

Idaho Incubation Fund Program

Progress Report Form

Proposal No. IF15-001
Name: Dr. Greg Hampikian
Name of Institution: Boise State University
Project Title: Nullmer Anticancer Peptides
Reporting Period: July 1, 2014 to November 30, 2014

Information to be reported in your progress report is as follows (attach additional information as needed):

1. Summary of project accomplishments for the period just completed and plans for the coming reporting period:
We completed the initial testing of the drugs against 60 cancers. We have developed an algorithm to assess each drug's strength against the 60 tumor types. We are preparing a manuscript, which describes the drugs effects (for submission early in the new year).
2. Summary of budget expenditures for the period just completed (include project burn rate):
Salary and Fringe: \$6,366.66 Burn Rate: 12.67%
3. Numbers of faculty and student participation resulting from the funding, including internships:
Dr. Abdelkrim Alileche, Assistant Research Professor
4. List patents, copyrights, plant variety protection certificates received or pending:
The university is preparing a response to patent examiner questions. There are concerns about prior art, prior disclosure, and the University's limited resources. We are negotiating presently.
5. List technology licenses signed and start-up businesses created:
6. Status of private/industry partnerships (include enough information to judge level of engagement): Discussed the application with a group of investors, they are reviewing our disclosure.
7. Any other pertinent information that will indicate to the council that the project is meeting satisfactory progress. We have sought funding from three grant applications during this period, but were not successful (NIH, Pardee Foundation).
