REPORT OF INDEPENDENT AUDITORS

Idaho State Board of Education
Idaho State University
Pocatello, Idaho

Report on the Financial Statements

We have audited the accompanying financial statements of Idaho State University (the "University") and its discretely presented component unit, Idaho State University Foundation, Inc. (the Foundation), as of and for the years ended June 30, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial statements of the Foundation, which represents the entirety of the University's discretely presented component unit as described in Note 14. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for that component unit, are based solely on the report of other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Idaho State University Foundation, Inc. were not audited in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

MOSS ADAMS_{LLP}

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of Idaho State University and its discretely presented component unit, as of June 30, 2016 and 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis listed in the table of contents and certain information in Note 11, *Pension Plan* and Note 12, *Postemployment Benefits Other Than Pensions* and labelled as "required supplementary information," be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2016 on our consideration of Idaho State University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Idaho State University's internal control over financial reporting and compliance.

A handwritten signature in dark ink that reads "Moss Adams LLP".

Management's Discussion and Analysis **For the fiscal year ended June 30, 2016**

INTRODUCTION

The following analysis and discussion provides an overview of the financial position and activities of Idaho State University (the University or ISU) for the fiscal year ended June 30, 2016, with comparative information for the fiscal year ended June 30, 2015. This overview has been prepared by management and should be read in association with the financial statements and accompanying footnote disclosures of the University included in this report.

PROFILE OF THE UNIVERSITY

Idaho State University, a Carnegie-classified doctoral research and teaching institution founded in 1901, attracts students from around the world to its Idaho campuses. At the main campus in Pocatello, and at locations in Meridian, Idaho Falls and Twin Falls, ISU offers access to high-quality education in more than 250 programs. Over 13,000 students attend ISU, receiving education and training in those programs. Idaho State University is the state's designated lead institution in health professions.

Idaho State University faculty and students are leading the way in cutting-edge research and innovative solutions in the areas of energy, health professions, nuclear research, teaching, humanities, engineering, performing and visual arts, technology, biological sciences pharmacy and business. Idaho State University combines exceptional academics amidst the grand natural beauty of the West. ISU is at the heart of an outdoor-lover's paradise and a short drive to some of America's greatest natural wonders and exciting outdoor recreation opportunities.

USING THE FINANCIAL STATEMENTS

Idaho State University's financial statements for the fiscal year 2016 are presented in this report for your review. Condensed operations and financial position data will be presented in this section in order to illustrate certain increases and decreases over fiscal year 2015. The emphasis of the following discussions about these statements will be on changes in current year data versus the prior year.

The financial statements presented in this report include the University and its discretely presented component unit, the Idaho State University Foundation, Inc. (Foundation). The financial reports include the University's Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

The financial statements are prepared in accordance with the generally accepted accounting principles and standards of the Governmental Accounting Standards Board (GASB). GASB establishes governmental accounting and financial reporting standards for state and local governments, including public colleges and universities.

Management's discussion and analysis highlights supplementary information regarding the Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position.

IMPACT FROM CHANGES IN FINANCIAL REPORTING REQUIREMENTS

GASB No 68, *Accounting and Financial Reporting for Pensions*, was implemented for the year ending June 30, 2015, which had significant implications for all public colleges and universities with defined-benefit pension plans. The cost of pension expense is now recognized during the employee service period – the time worked until separation or retirement. Each employer's proportionate share of the net pension liability is calculated based on the employer's annual contributions as a percentage of the contributions of all participating employers, and reported on the statement of net position along with deferred inflows and outflows relating to changes in the net pension liability. An adjustment to beginning net position for fiscal year 2015 was necessary to give a retroactive effect to the implementation of the standard. Fiscal year 2014 information has not been adjusted for comparative presentation. Deferred outflows are defined as a consumption of net assets that is applicable to a future reporting period. Deferred inflows are defined as an acquisition of net assets that is applicable to a future period.

FINANCIAL HIGHLIGHTS

The University's financial position at June 30, 2016, reflects gains over the previous record-breaking fiscal year.

- Assets increased by \$1.7 million to end the year at \$344.5 million.
- Liabilities increased by \$3.7 million to end the year at \$100.0 million.
- Net position, invested in capital assets totaled \$127.0 million, an increase of \$0.4 million.
- Net position, which is the residual of assets and deferred outflows after deducting liabilities and deferred inflows, increased by \$4.1 million to end at \$245.2 million.

Other significant changes to operations were as follows:

- Operating revenues totaled \$141.8 million, an increase of \$0.6 million.
- Operating expenses totaled \$248.3 million, an increase of \$19.7 million.
- Nonoperating revenues, net of expense, totaled \$110.8 million, a decrease of \$1.0 million.

CONDENSED FINANCIAL INFORMATION AND ANALYSIS

Financial Position - Statement of Net Position

The Statement of Net Position is a snapshot at a point in time, June 30, 2016 (fiscal year end), of the University's financial position. It reports the University's assets and deferred outflows (financial resources), liabilities and deferred inflows (financial obligations), and net position (remaining balance in assets after paying creditors) based on end-of-year data.

Assets are classified as current, noncurrent, or capital. Current assets can be expected to easily convert to cash to meet the University's expenses within 12 months and include cash and cash equivalents, accounts receivable, inventories, prepaid expenses, and investments. Noncurrent assets

can be expected to be held more than one year and include items such as, student loans receivable. Capital assets are reported net of accumulated depreciation and include construction in progress, furniture and equipment, land, buildings, and improvements.

Liabilities are classified as current or noncurrent. Current liabilities are obligations that are due and payable within 12 months and include payroll and benefits, amounts payable to suppliers for goods and services received, and debt principal payments due within one year. Noncurrent liabilities are obligations payable after more than one year and include installment contracts and bond commitments.

Deferrals represent the consumption and acquisition of resources applicable to future reporting periods. Deferred outflows of resources reflect expenditures applicable to future reporting periods and so will not be recognized as an expense until then. Deferred inflows of resources are revenue that is associated with future reporting periods and so it will not be recognized as revenue until then.

Liquidity is an important indicator of financial stability, which can be measured by the number of days an institution is able to operate using unrestricted cash and investments that can be liquidated and spent within one year. The University has maintained its ability to cover operating costs (see ratios later in this section). Within the industry, it is generally considered prudent to maintain reserves to cover operating expenses for at least 60 to 90 days. At fiscal year end, the University has significantly better coverage than the industry average.

Net position is divided into three categories:

- **Net investment in capital assets:** represents capital assets net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.
- **Restricted, expendable:** consists of funds subject to restrictions established by outside entities directing their use, such as scholarships, research sponsors, loans, capital projects, and debt service.
- **Unrestricted:** represent those funds available to the University for the general and educational obligations to meet current expenses for any purpose. Unrestricted net assets are not subject to externally imposed stipulations; however, the University has designated the majority of unrestricted net assets for various academic programs and university support functions.

SUMMARIZED STATEMENTS OF NET POSITION

The *Statement of Net Position* reflects the financial position of the University at the end of the fiscal year. The sum of assets and deferred outflows, less liabilities and deferred inflows, represents net position. Changes in net position occur over time and are one important indicator of the financial condition of the University. Net Position is presented in three major categories on the statement, each of which is described in more detail within the footnotes to the statements. A summary comparison of

the assets, deferred outflows, liabilities, deferred inflows, and net position for the years ended June 30, 2016, 2015, and 2014 is presented below.

Schedule of Net Position

	June 30, 2016	June 30, 2015	2016 vs 2015 Change	June 30, 2014
Assets:				
Current Assets	\$ 170,695,382	\$ 164,011,927	\$ 6,683,455	\$ 142,751,585
Noncurrent Assets	173,770,417	178,737,418	(4,967,001)	180,629,916
Total Assets	344,465,799	342,749,345	1,716,454	323,381,501
Deferred outflows of resources	8,599,691	3,964,810	4,634,881	566,757
Liabilities:				
Current Liabilities	37,133,064	35,082,474	2,050,590	33,383,756
Noncurrent Liabilities	62,825,387	61,174,040	1,651,347	59,050,041
Total Liabilities	99,958,451	96,256,514	3,701,937	92,433,797
Deferred inflows of resources	7,870,309	9,350,207	(1,479,898)	29,795
Net Position:				
Invested in capital assets	126,984,356	126,573,391	410,965	123,062,611
Restricted, expendable	5,053,113	4,961,978	91,135	5,267,523
Unrestricted	113,199,261	109,572,065	3,627,196	103,154,532
Total Net Position	\$ 245,236,730	\$ 241,107,434	\$ 4,129,296	\$ 231,484,666

SIGNIFICANT CHANGES IN THE STATEMENTS OF NET POSITION

- The total net position of the University at June 30, 2016, was \$245.2 million, an increase of \$4.1 million over the prior year. The University's total net position includes its investment in capital assets, net of related debt, which increased \$0.4 million to \$127.0 million. The restricted portion of net position increased \$0.1 million to \$5.0 million, and the unrestricted portion of net position increased \$3.6 million to a total of \$113.2 million.
- In 2016, the increase in current assets is largely due to the increases in cash and cash equivalents of \$6.8 million and cash with treasurer of \$10.0 million, which was partially offset by a decrease of \$10.4 million in accounts receivable. The primary drivers of decline in noncurrent assets is attributed to net capital assets, which decreased \$4.8 million and the \$0.1 million decline in student loans receivable. Deferred outflows of resources is up \$4.6 million due to increases in deferred outflow for pensions of \$4.2 million and deferred cost of refunding of \$0.4 million.
- During the current fiscal year, total liabilities increased by \$3.7 million, primarily due to increases in current liabilities of \$2.0 million and to a net increase in noncurrent liabilities of \$1.7 million. Noncurrent liability increases in other post-employment benefits payable of \$0.8 million and pension liability of \$5.2 million were partially offset by declines in notes and bonds payable for debt service payments of \$4.3 million. Deferred inflows of resources reflect a decrease of \$1.5 million due to a reduction in deferred inflow for pensions.

Financial Health Indicators

There are a number of ratios used to evaluate financial health of institutions. Each ratio measures one aspect of performance. The Composite Financial Index (CFI), combines four core ratios into a single metric. Blending the four key metrics of financial health into a single number provides a more balanced view of the institution's financial health. A shortcoming in one measure may be offset by the strength of another measure.

The four core ratios are the viability ratio, the net operating revenues ratio, the return on net assets ratio and the primary reserve ratio. Each of these ratios is adjusted for their strength factor using a common scale then multiplied by the designated weighting factors and summed to compute the composite financial index.

The graph that follows displays the CFI of Idaho State University over the past eight years compared to the benchmark established for universities in the State of Idaho by the State Board of Education. The ratio was climbing until the 2012 dip in revenues driven by the decline in state appropriations. At that time the University put proactive actions in place to generate greater diversity of revenues in combination with strategic spending reduction plans driving performance increases in 2013-2015. The significant increase in operating expense in 2016 is the primary driver of the CFI decline over last year. Operating expense growth is driven by increases in personnel, repairs and maintenance in the facilities of the University.

Results of Operations - Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses and Changes in Net Position is comparable to the income statement of for-profit entities. It reflects the sources and amounts of revenues earned and the expense types and amounts incurred during the year, grouped as operating, nonoperating or other. The

statement of revenues, expenses, and changes in net position reports the revenues earned and expenses incurred during the year on an accrual basis, identified as operating and nonoperating activities as prescribed by GASB.

Operating revenues represent the funds obtained from providing goods and services to the University's customers. They include tuition and fees, grant and contract payments, and sales and service revenue generated by student housing, student dining, and other University operations. Operating expenses are those expenditures made to acquire or produce the services provided to generate operating revenues and in carrying out the mission of the University.

Nonoperating revenues are resources for which goods and services are not provided and include state appropriations, federal student aid, gifts, and investment income. Nonoperating expenses include such expenditures as interest expense on long-term debt and amortization of bond insurance costs. One of ISU's primary sources of revenue is appropriations provided by the state of Idaho, which, as directed by GASB standards, are classified as nonoperating revenue. As a result, the University's financial statements typically show an operating loss. A more comprehensive assessment of the operations of the University is reflected in the change in net position at the end of the year.

Other revenues and expenses include capital gifts or grants and gains or losses on the disposal of capital assets.

SUMMARIZED STATEMENTS OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

A comparative statement summarizing the University's revenues, expenses, and changes in net position for the years ended June 30, 2016, 2015, and 2014, is shown below.

Summary Statement of Revenues, Expenses, and Changes in Net Position				
	2016	2015	2016 vs 2015 Change	2014
Operating revenues				
Student tuition and fees (net of scholarship discounts and allowances)	\$ 87,208,911	\$ 88,206,974	\$ (998,063)	\$ 80,067,373
Federal grants and contracts	10,019,841	9,290,225	729,616	8,267,766
State and local grants and contracts	12,249,400	11,733,975	515,425	10,964,430
Private grants and contracts	7,251,844	7,012,923	238,921	7,409,810
Sales and services of educational activities	6,979,623	7,311,610	(331,987)	6,757,178
Sales and services of auxiliary enterprises	14,236,801	14,015,044	221,757	13,507,916
Other	3,858,144	3,678,615	179,529	3,560,921
Total operating revenues	141,804,564	141,249,366	555,198	130,535,394
Operating expenses	248,285,034	228,567,678	19,717,356	219,960,108
Operating loss	(106,480,470)	(87,318,312)	(19,162,158)	(89,424,714)
Nonoperating revenues/(expenses)				
State appropriations	86,773,095	83,835,488	2,937,607	79,825,405
State Department of Public Works	3,408,499	4,985,344	(1,576,845)	2,593,121
Title IV grants	16,668,145	18,879,046	(2,210,901)	21,120,080
Gifts	5,632,083	5,843,281	(211,198)	5,994,344
Net investment income	189,275	195,658	(6,383)	107,819
Amortization of bond insurance costs	(6,936)	(7,267)	331	(7,267)
Bond issuance costs	(185,960)	-	(185,960)	-
Interest on capital asset related debt	(1,704,084)	(1,923,003)	218,919	(2,068,697)
Net nonoperating revenues	110,774,117	111,808,547	(1,034,430)	107,564,805
Other expenses				
Loss on disposal of fixed assets	(164,351)	(85,380)	(78,971)	95,764
Net other expenses	(164,351)	(85,380)	(78,971)	95,764
Increase in net position	4,129,296	24,404,855	(20,275,559)	18,235,855
Net position - beginning of year	241,107,434	231,484,666	9,622,768	213,248,811
Cummulative effect of implementing GASB 68 (Note 2)	-	(14,782,087)	14,782,087	-
Net position - beginning of year (as restated)		216,702,579	24,404,855	
Net position - end of year	\$ 245,236,730	\$ 241,107,434	\$ 4,129,296	\$ 231,484,666

SIGNIFICANT CHANGES IN THE STATEMENTS OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

- Total revenues for the year ended June 30, 2016, were \$254.5 million, representing an increase of \$0.4 million over fiscal year 2015. Below is a graphic illustration of revenues by source (both operating and nonoperating) for the years ended June 30, 2016 and 2015.

Operating Revenue from all Sources

As the above graphs show, the University's primary sources for revenue are state appropriations and tuition and fees. State appropriations contribute a significant share of the funds needed for instructional activities. Tuition and fees represent the next largest source of revenue.

- **State Appropriations:** The largest component of nonoperating revenue is state appropriations. In 2016, state funding increased overall by \$1.4 million, or 1.5%, over the prior year. The largest increase was in state appropriations for general education totaling \$71.0 million in 2016 and \$68.0 million in 2015, a 4% increase amounting to \$3.0 million. Funding from the Department of Public Works (DPW) fluctuates from year to year depending on the number and extent of building projects, finishing the year with a \$1.6 million decline over 2015. Increases in endowment income and other state appropriations were offset by a decline in professional technical education.
- **Tuition and Fees:** The enrollment profile continues to reflect a decline in the student population. Tuition and fee revenue reflects a decline of \$1.0 million over the prior year with a total of \$87.0 million.
- **Grants and Contracts:** Fiscal year 2016 showed an increase in federal grants and contracts revenue over the prior year of \$0.73 million to \$10.0 million. Private grant revenue was \$7.3 million in 2016, up \$0.24 million from 2015. State grant revenue increased by \$0.51 million over 2015 to \$12.2 million for 2016. In total, grant revenue increased by \$1.48 million in 2016 to \$29.5 million.

Management's Discussion and Analysis

- Federal Title IV Grants: There was a \$2.2 million decrease in Title IV revenue from the prior year. This decrease was due to the federal government restricting Pell grant availability, and tightening the eligibility requirements, coupled with declining domestic enrollment.
- Sales and Services: Revenue decreased \$0.1 million to \$21.2 million for fiscal year 2016.
- Other Revenue: Revenues increased \$0.2 million to \$3.9 million in 2016.

Expenses

Operating expenses consist mainly of employee compensation, supplies and services costs, and student scholarships and fellowships that enable us to carry out the mission of the University. Nonoperating expenses are generally those associated with interest on debt and the disposal loss of fixed assets. Salaries, wages, and benefits are the major support cost for the University's programs, followed by services and supplies, scholarships, and other operating expenses. Embedded in the personnel costs is the pension expense recorded as a result of the adoption of GASB 68. GASB 68 implemented in 2015 required pension expense for defined-benefit plans to be actuarially determined instead of cash contributions made to the plan during the fiscal year. The table below compares expenses for fiscal years ending June 30, 2016, 2015, and 2014.

Summary Statement of Expenses				
	2016	2015	2016 vs 2015 Change	2014
Operating Expenses				
Personnel costs	\$ 160,776,462	\$ 149,425,555	\$ 11,350,907	\$ 143,971,434
Services	30,142,180	26,747,825	3,394,355	24,862,319
Supplies	18,916,787	14,823,343	4,093,444	11,891,858
Insurance, utilities and rent	7,486,150	7,350,446	135,704	7,466,242
Scholarships and fellowships	11,960,896	12,514,538	(553,642)	14,302,237
Depreciation expense	12,776,292	12,622,576	153,716	12,781,070
Other operating expenses	6,226,267	5,083,395	1,142,872	4,684,948
Total operating expenses	<u>\$ 248,285,034</u>	<u>\$ 228,567,678</u>	<u>\$ 19,717,356</u>	<u>\$ 219,960,108</u>
Nonoperating Expenses				
Amortization of bond insurance costs	\$ 6,936	\$ 7,267	\$ (331)	\$ 7,267
Bond issuance costs	185,960	-	185,960	-
(Gain) or loss on disposal of fixed assets	164,351	85,380	78,971	(95,764)
Interest on capital asset related debt	1,704,084	1,923,003	(218,919)	2,068,697
Total nonoperating expenses	<u>\$ 2,061,331</u>	<u>\$ 2,015,650</u>	<u>\$ 45,681</u>	<u>\$ 1,980,200</u>

An alternative view of operating expenses is by functional (programmatic) classification. Instructional expenses by far comprise the largest single category of operating costs. Fluctuations in expenses for maintenance and operations are largely impacted by noncapitalized facility improvements associated with project expenses that are not capitalized to an asset. The amount varies by year depending on several factors including the types and timing of projects undertaken. See Footnote 13 for additional details regarding functional expenses.

- Operating expenses in fiscal year 2016 increased by \$19.7 million, or 9%, from the prior year. The largest component of this increase is personnel costs of \$11.4 million. Other increases included services and supplies, which increased by \$3.4 and \$4.1 million, respectively, and a \$1.1 million increase in miscellaneous expenses. Scholarships and fellowships, insurance, utilities and rent, and depreciation decreased by a total of \$0.3 million. Key drivers of services and supplies were building services at an increase of \$2.3 million, and building materials and supplies also at an increase of \$2.3 million.
- Nonoperating expenses in fiscal year 2016 remained relatively flat.

CASH FLOWS

The statement of cash flows presents the inflows and outflows of cash for the year; summarized by operating, noncapital financing, capital and related financing, and investing activities.

The various sources of cash, along with their application and use, are presented in the *Statement of Cash Flows*. This analytical perspective is useful in assessing the ability of the University to satisfy its financial obligations as they come due. The statement classifies the flow of cash in the following four categories.

Operating activities – Displays the net cash flow required to conduct the day-to-day operating activities of the University and reflects the continued need for funding from the state of Idaho.

Noncapital financing activities – Reflects the net cash flow of nonoperating transactions not related to investing or capital financing activities, and includes funds provided by state appropriations.

Capital and related financing activities – Includes payments for the acquisition of capital assets, proceeds from long-term debt, and debt repayment.

Investing activities – Details the funds involved in the purchase and sale of investments and reflects the change in rates of return on invested funds.

The statement summarizes the net cash flow and reconciles to the operating income or loss, as reflected on the *Statement of Revenues, Expenses, and Changes in Net Position*.

A comparative summary of the *Statement of Cash Flows* for the years ended June 30, 2016, 2015, and 2014, is presented below.

Summary Statement of Cash Flows				
	2016	2015	2016 vs 2015 Change	2014
Cash and cash equivalents (used in) or provided by:				
Operating activities	\$ (89,325,088)	\$ (74,819,842)	\$ (14,505,246)	\$ (69,063,536)
Noncapital financing activities	119,760,013	96,584,043	23,175,970	104,717,232
Capital and related financing activities	(13,656,652)	(15,091,402)	1,434,750	(13,645,211)
Investing activities	18,088	17,009	1,079	(14,944,746)
Net increase in cash	16,796,361	6,689,808	10,106,553	7,063,739
Cash and cash equivalents, beginning of year	110,790,792	104,100,984	6,689,808	97,037,245
Cash and cash equivalents, end of year	<u>\$ 127,587,153</u>	<u>\$ 110,790,792</u>	<u>\$ 16,796,361</u>	<u>\$ 104,100,984</u>

For purposes of the *Statement of Cash Flows*, the University considers all highly liquid investments with an original maturity of three months or less and all nonnegotiable certificates of deposit to be cash equivalents.

CAPITAL ASSET AND DEBT ACTIVITIES

The University considers the effective management of the institution's physical resources as a fundamental element of its financial stewardship, including the prudent use of debt to finance such resources. The development and maintenance of our physical resources is a key factor in creating and sustaining a learning environment that permits education to flourish, but continues to be a challenge due to lack of adequate funding.

Capital Assets

Idaho State University's total capital assets decreased by \$4.8 million; from \$177.3 million in 2015 to \$172.5 million in 2016, with depreciation expense outpacing capital additions.

	<u>June 30, 2016</u>	<u>June 30, 2015</u>	<u>Change</u>
Land	\$ 5,012,553	\$ 5,012,553	\$ -
Construction in progress	2,861,766	1,763,051	1,098,715
Buildings, net	138,556,827	144,119,834	(5,563,007)
Intangibles, net	1,384,039	1,494,762	(110,723)
Equipment, net	14,310,538	13,790,562	519,976
Library materials, net	10,367,190	11,105,668	(738,478)
Total capital assets, net	<u>\$ 172,492,913</u>	<u>\$ 177,286,430</u>	<u>\$ (4,793,517)</u>

A summary of changes in capital assets is disclosed in Note 6.

Debt

Total notes and bonds payable declined by \$4.8 million from \$51.3 million at June 30, 2015, to \$46.5 million at June 30, 2016. The University completed advance refunding of its 2004B and 2007 series bonds to reduce its total debt service payments over the next 18 years and obtain an economic gain of \$1.9 million. The University continues to pay down existing debt according to the debt schedule detailed in the notes of this report.

	<u>June 30, 2016</u>	<u>June 30, 2015</u>	<u>Change</u>
Notes and bonds payable	<u>\$ 46,470,693</u>	<u>\$ 51,277,411</u>	<u>\$ (4,806,718)</u>

A summary of changes in debt is disclosed in Note 8.

Debt Ratios

The debt service coverage ratio provides an indicator of the University's ability to repay annual principal and interest relative to its overall expenses. The graph below shows the University's debt service ratio for the past eight years and indicates the University has sufficient resources to pay its long-term debt obligations 2.61 times over. The decline in 2016 is driven by the increase in operating loss, due to operating expense increases for personnel, repairs and maintenance in the facilities of the University.

ECONOMIC OUTLOOK

The financial position of Idaho State University has remained stable for the past several years, as we move into 2017 enrollment will be our top priority and challenge. Enrollment is a significant driver of funding for the University and presents challenges due to increasing competition for students, a low unemployment rate in the region and Idaho's bottom 10 ranking of students who go on and finish a four year college degree. Consistent with state trends in higher education, the University is projecting enrollment declines in the 2016 Fall semester. Leadership has implemented the first year of a multi-year enrollment management plan, focused on driving improvements in enrollment and student retention. Further, operating expenses will continue to grow due to state approved employee compensation increases and repairs and maintenance in the facilities of the University. As a result, financial performance will be under pressure in 2017.

During the year, the University proposed and received approval for a 2.5% tuition and fee increase for fiscal year 2017, the lowest increase in 28 years. ISU is and remains extremely competitive in tuition and fees, even after the increase, which is essential in enabling the University to balance its budget and continue to provide quality educational opportunities to students. The University's general state appropriation for fiscal year 2017 has increased by 8.5% over 2016 providing key support for operations.

Through the Institutional Effectiveness and Assessment Council, the University's leadership evaluates regularly the adequacy of its resources, capacity, and effectiveness of operations to document its ongoing potential to fulfill its mission, accomplish its core theme objectives, and achieve the goals or intended outcomes of its programs and services, wherever offered and however delivered. Investments in student recruiting and financial incentives are aimed at attracting and retaining the student population. Implementation of a campus-wide, university strategic planning process is being utilized to achieve a consistent and focused approach to ensure utilization of resources is aligned with the mission of the University. The core themes of learning and discovery, access and opportunity, leadership in health sciences, and community engagement and impact are at the forefront of prioritizing the investments of the University. The strategic plan will guide the University with long-term planning that supports the achievement of the vision and mission fulfillment.

The audited financial statements included in this report, along with the accompanying notes to the financial statements, provide pertinent information and details related to the financial activities discussed in this analysis.

See Accompanying Notes to Financial Statements

IDAHO STATE UNIVERSITY Notes to Financial Statements Years Ended June 30, 2016 And 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Idaho State University (the University) is part of the public system of higher education in the State of Idaho (the State). The system is considered part of the State of Idaho financial reporting entity. The State Board of Education (SBOE), appointed by the Governor and affirmed by the legislature, directs the system. The University is headquartered in Pocatello, Idaho with satellite campuses in Idaho Falls, Meridian, and Twin Falls, Idaho. Significant accounting policies are described below to enhance the usefulness of the financial statements to the reader.

Financial Reporting Entity

The Idaho State University Foundation, Inc. (the Foundation) is considered a component unit of the University as defined by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - and amendment of GASB Statements No. 14 and No. 34*. As such, the Foundation is discretely presented for fiscal years ended June 30, 2016 and 2015. Additional detail and discussion related to the Foundation can be found in Note 14 of this report.

Basis of Accounting

For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

Cash Equivalents

The University considers all liquid investments with a remaining maturity of three months or less at the date of acquisition and all nonnegotiable certificates of deposit to be cash equivalents.

Cash with Treasurer

Balances classified as Cash with Treasurer are amounts that are required to be remitted to the State of Idaho as a result of the student fee collection process and, once remitted, these balances are under the control of the State Treasurer. Interest accruing on the balance is maintained in a separate fund and must be appropriated by the legislature before any expenditure can occur.

Investments

The University accounts for its investments at fair value. Investment income is recorded on the accrual basis. Changes in unrealized gains and losses on the carrying value of investments are

reported as a component of net investment income in the Statement of Revenues, Expenses, and Changes in Net Position.

Student Loans Receivable

Loans receivable from students bear interest at rates ranging from 3.00% to 7.00% and are generally payable to the University in installments over a 5 to 10 year period, commencing 6 or 9 months after the date of separation from the University.

Accounts Receivable

Accounts receivable consist of fees charged to students as well as auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Idaho. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories

Inventories, consisting primarily of items held by University Stores, are valued at the lower of first-in, first-out ("FIFO") cost or market.

Capital Assets

Capital assets are stated at cost when purchased or constructed, or if acquired by gift, at the estimated fair value at date of the gift. The University's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life of greater than one year. Intangible assets with a unit cost of \$200,000 or more and an estimated useful life of greater than one year are recorded as capital assets. Renovations to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the period in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 12 to 25 years for land improvements, 10 years for library books, and 5 to 13 years for equipment.

The University houses collections at the Idaho Museum of Natural History that it does not capitalize. These collections adhere to the University's policy to (a) maintain them for public exhibition, education, or research; (b) protect, keep unencumbered, care for, and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. The University charges these collections to operations at the time of purchase, in accordance with generally accepted accounting principles.

Deferred Inflows and Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that apply to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that apply to a future period and so will not be recognized as an inflow of resources (revenue) until then.

Unearned Revenues

Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year, but related to the subsequent accounting period. Unearned revenues also includes amounts received from grant and contract sponsors that have not yet been earned.

Compensated Absences

Employee vacation pay that is earned but unused is accrued at year-end for financial statement purposes. Amounts included in accrued salaries and benefits payable in the statement of net position are \$5,485,812 and \$5,217,489 at June 30, 2016 and 2015, respectively.

Noncurrent Liabilities

Noncurrent liabilities include the principal portions of revenue bonds payable, notes payable with contractual maturities greater than one year, and other post-employment benefits payable.

Net Position

Net position is identified as the residual of all elements presented in the statement of financial position. The University's net position is classified as follows:

Invested in Capital Assets – This represents the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted, Expendable – Restricted, expendable includes resources, which the University is legally or contractually obligated to use in accordance with restrictions imposed by external third parties.

Unrestricted – Unrestricted represents resources, derived from student fees, state appropriations, and sales and services of educational departments and auxiliary enterprises.

These resources are used for transactions related to the educational and general operations of the University, and may be used at the discretion of the institution to meet current expenses for any lawful purpose and in accordance with SBOE policy.

Income and Unrelated Business Income Taxes

The University, as a political subdivision of the State of Idaho, is excluded from Federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. The University is liable for tax on its unrelated business income. Defined by the Internal Revenue Code, unrelated business income is income from a trade or business, regularly carried on, that is not substantially related to the performance by the organization of its exempt purpose or function. The University did not incur unrelated business income tax expense in the fiscal years ended June 30, 2016 or 2015.

Classification of Revenues

The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating Revenues – Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student fees net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, (3) most federal, state, and local grants and contracts and federal appropriations, and (4) interest on institutional student loans.

Nonoperating Revenues – Nonoperating revenues include activities that have the characteristics of nonexchange transactions such as gifts and contributions, and other revenue resources defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

Scholarship Discounts and Allowances

Student fee revenues are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount paid by students or other third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants and other federal, state, or nongovernmental programs, are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy student fees and related charges, the University has recorded a scholarship discount and allowance.

Pensions

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of

employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Use of Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements, and revenues and expenses during the year. Actual results could differ from those estimates.

Accounting Standards Implemented

The University implemented the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*, effective for the fiscal year ending June 30, 2016. GASB issued Statement No. 72 defines fair value, how fair value is measured, what assets and liabilities should be measured at fair value, and what information about fair value should be reported in the notes to the financial statements. GASB Statement No. 72 requires disclosures about fair value measurements, the level of fair value hierarchy, and valuation techniques. (See footnote 3.)

The University was required to implement the provisions of *GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. GASB Statement No. 68 was effective for the fiscal year ending June 30, 2015. The primary objective of this Statement is to improve accounting and financial reporting of pensions by state and local governments. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. Note disclosure and required supplementary information requirements about pensions are also addressed. The University participates in the State's defined benefit retirement plan where the benefits and obligations to contribute to the plan are established, and may be amended by, the Idaho State Legislature. The State administers the plan and provides its component units the respective pension benefit and obligation amounts.

The University was required to implement the provisions of *GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. The provisions of this Statement were required to be applied simultaneously with the provisions of GASB Statement No. 68, which was effective for the fiscal year ending June 30, 2015. The primary objective of this Statement is to address an issue regarding application of the transition provisions of GASB Statement No. 68.

2. RESTATEMENT OF NET POSITION

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, was effective for financial statement periods beginning after June 15, 2014, with the effects of accounting changes to be applied retroactively by restating the financial statements. The Statement requires the University record its proportionate share of the defined benefit pension obligations for active, inactive and retired

employees receiving retirement benefits under the Public Employee Retirement System of Idaho ("PERSI").

The University adopted this new pronouncement in fiscal year 2015. It was not practical for PERSI to determine the amounts of all deferred inflows of resources and deferred outflows of resources related to pensions as of the beginning of the plan year, fiscal year 2015. As a result, the prior year, fiscal 2014, was not restated for deferred inflows of resources, deferred outflows of resources, net pension liability and pension expense. Since the restatement of fiscal year 2014 was not practical, the cumulative effect of applying this Statement was reported as a restatement of beginning net position as of June 30, 2014.

Net Position Restated – The cumulative effect of implementing GASB 68 decreases the beginning net position for fiscal year 2015 by \$14,782,087 from \$231,484,666 to \$216,702,579.

	As Previously Reported June 30, 2014	Restated June 30, 2014	Cummulative Effect of Change
Deferred outflows of resources for pensions	\$ -	\$ 2,822,012	\$ 2,822,012
Net pension liability	-	17,604,099	17,604,099
Net position	231,484,666	216,702,579	(14,782,087)

3. CASH WITH TREASURER, CASH AND CASH EQUIVALENTS, OTHER DEPOSITS, AND INVESTMENTS

Cash with Treasurer, Cash and Cash Equivalents, and Other Deposits

Cash with Treasurer is under the custody of the Idaho State Treasurer and is carried at cost. The University's deposits are maintained in commercial checking accounts which, as of June 30, 2016, have insurance coverage up to \$250,000 through the Federal Deposit Insurance Corporation (FDIC). At June 30, 2016 and 2015, total deposits consisted of the following:

	2016	2015
Cash	\$ 43,074,153	\$ 35,465,410
Cash equity with the State Treasurer	88,728,363	78,723,465
Total deposits	<u>\$ 131,802,516</u>	<u>\$ 114,188,875</u>

The deposit amounts subject to custodial credit risk at June 30, 2016 and 2015 consisted of the following:

Basis of Custodial Credit Risk As of June 30

	2016	2015
Insured	\$ 250,000	\$ 250,000
Uncollateralized	-	-
Collateralized by securities held by the pledging financial institution	42,824,153	35,215,410
Total deposits	\$ 43,074,153	\$ 35,465,410

At June 30, 2016 and 2015, the University had \$135,113 and \$161,453, respectively, of cash on hand in various change funds. The carrying amount of the University's cash and cash equivalents at June 30, 2016 and 2015, was \$127,587,153 and \$110,790,792, respectively. The net difference between deposits and the carrying amount of cash and cash equivalents is a reflection of deposits in transit, outstanding checks, and investment of the daily float.

Investments

The general investment policy of the University as adopted by the State Board of Education outlines that investments in securities are to be made with the objective of maximizing long-term total return, ensuring safety of principal, and providing satisfactory current income. Investments generally include direct obligations of the U.S. government and its agencies, municipal and corporate bonds, mortgage-backed securities, mutual funds, and certificates of deposit. These securities are recorded at fair value in the statement of net position. Investment income, including change in fair value of investments, is recognized as revenue in the statement of revenues, expenses, and changes in net position.

Investments Measured at Fair Value

Fair Value is described as an exit price. Fair value measurements assume a transaction takes place in a government's principal market or a government's most advantageous market in the absence of a principal market. The fair value also should be measured assuming that general market participants would act in their economic best interest. Fair value does not take into consideration transaction costs. The following tables classify the fair value of the University's investments at June 30, 2016 and 2015, respectively:

	June 30, 2016	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level				
Certificates of deposit	\$ 5,450,072	\$ -	\$ 5,450,072	\$ -
Debt securities				
Fixed income - Government Bonds	300,800	-	300,800	-
Fixed income - Corporate Bonds	14,657,794	-	14,657,794	-
Total debt securities	14,958,594	-	14,958,594	-
Total investments by fair value	\$ 20,408,666	\$ -	\$ 20,408,666	\$ -

Notes to the Financial Statements

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level	June 30, 2015			
Certificates of deposit	\$ 4,960,143	\$ -	\$ 4,960,143	\$ -
Debt securities				
Fixed income - Government Bonds	752,280	-	752,280	-
Fixed income - Corporate Bonds	14,525,196	-	14,525,196	-
Total debt securities	15,277,476	-	15,277,476	-
Total investments by fair value	\$ 20,237,619	\$ -	\$ 20,237,619	\$ -

Certificates of deposit and debt securities classified in Level 2 of the fair value hierarchy are valued using a variety of pricing techniques, including but not limited to fundamental analytical data related to the securities, values of baskets of securities, market interest rates, matrix calculated prices, and purchase price. The University does not hold any securities that would be classified as Level 1, quoted in active markets, or Level 3, significant unobservable inputs, for fair value measurement.

The following table represents the fair value of investments by type and interest rate risk at June 30, 2016 and 2015, respectively:

Fiscal Year	University Investments	Fair Value	Investment Maturities		
			1-3 years	3-5 years	5+ years
2016	Fixed Income - CD	\$ 5,450,072	\$ 3,442,521	\$ 2,007,551	\$ -
2016	Fixed Income - Corporate Bonds	300,800	300,800	-	-
2016	Fixed Income - Government Bonds	14,657,794	6,047,063	7,090,266	1,520,465
		<u>\$ 20,408,666</u>	<u>\$ 9,790,384</u>	<u>\$ 9,097,817</u>	<u>\$ 1,520,465</u>
2015	Fixed Income - CD	\$ 4,960,143	\$ 2,705,322	\$ 2,254,821	\$ -
2015	Fixed Income - Corporate Bonds	752,280	503,410	248,870	-
2015	Fixed Income - Government Bonds	14,525,196	4,218,646	4,136,305	6,170,245
		<u>\$ 20,237,619</u>	<u>\$ 7,427,378</u>	<u>\$ 6,639,996</u>	<u>\$ 6,170,245</u>

Credit Risk

Credit risk is the risk the issuer or other counterparty to an investment will not fulfill its obligation, causing the University to experience a loss of principal, or that negative perceptions of issuer's ability to make these payments will cause prices to decline. The University does not presently have a formal policy that addresses credit risk.

Fixed income investment ratings as of June 30, 2016, are presented below using credit risk ratings issued upon standards set by Moody's Investors Service. 'Aaa' rated obligations are judged to be of the highest quality, with minimal credit risk. 'Aa' rated obligations are judged to be of high quality

and are subject to very low credit risk. 'A' rated obligations are considered upper-medium grade and are subject to low credit risk. Issuers rated 'NP' or 'Not Prime' do not fall within any of the prime rating categories.

Fiscal Year	University Investments	Fair Value	Credit Rating				
			Aaa	Aa	A	NP	Unrated
2016	Fixed Income - CD	\$ 5,450,072	\$ 838,235	\$ -	\$ 1,654,987	\$ 1,453,279	\$ 1,503,571
2016	Fixed Income - Corporate Bonds	300,800	-	300,800	-	-	-
		<u>\$ 5,750,872</u>	<u>\$ 838,235</u>	<u>\$ 300,800</u>	<u>\$ 1,654,987</u>	<u>\$ 1,453,279</u>	<u>\$ 1,503,571</u>

Credit risk disclosed for Fixed Income – Government Bonds is related to the mutual funds' underlying assets. The mutual fund typically holds most of its exposure in mortgage-backed securities, including collateralized mortgage obligations, issued or guaranteed by U.S. Government agencies or government-sponsored entities. In addition, it targets maintaining an average credit quality rating that is equivalent to the highest rating available from a Nationally Recognized Statistical Rating Organization. According to GASB Statement No. 40, *Deposit and Investment Risk Disclosure*, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk.

Concentration of Credit Risk

Concentration of credit risk is defined per GASB Statement No. 40 as the risk of loss attributed to the magnitude of an investment in a single issuer other than the federal government. The Governmental Accounting Standards Board has adopted a principle that governments should provide note disclosure when 5 percent of investments are concentrated in any one issuer. At present, the University does not have a formal policy that addresses concentration of risk. The University did not have any investments at June 30, 2016 or 2015, that represented a 5 percent or greater concentration in any one issuer.

Custodial Credit Risk

Custodial credit risk for investments is defined as the risk that, in the event of a failure of the counterparty to a transaction, the University will not be able to recover the value of its investments that are in the possession of an outside party. The University does not have a policy that specifically addresses custodial credit risk. As of June 30, 2016, all investments were held by the University or its counterparty in the University's name.

Interest Rate Risk

Interest rate risk is the risk the value of fixed income securities will decline because of a change in interest rates. Currently, the University does not have a formal policy that addresses interest rate risk. Interest rate risk disclosed for Fixed Income – Government Bonds is related to the mutual funds' underlying assets.

Foreign Currency Risk

The University does not presently have a policy that addresses foreign currency risk. As of June 30, 2016, all investments held by the University were denominated in U.S. Dollars; therefore, no foreign currency risk needs to be considered at this time.

4. ACCOUNTS RECEIVABLE AND DUE FROM STATE AGENCIES

Accounts receivable and due from state agencies consisted of the following at June 30:

	2016	2015
Accounts receivable	\$ 20,277,890	\$ 28,672,213
Due from state agencies	3,634,429	4,022,347
	23,912,319	32,694,560
Less allowance for doubtful accounts	(3,825,771)	(1,826,349)
Net accounts receivable and Due from state agencies	<u>\$ 20,086,548</u>	<u>\$ 30,868,211</u>

5. STUDENT LOANS RECEIVABLE

Student loans made through the Federal Perkins Loan Program (the Program) comprise substantially all of the loans receivable at June 30, 2016 and 2015. Under the Program, the federal government provides approximately 75% of the funding for the Program, with the University providing the balance. The Program provides cancellation provisions for borrowers engaging in teaching, public service, service in the military or law enforcement, as well as other disciplines. The Department of Education reimburses the University each year for the principal and interest canceled in its Perkins Loan Fund for all of the cancellation provisions except death, total and permanent disability, and bankruptcy. The University must deposit this reimbursement into its Perkins loan fund. In the event the University should withdraw from the Program or the government were to cancel the Program, the amount the University would be liable for as of June 30, 2016 and 2015, is \$1,790,269 and \$1,993,473, respectively.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2016 and 2015, the allowance for uncollectible loans was \$647,875 and \$590,980, respectively.

6. CAPITAL ASSETS

Capital Assets at June 30, 2016 and 2015, consisted of the following:

	2016				Balance June 30, 2016
	Balance July 1, 2015	Additions	Retirements	Transfers	
Capital assets not being depreciated:					
Land	\$ 5,012,553	\$ -	\$ -	\$ -	\$ 5,012,553
Construction in progress	1,763,051	1,183,668	-	(84,953)	2,861,766
Total capital assets not being depreciated	6,775,604	1,183,668	-	(84,953)	7,874,319
Other capital assets:					
Buildings and improvements	249,052,362	351,626	-	84,953	249,488,941
Intangibles	2,214,462	-	-	-	2,214,462
Furniture, fixtures and equipment	52,500,741	4,906,391	(1,970,419)	-	55,436,713
Library materials	58,146,671	1,705,441	-	-	59,852,112
Total other capital assets	361,914,236	6,963,458	(1,970,419)	84,953	366,992,228
Less accumulated depreciation and amortization:					
Buildings and improvements	(104,932,528)	(5,999,586)	-	-	(110,932,114)
Intangibles	(719,700)	(110,723)	-	-	(830,423)
Furniture, fixtures and equipment	(38,710,179)	(4,222,064)	1,806,068	-	(41,126,175)
Library materials	(47,041,003)	(2,443,919)	-	-	(49,484,922)
Total accumulated depreciation and amortization	(191,403,410)	(12,776,292)	1,806,068	-	(202,373,634)
Other capital assets net of accumulated depreciation	170,510,826	(5,812,834)	(164,351)	84,953	164,618,594
Capital assets summary:					
Capital assets not being depreciated	6,775,604	1,183,668	-	(84,953)	7,874,319
Other capital assets	361,914,236	6,963,458	(1,970,419)	84,953	366,992,228
Capital assets	368,689,840	8,147,126	(1,970,419)	-	374,866,547
Less accumulated depreciation and amortization	(191,403,410)	(12,776,292)	1,806,068	-	(202,373,634)

The Performing Arts Center was constructed by the Foundation with contributions and the proceeds from the Foundation's Multi-Mode Variable Rate Revenue Bond, issued in 2001. The facility was constructed on land leased by the Foundation from the University for \$1 a year for a 20 year term. The land and improvements were, in turn, leased back to the University for \$1 a year for 20 years, with a provision that title to the improvements transfers to the University at the earlier of the end of the lease or retirement of the bonds. A security interest in the land and improvements is held through a Deed of Trust issued by the Foundation to Wells Fargo Bank, N.A. The excess of the fair value of the improvements (i.e., cost) over the gross rents payable by the University were recorded

as an asset of the University in recognition of the permanent transfer of rights of use to the University for only nominal consideration.

In addition to accounts payable for construction in progress, the estimated cost to complete property authorized or under construction at June 30, 2016, is \$3,609,545. These costs will be financed by available resources of Idaho State University.

7. UNEARNED REVENUES

Unearned revenues consist of the following at June 30:

	<u>2016</u>	<u>2015</u>
Student Fees	\$ 4,380,348	\$ 4,631,708
Auxiliary enterprises and other	1,001,523	581,462
Grants and contracts	1,467,668	1,359,348
Other ticket sales	57,248	53,775
	<u>\$ 6,906,787</u>	<u>\$ 6,626,293</u>

8. NONCURRENT LIABILITIES

Notes and bonds payable at June 30 consisted of the following:

Description	Balance Outstanding 6/30/2014	Additions	Reductions	Balance Outstanding 6/30/2015	Additions	Reductions	Balance Outstanding 6/30/2016	Amounts Due Within One Year
Note payable to a financial institution due in semi-annual installments varying from maximum of \$2,993,916 to \$16,696 plus interest of 5.08% through 09/01/2016	\$ 2,211,301	\$ -	\$ (924,257)	\$ 1,287,044	\$ -	\$ (946,487)	\$ 340,557	\$ 340,557
General Revenue Bonds, Series 2004A (original balance of \$4,980,000), consisting of serial bonds payable in annual amounts increasing periodically from \$210,000 to a maximum of \$375,000, plus interest from 2.00% to 4.375% through the year 2023. Advance Refunding of Debt – Series 2016 Bonds

On April 7, 2016, General Revenue Refunding Bonds, Series 2016, were issued by the University to refund 2004B and 2007 series bonds to achieve debt service savings and to pay the costs of issuance of the Series 2016 Bonds. The Series 2016 Bonds were issued in the aggregate principal amount of \$12,780,000 and bear interest from the date of issuance of 2% to 5% payable semiannually on April 1 and October 1 of each year, commencing on October 1, 2016.

The University completed the advance refunding to reduce its total debt service payments over the next 18 years by \$2.3 million and to obtain an economic gain (difference between the present values, on the bonds issuance date, of the prior and refunding debt service payments) of \$1.9 million.

Principal and interest maturities on notes and bonds payable in future periods for the year ending June 30, 2016, are as follows:

	Bonds		Notes	
	Principal	Interest	Principal	Interest
2017	\$ 4,357,000	\$ 1,693,743	\$ 340,557	\$ 8,650
2018	4,539,000	1,525,133	-	-
2019	4,715,000	1,354,523	-	-
2020	4,325,000	1,214,189	-	-
2021	4,530,000	1,062,564	-	-
2022-2026	15,125,000	2,912,354	-	-
2027-2031	5,135,000	642,825	-	-
2032-2034	1,245,000	64,950	-	-
	<u>\$ 43,971,000</u>	<u>\$ 10,470,281</u>	<u>\$ 340,557</u>	<u>\$ 8,650</u>

Pledged Revenue — Current outstanding issuances are 2004C, 2006, 2007, 2012, 2013, and 2016. The University has pledged certain revenues as collateral for these bonds. The pledged revenue amounts as of June 30 are as follows:

Pledged Revenues	2016	2015
	Student Facility Fee Revenue Bonds	
	Series 2004C, 2006, 2007, 2012, 2013, and 2016	
Matriculation fee	\$ 52,797,753	\$ 52,693,194
Student facilities fee	3,979,203	4,124,892
Revenue of student housing system	6,413,833	6,294,932
CAES lease payment	850,104	850,104
	<u>\$ 64,040,893</u>	<u>\$ 63,963,122</u>
Debt service	<u>\$ 6,050,743</u>	<u>\$ 6,204,012</u>
Debt service coverage	1058%	1031%
Coverage requirement	110%	110%

As indicated, the student facilities fee is pledged for Series 2004C, Series 2006, Series 2007, Series 2012, Series 2013, and Series 2016 bonds. The Revenue of the Housing System is pledged for the Series 2012, 2013, and 2016 bonds and the Center for Advanced Energy Studies (CAES) lease payments are pledged for Series 2006 bonds.

9. ACCOUNTING FOR LEASES

The University is a lessor in a ground lease agreement with Portneuf Medical Center (lessee) that expires on May 31, 2032. The lease allowed for the construction of a sports medicine facility (the Facility) on the premises, which was completed in September 1994. The lessee pays rent of \$1 per year for the ground lease, payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution.

The University leases a weight/training room and associated common areas from Portneuf Medical Center (lessor). This lease has an expiration date of May 31, 2032. Rent for the weight/training room portion of the lease is \$1 per year. Rent for shared use of the common areas is \$14,000 per year. Rents for the initial term and renewal term are payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution. Upon expiration of the lease term, the Facility shall become the property of the University.

ISU leases building and office facilities under various noncancelable operating leases. Total costs for such leases were \$346,999 and \$360,922 for the years ended June 30, 2016 and 2015, respectively.

Future minimum lease payments at June 30, 2016, for all leases are as follows:

Fiscal Years	Payments
2017	\$ 79,453
2018	68,980
2019	45,760
2020	26,500
2021	14,000
2022-2026	70,000
2027-2031	70,000
2032	14,000
Totals	\$ 388,693

In 2006, Idaho State University entered into a lease agreement with Battelle Energy Alliance, LLC for facilities located in the CAES facility. The lease commenced September 2009, and extends through March 5, 2028.

Future minimum rental income on this operating lease is as follows:

Fiscal Years	Income
2017	\$ 850,104
2018	850,104
2019	850,104
2020	850,104
2021	850,104
2022-2026	4,250,520
2027-2028	1,487,682
Totals	\$ 9,988,722

Battelle Energy Alliance, LLC makes all lease payments directly to the trustee. Rental income is restricted and is to be used solely for debt service on the 2006 Revenue bonds; the proceeds were used to construct the facility. As of June 30, 2016, the book value of the building is \$14,728,485, which is net of accumulated depreciation of \$2,601,770.

10. OPTIONAL RETIREMENT PLANS AND TERMINATION PAYMENTS

Optional Retirement Plan – Effective July 1, 1990, the Idaho State Legislature authorized the Idaho State Board of Education to establish an Optional Retirement Plan (ORP), a defined contribution plan, for faculty and exempt employees. The employee contribution requirement for the ORP is based on a percentage of the total payroll. Employer contributions are determined by the State of Idaho. The plan provisions were established by, and may be amended by, the State of Idaho.

New faculty and exempt employees hired on or after July 1, 1990, automatically enroll in the ORP and select a vendor option. Faculty and exempt employees hired before July 1, 1990, had a one-time opportunity to enroll in the ORP. Enrollees in the ORP no longer belong to PERSI. Vendor options in the ORP include the *Teachers Insurance and Annuity Association - College Retirement Equities Fund* and the *Variable Annuity Life Insurance Company*.

Participants are immediately fully vested in the ORP. Retirement benefits are available as either a lump sum or any portion thereof upon attaining 55 years of age.

Contributions required and paid are as follows:

	2016	2015	2014
University contributions required and paid	\$ 6,373,221	\$ 6,264,020	\$ 5,964,369
Employee contributions	4,799,712	4,717,470	4,491,803
Total Contribution	\$ 11,172,933	\$ 10,981,490	\$ 10,456,172
University required contribution rate	9.24%	9.24%	9.255%
Employee contribution rate	6.96%	6.96%	6.97%

Although enrollees in the ORP no longer belong to PERSI, the University is required to contribute a percentage of the annual covered payroll to PERSI. Effective July 1, 2007, the percentage was

changed from 3.03% to 1.49%, allowing the difference of 1.54% to be used to increase the University's contribution to ORP retirement accounts. In addition, the payoff period of the unfunded liability obligation was extended from July 1, 2015, to July 1, 2025. During the years ended June 30, 2016 and 2015, supplemental funding payments to PERSI were \$1,029,595 and \$1,014,900, respectively. These amounts are not included in the regular University PERSI contribution discussed previously.

Supplemental Retirement Plans – Full and part time benefited faculty, classified and professional staff, enrolled in PERSI as their regular retirement plan, may enroll in the 403(b), 401(k), and the 457(b) plans. Full and part time benefited faculty and professional staff enrolled in the ORP as their regular retirement plan may enroll in the 403(b) and the 457(b) plans.

401(k) – PERSI Choice Plan (PCP):

This is only available to active PERSI members. The Choice Plan contains employee gain sharing distributions, any voluntary employee contributions made, and the earnings on those funds. Approximately 96 employees contributed to this plan during the fiscal year ended June 30, 2016.

457(b) – Deferred Compensation Plan:

The 457(b) is a voluntary retirement savings plan covered under Section 457(b) of the Internal Revenue Code. All University employees are eligible to participate in this plan. The plan is funded exclusively through employee pre-tax contributions. Approximately 47 employees contributed to this plan during the fiscal year ended June 30, 2016.

403(b) Plan:

The 403(b) is a voluntary tax-sheltered retirement plan covered under Section 403(b) of the Internal Revenue Code. All University employees are eligible to participate in this plan. The plan is funded exclusively by employee pre-tax contributions. Approximately 178 employees contributed to this plan during the fiscal year ended June 30, 2016.

Roth 403(b) Plan:

The Roth 403(b) is a voluntary retirement savings plan covered under Section 403(b) of the Internal Revenue Code. All University employees are eligible to participate in this plan. The plan is funded exclusively by employee post-tax contributions. Approximately 27 employees contributed to this plan during the fiscal year ended June 30, 2016.

Supplemental Retirement 403(b) Plan:

The Supplemental 403(b) plan was established by the Idaho State Board of Education as of June 23, 2011, for the benefit of a limited group of participants from the state's higher education institutions. The plan is funded by contributions from the employees and the respective institutions, as set forth in Appendix A to the Plan document and as administered by the Idaho State Board of Education.

Supplemental Retirement Plan Contributions for the fiscal year ended June 30, 2016, are as follows:

	401(k) - PCP	403(b)	457(b)	Roth 403(b)	Supplemental 403(b)
Employee contributions	\$ 296,160	\$ 1,207,371	\$ 421,885	\$ 107,106	\$ 6,248
University contributions	N/A	N/A	N/A	N/A	8,747

Termination Payments – Employees who qualify for retirement under PERSI or ORP are eligible to use 50% of the cash value of their unused sick leave to continue their medical insurance coverage through the University. The University partially funds these obligations by depositing 0.65% of employee gross payroll to PERSI, who administers the plan for all participating ISU employees and retirees under a trust fund. The total contributions for the years ended June 30, 2016 and 2015, were \$609,710 and \$609,093, respectively.

11. PENSION PLAN

Plan Description

The University contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board. Changes to the Base Plan benefit structure may only be authorized by the State of Idaho Legislature.

Employee membership data related to the PERSI Base Plan, as of June 30, 2016, was as follows:

Retirees and beneficiaries currently receiving benefits	42,657
Terminated employees entitled to but not yet receiving benefits	11,859
Active plan members	67,008
	<u>121,524</u>

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to

provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) if current rates are actuarially determined to be inadequate or in excess to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by State statute at 60% of the employer rate. As of June 30, 2015, it was 6.79% for general employees. The employer contribution rate is set by the Retirement Board and was 11.32% for general employees. The University's contributions were \$2,784,740 for the year ended June 30, 2016, and \$2,897,140 for the year ended June 30, 2015.

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the University reported a liability of \$12,032,251 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The University's proportion of the net pension liability was based on the University's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2015 and 2014, the University's proportion was 0.91 and 0.92 percent, respectively. Since the prior measurement date, the University's proportion of the collective net pension liability dropped by 0.01 percent.

For the year ended June 30, 2016, the University recognized pension expense of \$2,377,832. At June 30, 2016, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 1,442,408
Changes in assumptions or other inputs	4,866,396	-
Net difference between projected and actual earnings on pension plan investments	-	6,318,566
Changes in the employer's proportion and differences between the employer's contributions and the employer's proportionate contributions	-	89,472
University contributions subsequent to the measurement date	2,784,740	-
Total	\$ 7,651,136	\$ 7,850,446

Deferred outflows of resources amounting to \$2,784,740 and related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2014, the beginning of the measurement period ended June 30, 2015, is 5.5 years.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Years ended June 30:	
2017	(1,234,255)
2018	(1,234,255)
2019	(1,234,255)
2020	895,852
2021	(87,660)

Actuarial Assumptions

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	4.25 – 10%
Salary inflation	3.75%
Investment rate of return	7.10%, net of investment expenses
Cost-of-living adjustments	1%

Mortality rates were based on the RP – 2000 combined table for healthy males or females as appropriate with the following offsets:

- Set back 3 years for teachers
- No offset for male fire and police
- Forward one year for female fire and police
- Set back one year for all general employees and all beneficiaries

An experience study was performed in 2012 for the period July 1, 2007, through June 30, 2011, which reviewed all economic and demographic assumptions other than mortality. Mortality and all economic assumptions were studied in 2015 for the period from July 1, 2009, through June 30, 2013. The Net Pension Liability as of June 30, 2015, is based on the results of an actuarial valuation date of July 1, 2015.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach, which builds upon the latest capital market assumptions. Specifically, the System uses Callan Associates capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of January 1, 2014.

Asset Class	Index	Long-Term Expected Real	
		Target Allocation	Rate of Return*
Core Fixed Income	Barclays Aggregate	30.00%	0.80%
Broad US Equities	Russell 3000	55.00%	6.90%
Developed Foreign Equities	MSCI ACWI ex USA	15.00%	7.55%
* Arithmetic return			
Assumed Inflation - Mean			3.25%
Assumed Inflation - Standard Deviation			2.00%
Portfolio Arithmetic Mean Return			8.42%
Portfolio Long-Term Expected Geometric Rate of Return			7.50%
Assumed Investment Expenses			0.40%
Long-Term Expected Rate of Return, Net of Investment Expenses			7.10%

Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term

expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
Employer's proportionate share of the net pension liability (asset)	\$ 29,306,192	\$ 12,032,251	\$ (2,328,740)

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payables to the pension plan

At June 30, 2016, the University reported payables to the defined benefit pension plan of \$220,920 for legally required employer contributions and \$0 for legally required employee contributions, which had been withheld from employee wages but not yet remitted to PERSI.

Required Supplementary Information

Schedule of Employer's Proportionate Share of Net Pension Liability

PERSI - Base Plan

Last 10 - Fiscal Years*

	2016	2015
Employer's portion of the net pension liability	0.9137234%	0.9202007%
Employer's proportionate share of the net pension liability	\$ 12,032,251	\$ 6,774,117
Employer's covered-employee payroll	24,628,717	25,593,139
Employer's proportional share of the net pension liability as a percentage of its covered-employee payroll	48.85%	26.47%
Plan fiduciary net position as a percentage of the total pension liability	91.38%	94.95%

*GASB Statement No. 68 requires ten years of information to be presented in this table, However, until a full 10-year trend is compiled, the University will present information for those years for which information is available.

Data reported is measured as of June 30, 2015 (measurement date)

12. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Summary of Plans

The University participates in other postemployment benefit plans relating to health and disability administered by the State of Idaho as agent multiple-employer defined benefit plans. The Life Insurance benefit is a single-employer defined benefit plan. Idaho Code, Sections 67-5760 to 67-5768 and 72-1335, establishes the benefits and contribution obligations. Each of these benefits is provided by the University to retired or disabled employees. The most recent actuarial valuation is as of July 1, 2015. The University has not set aside any assets to pay future benefits; the University funds these benefits on a pay-as-you-go basis. Details of the plans can be found in the Comprehensive Annual Report of the State of Idaho, which may be obtained from the Office of the Idaho State Controller, 700 W State Street, 4th Floor, P.O. Box 83720, Boise, ID 83720-0011 www.sco.idaho.gov.

Plan Descriptions and Funding Policy

Retiree Healthcare Plan – A retired employee of the University who receives monthly retirement benefits from the Public Employee Retirement System of Idaho (PERSI) may elect to purchase the retiree health insurance coverage for themselves and eligible dependents. Employees must enroll within 60 days of the date the active employee policy ends. Additionally, the employee must be receiving PERSI monthly benefits at the time of retirement and must have 10 or more years (20,800 or more hours) of credited service. An employee must have been an active employee on or before June 30, 2009, and must retire directly from State service. Coverage is not available to Medicare-eligible retirees or their Medicare-eligible dependents. Retirees eligible for medical health insurance pay the majority of the premium cost; however, the retiree plan costs are subsidized by the active employee plan. The maximum benefit is \$1,860 per retiree per year. The University contributed \$13.39 per active employee per month towards the retiree premium cost.

Long-Term Disability Plan – Disabled employees are defined as persons unable to perform each of the substantial and material duties of the job for which they were hired and unable to earn more than 70 percent of their monthly salary for the first 30 months of disability. If after 30 months the employee is unable to perform any job for which they are reasonably qualified by experience, education, or training, and unable to earn more than 60 percent of their monthly salary the employee is considered totally disabled. To qualify for long-term disability benefits, the waiting period of the longer of 26 continuous weeks of total disability or exhaustion of accrued sick leave must be met.

For up to 30 months following the date of disability, an employee may continue healthcare coverage under the State plan. The University pays 100 percent of the University's share of medical and dental premiums while the employee remains disabled. The employee is required to pay the normal active employee contribution for the plan and rate category in which the employee is enrolled. The University was charged \$9.60 per active employee per month in fiscal year 2016.

The plan provides long-term disability income benefits to active employees who become disabled, generally up to a maximum age of 70. The gross benefit equals 60 percent of monthly pre-disability

salary or \$4,000, whichever is less. The benefit does not increase with inflation and may be offset by other sources of income such as Social Security, Workers' Compensation, unemployment benefits, employment rehabilitation earnings, and certain retirement benefits. The State is self-insured for employees who became disabled prior to July 1, 2003; the State pays 100 percent of the cost of this benefit. The amount of the contribution is based on active claims and the number of insured individuals.

Principal Life Insurance Company insures employees disabled on or after July 1, 2003, and the obligation for the payment of income benefits has been effectively transferred. The University pays 100 percent of the cost of the premiums. The University's contribution rate for the period was 0.264 percent of payroll in fiscal year 2016. This portion of the long-term disability income benefit is not included in the actuarial estimate as this is considered an insured benefit.

This plan also provides basic life insurance and dependent life coverage to disabled employees, generally up to a maximum age of 70. The life insurance benefit amount is generally 100 percent of annual salary, but not less than \$20,000. In addition, the plan provides a \$2,000 life insurance benefit for spouses and a \$1,000 life insurance benefit for dependent children. These benefits do not increase with inflation. The State is self-insured for employees who became disabled prior to July 1, 2012. The State pays 100 percent of the cost; the contribution is actuarially determined based on actual claims experience.

Principal Life Insurance Company insures employees disabled on or after July 1, 2012, and the obligation for the payment of basic life and dependent life coverage benefits has been effectively transferred. The University pays 100 percent of the premiums. This portion of the basic life insurance and dependent life coverage is not included in the actuarial estimate as this is considered an insured benefit.

Retiree Life Insurance Plan – This plan provides basic life insurance for certified retired employees. In general, the employee must have completed at least 30 years of credited service or the sum of his/her age and years of credited service must total at least 80 to qualify for this benefit. Eligible retirees receive basic life insurance coverage equal to 100 percent of their annual salary at retirement. The University pays 100 percent of the cost of basic life insurance for eligible retirees. The University contribution for the period as a percent of payroll was 1.177% for retirees under age 65, 0.894% for retirees between the ages of 65 and 69, and 0.600% for retirees over age 70.

Annual Other Post-Employment Benefit (OPEB) Costs

The annual OPEB cost (AOC) is actuarially determined based on the annual required contribution (ARC) of the employer. The following table illustrates the annual OPEB cost, the amount of contributions made, the increase (decrease) in the net OPEB obligation (NOO), and the NOO (funding excess) for the current year.

Notes to the Financial Statements

Annual OPEB Cost and Net OPEB Obligation 2016
(dollars in thousands)

	Retiree Healthcare Plan	Long-Term Disability Plan			Life Insurance Plan	Total
		Healthcare	Life Insurance	Income		
Annual Required Contribution	\$ 324	\$ 112	\$ 96	\$ 56	\$ 1,116	\$ 1,704
Interest	95	2	-	1	189	287
Adjustment to ARC	(173)	(4)	-	(2)	(347)	(526)
Total Annual OPEB Cost	246	110	96	55	958	1,465
Contributions Made	(306)	(130)	(64)	(40)	(162)	(702)
Increase (Decrease) in NOO	(60)	(20)	32	15	796	763
NOO – Beginning of Year	2,646	51	(8)	38	5,530	8,257

Annual OPEB Cost Comparison

The following table compares the annual OPEB cost, the percentage of annual OPEB cost contributed and the NOO (funding excess) for the current and two prior years:

Annual OPEB Cost and Net OPEB Obligation (NOO) Comparison
(dollars in thousands)

		Retiree Healthcare Plan	Long-Term Disability Plan			Life Insurance Plan	Total
			Healthcare	Life Insurance	Income		
Annual OPEB Cost	2014	\$ 118	\$ 102	\$ 148	\$ 79	\$ 894	\$ 1,341
	2015	302	120	104	62	958	1,546
	2016	246	110	96	55	958	1,465
Percentage of AOC Contributed	2014	150.85%	139.22%	74.32%	67.09%	15.55%	51.65%
	2015	74.17%	139.17%	83.65%	80.65%	16.81%	44.57%
	2016	124.39%	118.18%	66.67%	72.73%	16.91%	47.92%
NOO (Funding Excess) – End of Year	2014	\$ 2,566	\$ 98	\$ (24)	\$ 26	\$ 4,733	\$ 7,399
	2015	2,646	51	(8)	38	5,530	8,257
	2016	2,586	31	24	53	6,326	9,020

Funded Status and Funding Progress – The following table illustrates the funded status and the funding progress for the University:

Funded Status and Funding Progress
(dollars in thousands)

	Retiree Healthcare Plan	Long-Term Disability Plan			Life Insurance Plan
		Healthcare	Life Insurance	Income	
Actuarial Valuation Date	7/1/2015	7/1/2015	7/1/2015	7/1/2015	7/1/2015
(1) Actuarial Value of Assets	-	-	-	-	-
(2) Accrued Liability (AAL)	\$ 2,201	\$ 722	\$ 351	\$ 254	\$ 14,635
(3) Unfunded AAL (UAAL) (2) - (1)	2,201	722	351	254	14,635
(4) Funded Ratios (1) : (2)	-	-	-	-	-
(5) Annual Covered Payroll	93,606	93,606	93,606	93,606	93,606
UAAL as a Percentage of Covered Payroll (3) : (5)	2.35%	0.77%	0.37%	0.27%	15.63%

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information immediately following the notes to the financial statements contains multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Calculations are based on the types of benefits provided under the terms of the plan at the time of each valuation and on the pattern of sharing costs between the employer and plan members. The projection of benefits for financial reporting purposes does not incorporate the potential effects of legal funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective and actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The following table presents the significant methods and assumptions for all plans:

	Significant Methods and Actuarial Assumptions				
	Retiree Healthcare Plan	Long-Term Disability Plan			Life Insurance Plan
	Healthcare	Healthcare	Life Insurance	Income	Life Insurance
	Plan	Plan	Plan	Plan	Plan

14. COMPONENT UNIT DISCLOSURE

The Foundation is discretely presented within the financial statements as a component unit. The Foundation prepares its financial statements based upon generally accepted accounting principles in accordance with standards issued by the Financial Accounting Standards Board. The information disclosed hereafter is related to Foundation items that are determined to be significant to the reporting entity as a whole, but is not wholly inclusive. Separate, audited financial statements are prepared for the Foundation and may be obtained in their entirety by contacting the Idaho State University Foundation, 921 S. 8th Ave, Stop 8050, Pocatello, ID 83209-8050.

Foundation Operations

The Idaho State University Foundation, Inc. (the Foundation) and subsidiary was established in March 1967 to provide support for the private fundraising efforts of Idaho State University (the University) and to manage privately donated funds. The Foundation is a not-for-profit corporation incorporated in accordance with the laws of the State of Idaho and managed by a volunteer Board of Directors. Under the Idaho State Board of Education's administrative rules, the Foundation must be independent of, and cannot be controlled by, the University. A memorandum of understanding between the Foundation and the University defines the relationship between the two entities in accordance to the State Board of Education's rules.

The Foundation has a subsidiary corporation called Bengal Pharmacy, LLC (the Pharmacy). The Pharmacy was formed as a limited liability company (LLC) with the Foundation as the sole member.

The Pharmacy was formed to serve students, administrative staff and faculty being seen by the student health center as well as patients of the Idaho State University (ISU) residency program. The residency program treats patients of a local Federally Qualified Health Center including those who qualify for discount drug purchases under Section 340b of the Public Health Service Act.

The pharmacy has expanded its original mission to support ISU's rural health mission by opening tele-health pharmacy locations in Arco and Challis, Idaho.

Per the operating agreement, any allocation and distribution of income will be allocated and 25% will be paid to the Foundation and 75% will be paid to the Idaho State University College of Pharmacy.

Principles of Consolidation

The consolidated financial statements include the accounts of the Foundation and the Pharmacy because the Foundation has both control and economic interest in the Pharmacy. All significant intercompany accounts and transactions have been eliminated in consolidation. Unless otherwise noted, these consolidated entities are hereinafter referred to as the Foundation.

Basis of Accounting

The Foundation financial statements included in this report have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, whereby revenue is recorded when earned and expenses are recorded when materials or services are received. Net assets and revenues, expenses, gains, and losses are classified based on the existence or

absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets – Net assets that are subject to donor restrictions that may or will be met either by actions of the Foundation and/or the passage of time and certain income earned on permanently restricted net assets that has not yet been appropriated for expenditure by the Foundation.

The Foundation reports contributions as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Permanently Restricted Net Assets – Net assets whose use is limited by donor-imposed restrictions that neither expire by the passage of time nor can be fulfilled or otherwise removed by action of the Foundation. The restrictions stipulate that resources be maintained permanently but permit the Foundation to expend the income generated in accordance with the provisions of the agreements.

Use of Estimates in the Preparation of Financial Statements

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and those estimates could be material. The most significant estimates used in the consolidated financial statements relate to the present value of the promises to give, the obligations under the split interest agreements, and the fair market values of certain investments.

Cash and Cash Equivalents

For purposes of the consolidated statements of cash flows, the Foundation considers all cash on deposit in demand savings and time deposits with an original maturity date of three months or less, and which is not held pursuant to bond requirements or held in trust for others, to be cash equivalents. Cash and cash equivalents held by investment managers are considered investments as the funds have been designated by the Foundation for investment purposes.

Investments

The Foundation records investment purchases at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the statements of financial position. Net investment return/(loss) is reported in the statements of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less investment management and custodial fees.

The Foundation, through the Board of Directors, appoints an investment committee that determines investment guidelines, sets the spending rules, and engages the investment manager(s) and custodian(s). The Board of Directors oversees and approves all investment and asset allocation policies proposed by the Investment Committee.

Financial Instruments and Credit Risk

The Foundation manages deposit concentration risk by placing cash, money market accounts, and certificates of deposit with financial institutions believed by management to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, the Foundation has not experienced losses in any of these accounts. Credit risk associated with accounts receivable and promises to give is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from Board members, governmental agencies, and foundations supportive of the Foundation's mission. Investments are made by diversified investment managers whose performance is monitored by management and the investment committee of the Board of Directors. The Foundation investment policy states that no single major industry shall represent more than 20% of the endowment's total market value, and no single security shall represent more than 5% of the endowment's total market value. Although the fair values of investments are subject to fluctuation on a year-to-year basis, management and the investment committee believe the investment policies and guidelines are prudent for the long-term welfare of the Foundation.

Assessments

All endowment funds are charged an annual administrative fee of 1.5%. New restricted gifts are charged a start-up administration fee of 3-5% depending on size.

Promises to Give

Unconditional promises to give are recognized as an asset and contribution revenue in the period the promise is received. Fair values of new promises to give are determined using present value techniques and risk-adjusted discount rates designed to reflect the assumptions market participants would make in pricing the receivable. Amortization of the discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any.

The allowance for doubtful accounts for all promises to give represents the Foundation's best estimate of the amount of probable losses in the Foundation's existing promises to give. The Foundation determines the allowance by performing on-going evaluations of its donors and their ability to make payments. The Foundation determines the adequacy of the allowance based upon length of time past due, historical experience and judgment of economic conditions. Account balances are charged off against the allowance after all means of collection have been exhausted and potential recovery is considered unlikely.

Receivables and Credit Policies

Accounts receivable consist primarily of noninterest-bearing amounts due to the Pharmacy. Management determines the allowance for uncollectable accounts receivable based on historical experience, an

assessment of economic conditions, and a review of subsequent collections. Accounts receivable are written off when deemed uncollectable.

Inventories

Inventory is comprised of Pharmacy merchandise held for sale. Inventories are stated at the lower of cost or market using the first-in, first out (FIFO) method. Cost is determined on an average cost basis.

Revenue and Revenue Recognition

Revenue is recognized when earned. Program service fees and payments under cost-reimbursable contracts received in advance are deferred to the applicable period in which the related services are performed or expenditures are incurred, respectively. Pharmacy revenues are recorded when the prescription has been picked up by the customer. Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met.

Donated Materials and Services

Donated materials and services are reflected as contributions at their estimated fair market values at date of receipt. Contributed professional services are recognized if the services received (a) create or enhance long-lived assets or (b) require specialized skills, provided by an individual possessing those skills, and would typically need to be purchased if not provided by donation.

The Foundation's office is located in the Idaho State University's administration building. The use of space is donated by Idaho State University, which also donates the services of employees that perform administrative functions for the Foundation. These items represent in-kind donations that are recognized as revenues with a corresponding expense.

Property and Equipment

Property and equipment additions over \$1,000 are recorded at cost, or if donated, at fair value on the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from 3 to 10 years, or in the case of capitalized leased assets or leasehold improvements, the lesser of the useful life of the asset or the lease term. When assets are sold or otherwise disposed of, the cost and related depreciation is removed from the accounts, and any remaining gain or loss is included in the statement of activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed currently.

Capitalized Bond Issuance Costs

Capitalized bond issuance costs consist of legal costs, underwriting fees, printing and other costs incurred to obtain, secure and rate the multi-mode variable rate revenue Bonds issued for the construction of the L.E. and Thelma Stephens Performing Arts Center on May 30, 2001. The issuance costs for the multi-mode variable rate bonds have an original cost of \$570,000 at May 30, 2001 and are amortized over the term of the bonds using the effective interest rate method.

During 2016, the Foundation redeemed the bond through a refinancing agreement. The unamortized portion of the bond issuance costs of \$88,036 was expensed to reflect the payment of the bonds.

Accumulated amortization of the bond issuance costs at the end of June 30, 2016 and 2015, was \$570,000 and \$481,965, respectively.

Obligations under Split Interest Agreements

The Foundation administers life income agreements such as charitable remainder trusts where an income beneficiary is the lifetime recipient of income and the Foundation is the remainder beneficiary. Upon receipt of the gift, a liability is established for the estimated net present value of the lifetime recipient's interest using applicable mortality tables and a risk-adjusted discount rate designed to reflect the assumptions market participants would make in pricing the liability. A contribution is recognized for the estimated remainder interest.

Donated Land Held for Sale

Certain assets received from donors are held for resale. Such assets are recorded at fair value at date of donation. Subsequently, such assets are carried at the lower of their recorded amounts or fair value.

Advertising Costs

Advertising costs are expensed as incurred, and were \$2,295 and \$9,448 for the years ended June 30, 2016 and 2015, respectively.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the assets of the Pharmacy acquired.

Goodwill is not amortized: rather, potential impairment is considered on an annual basis, or more frequently upon the occurrence of an event or when circumstances indicate the amount of goodwill is greater than its fair value. As of June 30, 2016 and 2015, the carrying value of goodwill was not considered impaired. As of June 30, 2015, the carrying value of goodwill was written down by \$67,000.

Income Taxes

Idaho State University Foundation, Inc. is organized as an Idaho nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3), qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi), and has been determined not to be a private foundation under Sections 509(a)(1). Bengal Pharmacy LLC is treated as a disregarded entity for income tax purposes, and accordingly, all income and expenses are reported through the Foundation. The Foundation is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Foundation is subject to income tax on net income that is derived from business activities that

are unrelated to their exempt purposes. The Foundation has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

The Foundation will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if incurred.

Reclassification

Certain reclassifications of amounts previously reported have been made to the accompanying consolidated financial statements to maintain consistency between periods presented. The reclassifications had no impact on previously reported net assets.

Recent Accounting Pronouncements

In August 2016, the Financial Accounting Standards Board issued an Accounting Standard Update (ASU) that amended Topic 958, Presentation of Financial Statements of Not-for-Profit Entities that focuses on improving the current net asset classification requirements and information presented in financial statements and notes that is useful in assessing a not-for-profit's liquidity, financial performance and cash flows. Specifically, the ASU addresses the complexity and understandability of net asset classifications, deficiencies in information about liquidity and availability of resources, lack of consistency in the type of information provided about expenses and investment return and misunderstandings about and opportunities to enhance the utility of the statement of cash flows. The amendments in this ASU are effective for annual financial statements issued for fiscal years beginning after December 15, 2017. The Foundation is currently evaluating the new ASU and the effect it will have on the Foundation's financial statements when implemented.

Subsequent Events

The Foundation has evaluated subsequent events through September 12, 2016, the date the consolidated financial statements were issued. No significant subsequent events were noted.

Endowments

The Foundation's endowment consists of approximately 500 individual funds established for a variety of purposes. As required by generally accepted accounting principles, net assets associated with endowment funds are classified and reported based upon the existence or absence of donor-imposed restrictions. Changes in the fair value of split-interest agreements, life insurance, and the net change in charitable remainder trusts relating to permanently restricted net assets are summarized in other changes in the Endowment asset roll forward.

From time to time, the fair value of assets associated with individual endowment funds may fall below the level the donor or the Idaho Prudent Management of Institutional Funds Act (IPMIFA) requires the Foundation to maintain as a fund of perpetual duration. The corpus balance of the endowment was \$40,741,848 and \$38,967,296 as of June 30, 2016 and 2015, respectively. Accordingly, deficiencies have

been reported in unrestricted net assets totaling \$2,677,711 and \$1,564,129 as of June 30, 2016 and 2015, respectively.

Fair Value of Assets and Liabilities

Certain assets and liabilities are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities the Foundation can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, the Foundation develops inputs using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to the Foundation's assessment of the quality, risk or liquidity profile of the asset or liability.

Investment assets classified within Level 1 are comprised of open-end mutual funds with readily determinable fair values based on daily redemption values.

The Foundation uses Net Asset Value (NAV) per share, or its equivalent, such as member units or an ownership interest in partners' capital, to estimate the fair values of certain hedge funds and private equity funds which do not have readily determinable fair values. Investments valued at NAV are classified within Level 2 if the Foundation has the ability to redeem the investment at NAV per share at the measurement date or within the near term; otherwise, the investment is classified within Level 3.

Notes to the Financial Statements

Assets and liabilities measured at fair value on a recurring basis at June 30, 2016 and 2015, are shown below.

	2016	2015
Investment securities		
Mutual funds	\$ 3,678,669	\$ 3,535,129
Co-mingled and pooled marketable investment funds	49,167,149	50,383,813
Common stock	-	-
Hedge funds	-	-
Total assets	<u>\$ 52,845,818</u>	<u>\$ 53,918,942</u>

The following table presents assets measured at fair value on a recurring basis, except those measured at cost as identified below. This table includes all operating investments, assets held under split-interest agreements and endowment investments at June 30, 2016 and 2015:

June 30, 2016

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Stock index fund	\$ 3,678,669	\$ -	\$ -	\$ 3,678,669
Co-mingled and pooled marketable investment funds				
Real estate funds	-	81,203	-	81,203
Bond funds	-	5,624,840	-	5,624,840
Equity funds	-	26,162,390	-	26,162,390
Money market funds	-	-	-	187,121
Hedge funds	-	9,803,853	-	9,803,853
Real asset funds	-	7,307,742	-	7,307,742
	<u>\$ 3,678,669</u>	<u>\$ 48,980,028</u>	<u>\$ -</u>	<u>\$ 52,845,818</u>

June 30, 2015

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Stock index fund	\$ 3,535,129	\$ -	\$ -	\$ 3,535,129
Co-mingled and pooled marketable investment funds				
Real estate funds	-	142,383	-	142,383
Bond funds	-	6,229,232	-	6,229,232
Equity funds	-	23,998,347	-	23,998,347
Money market funds	-	-	-	1,231,446
Hedge funds	-	16,518,944	-	16,518,944
Real asset funds	-	2,263,461	-	2,263,461
	<u>\$ 3,535,129</u>	<u>\$ 49,152,367</u>	<u>\$ -</u>	<u>\$ 53,918,942</u>

Investments in certain entities that calculates NAV per share are as follows at June 30, 2016 and 2015:

		2016			
		Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Co-mingled and pooled marketable investment funds					
Real estate funds	\$	81,203	\$ -	Annually	95 days
Bond funds		5,624,840	-	Monthly	5 days
Equity funds		26,162,390	7,493,139	Monthly	5 days
Hedge funds		9,803,853	-	Annually	95 days
Real asset funds		7,307,742	3,103,450	Monthly	2 - 120 days
		2015			
		Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Co-mingled and pooled marketable investment funds					
Real estate funds	\$	142,383	\$ -	Annually	95 days
Bond funds		6,229,232	-	Monthly	5 days
Equity funds		23,998,347	6,239,264	Monthly	5 days
Hedge funds		16,518,944	-	Annually	95 days
Real asset funds		2,263,461	2,301,840	Monthly	2 - 120 days

Multi-Mode Variable Rate Revenue Bonds

A Multi-Mode Variable Rate Revenue Bond for constructing, furnishing, equipping and improving certain real and personal property comprising the L.E. and Thelma Stephens Performing Arts Center was issued on May 30, 2001, in the amount of \$22,170,000. The Bonds were scheduled to fully mature on May 1, 2021, and were secured by donations, pledges and other funds held under the Bond Indenture. Debt balance at June 30, 2016 and 2015, was \$0 and \$5,600,000, respectively.

During 2016, the bonds were redeemed and replaced with a note payable to a commercial lender. The note payable terms included the following:

\$5,000,000 - 3.7% note payable, due in annual installments of \$500,000 with interest due quarterly, maturing December 2024, unsecured.

Total interest expense and fees during 2016 and 2015, were \$128,053 and \$98,505, respectively.

Notes Payable

Notes payable for the Pharmacy consist of the following as of June 30:

	2016	2015
6% note payable, due in monthly installments of \$3,053 including interest, maturing May 2024, unsecured	\$ 230,432	\$ 286,020
6% note payable, due in monthly installments of \$1,450, including interest, maturing March 2020, unsecured	60,674	71,759
	<u>\$ 291,106</u>	<u>\$ 357,779</u>

Future maturities on notes payable for the year ending June 30 are as follows:

	Foundation	Pharmacy	Total
2017	\$ 500,000	\$ 34,572	\$ 534,572
2018	\$ 500,000	39,943	539,943
2019	\$ 500,000	42,406	542,406
2020	\$ 500,000	40,650	540,650
2021	\$ 500,000	29,643	529,643
Thereafter	2,500,000	103,892	2,603,892
	<u>\$ 5,000,000</u>	<u>\$ 291,106</u>	<u>\$ 5,291,106</u>

The Pharmacy has two notes payable with the Foundation totaling \$169,971 at year end. One loan for \$75,000 was issued with payments commencing in April 2016 until maturity at May of 2021. The note bears interest at 6% and is unsecured and will bear interest at 18% upon default. The second note for \$100,000 was issued with payments commencing in April 2016, until maturity at May 2021. The note bears interest at 6% and is unsecured and will be interest at 18% upon default. These notes have been eliminated in the consolidated financial statements.

15. SUBSEQUENT EVENTS

No reportable subsequent events.

16. CONTINGENCIES AND LEGAL MATTERS

The University is a defendant in litigation arising from the normal course of operations. Based on present knowledge, the University's administration believes any ultimate liability in these matters will not materially affect the financial position of the University.

17. RISK MANAGEMENT

The University participates in the State of Idaho Risk Management Program, which manages property and general liability risk. That program provides liability (cap) protection to \$500,000 per occurrence. Insurance premium payments are made to the state risk management program based on rates determined by a state agency's loss trend experience and asset value covered. Presently, Idaho State University's total insured property value is \$1,041,758,465.

The University obtains worker's compensation coverage from the Idaho State Insurance Fund. The University's worker's compensation premiums are based on its payroll, its own loss experience, as well as that of the State of Idaho as a whole.

The University carries commercial insurance for other risks of loss, including but not limited to employee bonds and crime, out of state worker's compensation, business interruption, media liability and automobile physical damage insurance.

**REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Idaho State Board of Education
 Idaho State University
 Pocatello, Idaho

We have audited the financial statements of Idaho State University (University) and Idaho State University Foundation, Inc. (Foundation), its discretely presented component unit, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated September 28, 2016. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our report includes reference to other auditors who audited the financial statements of the discretely presented component unit as described in our report on the University's financial statements. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the discretely presented component unit.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in dark ink that reads "Moss Adams LLP".

Portland, Oregon

**REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM
GUIDANCE**

Idaho State Board of Education
Idaho State University
Pocatello, Idaho

Report on Compliance for Each Major Federal Program

We have audited the Idaho State University's (University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2016. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in dark ink that reads "Moss Adams LLP".

Portland, Oregon
September 29, 2016

IDAHO STATE UNIVERSITY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2016

Section I - Summary of Auditor's Results

Financial Statements

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: *Unmodified*

Internal control over financial reporting:

- Material weakness(es) identified? ☐ Yes ☒ No
- Significant deficiency(ies) identified? ☐ Yes ☒ None reported
- Noncompliance material to financial statements noted? ☐ Yes ☒ No

Federal Awards

Internal control over major federal programs:

- Material weakness(es) identified? ☐ Yes ☒ No
- Significant deficiency(ies) identified? ☐ Yes ☒ None reported

Any audit findings disclosed that are required to be reported in accordance with section 2 CFR Section 200.516(a)? ☐ Yes ☒ No

Identification of major federal programs and type of auditor's report issued on compliance for major federal programs:

<i>CFDA Numbers</i>	<i>Name of Federal Program or Cluster</i>	<i>Type of Auditor's Report Issued on Compliance for Major Federal Programs</i>
Various	Student Financial Assistance Cluster	Unmodified
84.010	Title I Grants to Local Educational Agencies	Unmodified
Various	TRIO Cluster	Unmodified
93.778	Medicaid Cluster	Unmodified

- Dollar threshold used to distinguish between type A and type B programs: \$ 750,000
- Auditee qualified as low-risk auditee? ☒ Yes ☐ No

Section II - Financial Statement Findings

None

Section III - Federal Award Findings and Questioned Costs

None

IDAHO STATE UNIVERSITY
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2016

1. BASIS OF PRESENTATION

The schedule of expenditures of federal awards includes the federal grant activity of the University and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in the schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. UNIVERSITY ADMINISTERED LOAN PROGRAMS

The University administers the following Federal Perkins Loan Program (CFDA number 84.038). The outstanding loan balance and total loan disbursements were \$1,869,536 and \$228,000, respectively, for the year ended June 30, 2016. The cumulative administrative costs allowance as of the year ended June 30, 2016 was \$639,959.

Funds distributed as agent for the Federal Direct Lending Program of \$62,964,492 and the Federal Teach Program of \$251,978 are not included in the revenues or expenses of the University.

3. FEDERAL WORK STUDY

The University participates in the Federal Work Study program (FWS). A portion of the federal award amount for this program is used by the University to fund America Reads. Under the America Reads waiver provided by the U.S. Department of Education, the federal government waives the 25% matching requirement and pays 100% of the wages of FWS students who serve as reading mentors or tutors to preschool and elementary school children.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule of expenditures of federal awards are recognized following the cost principles contained in OMB Circular A-21, Educational Institutions and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

5. DE MINIMIS INDIRECT COST RATE

Because Idaho State University has a current federally negotiated F & A rate, we are not using the 10% de minimis rate allowed in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).
