INDEPENDENT AUDITOR'S REPORT

Idaho State Board of Education
University of Idaho
Moscow, Idaho

We have audited the accompanying financial statements of the University of Idaho (University) as of and for the years ended June 30, 2009 and 2008, as listed in the table of contents. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the University's discretely presented component unit as described in Note 17, or the University of Idaho Health Benefits Trust as described in Note 11. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the component unit and the University of Idaho Health Benefits Trust, are based solely on the reports of other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the University of Idaho, its discretely presented component unit and the University of Idaho Health Benefits Trust as of June 30, 2009 and 2008, and the changes in its financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 2, 2009, on our consideration of the University's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 10 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the University's basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

A handwritten signature in cursive script that reads "Moss Adams LLP".

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2009

The University of Idaho (the "University") is a doctoral-research extensive land-grant institution, with the principal responsibility for research and granting Ph.D. degrees in Idaho. The University serves state, national and international communities by providing academic instruction and conducting research that advances fundamental knowledge. In addition to its main campus in Moscow, the University has instructional centers in Coeur d'Alene, Boise, Twin Falls and Idaho Falls as well as research and extension centers located across the state.

Overview

The Management's Discussion and Analysis is designed to provide an easy to read analysis of the University's financial condition, results of operations and cash flows based on facts, decisions and conditions known at the date of the auditor's reports. The emphasis of this discussion of the financial performance of the University is for the current year.

The discussion and analysis that follows provides an overview of the University's financial activities for the fiscal year ended June 30, 2009. There are three financial statements presented: the Statement of Net Assets; the Statement of Revenues, Expenses and Changes in Net Assets; and the Statement of Cash Flows. They are prepared using the accrual basis of accounting, whereby revenues are recognized when services are provided and expenses are recognized when goods or services are received, regardless of when cash is exchanged.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 39, *Determining Whether Certain Organizations are Component Units, an Amendment of GASB Statement 14*, these statements also present information for the University of Idaho Foundation, Inc. (the "Foundation") which qualifies as a component unit of the University. Separate audited financial statements are prepared for the Foundation and may be obtained by contacting University of Idaho Foundation, P.O. Box 443143, Moscow, ID 83844-3143.

In accordance with GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, the University has included financial statements for the Health Benefits (HBT) and Retirement Benefits (RBT) Trusts. The HBT was established to meet the requirements of the State of Idaho Department Of Insurance in order to manage the University's self insurance program. . Separate audited financial statements are prepared for the HBT and may be obtained by contacting University of Idaho, Attn. General Accounting, P.O. Box 443166, Moscow, ID 83844-3166. The RBT was established to meet the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. These statements and related supplementary information is presented after the University's financial statements and preceding the notes to the financial statements.

Statement of Net Assets

The statement of net assets outlines the University's financial condition at fiscal year end. This is a point-in-time financial statement and presents end-of-year data concerning assets, liabilities and net assets. From the data presented, readers are able to determine the assets available to continue the operations of the University. They are also able to determine how much the University owes vendors, investors and lending institutions. Finally, it provides a picture of the net assets (assets minus liabilities) and their availability for expenditure by the University.

The statement of net assets is presented in a classified format, which differentiates between current and noncurrent assets and liabilities, and also groups net assets into four categories which are:

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2009

Invested in Capital Assets, Net of Related Debt - the University's investment in property, plant and equipment net of depreciation and outstanding debt obligations related to those capital assets.

Restricted Nonexpendable - the corpus of nonexpendable restricted resources is available only for investment purposes. These assets are held in perpetuity.

Restricted Expendable - subject to external donor or grantor stipulations regarding their use. The University may expend these assets for purposes as determined by donors and/or external entities.

Unrestricted - may be expended for any lawful purpose of the University.

Condensed Statement of Net Assets Fiscal Years Ended June 30 (Dollars in Thousands)			
	2009	2008	2007
ASSETS			
Current assets	\$ 47,658	\$ 37,157	\$ 38,637
Capital assets - net	358,971	343,070	327,313
Other noncurrent assets	153,084	196,143	178,994
Total assets	\$ 559,713	\$ 576,370	\$ 544,944
LIABILITIES			
Current liabilities	\$ 44,441	\$ 44,525	\$ 50,258
Noncurrent liabilities	142,472	146,009	117,548
Total Liabilities	\$ 186,913	\$ 190,534	\$ 167,806
NET ASSETS			
Invested in capital assets-net of debt	\$ 205,938	\$ 185,755	\$ 202,640
Restricted nonexpendable	62,392	77,042	88,789
Restricted expendable	68,225	84,838	39,824
Unrestricted	36,245	38,201	45,885
Total net assets	\$ 372,800	\$ 385,836	\$ 377,138
Total liabilities and net assets	\$ 559,713	\$ 576,370	\$ 544,944

The University's current assets increased \$10.5M, a 28.3% increase, during fiscal year 2009 due primarily to current cash holdings of the liquidated repurchase agreement which will be used to complete the 2007B bond projects. Noncurrent assets decreased \$27M due to a \$16M decrease in investing activities, a \$14.5M decrease in endowment investments held in trust by the UI Foundation and the liquidation of the \$33M repurchase agreement from the 2007B bond issue. These decreases were offset by a \$15.9M increase in capital assets and \$21.2M increase in restricted cash primarily from the liquidation of the 2007B repurchase agreement. Total liabilities decreased 1.9% during fiscal year 2009. This was a result of a \$3.9M decrease in notes and bonds payable during the year from annual debt service payments.

Net assets decreased \$13M, 3.4%, for fiscal year 2009. Investments in capital assets increased \$20.2M due to projects in progress for life safety improvements to athletic facilities and ongoing work on energy improvements funded by the 2007B bond issue. This increase in capital assets is offset by the \$14.6M decrease in the assets held in trust by the foundation which reduced the restricted nonexpendable assets, and a \$16.6M decrease to restricted expendable assets resulting from a reclassification entry between restricted and unrestricted net assets to better reflect the finance and administrative revenues from grant and contracts in unrestricted, as well as the ongoing work

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2009

on the 2007B bond projects. Unrestricted net assets decreased \$1.9M as a result of the \$11.2M increase to operating revenues offset by a decrease of \$13.2 increase in operating expenditures. Details of these changes are discussed in the statement of revenues, expenses and changes in net assets.

Statement of Revenues, Expenses and Changes in Net Assets

The statement of revenues, expenses and changes in net assets presents the revenues earned and expenses incurred during the year, classifying activities as either operating or non-operating. The GASB 34 reporting model classifies state appropriations, gifts, federal appropriations, and investment income as non-operating revenue which results in a net operating loss.

Operating revenues are derived from activities associated with providing goods and services for instruction, research, public service or related support to entities separate from the university and that are exchange transactions. Examples include student tuition and fees, sales and services of auxiliary enterprises, grants and contracts. Operating expenses are those expenses paid to acquire or produce the goods and services provided to carry out the functions of the University. Non-operating revenues are primarily derived from activities that are non-exchange transactions, e.g., gifts and contributions; and from sources defined as such by GASB Statement No. 9, e.g., investment income; and from sources defined as such by GASB Statement Nos. 33 and 34, e.g., state appropriations.

When comparing all of the University's sources of revenue in 2009, as shown in the chart below, state appropriations account for 37% of the total revenue received while grants and contracts and student tuition and fees were 23% and 18% of the total respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2009

Condensed Statement of Revenues, Expenses and Changes in Net Assets			
Fiscal Years Ended June 30			
(Dollars in Thousands)			
	2009	2008	2007
Operating revenues	\$ 172,234	\$ 165,286	\$ 176,659
Operating expenses	340,286	330,004	317,589
Operating loss	(168,052)	(164,719)	(140,930)
Net nonoperating revenues	151,047	154,390	147,994
Loss before other revenues	(17,005)	(10,328)	7,064
Other revenues	3,970	19,027	24,118
Decrease in net assets	(13,035)	8,699	31,182
Net assets - Beginning of year	385,836	377,137	345,955
Net assets - End of year	\$ 372,800	\$ 385,836	\$ 377,137

The statement of revenues, expenses and changes in net assets details the \$13M decrease in net assets for fiscal year 2009. Operating revenues increased \$6.9M, a 4.2% increase over fiscal year 2008, due to several factors. Student fees increased for 2009 by \$2.7M due to increases in student fee rates and a slight increase in enrollment. Federal grants and contracts increased \$9M from increased grant activity. Other sources of revenue increased \$1.2M from increasing reserve balances. These increases are offset by \$5.6M decreased revenues from state, local and private grants primarily due to the decrease in number of active grants during FY 09. Operating expenses increased 3.1% over fiscal year 2008 in large part to \$10.8M increase to salary and benefits in fiscal year 2009. Scholarship expenses increased \$2.5M primarily due to increases in state and federal financial aid awards of \$1.4M and \$1.3M in unrestricted scholarships. Insurance and utilities also increased operating expenses by \$1.1M. These increases are offset by a \$7.5M decrease in services and supplies primarily due to travel restrictions and efforts to decrease expenses in the current economic climate. Nonoperating revenues and expenses decreased 2.2% in total during fiscal year 2009. State appropriations increased \$3.6M while federal appropriations decreased \$3.2M. Non-exchange federal grants and contracts increased \$1.3M from increases in PELL grants for the fiscal year. Net investment revenues were down \$1.4M due to lower interest rates and lower average investment holdings. A \$1.7M in increased interest expense rounds out the major changes to nonoperating revenues and expenses. Other revenues and expenses decreased \$15M during fiscal year 2009. Capital grants and contracts decreased \$1.7M due to several large capital grants ending in fiscal year 2008 with no new capital grants to replace them in fiscal year 2009. Department of Public Works projects decreased \$13.9M primarily due to the completion of the Teaching and Learning Center project of \$12.6M and closure of several other smaller projects.

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2009

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2009

Statement of Cash Flows

The statement of cash flows presents detailed information about the cash activities of the University during the year ended June 30, 2009. The statement is divided into five parts. The first part shows operating cash flows and the net cash used by the operating activities of the University. The second section reflects cash flows from noncapital financing activities. This section reflects the cash received and spent for non-operating, non-investing and non-capital financing purposes. The third section, cash flows from capital and related financing activities, shows the cash used for the acquisition and construction of capital and related items. The fourth section reflects the cash flows from investing activities and shows the purchases, proceeds and interest received. The fifth section reflects the net change in cash position.

Condensed Statement of Cash Flows Fiscal Years Ended June 30 (Dollars in Thousands)			
Cash provided (used) by:	2009	2008	2007
Operating activities	\$ (147,991)	\$ (150,571)	\$ (114,981)
Noncapital financing activities	167,559	163,715	146,614
Capital and related financing activities	(42,653)	6,875	(24,870)
Investing activities	56,552	(21,686)	(8,630)
Net change in cash	33,467	(1,667)	(1,867)
Cash beginning of the year	8,372	10,039	11,906
Cash end of the year	41,839	8,372	10,039

Operating activities used \$148M in cash for the year, a decrease of \$2.6M from FY 2008. Noncapital financing activities provided \$167.6M in cash for the year, a \$3.8M increase over FY 2008. Capital and related financing activities used \$42.7M of cash during the year, the large variance from the previous fiscal year was primarily from a bond issuance in fiscal year 2008 while no bonds were issued in the current year. Investing activities provided \$56.6M during fiscal year 2009. The large change over 2008 is due to a \$8.1M increase in the sale of mature investments, a \$1M increase in investment income and the liquidation of a \$33.7M repurchase agreement.

Capital Assets and Debt Management

The University had \$646.9M and \$614.1M of capital assets at June 30, 2009 and 2008 respectively, with accumulated depreciation of \$287.9M and \$271.0M respectively. The major categories and associated value of capital assets as well as accumulated depreciation at June 30, 2009 and 2008 are illustrated in the chart below (in thousands).

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2009

	2009	2008	2007
Capital Asset at Cost			
Buildings and improvements	\$ 457,030	\$ 446,769	\$ 424,862
Equipment	80,168	77,302	73,521
Construction in progress	24,431	8,343	5,060
Library materials	64,351	60,788	57,704
Capitalized collections	2,143	2,128	2,084
Land	18,768	18,768	18,244
Total Capital Assets	\$ 646,892	\$ 614,099	\$ 581,475
Accumulated Depreciation			
Building and improvements	\$ 176,853	\$ 165,685	\$ 154,813
Equipment	60,993	57,802	53,859
Library materials	50,075	47,542	45,490
Total Accumulated Depreciation	\$ 287,921	\$ 271,029	\$ 254,162

At June 30, 2009 and 2008 the University had debt (or similar long-term obligations) of \$147.9M and \$151.8M respectively.

Economic Outlook

The deep financial downturn in the global economy that began in FY2008 has negatively impacted the State of Idaho and the University of Idaho. In fiscal year 2009, the university was directed to return to the State of Idaho \$6M of state appropriated funds. This action was required in order for the state leadership to properly address budget shortfalls due to declining state revenues. In addition, investment values for the university also declined by approximately 25% over the last two fiscal years. This decline resulted in reduced investment income and reduced operating funds that typically come to the university from those revenue sources.

The university positioned itself strategically by instituting a hiring pause in the spring of 2008. This action was taken several months prior to awareness of the State's fiscal challenge and the subsequent directed state appropriation "holdback" in FY2009. This pause became a freeze commensurate with the FY 2009 state holdbacks. In addition a traveling freeze was implemented which allows only mission critical travel. These two actions were, and remain, critical as they facilitated balancing the FY2009 and FY2010 budgets. Both of those actions remain in effect today as only strategically important and aligned positions will be filled and only mission essential travel will be conducted during this time of restricted fiscal resources. With the continuing global and State of Idaho fiscal uncertainty, the university also increased its operational reserve as a potential future course of action to address any FY2010 State of Idaho holdback. This action, if necessary, should facilitate continued current fiscal year operations with a minimal amount of student, personnel, and organizational turbulence.

Additionally, in the spring of 2008, the university took a proactive approach to increasing our liquidity and reserves by working with the Vice Presidents, Deans, and major Directors of the university. The leadership identified the

**MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2009**

top future revenue generation initiatives for the university, put together a comprehensive plan to internally collect resources and then re-invested those resources into the selected initiatives. As a result, the university collected and then reallocated approximately \$6.2M primarily into advancement, enrollment, graduate students, and research, with approximately \$5.4M constituting recurring dollars. This action is a long term solution that will help alleviate liquidity concern as well as increase university reserves. Results from this initiative are already paying dividends in all areas as research proposals are up over 40% of just one year ago, first year graduate student enrollment is up over 25%, total student enrollment increased by 2% over the fall of 2008, and even with the challenging fiscal environment advancement is currently having greater success than just last year.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity—The University of Idaho (the “University”) is a publicly-supported comprehensive land grant institution created in 1889 by a statute of the 15th territorial legislature and is part of the public system of higher education in the State of Idaho. The system is considered part of the State of Idaho financial reporting entity. The State Board of Education, appointed by the Governor and confirmed by the State Senate, directs the University. The significant accounting policies followed by the University are described below to enhance the usefulness of the financial statements to the reader.

The University of Idaho Foundation, Inc. (the “Foundation”) is considered a component unit of the University as determined by GASB 39, *Determining Whether Certain Organizations Are Component Units*, an amendment of GASB Statement No.14, which requires reporting, as a component unit, an organization that raised and holds economic resources for the direct benefit of a governmental unit. The Foundation was established in 1970 to solicit financial support for the University of Idaho and to manage and invest the resulting charitable gifts. The Foundation is a separate 501(c)(3) corporation comprised of 25 members who serve as a self-perpetuating Board of Directors.

The Foundation receives all gifts to the University and transfers gifts to the donor specified area within the University on a regular schedule. In addition, it manages the endowment funds in a pooled investment fund, the Consolidated Investment Trust (“C.I.T.”). Earnings from the endowment are transferred annually to the University. Some funds invested in the C.I.T. are held in trust for the University and are shown as an asset and liability on the Foundation’s financial statements.

The Foundation also manages a number of split-interest agreements. These are contributions in the form of irrevocable charitable remainder trusts and charitable gift annuities. These gifts have been received from donors subject to obligations to pay stipulated amounts periodically to the donors or designated beneficiaries during their lifetimes or a period of years. These assets for which the Foundation serves as trustee are included in investments, and the present value of the estimated future payments to be made to the donors or other beneficiaries is included in the liabilities. The liabilities are adjusted during the term of the trusts for changes in the value of the assets, amortization of the discount, or the estimated life of the trust.

The University of Idaho Health Benefits Trust (“HBT”) was established in June, 2007 in accordance with the State of Idaho Department of Insurance (“DOI”) requirements. The HBT receives the employer, employee and retiree contributions for the University’s self-insured health plan, and pays the medical, dental, mental health and vision claims, and corresponding administrative processing fees, associated with the health plan. In addition, the HBT maintains a balance sufficient to cover the actuarially-determined incurred-but-not-paid (“IBNR”) claims of the health plan, as well as DOI-required supplemental funding of 30% of the actuarially determined IBNR claims. The HBT is overseen by a group of four independent Trustees who are employed by the University. The Trustees are responsible for overseeing the investment of the Trust monies, and ensuring that the University adequately funds the HBT on an ongoing basis through the aforementioned contributions to allow payment of the ongoing claims. The HBT proceeds are managed on behalf of the Trustees by U.S. Bank.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

The University of Idaho Retiree Benefits Trust (“RBT”) was established in April, 2008 to fund the University’s actuarially-determined projected liability for its self-insured retiree health plan. The RBT is overseen by University of Idaho Administration and the Trust proceeds are managed on behalf of the University by Wells Fargo Bank.

The HBT and RBT both have December 31, 2008 year ends. The difference in the fiscal year end from the University does not materially impact the net assets of the University.

Basis of Accounting—For financial statement purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University’s financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated. The University is presenting its financial statements in accordance with GASB Statement 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, and GASB Statement 35, *Basic Financial Statements – and Management’s Discussion and Analysis – for Public Colleges and Universities*, an amendment of GASB Statement No. 34.

The University has the option to apply all Financial Accounting Standards Board (“FASB”) pronouncements issued after November 30, 1989, unless those standards conflict or contradict with GASB pronouncements. The University has elected not to apply FASB pronouncements issued after the applicable date.

Cash and Cash Equivalents—The University considers all highly liquid investments with an original maturity of three months or less at the date of acquisition to be cash equivalents.

Student Loans Receivable—Loans receivable from students bear interest at rates ranging from 3% to 5% and are generally repayable in installments to the University over a 5- to 10-year period commencing 6 or 9 months from the date of separation from the University. Collections on these student loans are primarily handled through a third party servicer.

Accounts Receivable—Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University’s grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories—All inventories are valued at the lower of first-in-first-out cost or market.

Investments—The University accounts for its investments at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of the net change in fair value of investments in the statement of revenues, expenses, and changes in net assets.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

Restricted Cash and Cash Equivalents—Cash and cash equivalents that are restricted to make debt service payments, maintain sinking or reserve funds, except for currently due payments, are classified as non-current assets in the statement of net assets.

Capital Assets—Capital Assets are stated at cost when purchased or constructed, or if acquired by gift, at the estimated fair value at the date of gift. For equipment, the University's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life of greater than one year. Renovations to buildings, and land improvements that significantly increase the value or extend the useful life of the structure, are capitalized. Routine repairs and maintenance are charged to operating expense in the period in which the expense was incurred. Depreciation is computed using the straight-line, composite method over the estimated useful lives of the assets, generally 40 years for buildings, 20 years for improvements other than buildings, 10 years for library materials and an average of 7 years for equipment. Depreciation is not computed on capitalized collections which include works of art, historical treasures, and various special collections comprising of anthropological, geological, entomological, musical, and wildlife subjects.

Compensated Absences—Employee vacation and compensatory time pay is accrued at year-end for financial statement purposes. The accrued liability at June 30, 2009 and 2008 for compensated absences earned but not used are \$8,113,752 and \$8,078,001, respectively. Compensated absence costs are included in benefits expense in the statement of revenues, expenses, and changes in net assets.

Waivers—Tuition waivers, provided directly by the University for faculty and staff benefits, amounted to \$646,240 and \$636,521 for the fiscal years ended 2009 and 2008, respectively.

Deferred Revenue—Deferred revenue includes amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenue also includes amounts received from grant and contract sponsors that have not yet been earned.

Non-current Liabilities—Noncurrent liabilities primarily include (1) principal amounts of revenue bonds payable, and notes payable with contractual maturities greater than one year; and (2) estimated amounts for other liabilities that will not be paid within the next fiscal year.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009 AND 2008

Net Assets—The University's net assets are classified as follows:

Invested In Capital Assets—Net of Related Debt—This represents the University's investment in capital assets, net of depreciation and outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted—Nonexpendable—Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted—Expendable—Restricted expendable net assets include resources for which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Unrestricted—Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, investment income, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board for any lawful purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff. When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense towards restricted resources, and then toward unrestricted resources.

Income Taxes—The University is excluded from federal income taxes under Section 115(1) of the Internal Revenue Code, per letter dated November 7, 1945. The University is also considered a Section 501(c)(3) corporation via letter from the Internal Revenue Service dated August 29, 1961. The University is subject to unrelated business income tax.

Classification of Revenues—The University has classified its revenues as either operating or nonoperating according to the following criteria:

Operating Revenues—Operating revenues include revenues from activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, (3) most federal, state and local grants and contracts, and (4) interest on institutional student loans.

Nonoperating Revenues - Nonoperating revenues include revenues from activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

Scholarship Discounts and Allowances—Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance. Scholarship allowances for FY2009 and FY2008 are \$11,449,679 and \$10,693,531 respectively.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, net assets and disclosures regarding contingent assets and liabilities. Actual results could differ from those estimates.

Reclassifications—Certain prior year balances have been reclassified to conform to current year presentation. The most significant was to reclassify Pell Grant revenues from operating revenue to non-operating revenue to meet the GASB's clarification of Pell Grants as non-exchange transactions. This reclassification resulted in a \$10,411,108 decrease in Federal Grants and Contracts in operating revenue and a corresponding increase to Federal Grants and Contracts in nonoperating revenue for fiscal year 2008 on the Statement of Revenues, Expenses and Changes in Net Assets.

New Accounting Standards— In November, 2006 the GASB issued Statement No. 49, *Accounting and Reporting for Pollution Remediation Obligations*. This Statement requires that the University estimate the components of expected pollution remediation outlays and determine whether outlays for such components should be accrued as a liability or, if appropriate, capitalized when goods and services are acquired. Statement 49 also identifies the conditions under which the University is required to perform these estimations. The requirements of this Statement became effective for the University for the fiscal year ending June 30, 2009, with measurement of pollution remediation liabilities required at the beginning of that period so that beginning net assets can be restated. The University has reviewed the requirements of Statement 49 and determined that it has no liabilities to accrue or costs to be capitalized

In June 2007, the GASB issued Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*. This Statement requires that all identifiable intangible assets, not specifically excluded by the Statement, be recorded as capital assets. These intangible assets will be included in the net assets of the University. The implementation of this Statement is effective for fiscal years beginning after June 15, 2009. The University has not completed the process of evaluating the impacts that result from implementation of this statement on its financial statements.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

2. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are deposited with various financial institutions. Custodial credit risk on deposits is the risk that in the event of a bank failure, the University's deposits may not be returned to it. At June 30, 2009, \$925,048 of the University's bank balance of \$41,838,941 was exposed to custodial credit risk because it was uninsured and uncollateralized. At June 30, 2008, \$699,896 of the University's bank balance of \$8,371,724 was exposed to custodial credit risk because it was uninsured and uncollateralized.

3. INVESTMENTS

The general investment policy of the University as adopted by the State Board of Education is that investments in securities are to be made with the objectives of maximizing long-term total return, ensuring safety of principal, and providing satisfactory current income. Investment of cash shall be restricted to:

- FDIC passbook savings accounts.
- Certificates of deposit.
- U.S. securities.
- Federal funds repurchase agreements.
- Reverse repurchase agreements.
- Federal agency securities.
- Large money market funds.
- Banker's acceptances.
- Corporate bonds of Aa grade or better.
- Mortgage backed securities of Aa grade or better.
- Commercial paper of prime or equivalent grade.

In accordance with established investment policy, the University may invest in various mortgage-backed securities, such as collateralized mortgage obligations. These securities are recorded at fair value in the statement of net assets. Investment income, including change in fair value of investments, is recognized as revenue in the statement of revenues, expenses and changes in net assets.

The following table represents the fair value of investments by type at June 30, 2009:

	<u>Fair Value</u>
Corporate debt securities and preferred stock	\$6,601,147
U.S. government or government guaranteed securities	49,955,179
Mutual Funds	<u>381,077</u>
	<u>\$56,937,403</u>

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

Interest Rate Risk

Interest rate risk is defined by GASB Statement No. 40, *Deposit and Investment Risk Disclosure*, as the risk a government may face should interest rate variances affect the fair value of investments. The University does not presently have a formal policy that addresses interest rate risk. As of June 30, 2009, the University had the following investments subject to interest rate risk:

Debt Security Investments at June 30, 2009

Investment Maturities in Years

Investment Type:	Fair Value	<1	1-5	6-10	>10	Total
US Corporations	\$ 2,201,147	\$ -	\$ 237,001	\$ 736,035	\$ 1,228,110	\$ 2,201,147
US Government Agencies	49,955,179	601,759	85,827	12,799,761	36,467,833	49,955,179
Total	\$ 52,156,326	\$ 601,759	\$ 322,828	\$ 13,535,796	\$ 37,695,943	\$ 52,156,326

Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. GASB 40 requires disclosure of credit quality ratings for investments in debt securities. The University does not presently have a formal policy that addresses credit risk. (The credit risk ratings listed below are issued upon standards set by Standard and Poor's.) As of June 30, 2009, the University had the following investment credit risk:

	U.S. Corporations	U.S. Government Agencies	Total
AAA	6,009,012	49,955,179	55,964,191
AA	801,243		801,243
A	171,969		171,969
Total	6,982,224	49,955,179	56,937,403

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

Concentration of Credit Risk

Per GASB Statement No. 40, Concentration of Credit Risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Governmental Accounting Standards Board has adopted a principle that governments should provide note disclosure when 5 percent of investments are concentrated in any one issuer. The University does not presently have a formal policy that addresses concentration of risk.

Issuer:	Fair Value	% of Total Investments
Pimco Corp (AAA)	3,800,000	6.67%
Various (no single issuer) exceeds 5% of total	53,137,403	93.33%
Total	<u>56,937,403</u>	<u>100.00%</u>

Custodial Credit Risk

Custodial credit risk on investments is the risk that in the event of a failure of the counterparty, the University will not be able to recover the value of its investments that are in the possession of an outside party. The University does not have an investment policy for custodial credit risk. At June 30, 2009 all investments were held by the University or its counterparty in the University's name.

4. ACCOUNTS RECEIVABLE AND UNBILLED CHARGES

Receivables and unbilled charges consisted of the following at June 30, 2009 and June 30, 2008, respectively:

	June 30, 2009	June 30, 2008
Student tuition and fees	\$ 2,995,758	\$ 2,592,613
Auxiliary enterprises	1,833,097	2,902,826
Educational activities	1,060,882	1,501,314
Federal appropriations	3,452	-
Federal financial aid funds	132,348	75,257
Grants and contracts	9,639,932	9,644,035
Due from Foundation	7,044,168	7,587,835
	<u>\$ 22,709,637</u>	<u>\$ 24,303,880</u>
Less allowance for doubtful accounts	(495,800)	(495,800)
Net accounts receivable and unbilled charges	<u>\$ 22,213,837</u>	<u>\$ 23,808,080</u>

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

5. STUDENT LOANS RECEIVABLE

Student loans made through the Federal Perkins Loan Program (the “Program”) comprise substantially all of the loans receivable at June 30, 2009 and June 30, 2008. Under this Program, the federal government provides approximately 67% of the funding for the Program with the University providing the balance. The Program provides for the cancellation of a loan at rates of 12.5% to 30% per year up to a maximum of 100% if the participant complies with certain provisions. The federal government reimburses the University for amounts cancelled under these provisions.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The allowance for uncollectible loans was \$1,406,441 for June 30, 2009 and \$1,259,557 at June 30, 2008.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

6. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment at June 30, 2009 and 2008 consisted of the following:

	<u>Balance July 1, 2008</u>	<u>Year ended June 30, 2009</u>			<u>Balance June 30, 2009</u>

JUNE 30, 2009 AND 2008

Description	Balance Outstanding 2009	Balance Outstanding 2008
General Revenue Refunding Bonds, Series 2005A, (original balance of \$30,740,000), consisting of bonds due in annual installments commencing in 2005 and fluctuating periodically from \$790,000 to a maximum of \$2,265,000, plus interest from 4.00% to 5.00% through the year 2026, collateralized by a pledge of all revenues of the University with the exception of general account appropriated funds of the State of Idaho and restricted gift and grant revenues. Revenues pledged to the Recreation Center Bonds and to the Activity Center Bonds are pledged to the 2005A bonds on a subordinate basis until the retirement of the Recreation Center Bonds and Activity Center Bonds.	28,340,000	29,310,000
General Revenue Refunding Bonds, Series 2007A, (original balance of \$62,445,000), consisting of bonds due in annual installments, commencing in 2009 and fluctuating periodically from \$300,000 to a maximum of \$59,500,000 plus interest from 3.250% to 4.375% through the year 2041, collateralized by a pledge of all revenues of the University with the exception of general account appropriated funds of the State of Idaho and restricted gift and grant revenues. Revenues pledged to the Recreation Center Bonds and the Activity Center Bonds are pledged to the 2007A Bonds on a subordinate basis until the retirement of the Recreation Center Bonds and the Activity Center Bonds.	62,095,000	62,445,000

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

Description	Balance Outstanding 2009	Balance Outstanding 2008
General Revenue Bonds, Series 2007B, (original balance of \$35,035,000), consisting of bonds due in annual installments, commencing in 2015 and fluctuating periodically from \$200,000 to a maximum of \$34,235,000 plus interest from 4.25% to 4.50% through the year 2041, collateralized by a pledge of all revenues of the University with the exception of general account appropriated funds of the State of Idaho and restricted gift and grant revenues. Revenues pledged to the Recreation Center Bonds and the Activity Center Bonds are pledged to the 2007B Bonds on a subordinate basis until the retirement of the Recreation Center Bonds and the Activity Center Bonds.	35,035,000	35,035,000
Other indebtedness, consisting of notes payable with interest rates ranging from 4.75% to 5.00% due through the year 2019.	2,673,388	906,141
Sub-total	149,628,388	153,716,141
Premium on Bonds	3,404,711	3,598,875
Deferred amount on Refunding – 2005A & 2007A	(5,144,055)	(5,467,607)
TOTAL	\$147,889,044	\$151,847,409

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009 AND 2008

Principal and interest maturities on bonds and notes payable, excluding amortization of bond premium and principal and interest on bonds subject to an in-substance debt defeasance are as follows for the years ending June 30:

	Bonds Payable		Notes Payable	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2010	\$ 5,440,000	\$ 6,611,071	\$ 119,775	\$ 117,724
2011	5,135,000	6,313,962	2,006,789	74,097
2012	2,750,000	5,720,138	135,133	30,003
2013	6,020,000	5,433,306	143,537	21,600
2014	3,950,000	5,180,179	152,466	12,672
2015-2019	13,485,000	21,422,593	115,688	6,964
2020-2024	13,270,000	14,635,934	-	-
2025-2029	3,170,000	10,191,566	-	-
2030-2034	-	7,275,681	-	-
2035-2039	-	3,963,023	-	-
2040-2044	93,735,000	509,010	-	-
	<u>\$ 146,955,000</u>	<u>\$ 87,256,463</u>	<u>\$ 2,673,388</u>	<u>\$ 263,060</u>

In December 2008, the University entered into a line of credit agreement with Wells Fargo Bank to finance safety renovations and improvements for the University's Kibbie Dome athletic facility. The total available line of credit extended to the University under this agreement is \$10,000,000. As of June 30, 2009, the University had drawn down \$1,879,567 under this agreement, as included in the University's other indebtedness. The University is required to make quarterly payments of accrued interest on this line of credit beginning March 31, 2009, with the entire principal balance and remaining accrued interest to be paid on December 31, 2010. This line of credit carries a indexed variable interest rate which was 2.600% as of June 30, 2009. The line of credit is secured by the University's cash and investments held in the accounts of Wells Fargo and/or any Wells Fargo affiliates.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009 AND 2008

Pledged Revenues – As stated in the bond descriptions above, the University has pledged certain revenues as collateral for debt instruments comprised of all outstanding University bond issuances. The pledged revenue amounts for the year ended June 30, 2009 are as follows:

Source of Pledged Revenues	
Student Fees	\$ 59,562,901
Sales and Services Revenues	38,608,143
Other Operating Revenues	3,747,033
Investment Income	3,040,962
F&A Recovery Revenues	9,457,359
Total Pledged Revenues	\$ 114,416,398
 Revenues Available for Debt Service	
Debt Service on Bonds	\$ 114,416,398
Debt Service Coverage	11,567,306 9.9

Debt Defeased Through Advance Refunding – The University has defeased certain debt obligations through advanced refunding. These advance refundings are comprised of the University's Series 2005A and Series 2007A bond issuances. The specific debt, principal payments, refunded amounts and remaining balances for the refunded bonds are as follows:

<u>Refunded Issue</u>	<u>Original Issue Amount</u>	<u>Principal Payments</u>	<u>Refunded Amount</u>	<u>Balance 6/30/2009</u>
Student Fee Revenue Bonds (Recreation Center Project) Series 1999	20,115,000	795,000	19,320,000	-
Student Fee Revenue Bonds, Series 1999A	1,470,000	295,000	1,175,000	-
Student Fee Revenue Bonds, Series 1999B	6,150,000	1,180,000	4,970,000	-
Student Fee Revenue Bonds, Series 1999C	6,305,000	2,240,000	4,065,000	-
Student Fee Revenue Bonds, Series 2001	40,930,000	1,840,000	38,035,000	1,055,000
Totals	<u>\$ 74,970,000</u>	<u>\$ 6,350,000</u>	<u>\$ 67,565,000</u>	<u>\$ 1,055,000</u>

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

11. HEALTH INSURANCE PLAN AND HEALTH BENEFITS TRUST

The University of Idaho (“University”) is self-insured for the health insurance benefits it provides to employees and retirees. In June, 2007, the University established an affiliated but independent trust for the purpose of funding and paying its medical, mental health, dental and vision claims and their associated administrative costs under its health insurance plan for both active and retired employees. This trust, known as the University of Idaho Health Benefits Trust (“HBT”), was established as a tax-exempt entity under Section 115(1) of the Internal Revenue Code of 1986, as amended. The HBT is administered by a board of four trustees who are members of the University’s active staff and faculty. The HBT is maintained in an independent trust account established with U.S. Bank. This trust account is maintained under the sole control of the HBT board of trustees.

The HBT receives its funding for the payment of University health plan claims through a combination of employer, employee and retiree contributions. These contribution amounts are established in advance of the health plan year based upon independent actuarial valuation which takes into account health plan participant demographics, health plan design, expected health claim costs, and expected investment returns on HBT reserves.

Employer and employee contributions are made to the HBT on a bi-weekly basis corresponding to the University’s payroll schedule. Retiree contributions are billed and collected by the University quarterly and deposited to the HBT each calendar quarter. Additional employer funding may be provided by the University to the HBT as necessary to ensure the solvency of the HBT. Deposits into the HBT are irrevocable and may only be utilized for the payment of participating employee and retiree health plan claims, the associated administrative costs of such claims, and other necessary incidental costs attributable to the administration of the HBT.

Payments under the HBT are initiated via electronic request by University personnel on a weekly basis based upon processed claim information provided to the University by its contracted health plan claim administrators. All retiree-related costs incurred on an annual basis within the HBT apply toward the calculation of the University’s Annual Required Contribution (“ARC”) as determined under the requirements of Governmental Accounting Standard Board Statement 45, “Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.” The funding of the University’s liability under GASB 45 is recorded separately from the HBT under a second trust, the “University of Idaho Retiree Benefits Trust” as disclosed in Footnote 12 of these financial statements.

The financial statements of the HBT are audited annually on a calendar-year basis, and are publicly available via public records request by writing to: University of Idaho, Attn. General Accounting, P.O. Box 443166, Moscow, ID 83844-3166.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

12. RETIREMENT PLANS

Public Employee Retirement System of Idaho – The Public Employee Retirement System of Idaho (“PERSI”), a cost-sharing multiple-employer public retirement system, was created by the Idaho State Legislature. PERSI provides benefits based on members’ years of service, age, and compensation. In addition, benefits are provided for disability or death, and for survivors of eligible members or beneficiaries. It is a defined benefit plan requiring that both the member and the employer contribute. Designed as a mandatory system for eligible state employees, the legislation provided for political subdivisions to participate by contractual agreement with PERSI. The benefits and obligations to contribute to the plan were established and may be amended by the Idaho State Legislature. Financial reports for the plan are available from PERSI upon request.

After five years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each year of credited service, the annual service retirement allowance is 2% of the average monthly salary for the highest consecutive 42 months.

For the three years ended June 30, 2009, 2008 and 2007, the required contribution rate as determined by PERSI was 10.39% and 6.23% of covered payroll for the University and employees, respectively. The University’s contributions required and paid were \$5,718,252, \$5,563,717 and \$5,356,667, for the years ended June 30, 2009, 2008 and 2007, respectively.

Optional Retirement Plan – Effective July 1, 1990, the Idaho State Legislature authorized the Board of Regents to establish an Optional Retirement Plan (ORP), a defined contribution plan, for faculty and exempt employees. The employee contribution requirement for the ORP is based on a percentage of total payroll. Employer contributions are determined by the State of Idaho. The plan provisions were established by and may be amended by the State of Idaho.

New faculty and exempt employees hired July 1, 1990 or thereafter automatically enroll in the ORP and select their vendor option. Faculty and exempt employees hired before July 1, 1990 had a one-time opportunity to enroll in the ORP. Enrollees in the ORP no longer belong to PERSI. Vendor options include Teachers Insurance and Annuity Association – College Retirement Equities Fund and Variable Annuity Life Insurance Company.

Participants are immediately fully vested in the ORP. Retirement benefits are available either as a lump sum or any portion thereof upon attaining 55 years of age. The contribution requirements (and amounts paid) for the three years ended June 30, 2009, 2008 and 2007 were \$13,358,559, \$12,494,135 and \$10,147,956, respectively, that consisted of \$7,621,025 from the University and \$5,737,534 from employees for 2009, \$7,127,049 from the University and \$5,367,086 from employees for 2008, and \$5,354,885 from the University and \$4,793,071 from the employees for 2007.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

Although enrollees in the ORP no longer belong to PERSI, the University is required by the State of Idaho to contribute supplemental payments to PERSI for these enrollees in the amount of 1.49% of the annual covered payroll. The University will be required to make these annual supplemental payments through July 1, 2025. During the three years ended June 30, 2009, 2008 and 2007, these supplemental funding payments made to PERSI were \$1,226,593, \$1,147,997 and \$2,023,096 respectively. These supplemental amounts are not included in the regular University PERSI contribution discussed previously.

13. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS AND RETIREE BENEFITS TRUST

A. PLAN DESCRIPTION

The University of Idaho (the "University") provides medical and dental benefits to eligible retirees, disabled employees, spouses, and survivors. The University also provides life insurance benefits to eligible retirees. Long-term disabled employees are treated as retirees and eligible for these same retiree benefits. These benefits represent a single-employer defined benefit plan administered by the University. The University has established a trust to fund the medical and dental portions of these post-employment benefits as described below in Section B.

Under certain conditions the University pays a portion of the coverage for retirees and disabled employees and the retiree or disabled employee pays the remainder. Spouses and survivors are always required to pay 100% of the cost for these benefits. In general, to qualify, the employee must have completed at least 30 years of credited service or the sum of his/her age and years of credited service must total at least 80 to qualify for this benefit. Employees who were hired on or after January 1, 2002 are not eligible for this benefit. Employees hired after January 1, 2002 are eligible to participate in the University's health insurance plan, but the University does not cover any portion of their premiums, deductibles, or coinsurance; those costs are the sole responsibility of the employee. All University post-employment benefits may be further established or amended by the University or the State Board of Education.

Funding for these benefits is comprised of both University and retiree contributions, combined with appropriated funding by the State of Idaho. The University determines the defined premium costs that will be borne by its retiree plan participants, and the State of Idaho Legislature determines the amount of annual state appropriations that will be granted to the University for employee and retiree benefits, provided to the University as a fixed annual amount per full-time equivalent employee. The University allocates this appropriated sum to its various employee and retiree benefits, including the retiree health insurance program. The University solely bears the risk for adverse financial performance within the retiree health insurance program, subject to a cap of \$150,000 per retiree per year, after which the University is reinsured. Retiree premium rates through calendar year 2009 range from \$30.00 to \$1003.26 per month, depending upon the retiree's status and number of dependents including spouse. Retiree health plan performance is reviewed annually and premium rates are then annually adjusted by the University as necessary.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

B. TRUST DESCRIPTION

The University of Idaho established the Retiree Benefits Trust (“RBT”) in 2008 to fund the future payments required to provide post-employment benefits other than pension (“OPEB”) as described in Section A. above. The RBT is an independent, irrevocable trust administered on behalf of the University by Wells Fargo Bank as trustee. Funding and payment of the annual, ongoing retiree medical and dental benefits under the University’s Health Benefits Trust (“HBT”), as described in Footnote 11 to these financial statements, do apply toward the funding of the RBT to meet the requirements of the Annual Contribution Rate (“ARC”).

The RBT financial statements are audited annually on a calendar-year basis as an integral part of the University’s annual audit as represented in these statements.

C. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — Financial statements for the RBT are prepared using the accrual basis of accounting. University contributions are recorded and recognized in the period in which they are paid into the RBT.

Valuation of Investments – Investments are reported at fair value. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of the net change in fair value of investments in the statement of changes in plan assets.

D. PLAN MEMBERSHIP, CONTRIBUTION AND FUNDING STATUS

The number and class of retirees and employees are disclosed in the following table. These retiree and disabled counts do not include spouses or surviving spouses. These counts are as follows:

	Medical	Dental	Life	Sick Pay
Active	1,097	1,178	1,178	1,272
Retirees	825	181	693	N/A
Disableds	12	N/A	N/A	-
Retirees (Sick Leave)	N/A	N/A	N/A	3
Total Inactive	837	181	693	3
Total Combined	1,934	1,359	1,871	1,275

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

The University's ongoing obligations and liabilities are actuarially determined. These actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and are subject to continual revision based upon actual results. Actuarial projections of benefits are based upon the types of benefits provided under the University's retiree health plan and the pattern of cost sharing between the University and retirees at the time of valuation. The University's actuarial calculations are based upon long-term expectations and include techniques that are designed to reduce short-term volatility in the actuarial accrued liabilities and corresponding asset values.

The Entry Age Normal cost method and the Level Dollar amortization method have been utilized to actuarially calculate the University's Present Value of Benefits ("PVB"), Actuarial Accrued Liability ("AAL"), Annual Required Contribution ("ARC") and Annual OPEB Cost ("AOC") for the retiree health plan. Due to the University's establishment of the RBT to hold the funds required to finance its unfunded OPEB liability, the Unfunded Accrued Liability ("UAL") is amortized with interest over a 30-year period. All expected amortization payments are discounted to the end of the year. These actuarial calculations utilize an estimated discount rate of 6.25% and an estimated salary inflation rate of 3.00%. The discount rate of 6.25% is based upon the University's historical and long-term expected investment returns on the trust that has been established to fund these future benefits. All retiree medical, prescription drug, dental, sick pay conversion and life insurance benefits are included in the University's actuarial calculations. The results of these calculations are summarized as follows:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009 AND 2008

	<u>Entry Age Normal Level</u> <u>Dollar Cost Method</u>
Present Value of Benefits (PVB)	\$84,177,000
Actuarial Accrued Liability (AAL)	77,141,000
Annual Required Contribution (ARC) ¹	6,362,000
Estimated Pay-As-You-Go Contributions ²	2,250,000
Contributions to Qualifying Trust	<u>4,180,000</u>
Total Actual Annual Contributions	6,430,000
Net Annual OPEB Cost (AOC) - Funding Excess	68,000
Total Actual Annual Contributions as % of ARC	101.1%

¹The ARC reflects a 30-year level dollar amortization of the unfunded AAL. The amortization also reflects interest at the discount rate.

²E Estimated Pay-As-You-Go Contributions are net of estimated retiree contributions.

NOTES TO FINANCIAL STATEMENTS

Covered Payroll	\$67,225,000	\$71,338,000	\$71,338,000	\$58,097,000	\$129,435,000

¹Includes interest to year end.

²Level dollar basis for 30 years. Interest charged at the discount rate and paid at the end of the year.

The accompanying schedule of University contributions presents trend information about the amounts contributed to the plan by the University in comparison to the ARC, an amount that is actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the University and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the University and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest actuarial valuation is as follows:

14. NATURAL CLASSIFICATION WITH FUNCTIONAL CLASSIFICATIONS

For fiscal years prior to 2003, the University reported expenses in functional categories. In order to be consistent with the State of Idaho's reporting method; operating expenses are displayed in their natural classifications for fiscal year 2009 and 2008. The following table shows natural classifications with functional classifications:

Expenses 2009	Salaries	Benefits	Services	Supplies	Ins, utilities & rent	Scholarships & Fellowships	Depreciation	Other	Totals
Instruction	\$ 57,299,218	\$ 17,053,278	\$ 6,378,181	\$ 6,223,160	\$ 485,779	\$ -	\$ -	\$ 2,300,803	\$ 89,740,420

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

15. CONTINGENCIES AND LEGAL MATTERS

Revenue from federal research and service grants includes amounts for the recovery of overhead and other costs allocated to these projects. The University may be required to make refunds of amounts received for overhead and other costs reimbursed as a result of audits by agencies of the federal government.

The University is a defendant in litigation arising from the normal course of operations. Based on present knowledge, the University's administration believes any ultimate liability in these matters will not materially affect the financial position of the University.

16. RISK MANAGEMENT

The University participates in the State of Idaho's risk and insurance program, which includes liability and property coverage. The State of Idaho's Retained Risk Fund has a \$500,000 cap for tort claims. The University's premiums are based on the State's actuarial calculations and are weighted for losses sustained by the University. Deductibles for the programs include \$2,000 for property losses, \$500 for auto physical damage, \$5,000 for boiler and machinery losses, and \$50 for inland marine losses. There are no casualty deductibles.

The State Fund of Idaho, a competitive state fund, writes the University's Worker's Compensation coverage. The University's premiums and the State Fund loss experience modifications are based on the loss experience of all State agencies.

17. COMPONENT UNIT

The University of Idaho Foundation, Inc. (Foundation) is a legally separate, 501 (C) (3) component unit of the University of Idaho (University). The Foundation was established in 1970 for the purpose of soliciting donations and to hold and manage invested donations for the benefit of the University. A Board of Directors comprised of up to 25 voting members governs and conducts the business of the Foundation, meeting at least four times in each fiscal year. The Foundation is supported by professional staff of the University in the Foundation Office, Trust & Investment Office, the Development Office, and throughout the colleges. Separate audited financial statements are prepared for the Foundation and may be obtained by contacting University of Idaho Foundation, PO Box 443143, Moscow, Idaho 83844-3143.

The majority of the resources, or income earned from those resources, that the Foundation holds and invests are restricted to the activities of the University by donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the University and because these resources provide a significant amount of support to the University, the Foundation has been determined to be a component unit of the University and is discretely presented in the University's financial statements. Significant accounting policies associated with the University, described in

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009 AND 2008

Note 1, apply to the Foundation, when applicable. Significant disclosures at June 30, 2009 and 2008 are as follows:

INVESTMENTS—Investments in marketable securities are recorded at fair value as determined by quoted market prices. At June 30, 2009, the fair value of restricted and unrestricted investments was \$157,461,475 and \$2,093,013 respectively. At June 30, 2008, the fair value of restricted and unrestricted investments was \$188,191,613 and \$4,385,210 respectively.

The majority of investments held by the Foundation are part of the pooled endowment fund referred to as the Consolidation Investment Trust (C.I.T.) The C.I.T. was established by the Regents of the University of Idaho in 1959 to pool endowment funds received by the University and the Foundation. The C.I.T. utilizes the market value share method of accounting. The fair value of the C.I.T.'s portfolio is divided by the number of outstanding unit participation shares owned by the individual endowments to determine the value of a share when additional contributions are added.

The following table represents the fair value of investments by type at June 30, 2009:

Investment Type	Fair Value
U.S. Government Agency Obligations	\$ 29,550,679
Corporate bonds	38,678,823
Preferred Stock	4,162,640
Municipal Securities	959,004
U.S. Treasuries	3,102,292
Common Stock	75,090,656
International equity funds	3,231,155
Mutual Funds	2,238,747
Private Equity	2,535,292
Foreign Currency	5,200
	<u>\$ 159,554,488</u>

Interest Rate Risk

Interest rate risk is defined by GASB Statement No. 40 as the risk a government may face should interest rate variances affect the fair value of investments. The Foundation does not presently have a formal policy that addresses interest rate risk. As of June 30, 2009, the Foundation had the following investments subject to interest rate risk:

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

Investment Type	Fair Value	Investment Maturities (in years)			
		Less than 1	1-5	6-10	More than 10
U.S. Corporations	\$ 38,678,823	\$ 1,938,395	\$ 11,658,439	\$ 12,063,189	\$ 13,018,800
U.S. Government Agency Obligations	\$ 29,550,679	-	19,715	5,029,061	24,501,903
U.S. Treasuries	\$ 3,102,292	99,995	2,134,791	701,213	166,293
Municipal Securities	\$ 959,004	-	376,459	420,576	161,969
	<u>\$ 72,290,798</u>	<u>\$ 2,038,390</u>	<u>\$ 14,189,404</u>	<u>\$ 18,214,039</u>	<u>\$ 37,848,965</u>

Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. GASB 40 requires disclosure of credit quality ratings for investments in debt securities. The Foundation does not presently have a formal policy that addresses credit risk. (The credit risk ratings listed below are issued upon standards set by Standard and Poor's.) As of June 30, 2009, the Foundation had the following investment credit risk:

	US Government		Municipal	Total
	Agency Obligations	Corporate Debt		
Credit Rating				
AAA	\$ 29,530,043	\$ 4,021,995		\$ 33,552,038
AA		4,137,425	330,846	4,468,271
A		8,107,507	543,378	8,650,885
BBB		14,150,281		14,150,281
BB		2,816,482	31,910	2,848,392
B		1,219,516		1,219,516
CCC		3,299,524		3,299,524
CC		92,019		92,019
D		430,870		430,870
Not Rated	20,636	403,204	52,870	476,710
	\$ 29,550,679	\$ 38,678,823	\$ 959,004	\$ 69,188,506

Concentration of Credit Risk

Per GASB Statement No. 40, Concentration of Credit Risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Foundation has a formal policy addressing concentration of credit risk. Investments shall be diversified with the intent to minimize the risk of large realized and unrealized losses to the invested assets. The total portfolio will be constructed and maintained to provide prudent diversification with regard to the concentration of holding in individual issues, corporations, or industries.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

- Not more than 5% of the total equity portfolio valued at market may be invested in the common stock of any one corporation.
- Not more than 5% of the total outstanding shares of any one company may be held.
- Not more than 20% of the equity portfolio valued at market may be held in any one industry category.
- Not more than 15% of the equity portfolio valued at market may be invested in securities issued as American Depositary Receipts.
- Fixed income securities of any one issuer shall not exceed 5% of the market value of the total bond portfolio at the time of the purchase (except US Treasury or other federal agencies).
- Holdings of any individual fixed income issue must not exceed 5% of the value of the total issue (except US Treasury or other federal agency issues.)

As of June 30, 2009, the Foundation had not invested more than 5 percent of their investments in any one issuer.

Custodial Credit Risk

The Foundation minimizes exposure to custodial credit risk by requiring that investments, to the extent possible, be clearly marked as to Foundation ownership and further to the extent possible, be held in the Foundation's name. At June 30, 2009 all Foundation funds were insured or registered investments, or investments held by the Foundation or their agent in the Foundation's name.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Foundation does not presently have a policy that addresses foreign currency risk. The Foundation is exposed to foreign currency risk in foreign stocks that it holds as follows:

Currency Type	Fair Value
AUD	\$ 1,846,423
CAD	40,125
CHF	846,518
DKK	9,878

DONOR RESTRICTED ENDOWMENTS

The Foundation receives certain gift assets that are restricted for endowment purposes, and by definition the original gift amount will be held in perpetuity for the benefit of the University. Restriction requirement for principal preservation is addressed by Idaho statute under “management of Institutional Funds,” and is applicable lacking any further guidance from the individual gift agreement. During the fiscal year ended June 30, 2009, \$6,415,727 was contributed to current endowments.

The Foundation has a two-tier spending policy dependent upon the endowment agreement that exists for each endowment. 1) Endowments with language requiring the reinvestment of all realized capital gains as principal can distribute only interest and dividends, and all realized gains are reinvested. 2) The Foundation Board of Directors establishes a spending rate annually for endowments without the restrictive reinvestment language. The approved fiscal year 2009

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

spending rate was set at 4% of the three-year rolling average of the C.I.T.'s monthly fair market value. If total dividends, interest and short-term capital gains are less than the total amount required to make the distributions based on this spending rate, realized long-term gains will be used to make up the shortfall.

During the fiscal year ended June 30, 2009 and 2008, the endowments held by the Foundation had net depreciation on donor restricted endowments of \$34,765,134 and \$25,924,940. Per terms of the endowment agreements realized capital gains are either reinvested as principal or distributed per the donor agreement. Unrealized appreciation is included with the "Restricted – Non Expendable" Fund Balance.

18. RELATED ORGANIZATIONS

The Idaho Research Foundation, Inc. (the "Research Foundation") is a separate legal entity that until 2008 provided technology transfer services to the University. In 2008 an agreement was reached between the University and Research Foundation to integrate some of the services into the University. The new role of the Research Foundation is to hold equity from licensing transactions on behalf of the University. On January 17, 2002, the University executed a revolving line-of-credit agreement with the Research Foundation not to exceed \$200,000. As of June 30, 2007, the Research Foundation had drawn \$126,000 on the line-of-credit. As part of the agreement to integrate into the University the \$126,000 was forgiven and the note was removed from the University's books in fiscal year 2008. The Research Foundation is a legally separate organization which provides a valuable service to the University. It does not provide financial resources to the University and is not reported as a component unit.

The Vandal Boosters, Inc. (the "Boosters") is a fund raising organization that provides financial assistance and services to the University of Idaho intercollegiate athletic department. Contributions received by the University from this organization are recorded as gifts. Unaudited net assets of the Boosters at June 30, 2009 and 2008 were \$119,137 and \$6,774 respectively. Assets owned by the Boosters are not included in the accompanying financial statements.

The University of Idaho Alumni Association (the "Association") was established to develop and maintain a positive relationship with alumni, parents, and friends of the University. The Association is a legally separate organization which provides a valuable service to the University. It does not provide significant financial resources to the University and is not reported as a component unit.

19. RISKS AND UNCERTAINTIES

Per Regents of University of Idaho policy, the University invests in various types of investment securities rated Aa or better. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities,

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009 AND 2008

changes in the values of investments securities may occur in the near term and such changes could affect the amounts reported in the statement of financial position.

Since June 2008, there has been significant volatility in the domestic and international investment markets, primarily as a result of liquidity issues in credit markets. Consequently, the fair value of the University's investments may be exposed to higher than typical price volatility which could result in a subsequent reduction in fair value of certain investments from the amounts reported as of June 30, 2009.

20. SUBSEQUENT EVENTS

Subsequent to June 30, 2009, Idaho's Governor announced a tiered \$98.9 million reduction in state general fund spending in response to lower state revenue forecasts. The University of Idaho's Fiscal Year ("FY") 2010 general fund appropriations, its corresponding reductions (6% where applicable), and final appropriations are as follows:

<u>Appropriation</u>	<u>Initial FY10 Appropriation</u>	<u>Reduction Per Governor's Office</u>	<u>Final FY10 Appropriation</u>
General Education Appropriation	\$ 82,748,000	\$ 4,964,900	\$ 77,783,100
University of Idaho Dairy	10,000,000	600,000	9,400,000
Agricultural Research and Extension	24,989,900	1,499,400	23,490,500

Idaho Geological Survey	768,600	30,700	737,900
Total Appropriations	<u>\$ 124,207,900</u>	<u>\$ 7,117,300</u>	<u>\$ 117,090,600</u>

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

Idaho State Board of Education
University of Idaho
Moscow, Idaho

We have audited the financial statements of the University of Idaho (University), its discretely presented component unit, and the benefits trusts as of and for the year ended June 30, 2009, which collectively comprise the University's basic financial statements, and have issued our report thereon dated October 2, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the discretely presented component unit and the University of Idaho Health Benefits Trust, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered the University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purposes of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in normal course of performing their assigned functions, to prevent or detect misstatement on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the University's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the University's financial statements that is more than inconsequential will not be prevented or detected by the University's internal control. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a significant deficiency in internal control over financial reporting as noted in finding 2009-01.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the University's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph on this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are considered to be material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The University's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the University's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Idaho State Board of Education, management, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Eugene, Oregon
October 2, 2009

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Idaho State Board of Education
University of Idaho
Moscow, Idaho

COMPLIANCE

We have audited the compliance of the University of Idaho (University) with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We did not audit the University's compliance with the requirements governing Student Loan Billing and Due Diligence in Collection compliance requirements specified by the Federal Perkins Loan Program and described in the *OMB Circular A-133 Compliance Supplement*. Compliance with these requirements was audited by other auditors whose reports thereon has been furnished to us, and our opinion expressed herein, insofar as it relates to the University's compliance with those requirements, is based solely on the reports of the other auditors.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 2009-02.

INTERNAL CONTROL OVER COMPLIANCE

The management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

We did not consider internal controls over compliance with compliance with the Student Loan Billing and Due Diligence in Collection compliance requirements specified by the Federal Perkins Loan Program and described in the *OMB Circular A-133 Compliance Supplement*. Internal controls over those compliance requirements were considered by the other auditors referred to above; and our report, insofar as it relates to the University's internal control over those compliance requirements, is based solely upon the reports of the other auditors.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the University's internal control that might be significant deficiencies or material weaknesses as defined below. However, as described below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2009-02 to be a significant deficiency.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider any of the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses.

The University's responses to the finding identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Idaho State Board of Education, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Moss Adams LLP

Eugene, Oregon
October 2, 2009

UNIVERSITY OF IDAHO
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2009

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

- Material weakness(es) identified? _____ yes X no
- Significant deficiencies(s) identified that are not considered to be material weaknesses? X yes _____ none reported

Noncompliance material to financial statements noted? _____ yes X no

Federal Awards

Internal control over major programs:

- Material weakness(es) identified? _____ yes X no
- Significant deficiencies (s) identified that are not considered to be material weaknesses? _____ yes X none reported

Type of auditor's report issued on compliance for major programs: Unqualified

Any audit findings disclosed that are required to be reported in accordance with section 510(a) of Circular A-133? X yes _____ no

Identification of major programs:

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>
-----------------------	---

10.500	Cooperative Extension Service
--------	-------------------------------

Student Financial Assistance Cluster:

84.268	Federal Direct Loans
84.033	Federal Work-Study Program
84.038	Federal Perkins Loans
84.063	Pell Grant Program
84.007	Supplemental Educational Opportunity Grant Program
84.375	Academic Competitiveness Grant
84.376	National Science and Mathematics Access to Retain Talent

Dollar threshold used to distinguish between type A and type B programs: \$ 2,305,307

Auditee qualified as low-risk auditee? X yes _____ no

UNIVERSITY OF IDAHO
SCHEDULE OF FINDINGS AND QUESTIONED COSTS, (Continued)
FOR THE YEAR ENDED JUNE 30, 2009

Section II - Financial Statement Findings

Finding 2009-01 Financial Statement Corrections

Criteria or specific requirement: The records, books, and accounts should record the financial and fiscal operations of all funds administered by the University, and provide the audit trail to be used in a review of accountability. Information presented in financial reports should be supported by the books and records from which the financial statements have been prepared.

Condition: The University did not have procedures in place to ensure that all records, books, and accounts were in agreement with the financial statement and schedule of expenditure of federal award dollar amounts and footnote disclosures.

Context: We were unable to agree certain financial statement account balances and footnote disclosures to the detail supporting schedules, and in one case a \$1,776,492 audit adjustment was necessary. Additionally the schedule of expenditures of federal awards did not correctly identify all federal program clusters.

Effect: Due to the conditions noted above, significant corrections were made to the financial statements, related disclosures and schedule of expenditures of federal awards as a result of the external audit process.

Cause: The University's review of the financial statements and schedule of expenditures of federal awards did not identify all significant errors.

Recommendation: We recommend the University perform a final review of its financial statements and schedule of federal awards by agreeing all dollar amounts and footnote disclosures to final adjusted records, books, and accounts.

View of the Responsible Officials and Planned Corrective Actions: Agree. General Accounting will implement review procedures to ensure that all supporting documentation and corresponding account balances tie out to its financial statement report lines.

UNIVERSITY OF IDAHO
SCHEDULE OF FINDINGS AND QUESTIONED COSTS, (Continued)
FOR THE YEAR ENDED JUNE 30, 2009

Section III - Federal Award Findings and Questioned Costs

Finding 2009-02 Allowable Costs

Criteria or specific requirement: United States Code, Title 7, Chapter 13, Section 331 provides guidance on retirement contributions made to land-grant college employees. It states contributions to employee retirement accounts from federal funds will not exceed 5 percent of that portion of the employee's salary paid from federal funds. This guidance parallels the Administrative Handbook for Cooperative Extension Work, section K 2. d, issued by the USDA, that states only employees receiving salary payments from federal funds are eligible for employer contributions and contributions to a state retirement system are limited to an amount not to exceed 5 percent of the salary paid from these federal funds. Additionally, OMB Circular A-133, section 300, requires recipients of federal awards to "maintain internal control over federal programs that provide reasonable assurance that the auditee is managing federal awards in compliance with laws, regulations, and the provisions of grants and contracts".

Condition: The University has not established internal controls to provide reasonable assurance of compliance with the 5 percent retirement contribution limit. As a result, the University did not comply with the requirement. The University charged approximately \$25,000 of retirement contributions to the Cooperative Extension program. This amount was 9% of the total salaries of approximately \$220,000 charged to the program. Per the above criteria, the maximum allowed for retirement contributions for that salary amount is 5 percent, or approximately \$11,000. The University charged approximately \$14,000 (6 percent) in excess of the maximum allowed.

Context: The University adopted a narrow interpretation of the compliance requirement leading to a conclusion that the requirement was not applicable to all programs under the operation of the Cooperative Extension program at the University of Idaho.

Questioned Cost: Approximately \$14,000.

Effect: The misinterpretation of the federal requirement resulted in the University inappropriately charging the federal program approximately \$14,000 in excess of the allowed costs to Cooperative Extension federal funds for retirement contributions.

Cause: The University did not fully understand the requirement relating to maximum retirement contribution amounts for all the Cooperative Extension federal programs. Consequently, it had not established internal controls to monitor retirement contributions funded directly with federal Cooperative Extension funds.

Recommendation: We recommend the University develop policies and procedures to track compliance with the maximum retirement contribution, as stipulated by the United States Code and USDA Administrative Handbook for the Cooperative Extension program.

View of the Responsible Officials and Planned Corrective Actions: Agree. The University does have policies and procedures in place to track compliance with the maximum retirement contributions for the Cooperative Extension Service (CES) formula funds received but did not realize that competitive grants funded under the program were required to follow the 5% retirement contribution as well. The University has corrected this oversight and is now is charging the correct retirement percentage to these funds. The University will refund all monies owed back to the federal government by October 31, 2009.

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS YEAR ENDED JUNE 30, 2009

FINDING 2008-1 —Payroll: Access Controls

Condition: University employees with access to the Banner timecard system can modify timecards for other employees outside of their department or area of responsibility. Additionally, timecard entry processes are decentralized and data is manually entered by designated timekeepers in the Banner timecard system after it has been approved by department leaders.

Recommendation: While it was reported to us that the University has established detective controls through the use of audit logs and exception reports and that the number of accounts with such access was significantly reduced during the audit period, it is recommended that the University further augment existing manual controls with technology controls to limit account access in conjunction with the web-based timekeeping system planned for calendar year 2008.

Status: During FY2009, the University has undertaken a re-implementation of its Banner payroll system that will include implementation of the Banner Web Time Entry system. These implementation processes will result in each employee being responsible for the entry of her or his timesheet and will establish an online timesheet review process of individual timesheets. Supervisors, managers and other designated approvers will have restricted access to be able to view, review and approve only their specific employees' timesheets. The Banner payroll re-implementation and implementation of the Banner Web Time Entry system is expected to be completed and go live on November 15, 2009.

FINDING 2008-2 – Student Accounts: Segregation of Duties

Condition: Incompatible duties have been assigned in the University's Student Accounts department allowing individuals who have cash handling responsibilities to also record accounting entries.

Recommendation: We recommend the University segregate some of these critical duties in the Student Accounts department to ensure that University funds are not at risk of misuse due to error, theft or fraud.

Status: In FY2009, the workflow was changed in Student Accounts so that there is now a separation of duties in the supervision and review of cashier sessions as well as in the performance of vault and cash drawer counts.

Student Accounts is currently in the process of interviewing to fill an additional cashier position which will remove the need for staff in the office to assist in the cashiering process. This additional position will allow for complete separation of duties between those employees who receive cash and have access to the vault and those employees who supervise and review the cashiering sessions, audit vault and cash drawer counts, and can make account adjustments.

Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2009

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes federal grant activity of the University and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Therefore, some amounts presented on this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. University Administered Loan Programs

The University administers the Federal Perkins Loan Program (CDFA number 84.038). The outstanding student loan balance and total loan disbursements were \$12,115,607 and \$1,839,066 for the year ended June 30, 2009

The above expenditures for the Federal Perkins Loan Program include loans to students and administrative cost allowances. The expenditures reported in the Schedule of expenditures of Federal Awards represent the administrative cost allowance for the year reported. The federal capital contribution was discontinued for FY 2006.

3. Subrecipients Of the federal expenditures presented in the schedule, the University provided federal awards to subrecipients as follows:
