

Literacy Intervention Tools
APPROVED VENDOR LIST
Effective July 1, 2023

The Literacy Intervention Tools Approved Vendor List request for proposals (RFP) and annual effectiveness reviews are a process outlined in Idaho statute. This process is designed to provide information to local education agencies about available computer-based literacy intervention programs to support K-3 students. Vendors that provide resources to be used by teachers or paraprofessionals in-person and those with products focused above grade three are not considered for the Approved Vendor List.

Vendor Name	Program	Effectiveness Review Result	Website
Curriculum Associates	i-Ready Reading	Remain on List	curriculumassociates.com
Imagine Learning	Imagine Learning & Literacy	Remain on List	imaginelearning.com
Istation	Istation	Remain on List	istation.com
Lexia Learning Systems	Core5 Reading	Remain on List	lexialearning.com
Reading Horizons	Discovery	N/A (FY 25 Effectiveness Review)	readinghorizons.com
Renaissance	Freckle ELA	Remain on List, probationary	renaissance.com
Savvas Learning	SuccessMaker	Reinstate to List	savvas.com
Tinylvy	Tinylvy Phonics System (TIPS)	N/A (FY 24 Effectiveness Review)	tinylvy.com
Waterford Research Institute (Waterford)	Waterford ELA	Remain on List, probationary	waterford.org

Notes

- The list above is organized alphabetically and does not reflect rank or scores from the Literacy Intervention Tools RFP Response Review Process.
- Districts or schools may request the vendor's RFP Response and/or Scoring Rubric.
- The MobyMax ELA program (mobymax.com) was previously placed on the Approved Vendor List. Due to inadequate data for the FY 23 Effectiveness Review, OSBE staff was unable to determine whether MobyMax can be considered effective. Thus, MobyMax does not qualify for the Approved Vendor List for 2023-24. The program will be reconsidered if adequate K-3 data is supplied during any future Effectiveness Review.
