

|| E-rate Discount Matrix

Update your LEA's E-rate Discount data each Winter during the limited "Administrative Window." USAC must validate this data prior to committing funds.

To request a state validation letter, contact dvogt@edu.idaho.gov

To calculate discount through NSLP or surveys, use the "FRL" and "Total Enrolled" data reported to ISEE in the most recent May upload. Divide "FRL" by "Total Enrolled" and refer to the matrix.

To calculate discount through CEP or Provision II, first calculate the "FRL" by multiplying your base year "Direct Certification" by 1.6. Then, divide the FRL by Total Enrolled and refer to the matrix.

	Category 1 / 2	
FRL Percentage	Urban	Rural
Less than 1%	20%	25%
1% to 19%	40%	50%
20% to 34%	50%	60%
35% to 49%	60%	70%
50% to 74%	80%	80%
75% to 100%	90% / 85%	90% / 85%

Category 2 budgets are fixed between 2021 through 2025 and will not change if your discount changes.

Schools are allowed to request a budget recalculation once in the 5-year cycle. Please contact dvogt@edu.idaho.gov for more information.
