Section 6. EPP s Continuous Improvement & Progress on (advanced level) Phase-in Plans and (initial-licensure level) Transition Plans

2024 Annual Accreditation Report : Annual Accreditation Report :
Section 6. EPP s Continuous Improvement & Progress on (advanced level) Phase-in Plans and (initial-licensure level) Transition Plans

6.1. Summarize any data-driven EPP-wide or programmatic modifications, innovations, or changes planned, worked on, or completed in the last academic year.

This is an opportunity to share targeted continuous improvement efforts your EPP is proud of. Focus on one to two major efforts the EPP made and the relationship among data examined, changes, progress with any Transition Plans (initial-licensure level) and/or Phase-in Plans (advanced level), and studying the results of those changes.

During the last academic year, the Advanced Programs conducted a comprehensive curriculum review to ensure alignment with A.1.1 Standards. This review involved analyzing data on student performance, stakeholder feedback, and emerging trends in the field. Through this process, it became evident that there was a need to enhance curriculum to better emphasize data literacy skills. As a direct outcome of this review, additional assignments were developed to provide students with opportunities to demonstrate their proficiency in data literacy. These assignments were carefully designed to integrate real-world data sets and scenarios relevant to their future professional practice. By doing so, we aimed to equip our students with the necessary skills to analyze, interpret, and apply data effectively in their respective fields. Moreover,

this modification aligns with our ongoing commitment to continuous improvement and meeting the evolving needs of our students and the education landscape. Moving forward, we will continue to monitor and assess the impact of these modifications to ensure that our students are well-prepared for success in their careers and make meaningful contributions to their respective fields. In addition, the EPP identified the necessity to introduce a mid-point check for the Internship Portfolio within the Advanced Programs. Recognizing the importance of this component in showcasing students' practical skills and experiences, we saw an opportunity to enhance its effectiveness through structured milestones. This mid-point check serves as a crucial progress assessment, allowing students to receive timely feedback and guidance on their internship experiences. By implementing this checkpoint, we aim to ensure that students are actively reflecting on their learning journey and making meaningful connections between theory and practice. The introduction of this checkpoint enables us to monitor students' progress more effectively and intervene if necessary to provide additional support or resources. In light of recent global events and the evolving educational landscape, including the rise of hybrid learning models, learning loss mitigation, and heightened moral and ethical dilemmas in K-12 education, the Advanced Programs faculty has recognized the imperative to adapt our educational leadership preparation accordingly. Thus, we have embarked on an initiative to convene an expert panel of practitioners and other educational stakeholders. This panel will examine our current assignments to ensure they effectively reflect and address these multifaceted challenges. The decision to convene this expert panel stems from a data-driven approach that acknowledges the shifting demands and complexities within the educational field. By examining trends, feedback from clinical partners and stakeholders, and emerging challenges, we identified a critical need to update our curriculum to better equip educational leaders for the realities of contemporary practice. We anticipate that the insights gleaned from this collaborative effort will inform targeted modifications to our curriculum. By integrating the expertise and perspectives of practitioners and other educational stakeholders, we aspire to enhance the relevance and effectiveness of our educational leadership preparation programs.

AR Reviewer Question 6. Has the EPP shared its continuous improvement initiatives, AND (if applicable) provided CAEP with an update regarding the EPP's progress on its advanced level phase-in plans and/or initial level transition plans?
