BOARD APPROVES BOISE STATE REQUEST TO INITIATE PROBATE PROCEEDINGS

The Idaho State Board of Education today approved a request by Boise State University to begin formal probate proceedings related to property left to the University by a donor who passed away nearly three years ago.

University leaders recently learned that the donor had gifted a small apartment complex located in Ada County to Boise State. Board approval is required for an institution to initiate probate proceedings if the value of the gift exceeds \$200,000.
