20% higher than statewide averages. Our goal is to make the MOSS experience available to every student in the state, and ultimately increase the supply of STEM-ready students.
CONCLUSION

The University of Idaho delivers award-winning value for students and for the state of Idaho. Our research powers industry and provides practical solutions to the state’s toughest challenges. Despite significant obstacles in recent years, the U of I continues to grow enrollment, fundraise at a record-breaking pace and expand its research portfolio. We remain committed to delivering education that is world class and Idaho focused.
SUBJECT
Board Policy I.M. Annual Planning and Reporting

REFERENCE
March 2008  Board approved first reading of Board Policy I.M. clarifying the Board’s role in accreditation visits and Board self-evaluation
April 2008  Board approved second reading of Board Policy I.M.
August 2008 Board approved first reading of Board Policy I.M. clarifying reporting requirements for strategic plans and performance measures
October 2008 Board approved second reading of Board Policy I.M.
April 2011  Board approved first reading of Board Policy I.M.
June 2011  Board approved second reading of Board Policy I.M.
December 2016 Board approved first reading of Board Policy I.M. adding definitions of strategic plan components.
February 2017 Board approved second reading of Board Policy I.M.

APPLICABLE STATUTE, RULE, OR POLICY
Board Policy I.M. Annual Planning and Reporting
Sections 67-1901 through 67-1905, Idaho Code

BACKGROUND/DISCUSSION
Sections 67-1901 through 67-1905, Idaho Code, establish the state’s annual strategic plan and performance reporting requirements. These requirements include the annual review and submission of strategic plans and performance measures. Institutions and agencies under the oversight of the Board submit their strategic plans to the Board for approval. The approved plans are then submitted by the Board office to the Division of Financial Management (DFM). This is part of a year-long cycle of continuous improvement.

Title 67, Chapter 19, Idaho Code also establishes that the guidance for the statewide strategic planning process is to be governed by DFM. The DFM maintains a Strategic Planning and Performance Reporting guidance document and provides training to state agencies.

Board Policy I.M. is currently in need of revisions to ensure alignment of this policy with the definitions established in statute and with the requirements outlined in the DFM guidance document.

IMPACT
Proposed revisions to Board Policy I.M. largely remove unnecessary repetition of statute and DFM guidance. The revisions propose to retain only the additional requirements for agencies and institutions under the governance of the Board. This includes the timeline for Board approval of strategic plans.
ATTACHMENTS
  Attachment 1 – Board Policy I.M. Annual Planning and Reporting – Proposed Revisions, redline

BOARD STAFF COMMENTS AND RECOMMENDATIONS
  Board staff recommend that the proposed revisions to Board Policy I.M. progress to a second reading in June.

BOARD ACTION
  I move to approve the first reading of proposed revisions to Board Policy I.M. as presented in Attachment 1.

  Moved by __________ Seconded by __________ Carried Yes _____ No _____
This subsection shall apply to Boise State University, Idaho State University, Lewis-Clark State College, University of Idaho, College of Eastern Idaho, College of Southern Idaho, College of Western Idaho, North Idaho College, and the agencies, special and health programs under the Board’s governance and oversight. As used in this section, the reference to “institutions and agencies” shall include the special and health programs.

1. 1. K-20 Education Strategic Plan Board Approval

   a. The Board will approve annually, consistent with its vision and mission, a K-20 strategic plan and strategic plans for each agency and institution.

   b. The Board will approve annually a K-20 performance report and performance reports for each agency and institution.

2. Strategic Plan Requirements

   a. All strategic plans shall be compliant with Idaho Code § 67-1903 and the Strategic Planning and Performance Report Guide maintained by the Division of Financial Management (DFM).

   b. All strategic plans shall be aligned to the Board approved K-20 strategic plan.

   c. Mission statements used in strategic planning must be approved by the Board, pursuant to Board Policy III.I or by the community college’s board of trustees.

      i. Mission statements may be approved in conjunction with the strategic planning process or brought to the Board as a separate agenda item.

   d. Institutional strategic plans shall be compliant with applicable accreditation requirements.

   e. All strategic plans shall include at least one programatic goal and one operational goal.

3. Performance Report Requirements

   a. All performance reports shall be compliant with Idaho Code § 67-1904 and the Strategic Planning and Performance Report Guide maintained by DFM.

   b. Board staff will make available a performance report template for consistent reporting across all agencies and institutions.

4. Training

   a. Key personnel from Board staff and each agency and institution shall be required to participate in training offered by the DFM pursuant to Idaho Code § 67-1905.

5. Timeline

   a. All agencies and institutions shall submit complete drafts of their strategic plans to designated Board staff no later than the meeting materials due date for the Board’s regularly scheduled April meeting each year.
b. All agencies and institutions shall submit complete final drafts of their strategic plans to designated board staff no later than the meeting materials due date for the Board’s regularly scheduled June meeting each year.

c. All agencies and institutions shall submit final drafts of performance reports to the designated board staff no later than the meeting materials due date for the Board’s regularly scheduled October meeting each year.

d. Community colleges must seek approval from their boards of trustees prior to submitting final drafts of strategic plans and performance reports to the Board.

e. Board approved strategic plans and performance reports shall be submitted by Board staff to DFM, on behalf of the agencies and institutions.

6. Annual Reports
a. Agencies and institutions shall provide annual progress reports to the Board in accordance with a reporting schedule established by the Board’s executive director.

b. Annual reports shall include, but need not be limited to, an update on the agency or institution’s progress toward meeting objectives established in the strategic plan.

Approved plans shall be submitted by the Board for submission to the appropriate state administrative entity in order to meet the state’s annual planning requirements, in compliance with Chapter 19, Title 67, Idaho Code.

The statewide plan will outline the goals and objectives necessary for the responsible management of the statewide system of K-20 education. The strategic plan will be prepared by Board staff in consultation with the institutions, agencies, and Board committees and reflect fiscal or other constraints and opportunities. Major elements of the plan will take into consideration the environment within which K-12 and postsecondary education in the state operates, including economic constraints; identification of system priorities; and measures to ensure quality, efficient use of state resources, and responsiveness to the citizens of Idaho. The strategic plan shall be in compliance with Chapter 19, Title 67, Idaho Code.

2. Defined Terms
As used in this section the following terms shall apply:

a. Benchmarks means performance targets for each performance measure for at a minimum the next fiscal year. Benchmarks stretch and challenge the institutions and agencies, while being realistic and achievable within the specified time frame.

b. External factors means external factors that are beyond the control of the agency that affect the achievement of goals. Key external factors to the agency are those factors which are beyond the control of the organization. They include changes in economic, social, technological, ecological or regulatory environments which could impact the agency and its ability to fulfill its mission and goals.
c. Goals mean a planning element that describes the broad condition or outcome that the agency, institution or program is trying to achieve. Goals are the general ends toward which institutions and agencies direct their efforts. A goal addresses issues by stating policy intention. Goals can be presenting in both qualitative and quantitative form.

d. Mission statements means a statement identifying the specific institution or agency purpose. A mission statement concisely identifies what the institution or agency does, why, and for whom. A mission statement identifies the unique purposes promoted and served by the institution or agency.

e. Objectives means a planning element that describes how the institution or agency plans to achieve each goal. Objectives are clear targets for specific action. They mark quantifiable interim steps toward achieving an institution’s or agencies goals. Objectives must be measurable and be time-based statements of intent. Objectives emphasize the results of institution and agency actions at the end of a specific time period.

f. Performance measures mean a quantifiable assessment of the progress the institution or agency is making in achieving a goal and objective. Performance measures are gauges of the actual impact or effect upon a stated condition or problem and are tools to assess the effectiveness of an institution or agencies performance and the public benefit derived.

g. Strategies means identified methods to achieve goals and objectives. Strategies are formulated from goals and objectives and is a means for transforming inputs into outputs, and ultimately outcomes, with the best use of resources. A strategy reflects budgetary and other available resources.

h. Vision statements mean outcome based statements outlining what the institution or agency inspires to be. The vision statement provides the reader with a clear description of how the institution or agency sees the future should their goals and objectives be achieved.

2. Strategic Plans

Each institution and agency will develop and maintain five (5) year strategic plans. Five year strategic plans will include the current year and four (4) years looking forward.

i. Institution, and agency strategic plans shall be aligned with the Board’s K-20 education strategic plan and, for institutions, with their accreditation requirements. They are to be created in accordance with Board guidelines, and must be consistent with Board approved mission statements. Community colleges shall use the mission statements approved by their respective local Board of trustees. Institution mission statements shall be approved in accordance with Board policy subsection III.I. and may be approved in conjunction with their strategic plan approvals or separately. Only approved mission statements shall be used in the strategic plans.
ii. Plans shall be updated annually and submitted to the Board for approval in accordance with the schedule established by the Executive Director.

iii. Approved plans shall be submitted by the Board for submission to the appropriate state administrative entity in order to meet the state’s annual planning requirements, in compliance with Chapter 19, Title 67, Idaho Code.

b. Format

Plans submitted to the Board annually must be as concise as possible and in accordance with the format and template established by the Executive Director or the Planning, Policy and Government Affairs Committee. The template shall be such that each goal has one (1) or more objectives and each objective has one (1) or more performance measures with a benchmark. Performance measures will be included in such a way as it is clear which objective they are measuring.

Plans shall contain at a minimum:

i. A comprehensive mission and vision statement covering the major programs, functions and activities of the institution or agency. Institution mission statements must articulate a purpose appropriate for a degree granting institution of higher education, with its primary purpose to serve the educational interest of its students and its principal programs leading to recognized degrees. In alignment with regional accreditation, the institution must articulate its purpose in a mission statement, and identify core themes that comprise essential elements of that mission.

ii. General goals and objectives for the major programs, functions and activities of the organization, including a description of how they are to be achieved.

1) Institutions (including Career Technical Education) shall address, at a minimum, instructional issues (including accreditation and student issues), infrastructure issues (including personnel, finance, and facilities), advancement (including foundation activities), and the external environment served by the institution.

2) Agencies shall address, at a minimum, constituent issues and service delivery, infrastructure issues (including personnel, finance, and facilities), and advancement (if applicable).

3) Each objective must include at a minimum one performance measure with a benchmark.

iii. Performance measures must be quantifiable indicators of progress.
iv. Benchmarks for each performance measure must be, at a minimum, for the next fiscal year, and include an explanation of how the benchmark level was established.

v. Identification of key factors external to the organization that could significantly affect the achievement of the general goals and objectives.

vi. A brief description of the evaluations or processes to be used in establishing or revising general goals and objectives in the future.

vii. Institutions and agencies may include strategies at their discretion.

7. Performance Measures

Performance measures will be developed in conjunction with the Board’s strategic planning process and will be updated annually for Board approval. Performance measures are approved by the Board through their inclusion in the institution and agency strategic plans. Performance measures will be used to measure results, ensure accountability, and encourage continuous improvement to meet goals and objectives. Performance measure reports are submitted annually to the Board in accordance with the schedule and format established by the Executive Director.

a. In addition to the performance measures developed by the institution or agency-the Board may develop a set of uniform system-wide performance measures for the institutions or agencies that will gauge progress in such areas as enrollment, retention, and graduation or other priority areas identified by the Board. All such performance measures shall be included in the institutions or agencies strategic plan and reported annually with the institution or agencies annual performance measure report. System wide performance measures shall be reported in a consistent manner established by Board staff.

b. Each institution and agency will develop performance measures tied to its strategic plan and clearly aligned to their mission, goals, and objectives.

c. Only performance measures approved by the Board through the strategic planning process may be included as a performance measure on the annual performance measure report.

d. The strategic plan shall serve as the basis for the annual performance measure report. Annual performance measure reports shall include at a minimum benchmarks for each measure for, the next fiscal year, and for each year of the four (4) previous years of reported actual results.
a. The Board may develop a set of uniform system-wide performance measures for agencies or institutions.
   i. The Board may require agencies and institutions to include such measures in the agency or institution’s strategic plan and performance report.
   ii. Board staff will determine the business rules applicable to such measures.
   iii. Board staff will provide a reporting schedule for such measures.

b. Agencies and institutions may include additional performance measures in their strategic plan. However, Idaho Code § 67-1904 establishes that no more than ten (10) performance measures may be included in the performance report.

8. **Statewide Additional Reports Reporting**

   Each institution and agency will provide to the Board, upon request or in accordance with a schedule and format established by the Executive Director, any data or report requested.

   For the purposes of reporting postsecondary data, the census dates for reporting postsecondary data shall be October 15th and March 15th of each year.

4. **Progress Reports**

   Progress reports shall include, but are not limited to, progress on the approved strategic plan, details of implementation, status of goals and objectives, and expanded information on points of interest and special appropriations. Progress reports shall be provided to the Board at least once annually in accordance with a schedule and format established by the Executive Director. Community colleges may report biennially. The established format shall include a template of standard areas for reporting.

5. **Statewide Reporting**

   Each institution and agency will provide to the Board, upon request or in accordance with a schedule and format established by the Executive Director, any data or report requested.

   For the purposes of reporting postsecondary data, the census dates shall be October 15th and March 15th of each year.

6. **Self-Evaluation**
Each year, the Board will conduct a self-evaluation in conjunction with annual strategic planning activities. The self-evaluation methodology will include a staff analysis of all institution and agency annual performance reporting, and comments and suggestions solicited from Board constituency groups to include the Governor, the Legislature, agency heads, institution presidents and other stakeholders identified by the Board President. The Planning, Policy and Governmental Affairs Committee of the Board will annually develop a tailored Board self-evaluation questionnaire for use by individual Board members and the Board collectively to evaluate their own performance. Annually, in conjunction with a regular or special meeting, the Board will discuss the key issues identified in the institution and agency performance reporting assessment, comments and suggestions received from constituency groups, and the self-evaluation questionnaire in order to further refine Board strategic goals, objectives and strategies for continuous improvement of Board governance and oversight. Self-evaluation results will be shared with constituent groups and should heavily influence strategic plan development.
SUBJECT
Board Policy I.G. – Conflict of Interest – proposed repeal; Board Policy II.Q – Conflict of Interest – proposed revisions; Board Bylaws – proposed revisions – first reading

REFERENCE
April 2002 The Board established Board Policy I.G.
December 13 2002 The Board approved amendments to Board Policy I.G.
December 2008 Minor technical corrections were made to Policy I.G. Board approval is not required for technical corrections.
February 2000 The Board established Board Policy II.Q.
July 2001 The Board approved amendments to Board Policy II.Q.
December 2008 Minor technical corrections were made to Policy II.Q. Board approval is not required for technical corrections.
February 2014 The Board approved revisions to the Board Bylaws.
February 2015 The Board approved amendments to Board Bylaws.
August 2016 The Board approved amendments to Board Bylaws.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code § 33-105 – Rules – Executive Department
Board Policy I. Board Bylaws (Operational Procedures)
Board Policy I.G. – General Governing Policies and Procedures - Conflict of Interest
Board Policy II.Q – Human Resources Policies and Procedures - Conflict of Interest and Ethical Conduct – All Employees

BACKGROUND/DISCUSSION
Board Policies I.G. and II.Q. both address conflicts of interest. Proposed changes include relocating the text of I.G. to the Board’s Bylaws to clarify its application to Board members. Policy II.Q. is located within the Board’s human resources policies and procedures and is applicable to the employees of the institutions and agencies under the Board’s governance. Additional changes to both policies are intended to make references consistent between the two policies.
IMPACT

The proposed repeal and relocation of conflict of interest policy related to board members will ensure that policy related to Board members is more properly located in the Board Bylaws. The proposed revisions to Board Policy II.Q will help clarify the conflict of interest and ethical conduct expectations of employees.

If the Board approves the first reading of the proposed repeal and relocation and the proposed revision as presented in Attachments 1, 2, and 3, Board staff will address any final necessary edits in preparation for a final consideration by the Board at the regular June meeting.

ATTACHMENTS

Attachment 1 – Board Policy I.G. – Proposed Repeal
Attachment 2 – Board Bylaws – Proposed Revision
Attachment 3 - Board Policy II.Q – Proposed Revisions

BOARD STAFF COMMENTS AND RECOMMENDATIONS

Board staff recommends approval of the first read of the proposed repeal and relocation of conflict of interest policy related to Board members and that the Board approve the first reading of the proposed revisions to conflict of interest policy related to employees.

BOARD ACTION

I move to approve the first reading of the proposed repeal and relocation of Board Policy I.G., the proposed revisions to the Board Bylaws, and the proposed revisions to Board Policy II.Q.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Members of the Board and administrators and employees of the institutions and agencies serve a public interest role and have a clear obligation to conduct all affairs of the institution, school and agency in a manner consistent with that role. All decisions of the Board, administrators, and employees are to be made solely on the basis of a desire to promote the best interests of the institution, school or agency and the public good.

2. Procedure

a. The policy of the Board requires that in the event the Board, administrators, or employees must consider any transaction for an institution, school or agency that also involves (a) a member of the Board, an administrator, or employee or (b) a member of his or her immediate family or close relative ("immediate family" means the employee's spouse, parent, step-parent, guardian, brother, sister, mother-in-law, father-in-law, child, or stepchild; "close relative" means the employee's grandmother, grandfather, aunt, uncle, niece, nephew, brother-in-law, sister-in-law, first cousin, or grandchild), or (c) an organization with which a member of the Board, an administrator, or employee is affiliated, such Board member, administrator, or employee, at the first knowledge of such transaction, must disclose such real or potential conflict. Board members disclose to the Board and administrators and employees disclose to his or her supervisor.

b. Such disclosure is further required of Board members, administrators, or employees concerning all relationships and business affiliations that reasonably could give rise to a conflict of interest involving an institution, school or agency. For the purpose of this procedure, affiliation is understood to exist if the Board member, administrator, employee, or a member of the family is:

1. An officer, director, trustee, partner, employee, or agent of such organization; or

2. Either the actual or beneficial owner of more than five percent (5%) of the voting stock or controlling interest of such organization; or

3. Has any other direct or indirect dealings with such organization from which he or she knowingly benefited (e.g., through receipt directly or indirectly of cash or other property in excess of $500 a year exclusive of dividends or interest).
c. Board members, administrators, and other employees who have a real or potential conflict of interest in any matter before the Board or the institution, school or agency administration will comply with all applicable statutes and rules governing conflicts of interest including, but not limited to, the Bribery and Corrupt Influences Act, Idaho Code §18-1351 et. seq. and the Ethics in Government Act of 1990, Idaho Code §18-1351 et. seq. and the Ethics in Government Act of 1990, Idaho Code §59-701 et. seq.
A. Office of the State Board of Education

The Board maintains an Office of the State Board for the purpose of carrying out the administrative, financial, and coordinating functions required for the effective operation of the institutions and agencies under the governance of the Board. The staff of the Office of the State Board serve under the direction of the executive director, who is responsible directly to the Board.

B. Meetings

1. The Board will maintain a 12-month rolling meeting schedule. To accomplish this, the Board will, at each of its regularly scheduled meetings, update its 12-month rolling schedule of Board meetings, provided, however, that the Board by majority vote, or the Board president after consultation with Board members, may reschedule or cancel any meeting.

2. The Board may hold special meetings by vote of a majority of the Board taken during any regular meeting or by call of the Board president.

3. All meetings of the Board are held at such place or places as may be determined by the Board.

4. Actions that impact ongoing future behavior of agencies and institutions shall be incorporated into Board policy. Actions limited to a specific request from an institution or agency, if not acted on within one year of approval, must be brought back to the Board for reconsideration prior to action by the institution or agency. This requirement does not apply to program approval time limits.

C. Rules of Order

1. Meetings of the Board are conducted in accordance with controlling statutes and applicable bylaws, regulations, procedures, or policies. In the absence of such statutes, bylaws, regulations, procedures, or policies, meetings are conducted in accordance with the current edition of Robert's Rules of Order, Newly Revised.

2. A quorum of the Board consists of five (5) Board members.

3. With the exception of procedural motions, all motions, resolutions, or other propositions requiring Board action will, whenever practicable, be reduced to writing before submission to a vote.

4. A roll-call vote of the Board is taken on all propositions involving any matters of bonded indebtedness; convening an executive session of the Board; or on any other action at the request of any Board member or upon the advice of legal counsel. The first voter is rotated on each subsequent roll-call vote.
D. Officers and Representatives

1. The officers of the Board include:
   a. A president, a vice president, and a secretary, who are members of the Board.
   b. An executive secretary, who is the state superintendent of public instruction.

2. The president, vice president, and secretary are elected at the organizational meeting for one (1) year terms and hold office until their successors are elected. Vacancies in these offices are filled by election for the remainder of the unexpired term.

3. Board representatives to serve on other boards, commissions, committees, and similar bodies are appointed by the Board president.

4. The executive director is appointed by and serves at the pleasure of the Board unless the contract of employment specifies otherwise. The executive director serves as the chief executive officer of the Office of the State Board of Education.

E. Duties of Board Officers

1. Board President
   a. Presides at all Board meetings, with full power to discuss and vote on all matters before the Board.
   b. Submits such information and recommendations considered proper concerning the business and interests of the Board.
   c. Signs, in accordance with applicable statutes and Board action, all contracts, minutes, agreements, and other documents approved by the Board, except in those instances wherein the Board, by its procedures, has authorized the Board president to designate or has otherwise designated persons to sign in the name of or on behalf of the Board.
   d. Gives prior approval for any official out-of-state travel of seven (7) days or more by Board members, institution heads, and the executive director.
   e. Subject to action of the Board, gives notice and establishes the dates and locations of all regular Board meetings.
   f. Calls special Board meetings at any time and place designated in such call in accordance with the Open Meeting Law.
   g. Establishes screening and selection committees for all appointments of agency and institutional heads.
   h. Appoints Board members to all standing and interim committees of the Board.
   i. Establishes the Board agenda in consultation with the executive director.
   j. Serves as chief spokesperson for the Board and, with the executive director, carries out the Board’s policies between meetings.
2. Vice President
   a. Presides at meetings in the event of absence of the Board president.
   b. Performs the Board president’s duties in the event of the Board president’s inability to do so.
   c. Becomes the acting Board president in the event of the resignation or permanent inability of the Board president until such time as a new president is elected.

3. Secretary
   a. Presides at meetings in the event of absence of the Board president and vice president.
   b. Signs, in accordance with applicable statutes and Board action, all minutes, contracts, agreements, and other documents approved by the Board except in those instances wherein the Board, by its procedures, has authorized or has otherwise designated persons to sign in the name of or on behalf of the Board secretary.

4. Executive Secretary
   The state superintendent of public instruction, when acting as the executive secretary, is responsible for:
   a. Carrying out policies, procedures, and duties prescribed by the Constitution of the State of Idaho, and Idaho Code or established by the Board for all elementary and secondary school matters.
   b. Presenting to the Board recommendations concerning elementary and secondary school matters and matters of the State Department of Education.

5. Executive Director
   The executive director serves as the chief executive officer of the Board, as chief administrative officer of Office of the State Board of Education, and as chief executive officer of such federal or state programs as are directly vested in the State Board of Education. The position description for the executive director, as approved by the Board, defines the scope of duties for which the executive director is responsible and is accountable to the Board.

F. Standing Committees of the Board
   The Board may organize itself into standing and other committees as necessary. Committee members are appointed by the Board president after informal consultation with other Board members. Any such standing committee is responsible for performing work pursuant to Board policy or delegation. Such committees may not take any action, except when authority to act has been delegated by the Board. The Board president may serve as an ex-officio member of any standing or other committee. The procedural guidelines for Board committees appear in the Board Governing Policies and Procedures.
For purposes of the bylaws, the University of Idaho, Boise State University, Idaho State University, Lewis-Clark State College, College of Eastern Idaho, College of Western Idaho, College of Southern Idaho, and North Idaho College are included in references to the “institutions;” and Idaho Public Television, the Division of Vocational Rehabilitation, the Division of Career Technical Education, and the State Department of Education, are included in references to the “agencies.” An institution or agency may, at its option and with concurrence of the Board president, comment on any committee report or recommendation.

1. Planning, Policy and Governmental Affairs Committee
   a. Purpose

   The Planning, Policy and Governmental Affairs Committee is a standing advisory committee of the Board. It is responsible for developing and presenting guidance to the agencies and institutions under the Board on the implementation of Board action on matters of policy, planning, and governmental affairs. The committee, in conjunction with the chief executive officers and chief administrators of the Board governed agencies and institutions, will develop guidance on the implementation of the Board’s planning initiatives and goals. This committee shall also provide more detailed information to the Board on collaborative and cooperative measures for all education entities and branches of state government necessary to provide for the general supervision, governance and control of the state educational institutions, agencies and public schools, with the goal of producing a seamless educational system.

   b. Composition

   The Planning, Policy and Governmental Affairs Committee is composed of two (2) or more members of the Board, appointed by the president of the Board, who designates one (1) member to serve as the chairperson and spokesperson of the committee, and is staffed by the Board’s Chief Planning and Policy Officer. The Planning, Policy and Governmental Affairs Committee may form working unit or units, as necessary, to advise the committee. The chairperson presents all committee and working unit updates to the Board.

   c. Responsibilities and Procedures

   The Planning, Policy and Governmental Affairs Committee is responsible for providing updates to the Board in the following general areas:

   i. Long range planning and coordination;
   ii. Initial discussions and direction on strategic policy initiatives and goals;
iii. Legislative proposals and administrative rules for Board agencies and institutions;

iv. Coordination and communication with the Governor, the Legislature, and all other governmental entities with regard to items of legislation, Board policy and planning initiatives;

v. Review and revision of Board policies, administrative rules and education-related statutes for consistency and compatibility with the Board’s strategic direction;

vi. Reports and recommendations from workgroups and committees pertaining to education policy, planning and governmental affairs, including career technical education;

vii. Other matters as assigned by the Board.

At the direction of the Board president, any matter before the Board may be removed to the Planning, Policy and Governmental Affairs Committee for initial action or consideration.

The Planning, Policy and Governmental Affairs Committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board’s Governing Policies and Procedures. The Board’s Chief Planning and Policy Officer, under the direction of the chairperson, prepares the agenda for the Planning, Policy and Governmental Affairs Committee work that is under consideration at each meeting of the Board.

2. Instruction, Research and Student Affairs Committee

a. Purpose

The Instruction, Research and Student Affairs Committee is a standing advisory committee of the Board. It is responsible for implementing Board action and developing guidance to the institutions and agencies on matters of policy and procedure concerning instruction, research and student affairs.

b. Composition

The Instruction, Research and Student Affairs Committee is composed of two (2) or more members of the Board, appointed by the president of the Board, who designates one (1) member to serve as chairperson and spokesperson of the committee, and is staffed by the Board’s Chief Academic Officer. The Instruction, Research and Student Affairs Committee may appoint a working unit or units, as necessary, to advise the committee. One such working unit shall be the Council on Academic Affairs and Programs (CAAP), which shall be composed of the Board’s Chief Academic Officer and the chief academic officers of the institutions and agencies. The chairperson presents all committee and working group recommendations to the Board.
c. Responsibilities and Procedures

The Instruction, Research and Student Affairs Committee is responsible for updates to the Board in the following general areas:

i. Agency and institutional instruction, research and student affairs agenda items;
ii. Instruction, academic or career technical program approval;
iii. Instruction, academic or career technical program review, consolidation, modification, and discontinuance, and course offerings;
iv. Outreach, technology and distant learning impacting programs and their delivery;
v. Long-range instruction, academic and career technical planning;
vi. Registration of out-of-state institutions offering programs or courses in Idaho;
vii. Continuing education, professional development, workforce training, programs for at-risk populations, career guidance;
viii. Student organizations’ activities and issues; and
ix. Other matters as assigned by the Board.

The Instruction, Research and Student Affairs Committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board’s Governing Policies and Procedures. The Board's chief academic officer, under the direction of the chairperson, prepares the agenda for the Instruction, Research and Student Affairs Committee work that is under consideration at each meeting of the Board.

3. Business Affairs and Human Resources Committee

a. Purpose

The Business Affairs and Human Resources Committee is a standing advisory committee of the Board. It is responsible for developing and presenting updates to the Board on matters of policy and procedures concerning business affairs and human resources affairs.

b. Composition

The Business Affairs and Human Resources Committee is composed of two (2) or more members of the Board appointed by the president of the Board, who designates one (1) member to serve as chairperson and spokesperson of the committee, and is staffed by the Board’s Chief Fiscal Officer. The Business Affairs and Human Resources Committee may appoint a working unit or units, as necessary, to advise the committee. One such working unit shall be the
Financial Vice Presidents council, which shall be composed of the Board’s Chief Fiscal Officer and the chief financial officers of the institutions and agencies. The chairperson presents all committee updates to the Board.

c. Responsibilities and Procedures

The Business Affairs and Human Resources Committee is responsible, through its various working unit or units, for providing guidance on the implementation of Board action to the institutions and agencies under the Board in the following general areas:

i. Agency and institutional financial agenda items;
ii. Coordination and development of guidelines and information for agency and institutional budget requests and operating budgets;
iii. Long-range fiscal planning;
iv. Fiscal analysis of the following:

1) New and expanded financial programs;
2) Establishment, discontinuance or change in designation of administrative units;
3) Consolidation, relocation, or discontinuance of programs;
4) New facilities and any major modifications to facilities which would result in changes in programs or program capacity;
5) Student fees and tuition; and
6) Other matters as assigned by the Board.

The Business Affairs and Human Resources Committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board's Governing Policies and Procedures. The Board's chief fiscal officer, under the direction of the chairperson, prepares the agenda for the Business Affairs and Human Resources Committee work that is under consideration at each meeting of the Board.

4. Audit, Risk and Compliance Committee

a. Purpose

The Audit, Risk and Compliance Committee is a standing committee of the Board. The Audit, Risk and Compliance Committee provides oversight to the organizations under its governance (defined in Idaho State Board of Education, Policies and Procedures, Section I. A.1.) for: financial statement integrity, financial practices, internal control systems, financial management, and standards of conduct.
b. Composition

The Audit, Risk and Compliance Committee members shall be appointed by the Board and shall consist of five or more members. Three members of the Committee shall be current Board members and at least two members shall be independent non-Board members who are familiar with the audit process and permanent residents of the state of Idaho. No employee of an institution or agency under the governance of the Board shall serve on the Audit, Risk and Compliance Committee. Each Committee member shall be free from any relationship that would interfere with the exercise of independent judgment. Committee members shall not be compensated for their service on the committee, and shall not have a financial interest in, or any other conflict of interest with, any entity doing business with the Board, or any institution or agency under the governance of the Board. Audit, Risk and Compliance Committee members who are Board members may be compensated for Board service. The Audit, Risk and Compliance Committee may appoint a working unit or units, which could include the chief financial officers of the institutions and financial officers of the Board office.

All members shall have an understanding of financial affairs and the ability to exercise independent judgment. Committee appointments will be made in such a way that collectively the Committee membership possesses sufficient knowledge of internal audit, external audit, accounting, finance, information technology, compliance, risk management, higher education, and governance concepts. At least one member of the committee shall have current accounting or related financial management expertise in the following areas:

i. An understanding of generally accepted accounting principles, experience in preparing, auditing, analyzing, or evaluating complex financial statements, and;

ii. The ability to assess the general application of such principles in the accounting for estimates, accruals, and reserves, and;

iii. Experience in preparing or auditing financial statements and;

iv. An understanding of internal controls.

Members may be reappointed. The Audit, Risk and Compliance Committee chair shall be appointed by the Board president and shall be a Board member.

c. Responsibilities and Procedures

It is not the Committee’s duty to plan or conduct audits or to determine that the institution’s financial statements are complete, accurate and in accordance with generally accepted accounting principles. Management of the applicable institutions and agencies shall be responsible for the preparation, presentation, and integrity of the financial statements and for the appropriateness of the
accounting principles and reporting policies used. The following shall be the principal duties and responsibilities of the Committee:

i. Recommend the appointment and compensation to the Board of the external auditors. Evaluate and oversee the work of the external auditors. The Committee must review any services prior to being provided by the external auditor. The external auditing firm shall report directly to the committee as well as the Board and the auditor’s “engagement letter” shall be addressed to the Committee and the president of each institution. The Committee shall have the authority to engage the Board’s legal counsel and other consultants as necessary to carry out its duties.

ii. Evaluate and oversee the work of the Internal Audit and Advisory Services unit (IAAS), located within the Board office.

iii. Discuss with the external auditors the audit scope, focusing on areas of concern or interest;

iv. Review the financial statements, adequacy of internal controls and findings with the external auditors. The external auditor’s “management letter” shall include management responses and be addressed to the Audit, Risk and Compliance Committee and president of the institution.

v. Ensure the external auditor presents the financial statements to the Board and provides detail and summary reports as appropriate.

vi. Oversee standards of conduct (ethical behavior) and conflict of interest policies of the Board and the institutions and agencies under its governance including establishment of confidential complaint mechanisms.

vii. Monitor the independence and performance of each organization’s external auditor and internal auditing departments;

viii. Provide general guidance for developing risk assessment models for all institutions.

ix. Provide an avenue of communication among the external auditor, management, the internal audit staff and the Board.

x. Maintain audit review responsibilities of institutional affiliates to include but not limited to foundations and booster organizations.

xi. Oversee institutional compliance programs.

The Audit, Risk and Compliance Committee will meet at least four times per year. The committee may establish necessary procedures to carry out its responsibilities. Such procedures must be consistent with the Board's Governing Policies and Procedures. The Board's Chief Fiscal Officer, under the direction of the chair, prepares the agenda for work that is under consideration at each meeting of the Board.
5. Executive Committee

a. Purpose

The Executive Committee is responsible for assisting the full Board in discharging its responsibilities with respect to the management of the business and affairs of the Board and the Board Office, to consider matters concerning the Board that may arise from time to time, and to provide direction to the executive director on any of such matters.

b. Composition

The Executive Committee is composed of the current Board president, vice president, and secretary, and the immediate past Board president. The Board’s executive director also shall serve on the Executive Committee. The current Board president serves as chairperson of the committee. In the event the past Board president is unable to serve on the Executive Committee, then the Board president may appoint another member of the Board to serve in the place of such former officer.

c. Responsibilities and Procedures

The Executive Committee shall have such duties, responsibilities, and authority as may be delegated from time to time to the Executive Committee by the Board, and in the intervals between meetings of the Board, the Executive Committee shall, in conjunction with the executive director, assist in directing the management of the business and affairs of the Board. However, the Executive Committee may not undertake any action that, pursuant to any applicable law, rule, or policy of the Board, must be performed by another committee of the Board, or which must be acted upon by the whole Board in public session. The Board’s executive director, under the direction of the Board president, prepares the agenda for and schedules each meeting of the Executive Committee, which may be conducted telephonically. A written record is not kept of the committee’s activities, but it shall be the responsibility of the executive director to promptly communicate to all Board members who are not members of the committee regarding information related to the committee’s discussions and activities.

G. Committee Presentations

1. The agenda for each regular meeting of the Board shall be organized using the areas of responsibility provided for in regard to each permanent standing committee of the Board, as described in Subsection F above, with the exception of the Audit Committee.
2. The Board member who is the chair of the permanent standing committee and spokesperson shall present the agenda items in the area of the committee’s responsibility. This presentation may include calling on institutional/agency representatives and/or other individuals. In the event of an absence or conflict with respect to the committee chairperson, the Board president may designate a substitute Board member or Board officer to present the agenda items.

H. Conflict of Interest

1. Policy

Members of the Board serve a public interest role and have a clear obligation to conduct all business of the Board in a manner consistent with that role. All decisions of the Board are to be made solely on the basis of a desire to promote the best interests of the public good.

2. Procedure

a. A conflict of interest occurs when a member's private interests compete with his or her professional obligations to the Board to a degree that an independent observer might reasonably question whether the person's professional actions or decisions are materially affected by personal considerations, including but not limited to personal gain, financial or otherwise.

b. In the event the Board must consider any transaction for an institution, school or agency that also involves (a) a member of the Board or (b) a member of his or her immediate family or close relative ("immediate family" means spouse, parent, child, stepchild or sibling), or a person residing in the member’s household or a legal dependent of the member, or (c) an organization with which a member of the Board is affiliated, such Board member, at the first knowledge of such transaction, must publicly disclose such real or potential conflict to the Board.

c. Disclosure is also required concerning all relationships and business affiliations that reasonably could give rise to a conflict of interest involving a matter before the Board. Affiliation is understood to exist if a Board member or a member of the Board member’s immediate family, or a person residing in the member’s household or a legal dependent of the member, is:

(1) An officer, director, trustee, partner, employee, or agent of such organization; or

(2) Either the actual or beneficial owner of more than five percent (5%) of the voting stock or controlling interest of such organization; or
Has any other direct or indirect dealings with such organization from which he or she knowingly benefited (e.g., through receipt directly or indirectly of cash or other property in excess of one thousand dollars ($1000) a year).

d. Board members shall also comply with all applicable statutes and rules governing conflicts of interest including, but not limited to, the Bribery and Corrupt Influences Act, Idaho Code §18-1351 et. seq. and the Ethics in Government Act of 1990, Idaho Code §74-401 et. seq.
1. General Principles of Ethical Conduct

All employees of the institutions, and agencies:

   a. Shall not hold financial interests that are in conflict with the conscientious performance of their official duties and responsibilities;

   b. Shall not engage in any financial transaction in order to further any private interest using nonpublic information of the Board, institution, or agency;

   c. Shall put forth honest effort in the performance of their duties;

   d. Shall make no unauthorized commitments or promises of any kind purporting to bind the Board or any Board-governed entity;

   e. Shall not use their public offices for private gain;

   f. Shall act impartially and not give preferential treatment to any private or public organization or individual;

   g. Shall protect and conserve public property and shall not use it for other than authorized activities;

   h. Shall not engage in outside employment or activities, including seeking or negotiating for employment, that conflicts with official duties and responsibilities;

   i. Shall promptly disclose to their chief executive officer waste, fraud, abuse, or corruption in accordance with applicable law and policy;

   j. Shall endeavor to avoid any actions that would create the appearance that they are violating the law or the ethical standards of the Board or the relevant Board-governed entity;

   k. Shall disclose potential conflicts of interest to the Chief Executive Officer, or designee, of the institution or agency, and avoid conflicts of interest, potential conflicts of interest, and circumstances giving rise to the appearance of a conflict of interest.

   l. Shall comply with all applicable statutes and rules governing conflicts of interest including, but not limited to, the Bribery and Corrupt Influences Act, Idaho Code §18-1351 et. seq. and the Ethics in Government Act of 1990, Idaho Code §74-401 et. seq.
2. Conflict of Interest

A conflict of interest occurs when a person's private interests compete with his or her professional obligations to the Board-governed entity to a degree that an independent observer might reasonably question whether the person's professional actions or decisions are materially affected by personal considerations, including but not limited to personal gain, financial or otherwise.

3. Consideration of Transactions

a. In the event that a person subject to this policy shall be called upon to consider a transaction involving a Board-governed entity and a person, entity, party, or organization with which the person is affiliated, as defined below, such person, as soon as he or she has knowledge of the transaction, shall: (i) disclose fully to the Chief Executive Officer, or designee, the precise nature of his or her interest or involvement in the transaction and/or such organization, and (ii) refrain from participating in the institution's or agency's consideration of the proposed transaction.

b. Each person subject to this policy shall disclose to the Chief Executive Officer, or designee, of the entity all relationships and business affiliations that reasonably could give rise to a Conflict of Interest because of the employee's duties and responsibilities. This disclosure obligation is ongoing, and each employee has a duty to supplement or amend his or her disclosure when the employee knows that the disclosure was incorrect in a material respect when made or the disclosure, though correct when made, has become inaccurate in a material respect.

c. For the purposes of this policy, an employee is “affiliated” with an organization if the person, a member of the person's immediate family (i.e., spouse, parents, children, stepchild or sibling, brothers, and sisters), or a person residing in the employee’s household or a legal dependent of the employee: (i) is an officer, director, trustee, partner, employee, or agent of such organization; (ii) is either the actual or beneficial owner of more than one-five percent (45%) of the voting stock of or a controlling interest in such organization; (iii) has any other direct or indirect dealings with such organization from which the employee is materially benefited (e.g., through receipt directly or indirectly of cash or other property in excess of one thousand dollars ($1000) a year). It shall be presumed that an employee is “materially benefited” if he or she receives, either directly or indirectly, money, services, or other property in excess of one thousand dollars ($1000) in any year in the aggregate.

d. All disclosures required to be made hereunder must be directed, in writing, to the Chief Executive Officer, or designee, of the institution or agency.
SUBJECT
Board Policy V.H. Audits -First Reading

REFERENCE
June 2005 Board approved first reading updating policy to bring it into alignment with creation of Audit Committee.
August 2005 Board approved second reading of policy.
December 2008 Removal of ISDB, Historical Society and Commission from all applicable policies.
December 2015 Board approved first reading of amended policy dealing with audits of agencies under Board jurisdiction.
April 2016 Board approved second reading of policy amendments.
October 2022 Board approved first reading of amended policy V.H. and repeal of policy V.Y.
December 2022 Board approved second reading of amendments to policy V.H and repealed policy V.Y.

APPLICABLE STATUTE, RULE, OR POLICY
Board Policy V.H. – Audits

BACKGROUND/DISCUSSION
Board Policy V.H. provides foundational guidelines for the Internal Audit and Systemwide Risk Management roles which were established at the Office of the State Board of Education (OSBE) in 2022. The policy serves to clarify processes and procedures related to the Board’s audit, risk and compliance functions.

IMPACT
Board Policy V.H. includes reporting requirements. The proposed revisions clarify that the specified reports are to be provided to the executive director.

ATTACHMENTS
Attachment 1 – Board Policy V.H – Proposed Revisions, redline

BOARD STAFF COMMENTS AND RECOMMENDATIONS
Board staff recommend that the proposed revisions to Board Policy V.H. progress to a second reading in June.

BOARD ACTION
I move to approve the first reading of proposed revisions to Board Policy V.H. as presented in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
1. General Purpose and Governance

The Audit, Risk and Compliance Committee (Committee) is established as a standing committee of the Board under Idaho State Board of Education, Policies and Procedures, Section I. Bylaws to provide fiscal, compliance and risk management oversight responsibilities. The Committee provides oversight for: financial statement integrity, financial practices, internal control systems, financial management, risk management, compliance and standards of conduct. This policy and relevant sections of the Board's bylaws serve as the audit charter for the Audit, Risk and Compliance Committee.

The Committee serves as the Board's liaison with its external auditors, regulatory auditors, the internal audit and risk management functions of the Office of the Board of Education, and with compliance officers of the agencies and institutions. The Committee reviews agency and institution fiscal operations. The Committee also reviews institutional procedures for controlling operating risks and oversees compliance activities. The Committee chairperson reports periodically to the Board on the activities of the Committee, including any recommended changes or additions to the Board's policies and procedures through the Business Affairs and Human Resources Committee. The Committee is authorized to act on applicable items that do not require Board approval.

The Committee shall meet at least four times per year and may be aligned with regularly scheduled Board meetings or more frequently as circumstances may require. The Committee may require institution or agency management or others to attend the meetings and provide pertinent information as necessary.

2. Calendar

The Committee shall establish a calendar of all regularly scheduled meetings including Committee chairperson (or designee) reports to the Board, the independent auditors, institutions, and others as appropriate. The Committee should take into consideration the requirements and due dates of other State agencies in establishing timelines.

3. Selection of External Auditors

Items 3, 4 and 5 apply to the institutions only (Boise State University, Idaho State University, University of Idaho, and Lewis-Clark State College).

a. The Committee shall allow enough time to prepare and publish a request for proposal, review and evaluate proposals, obtain Board approval of the selected audit firm, and negotiate a contract.
b. The Committee may establish a process for selecting an external audit firm. The process used should include representatives from the Board, Committee, and institutions.

c. The Committee shall make the selection of the recommended external audit firm.

d. The selection of the new external audit firm shall be presented to the Board for approval at the next Board meeting following the Committee’s recommendation.

e. An annual review of external auditor performance and fees shall be conducted.

4. Financial Statement Auditors

a. Lead Partner Rotation

It is the intent of the Board to adhere to the recommendation of the National Association of College and University Business Officers (NACUBO) to require rotation of the lead audit partner of the external audit firm every five years, with a two-year timeout provision. The Committee shall establish when the five-year limit will be reached for the current lead audit partner. At least one year prior to that time, the Committee shall discuss transition plans for the new lead audit partner. The five-year limit will be reviewed annually with the external auditors. These discussions shall be documented in the Committee meeting minutes.

b. Scope and Reporting

i. Prior to External Audit: Prior to the start of any audit work for the current fiscal year, the Committee will meet with the lead external audit partner to review the audit scope. Questions related to audit scope may include significant changes from prior year, reliance on internal controls and any internal audit function, assistance from institutional staff, and changes in accounting principles or auditing standards. The Committee should also discuss how the audit scope will uncover any material defalcations or fraudulent financial reporting, questionable payments, or violations of laws or regulations. Areas of the audit deserving special attention by the Committee and issues of audit staffing should be reviewed.

ii. Prior to the publication of the external auditor’s report, the Committee will review all material written communications between the external auditors and institution management, including management letters and any schedule of unadjusted differences. The Committee shall conclude on the appropriateness of the proposed resolution of issues, and the action plan for any items requiring follow-up and monitoring. The Committee shall review these risks with
institution management at each meeting or sooner, if necessary, to make sure it is up-to-date.

iii. Subsequent to Audit: Subsequent to the external audit report, the Committee shall meet with the lead external audit partner and the Chief Financial Officer of each institution, to review the scope of the previous year’s audit, and the inter-relationship between any internal audit function and the external auditors with respect to the scope of the external auditor’s work. Prior to the start of interim work for the current year audit, the Committee shall review the plans for the audit of the current year.

c. Accounting Policies

Annually and/or in conjunction with the year-end external audit, the Committee shall review with the lead external audit partner all critical accounting policies and practices and all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management of the institutions, the ramifications of each alternative, and the treatment preferred by each institution.

d. Financial Statement Review

At the completion of the external audit, the Committee shall review with institution management and the external auditors each institution’s financial statements, Management’s Discussion and Analysis (MDA), related footnotes, and the external auditor’s report. The Committee shall also review any significant changes required in the external auditor’s audit plan and any serious difficulties or disputes with institution management encountered during the audit. The Committee shall document any discussions, resolution of disagreements, or action plans for any item requiring follow-up.

e. Single Audit Review

At the completion of the Single Audit Report (as required under the Single Audit Act of 1984, and the Single Audit Act Amendments of 1996), the Committee shall review with institution management and the external auditors each institution’s Single Audit Report. The Committee shall discuss whether the institution is in compliance with laws and regulations as outlined in the current Single Audit Act described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement. The Committee shall report to the Board that the review has taken place and any matters that need to be brought to the Board’s attention. The Committee shall document any discussions, resolution of disagreements, or action plans for any item requiring follow-up.
5. Internal Audit (Internal Audit and Advisory Services – IAAS)

   a. IAAS reports functionally to the Committee and administratively to the Board’s Executive Director. The Committee shall have sole oversight of internal audit related activities. The internal audit function will be administered by a Chief Audit Executive (CAE) within the Office of the State Board of Education. Institutions are prohibited from establishing their own internal audit functions. The Committee shall:

      i. Ensure that IAAS works under an internal audit charter, reviewed annually by the Committee
      ii. Ensure the functional independence of IAAS
      iii. Consult with the executive director on the appointment of a CAE to oversee administration of IAAS
      iv. Consult with the executive director on termination or discipline of the CAE
      v. Provide input into the performance review of the CAE
      vi. Approve and provide feedback on an annual audit plan submitted by the CAE
      vii. Advise the Board about increases and decreases to internal audit resources needed to carry out internal audit activities
      viii. Receive and review an annual performance report on internal audit activities from the CAE.
      ix. Review internal audit’s conformance to the International Standards for the Professional Practice of Internal Auditing (“Standards”) published by the Institute of Internal Auditors (“IIA”).
      x. Review internal audit findings and recommendations, and review the adequacy of corrective action taken by institution management.

   b. IAAS shall have free and unrestricted access to institutional personnel, buildings, systems and records needed to perform internal audit work. The Committee shall review and resolve any difficulties encountered by internal audit staff during the course of internal audit work, including restrictions on scope or access to personnel, buildings, systems or records.

   c. IAAS will maintain a quality assurance and improvement program that covers all aspects of IAAS operations. The program will include an evaluation of IAAS’s conformance with the Standards and an evaluation of whether internal auditors apply the IIA’s Code of Ethics. The program will also assess the efficiency and effectiveness of IAAS and identify opportunities for improvement.

   The CAE will communicate to the Committee IAAS’s quality assurance and improvement program, including results of internal assessments (both ongoing and periodic) and external assessments conducted at least once every five years by a qualified, independent assessor or assessment from outside Idaho higher education.
6. Other Audits

a. Legislative Audits

   ii. All state agencies under the Board’s jurisdiction, excluding the State Department of Education, will receive financial statement audits and federal single audits in accordance with federal and state laws and regulations. The Committee must be informed immediately by an agency of any audit activity being conducted by the legislative auditor.

   iii. At the completion of the legislative audit, the Committee shall discuss with the legislative auditor the progress of the legislative audit, including a full report on preliminary and final audit findings and recommendations.

b. Employee Severance Audits

   When key administrative personnel leave an agency or institution, the Committee may bring to the full Board a recommendation as to whether an audit should be conducted and the scope of the audit.

c. Other External Audits and Reviews

   The Committee is authorized to engage the services of outside auditors or evaluators to perform work used to supplement the work of the Committee, to assess compliance with laws and regulations, or to assess business processes.

7. Confidential Reporting Lines

a. The Committee shall ensure the institutions have reporting mechanisms in place to provide for anonymous and confidential reporting of compliance issues. Such mechanisms include, but are not limited to, the use of external reporting hotlines. The Committee shall review the effectiveness of institutional processes used to resolve reports received through reporting mechanisms.

b. Reports of accounting, internal control or auditing matters

   i. The Committee shall set up a process to investigate complaints or reports received by the Board or institutions regarding accounting, internal accounting controls, auditing, or other areas of concern.

   ii. The Committee shall review the procedures for the receipt, retention, timely investigation and proper treatment of complaints, referenced in the preceding
paragraph. The Committee shall review a cumulative list of complaints submitted annually to review for patterns or other observations.

8. Risk Management

The Committee shall provide oversight of a system-wide risk assessment/risk management program. To accomplish this, the Committee shall:

a. Consult with the executive director on the appointment of a system-wide Risk Manager;

b. Monitor and periodically review processes established by the system-wide Risk Manager and institutions to implement effective risk management activities;

c. Periodically receive reports/presentations from the system-wide Risk Manager;

d. If necessary, receive reports from institution employees who oversee departments that manage key risk areas.

9. Compliance

a. General

The Board is committed to ethical conduct and to fostering a culture of compliance with the laws and regulations which apply to the institutions and agencies under its governance.

b. Compliance Program

Each institution shall designate a chief compliance officer, approved by the Committee, and shall ensure that the institution establishes a compliance program to be approved by the Committee which must address, at a minimum, the following:

i. A code of ethics which applies to all employees.

ii. A published and widely disseminated list or index of all major compliance areas and responsibilities, categorized and prioritized based on risk, probability, and negative impact of potential events. A mechanism for coordinating compliance oversight, monitoring and reporting. This includes a management level group or individual with authority to examine compliance issues and assist the chief compliance officer in investigating, monitoring, and assessing compliance and/or recommending policies or practices designed to enhance compliance. A means of assuring institutional policies are regularly reviewed for compliance with current federal and state laws and regulations and Board policies.
Provision of training to educate employees on the laws, regulations and institution policies that apply to their day-to-day job responsibilities.

c. Reporting

i. The chief compliance officer of each institution will prepare and submit a semi-annual compliance report in January and July, on a confidential basis, to Board counsel the Board’s executive director and the Committee noting all material compliance matters occurring since the date of the last report, and identifying any revisions to the institution’s compliance program.

For purposes of this policy, a compliance matter shall be considered material if any of the following apply:

1) The perception of risk creates controversy between management and the internal auditor.
2) It could have a material impact on the institution’s financial statements.
3) It is or could be a matter of significant public interest or that carries risk of significant reputational damage.
4) It may be reported in an external release of financial information.
5) It relates to key controls over financial information that are being designed or redesigned, have failed, or otherwise are being addressed by the organization.
6) It involves fraud related to management.
7) It leads to correction or enforcement action by a regulatory agency.
8) It involves potential financial liability in excess of $25,000

Notwithstanding the foregoing, a compliance matter with financial liability in excess of two hundred thousand dollars ($200,000) must be reported to the Committee as soon as reasonably practicable. A de minimis compliance matter need not be reported to the Committee at any time. A violation will be considered de minimis if it involves potential financial liability of less than twenty-five thousand dollars ($25,000) and is a matter that has not been recurring or is not otherwise indicative of a pattern of noncompliance. For purposes of this subparagraph, “potential financial liability” means the estimated obligation by the institution to another party resulting from noncompliance. Compliance concerns at agencies under the governance of the Board shall be reported to the Committee by the Board’s Executive Director when, in his/her discretion, the matter presents material ethical, legal, or fiduciary responsibilities or obligations.
SUBJECT
Board Policy V.W. Litigation – First Read

REFERENCE
June 2014 The Idaho State Board of Education (Board) approved an amendment to clarify the litigation limits and reporting requirements.

June 2015 The Board approved first reading of the proposed policy amendment.

August 2015 The Board approved second reading of the proposed policy amendment.

APPLICABLE STATUTE, RULE, OR POLICY
Board Policy V.W. – Litigation

BACKGROUND/DISCUSSION
Board Policy V.W. provides foundational guidelines for the management of lawsuits, legal documents, and other official notices.

IMPACT
Board Policy V.W. includes reporting requirements. The proposed revisions clarify that the specified reports are to be provided to the executive director. Revisions also provide for consistency in formatting.

ATTACHMENTS
Attachment 1 – Board Policy V.W - Litigation – Proposed Revisions, redline

BOARD STAFF COMMENTS AND RECOMMENDATIONS
Board staff recommends that the proposed revisions to Board Policy V.W. progress to a second reading in June.

BOARD ACTION
I move to approve the first reading of proposed revisions to Board Policy V.W. as presented in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
1. General

When a lawsuit, legal document, or other official notice is instituted against an institution and/or the Board, the following positions are authorized to accept service of process of such matter on behalf of the institution and/or Board:

a. The institution’s chief executive officer or general counsel; or

b. The Board’s executive director or deputy attorneys general assigned to the Board.

This authority to accept service pertains only to attempted service upon the institution and/or Board, and not to any attempt to serve the Idaho secretary of state or the Idaho attorney general. An institution president or general counsel who accepts service of any matter on behalf of such institution and/or the Board pursuant to this authority must promptly forward a copy of any such matter to the Board office, and in appropriate circumstances, should also forward a copy of such matter to the State of Idaho Department of Administration, Division of Internal Management Systems, Risk Management Program.

2. Initiation of Litigation

An institution or agency under the governance of the Board may initiate a legal action with respect to any matter in which the amount in controversy does not exceed one hundred thousand dollars ($100,000). With the prior approval of the executive director, an institution, agency, or school under the governance of the Board may initiate a legal action with respect to any matter in which the amount in controversy does not exceed two hundred thousand dollars ($200,000). Any other proposed legal action may not be instituted without the prior approval and authorization of the Board.

a. Notwithstanding the authority to initiate litigation provided above, any legal action involving the exercise of the right of eminent domain must have the prior approval of the Board.

b. Pursuant to Section 33-3804, Idaho Code, an institution is permitted to initiate legal action in its own name.

3. Settlement

The chief executive officer has authority to settle a legal matter involving the payment or receipt of up to one hundred thousand dollars ($100,000) of institution or agency funds. The executive director may authorize the settlement of a legal matter involving the payment or receipt of up to two hundred thousand dollars ($200,000) of institution, agency, or school funds. Any settlement of a legal matter that is in excess of two
hundred thousand dollars ($200,000) in institution or agency funds must be approved by the Board prior to any binding settlement commitment.

4. Litigation Reporting by Institutions

Legal counsel for the institutions shall provide monthly attorney–client privileged litigation reports to the Board office (to the attention of the Board’s legal counsel executive director) for distribution to members of the Board. Reports shall include a description of all claims and legal actions filed against the institution since the date of the last report. Updates for each matter shall be in reverse chronological order with the most recent entry for each matter highlighted. Entries shall identify legal counsel for the parties involved, for conflict analysis purposes; a summary of the current status of all claims and pending litigation; contain a risk analysis pertaining to all such claims and pending litigation; and detail the settlement of any matters since the date of the last report, including settlements of matters handled by the State of Idaho Department of Administration, Division of Internal Management Systems, Risk Management Program. With respect to the reporting of a legal settlement, such report shall describe the amount of institution funds that were used, and the amount and source of any other funds that were provided in connection with such settlement, including funds from the Office of Insurance Management or from any other parties. Legal counsel for the institutions should also include in the report any significant incident occurring since the last report that is reasonably expected to give rise to a claim, as well as probable claims or legal actions the institution is aware of which have been threatened but not yet instituted.
SUBJECT
Board Policy IV.D and VII.A. and B First Reading

REFERENCE
June 2019  Board approved first reading of proposed amendments to Board policy IV.E. amending incorporated by reference CTE program content standards.
August 2019  Board approved second reading of proposed amendments to Board policy IV.E.
June 2022  Board approved first reading of proposed amendments to Board Policy IV.E. adding incorporated by reference program content standards for Cybersecurity, Electric, HVAC, and Plumbing Program.
August 2022  Board approved second reading of proposed amendments.
June 2023  Board approved first reading of amendments to Board policy moving Board policies specific to the Division of Career Technical Education from Subsection IV.E. to Section VII.
August 2023  Board approved second reading of proposed amendments, including the establishment of Board Policy VII.D.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Policies and Procedures, Section VII.D.
Section 33-107(4)(B), Idaho Code
Chapter 22, Title 33, Idaho Code

BACKGROUND/DISCUSSION
Career technical education programs consist of cluster programs and pathway programs. Pathway programs are made up of sequential courses meeting the approved pathway content standards. The standards are grouped into six major categories: Agricultural and Natural Resources; Business and Marketing Education; Engineering and Technology Education; Health Sciences; Family and Consumer Sciences; and Skilled and Technical Sciences. In addition to these six categories, the standards include two additional areas incorporated into the specific program categories: Workplace Readiness and First Steps (career pathways). Each major category is made up of several program sub-areas. As an example, Family and Consumer Sciences encompasses Culinary Arts Standards, Early Childhood Education Standards, Entrepreneurship Standards, and Hospitality and Tourism Standards. These standards are updated on a rotating basis working with industry partners as applicable to the program areas.
The current process requires the Board to approve the amendments to the standards concurrent with amendments to the policy itself to update the incorporation dates in the policy. The policy amendments require two readings before becoming finalized. Consistent with discussion with the Board at the April 2024 regular Board meeting the Division is requesting for the applicable Board policies to be updated to delegate approval of the standards to the State Administrator subject to the review and approval process established in Board policy. Attachments 1 and 2 include the policy amendments while Attachment 3 provides an example of one of the career technical education pathway standards as an example of how the standards are structured.

The specific policy amendments include updates from the content standards language used with academic content standards to the terminology that more accurately reflects the standards language appropriate for career technical education pathways. More substantive changes update the list of program areas, and incorporate the current process the Division uses for updating career technical education standards along with additional public notice requirements.

**IMPACT**
Approval of the amendments will the Division to be more responsive to industry, allowing the Division to make updates to the pathway standards as new pathways and amendments to pathways standards are updated.

**ATTACHMENTS**
Attachment 1 – First Reading Board Policy VII. A  
Attachment 2 – First Reading Board Policy VII. B  
Attachment 3 – First Reading Board Policy IV.D.  
Attachment 4 – Pathway Standards – for reference

**BOARD STAFF COMMENTS AND RECOMMENDATIONS**
Board staff reviewed the proposed amendments to Board Policies VII.A, VII.B, and IV.D. Concerns regarding the delegation of Board authority to adopt the stated Pathway Standards were discussed at the Policy, Planning and Government Affairs committee meeting on 4/1/24. Parties did not arrive at a consensus at that time. However, through follow-up discussions and with some additional edits to the proposed policy edits, Board staff, IDE staff, and IDCTE staff appear to be in agreement with the revisions as presented in Attachments 1 and 2.

Title 33, Chapter 22, Idaho Code, governs the general duties of the Division of Career Technical Education. This section of Code does not contemplate the establishment of standards for Pathways programs. The means by which this work is accomplished is a matter of administering the program which the Board can delegate to its State Administrator pursuant to Idaho Code § 33-107.
Board staff recommend approval of the proposed amendments for first reading and proceed to a second reading in June.

**BOARD ACTION**

I move to approve the first reading of amendments to Board Policy VII.A and VII.B as provided in Attachments 1 and 2.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to approve the first reading of proposed amendments to Board Policy IV.D. as provided in Attachment 3.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
1. Purpose

The Division of Career Technical Education (Division) provides leadership and coordination for programs in career technical education in various parts of the state. The general purpose of the Division is to carry out the governing policies and procedures of the Board and the applicable provisions of state and federal career technical education regulations assigned to the Division and the implementation of Chapter 22, Title 33, Idaho Code.

2. Delegation of Authority

The Administrator is the chief program and administrative officer of the Division, is appointed by, and serves in this position at the pleasure of the Board. The Administrator of the Division of Career Technical Education serves as the chief executive officer of the statewide career technical education system with the responsibility to supervise and manage career technical education programs in Idaho within the framework of the Board’s Governing Policies and Procedures for the organization, management, direction, and supervision of the agency and is held accountable by the Board for the successful functioning of the institution or agency in all of its units, divisions, and services pursuant to Board Policy I.E. Executive Officers. Matters brought before the Board in its capacity as the State Board of Career Technical Education shall follow the same policies and procedures established by the Board for all agencies and institutions under its governance.

3. Internal Policies and Procedures

The chief executive officer may establish additional policies and procedures for the internal management of the Division of Career Technical Education that complement, but do not supplant, the Governing Policies and Procedures of the Board. Such internal policies and procedures are subject to Board review and action.

3. Definitions

a. Concentrator means a secondary student enrolled in a capstone course.

b. Local Education Agencies means a public-school district or charter school, including specially chartered districts.

c. Technical College Leadership Council (TCLC) means the career technical education deans of the six regional public technical colleges in Idaho.
d. Technical Skill Assessment means an assessment given at the culmination of a pathway program during the capstone course and measures a student’s understanding of the technical requirements of the occupational pathway.

e. Workplace Readiness Assessment means an assessment of a career technical education student’s understanding of workplace expectations.

4. Functions

The Division provides statewide leadership, administration, supervision, planning, and coordination for career technical education activities in Idaho. The major functions include:

a. Statewide Administration: maintaining a qualified professional staff to provide statewide leadership and coordination for career technical education and the programs offered in accordance with applicable state and federal regulation, Fire Service Training and STAR Motorcycle Safety Program.

b. Supervisory and Consultative Services: providing technical assistance to local education agencies to assist in the implementation and maintenance of career technical education programs including support and leadership for student organizations and education equity.

c. Planning: assisting local education agencies in the development of annual plans and data collection and analyzing services for the establishment of a five-year plan, annual plans, and accountability reports from the local education agencies.

d. Evaluation: conducting and coordinating career technical education evaluations in accordance with state and federal guidelines to monitor program activities and to determine the status of program quality in relation to established standards and access.

e. Budget Preparation: preparing annual budgets and maintaining a statewide finance and accountability system.

f. Program and Professional Improvement: initiating and coordinating research, curriculum development, process improvement, and staff development statewide.

g. Management Information: collecting, analyzing, evaluating and disseminating data and program information which provides a comprehensive source of accurate, current, and easily accessible information for statewide decision making.

h. Coordination: providing liaison with related state agencies and organizations, business and industry, and community-based organizations.

5. Organization.
The programs and services of the Division are organized into two (2) broad segments: (a) Regular Occupational Programs and (b) Special Programs and Support Services.

a. Regular Occupational Programs are programs designed to prepare students at the secondary and postsecondary levels with the skills, knowledge, attitudes, and habits necessary for entry-level employment in recognized occupations in Idaho regions, and may extend to the Northwest and nationally. These programs also provide the supplemental training to upgrade the skills of those citizens of Idaho who are currently employed. Regular programs include, but are not limited to, clusters and pathways in the following program areas:

   i. Agriculture, Food and Natural Resources;
   ii. Business and Marketing;
   iii. Engineering and Technology Education;
   iv. Family and Consumer Sciences and Human Services;
   v. Health Professions and Public Safety; and
   vi. Trades and Industry;
   vii. Individualized Occupational Training;
   viii. Workplace Readiness; and
   viii. First Steps: Understanding the World of Work (career pathways)

A program quality manager is employed in each program area to provide leadership and technical assistance to local education agencies. Program areas and pathways may be added in emergent areas as identified through the comprehensive local needs assessment processes. Emergent areas may be added on a conditional basis pending development of appropriate standards. The Administrator shall report to the Board, no less than annually, the standards that have been reviewed, the standards that have been updated, and any emergent or new program areas that are being developed.

b. Special Programs and Support Services are special programs designed to serve students who are considered special populations, students with special needs, and include other program activities not considered occupational in nature. These programs include Single Parent/Displaced Homemaker, Education Equity, and middle school career technical education.

c. Through state and federal regulations, or by contract for administration, the Division may supervise and manage other career technical training programs as appropriate.
1. Program Delivery

Career technical education programs are made available at three (3) levels in Idaho -- secondary, postsecondary, and workforce training.

2. Secondary Programs

a. Secondary Programs are provided through participating local education agencies and career technical schools. Secondary programs are established by the Division and may be categorized as either a cluster program or a pathway program.

b. Cluster Program: provides introductory and intermediate courses as an introduction to a career technical area and the opportunity to learn workplace readiness expectations. A cluster program must meet the following requirements:

i. Consist of a variety of foundation and intermediate courses within a single Career Cluster. The program does not culminate in a capstone course.

ii. Offer a program that is three or more semesters (or the equivalent) in length.

iii. Demonstrate a strong career/workplace readiness skills alignment.

iv. Participate in a related Career Technical Student Organization.

v. Maintain an active Technical Advisory Committee to guide program development and foster industry engagement.

vi. Require a nationally validated, industry-based Workplace Readiness Assessment created to evaluate skills and attitudes needed for success in the workplace administered by an approved developer as part of the program.

c. Pathway Program: provides specific career area occupational preparation, the opportunity to learn workplace readiness expectations, and the knowledge and skill development required to transition into a similar postsecondary program. A pathway program must meet the following requirements:

i. Consist of a sequence of courses that culminate in a capstone course and aligns with Board-approved career technical education content-pathway standards approved by the Career Technical Education State Administrator.

ii. Offer a program that is three or more semesters (or the equivalent) in length.

iii. Demonstrate a strong career/workplace readiness skills alignment.

iv. Participate in a related Career Technical Student Organization.

v. Maintain an active Technical Advisory Committee to guide program development and foster industry engagement.
vi. Require the Workplace Readiness Assessment as part of the program.

vii. Demonstrate alignment to similar postsecondary program outcomes as well as to relevant industry recognized standards.

viii. Offer work-based learning experience opportunities for students (paid or unpaid).

ix. Require a pathway-identified Technical Skill Assessment for all students enrolled in the capstone course (concentrators).

x. Ensure the program meets the requirements for concentrators to obtain Technical Competency Credit for aligned postsecondary programs.

xi. Require a nationally validated, industry-based technical skill assessment administered by an approved developer.

d. All junior and senior concentrators are required to take the technical skill assessment associated with their program. In the event a senior concentrator is enrolled in a pathway program that does not yet have an approved technical skill assessment, that student will take only the workplace readiness assessment until the pathway program technical skill assessment has been approved.

e. All seniors enrolled in more than one career technical education course are required to take the workplace readiness assessment.

f. Secondary Program Approval

The Division accepts applications each year from local education agencies to establish new secondary career technical programs, change a program type or reactivate an inactive program. To be considered in a given fiscal year the application must be received no later than February 15. Only approved programs are eligible to receive added-cost funds, or additional career technical education funding including, Idaho Program Quality Standards, Program Quality Initiative, Workforce Readiness Incentive Grant, and federal Perkins funding. In order to receive added-cost funds, a program must also be taught by an appropriately certified career technical education teacher. Career technical education teacher certification requirements are established in IDAPA 08.02.02. Applications must be submitted in a format established by the Administrator.

The Division will evaluate applications on standard criteria. Approval of new programs and reactivation of inactive programs will be based on available funding; priority will be given to pathway programs. A local education agency must demonstrate that, as part of its decision for creating, changing, or reactivating a career technical program, the local education agency has considered the recommendations from a local technical advisory committee. If such a committee does not already exist, the local education agency must create a committee for the express purpose of evaluating local and/or regional need for the proposed career technical program and for providing guidance on the application for such program. Applications must indicate if the program is a cluster or a pathway program and will be evaluated according to the specific program type. Denial of applications will
be based on failure to meet the application requirements, including but not limited to missing deadlines, information, failure to meet minimum program requirements or failure to respond to any request for additional information within the timeframe specified in the application. Local education agencies will be notified of their application status on or before April 30 of the application year. Prior to receiving added-cost funds, the local education agency must submit the applicable statement of assurances, as outlined in the application approval letter.

i. Comprehensive high school new cluster programs will be evaluated on the following criteria:

1) Meeting minutes that reflect recommendations from the local technical advisory committee
2) Alignment with one of four approved cluster program areas
3) Provides basic workplace readiness skills
4) Connection to a Career Technical Student Organization (CTSO) supported by the Division
5) Representation on the technical advisory committee in alignment with the program area industry
6) Realistic, applied learning, provided through lab and industry-related activities
7) Facilities to accommodate the program with equipment and space
8) Agreement with the Statement of Assurances, as defined in the application

ii. Comprehensive high school new pathway programs will be evaluated on the following criteria:

1) Meeting minutes that reflect recommendations from the local technical advisory committee
2) Alignment with one of the approved pathway programs established by the Division
3) Provide basic workplace readiness skills
4) Consists of sequential, intermediate and capstone courses that meet the minimum requirements
5) Connection to a Career Technical Student Organization (CTSO) supported by the Division
6) Technical advisory committee that includes representatives from the identified occupational pathway
7) Realistic, applied learning, provided through lab and industry-related activities
8) Work-based learning opportunities
9) Regional need for the program, established through labor market data
10) Alignment with Board-approved program-pathway standards
11) Alignment to related postsecondary program
12) Facilities to accommodate a pathway program with the appropriate and relevant equipment and space for the pathway

13) Agreement with the Statement of Assurances, as defined in the application

iii. Career Technical School Center (CTSC) pathway programs must meet the evaluation criteria for a new pathway program, as well as the criteria outlined in IDAPA 55.01.03.

### g. Allowable Use of Added-Cost Funds

Added-cost funds are distributed to school districts to cover instructor and program expenses beyond those normally encountered by Idaho public schools at the secondary level. Allocations are calculated based on career technical education teacher full-time equivalency (FTE) and must be used to support all career technical education programs in the school districts. Added-cost funds may only be used for expenses directly related to an approved career technical education program in five (5) categories:

#### i. Instructional and Program Promotion Materials and Supplies

1) Single copy reference materials, including single-user electronic reference materials

2) Consumable student lab and classroom manuals

3) Consumable materials and supplies that support the instructional program

4) Workplace Readiness Assessment (WRA) and Technical Skill Assessment (TSA) exam costs (excluding retakes) for those exams administered outside the Division-funded testing window

5) Web-based licensed products to support program instruction and management

6) Materials and supplies used in CTE program promotion

#### ii. Equipment

1) Equipment costing $500 or more per unit cost and having an expected life greater than two years (software is not considered equipment)

2) Computers and peripherals necessary for program instruction above and beyond equipment provided to academic classrooms

#### iii. Salaries

1) Time beyond the normal academic year to be defined as the last school session calendar day of the current year and before the first session calendar day of the subsequent year, which should be a documented agreement between the district and the CTE instructor
2) Time during the normal academic year for CTSO advisors who travel and stay in hotels to attend state and national leadership conferences with their students, beyond the normal school week to include one (1) day for a state leadership conference and two (2) days for a national leadership conference

3) For health professions programs only, time beyond the normal school day, i.e., evenings and weekends, for licensed professional teachers delivering required instruction to students at clinical sites

iv. Contracts

1) Services contracted by the district for maintaining and repairing CTE equipment and for operating and maintaining CTE labs and shops (e.g., equipment service contracts and hazardous waste disposal)

2) Fees and expenses for supplemental specialized instruction (e.g., certified CPR trainer, OSHA certification instructor, short-term specialized instruction from subject matter expert, supplemental staff to supervise students in a clinical environment)

v. Travel and Professional Expenses

1) Instructor travel costs and fees for CTE-related professional development (e.g., conferences, seminars, workshops, state-sponsored meetings, summer conference, and back-to-industry experiences related to the CTE program)

2) Instructor travel costs and fees related to CTE student activities and CTSO activities (e.g., conference registration fees, mileage, per diem, lodging)

3) Instructor membership dues for professional associations and CTSO affiliations related to program area.

4) Up to ten percent (10%) of the CTE added-cost funding for student transportation within the state to a state-approved CTSO leadership conference or event

vi. Added-Cost Funds may not be used for:

1) Print textbooks, electronic textbooks, and/or other electronic media used as the primary source of content delivery

2) Technology related to general instructional delivery (e.g., projectors, cell phones)

3) Classroom equipment, supplies, and web-based licensed products that are provided to all district teachers and classrooms

4) Fundraising equipment and supplies

5) Equipment not related to program instruction
6) Salaries and benefits for certified employees (i.e., teachers who hold certification) and classified employees (i.e., employees other than certified or professional teachers)
7) Salaries and benefits to replace furlough days
8) Salaries and benefits for district pre-service and/or in-service days
9) Salaries and benefits for substitutes
10) Contracted salaries or benefits to provide the basic instructional program
11) Fees to obtain or renew teaching credentials and/or professional licenses
12) Tuition and transcripted credits, including professional development credits
13) Individual student travel fees and expenses

9. First Steps: Understanding the World of Work courses taught by an instructor holding a career technical educator certification may be included as part of a cluster or approved pathway program regardless of the content area endorsement the instructor holds.

10. Postsecondary Programs

a. Postsecondary Programs are provided through the state system of six (6) regional technical colleges. Postsecondary programs are defined in Board Policy III.E and are reviewed by the Administrator. In accordance with Board Policy III.G., the Administrator shall meet with the Technical College Leadership Council (TCLC) on a regular basis. The regional technical colleges are:

   i. College of Western Idaho (Nampa)
   ii. College of Southern Idaho (Twin Falls)
   iii. College of Eastern Idaho (Idaho Falls)
   iv. Idaho State University College of Technology (Pocatello)
   v. Lewis-Clark State College (Lewiston)
   vi. North Idaho College (Coeur d'Alene)

b. Workforce Training Programs are primarily provided through the six (6) regional technical colleges to provide upgrading and retraining programs for persons in the work force and to support regional industry needs. These offerings range from brief seminar classes to intensive courses which normally are fewer than 500 hours of annual instruction.

101. Program ContentPathway Standards

a. To be considered for approval, career technical education programs must meet the program content standards approved by the Board, approved pathway standards or be in an approved emergent area:
i. Agricultural, Food, and Natural Resources, as revised and adopted on August 29, 2019.
ii. Business and Marketing Education, as revised and adopted on August 29, 2019
iii. Engineering and Technology Education, as revised and adopted on August 24, 2022
v. Family and Consumer Sciences and Human Services, as revised and adopted on June 3, 2022.
vi. Skilled and Technical Sciences, as revised and adopted on August 24, 2022, Trades and Industry
vii. Workplace Readiness, as adopted on August 26, 2021.
viii. First Steps: Understanding the World of Work (career pathways)

b. Pathway standards shall be reviewed on a five (5) year rotating basis. Reviews shall be facilitated by the Division’s applicable program quality staff. Review committees shall be made up of, at a minimum, industry representatives and secondary and postsecondary educators specific to the occupation pathway being reviewed, including State Department of Education staff as applicable to the program area. Pathway standards updates shall consist of, but are not limited to:
   i. Standards Setting - The formal process for setting standards will be “industry-driven” and will involve Program Quality Managers, as well as a diverse group of businesses and industry members, educators, and others.
   ii. Criticality Survey - Once the technical standards and student learning outcomes have been developed and vetted through the initial standards writing team, the standards are shared with a larger group of related industry representatives through a critical survey.
   iii. Standards Publishing - Draft standards are posted and timeline established for implementation.
   iv. Test Item Development - Using the criticality survey as a blueprint, secondary and postsecondary instructors, assessment vendor, and program quality managers write test items for the secondary Technical Skill Assessment (TSA).
   v. Pilot - TSAs are aligned with Idaho industry-recognized standards and measure technical knowledge. The TSA is a nationally validated, industry-based assessment, administered by an approved vendor and is the end of program assessment for pathways.
   vi. Test Item Analysis - Test item analysis uses the test questions and data derived from the pilot assessment to determine the quality of the test items and to assess the test as a whole. Items that are not effective may be revised or eliminated to include both the question and possible answers. Item analysis typically focuses on four major pieces of information: test score reliability, item difficulty, item discrimination, and distractor information.
   vii. Set Cut Score - Secondary and postsecondary instructors, assessment vendor and program quality managers determine the cut or passing score for the assessment.
viii. Badge or Microcredential Creation – program quality managers will work with the Performance Management Microcredential Coordinator to develop the microcredentials aligned to the new standards and a completed list of industry-validated set of badges.

ix. Implementation Plan - The set of standards are aligned to the TSA each year. If standards are revalidated and a pilot is created during a school year, the pilot should be offered in the same school year, but the TSA for that same school year should align to the existing standards. The newly adopted standards will take affect the following school year and align with the TSA.
1. Standards Approval

   While maintaining a balance between the local governance of school districts and the Idaho constitutional requirement for a uniform and thorough system of public education, the State Board of Education sets minimum standards to provide the framework through which our public schools then provide educational opportunities to Idaho students. Applicable stakeholders and the public shall be provided with an opportunity to provide feedback prior to consideration of the Board of proposed standards. All standards brought to the Board for consideration shall include the standards themselves, a description of how feedback was solicited, and a summary of the feedback that was received. Amendments to existing standards shall also include a redlined version of the standards showing all amendments.

a. Content Standards

   The Idaho Content Standards articulate the minimum knowledge a student is expected to know and be able to use within a content (subject) area at specific grade levels. Content standards are reviewed and updated on a rotating basis in relation to the curricular materials adoption schedule, but may be updated more frequently if an area is identified as needing to be updated in advance of that schedule. Content standards review will be scheduled such that the content standard is reviewed in the year prior to the scheduled curricular materials review. At a minimum all content areas, including those without corresponding curricular materials, will be reviewed every six (6) years and notification will be made to the Office of the State Board of Education of the review and if the review will result in amendments to the standard or if it was determined that no amendments are necessary for the review cycle. Career Technical Education (CTE) content standard, program standards, and pathway standards reviews will be facilitated by the Division of Career Technical Education and must meet the same review requirements as academic content standards pursuant to the provisions established in Board Policy VII.B. All other content standards review will be facilitated by the State Department of Education.

   The content standards review process will include at a minimum:

   i. A review committee will consist of not less than ten (10) total members from the following stakeholder groups: certified Idaho classroom teachers, Idaho public school administrators, Idaho higher education officials, parents, local school board trustees, and State Department of Education personnel. A review committee must include Idaho educators with subject expertise in the applicable content area. A review committee established for the purpose of reviewing content standards of career technical courses must also include a member from the Division of Career Technical Education.
Additional members may be included at the discretion of the Department. To the extent possible, representatives shall be chosen from a combination of large and small schools or districts and provide for regional representation.

ii. The review committee will make an initial determination regarding the need to update the standards.

iii. Based on the review, the committee shall meet to develop initial recommendations for the creation of new content standards or amendments to the existing content standards. The Department will provide multiple opportunities for public input on the draft recommendations including but not limited to the Department website and processes that allow for individuals in each region of the state to participate.

iv. Drafts of the recommended amendments will be made available to the public for comment for a period of not less than 20 days. At the close of the comment period the committee will finalize recommendations for Board consideration.

b. Standards for Certificated School Personnel

The Standards for Certificated School Personnel set the minimum standards certificated school personnel must meet in each certification and endorsement area to be eligible for certification or to receive subject area endorsements. Teacher preparation programs must be in alignment with these certifications standards to be considered for approval or re-approval.

The standards are reviewed and updated based on a five (5) year cycle, where 20% of the standards are reviewed each year. Standards may be identified for review in advance of the five (5) year cycle, however, all standards must be reviewed every five (5) years. Subject area certification standards must be in alignment with their corresponding subject area content standards incorporated by reference into IDAPA 08.02.03, where applicable. Reviews of career technical education (CTE) educator standards will be facilitated by the Division of Career Technical Education. The Professional Standards Commission (PSC) is responsible for reviewing and making recommendations to the Board on amendments or additions to non-CTE educator standards. The PSC will report annually to the Office of the State Board of Education the standards reviewed during the previous year and if that review resulted in recommendations for amendments or if no amendments were recommended during the review cycle.

2. Instructional Staff Certificate Endorsements

Individuals holding an instructional certificate or occupational specialist certificate must have one or more endorsements attached to their certificate. Instructional staff are eligible to teach in the grades and content areas of their endorsements. Occupational specialist certificate endorsements are listed in Board Policy IV.E. Division of Career Technical Education. To be eligible for each type of endorsement, either the following credit requirement must be met or the individual must have qualified to add the endorsement through one of the routes for Alternative
Authorization for new endorsements established in IDAPA 08.02.02.021. Credits used for determining eligibility in one endorsement area may also be used to meet the requirements for a corresponding endorsement area where the requirements overlap.

a. All Subjects (K-8). Thirty (30) semester credit hours to include coursework in discipline-specific methods of teaching elementary subject areas, cognitive processes, learner development, learning differences, literacy and language development, K-8 subject content, classroom management and behavioral supports, instructional strategies and interventions, and formative and summative assessments.

b. American Government /Political Science (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching the social sciences, six (6) semester credit hours in American government, six (6) semester credit hours in U.S. history survey, and three (3) semester credit hours in comparative government. Course work may include three (3) semester credit hours in world history survey. Remaining coursework must be in political science.

c. Anthropology (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching the social sciences and in the area of anthropology. Coursework may include six (6) semester credit hours in sociology.

d. Bilingual Education (K-12). Twenty (20) semester credit hours to include coursework in bilingual education methods; upper division coursework in one (1) modern language other than English, including writing and literature; cultural diversity; linguistics; second language acquisition theory and practice; foundations of ESL/bilingual education; legal foundations of ESL/bilingual education; identification and assessment of English learners; and biliteracy. To obtain this endorsement, the candidate must score an advanced low or higher (as defined by the American Council on the Teaching of Foreign Languages or equivalent) on an oral proficiency assessment conducted by an objective second party.

e. Biological Science (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching science, lab safety, molecular and organismal biology, heredity, ecology, and biological adaptation.

f. Blended Early Childhood Education/Early Childhood Special Education (Birth - Grade 3). Thirty (30) semester credit hours to include coursework in methods of teaching early childhood and special education, child development and learning, curriculum development and implementation, family and community relationships, assessment and evaluation, central concepts of birth - grade 3 subjects, professionalism, and clinical experience including a combination of general and special education in the following settings: birth to age three (3), ages three to five (3-5), and grades K-3 general education.

g. Blended Elementary Education/Elementary Special Education (Grade 4 - Grade
6). Twenty (20) semester credit hours to include coursework in methods of teaching elementary and special education, central concepts of grade 4 - grade 6 subjects, assessment, and clinical experiences in grades four (4) through six (6). This endorsement may only be used in conjunction with the Blended Early Childhood/Early Childhood Special Education (Birth – Grade 3) endorsement and cannot be used in a middle school setting.

h. Blind and Low Vision (Pre-K-12) Thirty (30) semester credit hours to include coursework in methods of teaching the blind and visually impaired, assessment and evaluation, designing and monitoring individualized education programs, central concepts of academic subjects, special education law, family and community relationships, and accommodations and modifications for the blind and visually impaired.

i. Chemistry (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching science, lab safety, and inorganic and organic chemistry.

j. Communication (5-9 or 6-12). Complete one (1) of the following options:
   i. Twenty (20) semester credit hours to include coursework in methods of teaching communication arts, interpersonal communication, argumentation/personal persuasion, group communication, nonverbal communication, public speaking, journalism/mass communication, and social media; or
   ii. Complete an endorsement in English and complete (12) semester credit hours to include coursework in methods of teaching communication arts, interpersonal communication, argumentation/personal persuasion, and public speaking.

k. Computer Science (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching computer science; data representation and abstraction; design, development, and testing algorithms; software development processes; digital devices, systems, and networks; and the role of computer science and its global impact.

l. Deaf/Hard of Hearing (Pre-K-12). Thirty (30) semester credit hours to include coursework in methods of teaching the deaf/hard of hearing, bimodal communication, sign language acquisition and learning, literacy development, hearing technology, spoken language development, students with disabilities, assessments, designing and monitoring individualized education programs, and special education law.

m. Early Childhood Special Education (Pre-K-3). Twenty (20) semester credit hours to include coursework in methods of teaching early childhood; child development and behavior with emphasis in cognitive-language, physical, social, and emotional
areas, birth through age eight (8); curriculum and program development for young
children ages three to eight (3-8); transitional services; planning, implementing,
and evaluating environments and materials for young children ages three to eight
(3-8); identifying and working with atypical young children ages three to eight (3-
8); designing and monitoring individualized education programs; special education
law; and parent-teacher relations. This endorsement may only be added to the
Exceptional Child Education (K-8 or K-12) endorsement.

n. Early Literacy (K-3). Twenty (20) semester credit hours to include coursework in
methods of teaching reading and writing; the body of knowledge regarding the
science of reading; the cognitive process of learning to read and write;
phonological and phonemic awareness; oral language development; phonics,
vocabulary, fluency, and comprehension; diagnostic literacy assessments and
analysis leading to the development and implementation of individual reading
improvement plans; data analysis related to early recognition of literacy difficulties
including characteristics of dyslexia; data driven instruction and intervention;
language acquisition and development; stages of reading and writing
development; early elementary reading and writing resources including children’s
literacy advocacy strategies for meeting the needs of struggling readers and
writers; and the Idaho Comprehensive Literacy Plan.

o. Earth and Space Science (5-9 or 6-12). Twenty (20) semester credit hours to
include coursework in methods of teaching science, lab safety, earth science,
astronomy, and geology.

p. Economics (5-9 or 6-12). Twenty (20) semester credit hours to include coursework
in methods of teaching the social sciences, three (3) semester credit hours in
microeconomics, three (3) semester credit hours in macroeconomics, and six (6)
semester credit hours in personal finance/consumer economics. Remaining
course work must be in business, economics, or finance.

q. Engineering (5-9 or 6-12). Twenty (20) semester credit hours to include coursework
in methods of teaching engineering and in areas of engineering.

r. English (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in
secondary English language arts methods, grammar, American literature, British
literature, multicultural/world literature, young adult literature, literary theory, and
advanced composition.

s. English as a Second Language (ESL) (K-12). Twenty (20) semester credit hours to
include coursework in methods of teaching language acquisition, a modern
language other than English, cultural diversity, linguistics, second language
acquisition theory and practice, foundations of ESL/bilingual education, legal
foundations of ESL/bilingual education, and identification and assessment of
English learners.
t. Exceptional Child Education (K-8, 6-12, or K-12). Thirty (30) semester credit hours to include coursework in methods of teaching the exceptional child, learner development and individual learning differences, assessment and evaluation, designing and monitoring individualized education programs, central concepts of academic subjects, individual behavioral supports, instructional strategies and interventions, special education law, family and community relationships, and accommodations and modifications.

u. Geography (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching the social sciences, cultural geography, and physical geography, and a maximum of six (6) semester credit hours in world history survey. Coursework may include three (3) semester credit hours in economics. Remaining coursework must be in geography.

v. Geology (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching science, lab safety, and in the area of geology.

w. Gifted and Talented Education (K-12). Twenty (20) semester credit hours to include coursework in methods of teaching gifted and talented learners, assessment and identification of gifted and talented learners, differentiated instruction, creative and critical thinking, social and emotional needs of gifted and talented learners, program design, curriculum, and instruction.

x. Health (5-9, 6-12, or K-12). Twenty (20) semester credit hours to include coursework in secondary methods of teaching health; planning, organization, and administration of a school health program; health, wellness, and behavior change; mental/emotional health; nutrition; human sexuality; and health risk behaviors. Remaining semester credits must be in health-related coursework. To obtain a Health (K-12) endorsement, applicants must complete coursework in elementary health methods.

y. History (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching the social sciences, six (6) semester credit hours in U.S. history survey, and six (6) semester credit hours in world history survey. Coursework may include three (3) semester credit hours in American government. Remaining coursework must be in history.

z. Humanities (5-9 or 6-12). Complete an endorsement in English, history, music, theatre arts, visual arts, or world language; and complete twenty (20) semester credit hours as follows:

i. English endorsement - twenty (20) semester credit hours in two (2) or more of the following areas: architecture, comparative world religion, dance, history, humanities survey, music, philosophy, theatre arts, visual arts, and world language.
ii. History endorsement - twenty (20) semester credit hours in two (2) or more of the following areas: architecture, comparative world religion, dance, humanities survey, literature, music, philosophy, theatre arts, visual arts, and world language.

iii. Music endorsement - twenty (20) semester credit hours in two (2) or more of the following areas: architecture, comparative world religion, dance, history, humanities survey, literature, philosophy, theatre arts, visual arts, and world language.

iv. Theatre arts endorsement - twenty (20) semester credit hours in two (2) or more of the following areas: architecture, comparative world religion, dance, history, humanities survey, literature, music, philosophy, visual arts, and world language.

v. Visual arts endorsement - twenty (20) semester credit hours in two (2) or more of the following areas: architecture, comparative world religion, dance, history, humanities survey, literature, music, philosophy, theatre arts, and world language.

vi. World language endorsement - twenty (20) semester credit hours in two (2) or more of the following areas: architecture, comparative world religion, dance, history, humanities survey, literature, music, philosophy, theatre arts, and visual arts.

aa. Journalism (5-9 or 6-12). Complete one (1) of the following options:
   i. Twenty (20) semester credit hours in the area of journalism to include coursework in methods of teaching communication arts and six (6) semester credit hours in communication arts.
   ii. Complete an English endorsement and twelve (12) semester credit hours to include coursework in methods of teaching communication arts and in the area of journalism.

bb. Literacy (K-12). Twenty (20) semester credit hours to include coursework in methods of teaching reading and writing; foundations of literacy including reading, writing, listening, speaking, viewing, and language; language acquisition and development; diversity of literacy learners; literacy in the content area; literature for youth; diagnostic reading and writing; literacy assessments; data analysis and identification of characteristics of literacy difficulties including dyslexia; data driven instruction; instructional interventions; and the Idaho Comprehensive Literacy Plan.

c. Mathematics (6-12). Twenty (20) semester credit hours to include coursework in secondary methods of teaching mathematics, Euclidean and transformational geometry, linear algebra, discrete mathematics, statistical modeling and probabilistic reasoning, and the first two (2) courses in a standard calculus sequence.

dd. Mathematics - Middle Level (5-9). Twenty (20) semester credit hours to include coursework in secondary methods of teaching mathematics, algebraic thinking,
functional reasoning, Euclidean and transformational geometry, and statistical modeling and probabilistic reasoning. Six (6) semester credit hours of computer programming may be substituted for six (6) semester credit hours of mathematics content.

ee. Music (5-9 or 6-12 or K-12). Twenty (20) semester credit hours to include coursework in secondary methods of teaching music, theory and harmony, aural skills, music history, conducting, applied music, and piano proficiency (class piano or applied piano). To obtain a Music (K-12) endorsement, applicants must complete elementary music methods coursework.

ff. Natural Science (6-12). Complete one (1) of the following options:

i. Complete an endorsement in one of the following: biological science, chemistry, Earth science, geology, or physics; and complete a total of twenty-four (24) semester credit hours as follows:
   1) Biological science endorsement. Eight (8) semester credit hours in each of the following: chemistry, physics, and Earth science or geology.
   2) Chemistry endorsement. Eight (8) semester credit hours in each of the following: biology, physics, and Earth science or geology.
   3) Earth science or geology endorsement. Eight (8) semester credit hours in each of the following: biology, chemistry, and physics.
   4) Physics endorsement. Eight (8) semester credit hours in each of the following areas: biology, chemistry, and Earth science or geology.

ii. Complete an endorsement in Agriculture Science and Technology, and complete twenty-four (24) semester credit hours to include coursework in methods of teaching science, lab safety, and six (6) semester credit hours in each of the following: biology, chemistry, physics, and Earth science or geology.

gg. Online Teacher (K-12). Twenty (20) semester credit hours to include coursework in methods of online teaching; assistive technology; learning management systems and content management systems; synchronous, asynchronous, and blended learning environments; and instructional strategies for the online environment. Candidates must complete an eight (8)-week online clinical practice in a K-12 setting or complete one (1) year of verifiable, successful experience as a teacher delivering online instruction in a K-12 setting within the past three (3) years.

hh. Physical Education (PE) (5-9 or 6-12 or K-12). Twenty (20) semester credit hours to include coursework in secondary methods of teaching PE; sports, skillful movement, physical activity, and outdoor skills; student evaluation in PE; safety and prevention of injuries; fitness and wellness; PE for special populations; exercise physiology; kinesiology/biomechanics; motor behavior; and current
certification in cardiopulmonary resuscitation, automated external defibrillator use, and first aid. To obtain a PE K-12 endorsement, applicants must complete coursework in elementary PE methods.

ii. Physical Science (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching science, lab safety, and in the area of physical science to include a minimum of eight (8) semester credit hours in each of the following: chemistry and physics.

jj. Physics (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching science, lab safety, and in the area of physics.

kk. Psychology (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching the social sciences and in the area of psychology.

ll. Science – Middle Level (5-9). Twenty-four (24) semester credit hours to include coursework in methods of teaching science, lab safety, and eight (8) credits in each of the following: biology, earth science, and physical science.

mm. Social Studies (6-12). Complete one of the following options:
  i. A course in methods of teaching the social sciences and twelve (12) semester credit hours in each of the following: American government/political science, economics, geography, and history
  ii. A course in methods of teaching the social sciences, fifteen (15) semester credit hours in each of the following: American government/political science and history, and nine (9) semester credit hours in each of the following: economics and geography.
  iii. Complete an endorsement in American government/political science, economics, geography, or history and complete a total of thirty-six (36) semester credit hours as follows:

  1) American government/political science endorsement - twelve (12) semester credit hours in each of the following: economics, geography, and history.
  2) Economics endorsement – twelve (12) semester credit hours in each of the following: American government/political science, geography, and history.
  3) Geography endorsement – twelve (12) semester credit hours in each of the following: American government/political science, economics, and history.
  4) History endorsement – twelve (12) semester credit hours in each of the following: American government/political science, economics, and geography.

nn. Social Studies – Middle Level (5-9). Twenty (20) semester credit hours to include coursework in methods of teaching the social sciences and at least five (5) semester credit hours in each of the following: geography, history, and American government/political science or economics.
Sociology (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in methods of teaching the social sciences and in the area of sociology. Coursework may include six (6) semester credit hours in anthropology.

Teacher Leader. Teacher leaders hold a standard instructional certificate or a degree-based career technical certificate and provide technical assistance to teachers and other staff with regard to the selection and implementation of appropriate teaching materials, instructional strategies, and procedures to improve educational outcomes for students. Individuals who hold this endorsement facilitate the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs.

i. Teacher Leader – Instructional Specialist
   1) Complete three (3) years of full-time certificated teaching experience while under contract in an accredited school setting.
   2) Complete a state board approved program of at least twenty (20) post baccalaureate semester credit hours of study aligned to Idaho Teacher Leader Standards at an accredited college or university or a state board approved equivalent. Coursework to include clinical supervision, instructional leadership, and advanced pedagogical knowledge, and demonstrated competencies in the following areas: providing feedback on instructional episodes, engaging in reflective dialogue centered on classroom instructional management and/or experience, focused goal-setting and facilitation of individual and collective personal growth, understanding the observation cycle, and knowledge and expertise in data management platforms.
   3) Complete ninety (90) supervised contact hours to include facilitation of both individual and group professional development activities.

ii. Teacher Leader – Instructional Technology
   1) Complete three (3) years of full-time certificated teaching experience while under contract in an accredited school setting.
   2) Complete a state board approved program of at least twenty (20) post baccalaureate semester credit hours of study aligned to Idaho Teacher Leader Standards at an accredited college or university or a state board approved equivalent. Coursework to include technology integration and assessments, online education infrastructure and execution, instructional technology theory and foundations pedagogy, systems and performance evaluation, and applied project experiences.
   3) Complete ninety (90) supervised contact hours to include facilitation of both individual and group professional development activities.

iii. Teacher Leader – Literacy
   1) Hold a literacy endorsement or meet the requirements of a literacy endorsement, and complete three (3) years of full-time certificated teaching experience while under contract in an accredited school setting.
2) Complete a state board approved program of at least twenty (20) post baccalaureate semester credit hours of study aligned to Idaho Teacher Leader Standards at an accredited college or university or a state board approved equivalent. Coursework to include foundational literacy concepts; fluency, vocabulary development, and comprehension; literacy assessment concepts; and writing process; all of which are centered on the following emphases: specialized knowledge of content and instructional methods; data driven decision making to inform instruction; research-based differentiation strategies; and culturally responsive pedagogy for diverse learners.

3) Complete ninety (90) supervised contact hours to include facilitation of both individual and group professional development activities.

iv. Teacher Leader – Mathematics
1) Hold a mathematics (6-12) or (5-9) endorsement and complete three (3) years of full-time certificated teaching experience while under contract in an accredited school setting.

2) Complete a state board approved program of at least twenty (20) post baccalaureate semester credit hours of study aligned to Idaho Teacher Leader Standards at an accredited college or university or a state board approved equivalent. Coursework to include number and operation, geometry, algebraic reasoning, measurement and data analysis, and statistics and probability, all of which are centered on the following emphases: structural components of mathematics; modeling, justification, proof, and generalization; and specialized mathematical knowledge for teaching.

3) Program shall include ninety (90) supervised contact hours to include facilitation of both individual and group professional development activities.

v. Teacher Leader – Special Education
1) Hold an Exceptional Child Education endorsement or Blended Early Childhood Education/Early Childhood Special Education endorsement and complete three (3) years of full-time certificated teaching experience, at least two (2) years of which must be in a special education classroom setting, while under contract in an accredited school setting.

2) Complete a state board approved program of at least twenty (20) post baccalaureate semester credit hours of study aligned to Idaho Teacher Leader Standards at an accredited college or university or a state board approved equivalent. Coursework to include assessment of learning behaviors; individualization of instructional programs based on educational diagnosis; behavioral and/or classroom management techniques; program implementation and supervision; use of current methods, materials, and resources available; management and operation of special education management platforms; identification and utilization of community or agency resources and support services; counseling, guidance, and management of professional staff, and special education law, including
case law.
3) Program shall include ninety (90) supervised contact hours to include facilitation of both individual and group professional development activities.

qq. Teacher Librarian (K-12). Twenty (20) semester credit hours to include coursework in collection development and materials selection, literature for children and/or young adults, organization of information to include cataloging and classification, school library administration and management, library information technologies, information literacy, and reference and information service.

rr. Theatre Arts (5-9 or 6-12). Twenty (20) semester credit hours to include coursework in secondary methods of teaching theatre arts, acting and directing, and six (6) semester credits in technical theatre/stagecraft.

ss. Visual Arts (5-9, 6-12, or K-12). Twenty (20) semester credit hours to include coursework in methods of teaching secondary arts, 2-dimensional and 3-dimensional studio areas, six (6) semester credit hours in foundation art and design, and three (3) credits in art history. To obtain a Visual Arts (K-12) endorsement, applicants must complete elementary arts methods coursework.

tt. World Language (5-9, 6-12 or K-12). Twenty (20) semester credit hours to include coursework in methods of teaching language acquisition, twelve (12) intermediate or higher credits in a specific world language, and coursework in two (2) or more of the following areas: grammar, conversation, composition, culture, or literature. To obtain an endorsement in a specific world language (K-12), applicants must complete an elementary methods course. To obtain an endorsement in a specific world language, applicants must complete the following:

i. Score an intermediate high (as defined by the American Council on the Teaching of Foreign Languages or equivalent) on an oral proficiency assessment conducted by an objective second party; and

ii. A qualifying score on a state board approved specific world language content assessment, or if a specific world language content assessment is not available, a qualifying score on a state board approved world language pedagogy assessment.
2024 Automotive Maintenance and Light Repair

Program Standards

**CONTENT STANDARD 1.0: PROFESSIONAL ORGANIZATIONS AND LEADERSHIP**

Performance Standard 1.1: Student Leadership in Career Technical Student Organizations (CTSO) and Professional Associations

1.1.1 Explore the role of professional organizations and/or associations in the automotive repair industry.

1.1.2 Define the value, role, and opportunities provided through career technical student organizations.

1.1.4 Engage in career exploration and leadership development.

**CONTENT STANDARD 2.0: SAFETY PROCEDURES FOR LAB AND TOOLS**

Performance Standard 2.1: General Lab Safety Rules and Procedures

2.1.1 Identify and use proper placement of floor jacks and jack stands.

2.1.2 Identify and use proper procedures for safe vehicle lift operation.

2.1.3 Identify proper ventilation requirements for working within the lab/shop area.

2.1.4 Identify marked safety areas.

2.1.5 Identify the location and the types of fire extinguishers and other fire safety equipment.

2.1.6 Identify the location of eye wash station(s) and the procedure for proper use.

2.1.7 Identify the location of the posted evacuation routes.

2.1.8 Comply with the required personal protective equipment (PPE) requirements (e.g., safety glasses, ear protection, gloves, shoes).

2.1.9 Secure hair and jewelry for lab/shop activities.

2.1.10 Identify safety aspects of supplemental restraint systems (SRS), electronic brake control systems, and hybrid vehicle high voltage circuits (e.g., high-intensity discharge (HID) lamps, ignition systems, injection systems).

2.1.11 Locate and interpret safety data sheets (SDS).

2.1.12 Handle, store, and dispose of hazardous waste and materials (e.g., batteries, oil, diesel, gasoline, antifreeze).

Performance Standard 2.2: Tool and Equipment Identification and Use

2.2.1 Identify tools and equipment and their appropriate uses in automotive maintenance and repair.

2.2.2 Identify standard and metric fasteners.

2.2.3 Describe thread repair; identify the required tools needed to perform the repair.

2.2.4 Demonstrate the safe handling and appropriate use of tools and equipment.

2.2.5 Describe the use of, read, and interpret precision measuring tools (e.g., micrometer, dial-indicator, digital/dial-caliper).

2.2.6 Demonstrate cleaning, storage, and maintenance of tools and equipment.
### CONTENT STANDARD 3.0: BASIC VEHICLE SERVICE

**Performance Standard 3.1: Vehicle Service Information**

3.1.1 Reference vehicle service information, such as fluid type, vehicle service history when available, service precautions, technical service bulletins, and recalls, including for vehicles equipped with advanced driver assistance systems (ADAS).

3.1.2 Retrieve and record diagnostic trouble codes (DTC), onboard diagnostics (OBD) monitor status, freeze frame data, and clear codes and data when directed.

3.1.3 Locate the vehicle identification number (VIN) and production data code.

3.1.4 Interpret VIN information.

3.1.5 Identify additional vehicle information labels (e.g., tires, emissions).

3.1.6 Reset maintenance notifications/reminders after services are completed.

3.1.7 Verify and interpret vehicle warning indicators (e.g., messages, lights).

3.1.8 Identify policy requirements for the return of a vehicle to a customer (e.g., floor mats, steering wheel cover).

### CONTENT STANDARD 4.0: ENGINE REPAIR

**Performance Standard 4.1: General Engine Service**

4.1.1 Inspect engine assembly for fuel, oil, coolant, and other leaks.

4.1.2 Install engine covers, using vehicle-specific gaskets, seals, and sealers as required.

4.1.3 Describe the function of the timing belt/chain.

4.1.4 Inspect, replace, and adjust drive belts (e.g., alternator, power steering pump, air conditioning, stretch-fit serpentine belts), tensioners, and pulleys, checking pulley and belt alignment.

4.1.5 Inspect engine mounts.

4.1.6 Identify service precautions related to service of the internal combustion engine of a hybrid vehicle.

4.1.7 Identify engine block assembly components and configurations.

4.1.8 Identify the cylinder head and valve train components and configurations.

4.1.9 Describe the operation of engines equipped with variable valve timing (VVT) systems.

**Performance Standard 4.2: Lubrication and Cooling Systems**

4.2.1 Identify lubrication and cooling system components and configurations.

4.2.2 Perform cooling system pressure check (e.g., inspect and test radiator, coolant recovery tank, heater core, and galley plug) to identify leaks.

4.2.3 Verify the operation of the cooling system (e.g., leak, fans, heater) after service or repair.

4.2.4 Inspect and test the pressure cap.

4.2.5 Determine necessary action to remedy issues related to the radiator, pressure cap, coolant recovery tank, heater core, and galley plug.

4.2.6 Identify causes of engine overheating.

4.2.7 Identify types of water pumps (e.g., gear-driven, belt-driven, chain-driven, electric).

4.2.8 Remove, inspect, and replace the thermostat and gasket/seal.

4.2.9 Inspect and test coolant.

4.2.10 Drain and recover coolant.

4.2.11 Describe procedures for flushing and refilling the cooling system with recommended coolant, using a radiator vacuum tool or bleed air, as required.

4.2.12 Perform oil and filter changes.
## CONTENT STANDARD 5.0: AUTOMATIC TRANSMISSION/TRANSAXLE

Performance Standard 5.1: General Transmission/Transaxle

<table>
<thead>
<tr>
<th>5.1.1</th>
<th>Identify drive train and axle components and configurations.</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.1.2</td>
<td>Describe transmission/transaxle fluids, the importance of fluid quality, and differences in electric vehicle (EV)/hybrid transmissions.</td>
</tr>
<tr>
<td>5.1.3</td>
<td>Check transmission fluid condition.</td>
</tr>
<tr>
<td>5.1.4</td>
<td>Check fluid level in a transmission or transaxle equipped with and without a dipstick; verify the procedure with a scan tool.</td>
</tr>
<tr>
<td>5.1.5</td>
<td>Check for transmission fluid leaks.</td>
</tr>
<tr>
<td>5.1.6</td>
<td>Describe hydraulic principles (i.e., Pascal’s law) at work in a transmission/transaxle.</td>
</tr>
</tbody>

<td>Inspect power steering fluid level and condition.</td>
</tr>
<tr>
<td>7.4.3</td>
<td>Flush, fill, and bleed power steering system.</td>
</tr>
<tr>
<td>7.4.4</td>
<td>Identify proper fluid type according to the manufacturer’s specifications.</td>
</tr>
<tr>
<td>7.4.5</td>
<td>Inspect for power steering and electric steering fluid leakage.</td>
</tr>
<tr>
<td>7.4.6</td>
<td>Inspect and replace power steering hoses and fittings.</td>
</tr>
<tr>
<td>7.4.7</td>
<td>Inspect pitman arm, relay (center link/intermediate) rod, idler arm, mountings, and steering linkage damper.</td>
</tr>
<tr>
<td>7.4.8</td>
<td>Inspect tie rod ends (i.e., sockets), tie rod sleeves, and clamps.</td>
</tr>
<tr>
<td>7.4.9</td>
<td>Inspect upper and lower control arms, bushings, and shafts.</td>
</tr>
<tr>
<td>7.4.10</td>
<td>Inspect and replace rebound bumpers.</td>
</tr>
<tr>
<td>7.4.11</td>
<td>Inspect track bar, strut rods/radius arms, and related mounts and bushings.</td>
</tr>
<tr>
<td>7.4.12</td>
<td>Inspect upper and lower ball joints (with or without wear indicators).</td>
</tr>
<tr>
<td>7.4.13</td>
<td>Inspect suspension system coil springs and spring insulators (silencers).</td>
</tr>
<tr>
<td>7.4.14</td>
<td>Inspect suspension system torsion bars and mounts.</td>
</tr>
<tr>
<td>7.4.15</td>
<td>Inspect and/or replace front/rear stabilizer bar (sway bar) bushings, brackets, and links.</td>
</tr>
<tr>
<td>7.4.16</td>
<td>Inspect, remove, and/or replace strut cartridge or assembly, inspecting mounts and bushings.</td>
</tr>
<tr>
<td>7.4.17</td>
<td>Inspect front strut bearing and mount.</td>
</tr>
<tr>
<td>7.4.18</td>
<td>Inspect components of suspension systems (e.g., coil, leaf, torsion).</td>
</tr>
<tr>
<td>7.4.19</td>
<td>Describe the function of electronically controlled suspension and steering systems and components (e.g., active suspension, stability control).</td>
</tr>
<tr>
<td>7.4.20</td>
<td>Inspect, remove, and/or replace shock absorbers, inspecting mounts and bushings.</td>

### CONTENT STANDARD 9.0: ELECTRICAL/ELECTRONIC SYSTEM

#### Performance Standard 9.1: General Electronic Systems Service

<table>
<thead>
<tr>
<th>Section</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.1.1</td>
<td>Identify electrical/electronic system components (e.g., alternator, fuse, diode) and configurations.</td>
</tr>
<tr>
<td>9.1.2</td>
<td>Demonstrate knowledge of electrical/electronic series, parallel, and series-parallel circuits using principles of electricity (Ohm's law).</td>
</tr>
<tr>
<td>9.1.3</td>
<td>Interpret wiring diagrams to trace electrical/electronic circuits.</td>
</tr>
<tr>
<td>9.1.4</td>
<td>Demonstrate proper use of digital multi-meter (DMM) when measuring source voltage, voltage drop (including grounds), current flow, and resistance.</td>
</tr>
<tr>
<td>9.1.5</td>
<td>Describe shorts, grounds, opens, and resistance problems and causes.</td>
</tr>
<tr>
<td>9.1.6</td>
<td>Describe the function of electrical testing equipment (e.g., test light, oscilloscope, short finder, logic probe).</td>
</tr>
<tr>
<td>9.1.7</td>
<td>Check basic operations of electrical circuits, using appropriate testing equipment.</td>
</tr>
<tr>
<td>9.1.8</td>
<td>Describe the procedure for measuring key-off battery drain (i.e., parasitic draw).</td>
</tr>
<tr>
<td>9.1.9</td>
<td>Inspect and test fusible links, circuit breakers, and fuses.</td>
</tr>
<tr>
<td>9.1.10</td>
<td>Repair wire, using solder and heat shrink.</td>
</tr>
</tbody>
</table>

#### Performance Standard 9.2: Battery Service

<table>
<thead>
<tr>
<th>Section</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.2.1</td>
<td>Perform battery state-of-charge test.</td>
</tr>
<tr>
<td>9.2.2</td>
<td>Perform battery capacity and load test, verifying proper battery capacity for vehicle application.</td>
</tr>
<tr>
<td>9.2.3</td>
<td>Maintain or restore electronic memory.</td>
</tr>
<tr>
<td>9.2.4</td>
<td>Inspect and clean batteries, fill battery cells, and check battery cables, connectors, clamps, and hold-downs.</td>
</tr>
<tr>
<td>9.2.5</td>
<td>Perform slow/fast battery charge, according to battery manufacturer recommendations.</td>
</tr>
<tr>
<td>9.2.6</td>
<td>Jump-start a vehicle, using jumper cables and a booster battery or an auxiliary power supply.</td>
</tr>
<tr>
<td>9.2.7</td>
<td>Identify electronic modules, security systems, radios, and other accessories that require re-initialization or code entry after reconnecting the vehicle battery.</td>
</tr>
</tbody>
</table>

#### Performance Standard 9.3: Starting System

<table>
<thead>
<tr>
<th>Section</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.3.1</td>
<td>Perform starter current draw test.</td>
</tr>
<tr>
<td>9.3.2</td>
<td>Perform starter circuit-voltage drop tests.</td>
</tr>
<tr>
<td>9.3.3</td>
<td>Describe procedures for the removal and installation of a starter in a vehicle.</td>
</tr>
<tr>
<td>9.3.4</td>
<td>Inspect and test switches, connectors, and wires of starter control circuits (e.g., relays, solenoid).</td>
</tr>
<tr>
<td>9.3.5</td>
<td>Describe the operation of an automatic idle-start/stop-stop system.</td>
</tr>
</tbody>
</table>

#### Performance Standard 9.4: Charging System

<table>
<thead>
<tr>
<th>Section</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.4.1</td>
<td>Perform charging system output test.</td>
</tr>
<tr>
<td>9.4.2</td>
<td>Describe procedures for inspection and function of the charging system.</td>
</tr>
<tr>
<td>9.4.3</td>
<td>Perform charging circuit voltage drop tests.</td>
</tr>
</tbody>
</table>
### Performance Standard 9.5: Lighting Systems

9.5.1 Inspect interior and exterior lamps and sockets, including headlights and auxiliary lights (fog lights/driving lights), replacing as needed.

9.5.2 Aim headlights.

### Performance Standard 9.6: Accessories

9.6.1 Describe vehicle comfort, convenience, access, safety, and related systems operation.

9.6.2 Describe the removal and reinstallation of the interior panel.

9.6.3 Identify tools and fasteners associated with panel removal and reinstallation.

9.6.4 Describe the operation of keyless entry/remote-start systems.

9.6.5 Verify windshield wiper and washer operation, replacing wiper blades.

### CONTENT STANDARD 10.0: HEATING AND AIR CONDITIONING SYSTEMS

### Performance Standard 10.1: A/C Systems

10.1.1 Identify heating, ventilation, and air conditioning (HVAC) refrigerant types, components, and configurations.

10.1.2 Identify steps of an A/C performance test and operation of air conditioning refrigerant recovery machines.

10.1.3 Inspect A/C heater ducts, doors, hoses, cabin filters, and outlets and determine necessary remedy.
IDaho Division of Career Technical Education

subject
Board Policy VII.D. First Reading and Idaho Quality Program Standards Amendment

Reference

November 2014 Board approved Pending Rule Docket 55-0104-1401.

June 2023 Board approved first reading of Board Policy VII.D. moving the Division’s section of Board policy from subsection IV.E. to its own section, Section VII.

August 2023 Board approved second reading of Board Policy VII.D.

Applicable Statute, Rule, or Policy
Idaho State Board of Education Policies and Procedures, Section VII.D.
Section 33-1629, Idaho Code
Idaho Administrative Code, IDAPA 55.01.04

Background/Discussion
The Idaho Legislature enacted Section 33-1629, Idaho Code, Agricultural and Natural Resource Education Programs during the 2014 Legislative session. The purpose of this section was to establish (1) Idaho Quality Program Standards Incentive Grants, and (2) Agricultural Education Program Start-Up Grants and requires the State Board for Career Technical Education to adopt standards to implement the Idaho Quality Program Standards Incentive Grants and Agricultural Education Program Start-Up Grants. The Board adopted the required standards through the 2014-2015 negotiated rulemaking process and approved the required standards at the August 14, 2014 regular Board meeting.

Through the Zero-Based Regulations process established by the Division of Financial Management the Board last updated IDAPA 55.01.04 through the 2023-2024 negotiated rulemaking process. Those amendments have been accepted by the Housed Education and Senate Education committees and the concurrent resolution (SCR 121) approving the rule amendments is pending action by the Legislature.

The current Idaho Quality Program standards, incorporated by reference into Board policy VII.D., have not been updated since the original August 2014 approval. During the summer and fall 2023, Division staff held a number of meetings with agriculture education stakeholders across the state who have received, applied, or are eligible to apply for one of the two grant programs with
the intent of verify continued relevance and updating were appropriate the current standards, including clarifying and streamlining the review process for eligible applicants. Board policy has the force and effect of law on those agencies and institutions that it governs and documents incorporated by reference into Board policy have historically been done in the same manner as documents incorporated by reference into administrative code, requiring the Board policy to updated through two readings each time the incorporated documents are updated with a new Board approval date. Consistent with discussion during the February 2024 Board meeting, the Division is requesting approval of the updated standards provided in Attachment 1, as well as delegation in Board Policy VII to the Division Administrator to approve future amendments to the standards as long as they are developed through the process established in Board policy VII.D.

The proposed policy amendments establish the process for amending the standards moving forward and delegates the approval of future updates to the standards to the Division Administrator in accordance with the discussion at the February 2024 regular Board meeting during the Divisions annual report. The process for updating the standards includes: makeup of the recommending committee and opportunity for public input.

Due to the restructuring of the Idaho Quality Program Standards the request is to approve the standards as a new document. The current standards are provided in Attachment 2 for reference.

**IMPACT**

Approval of the two actions would update the standards for use in the next grant award cycle and delegate future amendments to the standards to the Division Administrator.

**ATTACHMENTS**

Attachment 1 – Proposed IQPS First Reading
Attachment 2 – Existing IQPS Approved 2014,
Attachment 3 – Board Policy VII.D. First Reading

**BOARD STAFF COMMENTS AND RECOMMENDATIONS**

Through discussion with IDCTE staff it seems clear that the proposed amendments to Board Policy VII.D. seek to solve an existing problem. The frequency with which the standards need to be updated in the near future will result in IQPS standards adoption becoming a regular agenda item for the Board. Additionally, as the Board has established a precedent for conducting two readings of proposed revisions to documents incorporated by reference into policy, the process for updating these standards is lengthy. As a proposed solution to this problem, IDCTE is requesting that the adoption of standards be delegated to the State Administrator for IDCTE, thereby removing the perceived burden on the Board and creating a more nimble process. However, several concerns have presented during the review of this proposal that the Board should consider.
First, Idaho Code § 33-1629(1)(a) states that “the board for career technical education shall adopt and implement Idaho quality program standards for agricultural and natural resource education programs offered in any grade 9 through 12.” While Idaho Code § 33-107(4)(a) provides the Board broad authority to delegate “such powers as said officers require to carry out and administer the policies, orders, and directives of the board”, in this case the Board is not being asked to delegate the powers necessary to administer the Board’s decision. It is being asked to grant the State Administrator of IDCTE the authority to make this statutorily required decision on behalf of the Board. This is a significant distinction. Whereas such delegation of decision-making authority is not expressly authorized, the Board should consider whether delegating this type of decision is the best solution to the problem at hand and whether it sets a desired precedent.

Second, the Board has established a precedent of conducting two readings of documents incorporated by reference into policy. This is not a required step, but a process established in emulation of rulemaking requirements that ensures sufficient public transparency in revisions made to documents that impact a broader group of stakeholders. While the process does require extra time between readings, removing it would not only create an exception to the established practice, but would remove an opportunity for public transparency of Board decisions. The proposed policy amendments do seek to establish a structure for how IDCTE will engage with a committee and a review process. However, this process already exists, and is concluded with Board adoption of the committee’s recommended revisions. The request being made of the Board is simply to remove the Board’s involvement in the process. As statute requires the Board, and not the State Administrator, to establish the standards, the Board should consider whether its own public transparency obligations are met if the proposed amendments are adopted.

Board staff acknowledges that IDCTE is faced with a difficult issue of needing to move more quickly than the current process allows. However, a more appropriate solution may be to seek to revise the governing statute to provide for the delegation of the adoption of these standards to the State Administrator.

Board staff does not recommend approval of the request to delegate the approval of IQPS standards to the State Administrator. Board approval of IQPS standards therefore continues to require two readings. Additionally, IDCTE staff did not have time to prepare a redline version of the proposed amendments. A redline copy has been requested for the second reading.

Board staff recommends approval of the first reading of the proposed amendments to Idaho Quality Program Standards as provided in Attachment 1. Board staff recommends approval of the first reading of proposed amendments to Board Policy VII.D. with one exception: on page 1, line 19 replace the word “Division” with
the word “Board”, thereby ensuring that the Board retains the authority granted by statute.

BOARD ACTION
1. I move to approve the first reading of the Idaho Quality Program Standards as provided in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to approve the first reading of proposed amendments to Board Policy VII.D. as provided in Attachment 3 with the following exception: on page 1, line 19 replace the word “Division” with the word “Board.”

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Idaho Quality Program Standards (IQPS)

Standards and Quality Indicators

This document was prepared and reviewed by representatives of: Idaho Team Ag Ed; Idaho Division of Career Technical Education; Idaho Agriculture Teachers Association; Department of Agricultural Education and 4-H Youth Development, University of Idaho.

Introduction

The Idaho Agricultural Education Quality Program Standards are a result of a need to provide a consistent delivery of high-quality agricultural education programs across the state of Idaho focused on relevant instruction, rigorous clear goals, continuous program improvement and the development of essential skills for student success. Input from local and state leaders was sought and obtained regarding the qualities of highly successful agricultural education programs.

The Idaho Agricultural Education Quality Program Standards are designed to be used by the local instructor(s), administration, community partners, stakeholders, technical advisory committee, FFA Alumni and/or an external assessment team to conduct an evaluation of the local agricultural education program and develop clear goals and objectives for program improvement. The local self-assessment or evaluation will serve as the basis for further review by the Idaho Division of Career Technical Education in determining the quality of the agricultural education program in reference to the Idaho Agricultural Education Quality Program Standards.

During the 2014 sixty-second Legislative regular session, Senate Bill 1275 was passed to amend Chapter 26, Title 33 of the Idaho Code to establish provisions relating to the Idaho Quality Standards Incentive Grants and direct the State Board of Career Technical Education to adopt and implement the Idaho Agriculture Education Quality Program Standards.

The Idaho Agriculture Education Quality Program Standards comprise seven main areas dealing with the school based agricultural education program and the agricultural education instructor. Standards 1 – 6, address the agricultural education program and standard 7 addresses the agricultural education instructor. Each standard and standard statement is followed by a series of quality indicators which further define the standard or standard statement.

Local Program Success materials found in the National Council for Agricultural Education’s National Program Quality Standards rubric may provide additional tools, resources and information to help agricultural education programs meet the standards and standard statements in this document.
Standard 1:
A standards-based curriculum in Agriculture, Food and Natural Resources Systems is delivered through an integrated model that incorporates classroom and laboratory instruction, experiential learning and student leadership and personal development.

Quality Indicators:

1. The agricultural education curriculum includes course names and descriptions, course objectives/competencies, course sequences, course prerequisites, and staffing assignments for all courses.

2. The Program(s) of Study (POS is the course sequence) offered by the AFNR program is cross-walked/aligned to the Idaho State Department of Education (SDE) academic content standards and references the Idaho Core Standards.

3. The agricultural education program provides students with “value added” components to enhance their ability to be either college or career ready.

4. Instructional activities throughout the year are balanced between classroom and laboratory instruction, experiential learning (SAE), and leadership and personal development (FFA).

Standard 2:
Programs promote achievement and skill development of all students through year-round instruction using multiple methods to assess student learning that illustrates academic achievement and skill development.

Quality Indicators:

1. Course instructional outlines are documented and based upon an approved Program of Study (POS).

2. Instruction reinforces written objectives and appropriate assessments aligned to relevant and rigorous academic content and Idaho Core standards.

3. The instructor uses multiple instructional strategies for varied student learning styles and incorporates real-life experiences to facilitate learning.

4. The instructional program uses a variety of current instructional materials, techniques, and community-based support.
Standard 3:
The facilities and equipment support implementation of the agricultural education program and curriculum by providing all students opportunities for the development and application of knowledge and skills. (Facilities are defined as classroom, agricultural education science laboratory, computer laboratory, wood and metal shop, greenhouse, head house, land laboratory, livestock facilities, storage areas and office).

Quality Indicators:

1. Facility size, layout, storage and labs provide for effective delivery of the courses offered and student enrollment.
2. Facility is clean, organized, and maintained to provide an environment conducive to learning.
3. Facility meets existing local, state, and/or federal health standards including air, temperature, water, acoustics, ventilation, light and particulate control.
4. Current equipment is industry relevant and adequate for student instruction.
5. Adequate consumable supplies are provided annually to deliver instruction.
6. Current technology is available, maintained, and updated to offer high quality instruction and support experiential learning (SAE) and student leadership development (FFA).

Standard 4:
Education is enhanced through active participation by all students in a year-round experiential learning program (SAE) that is planned, developed and managed by the student with instruction and support by the agricultural instructor.

Quality Indicators:

1. All students have experiential learning (SAE) programs based on career pathways/clusters/interests and agricultural education curriculum standards.
2. Continuous instruction and supervision of student experiential learning (SAE) programs are provided by the agricultural education instructor throughout the calendar year.
3. Students have a comprehensive experiential learning program that shows evidence of improvement.
4. Students have comprehensive experiential learning programs (SAE) and keep accurate record of continuous improvement.
Standard 5:
All students participate in year-round intra-curricular agricultural education student organization (FFA) programs and activities.

Quality Indicators:
1. The FFA chapter annually plans and implements a Program of Activities (POA) and reviews and approves Chapter Constitution/Bylaws.
2. The agricultural education program students participate in FFA programs and activities listed in the Program of Activities.
3. The FFA chapter conducts and/or participates in local activities and events.
4. The FFA chapter conducts or participates in district, state and national activities.
5. Students who are FFA members show evidence of continuous improvement by achieving advanced degrees based on their SAE program and FFA participation.

Standard 6:
Key stakeholders are continually engaged, consulted and invested in the agricultural education program.

Quality Indicators:
1. The agriculture education program consults with an educational advisory board, recognized by the local board of education, to plan and direct the program’s curriculum, supervised agriculture experiences (SAE), and leadership development (FFA).
2. Technical Advisory Committee is comprised of School Board, Administration, Alumni, parents, local decision makers, and agricultural industry leaders from the community and its impact area.
3. Stakeholder groups (Technical Advisory Committee or Alumni and Supporters Group) collaborate often in order to maintain consistent support of the agriculture education program and promote its success.
4. Agricultural education program stakeholders and supporters (e.g. Technical Advisory Committee and/or Alumni and Supporters group) are recognized for their support of the agricultural education program.
5. Community volunteers (FFA Alumni and Supporters group or others) are organized and involved in supporting the agricultural education program.
6. The agricultural education program provides relevant data/information to key stakeholders and other entities.

7. A recruitment and retention plan is annually implemented for prospective and current students.

8. Follow-up data is collected and maintained on all agriculture program graduates.

**Standard 7:**
Competent and certified agricultural education instructor provides the core of the program.

**Quality Indicators:**

1. The agricultural education instructor has current Idaho certification to teach agriculture and has advanced training to enhance instruction in the agricultural education program.

2. The agricultural education instructor provides student instruction and supervision throughout the year in classroom and laboratory, experiential learning (SAE) and leadership and personal development (FFA).

3. The agricultural education instructor demonstrates effectiveness in quality teaching that promotes student growth.

4. The agricultural education instructor practices classroom management that maximizes time-on-task and minimizes disruptive behaviors.

5. The agricultural education instructor demonstrates effectiveness involving experiential learning (SAE) activities that promotes student growth.

6. The agricultural education instructor demonstrates effectiveness involving leadership and personal development (FFA) activities that promotes student growth.

7. The agricultural education instructor demonstrates professional growth through activities to promote knowledge of content, instructional strategies, industry practices and instructor leadership roles.

8. The agricultural education instructor is an active member in local, state and national professional education associations.

Agricultural Education
Quality Program Standards

This document was prepared and reviewed by representatives of:

Idaho Team Ag Ed
Idaho Division of Career Technical Education
Idaho Vocational Agriculture Teachers Association
Department of Agricultural Education & 4-H Youth Development, University of Idaho
INTRODUCTION

The Idaho Agricultural Education Quality Program Standards are a result of a need to provide a consistent delivery of high quality agricultural education programs across the state of Idaho focused on relevant instruction, rigorous clear goals, continuous program improvement and the development of essential skills for student success. Input from local and state leaders was sought and obtained regarding the qualities of highly successful agricultural education programs.

The Idaho Agricultural Education Quality Program Standards are designed to be used by the local instructor(s), administration, community partners and/or stakeholders, advisory council, FFA Alumni and/or an external assessment team to conduct an evaluation of the local agricultural education program and develop clear goals and objectives for program improvement. The local self-assessment or evaluation will serve as the basis for further review by the State Division of Career Technical Education in determining how well an agricultural education program meets the Idaho Agricultural Education Quality Program Standards.

During the 2014 sixty-second Legislative regular session, Senate Bill 1275 was passed to amend Chapter 26, Title 33 of the Idaho Code to establish provisions relating to the Idaho Quality Standards Incentive Grants and direct the State Board of Career Technical Education to adopt and implement the Idaho Agriculture Education Quality Program Standards.

The Idaho Agriculture Education Quality Program Standards comprise seven main areas dealing with the school based agricultural education program and the agricultural education instructor. Standards 1 – 6, address the agricultural education program and standard 7 addresses the agricultural education instructor. Each standard and standard statement is followed by a series of quality indicators which further define or assess the standard or standard statement.

Local Program Success materials found in the National FFA Local Program Resource Guide may provide additional tools, resources and information to help agricultural education programs meet the standards and standard statements in this document.
Standard 1: Program Planning, Design & Curriculum

**Standard Statement:**
A standards-based curriculum in Agriculture, Food & Natural Resources Systems is delivered through an integrated model that incorporates classroom and laboratory instruction, experiential learning and student leadership & personal development.

**Quality Indicators:**
1. The agricultural education curriculum includes: 1.) approved Ag/NR courses; 2.) course names & descriptions; 3.) course objectives/ competencies; 4.) course sequences, 5.) course prerequisites, 6.) staffing assignments for all courses.

2. The Program of Study (POS) offered by the program is cross-walked/aligned to the Idaho Department of Education (SDE) academic content standards and references the Idaho Core Standards.

3. Experiential learning (SAE) is integrated throughout the instructional program.

4. Student leadership & personal development (FFA) is integrated throughout the instructional program.

5. The agricultural education program consults with an advisory board, recognized by the local board of education, with current constitution and bylaws on program planning, design and curriculum.

6. The agricultural education program provides students with “value added” components to enhance their ability to be either college or career ready.
Standard 2: Instruction & Assessment

**Standard Statement:**
Programs promote academic achievement and skill development of all students through year-round instruction using multiple methods to assess student learning that illustrates academic achievement and skill development.

**Quality Indicators:**

1. Instructional activities throughout the year are balanced between classroom & laboratory instruction, experiential learning (SAE), and leadership & personal development (FFA).

2. Course instructional outlines are documented and based upon an approved Program of Study (POS).

3. Instruction reinforces written objectives and appropriate assessments aligned to relevant and rigorous academic content and Idaho Core standards. The instructor uses multiple instructional strategies for varied student learning styles and incorporates real-life experiences to facilitate learning.

4. The instructional program uses a variety of current instructional materials, equipment, techniques, technology and community-based resources.
Standard 3: Facilities & Equipment

Standard Statement:
The facilities and equipment support implementation of the agricultural education program and curriculum by providing all students opportunities for the development and application of knowledge and skills. (Facilities are defined as classroom, agricultural education science laboratory, computer laboratory, wood and metal shop, greenhouse, head house, land laboratory, livestock facilities, storage areas and office).

Quality Indicators:
1. Facility size, layout, storage and labs provide for effective delivery of the courses offered and student enrollment.

2. Facility is clean, organized, and maintained to provide an environment conducive to learning.

3. Facility meets existing local, state, and/or federal health standards including air, temperature, water, acoustics, ventilation, light and particulate control.

4. Idaho Building Safety Inspection (IBSI) has been conducted on the facility, equipment and tools with all defective items removed, repaired, or replaced.

5. Current equipment is available and maintained and adequate consumable supplies are provided annually to deliver instruction.

6. Current technology is available, maintained, and updated to offer high quality instruction and support experiential learning and student leadership development.
Standard 4: Experiential Learning

**Standard Statement:**
Education is enhanced through active participation by all students in a year-round experiential learning program that is planned, developed and managed by the student with instruction and support by the agriculture instructor.

**Quality Indicators:**

1. All students have experiential learning programs based on career pathways/clusters/interests and agricultural education curriculum standards.

2. Continuous instruction and supervision of student experiential learning programs are provided by the agriculture instructor throughout the calendar year.

3. Students have comprehensive experiential learning programs that show evidence of continuous improvement.

4. The agricultural education program consults with an advisory board, recognized by the local board of education, with current constitution and bylaws on experiential learning.
Standard 5: Leadership Development

**Standard Statement:**
All students participate in year-round intra-curricular agricultural education student organization programs and activities.

**Quality Indicators:**

1. The FFA chapter annually plans and implements a Program of Activities (POA) and reviews and approves Chapter constitution and/or bylaws.

2. The agricultural education program students participate in FFA programs and activities and have a progressive plan for leadership and personal development.

3. The FFA chapter conducts and/or participates in local activities and events.

4. The FFA chapter participates in district, state and national activities.

5. Students who are FFA members show evidence of continuous improvement by achieving advanced degrees based on the SAE program and FFA participation.

6. The agricultural education program consults with an agricultural education advisory board, recognized by the local board of education, with current constitution and bylaws on leadership development.
Standard 6: Partnerships & Marketing

**Standard Statement:**
Key stakeholders are continually engaged, consulted and invested in the agricultural education program.

**Quality Indicators:**
1. School and community partners (School Board, Administration, agriculture advisory board, Alumni, parents, media, decision makers, agricultural industry leaders and community) are familiar with the agricultural education model (classroom, SAE and FFA), are involved in shaping and strengthening the program and promoting program accomplishments and success.

2. Agricultural education program stakeholders and supporters are recognized for their support of the agricultural education program.

3. Community volunteers (FFA Alumni or others) are organized and involved in supporting the agricultural education program.

4. The agricultural education program provides relevant data/information to key stakeholders and other entities.

5. A recruitment and retention plan is annually developed and implemented for prospective and current students.

6. Follow-up data is collected and maintained on all agriculture program graduates.
Standard 7: Certified Agricultural Education Instructor and Professional Growth

**Standard Statement:**
Competent and certified agricultural education instructor provides the core of the program.

**Quality Indicators:**

1. The agricultural education instructor has current Idaho certification to teach agriculture and has advanced training to enhance instruction in the agricultural education program.

2. The agricultural education instructor provides student instruction and supervision throughout the year in classroom & laboratory, experiential learning (SAE) and leadership & personal development (FFA).

3. The agricultural education instructor demonstrates effectiveness in quality teaching that promotes student growth.

4. The agricultural education instructor practices classroom management that maximizes time-on-task and minimizes disruptive behaviors.

5. The agricultural education instructor demonstrates effectiveness involving experiential learning (SAE) activities that promotes student growth.

6. The agricultural education instructor demonstrates effectiveness involving leadership and personal development (FFA) activities that promotes student growth.

7. The agricultural education instructor demonstrates professional growth through activities to promote knowledge of content, instructional strategies, industry practices, and instructor leadership roles.

8. The agricultural education instructor is an active member in local, state and national professional education associations.
Idaho State Board of Education

GOVERNING POLICIES AND PROCEDURES

SECTION: VII. DIVISION OF CAREER TECHNICAL EDUCATION

Subsection: D. Miscellaneous Grant Program Standards and Requirements

1. Section 33-1629, Idaho Code, establishes the Idaho Agricultural Education Quality Program Standards Incentive Grants and Agricultural Education Program Start-Up Grants. These grants shall be administered based on the provisions of Section 33-1629, Idaho Code, and IDAPA 55.01.04.

   a. Pursuant to the provisions of IDAPA 55.01.04, the Idaho Agricultural Education Quality Program Standards shall be used to evaluate the quality of Agricultural, Food and Natural Resource education programs. The Idaho Agricultural Education Quality Program Standards as approved August 14, 2014, are adopted and incorporated by reference into this policy. The standards shall be reviewed at a minimum on a five year cycle and may be updated more frequently at the request of agricultural education stakeholders. The standards may be found on the Division of Career Technical Education website at http://cte.idaho.gov. The Division will adopt new or updated standards based on recommendations from a standards review committee. The review committee shall consist of, but not be limited to the following representation:

      i. Agricultural program educators, including program administrators,
      ii. Existing grant program awardees, and
      iii. Eligible grant program staff.

   b. The Division will include reference to any Idaho Agricultural Education Quality Program Standards as part of the annual update to the Board, if applicable to the reporting period.

2. Industry Partner Fund

Section 33-2213, Idaho Code, establishes the Industry Partner Fund. In an effort to increase the capacity of each of Idaho’s six public technical colleges to work with regional industry partners to provide a “rapid response to gaps in skills and abilities,” Idaho has established the Industry Partner Fund. The purpose of the fund is to provide funds that give the technical colleges the flexibility to work with Idaho employers to provide “timely access to relevant college credit and non-credit training and support projects.”

   a. Industry Partner Fund Definitions:

      i. Technical College Leadership Council (TCLC) means the career technical education deans of Idaho’s six public technical colleges
      ii. Wage threshold means evidence that training will lead to jobs that provide living wages appropriate to the local labor market or local standard of living.
iii. Regional means the six defined career technical service regions pursuant to Board Policy III.Z.

iv. Support project means supplemental items, activities, or components that may enhance program outcomes (such as job analysis, placement services, data collection and follow up, workplace readiness skills training, etc.)

v. Regional industry partners means employers that operate in Idaho and/or serve as a talent pipeline for Idaho students and employees.

vi. Impact potential means the extent to which the training or project will increase regional capacity to meet talent pipeline needs. May include number of students or employees affected, associated wages, and long-term regional improvement or sustainability. May also include the timeframe for implementation.

vii. Demonstrated commitment means the promissory financial commitment made by the partner employer that includes cash or in-kind contribution to the project.

b. Roles and Responsibilities

The Administrator and TCLC are jointly responsible for reviewing and administering the application process for accessing Industry Partner Fund monies.

The TCLC, in accordance with the deadlines outlined in the following section, shall conduct the preliminary review of all proposals to ensure they meet the eligibility requirements and align with legislative intent. Each institution shall have one vote on the TCLC throughout the recommendation process. Deans shall not vote on proposals from their institution. The TCLC shall make recommendations to the division administrator to approve, deny, or modify submitted proposals.

The Administrator shall review all eligible proposals and make the final determination on the award of those proposals.

The Division shall be responsible for management and distribution of all moneys associated with the fund.

c. Submission and Review Process

Proposals will be accepted quarterly, on a schedule set by the Division. The TCLC shall provide the Administrator with recommendations on which proposals to award within 14 calendar days of the closing date of the application period. Pursuant to language outlined in Section 33-2213, Idaho Code, the TCLC and the Administrator will notify the technical college within 30 days of submission of their proposal as to whether their proposal was approved.

Submitted proposals must contain all required supporting documentation, as outlined by the Administrator, the TCLC, and as specified in the application.
Proposals must be signed by the College Dean, Financial Vice President/Chief Fiscal Officer, Provost/Vice President for Instruction, and institution President.

Proposals must outline how the institution and industry partner(s) are unable to meet industry need with existing resources.

d. Eligibility Criteria

Each proposal will be reviewed and evaluated according to the following criteria:

i. The extent to which the proposal meets regional demand

ii. Relevant labor market information, which must include, but is not limited to, Idaho Short Term Projections (Idaho Department of Labor)

iii. Wage thresholds – low wage program starts should be accompanied with appropriate justification including regional economic demand.

iv. Impact potential

v. Degree of employer commitment

vi. The extent to which the proposal aligns with and/or supports career technical education programs and relevant workforce training

vii. The anticipated administrative costs

viii. any special populations that may benefit from the proposed education or training

ix. sustainability of the program

Preference will be given to proposals that include:

i. Multiple employers

ii. Higher number of impacted workers

iii. Demonstrated commitment (highest consideration will be given to proposals with a matching component)

Each college may submit more than one proposal per quarter. In the event a qualified proposal isn’t selected in the quarter in which it was submitted, the proposal may be resubmitted the following quarter. Resubmission of an eligible proposal is not a guarantee of future awards.

d. Distribution and Use of Funds

The Administrator, in awarding funds, shall ensure that funds are available each quarter. As such, the Administrator may adjust or reduce the award amount to an accepted proposal. These adjustments or reductions shall be made in consultation with the TCLC and the technical college impacted and will ensure the original intent of the proposal can still be met.

Funds will be distributed on a one-time basis; renewal proposals may be submitted, based on the nature of the project or training.

Industry Partner Fund moneys may be used for:
i. Facility improvement/expansion

ii. Facility leasing

iii. Curriculum development

iv. Salaries and benefits (if the training program needs are anticipated to go beyond the initial award, the college must provide additional details on long-term sustainability of the position filled through the fund)

v. Staff development

vi. Operating expenses

vii. Equipment and supplies

viii. Travel related to the project

ix. Approved administrative costs, as outlined in the application

Funds may not be used for:

i. Real property

ii. Indirect costs

iii. The cost of transcribing credits

iv. Tuition and fees

v. Materials and equipment normally owned by a student or employee for use in the program or training

e. Performance Measures and Reporting Requirements

In accordance with the approved proposal, colleges shall provide a quarterly update and closeout report on elements such as:

i. Number of affected workers

ii. Number of enrolled or participating students

iii. Placement rate of training completers

iv. Average wages and any wage differential

v. Industry match

vi. If practicable, Idaho public college credits, certificates, certifications, qualifications or micro certifications of value toward postsecondary certificates or degrees.

vii. Funds obligated and expended. Any funds not obligated within 18 months of the initial award shall revert back to the fund.
IDAHO DIVISION OF CAREER TECHNICAL EDUCATION

SUBJECT
Idaho State Perkins V State Plan Update

REFERENCE
- May 2019: The Board approved the Perkins V State Transition Plan.
- December 2019: The Board received an update on the status of the Perkins V State Plan.
- February 2020: The Board was presented with amendments to the Perkins program enacted through Perkins V and timeline for consideration of Idaho’s Perkins V State plan.

APPLICABLE STATUTE, RULE, OR POLICY
- Sections 33-2201 through 33-2207, Idaho Code

BACKGROUND/DISCUSSION
The Smith-Hughes Act of 1917 was the first authorization for the federal funding of vocational education. Subsequent legislation for vocational education (now termed career and technical education) included the Vocational Act of 1973 and the Carl D. Perkins Act of 1984 (Perkins). Perkins was reauthorized as the Carl D. Perkins Vocational and Applied Technology Act (Perkins II) in 1990, the Carl D. Perkins Career and Technical Education Act of 1998 (Perkins III), and the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV). Section 33-2202, Idaho Code designates the State Board of Education for Career Technical Education with the responsibilities to carry out the provisions of the federal act, now known as Perkins. Section 33-2205, Idaho Code, authorizes the Board to hire a State Administrator for career technical education and authorizes the creation of the Division for the purposes of carrying out the federal acts and chapter 22, title 33, Idaho Code.

Congress enacted amendments to the Carl D. Perkins Career and Technical Education Act of 2006 in July 2018. Following the July 2018 enactment, the
Division developed, and the Board approved a one-year transition plan from Idaho’s Perkins IV State Plan to Idaho’s current Perkins V State Plan. This was followed up with development and subsequent Board approval of Idaho’s current Perkins V state plan. That plan has been in place for approximately four years and is now required to be updated. The US Department of Education, Office of Career, Technical, and Adult Education (Attachment 4) outlines the requirements and timeline for submitting Idaho’s amended Perkins V State Plan. The federal requirements allow states two options for submitting updates: Option 1 allows for a new four-year State plan covering federal fiscal year (FFY) 2024-27 and Option 2 allows for annual revisions. At this time, while mostly technical in nature, there were enough amendments to warrant the submittal of a new plan. A redlined version of the plan is provided in Attachment 1 and a clean version is provided in Attachment 2.

The Division has conducted multiple stakeholder meetings throughout the summer to garner feedback on the current State Plan and feedback on proposed amendments. The proposed amendments were posted to the Division’s website for 30 days for public comment followed by a statewide public hearing conducted online. Meetings were held with both secondary and postsecondary educators requesting feedback for consideration as well as opportunities for feedback from industry partners.

Technical corrections and grammatical changes were made throughout the (new) four-year State plan as well as removal of duplicative or unnecessarily specific details that were not required to be included in the plan or no longer aligned with Board policy. Other revisions and updates include:

</table>
The US Department of Education has indicated it will send out additional guidelines regarding the submittal of Perkins V State Plans. It is anticipated that while the content will not change, the format of the State Plans will be required to be submitted in an alternate format through the US Department of Education’s online portal.

Attachment 3 provides the public comments received during the public comment period.

**IMPACT**

Idaho’s Perkins V State Plan sets the requirements for use of Idaho’s annual Perkins V federal award. Approval of the plan will meet the federal requirements for updating the State Plan and authorize the Division to submit the plan to the Governor for consideration. While the US Department of Education requires an opportunity for each State’s governor to sign on to the plan, State Plans may be submitted without the governor’s signature. Idaho’s FFY 2023 Perkins V award was $5.7M.

**ATTACHMENTS**

Attachment 1 – Perkins V State Plan Amendments - redlined
Attachment 2 – Perkins V State Plan Amendments – clean version
Attachment 3 – Perkins V State Plan Public Comments Received
Attachment 4 – US Department of Education State Plan Submission Requirements

**BOARD STAFF COMMENTS AND RECOMMENDATIONS**

Board staff recommends approval of the proposed revision to the Perkins V State Plan as presented in Attachment 2 and to authorize the State Administrator to
make any non-substantive edits necessary throughout the federal approval process.

BOARD ACTION

I move to approve the FFY 2024 Strengthening Career and Technical Education for the 21st Century Act (Perkins V) State Plan as provided in Attachment 2 and to authorize the State Administrator to make any non-substantive edits that are necessary as it moves through the federal approval process.

Narrative Descriptions – Plan Development and Consultation

1. Describe how the State plan was developed in consultation with the stakeholders and in accordance with the procedures in section 122(c)(2) of Perkins V. See Text Box 1 for the statutory requirements for State plan consultation under section 122(c)(1) of Perkins V.

The initial Idaho Perkins V State Plan was developed and posted in fiscal year 2019. The following describes stakeholder engagement for that plan. IDCTE has reviewed and updated this current version based on internal feedback, and stakeholder consultation, and public comment building on the original plan development work. That process is described in further detail below.

During 2019 the Idaho Division of Career Technical Education (Division) engaged in a series of outreach efforts designed to collect input from as many stakeholder groups as possible, including: The Idaho Division of Career Technical Education (Division/IDCTE) has engaged in a series of outreach efforts designed to collect input from as many stakeholder groups as possible, including:

- Outreach sessions for secondary and postsecondary stakeholder groups including sessions during the Division’s annual statewide conferences, and REACH, which is Idaho’s statewide professional development conference. This annual conference, which brings approximately 900 secondary and postsecondary stakeholders—educators and industry stakeholders—to Boise for a three-day training, and is Idaho’s largest CTE professional development opportunity. The summer conference alternates every other year with regionally based conferences held around the state.
- The 2019 conference included several sessions specific to labor market information and understanding Perkins V requirements.
- During our Spring 2019 and Winter 2020 outreach, we hosted community forums in each of Idaho’s six education regions. Members of the community, including family members, community organizations, and business members were invited to attend. The only stakeholder group with a consistent presence was Business members in were represented from each region.
- Various meetings with the Idaho Workforce Developmental Council (WDC) were held to discuss a combined Workforce Innovation and Opportunity Act (WIOA) plan and development of a labor market tool designed to help grant recipients identify high-skill, high-wage, and in-demand occupations. While the ultimate decision was not to pursue a combined plan at this time, we agreed to begin using that common labor market data would be used to discuss regional labor market trends. Newly developed labor market tools allowed recipients to use readily available data to help reduce the data burden associated with the Comprehensive Local Needs Assessment (CLNA) and to help ensure consistent data analyses statewide.
- As a part of outreach efforts, invited directors from each of our Centers for New Direction were invited to our regional meetings, and were provided additional information on how the Perkins V projects could expand services (including individual services) through the Centers. Connected Center Directors were connected with postsecondary representatives to ensure additional special populations were considered in the planning and project process.
- In conjunction with our WDC, the Division conducted 14 regional listening sessions to better understand the needs of local communities and small business owners. Division staff also met with representatives of Idaho Business for Education, including a 90-minute listening session with Scott Stump, who oversaw the federal Office of Career, Technical, and Adult Education. Additionally, the Division Reached
reached out to the Idaho Association for Commerce and Industry, as well as numerous Chambers of Commerce around the state.

- To help expand CTE access to more students, both the Spring 2019 and Fall 2019 outreach included a specific focus on better supporting students in need. This included recommending recommendations that recipients connect with local foster care advocates, local homeless support entities, and local outreach organizations. Idaho Division of Juvenile Corrections was included in the outreach efforts and is working to expand CTE programming to help reduce recidivism for juvenile offenders. The Winter 2020 outreach sessions included agencies related to special populations in an effort to expand knowledge of CTE programs and provide an opportunity for collaboration.

- The outreach included multiple contacts with state tribal leaders including the tribal education council, Idaho State Board of Education’s Indian Education Committee, individual tribes, and listening sessions. At the request of the tribes, the Division conducted individual meetings with leaders from three of Idaho’s five tribes. Follow-up meetings were requested, and joint meetings between the tribes and the local school districts and postsecondary institutions have been scheduled to identify strategies for collaboration. The Division continues to engage with this group and work with recipients of funding to increase engagement.

- As part of WIOA listening tours, Division staff met with representatives of Idaho Division of Vocational Rehabilitation, as well as regional advocacy groups representing individuals with physical disabilities, blind and visually impaired, cognitive disabilities, and seniors. Identified areas of concern and potential solutions, including transportation and better connectivity between business, industry, and service.

- The Division is also a member of the Idaho Interagency Council on Student Transition (IICST), a group devoted to helping students with disabilities transition from secondary to postsecondary life. The Division attended a conference hosted by the National Technical Assistance Center on Transition (NTACT) with other members of IICST centered on incorporating assistance for students with disabilities into state Perkins V plans.

- During the 2023 calendar year, Division staff held sessions during the summer annual conferences where stakeholders were given the opportunity to provide feedback on the current administration of Perkins V funding. This feedback was used to inform updates that were incorporated into the updated plan. The updated plan was then provided to secondary and postsecondary education stakeholders and posted on the Division’s website for 30 days for public comment. Near the conclusion of the public comment period, the Division held a statewide virtual hearing to provide an additional opportunity for the public to provide comment.

2. Consistent with section 122(e)(1) of Perkins V, each eligible agency must develop the portion of the State plan relating to the amount and uses of any funds proposed to be reserved for adult career and technical education, postsecondary career and technical education, and secondary career and technical education after consultation with the State agencies identified in section 122(e)(1)(A)-(C) of the Act. If a State agency, other than the eligible agency, finds a portion of the final State plan objectionable, the eligible agency must provide a copy of such objections and a description of its response in the final plan submitted to the Secretary. (Section 122(e)(2) of Perkins V)

The Idaho Division of Career Technical Education (Division) is currently the state agency responsible for adult career and technical education and postsecondary education in Idaho.
including secondary, postsecondary and other adult training programs. A copy of the State plan was submitted to the Idaho State Board for Career Technical Education, of which the State Superintendent of Public Instruction is a member, for approval prior to releasing the State plan for a 30-day public comment period. The Idaho State Board for Career Technical Education, pursuant to Section 33-2205, Idaho Code is the designated agency for implementing the provisions of the Smith Hughes Act of 1917 and any subsequent amendments as well as all other federally or state funded career technical education programs. The State Board is the Division’s governing board and Idaho’s state education agency. The State Superintendent of Public Instruction sits on the State Board and administers the State Department of Education (SDE).

3. Describe opportunities for the public to comment in person and in writing on the State plan. (Section 122(d)(14) of Perkins V)

During our Spring 2019 outreach, the Division hosted community forums in each of Idaho’s six education regions. Members of the community, including adult students, family members, community organizations, and business members were invited to attend. The only stakeholder group with a consistent presence was business members in each region.

In conjunction with Idaho’s Workforce Development Council, the Division conducted 14 regional listening sessions to better understand the needs of local communities and small business owners. We met with representatives of Idaho Business for Education, including a 90-minute listening session with Scott Stump. We reached out to Idaho Association for Commerce and Industry, as well as numerous Chambers of Commerce.

During our Winter 2020 outreach, the Division hosted more community forums in each of Idaho’s six education regions. Members of the community, including adult students, family members, community organizations, and business members were invited to attend. During the summer of 2023 the Division conducted a number of stakeholder meetings in conjunction with the Division’s annual summer conferences held around the state as well as meetings conducted with secondary and postsecondary education groups who were specifically asked to provide feedback to the state plan and performance level descriptors.

Prior to submission of the updated draft State plan to the State Board for Career Technical Education in April 2024 for informational purposes, the draft State plan will be made available on the Division’s and OSBE websites for review in accordance with the 30-day public comment period required by the Act. A copy of the State transition plan has been available on our website for comment. Comments have been and will continue to be collected via email to stakeholderinput@cte.idaho.gov or mailed to the Division at:

Idaho Division of Career and Technical Education
650 W. State St., Ste 324
Boise, ID 83702-5936

Narrative Descriptions – Program Administration and Implementation
1. State’s Vision for Education and Workforce Development
a. Provide a summary of State-supported workforce development activities (including education and training) in the State, including the degree to which the State's career and technical education programs and programs of study are aligned with and address the education and skill needs of the employers in the State identified by the State workforce development board. (Section 122(d)(1) of Perkins V)

The following information is part of the WIOA State Plan as modified for program year 2018. Idaho's vision for CTE is to provide premier educational opportunities for students and adults to gain relevant workforce and leadership skills in applied settings; to provide a gateway to meaningful careers and additional education opportunities; and to educate a strong talent pipeline that meets Idaho business workforce needs.

The WDC Council arrived at three broad goals for the State's workforce system, which are outlined below. Under each of these goals, the Council identified several strategies that relate more specifically to the populations, services, policies, and priorities within the workforce development system. The strategies cited under each goal below are a priority subset of the Council's strategic plan that directly relate to the foundational analysis within this Combined State Plan and clarify how the Council's goals relate to individuals with barriers to employment in the State's WIOA plan.

1. Promote policies that align workforce, education, economic development, and entrepreneurship to meet industry and employer's workforce needs.
   - Leverage public and private resources (in order to provide greater levels of service to those with barriers to employment and in rural communities).

2. Facilitate development of an Idaho workforce that is highly skilled and committed to continuous learning.
   - Provide access to low-skilled and at-risk youth and adults, dislocated workers and others with barriers to employment to a full range of information and supports to prepare for work that leads to economic self-sufficiency.
   - Enhance opportunities for lifelong learning by expanding delivery options such as: 1) stackable credentials, 2) compressed scheduling, 3) on-line and distance learning, 4) modularized curriculum and 5) other alternative learning modalities
   - Encourage the use of workplace flexibility options such as job sharing, job restructuring, part-time worker pools, flex-time and telecommuting to increase employment opportunities and retain quality workers
   - Promote employment practices and workplace environments that encourage a culture of diversity and inclusiveness

3. Support a comprehensive education and workforce delivery system.
   - Maintain a quality One-Stop Career System that connects employers and workers and facilitates access to workforce services, education services and information.
   - Enhance coordination among workforce system partners and streamline services by eliminating duplication and ineffective or unnecessary practices.
   - Provide access to information, financial aid and other supportive services that allow all workers to obtain education and training leading to employment.
Coordinate a system of work supports for low-income workers to help them stay employed and move toward encourage economic self-sufficiency (e.g., food stamps, child care, and housing) and provide safety nets to those who are in transition in the workforce.

Idaho’s Workforce Development Council (WDC) identified four focus areas for the purposes of improving Idaho’s workforce system:

- Serving Rural Communities
- Attracting, Training, and Retaining Quality Staff
- Career Pathways
- Connecting Youth

The Idaho Division Career Technical Education (Division/IDCTE), which administers both the WIOA Title II and Carl D. Perkins programs, and oversees administrators both secondary and postsecondary career and technical education in Idaho, is essential in connecting workforce programs with career and technical education, engaging the State’s technical colleges, and administering the development of meaningful career pathways. To this end, the Division aligns its efforts with the WDC’s goals.

The Division connects education to Idaho’s workforce in three essential ways, through the our micro-certification process, through technical advisory committees, and through the Centers for New Directions.

The Division is currently aligning all secondary CTE programs of study to postsecondary CTE programs using a microcredential system called SkillStack®. SkillStack® is a digital badging/microcredentialing platform that allows Idaho’s educators to validate the skills their students demonstrate proficiency in. The Idaho State Board Education requires Idaho’s public postsecondary institutions to use SkillStack® for all CTE and non-CTE badges and microcredentials.

Program standards are developed for each badge through a collaborative process that engages industry, postsecondary faculty, secondary faculty, and other critical stakeholders. As students provide evidence of the competencies for each skill, educators evaluate the competencies based on common assessments, including the Technical Skills Assessment and Postsecondary Assessment. Once all skills are validated for a particular badge, the information is entered in the SkillStack® platform and badges are issued awarded.

Secondary students may earn postsecondary credit through successful completion of dual credit courses, articulation agreements between high school and postsecondary institutions for achieved outcomes, and by earning microcredentials and badges in SkillStack® combined with the postsecondary institutions prior learning assessment process. Matriculating secondary students can receive postsecondary credit for work accomplished during their high school tenure.

Originally, Idaho’s high school, college, university, and workforce training educators are the only individuals allowed to validate skills in SkillStack®. These individuals entities gain authorization to validate skills upon verification and training from the Division. Since the original State Plan, we now have other educational and non-CTE entities using the system.
Employers can access SkillStack® and search the database for individuals that have been awarded badges aligned to the jobs and skills they are trying to find. The SkillStack® platform will then invite those individuals identified to learn more about the company’s open position by visiting the company’s website or location where the job is posted.

Currently there are 63 TCC secondary badges and up to 180 credits available through SkillStack® in 37 programs of study. As of June 2023, 32,000 unique students have earned over 115,000 microcredentials in the SkillStack® platform.

Successful career and technical education programs maintain close ties with business and industry, and must be integrally linked to their communities and state. Career and technical education programs in Idaho are required to incorporate active input from an appropriately qualified applicable business and industry technical advisory committees (TACs).

An effective TAC reveals local career opportunities, prepares students to enter the workforce, and/or helps upgrade the skills of workers already employed. The TAC advises the program to ensure it stays up to date in terms of content and training. TAC members also assist in, and advocate for, student, faculty, and program needs. Ultimately, TACs strengthen the working relationships between the career and technical education programs and the communities they serve.

The Division also administers the Center for New Directions programs. Through this program, single parents and displaced homemakers receive services to help them move from dependence to independence. Services include personal, career, and education counseling, assessment and testing, and preparation for employment and training. The program also promotes gender equity in the Division’s programs by supporting nontraditional career fields through grants, scholarships, and other methods. The Centers for New Directions are on Idaho Technical College System campuses.

b. Describe the State's strategic vision and set of goals for preparing an educated and skilled workforce (including special populations) and for meeting the skilled workforce needs of employers, including in existing and emerging in-demand industry sectors and occupations as identified by the State, and how the State's career and technical education programs will help to meet these goals. (Section 122(d)(2) of Perkins V)

The Division is working to help drive Idaho towards our goal of 60% of Idahoans between the ages of 25 and 34 possessing a degree or certificate by 2025, improve the occupational outlook of our students, and provide the skilled workforce Idaho employers need. The Division also supports the recommendations of Idaho’s 2017 Workforce Development Task Force, to build CTE secondary and postsecondary program capacity to meet workforce demand.

MISSION STATEMENT

The mission of the Career Technical Education OTE system’s mission is to prepare Idaho’s youth and adults for high-skill, in-demand careers.

VISION STATEMENT

The Division’s vision The vision of the Idaho Division Career Technical Education is to be:
1. A premier educational opportunity for students and adults to gain relevant workforce and leadership skills in an applied setting;
2. A gateway to meaningful careers and additional educational opportunities; and
3. A strong talent pipeline that meets Idaho business workforce needs.

GOAL 1 EDUCATIONAL SYSTEM ALIGNMENT – Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

Objective A: Technical assistance and support for CTE programs – Provide timely, accurate, and comprehensive support to CTE programs that meets the needs of administrators and instructors at both the secondary and postsecondary levels. Support State Board Policy III.Y by aligning CTE programs among the technical colleges and ensuring that secondary program standards align to those postsecondary programs.

Objective B: Data-informed improvement – Develop quality and performance management practices that will contribute to system improvement, including current research, data analysis, and strategic and operational planning. Technical assistance and support for CTE programs – Provide timely, accurate, and comprehensive support to CTE programs that meets the needs of administrators and instructors at both the secondary and postsecondary levels.

Objective C: Funding Quality Programs – Secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry. Data-informed improvement – Develop quality and performance management practices that will contribute to system improvement, including current research, data analysis, and strategic and operational planning.

Objective D: Create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements.

Objective E: Create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements.

GOAL 2 EDUCATIONAL READINESS – Provide a rigorous, uniform, and thorough education that empowers students to be lifelong learners and prepares all students to fully participate in their community and postsecondary and workforce opportunities by assuring they are ready to learn at the next educational level.

Objective A: Workforce Training – Non-credit training will provide additional support in delivering skilled talent to Idaho’s employers.

Objective B: Adult Education (AE) – AE will assist adults in becoming literate and obtaining the knowledge and skills necessary for employment and economic self-sufficiency.

Objective C: Centers for New Directions (CND) – CNDs will help foster positive student outcomes, provide community outreach events and workshops, as well as collaborate with other agencies.

GOAL 3 EDUCATIONAL ATTAINMENT – Idaho’s public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.
Objective A: Support State Board Policy III.Y by aligning similar first semester CTE courses among the technical colleges and ensuring that secondary program standards align to postsecondary programs.

Objective B: Talent Pipelines/Career Pathways – CTE students will successfully transition from high school and postsecondary education to the workplace through a statewide career pathways model.

Objective B: Higher Level of Educational Attainment – Increase completion of microcredentials.

GOAL 3 – WORKFORCE READINESS: The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

Objective A: Workforce Training – Non-credit training will provide additional support in delivering skilled talent to Idaho's employers. CTE concentrators will demonstrate college and career readiness.

Objective B: Adult Education (AE) – AE will assist adults in becoming literate and obtaining the knowledge and skills necessary for employment and economic self-sufficiency. CTE teachers will track student progress for pathway completion through the microcredential platform.

Objective C: Centers for New Directions (CND) – CNDs will help foster positive student outcomes, provide community outreach events and workshops, as well as collaborate with other agencies.

Goals and objectives are reviewed annually and updated at a minimum of every four years.

c. Describe the State's strategy for any joint planning, alignment, coordination, and leveraging of funds between the State's career and technical education programs and programs of study with the State's workforce development system, to achieve the strategic vision and goals described in section 122(d)(2) of Perkins V, including the core programs defined in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102) and the elements related to system alignment under section 102(b)(2)(B) of such Act (29 U.S.C. 3112(b)(2) (B)); and for programs carried out under this title with other Federal programs, which may include programs funded under the Elementary and Secondary Education Act of 1965 and the Higher Education Act of 1965. (Section 122(d)(3) of Perkins V)

The Division and Idaho’s Workforce Development Council (the WDC) are partner agencies in developing and executing Idaho’s Workforce Development State Plan. The WDC, in conjunction with the Idaho Department of Labor, is an important stakeholder in the Perkins V State Plan, providing crucial labor market information, in conjunction with the Idaho Department of Labor, to all Perkins V eligible recipients and working with the Centers for New Directions to provide education opportunities for special population students within the four Idaho Community Colleges and the two State Colleges eligible to receive Perkins funds through Idaho’s six technical colleges.

d. Describe how the eligible agency will use State leadership funds made available under section 112(a)(2) of Perkins V for each of the purposes under section 124(a) of the Act. See Text Box 2 for the required uses of State leadership funds under section 124(a) of Perkins V. (Section 122(d)(7) of Perkins V)

The Division will use leadership funds in accordance with Section 112(a)(2)(B) of the Act to:
• continue supporting non-traditional students through an equal distribution of $10,000 to each of the six eligible postsecondary recipients; Any unspent funds from prior year will be targeted towards non-traditional student activities;
• support programs at the Idaho Department of Corrections not to exceed 1 percent of the total allocation for the State;
• provide additional funds equal to 0.5 percent to be distributed to the Idaho Department of Juvenile Corrections and Idaho Educational Services for the Deaf and Blind at a base amount of $7,500 per facility with the remainder split evenly between the two agencies;
• improve enrollment of special populations into CTE programs through coordination with other State agencies including, but not limited to, the Division of Vocational Rehabilitation and the Idaho State Department of Education (an amount equal to 0.1 percent).

Remaining leadership funds will be used to provide statewide professional development and leadership development; provide technical assistance to recipients; develop statewide programs and programs of study; support Career and Technical Student Organizations (CTSOs); and to support development of valid and reliable assessments of competencies and technical skills; program alignment; and enhanced data use capabilities.

2. Implementing Career and Technical Education Programs and Programs of Study

a. Describe the career and technical education programs or programs of study that will be supported, developed, or improved at the State level, including descriptions of the programs of study to be developed at the State level and made available for adoption by eligible recipients. (Section 122(d)(4)(A) of Perkins V)

Secondary

The Idaho Division of Career and Technical Education (Division) currently supports fifty-four seven approved programs of study for secondary programs (see Appendix A) under six seven discipline areas representing fifteen (15) of the sixteen (16) career clusters as described in the National Career Clusters® Framework as presented by Advance CTE (excluding Government career cluster). All Idaho public secondary schools are required to provide career technical education courses.

The seven six discipline areas are:

1. Agriculture, Food, and Natural Resources
2. Business and Marketing Education
3. Engineering and Technology Education
4. Family and Consumer Sciences and Human Services
5. Health Professions and Public Safety
6. Trades and Industry
7. Individualized Occupational Training

Middle School
Students may also participate in career exploration starting in middle school. Idaho public schools are required to provide career exploration courses to students grades 7 and 8. Career technical education programs may be delivered starting in grade 7.

Postsecondary

The technical colleges support over 200 programs representing all seven of the identified secondary program areas.

National Career Cluster® Framework:

1. Agriculture, Food, and Natural Resources
2. Architecture and Construction
3. Arts, A/V Technology, and Communications
4. Business Management and Administration
5. Education and Training
6. Finance
7. Government and Public Administration
8. Health Science
9. Hospitality and Tourism
10. Human Services
11. Information Technology
12. Law, Public Safety, Corrections, and Security
13. Manufacturing
14. Marketing
15. Science, Technology, Engineering, and Mathematics
16. Transportation, Distribution, and Logistics

b. Describe the process and criteria to be used for approving locally developed programs of study or career pathways (see Text Box 3 for the statutory definition of career pathways under section 3(8) of Perkins V), including how such programs address State workforce development and education needs and the criteria to assess the extent to which the local application under section 1328 will—

i. promote continuous improvement in academic achievement and technical skill attainment;

ii. expand access to career and technical education for special populations; and

iii. support the inclusion of employability skills in programs of study and career pathways. (Section 122(d)(4) (B) of Perkins V)

The Division collects data related to local education agencies (LEA) through the Idaho System for Educational Excellence (ISEE) operated and maintained by the State Board of Education (OSBE). ISEE is a robust data system allowing for the collection of disaggregated data down to the student and course level at each public school within the state. Each CTE course is assigned a unique code by SDE-OSBE associated with federally accepted School Codes for Exchange of Data (SCED) CIP codes. Postsecondary CIP codes are then aligned to the SCED codes. School administrators are responsible for accurate entry of data into ISEE.

The Division collects postsecondary disaggregated data directly from the institutions. Each CTE program is assigned a unique program ID associated with federally accepted CIP codes.
Institutions are required to certify that information provided to the Division is accurate and complete. The Division validates all postsecondary data tied to approved programs.

**Pursuant to Section 33-2202, Idaho Code, the Division, through the Administrator for Career Technical Education, is responsible for administering all public CTE programs in Idaho.** As such, the Division is authorized to set the process and procedures for establishing approved CTE programs of study. In Idaho, the secondary portion of a program of study is called a pathway and consists of a sequence of courses culminating in a capstone course. **Capstone courses are limited to juniors/seniors and require Technical Skills Assessments that test a student’s understanding of program standards.** The Division, through consultation with industry leaders, postsecondary institutions, and LEAs, the Division establishes program standards to align with industry standards, and it is through the standards setting process that the Division develops programs of study for the State of Idaho.

The Office of the State Board for Career Technical Education (OSBE) is established by Section 33-102A, Idaho Code, as an executive agency of the State Board for Career Technical Education. OSBE policy section III.G: Postsecondary Program Approval and Discontinuance, provides the Division with the method for approving locally developed programs of study or career pathways under section 132.

**ii.** All eligible recipients must verify that special populations have access to all program areas offered in their school through the application process. The Division works with organizations that focus on support for special populations, such as, in collaboration with the National Alliance for Partnerships in Equity (NAPE), to help intends to develop an equity training program during the State Plan period that will facilitate identifying and eliminating barriers for special populations to participate in CTE programs. Once developed, the Division will require all recipients to receive annual equity training to remain eligible for Perkins funds.

**iii.** Successful career and technical education programs maintain close ties with business and industry, and must be integrally linked to their communities and the state. Career and technical education programs in Idaho are required to incorporate active input from an appropriately qualified business and industry technical advisory committee (TAC).

An effective TAC reveals local career opportunities, prepares students to enter the workforce, and helps upgrade the skills of workers already employed. The TAC advises the program to ensure it stays up to date in terms of content and training. TAC members also assist in, and advocate for, student, faculty, and program needs. Ultimately, TACs strengthen the working relationships between the career and technical education programs and the communities they serve.

TACs at the secondary level are established by a program representative, which is usually typically the local CTE administrator, teacher, or departmental chairperson. TACs must meet Division guidelines.

A TAC can be established:
- for a single program of study
- as a school-wide committee that includes representatives from multiple industries (aligned to the programs of study the school offers)
- as a joint committee with other schools in the district and/or with nearby districts
- This is especially helpful in ensuring alignment of curriculum and seamless transition for students from high school to the technical colleges
1. Determine the structure of the committee:
   a. Interview the representatives from programs with well-established committees.
   b. Study the duties, function, and framework of existing committees.
   c. Observe committee meetings.
   d. Consider creating an ad hoc committee to plan and develop the new TAC.

2. Prepare a general structure and plan for the committee.

3. Obtain appropriate approvals:
   a. Explain the intended function of the TAC to administration.
   b. Share examples of other committees, particularly for similar areas of study or those with similar workforce needs.
   c. List potential benefits to the administration, school, and teachers. Individualized Occupational Training (IOT) programs are not required to have separate TACs if the program representative can gain industry input by attending the TAC meetings of other programs in the school.

4. General Committee Framework. A TAC is a group that is:
   a. recognized for its expertise in a specific occupational area,
   b. made up of business, industry, and labor representatives of the occupation(s) for which training is provided, and
   c. organized to advise school personnel on matters concerning the career and technical education program.

The size of the committee may vary by the size of the community, scope of the career and technical education program, diversity of business and industries in the community, and purpose of the committee. Size may also vary over time to align with specific committee activities. Committees should be large enough to reflect the diversity of the community, yet small enough to be managed effectively. Committees with more than 15 members can become unmanageable. Five to nine members are adequate size for most committees.

At the postsecondary level, committee members should be appointed using the guidelines outlined below and a standard selection process. Division representatives, instructors or faculty of the programs, and other staff may serve only in an ex officio capacity.

1. Develop a list of prospective members that include several key characteristics:
   a. Representatives of:
      i. business/industry (program specific or broad industry representation for schoolwide committees);
      ii. local community (including Idaho Department of Labor representatives, if located in the community);
      iii. general geographic area to be served; and programs at other schools, if applicable.
   b. People who:
      i. have recent experience related to the program area.
      ii. are available to attend TAC meetings.
      iii. have an interest in education and the program.

2. Once the list is compiled, interview prospective members. The interviews should:
   a. explain the nature of the committee.
   b. explain the prospective member’s role on the committee.
   c. describe the terms and length of service.
   d. gauge the prospective member’s level of interest in serving and determine to what extent his or her participation would benefit the program.
3. Send an invitation letter to prospective new member, which is signed by appropriate program or school leadership, including the date, time, and location of the next committee meeting.

4. Once the administrator approves the appointment and the member has accepted it, send a formal letter of appointment.

c. Describe how the eligible agency will—

i. make information on approved programs of study and career pathways (including career exploration, work-based learning opportunities, early college high schools, and dual or concurrent enrollment program opportunities) and guidance and advisement resources, available to students (and parents, as appropriate), representatives of secondary and postsecondary education, and special populations, and to the extent practicable, provide that information and those resources in a language students, parents, and educators can understand;

ii. facilitate collaboration among eligible recipients in the development and coordination of career and technical education programs and programs of study and career pathways that include multiple entry and exit points;

iii. use State, regional, or local labor market data to determine alignment of eligible recipients' programs of study to the needs of the State, regional, or local economy, including in-demand industry sectors and occupations identified by the State board, and to align career and technical education with such needs, as appropriate;

iv. ensure equal access to approved career and technical education programs of study and activities assisted under this Act for special populations;

v. coordinate with the State board to support the local development of career pathways and articulate processes by which career pathways will be developed by local workforce development boards, as appropriate;

vi. support effective and meaningful collaboration between secondary schools, postsecondary institutions, and employers to provide students with experience in, and understanding of, all aspects of an industry, which may include work-based learning such as internships, mentorships, simulated work environments, and other hands-on or inquiry-based learning activities; and

vii. improve outcomes and reduce performance gaps for CTE concentrators, including those who are members of special populations. (Section 122(d)(4)(C) of Perkins V)

i. Secondary programs of study are listed as electives in each school district's student handbook disseminated to students during registration. Approved program areas are listed on the Division website.

Information is also disseminated at career fairs, student assemblies, and through the Next Steps Idaho website, at https://nextsteps.idaho.gov/. Next Steps is Idaho’s comprehensive clearinghouse of information and resources pertaining to college and career. The website features a grade-by-grade timeline to help students prepare for life after high school. Resources provided on the website are designed to assist students in exploring careers, obtaining postsecondary credits through advanced opportunities, and inform students of the availability of funding sources for their career development.
Postsecondary institutions provide a course catalog available in hard copy and online. Institutions employ transition coordinators to provide guidance to secondary students seeking to obtain certifications or degrees in their chosen profession. Each coordinator is responsible for disseminating information about available programs to LEAs within the region associated with their postsecondary institution.

Information regarding secondary approved programs of study and associated standards may be found on the Division website at [https://cte.idaho.gov/students/transition-to-college-career/](https://cte.idaho.gov/students/transition-to-college-career/). Links to Idaho Advanced Opportunities (described in 2.d) are provided on the website at [https://cte.idaho.gov/students/high-school-programs/advanced-opportunities/](https://cte.idaho.gov/students/high-school-programs/advanced-opportunities/).

ii. The state of Idaho supports collaboration through the implementation of horizontal and vertical program alignment, by promoting content alignment to postsecondary career and technical programs. Secondary programs of study are the primary focus of alignment with postsecondary CTE programs.

Individual articulation agreements for TCC should be entered into in limited cases where specific classes do not fall under statewide articulation, and:

- secondary educators hold the appropriate credentials and certification in the program area where postsecondary credit is to be awarded;
- secondary and postsecondary faculty reach agreement on the competencies;
- secondary and postsecondary faculty reach agreement on the required level of proficiency and approved assessment of student skills; and
- individual articulations must not delineate from learning outcomes of programs that have already been horizontally aligned.

Statewide articulation agreements will be provided by the Division for each program that has gone through horizontal program alignment and institutions have adopted curriculum changes. Statewide articulations will provide information on the grouping of badges and competencies that must be met, as well as Technical Skills Assessments and other postsecondary requirements for TCC.

Dual Credit is identified and supported as one advanced opportunity (academic or technical) by the Idaho State Board Education in Advanced Opportunities Policy III.Y; project should not focus primarily or solely on Dual Credit, nor should funding be used primarily for this activity.

The Division’s annual professional development conference, REACH, provides multiple training and collaboration opportunities to foster the development of strong programs. In addition, REACH provides the opportunity for ancillary stakeholders to access state level program managers and agency directors that oversee program development and delivery.

Division staff uses the information gathered at REACH to help guide agency collaboration efforts throughout the year with key stakeholder groups. These groups include:

- Centers for New Directions
- Dual Credit and Transition Coordinators
- Postsecondary Presidents, Provosts, and Deans
- Department of Corrections
- Department of Juvenile Corrections
- Idaho Bureau of Education Services for the Deaf and Blind
- Department of Education, Special Education Secondary Transition
• **Division of Vocational Rehabilitation.**
• High school **guidance counselors** and college and career advisors.
• Middle school **Teachers, instructors,** and administrators.
• Department of Labor.
• Workforce Training Centers.
• **Fire service trainers.**
• Local Adult Education directors.

Through Idaho's advanced opportunities programs, secondary students can participate in programs and courses designed to provide a postsecondary experience or deliver postsecondary level instruction. Most of these programs, when successfully completed, result in secondary students earning postsecondary credits while in high school or when they matriculate to a public Idaho postsecondary institution. These programs require secondary and postsecondary programs to collaborate to assure success.

iii. The Idaho Department of Labor developed a labor market information tool in collaboration with the Division and the Idaho Workforce Development Council (WDC). The labor market tool is a sortable database accessible to all recipients that may be used to identify in-demand occupations at the statewide level or refined down to occupations within each region.

iv. The Division **works with organizations to focus on support for special populations such as,** in collaboration with the National Alliance for Partnerships in Equity (NAPE) to help identify and eliminate barriers, intends to develop an equity training program during the State Plan period that will facilitate identifying and eliminating barriers for special populations to participate in CTE programs. Once developed, the Division will require all recipients to receive annual equity training to remain eligible for Perkins funds.

v. Following the process outlined in ii, the Division will present proposed new secondary programs of study to the State Board Education for consideration and approval. Once approved, board policy will establish the statewide framework including program standards. OSBE policy section III.G: Postsecondary Program Approval and Discontinuance, provides the Division with the method for approving locally developed programs of study or career pathways under section 132. Section 33-2202, Idaho Code, establishes the Idaho State Board for Career Technical Education and the role of the State Administrator for career technical education in Idaho. The State Board, established in Section 33-101, Idaho Code, serves as the Idaho State Board for Career Technical Education. The State Board of Education has governance and oversight over all publicly funded education in Idaho (elementary, secondary, and postsecondary) and is Idaho’s State Education Agency. Section 33-107, Idaho Code, authorizes the Board to approve all non-CTE programs leading to a degree and section 33-2202, Idaho Code authorizes the State Board for Career Technical Education authority to approve CTE programs and set policy for all CTE programs. Through Board Policy III.G, the Board has established the process for the approval and discontinuation of all postsecondary programs. Through this process, the Division reviews and approves programs of study and career pathways aligned with the approved CTE program standards or forwards the requests to the full Board for approval with recommendation.

vi. As part of our the new program application process, all new secondary program applications are required to demonstrate the existence of a relevant and participatory technical advisory committee (TAC). These committees are designed and intended to help ensure program delivery aligns with industry needs and to help provide real world experiences to CTE students as part of
their program experience. When possible, secondary programs are encouraged to partner with their postsecondary counterparts to create regional, program specific advisory committees.

The Division requires work-based learning standards in all Idaho programs of study and also requires a Workplace Readiness Assessment for all seniors who have completed any two CTE courses.

In addition to the work-based learning courses available in each CTE program of study, the Workforce Development Council recently launched a new initiative tied to work-based learning and established a statewide definition in collaboration with a variety of stakeholders.

As defined in IDAPA

A competency-based educational experience that occurs at the worksite but is tied to the classroom by curriculum through the integration of school-based instruction with worksite experiences. Structured work experience involves written training agreements between school and the worksite, and individual learning plans that link the student’s worksite learning with classroom course work. Student progress is supervised and evaluated collaboratively by school and worksite personnel. Structured work experience may be paid or unpaid, may occur in a public, private, or non-profit organization, and may or may not result in academic credit and/or outcome verification. It involves no obligation on the part of the worksite employer to offer regular employment to the student subsequent to the experience.

The Division provides disaggregated performance data annually for recipient analysis by program of study. Performance gaps will necessitate a performance improvement plan with a description of strategies that will be employed (professional development, micro-messaging, etc.) to address issues. The Division will review, assess, and approve all performance improvement plans.

The Division works with organizations to focus on support for special populations such as NAPE to help identify and eliminate barriers for special populations to participate in CTE programs. The Division, in collaboration with the National Alliance for Partnerships in Equity (NAPE), intends to develop an equity training program during the State Plan period that will facilitate identifying and eliminating barriers for special populations to participate in CTE programs. Once developed, the Division will require all recipients to receive annual equity training to remain eligible for Perkins funds.

d. Describe how the eligible agency, if it opts to do so, will include the opportunity for secondary school students to participate in dual or concurrent enrollment programs, early college high school, or competency-based education. (Section 122(d)(4)(D) of Perkins V)

Secondary and postsecondary career technical education programs provide opportunities for students to earn college credit as outlined in the State Board of Education’s Advanced Opportunities policies and procedures. The State Board recognizes four different advanced opportunities programs: Technical Competency Credit (TCC), Advanced Placement®, dual credit, and the College Level Examination Program. Additionally, Section 33-4602, Idaho Code, establishes the state funded advanced opportunities program. This program provides each Idaho public school student with access to funds to reimburse public schools for the cost of eligible advanced opportunities costs. These include dual credit courses per credit fees, Advanced Placement exams, CLEP exams, CTE exams that lead to an industry-recognized certificate, license, or degree and CTE workforce training courses. The Stat
Board has set the dual credit course fee at $75/per credit for courses taken through the high school. Dual credit courses include CTE courses.

In addition, articulation agreements as well as badges awarded in Idaho’s microcredentialing platform, administered by the Division, link secondary career and technical education programs and postsecondary programs that may lead to: Microcredentials; Technical Certificate of Completion; Basic Technical Certificate; Intermediate Technical Certificate; Advanced Technical Certificate; or an Associate or Advanced Associate of Applied Science Degree (A.A.S.). Completion of an A.A.S. degree may lead to a Bachelor of Applied Technology Degree (B.A.T.) or Bachelor of Applied Science Degree (B.A.S.).

The Division is currently aligning all secondary CTE programs of study to postsecondary CTE programs using a micro-certification/microcredentialing system called SkillStack®. SkillStack® is a digital badging and micro-certification platform that allows Idaho’s educators to validate the skills their students demonstrate proficiency in, leading to industry-relevant badges/CTCs and microcredentials. Microcredentials may be stacked. Public postsecondary institutions may then award credits and or credentials through the Board’s established credit for prior learning process.

Program standards are developed for each badge through a collaborative process that engages industry, postsecondary faculty, secondary faculty, and other critical stakeholders. As students provide evidence of the competencies for each skill, educators evaluate the competencies based on common assessments (including the Technical Skills Assessment and Postsecondary Assessment). Once all skills are validated for a particular badge, the information is entered in the SkillStack® platform and badges are issued.

Matriculating Through Idaho Advanced Opportunities program and credit for prior learning policies secondary students can receive postsecondary credit for work accomplished during their high school tenure.

Originally, Idaho’s high school, college, university, and workforce training educators were the only individuals allowed to validate skills in SkillStack®. These individuals gain authorization to validate skills upon verification and training from the Division. Since the original Perkins V State Plan, we now have other educational and non-CTE entities using the system.

Employers can search the database for individuals that have been awarded badges aligned to the jobs they are trying to fill. The SkillStack® platform will invite those individuals to learn more about the open position by visiting the company’s website or location where the job is posted.

e. Describe how the eligible agency will involve parents, academic and career and technical education teachers, administrators, faculty, career guidance and academic counselors, local business (including small businesses), labor organizations, and representatives of Indian Tribes and Tribal organizations, as appropriate, in the planning, development, implementation, and evaluation of its career and technical education programs. (Section 122(d)(12) of Perkins V)

In Idaho, the secondary portion of a program of study is called a pathway and consists of a sequence of courses culminating in a capstone course. Capstone courses are primarily limited to Juniors and Seniors and require Technical Skills Assessments (TSAs) that test a student’s understanding of program standards. The Division, through consultation with industry leaders, postsecondary institutions, and LEAs establishes program standards to align with industry
standards, and it is through the standards setting process that the Division develops programs of study for the State of Idaho.

The Office of the State Board of Education (OSBE) is established by Section 33-102A, Idaho Code, as an executive agency of the State Board of Education. OSBE policy section III.G: Postsecondary Program Approval and Discontinuance, provides the Division with the method for approving locally developed programs of study or career pathways under section 132.

All eligible recipients must verify that special populations have access to all program areas offered in their school through the application process. The Division, in collaboration with the National Alliance for Partnerships in Equity (NAPE), intends to develop an equity training program during the State Plan period that will facilitate identifying and eliminating barriers for special populations to participate in CTE programs. Once developed, the Division will require all recipients to receive annual equity training to remain eligible for Perkins funds, will work with others to promote and develop resources and training for identifying and eliminating barriers for special populations.

Successful career and technical education programs maintain close ties with business and industry and must be integrally linked to their communities and state. Career and technical education programs in Idaho are required to incorporate active input for an appropriately qualified business/and industry technical advisory committee (TAC).

An effective TAC reveals local career opportunities, prepares students to enter the workforce, and helps upgrade the skills of workers already employed. The TAC advises the program to ensure it stays up to date in terms of content and training. TAC members also assist in, and advocate for, student, faculty, and program needs. Ultimately, TACs strengthen the working relationships between the career and technical education programs and the communities they serve.

TACs at the secondary level are established by a program representative, which is usually typically the local CTE administrator, teacher, or departmental chairperson. TACs must meet Division guidelines.

A TAC can be established:

- for a single program of study.
- as a school-wide committee that includes representatives from multiple industries (aligned to the programs of study the school offers).
- as a joint committee with other schools in the district and/or with nearby districts. This is especially helpful in ensuring alignment of curriculum and seamless transition for students from high school to the technical colleges).

For new career and technical education programs, or for those programs in need of a more formal committee structure, the program representative should take these steps to help ensure the success of the committee.

1. Determine the structure of the committee:
   a. Interview the representatives from programs with well-established committees.
   b. Study the duties, function, and framework of existing committees.
   c. Observe committee meetings.
   d. Consider creating an ad hoc committee to plan and develop the new TAC.

2. Prepare a general structure and plan for the committee.
3. Obtain appropriate approvals.
   a. Explain the intended function of the TAC to administration.
   b. Share examples of other committees, particularly for similar areas of study or those with similar workforce needs.
   c. List potential benefits to the administration, school, and teachers.

Individualized Occupational Training (IOT) programs are not required to have separate TACs if the program representative can gain industry input by attending the TAC meetings of other programs in the school.

4. General Committee Framework. A TAC is a group that is:
   a. recognized for its expertise in a specific occupational area,
   b. made up of business, industry, and labor representatives of the occupation(s) for which training is provided, and
   c. organized to advise school personnel on matters concerning the career and technical education program.

The size of the committee may vary by the size of the community, scope of the career and technical education program, diversity of business and industries in the community, and purpose of the committee. Size may also vary over time to align with specific committee activities. Committees should be large enough to reflect the diversity of the community, yet small enough to be managed effectively. Committees with more than 15 members can become unmanageable. Five to nine members are generally an adequate size for most committees.

At the postsecondary level, committee members should be appointed using the guidelines outlined below and a standard selection process. Division representatives, instructors or faculty of the programs, and other staff may serve only in an ex-officio capacity.

5. Develop a list of prospective members that include several key characteristics.
   a. Representatives of:
      i. business/industry (program specific or broad industry representation for schoolwide committees);
      ii. local community (including Idaho Department of Labor representatives, if located in the community);
      iii. general geographic area to be served; and
      iv. programs at other schools, if applicable.
   b. People who:
      i. have recent experience related to the program area.
      ii. are available to attend TAC meetings.
      iii. have an interest in education and the program.

6. Once the list is compiled, interview prospective members. The interviews should:
   a. explain the nature of the committee.
   b. explain the prospective member’s role on the committee.
   c. describe the terms and length of service.
   d. gauge the prospective member’s level of interest in serving and determine to what extent his or her participation would benefit the program.

7. Send an invitation letter to prospective new member, which is signed by appropriate program or school leadership, including the date, time, and location of the next committee.

8. Once the administration approves the appointment and the member has accepted it, send a formal letter of appointment.

f. Include a copy of the local application template that the eligible agency will require eligible recipients to submit pursuant to section 134(b) of Perkins V. See Text Box 4 for the statutory requirements for local applications under section 134(b) of Perkins V.
Eligible recipients will be provided with baseline SDPLs for the four-year period of the State Plan through the Division website at . Annual disaggregated data collected and correlated by the Division for each secondary recipient will be provided through secure file protocol maintained by the Division.

Postsecondary data is self-reported and collected from recipients on an annual basis. Historical data for postsecondary recipients is available upon request.

Copies of the secondary and postsecondary applications have been uploaded. are available on the Division’s Educator Portal.

g. Include a copy of the comprehensive local needs assessment template and/or guidelines that the eligible agency will require of eligible recipients to meet the requirements of section 134(c) of Perkins V. See Text Box 5 for the requirements for the comprehensive local needs assessment under section 134(c) of Perkins V.

Copies of the comprehensive local needs assessment template and guidelines are available on the Division’s Educator Portal.

h. Provide the eligible agency’s definition for “size, scope, and quality” that will be used to make funds available to eligible recipients pursuant to section 135(b) of Perkins V.

SIZE
As defined by the Division, at the secondary level means the recipient must offer a minimum of one Division approved program of study aligned to one state and (1) authorized CTSO. LEAs can also be in the application process as determined by the Division to be eligible for funding. Both must align to the comprehensive local needs assessment. A Career and Technical School (CTS) must have a minimum of three Division approved programs of study and one authorized CTSO. Both must align to the comprehensive local needs assessment. Individual courses that constitute a program of study should take into consideration the available space, equipment, technology, safety, and teacher to student ratio for a quality student experience.

At the postsecondary level means a program approved by the Idaho State Board for Career Technical Education in compliance with Board policy III.G.2 Postsecondary Program Approval and Discontinuance, that meets the enrollment requirements established by the community college and offers a recognized postsecondary credential.

SCOPE
The term “scope” as defined by the Division. At the secondary level means that a secondary program must provide opportunity for postsecondary advancement as evidenced by: at least one articulation agreement in place or opportunities to earn college credits under Idaho’s Advanced Opportunities program; alignment with business and industry needs as identified in the CLNA; rigorous academic and technical skills aligned with challenging academic and CTE standards (including employability skills); a capstone course within a program of study; a recognized industry or postsecondary credential; participation in work based learning experiences; and identifying one (1) of the three (3) definitions of a high skill, high wage, or in demand occupation in their CLNA.

At the postsecondary level means programs must provide opportunities to earn a degree or certificate, including, but not limited to, Basic Technical Certificate (B.T.C.), Intermediate Technical Certificate (I.T.C.), Advanced Technical Certificate (A.T.C.), or Associate or Advanced Associate of Applied Science degree (A.A.S.) that aligns with business and industry needs as identified in the CLNA; includes rigorous academic and technical skills aligned with challenging academic and CTE standards;
provides work based learning experiences; and leads to a high skill, high wage, or in demand occupation.

QUALITY

As defined by the Division, quality means an educational program that effectively uses data to inform and improve student success, including closing student equity gaps in access and completion and improving attainment of rigorous academic and technical skills. Secondary CTE concentrators, as defined by the state, demonstrate acceptable levels of proficiency as measured by Technical Skills Assessments (TSAs). At least one Technical Skills Assessment must be offered once every two years to remain eligible to receive Perkins funds. Authorized CTSOs must align with CTE course curriculum, but are not limited to programs of study offered.

Postsecondary CTE concentrators, as defined by the state, demonstrate proficiency through earning a degree or certificate (Basic Technical Certificate (B.T.C.), Intermediate Technical Certificate (I.T.C.), Advanced Technical Certificate (A.T.C.), or Associate of Applied Science degree (A.A.S.) – an Advanced option may be awarded for additional credits of at least 15 credit hours that are beyond the A.A.S. degree).

All secondary and postsecondary recipients must complete or update their a Comprehensive Local Needs Assessment (CLNA) at least every two (2) years, have a technical advisory committee (TAC) for each program of study that meets at least once a year, annually submit program data and analysis showing progress toward performance targets, employ faculty that meet the minimum certification requirements as established by the Division, and must connect to an authorized CTSO that is aligned to course curriculum and led by qualified personnel, a teacher that meets the minimum certification requirements as established by the Division, and must provide professional development opportunities.

3. Meeting the Needs of Special Populations

a. Describe the eligible agency’s program strategies for special populations, including a description of how individuals who are members of special populations—

   i. will be provided with equal access to activities assisted under this Act;

   ii. will not be discriminated against on the basis of status as a member of a special population;

   iii. will be provided with programs designed to enable individuals who are members of special populations to meet or exceed State determined levels of performance described in section 113,

   iv. will be provided with appropriate accommodations; and

   v. will be provided instruction and work-based learning opportunities in integrated settings that support competitive, integrated employment. (Section 122(d)(9) of Perkins V)

   i. All eligible recipients must verify that special populations have access to all program areas offered in their school through the application process. The Division works with organizations that focus on support for special populations such as – in collaboration with the National Alliance for Partnerships in Equity (NAPE), to help intends to develop an equity training program during the State Plan period that will facilitate identifying and eliminating barriers for special
populations to participate in CTE programs. Once developed, the Division will require all recipients to receive annual equity training to remain eligible for Perkins funds.

ii. Members of special populations enroll in career and technical education programs in accordance with their individual interests and not on the basis of their status as members of special populations. The local application requires eligible recipients to describe specific strategies that will be used to prevent discrimination against individuals based on their status as member of special populations.

The Division will provide technical assistance to eligible recipients to enable them to identify and overcome barriers to equitable participation for each student, including barriers based on special population, and/or on gender, race, color, national origin, disability, and age as required by various civil rights laws. Assistance will also be provided to prevent enrolling special population students into specific career and technical education programs based on status rather than interests.

iii. The Division will consult with other Idaho agencies related to special populations to gain a deeper understanding of student needs. Agencies will be invited to provide technical assistance in the Division’s efforts to develop and implement equity training as a requirement for Perkins funding. The Division will provide technical assistance to those agencies.

iv. The Idaho Core Teacher Standards and Foundation Standards for Career and Technical Education require an understanding of how students learn and develop, differ in their approaches to learning, how to create instructional opportunities to meet student needs and how instruction accommodations can be used to increase student learning. Secondary and postsecondary programs are required to provide reasonable accommodations in accordance with Individuals with Disabilities Education Act (IDEA).

v. The Division has connected with the Division of Vocational Rehabilitation and other statewide agencies, with regional Transition Coordinators in five of Idaho’s six education regions through a series of outreach efforts. The Division will develop a semi-annual process of promoting interagency collaboration between local Perkins recipients and agencies who serve special populations.

4. Preparing Teachers and Faculty

a. Describe how the eligible agency will support the recruitment and preparation of teachers, including special education teachers, faculty, school principals, administrators, specialized instructional support personnel, and paraprofessionals to provide career and technical education instruction, leadership, and support, including professional development that provides the knowledge and skills needed to work with and improve instruction for special populations. (Section 122(d)(6) of Perkins V)

Idaho will strive to provide rich professional development opportunities for teachers, faculty, school leaders, and other CTE professionals to build their capacity to use competency-based models. Districts, LEA’s, and postsecondary institutions are encouraged to use Perkins funds to support professional development as defined in the Act (page 5).

Idaho will ensure that school counselors and college and career advisors are equipped to help students understand the value of acquiring workplace readiness and leadership skills including: creative literacy, critical thinking, collaboration, technology, and communication skills. They will also help students take advantage of learning in applied settings, such as work-based learning,
including school-based simulated work sites, mentoring, work site visits, job shadowing, project-based learning, and skills-based and paid internships. OSBE collaborates with the Division to provide resources and tools for teachers, school counselors and college and career advisors and other educators to help all students improve instruction and support college and career readiness through the Next Steps Idaho website in alignment with the state college and career readiness competencies.

Leadership Institute: The Division provides professional development through Leadership Institution. Leadership Institute is a professional development program delivered through the Division that prepares the next generation of district and state career and technical education leaders. It is designed to produce forward-thinking and change-oriented leaders through a three-year professional development 27-month program of study. The program of study consists of four three basic components: (1) State and national seminars on Idaho career and technical education policies, national CTE policies, processes and leadership; (2) The development of an Administrative Professional Development Plan; (3) Attainment of and Idaho Division of Career Technical Education Administrator’s Certificate; and (4) credit toward Advanced degrees as appropriate and desired. CTE governance; (2) policy and advocacy; and (3) personal leadership development.

Pre-Service Workshop: The Summer Academy (pre-service workshop) is a five-day workshop for career technical educators entering the teaching field directly from industry; these teachers hold an Idaho three-year nonrenewable teaching certificate. The content of the workshop focuses on the twelve (12) Core and CTE Foundational Standards for Initial Certification of Professional School Personnel, required of all certified teachers in Idaho. Training includes a focus on teaching strategies, classroom management, integration of academic standards, assessment, and working in public secondary schools and postsecondary institutions. Guidance is provided to help new CTE teaching candidates understand the additional requirements toward achieving a five-year renewable certificate by way of coursework at one of two Idaho universities, or by way of participating in a newly established two year teacher cohort that meets monthly and offers ongoing mentorship at the candidate’s secondary or postsecondary institution.

InSpIRE to Educate | Educate to InSpIRE Cohort. InSpIRE stands for Industry Specialists Integrating Real-world Experience, and is recognition of the strong content knowledge that industry specialists bring with them into the classroom when they choose to switch careers and teach at the secondary or postsecondary level. This cohort, referred to as InSpIRE, is designed to train these new industry based teachers in the educational pedagogy to help them be successful in the classroom sooner. After actively participating in the week-long pre-service workshop, new certified teaching candidates who opt for the Cohort to achieve remaining certification requirements toward a renewable five-year certificate meet for day-long, monthly trainings every month September-April. Project work is completed between trainings. Mentorship is two-fold: 1) an observational mentor visits the new candidate’s classroom four (4) times during the first year of teaching. A formal observation is conducted each time, and the candidate and observational mentor meet to dissect the observation and coach for improved teaching and student learning; 2) the on-site mentor, usually another CTE instructor, is available regularly for questions, conversation centered around teaching or school processes, etc. The candidate returns for Summer Academy Two, another week-long training in August of all InSpIRE Cohort candidates, and completes a second year of monthly trainings, project-based work, and assessment before being eligible for a five-year renewable teaching certificate.

New Teacher Induction Workshop: A one-and-a-half-day workshop for new career and technical educators coming from industry or teacher education programs, and in their first year of teaching. The content of the workshop focuses on unique aspects of teaching and reporting in career and technical education.
The Division offers new teacher training in several layers to completely support new teachers who enter the classroom directly from industry. These individuals are issued a three-year nonrenewal limited occupational specialist (LOS) teaching certificate for their first three years in the classroom while earning their standard teaching certificate. Components of the new teacher training program are: (1) Pre-service Academy, which is an online training to instruct new teachers in Idaho’s teacher standards, (2) First Camp and First Camp OA (occupational analysis), (3) prescribed teacher training offered through three different formats/platforms, which the new teachers can choose, and (4) a mentoring and coaching program. The teacher training program consists of:

1. **Pre-service Academy:** This self-paced program is offered completely online. It instructs new teachers in the foundational standards for Idaho teachers.

2. **First Camp and First Camp OA:** First Camp is a four-day intensive training intended to cover many of the “firsts” of a new teacher’s experience. It embarks on the topics they will learn in more depth through their teacher training such as pedagogy, classroom management, instructional planning, and so forth. First Camp OA is a training offered during their second year intended to cover occupational analysis to help new teachers take the content they know from their industry background and turn it into curriculum.

3. **Teacher training:** New teachers complete a training program of their choice to learn about the learner, pedagogy, classroom management, planning for instruction, and other necessary components of teaching. One option is to complete 12 credits of prescribed university coursework. Another option is to participate in the InSpIRE Ready! program, which is underwritten by the Division. InSpIRE Ready! stands for Industry Specialist Integrating Real-world Experience. Secondary teachers complete the Non-traditional Teacher Preparation Program offered through the College of Southern Idaho. Postsecondary teachers complete a prescribed list of courses offered through CTE Learn, which is the education arm of the Association for Career Technical Education (ACTE).

4. **Mentor program:** During the first three years while teachers are awarded a three-year LOS certificated, The Division provides a mentor/coach who observes their teaching at least once per semester, provides feedback and coaching, and helps them through their certification process. Mentors are not evaluative, only supportive.

Professional Development Conference: REACH! IDCTE also holds an annual Career and Technical Education Summer Conference that provides workshops in broad, overlapping areas such as career and technical education and academic integration, linking secondary and postsecondary education, workforce development, quality program/school improvement, and current industry-based skill standards. Recent conferences have offered content related to non-traditional student recruitment, micromessaging, and college and career advising. The Division hosts an annual summer conference that provides workshops in broad, overlapping areas such as CTE and academic integration, linking secondary and postsecondary education, workforce development, career advising, quality program improvement, program promotion and management, and current industry-based skill standards.

The Division works with organizations that focus on support for special populations such as, in collaboration with the National Alliance for Partnerships in Equity (NAPE), to help, intends to develop an equity training program during the State Plan period that will facilitate identifying and eliminating barriers for special populations to participate in CTE programs. Once developed, the Division will require all recipients to receive annual equity training to remain eligible for Perkins funds. State agencies assisting special populations will be invited to help develop and participate in the equity training program. Collaboration with other agencies will include Division support in their training efforts.
Narrative Descriptions – Fiscal Responsibility

1. Describe the criteria and process for how the eligible agency will approve eligible recipients for funds under this Act, including how—
   
a. each eligible recipient will promote academic achievement;
   
b. each eligible recipient will promote skill attainment, including skill attainment that leads to a recognized postsecondary credential; and
   
c. each eligible recipient will ensure the local needs assessment under section 134 takes into consideration local economic and education needs, including, where appropriate, in-demand industry sectors and occupations. (Section 122(d)(5) of Perkins V)

Local Applications and Comprehensive Local Needs Assessments (CLNAs) are two separate documents used to inform projects funded through the Act. Project descriptions and budgets must be submitted on an annual basis and must include information on how needs identified in the CLNA determined which projects to fund. All applications go through a two-step process of approval. Recipients must be approved through a local application.

Applications and CLNAs will be reviewed by Program Quality Managers, the Program Director of Perkins and Methods of Administration, and other Division personnel as applicable. Reviews assess, and the Federal Oversight and Compliance Coordinator to determine:

- The recipient’s qualifying program of study.
- The accuracy of the list of programs of study in the application.
- Presence and reasonableness of the information as required by section 134 of the Act.

Project descriptions and budgets will be reviewed by Program Quality Managers, the Program Director of Perkins and Methods of Administration, and other Division personnel as applicable the Federal Oversight and Compliance Coordinator, and administrative personnel to determine:

- Connectivity to the application and CLNA.
- Completeness of project.
- Allowability and accuracy of proposed project budgets.

Eligible recipients must offer CTE programs that include rigorous, sequential CTE content aligned with challenging academic standards as established by the SDE state content standards as applicable to the program area.

Programs of study must meet the Division standards developed by the Division and will be evaluated on a regular basis by Program Quality Managers assigned to one of the six (seven) discipline areas. All secondary concentrators must demonstrate industry-determined levels of proficiency as measured by Technical Skills Assessments (TSAs).

Postsecondary concentrators demonstrate proficiency through any of the following: earning a microcredential; Technical Certificate of Completion; Basic Technical Certificate; Intermediate Technical Certificate; Advanced Technical Certificate; or an Associate or Advanced Associate of Applied
Science Degree (A.A.S.) as aligned with industry standards. Completion of an A.A.S. degree may lead to a Bachelor of Applied Technology Degree (B.A.T.) or Bachelor of Applied Science Degree (B.A.S.).

2. Describe how funds received by the eligible agency through the allotment made under section 111 of the Act will be distributed—

   a. among career and technical education at the secondary level, or career and technical education at the postsecondary and adult level, or both, including how such distribution will most effectively provide students with the skills needed to succeed in the workplace; and

   b. among any consortia that may be formed among secondary schools and eligible institutions, and how funds will be distributed among the members of the consortia, including the rationale for such distribution and how it will most effectively provide students with the skills needed to succeed in the workplace. (Section 122(d)(8) of Perkins V)

Funds made available under Section 111 of the Act will be allocated to both secondary and postsecondary and adult career and technical education programs. Of the funds available under Section 112(a)(1), 13–15 percent will be reserved in accordance with Section 112(c). The remaining funds will be allocated 65 percent to secondary education recipients and 35 percent to postsecondary education recipients.

Idaho’s allocation of funds to secondary and postsecondary recipients reflects historical data analysis with a basis in career and technical education full-time equivalent (FTE) positions funded by both State and Federal agencies.

Idaho encourages any LEA, including public charter schools, not meeting the minimum allocation amount of $15,000 (Sec. 131(c)(1)) to enter into a consortium with other LEAs or public charter schools for the purposes of meeting the minimum allocation amount. LEAs, in accordance with Section 131(f)(1) of the Act, are encouraged to operate programs that are of sufficient size, scope, and quality to be effective or to participate in a Career Technical School Center. Funds distributed to individual LEAs within the consortium must be pooled to meet the minimum allocation requirement. Funds shall be used only for purposes and projects mutually beneficial to all consortium members. Such funds may not be reallocated to individual members of the consortium for purposes or projects benefitting only one member of the consortium.

Waivers to the minimum allocation amount will only be granted in those instances where the LEA has an approved program of study that is of sufficient size, scope, and quality, and can demonstrate they are unable to enter into a consortium agreement. Documentation of the attempt(s) to enter into an agreement will be required. Waivers are based on the LEA’s ability to enter into an agreement, not their willingness.

Postsecondary institutions must meet the $50,000 minimum allocation amount (Sec. 132(c)(1)) to be eligible for Perkins funds.

Allocation amounts are calculated in accordance with section 131(a)-(e). Reserve fund amounts are provided for those districts designated as rural or remote. Values are based on the initial assumption that all districts-local education agencies have a program of study and may be used to help determine if a program of study is appropriate. Final funding distributions are made to local education agencies with an approved program or an approved plan to start a program. Allocations will be updated annually to reflect the Idaho allotment amount as determined by the US Secretary
of Education. The table above will be modified once a determination is made of whether a district has or will have a program of study.

3. Describe how the eligible agency will adjust the data used to make the allocations to reflect any changes in school district boundaries that may have occurred since the population and/or enrollment data was collected, and include local education agencies without geographical boundaries, such as charter schools and secondary schools funded by the Bureau of Indian Education. (Section 131(a)(3) of Perkins V)

The Division will update data annually based on the US Census data and state enrollment data to verify eligible local education agencies. This includes local education agencies without geographic borders by using actual enrollment and population data based on a percentage of the local population, adjust the data used to make allocations to reflect changes in school district boundaries and charter LEAs operating approved career and technical education programs by using the criteria established by the Idaho Department of Education for use with the Elementary and Secondary Education Act of 1965.

Idaho has two types of charter schools may be authorized through the Idaho Public Charter School Commission or authorized by a school district Board of Trustees. Charter schools approved by the Idaho Public Charter School Commission are separate local education agencies with attendance areas that may overlap multiple school district boundaries. Charter schools authorized by a school district may be identified as separate local education agencies, however, their attendance boundaries fall within the authorizing school district’s boundaries. Virtual charter schools are approved by the Idaho Public Charter School Commission and attendance area covers the entire state.

4. If the eligible agency will submit an application for a waiver to the secondary allocation formula described in section 131(a)—

a. Include a proposal for such an alternative formula; and

b. Describe the process and criteria to be used for approving locally developed programs of study or career pathways (see Text Box 3 for the statutory definition of career pathways under section 3(8) of Perkins V), including how such programs address State workforce development and education needs and the criteria to assess the extent to which the local application under section 1328 will—

Also indicate if this is a waiver request for which you received approval under the prior Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV).

Idaho is not requesting a waiver at this time.
5. If the eligible agency will submit an application for a waiver to the postsecondary allocation formula described in section 132(a)—

   a. include a proposal for such an alternative formula; and

   b. describe how the formula does not result in a distribution of funds to the eligible institutions or consortia with the State that have the highest numbers of economically disadvantaged individuals and that an alternative formula will result in such a distribution. (Section 132(b) of Perkins V)

Also indicate if this is a waiver request for which you received approval under the prior Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV).

Idaho is not requesting a waiver at this time.

6. If the eligible agency will award reserve funds to eligible recipients under section 112(c) of Perkins V, describe the process and criteria for awarding those funds.

   Secondary eligible recipients

The Division reserves funds in accordance with Section 112(c) of Perkins V to carry out multiple functions. Primarily, funds will be used to bring rural and remote secondary recipients with a program of study of sufficient size, scope, and quality, to a minimum level of funding. Each rural school district will receive a minimum of $7,500 and each remote district will receive a minimum of $15,000 in order to promote the development, implementation, and adoption of programs of study. Rural districts receiving less than the minimum amount are encouraged to enter a consortium agreement with at least one other district to meet the eligibility funding level established by Perkins V of $15,000 (Section 131(c)(1)). Remote districts are not required to enter into a consortium, but may choose to do so.

Waivers to the minimum allocation amount will only be granted in those instances where the LEA has an approved program of study that is of sufficient size, scope, and quality, and can demonstrate they are unable to enter into a consortium agreement. Documentation of the attempt(s) to enter into an agreement will be required. Waivers are based on the LEA’s ability to enter into an agreement, not their willingness.

   Postsecondary eligible recipients

A portion of reserve funds, not to exceed 10% of the secondary/postsecondary distribution, will also be used to facilitate the transition of career and technical education students from secondary to postsecondary programs. Transition projects for reserve funds must be submitted annually.

Remaining funds will be used for additional projects as determined by the Division for the purpose of providing assistance to Idaho’s rural and remote districts.

Eligible Recipients

Institutions—Postsecondary recipients may receive eligible for a postsecondary Reserve Fund grant award must currently offer reserve funds for approved Perkins CTE programs as long as they and meet at least one of the following criteria in each subsection below:

(1) in—
   (a) rural areas;
   (b) areas with high percentages of CTE concentrators or CTE participants
Purpose for of Transition Funds

1) Transition secondary career and technical students to postsecondary CTE programs.

2) Primary focus on student access to ICC advanced opportunities that directly benefits a student’s postsecondary goals and reduces cost of obtaining a postsecondary credential.

Project will mainly focus on ICC and SkillStack® Implementation:

- a) SkillStack® training for secondary and postsecondary instructors
- b) Establishment of Postsecondary testing and dates
- c) Policies for transcription of credit
- d) Internal campus communication
- e) Regional communication to high school programs
- f) Focus on programs of study in their region
- g) Active promotion, marketing, and support to secondary programs on SkillStack®

3) Support the implementation of horizontal program alignment, by promoting content alignment to postsecondary career and technical programs. Secondary programs of study are the primary focus of alignment with postsecondary CTE programs.

- a) Individual articulation agreements for ICC should be entered into in limited cases where specific classes do not fall under statewide articulation, and:
  - secondary educators hold the appropriate credentials and certification in the program area where postsecondary credit is to be awarded;
  - secondary and postsecondary faculty reach agreement on the competencies; and
  - secondary and postsecondary faculty reach agreement on the required level of proficiency and approved assessment of student skills.
  - individual articulations must not delineate from learning outcomes of programs that have already been horizontally aligned.

- b) Statewide articulation agreements will be provided by the Division for each program that has gone through horizontal program alignment and institutions have adopted curriculum changes. Statewide articulations will provide information on the grouping of badges and competencies that must be met, as well as Technical Skills Assessments and other postsecondary requirements for ICC.

- c) Dual Credit is identified and supported as one advanced opportunity (academic or technical) by the Idaho State Board Education in Advanced Opportunities Policy III.Y; project should not focus primarily or solely on Dual Credit, nor should funding be used primarily for this activity.

- d) ICC and Dual Credit are identified as Advanced Opportunities by the Idaho State Board of Education, Advanced Opportunities Policy III.Y; Institutions should not delineate from Board policy.

43) This project will commit to the equivalent of at least one (1) full-time position for the oversight of the project.

Application Process (Postsecondary only)

Institutions must submit an application describing the nature and scope of the proposed project. Applications for Perkins Reserve funds must include:
Expenditures made with federal funds must meet the following criteria:
1. Federal funds must be used to supplement not supplant state and local resources.
2. Costs must be necessary and reasonable for the proper and efficient administration of the program.
3. Costs must be allocable to the project.

7. Provide the State’s fiscal effort per student, or aggregate expenditures for the State, that will establish the baseline for the Secretary’s annual determination on whether the State has maintained its fiscal effort, and indicate whether the baseline is a continuing level or new level. If the baseline is new, please provide the fiscal effort per student, or aggregate expenditures for the State, for the preceding fiscal year. (Section 211(b)(1)(D) of Perkins V)

The Division maintains effort in aggregate expenditures and reports these expenditures on the Consolidated Annual Report. The baseline is a continuing level determined annually from the prior fiscal year’s appropriation.

$57,748,952, in the aggregate, was spent on all non-federal programs by the State of Idaho during FY19. At 95%, Idaho’s new base for maintenance of effort in FY20 is $54,861,504.

Narrative Descriptions – Accountability for Results

1. Identify and include at least one (1) of the following indicators of career and technical education program quality—

   a. the percentage of CTE concentrators (see Text Box 6 for the statutory definition of a CTE concentrator under section 3(12) of Perkins V) graduating from high school having attained a recognized postsecondary credential;

   b. the percentage of CTE concentrators graduating high school having attained postsecondary credits in relevant career and technical education programs and programs of study earned through a dual or concurrent enrollment program or another credit transfer agreement; and/or

   c. the percentage of CTE concentrators graduating from high school having participated in work-based learning. (Section 113(b)(2)(A)(iv)(I) of Perkins V)

Include any other measure(s) of student success in career and technical education that are statewide, valid, and reliable, and comparable across the State. (Section 113(b)(2)(A)(iv)(II) of Perkins V) Please note that inclusion of “other” program quality measure(s) is optional for States.

Provide the eligible agency’s measurement definition with a numerator and denominator for each of the quality indicator(s) the eligible agency selects to use.

Idaho is using the following indicators of CTE program quality: 1.b

Idaho has determined the percentage of CTE concentrators graduating high school having attained postsecondary credits as one of the indicators of program quality.
Numerator: The number of CTE concentrators who graduated from high school having attained postsecondary credits in the relevant CTE program of study earned through a dual or concurrent enrollment credit or another credit transfer agreement.

Denominator: The number of CTE concentrators who graduated from high school.

Data Source/Criteria
ISEE: Exit code of 4 (graduates)

ISEE: Count of CTE concentrators having College Credit issued (yes) in their relevant CTE program of study. At this time, ICTE the Division is unable to use OSBE data for credits earned since credits could be earned in a variety of classes (ex. Spanish).

SkillStack®: Includes TCC stacked microcredentials through the Board’s established credit for prior learning process, badges for statewide aligned and individual articulation.

SkillStack®: Includes students that passed the TSA and earned all sub-badges for Technical Competency Credit (TCC). If a CTE program of study has multiple TCC badges, the student will be counted if they complete sub-badges in at least one of those areas.

SkillStack®: Includes TCC badges for Individual Articulation.

Idaho has also selected the applicable Technical Skills Assessment (TSA) as a measure of student success as a statewide, valid, and reliable assessment that is comparable across the State.

Numerator: The number of CTE concentrators who passed the TSA during the reporting year.

Denominator: The number of CTE concentrators who took the TSA during the reporting year.

The Division ICTE will calculate participation rates separately from our federal measures. For students that left school or had a schedule change, they will be excluded from the participation rate.

Data Source/Criteria
ISEE: Student demographics (gender, race, special populations)

CTECS (assessment vendor): Provide pass rates, includes retake score.

Idaho does not currently have reliable systems for tracking performance indicators related to recognized postsecondary credential attainment or work-based learning participation. A statewide work-based learning system is in the early stages of development and may provide more opportunities for assessing program quality in the future.

2. Provide on the form in Step 4b, for each year covered by the State plan beginning in FY 2020-2024, State determined performance levels or each of the secondary and postsecondary core indicators, with the levels of performance being the same for all CTE concentrators in the State. (Section 113(b)(3)(A)(I)(l) of Perkins V)

3. Describe the procedure the eligible agency adopted for determining State determined levels of performance described in section 113 of Perkins V, which at a minimum shall include—

   a. a description of the process for public comment under section 113(b)(3)(B) of Perkins V as part of the development of the State determined levels of performance (see Text Box 7 for the statutory requirements for consultation on State determined performance levels under section 113(b)(3)(B) of Perkins V);

   b. an explanation for the State determined levels of performance that meet each of the statutory requirements in Text Box 8; and

   c. a description of how the State determined levels of performance set by the eligible agency align with the levels, goals and objectives other Federal and State laws, (Section 122(d)(10) of Perkins V).

As part of the procedures for determining State determined levels of performance, describe the process that will be used to establish a baseline for those levels.

In the spring of 2019, the Division began outreach efforts with a discussion of performance measure definitions and the selection of which quality of program measure Idaho would use for secondary concentrators. In October of 2019, based on feedback received from stakeholders, the Division selected postsecondary credits as our quality measure. Measurement Guides were developed in November based on feedback before analyzing baseline data in December. Baseline data includes an average of two to four years of data, depending on the specific measure. Secondary baseline data for academic achievement is dependent upon data entered into the statewide system in compliance with federal and state code, including demographic information.

In January 2020, the Division finalized baseline performance levels and announced the opening of the 60-day public comment period by email to stakeholders and posting to the Division website. The Division’s Winter outreach included a workshop for secondary and postsecondary stakeholders to assist in the review and analysis of their individualized data reports, including a reminder of the timeline for public comment periods for performance levels and the state plan.

In January 2024, the Division updated baseline measures using data collected over the prior three school years (20/21 to 22/23) and proposed State determined performance levels for the next four years. This was announced along with the public comment period as part of the revised State Plan. Secondary and postsecondary programs were provided the proposed baseline measures and given an
opportunity to provide additional comment. The Division will be reviewing recipient’s individualized reports for the CLNA and disaggregated data analysis.

4. Provide a written response to the comments regarding State determined performance levels received during the public comment period pursuant to section 113(b)(3)(B) of Perkins V. (Section 113(b)(3)(B)(iii) of Perkins V).

As part of the written response, include a description of any the changes made to the State determined performance levels as a result of stakeholder feedback.

Comments for the 2024 Idaho State Plan are found in Appendix A.

5. Describe how the eligible agency will address disparities or gaps in performance as described in section 113(b)(3) (C)(ii)(II) of Perkins V in each of the plan years, and if no meaningful progress has been achieved prior to the third program year, a description of the additional actions the eligible agency will take to eliminate these disparities or gaps. (Section 122(d)(11) of Perkins V)

As part of the written response, and pursuant to the Report of the Senate Committee on Health, Education, Labor, and Pensions (HELP), the eligible agency could indicate that it will analyze data on the core indicators of performance to identify gaps in performance, explain how they will use evidence-based research to develop a plan to provide support and technical assistance to eligible recipients to address and close such gaps, and how they will implement this plan. The eligible agency is not required to submit a new State plan prior to the third program year in order to address this requirement.

The Division uses evidence-based research to provide technical assistance to address disparities and gaps in performance. The Division analyzes disaggregated performance data on an annual basis by program of study. Performance gaps will necessitate a performance improvement plan with a description of strategies that will be employed (professional development, micro-messaging, etc.) to address issues.
GLOSSARY

ARTICULATION AGREEMENT (Perkins Sec. 3.4)
A written commitment that is agreed upon at the State level or approved annually by the lead administrators of a secondary institution and a postsecondary educational institution or a sub-baccalaureate degree granting postsecondary educational institution and a baccalaureate degree granting postsecondary education institution designed to provide students with a non-duplicative sequence of progressive achievement leading to technical skill proficiency, a credential, a certificate, or a degree, and is linked through credit transfer agreements between the two (2) institutions.

CAREER AND TECHNICAL EDUCATION (CTE) (Perkins Sec. 3.5)
Organized educational activities that offer a sequence of courses that provides individuals with rigorous academic content and relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging professions, which may include high-skill, high-wage, or high-demand industry sectors or occupations which shall be, at the secondary level, aligned with the challenging State academic standards adopted by Idaho under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965; provides technical skill proficiency or a recognized postsecondary credential which may include an industry-recognized credential, a certificate, or an associate degree; and may include prerequisite courses (other than a remedial course) that meet the requirements. CTE includes competency-based, work-based, or other applied learning that supports the development of academic knowledge, higher-order reasoning and solving skills, work attitudes, employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of an industry, including entrepreneurship, of an individual. To the extent practicable, organized educational activities are coordinated between secondary and postsecondary through articulation agreements, early college high school programs, dual or concurrent enrollment program opportunities, or other credit transfer agreements that provide postsecondary credit or advanced standing. Organized educational activities may include exploration at the high school level or as early as the middle grades.

CAREER AND TECHNICAL STUDENT ORGANIZATION (CTSO) (Perkins Sec. 3.6)
An organization for individuals enrolled in a career and technical education program that engages in career and technical education activities as an integral part of the instructional program.

CAREER CLUSTER
The National Career Clusters® Framework serves as an organizing tool for Career Technical Education programs, curriculum design, and instruction. There are sixteen (16) Career Clusters in the Framework, representing 79 Career Pathways to help learners navigate their way to greater success in college and career. The Career Clusters are Agriculture, Food, and Natural Resources; Architecture and Construction; Arts, A/V Technology, and Communications; Business Management and Administration; Education and Training; Finance; Government and Public Administration; Health Science; Hospitality and Tourism; Human Services; Information Technology; Law, Public Safety, Corrections, and Security; Manufacturing; Marketing; Science, Technology, Engineering and Mathematics; and Transportation, Distribution, and Logistics.

CAREER GUIDANCE AND ACADEMIC COUNSELING (Perkins Sec. 3.7)
Guidance and counseling that provides access for students (and, as appropriate, parents and out-of-school youth) to information regarding career awareness exploration opportunities, and planning with respect to an individual's occupational and academic future; provides information to students (and, as appropriate, parents and out of school youth) with respect to career options, financial aid, job training, secondary, and postsecondary options (including associate and baccalaureate degree programs), dual or concurrent enrollment programs, work-based learning opportunities, early college
high schools, financial literacy, and support services, as appropriate; and may provide assistance for
special populations with respect to direct support services that enable students to persist in and
complete career and technical education, programs of study, or career pathways.

CAREER PATHWAY (Perkins Sec. 3.8)
The term “career pathways” has the meaning given the term in section 3 of the Workforce Innovation
and Opportunity Act (29 U.S.C. 3102). See Program of Study
(Workforce Innovation and Opportunity Act (WIOA) Sec. 3.7)
(7) CAREER PATHWAY. —The term “career pathway” means a combination of rigorous and high-quality
education, training, and other services that—
(A) aligns with the skill needs of industries in the economy of the State or regional economy
involved;
(B) prepares an individual to be successful in any of a full range of secondary or postsecondary
education options, including apprenticeships registered under the Act of August 16, 1937
(commonly known as the “National Apprenticeship Act”; 50 Stat. 664, chapter 663; 29 U.S.C. 50
et seq.) (referred to individually in this Act as an “apprenticeship”, except in section 171);
(C) includes counseling to support an individual in achieving the individual’s education and career
goals;
(D) includes, as appropriate, education offered concurrently with and in the same context as
workforce preparation activities and training for a specific occupation or occupational cluster;
(E) organizes education, training, and other services to meet the particular needs of an individual
in a manner that accelerates the educational and career advancement of the individual to the
extent practicable;
(F) enables an individual to attain a secondary school diploma or its recognized equivalent, and at
least 1 recognized postsecondary credential; and
(G) helps an individual enter or advance within a specific occupation or occupational cluster.

CLUSTER PROGRAM (ISBE SBOE Policy IVVII.EB.7.b2.)
As defined by the Idaho State Board Education policy (ISBE), cluster program: provides introductory
and intermediate courses as an introduction to a career technical area and the opportunity to learn
workplace readiness expectations, provides introductory and intermediate
courses as an introduction to a career technical area and the opportunity to learn workplace readiness
expectations. A cluster program must meet the following requirements: consist of a variety of
foundation and intermediate courses within a single Career Cluster that does not culminate in a
capstone course; offer a program that is three or more semesters (or the equivalent) in length;
demonstrate a strong career/workplace readiness skills alignment; participate in a related Career
Technical Student Organization; maintain an active Technical Advisory Committee to guide program
development and foster industry engagement; and require a nationally validated, industry-based
Workplace Readiness Assessment created to evaluate skills and attitudes needed for success in the
workplace administered by an approved developer as part of the program.

i. Consist of a variety of foundational and intermediate courses within a single Career Cluster. The
program does not culminate in a capstone course.

ii. Offer a program that is three or more semesters (or the equivalent) in length.

iii. Demonstrate a strong career/workplace readiness skills alignment.

iv. Participate in a related Career Technical Student Organization.

v. Maintain an active Technical Advisory Committee to guide program development and foster industry
engagement.

vi. Require a nationally validated, industry-based Workplace Readiness Assessment created to
evaluate skills and attitudes needed for success in the workplace administered by an approved
developer as part of the program.

CREDIT TRANSFER AGREEMENT (Perkins Sec. 3.11)
A formal agreement, such as an articulation agreement, among and between secondary and postsecondary education institutions or systems that grant students transcripted postsecondary credit, which may include credit granted to students in dual or concurrent enrollment programs or early college high school, dual credit, articulated credit, and credit granted on the basis of performance on technical or academic assessments.

CTE CONCENTRATOR (ISBE policy, Division defined, and Perkins Sec. 3.12)
Partially defined in ISBE Policy IV.E.3.a as a secondary student enrolled in a capstone course. Further defined by the Idaho Division of Career Technical Education (Division) as, at the secondary school level, a junior or senior completing at least two courses in a single CTE program of study. Includes advanced coursework (e.g., intermediate and capstone) beyond beginning/introductory classes.

At the postsecondary level, a student enrolled in an eligible recipient who has earned at least 12 credits within a CTE program or program of study in a single program area OR completed such a program if the program encompasses fewer than 12 credits or the equivalent in total.

Postsecondary program completion includes CTE degrees or certificates per Policy III.E. (Basic Technical Certificate, Intermediate Technical Certificate, Advanced Technical Certificate, Associate of Applied Science—an Advanced option may be awarded for additional credits of at least 15 credit hours that are beyond the A.A.S. degree).

(A) at the secondary school level, a student served by an eligible recipient who has completed at least 2 courses in a single career and technical education program or program of study; and
(B) at the postsecondary level, a student enrolled in an eligible recipient who has—
(i) earned at least 12 credits within a career and technical education program or program of study; or
(ii) completed such a program if the program encompasses fewer than 12 credits or the equivalent in total.

CTE PARTICIPANT (Division defined and Perkins Sec. 3.13)
An individual who completes not less than one course in a career and technical education program or program of study of an eligible recipient. A secondary student who has completed not less than one (1) course in a career and technical education program or program of study of an eligible recipient. Includes advanced coursework beyond beginning/introductory classes.

A postsecondary student who has been accepted and enrolled in one (1) or more credits in any state funded career technical program.

DISPLACED HOMEMAKER (Workforce Innovation and Opportunity Act (WIOA) Sec. 3.16)
An individual who has been providing unpaid services to family members in the home and who has been dependent on the income of another family member but is no longer supported by that income; or is the dependent spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment a call or order to active duty, a permanent change of station, or the service-connected death or disability of the member; and is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

DUAL OR CONCURRENT ENROLLMENT (DUAL CREDIT) PROGRAM (Perkins Sec. 3.15)
The term “dual or concurrent enrollment program” has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965. A program offered by a partnership between at least one institution of higher education and at least one local educational agency through which a secondary school student who has not graduated from high school with a regular high school diploma is able to enroll in one or more postsecondary courses and earn postsecondary credit that is
A program offered by a partnership between at least one institution of higher education and at least one local educational agency through which a secondary school student who has not graduated from high school with a regular high school diploma is able to enroll in one or more postsecondary courses and earn postsecondary credit that—

(A) is transferable to the institutions of higher education in the partnership; and

(B) applies toward completion of a degree or recognized educational credential as described in the Higher Education Act of 1965 (20 U.S.C. 1001 et seq.).

ELIGIBLE INSTITUTION (Perkins Sec. 3.20)

(A) A consortium of 2 or more entities described in subparagraphs (B) through (F);

(B) including a public or nonprofit private institution of higher education that offers and will use funds provided under this title in support of career and technical education courses that lead to technical skill proficiency or a recognized postsecondary credential, including an industry-recognized credential, a certificate, or an associate degree, except that, for the purpose of section 132, the term “recognized postsecondary credential” as used in this subparagraph shall not include a baccalaureate degree;

(C) a local educational agency providing education at the postsecondary level;

(D) an area career and technical education school providing education at the postsecondary level;

(E) an Indian Tribe, Tribal organization, or Tribal education agency that operates a school or may be present in the state;

(F) a postsecondary educational institution controlled by the Bureau of Indian Education or operated by or on behalf of any Indian Tribe that is eligible to contract with the Secretary of the Interior for the administration of programs under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5301 et seq.) or the Act of April 16, 1934 (25 U.S.C. 5342 et seq.);

(G) a tribally controlled college or university; or

(H) an educational service agency.

ELIGIBLE RECIPIENT (Perkins Sec. 3.21)

(A) A local educational agency (including a public charter school that operates as a local educational agency), an area career and technical education school, an Indian Tribe, Tribal organization, or Tribal education agency or consortium, eligible to receive assistance under section 131; or

(B) an eligible institution or consortium of eligible institution eligible to receive assistance under section 132, educational service agency, an Indian Tribe, Tribal organization, or Tribal educational agency or a consortium, eligible to receive assistance; or an eligible institution or consortium of eligible institutions eligible to receive assistance.

ENGLISH LEARNER (Perkins Sec. 3.22)

(A) a secondary school student who is an English learner, as defined in section 8101 of the Elementary and Secondary Education Act of 1965; or

(B) an adult or an out-of-school youth who has limited ability in speaking, reading, writing, or understanding the English language and—

(i) whose native language is a language other than English; or

(ii) who lives in a family environment or community in which a language other than English is the dominant language.

(ESEA Sec. 8101.20) A secondary school student who is aged 3 through 21; is enrolled or preparing to enroll in a secondary school; who was not born in the United States or whose native language is a language other than English, who is Native American or Alaska Native or a native resident of the outlying areas and who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency or who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and whose difficulties in speaking, reading, writing, or
understanding the English language may be sufficient to deny the individual the ability to meet the challenging State academic standards, the ability to successfully achieve in classrooms where the language of instruction is English, or the opportunity to participate fully in society.

(Perkins Sec. 3.22) An adult or an out-of-school youth who has limited ability in speaking, reading, writing, or understanding the English language and whose native language is a language other than English or who lives in a family environment or community in which a language other than English is the dominant language.

HIGH-SKILL (Division defined)
A program that leads to a career that uses an industry validated curriculum meeting standards developed by educators and industry under direction of the Division with multiple entry and exit points resulting in industry recognized certificates, credentials, degrees or apprenticeships beyond a high school diploma.

HIGH-WAGE (Division defined)
A career provides a wage that meets or exceeds the county average wage. A career that provides 60% of the average hourly wage by labor market region as determined by the Idaho Department of Labor. The percentage was determined using Idaho’s Unemployment Insurance Program, which provides benefits up to 60% of the state’s average wage. Labor market data may be found at https://lmi.idaho.gov/oes.

IN-DEMAND INDUSTRY SECTOR OR OCCUPATION (Perkins Sec. 3.26/WIOA Sec. 3.23)
The term “in-demand industry sector or occupation” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

(Workforce Innovation and Opportunity Act (WIOA) Sec. 3.7)
(A) IN GENERAL.—The term “in-demand industry sector or occupation” means—

(i) an industry sector that has a substantial current or potential impact (including through jobs that lead to economic self-sufficiency and opportunities for advancement) on the State, regional, or local economy, as appropriate, and that contributes to the growth or stability of other supporting businesses, or the growth of other industry sectors; or

(ii) an occupation that currently has or is projected to have a number of positions (including positions that lead to economic self-sufficiency and opportunities for advancement) in an industry sector so as to have a significant impact on the State, regional, or local economy, as appropriate.

An industry sector that has a substantial current or potential impact on the State, regional, or local economy, as appropriate, and that contributes to the growth or stability of other supporting businesses, or the growth of other industry sectors or an occupation that currently has or is projected to have a number of positions in an industry sector so as to have a significant impact on the State, regional, or local economy, as appropriate. An in-demand occupation tool has been developed by the Idaho Department of Labor in consultation with the Workforce Development Council and the Division and may be found on the Division’s website at https://public.tableau.com/profile/idlabor#!/vizhome/In-DemandOccupations/InDemandOccupations.

INDIAN; INDIAN TRIBE (Indian Self-Determination and Education Assistance Act)
“Indian” means a person who is a member of an Indian Tribe.

“Indian Tribe” means any Indian tribe, band, nation, or other organized group or community, including and Alaska Native village or regional or village corporation, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

INDIVIDUAL WITH A DISABILITY (Perkins Sec. 3.28)
(A) An individual with any disability (as defined in section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102)).

(B) INDIVIDUALS WITH DISABILITIES. —The term "individuals with disabilities" means more than 1 individual with a disability.

INDUSTRY RECOGNIZED (Association for Career and Technical Education (ACTE))
A credential that is sought or accepted by employers within the industry or sector involved as a recognized, preferred, or required credential for recruitment, screening, hiring, retention or advancement purposes; and, where appropriate, is endorsed by a nationally recognized trade association or organization representing a significant part of the industry or sector.

INDUSTRY OR SECTOR PARTNERSHIP (Perkins Sec. 3.29)
The term “industry or sector partnership” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

INSTITUTION OF HIGHER EDUCATION (Perkins Sec. 3.30)
The term “institution of higher education” has the meaning given the term in section 101 of the Higher Education Act of 1965.

LOCAL EDUCATIONAL AGENCY (Perkins Sec. 3.32)
The term “local educational agency” (LEA) has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965.

NON-TRADITIONAL FIELDS (Perkins Sec. 3.33)
Occupations or fields of work, such as careers in computer science, technology, and other current and emerging high skill occupations, for which individuals from one gender comprise less than 25 percent of the individuals employed in each such occupation or field of work.

OUT-OF-SCHOOL YOUTH (Perkins Sec. 3.35)
The term “out-of-school youth” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

OUT-OF-WORKFORCE INDIVIDUAL (Perkins Sec. 3.36)
(A) An individual who is a displaced homemaker, as defined in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102); or

(B) an individual who—
(ii) has worked primarily without remuneration to care for a home and family, and for that reason has diminished marketable skills, or
(ii) is a parent whose youngest dependent child will become ineligible to receive assistance under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.) not later than 2 years after the date on which the parent applies for assistance under such title; and is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

PARAPROFESSIONAL (Perkins Sec. 3.37)
The term “paraprofessional” has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965. Also known as a “paraeducator”, includes an education assistant and instructional assistant. (Elementary and Secondary Education Act of 1965 (ESEA) Sec. 8101.37)
The term “paraprofessional”, also known as a “paraeducator”, includes an education assistant and instructional assistant.

PATHWAY PROGRAM (ISBESBOE Policy IVVII.EC.7.e)
A pathway program provides specific career area occupational preparation, the opportunity to learn workplace readiness expectations, and the knowledge and skill development required to transition into a similar postsecondary program.

Provides specific career area occupational preparation, the opportunity to learn workplace readiness expectations, and the knowledge and skill development required to transition into a similar postsecondary program. A pathway program must meet the following requirements: consists of a sequence of courses that culminate in a capstone course and aligns with Board approved career technical education content standards; offer a program that is three or more semesters (or the equivalent) in length; demonstrate a strong career/workplace readiness skills alignment; participate in a related Career Technical Student Organization; maintain an active Technical Advisory Committee to guide program development and foster industry engagement; require the Workplace Readiness Assessment as part of the program; demonstrate alignment to similar postsecondary program outcomes as well as to relevant industry-recognized standards; offer work-based learning experience opportunities for students (paid or unpaid) require a pathway-identified Technical Skills Assessment for all students enrolled in the capstone course (concentrators); ensure the program meets the requirements for concentrators to obtain Technical Competency Credit for aligned postsecondary programs; and require a nationally validated, industry-based technical skill assessment administered by an approved developer. See also Program of Study.

POSTSECONDARY EDUCATIONAL INSTITUTION (Perkins Sec. 3.39)
(A) An institution of higher education that provides not less than a 2-year program of instruction that is acceptable for credit toward a bachelor’s degree;
(B) a tribally controlled college or university; or
(C) a nonprofit educational institution offering certificate or other skilled training programs at the postsecondary level.

PROFESSIONAL DEVELOPMENT (Perkins Sec. 3.40)
The term “professional development” means activities that—
(A) Activities that are an integral part of eligible agency, eligible recipient, institution, or school strategies for providing educators (including teachers, principals, other school leaders, administrators, specialized instructional support personnel, career guidance and academic counselors, and paraprofessionals) with the knowledge and skills necessary to enable students to succeed in career and technical education, to meet challenging State academic standards under section 1111(b)(1) of the Elementary and Secondary Education Act, or to achieve academic skills at the postsecondary level; and
(B) are sustained (not stand-alone, 1-day, or short-term workshops), intensive, collaborative, job-embedded, data-driven, and classroom focused, to the extent practicable evidence-based, and may include activities that—

(i) improve and increase educator’s—

(I) knowledge of the academic and technical subjects;
(II) understanding of how students learn; and
(III) ability to analyze student work and achievement from multiple sources, including how to adjust instructional strategies, assessments, and materials based on such analysis;

(ii) are an integral part of eligible recipients’ improvement plans;

(iii) allow personalized plans for each educator to address the educator’s specific needs identified in observation or other feedback;

(iv) support the recruitment, hiring, and training of effective educators, including educators who became certified through State and local alternative routes to certification;

(v) advance educator understanding of—

(I) effective instructional strategies that are evidence-based; and
(II) strategies for improving student academic and technical achievement or substantially increasing the knowledge and teaching skills of educators;
(vi) are developed with extensive participation of educators, parents, students, and representatives of Indian Tribes (as applicable), of schools and institutions served under this Act;
(vii) are designed to give educators of students who are English learners in career and technical education programs or programs of study the knowledge and skills to provide instruction and appropriate language and academic support services to those students, including the appropriate use of curricula and assessments;
(viii) as a whole, are regularly evaluated for their impact on increased educator effectiveness and improved student academic and technical achievement, with the findings of the evaluations used to improve the quality of professional development;
(ix) are designed to give educators of individuals with disabilities in career and technical education programs or programs of study the knowledge and skills to provide instruction and academic support services to those individuals, including positive behavioral interventions and supports, multi-tier system of supports, and use of accommodations;
(x) include instruction in the use of data and assessments to inform and instruct classroom practice;
(xi) include instruction in ways that educators may work more effectively with parents and families;
(xii) provide follow-up training to educators who have participated in activities described in this paragraph that are designed to ensure that the knowledge and skills learned by the educators are implemented in the classroom;
(xiii) promote the integration of academic knowledge and skills and relevant technical knowledge and skills, including programming jointly delivered to academic and career and technical education teachers; or
(xiv) increase the ability of educators providing career and technical education instruction to stay current with industry standards.

PROGRAM OF STUDY (Perkins Sec. 3.41)
A coordinated, nonduplicative sequence of academic and technical content at the secondary and postsecondary level that—
(A) incorporates challenging State academic standards, including those adopted by a State under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965;
(B) addresses both academic and technical knowledge and skills, including employability skills;
(C) is aligned with the needs of industries in the economy of the State, region, Tribal community, or local area;
(D) progresses in specificity (beginning with all aspects of an industry or career cluster and leading to more occupation-specific instruction);
(E) has multiple entry and exit points that incorporate credentialing; and
(F) culminates in the attainment of a recognized postsecondary credential. Commonly used interchangeably with the terms pathway and career pathway.

QUALITY (Division defined)
At the secondary level, an educational program effectively uses data to inform and improve student success including closing student equity gaps in access and completion and improving attainment of rigorous academic and technical skills. Secondary CTE concentrators, as defined in this plan, demonstrate acceptable levels of proficiency as measured by Technical Skills Assessments. At least one Technical Skills Assessment must be administered to CTE concentrators once every two years as part of a program of study to remain eligible to receive Perkins funds. Authorized CTSOs must align with CTE course curriculum, but are not limited to programs of study offered.
Postsecondary CTE concentrators, as defined by the state, demonstrate proficiency through earning a
degree or certificate (Basic Technical Certificate (B.T.C.), Intermediate Technical Certificate (I.T.C.),
Advanced Technical Certificate (A.T.C.), or Associate of Applied Science degree (A.A.S.)—an Advanced
option may be awarded for additional credits of at least 15 credit hours that are beyond the A.A.S.
degree).

All secondary and postsecondary recipients must complete a Comprehensive Local Needs Assessment
(CLNA) every two (2) years, have a technical advisory committee for each program of study that meets
at least twice a year, annually submit program data and analysis showing progress toward
performance targets, employ faculty that meet the minimum certification requirements as established
by the Division, must connect to an authorized CTSO that is aligned to course curriculum led by a
teacher that meets the minimum certification requirements as established by the Division, and must
provide professional development opportunities.

RECOGNIZED POSTSECONDARY CREDENTIAL (Perkins Sec. 3.43)
(WIOA Sec. 3.52)
The term "recognized postsecondary credential" has the meaning given the term in section 3 of the
Workforce Innovation and Opportunity Act (29 U.S.C. 3102). The term "recognized postsecondary credential" means a credential consisting of an industry-recognized certificate or certification, a certificate of completion of an apprenticeship, a
license recognized by the State involved or Federal Government, or an associate or baccalaureate
degree. A credential consisting of an industry-recognized certificate or certification, a certificate of completion of an apprenticeship, a license recognized by the State involved or Federal Government,
or an associate or baccalaureate degree. ISBE definitions for postsecondary certifications available at
state institutions may be found at https://boardofed.idaho.gov/board-policies-rules/boardpolicies/higher-education-affairs-section-iii/iii-e-certificates-and-degrees/.

REMOTE SCHOOL DISTRICT (Division defined)
A rural district isolated from the other districts of the state because of geographical or topographical
conditions. Districts are considered remote when the distance between district offices is equal to or
greater than 25 miles on a continuous all-weather surface road.

RURAL SCHOOL DISTRICT (Idaho Code §33-319)
(1) A school district shall be considered a rural school district if it meets one (1) of the following two
(2) criteria:
   (a) There are fewer than twenty (20) enrolled students per square mile within the area
       encompassed by the school district’s boundaries; or
   (b) The county in which a plurality of the school district’s market value for assessment
       purposes is located contains less than twenty-five thousand (25,000) residents, based on the
       most recent decennial United States census.

(2) A public charter school shall be considered a rural public charter school if the school district in
which the public charter school is physically located meets the definition of a rural school district,
pursuant to subsection (1) of this section. A public charter school that is also a virtual school shall be
considered a rural public charter school if over fifty percent (50%) of its enrolled students reside within
school districts that meet the definition of a rural school district pursuant to subsection (1) of this
section. A school district with fewer than twenty (20) enrolled students per square mile within the area
encompassed by the school district’s boundaries or the county in which a plurality of the school
district’s market value for assessment purposes is located contains less than twenty-five thousand
(25,000) residents.
SCOPE (Division defined)
A secondary program must provide opportunity for postsecondary advancement as evidenced by: at least one (1) articulation agreement in place or opportunities to earn college credits under Idaho’s Advanced Opportunities program (https://boardofed.idaho.gov/k-12-education/advancedopportunities-for-high-school-academics/); alignment with business and industry needs as identified in the CLNA; rigorous academic and technical skills aligned with challenging academic and CTE standards (including employability skills); a capstone course within a program of study; a recognized postsecondary credential; participation in work based learning experiences; and identifying one (1) of the three (3) definitions of a high skill, high wage, or in demand occupation in their CLNA.

Postsecondary programs must provide opportunities to earn a degree or certificate (Basic Technical Certificate (B.T.C.), Intermediate Technical Certificate (I.T.C.), Advanced Technical Certificate (A.T.C.), or Associate or Advanced Associate of Applied Science degree (A.A.S.)) that: aligns with business and industry needs as identified in the CLNA; includes rigorous academic and technical skills aligned with challenging academic and CTE standards; provides work based learning experiences; and leads to a high skill, high wage, or in demand occupation.

SIZE (Division defined)
At the secondary level, the recipient must offer a minimum of one (1) Division approved program of study and one (1) authorized CTSO. Both must align to the comprehensive local needs assessment. A Career and Technical School (CTS) must have a minimum of three (3) Division approved programs of study and one (1) authorized CTSO. Individual courses that constitute a program of study should take into consideration the available space, equipment/technology, safety, and teacher to student ratio for a quality student experience.

At the postsecondary level, a program approved by the Idaho in compliance with Board policy III.G: Postsecondary Program Approval and Discontinuance that meets the enrollment requirements established by the institution and offers a recognized postsecondary credential.

SPECIAL POPULATIONS (Perkins Sec. 3.48)
The term “special populations” means—
(A) Individuals with disabilities;
(B) individuals from economically disadvantaged families, including low-income youth and adults;
(C) individuals preparing for non-traditional fields;
(D) single parents, including single pregnant women;
(E) out-of-workforce individuals;
(F) English learners;
(G) homeless individuals described in section 725 of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a);
(H) youth who are in, or have aged out of, the foster care system; and
(i) youth with a parent who—
(i) is a member of the armed forces (as such term is defined in section 101(a)(4) of title 10, United States Code); and
(ii) is on active duty (as such term is defined in section 101(d)(1) of such title).

SUPPORT SERVICES (Perkins Sec. 3.50)
Services related to curriculum modification, equipment modification, classroom modification, supportive personnel (including paraprofessionals and specialized instructional support personnel), and instructional aids and devices.
WORK-BASED LEARNING (Perkins Sec. 3.55)
Sustained interactions with industry or community professionals in real workplace settings, to the extent practicable, or simulated environments at an educational institution that foster in-depth, firsthand engagement with the tasks required in a given career field, that are aligned to curriculum and instruction.
Idaho Perkins V State Plan

Approved by the State Board of Career Technical Education April 18, 2024

Narrative Descriptions – Plan Development and Consultation

1. Describe how the State plan was developed in consultation with the stakeholders and in accordance with the procedures in section 122(c)(2) of Perkins V. See Text Box 1 for the statutory requirements for State plan consultation under section 122(c)(1) of Perkins V.

The initial Idaho Perkins V State Plan was developed and posted in fiscal year 2019. The following describes stakeholder engagement for that plan. IDCTE has reviewed and updated this current version based on internal feedback, stakeholder consultation, and public comment building on the original plan development work. That process is described in further detail below.

During 2019 the Idaho Division of Career Technical Education (Division) engaged in a series of outreach efforts designed to collect input from as many stakeholder groups as possible, including:

- Outreach sessions for secondary and postsecondary stakeholder groups includeing sessions during the Division’s annual statewide conferences. This annual conference brings approximately 900 secondary and postsecondary educators and industry stakeholders to Boise for a three-day training, and is Idaho’s largest CTE professional development opportunity. The summer conference alternates every other year with regionally based conferences held around the state.
- The 2019 conference included several sessions specific to labor market information and understanding Perkins V requirements.
- During our spring 2019 and winter 2020 outreach, the Division hosted community forums in each of Idaho’s six education regions. Members of the community, including family members, community organizations, and business members were invited to attend. Business members were represented from each region.
- Various meetings with the Idaho Workforce Developmental Council (WDC) were held to discuss a combined Workforce Innovation and Opportunity Act (WIOA) plan and development of a labor market tool designed to help grant recipients identify high-skill, high-wage, and in-demand occupations. While the ultimate decision was not to pursue a combined plan at that time. It was agreed to that common labor market data would be used to discuss regional labor market trends. Newly developed labor market tools allowed recipients to use readily available data to help reduce the data burden associated with the Comprehensive Local Needs Assessment (CLNA) and to help ensure consistent data analyses statewide.
- As a part of outreach efforts, directors from each of our Centers for New Direction were invited to the regional meetings, and were provided with additional information on how the Perkins V projects could expand services (including individual services) through the Centers. Center Directors were connected with postsecondary representatives to ensure additional special populations were considered in the planning and project process.
- In conjunction with the WDC Council, the Division conducted 14 regional listening sessions to better understand the needs of local communities and small business owners. Division staff also met with representatives of Idaho Business for Education, including a 90-minute listening session with Scott Stump who oversaw the federal Office of Career, Technical, and Adult Education. Additionally, the Division reached out to the Idaho Association for Commerce and Industry, as well as numerous Chambers of Commerce around the state.
- To help expand CTE access for more students, both the spring and fall 2019 outreach included a specific focus on better supporting students in need. This included recommendations that recipients connect with local foster care advocates, local homeless support entities, and local outreach organizations. Idaho Division of Juvenile Corrections was included in the outreach efforts and is working to expand CTE programming to help reduce recidivism for
juvenile offenders. The winter 2020 outreach sessions included agencies related to special populations in an effort to expand knowledge of CTE programs and foster collaboration.

- The outreach included multiple contacts with state tribal leaders including the Idaho State Board of Education’s Indian Education Committee, individual tribes, and listening sessions. At the request of the tribes, the Division conducted individual meetings with leaders from three of Idaho’s five tribes. Follow-up meetings were requested, including joint meetings between the tribes and local school districts and postsecondary institutions have been scheduled to identify strategies for collaboration. The Division continues to engage with this group and work with recipients of funding to increase engagement.
- As part of WIOA listening tours, Division staff met with representatives of Idaho Division of Vocational Rehabilitation, as well as regional advocacy groups representing individuals with physical disabilities, blind and visually impaired, cognitive disabilities, and seniors.

- The Division is also a member of the Idaho Interagency Council on Student Transition (IICST), a group devoted to helping students with disabilities transition from secondary to postsecondary life. The Division attended a conference hosted by the National Technical Assistance Center on Transition (NTACT) with other members of IICST centered on incorporating assistance for students with disabilities into Perkins V state plans.
- The Division held Idaho’s first Rural District Symposium centered around helping rural and remote districts strengthen student learning outcomes and align district priorities with Perkins V.
- During the 2023 calendar year, Division staff held sessions during the summer annual conferences where stakeholders were given the opportunity to provide feedback on the current administration of Perkins V funding. This feedback was used to inform updates that were incorporated into the updated plan. The updated plan was then provided to secondary and postsecondary education stakeholders and posted on the Division’s website for 30 days for public comment. Near the conclusion of the public comment period the Division held a statewide virtual hearing to provide an additional opportunity for the public to provide comment.

2. Consistent with section 122(e)(1) of Perkins V, each eligible agency must develop the portion of the State plan relating to the amount and uses of any funds proposed to be reserved for adult career and technical education, postsecondary career and technical education, and secondary career and technical education after consultation with the State agencies identified in section 122(e)(1)(A)-(C) of the Act. If a State agency, other than the eligible agency, finds a portion of the final State plan objectionable, the eligible agency must provide a copy of such objections and a description of its response in the final plan submitted to the Secretary. (Section 122(e)(2) of Perkins V)

The Division is the state agency responsible for career technical education in Idaho, including secondary, postsecondary and other adult training programs. The Idaho State Board for Career Technical Education, pursuant to Section 33-2205, Idaho Code is the designated agency for implementing the provisions of the Smith Hughes Act of 1917 and any subsequent amendments as well as all other federally or state funded career technical education programs. The State Board is the Division’s governing board and Idaho’s state education agency. The State Superintendent of Public Instruction sits on the State Board and administers the State Department of Education (SDE).

3. Describe opportunities for the public to comment in person and in writing on the State plan. (Section 122(d)(14) of Perkins V)
During the Spring 2019 outreach, the Division hosted community forums in each of Idaho’s six education regions. Members of the community, including adult students, family members, community organizations, and business members were invited to attend.

In conjunction with the WDC, the Division conducted 14 regional listening sessions to better understand the needs of local communities and small business owners.

During our winter 2020 outreach, the Division hosted more community forums in each of Idaho’s six education regions. Members of the community, including adult students, family members, community organizations, and business members were invited to attend. During the summer of 2023 the Division conducted a number of stakeholder meetings in conjunction with the Division’s annual summer conferences held around the state as well as meetings conducted with secondary and postsecondary education groups who were specifically asked to provide feedback to the state plan and performance level descriptors.

Prior to submission of the updated draft State plan to the State Board for Career Technical Education in April 2024, the draft State plan was made available on the Division’s website for review in accordance with the 30-day public comment period required by the Act. Comments have been and will continue to be collected via email to stakeholderinput@cte.idaho.gov.

Narrative Descriptions – Program Administration and Implementation

1. State’s Vision for Education and Workforce Development

a. Provide a summary of State-supported workforce development activities (including education and training) in the State, including the degree to which the State’s career and technical education programs and programs of study are aligned with and address the education and skill needs of the employers in the State identified by the State workforce development board. (Section 122(d)(1) of Perkins V)

Idaho’s vision for CTE is to provide premier educational opportunities for students and adults to gain relevant workforce and leadership skills in applied settings; to provide a gateway to meaningful careers and additional education opportunities; and to educate a strong talent pipeline that meets Idaho business workforce needs.

The WDC arrived at three broad goals for the State’s workforce system, which are outlined below. Under each of these goals, the WDC identified several strategies that relate more specifically to the populations, services, policies, and priorities within the workforce development system. The strategies cited under each goal below are a priority subset of the WDC’s strategic plan that directly relate to the foundational analysis within the State’s WIOA plan.

1. Promote policies that align workforce, education, economic development, and entrepreneurship to meet industry and employer’s workforce needs.

   - Leverage public and private resources (in order to provide greater levels of service to those with barriers to employment and in rural communities).
2. Facilitate development of an Idaho workforce that is highly skilled and committed to continuous learning.

- Provide access to low-skilled and at-risk youth and adults, dislocated workers and others with barriers to employment to a full range of information and supports to prepare for work that leads to economic self-sufficiency.
- Enhance opportunities for lifelong learning by expanding delivery options such as: 1) stackable credentials, 2) compressed scheduling, 3) on-line and distance learning, 4) modularized curriculum and 5) other alternative learning modalities
- Encourage the use of workplace flexibility options such as job sharing, job restructuring, part-time worker pools, flex-time and telecommuting to increase employment opportunities and retain quality workers
- Promote employment practices and workplace environments that encourage a culture of diversity and inclusiveness

3. Support a comprehensive education and workforce delivery system.

- Maintain a quality One-Stop Career System that connects employers and workers and facilitates access to workforce services, education services and information.
- Enhance coordination among workforce system partners and streamline services by eliminating duplication and ineffective or unnecessary practices.
- Provide access to information, financial aid and other supportive services that allow all workers to obtain education and training that leads to employment.
- Coordinate a system of work supports for low-income workers to encourage economic self-sufficiency (e.g., food stamps, child care, and housing) and provide safety nets to those who are in transition in the workforce.

Idaho's WDC identified four focus areas for the purposes of improving Idaho’s workforce system.

- Serving Rural Communities.
- Attracting, Training, and Retaining Quality Staff.
- Career Pathways.
- Connecting Youth.

The Division, which administers both the WIOA Title II and Carl D. Perkins programs and administers both secondary and postsecondary career technical education in Idaho, is essential in connecting workforce programs with career technical education, engaging the State’s technical colleges, and administering the development of meaningful career pathways. To this end, the Division aligns its efforts with the WDC’s goals.

The Division connects education to Idaho’s workforce in three essential ways, through the microcredential process, technical advisory committees, and the Centers for New Directions.

The Division is currently aligning all secondary CTE programs of study to postsecondary CTE programs using a microcredential system called SkillStack®. SkillStack® is a digital badging/microcredentialling platform that allows Idaho’s educators to validate the skills their students demonstrate proficiency in. The State Board requires Idaho’s public postsecondary institutions to use SkillStack® for all CTE and non-CTE badges and microcredentials.
Program standards are developed for each badge through a collaborative process that engages industry, postsecondary faculty, secondary faculty, and other critical stakeholders. As students provide evidence of the competencies for each skill, educators evaluate the competencies based on common assessments. Once all skills are validated for a particular badge, the information is entered in the SkillStack® platform and badges are awarded.

Secondary students may earn postsecondary credit through successful completion of dual credit courses, articulation agreements between high school and postsecondary institutions for achieved outcomes, and by earning microcredentials and badges in SkillStack® combined with the postsecondary institutions prior learning assessment process. Originally, Idaho’s high school, college, university, and workforce training educators were the only individuals allowed to validate skills in SkillStack®. These entities gain authorization to validate skills upon verification and training from the Division. Since the original State Plan, we now have other educational and non-CTE entities using the system.

Employers can access SkillStack® and search the database for individuals that have been awarded badges aligned to the jobs and skills they are trying to find. The SkillStack® platform can then invite those individuals identified to learn more about the company’s open position by visiting the company’s website or location where the job is posted.

As of June 2023, 32,000 unique students have earned over 115,000 microcredentials in the SkillStack® platform.

Successful career technical education programs maintain close ties with business and industry, and must be integrally linked to their communities and state. Career technical education programs in Idaho are required to incorporate active input from applicable business and industry technical advisory committees (TACs).

The TAC advises the program to ensure it stays up to date in terms of content and training. TAC members also assist in, and advocate for, student, faculty, and program needs. TACs strengthen the working relationships between the career technical education programs and the communities they serve.

The Division also administers the Center for New Directions programs. Through these program, single parents and displaced homemakers receive services to help them move from dependence to independence. Services include personal, career, and education counseling, assessment and testing, and preparation for employment and training. The program also promotes gender equity in the Division’s programs by supporting nontraditional career fields through grants, scholarships, and other methods. The Centers for New Directions are on Idaho Technical College System campuses.

b. Describe the State's strategic vision and set of goals for preparing an educated and skilled workforce (including special populations) and for meeting the skilled workforce needs of employers, including in existing and emerging in-demand industry sectors and occupations as identified by the State, and how the State's career and technical education programs will help to meet these goals. (Section 122(d)(2) of Perkins V)

Idaho State Board for Career Technical Education and IDCTE Objectives (fiscal years 2024-2028).

MISSION STATEMENT
CTE system’s mission is to prepare Idaho’s youth and adults for high-skill, in-demand careers.

VISION STATEMENT

The Division’s vision is to be:

1. A premier educational opportunity for students and adults to gain relevant workforce and leadership skills in an applied setting;
2. A gateway to meaningful careers and additional educational opportunities; and
3. A strong talent pipeline that meets Idaho business workforce needs.

GOAL 1 EDUCATIONAL SYSTEM ALIGNMENT – Ensure that all components of the educational system are integrated and coordinated to maximize opportunities for all students.

Objective A: Support State Board Policy III.Y by aligning CTE programs among the technical colleges and ensuring that secondary program standards align to those postsecondary programs.

Objective B: Technical assistance and support for CTE programs – Provide timely, accurate, and comprehensive support to CTE programs that meets the needs of administrators and instructors at both the secondary and postsecondary levels.

Objective C: Data-informed improvement – Develop quality and performance management practices that will contribute to system improvement, including current research, data analysis, and strategic and operational planning.

Objective D: Funding Quality Programs – Secondary and postsecondary programs will include key components that meet the definition of a quality program and are responsive to the needs of business and industry.

Objective E: Create systems, services, resources, and operations that support high performing students in high performing programs and lead to positive placements.

GOAL 2 EDUCATIONAL READINESS – Provide a rigorous, uniform, and thorough education that empowers students to be lifelong learners and prepares all students to fully participate in their community and postsecondary and workforce opportunities by assuring they are ready to learn at the next educational level.

Objective A: Workforce Training – Non-credit training will provide additional support in delivering skilled talent to Idaho’s employers.

Objective B: Adult Education (AE) – AE will assist adults in becoming literate and obtaining the knowledge and skills necessary for employment and economic self-sufficiency.

Objective C: Centers for New Directions (CND) – CNDs will help foster positive student outcomes, provide community outreach events and workshops, as well as collaborate with other agencies.

GOAL 3 EDUCATIONAL ATTAINMENT – Idaho’s public colleges and universities will award enough degrees and certificates to meet the education and forecasted workforce needs of Idaho residents necessary to survive and thrive in the changing economy.

Objective A: Talent Pipelines/Career Pathways – CTE students will successfully transition from high school and postsecondary education to the workplace through a statewide career pathways model.
Objective B: Higher Level of Educational Attainment – Increase completion of microcredentials.

GOAL 4 WORKFORCE READINESS: The educational system will provide an individualized environment that facilitates the creation of practical and theoretical knowledge leading to college and career readiness.

Objective A: CTE concentrators will demonstrate college and career readiness.

Objective B: CTE teachers will track student progress for pathway completion through the microcredential platform.

Goals and objectives are reviewed annually and updated at a minimum of every four years.

c. Describe the State's strategy for any joint planning, alignment, coordination, and leveraging of funds between the State's career and technical education programs and programs of study with the State's workforce development system, to achieve the strategic vision and goals described in section 122(d)(2) of Perkins V, including the core programs defined in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102) and the elements related to system alignment under section 102(b)(2)(B) of such Act (29 U.S.C. 3112(b)(2)(B)); and for programs carried out under this title with other Federal programs, which may include programs funded under the Elementary and Secondary Education Act of 1965 and the Higher Education Act of 1965. (Section 122(d)(3) of Perkins V)

The Division and the WDC are partner agencies in developing and executing Idaho’s Workforce Development State Plan. The WDC, in conjunction with the Idaho Department of Labor, is an important stakeholder in the Perkins V State Plan, providing crucial labor market information, to all Perkins V eligible recipients and working with the Centers for New Directions to provide education opportunities for special population students within through Idaho’s six technical colleges.

d. Describe how the eligible agency will use State leadership funds made available under section 112(a)(2) of Perkins V for each of the purposes under section 124(a) of the Act. See Text Box 2 for the required uses of State leadership funds under section 124(a) of Perkins V. (Section 122(d)(7) of Perkins V)

The Division will use leadership funds in accordance with Section 112(a)(2)(B) of the Act to:

- Support non-traditional students through an equal distribution of $10,000 to each of the six eligible postsecondary recipients. Any unspent funds from prior year will be targeted towards non-traditional student activities;
- Support programs at the Idaho Department of Corrections not to exceed 1 percent of the total allocation for the State;
- Provide additional funds equal to 0.5 percent to be distributed to the Idaho Department of Juvenile Corrections and Idaho Educational Services for the Deaf and Blind at a base amount of $7,500 per facility with the remainder split evenly between the two agencies;
- Support enrollment of special populations into CTE programs through coordination with other State agencies including, but not limited to, the Division of Vocational Rehabilitation and the Idaho State Department of Education (an amount equal to 0.1 percent).

Remaining leadership funds will be used to provide statewide professional development and leadership development; provide technical assistance to recipients; develop statewide programs and
programs of study; support Career and Technical Student Organizations (CTSOs); support development of valid and reliable assessments of competencies and technical skills; program alignment; and enhanced data use capabilities.

2. Implementing Career and Technical Education Programs and Programs of Study

a. Describe the career and technical education programs or programs of study that will be supported, developed, or improved at the State level, including descriptions of the programs of study to be developed at the State level and made available for adoption by eligible recipients. (Section 122(d)(4)(A) of Perkins V)

Secondary

The Idaho Division of Career Technical Education (Division) currently supports fifty-seven (57) approved programs of study for secondary programs in seven (7) program areas representing fifteen (15) of the sixteen (16) career clusters as described in the National Career Clusters® Framework as presented by Advance CTE (excluding Government career cluster). All Idaho public secondary schools are required to provide career technical education courses.

The seven program areas are:

1. Agriculture, Food, and Natural Resources
2. Business and Marketing Education
3. Engineering and Technology Education
4. Family and Consumer Sciences and Human Services
5. Health Professions and Public Safety
6. Trades and Industry
7. Individualized Occupational Training

Middle School

Students may also participate in career exploration starting in middle school. Idaho public schools are required to provide career exploration courses to students grades 7 and 8. Career technical education programs may be delivered starting in grade 7.

Postsecondary

The technical colleges support over 200 programs representing all seven of the identified secondary program areas.

b. Describe the process and criteria to be used for approving locally developed programs of study or career pathways (see Text Box 3 for the statutory definition of career pathways under section 3(8) of Perkins V), including how such programs address State workforce development and education needs and the criteria to assess the extent to which the local application under section 1328 will—

i. promote continuous improvement in academic achievement and technical skill attainment;

ii. expand access to career and technical education for special populations; and
iii. support the inclusion of employability skills in programs of study and career pathways. (Section 122(d)(4) (B) of Perkins V)

i. The Division collects data related to local education agencies (LEA) through the Idaho System for Educational Excellence (ISEE) operated and maintained by the Office of the State Board of Education (OSBE). ISEE is a robust data system allowing for the collection of disaggregated data down to the student and course level at each public school within the state. Each CTE course is assigned a unique code by OSBE associated with federally accepted School Codes for Exchange of Data (SCED) codes. Postsecondary CIP codes are then aligned to the SCED codes. School administrators are responsible for accurate entry of data into ISEE.

The Division collects postsecondary disaggregated data directly from the institutions. Each CTE program is assigned a unique program ID associated with federally accepted CIP codes. Institutions are required to certify that information provided to the Division is accurate and complete. The Division validates all postsecondary data tied to approved programs.

Pursuant to Section 33-2202, Idaho Code, the Division, through the Administrator for Career Technical Education, is responsible for administering all public CTE programs in Idaho. As such, the Division is authorized to set the process and procedures for establishing approved CTE programs of study. The secondary portion of a program of study is called a pathway and consists of a sequence of courses culminating in a capstone course. Through consultation with industry leaders, postsecondary institutions, and LEAs, the Division establishes program standards to align with industry standards. It is through the standards setting process that the Division develops programs of study for the State of Idaho.

ii. All eligible recipients must verify that special populations have access to all program areas offered in their school through the application process. The Division works with organizations that focus on support for special populations, such as the National Alliance for Partnerships in Equity (NAPE), to help identify and eliminate barriers for special populations to participate in CTE programs.

iii. Successful career technical education programs maintain close ties with business and industry, and must be integrally linked to their communities and the state. Career technical education programs in Idaho are required to incorporate active input from an appropriately qualified business and industry TAC.

An effective TAC reveals local career opportunities, prepares students to enter the workforce, and helps upgrade the skills of workers already employed. The TAC advises the program to ensure it stays up to date in terms of content and training. TAC members also assist in, and advocate for, student, faculty, and program needs. TACs strengthen the working relationships between the career technical education programs and the communities they serve.

TACs at the secondary level are established by a program representative, which is typically the local CTE administrator, teacher, or departmental chairperson. TACs must meet Division guidelines.

c. Describe how the eligible agency will—

i. make information on approved programs of study and career pathways (including career exploration, work-based learning opportunities, early college high schools, and dual or concurrent
enrollment program opportunities) and guidance and advisement resources, available to students (and parents, as appropriate), representatives of secondary and postsecondary education, and special populations, and to the extent practicable, provide that information and those resources in a language students, parents, and educators can understand;

ii. facilitate collaboration among eligible recipients in the development and coordination of career and technical education programs and programs of study and career pathways that include multiple entry and exit points;

iii. use State, regional, or local labor market data to determine alignment of eligible recipients' programs of study to the needs of the State, regional, or local economy, including in-demand industry sectors and occupations identified by the State board, and to align career and technical education with such needs, as appropriate;

iv. ensure equal access to approved career and technical education programs of study and activities assisted under this Act for special populations;

v. coordinate with the State board to support the local development of career pathways and articulate processes by which career pathways will be developed by local workforce development boards, as appropriate;

vi. support effective and meaningful collaboration between secondary schools, postsecondary institutions, and employers to provide students with experience in, and understanding of, all aspects of an industry, which may include work-based learning such as internships, mentorships, simulated work environments, and other hands-on or inquiry-based learning activities; and

vii. improve outcomes and reduce performance gaps for CTE concentrators, including those who are members of special populations. (Section 122(d)(4)(C) of Perkins V)

i. Approved program areas are listed on the Division website. Information is also disseminated at career fairs, student assemblies, and through the Next Steps Idaho website. Next Steps is Idaho’s comprehensive clearinghouse of information and resources pertaining to college and career. The website features a grade-by-grade timeline to help students prepare for life after high school. Resources provided on the website are designed to assist students in exploring careers, obtaining postsecondary credits through advanced opportunities, and inform students of the availability of funding sources for their career development.

Postsecondary institutions provide a course catalog available in hard copy and online. Institutions employ transition coordinators to provide guidance to secondary students seeking to obtain certifications or degrees in their chosen profession. Each coordinator is responsible for disseminating information about available programs to LEAs within the region associated with their postsecondary institution.

Information regarding secondary approved programs of study and associated standards may be found on the Division website.

ii. The state of Idaho supports collaboration through the implementation of horizontal and vertical program alignment, by promoting content alignment to postsecondary career technical programs. Secondary programs of study are the primary focus of alignment with postsecondary CTE programs.
The Division’s annual professional development conference, provides multiple training and collaboration opportunities to foster the development of strong programs. Additionally, it provides the opportunity for ancillary stakeholders to access state level program managers and agency directors that oversee program development and delivery.

Division staff uses the information gathered to help guide agency collaboration efforts throughout the year with key stakeholder groups. These groups include:

- Centers for New Directions.
- Dual Credit and Transition Coordinators.
- Postsecondary Presidents, Provosts, and Deans.
- Department of Corrections.
- Department of Juvenile Corrections.
- Idaho Bureau of Education Services for the Deaf and Blind.
- Department of Education, Special Education Secondary Transition.
- Division of Vocational Rehabilitation.
- High school counselors and college and career advisors.
- Teachers, instructors, and administrators.
- Department of Labor.
- Workforce Training Centers.
- Fire service trainers.
- Local Adult Education directors.

Through Idaho’s advanced opportunities programs, secondary students can participate in programs and courses designed to provide a postsecondary experience or deliver postsecondary level instruction. Most of these programs, when successfully completed, result in secondary students earning postsecondary credits while in high school or when they matriculate to a public Idaho postsecondary institution. These programs require secondary and postsecondary programs to collaborate to assure success.

iii. The Idaho Department of Labor developed a labor market information tool in collaboration with the Division and the WDC. The labor market tool is a sortable database accessible to all recipients that may be used to identify in-demand occupations at the statewide level or refined down to occupations within each region.

iv. The Division works with organizations to focus on support for special populations such as NAPE to help identify and eliminate barriers for special populations to participate in CTE programs.

v. Section 33-2202, Idaho Code, establishes the Idaho State Board for Career Technical Education and the role of the State Administrator for career technical education in Idaho. The State Board, established in Section 33-101, Idaho Code, serves as the Idaho State Board for Career Technical Education. The State Board of Education has governance and oversight over all publicly funded education in Idaho (elementary, secondary, and postsecondary) and is Idaho’s State Education Agency. Section 33-107, Idaho Code, authorizes the Board to approve all non-CTE programs leading to a degree and section 33-2202, Idaho Code authorizes the State Board for Career Technical Education authority to approve CTE programs and set policy for all CTE programs. Through Board Policy III.G. the Board has established the process for the approval and discontinuation of all postsecondary programs. Through this process, the Division reviews and approves programs of study and career pathways aligned with the approved CTE program standards or forwards the requests to the full Board for approval with recommendation.
vi. As part of the new program application process, all new secondary program applications are required to demonstrate the existence of a relevant and participatory TAC. These committees are designed to help ensure program delivery aligns with industry needs and to help provide real world experiences to CTE students as part of their program experience. When possible, secondary programs are encouraged to partner with their postsecondary counterparts to create regional, program specific advisory committees.

The Division requires work-based learning standards in all Idaho programs of study and also requires a Workplace Readiness Assessment.

In addition to the work-based learning courses available in each CTE program of study, the WDC has an initiative tied to work-based learning and established a statewide definition in collaboration with a variety of stakeholders.

The Division provides disaggregated performance data annually for recipient analysis by program of study. Performance gaps will necessitate a performance improvement plan with a description of strategies that will be employed (professional development, micro-messaging, etc.) to address issues. The Division will review, assess, and approve all performance improvement plans.

The Division works with organizations to focus on support for special populations such as NAPE to help identify and eliminate barriers for special populations to participate in CTE programs.

d. Describe how the eligible agency, if it opts to do so, will include the opportunity for secondary school students to participate in dual or concurrent enrollment programs, early college high school, or competency-based education. (Section 122(d)(4)(D) of Perkins V)

Secondary and postsecondary career technical education programs provide opportunities for students to earn college credit as outlined in State Board Advanced Opportunities policies and procedures. The State Board recognizes four advanced opportunities programs. Additionally, Section 33-4602, Idaho Code, establishes the state funded advanced opportunities program. This program provides each Idaho public school student with access to funds to reimburse public schools for the cost of eligible advanced opportunities costs. These include dual credit courses per credit fees, Advanced Placement exams, CLEP exams, CTE exams that lead to an industry-recognized certificate, license, or degree and CTE workforce training courses. The Stat Board has set the dual credit course fee at $75/per credit for courses taken through the high school. Dual credit courses include CTE courses.

In addition, articulation agreements as well as badges awarded in Idaho’s microcredentialing platform, administered by the Division, link secondary career technical education programs and postsecondary programs that may lead to: Microcredentials; Basic Technical Certificate; Intermediate Technical Certificate; Advanced Technical Certificate; or an Associate of Applied Science Degree (A.A.S.). Completion of an A.A.S. degree may lead to a Bachelor of Applied Technology Degree (B.A.T.) or Bachelor of Applied Science Degree (B.A.S.).

The Division is currently aligning all secondary CTE programs of study to postsecondary CTE programs using a microcredentialing system called SkillStack®. SkillStack® is a digital badging and microcredentialing platform that allows Idaho’s educators to validate the skills their students demonstrate proficiency leading to industry-relevant badges and microcredentials. Microcredentials may be stacked. Public postsecondary institutions may then award credits and or credentials through the Board’s established credit for prior learning process.
Program standards are developed for each badge through a collaborative process that engages industry, postsecondary faculty, secondary faculty, and other critical stakeholders. As students provide evidence of the competencies for each skill, educators evaluate the competencies based on common assessments. Once all skills are validated for a particular badge, the information is entered in the SkillStack® platform and badges are issued.

Through Idaho Advanced Opportunities program and credit for prior learning policies, secondary students can receive postsecondary credit for work accomplished during their high school tenure.

Originally, Idaho’s high school, college, university, and workforce training educators were the only individuals allowed to validate skills in SkillStack®. These individuals gain authorization to validate skills upon verification and training from the Division. Since the original Perkins V State Plan, we now have other educational and non-CTE entities using the system.

Employers can search the database for individuals that have been awarded badges aligned to the jobs they are trying to fill. The SkillStack® platform will invite those individuals to learn more about the open position by visiting the company’s website or location where the job is posted.

e. Describe how the eligible agency will involve parents, academic and career and technical education teachers, administrators, faculty, career guidance and academic counselors, local business (including small businesses), labor organizations, and representatives of Indian Tribes and Tribal organizations, as appropriate, in the planning, development, implementation, and evaluation of its career and technical education programs. (Section 122(d)(12) of Perkins V)

In Idaho, the secondary portion of a program of study is called a pathway and consists of a sequence of courses culminating in a capstone course. Capstone courses are primarily limited to juniors and seniors and require Technical Skills Assessments (TSAs) that test a student’s understanding of program standards. The Division, through consultation with industry leaders, postsecondary institutions, and LEAs establishes program standards to align with industry standards, and it is through the standards setting process that the Division develops programs of study for the State of Idaho.

All eligible recipients must verify that special populations have access to all program areas offered in their school through the application process. The Division will work with others to promote and develop resources and training for identifying and eliminating barriers for special populations.

Successful career technical education programs maintain close ties with business and industry and must be integrally linked to their communities and state. Career technical education programs in Idaho are required to incorporate active input for an appropriately qualified business and industry TAC.

An effective TAC reveals local career opportunities, prepares students to enter the workforce, and helps upgrade the skills of workers already employed. The TAC advises the program to ensure it stays up to date in terms of content and training. TAC members also assist in, and advocate for, student, faculty, and program needs. TACs strengthen the working relationships between the career technical education programs and the communities they serve.

TACs at the secondary level are established by a program representative, which is typically the local CTE administrator, teacher, or departmental chairperson. TACs must meet Division guidelines.
f. Include a copy of the local application template that the eligible agency will require eligible recipients to submit pursuant to section 134(b) of Perkins V. See Text Box 4 for the statutory requirements for local applications under section 134(b) of Perkins V.

Copies of the secondary and postsecondary applications are available on the Division’s Educator Portal.

g. Include a copy of the comprehensive local needs assessment template and/or guidelines that the eligible agency will require of eligible recipients to meet the requirements of section 134(c) of Perkins V. See Text Box 5 for the requirements for the comprehensive local needs assessment under section 134(c) of Perkins V.

Copies of the comprehensive local needs assessment template and guidelines are available on the Division’s Educator Portal.

h. Provide the eligible agency’s definition for “size, scope, and quality” that will be used to make funds available to eligible recipients pursuant to section 135(b) of Perkins V.

**SIZE**
As defined by the Division, at the secondary level, means the recipient must offer a minimum of one Division approved program of study aligned to one state authorized CTSO. LEAs can also be in the application process as determined by the Division to be eligible for funding. Individual courses that constitute a program of study should take into consideration the available space, equipment, technology, safety, and teacher to student ratio for a quality student experience.

At the postsecondary level, means a program approved by the Idaho State Board for Career Technical Education in compliance with Board policy III.G, Postsecondary Program Approval and Discontinuance, that meets the enrollment requirements established by the postsecondary institution and offers a recognized postsecondary credential.

**SCOPE**
At the secondary level means a program must provide opportunity for postsecondary advancement as evidenced by: at least opportunity to earn college credits under Idaho’s Advanced Opportunities program; alignment with business and industry needs as identified in the CLNA; rigorous academic and technical skills aligned with challenging academic and CTE standards (including employability skills); a capstone course within a program of study; a recognized industry or postsecondary credential; participation in work based learning experiences; and identifying one of the three definitions of a high skill, high wage, or in demand occupation in their CLNA.

At the postsecondary level means programs that provide opportunities to earn a degree or certificate, including, but not limited to, Basic Technical Certificate (B.T.C.), Intermediate Technical Certificate (I.T.C.), Advanced Technical Certificate (A.T.C.), or Associate of Applied Science degree (A.A.S.) that: aligns with business and industry needs as identified in the CLNA; includes rigorous academic and technical skills aligned with challenging academic and CTE standards; provides work based learning experiences; and leads to a high skill, high wage, or in demand occupation.

**QUALITY**
At the secondary level means an educational program that effectively uses data to inform and improve student success, including closing student equity gaps in access and completion and improving attainment of rigorous academic and technical skills. Secondary CTE concentrators, as defined by the
state, demonstrate acceptable levels of proficiency as measured by TSAs. Authorized CTSOs must align with CTE course curriculum, but are not limited to programs of study offered.

Postsecondary CTE concentrators, as defined by the Division, demonstrate proficiency through earning a degree or certificate (Basic Technical Certificate (B.T.C.), Intermediate Technical Certificate (I.T.C.), Advanced Technical Certificate (A.T.C.), or Associate of Applied Science degree (A.A.S.).

All secondary and postsecondary recipients must complete or update their CLNA at least every two years, have a TAC for each program of study that meets at least once a year, annually submit program data and analysis showing progress toward performance targets, employ faculty that meet the minimum certification requirements as established by the Division, and must connect to an authorized CTSO that is aligned to course curriculum and led by qualified personnel.

3. Meeting the Needs of Special Populations

a. Describe the eligible agency’s program strategies for special populations, including a description of how individuals who are members of special populations—

   i. will be provided with equal access to activities assisted under this Act;

   ii. will not be discriminated against on the basis of status as a member of a special population;

   iii. will be provided with programs designed to enable individuals who are members of special populations to meet or exceed State determined levels of performance described in section 113,

   iv. will be provided with appropriate accommodations; and

   v. will be provided instruction and work-based learning opportunities in integrated settings that support competitive, integrated employment. (Section 122(d)(9) of Perkins V)

i. All eligible recipients must verify that special populations have access to all program areas offered in their school through the application process. The Division works with organizations that focus on support for special populations such as NAPE, to help identify and eliminate barriers for special populations to participate in CTE programs.

ii. Members of special populations enroll in CTE programs in accordance with their individual interests and not on the basis of their status as members of special populations. The local application requires eligible recipients to describe specific strategies that will be used to prevent discrimination against individuals based on their status as member of special populations.

The Division will provide technical assistance to eligible recipients to enable them to identify and overcome barriers to equitable participation for each student, including barriers based on special population, or on gender, race, color, national origin, disability, and age as required by various civil rights laws. Assistance will also be provided to prevent enrolling special population students into specific career technical education programs based on status rather than interests.

iii. The Division will consult with other Idaho agencies related to special populations to gain a deeper understanding of student needs. Agencies will be invited to provide technical assistance in the Division’s efforts to develop and implement training. The Division will provide technical assistance to those agencies.
iv. Secondary and postsecondary programs are required to provide reasonable accommodations in accordance with Individuals with Disabilities Education Act (IDEA)

v. The Division has connected with the Division of Vocational Rehabilitation and other statewide agencies. The Division works with these agencies to promote interagency collaboration between local Perkins recipients and agencies who serve special populations.

4. Preparing Teachers and Faculty

a. Describe how the eligible agency will support the recruitment and preparation of teachers, including special education teachers, faculty, school principals, administrators, specialized instructional support personnel, and paraprofessionals to provide career and technical education instruction, leadership, and support, including professional development that provides the knowledge and skills needed to work with and improve instruction for special populations. (Section 122(d)(6) of Perkins V)

The Division provides professional development opportunities for teachers, faculty, school leaders, and other CTE professionals to build their capacity to use competency-based models. LEA’s and postsecondary institutions are encouraged to use Perkins funds to support professional development as defined in the Act (page 5).

The Division works to ensure that school counselors and college and career advisors are equipped to help students understand the value of acquiring workplace readiness and leadership skills including: creative literacy, critical thinking, collaboration, technology, and communication skills. They will also help students take advantage of learning in applied settings, such as work-based learning, including school-based simulated work sites, mentoring, work site visits, job shadowing, project-based learning, and skills-based and paid internships. OSBE collaborates with the Division to provide resources and tools for teachers, school counselors and college and career advisors and other educators to help all students improve instruction and support college and career readiness through the Next Steps Idaho website in alignment with the state college and career readiness competencies.

The Division provides professional development through Leadership Institution. Leadership Institute is a professional development program delivered through the Division that prepares the next generation of district and state career technical education leaders. It is designed to produce forward-thinking and change-oriented leaders through a three-year professional development program. The program consists of three basic components: (1) CTE governance; (2) policy and advocacy; and (3) personal leadership development.

The Division offers new teacher training in several layers to completely support new teachers who enter the classroom directly from industry. These individuals are issued a three-year nonrenewal limited occupational specialist (LOS) teaching certificate for their first three years in the classroom while earning their standard teaching certificate. Components of the new teacher training program are: (1) Pre-service Academy, which is an online training to instruct new teachers in Idaho’s teacher standards, (2) First Camp and First Camp OA (occupational analysis), (3) prescribed teacher training offer through three different formats/platforms, which the new teachers can choose, and (4) a mentoring and coaching program. The teacher training program consists of:

1. Pre-service Academy: This self-paced program is offered completely online. It instructs new teachers in the foundational standards for Idaho teachers.
2. First Camp and First Camp OA: First Camp is a four-day intensive training intended to cover many of the “firsts” of a new teacher’s experience. It embarks on the topics they will learn in more depth through their teacher training such as pedagogy, classroom management, instructional planning, and so forth. First Camp OA is a training offered during their second year intended to cover occupational analysis to help new teachers take the content they know from their industry background and turn it into curriculum.

3. Teacher training: New teachers complete a training program of their choice to learn about the learner, pedagogy, classroom management, planning for instruction, and other necessary components of teaching. One option is to complete 12 credits of prescribed university coursework. Another option is to participate in the InSpIRE Ready! program, which is underwritten by the Division. InSpIRE Ready! stands for Industry Specialist Integrating Real-world Experience. Secondary teachers complete the Non-traditional Teacher Preparation Program offered through the College of Southern Idaho. Postsecondary teachers complete a prescribed list of courses offered through CTE Learn, which is the education arm of the Association for Career Technical Education (ACTE).

4. Mentor program: During the first three years while teachers are awarded a three-year LOS certificated. The Division provides a mentor/coach who observes their teaching at least once per semester, provides feedback and coaching, and helps them through their certification process. Mentors are not evaluative, only supportive.

The Division hosts an annual summer conference that provides workshops in broad, overlapping areas such as CTE and academic integration, linking secondary and postsecondary education, workforce development, career advising, quality program improvement, program promotion and management, and current industry-based skill standards.

The Division works with organizations that focus on support for special populations such as NAPE to help identify and eliminate barriers for special populations to participate in CTE programs.

**Narrative Descriptions – Fiscal Responsibility**

1. Describe the criteria and process for how the eligible agency will approve eligible recipients for funds under this Act, including how—

   a. each eligible recipient will promote academic achievement;

   b. each eligible recipient will promote skill attainment, including skill attainment that leads to a recognized postsecondary credential; and

   c. each eligible recipient will ensure the local needs assessment under section 134 takes into consideration local economic and education needs, including, where appropriate, in-demand industry sectors and occupations. (Section 122(d)(5) of Perkins V)

Local applications and CLNAs are two separate documents used to inform projects funded through the Act. Project descriptions and budgets must be submitted on an annual basis and must include information on how needs identified in the CLNA determined which projects to fund. All applications go through a two step process of approval. Recipients must be approved through a local application.

Applications and CLNAs will be reviewed by Program Quality Managers, the Program Director of Perkins and Methods of Administration, and other Division personnel as applicable. Reviews assess:
- The recipient’s qualifying program of study.
- The accuracy of the list of programs of study in the application.
- Presence, accuracy, and reasonableness of the information as required by section 134 of the Act.

Project descriptions and budgets will be reviewed by Program Quality Managers, the Program Director of Perkins and Methods of Administration, and other Division personnel as applicable to determine:

- Connectivity to the application and CLNA.
- Completeness of project.
- Allowability and accuracy of proposed project budgets.

Eligible recipients must offer CTE programs that include rigorous, sequential CTE content aligned with state content standards as applicable to the program area.

Programs of study must meet the Division standards and will be evaluated on a regular basis by Program Quality Managers assigned to one of the seven (7) discipline areas. All secondary concentrators must demonstrate industry-determined levels of proficiency as measured by TSAs.

Postsecondary concentrators demonstrate proficiency through any of the following: earning a microcredential; Basic Technical Certificate; Intermediate Technical Certificate; Advanced Technical Certificate; or an Associate of Applied Science Degree (A.A.S.) Completion of an A.A.S. degree may lead to a Bachelor of Applied Technology Degree (B.A.T.) or Bachelor of Applied Science Degree (B.A.S.).

2. Describe how funds received by the eligible agency through the allotment made under section 111 of the Act will be distributed—

   a. among career and technical education at the secondary level, or career and technical education at the postsecondary and adult level, or both, including how such distribution will most effectively provide students with the skills needed to succeed in the workplace; and

   b. among any consortia that may be formed among secondary schools and eligible institutions, and how funds will be distributed among the members of the consortia, including the rationale for such distribution and how it will most effectively provide students with the skills needed to succeed in the workplace. (Section 122(d)(8) of Perkins V)

Funds made available under Section 111 of the Act will be allocated to both secondary and postsecondary career technical education programs. Of the funds available under Section 112(a)(1), 15 percent will be reserved in accordance with Section 112(c). The remaining funds will be allocated 65 percent to secondary education recipients and 35 percent to postsecondary education recipients.

Idaho’s allocation of funds to secondary and postsecondary recipients reflects historical data analysis with a basis in career technical education full-time equivalent (FTE) positions funded by both State and Federal agencies.

Idaho encourages any LEA, including public charter schools, not meeting the minimum allocation amount of $15,000 (Sec. 131(c)(1)) to enter into a consortium with other LEAs for the purpose of meeting the minimum allocation amount. LEAs, in accordance with Section 131(f)(1) of the Act, are encouraged to operate programs that are of sufficient size, scope, and quality to be effective.
or to participate in a Career Technical Center. Funds distributed to individual LEAs within the consortium must be pooled to meet the minimum allocation requirement. Funds shall be used only for purposes and projects mutually beneficial to all consortium members. Such funds may not be reallocated to individual members of the consortium for purposes or projects benefiting only one member of the consortium.

Waivers of the minimum allocation amount will only be granted in those instances where the LEA has an approved program of study that is of sufficient size, scope, and quality, and can demonstrate they are unable to enter into a consortium agreement. Documentation of the attempt(s) to enter into an agreement will be required. Waivers are based on the LEA’s ability to enter into an agreement.

Postsecondary institutions must meet the $50,000 minimum allocation amount (Sec. 132(c)(1)) to be eligible for Perkins funds.

Allocation amounts are calculated in accordance with section 131(a)-(e). Reserve fund amounts are provided for those districts designated as rural or remote. Values are based on the initial assumption that all local education agencies have a program of study and may be used to help determine if a program of study is appropriate. Final funding distributions are made to local education agencies with an approved program or an approved plan to start a program. Allocations will be updated annually to reflect the Idaho allotment amount as determined by the US Secretary of Education.

3. Describe how the eligible agency will adjust the data used to make the allocations to reflect any changes in school district boundaries that may have occurred since the population and/or enrollment data was collected, and include local education agencies without geographical boundaries, such as charter schools and secondary schools funded by the Bureau of Indian Education. (Section 131(a)(3) of Perkins V)

The Division will update data annually based on the US Census data and state enrollment data to verify eligible local education agencies. This includes local education agencies without geographic borders by using actual enrollment and population data based on a percentage of the local population.

Idaho charter schools may be authorized through the Idaho Public Charter School Commission or authorized by a school district Board of Trustees. Charter schools approved by the Idaho Public Charter School Commission are separate local education agencies with attendance areas that may overlap multiple school district boundaries. Charter schools authorized by a school district may be identified as separate local education agencies, however, their attendance boundaries fall within the authorizing school district's boundaries. Virtual charter schools are approved by the Idaho Public Charter School Commission and attendance area covers the entire state.

For purposes of Perkins V funds, charter schools authorized by the school district board of trustees are considered to be the same as all other schools within the school district. Charter schools operating approved career technical education programs that are authorized by the Idaho Public Charter School Commission may qualify for separate allocations.

4. If the eligible agency will submit an application for a waiver to the secondary allocation formula described in section 131(a)—

a. include a proposal for such an alternative formula; and
b. Describe the process and criteria to be used for approving locally developed programs of study or career pathways (see Text Box 3 for the statutory definition of career pathways under section 3(8) of Perkins V), including how such programs address State workforce development and education needs and the criteria to assess the extent to which the local application under section 1328 will—

Also indicate if this is a waiver request for which you received approval under the prior Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV).

Idaho is not requesting a waiver at this time.

5. If the eligible agency will submit an application for a waiver to the postsecondary allocation formula described in section 132(a)—

a. include a proposal for such an alternative formula; and

b. describe how the formula does not result in a distribution of funds to the eligible institutions or consortia with the State that have the highest numbers of economically disadvantaged individuals and that an alternative formula will result in such a distribution. (Section 132(b) of Perkins V)

Also indicate if this is a waiver request for which you received approval under the prior Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV).

Idaho is not requesting a waiver at this time.

6. If the eligible agency will award reserve funds to eligible recipients under section 112(c) of Perkins V, describe the process and criteria for awarding those funds.

Secondary eligible recipients

The Division reserves funds in accordance with Section 112(c) of Perkins V to carry out multiple functions. Primarily, funds will be used to bring rural and remote secondary recipients with a program of study of sufficient size, scope, and quality, to a minimum level of funding. Each rural school district will receive a minimum of $7,500 and each remote district will receive a minimum of $15,000 in order to promote the development, implementation, and adoption of programs of study. Rural districts receiving less than the minimum amount are encouraged to enter a consortium agreement with at least one other district to meet the eligibility funding level established by Perkins V of $15,000 (Section 131(c)(1)). Remote districts are not required to enter into a consortium, but may choose to do so.

Waivers to the minimum allocation amount will only be granted in those instances where the LEA has an approved program of study that is of sufficient size, scope, and quality, and can demonstrate they are unable to enter into a consortium agreement. Documentation of the attempt(s) to enter into an agreement will be required. Waivers are based on the LEA’s ability to enter into an agreement, not their willingness.

Postsecondary eligible recipients
A portion of reserve funds will be used to facilitate the transition of career technical education students from secondary to postsecondary programs. Transition projects for reserve funds must be submitted annually.

Remaining funds will be used for additional projects as determined by the Division.

Postsecondary recipients may receive reserve funds for approved CTE programs as long as they meet at least one of the following criteria in each subsection below:

1) in—
   a) rural areas;
   b) areas with high percentages of CTE concentrators or CTE participants;
   c) areas with high numbers of CTE concentrators or CTE participants;
   d) areas with disparities or gaps in performance as described in section 113(b)(3)(C)(ii)(II); and

2) in order to—
   a) foster innovation through the identification and promotion of promising and proven career technical education programs, practices, and strategies, which may include programs, practices, and strategies that prepare individuals for nontraditional fields; or
   b) promote the development, implementation, and adoption of programs of study or career pathways aligned with State-identified high-skill, high-wage, or in-demand occupations or industries.

Purpose of Transition Funds

1) Transition secondary career technical students to postsecondary CTE programs.
2) Primary focus on student access to advanced opportunities that directly benefits a student’s postsecondary goals and reduces cost of obtaining a postsecondary credential.
3) This project will commit to the equivalent of at least one (1) full-time position for the oversight of the project.

7. Provide the State’s fiscal effort per student, or aggregate expenditures for the State, that will establish the baseline for the Secretary’s annual determination on whether the State has maintained its fiscal effort, and indicate whether the baseline is a continuing level or new level. If the baseline is new, please provide the fiscal effort per student, or aggregate expenditures for the State, for the preceding fiscal year. (Section 211(b)(1)(D) of Perkins V)

The Division maintains effort in aggregate expenditures and reports these expenditures on the Consolidated Annual Report. The baseline is a continuing level determined annually from the prior fiscal year’s appropriation.

Narrative Descriptions – Accountability for Results

1. Identify and include at least one (1) of the following indicators of career and technical education program quality—
   a. the percentage of CTE concentrators (see Text Box 6 for the statutory definition of a CTE concentrator under section 3(12) of Perkins V) graduating from high school having attained a recognized postsecondary credential;
   b. the percentage of CTE concentrators graduating high school having attained postsecondary credits in relevant career and technical education programs and programs of study earned through a dual or concurrent enrollment program or another credit transfer agreement; and/or
c. the percentage of CTE concentrators graduating from high school having participated in work-based learning. (Section 113(b)(2)(A)(iv)(I) of Perkins V)

Include any other measure(s) of student success in career and technical education that are statewide, valid, and reliable, and comparable across the State. (Section 113(b)(2)(A)(iv)(II) of Perkins V) Please note that inclusion of “other” program quality measure(s) is optional for States.

Provide the eligible agency’s measurement definition with a numerator and denominator for each of the quality indicator(s) the eligible agency selects to use.

Idaho is using the following indicators of CTE program quality: 1.b

Idaho has determined the percentage of CTE concentrators graduating high school having attained postsecondary credits as one of the indicators of program quality.

Numerator: The number of CTE concentrators who graduated from high school having attained postsecondary credits in the relevant CTE program of study earned through a dual credit or another credit transfer agreement.

Denominator: The number of CTE concentrators who graduated from high school.

ISEE: Count of CTE concentrators having College Credit issued in their relevant CTE program of study. At this time, the Division is unable to use OSBE data for credits earned since credits could be earned in a variety of classes (ex. Spanish).

SkillStack®: Includes stacked microcredentials through the Board’s established credit for prior learning process.

Idaho has also selected the applicable TSA as a measure of student success as a statewide, valid, and reliable assessment that is comparable across the State.

Numerator: The number of CTE concentrators who passed the TSA during the reporting year.

Denominator: The number of CTE concentrators who took the TSA during the reporting year.

The Division will calculate participation rates separately from federal measures. For students that left school or had a schedule change, they will be excluded from the participation rate.

Data Source/Criteria
ISEE: Student demographics (gender, race, special populations)

CTECS (assessment vendor): Provide pass rates, includes retake score.

Idaho does not currently have reliable systems for tracking performance indicators related to recognized postsecondary credential attainment or work-based learning participation. A statewide work-based learning system is in the early stages of development and may provide more opportunities for assessing program quality in the future.
2. Provide on the form in Step 4b, for each year covered by the State plan beginning in FY 2024, State determined performance levels or each of the secondary and postsecondary core indicators, with the levels of performance being the same for all CTE concentrators in the State. (Section 113(b)(3)(A)(I) of Perkins V)

3. Describe the procedure the eligible agency adopted for determining State determined levels of performance described in section 113 of Perkins V, which at a minimum shall include—

   a. a description of the process for public comment under section 113(b)(3)(B) of Perkins V as part of the development of the State determined levels of performance (see Text Box 7 for the statutory requirements for consultation on State determined performance levels under section 113(b)(3)(B) of Perkins V);

   b. an explanation for the State determined levels of performance that meet each of the statutory requirements in Text Box 8; and

   c. a description of how the State determined levels of performance set by the eligible agency align with the levels, goals and objectives other Federal and State laws, (Section 122(d)(10) of Perkins V).

As part of the procedures for determining State determined levels of performance, describe the process that will be used to establish a baseline for those levels.

In the spring of 2019, the Division began outreach efforts with a discussion of performance measure definitions and the selection of which quality of program measure Idaho would use for secondary concentrators. In October of 2019, based on feedback received from stakeholders, the Division selected postsecondary credits as our quality measure. Measurement Guides were developed in November based on feedback before analyzing baseline data in December. Baseline data includes an average of two to four years of data, depending on the specific measure. Secondary baseline data for academic achievement is dependent upon data entered into the statewide system in compliance with federal and state code, including demographic information.
In January 2020, the Division finalized baseline performance levels and announced the opening of the public comment period by email to stakeholders and posting to the Division website. The Division’s winter outreach included a workshop for secondary and postsecondary stakeholders to assist in the review and analysis of their individualized data reports, including a reminder of the timeline for public comment periods for performance levels and the state plan.

In January 2024, the Division updated baseline measures using data collected over the prior three school years (20/21 to 22/23) and proposed State determined performance levels for the next four years. This was announced along with the public comment period as part of the revised State Plan. Secondary and postsecondary programs were provided the proposed baseline measures and given an opportunity to provide additional comment. The Division will be reviewing recipient’s individualized reports for the CLNA and disaggregated data analysis.

4. Provide a written response to the comments regarding State determined performance levels received during the public comment period pursuant to section 113(b)(3)(B) of Perkins V. (Section 113(b)(3)(B)(iii) of Perkins V).

As part of the written response, include a description of any the changes made to the State determined performance levels as a result of stakeholder feedback.

Comments for the 2024 Idaho State Plan are found in Appendix A.

5. Describe how the eligible agency will address disparities or gaps in performance as described in section 113(b)(3)(C)(ii)(II) of Perkins V in each of the plan years, and if no meaningful progress has been achieved prior to the third program year, a description of the additional actions the eligible agency will take to eliminate these disparities or gaps. (Section 122(d)(11) of Perkins V)

As part of the written response, and pursuant to the Report of the Senate Committee on Health, Education, Labor, and Pensions (HELP), the eligible agency could indicate that it will analyze data on the core indicators of performance to identify gaps in performance, explain how they will use evidence-based research to develop a plan to provide support and technical assistance to eligible recipients to address and close such gaps, and how they will implement this plan. The eligible agency is not required to submit a new State plan prior to the third program year in order to address this requirement.

The Division uses evidence-based research to provide technical assistance to address disparities and gaps in performance.
GLOSSARY

CAREER AND TECHNICAL STUDENT ORGANIZATION (CTSO) (Perkins Sec. 3.6)
An organization for individuals enrolled in a career and technical education program that engages in career and technical education activities as an integral part of the instructional program.

CAREER PATHWAY (Perkins Sec. 3.8)
The term “career pathways” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).
(Workforce Innovation and Opportunity Act (WIOA) Sec. 3.7)
(7) CAREER PATHWAY. —The term “career pathway” means a combination of rigorous and high-quality education, training, and other services that—
(A) aligns with the skill needs of industries in the economy of the State or regional economy involved;
(B) prepares an individual to be successful in any of a full range of secondary or postsecondary education options, including apprenticeships registered under the Act of August 16, 1937 (commonly known as the “National Apprenticeship Act”; 50 Stat. 664, chapter 663; 29 U.S.C. 50 et seq.) (referred to individually in this Act as an “apprenticeship”, except in section 171);
(C) includes counseling to support an individual in achieving the individual’s education and career goals;
(D) includes, as appropriate, education offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster;
(E) organizes education, training, and other services to meet the particular needs of an individual in a manner that accelerates the educational and career advancement of the individual to the extent practicable;
(F) enables an individual to attain a secondary school diploma or its recognized equivalent, and at least 1 recognized postsecondary credential; and
(G) helps an individual enter or advance within a specific occupation or occupational cluster.

CLUSTER PROGRAM (SBOE Policy VII.B.2.)
As defined by the Board policy, cluster program: provides introductory and intermediate courses as an introduction to a career technical area and the opportunity to learn workplace readiness expectations.
i. Consist of a variety of foundational and intermediate courses within a single Career Cluster. The program does not culminate in a capstone course.
ii. Offer a program that is three or more semesters (or the equivalent) in length.
iii. Demonstrate a strong career/workplace readiness skills alignment.
iv. Participate in a related Career Technical Student Organization.
v. Maintain an active Technical Advisory Committee to guide program development and foster industry engagement.
vi. Require a nationally validated, industry-based Workplace Readiness Assessment created to evaluate skills and attitudes needed for success in the workplace administered by an approved developer as part of the program.

CREDIT TRANSFER AGREEMENT (Perkins Sec. 3.11)
A formal agreement, such as an articulation agreement, among and between secondary and postsecondary education institutions or systems that grant students transcripted postsecondary credit, which may include credit granted to students in dual or concurrent enrollment programs or early college high school, dual credit, articulated credit, and credit granted on the basis of performance on technical or academic assessments.
(A) at the secondary school level, a student served by an eligible recipient who has completed at least 2 courses in a single career and technical education program or program of study; and
(B) at the postsecondary level, a student enrolled in an eligible recipient who has—
(i) earned at least 12 credits within a career and technical education program or program of study; or
(ii) completed such a program if the program encompasses fewer than 12 credits or the equivalent in total.

CTE PARTICIPANT (Perkins Sec. 3.13)
An individual who completes not less than one course in a career and technical education program or program of study of an eligible recipient.

DISPLACED HOMEMAKER (Workforce Innovation and Opportunity Act (WIOA) Sec. 3.16)
An individual who has been providing unpaid services to family members in the home and who has been dependent on the income of another family member but is no longer supported by that income; or is the dependent spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment a call or order to active duty, a permanent change of station, or the service-connected death or disability of the member; and is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

DUAL OR CONCURRENT ENROLLMENT (DUAL CREDIT) PROGRAM (Perkins Sec. 3.15)
The term “dual or concurrent enrollment program” has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965. (Elementary and Secondary Education Act of 1965 (ESEA) Sec. 8101.15)
A program offered by a partnership between at least one institution of higher education and at least one local educational agency through which a secondary school student who has not graduated from high school with a regular high school diploma is able to enroll in one or more postsecondary courses and earn postsecondary credit that—
(A) is transferable to the institutions of higher education in the partnership; and
(B) applies toward completion of a degree or recognized educational credential as described in the Higher Education Act of 1965 (20 U.S.C. 1001 et seq.).

ELIGIBLE INSTITUTION (Perkins Sec. 3.20)
(A) A consortium of 2 or more entities described in subparagraphs (B) through (F):
(B) a public or nonprofit private institution of higher education that offers and will use funds provided under this title in support of career and technical education courses that lead to technical skill proficiency or a recognized postsecondary credential, including an industry-recognized credential, a certificate, or an associate degree, except that, for the purpose of section 132, the term “recognized postsecondary credential” as used in this subparagraph shall not include a baccalaureate degree;
(C) a local educational agency providing education at the postsecondary level;
(D) an area career and technical education school providing education at the postsecondary level;
(E) an Indian Tribe, Tribal organization, or Tribal education agency that operates a school or may be present in the State;
(F) a postsecondary educational institution controlled by the Bureau of Indian Education or operated by or on behalf of any Indian Tribe that is eligible to contract with the Secretary of the Interior for the
administration of programs under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5301 et seq.) or the Act of April 16, 1934 (25 U.S.C. 5342 et seq.); 
(G) a tribally controlled college or university; or 
(H) an educational service agency.

ELIGIBLE RECIPIENT (Perkins Sec. 3.21) 
(A) A local educational agency (including a public charter school that operates as a local educational agency), an area career and technical education school, an Indian Tribe, Tribal organization, or Tribal education agency or consortium, eligible to receive assistance under 131; or 
(B) an eligible institution or consortium of eligible institution eligible to receive assistance under section 132.

ENGLISH LEARNER (Perkins Sec. 3.22) 
(A) a secondary school student who is an English learner, as defined in section 8101 of the Elementary and Secondary Education Act of 1965; or 
(B) an adult or an out-of-school youth who has limited ability in speaking, reading, writing, or understanding the English language and—
   (i) whose native language is a language other than English; or 
   (ii) who lives in a family environment or community in which a language other than English is the dominant language.

HIGH-SKILL (Division defined) 
A program that leads to a career that uses an industry validated curriculum meeting standards developed by educators and industry under direction of the Division with multiple entry and exit points resulting in industry recognized certificates, credentials, degrees or apprenticeships beyond a high school diploma.

HIGH-WAGE (Division defined) 
A career provides a wage that meets or exceeds the county average wage.

IN-DEMAND INDUSTRY SECTOR OR OCCUPATION (Perkins Sec. 3.26) 
The term “in-demand industry sector or occupation” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

(Workforce Innovation and Opportunity Act (WIOA) Sec. 3.7) 
(A) IN GENERAL.—The term “in-demand industry sector or occupation” means—
   (i) an industry sector that has a substantial current or potential impact (including through jobs that lead to economic self-sufficiency and opportunities for advancement) on the State, regional, or local economy, as appropriate, and that contributes to the growth or stability of other supporting businesses, or the growth of other industry sectors; or 
   (ii) an occupation that currently has or is projected to have a number of positions (including positions that lead to economic self-sufficiency and opportunities for advancement) in an industry sector so as to have a significant impact on the State, regional, or local economy, as appropriate.

INDIVIDUAL WITH A DISABILITY (Perkins Sec. 3.28) 
(A) An individual with any disability as defined in section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102). 
(B) INDIVIDUALS WITH DISABILITIES. —The term ‘individuals with disabilities” means more than 1 individual with a disability.
INSTITUTION OF HIGHER EDUCATION (Perkins Sec. 3.30)
The term “institution of higher education” has the meaning given the term in section 101 of the Higher Education Act of 1965.

LOCAL EDUCATIONAL AGENCY (Perkins Sec. 3.32)
The term “local educational agency” (LEA) has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965.

NON-TRADITIONAL FIELDS (Perkins Sec. 3.33)
Occupations or fields of work, such as careers in computer science, technology, and other current and emerging high skill occupations, for which individuals from one gender comprise less than 25 percent of the individuals employed in each such occupation or field of work.

OUT-OF-SCHOOL YOUTH (Perkins Sec. 3.35)
The term “out-of-school youth” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

OUT-OF-WORKFORCE INDIVIDUAL (Perkins Sec. 3.36)
(A) An individual who is a displaced homemaker, as defined in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102); or
(B) an individual who—
   (i) has worked primarily without remuneration to care for a home and family, and for that reason has diminished marketable skills, or
   (II) is a parent whose youngest dependent child will become ineligible to receive assistance under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.) not later than 2 years after the date on which the parent applies for assistance under such title; and is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

PARAPROFESSIONAL (Perkins Sec. 3.37)
The term “paraprofessional” has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965. (Elementary and Secondary Education Act of 1965 (ESEA) Sec. 8101.37)
The term “paraprofessional”, also known as a “paraeducator”, includes an education assistant and instructional assistant.

PATHWAY PROGRAM (SBOE Policy VII.C.)
A pathway program provides specific career area occupational preparation, the opportunity to learn workplace readiness expectations, and the knowledge and skill development required to transition into a similar postsecondary program.

POSTSECONDARY EDUCATIONAL INSTITUTION (Perkins Sec. 3.39)
(A) An institution of higher education that provides not less than a 2-year program of instruction that is acceptable for credit toward a bachelor’s degree;
(B) a tribally controlled college or university; or
(C) a nonprofit educational institution offering certificate or other skilled training programs at the postsecondary level.

PROFESSIONAL DEVELOPMENT (Perkins Sec. 3.40)
The term “professional development” means activities that—
(A) are an integral part of eligible agency, eligible recipient, institution, or school strategies for providing educators (including teachers, principals, other school leaders, administrators, specialized instructional support personnel, career guidance and academic counselors, and paraprofessionals) with the knowledge and skills necessary to enable students to succeed in career and technical education, to meet challenging State academic standards under section 1111(b)(1) of the Elementary and Secondary Education Act, or to achieve academic skills at the postsecondary level; and

(B) are sustained (not stand-alone, 1-day, or short-term workshops), intensive, collaborative, job-embedded, data-driven, and classroom focused, to the extent practicable evidence-based, and may include activities that—

(i) improve and increase educator’—
   (I) knowledge of the academic and technical subjects;
   (II) understanding of how students learn; and
   (III) ability to analyze student work and achievement from multiple sources, including how to adjust instructional strategies, assessments, and materials based on such analysis;

(ii) are an integral part of eligible recipients’ improvement plans;

(iii) allow personalized plans for each educator to address the educator’s specific needs identified in observation or other feedback;

(iv) support the recruitment, hiring, and training of effective educators, including educators who became certified through State and local alternative routes to certification;

(v) advance educator understanding of—
   (I) effective instructional strategies that are evidence-based; and
   (II) strategies for improving student academic and technical achievement or substantially increasing the knowledge and teaching skills of educators;

(vi) are developed with extensive participation of educators, parents, students, and representatives of Indian Tribes (as applicable), of schools and institutions served under this Act;

(vii) are designed to give educators of students who are English learners in career and technical education programs or programs of study the knowledge and skills to provide instruction and appropriate language and academic support services to those students, including the appropriate use of curricula and assessments;

(viii) as a whole, are regularly evaluated for their impact on increased educator effectiveness and improved student academic and technical achievement, with the findings of the evaluations used to improve the quality of professional development;

(ix) are designed to give educators of individuals with disabilities in career and technical education programs or programs of study the knowledge and skills to provide instruction and academic support services to those individuals, including positive behavioral interventions and supports, multi-tier system of supports, and use of accommodations;

(x) include instruction in the use of data and assessments to inform and instruct classroom practice;

(xi) include instruction in ways that educators may work more effectively with parents and families;

(xii) provide follow-up training to educators who have participated in activities described in this paragraph that are designed to ensure that the knowledge and skills learned by the educators are implemented in the classroom;

(xiii) promote the integration of academic knowledge and skills and relevant technical knowledge and skills, including programming jointly delivered to academic and career and technical education teachers; or

(xiv) increase the ability of educators providing career and technical education instruction to stay current with industry standards.
PROGRAM OF STUDY (Perkins Sec. 3.41)
A coordinated, nonduplicative sequence of academic and technical content at the secondary and postsecondary level that—
(A) incorporates challenging State academic standards, including those adopted by a State under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965;
(B) addresses both academic and technical knowledge and skills, including employability skills;
(C) is aligned with the needs of industries in the economy of the State, region, Tribal community, or local area;
(D) progresses in specificity (beginning with all aspects of an industry or career cluster and leading to more occupation-specific instruction);
(E) has multiple entry and exit points that incorporate credentialing; and
(F) culminates in the attainment of a recognized postsecondary credential.

RECOGNIZED POSTSECONDARY CREDENTIAL (Perkins Sec. 3.43)
The term “recognized postsecondary credential” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102). The term “recognized postsecondary credential” means a credential consisting of an industry-recognized certificate or certification, a certificate of completion of an apprenticeship, a license recognized by the State involved or Federal Government, or an associate or baccalaureate degree.

REMOTE SCHOOL DISTRICT (Division defined)
A rural district isolated from the other districts of the state because of geographical or topographical conditions. Districts are considered remote when the distance between district offices is equal to or greater than 25 miles on a continuous all-weather surface road.

RURAL SCHOOL DISTRICT (Idaho Code §33-319)
(1) A school district shall be considered a rural school district if it meets one (1) of the following two criteria:
   (a) There are fewer than twenty (20) enrolled students per square mile within the area encompassed by the school district’s boundaries; or
   (b) The county in which a plurality of the school district’s market value for assessment purposes is located contains less than twenty-five thousand (25,000) residents, based on the most recent decennial United States census.
(2) A public charter school shall be considered a rural public charter school if the school district in which the public charter school is physically located meets the definition of a rural school district, pursuant to subsection (1) of this section. A public charter school that is also a virtual school shall be considered a rural public charter school if over fifty percent (50%) of its enrolled students reside within school districts that meet the definition of a rural school district pursuant to subsection (1) of this section.

SPECIAL POPULATIONS (Perkins Sec. 3.48)
The term “special populations” means—
(A) individuals with disabilities;
(B) individuals from economically disadvantaged families, including low-income youth and adults;
(C) individuals preparing for non-traditional fields;
(D) single parents, including single pregnant women;
(E) out-of-workforce individuals;
(F) English learners;
(G) homeless individuals described in section 725 of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a);
(H) youth who are in, or have aged out of, the foster care system; and
(I) youth with a parent who—
   (i) is a member of the armed forces (as such term is defined in section 101(a)(4) of title 10, United States Code); and
   (ii) is on active duty (as such term is defined in section 101(d)(1) of such title).

WORK-BASED LEARNING (Perkins Sec. 3.55)
Sustained interactions with industry or community professionals in real workplace settings, to the extent practicable, or simulated environments at an educational institution that foster in-depth, firsthand engagement with the tasks required in a given career field, that are aligned to curriculum and instruction.
APPENDIX A

PUBLIC COMMENTS RECEIVED

The following public comments were received on the Idaho State Plan Perkins V. There were no relevant public comments noted during the public hearing which took place on February 7, 2024.

From: Leanne Kendall
Sent: Tuesday, January 30, 2024 8:15 AM
To: Stakeholder Input <Stakeholderinput@cte.idaho.gov>
Subject: CTE feedback

I appreciate all you do to grow our Career Technical Education Programs. I have seen first hand how they truly impact students' lives for the better. My only feedback is that I think they need to pay instructors more so that they can get qualified, quality people that stay teaching. People can make way more working in industry and I think the wages for teachers need to be more competitive.

Thank you for your consideration.

IDCTE: Thank you for your comment.

From: Brian Sullivan <bsullivan@caldwellschools.org>
Sent: Tuesday, January 30, 2024 8:40 AM
To: Stakeholder Input <Stakeholderinput@cte.idaho.gov>
Subject: Re: We're now accepting public comments on the Perkins V State Plan

Good Morning Mr. Long,
With the changes coming, I am wondering if Perkins funds can now be used for CTSO costs since we cannot charge students for required items and all CTSO's have fees, events, travel etc involved. If so, how would this work?
Thank you and have a good day

IDCTE: Thank you for your comment. Perkins V allows for career technical student organization costs. More information regarding allowable costs can be found in IDCTE resources.

From: Kyle Stapleton

Subject: Perkins V State Plan

To whom it may concern,
My name is Kyle Stapleton and I teach Agriculture Science and Technology at Nezperce High School in Nezperce, ID. I would like to thank you for opening up comments about the current Perkins V State Plan. In 2018-2019, Idaho CTE worked with the different CTE programs in the state. However, a lot of small rural schools' concerns about the plan fell on deaf ears. The way the plan was written required CTE programs to initiate a pathway into their program and required students to take a capstone course followed by a Technical Skill Assessment. I completely understand this concept for a large school district that can provide specific classes to follow a pathway. However, small rural schools in Idaho struggle to only teach those classes in a specific pathway. We are negating other possibilities for students by doing this. I liken the concept to a foot-wide, mile-deep education. Let me explain. If I teach an animal science pathway, students are required to take an introductory course, an intermediate course, and a capstone course only in that pathway. Therefore, it limits opportunities for students who do not want to follow that specific pathway. We lose enrollment in CTE programs by doing this. Those students are going deeper into animal science than students who may take an animal science class to capture a science credit or to see if animal science interests them. In Nezperce, we offer chemistry to juniors and seniors on alternating years as well as botany and zoology on alternating years. Students have to choose between taking chemistry or botany or physics and zoology. Therefore, students have to choose as a junior and senior on which science credits they would like to obtain. You might say it is a scheduling problem but that is the only way it can work with limited teachers and limited students. We have tried to correct the situation but it just won't work in a small rural town.

Myself, my Technical Advisory Committee, and Administration prefer the mile-wide foot-deep education at the high school level. We want to provide as many classes as possible to the different students to provide possible interest in agriculture. By limiting the classes that can be offered because of a pathway, we are limiting the different opportunities students can scratch the surface in to see if they are interested in that agricultural avenue: the more classes taught, the more chances of gaining interest in agriculture.

As it is now, I have an agriculture leadership and communications pathway and am teaching the corresponding capstone course. After doing surveys with students, I had one student interested in learning more about agriculture leadership and communications. Thus, limiting 11 other students from potential other learning avenues. I had students interested in Agriculture Sales, Agriculture Marketing, Botany, and others. However, because of the specific pathway, 11 students are taking the class to obtain an agriculture class to remain in FFA when they could be taking a class that potentially creates a career pathway. Therefore, it would be best for small rural schools in Idaho to be allowed to continue with cluster programs and receive Perkins funding.

I do know that the state can write the plan in how it best suits students as other states surrounding Idaho have continued with cluster programs and received Perkins funding. Idaho recognizes the Workplace Readiness Technical Skill Assessment which I have used for the last 4 years. However, this will be the first year that students will take the
Agriculture Leadership and Communication Technical Skill Assessment as I was forced to follow the pathway to receive Perkins V funding. Small rural schools have an added cost budget of typically $15,000. Perkins funding is generally utilized to keep up with industry-quality equipment so students can go directly into the workplace and be confident to work with newer industry-standard equipment.

208-791-6764 (Cell)

IDCTE: Thank you for your comment. Perkins V requires eligible recipients to have not less than 1 program of study (Perkins V Sec. 1349(b)(2)). Funding for career technical education is further directed by allowability costs and a local education agency’s comprehensive local needs assessment.

Subject: Comment on the Idaho Perkins V State Plan by Feb. 23

Greetings,
The following is related to the Proposed Perkins V plan and how it translates to programs statewide.

Middle School

Students may also participate in career exploration through middle school. Idaho public schools are required to provide career exploration courses to students in grade 7 and grad 8.

This would be a great time for the state to introduce the course for 7-8 Middle School 221510 First Steps: Understanding the World of Work through Career and Technical Education (CTE) 7,8

QUALITY As defined by the Division, means at the secondary level an educational program that effectively uses data to inform and improve student success including closing student equity gaps in access and completion and improving attainment of rigorous academic and technical skills. Secondary CTE concentrators, as defined by the state, demonstrate acceptable levels of proficiency as measured by TSAs. Authorized CTSOs must align with CTE course curriculum, but are not limited to programs of study offered.

With a recent test security violation, is there any provision in Perkins V or beyond for programs that may not be able to administer the TSA due to circumstances beyond their control.
All secondary and postsecondary recipients must complete or update their (CLNA) at least every two years, have a TAC for each program of study that meets at least once a year, annually submit program data and analysis showing progress toward performance targets, employ faculty that meet the minimum certification requirements as established by the Division, must connect to an authorized CTSO that is aligned to course curriculum and led by qualified personnel.

_It was recently observed in proposed standards (pharmacy technician) that CTSO participation and competing in at least the state leadership conference (SLC) is required. So, if program quality is judged on the standards; then the question arises, how will the membership fees, travel and other associated costs be paid for. I recently observed a CTSO board conversation relating to the significant costs related to CTSO participation and travel. Since CTSO’s are co-curricular and we cannot charge students for this, all programs will need funding for participation, how will this be provided?_

_Thank you and have a good day_

IDCTE: Thank you for your comment. Perkins V allows for career technical student organization costs. More information regarding allowable costs can be found in IDCTE resources.

Subject: 3P1 Percentage increase concern

Good Afternoon,

I would like to submit a comment about raising the 3P1 SPDL to 15.1% (90%=13.59%) along with the subsequent increases.

In Nez Perce and Asotin County (WA), where the majority of our population comes from, there is a large wage disparity between NTBG populations. When tasked with addressing barriers for this population, I put together a task force of my peers (and a student representative) who work directly with students as well as upper administration. We further analyze these percentages of male and female attendees, look for gaps/barriers and discuss how we can improve the presence of males in traditionally female careers and continue to promote females in traditionally male careers. It was in one of these meetings that a member postulated that the reason we do not have enough males in traditionally female careers, is due to a large wage disparity.

It is true; males in traditionally female careers make substantially less money than their female counterparts. I’ve attached an analysis of our local employment annual wage
distribution for comparison that shows the average median annual income is $18,144.70 less for males in these NTBG careers.

This has been an ongoing trend as the following analysis, completed in 2021, shows a similar wage disparity.

<table>
<thead>
<tr>

<td>38,953.47</td>
<td>59,790.91</td>
<td>93,794.80</td>
</tr>
</tbody>
</table>

As expected, LCSC exceeds the percentage of females in traditionally male CTE programs, however male attendance in traditionally female CTE programs is exceedingly low. Given the current economy, I would expect to see that trend, as well as overall low numbers in this category to continue as it has since 2015.

</table>
Another challenge that adds to the low percentages in this category, is that Region 2 is comprised of many rural towns which may inadvertently lead to occupational gender segregation, poverty, and gaps in education before attending college. This may also result in the discouragement of one entering a non-traditional by gender field.

Those issues, along with the overall CTE enrollment challenges, makes achieving this SDPL extremely challenging.

Thank you for your time and consideration. Please let me know if you have any questions.

Best Regards,

Stephanie

PROGRAM MEMORANDUM – OCTAE-23-3

DATE: June 30, 2023

TO: State Directors of Career and Technical Education

FROM: Sharon Lee Miller
Director, Division of Academic and Technical Education

SUBJECT: State Plan Submissions for Fiscal Year (FY) 2024 Grant Awards - OMB Approval Number: 1830-0029

Pursuant to the Guide for the Submission of Perkins V State Plans (OMB Approval Number: 1830-0029, Exp. 8/31/2025), I am pleased to inform you of the statutory requirements, procedures, and State plan submission instructions for each eligible agency (State) to receive its Fiscal Year (FY) 2024 grant award under the Carl D. Perkins Career and Technical Education Act of 2006, as amended by the Strengthening Career and Technical Education for the 21st Century Act (Public Law 115-224) (Perkins V). This information applies to your State whether it submits its Perkins V State plan separately or as part of a Workforce Innovation and Opportunity Act (WIOA) combined State plan. FY 2024 grant awards generally cover the period from July 1, 2024 – June 30, 2025, although the period of availability of FY 2024 funds can be extended for a 15-month period through September 30, 2025. We expect to issue FY 2024 Perkins V grant awards on July 1, 2024 (initial award), and October 1, 2024 (supplemental award).

Statutory Requirements for FY 2024 State Plan Submissions

Following the July 2018 enactment of Perkins V, your State submitted a one-year transition plan covering FY 2019 (July 1, 2019 – June 30, 2020) and then a four-year State plan covering FY 2020-23 (July 1, 2020 – June 30, 2024). For your State to receive its FY 2024 Perkins grant award, you are required to submit one of the following pursuant to section 122(a)(5) of Perkins V:

- **Option 1**: A subsequent (new) four-year State plan covering FY 2024-27 (July 1, 2024 – June 30, 2028), including a budget for FY 2024 and State determined performance levels (SDPLs) through FY 2027; or

- **Option 2**: Annual revisions to establish your SDPLs for FY 2024 and a budget for FY 2024.
If your State chooses Option 2, your State may submit any other revisions\(^1\) to your previously approved State plan as Perkins V permits annual revisions to be made at any time (section 122(a)(2)(A) of Perkins V).

**Establishing State Determined Performance Levels**

Regardless of whether your State selects Option 1 or Option 2, your State must establish SDPLs that meet the requirements of section 113(b)(3)(A)(III) of Perkins V. In addition, your State must engage in a public comment process pursuant to section 113(b)(3)(B) of Perkins V, which requires broad stakeholder consultation, the opportunity for written comments not less than 60 days prior to submission of the State plan, and a written response to the comments provided in the State plan submission.

**Submission Procedures and Support**

In developing your FY 2024 State Plan, your State must follow the applicable requirements in section 122 of Perkins V and 34 CFR Part 76. In addition to the required broad stakeholder consultation and public comment period, depending on which option your State pursues, your process may include public hearings and the opportunity for your Governor’s signature as shown in the chart below:

</tbody>
</table>

Your State must submit the applicable items listed above to the Perkins State Plan Portal no later than the close of business on May 10, 2024. If your State includes Perkins

\(^1\) As a reminder, under 34 CFR 76.140, any revision that results in a “significant and relevant change in …the information or assurances in the plan; the administration or operation of the plan; or the organization, policies, or operations of the State agency that received the grant, if the change materially affects the information or assurances in the plan” must follow the procedures in 34 CFR 76.140
as part of its WIOA combined State plan, it must still follow the same procedures outlined above. However, such States are required to instead submit any narrative revisions as part of their WIOA State plan submissions to the WIOA State Plan Portal.

Online training sessions regarding the submission of items to the Perkins State Plan Portal will be held for State career and technical education directors and their staff in March of 2024. Further details regarding these sessions will be sent under separate cover and posted to the calendar on the Perkins Collaborative Resource Network at https://cte.ed.gov.

Please contact your Perkins Regional Coordinator if you have any questions regarding the submission requirements and procedures for your State’s FY 2024 Perkins V grant award. A State-by-State listing of these staff members is available at https://cte.ed.gov/contact/staff-by-state-responsibility.

Our office intends to release a subsequent memo and host a Town Hall series outlining policy priorities for consideration in planning for FY 2024 Perkins State plan submissions. We look forward to continuing to work with you to implement your Perkins V State plan and provide all students with access to and success in high-quality career and technical education programs.
SUBJECT
New Educator Certificate Endorsement Program Approval for Idaho State Board Approved Educator Preparation Programs

REFERENCE
August 2023 State Board of Education approved the Idaho Standards for Educator Preparation Providers.
October 2023 State Board of Education approved the Educator Preparation Program Approval Guide.
February 2024 State Board of Education approved Brigham Young University-Idaho’s K-12 Literacy Program

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code § 33-114
IDAPA 08.02.02.015.01, Rules Governing Uniformity
IDAPA 08.02.02.021, Rules Governing Uniformity
Idaho State Board of Education Governing Policies & Procedures, Section IV.D.

BACKGROUND/DISCUSSION
In academic year 2022-23, a work group was formed to create the Idaho Standards for Educator Preparation Providers and the Educator Preparation Program Approval Guide. These two documents were approved by the State Board in 2023. Brigham Young University – Idaho (BYU-I) was the first Educator Preparation Provider to submit a new certificate endorsement program application for review and consideration by the State Board with the new process last February 2024. Northwest Nazarene University (NNU) is submitting the second new program application under this new process. A review team was assembled and reviewed NNU’s Early Literacy certificate endorsement program application on February 21, 2024. Board staff facilitated the review. The review team concluded the review on February 21, 2024, and recommended NNU’s Early Literacy program application to be approved.

IMPACT
The approval of the new program application would allow NNU to offer an Early Literacy endorsement as a 20-credit endorsement option. The disapproval of the new program application would not allow NNU to offer an Early Literacy endorsement as a 20-credit endorsement option.

ATTACHMENTS
Attachment 1 – NNU’s Early Literacy Program Approval Evaluation Report and Recommendation
Attachment 2 – NNU’s Early Literacy Program Application

BOARD STAFF COMMENTS AND RECOMMENDATIONS
Board staff facilitated the new program application review and recommends approval of NNU’s requested new program.
BOARD ACTION

I move to approve the review team’s recommendation to approve Northwest Nazarene University’s proposed Early Literacy Certificate Endorsement Program.

REVIEW TEAM RECOMMENDATION

Recommend

The review team does recommend the approval of the new Early Literacy twenty (20) credit hour endorsement application by Northwest Nazarene University. A twenty (20) credit hour endorsement may be added as a second endorsement area per IDAPA 08.02.02.015.01.c.i.
This document describes the process by which an Idaho State Board Approved Educator Preparation Providers (Educator Preparation Providers) seek approval for a new endorsement program leading to certification. The Office of the Idaho State Board of Education (Board Office) facilitates the approval process.

Public universities and colleges seeking a new degree or certificate program will also follow their institutional policies and procedures and the process identified in State Board Policy III.G – Postsecondary Program Review and Approval. Additional information may be found on the Idaho State Board of Education’s website at Postsecondary Program Approval | Idaho State Board of Education. Educator Preparation Providers seeking a new degree or certificate program will complete the Postsecondary Program approval process in addition to the new program approval process for programs leading to educator certification.

**STATUTORY AUTHORITY AND REFERENCES**

**Idaho Code 33-114:** supervision and control of the certification of professional education personnel is vested in the State Board. The Board shall approve the program of education of such personnel in all higher institutions in the state, both public and private, and shall accredit as teacher training institutions those in which such programs have been approved.

**Idaho Code 33-1207A:** The State Board shall review teacher preparation programs at the institutions of higher education.

**IDAPA 08.02.02.021:** Idaho Educator Preparation Providers shall prepare candidates to teach in area(s) of endorsements in accordance with the Idaho Standards for Initial Certification of Professional School Personnel.

**State Board Policy IV.D.:** Educator Preparation and Certification

**IDAPA 08.02.02.015.01:** Instructional staff certification requirements.

**IDAPA 08.02.02.015.02:** Pupil service staff certification requirements.

**IDAPA 08.02.02.015.03:** Administrator certification requirements.

**NEW PROGRAM APPROVAL PROCESS STEPS**

The new program approval process has a total of three steps as follows:

1. Preparation and Submission of the New Program Application
2. Review and Feedback
3. Determination of Approval Status

**Step 1: Preparation and Submission of the New Program Application**

The Educator Preparation Provider will use one or more of the following new program applications to request approval of the new program:
Flow Chart

The new program application includes the following:

- New Program Design
- Explanation how the New Program will meet the provider standards and components
- Clinical Experience Design

Upon completion, the new program application and all applicable supporting documentation is submitted to the Board Office – Educator Effectiveness Program Manager.

**Step 2: Review and Feedback**

After receiving a completed new program application, the Board Office will assemble and facilitate a team to review the new program application materials, to include one member of the Professional Standards Commission and members from at least two of the following groups:

- Approved Idaho Educator Preparation Program Staff
- Idaho Experts from the Field and experience with Educator Preparation Program Review
- Idaho Division of Career Technical Education Staff
- Idaho Local practicing K-12 Educators
- Idaho Local practicing K-12 Administrators
- Idaho State Department of Education staff – Certification Department

The review team will assess whether the new program as proposed meets the criteria listed in the new program application. A new program that meets the criteria listed in the new program application and shows alignment to the Idaho Standards for Educator Preparation Providers (Provider Standards) will move to Step 3. The review team will use review rubrics to guide input and make the determination if the program meets the criteria listed in the new program application and shows alignment to the Provider Standards.

A new program that does not meet the criteria listed in the new program application will be returned to the Educator Preparation Provider by electronic mail and accompanied by review team feedback. The
Educator Preparation Provider may address the feedback and resubmit a new program application to the Board Office for review as described in Step 1.

Incomplete new program applications received by the Board Office will be returned to the Educator Preparation Provider for completion.

**Step 3: Determination of Approval Status**

The review team will provide a program recommendation to the Board Office, for consideration by the State Board at their next regularly scheduled meeting. The Board Office will notify the Educator Preparation Provider of the date of the State Board meeting at which the new program proposal will be considered. The State Board will either approve or not approve the new program. Upon State Board approval or non-approval of the new program, Board Staff will notify the Educator Preparation Provider of the new program approval status by electronic mail. If the new program is approved by the State Board, the Educator Preparation Provider may advertise the program and recruit candidates to the program. If the new program is not approved by the State Board, the application may be revised and resubmitted. Approved new programs will be reviewed at the same time as the Educator Preparation Providers state review that typically occurs on a seven-year cycle.

STANDARD ONE: PROFESSIONAL, CONTENT, AND PEDAGOGICAL KNOWLEDGE
Educator Preparation Providers ensure candidates develop an understanding of the critical concepts, principles, and practices of their discipline, and are able to use practices flexibly to advance the learning of all students.

1.1 CONTENT KNOWLEDGE AND PEDAGOGY
Educator Preparation Providers ensure candidates are able to apply their knowledge in critical concepts, principles, and practices as identified in the Idaho Standards for Initial Certification of Professional School Personnel, National Accreditation Standards of Pupil Service Programs, and State Board approved Idaho Student Content Standards.

NNU seeks to add an Early Literacy Endorsement. This endorsement will incorporate many of our current classes and will add four new courses.

Standard language matched to course descriptions demonstrates the EPP’s ability to meet the policy and rule requirements. The attached syllabi demonstrate courses that are aligned to the SSR Literacy Standards and the Early Literacy Endorsement requirements. Field experiences and assignments are included in the syllabi and demonstrate progression towards the mastery of these skills. On September 14, 2023, the EPP received university approval to develop the minor. Documents linked below align to IDAPA language.

Writing Development and Pedagogy in K-8 Schools

The specific endorsement requirements aligned to this course are listed below.
- Writing Pedagogy
  - the cognitive process of learning to read and write;
  - stages of reading and writing
  - development;
  - early elementary reading and writing resources including children’s literacy

Laws, Issues, and Advocacy in Literacy

The specific endorsement requirements aligned to this course are listed below.
- Laws, Issues, and Advocacy in Literacy:
  - advocacy strategies for meeting the needs of struggling readers and writers
  - Idaho Comprehensive Literacy Plan

Language Acquisition for Early Literacy

The specific endorsement requirements aligned to this course are listed below.
- Language Acquisition for Early Literacy:
  - language acquisition and development

Early Literacy Methods

The specific endorsement requirements aligned to this course are listed below.
- Early Literacy Methods
  - Clinical application of all of the above

STANDARD TWO: CLINICAL EXPERIENCE
Educator Preparation Providers ensure diverse high-quality clinical experiences to develop knowledge, skills, and professional dispositions in candidates and educators.

2.1 CLINICAL PRACTICE
Educator Preparation Providers include clinical practice of depth, breadth, coherence, and duration to enable candidates or educators to demonstrate proficiency in their area of endorsement.

</table>
Clinical preparation depth, breadth, coherence, and duration

See above syllabi & NNU’s 2022 State Department Review for additional information

Courses with an early literacy aligned field experience:
- Fundamentals of Literacy – 20 hours in a primary classroom, focusing on early literacy skills
- Data Driven Literacy – approximately 20 hours of work with a struggling reader – focusing on assessment, intervention planning, progress monitoring, and reassessment

Comprehensive clinical experience

1. Early Literacy Methods
2. Student Teaching

- This particular course includes a 20 hour clinical experience in a K-1 classroom. Candidates will create and implement lessons based on best practices in methodology
- All NNU candidates must spend 16 weeks in a clinical placement aligned to their endorsement areas

Signatures

Signature of the Program/College Chair, Director, or Other Designee

Holly Ripley
Chair, Education Department

Date 1/10/2024

Signature of the College of Education Dean or Educator Preparation Provider Head Official

Dr. Lori Sanchez
Dean, College of Education

Date 1/10/2024

*Applications without appropriate dated signatures will not be considered.

* Public universities and colleges seeking a new degree or certificate program will also follow the process identified in State Board Policy III.G – Postsecondary Program Review and Approval.

*The signatures serve as an attestation that the Educator Preparation Provider understands the requirements and has met all policies, rules, and statutes, and institutional procedures.

Upon completion, the new program application and all applicable supporting documentation is submitted to the Board Office – Educator Effectiveness Program Manager.
SUBJECT
   2024 Legislative Update

REFERENCE
   June 2023   The Board approved legislative ideas for the 2024 legislative session.
   August 2023 The Board approved legislative proposals and proposed administrative rules for the 2024 legislative session.
   November 2023 The Board approved pending administrative rules for the 2024 legislative session.

APPLICABLE STATUTE, RULE, OR POLICY
   Idaho Code § 33-107(5)(b)

BACKGROUND/DISCUSSION
   This agenda item will provide the Board with an update on the education related legislation being considered by the 2024 Idaho Legislature.

IMPACT
   This update provides the Board with the status of education and agency-related legislation that has been signed into law and an overview of the impact such new legislation will have.

ATTACHMENTS
   Attachment 1 – 2024 New Legislation Overview

BOARD STAFF COMMENTS AND RECOMMENDATIONS
   Attachment 1 provides a list of education-related legislation and legislation impacting state agencies and institutions, including those under the Board’s governance as of the due date for meeting materials for this meeting.

BOARD ACTION
   This agenda item is for informational purposes only.

<td>Taxation, School Facilities Funds</td>
<td>Law</td>
<td>First, it dedicates $125 million in ongoing sales tax revenue to the new School Modernization Facilities Fund for bonding, while providing the legislature with expanded options to cover annual service on the bonds in the event of economic downturns. Second, this legislation increases the funding to the School District Facility Fund in two ways. It increases the sales tax revenue directed to the fund from 2.25% to 3.25% which is projected to be $25 million in FY 2025, and redirects existing lottery dividends to the fund, which is projected to be approximately $50 million in FY 2025. This fund will help school districts with paying down school bonds, levies, and plant facility levies, with any remaining funds being used at the district level for additional school facility projects. Third, this legislation reduces income taxes from 5.8% to 5.695%, allowing Idahoans to have more money to better support local bonds and levies related to school facilities.</td>

SUBJECT
K-12 Overview

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Bylaws (Operational Procedures) Section E.4. Section 33-125, 125A, and 127, Idaho Code

BACKGROUND/DISCUSSION
Idaho State Board of Education Bylaws establish the superintendent of public instruction as responsible for carrying out policies, procedures, and duties prescribed by the Constitution of the State of Idaho, and Idaho Code or established by the Board for all elementary and secondary school matters.

Debbie Critchfield was sworn into office as the Idaho Superintendent of Public Instruction on January 2, 2023. She will update the State Board of Education (SBOE) on the Superintendent’s priorities moving forward.

BOARD ACTION
This item is for informational purposes only.
SUBJECT  
Board Discussion, Minimum Student Instructional Day Requirements

APPLICABLE STATUTE, RULE, OR POLICY  
Idaho State Board of Education Governing Policies & Procedures, Section IV.B.2.  
Section 33-512, Idaho Code  
Section 33-916, Idaho Code

BACKGROUND  
H 521 was introduced on February 8, 2024, and amends, repeals, and adds to existing law to revise provisions regarding tax rates, school facilities funding, and school district bond and tax levy elections.

Section 18 of H 521 amends Chapter 9, Title 33, Idaho Code by the addition of a new section, designated as Section 33-916, Idaho Code, “Eligibility of School Districts for School Modernization Facilities Fund Distributions.” This section in H 521 prohibited the State Department of Education from approving school district requests for annualized distributions or for distribution from the applicable bond proceeds until school districts attested that they meet the minimum contract days and minimum student instructional day requirements of the State Board of Education, which shall be implemented no later than August 1, 2024.

HB 521 passed both the Idaho House and Senate and was signed into law by Governor Little on March 29, 2024.

H 766 was introduced as a “trailer bill” to H 521 on April 2, 2024. Section 3 of H 766 amends section 33-916, Idaho Code, on what is required of the State Board of Education. The new requirement is that in order for a school district to receive the annualized distributions or the lump sum distribution, it must attest that it meets the minimum student instructional day or hour requirements of the State Board of Education, with these requirements being adopted no later than August 1, 2024, and implemented no sooner than July 1, 2025. Additionally, the new provision in law states that the Board may phase in such requirements over a multi-year period.

H 766 passed both the Idaho House and Senate, and as of 4/8/24 is awaiting Governor Little’s final signature.

DISCUSSION  
The State Superintendent of Public Instruction is responsible for carrying out the policies, procedures, and duties authorized by applicable state and federal statutes and the policies and procedures of the Board for the elementary and secondary schools in Idaho.
Board discussion at the April 2024 regular board meeting is intended to update Board members on the requirements of the legislation and to seek input from all members on what is required of the Board due to these legislative updates. Action by the Board will take place at the regular June 2024 meeting. Additional data relevant to this discussion is provided below.

Additional data points around the 4-day and 5-day school week in Idaho:

There are 179 total Local Education Agencies (LEA) in Idaho (i.e., school district or public charter school)
- 94 LEAs are at a 4-day school week.
- 85 LEAs are at a 5-Day school week.

The LEAs participating in a 4-day school week are overwhelmingly rural and/or under 1,500 total student population (IIIA and smaller in size, based on IHSAA classifications)

Idaho Code 33-512 provides a statutory requirement for student hours while IDAPA 08.02.01 defines a school day or a “day in session” as 4 hours or more.

Idaho Code 33-512 (1)(a) outlines required minimum hours as follows:

<table>
<thead>
<tr>
<th>Grades 9-12</th>
<th>Grades 4-8 &amp; Alternative Schools</th>
<th>Grades 1-3</th>
<th>Kinder *</th>
</tr>
</thead>
<tbody>
<tr>
<td>990 hours</td>
<td>900 hours</td>
<td>810 hours</td>
<td>450 hours</td>
</tr>
<tr>
<td>*Kindergarten is not required in Idaho</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The average 4-day district's students attend 1030 hours, while the average 5-day district’s students attend 1049.

| Average 4-day: | 146 |
| Average 5-day: | 172 |
| Total statewide average: | 159 |

<table>
<thead>
<tr>
<th>LEAs below this 4-day average:</th>

<td>143</td>
</tr>
<tr>
<td>11</td>
<td>144</td>
</tr>
<tr>
<td>5</td>
<td>145</td>
</tr>
</tbody>
</table>

Additional historical perspective:
• In 1963, the state mandated that schools could have no less than 9 months of school.
• In 1991, the state implemented hours to allow districts to meet required minimums, however they chose.

High Performing districts are both 4 and 5-day. Many 4-day districts offer a hybrid day, with students coming on some Fridays and teachers always working on Fridays.

Here is an example from each IASA region:

<table>

</tbody>
</table>

**IMPACT**

Local school districts and public charter schools have set or are in the process of setting their academic calendars for the 2024/2025 school year in line with the provisions of section 33-512, Idaho Code.

This new requirement of the Board on setting minimum instructional days will be phased in and not have an immediate impact on these academic calendars.

The Board will consider taking action on establishing minimum instructional days at the June 2024 regular board meeting.

SUBJECT
College/University FY2023 audit findings reported by the Idaho State Board of Education’s external auditor

APPLICABLE STATUTE, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.H.4.f.

BACKGROUND/DISCUSSION
The Idaho State Board of Education (Board) is in contract with CliftonLarsonAllen LLP, an independent certified public accounting firm, to conduct the annual financial audits of Boise State University, Idaho State University, the University of Idaho, and Lewis-Clark State College.

The financial audits for FY2023 were conducted in accordance with Generally Accepted Government Auditing Standards and include an auditor’s opinion on the basic financial statements prepared by each of the four institutions.

IMPACT
There were no material weaknesses or significant deficiencies for any of the four institutions for the financial statements, however there were material weaknesses and significant deficiencies found in the federal awards, mostly pertaining to student financial aid. Boise State University, Idaho State University, University of Idaho, and Lewis-Clark State College all received unmodified opinions from CLA that their respective financial statements present a true and fair reflection on their financial statements and compliance for major federal programs.

ATTACHMENTS
Attachment 1 - CliftonLarsonAllen Audit Results Report
Attachment 2 - Boise State University Schedule of Findings/Questioned Costs
Attachment 3 - Idaho State University Schedule of Findings/Questioned Costs
Attachment 4 - University of Idaho Schedule of Findings/Questioned Costs
Attachment 5 - Lewis-Clark State College Schedule of Findings/Questioned Costs

STAFF COMMENTS AND RECOMMENDATIONS
On November 7, 2023, CliftonLarsonAllen (CLA) staff reviewed their audit findings with members of the Audit, Risk and Compliance Committee and Board staff. This was followed by presentations by senior managers from the college and universities on their financial statements.

The University of Idaho Foundation (a component unit reported in the University of Idaho’s financial statements) continues to stay with Governmental Accounting Standards Board (GASB) presentation for their financial statements when CLA believes the Foundation should follow Financial Accounting Standards Board (FASB) presentation. CLA will continue to monitor this item for materiality.

CLA indicated that each College and University was cooperative and helpful.
On March 29, 2024, CLA reviewed the single audit findings with members of the Audit, Risk and Compliance Committee and Board staff.

BOARD ACTION
I move to accept from the Audit Committee the FY2023 financial audit reports for Boise State University, Idaho State University, University of Idaho, and Lewis-Clark State College, as submitted by CliftonLarsonAllen LLP in Attachment 1.

Responsibilities under US Generally Accepted Auditing Standards (GAAS)

Opinion: Financial statements in conformity with U.S. GAAP in all material respects.

Reasonable assurance free from material misstatement; not absolute.

Risk-based audit: What is the risk of material error due to error, fraud, or noncompliance?

Our audit does not relieve management of its responsibilities.

Opinion is not over internal controls; opinion is over financial statements.

Section II – Financial Statement Findings

Our audit did not disclose any matters required to be reported in accordance with Government Auditing Standards.

Section III – Findings and Questioned Costs – Major Federal Programs

2023 – 001 – Cash Management

Federal Agency: U.S. Federal Government
Federal Program Title: Research and Development Cluster
Assistance Listing Number: Various
Federal Award Identification Number and Year: Multiple
Award Period: July 1, 2022 to June 30, 2023
Type of Finding:
• Other Matters
• Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: The Federal Government requires that when the reimbursement method is used, the Federal awarding agency or pass-through entity must make payment within 30 calendar days after receipt of the billing, unless the Federal awarding agency or pass-through entity reasonably believes the request to be improper (2 CFR section 200.305(b)(3)). Per Uniform Guidance 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: The University did not make payment to Subrecipients within the required 30 calendar days after receipt of the billing.
Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

Context: Nine exceptions were identified in a sample of forty subrecipient draw requests. Of the nine exceptions noted, exceptions ranged from 31 days to 90 days.

Questioned costs: None.

Cause: There was a misunderstanding of processes from backup staff. Additionally, there were delays in the department resulting in invoices not being processed timely. Lastly, approvals from the respective Principal Investigators were not being routed correctly.

Effect: Subrecipients did not receive their reimbursement timely and in accordance with federal regulations.

Repeat finding: No

Recommendation: We recommend the University evaluate its procedures and implement an additional control to review and approve the subrecipient reimbursements timely.

Views of responsible officials: Management agrees with the finding and has developed a plan to correct the finding.

2023 – 002 – Allowable Costs/Cost Principles

Federal Agency: U.S. Federal Government
Federal Program Title: Research and Development Cluster
Assistance Listing Number: Various
Federal Award Identification Number and Year: Multiple
Award Period: July 1, 2022 to June 30, 2023

Type of Finding:
- Other Matters
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: Entities receiving federal awards must identify in its accounts all federal awards expended and report those amounts on the Schedule of Expenditures of Federal Awards for the period the federal award was expensed. Specifically, in accordance with Uniform Administrative Requirements outlined in 2 CFR 200, the guidance states:

- Per 2 CFR 200.502, The determination of when a Federal award is expended must be based on when the activity related to the Federal award occurs.
Per 2 CFR 200.303, entities must establish and maintain internal controls which provide reasonable assurance that federal award expenditures are in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

In addition, per 2 CFR 200.510, the Schedule of Expenditures of Federal Awards (SEFA) must be prepared to reflect the awards for the period covered by the auditee’s financial statements.

Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

Lastly, section 2 CFR 200.510 states that for costs to be allowable, they should be determined in accordance with generally accepted accounting principles (with exceptions provided in that part).

Condition: The University’s year-end cutoff controls allowed for certain costs from Fiscal Year 2022 to not be reported in the Fiscal Year 2022 SEFA but rather reported in the Fiscal Year 2023 SEFA.

Context: During our testing of 40 payroll transactions, we found one instance of 2022 fringe benefits being charged to a federal program in 2023. In addition, during our testing of 40 general disbursements transactions, we identified four instances of 2022 costs being charged to federal programs in 2023.

Questioned costs: Known amounts of 2022 costs included in the 2023 SEFA was $3,214. (ALNs: 47.041, 47.083, 93.866, and 10.310 Award Numbers: 1663642, 1757324, R01AG059923, and 2022-67020-36410)

Cause: Per the University, the cause for the five exceptions were due to:

- The one payroll exception was due to the 2021-2022 Human Capital Management (HCM) implementation and the issues that implementation brought about. As disclosed in a direct communication with the University’s cognizant agency, the initial custom software used for the allocation of fringe benefit costs did not work appropriately. As a result, throughout 2022, the University dedicated significant resources to address the HCM shortcomings. Then, in 2023, various corrections were made (again, as disclosed to the cognizant agency.) This sample was one of those costs that was identified as not properly being allocated to the federal program in the prior year; thus, was charged to the federal government in the current fiscal year.
- Three of the four general disbursement exceptions related to the University’s procurement card accrual policy. Currently, the University’s accrues for procurement card purchases through June 23, which leaves seven days of activity that flows into the next fiscal year. Three of our samples relate to procurement card charges incurred during these seven days.
- The last of the four general disbursements that related to a prior year but reported in the Fiscal Year 2023 was due to a staffing issue. A key employee responsible for monitoring specific departmental charges fell ill and was out for a period of time. Upon the employee’s return, the employee spent time analyzing charges and identified the cost that should have been recorded as a federal charge in the prior year; thus, then charged the federal agency in Fiscal Year 2023.

Effect: The University was out of compliance as it relates to identifying and reporting federal costs in the period incurred.

Repeat finding: No
**Recommendation:** We recommend the University evaluate its cutoff procedures to ensure federal costs are identified and reported in the correct fiscal year.

**Views of responsible officials:** Management agrees with the finding and has developed a plan to correct the finding.
FINDINGS— FEDERAL AWARD PROGRAMS AUDITS

2022 – 001 R2T4

**Condition:** The University calculated R2T4 for modular students that had completed more than 49% of the days in the payment period. In addition, the University calculated one student's return using the incorrect completed percentage.

**Status:** Corrected.
Section I – Summary of Auditors’ Results

Financial Statements

1. Type of auditors’ report issued: Unmodified

2. Internal control over financial reporting:
   - Material weakness(es) identified? __________ yes  __x____ no
   - Significant deficiency(ies) identified? __________ yes  __x____ none reported

3. Noncompliance material to financial statements noted? __________ yes  __x____ no

Federal Awards

1. Internal control over major federal programs:
   - Material weakness(es) identified? __x____ yes  ______ no
   - Significant deficiency(ies) identified? __x____ yes  ______ none reported

2. Type of auditors’ report issued on compliance for major federal programs: Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? __x____ yes  ______ no

Section II – Financial Statement Findings

Our audit did not disclose any matters required to be reported in accordance with Government Auditing Standards.
2023-001: Reporting

Federal agency: Department of Health and Human Services
Federal program title: Primary Care Training and Enhancement & Every Student Succeeds Act/Preschool Development Grants
Assistance Listing Number: 93.884 & 93.434
Federal Award Identification Number and Year: Multiple
Award Period: July 1, 2022 to June 30, 2023
Type of Finding:
  • Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure reports are formally reviewed by someone who did not prepare the report to verify the correct information and data is submitted.

Condition & Context: The University did not have a documented or formal review and approval process in place for reports prior to submission.

Questioned costs: None.

Cause: Supervisory review and approval is currently undocumented and is only communicated verbally.

Effect: Failure to properly review Reports could result in an improper information and data being submitted.

Repeat Finding: No.

Recommendation: ISU should implement formal review procedures to document review and approvals over required reports.

Views of responsible officials: Management agrees with this finding.
**2023-002: Cash Management-Subrecipient**

Federal Agency: U.S. Federal Government  
Federal Program Title: Research and Development Cluster  
Assistance Listing Number: 93.859  
Federal Award Identification Number and Year: 1R01GM137083 - 2023  
Award Period: July 1, 2022 to June 30, 2023  
Type of Finding:  
- Other Matters  
- Significant Deficiency in Internal Control over Compliance

**Criteria or specific requirement:** The Federal Government requires that when the reimbursement method is used, the Federal awarding agency or pass-through entity must make payment within 30 calendar days after receipt of the billing, unless the Federal awarding agency or pass-through entity reasonably believes the request to be improper (2 CFR section 200.305(b)(4)). In addition, per the Uniform Guidance 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

**Condition:** The University did not make payment to Subrecipients within the required 30 calendar days after receipt of the billing.

**Context:** One subrecipient invoice, totaling $1,601, out of 8 tested, totaling $43,340, was not paid within the required 30 days.

**Questioned costs:** None.

**Cause:** The invoice was sent to the wrong email for approval.

**Effect:** Subrecipients did not receive their reimbursement timely.

**Repeat finding:** No

**Recommendation:** We recommend the University evaluate its procedures and implement an additional control to review and approve the Subrecipient reimbursements timely.

**Views of responsible officials:** Management agrees with the finding and has developed a plan to correct the finding.
2023-003: Procurement

Federal Agency: U.S. Federal Government
Federal Program Title: Research and Development Cluster
Assistance Listing Number: Various
Federal Award Identification Number and Year: Multiple
Award Period: July 1, 2022 to June 30, 2023
Type of Finding:
- Other Matters
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: The Federal Government requires that all procurement transactions for the acquisition of property or services required under a Federal award must be conducted in a manner providing full and open competition consistent with the standards of 2 CFR section 200.319 and 2 CFR section 200.320. In addition, per the Uniform Guidance CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: The University did not have documentation for reasonings of why they did not obtain competitive bids.

Context: During our testing we identified 2 of the 8 contracts tested did not include adequate documentation to award the contracts without a competitive bid process.

Questioned costs: $27,287

Cause: A misunderstanding of the procurement process by grant personnel.

Effect: Documentation for why the University did not obtain competitive bids was undocumented.

Repeat finding: No

Recommendation: We recommend the University evaluate its procedures and implement an additional control to document reasons for obtaining competitive bids.

Views of responsible officials: Management agrees with the finding and has developed a plan to correct the finding.
2023-004: Suspension Debarment

Federal Agency: U.S. Federal Government
Federal Program Title: Research and Development Cluster
Assistance Listing Number: Various
Federal Award Identification Number and Year: Multiple
Award Period: July 1, 2022 to June 30, 2023
Type of Finding:
- Other Matters
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: The Federal Government requires that when a non-federal entity enters into a covered transaction with an entity at a lower tier, the non-federal entity must verify that the entity, as defined in 2 CFR section 180.995 and agency adopting regulations, is not suspended or debarred or otherwise excluded from participating in the transaction. In addition, per the Uniform Guidance 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: The University was not able to provide a verification check occurring before entering into contract with a vendor/subrecipient.

Context: During our testing of 5 contracts out of a population of 14 vendors/subrecipients, we identified one vendor/subrecipient that the University could not provide a verification check prior to entering the contract.

Questioned costs: None.

Cause: Verification check did not occur before entering into contract with vendor/subrecipient.

Effect: The University entered into contract with a vendor/subrecipient prior to performing a verification check.

Repeat finding: No

Recommendation: We recommend the University evaluate its procedures and implement an additional control to ensure verification checks are occurring prior to entering into contract with a vendor/subrecipient.

Views of responsible officials: Management agrees with the finding and has developed a plan to correct the finding.
**2023-005: Special Tests & Provisions**

Federal Agency: Department of Education  
Federal Program Title: Student Financial Assistance Cluster  
Assistance Listing Number: Various  
Federal Award Identification Number and Year: Multiple  
Award Period: July 1, 2022 to June 30, 2023  
Type of Finding:  
- Other Matters  
- Significant Deficiency in Internal Control over Compliance

**Criteria or specific requirement:** The Department of Education, 2 CFR part 200 section 200.303, requires that non-Federal entities receiving Federal awards (i.e., auditee management) establish and maintain internal control designed to reasonably ensure compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. The Code of Federal Regulations, 34 CFR 688.164, requires any Title IV federal funds disbursed to a student or parent that are not received or negotiated must be returned to the appropriated federal financial aid program no later than 240 days after the check or electronic fund transfer (EFT) was issued. If a check or an EFT is returned, the University may make additional attempts to deliver the funds, provided that those attempts are made no later than 45 days after the funds were returned or rejected. In case where the University does not make another attempt, the funds must be returned before the end of the initial 45-day period. The University must cease all attempts to disburse the funds and return them no later than 240 days after the date it issued the first check. Under no circumstances may unclaimed Title IV FSA funds escheat to the state, or revert to the University, or any other third party.

**Condition:** The University was not in compliance with the federal financial aid regulations requirement that any Title IV federal funds disbursed to a student or parent that are not received or negotiated must be returned to the appropriated federal financial aid program no later than 240 days after the check or electronic fund transfer (EFT) was issued.

**Context:** During the testing of the outstanding Title IV student check listing totaling 76 outstanding checks, we identified eight instances of stale checks that were aged greater than 240 days.

**Questioned costs:** $14,949.02

**Cause:** The University did not have a process in place to monitor the checks throughout the year.

**Effect:** The University is not in compliance with Department of Education requirements.

**Repeat finding:** No

**Recommendation:** We recommend that the University review the requirement and implement a monitoring control to monitor the checks throughout the year. In addition, for the checks outstanding greater than 240 days, the University should return the funding to the U.S. Department of Education.

**Views of responsible officials:** Management agrees with the finding and has developed a plan to correct the finding.
2023-006: Eligibility

Federal Agency: Department of Education
Federal Program Title: Student Financial Assistance Cluster
Assistance Listing Number: Various
Federal Award Identification Number and Year: Multiple
Award Period: July 1, 2022 to June 30, 2023
Type of Finding:
- Other Matters
- Material Weakness

Criteria or specific requirement: The Department of Education requires the institution must notify the student, or parent, in writing of (1) the date and amount of the disbursement; (2) the student’s right, or parent’s right, to cancel all or a portion of that loan or loan disbursement and have the loan proceeds returned to the holder of that loan or the TEACH Grant payments returned to ED; and (3) the procedure and time by which the student or parent must notify the institution that he or she wishes to cancel the loan, TEACH Grant, or TEACH Grant disbursement. The notification requirement for loan funds applies only if the funds are disbursed by EFT payment or master check (34 CFR 668.165). In addition, per the Uniform Guidance 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: The University did not properly notify students when loans were disbursed and credited to student’s accounts.

Context: During our Eligibility testing of 40 students, we identified that there were 29 students that received loan disbursements however, all 29 students did not receive the required notification for each loan disbursement.

Questioned costs: None

Cause: The college did not send loan disbursement notifications, notifications were only provided when aid amounts changed from their initial award letter.

Effect: Tailored award disbursement notifications inform the student or parent of the right to cancel all or a portion of that loan or loan disbursements and have the loan proceeds returned to the holder of that loan. The notifications also outline the procedure and time by which the student or parent must notify the institution that he or she wishes to cancel the loan.

Repeat finding: No

Recommendation: We recommend the University evaluate its procedures around disbursements of loans and ensure that notifications of disbursements are sent and contain all of the required elements outlined in the FSA handbook.

Views of responsible officials: Management agrees with the finding and has developed a plan to correct the finding.
2023-007: Special Tests & Provisions

Federal Agency: Department of Education
Federal Program Title: Student Financial Assistance Cluster
Assistance Listing Number: Various
Federal Award Identification Number and Year: Multiple
Award Period: July 1, 2022 to June 30, 2023
Type of Finding:
- Other Matters
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: The Code of Federal Regulations, 34 CFR 682.610, states that institutions must report accurately the enrollment status of all students regardless of if they receive aid from the institution or not. Changes to said status are required to be reported within 30 days of becoming aware of the status change, or with the next scheduled transmission of statuses if the scheduled transmission is within 60 days. In addition per the Uniform Guidance 2 CRF 200.303, non-federal entities receiving federal awards are required to establish and maintain internal controls designed to reasonable ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: The University did not properly report student enrollment changes for students who received federal student aid to the National Student Loan Data System (NSLDS).

Context: During our testing of 40 students, we identified one instance for which the student’s enrollment status was not correctly reported to NSLDS, two instances where the enrollment effective date was not reported correctly to NSLDS and nine instances where the status changes were not reported timely to NSLDS.

Questioned costs: None

Cause: The University did not have proper procedures in place to verify students status in NSLDS matched the institutions records in a timely manner.

Effect: Failure to properly report enrollment status changes on NSLDS could affect the timing of the grace period for repayment of Title IV loans. Additionally, the College was not in compliance with the requirements to properly report student enrollment data correctly or timely to NSLDS.

Repeat finding: No

Recommendation: We recommend that the University implement procedures to ensure that enrollment data, changes in status and effective dates within NSLDS match the records of the institution and are reported timely. And we recommend that the College implement formal review procedures to document the review process.

Views of responsible officials: Management agrees with the finding and has developed a plan to correct the finding.
FINDINGS— FEDERAL AWARD PROGRAMS AUDITS

2022-001: Cash Management

Type of Finding:
- Significant Deficiency in Internal Control over Compliance

Condition: The University did not have a formal documented review process in place to ensure G5 drawdowns were reviewed prior to submitting the drawdown request.

Status: Corrected.
### Section I - Summary of Auditors’ Results

**Financial Statements**

1. Type of auditors’ report issued: Unmodified

2. Internal control over financial reporting:
   - Material weakness(es) identified? ________ yes  ________ no
   - Significant deficiency(ies) identified? ________ yes  ________ none

3. Noncompliance material to financial statements noted? ________ yes  ________ no

**Federal Awards**

1. Internal control over major federal programs:
   - Material weakness(es) identified? ________ yes  ________ no
   - Significant deficiency(ies) identified? ________ yes  ________ none

2. Type of auditors’ report issued on compliance for major federal programs: Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? ________ yes  ________ no

**Identification of Major Federal Programs**

84.007, 84.033, 84.038, 84.063, 84.268  Student Financial Assistance Cluster

Dollar threshold used to distinguish between Type A and Type B programs: $3,000,000

Auditee qualified as low-risk auditee? ________ yes  ________ no
Section II - Financial Statement Findings

Our audit did not disclose any matters required to be reported in accordance with Government Auditing Standards.

Section III - Findings and Questioned Costs - Major Federal Programs

2023-001
Federal Agency: U.S. Department of Education

Federal Program Name: Student Financial Assistance Cluster

Assistance Listing Number: 84.268 – Federal Direct Loans
  84.063 – Federal Pell Grant Program
  84.007 – Federal Supplemental Educational Opportunity Grants

Federal Award Identification Number and Year: 2022-2023 – P268K23010, P063P220101, P007A221093

Award Period: July 1, 2022 to June 30, 2023

Type of Finding:
- Significant Deficiency in Internal Control Over Compliance
- Other Matters

Criteria or specific requirement: 2 CFR part 200 section 200.303 requires that non-Federal entities receiving Federal awards (i.e., auditee management) establish and maintain internal control designed to reasonably ensure compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. The Code of Federal Regulations, 34 CFR 688.164, requires any Title IV federal funds disbursed to a student or parent that are not received or negotiated must be returned to the appropriated federal financial aid program no later than 240 days after the check or electronic fund transfer (EFT) was issued. If a check or an EFT is returned, the University may make additional attempts to deliver the funds, provided that those attempts are made no later than 45 days after the funds were returned or rejected. In case where the University does not make another attempt, the funds must be returned before the end of the initial 45-day period. The University must cease all attempts to disburse the funds and return them no later than 240 days after the date it issued the first check. Under no circumstances may unclaimed Title IV FSA funds escheat to the state, or revert to the University, or any other third party.

Condition: During our testing of the 240-day requirement, we noted the University was not in compliance with the federal financial aid regulations requirement that any Title IV federal funds disbursed to a student or parent that are not received or negotiated must be returned to the appropriated federal financial aid program no later than 240 days after the check or electronic fund transfer (EFT) was issued.

Questioned costs: 84.268 – Federal Direct loans – $25,871
  84.063 – Federal Pell Grant Programs – $1,477
  84.007 – Federal SEOG Grant Programs – $14
2023-001 (Continued)

**Context:** During our testing, it was noted 68 out of 708 outstanding checks were Title IV federal funds checks that were over the 240-day limit.

**Cause:** The University did not have adequate processes in place to monitor outstanding Title IV disbursement checks throughout the year.

**Effect:** The University is not in compliance with Department of Education requirements.

**Repeat finding:** No

**Recommendation:** CLA recommends that the University review the requirement and implement a monitoring control to monitor the checks throughout the year. In addition, for the checks outstanding greater than 240 days, the University should return the funding to the U.S. Department of Education.

**Views of Responsible Officials:** There is no disagreement with the audit finding, and the university has implemented stronger controls over these processes.

2023-002

**Federal Agency:** U.S. Department of Education

**Federal Program Name:** Student Financial Assistance Cluster

**Assistance Listing Number:**
- 84.268 – Federal Direct Loans
- 84.063 – Federal Pell Grant Program
- 84.007 – Federal Supplemental Educational Opportunity Grants
- 84.033 – Federal Work Study Program

**Federal Award Identification Number and Year:** 2022-2023 – P268K23010, P063P220101, P007A221093, P033A221093

**Award Period:** July 1, 2022 to June 30, 2023

**Type of finding:**
- Significant Deficiency in Internal Control Over Compliance
- Other Matters

**Criteria or specific requirement:** The Code of Federal Regulations, 34 CFR 682.610, states that institutions must report accurately the enrollment status of all students regardless of if they receive aid from the institution or not. This includes the enrollment effective date and related enrollment status, which must be reported for both the Campus-Level and the Program-Level, as well as the program begin date. Changes to said status are required to be reported within 30 days of becoming aware of the status change, or with the next scheduled transmission of statuses if the scheduled transmission is within 60 days. In addition, Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements.
2023-002 (Continued)
Condition: There were instances in which the University did not report the correct status and effective dates and status changes were not always reported timely.

Questioned costs: None

Context: In our statistically valid sample of sixty students selected for NSLDS enrollment reporting testing, we identified ten samples for which the student’s change in enrollment status was not properly updated. Five samples for which the enrollment effective date was not reported correctly. The status change for three samples was not reported timely and those same three samples enrollment was not certified every 60 days.

Cause: University of Idaho did not have proper procedures in place to verify students’ status in NSLDS matched the institutions records in a timely manner.

Effect: Failure to properly report enrollment status changes on NSLDS could affect the timing of the grace period for repayment of Title IV loans. Additionally, the University was not in compliance with the requirements to properly report student enrollment data correctly or timely to NSLDS.

Repeat finding: No.

Recommendation: We recommend that the University work with their third-party servicer and implement procedures to ensure that enrollment data, changes in status and effective dates within NSLDS are reported timely. And we recommend that the University implement formal review procedures to document the review process.

Views of responsible officials: There is no disagreement with the audit finding.

2023-003
Federal Agency: U.S. Department of Education

Federal Program Name: Student Financial Assistance Cluster

Assistance Listing Number: 84.268 – Federal Direct Loans

Federal Award Identification Number and Year: 2022-2023 P268K23010

Award Period: July 1, 2022 to June 30, 2023

Type of Finding: -Significant Deficiency in Internal Control Over Compliance
-Other Matters
Section III - Findings and Questioned Costs - Major Federal Programs (Continued)

2023-003 (Continued)

Criteria or specific requirement: The amount of a student’s federal direct loan award for an academic year is based on year in college and enrollment level. CFR 685.203 lays out the calculation for both federal direct subsidized loans and unsubsidized loans. In addition, Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements.

Condition: The University under awarded 1 student for Federal Direct Loans.

Questioned costs: None

Context: During our eligibility testing of forty students, one student was under awarded federal direct unsubsidized loans by $2,000. Student had transfer credits that came in after loan awards were disbursed that resulted in a change in class standing. Student was eligible for $2,000 in additional loans but was not notified of the additional amount available.

Cause: The University did not have proper procedures in place to identify when a student changes class standing in the middle of the term.

Effect: Student was under awarded Federal Direct Unsubsidized loans.

Repeat finding: No.

Recommendation: We recommend that the University refine its procedure for identifying when students change class standing in the middle of the term so students can then be notified of their change in class standing that resulted in an increase to their award package.

Views of responsible officials: There is no disagreement with the audit finding.

2023-004

Federal Agency: U.S. Department of Education

Federal Program Name: Student Financial Assistance Cluster

Assistance Listing Number: 84.007 – Federal Supplemental Educational Opportunity Grants

Federal Award Identification Number and Year: 2022-2023 – P007A221093

Award Period: July 1, 2022 to June 30, 2023

Type of Finding:
- Significant Deficiency in Internal Control Over Compliance
- Other matters
Section III - Findings and Questioned Costs - Major Federal Programs (Continued)

2023-004 (Continued)

Criteria or specific requirement: The Code of Federal Regulations, 34 CFR 676.10(a)(1) and (2) states “In selecting among eligible students for FSEOG awards in each award year, an institution shall select those students with the lowest expected family contributions who will also receive Federal Pell Grants in that year. If the institution has FSEOG funds remaining after giving FSEOG awards to all the Federal Pell Grant recipients at the institution, the institution shall award the remaining FSEOG funds to those eligible students with the lowest expected family contributions who will not receive Federal Pell Grants.” In addition, Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements.

Condition: The University awarded FSEOG to students with EFC’s higher than zero (the lowest expected family contribution) when there were students with the zero EFCs who did not receive FSEOG and were eligible to receive FSEOG.

Questioned Costs: $8,422

Context: In our sample of 8 FSEOG recipients there were four that had an EFC higher than zero. Two of the four were within the University's policy to award eligible students with EFCs in the 0-3500 range who meet the priority deadline. The other two were above the 3500 EFC policy level that had requested funding due to special financial situations. In our eligibility sample of 40, we noted there were Pell recipients with a zero EFC and remaining need that were not awarded FSEOG funds.

Cause: The University's policy is to award FSEOG to PELL recipients who have met the FAFSA priority deadline and have an EFC below 3,500. The University policy for awarding FSEOG funds was not capturing all students who had the lowest EFC and remaining need.

Effect: The University is not in compliance with the FSEOG awarding guidelines.

Repeat finding: No

Recommendation: We recommend that the University review their FSEOG awarding policy and procedures to ensure FSEOG is awarded to students with the lowest expected family contributions receive the funding.

Views of responsible officials: There is no disagreement with the audit finding.
Section III - Findings and Questioned Costs - Major Federal Programs (Continued)

2023-005
Federal agency: U.S. Department of Education

Federal Program Name: Student Financial Assistance Cluster

Assistance Listing Number: 84.268 – Federal Direct Loans
84.063 – Federal Pell Grant Program
84.007 – Federal Supplemental Educational Opportunity Grants
84.033 – Federal Work Study Program

Federal Award Identification Number and Year: 2022-2023 – P268K23010, P063P220101, P007A221093, P033A221093

Award Period: July 1, 2022 to June 30, 2023

Type of Finding: -Significant Deficiency in Internal Control Over Compliance

Criteria or specific requirement: Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements.

Condition: The University did not have observable controls to test over the professional judgement process. The University had an instance in which supervisory review of the verification procedure was not documented.

Questioned costs: None.

Context: During the testing of eligibility, we noted there were three instances in which professional judgement was used in the awarding process. We were unable to identify a specific control in place to ensure that any errors in professional judgement process would be prevented and detected in a timely manner. We did note that there is no formal review process over the professional judgement process. In addition, we noted in our verification testing that one out of twelve students tested did not have a signed statement of educational purpose by either the preparer or the reviewer.

Cause: There are no procedures to review professional judgement decisions made by the person performing the process. The review process for verification procedures was not being followed.

Effect: It is possible that errors could occur and not be caught in a timely manner.

Repeat finding: No

Recommendation: We recommend the University implement formal review procedures over the professional judgement process and to improve the process for review of verification documents so that it is not overlooked.

Views of responsible officials and planned corrective action: There is no disagreement with the audit finding.
Section I – Summary of Auditors’ Results

- **Financial Statements**
  1. Type of auditors’ report issued: Unmodified
  2. Internal control over financial reporting:
     - Material weakness(es) identified? □ yes □ no
     - Significant deficiency(ies) identified? □ yes □ none reported
  3. Noncompliance material to financial statements noted? □ yes □ no

- **Federal Awards**
  1. Internal control over major federal programs:
     - Material weakness(es) identified? □ yes □ no
     - Significant deficiency(ies) identified? □ yes □ none reported
  2. Type of auditors’ report issued on compliance for major federal programs: Unmodified
  3. Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? □ yes □ no

**Identification of Major Federal Programs**

Dollar threshold used to distinguish between Type A and Type B programs: $750,000/$187,500

Audittee qualified as low-risk auditee? □ yes □ no
Section II – Financial Statement Findings

Our audit did not disclose any matters required to be reported in accordance with Government Auditing Standards.
Section III – Findings and Questioned Costs – Major Federal Programs

2023-001 Errors in Reporting for NSLDS

Federal Agency: Department of Education

Federal Program Name: Student Financial Assistance Cluster

Assistant Listing Number: 84.007/84.033/84.063/84.268/84.379/93.364

Federal Award Identification Number and Year: P268K230100 - 2023, P007A221087 - 2023, P063P220100 - 2023, P033A221087 - 2023, P379T230100 - 2023, E4C14916 - 2023

Award Period: July 1, 2022 to June 30, 2023

Type of Finding: Material Weakness in Internal Control over Compliance; Compliance, Material Noncompliance

Criteria or Specific Requirement: The Code of Federal Regulations, 34 CFR 682.610, states that institutions must report accurately the enrollment status of all students regardless of if they receive aid from the institution or not. Changes to said status are required to be reported within 30 days of becoming aware of the status change, or with the next scheduled transmission of statuses if the scheduled transmission is within 60 days.

Condition: The College did not correctly update student status changes and enrollment effective dates, nor did the College do so timely.

Questioned Costs: None

Context: In our statistically valid sample of sixty students selected for NSLDS enrollment reporting testing, we identified twenty eight samples for which the student’s enrollment status was not correctly reported to NSLDS, thirty samples for which the enrollment effective date was not correctly reported to NSLDS, twenty eight samples for which the change in status was not reported timely to NSLDS, and twenty eight samples for which the enrollment was not certified within 60 days.

Cause: The College did not timely or properly report student status changes to NSLDS through their third-party servicer, National Student Clearinghouse (NSC).

Effect: Failure to properly report enrollment status changes on NSLDS could affect the timing of the grace period for repayment of Title IV loans. Additionally, the College was not in compliance with the requirements to properly report student enrollment data correctly or timely to NSLDS.

Repeat Finding: Yes, 2022-002

Recommendation: We recommend that the College work with their third-party servicer and implement procedures to ensure that enrollment data, changes in status and effective dates within NSLDS are reported timely.

Views of Responsible Officials and Planned Corrective Action: Management agrees with the finding and has developed a plan to correct it.
Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

2023-002 Special Tests and Provisions – Perkins

Federal Agency: Department of Education
Federal Program Name: Student Financial Assistance Cluster
Assistant Listing Number: 84.038
Federal Award Identification Number and Year: N/A – Prior Perkins Awards
Award Period: July 1, 2022 to June 30, 2023
Type of Finding: Significant Deficiency in Internal Control over Compliance, Other Matters

Criteria or Specific Requirement: The Code of Federal Regulations, 34 CFR 674.19.(e)(4)(iii), states that after the loan obligation is satisfied, the institution shall return the original or a true and exact copy of the note marked "paid in full" to the borrower, or otherwise notify the borrower in writing that the loan is paid in full, and retain a copy for the full prescribed period.

Condition: The College did not retain a copy of the note marked "paid in full" in the records of the retired or assigned loans.

Questioned Costs: None.

Context: During our testing, we noted that the college did not retain a copy of the note marked "paid in full." for six of the ten retired or assigned loans tested.

Cause: The College did not retain a copy of the note in the file.

Effect: The College is not in compliance with the record retention requirements.

Repeat Finding: No.

Recommendation: We recommend the college implement a checklist to reference to ensure all required elements of the Perkins loan records are retained as required.

Views of Responsible Officials and Planned Corrective Action: Management agrees with the finding and has developed a plan to correct it.
UNIVERSITY OF IDAHO

SUBJECT
University of Idaho Utility Public Private Partnership – Amended and Restated Concession Agreement

REFERENCE
April 16, 2020 The Board of Regents reviewed the University of Idaho’s potential Public-Private Partnership as an informational item.
November 2, 2020 The Board of Regents approved the Long Term Lease and Concession Agreement for the University of Idaho Utility System between the University of Idaho and Sacyr Plenary Utility Partners Idaho LLC.
February 15, 2023 The University of Idaho provided an update on the utility P3 for the Board of Regents and notified the Board of upcoming amendments.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.3.

BACKGROUND/DISCUSSION
After the approval of the Board of Regents, the University of Idaho (UI) executed a Long-Term Lease and Concession Agreement (Concession Agreement) under which UI received an up-front payment of $225,000,000 in exchange for UI leasing its Utility System assets, including operation and the exclusive right to perform capital improvements to infrastructure to Sacyr Plenary Utility Partners Idaho LLC (SPUPI) beginning on December 30, 2020.

As discussed with the Board in November 2020, numerous benefits accrue to UI as a result of this transaction. The upfront consideration, after defeasing $35 million in bond debt on utility assets, has been invested in a separate single-purpose entity, aptly named the Strategic Initiatives Fund (SIF), that will distribute at least $6,000,000 annually (depending on market performance of SIF investment assets) from the corpus and earnings of the upfront consideration to fund the University’s strategic initiatives to drive enrollment growth, provide scholarship opportunities to students, and grow the research enterprise as we march towards R1 status. Additionally, UI benefits from having a world-class operator, McKinstry, that leverages its expertise and experience in energy infrastructure to operate and maintain the utility system. Finally, the Concessionaire is required to submit an annual Five-Year Plan, proposing capital improvements that UI can approve at its sole discretion that will be financed over 20 years.

This transaction has been transformational for the University, and UI will continue to update the Board of Regents annually on the current status of utility system
operations and capital improvements, financial outcomes, the SIF, and student outcomes from SIF investment in student success, marketing, and the pursuit of R1. UI has also provided a detailed annual utility P3 update in the INFORMATIONAL section of the April 2024 Board meeting agenda.

After three years of operations under the Concession Agreement, the University and the Concessionaire have identified technical specifications, inefficiencies, market conditions, and other operational realities that warrant amendment to ensure the longevity of the agreement and mutually intended benefits to both parties.

The proposed amendments fall into five primary categories:
- Insurance – Article 13
- Technical Operation Performance Standards – Schedule 2
- Key Performance Indicators – Schedule 15
- Utility Fee Calculations – Article 7 and Schedule 5
- Capital Improvement Funding – Article 4

Insurance - Amendment to Article 13 (Attachment 1)

One feature of the Concession Agreement is the transfer of operational and casualty risk for the Utility System to SPUPI. To mitigate this risk, the Concession Agreement requires SPUPI to obtain All Risk Property Insurance for the Utility System, unless such insurance is not available at commercially reasonable rates. The cost of insurance premiums is passed on to the University as part of the Utility Fee that the University pays SPUPI.

The United States is experiencing a “hard” property insurance market, causing not only rapidly escalating premiums and tightened underwriting standards, but also carriers’ unwillingness to write policies. As a result, at the inception of the Concession Agreement, SPUPI’s insurance broker was unable to place coverage for the Utility System on a commercially reasonable basis. The University and SPUPI originally addressed this issue by entering into a Pre-Closing Agreement that required SPUPI to pay the premium for the University’s share of the All Risk Property policy purchased by the State of Idaho Risk Management Program on a statewide basis, in lieu of SPUPI obtaining its own policy. Under the Pre-Closing Agreement, SPUPI pays an equivalent portion of the premium and cannot pass on that premium cost to the University. The Pre-Closing Agreement has been extended two times, due to the continuing hard market. (Attachment 10)

Recently, SPUPI reported that its broker is still unable to place coverage for the Utility System. Further, the State of Idaho Risk Management program has notified the University that certain capital assets in the Utility System are and will continue to be excluded from policy that the State of Idaho Risk Management Program will obtain. Thus, the Pre-Closing Agreement no longer bridges the gap in coverage caused by the current hard market.
To address the problem, the University and SPUPI have agreed to amend the Concession Agreement to create a mechanism for paying for repairs and replacements if there is a casualty to uninsured assets in the Utility System.

In summary, the proposed amendment provides:

- SPUPI shall continue to seek coverage on a commercially reasonable basis and report to the University annually on its efforts.
- The terms under which State of Idaho Risk Management and the University of Idaho may retain risk at its discretion.
- SPUPI will pay the University a monthly payment (the costs cannot be passed on to the University) to compensate the University for the assumption of some of the risk of loss above $1,000,000 of loss per casualty event for Uninsured Property (no coverage from the State of Idaho or a commercial carrier and agreed upon by the University).
- A process for determining compensation to the University for retention of risk based on the Valuation of Uninsured Property.

Technical Operational Performance Standards – Amendment to Schedule 2 (Attachment 2 – Attachment 7)

Schedule 2 of the Concession Agreement outlines general performance standards and standards of operations, including procedures and delineation of responsibility for activities like emergency response, design standards, compliance with regulations, vehicle use, employee safety, and information technology. Additionally, Schedule 2 includes specific performance standards for the eight utilities operated by the Concessionaire: 1) Chilled Water, 2) Steam and Condensate, 3) Electric, 4) Domestic Water, 5) Compressed Air, 6) Storm Water, 7) Sanitary Sewer, and 8) Reclaimed Water. Each of the eight utility systems has specific requirements unique to that utility, such as pressure, temperature, voltage, etc., as well as efficiency, metering, quality, and regulatory requirements. This section of the Concession Agreement also specifies the lines of demarcation that explain where the University’s responsibility ends and the Concessionaire’s begins, design standards, and definitions of Unplanned Outages for each specific utility.

The proposed amendment reflects three years of collaboration between UI and SPUPI to clarify the intent and meaning of the language, rectify any inaccuracies, and align the language to the actual operations of the Utility System.

In summary, the proposed amendment provides:

- Clarification and consistency of the lines of demarcation for the eight utilities.
- Updates to performance standards to improve accuracy and measurability, while aligning them to drive optimal performance of the system.
• Updates to data collection and retention requirements to ensure actionable data is available without unnecessary measurement and retention.
• Updated measurement methodologies and locations for performance data.
• Elimination of redundant Unplanned Outage definitions that inhibit desired performance.
• Updated regulatory requirements to align with state and federal law.
• Updates to performance expectations and Unplanned Outage definitions to ensure maximum electrical output from the newly installed microturbines.
• Elimination of the SCADA System Performance Standard Section (the underlying system belongs to the University) and a complete redrafting of the section to outline the roles and responsibilities.
• Updates and revisions to Appendix G System Operating Efficiency Reporting to reflect more meaningful and measurable metrics.

Key Performance Indicators – Amendment to Schedule 15 (Attachment 9)

Schedule 15 of the Concession Agreement defines Key Performance Indicators (KPI) and calculation methodologies for KPIs and KPI Compensation to the University in the instance of a KPI Event. For each of the eight utilities, the KPIs are based on availability of the utility service as compared to the Total Possible Connection Hours (Availability KPI) and consist of two types of KPI Events: 1) A KPI calculation based on the number of hours of availability and 2) A KPI calculation based on the number of unique Unplanned Outages. Compensation to the University in a given fiscal year increases as the number of hours for which the utility was unavailable increases and as the number of unique Unplanned Outages increases. Compensation increases for consecutive years of KPI Events for the same utility. There are two tables for each utility illustrating the progression.

The lack of clarity for the definition of Total Possible Connection Hours was the primary impetus for these amendments to Schedule 15. One interpretation was that Total Possible Connection Hours should be calculated by multiplying the number of hours in a day by the number of days in a year for each utility. Another interpretation was that Total Possible Connection Hours should be calculated by multiplying the number of hours in a day by the number of days in a year by the number of buildings. With the current KPI tables, the former would disproportionately disadvantage the Concessionaire, requiring it to pay disproportionate KPI Compensation for short Unplanned Outages and encouraging it to propose expensive and unnecessary Capital Improvements and additional maintenance costs to avoid outages and minimize Compensation Events. These costs would be passed on to the University. The latter would disproportionately disadvantage the University by diluting the KPIs 100-fold, rendering them pointless and without the necessary incentives to ensure that the Concessionaire prioritizes availability of utility service to our campus. The intent of the proposed amendment to Schedule 15 is to clarify the definition of Total Possible Connection Hours by defining the calculation methodology (the basis on which percentage of availability of each utility is calculated each fiscal year) and
then align Target availability, KPI Event thresholds, and compensation with the clarified definition and the operational realities of our Utility System.

In summary, the proposed amendment provides:

- A clear definition of Total Possible Connection Hours.
- The addition of Criticality Factors for each building which adjust compensation for less critical building to encourage prioritization of more critical buildings during Unplanned Outages.
- Clarity on KPI Calculations for multiple outages caused by a single root cause.
- Changes to KPI Calculations for Targets, thresholds for increased compensation, and KPI Compensation to align with the accurate definition of Total Possible Connection Hours.
- Change from percentages to hours as the method of calculation for KPIs for ease and to reduce discrepant interpretation.

Utility Fee Calculations – Amendment to Article 7 and Schedule 5 (Attachment 1 and Attachment 8)

The Utility Fee is the established compensation to the Concessionaire for Utility Services. The Utility Fee includes a Fixed Fee, a Variable Fee Component, and an Operating Fee. The Variable Fee Component accounts for the Capital Improvements approved by the University and paid back over 20 years upon completion of the Capital Improvement. The Variable Fee Component is a calculated financing cost using a Return on Equity Factor and a Cost of Debt Factor to account for the return on the Unrecovered Capital expended to perform the approved Capital Improvements. Schedule 5 and Article 7 outline an annual forecast of the fees on which the subsequent fiscal year’s fees are based, with an annual reconciliation. This is disadvantageous to the University because the University may prepay for capital that may not be expended, only to recover the overpayment up to 12 months later. The University may also incur Incremental Financing Costs for capital expended due to the Utility Fee not being updated until many months later. The proposed amendments to these sections revise the reconciliation period to a Fiscal Year Half. The requirement of a mid-year reconciliation increases the accuracy of the Utility Fee, reducing both overpayment and Incremental Financing Costs.

Capital Improvement Funding – Article 4 (Attachment 1)

Article 4 of the Concession Agreement describes the process and conditions under which the Concessionaire shall perform Capital Improvements and Material Changes to the Utility System, a responsibility and right guaranteed in Section 2.1. This is an essential component of the Concessionaire’s business model of which the revenues were an important consideration in determining the amount of the Upfront Consideration granted to the University upon closing. However, recent
appropriations for the improvement of infrastructure have exceeded expectations but were unavailable to be used for utility improvements due to the Concession Agreement language. The proposed amendment to Article 4 provides an exception to the exclusive right to perform capital improvements to infrastructure in instances where the University has approved $8,000,000 per fiscal year in the three prior fiscal years and has received appropriations for Capital Improvements that exceed $10,000,000 and are 200% greater than the prior year’s appropriation.

IMPACT

The proposed amendment will provide necessary updates to a 50-year agreement, providing clarity and efficiencies for the remaining 47 years of the concession. The shift to the University and State Risk of some of the casualty risk that would normally have been borne by the Concessionaire’s insurance carrier is necessary due to the current hard market conditions and is intended to be a short-term solution until the Concessionaire is able to procure coverage as intended by the agreement. Under the circumstances, however, the allocation of risk is fair, and the University is compensated for accepting some of the risk. SPUPI will not obtain a windfall or unfair economic advantage because 1) repair and replacement of uninsured assets will not be paid through the Utility Fee, and 2) SPUPI will pay the University an amount similar to what SPUPI would have paid in premiums and will not pass that cost on to the University. The amendment will also improve operational efficiency by clarifying technical performance standards and clearly defining performance expectations and compensation for KPI Events. The KPIs are now aligned to drive performance without driving up capital and operational costs. Amendments to allow the University flexibility in funding Capital Improvements and additional opportunities to update the Utility Fee will provide the University additional avenues to improving the Utility System and reduce financing costs to the institution.

The Concession Agreement has provided $225,000,000 to the University for its key strategic initiatives that will benefit our students and drive research and innovation at the University of Idaho for the next 47 years. The University proposes this amendment as a means of continuing the fruitful partnership with SPUPI.

Attachment 1 – Amended & Restated Concession Agreement
Attachment 2 – Amended & Restated Performance Standards (Schedule 2)
Attachment 3 – Original Appendix G (Schedule 2)
Attachment 4 – Revised Appendix G (Schedule 2)
Attachment 5 – Original Appendix L (Schedule 2)
Attachment 6 – Revised Appendix L (Schedule 2)
Attachment 7 – Appendix BB (Schedule 2)
Attachment 8 – Amended and Restated Utility Fee (Schedule 5)
Attachment 9 – Amended and Restated Key Performance Indicators (Schedule 15)
Attachment 10 – Third Pre-Closing Agreement
BOARD STAFF COMMENTS AND RECOMMENDATIONS

The Board of Regents approved a public-private partnership (P3) in November 2020 establishing a Long Term Lease and Concession Agreement for the University of Idaho Utility System between the University of Idaho and Sacyr Plenary Utility Partners Idaho LLC. The agreement has provided the University of Idaho with an innovative strategy to both address deferred maintenance as well as providing investment capital for the University’s strategic investments.

Over the past several years of operating under the original Concession Agreement, the University and the Concessionaire have identified technical issues, inefficiencies, market forces, and operational challenges that warrant revisiting to ensure the mutually intended benefits continue for both parties.

The proposed amendments fall into five (5) primary categories:
1. Insurance
2. Technical Operation Performance Standards
3. Key Performance Indicators
4. Utility Fee Calculations
5. Capital Improvement Funding

Staff have reviewed all updated documentation related to the Restated Concession Agreement. The First Amended and Restated Long Term Lease and Concession Agreement has been negotiated and endorsed by University of Idaho’s leadership and its legal counsel. Board approval would be based on the representations and recommendations of the University of Idaho.

BOARD ACTION

I move to approve the First Amended and Restated Long Term Lease and Concession Agreement by and between The Regents of the University of Idaho and Sacyr Plenary Utility Partners Idaho LLC, dated as of November 2, 2020 in substantial conformity with the terms and conditions presented to The Board of Regents on April 17, 2024, and to authorize the University of Idaho’s Vice-President for Finance and Administration to execute and deliver documents in connection therewith.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
FIRST AMENDED AND RESTATED
LONG-TERM LEASE AND CONCESSION AGREEMENT FOR
THE UNIVERSITY OF IDAHO UTILITY SYSTEM

dated as of

November 2[______], 2020

by and between

THE REGENTS OF THE UNIVERSITY OF IDAHO

and

FIRST AMENDED AND RESTATE
LONG-TERM LEASE AND CONCESSION AGREEMENT FOR
THE UNIVERSITY OF IDAHO UTILITY SYSTEM

THIS FIRST AMENDED AND RESTATED LONG-TERM LEASE AND CONCESSION AGREEMENT FOR THE UNIVERSITY OF IDAHO UTILITY SYSTEM (this “Agreement”) is made and entered into as of this 2nd day of November, 2020, by and between The Regents of the University of Idaho (the “University”) and SACYR PLENARY UTILITY PARTNERS IDAHO LLC, a Delaware limited liability company (the “Concessionaire”).

RECITALS1

WHEREAS, the University has established a Utility System Parties (as defined herein) and owns or leases (as applicable) the Utility Facilities and the Utility System Assets (both, as defined herein); and entered into that certain Long-Term Lease and Concession Agreement for the University of Idaho Utility System (the “Original Agreement”) dated as of November 2, 2020 (the “Signing Date”);

WHEREAS, pursuant to the Original Agreement, the Parties closed on the Transaction (as defined herein) on December 30, 2020 (the “Closing Date”);

WHEREAS, pursuant to Article IX, Section 10 of the Constitution of the State of Idaho, and Idaho Code Section 33-2801 et seq., the University was authorized to enter into the Transaction, and which it subsequently did;

WHEREAS, the University, as part of the procurement process described in the University of Idaho P3 Utility System Transaction Request for Proposal Submission dated June 26, 2020 (as, as subsequently modified and amended or modified, the “Request for Proposals”), has and selected the Concessionaire as the winning bidder for the long-term lease and concession of the Utility System (as described herein) based on the Concessionaire’s performance in relation to the evaluation criteria established by the University; and

WHEREAS, the Concessionaire desires to lease the Utility Facilities and the Utility System Land from the University and receive an exclusive grant from the University to operate, maintain, possess, control and improve the Utility System for the Term (as defined herein) of this Agreement, all as hereinafter provided; and

WHEREAS, the University has determined that the engagement of the Concessionaire under this Agreement will, among other things, further its energy efficiency and sustainability goals, provide a mechanism for capital improvements as needed, permit the more efficient operation of the Utility System, and advance the overall educational purposes of the University, and, therefore, desires to lease the Utility Facilities and the Utility System Land to the Concessionaire and provide the Concessionaire the exclusive right to operate, maintain, possess,

1 NTD: Changes to the Recitals are necessary to lay out the reason for the amending and restating the Original Agreement.
control and improve the Utility System for the Term of this Agreement, all as hereinafter provided; and

WHEREAS, the Concessionaire agrees to lease the Utility Facilities and to operate, maintain, possess, control and improve the Utility System in accordance with the provisions of this Agreement, including the Performance Standards (as defined herein); and

WHEREAS, the Concessionaire agrees to provide the Utility Services (as defined herein) to the University and to engage in the Utility System Operations pursuant to the terms and conditions of this Agreement; and

WHEREAS, the Parties desire to amend and restate the Original Agreement as hereinafter set forth.

NOW THEREFORE, for and in consideration of the promises, the mutual covenants, representations, warranties and agreements contained herein and other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties (as defined herein) covenant and agree to amend and restate the Original Agreement in its entirety to read as follows:

ARTICLE 1
DEFINITIONS AND INTERPRETATION

Section 1.1. Definitions. Unless otherwise specified or the context otherwise requires, for the purposes of this Agreement the following terms have the following meanings: “AA-Compensation” has the meaning ascribed thereto in Section 14.1(b).

“AA-Dispute Notice” has the meaning ascribed thereto in Section 14.1(c).

“AA-Notice” has the meaning ascribed thereto in Section 14.1(c).

“AA-Preliminary Notice” has the meaning ascribed thereto in Section 14.1(c).

“AAA” means the American Arbitration Association.

“Actual Knowledge of the University” means the actual, current knowledge of the University’s Vice President for Finance and Administration or the University’s Assistant Vice President, Facilities on any date which a relevant representation or warranty is made, with the duty for each of the foregoing to inquire of his or her direct reports within 5 Business Days prior to the date of such representation or warranty regarding the relevant matter, but without any other duty of inquiry or investigation.

“Additional Coverages” has the meaning ascribed thereto in Section 13.3(m).

“Adjusted for Inflation” means adjusted by the arithmetic average of the percentage increases, if any, or decreases, if any, in the CPI Index during the most recent adjustment period as specified herein.
“Adverse Action” has the meaning ascribed thereto in Section 14.1(a).

“Affiliate”, when used to indicate a relationship with a specified Person, means a Person that, directly or indirectly, through one or more intermediaries (i) has a 50% or more voting or economic interest in such specified Person or (ii) controls, is controlled by or is under common control with (which shall include, with respect to a managed fund or trust, the right to direct or cause the direction of the management and policies of such managed fund or trust as manager, advisor, supervisor, sponsor or trustee pursuant to relevant contractual arrangements) such specified Person, provided that a Person shall be deemed to be controlled by another Person if controlled in any manner whatsoever that results in control in fact by that other Person (or that other Person and any Person or Persons with whom that other Person is acting jointly or in concert), whether directly or indirectly and whether through share ownership, a trust, a contract or otherwise (for purposes of this definition, a managed fund or trust shall be deemed to be an Affiliate of the Person managing, supervising, sponsoring or advising such fund or trust and a limited partner in a managed fund or trust shall be deemed to be an Affiliate of such fund or trust and of the Person managing, supervising, sponsoring or advising such fund or trust).

“Agreement” has the meaning ascribed thereto in the preamble hereto (including all Schedules referred to herein), as amended from time to time in accordance with the terms hereof.

“Annual Savings” has the meaning ascribed thereto in Section 7.1(c).

“Annual Savings Incentive” has the meaning ascribed thereto in Section 7.1(c).

“Approved Five-Year Plan” means the Five-Year Plan then in effect pursuant to Section 7.2.

“Approval”, “Approved”, “Approves”, “Approved by the University” and similar expressions mean approved or consented to by the University in accordance with the provisions of Section 1.15.

“Arboretum Well” means the parcel identified on Part 1 of Schedule 3 as the “Well” adjacent to building #085 and associated improvements installed therein.

“Assignment and Assumption Agreement” has the meaning ascribed thereto in Section 19.8(c).

“Assumed Liabilities” has the meaning ascribed thereto in Section 3.2(d).

“Audit and Review” and similar expressions mean, with respect to any matter or thing relating to the Utility System, the Utility System Operations or this Agreement, the performance by or on behalf of the University of such reviews, investigations, inspections and audits relating to such matter or thing as the University may reasonably determine to be necessary in the circumstances, conducted in each case in accordance with Prudent Industry Practices, if any, or as required by Law, and in accordance with the provisions of this Agreement.

“Authorization” means any approval, certificate of approval, certification, authorization, consent, waiver, variance, exemption, declaratory order, exception, license, filing, registration,
permit, franchise, notarization or other requirement of any Person that applies to the Utility System or is reasonably required from time to time for the Utility System Operations, including any of the foregoing issued, granted, given or otherwise made available by or under the authority of any Governmental Authority or pursuant to any applicable Law.

“Bank Rate” means SOFR (or any successor rate thereto) as reported in the Wall Street Journal (or any successor thereof).

“Baseline Capped O&M Costs” means, for a Fiscal Year (the “Relevant Fiscal Year”), Capped O&M Index for the first Fiscal Year during the Term, but excluding the costs and expenses attributable to payroll and benefits due to employees that were engaged in the operations and maintenance of the Utility System, (a) adjusted for inflation calculated by reference to the applicable CPI Index in each subsequent Fiscal Year up to and including the Relevant Fiscal Year and (b) increased by the forecasted annual operations and maintenance costs during the Relevant Fiscal Year which are attributable to all Approved Capital Improvements and Material Changes that have been brought into service at any time prior to the end of the Relevant Fiscal Year (to the extent that such forecasted costs were included in the Approval for such New Approved Capital Improvements or Material Changes, as applicable), provided that the foregoing shall be calculated in accordance with the illustrative example set out in Exhibit A of Schedule 5.

“Bid Date” means October 14, 2020.

“Breakage Costs” means any breakage costs, make-whole premium payments, termination payments or other prepayment amounts (including debt premiums and interest rate hedge termination costs) that are required to be paid by the Concessionaire with respect to Leasehold Mortgage Debt as a result of the early repayment (including, following acceleration) of such Leasehold Mortgage Debt prior to its scheduled maturity date.

“Business Day” means any Day that is neither a Saturday, a Sunday nor a Day observed as a holiday by the University; provided, that solely with respect to the timing of any payment obligation under this Agreement, a Business Day shall also not be a Day on which banks that are members of the United States federal reserve system are permitted or required to be closed.

“Campus-Wide Permits” means the Authorizations set forth on Schedule 18, as each may be extended, renewed, modified or replaced.

“Capital Improvement” means any improvement to or replacement or expansion of the components of the Utility Facilities, Tunnels or Shared Spaces that is capital in nature, as determined in accordance with GAAP.

“Capital Recovery Amount” has the meaning ascribed thereto in Schedule 5.

“Capped O&M Ceiling” has the meaning ascribed thereto in Schedule 5.
“Capped O&M Costs”\(^2\) means the following specifically identified out-of-pocket operating and maintenance costs and expenses incurred by the Concessionaire (which costs and expenses shall include payments due and payable by the Concessionaire to the Operator or other Contractors pursuant to an Operating Agreement or similar agreement) or the Operator in operating the Utility System and complying with their respective obligations under this Agreement, without duplication: (i) the charges as described in Section 3.9(a); (ii) the professional expenses, salaries, employee benefits and bonuses paid or granted to employees and contractors of the Concessionaire or the Operator to perform any of the Utility System Operations and including the costs of issuing and administering requests for proposals in connection with the procurement of subcontractors; (iii) the cost of the supplies (other than Supplies) reasonably necessary to possess, control, operate and manage the Utility System and used exclusively in connection therewith, specifically, (1) office supplies, (2) motor vehicle supplies, (3) safety supplies, (4) uniforms, (5) computer supplies, (6) telecommunication equipment, (7) measuring and testing equipment and instruments, (8) radios, pagers, cell phones and similar communication equipment, (9) gas containers and (10) hand tools; (iv) postage and delivery charges; (v) long-distance and local telephone call charges; (vi) internet access charges; (vii) repair and maintenance of any of the Utility System Assets or Utility Facilities to the extent incurred in accordance with Prudent Industry Practices (including, for the avoidance of doubt, the cost to dispose of ash and other waste products generated by the Utility System Operations); (viii) legal fees directly related to the operation of the Utility System and specifically excluding legal fees associated with the negotiation of this Agreement, the Original Agreement or the Trademark License Agreement, any amendment or modification thereto or any dispute with the University in connection with this Agreement, the Original Agreement, the Trademark License Agreement, the Utility System Operations or the Transaction; (ix) design, energy auditing and engineering services (other than in connection with any University Directive); (x) janitorial services for the Utility Facilities; (xi) seminar and training costs for employees of the Concessionaire or the Operator; (xii) service vehicles exclusively used in the performance of Utility System Operations; (xiii) insurance charges for the insurance that the Concessionaire is required to carry pursuant to Article 13; (xiv) lease and rental charges other than any payments paid by the Concessionaire to the University for the lease of the Utility System; (xv) the costs of performing inspections required by the Performance Standards; (xvi) the costs incurred in connection with utility coordination pursuant to Section 3.9(b); (xvii) the costs of compliance with the Campus-Wide Permits to the extent applicable to the Utility System; (xviii) other selling, general and administrative expenses but only to the extent that such expenses would be properly included in a cost of service rate regulated by the Federal Energy Regulatory Commission and are not specifically identified as Uncapped O&M Costs; (xix) payments to the Operator pursuant to the agreement between the Concessionaire and the Operator to operate the Utility System pursuant to this Agreement (including, for the avoidance of doubt, any operator fee payable to the Operator under such operating agreement, subject to the limitations set forth in Section 3.3); (xx) the costs for the Operator to be a member of any regulatory program, to the extent required by Law or this Agreement; (xxi) the costs for any Authorizations for the Concessionaire or Operator to perform the Utility System Operations, to the extent required by Law including those costs paid to the University for an Authorization that the University uses to pay the applicable Governmental Authority; (xxii) the professional fees and expenses relating to

\(^2\) NTD: Changes to this definition are necessary to confirm there are no costs associated with the Original Agreement or this A&R Agreement.
the preparation of audited financial statements of the Concessionaire for purposes of Section 8.1(c); (xxiii) the cost and expense paid to the applicable Credit Rating Agency for maintaining the credit rating required by Section 3.6 (provided that, for the first 3 Fiscal Years (and any partial Fiscal Year) after Closing, this cost shall be treated as Uncapped O&M Costs and shall not be included in the calculation of the Capped O&M Index, and after such period will be added to the Capped O&M Index in accordance with Section 3.6); and (xxiv) the costs incurred to comply with Section 3.22 (other than any Capital Improvements, which shall be subject to Article IV); provided that, in no event, shall Capped O&M Costs include any costs or expenses incurred by the Concessionaire or the Operator that result from the negligence or willful misconduct of, or violation of applicable Law by, the Concessionaire or the Operator.

“Capped O&M Index” has the meaning ascribed thereto in Schedule 5.

“Cash Deposit” has the meaning ascribed thereto in Section 2.3(a).

“Casualty Cost” has the meaning ascribed thereto in Section 13.4(a)(ii).

“Change in Control” means, with respect to any Person, whether accomplished through a single transaction or a series of related or unrelated transactions and whether accomplished directly or indirectly, any of (i) a change in ownership so that 50% or more of the direct or indirect voting or economic interests in such Person (calculated as of the Signing Date) is transferred to a Person or group of Persons acting in concert, (ii) the power directly or indirectly to direct or cause the direction of management and policy of such Person, (calculated as of the Signing Date), whether through ownership of voting securities, by contract, management agreement, or common directors, officers or trustees or otherwise, is transferred to a Person or group of Persons acting in concert or (iii) the merger, consolidation, amalgamation, business combination or sale of substantially all of the assets of such Person; provided, however, that notwithstanding anything to the contrary set forth in this definition, none of the following shall constitute a Change in Control for the purposes of this Agreement:

(a) Transfers of direct or indirect ownership interests in the Concessionaire between or among Persons that are majority-owned Affiliates of each other or Persons who are under common control, whether directly or indirectly and whether through share ownership, a trust, a contract or otherwise;

(b) Transfers of equity of the Concessionaire or of the direct or indirect owners of the Concessionaire pursuant to bona fide open market transactions on the New York Stock Exchange, NASDAQ, London Stock Exchange, Toronto Stock Exchange or comparable U.S. or foreign securities exchange, including any such transactions involving an initial or “follow on” public offering of direct or indirect equity holders of the Concessionaire; provided that no Person (that is not an Equity Participant or its beneficial owner having ownership interests in the Concessionaire) or group of Persons acting in concert (that is not an Equity Participant or its beneficial owner having

\[1\text{ NTD: Changes to this definition are necessary to ensure that this A&R Agreement does not substantively change what a “Change in Control” is.}\]
ownership interests in the Concessionaire as of the Signing Date acquires securities such that such Person or group of Persons beneficially owns more than 50% of the publicly traded securities of the Concessionaire;

(c) Transfers of direct or indirect ownership interests in the Concessionaire by any Equity Participant or its beneficial owners to any Person so long as the Equity Participants or their respective beneficial owners having ownership interests in the Concessionaire as of the Signing Date together retain, in the aggregate, (1) 50% or more of the direct or indirect voting or economic interests in the Concessionaire or (2) the power to directly or indirectly direct or cause the direction of management and policy of the Concessionaire, whether through ownership of voting securities, contract or management agreement or common directors, officers or trustees or otherwise;

(d) Any change of ownership that is attributable to a lease, sublease, concession, management agreement, operating agreement or other similar arrangement that is subject and subordinate in all respects to the rights of the University under this Agreement so long as (1) no Change in Control occurs with respect to the Concessionaire, and (2) the Concessionaire remains obligated under this Agreement;

(e) The creation of a trust or any other transaction or arrangement that is solely a transfer of all or part of the Concessionaire’s economic interest under this Agreement to another entity so long as (1) no Change in Control occurs with respect to the Concessionaire, and (2) the Concessionaire remains obligated under this Agreement;

(f) Transfers of direct or indirect ownership interests in the Concessionaire (1) between or among investment funds, including funds that invest in infrastructure, and investors therein; provided that, following such Transfer, such direct or indirect ownership interests remain under the same common ownership, management or control as existed prior to such Transfer, or (2) from investment funds, including infrastructure funds, or investors therein, to any Person; provided that such direct or indirect ownership interests, following the consummation of such Transfer, remain under the same management or control that existed prior to such Transfer, it being understood that ownership interests shall be deemed to be controlled by a Person if controlled in any manner whatsoever that results in control in fact, whether directly or indirectly, and whether through share ownership, a trust, a contract or otherwise; and

(g) Mergers between an Equity Participant and a third party, provided that, immediately prior to such merger, the equity interests of both parties are publicly traded in open market transactions on the New York Stock Exchange, NASDAQ, London Stock Exchange, Toronto Stock Exchange or comparable U.S. or foreign securities exchange.
“Chilled Water Tank (Thermal Energy Storage)” means the building identified as building #748 on Part 1 of Schedule 3 and associated improvements installed therein that is currently used for the storage of 2.0 million gallons chilled water supporting commonly known as the “Thermal Energy Storage Tank (TES),” which stores chilled water that is in turn distributed across the University Campus through the General Chilled Water Portion of the Utility System (as defined in Schedule 15).

“Chip Facility Scale House” means the building identified as building #761 on Part 1 of Schedule 3 and associated improvements installed therein.

“Chip Storage/Drying Facility” means the building identified as building #758 on Part 1 of Schedule 3 and associated improvements installed therein.

“Claim” means any demand, action, cause of action, suit, proceeding, arbitration, claim, judgment or settlement or compromise relating thereto which may give rise to a right to a payment obligation under Section 12.1 or Section 12.2.

“Closing” has the meaning ascribed thereto in Section 2.2(a).

“Closing Consideration” has the meaning ascribed thereto in Section 2.1.

“Closing Date” has the meaning ascribed thereto in Section 2.2(a).

“Closing Deposit” has the meaning ascribed thereto in Section 2.3(a).

“Closing Period” means the period between the date hereof Signing Date up to the Time of Closing.4

“Code” means the Internal Revenue Code of 1986, as amended from time to time. Any reference in this Agreement to a particular provision of the Code shall be interpreted to include a reference to any corresponding provision of any successor statutes.

“Comparable Utility Systems” means with respect to any component of the Utility System, a utility system producing and/or delivering any of the Utilities (whether privately or publicly owned) that is located at a large university, is used in connection with providing such utility services to such university, its employees, customers and visitors and is reasonably comparable to the relevant component of the Utility System in terms of physical structure, capacity, utilization and the nature of the services provided, provided that the University and the Concessionaire may designate by written agreement one or more utility systems as “Comparable Utility Systems”.

“Compensation Calculation Date” means (i) every 3rd June 30 during the Term, commencing as of June 30, 2024, (ii) the date of removal of the Operator pursuant to Section 3.3(c)(ii), (iii) the first June 30 after any date on which one Party notifies the other Party

---

4 NTD: Changes from “date hereof” to the “Signing Date” throughout are necessary to ensure there are no unintended changes in the time period of the relevant statement.
that it, in good faith, believes that the Concession and KPI Compensation Balance would exceed $1,000,000 if calculated on the date of such notice and (iv) the End Date.

“Compensation Calculation Measuring Period” means (i) with respect to the first Compensation Calculation Date, the period commencing on (a) the Closing Date, for Concession Compensation and (b) the Day immediately following the Post-Closing Transition Period, for KPI Compensation, and, in each case expiring on such Compensation Calculation Date, and (ii) with respect to each subsequent Compensation Calculation Date, the period between such Compensation Calculation Date and the immediately preceding Compensation Calculation Date.

“Compensation Event” means (i) subject to Article 5, the Concessionaire’s compliance with or the implementation of any University Directive or any modified or changed Performance Standard subject to Section 6.3(b), provided that it shall not be a Compensation Event if the costs or reduction in revenue incurred in connection therewith will be recovered by the Concessionaire pursuant to the calculation and payment of the Utility Fee; (ii) the occurrence of an Adverse Action; (iii) the occurrence of an event causing a delay described in the definition of “Delay Event” but only to the extent that the Utility Fee is reduced by a Delay Event caused by such event pursuant to Section 15.1(c); (iv) the occurrence of those certain events described under Section 3.7(a) and Section 3.7(e) which are expressly identified as requiring the payment of Concession Compensation; (v) the University distributing or permitting any third party to distribute on the University Campus, any Utility, except as permitted by Section 3.21; (vi) the Concessionaire incurring any Losses as a result of failing to obtain, or being unreasonably delayed in obtaining, or failing to promptly renew or maintain in good standing, an Authorization from the University that is necessary to comply with Law, despite the Concessionaire’s use of its reasonable best efforts to obtain, promptly renew or maintain in good standing such Authorization, and such failure or delay could not have been reasonably prevented by commercially reasonable technical, scheduling or other measures of the Concessionaire; (vii) any action of the Idaho Public Utilities Commission or the Federal Energy Regulatory Commission or their successors, that subjects the Concessionaire to such agency’s regulatory jurisdiction due solely to the Utility System Operations performed in accordance with this Agreement and has a material adverse effect on the fair market value of the Concessionaire Interest (whether as a result of a decrease in the Utility Fee or other revenues or increased expenses that cannot be recovered pursuant to this Agreement or both), except where such action is in response to any act or omission on the part of the Concessionaire that is illegal (other than an act or omission rendered illegal by virtue of the agency’s action) or such action is otherwise permitted under this Agreement and such designation as a Compensation Event shall be the Concessionaire’s sole right and remedy with respect to any action by the Idaho Public Utilities Commission or the Federal Energy Regulatory Commission (or their successors) subjecting a Person to its jurisdiction in connection with the Utility System; (viii) the occurrence of any other event that under the terms of this Agreement expressly requires the payment of Concession Compensation or (ix) any increase in the number of University Utility System Employees from the Setting Date until the Closing Date to the extent such additional University Utility System Employees are employed by the Concessionaire or Operator immediately after the Closing Date.

“Concession Compensation” means any amount payable by the University to the Concessionaire in order to restore the Concessionaire to the same economic position the Concessionaire would have enjoyed if the applicable Compensation Event had not occurred,
which amount, for any Compensation Calculation Date, shall be calculated as the sum of (i) all Losses for the applicable Compensation Calculation Measuring Period (including increased O&M Costs (which, for the avoidance of doubt, shall be regardless of the Capped O&M Ceiling) and financing costs but excluding any costs and expenses (including O&M Costs) that the Concessionaire is able to recover through the payment of the Utility Fee) plus (ii) the actual and estimated net losses of the Utility Fee for the applicable Compensation Calculation Measuring Period that is reasonably attributable to such Compensation Event; provided, however, that with respect to clause (ii), the amount of such actual and estimated net losses that may be claimed at any Compensation Calculation Date shall not exceed the amount of actual and estimated net losses of the Utility Fee suffered during, and attributable only to, such Compensation Calculation Measuring Period (including the inability to make Capital Improvements that the University had Approved); provided, further, that with respect to clause (ii), the amount of such actual and estimated net losses reasonably attributable to such Compensation Event and suffered during, and attributable only to, a future Compensation Calculation Measuring Period may be claimed as Concession Compensation for such future Compensation Calculation Measuring Period only during such future Compensation Calculation Measuring Period in accordance with Article 15. Concession Compensation, if any, shall be paid in accordance with Article 15 and shall not be subject to any limitations on the amount of the Utility Fee including the Capped O&M Ceiling. If the Concessionaire elects to provide its own capital for a Capital Improvement with respect to compliance with any Compensation Event that is not recoverable by the Concessionaire pursuant to the Utility Fee, then the Concession Compensation, shall, in addition to the components described above, take into account a return on such capital equal to the Return on Equity Factor.

“Concession and KPI Compensation Balance” means, at each Compensation Calculation Date, (i) Concession Compensation due and payable with respect to such Compensation Calculation Measuring Period pursuant to the terms of this Agreement less (ii) the sum of all KPI Compensation due and payable with respect to such Compensation Calculation Measuring Period pursuant to the terms of this Agreement, plus (iii) the Concession and KPI Compensation Balance (which may be negative) for the preceding Compensation Calculation Measuring Period if carried forward pursuant to Section 15.3(e).

“Concessionaire” has the meaning ascribed thereto in the preamble to this Agreement.

“Concessionaire Default” has the meaning ascribed thereto in Section 16.1(a).

“Concessionaire Interest” means the interest of the Concessionaire in the Utility System created by this Agreement and the rights and obligations of the Concessionaire under this Agreement.

“Concessionaire Required Coverages” has the meaning ascribed thereto in Section 13.1.

“Concessionaire Retained Casualty” means a casualty affecting the Utility System (i) that is caused by the willful misconduct of the Concessionaire, the Operator, or any Contractor of the Concessionaire that is primarily responsible for the ongoing Utility System Operations or any of their Affiliates or any Equity Participant or any of their Affiliates, (ii) for which the Concessionaire carries insurance in accordance with Section 13.1 that is intended to cover the loss caused by such casualty, (iii) wherein the affected portion of the Utility System had been
declined to be defined as Uninsured Utility System Property by the University pursuant to Section 13.3(u)(iii) or (iv) wherein the affected Utility System is Uninsured Utility System Property that the Concessionaire elected to not have covered pursuant to Section 13.3(u)(iii).

“Concessionaire’s Parent” means the Person, if any, that directly owns, and only owns, 100% of the shares of capital stock, units, partnership or membership interests, other equity interests and equity securities, to the extent applicable, of the Concessionaire.

“Consent” means any approval, consent, ratification, waiver, exemption, franchise, license, permit, novation, certificate of occupancy or other authorization of any Person, including any Consent issued, granted, given or otherwise made available by or under the authority of any Governmental Authority or pursuant to any applicable Law.

“Contractor” means, with respect to a Person, any contractor with whom such Person contracts to perform work or supply materials or labor in relation to the Utility System, including any subcontractor of any tier, supplier or materialman directly or indirectly employed pursuant to a subcontract with a Contractor. For the avoidance of doubt, the Operator (if other than the Concessionaire) shall be a Contractor of the Concessionaire.

“CPI Index” means the “Consumer Price Index – West Urban, All Items” (not seasonally adjusted) as published by the U.S. Department of Labor, Bureau of Labor Statistics; provided, however, that if the CPI Index is changed so that the base year of the CPI Index changes, the CPI Index shall be converted in accordance with the conversion factor published by the U.S. Department of Labor, Bureau of Labor Statistics; provided further, that if the CPI Index is discontinued or revised during the Term, such other index or computation with which it is replaced shall be used in order to obtain substantially the same result as would be obtained if the CPI Index had not been discontinued or revised.

“Credit Rating Agencies” means Standard & Poor’s Rating Services, Fitch Investors Service, Inc. or Moody’s Investor Services, or their successors or Affiliates, provided that if any of the foregoing and any of their successors cease to exist, the University shall, by written notice to the Concessionaire, identify other credit rating agencies as the “Credit Rating Agencies” that, at such time, are Nationally Recognized Statistical Rating Organizations as determined and defined by the United States Securities and Exchange Commission or their equivalents.

“Day” means a calendar day, beginning at midnight in the pacific time zone of the United States coinciding with the calendar day.

“Defending Party” has the meaning ascribed thereto in Section 12.4(c).

“Delay Event” means (i) an event of Force Majeure that interrupts, limits or otherwise adversely affects the performance of the Concessionaire’s obligations hereunder or the Concessionaire’s use of all or any material part of the Utility System; (ii) a failure to obtain, or delay in obtaining, any Authorization from a Governmental Authority (provided that such failure or delay could not have been reasonably prevented by technical and scheduling measures or other reasonable measures of the Concessionaire); (iii) the enactment of a new Law or the modification, amendment or change in enforcement or interpretation of a Law (including a change in the application or implementation thereof by any Governmental Authority) arising
after the Setting Date; (iv) a delay caused by the performance of works (including the activities authorized by Section 3.7) carried out by the University or at its direction or, for purposes of Delay Events only (and not Compensation Events), by any other Person not acting under the authority or direction of the Concessionaire or the Operator; (v) a delay caused by a failure by the University to perform or observe any of its covenants or obligations under this Agreement; (vi) a delay caused by the presence in, on, under, over or around the Utility System of Hazardous Substances, which, in each case, results in or would result in a delay or interruption in the performance by the Concessionaire of any obligation under this Agreement and which Hazardous Substances were not caused to be in, on, under, over or around the Utility System by the Concessionaire, the Operator or any of their respective Representatives; (vii) a delay in providing the Utility Services caused by the failure of a third party or the University to provide any of the inputs into the Utility System that would be included in the definition of “Supplies”; (viii) subject to Section 9.4(a), a delay caused by a breach by the University of its representations and warranties set forth herein; (ix) a writ, decree or injunction that precludes or prevents the performance of the Concessionaire’s obligations hereunder or the Concessionaire’s use of all or any material part of the Utility System; (x) the discovery at or about the site of construction required or permitted to be undertaken pursuant to this Agreement of legally protected plant or animal species or archaeological, paleontological or cultural resources; or (xi) a written notice or direction from a Governmental Authority specifically requiring the Concessionaire to cease all or a material part of the Utility System Operations due to a failure to comply with applicable Law and such failure is because the Utility System Operations are not in compliance with Law due directly and primarily to the fact that the University unreasonably withheld its Approval to a Capital Improvement or Material Change that, if Approved, would have caused Utility System Operations to comply with the relevant Law to which such notice or direction from a Governmental Authority relates. For the avoidance of doubt, a Delay Event shall not include any event of which the consequence is otherwise specifically dealt with in this Agreement or arises by reason of (A) the negligence or willful misconduct of, or violation of applicable Law by, the Concessionaire, the Operator or any of their respective Representatives, (B) any act or omission by the Concessionaire or its Representatives in breach of the provisions of this Agreement, (C) any strike, labor dispute or other labor protest involving any Person retained, employed or hired by the Concessionaire or its Representatives to supply materials or services for or in connection with the Utility System Operations or any strike, labor dispute or labor protest pertaining to the Concessionaire, in all cases to the extent that such strike, dispute or protest (1) is not of general application and (2) is caused by or attributable to any act (including any pricing or other practice or method of operation) or omission of the Concessionaire or its Representatives or (D) lack or insufficiency of funds or failure to make payment of monies or provide required security on the part of the Concessionaire, unless such lack or insufficiency of funds or such failure is caused by another relevant Delay Event.

“Delay Event Remedy” has the meaning ascribed thereto in Section 15.1(d).

“Delay Event Remedy Dispute Notice” has the meaning ascribed thereto in Section 15.1(e).

“Delay Event Remedy Notice” has the meaning ascribed thereto in Section 15.1(e).
“Depositary” means a savings bank, a savings and loan association or a commercial bank or trust company which would qualify as an Institutional Lender, designated by the Concessionaire, that enters into an agreement with the Concessionaire to serve as depositary pursuant to this Agreement, provided that such Depositary shall have an office, branch, agency or representative located in at least one of the City of Moscow, Idaho or the City of Boise, Idaho; provided, however, that so long as a Leasehold Mortgage is in effect, the Depositary under Section 13.4 shall be the institution acting as the collateral agent or depositary under the financing secured by such Leasehold Mortgage, whether or not it has an office, branch, agency or representative located in the City of Moscow, Idaho; provided, however, with respect to a Depositary designated under Section 13.4(b)(i)(B), such Depositary shall be designated by the University but the University may designate the collateral agent or depositary under the financing secured by such Leasehold Mortgage to act as the Depositary.

“DEQ” has the meaning ascribed thereto in Section 11.13.

“Designated Senior Person” means such individual or individuals who are designated as such from time to time by each Party for the purposes of Article 18 by written notice to the other Party, which may be changed at any time by written notice from such Party to the other Party. Initially, the Designated Senior Person for the University will be the University’s Vice President for Finance and Administration and the Designated Senior Persons for the Concessionaire will be Matthew Coady and Raúl Perez Lopez.

“Direct Claim” means any Claim by an Obligee against an Obligor that does not result from a Third Party Claim.

“Disclosure Schedules” means the following Schedules: Schedule 3, Schedule 6, Schedule 9, Schedule 10, Schedule 11, Schedule 12, Schedule 14, Schedule 16, Schedule 17, Schedule 18, Schedule 21, Schedule 22 and Schedule 23.

“Dispute Notice” has the meaning ascribed thereto in Section 15.3(b).

“Document” has the meaning ascribed thereto in Section 1.15(b).

“EAC” means the Energy Advisory Committee to be formed by the University to provide input to the University with respect to the operation and use of the Utility Facilities. The membership and voting procedures of the EAC shall be determined by the University, in its discretion, provided that at least one member shall be a Representative of the Concessionaire.

“Eligible Investments” means any one or more of the following obligations or securities: (i) direct obligations of, and obligations fully guaranteed by, the United States of America or any agency or instrumentality of the United States of America, the obligations of which are backed by the full faith and credit of the United States of America; (ii) demand or time deposits, federal funds or bankers’ acceptances issued by any Institutional Lender (provided that the commercial paper or the short-term deposit rating or the long-term unsecured debt obligations or deposits of such Institutional Lender at the time of such investment or contractual commitment providing for such investment have been rated “A” (or the equivalent) or higher by a Credit Rating Agency or any other demand or time deposit or certificate of deposit fully insured by the Federal Deposit Insurance Corporation); (iii) commercial paper (including both non-interest-bearing discount...
obligations and interest-bearing obligations payable on demand or on a specified date not more than one Year after the date of issuance thereof) which has been rated “A” (or the equivalent) or higher by a Credit Rating Agency at the time of such investment; (iv) any money market funds, the investments of which consist of cash and obligations fully guaranteed by the United States of America or any agency or instrumentality of the United States of America, the obligations of which are backed by the full faith and credit of the United States of America and which have been rated “A” (or the equivalent) or higher by a Credit Rating Agency; and (v) other investments then customarily accepted by the University in similar circumstances; provided, however, that no instrument or security shall be an Eligible Investment if such instrument or security evidences a right to receive only interest payments with respect to the obligations underlying such instrument or if such instrument or security provides for payment of both principal and interest with a yield to maturity in excess of 120% of the yield to maturity at par.

“Emergency” means (i) an Unplanned Outage or (ii) a situation that is urgent and calls for immediate action, which, if such action is not taken, is reasonably likely to result in imminent harm or physical damage to any or all of the Utility System or any Person, including the University or the Concessionaire.

“Encumbrance” means any mortgage, lien, judgment, execution, pledge, charge, security interest, restriction, easement, servitude, option, reservation, lease, claim, trust, deemed trust or encumbrance of any nature whatsoever, whether arising by operation of Law, judicial process, contract, agreement or otherwise created.

“End Date” means the date on which this Agreement expires or is terminated.

“Energy Plant” means the building identified as building #011 on Part 1 of Schedule 3 and associated improvements installed therein.

“Environment” means soil, surface waters, ground waters, land, stream sediments, surface or subsurface strata and ambient air.

“Environmental Laws” means any Laws applicable to the Utility System or Utility System Operations regulating or imposing liability or standards of conduct concerning or relating to (i) the regulation, use or protection of human health or the Environment or (ii) the presence of or regulation, use or exposure to Hazardous Substances.

“EPA” has the meaning ascribed thereto in Section 11.13.

“Equity Participant” means any Person who holds directly any shares of capital stock, units, partnership or membership interests, other equity interests or equity securities of the Concessionaire.

“Escrow Agent” means a bank, trust company or national banking association selected by the University to hold the Cash Deposit.

“Excluded Liabilities” has the meaning ascribed thereto in Section 3.2(d).
“Facilities Equipment Storage” means the building identified as building #847 on Part 1 of Schedule 3 and associated improvements installed therein.

“Fiscal Year” means the period from July 1 to June 30, provided that if the University adjusts its fiscal year during the Term, the Fiscal Year shall be adjusted to be the same as the University’s fiscal year.

“Fiscal Year Half” means either the Fiscal Year First Half or the Fiscal Year Second Half.

“Fiscal Year First Half” means the period from July 1 to December 31, provided that if the University adjusts its fiscal year during the Term, the Fiscal Year First Half shall be adjusted to be the first six-month period of any Fiscal Year.

“Fiscal Year Second Half” means the period from January 1 to June 30, provided that if the University adjusts its fiscal year during the Term, the Fiscal Year Second Half shall be adjusted to be the second six-month period of any Fiscal Year.

“Five-Year Plan” means the budget and plan prepared by the Concessionaire in accordance with Section 7.2 for the operation of the Utility System and performance of its obligations under this Agreement in respect of (i) the period consisting of the first partial Fiscal Year of the Term and the first 5 full Fiscal Years of the Term, (ii) any given period of exactly 5 full Fiscal Years during the Term or (iii) if fewer than 5 full Fiscal Years remain in the Term, the remaining full and partial Fiscal Years of the Term.

“Fixed Fee” has the meaning ascribed thereto in Schedule 5.

“Force Majeure” means any event beyond the reasonable control of a Party that delays, interrupts or limits the performance of the affected Party’s obligations hereunder, including an intervening act of God or public enemy, war, invasion, armed conflict, act of foreign enemy, blockade, revolution, act of terror, sabotage, civil commotions, interference by civil or military authorities, condemnation or confiscation of property or equipment by any Governmental Authority, nuclear or other explosion, radioactive or chemical contamination or ionizing radiation, fire, tornado, flooding, earthquake or other natural disaster, riot or other public disorder, vandalism, epidemic, quarantine restriction, strike, labor dispute or other labor protest, stop-work order or injunction issued by a Governmental Authority, a governmental embargo or general unavailability or interruption of supplies or products for the construction, operation, maintenance, repair, replacement and renovation of the Utility System.

“Forecast Utility Fee” has the meaning ascribed thereto in Section 7.1(a).

“GAAP” means U.S. generally accepted accounting principles, consistently applied.

“Golf Course Water Tank” means the building identified as building #683 on Part 1 of Schedule 3 and associated improvements installed therein.
“Governmental Authority” means any court, federal, state, local or foreign government, department, commission, board, bureau, agency or other regulatory, administrative, governmental or quasi-governmental authority, which shall not include the University.

“Hazardous Substance” means any solid, liquid, gas, odor, heat, sound, vibration, radiation or other substance or emission which is a contaminant, pollutant, dangerous substance, toxic substance, hazardous waste, subject waste, hazardous material or hazardous substance that is or becomes regulated by applicable Environmental Laws or which is classified as hazardous or toxic under applicable Environmental Laws (including gasoline, diesel fuel or other petroleum hydrocarbons, polychlorinated biphenyls, asbestos, lead-based paint and urea formaldehyde foam insulation).

“I Water Tank” means the building identified as building #682 on Part 1 of Schedule 3 and associated improvements installed therein.

“IFRS” means the International Financial Reporting Standards, consistently applied.

“Initial Five-Year Plan” means the Five-Year Plan in respect of the period set forth in clause (i) of the definition of “Five-Year Plan”.

“Institutional Lender” means (i) the United States of America, any state thereof or any agency or instrumentality of either of them, any municipal agency, public benefit corporation or public authority, advancing or insuring mortgage loans or making payments which, in any manner, assist in the financing, development, operation and maintenance of projects, (ii) any (a) savings bank, savings and loan association, commercial bank, trust company (whether acting individually or in a fiduciary capacity) or insurance company organized and existing under the laws of the United States of America or any state thereof, (b) foreign insurance company or commercial bank qualified to do business as an insurer or commercial bank as applicable under the laws of the United States of America, (c) pension fund, foundation or university or college or other endowment fund or (d) investment bank, pension advisory firm, mutual fund, investment company or money management firm, (iii) any “qualified institutional buyer” under Rule 144(A) under the Securities Act or any other similar Law hereinafter enacted that defines a similar category of investors by substantially similar terms or (iv) any other financial institution or entity designated by the Concessionaire and Approved by the University (provided that such institution or entity, in its activity under this Agreement, shall be acceptable under then current guidelines and practices of the University); provided, however, that each such entity (other than entities described in clause (iii) of this definition) or combination of such entities if the Institutional Lender shall be a combination of such entities shall have individual or combined assets, as the case may be, of not less than $500,000,000, which shall include, in the case of an investment or advisory firm, assets controlled by it or under management.

“IRWA” has the meaning ascribed thereto in Section 3.3(e).

“Key Performance Indicators” means those requirements and standards for the operation of the Utility System as set forth on Schedule 15.
“KPI Compensation” means the amount of compensation due from the Concessionaire to the University for a KPI Event, which amount for each KPI Event is set forth in Schedule 15.

“KPI Event” has the meaning set forth in Schedule 15, unless such KPI Event is due to a Delay Event, a Compensation Event, a breach of this Agreement by the University, the negligence or willful misconduct of the University or its Representatives, grantees, tenants, contractors, mortgagees, licensees, concessionaires and others claiming by, through, or under the University, or otherwise excused pursuant to this Agreement.

“Law” means any order, writ, injunction, decree, judgment, law, ordinance, decision, opinion, ruling, policy, statute, code, rule or regulation of any Governmental Authority.

“Leasehold Mortgage” means any lease, indenture, mortgage, deed of trust, pledge or other security agreement or arrangement, including a securitization transaction with respect to the Utility Fee or any part thereof, encumbering any or all of the Concessionaire Interest or the shares or equity interests in the capital of the Concessionaire and any of its subsidiaries or any cash reserves or deposits held in the name of the Concessionaire, in each case that satisfies all of the conditions in Section 3.6 and Section 19.1.

“Leasehold Mortgage Debt” means any bona fide debt (including principal, accrued interest, original issue discount and customary lender or financial insurer, agent and trustee fees, costs, premiums, expenses, indemnities and reimbursement obligations (whether liquidated or contingent) with respect thereto, and including all payment obligations under interest rate hedging agreements with respect thereto and reimbursement obligations with respect thereto to any financial insurer) and/or an assignment in connection with a securitization transaction secured by a Leasehold Mortgage relating to the Utility System and granted to a Person pursuant to an agreement entered into prior to the occurrence of any Adverse Action, University Default or any event of termination, cancellation, rescinding or voiding referred to in Section 16.4 giving rise to the payment of amounts for or in respect of termination under this Agreement. For the purposes of determining the Utility System Concession Value, Leasehold Mortgage Debt shall not include (i) debt from an Affiliate of the Concessionaire or the Operator, unless such debt is on terms consistent with terms that would reasonably be expected from a non-Affiliate lender acting in good faith and otherwise complies with the requirements of Leasehold Mortgage Debt set forth above; (ii) any increase in debt to the extent such increase is the result of an agreement or other arrangement entered into after the Concessionaire was aware (or should have been aware, using reasonable due diligence) of the prospective occurrence of an event giving rise to the payment of the Utility System Concession Value; or (iii) any debt with respect to which the Leasehold Mortgagee did not provide the University with notice of its Leasehold Mortgage in accordance, in all material respects, with the Leasehold Mortgagee Notice Requirements.

“Leasehold Mortgagee” means the holder or beneficiary of a Leasehold Mortgage or a trustee or agent acting on behalf of such holder or beneficiary, including the Lessor in a lease or Leveraged Lease.

“Leasehold Mortgagee Notice Requirements” means the delivery by a holder or beneficiary of a Leasehold Mortgage to the University, not later than 10 Days after the execution and delivery of such Leasehold Mortgage by the Concessionaire, of a true and complete copy of
the executed original of such Leasehold Mortgage, together with a notice containing the name
and post office address of the holder of such Leasehold Mortgage, which may be an agent on
behalf of the provider of the Leasehold Mortgage Debt.

“Leasehold Mortgagee’s Notice” has the meaning ascribed thereto in Section 19.7(a).

“Lessor” means a Leasehold Mortgagee that has purchased all or a portion of the
Concessionaire Interest and leased that interest in the Concessionaire Interest to the
Concessionaire.

“Letter of Credit” means a committed, irrevocable, unconditional, commercial letter of
credit, in favor of the University, in form and content reasonably acceptable to the University,
payable in U.S. dollars upon presentation of a sight draft and a certificate confirming that the
University has the right to draw under such letter of credit in the amount of such sight draft,
without presentation of any other Document, which letter of credit (i) is issued by a commercial
bank or trust company that is a member of the New York Clearing House Association or the
Clearing House Interbank Payments System and that has a current credit rating of A-2 or better
by Standard & Poor’s Ratings Services and an equivalent credit rating by another Credit Rating
Agency (or such other commercial bank or trust company reasonably acceptable to the
University and Approved by the University prior to the submission of the letter of credit) or such
other commercial bank or trust company that is Approved by the University, and (ii) provides for
the continuance of such letter of credit for a period of at least one Year or as otherwise provided
in this Agreement. The office for presentment of sight drafts specified in the Letter of Credit
shall be located (a) at a specified street address within at least one of the City of Moscow, Idaho
or the City of Boise, Idaho or other location acceptable to the University or (b) at a facsimile
number located within the United States.

“Leveraged Lease” means a lease, sublease, concession, management agreement,
operating agreement or other similar arrangement in which the Lessor has borrowed a portion of
the purchase price of the interest in the Concessionaire Interest acquired by the Lessor and
granted to the lenders of those funds a security interest in that interest.

“Long-Term Restoration Payment Plan” has the meaning ascribed thereto in Section
13.4(b)(iii)(B).

“Loss” means, with respect to any Person, any loss, claim, liability, damage, penalty,
amount paid pursuant to a settlement, charge or out-of-pocket and documented cost or expense
(including fees and expenses of counsel and any Tax losses) actually suffered or incurred by
such Person but excluding any punitive, special, exemplary, indirect and consequential damages
and any contingent liability until such liability becomes actual, except, for the avoidance of
doubt, to the extent the same are part of a Third Party Claim pursuant to Article 12 (provided
that, for the avoidance of doubt, an actual loss, claim, liability, damage of any Contractor or
Representative of the Concessionaire and for which the Concessionaire is liable subject only to
receiving payment in respect thereof from the University, shall not be treated as a contingent
liability for this purpose).

“Main Campus” means the portion of the University Campus depicted on Schedule 21.
“Major KPI Event” means, in a KPI Event which obligates the Concessionaire to pay Fiscal Year, any of the following KPI Events where the KPI Compensation to the University, with respect to that KPI Event only, in an amount equal to the greater of (i) $1,000,000 and (ii) 10% of the Utility Fee due in that Fiscal Year for that KPI Event equals the maximum amount of KPI Compensation for that KPI Event: (a) Electric Hours KPI Calculation, (b) General Steam Hours KPI Calculation, (c) General Chilled Water Events Calculation, (d) Domestic Water Hours Calculation, (e) Sanitary Sewer Events KPI Calculation, (f) Storm Water Events KPI Calculation, (g) Reclaimed Water Hours KPI Calculation, (h) Reclaimed Water Events KPI Calculation, (i) Compressed Air Hours KPI Calculation and (j) Compressed Air Events KPI Calculation.

“Material Adverse Effect” means a material adverse effect (after taking into account contemporaneous material positive effects) on the business, operations, financial condition or results of operations of the Utility System taken as a whole or on the ability of the University to consummate the Transaction or perform any material obligation hereunder; provided, however, that no effect arising out of or in connection with or resulting from any of the following shall be deemed, either alone or in combination, to constitute or contribute to a Material Adverse Effect: (i) general economic conditions or changes therein; (ii) financial, banking, currency or capital markets fluctuations or conditions (either in the United States of America or any international market and including changes in interest rates); (iii) conditions affecting the financial services or utility industries generally; (iv) any existing event or occurrence of which the Concessionaire has actual knowledge as of the Setting Date; (v) any action, omission, change, effect, circumstance or condition contemplated by this Agreement or attributable to the execution, performance or announcement of this Agreement or the Transaction (except for any litigation relating thereto or to this Agreement (or the matters contemplated herein)); and (vi) negligence, intentional misconduct or bad faith of the Concessionaire or its Representatives.

“Material Change” means any material change in the dimensions, character, quality or location of any part of the Utility System that would not be considered Capital Improvements.

“Maximum Annual Operator Fee” has the meaning ascribed thereto in Section 3.3(e).

“Maximum Retained Risk Payment” means an amount equal to $1,000,000 per occurrence.

“McClure Hall Space” means the portion of the building identified as building #110 on Part 1 of Schedule 3 and associated improvements installed therein, which portion is more particularly identified on Part 2 of Schedule 3.

“Memorandum of Lease” has the meaning ascribed thereto in Section 2.8.

“New Agreement” has the meaning ascribed thereto in Section 19.5(a).

“New Approved Capital Improvement” has the meaning ascribed thereto in Schedule 5.

“New Approved Capital Improvement Cost” has the meaning ascribed thereto in Schedule 5.
“Non-Recurring Savings” means a reduction in the Capped O&M Index for a particular Fiscal Year that is the direct result of significant unusual or infrequently occurring items, as determined in accordance with GAAP or the timing by which recurring Capped O&M Costs are incurred.

“North Farm” means the portion of the University Campus depicted on Schedule 22.

“Notice” has the meaning ascribed thereto in Section 20.1.

“Notice Period” has the meaning ascribed thereto in Section 12.4(b).

“O&M Costs” means, in the aggregate, the Capped O&M Costs and the Uncapped O&M Costs.

“Obligation Payment” has the meaning ascribed thereto in Section 12.7.

“Obligee” means any Person entitled to the benefit of a payment obligation under Article 12.

“Obligor” means any Person obligated to meet a payment obligation under Article 12.

“Offsets” has the meaning ascribed thereto in Section 12.11(a).

“Ongoing Utility System Projects” means those projects that the University is undertaking with respect to the Utility System as of the Closing Date that are listed on Schedule 11, provided that the University may, if it completes any such projects prior to the Time of Closing, provide the Concessionaire notice thereof and amend Schedule 11 accordingly.

“Operating Agreement” means any material agreement, contract or commitment to which the Concessionaire is a party or otherwise relating to the Utility System Operations as in force from time to time (including any warranties or guaranties), but excluding any Leasehold Mortgage and financing documents related thereto.

“Operating Agreements and Plans” has the meaning ascribed thereto in Section 3.11(a).

“Operations Plan” has the meaning ascribed thereto in Schedule 2.

“Operator” has the meaning ascribed thereto in Section 3.3(a).

“Operator Evaluation Period” means, as applicable, (i) the period commencing on the Day immediately following the Post-Closing Transition Period and ending on the 5-year anniversary thereof or (ii) each subsequent 5-year period after the period described in clause (i). For the avoidance of doubt, such 5-year periods are fixed periods, rather than rolling periods.

“Party” means a party to this Agreement and “Parties” means both of them.

---

1. NTD: Changes to this definition are necessary to reflect the update that the University provided prior to Closing.
“Performance Standards” means the standards, specifications, policies, procedures and processes that apply to the operation of, maintenance of, rehabilitation of and Capital Improvements to the Utility System set forth in Schedule 2 and its appendices (as may be modified pursuant to the terms hereof), including any plans submitted by the Concessionaire to the University as required therein. To the extent that any term or provision set forth in Schedule 2 or incorporated by reference in Schedule 2 conflicts with any term or provision specified in this Agreement, then such term or provision of this Agreement shall govern and shall supersede any such conflicting term or provision.

“Permitted Concessionaire Encumbrance” means, with respect to the Concessionaire Interest: (i) any Encumbrance that is being contested in accordance with Section 3.5(a) (but only for so long as such contest effectively postpones enforcement of any such Encumbrance); (ii) any (A) lien or security interest for obligations not yet due and payable to a Contractor or other Person, (B) statutory lien, deposit or other non-service lien or (C) lien, deposit or pledge to secure mandatory statutory obligations or performance of bids, tenders, contracts (other than for the repayment of borrowed money) or leases, or for purposes of like general nature, any of which are incurred in the ordinary course of business of all or any part of the Utility System Operations and are either (x) not delinquent or (y) which are being contested, or being caused to be contested, by the Concessionaire in accordance with Section 3.5(a) (but only for so long as such contest effectively postpones enforcement of any such Encumbrance); (iii) inchoate materialmen’s, mechanics’, workmen’s, repairmen’s, employees’, carriers’ or warehousemen’s liens or other like Encumbrances arising in the ordinary course of business of all or any part of the Utility System or the Concessionaire’s performance of any of its rights or obligations hereunder, and either (A) are not delinquent or (B) are being contested by the Concessionaire in accordance with Section 3.5(a) (but only for so long as such contest effectively postpones enforcement of any such Encumbrance); (iv) any right reserved to or vested in any Governmental Authority or the University by any statutory provision or under common law (it being understood and agreed that nothing in this clause (iv) shall limit or otherwise affect the University’s obligations or the Concessionaire’s rights hereunder); (v) any other Encumbrance permitted hereunder (including any Leasehold Mortgage (and financing statements or other means of perfection relating thereto)); (vi) liens incurred in the ordinary course of business in connection with workers’ compensation, unemployment insurance, social security and other governmental rules and that do not in the aggregate materially impair the use, value or operation of the Utility System; (vii) any Encumbrances created, incurred, assumed or suffered to exist by the University or any Person claiming through the University; (viii) any Encumbrance, security interest or pledge imposed upon the Concessionaire and any Affiliate as to the Concessionaire’s and any Affiliate’s assets arising from borrowings, financings, leases or similar transactions in the ordinary course of business; (ix) any Encumbrances in existence as of the Closing not caused by the Concessionaire, the Operator or any of their respective Representatives; and (x) any amendment, extension, renewal or replacement of any of the foregoing.

“Permitted University Encumbrance” means: (i) the Concessionaire Interest; (ii) any Encumbrance that is being contested, or being caused to be contested, by the University in accordance with Section 3.5(b) (but only for so long as such contest effectively postpones enforcement of any such Encumbrance); (iii) inchoate materialmen’s, mechanics’, workmen’s, repairmen’s, employees’, carriers’ or warehousemen’s liens or other like Encumbrances arising in the University’s performance of any of its rights or obligations hereunder, and either (A) are not delinquent or (B) are being contested by the University in accordance with Section 3.5(b) (but only for so long as such contest effectively postpones enforcement of any such Encumbrance).
not delinquent or (B) are being contested, or are being caused to be contested, by the University in accordance with Section 3.5(b) (but only for so long as such contest effectively postpones enforcement of any such Encumbrance); (iv) any easement, covenant, condition, right-of-way or servitude (or other similar reservation, right and restriction) or other defects and irregularities in the title to the applicable assets that do not materially interfere with the Utility System Operations or the rights and benefits of the Concessionaire under this Agreement or materially impair the value of the Concessionaire Interest from and after the Closing Date; (v) any zoning, building, environmental, health, safety or other Law; (vi) the police and regulatory powers of the State of Idaho, City of Moscow, Idaho and Latah County, Idaho with respect to the Utility System, and the regulation of the use of the Public Way (it being understood and agreed that nothing in this clause (vi) shall prevent any exercise of such powers being an Adverse Action if it meets the definition thereof); (vii) any right reserved to or vested in any Governmental Authority by any statutory provision or under common law (it being understood and agreed that nothing in this clause (vii) shall prevent any exercise of such right being an Adverse Action if it meets the definition thereof); (viii) any other Encumbrance permitted hereunder; (ix) any Encumbrances created, incurred, assumed or suffered to exist by the Concessionaire or any Person claiming through it (provided that this shall not grant the Concessionaire, or any Person claiming through the Concessionaire, the right to create, incur, assume or suffer to exist any such Encumbrance unless otherwise expressly contemplated herein); (x) any rights reserved to or vested in the University by any statutory provision (it being understood and agreed that nothing in this definition shall limit or otherwise affect the University’s obligations or the Concessionaire’s rights hereunder); (xi) any of the Encumbrances set forth on Schedule 10; and (xii) any amendment, extension, renewal or replacement of any of the foregoing.

“Person” means any individual (including, the heirs, beneficiaries, executors, legal representatives or administrators thereof), corporation, partnership, joint venture, trust, limited liability company, limited partnership, joint stock company, unincorporated association or other entity or a Governmental Authority, including the University.

“Post-Closing Transition Period” means the period from the Closing Date to the date that is the later of (i) June 30, 2021 and (ii) 5 months after the Closing Date, provided that the Concessionaire may terminate the Post-Closing Transition Period earlier on written notice to the University.

“Project Intellectual Property” has the meaning ascribed thereto in Section 3.11(b).

“Property Taxes” means any ad valorem property Tax attributable to the Utility System or the Concessionaire Interest, including an ad valorem tax on real property and improvements, buildings, structures, fixtures and all tangible personal property.

“Prorated Items” means all revenues, charges, costs and expenses with respect to Assumed Liabilities.

“Prudent Industry Practices” means, at a particular time, those practices, methods, standards and acts which are engaged in and generally accepted by prudent providers of services of the kind contemplated by this Agreement in the United States, taking into account practices, methods and acts in use at Comparable Utility Systems or individual utility facilities forming
part of Comparable Utility Systems, life-cycle maintenance costs and considerations, and the
design, engineering, construction, testing, operation and maintenance requirements set out in this
Agreement, and which, in the exercise of reasonable judgment at the time the decision was
made, could reasonably have been expected to achieve the desired result consistent with
applicable Law, safety, reliability, efficiency and expedition. “Prudent Industry Practices” is not
intended to be limited to the optimum practice or method to the exclusion of all others, but rather
to be a spectrum of reasonable practices, methods, standards and acts.

“Public Way” means the streets, alleys, driveways and sidewalks owned by the
University.

“Pump House 3” means the building identified as building #70 on Part 1 of Schedule 3
and associated improvements installed therein.

“Pump House 4” means the building identified as building #089 on Part 1 of Schedule 3
and associated improvements installed therein.

“Pump House 9” means the building identified as building #407 on Part 1 of Schedule 3
and associated improvements installed therein.

“Quarter” means each calendar quarter of each Fiscal Year of the Term.

“Reclaimed Water Chlorination Building” means the building identified as building #771
on Part 1 of Schedule 3 and associated improvements installed therein.

“Reconciliation Statement” has the meaning ascribed thereto in Section 7.1(b).

“Record Retention Policy” has the meaning ascribed thereto in Section 3.12(a).

“Recovery Period” means a period for each New Approved Capital Improvement,
commencing at the beginning of the Fiscal Year Half following the Fiscal Year Half in which the
applicable New Approved Capital Improvement Costs are incurred and expiring on the
expiration of the 20th full Fiscal Year following the commencement of such period, or such
other period as agreed by the University and the Concessionaire as part of the University’s
Approval of the applicable New Approved Capital Improvement, over which the Concessionaire
shall recover the cost of that New Approved Capital Improvement in the Utility Fee pursuant to
Schedule 5, as such period may be adjusted pursuant to Section 4.3.

“Release” means depositing, spilling, leaking, pumping, pouring, emitting, discarding,
abandoning, emptying, discharging, injecting, escaping, leaching, dumping or disposing of any
Hazardous Substances into the Environment.

“Relevant Fiscal Year” has the meaning ascribed thereto in the definition of “Baseline
Capped O&M Costs.”

“Repetitive Failure” means a Repetitive Non-Major KPI Event or a Repetitive
Performance Standards Failure.
“Repetitive Non-Major KPI Event” means, during any given Operator Evaluation Period, the occurrence of a KPI Event for a particular Key Performance Indicator 3 or more times during such Operator Evaluation Period.

“Repetitive Performance Standards Failure” means, during any given Operator Evaluation Period, the failure to comply with or to meet a distinct requirement of the Performance Standards (provided that the University shall have provided separate written notices for each such failure) 3 or more times during such Operator Evaluation Period.

“Representative” means, with respect to any Person, any director, officer, employee, official, partner, member, owner, agent, lawyer, accountant, auditor, professional advisor, consultant, engineer, Contractor, other Person for whom such Person is at law responsible or other representative of such Person and any professional advisor, consultant or engineer designated by such Person as its “Representative”. For the avoidance of doubt, the Operator (if other than the Concessionaire) shall be deemed a Representative of the Concessionaire.

“Request for Proposals” has the meaning ascribed thereto in the recitals to this Agreement.

“Required Coverages” has the meaning ascribed thereto in Section 13.2.

“Restoration” has the meaning ascribed thereto in Section 13.4(ab)(iii)(A).

“Restoration Funds” has the meaning ascribed thereto in Section 13.4(ab)(iii)(B).

“Restoration Shortfall Amount” has the meaning ascribed thereto in Section 13.4(a)(iii).

“Reversion Date” means the Business Day immediately following the End Date.

“Revised Proration Statement” has the meaning ascribed thereto in Section 2.2(b)(ii).

“RJA” has the meaning ascribed thereto in Section 9.1(j).

“Schedule” means a schedule attached hereto and incorporated in this Agreement, unless otherwise expressly indicated by the terms of this Agreement.

“Securities Act” means the United States Securities Act of 1933, as amended.

“Senior Officials” has the meaning ascribed thereto in Section 3.3(c)(i)(A).

“Setting Date” means the Day that is 10 Business Days prior to the Bid Date.

“Shared Spaces” has the meaning ascribed thereto in Section 3.32.

“Signing Date” has the meaning ascribed thereto in the Recitals to this Agreement.
“SOFR” means, with respect to any day, the secured overnight financing rate published for such day by the Federal Reserve Bank of New York, as the administrator of the benchmark, (or a successor administrator) on the Federal Reserve Bank of New York’s Website.

“South Campus Chiller Plant” means the building identified as building #749 on Part 1 of Schedule 3 and associated improvements installed therein.

“Special Allocation of Funds” has the meaning ascribed thereto in Section 4.1(a).

“State Risk” means the Idaho Department of Administration Risk Management Program or its successor agency.

“State Risk Retained Casualty” means a casualty affecting the Utility System that (i) is not a Concessionaire Retained Casualty and (ii) affects the portion of the Utility System for which State Risk carries or provides the relevant property insurance.

“Supplies” has the meaning ascribed thereto in Section 7.3(a).

“Supply Contract” has the meaning ascribed thereto in Section 7.3(a).

“Supply Costs” means all out-of-pocket costs incurred in the procurement of Supplies (including any transmission costs, riders or other similar costs reasonably necessary to procure Supplies).

“Target” has the meaning ascribed thereto in Schedule 15.

“Tax” means any federal, state, local or foreign income, gross receipts, commercial activity, license, payroll, employment, excise, severance, stamp, occupation, premium, windfall profits, environmental, customs duties, permit fees, capital stock, franchise, profits, withholding, social security, unemployment, disability, real property, personal property, parking, sales, use, transfer, registration, value added, alternative or add-on minimum, estimated or other tax, levy, impost, stamp tax, duty, fee, withholding or similar imposition of any kind payable, levied, collected, withheld or assessed at any time, including any interest, penalty or addition thereto, whether disputed or not.

“Tax-Advantaged Bond” means any bond that is (i) a bond the interest on which is excluded from gross income for purposes of the Code, (ii) a “Build America Bond” as defined in Section 54AA of the Code, or (iii) a “qualified tax credit bond” as defined in Section 54A of the Code.

“Term” has the meaning ascribed thereto in Section 2.1.

“Termination Damages” has the meaning ascribed thereto in Section 14.2(a).

“Third Party Agreement” has the meaning ascribed thereto in Section 3.18.

“Third Party Capital Improvement” has the meaning ascribed thereto in Section 4.1.
“Third Party Claim” means any Claim asserted against an Obligee by any Person who is not a Party or an Affiliate of such a Party.

“Time of Closing” means 9:00 a.m. Pacific Time on the Closing Date or such other time on that date as that the University and the Concessionaire agree in writing that the Closing shall take place, which the Parties acknowledge occurred on 11:13 a.m. Pacific Time on the Closing Date.

“Title Commitment” has the meaning ascribed thereto in Section 2.4(a)(iii).

“Title Company” means Stewart Title Guaranty Company through Moscow Title, Inc.

“Transaction” has the meaning ascribed thereto in Section 2.1.

“Transfer” means to sell, convey, assign, lease, sublease, mortgage, encumber, transfer or otherwise dispose of.

“Transferee” means any Person who obtains the Concessionaire Interest pursuant to a Transfer.

“Transformer Storage Space” means the portion of the building identified as building #760 on Part 1 of Schedule 3 and associated improvements installed therein which portion is more particularly identified on Part 2 of Schedule 3.

“Tunnels” means the tunnels and other underground passageways where Utility System Assets or Utility Facilities are located as identified on Schedule 17, which Tunnels, for the avoidance of doubt, are part of the Utility System but are not Utility System Land. To the extent that additional tunnels where Utility System Assets or Utility Facilities are located are identified by the Concessionaire or the University after the date hereof Signing Date, the definition of “Tunnels” shall include those later-identified tunnels. For the avoidance of doubt, all vaults and trench-boxes not exclusively used in connection with the Utility System shall be treated as Tunnels.

“Uncapped O&M Costs” means the sum of the following: (1) these specifically identified out-of-pocket operating and maintenance costs and expenses incurred by the Concessionaire (which costs and expenses shall include payments due and payable by the Concessionaire to the Operator or other Contractors pursuant to an Operating Agreement or similar agreement) or the Operator in operating the Utility System and complying with their respective obligations under this Agreement: (a) costs incurred due to a Delay Event, provided that for events described in clause (iii) of the definition of “Delay Event”, Uncapped O&M Costs shall only include those costs (which are not costs incurred to make Capital Improvements) necessary to bring the Utility System into compliance with the applicable Law and not the ongoing costs associated therewith, (b) costs incurred to modify the location or configuration of the Utility System as directed by the University pursuant to Section 3.23 (but only to the extent such costs are not costs incurred to make a Capital Improvement), (c) costs incurred by the Concessionaire pursuant to Section 4.3(c)(ii) if the relevant proposed Capital Improvement or Material Change is not Approved by the University, (d) costs incurred to disconnect real property from the Utility System if required pursuant to Section 5.3(a), (e) costs incurred in connection with a modification to the
Performance Standards pursuant to Section 6.3(a), (f) costs incurred to perform the obligations set forth in Section 7.4, but only to the extent such costs were Approved by the University prior to being incurred, (g) costs incurred to pay Property Taxes, if such costs are included in Uncapped O&M Costs pursuant to Section 3.8, (h) costs incurred to make time-sensitive repairs or improvements to (A) the Utility System or (B) University-owned property related to, but not a part of, the Utility System, in each case to the extent such repairs or improvements (1) are not Capital Improvements, (2) were not contemplated in the most recently approved Five-Year Plan, (3) were either (x) made in the Concessionaire’s good-faith belief that they were being made to the Utility System or (y) made in the Concessionaire’s good-faith belief that the repair was the best first response to an Emergency, and (4) have been Approved by the University in its discretion, (i) storm water and sanitary effluent charges assessed by the City of Moscow, Idaho, except to the extent that such storm water and sanitary effluent charges increase as a result of an action or inaction of the Concessionaire (other than the actions or inactions that the Concessionaire is directed or obligated to take or omit pursuant to this Agreement, including in order to comply with the Performance Standards), (j) an Approved Capital Improvement that is classified as Uncapped O&M Costs pursuant to Section 4.3(h) or an Approved Material Change (unless such costs are treated as another form of compensation to the Concessionaire provided for in this Agreement in connection with the Approval of such Material Change), in each case up to the amount Approved by the University as part of its Approval of such Capital Improvement or Material Change, (k) costs incurred in connection with Supply procurement assistance under Section 7.3(a) or Section 7.3(b), but only to the extent such costs were Approved by the University prior to being incurred, (l) costs (including KPI Compensation) incurred as a direct result of the Concessionaire’s failure to comply with Law or this Agreement if the sole reason for such failure is that the University failed to be reasonable in its Approval of all possible Capital Improvements or Material Changes that would cure or prevent such failure to comply with such Law or this Agreement, (m) costs associated with a University Directive that is not the construction of a Capital Improvement in accordance with Section 5.1, (n) legal fees arising out of any Excluded Liabilities, (o) the costs of any premium or deductible for professional liability insurance coverage procured by the Concessionaire in accordance with Section 13.1(e) for a particular Approved Capital Improvement or Material Change provided that such coverage and the cost thereof is expressly included in the request for Approval of such Capital Improvement or Material Change and the University Approves such cost, (p) all costs identified in the definition of “Capped O&M Costs” related to any Ongoing Utility System Project or New Approved Capital Improvement incurred only during the first 3 full Fiscal Years (and any partial Fiscal Year) after such Ongoing Utility System Project or New Approved Capital Improvement becomes part of the Utility System or is brought into service, as applicable, (q) the operations and maintenance costs that are reasonably necessary to cause the Utility System or Utility System Operations to comply with the enactment of a new Law or the modification, amendment or change in enforcement or interpretation of a Law (including a change in the application or implementation thereof by any Governmental Authority) arising after the Setting Date but solely for the first 3 full Fiscal Years (and any partial Fiscal Year) after the occurrence of such enactment, modification, amendment or change (but not, for the avoidance of doubt, those costs that are included in any other clause of this definition), (r) the reasonable costs that are referenced in the definition of “Capped O&M Costs” as being treated as “Uncapped O&M Costs” for the period of time set forth therein and the reasonable costs of any other adjustments to the Capped O&M Index made pursuant to this Agreement for the first 3 full Fiscal Years (and
any partial Fiscal Year) after such adjustment is first made, and (s) the out-of-pocket costs of providing Utilities from temporary sources for construction projects as identified by the University as described in Section 3.2(a), provided that, for the avoidance of doubt, in no event, shall Uncapped O&M Costs include any costs or expenses incurred by the Concessionaire that result from the negligence or willful misconduct of, or violation of applicable Law by, the Concessionaire or the Operator; and (2) an amount equal to the product of 26.47% (which represents the blended highest combined state and federal income Tax rate as of the Closing Date, but which, for the avoidance of doubt, shall not change over the Term regardless of any change to federal or state corporate income tax rates) multiplied by the income generated solely by the equity portion of the Variable Fee Component (which for the avoidance of doubt is the amount equal to sub-part (ii)) only in the calculation of the Utility Fee as set forth on Schedule 5 of the Concession Agreement) regardless of the amount of such Taxes actually paid by the Concessionaire.

“Uninsured Utility System Property” means any portion of the Utility System that is not covered by the Required Property Insurance because it is commercially unavailable as described in Section 13.3(o) and neither State Risk nor the University has provided insurance coverage for such portion of the Utility System subject to the University’s rights under Section 13.3(u)(iii). For the avoidance of doubt, the Utility System or any portion thereof shall not be considered Uninsured Utility System Property if Required Property Insurance or property insurance provided by State Risk or the University identifies the Utility System or the relevant portion thereof as an insured asset under the applicable insurance policy regardless of whether the applicable insurer or, in the case of a State Risk Retained Casualty, State Risk, approves or rejects a claim therefor in the event of a casualty with respect thereto.

“University” has the meaning ascribed thereto in the preamble to this Agreement.

“University Campus” means the real property and improvements located thereon that are owned and/or leased by the University, which real property is shown on Part I of Schedule 16 and, solely with respect to the domestic water Utility, and also shown on Part II of Schedule 16, which, for each Utility, shall depict the real property that comprise the “University Campus” for that Utility, and the Parties acknowledge and agree may differ among Utilities, such that when reference is made herein to the “University Campus”, it shall be the University Campus for the relevant Utility.

“University Default” has the meaning ascribed thereto in Section 16.2(a).

“University Directive” means a written order or directive prepared by or on behalf of the University in conformity with the requirements and limitations of this Agreement directing the Concessionaire, to the extent permitted hereby, other than pursuant to Section 3.23, to (i) add to, or perform work in respect of, the Utility System in addition to that provided for in this Agreement (including (a) work within the University Campus on utility facilities or energy equipment that are not and will not be considered part of the Utility System in accordance with the definition thereof, (b) taking control of the internal University billing system for Utilities and

---

6 NTD: The change to this parenthetical is necessary so as not to change this percentage, which was intended to be fixed.
(c) causing the Concessionaire to engage in sustainability practices in excess of those reasonably required by Prudent Industry Practices) or (ii) change the dimensions, character, quantity, quality, description, location or position of any part of the Utility System or make other changes to the Utility System; provided that, notwithstanding the foregoing, (1) as part of any such order or directive or as a separate order or directive, the University may cause certain personal property to be deemed Utility System Assets and part of the Utility System even if such personal property is beyond the line of demarcation for the applicable Utility as set forth in the Performance Standards and may cause the Concessionaire to purchase and/or install such personal property, provided that if any such personal property would be beyond the line of demarcation for the applicable Utility as set forth in the Performance Standards, such order or directive may only be issued with the approval of the Concessionaire, acting reasonably, (2) any such order or directive can include the design, demolition, project management, construction, repair, replacement, remodeling, renovation, reconstruction, enlargement, addition, alteration, painting, or structural or other improvements not included in the Utility Facilities but related thereto, provided that such work must be part of a larger project (as determined by the University in its reasonable discretion) for which the Utility System is the primary driver of such project (as determined by the University in its reasonable discretion), (3) the University may, in any such order or directive, direct the manner and means by which the Concessionaire performs a University Directive, and (4) no such order or directive may in any event order or direct the Concessionaire to do any act that (x) is not technically feasible or could reasonably be expected to violate any applicable Law, contravene any Consent or Authorization issued by a Governmental Authority, cause a material insured risk to become uninsurable or cause the Concessionaire to fail to be in compliance with this Agreement or (y) without the consent of the Concessionaire, result in additional expenditure by the Concessionaire of an amount in excess of $50,000,000 in any given Fiscal Year or in excess of $100,000,000 over any given period of five Fiscal Years (in each case Adjusted for Inflation) starting from the Year in which the Closing occurred).7.

“University Liaison” means University Director of Utilities and Engineering Services, or such other Person as may be identified by the University to the Concessionaire in writing.

“University Required Coverages” has the meaning ascribed thereto in Section 13.2.

“University Responsible Parties” has the meaning ascribed thereto in Section 12.2.

“University Retained Casualty” means a casualty affecting Uninsured Utility System Property and which is not otherwise a Concessionaire Retained Casualty.

“University Retained Risk Annual Payment” has the meaning ascribed thereto in Section 13.3(u).

“University Utility System Employees” means those Persons employed by the University immediately prior to the Closing whose duties directly relate to the operation or maintenance of the Utility System.

7 NTD: This global change is necessary so that the inflation adjustment is not delayed.
“University’s Option” has the meaning ascribed thereto in Section 19.7(a).

“Unplanned Outage” has the meaning ascribed thereto in Schedule 2.

“Unrecovered Balance” has the meaning ascribed thereto in Schedule 5.

“URRAP Floor” has the meaning ascribed thereto in Section 13.3(u).

“URRAP Rate” has the meaning ascribed thereto in Section 13.3(u).

“Utility” means any of the following specific individual utility services: (i) electricity, (ii) steam and condensate, (iii) domestic water, (iv) chilled water, (v) sanitary sewage, (vi) storm water, (vii) compressed air and (viii) reclaimed water, and “Utilities” means each of them.

“Utility Facilities” means the improvements and equipment (a) constituting part of or located on the University Campus, including those identified in Schedule 3, that are directly and exclusively involved in the generation, distribution and return of the Utilities and the operation and maintenance of the Utility System and that are not beyond the line of demarcation for each Utility as set forth in the Performance Standards, including the (1) distribution pipes carrying the Utilities (including pipes conveying sanitary sewage and storm water), (2) trench-boxes and vaults exclusively used in connection with the Utilities, (3) Energy Plant, (4) McClure Hall Space, (5) Chilled Water Tank (Thermal Energy Storage), (6) South Campus Chiller Plant, (7) Chip Storage/Drying Facility, (8) Transformer Storage Space, (9) Chip Facility Scale House, (10) Reclaimed Water Chlorination Building, (11) Facilities Equipment Storage, (12) Vehicle Research Lab Space, (13) Pump House 3, (14) Pump House 4, (15) Pump House 9, (16) Golf Course Water Tank, (17) I Water Tank, (18) West Lagoon, (19) Arboretum Well and (20) electric distribution wires or (b) located on Utility System Land; provided that the definition of “Utility Facilities” does not include (i) any improvements or equipment that are beyond the line of demarcation for each Utility as set forth in the Performance Standards, except for those areas (I) expressly set forth in the Performance Standards as being within said line of demarcation or (II) which the University directs to be part of the Utility System as part of a University Directive in accordance with the definition thereof or (ii) any cameras or other public safety equipment installed, maintained or used by the University Office of Public Safety and Security or any successor department.

“Utility Fee” means the fee established as compensation for the Utility Services, as set forth on Schedule 5 and as may be adjusted pursuant to the terms of this Agreement.

“Utility Services” means the services to be provided by the Concessionaire as grantee of the concession under this Agreement.

“Utility System” means (A) the personal property, real property, improvements, fixtures and equipment owned and operated by the University immediately prior to the Time of Closing to provide the Utilities on the University Campus, specifically limited to (i) the Utility System Assets, (ii) the computer systems and software set forth on Schedule 12, (iii) the Utility System Equipment, and (iv) the personal property and equipment items identified in Schedules 4 and 13.

---

8 NTD: This change is necessary to avoid unintentionally pulling in all such property that was used at anytime prior to Closing which was not being so used before the hand over.
Facilities, (iv) the Utility System Land, and (v) the Tunnels; provided, however, that the “Utility System” shall not include, other than expressly referred to above, (x) any utility distribution facilities or other equipment that is beyond the line of demarcation for each Utility, as set forth in the Performance Standards, except to the extent incorporated into the Utility System by a University Directive, (y) any interest in the Public Way or similar real property or (z) any utility facilities in a building that is not a building leased by the Concessionaire, up to the Utility System line of demarcation for such building, as described in the Performance Standards, except to the extent incorporated into the Utility System by a University Directive; and (B) from and after the Time of Closing, such Utility System as it is reconfigured, replaced, improved or relocated by the Concessionaire or the Operator pursuant to the terms of this Agreement.

“Utility System Assets” means (i) as of the time immediately prior to the Time of Closing, the personal property of the University used in connection with operations of the Utility System and identified on Part 3 of Schedule 3 as “Personal Property” and (ii) from and after the Time of Closing, the personal property of the Concessionaire or the Operator used in connection with the operations of the Utility System.

“Utility System Concession Value” means, at any given date, the fair market value of the Concessionaire Interest at the time of the occurrence of the relevant Adverse Action or University Default or any event of termination, cancellation, rescinding or voiding referred to in Section 16.4 (but excluding the effect of such Adverse Action, University Default or event described in Section 16.4), as determined pursuant to a written appraisal prepared in conformity with the Uniform Standards of Professional Appraisal Practice as set forth by the Appraisal Standards Board, or its successor organization, by an independent third party appraiser that is nationally recognized in appraising similar assets and that is acceptable to the University and the Concessionaire; provided, however, that the Utility System Concession Value shall in no event be less than the amount of all Leasehold Mortgage Debt (including Breakage Costs) on the End Date. If the Parties fail to agree upon such a single appraiser within 30 Days after a Party requests the appointment thereof, then the University and the Concessionaire shall each appoint an independent third party appraiser and both such appraisers shall be instructed jointly to select a third independent third party appraiser to make the appraisal referred to above. The University shall pay the reasonable costs and expenses of any appraisal.

“Utility System Operations” means the operation, management and maintenance of the Utility System and all other actions relating to the Utility System that are performed by or on behalf of the Concessionaire pursuant to this Agreement.

“Utility System Purposes” means the use of the Utility System to provide Utility Services in support of the University by providing utility services to University facilities on the
University Campus, including to students, faculty, administrators, employees and invitees of the University thereon and others providing services to the University.

“Valuation Amount of Applicable Utility System Property” means the value of the applicable portion of the Utility System, as determined by State Risk, including in connection with the construction of Capital Improvements or the addition to or removal from the Utility System of buildings and/or other improvements.

“Variable Fee Component” has the meaning ascribed thereto in Schedule 5.

“Vehicle Research Lab Space” means the portion of the building identified as building #403 on Part 1 of Schedule 3 and associated improvements installed therein which portion is more particularly identified on Part 2 of Schedule 3.

“Warranty Period Utility System Projects” means those projects with respect to the Utility System completed by the University prior to the Time of Closing that remained subject to an ongoing warranty from the contractor responsible for completing such projects and are listed on Schedule 23, provided that the University may, if any such warranties expire prior to the Time of Closing, provide the Concessionaire notice thereof and amend Schedule 23 accordingly.

“Wells Fargo” has the meaning ascribed thereto in Section 9.1(i).

“West Lagoon” means the parcel identified on Part 1 of Schedule 3 as the “West Lagoon” adjacent to building #771 and associated improvements installed therein.

“Year” means the calendar year.

Section 1.2. Number and Gender. In this Agreement, words in the singular include the plural and vice versa and words in one gender include all genders.

Section 1.3. Headings. The division of this Agreement into articles, sections and other subdivisions is for convenience of reference only and shall not affect the construction or interpretation of this Agreement. The headings in this Agreement are not intended to be full or precise descriptions of the text to which they refer and shall not be considered part of this Agreement.

Section 1.4. References to this Agreement. The words “herein”, “hereby”, “herof”, “hereto” and “hereunder” and words of similar import refer to this Agreement as a whole, including the Schedules, and not to any particular portion of it. The words “Article”, “Section”, “paragraph”, “sentence”, “clause” and “Schedule” mean and refer to the specified article, section, paragraph, sentence, clause or schedule of or to this Agreement.

NTD: Changes to this definition are necessary to reflect the update that the University provided prior to Closing.
Section 1.5. References to Any Person. A reference in this Agreement to any Person at any time refers to such Person’s permitted successors and assignees.

Section 1.6. Meaning of Including. In this Agreement, the words “include”, “includes” or “including” mean “include without limitation”, “includes without limitation” and “including without limitation”, respectively, and the words following “include”, “includes” or “including” shall not be considered to set forth an exhaustive list.

Section 1.7. Meaning of Discretion. In this Agreement, unless otherwise modified, the word “discretion” with respect to any Person means the sole and absolute discretion of such Person.

Section 1.8. Meaning of Notice. In this Agreement, the word “notice” means “written notice”, unless specified otherwise.

Section 1.9. Consents and Approvals. Unless specified otherwise, wherever the provisions of this Agreement require or provide for or permit an approval or consent by either Party, such approval or consent, and any request therefor, must be in writing (unless waived in writing by the other Party).

Section 1.10. Trade Meanings. Unless otherwise defined herein, words or abbreviations that have well-known trade meanings are used herein in accordance with those meanings.

Section 1.11. Laws. Unless specified otherwise, references to a Law are considered to be a reference to (i) such Law as it may be amended from time to time, (ii) all regulations and rules pertaining to or promulgated pursuant to such Law, (iii) the successor to the Law resulting from recodification or similar reorganizing of Laws and (iv) all future Laws pertaining to the same or similar subject matter.

Section 1.12. Currency. Unless specified otherwise, all statements of or references to dollar amounts or money in this Agreement are to the lawful currency of the United States of America.

Section 1.13. Generally Accepted Accounting Principles. All accounting and financial terms used herein, unless specifically provided to the contrary, shall be interpreted and applied in accordance with GAAP.

Section 1.14. Calculation of Time. For purposes of this Agreement, a period of Days shall be deemed to begin on the first Day after the event that began the period and to end at 5:00 p.m., which time shall be determined by the time in the City of Moscow, Idaho on the last Day of the period. If, however, the last Day of the period does not fall on a Business Day, the period shall be deemed to end at 5:00 p.m., which time shall be determined by the time in the City of Moscow, Idaho on the next Business Day.
Section 1.15. Approvals, Consents and Performance by the University.

(a) Procedures. Wherever the provisions of this Agreement require or provide for or permit an approval or consent by the University of or to any action, Person, Document, or other matter contemplated by this Agreement, the following provisions shall apply: (i) such request for approval or consent must (1) contain or be accompanied by any documentation or information required for such approval or consent in reasonably sufficient detail, as reasonably determined by the University, (2) clearly set forth the matter in respect of which such approval or consent is being sought, (3) form the sole subject matter of the correspondence containing such request for approval or consent, and (4) state clearly that such approval or consent is being sought; (ii) such approval or consent shall not be unreasonably withheld, conditioned or delayed (unless such provision provides that such approval or consent may be unreasonably withheld, conditioned or delayed or is subject to the discretion of the University); (iii) the University shall advise the Concessionaire by written notice either that it consents or approves or that it withholds its consent or approval, in which latter case it shall set forth, in reasonable detail, its reasons for withholding its consent or approval, which reasons may include the insufficiency, as determined by the University acting reasonably, of the information or documentation provided; (iv) unless a time period is specifically set forth elsewhere herein, the University shall, within 30 Days after receipt of the Concessionaire’s request, (1) provide the responding notice mentioned in clause (iii) of this Section 1.15(a) or (2) if the University determines in its discretion that additional time to consider such request would be appropriate due to the request’s complexity or interrelationship with larger University issues, advise the Concessionaire by written notice of a reasonable timeframe (not to exceed 120 Days) in which the University will provide the responding notice mentioned in clause (iii) of this Section 1.15(a), which written notice shall extend the timeframe for Approval of the request to the timeframe set forth in such notice; (v) if the responding notice mentioned in clause (iii) of this Section 1.15(a) indicates that the University does not approve or consent, the Concessionaire may take whatever steps may be necessary to satisfy the objections of the University set out in the responding notice and, thereupon, may resubmit such request for approval or consent from time to time and the provisions of this Section 1.15 shall again apply; (vi) if the disapproval or withholding of consent mentioned in clause (iii) of this Section 1.15(a) is subsequently determined pursuant to Article 18 to have been improperly withheld or conditioned by the University, such approval or consent shall be deemed to have been given on the date by which such approval or consent should have been provided; provided that, to the extent any deadlines for performing work are determined by reference to the date of consent or approval, such consent or approval shall be deemed to have been given on the date of determination rather than the date such consent or approval should have been provided; and (vii) for the avoidance of doubt, any dispute as to whether or not a consent or approval has been unreasonably withheld, conditioned or delayed shall be resolved in accordance with the provisions of Article 18. The Concessionaire shall submit any request for approval or consent to the
University Liaison, who will direct such request to the appropriate committee, Person or group within the University.

(b) **Approved Documents.** Subject to the other provisions hereof, wherever in this Agreement an approval or consent by the University is required with respect to any document, proposal, certificate, plan, drawing, specification, contract, agreement, budget, schedule, report or other written instrument whatsoever (a “Document”), following such Approval such Document shall not be amended, supplemented, replaced, revised, modified, altered or changed in any manner whatsoever without obtaining a further Approval in accordance with the provisions of this Section 1.15.

**Section 1.16. Incorporation of Schedules.** The Schedules are integral to, and are made a part of, this Agreement. In the event of any conflict between the terms of this Agreement and the terms of the Schedules, the terms of this Agreement shall control.

**Section 1.17. References to Agreements Generally.** References to agreements (including this Agreement) and other contractual instruments shall be deemed to include all amendments, restatements, extensions and other modifications to such instruments, whether in effect as of the Effective Signing Date or made thereafter.

**Section 1.18. Cost Responsibilities.** In this Agreement, the phrases “at Concessionaire’s sole cost and expense”, “at Concessionaire’s cost and expense”, “the Concessionaire shall be responsible for providing”, “the Concessionaire shall pay”, “the Concessionaire shall reimburse” and similar phrases and provisions that require the Concessionaire to take certain actions or perform certain services, shall not mean that such costs or expenses, or the costs and expenses associated with such actions or activities, are necessarily subject to recovery as part of the Utility Fee or otherwise in accordance with this Agreement. The inclusion of such costs and expenses in the Utility Fee shall be determined in accordance with Schedule 5.

**Section 1.19. Out-of-Pocket Costs.** In this Agreement, any reference to “out-of-pocket” or “out of pocket” costs or expenses of the Concessionaire or Operator and similar phrases and provisions shall mean the reasonable, incremental actual costs paid by the Concessionaire or Operator to a third party that (i) is not an Affiliate of the Concessionaire, the Operator or any Equity Participant or (ii) is an Affiliate of the Concessionaire, the Operator or any Equity Participant, provided that the payments to such Affiliate are on arms’ length terms consistent with those terms offered by unaffiliated third parties for similar goods or services.

**Section 1.20. Amendment and Restatement.** This Agreement shall amend and restate, in its entirety, the Original Agreement. From and after the date hereof, this Agreement shall be the operative agreement, and the Original Agreement shall be of no force or effect.

---

10 NTD: This change is necessary because “Effective Date” is not defined.
ARTICLE 2
THE TRANSACTION; CLOSING; CONDITIONS PRECEDENT; COVENANTS

Section 2.1. Grant of Concession. Upon the terms and subject to the conditions of this Agreement, effective at the Time of Closing, (a) the Concessionaire shall pay the University the exact amount of $225,000,000 in cash (the “Closing Consideration”) in accordance with Section 2.2(a), (b) the University (i) demises and leases the Utility System Land and the Utility Facilities and (ii) grants the Concessionaire a license to access and use the Tunnels in accordance with Section 3.22 in order to perform its obligations under this Agreement with respect thereto, in each case to the Concessionaire free and clear of Encumbrances other than Permitted University Encumbrances and on an exclusive basis, other than as expressly provided in this Agreement, for and during the term (the “Term”) commencing on the Closing Date and expiring on the 50th anniversary of the Closing Date (or such later date as may be required to effect a Delay Event Remedy but subject to earlier termination as provided in this Agreement), provided that such demise and lease of the Utility Facilities other than those located on the Utility System Land and the license to access the Tunnels shall not prevent the University from using, occupying, developing, leasing or otherwise enjoying the real property and the improvements other than the land on which the Utility Facilities are located or adjacent, over or under which the Tunnels are located without the payment of any fee, charge or rent to the Concessionaire, and (c) the University (i) grants the Concessionaire a non-exclusive license during the Term, appurtenant to the leasehold interest described in clause (b)(i) above, to access the Public Way and other portions of the University Campus (subject to Section 3.2(b)), solely in order to operate, maintain, repair, replace, improve and service the Utility Facilities located therein or thereon to the extent permitted or required under this Agreement, (ii) grants the Concessionaire, free and clear of any Encumbrances (other than Permitted University Encumbrances) an exclusive right for and during the Term to operate the Utility System (and any expansions, improvements or replacements thereto) and to provide Utility Services on the University Campus (except as expressly provided herein), and in connection therewith (A) to use, possess, control, operate, manage, modify, maintain and rehabilitate the Utility System; and (B) to charge the Utility Fee; and (iv) assigns, transfers and otherwise conveys to the Concessionaire by bill of sale each of the Utility System Assets identified on Schedule 3, free and clear of any Encumbrances (other than Permitted University Encumbrances) and the Concessionaire hereby accepts each such demise, lease, license, grant, assignment, transfer and conveyance (collectively, the “Transaction”). The Parties acknowledge the Transaction closed on the Time of Closing and the foregoing were all effective as of that time.\(^{11}\)

Section 2.2. Closing.

(a) The closing of the Transaction (the “Closing”) shall take place on the date that is on or before 65 Days after the date hereof, but in no event sooner than 45 Days after the date hereof, of which date the Concessionaire shall provide written notice to the University at least 20 Business Days prior thereto, or such other date as agreed in writing by the Concessionaire and the University (the “Closing Date”).

\(^{11}\) NTD: This change is necessary to document that the University is not again assigning the assets and that the Closing did occur.
Date”). If, after execution, the Concessionaire requests that the Closing Date take place earlier than 60 days after the date hereof, the University shall consider such request in good faith but shall not be obligated to agree to such request. The Closing shall be held at the University of Idaho, Division of Finance and Administration, 875 Perimeter Drive, Moscow ID 83844-3168 or such other place agreed to in writing by the University and the Concessionaire. At the Time of Closing, the Concessionaire shall deliver or cause to be delivered to the University same-day funds by wire transfer in the amount of the Closing Consideration (plus or minus, as appropriate, any adjustment in accordance with Section 2.2(b), and upon receipt of such payment the Transaction shall be effective. The Concessionaire shall wire the Closing Consideration to bank account(s) and/or payees and in increments designated by the University. Upon receipt of the funds described in the preceding sentences in this Section 2.2(a), the University shall immediately cancel and return the Closing Deposit and the Cash Deposit (unless such Closing Deposit or Cash Deposit is applied against the Closing Consideration by the University in accordance with Section 2.3(c)), in accordance with the Concessionaire’s instructions. The Parties acknowledge the Closing occurred on the Time of Closing and the foregoing were all effective as of that time.

(b) All Prorated Items shall be prorated between the University and the Concessionaire as of 11:59 p.m. on the Day immediately preceding the Closing Date based upon the actual number of Days in the month and a 365-Day year and the required payment resulting from such proration shall be added to or subtracted from the Closing Consideration as follows:

(i) At least 5 Days prior to the Closing, the University will provide to the Concessionaire an itemized statement of such Prorated Items, estimated in good faith as of the Closing and reasonably based on relevant billing information from third parties or (in the absence of such information) the University’s financial statements as of June 30, 2020, and such statement shall be the basis of proration of any Prorated Items at the Closing and any resulting adjustment to the Closing Consideration in accordance with this Section 2.2(b);

(ii) Within 45 Business Days after the Closing, the University will provide to the Concessionaire a revised good-faith accounting of such Prorated Items as of the Closing in the form of an itemized statement of such Prorated Items (the “Revised Proration Statement”);

(iii) Within 15 Business Days after the Concessionaire’s receipt of the Revised Proration Statement, the Concessionaire will review the Revised Proration Statement and will notify the University of any adjustments made by the Concessionaire to the Revised Proration Statement in good faith;

(iv) To the extent the University disagrees with any of the Concessionaire’s adjustments to the Revised Proration Statement, the University shall
provide notice to the Concessionaire within 15 Business Days after the University’s receipt of the Concessionaire’s adjustments, and any disagreement shall be resolved in accordance with Article 18; and

(v) Upon final resolution with respect to the proration of each such Prorated Item (whether by agreement of the Parties or in accordance with Article 18), the Party that is determined to owe money pursuant to the proration of that Prorated Item shall pay to the other party the amount owed within 10 Business Days of such determination.

Section 2.3. Deposit.

(a) The University acknowledges receipt from the Concessionaire of cash (the “Cash Deposit”) and/or one or more Letters of Credit with a term of at least 120 Days from the date hereof (the “Closing Deposit”), in an aggregate amount equal to $10,000,000, to be held by the University for the sole purpose described in Section 2.3(b). The University shall deposit any Cash Deposit with the Escrow Agent, which shall invest such amount in Eligible Investments pending the Closing. The Parties acknowledge that the University returned the Closing Deposit promptly after the Closing.

(b) If the University terminates this Agreement pursuant to Section 2.4(d)(iv) (including as a result of the failure of the Concessionaire to pay the Closing Consideration at the Closing in accordance with the terms hereof so long as said failure to deliver funds is not the direct result of the University’s actions or omissions), then the University shall be entitled to (i) retain the Cash Deposit and all interest accrued thereon and, (ii) without notice to the Concessionaire, immediately draw the full amount of the Closing Deposit upon presentation of a sight draft and a certificate confirming that the University has the right to draw under the Closing Deposit in the amount of such sight draft, and the University shall be entitled to retain the Cash Deposit and all of the proceeds of the Closing Deposit, in each case as the sole remedy or right of the University against the Concessionaire hereunder (provided that this limitation shall not apply in the event of fraud or intentional misrepresentation of the Concessionaire); provided, however, that if this Agreement is terminated for any other reason prior to Closing, the University shall return any Cash Deposit and the interest earned thereon in accordance with the Concessionaire’s reasonable instructions, and deliver, in accordance with the Concessionaire’s reasonable instructions, the Closing Deposit and agree to cancel the Closing Deposit, in each case, immediately following any such termination. The Concessionaire acknowledges that the loss the University will incur in the event of a termination under Section 2.4(d)(iv) is difficult to ascertain, and that the University’s right to retain the Cash Deposit and to draw the Closing Deposit as set forth above is based on the Parties’ reasonable estimate, taking into account the magnitude of the Transaction and the other relevant considerations, as to such loss and is not intended as, and does not constitute, a penalty. Except in cases involving fraud or intentional misrepresentation by the Concessionaire, the right of the
University to retain the Cash Deposit or to draw the Closing Deposit is intended to be, and shall constitute, liquidated damages, and any payment thereof to the University shall terminate the University’s rights and remedies in all respects.

(c) At the Closing, upon the satisfaction of the conditions set forth in Section 2.4(a), Section 2.4(b) and Section 2.4(c), the Concessionaire shall be entitled to, as applicable, (i) with respect to the Cash Deposit, (1) a full return of the Cash Deposit, if any, and all investment earnings accrued thereupon or (2) apply the Cash Deposit (including any accrued interest) as a credit against the Closing Consideration and (ii) with respect to the Closing Deposit, (1) a return of the Closing Deposit, (2) its cancellation or (3) its application as a credit against the Closing Consideration, in any case as directed by the Concessionaire prior to Closing.

Section 2.4. Conditions Precedent; Termination.

(a) Conditions for the Benefit of the Concessionaire. The Concessionaire shall be obligated to complete the Closing only if each of the following conditions have been satisfied in full at or before the Time of Closing, unless waived by the Concessionaire, which the Concessionaire acknowledges were satisfied at or before the Time of Closing such that Closing occurred:

(i) the representations and warranties of the University set forth in Section 9.1 shall be true and correct in all material respects on and as of the date hereof Signing Date and at and as of the Time of Closing with the same force and effect as if made at and as of such time and date except that (A) representations and warranties that by their terms speak only as of the date hereof Signing Date or some other date need to be true and correct only as of such date and (B) those representations and warranties which are subject to a materiality or a Material Adverse Effect qualifier in Section 9.1 shall be true and correct in all respects on and as of the date hereof Signing Date and at and as of the Time of Closing with the same force and effect as if made at and as of such time and date;

(ii) the University shall not be in material breach of any material covenant on its part contained in this Agreement which is to be performed or complied with by the University at or prior to the Time of Closing;

(iii) the University shall have obtained and delivered to the Concessionaire, at the expense of the Concessionaire, a commitment effective at the Time of Closing for a leasehold title policy or policies, in form and substance reasonably acceptable to the Concessionaire (which will include an endorsement with the terms of the leasehold coverage), proposing to insure the leasehold interest of the Concessionaire in the Utility System Land, to the extent of such leasehold interest, subject only to

---

12 NTD: This change is necessary to document that no closing conditions were unsatisfied.
(A) Permitted University Encumbrances, (B) Permitted Concessionaire Encumbrances (other than the Permitted Concessionaire Encumbrances specified in clause (iv), clause (vii) and clause (ix) of the definition of “Permitted Concessionaire Encumbrances” as it pertains to clause (iii) of this Section 2.4(a)) and (C) any Encumbrances the Concessionaire is required to remove pursuant to Section 3.5(a) (the “Title Commitment”) from the Title Company, from which Title Company the Concessionaire shall purchase any leasehold title insurance policies (or any other title policies related to the Transaction) that it elects to purchase at Concessionaire’s cost in connection with the Transaction or any Leasehold Mortgage;

(iv) the University shall have delivered to the Concessionaire a legal opinion from the Office of the General Counsel of the University, in substantially the form attached hereto as Schedule 7, which legal opinion shall, if requested by the Concessionaire in writing prior to the Closing, also be addressed to any Leasehold Mortgagee providing Leasehold Mortgage Debt at the Time of Closing (and shall cover, as applicable, any consent to assignment or direct agreement with respect to the Leasehold Mortgage Debt that the University executes with such Leasehold Mortgagee);

(v) the University shall have executed and delivered to the Concessionaire (A) the assignments, transfers and conveyances contemplated by Section 2.1, and (B) the consents and estoppel certificates contemplated by Section 10.2 and the consent agreement contemplated by Section 19.1(i);

(vi) there shall not have occurred a material casualty loss, destruction or damage to, or condemnation of, the Utility System; provided, however, that as used in this Section 2.4(a)(vi), a material casualty loss, destruction or damage to, or condemnation of, the Utility System means the casualty, loss, damage, destruction or condemnation of the Utility System such that its annualized aggregated delivery capacity (calculated in British Thermal Units) for the electricity, steam, domestic water and chilled water portions of the Utility System has been reduced by at least 10% since the Setting Date;

(vii) from the Setting Date through and including the Time of Closing, no action or event has transpired that would have constituted an Adverse Action had it occurred during the Term;

(viii) all Campus-Wide Permits set forth on Schedule 18 are in full force and effect;

(ix) no Tax-Advantaged Bonds of the University that (i) are encumbered by, or are otherwise secured by, the revenues or other assets of any portion of the Utility System, or (ii) would lose their status as Tax-Advantage Bonds
upon consummation of the Transaction shall be outstanding as of the Closing Date, and the University shall provide an opinion of bond counsel confirming that no such Tax-Advantaged Bonds are outstanding together with a certificate granting the Concessionaire and the collateral agent the right to rely on such opinion; and

(x) the University shall have delivered to the Concessionaire a certificate confirming that each of the conditions set forth in Section 2.4(a)(i) through Section 2.4(a)(x) has been satisfied in full by the University (except for any condition that has been waived by the Concessionaire) at or before the Time of Closing.

(b) Conditions for the Benefit of the University. The University shall be obligated to complete the Closing only if each of the following conditions precedent had been satisfied in full at or before the Time of Closing, unless waived by the University, which the University acknowledges were satisfied at or before the Time of Closing such that Closing occurred:

(i) the representations and warranties of the Concessionaire set forth in Section 9.2 shall be true and correct in all material respects on and as of the date hereof Signing Date and at and as of the Time of Closing with the same force and effect as if made at and as of such time and date except that (A) representations and warranties that by their terms speak only as of the date hereof Signing Date or some other date need to be true and correct only as of such date and (B) those representations and warranties which are subject to a materiality or a Material Adverse Effect qualifier in Section 9.2 shall be true and correct in all respects on and as of the date hereof Signing Date and at and as of the Time of Closing with the same force and effect as if made at and as of such time and date;

(ii) the Concessionaire shall not be in material breach of any material covenant on its part contained in this Agreement which is to be performed or complied with by the Concessionaire at or prior to the Time of Closing (including the obligation of the Concessionaire to pay the Closing Consideration at the Closing in accordance with the terms hereof);

(iii) the Concessionaire shall have delivered to the University a legal opinion of outside counsel to the Concessionaire, substantially in the form attached hereto as Schedule 8;

(iv) all Leasehold Mortgage Debt issued by the Concessionaire on or before Closing shall have a credit rating of at least investment grade as determined by at least one of the Credit Rating Agencies and the Concessionaire shall have delivered to the University a certificate describing the material terms of such Leasehold Mortgage Debt, except that some (but not all) of such Leasehold Mortgage Debt issued on or before Closing need not have a credit rating of at least investment grade as
determined by at least one of the Credit Rating Agencies if such Leasehold Mortgage Debt is, within 6 months after Closing, either (i) completely repaid and retired or (ii) given a credit rating of at least investment grade as determined by at least one of the Credit Rating Agencies and, in either case, the Concessionaire has provided the University with Notice and reasonable proof thereof; provided, however, if such indebtedness is not retired or given the required credit rating within such 6-month period, it shall be deemed a Concessionaire Default and such indebtedness will not be “Leasehold Mortgage Debt” thereafter for purposes of this Agreement; and

(v) the Concessionaire shall have delivered to the University a certificate confirming that the Operator has engaged McKinstry Essention, LLC ("McKinstry") or a special purpose entity owned by McKinstry on a long-term basis to serve as a Contractor to the Operator to perform substantially all of the daily operations and maintenance with respect to the Utility System for which the Concessionaire is responsible hereunder; and

(vi) the Concessionaire shall have delivered to the University a certificate confirming that each of the conditions set forth in Section 2.4(b)(i) through Section 2.4(b)(v) has been satisfied in full by the Concessionaire (except for any condition that has been waived by the University) at or before the Time of Closing.

(c) Mutual Conditions. In addition, the University and the Concessionaire shall be obligated to complete the Closing only if each of the following conditions precedent has been satisfied in full at or before the Time of Closing, unless waived by both the University and the Concessionaire, which the Parties acknowledge were satisfied at or before the Time of Closing:

(i) there shall be no preliminary or permanent injunction or temporary restraining order or other order issued by a Governmental Authority of competent jurisdiction or other legal restraint or prohibition enjoining or preventing the consummation of the Transaction; and

(ii) there shall be no action taken, or any Law enacted, entered, enforced or deemed applicable to the Transaction by any Governmental Authority of competent jurisdiction that, in any such case, has resulted or (in the case of any pending review or proceeding, if adversely determined) could reasonably be expected to result in such Governmental Authority conditioning or restricting the consummation of the Transaction in a manner that would impose a material impairment on the Transaction or make the consummation of the Transaction illegal.
(d) Termination. This Agreement may be terminated at any time prior to the Closing:

(i) by mutual consent of the University and the Concessionaire in a written instrument;

(ii) by either the University or the Concessionaire, upon notice to the other Party, if any Governmental Authority of competent jurisdiction shall have issued an order, decree or ruling or taken any other action permanently restraining, enjoining or otherwise prohibiting the Transaction, and such order, decree, ruling or other action has become final and nonappealable; provided, however, that the right to terminate this Agreement under this Section 2.4(d)(ii) shall not be available to any Party whose failure to comply with any provision of this Agreement or other conduct has been the direct cause of, or directly results in such action;

(iii) by the Concessionaire, upon written notice to the University, if any condition set forth in Section 2.4(a) is not satisfied at the Time of Closing; provided, however, that the Concessionaire shall not have the right to terminate this Agreement under this Section 2.4(d)(iii) if (A) the Concessionaire shall have theretofore waived such condition, (B) the Concessionaire’s failure to comply with any provision of this Agreement or other conduct has been the cause of, or resulted in, the failure of such condition or conditions to be satisfied or (C) any condition set forth in Section 2.4(b) is not satisfied at the Time of Closing;

(iv) by the University, upon written notice to the Concessionaire, if any condition set forth in Section 2.4(b) is not satisfied at the Time of Closing; provided, however, that the University shall not have the right to terminate this Agreement under this Section 2.4(d)(iv) if (A) the University shall have theretofore waived such condition, (B) the University’s failure to comply with any provision of this Agreement or other conduct has been the cause of, or resulted in, the failure of such condition or conditions to be satisfied or (C) any condition set forth in Section 2.4(a) is not satisfied at the Time of Closing; or

(v) by either the University or the Concessionaire upon notice to the other Party if the Closing has not occurred within 20 Business Days after the Closing Date or such later date agreed to in writing by the Parties, provided that if the Closing has not occurred due to a Party’s failure to satisfy the conditions precedent for the Closing for which such Party is responsible pursuant to this Section 2.4, that Party may not terminate this Agreement pursuant to this Section 2.4(d)(v).

(e) Effect of Termination. In the event of termination of this Agreement by either the University or the Concessionaire as provided in Section 2.4(d), this Agreement shall forthwith become void and there shall be no liability or
obligation on the part of the University or the Concessionaire or their respective Representatives, except as set forth in Section 2.3(b), this Section 2.4(e), Article 12, Article 18 and Article 19. In the event that the Concessionaire terminates this Agreement pursuant to Section 2.4(d)(iii) as a result of the failure of the University to satisfy any condition set forth in Section 2.4(a) (excluding Section 2.4(a)(vi) and Section 2.4(a)(vii), but, with respect to the exclusion of Section 2.4(a)(vii), only to the extent the event described in Section 2.4(a)(vii) was not an action taken by the University), the University will compensate the Concessionaire in the aggregate amount of up to $1,500,000 for (i) reasonable and documented out-of-pocket costs and (ii) reasonable internal costs (calculated based on the market rate for such costs) incurred by the Concessionaire or the Operator in connection with the Transaction. In the event of any termination pursuant to Section 2.4(d)(i), Section 2.4(d)(ii), Section 2.4(d)(iii) or Section 2.4(d)(v), the Cash Deposit and all investment earnings accrued thereon shall be paid to the Concessionaire, and the Closing Deposit shall be returned undrawn to the Concessionaire marked canceled, as applicable.

(f) Acknowledgement. The Parties acknowledge that the Original Agreement was not terminated pursuant to Section 2.4(d) thereof, and Sections 2.4(d) and (e) of this Agreement shall be of no force or effect as a result thereof.\(^\text{13}\)

Section 2.5. Covenants.

(a) Cooperation. During the Closing Period, the Parties shall cooperate with each other in order to permit the Closing to be consummated on the Closing Date.

(b) Reasonable Efforts. During the Closing Period, each Party shall use all reasonable efforts (i) to take, or cause to be taken, all actions necessary to comply promptly with all requirements under this Agreement and all legal requirements which may be imposed on such Party to consummate the Transaction as promptly as practicable, including making any necessary filings, and (ii) to obtain (and to cooperate with the other Party to obtain) any Consent of any Governmental Authority or any other public or private third party which is required to be obtained or made by such Party in connection with the consummation of the Transaction. Each Party shall promptly cooperate with and promptly furnish information to the other Party at such other Party’s reasonable request in connection with any such efforts by, or requirement imposed upon, any of them in connection with the foregoing.

(c) Injunctions. If any Governmental Authority of competent jurisdiction issues a preliminary or permanent injunction or temporary restraining order or other order before the Time of Closing which would prohibit or materially restrict or hinder the Closing, each Party shall use all reasonable efforts to have such injunction, decree or order dissolved or otherwise eliminated or to eliminate the

\(^{13}\) NTD: This change is necessary to document the closing.
condition that formed the basis for such injunction or order, in each case as promptly as possible and, in any event, prior to the Time of Closing.

(d) **Operation of the Utility System.** During the Closing Period, the University shall operate the Utility System in the ordinary course in a manner consistent with past practice, which shall include using all reasonable efforts to preserve the goodwill of the Utility System and to maintain good business relationships with Persons having business dealings with respect to the Utility System, to maintain the Utility System in its existing operating condition and repair in accordance with past practice (ordinary wear and tear excepted), not to incur any Encumbrances on the Utility System (other than Permitted University Encumbrances) that are not satisfied by the Closing Date, and to cause the Utility System to be operated in all material respects in accordance with all applicable Laws (except to the extent any non-compliance is being contested in good faith by appropriate proceedings), all to the end that the Utility System as a going concern shall be unimpaired and delivered to the Concessionaire at the Time of Closing in a condition not materially worse than the condition as of the Setting Date, except for any damage by casualty or condemnation. The University, shall, up to and including the Time of Closing, be entitled to all of the cash or cash equivalents in or generated by the Utility System. The Concessionaire acknowledges that all receivables related to the Utility System in existence at the Time of Closing shall remain the property of the University and the Concessionaire shall transfer to the University any such receivables, existing up to and including the Time of Closing, received after the Closing Date within 30 Days after the Concessionaire’s receipt of such receivables. Without limiting the foregoing, the University shall not, without the Concessionaire’s approval, which shall not be unreasonably withheld, conditioned or delayed, (i) terminate, amend, modify or agree to a waiver of the terms of any Authorization related to the Utility System after the date hereof Signing Date and before the Time of Closing or (ii) commence any Material Changes or Capital Improvements to the Utility System that are not (1) Ongoing Utility System Projects or (2) reasonably necessary to address an Emergency; provided, the Capped O&M Index for the Fiscal Year in which such Capital Improvements are made shall be increased by any amounts the Concessionaire can reasonably prove caused an increase in the Capped O&M Costs as a direct result of such Capital Improvement or Material Change made to address an Emergency without the Concessionaire’s approval. Notwithstanding anything to the contrary in this Agreement, the University shall, on behalf of the Concessionaire, operate and maintain the Utility System through 11:59 p.m. on the Closing Date, so as to facilitate the transition of the operation of the Utility System in a timely and orderly manner. The Concessionaire shall be fully liable under this Agreement to perform the Utility Services after the Time of Closing.

(e) **Disclosure of Changes.**

(i) During the Closing Period, each Party shall immediately disclose in writing to the other Party any matter which becomes known to it which is
inconsistent in any material respect with any of the representations or warranties contained in Article 9. No such disclosure, however, shall cure any misrepresentation or breach of warranty for the purposes of Section 2.4 or Article 12; and

(ii) During the Closing Period, the University may supplement or amend the Disclosure Schedules hereto, including one or more supplements or amendments to correct any matter which would constitute a breach of any representation, warranty, covenant or obligation contained herein. No such supplement or amendment shall be deemed to cure any breach for purposes of Section 2.4(a) or, subject to the following sentence, for any other purpose. Notwithstanding the previous sentence, if the Closing occurs, then, subsequent to the Closing, any such supplement or amendment provided to the Concessionaire at least 10 Business Days prior to the Closing with respect to any representation or warranty contained in Section 9.1(d), or Section 9.1(i) relating to a matter arising after the Signing Date but before the Closing will be effective to cure and correct for all purposes any inaccuracy in, or breach of, such representation or warranty which would exist if the University had not made such supplement or amendment, and all references to any Disclosure Schedule hereto which is supplemented or amended as provided in this Section 2.5(e)(ii) shall (subject to the foregoing limitation) for all purposes after the Closing be deemed to be a reference to such Disclosure Schedule as so supplemented or amended.

The Concessionaire acknowledges that the University supplemented and amended the Disclosure Schedules by delivery of written notice on December 9, 2020.

(f) Access to Information and Pre-Closing Inspections. During the Closing Period, but subject to confidentiality obligations binding on the University with respect to any Person (provided that the University has disclosed to the Concessionaire the existence of the applicable Document that is subject to such confidentiality limitation in order to enable the Concessionaire to evaluate the materiality and significance of the lack of disclosure based on such limitations), the University shall (i) give the Concessionaire and its Representatives reasonable access during normal business hours and on reasonable notice to the Utility System to perform inspections on the Utility System, subject to the University’s policies and regulations regarding safety and security and any other reasonable conditions imposed by the University, (ii) permit the Concessionaire and its Representatives to make such inspections as they may reasonably request in order to facilitate the transition of the use, operation, possession and control of the Utility System to the Concessionaire and (iii) furnish the Concessionaire and its Representatives with such financial and operating data and other information that is available with respect to the Utility System as they may from time to time reasonably request; provided that no inspections or the results thereof shall permit the Concessionaire to terminate this Agreement solely as a result thereof but shall not serve as a waiver of any of the Concessionaire’s rights hereunder. The Concessionaire shall hold and shall cause its Representatives to hold in strict
confidence all Documents and information concerning the Utility System to the extent and in accordance with the terms and conditions of the confidentiality agreement between the University and the Concessionaire in connection with the Transaction. After the Closing Date, the Concessionaire shall, at the request of the University, in connection with claims or actions brought by or against third parties based upon events or circumstances concerning the Utility System, (A) provide reasonable assistance in the collection of information or Documents and (B) make the Concessionaire’s employees available when reasonably requested by the University; provided, however, that the University shall reimburse the Concessionaire for all out-of-pocket and documented costs and expenses incurred by the Concessionaire in providing said assistance and will not unduly interfere with the Concessionaire’s operations.

(g) Transition.

(i) During the Closing Period, the Parties shall cooperate with each other to ensure the orderly transition of control, possession, custody, operation, management and maintenance of the Utility System at the Time of Closing and to provide the services required to be performed under this Agreement. Such cooperation shall include the University making its employees reasonably available to the Concessionaire to assist in such transition at no out-of-pocket cost to the University. In order to assure such orderly transition and to provide information and Documents related to the Utility System Operations to the Concessionaire, the University shall use commercially reasonable efforts to exercise its rights under existing service agreements with service providers. After the Closing, the Parties shall continue to cooperate to ensure the orderly transition of control, possession, custody, operation, management and maintenance of the Utility System, provided that no University employees shall work to operate the Utility System after the Closing, provided that the foregoing shall not modify the rights of the Parties as set forth in Section 2.5(g)(ii).

(ii) At the request of the Concessionaire, the University will use commercially reasonable efforts to provide to the Concessionaire, for up to 12 months after the Closing Date, the services of any University Utility System Employees and other employees of the University (who for the avoidance of doubt remain employees of the University at the time of such request). The Concessionaire and the University agree that during the period of time that any services are performed by any University Utility System Employee or other employee of the University pursuant to this Section 2.5(g)(ii), the University Utility System Employees or such other employees shall continue to be employees of the University and not be employees of the Concessionaire. All such services shall be provided for an amount equal to the actual cost to the University (including employment costs and related overhead expenses allocable to such employees, as reasonably determined by the University), which amount shall be billed to the Concessionaire as soon as reasonably practicable.
following the end of each month and shall be payable by the Concessionaire within 30 Days of receipt of any such statement, and upon such other reasonable terms and conditions as the University and the Concessionaire may agree; provided, however, that such statement shall show in reasonable detail the hours worked and hourly rate of each such University Utility System Employee or other employee by the University and the amount of overhead expenses allocated to each such University Utility System Employee or other employee by the University.

(h) **Casualty Loss Prior to Closing.** If between the Setting Date and the Time of Closing, a casualty loss, destruction or damage to, or a condemnation of, the Utility System or a portion thereof has occurred, unless this Agreement has been terminated under Section 2.4(d), then the University shall, at its option, either (i) promptly and diligently repair and rebuild the affected parts of the Utility System to restore them to at least the same condition in which they were before the occurrence of such casualty loss, destruction, damage or condemnation to the extent reasonably practicable, provided that if the affected parts of the Utility System cannot prior to the Closing Date be repaired or rebuilt to restore them to at least the same condition in which they were before the occurrence of such casualty loss, destruction, damage or condemnation, the University shall make such repairs or restoration as can reasonably be completed prior to the Closing Date and shall provide to the Concessionaire a plan for the completion of such remaining repairs or restoration following the Time of Closing at the University’s expense and shall then complete such repairs or restoration (to the extent reasonably practicable) in accordance with such plan, or (ii) authorize the Concessionaire to repair the Utility System and assign to the Concessionaire all insurance, condemnation and other proceeds (if any) payable by third-party insurers or other third parties in respect of such casualty loss, destruction, damage or condemnation and enforce (with the cooperation of the Concessionaire) all of its rights, remedies and privileges under any applicable insurance policies with third-party insurers, the costs of which shall not be included in the Variable Fee Component or the Utility Fee; provided that if no insurance exists or such insurance or condemnation proceeds are not sufficient to repair and rebuild the affected parts of the Utility System to its prior condition, then the University shall reimburse the Concessionaire for that amount representing the difference between the out-of-pocket cost to repair and the amount of any insurance or condemnation proceeds received by the Concessionaire. It shall not be a Concessionaire Default for the inability of the Concessionaire to meet any obligation hereunder as a direct result of such casualty loss, destruction, damage or condemnation unless the University has elected to authorize the Concessionaire to repair the Utility System pursuant to clause (ii) of this Section 2.5(h) and the Concessionaire is not diligently repairing or restoring the Utility System and any work performed by the University or by the Concessionaire after the Closing Date in order to repair or rebuild the Utility System to at least the same condition in which they were before the occurrence of such casualty loss, destruction, damage or condemnation shall constitute a Delay Event, provided if the Concessionaire is
undertaking such work, it shall do so diligently to be completed as soon as reasonably practicable. The Parties acknowledge and agree that no such casualty loss, destruction, damage or condemnation occurred during the Closing Period.

(i) Policies of Insurance. During the Closing Period, the University shall continue in force all applicable policies of insurance maintained by the University in respect of the Utility System. Except to the extent the University is required to maintain such policies of insurance in accordance with Article 13, at the Time of Closing, all such policies of insurance shall terminate and the Concessionaire shall be responsible for obtaining insurance for the Utility System in accordance with the terms hereof.

(j) Employees. Prior to the Time of Closing, the Concessionaire shall use its best efforts to or cause the Operator to interview all University Utility System Employees who apply for a position with the Concessionaire or the Operator, as the case may be. If either the Concessionaire or the Operator makes any offer of employment to any such individual, such offer shall contain only the terms and conditions of employment that the Concessionaire or the Operator, as the case may be, deems to be appropriate in its discretion, except that the Concessionaire or the Operator, as the case may be, shall include wages, benefits and other terms and conditions of employment that are at a minimum, comparable, in the aggregate, to the wages, benefits and other terms and conditions of employment such University Utility System Employee received as an employee of the University immediately prior to the Closing other than any tuition-based benefits offered to such University Utility System Employees prior to the Closing Date, which the Parties acknowledge and agree the Concessionaire will be unable to provide. Any and all employees of the Concessionaire and the Operator shall have met all reasonable background inspection and security requirements of the University, as promulgated from time to time. Nothing in this Agreement shall be construed or is otherwise intended to create joint employment by the University and the Concessionaire and/or the Operator, as the case may be, of the employees of the Concessionaire or the Operator; the Concessionaire or the Operator, as the case may be, shall have the right and obligation to supervise and direct the work of its employees.

(k) Ongoing Utility System Projects. The University shall continue the construction of the Ongoing Utility System Projects, in accordance with applicable Law, until they have been completed in substantial accordance with the plans for such Ongoing Utility System Projects as of the Setting Date, provided that the University may, upon written notice to the Concessionaire, abandon or modify any or all Ongoing Utility System Projects. To the extent that the construction or completion of any Ongoing Utility System Project requires access to the Utility System, the Concessionaire hereby grants a non-exclusive license to the University to so access the Utility System as necessary to complete such Ongoing Utility System Projects (and the University shall use reasonable efforts to avoid undue interference with the operation of the Utility System) and shall reasonably cooperate with the University with respect to the completion of the
Ongoing Utility System Projects, which cooperation shall include (i) providing the University with notice if the Concessionaire becomes aware of any deviation from the University’s approved plans and specifications for the applicable Ongoing Utility System Project and (ii) directing the University’s Contractors to stop any work on the Ongoing Utility System Project if the Concessionaire reasonably believes that continuing such work would constitute an Emergency. Upon completion of an Ongoing Utility System Project, the University shall (i) deliver the Concessionaire written notice thereof, and, at such time, that Ongoing Utility System Project shall become part of the Utility System and the Concessionaire shall be granted a leasehold interest therein and (ii) either (A) assign the Concessionaire (or one or more third parties at the Concessionaire’s direction) all contractors’ warranties held by the University with respect to such Ongoing Utility System Project or (B) to the extent the University chooses not to so assign such warranties or such warranties are not so assignable, cooperate with the Concessionaire to provide the benefit of such warranties to the Concessionaire (or one or more third parties at the Concessionaire’s direction). The University shall name the Concessionaire as an additional insured on its insurance policies with respect to those Ongoing Utility System Projects. For the avoidance of doubt, Ongoing Utility System Projects shall not be considered New Approved Capital Improvements. If the University elects to abandon an Ongoing Utility System Project, the Capped O&M Index shall be increased for the Fiscal Year in which such Capital Improvement is abandoned by the additional annual O&M Costs that the Concessionaire is required to incur due to the abandonment of such Ongoing Utility System Project, provided the Concessionaire provides reasonable proof of such additional O&M Costs and that such O&M Costs were unavoidable.

**Section 2.6. Intended Treatment for Federal and State Income Tax Purposes.**

(a) **Tax Treatment.**

(i) The Parties intend for United States federal and state income Tax purposes that (A) the Closing Consideration will be treated as a payment and consideration for (I) the sale of the Utility System Assets and Utility Facilities, (II) a lease of the Utility System Land to the Concessionaire and (III) the grant to the Concessionaire of the exclusive right to provide the Utility Services to the University Campus in accordance with this Agreement; and (B) the Utility Fee is a separate fee and payment from the Closing Consideration and is not a payment for the sale of assets and lease described in **Section 2.6(a)(i)(A)** or otherwise but is in consideration of the services provided hereunder by the Concessionaire to the University.

(ii) Notwithstanding **Section 2.6(a)(i)**, this **Section 2.6** only sets forth the intentions and agreements of the Parties with respect to United States federal and state income Tax purposes, and no provision of this Agreement is intended to, or shall in any way, transfer any fee interest in real property or improvements comprising the Utility System to the
Concessionaire for purposes of the provisions of the Idaho Code governing legal title to real property or the common law of Idaho or any other purpose whatsoever other than for United States federal and state income Tax purposes as described above.

(iii) The Parties believe that the Closing Consideration is a reasonable payment for the sale and lease of the assets and the grant of the right referred to in Section 2.6(a)(i)(A) based on the fair market value of those assets and such right and that the Utility Fee is a reasonable fee based upon the services provided hereunder by the Concessionaire to the University with respect to providing the services hereunder to the University and is in consideration thereof.

(iv) Subject to and consistent with Section 2.6(b) and Section 2.6(c), the University and the Concessionaire agree that the Closing Consideration will be allocated among the assets and rights that the Concessionaire is obtaining the use of pursuant to this Agreement using the residual allocation provisions of Section 1060 of the Code as provided therein and otherwise consistent in all respects with Schedule 19.

(v) Any Concession Compensation paid to the Concessionaire hereunder shall be deemed an adjustment to the Utility Fee for tax purposes and shall not be deemed to be an adjustment to the Closing Consideration related to the sale and lease of the assets described in Section 2.6(a)(i)(A).

(vi) The Parties intend that this Agreement will be treated as a service contract pursuant to Section 7701(e) of the Code with respect to the services provided hereunder by the Concessionaire to the University with respect to the Utility System, and the Parties shall use commercially reasonable efforts to cause such treatment under Section 7701(e) of the Code.

(vii) The Parties intend that the University shall be considered the owner of all Capital Improvements made pursuant to this Agreement for GAAP accounting and state law purposes, provided that the Parties intend that the Concessionaire may claim a depreciable interest in all such Capital Improvements made by the Concessionaire during the Term for federal and state income Tax purposes.

(viii) Notwithstanding the foregoing, if a Governmental Authority treats the Transaction, or any portion thereof, differently for state or federal Tax purposes, such treatment shall not impact, affect, modify or alter either Party’s obligations hereunder including the Concessionaire’s obligations under Section 10.4.

(ix) Neither Party shall file any tax returns inconsistent with any treatment set forth in this Section 2.6(a), except as required by Law.
(x) The Parties intend that, pursuant to the terms of this Agreement, as of the Closing Date, the Utility System shall be treated as being used for education related purposes for purposes of Idaho Code section 63-602E(3) in a manner that is proper for the operation of such state college or university.

(xi) The Parties intend that the sale and lease described in Section 2.1 and this Section 2.6 involve the sale of substantially all of the operating assets of an identifiable segment of the University, which exempts any sale or lease under these sections from Idaho sales tax under Idaho Code Section 63-3622K.

(b) Payment. For purposes of Section 467 of the Code, and the Treasury Regulations promulgated thereunder, on the Bid Date the Concessionaire has provided to the University a schedule, (i) allocating the Closing Consideration attributable to the lease of the Utility System Land described in Section 2.6(a)(i)(A)(II) in equal amounts for each annual rental period; and (ii) demonstrating that such amounts bear “adequate interest” within the meaning of Treasury Regulation Section 1.467-2(b)(1)(ii) for each rental period or that such schedule is consistent with proportional rental accrual within the meaning of Treasury Regulation Sections 1.467-1(d)(2)(ii) and 1.467-2(c), and prior to the execution of this Agreement, the University and the Concessionaire have agreed on such schedule, which shall not thereafter be modified or altered by the Concessionaire without the Approval of the University. Such schedule shall constitute a specific allocation of such amounts for purposes of Section 467 of the Code. The University and the Concessionaire hereby agree to reasonably cooperate to modify the schedule referred to above if the amount of rental payments on which such schedule is based changes after the date such schedule is Approved or there is any other modification to the lease after the date thereof for which it would be advisable in the Concessionaire’s reasonable discretion (after good faith consultation and discussion with the University) to modify such schedule. Notwithstanding the foregoing allocation, except as set forth above, all such rental payments shall constitute a rental paid under a triple net lease which is non-refundable. If the University files a tax return for federal income tax purposes, the University shall, in such return, treat the Closing Consideration in a manner consistent with the allocation set forth in this Section 2.6(b).

(c) Allocation. The Concessionaire has provided to the University, on the Bid Date, a schedule reflecting a reasonable allocation of the Closing Consideration (and all other capitalized costs) among the acquired assets in accordance with Section 1060 of the Code and the applicable Treasury Regulations for the University’s Approval, and the University and the Concessionaire have agreed on such schedule, which is attached hereto as Schedule 19, which shall not thereafter be modified or altered by the Concessionaire without the Approval of the University. The University shall file all federal and state income tax returns in a manner consistent with the allocation set forth on Schedule 19. Each of the
Concessionaire and the University acknowledges that the leasing of certain assets included in the Utility System as provided under this Agreement may result in the transfer of the tax ownership of such assets from the University to the Concessionaire.

Section 2.7. Closing Deliverables. At the Time of Closing, each Party shall execute and deliver all assets, agreements, bills of sale, assignments, endorsements, instruments and Documents as are reasonably necessary in the opinion of the other Party to effect the Transaction (and in form and substance that are reasonably satisfactory to such other Party).

Section 2.8. Memorandum of Lease. At the Time of Closing, the Parties shall execute and deliver a memorandum of lease (the “Memorandum of Lease”) in the form attached hereto as Schedule 13, which the Concessionaire shall cause to be recorded in the Latah County Recorder’s Office. To the extent that changes are made to this Agreement with respect to the Term, leased property or other material matters set forth in the recorded Memorandum of Lease, including the removal of property from service by the Utility System in accordance with Section 5.3, the Parties shall timely (and in no event longer than 10 Days after a request therefor) execute, deliver and record an amendment to the recorded Memorandum of Lease reflecting such changes. The Parties acknowledge that for purposes of recordation, a description of certain portions of the Utility System constituting Utility Facilities that are a real property interest, are depicted specifically but are recorded generally against the lot or parcel on which such Utility Facility is located. Each party shall have the right, from time to time, at its cost and expense to further refine by a metes and bounds legal description the specific location of the applicable Utility Facility, and subject to the other Parties’ reasonable approval, may modify the Memorandum of Lease by recording an amendment thereto that shows the refined location description. In such instance, the modification to the Memorandum of Lease is subject to the other Party’s reasonable approval, and both Parties shall sign a consent to the recording of the Memorandum of Lease upon its approval. The Parties agree not to record this Agreement itself.

Section 2.9. No Return of Closing Consideration. The Concessionaire shall have no right to have the Closing Consideration returned to it or refunded at any time after Closing, provided that, for the avoidance of doubt, this Section 2.9 shall not prohibit, preclude or adversely affect the Concessionaire’s rights to compensation expressly set forth herein, including the right to receive the full Utility System Concession Value in those instances expressly set forth herein.

ARTICLE 3
TERMS OF THE CONCESSION

Section 3.1. Quiet Enjoyment and Present Condition.

(a) Quiet Enjoyment. The University agrees that, subject to the University’s remedies upon a Concessionaire Default, the Concessionaire shall, at all times during the Term, be entitled to and shall have quiet enjoyment of the Utility System and the rights and privileges granted to the Concessionaire hereunder, subject to the provisions contained in this Agreement and the rights of other parties to use the Tunnels. The University and the Concessionaire acknowledge
that the Concessionaire’s rights to use, control and possess the Utility System and to collect and retain the Utility Fee are subject to the right of the University, in accordance with the terms of this Agreement, to monitor compliance with this Agreement to ensure that the Utility System is used and operated as required by this Agreement. Any entry by the University or its Representatives into the Utility System required or permitted under this Agreement shall not constitute a reentry, trespass or a breach of the covenant for quiet enjoyment contained in this Agreement. The University shall, at all times during the Term, defend its fee or leasehold interest title, as the case may be, to the Utility System, the Concessionaire’s leasehold interest in and to the Utility System and the rights granted to the Concessionaire hereunder, or any portion thereof, against any Person claiming any interest adverse to the University or the Concessionaire in the Utility System, or any portion thereof, except where such adverse interest arises as a result of the act, omission, negligence or willful misconduct of, or violation of applicable Law by, the Concessionaire, its Affiliates or their respective Representatives.

(b) Present Condition. Subject to Section 2.5(h) and except as specifically set forth herein, the Concessionaire understands, agrees and acknowledges that the Concessionaire (i) by the execution of this [the Original] Agreement, agrees to accept the Utility System “AS IS” at the Time of Closing and (ii) has inspected the Utility System and is aware of its condition and acknowledges that the University neither has made nor is making any representation or warranty, other than as expressly set forth herein, express or implied, regarding the condition of the Utility System (or any part thereof) or its suitability for the Concessionaire’s proposed use, provided that nothing in this Section 3.1(b) shall preclude the Concessionaire from making repairs or replacements or Capital Improvements to the Utility System in accordance with the terms of this Agreement (including, for the avoidance of doubt, the provisions regarding Approval of Capital Improvements set forth in Section 4.3 and the provisions regarding inclusion of New Approved Capital Improvements and O&M Costs in the calculation of the Utility Fee in accordance with Schedule 5) as a result of the Utility System’s condition at the Time of Closing.

(c) Legal Title to Real Property and Improvements. For the avoidance of doubt, and notwithstanding anything to the contrary contained in Section 2.6, all real estate and improvements now or hereafter forming part of the Utility System shall be the fee-owned property of the University for GAAP and state law purposes, and are subject to the terms and conditions of this Agreement.

Section 3.2. Utility System Operations.

(a) Use. Except as otherwise specifically provided herein, the Concessionaire shall, at all times during the Term, (i) be responsible for all aspects of the Utility System Operations, including providing the Utilities from temporary sources for

---

14 NTD: This change is necessary to document acceptance at time of closing.
construction projects and special events as identified by the University and (ii) maintain and operate the Utility System and cause the Utility System Operations to be performed in accordance with the provisions of this Agreement, including the Performance Standards, Prudent Industry Practices and applicable Law. Upon the University’s request, the Concessionaire shall provide an estimate for the costs associated with providing Utilities from temporary sources for construction projects or special events identified by the University. In connection with such maintenance, the Concessionaire may contract with a third party for certain tasks, such as janitorial services. Except for such additional purposes permitted pursuant to Section 3.15(c), the Concessionaire shall, at all times during the Term, cause the Utility System to be used exclusively for the Utility System Purposes and continuously open and operational for the Utility System Purposes in accordance with the Performance Standards. Notwithstanding the foregoing, the Concessionaire may cease keeping the Utility System or a portion thereof continuously open and operational for the Utility System Purposes (A) as specifically permitted under this Agreement, (B) as required by applicable Law, (C) as necessary to comply with any other requirement of this Agreement (including closures related to the performance of Capital Improvements or maintenance or repair activities as required by the Performance Standards), (D) as necessary for a Delay Event or (E) as necessary for temporary closures required to address Emergencies or public safety; provided, however, that in the event of any temporary suspension of Utility System Operations pursuant to any of clauses (A) through (E) of this Section 3.2(a), such suspension shall be limited as much as practicable so as to allow all other Utility System Operations to continue.

(b) *University Campus.* Notwithstanding anything to the contrary contained herein, the Concessionaire shall operate the Utility System and provide the Utility Services in a manner that does not interfere with or impair the operation of the University Campus or any other real property owned by the University, including any special events conducted on the University Campus. Except in the case of an Emergency or as otherwise provided for in Section 3.2(e) or Section 3.2(j), if the Concessionaire, in performing the Utility System Operations, determines it is reasonably necessary to access or disturb any portion of the University Campus or any other real property owned by the University, excluding the Tunnels and the Utility System Land, it shall, to the extent possible given the circumstances, provide the University at least 30 Days’ prior written notice and the Concessionaire shall comply with any reasonable requirements or restrictions on such disturbance imposed by the University, including limiting the time in which the Concessionaire can so access and/or disturb the portion of the University Campus or any other real property owned by the University to specific hours. In accessing any portion of the University Campus or any other real property owned by the University pursuant to the license granted hereunder, the Concessionaire shall also abide by any restrictions and requirements generally imposed by the University on such access, as communicated to the Concessionaire from time to time. To the extent that, in operating and maintaining the Utility System, the Concessionaire damages any...
portion of the University’s real or personal property, including the landscape of
the University Campus, the University’s information technology network or any
other real property owned by the University, the University’s outdoor lighting,
traffic signals, irrigation equipment and communications equipment and such
damage was neither (i) Approved by the University in accordance with this
Agreement nor (ii) included as part of the scope of work Approved by the
University related to such operations and maintenance, then the Concessionaire
shall, in coordination with University personnel, promptly cause such property to
be repaired to substantially the same or, solely at the Concessionaire’s election,
better condition that existed prior to such damage, and the cost incurred
therewith shall not be included in O&M Costs or otherwise recovered as a part
of the Utility Fee provided, however, that the Concessionaire shall be entitled to
make a claim on any applicable Concessionaire Required Coverage.

(c) **Costs and Expenses.** Except as otherwise specifically provided herein, the
Concessionaire shall, at all times during the Term, pay or cause to be paid all
costs and expenses of the Utility System Operations as and when the same are
due and payable.

(d) **Assumed Liabilities and Excluded Liabilities.** The Concessionaire agrees to
assume and discharge or perform when due all debts, liabilities and obligations
whatsoever relating to the Utility System or the Utility System Operations that
occur, arise out of or relate to, or are based on facts or actions occurring during
the Term but only to the extent such debts, liabilities or obligations do not arise
from or relate to any breach by the University of any covenant, representation or
warranty set forth in this Agreement (collectively, the “Assumed Liabilities”);
provided, however, that the Assumed Liabilities shall not include, and the
University shall perform or cause to be performed and discharge or cause to be
discharged as and when due, any debts, liabilities and obligations (i) with respect
to the University’s obligations under this Agreement, (ii) arising out of the
Utility System or any Utility System Operations (including with respect to any
University Utility System Employee) prior to the Time of Closing, (iii) arising
under any Environmental Law and related to (1) the ownership, operation or
condition of the Utility System prior to the Time of Closing or (2) the Release on
or from, presence on or in, or other existence on the Utility System or its
subsurface or the Tunnels of any Hazardous Substance at any time prior to the
Time of Closing and including (A) the abatement, handling, disposal or removal
of any asbestos or other Hazardous Substances present at the Time of Closing in
the Utility System as required by any Environmental Law in connection with the
repair, maintenance, operation or construction activities permitted or required to
be performed under this Agreement and (B) any known or unknown
environmental conditions relating to the Utility System or its subsurface that
existed prior to the Time of Closing the manifestation of which occurs following
the Time of Closing, which environmental obligations the University shall
perform and discharge when due, except in any case to the extent exacerbated by
the Concessionaire or its Representatives or caused by any action of the
Concessionaire or its Representatives, (iv) arising out of the University’s rights
under this Agreement to test, inspect, audit, repair, maintain or operate the Utility System without impairment of the University’s remedies for a Concessionaire Default and (v) with respect to the Ongoing Utility System Projects that have not yet become a part of the Utility System in accordance herewith (collectively, the “Excluded Liabilities”).

(e) **Right of Entry and Access to the Public Way.** Subject to Section 3.19, the University hereby grants to the Concessionaire and its Representatives a non-exclusive license to enter upon, in, under, over and across the Public Way to such extent and at such times as shall be necessary or desirable for the Concessionaire to access the Utility System in order to conduct Utility System Operations, including operating, maintaining, inspecting, repairing and managing Utility System properties, including the Utility System Assets and all supporting structures and appurtenances thereto, and installing monitoring or observation technology or equipment reasonably necessary for Utility System Operations. The rights granted pursuant to this Section 3.2(e) do not include the right to block, impede or otherwise obstruct traffic on the Public Way, and the Concessionaire shall, enter, access and perform work in, on or over the Public Way in accordance with the Performance Standards. The rights granted to the Concessionaire under this Section 3.2(e) neither create an interest in real property nor do they create a priority in favor of the Concessionaire over any other user of such areas and are subject to the Performance Standards and all provisions of Law relating to the conduct of a private business or franchise in the Public Way.

(f) **Mapping and Marking.** The Concessionaire shall be responsible for marking and mapping all portions of the Utility System in accordance with the Performance Standards.

(g) **Deemed Planned Outage.** The Concessionaire shall have the right to propose to shut down a portion of the Utility System such that such portion shall not transmit Utilities provided by that portion of the Utility System if the Concessionaire reasonably believes that such a shutdown will avoid additional costs in excess of the costs of such shutdown or lengthier shutdowns of the Utility System or a portion thereof later. If the University Liaison agrees to such shut down (which agreement must be in writing or by e-mail from the University Liaison), then it shall be treated as a Planned Outage. The University Liaison may make this determination in its sole discretion. If the University Liaison does not Approve such shutdown, then it will be considered an Unplanned Outage if the Concessionaire elects to proceed with such shutdown.

(h) **Emergency Shutdown.** If there is a circumstance where the continued operation of a portion of the Utility System creates an Emergency (other than an Unplanned Outage), then the Concessionaire shall have the right, directly or through its automatic protection system or the Operator, to shut down the applicable portion of the Utility System to address such circumstance, provided that the Concessionaire shall comply with the provisions of Section 8.1 and the
relevant portion of the Performance Standards, as if such shutdown were an Unplanned Outage. The Concessionaire shall perform the corrective action to address such circumstance as soon as reasonably practicable. Within 10 Business Days after the shutdown and repair of the applicable portion of the Utility System, the Concessionaire shall provide the University with pertinent information on such circumstance and such other relevant information within the Concessionaire’s possession or control that is requested by the University, and the University shall determine, in its reasonable judgment, whether such shutdown shall constitute an Unplanned Outage for purposes of determining the applicable Key Performance Indicator. For the avoidance of doubt, such determination shall not affect the Concessionaire’s obligation to treat such shutdown as an Unplanned Outage for purposes of compliance with the Performance Standards.

(i) Other Public Streets. To the extent that the performance of the Utility System Operations requires access to streets, alleys, driveways or sidewalks owned or controlled by a Governmental Authority, the University shall, at no out-of-pocket cost to the University, use commercially reasonable efforts to cooperate with the Concessionaire to secure such access from the applicable Governmental Authority consistent with the University’s past practice.

Section 3.3. Operator.

(a) Engagement. The Utility System Operations shall, at all times during the Term, be under the direction and supervision of an active operator with the expertise, qualifications, experience, competence, skills and know-how to perform the Utility System Operations in accordance with this Agreement, Prudent Industry Practices and applicable Law (an “Operator”) who may be (but is not required to be) the Concessionaire itself. The Operator on the first Day of the Term shall be the Concessionaire unless the Concessionaire has designated another Person to be the Operator and such Person has been Approved in accordance with Section 3.3(b). provided the Parties acknowledge Sacyr Plenary Idaho Operators LLC, a Delaware limited liability company was Approved as Operator as of the Time of Closing. The Concessionaire shall not engage or appoint a replacement Operator unless the University has Approved such Operator and the terms (including fees charged by such replacement Operator) of any such engagement are commercially reasonable; provided, however, that a Change in Control of an Operator shall be deemed to be the appointment of a replacement Operator subject to the University’s Approval; provided, further, that for purposes of this Section 3.3(a), the definition of “Equity Participant” and clauses (a) through (g) of the definition of “Change in Control” shall be read and apply as though “Operator” were substituted for “Concessionaire”; provided, further, that if the University does not provide the Concessionaire with the relevant Approval, the Concessionaire shall be entitled to appoint an interim Operator for a period of up to 180 Days from the date of appointment of such interim Operator. This interim Operator may be selected without Approval by the University so long as the Concessionaire reasonably determines that the interim Operator meets the
following criteria: (A) the interim Operator has experience in operating Comparable Utility Systems and (B) the interim Operator (or any guarantor of its obligations) has a tangible net worth reasonably sufficient to carry out its obligations and responsibilities as Operator. The Concessionaire shall not extend the term of any interim Operator beyond 180 consecutive Days or appoint a successor interim Operator after such 180-Day period. The Operator shall at all times be subject to the direction, supervision and control (by ownership, contract or otherwise) of the Concessionaire, and any delegation to an Operator shall not relieve the Concessionaire of any obligations, duties or liability hereunder. The Concessionaire shall immediately notify the University upon the termination or resignation of an Operator. The rights of the Operator regarding the continued operation of the Utility System shall terminate without penalty at the election of the University or the Operator upon 5 Business Days’ notice to such Operator or the University, as applicable, upon the termination of this Agreement. Except as otherwise expressly set forth herein, the Operator shall have no interest in, or rights under, this Agreement or the Utility System unless the Operator is the Concessionaire itself.

(b) Approval. The University’s Approval of a proposed replacement Operator may be withheld only if the University reasonably determines that the engagement of such proposed Operator is prohibited by applicable Law or this Agreement, or such proposed Operator is not capable of performing the Utility System Operations in accordance with this Agreement and Prudent Industry Practices, which determination shall be based solely upon one or more of the following factors: (i) the ability of the proposed Operator to operate the Utility System in a manner that complies with the Performance Standards; (ii) the financial strength, capitalization and integrity of the proposed Operator, its direct or indirect beneficial owners and some or all of their respective Affiliates providing a guaranty of the Operator’s obligations (which guaranty shall not be required to run to the benefit of the University); (iii) the experience of the proposed Operator in operating Comparable Utility Systems; (iv) the background and reputation of the proposed Operator, its direct or indirect beneficial owners, each of their respective officers, directors and employees and each of their respective Affiliates (including the absence of criminal, civil or regulatory claims or actions against any such Person and the quality of any such Person’s past or present performance on other projects); and (v) the proposed terms of the engagement of the proposed Operator, including the fee being charged by the Operator, length of the term of the engagement and any restrictions on transfer by the Operator of its obligations and change in control of the proposed Operator.
(c) Removal.

(i) If the Operator fails to operate the Utility System in compliance with the Performance Standards or fails to meet the Target for any Key Performance Indicator, and such failure is the material breach of a material requirement of the Performance Standards other than a requirement that is also a Key Performance Indicator, the University may provide written notice to the Operator and the Concessionaire setting forth such failure. If the Operator does not cure such failure within 30 Days of said written notice (or, if such cure or correction cannot reasonably be accomplished during such 30-Day period, within such longer period as is reasonably required to accomplish such cure or correction, provided the Concessionaire, either directly or through the Operator, has commenced such cure or correction within 30 Days of said written notice and diligently prosecutes the same to completion), then (i) the University may, upon notice to the Concessionaire, (A) cure any such failure and (B) the Concessionaire shall reimburse the University any and all costs related to such cure and/or correction; and (ii) the University may direct that the Concessionaire remove the Operator pursuant to the written order of senior University officials designated by the President of the University (or his or her designee) in writing for such purpose or otherwise with respect to assessing the performance of the Operator (the “Senior Officials”); or

(B) such failure results in an Emergency, then the University may, upon notice to the Concessionaire, (i) immediately cure any such failure after endeavoring to provide the Concessionaire notice appropriate under the circumstances (which may include telephone notice) and (ii) the Concessionaire shall reimburse the University any and all costs related to such cure and/or correction.

(ii) Notwithstanding the foregoing, if (A) within any Operator Evaluation Period, at least 3 Repetitive Failures occur, (B) a Major KPI Event for the same Key Performance Indicator occurs for 3 consecutive Fiscal Years or (C) 3 Major KPI Events occur in any given Fiscal Year, then the University, in addition to its right to KPI Compensation, may direct that the Concessionaire remove the Operator pursuant to the written order of the Senior Officials.

(iii) The University shall provide the Concessionaire and the Operator with no less than 30 Days’ prior written notice of the time, date, place and subject matter of any meeting of the Senior Officials at which a decision to remove the Operator will be considered, and both the Concessionaire and the Operator shall be afforded a reasonable opportunity to present
testimony and evidence at such meeting and to present to the Senior Officials written objections to any proposed removal determination. Any written order of the Senior Officials removing the Operator shall contain written determinations as to the reasons for removal of the Operator. Within 30 Days following the effective date of such decision, the Concessionaire shall (x) provide the University with a transition plan to remove the then current Operator and replace such Operator with either (A) a new Operator that is Approved by the University pursuant to Section 3.3(b), (B) an interim Operator in accordance with Section 3.3(a) or (C) to the extent the Concessionaire was not the removed Operator, the Concessionaire, and then (y) carry out such transition plan within 30 Days following the delivery thereof.

(iv) For the avoidance of doubt, if there is a dispute as to whether there has been a failure to meet the Performance Standards or the Target for any Key Performance Indicator, such dispute shall be subject to resolution in accordance with Article 18.

(d) **Sole Remedy.** Other than the University’s right to KPI Compensation pursuant to Article 15, notwithstanding anything to the contrary contained herein, the University’s right to remove the Operator pursuant to Section 3.3(c) shall constitute the Concessionaire’s sole and exclusive liability and the University’s sole and exclusive remedy relating to a failure to meet a requirement of the Performances Standards or a KPI Event.

(e) **Operator Fee.** Unless otherwise Approved by the University, the fee payable by the Concessionaire to the Operator shall not exceed $3,700,000 (the “Maximum Annual Operator Fee”) per Fiscal Year, Adjusted for Inflation, starting with the first Fiscal Year, provided that, to the extent any changes to the Capped O&M Index in accordance with Section 2.5(d), Section 3.23, Section 5.1 or Section 6.3(b) or any Uncapped O&M Costs require a material increase in the scope of work to be performed by the Operator, as demonstrated to the reasonable satisfaction of the University, the Maximum Annual Operator Fee shall be increased accordingly, as agreed by the University and Concessionaire, each acting reasonably. Notwithstanding the foregoing, if the Operator is replaced pursuant to the terms hereof, the Maximum Annual Operator Fee shall be replaced with the fee charged by the Operator in the first full Fiscal Year of such replacement tenure as Operator hereunder. For the avoidance of doubt, the amount of the Maximum Annual Operator Fee shall not affect the calculation of the Capped O&M Index for the Fiscal Year ending June 30, 2021; provided that, for the further avoidance of doubt, the Maximum Annual Operator Fee shall affect the calculation of the Capped O&M Index thereafter in accordance with the definition of “Capped O&M Index” and the relevant provisions of this Agreement.

(f) **IRWA Membership.** The Concessionaire shall cause the Operator, at all times, to maintain an active membership in the Idaho Rural Water Association (“IRWA”)
and to abide by all requirements of the IRWA, and the University shall use commercially reasonable efforts to assist in connection with applications related to such membership. If the University reasonably expects to incur any out-of-pocket costs in connection with providing assistance to the Operator as provided in the preceding sentence, it shall have no obligation to provide such assistance until the Concessionaire or the Operator commits to the prompt reimbursement of such out-of-pocket costs in writing.

Section 3.4. Authorizations; Qualifications.

(a) Compliance. The Concessionaire shall obtain, comply with, promptly renew and maintain in good standing all Authorizations, and the University shall use commercially reasonable efforts to assist the Concessionaire in obtaining, complying with, renewing and maintaining in good standing all such Authorizations, including those that the University was not required to obtain in connection with its operation of the Utility System prior to the Time of Closing. If the University reasonably expects to incur any out-of-pocket costs in connection with providing assistance to the Concessionaire as provided in the preceding sentence, it shall have no obligation to provide such assistance until the Concessionaire commits to the prompt reimbursement of such out-of-pocket costs in writing. Nothing in this Agreement, including Section 2.1, shall be deemed to waive or modify any Authorization required to be obtained by the Concessionaire or any other Person in connection with the Utility System, the Utility System Operations or any activities generating the Utility Fee.

(b) Qualifications. The Concessionaire shall, at all times during the Term, maintain in full force and effect its existence and all qualifications necessary to carry on its business pertaining to the Utility System Operations, including all rights, franchises, licenses, privileges and qualifications required in connection with the Utility System Operations.

Section 3.5. No Encumbrances.

(a) By the Concessionaire. The Concessionaire shall not do any act or thing that will create any Encumbrance (other than a Permitted Concessionaire Encumbrance) against the Utility System and shall promptly remove any Encumbrance (other than a Permitted Concessionaire Encumbrance) against the Utility System, unless the Encumbrance came into existence as a result of an act of or omission by the University or a Person claiming through it which in turn was not caused by an act or omission of the Concessionaire. The Concessionaire shall not be deemed to be in default hereunder if the Concessionaire continuously, diligently and in good faith contests any such Encumbrance, or the validity thereof (or causes such contest), by appropriate legal proceedings that shall operate to prevent the foreclosure of any such Encumbrance; provided that the Concessionaire has (i) given advance notification to the University that it is the intent of the Concessionaire to contest the validity or collection thereof or cause such contest and (ii) unless a bond or other security is provided in
connection with such proceedings, given a satisfactory indemnity to the University or deposited with the University a Letter of Credit, indemnity bond, surety bond, cash or Eligible Investment reasonably satisfactory to the University in an amount equal to the amount of the claim or Encumbrance, plus such interest and penalties, court costs, or other charges as the University may reasonably estimate to be payable by the Concessionaire at the conclusion of such contest or as is required to provide insurance over any potential Encumbrance; provided, however, that unless the Concessionaire is required by GAAP to maintain any security in favor of a purported beneficiary of such Encumbrance, in the event such Letter of Credit bond, cash or Eligible Investment shall be so deposited, the same shall be held by the University until such claim or other imposition shall have been released and discharged and shall thereupon be promptly returned to the Concessionaire, less any amounts reasonably expended by the University to procure such release or discharge or any loss, cost, damage, reasonable attorneys’ fees or expense incurred by the University by virtue of the contest of such Encumbrance.

(b)  By the University. The University shall not do any act or thing that will create any Encumbrance (other than a Permitted University Encumbrance) against the Utility System and shall promptly remove any Encumbrance (other than a Permitted University Encumbrance) against the Utility System that came into existence as a result of an act of or omission by the University or a Person claiming through the University. The University shall not be deemed to be in default hereunder if the University continuously, diligently and in good faith contests any such Encumbrance, or the validity thereof (or causes such contest), by appropriate legal proceedings that shall operate to prevent the foreclosure of any such Encumbrance; provided that the University has given advance notification to the Concessionaire that it is the intent of the University to contest the validity or collection thereof or cause such contest.

(c)  Removal. Each Party, if requested by the other Party and at such other Party’s costs and expense, shall use its reasonable efforts to assist such other Party in attempting to remove any Encumbrance that has come into existence as a result of an act of or omission by such other Party (other than a Permitted University Encumbrance or a Permitted Concessionaire Encumbrance); provided that nothing herein shall obligate the University to waive, modify or otherwise limit or affect the enforcement by the University of any applicable rule, procedure or policy of the University whether or not with respect to the Utility System.

Section 3.6. Single Purpose Covenants; Credit Rating. Subject to Section 3.15(c), the Concessionaire shall, at all times during the Term, (i) be formed and organized solely for the purpose of (A) owning the Concessionaire Interest, (B) owning, leasing, operating, improving, using, possessing, controlling and otherwise dealing with the Utility System, (C) collecting from the University the Utility Fee in consideration of providing the services hereunder to the University and any fees from third parties to which it provides services to the extent permitted by Section 3.15(c), (D) financing its interest in the Utility System, and (E) carrying out the Utility Services and other activities permitted pursuant to this Agreement (and any activities...
reasonably incidental thereto), (ii) not engage in any business unrelated to clause (i) above, (iii) not have any assets other than those related to its activities in accordance with clauses (i) and (ii) above, (iv) except as appropriate for Tax reporting purposes, maintain its own separate books and records and its own accounts, (v) observe all corporate, limited partnership or limited liability company, as applicable, formalities and do all things necessary to preserve its existence, (vi) not guarantee or otherwise obligate itself with respect to the debts of any other Person, (vii) except as expressly permitted hereby or by any Leasehold Mortgage, or in the ordinary course of business of the Utility System, not pledge its assets for the benefit of any other Person, and (viii) maintain adequate capital in light of its contemplated business operations. In addition, if the Concessionaire issues or refinances any Leasehold Mortgage Debt is issued or refinanced\(^{\text{15}}\) after the Closing Date, at the time of such issuance, refinancing or entry, such Leasehold Mortgage Debt shall have an investment grade credit rating, as determined by at least one of the Credit Rating Agencies, and shall provide written evidence of such rating to the University at the same time as such issuance, refinance or entry. The cost and expense paid to the applicable Credit Rating Agency for maintaining the credit rating of the Leasehold Mortgage Debt with a Credit Rating Agency shall, for the first three Fiscal Years (and any partial Fiscal Year) after the Closing be treated as Uncapped O&M Costs and shall not be included in the calculation of the Capped O&M Index, and, after such period has elapsed, those reasonable, actual out-of-pocket costs shall be considered Capped O&M Costs and included in the Capped O&M Index by taking them into account in the calculation of historical Capped O&M Costs for the prior 3 Fiscal Years in the manner specified in the definition of “Capped O&M Index” in Schedule 5).

Section 3.7. Rights of the University to Access and Perform Work on the Utility System and Utilize Space for Energy Resources and Research Purposes.

(a) Reservation of Rights. The University reserves (for itself and any of its Representatives, grantees, tenants, contractors, mortgagees, licensees, concessionaires and others claiming by, through or under the University) and shall, at all times during the Term, have the right to enter the Utility Facilities and have access to the Utility System in response to any of the following events or circumstances or for any of the following purposes, provided that (x) with respect to Section 3.7(a)(i) and Section 3.7(a)(ii), such right is to be exercised at all reasonable times upon reasonable prior notice to the Concessionaire, (y) with respect to Section 3.7(a)(iii), such right is to be exercised at all reasonable times upon reasonable prior notice to the Concessionaire if practicable under the circumstances, and (z) with respect to Section 3.7(a)(iv), Section 3.7(a)(v) and Section 3.7(a)(vi), such right is to be exercised at all reasonable times with the University to request, with reasonable prior notice, the Concessionaire’s consent to the exercise of such right, which consent shall not be unreasonably withheld, conditioned or delayed, provided that if the Concessionaire has not responded to such request within 5 Business Days, it shall be deemed to have consented to such exercise:

\(^{15}\text{NTD: This change is necessary because Leasehold Mortgage Debt could be financed by Concessionaire’s parent.}\)
(i) to inspect the Utility System, including performance of an assessment of the condition of the Utility System or any component thereof, or determine whether or not the Concessionaire is in compliance with its obligations under this Agreement or applicable Law pursuant to Section 8.3;

(ii) if a Concessionaire Default then exists, subject to the cure rights of any Leasehold Mortgagee under Section 19.3, to make any necessary repairs to the Utility System and perform any work therein pursuant to Section 16.1(b)(iii) in accordance with Prudent Industry Practices;

(iii) in the event of an Emergency or danger that threatens to cause injury to individuals (or damage to property) or to materially impair the continuous operation of the Utility System and if the Concessionaire is not then taking all necessary steps to rectify or deal with said Emergency or danger, to take actions as may be reasonably necessary to rectify such Emergency or danger in accordance with Prudent Industry Practices, in which event the University shall promptly give the Concessionaire written notice of such measures taken by the University;

(iv) at its own cost and expense, to (A) install, design, manage, maintain, repair and rehabilitate any existing or future safety measures for the University Campus (whether provided by the University or third parties at the University’s instruction) in, on, under, across, over or through the Utility System (including surveillance equipment and other safety equipment), (B) grant easements and rights on, over, under or within the Utility System for the benefit of suppliers or owners of any such measures and (C) use the Utility System in connection with any such installation, design, management, maintenance, repair or rehabilitation (provided that notwithstanding the foregoing clauses (A), (B) and (C), the Concessionaire shall have the right, at all times during the Term, to install, design, manage, maintain, repair and rehabilitate safety measures for its own account (and not for lease, resale or service to third parties) to the extent that the said safety measures are necessary for the Utility System Operations or as otherwise permitted under this Agreement);

(v) at its own cost and expense, to (A) install, design, manage, maintain, repair and rehabilitate any existing or future utilities or similar services (whether provided by the University or third parties at the University’s instruction) that are not part of the Utility System and do not provide Utilities in, on, under, across, over or through the Utility System (including water lines, sewer lines, fiber optic cable, other communications and other equipment), and (B) grant easements and rights on, over, under or within the Utility System for the benefit of suppliers or owners of any such utilities or services that are not part of the Utility System (provided that notwithstanding the foregoing clauses (A) and (B), the Concessionaire shall have the right, at all times during the Term, to
install, design, manage, maintain, repair and rehabilitate utilities or other services for its own account (and not for lease, resale or service to third parties) to the extent that the said utilities or services are necessary for the Utility System Operations); and

(vi) at its own cost and expense (except as otherwise expressly provided in this Agreement) and solely in accordance with the terms hereof, to do any other act or thing that the University may be obligated to do or have a right to do under this Agreement;

provided, however, that the University shall (A) not be obligated to make any payments to the Concessionaire for such access (other than Concession Compensation to the extent required hereunder) and the University shall use reasonable efforts to minimize interference with the Utility System Operations in connection with any entry on the Utility System pursuant to this Section 3.7(a), (B) not have access to any software or other intangibles of the Concessionaire and (C) comply with the Concessionaire’s reasonable safety protocols and requirements to the extent provided in writing in advance to the University. Any entry to or action on the Utility System pursuant to clauses (iv), (v) and (vi) of this Section 3.7(a) shall be a Compensation Event.

(b) Access Rights. The University and any of its Representatives, grantees, tenants, contractors, mortgagees, licensees, concessionaires and others claiming by, through or under the University, during the progress of any work referred to in this Section 3.7 shall have all necessary easement and access rights to the Utility System. To the extent that the University undertakes work or repairs in the Utility System under this Section 3.7 or any other provision of this Agreement, such work or repairs shall be commenced and diligently completed in a good and professional manner, in accordance with any applicable Performance Standards and the Concessionaire’s reasonable safety protocols and procedures to the extent provided in writing in advance to the University and in such a manner as not to unreasonably interfere with the Concessionaire’s conduct of business in or use of such space.

(c) Renewable and Other Energy Resources. The Concessionaire and the University recognize the value of exploring the use of renewable energy, energy storage and other energy resources, and, consistent therewith, the University reserves the right to use portions of the Utility System for the installation, operation, replacement and repair of energy apparatus, equipment, or improvements, including solar panels as well as collection and distribution facilities in accordance with Prudent Industry Practices and applicable Law. The University shall have the right to install or replace such energy apparatus, equipment, or improvement. Prior to any such installation, the University shall provide the Concessionaire written notice that includes the plans and schedule for completing such installation or replacement or, alternatively, the University may provide the Concessionaire a written notice requiring it to complete such installation or replacement as part of a University Directive, which notice shall
include the plans, specifications, schedule (including the liquidated damages for failure to meet such schedule) and cost therefor. If the Concessionaire is directed to install or replace such energy apparatus, equipment, or improvement, (i) it shall do so in accordance with the terms and conditions of the University’s notice and (ii) to the extent such energy apparatus, equipment, or improvement is a Capital Improvement, it shall, to the extent the costs therefor are incurred by the Concessionaire, be deemed to be a Capital Improvement Approved in accordance with Section 4.3(c)(i) (including the budgeted costs and liquidated damages set forth in such notice), and, once installed, shall be deemed part of the Utility System. Any such access contemplated by this Section 3.7(c) shall comply with the access right requirements set forth above in Section 3.7(b). In connection therewith, upon the request of the University, the Concessionaire agrees that it shall cause any such energy apparatus, equipment, or improvement to be connected to, or become part of, the Utility System in a manner that complies with the Concessionaire’s reasonable interconnection and generation standards and is in accordance with Prudent Industry Practices and applicable Law, and that the Concessionaire will use any energy resources generated or stored by such apparatus, equipment, or improvement in the operation of the Utility System to the extent such energy is made available for use in the Utility System. To the extent the costs incurred for such interconnection (including any costs of installation, operation, replacement and repair) do not qualify as O&M Costs, such costs shall be reimbursed to the Concessionaire as Concession Compensation.

(d) **Effect of Reservation.** Any reservation of a right by the University and any of its Representatives, grantees, tenants, contractors, mortgagees, licensees, concessionaires and others claiming by, through or under the University to enter the Utility System and to make or perform any repairs, alterations, Restoration or other work in, to, above, or about the Utility System which is the Concessionaire’s obligation pursuant to this Agreement, shall not be deemed to (i) impose any obligation on the University to do so, (ii) render the University liable to the Concessionaire or any other Person for the failure to do so or (iii) relieve the Concessionaire from any obligation to indemnify the University as otherwise provided in this Agreement. Nothing in this Agreement shall impose any duty upon the part of the University to do any work required to be performed by the Concessionaire hereunder and performance of any such work by the University and any of its Representatives, grantees, tenants, contractors, mortgagees, licensees, concessionaires and others claiming by, through or under the University shall not constitute a waiver of the Concessionaire’s default in failing to perform the same. For the avoidance of doubt and notwithstanding any other provision of this Agreement, access to the Utility System by the University and its staff, students and Representatives shall be subject to and in accordance with the Concessionaire’s reasonable access and safety protocols to the extent provided in writing in advance to the University.

(e) **Energy Research and Education.** The Concessionaire acknowledges that energy research and education is a significant focus of the University. The University
and its energy industry research partners recognize the value of conducting applied energy research in real-world settings, and, consistent therewith, the University reserves the right to use portions of the Utility Facilities for the installation, evaluation, testing, operation, and replacement of energy apparatus, equipment, or improvements to serve research and academic purposes. Any such access contemplated by this Section 3.7(e) shall (i) comply with the access right requirements set forth above in Section 3.7(b), (ii) be in accordance with Prudent Industry Practices and applicable Law and (iii) comply with the Concessionaire’s reasonable safety protocols and procedures to the extent provided in writing in advance to the University. In connection therewith, upon the request of the University, the Concessionaire agrees that it shall cooperate and take all reasonable actions to cause any such energy research apparatus, equipment, or improvement to be connected to the Utility Systems, including associated data collection apparatus, equipment, or improvement, in a manner that complies with the Concessionaire’s reasonable interconnection standards, provided that, unless disclosure is required by applicable Law, the University shall maintain any information received by the University in connection therewith confidential in accordance with Section 8.2(b) if the Concessionaire has identified such information as a trade secret. The Concessionaire agrees that any intellectual property, including copyrights, patents, trade secrets and trademarks, created or generated by or related to any of the University’s actions under this Section 3.7(e) shall not be considered owned or created by the Concessionaire, notwithstanding that the University or its energy industry research partners may access or use the Utility System with respect thereto, and the Concessionaire shall have no rights with respect thereto unless the University enters into a separate agreement with the Concessionaire granting such rights. To the extent the costs incurred for such connections do not qualify as O&M Costs, such costs shall be reimbursed to the Concessionaire as Concession Compensation. The Concessionaire also acknowledges that as part of the University’s research, the University may request information regarding the Utility System, which information shall be provided pursuant to Section 3.12(a).

Section 3.8. Payment of Taxes. The Concessionaire shall pay when due all Taxes payable during the Term in respect of the use of, operations at, occupancy of or conduct of business in or from the Utility System, including any Property Taxes in respect of the Utility System, subject to this Section 3.8. The Parties acknowledge that, as of the Bid Date, the Utility System is exempt from Property Taxes. To the extent the Utility System or any portion thereof becomes not exempt from any Property Taxes due to any cause other than acts or omissions of the Concessionaire or its Representatives (other than those actions or inactions that the Concessionaire is directed or obligated to take pursuant to this Agreement, including in order to comply with the Performance Standards, and the execution of this Agreement), the actual costs of any resulting Property Taxes payable during the Term shall be included in Uncapped O&M Costs. The Concessionaire shall use commercially reasonable efforts to reduce the amount of Taxes required to be paid by it or the University. The University reserves the right, without being obligated to do so, to pay the amount of any such Taxes not timely paid by the Concessionaire and which are not being contested by the Concessionaire, and the amount so paid by the University shall be deemed additional consideration hereunder, due and payable by the
Concessionaire within 20 Business Days after written demand by the University. The Concessionaire may contest any Taxes for which it is responsible pursuant to this Section 3.8 provided that (i) no such contest may involve a reasonable possibility of forfeiture or sale of the Utility System, and (ii) upon the final determination of any such contest, if the Concessionaire has not already done so, the Concessionaire shall pay any amount found to be due, together with any costs, penalties and interest. The University shall, at no out-of-pocket cost to the University, reasonably cooperate with the Concessionaire in any reasonable attempt by the Concessionaire to reduce or eliminate the Concessionaire’s Tax liability.

**Section 3.9. Utilities.**

(a) *Charges.* Unless otherwise directed by the University in writing, the Concessionaire shall ensure that contracts for utilities (other than those utilities that constitute Supplies, which is addressed in Section 7.3(d)) provide that invoices for all charges (including all applicable Taxes and fees) for such utilities and services used in the Utility System Operations during the Term are remitted to the Concessionaire, which the Concessionaire shall pay and shall be included as Capped O&M Costs. Upon request of the University, the Concessionaire shall forward to the University, within 15 Days following the respective due dates, official receipts, photocopies thereof or other evidence satisfactory to the University, of the payment required to be made by the Concessionaire in accordance with this Section 3.9. The University does not warrant that any utility services will be free from interruptions caused by war, insurrection, civil commotion, riots, acts of God, government action, terrorism, repairs, renewals, improvements, alterations, strikes, lockouts, picketing, whether legal or illegal, accidents, inability to obtain fuel or supplies or any other causes, and any such interruption of utility services in and of itself shall never be deemed an Adverse Action or an eviction or disturbance of the Concessionaire’s use of the Utility System or any part thereof, or render the University liable to the Concessionaire for damages or, unless the same constitutes a Delay Event, relieve the Concessionaire from performance of the Concessionaire’s obligations under this Agreement.

(b) *Utility Coordination.* Subject to Section 7.3, the Concessionaire shall coordinate all Utility System Operations with utilities and Persons having service lines, pipelines, transmission lines and other equipment, cables, systems and other apparatus in, on, under, over, adjacent to or otherwise interconnecting with the Utility System. The Concessionaire shall notify the University in writing prior to communicating with any such utilities or Persons and shall take the University’s direction in connection therewith, provided such direction is in accordance with Prudent Industry Practices and applicable Law. If the Concessionaire follows the direction of the University pursuant to the immediately preceding sentence, it shall be deemed to have satisfied its obligations with respect to this Section 3.9(b) solely with respect to the matter to which such direction by the University relates. In connection with its obligations under this Section 3.9(b), the Concessionaire shall cause provision to be made for the removal or temporary or permanent relocation and restoration of utilities
and other services and any lines, equipment, cables, systems and other apparatus not used in connection with Utility System Operations that intersect, interfere with, interface with or otherwise affect the Utility System Operations and shall arrange for temporary rights of entry and access to utilities and other services to be made available that are necessary in connection with the Utility System Operations or as may exist under this Agreement or applicable Law; provided that the University shall cooperate with the Concessionaire with respect to the Concessionaire’s obligations under this Section 3.9(b).

(c) No Interference. The Parties understand and agree that nothing in Section 3.9(b) is in any way intended to interfere with the Utility System Operations by the Concessionaire, and the University shall cooperate with the Concessionaire in minimizing any effect that the obligations of the Concessionaire under Section 3.9(b) and this Section 3.9(c) may have on the Utility System Operations, including reasonable efforts to schedule any such works outside of the academic term or on weekends.

(d) Communications Systems. To the extent that the Concessionaire utilizes or connects with the University’s communications systems, the Concessionaire shall be responsible for the operation and maintenance of its telecommunications systems up until the point of connection with the University’s system in accordance with the Performance Standards.

Section 3.10. Notices of Defaults and Claims.

(a) Notice by the Concessionaire. The Concessionaire shall promptly give notice to the University (i) if the Concessionaire becomes aware that a Concessionaire Default has occurred under this Agreement (provided, however, that the failure to give such notice shall not constitute an independent Concessionaire Default) and (ii) of all material claims, proceedings, disputes (including labor disputes) or litigation in respect of the Concessionaire pertaining to the Utility System, the Utility System Operations or the University (whether or not such claim, proceeding or litigation is covered by insurance) of which the Concessionaire is aware (other than as a result of a notice to the Concessionaire from the University). The Concessionaire shall provide the University with all reasonable information requested by it from time to time concerning the status of such claims, proceedings or litigation.

(b) Notice by the University. The University shall promptly give notice to the Concessionaire (i) if the University becomes aware that a University Default has occurred under this Agreement (provided, however, that the failure to give such notice shall not constitute an independent University Default) and (ii) of all material claims, proceedings, disputes (including labor disputes) or litigation in respect of the University pertaining to the Utility System, the Utility System Operations or the Concessionaire (whether or not such claim, proceeding or litigation is covered by insurance) of which the University is aware (other than as a result of a notice to the University from the Concessionaire).
University shall provide the Concessionaire with all reasonable information requested by it from time to time concerning the status of such claims, proceedings or litigation.

Section 3.11. Assignment of Operating Agreements and Plans; Project Intellectual Property.

(a) **Operating Agreements and Plans.** At the request of the University, the Concessionaire shall collaterally assign, to the extent reasonably practicable and subject to the terms and conditions herein, to the University, in form and substance satisfactory to the University, all of the right, title and interest of the Concessionaire in, to and under all or any of the Operating Agreements and all present and future specifications, plans, drawings, information and any other documentation (except Project Intellectual Property) in relation to the Utility System Operations regardless as to whether any of the foregoing involve proprietary information (collectively, the “Operating Agreements and Plans”) as collateral security to the University for the observance and performance by the Concessionaire of its covenants and obligations under this Agreement. The Concessionaire covenants that it shall cause all of the right, title and interest of the Concessionaire in, to and under all Operating Agreements and Plans entered into or created after the Time of Closing to be collaterally assignable and transferable to the University as provided in this Section 3.11(a). The University acknowledges and agrees that the Operating Agreements and Plans may also be assigned as security to a Leasehold Mortgagee and that each of the University and such Leasehold Mortgagee shall be entitled to use the Operating Agreements and Plans in enforcing their respective security interests as hereinafter provided. Without limiting the generality of the foregoing, the University shall be entitled to use the Operating Agreements and Plans in the event of, and as necessary to, remedy a Concessionaire Default under this Agreement for so long as such Concessionaire Default is continuing and has not been cured. Notwithstanding the foregoing, in the event that any such Leasehold Mortgagee has entered into possession or is diligently enforcing and continues to diligently enforce its security, whether by way of appointment of a receiver or manager, foreclosure or power of sale in accordance with Article 19 or otherwise, or has entered (or is in process to enter) into a New Agreement under Section 19.5 and is using the Operating Agreements and Plans in respect of the Utility System Operations, the University shall not be entitled to use the Operating Agreements and Plans in enforcing its security, it being acknowledged that any assignment of the Operating Agreements and Plans to a Leasehold Mortgagee shall have priority at all times (other than if the University is enforcing its rights to cure under Section 3.3(c)(i)(B) or, if the Leasehold Mortgagee’s extended cure period under Section 19.3, if any, has expired and the Leasehold Mortgagee has not commenced any action to effect a cure in accordance therewith, Section 16.1(b)(iii)) over any assignment of the Operating Agreements and Plans to the University. The Concessionaire shall promptly deliver to the University, at the sole cost and expense of the Concessionaire, forthwith after completion or execution and delivery, a copy of each item of the Operating Agreements and
Plans. The University agrees that (i) it shall bear all risks associated with the use of the Operating Agreements and Plans, (ii) it may not rely on the Operating Agreements and Plans, and (iii) under no circumstances will the Concessionaire be liable in any way with respect to the University’s use of, or for any loss or damage of any kind incurred as a result of the use of, the Operating Agreements and Plans.

(b) Project Intellectual Property. The University has and was granted by the Original Agreement, which grant is hereby confirmed, a nonexclusive, transferable, irrevocable, perpetual, fully paid up right and license to use, exploit, reproduce, modify, adapt, and disclose, and sublicense others to use, reproduce, modify, adapt, and disclose, the intellectual property (including business systems and patents) of the Concessionaire or the Operator solely used in connection with the Utility System (the “Project Intellectual Property”), subject to the following:

(i) the University shall have the right to exercise such license only in connection with the Utility System and Utility System Operations;

(ii) the University shall have the right to exercise such license only at the following times: (A) from and after the expiration or earlier termination of the Term for any reason whatsoever; (B) during any time that the University is exercising its rights pursuant to Section 3.7(a)(ii) or Section 3.7(a)(iii); and (C) during any time that a receiver is appointed for the Concessionaire, or during any time that there is pending a voluntary or involuntary proceeding in bankruptcy in which the Concessionaire is the debtor;

(iii) the University shall not at any time use, reproduce, modify, adapt and disclose, or allow any party to use, reproduce, modify, adapt and disclose, any such Project Intellectual Property for any other purpose;

(iv) the right to transfer the license is limited to any Person that succeeds to the power and authority of the University generally or with respect to the Utility System, and all such transfers shall be subject to Section 3.11(b)(v);

(v) the right to sublicense is limited to concessionaires, contractors, subcontractors, employees, attorneys, consultants, and agents that are retained by or on behalf of the University in connection with the Utility System, and all such sublicenses shall be subject to Section 3.11(b)(v); and

(vi) except to the extent required by Law, the University (A) shall not disclose any Project Intellectual Property to any Person other than authorized transferees and sublicensees who agree to be bound by any confidentiality obligations of the University relating thereto; (B) shall enter into a
commercially reasonable confidentiality agreement if requested by the Concessionaire with respect to the licensed Project Intellectual Property; and (C) include, or where applicable require the contract with the transferee or sublicensee to include, a covenant to employ sound business practices no less diligent than those used for its own confidential information, and no less diligent than required by commercially reasonable standards of confidentiality, to protect all Project Intellectual Property of the Concessionaire and other materials provided under the license or sublicense, as the case may be, against disclosure to third parties not in receipt of a license or sublicense, as applicable, and to use the license or sublicense only for the permitted purposes.

provided that: (A) for the avoidance of doubt, the Concessionaire shall continue to have a full and complete right to use any and all duplicates or other originals of its Project Intellectual Property in any manner it chooses, and (B) the University agrees that if it uses any Project Intellectual Property: (x) it shall bear all risks associated with the use of the Project Intellectual Property, (y) it may not rely on the Project Intellectual Property, and (z) under no circumstances will the Concessionaire be liable in any way with respect to the University’s use of, or for any loss or damage of any kind incurred as a result of the use of, the Project Intellectual Property.

Section 3.12. Use of Information and Records.

(a) Unless prohibited by applicable Law and to the extent reasonably necessary, the University shall be entitled to access all reasonable records, electronic data and other information collected and retained by the Concessionaire with respect to the Utility System and the Utility System Operations, including utility usage data, consumption pattern information and other utility data, and the Concessionaire shall maintain such records, data and other information in a format that is readily accessible to the University in order to facilitate the University’s efforts with respect to energy efficiency, sustainability, environmental impact and research. The University shall use commercially reasonable efforts to provide at least 2 Business Days’ written notice prior to accessing such records. At least 30 Days prior to the Closing Date, the Concessionaire shall deliver to the University for its Approval a proposed policy for the maintenance and retention of all records related to the operation and maintenance of the Utility System (once Approved, the “Record Retention Policy”). If the University does not Approve the Record Retention Policy, it shall provide the Concessionaire a reasonably detailed explanation for its disapproval, and the Concessionaire shall, promptly thereafter, submit a revised Record Retention Policy intended to address the University’s comments, and this process shall continue until the University Approves a Record Retention Policy. The University Approved the Record Retention Policy on December 30, 2020. Following the Approval of the Record Retention Policy, the Concessionaire did and shall maintain all records related to the operation and maintenance of the Utility System in accordance with such Record Retention Policy. The University
covenants and agrees that it will implement safeguards to protect against the
disclosure or misuse of any such Concessionaire information that is in its care or
custody and will promptly inform the Concessionaire if there is any breach or
suspected breach of security related to such information, subject to Section
8.2(b).

(b) Unless prohibited by applicable Law, the Concessionaire shall be entitled to
access all reasonable records, electronic data and other information collected and
retained by the University to the extent reasonably required for, and only for the
purpose of, the Concessionaire’s performance of its obligations under this
Agreement and the Performance Standards, including the maintenance of any
Authorization. The University shall promptly make such records, data and
information available to the Concessionaire as reasonably requested by the
Concessionaire. Unless disclosure is required by applicable Law, the
Concessionaire shall keep confidential any information obtained from the
University or its Representatives, including any information obtained through its
performance of the Utility System Operations. The Concessionaire covenants
and agrees that it will implement safeguards to protect against the disclosure or
misuse of any such University information that is in its care or custody and will
promptly inform the University if there is any breach or suspected breach of
security related to such information. If any information obtained from the
University or its Representatives is provided by the Concessionaire, or the
University on behalf of the Concessionaire, to any third party, including any
equity member of the Concessionaire, the Operator or any Contractor, then (i)
the Concessionaire shall cause such third party to comply with the provisions of
this Section 3.12(b) and (ii) the Concessionaire shall be liable for the disclosure
or use of such information by such third party as if the Concessionaire had
disclosed or used it.

Section 3.13. Standard of Operation and Maintenance of the Utility System;
Warranty Period Utility System Projects. At all times during the Term, the Concessionaire
shall be required to maintain and operate the Utility System in accordance with the Performance
Standards and Prudent Industry Practices. In the event any maintenance, repair or replacement is
required in respect of any Warranty Period Utility System Project, other than in connection with
an Emergency (in which case, only to the extent of such Emergency), the Concessionaire shall
consult with the University prior to undertaking any such maintenance or repair. If such
maintenance, repair or replacement could be covered by the warranty provided by the contractor
that completed such Warranty Period Utility System Project, as determined by the University
acting in good faith, then the University shall make a warranty claim to the contractor providing
such warranty and shall use commercially reasonable efforts to pursue such claim and cause the
contractor providing such warranty to perform such maintenance, repair or replacement pursuant
to such warranty, provided that if the University is unsuccessful in causing such contractor to do
so, then the Concessionaire shall perform such maintenance, repair or replacement. The
foregoing obligation shall expire for each Warranty Period Utility System Project
contemporaneously with the expiration of the applicable warranty period from such contractor,
and the University shall provide notice to the Concessionaire of such expiration. Any Ongoing
Utility System Projects that remain under warranty following their completion by the University
and delivery to the Concessionaire shall be treated as Warranty Period Utility System Projects until the expiration of the applicable warranty period for such Ongoing Utility System Project.

Section 3.14. Payments by the University. The Concessionaire acknowledges and agrees that if the University is required under applicable Law of general application to withhold a portion of any payment that the University is obligated to make to the Concessionaire under this Agreement and to pay such amount to a Governmental Authority, the University will be deemed to have satisfied such payment obligation to the Concessionaire to the extent of such withholding by the University and payment to the appropriate Governmental Authority. If any such withheld amounts are permitted to be paid to the Concessionaire, the University shall pay such amounts to the Concessionaire whenever permitted by Law. Any items and payment amounts that, to the Actual Knowledge of the University 10 Business Days prior to the Closing Date, it is legally required to withhold from the Concessionaire as of the Closing Date will be listed in Schedule 14 and agreed to by the Concessionaire, acting reasonably, prior to Closing as a condition of Closing, provided that regardless of whether any payment is listed on Schedule 14, the University shall always have the right to withhold payments pursuant to this Section 3.14 if required by Law and shall not be in breach of this Agreement. Prior to withholding any portion of any payment hereunder, the University shall give reasonable prior notice to the Concessionaire of the proposed withholding, and the Concessionaire shall promptly notify the University of any challenge by the Concessionaire to such proposed withholding. For the avoidance of doubt, any payment obligation of a University’s department, office or center required by this Agreement is a payment obligation of the University for purposes of this Agreement, and the University shall either cause such department, officer or center to pay the payment obligation or shall satisfy the payment obligation itself.

Section 3.15. Naming and Signage Rights, Other Revenue Activities and Commercial Advertisements and Activities—

(a) Due to the importance of having uniform signage on the University Campus for safety and aesthetic purposes, the Concessionaire shall have no right to name or modify the name of the Utility System or any portion thereof or, unless required to do so by applicable Law, to install signage of any kind thereon, without the University’s Approval, which may be withheld in its discretion.

(b) The University shall have the right, in its discretion, to install, replace, display and maintain signage (i) that relates to identification or naming of the Utility System, the Utility Facilities, portions thereof, or surrounding areas or (ii) for informational or educational purposes; provided that (A) the Concessionaire shall have no obligation under the Performance Standards to replace or maintain any signage installed by the University for advertising purposes, and (B) the University shall not install any signage that relates to naming of the Utility System, the Utility Facilities, portions thereof, or surrounding areas for a Person that competes directly with the Concessionaire or the Operator.

(c) The Concessionaire shall be entitled to develop additional sources of revenue in connection with the Utility System, including providing utility services to customers other than the University and making market-based sales of electricity
if the University Approves such activities and the Concessionaire shall be liable
to the University for, and reimburse the University for, any Losses incurred by
the University as a result thereof, including any increase or additional Property
Taxes imposed upon the University or the Utility System, the cost of which may
not be included in any component of the Utility Fee, provided that the
University’s Approval shall not be required to explore and investigate such
additional sources of revenue so long as the Concessionaire does not implement
such additional sources of revenue and the Concessionaire is liable for any
Losses to the University as a result of such exploration and investigation. To the
extent possible, the Concessionaire shall pay any increased or additional
Property Taxes resulting from such additional sources of revenue directly to the
applicable Governmental Authority.

(d) Notwithstanding anything to the contrary contained herein, due to the
importance to the University of having uniform nutritional choices on the
University Campus, the University hereby reserves the right to install and
operate vending machines in any portion of the Utility System and to access the
Utility System for the purposes thereof, and the University shall be entitled to the
revenue generated by such vending machines.

(e) The University and the Concessionaire agree that they shall execute on Closing a
trademark license agreement in the form attached hereto as Schedule 20.

Section 3.16. Reversion of Utility System. On the Reversion Date, the Concessionaire
shall surrender and deliver to the University all of its rights, title and interest in the Utility
System (including all improvements to the Utility System, the Utility System Assets and all
tangible and intangible personal property of the Concessionaire (including inventories) that is
included in the Utility System and used in connection with the Utility System Operations)
subject, however, as to any intellectual property included in the Utility System, to any
restrictions or prohibitions to disclosure, transfer or sharing thereof and any other rights of third
parties with respect thereto, all in accordance with the provisions of Section 16.3. With respect
to any third party or proprietary software utilized by the Concessionaire in the operation of the
metered Utility System at the time of the Reversion Date, the Concessionaire and the University
will negotiate in good faith appropriate license rights and terms for the University’s continued
use of the software following reversion.

Section 3.17. Police, Fire, Emergency and Public Safety Access Rights. Notwithstanding any other provision of this Agreement, at all times during the Term and without
notice or compensation to the Concessionaire: (i) any police, fire and emergency services and
any other security or emergency personnel retained by or on behalf of the University shall have
access, as required by such services or personnel, to the Utility System; (ii) the University shall
have access to the Utility System as necessary for the protection of public safety; and (iii) any
Governmental Authority with jurisdiction over the Utility System shall have access to the Utility System as necessary for inspection, emergency management and homeland security purposes,
including the prevention of or response to a public safety emergency (so long as any exercise of
such jurisdiction, to the extent effected by the University, shall be strictly in accordance with the terms hereof).

Section 3.18. Negotiations with Third Parties. Prior to entering into any agreement with any third party, including any Governmental Authority, in connection with the Utility System Operations (a “Third Party Agreement”) that extends or could extend beyond the Term or pursuant to which the University may incur any liability whatsoever thereunder, the Concessionaire shall submit such Third Party Agreement for Approval by the University (which Approval may be withheld, conditioned, or delayed in the discretion of the University) prior to the execution and delivery thereof (except with respect to Third Party Agreements the absence of which may cause the Concessionaire or Utility System Operations to fail to be in compliance with applicable Law or this Agreement, in which case the Concessionaire may enter into such Third Party Agreement upon notice to the University provided that the Concessionaire indemnifies the University for any Losses relating thereto).

Section 3.19. Administration of the Public Way. The Concessionaire acknowledges and accepts that the University holds and administers the Public Way for the non-discriminatory benefit of all Persons and interests, including the Concessionaire and the Concessionaire Interest. The rights granted to the Concessionaire under this Agreement do not create a priority in favor of the Concessionaire over any other user of the Public Way, and such rights are subject to the Performance Standards and all provisions of Law.

Section 3.20. Rights to Adjacent Space. The University hereby reserves, and is not demising or leasing to the Concessionaire, the right or easement to construct and reconstruct and forever maintain the air rights with respect to the Utility Facilities and other property within the Utility System and the right to construct, use or occupy any of the space not directly occupied by the Utility System, including (i) any and all space located above, below or adjacent to any such property, and (ii) any and all space located above, below or adjacent to any improvements within the Utility System as of the date hereof Signing Date, provided that such construction, use or occupancy does not materially impair the Utility System Operations. For the avoidance of doubt, to the extent that any Utility Facility is buried below the surface of any part of the University Campus, the University shall have the right to construct any building, structure or other improvement on that part of the University Campus, provided such construction does not damage or alter such buried Utility Facilities. The University’s exercise of its rights hereunder shall not be subject to any of the terms and conditions of Section 3.7(a).

Section 3.21. Sole Utility Provider. The University covenants that, during the Term, it will not, and it will not contract or agree with any third party to, provide any Utility or Utility Services on the University Campus, except in the following circumstances: (i) as of the Bid Date, a third party is providing the relevant Utility or Utility Services to a portion of the University Campus, in which case the University may continue to have that third party or a successor thereto or a replacement thereof provide such Utility or Utility Services during the Term on only that portion of the University Campus or (ii) as of the Bid Date, any district utility systems within the University Campus which are generating or distributing Utilities beyond the lines of demarcation identified in the Performance Standards, or (iii) the University installs systems, equipment or materials for the distribution of Utilities beyond the lines of demarcation identified in the Performance Standards, which shall be performed by or on behalf of the
University, or (iv) as otherwise expressly set forth herein, and, if the University breaches such covenant, it shall be a Compensation Event as the Concessionaire’s sole remedy pursuant to the definition of Compensation Event. For the avoidance of doubt, if the University does not own or lease a building, facility, other improvement or land within the University Campus, the University shall have no obligation with respect to causing the Concessionaire to be the sole provider of Utilities or Utility Services with respect to such building, facility, other improvement or land, and there shall be no Concession Compensation payable in connection therewith, except as expressly set forth in Section 5.3.

Section 3.22. Repair and Maintenance of the Tunnels. The Concessionaire covenants that, during the Term, it shall be responsible for maintaining, repairing and replacing the Tunnels, which, for the avoidance of doubt, are part of the Utility System, including the right to include New Approved Capital Improvement Costs for Capital Improvements with respect to the Tunnels (if Approved in accordance with Article 4) in the calculation of the Variable Fee Component and the Capital Recovery Amount. The Concessionaire or the Operator shall contract with a Contractor to perform such restoration, repair or maintenance, which Contractor must either be on a list of pre-approved contractors provided by the University or otherwise Approved by the University in its discretion. If the Concessionaire fails to repair and maintain the Tunnels in accordance with Prudent Industry Practices and such failure creates an Emergency, the University shall have the right to take such action as is necessary to remedy such Emergency, and the Concessionaire shall, within 30 Days after receipt of an invoice therefor, reimburse the University for the out-of-pocket cost thereof, provided that the University shall, where practical, provide the Concessionaire advance written notice of such action. Notwithstanding the foregoing, the Concessionaire shall not interfere with, modify or alter any of the personal property, fixtures or improvements within the Tunnels that are not used in Utility System Operations, and the University shall have the right to access the Tunnels, not subject to Section 3.7, to maintain, alter, improve, repair or remove any such personal property, fixtures or improvements, provided, the University shall use commercially reasonable efforts to minimize interference with Utility System Operations.

Section 3.23. Adjustments to the Location or Configuration of the Utility System. The University shall have the right, upon notice to the Concessionaire, to cause the Concessionaire to alter the location or configuration of the Utility System or to designate alternative real property for the Utility System Land to the extent the University deems it necessary or useful in the operation and use of the University Campus, including in connection with the reconstruction of a Utility Facility following a fire or other casualty. Except as provided in Section 13.4 with respect to any modifications in connection with a casualty, to the extent such alteration or designation of alternative real property is a Capital Improvement, it shall be considered a New Approved Capital Improvement for a budgeted cost and an increase in the Capped O&M Index reasonably approved by the Concessionaire and the University, but, to the extent such alteration or designation of alternative real property is not a Capital Improvement, the costs incurred by the Concessionaire or the Operator as a result of the University’s exercise of its right under this Section 3.23 shall be considered an Uncapped O&M Cost in accordance with the definition thereof. If the University directs the Concessionaire to relocate the Utility System to a location to which it does not have a right to access pursuant to this Agreement, the University shall grant occupancy rights to the Concessionaire sufficient for the Concessionaire to meet its obligations hereunder. If the University designates alternative
real property for the Utility System Land, then, upon such designation, (i) such alternative real property shall be deemed Utility System Land for purposes of this Agreement, (ii) the Concessionaire shall return the prior Utility System Land and all improvements and Utility Facilities thereon to the University in the condition required under Section 16.3, at no additional cost to the University, other than out-of-pocket costs incurred by the Concessionaire in connection with such transfer (including the cost of recording the conveyance documentation and the cost of a title policy for the alternative real property for the Utility System Land in the event that the Concessionaire received a title policy with respect to the original Utility System Land), and (iii) in accordance with the University’s designation of alternative real property, the Concessionaire shall relocate the Utility Facilities then existing on the prior Utility System Land to the alternative real property. The Concessionaire shall have the right to amend the Memorandum of Lease to reflect any changes resulting from the University’s exercise of its right under this Section 3.23, and the University shall reasonably cooperate in such amendment and shall pay the out-of-pocket costs incurred by the Concessionaire in connection therewith.

Section 3.24. Sales to Individual Customers on the University Campus. The Concessionaire shall not be permitted to sell any fuels or Supplies to individual customers on the University Campus. To the extent that the Concessionaire supplies fuels or Supplies to the University for distribution to individual customers, the University shall control the distribution of such fuels or Supplies. The Concessionaire shall have no interests or rights to charge or collect any payments from the University or such individual customers for the provision of such fuels or Supplies.

Section 3.25. University Business Continuity Plan. The Concessionaire shall reasonably cooperate with the University in connection with the University’s business continuity plan and shall attend any University meetings regarding such plan if requested by the University.

Section 3.26. Utility System Tours. The Concessionaire shall provide tours of the Utility System or any portion thereof to the University and its Representatives upon reasonable request by the University, provided that (i) the Concessionaire shall have the right to refuse to give any tour if such tour would unreasonably interfere with the operation of the Utility System or any of the Concessionaire’s other obligations hereunder and (ii) all tour participants shall be required to comply with the Concessionaire’s reasonable safety protocols and requirements to the extent provided in writing to the University.

Section 3.27. Uniforms. To aid the University’s provision of security and safety measures to the University Campus, Concessionaire and Operator personnel working on the University Campus shall wear a uniform (and other insignia) that is standard across the Utility System and clearly identifies such personnel as Concessionaire and Operator personnel and not employees of the University.

Section 3.28. EAC. The Parties acknowledge the importance of documenting and discussing best practices and Prudent Industry Practices for Comparable Utility Systems to determine whether the Parties should consider modifying the Performance Standards, Key Performance Indicators or the components of the Utility Fee or should consider providing incentives to the Concessionaire to meet certain operational targets. In connection therewith, the University shall form an EAC to liaise with the Concessionaire so that the University and the
Concessionaire have an open dialogue with respect to such matters. The EAC shall meet, which meetings may be held telephonically, as reasonably necessary to address issues that arise during the Term, as determined by the University.

Section 3.29. Sustainability. The Concessionaire acknowledges that the University has a long-term commitment to operating the University Campus in a sustainable manner and that the Utility System Operations are an integral part of that commitment. As such, consistent with Prudent Industry Practices and subject to obtaining any required University Approvals for Capital Improvements and Material Changes, the Concessionaire agrees that, in connection with the Utility System Operations, it will reasonably cooperate with the University to operate the Utility System in a manner consistent with the University’s larger goal to promote a sustainable campus and to acknowledge stewardship of the natural environment and resources by the University and its stakeholders. The Concessionaire will use commercially reasonable efforts to implement any changes to the Utility System Operations requested by the University in the form of a University Directive to increase the sustainability of the Utility System Operations that do not materially and adversely affect the Concessionaire’s ability to meet its obligations hereunder, including the obligation to meet the Performance Standards. In addition, the Concessionaire will use commercially reasonable efforts throughout the Term to propose Capital Improvements and Material Changes pursuant to Article 4 that are reasonably intended to increase the sustainability of the Utility System Operations and the University Campus, including reduction of emissions, Utility use and other impacts on the environment. Further, the Concessionaire shall attend any University meetings regarding sustainability planning on the University Campus if requested by the University. Further, the Parties acknowledge that what constitutes “sustainability” may evolve over the Term and that the Parties intend that, for purposes of this Section 3.29, “sustainable” and “sustainability” shall have the then-current generally accepted utility industry meaning of the term, which, as of the date of this Agreement Signing Date, includes undertaking measures to (i) reduce energy and water consumption, (ii) become a net-negative energy use, (iii) reduce the impact of operations on the environment, (iv) recycle and reuse resources, (v) purchase goods and services derived in a sustainable manner and (vi) employ goods and services that protect the environment. For the avoidance of doubt, the Concessionaire shall not be required to incur costs that would otherwise be Capped O&M Costs or Uncapped O&M Costs to comply with this Section 3.29 unless such costs are included in an Approved Five-Year Plan.

Section 3.30. University Utility System Employees. During the Term, the Concessionaire shall, or shall cause the Operator to, maintain a program for the employment of students of the University in connection with the Utility System Operations, which shall be on terms and conditions determined by the Concessionaire or Operator, as applicable. Further, the Concessionaire shall, or shall cause the Operator or their Affiliates to, develop and maintain an internship program for University students to gain hands-on, practical experience with structured educational and mentorship opportunities either with respect to the Utility System or other utility systems owned, leased, operated or maintained by the Concessionaire, the Operator or any of their Affiliates. In addition, the Concessionaire shall, or shall cause the Operator to, maintain a program for employment of apprentices serving industrial and skilled trades of boiler makers and water purveyors in connection with the Utility System Operations, which shall be on such reasonable terms and conditions as determined by the Concessionaire or Operator, as applicable. Further, the Concessionaire shall, or shall cause the Operator and their Affiliates to, develop experience with structured educational and mentorship opportunities either with respect to the
Utility System or other utility systems owned, lease, operated or maintained by the Concessionaire, the Operator or any of their Affiliates.

Section 3.31. Office Space. To the extent requested by the Concessionaire in writing, the Parties shall use reasonable efforts to enter into a commercially reasonable license agreement with respect to the temporary license of office space (not to exceed 1,000 square feet) by the University to the Concessionaire within a location on the University Campus at no additional cost. The University shall not be required to provide such space if it determines, in its sole discretion, that it does not wish to provide such space based on its current use, and it may terminate such license or may cause such licensed space to be moved to a new location at any time upon Notice to the Concessionaire and may require the Concessionaire to abide by reasonable rules and regulations, including limiting the hours of access thereto.

Section 3.32. Utility System Space in Larger Buildings. The Concessionaire acknowledges that each of McClure Hall Space, Transformer Storage Space and Vehicle Research Lab Space (the “Shared Spaces”) are not separate buildings but are spaces within larger buildings that the University owns. As such, the University shall retain the responsibility, either by University employees or Contractors at the University’s direction, to maintain, repair, replace and keep in good order and condition the structural and building-system components of the buildings in which the Shared Spaces are located, including the roof, load-bearing walls and foundation of each of the foregoing, except to the extent any maintenance, repair or replacement is caused by the negligence or willful misconduct of, or violation of applicable Law by, the Concessionaire or its Representatives, in which case the Concessionaire shall be responsible therefor and shall perform such maintenance, repair or replacement as promptly as reasonably practicable. Subject to the University’s rights under Section 3.23, if a building in which a Shared Space is located is damaged by a fire or other casualty of any kind or nature, then the University shall restore such building to the condition in which it existed prior to such fire or other casualty but shall not, for the avoidance of doubt, be responsible for repairing or restoring the furniture, fixtures or equipment within the Shared Space that are part of the Utility System. The Concessionaire shall abide by any reasonable rules and regulations promulgated by the University and provided to the Concessionaire in writing with respect to the buildings in which the Shared Spaces are located, and the Concessionaire shall have non-exclusive access to any common areas of the larger buildings (as identified by the University) in which those Shared Spaces are a part. The Concessionaire shall not be obligated to pay any additional rent with respect to the Shared Spaces.

ARTICLE 4
CAPITAL IMPROVEMENTS AND MATERIAL CHANGES

Section 4.1. Concessionaire Responsibility for Capital Improvements. Other than the Ongoing Utility System Projects or as otherwise expressly set forth herein, the Concessionaire shall be responsible for all Capital Improvements with respect to the Utility System required to be completed during the Term in accordance with the terms of this Agreement, including as required by the Performance Standards, provided, however, that the University reserves the right to procure the design, construction and putting into service of Capital Improvements to the Utility System from any Person other than the Concessionaire by competitive bid through the State of Idaho Department of Administration, Division of Public...
Works or otherwise (each a “Third Party Capital Improvement”) upon the satisfaction of the following conditions:

(a) The State of Idaho or the U.S. federal government makes a special allocation of funds (“Special Allocation of Funds”) for capital improvements to infrastructure for which the Utility System is eligible. For the purposes of this section, a Special Allocation of Funds shall refer to an appropriation which is (i) focused specifically upon capital improvements to infrastructure, (ii) exceeds $10,000,000 (Adjusted for Inflation starting with the Year 2024) in aggregate and (iii) at least two hundred percent (200%) greater than any Special Allocation of Funds in the preceding Fiscal Year;

(b) A Capital Improvement executed and financed by the Concessionaire in accordance with this Agreement would not be eligible to be funded by the Special Allocation of Funds;

(c) The University has approved Capital Improvements proposed by the Concessionaire with an average value on an annual basis in excess of $8,000,000 (Adjusted for Inflation starting with the Year 2024) for the three Fiscal Years preceding the Fiscal Year in which a Third-Party Capital Improvement is to be executed;

(d) The University has not previously Approved additional work in relation to such Capital Improvement pursuant to Section 4.3(c)(ii); and

(e) A Special Allocation of Funds funds one hundred percent (100%) of the total capital cost of such Capital Improvement.

Furthermore, to the extent allowed by Law and subject to any conditions imposed by the funding source on the use of the relevant capital outlay funds, (A) the Concessionaire shall be allowed to participate in the procurement and delivery process (including drafting performance specifications and oversight of project delivery) for such Capital Improvements, and (B) to the extent reasonably practicable, as part of such competitive bid or other public procurement process, the Parties shall endeavor to procure Utility-related equipment of such brands, models or types that will ensure system compatibility and maximize future repair and maintenance efficiencies (provided that there shall be no exclusivity with respect to the procurement of Utility-related equipment) and any party other than the Concessionaire or the Operator who executes such Capital Improvement shall be required to provide a two-Year warranty on all material and workmanship, provided that if such warranty is for less than two Years, the University shall reimburse the Concessionaire for any costs after the expiration of such warranty and before the expiration of two Years after substantial completion of the applicable Capital Improvement that would have otherwise been covered by such warranty as Uncapped O&M Costs. If a Capital Improvement is performed by a third-party pursuant to this Section 4.1, then if a defect in such Capital Improvement is identified within the two (2) year period after its substantial completion, then such defect shall be a Delay Event but only for such period as such Capital Improvement is not in service while such defect is being corrected, provided that the Concessionaire shall, as soon as reasonably practicable, cause such defect to be corrected.
pursuant to the warranty provided by the Contractor or by the University in accordance with the immediately prior sentence. In the event that University procures a Capital Improvement from any Person other than the Concessionaire pursuant to a competitive bid or other public procurement process, as provided in this Section 4.1, then the University shall pay the Concessionaire a development fee equal to ten percent (10%) of the total capital costs of such Capital Improvement that were funded by such capital outlay upon the substantial completion thereof, as determined by the project architect. For the avoidance of doubt, such development fee shall be paid outside of and not as a component of the Utility Fee.

Section 4.2. Authorizations Related to Capital Improvements. The Concessionaire’s obligation to perform Capital Improvements shall be subject to the issuance by Governmental Authorities and the University of any and all Authorizations required to be issued by such parties with respect thereto, and the University agrees (i) not to unreasonably withhold, condition or delay the issuance of any Authorization to be issued by the University for an Approved Capital Improvement and (ii) to use its reasonable efforts to assist the Concessionaire in obtaining any Authorizations required to be issued by Governmental Authorities, provided that the Concessionaire shall reimburse the University in a timely manner for any reasonable out-of-pocket costs incurred by the University in providing such assistance. Without limiting the generality of the foregoing, the University agrees that it will reasonably assist and cooperate with the Concessionaire in obtaining any and all Authorizations (including any required rights of access over real property that is owned or controlled by the University) in order for the Concessionaire to perform an Approved Capital Improvement, which assistance shall include providing the Concessionaire reasonable access to the areas of the University Campus where the Approved Capital Improvement will be located, subject to the reasonable conditions and restrictions of the University, provided that the Concessionaire shall reimburse the University in a timely manner for any reasonable out-of-pocket costs incurred by the University in providing such assistance.

Section 4.3. Approval of Capital Improvements and Material Changes.

(a) The Concessionaire shall not have the right to make any (i) Capital Improvements or (ii) Material Changes, except those Capital Improvements or Material Changes which are Approved pursuant to Section 4.3(c).

(b) The Concessionaire shall have the right to request Approval of (I) a proposed Capital Improvement or Material Change or (II) a change in the scope or cost of a previously Approved Capital Improvement or Material Change at any time (and shall identify whether an item requested for Approval or any portion thereof is a Capital Improvement or Material Change or a combination thereof), but the University shall not be obligated to consider any such requests for Approval except those requests (i) (A) contained in a proposed Five-Year Plan submitted in accordance with Section 7.2 and (B) proposed to be commenced in the first full Fiscal Year in such proposed Five-Year Plan; (ii) required to address an Emergency, a change in Law or a change in a Performance Standard; (iii) required in connection with a University Directive; or (iv) required due to Force Majeure, all of which the University shall consider in good faith.
(c) The Concessionaire shall request Approval of one or more proposed Capital Improvements or Material Changes or Approval of a proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change by (1) submitting a request to the University, or an office or person designated by the University Liaison, containing a detailed description of each proposed Capital Improvement or Material Change or proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change or (2) submitting a proposed Five-Year Plan in accordance with Section 7.2 containing a detailed description of each proposed Capital Improvement or Material Change proposed to be commenced in the first full Fiscal Year in such proposed Five-Year Plan or each proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change, provided that, in each case, such detailed description shall include: (A) total costs for construction and installation thereof, including all hard and soft costs, any financing costs and any applicable sales or use tax; (B) forecasted annual operations and maintenance costs therefor; (C) any proposed modification to the Recovery Period (if applicable) for such Capital Improvement; (D) an explanation of all relevant assumptions, variables, and data sources, used to develop the proposal; (E) the proposed schedules, process, and other technical and logistics details associated with the proposed Capital Improvement and/or Material Change proposal, including any liquidated damages if the Concessionaire fails to meet the proposed schedule; (F) how such proposed Capital Improvement and/or Material Change will improve the sustainability of the Utility System Operations or the University Campus; (G) any actual or anticipated tax credits or other benefits that will accrue to the Concessionaire as a result thereof of which the Concessionaire has knowledge, and a description thereof as well as a description as to how such credits or benefits will be incorporated into the Capital Improvement Cost (if Approved); (H) any fee or charge payable to the Operator in connection with such Capital Improvement or Material Change; (I) any proposed change to the limits on the professional liability insurance coverage for the professionals providing services with respect to such Capital Improvement or Material Change and the associated change in the premium associated therewith; and (J) any potential increase or reduction in Supply Costs or consumption of Supplies that would result from such Capital Improvement or Material Change; provided that, (x) to the extent any of the details set out in clauses (A) through (J) above are unavailable or inapplicable, the Concessionaire shall describe the reason for such unavailability or inapplicability and (y) to the extent that the Concessionaire has explicitly requested that the University respond only pursuant to Sections 4.3(c)(ii), (iii) or (iv), the Concessionaire may include an indicative estimate or estimate range with respect to Sections 4.3(c)(A) or (B). To the extent the University elects to, or is required to, consider a request for Approval of a proposed Capital Improvement or Material Change or a change in the scope or cost of a previously Approved Capital Improvement or Material Change, the University shall review such request and, in its discretion:

(i) Approve such request in accordance with the terms of such request after having undertaken all such necessary action and secured all
authorizations, consents and approvals required to be obtained by the University with respect to such Approval at such time, unless the Concessionaire’s written request submitted to the University explicitly requested that the University respond only pursuant to Sections 4.3(c)(ii), (iii) or (iv); or

(ii) provide a written response requiring that the Concessionaire (1) perform additional work with respect to such proposed Capital Improvement or Material Change or proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change to provide further information regarding the scope, design or cost thereof and/or multiple alternative designs therefor to the University, which additional work may include procuring design services or a quotation for a guaranteed maximum price or lump sum contract from a contractor or multiple contractors for the proposed Capital Improvement or Material Change or proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change or procuring any details set out in clauses (A) through (I) of Section 4.3(c)(2) that were previously unavailable, provided that the cost of such additional work shall be subject to the University’s prior Approval, and (2) after performing such additional work, submit a revised request for Approval by the University pursuant to this Section 4.3(c), which revised request, if the initial request was made in connection with the submission of a proposed Five-Year Plan, the University shall consider with respect to the same proposed Five-Year Plan, if submitted within 15 Days before the commencement of the first Fiscal Year of such Five-Year Plan; or

(iii) (1) provide the Concessionaire with comments on such proposed Capital Improvement or Material Change or proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change, including comments on any details provided in the Concessionaire’s proposal, which may include comments from the University intended to align the proposal with the larger University Campus capital improvement plans existing at such time or disagreeing with its characterization as a Capital Improvement or Material Change, and (2) require that the Concessionaire incorporate such comments and submit a revised request for Approval pursuant to this Section 4.3(c); provided that if the University elects to exercise its rights under this Section 4.3(c)(iii), then the Concessionaire shall have the right, upon written notice to the University, to withdraw its request for Approval; or

(iv) (1) reject such proposed Capital Improvement or Material Change or proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change and (2) if such proposed Capital Improvement or Material Change or change to the scope of a previously Approved Capital Improvement or Material Change is necessary to comply with Prudent Industry Practices, applicable Law, or the
Performance Standards, provide the Concessionaire with a reasonably
detailed explanation for such rejection, provided that the University shall
not be permitted to reject such proposal under this Section 4.3(c)(iv) if
(w) such proposal is required to cause the Utility System to comply with
any new Law or change in Law existing as of the Setting Date and the
Concessionaire has received written notice from the applicable
Governmental Authority that the Utility System is not in compliance
therewith, (x) the Concessionaire has reasonably investigated any
potential alternatives to such proposal and provided the University with
reasonable evidence of such investigation, (y) the Concessionaire has
discussed in good faith with the University and reasonably considered any
potential viable alternatives to such proposal and (z) the University has
provided no reasonable alternative that would address such new or
changed Law, as applicable, that the University has confirmed that it
would Approve.

Notwithstanding anything to the contrary in the foregoing, if a single request for
Approval pursuant to this Section 4.3(c) includes multiple discrete proposed
Capital Improvements or Material Changes or changes in the scope or cost of a
previously Approved Capital Improvement or Material Change, the University
shall have the right to provide different responses with respect to each proposal
included in such request.

(d) To the extent that the Concessionaire elects to abandon a proposed Capital
Improvement or Material Change after it has been Approved by the University,
which the Concessionaire may do so upon Notice to the University, unless such
Capital Improvement or Material Change is the subject of a University Directive,
the Concessionaire shall be obligated to promptly restore the Utility System and
any other affected area of the University Campus to the condition that existed
prior to the commencement of such Capital Improvement or Material Change.
As a condition of its Approval of any proposed Capital Improvement or Material
Change or proposed change in the scope or cost of a previously Approved
Capital Improvement or Material Change, the University may require certain
payments of liquidated damages by the Concessionaire to the University if the
Concessionaire does not meet the timeframe set forth in the applicable Approval
regardless of the abandonment of such Capital Improvement or Material Change,
but only to the extent such liquidated damages are proposed in the
Concessionaire’s most recent request for Approval thereof.

(e) To the extent a proposed Capital Improvement or proposed change in a
previously Approved scope or cost of a Capital Improvement is Approved, the
Concessionaire shall have the right to (i) deem the cost of such Capital
Improvement (up to the Approved amount) or the change in such cost (up to the
Approved amount), as applicable, a New Approved Capital Improvement Cost in
accordance with Schedule 5 and (ii) include the out-of-pocket costs incurred by
the Concessionaire in connection with preparing and submitting a revised
request for Approval of such Capital Improvement pursuant to Section 4.3(c)(ii)
(if applicable) as part of such New Approved Capital Improvement Cost. The Approved out-of-pocket costs incurred by the Concessionaire pursuant to Section 4.3(c)(ii)(1) in connection with a proposed Capital Improvement or a proposed change in the scope or cost of a previously Approved Capital Improvement that is not Approved shall be included in Uncapped O&M Costs. For any proposed Material Change that is not a Capital Improvement or any proposed change in the scope or cost of a previously Approved Material Change, the out-of-pocket costs incurred by the Concessionaire pursuant to Section 4.3(c)(ii) shall be included in Uncapped O&M Costs.

(f) After Approval of a proposed Capital Improvement or Material Change or a proposed change in the scope or cost of a previously Approved Capital Improvement or Material Change, the Concessionaire shall make such Capital Improvement or Material Change in accordance with this Agreement, but subject to Section 4.3(d).

(g) Notwithstanding anything to the contrary contained in this Section 4.3, to the extent that the Concessionaire incurs any out-of-pocket costs as O&M Costs, it shall have the right to request that the University Approve those costs as a Capital Improvement and that those costs be considered as such, and such request shall be considered a request for Approval of a proposed Capital Improvement.

(h) In the event that the cost of any Approved Capital Improvement or Material Change is less than $100,000 (Adjusted for Inflation starting from the Year in which the Closing occurred), such costs will be classified as Uncapped O&M Costs for purposes of calculating the Utility Fee, unless otherwise indicated by the University, in its discretion, in its Approval thereof.

Section 4.4. University’s Capital Plan. The Concessionaire shall reasonably cooperate with the University in the development, modification, and discussion of the University’s capital plans and energy conservation initiatives, including participating with the University’s capital planning and capital plan forecasting processes, attending planning meetings, and, as requested by the University, attending and participating in University meetings related to the University’s capital plans.

ARTICLE 5
MODIFICATIONS

Section 5.1. University Directives. The University may, at any time during the Term, issue a University Directive to the Concessionaire, which may include (i) the construction of Capital Improvements and the addition to or removal from the Utility System of buildings or other improvements owned, leased or operated by the University or its Affiliates or (ii) the design, demolition, project management, construction, repair, replacement, remodeling, renovation, reconstruction, enlargement, addition, alteration, painting, or structural or other improvements not included in the Utility Facilities but related thereto. No University Directive shall have the effect of reducing the components of the Variable Fee Component or Fixed Fee.
Subject to the Concessionaire having obtained (with the cooperation of the University) all relevant Authorizations from all relevant Governmental Authorities required for the relevant work, the Concessionaire shall perform the work required to implement such University Directive. Utility Facilities constructed as the result of a University Directive shall be (a) deemed to be part of the Utility System for purposes of this Agreement and (b) included in the Utility System to be operated by the Concessionaire under the terms of this Agreement. To the extent any University Directive requires the construction of a Capital Improvement, the cost of such Capital Improvement shall be included as a New Approved Capital Improvement Cost up to the Approved cost of such Capital Improvement set forth in the University Directive. To the extent any University Directive requires the construction of anything other than a Capital Improvement, the costs associated therewith shall be Uncapped O&M Costs in accordance with the definition thereof. In addition, with respect to any University Directive, the Concessionaire and the University shall determine in good faith the forecasted annual ongoing operations and maintenance costs associated with such University Directive (or any reductions in current annual ongoing operations and maintenance costs associated therewith), and the Capped O&M Index shall be increased or decreased by such amount. To the extent that that an order or directive would be a University Directive but for the operation of sub-paragraph (4)(v) of the definition of “University Directive”, and in the event that the Concessionaire notifies the University in writing that it is not willing to carry out such order or directive for such reason: (A) the University may elect to engage a third party to perform the relevant order or directive, and (B) if the University so elects, the University and the Concessionaire shall determine in good faith any corresponding adjustments to the Utility Fee and other provisions of the Concession Agreement that may be required to put the Parties in substantially the same economic position as they were prior to such actions being taken, provided the University shall not be required to compensate the Concessionaire for any benefit that the Concessionaire would have received if it undertook the University Directive.

Section 5.2. Performance of Modifications. Subject to the other provisions of this Article 5, the Concessionaire shall ensure that University Directives are performed in a good and professional manner and diligently complied with and implemented in accordance with Prudent Industry Practices.

Section 5.3. Addition, Removal and Lease of Property.

(a) If, after the Closing Date, the University sells, conveys, leases for a period of time longer than the remaining Term or otherwise transfers ownership of any real property within the University Campus to a third party unaffiliated with the University, then, contemporaneously with such transfer, the Concessionaire shall disconnect such real property from the Utility System and remove or abandon in place all Utility Facilities and Utility System Assets thereon and shall not be permitted to serve such real property, except if Approved in accordance with Section 3.15(c). However, if the University elects to enter into a concession agreement, ground lease, management agreement or similar agreement with a third party to operate and maintain any real property that had been part of the University Campus, the Concessionaire shall not be required to disconnect such real property from the Utility System, provided that, for the avoidance of doubt, if any ground lease or similar lease agreement is for a period longer than the...
remaining Term, then it shall be subject to the immediately preceding sentence such that the Concessionaire shall disconnect such real property from the Utility System in accordance therewith. If such disconnection causes a Capital Improvement that is or had been a New Approved Capital Improvement to be removed from the Utility System, the Capital Improvement shall continue to be included in the Variable Fee Component in accordance with this Agreement as if not removed from the Utility System. The Concessionaire shall reasonably cooperate with the University and the transferee of such real property in such disconnection. In connection therewith, the University and the Concessionaire shall cooperate in good faith to make any reasonably necessary adjustments to the Key Performance Indicators and the Performance Standards as a result of such sale, conveyance or lease.

(b) Due to the fact that the Concessionaire is agreeing to service the University Campus throughout the Term, if, after the Closing Date, the University currently or thereafter leases, sub-leases, or otherwise provides a leasehold interest in real property served by the Utility System for less than or equal to the period of time remaining in the Term to a third party unaffiliated with the University, then, to the extent that it would not be prohibited by Law, the Concessionaire shall continue to provide Utilities to such real property in accordance with this Agreement, and the University shall remain obligated to pay the Utility Fee attributable to such real property. The Concessionaire is only entitled to the continued receipt of the Utility Fee attributable to such real property and shall have no interests or rights to charge or collect additional payments from the University, the lessees or sub-lessees for the provision of Utilities to such real property.

(c) The University, at its discretion, may, pursuant to a University Directive, cause the Concessionaire to provide Utility Services to any portion of the University Campus not served by the Utility System at that time and may expand the definition of the University Campus.

ARTICLE 6
PERFORMANCE STANDARDS

Section 6.1. Compliance with Performance Standards. The Concessionaire shall, at all times during the Term, cause the Utility System Operations to comply with and implement the Performance Standards in all material respects (including any changes or modifications to the Performance Standards pursuant to the terms of this Agreement); provided that the Concessionaire shall have a reasonable period of time to comply with the introduction of changes or modifications to the Performance Standards that are made from time to time in accordance with the terms of this Agreement. From and after the date on which the Concessionaire is required to have an Operations Plan pursuant to the Performance Standards, the Concessionaire shall have in place at all times during the Term an Operations Plan. Except as specifically set forth herein, the Concessionaire shall perform all work required to comply
with and implement the Performance Standards (including the Capital Improvements described therein) as part of the Utility System Operations and at its sole cost and expense.

Section 6.2. Proposed Performance Standards. If the Concessionaire, at its cost and expense, wishes to implement and use performance standards for the operation of the Utility System other than the Performance Standards, the Concessionaire must provide notice of such proposed performance standards to the University for Approval. The Concessionaire’s proposed performance standards must be accompanied by an explanation of the Concessionaire’s rationale for making its proposal and all relevant supporting information, certificates, reports, studies, investigations and other materials as are necessary to demonstrate that the Concessionaire’s proposed performance standards are reasonably designed to achieve or improve upon the intent of the applicable Performance Standards and are in compliance with Prudent Industry Practices and applicable Laws. The University may request any additional supporting information, certificates, reports, studies, investigations and other materials as are reasonably required by the University to determine if the Concessionaire’s proposed performance standards are reasonably designed to achieve or improve upon the objectives of the applicable Performance Standards. Until the University provides its Approval for the implementation of the Concessionaire’s proposed performance standards, the Concessionaire shall not implement the proposed performance standards and shall implement and comply with the Performance Standards. The Concessionaire’s proposed performance standards shall be deemed incorporated into the Performance Standards upon Approval by the University in accordance with the terms hereof. It shall be unreasonable for the University to withhold its Approval if the proposed performance standards are reasonably designed to achieve or improve upon the intent of the applicable Performance Standards in a manner that does not unreasonably increase the cost to the University. If the University refuses to Approve any proposed performance standards and the Concessionaire disagrees with such refusal, the Concessionaire’s sole remedy shall be to submit such dispute to the procedures set forth in Article 18.

Section 6.3. Modified Performance Standards.

(a) The Parties acknowledge that the services provided hereunder by the Concessionaire to the University may impact the quality of life on the University Campus. Because of the importance to the University of maintaining high standards with respect to such campus life, the University shall have the right, at any time during the Term, to modify or change the Performance Standards upon notice to the Concessionaire to (i) comply with any new Law or change in Law applicable to the Utility System Operations or (ii) conform the Performance Standards to standards or practices generally adopted with respect to Comparable Utility Systems or Prudent Industry Practices; any such modification shall not constitute a Compensation Event. In the event the University modifies the Performance Standards in accordance with the immediately preceding sentence, the Concessionaire shall promptly perform all work required to implement and shall comply with all such modifications and changes and in no event shall the Concessionaire be excused from compliance with any such modification or change, except as otherwise expressly provided in this Agreement, the cost of which shall be included in Uncapped O&M Costs (but only to the extent of the costs incurred to cause the Utility System to...
initially comply with such modification or change) or New Approved Capital Improvement Costs (if such modifications or changes are Capital Improvements); provided that the cost of ongoing compliance with any such modification or change may be included in Capped O&M Costs, if such costs would be included in the definition thereof. If (x) any such modification or change is a New Approved Capital Improvement, then the Concessionaire and the University shall determine in good faith the forecasted annual operations and maintenance costs for such New Approved Capital Improvement or (y) such modification or change is not a New Approved Capital Improvement but the Concessionaire and the University determine, in good faith, that it will require additional ongoing Capped O&M Costs after the completion of such modification or change, then, in each case, the Capped O&M Index shall increase by such amount. The Concessionaire shall have the right to challenge, pursuant to Article 18, any modified Performance Standard on the grounds that it does not meet the requirement of this Section 6.3(a). In connection with a change in the Performance Standard under this Section 6.3(a), the University and the Concessionaire shall cooperate in good faith to make any reasonably necessary adjustments to the Key Performance Indicators and any other Performance Standards as a result thereof.

(b) If, during the Term, the University is of the opinion that a modification or change to the Performance Standards is necessary or desirable but such modification or change is not required by Section 6.3(a), the University may upon reasonable written notice to the Concessionaire modify or change the Performance Standards; provided, however, that any such change(s) or modification(s) in the aggregate in a Fiscal Year shall constitute a Compensation Event only if such change(s) or modification(s) (i) are not in response to any action or omission on the part of the Concessionaire or the Operator and (ii) result in an increase, during any Fiscal Year, in operating expenses attributable to compliance with such change(s) or modification(s) (taking into account all such previous changes or modifications applicable in such Fiscal Year or any previous Fiscal Year) in excess of $75,000 (annually Adjusted for Inflation starting from the Year in which the Closing occurred) which cannot be charged through to the University as part of O&M Costs or recovered as a New Approved Capital Improvement Cost. At the University’s request, the Concessionaire shall perform all work required to implement and shall comply with all such modifications and changes, and in no event shall the Concessionaire be excused from compliance with any such modification or change.

(c) The University shall have the right to undertake the work necessary to ensure implementation of and compliance with any such modification or change to the Performance Standards if the Concessionaire fails to do so within a reasonable period of time; provided, however, that to the extent that such work is undertaken by the University, the Concessionaire shall pay to the University within 10 Business Days following demand therefor, or the University may offset from amounts owing to the Concessionaire in connection with such
modification or change, (i) with respect to changes pursuant to Section 6.3(a) all costs to comply with such Performance Standard and (ii) with respect to Section 6.3(b), the costs of the portion of the work performed in order to comply with the Performance Standards existing immediately prior to such modification or change, and the University shall be responsible only for the incremental costs of the additional work required in order to implement such proposed modification or change to the Performance Standards and, without duplication with the foregoing, the Concession Compensation with respect to such modification or change.

Section 6.4. Post-Closing Transition Period Assessment. During the Post-Closing Transition Period, the Concessionaire shall have the right to propose to the University modifications to the Performance Standards and Key Performance Indicators based on the Concessionaire’s assessment of historic Utility System Operations, including reasonable evidence to support such modification. The University shall consider any such proposals in good faith but shall not be obligated to agree to any such modifications. If the Concessionaire and the University, each acting reasonably, agree to such modifications, they shall enter into an amendment to memorialize such changes.

ARTICLE 7
UTILITY FEE, FIVE-YEAR PLAN, AND ENERGY SUPPLY

Section 7.1. Utility Fee.

(a) As compensation for the services provided hereunder by the Concessionaire to the University in connection with the Utility System, the University shall pay to the Concessionaire the Utility Fee for each Fiscal Year or portion thereof during the Term as determined in accordance with the formula described in Schedule 5 and in the manner set forth in this Section 7.1. At least 180 Days and no more than thirty (30) Days prior to the commencement of any Fiscal Year during the Term (other than the first Fiscal Year), the Concessionaire shall provide a forecast of the Utility Fee excluding any Uncapped O&M Costs (as determined in accordance with Schedule 5, and subject to the limitations therein) to the University for the upcoming Fiscal Year (the “Forecast Utility Fee”), provided that, Furthermore, the Concessionaire shall, by notice to the University (i) on or before 90 Days prior to the commencement of any Fiscal Year and (ii) again provide an adjusted Forecast Utility Fee at least ten (10) Days and no more than thirty (30) Days prior to the commencement of such Fiscal Year, adjust such Forecast Utility Fee as necessary, as determined by the Concessionaire in its good faith and reasonable discretion; provided, with respect to the Fiscal Year commencing on the first July 1 to occur after the Closing Date, the Concessionaire shall provide the Forecast Utility Fee to the University by the later of 180 Days before the commencement of the next Fiscal Year and 30 Days after the Closing Date Second Half (to reflect updates to the Variable Fee Component and Capital Recovery Amount), and upon commencement of such Fiscal Year Second Half, the Forecast Utility Fee (as well as the remaining
monthly installments for the remainder of that Fiscal Year) shall be updated to reflect such adjustment. The University shall pay the Forecast Utility Fee in 12 equal monthly installments, payable on the first Day of every month during the applicable half of the Fiscal Year, provided that if the Term expires on a date that is not the last day of a Fiscal Year, the Forecast Utility Fee for the last partial Fiscal Year shall be prorated based on the number of Days in that last Fiscal Year. For the avoidance of doubt, the Fixed Fee and the Operating Fee shall not change between the Fiscal Year First Half and the Fiscal Year Second Half. The Forecast Utility Fee for the first Fiscal Year of the Term shall be $10,594,422.81 prorated based on the number of Days remaining in the first Fiscal Year after the Closing and payable in equal monthly installments over the number of months remaining in such Fiscal Year. For purposes of determining the Forecast Utility Fee, including, but not limited to, estimations of the CPI Index and the Capped O&M Costs for the current Fiscal Year.

(b) Within 60 Days after the end of each Fiscal Year, the Concessionaire shall deliver to the University a statement (the “Reconciliation Statement”) which states the actual Utility Fee (as determined in accordance with Schedule 5, and subject to the limitations therein) for such Fiscal Year and provides a detailed accounting of each component of the Utility Fee and of the Capped O&M Costs incurred in such Fiscal Year, in each case calculated in a form and with such detail as may be reasonably requested by the University for the determination of the Utility Fee set forth in the Reconciliation Statement, including the details described in Section 7.1(c) below. If the Reconciliation Statement reveals that the Utility Fee for a Fiscal Year (as determined in accordance with Schedule 5, and subject to the limitations therein) is more than the Forecast Utility Fee for that Fiscal Year that has been paid by the University, the University agrees to pay the Concessionaire the difference in a lump sum within 30 Days after receipt of the Reconciliation Statement. If the Reconciliation Statement reveals that the Utility Fee for such Fiscal Year is less than the Forecast Utility Fee for that Fiscal Year that has been paid by the University, the Concessionaire will pay the University the difference in a lump sum within 30 Days after receipt of the Reconciliation Statement. In addition to the foregoing, the Concessionaire shall deliver to the University the quarterly reporting described in Section 8.1(d).

(c) In the Reconciliation Statement for each Fiscal Year, the Concessionaire shall set forth in reasonable detail (including any relevant backup documentation) the difference between the Baseline Capped O&M Costs and the actual Capped O&M Index for that Fiscal Year, which Capped O&M Index for that Fiscal Year shall be modified, solely for the purposes of this calculation, by making the following adjustments to the Capped O&M Costs used for each relevant prior Fiscal Year to calculate the Capped O&M Index for that Fiscal Year: (i) increase the applicable Fiscal Year’s Capped O&M Costs by the amount of Capped O&M
Costs that were avoided in that Fiscal Year as a direct result of the implementation of New Approved Capital Improvements; and (ii) excluding the Capped O&M Costs attributable to payroll and benefits due to employees that were engaged in the operations and maintenance of the Utility System (the “Annual Savings”). If the Annual Savings for a Fiscal Year is a positive amount, the Concessionaire shall be entitled to receive, as a component of the Utility Fee, an amount equal to 50% of the Annual Savings (the “Annual Savings Incentive”) for such Fiscal Year, provided that if some or all of such Annual Savings is due to a Non-Recurring Savings, the Concessionaire shall not be entitled to the Annual Savings Incentive associated therewith. The Annual Savings Incentive shall be calculated on a pro-rated basis in respect of any Fiscal Year which only partially falls within the Term.

(d) The records that the Concessionaire maintains with respect to the calculation of the actual Utility Fee shall be retained by the Concessionaire for a period of 5 Fiscal Years following the Fiscal Year to which such Utility Fee applied. The University shall have the right, through its Representatives, to examine, copy and audit such records at reasonable times, upon not less than 5 Business Days’ prior notice, at such place within the City of Moscow, Idaho as the Concessionaire shall reasonably designate from time to time for the keeping of such records. All costs of any such audit shall be borne by the University; provided, however, that if such audit establishes that the Utility Fee for the applicable Fiscal Year was lower than the final determination thereof as set forth in the Reconciliation Statement, by at least 1.0%, then the Concessionaire shall pay the cost of such audit. If, as a result of such audit, it is determined that the University has overpaid the Concessionaire on account of the Utility Fee, then the Concessionaire shall reimburse the University for any (i) undisputed amounts within 30 Days after such determination and (ii) amounts which have been determined to be due pursuant to Article 18 within 30 Days after such determination. If the Concessionaire disputes the results of an audit conducted pursuant to this Section 7.1(d), the Concessionaire’s sole remedy shall be to submit such dispute to the procedures set forth in Article 18.

(e) In addition, if an audit conducted pursuant to Section 7.1(d) establishes that the Utility Fee for the applicable Fiscal Year was lower than the final determination thereof, as set forth in the Reconciliation Statement, by at least 3.0%, then in addition to paying the cost of such audit and reimbursing the University for the payments in accordance with Section 7.1(d), the Concessionaire shall pay, as liquidated damages, 3 times the amount of the difference between the Utility Fee and the amount set forth in the Reconciliation Statement. The University and the Concessionaire agree that it would be impracticable and extremely difficult to fix the actual damage to the University if the actual Utility Fee was lower than the amount shown in the Reconciliation Statement by at least 3.0%. The University and the Concessionaire therefore agree that, in such instance, 3 times the amount of the difference between the Utility Fee and the amount set forth in the Reconciliation Statement is a reasonable estimate of the University’s damages and that the University shall be entitled to said sum as liquidated damages. If the
Concessionaire disputes the results of an audit conducted pursuant to Section 7.1(d), the Concessionaire’s sole remedy shall be to submit such dispute to the procedures set forth in Article 18.

(f) Within thirty (30) Days after the end of each Quarter, the Concessionaire shall provide to the University an invoice with the amount of Uncapped O&M Costs it incurred during such Quarter, including such reasonable evidence to support that they are Uncapped O&M Costs and the amount thereof. The University shall, within ten (10) Business Days of its receipt of such invoice, either (i) reimburse the Concessionaire for such amount of Uncapped O&M Costs or (ii) notify the Concessionaire that it disagrees with the determination of such amount of Uncapped O&M Costs (or any portion thereof) and the matter shall be submitted to the dispute resolution procedure in Article 18, provided that if the University only disputes a portion of such Uncapped O&M Costs, the University shall reimburse the Concessionaire the undisputed portion within ten (10) Business Days of receipt. Notwithstanding the foregoing, the University shall not be entitled to dispute any invoice, or portion thereof, submitted by the Concessionaire seeking payment for Uncapped O&M Costs to the extent that the Concessionaire notified the University by email or other writing of Concessionaire’s intention to perform services associated with such Uncapped O&M Costs prior to performing such services and the University approved such request or the applicable portion thereof. For the avoidance of doubt, this shall be the sole method by which the Concessionaire is reimbursed for its Uncapped O&M Costs, and Uncapped O&M Costs shall not be included in the Utility Fee.

Section 7.2. Five-Year Plan.

(a) The Concessionaire shall submit to the University a proposed Initial Five-Year Plan on or before 90 Days following the Closing Date and shall thereafter submit to the University a proposed Five-Year Plan at least 180 Days prior to the end of each Fiscal Year during the Term. Each proposed Five-Year Plan shall include the Capital Improvements and Material Changes (and shall identify whether an item requested for Approval is a Capital Improvement or Material Change or a combination thereof) that the Concessionaire proposes to make in each Fiscal Year in such proposed Five-Year Plan as well as anticipated O&M Costs, delineated between Capped O&M Costs and Uncapped O&M Costs, and the anticipated types of Supplies that will be used for each such Fiscal Year, including the estimated usage pattern over the course of the first Fiscal Year. The initial Five-Year Plan can include, and the University will consider in accordance with Section 4.3, proposed Capital Improvements and Material Changes to the Utility System to address any conditions of the Utility System existing prior to the Closing Date. Each proposed Five-Year Plan shall be submitted in a format reasonably acceptable to the University as of the date of submission.

(b) The University shall review and provide comments to the Concessionaire on the proposed Five-Year Plan, provided that to the extent pertaining to proposed
Capital Improvements or Material Changes relating to the first full Fiscal Year in the proposed Five-Year Plan, such review and comments shall be conducted and provided in accordance with Section 4.3(c), and provided further that, subject to Section 7.2(c), if the University shall have previously Approved any such Capital Improvement or Material Change included in the proposed Five-Year Plan, the University shall not have the right to modify or rescind such prior Approval to the extent of such prior Approval. The Concessionaire shall promptly incorporate and use the University’s comments on the proposed Five-Year Plan to prepare a revised version thereof and submit such revised version to the University. This process shall continue until the University Approves all components of the proposed Five-Year Plan, including the estimated usage of Supplies over the first Fiscal Year in such Five-Year Plan.

(c) The proposed Five-Year Plan Approved by the University shall become the Approved Five-Year Plan as of the commencement of the first Fiscal Year in such proposed Five-Year Plan (or, in the case of the proposed Initial Five-Year Plan, as of the date of the University’s Approval); provided, however, that no portion of an Approved Five-Year Plan related to the second through fifth full Fiscal Years therein shall be deemed Approved by the University, except to the extent that a Capital Improvement or Material Change is scheduled pursuant to such Approved Five-Year Plan to be started in the first full Fiscal Year and completed in the second through fifth full Fiscal Years therein. For the avoidance of doubt, the Approval of a Five-Year Plan that includes a Capital Improvement or Material Change that is not scheduled to be commenced until the second Fiscal Year therein at the earliest shall not be deemed an Approval of such Capital Improvement or Material Change for purposes of Article 4 or this Article 7.

(d) If the Concessionaire does not accommodate or otherwise resolve any comment provided by the University pursuant to Section 7.2(b), the Concessionaire shall deliver to the University, within 10 Days after receipt of the University’s comments, a written explanation as to why accommodation or other resolution of such comment would not allow the Concessionaire to meet the requirements of Section 3.2(a)(ii). The explanation shall include the facts, analyses and reasons that support the conclusion regarding such comment. Any dispute between the Concessionaire and the University over such comment shall be resolved pursuant to the procedures set forth in Article 18.

(e) If a proposed Five-Year Plan or a portion thereof is not Approved by the commencement of the first Fiscal Year in such proposed Five-Year Plan, the Approved Five-Year Plan or relevant portion thereof shall continue in effect until a new proposed Five-Year Plan is Approved, provided that in the case of the proposed Initial Five-Year Plan, no Approved Five-Year Plan shall be in effect until the proposed Initial Five-Year Plan is Approved, and provided further that nothing in this Section 7.2 shall permit the Concessionaire to make a Capital Improvement or Material Change except if it is Approved in accordance with Section 4.3(c).
Closing Date, the Concessionaire shall operate the Utility System in accordance with this Agreement and otherwise in substantially the same manner it had been operated immediately prior to Closing provided that nothing in this Section 7.2 shall permit the Concessionaire to make a Capital Improvement or Material Change except if it is Approved in accordance with Section 4.3(c).

(f) For the avoidance of doubt, the Concessionaire’s right to receive the Utility Fee, subject to the limitations contained herein and in Schedule 5, shall not be modified or superseded by the Approved Five-Year Plan.

(g) Except as otherwise provided in Section 7.2(c), the contents of any Approved Five-Year Plan shall not be binding on any future Five-Year Plan.

(h) Notwithstanding anything to the contrary in this Agreement, the Parties acknowledge and agree that all payments to the Operator pursuant to any agreement between the Concessionaire and the Operator to operate the Utility System that have been previously Approved by the University on or prior to the Closing Date, shall be deemed Approved and shall require no further Approval for any Five-Year Plan, provided that such payments do not materially differ from the payments or payment mechanics that were Approved by the University in its Approval of the Operator or otherwise.

(i) In acknowledgement of the importance of the Utility System to the operation of the University Campus and the integrated delivery of services to students, employees, staff, faculty and visitors of the University Campus, the University Liaison and other University Representatives selected by the University will meet with a representative of the Concessionaire and the Operator on a quarterly basis in order to discuss and assess the implementation of the then-current Five-Year Plan, including any delays or failures to meet the then-current Five-Year Plan and discuss the development of the immediately subsequent Five-Year Plan.

Section 7.3. Energy and Water Supply.

(a) The Concessionaire shall assist the University with the procurement of sufficient electricity, natural gas, biomass or other energy supply inputs and domestic water necessary to fully operate the Utility System as set forth in the Performance Standards (the “Supplies”). At the University’s direction, assistance may include, but not be limited to, identification and development of Supply procurement opportunities, provision of market analysis and advice regarding the same, acting on behalf of the University to negotiate or assist in negotiating Supply purchases, acting on behalf of the University or assisting the University in the operation of bidding mechanisms to procure competitive retail Supplies. The University shall be responsible for paying all Supply Costs directly to the vendor of such Supplies. The University, in connection with its commitment to sustainability, minimization of environmental impact, responsible energy procurement, and its rights and responsibilities as the energy
Supply customer of record, shall enter into any contracts with a third party for providing Supplies to the Utility System (each, a “Supply Contract”); provided that the University shall have made a reasonable determination that each such Supply Contract is consistent with the then-current Approved Five-Year Plan or has issued a University Directive with respect to such Supply Contract. The University shall, in its sole discretion, determine the types and sources of the Supplies and the appropriate entity (among the Concessionaire, the Operator and the University) to execute each Supply Contract and, if applicable, any Authorization related to Supplies, described in Section 7.3(d), with the Concessionaire or Operator executing pursuant to a power of attorney, and the Concessionaire shall operate the Utility System consistent with the types and sources of Supplies determined by the University. In any case, regardless of which entity executes a Supply Contract, the University will be considered as the exclusive customer of the Supplies procured pursuant to this Section 7.3(a) or used for the operation of the Utility System. Notwithstanding the foregoing, the Parties acknowledge that as of the Time of Closing, there shall be in place certain Supply Contracts to provide Supplies as described in Schedule 6, and the Concessionaire’s obligations under this Section 7.3(a) with respect to the Supplies which are the subject of such Supply Contract shall be met by managing those Supply Contracts until their expiration or termination, at which time the Concessionaire shall be responsible for assisting the University with the procurement of those Supplies for the University Campus as provided herein immediately following the expiration or termination of those Supply Contracts.

For the avoidance of doubt, if the third-party supplier of the Supplies fails to deliver such Supplies pursuant to the applicable Supply Contract, (i) such failure shall be a Delay Event (except with respect to any failure to deliver Supplies on University locations outside of the University Campus)—and, (ii) the Concessionaire, acting on behalf of the University, shall use commercially reasonable efforts to cause such third-party supplier to deliver such Supplies as soon as reasonably practicable, and (iii) as necessary, the Concessionaire shall assist the University with the prompt replacement of such third-party supplier.

(b) The Concessionaire shall, upon written notice from the University, be responsible for assisting the University with the procurement, billing and/or management of Supplies to the University or its Affiliates on University locations outside of the University Campus, and such assistance with the procurement, billing and/or management of Supplies shall be deemed part of the Utility System Operations. For clarification purposes, the Concessionaire shall be responsible for assisting the University with the management of Supplies under any existing Supply Contract described in Schedule 6 as provided in Section 7.3(a).

c) The Concessionaire shall ensure that any Supply Contracts negotiated by the Concessionaire provide that invoices are remitted to the Concessionaire, if so requested by the University in writing, or to such other entity as identified by the University. Promptly after receipt of such an invoice for Supply Costs from a third party but in no event more than 5 Business Days after receipt thereof, the
Concessionaire shall forward the supplier’s invoice to the University, and the Concessionaire shall have no obligation to pay such Supply Costs.

(d) The Concessionaire shall be responsible for extracting the domestic water used for the Utility System from the aquifers appurtenant to the University Campus in accordance with, and as a licensee of the University with respect to, the applicable Authorizations therefor or such other source as Approved by the University, provided that, for the avoidance of doubt, the University shall not be required to convey, nor deemed or considered, to have conveyed any of its water rights to the Concessionaire.

(e) The Concessionaire shall cause the Utility System to be operated using a mix of Supplies supported by the then-current Supply Contracts and the Approved Five-Year Plan. The Concessionaire shall consult the University with respect to any adjustments to the mix of Supplies required to operate the Utility System in accordance with this Agreement and any such adjustments shall only be made upon Approval from the University, which may be withheld in its sole discretion.

Section 7.4. Energy Use Intensity Reduction and Energy Conservation Measures.
In furtherance of the objectives set forth in Section 3.29, within 2 Years after the Closing Date, the University shall have the right to request in writing that the Concessionaire diligently prepare and provide to the University a detailed study with recommendations and proposals for opportunities to reduce the energy use intensity on the University Campus, and the Concessionaire shall in good faith discuss with the University the Concessionaire implementing such recommendations and proposals. In addition, in connection with each Five-Year Plan, the Concessionaire may propose certain measures or improvements on the University Campus, including energy conservation measures, buying strategies in connection with Supplies, or such other improvements anticipated to achieve an energy use intensity reduction. The University may consider such proposals in its discretion in connection with reviewing such Five-Year Plan and any Approval of the same may include a shared savings of costs with respect thereto.

ARTICLE 8
REPORTING; AUDITS; INSPECTIONS

Section 8.1. Reports; Environmental Incident Management.

(a) Incident Management and Notifications. The Concessionaire shall (i) provide notice to the University of all Emergencies as promptly as possible, and, in any event, not later than 6 hours after the Concessionaire or the Operator becomes aware of the Emergency, and (ii) promptly provide notice to the University of all material accidents and incidents occurring with respect to the Utility System and of all claims in excess of $25,000 annually made by or against the Concessionaire or potential claims in excess of $25,000 annually that the Concessionaire reasonably expects to make against, or to be made against it by, third parties.
(b) *Environmental Incident Management and Notifications.* The Concessionaire shall provide notice to the University as promptly as possible, and, in any event, not later than 6 hours after the Concessionaire becomes aware of the Release (accidental or otherwise) of any reportable quantity, as defined under applicable Environmental Law, of Hazardous Substances occurring with respect to the Utility System or otherwise on the University Campus or any part thereof, which notice shall include the time of such Release, the agencies involved, the damage that has occurred and the remedial action taken. The Concessionaire shall be financially responsible and shall pay the costs and expenses of any remediation required as a result of any such Release of Hazardous Substances caused by the willful misconduct or negligent action of, or permitted by the negligent inaction of, the Concessionaire or any of its Representatives, which costs shall not be recoverable by the Concessionaire as part of the Utility Fee or otherwise pursuant to this Agreement, and the Concessionaire shall not be financially responsible for other Releases of Hazardous Substances from the Utility System. Regardless of the foregoing, unless such Release is an Excluded Liability, the Concessionaire shall be responsible for the remediation of any Releases of Hazardous Substances from the Utility System. The Concessionaire shall not be financially responsible for the actions or inactions of third parties except for (i) those actions or inactions with respect to which the Concessionaire or any of its Representatives shall have had prior knowledge of and could have used commercially reasonable efforts to prevent or mitigate and (ii) those actions or inactions consented in writing to or directed in writing by the Concessionaire or any of its Representatives. As between the University and the Concessionaire, the University shall be designated the generator for the disposal of all Hazardous Substances or other contamination, except for any Hazardous Substances that were Released by the willful misconduct or negligent action of, or permitted by the negligent inactions of, the Concessionaire, the Operator or any of their respective Representatives.

(c) *Financial Reports.* The Concessionaire shall deliver to the University within 120 Days after the end of each Fiscal Year a copy of the audited balance sheets of the Concessionaire at the end of each such Fiscal Year and the related audited statements of income, changes in equity and cash flows for such Fiscal Year, including, in each case, the notes thereto, together with the report thereon of the independent certified public accountants of the Concessionaire, in each case in a manner and containing information consistent with the Concessionaire’s current practices and certified by the Concessionaire’s chief financial officer that such financial statements fairly present the financial condition and the results of operations, changes in equity and cash flows of the Concessionaire as of the respective dates of and for the periods referred to in such financial statements, all in accordance with GAAP or IFRS, provided that if such financial statements are prepared in accordance with IFRS, such financial statements shall include a reconciliation statement setting forth any material discrepancies between IFRS and GAAP reporting with respect to the subject matter thereof. The Concessionaire’s independent certified public accountants shall be subject to the University’s Approval. The annual reasonable, actual out-of-pocket cost of
preparing these audited financial statements shall, for the first three Fiscal Years (and any partial Fiscal Year) after the Closing be treated as Uncapped O&M Costs, and shall not be included in the calculation of the Capped O&M Costs, and, after such period has elapsed, those reasonable, actual out-of-pocket costs shall be considered Capped O&M Costs and included in the Capped O&M Index by taking them into account in the calculation of historical Capped O&M Costs for the prior 3 Fiscal Years in the manner specified in the definition of “Capped O&M Index” in Schedule 5).

(d) **Utility Fee Reports.** The Concessionaire shall deliver to the University within 30 Days after the end of each Quarter during a Fiscal Year a report showing (i) the calculation of the Variable Fee Component for that Quarter, (ii) the amount of O&M Costs incurred to date for such Fiscal Year, delineated between Capped O&M Costs and Uncapped O&M Costs, and (iii) the anticipated expenditures on Capital Improvements and Material Changes for the remainder of such Fiscal Year.

(e) **Regular Reports.** The Concessionaire shall deliver to the University all reports and information as set forth in the Performance Standards in the time and format described in the Performance Standards.

Section 8.2. Information.

(a) **Furnish Information.** At the request of the University, the Concessionaire shall, at the Concessionaire’s cost and expense and at any and all reasonable times during the Term: (i) make available or cause to be made available (and, if requested by the University, furnish or cause to be furnished) to the University all information relating to the Utility System Operations, this Agreement or the Utility System as may be specified in such request and as shall be in the possession or control of the Concessionaire or its Representatives, and (ii) permit the University, after giving 10 Business Days’ prior notice to the Concessionaire (which notice shall identify the Persons the University requests to be present for an interview and describe with reasonable specificity the subject matter to be raised in the interview) to request the Concessionaire’s approval, which approval shall not be unreasonably withheld, conditioned, or delayed, to discuss the obligations of the Concessionaire under this Agreement with any of the directors, officers, employees or managers of the Concessionaire, the Operator or their respective Representatives at times and places on the University Campus acceptable to all attendees (it being agreed that the Concessionaire shall have the right to be present during any such discussions with the Operator or Representatives of the Concessionaire or the Operator), for the purpose of enabling the University to determine whether the Concessionaire is in compliance with this Agreement. For the avoidance of doubt, this Section 8.2(a) does not impose a requirement to retain information not otherwise retained in the normal course of business or required to be retained by applicable Law.
(b) **Confidentiality.** Unless disclosure is required by applicable Law, the University shall keep confidential any information obtained from the Concessionaire or its Representatives that constitutes a “trade secret” as defined by applicable Idaho Law, including Idaho Code § 48-801, as determined by the University in its reasonable discretion. In the event that the Concessionaire seeks to defend an action seeking the disclosure of information that the Concessionaire determines to be confidential pursuant to this Section 8.2(b), the University shall use commercially reasonable efforts to cooperate in such action at no out-of-pocket cost to the University, provided that the University shall not be required to institute any legal action against the requesting party. Notwithstanding anything to the contrary herein, the University and the Concessionaire may disclose the United States federal tax treatment and tax structure of the Transaction.

**Section 8.3. Inspection, Audit and Review Rights of the University.**

(a) **Audit Right.** In addition to the rights set out in Section 7.1(d) and Section 8.2, the University may, at all reasonable times, upon 10 Business Days’ prior notice, cause a Representative designated by it to carry out an Audit and Review of the information required to be maintained or delivered by the Concessionaire under this Agreement in connection with the performance of the Utility System Operations for the purpose of verifying the information contained therein verifying Utility System Operations and to otherwise track utility usage patterns and shall be entitled to make copies thereof and to take extracts therefrom, at the University’s expense but, in any event, subject to Section 8.2(b). The Concessionaire shall, at reasonable times, make available or cause to be made available to the University or its designated Representative such information and material as may reasonably be required by the University or its designated Representative for its purposes and otherwise provide such cooperation as may be reasonably required by the University in connection with the same; provided, however, that such Audit and Review rights are limited to one Audit and Review per Fiscal Year.

(b) **Inspection Right.** The University and its Representatives shall, at all reasonable times and upon reasonable prior notice and subject to the Concessionaire’s reasonable safety requirements and protocols, have access to the Utility System and every part thereof, and the Concessionaire, at the reasonable cost and expense of the Concessionaire, shall and shall cause its Representatives to furnish the University with every reasonable assistance for inspecting the Utility System and the Utility System Operations for the purpose of Auditing and Reviewing the information relating to the Utility System Operations or ascertaining compliance with this Agreement and applicable Law subject to reasonable restrictions on access to confidential and proprietary information as determined by the Concessionaire.

(c) **Tests.** The University and its Representatives shall, with the prior consent of the Concessionaire, which consent shall not be unreasonably withheld, conditioned or delayed, be entitled, at the sole cost and expense of the University and at any
time and from time to time, to perform or cause to be performed, in accordance with Prudent Industry Practices, any test, study or investigation in connection with the Utility System or the Utility System Operations as the University may reasonably determine to be necessary in the circumstances, and the Concessionaire, at the cost and expense of the Concessionaire, shall, and shall cause its Representatives to, furnish the University or its Representatives with reasonable assistance in connection with the carrying out of such tests, procedures, studies and investigations.

(d) **No Waiver.** Failure by the University or its Representatives to inspect, review, test or Audit and Review the Concessionaire’s responsibilities under this Agreement or any part thereof, or the performance by the Concessionaire of the Utility Services, or the information relating to the Utility System Operations, shall not constitute a waiver of any of the rights of the University hereunder or any of the obligations or liabilities of the Concessionaire hereunder. Inspection, review, testing or Audit and Review not followed by a notice of Concessionaire Default shall not constitute a waiver of any Concessionaire Default or constitute an acknowledgement that there has been or will be compliance with this Agreement and applicable Law.

(e) **No Undue Interference.** In the course of performing its inspections, reviews, tests and Audits and Reviews hereunder, the University shall minimize the effect and duration of any disruption to or impairment of the Utility System Operations or the Concessionaire’s rights or responsibilities under this Agreement, having regard to the nature of the inspections, reviews, tests and Audits and Reviews being performed, except as necessary in the case of investigations of possible criminal conduct or University ordinance violations.

Section 8.4. **Audits, Assistance, Inspections and Approvals.** Wherever in this Agreement reference is made to the University or its Representatives providing assistance, services, Approvals or consents to or on behalf of the Concessionaire or its Representatives or to the University or its Representatives performing an Audit and Review or inspecting, testing, reviewing or examining the Utility System, the Utility System Operations or any part thereof or the books, records, Documents, budgets, proposals, requests, procedures, certificates, plans, drawings, specifications, contracts, agreements, schedules, reports, lists or other instruments of the Concessionaire or its Representatives, such undertaking by the University or its Representatives shall not relieve or exempt the Concessionaire from, or represent a waiver of, any requirement, liability, Concessionaire Default, covenant, agreement or obligation under this Agreement or at law or in equity and shall not create or impose any requirement, liability, covenant, agreement or obligation (including an obligation to provide other assistance, services or Approvals) on the University or its Representatives not otherwise created or imposed pursuant to the express provisions of this Agreement.
Section 9.1. Representations and Warranties of the University. The University makes the following representations and warranties to the Concessionaire as of the Signing Date and acknowledges that the Concessionaire and its Representatives are relying upon such representations and warranties in entering into this Agreement:

(a) Organization. The University is a state institution of higher education and body politic and corporate organized and existing under and pursuant to the Constitution and laws of the State of Idaho.

(b) Power and Authority. The University has (i) duly authorized and approved the execution and delivery of this Agreement and (ii) duly authorized and approved the performance by the University of its obligations contained in this Agreement. The University has the power and authority to enter into this Agreement and to do all acts and things and execute and deliver all other documents as are required hereunder to be done, observed or performed by it in accordance with the terms hereof.

(c) Enforceability. This Agreement has been duly authorized, executed and delivered by the University and constitutes a valid and legally binding obligation of the University, enforceable against the University in accordance with the terms hereof, subject only to applicable bankruptcy, insolvency and similar laws affecting the enforceability of the rights of creditors generally and to general principles of equity.

(d) Title. At the Time of Closing, the University will have good and sufficient title to the Utility Facilities, the Utility System Land, the Utility System Assets and the Tunnels necessary for the Utility System Operations pursuant to this Agreement, subject only to Permitted University Encumbrances, and will be able to transfer or grant such interest to the Concessionaire as provided in this Agreement. Subject to any and all Permitted University Encumbrances existing at the Time of Closing and to the Actual Knowledge of the University, there is no recorded or unrecorded agreement, contract, option, commitment, right, privilege or other right of another binding upon, or which at any time in the future may become binding upon, the University to sell, transfer, convey, subject to lien, charge, grant a security interest in or in any other way dispose of or materially encumber the Utility System. Subject to any and all Permitted University Encumbrances and to the Actual Knowledge of the University, the recorded or unrecorded restrictions, exceptions, easements, rights of way, reservations, limitations, interests and other matters that affect title to the Utility System (or any portion thereof) do not materially adversely affect the Concessionaire’s ability to operate the Utility System in accordance with the terms hereof. No indebtedness for borrowed money of the University is or will be secured by any right or interest in the Utility System or the revenues or income therefrom, and no Person will have any claim or right to, or interest in, any income, profits, rents or revenue derived by the Concessionaire from or

16 NTD: These changes are necessary so as to not bring down all representations and warranties.
generated with respect to the Utility System (other than the Concessionaire and any claims, rights or interests granted by or otherwise relating to the Concessionaire); provided, however, the foregoing shall not apply to (i) revenues to which the University is or may be entitled to under the Original Agreement, (ii) revenues or income derived after the End Date, (iii) revenues or income received by the University from students or (iv) revenues or income received by the University from third parties as reimbursement for Utilities received by such parties.

(e) **No Conflicts.** The execution and delivery of the Original Agreement by the University, the consummation of the Transaction (including the operation of the Utility System in accordance with the terms of the Original Agreement) and the performance by the University of the terms, conditions and provisions hereof have not and will not contravene or violate or result in a breach of (with or without the giving of notice or lapse of time, or both) or acceleration of any material obligations of the University under (i) any applicable Law, (ii) any agreement, instrument or document to which the University is a party or by which it is bound or (iii) the University’s governing documents.

(f) **Consents.** No Consent that has not already been obtained is required to be obtained by the University from, and no notice or filing that has not already been given is required to be given by the University to or made by the University with, any Person (including any Governmental Authority) in connection with the execution, delivery and performance by the University of the Original Agreement or the consummation of the Transaction.

(g) **Compliance with Law; Litigation; Environmental Matters.**

(i) The University has operated and is operating the Utility System as of the Signing Date in compliance, in all material respects, with all applicable Laws, and the University is not in breach of any applicable Law, in either case, that would reasonably be expected to have a Material Adverse Effect or a material adverse effect on the Concessionaire. To the Actual Knowledge of the University, (A) the University is in compliance, in all material respects, with the terms and conditions of all Authorizations from Governmental Authorities, (B) no claim has been made by any Governmental Authority to the effect that an Authorization that the University has not obtained is necessary in respect of the operation of the Utility System, and (C) no additional Authorizations from any Governmental Authority are necessary for the operation of the Utility System as currently being operated.

(ii) The University has not been served with notice of any action, suit or proceeding, at law or in equity, or before or by any Governmental Authority, and to the Actual Knowledge of the University, there is no such action, suit or proceeding pending or threatened against the University prior to or at the Time of Closing, which would reasonably be expected to
have a Material Adverse Effect or a material adverse effect on the Concessionaire. As of the \textit{date hereof}, \textit{Signing Date}, there was no action, suit or proceeding, at Law or in equity, or before or by any Governmental Authority, pending nor, to the Actual Knowledge of the University, threatened against the University which could materially affect the validity or enforceability of this \textit{Original} Agreement.

(iii) There has been no Release of Hazardous Substances at, on or under the Utility Facilities that would reasonably be expected to have a Material Adverse Effect or a material adverse effect on the Concessionaire, except as cured to the satisfaction of the applicable Governmental Authority. To the Actual Knowledge of the University, (a) there is no pending investigation by a Governmental Authority concerning any Release of Hazardous Substances in connection with the Utility System or the Utility Facilities and (b) there has been no Release of Hazardous Substances in connection with the Utility System or the Utility Facilities that could reasonably result in liability to the Concessionaire.

(h) \textit{Financial Information}. The financial information of the University relating to the Utility System attached hereto as Schedule 9, which identifies operational costs for the periods that ended June 30, 2018 through June 30, 2020, and, fairly presents the financial information disclosed thereon in accordance with standard accounting procedures of the University with respect to the Utility System, and is adjusted for anticipated expenditures the Concessionaire will incur to operate the Utility System as it is currently operated.

(i) \textit{Absence of Changes}. Since June 30, 2020 \textit{through the Signing Date}, there has not been any transaction or occurrence that has resulted or is reasonably likely to result in a Material Adverse Effect or a material adverse effect on the University. Since June 30, 2020 through the Closing, the University and the University’s Contractors have operated the Utility System in a manner consistent with past practice and have not, for example, intentionally increased or decreased efforts and resources related to operations, maintenance or enforcement so as to reduce the value of the Concessionaire Interest.

(j) \textit{Brokers}. Except for Wells Fargo Securities, LLC ("Wells Fargo") and Rieth Jones Advisors ("RJA"), whose fees will be paid by the University, there is no investment banker, broker, finder or other intermediary which has been retained by or is authorized to act on behalf of the University who might be entitled to any fee or commission from the University in connection with the Transaction. There is also no investment banker, broker, finder or other intermediary which has been retained by or is authorized to act on behalf of the University who might be entitled to any fee or commission from the Concessionaire in connection with the Transaction.

(k) \textit{Accuracy of Information}. To the Actual Knowledge of the University, the factual and past historical information regarding the Utility System that the
University provided to the Concessionaire in the virtual data room labeled “Project Vikings” hosted by Datasite was accurate in all material respects at the time such information was prepared, except to the extent the University removed, revised or replaced such information prior to the Setting Date.

(l) **Undisclosed Defects.** To the Actual Knowledge of the University, there are no material defects of the Utility System that could reasonably be expected to prevent the Utility System from being operated in accordance with the Performance Standards and Prudent Industry Practices.

**By executing this Agreement, the University is not deemed to have re-made or affirmed any of the foregoing representations and warranties.**

**Section 9.2. Representations and Warranties of the Concessionaire.** The Concessionaire made the following representations and warranties to the University (as of the Signing Date and acknowledges that the University is relying upon such representations and warranties in entering into this Original Agreement):

(a) **Organization.** The Concessionaire is duly organized, validly existing and in good standing under the laws of the state of its organization. The capital stock, units, partnership or membership interests and other equity interests or securities of the Concessionaire (including options, warrants and other rights to acquire any such equity interests) are owned by the Persons set forth in the written certification that the Concessionaire delivered to the University prior to the date hereof Signing Date.

(b) **Power and Authority.** The Concessionaire has the power and authority to enter into this Original Agreement and to do all acts and things and execute and deliver all other documents as are required hereunder to be done, observed or performed by it in accordance with the terms hereof.

(c) **Enforceability.** This Original Agreement has been duly authorized, executed and delivered by the Concessionaire and constitutes a valid and legally binding obligation of the Concessionaire, enforceable against it in accordance with the terms hereof, subject only to applicable bankruptcy, insolvency and similar laws affecting the enforceability of the rights of creditors generally and to general principles of equity.

(d) **No Conflicts.** The execution and delivery of this Original Agreement by the Concessionaire, the consummation of the Transaction and the performance by the Concessionaire of the terms, conditions and provisions hereof have not and will not contravene or violate or result in a material breach of (with or without the giving of notice or lapse of time, or both) or acceleration of any material obligations of the Concessionaire under (i) any applicable Law, (ii) any material agreement, instrument or document to which the Concessionaire is a

---

**NTD:** These changes are necessary so as to not bring down all representations and warranties.
party or by which it is bound or (iii) the articles, bylaws or governing documents of the Concessionaire.

(e) **Consents.** No Consent that has not already been obtained is required to be obtained by the Concessionaire from, and no notice or filing that has not already been given is required to be given by the Concessionaire to, or made by the Concessionaire with, any Person (including any Governmental Authority) in connection with the execution, delivery and performance by the Concessionaire of the Original Agreement or the consummation of the Transaction, except for such consents which have been or will be obtained and notices which have been or will be given as of the Closing Date.

(f) **Compliance with Law; Litigation.** The Concessionaire is not in breach of any applicable Law that could have a Material Adverse Effect. Neither the Concessionaire nor any Affiliate of the Concessionaire is (a) listed on any of the following lists maintained by the Office of Foreign Assets Control of the U.S. Department of the Treasury, the Bureau of Industry and Security of the U.S. Department of Commerce, the Department of State, or their successors or on any other list of Persons with which the University is prohibited from engaging in business under applicable Law: the Specially Designated Nationals and Blocked Persons List, the Sectoral Sanctions Identifications List, the Denied Persons List, the Unverified List, the Entity List, and solely with respect to the Concessionaire and its parent, the Debarred List; or (b) controlled or 50% or more owned, directly or indirectly, individually or in the aggregate, by one or more Persons on a list identified in clause (a) above. The Concessionaire has not been served with notice of any suit or proceeding, at law or in equity, or before or by any Governmental Authority and to the best of the Concessionaire’s knowledge, there is no such action, suit or proceeding threatened against the Concessionaire prior to or at the Time of Closing, which will have a material adverse effect on (i) the Transaction or (ii) the validity or enforceability of the Original Agreement.

(g) **Prohibited Tax Shelter Transaction.** The Concessionaire has not entered into, and will not enter into, any lease, sublease, concession, management agreement, operating agreement or other similar arrangement or other transaction that would cause the University to become a party to a “prohibited tax shelter transaction” within the meaning of Section 4965 of the Code, including by virtue of the execution of the Original Agreement or any lease, sublease, concession, management agreement, operating agreement or other similar arrangement or other transaction to which the University has consented to pursuant to the arrangements contemplated by the Original Agreement.

(h) **Accuracy of Information.** To the actual knowledge of the Concessionaire, all information regarding the Concessionaire or the Operator provided to the University by or on behalf of the Concessionaire or the Operator was accurate in all material respects at the time such information was provided.
(i) **Operator.** To the extent the Operator is not the Concessionaire, the Concessionaire represents and warrants as follows: (i) the Operator is duly organized, validly existing and in good standing under the laws of the state of its organization; (ii) the capital stock or other equity interests of the Operator (including options, warrants and other rights to acquire capital stock) is owned by the Persons set forth in the written certification that the Concessionaire delivered to the University prior to the date hereof Signing Date; (iii) the Operator has the power and authority to do all acts and things and execute and deliver all other documents as are required hereunder under the Original Agreement to be done, observed or performed by it in connection with its engagement by the Concessionaire; (iv) the Operator has all necessary expertise, qualifications, experience, competence, skills and know-how to perform the Utility System Operations in accordance with this the Original Agreement; (v) the Operator is not in breach of any applicable Law that would have a Material Adverse Effect; and (vi) is authorized to do business in the State of Idaho, and, except the extent such licenses and permits are set forth on Schedule 18, has all licenses and permits required to perform its obligations hereunder, which representations shall be only to the best knowledge of the Concessionaire in the event that the Operator is not an Affiliate of the Concessionaire.

(j) **Brokers.** Except for Plenary Americas USA Ltd., whose fees will be paid by the Concessionaire or its Affiliates, there is no investment banker, broker, finder or other intermediary which has been retained by or is authorized to act on behalf of the Concessionaire or any of its Affiliates who might be entitled to any fee or commission in connection with the Transaction which could become a claim on, a liability of, or an Encumbrance on, the Utility System.

By executing this Agreement, the Concessionaire is not deemed to have re-made or affirmed any of the foregoing representations and warranties.

**Section 9.3. Non-Waiver.** No investigations made by or on behalf of any Party at any time shall have the effect of waiving, diminishing the scope of or otherwise affecting any representation or warranty made by the other Party in this Agreement or pursuant to this Agreement. No waiver by a Party of any condition, in whole or in part, shall operate as a waiver of any other condition.

**Section 9.4. Survival.**

(a) **University’s Representations and Warranties.** The representations and warranties of the University contained in Section 9.1 shall survive and continue in full force and effect for the benefit of the Concessionaire as follows: (i) as to the representations and warranties contained in Sections 9.1(a) through 9.1(g), inclusive, without time limit; and (ii) as to all other matters, for a period of 24 months following the Closing Date unless a bona fide notice of a Claim shall have been given, in writing, in accordance with Section 20.1, prior to the expiry of that period, in which case the representation and warranty to which such notice applies shall survive in respect of that Claim until the final determination
or settlement of that Claim, provided such determination or settlement is being pursued diligently and in good faith by the applicable Party.

(b) *Concessionaire’s Representations and Warranties.* The representations and warranties of the Concessionaire contained in Section 9.2 shall survive and continue in full force and effect for the benefit of the University as follows: (i) as to the representations and warranties contained in Sections 9.2(a) through 9.2(i), inclusive, without time limit; and (ii) as to all other matters, for a period of 24 months following the Closing Date unless a bona fide notice of a Claim shall have been given, in writing, in accordance with Section 20.1, before the expiry of that period, in which case the representation and warranty to which such notice applies shall survive in respect of that Claim until the final determination or settlement of that Claim, provided such determination or settlement is being pursued diligently and in good faith by the applicable party.

(c) *Modification of Statutes of Limitations.* The survival periods set forth in this Section 9.4 shall apply with respect to all Claims notwithstanding any statute of limitations that would be applicable to such Claims under applicable Law. The Parties acknowledge and agree that they intend to modify the statutes of limitations with respect to all Claims to the extent such statutes of limitations would conflict with the provisions set forth in this Section 9.4.

**ARTICLE 10**

**FINANCE OBLIGATIONS**

**Section 10.1. Concessionaire’s Obligations.** The Concessionaire shall be responsible for obtaining any financing for the performance of its obligations under this Agreement, which financing shall comply with all requirements of this Agreement. The Concessionaire shall be permitted to issue additional Leasehold Mortgage Debt or refinance existing Leasehold Mortgage Debt at any time during the Term provided that, as a condition thereof, the Concessionaire must comply with Section 3.6 in connection therewith.

**Section 10.2. University’s Obligations.** The University shall, to the extent consistent with applicable Law and at the sole cost and expense of the Concessionaire, cooperate with the Concessionaire with respect to documentation reasonably necessary to obtain, maintain and replace financing for the performance of the obligations of the Concessionaire hereunder. The University’s cooperation may include reviewing, Approving and executing documents which substantiate the terms of this Agreement (including any consents or agreements necessary to confirm that the debt evidenced by the relevant financing constitutes a Leasehold Mortgage Debt) and making information and material relating to the Utility System Operations available to any of the Concessionaire’s lenders or proposed lenders to facilitate financing to the extent permitted by applicable Law and contractual obligations with third parties and to the extent reasonable in the circumstances, provided that such lenders and potential lenders shall hold such information in confidence (provided that such lenders and potential lenders may disclose such information to Affiliates and their respective officers, employees, agents, advisors, stockholders, partners, members, accountants and attorneys to the extent the foregoing agree to maintain such information as confidential in accordance with this Section 10.2 or as may be compelled in a
judicial, regulatory (including any self-regulatory organization) or administrative proceeding or as otherwise required by applicable Law or required by any Governmental Authority having jurisdiction over the lender) and the Concessionaire shall be liable for any disclosure by such lenders or potential lenders in breach thereof. If requested in writing to do so by the Concessionaire, the University shall, at the sole cost and expense of the Concessionaire, use its commercially reasonable efforts to cause the University’s independent public accountants to reasonably cooperate in connection with the Concessionaire’s public or private offering of securities, as the case may be. In addition, the University shall, promptly upon the request of the Concessionaire or any Leasehold Mortgagee, execute, acknowledge and deliver to the Concessionaire, or any of the parties specified by the Concessionaire, standard consents and estoppel certificates with respect to this Agreement which may be qualified, after reasonable diligence, to the best of the knowledge and belief of a designated Representative of the University. Nothing herein shall require the University to incur any additional obligations or liabilities (unless the University shall have received indemnification, as determined in the University’s discretion, with respect thereto), to take any action or give any consent or enter into any document inconsistent with the provisions of this Agreement.

**Section 10.3. Concessionaire’s Obligation for Estoppel Certificates.** The Concessionaire shall, promptly upon the request of the University, execute and deliver to the University, or any of the parties specified by the University, standard consents and estoppel certificates with respect to this Agreement which may be qualified to the best of the knowledge and belief of a designated Representative of the Concessionaire. Nothing herein shall require the Concessionaire to incur any additional obligations or liabilities or to take any action, give any consent or enter into any document inconsistent with the provisions of this Agreement or applicable Law.

**Section 10.4. Prohibited Tax Shelter Transactions.** Consistent with Section 9.2(g), the Concessionaire covenants and agrees that it shall not enter into any lease, sublease, concession, management agreement, operating agreement or other similar arrangement or other transaction that would cause the University to become a party to a “prohibited tax shelter transaction” within the meaning of Section 4965 of the Code. A violation of this Section 10.4 or a breach of the representation set forth in Section 9.2(g) by the Concessionaire shall entitle the University to (a) recover from the Concessionaire the amount of any Tax liability, penalty or loss to which the University or any University official is subject and (b) require the Concessionaire, at the Concessionaire’s expense, to prepare timely all statements and returns, and to maintain all lists and similar information that the University becomes obligated to disclose, file or maintain with any taxing authority or participant or otherwise as a result of such transaction.

**ARTICLE 11**

**COMPLIANCE**

**Section 11.1. Compliance with Laws.** The Concessionaire must at all times at its own cost and expense (but subject to the Concessionaire’s express rights hereunder with respect to such costs and expenses, including its right to include the reasonable cost of compliance with any Law enacted after the Setting Date in the Uncapped O&M Costs in accordance with the definition thereof) observe and comply, in all material respects, and cause the Utility System Operations to observe and comply, in all material respects, with all applicable Laws now
existing or later in effect, including those Laws expressly enumerated in this Article 11, and those that may in any manner apply with respect to the performance of the Concessionaire’s obligations under this Agreement. For the avoidance of doubt, any costs incurred to comply with applicable Law as a result of any Capital Improvement or other alteration to the Utility System undertaken by the Concessionaire, shall be at the Concessionaire’s cost (subject to inclusion in the Utility Fee as part of the Variable Fee Component or Uncapped O&M Costs or as part of the Capped O&M Index, as applicable). The Concessionaire shall notify the University within 7 Days after receiving written notice from a Governmental Authority that the Concessionaire or the Operator may have violated any Laws. Pursuant to Idaho Code section 67-2359, the Concessionaire certifies that it is not currently owned or operated by the government of China and will not for the duration of the Contract be owned or operated by the government of China. The terms in this section defined in Idaho Code section 67-2359 shall have the meaning defined therein. The Concessionaire hereby certifies that: (i) pursuant to Idaho Code Section 67-2346, if payments under the Agreement exceed one hundred thousand dollars ($100,000) and it employs ten (10) or more persons, it is not currently engaged in, and will not for the duration of the Agreement engage in a boycott of goods or services from Israel or territories under its control.

Section 11.2. Non-Discrimination.

(b) Contract Provisions. The Concessionaire shall cause all Contractors to comply with each of the federal Laws and Idaho Laws referenced in this Section 11.2, and shall include a provision to such effect in each contract entered into with any Contractor.

Section 11.3. Compliance with Wage and Hour Laws. The Concessionaire shall comply with all applicable Laws governing employment and/or employee wages and hours, including (i) the Fair Labor Standards Act, 29 U.S.C. § 201 et seq.; (ii) the Idaho Minimum Wage Law, I.C. Sec 44-1501, et seq; and (iii) the Idaho Claims for Wages Act, I.C. Sec._45-601, et seq.
Section 11.4. Safety Laws. The Concessionaire shall comply with and maintain employment policies in a manner consistent with all applicable Laws regarding workplace safety, including the Occupational Safety and Health Act of 1970, 29 U.S.C. § 651 et seq.

Section 11.5. Immigration Laws. The Concessionaire shall comply with and maintain employment policies in a manner consistent with all applicable Laws regarding lawful employment of U.S. citizens and non-U.S. citizens, including taking reasonable steps to verify the employment eligibility of all employees as required under such Laws.

Section 11.6. Labor Disputes. The Concessionaire shall take all reasonable steps to resolve any alleged or actual labor dispute between it or the Operator and any representative of its or the Operator’s employees; further, any work stoppage or strike resulting from such labor dispute shall not excuse the Concessionaire’s performance under this Agreement. The Concessionaire shall use good faith efforts and take immediate steps to effect the limitation and/or removal, by lawful means, of any pickets or picketing that are the result of an alleged or actual labor dispute between it and any representative of its employees; provided however, if such pickets or picketing results in the obstruction of ingress or egress of any Public Way or University facility, the Concessionaire shall immediately seek injunctive relief to terminate such pickets or picketing that may be available under applicable Laws.

Section 11.7. Employee Conduct and Performance. The Concessionaire shall ensure that it and the Operator have workplace conduct policies for their employees providing services under this Agreement that are at least as stringent as substantially similar policies and enforcement provisions as those of the University’s general policies for conduct in the workplace and are in accordance with Prudent Industry Practices. These policies shall include policies related to workplace behavior; anti-harassment; weapons; confidentiality; security and safety; possession of alcohol; illegal drugs or weapons in the workplace; violation of criminal statutes that have a direct relationship to work performed by the employee; negligent or incompetent performance of work hereunder; gross misconduct related to work; conduct or interactions with University employees, students or visitors that impair or prejudice the University or its relationship with such persons; and unsafe practices or work performance that create a risk of harm to the employee, other persons or property.

Section 11.8. Non-Collusion. By signing this Agreement, the Concessionaire duly swears, affirms and warrants that it is the contracting party, and that it has not, nor has any other member, employee, Representative, agent or officer of the firm, company, corporation or partnership represented by it, directly or indirectly entered into or offered to enter into any combination, conspiracy, collusion or agreement to receive or pay any sum of money or other consideration for the execution of this Agreement other than that which appears upon the face of the Original Agreement or this Agreement.

Section 11.9. Conflict of Interest. The Concessionaire certifies and warrants to the University that neither it nor any of its agents, Representatives or employees who will participate in any way in the performance of Concessionaire’s obligations hereunder has or, for so long as any such person continues in such capacity, will have any conflict of interest, direct or indirect,
with the University during the performance of this Agreement, other than in respect of any disputes that may arise hereunder or in connection herewith.

Section 11.10. Drug-Free Workplace Certification. The Concessionaire hereby covenants and agrees to make a good faith effort to provide and maintain a drug-free workplace. The Concessionaire will give written notice to the University within 7 Days after receiving actual notice that the Concessionaire or an employee of the Concessionaire has been convicted of a criminal drug violation occurring in the Concessionaire’s workplace.

Section 11.11. Minority-Owned and Women-Owned Business Enterprises. The Concessionaire shall use good faith efforts during the Term to obtain the participation of M.B.E./W.B.E. in its Utility System Operations, including requiring the Operator to participate in such programs. In order to demonstrate this good faith efforts commitment, the Concessionaire shall, and shall cause all Contractors to, complete and submit to the University such documentation and information as the University may reasonably request.

Section 11.12. University Accreditation. The Concessionaire shall ensure that the Utility System provides a sufficient quantity of Utilities in a timeframe sufficient such that the University, or any portion thereof, may maintain any third-party accreditation or other third-party standard of which the University has provided the Concessionaire notice prior to the Setting Date.

Section 11.13. Permits and Other Campus-Wide Authorizations. The Concessionaire acknowledges and agrees that, in connection with the Campus-Wide Permits: (i) the University will continue to be the “owner” identified in the Campus-Wide Permits during the Term; (ii) the Concessionaire will become the “operator” of permitted emission sources from the Utility System identified in the Campus-Wide Permits during the Term, to the extent applicable; (iii) the Concessionaire shall be responsible for operating all emission sources in compliance with all permit and regulatory requirements and meeting all monitoring, recordkeeping and reporting requirements related to such permitted emission sources; (iv) the Concessionaire shall promptly provide to the University’s Office of Environmental Health and Safety, as the responsible University official for communications with the State of Idaho, Division of Environmental Quality (“DEQ”), all records that the DEQ inspectors request the University provide with respect to the Utility System; and (v) the Concessionaire shall provide to the University (a) complete drafts of all required reports with respect to the Utility System portion of the Campus-Wide Permits for the University to review and Approve at least 15 Business Days prior to the deadline to submit such reports, (b) any information regarding utility operations required for reports related to the Campus-Wide Permits by the later of (1) 10 Days after the end of the applicable reporting period and (2) (A) 30 Days prior to the applicable submission deadline or (B) 10 Days after a University request not related to a submission deadline, (c) information to be submitted in connection with the renewal of the regulatory permits or any portion thereof within the time period reasonably established by the University and (d) applications for new permits or modifications to any Campus-Wide Permit for review and Approval at least 30 Days prior to submission to a regulatory agency; and (v) the Parties shall reasonably cooperate with each other in connection with any matters relating to the Campus-Wide Permits. The Concessionaire shall comply with all Campus-Wide Permits to the extent applicable to the Utility System or Utility System Operations, provided that the Concessionaire shall not be responsible for ensuring

NAI-1536325012v1 1536325012v21

BAHR

TAB 2 Page 121
compliance with the storm water permit for the municipal separate storm sewer system on the University Campus issued by the U.S. Environmental Protection Agency (“EPA”) (as may be extended, renewed, modified or replaced) to the extent related to Utility System Operations performed outside of the Utility Facilities or Utility System Land.

Section 11.14. Financial and Audit Standards. The Concessionaire shall comply, and its financial statements shall be prepared in accordance, with GAAP or IFRS, provided that if such financial statements are prepared in accordance with IFRS, such financial statements shall include a reconciliation statement setting forth any material discrepancies between IFRS and GAAP reporting with respect to the subject matter thereof.

Section 11.15. University Payments. All financial obligations of the University under this Agreement are payable solely from the then-current revenues of the University legally available for such purpose and the Concessionaire shall have no right to receive payment from moneys raised by taxation or state appropriations. The failure of the University to comply with its financial obligations hereunder shall not preclude the Concessionaire from bringing a claim therefor pursuant to the express provisions hereof.

ARTICLE 12
PAYMENT OBLIGATIONS

Section 12.1. Certain Payment Obligations of the Concessionaire. To the extent permitted by Law, the Concessionaire shall have a payment obligation to the University and each of its Representatives with respect to the full amount of any Losses actually suffered or incurred (as they are suffered or incurred) by the University or any such Representative, based upon, arising out of, related to, occasioned by or attributable to (i) any failure by the Concessionaire, the Operator or each of their respective Representatives to comply with, observe or perform any of the covenants, obligations, agreements, terms or conditions in this Agreement or, subject to the expiration of the survival period specified in Section 9.4(b), any breach by the Concessionaire of its representations or warranties set forth herein, (ii) any Assumed Liabilities, (iii) any Tax or recording charge attributable to any Transfer of the Concessionaire Interest or any part thereof by the Concessionaire, (iv) any increase in Property Taxes payable by the University that is not included in the definition of Uncapped O&M Costs, or (v) any claim for brokerage commissions, fees or other compensation by any Person who acted on behalf of the Concessionaire or its Representatives in connection with this Agreement, any Transfer of the Concessionaire Interest or any part thereof or any other matter affecting the Utility System; provided, however, that, except with respect to Claims resulting from Third Party Claims, subject to Section 12.5 Claims shall be made in writing within a period of 3 Years following the expiration of the Term or earlier termination of this Agreement or within such shorter period as may be prescribed by the applicable statute of limitations. The Parties agree that the Representatives of the University are intended to be third party beneficiaries of the obligations of the Concessionaire pursuant to this Article 12.

Section 12.2. Certain Payment Obligations of the University. To the extent permitted by Law, and without limiting any other remedy under this Agreement (including Concession Compensation or AA-Compensation as provided in this Agreement) the University shall have a payment obligation to the Concessionaire and each of its Representatives with
respect to any Losses actually suffered or incurred by the Concessionaire or any such
Representative, based upon, arising out of, related to, occasioned by or attributable to (i) any
failure by the University or any of its employees, officers or agents (collectively, the “University
Responsible Parties”) to comply with, observe or perform any of the covenants, obligations,
agreements, terms or conditions in this Agreement or, subject to the expiration of the relevant
survival period specified in Section 9.4(a), any breach by the University of its representations or
warranties set forth herein, (ii) any Excluded Liabilities, (iii) any claim for brokerage
commissions, fees or other compensation by any Person who acted on behalf of the University or
any University Responsible Party in connection with this Agreement or any other matter
affecting the Utility System or (iv) any payment of Property Taxes with respect to the Utility
System that are not the result of the actions or omissions of the Concessionaire and therefore not
paid to the Concessionaire as Uncapped O&M Costs; provided, however, that, except with
respect to Claims resulting from Third Party Claims, subject to Section 12.5, Claims are made in
writing within a period of 3 Years following the expiration of the Term or earlier termination of
this Agreement or within such shorter period as may be prescribed by the applicable statute of
limitations. The Parties agree that the Representatives of the Concessionaire are intended to be
third party beneficiaries of the obligations of University pursuant to this Article 12.

Section 12.3. Agency for Representatives. Each of the University and the
Concessionaire agrees that it accepts each payment obligation contemplated in this Article 12 in
favor of any of its Representatives as agent and trustee of that Representative and agrees that
each of the University and the Concessionaire may enforce a payment obligation in favor of its
Representatives on behalf of that Representative. For purposes of this Section 12.3, the term
“Representative”, in the case of the Concessionaire, includes the Leasehold Mortgagee.

Section 12.4. Third Party Claims.

(a) Notice of Third Party Claim. If an Obligee receives notice of the
commencement or assertion of any Third Party Claim, the Obligee shall give the
Obligor reasonably prompt notice thereof, but in any event no later than 30 Days
after receipt of such notice of such Third Party Claim. Such notice to the
Obligor shall describe the Third Party Claim in reasonable detail (and include a
copy of any complaint or related documents) and shall indicate, if reasonably
practicable, the estimated amount of the Loss that has been or may be sustained
by the Obligee.

(b) Defense of Third Party Claim. The Obligor may participate in or assume the
defense of any Third Party Claim by giving notice to that effect to the Obligee
not later than 30 Days after receiving notice of that Third Party Claim (the
“Notice Period”). The Obligor’s right to do so shall be subject to the rights of
any insurer or other Party who has potential responsibility with respect to that
Third Party Claim. The Obligor agrees to pay all of its own expenses of
participating in or assuming each defense. The Obligee shall cooperate in good
faith in the defense of each Third Party Claim, even if the defense has been
assumed by the Obligor and may participate in such defense assisted by counsel
of its own choice at its own expense. If the Obligee has not received notice
within the Notice Period that the Obligor has elected to assume the defense of
such Third Party Claim, the Obligee may assume such defense, assisted by counsel of its own choosing and the Obligor shall be responsible for all reasonable costs and expenses paid or incurred in connection therewith and any Loss suffered or incurred by the Obligee with respect to such Third Party Claim.

(c) **Assistance for Third Party Claims.** The Obligor and the Obligee will use all reasonable efforts to make available to the Party which is undertaking and controlling the defense of any Third Party Claim (the “Defending Party”), (i) those employees whose assistance, testimony and presence is necessary to assist the Defending Party in evaluating and in defending any Third Party Claim, and (ii) all Documents, records and other materials in the possession of such Party reasonably required by the Defending Party for its use in defending any Third Party Claim, and shall otherwise co-operate with the Defending Party. The Obligor shall be responsible for all reasonable expenses associated with making such Documents, records and materials available and for all expenses of any employees made available by the Obligee to the Obligor hereunder, which expense shall not exceed the actual cost to the Obligee associated with such employees.

(d) **Settlement of Third Party Claims.** If an Obligor elects to assume the defense of any Third Party Claim in accordance with Section 12.4(b), the Obligor shall not be responsible for any legal expenses subsequently incurred by the Obligee in connection with the defense of such Third Party Claim. However, if the Obligor fails to take reasonable steps necessary to defend diligently such Third Party Claim within 30 Days after receiving notice from the Obligee that the Obligee believes on reasonable grounds that the Obligor has failed to take such steps, the Obligee may, at its option, elect to assume the defense of and to compromise or settle the Third Party Claim assisted by counsel of its own choosing and the Obligor shall be responsible for all reasonable costs and expenses paid or incurred in connection therewith. However, the Obligee shall not settle or compromise any Third Party Claim without obtaining the prior written consent of the Obligor unless such settlement or compromise is made without any responsibility to, and does not require any action on the part of, the Obligor and does not in any way affect the Obligor. In the event that the Obligee is the University, in no event may the Obligor settle or compromise any Third Party Claim without obtaining the prior written consent of the Obligee.

Section 12.5. Direct Claims. Any Direct Claim shall be asserted by giving the Obligor reasonably prompt notice thereof, but in any event not later than 60 Days after the Obligee becomes aware of such Direct Claim. The Obligor shall then have a period of 30 Days within which to respond in writing to such Direct Claim. If the Obligor does not so respond within such 30-Day period, the Obligor shall be deemed to have rejected such Direct Claim, and in such event the Obligee may submit such Direct Claim to the dispute resolution process set forth in Article 18.

Section 12.6. Failure to Give Timely Notice. A failure to give timely notice in accordance with this Article 12 shall not affect the rights or obligations of any Party except and
only to the extent that, as a result of such failure, a Party which was entitled to receive such notice was deprived of its right to recover any payment under its applicable insurance coverage or was otherwise directly and materially damaged as a result of such failure. However, this Section 12.6 shall have no effect whatsoever on the survival provisions set out in Section 9.4 and the rights of the Parties with respect thereto.

Section 12.7. Reductions and Subrogation. If the amount of any Loss incurred by an Obligee at any time subsequent to the making of a payment hereunder on account of such Losses (an "Obligation Payment") is reduced by any recovery, settlement or otherwise under or pursuant to any insurance coverage, or pursuant to any claim, recovery, settlement or payment by or against any other Person, the amount of such reduction (less any costs, expenses (including Taxes) or premiums incurred in connection therewith), together with interest thereon from the date of such recovery, settlement or reduction at the Bank Rate, shall promptly be repaid by the Obligee to the Obligor. Upon making a full Obligation Payment, the Obligor shall, to the extent of such Obligation Payment, be subrogated to all rights of the Obligee against any third party in respect of the Loss to which the Obligation Payment relates. Until the Obligee recovers full payment of its Loss, any and all claims of the Obligor against any such third party on account of such Obligation Payment shall be postponed and subordinated in right of payment to the Obligee’s rights against such third party.

Section 12.8. Payment and Interest. All amounts to be paid by an Obligor hereunder, not including deductibles or self-insured retentions or insurance proceeds, shall bear interest at a rate per annum equal to the Bank Rate, calculated annually and payable monthly, both before and after judgment, from the date that the Obligee disbursed funds, suffered damages or losses or incurred a loss or expense in respect of a Loss for which the Obligor is responsible to make payment pursuant to this Article 12, to the date of payment by the Obligor to the Obligee.

Section 12.9. Limitation on Certain Claims. To the extent permitted by Law and without limiting any other remedy under this Agreement (including Concession Compensation, AA-Compensation or KPI Compensation as provided in this Agreement), the maximum aggregate liability of the University to the Concessionaire or its Representatives, in respect of Losses pursuant to this Article 12 shall not exceed 50% of the Closing Consideration; provided further that this Section 12.9 shall not apply to Claims for: (i) breach of the representations or warranties in Sections 9.1(a), (b), (c), (d), (e), (f), (g), and (j); (ii) fraud, intentional misrepresentation or intentional breach of the representations or warranties in Section 9.1; (iii) for any Excluded Liabilities referred to in Section 3.2(d)(iii)(2); (iv) payment of the Utility System Concession Value; and (v) payment of the Utility Fee. To the extent permitted by Law and without limiting any other remedy under this Agreement, the maximum aggregate liability of the Concessionaire to the University and its Representatives, in respect of Losses pursuant to this Article 12 shall not exceed 50% of the Closing Consideration; provided further that this Section 12.9 shall not apply to Claims for fraud, intentional misrepresentation or intentional breach of the representations or warranties in Section 9.2(a), (b), (c), (d), (e), (f), (g) and (j) or Section 12.1(iv) or to Claims for fraud, intentional misrepresentation or intentional breach of the representations or warranties in Section 9.2. Neither Party shall have any liability to the other Party or its Representatives for Losses to the extent resulting from fraudulent actions or gross negligence of the other Party or its Representatives (or University Responsible Parties in the case of the University).
Section 12.10. Other Matters

(a) Waiver of Limits. With respect to claims by the Concessionaire’s employees, the Concessionaire waives its immunity, if any, to which it is entitled or would be entitled, as a complying employer under the applicable worker’s compensation law, but only to the extent that such immunity would bar or affect recovery under or enforcement of Concessionaire’s obligations to defend, indemnify, hold harmless or contribute to any sums due under any Losses.

(b) Losses Net of Insurance. For purposes of this Article 12, the amount of any Losses for which payment is provided hereunder shall be net of any amounts recovered by the Obligee under insurance policies with respect to such Losses, it being understood that the obligations of the Obligee hereunder shall not be so reduced to the extent that any such recovery results in an increase in the Obligee’s insurance premiums, or results in any other additional cost or expense to any such Obligee.

Section 12.11. Offset Rights; Limitations on Certain Damages

(a) Each Party’s obligations under this Agreement are subject to, and each Party shall have the benefit of, all defenses, counterclaims, rights of offset or recoupment or other claims and rights, including the right to deduct payments due to the other Party hereunder that are not subject to dispute (collectively, “Offsets”) which such Party may have at any time against such other Party (or any of their respective successors and assigns) or any transferee or assignee of any such other Party’s rights as against such Party or any part thereof or interest therein contingent or otherwise, and no transfer or assignment of this Agreement or any other obligation of such other Party, or of any rights in respect thereof, pursuant to any plan of reorganization or liquidation or otherwise shall affect or impair the availability to each Party of the Offsets.

(b) In no event shall any Party be liable to the other Party under this Agreement for consequential, indirect, exemplary or punitive damages (except for claims for fraud or for intentional misrepresentation or intentional breach).

Section 12.12. Governmental Immunity. Notwithstanding anything herein to the contrary, the Parties acknowledge and agree that the University and its officers, employees, and agents are relying on, and do not waive or intend to waive by any provision of this Agreement, the monetary limitations or any other rights, immunities, and protections provided by the Idaho Tort Claims Act, Idaho Code Section 6-901 et seq., or otherwise available to the University and its officers, employees, and agents.

Section 12.13. Survival. This Article 12 shall remain in full force and effect in all circumstances and shall not be terminated by any breach (fundamental, negligent or otherwise) by any Party of its representations, warranties or covenants hereunder or by any termination or rescission of this Agreement by any Party.
ARTICLE 13
INSURANCE

Section 13.1. Insurance Coverage Required – Concessionaire. The Concessionaire shall provide and maintain at the Concessionaire’s own expense, or cause to be maintained, during the Term and during any time period following expiration if the Concessionaire is required to return and perform any additional work, commercially reasonable insurance coverage in accordance with Prudent Industry Practices, including, at a minimum, the insurance coverages and requirements specified below, insuring the Utility System and all Utility System Operations (the “Concessionaire Required Coverages”). For the avoidance of doubt, Concessionaire Required Coverages may be provided and maintained as part of a corporate insurance program of a direct or indirect holder of equity in the Concessionaire and each of the insurance coverage limits set out in Section 13.1(b), Section 13.1(c) and Section 13.1(d) may be achieved through a combination of primary, excess and/or umbrella coverage.

(a) Workers’ Compensation and Employer’s Liability. The Concessionaire shall provide or cause to be provided Workers’ Compensation Insurance, to cover liability imposed by Federal and State statutes having jurisdiction over the Concessionaire’s employees engaged in the performance of this Agreement and Employer’s Liability Insurance coverage with limits of not less than $1,000,000 each employee and $1,000,000 for each accident.

(b) Commercial General Liability. The Concessionaire shall provide or cause to be provided Commercial General Liability Insurance or equivalent with limits of not less than $1,000,000 per occurrence and $2,000,000 in the annual aggregate. Coverage shall include the following: bodily injury and property damage including personal injury, coverage for contractual employees (excluding any employees of the University), all premises and operations, including blanket contractual and products/completed operations, explosion, collapse, mobile equipment not suitable for roadways, underground, separation of insureds, and liability assumed under an insured contract and shall be written on ISO form CG 00 01 04 13 or its equivalent.

(c) Commercial Automobile Liability. When any motor vehicles (owned, non-owned or hired) are used in connection with work to be performed, the Concessionaire shall provide or cause to be provided Commercial Automobile Liability Insurance with limits of not less than $1,000,000 combined single limit each accident for bodily injury and property damage. The policy shall be endorsed with CA 99 48 and MCS 90 (or their equivalents), if such exposure exists.

(d) Umbrella Liability. The Concessionaire shall provide or cause to be provided follow form Umbrella Liability Insurance with a minimum limit of $50,000,000 per occurrence and shall apply in excess of the coverages for the Concessionaire Required Coverages set forth in Section 13.1(a), Section 13.1(b) and Section 13.1(c)). In the event that such Umbrella Liability Insurance applies in excess of the coverages for the Concessionaire Required Coverage in Section 13.1(e), then
the minimum limit for the Concessionaire Required Coverage in Section 13.1(e) shall be $12,000,000 rather than $15,000,00, and in the event that such Umbrella Liability Insurance applies in excess of the coverages for the Concessionaire Required Coverage in Section 13.1(g), then the minimum aggregate limit for the Concessionaire Required Coverage in Section 13.1(g) shall be $10,000,00 rather than $15,000,000.

(e) **Professional Liability.** When any architects, engineers, construction managers, professional services providers or any other professional consultants perform work in connection with this Agreement, the Concessionaire shall maintain or require such architects, engineers, construction managers or other professional consultants to maintain Professional Liability Insurance, with limits not less than $15,000,000 per claim and in the aggregate or such other limit (whether lower or higher) as the University and the Concessionaire may agree (each, acting reasonably) with respect to such policy for a particular Capital Improvement or Material Change, which other limit shall be included as part of the Approval of such Capital Improvement or Material Change in accordance with Section 4.3. The policy shall include: contingent bodily injury liability, rectification and punitive damages. The faulty workmanship exclusion should be modified to cover losses arising out of professional services. Should the Concessionaire self-perform any work of the nature noted in this Section 13.1(e), evidence of Professional Liability Insurance meeting the standards for such work set forth above shall be required.

(f) **Network Security and Privacy Insurance.** The Concessionaire shall also maintain Cyber Liability Insurance for network security and privacy with limits of not less than $10,000,000 per claim and in the aggregate inclusive of cybersecurity event management. When policies are renewed or replaced, the policy retroactive date shall coincide with, or precede, start of work in connection with this Agreement.

(g) **Pollution Legal Liability.** The Concessionaire shall provide Pollution Legal Liability Insurance or Site Pollution Insurance or cause to be provided Pollution Legal Liability Insurance or Site Pollution Insurance or equivalent, in each case with limits of not less than $10,000,000 per incident and $15,000,000 in the aggregate during any 3 year period for environmental and pollution damage liability arising out of pollution events occurring after the Closing Date.

(h) **Property.** The Concessionaire shall obtain All Risk Property Insurance at full replacement cost, covering all loss, damage or destruction to the Utility System (including improvements and betterments and excluding any building in which the Shared Spaces are located), which insurance may be provided on a blanket basis with reported building values, which shall include the value of the coverage for the Utility System; provided, however, that the limits of such coverage may be based on replacement cost value agreed by the University and the Concessionaire acting reasonably or on a probable maximum loss analysis, subject to the University’s Approval of such probable maximum loss analysis by an independent third party that is reasonably acceptable to the University.
Coverage shall include the following, but not be limited to: equipment breakdown, collapse, water including overflow, leakage, sewer backup or seepage, utility interruption, debris removal, business ordinance or law for increased cost of construction, extra expense, boiler and machinery, valuable papers and, to the extent commercially available, earthquake and named wind. Coverage shall include flood insurance with a sublimit of not less than $10,000,000 in the aggregate. The University and any Leasehold Mortgagee shall be named as additional insureds and as loss payees. The Concessionaire shall be responsible for any loss or damage to University property caused by the Concessionaire or its Representatives at full replacement cost, except to the extent such loss or damage is covered by the insurance described in Section 13.2(c), in which case the Concessionaire shall be responsible for the deductible only in accordance with Section 13.2(c).

(i) **Builder’s Risk.** When the Concessionaire undertakes, pursuant to this Agreement, any construction, maintenance or repairs to the Utility System (including Capital Improvements, Material Changes and betterments), the Concessionaire shall provide or cause to be provided, All Builder’s Risk Insurance at replacement cost for materials, supplies, equipment, machinery and fixtures that are or will be part of the Utility System. Coverage shall include, but not be limited to, the following: right to partial occupancy, boiler and machinery, business income, valuable papers and other consequential loss, when applicable with aggregate sub-limits for catastrophic perils of earthquake, flood and named wind which are the best available on commercially reasonable terms. The Concessionaire and any Leasehold Mortgagee may be named as additional insured and as loss payees.

**Section 13.2. Insurance Coverage Required – University.** The University shall provide and maintain at the University’s own expense, or cause to be maintained, during the Term and during any time period following expiration if the Concessionaire is required to return and perform any additional work, the following insurance coverages and requirements specified below (the “University Required Coverages” together with the Concessionaire Required Coverages, the “Required Coverages”).

(a) **Workers’ Compensation.** The University shall provide or cause to be provided Workers’ Compensation coverage, as prescribed by applicable Law, covering all University employees who agree to provide a service under this Agreement.

(b) **University Liability Coverage.** The University’s liability coverage is self-funded and administered by the State of Idaho Risk Management Program. The University’s liability is subject to the limitations in the Idaho Tort Claims Act, Idaho Code, §§ 6-901 – 6-929, for liability covered by the Idaho Tort Claims Act. The total liability for any one occurrence or accident under the Idaho Tort Claims Act and State of Idaho Risk Management Program is $500,000. **The Concessionaire shall be included as an additional interest under this coverage.** Additionally, the University is covered for data
loss or breach through a policy maintained by the Idaho Office of Insurance Management.

(c) **Property.** The University shall obtain All Risk Property Insurance at full replacement cost, covering all loss, damage or destruction to the University’s owned property (other than any property leased to the Concessionaire hereunder), including improvements and betterments and the buildings in which the Shared Spaces are located, which insurance may be provided on a blanket basis with reported building values, which shall include the value of the coverage for the University’s owned property required hereunder; provided, however, that the limits of such coverage may be based on replacement cost value. Coverage shall include the following: equipment breakdown, collapse, water including overflow, leakage, sewer backup or seepage, utility interruption, debris removal, business ordinance or law for increased cost of construction, extra expense, boiler and machinery, valuable papers and, to the extent commercially available, earthquake and named wind. Coverage shall include flood insurance with limits which are commercially available. The Concessionaire shall be responsible for the property deductible payable by the University and/or the State of Idaho for any loss or damage to University property caused by the Concessionaire or its Representatives.

**Section 13.3. Additional Requirements.**

(a) **Evidence of Insurance.** The Parties shall deliver or cause to be delivered to each other’s Representative designated in writing by each Party, original standard ACCORD form Certificates of Insurance, or equivalent documentation acceptable to the Parties, evidencing the Concessionaire Required Coverages or University Required Coverages, as applicable, on or before the Closing Date, and shall provide or cause to be provided, promptly following renewal and not more than 30 Business Days following renewal of the then current coverages (or such other period as is agreed to by the Parties), Renewal Certificates of Insurance, or such similar evidence, if such coverages have an expiration or renewal date occurring during the Term. The receipt of any certificate does not constitute agreement by the receiving party that the insurance requirements in this Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all requirements of this Agreement. The failure of either Party to obtain certificates or other insurance evidence from the other Party shall not be deemed to be a waiver by such Party. Non-conforming insurance shall not relieve either Party of the obligation to provide insurance as specified herein.

(b) **Notice of Cancellation or Violation.** Each Party shall notify the other Party in writing 30 Days (or in the case of cancellation for non-payment of premiums, 10 Days) prior to cancellation, non-renewal or any material change of any University Required Coverages (in the case of the University) or Concessionaire Required Coverages (in the case of the Concessionaire). Without limiting Section 13.3(g), the University shall be permitted (but not obligated) to pay any
delinquent premiums before the cancellation date specified by the insurer in any notice of cancellation for non-payment of premium in order to maintain such coverage in full force and effect and the Concessionaire shall reimburse the University for any delinquent premiums paid by the University on demand without any Days of grace and without prejudice to any other rights and remedies of the Parties hereunder.

(c) Deductibles. All deductibles or self-insured retentions for Concessionaire Required Coverages or Concessionaire Contractors in excess of $200,000 (Adjusted for Inflation annually starting from the Year in which the Closing occurred) shall not exceed amounts approved by the University in writing. Except as expressly provided herein, any and all deductibles or self-insured retentions on Required Coverages shall be borne by the purchasing Party or its Contractors, who shall be responsible for its own deductibles and/or self-insured retentions unless the Party is at fault for a loss to the other Party in which case the at fault party will pay the other Party’s deductible or self-retention.

(d) Post-Termination Effectiveness. The products/completed operations portion of the Concessionaire’s Commercial General Liability Insurance shall be continued for at least 5 years following the termination of this Agreement and evidence of such insurance shall be provided to the University at least annually.

(e) Adjustment of Insurance Coverages. The amounts of coverage required by Section 13.1 and Section 13.2 shall be reasonably adjusted, as agreed by the University and the Concessionaire, based on limits maintained for comparable property each succeeding fifth anniversary of the Closing Date, but in no event shall the amounts of coverage be less than specified in Section 13.1 and Section 13.2.

(f) Waiver of Subrogation. Each of the Required Coverages provided by either Party (other than those set forth in Section 13.2(a) and Section 13.2(b)) shall, where legally or customarily permitted, include a waiver by the insurer of its rights of subrogation against the other, its employees, elected officials, agents or Representatives (and, in the case of the Concessionaire Required Coverages, against the State of Idaho; the University, their agents, officials, and employees. Concessionaire shall cause each of its Contractors to waive all their rights of subrogation against the State of Idaho; the University, their agents, officials, and employees.

(g) University’s Right to Insure. Without limiting Section 13.3(b), if the Concessionaire fails to obtain and maintain or cause to be obtained and maintained the Concessionaire Required Coverage in accordance with this Article 13, the University shall have the right (without any obligation to do so), upon 2 Business Days’ notice to the Concessionaire in a non-emergency situation or forthwith in an emergency situation and without assuming any obligation in connection therewith, to effect such insurance and all costs and expenses in connection therewith shall be payable by the Concessionaire on
demand without any Days of grace and without prejudice to any other rights and remedies of the University hereunder. Such insurance taken out by the University shall not relieve the Concessionaire of its obligations to insure hereunder and the University shall not be liable for any loss or damage suffered by the Concessionaire in connection therewith.

(h) **No Limitation as to Concessionaire Liabilities.** The Concessionaire expressly understands and agrees that any coverages and limits furnished by the Concessionaire shall in no way limit the Concessionaire’s liabilities and responsibilities specified within this Agreement or by Law.

(i) **No Contribution by University.** The Concessionaire expressly understands and agrees that any insurance or self-insurance programs maintained by the University, State Risk or the State of Idaho shall not contribute with insurance actually provided by the Concessionaire under this Agreement.

(j) **Insurance Requirements of Contractors.** The Concessionaire shall require in each contract with any Contractor that such Contractor obtain coverages reasonably comparable to the Concessionaire Required Coverages that are reasonably appropriate in their limits and other terms and conditions, in each case to the nature of the contract with the Contractor. Such coverages shall insure the interests of the State of Idaho, the University, their agents, officials, and employees (provided that such agents, officials or employees shall not be included if not permitted by applicable Law or commercially available), the Concessionaire and any other Contractors in respect of the applicable work being performed and shall be subject to the same (or comparable) coverage and administrative requirements as are imposed on the Concessionaire pursuant to this Agreement, specifically requiring such Contractor to name the State of Idaho, the University, their agents, officials and employees as additional insured and requiring such Contractor’s insurance to include a waiver of subrogation as described in Section 13.3(f). When requested to do so by the University, the Concessionaire shall provide, or cause to be provided, to the University Certificates of Insurance with respect to such insurance coverages or such other evidence of insurance, as may be reasonably acceptable in form and content to the University.

(k) **Cooperation.** The University and the Concessionaire shall do all acts, matters and things as may be reasonably necessary or required to expedite the adjustment of any loss or damage covered by insurance hereunder so as to expedite the release and dedication of proceeds of such insurance in the manner and for the purposes herein contemplated.

(l) **Joint Venture and Limited Liability Company Policies.** If the Concessionaire or any Contractor required to obtain an insurance policy hereunder is a joint venture or limited liability company, all insurance policies required to be obtained by the Concessionaire or such Contractor shall specifically name the joint venture or limited liability company as a named insured. If the
Concessionaire contracts operations to a third party, the Concessionaire will be
an additional insured on any liability policy.

(m) **Other Insurance Obtained by Concessionaire.** If the Concessionaire or its
Contractors desire coverages in addition to the Concessionaire Required
Coverages, the Concessionaire and each Contractor shall be responsible for the
acquisition and cost of such additional coverages. If the Concessionaire or its
Contractors obtain any property, liability or other insurance coverages that will
relate to the Utility System or the Utility System Operations in addition to the
Concessionaire Required Coverages (“Additional Coverages”), then the
Concessionaire or its Contractors shall (i) notify the University as to such
Additional Coverages at least 10 Business Days in advance of purchasing such
Additional Coverages and make such modifications as the University may
reasonably require so that such Additional Coverage does not conflict with the
University’s insurance coverages, (ii) provide the University with any
documentation relating to the Additional Coverages, including Certificates of
Insurance, that the University reasonably requests, and (iii) at the University’s
election, acting reasonably, cause the State of Idaho, the University, their agents,
officials and employees, to be named as additional insureds under such
Additional Coverages, if that is normally allowed in accordance with good
industry practice.

(n) **University’s Right to Modify.** The University shall have the right, acting
reasonably, to request to modify, delete, alter or change insurance coverage
requirements set forth in Section 13.1 and this Section 13.3. Notwithstanding
anything to the contrary herein, (i) any change to the types or limits of
contractually required insurance coverage shall be subject to mutual agreement
of the Parties, each acting reasonably, and (ii) if any insurance (including the
limits or deductibles thereof) required to be maintained under this Agreement
shall not be available at commercially reasonable rates, the Concessionaire’s
obligation to obtain or maintain such insurance shall be waived by the University
for as long as such insurance shall not be available at commercially reasonable
rates, provided that during the period of such waiver, the Concessionaire
maintains the maximum amount of such insurance otherwise available at
commercially reasonable rates.

(o) **Commercial Availability.** To the extent any of the Required Coverages are not
available on a commercially reasonable basis (including, without limitation, not
available at a commercially reasonable cost) or on commercially reasonable
terms, the obligation of the Party responsible for obtaining such Required
Coverage is waived and such Party shall obtain insurance that is available on a
commercially reasonable basis or on commercially reasonable terms that best
approximates the applicable Required Coverages, subject to Section 13.3(u), but
said substitute coverage shall, at the other Party’s request, be subject to review of
an independent insurance consultant, and such independent insurance consultant
shall have delivered to the University and the Concessionaire its opinion to the
effect that the substitute coverages meet the above-stated criteria. To the extent
the University disagrees with the Concessionaire’s determination that the Concessionaire Required Coverages, including Required Property Insurance, for all or a portion of the Utility System is not commercially available in accordance with Section 13.3(o), then such disagreement shall be resolved in accordance with Article 18. For any Fiscal Year that the Concessionaire reasonably determines that such Concessionaire Required Coverages may not be commercially available, the Concessionaire agrees that it shall undertake diligent, good faith, commercially reasonable efforts to procure the Concessionaire Required Coverages, including Required Property Insurance, provided that the Concessionaire shall not be required to seek such coverage in the insurance market more than once per Fiscal Year if it reasonably determines that seeking coverage more than once per Fiscal Year would be detrimental to the Concessionaire’s ability to seek coverage in future Fiscal Years.

(p) **Endorsements.** All Concessionaire Required Coverages (except for the professional liability, workers’ compensation and employer’s liability policies) shall be endorsed to include the State of Idaho, the University, their agents, officials, and employees as additional insureds, in each case to the extent permitted by Law and commercially available. For the avoidance of doubt, Blanket Additional Insured endorsements that provide coverage “where required by contract” shall be acceptable for this purpose.

(q) **Concessionaire Required Coverage Requirements.** All Concessionaire Required Coverages and the University’s All Risk Property Insurance described in Section 13.2(c) shall be issued by reputable insurance companies duly authorized to engage in the insurance business in the State of Idaho, with an A.M. Best’s rating of A-, VII or better; be primary noncontributory coverage and contain severability of interests provisions.

(r) **Defense of Coverage Outside Limits of Liability.** All Concessionaire Required Coverages shall include defense coverage outside the limits of liability, except for the Professional Liability Insurance required to be carried by the Concessionaire.

(s) **Requirements for Concessionaire Required Coverages for Liability Policies.** All Concessionaire Required Coverages that are liability policies shall be occurrence-based, except where not commercially available, in which case they shall be on a claims-made basis, provided that such policies shall extend for a period of 5 years after the expiration or earlier termination of this Agreement, which obligation shall survive the expiration or earlier termination of this Agreement.

(t) **Payment for Insurance Coverage.** To the extent that the University and the Concessionaire determine that it would be in the best interests of both Parties for any of the Concessionaire Required Coverages to be purchased by and held in the name of the University, then the University shall be responsible for purchasing those certain Concessionaire Required Coverages, which shall satisfy
the Concessionaire’s obligation to do so hereunder. The University shall name the Concessionaire and the Leasehold Mortgagee as additional insureds thereunder.

(i) **Commercial Unavailability of Required Property Insurance.**

The Concessionaire shall, as part of the first draft of each Five-Year Plan delivered to the University in accordance with Section 7.2, indicate if the property insurance for the Utility System described in Section 13.1(h) (the “Required Property Insurance”) may not be commercially available as described in Section 13.3(o) for some or all of the Utility System as required hereunder and identify with reasonable detail the portions of the Utility System for which it believes the Required Property Insurance may not be commercially available for the upcoming Fiscal Year. The Concessionaire shall, in connection with such first draft of each Five-Year Plan, for all then in-force Required Property Insurance that is set to expire during the next Fiscal Year, provide to the University in writing a reasonably detailed status report of the Concessionaire’s efforts that it has taken and expects to undertake, to renew such Required Property Insurance and the result of such efforts it reasonably expects in procuring such renewal.

(ii) If the Parties agree that any Required Property Insurance is, or is going to be, commercially unavailable for a Fiscal Year in accordance with Section 13.3(o), then, promptly after such determination, the University and the Concessionaire shall reasonably cooperate in good faith on determining alternative methods of providing the Required Property Insurance, including by means of the University or State Risk providing such insurance or the University retaining the risk of damage for some portions of the Utility System at the Concessionaire’s cost, not to be recovered as Capped O&M Costs or otherwise reimbursed or paid by the University. To the extent that State Risk provides any of the Required Property Insurance, the premium shall be in the amount of the Valuation Amount of Applicable Utility System Property multiplied by a certain rate as determined by State Risk, which for the avoidance of doubt is expected to be consistent with the cost being charged by State Risk to the University for property insurance that is not the Utility System. For the avoidance of doubt, the Valuation Amount of Applicable Utility System Property shall not be subject to dispute resolution in accordance herewith, but to the extent such Valuation Amount of Applicable Utility System Property changes by more than 10% in any Fiscal Year (without a corresponding change in the property covered thereby), the University shall reasonably cooperate, at no out-of-pocket cost to the University, to comply with State Risk’s procedures, if any, available to request a reconsideration of such determination.
(iii) If, at the start of the applicable Fiscal Year, there is Uninsured Utility System Property, the Concessionaire shall, prior to the start of the applicable Fiscal Year, deliver notice to the University itemizing in reasonable detail all portions of the Utility System that are Uninsured Utility System Property, which shall be subject to verification and dispute by the University pursuant to Article 18, but otherwise shall be conclusive as against the Concessionaire for the Uninsured Utility System Property during such Fiscal Year provided that the University may within 30 Days after receipt of such notice, deliver notice to the Concessionaire that the University is excluding some or all of such portion of the Utility System from the definition of Uninsured Utility System Property for that Fiscal Year, in which case if a casualty event were to occur and affect such property, such casualty would be classified as a Concessionaire Retained Casualty. At the start of any Fiscal Year where there is Uninsured Utility System Property, the Concessionaire shall pay the University an amount equal to $0.1885 per every $100 of the Valuation Amount of Applicable Utility System Property for the relevant Uninsured Utility System Property for that Fiscal Year (such rate, the “URRAP Rate”), payable in equal monthly installments at the start of each month, provided, however, that such amount shall never be less than $30,000 (such minimum amount, the “URRAP Floor” and such actual amount, the “University Retained Risk Annual Payment”), to compensate the University for the fact that there is Uninsured Utility System Property, provided that, if at any point during such Fiscal Year, the Concessionaire procures the Required Property Insurance such that there is no Uninsured Utility System Property, then no further University Retained Risk Annual Payment shall be payable for the remainder of the Fiscal Year while there is no Uninsured Utility System Property. Notwithstanding the foregoing, (x) the University, in its reasonable discretion and in good faith, shall have the right to adjust the URRAP Floor each applicable Fiscal Year, taking into consideration its anticipated administrative and legal costs associated with the Uninsured Utility System Property, provided that, in no event may the increase from the previous Fiscal Year exceed 100% for the URRAP Floor, (y) the URRAP Rate may be adjusted each applicable Fiscal Year by the University’s actuary, acting in good faith, and (z) if (A) the University Retained Risk Annual Payment increases by more than 25% from the preceding Fiscal Year’s University Retained Risk Annual Payment (Adjusted for Inflation) or (B) the Concessionaire obtains an independent valuation of the uninsured assets which is 25% less than the Valuation Amount of Applicable Utility System Property for the relevant Uninsured Utility System Property for that Fiscal Year, then by written notice to the University, the Concessionaire may elect not to pay the University Retained Risk Payment for such Fiscal Year and therefore, if a casualty event were to occur and affect such property, such casualty would be classified as a Concessionaire Retained Casualty.
Section 13.4. Damage and Destruction.

(a) **Notification: Emergent and Estimate Obligations of Concessionaire.** If all or any part of any of the Utility System shall be destroyed or damaged during the Term in whole or in part by fire or other casualty of any kind or nature (including any casualty for which insurance was not obtained or obtainable with respect to Uninsured Utility System Property), ordinary or extraordinary, foreseen or unforeseen, the Concessionaire shall then:

(i) the Concessionaire shall give the University notice thereof promptly after the Concessionaire receives actual notice of such casualty and shall undertake such steps as reasonably necessary to address any Emergency caused thereby;

(ii) the Concessionaire shall, within thirty (30) Days after such casualty, provide to the University (A) its determination as to whether such casualty is (1) a Concessionaire Retained Casualty, (2) a State Risk Retained Casualty or (3) a University Retained Casualty and (B) its reasonable, good faith estimate based on a report provided by a licensed general contractor, architect, or engineer of the estimated cost of repairs, alterations, restorations, replacement and building to restore the part of the Utility System damaged or destroyed as a result of such casualty to its pre-loss condition, including (w) quotations and estimates from third party Contractors, (x) the timeframe for completion of the Restoration, (y) for a State Risk Retained Casualty or a University Retained Casualty only, any profit projected to be earned by the Operator or any other Contractor of the University, the Concessionaire, or the Operator that is responsible for such Restoration in whole or in part (i.e., such amount that will be earned by the Operator or any other Contractors in excess of the amount necessary for the Operator or applicable Contractor to pay for the Restoration, including payroll, materials, and other similar expenses), and (z) the impact on Utility System Operations of not performing such Restoration (the “Casualty Cost” and such estimates, the “Casualty Cost Estimate”); provided that, to the extent that the University disagrees with the Concessionaire’s assessment of the type of casualty in accordance with clause (A) above or the Casualty Cost Estimate (with respect to a University Retained Casualty only), the University shall provide the Concessionaire with notice thereof within thirty (30) Days after its receipt of the Casualty Cost Estimate (or such longer time as determined by State Risk, notice of which longer timeframe shall be provided to the Concessionaire) and provided further that the Parties acknowledge that State Risk’s determination of whether a casualty is a State Risk Retained Casualty shall be binding on both Parties;

(iii) to the extent that the University disputes either the Casualty Cost Estimate or the classification of such casualty, in each case, in accordance with Section 13.4(a)(ii), then the University and the Concessionaire shall

NAI-1536325012v21
resolve such disagreement in accordance with Article 18, provided that if
the University does not Approve the Casualty Cost Estimate for a
University Retained Casualty, rather than submit a dispute to the process
described in Article 18, the University may perform, or cause a Contractor
to perform, the Restoration for such University Retained Casualty. In
such instance, the Concessionaire shall reasonably cooperate with the
University and Contractor in connection therewith, including by providing
access to the Utility System where reasonably necessary and, when such
Restoration is complete, accept that restored portion as part of the Utility
System in the same manner and subject to the same rights and obligations
as if it were an Ongoing Utility System Project, except that, for the
avoidance of doubt, (A) there shall be no Uncapped O&M Costs
associated therewith if such Restoration is a like for like replacement
without modification of the applicable Uninsured Utility System Property,
(B) the Concessionaire shall not be entitled to include any costs incurred
in connection with its obligations hereunder as a Capped O&M Cost or an
Uncapped O&M Cost and shall not otherwise be entitled for
reimbursement or payment from the University, and (C) the University
shall either (1) assign to the Concessionaire a warranty for any defects in
such Restoration that covers at least twelve (12) months after substantial
completion thereof or (2) consider as a Delay Event any defect in such
Restoration to the extent the Concessionaire provides notice thereof within
twelve (12) months after completion of such Restoration and such defect
is not caused by the use thereof by the Concessionaire or the Operator in a
manner inconsistent with manufacturer recommendations or requirements:

(iv) within thirty (30) Days after delivery of the Casualty Cost Estimate, the
University may also require that the Casualty Cost include modifications,
including as to location or configuration, as directed by the University,
provided (1) such modifications shall not materially and adversely affect
the Concessionaire’s ability to perform the Utility System Operations once
completed and (2) any such modifications shall not increase the portion of
the Casualty Cost Estimate borne by the Concessionaire unless such
modifications are (A) approved in writing by the party other than the
Concessionaire or the Operator responsible for its payment (State Risk or
the University) or (B) treated as a Capital Improvement; and

(v) in the event that the Concessionaire’s initial classification of a casualty is
later changed pursuant to this Section 13.4(a) for any reason or upon
mutual agreement of the Parties, the terms of this Section 13.4 shall apply
to such newly classified casualty as if such casualty occurred on the date
of such reclassification, except for with respect to the Casualty Cost
Estimate thereof and the determination of when a Delay Event occurred.

(b) Restoration Obligations of Concessionaire. Following Approval of the Casualty
Cost Estimate by the University, the Concessionaire shall:
(i) If the casualty is a Concessionaire Retained Casualty, the Concessionaire shall:

(iiA) at its sole cost and expense, whether or not insurance proceeds, if any, shall be equal to the estimated cost of repairs, alterations, restorations, replacement and rebuilding (the “Casualty Cost”) Estimate, which for the avoidance of doubt shall not be included in the Utility Fee, proceed diligently to repair, restore or rebuild the same to the condition existing prior to the happening of such fire or other casualty or with such modifications, including as to location or configuration, as directed by the University, provided such modifications shall not materially and adversely affect the Concessionaire’s ability to perform the Utility System Operations once completed and such cost shall be included in the Casualty Costs (any such activity being a “Restoration”); and provided that if there is an increase in Casualty Cost as a result of such University-directed modifications, the cost difference shall be the responsibility of, and reimbursed by, the University as either a Capital Improvement or as Uncapped O&M Costs; and

(iiB) deposit all insurance proceeds received by the Concessionaire in connection with any Restoration with the Depositary selected by the University pursuant to Section 13.4(b); provided, however, that if at any time the Casualty Cost exceeds the net insurance proceeds actually deposited with the Depositary, then the Concessionaire shall also deposit with the Depositary such cash as is sufficient to cover the difference between the Casualty Cost and the net insurance proceeds deposited pursuant to this Section 13.4(a)(ii) and Section 13.4(b) (the “Restoration Shortfall Amount”), except to the extent such difference is caused by the negligence or willful misconduct of, or violation of applicable Law by, the University or is the result of any modifications made by the University pursuant to Section 13.4(a)(ii) in which case the University shall be responsible to make such deposit (collectively, with any interest earned thereon, the “Restoration Funds”).

(ii) If the casualty is a State Risk Retained Casualty:

(A) The Concessionaire shall reasonably assist the University, as requested by the University, in the University’s presentation (and the preparation thereof) of the Casualty Cost Estimate to State Risk for State Risk’s review and approval, including by providing such additional information related to the Casualty Cost Estimate as requested by the University, provided that if State Risk initially rejects such Casualty Cost Estimate and State Risk agrees that the University may revise its submission, the Concessionaire will reasonably cooperate with the University to submit a revised Casualty Cost Estimate until such time as the Casualty Cost Estimate is approved by State Risk or until such time as the claim is rejected by State Risk, provided that, for the avoidance of
doubt, if State Risk or State Risk’s insurer reject any claim with respect to a State Risk Retained Casualty or State Risk determines that it is unwilling to submit a claim to State Risk’s insurer related to a State Risk Retained Casualty (but the casualty affects the portion of the Utility System that is an insured asset under State Risk’s insurance policy), then the Concessionaire shall be responsible for the costs of such Restoration and such casualty shall not become a University Retained Casualty, which for the avoidance of doubt shall not be included in the Utility Fee. In the event that any claim is either not submitted or rejected by State Risk or State Risk’s insurer, as applicable, the University shall use reasonable efforts, at no cost to the University, to provide the Concessionaire with the rationale for such decision by State Risk or State Risk’s insurer, provided that the University shall not be required to take any action that it reasonably and in good faith believes will harm its relationship with State Risk:

(B) The Concessionaire acknowledges that State Risk has the right to designate the Contractor that will perform any Restoration with respect to a State Risk Retained Casualty. If the Operator or any Contractor of the Concessionaire or the Operator is not selected to perform such Restoration, the Concessionaire agrees to reasonably cooperate with such Contractor and shall have the same rights and obligations with respect to such Restoration as it does with respect to an Ongoing Utility System Project. Without limiting the Concessionaire’s right to request additional funds under Section 13.4(b)(ii)(D) (but acknowledging the Concessionaire has no unilateral right thereto), if the Operator or any Contractor of the Concessionaire or the Operator is selected to perform such Restoration, the Concessionaire shall cause such Restoration to be performed and completed with diligence regardless of the amount of insurance proceeds received from State Risk (including any additional funds provided pursuant to Section 13.4(b)(ii)(D)), which for the avoidance of doubt shall not be included in the Utility Fee:

(C) Once the Casualty Cost Estimate for the State Risk Retained Casualty is approved by State Risk (or earlier as required by State Risk), the Concessionaire shall pay the deductible required by State Risk for a State Risk Retained Casualty which, as of the date of execution of this Agreement does not exceed $10,000:

(D) In the event that the University receives funds from State Risk in connection with a State Risk Retained Casualty and the Operator or any Contractor or the Concessionaire or the Operator is responsible for the Restoration, the University shall use those funds to pay the Concessionaire within thirty (30) Days after the later of (x) receipt of said funds from State Risk and (y) receipt by the University from the Concessionaire or the Operator of payment instructions for such funds, and in all instances such payment shall only occur after the deductible required by State Risk.
has been paid by the Concessionaire, provided that, to the extent the cost of the Restoration exceeds the amount State Risk provides therefor, the Concessionaire shall be liable to fund such overage, which may not be recovered as part of the Utility Fee. If, prior to final adjustment of the claim, the Concessionaire determines in good faith that the Casualty Cost Estimate is less than the cost estimated to perform the Restoration and the Operator or a Contractor of the Concessionaire or the Operator is responsible for the Restoration, then the Concessionaire may submit an additional Casualty Cost Estimate during the claims adjustment period and request that the University request an increase in funds based on the additional Casualty Cost Estimate from State Risk, which is subject to approval of State Risk and the University makes no representation, warranty or guaranty that State Risk will agree to such increase, and if State Risk does not approve such increase, then the Concessionaire shall bear such additional cost in accordance herewith. The Concessionaire acknowledges and agrees that neither State Risk nor any insurer of State Risk shall waive any rights of subrogation either may have and that the Concessionaire shall not be an additional insured under any insurance policy held by State Risk.

(iii) If the casualty is a University Retained Casualty:

(A) The Concessionaire shall be responsible for the Restoration Funds up to the amount of the Maximum Retained Risk Payment and shall fund the same pursuant to Section 13.4(b)(iii)(B), and the Concessionaire shall proceed diligently to complete a Restoration for such casualty subject to Section 13.4(c); and

(B) The Concessionaire shall first fund the Restoration out of its own funds up to the amount of the Maximum Retained Risk Payment. Within five (5) Business Days after Approval of the Casualty Cost Estimate by the University, the Concessionaire will deposit the lesser of the (i) Casualty Cost Estimate and the (ii) Maximum Retained Risk Payment with a Depositary. The Concessionaire shall provide the University with reasonable evidence of payment of such amount and the Restoration costs to which it was applied, which must be in strict accordance with the Casualty Cost Estimate. Notwithstanding the foregoing, to the extent that the Concessionaire provides evidence reasonably acceptable to the University of the Concessionaire’s ability to fund the lesser of the (i) Casualty Cost Estimate and the (ii) Maximum Retained Risk Payment and the availability of such funds, the Concessionaire in each such case shall not be required to deposit such amount with the Depositary, but may instead fund the same itself and shall provide the University with notice thereof. If the Concessionaire reasonably determines that the Casualty Cost will exceed the Casualty Costs identified in the Casualty Cost Estimate, then the Concessionaire shall promptly notify the University but unless Approved by the University, the excess shall be borne by the
Concessionaire and shall not be reimbursable as Uncapped O&M Costs or as part of the Utility Fee. Following exhaustion of the Maximum Retained Risk Payment if the Casualty Costs were in excess of the Maximum Retained Risk Payment, the University shall pay to the Concessionaire the remaining costs of the Restoration up to the Casualty Cost Estimate as follows: (1) either the University shall pay the Concessionaire on a monthly basis such remaining Restoration costs in accordance with Section 13.4(d); or (2) over twenty (20) years, payable on a semi-annual basis starting at the beginning of the Fiscal Year immediately following completion of such Restoration, which shall be paid in equal semi-annual installments, provided that, in addition to each annual payment, the University shall pay an interest charge equal to the Cost of Debt Factor (as defined in Schedule 5) that will accrue on the annual installments not yet paid (the “Long-Term Restoration Payment Plan”). The determination of the timing of payment shall be made by the University, in its sole discretion, at the time it approves the Casualty Cost Estimate. If the University elects the Long-Term Restoration Plan, the Concessionaire shall, within 30 Business Days after receipt of Notice of such election, either: (x) deposit with the Depositary the full Casualty Costs identified in the Casualty Cost Estimate; or (y) provide to the University a performance bond or a letter of credit, in either case in the amount of the full Casualty Costs identified in the Casualty Cost Estimate and in a form reasonably acceptable to the University, provided that, for the avoidance of doubt, the election by the Concession of either of the preceding clauses (x) or (y) shall not modify or alter the Concessionaire’s ultimate obligations and liabilities as it relates to Casualty Costs and completion of any Restoration as set forth herein. The Concessionaire acknowledges and agrees that, notwithstanding any payment of Restoration Funds in excess of the Maximum Retained Risk Payment by the University in connection with a University Retained Casualty, the University shall not waive any rights it has under this Agreement to make a claim against the Concessionaire or the Operator for negligence or breach or any other claim hereunder.

(c) Rights of the University. any Restoration undertaken pursuant to this Section 13.4 shall be undertaken in accordance with and subject to the terms of this Agreement. Prior to the commencement of Restoration work for a State Risk Retained Casualty or a University Retained Casualty, the Concessionaire shall submit to the University for Approval by the University the plans for the Restoration work consistent with the Approved Casualty Cost Estimate and such work shall not be undertaken unless the plans for such work have been Approved by the University (and State Risk, where applicable) in writing. For the avoidance of doubt, and notwithstanding any direction by the University to modify the location or configuration of the Utility System pursuant to Section 13.4(a)(ii), the as part of the University’s Approval of the Casualty Cost
Estimate, no cost incurred in connection with a Restoration Shortfall Amount shall not be considered a New Approved Capital Improvement Cost.

(b) Rights of University. If (i) the Concessionaire shall fail to provide the Casualty Cost Estimate in the required timeframe and such failure is not due to a cause outside of Concessionaire’s control, (ii) the Concessionaire shall fail or neglect to commence the diligent Restoration of the Utility System or the portion thereof so damaged or destroyed, (iii) having so commenced such Restoration, the Concessionaire shall fail to diligently complete the same in accordance with the terms of this Agreement, or (iv) this Agreement expires or is terminated in accordance with the terms of this Agreement prior to the completion of any such Restoration by the Concessionaire, this Agreement shall expire or be terminated in accordance with the terms of this Agreement, the University may, but shall not be required to, complete such Restoration at the Concessionaire’s expense (to the extent the Concessionaire would otherwise be responsible therefor) and shall be entitled to be paid out of the Restoration Funds, but such payment shall not limit the Concessionaire’s obligation to pay the University’s reasonable Restoration expenses, less amounts received by the University from such Restoration Funds. In any case where this Agreement shall expire or be terminated prior to the completion of the Restoration, the Concessionaire shall (x) account to the University for all amounts spent in connection with any Restoration which was undertaken, (y) pay over or cause the Depositary to pay over to the University within 30 Days after demand therefor, the remainder, if any, of the Restoration Funds received by the Concessionaire prior to such termination or cancellation, and (z) pay over or cause the Depositary to pay over to the University, for allocation to the University, within 30 Days after receipt thereof, any Restoration Funds received by the Concessionaire or the Depositary subsequent to such termination or cancellation. The Concessionaire’s obligations under this Section 13.4(b) shall survive the expiration or termination of this Agreement.

(c) Payment of Restoration Funds to Concessionaire (Other than State Risk). Subject to the satisfaction by the Concessionaire of all of the terms and conditions of this Section 13.4, the Depositary (in the case of a Concessionaire Retained Casualty or deposit of Restoration Funds up to the Maximum Retained Risk Payment, if applicable) or the University (in the case of a University Retained Casualty less any Maximum Retained Risk Payment, if applicable) shall pay to the Concessionaire from time to time within thirty (30) Days of receipt of Concessionaire’s invoice, any Restoration Funds, but, in the case of a Concessionaire Retained Casualty, not more than the amount actually collected by the Depositary upon the loss or, in the case of a University Retained Casualty, the amount set forth in the Casualty Cost Estimate plus any Maximum Retained Risk Payment actually collected by the Depositary (unless an overage is approved by the University), together with any interest earned thereon, after reimbursing itself therefrom, as well as the University, to the extent, if any, of the reasonable expenses paid or incurred by the Depositary and the University in

NAI-1536325012v1 1536325012v21

BAHR

TAB 2 Page 143
the collection of such monies, to be utilized by the Concessionaire solely for the Restoration, such payments to be made as follows:

(i) prior to commencing any Restoration, the Concessionaire shall furnish the University with an estimate of the cost of such Restoration, prepared by an architect or engineer;

(ii) the Restoration Funds shall be paid to the Concessionaire in installments as the Restoration progresses, subject to Section 13.4(ed)(iii), based upon requisitions to be submitted by the Concessionaire to the Depositary (if applicable) and the University in compliance with Section 13.4(de), showing the cost of labor and materials purchased for incorporation in the Restoration, or incorporated therein since the previous requisition, and due and payable or paid by the Concessionaire; provided, however, that if any lien (other than a Permitted Concessionaire Encumbrance) is filed against the Utility System or any part thereof in connection with the Restoration, the Concessionaire shall not be entitled to receive any further installment until such lien is satisfied or discharged (by bonding or otherwise); provided further that notwithstanding the foregoing, but subject to the provisions of Section 13.4(ed)(iii), the existence of any such lien shall not preclude the Concessionaire from receiving any installment of Restoration Funds so long as such lien will be discharged with funds from such installment and at the time the Concessionaire receives such installment the Concessionaire delivers to the University and the Depositary (if applicable) a release of such lien executed by the lienholder or in recordable form;

(iii) the amount of any installment to be paid to the Concessionaire shall be the amount of Restoration Funds incurred by the Concessionaire in connection therewith, less 10% of such amount as a retainage (which 10% retainage shall be reserved without duplication of any retainage reserved by the Concessionaire under its contracts for the Restoration work and (ii) shall be released to the Concessionaire upon completion of the Restoration work), except that such retainage shall not include any amounts for architects’ or engineers’ fees or permitting or other governmental fees in connection with the Restoration or with respect to each Contractor upon the final completion of each such Contractor’s respective work, provided that the unapplied portion of the funds held by the Depositary or the University, as applicable, to be used for the Restoration are sufficient to complete the Restoration; provided, however, that all disbursements to the Concessionaire shall be made based upon an architect’s or engineer’s certificate for payment in accordance with industry standards, and disbursements may be made for advance deposits for materials and Contractors to the extent that such disbursements are customary in the industry and provided that the unapplied portion of the
funds held by the Depositary or the University, as applicable, to be used for the Restoration are sufficient to complete the Restoration; and

except as provided in Section 13.4(bc), upon completion of and payment for the Restoration by the Concessionaire, the Depositary or University, as applicable, shall pay the balance of the Restoration Funds, if any, to the Concessionaire; provided, however, that if, in the case of a Concessionaire Retained Casualty the insurance proceeds are insufficient to pay for the Restoration (or if there shall be no insurance proceeds) or in the case of a State Risk Retained Casualty or University Retained Casualty, the proceeds available from the University or State Risk pursuant to the preceding paragraphs are less than the final Casualty Cost, the Concessionaire shall nevertheless be required to make complete the Restoration, provided the deficiency in funds necessary to complete the Restoration is provided in accordance with shall be provided by the Concessionaire, except to the extent of the University’s responsibility under Section 13.4(ab)(iii)(B).

For the avoidance of doubt, the costs incurred for Capital Improvements made as part of the Restoration shall not be considered Capital Improvement Costs for purposes of Schedule 5 or otherwise included in the calculation of the Utility Fee unless Approved by the University.

Conditions of Payment. The following shall be conditions precedent to each payment made to the Concessionaire as provided in Section 13.4(ed):

(i) at the time of making such payment, no Concessionaire Default exists, except if such Concessionaire Default is the result of the damage or destruction for which such payment is being made; and

(ii) the Restoration shall be carried out under the supervision of the architect or engineer, and there shall be submitted to the Depositary (if applicable) and the University the certificate of the architect or engineer (or other evidence reasonably satisfactory to the University) stating that (A) the materials and other items which are the subject of the requisition have been delivered to the Utility System (except with respect to requisitions for advance deposits permitted under Section 13.4(e)(iii)), free and clear of all Encumbrances, and no unsatisfied or unbonded mechanic’s liens or other Encumbrances have been claimed, except for any mechanic’s lien for claims that will be discharged, by bonding or otherwise, with funds to be received pursuant to such requisition (provided that a release of such lien is delivered to the Depositary in accordance with Section 13.4(ed)(ii)), or insured over by title insurance reasonably acceptable to the University, (B) the sum then requested to be withdrawn either has been paid by the Concessionaire or is due and payable to Contractors, engineers, architects or other Persons (whose names and addresses shall be stated), who have rendered or furnished services or materials for the
work and giving a brief description of such services and materials and the principal subdivisions or categories thereof and the several amounts so paid or due to each of such Persons in respect thereof, and stating in reasonable detail the progress of the work up to the date of such certificate, (C) no part of such expenditures has been made the basis, in any previous requisition (whether paid or pending), for the withdrawal of Restoration Funds or has been made out of the Restoration Funds received by the Concessionaire, (D) the sum then requested does not exceed the value of the services and materials described in the certificate, (E) the work relating to such requisition has been performed in accordance with this Agreement, (F) the balance of the Restoration Funds held by the Depositary or by the University, as applicable, to be used for the Restoration will be sufficient upon completion of the Restoration to pay for the same in full, and stating in reasonable detail an estimate of the cost of such completion, and (G) in the case of the final payment to the Concessionaire, the Restoration has been completed in accordance with this Agreement.

(e) Payment and Performance Bonds. If the Concessionaire obtains payment or performance bonds related to a Restoration (which the Concessionaire may or may not obtain in its discretion), the Concessionaire shall name the State of Idaho, the University, their agents, officials, and employees, the Concessionaire and the Leasehold Mortgagee, as their interests may appear as additional obligees, and shall deliver copies of any such bonds to the University promptly upon obtaining them. The claims of any such additional obligee with respect to such payment of performance bonds shall rank pari passu in priority with the claims of all other additional obligees.

(f) Benefit of University. The requirements of this Section 13.4 are for the benefit only of the University, and no Contractor or other Person shall have or acquire any claim against the University as a result of any failure of the University actually to undertake or complete any Restoration as provided in this Section 13.4 or to obtain the evidence, certifications and other documentation provided for herein.

(g) Investment of Restoration Funds. Restoration Funds deposited with a Depositary shall be invested and reinvested in Eligible Investments at the direction of the Concessionaire, and all interest earned on such investments shall be added to the Restoration Funds.

(h) Lien of Leasehold Mortgage. Any Restoration Funds not used for the Restoration shall be subject to the lien of the applicable Leasehold Mortgage, but only after such Restoration is complete.
(i) **Personal Property.** The Concessionaire shall be responsible for all loss or damage to personal property (including materials, fixtures/contents, equipment, tools and supplies) of the Concessionaire unless caused by the University.

(k) **Effectiveness.** Notwithstanding the date of execution of this Agreement, the Parties agree that, to the extent any casualty occurs from and after the date of the execution of this Agreement, this Section 13.4 shall apply with respect to the costs and restoration thereof, provided that, prior to the date of execution of this Agreement and with respect to any Uninsured Utility System Property, the Concessionaire shall be liable for the full Restoration costs associated with any casualty affecting such Uninsured Utility System Property that occurred prior to the date of execution of this Agreement and shall continue to be liable for such costs after the date of execution of this Agreement until the Concessionaire pays to the University the University Retained Risk Annual Payment (or a prorated amount, if applicable).

**Section 13.5. Additional University Requirements.**

(a) The Concessionaire shall submit, at the Concessionaire’s cost and expense, all design documents for proposed Capital Improvements to the Utility System to the standard University design and construction review process, including, but not limited to submitting documents to the University of Idaho Facilities Department, c/o the Director of Architecture and Engineering Services and the University’s property insurance carrier for a plan review.

(b) The Concessionaire shall cooperate and participate, at the Concessionaire’s cost and expense, in any and all Utility System Land visits or site inspections by or for any University insurance carrier.

**ARTICLE 14**

**ADVERSE ACTIONS**

**Section 14.1. Adverse Action.**

(a) An “Adverse Action” shall occur if the City of Moscow, Idaho, the County of Latah, Idaho, the State of Idaho, or any agency, political division or unit or commission thereof, or the University, at any time during the Term, takes any action or actions and the effect of such action or actions, individually or in the aggregate, is reasonably expected (i) to be principally borne by the Concessionaire or by private sector utility concessionaires at universities and other public institutions in Idaho, including the Concessionaire, and, in either case, not by other Persons and (ii) to have a material adverse effect on the fair market value of the Concessionaire Interest (whether as a result of a decrease in the Utility Fee or other revenues, increased expenses that cannot be recovered pursuant to this Agreement, or both), except where such action is in response to any act or omission on the part of the Concessionaire that is illegal (other than an act or omission rendered illegal by virtue of the Adverse Action) or such action...
is otherwise permitted under this Agreement; provided, however, that none of
the following shall be an Adverse Action: (A) the development, redevelopment,
construction, modification or change in the operation of any existing or new
utility facility (other than any Utility Facility) or utility (including a new source
of energy or power) (other than the Utilities) whether or not it results in the
reduction of the Variable Fee Component over time, (B) the imposition of a state
or local Tax of general application or federal Tax or an increase in state or local
Taxes of general application or federal Taxes, and (C) any action of the Idaho
Public Utilities Commission or the Federal Energy Regulatory Commission, or
their respective successors, that subjects the Concessionaire to such agency’s
regulatory jurisdiction due solely to the Utility System Operations performed in
accordance with this Agreement.

(b) If an Adverse Action occurs, the Concessionaire may elect, subject to
Section 14.2 and Section 14.3, to either (i) be paid by the University the
Concession Compensation with respect thereto (such Concession Compensation,
the “AA-Compensation”) or (ii) terminate this Agreement and be paid by the
University the Termination Damages, in either case by giving notice in the
manner described in Section 14.1(c).

(c) If an Adverse Action occurs, the Concessionaire shall give written notice (the
“AA-Preliminary Notice”) to the University within 30 Days following the date
on which the Concessionaire first became aware of the Adverse Action stating
that an Adverse Action has occurred. Within 180 Days following the date of
delivery of the AA-Preliminary Notice, the Concessionaire shall give the
University another notice (the “AA-Notice”) setting forth (i) the details of the
effect of the occurrence that is principally borne by the Concessionaire,
(ii) details of the material adverse effect of the said occurrence on the fair market
value of the Concessionaire Interest, (iii) a statement as to which right in
Section 14.1(b) the Concessionaire elects to exercise, and (iv) if the
Concessionaire elects to exercise the right to AA-Compensation under Section
14.1(b), the amount claimed as AA-Compensation and details of the calculation
thereof. The University shall, after receipt of the AA-Notice, be entitled by
notice delivered to the Concessionaire no later than 30 Days following the date
of receipt of the AA-Notice, to require the Concessionaire to provide such
further supporting particulars as the University may reasonably consider
necessary. If the University wishes to dispute the occurrence of an Adverse
Action or the amount of AA-Compensation, if any, claimed in the AA-Notice,
the University shall give written notice of dispute (the “AA-Dispute Notice”) to
the Concessionaire within 30 Days following the date of receipt of the
AA-Notice stating in reasonable detail the grounds for such dispute. If neither
the AA-Notice nor the AA-Dispute Notice has been withdrawn within 30 Days
following the date of receipt of the AA-Dispute Notice by the Concessionaire,
the matter shall be submitted to the dispute resolution procedure in Article 18.
(d) If the Concessionaire has elected to exercise its right to AA-Compensation pursuant to Section 14.1(b), the University shall pay such AA-Compensation as Concession Compensation in accordance with Article 15.

(e) Payment of the entire sum of the Termination Damages or the AA-Compensation, as the case may be, by the University to the Concessionaire, shall constitute full and final satisfaction of all amounts that may be claimed by the Concessionaire for and in respect of the occurrence of an Adverse Action, as the case may be, and, upon such payment, the University shall be released and forever discharged by the Concessionaire from any and all liability in respect of such Adverse Action, except if the Concessionaire elects to be paid AA-Compensation and the effect of the applicable Adverse Action continues to be borne after the Compensation Calculation Measuring Period in which it took place, in which case, the Concessionaire may make a claim for AA-Compensation in subsequent Compensation Calculation Measuring Periods to the extent the Concessionaire is affected by such Adverse Action in such Compensation Calculation Measuring Period, but the Concessionaire may not change its election to receive AA-Compensation with respect to such Adverse Action.

Section 14.2. Termination.

(a) If the Concessionaire has elected to exercise its right to terminate this Agreement in connection with an Adverse Action pursuant to Section 14.1(b), then this Agreement, subject to Section 14.3, shall terminate 60 Days following the date of receipt of the AA-Notice by the University, and the University shall pay an amount equal to the aggregate of (i) the Utility System Concession Value as of the date of such termination (which shall be determined as if no Adverse Action has occurred), plus (ii) without duplication, the out-of-pocket and documented costs and expenses incurred by the Concessionaire (which costs and expenses shall include reasonable payments due and payable by the Concessionaire to the Operator or other Contractors pursuant to an Operating Agreement or similar agreement) or the Operator as a result of such termination, plus (iii) the Concession Compensation calculated for the period between the date of the Adverse Action and the date of termination, less (iv) any insurance or condemnation proceeds received by the Concessionaire in respect of all or any portion of the Utility System as a result of such Adverse Action (collectively, the “Termination Damages”), together with any Taxes payable by the Concessionaire on such Termination Damages that exceed the Taxes the Concessionaire would have paid on future receipts of the Utility Fee if the Termination had not occurred (using the Tax rates in effect when the Termination Damages would be payable) and using the same assumptions for the calculation of the amount of such future receipts as are used in the calculation of Termination Damages, to the Concessionaire on the Reversion Date or, if the Termination Damages are determined on a date subsequent to the Reversion Date, then not later than 60 Days following the date of determination of the Termination Damages; provided that, subject to the right of the Concessionaire...
to receive interest at the Bank Rate on the payment owed by the University from
the date of receipt of the AA-Dispute Notice to the date on which payment is
made, the University may defer any such payment for an additional 120 Days in
the University’s discretion; provided, however, that any amounts received by the
Concessionaire or any Leasehold Mortgagee from any insurance policies payable
as a result of damage or destruction to the Utility System that has not been
remedied prior to the Reversion Date, shall, to the extent not used to remedy
such effects, be deducted from the amount payable by the University to the
Concessionaire, so long as the University has not received any such amounts
pursuant to Section 13.4.

(b) Any dispute arising out of the determination of the Termination Damages shall
be submitted to the dispute resolution procedure in Article 18.

e) This Agreement shall not terminate pursuant to Section 14.2(a) unless the
Concessionaire has first obtained and delivered to the University the written
consent of the Leasehold Mortgagee to such termination.

Section 14.3. Right of the University to Remedy. If the University wishes to remedy
the occurrence of an Adverse Action (other than an Adverse Action by the University that
constitutes a breach of this Agreement, to which this Section 14.3 shall have no application
without the written consent of the Concessionaire), including by reimbursing the Concessionaire
such funds as are necessary to compensate the Concessionaire for the material adverse economic
effect on the Concessionaire of such Adverse Action, the University shall give written notice
thereof to the Concessionaire within 30 Days following the date of receipt of the AA-Notice. If
the University gives such notice it must remedy the applicable Adverse Action within 120 Days
following the date of receipt of the AA-Notice or, if a AA-Dispute Notice has been given, within
120 Days following the final determination pursuant to Article 18 that an Adverse Action
occurred; provided, however, that in the event of a remedy involving payment of funds to the
Concessionaire, the University shall be deemed to have remedied the applicable Adverse Action
as of the date that the University provides a written commitment to the Concessionaire to pay
such funds from time to time as are necessary to compensate the Concessionaire as it is
financially adversely affected by the applicable Adverse Action from time to time. If the
University elects to remedy the occurrence of an Adverse Action within the applicable period of
time, the right of the Concessionaire shall be limited to a claim for AA-Compensation with
respect to such Adverse Action.

Section 14.4. Other Actions by Governmental Authorities. In the event that any
Governmental Authority proposes to take any action at any time during the Term (including
enacting any Law) and the effect of such action is reasonably expected (i) to be principally borne
by the Concessionaire or by private sector utility concessionaires at universities and other public
institutions in Idaho, including the Concessionaire (and not by others) and (ii) to have a Material
Adverse Effect, except where such action is in response to any act or omission on the part of the
Concessionaire that is illegal (other than an act or omission rendered illegal by virtue of an
Adverse Action or such action by any such Governmental Authority), then at the request of the
Concessionaire, the University shall use its reasonable efforts to oppose and challenge such
action by any such Governmental Authority; provided, however, that all reasonable
out-of-pocket costs and expenses incurred by the University in connection with such opposition or challenge shall be borne by the Concessionaire.

Section 14.5. Regulatory Filings. The Parties acknowledge and agree that they share a common interest in any regulatory proceedings that involve the Utility System Operations. Consistent therewith, the Parties agree that, to the extent that the Concessionaire or the University is required to make any regulatory filing or submission with respect to a tariff or rate for the Utility System or the Utility Fee, the Concessionaire and the University shall reasonably cooperate in connection with such required filing or submission and shall, collectively, only make one filing or submission with the applicable regulatory agency. Such cooperation shall include appearing at, and participating in, any regulatory proceeding at the request of the other Party. The Concessionaire and the University shall also reasonably cooperate with respect to any required regulatory filings or submissions not involving a tariff or rate for the Utility System or the Utility Fee, to the extent practicable.

ARTICLE 15
DELAY EVENTS; CONCESSION COMPENSATION AND KPI COMPENSATION

Section 15.1. Delay Events.

(a) If the Concessionaire is affected by a Delay Event, it shall give written notice as soon as practicable but in no event later than 10 Business Days following the date on which it first became aware of the effect of such Delay Event on the Concessionaire (provided that in the case of such Delay Event being a continuing cause of delay, only one notice shall be necessary), which notice shall include (i) a statement of which Delay Event the claim is based upon, (ii) details of the circumstances from which the delay arises, and (iii) an estimate of the delay in the performance of obligations under this Agreement attributable to such Delay Event and information in support thereof, if known at that time. The University shall, after receipt of any such notice, be entitled by notice to require the Concessionaire to provide such further supporting particulars as the University may reasonably consider necessary.

(b) The Concessionaire shall notify the University within 5 Business Days following the date on which it first became aware that a Delay Event has ceased.

(c) Subject to the Concessionaire giving the notice required in Section 15.1(a), a Delay Event shall excuse the Concessionaire from whatever performance is prevented by the Delay Event referred to in such notice and, to the extent applicable, for such appropriate number of Days as the University and the Concessionaire jointly determine, each acting reasonably. If the University and the Concessionaire cannot agree upon the period of extension, then either Party shall be entitled to refer the matter to the dispute resolution procedure in Article 18. This Section 15.1(c) shall not excuse the Concessionaire from the performance and observance under this Agreement of all obligations and covenants not affected by the Delay Event. While a Delay Event is occurring, the Utility Fee shall be reduced by an amount equal to the Utility Fee multiplied...
by the percentage of the Utility System that is inoperable as a result of the Delay Event, as determined by the University in its reasonable discretion (as determined by the reduction in delivery capacity as compared to the delivery capacity immediately preceding such Delay Event), provided that such Delay Event shall be deemed a Compensation Event. Notwithstanding the occurrence of a Delay Event, the Concessionaire shall continue its performance and observance under this Agreement of all of its obligations and covenants to the extent that it is reasonably able to do so and shall use its reasonable efforts to minimize the effect and duration of the Delay Event. Nothing herein shall permit or excuse noncompliance with a change to applicable Laws.

(d) Except as provided in the immediately following sentence, (i) if a Delay Event occurs that has the effect of causing physical damage or destruction to a material part of the Utility System that results in the Utility System being substantially unavailable for the provision of Utility Services and such effect continues for a period in excess of 120 continuous Days or 120 non-continuous Days within a 360-Day period and has a Material Adverse Effect, for which the Concessionaire is not made whole through Concession Compensation, or (ii) if insurance policies payable (or that should have been payable but for the breach of an obligation to take out and maintain such insurance policy by the Concessionaire), condemnation or other similar proceeds are insufficient to restore the Concessionaire to the same economic position as it would have been in the absence of such event and the Concessionaire is not otherwise made whole through Concession Compensation, then, notwithstanding Section 2.1, in either case, the Concessionaire shall have the right, but not the obligation, by written notice to the University within 30 Days after the Delay Event Remedy is permitted to be elected, to extend the Term for a period that would be sufficient to compensate the Concessionaire and restore it to the same economic position as it would have been in had such Delay Event not occurred (a “Delay Event Remedy”); provided, however, in no event shall the Term be extended if such extension is prohibited by Law or if the extended Term, when taking into account such extension, would subject the Concessionaire or the University to a leasehold tax, conveyance fee or similar charge under applicable Law. If the Concessionaire elects to exercise the right to the Delay Event Remedy but such exercise is prohibited by Law or would subject the Concessionaire or the University to a leasehold tax, conveyance fee or similar charge under applicable Law, (i) the Delay Event Remedy shall be modified such that the Term is extended only for such period as would not cause exercise of the Delay Event Remedy to be prohibited by Law or to subject the Concessionaire or the University to a leasehold tax, conveyance fee or similar charge under applicable Law, and (ii) the relevant Delay Event shall be a Compensation Event to the extent necessary to compensate the Concessionaire and restore it to the same economic position as it would have been in, absent the modification to the Delay Event Remedy pursuant to clause (i) of this sentence.

(e) If the Concessionaire elects to exercise the right to the Delay Event Remedy, within 5 Business Days following the date on which the Concessionaire first
became aware of its right to the Delay Event Remedy pursuant to Section 15.1(d)(i) or Section 15.1(d)(ii), the Concessionaire shall give written notice (a “Delay Event Remedy Notice”) to the University setting forth (i) the details of the relevant Delay Event and its effect on either causing physical damage or destruction to the Utility System that results in the Utility System being substantially unavailable for the provision of Utility Services, (ii) the amount claimed to be required to restore the Concessionaire to the same economic position as it would have been in had such Delay Event not occurred (including the details of the calculation thereof), and (iii) the details of the relationship between such amount and the Concessionaire’s proposed extension of the Term. The University shall, after receipt of the Delay Event Remedy Notice, be entitled by notice to require the Concessionaire to provide such further supporting particulars as the University may reasonably consider necessary. If the University wishes to dispute the occurrence of a Delay Event or the Delay Event Remedy claimed in the Delay Event Remedy Notice, the University shall give written notice to dispute (the “Delay Event Remedy Dispute Notice”) to the Concessionaire within 30 Days following the date of receipt of the Delay Event Remedy Notice stating the grounds for such dispute, and if neither the Delay Event Remedy Notice nor the Delay Event Remedy Dispute Notice has been withdrawn within 30 Days following the date of receipt of the Delay Event Remedy Dispute Notice by the Concessionaire, the matter shall be submitted to the dispute resolution procedure in Article 18. For the avoidance of doubt, if the conditions set forth in Section 15.1(d)(i) and Section 15.1(d)(ii) occur with respect to the same Delay Event, the Concessionaire may have 2 opportunities to provide a Delay Event Remedy Notice.

Section 15.2. Notice of Compensation Events and KPI Events. Except as provided elsewhere in this Agreement, if a Compensation Event occurs, the Concessionaire shall give written notice to the University within 45 Days following the date on which the Concessionaire first became aware of the Compensation Event stating that a Compensation Event has occurred. Except as provided elsewhere in this Agreement, if a KPI Event occurs, the University shall give written notice to the Concessionaire within 45 Days following the date on which the University first became aware of the KPI Event stating that a KPI Event has occurred.

Section 15.3. Payments of Concession Compensation and KPI Compensation.

(a) Within 30 Days after each Compensation Calculation Date, the Concessionaire shall send the University notice setting forth all Concession Compensation due for the immediately preceding Compensation Calculation Measuring Period, and the University shall send the Concessionaire notice setting forth all KPI Compensation due for the immediately preceding Compensation Calculation Measuring Period. Each such notice shall set forth: (i) the amount claimed and details of the calculation thereof; (ii) details of the Compensation Event(s), Adverse Action(s) and KPI Event(s), as applicable, as a result of which Concession Compensation and KPI Compensation, as applicable, is claimed therein, including an explanation of the reasons that such event(s) constitute Compensation Event(s), Adverse Action(s) and KPI Event(s), as applicable,
under the terms of this Agreement; and (iii) the amount claimed as Concession Compensation and KPI Compensation, as applicable, with respect to each such Compensation Event, Adverse Action and KPI Event, as applicable, and details of the calculation thereof.

(b) If either Party wishes to dispute the occurrence of any Compensation Event(s), Adverse Action(s) or KPI Event(s) set forth in the notices described in Section 15.3(a) or the amounts claimed thereunder, then such Party shall give written notice of dispute (the “Dispute Notice”) to the other Party within 30 Days following the date of receipt of the relevant notice stating the grounds for such dispute. If the Dispute Notice has not been withdrawn or the dispute otherwise resolved by the Parties within 30 Days following the date of receipt of the Dispute Notice, the matter shall be submitted to the dispute resolution procedure set forth in Article 18.

(c) The University and the Concessionaire shall cooperate and assist in good faith in the determination of the Concession Compensation and KPI Compensation in accordance with this Section 15.3, including making available, to the extent reasonably necessary, books, records, work papers and personnel at such reasonable times as any Party shall request and permitting (at the expense of the requesting Party) the copying of any records or extracts thereof reasonably requested, subject to Section 3.12.

(d) The University shall have the right, prior to any payment of the Concession and KPI Compensation Balance, to include any Concession Compensation in the applicable Utility Fee as (i) a New Approved Capital Improvement if the Concession Compensation was incurred in connection with the construction of a Capital Improvement or (ii) an Uncapped O&M Cost payable over the next Fiscal Year in equal monthly installments.

(e) Following the final determination of the Concession Compensation and KPI Compensation, (i) if the Concession and KPI Compensation Balance is positive, then the University shall pay, within 90 Days of such final determination, to the Concessionaire, the Concession and KPI Compensation Balance or add such amount to the immediately succeeding payment of the Utility Fee in accordance with Section 15.3(d), if applicable or (ii) if the Concession and KPI Compensation Balance is negative, then the Concessionaire shall pay, within 90 Days of such final determination, to the University, the absolute amount of the Concession and KPI Compensation Balance or, with the University’s consent, offset such amount against the immediately succeeding payment of the Utility Fee, if applicable.

(f) For the determination of the Concession and KPI Compensation Balance for the Compensation Calculation Date that is the End Date, the Concession Compensation shall also include all Unrecovered Balances as of the End Date, unless this Agreement is terminated as a result of a Concessionaire Default, in

| NAI-1536325012v1 1536325012v21 | 147 |
| BAHR | TAB 2 Page 154 |
which case no Unrecovered Balances shall be included in the Concession and KPI Compensation Balance.

Section 15.4. KPI Compensation. Other than the University’s right to cause the Concessionaire to remove the Operator pursuant to Section 3.3(c), the payment of KPI Compensation by the Concessionaire shall constitute the Concessionaire’s sole and exclusive liability and the University’s sole and exclusive remedy for any KPI Event.

Section 15.5. Maximum Annual Amount of KPI Compensation. Notwithstanding anything to the contrary contained herein, the maximum amount of KPI Compensation for which the Concessionaire may be liable in any given Fiscal Year shall be the greater of (a) $3,178,326.84 and (b) 30% of the Utility Fee for that Fiscal Year; provided, any KPI Compensation in excess of such cap in any Fiscal Year for which the Concessionaire would otherwise be liable shall become due and owing in the subsequent Fiscal Year (but subject to the same cap in such Fiscal Year) until all such outstanding amounts are paid to the University and such deferred amounts shall accrue interest at a rate equal to the lesser of 20% per annum and the maximum interest rate permitted by Law. For the avoidance of doubt, the limitation on the maximum amount of KPI Compensation shall not limit the number of KPI Events that have occurred, including the determination of the number of KPI Events in a Fiscal Year for purposes of Section 3.3 or the determination of future KPI Compensation.

ARTICLE 16
DEFAULTS

Section 16.1. Default by the Concessionaire.

(a) Events of Default. The occurrence of any one or more of the following events during the Term shall constitute a “Concessionaire Default” under this Agreement:

(i) if the Concessionaire fails to comply with, perform or observe any material obligation, covenant, agreement, term or condition in this Agreement other than a breach of the Performance Standards or a KPI Event, and such failure continues unremedied for a period of 90 Days following notice thereof (giving particulars of the failure in reasonable detail) from the University to the Concessionaire or for such longer period as may be reasonably necessary to cure such failure, provided, in the latter case, that the Concessionaire has demonstrated to the satisfaction of the University, that (A) it is proceeding, and will proceed, with all due diligence to cure or cause to be cured such failure, (B) its actions can be reasonably expected to cure or cause to be cured such failure within a reasonable period of time acceptable to the University, and (C) such failure is, in fact, cured within such period of time;

(ii) if the Concessionaire fails to remedy any Transfer of this Agreement or all or any portion of the Concessionaire Interest in contravention of Article
within 10 Business Days following notice thereof from the University to the Concessionaire;

(iii) if the Concessionaire fails to comply with the requirements or directives of a final award in a matter submitted to dispute resolution in accordance with Article 18, and such failure continues unremedied for a period of 30 Days following notice thereof from the University to the Concessionaire, or for such longer period as may be reasonably necessary to cure such failure, provided, in the latter case, that the Concessionaire has demonstrated to the satisfaction of the University, that (A) it is proceeding, and will proceed, with all due diligence to cure or cause to be cured such failure, (B) its actions can be reasonably expected to cure or cause to be cured such failure within a reasonable period of time acceptable to the University, and (C) such failure is, in fact, cured within such period of time;

(iv) if the Concessionaire (A) admits, in writing, that it is unable to pay its debts as such become due, (B) makes an assignment for the benefit of creditors, (C) files a voluntary petition under Title 11 of the United States Code, or if such petition is filed against it and an order for relief is entered, or if the Concessionaire files any petition or answer seeking, consenting to or acquiescing in any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States Bankruptcy Code or any other present or future applicable Law, or shall seek or consent to or acquiesce in or suffer the appointment of any trustee, receiver, custodian, assignee, sequestrator, liquidator or other similar official of the Concessionaire or of all or any substantial part of its properties or of the Utility System or any interest therein, or (D) takes any corporate action in furtherance of any action described in this Section 16.1(a)(iv);

(v) if within 90 Days after the commencement of any proceeding against the Concessionaire seeking any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States Bankruptcy Code or any other present or future applicable Law, such proceeding has not been dismissed, or if, within 90 Days after the appointment, without the consent or acquiescence of the Concessionaire, of any trustee, receiver, custodian, assignee, sequestrator, liquidator or other similar official of the Concessionaire or of all or any substantial part of its properties or of the Utility System or any interest therein, such appointment has not been vacated or stayed on appeal or otherwise, or if, within 90 Days after the expiration of any such stay, such appointment has not been vacated;

(vi) if a levy under execution or attachment has been made against all or any part of the Utility System or any interest therein as a result of any Encumbrance (other than a Permitted Concessionaire Encumbrance)
created, incurred, assumed or suffered to exist by the Concessionaire or any Person claiming through it, and such execution or attachment has not been vacated, removed or stayed by court order, bonding or otherwise within 60 Days after the Concessionaire becomes aware of such levy, unless such levy resulted from actions or omissions of the University or its Representatives; or

(vii) the Concessionaire repudiates in writing any of its material obligations under this Agreement.

Notwithstanding the foregoing, a Concessionaire Default shall not include any failure by the Concessionaire to perform its obligations under this Agreement (other than payment obligations) to the extent such failure is the result of Force Majeure.

(b) Remedies of the University upon Concessionaire Default. Upon the occurrence, and during the continuance, of a Concessionaire Default, the University may, by notice to the Concessionaire, declare the Concessionaire to be in default and may, subject to the provisions of Article 18 and Article 19, do any or all of the following as the University, in its discretion, shall determine:

(i) subject to the cure rights of the Leasehold Mortgagee set forth in Section 19.3, the University may terminate this Agreement by giving 30 Days’ prior notice to the Concessionaire upon the occurrence of any Concessionaire Default; provided, however, that the Concessionaire shall be entitled to cure a Concessionaire Default pursuant to Section 16.1(a)(i) by (i) agreeing within such 30-Day period to pay any Losses sustained as a result of such Concessionaire Default and (ii) providing the University with a written work plan within such 30-Day period outlining the actions by which the Concessionaire will ensure future compliance with either (x) the obligation, covenant, agreement, term or condition in this Agreement or (y) the requirements or directives of the issued final award in accordance with Article 18 that the Concessionaire failed to perform or observe, which work plan is Approved by the University, but any failure of the Concessionaire to comply in any material respect with such Approved work plan (other than as a result of a Delay Event) following 30 Days’ notice of such failure from the University to the Concessionaire shall be deemed to be a Concessionaire Default described in Section 16.1(a)(i) and the entitlement of the Concessionaire to cure such Concessionaire Default by the delivery of an Approved work plan shall not apply thereto;

(ii) if the Concessionaire Default is by reason of the failure to pay any monies to another Person, the University may (without obligation to do so) make payment on behalf of the Concessionaire of such monies unless such non-payment is due to a bona fide dispute, and any amount so paid by the
University shall be payable by the Concessionaire to the University within 3 Business Days after demand therefor;

(iii) subject to the cure rights of the Leasehold Mortgagee set forth in Section 19.3, the University may cure the Concessionaire Default (but this shall not obligate the University to cure or attempt to cure a Concessionaire Default or, after having commenced to cure or attempted to cure a Concessionaire Default, to continue to do so), and all costs and expenses reasonably incurred by the University in curing or attempting to cure the Concessionaire Default, shall be payable by the Concessionaire to the University within 3 Business Days after written demand therefor; provided, however, that (A) the University shall not incur any liability to the Concessionaire for any act or omission of the University or any other Person in the course of remedying or attempting to remedy any Concessionaire Default unless resulting from the University’s recklessness, gross negligence or willful misconduct; (B) the University’s cure of any Concessionaire Default shall not affect the University’s rights against the Concessionaire by reason of the Concessionaire Default; and (C) the University may seek specific performance, injunction or other equitable remedies, it being acknowledged that damages are an inadequate remedy for a Concessionaire Default;

(iv) the University may seek to recover its Losses arising from such Concessionaire Default and any amounts due and payable under this Agreement and, in connection therewith, exercise any recourse available to any Person who is owed damages or a debt;

(v) with respect to those Concessionaire Defaults that entitle the University to terminate this Agreement pursuant to Section 16.1(b)(i), the University may terminate the Concessionaire’s right to use, operate, maintain, possess, control and rehabilitate the Utility System and the Concessionaire’s right to collect from the University and retain the Utility Fee, and in such event, the University or the University’s agents and servants may immediately or at any time thereafter take possession and control of the Utility System, by any available action under Law or proceeding at law or in equity, and with or without terminating this Agreement, and undertake any and all of the Utility System Operations; provided, however, that no such action by the University shall be construed as an election on its part to terminate this Agreement unless a notice of such intention is given to the Concessionaire; and

(vi) the University may exercise any of its other rights and remedies provided for hereunder or at law or equity.
Section 16.2. Default by the University.

(a) **Events of Default.** The occurrence of any one or more of the following events during the Term shall constitute a “University Default” under this Agreement:

(i) if the University fails to pay the Utility Fee, the Forecast Utility Fee or the Concession and KPI Compensation Balance to the extent the University is required to do so pursuant to Section 15.3(f), each in accordance herewith and such failure continues unremedied for a period of 5 Business Days following notice thereof (giving particulars of the failure in reasonable detail) from the Concessionaire to the University;

(ii) if the University fails to comply with or observe any material obligation, covenant, agreement, term or condition in this Agreement (other than an Adverse Action or the payment of the Utility Fee, the Forecast Utility Fee or the Concession and KPI Compensation Balance to the extent the University is required to do so pursuant to Section 15.3(f)) and such failure continues unremedied for a period of 90 Days following notice thereof (giving particulars of the failure in reasonable detail) from the Concessionaire to the University or for such longer period as may be reasonably necessary to cure such failure, provided, in the latter case, that the University has demonstrated to the satisfaction of the Concessionaire, that (A) it is proceeding with all due diligence to cure or cause to be cured such failure, (B) its actions can be reasonably expected to cure or cause to be cured such failure within a reasonable period of time acceptable to the Concessionaire, and (C) such failure is, in fact, cured within such period of time;

(iii) if the University fails to comply with the requirements or directives of a final award in a matter submitted to dispute resolution in accordance with Article 18 and such default continues unremedied for a period of 30 Days following notice thereof from the Concessionaire to the University, or for such longer period as may be reasonably necessary to cure such failure, provided, in the latter case, that the University has demonstrated to the satisfaction of the Concessionaire, acting reasonably, that (A) it is proceeding, and will proceed, with all due diligence to cure or cause to be cured such failure, (B) its actions can be reasonably expected to cure or cause to be cured such failure within a reasonable period of time acceptable to the Concessionaire, acting reasonably and (C) such failure is, in fact, cured within such period of time;

(iv) if a levy under execution or attachment has been made against all or any part of the Utility System or the Concessionaire Interest as a result of any Encumbrance (other than a Permitted University Encumbrance) created, incurred, assumed or suffered to exist by the University or any Person claiming through it, and such execution or attachment has not been vacated, removed or stayed by court order, bonding or otherwise within a
period of 60 Days, unless such levy resulted from actions or omissions of the Concessionaire or its Representatives or if all or a material part of the Utility System shall be subject to a condemnation or similar taking by the University or any agency thereof;

(v) if the University (A) admits, in writing, that it is unable to pay its debts as such become due, (B) makes an assignment for the benefit of creditors, (C) files a voluntary petition under Title 9 of the United States Code, or if such petition is filed against it and an order for relief is entered, or if the University files any petition or answer seeking, consenting to or acquiescing in any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States Bankruptcy Code or any other present or future applicable Law, or shall seek or consent to or acquiesce in or suffer the appointment of any trustee, receiver, custodian, assignee, sequestrator, liquidator or other similar official of the University, or of all or any substantial part of its properties (in each case, to the extent applicable to a municipality), or (D) takes any action in furtherance of any action described in this Section 16.2(a)(v); or if within 90 Days after the commencement of any proceeding against the University seeking any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States Bankruptcy Code or any other present or future applicable Law, such proceeding has not been dismissed, or if, within 90 Days after the appointment, without the consent or acquiescence of the University, of any trustee, receiver, custodian, assignee, sequestrator, liquidator or other similar official of the University or of all or any substantial part of its properties (in each case, to the extent applicable to a municipality), such appointment has not been vacated or stayed on appeal or otherwise, or if, within 90 Days after the expiration of any such stay, such appointment has not been vacated; or

(vi) the University repudiates in writing any of its material obligations under this Agreement.

Notwithstanding the foregoing, a University Default shall not include any failure to perform its obligations under this Agreement (other than payment obligations) to the extent such failure is the result of Force Majeure.

(b) Remedies of Concessionaire Upon University Default. Upon the occurrence, and during the continuance, of a University Default, the Concessionaire may by notice to the University declare the University to be in default and may, subject to the provisions of Article 18, do any or all of the following as the Concessionaire, in its discretion, shall determine:

(i) terminate this Agreement by giving 60 Days’ prior notice to the University; provided, however, that the University shall be entitled to cure
