Three-Year Plan

Planning and Delivery of Postsecondary Programs

The State Board of Education established in alignment with Board Policy III.Z., a comprehensive process for the planning and delivery of postsecondary education. Consistent with this policy, institutions create an institution plan that describes all current programs and proposed programs to be offered in alignment with each institution's Statewide and Service Region Program Responsibilities. The process requires that institutions provide a level of programmatic information for each current program being offered and for each proposed program as part of the three-year plan development.

Statewide Program Responsibility

In accordance with Board Policy III.Z.1.i, Statewide Program Responsibility shall mean an institution's responsibility to offer and deliver a Statewide Program in all regions of the state. Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.

Service Region Program Responsibility

In accordance with Board Policy III.Z.1.g, Service Region Program Responsibility shall mean an institution's responsibility to offer and deliver a Service Region Program to meet regional educational and workforce needs in its primary service region as defined in subsection 2.b.ii.1) and 2) below. Service Region Program Responsibilities are assigned to the Designated Institution in each service region but may be offered and delivered by Partnering Institutions in accordance with the procedures outlined in this policy.

The Three-Year Plan consists of proposed programs institutions have identified they will pursue over a three-year period. As proposed programs are developed, institutions must follow the program review process and procedures provided in Board Policy III.G, Postsecondary Program Approval and Discontinuance to acquire appropriate approvals prior to implementation of programs. If the program is to be delivered outside the institution's service region, a Memorandum of Understanding must be developed and agreed upon in cooperation with the Board's Chief Academic Officer prior to implementation.

The Plan also consists of a complete program inventory of programs currently being offered by Idaho's public postsecondary institutions. Programs are listed by CIP code and then alphabetically by institution. The list includes programs, options, and degrees offered through various departments and colleges.

Consistent with Board Policy III.Z., the Plan is updated on an annual basis. It is intended that the Three-Year Plan will provide guidance to the State Board of Education in its planning and coordination of educational programs.

Delivery of Programs

Consistent with Board Policy III.Z., “Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.” The statewide program list is updated by the Board every two years.

| Occupational Therapy | OTD, professional entry level doctorate | Regions III and V | Regional | 2024-2025 | Transition the current Master of Occupational Therapy to a Doctor of Occupational Therapy. There will be a transition period where students enrolled in the Master's program will have the choice to complete the Master's or to apply credits to the Doctoral program. The Master's program would eventually be discontinued, although the timing of that discontinuation is not clear. We will consider current student needs, market demand, and the accreditor's response to the upgrade to the doctoral program before closing the Master's program. The new Doctoral Program will continue the same entry level criteria, with added requirements as specified by the accreditor and as needed, based on ongoing program evaluation. We anticipate an increase of about 16 to 20 credits and one semester (i.e., small increase in credits for the current 8-semester program, plus an additional summer semester.) MOD: face-to-face and synchronous online | Combination of new funds, grants, and student professional fees will support the program upgrade. Students will continue to pay Graduate tuition and fees plus program Professional Fee . Upgrade from Master's to Doctorate will require tuition and professional fees for one extra semester . 3 FTE faculty positions will be requested. Estimated enrollment of 40 students per year, starting in summer 2025. ACOTE is accrediting body for the profession. ACOTE has a stated intention of seeing all programs convert to clinical doctorate as the entry level degree. | | | Research/Exploration |
