State Code: 01006

Course Code: ENG511

Department: English

Provider: IDLA

Type: AP

Level: College

Syllabus: [View](#)

[Course Overview](#) [Schedule](#) [Requirements & Resources](#)

Write and explore literature at an advanced collegiate level. The first semester is organized by genre: short story, poetry, novels, and drama. Both semesters of AP English are recommended preparation for taking the AP Examination in the spring. The free-response section of the AP English Literature and Composition Examination requires you to write persuasively and read critically. Therefore, you will write frequently during the course. Writing assignments include both timed writings and researched essays. Required Text - AP English eReader - Available through the FLVS Global Storefront at <https://materials.flvsgl.com> \$36.05/student for 12 month access

Idaho State University receives new wireless network technology, now member of Eduroam

January 21, 2016 by ISU Marketing and Communications

POCATELLO—Idaho State University is now a member of the Eduroam global wireless network.

Education Roaming, Eduroam, is a worldwide wireless service developed for the global research and education community. Eduroam allows students, researchers and staff from participating institutions to obtain Internet connectivity when visiting other participating institutions by simply connecting to the eduroam wireless SSID.

EDUROAM WIRELESS NETWORK

Eduroam is an encrypted, secure wireless network.

By configuring eduroam on your device, you will not need to enter your credentials each time you connect to the network.

Eduroam also allows for network authentication and use at any [other participating eduroam locations](#) ¹⁸ using your Boise State credentials, as well as provides access for eduroam customers visiting from participating institutions (visitors should contact their institution for any connection issues).

The screenshot shows the Internet2 website with a navigation bar at the top containing links for research solutions, communities & groups, products & services, vision & initiatives, news & events, and about us. The main heading is 'TRUST AND IDENTITY IN EDUCATION AND RESEARCH'. Below this, there is a sidebar with links for EXECUTIVE INSIGHTS, GOVERNANCE, PARTNERSHIPS, INITIATIVES, and Collaborative Innovation. The main content area features a video player with a play button and a description: 'Watch this "whiteboard video" to see how Internet2's trust and identity framework—including community-developed infrastructure services like InCommon and TIER—allows higher education institutions to offer amazing collaborative experiences, run more efficient and secure IT operations, share improved administrative practices, and enable incredible discoveries.' To the right of the video is an illustration of a university building with the InCommon, Internet2, and TIER logos below it.

The screenshot shows the Internet2 K20 Initiative website. The navigation bar includes links for About the Initiative, Get Involved!, Get Connected!, Contact Us, and News. The main heading is 'ADVANCED NETWORKS ADVANCING COMMUNITIES'. Below this, there is a sidebar with links for ABOUT THE K20 INITIATIVE, WHAT CAN I DO WITH INTERNET2?, IS MY ORGANIZATION CONNECTED?, and a SEARCH bar. The main content area features a video player with a play button and a description: 'The K20 Initiative brings together innovators from the formal and informal education community in the United States and around the world to explore the advanced applications and resources enabled by high performance broadband networks.' To the right of the video is an illustration of a university building with the InCommon, Internet2, and TIER logos below it.

The screenshot shows the Internet2 website with a navigation bar at the top containing links for research solutions, communities & groups, products & services, vision & initiatives, news & events, and about us. The main heading is 'COMANAGE'. Below this, there is a sidebar with links for ADVANCED NETWORKING, CLOUD SERVICES & APPLICATIONS, TRUST & IDENTITY, and CManage. The main content area features a world map with various icons representing different services and a description: 'COManage, a project funded by the NSF and Internet2, is a collaboration management platform that allows organizations to meet their science and research objectives using key collaboration tools in a secure and effective framework.'
