THE FACTS
Facts about Idaho's public education system
For two straight years, overall student enrollment numbers at Idaho’s higher education institutions have moved in a positive direction. Dual credit and nonresident students are driving the upward trajectory. However, the COVID-19 pandemic disruption aftershocks continue to reverberate as resident student enrollment at our public colleges and universities has dropped 12% since 2018.

The State Board of Education’s resident tuition freeze, in place now for three years, continues to make college affordable for all Idahoans. The College Board recently ranked Idaho as the sixth most affordable state for average resident tuition at a public four-year institution. Last year, Idaho was ranked seventh lowest.

Idaho students pay nearly 20% less to attend a four-year institution than students in other states who are enrolled at comparable institutions. Students enrolled in our community colleges pay approximately 25% less than students in neighboring states attending comparable two-year institutions.

My fellow State Board of Education members and I remain committed to encouraging many more of our high school graduates to pursue postsecondary education and training. The need for an educated workforce is not specific to Idaho. States and higher education institutions throughout the country are experiencing a softening of postsecondary enrollment.

Idaho’s community colleges and four-year institutions are working hard to recruit resident students, to make sure they are aware of the improved prospects a degree or certificate can mean for them personally, and to give them the education and training they need to succeed in Idaho’s workforce.

A college education at an Idaho public institution really is a great bargain, and it pays dividends in many different forms – to the individual, their family, and the economic and social fabric of Idaho.

I come from the business world and know how important a skilled workforce is to our state’s industry and overall economy. Our citizens benefit when they have the skills and knowledge to become an effective member of Idaho’s workforce. Equally important, higher education helps fulfill an important tenet of the Idaho Constitution – “the stability of a republican form of government depends on the intelligence of its people…”.

In addition to the education-related data presented in the 2022 edition of The Facts, this publication is also designed to give an overview of State Board of Education initiatives and programs, and updates on where they stand.

For example, the Idaho School Safety and Security Program conducts safety and security assessments of every school building in the state on a rolling three-year basis to identify potential vulnerabilities and provide evidence-based support. The staff also manage the See, Tell, Now! confidential reporting tipline that can connect people who have information with people who can intervene and prevent school violence like what happened in Rigby. Over ninety school districts and charter schools are now enrolled and promoting the See, Tell, Now! program.

Online Idaho, the Board’s digital higher education campus, is progressing well, and an online course exchange involving all eight public institutions will be ready this spring. The purpose of Online Idaho is to increase access to postsecondary learning opportunities to all Idahoans no matter where they live.

We’ve been through challenging times these past three years. Idaho’s K-12 public education system fared better than most other states during the pandemic because we collectively prioritized in-person learning, but we still have COVID-related challenges to address - learning loss and the social and emotional health of our students being at the top of the list.

Governor Little and the Idaho Legislature made significant investments in public education throughout 2022, and I look forward to working with our new Superintendent of Public Instruction Debbie Critchfield and other elected leaders and stakeholders to put those added dollars to good use.

I sincerely believe that we are positioned to make significant strides in 2023 to further address learning loss and bring our students back to where they should be.

*The general supervision of the state educational institutions and public school system of the state of Idaho, shall be vested in a state board of education, the membership, powers and duties of which shall be prescribed by law.*

**Each community college has its own locally elected board of trustees.*
KEEPING STUDENTS SAFE

The Idaho School Safety and Security Program Aims to Keep Idaho Students Safe By:

Managing a Statewide Safety Tipline
Students and others can report safety concerns through the statewide "See, Tell, Now!" tipline. Call the tipline at 888-593-2835 or file a report online by visiting: SeeTellNow.com

Analyzing Critical Events
If a critical event such as a school shooting does occur, program employees analyze the event and produce a report identifying strategies to prevent future occurrences.

Conducting On-Site Safety and Security Assessments
Employees of the program conduct on-site assessments of schools to identify potential vulnerabilities. Within the last assessment cycle, employees conducted over 700 assessments. Learn more about the assessments by visiting: SchoolSafety.dbs.Idaho.gov/assessments-inspections/

Supporting Education Staff
Through the program, education staff can gain access to safety and security experts and learn best practices to improve school safety.

IMPROVING ACCESS TO EDUCATION DATA

The Idaho State Board of Education Data Dashboard Showcases K-12 and Postsecondary Data
Dashboard.BoardofEd.Idaho.gov is a dashboard that provides data about topics ranging from the college-going rates of high school students to the graduation rates of postsecondary students. Users can compare college-going rates of high schools with schools that have similar characteristics and see how four-year postsecondary institutions compare with their peers on a number of data points.

SUPPORTING WORKFORCE READINESS

Next Steps Idaho Simplifies College and Career Development
NextSteps.Idaho.gov is a free research tool built and maintained by the Office of the Idaho State Board of Education, with heavy backing from the Idaho Workforce Development Council. The website offers free self-assessments; hundreds of job cards with data from the Idaho Department of Labor; in-state program and school directories; and acres of interactive, step-by-step guides for continuing education and funding opportunities.

Free student portfolios and dashboards allow educators to monitor each student’s progress toward career readiness. As of November 2022—11 months after the feature first debuted—256 Idaho high schools have registered for accounts. That’s more than 60% of Idaho high schools.
ADVANCING EDUCATIONAL ATTAINMENT

Direct Admissions Idaho Proactively Admits Idahoans to College and Training Programs

Direct Admissions Idaho proactively admits ALL Idaho public high school seniors to a minimum of 6 Idaho colleges and universities each year. An annual Board-approved benchmark determines each student’s admission eligibility; for the 2022-2023 academic year that cut score was a 2.6 unweighted high school GPA.

In 2022, over 23,000 Idaho high school seniors received their Direct Admissions invitation by mail or were able to view it by creating an account with Apply Idaho. All notifications encourage students to research the academic and career technical programs offered at Idaho community colleges and universities.

NOTE: Direct Admissions recipients are still obligated to “claim their spot” by submitting an admission application to the institution of their choice by June 30, 2023.

Apply Idaho Makes Applying to Postsecondary Institutions Easier

Apply Idaho is a free, common application platform for up to 10 Idaho colleges. Open October through June, this application is ONLY available to current-year Idaho high school seniors.

Each year, more than 12,000 Idaho seniors (consistently over 50% of the statewide cohort) use this platform to apply to Idaho’s public colleges and universities. This online application process is secure and streamlined, typically taking only 5 minutes to complete.

Scholarship Idaho Streamlines Applications to Idaho’s State-Managed Scholarships

Scholarship Idaho is a single, common application for 8 state-managed scholarships. Eligibility is determined in real-time and backed by school-reported data.

As of November 2022, over 7,000 students (of all ages) used Scholarship Idaho to apply for financial aid to support their in-state college or career school ambitions. 100% of the qualifying applicants who applied for the state’s largest scholarship fund—the Idaho Opportunity Scholarship—received award offers for eligible Idaho institutions during the 2022-2023 academic year.

Counselor Suite Idaho Helps Counselors Help Students

Counselor Suite Idaho provides easy-to-read tables and data visualizations that document students’ progress toward continuing education ‘checkpoints.’ The Suite evaluates preparedness and potential for a postsecondary transition using four unique metrics: 1) completion of the Free Application for Federal Student Aid (FAFSA), 2) type of Direct Admissions Idaho letter received, 3) completion of one or more Apply Idaho applications, and 4) completion of one or more Scholarship Idaho applications.

This platform is not available to students; it is only available to high school counselors, career and college advisors, TRiO advisors, GEAR UP coordinators, and/or administrative or teaching faculty who are responsible for the career readiness of Idaho high school seniors.

Online Idaho Increases Higher Education Access and Affordability

Online Idaho is a digital campus collaboratively driven by Idaho’s 8 public institutions and the Board of Education to increase access to postsecondary learning opportunities, accommodate all learners regardless of their circumstances, advocate for effective and quality online instruction, and pioneer pathways toward lifelong learning and earning. The initiative has secured access to a statewide learning management system and has built an online course exchange that will be publicly available in Spring 2023 at Online.Idaho.edu.
Starting in fiscal year 2017, each Idaho public school student in grades 7-12 was given access to $4,125 for Advanced Opportunities such as dual credit. Since then, there have been dramatic increases in the number of students participating in dual credit in Idaho.

**Data Notes**

- The data presented on this page may differ from dual credit data from other sources for the following reasons:
  - **Earned vs. Attempted Credits.** The data shown only includes the number of dual credits earned or the number of students who earned dual credit. Other reports may include dual credits attempted.
  - **Private vs. Public College and Universities.** These data only cover Idaho’s public colleges and universities, NOT private colleges and universities.
  - **Payment Method.** These data also include students who did not use Advanced Opportunities funding to pay for their dual credit courses.

- The unduplicated total for the system does not equal the sum of the individuals served at each institution because some students take dual credit courses from multiple institutions.
- Data published in this publication may differ from data published in previous publications due to reporting enhancements.
Graduation Rates

80%

of students who started 9th grade in the fall of 2017 in Idaho graduated high school in 2021*

*Data exclude students who transferred out, emigrated out, or died during the 2017-2021 school years. Students who transferred in during the 2017-2021 school years are included in the data.

Direct Admissions Idaho

Direct Admissions Idaho is a Board program that admits ALL Idaho public high school seniors to at least 6 in-state colleges and universities. Students receiving a “Letter of 8” are guaranteed admission into any of Idaho’s public institutions after they apply, while those receiving a “Letter of 6” can only be admitted into Idaho State University’s academic programs, Boise State University, and University of Idaho under the regular admissions process.

Apply Idaho

Apply Idaho is a free, common application platform for up to 10 in-state colleges.

11,354 students (about 50% of Idaho high school seniors) applied to college using Apply Idaho in 2022.
Postsecondary Enrollment Rates

Fall-Immediate Rates
38% of the graduating class of 2021 in Idaho immediately enrolled in postsecondary education in the fall after high school graduation. While this was not a statistically significant decrease from 2020, it was a statistically significant decrease from 2019.

Three-Year Rates
The table below shows postsecondary enrollment rates for Idaho high school graduates enrolling in postsecondary education within three years after high school graduation.

NOTE: Not enough time has passed to understand how COVID-19 may have affected three-year postsecondary enrollment rates.

Postsecondary Enrollment Rates by Gender and Free or Reduced-Price Lunch Eligibility
Historically, there are gaps in the postsecondary enrollment rates between males and females and between students who are eligible for free or reduced-price lunch (FRPL) and students not eligible for FRPL.

After COVID-19, these gaps narrowed. Enrollment rates declined more for females than males and declined more for students not eligible for FRPL than students eligible for FRPL. In other words, the gaps narrowed because the higher performing group was affected more by COVID-19 than the lower performing group.

Male vs. Female

Free or Reduced-Price Lunch Eligible vs. Not Eligible*

*Grades 9 through 12 are used to determine eligibility. Excluded are students in schools where everybody receives free lunch without an individual application.
The Idaho Opportunity Scholarship program is a state-managed scholarship program established in recognition that Idaho benefits from an educated citizenry and to provide access to postsecondary education opportunities for economically disadvantaged students.

Max Award Amount in 2022: $3,500

### Myth: Only students eligible for a Federal Pell Grant get an award.

**Fact:** Anyone who has graduated (or will graduate) from an eligible Idaho high school and has a high school (or college) GPA of at least a 2.7 can apply and will be eligible as long as they complete the FAFSA.

### Myth: Only high school seniors get an award.

**Fact:** Anyone who has graduated (or will graduate) from an eligible Idaho high school, has a high school (or college) GPA of at least a 2.7, and has completed the FAFSA can apply and will be eligible for an award.

### Myth: Students with high GPAs do not get an award.

**Fact:** Most 2022 first round recipients had a GPA of 3.7 or higher. 53% of 2022 first round recipients had a GPA of 3.7 or higher whereas only 34% of eligible high school graduates in 2022 had a GPA of 3.7 or higher.

Total 2022 Awards: 12,546

- 3,180 renewal awards in 2022
- 6,273 total awards in 2022
- 3,093 new awards in 2022

- 15% GPA: 2.7-3.19
- 33% GPA: 3.2-3.69
- 53% GPA: 3.7-4.0

42% of 1st round recipients in 2022 were not Pell-eligible (had no financial need)

58% of 1st round recipients in 2022 were Pell-eligible (had “high” or “some” financial need)

- 42% No Need
- 31% Some Need
- 27% High Need

72% of 1st round recipients in 2022 were high school seniors

28% of 1st round recipients in 2022 were not high school seniors

47%* of 1st round recipients in 2022 had GPAs lower than a 3.7

53% of 1st round recipients in 2022 had GPAs 3.7 or higher

*Subtotals may not add to total due to rounding

% Change From Fall 2018 to Fall 2022

Overall enrollment, dual credit enrollment, and nonresident student enrollment have increased from Fall 2018. However, resident student enrollment has decreased since Fall 2018.

**Legislative General Fund Appropriations for Idaho Public Four-Year Institutions**

-4% decrease from $331,822,800 in FY23 to $346,348,403 in FY2022.

**Average Resident Tuition for Idaho Public Four-Year Institutions**

-12% decrease from $9,024 in FY23 to $7,928 in FY2022.

Recent inflation has changed the trajectory of both general fund appropriations and resident tuition for Idaho’s public four-year institutions. When measured in constant dollars, general fund appropriations have decreased 4% since FY2020. Likewise, when measured in constant dollars, tuition has decreased 12% since FY2020 when the Board instituted a tuition freeze.
Boise State University, a Carnegie-classified doctoral university with high research activity, has been named one of the Top 50 Most Innovative National Universities by U.S. News and World Report, a distinction which highlights the institution's character and success. The university serves more than 32,000 students annually and offers programs in nearly 200 fields of study, delivering 103 distinct bachelor's degrees, nearly 70 master's degrees, as well as education specialist degrees and doctoral degrees.

Located in the state's vibrant capital city, Boise State connects students to a wide array of opportunities in the community, with local businesses, high tech companies, government agencies, and non-governmental organizations in Idaho and across the region. From groundbreaking research to how faculty and staff are re-imagining higher education, Boise State leverages its exciting environment and strong commitment to student success to make an impact on each individual and on the state.

GRADUATION RATES IN FY 2022*

Graduates Within Four Years (100% of Time)

- 41% (1,145 out of 2,766) of total first-time, full-time bachelor's degree-seeking students at BSU graduated with a bachelor's degree within four years.

Graduates Within Six Years (150% of Time)

- 59% (1,490 out of 2,519) of total first-time, full-time bachelor's degree-seeking students at BSU graduated with a bachelor's degree within six years.

FY 2022 ENROLLMENT

- Resident Students: 22,036
- Non-Resident Students: 10,328

Enrollment by Student Type:

- Dual Credit / Early College Students: 6,535
- Degree-Seeking Undergraduate Students: 19,506
- Graduate Students: 3,793
- Other Non-Degree Seeking Students: 2,530
- Total Students: 32,364

FY 2023 APPROPRIATIONS

- $120,502,400 of the general fund was appropriated to Boise State University in FY 2023.

FY 2023 FULL-TIME RESIDENT TUITION & FEES**

- $8,364 was the cost of resident tuition and fees in FY 2023 for students taking 24 credits.

Trends

- FY 2020: $8,068
- FY 2021: $8,060
- FY 2022: $8,060
- FY 2023: $8,364

†Credentials awarded reflect the highest credential awarded to each student and, therefore, do not reflect all credentials awarded.

*The 100% and 150% graduation measures cover different groups of students. The 100% shows students who first enrolled in fall 2018, while the 150% shows students who first enrolled in fall 2016. Reported graduation rates reflect calculations made in late summer 2022, which is prior to the calculation and submission of final rates for federal reporting (which will occur in early 2023). As such, final graduation rates reported in the future may differ slightly from this publication.

**Amounts are expressed in nominal terms.
Idaho State University is one of the most comprehensive higher education institutions in the country, and is one of only six universities in the U.S. to offer programs from technical certificates through graduate and professional degrees. The Carnegie-classified doctoral research and teaching university attracts more than 10,000 students from around the world to its main campus in Pocatello and locations in Meridian, Idaho Falls, and Twin Falls. Since 1966, the University has been Idaho’s designated leader for training and educating health care professionals. Idaho State is leading the way in energy, health professions, nuclear research, humanities, engineering, performing and visual arts, technology, biological sciences, pharmacy, and business.

GRADUATION RATES IN FY 2022*

Graduates Within Four Years (100% of Time)

- 20% (228 out of 1,157) of total first-time, full-time bachelor’s degree-seeking students at ISU graduated with a bachelor’s degree within four years.

Graduates Within Six Years (150% of Time)

- 34% (390 out of 1,141) of total first-time, full-time bachelor’s degree-seeking students at ISU graduated with a bachelor’s degree within six years.

FY 2023 APPROPRIATIONS**

$90,068,200 of the general fund was appropriated to Idaho State University in FY 2023.

FY 2023 FULL-TIME RESIDENT TUITION & FEES***

$7,958 was the cost of resident tuition and fees in FY 2023 for students taking 24 credits.

Trends

- FY 2020: $7,872
- FY 2021: $7,872
- FY 2022: $7,872
- FY 2023: $7,958

*Credentials awarded reflect the highest credential awarded to each student and, therefore, do not reflect all credentials awarded.

**The 100% and 150% graduation measures cover different groups of students. The 100% shows students who first enrolled in fall 2018, while the 150% shows students who first enrolled in fall 2016. Reported graduation rates reflect calculations made in late summer 2022, which is prior to the calculation and submission of final rates for federal reporting (which will occur in early 2023). As such, final graduation rates reported in the future may differ slightly from this publication.

***General fund appropriations listed do not include general funds appropriated for Career Technical Education.

***Amounts are expressed in nominal terms.
Lewis-Clark State College is Idaho’s school of choice for a small, private school experience at a public school price. LC State students are Idahoans (79%), financial aid recipients (81%), and many are first-generation. LC State proudly serves them with small class sizes, faculty excellence, and a firm focus on connecting learning to life.

Founded in 1893, LC State offers over 130 degrees and certificates in both academic and CTE fields, and is Idaho’s most accessible and affordable public four-year institution. With over 20 bachelor’s degrees fully online, the Lewiston school is proud to be a state leader in online education and in serving non-traditional students.

The University of Idaho is a leading economic driver in the state, with over $120 million in grants and contracts focused on issues critical to Idaho. We have, three years in a row, ranked #1 Best Value in the West by U.S. News and World Report, made possible by the more than $50 million in scholarships and grants awarded to students annually. Sixty percent of new freshmen had Idaho residency. As Idaho's land-grant Carnegie-classified doctoral research institution, we serve every county through our Extension system that touches all 44 counties, seven research and Extension Centers located in agricultural production lands, and education centers in Boise, Coeur d'Alene, Idaho Falls and McCall. This ensures we achieve our mission of serving all the citizens of the state through education, outreach and research. We teach tomorrow's leaders and answer questions that help Idaho's industries thrive.

The College of Eastern Idaho’s students are Idaho’s best investment. They are at the heart of everything CEI does. CEI empowered 21,248 bright Idaho futures in 2022.

CEI consistently delivers stellar, in-demand education. Employers agree, as shown by CEI’s 97% positive placement rate for CTE. CEI’s student body is 97% Idahoan. CEI invites our community to learn here, earn here, and build prosperous lives here. It’s working. More students have chosen CEI every year.

CEI ensures that students don’t just enroll; they thrive. 19.6% of CEI’s 2022 graduates arrived at CEI without a GED, literacy skills, or other foundational abilities. With CEI’s support, they now have college credentials. CEI’s graduates are ready to change the trajectories of their lives and generations that follow. CEI’s students’ success pays exponential dividends on Idaho’s investment.

The College of Southern Idaho’s mission is “to provide quality educational, social, cultural, economic, and workforce development opportunities that meet the diverse needs of the communities it serves.” The college offers a wide range of transfer and career-technical education programs along with workforce training opportunities throughout its service area. CSI also contributes to the quality of life in the Magic Valley by offering various cultural, enrichment, and athletic events, and through its support of economic development. In 2021, CSI became Idaho’s first public Hispanic Serving Institution.

Located in the Treasure Valley, College of Western Idaho (CWI) is the largest community college in Idaho, serving more than 30,000 students (including over 9,000 students in Adult Education and Workforce Development in addition to the enrollment numbers outlined below). CWI has a variety of course options to meet the growing community’s needs, allowing for added flexibility and choices for students. Unbeatable value, coupled with access, provides an exceptional educational experience at CWI. As a model for higher education, CWI empowers students to be bold. College of Western Idaho is committed to empowering students to succeed by providing affordable and accessible education to advance the local and global workforce. CWI has not raised tuition or fees in seven years. In keeping the per-credit cost low and supporting access to scholarships and financial aid, CWI is truly a great value for Idaho students. College of Western Idaho has nearly 90 programs for students to explore. With a full range of two-year degrees and career-technical certificates that fully transfer to a university or directly into the workforce, students have a wide array of choices for their future.

North Idaho College

North Idaho College (NIC), founded in 1933, serves approximately 5,700 students and thousands more community learners each year through diverse educational offerings, including courses and programs for academic transfer, career and technical education, workforce training, apprenticeships, social programs and continuing and developmental education.

NIC’s commitment to student success and life-long learning is reflected in the broad range of degree and certificate programs it offers, and in the opportunities for cultural enrichment and civic and economic engagement NIC makes available to the communities it serves.

NIC plays a pivotal role in meeting the workforce needs of businesses in its region.
