board@osbe.idaho.gov
Public education in Idaho is transforming. Governor Brad Little's "Our Kids, Idaho's Future" Task Force (which I was honored to co-chair) brought forth a list of strategic recommendations developed by Idahoans to further improve our K-12 education system.

The task force worked to build upon recent investment and progress to set the stage for the next five years. The recommendations focused on aligning budgets with priorities including improving student achievement and success, enhancing school safety, supporting our rural and underserved schools and rewarding and retaining our most effective teachers. We held meetings around our state gathering input from parents, educators and elected leaders. The recommendations were delivered to the Governor for his consideration as he continues to build upon system-wide public education improvements made in recent years.

The State Board of Education has been very busy over the last 18 months hiring new presidents at each of our four-year institutions. These exceptional new presidents were selected after nationwide searches, matching the needs of the institutions with the individual skills of the candidates.

These new leaders are making positive differences on each of their campuses. They pledge to work collaboratively with each other and our community colleges to strategically improve efficiencies and outcomes across Idaho’s entire higher education system. In December, the presidents announced a “tuition freeze” in 2020, marking the first time in at least 43 years that tuition and or fees haven’t increased from one year to the next at Idaho’s four-year institutions. This move will benefit students and their families and I commend our presidents for making it happen.

This year our state was recognized for its “outstanding innovations in state education policy” when it received the 2019 Frank Newman Award for State Innovation from the Education Commission of the States. This national award was in recognition of several innovations. Our signature Direct Admissions program automatically admits all graduating high school seniors either to six, or all eight of our higher education institutions. Apply Idaho, a groundbreaking single system-wide online application, enables students to apply to one or more of those institutions free of charge—a streamlined process that takes just minutes. Changing cultural misconceptions about college, and demystifying the college admissions and application processes are hallmarks of these programs.

My Board colleagues and I are proud of these initiatives and recognize the persistent, thoughtful and collaborative work of Idaho’s Office of the State Board of Education, State Department of Education, public colleges and universities, and Idaho Digital Learning Academy, all of whom contributed to the successful deployment of these nation-leading strategies.

A deliberate focus on student success is embedded in the Board’s work. We have improved our board meetings and refined our agendas to emphasize our strategic goals. We want to spend less time on transactional items and more time focusing and discussing tactics that will help us reach our strategic goals.

We are committed to evidence-based student success strategies to help students at our colleges and universities persist, complete their courses, and graduate on time. Our student-centered mindset is also driving strategies to reduce costs to students and to enable students to earn college credit for knowledge and skills they acquired through service in the military or the workplace. The purpose of The Facts is to provide a high-level overview of the data points our Board regularly studies, such as graduation and “go-on” rates from high school to postsecondary programs. More detailed information can be found on the Board’s Data Dashboard at the State Board’s website.

The State Board of Education is “all in” when it comes to the hard and important work of ensuring that the state’s colleges and universities are fulfilling their public mission to provide educational opportunities for all and help meet the talent needs to power the state’s economy.

*Idaho Constitution Article IX, Section 2

“The general supervision of the state educational institutions and public school system of the state of Idaho, shall be vested in a state board of education, the membership, powers and duties of which shall be prescribed by law.”
The NextSteps.Idaho.gov website delivers accurate and simple access to postsecondary options in Idaho, as well as the resources to achieve them. Information about—and direct links to—all of the initiatives listed in this section can be found via Next Steps Idaho.

NEW in 2019:

✈ Grade-specific High School Learning Plans for 8th-12th grade students

*These curated activities fulfill the need for an “8th grade learning plan” as required in administrative rule. Each level can be navigated by students, alone, or incorporated into existing curriculum and led by teachers and counselors.*

✈ Rebranded, interactive resources for college and career information

*Many learning-style, skill-sorting, and money-educating quizzes are already live, with more on the way!* 

This website is developed and maintained with high school students as the primary audience.

NextSteps.Idaho.gov

Next Steps Idaho is becoming a go-to asset in Idaho school districts. It removes barriers and illuminates easy-to-follow pathways that help every young Idahoan achieve their career goals.

**Direct Admissions**

Direct Admissions is an initiative that guarantees each and every Idaho high school graduate has the chance to obtain a postsecondary education. Automatic acceptance into six or more of Idaho’s public colleges and universities is provided, based on a high school senior’s SAT or ACT score and GPA.

Direct Admissions Goals:

✈ ALL students realize that obtaining a higher education degree or certificate is possible.

✈ ALL Idaho college admission processes become easier for Idaho students.

✈ ALL Idaho high school seniors feel encouraged to continue their education after high school.

**Apply Idaho**

The Apply Idaho initiative is a 5-step application that complements the Direct Admissions initiative. Apply Idaho enables Idaho high school seniors to apply to multiple public and private Idaho schools, all at the same time for free. It takes only a few minutes to complete.

Number of Apply Idaho Applications to Each School in the 2019-2020 School Year*

*Number of applications as of December 2019*
FAFSA Web

FAFSA Web is an online tool that allows high school counselors to view their students’ submission statuses for the Free Application for Federal Student Aid (FAFSA), Apply Idaho, and the new Idaho Scholarship Application. Knowing which students have not completed the FAFSA gives high school counselors the information required to provide assistance. Completion of the FAFSA is required to obtain funds to pay for college.

Course Material Availability

Recognizing that course material cost, access, and reliability play significant roles in postsecondary student success, the Board is supporting interinstitutional efforts to adopt no- and low-cost textbooks and other instructional resources in Idaho's common-numbered courses. Backed by a legislative appropriation in 2019, the Board is also coordinating pilot partnerships to develop, evaluate, and share course-specific open textbooks that faculty may adopt across institutions. These initiatives are intended to support the instructional choices of faculty, recognize institutional efforts to share knowledge openly, and improve the availability of course materials to degree-seeking and dual credit students alike.

It's Not Too Late

The It's Not Too Late inaugural campaign hit mailboxes—and inboxes—in the spring of 2019. With it, the State Board of Education appealed to every high school senior who had yet to complete an Apply Idaho application, as well as to those members of the previous years’ graduating class who did not enroll at a postsecondary institution.

The second iteration of this campaign will arrive in the spring of 2020.

Rethinking Remediation Requirements

Students may now enroll in gateway English courses without completing remedial education. This change recognizes that broad support is available for students who need it while enrolled in credit-bearing English courses. Idaho’s public postsecondary institutions are working together to implement similar approaches for the state’s primary gateway math courses: College Algebra, Math in Modern Society, and Statistics. This effort includes college and K–12 faculty working together to align math more effectively throughout the state.
The Idaho Legislature gave each Idaho public school student in seventh through twelfth grade access to $4,125 for advanced opportunities such as dual credit in 2016. Since then, there have been dramatic increases in the number of students participating in dual credit in Idaho.

**Dual Credit**

188 students graduated high school with an associate degree in 2019

The data presented on this page may differ from Dual Credit data from other sources. These data include only the number of dual credits earned and the numbers of students who earned dual credit. Other reports may include dual credits attempted. Furthermore, these data include students who did not use Advanced Opportunities funding to pay for their dual credits. These data only cover Idaho’s public postsecondary institutions (and not any private postsecondary institutions). Finally, the unduplicated total for the system does not equal the sum of the individuals served at each institution because some students take dual credit courses from multiple institutions.

### Students Who Earned Dual Credit at Each Institution in FY 2019*

*Go-on rates are for the fall immediately after high school graduation. National Center for Education Statistics (NCES) locales were used for this analysis. All eleven virtual schools were excluded. The difference was statistically significant (p-value = 0.000).
The Idaho Opportunity Scholarship program was established in recognition that Idaho benefits from an educated citizenry and to provide access to postsecondary education opportunities for economically disadvantaged students.

### Eligibility Requirements
- Current Idaho resident
- Has graduated or will graduate from an accredited Idaho high school
- Is seeking their first undergraduate credential (certificate or degree)
- Has a cumulative unweighted GPA of 2.7 or higher (Adult Learners initial application may have a cumulative unweighted GPA of 2.5)
- Enrolling at an eligible Idaho college or university full-time (Adult Learners may attend part-time)

### New Applicants*

*Offered awards do not include awards that were offered but not accepted

### Adult Learners

- $2,234 was the average amount awarded to adult learners in 2018
- 218 of the 7,541 eligible applicants in 2018 were adult learners
- 146 of the 2,504 offered and accepted scholarships in 2018 were for adult learners

The Opportunity Scholarship is a hybrid merit and need based scholarship. Starting in FY 2019 the Opportunity Scholarship program was expanded to include Adult Learners. Adult Learners are individuals who have some college and no degree.

The Adult Learner provisions of the Opportunity Scholarship program were designed to target the large percentage of Idaho’s population with some college and no certificate or degree. The program provides an opportunity for these individuals to return to college and complete a certificate or degree. Provisions for Adult Learners are targeted to accommodate working adults with families who have already earned 24 or more credits and have taken a break from postsecondary education.

34% of students from the Idaho graduating high school class of 2014 who enrolled in postsecondary education within five years left without earning a certificate or degree.

20% of Idaho’s 25-34 year olds have some college, yet have not completed a certification or degree (based on 2018 data).
74,279 students were enrolled in postsecondary education in FY 2019*

What has been the trend in enrollment over time?

FY 2016: 78,307
FY 2017: 76,529
FY 2018: 75,171
FY 2019: 74,279

Resident vs. Non-resident Enrollment

79% of students at public postsecondary institutions in Idaho were Idaho residents in FY 2019*

The graph below shows the percentages of resident students enrolled at each postsecondary institution in Idaho.

More bachelor degrees were completed in FY 2019 than any other type of degree or certificate

Most graduate degrees completed in FY 2019 were master’s degrees

*Data note: Students could be duplicated across schools. Data does not include dual credit students.
Public four-year postsecondary educational institutions in Idaho have increasingly received a greater percentage of their funding from 
tuition rather than the general fund.

In constant 2019 dollars, tuition and fees for public four-year postsecondary institutions have increased an average of 47% since fiscal year 2008.

In constant 2019 dollars, what was the percentage increase in tuition and fees from fiscal year 2008 to fiscal year 2020 at each public four-year institution?

<table>

In FY 2020, funding was almost $20 million less than pre-recession funding when expressed in constant 2019 dollars.

*Data Note: Appropriations include systemwide appropriations and individual institutional appropriations. Constant dollars are dollars adjusted for inflation.*
Boise State University (BSU) is a Carnegie-classified doctoral research university. It serves more than 24,000 students with its 11 doctoral, 64 master’s, 84 bachelor’s programs, and a robust dual credit program.

The university is located in the state’s capital—the population center of Idaho—and has strong ties to the community, local businesses, government agencies, and non-governmental organizations in the area.

The university is committed to innovative approaches aimed at ensuring that its graduates have the knowledge and skills to succeed far beyond the diploma.

$105,196,800
of the general fund was appropriated to Boise State University in FY 2020

$8,068
was the cost of resident tuition and fees in FY 2020

Tuition Trends
FY 2017: $7,080
FY 2018: $7,326
FY 2019: $7,694
FY 2020: $8,068

Boise State University produced the greatest number of bachelor’s degrees, certificates above a bachelor’s degree, and master’s degrees out of all the public postsecondary institutions in Idaho in FY 2019.

<table>

Boise State University produced the greatest number of bachelor’s degrees, certificates above a bachelor’s degree, and master’s degrees out of all the public postsecondary institutions in Idaho in FY 2019.

Graduates within 100% of Time*
29% (622 out of 2,150) of total first-time, full-time undergraduate degree-seeking students at BSU graduated within four years in FY 2019.

Graduates within 150% of Time*
50% (1,035 out of 2,075) of total first-time, full-time undergraduate degree-seeking students at BSU graduated within six years in FY 2019.

*Reported graduation rates reflect calculations made in late summer 2019, which is prior to the calculation and submission of final rates for federal reporting (which will occur in early 2020). As such, the rates may differ slightly from the final reported graduation rates published in the future.
Idaho State University (ISU) is a Carnegie-classified doctoral research university founded in 1901 that attracts more than 12,000 students from around the world. At the Pocatello main campus and locations in Meridian, Idaho Falls, and Twin Falls, it offers access to high-quality education in more than 250 programs.

The University is the state’s designated lead institution in health professions education. Idaho State faculty and students are leading the way in cutting-edge research and innovation in the areas of energy, health professions, nuclear research, teaching, humanities, engineering, performing and visual arts, technology, biological sciences, pharmacy, and business.

$82,220,400 of the general fund was appropriated to Idaho State University in FY 2020

$7,872 was the cost of resident tuition and fees in FY 2020

Idaho State University produced the greatest number of doctoral degrees out of all public postsecondary institutions in Idaho in FY 2019.

Graduates within 100% of Time*

20% (233 out of 1,169) of total first-time, full-time undergraduate degree-seeking students at ISU graduated within four years in FY 2019.

Graduates within 150% of Time*

35% (371 out of 1,071) of total first-time, full-time undergraduate degree-seeking students at ISU graduated within six years in FY 2019.

*Reported graduation rates reflect calculations made in late summer 2019, which is prior to the calculation and submission of final rates for federal reporting (which will occur in early 2020). As such, the rates may differ slightly from the final reported graduation rates published in the future.
Founded in 1893, Lewis-Clark State College (LCSC) has a long and rich history of serving students and the great state of Idaho. The Lewiston school, which offers two- and four-year degrees in both academic and CTE fields, is guided by its core themes of opportunity, success, and partnerships, and propelled by excellent programs and student services, an emphasis on small classes and experiential learning, and a concerted focus on access and affordability.

With over 130 degrees and certificates, LC State’s unique blend of faculty excellence and affordability offers students—over 70 percent of whom are first-generation—a private school experience at a public school price.

$17,651,800
of the general fund was appropriated to Lewis-Clark State College in FY 2020

$6,982
was the cost of resident tuition and fees in FY 2020

Tuition Trends
FY 2017: $6,120
FY 2018: $6,334
FY 2019: $6,618
FY 2020: $6,982

Most of the credentials awarded by Lewis-Clark State College in FY 2019 were bachelor’s degrees, followed by associate degrees.

Graduates within 100% of Time*
18% (91 out of 503) of total first-time, full-time undergraduate degree-seeking students at LCSC graduated within four years in FY 2019.

Graduates within 150% of Time*
31% (138 out of 446) of total first-time, full-time undergraduate degree-seeking students at LCSC graduated within six years in FY 2019.

*Reported graduation rates reflect calculations made in late summer 2019, which is prior to the calculation and submission of final rates for federal reporting (which will occur in early 2020). As such, the rates may differ slightly from the final reported graduation rates published in the future.
The University of Idaho (UI), home of the Vandals, is Idaho’s land-grant, national research university. From its residential campus in Moscow, U of I serves the state through educational centers in Boise, Coeur d’Alene and Idaho Falls, a research and Extension center in Twin Falls, plus Extension offices in 42 counties. Home to more than 12,000 students statewide, U of I is a leader in student-centered learning and excels at interdisciplinary research, service to businesses and communities, and in advancing diversity, citizenship and global outreach.

University of Idaho offers 300 academic programs including majors, minors and certificates.

$94,545,800

of the general fund was appropriated to the University of Idaho in FY 2020

$8,304

was the cost of resident tuition and fees in FY 2020

Tuition Trends
FY 2017: $7,232

College of Eastern Idaho (CEI, formerly EITC) is Idaho’s newest comprehensive community college. The new college now offers academic associate of arts and science degrees with transferable general education credits. Another new opportunity is Early College Programs for high school students. CEI continues to offer career technical programs, basic skills instruction, workforce training or continuing education, and online learning.

The college was created in 1969 to serve citizens in a nine-county service area. Now CEI’s mission enlarges to provide open-access to affordable, quality education that meets the needs of students, regional employers, and the community.

$5,272,700 of the general fund was appropriated to College of Eastern Idaho in FY 2020

$3,096 was the cost of resident tuition and fees in FY 2020 for students taking 24 credits

College of Eastern Idaho saw a 57 percent increase in the number of associate degrees awarded in FY 2019, up from 93 associate degrees in FY 2018.

Graduates within 100% of Time*

50% (67 out of 134) of total first-time, full-time undergraduate degree-seeking students at CEI graduated within two years in FY 2019.

Graduates within 150% of Time*

53% (38 out of 72) of total first-time, full-time undergraduate degree-seeking students at CEI graduated within three years in FY 2019.

*Reported graduation rates reflect calculations made in late summer 2019, which is prior to the calculation and submission of final rates for federal reporting (which will occur in early 2020). As such, the rates may differ slightly from the final reported graduation rates published in the future.
The nearly 350-acre College of Southern Idaho (CSI) campus, in Twin Falls, was established in 1965. Satellite campuses operate in Burley, Hailey, Gooding, and Jerome. Students can choose from a wide range of transfer and career technical tracks with more than 120 program options ranging from short-term certificates to two-year associate degrees.

CSI is the first community college in the state of Idaho to offer a bachelor’s degree in Advanced Food Technology.

Basic skills, workforce training, economic development, and enrichment programs are also available to students and, often, to community members.

$14,426,700 of the general fund was appropriated to the College of Southern Idaho in FY 2020
$3,360 was the cost of resident tuition and fees in FY 2020 for students taking 24 credits

Tuition Trends
FY 2017: $3,120
FY 2018: $3,120
FY 2019: $3,360
FY 2020: $3,360

Median debt of students who have completed:
$9,750
Median debt of students who left school without completing:

In FY 2019, most credentials awarded by the College of Southern Idaho were associate degrees. The College of Southern Idaho awarded the second-highest number of associate degrees out of all public postsecondary institutions in Idaho in FY 2019.

Graduates within 100% of Time*

18% (109 out of 605) of total first-time, full-time undergraduate degree-seeking students at CSI graduated within two years in FY 2019.

Graduates within 150% of Time*

29% (181 out of 629) of total first-time, full-time undergraduate degree-seeking students at CSI graduated within three years in FY 2019.

*Reported graduation rates reflect calculations made in late summer 2019, which is prior to the calculation and submission of final rates for federal reporting (which will occur in early 2020). As such, the rates may differ slightly from the final reported graduation rates published in the future.
The College of Western Idaho is located in the Treasure Valley—the state’s cultural and economic hub—which is nationally recognized as a great place to live, work, and get an education. Celebrating 10 years of student success, CWI is the largest community college in Idaho.

Whether taking classes at the Boise-Nampa campus or online, CWI offers an affordable education with low cost per credit and access to scholarships and financial aid. With a full range of two-year degrees and career technical certificates that fully transfer to a university or directly into the workforce, the quality of education at CWI creates tremendous opportunities.

$15,317,000 of the general fund was appropriated to the College of Western Idaho in FY 2020.

$3,336 was the cost of resident tuition and fees in FY 2020 for students taking 24 credits.

Out of all public postsecondary institutions in Idaho, the College of Western Idaho awarded the greatest number of associate degrees and certificates of less than one year in FY 2019.

North Idaho College

North Idaho College (NIC) meets the diverse educational needs of residents of Idaho’s five northern counties with a relentless focus on the student experience.

As a comprehensive community college, NIC provides accessible, affordable, quality learning experiences, while offering the communities it serves opportunities for cultural enrichment, and civic and economic engagement.

Founded in 1933, with its main campus in Coeur d’Alene, NIC’s commitment to student success, educational excellence, and lifelong learning is reflected in its state-of-the-art facilities and the wide spectrum of academic transfer and career and technical education programs it offers.

$12,695,400 of the general fund was appropriated to North Idaho College in FY 2020

$3,396 was the cost of resident tuition and fees in FY 2020 for students taking 24 credits

Tuition Trends
FY 2017: $3,288
FY 2018: $3,360
FY 2019: $3,396
FY 2020: $3,396

Out of all public postsecondary institutions in Idaho, North Idaho College awarded the greatest number of certificates of at least one year in FY 2019.
