1. General

The Board is committed to ethical conduct and to fostering a culture of compliance with the laws and regulations which apply to the institutions and agencies under its governance.

2. Compliance Program

Each institution shall designate a chief compliance officer, approved by the Audit Committee (Committee), and shall ensure that the institution establishes a compliance audit program to be approved by the Committee which must address, at a minimum, the following:

a. A code of ethics which applies to all employees.

b. A published and widely disseminated list or index of all major compliance areas and responsibilities, and to categorize and prioritize these compliance areas and responsibilities by considering the risks, probability, and negative impact of potential events.

c. A mechanism for coordinating compliance oversight, monitoring and reporting. This includes a management level group or individual with authority to examine compliance issues and assist the chief compliance officer in investigating, monitoring, and assessing compliance and/or recommending policies or practices designed to enhance compliance.

d. A means of assuring institutional policies are regularly reviewed for compliance with current federal and state laws and regulations and Board policies.

e. Provision of adequate training to educate employees on the laws, regulations and institution policies that apply to their day-to-day job responsibilities.

3. Reporting

a. The chief compliance officer of each institution will prepare and submit a semi-annual compliance report in January and July, on a confidential basis, to Board counsel and the Committee noting all material compliance matters occurring since the date of the last report, and identifying any revisions to the institution’s compliance program.

For purposes of this policy, a compliance matter shall be considered material if any of the following apply:

- The perception of risk creates controversy between management and the internal auditor.
- It could have a material impact on the financial statements.
It is or could be a matter of significant public interest or exposure.
It may be reported in an external release of financial information.
It relates to key controls over financial information that are being designed or redesigned, have failed, or otherwise are being addressed by the organization.
It involves fraud related to management.
It leads to correction or enforcement action by a regulatory agency.
It involves potential financial liability in excess of $25,000

b. Notwithstanding the foregoing, a compliance matter with financial liability in excess of two hundred thousand dollars ($200,000) must be reported to the Committee as soon as reasonably practicable. A de minimus compliance matter need not be reported to the Committee at any time. A violation will be considered de minimus if it involves potential financial liability of less than twenty-five thousand dollars ($25,000) and is a matter that has not been recurring or is not otherwise indicative of a pattern of noncompliance. “Potential financial liability” means the estimated obligation by the institution to another party resulting from noncompliance.

c. Compliance concerns at agencies under the governance of the Board shall be reported to the Committee by the Board’s Executive Director when, in his/her discretion, the matter presents extraordinary ethical, legal, or fiduciary responsibilities or obligations.
